GENERAL PROVISIONS

This chapter may be cited as the “*Iowa Higher Education Loan Authority Act*”.

[[82 Acts, ch 1031, §1](#)]

Referred to in [§261A.24](#)

261A.2 Declaration of purpose.

It is declared that for the benefit of the people of the state of Iowa, the conduct and increase of their commerce, the protection and enhancement of their welfare, the development of continued prosperity and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the fullest opportunity to learn and to develop their intellectual and mental capacities and skills; that to achieve these ends it is of the utmost importance that students attending institutions of higher education located in Iowa have reasonable financial alternatives to enhance their access to such institutions; that

reasonable financial access to institutions of higher education will assist youth in achieving the optimum levels of learning and development of their intellectual and mental capacities and skills; that it is the purpose of [this chapter](#) to provide a measure of assistance and an alternative method to enable students and the families of students attending institutions of higher education located in Iowa to appropriately and prudently finance the cost or a portion of the cost of higher education; and that it is the intent of [this chapter](#) to supplement federal guaranteed higher education loan programs, other student loan programs, and grant or scholarship programs to provide the needed additional options for the financing of a student's higher education in execution of the public policy set forth above.

261A.3 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa, for the improvement of their education, health and welfare, and for the promotion of the economy, which are public purposes.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by [this chapter](#).
3. There exists a serious problem in this state regarding the ability of students to obtain financing for the cost of education beyond the high school level.
4. Escalating costs of securing such an education have contributed to the difficulties faced by students in attempting to finance an education.
5. Without public action as contemplated by [this chapter](#), many students will be forced to postpone or abandon plans for obtaining additional education.
6. It is in the interests and welfare of the citizens of the state to provide a means for assisting students to continue their education.
7. Without public action as contemplated by [this chapter](#), the inability to obtain educational financing will result in declining enrollments at institutions of higher education.
8. It is necessary to create a higher education loan authority to encourage the investment of private capital in the provision of funds for the financing of student loans.
9. All of the purposes stated in [this section](#) are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

SUBCHAPTER II

HIGHER EDUCATION FACILITIES PROGRAM

261A.32 Legislative findings.

The general assembly finds:

1. For the benefit of the people of the state of Iowa, the increase of their commerce, welfare, and prosperity, and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the greatest opportunity to learn and to fully develop their intellectual and mental capacities and skills.

2. To achieve these ends it is of the utmost importance that educational institutions within the state be provided with appropriate additional means of assisting the youth in achieving the required levels of learning and development of their intellectual and mental capacities and skills through new or enhanced physical facilities and equipment at these institutions.

3. The financing and refinancing of educational facilities, through means as described in [this subchapter](#), other than the appropriation of public funds to institutions, is a valid public purpose.

However, the money set aside in a fund or funds pledged for any series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from money pledged for another series or issue of obligations of the authority. To facilitate the combining of projects, obligations may be issued in series under one or more resolutions or trust agreements and may be fully open-ended, thus providing for the unlimited issuance of additional series, or partially open-ended, limited as to additional series. The authority may permit an institution to substitute one or more projects of equal value, as determined by an independent appraiser satisfactory to the authority, for a project financed under [this subchapter](#) on terms and subject to conditions the authority prescribes.

261A.41 Expenses.

Expenses incurred in carrying out [this subchapter](#) are payable solely from funds provided under [this subchapter](#) and a liability or obligation shall not be incurred by the authority beyond the extent to which money is provided under [this subchapter](#).

[85 Acts, ch 210, §11; 2017 Acts, ch 54, §76](#)

261A.42 Obligations.

1. The authority may provide by resolution for the issuance of obligations for the purpose of paying, refinancing, or reimbursing all or part of the cost of a project. Except to the extent payable from payments to be made on federally guaranteed securities as provided in [section 261A.45](#), the principal of and the interest on the obligations shall be payable solely out of the revenue of the authority derived from the project to which they relate and from other facilities pledged or made available for this purpose by the institution for whose benefit the obligations were issued. The obligations of each issue shall be dated, shall bear interest at rate or rates, without regard to any limit contained in any other statute or law of the state, and shall mature at times not exceeding forty years from the date of issuance, all as determined by the authority; and may be made redeemable before maturity at the prices and under terms fixed by the authority in the authorizing resolution.

2. Except as otherwise provided by [this subchapter](#), the obligations are to be paid solely out of the revenue of the project to which they relate and, in certain instances, out of the revenue of certain other facilities, and subject to [section 261A.45](#) with respect to a pledge of government securities, the obligations may be unsecured or secured in the manner and to the extent determined by the authority. The authority shall determine the form of the obligations, including interest coupons, if any, to be attached, and shall fix the denominations of the obligations and the places of payment of principal and interest which may be at any bank or trust company within or without the state. The obligations and coupons attached, if any, shall be executed by the manual or facsimile signatures of officers of the authority designated by the authority. If an official of the authority whose signature or a facsimile of whose signature appears on any obligations or coupons ceases to be an official before the delivery of the obligations, the signature or facsimile, nevertheless, is valid and sufficient for all purposes the same as if the individual had remained an official of the authority until delivery. Obligations issued under [this subchapter](#) have all the qualities and incidents of negotiable instruments, notwithstanding this payment from limited sources and without regard to any other law. The obligations may be issued in coupon or in registered form, or both, and one form may be exchangeable for the other in the manner as the authority may determine. Provision may be made for the registration of any coupon obligations as to principal alone and also as to both principal and interest, and for the reconversion into coupon obligations of any obligations registered as to both principal and interest. The obligations may be sold in the manner, either at public or private sale, as the authority determines.

