5.11(3) *Obtaining information from a third party.* The department of inspections and appeals occasionally requests personally identifiable information from third parties during the course of its authorized audits, investigations, hearings or inspections. 481—6.1(10A,17A,ExecOrd11) Applicability. This chapter outlines a uniform process for the granting of waivers from rules adopted by the department. The intent of this chapter is to allow persons to seek exceptions to the application of rules issued by the department.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.2(10A,17A,ExecOrd11) Definitions.

[ARC 5670C, IAB 6/2/21, effective 7/21/21; ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.3(10A,17A,ExecOrd11) Interpretive rules. This chapter shall not apply to rules that merely define the meaning of a statute or other provision of law or precedent if the department does not possess delegated authority to bind the courts to any extent with its definition.

481—6.4(10A,17A,ExecOrd11) Compliance with statute. The department shall not grant a petition for waiver from a rule unless a statute or other provision of law has delegated authority to the department sufficient to justify that action and the waiver is consistent with the statute or other provision of law. No waiver may be granted from a requirement that is imposed by statute, unless the statute itself specifically authorizes that action. Any waiver must be consistent with statute.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.5(10A,17A,ExecOrd11) Criteria for waiver. At the sole discretion of the director/board, the director/board may issue an order, in response to a completed petition, granting a waiver from a rule adopted by the department, in whole or in part, as applied to the circumstances of a specified person or a specific and narrowly drawn class of persons if the director/board finds based on clear and convincing evidence that:

1. The application of the rule to the petitioner would pose an undue hardship on the person or class of persons for whom the waiver is requested;
2. The waiver from the requirements of a rule in the specific case would not prejudice the substantial legal rights of any person;
3. The provisions of a rule subject to a petition for a waiver are not specifically mandated by statute or another provision of law; and
4. Substantially equal protection of public health, safety, and welfare will be afforded by a means other than that prescribed in the particular rule for which the waiver is requested.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.6(10A,17A,ExecOrd11) Filing of petition. A petition for a waiver must be submitted in writing to the Department of Inspections and Appeals, Office of the Director, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319. If the petition relates to a pending contested case, the petition shall also be filed in the contested case proceeding.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.7(10A,17A,ExecOrd11) Content of petition. A petition for waiver shall include the following information where applicable and known to the requester:

1. The name, address, and telephone number of the entity or person for whom a waiver is being requested and the case number of any related contested case.
2. A description and citation of the specific rule from which a waiver is requested.
3. The specific waiver requested, including the precise scope and operative period that the waiver will extend.
4. The relevant facts that the petitioner believes would justify a waiver. This statement shall include a signed statement from the petitioner attesting to the accuracy of the facts provided in the petition and a statement of reasons that the petitioner believes will justify a waiver.
5. A history of any prior contacts between the department and the petitioner relating to the regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department that would be affected by the proposed waiver, including a description of each regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department, any notices of violation, contested case hearings, or investigative reports relating to the regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department within the last five years.
6. Any information known to the requester regarding the department's treatment of similar cases.
7. The name, address, and telephone number of any public agency or political subdivision which also regulates the activity in question or which might be affected by the granting of a waiver.
8. The name, address, and telephone number of any person or entity that would be adversely affected by the granting of a petition.
9. The name, address, and telephone number of any person with knowledge of the relevant facts relating to the proposed waiver.
10. Signed releases of information authorizing persons with knowledge regarding the request to furnish the department with information relevant to the waiver.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.8(10A,17A,ExecOrd11) Additional information. Prior to issuing an order granting or denying a waiver, the department may request additional information from the petitioner relative to the petition and surrounding circumstances. If the petition was not filed in a contested case, the department may, on its own motion or at the petitioner's request, schedule a telephonic or in-person meeting between the petitioner and the department or department's designee.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.9(10A,17A,ExecOrd11) Notice. The department shall acknowledge a petition upon receipt. The department shall ensure that notice of the pendency of the petition and a concise summary of its contents have been provided to all persons to whom notice is required by any provision of law within 30 days of the receipt of the petition. In addition, the department may give notice to other persons. To accomplish this notice provision, the department may require the petitioner to serve the notice on all persons to whom notice is required by any provision of law and provide a written statement to the department attesting that notice has been provided.

481—6.10(10A,17A,ExecOrd11) Hearing procedures. The provisions of Iowa Code sections 17A.10 to 17A.18A regarding contested case hearings shall apply to any petition for a waiver of rule filed within a contested case and shall otherwise apply to agency proceedings for a waiver only when the department so provides by rule or order or is required to do so by statute.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.11(10A,17A,ExecOrd11) Ruling. An order granting or denying a waiver shall be in writing and shall contain a reference to the particular person and rule or portion thereof to which the order pertains, a

statement of the relevant facts and reasons upon which the action is based, and a description of the precise scope and operative period of the waiver if one is issued.

6.11(1) *Director/board discretion.* The decision on whether the circumstances justify the granting of a waiver shall be made at the discretion of the director upon consideration of all relevant factors, except for the below-listed programs, for which the applicable board, commission or state public defender shall make the decision, upon consideration of all relevant factors:

- a. Employment appeal board, 486—Chapter 1.
- b. Child advocacy board, 489—Chapter 1.
- c. Racing and gaming commission, 491—Chapter 1.
- d. State public defender's office, 493—Chapter 1.

6.11(2) *Burden of persuasion.* The petitioner has the burden of persuasion when a petition is filed for a waiver from a department rule. The standard of proof is clear and convincing evidence.

6.11(3) *Special waiver rules not precluded.* This chapter shall not preclude the department from granting waivers in other contexts or on the basis of other standards if a statute authorizes the department to do so and the department deems it appropriate to do so.

6.11(4) *Administrative deadlines.* When the rule from which a waiver is sought establishes administrative deadlines, the director/board shall balance the special individual circumstances of the petitioner with the overall goal of uniform treatment of all persons similarly situated.

6.11(5) *Conditions.* The director/board may condition the granting of the waiver on such reasonable conditions as appropriate to achieve the objectives of the particular rule in question through alternative means and in compliance with the following provisions:

- a. Each petition for a waiver shall be evaluated by the department based on the unique, individual circumstances set out in the petition;
- b. A waiver, if granted, shall be drafted by the department so as to provide the narrowest exception possible to the provisions of the rule;
- c. The department may place on a waiver a condition that the department finds desirable to protect the public health, safety, and welfare;
- d. A waiver shall not be permanent, unless the petitioner can show that a temporary waiver would be impracticable; and
- e. If a temporary waiver is granted, there is no automatic right to renewal. At the sole discretion of the department, a waiver may be renewed if the department finds that all of the factors set out in rule 481—6.5(10A,17A,ExecOrd11) remain valid.

6.11(6) *Time for ruling.* The director/board shall grant or deny a petition for a waiver as soon as practicable but, in any event, shall do so within 120 days of its receipt, unless the petitioner agrees to a later date. However, if a petition is filed in a contested case, the director/board has the discretion to wait until the contested case is resolved before entering an order on the petition for waiver.

6.11(7) *When deemed denied.* Failure of the director/board to grant or deny a petition within the required time period shall be deemed a denial of that petition by the director/board.

6.11(8) *Service of order.* Within seven days of its issuance, any order issued under this chapter shall be transmitted to the petitioner or the person to whom the order pertains and to any other person entitled to such notice by any provision of law.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.12(10A,17A,ExecOrd11) Public availability.

6.12(1) Subject to the provisions of Iowa Code section 17A.3(1)“e,” the department shall maintain a record of all orders granting or denying waivers under this chapter. All final rulings in response to requests for waivers shall be indexed and available to members of the public at the director's office.

6.12(2) Within 60 days of granting or denying a waiver, the department must make a submission on the Internet site established pursuant to Iowa Code section 17A.9A for the submission of waiver information.

- a. The submission shall:
 - (1) Identify the rules for which a waiver has been granted or denied;
 - (2) Identify the number of times a waiver was granted or denied for each rule;

- (3) Include a citation to the statutory provisions implemented by these rules; and
- (4) Include a general summary of the reasons justifying the department's actions.

b. To the extent practicable, the department shall include information detailing the extent to which the granting of a waiver has established a precedent for additional waivers and the extent to which the granting of a waiver has affected the general applicability of the rule itself.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.13(10A,17A,ExecOrd11) Voiding or cancellation. A waiver is void if the material facts upon which the request is based are not true or if material facts have been withheld. The director/board may at any time cancel a waiver upon appropriate notice and hearing if the director/board finds that the facts as stated in the request are not true, material facts have been withheld, the alternative means of compliance provided in the waiver have failed to achieve the objectives of the statute, or the requester has failed to comply with the conditions of the order.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.14(10A,17A,ExecOrd11) Violations. Violation of conditions in the waiver approval is the equivalent of violation of the particular rule for which the waiver is granted and is subject to the same remedies or penalties.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.15(10A,17A,ExecOrd11) Defense. After the director/board issues an order granting a waiver, the order is a defense within its terms and the specific facts indicated therein for the person to whom the order pertains in any proceeding in which the rule in question is sought to be invoked.

[ARC 5719C, IAB 6/16/21, effective 7/21/21]

481—6.16(10A,17A,ExecOrd11) Appeals. Any request for an appeal from a decision granting or denying a waiver shall be in accordance with the procedures provided in Iowa Code chapter 17A and rules adopted by the department. An appeal shall be taken within 30 days of the issuance of the ruling in response to the request unless a contrary time is provided by rule or statute.

CHAPTER 7
MILITARY SERVICE, VETERAN RECIPROCITY, AND
SPOUSES OF ACTIVE-DUTY SERVICE MEMBERS

Chapter rescission date pursuant to Iowa Code section 17A.7: 7/3/29

481—7.1(272C) Applicability and definitions. These rules are applicable to any licensing authority under the administrative authority of the department pursuant to Iowa Code chapter 10A unless that licensing authority has separate rulemaking authority and has adopted governing rules. As used in this chapter:

“*Department*” means the department of inspections, appeals, and licensing.

“*License*” means a license, certification, registration, permit, approval, renewal, or other similar authorization issued by a licensing authority authorizing a person to engage in a profession, occupation, or business.

“*Licensing authority*” means a board, a commission, or any other division or entity of the department that has the authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession pursuant to Iowa Code chapter 272C.

“*Military service*” means honorably serving on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1; in the military services of other states, as provided in 10 U.S.C. Section 101(c)(2021); or in the organized reserves of the United States, as provided in 10 U.S.C. Section 10101(2006).

“*Military service applicant*” means an individual requesting credit toward licensure for military education, training, or service obtained or completed in military service.

“*Spouse*” means the spouse of an active-duty member of the military forces of the United States.

“*Veteran*” means an individual who meets the definition of “veteran” in Iowa Code section 35.1(2).

[ARC 8036C, IAB 5/29/24, effective 7/3/24]

481—7.2(272C) Military education, training, and service credit. A military service applicant may apply for credit for verified military education, training, or service toward any experience or educational requirement for licensure in accordance with Iowa Code chapter 272C by submitting a military service application form to the licensing authority.

7.2(1) The application may be submitted with an application for licensure or examination, or prior to applying for licensure or to take an examination. No fee is required with submission of an application for military service credit.

7.2(2) The applicant shall identify the experience or educational licensure requirement to which the credit would be applied if granted. Credit will not be applied to an examination requirement.

7.2(3) The applicant shall provide documents, military transcripts, a certified affidavit, or forms that verify completion of the relevant military education, training, or service, which may include, when applicable, the applicant’s Certificate of Release or Discharge from Active Duty (DD Form 214) or Verification of Military Experience and Training (VMET) (DD Form 2586).

7.2(4) Upon receipt of a completed military service application, the licensing authority will promptly determine whether the verified military education, training, or service will satisfy all or any part of the identified experience or educational qualifications for licensure.

7.2(5) The licensing authority will grant credit requested in the application in whole or in part if the licensing authority determines that the verified military education, training, or service satisfies all or part of the experience or educational qualifications for licensure.

7.2(6) The licensing authority will inform the military service applicant in writing of the credit, if any, given toward an experience or educational qualification for licensure or explain why no credit was granted. The applicant may request reconsideration upon submission of additional documentation or information.

7.2(7) An applicant who is aggrieved by the licensing authority’s decision may request a contested case hearing. A request for a contested case shall be made within 30 days of issuance of the licensing authority’s decision. Unless the licensing authority has adopted rules governing contested case hearings under the jurisdiction of that licensing authority, the provisions of 481—Chapter 9 apply, except that no

fees or costs will be assessed against the applicant in connection with a contested case conducted pursuant to this subrule.

7.2(8) The licensing authority will grant or deny the military service application prior to ruling on the application for licensure. The applicant will not be required to submit any fees in connection with the licensure application unless the licensing authority grants the military service application. If the licensing authority does not grant the military service application, the applicant may withdraw the licensure application or request that the application be placed in pending status for up to one year or as mutually agreed. The withdrawal of a licensure application does not preclude subsequent applications supported by additional documentation or information.

[ARC 8036C, IAB 5/29/24, effective 7/3/24]

481—7.3(272C) Veteran and active-duty military spouse reciprocity.

7.3(1) A veteran or spouse with an unrestricted professional license in another jurisdiction may apply for licensure in Iowa through reciprocity in accordance with Iowa Code chapter 272C. A veteran or spouse must pass any examinations required for licensure to be eligible for licensure through reciprocity and will be given credit for examinations previously passed when consistent with the licensing authority's laws and rules on examination requirements. A fully completed application for licensure submitted by a veteran or spouse under this subrule will be given priority and will be expedited.

7.3(2) Such an application shall contain all of the information required of all applicants for licensure who hold unrestricted licenses in other jurisdictions and who are applying for licensure by reciprocity, including but not limited to completion of all required forms, payment of applicable fees, disclosure of criminal or disciplinary history, and, if applicable, a criminal history background check. The applicant will use the same forms as any other applicant for licensure by reciprocity and shall additionally provide such documentation as is reasonably needed to verify the applicant's status as a veteran under Iowa Code section 35.1(2) or as a spouse.

7.3(3) Upon receipt of a fully completed licensure application, the licensing authority will promptly determine if the scope of practice of the jurisdiction where the veteran or spouse is licensed is substantially equivalent to the scope of practice in Iowa. The licensing authority shall make this determination based on information supplied by the applicant and such additional information as the licensing authority may acquire from the applicable jurisdiction.

7.3(4) The licensing authority will promptly grant a license to the applicant if the applicant is licensed in the same or similar profession in another jurisdiction whose scope of practice is substantially equivalent to the scope required in Iowa unless the applicant is ineligible for licensure based on other grounds, including, for example, the applicant's disciplinary history or criminal background.

7.3(5) If the licensing authority determines that the scope of practice in the jurisdiction in which the applicant is licensed is not substantially equivalent to the scope of practice in Iowa, the licensing authority will promptly inform the applicant of the additional education or training required for licensure in Iowa. Unless the applicant is ineligible for licensure based on other grounds, such as disciplinary history or criminal background, the following will apply:

a. If the applicant has not passed the required examination(s) for licensure, the applicant may not be issued a temporary license but may request that the licensure application be placed in pending status for up to one year or as mutually agreed to provide the applicant with the opportunity to satisfy the examination requirements.

b. If additional education or training is required, the applicant may request that the licensing authority issue a temporary license for a specified period of time during which the applicant will successfully complete the necessary education or training. The licensing authority will issue a temporary license for a specified period of time upon such conditions as the licensing authority deems reasonably necessary to protect the health, welfare, or safety of the public unless the licensing authority determines that the deficiency is of a character by which public health, welfare, or safety will be adversely affected if a temporary license is granted.

c. If a request for a temporary license is denied, the licensing authority shall issue an order fully explaining the decision and shall inform the applicant of the steps the applicant may take to receive a temporary license.

d. If a temporary license is issued, the application for full licensure will be placed in pending status until the necessary education or training has been successfully completed or the temporary license expires, whichever occurs first. The licensing authority may extend a temporary license on a case-by-case basis for good cause.

7.3(6) An applicant who is aggrieved by the licensing authority's decision to deny an application for a reciprocal license or a temporary license or is aggrieved by the terms under which a temporary license will be granted may request a contested case hearing as set forth in subrule 7.2(7).

In addition to the procedures set forth in Iowa Code chapter 252J, the rules in this chapter apply.

8.3(1) Notice required by Iowa Code section 252J.8 will be served upon the applicant or licensee by restricted certified mail, return receipt requested; personal service in accordance with Iowa Rule of Civil Procedure 1.305; or the acceptance of service by the applicant or licensee personally or through authorized counsel.

The licensing authority will suspend, revoke, or deny the issuance or renewal of a license upon the receipt of a certificate of noncompliance from the centralized collection unit of the department of revenue in accordance with Iowa Code chapter 272D. In addition to the procedures set forth in Iowa Code chapter 272D, the rules in this chapter apply.

8.6(1) Notice required by Iowa Code section 272D.8 will be served upon the applicant or licensee by restricted certified mail, return receipt requested; personal service in accordance with Iowa Rule of Civil Procedure 1.305; or the acceptance of service by the applicant or licensee personally or through authorized counsel.

8.6(2) The effective date of the denial, revocation, or suspension is 60 days following service of the notice upon the applicant or licensee.

8.6(3) The licensing authority is authorized to prepare and serve the notice mandated by Iowa Code section 272D.8 upon the applicant or licensee.

8.6(4) Applicants and licensees are responsible for keeping the licensing authority informed of all court actions and all actions of the department of revenue taken under or in connection with Iowa Code chapter 272D, including providing the licensing authority copies, within seven days of filing or issuance, of applications filed with the district court pursuant to Iowa Code section 272D.9, court orders entered in such actions, and withdrawals of certificates of noncompliance by the centralized collection unit.

8.6(5) All licensing authority fees required for license application, renewal or reinstatement must be paid before a license will be issued, renewed or reinstated after proceedings under Iowa Code chapter 272D.

8.6(6) A licensee or applicant may file an application with the district court within 30 days of service of a licensing authority notice pursuant to Iowa Code sections 272D.8 and 272D.9. The filing of the application stays the licensing authority’s action until the licensing authority receives a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the denial, revocation, or suspension, the licensing authority will count the number of days before the action was filed and the number of days after the action was disposed of by the court.

8.6(7) The licensing authority will notify the applicant or licensee in writing within ten days of the effective date of the denial, suspension, or revocation of a license, and will similarly notify the applicant or licensee when the license is issued, renewed, or reinstated following the licensing authority’s receipt of a withdrawal of the certificate of noncompliance.

481—9.2(10A,17A) Initiation of a contested case proceeding. If the department decides to initiate a contested case proceeding upon request or its own initiative, the department shall transmit the proceeding to the administrative hearings division, which shall issue a notice of hearing and assign the proceeding to an administrative law judge to serve as the presiding officer. All contested case proceedings shall be conducted pursuant to 481—Chapter 10 and any other administrative rule applicable to the specific type of proceeding.

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—9.3(10A,17A) Director review.

Requests shall be mailed or delivered by either party to the Director, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083. Failure to request review will preclude judicial review unless the department reviews on its own motion as follows. The department may review a proposed decision upon its own motion within 15 days of issuance of the proposed decision.

9.3(2) A review shall be based on the record and limited to issues raised in the hearing. The issues shall be specified in the party's request for review.

Application may be filed for leave to present evidence in addition to that found in the record of the case. If it is shown to the satisfaction of the director or the director's designee that the additional evidence is material and that there were good reasons for failure to present it in the hearing, the director or the director's designee may order the additional evidence taken upon conditions determined by the director or the director's designee.

9.3(5) Final decisions shall be issued by the director or the director's designee.

481—10.7(10A,17A) Telephone proceedings. A prehearing conference or a hearing may be held by telephone conference call pursuant to a notice of hearing or an order of the ALJ. The division shall determine the location of the parties and witnesses in telephone hearings. The convenience of the witnesses or parties, as well as the nature of the case, shall be considered when location is chosen.

481—10.8(10A,17A) Scheduling. Contested case hearings are scheduled according to the following criteria:

10.8(1) Agency hearings. The division shall promptly schedule hearings. The availability of an administrative law judge and any special circumstances shall be considered.

10.8(2) Board hearings. Boards are requested to consult with the division prior to scheduling hearings to determine the availability of an administrative law judge. The board shall determine the time and place of hearing.

481—10.9(17A) Disqualification.

10.9(3) If a party asserts disqualification on any appropriate ground, including those listed in subrule 10.9(1), the party shall file an affidavit pursuant to Iowa Code subsection 17A.17(4). The affidavit must be filed with the division within 15 days of the date of the notice of hearing, or as soon as the reason alleged in the affidavit becomes known to the party, but in any case shall be filed prior to the hearing.

This rule is intended to implement Iowa Code section 17A.17.

481—10.10(10A,17A) Consolidation—severance.

10.10(1) Consolidation. The administrative law judge may, upon motion by any party or the ALJ's own motion, consolidate any or all matters at issue in two or more proceedings docketed under these rules where:

a. There exist common parties or common questions of fact or law;

b. Consolidation would expedite and simplify consideration of the issues; and

c. Consolidation would not adversely affect the rights of parties engaged in otherwise separate proceedings.

At any time prior to the hearing, any party may on motion request that the matters not be consolidated, and the motion shall be granted for good cause shown.

10.10(2) Severance. The administrative law judge may, upon motion by any party or upon the ALJ's own motion, for good cause shown, order any proceeding or portion thereof severed.

This rule is intended to implement Iowa Code sections 10A.801(7) and 17A.22.

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.11(10A,17A) Pleadings. Pleadings may be required by the notice of hearing or by order of the administrative law judge. If pleadings are required, they shall be filed as follows:

10.11(1) Petition. When an action of the agency is appealed and pleadings are required under this rule, the aggrieved party shall file the petition.

a. Any required petition shall be filed within 20 days of delivery of the notice of hearing, unless otherwise ordered.

b. The petition shall state in separately numbered paragraphs the following:

(1) The relief demanded and the facts and law relied upon for relief;

(2) The particular provisions of the statutes and rules involved;

(3) On whose behalf the petition is filed; and

(4) The name, address and telephone number of the petitioner and the petitioner's attorney, if any.

10.11(2) Answer. If pleadings are required, the answer shall be filed within 20 days of service of the petition or notice of hearing, unless otherwise ordered.

a. Any party may move to dismiss or apply for a more definite, detailed statement when appropriate.

b. The answer shall show on whose behalf it is filed and specifically admit, deny or otherwise answer all material allegations of the pleading to which it responds. It shall state any facts deemed to show an affirmative defense and may contain as many defenses as the pleader may claim.

c. The answer shall state the name, address and telephone number of the person filing the answer and of the attorney representing that person, if any.

d. Any allegation in the petition not denied in the answer is considered admitted. Any defense not raised which could have been raised on the basis of facts known when the answer was written may be waived unless manifest injustice would result.

10.11(3) Amendment. Any petition, notice of hearing or other charging document may be amended before a responsive pleading has been filed. Amendments to pleadings after a responsive pleading has been filed may be allowed at the discretion of the ALJ or board if applicable. The presiding ALJ or board may impose terms or grant a continuance without terms, as a condition of allowing late amendments.

This rule is intended to implement Iowa Code sections 10A.801(7) and 17A.12(6) "a."

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.12(17A) Service and filing of documents.

10.12(1) When service is required. Except where otherwise specifically authorized by law, every pleading, motion, or other document filed in the contested case proceeding and every document relating to discovery in the proceeding shall be served upon each of the parties to the proceeding, including the originating agency. Except for the notice of the hearing and an application for rehearing as provided in Iowa Code subsection 17A.16(2), the party filing a document is responsible for service on all parties.

10.12(2) Methods of performing service. Service upon a party represented in the contested case proceeding by an attorney shall be made upon the attorney unless otherwise ordered. Service is made by delivering, mailing, or transmitting by facsimile (fax) or by electronic mail (email) a copy to the party or attorney at the party's or attorney's last-known mailing address, fax number, or email address. Service by first-class mail is complete upon mailing, except where otherwise specifically provided by statute, rule or order. Service by fax or electronic mail is complete upon transmission unless the party making service learns that the attempted service did not reach the person to be served.

10.12(3) Filing with the division. After a matter has been assigned to the division, and until a proposed decision is issued, every pleading, motion, or other document shall be filed with the division, rather than the originating agency. All documents that are required to be served upon a party shall be filed simultaneously with the division.

a. Except where otherwise provided by law, a document is deemed filed with the division at the time it is:

(1) Delivered to the division at the Wallace State Office Building, Third Floor, 502 East Ninth Street, Des Moines, Iowa, and date-stamped received;

(2) Delivered to an established courier service for immediate delivery to the division;

(3) Mailed to the division by first-class mail or by state interoffice mail so long as there is adequate proof of mailing; or

(4) Transmitted by facsimile (fax) to (515)281-4477, by electronic mail (email) to adminhearings@dia.iowa.gov, or by other electronic means approved by the division, as provided in subrule 10.12(3), paragraph "b."

b. All documents filed with the division pursuant to these rules, except a person's request or demand for a contested case proceeding (see Iowa Code subsection 17A.12(9)), may be filed by facsimile (fax), electronic mail (email), or other electronic means approved by the division. A document filed by fax, email, or other approved electronic means is presumed to be an accurate reproduction of the original. If a document filed by fax, email, or other approved electronic means is illegible, a legible copy may be substituted and the date of filing shall be the date the illegible copy was received. The date of filing by fax,

email, or other approved electronic means shall be the date the document is received by the division. The division will not provide a mailed file-stamped copy of documents filed by fax, email, or other approved electronic means.

10.12(4) *Proof of mailing.* Adequate proof of mailing includes the following:

- a. A legible United States postal service postmark on the envelope;
- b. A certificate of service;
- c. A notarized affidavit; or
- d. A certification in substantially the following form:

I certify under penalty of perjury and pursuant to the laws of Iowa that, on (date of mailing), I mailed copies of (describe document) addressed to the Department of Inspections and Appeals, Administrative Hearings Division, Wallace State Office Building, Third Floor, 502 East Ninth Street, Des Moines, Iowa 50319, and to the names and addresses of the parties listed below by depositing the same in (a United States post office mailbox with correct postage properly affixed) or (state interoffice mail).

481—10.13(17A) Discovery.

10.13(1) Pursuant to Iowa Code section 17A.13, discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by rules of the agency or by a ruling by the ALJ, time periods for compliance with discovery shall be as provided in the Iowa Rules of Civil Procedure.

10.13(2) Any motion relating to discovery shall allege that the moving party has made a good faith attempt to resolve the issues raised by the motion with the opposing party. Motions in regard to discovery shall be ruled on by the ALJ. Opposing parties shall be afforded the opportunity to respond within ten days of the filing of the motion unless the time is shortened as provided in subrule 10.13(1). The ALJ may rule on the basis of the written motion and any response or may order argument on the motion.

This rule is intended to implement Iowa Code section 17A.13.

481—10.14(10A,17A) Subpoenas.

10.14(1) *Issuance.*

a. Pursuant to Iowa Code subsection 17A.13(1), the division shall issue an agency subpoena to a party on request unless otherwise excluded pursuant to this rule. A request for a subpoena shall be in writing. The request may be made in person or by mail, facsimile (fax), electronic mail (email), or other electronic means approved by the division. The request shall include the names of the parties, the case number, the name and address of the requested witness, and a description or list of any documents or other items requested. The request shall also note the nature of the proceeding at which the witness is requested to testify (e.g., deposition, telephone hearing, or in-person hearing), the date and time of the proceeding, whether the witness is requested to appear in person or by telephone, the location of the proceeding if it is being conducted in a location other than the Wallace State Office Building, and the method of recording any deposition. A request for a subpoena shall be received by the division at least seven calendar days before the scheduled hearing. The request shall include the name, address, email address, and telephone number of the requesting party.

b. The division shall provide the subpoena to the requesting party by regular mail, fax, email, or other electronic means or allow for pickup during the department's regular business hours.

c. When authorized by law, an administrative law judge (ALJ) may issue a subpoena on the ALJ's own motion.

d. When there is reasonable ground to believe a subpoena is requested for the purpose of harassment, or that the subpoena requests irrelevant evidence or is untimely, the division may refuse to issue the subpoena. If the division refuses to issue a subpoena, the division shall provide a written statement of the ground for refusal. A party to whom a refusal is issued may obtain a prompt hearing before an ALJ regarding the refusal by filing with the division and serving on all parties a written request for a hearing,

including a statement of testimony, documents, or other items expected to be elicited from the subpoenaed witness and a showing of relevancy to the proceeding.

e. The issuance of a subpoena by the division does not constitute a ruling by the ALJ that the subpoenaed witness may testify at the hearing or that a subpoenaed document may be admitted into evidence. A party seeking to call a subpoenaed witness to testify or seeking to introduce a subpoenaed document at a hearing must comply with any applicable requirement in statute, administrative rule, or ALJ order regarding the submission of witness or exhibit lists and the disclosure of proposed exhibits to opposing parties.

10.14(2) Form and contents.

a. Requirements. Any subpoena issued after the commencement of a contested case or other proceeding conducted by the division shall be issued on a form approved by the division and must:

(1) State that the subpoena is issued by the administrative hearings division of the department of inspections and appeals;

(2) State the title of the proceeding and its case number;

(3) Command each person to whom it is directed to do the following at a specified time and place: attend and testify; produce designated documents, electronically stored information, or tangible things in that person's possession, custody or control; or permit the inspection of premises; and

(4) Include a guidance document for subpoenaed persons that has been approved by the division and that shall include the text of subrules 10.14(4) and 10.14(5).

b. Command to attend a deposition; notice of the recording method. A subpoena commanding attendance at a deposition must state the method for recording the testimony.

c. Combining or separating a command to produce or to permit inspection; specifying the form for electronically stored information. A command to produce documents, electronically stored information, or tangible things or to permit the inspection of premises may be included in a subpoena commanding attendance at a deposition, hearing, or trial or may be set out in a separate subpoena. A subpoena may specify the form or forms in which electronically stored information is to be produced.

d. Command to produce; included obligations. A command in a subpoena to produce documents, electronically stored information, or tangible things requires the responding party to permit inspection, copying, testing, or sampling of the materials.

10.14(3) Service of subpoenas.

a. The requesting party is responsible for arranging service of a subpoena prior to the hearing or deposition at which the testimony is commanded or the time at which the requested documents must be produced. The party is responsible for any cost associated with serving a subpoena and for the payment of witness fees and mileage expenses. If requested, pursuant to Iowa Code section 622.69, the witness fee is \$10 for a full day's attendance and is \$5 for attendance less than a full day, and mileage shall be paid for each mile actually traveled to participate in an in-person hearing or deposition at the rate established by the supreme court for witnesses in court proceedings, except that:

(1) No peace officer who receives a regular salary, or any other public official shall in any case receive fees as a witness for testifying in regard to any matter coming to the officer's or official's knowledge in the discharge of the officer's or official's official duties in a telephone hearing or an in-person hearing held in the county of the officer's or official's residence, except police officers who are called as witnesses when not on duty. An officer is on duty when paid by the officer's employing agency regardless whether the officer would regularly be on duty at the time of the hearing.

(2) A volunteer fire fighter, as defined in Iowa Code section 85.61, who is subpoenaed to appear as a witness in connection with a matter regarding an event or transaction which the fire fighter perceived or investigated in the course of duty as a volunteer fire fighter shall receive a fee only as provided for under Iowa Code section 622.71A.

b. Any person who is at least 18 years old and not a party may serve a subpoena. Serving a subpoena requires delivering a copy to the named person and, if the subpoena requires that person's attendance and, if demanded, tendering the fees for one day's attendance and traveling fees to and from the proceeding. If the subpoena commands the production of documents, electronically stored information, or tangible things, then before it is served, a notice must be served on each party. For purposes of this rule, an employee of a

state or local governmental agency is not a party merely because the agency is a party and may serve a subpoena unless the employee is also a named party in the proceeding or otherwise ineligible to serve a subpoena.

c. Permissible place of service. A subpoena may be served any place within the state of Iowa.

d. Proof of service. Proving service, when necessary, requires filing with the division a statement showing the date and manner of service and the names of persons served. The server must certify the statement in accordance with Iowa Code section 622.1.

10.14(4) *Protecting a person subject to a subpoena.*

a. *Avoiding undue burden or expense; sanctions.* A party or attorney responsible for serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The administrative law judge must enforce this duty and impose an appropriate sanction, which may include lost earnings and reasonable attorney's fees, on a party or attorney who fails to comply.

b. *Command to produce materials or permit inspection.*

(1) Appearance not required. A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition or hearing.

(2) Objections. A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing or sampling any or all of the materials or to inspecting the premises, or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

1. At any time, on notice to the commanded person, the serving party may move for an order compelling production or inspection.

2. These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

c. *Attendance.* Any party shall be permitted to attend at the same time and place and for the same purposes specified in the subpoena. No prior notice of intent to attend is required.

d. *Quashing or modifying a subpoena.*

(1) When required. On timely motion, the administrative law judge must quash or modify a subpoena that:

1. Fails to allow a reasonable time to comply;

2. Requires a person who is neither a party nor a party's officer to travel more than 50 miles from where that person resides, is employed, or regularly transacts business in person, except that a person may be ordered to attend a hearing anywhere within the state in which the person is served with a subpoena;

3. Requires disclosure of privileged or other protected matter, if no exception or waiver applies; or

4. Subjects a person to undue burden.

(2) When permitted. To protect a person subject to or affected by a subpoena, the administrative law judge may, on motion, quash or modify the subpoena if it requires:

1. Disclosing a trade secret or other confidential research, development, or commercial information;

2. Disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party; or

3. A person who is neither a party nor a party's officer to incur substantial expense to travel more than 50 miles to attend a hearing.

(3) Specifying conditions as an alternative. In the circumstances described in subparagraph 10.14(4) "d"(2), the administrative law judge, instead of quashing or modifying a subpoena, may order appearance or production under specified conditions if the serving party:

1. Shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and

2. Ensures that the subpoenaed person will be reasonably compensated.

(4) A motion to quash or modify a subpoena shall be filed with the division and served on all parties of record pursuant to rule 481—10.12(17A), except that a motion filed by or on behalf of a person who is

neither a party nor a party's officer may be filed with the division and served only on the agency with a request for the division to provide a copy of the motion to all non-agency parties. The division may require a person requesting the division to provide the motion to a non-agency party to provide an additional paper copy of the motion and any attached exhibits for the division to provide to the non-agency party.

(5) The motion may be set for argument at the discretion of the administrative law judge. The administrative law judge may limit the participation of a person who is not a party, or the representative of such a person, to the extent necessary to protect any confidential information related to the proceeding.

10.14(5) Duties in responding to a subpoena.

a. Producing documents or electronically stored information. These procedures apply to producing documents or electronically stored information:

(1) Documents. A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(2) Form for producing electronically stored information not specified. If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(3) Electronically stored information produced in only one form. The person responding need not produce the same electronically stored information in more than one form.

(4) Inaccessible electronically stored information. The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the administrative law judge may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Iowa Rule of Civil Procedure 1.504(1)(b). The administrative law judge may specify conditions for the discovery.

b. Claiming privilege or protection.

(1) Information withheld. A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

1. Expressly make the claim; and

2. Describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(2) Information produced. If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information to the court under seal for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

This rule is intended to implement Iowa Code sections 10A.104(6) and 17A.13.

481—10.15(10A,17A) Motions.

10.15(1) No technical form is required for motions. Prehearing motions, however, must be written, state the grounds for relief and state the relief sought. Any motion for summary judgment shall be filed in compliance with the requirements of Iowa Rules of Civil Procedure.

10.15(2) Any party may file a written resistance or response to a motion within 14 days after the motion is served, unless the time period is extended or shortened by rules of the agency or the administrative law judge. The ALJ may consider a failure to respond within the required time period in ruling on a motion.

10.15(3) The administrative law judge may schedule oral argument on any motion on the request of any party or the ALJ's own motion.

10.15(4) Except for good cause, all motions pertaining to the hearing must be filed and served at least ten days prior to the hearing date unless the time period is shortened or lengthened by rules of the agency or the administrative law judge.

481—10.16(10A,17A) Prehearing conference.

10.16(1) *Set by division.* The division may commence a contested case proceeding by issuing a notice of hearing that sets a prehearing conference to provide parties an opportunity to be heard on the selection of a date and time for the hearing on the merits and any other matters set forth in the notice or raised by the parties.

10.16(2) *Requested by party.* Any party may request a prehearing conference by filing and serving a written motion at least ten days prior to the date of the hearing. The motion must state any matters that the party seeks to address at the prehearing conference. If the administrative law judge grants the motion, the administrative law judge shall issue an order providing notice of the date and time of the prehearing conference to all parties.

10.16(3) *Ordered by administrative law judge.* The administrative law judge may order a prehearing conference if the administrative law judge determines on the administrative law judge's own motion that a prehearing conference should be held.

10.16(4) *Default.* If a party fails to appear or participate in a prehearing conference after proper service of notice, the administrative law judge may enter a default decision or proceed with the prehearing conference in the absence of the party.

This rule is intended to implement Iowa Code sections 10A.801(7) and 17A.12.

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.17(10A) Continuances. Unless otherwise provided, application for continuance shall be made to the ALJ or to the division if an ALJ has not been assigned.

10.17(1) A written application for continuance shall:

- a. Be made before the hearing;
- b. State the specific reasons for the request; and
- c. Be signed by the requesting party or their representative.

10.17(2) If the ALJ waives the requirement for a written motion, an oral application for continuance may be made. A written application shall be submitted no later than five days after the oral request. The ALJ may waive this requirement. No application for continuance will be made or granted ex parte without notice except in an emergency where notice is not feasible. The agency may waive notice of requests for a case or a class of cases.

10.17(3) Except where otherwise provided, a continuance may be granted at the discretion of the ALJ. The administrative law judge shall consider, in addition to the grounds stated in the motion:

- a. Any prior continuances;
- b. The interests of all parties;
- c. The likelihood of informal settlement;
- d. Existence of emergency;
- e. Objection to the continuance;
- f. Any applicable state or federal statutes or regulations;
- g. The existence of a conflict in the schedules of counsel or parties or witnesses; and
- h. The timeliness of the request.

The ALJ may require documentation of any ground for continuance.

This rule is intended to implement Iowa Code section 10A.801(7).

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.18(10A,17A) Withdrawals. The party which requested an evidentiary hearing regarding agency action may withdraw prior to the hearing only in accordance with agency rules. Requests for withdrawal may be oral or written. If oral, the ALJ may require the party to submit a written request after the oral request. Unless otherwise provided, a withdrawal shall be with prejudice.

This rule is intended to implement Iowa Code sections 10A.801(7) and 17A.22.

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.19(10A,17A) Intervention.

10.19(1) Motion. A motion for leave to intervene shall be served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding. A proposed answer or petition in intervention shall be attached to the motion. Any party may file a response within ten days of service of the motion to intervene unless the time period is extended or shortened by the ALJ.

10.19(2) When filed. Motion for leave to intervene shall be filed as early in the proceeding as possible to avoid adverse impact on existing parties or the disposition of the proceeding. Unless otherwise ordered, a motion for leave to intervene shall be filed before the prehearing conference, if one is held, or at least 20 days before the date scheduled for hearing. Any later motion must contain a statement of good cause for the failure to file in a timely manner. The intervenor shall be bound by any agreement, arrangement or other matter previously raised in the case. Requests by untimely intervenors for continuances which would delay the hearing will be denied.

10.19(3) Grounds for intervention. The movant shall demonstrate that:

- a. Intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties;
- b. The movant will be aggrieved or adversely affected by a final order; and
- c. The interests of the movant are not being adequately represented by existing parties; or that it is otherwise entitled to intervene.

10.19(4) Effect of intervention. If appropriate, the ALJ may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings. A person granted leave to intervene is a party to the proceeding. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding.

This rule is intended to implement Iowa Code sections 10A.801(7) and 17A.22.

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.20(17A) Hearing procedures.

10.20(1) When an ALJ has been appointed as the presiding officer in a contested case, the ALJ may:

- a. Rule on motions;
- b. Preside at the hearing;
- c. Require the parties to submit briefs;
- d. Issue a proposed decision; and
- e. Issue orders and rulings to ensure the orderly conduct of the proceedings.

10.20(2) All objections to procedures, admission of evidence or any other matter shall be timely made and stated on the record.

10.20(3) Parties in a contested case have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Partnerships, corporations or associations may be represented by any member, officer, director or duly authorized agent. Any party may be represented by an attorney or as otherwise authorized by law.

10.20(4) Parties in a contested case have the right to introduce evidence on points at issue, to cross-examine witnesses present at the hearing as necessary for a full and true disclosure of the facts, to present evidence in rebuttal and to submit briefs.

10.20(5) The ALJ shall maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly or disruptive.

10.20(6) Witnesses may be sequestered during the hearing.

10.20(7) The ALJ shall conduct the hearing in the following manner:

- a. The ALJ shall give an opening statement briefly describing the nature of the proceeding;
- b. The parties shall be given an opportunity to present opening statements;
- c. Parties shall present their cases in the sequence determined by the ALJ;
- d. Each witness shall be sworn or affirmed by the ALJ or the court reporter, and be subject to examination. The ALJ may limit questioning consistent with Iowa Code section 17A.14;

e. The ALJ has the authority to fully and fairly develop the record and may inquire into the matters at issue and shall receive in evidence the testimony of witnesses and any documents which are relevant and material; and

f. When all parties and witnesses have been heard, parties shall be given the opportunity to present final arguments.

This rule is intended to implement Iowa Code sections 17A.11 to 17A.14.

481—10.21(17A) Evidence.

10.21(1) The ALJ shall rule on admissibility of evidence in accordance with Iowa Code section 17A.14 and may take official notice of facts pursuant to Iowa Code subsection 17A.14(4).

10.21(2) Stipulation of facts is encouraged. The ALJ may make a decision based on stipulated facts.

10.21(3) Evidence shall be confined to the issues on which there has been fair notice prior to the hearing. The ALJ may take testimony on a new issue if the parties waive the right to notice and no other objection is made. If there is objection, the ALJ may refuse to hear the new issue and may make a decision on the original issue in the notice, or may grant a continuance to allow the parties adequate time to amend pleadings and prepare their cases on the additional issue.

10.21(4) The party seeking admission of an exhibit must provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents should be provided to opposing parties.

All exhibits admitted into evidence shall be appropriately marked and be made part of the record.

10.21(5) Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. The party objecting shall briefly state the grounds for the objection. The objection, the ruling on the objection and the reasons for the ruling shall be noted in the record. The ALJ may rule on the objection at the time it is made or may reserve a ruling until the written decision.

10.21(6) Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony shall briefly summarize the testimony. If the evidence excluded consists of a document or exhibits, it shall be marked as part of an offer of proof and inserted in the record.

This rule is intended to implement Iowa Code sections 17A.11 to 17A.14.

481—10.22(17A) Default.

10.22(1) If a party fails to appear in a contested case proceeding after proper service of notice, the ALJ may, if no adjournment is granted, proceed with the hearing and make a decision in the absence of the party.

10.22(2) Where appropriate and not contrary to law, any party may move for default against a party who has requested an evidentiary hearing to contest adverse agency action which has already occurred, but has failed to file a required pleading or has failed to appear after proper service.

10.22(3) Where authorized by law, an ALJ may issue a default order.

481—10.23(17A) Ex parte communication.

10.23(1) Ex parte communication is prohibited as provided in Iowa Code section 17A.17. Parties or their representatives and ALJs shall not communicate directly or indirectly in connection with any issue of fact or law in a contested case except upon notice and an opportunity for all parties to participate. The ALJ may communicate with persons who are not parties as provided in subrule 10.23(2).

10.23(2) However, the ALJ may communicate with members of the agency and may have the aid and advice of persons other than those with a personal interest in, or those prosecuting or advocating in the case under consideration or a factually related case involving the same parties.

10.23(3) Any party or ALJ who receives prohibited communication shall submit the written communication or a summary of the oral communication for inclusion in the record. Copies shall be sent to all parties. There shall be opportunity to respond.

10.23(4) Prohibited communications may result in sanctions as provided in agency rule. In addition, the department, through the ALJ, may censure the person or may prohibit further appearance before the department.

This rule is intended to implement Iowa Code sections 17A.14 and 17A.17.

481—10.24(10A,17A) Decisions.

10.24(1) *Proposed decisions.* The ALJ shall issue a proposed decision which includes findings of fact and conclusions of law stated separately. The decision shall be based on the record of the contested case.

The record in a contested case shall include all materials specified in Iowa Code subsection 17A.12(6). This shall include any request for a contested case hearing and other relevant procedural documents regardless of their form.

A ruling dismissing all of a party's claims or a voluntary dismissal is a proposed decision under Iowa Code section 17A.15.

10.24(2) *Review of proposed decisions.* Request for review of a proposed decision shall be made to the agency in which the contested case originated in the manner and within the time specified by that agency's rules. In contested cases in which the director of the department of inspections and appeals has final decision-making authority, request for review shall be made as provided in rule 481—9.3(10A,17A).

10.24(3) *Final decisions.* If there is no appeal from or review of the proposed decision, the ALJ's proposed decision becomes the final decision of the agency.

10.24(4) *Agency reports.* The agency shall send a copy of any request for review of a proposed decision to the division. The agency shall notify the division of the results of the review, the final decision and any judicial decision issued.

10.26(1) The ALJ may rule on preliminary matters, including motions, and conduct prehearing conferences referred by the board.

10.26(2) The ALJ may conduct the hearing for the board, and may, when delegated by the board, perform duties including, but not limited to, the following:

- a. Open the record and receive appearances;
- b. Administer oaths and issue subpoenas;
- c. Enter the notice of hearing into the record;
- d. Enter the statement of charges into the record;

481—11.6(17A,724) Service and filing of documents. Service and filing of documents shall be in accordance with rule 481—10.12(17A).

This rule is intended to implement Iowa Code section 724.21A.

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 1993C, IAB 5/27/15, effective 7/1/15; ARC 6861C, IAB 2/8/23, effective 3/15/23]

481—11.7(17A) Witness lists and exhibits. If a party fails to serve on all parties and file with the division a witness list or any exhibit as set forth in the notice of hearing, the party may be precluded from calling the witness at hearing or introducing the exhibit(s) into the record at hearing.

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 1993C, IAB 5/27/15, effective 7/1/15; ARC 6861C, IAB 2/8/23, effective 3/15/23]

481—11.8(17A) Evidence. Evidence shall be governed by rule 481—10.21(17A).

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 6861C, IAB 2/8/23, effective 3/15/23]

481—11.9(17A) Withdrawals and dismissals. A request for withdrawal or dismissal of the appeal may be made with the division prior to the hearing. Either request must be in writing or secured on the record.

11.9(1) Withdrawals. An applicant or permittee who requested a contested case proceeding may request a withdrawal of the appeal. Upon receipt of a request for withdrawal of the appeal, the administrative law judge shall issue an order dismissing the appeal and addressing the award of attorney fees pursuant to rule 481—11.11(10A).

11.9(2) Dismissals. An agency may request a dismissal of the appeal by agreeing to grant the entire relief sought by the applicant or permittee. The administrative law judge shall review a request for dismissal to determine whether it grants all relief requested in the appeal. If the request grants all relief requested in the appeal, the administrative law judge shall issue an order dismissing the appeal, ordering the agency to grant the relief requested, determining that no attorney fees are to be awarded, and closing the case.

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 3217C, IAB 7/19/17, effective 8/23/17]

481—11.10(17A) Default. If a party fails to appear after proper service of notice, the administrative law judge may enter a default order against the party or may proceed with the hearing and make a decision in the absence of the party. The default order or decision made in the absence of the party shall address the award of attorney fees pursuant to rule 481—11.11(10A).

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 3217C, IAB 7/19/17, effective 8/23/17]

481—11.11(10A,724) Attorney fees, court costs, and contested case costs.

11.11(1) Attorney fees. In a decision rescinding or sustaining the agency's denial, suspension, or revocation of the permit or otherwise granting a request to withdraw or dismiss the appeal, the administrative law judge shall determine whether a party is entitled to an award of attorney fees consistent with paragraph 11.11(1) "a" or "b." If a party is entitled to an award, the decision shall inform the parties of the applicable procedure provided in paragraph 11.11(1) "c" for determining the amount of such an award unless the administrative law judge determines the amount of an award in the decision as provided for in paragraph 11.11(1) "f."

a. If the administrative law judge rescinds the agency's denial, suspension, or revocation of the permit and determines the applicant or permittee is eligible to be issued or to possess the permit, the applicant or permittee shall be awarded any reasonable attorney fees. A dismissal of the appeal at the request of the agency under subrule 11.9(2) is not a determination that the applicant or permittee is eligible to be issued or to possess the permit and does not entitle the applicant or permittee to an award of attorney fees. An applicant or permittee who is not represented by an attorney in the contested case proceeding is not entitled to an award of attorney fees.

b. If the administrative law judge affirms the agency's denial, suspension, or revocation of the permit or grants the applicant's or permittee's request to withdraw or dismiss the appeal, the agency shall be awarded any reasonable attorney fees. Such an award to the agency shall be made to the political subdivision of the state representing the sheriff or to the state department representing the commissioner as applicable. An agency is not entitled to an award of attorney fees if the agency requests dismissal of the appeal under subrule 11.9(2) or if the agency is not represented by an attorney in the contested case proceeding.

c. Within 14 days of the date of a decision in which the administrative law judge determines that a party is entitled to an award of attorney fees, the party shall file a request for attorney fees and documentation supporting the request or a joint statement with the other party agreeing to the amount of reasonable attorney fees. Within 7 days of the filing of a request for attorney fees, the other party may file a resistance, including any relevant evidence, or a statement agreeing to the requested attorney fees. Upon request of either party or on the administrative law judge's own motion, a hearing may be scheduled on the issue of the attorney fee award.

d. If the party fails to file a request for attorney fees or a joint statement within 14 days, the administrative law judge shall issue an order determining that no attorney fees are awarded in the case. If the parties agree to the amount of reasonable attorney fees to be awarded, the administrative law judge shall issue an order awarding attorney fees consistent with the agreement. In all other cases, the administrative law judge shall issue a written order determining the reasonable attorney fees in the case.

e. The administrative law judge's decision is not final for purposes of rehearing under rule 481—11.14(17A) or judicial review under Iowa Code chapter 17A until the administrative law judge has issued a written decision determining the amount of any attorney fees to be awarded under this subrule or determining that no attorney fees are to be awarded.

f. If an application for rehearing under rule 481—11.14(17A) is denied, no additional attorney fees shall be awarded to either party. If an application for rehearing is granted, all the provisions of this subrule apply to the rehearing proceedings unless the only relief sought on rehearing relates to the attorney fee award. If the only relief sought relates to the attorney fee award, the order granting the application for rehearing shall provide that a party opposing the requested relief may file a resistance, including any relevant evidence, within 7 days of the date of the order and shall schedule a hearing or provide that a hearing may be scheduled upon the request of either party. In such a case, the administrative law judge shall issue a single final decision regarding the attorney fee award.

g. Any attorney fees awarded under this subrule shall be paid to the awarded party within 30 days of the issuance of an order determining the amount of attorney fees awarded unless an interested party seeks rehearing under rule 481—11.14(17A) or judicial review under Iowa Code chapter 17A or the parties agree to an alternative payment schedule. If a party seeks rehearing under rule 481—11.14(17A), the attorney

fees shall be paid within 30 days of the denial of the application for rehearing or of any final decision awarding attorney fees after the grant of an application for rehearing. If a party seeks judicial review under Iowa Code chapter 17A, the attorney fee award shall be stayed pending resolution of the judicial review action. A party awarded attorney fees is responsible for taking any necessary action to enforce the award if payment is not made.

11.11(2) *Court costs and attorney fees on judicial review.* Any request for the award of court costs or for attorney fees incurred after the entry of an order determining reasonable attorney fees may only be made to the court in a judicial review action under Iowa Code chapter 17A, unless a party requests rehearing under rule 481—11.14(17A), in which case reasonable attorney fees may be awarded by the administrative law judge related to the request for rehearing consistent with paragraph 11.11(1) “f.”

11.11(3) *Contested case costs.* Costs of the division in conducting a contested case proceeding arising out of a decision of the commissioner of public safety shall be charged to the department of public safety pursuant to Iowa Code section 10A.801(9).

This rule is intended to implement Iowa Code sections 10A.801 and 724.21A.

481—11.12(724) Probable cause. Probable cause to deny an initial or renewal application for a permit to carry weapons or acquire firearms or to suspend or revoke a permit to carry weapons or acquire firearms means a reasonable ground exists for supposing that the basis for the denial, suspension or revocation is well-founded.

481—15.2(10A) Canon 2. A presiding officer shall perform administrative judicial duties impartially, competently, and diligently.

15.2(1) *Giving precedence to administrative judicial duties.* The administrative judicial duties, as prescribed by law, shall take precedence over all of a presiding officer’s personal and extrajudicial activities.

15.2(3) *Bias, prejudice, and harassment.*

a. A presiding officer shall perform all administrative judicial and other duties without bias or prejudice.

b. A presiding officer shall not, in the performance of administrative judicial duties, by words or conduct manifest bias or prejudice or engage in harassment, including but not limited to bias, prejudice, or harassment based upon race, sex, gender, religion, national origin, ethnicity, disability, age, sexual orientation, marital status, socioeconomic status, or political affiliation, and shall not permit others subject to the presiding officer’s direction and control to do so.

c. A presiding officer shall require lawyers and party representatives in proceedings before the presiding officer to refrain from manifesting bias or prejudice or engaging in harassment, based upon attributes including but not limited to race, sex, gender, religion, national origin, ethnicity, disability, age, sexual orientation, marital status, socioeconomic status, or political affiliation, against parties, witnesses, lawyers, party representatives, or others.

d. The restrictions of paragraphs 15.2(3) “*b*” and “*c*” do not preclude presiding officers, lawyers, or party representatives from making legitimate reference to the listed factors, or similar factors, when they are relevant to an issue in a proceeding.

15.2(4) *External influences on administrative judicial conduct.*

a. A presiding officer shall not be swayed by public clamor or fear of criticism.

b. A presiding officer shall not permit family, social, political, financial, or other interests or relationships to influence the presiding officer’s administrative judicial conduct or judgment.

c. A presiding officer shall not convey or permit others to convey the impression that any person or organization is in a position to influence the presiding officer.

15.2(5) *Competence, diligence, and cooperation.*

a. A presiding officer shall perform administrative judicial and other duties competently and diligently.

b. A presiding officer shall cooperate with other presiding officers and other executive branch employees in the administration of agency business.

15.2(6) *Ensuring the right to be heard.*

a. A presiding officer shall accord to every person who has a legal interest in a proceeding, or that person's lawyer or authorized representative, the right to be heard according to law.

b. A presiding officer may encourage parties to a proceeding and their lawyers or authorized representatives to settle matters in dispute but shall not act in a manner that coerces any party into settlement.

15.2(7) *Responsibility to decide.* A presiding officer shall hear and decide matters assigned to the presiding officer, except when disqualification is required by subrule 15.2(11) or other law.

15.2(8) *Decorum and demeanor.*

a. A presiding officer shall require order and decorum in proceedings before the presiding officer.

b. A presiding officer shall be patient, dignified, and courteous to parties, board members, witnesses, lawyers, party representatives, agency staff, agency officials, and others with whom the presiding officer deals in an official capacity, and shall require similar conduct of lawyers, party representatives, and others subject to the presiding officer's direction and control.

15.2(9) *Ex parte communications.*

a. A presiding officer shall not initiate, permit, or consider ex parte communications, or consider other communications made to the presiding officer outside the presence of the parties or their lawyers, concerning a pending matter or impending matter, except as permitted by Iowa Code section 17A.17.

b. A presiding officer shall not investigate facts in a matter independently and shall consider only the evidence presented and any facts that may be officially noticed pursuant to Iowa Code section 17A.14.

15.2(10) *Statements on pending and impending cases.*

a. A presiding officer shall not make any public statement that might reasonably be expected to affect the outcome or impair the fairness of a pending matter or impending matter before the presiding officer or another presiding officer in the same agency, or make any nonpublic statement that might substantially interfere with a fair hearing.

b. A presiding officer shall not, in connection with cases, controversies, or issues that are likely to come before the presiding officer, make pledges, promises, or commitments that are inconsistent with the impartial performance of the presiding officer's adjudicative duties.

c. A presiding officer shall require others subject to the presiding officer's direction and control to refrain from making statements that the presiding officer would be prohibited from making by paragraphs 15.2(10) "a" and "b."

d. Notwithstanding the restrictions in paragraph 15.2(10) "a," a presiding officer may explain agency procedures and may comment on any proceeding in which the presiding officer is a party in a personal capacity.

e. Subject to the requirements of paragraph 15.2(10) "a," a presiding officer may respond directly or through a third party to allegations in the media or elsewhere concerning the presiding officer's conduct in a matter.

15.2(11) *Disqualification.*

a. A presiding officer shall disqualify himself or herself in any proceeding in which the presiding officer's impartiality might reasonably be questioned, including but not limited to the following circumstances:

(1) The presiding officer has a personal bias or prejudice concerning a party or a party's lawyer or other representative, or has personal knowledge of facts that are in dispute in the proceeding.

(2) The presiding officer knows that the presiding officer, the presiding officer's spouse or domestic partner, or a person within the third degree of relationship to either of them, or the spouse or domestic partner of such a person is:

1. A party to the proceeding, or an officer, director, general partner, managing member, or trustee of a party;

2. Acting as a lawyer or party representative in the proceeding;

3. A person who has more than a de minimis interest that could be substantially affected by the proceeding; or

4. Likely to be a material witness in the proceeding.

(3) The presiding officer knows that he or she, individually or as a fiduciary, or the presiding officer's spouse, domestic partner, parent, or child, or any other member of the presiding officer's family residing in the presiding officer's household, has an economic interest in the subject matter in controversy or in a party to the proceeding.

(4) The presiding officer, while a presiding officer, has made a public statement, other than in an agency proceeding, decision, opinion, or order, that commits or appears to commit the presiding officer to reach a particular result or rule in a particular way in the proceeding or controversy.

(5) The presiding officer:

1. Served as a lawyer in the matter in controversy or was associated with a lawyer who participated substantially as a lawyer in the matter during such association;

2. Served in governmental employment and in such capacity participated personally and substantially as a lawyer or public official concerning the proceeding, or has publicly expressed in such capacity an opinion concerning the merits of the particular matter in controversy; or

3. Was a material witness concerning the matter.

(6) The presiding officer personally investigated, prosecuted, or advocated in connection with the matter, the specific controversy underlying the matter, or another pending factually related matter, or pending factually related controversy that may culminate in a contested case, involving the same parties, or is subject to the authority, direction, or discretion of any person who has personally investigated, prosecuted, or advocated in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy, involving the same parties. But the presiding officer is not required to disqualify himself or herself solely because the presiding officer determined there was probable cause to initiate the proceeding.

b. A presiding officer shall keep informed about the presiding officer's personal and fiduciary economic interests and make a reasonable effort to keep informed about the personal economic interests of the presiding officer's spouse or domestic partner and minor children residing in the presiding officer's household.

c. A presiding officer subject to disqualification under this rule, other than for bias or prejudice under subparagraph 15.2(11)"a"(1), may disclose on the record the basis of the presiding officer's disqualification and may ask the parties and their lawyers or representatives to consider, outside the presence of the presiding officer, whether to waive disqualification. If, following the disclosure, the parties and lawyers or party representatives agree, without participation by the presiding officer, that the presiding officer should not be disqualified, the presiding officer may participate in the proceeding. The agreement shall be incorporated into the record of the proceeding.

15.2(12) Supervisory duties.

a. A presiding officer shall require others subject to the presiding officer's direction and control to act in a manner consistent with the presiding officer's obligations under this Code.

b. A presiding officer with supervisory authority for the performance of other presiding officers shall take reasonable measures to ensure that those presiding officers properly discharge their administrative judicial responsibilities, including the prompt disposition of matters before them.

15.2(13) Reserved.

15.2(14) Disability and impairment. A presiding officer having a reasonable belief that the performance of a lawyer, party representative, or another presiding officer is impaired by drugs or alcohol, or by a mental, emotional, or physical condition, shall take appropriate action, which may include a confidential referral to a lawyer or employee assistance program.

15.2(15) Responding to administrative judicial and lawyer misconduct.

a. A presiding officer having knowledge that another presiding officer has committed a violation of this Code that raises a substantial question regarding the presiding officer's honesty, trustworthiness, or fitness as a presiding officer in other respects shall inform the appropriate authority.

b. A presiding officer having knowledge that a lawyer has committed a violation of the Iowa Rules of Professional Conduct that raises a substantial question regarding the lawyer's honesty, trustworthiness, or fitness as a lawyer in other respects shall inform the appropriate authority.

a. A presiding officer shall cooperate and be candid and honest with a lawyer disciplinary agency or other appropriate authority investigating a violation of this Code or the Iowa Rules of Professional Conduct.

b. A presiding officer shall not retaliate, directly or indirectly, against a person known or suspected to have assisted or cooperated with an investigation of a presiding officer or a lawyer.

[ARC 3524C, IAB 12/20/17, effective 1/24/18]

481—15.3(10A) Canon 3. An administrative law judge shall conduct the administrative law judge's personal and extrajudicial activities to minimize the risk of conflict with administrative judicial obligations.

15.3(1) *Extrajudicial activities in general.* An administrative law judge may engage in extrajudicial activities, except as prohibited by law or this Code. However, when engaging in extrajudicial activities, an administrative law judge shall not:

a. Participate in activities that will interfere with the proper performance of the administrative law judge's administrative judicial duties;

b. Participate in activities that will lead to frequent disqualification of the administrative law judge;

c. Participate in activities that would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality;

d. Engage in conduct that would appear to a reasonable person to be coercive; or

e. Make use of agency premises, staff, stationery, equipment, or other resources, except for incidental use for activities that concern the law, the legal system, the provision of legal services, or the administration of justice, or unless such additional use is permitted by law.

15.3(2) *Reserved.*

15.3(3) *Testifying as a character witness.* An administrative law judge shall not testify as a character witness in a judicial, administrative, or other adjudicatory proceeding or otherwise vouch for the character of a person in a legal proceeding, except when duly subpoenaed.

15.3(4) *Appointments to governmental positions.* An administrative law judge shall not accept appointment to a governmental committee, board, commission, or other governmental position that would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality or would lead to frequent disqualification of the administrative law judge.

15.3(5) *Use of nonpublic information.* An administrative law judge shall not intentionally disclose or use nonpublic information acquired in an administrative judicial capacity for any purpose unrelated to the administrative law judge's administrative judicial or other duties.

15.3(6) *Affiliation with discriminatory organizations.*

a. An administrative law judge shall not hold membership in any organization that practices invidious discrimination on the basis of race, sex, gender, religion, national origin, ethnicity, or sexual orientation. An administrative law judge's membership in a religious organization as a lawful exercise of the freedom of religion is not prohibited.

b. An administrative law judge shall not use the benefits or facilities of an organization if the administrative law judge knows or should know that the organization practices invidious discrimination on one or more of the bases identified in paragraph 15.3(6) "a." An administrative law judge's attendance at an event in a facility of an organization that the administrative law judge is not permitted to join is not a violation of this rule when the administrative law judge's attendance is an isolated event that could not reasonably be perceived as an endorsement of the organization's practices.

15.3(7) *Participation in educational, religious, charitable, fraternal, or civic organizations and activities.*

a. Subject to the requirements of subrule 15.3(1), an administrative law judge may participate in activities sponsored by organizations or governmental entities concerned with the law, the legal system, the provision of legal services, or the administration of justice, and those sponsored by or on behalf of educational, religious, charitable, fraternal, or civic organizations not conducted for profit, including but not limited to the following activities:

(1) Assisting such an organization or entity in planning related to fund-raising, volunteering goods or services at fund-raising events, and participating in the management and investment of the organization's or entity's funds;

(2) Soliciting contributions for such an organization or entity, but only from members of the administrative law judge's family, or from other administrative law judges or coworkers in the administrative law judge's immediate office over whom the administrative law judge does not exercise supervisory authority;

(3) Appearing or speaking at, receiving an award or other recognition at, being featured on the program of, and permitting his or her title to be used in connection with an event of such an organization or entity, but if the event serves a fund-raising purpose, the administrative law judge may participate only if the event concerns the law, the legal system, the provision of legal services, or the administration of justice;

(4) Making recommendations to such a public or private fund-granting organization or entity in connection with its programs and activities, but only if the organization or entity is concerned with the law, the legal system, the provision of legal services, or the administration of justice; and

(5) Serving as an officer, director, trustee, or nonlegal advisor of such an organization or entity, unless it is likely that the organization or entity:

1. Will be engaged in proceedings that would ordinarily come before the administrative law judge; or

2. Will frequently be engaged in adversary proceedings before the agency in which the administrative law judge serves.

b. An administrative law judge may encourage lawyers to provide pro bono publico legal services.

c. Subject to the requirements of subrule 15.3(1), an administrative law judge may:

(1) Provide leadership in identifying and addressing issues involving equal access to the justice system; developing public education programs; engaging in activities to promote the fair administration of justice and convening, participating or assisting in advisory committees and community collaborations devoted to the improvement of the law, the legal system, the provision of legal services, or the administration of justice.

(2) Endorse projects and programs directly related to the law, the legal system, the provision of legal services, and the administration of justice to those coming before the courts or the administrative judiciary.

(3) Participate in programs concerning the law or which promote the administration of justice.

15.3(8) *Appointments to fiduciary positions.*

a. An administrative law judge shall not accept appointment to serve in a fiduciary position, such as executor, administrator, trustee, guardian, attorney in fact, or other personal representative, except for the estate, trust, or person of a member of the administrative law judge's family, and then only if such service will not interfere with the proper performance of administrative judicial duties.

b. An administrative law judge shall not serve in a fiduciary position if the administrative law judge as fiduciary will likely be engaged in proceedings that would ordinarily come before the administrative law judge, or if the estate, trust, or ward becomes involved in adversary proceedings before the agency in which the administrative law judge serves.

c. An administrative law judge acting in a fiduciary capacity shall be subject to the same restrictions on engaging in financial activities that apply to an administrative law judge personally.

d. If a person who is serving in a fiduciary position becomes an administrative law judge, he or she must comply with this subrule as soon as reasonably practicable, but in no event later than six months after becoming an administrative law judge.

15.3(9) *Services as arbitrator or mediator.* An administrative law judge shall not act as an arbitrator or a mediator or perform other judicial functions apart from the administrative law judge's official duties unless expressly authorized by law.

15.3(10) *Practice of law.* An administrative law judge shall not engage in the private practice of law. An administrative law judge may act pro se and may, without compensation, give legal advice to and draft or review documents for a member of the administrative law judge's family, but is prohibited from serving as the family member's lawyer before the agency in which the administrative law judge serves. An administrative law judge serving in the administrative hearings division of the department of inspections and appeals is prohibited from serving as the family member's lawyer in any proceeding in which another administrative law judge serving in the division is the presiding officer, regardless of whether the proceeding is being conducted on behalf of the department of inspections and appeals or another state agency.

15.3(11) *Financial, business, or remunerative activities.*

a. An administrative law judge may hold and manage investments of the administrative law judge and members of the administrative law judge's family.

b. An administrative law judge shall not serve as an officer, director, manager, general partner, advisor, or employee of any business entity except that an administrative law judge may manage or participate in:

(1) A business closely held by the administrative law judge or members of the administrative law judge's family; or

(2) A business entity primarily engaged in investment of the financial resources of the administrative law judge or members of the administrative law judge's family.

c. An administrative law judge shall not engage in financial activities permitted under paragraphs 15.3(11) "a" and "b" if they will:

(1) Interfere with the proper performance of administrative judicial duties;

(2) Lead to frequent disqualification of the administrative law judge;

(3) Involve the administrative law judge in frequent transactions or continuing business relationships with lawyers or other persons likely to come before the agency in which the administrative law judge serves; or

(4) Result in violation of other provisions of this Code.

15.3(12) *Compensation for extrajudicial activities.* An administrative law judge may accept reasonable compensation for extrajudicial activities permitted by this Code and other law unless such acceptance would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality.

15.3(14) *Reimbursement of expenses and waivers of fees or charges.*

a. Unless otherwise prohibited by subrules 15.3(1) and 15.3(13), Iowa Code chapter 68B, or other law, an administrative law judge may accept reimbursement of necessary and reasonable expenses for travel, food, lodging, or other incidental expenses, or a waiver or partial waiver of fees or charges for registration, tuition, and similar items, from sources other than the administrative law judge's employing entity, if the expenses or charges are associated with the administrative law judge's participation in extrajudicial activities permitted by this Code.

[ARC 3524C, IAB 12/20/17, effective 1/24/18]

481—15.5(10A) Scope, definitions, and application.

15.5(1) *Scope.*

a. The Iowa Code of Administrative Judicial Conduct consists of four canons, each of which is codified as the introductory paragraph of an administrative rule, and numbered rules under each canon, which are codified as subrules. Subrule 15.5(3) establishes when the various rules apply to a presiding officer or an administrative law judge.

b. The canons state overarching principles of judicial ethics that all administrative law judges and presiding officers, as applicable, must observe. Although an administrative law judge or presiding officer may be disciplined only for violating an applicable rule, the canons provide important guidance in interpreting the rules. Where a rule contains a permissive term, such as “may” or “should,” the conduct being addressed is committed to the personal and professional discretion of the administrative law judge or presiding officer in question, and no disciplinary action should be taken for action or inaction within the bounds of such discretion.

c. Consistent with the requirement of Iowa Code section 10A.801(7)(d), this Code is similar in function and substantially equivalent to the Iowa Code of Judicial Conduct adopted by the Iowa Supreme Court and contained in Chapter 51 of the Iowa Court Rules. The Iowa Code of Judicial Conduct includes accompanying comments to the rules that may provide useful guidance regarding the purpose, meaning, and proper application of the corresponding rule in this Code. The comments contain explanatory material and, in some instances, provide examples of permitted or prohibited conduct. The comments may also identify aspirational goals for administrative law judges and presiding officers. To implement fully the principles of this Code as articulated in the canons, administrative law judges and presiding officers should strive to exceed the standards of conduct established by the rules, holding themselves to the highest ethical standards and seeking to achieve those aspirational goals, thereby enhancing the dignity of the administrative judicial position.

d. The rules of this Code are rules of reason that should be applied consistent with constitutional requirements, statutes, administrative rules, and decisional law, and with due regard for all relevant circumstances. The rules should not be interpreted to impinge upon the essential independence of administrative law judges and presiding officers in making administrative judicial decisions.

e. Although the black letter of the rules is binding and enforceable, it is not contemplated that every transgression will result in the imposition of discipline. Whether discipline should be imposed should be determined by the presiding officer's appointing authority through a reasonable and reasoned application of the rules, and should depend upon factors such as the seriousness of the transgression, the facts and circumstances that existed at the time of the transgression, the extent of any pattern of improper activity, whether there have been previous violations, and the effect of the improper activity upon the administrative judicial system or others.

f. This Code is not designed or intended as a basis for civil or criminal liability. Neither is it intended to be the basis for parties to seek collateral remedies against each other or to obtain tactical advantages in proceedings before a presiding officer.

15.5(2) Definitions. For purposes of this chapter, the following definitions apply:

"Administrative law judge" means a person who acts as a presiding officer under the authority of Iowa Code section 17A.11(1) who is not an agency head or a member of a multimembered agency head. This includes, but is not limited to, administrative law judges employed by the administrative hearings division of the department of inspections and appeals, the unemployment insurance appeals bureau of Iowa workforce development, the public employment relations board, and the board of parole, as well as deputy workers' compensation commissioners in the division of workers' compensation of Iowa workforce development.

"Affiliate" and *"affiliated"* mean any person, domestic or foreign, that controls, is controlled by, or is under common control with any other person.

"Appropriate authority" means the authority having responsibility for the initiation of disciplinary process in connection with the violation to be reported.

"Associate" and *"associated"* means any person who employs, is employed by, or is under common employment with another person; any person who acts in cooperation, consultation, or concert with, or at the request of, another person; and any spouse, domestic partner, or person within the third degree of relationship of any of the foregoing.

"Contribution" means both financial and in-kind contributions, such as goods, professional or volunteer services, advertising, and other types of assistance which, if obtained by the recipient otherwise, would require a financial expenditure.

"Control" and *"controlled"* each refers to the power of one person to exercise, directly or indirectly or through one or more persons, a dominating, governing, or controlling influence over another person, whether by contractual relationship (including without limitation a debtor-creditor relationship), by family relationship, by ownership, dominion over, or power to vote any category or voting interest (including without limitation shares of common stock, shares of voting preferred stock, and partnership interests), or by exercising (or wielding the power to exercise) in any manner dominion over a majority of directors, partners, trustees, or other persons performing similar functions. See definition of *"affiliate"* and *"affiliated."*

"De minimis," in the context of interests pertaining to disqualification of an administrative law judge, means an insignificant interest that could not raise a reasonable question regarding the administrative law judge's impartiality.

"Domestic partner" means a person with whom another person maintains a household and an intimate relationship, other than a person to whom he or she is legally married.

