## 8B.22 Digital government.

- 1. The office is responsible for initiating and supporting the development of electronic commerce, electronic government, mobile applications, and internet applications across participating agencies and in cooperation with other governmental entities.
  - 2. In developing the concept of digital government, the office shall do all of the following:
- a. Establish standards, consistent with other state law, for the implementation of electronic commerce, including standards for electronic signatures, electronic currency, and other items associated with electronic commerce.
  - b. Establish guidelines for the appearance and functioning of applications.
  - c. Establish standards for the integration of electronic data across state agencies.
- d. Foster joint development of electronic commerce and electronic government involving the public and private sectors.
- e. Develop customer surveys and citizen outreach and education programs and material, and provide for citizen input regarding the state's electronic commerce and electronic government applications.
- f. Assist participating agencies in converting printed government materials to electronic materials which can be accessed through an internet searchable database.
- g. Encourage participating agencies to utilize duplex printing and a print on demand strategy to reduce printing costs, publication overruns, excessive inventory, and obsolete printed materials.