3. The proceeds of the obligations of each issue shall be used solely for the payment of

the cost of the project for which the obligations have been issued, and shall be disbursed in the manner and under the restrictions, if any, as the authority provides in the resolution authorizing the issuance of the obligations or in the trust agreement provided for in [section 261A.44](#) securing the obligations. If the proceeds of the obligations of an issue, by error of estimates or otherwise, are less than the costs, additional obligations may in like manner be issued to provide the amount of the deficit, and, unless otherwise provided in the resolution authorizing the issuance of the obligations or in the trust agreement securing them, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the obligations first issued. If the proceeds of the obligations of an issue shall exceed the cost of the project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for the obligations. Prior to the preparation of definitive obligations, the authority may, under like restrictions, issue interim receipts or temporary obligations, with or without coupons, exchangeable for definitive obligations when the obligations have been executed and are available for delivery.

4. The authority may also provide for the replacement of obligations which become mutilated or are destroyed or lost. Obligations may be issued under [this subchapter](#) without obtaining the consent of an officer, department, division, commission, board, bureau, or agency of the state, and without other proceedings or conditions other than those which are specifically required by [this subchapter](#). The authority may purchase its bonds out of funds available for that purpose. The authority may hold, pledge, cancel, or resell the obligations, subject to and in accordance with any agreement with the obligation holders. Members of the authority and any person executing the obligations are not liable personally on the obligations or subject to personal liability or accountability by reason of the issuance of the obligations.

2. Setting aside reserves or sinking funds, and the regulation, investment, and disposition of them.
3. Limitations on the use of the project.
4. Limitations on the purpose to which or the investments in which the proceeds of sale of an issue of obligations then or thereafter to be issued may be applied and pledging the proceeds to secure the payment of the obligations or an issue of the obligations.
5. Limitations on the issuance of additional obligations, the terms upon which additional obligations may be issued and secured, and the refunding of outstanding obligations.
6. The procedure, if any, by which the terms of any contract with obligation holders may be amended or abrogated, the amount of obligations the holders of which must consent to the amendment or abrogation, and the manner in which the consent may be given.
7. Limitations on the amount of money derived from the project to be expended for operating, administrative, or other expenses of the authority.
8. Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of the holders in the event of a default.
9. Mortgaging a project and the project site or other property for the purpose of securing the obligation holders.
10. Other matters relating to the obligations which the authority deems desirable.

1. Obligations issued under [this subchapter](#) may be secured by a trust agreement by and between the authority and an incorporated trustee, which may be a trust company or bank having the powers of a trust company within or without the state. The trust agreement or the

resolution providing for the issuance of the obligations may pledge or assign the revenue to be received or proceeds of any contract pledged and may convey or mortgage the project or any portion of the project.

2. A pledge or assignment made by the authority pursuant to [this section](#) is valid and binding from the time that the pledge or assignment is made, and the revenue pledged and thereafter received by the authority is immediately subject to the lien of the pledge or assignment without physical delivery or any further act. The lien of the pledge or assignment is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority irrespective of whether the parties have notice of the lien.

3. The resolution or trust agreement by which a pledge is created or an assignment made shall be filed or recorded in the records of the authority, with the secretary of state, and in each county in which the project is located.

4. The trust agreement or resolution providing for the issuance of the obligations may contain provisions for protecting and enforcing the rights and remedies of the obligation holders as are reasonable and proper, not in violation of law, or provided for in [this subchapter](#). A bank or trust company incorporated under the laws of this state which acts as depository of proceeds of the obligations, revenue, or other money shall furnish the indemnifying obligations or pledge the securities as required by the authority. The trust agreement may set forth the rights and remedies of the obligation holders and of the trustee, and may restrict the individual right of action by obligation holders. The trust agreement or resolution may contain other provisions the authority deems reasonable and proper for the security of the obligation holders.

5. Expense incurred in carrying out the trust agreement or resolution may be treated as a part of the cost of the operation of a project.

An agreement entered into pursuant to [this section](#) may contain provisions deemed necessary or desirable by the authority for the security or protection of the authority or the holders of the obligations, except that the authority, prior to making an acquisition, commitment, or loan, shall determine and enter into an agreement with the institution or another appropriate institution to require that the proceeds derived from the acquisition of a federally guaranteed security will be used, directly or indirectly, for the purpose of financing or refinancing a project.

3. The obligations issued pursuant to [this section](#) shall not exceed in principal amount the cost of financing or refinancing the project as determined by the participating institution and approved by the authority, except that the costs may include, without limitation, all costs and expenses necessary or incidental to the acquisition of or commitment to acquire a federally guaranteed security and to the issuance and obtaining of insurance or guarantee of

an obligation issued or incurred in connection with a federally guaranteed security. In other respects the bonds are subject to [this subchapter](#), and the trust agreement creating the bonds may contain provisions set forth in [this subchapter](#) as the authority deems appropriate.
