

637.302 Apportionment of receipts and disbursements when decedent dies or income interest begins.

1. An income receipt or disbursement other than one to which [section 637.201, subsection 1](#), applies must be allocated to principal if its due date occurs before a decedent dies in the case of an estate, or before an income interest begins in the case of a trust or successive income interest.

2. An income receipt or disbursement must be allocated to income if its due date occurs on or after the date on which a decedent dies or an income interest begins and it is a periodic due date. An income receipt or disbursement must be treated as accruing from day to day if its due date is not periodic or it has no due date. The portion of the receipt or disbursement accruing before the date on which a decedent dies or an income interest begins must be allocated to principal and the balance must be allocated to income.

3. An item of income or an obligation is due on the date on which the payor is required to make a payment. If there is no stated payment date, there is no due date for the purposes of [this chapter](#). Distributions to shareholders or other owners from an entity to which [section 637.401](#) applies are deemed to be due on the date fixed by the entity for determining who is entitled to receive the distribution or, if no date is fixed, on the declaration date for the distribution. A due date is periodic for receipts or disbursements that must be paid at regular intervals under a lease or an obligation to pay interest or if an entity customarily makes distributions at regular intervals.
