

103.14 Alarm installations.

A person who is not licensed pursuant to [this chapter](#) may plan, lay out, or install electrical wiring, apparatus, and equipment for components of alarm systems that operate at seventy volt/amps (VA) or less, only if the person is certified to conduct such work pursuant to [chapter 100C](#). Installations of alarm systems that operate at seventy volt/amps (VA) or less are subject to inspection by state inspectors as provided in [section 103.31](#), except that reports of such inspections, if the installation being inspected was performed by a person certified pursuant to [chapter 100C](#), shall be submitted to the state fire marshal and any action taken on a report of an inspection of an installation performed by a person certified pursuant to [chapter 100C](#) shall be taken by or at the direction of the state fire marshal, unless the installation has been found to exceed the authority granted to the certificate holder pursuant to [chapter 100C](#) and therefore to be in violation of [this chapter](#).
