

136B.3 Testing and reporting of radon level.

The department or its duly authorized agents shall from time to time perform inspections and testing of the premises of a property to determine the level at which it is contaminated with radon gas or radon progeny as a spot-check of the validity of measurements or the adequacy of abatement measures performed by persons certified or credentialed under [section 136B.1](#). Following testing the department shall provide the owner of the property with a written report of its results including the concentration of radon gas or radon progeny contamination present, an interpretation of the results, and recommendation of appropriate action. A person certified or credentialed under [section 136B.1](#) shall also be advised of the department's results, discrepancies revealed by the spot-check, actions required of the person, and actions the department intends to take with respect to the person's continued certification or credentialing.