"Economic interest" means ownership of more than a de minimis legal or equitable interest. Except for situations in which the presiding officer participates in the management of such a legal or equitable interest, or the interest could be substantially affected by the outcome of a proceeding before a presiding officer, it does not include:

1. An interest in the individual holdings within a mutual or common investment fund;
2. An interest in securities held by an educational, religious, charitable, fraternal, or civic organization in which the presiding officer or the presiding officer's spouse, domestic partner, parent, or child serves as a director, an officer, an advisor, or other participant;
3. A deposit in a financial institution or deposits or proprietary interests the presiding officer may maintain as a member of a mutual savings association or credit union, or similar proprietary interests; or

4. An interest in the issuer of government securities held by the presiding officer.

"Fiduciary" includes relationships such as executor, administrator, trustee, or guardian.

"Impartial," "impartiality," and *"impartially"* mean absence of bias or prejudice in favor of, or against, particular parties or classes of parties, as well as maintenance of an open mind in considering issues that may come before a presiding officer or administrative law judge.

"Impending matter" is a matter that is imminent or expected to occur in the near future.

"Impropriety" includes conduct that violates the law, court rules, or provisions of the Iowa Code of Administrative Judicial Conduct, and conduct that undermines a presiding officer's or administrative law judge's independence, integrity, or impartiality.

"Independence" means a presiding officer's or administrative law judge's freedom from influence or controls other than those established by law.

"Integrity" means probity, fairness, honesty, uprightness, and soundness of character.

"Knowingly," "knowledge," "known," and *"knows"* mean actual knowledge of the fact in question. A person's knowledge may be inferred from circumstances.

"Law" encompasses administrative rules and regulations, court rules, ordinances, statutes, constitutional provisions, and decisional law.

"Member of the administrative law judge's family" means a spouse, domestic partner, child, grandchild, parent, grandparent, or other relative or person with whom the administrative law judge maintains a close familial relationship.

"Member of the presiding officer's family" means a spouse, domestic partner, child, grandchild, parent, grandparent, or other relative or person with whom the presiding officer maintains a close familial relationship.

"Member of a presiding officer's family residing in the presiding officer's household" means any relative of a presiding officer by blood or marriage, or a person treated by a presiding officer as a member of the presiding officer's family, who resides in the presiding officer's household.

"Nonpublic information" means information that is not available to the public. "Nonpublic information" may include, but is not limited to, information that is confidential or sealed by statute or court or administrative order or impounded or communicated in camera.

"Pending matter" is a matter that has commenced. A matter continues to be pending through any appellate process, including director review and judicial review, until final disposition.

"Person" means any natural or juridical person, including without limitation any corporation, limited liability company, partnership, trust, union, or other labor organization; any branch, division, department, or local unit of any of the foregoing; any political committee, party, or organization; or any other organization or group of persons.

"Political organization" means a political party or other group sponsored by or affiliated with a political party or candidate, the principal purpose of which is to further the election or appointment of candidates for political office.

"Presiding officer" means a person who acts as a presiding officer of a contested case proceeding under the authority of Iowa Code section 17A.11(1).

"Third degree of relationship" includes the following persons: great-grandparent, grandparent, parent, uncle, aunt, brother, sister, child, grandchild, great-grandchild, nephew, and niece.

15.5(3) Application.

a. The provisions of the Iowa Code of Administrative Judicial Conduct apply to all persons who act as presiding officers under the authority of Iowa Code section 17A.11(1), except as specified in paragraph 15.5(3) "b" for agency heads or members of multimembered agency heads. Canons and rules that apply to all presiding officers use the terminology "presiding officer" in their text. This Code only applies to an agency head or a member of a multimembered agency head who actually acts as a presiding officer and does not apply merely because the agency head or member of a multimembered agency head is authorized to serve as the presiding officer when another person serves as the presiding officer.

b. The provisions of rules 481—15.3(10A) and 481—15.4(10A) of this Code do not apply to agency heads or members of multimembered agency heads. These provisions apply only to administrative law judges and thus the terminology "administrative law judge" is used in their text.

c. This Code does not apply to persons who participate only in the making of a final decision in a contested case without serving as a presiding officer pursuant to Iowa Code section 17A.11(1) in that contested case unless a statute or administrative rule requires such a person to abide by this Code or a particular provision of this Code. This Code may nevertheless provide useful ethical guidance for a person participating in the making of a final decision in a contested case.

These rules are intended to implement Iowa Code section 10A.801.

481—16.3(10A) Registration, username, and passwords.

16.3(1) Registration.

a. *Registration.* Every individual filing documents or viewing or downloading filed documents in the AEDMS must register as a registered user of AEDMS.

b. *Changes in registered user’s contact information.* If a registered user’s email address, mailing address, or telephone number changes, the user must promptly make the necessary changes to the registered user’s information contained in AEDMS. The registered user shall promptly give notice of changes in contact information to any nonregistered party in every active proceeding in which the registered user is a party.

c. *Duties of registered user.* Each registered user shall ensure that the user’s email account information is current, that the account is monitored regularly, and that email notices sent to the account are timely opened.

d. *Division-initiated registration.* The division may complete the registration process on behalf of an individual in certain instances and email the username and password to the user. When the division completes the registration process, the user is required to promptly log in and change the password. Following initial notification regarding account registration, the user is required to promptly update and maintain accurate contact information for the AEDMS account.

16.4(2) What constitutes filing. The electronic transmission of a document to AEDMS consistent with the procedures specified in these rules, together with the production and transmission of a notice of electronic filing, constitutes filing of the document.

16.4(3) Electronic file stamp. Documents filed through AEDMS are officially filed when affixed with an electronic file stamp. Filings so endorsed shall have the same force and effect as documents time-stamped in a nonelectronic manner.

[ARC 6294C, IAB 4/20/22, effective 5/25/22]

c. The division will not review filings to determine whether appropriate omissions or redactions have been made or whether a document has been properly certified as confidential.

16.8(2) *Omission and redaction requirements.*

a. *Protected information that is not material to the proceedings.* A filer may redact protected information from documents filed with the division when the information is not material to the proceedings.

b. *Protected information that is material to the proceedings.* When protected information is material to the proceedings, a filer must certify the document as confidential when submitting the filing to the division.

c. *Protected information in a confidential document.* Parties are not required to redact protected information from documents that are certified as confidential.

16.8(3) *Information that may be redacted.* A filer may redact the following information from documents available to the public unless the information is material to the proceedings:

- a. Driver's license numbers.

- e. Proprietary or trade secret information.
- f. Information concerning crime victims.
- g. Sensitive security information.
- h. Home addresses.

16.8(4) *Improperly included protected information.* A party may ask the division to restrict access to improperly included protected information from a filed document. The division may order a properly redacted document to be filed.

481—16.9(10A) General requirements when filing documents.

16.9(1) *Format.* All documents must be converted to a PDF before they are filed in AEDMS. Documents submitted must be properly scanned, which includes having the pages in the correct order and orientation and having the scanned content of the document be legible.

16.9(2) *Separating documents.* Each document must be separated and uploaded with the correct document type selection on the document upload page. Any attachments to a document shall be uploaded as such and linked to the correct document prior to submission.

16.9(3) *Selecting document types.* For each electronically filed document, a filer must choose an accurate document type from the options listed on the document upload page. Once a document is submitted into AEDMS, only the division may make corrections to the document type the filer has chosen.

16.9(4) *Correcting errors.* If a filer discovers an error in the electronic filing or docketing of a document, the filer must contact the division as soon as possible. If the division discovers an error in the filing or docketing of a document, the division may notify the filer of the error and advise the filer of what further action the filer must take, if any, to address the error.

[ARC 6294C, IAB 4/20/22, effective 5/25/22]

481—16.10(10A) Case initiation and service.

16.10(3) *Electronic service and distribution of electronic filings.*

a. When a document is electronically filed, that document will be served automatically through AEDMS to all parties to the proceeding who are registered users. No other service to those registered users is required unless ordered by the division or unless the registered user has filed a document indicating an express withdrawal from use of the AEDMS, either entirely or for a specific case.

b. Notices of electronic filing will continue to be sent to registered users appearing or intervening in a proceeding until they have filed a withdrawal of appearance or document indicating an express withdrawal from use of the AEDMS, either entirely or for a specific case.

16.10(4) *Division-generated documents.* All documents issued by the division shall be electronically filed and served upon registered users. Division-generated documents shall be served upon nonregistered users pursuant to the applicable rules of contested case procedure and any other controlling law.

A license to operate any food establishment or food processing plant defined in rule 481—30.2(10A,137C,137F) must be granted by the department of inspections and appeals. Applications are available from the Department of Inspections and Appeals, Food and Consumer Safety Bureau, Lucas State Office Building, Des Moines, Iowa 50319-0083, or from contractors. Temporary food establishment license applications shall be submitted a minimum of 3 business days prior to opening.

30.3(1) *Transferability.* A license is not transferable to a new owner or location. Any change in business ownership or business location requires a new license. Vending machines, mobile food units and pushcarts may be moved without obtaining a new license. A farmers market time/temperature control for safety food license may be used in the same county at different individual locations without obtaining a new license. Nutrition sites for the elderly licensed under Iowa Code chapter 137F may change locations in the same city without obtaining a new license.

30.3(2) *Refunds.* License fees are refundable only if the license is surrendered to the department prior to the effective date of the license and only as follows:

- c. If an on-site visit has occurred, the entire license fee is nonrefundable.

The report shall not be posted in such a manner that the public cannot reasonably read the report. For example, the posting of a report behind a service area where the report can be seen but not easily read is not allowed. Vending machines shall bear a tag to affirm the license. For the purpose of this subrule, only founded complaint reports shall be considered complaints. Founded complaints shall be posted until either the mail-in recheck form has been submitted to the regulatory authority or a recheck inspection has been conducted to verify that the violations have been corrected.

30.3(5) *Documentation of gross sales.* The regulatory authority shall require from a license holder documentation of the annual gross sales of food and drink sold by a licensed food establishment or a licensed food processing plant unless the establishment is paying the highest license fee required by rule 481—30.4(137C,137F). The documentation submitted by the license holder will be kept confidential and will be used to verify that the license holder is paying the appropriate license fee based on annual gross sales of food and drink. For food processing plants that are food storage facilities and food establishments whose sales are included in a single rate with lodging or other services, the value of the food handled should be used. Documentation shall include at least one of the following:

- a. A copy of the firm's business tax return;
- b. Quarterly sales tax data;
- c. A letter from an independent tax preparer;
- d. Other appropriate records.

30.3(6) *License eligibility for renewal limited to 60 days after expiration.* A delinquent license shall only be renewed if application for renewal is made within 60 days of expiration of the license. If a delinquent license is not renewed within 60 days, an establishment must apply for a new license and meet all the requirements for licensure. [Prior to 8/26/87, see Inspections and Appeals Department[481]—Chs 21 and 22]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—31.1(137F) Inspection standards for food establishments. The department adopts, with the following exceptions, the 2017 Food Code with Supplement of the Food and Drug Administration as the state's "food code," which is the inspection standard for food establishments other than food processing plants.

31.1(1) Unattended food establishments—assignment of responsibility. For the purposes of section 2-101.11(C) of the 2017 Food Code with Supplement, unattended food establishments are not required to have a designated person in charge present during all hours of operation provided that the permit holder ensures the following requirements are met.

a. Unattended food establishment location. The unattended food establishment shall be located in the interior of a building that is not accessible by the general public. Access to the unattended food establishment shall be limited to a defined population (e.g., employees or occupants of the building where the establishment is located).

b. Nature and source of food and beverages offered for sale.

(1) Only commercially packaged foods properly labeled for individual retail sale, pursuant to Food Code section 3-201.11(C), shall be offered.

(2) No unpackaged food is permitted except as provided by section 3-302.11(B)(1) of the Food Code.

(3) Food preparation by consumers is limited to heating/reheating food in a microwave oven.

(4) No dispensing of bulk food is permitted.

c. Refrigerated display equipment. An unattended food establishment shall be equipped with refrigeration or freezer units that have the following features:

(1) Self-closing doors that allow food to be viewed without opening the door to the refrigerated cooler or freezer; and

(2) An automatic self-locking mechanism that prevents the consumer from accessing the food upon the occurrence of any condition that results in the failure of the refrigeration unit to maintain the internal product temperature specified under section 3-501.16(A)(2) or of the freezer unit to maintain the product as frozen.

d. Food service equipment limitations.

(1) Beverages are dispensed by individual serving only. Beverage dispensers connected to the building water supply must be properly equipped with backflow prevention pursuant to section 5-203.14 of the Food Code.

(2) Food-contact surfaces.

1. Multiuse food-contact surfaces shall be cleaned on a frequency consistent with the service pursuant to section 4-202.11 of the Food Code or can be and are easily removed and replaced with cleaned surfaces.

2. No multiuse food-contact surfaces intended for use with time/temperature control for safety foods are permitted.

e. Security.

(1) An unattended food establishment shall provide continuous video surveillance of areas where consumers view, select, handle and purchase products. The continuous video surveillance shall provide sufficient resolution to identify situations that may compromise food safety or food defense.

1. Video surveillance recordings shall be maintained and, upon request by a representative of a regulatory agency, made available for inspection within 24 hours of the request.

2. Video surveillance recordings shall be held by the establishment for a minimum of 14 days after the date of the surveillance.

(2) The permit holder shall take reasonable steps necessary to discourage individuals from returning food, beverages, or both that have not been selected for purchase.

3. Rotating foods to better ensure first in/first out of food items.
4. Cleaning food service equipment and food display areas.
5. Stocking food and disposable single-use and single-service supplies.
6. Checking inventory for recalled foods.

(2) The telephone number, email address or web information for the responsible business entity, when applicable.

h. *Designation of responsibilities.* The permit holder bears all responsibilities for the operation of the food establishment. When the permit holder is not the owner or operator of the building where the food establishment is located, a mutual agreement that outlines the responsibilities for cleaning and maintenance of all surfaces and equipment and for provision of supportive facilities/services, such as janitorial services and restroom facilities, pest control and removal of solid waste, may be approved by the regulatory agency. This agreement should also outline actions that must be taken by both parties to maintain the establishment in compliance with all requirements including responding to imminent health hazards.

481—31.5(137F) Temporary food establishments and farmers market time/temperature control for safety food licensees. While the retail food code adopted in rule 481—31.1(137F) applies to temporary food establishments, the following subrules provide a simplified version of requirements for temporary food establishments. If the two rules are inconsistent, the standards in this rule apply.

31.5(1) Personnel. For the purposes of this rule, employees include volunteers.

a. Employees shall keep their hands and exposed portions of their arms clean.

b. Employees shall have clean garments and aprons and effective hair restraints. Smoking, eating or drinking in food booths is not allowed. All nonworking, unauthorized persons are to be kept out of the food booth.

c. All employees, including volunteers, shall be under the direction of the person in charge. The person in charge shall ensure that the workers are effectively cleaning their hands, that time/temperature control for safety food is adequately cooked, held or cooled, and that all multiuse equipment or utensils are adequately washed, rinsed and sanitized.

d. Employees and volunteers shall not work at a temporary food establishment or farmers market time/temperature control for safety food establishment if the employees and volunteers have open cuts, sores or communicable diseases. The person in charge shall take appropriate action to ensure that employees and volunteers who have a disease or medical condition transmissible by food are excluded from the food operation.

e. Every employee and volunteer must sign a logbook with the employee’s or volunteer’s name, address, and telephone number and the date and hours worked. The logbook must be maintained for 30 days by the person in charge and be made available to the department upon request.

31.5(2) Food handling and service.

a. *Dry storage.* All food, equipment, utensils and single-service items shall be stored off the ground and above the floor on pallets, tables or shelving.

b. *Cold storage.* Refrigeration units shall be provided to keep time/temperature control for safety foods at 41°F or below. The inspector may approve an effectively insulated, hard-sided container with sufficient coolant for storage of time/temperature control for safety food at events of short duration if the container maintains the temperature at 41°F or below.

c. *Hot storage.* Hot food storage units shall be used to keep time/temperature control for safety food at 135°F or above. Electrical equipment is required for hot holding, unless the use of propane stoves and grills capable of holding the temperature at 135°F or above is approved by the department. Sterno cans are allowed for hot holding if adequate temperatures can be maintained. Steam tables or other hot holding

devices are not allowed to heat foods and are to be used only for hot holding after foods have been adequately cooked.

d. *Cooking temperatures.* As specified in the following chart, the minimum cooking temperatures for food products are:

165°F	• Poultry and game animals that are not commercially raised • Products stuffed or in a stuffing that contains fish, meat, pasta, poultry or ratite • All products cooked in a microwave oven
155°F	• Rabbits, ratite and game meats that are commercially raised • Ground or comminuted (such as hamburgers) meat/fish products • Raw shell eggs not prepared for immediate consumption
145°F	• Pork and raw shell eggs prepared for immediate consumption • Fish and other meat products not requiring a 155°F or 165°F cooking temperature as listed above

e. *Consumer advisory requirement.* If raw or undercooked animal food such as beef, eggs, fish, lamb, poultry or shellfish is offered in ready-to-eat form, the license holder (person in charge) shall post the consumer advisory as required by the food code.

f. *Thermometers.* Each refrigeration unit shall have a numerically scaled thermometer to measure the air temperature of the unit accurately. An appropriate thermometer shall be provided where necessary to check the internal temperature of both hot and cold food. Thermometers must be accurate and have a range from 0°F to 220°F.

g. *Food display.* Foods on display must be covered. The public is not allowed to serve itself from opened containers of food or uncovered food items. Condiments such as ketchup, mustard, coffee creamer and sugar shall be served in individual packets or from squeeze containers or pump bottles. Milk shall be dispensed from the original container or from an approved dispenser. All fruits and vegetables must be washed before being used or sold. Food must be stored at least six inches off the ground. All cooking and serving areas shall be adequately protected from contamination. Barbeque areas shall be roped off or otherwise protected from the public. All food shall be protected from customer handling, coughing or sneezing by wrapping, sneeze guards or other effective means.

h. *Food preparation.* Unless otherwise approved by a variance from the department, no bare-hand contact of ready-to-eat food shall occur.

i. *Approved food source.* All food supplies shall come from a commercial manufacturer or an approved source. The use of food in hermetically sealed containers that is not prepared in an approved food processing plant or home food processing establishment is prohibited. Transport vehicles used to supply food products are subject to inspection and shall protect food from physical, chemical and microbial contamination. Cottage foods may be offered for sale in a temporary food establishment if the temporary food establishment is operated by the cottage food producer and the cottage food is offered for sale in a packaged form and labeled pursuant to 481—paragraph 30.13(1) “g.”

j. *Leftovers.* Hot-held foods that are not used by the end of the day must be discarded.

31.5(3) Utensil storage and warewashing.

a. *Single-service utensils.* The use of single-service plates, cups and tableware is required.

b. *Dishwashing.* If approved, an adequate means to heat the water and a minimum of three basins large enough for complete immersion of the utensils are required to wash, rinse and sanitize utensils or food-contact equipment.

c. *Sanitizers.* Chlorine bleach or another approved sanitizer shall be provided for warewashing sanitization and wiping cloths. An appropriate test kit shall be provided to check the concentration of the sanitizer used. The person in charge shall demonstrate knowledge in the determination of the correct concentration of sanitizer to be used.

d. *Wiping cloths.* Wiping cloths shall be stored in a clean, 100 ppm chlorine sanitizing solution or equivalent. Sanitizing solution shall be changed as needed to maintain the solution in a clean condition.

31.5(4) Water.

a. Water supply. An adequate supply of clean water shall be provided from an approved source. Water storage units and hoses shall be food grade and approved for use in storage of water. If not permanently attached, hoses used to convey drinking water shall be clearly and indelibly identified as to their use. Water supply systems shall be protected against backflow or contamination of the water supply. Backflow prevention devices, if required, shall be maintained and adequate for their intended purpose.

b. Wastewater disposal. Wastewater shall be disposed of in an approved wastewater disposal system sized, constructed, maintained and operated according to law.

31.5(5) Premises.

a. Hand-washing container. An insulated container with at least a two-gallon capacity with a spigot, basin, soap and dispensed paper towels shall be provided for hand washing. The container shall be filled with hot water.

b. Floors, walls and ceilings. If required, walls and ceilings shall be of tight design and weather-resistant materials to protect against the elements and flying insects. If required, floors shall be constructed of tight wood, asphalt, rubber or plastic matting or other cleanable material to control dust or mud.

c. Lighting. Adequate lighting shall be provided. Lights above exposed food preparation areas shall be shielded.

d. Food preparation surfaces. All food preparation or food contact surfaces shall be of a safe design, smooth, easily cleanable and durable.

e. Garbage containers. An adequate number of cleanable containers with tight-fitting covers shall be provided both inside and outside the establishment.

f. Toilet rooms. An adequate number of approved toilet and hand-washing facilities shall be provided at each event.

g. Clothing. Personal clothing and belongings shall be stored at a designated place in the establishment, adequately separated from food preparation, food service and dishwashing areas.

This rule is intended to implement Iowa Code sections 137D.2 and 137F.2.

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—34.1(137D) Definitions. As used in this chapter, unless the context otherwise requires:

“Acidified foods” means low-acid foods to which an acid or high-acid food is added. Acidified foods have a water activity (a_w) greater than 0.85 and have a finished equilibrium pH of 4.60 or below. These foods may be called or may purport to be “pickles” or “pickled.”

“Active water” or *“water activity”* or *“(a_w)”* means the measured free moisture in a food. The quotient of the water vapor pressure of the food divided by the vapor pressure of pure water at the same temperature provides the measured free moisture in the food.

“Adulterated” means the same as stated 21 U.S.C. Section 342 as amended to January 3, 2022.

“Allergen cross contact” means the unintentional incorporation of a food allergen into a food.

“Contractor” means a municipal corporation, county, or other political subdivision that contracts with the department to license and inspect under Iowa Code chapter 137D.

“Cross contamination” means the inadvertent transfer of bacteria or other contaminants from one surface, substance, etc., to another, especially because of unsanitary handling procedures.

“Demonstrate control” means the ability to provide clear and convincing evidence that a home food processing establishment has implemented written standard processes and practices that are intended to control food safety hazards including but not limited to standardized recipes, standard operating procedures, personal hygiene standards, temperature monitoring records, equipment calibration records, production or batch records, sanitation records, predefined corrective actions, training documents, distribution records, and receiving records.

“Department” means the same as defined in Iowa Code section 137D.1.

“Equilibrium pH” means the final pH measured in a food after all the components of the food have achieved the same acidity.

“Fermentation” means a metabolic process in which an organism converts a carbohydrate, such as starch or a sugar, into an alcohol or an acid. For example, yeast performs fermentation by converting sugar into alcohol. Bacteria perform fermentation by converting carbohydrates into lactic acid.

“Fish” means fresh or saltwater finfish, crustaceans, and other forms of aquatic life (including alligator, frog, aquatic turtle, jellyfish, sea cucumber, and sea urchin and the roe of such animals) other than birds or mammals, and all mollusks, if such animal life is intended for human consumption.

“Food” means the same as defined in Iowa Code section 137D.1.

“Food contact surface” means a surface of equipment or utensil with which food normally comes into contact; or a surface of equipment or utensil from which food may drip, drain, or splash into a food or onto a surface normally in contact with food.

“Game animal” means an animal, the products of which are food, that is not classified as livestock, sheep, swine, goat, horse, mule, or other equine in 9 CFR 301.2 or as poultry or fish.

1. “Game animal” includes mammals, such as reindeer, elk, deer, antelope, water buffalo, bison, rabbit, squirrel, opossum, raccoon, nutria, or muskrat, and nonaquatic reptiles, such as land snakes.

2. “Game animal” does not include ratites.

“HACCP plan” means a written document that delineates the formal procedures for following the hazard analysis and critical control point principles developed by the National Advisory Committee on Microbiological Criteria for Foods.

“High-acid food” means a food that has an equilibrium pH of 4.60 or lower without the addition of an acid.

“Home food processing establishment” or *“establishment”* means the same as “home food processing establishment” as defined in Iowa Code section 137D.1.

“Homemade food item” means the same as defined in Iowa Code section 137D.1. Homemade food items do not include the following:

“Reduced oxygen packaging” means reducing the amount of oxygen in a package by removing oxygen, displacing oxygen and replacing it with another gas or combination of gases, or otherwise controlling the oxygen content to a level below that normally found in the atmosphere (approximately 21 percent at sea level). Reduced oxygen packaging includes vacuum packaging, modified atmosphere packaging, controlled atmosphere packaging, cook chill packaging, and sous vide packaging.

“Shellfish”

1. “Crustacean shellfish” means crab, lobster and shrimp.

41.11(3) The plan of care shall be reviewed every 30 days by the team referred to in rule 481—41.13(135H) to:

- a.* Determine that services being provided are or were required on an inpatient basis; and
- b.* Recommend changes in the plan as indicated by the recipient's overall adjustment as an inpatient.

This rule is intended to implement Iowa Code section 135H.3.

481—41.12(135H) Individual written plan of care. Before admission to a PMIC and before authorization for payment, the attending physician or staff physician must establish written plans for continuing care including review and modification of the plan of care.

481—41.13(135H) Plan of care team. The individual plan of care shall be developed by an interdisciplinary team of physicians and other personnel who are employed by the facility or provide services to patients.

41.13(1) Based on education and experience, the team must be capable of:

481—41.15(135H) Criminal behavior involving children. A person who has a record of a criminal conviction or a founded child abuse or dependent adult abuse shall not be licensed to operate, be employed by, or reside in a PMIC unless an evaluation of the crime or founded child or dependent adult abuse has been made by the department of human services which concludes that the crime or founded child or dependent adult abuse does not merit prohibition of employment.

41.15(1) A PMIC shall request that the department of human services (DHS) conduct a criminal and child abuse record check, when a person is being considered for licensure or for employment if the person will:

- a.* Have direct responsibility for a child;
- b.* Have access to a child when the child is alone; or

c. Reside in the facility.

41.15(2) A PMIC shall inform all new applicants for employment of the requirement for the criminal and child abuse record checks and the possibility of a dependent adult abuse record check. The PMIC shall obtain, from the applicant, a signed acknowledgment of the receipt of this information.

41.15(3) A PMIC shall include the following inquiry in an application for employment: “Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime, in this state or any other state?”

41.15(4) DHS will inform the PMIC of the results of the criminal, child abuse, and dependent adult abuse record checks. If a record of a criminal conviction or founded child or dependent adult abuse exists, the PMIC will be informed on Form 470-2310, “Record Check Evaluation.” The subject of the report shall complete that form and it shall be returned to DHS to request evaluation of the record to determine whether prohibition of the person’s licensure, employment, or residence is warranted.

41.15(5) If the evaluation is not requested or if the DHS determines that the person has committed a crime or has a record of founded child abuse or dependent adult abuse which warrants prohibition of licensure, employment, or residence, the person shall not be licensed to operate, be employed by, or reside in a PMIC.

This rule is intended to implement Iowa Code section 135H.7.

481—41.16(22,135H) Confidential or open information. The department maintains files for psychiatric medical institutions for children. These files are organized by facility name and contain both open and confidential information.

41.17(1) No employee shall use any prone restraints. For the purposes of this rule, “prone restraints” means those in which an individual is held face down on the floor. Employees who find themselves involved in the use of a prone restraint as the result of responding to an emergency must take immediate steps to end the prone restraint.

41.17(2) No employee shall use any restraint that obstructs the airway of any resident.

41.17(3) If an employee physically restrains a resident who uses sign language or an augmentative mode of communication as the resident’s primary mode of communication, the resident shall be permitted to have the resident’s hands free of restraint for brief periods, unless an employee determines that such freedom appears likely to result in harm to self or others.

CHAPTER 49
AMBULATORY SURGICAL CENTERS

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/5/29

481—49.1(135R) Definitions.

“*Ambulatory surgical center*” means the same as defined by Iowa Code section 135R.1.

“*Department*” means the department of inspections, appeals, and licensing.

[ARC 7886C, IAB 5/1/24, effective 6/5/24]

481—49.2(135R,10A) Application and licensing.

49.2(1) *Application and licensing.* An ambulatory surgical center shall obtain a license from the department in accordance with Iowa Code section 135R.2.

a. An ambulatory surgical center seeking licensure will make application on forms provided by the department or through the department’s online application system. Upon receipt of a completed application, including completion of the building and plan review set forth in paragraph 49.2(1)“*b,*” and receipt of the \$50 fee set forth in Iowa Code section 135R.3(3), the application will be considered.

b. An ambulatory surgical center applicant shall submit architectural technical documents, engineering documents, and plans and specifications to the department’s building and construction division in accordance with rule 661—300.4(103A) that demonstrate the applicant’s compliance with the construction and physical environment requirements of subrule 49.4(2). The submission may be completed by an authorized agent of the applicant or the responsible design professional, who shall certify that the building or building plans meet the construction and physical environment standards within subrule 49.4(2) or that a waiver has been granted by the department for any noncompliant standard. If the applicant was operating prior to and continuously since July 1, 2023, the applicant is permitted up to six months after submission of its license application to submit plans demonstrating compliance with subrule 49.4(1) or obtaining waivers for the construction and physical environment standards in accordance with subrule 49.4(2).

49.2(2) *Certificate of need.* An ambulatory surgical center will be granted an initial license and is not required to obtain a new certificate of need solely because licensure is mandated by Iowa Code chapter 135R if the ambulatory surgical center was operating prior to and continuously since July 1, 2023. If an ambulatory surgical center beginning or modifying its operations on or after July 1, 2023, would be required to obtain a certificate of need from the health facilities council pursuant to Iowa Code chapter 10A, subchapter VII, part 2, it shall obtain a certificate of need from the health facilities council prior to submitting its license application to the department.

49.2(3) *Renewal, changes of ownership, and changes of information.* A license issued pursuant to this chapter expires one year after the date of issuance or as indicated on the license.

a. Renewal. To renew a license, a completed application form shall be submitted to the department 30 days prior to license expiration.

b. Change of ownership. To request a change of ownership, a completed application form shall be submitted to the department for the new owner at least 30 days prior to the proposed effective date of the change of ownership. A change of ownership includes the purchase, transfer, assignment, or lease of the licensed ambulatory surgical center and includes a change in the management company responsible for the day-to-day operation of the ambulatory surgical center if the management company is ultimately responsible for any enforcement action taken by the department. For purposes of determining ownership and whether such changes constitute a change of ownership, the department adopts the Centers for Medicare and Medicaid Services (CMS) State Operations Manual sections 3210.1A and 3210.1D (Rev. 1, 05-21-04).

c. Change of information. The department should be notified of any changes to an applicant’s or licensee’s application information within 30 days of the date the change occurs, including the cessation of operation.

49.2(4) *Public display.* The license shall be displayed in a conspicuous place in the ambulatory surgical center viewed by the public.

[ARC 7886C, IAB 5/1/24, effective 6/5/24]

481—49.3(135R,10A) Inspections.

49.3(1) *Frequency.* Inspections may be initiated because of a complaint or other information received by the department or upon referral from other agencies. The department will perform inspections at the same frequency and utilize any priority tier structure for survey and certification activities required for inspections of Medicare-certified ambulatory surgical centers. The department will recognize, in lieu of its own licensure inspection, the comparable inspection and findings of a Medicare survey or an accrediting organization survey from an accrediting organization approved by CMS for federal certification. An ambulatory surgical center utilizing an accrediting organization survey to satisfy the requirements of this subrule shall submit an accreditation certificate to the department within 30 days of completion of each accrediting organization survey.

49.3(2) *Access to records.* An inspector with the department may enter an ambulatory surgical center without a warrant and may examine and copy all records and items pertaining to the inspection unless the record or item is protected by some other legal privilege.

49.3(3) *Evaluation of allegations and referral to other agencies.* If an inspection is initiated, the department will evaluate the allegations to determine whether the allegations should also be referred to other local, state, or federal agencies. If the department believes a criminal or regulatory violation has occurred or is occurring, the department shall notify the appropriate law enforcement or regulatory agencies.

49.3(4) *Final findings.* The department will notify the ambulatory surgical center and any complainant, in writing, of the final findings of an inspection.

49.3(5) *Inspector conflict of interest.* An employee of the department will be excluded from participating in the inspection of an ambulatory surgical facility described by Iowa Code section 135R.5(3).
[ARC 7886C, IAB 5/1/24, effective 6/5/24]

481—49.4(135R) General licensing standards.

49.4(1) *Federal specific conditions of coverage.* A state-licensed ambulatory surgical center shall comply with the specific conditions for coverage in the federal Medicare program for ambulatory surgical centers under 42 CFR Part 416, Subpart C, as amended to July 1, 2023, and federal interpretive guidelines for such regulations, including Appendix L of the State Operations Manual published by CMS, Rev. 215, as amended to July 21, 2023, or an accreditation standard of The Joint Commission, the American Association for Accreditation of Ambulatory Surgical Facilities, the Accreditation Association for Ambulatory Health Care, or an accrediting organization approved by CMS for federal certification if the state-licensed ambulatory surgical center is inspected by an accrediting organization pursuant to subrule 49.3(1).

49.4(2) *Construction and physical environment standards.* In accordance with subrule 49.4(1), the construction and physical environment standards of 42 CFR 416.44 as amended to July 1, 2023, are adopted. Ambulatory surgical centers built in compliance with construction and environment standards applicable at the time of building approval or building plan approval under subrule 49.2(1) are deemed in compliance with subsequent regulations, with the exception of any structural renovations, additions, functional alterations, or changes in space utilization after the date of approval. Any such structural renovations, additions, functional alterations, or changes in space utilization that will occur after the licensee's initial approval shall be reviewed and approved in accordance with paragraph 49.2(3) "b" prior to such changes being made.

49.4(3) *External reporting.* An ambulatory surgical center shall report quality data to the Iowa department of health and human services consistent with the data required to be reported to CMS in accordance with rules promulgated by the Iowa department of health and human services.

[ARC 7886C, IAB 5/1/24, effective 6/5/24]

481—49.5(135R) Enforcement and penalties.

49.5(1) *Denial, suspension, or revocation.* The license for an ambulatory surgical center may be denied, suspended, or revoked for failure to comply with Iowa Code chapter 135R or this chapter, including any reason for which an ambulatory surgical center could be denied, suspended, or terminated from the

federal Medicare program for ambulatory surgical centers under 42 CFR Part 416 as amended to July 1, 2023, and federal interpretive guidelines, including Appendix L of the State Operations Manual published by CMS, Rev. 215, as amended to July 21, 2023.

49.5(2) *Effective date and contested case appeals.* Unless otherwise stated, a denial, suspension or revocation of license is effective 30 days after certified mailing or personal service of the notice upon the licensee. The licensee may request a contested case hearing by submitting a request, in writing, to the department within 30 days of the mailing or service. Contested case appeals and hearings are governed by 481—Chapter 9, 481—Chapter 10, and 481—Chapter 16.

49.5(3) *Enjoining an unlicensed ambulatory surgical center.* An injunction or other process against any person to restrain or prevent the establishment, operation, or maintenance of an ambulatory surgical center without a license may be pursued by the department in accordance with Iowa Code section 135R.7.

49.5(4) *Operation of unlicensed ambulatory surgical center—serious misdemeanor.* A person establishing, operating, or maintaining an ambulatory surgical center without a license commits a serious misdemeanor as set forth in Iowa Code section 135R.9.

[ARC 7886C, IAB 5/1/24, effective 6/5/24]

481—49.6(135R,10A) Public and confidential information. The department's final findings with respect to compliance by an ambulatory surgical center with requirements for licensing will be made available to the public on the department's website. Other information relating to an ambulatory surgical center obtained by the department that does not constitute the department's final findings from an inspection, including the name and identifying information about a complainant, are confidential in accordance with Iowa Code section 135R.6. This rule does not inhibit the referral of otherwise confidential information to other law enforcement or regulatory agencies pursuant to Iowa Code section 10A.105(5).

49.6(1) *Public disclosure.* The following records are open and available for inspection:

- a. License application forms and accompanying materials;
- b. Final findings of the department's inspections;
- c. Official notices of any enforcement action.

49.6(2) *Confidential information.* Confidential information includes the following:

a. Information obtained by the department that does not comprise a final finding resulting from an inspection. Inspection information that does not comprise a final finding may be made public in a contested case proceeding concerning the department's final findings, including the denial or revocation of registration.

- b. Names and identifying information of all complainants.

49.6(3) *Redaction of confidential information.* If a record normally open for inspection contains confidential information, the confidential information will be redacted prior to providing the record for inspection.

[ARC 7886C, IAB 5/1/24, effective 6/5/24]

481—49.7(135R,10A) Waivers. Requests for waiver may be submitted to the department in accordance with 481—Chapter 6. Waivers may be granted by the director of the department when, in the director's discretion, good and sufficient reasons underlying the need for a waiver have been established; no substantial risk to the health, safety, or welfare of patients is presented by approving the waiver; and alternate means are employed or compensating circumstances exist to justify the waiver. Any waiver granted is limited to the specific project under consideration and does not establish a precedent for similar acceptance in other cases.

[ARC 7886C, IAB 5/1/24, effective 6/5/24]

These rules are intended to implement Iowa Code chapters 135R and 10A.

2. A home health agency;
3. A hospice.

"Indirect services" means services provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance.

"Student" means a person applying for, enrolled in, or returning to a certified nurse aide training program.

50.9(2) *Explanation of "crime."* For purposes of this rule, the term "crime" does not include offenses under Iowa Code chapter 321 classified as simple misdemeanor or equivalent simple misdemeanor offenses from another jurisdiction.

50.9(3) *Requirements for employer prior to employing an individual.* Prior to employment of a person in a facility, the facility shall complete the background check requirements set forth below.

a. Informing the prospective employee. A facility shall ask each person seeking employment by the facility, "Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime other than a simple misdemeanor offense relating to motor vehicles and laws of the road under Iowa Code chapter 321 or equivalent provisions, in this state or any other state?" In addition, the person shall be informed that a background check will be conducted. The person shall indicate, by signature, that the person has been informed that the background check will be conducted. (I, II, III)

b. Conducting a background check. The facility shall either request that the department of public safety perform a criminal history check and that the department of human services perform child and dependent adult abuse record checks of the person in this state, or access the single contact repository (SING) to perform the required background check. If the SING is used, the facility shall submit the person's prior name(s), if applicable, with the background check request. (I, II, III)

c. If a person being considered for employment has been convicted of a crime. If a person being considered for employment in a facility has been convicted of a crime under a law of any state, the facility shall request that the department of human services perform an evaluation to determine whether the crime warrants prohibition of the person's employment in the facility. (I, II, III)

d. If a person being considered for employment has a record of founded child or dependent adult abuse. If a person being considered for employment in a facility has a record of founded child or dependent adult abuse under a law of any state, the facility shall request that the department of human services perform an evaluation to determine whether the founded child or dependent adult abuse warrants prohibition of the person's employment in the facility. (I, II, III)

e. Employment pending evaluation. The facility may provisionally employ a person prior to completion of the required record check and evaluation by the department of human services, as applicable, subject to all of the following:

(1) The facility shall have accessed SING to perform the required record check and be awaiting results from SING or awaiting evaluation by the department of human services, as applicable;

(2) If applicable, the facility shall request an evaluation by the department of human services in accordance with paragraph 50.9(3) "c" or "d" within 30 days of receipt of the SING record check results;

(3) The facility shall have utilized an approved third-party vendor to perform a comprehensive preliminary background check;

(4) If the comprehensive preliminary background check determines that the person being considered for employment has been convicted of a crime, the crime does not constitute a felony as defined in Iowa Code section 701.7 and is not a crime specified pursuant to Iowa Code chapter 708, 708A, 709, 709A, 710, 710A, 711, or 712 or pursuant to Iowa Code section 726.3, 726.7, or 726.8;

(5) The comprehensive preliminary background check shall have determined that the person being considered for employment does not have a record of founded child abuse or dependent adult abuse, or, if

the person being considered for employment does have a record of founded child abuse or dependent adult abuse, subrule 50.9(8) is applicable; and

(6) The provisional employment may continue until such time as the required record check through SING and evaluation by the department of human services, as applicable, are completed. (I, II, III)

50.9(4) *Validity of background check results.* The results of a background check conducted pursuant to this rule shall be valid for a period of 30 calendar days from the date the results of the background check are received by the facility. (I, II, III)

50.9(5) *Employment prohibition.* Except as provided in paragraph 50.9(3)“e,” a person who has committed a crime or has a record of founded child or dependent adult abuse shall not be employed in a facility unless an evaluation has been performed by the department of human services. (I, II, III)

50.9(6) *Transfer of an employee to another facility owned or operated by the same person.* If an employee transfers from one facility to another facility owned or operated by the same person, without a lapse in employment, the facility is not required to request additional criminal and child and dependent adult abuse record checks of that employee. (I, II, III)

50.9(7) *Transfer of ownership of a facility.* If the ownership of a facility is transferred, at the time of transfer the background check required by this rule shall be performed for each employee for whom there is no documentation that such background check has been performed. The facility may continue to employ such employee pending the performance of the background check and any related evaluation. (I, II, III)

50.9(8) *Change of employment—person with criminal or abuse record—exception to record check evaluation requirements.* A person with a criminal or abuse record who is or was employed by a facility and is hired by another facility shall be subject to the background check.

a. A reevaluation of the latest record check is not required, and the person may commence employment with the other facility if the following requirements are met:

(1) The department of human services previously performed an evaluation concerning the person’s criminal or abuse record and concluded the record did not warrant prohibition of the person’s employment;

(2) The latest background check does not indicate a crime was committed or founded abuse record was entered subsequent to the previous evaluation;

(3) The position with the subsequent employer is substantially the same or has the same job responsibilities as the position for which the previous evaluation was performed;

(4) Any restrictions placed on the person’s employment in the previous evaluation by the department of human services and still applicable shall remain applicable in the person’s subsequent employment; and

(5) The person subject to the background check has maintained a copy of the previous evaluation and provided it to the subsequent employer, or the previous employer provides the previous evaluation from the person’s personnel file pursuant to the person’s authorization. If a physical copy of the previous evaluation is not provided to the subsequent employer, a current record check evaluation shall be performed. (I, II, III)

b. For purposes of this subrule, a position is “substantially the same or has the same job responsibilities” if the position requires the same certification, licensure, or advanced training. For example, a licensed nurse has substantially the same or the same job responsibilities as a director of nursing; a certified nurse aide does not have substantially the same or the same job responsibilities as a licensed nurse.

c. The subsequent employer must maintain the previous evaluation in the employee’s personnel file for verification of the exception to the requirement for a record check evaluation. (I, II, III)

d. The subsequent employer may request a reevaluation of the background check and may employ the person while the reevaluation is being performed, even though an exemption under paragraph 50.9(8)“a” may be authorized.

50.9(9) *Employee notification of criminal conviction or founded abuse after employment.* If a person employed by a facility employer that is subject to this rule is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the person’s employment application date, the person shall inform the employer of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

a. The employer shall act to verify the information within seven calendar days of notification. “Verify,” for purposes of this subrule, means to access the single contact repository (SING) to perform a

background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the facility shall follow the requirements of paragraphs 50.9(3) “*c*” and “*d*.” (I, II, III)

c. The employer may continue to employ the person pending the performance of an evaluation by the department of human services.

d. A person who is required by this subrule to inform the person’s employer of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

e. The employer may notify the county attorney for the county where the employer is located of any violation or failure by an employee to notify the employer of a criminal conviction or entry of an abuse record within the period required under this subrule.

50.9(10) *Facility receipt of credible information that an employee has been convicted of a crime or has a record of founded abuse.* If the facility receives credible information, as determined by the facility, from someone other than the employee, that the employee has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after employment, and the employee has not informed the employer of the information within the time required by subrule 50.9(9), the facility shall take the following actions:

a. The facility shall act to verify credible information within seven calendar days of receipt. “Verify,” for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the facility shall follow the requirements of paragraphs 50.9(3) “*c*” and “*d*.” (I, II, III)

50.9(11) *Proof of background checks for health care employment agencies and contractors.* Proof of background checks may be kept in the files maintained by health care employment agencies and contractors. Health care employment agencies and contractors shall provide a copy of the result of the background checks to the facility or department upon request. (I, II, III)

50.9(12) *Certified nurse aide training program students.* Prior to a student’s beginning or returning to a certified nurse aide training program, the program shall either request that the department of public safety perform a criminal history check and that the department of human services perform child and dependent adult abuse record checks of the person in this state, or access the SING to perform the required background check.

a. *Prohibition of involvement in clinical education.* Except as provided in paragraph 50.9(1) “*b*,” if a student has a criminal record or a record of founded child or dependent adult abuse, the student shall not be involved in a clinical education component of the certified nurse aide training program involving children or dependent adults unless an evaluation has been performed by the department of human services. The evaluation shall be performed upon request of the certified nurse aide training program.

b. *Involvement in clinical education component pending evaluation.* The training program may provisionally allow the student’s participation in the clinical education component of the certified nurse aide training program pending completion of the required record check and evaluation by the department of human services, as applicable, subject to all of the following:

(1) The training program shall have accessed SING to perform the required record check and be awaiting results from SING or awaiting evaluation by the department of human services, as applicable;

(2) If applicable, the training program shall request an evaluation by the department of human services in accordance with paragraph 50.9(12) “*a*” within 30 days of receipt of the SING record check results;

(3) The training program shall have utilized an approved third-party vendor to perform a comprehensive preliminary background check;

(4) If the comprehensive preliminary background check determines that the student being considered for participation has been convicted of a crime, the crime does not constitute a felony as defined in Iowa Code section 701.7 and is not a crime specified pursuant to Iowa Code chapter 708, 708A, 709, 709A, 710, 710A, 711, or 712 or pursuant to Iowa Code section 726.3, 726.7, or 726.8;

(5) The comprehensive preliminary background check shall have determined that the student does not have a record of founded child abuse or dependent adult abuse, or, if the student does have a record of founded child abuse or dependent adult abuse, subrule 50.9(8) is applicable; and

(6) The provisional participation may continue until such time as the required record check through SING and evaluation by the department of human services, as applicable, are completed.

c. Student notification of criminal conviction or founded abuse after performance of record checks and evaluation. If a student is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the record checks and any evaluation have been performed, the student shall inform the certified nurse aide training program of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

(1) The program shall act to verify the information within seven calendar days of notification. “Verify,” for purposes of this paragraph, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents. If the information is verified, the program shall follow the requirements of paragraph 50.9(12) “a” to determine whether or not the student’s involvement in a clinical education component may continue.

(2) The program may allow the student involvement to continue pending the performance of an evaluation by the department of human services.

(3) A student who is required to inform the program of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

(4) The program may notify the county attorney for the county where the program is located of any violation or failure by a student to notify the program of a criminal conviction or entry of an abuse record within the period required by this paragraph.

d. Program receipt of credible information that a student has been convicted of a crime or has a record of founded abuse. If a program receives credible information, as determined by the program, that a student has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after the record checks and any evaluation have been performed, from a person other than the student, and the student has not informed the program of such information within 48 hours, the program shall act to verify the credible information within seven calendar days of receipt of the credible information. “Verify,” for purposes of this paragraph, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents. If the information is verified, the requirements of paragraph 50.9(12) “a” shall be applied to determine whether or not the student’s involvement in a clinical education component may continue.

e. Completion of a certified nurse aide training program conducted by the health care facility. If a certified nurse aide training program is conducted by the facility and a student of that program accepts and begins employment with the facility within 30 days of completing the program, the background check of the student performed prior to beginning the training program shall fulfill the criminal and abuse background check requirements. The facility shall maintain the proof required in subrule 50.9(11). (I, II, III)

481—50.10(135C) Inspections, exit interviews, plans of correction, and revisits.

50.10(1) *Frequency of inspection.* The department shall inspect a licensed health care facility at least once within a 30-month period. Facilities participating in the Medicare or Medicaid programs may be inspected more frequently as a part of a joint state and federal inspection.

50.10(2) *Accessibility of records, the facility, and persons.* An inspector of the department may enter any licensed health care facility without a warrant and may examine all records pertaining to the care provided to residents of the facility. An inspector of the department may contact or interview any resident, employee, or any other person who might have knowledge about the operation of a health care facility. The inspector may duplicate records and take photographs as part of the inspection.

50.10(3) *Exit interviews.* The health care facility shall be provided an exit interview at the conclusion of an inspection, and the facility representative shall be informed of all issues and areas of concern related to the deficiencies.

a. Methods of conducting exit interview. The department may conduct the exit interview either in person or by telephone.

b. Second exit interviews. The department shall conduct a second exit interview if any additional areas of concern are identified.

50.10(4) *Submission of additional or rebuttal information.* The facility shall be provided two working days from the date of the exit interview to submit additional or rebuttal information to the department.

a. Receipt of additional information. Additional or rebuttal information must be received by the department within two working days in order to be considered.

b. Methods to submit additional information. The additional or rebuttal information may be submitted via email, facsimile, or overnight courier to the department.

c. Inform of the opportunity to submit additional or rebuttal information. During the inspection, the facility shall be informed of the opportunity to submit additional or rebuttal information and of the contact information for the department.

50.10(5) *Standards for determining whether a deficiency exists.* The department shall use a preponderance of the evidence standard when determining whether a regulatory deficiency exists. For purposes of this rule and rule 481—50.11(135C), “preponderance of the evidence standard” means that the evidence, considered and compared with the evidence opposed to it, produces the belief in a reasonable mind that the allegations or deficiency is more likely true than not true. This standard does not require that the inspector personally witnessed the alleged violation.

50.10(6) *Statement of deficiencies.* When one or more deficiencies are found, a statement of deficiencies detailing each deficiency shall be sent by the department to the health care facility within ten working days of the exit interview.

50.10(7) *Plan of correction.* Within ten calendar days following receipt of the statement of deficiencies, the health care facility shall submit a plan of correction to the department.

a. Contents of plan. The plan of correction shall contain the following information:

- (1) How the facility will correct the deficient practice;
- (2) How the facility will act to protect residents;
- (3) The measures the facility will take or the systems it will alter to ensure that the problem does not recur;
- (4) How the facility plans to monitor its performance to make sure that solutions are sustained; and
- (5) Date(s) when corrective action will be completed.

b. Review of plan. The department shall review the plan of correction within ten working days of receipt. The department may request additional information or revisions to the plan, which shall be provided as requested.

50.10(8) *Revisits.* If a facility licensed under this chapter is subject to or will be subject to denial of payment including payment for Medicare or medical assistance (Medicaid) under Iowa Code chapter 249A, or denial of payment for all new admissions pursuant to 42 CFR Section 488.417, and submits a plan of correction relating to the deficiencies or a response to a citation issued under 481—Chapter 56 and the department elects to conduct an on-site revisit inspection, the department shall commence the revisit

inspection within the shortest time feasible of the date that the plan of correction is received or the date specified within the plan of correction alleging compliance, whichever is later.

50.10(9) *Appeals of statement of deficiencies.* The facility may appeal the statement of deficiencies by filing an appeal request with the department within 20 working days after receipt of the statement of deficiencies. The procedures defined in rule 481—50.6(10A) shall be followed for the appeal.

481—50.11(135C) Complaint and self-reported incident investigation procedure.

50.11(1) *Complaint.* The process for filing a complaint is as follows:

a. Any person with concerns regarding a facility may file a complaint with the Department of Inspections and Appeals, Complaint/Incident Bureau, Lucas State Office Building, Third Floor, 321 E. 12th Street, Des Moines, Iowa 50319-0083; by use of the complaint hotline, 1-877-686-0027; by facsimile sent to (515)281-7106; or through the website address dia-hfd.iowa.gov.

b. When the nature of the complaint is outside the department's authority, the department shall forward the complaint or refer the complainant to the appropriate investigatory entity.

c. The complainant shall include as much of the following information as possible in the complaint: the complainant's name, address and telephone number; the complainant's relationship to the facility or resident; and the reason for the complaint.

d. The complainant's name shall be confidential information and shall not be released by the department.

e. The department shall act on anonymous complaints unless the department determines that the complaint is intended to harass the facility.

f. If the department, upon preliminary review, determines that the complaint is intended as harassment or is without a reasonable basis, the department may dismiss the complaint.

50.11(2) *Self-reported incident.* When the facility is required pursuant to rule 481— 50.7(10A,135C) or other requirements to report an incident, the facility shall make the report to the department via:

a. The web-based reporting tool accessible from the following Internet site, dia-hfd.iowa.gov, under the "Login" tab and then access "Add self report";

b. Mail by sending the self-report to the Department of Inspections and Appeals, Complaint/Incident Bureau, Lucas State Office Building, Third Floor, 321 E. 12th Street, Des Moines, Iowa 50319-0083;

c. The complaint/incident hotline, 1-877-686-0027; or

d. Facsimile sent to (515)281-7106.

50.11(3) *Time frames for investigation of complaint or self-reported incident.* The following guidelines shall be used for determining the time frame in which an on-site inspection of the facility shall be initiated:

a. *Immediate jeopardy situation.* Within 2 working days for a complaint or self-reported incident determined by the department to be an alleged immediate jeopardy situation. For purposes of this rule, "immediate jeopardy situation" means a situation in which the facility's alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, has caused or is likely to cause, serious injury, harm, impairment, or death to a resident.

b. *High-level nonimmediate jeopardy situation.* Within 10 days for nursing facilities and within 20 working days for intermediate care facilities and residential care facilities for a complaint or self-reported incident determined by the department to be an alleged high-level nonimmediate jeopardy situation. For purposes of this rule, "high-level nonimmediate jeopardy situation" means the alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, may have caused harm that negatively impacts the resident's mental, physical, or psychosocial status and is of such consequence to the resident's well-being that a rapid response is warranted.

c. *Other nonimmediate jeopardy situation.* Within 45 calendar days for a complaint or self-reported incident determined by the department to be an alleged nonimmediate jeopardy situation, other than a high-level nonimmediate jeopardy situation. For purposes of this rule, "other nonimmediate jeopardy situation" means a situation that is not a high-level nonimmediate jeopardy situation where the alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, may cause harm of

limited consequence and does not significantly impair the individual's mental, physical, or psychosocial status or function.

d. No inspection of facility-reported incidents. The department may determine not to institute an inspection of a self-reported incident using criteria including, but not limited to, the following:

(1) There is no evident deficiency on the part of the facility, and the facility has taken appropriate measures to address the situation; or

(2) There is a potential deficiency but:

1. The facility has taken appropriate measures to address the situation;

2. The facility does not have a recent history of identified deficiency similar to or related to the incident being reported;

3. A complaint has not been filed regarding the incident being reported; and

4. The resulting injury does not cause a significant negative impact to the resident's quality of life.

50.11(4) *Standard for determining whether a complaint or self-reported incident is substantiated.* The department shall apply a preponderance of the evidence standard in determining whether a complaint or self-reported incident is substantiated.

50.11(5) *Notification of program and complainant.* The department shall notify the facility and, if known, the complainant of the findings of the complaint investigation. The department shall also notify the complainant, if known, if the department does not investigate a complaint, and the reasons for not investigating the complaint shall be included in the notification.

50.11(6) *Process for complaint and self-reported incident.* The department and facility shall follow the process outlined in rule 481—50.10(135C), as applicable, when conducting or responding to a complaint or self-reported incident investigation.

[ARC 8433B, IAB 12/30/09, effective 2/3/10; ARC 7035C, IAB 5/31/23, effective 7/5/23]

481—50.12(135C) Requirements for service. At each inspection, the facility shall provide the most current contact information for the purpose of service of departmental notices. A statement of deficiencies or citation shall be served upon a facility using one of the following methods.

50.12(1) *Electronic mail.* If a facility has electronic mail, electronic mail shall be used for service of statements of deficiencies and citations. If electronic mail is used, the following shall be complied with:

a. The department shall send the electronic message return receipt requested. The response from the return receipt shall officially document receipt of the service and the date of receipt.

b. A facility shall allow the electronic return receipt to be returned to the department and shall not delay the sending of the return receipt.

c. If the department has not received the return receipt within three business days of sending the service via electronic mail, the department shall contact the facility to verify the receipt of the service.

50.12(2) *Certified mail.* If a facility does not have access to electronic mail, the service shall be sent via certified mail, return receipt requested.

50.12(3) *Personal service.* The department may choose to personally serve the notice upon the health care facility by delivering a copy of the statement of deficiencies or citation to the health care facility and presenting the copy to the facility.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—50.13(135C) Inspectors' conflicts of interest.

50.13(1) *Conflicts.* Any of the following circumstances disqualifies an inspector from inspecting a particular health care facility licensed under Iowa Code chapter 135C:

a. The inspector currently works or, within the past two years, has worked as an employee or employment agency staff at the health care facility, or as an officer, consultant, or agent for the health care facility to be inspected.

b. The inspector has any financial interest or any ownership interest in the facility. For purposes of this paragraph, indirect ownership, such as through a broad-based mutual fund, does not constitute a financial or ownership interest.

c. The inspector has an immediate family member who has a relationship with the facility as described in subrule 50.13(1), paragraphs "a" and "b."

50.13(2) *Immediate family member.* For purposes of this rule, “immediate family member” means the same as set forth in 42 CFR 488.301, and includes a husband or wife; natural or adoptive parent, child, or sibling; stepparent, stepchild, or stepsibling; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law; or grandparent or grandchild.

481—51.1(135B) Definitions. As used in this chapter, unless the context otherwise requires, the following definitions apply:

“Critical access hospital” means any hospital located in a rural area and certified by the Iowa department of health and human services as being a necessary provider of health care services to residents of the area. A “critical access hospital” makes available 24-hour emergency care, is a designated provider in a rural health network, and meets the criteria specified pursuant to rule 481—51.27(135B).

“Governing board” means the board of trustees, the owner, or person(s) designated by the owner as the governing authority. The governing board has supreme authority in the hospital and is responsible for the management, control, and appointment of the medical staff.

481—51.2(135B) Classification, compliance and license.

51.2(1) All hospitals subject to licensure under this chapter will be classified as a critical access hospital, general hospital, long-term acute care hospital, rural emergency hospital, or specialized hospital. 51.2(2) A hospital shall comply with all of the general regulations for hospitals and any rules pertaining to specialized services, if specialized services are provided in the hospital.

51.2(3) A separate license is required for each hospital even though more than one is operated under the same management. A separate license is not required for separate buildings of a hospital located on separate parcels of land, which are not adjoining but provide elements of the hospital’s full range of services for the diagnosis, care, and treatment of human illness, including convalescence and rehabilitation,

and which are organized under a single owner or governing board with a single designated administrator and medical staff.

51.2(4) The license shall be conspicuously posted on the main premises of the hospital.

51.2(5) The department shall recognize, in lieu of its own licensure inspection, the comparable inspections and findings of an accrediting organization approved by the Centers for Medicare and Medicaid Services (CMS) for federal certification if the department is provided with copies of all requested materials relating to the inspection process. In cases of the initial licensure, the department may require its own inspection when needed in addition to comparable accreditations to allow the hospital to begin operations. The department may also initiate its own inspection when it is determined that the inspection findings of the accrediting organization are insufficient to address concerns identified as possible licensure issues.

51.2(6) The department may recognize, in lieu of its own licensure inspection, the comparable inspection and inspection findings of a Medicare conditions of participation survey of a hospital certified by CMS. CHAPTER 52
DEPENDENT ADULT ABUSE IN FACILITIES AND PROGRAMS

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—52.1(235E) Definitions. The definitions set forth in Iowa Code section 235E.1 are incorporated herein by reference. For purposes of this chapter, unless the context otherwise requires, the following definitions apply:

“Caretaker” means a person who is a staff member of a facility or program who provides care, protection, or services to a dependent adult voluntarily, by contract, through employment, or by order of the court. For the purpose of an allegation of exploitation, if the caretaker-dependent adult relationship started when a staff member was employed in the facility, the staff member may be considered a caretaker after employment is terminated.

“Confidentiality” means the withholding of information from any manner of communication, public or private.

“Dependent adult abuse” means any of the following as a result of the willful misconduct or gross negligence or reckless act or omission of a caretaker, taking into account the totality of the circumstances: physical injury, unreasonable confinement, unreasonable punishment, assault, sexual offense, sexual exploitation, exploitation, neglect, or personal degradation.

“Gross negligence” means an act or omission that signifies more than ordinary inadvertence or inattention, but less than conscious indifference to consequences; and, in other words, means an extreme departure from the ordinary standard of care.

“Immediately,” for purposes of mandatory reporters’ reporting of suspected dependent adult abuse, means within 24 hours.

“Inspector” means a surveyor, monitor or investigator with the department or any department designee.

“Misappropriates” means taking unfair advantage of or wrongfully or dishonestly exercising control over property.

“Physical injury” means a physical injury, or injury which is at a variance with the history given of the injury, which involves a breach of skill or care or learning ordinarily exercised by a caretaker in similar circumstances. “Physical injury” includes damage to any bodily tissue to the extent that the tissue must undergo a healing process in order to be restored to a sound and healthy condition, damage to any bodily tissue to the extent that the tissue cannot be restored to a sound and healthy condition, or damage to any bodily tissue which results in the death of the person who has sustained the damage.

“Registry” means the central registry for dependent adult abuse information established in Iowa Code section 235B.5.

“Report” means a verbal or written statement, made to the department, which alleges that dependent adult abuse has occurred.

“Resident” means a resident of a health care facility as defined in Iowa Code chapter 135C, a patient in a hospital as defined in Iowa Code chapter 135B, a tenant of an assisted living program as defined in Iowa Code chapter 231C, a tenant in an elder group home as defined in Iowa Code chapter 231B, or a participant in an adult day services program as defined in Iowa Code chapter 231D.

“Sexual exploitation” means any consensual or nonconsensual sexual conduct with a dependent adult by a caretaker whether within a facility or program or at a location outside of a facility or program. “Sexual exploitation” includes but is not limited to:

1. Kissing;
2. Touching of the clothed or unclothed breast, groin, buttock, anus, pubes, or genitals;
3. A sex act as defined in Iowa Code section 702.17;
4. The transmission, display or taking of electronic images of the unclothed breast, groin, buttock, anus, pubes, or genitals of a dependent adult by a caretaker for a purpose not related to treatment, care, monitoring, assessment or diagnosis or as part of an ongoing investigation.

“Sexual exploitation” does not include touching which is part of a necessary examination, treatment, or care by a caretaker acting within the scope of the practice or employment of the caretaker; the exchange of

a brief touch or hug between the dependent adult and a caretaker for the purpose of reassurance, comfort, or casual friendship; or touching between spouses or domestic partners in an intimate relationship.

“Sexual offense” means the commission of a sexual offense under Iowa Code chapter 709 or Iowa Code section 726.2 with or against a dependent adult.

“Staff member” means an individual who provides direct or indirect treatment or services to residents in a facility or program. Specifically included in the definition of “staff member” is an employee, health care employment agency worker, or other independent contractor who otherwise meets the definition. Direct treatment or services include those provided through person-to-person contact. Indirect treatment or services include those provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance. Specifically excluded from the definition of “staff member” are individuals such as part-time volunteers, building contractors, repair workers or others who are in a facility or program for a very limited purpose, are not in the facility or program on a regular basis, or do not provide any treatment or services to the residents of the facility or program.

“Unreasonable confinement” means confinement that includes but is not limited to the use of restraints, either physical or chemical, for the convenience of staff. “Unreasonable confinement” does not include the use of confinement and restraints if the methods are employed in conformance with state and federal standards governing confinement and restraint or as authorized by a physician or physician extender.

“Unreasonable punishment” means a willful act or statement intended by the caretaker to punish, agitate, confuse, frighten, or cause emotional distress to the dependent adult. Such willful act or statement includes but is not limited to intimidating behavior, threats, harassment, deceptive acts, or false or misleading statements.

“Willful misconduct” means an intentional act of unreasonable character committed with disregard for a known or obvious risk that is so great as to make it highly probable that harm will follow.

52.2(3) A report shall be accepted whether or not it contains all of the information requested. When the report is made to any agency other than the department, that agency shall promptly refer the report to the department.

CHAPTER 56
FINING AND CITATIONS

[Prior to 7/15/87, Health Department[470] Ch 56]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—56.1(135C) Authority for citations. Pursuant to the authority vested in the director of the department of inspections and appeals to issue citations and assess penalties for violations of the statutes or departmental rules relating to the health care facilities, the following rules indicate the method by which citations may be issued when a particular statute or departmental rule is violated by a facility.

481—56.2(135C) Classification of violations—classes. There are three classifications for violations of statutes or departmental rules which may result in the issuance of a citation by the director of inspections and appeals and the assessment of a penalty therefor.

56.2(1) Class I. A class I violation is one which presents an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility in which the violation occurs. A physical condition or one or more practices in a facility may constitute a class I violation;

56.2(2) Class II. A class II violation is one that has a direct or immediate relationship to the health, safety, or security of residents of a health care facility, but which presents no imminent danger nor substantial probability of death or physical harm to them. A physical condition or one or more practices within a facility, including either physical abuse of any resident or failure to treat any resident with consideration, respect, and full recognition of the resident's dignity and individuality, in violation of a specific rule adopted by the department, may constitute a class II violation;

56.2(3) Class III. A class III violation is one which is not classifiable in the department's rules nor classifiable under the criteria stated in those rules as a class I or class II violation.

481—56.3(135C) Fines. Citations which are issued by the director of the department of inspections and appeals for violations of the statutes or rules relating to health care facilities will subject the facility to the following penalties.

56.3(1) Citation for a class I violation. The penalty shall not be less than \$2,000 nor more than \$10,000. The penalty for a class I violation shall be doubled when the violation is due to an intentional act by the facility in violation of a provision of Iowa Code chapter 135C or a rule adopted pursuant thereto.

56.3(2) Citation for a class II violation. The penalty shall not be less than \$100 nor more than \$500. Using the criteria established in paragraph 56.3(2)"a," the director of the department of inspections and appeals may, upon written request, waive the penalty if the class II violation is corrected within the time specified in the citation. The director shall not waive penalties related to the items listed in subrule 56.3(4).

a. Criteria for waiving the penalty for a class II violation. The director shall consider the following criteria, among others, when deciding whether to grant a waiver of a class II penalty.

(1) The past history of the facility within the last 24 months of the violation as it relates to the nature of the violation;

(2) The rights of residents to make informed decisions with their doctor(s) and family/legal representative(s); and

(3) The financial hardship the fine will cause the facility.

b. Process for requesting a waiver of the penalty for a class II violation.

(1) A facility shall submit documentation that supports the waiver request.

(2) If the facility has requested a waiver based on financial hardship, the facility must provide proof of the hardship for the individual facility, along with the parent corporation, if any. Supporting documentation shall, at minimum, include the facility's, and the parent corporation's, if any, most recent profit and loss statement and balance sheet.

(3) Requests for a waiver shall be submitted within ten working days of receipt by the facility of the notice that the violation has been corrected.

(4) The department shall make a decision on the waiver request or request additional information, if necessary, within ten working days of receipt of a waiver request and shall notify the facility in writing of

the department's determination by personal service, by electronic mail, or by certified mail. If additional information is requested, such information shall be provided by the facility within five working days. If additional information is necessary, the department shall make a decision on the waiver request within ten working days of receipt of the additional information requested by the department.

(5) If the waiver request is granted and the facility has paid the penalty, the facility shall be refunded the amount of the penalty paid that was subject to the approved waiver request.

c. Denial of penalty waiver request for a class II violation. The director's decision to deny a waiver request is not subject to appeal. The underlying citation or state statement of deficiencies is eligible for appeal.

56.3(3) *Citation for a class III violation.* No penalty shall be assessed for a class III violation except as provided in rule 481—56.5(135C).

56.3(4) *Self-identification and correction of a class II or class III violation prior to the on-site inspection.*

a. Self-identification and correction. If a facility self-identifies a deficient practice prior to the on-site visit inspection, there has been no complaint filed with the department related to that specific deficient practice, and the facility corrects such practice prior to an inspection, no citation shall be issued or fine assessed for class II or III violations except as identified in Iowa Code section 135C.36(5).

b. Process for documenting self-identification. If, during the inspection, an area of concern is identified to the facility that was self-identified and corrected by the facility prior to the inspection, no complaint has been filed, and the violation does not fall in the exemptions listed in Iowa Code section 135C.36(5), the facility shall complete a "Self-Identification and Correction Form" and submit it to the inspector(s) prior to the conclusion of the inspection, or to the department within two working days of the exit interview via email, facsimile, or overnight courier. The documentation shall include:

- (1) The nature of the problem;
- (2) The date the problem was identified;
- (3) Who identified the problem, i.e., family, resident, staff, physician, pharmacist;
- (4) Action steps taken to correct the problem;
- (5) The date the facility determined correction was completed; and
- (6) All documentation that substantiates the above information.

56.3(5) *State penalty dismissed if the corresponding federal deficiency or citation is dismissed or removed.* Any state penalty, including a fine or citation, issued as a result of a joint state and federal survey and certification process shall be dismissed if the corresponding federal deficiency or citation is dismissed or removed.

a. If the federal deficiency is dismissed or removed during the federal informal dispute resolution process, the department shall remove any corresponding state fine, citation or deficiency within 20 working days of issuance of the decision.

b. If the federal deficiency is dismissed or removed at the conclusion of the federal administrative hearing process, the facility shall submit to the department a copy of the decision, along with a written request for the removal of the corresponding state fine, citation, or deficiency.

c. Any state penalty, including a fine or citation, shall be retained or reinstated if the federal deficiency is retained or reinstated.

56.3(6) *Reduction of fine amount by 35 percent.* If a facility has been assessed a penalty, does not request a formal hearing pursuant to Iowa Code section 135C.43 and rule 481—56.17(135C), or withdraws its request for a formal hearing within 30 days of the date that the penalty was assessed, and the penalty is paid within 30 days of receipt of notice or service, the amount of the civil penalty shall be reduced by 35 percent.

[ARC 8433B, IAB 12/30/09, effective 2/3/10; ARC 2158C, IAB 9/30/15, effective 11/4/15; ARC 7005C, IAB 5/3/23, effective 6/7/23]

481—56.4(135C) Time for compliance. Citations which are issued by the director of the department of inspections and appeals for violations of the statutes or rules related to health care facilities shall specify the length of time permitted for the violation to be abated or eliminated, as follows:

56.4(1) *Citation for a class I violation:* The violation shall be abated or eliminated immediately, unless the department determines that a stated period of time, specified in the citation, is required to correct the violation;

56.4(2) *Citation for a class II violation:* The violation shall be corrected within a stated period of time determined by the department and specified in the citation. The stated period of time specified in the citation may subsequently be modified by the department for good cause shown;

56.4(3) *Citation for a class III violation:* The violation shall be corrected within a reasonable time specified by the department in the citation.

481—56.5(135C) Failure to correct a violation within the time specified—penalty. Failure to correct any class of violation within the time specified in the citation, unless the licensee shows that the failure was due to circumstances beyond the licensee's control, shall subject the facility to a further penalty of \$50 for each day that the violation continues after the time specified for correction.

481—56.6(135C) Treble and double fines.

56.6(1) *Treble fines for repeated violations.* The director of the department of inspections and appeals shall treble the penalties specified in rule 481—56.3(135C) for any second or subsequent class I or class II violation occurring within any 12-month period, if a citation was issued for the same class I or class II violation occurring within that period and a penalty was assessed therefor.

56.6(2) *Double fines for intentional class I violations.* The director of the department of inspections and appeals shall double the penalties specified in subrule 56.3(1) when the violation is due to an intentional act by the facility in violation of a provision of Iowa Code chapter 135C or rule adopted pursuant thereto.

a. For purposes of this subrule, “intentional” means doing an act voluntarily, not by mistake or accident, and doing the act with a specific purpose in mind.

b. The facts and circumstances surrounding the act shall be considered when determining whether the act was done intentionally.

c. It is assumed that a person intends the natural results of the person's act(s).

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.7(135C) Notation of classes of violations. All rules relating to health care facilities, other than those which are informational in character, shall be followed by a notation at the end of each rule, or pertinent part thereof. This notation shall consist of a Roman numeral or numerals in parentheses. These Roman numerals refer to the class (either class I, class II, or class III) of violation which may be cited by the director of the department of inspections and appeals when that rule or a part of that rule carrying the notation is violated by the facility.

[ARC 3390C, IAB 10/11/17, effective 11/15/17]

481—56.8(135C) Notation for more than one class of violation. In those instances where a particular rule, or part of a rule is followed by a notation consisting of more than one Roman numeral in parentheses, at the discretion of the director of the department of inspections and appeals, the director may issue a citation for a violation of that rule, or part thereof, designating any one of the multiple classes of violations specified in the notation.

481—56.9(135C) Factors determining selection of class of violation. In determining which class of violation will be designated in the citation, where more than one class is specified in the notation following the rule, the director of the department of inspections and appeals shall consider evidence of the circumstances surrounding the violation, including, but not limited to, the following factors:

56.9(1) The frequency and length of time the violation occurred, i.e., whether the violation was an isolated or a widespread occurrence, practice, or condition;

56.9(2) The past history of the facility within 24 months of the violation as it relates to the nature of the violation;

56.9(3) The culpability of the facility as it relates to the reasons the violation occurred;

56.9(4) The extent of any harm to the residents or the effect on the health, safety, or security of the residents which resulted from the violation;

56.9(5) The relationship of the violation to any other types of violations which have occurred in the facility;

56.9(6) The actions of the facility after the occurrence of the violation, including when corrective measures, if any, were implemented and whether the facility notified the director as required;

56.9(7) The accuracy and extent of records kept by the facility which relate to the violation, and the availability of such records to the department;

56.9(8) The rights of residents to make informed decisions with their doctor(s) and family/legal representative(s); and

56.9(9) Whether the facility made a good-faith effort to address a high-risk resident's specific needs, and whether the evidence substantiates this effort.

481—56.10(135C) Factors determining imposition of citation and fine.

