

521G.5 Establishment of protected cells.

1. A protected cell company may establish one or more protected cells with the prior written approval of the commissioner of a plan of operation or amendments to such plan submitted by the protected cell company with respect to each protected cell related to an insurance securitization. The plan shall include, but not be limited to, the specific business objectives and investment guidelines of the protected cell company. Upon the written approval of the commissioner of the plan of operation, the protected cell company, consistent with the approved plan of operation, may attribute to the protected cell insurance obligations with respect to its insurance business and obligations relating to the insurance securitization and assets to fund the obligations. A protected cell shall have its own distinct name or designation, which shall include the words “protected cell”. The protected cell company shall transfer all assets attributable to a protected cell to one or more separately established and identified protected cell accounts bearing the name or designation of that protected cell. Protected cell assets shall be held in the protected cell accounts for the purpose of satisfying the obligations of that protected cell.

2. Attribution of assets and liabilities between a protected cell and the general account shall be pursuant to the plan of operation. Other attribution of assets or liabilities shall not be made by a protected cell company between the protected cell company’s general account and its protected cells. The attribution of assets and liabilities between the general account and a protected cell, or from investors in the form of principal on a debt instrument issued by a protected cell company in connection with a protected cell company insurance securitization transaction, shall be in cash or in readily marketable securities with established market values.

3. The creation of a protected cell does not create, with respect to that protected cell, a legal person separate from the protected cell company. An amount attributed to a protected cell under [this chapter](#), including assets transferred to a protected cell account, is owned by the protected cell company and the protected cell company shall not be, or hold itself out to be, a trustee with respect to those protected cell assets of that protected cell account. Notwithstanding [this subsection](#), a protected cell company may permit a security interest to attach to protected cell assets or a protected cell account which is in favor of a creditor of the protected cell company and otherwise allowed under applicable law.

4. [This chapter](#) shall not be construed to prohibit the protected cell company from contracting with or arranging for an investment advisor, commodity trading advisor, or other third party to manage the protected cell assets of a protected cell, provided that all remuneration, expenses, and other compensation of the third-party advisor or manager are payable from the protected cell assets of that protected cell and not from the protected cell assets of other protected cells or the assets of the protected cell company’s general account.

5. *a.* A protected cell company shall establish administrative and accounting procedures necessary to properly identify the protected cells of the protected cell company and the protected cell assets and protected cell liabilities attributable to the protected cells. The board of directors of a protected cell company shall do both of the following:

(1) Keep protected cell assets and protected cell liabilities separate and separately identifiable from the assets and liabilities of the protected cell company’s general account.

(2) Keep protected cell assets and protected cell liabilities attributable to one protected cell separate and separately identifiable from protected cell assets and protected cell liabilities attributable to other protected cells.

b. Tracing shall be applicable to protected cell assets when commingled with protected cell assets of other protected cells or the assets of the protected cell company’s general account. The remedy of tracing shall not be construed as an exclusive remedy.

6. A protected cell company, when establishing a protected cell, shall attribute to the protected cell assets a value at least equal to the reserves and other insurance liabilities attributed to that protected cell.

[2000 Acts, ch 1046, §5](#)

For future repeal of this section, effective January 1, 2025, see 2023 Acts, ch 107, §30
