### 88.1 Public policy.

It is the policy of this state to assure so far as possible every working person in the state safe and healthful working conditions and to preserve human resources by:

1. Encouraging employers and employees in their efforts to reduce the number of occupational safety and health hazards at their places of employment, and to stimulate employers and employees to institute new and perfect existing programs for providing safe and healthful working conditions.

2. Providing that employers and employees have separate but dependent responsibilities and rights with respect to achieving safe and healthful working conditions.

3. Authorizing the labor commissioner to set mandatory occupational safety and health standards applicable to businesses, and by providing for an adjudicatory process through the employment appeal board within the department of inspections, appeals, and licensing for carrying out adjudicatory functions under [this chapter](#).

4. Building upon advances already made through employer and employee initiative for providing safe and healthful working conditions.

5. Providing for research in the field of occupational safety and health, including the psychological factors involved, and by developing innovative methods, techniques, and approaches for dealing with occupational safety and health problems.

6. Exploring ways to discover latent diseases, establishing causal connections between diseases and work in environmental conditions, and conducting other research relating to health problems, in recognition of the fact that occupational health standards present problems often different from those involved in occupational safety.

7. Providing medical criteria which will assure insofar as practicable that no employee will suffer diminished health, functional capacity or life expectancy as a result of the employee's work experience.

8. Providing for training programs to increase the number and competence of personnel engaged in the field of occupational safety and health.

9. Providing for the development and promulgation of occupational safety and health standards.

10. Providing an effective enforcement program which shall include a prohibition against giving advance notice of any inspection and sanctions for an individual violating this prohibition.

11. Providing for appropriate reporting procedures with respect to occupational safety and health which procedures will help achieve the objectives of [this chapter](#) and accurately describe the nature of the occupational safety and health problem.

12. Encouraging joint labor-management efforts to reduce injuries and disease arising out of employment.

13. Devoting adequate funds to the administration and enforcement of occupational safety and health standards and rules promulgated by the labor commissioner.

Referred to in [§88.7, 88.14](#)

#### 88.5 Occupational safety and health standards.

1. *Promulgation of rules.* The commissioner shall, by rule, promulgate standards as needed to conform state occupational safety and health standards to federal occupational safety and health standards. The commissioner shall follow the rulemaking procedures of [chapter 17A](#), and shall file a notice of intended action within ninety days of federal publication of a new, amended, or revoked federal standard.

2. *Toxic materials and other harmful physical agents.* The commissioner, in promulgating standards dealing with toxic materials or harmful physical agents under [this subsection](#), shall set the standard which most adequately assures, to the extent feasible, on the basis of the best available evidence, that no employee will suffer material impairment of health or functional capacity even if such employee has regular exposure to the hazard dealt with by such standard for the period of the employee’s working life. Development of standards under [this subsection](#) shall be based upon research, demonstrations, experiments, and such other information as may be appropriate, but in any event shall conform with the provisions of [subsection 1 of this section](#). In addition to the attainment of the highest degree of health and safety protection for the employee, other considerations shall be the latest available scientific data in the field, the feasibility of the standards, and experience gained under this and other health and safety laws. Whenever practicable, a standard promulgated shall be expressed in terms of objective criteria and of the performance desired.

3. *Temporary variances.*

a. Any employer may apply to the commissioner for a temporary order granting a variance from a standard or any provision thereof promulgated under [this section](#). Such temporary order shall be granted only if the employer files an application which meets the requirements of paragraph “b” of [this subsection](#) and establishes that the employer is unable to comply with the standard by its effective date because of unavailability of professional or technical personnel or of materials and equipment needed to come into compliance with

the standards or because necessary construction or operation of the facilities cannot be completed by the effective date, that the employer is taking all available steps to safeguard the employer's employees against the hazards that are covered by the standard, and that the employer has an effective program for coming into compliance with this standard as quickly as practicable. Any temporary order issued under this paragraph shall prescribe the practices, means, methods, operations, and processes which the employer must adopt and use while the order is in effect and state in detail the employer's program for coming into compliance with the standard. Such a temporary order may be granted only after notice to employees and an opportunity for a hearing, provided that the commissioner may issue one interim order to be effective until a decision is made on the basis of the hearing. No temporary order may be in effect longer than the period needed by the employer to achieve compliance with the standard, or one year, whichever is shorter except that such an order may be renewed not more than twice so long as the requirements of this paragraph are met and an application for renewal is filed at least ninety days prior to the expiration date of the order. No interim renewal of an order may remain in effect for longer than one hundred and eighty days.

b. An application for a temporary order under [this subsection](#) shall contain:

(1) A specification of the standard or portion thereof from which the employer seeks a variance.