56.10(1) The director of the department of inspections and appeals may consider evidence of the circumstances surrounding the violation including, but not limited to, those factors set out in rule 481—56.9(135C) when:

a. Determining whether a violation will be subject to a fine or citation; and

b. Determining the monetary amount of the penalty to be specified in the citation, when such a fine is authorized to be levied for a particular class of violation.

56.10(2) If it is determined that a violation shall be cited as a class I violation, the following chart shall be used by the department when calculating the fine amount. The amount of the fine shall be the sum total of the calculated fine amounts for each factor to be considered. With the exception of fines trebled pursuant to Iowa Code section 135C.44 or doubled pursuant to Iowa Code section 135C.44A, the total fine imposed for a single class I violation shall not be less than \$2,000 nor more than \$10,000.

¹ For example, the culpability of a facility may range from acts or omissions that are inadvertent or negligent to acts or omissions that intentionally disregard known or obvious risks and make it highly probable that the outcome would cause harm to a resident.

² For example, a violation related to pressure sores could be correlated to a violation related to the use of restraints or failure to provide incontinent care.

481—56.11(135C) Class I violation not specified in the rules. The director of the department of inspections and appeals may issue a citation for a class I violation when a physical condition or one or more practices exist in a facility which are not in violation of a specific statute or rule, but which constitute an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility.

481—56.12(135C) Class I violation as a result of multiple lesser violations. The director of the department of inspections and appeals may issue a citation for a class I violation when a physical condition or one or more practices exist in a facility which are a result of multiple lesser violations of the statutes or rules, but which taken as a whole constitute an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility.

56.13(5) A statement that the fine may be reduced by 35 percent pursuant to Iowa Code section 135C.43A and subrule 56.3(6).

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.14(135C) Licensee's response to a citation. Within 20 business days after service of a citation, the facility shall respond in the following manner, according to the type of citation issued.

56.14(1) If the facility does not desire to seek an informal conference or contest the citation, the facility shall remit to the department of inspections and appeals the amount specified by the department of inspections and appeals in the citation unless:

a. The violation was issued in conjunction with a federal civil money penalty, and the department holds the fine issued pursuant to this chapter in abeyance pursuant to Iowa Code section 249A.57, or

b. The class II violation for which the penalty was imposed has been waived pursuant to subrule 56.3(2).

56.14(2) For each class II or class III violation, the facility shall send a written response to the department of inspections and appeals, acknowledging that the citation has been received and stating that the violation will be corrected within the specified period of time allowed by the citation.

56.14(3) If the facility desires to contest a citation for a class I, class II or class III violation, the facility shall notify the department of inspections and appeals in writing that the facility desires to contest such citation and shall do one of the following:

- a.* Request an informal conference with an independent reviewer pursuant to rule 481—56.15(135C);
- or

[ARC 8433B, IAB 12/30/09, effective 2/3/10; ARC 1047C, IAB 10/2/13, effective 1/1/14; ARC 2158C, IAB 9/30/15, effective 11/4/15]

481—56.15(135C) Informal conference. An informal conference will be held concurrently with any informal dispute resolution held pursuant to 42 CFR Section 488.331 for those health care facilities certified under Medicare or the medical assistance program.

56.15(1) Definition. For purposes of these rules, “independent reviewer” means an attorney licensed in the state of Iowa who is not currently employed by the department, has not been employed by the department in the past eight years, and has not appeared in front of the department on behalf of a health care facility in the past eight years. Preference shall be given to an attorney with background knowledge, experience or training in long-term care.

56.15(2) Request for informal conference. The request for an informal conference must be in writing, addressed to the compliance officer and include the following:

- a.* Identification of the citation(s) being disputed;
- b.* The type of informal conference requested: face-to-face or telephone conference; and
- c.* A request for surveyor worksheets for the citation(s) being disputed, if desired.

- a.* The names of those who will be attending the informal conference, including legal counsel; and
- b.* Documentation supporting the facility’s position. The facility must highlight or use some other means to identify written information pertinent to the disputed deficiency(ies). Supporting documentation that is not submitted within the required time frame will not be considered, except as otherwise permitted by the independent reviewer upon good cause shown. “Good cause” means substantial or adequate grounds for failing to submit documentation in a timely manner. In determining whether the facility has shown good cause, the independent reviewer shall consider what circumstances kept the facility from submitting the supporting documentation within the required time frame.

56.15(4) Face-to-face or telephone conference. A face-to-face or telephone conference, if requested, will be scheduled to occur within ten business days of the receipt by the department of the written request, all supporting documentation, and the plan of correction required by 481—subrule 50.10(7).

- a.* Failure to submit supporting documentation will not delay scheduling.
- b.* The conference will be scheduled for one hour to allow the facility to informally present information and explanation concerning the contested deficiencies. Due to the confidential nature of the conference, attendance may be limited.
- c.* If additional information is requested during the informal conference, the facility will have two business days to deliver the additional materials to the department.
- d.* When extenuating circumstances preclude a face-to-face conference, a telephone conference will be held or the facility may be given one opportunity to reschedule the face-to-face conference.

56.15(5) Results. The results of the informal conference will generally be sent to the facility within ten business days after the date of the informal conference or, if additional information is requested, within ten business days after the department’s receipt of the additional information.

- a.* The independent reviewer may affirm or may modify or dismiss the citation. The independent reviewer shall state in writing the specific reasons for the affirmation, modification or dismissal of the citation.
- b.* The department will issue an amended (changes in factual content) or corrected (correction of typographical/data errors) citation if changes result from the informal conference.

c. The facility must submit to the department a new plan of correction for the amended or corrected citation within ten calendar days from the date of the letter conveying the results of the informal conference.

56.16(1) If the facility does not desire to further contest an affirmed or modified citation for a class I, class II or class III violation, the facility shall, within five business days after the informal conference, or within five business days after receipt of the written decision and explanation of the independent reviewer, whichever occurs later, comply with the provisions of subrule 56.14(1).

56.16(2) If the facility does desire to further contest an affirmed or modified citation for a class I, class II or class III violation, the facility shall, within five business days after receipt of the written explanation of the independent reviewer, notify the department of inspections and appeals in writing of the facility's intent to formally contest the citation.

The facility shall communicate these expectations during the period of not more than two weeks before or five days after admission. (II)

b. Residents' rights and responsibilities shall be presented in language understandable to the resident. If the facility serves residents who are non-English speaking or deaf or hard of hearing, steps shall be taken to translate the information into a foreign or sign language. (II)

d. The resident's plan of care shall be based, in part, on the physician's orders. It shall be developed upon admission by appropriate facility staff and shall include participation by the resident if capable. Residents shall be advised of alternative courses of care and treatment and their consequences when such alternatives are available. The resident's preference about alternatives shall be elicited and honored if feasible.

e. Any clinical investigation involving residents must be under the sponsorship of an institution with a human subjects review board functioning in accordance with the requirements of 45 CFR 46. A resident being considered for participation in experimental research must be fully informed of the nature of the experiment, e.g., medication, treatment, and understand the possible consequences of participating or not participating. The resident's (or responsible party's) written informed consent must be received prior to participation. (II)

This rule is intended to implement Iowa Code section 135C.23(2).

(II)

58.40(4) *Involuntary discharge or transfer prohibited—payment source.* A resident shall not be transferred or discharged solely because the cost of the resident's care is being paid under Iowa Code chapter 249A or because the resident's source of payment is changing from private support to payment under Iowa Code chapter 249A. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department's receipt of your request and you will not be transferred before a final decision is rendered. A copy shall also be transmitted to the department; the resident's responsible party; the resident's primary care provider; the person or agency responsible for the resident's placement, maintenance, and care in the facility; and the department on aging's office of the long-term care ombudsman. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent.

c. The notice required by paragraph 58.40(5) "a" shall be provided at least 30 days in advance of the proposed transfer or discharge unless one of the following occurs:

(1) An emergency transfer or discharge is mandated by the resident's health care needs and is in accordance with the written orders and medical justification of the primary care provider. Emergency transfers or discharges may also be mandated in order to protect the health, safety, or well-being of other residents and staff from the resident being transferred. (II)

(2) The transfer or discharge is subsequently agreed to by the resident or the resident's responsible party, and notification is given to the responsible party, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility.

(3) The discharge or transfer is the result of a final, nonappealable decision by the department of human services or the QIO.

d. A hearing requested pursuant to this subrule shall be held in accordance with subrule 58.40(7).

58.40(6) *Emergency transfer or discharge.* In the case of an emergency transfer or discharge, the resident must be given a written notice prior to or within 48 hours following the transfer or discharge. (II, III)

d. The hearing shall be heard by a department of inspections and appeals administrative law judge pursuant to Iowa Code chapter 17A and 481—Chapter 9. The hearing shall be public unless the resident or resident's legal representative requests in writing that the hearing be closed. In a determination as to whether a transfer or discharge is authorized, the burden of proof by a preponderance of the evidence rests on the party requesting the transfer or discharge.

e. Notice of the date, time, and place of the hearing shall be sent by certified mail or delivered in person to the facility, the resident, the responsible party, and the office of the long-term care ombudsman not later than 5 full business days after the department's receipt of the request. The family or responsible party shall be notified immediately or as soon as possible of the condition that necessitates emergency relocation, and such notification shall be documented. (II)

e. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility and not as an intrafacility transfer. (II, III)

CHAPTER 59 TUBERCULOSIS (TB) SCREENING

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—59.1(135B,135C) Purpose. The intent of this chapter is to outline requirements and procedures to conduct tuberculosis screening for health care workers in health care facilities and hospitals and for residents of health care facilities regulated by the department.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.2(135B,135C) Definitions. For purposes of this chapter, the following definitions apply:

“Bacille Calmette-Guérin vaccination” or *“BCG vaccination”* means a vaccine for TB. BCG vaccination is used in many countries with a high prevalence of TB to prevent childhood tuberculosis meningitis and miliary disease. BCG vaccination is not generally recommended for use in the United States because of the low risk of infection with *Mycobacterium tuberculosis*, the variable effectiveness of the vaccine against adult pulmonary TB, and the vaccine’s potential interference with tuberculin skin test reactivity.

“Baseline TB screening” means the screening of health care workers (HCWs) of health care facilities or hospitals at the beginning of employment in a facility or hospital and of residents of health care facilities upon admission to a facility for latent tuberculosis infection (LTBI) and TB disease. Baseline TB screening includes a symptom screen for all HCWs and residents, and two-step tuberculin skin test (two-step TST) or single interferon-gamma release assay (IGRA) for *M. tuberculosis* for those persons with previous negative test results for *M. tuberculosis* infection.

“Baseline TST” or *“baseline IGRA”* means the two-step TST or IGRA, respectively, which is administered at the beginning of employment to newly hired HCWs or upon admission of residents to health care facilities.

“Boosting” means a phenomenon in which a person has a negative TST (i.e., false-negative) result years after infection with *M. tuberculosis* and then a positive subsequent TST result. The positive TST result is caused by a boosted immune response of previous sensitivity rather than by a new infection (false-positive TST conversion). Two-step testing reduces the likelihood of mistaking a boosted reaction for a new infection.

“Department” means the department of inspections and appeals.

“Employment” or *“employed”* means to be hired or retained for paid or unpaid work in a facility or hospital.

“Extrapulmonary TB” means TB disease in any part of the body other than the lungs (e.g., kidney, spine, or lymph nodes).

“Health care facility” or *“facility”* means a health care facility as defined in Iowa Code section 135C.1 or a long-term care service of a hospital as defined in rule 481—51.38(135B).

“Health care worker” or *“HCW”* means any paid or unpaid person (including health care students) working in a health care facility or hospital, including any person who is paid either by the health care facility or hospital or paid by any other entity (i.e., temporary agency, private duty, Medicaid/Medicare or independent contractors), or any volunteer who volunteers in a health care facility or hospital on a consistent and regularly scheduled basis for five or more hours per week. Specifically excluded from the definition of “health care worker” are individuals such as visitors, building contractors, repair workers or others who are in the facility or hospital for a very limited purpose and are not in the facility or hospital on a regular basis.

“Hospital” means a hospital as defined in Iowa Code section 135B.1.

“Interferon-gamma release assay” or *“IGRA”* means a whole-blood test that can aid in diagnosing *M. tuberculosis* infection.

“Laryngeal TB” means a form of TB disease that involves the larynx and may be highly infectious.

“Latent TB infection” or *“LTBI”* means infection with *M. tuberculosis* without symptoms or signs of disease having manifested.

“*Mantoux method*” means a skin test performed by intradermally injecting 0.1 mL of purified protein derivative (PPD) tuberculin solution into the volar or dorsal surface of the forearm.

“*Patient*” means a person admitted to a hospital.

“*Pulmonary TB*” means TB disease that occurs in the lung parenchyma, usually producing a cough that lasts greater than three weeks. Pulmonary TB is usually infectious.

“*Purified protein derivative tuberculin*” or “*PPD tuberculin*” means a material used in diagnostic tests for detecting infection with *M. tuberculosis*.

“*Resident*” means a person admitted to a health care facility or a long-term care service of a hospital as defined in rule 481—51.38(135B). For purposes of this chapter, “resident” does not include a patient admitted to a hospital.

“*Risk classification*” means the category that the infection control team, or designated other staff, determines is appropriate for the facility or hospital as a result of the TB risk assessment.

“*Serial TB screening*” means TB screening performed at regular intervals following baseline TB screening. Serial TB screening, also called annual or ongoing TB testing, consists of two components: (1) assessing for current symptoms of active TB disease, and (2) testing for the presence of infection with *M. tuberculosis* by administering either a TST or single IGRA.

“*Symptom screen*” means a procedure used during a clinical evaluation in which persons are asked if they have experienced any departure from normal in function, appearance, or sensation related to TB disease (e.g., cough).

“*TB patient*” means a person who had undiagnosed infectious pulmonary or laryngeal TB while in a health care facility or hospital during the preceding year. “TB patient” does not include persons with LTBI (treated or untreated), extrapulmonary TB disease, pulmonary TB, or laryngeal TB who have met criteria for noninfectiousness.

“*TB risk assessment*” means an initial and ongoing annual evaluation of the risk for transmission of *M. tuberculosis* in a particular health care setting.

“*TB screening*” means an administrative control measure in which evaluation for LTBI and TB disease is performed through baseline and serial screening of HCWs in hospitals and health care facilities and residents of health care facilities.

“*Transfer*” means an HCW changes employment from one health care facility or hospital to another health care facility or hospital where the time frame between employment does not exceed 90 days.

“*Treatment for LTBI*” means treatment that prevents the progression of *M. tuberculosis* infection into TB disease.

“*Tuberculin skin test*” or “*TST*” means a diagnostic aid for finding *M. tuberculosis* infection. The Mantoux method is the recommended method to be used for TST.

“*Tuberculosis*” or “*TB*” means the namesake member organism of *M. tuberculosis* complex and the most common causative infectious agent of TB disease in humans. In certain instances, the species name refers to the entire *M. tuberculosis* complex, which includes *M. bovis*, *M. african*, *M. microti*, *M. canetti*, *M. caprae*, and *M. pinnipedii*.

“*Tuberculosis disease*” or “*TB disease*” means a condition caused by infection with a member of the *M. tuberculosis* complex that has progressed to causing clinical (manifesting signs or symptoms) or subclinical (early stage of disease in which signs or symptoms are not present, but other indications of disease activity are present) illness.

“*Two-step tuberculin skin test*” or “*two-step TST*” means the procedure used for the baseline skin testing of persons who may receive serial TSTs.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.3(135B,135C) TB risk assessment.

59.3(1) Annually, a health care facility or hospital shall conduct a TB risk assessment to evaluate the risk for transmission of *M. tuberculosis*, regardless of whether a person with suspected or confirmed TB disease is expected to be encountered in the facility or hospital. The TB risk assessment shall be utilized to determine the types of administrative, environmental, and respiratory protection controls needed and serves as an ongoing evaluation tool of the quality of TB infection control and for the identification of needed improvements in infection control measures.

59.3(2) The TB risk assessment shall include the number of persons with infectious TB encountered in the facility or hospital that resulted in the facility's or hospital's conducting a contact investigation of exposed HCWs or patients during the previous 12 months.

59.3(3) TB cases include persons who had undiagnosed infectious pulmonary or laryngeal TB while in the facility or hospital during the preceding year. This does not include persons with LTBI (treated or untreated), persons with extrapulmonary TB disease, or persons with pulmonary and laryngeal TB who have met criteria for noninfectiousness.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.4(135B,135C) Health care facility or hospital risk classification. The infection control team or designated staff in a health care facility or hospital is responsible for determining the type of risk classification. The facility's or hospital's risk classification is used to determine frequency of serial TB screening. The facility or hospital risk classification may change due to an increase or decrease in the number of TB cases during the preceding year. The following criteria are consistent with those of the Centers for Disease Control and Prevention (CDC), TB Elimination Division, as outlined in the MMWR December 30, 2005/Vol.54/No.RR-17, "Guidelines for Preventing the Transmission of *Mycobacterium tuberculosis* in Health-Care Settings, 2005."

59.4(1) *Types of risk classifications.*

a. "Low risk" means that a facility or hospital is one in which persons with active TB disease are not expected to be encountered and in which exposure to TB is unlikely.

b. "Medium risk" means that a facility or hospital is one in which health care workers will or might be exposed to persons with active TB disease or to clinical specimens that might contain *M. tuberculosis*.

c. "Potential ongoing transmission" means that a facility or hospital is one in which there is evidence of person-to-person transmission of *M. tuberculosis*. This classification is a temporary classification. If it is determined that this classification applies to a facility or hospital, the facility or hospital shall consult with the department of public health's TB control program.

59.4(2) *Classification criteria—low risk.*

a. Inpatient settings with 200 beds or more. If a facility or hospital has fewer than six TB patients for the preceding year, the facility or hospital shall be classified as low risk.

b. Inpatient settings with fewer than 200 beds. If a facility or hospital has fewer than three TB patients for the preceding year, the facility or hospital shall be classified as low risk.

59.4(3) *Classification criteria—medium risk.*

a. Inpatient settings with 200 beds or more. If a facility or hospital has six or more TB patients for the preceding year, the facility or hospital shall be classified as medium risk.

b. Inpatient settings with fewer than 200 beds. If a facility or hospital has three or more TB patients for the preceding year, the facility or hospital shall be classified as medium risk.

59.4(4) *Classification criteria—potential ongoing transmission.* If evidence of ongoing *M. tuberculosis* transmission exists at a facility or hospital, the facility or hospital shall be classified as potential ongoing transmission, regardless of the facility's or hospital's previous classification.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.5(135B,135C) Baseline TB screening procedures for health care facilities and hospitals.

59.5(1) All HCWs shall receive baseline TB screening upon employment. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) testing using the two-step TST procedure or a single IGRA to screen for infection with *M. tuberculosis*. If the first-step TST result is negative, the second stage of the two-step TST is recommended one to three weeks after the first TST result was read. Administration of the second stage of the two-step TST shall not exceed 12 months after the first TST result was read. If initiation of the second stage of the two-step TST is greater than 12 months from when the first TST result was read, the two-step procedure must be restarted. If the first-step TST result is positive, it is not necessary to perform the second stage of the two-step TST.

59.5(2) An HCW may begin working with patients or residents after a negative TB symptom screen (i.e., no symptoms of active TB disease) and a negative TST (i.e., first step) or negative IGRA. The second TST may be performed after the HCW starts working with patients or residents.

59.5(3) An HCW with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless signs or symptoms of TB disease develop or unless a repeat radiograph is recommended by a clinician. Treatment for LTBI should be considered in accordance with CDC guidelines.

59.5(4) An HCW with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, does not need another chest radiograph at the time of hire.

59.5(5) TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for HCWs with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. A TB symptom screen and documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result. All other HCWs should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

59.5(6) Previous BCG vaccination is not a contraindication to having an IGRA, a TST or a two-step skin testing administered. HCWs with previous BCG vaccination should receive baseline and serial testing in the same manner as those without BCG vaccination. Evaluation of TST reactions in persons BCG-vaccinated should be interpreted using the same criteria for those not BCG-vaccinated. An HCW's history of BCG vaccination should be disregarded when administering and interpreting TST results. Prior BCG vaccination does not cause a false-positive IGRA test result.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.6(135B,135C) Serial TB screening procedures for health care facilities and hospitals.

59.6(1) *Health care facilities or hospitals classified as low risk.* After establishing baseline TB screening of HCWs, serial TB screening of HCWs is not necessary for health care facilities or hospitals classified as low risk.

59.6(2) *Health care facilities or hospitals classified as medium risk.*

a. After establishing baseline TB screening, HCWs in health care facilities or hospitals classified as medium risk shall receive serial TB screening annually. However, an HCW with a previous positive TB test result shall only receive annual TB symptom screening in accordance with 59.5(5).

b. An HCW with a baseline positive or new positive test result for *M. tuberculosis* infection or documentation of previous treatment for LTBI or TB disease shall receive one chest radiograph result to exclude TB disease. Instead of participating in serial testing, HCWs should receive a symptom screen annually. This screen should be accomplished by educating HCWs about symptoms of TB disease and instructing HCWs to report any such symptoms immediately to the occupational health unit. Treatment for LTBI should be considered in accordance with CDC guidelines.

59.6(3) *Health care facilities or hospitals classified as potential ongoing transmission.* HCWs in facilities or hospitals classified as potential ongoing transmission shall receive serial TB screening every eight to ten weeks until lapses in infection control have been corrected and no additional evidence of ongoing transmission is apparent. However, an HCW with a previous positive TB test result shall only receive TB symptom screening in accordance with 59.5(5). The potential ongoing transmission classification should be used only as a temporary classification. This classification warrants immediate investigation and corrective steps. After a determination that ongoing transmission has ceased, the setting shall be reclassified as medium risk for a minimum of one year.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.7(135B,135C) Screening of HCWs who transfer to other health care facilities or hospitals.

59.7(1) *HCWs transferring from a low-risk health care facility or hospital to another low-risk health care facility or hospital.* HCWs with documentation of baseline TB screening who are transferring from a low-risk health care facility or hospital to another low-risk health care facility or hospital do not need to repeat baseline TB screening if the time frame between employment from one facility or hospital to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test result

and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(2) *HCWs transferring from a low-risk health care facility or hospital to a medium-risk health care facility or hospital.* HCWs with documentation of baseline TB screening who are transferring from a low-risk health care facility or hospital to a medium-risk health care facility or hospital do not need to repeat baseline TB screening if the time frame between employment from one facility or hospital to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test result and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(3) *HCWs transferring from a low- or medium-risk health care facility or hospital to a health care facility or hospital classified as potential ongoing transmission.* HCWs with documentation of baseline TB screening who are transferring to a potential ongoing risk health care facility or hospital do not need to repeat baseline TB screening if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test result and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(4) *HCWs transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital.*

a. An HCW who is transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital and whose previous TB test result was negative shall receive a symptom screen and a single TST or IGRA upon employment if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted.

b. An HCW who is transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital and whose previous TB test result was positive shall receive a symptom screen upon employment in accordance with 59.5(5).

59.7(5) *HCWs transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital.*

a. An HCW who is transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital and whose previous TB test result was negative shall receive a symptom screen and a single TST or IGRA upon employment if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted.

b. An HCW who is transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital and whose previous TB test result was positive shall receive a symptom screen upon employment in accordance with 59.5(5).

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.8(135B,135C) Baseline TB screening procedures for residents of health care facilities.

59.8(1) Baseline TB screening is a formal procedure to evaluate residents for LTBI and TB disease. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease, and (2) using the two-step TST procedure or a single IGRA to screen for infection with *M. tuberculosis*. If the first-step TST result is negative, the second stage of the two-step TST is recommended one to three weeks after the first TST result was read. Administration of the second stage of the two-step TST shall not exceed 12 months after the first TST result was read. If the second stage of the two-step TST is greater than 12 months from when the first TST result was read, the two-step procedure must be restarted. If the first-step TST result is positive, it is not necessary to perform the second stage of the two-step TST.

59.8(2) All residents shall be assessed for current symptoms of active TB disease upon admission. Within 72 hours of a resident's admission, baseline TB screening for infection shall be initiated unless baseline TB screening occurred within 90 days prior to the resident's admission.

59.8(3) A resident with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless signs or symptoms of TB disease develop or unless a repeat radiograph is recommended by a clinician.

59.8(4) Residents with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, do not need another chest radiograph at the time of admission.

59.8(5) TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for residents with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., IFN- γ). All other residents should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

481—59.9(135B,135C) Serial TB screening procedures for residents of health care facilities. After baseline TB screening is accomplished, serial TB screening of residents is not recommended.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.10(135B,135C) Performance of screening and testing. Any nurse licensed in Iowa and properly trained to screen for TB and perform TB testing may screen for TB and perform TB testing.

60.2(1) Construction shall be in conformance with 661—Chapter 201.

60.2(2) Construction shall be in conformance with 661—Chapter 301. Projects meeting the local building code shall be deemed to be in compliance with the state building code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system that includes both plan review and inspection.

60.2(3) Nothing in these rules shall relieve a residential care facility from compliance with fire and building codes, ordinances and regulations that are enforced by a city, county, state or federal jurisdiction.

60.2(4) Any alteration or installation of new equipment shall be accomplished as nearly as practical in conformance with all applicable codes, ordinances, regulations and standards required for new construction. Alteration or installation of new equipment shall not diminish the level of compliance with any codes, ordinances, regulations or standards below that existed prior to the alteration. Any feature that does not meet the requirement for new buildings but exceeds the requirement for existing buildings shall not be further diminished. Features that exceed requirements for new construction need not be maintained. In no case shall any feature be less than that required for existing buildings. (III)

60.2(5) Existing residential care facilities built in compliance with prior versions of this chapter will be deemed in compliance, with the exception of any renovations, additions, functional alterations, changes of space utilization, or conversions to existing facilities for which construction documents are submitted pursuant to rule 481—60.3(135C) on or after July 1, 2023, which shall meet the standards specified in this chapter. Conversion of a building or any of the parts not currently licensed as a nursing facility must meet the rules governing construction of new facilities.

60.2(6) Final plan approval and final occupancy shall be given by the state fire marshal’s office.

61.2(5) New equipment. Any alteration or installation of new equipment shall be accomplished as nearly as practical in conformance with all applicable codes, ordinances, regulations and standards required for new construction. Alteration or installation of new equipment shall not diminish the level of compliance with any codes, ordinances, regulations or standards below that which existed prior to the alteration. Any feature that does not meet the requirement for new buildings but exceeds the requirement for existing buildings shall not be further diminished. Features that exceed requirements for new construction need not be maintained. In no case shall any feature be less than that required for existing buildings. (III)

61.2(6) Existing nursing facilities built in compliance with prior versions of this chapter will be deemed in compliance, with the exception of any renovations, additions, functional alterations, changes of space utilization, or conversions to existing facilities for which construction documents are submitted pursuant to rule 481—61.3(135C) on or after July 1, 2013, which shall meet the standards specified in this chapter. Conversion of a building or any of the parts not currently licensed as a nursing facility must meet the rules governing construction of new facilities, except as provided in Life Safety Code, 2000 edition, sections 18.1.1.4.4 and 19.1.1.4.4.

- c. Nonpayment for the resident's stay, as described in the contract for the resident's stay;

Transfer or discharge may be required in order to provide a different level of care to the resident. (II)

64.36(3) *Welfare of a resident.* Welfare of a resident or that of other residents refers to a resident's social, emotional, or physical well-being.  - (3) A statement, in not less than 12-point type, that reads as follows: (II)

You have a right to appeal the facility's decision to transfer or discharge you. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as

“department”) within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department’s receipt of your request and you will not be transferred before a final decision is rendered. Extension of the 14-day requirement may be permitted in emergency circumstances upon request to the department’s designee. If you lose the hearing, you will not be transferred before the expiration of either (1) 30 days following your receipt of the original notice of the discharge or transfer, or (2) no sooner than 5 days following final decision of such hearing, including the exhaustion of all appeals, whichever occurs later. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

b. The notice shall be personally delivered to the resident, and a copy shall be placed in the resident’s record. A copy shall also be transmitted to the department, the resident’s responsible party, the resident’s primary care provider, and the person or agency responsible for the resident’s placement, maintenance, and care in the facility. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation “cc:” and listing the names of all parties to whom copies were sent.

c. The notice required by paragraph 64.36(5) “a” shall be provided at least 30 days in advance of the proposed transfer or discharge unless one of the following occurs:

(1) An emergency transfer or discharge is mandated by the resident’s health care needs and is in accordance with the written orders and medical justification of the primary care provider. Emergency transfers or discharges may also be mandated in order to protect the health, safety, or well-being of other residents and staff from the resident being transferred. (II)

(2) The transfer or discharge is subsequently agreed to by the resident or the resident’s responsible party, and notification is given to the responsible party, the resident’s primary care provider, and the person or agency responsible for the resident’s placement, maintenance, and care in the facility.

(3) The discharge or transfer is the result of a final, nonappealable decision by the department of human services or the QIO.

d. A hearing requested pursuant to this subrule shall be held in accordance with subrule 64.36(7).

64.36(6) *Emergency transfer or discharge.* In the case of an emergency transfer or discharge, the resident must be given a written notice prior to or within 48 hours following the transfer or discharge. (II, III)

a. A copy of this notice shall be placed in the resident’s file. The notice shall contain all of the following information:

(1) The stated reason for the transfer or discharge. (II)

(2) The effective date of the transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads as follows: (II)

You have a right to appeal the facility’s decision to transfer or discharge you on an emergency basis. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as “department”) within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department’s receipt of your request. You may be transferred or discharged before the hearing is held or before a final decision is rendered. If you win the hearing, you have the right to be transferred back into the facility. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

b. The notice shall be personally delivered to the resident, and a copy shall be placed in the resident's record. A copy shall also be transmitted to the department, the resident's responsible party, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent.

c. A hearing requested pursuant to this subrule shall be held in accordance with subrule 64.36(7).

64.36(7) Hearing.

a. Request for hearing.

(1) The resident must request a hearing within 7 days of receipt of written notice.

(2) The request must be made to the department, either in writing or verbally.

b. The hearing shall be held no later than 14 days after the department's receipt of the request unless either party requests an extension due to emergency circumstances.

c. Except in the case of an emergency discharge or transfer, a request for a hearing shall stay a transfer or discharge pending a final decision, including the exhaustion of all appeals. (II)

d. The hearing shall be heard by a department of inspections and appeals administrative law judge pursuant to Iowa Code chapter 17A and 481—Chapter 9. The hearing shall be public unless the resident or representative requests in writing that the hearing be closed. In a determination as to whether a transfer or discharge is authorized, the burden of proof by a preponderance of the evidence rests on the party requesting the transfer or discharge.

e. Notice of the date, time, and place of the hearing shall be sent by certified mail or delivered in person to the facility, the resident, and the responsible party not later than five full business days after the department's receipt of the request. The notice shall also inform the facility and the resident or the responsible party that they have a right to appear at the hearing in person or be represented by an attorney or other individual. The appeal shall be dismissed if neither party is present or represented at the hearing. If only one party appears or is represented, the hearing shall proceed with one party present.

f. The administrative law judge's written decision shall be sent by certified mail to the facility, resident, and responsible party within 10 working days after the hearing has been concluded.

g. If the basis for an involuntary transfer or discharge is the result of a negative action by the Iowa department of human services or the QIO, an appeal shall be filed with those entities as appropriate. Continued payment shall be consistent with rules of those entities.

64.36(8) Nonpayment. If nonpayment is the basis for involuntary transfer or discharge, the resident shall have the right to make full payment up to the date that the discharge or transfer is to be made and then shall have the right to remain in the facility. (II)

64.36(9) Discussion of involuntary transfer or discharge. Within 48 hours after notice of involuntary transfer or discharge has been received by the resident, the facility shall discuss the involuntary transfer or discharge with the resident, the resident's responsible party, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. (II)

a. The facility administrator or other appropriate facility representative serving as the administrator's designee shall provide an explanation and discussion of the reasons for the resident's involuntary transfer or discharge. (II)

b. The content of the explanation and discussion shall be summarized in writing, shall include the names of the individuals involved in the discussion, and shall be made part of the resident's record. (II)

c. The provisions of this subrule do not apply if the involuntary transfer or discharge has already occurred pursuant to subrule 64.36(6) and emergency notice is provided within 48 hours.

64.36(10) Transfer or discharge planning.

a. The facility shall develop a plan to provide for the orderly and safe transfer or discharge of each resident to be transferred or discharged. (II)

b. To minimize the possible adverse effects of the involuntary transfer, the resident shall receive counseling services by the sending facility before the involuntary transfer and by the receiving facility after the involuntary transfer. Counseling shall be documented in the resident's record. (II)

c. The counseling requirement in paragraph 64.36(10) "b" does not apply if the discharge has already occurred pursuant to subrule 64.36(6) and emergency notice is provided within 48 hours.

d. Counseling, if required, shall be provided by a licensed mental health professional as defined in Iowa Code section 228.1(6). (II)

e. The health care facility that receives a resident who has been involuntarily transferred shall immediately formulate and implement a plan of care which takes into account possible adverse effects the transfer may cause. (II)

64.36(11) *Transfer upon revocation of license or voluntary closure.* Residents shall not have the right to a hearing to contest an involuntary discharge or transfer resulting from the revocation of the facility's license by the department of inspections and appeals. In the case of the voluntary closure of a facility, a period of 30 days must be allowed for an orderly transfer of residents to other facilities.

64.36(12) *Intrafacility transfer.*

a. Residents shall not be arbitrarily relocated from room to room within a licensed health care facility. (I, II) Involuntary relocation may occur only in the following situations, which shall be documented in the resident's record: (II)

- (1) A resident's incompatibility with or disturbance to other roommates.
- (2) For the welfare of the resident or other residents of the facility.
- (3) For medical, nursing or psychosocial reasons, as judged by the primary care provider, nurse or social worker in the case of a facility which groups residents by medical, nursing or psychosocial needs.
- (4) To allow a new admission to the facility that would otherwise not be possible due to separation of roommates by sex.

(5) In the case of a resident whose source of payment was previously private, but who now is eligible for Title XIX (Medicaid) assistance, the resident may be transferred from a private room to a semiprivate room or from one semiprivate room to another.

(6) Reasonable and necessary administrative decisions regarding the use and functioning of the building.

b. Unreasonable and unjustified reasons for changing a resident's room without the concurrence of the resident or responsible party include:

- (1) Change from private pay status to Title XIX, except as outlined in subparagraph 64.36(12)"a"(5). (II)
- (2) As punishment or behavior modification, except as specified in subparagraph 64.36(12)"a"(1). (II)
- (3) Discrimination on the basis of race or religion. (II)

c. If intrafacility relocation is necessary for reasons outlined in paragraph 64.36(12)"a," the resident shall be notified at least 48 hours prior to the transfer and the reason therefor shall be explained. The responsible party shall be notified as soon as possible. The notification shall be documented in the resident's record and signed by the resident or responsible party. (II)

d. If emergency relocation is required in order to protect the safety or health of the resident or other residents, the notification requirements may be waived. The conditions of the emergency shall be documented. The family or responsible party shall be notified immediately or as soon as possible of the condition that necessitates emergency relocation, and such notification shall be documented. (II)

e. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility and not as an intrafacility transfer. (II, III)

481—64.62(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the same physical structure of the facility, if the other business or activity is under the control of and is directly related to and incidental to the operation of the health care facility, or the business or activity is approved by the department and the state fire marshal.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs “a” through “j” of this rule. (I, II, III)

64.62(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

- a. Health and safety risks for residents;
- b. Compatibility of the proposed business or activity with the facility program;
- c. Noise created by the proposed business or activity;
- d. Odors created by the proposed business or activity;
- e. Use of entrances and exits for the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- f. Use of the facility’s corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- g. Proposed staffing for the business or activity;
- h. Sharing of services and staff between the proposed business or activity and the facility;
- i. Facility layout and design; and
- j. Parking area utilized by the business or activity.

64.62(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

64.62(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules. (I, II, III)

481—64.63(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A facility which chooses to provide respite care services must meet the following requirements related to respite care services and must be licensed as a health care facility.

64.63(1) A facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

64.63(2) Rules regarding involuntary discharge or transfer rights do not apply to residents who are being cared for under a respite care contract.

64.63(3) The facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements for contracts between a health care facility and resident, except the requirements concerning the holding and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons.

64.63(4) Respite care services shall not be provided by a facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

Interpretive Guidelines****§440.150 Intermediate Care Facility Services, Other Than in Institutions for Mental Diseases****W101**

W101 is reassigned to §483.410(e). Section 442.251, the standard which requires that facilities meet the requirement for a State license, is redesignated to §483.410(e) and W101 is reassigned as well to afford a sense of continuity.

W103

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(a) The facility must identify an individual or individuals to constitute the governing body of the facility.

Guidance §483.410(a)

If concerns are noted regarding the governing body, written documentation verifies that the facility has designated the individual or individuals to constitute the governing body and their titles.

§483.410(a)(1) The governing body must exercise general policy, budget, and operating direction over the facility.

Guidance §483.410(a)(1)

The governing body develops, monitors, and revises, as necessary, policies and operating directions which ensure the necessary staffing, training resources, equipment and environment to provide clients with active treatment and to provide for their health and safety.

Direction by the Governing Body includes areas such as health, safety, sanitation, maintenance and repair, and utilization and management of staff.

Condition level operational deficiencies may be associated with a failure by the Governing Body to exercise general direction of the facility.

(b) Standard: Compliance with Federal, State and local laws

§483.410(b) The facility must be in compliance with all applicable provisions of Federal, State and local laws, regulations and codes pertaining to:

Guidance §483.410(b)

The facility has no final adverse action by a Federal, State, or local authority. Such adverse actions include, but are not limited to fines, limitation on services that may be provided, or loss of licensure.

The facility must be able to provide for review, current licenses and permits as well as applicable reports of inspections by State or local health authorities.

If a situation is identified indicating the provider may not be in compliance with Federal, State, or local law, refer that information to the authority having jurisdiction (AHJ) for follow-up actions. See W107, W108, or W109.

W110

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(1) The facility must develop and maintain a record keeping system that includes a separate record for each client and;

W111

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(1) that documents the client's health care, active treatment, social information, and protection of the client's rights.

Guidance §483.410(c)(1)

The structure and content of a client's record must be an accurate, functional representation of the actual experience of the client in the facility.

The record should contain an accurate account of all information relevant to the client's health care, active treatment, social information and protection of the client's rights, such as communications, correspondence, program plans (to include both in-house and outside service programs), progress summaries, activity plans and activity participation, incidents, consent forms and all medical information.

If the records are maintained electronically, the facility staff should be able to access various parts of the record without difficulty. If they are unable to access components of the record upon request, then this may indicate a lack of training by the facility.

W112

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(2) The facility must keep confidential all information contained in the clients' records, regardless of the form or storage method of the records.

Guidance §483.410(c)(2)

"Keep confidential" means safeguarding the content of information including video, audio, and/or computer stored information from unauthorized disclosure without the specific informed consent of the client, parent of a minor child, or legal guardian, and consistent with the advocate's right of access. Facility staff and consultants, hired to provide services to the client, sign confidentiality agreements before having access to client records and should have access to only that portion of information that is necessary to provide effective responsive services to the client.

These agreements should be renewed according to the policies of the facility. The agreement may stipulate that the agreements are in place until either the facility or member terminates the agreement.

The facility has in place safeguards to ensure that access to all information regarding clients is limited to those clients designated by Health Insurance Portability and Accountability Act (HIPAA) requirements, the Developmental Disabilities Act, State law and facility policy.

The facility should prevent any instances of unauthorized access or dissemination. For example, the staff is observed to leave the client record (hard copy or electronic version) in the living room of the house when visitors or persons not authorized to access client records are present. Client records must be secured when staff is not present.

The facility must develop and follow procedures for maintaining the confidentiality of client information during transport to medical appointments or to other locations outside the facility.

Confidentiality applies to both central records and information kept at dispersed locations. If there is information considered too confidential to place in the record used by all staff (e.g., identification of the family's financial assets, sensitive medical data), it may be retained in a companion record located in a secure location in the facility with a notation made in the primary record as to the location of confidential information. The facility must ensure that any client information provided to day services programs is maintained confidential.

The sharing of client specific information with members of the "specially constituted committee" required by §483.440(f)(3), who are not affiliated with the agency, does not violate a client's right to have information about him or her kept confidential. The committee must have relevant information to function properly.

Facility confidentiality safeguards include the development and implementation of written policies to assure that members of the specially constituted team maintain confidentiality. Such processes may include signed confidentiality agreements. These agreements should be renewed according to the policies of the facility. The agreement may stipulate that the agreements are in place until either the facility or member terminates the agreement.

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(3) The facility must develop and implement policies and procedures governing the release of any client information, including consents necessary from the client, or parents (if the client is a minor) or legal guardian.

Guidance §483.410(c)(3)

The facility develops and follows written policies governing the release of client information.

Release of any personally identifiable information does not occur unless consent(s) is obtained prior to the release.

These policies must address at a minimum who must give consent for the release of information from records. The policy and procedures should account for other situations involving the release of client information, such as:

- who should be notified when records have been released;
- procedures to be followed with subpoenas;
- time frames for providing requested information; and
- information regarding a client's HIV status may not be released without specific consent and may not be in the record if that consent has not been given.

§483.410(c)(4) Any individual who makes an entry in a client's record must make it legibly, date it, and sign it.

Guidance §483.410(c)(4)

Illegible writing in hard copy records can contribute to communication deficits among staff. Illegible writing which cannot be easily interpreted by facility staff upon surveyor request may constitute a safety issue.

Electronic signatures are acceptable in the electronic record system.

W115

§483.410(c)(5) The facility must provide a legend to explain any symbol or abbreviation used in a client's record.

W116

§483.410(c)(6) The facility must provide each identified residential living unit with appropriate aspects of each client's record.

Guidance §483.410(c)(6)

“Appropriate” means those parts of each client's record are most likely (or known) to be needed by the residential staff to carry out the client's active treatment program in the unit; to alert staff to health risks and other aspects of medical treatment; to support the psychosocial needs of the client; to contact family or emergency contacts, and to provide anything else necessary to the staff's ability to work on behalf of the client.

The staff of the residential living unit has, and can access, all information which is relevant to implementing client program plans, appropriate care of, interaction with, and provision of services for the client.

(d) Standard: Services provided under agreements with outside sources

W117

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(1) If a service required under this subpart is not provided directly, the facility must have a written agreement with an outside program, resource, or service to furnish the necessary service, including emergency and other health care.

Guidance §483.410(d)(1)

If a service is not provided directly, there must be a written agreement for such services.

Written agreements are required for emergency services such as dentists and pharmacies. For those services that require a visit to a hospital, the Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) typically utilizes services from an emergency department of the hospital, thus no written contract is required.

Federal statute (P.L. 94-142) requires all school-aged children to receive a free and appropriate school education. Therefore, a written agreement between ICF/IIDs and public schools is not necessary.

W120

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(3) The facility must assure that outside services meet the needs of each client.

Guidance §483.410(d)(3)

Outside services are any services needed by the clients and not provided directly by the facility (hospital visits, dental visits, day program services, etc.).

Programs and services must be coordinated between the facility and the outside service, and foster consistency of implementation across settings of teaching strategies and behavior management.

The facility monitors outside services on an ongoing basis to ensure that services provided are consistent with the needs of each client as identified in the Individual Program Plan (IPP). For example, if the facility is implementing a behavior management or a communication program for the client, it is shared with the outside program and implemented by the outside program (workshop, day program, etc.) and the outside program agrees to incorporate it into their day program. At periodic intervals, the facility staff visit or communicate with the outside program to verify consistency across the two settings.

With outside resources, it is the responsibility of the facility to assure that the services are provided in a safe clean environment, by appropriately qualified professions, and any untoward outcome of services are promptly addressed. If, in spite of attempts by the facility to assure compliance, the outside program does not implement the program for the client, then the facility remains responsible for the lack of active treatment.

§483.410(d)(4) If living quarters are not provided in a facility owned by the ICF/IID, the ICF/IID remains directly responsible for the standards relating to physical environment that are specified in §483.470(a) through (g), (j) and (k).

Guidance §483.410(d)(4)

Even though the facility's premises may be rented from a landlord, the facility must ensure that the requirements for physical environment are met, either through arrangement with the landlord or through the facility's own services.

(e) Standard: Licensure**§483.420(a) Standard: Protection of Clients' Rights**

The facility must ensure the rights of all clients. Therefore, the facility must

Guidelines §483.420(a)

“Ensure” means that the facility actively asserts the individual’s rights and does not wait for him or her to claim a right. This obligation exists even when the individual is less than fully competent and requires that the facility is actively engaged in activities which result in the pro-active assertion of the individual’s rights, e.g., guardianship, advocacy, training programs, use of specially constituted committee, etc.

Guidance §483.420(a)

The facility must ensure the client’s rights and does not wait for him or her to claim a right. This obligation exists even when the client is less than fully competent and requires that the facility is actively engaged in activities which result in the protection of the client’s rights, advocacy for individual clients who have no family or an inactive family, and training programs for clients and staff on the understanding and protection of client rights.

§483.420(a)(1) Inform each client, parent (if the client is a minor), or legal guardian, of the client’s rights and the rules of the facility;

Guidance §483.420(a)(1)

The obligation to inform requires that the facility presents information on rights to the client, his or her family or his or her legal guardian in a manner and form which they can understand. In most instances, family means parent. However, in those instances where parents are deceased or choose not to be active in the client’s life and there is another family member who does wish to be active, but is not the legal guardian, this family member should be informed of the client’s rights. Printed materials should be provided in understandable terms and provided in the language necessary to ensure understanding. Specialized methods, as indicated, should be provided for communication with clients, families or legal guardians with hearing or vision impairment.

Pro-active assertion of client rights includes, but is not limited to:

- Signed evidence that the client, his or her family and/or his or her legal guardian have been informed of the client’s rights, and

- Evidence that the communication of these rights were provided at the client’s level of comprehension, and in the language understandable to the client.

The obligation to inform also requires that the facility make some determination of whether the client and his or her family, or legal guardian understood the rights presented and made additional efforts to communicate the rights if the rights were not understood.

If the facility has written “rules of the facility”, these rules must be communicated to the client, their family and or legal guardians at the time of admission and must not be in conflict with any of the rights listed in 42 CFR 483.420 (a) (1-13).

W124**(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)****§483.420(a)(2) Inform each client, parent (if the client is a minor), or legal guardian, of the client's medical condition, developmental and behavioral status, attendant risks of treatment, and of the right to refuse treatment;****Guidance §483.420(a)(2)**

Clients, their families or legal guardians are promptly informed of any change in the client's medical or behavioral needs that requires immediate alteration to programmatic or medical intervention. Promptly is defined by the level of severity of the alteration. In each case, they must also be informed of the attendant risks of any recommended treatments or interventions and of their right to refuse treatment, training or services.

If parents or legal guardians wish for other members of the client's family to be informed of such changes, they must put this permission in writing.

The communication of this information must be provided in the manner and language understood by the client or their family or legal guardian (language boards, sign language, etc.).

The term "attendant risks of treatment" describes the risk vs. risk and risk vs. benefit associated with the treatment. These risks include possible side effects, other complications from treatments including medical and drug therapy, unintended consequences of treatment, other behavioral or psychological ramifications arising from treatment, etc.

The facility actively attempts to engage clients who refuse to participate in active treatment. While the regulation recognizes the client's right to refuse treatment, persistent refusal that impacts the health and safety of the client and/or others, or the ability to provide overall active treatment, may result in facility's consideration of alternative placements for the client. It is expected, however, that the facility has assessed the reason for refusal, and developed and implemented all possible interventions to engage the client in active treatment programs prior to referring the client to another therapeutic setting.

A client, his or her family member, or legal guardian who refuses a particular treatment (e.g., a behavior control, seizure control medication or a particular intervention strategy) must be offered information about acceptable alternatives to the treatment, if acceptable alternatives are available. The client's preference about alternatives should be elicited and considered in deciding on the course of treatment. If the client, family member, or legal guardian also refuses the alternative treatment, or if no alternative exists to the treatment refused, the facility must consider the effect this refusal may have on other clients, the client himself or herself, and if they can continue to provide services to the client consistent with these regulations.

If the facility is unable to provide services to a client due to consistent refusal to participate, they must weigh all options including an involuntary discharge. Involuntary discharge must be for good cause (see 483.440(b)(4)(i)).

When a client is considered for participation in experimental research the client, his/her family and/or legal guardian must be fully informed of the nature of the experiment (e.g., what medications or physical interventions will be utilized, the length of the research, any possible side effects and how the information from the research will be utilized). Information regarding the possible consequences of participating or not participating must be provided to the client, family member or legal guardian. The written consent of the client, his/her family or legal guardian must be received prior to participation. For a client who is a minor or who has been adjudicated as incompetent, the written informed consent of the parents of the minor or the legal guardian is required. The signed, informed consent documentation must be in compliance with HHS Guidelines for Research Involving Human Subjects. The signed consent must also include a clear

discussion of what treatments will be included in the research, the time limits for the research and should clearly inform the client, family member or legal guardian that the client may end participation at any time without fear of recrimination. If the research protocol indicates that clients receive compensation, then clients are compensated per the protocol.

Any research must be reviewed and approved by the Specially Constituted Committee. See W263.

W125

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(3) Allow and encourage individual clients to exercise their rights as clients of the facility, and as citizens of the United States, including the right to file complaints, and the right to due process;

Guidance §483.420(a)(3)

To the extent that a client is able, choices are made on his/her own. Each client has autonomy of decision making and choice.

They are free to move about without limitations imposed due to staff preferences or staff convenience.

Clients are not restricted without due cause or due process.

To the extent that the client is able to make decisions for him or herself, it is inappropriate to delegate the person's right to others (e.g. parents, family members, etc.).

The facility has an obligation to assure client health and safety and must balance that obligation with the rights of clients.

If the facility has implemented a restriction, the following should be in place:

- An assessment supporting the need for the restriction;
- An individualized behavior plan to reduce the need for the restriction has been developed and implemented;
- A written informed consent for the behavior plan which includes the restriction;
- Approval of the Specially Constituted Committee; and
- Monitoring by the Committee of the progress of the training program, designed to reduce and eventually eliminate the restriction.

Clients, families, and legal guardians have the right to register a complaint with the facility and the State Survey Agency. If so, the facility must respond promptly and appropriately. The facility must ensure protection of the client from any form of reprisal or intimidation as a result of a complaint or grievance reported by the client, family, or legal guardian.

Issues involving the exercise of constitutional rights such as voting should be addressed as a component of the IPP when the Interdisciplinary Team (IDT) determines a need for training. Clients who have been adjudged to need guardianship or have been assessed as needing assistance to advocate for themselves should receive assistance or support so they may exercise their rights as citizens of the United States.

W126

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(4) Allow individual clients to manage their financial affairs and teach them to do so to the extent of their capabilities;

Guidance §483.420(a)(4)

The regulation is clear that in those cases where a client already possesses the skills necessary to independently manage their own financial affairs, the facility will allow the client to continue to do so. Formal training in financial management must be provided for all other clients in the facility to the extent of their capabilities. The regulation places the responsibility for determining the extent of the client's capabilities in this matter upon an assessment and interdisciplinary process within the facility.

To reach a determination as to whether a money management program is appropriate, the facility IDT uses the comprehensive functional assessment (CFA) to evaluate the ability of each client to participate in such a program. Under 42 C.F.R. 483.440(c)(3), the team evaluation must establish, through documentation, that the IDT considers all of the objective data within the assessment in reaching their determination, especially the identification of client skills which can be used across training programs. Examples of assessment findings that may be considered by the IDT include skills that can be cross- utilized in training programs such as:

1. Fine motor coordination;
2. The ability to make choices;
3. The ability to identify preferences; and
4. Cognitive abilities including tracking, attention span, communication, and the client's ability to understand the cause and effect. (The client understands of cause and effect is significant in the determination.)

Money management includes a broad spectrum of programs with varying levels of participation by the client ranging from the use of choice in money expenditures, to an understanding of the concept of money, and ultimately to actual money handling and budgeting. The IDT must not conclude that a money management program is inappropriate based solely upon the level of intellectual or physical disability of the client.

The CFA must be reviewed at least annually per 42 C.F.R.483.440(f)(2). As a part of this annual review, a client's ability to participate in money management will also be reviewed. The annual review should always include an update to the CFA and take into consideration any changes in the client's circumstances since the last IPP. The need for a formal money management program must be addressed in every client's IPP by the IDT on an annual basis.

The determination of the appropriateness of a formal money management program is made by the IDT and must be based upon a CFA. The IDT discussions resulting in that determination must be established through documentation in the client's IPP.

§483.420(a)(5) Ensure that clients are not subjected to physical, verbal, sexual or psychological abuse or punishment;

Guidance §483.420(a)(5)

Identification of patterns or isolated instances of physical, verbal, sexual or psychological abuse or punishment without prompt identification and corrective action by the facility would result in a non-compliance determination for this Standard and Condition level non-compliance.

The facility must develop and implement systems that protect clients from all forms of abuse, neglect, or mistreatment, including client to client abuse, neglect, or mistreatment.

- a. The facility is expected to ensure that staff possess and demonstrate needed competencies to effectively and appropriately interact with clients.
- b. The facility must monitor to assure that systems are effectively implemented and the facility takes immediate actions to address circumstances where abuse, neglect, or mistreatment have occurred and prevent reoccurrence.
- c. The facility must be organized in such a manner as to proactively assure clients are free from any threat to their physical and psychological health and safety.
- d. The facility must act to prevent physical, verbal, sexual or psychological abuse. If the facility fails to implement appropriate corrective action, the potential of additional threats to the clients remain at the facility.

“Threat”, for the purposes of this guideline, is considered any condition/situation which could cause or result in severe, temporary or permanent injury or harm to the mental or physical condition of clients, or in their death.

“Abuse”, for the purposes of this guideline, is the willful infliction of injury, unreasonable confinement, intimidation or punishment with the resulting physical harm, pain or personal anguish.

Physical abuse refers to any action intended to cause physical harm or pain, trauma or bodily harm (e.g., hitting, slapping, punching, kicking, pinching, etc.). It includes the use of corporal punishment as well as the use of any restrictive, intrusive procedure to control inappropriate behavior for purposes of punishment. Verbal abuse refers to any use of insulting, demeaning, disrespectful, oral, written or gestured language directed towards and in the presence of the client. Psychological abuse includes, but is not limited to, humiliation, harassment, and threats of punishment or deprivation, sexual coercion and intimidation (e.g. living in fear in one’s own home). Since many clients residing in ICF/IIDs are unable to communicate feelings of fear, humiliation, etc. associated with abusive episodes, the assumption is made that any actions that would usually be viewed as psychologically or verbally abusive by a member of the general public, would also be viewed as abusive by the client residing in the ICF/IID, regardless of that client’s perceived ability to comprehend the nature of the incident.

Sexual abuse includes any incident where a client is coerced or manipulated to participate in any form of sexual activity for which the client did not give affirmative permission (or gave affirmative permission without the attendant understanding required to give permission) or sexual assault against a client who is unable to defend him/herself.

The facility must implement, through policies, oversight and training, safeguards to ensure that clients are not subjected to abuse by anyone including, but not limited to, facility staff, consultants or volunteers, staff of other agencies serving the client, family members or legal guardians, friends, other clients, or the general public.

The facility must take whatever action is necessary to protect the clients residing there. For example, if a facility is forced by court order or arbitration rulings to retain or reinstate an employee found to be abusive, the facility must take measures to protect the clients of the facility (such as assigning the employee to an area where there is no contact with clients).

§483.420(a)(6) Ensure that clients are free from unnecessary drugs and physical restraints and are provided active treatment to reduce dependency on drugs and physical restraints;

Guidance §483.420(a)(6)

The facility must implement an aggressive active treatment program, which includes appropriate replacement behaviors, to address the reduction/elimination of physical restraints and drugs to manage behaviors.

For purposes of this Guideline drugs to manage behavior are “unnecessary” if there is evidence the drugs are being used:

- In excessive dose (duplicate therapy);
- For excessive duration;
- Not monitored adequately;
- Without adequate indications for its use;
- With adverse consequences which indicate the dose should be reduced or discontinued; or
- Any combination of the reasons listed above.

The long term use of a drug/physical restraint to manage behavior combined with one or more of the following may indicate unnecessary use:

- The client's developmental and/or behavioral needs are not being met and the appropriateness of less restrictive approaches to manage inappropriate behaviors should be questioned;
- Staff behavior may be prompting behaviors in clients which result in the chronic use of physical restraints and drugs to control behavior;
- Staff may have inadequate training and/or experience to provide active treatment and employ preventive measures;

Restraints applied for behaviors when less restrictive measures have not been tried or have been tried and found to be just as effective.

§483.420(a)(7) Provide each client with the opportunity for personal privacy and

Guidance §483.420(a)(7)

The facility must provide areas within the living area in which the client can have time to be alone, when appropriate, and to have privacy (their conversations cannot be overheard) for personal interactions/activities. There should be a location where the client can meet privately with family and/or friends and a telephone available where he/she can hold private telephone conversations.

Personal privacy for clients also includes the right to have certain personal information about them kept confidential. Staff should not discuss one client in front of others (clients, parents, legal guardians, visitors, etc.) and should not post personal information about clients in areas where other clients, families and the public can read the information.

Video/audio taping or live feed must not be used in place of or for the convenience of staff. The facility may install video/audio equipment for purposes of observing client/staff interactions. Video/audio equipment may only be installed in common areas (in no case may videotaping or live feed be done in bathrooms or areas where private visits are conducted). The clients, families and/or legal guardians of the clients residing in the areas where videotaping or live feed will occur must give informed consent for the installation and must be assured that no personal privacy will be jeopardized. The use of the equipment must be presented at and approved by the specially constituted committee for the facility prior to the installation of video or audio devices.

Motion sensors should not be considered cameras.

§483.420(a)(8) ensure that clients who do work for the facility are compensated for their efforts at prevailing wages and commensurate with their abilities;

Guidance §483.420(a)(8)

“Work”, as used in the regulation, means any directed activity, or series of related activities which results in a benefit to the economy of the facility or in a contribution to its maintenance, or in the production of a salable product. In deciding whether a particular activity constitutes “work” as defined above, the key determinant is whether the facility would be required to hire additional full or part-time staff (or pay overtime to existing staff) to perform the service the client is asked to perform.

Clients volunteering to do real work that benefits the facility should give informed consent for such practices and understand that by providing employable services they are able to be compensated. This does not preclude a client from helping out a friend or being kind to others. Self-care activities related to the care of one's own person or property are not considered “work” for purposes of compensation.

In general, participation in any household task which promotes greater independent functioning and assists the client to prepare for less restrictive setting (and which the client has not yet learned) is permitted as long as tasks are included in the IPP in written behavioral and measurable terms. This participation must be supervised, and indices of performance should be available. No task may be performed for the convenience of staff (e.g., supervising clients, running personal errands).

“Compensated” means the client is provided with money or other forms of negotiable compensation for work (including work performed in an occupational training program) and such compensation is to be used at the client's discretion.

Prevailing wage refers to the wage paid to non-disabled workers in nearby industry or the surrounding community for essentially the same type, quality and quantity of work or work requiring comparable skills. A client who works in the facility must be paid at least the prevailing minimum wage, unless an appropriate certificate has been obtained by the facility in accordance with current regulations and guidelines issued under the Fair Labor Standards Act, as amended.

Any client performing “work”, as defined above, must be compensated in direct proportion to his or her output. The facility should utilize Department of Labor and/or Department of Vocational Rehabilitation formulas and techniques for determining rate of pay. A client's pay is not dependent on the production of other clients when he or she works in a group.

When the client's active treatment program includes assignment to occupational or vocational training or work, specific work objectives of anticipated progress should be included in the IPP along with reasons for the assignments. If the training of clients on particular occupational activities or functions involves “real work” to be accomplished for the facility, the clients must be compensated based on ability. For example, if in the process of work training activities which involve learning to clean a floor, the floor for a particular building is cleaned and does not require further janitorial cleanup, then the client must be compensated for this activity at the prevailing wage.

The facility must provide opportunities for the client to communicate, through regular mail, telephone and/or electronic mail and meet in private with persons of their choice (e.g., friends from the community, family members, and advocates). There may be instances where legal guardians override the wishes of the client. In these instances, the facility should be actively working with the legal guardian and the client to reach the maximum agreeable level of interaction for the client.

Space must be provided for clients to receive visitors in reasonable comfort and privacy.

As with any other rights restriction, the restriction must be addressed in the IPP, written informed consent obtained, and the plan must be reviewed and approved by the specially constituted committee.

Clients should be offered the opportunity to participate in various types of activities in the community (e.g., going to grocery stores, hair salons, restaurants, places of worship, pharmacies, community meetings and events) based on their interests and choices. The facility must make accommodations for physical issues such as hearing impairment and mobility limitations. In addition, clients should be taught the applicable skills to participate in their choice of activities to the fullest extent of their abilities.

It is not acceptable for all client activities to be provided in the facility.

When a client is identified to be on restriction from community integration opportunities, interview clients, families, legal guardians and staff to determine if due process was afforded for this restriction and whether the restriction is included in the IPP.

In the event of a court placement that restricts community access, due process does not apply.

There should be evidence that the facility assists and encourages all clients, regardless of functioning levels, to have input into the decisions on community integration activities.

It is not acceptable to require clients to attend unwanted activities due to staffing considerations.

§483.420(a)(12) Ensure that clients have the right to retain and use appropriate personal possessions and clothing, and

Guidance §483.420(a)(12)

Clients should have personal possessions and clothing which meet their needs, interests and choices.

Clients should have free access to their own possessions and clothing. When considering whether a client has free access to their personal possessions and clothing, ensure that physical limitations have been addressed.

Clients who are unable to access and use personal possessions and clothing appropriately are involved in programs to learn the necessary skills to do so.

In situations where the behavior of one or more clients in a living area prevents free access to personal possessions for each client, the facility must develop IPPs for the client with disruptive behavior. The facility must also ensure that during the implementation of this program plan that none of the other clients have their rights infringed upon. Clients should not be without personal possessions because of the behavior of others with whom they live.

All client possessions, regardless of their apparent value to others are treated with respect for what they may represent to the client. Where those choices include socially stigmatizing materials, the facility should provide learning opportunities to make more socially appropriate choices. The facility should encourage clients to use or display possessions of his or her choice in a culturally normative manner.

If a method for identifying personal effects is used, it should be inconspicuous and in a manner that will assist the client to identify them.

“Appropriate” clothing means a supply of clothing that is sufficient, in good repair, accounts for a variety of occasions and seasons, and appropriate to age, size, gender, and level of activity. Modification or adaptation of clothing fasteners should be considered based on the needs of a client with a physical disability to become more independent.

As appropriate, each client’s active treatment program maximizes opportunities for choice and self-direction with regard to choosing and shopping for clothing which enhances his or her appearance, and selecting daily clothing in accordance with age, sex and cultural norms.

Clients are permitted to keep personal clothing and possessions for their use while in the facility. Determine how the facility both ensures the safety of personal possessions while at the same time providing client access to them when the client chooses.

Clients are provided the opportunity, encouraged, and trained to use age-appropriate materials. The term “age-appropriate” refers to anything that reinforces recognition of the client as a person of a certain chronological age. Clients who choose to keep items traditionally used by children such as dolls or model cars are not an automatic citation. There must be evidence the facility is encouraging the client to use these possessions in a socially appropriate, non-stigmatizing manner. The facility’s environment must be furnished with materials and activities that will enhance opportunities for growth.

Pocket money should be considered a nominal amount of five dollars or less at a time. Funds provided by the facility and dispensed to a client as part of a program to train the client in money management, and funds that are not entrusted to the facility (e.g., funds paid directly to the client's representative payee) do not require accounting.

The facility encourages and engages parents, family members and legal guardians in the continued implementation of active treatment programs even while spending time outside of the facility setting.

“Unobtainable”, for the purposes of this guideline, means that the facility has made a good faith effort to seek parental or legal guardian participation in the process, even though the effort may ultimately be unsuccessful (for example, the parent may be impossible to locate or may prove unwilling or unable to participate).

“Inappropriate”, for the purposes of this guideline, means that behavior of the parent or legal guardian could be disruptive or detrimental to the client’s program outcome. In this case, determine what the facility has done to bring effective resolution to the problem.

Guidance §483.420(c)(3)

Any limitations on visitors must be implemented as a result of IDT evaluation and discussion and be documented. This documentation should include evidence of approval from the specially constituted committee. “Significant” incidents or changes in the client's condition include serious injury, unusual seizure activity, hospitalization, serious illness, accident, death, allegations of abuse, neglect, or mistreatment, unauthorized absence, or any notifications the parent or legal guardian's requests.

It is reasonable to expect the facility to contact the family or legal guardian of a client as soon as possible after an incident occurs, but no later than 24 hours after the incident. If notification is done via electronic mail, the facility must request a response from the e-mail recipient to confirm notification. Telephone notification must be accomplished by talking to the person directly. If a message is left, the facility must request a call back to confirm receipt of the notification.

Contact by letter may be utilized as follow up confirmation, but not be the initial, primary or sole mode of communication with the family or legal guardian.

If unable to contact the family or legal guardian, there should be evidence that the facility attempted to reach alternate emergency contacts.

Requests from clients who are their own guardian to limit notifications to their families must be honored.

§483.420(d)(1) The facility must develop and implement written policies and procedures that prohibit mistreatment, neglect or abuse of the client.

Guidance §483.420(d)(1)

The facility, through implementation of its policies, must set up a structure that screens and trains employees, protects clients and prevents, identifies, investigates and reports abuse, neglect and mistreatment of clients.

The policies must designate who (either by name or title) has the authority to act in the Administrator's absence and take any immediate corrective actions necessary to assure a client's safety such as removing a staff person from direct client contact.

“Mistreatment”, for the purposes of this guideline, includes behavior or facility practices that result in any type of client exploitation such as financial, physical, sexual, or criminal. Mistreatment also refers to the use of behavioral management techniques outside of their use as approved by the specially constituted committee and facility policies and procedures.

“Neglect” means failure to provide goods and services necessary to avoid physical harm, mental anguish or mental illness. Staff failure to intervene appropriately to prevent self-injurious behavior may constitute neglect. Staff failure to implement facility safeguards, once client to client aggression is identified, may also constitute neglect.

§483.420(d)(1)(iii) The facility must prohibit the employment of individuals with a conviction or prior employment history of child or client abuse, neglect or mistreatment.

Guidance §483.420(d)(1)(iii)

The facility is required to screen potential employees for a prior employment history of child or client abuse, neglect or mistreatment, as well as for any conviction based on those offenses. The abuse, neglect or mistreatment must have been directed toward a child or a client/resident/patient of a health care facility in order for the prohibition of employment to apply.

No one with a conviction or substantiated allegation of child or client abuse, neglect or mistreatment regardless of employment date, is employed by the facility. This requirement also applies to acts of abuse, neglect or mistreatment committed by a current ICF/IID employee outside the jurisdiction of the ICF/IID (e.g., in the community or in another health care facility). The facility must follow state guidelines or requirements for background checks to assure that they make every effort to check new employee's background.

Where the facility has terminated an employee based upon confirmation that abuse, neglect or mistreatment occurred during the employee's performance, and the termination decision was overturned by either arbitration finding or a court finding, the employee must be returned to a position which does not involve direct contact between that employee and clients of the facility.

A person who abused a resident in a nursing facility, and as a result, is barred from employment in the nursing home setting would also be prohibited from employment in the ICF/IID. While facilities are not required to periodically screen existing employees, if the facility becomes aware that such action has been taken against an employee, the facility is required to prohibit continued employment. This is also true of any conviction in a court of law for child, elder, or client (resident, patient) abuse, neglect or mistreatment. Therefore, conviction for abusing one's own child is also a reason employment would be prohibited.

§483.420(d)(2) The facility must ensure that all allegations of mistreatment, neglect or abuse, as well as injuries of unknown source, are reported immediately to the administrator or to other officials in accordance with State law through established procedures.

Guidance §483.420(d)(2)

Injuries of unknown source that give rise to a suspicion that they may be the result of abuse or neglect, should be reported immediately.

An injury should be reported as an "injury of unknown source" when:

- The source of the injury was not witnessed by any person and the source of the injury could not be explained by the client; and

- The injury raises suspicions of possible abuse or neglect because of the extent of the injury or the location of the injury (e.g., the injury is located in an area not generally vulnerable to trauma) or the number of injuries observed at one particular point in time or the incidence of injuries over time.

It is important to note that members of the ICF/IID population are a mobile population and lead active lives. Therefore, they experience normal day-to-day bumps and minor abrasions as they go about their lives. These minor occurrences which are not of serious consequence to the individual and do not present as a suspicious or repetitive injury (as discussed above) should be recorded by the facility staff once they are aware of them and follow-up should be conducted as indicated. For injuries that do not rise to the level of reportable “injuries of unknown source”, the facility should follow its policies and procedures for incident recording, investigation, and tracking.

The facility must immediately report any suspicious injuries of unknown source and all allegations of mistreatment, neglect or abuse to a client residing in the facility regardless of who is the alleged perpetrator (e.g., facility staff, parents, legal guardians, volunteer staff from outside agencies serving the client, neighbors, or other clients, etc.).

If state law requires reporting to an agency or entity other than the administrator, the Centers for Medicare & Medicaid Services (CMS) expects the administrator to be notified as well, in order to ensure facility response to promptly safeguard the client(s).

For the purposes of this regulation “immediately” means there should be no delay between staff awareness of the occurrence and reporting to the administrator or other officials in accordance with State law unless the situation is unstable in which case reporting should occur as soon as the safety of all clients is assured.

- Review of all information;
- Resolution of any discrepancies;
- Summary of conclusions; and
- Recommendations for action both to safeguard all the clients during the investigation and after the completion of the report.

Some states require that allegations of abuse must be reported to the police. A police investigation may take longer than five (5) working days. Their investigation does not change the requirement that the facility must complete an internal investigation report of findings within the five day timeframe. When outside authorities are involved, the facility will still be required to complete their investigation within five days to the extent authorized by such entities. “Working days” means Monday through Friday, excluding state and Federal holidays.

The facility is required to ensure that clients residing in the facility are not subjected to physical, verbal, sexual or psychological abuse or punishment.

Appropriate corrective action is required for findings of abuse, neglect or mistreatment by other clients residing in the facility, staff of outside agencies, parents or any other person, and for injuries to clients resulting from controllable environmental factors.

If the facility receives allegations of abuse, neglect, or mistreatment of a client during out of facility visits with their family, they must report these allegations to the appropriate state authority for investigation. The facility does not have to conduct an internal investigation regarding the alleged violation.

Appropriate corrective action is defined as that action which is reasonably likely to prevent the abuse, neglect, mistreatment or injury from recurring.

This regulation does not require staff termination as the only appropriate corrective action.

The corrective action imposed by the facility is commensurate with the violation.

When a facility is forced to re-hire a staff person, determined by the facility investigation to have been responsible for abuse, neglect, or mistreatment, the facility continues to be responsible for ensuring the health and safety of the clients, and ensures that those staff members do not work directly with clients.

The position of qualified intellectual disability professional (QIDP) is unique to the ICF/IID program. This position can be central to the overall responsiveness and effectiveness of an active treatment program. Whether a supervisory or non-supervisory position, the QIDP is responsible to:

- Orchestrate all facets of the active treatment effort, including the IDT creation of relevant IPPs tailored to meet individual client needs;

- Effectively coordinate internal and external program services and supports to facilitate the acquisition of client skills and adaptive behaviors; and
- Promote competent interactions of residential staff with clients in program implementation and behavior management.

Breakdowns in the provision of needed services does not automatically equate with deficient practice with QIDP regulations. Non-compliance with QIDP regulations exist where the facility has failed to provide a QIDP or sufficient numbers of QIDPs to effectively perform these required functions or the QIDP(s) has failed to assertively attempt to integrate, coordinate and/or monitor each client's active treatment program.

Elements of integrating, coordinating and monitoring active treatment programs include:

- Routinely observing clients across settings in program areas to assess effectiveness of program implementation and consistency of training effort to determine effectiveness of IPPs and making timely modifications to facilitate achieving desired skills or goals.
- Routinely interacting with program staff across settings to assist in determining the effectiveness and continued relevance of program plans in meeting identified client needs.
- Determining the need for program revision based on client performance.
- Identifying inconsistencies in training approaches or programs not being implemented as written and facilitating the resolution of these inconsistencies.
- Assures follow-up occurs for any recommendation for services, equipment or programs so that needed services and supplies are provided in a timely manner to meet the client's needs.

The number of QIDPs will vary depending on such factors as the number of clients the facility serves, the complexity of needs manifested by these clients, the number, qualifications and competencies of additional professional staff members, and whether or not other duties are assigned to the QIDP function.

The QIDP function may not be delegated to other employees even though the QIDP co- signs their work.

§483.430 (b)(1) Each client must receive the professional program services needed to implement the active treatment program defined by each client's individual program plan.

Guidance §483.430 (b)(1)

The effectiveness of the active treatment effort is dependent on a facility's assembly of a competent team of professional program staff, with knowledge of contemporary care practices in intellectual disabilities specific to their field of expertise, that work cooperatively as members of an IDT. The facility is responsible for the acquisition of professional staff necessary to provide direct and indirect professional services to meet client needs.

Professional program services are those services that meet the needs identified by a client's CFA that must be provided by a member of a vocation founded upon specialized education/training.

Professional staff services also include on-going monitoring of the effectiveness of programs and plans developed by professional staff but implemented by non -professional staff.

