707C.3 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Human reproductive cloning"* means human asexual reproduction, using somatic cell nuclear transfer, for implantation or attempted implantation into a woman's uterus or substitute for a woman's uterus. *"Human reproductive cloning"* does not include somatic cell nuclear transfer performed for the purpose of creating embryonic stem cells.

2. "Human somatic cell" means a diploid cell having a complete set of chromosomes obtained or derived from a living or deceased human body at any stage of development.

3. "Oocyte" means a human ovum.

4. *"Somatic cell nuclear transfer"* means a technique in which the nucleus of a human somatic cell is injected or transplanted into a fertilized or unfertilized oocyte from which the nucleus has been removed.