(2) A representation by the employer, supported by representations from qualified persons having firsthand knowledge of the fact represented, that the employer is unable to comply with the standard or portion thereof and a detailed statement of those reasons therefor.

(3) A statement of the steps the employer has taken and will take, with specific dates, to protect employees against the hazard covered by the standard.

(4) A statement of when the employer expects to be able to comply with the standard and what steps the employer has taken and what steps the employer will take, with dates specified, to come into compliance with the standard.

(5) A certification that the employer has informed the employer's employees of any application by giving a copy thereof to their authorized employee representative, posting a statement giving a summary of the application and specifying where a copy may be examined at the place or places where notices to employees are normally posted, and by other reasonably appropriate means as may be directed by the commissioner.

(6) A description of how employees have been informed shall be contained in the certification. The information to employees shall also inform them of their right to petition the commissioner for a hearing.

4. *Labels, warnings, protective equipment.* Any standard promulgated under [this section](#) shall prescribe the use of labels or other appropriate forms of warning as are necessary to insure that employees are apprised of all hazards to which they are exposed, relevant symptoms and appropriate emergency treatment, and proper conditions and precautions of safe use or exposure. Where appropriate, such standard shall also prescribe suitable protective equipment and control or technological procedures to be used in connection with such hazards and shall provide for monitoring or measuring employee exposure at such locations and intervals, and in such manner as may be necessary for the protection of employees. In addition, where appropriate, any such standard shall prescribe the type and frequency of medical examinations or other tests which shall be made available, by the employer or at the employer's cost, to employees exposed to such hazard in order to most effectively determine whether the health of such employee is adversely affected by such exposure. The results of such examinations or tests shall be furnished to the commissioner, and if released by the employee, shall be furnished to the employee's physician and the employer's physician.

5. *Emergency temporary standards.* The commissioner shall provide for an emergency temporary standard to take immediate effect if the commissioner determines that employees are exposed to grave danger from exposure from substances or agents determined to be toxic or physically harmful or from new hazards and if such emergency temporary standard is necessary to protect the employees from such danger. Such emergency standard shall

cease to be effective and shall no longer be applicable after the lapse of six months following the effective date thereof unless the commissioner has initiated the procedures provided for under [this chapter](#), for the purpose of promulgating a permanent standard as provided in [subsection 1](#) of [this section](#) in which case the emergency temporary standard will remain in effect until the permanent standard is adopted and becomes effective. Abandonment of the procedure for such promulgation by the commissioner shall terminate the effectiveness and applicability of the emergency temporary standard.

6. *Permanent variance.* Any affected employer may apply to the commissioner for a rule or order for a permanent variance from a standard promulgated under [this section](#). Affected employees shall be given notice of each such application and an opportunity to participate in a hearing. The commissioner shall issue such rule or order if the commissioner determines on the record, after opportunity for an inspection where appropriate and a hearing, that the proponent of the variance has demonstrated by a preponderance of the evidence that the conditions, practices, means, methods, operations, or processes used or proposed to be used by an employer will provide employment and places of employment to the employer's employees which are as safe and healthful as those which would prevail if the employer complied with the standard. The rule or order so issued shall prescribe the conditions the employer must maintain, and the practices, means, methods, operations, and processes which the employer must adopt and utilize to the extent that they differ from the standard in question. Such a rule or order may be modified or revoked upon application by an employer, employees, or by the commissioner on the commissioner's own motion, in the manner prescribed for its issuance under [this subsection](#) at any time after six months from its issuance.