Indirect professional staff services also include on-going, technical support to staff implementing these programs as well as timely assessment of the need for modification of the program with appropriate communication to the QIDP and IDT.

The needs identified in the initial CFA, as required in §483.440(c)(3)(v), should guide the team in deciding if a particular professional's involvement is necessary and, if so, to what extent professional involvement must continue on a direct or indirect basis.

Since such needed professional expertise may fall within the purview of multiple professional disciplines, based on overlapping training and experience, determine if the facility's delivery of professional services is adequate by the extent to which clients' needs are aggressively and competently addressed. Some examples in which professional expertise may overlap include, but are not limited to:

- Physical development and health: nurse, dietitian, pharmacist.
- Nutritional status: nurse, nutritionist or dietitian.
- Sensorimotor development: educators, recreation therapists, and occupational therapist, physical therapist.
- Affective (emotional) development: special educators, social workers, psychologists, psychiatrists, mental health counselors, rehabilitation counselors, behavior therapists, behavior management specialists, behavior analyst, and medical staff.
- Speech and language (communication) development: speech-language pathologists, special educators for people who are deaf or hearing impaired, and medical staff.
- Auditory functioning: audiologists (basic or comprehensive audiologic assessment and use of amplification equipment); speech-language pathologists (like audiologists, may perform aural rehabilitation); special educators for clients who are hearing impaired and medical staff.
- Cognitive development: teachers (if required by law, e.g., school aged children, or if pursuit of GED is indicated), behavior analysts, psychologists, speech-language pathologists.
- Vocational development: occupational therapists, vocational rehabilitation counselors, or other work specialists (if development of specific vocational skills or work placement is indicated).
- Social Development: teachers, professional recreation staff, social workers, behavior analysts, psychologists (specialized training needs for social skill development).
- Adaptive behaviors or independent living skills: special educators, occupational therapists, behavior analysts, and medical staff.

Examples of professional staff working directly with clients include: performing professional assessments of clients, provision of direct support and services and periodic monitoring by the professional of the client working on the program. The amount and degree of direct care that professionals must provide will depend on the needs of the client and the ability of other staff to effectively work with clients on a day-to-day basis. For those services that must be provided by a professional due to either law, licensure or registration, the client receives the services directly from the professional. Professionals may deliver services through the supervision and direction of subordinates where provided by law.

Examples of “working with” these other staff may include, but not be limited to:

- Modeling the correct technique for interacting with clients or implementing a specific program objective.
- Designing residential activity programs and teaching staff how to implement them.
- Conducting classes on discipline specific topics.
- Answering questions of staff related to program implementation or specific behavioral management issues.

This participation may be through written reports or verbally while attending the IPP meeting or participating via telephone or other electronic means, to provide team members with the opportunity to review and discuss information and recommendations relevant to the client's needs, and to reach decisions as a team, rather than individually, on how best to address those needs.

Guidance §483.430(b)(4)

Professional program staff provides various types of training to staff as indicated by the IPP and IDT.

Formal training: a specific training done at the time a program is implemented or updated by the professional, with all staff who works with the client.

Informal training: when the professional observes the staff not correctly implementing a program, the professional provides informal guidance on correct implementation.

Training on programs that apply to multiple clients: when a particular program applies to several clients in a facility, a professional may provide training to several staff on a particular topic that applies to multiple clients (such as safe transfer techniques).

Professional staff of the facility should participate in ongoing training such as conferences and workshops to maintain current standards of practice in the field of intellectual and developmental disabilities as required by their professional licensure or certification.

- injuries from client to client aggression; or
- a pattern of injuries of unknown origin.

If even one client meets 483.430(c)(2)(i-ii) then staff must be awake on a 24-hour basis.

- (ii) Clients who are not aggressive, assaultive or security risks; and**
- (iii) Sixteen or fewer clients.**

Guidance §483.430(c)(3)

At all times, there must be at least one staff person on-duty in the facility if even one client is present. For purposes of this provision, “on duty” staff need not be awake during normal sleeping hours, but do need to respond to injuries, illness, and emergencies promptly.

Guidance §483.430(c)(4)

Direct care staff should not be performing support services (e.g., making beds, cooking, cleaning, etc.) independently which takes them away from client interaction and teaching. If support services in the house cannot be done jointly as chores between clients, as part of their training program, and the support staff, additional staff should be added to perform the chores. This does not include any staff chores done during client's sleeping hours.

“Support staff” include all personnel hired by the facility that are not either direct care staff or professional staff. For example, support staff includes, but are not limited to, secretaries, clerks, housekeepers, maintenance and laundry personnel.

§483.430(d)(1) The facility must provide sufficient direct care staff to manage and supervise clients in accordance with their individual program plans.

Guidance §483.430(d)(1)

“Sufficient” means enough direct care staff to effectively implement the active treatment programs as defined in the IPP, to meet client needs, and to respond to emergencies, illness, or injuries.

Even though minimum ratios are defined at §483.430(d)(3), active treatment may require more staff than the minimums required ratios, therefore compliance should not be based on staffing ratios alone.

§483.430(d)(2) Direct care staff are defined as the present on-duty staff calculated over all shifts in a 24-hour period for each defined residential living unit.

Guidance §483.430(d)(2)

“Direct care staff” are those personnel who are assigned to work directly with the clients providing support during activities of daily living and active treatment programs.

Professional staff who work with clients in a living unit on a periodic basis are not included in direct care staff ratios.

Supervisors of direct care staff can be counted only if they share in the actual work of the direct care of clients on a continuous basis (e.g. take client assignment).

Direct care supervisors whose principle assigned function is to supervise direct care staff may not be included in direct care staff ratios although they may occasionally provide direct services to clients.

Non-direct care staff supervisors whose principle assigned function is to supervise non- direct care staff may not be included in direct care staff ratios.

W187

(Rev. 144, Issued: 08-14-15, Effective: 08-14-15, Implementation: 08-14-15)

§483.430(d)(3) Direct care staff must be provided by the facility in the following minimum ratios of direct care staff to clients:

(i) For each defined residential living unit serving children under the age of 12, severely and profoundly retarded clients, clients with severe physical disabilities, or clients who are aggressive, assaultive, or security risks, or who manifest severely hyperactive or psychotic-like behavior, the staff to client ratio is 1 to 3.2.

(ii) For each defined residential living unit serving moderately retarded clients, the staff to client ratio is 1 to 4.

(iii) For each defined residential living unit serving clients who function within the range of mild retardation, the staff to client ratio is 1 to 6.4.

Guidance §483.430(d)(3)

*The minimum ratios in this standard indicate the **minimum** number of direct-care staff that must be present and on duty, 24 hours a day, 365 days a year, for each discrete living unit. For example, to calculate the minimum number of living unit staff that must be present and on duty in a discrete living unit serving 16 individuals with multiple disabilities: divide the number of individuals “16,” by the number corresponding to the regulation “3.2,” the result equals “5.” Therefore, the facility must determine how many staff it must hire to ensure that at least 5 staff will be able to be present and on duty during the 24 hour period in which those individuals are present.*

Using the living unit described above, “calculated over all shifts in a 24-hour period” means that there are present and on duty every day of the year: one direct care staff for each eight individuals on the first shift (1:8), one direct care staff for each eight individuals on the second shift (1:8), and one direct care staff for each 16 individuals on the third shift (1:16). Therefore, there are five (5) direct care staff present and on duty for each twenty-four hour day, for 16 individuals. The same calculations are made for the other ratios, whichever applies. Determine if absences of staff for breaks and meals results in a pattern of prolonged periods in which present and on-duty staff do not meet the ratios.

§483.440 Condition of participation: Active treatment services

(a) Standard: Active treatment

W196

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(a)(1) Each client must receive a continuous active treatment program, which includes aggressive, consistent implementation of a program of specialized and generic training, treatment, health services and related services described in this subpart, that is directed toward-

(i) The acquisition of the behaviors necessary for the client to function with as much self-determination and independence as possible; and

(ii) The prevention or deceleration of regression or loss of current optimal functional status.

Active treatment embodies an individually- tailored series of daily life and living experiences that serve as the primary opportunity for the acquisition, development and expression of functional skills and adaptive behaviors necessary for the client to experience optimal independence and promote purposeful “self-expression”.

The uniqueness of each client is a core consideration in the design of active treatment programs. It is expected that individual clients are given the opportunity to provide input into the content of their day-to-day living experiences.

An active treatment program includes the following elements as substantiated through observation, interview and record review:

a) Each client’s needs and strengths have been accurately assessed and relevant input has been obtained from team members; (Observations and interviews with the client by the surveyor should be consistent with the current assessment information. Interview the QIDP regarding any needs observed but not addressed through assessment/programming by the facility).

b) Each client’s IPP is based on assessed needs and strengths, and addresses major life areas such as personal skills, home living skills, community living skills, employment skills, etc., essential to increasing independence and ensuring rights;

c) Needs identified as a priority are addressed formally and through activities which are relevant and responsive to client need, interest and choice;

d) Active treatment is consistently implemented in all relevant settings both formally and informally as the need arises or opportunities present themselves. It should not be limited to specific periods of time during the day or environments. Each client should receive aggressive and consistent training, treatments and supports in accordance with their needs and IPP. New skills and appropriate behaviors are encouraged and reinforced across environments and times of day. Each client has the adaptive equipment and environmental adaptations necessary for him/her to progress toward heightened independence as recommended and contained in their IPP. Active treatment means taking advantage of opportunities for the practice of new skills and the use of other skills during the normal rhythm of each client’s day.

e) Each client’s performance related to IPP objectives is accurately and consistently measured and documented and programs are modified on an ongoing basis based on data and major life changes; and

i. Clients with degenerative conditions receive training, treatment and services designed to retain skills and functioning and to prevent further regression to the extent possible.

ii. Clients may need adjustments to their active treatment programs as functional or endurance limitations are identified associated with the aging process. In such cases, there may be more of an emphasis on the retention of skills already attained and reducing the rate of loss of skills, than on the acquisition of new skills.

In large part, it is this pervasive and continuous reinforcement of “formal” training through “informal” routine daily living experiences and interactions with staff and others that makes active treatment programs effective. Formal settings are those that are planned and specifically structured for training on objectives and interventions. Informal settings are times that are not anticipated or planned but that offer the opportunity for training.

Active treatment programs mirror normal living experiences such as leisure activities and social conversation at the dinner table. It must be clear that active treatment programs are far more than implementation of discreet formal training sessions or programs that are conducted at prescribed times by defined personnel. Learning occurs in the process of the normal rhythm of life and life experiences.

W197

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(a)(2) Active treatment does not include services to maintain generally independent clients who are able to function with little supervision or in the absence of a continuous active treatment program.

Guidance §483.440(a)(2)

All active treatment programs must be based upon assessed developmental needs which are prohibiting the client from living in a more independent setting.

Active treatment moves clients to a more independent setting.

- When a client is in the facility simply for protective oversight and is not in need of training for developmental deficits, this does not constitute active treatment (e.g. a court placement to protect the community or the client from the client's behavior).

- Programs that are simply being provided to maintain a client's independence would not be considered active treatment since the client is not actively being trained to live in a more independent setting. If a client already possesses the skills that enables them to live in a less restrictive environment, and does not require the structure, support and resources that services that only an ICF/IID can provide, they can be considered generally independent.

For example, a client is admitted to the ICF/IID for the primary purpose of competency determination for a court hearing. This client lived independently prior to admission. The active treatment programs they are receiving are focused on maintaining that independence and do not address specific developmental deficits that inhibit independent living. This would not be considered active treatment.

(b) Standard: Admissions, transfers, and discharge

W198

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(1) Clients who are admitted by the facility must be in need of and receiving active treatment services.

Guidance §483.440(b)(1)

All client admissions must be based upon assessed developmental deficits which are prohibiting the client from living in a more independent setting and which require those intensive specialized supports, services, and supervision that only an ICF/IID can provide.

The individual components of the provision of active treatment include CFA, IPP, program implementation, program documentation, and program monitoring and change. When any of these individual components of active treatment are not in place, resulting in the clients not receiving active treatment, this regulation this not met.

W199

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(2) Admission decisions must be based on a preliminary evaluation of the client that is conducted or updated by the facility or by outside sources.

Guidance §483.440(b)(2)

Preliminary evaluations should support the need for an admission to an ICF/IID (e.g., deficits in functional skills or adaptive behaviors). The information from the preliminary evaluation must be used by the facility to make an admission decision.

Occasionally, emergency admissions of clients may occur without benefit of a preliminary evaluation having been conducted prior to admission. When situational emergencies necessitate admission before a preliminary evaluation can be conducted, or when pre-admission information is incomplete, the completion of the preliminary admission evaluation within seven (7) calendar days after admission will satisfy compliance with this requirement.

W200

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(3) A preliminary evaluation must contain background information as well as currently valid assessments of functional developmental, behavioral, social, health and nutritional status to determine if the facility can provide for the client's needs and if the client is likely to benefit from placement in the facility.

Guidance §483.440(b)(3)

The preliminary evaluation contains specific information useful to determine if the facility can meet the client's needs and if the client can benefit from placement.

The facility makes every reasonable effort to gather all available data to assist in their determination.

Background information would include information that gives insight into the clients' previous living environments and programming efforts.

The assessment must include a consideration as to whether reasonable accommodation as required by the Americans with Disabilities Act would enable the client to benefit from placement in facility.

§483.440(b)(4) If a client is to be either transferred or discharged, the facility must --

§483.440(b)(4)(i) Have documentation in the client's record that the client was transferred or discharged for good cause; and

Guidance §483.440(b)(4)(i)

Transfer or discharge occurs only when the facility cannot meet the client's needs, the client no longer requires an active treatment program in an ICF/IID setting; the individual/guardian chooses to reside elsewhere, or when a determination is made that another level of service or living situation would be more beneficial to the client.

"Transfer" means the temporary movement of a client to another facility (e.g. another ICF/IID, psychiatric hospital, medical hospital) with the intention of return to the original site.

"Discharge" means the permanent movement of a client to another facility or setting which operates independently from the ICF/IID (e.g. the facility is not under the jurisdiction of the facility's governing body).

Documentation includes evidence of an assessment that evaluated the pros and cons of the transfer or discharge and the rationale for the final decision.

W202

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(4)(ii) Provide a reasonable time to prepare the client and his or her parents or guardian for the transfer or discharge (except in emergencies).

Guidance §483.440(b)(4)(ii)

The client and their family or the client and their legal guardian are involved in planning for any transfer or discharge and receive the services necessary to assist in preparing for movement, unless an emergency (medical) situation prevents that involvement. If the client has an advocate, the advocate should participate in the decision-making process.

Orderly, planned transfers and discharges usually take place over an extended period of time. The IPP should reflect objectives or interventions which prepare the client for transfer or discharge. Transfers or discharges executed on short timeframes (e.g. less than 30 days) without “good cause” would not comply with the “reasonable” intent of the regulations.

“Reasonable” time is the time required to provide clients and their families with planned steps and established timeframes to facilitate the successful transition. Time frames are modified based on client needs and emergent situations.

Preparation of the client for transfer may include orientation or trial visits to the new location. Staff should take steps to minimize potential anxiety or any behavioral reactions which could result from the client’s transfer.

§483.440(b)(5) At the time of the discharge, the facility must-

§483.440(b)(5)(i) Develop a final summary of the client’s developmental, behavioral, social, health and nutritional status

Guidance §483.440(b)(5)(i)

The final summary should be useful for continued services in the client’s new setting. The final discharge summary should be entered into the client’s record, provide a summary of the client’s course of stay in the ICF/IID, provide a final summary of the client’s developmental, behavioral, social, health and nutritional status, and include the current status of the objectives listed in the client’s IPP.

The status should address whether or not a clients’ skills have been maintained, deteriorated, or improved during their stay.

Guidance §483.440(b)(5)(i)

When the client is discharged, the receiving entity (another ICF/IID, waiver home, family home, nursing home, etc.) is provided a copy of the discharge summary. The ICF/IID should obtain written consent to share this information with the persons who will be providing services to the client in the future and their parents/or legal guardians. Sharing the discharge summary with State Agencies as applicable is determined by state requirements.

§483.440(b)(5)(ii) Provide a post-discharge plan of care that will assist the client to adjust to the new living environment.

Guidance §483.440(b)(5)(ii)

The post discharge plan of care is a component of the discharge summary.

The facility utilizes the information from the discharge summary to prepare the discharge plan of care. The post-discharge plan of care identifies the essential supports and services necessary for the client to successfully adjust to the new living environment and describe necessary coordination of services. It should

incorporate the client's preferences. It should identify specific client needs after discharge such as personal care, physical therapy, client/caregiver education needs, and the ability of the client or caregiver to meet those needs after discharge.

§483.440(c)(1) Each client must have an individual program plan developed by an interdisciplinary team that represents the professions, disciplines or service areas that are relevant to- -

i) Identifying the client's needs, as described by the comprehensive functional assessments required in paragraph (c)(3) of this section; and

ii) Designing programs that meet the client's needs.

Guidance §483.440(c)(1)

If a need is identified in the CFA, the professional associated with that need will conduct an initial evaluation for the development of the IPP.

The needs identified in the CFA determine the professional, paraprofessional, direct support staff, disciplines or service areas that must participate in the development of the IPP.

§483.440(c)(2) Appropriate facility staff must participate in interdisciplinary team meetings.

Guidance §483.440(c)(2)

While there is no correct number of individuals that comprise the IDT, the team should include appropriate facility staff (professional and paraprofessional staff), that are responsible for designing, developing, and/or implementing the client's IPP and direct support staff who work closely with the clients.

For any prioritized objective, the paraprofessional or professional personnel responsible for the development and monitoring of that program should participate on the team, either through actual attendance or written or verbal input.

Members of the IDT may change as the assessed needs of the client change (e.g. medical issues, nutritional issues, communication needs, fine motor skill needs, gross motor skill needs, social issues or behavioral concerns).

§483.440(c)(2) Participation by other agencies serving the client is encouraged.

Guidance §483.440(c)(2)

The facility must make every effort to coordinate the Individual Education Plan (IEP) from the school or the client's program plan from outside program, work site or workshop with the IPP. This may result in a single document, but there is no requirement for a single combined document. There must be evidence that all applicable plans were coordinated (evidence of discussion across the plans and observation would confirm integration of the IPP across the various settings). The QIDP is responsible for the coordination of the plans.

The facility should communicate changes in the IPP or in the clients' life situation with teachers and workplace representatives either directly or through written communication.

W209

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(2) Participation by the client, his or her parent (if the client is a minor), or the client's legal guardian is required unless the participation is unobtainable or inappropriate.

Guidance §483.440(c)(2)

The facility should make every effort to schedule team meetings at a time that enables the client parent or legal guardian, to attend without having to forfeit work time or pay.

The facility should make every effort to schedule team meetings at a time that enables the client parent or legal guardian, to attend without having to forfeit work time or pay.

It is expected that the client will routinely attend team meetings unless their participation is unobtainable. Examples of when client participation is not available include, but are not limited to: 1) the client is away from the facility for medical reasons or hospitalization; or 2) although the facility has documented repeated attempts to engage the client, the client refuses to participate.

If families/legal guardians are unable to attend a program planning meeting, the facility provides them information regarding the meeting outcome and gives them an opportunity to discuss the plan with the facility staff.

“Unobtainable”, for the purposes of this guideline, means that the facility has made a good faith effort to seek parental or legal guardian participation in the process, even though the effort may ultimately be unsuccessful (for example, the parent may be impossible to locate or may prove unwilling or unable to participate).

“Inappropriate”, for the purposes of this guideline, means that the parent or legal guardian’s behavior is so disruptive or uncooperative that others cannot effectively participate; the client does not wish his or her parent to participate, and the client is competent to make this decision; or there is strong and documented evidence that the parent or legal guardian is not acting on the client’s behalf or in the client’s best interest. In the case of the latter, determine what the facility has done to bring effective resolution to the problem.

Instances when it is not appropriate for the client, parent or legal guardian, to attend the team discussion are rare. If the client does not attend the meeting, the facility must document the reason for his/her non-participation.

There may also be instances where a parent or legal guardian is considered unobtainable for a team meeting, such as being out of the country. In these instances, the parent or legal guardian should still be notified of the meeting, provided with information concerning the outcome of the meeting and documentation in the client record should describe why the parent or legal guardian could not attend and what information was provided to them.

If the client is an adult who is competent to make decisions and who is not adjudicated, parents may not participate in the process if their participation is opposed by the client.

In the event that a non-adjudicated adult chooses not to have their family involved in the active treatment process, the surveyor should see evidence in the record of efforts made by the facility to understand why the client has declined family participation. If the client continues to decline family involvement after the facility has held discussions with him/her about the importance of this issue, the facility should honor the wishes of the client.

In general, the more involvement and communication among the team members, the client and the parent or legal guardian the more likely the plan will be successful. The facility goal should be to routinely include these parties unless rare circumstances exist.

§483.440(c)(3) Within 30 days after admission, the interdisciplinary team must perform accurate assessments or reassessments as needed to supplement the preliminary evaluation conducted prior to admission.

Guidance §483.440(c)(3)

For new admissions, the CFA is completed within 30 days after admission and is utilized as the basis for the IPP.

New, revised or updated assessments completed within the first 30 days of admission, accurately identify the functional abilities of the client.

“Accurate” assessments refer to assessment data that are current, relevant and valid, and the skills, abilities, and training needs identified by the assessment correspond to the client’s actual, observed status. Assessments must be administered with appropriate adaptations such as specialized equipment, use of an interpreter, use of manual communication and tests designed to measure performance in the presence of visual disability.

The content of or format of the assessments or the particular assessment tools which are to be used for the CFA are not specified. Assessments must include identification of those functional life skills in which the client needs to be more independent and those services needed for the client to become more community integrated.

Identified strengths are consistent with the client’s observed functional status.

§483.440(c)(3)(iii) Identify the client’s specific developmental and behavioral management needs;

Guidance §483.440(c)(3)(iii)

The CFA must address and identify those skill deficits/needed supports that may be amenable to training, those that must be treated by therapy and/or provision of assistive technology, and those that require

adapting the environment and/or providing personal support. Assessment of needed supports should be done within the context of the client's age, gender, and culture.

"Behavioral management needs" include those behaviors that interfere with progress, prevent assimilation into the community, decrease freedom or increase the need for restriction of activities (e.g. spitting, pica, self-injurious behavior, aggressive behavior toward others or self-injurious behavior).

A functional behavioral assessment is a problem-solving process for evaluating client inappropriate behavior. It relies on a variety of techniques and strategies to identify the purpose of the specific behavior(s) and to help the IDT select interventions to directly address the behavior(s). A functional behavior assessment looks beyond the behavior itself. The focus when conducting a functional behavioral assessment is on identifying significant client-specific social, affective, cognitive, and/or environmental factors associated with the occurrence (and non-occurrence) of specific behaviors.

The CFA must identify the specific accommodations that address the client's needs to ensure better opportunity for the client's success. The identified accommodations may be assistive technology which can help a person learn, play, complete tasks, get around, communicate, hear or see better, control their own environment and take care of their personal needs (e.g. door levers instead of knobs, plate switches, audio books, etc.).

§483.440(c)(3)(iv) Identify the client's needs for services without regard to the actual availability of the services needed; and

Guidance §483.440(c)(3)(iv)

Identification of needed services is based on the CFA.

In the presence of significant developmental deficits, it is not acceptable for the facility to say that a particular professional therapy or treatment is not needed or not available if the CFA identifies a deficit. The assessment must identify the course of specific interventions recommended to meet the client's needs, both through direct professional services and non-professional services. For example, a client's communication skill development may not require the intensive services of a speech-language pathologist however, the direct care staff will need to work with the client and use a pre-determined communication system.

§483.440(c)(3)(v) Include

Guidance §483.440(c)(3)(v)

The CFA should include an assessment of each of the areas listed below. Assessments should include specific information about the person's ability to function in different environments, specific skills or lack of skills, and how function can be improved, either through training, environmental adaptations, or provision of adaptive, assistive, supportive, orthotic, or prosthetic equipment.

If assessments are done separately by professional disciplines, there should be evidence that the assessments are brought together in an interdisciplinary approach to address the client's various developmental areas.

The CFA must be completed upon admission and annually as indicated. While the assessment may not have the specific titles of the areas listed below, the surveyor must be able to identify information within assessments from each of the areas below.

Reports of all specialist consultations should be included in the assessment as indicated by physical examination results.

Guidance §483.440(c)(3)(v)

Sensorimotor development: Sensorimotor development includes the development of perceptual skills that are involved in observing the environment and making sense of it. Identified sensory deficits should be evaluated in conjunction with the impact they will have on the client's life. A sensory deficit in eye contact may not have a detrimental effect on the client's life if it will not hold the client back from further accomplishments or skill acquisitions. Motor development includes those behaviors that primarily involve: muscular, neuromuscular, or physical skills and varying degrees of physical dexterity. Because sensory and motor development are intimately related and because activities in these areas are functionally inseparable, attention to these two aspects of bodily activity is often combined in the concept of sensorimotor development. For those motor areas that are identified by the assessment as limited, the assessment should specify the extent to which corrective, orthotic, prosthetic, or support devices would impact on functional status and the extent of time the device is to be used throughout the day.

Guidance §483.440(c)(3)(v)

Speech and language (communication) development: One of the most contributable causes of behaviors, frustration by the clients, etc. is lack of effective communication. It is imperative that the CFA identifies

how the client communicates, what barriers are present, what services are available and what programs and services will be provided to assist the client to go out into and participate fully in the world. Observed client communication skills match the evaluation results and that training programs are in place to address needs.

Communication development refers to the development of both verbal and nonverbal and receptive and expressive communication skills. Assessment data identify the appropriate intervention strategy to be applied, and which, if any, augmentative or assistive devices will improve communication and functional status. These intervention strategies should provide the client with a viable means of communication which is appropriate to their sensory, cognitive and physical abilities.

It includes the development of the processes and abilities involved in memory, reasoning and problem solving. It is also the identification of different learning styles the client has and those best used by the trainers. It is critical that the CFA address the individual learning style of the client in order to best direct the way the trainers will teach formal and informal programs.

§483.440(c)(3)(v) social development,

Guidance §483.440(c)(3)(v)

Social Development: Social development refers to the formation of those self-help, recreation and leisure, and interpersonal skills that enable a client to establish and maintain appropriate roles and fulfilling relationships with others. Assessments may address family supports and relationships, sexual awareness and sexuality, friendships, social awareness, social skills and social interests.

§483.440(c)(3)(v) adaptive behaviors or independent living skills necessary for the client to be able to function in the community,

Guidance §483.440(c)(3)(v)

Adaptive behaviors or independent living skills: Adaptive behavior refers to the effectiveness or degree with which clients meet the standards of personal independence and social responsibility and community orientation and integration expected of their age and cultural group. Adaptive behaviors are those behaviors that are developed to cope with deficits in order to be able to perform every day skills as independently as possible. Independent living skills include, but are not limited to, such things as food shopping, meal preparation, housekeeping and kitchen chores, laundry, bed making, and budgeting. Assessment may be

performed by anyone trained to do so. Standardized tests are not required. Standardized adaptive behavior scales which identify all or predominantly all “developmental needs” are not sufficient to meet this requirement, but can serve as a basis for screening.

§483.440(c)(3)(v) and as applicable, vocational skills.

Guidance §483.440(c)(3)(v)

Vocational development, “as applicable”: Vocational development refers to work interests, work skills, work attitudes, work-related behaviors, and present and future employment options. The determination of whether or not a vocational assessment is “applicable” is typically based on age (adolescents or adults more than likely require this type of assessment). The vocational assessment for each client may address job sampling, job development, on-site job training and long term follow-up, as appropriate to the client and determined by the IDT.

Vocational assessments should describe, for all domains, what clients can and cannot do in terms of skills needed within the context of their daily lives and jobs.

Assessments should be individualized and based on:

- Actual performance of the client against objective criteria;
- Reports by staff/parents/legal guardians; and
- Observed performance in a variety of settings.

§483.440(c)(4) that states the specific objectives necessary to meet the client’s needs, as identified by the comprehensive assessment required by paragraph (c)(3) of this section,

Guidance §483.440(c)(4)

Objectives are developed for those needs that are identified by the CFA and which are considered to be most likely to improve the client’s ability to independently function in his/her daily life, as determined by the IDT.

There is a clear link between the specific objectives and the functional assessment data and recommendations.

Objectives are developed for those needs that are observed to most likely impact the client’s ability to function in daily life. Training objectives should be developed to address client needs rather than staff oriented objectives.

Clients are expected to have training objectives in the areas of activities of daily living, based on the client’s assessed needs and as prioritized by the IDT. If clients have eyeglasses, dentures and/or other assistive devices it is expected that the team considers objectives, based upon the assessment of client needs, addressing the care and use of such devices. However, in the area of programs to teach the clients’ money management it is not expected that every client will automatically have a formal training objective to participate in such a program. The decision to prioritize such a program and to what level the program is developed is decided by the IDT based upon the results of the CFA and in consideration of such factors as, transferable skills, the ability to make choices, the ability to identify preferences and cognitive abilities such as attention span and an understanding of the principle of cause and effect.

Similarly, the decision to prioritize and develop a training objective for a client to participate in a self-administration program for medications must be made by the IDT and be based upon information from the CFA. Formal self administration programs should not be confused with informal efforts to include the client in the administration process such as allowing them to hold a glass of water, identify the box where his/her medications are stored or put a pill into their own mouth themselves under the supervision of a person who is qualified to administer medications.

§483.440(c)(4) and the planned sequence for dealing with those objectives.

Guidance §483.440(c)(4)

The objectives identified in W227 are organized in a logical sequence, determined by the team that will assist the client toward the attainment of skills resulting in greater self- choice, independence, and community integration. The logical sequencing of objectives means there is a completion of one objective that serves as the building block for the next with relevance to the client's functional status. Where objectives are logically ordered but do not have relevance to the client's functional status, refer to 483.440(c)(4).

If the IPP is organized in a logical sequence, this requirement is met. For example, if the long term goal is to travel independently in the community, the objective sequencing may involve training the client to recognize traffic signs, cross the street safely, and to obtain help when needed if lost or an emergency arises.

These objectives must –

§483.440(c)(4)(i) Be stated separately, in terms of a single behavioral outcome;

Guidance §483.440(c)(4)(i)

Each objective clearly states one expected learning result.

“Single” behavioral outcome means that there is a separate objective assigned for each discrete behavior that the team intends the client to learn. For example, “Mary will bake a cake and clean the oven” are two separate behaviors and, therefore, should be stated in two separate objectives. Completion of the morning hygiene routine includes programs for performance of face washing, tooth brushing and hair combing which are three separate objectives; however, the behavioral outcome for each would be the same (e.g. completion of the morning hygiene routine).

Guidance §483.440(c)(4)(ii)

Completion dates are based on the client's rate of learning.

Completion dates are assigned to each objective on which the client is currently working. Completion dates are individualized (e.g. not all the same for all clients and all objectives).

The “projected date of completion” for an IPP objective is not the same as a “review” date. For each objective assigned a priority, the team should assign a projected date (month and year) by which it believes the client will have learned the new skill, based on all of the assessment data. This date triggers the team to evaluate continuously whether or not the client's progress or learning curve is sufficient to warrant a revision to the training program.

§483.440(c)(4)(iii) Be expressed in behavioral terms that provide measurable indices of performance;
Guidance §483.440(c)(4)(iii)

The desired learning outcome is stated in a manner which enables all staff working with the client to consistently identify the target behavior and to clearly identify when it is being displayed.

The objective is stated in a manner which permits it to be measured with quantifiable data.

“Behavioral” terms include only those behaviors which are “client” rather than staff oriented and those that any person would agree can be seen or heard. Determine if all staff who work with the client can define the exact same outcome on which to measure the client’s performance.

“Measurable indices of performance” are the quantifiable criteria to use in determining successful achievement of the objective. Quantifiable criteria include various measurements of intensity and duration. For example, “Client X will walk ten feet, with the use of her tripod walker, on each of five (5) consecutive days.”

Guidance §483.440(c)(4)(v)

Priorities are established based on the needs and in consideration of the desires of the client and emphasize the development of greater independence, self-choice, and community integration.

The team determines which objectives are the highest priority to be addressed, either because the client has an immediate need or the priority objectives must be accomplished before other priorities are addressed.

Guidance §483.440(c)(5)(i)

To comply with this requirement the methodologies must be written in a clear enough manner that a substitute staff person will be able to read the methodologies and implement them without substantial differences from a regularly assigned staff person. Methodologies should be consistent across settings, such as when the client is in the day program.

Active treatment (the implementation of training programs pursuant to objectives) should be provided in formal and informal settings throughout the rhythm of the client's day. While there may be structured episodes when the client works intensively and singularly on one or more objectives (schedule), the provision of active treatment is not adequate when confined solely to these types of formal settings but should be incorporated into all activities when appropriate (client's routine). For example, objectives on grasping may be as effectively carried out during the client's use of a toothbrush and a spoon as in an isolated session.

The IPP should include the actual name of the staff person who is responsible for the ongoing monitoring of the client's program to ensure it is being implemented appropriately, as well as the designated position which will implement the program.

The QIDP should be familiar with the assessment and recording requirements for each client for each formal objective, including who is responsible for making these observations and completing the recording, and demonstrate a familiarity with the current data recorded for each client.

§483.440(c)(5)(iv) The type of data and frequency of data collection necessary to be able to assess progress toward the desired objectives;**Guidance §483.440(c)(5)(iv)**

The IDT must determine the type of data necessary to judge a client's progress on an objective, and describe the data collection method in the written training program. The facility determines what data to collect, but whatever system is chosen for collection must yield accurate measurement of the criteria stated in the client's IPP objectives. For example, if the criteria in the client's IPP objective specified a behavior to be measured by "accuracy," or "successes out of opportunities," then it would not be acceptable for the prescribed data collection method to record "level of prompt".

Examples of a few data collection systems include, but are not limited to:

- level of prompt;
- successful trials completed out of opportunities given;
- frequency counts; and
- frequency sampling.

The IDT must consider and select the type and frequency of data collection for each objective based upon the need to measure appropriately the client's performance toward the targeted IPP skill development. The facility should collect data with enough frequency and content to be able to appropriately measure the client's performance toward the targeted IPP skill development. The frequency of data collection may vary with the objective but must be made at sufficient intervals to allow analysis of the progress of the client.

§483.440(c)(5)(vi) Provision for the appropriate expression of behavior and the replacement of inappropriate behavior, if applicable, with behavior that is adaptive or appropriate.

Guidance §483.440(c)(5)(vi)

The training program provides specific information as to how to elicit or strengthen appropriate behavior and what behaviors to teach reinforce or encourage which would reduce or replace the inappropriate behavior.

If a client is exhibiting an inappropriate behavior, the CFA should discover why the behavior is occurring and the team should develop associated training objectives to help the client develop more appropriate behaviors. The objective for decelerating targeted inappropriate behaviors is not solely the reduction of these behaviors. The objective should also include the positive functional replacement behavior (adaptive behavior).

A replacement behavior allows a client to substitute an unconstructive or disruptive behavior with something more constructive and functionally equivalent. For example, instead of throwing work materials as a way to get a break from vocational task demands, teach the client to say or sign for 'break'.

Examples may include, but are not limited, to built-up toilet seats, adaptive eating utensils, extended reach devices, and modification to the facility van to accommodate a wheelchair.

§483.440(c)(6)(iii) Include, for those clients who lack them, training in personal skills essential for privacy and independence (including, but not limited to, toilet training, personal hygiene, dental hygiene, self-feeding, bathing, dressing, grooming, and communication of basic needs), until it has been demonstrated that the client is developmentally incapable of acquiring them.

Guidance §483.440(c)(6)(iii)

All clients who lack the skills listed within this standard have associated training programs developed to meet their needs according to prioritization. These programs are consistently implemented in both formal and informal settings.

“Developmentally incapable” is a decision made by the IDT that means a client does not have the capacity to acquire certain skill sets. The decision must be based on an assessment of the client’s strengths, needs, and functional limitations.

The determination of developmental incapability must be accompanied by written evidence supporting this determination.

Such evidence may include training programs which failed after many different strategies were tried, or physical limitations that preclude the acquisition of the skill. Examples are:

- 1) Eye contact program was attempted using seven different methods over a two year period;
- 2) An client has two frozen elbow joints which do not allow her to get her hands to her mouth and consequently she will not be trained on any hand to mouth skills; and
- 3) Some clients may have insufficient neuromuscular and sensory control to ever be totally independent in toileting skills.

Toilet scheduling alone without any plan to progress would not be considered a toilet training program.

The components of functional skills “training” as used in this regulation means aggressive implementation of a systematic program of formal and informal techniques, which are:

- targeted toward assisting the client achieving the measurable behavioral level of skill competency specified in IPP objectives;
- implemented at natural occurrences of activity and training programs; (e.g.: an objective for a client to increase grasping may be implemented as easily in the workshop with a built up tool as in the bathroom with a toothbrush);
- conducted by all personnel involved with the client including those outside the home such as in day programs; and
- carried out in conversation and interaction with the client appropriate to the situation.

§483.440(c)(6)(iv) Identify mechanical supports, if needed, to achieve proper body position, balance, or alignment. The plan must specify

Guidance §483.440(c)(6)(iv)

The use of mechanical supports are based upon an individual assessment and fitting. Mechanical devices are used to support a client’s proper body position or alignment and may be essential to prevent contractures or deformities. However, mechanical supports restrict movement and the client should be released from the support periodically for exercise and free movement. Mechanical supports may not be used as a substitute for programs or therapy. For example, the use of a bolster to position a client upright in a sitting position without any indication there has been an assessment for the need for muscle re-training may be an indication of a mechanical device in lieu of programming. Some supports allow movement and provide opportunity for more increased functioning. Some examples of devices used as mechanical supports include splints, wedges, bolsters, lap trays, etc.

Wheelchairs are not generally used to position or align the body and would not alone constitute a mechanical support. However, adaptations to a wheelchair which facilitate correct body alignment by inhibiting reflexive, involuntary motor activity are mechanical supports and should be included in the plan for the client.

§483.440(c)(6)(v) Provide that clients who have multiple disabling conditions spend a major portion of each waking day out of bed and outside the bedroom area, moving about by various methods and devices whenever possible.

Guidance §483.440(c)(6)(v)

Clients with sensory or physical difficulties should be given the same opportunities to move around in their environments as clients who do not have those difficulties. Even clients who use specialized wheelchairs should be given the opportunity to utilize other devices such as walkers, wagons and scooters to move about and/or change their positions.

With the exception of those clients who are acutely ill (such as those who are hospitalized or incapacitated by a “short term” illness), all clients should be out of bed and outside their bedroom area as long as possible each day, and in proper body alignment at all times. This is a necessity in order to prevent regression, contractures, and deformities and to provide sensory stimulation.

Bed rest is a temporary situation associated most usually with a medical condition and must be ordered by the medical staff of the facility. The term implies that the client will remain in his/her bed for most of any 24-hour period. Although active treatment programs may be carried out to some extent while the client is on bed rest, the client’s program cannot be completed in its entirety. While there may be situations where continuous bed rest may be necessary, these situations are rare.

For those rare instances where out-of-bed activity is a threat to a client’s health and safety (e.g., blood clot in the leg), active treatment adapted to the medical capacity of the client must be continued.

§483.440(c)(6)(vi) Include opportunities for client choice and self-management.

Guidance §483.440(c)(6)(vi)

Choice and self-management are integral components of becoming independent. Clients should be given opportunities for choice and self-management in both formal and informal settings through the IPP process, leisure activities, and other life choices.

The ICF/IID must incorporate opportunities into daily life experiences that promote choice making and decision making by clients. Examples of some activities leading toward responsibility for one’s own self-management include, but are not limited to:

- 1) choosing housing or roommates;
- 2) choosing clothing to purchase or wear;
- 3) choosing what, where, and how to eat (e.g., the use of family style dining, access to condiments and second helpings).

Choices can be made by all clients. The type of choices the person makes may vary from simple to complex, dependent upon client abilities.

Clients are provided opportunities for choice and self-management and the facility does not limit choices by making decisions for the people being served without their input. Clients are provided the opportunity to

demonstrate skills to the degree they are capable and only assisted by staff as indicated in their IPP. A lack of facility staffing or staff convenience must not result in a limitation of choices of self-management for the clients.

§483.440(d)(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.

Guidance §483.440(d)(1)

There should be no delay in the development and implementation of the IPP. To promote a team process and meaningful discussion, IPP development should take place during IDT meetings. Any IPP objective or modification that is critical to the health and safety of any client should be implemented immediately following IDT discussion.”

Each individual receives training and services consistent with the current IPP.

The time period between admission and the 30 day IDT meeting is primarily to assist the client to become adjusted and acclimated to his or her new living environment and to enable the facility to complete the CFA. During this time period the facility should also be providing those services and activities determined during the pre-admission assessment as essential to the client's daily functioning.

The active treatment program for the client is consistently implemented in all relevant settings both formally and informally as opportunities present themselves. It should not be limited to specific periods of time during the day or specific environments.

Each client should receive aggressive and continuous training, treatments and supports in accordance with their needs and IPP. New skills and appropriate behaviors are encouraged and reinforced across environments and times of day.

- During observations confirm that the client activities relate directly to the strengths, needs and objectives in the IPP for each client and are not “busy work,” generalized or non-developmental time fillers. For example, screwing nuts on bolts and then unscrewing them repeatedly with no goal or transferable skills is “busy work.” Screwing nuts on bolts that will be part of a product is functional reinforcement of skill acquisition.

- Clients use adaptive equipment, assistive devices, environmental supports, materials, supplies, etc., as specified in each client's IPP to assist the client to accomplish stated objectives.

There is no specific number or frequency of interventions that meets this requirement. The surveyors should see that the facility capitalizes on all opportunities throughout the course of the day that promote progress toward the achievement of goals and objectives.

Informal opportunities (“teachable moments”) should be utilized to reinforce learning or appropriate skill development and needs are addressed as they present.

Although a client may not be able to reach complete independence in a functional skill, it is crucial that retention of their current skills be supported.

Clients may have defined periods of time where they may engage in leisure activities of their choice which are not necessarily directly associated with their IPP goals and objectives.

§483.440(d)(2) The facility must develop an active treatment schedule that outlines the current active treatment program and that is readily available for review by relevant staff.

The staff working with individual clients are familiar with their daily schedules and can produce the schedule upon request.

The active treatment schedule allows flexibility and is adjusted to the needs and preferences of the client, as necessary. It’s a schedule of the client’s general daily plans, but can be changed.

The active treatment schedule is a functional schedule which enables client and staff to be in the right location in order to participate in the training as scheduled by the IPP.

§483.440(f)(1)(i) Has successfully completed an objective or objectives identified in the individual program plan;

For the "annual" review to meet this requirement, it must be completed by at least the 365th day following the previous review, unless in an isolated or rare instance a client or the client's family is not available for a projected period of time and the subsequent delay is a minimal number of days.

§483.440(f)(2) the comprehensive functional assessment of each client must be reviewed by the interdisciplinary team for relevancy and updated as needed;

Guidance §483.440(f)(2)

The CFA is reviewed at least annually.

The review of the CFA occurs sooner than annually if:

- indicated by the needs of the client;
- reflects any changes in the client since their last evaluation; and
- incorporates information about the client's progress or regression with objectives.

The review of the CFA applies to all evaluations conducted for a client. It is not required that each assessment be completely redone each year, except the physical examination. It is required that at least annually the assessment(s) be updated when changes occur so as to accurately reflect the client's current status.

Guidance §483.440(f)(2)

The IPP reflects the functional changes for the client which occurred since the last IPP. It is unlikely that an active treatment program will have no changes from year to year without documentation to support not changing the plan. Question an IPP that is a duplication of the prior year's plan without explanation.

§483.440(f)(3) The facility must designate and use a specially constituted committee or committees consisting of members of facility staff, parents, legal guardians, clients (as appropriate), qualified persons who have either experience or training in contemporary practices to change inappropriate client behavior, and persons with no ownership or controlling interest in the facility to-

Guidance §483.440(f)(3)

The facility must have a specially constituted committee whose primary function is to proactively protect client rights by monitoring facility practices and programs. The purpose of the committee is to assure that each client's rights are protected utilizing a group of both internal staff and *external participants who have no vested interest in the facility as well as clients as appropriate*. There should be evidence that the committee members have been trained annually on the rights of the clients, what constitutes a restriction of a right and the difference between punishment and training.

Depending on size, complexity and available resources, the ICF/IID may establish more than one specially constituted committee. However, each committee must contain the required membership and participate regularly and perform the functions of the committee according to the requirements. Participation on the specially constituted committee(s) must be in real time allowing all membership to speak and discuss in an interactive mode.

The regulation does not specify the professional credentials of the "qualified persons" (who have either experience or training in contemporary practices to change inappropriate client behavior). There is no requirement that any specific discipline, such as nurse, physician or pharmacist be a member of the committee.

The intent of including "persons with no ownership or controlling interest" on the committee is to assure that, in addition to having no financial interest in the facility, at least one member of each constituted committee is an impartial outsider in that he/she would not have an "interest" represented by any other of

the required members or the facility itself. Staff and consultants employed by the facility or at another facility under the same governing body, cannot fulfill the role of person with no ownership or controlling interest.

Although occasional absences from committee meetings are understandable, patterns of absence by the required membership of the committee is not acceptable. At least a quorum of committee members (as defined by the facility) must review, approve and monitor the programs which involve risk to client rights and protections and that quorum must include one person from each of the required categories.

§483.440(f)(3)(i) Review, approve, and monitor individual programs designed to manage inappropriate behavior and other programs that, in the opinion of the committee, involve risks to client protection and rights;

Guidance §483.440(f)(3)(i)

Any program that utilizes restrictive or intrusive techniques must be reviewed and approved by the specially constituted committee prior to implementation. This includes, but is not limited to:

- restraints;
- drugs to manage behavior;
- restrictions on community access;
- contingent denial of any right; or
- restrictions of materials or locations in the home.

The committee should ensure that consequences within a written behavior management program do not violate the client's rights.

There is no requirement for the committee to evaluate whether the proposed program is consistent with current practices in the field. Documentation should verify that the specially constituted committee considered factors, such as whether less intrusive methods have been attempted, whether the severity of behavior outweighs the risks of the proposed program and whether replacement behaviors are included within the plan.

Any revision to a behavior plan that increases the level of intrusiveness must be re-reviewed by the specially constituted committee. The committee need not reapprove a program when revisions are made in accordance with the approved plan. For example, if the physician changes the dosage of a medication in accordance with the drug treatment component of the active treatment plan to which the legally authorized person has given consent and which has already been approved by the committee, then there is no need for the committee or the legally authorized person to reapprove the plan. Generally, this would also apply if the medication was changed to another within the same therapeutic class or family.

§483.440(f)(3)(ii) Insure that these programs are conducted only with the written informed consent of the client, parents (if the client is a minor) or legal guardian; and

Guidance §483.440(f)(3)(ii)

The committee must ensure that written informed consent must be obtained prior to implementation of any restrictive or intrusive program. In the event of an emergency, the facility may obtain a verbal consent, which must be authenticated in writing as soon as possible and subsequently submitted to the committee as verification.

The consent is required for the entire behavior management program not just the specific restrictive technique.

Consent is informed when the person giving consent is fully aware of the:

- specific treatment;
- reason for treatment or procedure;;
- the attendant risks vs. benefits;
- alternatives;
- right to refuse; and
- the consequences associated with consent or refusal of the program.

Informed consent must be in writing and must be specific to the program and restrictive practice and reflect a specific time frame. Blanket consents are not allowed. In the case of unplanned events such as assault and property destruction requiring immediate action, verbal consent may be obtained. However, it should be authenticated in writing as soon as reasonably possible (within 30 days).

For clients up to the age of 18, their parent or legally appointed guardian must give consent for him or her. At the age of 18, however, clients become adults and are assumed to be competent unless otherwise determined by a court.

For clients who are adults and have not been adjudicated incompetent and have not been assigned a legal guardian who may not fully understand the consequences of the program, informed consent for use of restrictive programs, practices or procedures should be obtained from a person or an entity in accordance with state law, to act as the representative or advocate of the client's interests.

The specially constituted committee must ensure that the informed and voluntary consent of the client, parent of a minor, legal guardian, or the person or organization designated by the state is obtained prior to each of the following circumstances:

- The involvement of the client in research activities; or
- Implementation of programs or practices that could abridge or involve risks to client protections or rights.

§483.440(f)(3)(iii) Review, monitor and make suggestions to the facility about its practices and programs as they relate to drug usage, physical restraints, time-out rooms, application of painful or noxious stimuli, control of inappropriate behavior, protection of client rights and funds, and any other areas that the committee believes need to be addressed.

Guidance §483.440(f)(3)(iii)

The committee has been made aware of and reviewed:

- facility policies and procedures;
- facility services;
- programs; and
- practices which may restrict or violate the rights of client.

The committee has established and uses a mechanism for monitoring clients' rights issues and informs the governing body of any issues of concern in a timely manner. This process is at the discretion of the committee. There is no requirement for periodic review of the policies by the committee.

The function of the committee is not limited to the review, approval and monitoring of restrictive behavior management practices. Examples of issues involving client rights that might be reviewed by the committee, in addition to behavior management, include, but are not limited to:

- 1) Research proposals involving clients;
- 2) Abuse, neglect and mistreatment of clients;
- 3) Allegations dealing with theft of a client's personal property or funds;

- 4) Damage to a client's goods or denial of other client rights;
- 5) Client grievances;
- 6) Visitation procedures;
- 7) Guardianship/advocacy issues;
- 8) Rights training programs;
- 9) Confidentiality issues;
- 10) Advance directives/DNR orders;
- 11) Practices which restrict clients (e.g., locked doors, fenced in yards); and
- 12) Video monitoring.

Conduct between staff and clients refers to language, actions, discipline, rules, order and other types of interactions exchanged between staff and clients or imposed upon clients by the staff during a client's daily experiences that affect the quality of a client's life.

Guidance §483.450(a)(1)(i)

Consistent with facility policies, staff is observed to be engaged in activities which promote the client's growth, development and independence.

1) IPPs and data support the fact that from the time of admission, clients are learning new adaptive and functional skills while becoming more independent.

2) Interactions between clients and staff are consistent and positive.

3) Staff teach and encourage clients to interact with each other in a manner that promotes social integration both in the facility and out in the community.

4) All opportunities to teach and reinforce skill acquisition are utilized.

5) Staff identify and remove impediments in the learning environment (e.g. client is unable to concentrate in a room with a television because when they see the television, they want to watch their favorite show. Staff must identify this learning impediment and train in an environment without a television).

6) Staff encourage clients to complete tasks with as much independence as possible.

7) Staff encourage clients to take risks while providing reasonable safeguards to prevent injury.

8) Encourage clients to make choices during their daily activities.

Written facility policies describe how the facility will offer choice to the clients during the course of their day.

Written policies describe how self-determination, as defined by free choice of one's own acts and decisions without external coercion or direction, to the extent possible and self-management, as defined by control of one's own routine and daily responsibilities, to the extent possible, are incorporated into the development of program plans and daily routines.

Guidance §483.450(a)(1)(iv)

Policies and procedures for management of conduct between staff and clients (483.450(a)(1)) should be provided to clients, parents of minor children, and legal guardians at admission and upon request. Policies and procedures are available on the residential and program areas if these are in separate buildings.

§483.450(a)(2) To the extent possible, clients must participate in the formulation of these policies and procedures.

Guidance §483.450(a)(2)

"To the extent possible" does not mean that the clients are excluded due to the clients' schedule or intellectual or developmental level. Facilities should be able to provide documentation that substantiates that clients were offered the opportunity and participated in the development of the policies. This could be accomplished through client committees or in house meetings. There should be documentation of these discussions between the client representatives and the facility.

Guidance §483.450(a)(3)

Staff will promptly intervene when any clients tries to independently impose discipline upon another client. For example, a client who is serving dessert to the group withholds dessert from another client based upon their own evaluation of that client's behavior.

§483.450(b)(1) The facility must develop and implement written policies and procedures that govern the management of inappropriate client behavior

Guidance §483.450(b)(1)

At a minimum, the facility must have written policies and procedures regarding the management of maladaptive behaviors addressing the following:

483.450(b)(1) (W 275 – W284).

- the use of a functional behavior assessment in the development of behavior management programs;
- a hierarchy of least to most intrusive measures; and
- incorporation of behavior management programs into the IPP.

§483.450(b)(1)(i) Specify all facility approved interventions to manage inappropriate client behavior;

Guidance §483.450(b)(1)(i)

All interventions for the management of inappropriate client behaviors which are approved for use in the facility are clearly stated and described in its policy. Examples of positive interventions include, but are not limited to, verbal praise reward systems, and prompting. Examples of negative interventions include, but are not limited to, removal of a privilege, implementation of restraint, and/or the use of exclusionary time out.

W277

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(1)(ii) Designate these interventions on a hierarchy to be implemented, ranging from most positive or least intrusive, to least positive or most intrusive;

Guidance §483.450(b)(1)(ii)

Policies and procedures must include a clear progression as to how staff implement interventions to manage inappropriate client behavior.

Facility policy and procedures must define the entire hierarchy of possible interventions from the most positive, functionally appropriate approaches to most intrusive approaches authorized. The facility determines at what level in the hierarchy the IPP will begin for each client based on their individual assessment. The plan must still begin at the least intrusive technique shown effective for that client. Individual plans should specify the specific techniques that have been determined through assessment to be least restrictive for each client.

The facility policy for unexpected behavioral incidents must provide direction for the staff in the utilization of the hierarchy. For clients not on a behavior plan, staff must apply the appropriate level of intervention per the established hierarchy, including emergency measures to prevent harm to self or others.

§483.450(b)(1)(iii) Insure prior to the use of more restrictive techniques, that the client's record documents that programs incorporating the use of less intrusive or more positive techniques have been tried systematically and demonstrated to be ineffective; and

Guidance §483.450(b)(1)(iii)

Policies must be implemented to ensure that all restrictive procedures begin at the lowest level of the hierarchy unless there is documented evidence that less intrusive interventions have been tried and have been found to be ineffective.

The facility is not required to justify discontinuing the use of a more restrictive technique before initiating a less restrictive technique, since the intent of the regulation is to use the most positive, least intrusive technique possible.

In emergency situations where an unanticipated behavior requires immediate protection of the client or others, the technique chosen is the least restrictive appropriate technique possible.

§483.450(b)(1)(iv) Address the following:

§483.450(b)(1)(iv)(A) The use of time-out rooms;

Guidance §483.450(b)(1)(iv)(A)

"Time-out room" is defined as a separate room that is used to remove a client from stimulation that may be triggering and reinforcing maladaptive behavior. The facility must have written policies and procedures for the use of time out rooms which address all the requirements of 483.450 (c) (1-4) standard: time out room.

§483.450(b)(1)(iv)(B) The use of physical restraints;

Guidance §483.450(b)(1)(iv)(B)

"Physical restraint" is defined as any manual hold or mechanical device that the client cannot remove easily, and which restricts the free movement of, normal functioning of, or normal access to a portion or portions of a client's body. Examples of mechanical devices may include arm splints and mittens.

Policies and Procedures must address:

- the types of physical restraint that are allowed in the facility;
- the persons who apply such restraints;
- the parameters for duration of application;
- the methods that assure the health and safety of clients while in restraints; and
- the specific training required for staff allowed to apply such restraints.

§483.450(b)(1)(iv)(C) The use of drugs to manage inappropriate behavior;

Guidance §483.450(b)(1)(iv)(C)

Applicable policies may include a discussion of:

- When a drug can be used to manage inappropriate behavior;
- Consistency with diagnosis;
- Alternatives tried before a drug is used;
- Precautions that must be followed prior to and during the use (lab values, monitoring of side effects);
- Implementation of a plan to address the behaviors for which the drug was prescribed; and

Plan to reduce the medication as appropriate.

Drugs to manage inappropriate behavior are defined as any medication prescribed and administered for purposes of modifying the maladaptive behavior of a client.

§483.450(b)(1)(iv)(D) The application of painful or noxious stimuli;

Guidance §483.450(b)(1)(iv)(D)

“Application of painful or noxious stimuli” is defined as any procedure by which staff apply, contingent upon the exhibition of maladaptive behavior, startling, unpleasant, or painful stimuli, or stimuli that have a potentially noxious effect.

While the regulation permits the use of painful or noxious stimuli these techniques are the last resort and can only be utilized for behaviors that are causing significant harm and have not responded to competently administered interventions of less intrusive nature.

Facility policies must state that:

- The use of noxious stimuli is only permitted when the client exhibits behaviors so severe that they present a potential risk for significant or even life-threatening circumstances;
- the IDT and facility must weigh the potential risk of the behavior against the risk involved in the use of the painful or noxious techniques to manage behavior;
- that safeguards and strict oversight must be in place for consideration to use techniques that may be painful or even unpleasant;
- techniques that may be painful or noxious must be time limited;
- the proposed use of these techniques requires scrutiny of clinical effectiveness and specially constituted committee review; and
- on-going monitoring and safeguards must be in place during implementation of the technique.

Guidance §483.450(b)(3)

No intervention, whether as a part of a formal program or in emergency situations (see W289) may be used as punishment, retaliation or retribution. A staff member cannot employ a behavior management technique simply because a client refuses to follow a staff request.

The implementation of all interventions, except in emergency situations, must be administered consistent with the IPP and the specific behaviors identified in the IPP requiring the intervention. Instances where an intervention is done as a punishment because the client did not comply with staff instructions and not associated with the IPP include:

- Personal property confiscated for behavior at staff discretion;
- Rights restricted without approved plans; and
- Punitive house rules, such as prohibiting reentry into the kitchen for snacks if a meal is not eaten completely.

- Clients restricted to one area of the home; and
- Unauthorized use of restraints (e.g., lap trays, bean bags, gait belt, and merry walkers for the purpose of restricting movement)

Guidance §483.450(b)(4)

The use of behavior interventions are expected to be incorporated into the IPP and be based upon the results of the functional behavioral assessment.

However, there may be isolated and rare instances when a client exhibits unexpected behavior that requires immediate intervention on the part of the staff. In these instances, the least restrictive intervention must be employed and removed as soon as the client is no longer an immediate threat to self or others. The IPP team must then discuss the need for adding a behavioral plan into the clients program.

The staff of the facility may not maintain or use, outside of the IPPs, any list of “as needed” interventions that can be used with any client at any time. With the exception of isolated and rare emergency situations, all restrictive behavior interventions must be incorporated into the formal IPP and individualized for the client.

(iii) The door to the room is held shut by staff or by a mechanism requiring constant physical pressure from a staff member to keep the mechanism engaged.

Guidance §483.450(c)(1)

Seclusion, defined as the placement of a client alone in a locked room, is never allowed.

Time out procedures allows a client to be alone in a room, but do not allow that room to be locked. During a time out procedure, egress can only be prevented by a person standing in the door way, or holding the door closed, but as soon as the staff move from the door way or let go of the door the client can come out.

Use of the timeout room or procedure must be part of an approved behavioral plan and may involve the separation of a client from a group or a particular situation, in a non- locked setting for the purpose of calming or removing the client from the reinforcing stimuli that are sustaining an identified maladaptive behavior.

Designated time out rooms must be set up so that the staff has continuous, direct observation of the client at all times. Because of the danger that staff can get distracted by other events or duties, this cannot be accomplished by a camera in lieu of the staff having direct visual of the client.

Key locks, latch locks, and doors that open inward without an inside doorknob are not permitted by the regulations for use in time out rooms as they do not require constant physical pressure from a staff member to keep the door shut. In each instance where a time out room is used, the client’s IPP must include:

- The functional behavioral assessment which resulted in a recommendation for the use of time out procedures; and

- Instructions on how often data is to be collected during the time out period and the criteria for release from time out.

The use of a time out room must be approved by the Specially constituted committee as part of an approved program.

Guidance §483.450(c)(3)

Because placement in the time out room is typically secondary to extreme behaviors, it is acceptable that there be no furniture in this room.

A door that opens inward can potentially be held closed, either intentionally or inadvertently, by the client in the room, thereby denying staff immediate access to the room.

The documentation in the client's record accurately reflects planned (e.g. part of the IPP) usage and presents a picture of events prior to, during, and following the use of time-out. The IPP should include direction as to how often data must be collected during each use of time out for each individual client.

Guidance §483.450(d)(1)(i)

The use of physical restraint is specified within the IPP. The plan must address:

- 1) The specific type of client behavior to be managed by this plan;
- 2) The less restrictive behavioral approaches which were previously used, but were unsuccessful;
- 3) The hierarchy of measures that must be utilized prior to the application of physical restraint;
- 4) The type of physical restraint;
- 5) The type of client behavior that would indicate that the patient is calm and can be released from the restraint; and
- 6) The replacement behavior being taught to the client to reduce the need for future restraints.

Guidance §483.450(d)(1)(ii)

Physical restraint may be used as an emergency intervention only in situations where the client is exhibiting behaviors which:

- 1) the client has not exhibited before;
- 2) were not identified in the functional analysis of behavior; or
- 3) are harming other people or themselves.

When there are repeated episodes of the use of physical restraint as an emergency safety measure, these episodes should be assessed for their predictability by the IDT, and revisions to the IPP considered addressing the behaviors through a formal behavior plan in order to reduce/eliminate the use of physical restraint.

§483.450(d)(1)(iii) As a health-related protection prescribed by a physician, but only if absolutely necessary during the conduct of a specific medical or surgical procedure, or only if absolutely necessary for client protection during the time that a medical condition exists.

Guidance §483.450(d)(1)(iii)

Physical restraint during medical procedures must be utilized only when absolutely necessary and be used as a last resort in order for the facility or practitioners to deliver needed medical care to the client. The restraint must be released as soon as the medical procedure is completed unless it is necessary to continue restraint for a longer period of time to continue to deliver care or to prevent the client from displacing tubes or dressings. These restraints may only be used as long as the physician indicates them to be necessary.

For instances where physical restraint are used by the facility or a practitioner during a medical procedure, the client record and interviews should verify that less restrictive measures were attempted before using physical restraint and verify whether any injuries occurred during the use of the physical restraint. Written orders by medical personnel for the application of a physical restraint should include the reason that the restraint is necessary, the type of restraint to be used and the length of time the restraint will be applied.

A restraint device used to prevent a client engaging in self-injurious behavior is not considered a restraint for medical condition.

§483.450(d)(2) Authorizations to use or extend restraints as an emergency measure must be:

Guidance §483.450(d)(2)

Facility policies should list who in the facility is allowed to authorize the emergency use of restraints or to extend the use of an emergency restraint, and the training that is required for those persons who may authorize. Documentation in the client record in those instances should confirm that the facility follows that policy.

§483.450(d)(2)(i) In effect no longer than 12 consecutive hours; and

Guidance §483.450(d)(2)(i)

This regulation does not mean that restraints may be authorized to be applied for up to a 12 hour period. The client must be released from the physical restraint as soon as the client is no longer a risk to self or others. Once the behavior has ceased, the emergency has ended, and the client has been released, another authorization would be required for any new emergency situation.

The 12 consecutive hour period is the absolute maximum period of time that emergency physical restraint may be utilized for a client during an individual behavioral incident. It is reasonable to expect that the facility will reassess the emergency situation for any client who remains in physical restraint for longer than one hour and reassess the situation at least every 30 minutes thereafter up to 12 hours when the physical restraint must be removed.

Guidance §483.450(d)(2)(ii)

There may be instances where the maladaptive behaviors of a client or clients escalate into a serious and immediate event that must be de-escalated quickly in order to prevent harm to clients, staff, other clients, or by standers when incidents occur in the community. In these instances, the staff should contact the appropriate person to obtain authorization for the use of physical restraint as soon as the situation is stable. Retrospective documentation of the incident should confirm the need for authorization after application.

Guidance §483.450(d)(4)

The frequency of monitoring will vary according to the type and design of the device and the psychological and physical well-being of the client. The facility should be checking the client often enough to adequately assess the physical status of the client (e.g., circulation, respiration and vital signs) of the client and the need to continued restraint. The more restrictive the intervention, the greater the risk to the client and the more often the client must be assessed. Frequent assessment will assure that the client will be released as soon as possible, however, in no instance may the staff go longer than 30 minutes without checking the client.

Guidance §483.450(d)(6)

This requirement does not apply to cases of medical restraints that are specifically ordered for the immobilization of bones and joints during the physical healing process involved with fractures, sprains, etc. (e.g. a broken bone immobilized by a cast or splint).

See 331 483.460(c) regarding surveillance of skin integrity during the use of medical restraints.

However, if a mechanical physical restraint is applied to an extremity to prevent a client from removing post-operative sutures, the restraint must be released every two (2) hours for a period of not less than ten (10) minutes in order to maintain adequate circulation.

Mechanical restraints placed on the client during sleeping hours must be medically based and specifically ordered by a physician. There should be evidence in the client's record why the mechanical physical restraint is necessary during sleeping hours. While it is not necessary to wake the client every two (2) hours to release the restraint and provide opportunity for exercise, the staff must check the restraint frequently during the night to ensure that the restraint is still properly applied and the client appears comfortable.

Guidance §483.450(e)(1)

Some medications administered for medical reasons or to manage behavior may cause drowsiness as a side effect or due to an accumulation of the drug in the client's system. For clients who are observed to be sleeping in chairs during their work day, their programs or recreational times, there should be evidence that the facility staff notified the medical staff and an assessment was performed of the client including their medication regimen. The physician and other team members discuss the risks and benefits of the medication to address the target behavior/symptoms, and approve the use of the drug as being consistent with the active treatment program. Decisions about the necessity of the use of drugs to manage inappropriate behavior should be made by the IDT. It is the responsibility of the IDT members to provide the physician with sufficient information regarding the need for a client to receive a drug for inappropriate behavior. The physician will make the ultimate decision to order the use of the drug. The IDT should document any disagreement with the physician's order.

In those instances where a client returns from a physician's visit with an order for an unsolicited drug to manage client's inappropriate behaviors, there must be evidence (e.g. IDT meeting notes or clients record) that the team concurred with the necessity for the order without trying less restrictive measures first and discussed any concerns with the physician.

Guidance §483.450(e)(2)

All medications to manage behavior must be integrated into the IPP and the IPP must specify how the specific target behavior for which the medication is prescribed will be reduced or eliminated. This includes medications which are typically used for medical conditions that may be used to manage behavior (e.g. 1. propranolol (Inderal), an antihypertensive used for self-injurious behavior, and 2. carbamazepine (Tegretol), an anticonvulsant, used for aggression).

Drugs for behavior management must not be ordered on a PRN basis for a client. The facility staff must contact the physician to obtain a one-time order if the situation necessitates the use of medication. The facility policy must address the maximum number of times a medication can be used as an emergency prior to being incorporated in the IPP, side effects of such medications, and the frequency of re-evaluation of ongoing behavior and its treatment.

Clients or their legal guardian have the right to choose sedation for medical and dental procedures. However, the facility cannot do routine administration of medication for sedation for medical and dental procedures without the agreement/consent of the client or their parent/legal guardian and they must follow the specific orders of the healthcare practitioner who will be providing services to the client. Decisions to order medications prior to medical and dental procedures must be made on an individual basis. Clients who demonstrate severe anxiety around these procedures should be considered for desensitization programs.

The risk(s) associated with the drug being used is consistent with the type and severity of the behavior/symptoms it is intended to affect.

At the time the drug was started and incorporated into the IPP, the behaviors were discussed and presented to team members. It was the documented decision of the team that the behaviors were of such a severity

that pharmacological intervention was required and the physician was provided with the team information to assist him in his decision to prescribe the medication.

Guidance §483.450(e)(4)

The IDT is aware of and involved in planning the drug reduction program and participates in its implementation and monitoring.

Progress or regression of the client is monitored and taken into consideration in determining the rate of withdrawal and whether to continue withdrawal.

In determining whether there is clinical contraindication to the annual drug withdrawal, the physician and IDT should consider the client's clinical history, diagnostic/behavioral status, previous reduction/discontinuation attempts, and current regimen effectiveness.

If a client also has a diagnosis of a psychiatric condition that requires a stable level of a psychiatric medication in order to control the symptoms associated with the psychiatric diagnosis, the annual

evaluation for reduction of that particular medication for the symptoms of the psychiatric diagnosis would not apply. Documentation in the client's record from their psychiatrist or physician that medication reduction would be contraindicated or that the current level of medications is therapeutic meets the intent of this regulation.

A designated physician must be available via telephone, pager, e-mail or on-site in the facility on a 24 hour per day basis for consultation regarding both emergency and non-emergency medical issues. If the facility employs a fulltime physician, there must be procedures in place for coverage in the absence of the physician from the facility.

If the facility contracts with a community-based physician for 24 hour per day coverage, there must be written arrangements in place to detail the responsibilities of the contract physician regarding direct services to the clients, interactions with the direct support staff and the interactions between the nursing staff of the facility and the contract physician. The contract with the contract physician must delineate the process for coverage when he/she is not available.

Upon interview, the staff should be aware of the procedures they are to follow to contact a physician in the event of an illness or injury. Routinely sending clients to emergent care or the emergency room of a hospital because there are no facility physicians available for consultation is not consistent with the regulations.

Interview and record review verify that the physician is available and responsive 24 hours a day.

A medical care plan of treatment is developed for those clients who are either acutely ill and require licensed nursing care and monitoring temporarily on a 24 hour basis or clients whose chronic medical conditions require or indicate 24 hour licensed nursing care and monitoring. The physician determines when 24 hour nursing care is required.

The medical care plan is based upon the orders from the physician for treatments and care and nursing standards of practice. There is evidence in the client's record that the physician and the nursing staff at the facility work together to ensure that the medical care plan is current and appropriate (e.g. changes in physician written orders for care pursuant to observations from the nursing staff and/or direct observations and interactions with the client, and nursing documentation of care).

The fact that a client has a medical care plan in place should not preclude him/her from an active treatment program, except in instances of acute illness where the active treatment program is temporarily suspended. For clients with chronic medical conditions, it may be necessary for their active treatment program to be

modified due to the tolerance level of the client or adapted to accommodate medical limitations. However, active treatment must be provided on a continuous basis.

Guidance §483.460(a)(3)

The facility has procedures in place to ensure that the clients receive general health care services to assure optimal levels of wellness. General health care services include assessment and treatment of acute and chronic complaints or situations; teaching relevant health care principles to staff and clients; and periodic surveillance of the health status of the clients.

As a result of clinical assessment, referrals are made for specialized assessment and tests. Facility health care staff follow-up to ensure the assessments are done and the findings incorporated into the medical care plan and/or the IPP.

The facility must have arrangements in place to provide routine or episodic laboratory, and radiology services for the clients if not provided in-house or through the clients physician. There must be a written agreement that specifies the responsibilities of the facility and outside provider. (See §483.410(a)).

Preventive health care services include screening procedures designed to identify health concerns and initiate treatment as early as possible. The facility should have a health prevention program in place and follow the plan to address those screenings that the facility will perform periodically that are relevant to all clients, and those screenings associated with a particular gender or age or vulnerability.

Physician refusal to perform a test, such as a pap smear, must be consistent with guidelines for clients, per the local standard in the community.

If the facility has a physician that refuses to provide preventative healthcare based on the client's level of functioning, medical staff at the facility should meet with and consult with this physician in order to ensure that clients receive the same health services as persons living in the local community.

Guidance §483.460(a)(3)(i)

Information relevant to the client's ability to see and hear is a critical component in the development of appropriate active treatment strategies.

All clients, including clients who are non-verbal, should have evidence in his/her record that they receive an annual evaluation of their vision and hearing which includes a screening as a minimum, follow-up examination as indicated by the screen and timely referrals as indicated by the examination. Screening is a gross assessment of the client's vision and hearing and usually does not include a measurement of acuity. Examinations are conducted to follow-up on issues noted in the screening and are conducted by qualified professionals.

Clients who appear to have vision or hearing problems or the staff indicate that they have vision or hearing problems and no accommodations have been made. The annual vision and hearing evaluation verifies that clients appearing to have vision/hearing issues or if staff indicate that a client has vision/hearing issues that these issues have been/are being addressed.

If a client's vision or hearing can only be assessed through examinations conducted by specialists (e.g., comprehensive ophthalmological examinations and evoked response audiometry (ERA)), these tests need not be conducted yearly, but rather upon the specialist's expressed recommendations. During discussions at the annual IPP review the team reviews information from the health professional, speech and hearing professional, and direct support staff and makes referrals back to the specialist if indicated.

§483.460(a)(3)(iv) Tuberculosis control, appropriate to the facility's population, and in accordance with the recommendations of the American College of Chest Physicians or the section on diseases of the chest of the American Academy of Pediatrics, or both.

Guidance §483.460(a)(3)(iv)

The facility should have in place a system for the identification, reporting, investigation, and control of Tuberculosis (TB) in order to prevent its transmission within the facility. This system should include:

- 1) Policies and procedures for screening new employees, new clients, and other people who interact on a consistent basis with clients residing in the facility when those persons are volunteers or professional staff hired or utilized directly by the facility (such as volunteers and contract professional staff);
- 2) Policies and procedures for subsequent screening for clients and for employees, and other people (such as volunteers and contract professional staff) who interact on a consistent basis with clients residing in the facility when those persons are volunteers or professional staff hired or utilized directly by the facility per State Health Department requirements;
- 3) Policies and procedures for reporting positive TB test results to the appropriate State authorities;
- 4) Policies for the investigative procedures, per the local health department, that would be put in place should a client or staff person test positive for TB;
- 5) Policies and procedures for treatment and precautions to be used with clients who display TB symptoms, as substantiated by positive skin testing or x-ray results; and
- 6) Policies and procedures for the evaluation of the effectiveness of the surveillance system.

