

455H.207 Response action — permitting requirements.

1. A participant who would be otherwise required to obtain a permit, license, plan approval, or other approval from the department under any provision of the Code may obtain a consolidated standards permit for the activities in connection with the response action for which the permit, license, plan approval, or other approval is required. The consolidated standards permit shall encompass all the substantive requirements applicable to those activities under any applicable federal or state statute, rule, or regulation and any agreements the director had entered into with the United States environmental protection agency under those statutes, rules, or regulations.

2. In addition to any other notice or hearing requirements of relevant chapters, at least ten days prior to issuing a permit under [this section](#), the director shall publish a notice of the proposed permit which contains a general description of the activities to be conducted in the affected area under the permit. The notice shall be published in the official newspaper, as designated by the county board of supervisors pursuant to [section 349.1](#), of the county in which the site is located. A person may submit written or oral comments on or objections to the permit. After considering the comments and objections, the director shall approve or deny the application for the consolidated standards permit.

3. A participant issued a consolidated standards permit under [this section](#) in connection with a particular activity is not required to obtain a permit, license, plan approval, or other approval from the department in connection with any activity under the applicable provisions of the Code or rules. A participant who obtains a consolidated standards permit for a particular activity is deemed to be in compliance with the requirement to obtain from the department a permit, license, plan approval, or other approval in connection with the activity under the applicable provisions of the Code or rules. A violation of the conditions of the consolidated standards permit shall be deemed to be a violation of the applicable statute, rule, or regulation under which approval of activities in connection with a response action would have been required and is subject to enforcement in the same manner and to the same extent as a violation of the applicable statute, rule, or regulation would have been.