7. *Special variance.* Where there are conflicts with standards, rules, or regulations promulgated by any federal agency other than the United States department of labor, special variances from standards, rules, or regulations promulgated under [this chapter](#) may be granted to avoid such regulatory conflicts. Such variances shall take into consideration the safety of the employees involved. Notwithstanding any other provision of [this chapter](#), and with respect to [this subsection](#), any employer seeking relief under this provision must file an application with the commissioner and the commissioner shall forthwith hold a hearing at which employees or other interested persons, including representatives of the federal regulatory agencies involved, may appear and, upon the showing that such a conflict indeed exists, the commissioner may issue a special variance until the conflict is resolved.

8. *Priority for setting standards.* In determining the priorities for establishing standards under [this section](#), the commissioner shall give due regard to the urgency of the need for mandatory safety and health standards for particular industries, trades, crafts, occupations, businesses, workplaces or work environments.

9. *Product safety.* Standards promulgated under [this chapter](#) shall not be different from federal standards applying to products distributed or used in interstate commerce unless such standards are required by compelling local conditions and do not unduly burden interstate commerce. This provision does not apply to customized products or parts not normally available on the open market, or to optional parts or additions to products which are ordinarily available with such optional parts or additions.

10. *Judicial review before enforcement.* The provisions of the Iowa administrative procedure Act, [chapter 17A](#), shall apply to judicial review of standards issued under [this section](#). Notwithstanding any provision of the Iowa administrative procedure Act, [chapter 17A](#), to the contrary, a person who is aggrieved or adversely affected by a standard issued under [this section](#) must seek judicial review of such standard prior to the sixtieth day after such standard becomes effective. All determinations of the commissioner shall be conclusive if supported by substantial evidence in the record as a whole.

11. *Railway sanitation and shelter.* A railway corporation within the state shall provide adequate sanitation and shelter for all railway employees. The commissioner shall adopt rules requiring railway corporations within the state to provide a safe and healthy workplace.

The commissioner shall enforce the requirements of [this subsection](#) upon the receipt of a written complaint.

### **88.6 Inspections, investigations, and recordkeeping.**

1. *Entrance and inspections.* In order to carry out the purposes of [this chapter](#), the commissioner or the commissioner's representative, upon presenting appropriate credentials to the owner, operator, or agent in charge, is authorized:

a. To enter without delay and at reasonable times any factory, plant, establishment, construction site, or other area, workplace or environment where work is performed by an employee of an employer.

b. To inspect and investigate during regular working hours and at other reasonable times, and within reasonable limits and within a reasonable manner, any such place of employment and all pertinent conditions, structures, machines, apparatus, devices, equipment, and materials therein, and to question privately any such employer, owner, operator, agent or employee.

2. *Subpoena of witness and evidence.* In making inspections and investigations under [this chapter](#), the commissioner may require the attendance and testimony of witnesses and the production of evidence under oath. Witnesses shall be paid the same fees and mileage that are paid witnesses in the district courts of this state. In case of contumacy, failure, or refusal of any person to obey such an order, any appropriate district court within the jurisdiction of which such person is found, or resides, or transacts business, upon the application by the commissioner, shall have jurisdiction to issue to such person an order requiring such person to appear, to produce evidence, if, as, and when so ordered and to give testimony relating to the matter under investigation or in question, and any failure to obey such order of the court may be punished by said court as a contempt thereof.

3. *Accident and illness records.*

a. Each employer shall make, keep and preserve, and make available to the commissioner such records regarding the employer's activities relating to [this chapter](#) as the commissioner may prescribe by regulation as necessary or appropriate for the enforcement of [this chapter](#) or for developing information regarding the causes and prevention of occupational accidents and illnesses. In order to carry out the provisions of this paragraph such regulations may include provisions requiring employers to conduct periodic inspections. The commissioner shall also issue regulations requiring that employers, through posting of notices or other appropriate means, keep their employees informed of their protection and obligations under [this chapter](#), including the provisions of applicable standards.

b. The commissioner shall prescribe regulations requiring an employer to maintain accurate records of, and to make periodic reports on, work related deaths, injuries, and illnesses other than minor injuries requiring only first aid treatment and which do not involve medical treatment, loss of consciousness, restriction of work or motion, or transfer to another job.

