In order to develop and retain program jobs within the state, an agreement entered into under [section 260G.3](#) may include a provision for program job credits based on program jobs identified in the agreement. If a program provides that part of the program costs are to be met by receipt of program job credits, the method to be used shall be as follows:

2. Eligibility for program job credits shall be based on certification of program job positions and program job wages by the employer at the time established in the agreement. This allocation shall be used by each community college to provide funding for approved programs. For the fiscal year beginning July 1, 2002, and for every fiscal year thereafter, the economic development authority shall divide equally among the community colleges thirty percent of the program job credits available for that fiscal year for allocation to each community college to be used to provide funding for approved programs. If any portion of the allocation to a community college under [this subsection](#) has not been committed by April 1 of the fiscal year for which the allocation is made, the uncommitted portion is available for use by other community colleges. Once a community college has committed its allocation for any fiscal year under [this subsection](#), the community college may receive additional program job credit allocations from those program job credits authorized and still available for that fiscal year.
