

155A.2B Practice of pharmacy — general principles.

To evaluate whether an act by a licensee or registrant under [this chapter](#) violates the appropriate standard of care, a licensee or registrant of the board must consider all of the following:

1. Whether performance of the act is expressly prohibited by a provision of [this chapter](#).
2. Whether performance of the act is expressly prohibited by a rule adopted by the board.
3. Whether performance of the act is consistent with the education, training, and experience of a licensee or registrant.
4. Whether performance of the act is within the accepted standard of care that would be provided in a similar setting by a reasonable and prudent licensee or registrant with similar education, training, and experience.
