

155A.33A Technician product verification programs.

1. A pharmacist in charge of a pharmacy located in this state may formally establish a technician product verification program to optimize the provision of pharmacist patient care services. The board may require a pharmacist in charge intending to implement a technician product verification program to submit a program plan for board consideration and approval. The plan shall demonstrate that onsite practice hours for a pharmacist will not be reduced but will be redistributed directly to patient care activities.

2. The board shall adopt rules for the development, implementation, and oversight of technician product verification programs. The rules shall address program policy and procedures, pharmacist and pharmacy technician training, program quality assurance and evaluation, recordkeeping, redistribution of pharmacist activities, and other matters necessary for the development, implementation, and oversight of the program.
