

104A.5 Buildings in process of construction.

The standards and specifications set forth in [this chapter](#) shall be adhered to in those buildings and facilities under construction on July 4, 1965, unless the authority responsible for the construction shall determine the construction has reached a state where compliance will result in a substantial increase in cost or delay in construction.

[C66, 71, 73, 75, 77, 79, 81, §104A.5]