When one or more clients or staff display TB symptoms, as substantiated by positive skin testing or x-ray results, they do not return to work until a physician has cleared them to return to work.

Guidance §483.460(b)(1)

During the admission process, which takes place from the time the client is admitted to the facility to the time the initial IPP is completed, a physician is required to ensure that an assessment of the client's medical status is thoroughly considered and incorporated into the IPP planning process by the team as it develops the IPP. The physician's input may be by means of written reports, evaluations, and recommendations.

The physician (consistent with Medicaid Utilization Control regulations at §456.380) must evaluate the client at the time of admission to identify all diagnoses and complaints, provide orders for all medications and treatments and provide recommendations for restorative and rehabilitative services.

§456.380 requires that a physician conduct this initial assessment therefore, it may not be done by a physician extender (e.g., Physician assistant or Advanced Practice Registered Nurse).

§483.460(b)(2) If appropriate, physicians must participate in the review and update of an individual program plan as part of the interdisciplinary team process either in person or through written report to the interdisciplinary team.

Guidance §483.460(b)(2)

The need for physician participation on an individual client's IPP team is determined by the medical needs of the client. How the physician participates (whether through written report, telephone consultation, attendance at the meeting, etc.) is to be left to the discretion of the facility. In instances where a client has no overriding medical issues, the nurse of the facility can represent the medical component on the IDT process or consult with the appropriate physician and share the information with the team. However, in situations where a client's medical condition is unstable/fragile to the extent that it impacts the training/work that may be planned, the physician must participate in providing guidance on the types and extent of programs that would be appropriate considering the client's physical/medical limitations.

If a client is noted to be having difficulty participating in the objectives set forth in his/her IPP due to serious medical concerns, review the input that was provided by the physician into the development of the plan and whether the IPP team requested such input.

Guidance §483.460(c)(1)

For those clients who have had an uneventful year medically and have no medical/health concerns at the time of the IPP meeting the facility nurse may submit a summary report to the IDT unless the IDT determines that his/her attendance is necessary. An eventful year medically would include a year which required unplanned hospital admissions or in which medical issues necessitated treatment for a prolonged or continuing period. However when a client has had an eventful year medically or current medical/health concerns, this could have an impact on their objectives and accordingly the nurse should participate in the IDT discussion directly.

A direct physical examination means a visual review of the body as well as examination/assessment of body systems. This includes observations made through non-verbal communication (including visual, tactile, nonverbal gestures, grimaces, etc.) which may be an indication that there is a potential for further assessment and/or monitoring. A paper review of the client's medical record and health statistics does not meet the intent of the regulation for a direct physical examination.

The term "licensed nurse", for purposes of these guidelines, means a registered nurse, a licensed practical nurse or a licensed vocational nurse currently licensed by the State in which the facility is located. The nurse must operate consistent with the requirements of the applicable Nurse Practice Act. If this direct physical examination is done by a physician, it is not necessary for the nurse to repeat the exam.

Nursing staff actively participates in periodic discussions with client and staff to promote health habits in the areas of diet, exercise and non-smoking.

Based upon individual training needs, the nursing staff provides training to individuals in areas such as medications, family planning, prevention of sexually transmitted diseases, control of other infectious diseases, self-monitoring of health status and self-prevention of health problems, etc. The nurses may train clients directly on their objectives or train other staff to do this training as appropriate.

Guidance §483.460(c)(5)(iii)

Nursing staff must train and ensure direct support staff demonstrate competency in detecting signs and symptoms of illness, injury, or change in the client's health baseline (e.g. responsiveness, fatigue, irritability, constipation, diarrhea, dehydration, confusion, unexplained weight loss, changes in endurance and changes in respiratory function).

Staff is responsive to health care needs or injuries of clients and receives instruction and support during temporary illness of clients.

If not, review staff training records to determine whether training was provided periodically to the involved employee. Interview direct care staff to determine their level of understanding regarding the signs and symptoms of illness that are to be reported to the medical staff. The records of clients with recent hospitalizations verify that staff detected and reported relevant symptoms promptly.

Guidance §483.460(d)(2)

- 1) physician ordered treatments that require the skills of a licensed nurse;
- 2) preventive screenings;
- 3) assessment and intervention;
- 4) direct physical examination and examination of body systems;
- 5) teaching; and
- 6) advocacy for the medical services needed by the client.

Client health care needs are met in a timely manner (within 24 hours) by the available nursing staff.

If nurses who do not have experience in the care of persons with intellectual disabilities are employed by the facility, they should be provided with a formal orientation period and on-going educational opportunities to increase their understanding of the client population.

The facility must have written arrangements with a registered nurse (RN) to provide consultation in those instances where LPNs/LVNs provide all the direct nursing care for the clients. Verify that the agreement requires the RN to respond promptly to all calls from the LPN/LVN and to come on-site to the facility if necessary. The facility must also ensure registered nurse back-up when the primary registered nurse consultant is unavailable (vacations, etc.). Guidance §483.460(j)(1)

The primary function of the pharmacist during the quarterly drug review is to identify possible drug interactions, check for evidence of any side effects associated with the drug usage, determine if laboratory results associated with the drug are within normal limits and verify that the facility is administering the medication appropriately and to comment upon the efficacy of the drug use (e.g. blood sugar controlled, blood pressure within normal limits). In the case of drugs used to manage behavior, the pharmacist may

Pharmacist participation on the IDT is at the request of the team. It would not be necessary for the pharmacist to routinely attend all team meetings when the client is on a stable drug regimen that does not appear to be influencing his/her active treatment programs. Pharmacist participation may be appropriate, in situations such as assisting the IDT develop the most effective training programs for when the client is in an evolving situation with their medication.

- A client begins a new or more complex drug regimen;
- The physician orders off-label use of a medication;
- Frequent changes in the drug regimen are affecting IPP implementation.

§483.460(k)(2) All drugs, including those that are self-administered, are administered without error;**Guidance §483.460(k)(2)**

A medication error is an observed discrepancy during the medication pass between what is ordered and what is administered.

This also applies to self-administered medications.

For small facilities (16 beds or less), the medication administration pass will encompass a total of eight (8) drug doses. The observations should be split between two separate drug passes 4/4 (one in the morning and one in the late afternoon or early evening). The medications observed during the observations may or may not be for clients in the survey sample. Any concerns regarding a medication that is about to be administered should be brought to the attention of the person administering the medication. The record of observation should be reconciled with the most current signed physician's orders.

For large facilities (17 or more beds) with either single or multiple buildings, the medication administration pass will encompass a total of 12 doses. The observations should be split between two separate passes 6/6 (one in the morning and one in late afternoon or early evening). Any concerns regarding a medication that is about to be administered should be brought to the attention of the person administering the medication. The record of observation should be reconciled with the most current signed physician's orders.

§483.460(k)(4) Clients are taught to administer their own medications if the interdisciplinary team determines that self-administration of medications is an appropriate objective, and if the physician does not specify otherwise;**Guidance §483.460(k)(4)**

The IDT decision that a self-administration program is appropriate, as is the case for all formal training objectives, must be based upon accurate, current, valid assessment of the client's skills and potential. The determination as to the appropriateness of a self-administration program must never be made singularly on the client's diagnosis or current functional abilities.

For clients assessed to be inappropriate for a self-administration program, but determined by the IDT to possess the capacity to functionally, cognitively, emotionally or developmentally benefit from participation in the drug administration process, it is expected that the facility will provide opportunities for the client to participate in the medication administration process under direct supervision. This participation can include but is not limited to, identifying the medication taken, reaching/grasping a cup of water during the process and placing oral medications in the mouth, etc.

Drugs that are self-administered do not have to be double locked. The purpose for the double locking is to limit access to scheduled drugs. Since the client is generally the only one who has access to his/her drug supply (with perhaps the exception of a licensed nurse or whoever has overall responsibility for medication administration at the facility and a facility’s Director of Nursing Services, who may have access to all of the facility’s drug supplies), there is no need to further limit access.

If the facility performs laboratory services, it must have a current, valid Clinical Laboratory Improvement Amendment (CLIA) certificate for the types of tests it is performing.

For the purposes of this regulation, a "laboratory service or test" is defined as any examination or analysis of materials derived from the human body for purposes of providing information for the diagnosis, prevention, or treatment of any disease or impairment of, or the assessment of the health of human beings.

W394**(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)****§483.460(n)(1) If the laboratory chooses to refer specimens for testing to another laboratory, the referral laboratory must be certified in the appropriate specialties and subspecialties of service in accordance with the requirements of part 493 of this chapter.****Guidance §483.460(n)(1)**

A facility performing any laboratory service or test must have applied to CMS, and received a Certificate of Waiver, Certificate of Compliance, or Certificate of Accreditation. An application for a Certificate of Waiver may be made if the facility performs only those tests on the waived list. A complete list of waived tests can be found at: <http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfClia/analyteswaived.cfm>.

If the facility performs any test, not appearing on the waived list, a Certificate of Compliance or Certificate of Accreditation is required. An appropriate CLIA certificate is required regardless of the frequency with which the laboratory services or tests are conducted. When no tests are performed, a CLIA certificate is not needed. Facilities only collecting specimens and not performing testing do not need a certificate.

A not-for-profit, a state, or local government organization may have one certificate covering all the facilities it operates (e.g., all the separately certified residences which fall under its governing body), if no more than a total of 15 types of waived or moderately complex laboratory tests are used. This exception applies only to laboratories performing limited public health testing. See State Operations Manual (SOM)

6008. Each location where a laboratory tests are performed must file a separate application to be separately certified unless the laboratory meets one if the exceptions outlined at 42CFR493.35(b), 493.443(b), or 493.55(b).

Any laboratory located in a state that has a CMS-approved laboratory program is exempt from CLIA certification. Currently there are two states with approved programs: Washington and New York. New York has a partial exemption; therefore, if the laboratory is located in New York, contact the New York State Agency to determine if the exemption applies.

- Assessment;
- Client program plan;
- Staff documentation of client response to training programs; and

(2) If a bedroom is below grade level, it must have a window that--

(i) Is usable as a second means of escape by client(s) occupying the room; and

(ii) Is no more than 44 inches (measured to the window sill) above the floor unless the facility is surveyed under the Health Care Occupancy Chapter of the Life Safety Code, in which case the window must be no more than 36 inches (measured to the window sill) above the floor.

Guidance §483.470(b)(2)

The intent of the regulation is to prohibit the housing of clients in basements that are entirely below grade. Clients may be housed on the lower level of housing (e.g. a bi-level house), provided the window height requirements are met and the window is of sufficient size to be used as a means of escape.

W416

(3) The survey agency may grant a variance from the limit of four clients per room only if a physician who is a member of the interdisciplinary team and who is a qualified intellectual disabilities professional--

(i) Certifies that each client to be placed in a bedroom housing more than four persons is so severely medically impaired as to require direct and continuous monitoring during sleeping hours; and

(ii) Documents the reason why housing in a room of only four or fewer persons would not be medically feasible.

Guidance §483.470(b)(3)

The medical care plan for each client housed in a room with more than four clients should indicate the need for continuous monitoring. The medical care plan will include:

- the physician certification that the client is severely medically impaired and requires direct and continuous monitoring during sleeping hours; and
- the reason why this housing arrangement for fewer than four people would not be medically feasible.

(4) The facility must provide each client with—

The client's preference, chronological age, and physical and medical needs are the determining factors in bed size and height.

(iv) Functional furniture, appropriate to the client's needs,

Guidance §483.470(b)(4)(iv)

Client preferences and program needs should be considered in furniture selection. For clients with physical disabilities, furniture is adapted to accommodate the client's physical challenges and enable the client to use the furniture with minimal support.

W421

and individual closet space in the client's bedroom with clothes racks and shelves accessible to the client.

Guidance §483.470(b)(4)(iv)

Closets should have enough space for a reasonable amount of the current season's clothing.

Clients who use wheelchairs or have other physical challenges can reach the racks and shelves in their closets.

The facility is permitted either to provide the client with an individualized closet or with a designated area in a shared closet. The use of central clothing bins in a facility clothing room, in the absence of required client closet space in the bedroom, is not an acceptable practice.

(c) Standard: Storage space in bedrooms.

The facility must provide—

W422

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Space for equipment for daily out-of-bed activity for all clients who are not yet mobile, except those who have a short-term illness or those few clients for whom out-of-bed activity is a threat to health and safety; and

Guidance §483.470(c)(1)

Sufficient space that permits the use of wheelchairs, walkers and other adaptive equipment should be provided within the bedroom.

W423

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) Suitable storage space, accessible to clients, for personal possessions, such as TVs, radios, prosthetic equipment and clothing.

Guidance §483.470(c)(2)

Each client should have storage in their bedroom for their personal belongings. Clients should have free access to this storage without the assistance of staff. If it is necessary for clients' personal belongings to be locked due to the behavior of other clients, the client must still be provided free access to his own possessions (See W137 for requirements for locked areas).

(d) Standard: Client bathrooms

The facility must—

W424

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Provide toilet and bathing facilities appropriate in number, size, and design to meet the needs of the clients;

Guidance §483.470(d)(1)

In a home setting, the toilet facilities need to be of sufficient number to meet the needs of the client without prolonged delay. There must be enough toilets in the living units to meet the program needs of the clients at any given time, as well as provide for intermediate toileting needs of the clients living in the unit.

In a home setting, it may be unrealistic to say a client would never have to wait for a shower or bath or to brush his/her teeth.

Bathrooms and fixtures must be adapted to accommodate clients with physical disabilities.

W425

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) Provide for individual privacy in toilets, bathtubs, and showers; and

Guidance §483.470(d)(2)

A bathroom containing multiple toilets, showers or bathtubs, must have doors, curtains, or some other means of protecting the client from view when fully or partially unclothed.

Clients should not be able to be seen through the door or window by passersby when they are using the bathrooms.

Client privacy does not preclude the assistance provided by facility staff when necessitated by the client's condition.

(1) Each client bedroom in the facility must have--

W427

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

W428

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) The facility must—

W429

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) Maintain the temperature and humidity within a normal comfort range by heating, air conditioning or other means; and

Guidance §483.470(e)(2)(i)

A “normal comfort range” in most instances is defined as not going below a temperature of 68 degrees Fahrenheit or exceeding a temperature of 80 degrees Fahrenheit in facilities in most geographic areas of the country.

In extremely hot or extremely cold weather, precautions are taken by the facility to protect the clients, particularly those who are medically compromised, from ill effects of the temperature.

(1) Floors that have a resilient, nonabrasive, and slip-resistant surface.

W432

§483.470(f) (2) Nonabrasive carpeting, if the area used by clients is carpeted and serves clients who lie on the floor or ambulate with parts of their bodies, other than feet, touching the floor; and

§483.470(f) (3) Exposed floor surfaces and floor coverings that

W433

promote mobility in areas used by clients,

W434

and promote maintenance of sanitary conditions.

§483.470(g) Standard: Space and Equipment

The facility must--

W435

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Provide sufficient space and equipment in dining, living, health services, recreation, and program areas (including adequately equipped and sound treated areas for hearing and other evaluations if they are conducted in the facility) to enable staff to provide clients with needed services, as required by this subpart and as identified in each client's individual program plan.

Guidance §483.470(g)(1)

Staff and clients must have the space, materials and equipment needed to implement formal and informal active treatment programs.

There must be sufficient space to accommodate group activities, including groups with clients who use wheelchairs.

Recreational supplies, equipment, and materials are available and reflect the interests, physical abilities and chronological age of the clients.

W436

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) Furnish, maintain in good repair, and teach clients to use and to make informed choices about the use of dentures, eyeglasses, hearing and other communications aids, braces, and other devices identified by the interdisciplinary team as needed by the client.

Guidance §483.470(g)(2)

The term “furnish” means that the facility is responsible for obtaining or purchasing these items once an assessment has identified the need and is responsible for making any necessary arrangements for the client to receive them. Clients’ personal funds should not be used for these items since this is a covered service under the ICF/IID benefit.

The term “maintain in good repair” means that the facility is responsible for ensuring that these items are kept in good working order, and is responsible for any resulting expense that may be incurred.

Programs must be in place, when identified by assessment and determined by the ID team, to teach clients about the use and care for their equipment to the extent of their capabilities.

W437

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) Provide adequate clean linen and dirty linen storage areas.

Guidance §483.470(g)(3)

Clean linen must be is separated from dirty linen and stored in a manner which prevents contamination. Linen soiled with bodily fluids must be stored separately and in a manner which protects clients from exposure to possible infectious sources.

A bedroom hamper can be an acceptable dirty linen storage “area” if kept odor free and consistent with the infection control requirements at §483.470(1).

(h) Standard: Emergency plan and procedures.**W438**

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) The facility must develop and implement detailed written plans and procedures to meet all potential emergencies and disasters such as fire, severe weather, and missing clients.

Guidance §483.470(h)(1)

These plans may include identification of transportation and alternative shelter needs in cases when the facility must be evacuated and may incorporate state-specific emergency preparedness requirements as applicable.

W439

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) The facility must communicate, periodically review, make the plan available, and provide training to the staff.

Guidance §483.470(h)(2)

“Periodic review” is a judgment made by the facility based on the circumstances of the facility. If the facility changes its physical plant or if changes external to the facility necessitates a review of the disaster plan, then the facility is responsible for carrying out the review.

Interview staff about where emergency plans and procedures are located and what the facility policy is regarding how often, and under what circumstances the plans and procedures are reviewed and updated.

(i) Standard: Evacuation drills.

(1) The facility must hold evacuation drills

Chapter 18/19: Requires drills which simulate emergency situations which familiarize facility staff with emergency actions they may be required to perform. The general emphasis of these sections of the code is upon training of the staff and not upon providing practice for the client. Drills should be practiced under varying conditions including various times of the day or night and in various weather conditions.

Guidance §483.470(i)(1)(i)

The facility must--

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) Actually evacuate clients during at least one drill each year on each shift;

Guidance §483.470(i)(2)(i)

All clients totally evacuate the building at least once per year per shift, regardless of the occupancy chapter under which the building falls.

All facilities, regardless of their size require actual evacuation. "Actually evacuate", as used in this standard, applies to all clients. The drills are conducted not only to rehearse the clients and staff for a fire emergency (see §483.470(i)(2)(v)), but for other disasters such as hurricanes, tornadoes, floods, etc. Such disasters would require the entire occupancy to be evacuated, and, therefore, the actual evacuation must be practiced, as required.

Guidance §483.470(i)(2)(ii)

Clients with physical or medical disabilities may require special procedures for evacuation, taking into account equipment or staff that must be maintained for the client's care at all times. The facility's evacuation plan should:

- identify such clients;
- clearly delineate any special evacuation procedures for those clients.

Staff should be familiar with the facility's special evacuation procedures when working with clients who are in need of unique provisions.

- Investigates the cause of the difficulties; and
- Develops a plan to ensure the difficulties will not reoccur.

Guidance §483.470(i)(2)(v)

(3) Facilities must meet the requirements of paragraph (i)(1) and (2) of this section for any live-in and relief staff they utilize.

Guidance §483.470(i)(3)

In the case of live-in staff, drills must occur quarterly. Typically, live-in staff can be found in facilities that fall under Chapter 32/33 of the LSC code. Drills should be held at varying times of the day and night for clients to practice evacuation including morning, afternoon, evening and the middle of the night.

(j) Standard: Fire protection.

Guidance §483.470(j)

These standards are covered by the Life Safety Code (LSC) survey. The facility must meet the appropriate chapter of the Life Safety Code, 2000 edition.

When surveying an ICF/IID for compliance with the LSC, it is first necessary to determine whether the facility will be surveyed under Health Care (HC) or Board and Care (BC) occupancy.

- If clients receive nursing services, or if the provider elects to use Health Care, the facility should be surveyed as a Health Care Facility under Chapter 18 or 19 of the LSC, as appropriate.

- If clients receive personal care and protective oversight but not continuing nursing services, the facility is to be surveyed under Board and Care and the following three steps should be followed:

- 1) Determine the size (16 or less = small; 17 or more = large);
- 2) Determine the Evacuation Difficulty (PROMPT, SLOW, or IMPRACTICAL) using Appendix F of the fire safety evaluation system for board and care facilities (FSES/BC); and
- 3) Survey the building using one of two methods:
 - a. The prescriptive requirements of Chapters 32 or 33; or
 - b. The FSES/BC, Appendix G.

(1) General. Except as otherwise provided in this section—

(i) The facility must meet the applicable provisions of either the Health Care Occupancies Chapters or the Residential Board and Care Occupancies Chapter of the 2000 edition of the Life Safety Code of the National Fire Protection Association. The Director of the Office of the Federal Register has approved the NFPA101®2000 edition of the Life Safety Code, issued January 14, 2000, for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. A copy of the Code is available for inspection at the CMS Information Resource Center, 7500 Security Boulevard, Baltimore, MD or at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202–741–6030, or go to:

http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html. Copies may be obtained from the National Fire Protection Association, 1 Batterymarch Park, Quincy, MA 02269. If any changes in this edition of the Code are incorporated by reference, CMS will publish notice in the Federal Register to announce the changes.

(ii) Chapter 19.3.6.3.2, exception number 2 of the adopted LSC does not apply to a facility.

Guidance §483.470(j)(1)(ii)

Roller latches are prohibited on corridor doors as a latching device.

(2) The State survey agency may apply a single chapter of the LSC to the entire facility or may apply different chapters to different buildings or parts of buildings as permitted by the LSC.

(3) A facility that meets the LSC definition of a residential board and care occupancy must have its evacuation capability evaluated in accordance with the Evacuation Difficulty Index of the Fire Safety Evaluation System for Board and Care facilities (FSES/BC).

Guidance §483.470(j)(3)

The evacuation capability of residents is determined using Chapter 6 of NFPA 101A, 2001 edition.

4) If CMS finds that the State has a fire and safety code imposed by State law that adequately protects a facility's clients, CMS may allow the State survey agency to apply the State's fire and safety code instead of the LSC.

5) Beginning March 13, 2006, a facility must be in compliance with Chapter 19.2.9, Emergency Lighting.

Guidance §483.470(j)(5)

Battery powered emergency lighting must last at least 90 minutes.

6) Beginning March 13, 2006, Chapter 19.3.6.3.2, exception number 2 does not apply to a facility.

Guidance §483.470(j)(6)

Roller latches are prohibited on corridor doors as a latching device.

(7) Facilities that meet the LSC definition of a health care occupancy.

(i) After consideration of State survey agency recommendations, CMS may waive, for appropriate periods, specific provisions of the Life Safety Code if the following requirements are met:

Guidance §483.470(j)(7)(i)

Waivers may be granted only to facilities that meet the Life Safety Code definition of a Health Care Occupancy. Waivers are not granted to facilities that met the requirements of a Residential Board and Care Occupancy.

Waivers are recommended by the State Survey Agency and approved by the Regional Office.

(A) The waiver would not adversely affect the health and safety of the clients.

B) Rigid application of specific provisions would result in an unreasonable hardship for the facility.

ii) Notwithstanding any provisions of the 2000 edition of the Life Safety Code to the contrary, a facility may install alcohol-based hand rub dispensers if—

(A) Use of alcohol-based hand rub dispensers does not conflict with any State or local codes that prohibit or otherwise restrict the placement of alcohol-based hand rub dispensers in health care facilities;

(B) The dispensers are installed in a manner that minimizes leaks and spills that could lead to falls;

(C) The dispensers are installed in a manner that adequately protects against inappropriate access;

D) The dispensers are installed in accordance with chapter 18.3.2.7 or chapter 19.3.2.7 of the 2000 edition of the Life Safety Code, as amended by NFPA Temporary Interim Amendment 00–1(101), issued by the Standards Council of the National Fire Protection Association on April 15, 2004. The Director of the Office of the Federal Register has approved NFPA Temporary Interim Amendment 00–1(101) for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. A copy of the amendment is available for inspection at the CMS Information Resource Center, 7500 Security Boulevard, Baltimore, MD and at the Office of the Federal Register, 800 North Capitol Street NW., Suite 700, Washington, DC. Copies may be obtained from the National Fire Protection Association, 1 Batterymarch Park, Quincy, MA 02269; and

(E) The dispensers are maintained in accordance with dispenser manufacturer guidelines

§483.470(k)(1) Use lead-free paint inside the facility; and

W453

§483.470(k)(2) Remove or cover interior paint or plaster containing lead so that it is not accessible to clients.

§483.470(l) Standard: Infection Control

W454

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) The facility must provide a sanitary environment to avoid sources and transmission of infections.

Guidance §483.470(l)(1)

The facility is clean and staff have eliminated opportunities for cross-contamination of infections. Food is stored, prepared, distributed, and served in a sanitary manner to prevent food borne illness.

W455

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

There must be an active program for the prevention, control, and investigation of infection and communicable diseases.

Guidance §483.470(l)(1)

Facilities maintain an ongoing surveillance program of communicable disease control and investigation of infections and an active training program that ensures the clients served receive adequate prevention of transmission information and skills, according to needs.

The facility's infection control program should include procedures for:

- identification of the extent of infestation or infection;
- protection of clients;
- treatment of clients;
- notification of family or legal guardian;
- reporting to the health department as indicated; and
- continued follow-up to resolution.

Both the Occupational Safety and Health Administration (OSHA) and the CDC have specific requirements regarding human immuno-deficiency virus (HIV), TB, and hepatitis precautions. These requirements should be incorporated into the facility's practices when relevant to the clients residing in the facility. Concerns about OSHA violations should be referred to OSHA.

W456

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) The facility must implement successful corrective action in affected problem areas.

W457

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) The facility must maintain a record of incidents and corrective actions related to infections.

W458

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(4) The facility must prohibit employees with symptoms or signs of a communicable disease from direct contact with clients and their food.

Guidance §483.470(l)(4)

The facility should have and implement a policy that clearly delineates those signs and symptoms for which they will restrict staff access to clients or to clients' food.

§483.480 Condition of participation: Dietetic services

(a) Standard: Food and nutrition services

W460

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(1) Each client must receive a nourishing, well balanced, diet including modified and specially prescribed diets.

Guidance §483.480(a)(1)

“Well balanced diets” are defined as diets that contain a variety of foods from the food groups currently recommended by the Academy of Nutrition and Dietetics (AND).

“Modified and specially-prescribed” diets are defined as diets that are altered in any way to enable the client to eat (e.g. food that is chopped, pureed) or diets that are intended to correct or prevent a nutritional deficiency or health problem.

Refer to W463 and W474 regarding modified and specially prescribed diets.

The following may be indicators of or may lead to compromised nutritional status:

- Unplanned significant weight gain or loss;
- Fever/infection;
- Diarrhea;
- Chronic disease;
- Chewing and Swallowing problems;
- Teeth and gum diseases;
- Excessive use of laxatives;
- Abnormal laboratory values;
- Brittle, dry hair;
- Ridged or spoon shaped nails;
- Dry flaky skin; and
- Unexplained change in mood such as general fatigue, apathy, irritability, lack of concentration.

If one or more of these indicators are present, determine the facility's response through observation, interview, and record review.

Surveyors should assure the facility is responsive to client food allergies and the potential for adverse food/drug interactions. If surveyors suspects these may exist, investigate further.

Examples of facility responsiveness to allergies and food/drug interactions include, but are not limited to:

- Clients on long term anticonvulsant drug regimens (e.g., phenobarbital, phenytoin, primidone) are periodically monitored per facility policy for decreased serum levels of folic acid and vitamin D;
- Therapeutic doses of nutrients are provided to decrease the likelihood of anemia and prevent decreased bone density, etc.; and
- Fiber and fluids are increased in the diet of clients to decrease the likelihood of constipation.

Guidance §483.470(a)(1)

Clients of grossly different ages, functional levels, and/or social needs should not be housed together unless all of the following documentation support the placement:

- Assessment;
- Client program plan;
- Staff documentation of client response to training programs; and
- QIDP notes.

§483.480(a)(2) A qualified dietitian must be employed either full-time, part-time, or on a consultant basis at the facility's discretion.

Guidance §483.480(a)(2)

The facility employs a registered dietitian either on a part-time, full-time or on a consultant basis.

W462

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(3) If a qualified dietitian is not employed full-time, the facility must designate a person to serve as the director of food services.

Guidance §483.480(a)(3)

Where the facility does not have a full-time qualified dietitian, verify that the director of food services coordinates with a dietitian to assure the nutritional adequacy of meals and snacks.

The food service director coordinates with the part-time or consultant dietitian to develop client meal plans and monitor client nutritional status.

The qualifications of the food service director may be dictated by facility policy or by state law, if applicable.

In small group home settings where the staff and clients plan and prepare meals cooperatively, there may not be a designated food services director. In these cases, the consultant or part-time dietitian would meet with the available home staff to ensure adequacy of menus and diets.

§483.480(a)(5) Foods proposed for use as a primary reinforcement of adaptive behavior are evaluated in light of the client's nutritional status and needs.

Guidance §483.480(a)(5)

This regulation addresses the use of food in shaping positive adaptive behavior. Where clients have specialized nutritional needs, these needs must be taken into consideration.

When food is used as a primary reinforcement of behavior for a client who has a dietary restriction, these foods should be consistent with the foods allowed by the prescribed diet.

Food used as a reinforcement must be part of a behavior plan approved by the IDT and consistent with nutritional parameters for that client. For example, a client with diabetes does not receive concentrated sweets as a reinforcement.

Guidance §483.480(b)(2)(iii)

The term “form”, as used in this requirement, refers to food consistency (e.g., pureed, chopped, ground, etc.). Food that is ground, chopped or pureed is based on assessed client need, and only to the extent required.

Food consistency modifications due to an acute medical or dental condition are temporary and; client’s food consistency is upgraded at the soonest possible time. Clients with chronic medical or dental conditions are periodically reviewed and at least annually for the possibility of an upgrade in food consistency.

Client assessments must document the justification for modified texture of the client’s diet.

Guidance §483.480(b)(2)(iv)

“Appropriate utensils” refers to eating utensils and adaptive eating equipment that enable clients to eat as independently as possible in accordance with their highest functional level.

Commonly used utensils (fork, knife, and spoon) appropriate to the food being consumed are provided to all clients except those using adaptive equipment instead. Clients should be afforded the opportunity to use forks, spoons, and knives as indicated by the food served.

Utensils must be in good condition, clean, allow portion sizes appropriate to the client’s prescribed diet and meet the client’s needs.

67.3(8) To present grievances and recommend changes in program policies and services, personally or through other persons or in combination with others, to the program's staff or person in charge without fear of reprisal, restraint, interference, coercion, or discrimination.

481—67.4(231B,231C,231D) Program notification to the department. The director or the director's designee shall be notified within 24 hours, or the next business day, by the most expeditious means available:

67.4(1) Of any accident causing major injury. For the purposes of this rule, "major injury" shall also mean a substantial injury.

a. "Major injury" shall be defined as any injury which:

(1) Results in death; or

(2) Requires admission to a higher level of care for treatment, other than for observation; or

(3) Requires consultation with the attending physician, designee of the physician, or physician extender who determines, in writing on a form designated by the department, that an injury is a "major injury" based upon the circumstances of the accident, the previous functional ability of the tenant, and the tenant's prognosis.

b. The following are not reportable accidents:

(1) An ambulatory tenant who falls when neither the program nor its employees have culpability related to the fall, even if the tenant sustains a major injury; or

(2) Spontaneous fractures; or

(3) Hairline fractures.

67.4(2) When damage to the program is caused by a natural or other disaster.

67.4(3) When there is an act that causes major injury to a tenant or when a program has knowledge of a pattern of acts committed by the same tenant on another tenant that results in any physical injury. For the purposes of this subrule, "pattern" means two or more times within a 30-day period.

67.4(4) When a tenant elopes from a program.

67.4(5) When a tenant attempts suicide, regardless of injury.

67.4(6) When a fire occurs in a program and the fire requires the notification of emergency services, requires full or partial evacuation of the program, or causes physical injury to a tenant.

67.4(7) When a defect or failure occurs in the fire sprinkler or fire alarm system for more than 4 hours in a 24-hour period. (This reporting requirement is in addition to the requirement to notify the state fire marshal.)

NOTE: Additional reporting requirements are created by other rules and statutes, including but not limited to Iowa Code chapters 235B and 235E, which require reporting of dependent adult abuse.

481—67.5(231B,231C,231D) Medications.

67.5(1) If a program handles, stores, or administers controlled substances, the program shall be registered with the Iowa board of pharmacy as a care facility in accordance with 657—Chapter 10.

67.5(2) Each program shall follow its own written medication policy, which shall include the following:

a. The program shall not prohibit a tenant from self-administering medications.

b. A tenant shall self-administer medications unless:

(1) The tenant or the tenant's legal representative delegates in the occupancy agreement or signed service plan any portion of medication setup to the program.

(2) The tenant delegates medication setup to someone other than the program.

(3) The program assumes partial control of medication setup at the direction of the tenant. The medication plan shall not be implemented by the program unless the program's registered nurse deems it appropriate under applicable requirements, including those in Iowa Code section 231C.16A and subrule 67.9(4). The program's registered nurse must agree to the medication plan.

c. A tenant shall keep medications in the tenant's possession unless the tenant or the tenant's legal representative, if applicable, delegates in the occupancy agreement or signed service plan partial or complete control of medications to the program. The service plan shall include the tenant's choice related to storage.

d. When a tenant has delegated medication administration to the program, the program shall maintain a list of the tenant's medications. If the tenant self-administers medications, the tenant may choose to maintain a list of medications in the tenant's apartment or to disclose a current list of medications to the program for the purpose of emergency response. If the tenant discloses a medication list to the program in case of an emergency, the tenant remains responsible for the accuracy of the list.

e. When medication setup is delegated to the program by the tenant, staff via nurse delegation may transfer medications from the original prescription containers or unit dosing into medication reminder boxes or medication cups.

f. When medications are administered traditionally by the program:

(1) The administration of medications shall be provided by a registered nurse, licensed practical nurse or advanced registered nurse practitioner registered in Iowa, by an individual who has successfully completed a department-approved medication aide or medication manager course and passed the respective department-approved medication aide or manager examination, or by a physician assistant (PA) in accordance with 645—Chapter 327. Injectable medications shall be administered as permitted by Iowa law by a registered nurse, licensed practical nurse, advanced registered nurse practitioner, physician, pharmacist, or physician assistant (PA).

(2) Medications shall be kept in a locked place or container that is not accessible to persons other than employees responsible for the administration or storage of such medications.

(3) The program shall maintain a list of each tenant's medications and document the medications administered.

(4) Medications and treatments shall be administered as prescribed by the tenant's physician, advanced registered nurse practitioner or physician assistant.

g. Narcotics protocol, including destruction and reconciliation, shall be determined by the program's registered nurse.

67.6(2) A business or activity conducted in the designated part of the physical structure in which the program is located shall not interfere with the use of the program by tenants or with services provided to tenants or disturb tenants.

481—67.7(231B,231C,231D) Waiver of criteria for retention of a tenant in the program.

67.7(1) *Time-limited waiver.* Upon receipt of a program's request for waiver of the criteria for retention of a tenant, the department may grant a waiver of the criteria under applicable requirements for a time-limited basis. Absent extenuating circumstances, a waiver of the criteria for retention of a tenant is limited to a period of six months or less.

67.7(2) *Waiver petition procedures.* The following procedures shall be used to request and to receive approval of a waiver from criteria for the retention of a tenant:

a. A program shall submit the waiver request on a form and in a manner designated by the department as soon as it becomes apparent that a tenant exceeds retention criteria pursuant to an evaluation by a health care or human service professional.

b. The department shall respond in writing to a waiver request within 15 working days of receipt of all required documentation. In consultation with the program, the department may take an additional 15 working days to report its determination regarding the waiver request.

c. The program shall provide to the department within 5 working days written notification of any changes in the condition of the tenant as described in the approved waiver request.

67.7(3) *Factors for consideration for waiver of criteria for retention of a tenant.* In addition to the criteria established in Iowa Code subsection 17A.9A(2), the following factors may be demonstrative in determining whether the criteria for issuance of a waiver have been met.

a. It is the informed choice of the tenant or the tenant's legal representative, if applicable, to remain in the program;

b. The program is able to provide the staff necessary to meet the tenant's service needs in addition to the service needs of the other tenants;

c. The department shall only issue a waiver if the waiver will not jeopardize the health, safety, security or welfare of the tenant, program staff, or other tenants; and

d. The tenant has been diagnosed with a terminal illness and has been admitted to hospice, and the tenant exceeds the criteria for retention and admission for a temporary period of less than six months. A terminal diagnosis means the tenant is within six months of the end of life.

67.7(4) *Conditional waiver.* A conditional waiver may be granted contingent upon the department's receipt of additional information or performance of monitoring.

a. If a waiver has been in effect for six months, a monitoring shall be conducted to determine whether the tenant meets the criteria to continue on a waiver.

b. The department may seek additional information during the period to determine if a waiver should be granted.

67.7(5) *Appeals.* The denial of a waiver request may be appealed by the program pursuant to Iowa Code chapter 17A.

b. Within 30 days of beginning employment, all program staff shall receive training by the program's registered nurse(s).

c. Training for noncertified staff shall include, at a minimum, the provision of activities of daily living and instrumental activities of daily living.

d. Certified and noncertified staff shall receive training regarding service plan tasks (e.g., wound care, pain management, rehabilitation needs and hospice care) in accordance with medical or nursing directives and the acuity of the tenants' health, cognitive or functional status.

e. The program's registered nurse(s) shall provide direct or indirect supervision of all certified and noncertified staff as necessary in the professional judgment of the program's registered nurse and in accordance with the needs of the tenants and certified and noncertified staff.

f. Services shall be provided to tenants in accordance with the training provided.

g. The program shall have in place a system by which certified or noncertified staff communicate in writing occurrences that differ from the tenant's normal health, functional and cognitive status. The program's registered nurse or designee shall train certified and noncertified staff on reporting to the program's registered nurse or designee and documenting occurrences that differ from the tenant's normal health, functional and cognitive status. The written communication required by this paragraph shall be retained by the program for a period of not less than three years, and shall be accessible to the department upon request.

h. In the absence of the program's registered nurse due to vacation or other temporary circumstances, the nurse assuming the duties of the program's registered nurse shall have access to staff training in relation to tenant needs.

67.9(5) *Prohibited services.* A program staff member shall not be designated as attorney-in-fact, guardian, conservator, or representative payee for a tenant unless the program staff member is related to the tenant by blood, marriage, or adoption.

67.9(6) *Dependent adult abuse training.* Program staff shall receive training relating to the identification and reporting of dependent adult abuse as required by Iowa Code section 235B.16.

67.10(3) *Standard for determining whether a regulatory insufficiency exists.* The department shall use a preponderance-of-the-evidence standard when determining whether a regulatory insufficiency exists. c. The complainant shall include as much of the following information as possible in the complaint: the complainant's name, address and telephone number; the complainant's relationship to the program or tenant; and the reason for the complaint. The complainant's name shall be confidential information and shall not be released by the department. The department shall act on anonymous complaints unless the department determines that the complaint is intended to harass the program. If the department, upon preliminary review, determines that the complaint is intended as harassment or is without reasonable basis, the department may dismiss the complaint.

67.11(2) Program-reported incident reports. When the program is required pursuant to applicable requirements to report an incident, the program shall make the report to the department via:

d. Facsimile sent to (515)281-7106.

67.11(3) Time frames for investigation of complaints or program-reported incident reports. Upon receipt of a complaint or program-reported incident report made in accordance with this rule, the department shall conduct a preliminary review of the complaint or report to determine if a potential regulatory insufficiency has occurred. If a potential regulatory insufficiency exists, the department shall institute a monitoring of the program within the following time frames: within 2 working days of receipt of the complaint or incident report if there is the possibility of immediate danger, including that the potential regulatory insufficiency has caused or is likely to cause serious injury, harm, impairment, or death to a resident; or within 20 working days of receipt of the complaint or incident report if the potential regulatory insufficiency has caused or may cause harm that negatively impacts a tenant's mental, physical, or psychosocial status or function and is of such consequence to the tenant's well-being that a rapid response is warranted; or within 45 working days of receipt of the complaint or incident report for any other complaint or incident investigation, including a potential regulatory insufficiency that may have caused harm of limited consequence and does not significantly impair the tenant's mental, physical, or psychosocial status or function.

67.11(4) Standard for determining whether a complaint is substantiated. The department shall apply a preponderance-of-the-evidence standard in determining whether or not a complaint or program-reported incident report is substantiated.

67.11(5) Notification of program and complainant. The department shall notify the program and, if known, the complainant of the final report regarding the complaint investigation.

67.11(6) Notification of accrediting entity. In addition, for any credible report of alleged improper or inappropriate conduct or conditions within an accredited program, the department shall notify the accrediting entity by the most expeditious means possible of any actions taken by the department with respect to certification enforcement.

67.13(1) *Exit interview.* The department shall provide an exit interview in person or by telephone at the conclusion of a monitoring, during which the department shall inform the program's representative of all issues and areas of concern related to insufficient practices. A second exit interview shall be provided if the department identifies additional issues or areas of concern. The program shall have 2 working days from the date of the exit interview to submit additional or rebuttal information to the department.

67.13(2) *Final report.* The department shall issue the final report of a monitoring within 10 working days after completion of the on-site monitoring or the receipt by the department of additional or rebuttal information, by personal service, electronically or by certified mail. - (3) What measures will be taken to ensure the problem does not recur;
- (4) How the program plans to monitor performance to ensure compliance; and

481—67.14(17A,231B,231C,231D,85GA,HF2365) Response to final report. Within 20 working days after the issuance of the final report and assessment of civil penalty, if any, the program shall respond in the following manner.

67.14(1) *If not contesting final report.* If the program does not desire to seek an informal conference or contest the final report and civil penalty, if assessed, the program shall remit to the department of inspections and appeals the amount of the civil penalty, if assessed. If a program has been assessed a civil penalty, the civil penalty shall be reduced by 35 percent if the requirements of subrule 67.17(5) are met.

67.14(2) *If contesting the final report.* If the program desires to contest the final report and civil penalty, if assessed, the program shall notify the department of inspections and appeals in writing that it desires to contest the final report and civil penalty and shall do one of the following:

- a.* Request an informal conference with an independent reviewer pursuant to subrule 67.14(3); or
- b.* Request a contested case hearing in the manner provided by Iowa Code chapter 17A for contested cases.

67.14(3) *Informal conference.*

a. Request for informal conference. The request for an informal conference must be in writing and include the following:

- (1) Identification of the regulatory insufficiency(ies) being disputed;
- (2) The type of informal conference requested: face-to-face or telephone conference; and
- (3) A request for monitor's notes for the regulatory insufficiencies being disputed, if desired.

b. Submission of documentation. The program shall submit the following within 10 working days from the date of the program's written request for an informal conference:

- (1) The names of those who will be attending the informal conference, including legal counsel; and

(2) Documentation supporting the program's position. The program must highlight or use some other means to identify written information pertinent to the disputed regulatory insufficiency(ies). Supporting documentation that is not submitted with the request for an informal conference will not be considered, except as otherwise permitted by the independent reviewer upon good cause shown. "Good cause" means substantial or adequate grounds for failing to submit documentation in a timely manner. In determining whether the program has shown good cause, the independent reviewer shall consider what circumstances kept the program from submitting the supporting documentation within the required time frame.

c. Face-to-face or telephone conference. A face-to-face or telephone conference, if requested, will be scheduled to occur within 10 working days of the receipt of the written request, all supporting documentation and the plan of correction required by subrule 67.13(3).

(1) Failure to submit supporting documentation will not delay scheduling.

(2) The conference will be scheduled for one hour. The program will informally present information and explanation concerning the contested regulatory insufficiency(ies). The department will have time to respond to the program's presentation. Due to the confidential nature of the conference, attendance may be limited.

(3) If additional information is requested by the independent reviewer during the informal conference, the program will have 2 working days to deliver the additional materials to the independent reviewer.

(4) When extenuating circumstances preclude a face-to-face conference, a telephone conference will be held or the program may be given one opportunity to reschedule the face-to-face conference.

d. Results. The results of the informal conference will generally be sent within 10 working days after the date of the informal conference, or within 10 working days after the receipt of additional information, if requested.

(1) The independent reviewer may affirm or may modify or dismiss the regulatory insufficiency and civil penalty. The independent reviewer shall state in writing the specific reasons for the affirmation, modification or dismissal of the regulatory insufficiency.

(2) The department will issue an amended (changes in factual content) or corrected (changes in typographical/data errors) final report if changes result from the informal conference.

(3) The program must submit to the department a new plan of correction for the amended or corrected report within 10 calendar days from the date of the letter conveying the results of the conference.

(4) If the informal conference results in dismissal of a regulatory insufficiency for which a civil penalty was assessed, the corresponding civil penalty will be rescinded.

67.14(4) *Procedure after informal conference.* After the conclusion of an informal conference:

a. If the program does not desire to further contest an affirmed or modified final report, the program shall, within 5 working days after receipt of the written decision of the independent reviewer, remit to the department of inspections and appeals the civil penalty, if assessed.

b. If the program does desire to further contest an affirmed or modified final report, the program shall, within 5 working days after receipt of the written decision of the independent reviewer, notify the department of inspections and appeals in writing that it desires to formally contest the final report.

67.14(5) *Contested case hearings.* Contested case hearings shall be conducted by the department's administrative hearings division pursuant to Iowa Code chapter 17A and 481—Chapter 9.

481—67.15(17A,231B,231C,231D) Denial, suspension or revocation of a certificate.

67.15(1) *Notice and request for hearing.* The denial, suspension or revocation of a certificate shall be effected by delivering to the applicant or certificate holder by restricted certified mail or by personal service a notice setting forth the particular reasons for such actions. A denial, suspension or revocation shall be effective 30 days after certified mailing or personal service of the notice, unless the applicant or certificate holder gives the department written notice requesting a hearing within the 30-day period. If a timely request for hearing is made, the notice shall be deemed suspended pending the outcome of the hearing, unless subrule 67.15(3) or 67.15(4) applies. If an enforcement action has been implemented immediately in accordance with subrule 67.15(3) or 67.15(4), the enforcement action remains in effect regardless of a request for hearing.

67.15(2) Hearings. Hearings shall be conducted by the administrative hearings division of the department of inspections and appeals pursuant to Iowa Code chapter 17A and 481—Chapter 9.

67.15(3) Immediate suspension of a certificate. When the department finds that an imminent danger to the health or safety of tenants of a program exists which requires action on an emergency basis, the department may direct removal of all tenants from the program and suspend the certificate or require additional remedies to ensure the ongoing safety of the program's tenants prior to a hearing.

67.15(4) Immediate imposition of enforcement action. When the department finds that an imminent danger to the health or safety of tenants exists which requires action on an emergency basis, the department may immediately impose a conditional certificate and accompanying conditions upon the program in lieu of immediate suspension of the certificate and removal of the tenants from the program if the department finds that tenants' health and safety would still be protected. The program may request a hearing, but the immediate enforcement action remains in effect regardless of the request for hearing.

481—67.16(17A,231B,231C,231D) Conditional certification.

67.16(1) Conditional certification. In lieu of denial, suspension or revocation of a certificate, the department may issue a conditional certificate for a period of up to one year. Notwithstanding subrule 67.15(4), a conditional certificate shall be issued only when regulatory insufficiencies pose no greater risk to tenant health or safety than the potential for causing minimal harm.

a. The department shall specify the reasons for the conditional certificate in the notice issuing the conditional certificate.

b. The department may place conditions upon a certificate, such as requiring additional training; restriction of the program from accepting additional tenants for a period of time; or any other action or combination of actions deemed appropriate by the department.

c. Failure by the program to adhere to the plan of correction or conditions placed on the certificate may result in suspension or revocation of the conditional certification and may result in further enforcement action as available under applicable requirements.

d. A program must be in substantial compliance with applicable requirements before the removal of a conditional certificate by the department. Prior to lifting a conditional certificate, the department may conduct a monitoring to verify substantial compliance. Once the program is in substantial compliance with applicable requirements, the department shall lift the conditional certificate.

67.16(2) Appeal of conditional certificate. A written request for hearing must be received by the department within 30 days after the mailing or service of notice. The conditional certificate shall not be suspended pending the hearing. Hearings shall be conducted by the administrative hearings division of the department of inspections and appeals pursuant to Iowa Code chapter 17A and 481—Chapter 9.

481—67.17(17A,231B,231C,231D) Civil penalties.

67.17(1) When civil penalties may be issued. Civil penalties may be issued when the director finds that any of the following has occurred:

a. A program that does not comply with applicable requirements and the noncompliance results in imminent danger or a substantial probability of resultant death or physical harm to a tenant may be assessed a civil penalty of not more than \$10,000.

b. A program that continues to fail or refuses to comply with applicable requirements within prescribed time frames established by the department or approved by the department in the program's plan of correction and the noncompliance has a direct relationship to the health, safety, or security of tenants may be assessed a civil penalty of not more than \$5,000.

c. A program that prevents, interferes with or attempts to impede in any way any duly authorized representative of the department in the lawful enforcement of applicable requirements may be assessed a civil penalty of not more than \$1,000.

d. A program that discriminates or retaliates in any way against a tenant, tenant's family, or an employee of the program who has initiated or participated in any proceeding authorized by Iowa Code

chapter 231B, 231C or 231D and the corresponding administrative rules may be assessed a civil penalty of not more than \$5,000.

67.17(2) *Duplicate civil penalties prohibited.* The department shall not impose duplicate civil penalties on a program for the same set of facts and circumstances.

67.17(3) *Factors in determining the amount of a civil penalty.* The department shall consider the following factors when determining the amount of a civil penalty:

a. The frequency and length of time the regulatory insufficiency occurred (i.e., whether the regulatory insufficiency was an isolated or a widespread occurrence, practice, or condition);

b. The past history of the program as it relates to the nature of the regulatory insufficiency (the department shall not consider more than the current certification period and the immediately previous certification period);

c. The culpability of the program as it relates to the reasons the regulatory insufficiency occurred;

d. The extent of any harm to the tenants or the effect on the health, safety, or security of the tenants which resulted from the regulatory insufficiency;

e. The relationship of the regulatory insufficiency to any other types of regulatory insufficiencies which have occurred in the program;

f. The actions of the program after the occurrence of the regulatory insufficiency, including when corrective measures, if any, were implemented and whether the program notified the director as required;

g. The accuracy and extent of records kept by the program which relate to the regulatory insufficiency, and the availability of such records to the department;

h. The rights of tenants to make informed decisions;

i. Whether the program made a good-faith effort to address a high-risk tenant's specific needs and whether the evidence substantiates this effort.

67.17(4) *Civil penalties due.* The civil penalty shall be paid to the department within 30 days following the program's receipt of the final report and demand letter. The program may appeal in accordance with rule 481—67.14(17A,231C,85GA,SF394). If the program appeals, the civil penalty shall be deemed suspended until the appeal is resolved.

481—67.19(135C,231B,231C,231D) Criminal, dependent adult abuse, and child abuse record checks.

67.19(1) *Definitions.* The following definitions apply for the purposes of this rule.

"Background check" or *"record check"* means criminal history, child abuse and dependent adult abuse record checks.

"Comprehensive preliminary background check" means a criminal history check of all states in which the applicant has worked or resided over the seven-year period immediately prior to submitting an application for employment that is conducted by an approved third-party vendor.

"Direct services" means services provided through person-to-person contact. "Direct services" excludes services provided by individuals such as building contractors, repair workers, or others who are in a program for a very limited purpose, who are not in the program on a regular basis, and who do not provide any treatment or services for residents, patients, tenants, or participants of the provider.

“Employed in a program” or “employment within a program” means all of the following, if the provider is regulated by the state or receives any federal or state funding:

1. An employee of an assisted living program certified under Iowa Code chapter 231C, if the employee provides direct services to consumers;
2. An employee of an elder group home certified under Iowa Code chapter 231B, if the employee provides direct services to consumers;
3. An employee of an adult day services program certified under Iowa Code chapter 231D, if the employee provides direct services to consumers.

“Employee” means any individual who is paid, either by the program or any other entity (i.e., temporary agency, private duty, Medicare/Medicaid or independent contractors).

“Evaluation” means review by the department of human services to determine whether a founded child abuse, dependent adult abuse or criminal conviction warrants the person’s being prohibited from employment in a program.

“Indirect services” means services provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance.

“Program,” for purposes of this rule, means all of the following, if the provider is regulated by the state or receives any federal or state funding:

1. An assisted living program certified under Iowa Code chapter 231C;
2. An elder group home certified under Iowa Code chapter 231B; and
3. An adult day services program certified under Iowa Code chapter 231D.

67.19(2) *Explanation of “crime.”* For purposes of this rule, the term “crime” does not include offenses under Iowa Code chapter 321 classified as simple misdemeanor or equivalent simple misdemeanor offenses from another jurisdiction.

67.19(3) *Requirements for employer prior to employing an individual.* Prior to employment of a person in a program, the program shall complete the background check requirements set forth below.

a. Informing the prospective employee. A program shall ask each person seeking employment by the program, “Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime other than a simple misdemeanor offense relating to motor vehicles and laws of the road under Iowa Code chapter 321 or equivalent provisions in this state or any other state?” The person shall also be informed that a background check will be conducted. The person shall indicate, by signature, that the person has been informed that the background check will be conducted.

b. Conducting a background check. The program shall either request that the department of public safety perform a criminal history check and that the department of human services perform child and dependent adult abuse record checks of the person in this state, or access the single contact repository (SING) to perform the required background check. If the SING is used, the program shall submit the person’s maiden name, if applicable, with the background check request.

c. If a person considered for employment has been convicted of a crime. If a person being considered for employment in a program has been convicted of a crime under a law of any state, the program shall request that the department of human services perform an evaluation to determine whether the crime warrants prohibition of the person’s employment in the program.

d. If a person considered for employment has a record of founded child abuse or dependent adult abuse. If a person being considered for employment in a program has a record of founded child or dependent adult abuse under the law of any state, the program shall request that the department of human services perform an evaluation to determine whether the founded child or dependent adult abuse warrants prohibition of employment in the program.

e. Employment pending evaluation. The program may provisionally employ a person prior to completion of the required record check and evaluation by the department of human services, as applicable, subject to all of the following:

- (1) The program shall have accessed SING to perform the required record check and be awaiting results from SING or awaiting evaluation by the department of human services, as applicable;
- (2) If applicable, the program shall request an evaluation by the department of human services in accordance with paragraph 67.19(3) “c” or “d” within 30 days of receipt of the SING record check results;

(3) The program shall have utilized an approved third-party vendor to perform a comprehensive preliminary background check;

(4) If the comprehensive preliminary background check determines that the person being considered for employment has been convicted of a crime, the crime does not constitute a felony as defined in Iowa Code section 701.7 and is not a crime specified pursuant to Iowa Code chapter 708, 708A, 709, 709A, 710, 710A, 711, or 712 or pursuant to Iowa Code section 726.3, 726.7, or 726.8;

(5) The comprehensive preliminary background check shall have determined that the person being considered for employment does not have a record of founded child abuse or dependent adult abuse, or, if the person being considered for employment does have a record of founded child abuse or dependent adult abuse, subrule 67.19(8) is applicable; and

(6) The provisional employment may continue until such time as the required record check through SING and evaluation by the department of human services, as applicable, are completed.

67.19(4) *Validity of background check results.* The results of a background check conducted pursuant to this rule shall be valid for a period of 30 calendar days from the date the results of the background check are received by the program.

67.19(5) *Employment prohibition.* Except as provided in paragraph 67.19(3)“e,” a person who has committed a crime or has a record of founded child or dependent adult abuse shall not be employed in a program unless an evaluation has been performed by the department of human services.

67.19(6) *Transfer of an employee to another program owned or operated by the same person.* If an employee transfers from one program to another program owned or operated by the same person, without a lapse in employment, the program is not required to request additional criminal and child and dependent adult abuse record checks of that employee.

67.19(7) *Transfer of ownership of a program.* If the ownership of a program is transferred, at the time of transfer the background check required by this rule shall be performed for each employee for whom there is no documentation that such background check has been performed. The program may continue to employ such employee pending the performance of the background check and any related evaluation.

67.19(8) *Change of employment—person with criminal or abuse record—exception to record check evaluation requirements.* A person with a criminal or abuse record who is or was employed by a certified program and is hired by another certified program shall be subject to the background check.

a. A reevaluation of the latest record check is not required, and the person may commence employment with the other certified program if the following requirements are met:

(1) The department of human services previously performed an evaluation concerning the person’s criminal or abuse record and concluded the record did not warrant prohibition of the person’s employment;

(2) The latest background check does not indicate a crime was committed or founded abuse record was entered subsequent to the prior evaluation;

(3) The position with the subsequent employer is substantially the same or has the same job responsibilities as the position for which the previous evaluation was performed;

(4) Any restrictions placed on the person’s employment in the previous evaluation by the department of human services and still applicable shall remain applicable in the person’s subsequent employment; and

(5) The person subject to the background check has maintained a copy of the previous evaluation and provided it to the subsequent employer, or the previous employer provides the previous evaluation from the person’s personnel file pursuant to the person’s authorization. If a physical copy of the previous evaluation is not provided to the subsequent employer, a current record check evaluation shall be performed.

b. For purposes of this subrule, a position is “substantially the same or has the same job responsibilities” if the position requires the same certification, licensure, or advanced training. For example, a licensed nurse has substantially the same or the same job responsibilities as a director of nursing; a certified nurse aide does not have substantially the same or the same job responsibilities as a licensed nurse.

c. The subsequent employer must maintain the previous evaluation in the employee’s personnel file for verification of the exception to the requirement for a record check evaluation.

d. The subsequent employer may request a reevaluation of the background check and may employ the person while the reevaluation is being performed, even though an exemption under paragraph 67.19(8) “a” may be authorized.

67.19(9) *Employee notification of criminal convictions or founded abuse after employment.* If a person employed by an employer that is subject to this rule is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the person’s employment application date, the person shall inform the employer of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

a. The employer shall act to verify the information within seven calendar days of notification. “Verify,” for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the program shall follow the requirements of paragraphs 67.19(3) “c” and “d.”

c. The employer may continue to employ the person pending the performance of an evaluation by the department of human services.

d. A person who is required by this subrule to inform the person’s employer of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

e. The employer may notify the county attorney for the county where the employer is located of any violation or failure by an employee to notify the employer of a criminal conviction or entry of an abuse record within the period required under this subrule.

67.19(10) *Program receipt of credible information that an employee has been convicted of a crime or founded for abuse.* If the program receives credible information, as determined by the program, from someone other than the employee, that the employee has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after employment, and the employee has not informed the employer of the information within the time required by subrule 67.19(9), the program shall take the following actions:

a. The program shall act to verify credible information within seven calendar days of receipt. “Verify,” for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the program shall follow the requirements of paragraphs 67.19(3) “c” and “d.”

67.19(11) *Proof of background checks for temporary employment agencies and contractors.* Proof of background checks may be kept in the files maintained by temporary employment agencies and contractors. Facilities may require temporary employment agencies and contractors to provide a copy of the result of the background checks. Copies of such results shall be made available to the department upon request.

This rule is intended to implement Iowa Code sections 231B.2(1), 231C.3(1), 231D.2(2), and 135C.33 and 2020 Iowa Acts, Senate File 2299.

68.13(1) *Evaluation prior to occupancy.* A program shall evaluate each prospective tenant's functional, cognitive and health status prior to the tenant's signing the occupancy agreement and becoming a household occupant to determine the tenant's eligibility for the program, including whether the services needed are available. The cognitive evaluation shall utilize a scored, objective tool. 481—68.15(231B) Involuntary transfer from the program.

68.15(1) *Program initiation of transfer.* If a program initiates the involuntary transfer of a tenant and the action is not the result of a monitoring, including a complaint investigation or program-reported incident investigation, by the department and if the tenant or tenant's legal representative contests the transfer, the following procedures shall apply:

- a. The program shall notify the tenant or tenant's legal representative, in accordance with the occupancy agreement, of the need to transfer the tenant and of the reason for the transfer and shall include the contact information for the tenant advocate.
- b. The program shall immediately provide to the tenant advocate, by certified mail, a copy of the notification and notify the tenant's treating physician, if any.

68.15(2) *Transfer pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more tenants are identified as exceeding the admission and retention criteria for tenants and need to be transferred as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply:

- d. *Program disagreement with the department's finding.* If the program does not agree with the department's finding that the tenant exceeds admission and retention criteria, the program may collect and submit all responses to the department, including those from other interested parties. In the program's

response, the program shall identify the tenant, list the known responses from others, and note the program's agreement or disagreement with the responses from others. The program's response shall be submitted to the department within 10 working days of the receipt of the notice. Submission of a response does not eliminate the applicable requirements including submission of a plan of correction under 481—subrule 67.10(5). Other persons may also submit information directly to the department.

(1) Consideration of response. Within 10 working days of receipt of the program's response for each identified tenant, the department shall consider the response and make a final finding regarding the continued retention of a tenant.

(2) Amending the regulatory insufficiency. If the department's determination is to amend the regulatory insufficiency based on the response, the department shall modify the report of findings.

(3) Retaining regulatory insufficiency. If the department retains the regulatory insufficiency, the department shall review the plan of correction in accordance with this chapter and 481—Chapter 67. The department shall notify the program of the opportunity to appeal the report findings as they relate to the admission and retention decision. In addition, the department shall provide to the tenant or the tenant's legal representative the contact information for the tenant advocate. A copy of the final report shall also be sent to the tenant advocate.

(4) Effect of the filing of an appeal. If an appeal is filed, the tenant who exceeds admission and retention criteria shall be allowed to continue living in the EGH until all administrative appeals have been exhausted. c. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained. For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

“Accredited” means that the program has received accreditation from an accreditation entity recognized in subrule 69.14(1).

“Applicable requirements” means Iowa Code chapter 231C, this chapter, and 481—Chapter 67 and includes any other applicable administrative rules and provisions of the Iowa Code.

“Assisted living” or *“program”* means provision of housing with services, which may include but are not limited to health-related care, personal care, and assistance with instrumental activities of daily living, to three or more tenants in a physical structure which provides a homelike environment. “Assisted living” also includes encouragement of family involvement, tenant self-direction, and tenant participation in decisions that emphasize choice, dignity, privacy, individuality, shared risk, and independence. “Assisted living” includes the provision of housing and assistance with instrumental activities of daily living only if personal care or health-related care is also included. “Assisted living” includes 24 hours per day response staff to meet scheduled and unscheduled or unpredictable needs in a manner that promotes maximum dignity and independence and provides supervision, safety, and security.

“CARF” means the Commission on Accreditation of Rehabilitation Facilities.

“Change of ownership” means the purchase, transfer, assignment or lease of a certified assisted living program and includes a change in the management company responsible for the day-to-day operation of the program, if the management company is ultimately responsible for any enforcement action taken by the department.

“Cognitive disorder” means a disorder characterized by cognitive dysfunction presumed to be the result of illness that does not meet the criteria for dementia, delirium, or amnesic disorder.

“Dementia-specific assisted living program” means an assisted living program certified under this chapter that:

1. Serves fewer than 55 tenants and has 5 or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale, or
2. Serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the Global Deterioration Scale, or
3. Holds itself out as providing specialized care for persons with dementia, such as Alzheimer’s disease, in a dedicated setting.

“Dwelling unit” means a single unit which provides complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping and sanitation, and which may include permanent provisions for eating and cooking. “Sanitation” for purposes of this definition means bathroom fixtures as required by this chapter.

“In the proximate area” means located within a five minutes or less response time.

481—69.2(231C) Program certification. A program may obtain certification by meeting all applicable requirements. In addition, a program may be voluntarily accredited by a recognized accreditation entity. For the purpose of these rules, certification is equivalent to licensure.

69.2(3) Dementia-specific program by definition. If a program meets the definition of a dementia-specific assisted living program during two sequential certification monitorings based on the number of tenants served who have dementia between Stages 4 and 7 on the Global Deterioration Scale, the program shall be deemed a dementia-specific program by definition. If the number of tenants served who have dementia between Stages 4 and 7 on the Global Deterioration Scale goes below that which is required by the definition of dementia-specific program at any time after the program has been deemed dementia-specific by definition and the program is not holding itself out as providing dementia care in a specialized setting, the program will no longer be considered dementia-specific.

481—69.22(231C) Evaluation of tenant.

69.22(1) *Evaluation prior to occupancy.* A program shall evaluate each prospective tenant's functional, cognitive and health status prior to the tenant's signing the occupancy agreement and taking occupancy of a dwelling unit in order to determine the tenant's eligibility for the program, including whether the services needed are available. The cognitive evaluation shall utilize a scored, objective tool. When the score from the cognitive evaluation indicates moderate cognitive decline and risk, the Global Deterioration Scale (GDS) shall be used at all subsequent intervals, if applicable. If the tenant subsequently returns to the tenant's mildly cognitively impaired state, the program may discontinue the GDS and revert to a scored cognitive screening tool. The evaluation shall be conducted by a health care professional or a human service professional.

69.22(2) *Evaluation within 30 days of occupancy.* A program shall evaluate each tenant's functional, cognitive and health status within 30 days of occupancy. 481—69.24(231C) Involuntary transfer from the program.

69.24(1) *Program initiation of transfer.* If a program initiates the involuntary transfer of a tenant and the action is not the result of a monitoring, including a complaint investigation or program-reported incident investigation, by the department and if the tenant or tenant's legal representative contests the transfer, the following procedures shall apply:

- a. The program shall notify the tenant or tenant's legal representative, in accordance with the occupancy agreement, of the need to transfer the tenant and of the reason for the transfer and shall include the contact information for the office of long-term care ombudsman.
- b. The program shall immediately provide to the office of long-term care ombudsman, by certified mail, a copy of the notification and notify the tenant's treating physician, if any.

The tenant or tenant's legal representative is not required to accept the assistance of the office of long-term care ombudsman.
- d. If, following the internal appeal process, the program upholds the transfer decision, the tenant or tenant's legal representative may utilize other remedies authorized by law to contest the transfer.

69.24(2) *Transfer pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more tenants are identified as exceeding the admission and retention criteria for tenants and need to be transferred as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply:

- b. *Program disagreement with the department's finding.* If the program does not agree with the department's finding that the tenant exceeds admission and retention criteria, the program may appeal the department's final report as provided in rule 481—67.14(17A,231B,231C,231D,85GA,HF2365). If an appeal is filed, the tenant who exceeds admission and retention criteria shall be allowed to continue living at the program until all administrative appeals have been exhausted. Appeals filed that relate to the tenant's exceeding admission and retention criteria shall be heard within 30 days of receipt, and appropriate services to meet the tenant's needs shall be provided during that period of time.
- c. *Request for waiver of criteria for retention of a tenant in a program.* To allow a tenant to remain in the program, the program may request a waiver of criteria for retention of a tenant pursuant to rule 481—67.7(231B,231C,231D) from the department within 10 working days of the receipt of the report.

The service plan shall subsequently be updated at least annually and whenever changes are needed.

69.26(2) Prior to the tenant's signing the occupancy agreement and taking occupancy of a dwelling unit, a preliminary service plan shall be developed by a health care professional or human service professional in consultation with the tenant and, at the tenant's request, with other individuals identified by the tenant, and, if applicable, with the tenant's legal representative. All persons who develop the plan and the tenant or the tenant's legal representative shall sign the plan.

69.26(3) When a tenant needs personal care or health-related care, the service plan shall be updated within 30 days of the tenant's occupancy and as needed with significant change, but not less than annually.

a. If a significant change triggers the review and update of the service plan, the updated service plan shall be signed and dated by all parties.

b. If a significant change does not exist, the program may, after nurse review, add minor discretionary changes to the service plan without a comprehensive evaluation and without obtaining signatures on the service plan.

c. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained. For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

d. The service plan updated within 30 days of the tenant's occupancy shall be signed and dated by all parties.

e. The service plan shall be reviewed, updated if necessary, and signed and dated by all parties at least annually.

69.26(4) The service plan shall be individualized and shall indicate, at a minimum:

481—69.27(231C) Nurse review.

69.27(1) If a tenant does not receive personal or health-related care, but an observed significant change in the tenant's condition occurs, a nurse review shall be conducted. If a tenant receives personal or health-related care, the program shall provide for a registered nurse:

- a. To monitor, at least every 90 days, or after a significant change in the tenant's condition, any tenant who receives program-administered prescription medications for adverse reactions to the medications and to make appropriate interventions or referrals, and to ensure that the prescription medication orders are current and that the prescription medications are administered consistent with such orders; and
- b. To ensure that health care professionals' orders are current for tenants who receive health care professional-directed care from the program; and
- c. To assess and document the health status of each tenant, to make recommendations and referrals as appropriate, and to monitor progress relating to previous recommendations at least every 90 days and whenever there are changes in the tenant's health status; and
- d. To provide the program with written documentation of the nurse review, showing the time, date and signature.

69.27(2) A licensed practical nurse via nurse delegation may complete the tasks required by this rule, except when a tenant experiences a significant change in condition.

Another program may be substituted if the program's curriculum includes substantially similar competencies to a program that meets the requirements of the Food Code and the provider of the program files with the department a statement indicating that the program provides substantially similar instruction as it relates to sanitation and safe food handling.

b. If the person is in the process of completing a course or certification listed in paragraph "a," the requirement relating to completion of a state-approved food protection program shall be considered to have been met.

69.28(6) Programs engaged in the preparation and service of meals and snacks shall meet the standards of state and local health laws and ordinances pertaining to the preparation and service of food and shall be licensed pursuant to Iowa Code chapter 137F. The department will not require the program to be licensed as a food establishment if the program limits food activities to the following:

a. All main meals and planned menu items must be prepared offsite and transferred to the program kitchen for service to tenants.

b. Baked goods that do not require temperature control for safety and single-service juice or milk may be stored in the program's kitchen and provided as part of a continental breakfast.

d. Appropriately trained staff may prepare in the program's kitchen individual quantities of tenant-requested menu-substitution food items that require limited or no preparation, such as peanut butter or cheese sandwiches or a single-service can of soup. The food items necessary to prepare the menu substitution may be stored in the program's kitchen. These food items may not be cooked in the program's kitchen but may be reheated in a microwave. A two- or four-slice toaster may be used for tenant-requested menu-substitution items, but no bare-hand contact is permitted.

e. Tenants may take food items left over from a meal back to their apartments. The program may not store leftovers in the program's kitchen.

f. Warewashing may be done in the program's kitchen as long as the program utilizes a commercial dishwasher and documents daily testing of sanitizer chemical ppm and proper water temperatures. Verification by the department of these practices may be conducted during on-site visits.

69.28(7) Programs may have an on-site dietitian. Programs may secure menus and a dietitian through other methods.

69.28(8) All perishable or potentially hazardous food shall be cooked to recommended temperatures and held at safe temperatures of 41°F (5°C) or below, or 135°F (57°C) or above.

481—70.24(231D) Involuntary discharge from the program.

70.24(1) *Program initiation of discharge.* If a program initiates the involuntary discharge of a participant and the action is not the result of a monitoring, including a complaint investigation or program-reported incident investigation, by the department and if the participant or participant's legal representative contests the discharge, the following procedures shall apply:

If the program does not agree with the department's finding that the participant exceeds admission and retention criteria, the program may collect and submit all responses to the department, including those from other interested parties. In the program's response, the program shall identify the participant, list the known responses from others, and note the program's agreement or disagreement with the responses from others. The program's response shall be submitted to the department within 10 working days of the receipt of the notice. Submission of a response does not eliminate the applicable requirements, including submission of a plan of correction under 481—subrule 67.10(5). (4) Effect of the filing of an appeal. If an appeal is filed, the participant who exceeds admission and retention criteria shall be allowed to continue to participate in the program until all administrative appeals have been exhausted. Appeals filed that relate to the participant's exceeding admission and retention criteria shall be heard within 30 days of receipt, and appropriate services to meet the participant's needs shall be provided during that period of time.

(5) Request for waiver of criteria for retention of a participant in a program. To allow a participant to continue to participate in the program, the program may request a waiver of criteria for retention of a participant pursuant to rule 481—67.7(231B,231C,231D) from the department within 10 working days of the receipt of the report.

b. If a significant change does not exist, the program may, after nurse review, add minor discretionary changes to the service plan without a comprehensive evaluation and without obtaining signatures on the service plan.

c. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained. For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

c. Review of contracts—notification. The applicant shall submit to the department for review at the time of application the base contract intended for use with qualified organizations. For the duration of the license, the licensee shall notify the department each time the licensee enters into a contract with a qualified organization by submitting in writing the name of the qualified organization and the duration of the contract. The required notification will allow the department to verify that the qualified organization holds a valid two-year qualified organization license, which permits the conduct of an electronic raffle.

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—103.1(99B) Definitions. In addition to definitions found in Iowa Code chapter 99B and in rule 481—100.1(99B), the following definitions apply to all qualified organizations where bingo is played.

"Cash" means any legal tender of the United States.

"Category" means the name given to a particular type of playing face to distinguish one from another.

"Limited license" means a 14-day license issued only to a qualified organization. There are no limits on the number of games played or occasions held, except that only two bingo occasions may be held during the period of 14 days, with no limit on the number of bingo games or the number of hours played during each designated bingo day.

"Playing face" means the grid on which a player marks numbers and letters called as the game progresses.

[ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.2(99B) License.

