28F.1 Scope of chapter — limitations.

1. This chapter provides a means for the joint financing by public agencies of works or facilities useful and necessary for the collection, treatment, purification, and disposal in a sanitary manner of liquid and solid waste, sewage, and industrial waste, facilities used for the conversion of solid waste to energy, gasworks and facilities useful for the delivery of natural gas service, and also electric power facilities constructed within the state of Iowa, except that hydroelectric power facilities may also be located in the waters and on the dams of or on land adjacent to either side of the Mississippi or Missouri river bordering the state of Iowa, water supply systems, swimming pools or golf courses. This chapter applies to the acquisition, construction, reconstruction, ownership, operation, repair, extension, or improvement of such works or facilities, by a separate administrative or legal entity created pursuant to chapter 28E or chapter 389. When the legal entity created under this chapter is comprised solely of cities, counties, and sanitary districts established under chapter 358, or any combination thereof or any combination of the foregoing with other public agencies, the entity shall be both a corporation and a political subdivision with the name under which it was organized. The legal entity may sue and be sued, contract, acquire and hold real and personal property necessary for corporate purposes, adopt a corporate seal and alter the seal at pleasure, and execute all the powers conferred in this chapter.

2. A city shall not join an entity created under this chapter for the purpose of financing electric power facilities unless that city had established a municipal electric utility as of July 1, 1984. Power supplied by a municipal power agency shall not be furnished to a municipal utility not existing as of July 1, 1984.