c. The commissioner shall issue regulations requiring employers to maintain accurate records of employee exposures to potentially toxic materials or harmful physical agents which are required to be monitored or measured under [section 88.5, subsection 2](#). Such regulations shall provide employees or their authorized employee representative with an opportunity to observe such monitoring or measuring, and to have access to the records thereof. Such regulations shall also make appropriate provisions for each employee or former employee to have access to such records that will indicate the employee's own exposure to toxic materials or harmful physical agents. Each employer shall promptly notify any employee who has been or is being exposed to toxic materials or harmful physical agents in concentrations or at levels which exceed those prescribed by an applicable occupational

safety and health standard promulgated under [section 88.5, subsection 2](#), and shall inform any employee who is being thus exposed of the corrective action being taken.

d. All employers in the state of Iowa are required to make all reports to the secretary required by federal law as if [this chapter](#) were not in effect.

e. The commissioner will make such reports to the secretary in such form and containing such information, as the secretary shall from time to time require pursuant to federal law.

f. The regulations referred to in [this subsection](#) shall not prescribe requirements different from those provided by the federal law and regulations.

4. *Representatives of employers and employees.* Subject to regulations issued by the commissioner, a representative of the employer and an authorized employee representative shall be given an opportunity to accompany the commissioner or the commissioner's authorized representative during the physical inspection of any workplace under [subsection 1 of this section](#), for the purpose of aiding such inspection. Where there is no authorized employee representative, the commissioner or the commissioner's authorized representative shall consult with a reasonable number of employees concerning matters of health and safety in the workplace.

5. *Special inspections.* Any employees or authorized employee representative who believes that a violation of a safety or health standard exists that threatens physical harm, or that an imminent danger exists, may request an inspection by giving notice to the commissioner or the commissioner's authorized representative of such violation or danger. Any such notice shall be reduced to writing, shall set forth with reasonable particularity the grounds for the notice, and shall be signed by the employees or authorized employee representative, and a copy shall be provided the employer or the employer's agent no later than at the time of inspection, except that upon the request of the person giving such notice the person's identifying information and the identifying information of individual employees referred to in the notice shall not appear in such copy or on any record published, released, or made available. If, upon receipt of such notification, the commissioner determines that there are reasonable grounds to believe that such violation or danger exists, the commissioner shall make a special inspection in accordance with the provisions of [this section](#) as soon as practicable, to determine if such violation or danger exists. If the commissioner determines that there are no reasonable grounds to believe that a violation or danger exists, the commissioner shall notify the employees or authorized employee representative in writing of such determination. For purposes of [this subsection](#), "identifying information" means specific personal information including, but not limited to, the person's name, home address, telephone number, social security number, and handwriting and language idiosyncrasies. In circumstances when the release of any fact may be used to identify the person, that fact shall not be released.

6. *Notice of violations.* During any inspection of a workplace, any employee or representative of employees employed in such workplace may notify the commissioner or any representative of the commissioner responsible for conducting the inspection, in writing, of any violation of [this chapter](#) which they have reason to believe exists in such workplace. The commissioner shall, by regulation, establish procedures for an informal review of any refusal by a representative of the commissioner to issue a citation with respect to any such alleged violation and shall furnish the employees or authorized employee representative requesting such review a written statement of the reason for the commissioner's final disposition of the case.

7. *General.* Any information obtained by the commissioner under [this chapter](#) shall be obtained with a minimum burden upon employers. Except for the purpose of administration of [this chapter](#), no information received by the commissioner or the commissioner's representative from an employer, in compliance with and pursuant to [this chapter](#), shall be admissible in any action brought by or for the benefit of any person. Unnecessary duplication of efforts in obtaining information shall be reduced to the maximum extent feasible.

8. *Confidentiality.* Notwithstanding [chapter 22](#), records prepared or obtained by the commissioner relating to an enforcement action conducted pursuant to [this chapter](#) shall be kept confidential until the enforcement action is complete.

a. For purposes of [this subsection](#), an enforcement action is complete when any of the following occurs:

(1) An inspection file is closed without the issuance of a citation.

(2) A citation or noncompliance notice resulting from an inspection becomes a final order of the employment appeal board and all applicable courts pursuant to [sections 88.8](#) and [88.9](#), and abatement is verified.

(3) A determination and any subsequent action is final in an occupational safety and health discrimination case.

b. A citation or noncompliance notice shall remain a confidential record until received by the appropriate employer.

c. [This subsection](#) shall not affect the discovery rights of any party to a contested case.