103.2(1) License required—exception. A license is required in order to conduct a bingo occasion unless all of the following requirements are met:

- a. Participants in the bingo occasion are not charged to enter the premises where bingo is conducted.
- b. Participants in the bingo occasion are not charged to play.
- c. Any prize awarded at the bingo occasion is donated.
- d. The bingo occasion is conducted as an activity and not for fundraising purposes.

103.2(2) Location. Bingo occasions are restricted to the location for which application is made by the qualified organization and approved by the department. For good cause, a license may be transferred to a different location only after written notice by the licensee and approval by the department. "Good cause," for purposes of this subrule, may include flood, fire or other natural disasters; sale of the building; or nonrenewal of lease.

103.2(3) Application. Before any organization may conduct bingo, a license application must be approved by the department. Application and license requirements are found in rules 481—100.3(99B), 481—100.4(99B), and 481—100.5(99B).

103.2(4) Examples. The following are examples of circumstances affecting whether a license is granted.

a. Qualified organization ABC applies for and is issued a two-year qualified organization license to conduct bingo at 1002 West 2nd Avenue in Jones Town, Iowa. The license is effective from October 1, 2017, to September 30, 2019. On November 15, 2017, qualified organization EFG applies for a two-year qualified organization license for the same location. A license may be issued to organization EFG for the same location during the same period to conduct any games of chance, games of skill or raffles. Organization EFG shall not conduct bingo at the location.

b. Hometown Community School applies for and is issued a two-year qualified organization license to conduct games of skill, games of chance and raffles at the grade school building. The license is effective from September 1, 2017, to August 31, 2019. During the time that the Hometown Community School license is in effect, the school-sponsored pep club applies for a 14-day limited license to conduct games of skill at the grade school building. The school-sponsored pep club may be issued a limited license for the same location during the same time. Under this example, the school-sponsored pep club would not be required to obtain a separate license, because school-affiliated organizations may operate separate events under a school's two-year license.

[ARC 4014C, IAB 9/26/18, effective 10/31/18; ARC 6976C, IAB 4/5/23, effective 5/10/23]

481—103.3(99B) Bingo occasion. A qualified organization may conduct only 3 bingo occasions per week, but not more than 15 occasions per month, under a two-year qualified organization license. A week starts on Sunday and ends on Saturday. At the end of each occasion, the person conducting the games shall announce both the gross receipts and the use to which the net receipts will be dedicated and distributed.

[ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.4(99B) Game of bingo. Each game shall meet all of the requirements of the definition of “bingo” in Iowa Code section 99B.1(4) to be a legal game of bingo. Games ordinarily considered bingo may be played.

103.4(1) A fair and legal game shall meet at least all of the following criteria:

- a. Concealed numbers on a playing face are not allowed.
- b. The game requires an announcer or caller.
- c. Numbers shall be announced so all players can hear clearly.
- d. A free space or spaces are allowed.
- e. The game proceeds as the caller selects and announces the numbers. If a caller miscalls a number or misreads a ball, only the number on the ball may be used. Miscalled numbers are invalid.
- f. Rules established by the licensee may require that a player have the last number called for a bingo. If not posted in the rules established by the licensee, the player is not required to have the last number called.
- g. Each game ends when it is determined that a player has covered the announced pattern of spaces. The caller or another worker shall verify the numbers on winning cards. The caller checks for additional bingos and officially closes the game.

h. Wild numbers are allowed, but must be chosen using a random selection method.

103.4(2) Any player may request that all numbers drawn and all numbers not drawn be verified when the winning card or cards are verified. Numbers shall be verified in the presence of the member in charge and the caller. The player who requested verification may observe the count.

103.4(3) The cost to play each game shall not exceed \$5. Cards or games may be sold only within the premises of the bingo occasion. The cost for each packet, playing face, or tear sheet shall be the same for each participant, i.e., the cost for an opportunity to play shall be equal. Players may pay for games with cash, personal check, money order, bank check, cashier’s check, electronic check, or debit card.

- a. All cards or games shall be assigned a price.
- b. The price shall be posted. Cards may be sold only for the posted price.
- c. Free games shall not be given. Free games include gift cards redeemable for games. This paragraph does not prohibit giving free concession items such as food, beverages or daubers.

103.4(4) Cards for each category shall be distinctly marked. Each shall be easy to distinguish from all others.

- a. Bingo games or cards may be printed on only one side.
- b. In each game, the bingo operator must ensure that duplicate playing faces are not sold.

[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.5(99B) State rules and rules established by the licensee. Iowa administrative rules and rules established by the licensee must be readily available to every bingo player.

103.5(1) A copy of these rules, 481—Chapter 103, “Bingo,” shall be maintained at every bingo location during every bingo occasion. Bingo players who request it shall have the opportunity to read the administrative rules.

103.5(2) Rules established by the licensee shall be posted on a sign near the front of the playing area.

- a. Rules shall be in large, easily readable print and shall include:
 - (1) The name and mailing address of the licensee;
 - (2) Prices to play; and
 - (3) Rules established by the licensee for the game.
- b. Rules established by the licensee shall include how to indicate “bingo” to halt the game, how to collect a prize, and how the licensee will verify winners’ names and addresses.

c. Rules established by the licensee may include rules related to reserved seating and age restrictions for children to play.

103.5(3) The following information shall be correctly posted before the beginning of each bingo occasion and shall not be changed after the bingo occasion begins:

- a. Description of each game to be played;
- b. Price of each game;
- c. Prize for each game or method for determining the prize for each game; and
- d. Jackpot rules, if any.

EXAMPLE: Single bingo \$1 per game, \$50 payout.

[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.6(99B) Prizes. Cash or merchandise prizes awarded for each game shall not exceed \$250 in value. Jackpot games are excepted and are governed by standards in subrule 103.6(5). The exact amount of the prize shall be announced before the beginning of each game.

103.6(1) Prizes shall be recorded each occasion on the daily bingo summary (see Table A¹) as they are paid by listing the number of the game; the pattern required to win; the type, color, and series of cards used in the game; and the amount of the prize. The name, address, and social security number of each jackpot winner is required.

NOTE: Prizes of more than \$600 require the deduction of 5 percent withholding taxes. See paragraph 103.6(5) “g.”

103.6(2) Prizes awarded in games with more than one winner shall be shared equally. It is permissible to round up or down, provided doing so does not exceed the maximum payout for that particular game.

Examples of prizes awarded in games with more than one winner:

1. Two winners with a total of three bingos: Player 1 has two bingos in separate squares, and Player 2 has one bingo in one square. Player 1 receives 2/3 of the prize, and Player 2 receives 1/3 of the prize.
2. Multiple winners equally splitting a prize with rounding to the nearest dollar: Six players all win the single \$250 prize. The appropriate payout is \$41.66 each, but rounding to the nearest dollar (\$42) for each winner would result in a payout of \$252, in violation of the maximum payout for a nonjackpot bingo game.

103.6(3) An animal shall not be awarded as a prize for persons participating in a game or fair event.

103.6(4) A player shall not be required to return cash or a merchandise prize won in one game in order to play a subsequent game.

103.6(5) No more than two jackpot games may be played during a 24-hour period as follows:

- a. An organization is limited to two jackpot games.
- b. The jackpot starting prize shall not exceed \$500 in cash or actual retail value of merchandise.
- c. The jackpot prize shall not increase more than \$200 after each jackpot game. The maximum prize shall not be greater than \$1,000 for the first jackpot game and shall not be greater than \$2,500 for the second jackpot game.
- d. The jackpot prize shall not decrease until it is won.
- e. If a jackpot is not won in the specified number of calls, the game reverts to a regular game with a prize of \$250 or less.
- f. Each jackpot game shall begin again at no more than \$500.
- g. Cash prizes over \$600 require the deduction of 5 percent withholding taxes. This tax is to be withheld by the organization conducting the game. The amount deducted shall be remitted to the Iowa department of revenue on behalf of the prize winner.

This rule is intended to implement Iowa Code sections 99B.21, 422.16 and 717D.2.

[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

¹ See forms at end of this chapter.

481—103.7(99B) Workers.

103.7(1) Each organization must have a responsible party listed on the application. The responsible party must be an active member of the organization and should be familiar with the requirements of the Iowa law and be aware of the bingo activities of the organization.

103.7(2) Volunteers must be actively participating members of the licensed organization or must participate in an organization to which money will be dedicated.

103.7(3) Paid workers shall not play during a bingo occasion in which they work. Persons conducting bingo shall not play during any bingo occasion conducted by the qualified organization for which they work. A person conducting bingo includes: persons overseeing the bingo games, persons controlling and accounting for the bingo occasion's net receipts, persons directing the work of bingo workers, and any persons having management or oversight responsibilities.

103.7(4) A person receiving rent for a bingo location, either directly or indirectly, shall not be involved in, participate in, or be associated with the operation of bingo games.

103.7(5) Anyone who sells bingo equipment or supplies to a bingo licensee shall not work for that licensee during a bingo occasion.

[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.8(99B) Expenses. Expenses incurred exclusively and directly as a result of bingo shall not exceed 40 percent of net receipts. Reasonable expenses within the 40 percent limit are:

1. The license fee;
2. Withholding, unemployment or social security taxes;
3. Promotion cost;
4. Equipment and supply purchases;
5. Rent for bingo occasion;
6. Utilities for bingo occasion; and
7. Wages paid for bingo workers.

Expense items are allowed only when receipts or a paid invoice and canceled check are available for review by the department.

103.8(1) When the annual gross exceeds \$10,000, expenses shall be paid from a bingo checking account. The licensee shall prove that all expenses were incurred exclusively and directly as a result of bingo.

103.8(2) Expenses are not reasonable if the amount charged substantially exceeds the current rate or average retail cost of items or services purchased.

[ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.9(99B) Location. Bingo occasions may be conducted on premises either owned or leased by the qualified organization.

1. All buildings in which bingo occasions are conducted must meet state or local standards for occupancy and safety.

481—104.1(10A,99B) Definitions. Definitions in rule 481—100.1(10A,99B) and 481—105.1 (10A,99B) are incorporated by reference in this chapter.

The following definitions apply to the possession and use of amusement devices.

“Amusement device” means an electrical or mechanical device possessed and used in accordance with Iowa Code chapter 99B. An amusement device is not a game of skill or chance as defined in Iowa Code section 99B.1, a gambling device, or a device that plays poker, blackjack, or keno. Roulette wheels, slot machines, and other devices specified in Iowa Code section 725.9 as gambling devices are not amusement devices.

“Gambling device” means a device possessed or used or designed to be used for gambling and includes, but is not limited to, roulette wheels, klondike tables, punchboards, faro layouts, keno layouts, numbers tickets, slot machines, pachislo skill-stop machine or any other similar machine or device, push cards, jar tickets, pull-tabs, and video machines or other devices that do not comply with Iowa Code chapter 99B.

“Knock-off switch” means a mechanism or other method that releases free games or credits accumulated toward the award of merchandise.

“Prize” means a ticket(s) or token(s) that is dispensed by an amusement device as an award for use and that is worth up to \$50 in merchandise.

“Progressive games” means games in which the value of the prizes increases an incremental amount with each game.

“Slot machine” means a mechanical, electronic, or video gambling device into which a player deposits coins, tokens or currency and from which certain credits, tickets, tokens or coins are paid out when a particular, random configuration of symbols appears on the reels, simulated reels, or screen of the device. The slot machine may have a lever, buttons, or other means to activate or stop the play.

[ARC 1930C, IAB 4/1/15, effective 5/6/15; ARC 4015C, IAB 9/26/18, effective 10/31/18]

481—104.2(99B) Device restrictions. An amusement device, except for an amusement device which shall be registered pursuant to Iowa Code section 99B.53, may be owned, possessed, or offered for use by any person at any location. All amusement devices shall comply with all of the following:

1. The device must be electrical, which includes both electronic and video, or mechanical, or a combination of both.
2. The device shall not be designed or adapted to issue or pay coins or currency.
3. The device may be designed or adapted to award free games without additional consideration.
4. The device may be designed or adapted to award merchandise or tickets or tokens redeemable for merchandise not to exceed a retail value of more than \$50 per play or game.
5. The device may be designed or adapted to issue tickets or tokens, but not coins or currency. However, the device shall not be designed or adapted to issue tickets or tokens that may be used to play any device or game.
6. The device shall not have a “knock-off” switch to release either free games or credits awarded by the device. However, credits may be released by the insertion of coins, currency, or tokens to activate a new game. Free games may only be utilized for playing the device and may not be released in any other manner.
7. The device shall not be capable of being altered to enable a person using the device to increase or decrease the chances to win a game or other prize by paying more than is ordinarily required to play the game.
8. The device must be designed or adapted to accept only coins, currency, or tokens to play the game. However, the device shall not be designed or adapted to accept tokens that have been awarded as a prize.
9. The device must be registered if it meets the registration requirements set forth in Iowa Code section 99B.53 and rule 481—104.5(99B).

[ARC 1930C, IAB 4/1/15, effective 5/6/15; ARC 4015C, IAB 9/26/18, effective 10/31/18]

104.7(2) *Written evaluation—requirements.* The independent gaming laboratory's evaluation must analyze whether chance plays a role equal to or greater than the players' skill or knowledge in determining

the outcome of the game. “Outcome of the game” includes both whether the player correctly solves the puzzle and what prize is awarded.

CHAPTER 105 REGISTERED AMUSEMENT DEVICES

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—105.1(10A,99B) Definitions. The definitions in rule 481—104.1(10A,99B) are incorporated by reference in this chapter. In addition, the following definitions apply to the possession and use of registered amusement devices.

“Amusement device registration availability” means a registration position which becomes available:

1. When a distributor or owner:
 - Is going out of business,
 - Fails to renew a registration by the renewal due date, or
 - Has an electrical or mechanical device seized by law enforcement and the seizure is upheld through a forfeiture hearing; or
2. When any other legal order has been issued which pertains to violations of Iowa Code chapter 99B, 123, or 123A.

“Counting mechanism” means an appliance that tallies the volume of business of an individual amusement device.

“Distributes” means to deliver, to provide or to otherwise make available in Iowa amusement devices required to be registered in accordance with these rules.

“Distributor” is as defined in Iowa Code section 99B.51.

“Manufacturer” is as defined in Iowa Code section 99B.51.

“Operation” means that a registered amusement device is made available for use by the public or made available for use on the premises of a charitable organization.

“Owner” is as defined in Iowa Code section 99B.51.

“Person” means a person as defined by Iowa Code section 4.1.

“Premises” means a location where one or more registered amusement devices are available for public use.

“Prize” means a ticket(s) or token(s) that is dispensed by a registered amusement device as an award for use and that is worth up to \$50 in merchandise.

“Registered amusement device” means an electrical or mechanical amusement device in operation subject to registration by the department pursuant to Iowa Code section 99B.53 and includes both the external and internal components. Any change in the registered amusement device, including the external and internal components of the registered amusement device, constitutes a new registered amusement device for which registration by the owner is required. The word “change” as used herein does not include repairs or replacement of parts that do not change or alter the operation of the device as originally registered by the owner. If the repairs or replacement parts alter the operation of the device as originally registered, then the device must be reregistered before it is made available for operation.

“Responsible party,” as listed on the amusement device registration, means the owner of the amusement device.

“Security mechanism” means an appliance which prevents a person from operating an electrical or mechanical amusement device by not allowing the acceptance of money until action is taken by the owner or owner’s designee to allow the person to operate the device.

[ARC 1930C, IAB 4/1/15, effective 5/6/15; ARC 4015C, IAB 9/26/18, effective 10/31/18]

481—105.2(99B) Registered amusement device restrictions. Each registered amusement device shall only be located on premises for which a Class “B,” Class “C,” special Class “C,” Class “D,” Class “E,” or Class “F” retail alcohol license has been issued pursuant to Iowa Code chapter 123.

105.2(1) The number of electrical or mechanical amusement devices registered by the department shall not exceed 6,928, the total number of devices registered by the department as of April 28, 2004.

105.2(2) The department shall not initially register an electrical or mechanical amusement device that is required to be registered to an owner for a location for which only a Class “B” or a Class “E” retail alcohol license has been issued pursuant to Iowa Code chapter 123 on or after April 28, 2004.

105.2(3) An owner or distributor at a location for which only a Class “B” or a Class “E” retail alcohol license has been issued pursuant to Iowa Code chapter 123 shall not relocate an amusement device registered as provided in this chapter to a location other than the location of the device on April 28, 2004, and shall not transfer, assign, sell, or lease an amusement device as provided in this chapter to another person for which only a Class “B” or a Class “E” retail alcohol license has been issued pursuant to Iowa Code chapter 123 after April 28, 2004.

EXAMPLE 1: An electrical or mechanical amusement device is registered with the department and is located at a convenience store that has a Class “E” retail alcohol license.

1. If the amusement device needs to be repaired, the owner may repair it without losing the registration position or buying a new registration tag. A repair constitutes any changes to a device as long as the type of game and the number of devices in a location is not changed.

2. If the amusement device needs to be replaced because it is defective, it must be replaced with the same game in order to keep the registration position.

3. The amusement device cannot be moved from one location to another under a Class “B” or a Class “E” retail alcohol license, even if the number of registered devices at a location does not change.

4. If a location with a Class “B” or a Class “E” retail alcohol license had only one amusement device registered on April 28, 2004, the maximum number of devices allowed at that location shall be one.

105.2(4) Rescinded IAB 8/29/07, effective 9/1/07.

105.2(5) Each registered amusement device at a location for which only a Class “B” or a Class “E” retail alcohol license has been issued pursuant to Iowa Code chapter 123 shall include on the amusement device a security mechanism which prevents a person from operating the amusement device by not allowing the acceptance of money until the machine is activated by the owner or owner’s designee. A sign shall be posted stating that a person must be 21 years of age or older to operate the registered amusement device.

EXAMPLE 2: A patron in a convenience store tries to put money in an amusement device, but the amusement device will not take the money. The patron approaches the person working behind the counter, who then asks the patron for an ID. If the patron is 21 years of age or older, the amusement device is activated, thereby allowing the patron to play the amusement device. The security mechanism shall be immediately reactivated once the patron has finished playing the amusement device.

105.2(6) The registered amusement device shall be registered in accordance with these rules and shall comply with all of the requirements of Iowa Code section 99B.53, this chapter, 481—Chapter 104, and any other applicable laws or rules.

105.2(7) The registered amusement device shall not be designed or adapted to facilitate gambling, nor shall the device be capable of playing poker, blackjack, or keno.

105.2(8) If the department, or the department’s designee, determines that a registered amusement device is not in compliance with the requirements of this chapter or any other provision of Iowa law, the device may be subject to seizure, and any registration associated with the device, including the registration of the manufacturer, distributor, or owner, may be revoked or suspended.

105.2(9) A person owning or leasing a registered amusement device shall not advertise or promote the availability of the amusement device to the public as anything other than an electrical or mechanical amusement device. Situations that constitute advertising and promoting include, but are not limited to, posted signs, newspaper/magazine advertisements, radio and television advertisements, word of mouth and Internet posting.

105.2(10) If there is no amusement device registration availability, a person may be included on a waiting list for an amusement device registration position.

a. A person shall appear on the waiting list only once for a single registration position.

b. A person may be added to the waiting list by sending an email to gmms@dia.iowa.gov.

c. A person may request to be added to the waiting list by calling or writing the department at Department of Inspections and Appeals, Social and Charitable Gambling Unit, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0083; (515)281-6840.

d. The department shall maintain the waiting list in chronological order with the person requesting addition to the waiting list first being first on the list.

e. When a registration position becomes available, the department shall notify the first person on the waiting list of the amusement device registration availability. If multiple positions become available, the department may notify as many persons on the waiting list as there are available positions.

f. The department shall notify the person on the waiting list of the amusement device registration availability by mail or by email if the person has provided an email address.

g. The person on the waiting list shall have ten days from the time the notification was sent to submit a registered amusement device application and the fee.

h. If the person does not submit the registration application, fee and proof of purchase within ten days, the person shall forfeit the position on the waiting list and shall be removed from the waiting list.

105.2(11) An initial amusement device registration shall only be allowed at a location that has a Class “C,” special Class “C,” Class “D,” or Class “F” retail alcohol license issued pursuant to Iowa Code chapter 123.

EXAMPLE 3: An amusement device is located in a bar that has the appropriate retail alcohol license. On April 28, 2004, this location had only one amusement device. An additional amusement device may be added to this location.

1. If the amusement device needs to be repaired, it may be repaired without the loss of the device’s registration position.

2. If the amusement device is defective and needs to be replaced, it can be replaced with the same game under the original registration without the incurring of additional charges.

3. If the amusement device is replaced with a new amusement device that has a different game, before the device is moved to the premises, the process for initial registration shall be followed pursuant to this chapter and Iowa Code chapter 99B. The replacement of the amusement device creates an amusement device registration availability, and the position will be offered to the next person on the waiting list pursuant to this rule.

105.2(12) If a person purchases an amusement device that is registered with the department, the registration tag, if available, must be removed from the purchased amusement device and returned to the department. The department shall be notified in writing within ten calendar days of the change in ownership of any amusement device. The purchased device shall be removed from the inventory of the original owner, thus creating a registration position on the waiting list. The purchaser must apply for a registration position on the waiting list for the device.

105.2(13) An amusement device that is registered with the department and located in a warehouse may be placed in a location that has a Class “C,” special Class “C,” Class “D,” or Class “F” retail alcohol license issued pursuant to Iowa Code chapter 123. Such a device may also be used as a replacement device.

105.2(14) The registration application for all new amusement devices must be accompanied by the receipt, invoice, or bill of sale containing the seller’s name, company name, and address, transaction date, motherboard serial number, and name of the game.

105.2(15) Devices shall not allow for more than one player. Each playing position constitutes one amusement device.

481—105.4(99B) Prizes. Prizes may be awarded for use of a registered amusement device, but only in conformance with 481—104.4(99B). All prizes awarded must be in conformance with each of the requirements imposed by 481—104.4(99B).

481—105.5(99B) Registration by a manufacturer, distributor, or an owner that operates for profit. A person engaged in business in Iowa as a manufacturer, a distributor, or an owner that operates for profit shall be registered with the department prior to engaging in business in Iowa. A person shall register under each of the categories that apply to the business to be conducted in Iowa and shall pay the designated fee for each category of registration.

105.5(1) Each person that registers with the department shall pay an annual registration fee as follows:

481—105.6(99B) Registration of registered amusement devices. Each owner of an amusement device subject to registration by the department pursuant to Iowa Code section 99B.53 shall obtain a registration. A registration issued pursuant to Iowa Code chapter 99B is required to offer a registered amusement device for use.

105.6(1) Each owner of an amusement device subject to the registration requirements imposed by this chapter shall register the device before it is made available for operation.

105.6(2) In the event a registration position is not open, the distributor's or owner's name may be placed on the department's waiting list. The distributor or owner will be notified by the department when a position is available and the distributor's name or owner's name reaches the top of the waiting list. Upon the distributor's or owner's completion of the application form and payment of the required fee, the department shall issue a registration tag valid for one year from the date of issuance.

a. Application forms are available from the Department of Inspections and Appeals, Amusement Devices, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0083. The application form shall contain all information required by the department.

b. Prior to placement of the amusement device for public use, the registration tag shall be prominently displayed on the front of the registered amusement device in such a manner as to be clearly visible to the general public.

[ARC 8077C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—500.10(147,272C) Order for physical, mental, substance abuse or clinical competency examination. If the board has probable cause, a licensee may be required to submit to a physical, mental, substance abuse or clinical competency examination at the licensee's expense.

500.10(1) Content of order. A board order for a physical, mental, substance abuse or clinical competency examination shall include the following items:

- a. A description of the type of examination.
- b. The amount of time the licensee has to complete the examination.
- c. A statement indicating that the licensee is to sign necessary releases for the board to communicate with the examiner of the evaluation or treatment facility.
- d. A statement that the licensee is to communicate with the board regarding the status of the examination.
- e. A statement that the licensee will have the examiner provide the examination results directly to the board within a specified period of time.

500.10(2) Alternatives. Following issuance of the examination order, the licensee may request additional time to schedule or complete the examination or may request that the board approve an alternative examiner or treatment facility. The board in its discretion shall determine whether to grant the request.

500.10(3) Objection to order. A licensee who is the subject of a board order and who objects to the order may file a request for hearing. The request for hearing must be filed within 30 days of the date of the examination order, and the request for hearing shall specifically identify the factual and legal issues upon which the licensee bases the objection. A licensee who fails to timely file a request for hearing to object to an examination order waives any future objection to the examination order in the event formal disciplinary charges are filed for failure to comply with the examination order or on any other grounds. The hearing shall be considered a contested case proceeding and shall be governed by the provisions of 481—Chapter 506. On judicial review of a board decision in a contested case involving an objection to an examination order, the case will be captioned to maintain the licensee's confidentiality.

500.10(4) Closed hearing. Any hearing on an objection to the examination order shall be closed pursuant to Iowa Code section 272C.6(1).

500.10(5) Order and reports confidential. An examination order and any subsequent examination reports issued in the course of a board investigation are confidential investigative information pursuant to Iowa Code section 272C.6(4). However, all investigative information regarding the examination order shall be provided to the licensee in the event the licensee files an objection, under subrule 500.15(3), in order to allow the licensee an opportunity to prepare for hearing.

500.10(6) Admissibility. In the event the licensee submits to evaluation and subsequent proceedings are held before the board, all objections shall be waived as to the admissibility of the examining physicians' or health care providers' testimony or examination reports on the grounds that they constitute privileged communication. The medical testimony or examination reports shall not be used against the licensee in any proceeding other than one relating to licensee discipline by the board.

500.10(7) Failure to submit. Failure of a licensee to submit to a board-ordered physical, mental, substance abuse or clinical competency examination constitutes a violation of the rules of the board and is grounds for disciplinary action.

CHAPTER 501
MODEL RULES FOR LICENSURE BY VERIFICATION OR WORK EXPERIENCE

[Prior to 9/18/24, see Professional Licensure Division[645] Ch 19]

Chapter rescission date pursuant to Iowa Code section 17A.7: 7/31/29

481—501.1(272C) Licensure by verification. Licensure by verification is available in accordance with the following:

501.1(1) Eligibility. A person may seek licensure by verification if the person is licensed in at least one other jurisdiction that has a scope of practice substantially similar to that of Iowa.

501.1(2) Board application. The applicant must submit the following:

a. A completed application.
b. Payment of the application fee.
c. Completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check, if required for initial licensure by the board.

d. An attestation that the applicant's license in that jurisdiction complies with the requirements of Iowa Code section 272C.12.

e. A copy of the complete criminal record if the applicant has a criminal history.

f. A copy of the relevant disciplinary documents if another jurisdiction has taken disciplinary action against the applicant.

g. A written statement from the applicant detailing the scope of practice in the other state.

h. Copies of relevant laws setting forth the scope of practice in the other state.

501.1(3) Applicants with prior discipline. If another jurisdiction has taken disciplinary action against an applicant, the board will determine whether the cause for the disciplinary action has been corrected and the matter has been resolved. If the board determines the disciplinary matter has not been resolved, the board will neither issue a license nor deny the application for licensure until the matter is resolved. A person who has had a license revoked, or who has voluntarily surrendered a license, in another jurisdiction is ineligible for licensure by verification.

501.1(4) Applicants with pending licensing complaints or investigations. If an applicant is currently the subject of a complaint, allegation, or investigation relating to unprofessional conduct pending before any regulating entity in another jurisdiction, the board will neither issue a license nor deny the application for licensure until the complaint, allegation, or investigation is resolved.

501.1(5) Compact privileges. A person who has a privilege to practice in Iowa by virtue of an interstate licensure compact is ineligible for licensure by verification. Licenses issued pursuant to this rule do not grant privileges to practice in any other jurisdiction pursuant to any interstate licensure compact.

[ARC 8083C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—501.2(272C) Applicants with work experience in jurisdictions without licensure requirements.

501.2(1) Work experience. An applicant for initial licensure who has relocated to Iowa from another jurisdiction that did not require a professional license to practice in the profession may be considered to have met any educational and training requirements if the person has at least three years of work experience with a scope of practice substantially similar to that of the profession for which a license in Iowa is sought. The three years of work experience must be within the four years preceding the date of application for initial licensure. The applicant must satisfy all other requirements, including passing any required examinations, to receive a license.

501.2(2) Required documentation. An applicant who wishes to substitute work experience in lieu of satisfying applicable education or training requirements shall carry the burden of proving all of the following by submitting relevant documents as part of a completed license application:

a. Proof of Iowa residency.

b. Proof of three or more years of work experience within the four years preceding the application for licensure.

c. Proof that the work experience was in a practice with a scope of practice substantially similar to that for which the license is sought in Iowa.

CHAPTER 502
MODEL RULES FOR USE OF CRIMINAL CONVICTIONS IN ELIGIBILITY
DETERMINATIONS AND INITIAL
LICENSING DECISIONS

[Prior to 9/18/24, see Professional Licensure Division[645] Ch 14]

Chapter rescission date pursuant to Iowa Code section 17A.7: 7/31/29

481—502.1(272C) Definitions.

“Complete criminal record” includes the complaint and judgment of conviction for each offense of which the applicant has been convicted, regardless of whether the offense is classified as a felony or a misdemeanor, and regardless of the jurisdiction in which the offense occurred.

“Conviction” means a finding, plea, or verdict of guilt made or returned in a criminal proceeding, even if the adjudication of guilt is deferred, withheld, or not entered. “Conviction” includes Alford pleas and pleas of nolo contendere.

“Disqualifying offense” means a conviction directly related to the duties and responsibilities of the profession pursuant to Iowa Code section 272C.1(8).

“License” means any license, registration, or permit issued by the board.

[ARC 8082C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—502.2(272C) License application. Unless an applicant for licensure petitions the board for an eligibility determination pursuant to rule 481—502.3(272C), the applicant’s convictions will be reviewed when the board receives a completed license application.

502.2(1) An applicant must disclose all convictions on a license application. Failure to disclose all convictions is grounds for license denial or disciplinary action following license issuance.

502.2(2) An applicant with one or more convictions shall submit the complete criminal record for each conviction and a personal statement regarding whether each conviction directly relates to the practice of the profession in order for the license application to be considered complete.

502.2(3) An applicant must submit all evidence of rehabilitation that the applicant wishes to be considered by the board.

502.2(4) The board may deny a license if the applicant has a disqualifying offense unless the applicant demonstrates by clear and convincing evidence that the applicant is rehabilitated pursuant to Iowa Code section 272C.15.

502.2(5) An applicant with one or more disqualifying offenses who has been found rehabilitated must still satisfy all other requirements for licensure.

502.2(6) Any application fees paid will not be refunded if the license is denied.

[ARC 8082C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—502.3(272C) Eligibility determination.

502.3(1) An individual who has not yet submitted a completed license application may petition the board for a determination of whether one or more of the individual’s convictions are disqualifying offenses that would render the individual ineligible for licensure.

502.3(2) To petition the board for an eligibility determination of whether one or more of the petitioner’s convictions are disqualifying offenses, a petitioner shall submit all of the following:

- a. A completed petition for eligibility determination form;
- b. The complete criminal record for each of the petitioner’s convictions;
- c. A personal statement regarding whether each conviction directly relates to the duties and responsibilities of the profession and why the board should find the petitioner rehabilitated;
- d. All evidence of rehabilitation that the petitioner wishes to be considered by the board; and
- e. Payment of a nonrefundable fee of \$25.

[ARC 8082C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—502.4(272C) Appeal. A petitioner deemed ineligible or an applicant denied a license due to a disqualifying offense may appeal the decision in the manner and time frame set forth in the board's written decision. A timely appeal will initiate a nondisciplinary contested case proceeding. The board's rules governing contested case proceedings will apply unless otherwise specified in this rule. If the petitioner or applicant fails to timely appeal, the board's written decision will become a final order.

502.4(1) An administrative law judge will serve as the presiding officer of the nondisciplinary contested case proceeding, unless the board elects to serve as the presiding officer. When an administrative law judge serves as the presiding officer, the decision rendered shall be a proposed decision.

502.4(2) The contested case hearing shall be closed to the public, and the board's review of a proposed decision shall occur in closed session.

502.4(3) The office of the attorney general shall represent the board's initial ineligibility determination or license denial and shall have the burden of proof to establish that the petitioner or applicant's convictions include at least one disqualifying offense. Upon satisfaction of this burden by a preponderance of the evidence by the office of the attorney general, the burden of proof shall shift to the petitioner or applicant to establish rehabilitation by clear and convincing evidence.

502.4(4) A petitioner or applicant must appeal an ineligibility determination or license denial in order to exhaust administrative remedies. A petitioner or applicant may only seek judicial review of an ineligibility determination or license denial after the issuance of a final order following a contested case proceeding. Judicial review of the final order following a contested case proceeding shall be in accordance with Iowa Code chapter 17A.

[ARC 8082C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—502.5(272C) Future petitions or applications. If a final order determines a petitioner is ineligible, the petitioner may not submit a subsequent petition for eligibility determination or a license application prior to the date specified in the final order. If a final order denies a license application, the applicant may not submit a subsequent license application or a petition for eligibility determination prior to the date specified in the final order.

[ARC 8079C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—503.5(17A,272C) Issuance of investigatory subpoenas.

503.5(1) The board administrator or designee may, upon the written request of a board investigator or on the administrator's own initiative, subpoena books, papers, records, and other real evidence that is necessary for the board to decide whether to institute a contested case proceeding. In the case of a subpoena for mental health records, each of the following conditions shall be satisfied prior to the issuance of the subpoena:

481—503.7(17A) Appearance. The board may request that a licensee appear before a committee of the board to discuss a pending investigation. By electing to participate in the committee appearance, the licensee waives any objection to a board member both participating in the appearance and later participating as a decision maker in a contested case proceeding. By electing to participate in the committee appearance, the licensee further waives any objection to the board administrator assisting the board in the contested case proceeding.

481—504.1(272C) Definitions.

“Board” means a professional licensing board established pursuant to Iowa Code chapter 147.

“Licensee” means a person licensed under Iowa Code chapter 147.

“Licensee discipline” means the same as defined in Iowa Code section 272C.1.

[ARC 8081C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—504.2(147,272C) Grounds for discipline. A board may impose any of the disciplinary sanctions provided in Iowa Code section 272C.3 when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in Iowa Code section 147.55:

504.2(1) Fraud in procuring a license. Fraud in procuring a license includes but is not limited to an intentional perversion of the truth in making application for a license to practice in this state, which includes the following:

a. False representations of a material fact, whether by word or by conduct, by false or misleading allegations, or by concealment of that which should have been disclosed when making application for a license in this state; or

b. Attempting to file or filing with the board or the department of inspections, appeals, and licensing any false or forged diploma, certificate, affidavit, identification or qualification in making an application for a license in this state.

504.2(2) Professional incompetence. Professional incompetence includes but is not limited to:

a. A substantial lack of knowledge or ability to perform professional obligations within the scope of practice.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other licensees in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care that is ordinarily exercised by the average licensee acting in the same or similar circumstances.

d. Failure to conform to the minimal standard of acceptable and prevailing practice of a licensee in this state.

e. Mental or physical inability reasonably related to and adversely affecting the licensee’s ability to practice in a safe and competent manner.

f. Being adjudged mentally incompetent by a court of competent jurisdiction.

504.2(3) Practice outside the scope of the profession.

a. The inability of a licensee to practice with reasonable skill and safety by reason of the excessive use of alcohol on a continuing basis.

b. The excessive use of drugs that may impair a licensee’s ability to practice with reasonable skill or safety.

504.2(5) Obtaining, possessing, attempting to obtain or possess, or administering controlled substances without lawful authority.

504.2(7) Acceptance of any fee by fraud or misrepresentation.

504.2(8) Negligence by the licensee in the practice of the profession, which includes a failure to exercise due care, including negligent delegation of duties or supervision of employees or other individuals, whether or not injury results; or any conduct, practice or conditions that impair the ability to safely and skillfully practice the profession.

504.2(9) Being convicted of an offense that directly relates to the duties and responsibilities of the profession. A conviction includes a guilty plea, including Alford and nolo contendere pleas, or a finding or verdict of guilt, even if the adjudication of guilt is deferred, withheld, or not entered. A copy of the guilty

plea or order of conviction constitutes conclusive evidence of conviction. An offense directly relates to the duties and responsibilities of the profession if the actions taken in furtherance of the offense are actions customarily performed within the scope of practice of the profession or the circumstances under which the offense was committed are circumstances customary to the profession.

504.2(10) Violation of a regulation, rule, or law of this state, another state, or the United States that relates to the practice of the profession.

504.2(11) Revocation, suspension, or other disciplinary action taken by a licensing authority of this state or another state, territory or country; or failure of the licensee to report such action within 30 days of the final action by such licensing authority. A stay by an appellate court shall not negate this requirement; however, if such disciplinary action is overturned or reversed by a court of last resort, such report shall be expunged from the records of the board.

504.2(12) Failure of a licensee or an applicant for licensure in this state to report any voluntary agreements restricting the individual's practice in another state, district, territory or country.

504.2(13) Failure to notify the board of a criminal conviction within 30 days of the action, regardless of the jurisdiction where it occurred.

504.2(26) Permitting an unlicensed employee or person under the licensee's control to perform activities that require a license to practice the profession.

[ARC 7753C, IAB 4/3/24, effective 5/8/24; Editorial change: IAC Supplement 7/10/24]

481—505.4(272C) Eligibility.

505.4(1) *Eligibility.* To be eligible for participation in the program, a prospective participant must self-report or be referred by the board for an impairment or potential impairment. The committee will determine for each self-report or referral whether the prospective participant is an appropriate candidate for participation in the program. 505.4(3) *Discretion.* Eligibility for participation in the program is at the sole discretion of the committee. No person is entitled to participate in the program.

505.4(4) *Limitations.* The committee establishes the terms and monitors a participant's compliance with the program specified in the contract. The committee is not responsible for participants who fail to comply with the terms of the program or successfully complete the program. Participation in the program shall not relieve the participant's board of any duties nor divest the board of any authority or jurisdiction otherwise provided. Any violation of the statutes or rules governing the practice of the participant's profession and unrelated to their impairment will be referred to the board for appropriate action.

[ARC 7753C, IAB 4/3/24, effective 5/8/24; Editorial change: IAC Supplement 7/10/24]

481—505.5(272C) Terms of participation in the impaired practitioner recovery program. 505.5(2) *Noncompliance.* Participants are responsible for notifying the committee of any instance of noncompliance. Notification of noncompliance made to the committee by the participant, a monitoring provider, or another party may result in notice to the board for its consideration of disciplinary action.

a. *First instance.* After a first instance of significant noncompliance, including a relapse, the committee may give notice to the board identifying the participant by number, describing the relevant terms of the participant's contract and the noncompliance, and including the committee's recommendation for continued participation in the program.

b. *Second instance.* After a second instance of significant noncompliance, including a relapse, the committee may refer the case and the participant's identity to the board. In its referral, the committee may make recommendations as to continued participation in the program.

c. *Referral at any time.* The committee may make a referral to the board for noncompliance that identifies the participant by name at any time the circumstances warrant such a referral.

505.5(3) *Practice limitations.* The committee may impose limitations on a participant's practice as a term of the contract until such time as the committee receives a report from an approved evaluator that the licensee is capable of practicing with reasonable safety and skill. Participation in the program is conditioned upon participants agreeing to limit practice as requested by the committee and established in accordance with the terms specified in the contract. If a participant refuses to agree to or comply with the limitations established in the initial agreement or contract, the committee will refer the licensee to the board for appropriate action.

505.5(4) *Staff discretion.* Staff, in consultation with legal counsel, may provide guidance and direction to participants between regularly scheduled committee meetings, including program descriptions, interim limitations on practice, and negotiation and execution of initial agreements and contracts on behalf

of the committee. The committee retains authority to review all interim decisions at its discretion. Staff may consult with the committee chairperson or medical director if needed.

505.6(4) The committee is authorized to communicate information about a current or former participant to the board if reliable information held by the committee reasonably indicates that a significant risk to the public exists.

505.6(5) If the board initiates disciplinary or other action against a participant or former participant as a result of communication from the committee, the board may include information from the program file in the public documents.

506.12(3) Amendments. Any notice of hearing or statement of charges may be amended before a responsive pleading has been filed. Otherwise, a party may amend a pleading only with the consent of the other parties or at the discretion of the presiding officer who may impose terms or grant a continuance.

Except where otherwise provided by law, every document filed in a contested case proceeding will be served upon each of the parties of record to the proceeding, including the person designated as prosecutor for the state, simultaneously with its filing. Except for the original statement of charges and notice of hearing and an application for rehearing as provided in Iowa Code section 17A.16(2), the party filing a document is responsible for service on all parties.

481—506.14(17A) Discovery.

506.14(1) Discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by these rules, by order of the presiding officer, or by agreement of the parties, time periods for compliance with discovery will be as provided in the Iowa Rules of Civil Procedure.

506.14(2) Any motion relating to discovery will allege that the moving party has previously made a good-faith attempt to resolve the discovery issues involved with the opposing party. Motions in regard to discovery will be ruled upon by the presiding officer. Opposing parties will be afforded the opportunity to respond within ten days of the filing of the motion unless the time is shortened as provided in subrule 506.14(1). The presiding officer may rule on the basis of the written motion and any response, or may order argument on the motion.

506.14(3) Evidence obtained in discovery may be used in the contested case proceeding if that evidence would otherwise be admissible in that proceeding.

481—506.15(17A,272C) Subpoenas in a contested case.

506.15(1) Subpoenas issued in a contested case may compel the attendance of witnesses at a deposition or hearing, and may compel the production of books, papers, records, and other real evidence. A command to produce evidence or to permit inspection may be joined with a command to appear at a deposition or hearing, or may be issued separately. Subpoenas shall be issued by the board administrator or designee upon written request. A request for a subpoena of mental health records must confirm the conditions described in 481—subrule 503.5(1) prior to the issuance of the subpoena.

- a. The name, address and telephone number of the person requesting the subpoena;
- b. The name and address of the person to whom the subpoena shall be directed;

506.15(3) Each subpoena will contain, as applicable:

- a. The caption of the case;
- b. The name, address and telephone number of the person who requested the subpoena;
- c. The name and address of the person to whom the subpoena is directed;

506.15(4) Unless a subpoena is requested to compel testimony or documents for rebuttal or impeachment purposes, the board administrator or designee will mail the subpoena to the requesting party, with a copy to the opposing party. The person who requested the subpoena is responsible for serving the subpoena upon the subject of the subpoena.

506.15(5) Any person who is aggrieved or adversely affected by compliance with the subpoena, or any party to the contested case who desires to challenge the subpoena, must, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days, file with the board a motion to quash or modify the subpoena describing the legal reasons why the subpoena should be quashed or modified, and the motion may be accompanied by legal briefs or factual affidavits.

506.15(6) Upon receipt of a timely motion to quash or modify a subpoena, the board may request an administrative law judge to issue a decision, or the board may issue a decision. Oral argument may be scheduled at the discretion of the board or the administrative law judge. The administrative law judge or the board may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.

506.15(7) A person aggrieved by a ruling of an administrative law judge who desires to challenge that ruling must appeal the ruling to the board by serving on the board administrator, either in person or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

506.15(8) If the person contesting the subpoena is not a party to the contested case, the board's decision is final for purposes of judicial review. If the person contesting the subpoena is a party to the contested case, the board's decision is not final for purposes of judicial review until there is a final decision in the contested case.

481—506.16(17A) Motions.

506.16(1) Prehearing motions must be in writing, state the grounds for relief, and state the relief sought.

506.16(2) Any party may file a written response to a motion within ten days after the motion is served, unless the time period is extended or shortened by the presiding officer. The presiding officer may consider a failure to respond within the required time period in ruling on a motion.

506.16(3) The presiding officer may schedule oral argument on any motion.

506.16(4) Motions pertaining to the hearing must be filed and served at least ten days prior to the date of hearing unless there is good cause for permitting later action or the time for such action is lengthened or shortened by rule of the agency or an order of the presiding officer.

481—506.17(17A) Prehearing conferences.

506.17(1) Any party may request a prehearing conference. Prehearing conferences will be conducted by the board administrator, who may request the assistance of an administrative law judge. A written request for prehearing conference or an order for prehearing conference on the board administrator's own motion will be filed prior to the contested case hearing, but no later than 20 days prior to the hearing date. Written notice of the prehearing conference will be given by the board administrator to all parties. For good cause the board administrator may permit variances from this rule.

506.17(2) The parties at a prehearing conference will be prepared to discuss the following subjects, and the board administrator or administrative law judge may issue appropriate orders concerning:

- a. The possibility of settlement.
- b. The entry of a scheduling order to include deadlines for completion of discovery.
- c. Stipulations of law or fact.
- d. Stipulations on the admissibility of exhibits.
- e. Submission of expert and other witness lists. Witness lists may be amended subsequent to the prehearing conference within the time limits established by the board administrator or administrative law judge at the prehearing conference. Any such amendments must be served on all parties. Witnesses not listed on the final witness list may be excluded from testifying unless there was good cause for the failure to include their names.
- f. Submission of exhibit lists. Exhibit lists may be amended subsequent to the prehearing conference within the time limits established by the board administrator or administrative law judge at the prehearing conference. Exhibits other than rebuttal exhibits that are not listed on the final exhibit list may be excluded from admission into evidence unless there was good cause for the failure to include them.
- g. Stipulations for waiver of any provision of law.
- h. Identification of matters that the parties intend to request be officially noticed.
- i. Consideration of any additional matters that will expedite the hearing.

506.17(3) Prehearing conferences may be conducted by telephone unless otherwise ordered.

481—506.18(17A) Continuances.

506.18(1) Applications for continuances will be filed with the board. If the application for continuance is not contested, the board administrator will issue the appropriate order. If the application for continuance is contested, the matter will be heard by the board or may be delegated by the board to an administrative law judge.

506.18(2) A written application for a continuance will:

- a.* Be made at the earliest possible time and no less than five working days before the hearing. Within five working days of the date set for hearing, no continuances shall be granted except for extraordinary, extenuating, or emergency circumstances;
- b.* State the specific reasons for the request; and
- c.* Be signed by the requesting party or the party's representative.

506.18(3) The presiding officer may require documentation of any grounds for continuance. In determining whether to grant a continuance, the presiding officer may consider:

- a.* Prior continuances;
- b.* The interests of all parties;
- c.* The public interest;
- d.* The likelihood of informal settlement;
- e.* The existence of an emergency;
- f.* Any objection;
- g.* Any applicable time requirements;
- h.* The existence of a conflict in the schedules of counsel, parties, or witnesses;
- i.* The timeliness of the request; and
- j.* Other relevant factors.

481—506.19(17A,272C) Hearing procedures.

506.19(1) The presiding officer will have the authority to administer oaths, to admit or exclude testimony or other evidence, and to rule on all motions and objections. The presiding officer may request that an administrative law judge perform any of these functions and may be assisted and advised by an administrative law judge.

506.19(2) All objections will be timely made and stated on the record.

506.19(3) Parties have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Any party may be represented by an attorney at the party's own expense.

506.19(4) Subject to terms and conditions prescribed by the presiding officer, parties have the right to introduce evidence on issues of material fact, cross-examine witnesses present at the hearing as necessary for a full and true disclosure of the facts, present evidence in rebuttal, and submit briefs and engage in oral argument.

506.19(5) The presiding officer will maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly.

506.19(6) Witnesses may be sequestered during the hearing.

506.19(7) The presiding officer will have authority to grant immunity from disciplinary action to a witness as provided by Iowa Code section 272C.6(3).

506.19(8) The presiding officer will conduct the hearing in the following manner:

- a.* The presiding officer will give an opening statement briefly describing the nature of the proceedings;
- b.* The parties will be given an opportunity to present opening statements;
- c.* The parties will present their cases in the sequence determined by the presiding officer;
- d.* Each witness will be sworn or affirmed by the presiding officer or the court reporter and be subject to examination and cross-examination. The presiding officer may limit questioning in a manner consistent with law;
- e.* When all parties and witnesses have been heard, the parties may be given the opportunity to present final arguments.

506.19(9) The board members and the administrative law judge have the right to question a witness. Examination of witnesses is subject to properly raised objections.

506.19(10) The hearing will be open to the public unless the licensee requests that the hearing be closed.

[ARC 8080C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—506.20(17A) Evidence.

506.20(1) The presiding officer will rule on admissibility of evidence and may, where appropriate, take official notice of facts in accordance with all applicable requirements of law.

506.20(2) Stipulation of facts is encouraged. The presiding officer may make a decision based on stipulated facts.

506.20(3) Evidence in the proceeding will be confined to the issues as to which the parties received notice prior to the hearing unless a party waives the party's right to such notice or the presiding officer determines that good cause justifies expansion of the issues. If the presiding officer decides to admit evidence on issues outside the scope of the notice over the objection of a party who did not have actual notice of those issues, that party, upon timely request, will receive a continuance sufficient to amend pleadings and to prepare on the additional issue.

506.20(4) The party seeking admission of an exhibit must provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents should normally be provided to opposing parties. All exhibits admitted into evidence will be appropriately marked and be made part of the record.

506.20(5) Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. Such an objection will be accompanied by a brief statement of the grounds upon which it is based. The objection, the ruling on the objection, and the reasons for the ruling will be noted in the record. The presiding officer may rule on the objection at the time it is made or may reserve a ruling until the written decision.

506.20(6) Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony will briefly summarize the testimony or, with permission of the presiding officer, present the testimony. If the excluded evidence consists of a document or exhibit, it will be marked as part of an offer of proof and inserted in the record.

506.20(7) Irrelevant, immaterial and unduly repetitious evidence should be excluded. A finding will be based upon the kind of evidence upon which reasonably prudent persons are accustomed to rely for the conduct of their serious affairs, and may be based on hearsay or other types of evidence that may or would be inadmissible in a jury trial.

[ARC 8080C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—506.21(17A) Default.

506.21(1) If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no adjournment is granted, enter a default decision or proceed with the hearing and render a decision in the absence of the party.

506.21(2) Where appropriate and not contrary to law, any party may move for default against a party who has failed to appear after proper service.

506.21(3) Default decisions or decisions rendered on the merits after a party has failed to appear or participate in a contested case proceeding become final agency action unless, within 15 days after the date of notification or mailing of the decision, a motion to vacate is filed and served on all parties or an appeal of a decision on the merits is timely initiated. A motion to vacate must state all facts relied upon by the moving party that establish that good cause existed for that party's failure to appear or participate at the contested case proceeding. Each fact so stated must be substantiated by at least one sworn affidavit of a person with personal knowledge of each such fact, which affidavit(s) must be attached to the motion.

506.21(4) The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

506.21(5) Properly substantiated and timely filed motions to vacate will be granted only for good cause shown. The burden of proof as to good cause is on the moving party. Adverse parties will have ten days to respond to a motion to vacate. Adverse parties will be allowed to conduct discovery as to the issue of good cause and to present evidence on the issue prior to a decision on the motion, if a request to do so is included in that party's response.

506.21(6) "Good cause" for purposes of this rule shall have the same meaning as "good cause" for setting aside a default judgment under the Iowa Rules of Civil Procedure.

506.21(7) A decision denying a motion to vacate is subject to further appeal within the time limit allowed for further appeal of a decision on the merits in the contested case proceeding. A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party pursuant to rule 481—506.24(17A).

506.21(8) If a motion to vacate is granted and no timely interlocutory appeal has been taken, the presiding officer will issue another notice of hearing and the contested case will proceed accordingly.

506.21(9) A default decision may provide either that the default decision is to be stayed pending a timely motion to vacate or that the default decision is to take effect immediately, subject to a request for stay under rule 481—506.26(17A).

[ARC 8080C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—506.22(17A) Ex parte communication.

506.22(1) Prohibited communications. Unless required for the disposition of ex parte matters specifically authorized by statute, following issuance of the statement of charges and notice of hearing, there will be no communication, directly or indirectly, between the presiding officer and any party or representative of any party or any other person with a direct or indirect interest in such case in connection with any issue of fact or law in the case except upon notice and opportunity for all parties to participate. Nothing in this provision is intended to preclude board members from communicating with other board members or members of the board staff, other than those with a personal interest in, or those engaged in personally investigating, prosecuting, or advocating in, either the case under consideration or a pending factually related case involving the same parties, as long as those persons do not directly or indirectly communicate to the presiding officer any ex parte communications they have received of a type that the presiding officer would be prohibited from receiving or that furnish, augment, diminish, or modify the evidence in the record.

506.22(2) Prohibitions on ex parte communications commence with the issuance of the statement of charges and notice of hearing in a contested case and continue for as long as the case is pending before the board.

506.22(3) Written, oral or other forms of communication are ex parte if made without notice and opportunity for all parties to participate.

506.22(4) To avoid prohibited ex parte communications, notice must be given in a manner reasonably calculated to give all parties a fair opportunity to participate. Notice of written communications will be provided in compliance with rule 481—506.6(17A) and may be supplemented by telephone, facsimile, electronic mail or other means of notification. Where permitted, oral communications may be initiated through conference telephone call including all parties or their representatives.

506.22(5) Persons who jointly act as presiding officer in a pending contested case may communicate with each other without notice or opportunity for parties to participate.

506.22(6) The board administrator or other persons may be present in deliberations or otherwise advise the presiding officer without notice or opportunity for parties to participate as long as they are not disqualified from participating in the making of a final decision under any provision of law and they comply with this rule.

506.22(7) Communications with the presiding officer involving uncontested scheduling or procedural matters do not require notice or opportunity for parties to participate. Parties should notify other parties prior to initiating such contact with the presiding officer when feasible, and will notify other parties when seeking to continue hearings or other deadlines.

506.22(8) A presiding officer who receives a prohibited ex parte communication during the pendency of a contested case must initially determine if the effect of the communication is so prejudicial that the presiding officer should be disqualified.

a. If the presiding officer determines that disqualification is warranted, a copy of any prohibited written communication, all written responses to the communication, a written summary stating the substance of any prohibited oral or other communication not available in written form for disclosure, all responses made, and the identity of each person from whom the presiding officer received a prohibited ex parte communication will be submitted for inclusion in the record under seal by protective order.

b. If the presiding officer determines that disqualification is not warranted, such documents will be submitted for inclusion in the record and served on all parties. Any party desiring to rebut the prohibited communication must be allowed the opportunity to do so upon written request filed within ten days after notice of the communication.

506.22(9) Promptly after being assigned to serve as presiding officer at any stage in a contested case proceeding, a presiding officer shall disclose to all parties material factual information received through ex parte communication prior to such assignment unless the factual information has already been or shortly will be disclosed pursuant to Iowa Code section 17A.13(2) or through discovery. Factual information contained in an investigative report or similar document need not be separately disclosed by the presiding officer as long as such documents have been or will shortly be provided to the parties.

506.22(10) The presiding officer may render a proposed or final decision imposing appropriate sanctions for violations of this rule including default, a decision against the offending party, censure, suspension or revocation of the privilege to practice before the agency. Violation of ex parte communication prohibitions by board personnel will be reported to the board and its board administrator for possible sanctions including censure, suspension, dismissal, or other disciplinary action.

481—506.23(17A) Recording costs. Upon request, the board will provide a copy of the whole or any portion of the record at cost. The cost of preparing a copy of the record or of transcribing the hearing record will be paid by the requesting party.

[ARC 8080C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—506.24(17A) Interlocutory appeals. Upon written request of a party or on its own motion, the board may review an interlocutory order of the board administrator or an administrative law judge. Any request for interlocutory review must be filed within 14 days of issuance of the challenged order, but no later than the time for compliance with the order or the date of hearing, whichever is first. In determining whether to review an interlocutory order, the board will consider:

1. The extent to which its granting the interlocutory appeal would expedite final resolution of the case; and
2. The extent to which review of that interlocutory order by the board at the time it reviews the proposed decision of the presiding officer would provide an adequate remedy.

[ARC 8080C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—506.25(17A) Applications for rehearing.

506.25(1) *Who may file.* Any party to a contested case proceeding may file an application for rehearing from a final order. The filing of an application for rehearing is not necessary to exhaust administrative remedies for purposes of judicial review.

506.25(2) *Content of application.* The application for rehearing will state on whose behalf it is filed, the specific grounds for rehearing, and the relief sought. In addition, the application shall state whether the applicant desires reconsideration of all or part of the agency decision on the existing record and whether the applicant requests an opportunity to submit additional evidence.

506.25(3) *Additional evidence.* A party may request the taking of additional evidence only by establishing that (a) the facts or other evidence arose after the original proceeding, or (b) the party offering such evidence could not reasonably have provided such evidence at the original proceedings, or (c) the party offering the additional evidence was misled by any party as to the necessity for offering such

evidence at the original proceeding. A written request to present additional evidence must be filed with the application for rehearing or by a nonappealing party within 14 days of service of the notice of appeal.

506.25(4) *Filing deadline.* The application will be filed with the board within 20 days after issuance of the final decision.

506.25(5) *Notice to other parties.* A copy of the application will be timely mailed by the applicant to all parties of record not joining therein.

506.25(6) *Disposition.* Any application for a rehearing will be deemed denied unless the agency grants the application within 20 days after its filing.

506.25(7) *Only remedy.* Application for rehearing is the only procedure by which a party may request that the board reconsider a final board decision.

506.25(8) *Proceedings.* If the board grants an application for rehearing, the board may set the application for oral argument or for hearing if additional evidence will be received. If additional evidence will not be received, the board may issue a ruling without oral argument or hearing. The board may, on the request of a party or on its own motion, order or permit the parties to provide written argument on one or more designated issues. The board may be assisted by an administrative law judge in all proceedings related to an application for rehearing.

481—506.26(17A) Stays of agency actions.

506.26(1) *When available.* Any party to a contested case proceeding may petition the board for a stay of an order issued in that proceeding or for other temporary remedies, pending review by the board or pending judicial review. The petition shall state the reasons justifying a stay or other temporary remedy.

506.26(2) *When granted.* In determining whether to grant a stay, the board will consider the factors listed in Iowa Code section 17A.19(5)“c.”

506.26(3) *Vacation.* A stay may be vacated by the issuing authority upon application of the board or any other party.

[ARC 8080C, IAB 6/26/24, effective 7/31/24; Editorial change: IAC Supplement 9/18/24]

481—506.27(17A) No factual dispute contested cases. If the parties agree that no dispute of material fact exists as to a matter that would be a contested case if such a dispute of fact existed, the parties may present all relevant admissible evidence either by stipulation or otherwise as agreed by the parties, without necessity for the production of evidence at an evidentiary hearing. If such agreement is reached, a jointly submitted schedule detailing the method and timetable for submission of the record, briefs and oral argument should be submitted to the presiding officer for approval as soon as practicable.

481—506.28(17A) Emergency adjudicative proceedings.

506.28(1) *Emergency action.* To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the board may issue a written order in compliance with Iowa Code section 17A.18A to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the board by emergency adjudicative order.

506.28(2) Before issuing an emergency adjudicative order, the board will consider factors including but not limited to the following:

- a. Whether there has been a sufficient factual investigation to ensure that the board is proceeding on the basis of reliable information;
- b. Whether the specific circumstances that pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;
- c. Whether the person required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;
- d. Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and
- e. Whether the specific action contemplated by the board is necessary to avoid the immediate danger.

506.28(3) Issuance of order.

a. An emergency adjudicative order will contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the board's decision to take immediate action. The order is a public record.

b. The written emergency adjudicative order will be immediately delivered to the person who is required to comply with the order by utilizing one or more of the following procedures:

- (1) Personal delivery;
- (2) Certified mail, return receipt requested, to the last address on file with the agency;
- (3) Certified mail to the last address on file with the agency; or
- (4) Fax. Fax may be used as the sole method of delivery if the person required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

c. To the degree practicable, the board will select the procedure for providing written notice that best ensures prompt, reliable delivery.

506.28(4) Oral notice. Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order is issued, the board will make reasonable immediate efforts to contact by telephone the person who is required to comply with the order.

506.28(5) Completion of proceedings. After the issuance of an emergency adjudicative order, the board will proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

a. Issuance of a written emergency adjudicative order will include notification of the date on which board proceedings are scheduled for completion.

b. After issuance of an emergency adjudicative order, continuance of further board proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the person who is required to comply with the order is the party requesting the continuance.

481—506.29(17A) Appeal. Any appeal to district court from a decision in a contested case will be taken within 30 days from the date of issuance of the decision by the board pursuant to Iowa Code section 17A.19.

481—506.31(272C) Reinstatement.

506.31(1) Any person whose license to practice has been revoked or suspended may apply to the board for reinstatement in accordance with the terms and conditions of the order of revocation or suspension, unless the order of revocation provides that the license is permanently revoked.

506.31(2) Unless otherwise provided by law, if the order of revocation or suspension did not establish terms and conditions upon which reinstatement might occur, or if the license was voluntarily surrendered, an initial application for reinstatement may not be made until one year has elapsed from the date of the order or the date of the voluntary surrender.

506.31(3) All proceedings for reinstatement will be initiated by the respondent, who will file with the board an application for reinstatement of the license. Such application will be docketed in the original case in which the license was revoked, suspended, or relinquished. All proceedings upon the application for reinstatement will be subject to the same rules of procedure as other cases before the board.

506.31(4) An application for reinstatement will allege facts that, if established, will be sufficient to enable the board to determine that the basis for the revocation, suspension or voluntary surrender of the respondent's license no longer exists and that it will be in the public interest for the license to be reinstated. The burden of proof to establish such facts is on the respondent.

506.31(5) An order of reinstatement will be based upon a decision that incorporates findings of facts and conclusions of law. The order will be published as provided for in this chapter.

506.32(1) An applicant who has been denied licensure by the board may appeal the denial and request a hearing on the issues related to the licensure denial by serving a notice of appeal and request for hearing upon the board not more than 30 days following the date of mailing of the notification of licensure denial to the applicant. The request for hearing will specifically delineate the facts to be contested at the hearing.

506.32(2) All hearings held pursuant to this rule will be held pursuant to the process outlined in this chapter.

481—506.33(17A,272C) Informal settlement.

506.33(1) *Informal settlement—parties.* A contested case may be resolved by informal settlement. Negotiation of an informal settlement may be initiated by the state of Iowa represented by an assistant attorney general, the respondent, or the board. The board shall designate a board member with authority to negotiate on behalf of the board. The full board will not be involved in negotiations until the presentation of a final, written, signed informal settlement to the full board for approval.

506.33(2) *Informal settlement—waiver of notice and opportunity to be heard.* Consent to negotiation by a respondent constitutes a waiver of notice and opportunity to be heard pursuant to Iowa Code chapter 17A during informal settlement negotiation, and the assistant attorney general is thereafter authorized to discuss informal settlement with the board's designee until that consent is expressly withdrawn.

506.33(3) *Informal settlement—board approval.* All informal settlements are subject to approval of a majority of the board. No informal settlement will be presented to the board for approval except in final, written form executed by the respondent. If the board fails to approve the informal settlement, it will be of no force or effect to either party.

506.33(4) *Informal settlement—disqualification of designee.* A board member who is designated to act in negotiation of settlement is not disqualified from participating in the contested case should the case proceed to hearing.

506.33(5) *Voluntary surrender.* The board may accept the voluntary surrender of a license if accompanied by a written statement of intention. A voluntary surrender, when accepted in connection with a disciplinary proceeding, has the same force and effect as an order of revocation.

720.6(7) Late renewal. A license not renewed by the expiration date will be assessed a late fee as specified in rule 481—507.17(147,152B). Completion of renewal requirements and submission of the late fee within the grace period are needed to renew the license.

720.6(8) Inactive license. A license not renewed by the end of the grace period is inactive. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice respiratory care in Iowa until the license is reactivated. A licensee who practices respiratory care in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action

pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of continuing education that conforms to standards defined in rule 481—721.3(148G,152B,272C) within 24 months immediately preceding submission of the application for reactivation; or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction within 24 months immediately preceding an application for reactivation.

1. For respiratory care practitioners: 48 hours of continuing education.

741.1(1) “Telehealth visit” means the provision of speech pathology or audiology services by a licensee to a patient using technology where the licensee and the patient are not at the same physical location during the appointment.

741.1(2) A licensee engaged in a telehealth visit will utilize technology that is secure and HIPAA-compliant (Health Insurance Portability and Accountability Act of 1996, PL 104–191, August 21, 1996, 110 Stat 1936), and that includes, at a minimum, audio and video equipment that allows two-way real-time interactive communication between the licensee and the patient. A licensee may use non-real-time technologies to prepare for an appointment or to communicate with a patient between appointments.

741.1(3) A licensee engaged in a telehealth visit shall be held to the same standard of care as a licensee who provides in-person speech pathology or audiology services. A licensee will not utilize a telehealth visit if the standard of care for the particular speech pathology or audiology service cannot be met using technology.

741.1(4) Prior to the first telehealth visit, a licensee will obtain informed consent from the patient specific to the services that will be provided in a telehealth visit. At a minimum, the informed consent will specifically inform the patient of the following:

a. The risks and limitations of the use of technology to provide speech pathology or audiology services;

b. The potential for unauthorized access to protected health information; and

c. The potential for disruption of technology during a telehealth visit.

741.1(5) A licensee will only provide speech pathology or audiology services using a telehealth visit in the areas of competence wherein proficiency in providing the particular service using technology has been gained through education, training, and experience.

741.1(6) A licensee will identify in the clinical record when speech pathology or audiology services are provided utilizing a telehealth visit.

741.1(7) Speech pathology or audiology services in Iowa through telephonic, electronic, or other means constitute the practice of speech pathology or audiology and require Iowa licensure, regardless of the location of the speech/language pathologist or audiologist.

This rule is intended to implement Iowa Code chapters 147 and 154F.

481—742.2(147) Continuing education requirements.

742.2(1) The biennial continuing education compliance period will run concurrently with each two-year period between January 1 of each even-numbered year and December 31 of each odd-numbered year. Each biennium, a person who is licensed to practice as a speech pathology or audiology licensee in this state will be required to complete a minimum of 26 hours of continuing education approved by the board. A person holding licensure in both speech pathology and audiology must meet the requirements for each profession. Continuing education hours do not carry over.

742.2(2) Requirements of new licensees. Those persons licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

742.2(3) Hours of continuing education credit may be obtained by participation in an approved program or activity. Such programs and activities may take place individually or in group settings including in-person conferences, journal readings, teleconferences, videoconferences and online programs or activities as long as such programs and activities meet the criteria specified in the definition of continuing education in rule 481—742.1(147).

742.2(4) No hours of continuing education will be carried over into the next biennium except as stated for second renewal. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

742.2(5) The licensee is responsible for the cost of continuing education.

- a. Meets the definition of continuing education as defined in rule 481—742.1(147);

a. Subject matters that integrally relate to the practice of speech pathology or audiology or both that will be considered for approval are:

(1) Basic communication processes. Information (beyond the basic licensure requirements) applicable to the normal development and use of speech, language, and hearing, i.e., anatomic and physiologic bases for the normal development and use of speech, language, and hearing; physical bases and processes of the production and perception of speech, language, and hearing; linguistic and psycholinguistic variables related to normal development and use of speech, language, and hearing; and technological, biomedical, engineering, and instrumentation information that would enable expansion of knowledge in the basic communication processes.

The board will accept dysphagia courses provided by qualified instructors.

(3) Related areas. Study pertaining to the understanding of human behavior, both normal and abnormal, as well as services available from related professions that apply to the contemporary practice of speech-language pathology/audiology, e.g., theories of learning and behavior; services available from related professions that also deal with persons who have disorders of communication; information from these professions about the sensory, physical, emotional, social or intellectual states of child or adult; professional ethics; clinical supervision; counseling; and interviewing.

Unacceptable subject matter includes personal development, human relations, collective bargaining, and tours. A licensee may elect to take the Praxis Examination in speech pathology or audiology in lieu of earning continuing education credits. The licensee will have the results of the examination sent to the board by the agency administering the examination.

1 academic semester hour = 15 continuing education hours of credit

1 academic trimester hour = 12 continuing education hours of credit

1 academic quarter hour = 10 continuing education hours of credit

e. Continuing education credit may be earned by participation in continuing education programs and activities that meet the criteria in this rule and that are completed through journal readings, teleconference

or videoconference participation, and online program participation. In addition, such programs and activities must include a posttest that the participant must pass in order to receive continuing education credit.

f. Continuing education will be obtained by attending a program that meets the criteria in subrule 742.3(1) including but not limited to continuing education programs offered by AAA and ASHA. Other individuals or groups may offer continuing education programs that meet the criteria in rule 481—742.3(147,272C) through one of the following organizations:

[Prior to 9/18/24, see Professional Licensure Division[645] Ch 182]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/19/29

481—762.1(154) Code of ethics. The board hereby adopts by reference the Code of Ethics of the American Optometric Association as published by the American Optometric Association, 243 North Lindbergh Boulevard, St. Louis, Missouri 63141, modified June 2007.

[ARC 7976C, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

481—762.2(154,272C) Recordkeeping. Optometrists will maintain patient records in a manner consistent with the protection of the welfare of the patient. Records will be permanent, timely, accurate, legible, and easily understandable.

762.2(1) Optometrists will maintain optometry records for each patient. The records will contain all of the following:

a. Personal data.

- (1) Name, date of birth, address and, if a minor, name of parent or guardian; and
- (2) Name and telephone number of emergency contact.

b. Optometry and medical history. Optometry records will include information from the patient or the patient's parent or guardian regarding the patient's optometric and medical history. The information will include sufficient data to support the recommended treatment plan.

c. Patient's reason for visit. Optometric records will include the patient's stated visual health care reasons for visiting the optometrist.

d. Clinical examination progress notes. Optometric records will include chronological dates and descriptions of the following:

- (1) Clinical examination findings, tests conducted, and a summary of all pertinent diagnoses;
- (2) Plan of intended treatment and treatment sequence;
- (3) Services rendered and any treatment complications;
- (4) All ancillary testing, if applicable;
- (5) Vision tests completed and visual acuity;
- (6) Name, quantity, and strength of all drugs dispensed, administered, or prescribed; and
- (7) Name of optometrist who performs any treatment or service or who may have contact with a patient regarding the patient's optometric health.

e. Informed consent. Optometric records will include documentation of informed consent for procedure(s) and treatment that have potential serious complications and known risks.

762.2(2) Retention of records. An optometrist will maintain a patient's record(s) for a minimum of five years after the date of last examination, prescription, or treatment. Records for minors will be maintained for, at minimum, one year after the patient reaches the age of majority (18) or five years after the date of last examination, prescription, or treatment, whichever is longer.

Proper safeguards will be maintained to ensure the safety of records from destructive elements.

762.2(3) Electronic recordkeeping. The requirements of this rule apply to electronic records as well as to records kept by any other means. When electronic records are kept, an optometrist will keep either a duplicate hard-copy record or a back-up unalterable electronic record.

762.2(4) Correction of records. Notations will be legible, written in ink, and contain no erasures or white-outs. If incorrect information is placed in the record, it must be crossed out with a single nondeleting line and be initialed by an optometric health care worker.

762.2(5) Confidentiality and transfer of records. Optometrists will preserve the confidentiality of patient records in a manner consistent with the protection of the welfare of the patient. Upon request of the patient or the patient's new optometrist, the optometrist will furnish such optometry records or copies of the records as will be beneficial for the future treatment of that patient. The optometrist may include a summary of the record(s) with the record(s) or copy of the record(s). The optometrist may charge a nominal

fee for duplication of records, but may not refuse to transfer records for nonpayment of any fees. The optometrist may ask for a written request for the record(s).

762.2(6) Retirement or discontinuance of practice. A licensee, upon retirement, or upon discontinuation of the practice of optometry, or upon leaving a practice or moving from a community, will notify all active patients in writing, or by publication once a week for three consecutive weeks in a newspaper of general circulation in the community, that the licensee intends to discontinue the practice of optometry in the community, and will encourage patients to seek the services of another licensee. The licensee will make reasonable arrangements with active patients for the transfer of patient records, or copies of those records, to the succeeding licensee. “Active patient” means a person whom the licensee has examined, treated, cared for, or otherwise consulted with during the two-year period prior to retirement, discontinuation of the practice of optometry, or leaving a practice or moving from a community.

762.2(7) Nothing stated in these rules will prohibit a licensee from conveying or transferring the licensee’s patient records to another licensed optometrist who is assuming a practice, provided that written notice is furnished to all patients.

[ARC 7976C, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

762.3(2) Release of contact lens prescription.

a. After the contact lenses have been adequately adapted and the patient released from initial follow-up care by the prescribing practitioner, the prescribing practitioner will provide a copy of the contact lens prescription, at no cost, for the duplication of the original contact lens. A licensed optometrist may refuse to provide a copy of the contact lens prescription if the patient has not paid the fees associated with the examination from which the prescription was generated including applicable contact lens fitting fees.

b. A practitioner choosing to issue an oral prescription will furnish the same information required for the written prescription except for the written signature and address of the practitioner. An oral prescription may be released by an O.D. to any dispensing person who is a licensed professional with the O.D., M.D., D.O., or R.Ph. degree or a person under direct supervision of those licensed under Iowa Code chapter 148, 154 or 155A.

- d. The directions for use of the drug, medicine, or device prescribed;
- e. The name, address, and written signature of the practitioner issuing the prescription; and

762.4(2) The practitioner issuing oral prescription drug orders will furnish the same information required for a written prescription, except for the written signature and address of the practitioner.

762.4(3) Prior to prescribing any controlled substance, an optometrist will review the patient's information contained in the prescription monitoring program database, unless the patient is receiving inpatient hospice care or long-term residential facility care.

