

139A.32 Examination results from laboratory — report.

A person in charge of a public, private, or hospital clinical laboratory shall report to the department, on forms prescribed by the department, results obtained in the examination of all specimens which yield evidence of or are reactive for those diseases defined as sexually transmitted diseases or infections, and listed in the Iowa administrative code. The report shall state the name of the infected person from whom the specimen was obtained, the address of the infected person, the infected person's date of birth, the sex of the infected person, the race and ethnicity of the infected person, the infected person's marital status, the infected person's telephone number, if the infected person is female, whether the infected person is pregnant, the name and address of the laboratory that performed the test, the laboratory results, the test employed, the date the test was found to be positive and the collection date, the name of the health care provider who performed the test, and the name and address of the person submitting the specimen.