9. *Reports — fire fighters.* Reports of inspections and investigations involving the occupational safety and health for fire fighters shall be presented to the state fire service and emergency response council.

### 88.7 Citations.

1. *Issuance by commissioner.*

a. If, upon inspection or investigation, the commissioner or the commissioner's authorized representative believes that an employer has violated the requirements of [section 88.4](#), of any standard, rule or rules promulgated pursuant to [section 88.5](#), or of any regulations prescribed pursuant to [this chapter](#), the commissioner shall with reasonable promptness issue a citation to the employer. Each citation shall be in writing and shall describe with particularity the nature of the violation, including a reference to the provision of the chapter, standard, rules or order alleged to have been violated. In addition, the citation shall fix a reasonable time for the abatement of the violation. The commissioner shall prescribe procedures for the issuance of a notice in lieu of a citation with respect to de minimis violations which have no direct or immediate relationship to safety and health.

b. If, upon inspection or investigation, the commissioner or the commissioner's authorized representative believes that an employee, under the employee's own volition, has violated the requirements of [section 88.4](#), of any standard, rule or rules promulgated pursuant to [section 88.5](#), or of any regulations prescribed pursuant to [this chapter](#), the commissioner shall with reasonable promptness issue a citation to the employee. Each citation shall be in writing and shall describe with particularity the nature of the violation, including a reference to the provision of the chapter, standard, rules, regulations or order alleged to have been violated. ### 88.8 Procedure for enforcement.

1. *Postinspection penalty notice.* If, after an inspection or an investigation, the commissioner issues a citation under [section 88.7](#), the commissioner shall, within a reasonable time after the termination of the inspection or investigation, notify the employer by service in the same manner as an original notice or by certified mail of the penalty, if any, proposed to be assessed under [section 88.14](#) and that the employer has fifteen working days within which to notify the commissioner that the employer wishes to contest the citation or

proposed assessment of penalties. If, within fifteen working days from the receipt of the notice issued by the commissioner, the employer fails to notify the commissioner that the employer intends to contest the citation or proposed assessment of penalty, and no notice is filed by any employees or authorized employee representative under [subsection 3 of this section](#) within the time specified, the citation and the assessment, as proposed, shall be deemed a final order of the appeal board and not subject to review by any court or agency.

2. *Noncompliance notice.* If the commissioner has reason to believe that an employer has failed to correct the violation for which a citation has been issued within the period permitted for its correction, which period shall not begin to run until the entry of a final order by the appeal board in the case of any review proceedings under [this section](#) initiated by the employer in good faith and not solely for delay or avoidance of penalties, the commissioner shall notify the employer by service in the same manner as an original notice or by certified mail of the failure and of the penalty proposed to be assessed under [section 88.14](#) by reason of the failure, and that the employer has fifteen working days within which to notify the commissioner that the employer wishes to contest the commissioner's notification or the proposed assessment of penalty. If, within fifteen working days from the receipt of notification issued by the commissioner, the employer fails to notify the commissioner that the employer intends to contest the notification or proposed assessment of penalty, the notification and assessment, as proposed, shall be deemed the final order of the appeal board and not subject to review by any court or agency.

3. *Contested notice.*

a. If an employer notifies the commissioner that the employer intends to contest a citation issued under [section 88.7](#), or notification issued under [subsection 1 or 2 of this section](#) or if, within fifteen working days of the issuance of a citation under [section 88.7](#), any employee or authorized employee representative files a notice with the commissioner alleging that the period of time fixed in the citation for the abatement of the violation is unreasonable, the commissioner shall immediately advise the appeal board of such notification, and the appeal board shall afford an opportunity for a hearing.

b. At the hearing, the appeal board shall act as an adjudicatory body. The appeal board shall thereafter issue an order, based on findings of fact, affirming, modifying, or vacating the commissioner's citation or proposed penalty or directing other appropriate relief, and such order shall become final thirty days after its issuance.

c. Upon a showing by an employer of a good faith effort to comply with the abatement requirements of a citation, and that abatement has not been completed because of factors beyond the employer's reasonable control, the commissioner, after an opportunity for a hearing shall issue an order affirming or modifying the abatement requirements in such citation.

d.
