

**481C.2A Deer depredation management program — licenses and permits.**

1. Deer depredation licenses shall be available for issuance as follows:
  - a. Deer depredation licenses shall be available for issuance to resident hunters.
  - b. Depredation licenses issued pursuant to [this subsection](#) shall be valid to harvest antlerless deer only. Depredation licenses that are issued to a landowner and family members as defined in [section 483A.24](#) shall be in addition to the number of free licenses that are available for issuance to such persons under [section 483A.24](#). A landowner or a family member may obtain one free depredation license for each deer hunting season that is established by the commission. Deer may be harvested with a rifle pursuant to a depredation license in any area and in any season where the commission authorizes the use of rifles.
  - c. Licenses issued pursuant to [this subsection](#) may be issued at any time to a resident hunter who has permission to hunt on the land for which the license is valid pursuant to [this subsection](#).
  - d. A producer who enters into a depredation agreement with the department of natural resources shall be issued a set of authorization numbers. Each authorization number authorizes a resident hunter to obtain a depredation license that is valid only for taking antlerless deer on the land designated in the producer's depredation plan. A producer may transfer an authorization number issued to that producer to a resident hunter who has permission to hunt on the land for which the authorization number is valid. An authorization number shall be valid to obtain a depredation license in any season. The provisions of this paragraph shall be implemented by August 15, 2008. A transferee who receives an authorization number pursuant to this paragraph "d" shall be otherwise qualified to hunt deer in this state, purchase a hunting license that includes the wildlife habitat fee, and pay the one dollar fee for the purpose of the deer herd population management program.
2. Deer shooting permits shall be available for issuance as follows:
  - a. Deer shooting permits shall be available for issuance to landowners who incur crop, horticultural product, tree, or nursery damage as provided in [section 481C.2](#) and shall be available for issuance for use on areas where public safety may be an issue.
  - b. Deer shooting permits issued pursuant to [this subsection](#) shall be valid and may be used outside of established deer hunting seasons.
3. Notwithstanding [section 481C.2, subsection 3](#), a producer shall not be required to erect or maintain fencing as a requisite for receiving a deer depredation permit or for participation in a deer depredation plan pursuant to [this section](#).
4. A person who harvests a deer with a deer depredation license or a deer shooting permit issued pursuant to [this section](#) shall utilize the deer harvest reporting system set forth in [section 483A.8A](#) and shall not be subject to different disposal or reporting requirements than are applicable to the harvest of deer pursuant to other deer hunting licenses except that any antlers on a deer taken pursuant to a shooting permit shall be delivered to the local conservation officer for disposal.
5. The department shall administer and enforce the administrative rules concerning deer depredation, including issuance of deer depredation licenses and deer shooting permits, that are established by the commission.
6. The department shall make educational materials that explain the deer depredation management program available to the general public, and available specifically to farmers and farm and commodity organizations, in both electronic and brochure formats.
7. The department shall conduct outreach programs for farmers and farm and commodity organizations that explain the deer depredation management program. The department shall develop, by rule, a master hunter program and maintain a list of master hunters who are available to assist producers in the deer depredation management program by increasing the harvest of antlerless deer on the producer's property.
