

15.525 Reporting requirements.

1. A qualified business shall report annually to the authority all of the following:
 - a. The total amount of investment made in research and development.
 - b. The qualified location in this state where the research and development occurred.
 - c. The number of jobs created, wages paid, and employee residence locations.
2. The authority shall include as part of the annual report under [section 15.107B](#) an annual report of the activities conducted pursuant to [this part](#).
3. The authority shall report all information in an aggregate form to prevent, as much as possible, information being attributable to any particular qualified business.
