Subsections 5 and 6 amended

88B.2 Jurisdiction of other agencies.

This chapter shall not be construed to prevent the department of natural resources from implementing and enforcing the federal national emission standard for asbestos under 40 C.F.R. pt. 61, subpt. M, and other relevant provisions of environmental law.

2007 Acts, ch 125, §3

88B.3 Administration — rules — fees — inspections.

- 1. The director shall administer this chapter.
2. The director shall adopt, in accordance with chapter 17A, rules necessary to carry out the provisions of this chapter.
3. The director shall prescribe fees for the issuance and renewal of licenses and permits. The fees shall be based on the costs of licensing, permitting, and administering this chapter, including time spent by personnel of the department in performing duties and any travel expenses incurred. All fees provided for in this chapter shall be collected by the director and remitted to the treasurer of state for deposit in the general fund of the state.

4. At least once a year, during an actual asbestos project, the department shall conduct an on-site inspection of each permittee's procedures for removing and encapsulating asbestos.

Referred to in §88B.6

Subsection 1 amended

88B.4 Permit — term, renewal, and records required.

1. A permit expires on the first anniversary of its effective date, unless it is renewed for a one-year term as provided in [this section](#).

2. At least one month before the permit expires, the department shall send to the permittee, at the last known address of the permittee, a renewal notice that states all of the following:

a. The date on which the current permit expires.

b. The date by which the renewal application must be received by the department for the renewal to be issued and mailed before the permit expires.

c. The amount of the renewal fee.

3. Before the permit expires, the permittee may renew it for an additional one-year term, if the business entity meets the following conditions:

a. Is otherwise entitled to a permit.

b. Submits a renewal application to the department in the form required by the department.

c. Pays the renewal fee prescribed by the department.

4. The permittee shall keep a record of each asbestos project it performs and shall make the record available to the department at any reasonable time. Records shall contain information and be kept for a time prescribed in rules adopted by the department.

88B.6 Licensing of asbestos workers.

1. *Application.*

a. To apply for a license, an individual shall submit an application to the department in the form required by the department and shall pay the prescribed fee.

b. The application shall include information prescribed by rules adopted by the director.

c. A license is valid for one year from the completion date of the required training and may be renewed by providing information as required in [subsection 2](#), paragraphs “b” and “c”.

2. *Qualifications.*

a. An individual is not eligible to be or do any of the following unless the person obtains a license from the department:

(1) A contractor or supervisor, or to work on an asbestos project.

(2) An inspector for asbestos-containing building material in a school or a public or commercial building.

(3) An asbestos management planner for a school building.

(4) An asbestos project designer for a school or a public or commercial building.

b. To qualify for a license, the applicant must have successfully completed training as established by the United States environmental protection agency, paid a fee, and met other requirements as specified by the department by rule.

c. To qualify for a license as an asbestos abatement worker, supervisor, or contractor, the applicant must have been examined by a physician within the preceding year and declared by the physician to be physically capable of working while wearing a respirator.

3. *Exception.* A license is not required of an employee employed by an employer exempted from the permit requirement of [section 88B.3A](#), [subsection 2](#), if the employee is trained on appropriate removal or encapsulation procedures, safety, and health issues regarding asbestos removal or encapsulation, and federal and state standards applicable to the asbestos project.
