

709D.2 Definitions.

As used in [this chapter](#), unless the context otherwise requires:

1. “*Contagious or infectious disease*” means hepatitis in any form, meningococcal disease, AIDS or HIV as defined in [section 141A.1](#), or tuberculosis.
2. “*Exposes*” means engaging in conduct that poses a substantial risk of transmission.
3. “*Practical means to prevent transmission*” means substantial good-faith compliance with a treatment regimen prescribed by the person’s health care provider, if applicable, and with behavioral recommendations of the person’s health care provider or public health officials, which may include but are not limited to the use of a medically indicated respiratory mask or a prophylactic device, to measurably limit the risk of transmission of the contagious or infectious disease.