Upon agreeing to supervise a physician assistant, a supervising physician will be advised that the physician's name will be listed with the board as a supervising physician. A licensee who, in the course of employment responsibilities, examines, attends, counsels or treats adults in Iowa shall indicate on the renewal application completion of training in dependent adult abuse identification and reporting as required by Iowa Code section 235B.16(5) "*b*" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph 780.9(4) "*e*."

c. The course(s) shall be the curriculum provided by the Iowa department of human services.

d. The licensee shall maintain written documentation for three years after mandatory training as identified in paragraphs 780.9(4) "*a*" through "*c*," including program date(s), content, duration, and proof of participation.

e. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements.

f. The board may select licensees for audit of compliance with the requirements in paragraphs 780.9(4) "*a*" through "*e*."

780.9(5) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

780.9(6) A person licensed to practice as a physician assistant shall keep the license certificate and renewal displayed in a conspicuous public place at the primary site of practice.

The medical services to be provided by the physician assistant are those for which the physician assistant has been prepared by education, training, or experience and is competent to perform. The ultimate role of the physician assistant cannot be rigidly defined because of the variations in practice requirements due to geographic, economic, and sociologic factors. The high degree of responsibility a physician assistant may assume requires that, at the conclusion of the formal education, the physician assistant possess the knowledge, skills, and abilities necessary to provide those services appropriate to the practice setting. The physician assistant's services may be utilized in any clinical settings including but not limited to offices, ambulatory clinics, hospitals, patient's homes, extended care facilities, and nursing homes.

(5) The physician assistant may prescribe, supply, and administer drugs and medical devices in all settings, including but not limited to hospitals, health care facilities, health care institutions, hospice, clinics, offices, health maintenance organizations, and outpatient and emergency care settings.

(6) A physician assistant may request, receive, and supply sample drugs and medical devices.

d. Supplying properly packaged and labeled prescription drugs, controlled substances, or medical devices when pharmacist services are not reasonably available or when it is in the best interest of the patient.

(1) If the physician assistant is the prescriber of the medications supplied pursuant to this paragraph, the medications supplied will be for the purpose of accommodating the patient and will not be sold for more than the cost of the drug and reasonable overhead costs as they relate to supplying prescription drugs to the patient and not at a profit to the physician assistant.

(2) A nurse or staff assistant may assist the physician assistant in supplying medications.

781.1(2) The medical services to be provided by the physician assistant also include, but are not limited to, the following:

a. Initial approach to a patient of any age group in any setting to elicit a medical history and perform a physical examination.

481—781.2(148C) Prohibition. No physician assistant engaged in independent practice, as defined in Iowa Code section 148C.1(5), will be permitted to measure the visual power and visual efficiency of the human eye, as distinguished from routine visual screening, except in the personal presence of a supervising physician at the place where these services are rendered.

[ARC 8038C, IAB 5/29/24, effective 7/3/24; Editorial change: IAC Supplement 9/18/24]

481—781.3(147,88GA,ch1020) Identification as a physician assistant. The physician assistant will be identified as a physician assistant to patients and to the public, regardless of the physician assistant's educational degree.

[ARC 8038C, IAB 5/29/24, effective 7/3/24; Editorial change: IAC Supplement 9/18/24]

481—781.4(147) Prescription requirements.

- b. The name and address of the patient for whom the drug is prescribed.
- c. The name, strength, and quantity of the drug, medicine, or device prescribed and directions for use.
- d. The physician assistant's name and the practice address.
- e. The signature of the physician assistant followed by the initials "PA."
- f. The Drug Enforcement Administration (DEA) number of the physician assistant if the prescription is for a controlled substance.

781.4(2) Each oral prescription drug order issued by a physician assistant will include the same information required for a written prescription, except for the written signature of the physician assistant and the physician assistant's practice address.

781.4(3) Prior to prescribing an opioid, a physician assistant will review the patient's information contained in the prescription monitoring program database, unless the patient is receiving inpatient hospice care or long-term residential facility patient care.

781.4(4) Beginning January 1, 2020, every prescription issued for a prescription drug will be transmitted electronically unless exempted pursuant to Iowa Code section 124.308 or 155A.27. Beginning January 1, 2020, a licensee who fails to comply with the electronic prescription mandate may be subject to a nondisciplinary administrative penalty of \$250 per violation, up to a maximum of \$5,000 per calendar year.

[ARC 8038C, IAB 5/29/24, effective 7/3/24; Editorial change: IAC Supplement 9/18/24]

481—781.5(147) Supplying—requirements for containers, labeling, and records.

781.5(1) Containers. A prescription drug will be supplied in a container that meets the requirements of the Poison Prevention Packaging Act of 1970, 15 U.S.C. §1471-1476 (1976), which relate to childproof closure, unless otherwise requested by the patient. The containers must also meet the requirements of Section 502G of the Federal Food, Drug and Cosmetic Act, 21 U.S.C. §301 et seq. (1976), which pertain to light resistance and moisture resistance needs of the drug supplied.

781.5(2) Labeling. A label bearing the following information will be affixed to a container in which a prescription drug is supplied:

- a. The name and practice address of the supervising physician and physician assistant.
- b. The name of the patient.
- c. The date supplied.
- d. The directions for administering the prescription drug and any cautionary statement deemed appropriate by the physician assistant.
- e. The name, strength and quantity of the prescription drug in the container.
- f. When supplying Schedule II, III, or IV controlled substances, the federal transfer warning statement must appear on the label as follows: "Caution: Federal law prohibits the transfer of this drug to any person other than the patient for whom it was prescribed."

781.5(3) Samples. Prescription sample drugs will be provided without additional charge to the patient. Prescription sample drugs supplied in the original container or package will be deemed to conform to labeling and packaging requirements.

781.5(4) Records. A record of prescription drugs supplied by the physician assistant to a patient will be kept that contains the label information required by paragraphs 781.7(2) "b" through "e." Noting such information on the patient's chart or record is sufficient.

[ARC 8038C, IAB 5/29/24, effective 7/3/24; Editorial change: IAC Supplement 9/18/24]

481—781.6(147,148C,272C) Standards of practice—telemedicine. This rule establishes standards of practice for the provision of telemedicine services.

781.6(1) Telemedicine, generally.

a. Technological advances have made it possible for licensees in one location to provide medical care to patients in another location with or without an intervening health care provider.

b. Telemedicine is a useful tool that, if applied appropriately, can provide important benefits to patients, including increased access to health care, expanded utilization of specialty expertise, rapid availability of patient records, and potential cost savings.

c. Licensees using telemedicine will be held to the same standards of care and professional ethics as licensees using traditional in-person medical care.

d. Failure to conform to the appropriate standards of care or professional ethics while using telemedicine may subject the licensee to potential discipline by the board.

781.6(2) Definitions. For the purposes of this rule:

“*Asynchronous store-and-forward transmission*” means the collection of a patient’s relevant health information and the subsequent transmission of the data from an originating site to a health care provider at a distant site without the presence of the patient.

“*Board*” means the Iowa board of physician assistants.

“*HIPAA*” means the Health Insurance Portability and Accountability Act of 1996, PL 104-191, August 21, 1996, 110 Stat. 1936.

“*In-person encounter*” means that the physician assistant and the patient are in the physical presence of each other and are in the same physical location during the physician assistant-patient encounter.

“*Licensee*” means a physician assistant licensed by the board.

“*Telemedicine*” means the practice of medicine using electronic audiovisual communications and information technologies or other means, including interactive audio with asynchronous store-and-forward transmission, between a licensee in one location and a patient in another location with or without an intervening health care provider. Telemedicine includes asynchronous store-and-forward technologies, remote monitoring, and real-time interactive services, including teleradiology and telepathology. Telemedicine, for the purposes of this rule establishing standards of practice, does not include the provision of medical services only through an audio-only telephone, email messages, facsimile transmissions, or U.S. mail or other parcel service, or any combination thereof.

“*Telemedicine technologies*” means technologies and devices enabling secure electronic communications and information exchanges between a licensee in one location and a patient in another location with or without an intervening health care provider.

781.6(3) Practice guidelines. A licensee who uses telemedicine will utilize evidence-based telemedicine practice guidelines and standards of practice, to the degree they are available, to ensure patient safety, quality of care, and positive outcomes. The board acknowledges that some nationally recognized medical specialty organizations have established comprehensive telemedicine practice guidelines that address the clinical and technological aspects of telemedicine for many medical specialties.

781.6(4) License required. A physician assistant who uses telemedicine in the diagnosis and treatment of a patient located in Iowa will hold an active Iowa physician assistant license consistent with state and federal laws. Nothing in this rule will be construed to supersede the exceptions to licensure contained in rule 481—780.17(148C).

781.6(5) Standards of care and professional ethics. A licensee who uses telemedicine will be held to the same standards of care and professional ethics as a licensee using traditional in-person encounters with patients. Failure to conform to the appropriate standards of care or professional ethics while using telemedicine may be a violation of the laws and rules governing the practice of medicine and may subject the licensee to potential discipline by the board.

781.6(6) Scope of practice. A licensee who uses telemedicine will ensure that the services provided are consistent with the licensee’s scope of practice, including the licensee’s education, training, experience, ability, licensure, and certification.

781.6(7) Identification of patient and physician assistant. A licensee who uses telemedicine will verify the identity of the patient and ensure that the patient has the ability to verify the identity, licensure

status, certification, and credentials of all health care providers who provide telemedicine services prior to the provision of care.

781.6(8) *Physician assistant-patient relationship.*

a. A licensee who uses telemedicine will establish a valid physician assistant-patient relationship with the person who receives telemedicine services. The physician assistant-patient relationship begins when:

- (1) The person with a health-related matter seeks assistance from a licensee;
- (2) The licensee agrees to undertake diagnosis and treatment of the person; and
- (3) The person agrees to be treated by the licensee whether or not there has been an in-person encounter between the physician assistant and the person.

b. A valid physician assistant-patient relationship may be established by:

- (1) In-person encounter. Through an in-person medical interview and physical examination where the standard of care would require an in-person encounter;
- (2) Consultation with another licensee. Through consultation with another licensee (or other health care provider) who has an established relationship with the patient and who agrees to participate in, or supervise, the patient's care; or
- (3) Telemedicine encounter. Through telemedicine, if the standard of care does not require an in-person encounter, and in accordance with evidence-based standards of practice and telemedicine practice guidelines that address the clinical and technological aspects of telemedicine.

781.6(9) *Medical history and physical examination.* Generally, a licensee will perform an in-person medical interview and physical examination for each patient. However, the medical interview and physical examination may not be in person if the technology utilized in a telemedicine encounter is sufficient to establish an informed diagnosis as though the medical interview and physical examination had been performed in person. Prior to providing treatment, including issuing prescriptions, electronically or otherwise, a licensee who uses telemedicine will interview the patient to collect the relevant medical history and perform a physical examination, when medically necessary, sufficient for the diagnosis and treatment of the patient. An Internet questionnaire that is a static set of questions provided to the patient, to which the patient responds with a static set of answers, in contrast to an adaptive, interactive and responsive online interview, does not constitute an acceptable medical interview and physical examination for the provision of treatment, including issuance of prescriptions, electronically or otherwise, by a licensee.

781.6(10) *Non-physician assistant health care providers.* If a licensee who uses telemedicine relies upon or delegates the provision of telemedicine services to a non-physician assistant health care provider, the licensee will:

- a. Ensure that systems are in place to ensure that the non-physician assistant health care provider is qualified and trained to provide that service within the scope of the non-physician assistant health care provider's practice;
- b. Ensure that the licensee is available in person or electronically to consult with the non-physician assistant health care provider, particularly in the case of injury or an emergency.

781.6(11) *Informed consent.* A licensee who uses telemedicine will ensure that the patient provides appropriate informed consent for the medical services provided, including consent for the use of telemedicine to diagnose and treat the patient, and that such informed consent is timely documented in the patient's medical record.

781.6(12) *Coordination of care.* A licensee who uses telemedicine will, when medically appropriate, identify the medical home or treating clinician(s) for the patient, when available, where in-person services can be delivered in coordination with the telemedicine services. The licensee will provide a copy of the medical record to the patient's medical home or treating clinician(s).

781.6(13) *Follow-up care.* A licensee who uses telemedicine will have access to, or adequate knowledge of, the nature and availability of local medical resources to provide appropriate follow-up care to the patient following a telemedicine encounter.

781.6(14) *Emergency services.* A licensee who uses telemedicine will refer a patient to an acute care facility or an emergency department when referral is necessary for the safety of the patient or in the case of an emergency.

781.6(15) *Medical records.* A licensee who uses telemedicine will ensure that complete, accurate and timely medical records are maintained for the patient when appropriate, including all patient-related electronic communications, records of past care, physician assistant-patient communications, laboratory and test results, evaluations and consultations, prescriptions, and instructions obtained or produced in connection with the use of telemedicine technologies. The licensee will note in the patient's record when telemedicine is used to provide diagnosis and treatment. The licensee will ensure that the patient or another licensee designated by the patient has timely access to all information obtained during the telemedicine encounter. The licensee will ensure that the patient receives, upon request, a summary of each telemedicine encounter in a timely manner.

781.6(16) *Privacy and security.* A licensee who uses telemedicine will ensure that all telemedicine encounters comply with the privacy and security measures of HIPAA to ensure that all patient communications and records are secure and remain confidential.

- a. Written protocols will be established that address the following:
 - (1) Privacy;
 - (2) Health care personnel who will process messages;
 - (3) Hours of operation;
 - (4) Types of transactions that will be permitted electronically;
 - (5) Required patient information to be included in the communication, including patient name, identification number and type of transaction;
 - (6) Archiving and retrieval; and
 - (7) Quality oversight mechanisms.
- b. The written protocols should be periodically evaluated for currency and should be maintained in an accessible and readily available manner for review. The written protocols will include sufficient privacy and security measures to ensure the confidentiality and integrity of patient-identifiable information, including password protection, encryption or other reliable authentication techniques.

781.6(17) *Technology and equipment.* Broad categories of telemedicine technologies currently exist, including asynchronous store-and-forward technologies, remote monitoring, and real-time interactive services. While some telemedicine programs are multispecialty in nature, others are tailored to specific diseases and medical specialties. The technology and equipment utilized for telemedicine will comply with the following requirements:

- a. The technology and equipment utilized in the provision of telemedicine services must comply with all relevant safety laws, rules, regulations, and codes for technology and technical safety for devices that interact with patients or are integral to diagnostic capabilities;
- b. The technology and equipment utilized in the provision of telemedicine services must be of sufficient quality, size, resolution and clarity such that the licensee can safely and effectively provide the telemedicine services; and
- c. The technology and equipment utilized in the provision of telemedicine services must be compliant with HIPAA.

781.6(18) *Disclosure and functionality of telemedicine services.* A licensee who uses telemedicine will ensure that the following information is clearly disclosed to the patient:

- a. Types of services provided;
- b. Contact information for the licensee;
- c. Identity, licensure, certification, credentials, and qualifications of all health care providers who are providing the telemedicine services;
- d. Limitations in the drugs and services that can be provided via telemedicine;
- e. Fees for services, cost-sharing responsibilities, and how payment is to be made, if these differ from an in-person encounter;
- f. Financial interests, other than fees charged, in any information, products, or services provided by the licensee(s);

- g. Appropriate uses and limitations of the technologies, including in emergency situations;
- h. Uses of and response times for emails, electronic messages and other communications transmitted via telemedicine technologies;
- i. To whom patient health information may be disclosed and for what purpose;
- j. Rights of patients with respect to patient health information; and
- k. Information collected and passive tracking mechanisms utilized.

781.6(19) *Patient access and feedback.* A licensee who uses telemedicine will ensure that the patient has easy access to a mechanism for the following purposes:

- a. To access, supplement and amend patient-provided personal health information;
- b. To provide feedback regarding the quality of the telemedicine services provided; and
- c. To register complaints. The mechanism will include information regarding the filing of complaints with the board.

781.6(20) *Financial interests.* Advertising or promotion of goods or products from which the licensee receives direct remuneration, benefit or incentives (other than the fees for the medical services) is prohibited to the extent that such activities are prohibited by state or federal law. Notwithstanding such prohibition, Internet services may provide links to general health information sites to enhance education; however, the licensee should not benefit financially from providing such links or from the services or products marketed by such links. When providing links to other sites, licensees should be aware of the implied endorsement of the information, services or products offered from such sites. The maintenance of a preferred relationship with any pharmacy is prohibited. Licensees will not transmit prescriptions to a specific pharmacy, or recommend a pharmacy, in exchange for any type of consideration or benefit from the pharmacy.

781.6(21) *Circumstances where the standard of care may not require a licensee to personally interview or examine a patient.* Under the following circumstances, whether or not such circumstances involve the use of telemedicine, a licensee may treat a patient who has not been personally interviewed, examined and diagnosed by the licensee:

- a. Situations in which the licensee prescribes medications on a short-term basis for a new patient and has scheduled or is in the process of scheduling an appointment to personally examine the patient;
- b. For institutional settings, including writing initial admission orders for a newly hospitalized patient;
- c. Call situations in which a licensee is taking calls for another health care provider who has an established provider-patient relationship with the patient;
- d. Cross-coverage situations in which a licensee is taking calls for another health care provider who has an established provider-patient relationship with the patient;
- e. Emergency situations in which the life or health of the patient is in imminent danger;
- f. Emergency situations that constitute an immediate threat to the public health including, but not limited to, empiric treatment or prophylaxis to prevent or control an infectious disease outbreak;
- g. Situations in which the licensee has diagnosed a sexually transmitted disease in a patient and the licensee prescribes or dispenses antibiotics to the patient's named sexual partner(s) for the treatment of the sexually transmitted disease as recommended by the U.S. Centers for Disease Control and Prevention; and
- h. For licensed or certified nursing facilities, residential care facilities, intermediate care facilities, assisted living facilities, hospice settings, and correctional facilities.

781.6(22) *Prescribing based solely on an Internet request, Internet questionnaire or a telephonic evaluation—prohibited.* Prescribing to a patient based solely on an Internet request or Internet questionnaire (i.e., a static questionnaire provided to a patient, to which the patient responds with a static set of answers, in contrast to an adaptive, interactive and responsive online interview) is prohibited. Absent a valid physician assistant-patient relationship, a licensee's prescribing to a patient based solely on a telephonic evaluation is prohibited, with the exception of the circumstances described in subrule 781.9(21).

481—782.3(148C,272C) Standards.

782.3(1) *General criteria.* A continuing education activity is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning that contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters that integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program;
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides an individual certificate of completion or evidence of successful completion of the course provided by the course sponsor. This documentation must contain the course title, date(s), contact hours, sponsor and licensee’s name.

782.3(2) *Specific criteria.* Continuing education requirements are as follows:

a. The licensee will complete a minimum of 50 hours of credit designated as Category I by the American Academy of Physician Assistants, the American Medical Association, the American Osteopathic Association Council on Continuing Medical Education, the American Academy of Family Physicians or other organizations accredited by the Accreditation Council for Continuing Medical Education (ACCME).

b. In case of audit, licensees will provide evidence of NCCPA certification during the time period being audited or an activity log for all Category II credits for which a certificate of completion is not available. The activity log will list for each activity the date and type of activity and number of hours claimed per activity.

c. Licensees who maintain certification by the NCCPA may show proof of meeting the board's CME requirements by providing proof of current certification by the NCCPA for the time period being reviewed or audited.

d. A licensee who has prescribed opioids to a patient during the renewal cycle will complete a minimum of two hours of continuing education regarding the guidelines for prescribing opioids for chronic pain, as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services, including recommendations on limitations on dosages and the length of prescriptions, risk factors for abuse, and nonopioid and nonpharmacologic therapy options, as a condition of license renewal. These hours may count toward the 100 hours of continuing education required for license renewal. The licensee will maintain documentation of these hours, which may be subject to audit.

800.6(5) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. 481—801.2(147) Recordkeeping.

801.2(1) A licensee shall maintain sufficient, timely, and accurate documentation in patient records. A licensee's records shall reflect the services provided, facilitate the delivery of services, and ensure continuity of services in the future.

801.2(2) A licensee who provides clinical services shall store records in accordance with state and federal statutes and regulations governing record retention and with the guidelines of the licensee's employer or agency, if applicable. If no other legal provisions govern record retention, a licensee shall store all patient records for a minimum of five years after the date of the patient's discharge, or, in the case of a minor, three years after the patient reaches the age of majority under state law or five years after the date of discharge, whichever is longer.

801.2(3) Electronic recordkeeping. The requirements of this rule apply to electronic records as well as to records kept by any other means. When electronic records are kept, the licensee shall ensure that a duplicate hard-copy record or a backup, unalterable electronic record is maintained.

801.2(4) Correction of records.

a. Hard-copy records. Notations shall be legible, written in ink, and contain no erasures or whiteouts. If incorrect information is placed in the record, it must be crossed out with a single nondeleting line and be initialed by the licensee.

b. Electronic records. If a record is stored in an electronic format, the record may be amended with a signed addendum attached to the record.

801.2(5) Confidentiality and transfer of records. Physical therapists and physical therapist assistants shall preserve the confidentiality of patient records. Upon receipt of a written release or authorization signed by the patient, the licensee shall furnish such physical therapy records, or copies of the records, as will be beneficial for the future treatment of that patient. A fee may be charged for duplication of records,

but a licensee may not refuse to transfer records for nonpayment of any fees. A written request may be required before transferring the record(s).

801.2(6) Retirement or discontinuance of practice. If a licensee is the owner of a practice, the licensee shall notify in writing all active patients and shall make reasonable arrangements with those patients to transfer patient records, or copies of those records, to the succeeding licensee upon knowledge and agreement of the patient.

801.2(7) Nothing stated in these rules shall prohibit a licensee from conveying or transferring the licensee's patient records to another licensed individual who is assuming a practice, provided that written notice is furnished to all patients.

481—801.3(147) Telehealth visits. A licensee may provide physical therapy services to a patient utilizing a telehealth visit if the physical therapy services are provided in accordance with all requirements of this chapter.

801.3(1) “Telehealth visit” means the provision of physical therapy services by a licensee to a patient using technology where the licensee and the patient are not at the same physical location for the physical therapy session.

801.3(2) A licensee engaged in a telehealth visit shall utilize technology that is secure and HIPAA-compliant pursuant to the Health Insurance Portability and Accountability Act of 1996, PL 104–191, August 21, 1996, 110 Stat. 1936, and any amendments as of December 8, 2023, and that includes, at a minimum, audio or video equipment or both, that allows two-way real-time interactive communication between the licensee and the patient. A licensee may use non-real-time technologies to prepare for a physical therapy session or to communicate with a patient between physical therapy sessions.

801.3(3) A licensee engaged in a telehealth visit shall be held to the same standard of care as a licensee who provides in-person physical therapy. A licensee shall not utilize a telehealth visit if the standard of care for the particular physical therapy services cannot be met using technology.

801.3(4) Any physical therapist or physical therapist assistant who provides a physical therapy telehealth visit to a patient located in Iowa shall be licensed in Iowa or have a compact privilege issued by the physical therapy compact commission.

801.3(5) Prior to the first telehealth visit, a licensee shall obtain informed consent from the patient specific to the physical therapy services that will be provided in a telehealth visit. At a minimum, the informed consent shall specifically inform the patient of the following:

- b. The potential for unauthorized access to protected health information; and
- c. The potential for disruption of technology during a telehealth visit.

801.3(6) A licensee shall only provide physical therapy services using a telehealth visit in the areas of competence wherein proficiency in providing the particular service using technology has been gained through education, training, and experience.

801.3(7) A licensee shall identify in the clinical record when physical therapy services are provided utilizing a telehealth visit.

481—801.4(147) Delegation by a supervising physical therapist. A supervising physical therapist may delegate the performance of physical therapy services to a physical therapist assistant only if done in accordance with the statutes and rules governing the practice of physical therapy. A physical therapist assistant may assist in the practice of physical therapy only to the extent allowed by the supervising physical therapist. The supervisory requirements stated in this rule are minimal. It is the professional responsibility and duty of the supervising physical therapist to provide the physical therapist assistant with more supervision if deemed necessary in the supervising physical therapist's professional judgment.

801.4(1) *Supervision requirements.* A supervising physical therapist who delegates the performance of physical therapy services to a physical therapist assistant shall provide supervision to the physical therapist assistant at all times when the physical therapist assistant is providing delegated physical therapy services. Supervision means that the physical therapist shall be readily available on site or telephonically

any time the physical therapist assistant is providing physical therapy services so that the physical therapist assistant may contact the physical therapist for advice, assistance, or instruction.

801.4(2) *Functions that cannot be delegated.* The following are functions that only a physical therapist may provide and that cannot be delegated to a physical therapist assistant:

- a. Interpretation of referrals;
- b. Initial physical therapy evaluation and reevaluations;
- c. Identification, determination, or modification of patient problems, goals, and plans of care;
- d. Final discharge evaluation and establishment of a discharge plan;
- e. Delegation of and instruction in the physical therapy services to be rendered by a physical therapist assistant or unlicensed assistive personnel, including but not limited to specific tasks or procedures, precautions, special problems, and contraindicated procedures; and
- f. Timely review of documentation, reexamination of the patient, and revision of the plan of care when indicated.

801.4(3) *Physical therapist responsibilities.* At all times, the supervising physical therapist shall be responsible for the physical therapy plan of care and for all physical therapy services provided, including all physical therapy services delegated to a physical therapist assistant. In addition, the supervising physical therapist shall:

- a. Be responsible for the evaluation and development of a plan of care for use by the physical therapist assistant; and
- b. Not delegate a physical therapy service that exceeds the competency or skill set of the physical therapist assistant; and
- c. Ensure that a physical therapist assistant holds an active physical therapist assistant license issued by the board or a compact privilege; and
- d. Ensure that a physical therapist assistant is aware of how the supervising physical therapist can be contacted telephonically or by virtual means when the physical therapist is not providing on-site supervision; and
- e. Arrange for an alternate physical therapist to provide supervision when the physical therapist has scheduled or unscheduled absences during time periods in which a physical therapist assistant will be providing delegated physical therapy services; and
- f. Ensure that a physical therapist assistant is informed when a patient's plan of care is transferred to a different supervising physical therapist; and
- g. Directly participate in physical therapy services upon the physical therapist assistant's request for a reexamination, when a change in the plan of care is needed, prior to any planned discharge, and in response to a change in the patient's medical status; and
- h. Hold regularly scheduled meetings with the physical therapist assistant to evaluate the physical therapist assistant's performance, assess the progress of a patient, and make changes to the plan of care as needed. The frequency of meetings should be determined by the supervising physical therapist based on the needs of the patient, the supervisory needs of the physical therapist assistant, and any planned discharge. The supervising physical therapist shall provide direction and instruction to the physical therapist assistant that are adequate to ensure the safety and welfare of the patient.

801.4(4) *Physical therapist assistant responsibilities.* A physical therapist assistant shall only provide physical therapy services under the supervision of a physical therapist. In addition, the physical therapist assistant shall:

- a. Only provide physical therapy services that have been delegated by the supervising physical therapist; and
- b. Only provide physical therapy services that are within the competency and skill set of the physical therapist assistant; and
- c. Consult the supervising physical therapist if the physical therapist assistant believes that any procedure is not in the best interest of the patient; and
- d. Contact the supervising physical therapist regarding any change or lack of change in a patient's condition that may require assessment by the supervising physical therapist; and
- e. Refer inquiries that require interpretation to the supervising physical therapist; and

- f. Ensure that the identification of the supervising physical therapist is included in the documentation for any visit when physical therapy services were provided by the physical therapist assistant; and
- g. Only sign a treatment record if the provision of physical therapy services was done in accordance with the statutes and rules governing the practice of a physical therapist assistant.

801.4(5) Ratio. A physical therapist shall determine the number of physical therapist assistants who can be supervised safely and competently and shall not exceed that number; but in no case shall a physical therapist supervise more than four physical therapist assistants per calendar day. A physical therapist assistant who performs any delegated physical therapy services on behalf of the supervising physical therapist on a particular day shall be counted in determining the maximum ratio, regardless of the location of the physical therapist assistant or the number of patients treated.

801.4(6) Minimum frequency of direct participation by a supervising physical therapist. A supervising physical therapist shall use professional judgment to determine how frequently the physical therapist needs to directly participate in physical therapy services when delegating to a physical therapist assistant, the frequency of which shall be based on the needs of the patient. Direct participation can occur through an in-person or telehealth visit. The supervising physical therapist shall ensure that the patient record clearly indicates which visits included direct participation by the supervising physical therapist. The following are the minimum standards, which are expected to be exceeded when dictated by the supervising physical therapist's professional judgment, for the required frequency of direct participation by the supervising physical therapist when physical therapy services involve delegation to a physical therapist assistant:

a. *Hospital inpatient and skilled nursing.* For hospital inpatients and skilled nursing patients, a supervising physical therapist must directly participate in physical therapy services a minimum of once per calendar week. A calendar week is defined as Sunday through Saturday.

b. *All other settings.* In all other settings, a supervising physical therapist must directly participate in the provision of physical therapy services at least every eighth visit or every 30 calendar days, whichever comes first.

801.4(7) Unlicensed assistive personnel. A physical therapist is responsible for patient care provided by unlicensed assistive personnel under the physical therapist's supervision. A physical therapist is responsible for ensuring the qualifications of any unlicensed assistive personnel and shall maintain written documentation of their education or training. Unlicensed assistive personnel may assist a physical therapist assistant in the delivery of physical therapy services only if the physical therapist assistant maintains in-sight supervision of the unlicensed assistive personnel and the physical therapist assistant is primarily and significantly involved in the patient's care. Unlicensed assistive personnel shall not provide independent patient care unless each of the following standards is satisfied:

a. The physical therapist has direct participation in the patient's treatment or evaluation, or both, each treatment day;

b. Unlicensed assistive personnel may provide independent patient care only while under the on-site supervision of the physical therapist;

c. Documentation made in a physical therapy record by unlicensed assistive personnel shall be cosigned by the physical therapist; and

d. The physical therapist provides periodic reevaluation of any unlicensed assistive personnel's performance in relation to the patient.

481—803.2(148A) Continuing education requirements.

803.2(1) The biennial continuing education compliance period shall extend for a two-year period that begins on the sixteenth day of the birth month and ends two years later on the fifteenth day of the birth month.

803.2(3) No hours of continuing education shall be carried over into the next biennium except for a new licensee. [ARC 7981C, IAB 5/15/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—803.3(148A,272C) Standards.

a. Constitutes an organized program of learning that contributes directly to the professional competency of the licensee;

b. Pertains to subject matters that integrally relate to the practice of the profession;

c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;

d. Fulfills stated program goals, objectives, or both; and

e. Provides proof of attendance to licensees including:

(1) Date, location, course title, presenter(s);

(2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

803.3(2) *Specific criteria.*

a. Licensees may obtain continuing education hours of credit by:

(1) Attending workshops, conferences, or symposiums.

(2) Accessing online training, such as viewing interactive conferences, attending webinars, or completing online training courses.

(3) Completing an American Physical Therapy Association-approved postprofessional clinical residency or fellowship. A licensee will receive 1 hour of credit for every 2 hours spent in clinical residency, up to a maximum of 20 hours. Clinical residency hours may not be used for credit if the licensee is also seeking credit hours earned for postprofessional academic coursework in the same renewal period.

(4) Directly supervising students for clinical education if the students being supervised are from an accredited physical therapist or physical therapist assistant program and are participating in a full-time clinical experience (defined as approximately 40 hours per week, ranging from 1 to 18 weeks). One hour will be awarded for every 160 contact hours of supervision. A maximum of 8 hours for a physical therapist and 4 hours for a physical therapist assistant may be awarded per biennium. The physical therapist or physical therapist assistant must have documentation from the accredited educational program indicating the number of hours spent supervising a student.

1 academic trimester hour = 12 continuing education hours of credit

1 academic quarter hour = 10 continuing education hours of credit

(7) Teaching in an approved college, university, or graduate school. The licensee may receive the following continuing education credits on a one-time basis for the first offering of a course:

1 academic semester hour = 15 continuing education hours of credit

1 academic trimester hour = 12 continuing education hours of credit

Unlicensed assistive personnel may assist an OTA in providing patient care in the absence of an OT only if the OTA maintains in-sight supervision of the unlicensed assistive personnel and the OTA is primarily and significantly involved in that patient's care.

481—843.1(151) Definitions. The following definitions will be applicable to the rules of the Iowa board of chiropractic.

“Active chiropractic physiotherapy” means therapeutic treatment performed by the patient, including but not limited to exercises and functional activities that promote strength, endurance, flexibility, and coordination.

“Acupuncture” means the same as defined in Iowa Code section 148E.1.

“Adjustment/manipulation of neuromusculoskeletal structures” means the use by a doctor of chiropractic of a skillful treatment based upon differential diagnosis of neuromusculoskeletal structures and procedures related thereto by the use of passive movements with the chiropractic physician’s hands or instruments in a manipulation of a joint by thrust so the patient’s volitional resistance cannot prevent the motion. The manipulation is directed toward the goal of restoring joints to their proper physiological relationship of motion and related function, or stimulation of joint receptors. Movement of the joint is by force beyond its active limit of motion, but within physiologic integrity. Adjustment or manipulation commences where mobilization ends and specifically begins when the elastic barrier of resistance is encountered by the doctor of chiropractic and ends at the limit of anatomical integrity. Adjustment or manipulation as described in this definition is directed to the goal of the restoration of joints to their proper physiological relationship and associated functions of motion and related function, release of adhesions or stimulation of joint receptors. Adjustment or manipulation as described in this definition is by hand or instrument. The primary emphasis of this adjustment or manipulation is upon specific joint element adjustment or manipulation and treatment of the articulation and adjacent tissues of the neuromusculoskeletal structures of the body and nervous system, using one or more of the following:

1. Impulse adjusting or the use of sudden, high velocity, short amplitude thrust of a nature that patient volitional resistance is overcome, commencing where the motion encounters the elastic barrier of resistance and ending at the limit of anatomical integrity.
2. Instrument adjusting, utilizing instruments specifically designed to deliver sudden, high velocity, short amplitude thrust.
3. Light force adjusting, utilizing sustained joint traction or applied directional pressure, or both, that may be combined with passive motion to restore joint mobility.
4. Long distance lever adjusting, utilizing forces delivered at some distance from the dysfunctional site and aimed at transmission through connected structures to accomplish joint mobility.

481—843.2(147,272C) Principles of chiropractic ethics. The following principles of chiropractic ethics are adopted by the board for the practice of chiropractic in this state.

843.2(1) These principles are intended to aid chiropractic physicians individually and collectively in maintaining a high level of ethical conduct. These are standards by which a chiropractic physician may determine the propriety of the chiropractic physician’s conduct in the chiropractic physician’s relationship with patients, with colleagues, with members of allied professions, and with the public.

843.2(2) The principal objective of the chiropractic profession is to render service to humanity with full respect for the dignity of the person. Chiropractic physicians should merit the confidence of patients entrusted to their care, rendering to each a full measure of service and devotion.

843.2(3) Chiropractic physicians should strive continually to improve chiropractic knowledge and skill, and should make available to their patients and colleagues the benefits of their professional attainments.

843.2(4) A chiropractic physician should practice a method of healing founded on a scientific basis, and should not voluntarily associate professionally with anyone who violates this principle.

843.2(5) The chiropractic profession should safeguard the public and itself against chiropractic physicians deficient in moral character or professional competence. Chiropractic physicians should observe all laws, uphold the dignity and honor of the profession and accept its self-imposed disciplines. They should expose, without hesitation, illegal or unethical conduct of fellow members of the profession.

843.2(6) A chiropractic physician may choose whom to serve. In an emergency, however, services should be rendered to the best of the chiropractic physician’s ability. Having undertaken the case of a patient, the chiropractic physician may not neglect the patient; and, unless the patient has been discharged, the chiropractic physician may discontinue services only after giving adequate notice.

843.2(7) A chiropractic physician should not dispose of services under terms or conditions that tend to interfere with or impair the free and complete exercise of professional judgment and skill or tend to cause a deterioration of the quality of chiropractic care.

843.2(8) A chiropractic physician should seek consultation upon request, in doubtful or difficult cases, or whenever it appears that the quality of chiropractic service may be enhanced thereby.

843.2(9) A chiropractic physician may not reveal the confidences entrusted in the course of chiropractic attendance, or the deficiencies observed in the character of patients, unless required to do so by law or unless it becomes necessary in order to protect the welfare of the individual or of the community.

843.2(10) The honored ideals of the chiropractic profession imply that the responsibilities of the chiropractic physician extend not only to the individual, but also to society where these responsibilities

deserve interest and participation in activities that have the purpose of improving both the health and well-being of the individual and the community.

A written request may be required before the transfer of the record(s), including, for example, compliance with HIPAA regulations. 843.9(6) A chiropractic physician has a right to review and correct all billings submitted under the chiropractic physician's name or identifying number(s). 481—845.1(151,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 481—504.3(272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 481—Chapter 504:

845.1(1) Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the profession or engaging in unethical conduct or practice harmful or detrimental to the public. This includes representations utilizing the term “physical therapy” when informing the public of the services offered by the chiropractic physician unless a licensed physical therapist is performing such services. Nothing herein will be construed as prohibiting a chiropractic physician from making representations regarding physiotherapy that may be the same as, or similar to, physical therapy or physical medicine as long as treatment is appropriate as authorized in Iowa Code chapter 151. Proof of actual injury need not be established.

845.1(2) Use of untruthful or improbable statements in advertisements and marketing. Use of untruthful or improbable statements in advertisements includes but is not limited to an action by a licensee in making information or intention known to the public that is false, deceptive, misleading or promoted through fraud or misrepresentation, or representations that are likely to cause the average person to misunderstand. The term “advertisements” includes oral, written, electronic, and other types of communication disseminated by or at the direction of a licensee for the purpose of encouraging or soliciting the use of the licensee’s services.

“Endorsement” means the issuance of an Iowa license to practice athletic training to an applicant who is currently licensed in another state that has the same or similar qualifications to those required in Iowa.

861.7(1) The biennial license renewal period for a license to practice athletic training shall begin on March 1 of each odd-numbered year and end on February 28 of the next odd-numbered year. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

861.7(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal two years later.

861.7(3) A licensee seeking renewal shall:

e. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements.

f. The board may select licensees for audit of compliance with the requirements in paragraphs 861.7(4)"*a*" through "*e*."

861.7(5) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as an athletic trainer in Iowa until the license is reactivated. A licensee who practices as an athletic trainer in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 40 hours of continuing education within two years of application for reactivation; and

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in rule 481—500.14(272C).

f. The board may select licensees for audit of compliance with the requirements in paragraphs 885.10(4) “a” to “e.”

885.10(5) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. b. To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

885.10(8) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa but may not practice as a psychologist or health service provider in psychology in Iowa until the license is reactivated. A licensee who practices as a psychologist or health service provider in psychology in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

885.11(3) Provide verification of the license from the jurisdiction in which the applicant has most recently been licensed sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification direct from the jurisdiction’s board office if the verification provides:

- a.* Licensee’s name;
- b.* Date of initial licensure;
- c.* Current licensure status; and
- d.* Any disciplinary action taken against the license.

885.11(4) Provide verification of a current active license in another jurisdiction at the time of application or verification of completion of continuing education taken within two years of the application. If the license has been inactive for less than five years, the applicant must submit verification of 40 hours of continuing education, and if the license has been inactive for more than five years, the applicant must submit verification of 80 hours of continuing education.

A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 481—506.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 481—885.14(17A,147,272C) prior to practicing as a psychologist or health service provider in psychology in this state.

481—885.13(154B,147) Title designations.

885.13(1) Students who are enrolled in an education program that satisfies the requirements of subrule 885.3(1) and who are completing the predoctoral internship may be designated “psychology intern” or “intern in psychology.”

885.13(2) Applicants for licensure who have met educational requirements and who are completing the postdoctoral residency to be eligible for licensure may be designated “psychology resident,” “resident in psychology,” “psychology postdoctoral fellow,” or “postdoctoral fellow in psychology.” The designation of “resident” shall not be used except during a postdoctoral residency that meets the requirements of rule 481—885.6(154B).

885.13(3) Persons who possess provisional licenses shall add the designation “provisional license in psychology” following the “resident,” “intern,” or “fellow” designation.

[ARC 7821C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—885.14(154B) Psychologists’ supervision of persons other than postdoctoral residents in a practice setting.

885.14(1) This rule applies when a psychologist is supervising individuals who are not licensed or who are provisionally licensed and completing the predoctoral internship. This rule does not apply to supervision of an individual completing a postdoctoral residency in accordance with rule 481—885.6(154B), regardless of whether the individual is provisionally licensed or not.

885.14(2) The supervising psychologist will:

a. Be vested with administrative control over the functioning of assistants in order to maintain ultimate responsibility for the welfare of every client. When the employer is a person other than the supervising psychologist, the supervising psychologist must have direct input into administrative matters.

b. Have sufficient knowledge of all clients, including face-to-face contact when necessary, in order to plan effective service delivery procedures. The progress of the work will be monitored through such means as will ensure that full legal and professional responsibility can be accepted by the supervisor for all services rendered. Supervisors will also be available for emergency consultation and intervention.

c. Provide work assignments that are commensurate with the skills of the supervisee. All procedures will be planned in consultation with the supervisor.

d. Work in the same physical setting as the supervisee, unless the supervisee is receiving formal training pursuant to the requirements for licensure as a psychologist. For supervisees working off site while receiving formal licensure training, ensure the off-site location has a licensed mental health provider or primary care provider on site whenever the supervisee is working for purposes of providing emergency consultation.

e. Make public announcement of services and fees; contact with laypersons or the professional community will be offered only by or in the name of the supervising psychologist. Titles of unlicensed persons must clearly indicate their supervised status.

f. Provide specific information to clients when an unlicensed person delivers services to those clients, including disclosure of the unlicensed person’s status and information regarding the person’s qualifications and functions.

g. Inform clients of the possibility of periodic meetings with the supervising psychologist at the client’s, the supervisee’s or the supervisor’s request.

h. Provide for setting and receipt of payment that will remain the sole domain of the employing agency or supervising psychologist.

i. Establish and maintain a level of supervisory contact consistent with established professional standards, and be fully accountable in the event that professional, ethical or legal issues are raised.

j. Provide a detailed job description in which functions are designated at varying levels of difficulty, requiring increasing levels of training, skill and experience. This job description will be made available to representatives of the board and service recipients upon request.

k. Be responsible for the planning, course, and outcome of the work. The conduct of supervision shall ensure the professional, ethical, and legal protection of the client and of the unlicensed persons.

l. Countersign all written reports, clinical records and clinical communications as “Reviewed and Approved” by the supervising psychologist.

481—886.2(272C) Continuing education requirements.

886.2(1) The biennial continuing education compliance period shall extend for a two-year period beginning on July 1 of even-numbered years and ending on June 30 of even-numbered years. [ARC 7822C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—886.3(154B,272C) Standards.

886.3(1) General criteria. A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning that contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters that integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides proof of attendance to licensees in attendance including:
 - (1) Date, location, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

886.3(2) Specific criteria.

b. For all renewal periods following the second license renewal, licensees shall obtain six hours of continuing education pertaining to the practice of psychology in any of the following areas: ethical issues, federal mental health laws and regulations, Iowa mental health laws and regulations, or risk management. For all board members, a maximum of two of these hours may be obtained by providing service as a member of the board as follows:

481—888.2(147,154B,272C) Purpose and scope. The purpose of this chapter is to set the minimum standards of practice for licensees practicing in Iowa. The practice of psychology is occurring in Iowa if the patient or examinee is located in Iowa. Licensees will ensure any interns or residents under supervision adhere to the minimum standards of practice and must comply with the requirements set forth in rule 481—885.9(154B). The APA Code of Ethics, published January 1, 2017, is applicable and enforceable to the extent it does not conflict with any standards of practice set forth in this chapter. A licensee may be disciplined for any violation of this chapter or the APA Code of Ethics.

[ARC 7824C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—888.3(154B) Access to records.

888.3(1) *Clinical records generally.* When records are requested along with a signed release from the patient or the patient’s personal representative, a licensee will provide requested clinical records in a timely manner unless there is a ground for denial under HIPAA (Health Insurance Portability and Accountability Act of 1996, Pub. L. No. 104-191, August 21, 1996, 110 Stat. 1936).

888.3(2) *Psychotherapy notes.* A licensee is not required to release psychotherapy notes in response to a signed release; if a licensee chooses to release psychotherapy notes, a signed release specifically authorizing the release of those notes will be provided.

888.3(3) *Substance use disorder treatment programs.* Licensees who practice in a federally assisted substance use disorder treatment program, also known as a part 2 program, are prohibited from disclosing any information that would identify a patient as having a substance use disorder unless the patient provides written consent in compliance with part 2 requirements.

888.3(4) *Clinical records of minor patients.* A minor patient is a patient who is under the age of 18 and is not emancipated. A licensee is not required to release the clinical records of a minor patient to the minor's personal representative if releasing such records is not in the minor's best interest. When a minor patient reaches the age of 18, the clinical records belong to the patient.

888.3(5) *Clinical records of deceased patients.* A licensee will provide the clinical records of a deceased patient to the deceased patient's executor upon a written request accompanied by a copy of the patient's death certificate and a copy of the legal document identifying the requestor as the patient's executor.

888.3(6) *Forensic records.* A licensee will provide forensic records consistent with the APA Specialty Guidelines for Forensic Psychology published January 2011.

888.3(7) *Board.* A licensee shall provide clinical records, test data, or forensic records to the board as requested during the investigation of a complaint. A licensee is not required to obtain a patient release to send such information to the board because the board is a health oversight agency.

888.3(8) *Exceptions.* These rules do not apply when there is a legal basis for not disclosing requested information.

[ARC 7824C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—888.4(154B) Psychological testing. A licensee may administer psychological tests and assessments to a patient or examinee if the licensee has appropriate training for any psychological test or assessment utilized and the test or assessment is scientifically founded.

888.4(1) *Use of proctors.* A licensee may delegate the administration of a standardized test, intelligence test, or objective personality assessment to an appropriately trained individual. The licensee is responsible for supervising any proctors.

888.4(2) *Release of test data.* A licensee will not provide test data to any person, with the exception that the test data with proper written release, may be disclosed to a licensed psychologist designated by the patient or examinee. A psychologist who receives test data in this manner may not further disseminate the test data.

888.4(3) *Release of test materials.* A licensee shall not disclose test materials to any person, except for another licensed psychologist who has been designated in writing by the subject of a psychological test to receive the records associated with the psychological testing of the subject. A licensee shall not disclose test materials in any administrative, judicial, or legislative proceeding.

481—889.3(148,154B) Educational requirements for conditional prescription certificate—joint rule.

An applicant for a conditional prescription certificate shall have completed a program of study designated by the APA as a program for the psychopharmacology training of postdoctoral psychologists. The program must have included didactic instruction, a clinical experience, and a practicum satisfying the requirements of this rule. A minimum of 40 hours of basic training on clinical assessment skills shall be included as part of the program’s didactic instruction.

889.3(1) Degree. An applicant shall possess a postdoctoral master of science degree in clinical psychopharmacology from a program designated by the APA as a program for the psychopharmacology training of postdoctoral psychologists. The degree program must be a minimum of 30 credit hours, not including the practicum, and shall include coursework in basic science; neuroscience; clinical medicine; pathological basis of disease; clinical pharmacology; psychopharmacology; and professional, ethical and legal issues. A minimum of one-third of the coursework must be completed in a live interactive format. A program must be designated by the APA at the time the degree is conferred.

889.3(2) Clinical experience. An applicant shall have completed a clinical experience in accordance with the requirements of this subrule. During the clinical experience, a psychologist shall learn clinical assessment techniques and pathophysiology through direct observation and hands-on training with a training physician. During the clinical experience, a psychologist shall become competent in health history interviews, physical examinations, and neurological examinations with a medically diverse patient population. The clinical experience must be associated with the psychopharmacology training program from which the psychologist obtained the postdoctoral master of science degree in clinical psychopharmacology.

a. Scope. At the beginning of the clinical experience, the psychologist shall directly observe the training physician performing clinical assessments of patients. After the training physician determines the

psychologist has gained sufficient knowledge, the clinical experience shall transition to the psychologist's performance of clinical assessments of patients under the direct observation of the training physician. After the training physician determines the psychologist has gained sufficient knowledge and experience, the psychologist may perform clinical assessments of patients without being directly observed by the training physician, provided that the training physician is on site at all times when the psychologist is with patients and is reviewing all medical records. A psychologist and a training physician shall have ongoing discussions regarding the psychologist's clinical assessment skills and progress in the clinical experience.

b. Minimum experience. The clinical experience shall consist of a minimum of 600 patient encounters that shall be completed by the end of the practicum.

c. Conflict of interest. A training physician shall not be an employee of the psychologist or otherwise have a conflict of interest that could affect the training physician's ability to impartially evaluate the psychologist's performance. A psychologist may utilize more than one training physician.

d. Milestones. To satisfactorily complete the clinical experience, a psychologist shall demonstrate competency in each of the following:

(1) Perform a health history interview to obtain pertinent information regarding a patient's chief complaint, history of the present illness, past medical and surgical history, family history, allergies, medications, and psychosocial history. The psychologist shall perform a review of systems to elicit a health history and shall appropriately document the health history.

(2) Perform a physical examination in a logical sequence, ensuring appropriate positioning of the patient, proper patient draping, and proper application of the principles of asepsis throughout the examination. The psychologist shall verbalize and assess the components of a general survey and be able to accurately assess all of the following: vital signs, including pulse, respiration, and blood pressure; skin, hair and nails; head, face and neck; eyes; ears, nose, mouth and throat; thorax, lungs and axillae; heart; peripheral vascular system; abdomen; and musculoskeletal system. The psychologist shall differentiate normal laboratory values from abnormal laboratory values and correlate abnormal laboratory values with impaired physiological systems. The psychologist shall identify adverse drug reactions and identify laboratory data and physical signs indicating an adverse drug reaction.

e. Informed consent. At the initial contact, the psychologist shall inform the patient, or the patient's legal guardian when appropriate, of the psychologist's training role in the clinical experience. The psychologist shall provide sufficient information regarding the expectations and requirements of the clinical experience to obtain informed consent and appropriate releases. Upon request, the psychologist shall provide additional information regarding the psychologist's education, training, or experience.

The psychologist and the training director shall maintain documentation accounting for all clinical experience patient encounters, including the dates, times, and locations of all clinical experience patient encounters, and documentation of completion of the milestones defined in these rules. The applicant shall provide additional documentation to the board upon request.

g. Certification. The training physician(s) and the training director shall certify on forms provided by the board that the applicant has successfully completed the minimum number of clinical experience patient encounters required and demonstrated competence in clinical assessment techniques and pathophysiology through completion of the milestones defined in these rules.

a. Scope. At the beginning of the practicum, the psychologist shall directly observe the training physician evaluating and treating patients with mental disorders. After the training physician determines the psychologist has gained sufficient knowledge, the practicum shall transition to the psychologist's evaluation and treatment of patients under the direct observation of the training physician. After the training physician determines the psychologist has gained sufficient knowledge and experience, the psychologist may evaluate and treat patients without being directly observed by the training physician, provided that the training physician is on site at all times when the psychologist is with patients, has personal contact with the patient at each visit, and is reviewing all pertinent medical records. During the practicum, the training physician shall make all final treatment decisions, with consultation from the psychologist prior to making a final determination regarding the psychopharmacological treatment of a patient.

b. Minimum number of hours. A practicum shall consist of a minimum of 400 hours. Only hours spent face to face evaluating and treating patients with mental disorders and hours spent discussing treatment plans with a training physician may count as practicum hours. Time spent by the psychologist providing services that are within the scope of practice of a licensed psychologist, such as psychological examinations and psychotherapy, shall not be counted as practicum hours.

c. Minimum number of patients. A psychologist shall see a minimum of 100 individual patients throughout the practicum. A patient can be counted toward this requirement if the patient has a diagnosed mental disorder and pharmacological intervention is considered as a treatment option, even if a decision is made not to prescribe a psychotropic medication to the patient. Over the course of the practicum, the psychologist shall observe, evaluate, and treat patients encompassing a range of ages and a variety of psychiatric diagnoses.

d. Settings. At least 100 hours of the 400 hours must be completed in a psychiatric setting. At least 100 hours of the 400 hours must be completed in a primary care or community mental health setting.

e. Conflict of interest. A training physician shall not be an employee of the psychologist or otherwise have a conflict of interest that could affect the training physician's ability to impartially evaluate the psychologist's performance. (2) Review of systems. The psychologist shall integrate information learned from patient reports, signs, symptoms, and a review of each major body system, recognizing normal developmental variations.

(3) Medical history interview. The psychologist shall systematically conduct a patient clinical interview, producing a patient's medical, surgical, psychiatric, and medication history, as well as a family medical and psychiatric history, and be able to communicate the findings in written and verbal form.

The applicant shall provide additional documentation to the board upon request.

i. Certification. The training physician(s) and the training director shall certify on forms provided by the board that the psychologist has successfully completed the minimum number of practicum hours, treated the minimum number of patients, and demonstrated competence in the evaluation and treatment of patients with mental disorders through pharmacological intervention through completion of the milestones defined in these rules.

889.3(4) Examination. A psychologist shall pass the Psychopharmacology Examination for Psychologists (PEP) administered by the APA Practice Organization's College of Professional Psychology or by the Association of State and Provincial Psychology Boards. The passing score utilized by the board shall be the passing score recommended by the test administrator. The examination score shall be sent directly from the testing service to the board.

891.10(3) Mandatory reporter training requirements.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities, examines, attends, counsels or treats children in Iowa shall indicate on the renewal application completion of two hours of training in child abuse identification and reporting as required by Iowa Code section 232.69(3) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph 31.10(3) "d."

b. A licensee who, in the course of employment, examines, attends, counsels or treats adults in Iowa shall indicate on the renewal application completion of two hours of training in dependent adult abuse identification and reporting as required by Iowa Code section 235B.16(5) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph 31.10(3) "d."

c. The licensee shall maintain written documentation for five years after mandatory training as identified in paragraphs 31.10(3) "a" and "b," including program date(s), content, duration, and proof of participation.

d. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in 481—Chapter 500.

e. The board may select licensees for audit of compliance with the requirements in paragraphs 31.10(3) "a" to "d."

891.10(4) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

891.10(5) A person licensed to practice as a marital and family therapist or mental health counselor shall keep the person's license certificate and wallet card displayed in a conspicuous public place at the primary site of practice.

The licensee shall be assessed a late fee as specified in 481—subrule 507.3(3). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

891.10(7) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. 891.11(1) An initial license for a behavior analyst or assistant behavior analyst shall be issued with the same expiration date as the applicant's current certification issued by BACB.

891.11(2) The biennial license renewal period for a behavior analyst or assistant behavior analyst shall run concurrent with the licensee's BACB certification. Each license renewed shall be given the expiration date that is on the licensee's current BACB certification. The licensee is responsible for

renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

891.11(3) A licensee seeking renewal shall:

- a. Meet the continuing education requirements required by BACB to renew a certification.
- b. Maintain current certification as a board-certified behavior analyst, board-certified behavior analyst-doctoral, or board-certified assistant behavior analyst issued by BACB.
- c. Submit the completed renewal application and renewal fee before the license expiration date.

891.11(4) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

891.11(5) A person licensed as a behavior analyst or assistant behavior analyst shall keep the person's license certificate and renewal displayed in a conspicuous public place at the primary site of practice.

891.11(6) Late renewal. The license shall become late when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 481—subrule 507.3(5). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

891.11(7) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not engage in the practice of applied behavior analysis for which a license is required in Iowa until the license is reactivated. A licensee who practices applied behavior analysis in a capacity that requires licensure in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

891.11(8) Reactivation. To apply for reactivation of an inactive license, a licensee shall submit a completed renewal application and proof of current certification and shall be assessed a reactivation fee as specified in 481—subrule 507.3(6).

481—891.12(147) Licensee recordkeeping.

891.12(1) A licensee shall maintain sufficient, timely, and accurate documentation in client records.

891.12(2) For purposes of this rule, “client” means the individual, couple, family, or group to whom a licensee provides direct clinical services.

891.12(3) A licensee's records shall reflect the services provided, facilitate the delivery of services, and ensure continuity of services in the future.

891.12(4) Clinical services. A licensee who provides clinical services in any employment setting, including private practice, shall:

a. Store records in accordance with state and federal statutes and regulations governing record retention and with the guidelines of the licensee's employer or agency, if applicable. If no other legal provisions govern record retention, a licensee shall store all client records for a minimum of seven years after the date of the client's discharge or death, or, in the case of a minor, for three years after the client reaches the age of majority under state law or seven years after the date of the client's discharge or death, whichever is longer.

b. Maintain timely records that include subjective and objective data, an assessment, a treatment plan, and any revisions to the assessment or plan made during the course of treatment.

c. Provide the client with reasonable access to records concerning the client. A licensee who is concerned that a client's access to the client's records could cause serious misunderstanding or harm to the client shall provide assistance in interpreting the records and consultation with the client regarding the records. A licensee may limit a client's access to the client's records, or portions of the records, only in exceptional circumstances when there is compelling evidence that such access would cause serious harm to the client. Both the client's request for access and the licensee's rationale for withholding some or all of a record shall be documented in the client's records.

d. Take steps to protect the confidentiality of other individuals identified or discussed in any records to which a client is provided access.

891.12(5) Electronic recordkeeping. The requirements of this rule apply to electronic records as well as to records kept by any other means. When electronic records are kept, the licensee shall ensure that a duplicate hard-copy record or a backup, unalterable electronic record is maintained.

891.12(6) Correction of records.

a. Hard-copy records. Original notations shall be legible, written in ink, and contain no erasures or whiteouts. If incorrect information is placed in the original record, it must be crossed out with a single, nondeleting line and be initialed and dated by the licensee.

b. Electronic records. If a record is stored in an electronic format, the record may be amended with a signed addendum attached to the record.

891.12(7) Confidentiality and transfer of records. Marital and family therapists or mental health counselors shall preserve the confidentiality of client records in accordance with their respective rules of conduct and with federal and state law. Upon receipt of a written release or authorization signed by the client, the licensee shall furnish such therapy records, or copies of the records, as will be beneficial for the future treatment of that client. A fee may be charged for duplication of records, but a licensee may not refuse to transfer records for nonpayment of any fees. A written request may be required before transferring the record(s).

891.12(8) Retirement, death or discontinuance of practice.

a. If a licensee is retiring or discontinuing practice and is the owner of a practice, the licensee shall notify in writing all active clients and, upon knowledge and agreement of the clients, shall make reasonable arrangements with those clients to transfer client records, or copies of those records, to the succeeding licensee.

b. Upon a licensee's death:

(1) The licensee's employer or representative must ensure that all client records are transferred to another licensee or entity that is held to the same standards of confidentiality and agrees to act as custodian of the records.

(2) The licensee's employer or representative shall notify each active client that the client's records will be transferred to another licensee or entity that will retain custody of the records and that, at the client's written request, the records will be sent to the licensee or entity of the client's choice.

891.12(9) Nothing stated in this rule shall prohibit a licensee from conveying or transferring the licensee's client records to another licensed individual who is assuming a practice, provided that written notice is furnished to all clients.

891.13(2) Pay the reactivation fee that is due as specified in 481—Chapter 507.

891.13(3) Provide:

a. Verification of license from the jurisdiction in which the applicant has been most recently licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- (1) Licensee's name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license; and

b. Verification of a current active license in another jurisdiction at the time of application or verification of completion of continuing education taken within two years of the application. 481—895.3(154C) Requirements for licensure. The following criteria shall apply to licensure:

481—895.6(154C) Supervised clinical experience. An applicant for licensure as an independent level social worker must complete a supervised clinical experience as set forth in this rule.

895.6(1) *Minimum requirements.* The supervised clinical experience must satisfy all of the following requirements:

- a. *Timing.* The supervised clinical experience cannot begin until after licensure as a master level social worker.

- b. Duration.* The supervised clinical experience must be a minimum of two years.
- c. Minimum number of hours.* The supervised clinical experience consists of at least 3,000 hours of practice.
- d. Minimum number of direct client hours.* The supervised clinical experience consists of at least 1,500 hours of direct client contact.
- e. Minimum number of direct supervision hours.* The supervised clinical experience consists of at least 110 hours of direct supervision equitably distributed throughout the supervised clinical experience, including at least 24 hours of live or recorded direct observation of client interaction. A maximum of 50 hours of direct supervision may be obtained through group supervision. Direct supervision can occur in person or by using videoconferencing. After 110 hours of direct supervision are complete, ongoing direct supervision will continue to occur for the remainder of the supervised clinical experience.
- f. Number of supervisors.* A supervisee may utilize a maximum of four supervisors at any given time. A supervisee is responsible for notifying each supervisor if another supervisor is also being utilized to allow for coordination as appropriate.
- g. Number of supervisees.* A supervisor will determine the number of supervisees who can be supervised safely and competently and will not exceed that number.
- h. Content.* The supervised clinical experience must involve performing psychosocial assessments, diagnostic practice using the current edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM-5-TR), published March 2022, and providing treatment, including the establishment of treatment goals, psychosocial therapy using evidence-based therapeutic modalities, and differential treatment planning. The supervised clinical experience will prepare the supervisee for independent practice and must include training on practice management, ethical standards, legal and regulatory requirements, documentation, coordination of care, and self-care.

895.6(2) Eligible supervisors. A supervisor must satisfy all of the following requirements:

- a.* Hold an active license as an independent level social worker, mental health counselor, or marital and family therapist in Iowa.
- b.* Have a minimum of three years of independent practice.
- c.* Have completed at least a six-hour continuing education course in supervision or one graduate-level course in supervision.
- d.* Be knowledgeable of the applicable ethical code and licensing rules governing the supervisee.

Any request for a supervisor who does not meet these requirements must be approved by the board before supervision begins.

895.6(3) Supervision plan. Prior to beginning supervision, the supervisee will submit a written supervision plan to the board using the current form published by the board. The supervisee will also submit a written supervision plan to the board prior to beginning supervision with a new supervisor.

895.6(4) Supervision report. When supervision is complete, or when a supervisor ceases providing supervision to the supervisee, the supervisee will ensure a completed supervision report using the current form published by the board is submitted to the board. If the supervisor reports that the supervisee is not adequately prepared for independent licensure, or reports violations of the board's rules or applicable ethical code, the board may require the supervisee to complete additional supervision or training as deemed appropriate prior to licensure.

895.6(5) Supervised clinical experience in other states. An applicant who completed some or all of the supervised clinical experience in another state without obtaining licensure in that state should contact the board to determine whether some or all of the supervised clinical experience completed can be used to qualify for licensure in Iowa.

895.6(6) Grandfather clause. Any new or additional requirements imposed by this rule do not apply to supervision that started prior to July 20, 2022.

[ARC 8057C, IAB 6/12/24, effective 7/17/24; Editorial change: IAC Supplement 9/18/24]

481—895.7(154C) License renewal.

895.7(1) The biennial license renewal period for a license to practice social work will begin on January 1 of odd-numbered years and end on December 31 of the next even-numbered year. Every licensee will renew on a biennial basis. The licensee is responsible for renewing the license prior to its expiration.

Failure of the licensee to receive notice does not relieve the licensee of the responsibility for renewing the license.

895.7(2) Renewal procedures.

a. A licensee seeking renewal will:

(1) Meet the continuing education requirements of rule 481—896.2(154C) and the mandatory reporting requirements of subrule 895.7(3); and

(2) Submit the completed renewal application and renewal fee before the license expiration date.

b. Those persons licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The new licensee will be required to complete a minimum of 27 hours of continuing education per biennium for each subsequent license renewal.

c. Persons licensed to practice social work shall keep their renewal licenses displayed in a conspicuous public place at the primary site of practice.

d. Failure to receive the notice of renewal will not relieve the licensee of the responsibility for submitting the required materials and the renewal fee to the board office 30 days before license expiration.

e. A social worker whose Iowa license is delinquent, closed, retired, voluntarily surrendered, suspended, or revoked cannot advance to a higher level until the license is again active.

895.7(3) Mandatory reporting of child abuse and dependent adult abuse.

a. Effective July 1, 2019, a licensee who regularly examines, attends, counsels or treats children in Iowa will complete an initial two-hour child abuse mandatory reporter training course offered by the department of health and human services within six months of employment, or prior to the expiration of a current certificate. Thereafter, all mandatory reporters will take a one-hour recertification training every three years, prior to the expiration of a current certificate.

b. Effective July 1, 2019, a licensee who regularly examines, attends, counsels or treats adults in Iowa will complete an initial two-hour dependent adult abuse mandatory reporter training course offered by the department of health and human services within six months of employment, or prior to the expiration of a current certificate. Thereafter, all mandatory reporters will take a one-hour recertification training every three years, prior to the expiration of a current certificate.

c. The requirement for mandatory reporter training for identifying and reporting child and dependent adult abuse will be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including waiver of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in 481—Chapter 895.

d. The board may select licensees for audit of compliance with the requirements in paragraphs 895.7(3) “*a*” and “*b*.”

895.7(4) Late renewal. To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

895.7(5) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a social worker in Iowa until the license is reactivated. A licensee who practices as a social worker in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

895.7(6) Upon receiving the information required by this rule and the required fee, board staff will administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

[ARC 8057C, IAB 6/12/24, effective 7/17/24; Editorial change: IAC Supplement 9/18/24]

481—895.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

895.8(1) Submit a reactivation application.

895.8(2) Pay the reactivation fee that is due as specified in 481—subrule 507.19(4).

895.8(3) Provide verification of current competence to practice social work by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant will provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has most recently been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 27 hours of continuing education within two years of application for reactivation or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant will provide the verifications in both subparagraphs 895.8(3)“b”(1) and (2) below plus the verification in subparagraph 895.8(3)“b”(3) or (4) below.

(1) Verification of the license from the jurisdiction in which the applicant has most recently been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license.

(2) Verification of completion of 27 hours of continuing education within two years of application for reactivation or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

1. Bachelor level social worker—the bachelor's level examination; or
2. Master level social worker—the master's level examination; or
3. Independent level social worker—the clinical level examination; or

(4) Verification of continued social work practice at the appropriate or higher level in another state for a minimum of two years immediately preceding the application for reactivation.

A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 481—506.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 481—895.8(17A,147,272C) prior to practicing social work in this state.

This may include providing the client with a detailed verbal explanation or arranging for a qualified interpreter or translator whenever possible. A licensee will provide information in a manner that is understandable and culturally appropriate for the client. Clients will be given sufficient opportunity to ask questions and receive answers about social work services, including electronic delivery of services, if appropriate.

If a client lacks the capacity to provide informed consent, a licensee will protect the client’s interests by seeking permission from an appropriate third party and will inform the client consistent with the client’s level of understanding. In such instances, a licensee will seek to ensure that the third party acts in a manner consistent with the client’s wishes and interests. A licensee will take reasonable steps to enhance the client’s ability to give informed consent.

897.2(3) Supervision.

(5) To seek collaboration or consultation with professional colleagues or administrative superiors on behalf of the client.

b. Before the disclosure is made, on the basis of client consent or other legal basis, a licensee will inform the client, to the extent possible, about the disclosure of confidential information and the potential consequences of the disclosure.

c. A licensee will discuss with clients and other interested parties the nature of confidentiality and limitations of a client's right to confidentiality. A licensee will review with clients the circumstances under

which confidential information may be requested and when disclosure of confidential information may be legally required. This discussion should occur as soon as possible in the professional relationship and as needed throughout the course of the relationship.

d. When a licensee provides counseling or psychosocial therapy services to families, couples, or groups, the licensee will seek agreement among the parties involved concerning each individual's right to confidentiality and obligation to preserve the confidentiality of information shared by others. A licensee will inform participants in family, couples, or group counseling or psychosocial therapy that the licensee cannot guarantee that all participants will honor such agreements.

e. A licensee will inform clients involved in family, couples, marital, or group counseling or psychosocial therapy of the licensee's, the licensee's employer's, and the agency's policy concerning the licensee's disclosure of confidential information among the parties involved in the counseling or psychosocial therapy.

c. A licensee who provides clinical services will store records in accordance with state and federal statutes, rules, and regulations governing record retention and with the guidelines of the licensee's employer or agency, if applicable. 897.2(6) *Access to records.* A licensee who provides clinical services will:

a. Provide the client with reasonable access to records concerning the client. A licensee who is concerned that a client's access to the client's records could cause serious misunderstanding or harm to the client will provide assistance in interpreting the records and consultation with the client regarding the records. A licensee may limit a client's access to the client's records, or portions of the records, only in exceptional circumstances when there is compelling evidence that such access would cause serious harm to the client. Both the client's request and the rationale for withholding some or all of a record should be documented in the client's records.

a. "Dual relationship" means that a licensee develops or assumes a secondary role with a client, including but not limited to a social relationship, an emotional relationship, an employment relationship, or a business association. b. Conflicts of interest.

(1) A licensee will avoid conflicts of interest that interfere with the exercise of professional discretion and impartial judgment.

(3) A licensee will inform the client when a real or potential conflict of interest arises and take reasonable steps to resolve the issue in a manner that makes the client's interests primary and protects the client's interests to the greatest extent possible. In some cases, protecting the client's interests may require termination of the professional relationship with proper referral of the client.

(4) A licensee will not take unfair advantage of any professional relationship or exploit others to further the licensee's personal, religious, political, or business interests.

(5) A licensee who provides services to two or more people who have a relationship with each other will clarify with all parties, when appropriate and in a manner consistent with the confidentiality standards of subrule 897.2(4), which individuals will be considered clients and the nature of the licensee's professional obligations to the various individuals who are receiving services. A licensee who anticipates a conflict of interest among the individuals receiving services or who anticipates having to perform in potentially conflicting roles will clarify, when appropriate and in a manner consistent with the confidentiality standards at subrule 897.2(4), the licensee's role with the parties involved and take appropriate action to minimize any conflict of interest.

e. A licensee will not provide clinical services to an individual with whom the licensee has had prior sexual contact.

897.2(10) *Physical contact.* A licensee will not engage in physical contact with a client when there is a possibility of psychological harm to the client as a result of the contact. A licensee who engages in appropriate physical contact with a client is responsible for setting clear, appropriate, and culturally and age-sensitive boundaries that govern such contact.

897.2(11) *Termination of services.*

a. A licensee will terminate services when such services are no longer required or no longer serve the client's needs or interests.

b. A licensee will take reasonable steps to avoid abandoning clients who are still in need of services. A licensee will assist in making appropriate arrangements for continuation of services when necessary.

c. A licensee will not terminate services to pursue a social, financial, business, romantic, or sexual relationship with a client.

d. A licensee who anticipates the termination or interruption of services to a client will notify the client promptly and seek the transfer, referral, or continuation of services in relation to the client's needs and preferences.

e. A licensee who is leaving an employment setting will inform clients, to the extent possible given the nature of the termination of the employment relationship, of appropriate options for the continuation of services and of the benefits and risks of the options.

f. If the employer who terminates a licensee is also a licensee, the employer will provide notice to clients or allow the licensee the opportunity to provide notice to clients to ensure appropriate case closure or continuation or transfer of services if continued treatment is necessary.

g. A licensee who provides clinical services will comply with the following additional standards regarding termination of the client relationship:

(1) Termination of a client relationship will be documented in the client record. Absent written documentation of termination, the professional relationship will be considered ongoing.

(2) A licensee who practices in a fee-for-service setting may terminate services to a client who is not paying an overdue balance only if the financial contractual arrangements have been made clear to the

client, if the client does not pose an imminent danger to self or others, and if the clinical and other consequences of the current nonpayment have been addressed and discussed with the client. Prior to terminating services under this subrule, a licensee will make reasonable efforts to collect the unpaid fees and will make appropriate referrals for the client.

897.2(12) *Misrepresentations, disclosure.* A licensee will not:

- a. Knowingly make a materially false statement, or fail to disclose a relevant material fact, in a letter of reference, application, referral, report or other document.

6. The name and signature of the authorized person granting permission to cremate the human remains and the authorized person's relationship to the decedent.

7. A representation that the authorized person has the right to authorize the cremation of the decedent in accordance with this rule.

8. A representation that in the event there is another person who has superior priority right to that of the authorized person, the authorized person has made all reasonable efforts to contact that person and has no reason to believe that the person would object to the cremation of the decedent.

9. A representation that a human remains does not contain any material or implants that may be potentially hazardous to equipment or persons performing the cremation.

10. A representation that the authorized person has made a positive identification of the decedent or, if the authorized person is unavailable or declines, there are alternative means of positive identification.

11. The name of the person, funeral establishment or funeral establishment's designee to which the cremated remains are to be released.

12. The manner of the final disposition of the cremated remains.

13. A listing of all items of value and instructions for their disposition.

(2) The cremation permit if required in the jurisdiction of death.

(3) Any other documentation required by this state.

b. If the authorized person is not available to execute the cremation authorization form in person, the funeral director may accept written authorization by facsimile, email, or such alternative written or electronic means the funeral director reasonably believes to be reliable and credible.

c. The authorized person may revoke the authorization and instruct the funeral director or funeral establishment to cancel the cremation. The cremation establishment will honor any instructions from a funeral director or funeral establishment under this rule if the cremation establishment receives instructions prior to beginning the cremation.

