## 321N.7 Identification of drivers and vehicles.

Before a transportation network company rider enters the personal vehicle of a transportation network company driver, the transportation network company shall disclose all of the following information to the rider on the company's digital network:

1. A picture that prominently displays the face of the driver.

2. The make, model, and registration plate number of the personal vehicle used by the driver.

2016 Acts, ch 1101, §12, 24