900.10(5) *Cremation procedures.*

a. A cremation establishment will cremate human remains within 24 hours of issuance of the delivery receipt as defined in subrule 900.10(1).

b. No cremation establishment will cremate human remains when it has actual knowledge that the human remains contain a pacemaker or have any other implants or materials that will present a health hazard to those performing the cremation and processing and pulverizing the cremated remains.

c. No cremation establishment will refuse to accept human remains for cremation because such human remains are not embalmed.

d. Whenever a cremation establishment is unable or unauthorized to cremate human remains immediately upon taking custody of the remains, the cremation establishment will place the human remains in a holding facility in accordance with the cremation establishment rules and regulations and within the parameters of rules 481—900.5(135,144) and 481—900.6(156).

e. No cremation establishment will accept human remains unless they are delivered to the cremation establishment in a container that prevents the leakage of body fluids.

f. Under no circumstances will an alternative container or casket be opened at the cremation establishment except to facilitate proper cremation.

g. The container in which a human remains is delivered to the cremation establishment will be cremated with the human remains or safely destroyed.

h. The simultaneous cremation of the human remains of more than one person within the same cremation chamber, without the prior written consent of the authorized person, is prohibited. Nothing in this rule, however, will prevent the simultaneous cremation within the same cremation chamber of body parts delivered to the cremation establishment from multiple sources, or the use of cremation equipment that contains more than one cremation chamber.

i. No unauthorized person will be permitted in the holding facility or cremation room while any human remains are being held there awaiting cremation, being cremated, or being removed from the cremation chamber.

j. A cremation establishment will not allow removal of any dental gold, body parts, organs, or any item of value prior to or subsequent to a cremation without previously having received specific written authorization from the authorized person and written instructions for the delivery of these items to the authorized person.

k. Upon the completion of each cremation, and insofar as is practicable, all of the recoverable residue of the cremation process will be removed from the cremation chamber.

l. If all of the recovered cremated remains will not fit within the receptacle that has been selected, the remainder of the cremated remains will be returned to the authorized person or this person's designee in a separate container. The cremation establishment will not return to an authorized person or this person's designee more or less cremated remains than were removed from the cremation chamber.

m. A cremation establishment will not knowingly represent to an authorized person or this person's designee that a temporary cremation container or urn contains the cremated remains of a specific decedent when it does not.

n. Cremated remains will be shipped only by a method that has an internal tracing system available and that provides a receipt signed by the person accepting delivery.

o. A cremation establishment will maintain an identification system that will ensure the identity of human remains in the cremation establishment's possession throughout all phases of the cremation process. A noncombustible tag or disc that includes the name and license number of the cremation establishment and the city and state where the cremation establishment is located will be attached to the plastic bag with the cremated remains or placed in amongst the cremated remains.

900.10(6) *Disposition of cremated remains.* If responsible, the funeral director will supervise the final disposition of the cremated remains as follows:

a. Cremated remains may be disposed of by placing them in a grave, crypt, or niche or by scattering them in a scattering area as defined in these rules, or they may remain in the personal care and custody of the authorized person. After supervising the transfer of cremated remains to the authorized person or place of final disposition, the funeral director will be discharged.

b. Upon the completion of the cremation process, the cremation establishment will release the cremated remains to the funeral establishment or the authorized person or the authorized person's designee. Upon the receipt of the cremated remains, the individual receiving them may transport them in any manner in this state without a burial transit permit and may dispose of them in accordance with this rule. After releasing the cremated remains, the cremation establishment will be discharged from any legal obligation or liability concerning the cremated remains.

c. If, after a period of 60 days from the date of the cremation, the authorizing person or designee has not instructed the funeral director to arrange for the final disposition of the cremated remains, the funeral director may dispose of the cremated remains in any manner permitted by this rule. The funeral establishment, however, will keep a permanent record identifying the site of final disposition. The authorizing person will be responsible for reimbursing the funeral establishment for all reasonable expenses incurred in disposing of the cremated remains. Any entity that was in possession of cremated remains prior to May 22, 2024, may dispose of them in accordance with this rule.

d. Except with the express written permission of the authorizing person, no funeral director or cremation establishment will:

(1) Dispose of cremated remains in a manner or in a location so that the cremated remains are commingled with those of another person. This prohibition will not apply to the scattering of cremated remains in an area located in a cemetery and used exclusively for those purposes.

(2) Place cremated remains of more than one person in the same temporary cremation container or urn.

900.10(7) Scope of rules. These rules will be construed and interpreted as a comprehensive cremation statute, and the provisions of these rules will take precedence over any existing laws containing provisions applicable to cremation, but that do not specifically or comprehensively address cremation.

b. Any licensed funeral director who practiced funeral directing while under the employment of, or while acting as an agent of, the funeral establishment; and

c. The state registrar of vital statistics and the board.

900.11(4) In the event a funeral establishment ceases to do business, the owner or manager of the funeral establishment will identify the person or entity that will be responsible for records to be maintained by a funeral establishment as required in subrules 900.11(1) and 900.11(2). 481—901.3(147,156) Internship and preceptorship.

901.3(1) *Internship.*

a. The intern must serve a minimum of one year of internship under the direct supervision of an Iowa board-certified preceptor. The beginning and ending dates of the internship will be indicated on the internship certificate. The intern will engage in the practice of mortuary science only during the time indicated on the internship certificate.

b. The intern will, during the internship, be a full-time employee with the funeral establishment at the site of internship except as provided in paragraph 901.3(2)“i.”

c. No licensed funeral director will permit any person in the funeral director’s employ or under the funeral director’s supervision or control to serve an internship in funeral directing unless that person has a certificate of registration as a registered intern from the department of inspections, appeals, and licensing. The registration will be posted in a conspicuous place in the intern’s primary place of practice.

d. Registered interns will not advertise or hold themselves out as funeral directors or use the degree F.D. or any other title or abbreviation indicating that the intern is a funeral director.

e. The intern will, during the internship, complete the requirements outlined in subrule 901.3(3), including to embalm not fewer than 25 human remains and direct or assist in the direction of not fewer than

25 funerals under the direct supervision of the certified preceptor and to submit reports on forms furnished by the department of inspections, appeals, and licensing. Work on the first five embalming cases, first five funeral arrangements, and first five funeral or memorial services must be completed in the physical presence of the preceptor. The first 12 embalming cases and the first 12 funeral case reports must be completed and submitted by the completion of the sixth month of the internship.

f. Before being eligible for licensure, the intern must have filed the 25 completed embalming and funeral directing case reports and a 6-month and a 12-month evaluation form with the department of inspections, appeals, and licensing. These reports will be answered in full and signed by both the intern and preceptor.

g. When, for any valid reason, the board determines that the education a registered intern is receiving under the supervision of the present preceptor might be detrimental to the intern or the profession at large, the intern may be required to serve the remainder of the internship under the supervision of a licensed funeral director who is approved by the board.

h. The length of an internship may be extended if the board determines that the intern requires additional time or supervision in order to meet the minimum proficiency in the practice of mortuary science.

i. The board views a one-year internship completed in a consecutive 12-month period as the best training option. If an internship is interrupted, the internship must be completed within 24 months of the date it started in order to be readily accepted by the board. Internships that are not completed within 24 months will be preapproved by the board on such terms as the board deems reasonable under the circumstances. The board may require any or all of the following:

(1) Completion of a college course or continuing education course covering mortuary science laws and rules;

(2) Additional case reports;

(3) Extension of an internship up to an additional 12 months depending on such factors as the number of months completed during the internship, length of time that has lapsed since the intern was actively involved in the internship program, and the experience attained by the intern.

j. Application for change of preceptor or any other alteration must be made in writing and approval granted by the board before the status of the intern is altered.

k. The intern will complete on a form provided by the board a confidential evaluation of the preceptorship program at the end of the internship. This form will be submitted before a funeral director license is issued to the intern.

l. The intern must be approved and licensed following a successful internship before the intern may practice mortuary science.

901.3(2) Preceptorship.

a. A preceptor must have completed a training course within five years prior to accepting an intern. This training course will cover Iowa law and rule content areas including, but not limited to, Iowa law and rules governing licensure and the practice of mortuary science and human resource issues. The training course may be counted toward the continuing education hours required for the licensure biennium in which the training course was completed.

b. Any duly Iowa-licensed funeral director who has been practicing for a minimum of five years and who has not had any formal disciplinary action within the past five years with the board of mortuary science and has completed a preceptor training course detailed in paragraph 901.3(2) "a" will be eligible to be a preceptor.

c. The preceptor will be affiliated with a funeral establishment that has not had any formal disciplinary action within the past five years.

d. The preceptor will certify that the intern engages in the practice of mortuary science only during the time frame designated on the official intern certificate.

e. A preceptor's duties will include the following:

(1) Ensure the intern completes the training program outlined in subrule 901.3(3);

(2) Be physically present and supervise the first five embalming cases, first five funeral arrangements, and first five funeral or memorial services;

- (3) Familiarize the intern in the areas specified by the preceptor training outline;
 - (4) Read, add appropriate comments to, and sign each of the 25 embalming reports and the 25 funeral directing reports completed by the intern;
 - (5) Complete a written six-month report of the intern on a form provided by the board. This report is to be reviewed with and signed by the intern and submitted to the board before the end of the seventh month; and
 - (6) At the end of the internship, complete a confidential evaluation of the intern on a form provided by the board. This evaluation will be submitted within two weeks of the end of the internship. The 12-month report will be submitted to the board for review and approval prior to the board's approval of the intern for licensure.
- f.* Failure of a preceptor to fulfill the requirements set forth by the board, including failure to remit the required six-month progress report, as well as the final evaluation, will result in an investigation of the preceptor by the board and may result in actions which may include, but not be limited to, the loss of preceptor status for current and future interns or discipline or both.
- g.* If a preceptor does not serve the entire year, the board will evaluate the situation; and if a certified preceptor is not available, a licensed funeral director may serve with the approval of the board.
- h.* No licensed funeral director or licensed funeral establishment will have more than one intern funeral director for the first 100 human remains embalmed or funerals conducted per year, with a maximum of two interns per funeral establishment.
- i.* With prior board approval, an intern may serve under the supervision of more than one preceptor under the following terms and conditions:
- (1) A single preceptor must act in the role of the primary preceptor.
 - (2) The primary preceptor is responsible for coordinating all intern training and activities.
 - (3) The intern will be a full-time employee of the funeral establishment of the primary preceptor; however, compensation may be shared between preceptors.
 - (4) The primary preceptor may make arrangements with a maximum of two additional preceptors to share preceptor responsibilities for such purposes as providing an intern with a higher-volume practice or a broader range of intern experiences.
 - (5) Each preceptor will be individually responsible for directly supervising the intern's activities performed under the preceptor's guidance, but the primary preceptor remains responsible for coordinating the intern's activities and submitting all forms to the board.

901.3(3) Intern training requirements.

- a.* The board-approved preceptor will ensure that the intern is knowledgeable of each of the following items during the internship:
- (1) The requirements of the Federal Trade Commission Funeral Rule.
 - (2) The requirements of the Occupational Safety and Health Act.
 - (3) The requirements of the Americans with Disabilities Act.
 - (4) The benefits of the Social Security and Veterans Health Administrations.
 - (5) The requirements of Iowa funeral law and forms (for example, preneed in Iowa Code chapter 523A, death certificates and Iowa burial transit permits in Iowa Code chapter 144, authorized person in Iowa Code chapter 144C, Iowa department of inspections, appeals, and licensing law and rules governing funeral practice, and the board's laws and rules).
- b.* The board-approved preceptor will ensure that the intern performs each of the following under the preceptor's direct supervision:
- (1) Assists with or performs a minimum of ten transfers of human remains.
 - (2) Performs 25 embalmings of human remains to include:

481—901.4(156) Student practicum.

901.4(1) A student may participate in a student practicum in a licensed funeral establishment in Iowa if the student's school is accredited by and in good standing with the American Board of Funeral Service Education (ABFSE). The student practicum must meet the requirements of the ABFSE.

901.4(2) Students serving a practicum in Iowa will be under the direct physical supervision of a funeral director who meets the following requirements:

- a. Has completed the Iowa preceptor training course within the immediately preceding five years.
- b. Has not had any formal disciplinary action within the past five years.
- c. Is affiliated with a funeral establishment that has not had any formal disciplinary action within the past five years.

[ARC 7813C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—901.5(156) Funeral establishment license or cremation establishment license.

901.5(1) A place of business devoted to providing any aspect of mortuary science or cremation services will hold an establishment license issued by the board. An establishment license will not be issued more than 30 days prior to the opening of a new establishment.

- a. A funeral establishment or a cremation establishment will not be operated until it has obtained a license from the board. Each establishment will timely renew the license in order to continue operations.

b. A funeral or cremation establishment will surrender its license to the board if the establishment fails to engage in or ceases to engage in the business for which the license was issued, pursuant to Iowa Code section 156.15(2)“*d.*”

c. A funeral or cremation establishment license is not transferable or assignable.

d. A change in ownership will require the issuance of a new license. A change in ownership will be reported to the board prior to the date ownership will change or, in the case of change of ownership by death or other unexpected event, within 30 days following change of ownership. The board may request legal proof of the ownership transfer.

e. An establishment license will be issued for a specific physical location. A change in location or site of an establishment will require the submission of an application for a new license and payment of the fee required by 481—subrule 507.9(9). A new establishment license must be issued prior to the commencement of business in a new location.

f. A change in the name of an establishment will be reported to the board within 30 days. The establishment owner will pay the fee for reissuing the license.

g. A change in address or of the funeral director in responsible charge will be reported to the board within 30 days.

h. An establishment will have an employment or other relationship with one or more licensed funeral directors who will perform all mortuary science services for which licensure as a funeral director is required by Iowa Code chapter 156. A cremation establishment is not, however, required to employ or contract with a funeral director on an ongoing basis because a cremation establishment will not offer services directly to the general public. When a funeral establishment has an employment or other relationship with multiple funeral directors, the funeral establishment will designate the funeral director who will be in responsible charge of all mortuary science services performed at the funeral establishment. The funeral establishment will report to the board any change of the funeral director in responsible charge within 30 days of the change.

i. The board will not routinely issue more than one establishment license for a single location, but the board may do so if the multiple applicants provide proof, satisfactory to the board, that the establishments are wholly separate except for the sharing of facilities. If the board issues more than one establishment license for a single location, the licensees will ensure that the public will not be confused or deceived as to the establishment with which the public is interacting. A facility may have a funeral establishment license and a separate cremation establishment license at a single location.

j. The establishment license will be displayed in a conspicuous place at the location of the establishment.

k. Failure to comply with any of these rules will constitute grounds for discipline pursuant to 481—Chapter 904 or civil penalties for unlicensed practice pursuant to 481—Chapter 905.

901.5(2) A funeral establishment or cremation establishment will be subject to applicable local, state and federal health and environmental requirements and will obtain all necessary licenses and permits from the agencies with jurisdiction.

901.5(3) License application. Complete an online application on the Iowa board of mortuary science website and pay the nonrefundable funeral or cremation application fee. If there is both a funeral establishment and a cremation establishment at the same location, two establishment license applications will be required, along with the payment of two establishment application fees. The application will contain all of the following:

a. The name, mailing address and telephone number of the applicant.

b. The physical location of the establishment.

c. The mailing address, telephone number, fax number and email address of the establishment.

d. The name, home address and telephone number of the individual in charge who has the authority and responsibility for the establishment’s compliance with laws and rules pertaining to the operation of the establishment.

e. The name and address of all owners and managers of the establishment (e.g., sole proprietor, partner, director, officer, managing partner, member, or shareholder with 10 percent or more of the stock).

f. The legal name of the establishment and all trade names, assumed names, or other names used by the establishment.

g. The signature of the responsible authority at the site of the establishment and an acknowledgment of the funeral director in responsible charge of mortuary science services at the funeral establishment that the funeral director is aware of and consents to the designation.

h. The names and license numbers of all funeral directors employed by or associated with the establishment through contract or otherwise who provide mortuary science services at or for the establishment. When a funeral establishment has an employment or other relationship with multiple funeral directors, the funeral establishment will designate the funeral director who will have responsible charge of all mortuary science services performed at the funeral establishment. No funeral establishment will be issued a license if it fails to designate the funeral director in responsible charge of the mortuary science services to be performed at the establishment.

i. All felony or misdemeanor convictions of the applicant and all owners and managing officers of the applicant (except minor traffic offenses with fines of less than \$500).

j. All disciplinary actions against any professional or occupational license of the applicant by any jurisdiction including, but not limited to, disciplinary action by the Iowa insurance division under Iowa Code chapter 523A or 523I or action by the Federal Trade Commission.

k. Further information that the board may reasonably require, such as whether the establishment includes a preparation room.

[ARC 7813C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—901.6(156) Renewal of funeral director license.

901.6(1) The biennial license renewal period for a license to practice as a funeral director will begin on the sixteenth day of the licensee's birth month and end on the fifteenth day of the licensee's birth month two years later. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

901.6(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later. Continuing education hours acquired any time from the initial licensing until the second license renewal may be used. The licensee will be required to complete a minimum of 24 hours of continuing education per biennium for each subsequent license renewal, with 2 of the 24 hours covering current Iowa law and rules as identified in 481—paragraph 902.3(2) “*f.*”

901.6(3) A licensee seeking renewal will:

a. Meet the continuing education requirements of 481—902.2(272C). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Complete an online renewal application on the board of mortuary science website and pay the renewal fee before the license expiration date.

Persons licensed to practice funeral directing will keep their renewal licenses displayed in a conspicuous public place at the primary site of practice.

901.6(4) Upon receiving the information required by this rule and the required fee, board staff will administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

901.6(5) A person licensed to practice as a funeral director will keep the license certificate displayed in a conspicuous public place at the primary site of practice.

901.6(6) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 481—subrule 507.14(4). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

901.6(7) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa,

but may not practice as a funeral director in Iowa until the license is reactivated. A licensee who practices as a funeral director in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

481—901.7(272C) Renewal of a funeral establishment license or a cremation establishment license.

901.7(1) Renewal.

- a. The renewal cycle will be triennial beginning July 1 and ending on June 30 of the third year.
- b. The renewal will be to complete an online renewal application on the Iowa board of mortuary science website and pay the renewal fee.

901.7(2) Failure to receive notice from the board will not relieve the license holder of the obligation to pay triennial renewal fees on or before the renewal date.

901.7(3) Funeral and cremation establishments will keep their renewal licenses displayed in a conspicuous public place at the primary site of practice.

901.7(4) Late renewal. If the renewal fee and renewal application are received within 30 days after the license renewal expiration date, the late fee for failure to renew before expiration will be charged.

901.7(5) When all requirements for license renewal are met, the licensee will be sent a license renewal card by email.

[ARC 7813C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—901.8(272C) Inactive funeral establishment license or cremation establishment license.

901.8(1) If the renewal application and fee are not postmarked within 30 days after the license expiration date, the funeral establishment license or cremation establishment license is inactive. To reactivate a funeral establishment license or cremation establishment license, complete an online reactivation application on the Iowa board of mortuary science website and pay the reactivation fee.

901.8(2) A funeral establishment or a cremation establishment that has not renewed the funeral establishment license or cremation establishment license within the required time frame will have an inactive license and will not provide mortuary science services until the license is reactivated.

[ARC 7813C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—901.9(17A,147,272C) Reinstatement of a funeral establishment license or a cremation establishment license. For a funeral or cremation establishment license that has been revoked, suspended, or voluntarily surrendered, the owner must apply for and receive reinstatement of the license in accordance with rule 481—506.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 481—901.9(272C) prior to offering mortuary science services from that establishment in this state.

481—901.10(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee will:

901.10(1) Complete an online reactivation application on the Iowa board of mortuary science website and pay the reactivation fee.

901.10(2) Provide verification of current competence to practice as a funeral director by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) If licensed in another jurisdiction, the applicant will submit a licensure verification document from every jurisdiction in which the applicant is or has been licensed that discloses if disciplinary action was taken.

(2) Verification of completion of 24 hours of continuing education that meets continuing education standards defined in rule 481—902.3(156,272C) within two years prior to filing the application for reactivation; and

(3) Verification of completion of two hours of continuing education in current Iowa law and rules covering mortuary science content areas including, but not limited to, Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed. These 2 hours will be included as a part of the 24 hours required in subparagraph 901.11(3)“a”(2).

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) If licensed in another jurisdiction, the applicant will submit a licensure verification document from every jurisdiction the applicant is or has been licensed that discloses if disciplinary action was taken.

(2) Verification of completion of 48 hours of continuing education that meet continuing education standards defined in 481—subrule 902.3(1) and 481—paragraphs 902.3(2)“a,”“b,” “c,” and “e,” within two years prior to filing the application for reactivation. Independent study identified in 481—paragraph 902.3(2)“f” will not exceed 24 hours of the 48 hours; and

(3) Verification of completion of a college course of at least one semester hour or equivalent in current Iowa law and rules covering mortuary science content areas including but not limited to Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed.

481—901.11(17A,147,272C) Reinstatement of a funeral director license. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 481—506.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 481—901.11(17A,147,272C) prior to practicing as a funeral director in this state. Each biennium, a person who holds an active license will be required to complete a minimum of 24 hours of continuing education activity. Two of the 24 hours of continuing education will be in current Iowa law and rules covering mortuary science content areas, including but not limited to Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed. CHAPTER 904
DISCIPLINARY PROCEEDINGS

[Prior to 9/18/24, see Professional Licensure Division[645] Ch 104]

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—904.1(156) Definitions.

“Board” means the board of mortuary science.

“Discipline” means any sanction the board may impose upon licensees.

“Licensee” means an individual licensed pursuant to Iowa Code section 156.4 to practice as a funeral director in Iowa and a person issued an establishment license pursuant to Iowa Code section 156.14 to establish, conduct, or maintain a funeral establishment or cremation establishment in Iowa.

[ARC 7815C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—904.2(17A,147,156,272C) Disciplinary authority. The board is empowered to administer Iowa Code chapters 17A, 147, 156, and 272C and related administrative rules for the protection and well-being of those persons who may rely upon licensed individuals and establishments for the performance of mortuary science services within this state or for clients in this state. To perform these functions, the board is broadly vested with authority to review and investigate alleged acts or omissions of licensees, to determine whether disciplinary proceedings are warranted, to initiate and prosecute disciplinary proceedings, to establish standards of professional conduct, and to impose discipline pursuant to Iowa Code sections 17A.13, 147.55, 272C.3 to 272C.6 and 272C.10 and chapter 156.

[ARC 7815C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—904.3(17A,147,156,272C) Grounds for discipline against funeral directors. The board may initiate disciplinary action against a licensed funeral director based on Iowa Code section 156.9 and any of the following grounds:

904.3(1) Fraud in procuring a license. Fraud in procuring a license includes but is not limited to an intentional perversion of the truth in making application for a license to practice in this state, which includes the following:

a. False representation of a material fact, whether by word or by conduct, by false or misleading allegation, or by concealment of that which should have been disclosed when making application for a license in this state, or

b. Attempting to file or filing with the board or the department of inspections, appeals, and licensing any false or forged diploma or certificate or affidavit or identification or qualification in making an application for a license in this state.

904.3(2) Professional incompetency. Professional incompetency includes but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other practitioners in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care that is ordinarily exercised by the average practitioner acting in the same or similar circumstances.

d. Failure to conform to the minimal standards of acceptable and prevailing practice of a funeral director in this state.

904.3(3) Deceptive practices. Deceptive practices are grounds for discipline, whether or not actual injury is established, and include:

a. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of mortuary science.

b. Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes but is not limited to an action by a licensee in making information or intention known to the public which is false, deceptive, misleading or promoted through fraud or misrepresentation.

- c.* Acceptance of any fee by fraud or misrepresentation.
- d.* Falsification of business records through false or deceptive representations or omissions.
- e.* Submission of false or misleading reports or information to the board, including information supplied in an audit of continuing education, reports submitted as a condition of probation, or any reports identified in this rule.
- f.* Knowingly misrepresenting any material matter to a prospective purchaser of funeral merchandise, furnishings, or services.
- g.* Representing oneself as a funeral director when one's license has been suspended, revoked, or surrendered, or when one's license is on inactive status.
- h.* Permitting another person to use the licensee's license for any purposes.
- i.* Misrepresenting the legal need or other requirement for embalming.
- j.* Fraud in representations as to skill or ability.

904.3(4) Unethical, harmful or detrimental conduct. Licensees engaging in unethical conduct or practices harmful or detrimental to the public may be disciplined whether or not injury is established. Behaviors and conduct that are unethical, harmful or detrimental to the public may include but are not limited to the following actions:

- a.* Practice outside the scope of the profession that requires licensure by a different professional licensing board.
- b.* Any violation of Iowa Code chapter 144.
- c.* Verbal or physical abuse, improper sexual contact, or making suggestive, lewd, lascivious, offensive or improper remarks or advances, if such behavior occurs within the practice of mortuary science or such behavior otherwise provides a reasonable basis for the board to conclude that such behavior would place the public at risk within the practice of mortuary science.
- d.* Betrayal of a professional confidence.
- e.* Engaging in a professional conflict of interest.
- f.* Failure to comply with universal precautions for preventing transmission of infectious diseases as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.
- g.* Embalming or attempting to embalm a deceased human body without first having obtained authorization from a family member or representative of the deceased, except where embalming is done to meet the requirements of applicable state or local law. However, a funeral director may embalm without authority when, after due diligence, no authorized person can be contacted and embalming is in accordance with legal or accepted standards in the community, or the licensee has good reason to believe that the family wishes embalming. The order of priority for those persons authorized to permit embalming is found in Iowa Code section 144C.5. If embalming is performed under these circumstances, the licensee shall not be deemed to be in violation of the prohibition in this paragraph.

- h.* Failure to keep and maintain records as required by Iowa Code chapter 156 and associated rules.

904.3(5) Unlicensed practice.

- d.* Knowingly aiding, assisting, procuring, advising, or allowing a person to unlawfully practice mortuary science, or aiding or abetting a licensee, license applicant or unlicensed person in committing any act or omission which is grounds for discipline under this rule or is an unlawful act by a nonlicensee under Iowa Code section 156.16.

904.3(6) Lack of proper qualifications.

- a.* Continuing to practice as a funeral director without satisfying the continuing education mandated by 481—Chapter 902.
- b.* Acting as a preceptor or continuing education provider without proper board approval or qualification.

c. Habitual intoxication or addiction to the use of drugs, or impairment which adversely affects the licensee's ability to practice in a safe and competent manner.

d. Any act, conduct, or condition, including lack of education or experience and careless or intentional acts or omissions, that demonstrates a lack of qualifications which are necessary to ensure a high standard of professional care as provided in Iowa Code section 272C.3(2) "b."

904.3(7) Negligence by the licensee in the practice of the profession. Negligence by the licensee in the practice of the profession includes:

a. A failure to exercise due care, including negligent delegation of duties or supervision of employees or other individuals, whether or not injury results.

b. Any conduct, practice or condition which impairs a licensee's ability to safely and skillfully practice the profession.

904.3(8) Professional misconduct.

a. Obtaining, possessing, attempting to obtain or possess, or administering controlled substances without lawful authority.

b. Violation of a regulation or law of this state, another state, or the United States, which relates to the practice of mortuary science, including but not limited to Iowa Code chapters 272C, 144, 147, 156, 523A, 523I, 566, and 566A; board rules, including rules of professional conduct set forth in 481—Chapter 900; and regulations promulgated by the Federal Trade Commission relating to funeral services or merchandise, or funeral or cremation establishments, as applicable to the profession. Any violation involving deception, dishonesty or moral turpitude shall be deemed related to the practice of mortuary science.

c. Engaging in any conduct that subverts or attempts to subvert a board investigation, or failure to fully cooperate with a licensee disciplinary investigation or investigation against a nonlicensee, including failure to comply with a subpoena issued by the board or to respond to a board inquiry within 30 calendar days of the date of mailing by certified mail of a written communication directed to the licensee's last address on file at the board office.

d. Revocation, suspension, or other disciplinary action taken by a licensing authority of this state, another state, territory, or country. A stay by an appellate court shall not negate this requirement; however, if such disciplinary action is overturned or reversed by a court of last resort, discipline by the board based solely on such action shall be vacated.

904.3(9) Willful or repeated violations. The willful or repeated violation of any provision of Iowa Code chapter 147, 156, or 272C.

904.3(10) Failure to report.

a. Failure by a licensee or an applicant for licensure to report in writing to the board any revocation, suspension, or other disciplinary action taken by a licensing authority within 30 days of the final action.

b. Failure of a licensee or an applicant for licensure to report, within 30 days of the action, any voluntary surrender of a professional license to resolve a pending disciplinary investigation or action.

c. Failure to notify the board of a criminal conviction within 30 days of the action, regardless of the jurisdiction where it occurred.

d. Failure to notify the board within 30 days after occurrence of any judgment or settlement of malpractice claim or action.

e. Failure to report another licensee to the board for any violations listed in these rules, pursuant to Iowa Code section 272C.9.

f. Failure to report a change of name or address within 30 days after it occurs.

904.3(11) Failure to comply with board order.

a. Failure to comply with the terms of a board order or the terms of a settlement agreement or consent order, or other decision of the board imposing discipline.

b. Failure to pay costs assessed in any disciplinary action.

904.3(12) Being convicted of an offense that directly relates to the duties and responsibilities of the profession. A conviction includes a guilty plea, including Alford and nolo contendere pleas, or a finding or verdict of guilt, even if the adjudication of guilt is deferred, withheld, or not entered. A copy of the guilty plea or order of conviction constitutes conclusive evidence of conviction. An offense directly relates to the

duties and responsibilities of the profession if the actions taken in furtherance of the offense are actions customarily performed within the scope of practice of the profession or the circumstances under which the offense was committed are circumstances customary to the profession.

904.3(13) Violation of the terms of an initial agreement with the impaired practitioner review committee or violation of the terms of an impaired practitioner recovery contract with the impaired practitioner review committee.

904.3(14) Failure to comply with conditions of Iowa Code sections 142C.10 and 142C.10A.

[ARC 7815C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—904.4(17A,147,156,272C) Grounds for discipline against funeral establishments and cremation establishments. The board may initiate disciplinary action against a funeral establishment or cremation establishment, at time of license application or thereafter, based on all grounds set forth in Iowa Code section 156.15, summarized as follows:

904.4(1) The licensee or applicant has been convicted of a felony or any crime related to the practice of mortuary science or implicating the establishment's ability to safely perform mortuary science services, or if the applicant is an association, joint stock company, partnership, or corporation, the managing officer or owner has been convicted of such a crime under the laws of this state, another state, or the United States.

904.4(2) The licensee or applicant, or any owner or employee of the establishment has violated Iowa Code chapter 156, rule 481—904.3(17A,147,156,272C), or any other rule promulgated by the board.

904.4(3) The licensee or applicant knowingly aided, assisted, procured, or allowed a person to unlawfully practice mortuary science.

904.4(4) The licensee or applicant failed to engage in or ceased to engage in the business described in the application for licensure.

904.4(5) The licensee or applicant failed to keep and maintain records as required by Iowa Code chapter 156 or rules promulgated by the board.

904.4(6) The licensee or owner of the establishment has violated the smokefree air Act, Iowa Code chapter 142D.

[ARC 7815C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—904.5(17A,147,156,272C) Method of discipline. The board has the authority to impose the following disciplinary sanctions:

1. Revoke a license.
2. Suspend a license until further order of the board or for a specific period.
3. Prohibit permanently, until further order of the board, or for a specific period, the licensee's engaging in specified procedures, methods, or acts.
4. Place a licensee on probation and impose such conditions as the board may reasonably impose, including but not limited to requiring periodic reporting to the board designated features of the licensee's practice of mortuary science.
5. Require additional education or training. The board may specify that a designated amount of continuing education be taken in specific subjects and may specify the time period for completing these courses. The board may also specify whether that continuing education be in addition to the continuing education routinely required for license renewal. The board may also specify that additional continuing education be a condition for the termination of any suspension or reinstatement of a license.
6. Require a reexamination.
7. Order a physical or mental evaluation, or order alcohol and drug screening within a time specified by the board.
8. Impose civil penalties not to exceed \$1,000 against an individual licensed as a funeral director, or not to exceed \$10,000 against a licensed funeral establishment or cremation establishment. Civil penalties may be imposed for any of the disciplinary violations specified in rules 481—904.3(17A,147,156,272C) and 481—904.4(17A,147,156,272C), as applicable.
9. Issue a citation and warning, or reprimand.
10. Refuse to issue or renew a license.
11. Such other sanctions allowed by law as may be appropriate.

[ARC 7815C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—904.6(17A,147,156,272C) Board discretion in imposing disciplinary sanctions. Factors the board will consider when determining the nature and severity of the disciplinary sanction to be imposed, including whether to assess and the amount of civil penalties, include:

1. The relative serious nature of the violation as it relates to ensuring a high standard of professional care to the citizens of this state.
2. Whether the amount of a civil penalty will be a substantial deterrent to the violation.
3. The circumstances leading to the violation.
4. The risk of harm to the public.
5. The economic benefits gained by the licensee as a result of the violation.
6. The interest of the public.
7. Evidence of reform or remedial action.
8. Time lapsed since the violation occurred.
9. Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.
10. The clarity of the issues involved.
11. Whether the violation was willful and intentional.
12. Whether the nonlicensee acted in bad faith.
13. The extent to which the licensee cooperated with the board.
14. Whether a licensee holding an inactive, suspended, restricted or revoked license engaged in practices which require licensure.
15. Any extenuating factors or other countervailing considerations.
16. Number and seriousness of prior violations or complaints.
17. Such other factors as may reflect upon the competency, ethical standards, and professional conduct of the licensee.

[ARC 7815C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—904.7 Reserved.

481—904.8(17A,147,156,272C) Informal discussion. If the board considers it advisable, or if requested by the affected licensee, the board may grant the licensee an opportunity to appear before the board or a committee of the board for a voluntary informal discussion of the facts and circumstances of an alleged violation. The licensee may be represented by legal counsel at the informal discussion. The licensee is not required to attend the informal discussion. By electing to attend, the licensee waives the right to seek disqualification, based upon personal investigation of a board or staff member, from participating in making a contested case decision or acting as a presiding officer in a later contested case proceeding. Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence. The board may seek a consent order at the time of the informal discussion. If the parties agree to a consent order, a statement of charges shall be filed simultaneously with the consent order.

[ARC 7815C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

4. Use or attempted use of a licensee’s certificate or an expired, suspended, revoked, or nonexistent certificate.
5. Falsely impersonating a licensed funeral director.

[ARC 7816C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—905.3(156) Investigations. The board is authorized by Iowa Code sections 17A.13(1) and 156.16 to conduct such investigations as are needed to determine whether grounds exist to impose civil penalties against a nonlicensee. Such investigations will conform to the procedures outlined in this chapter. Complaint and investigatory files concerning nonlicensees are not confidential except as may be provided in Iowa Code chapter 22.

[ARC 7816C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—905.4(156) Subpoenas. Pursuant to Iowa Code sections 17A.13(1) and 156.16, the board is authorized in connection with an investigation of an unlicensed person or establishment to issue subpoenas to compel persons to testify and to compel persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, that the board deems necessary as evidence in connection with the civil penalty proceeding or relevant to the decision of whether to initiate a civil penalty proceeding. Board procedures concerning investigative subpoenas are set forth in rule 481—503.5(17A,272C).

[ARC 7816C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—905.5(156) Notice of intent to impose civil penalties. The notice of the board’s intent to issue an order to require compliance with Iowa Code chapter 156 and to impose a civil penalty will be served upon the nonlicensee by restricted certified mail, return receipt requested, or personal service in accordance with Iowa R. Civ. P. 1.305. Alternatively, the nonlicensee may accept service personally or through authorized counsel. The notice will include the following:

1. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.
2. Reference to the particular sections of the statutes and rules involved.
3. A short, plain statement of the alleged unlawful practices.

4. The dollar amount of the proposed civil penalty and the nature of the intended order to require compliance with Iowa Code chapter 156.

5. Notice of the nonlicensee's right to a hearing and the time frame in which hearing must be requested.

6. The address to which written request for hearing must be made.

[ARC 7816C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—905.6(156) Requests for hearings.

The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

905.6(3) If a request for hearing is timely made, the board will issue a notice of hearing and conduct a contested case hearing in the same manner as applicable to disciplinary cases against licensees.

905.6(4) A nonlicensed person who fails to timely request a contested case hearing will have failed to exhaust "adequate administrative remedies" as that term is used in Iowa Code section 17A.19(1).

481—940.2(157) Initial licensure.

940.2(1) Requirements for licensure. All persons providing services in one or more practice disciplines shall hold a license issued by the board. The applicant shall:

a. Submit a completed online application and pay the nonrefundable fee specified in 481—subrule 507.5(1).

b. Demonstrate professional competence in one of the following ways:

(1) A person who is licensed in another jurisdiction may complete the licensure by endorsement application. If the applicant is licensed in another jurisdiction as an electrologist, nail technologist or esthetician, then a successful applicant will receive a license in such practice discipline. If the applicant is licensed in another jurisdiction as a barber or as a cosmetologist, and the applicant is requesting licensure in the practice discipline of barbering and cosmetology, then a successful applicant will receive a license as a barber and cosmetologist. All applicants must provide a verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license.

(2) A person who is licensed in another jurisdiction who is unable to satisfy the requirements of licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 481—501.1(272C).

(3) An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 481—501.2(272C).

(1) If the applicant graduated from a school that is licensed by the board, the applicant is to direct the educational program to submit to the board a diploma or an official transcript indicating date of graduation and completion of required hours in each practice discipline for which the applicant is requesting licensure.

If an applicant graduates from a licensed school after completing a course of study constituting a legacy curriculum as prescribed in 481—subrule 941.14(6), such graduation will satisfy the education requirement for the applicable practice discipline for which the applicant is requesting licensure. For purposes of this subrule, a legacy curriculum in barbering or a legacy curriculum in cosmetology will be sufficient proof of education for an applicant requesting a license to practice barbering and cosmetology.

(2) If the applicant graduated from a school that is not licensed by the board, the applicant is to direct the school to provide an official transcript showing completion of a course of study that meets the requirements of rule 481—941.14(157).

(3) If the applicant has graduated from an apprenticeship program, the applicant must direct the Iowa office of apprenticeship registered apprenticeship program to submit a certificate of completion.

Failure to comply with paragraph 60.5(6) "b" when the adverse occurrence is related to the use of any procedure or device noted in the attestation may result in the licensee's loss of authorization to administer the procedure or device noted in the attestation or may result in other sanctions provided by law.

940.5(8) A licensee shall not provide any services that constitute the practice of medicine.

[ARC 7920C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—940.6(157) Licensure restrictions relating to practice.

940.6(1) A certified laser product or an intense pulsed light device shall only be used on surface epidermal layers of the skin except for hair removal.

940.6(2) A laser hair removal product or an intense pulsed light device shall not be used on a minor unless the minor is accompanied by a parent or guardian and then shall be used only under general supervision of a physician.

940.6(3) Persons licensed under Iowa Code chapter 157 shall not administer any practice of removing skin by means of a razor-edged instrument.

940.6(4) Persons licensed under this chapter who provide hair removal, manicuring and nail technology services shall not administer any procedure in which human tissue is cut, shaped, vaporized, or otherwise structurally altered, except for the use of a cuticle nipper.

940.6(5) Board-certified licensees providing shaving, microdermabrasion, chemical peels, laser or IPL hair removal treatments in an establishment shall not include any practice, activity, or treatment that constitutes the practice of medicine, osteopathic medicine, chiropractic or acupuncture.

940.6(6) Barbers and cosmetologists licensed prior to July 1, 2005, and licensed estheticians shall only perform medical aesthetic services in a medical spa under the delegation and supervision of a medical director as set forth by the Iowa board of medicine in rule 653—13.8(148,272C). The Iowa board of barbering and cosmetology arts and sciences does not license medical aestheticians.

940.6(7) Persons licensed under this chapter who provide apprenticeship programs must hold an active license sufficient to provide on-the-job training, must operate in an actively licensed establishment, and must comply with relevant Iowa office of apprenticeship laws and regulations for the operation of an apprenticeship program.

940.6(8) Licensees may only perform those services for which they possess the skill and knowledge required to perform the service in a professionally competent manner as set forth in Iowa Code chapter 157 and the related administrative rules and regulations.

[ARC 7920C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—940.7(157) Consent form requirements. A licensed esthetician, barber and cosmetologist, or electrologist, prior to providing services relating to a certified laser product, intense pulsed light device, chemical peel, or microdermabrasion, shall obtain from a client a consent form that:

1. Specifies in general terms the nature and purpose of the procedure(s);
2. Lists known risks associated with the procedure(s) if reasonably determinable;
3. States an acknowledgment that disclosure of information has been made and that questions asked about the procedure(s) have been satisfactorily answered;
4. Includes a signature of either the client for whom the procedure is performed or, if that client for any reason lacks legal capacity to consent, includes the signature of a person who has legal authority to consent on behalf of that client in those circumstances.

481—940.8(157) License renewal.

940.8(1) The biennial license renewal period for a license to practice cosmetology arts and sciences shall begin on April 1 of one year and end on March 31 two years later. All licensees shall renew on a biennial basis.

a. The board may send a renewal notice by regular mail to each licensee at the address on record prior to the expiration of the license.

b. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive the notice does not relieve the licensee of the responsibility for renewing the license.

c. A new or reactivated license granted by the board to a licensee who holds a current license in another practice discipline in barbering and cosmetology arts and sciences may have the same license expiration date as the licensee's other license(s). If the licensee does not have another active license with the board, the license expiration date shall be in the current renewal period unless the license is issued within six months of the end of the renewal cycle and subrule 940.8(2) applies.

940.8(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal two years later.

940.8(3) License renewal.

- a.* A licensee seeking renewal shall:

(1) Meet the continuing education requirements of rule 481—944.2(157). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

(2) Submit the completed online renewal application and renewal fee and upload certificate(s) of completion for related continuing education before the license expiration date.

b. Licensees currently licensed in Iowa but practicing exclusively in another state or serving honorably as active duty military or the spouse of active duty military service personnel may comply with Iowa continuing education requirements for license renewal by meeting the continuing education requirements of the state where the licensee practices. Those licensees living and practicing exclusively in a state that has no continuing education requirement for renewal of a license shall not be required to meet Iowa's continuing education requirement but shall pay all renewal fees when due (Iowa Code section 272C.2(4)).

940.8(4) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

940.8(5) Late renewal. The license shall become late when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 481—subrule 507.5(3). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

940.8(6) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice barbering and cosmetology arts and sciences in Iowa until the license is reactivated. A licensee who practices barbering and cosmetology arts and sciences in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

940.8(7) Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

[ARC 7920C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—940.9(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

940.9(1) Submit a reactivation application on a form provided by the board.

940.9(2) Pay the reactivation fee that is due as specified in rule 481—507.5(147,157).

940.9(3) Provide verification of current competence to practice barbering and cosmetology arts and sciences by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has most recently been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of six hours of continuing education that meet the continuing education standards defined in rule 481—944.3(157,272C) within two years of application for reactivation; or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has most recently been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 12 hours of continuing education that meet the continuing education standards defined in rule 481—944.3(157,272C) within two years of application for reactivation.

940.9(4) Licensees who are instructors of barbering and cosmetology arts and sciences shall obtain an additional six hours of continuing education in teaching methodology as prescribed in 481—Chapter 944.

481—940.10(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 481—506.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 481—940.9(17A,147,272C) prior to practicing barbering and cosmetology arts and sciences in this state.

[ARC 7921C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—941.2(157) Establishment licensing. No person shall operate an establishment unless the owner has obtained a license issued by the board. A separate enclosed area inside an establishment that is operated as an independent business for the purpose of providing barbering and cosmetology services shall be considered its own establishment and shall not operate unless an establishment license is obtained. To determine what defines an independent contractor versus an employee, persons should contact the Iowa division of labor.

941.2(1) The owner shall complete a board-approved application form accompanied by the appropriate fees payable by check or money order to the board of barbering and cosmetology arts and sciences. The fees are nonrefundable. The application shall be completed according to the instructions contained in the application and submitted 30 days prior to the anticipated opening day. If the application is not completed according to the instructions, the application will not be reviewed by the board.

941.2(2) Each establishment shall meet the requirements for sanitary conditions established in 481—Chapter 943 to be eligible for licensing. The establishment may be inspected for compliance with sanitation rules within 12 months following the issuance of the establishment license.

a. The establishment license may be for a fixed location or a location that is readily movable.

(1) Stationary establishment. A stationary establishment license shall be issued for a specific location. A change in location or site of a stationary establishment shall result in the cancellation of the existing license and necessitate application for a new license and payment of the fee required by 481—subrule 507.2(7). A change of address without a change of actual location shall not be construed as a new site.

(2) Readily movable establishment. A readily movable establishment license shall be issued for a permanent physical address. The licensee is required to provide a permanent physical address for board correspondence. A readily movable establishment may operate in a legal parking spot or on private property, with the permission of the owner or the owner's designee, anywhere in the state of Iowa, provided the readily movable establishment is operating in compliance with applicable federal and state transportation, environmental, and sanitary regulations, including those in this chapter and in 481—Chapter 943.

b. Establishment owner's contact information. The listed owner of either a stationary or readily movable establishment must update the board within 30 days of a change in contact information, which includes telephone number, email address, and mailing address.

941.2(3) Business may commence at the establishment following activation of the license.

941.2(4) Incomplete applications that have been on file in the board office for more than two years shall be considered invalid and shall be destroyed. The records will be maintained after two years only if the applicant submits a written request to the board.

941.2(5) An establishment license is not transferable.

a. A change in ownership of an establishment shall require the issuance of a new license.

b. An establishment cannot be sold if disciplinary actions are pending.

c. If an establishment owner sells the establishment, that owner must send the license certificate and a report of the sale to the board within ten days of the date on which the sale is final. The owner of the establishment on record shall retain responsibility for the establishment until the notice of sale is received in the board office.

d. The board may request legal proof of the ownership transfer.

e. If the name or the address of an establishment changes, the owner shall notify the board within 30 days of such change. Additionally, the owner shall return the current certificate and pay the reissued certificate fee as specified in rule 481—507.5(147,157).

[ARC 7921C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—941.3(157) Readily movable establishment. A mobile home, motor home, trailer, or other recreational vehicle may be used as a readily movable establishment if it complies with the following:

941.3(1) The owner shall possess a current readily movable establishment license issued by the board.

941.3(2) The owner shall complete a board-approved application.

941.3(3) The readily movable establishment's owner's telephone number, email address, and permanent address must be included on the application for licensure and must be updated and accurate.

941.3(4) No service may be performed on a client in a moving vehicle. Services shall be performed in a readily movable establishment that is parked in a legal parking spot.

941.3(5) Readily movable establishments must provide:

a. A supply of hot and cold water;

b. Adequate lighting;

c. A floor surface in the service area that is nonabsorbent and easily cleanable;

e. Cabinets secured with safety catches wherein all chemicals shall be stored when the vehicle is moving;

f. A first-aid kit that includes adhesive dressing, gauze and antiseptic, tape, triple antibiotics, eyewash, and gloves.

941.3(6) A readily movable establishment must comply with all rules in 481—Chapter 943, "Infection Control for Establishments and Schools of Barbering and Cosmetology Arts and Sciences," except rules 481—943.6(157) through 481—943.8(157).

481—941.4(157) Establishment license renewal.

941.4(1) The biennial license renewal period for an establishment license shall begin on January 1 of every odd-numbered year and end on December 31 two years later.

941.4(2) A renewal of license notice shall be electronically mailed to the owner of the establishment prior to the expiration of the license. Failure to receive the renewal notice shall not relieve the owner of the obligation to pay the biennial renewal fee on or before the renewal date.

941.4(3) An establishment that is issued a license within six months of the license renewal date will not be required to renew the license until the next renewal two years later.

941.4(4) The establishment owner shall submit the completed application with the renewal fee to the board office before the license expiration date.

941.4(5) An establishment shall be in full compliance with this chapter and 481—Chapter 943 to be eligible for renewal. When all requirements for license renewal are met, the establishment shall be issued a license renewal.

941.4(6) If the renewal fee and renewal application are received in the office after the license expiration date, but within 30 days following the expiration date, the late fee for failure to renew before expiration shall be charged.

[ARC 7921C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—941.5(272C) Inactive establishment license.

941.5(1) An establishment that has not renewed the establishment license within the required time frame will have an inactive license and shall not provide barbering and cosmetology arts and sciences services until the license is reactivated.

941.5(2) To reactivate an establishment license, the reactivation application and fee shall be submitted to the board office.

[ARC 7921C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—941.6(157) Display requirements for establishments.

941.6(1) Every establishment shall have a sign visible outside the entrance designating the place of business.

941.6(2) The most current establishment license proof of renewal shall be posted in the establishment front entrance area to provide the public a full, unobstructed view of the license.

941.6(3) The most current license proof of renewal for each licensee working in the establishment shall be posted in the establishment front entrance area to provide the public a full, unobstructed view of the license.

941.6(4) If the licensee works in more than one establishment, the current proof of renewal shall be posted in the primary place of practice, and the licensee shall be able to provide the renewal upon request.

941.6(5) If a licensed establishment is operating an apprenticeship program, a sign shall be clearly displayed in the entrance of such establishment that indicates in prominent lettering that apprentices are employed at the establishment and may perform services under the supervision of a licensed apprenticeship supervisor.

941.6(6) If any blow-dry stylist(s) engage in the practice of blow-dry styling at a licensed establishment, a sign shall be clearly displayed in the entrance of such establishment that indicates in prominent lettering that blow-dry stylist(s) perform limited services, as defined in Iowa Code section 157.12C, in the licensed establishment.

941.6(7) Each licensee, blow-dry stylist and apprentice shall have a valid U.S. government-issued photo ID to provide to an agent of the board upon request as proof of identity.

[ARC 7921C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

481—941.7(147) Duplicate certificate for establishments.

941.7(1) A duplicate certificate shall be required if the current certificate is lost, stolen or destroyed. A duplicate certificate shall only be issued under such circumstances.

941.7(2) A duplicate establishment certificate shall be issued upon receipt of a completed application and receipt of the fee as specified in 481—subrule 507.5(5).

941.7(3) If the board receives a completed application stating that the owner of the establishment has not received the certificate within 60 days after the certificate is mailed by the board, no fee shall be required for issuing the duplicate certificate.

[ARC 7921C, IAB 5/1/24, effective 7/1/24; Editorial change: IAC Supplement 9/18/24]

961.4(1) An applicant who has been a licensed sign language interpreter or transliterator under the laws of another jurisdiction will file an application for licensure by endorsement with the board office. The board may receive by endorsement any applicant from the District of Columbia or another state, territory, province or foreign country who:

- a. Meets the requirements of rule 481—961.2(154E);
- b. Shows evidence of licensure requirements that are similar to those required in Iowa; and
- c. Provides an equivalency evaluation of foreign educational credentials sent directly from the equivalency service to the board.

961.4(2) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 481—501.1(272C).

961.5(1) The biennial license renewal period for a license to practice as a sign language interpreter or transliterator will begin on July 1 of an odd-numbered year and end on June 30 of the next odd-numbered year. The licensee is responsible for renewing the license prior to its expiration.

961.5(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later.

961.5(3) A licensee applying for renewal will:

- a. Meet the continuing education requirements as provided in 481—subrules 962.2(1) and 962.2(2) or, in lieu of meeting such requirements, provide proof of a current national interpreter certification issued by an organization recognized by the board (e.g., Registry of Interpreters for the Deaf (RID); National Association of the Deaf (NAD); NAD-RID National Interpreter Certification (NIC)) as evidence of meeting continuing education requirements. A licensee whose license was reactivated during the current biennial license period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee, and attach verification of completion of continuing education hours on the website before the license expiration date.

961.5(4) A two-year license will be issued after the requirements of the rule are met. 961.5(6) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

961.5(7) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice until the license is reactivated.

961.6(2) If licensed in another jurisdiction, submit a license verification document that discloses disciplinary action taken against the license in the jurisdiction where the applicant was most recently licensed. The document should come directly from that jurisdiction.

961.6(3) Provide verification of current competence to practice sign language interpreting or transliterating by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has been most recently licensed and has been practicing during the time period in which the Iowa license was inactive sent directly from the jurisdiction to the board office. 481—962.2(154E,272C) Continuing education requirements.

962.2(1) Requirements for permanent licensees. The continuing education compliance period runs concurrently with each two-year renewal period beginning on July 1 of each odd-numbered year and ending on June 30 of the next odd-numbered year. Each person who is licensed to practice as a sign language interpreter or transliterator in this state will be required to complete a minimum of 40 hours of continuing education as specified in rule 481—962.3(154E,272C).

962.2(2) Exception for new permanent licensees. A person licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of the license. Thereafter, the new licensee will complete the continuing education requirements as set forth in rule 481—962.3(154E,272C). The licensee may use continuing education hours acquired anytime from the initial licensing until the second license renewal to meet the requirements.

962.2(3) National Interpreters Certification (NIC) or Registry of Interpreters for the Deaf (RID) Certification. A licensee who provides proof of a current NIC or current RID Certification meets continuing education requirements for that biennium renewal cycle.

962.2(4) Requirements for temporary license holders. The continuing education compliance period runs concurrently with each two-year renewal period beginning on the date of initial licensure. Temporary license holders will be required to obtain 40 hours of continuing education as set forth in rule 481—962.3(154E,272C). The temporary license holder may use only continuing education hours acquired during the current renewal period. Proof of continuing education hours acquired will be submitted with a temporary license renewal application.

962.2(5) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity.

962.2(6) No hours of continuing education will be carried over into the next renewal period.

962.2(7) The licensee is responsible for the cost of continuing education.

[ARC 7830C, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 9/18/24]

481—962.3(154E,272C) Standards.

962.3(1) General criteria. A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Is an organized program of learning fundamental to the practice of the profession that contributes directly to the professional competency of the licensee;
- b. Is conducted by individuals who have specialized education and training in the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- c. Fulfills stated program goals, objectives, or both; and
- d. Provides proof of attendance, including:
 - (1) Date, location, course title, and presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

962.3(2) Specific criteria.

a. Continuing education will be obtained by attending programs relating to the practice of interpreting or transliterating for the deaf or hard of hearing and that are:

- (1) Educational activities, including lectures, conferences, focused seminars, clinical and practical workshops, simultaneous live satellite broadcasts and teleconferences;
- (2) Obtained in content areas that conform to the content areas specified in the RID Certification Maintenance Program Standards and Criteria for Approved Sponsors, revised edition, June 2004, with the exception of the number of continuing education units (CEUs) required, which is defined in paragraph 962.3(2)“b.” RID activity categories of independent study or teaching an academic class are not professional study categories that can be claimed for credit by temporary license holders.

b. Each renewal period, licensees will obtain 40 hours (4 CEUs) of continuing education, including no less than 30 hours (3 CEUs) of professional studies. The remaining 10 hours (1 CEU) may be in either professional or general studies. The board will accept proof of a current NIC or current RID Certification in lieu of proof of the 40 hours of continuing education.

c. Continuing education hours of credit equivalents for academic coursework per biennium are as follows:

- 1 academic semester hour = 15 continuing education hours
- 1 academic quarter hour = 10 continuing education hours
- 1 CEU = 10 continuing education hours

b. Provides evidence of an active license as a nursing home administrator for at least two years just prior to application, or meets the qualifications outlined in rule 481—980.4(155).

980.6(2) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 481—501.1(272C).

[ARC 7971C, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

481—980.7(147,155) License renewal.

980.7(1) The biennial license renewal period for a license to practice nursing home administration will begin on January 1 of each even-numbered year and end on December 31 of the next odd-numbered year. All licensees will renew on a biennial basis. The licensee is responsible for renewing the license prior to its expiration.

980.7(2) An individual who was issued a license within six months of the license renewal date does not need to renew the license until the subsequent renewal two years later.

980.7(3) A licensee applying for renewal shall:

a. Meet the continuing education requirements of rule 481—981.2(272C) and the mandatory reporting requirements of subrule 980.9(8). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

980.7(4) A two-year license will be issued after the requirements of this rule are met. If the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

980.7(5) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 481—subrule 507.10(3). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

980.7(6) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a nursing home administrator in Iowa until the license is reactivated.

980.7(7) Licensees will display their license certificate and proof of active licensure will be in a conspicuous public place at the primary site of practice.

980.7(8) Mandatory reporter training requirements.

a. A licensee who examines, attends, counsels, or treats children, dependent adults, or both in the scope of the licensee's professional practice will complete the applicable department of health and human services training relating to the identification and reporting of child abuse, dependent adult abuse, or both.

Written documentation of training completion should be maintained for three years. The training is not required if the licensee is engaged in active duty military service or holds a waiver demonstrating a hardship in complying with these training requirements.

b. The board may select licensees for audit of compliance with the requirements in subrule 980.7(8).

[ARC 7971C, IAB 5/15/24, effective 6/19/24; Editorial change: IAC Supplement 9/18/24]

980.8(1) Submit a completed online reactivation application and pay the nonrefundable application fee.

980.8(2) Provide verification of current competence to practice as a nursing home administrator by satisfying the following criteria:

a. Verification of the license from the jurisdiction in which the applicant has most recently been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

- (1) Licensee's name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license; and

b. Verification of completion of 40 hours of continuing education within two years of the application for reactivation or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

updated information to the administrator in writing within 10 calendar days of the change. The administrator may deny the application when such a material change in information has occurred and the applicant has failed to provide updated information within the prescribed time frame.

2050.2(6) An applicant for registration to operate an appraisal management company in Iowa must file with the administrator a \$25,000 surety bond in compliance with the provisions of Iowa Code section 543E.19.

2050.2(7) A registration shall lapse on the next succeeding December 31 after it is issued, but a registration granted on or after November 1 and before December 31 shall not lapse until December 31 of the following year. For example, a registration granted on November 17, 2017, would not expire until December 31, 2018. An applicant whose registration is granted on or after November 1 and before December 31 may be required, as determined by the appraisal subcommittee, to pay the fee for registration on the appraisal management company national registry in full for both calendar years. For example, while a registration granted on November 17, 2017, would not lapse until December 31, 2018, the registrant may be required to pay the national registry fee in full for 2017 and 2018.

481—2050.3(17A,543E) Grounds for denial of a registration. The administrator may deny an application for registration to operate an appraisal management company, or issue a registration subject to restriction, for any of the reasons that follow.

2050.3(1) This state or another state or jurisdiction has canceled, revoked, denied, suspended, or refused to renew the applicant's registration to operate an appraisal management company or has denied, suspended, or refused to renew a similar registration under this state's or the other state's or jurisdiction's law. An agreement made between a person and this state or another state or jurisdiction not to operate as an appraisal management company may be considered a denial of that person's registration to operate an appraisal management company in this state or the other state or jurisdiction.

2050.3(2) An owner or controlling person of the applicant has been barred, removed, or prohibited from owning or serving as the controlling person of an appraisal management company, or from serving in any capacity in a financial institution by any state or federal regulatory agency, including but not limited to the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation (FDIC), the Board of Governors of the Federal Reserve System, or the U.S. Department of Housing and Urban Development.

2050.3(3) An owner or controlling person of the applicant is or was the owner or controlling person of another appraisal management company in another state or jurisdiction, if such other state or jurisdiction has canceled, revoked, denied, suspended, or refused to renew the registration or application for registration of such other appraisal management company under this state's or the other state's or jurisdiction's law. An agreement made between a person and this state or another state or jurisdiction not to operate as the owner or controlling person of an appraisal management company may be considered a denial of that person's application to serve as the owner or controlling person of an appraisal management company in this state or the other state or jurisdiction.

2050.3(4) An owner or controlling person of the applicant has been convicted of forgery, embezzlement, obtaining money under false pretenses, theft, extortion, conspiracy to defraud, tax evasion, or another similar offense, in a court of competent jurisdiction in this state or in any other state, territory, or district of the United States or in any foreign jurisdiction. For the purposes of this subrule, "convicted of" includes a guilty plea, deferred judgment, deferred sentence, or other similar finding of guilt by a court of competent jurisdiction.

2050.3(5) The applicant, or an owner or controlling person of the applicant, has made a false submission of material fact on an application for registration or has been otherwise implicated in the submission of a false application.

2050.3(6) An owner or controlling person of the applicant has demonstrated a lack of moral character in a manner that the administrator reasonably believes will impair the ability of the owner or controlling person to operate an appraisal management company in full compliance with the public interest and state policies described in Iowa Code chapter 543E.

2050.3(7) For any reason listed in Iowa Code section 543E.17(1).

2050.3(8) The applicant has failed to include all of the information required in the application or has failed to pay any fee required under Iowa Code chapter 543E or this chapter.

481—2050.4(17A,543E) Renewal of registration.

2050.4(1) To remain registered to operate an appraisal management company in Iowa, a registrant must renew a registration before the date the registration lapses. A registrant who holds a lapsed registration shall not directly or indirectly engage in or attempt to engage in business as an appraisal management company or advertise or hold itself out as engaging in or conducting business as an appraisal management company in Iowa until the administrator has reinstated the lapsed registration or has approved a new registration.

2050.4(2) An application to renew a registration shall be submitted to the administrator, through the NMLS or as otherwise prescribed by the administrator, no earlier than November 1 and no later than December 1 of the year for which the registration is valid. For example, for a registration that will lapse on December 31, 2017, an application for renewal shall be submitted by December 1, 2017. All requested information, including any material change to information contained in the original application, shall be provided to the administrator as directed by the NMLS or as otherwise prescribed by the administrator. Applications for renewal of a registration must be accompanied by a fee as specified in subrule 2050.8(5). The administrator may also assess late fees as specified in subrule 2050.8(5) for applications submitted after December 1.

2050.4(3) The administrator shall grant an application to renew a registration if:

- a. The administrator receives the application and the appropriate renewal fee by December 1, or the administrator receives the application after December 1 but before January 1 and it is accompanied by the appropriate renewal fee and the appropriate late fee;
- b. The application is fully completed and includes all necessary information; and
- c. The application does not reveal grounds that would be sufficient to deny initial registration, or issue a registration subject to restriction, pursuant to rule 481—2050.4(17A,543E).

[ARC 2869C, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

481—2050.5(17A,543E) Reinstatement of lapsed registration.

2050.5(1) The registration of an appraisal management company that has lapsed for failure to satisfy the minimum standards for renewal may be reinstated if the registrant meets the following requirements:

- a. The application for reinstatement is submitted between January 1 and February 28 of the year immediately following the year the registration lapsed.
- b. All minimum requirements for renewal of registration for the year in which the registration lapsed are satisfied prior to submission of the application for reinstatement. The registrant seeking to reinstate a registration must submit all information required to renew a registration pursuant to rule 481—2050.4(17A,543E).
- c. The registrant pays a reinstatement fee as specified in subrule 2050.8(5), in addition to the renewal fee, and any late charges.

2050.5(2) An appraisal management company whose registration has lapsed and who fails to meet the requirements for reinstatement specified in this rule must apply for a new registration and meet the requirements in effect at that time for a new registration.

[ARC 2869C, IAB 12/21/16, effective 1/1/17; Editorial change: IAC Supplement 1/22/25]

2050.6(1) A registrant wishing to change the principal location of an appraisal management company shall notify the administrator through the NMLS, or as otherwise prescribed by the administrator, within 15 days of making the change. The notice shall include proof that the registrant has either obtained a new bond or amended the existing mandatory bond to reflect the new location. The registrant shall submit a fee as specified in subrule 2050.8(5) in association with the change.

2050.6(2) Registrants must notify the administrator no later than 15 days following a change in name and must submit to the administrator a fee as specified in subrule 2050.8(5).

2050.6(3) The prior written approval of the administrator is required whenever a change in ownership of a registrant is proposed. When a change in ownership of a registrant is proposed, the party that will assume ownership of the registrant shall give notice to the administrator through the NMLS, or as otherwise prescribed by the administrator, at least 30 days before the proposed change will take effect. The party that will assume ownership of the registrant shall furnish the administrator through the NMLS, or as otherwise prescribed by the administrator, with the same information required of initial applicants for registration, along with a fee as specified in subrule 2050.8(5). The administrator shall approve or deny the request in accordance with the provisions of rule 481—2050.3(17A,543E).

2050.6(4) The prior written approval of the administrator is required whenever a change of the designated controlling person of a registrant is proposed. When change of the designated controlling person of a registrant is proposed, the party that will become the designated controlling person of the registrant shall give notice to the administrator through the NMLS, or as otherwise prescribed by the administrator, at least 30 days before the proposed change will take effect. The party that will become the designated controlling person of the registrant shall furnish the administrator through the NMLS, or as otherwise prescribed by the administrator, with the same information required of initial applicants for designation as a controlling person, along with the appropriate fee. The administrator shall approve or deny the request in accordance with the provisions of rule 481—2050.3(17A,543E).

2050.6(5) Failure to notify the administrator within the prescribed time as required by this rule may subject the registrant to disciplinary action. However, in the event the death, incapacity, or unexpected resignation of a designated controlling person, or a similar circumstance, makes it impossible for a registrant to provide 30 days' advance notice, no disciplinary action shall be taken if the party that will become the designated controlling person of the registrant provides the notice described in subrule 2050.6(4) promptly and no later than 10 days after learning that a new controlling person must be designated.

- b. The registrant shall maintain all books and records in good order and shall produce books and records for the administrator upon request. Failure to produce such books and records within 30 days of the administrator's request may be grounds for disciplinary action against the registrant.
- c. The obligation to maintain required records continues even after the registrant ceases business operations in Iowa and turns in or surrenders its registration. The owners and directors of the registrant are responsible for ensuring that this requirement is met for the period required under Iowa Code section 543E.13 and this chapter.

“Any mobile health service with a value in excess of one million five hundred thousand dollars,” as defined in Iowa Code section 10A.711(18) *“l,”* means the value of all equipment used to provide the service, including the trailer. The party providing the equipment is the applicant regardless of the location of that party.

“Appropriate geographic service area,” as the term applies to defining affected persons in Iowa Code section 10A.711(1) *“c,”* is defined as follows:

1. For applications regarding hospitals, hospitals located in the same county and in Iowa counties contiguous to the county wherein the applicant hospital’s proposed project will be located.

3. For applications sponsored by other than the hospitals or health care facilities specified in paragraphs “1” and “2,” those providers within the same county who offer similar service or might logically be viewed as potential providers of such service.

“Bed capacity” is defined as follows:

1. For hospitals, bed capacity is defined as the total facility licensed beds as reported on the state survey section of the American Hospital Association Annual Survey of Hospitals.

2. A hospital that has deleted beds pursuant to Iowa Code section 10A.713(2) *“g”* for the purpose of receiving designation as a critical access hospital reestablishes the deleted beds at a later time, provided that the number of beds reestablished does not exceed the number of beds maintained prior to the deletion as reported on the bed reduction form.

“Physical facility,” as the term applies in Iowa Code section 10A.711(18)“f,” means a separately licensed facility.

“Private offices and private clinics of an individual physician, dentist, or other practitioner or group of health care providers.” The meaning of this term as used in Iowa Code section 10A.713(2)“a” is determined by looking at factors that include but are not limited to:

2202.3(2) Upon receipt of a written request from the sponsor of a project, the department will determine if a proposed project requires a certificate of need under Iowa Code sections 10A.711 through 10A.729. The department may request additional information about the project to make the determination.

a. If it is determined that a certificate of need is required, the sponsor will be notified by the department and the request for nonreviewability will be considered the letter of intent for purposes of 2202.2(2).

2202.9(4) If the application for rehearing is granted, the council may issue an order modifying the initial final order, or may set the matter for consideration at a subsequent meeting date. Requests should be made in writing and filed with the department electronically.

2202.14(2) An increase in the actual cost of the project over and above that originally approved will automatically generate review by the council if the increase exceeds the originally approved amount by:

[Prior to 7/29/87, Health Department[470] Ch 203]
[Prior to 9/4/24, see Public Health Department[641] Ch 203]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/5/29

481—2203.1 Reserved.

481—2203.2(10A) Cardiac catheterization and cardiovascular surgery standards.

2203.2(1) *Purpose and scope.*

a. These standards are measures of some of those criteria found in Iowa Code sections 10A.714(1) “a” through “q” and 10A.714(3). Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these cardiac catheterization and cardiovascular surgery standards include:

- (1) Proposals to commence or expand capacity to perform cardiac catheterization.
- (2) Proposals to add new or replace cardiovascular surgery services.
- (3) Any other applications that relate to cardiac catheterization or cardiovascular surgery.

2203.2(2) *Definitions.*

a. Adult cardiac catheterization laboratory—a diagnostic facility exclusively for intracardiac or coronary artery catheterization on adults.

b. Pediatric cardiac catheterization laboratory—the same as adult cardiac catheterization laboratory, except exclusively for children and infants.

c. Cardiac catheterization—

(1) Intracardiac—a diagnostic study of the heart, pulmonary arteries, or both, in which a small catheter passes through a vein or artery in the neck, leg or arm and advances into the great vessels, the heart or the pulmonary arteries. Through this procedure one can measure pressure within the heart and in adjacent veins and arteries, collect blood samples for blood gas analysis and inject radiopaque material, and visualize cardiac and vessel anatomy. The procedure permits detection of congenital and acquired heart abnormalities, the study of ventricular function, the estimation of the orifice size, the placement of pacemakers, etc. Cardiac catheterization is incomplete without cineangiography, intracardiac pressure measurements, blood gas analysis and the ability to diagnose intracardiac shunts.

(2) Coronary artery catheterization—a diagnostic study of the coronary arteries, in which a small catheter passes through an artery in the leg, neck or arm into a coronary artery orifice. Intravascular pressure measurements are taken, and angiography of the coronary arteries is performed. Catheterization and cineangiography of the left ventricle are an integral part of this procedure.

d. Angiography—

The photographic recording of X-ray or radiologic images of blood vessels, in any part of the body—the heart, the head, the great vessels, the kidney, etc. In the procedure blood vessels are injected with a radiopaque chemical. Immediately following injection, X-rays are employed to image the path of the injected chemical. These X-ray images are then photographically recorded.

e. Angiocardiography—

The recording of moving X-ray images (fluoroscopic images) of the heart and great vessels. After injection of radiopaque chemicals, moving X-rays of the chemical’s flow are projected on a screen called a fluoroscope. Moving pictures (cineangiography) or still pictures in sequence (serialography) may be recorded of the X-ray image.

f. Adult cardiovascular surgery—cardiovascular surgery exclusively for adults.

g. Pediatric cardiovascular surgery—cardiovascular surgery exclusively for infants and children.

h. Cardiovascular surgery—the services associated with and surgery performed for congenital or acquired diseases of the heart, great vessels, or pericardium, including the placement of travenous and epicardial pacemakers.

(1) Open heart surgery—cardiovascular surgery in which an incision of sufficient size is made to allow direct vision of the area. Open heart surgery requires temporary use of a heart-lung (cardiopulmonary bypass) machine, as blood flow through the heart is greatly reduced or stopped altogether.

(2) Coronary artery surgery—surgery to correct inadequate blood flow to the heart using revascularization techniques to bypass significantly obstructed coronary artery lesions.

i. Closed heart surgery—cardiovascular surgery in which a small incision and repairs are made without direct vision of the area.

2203.2(3) *Availability of services.*

a. Minimum utilization—cardiovascular surgery (Iowa Code section 10A.714(1) “c,” “g,” “h”).

(1) Adult cardiovascular surgical programs should project an annual minimum rate of over 200, or no approval will be granted. Higher case loads over 200 per annum are encouraged.

(2) Pediatric cardiovascular surgical units should project a minimum of 100 pediatric heart operations after the first year, at least 75 of which must be open heart procedures.

(3) Combined adult/pediatric cardiovascular surgery units should project the minimum projected annual rates for both adult and pediatric surgery.

(4) Applicants should project utilization of cardiovascular surgery, catheterization and cardiac care units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa, and bordering states within the project’s service area.

b. Expansions—cardiovascular surgery (Iowa Code section 10A.714(1) “c,” “d,” “e,” “g,” “h”).

(1) There should be no additional adult cardiovascular surgery units initiated, unless each existing unit within the project’s service area is operating at a minimum of 200 open heart surgery cases per year.

(2) There should be no additional pediatric cardiovascular surgery units initiated, unless each existing unit within the project’s service area is operating at 100 surgeries per year. If one team serves more than one institution, the numbers for those institutions should be combined.

(3) If the annual utilization of the other cardiovascular surgery units within the area is below the levels noted above, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the level must be demonstrated.

(4) The applicant will demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are generally within two hours’ surface travel time for adult services and within three for pediatric services.

c. Minimum utilization—cardiac catheterization (Iowa Code section 10A.714(1) “c,” “d,” “g,” “h”).

(1) Adult cardiac catheterization laboratories should be projected to operate at a minimum of 300 catheterizations per annum.

(2) Pediatric catheterization laboratory units should project a minimum of 150 catheterizations annually.

(3) Combined units should meet each of the adult and pediatric standards.

(4) Applicant should project utilization of cardiac catheterization units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa, and bordering states within the project’s service area.

481—2203.3(10A) Radiation therapy standards.

2203.3(1) Purpose and scope.

a. These standards provide guidelines to assist the council in applying those criteria in Iowa Code sections 10A.714(1)“a” through “r” and 10A.714(3). Criteria that are measured by a standard are cited in parentheses following each standard.

2203.3(2) Definitions.

“*Conjoint radiation oncology center*” or “*cancer center*” means a multi-institution, multidisciplinary network to provide radiation therapy for cancer patients. Integration of patient care management, common utilization of personnel and equipment, and a single system of records between center institutions ensures optimal care regardless of entry portal.

“*Dosimetrist*” means a staff member who calculates, verifies, and develops treatment plans for the radiation dose distributions that will be delivered to patients. The dosimetrist is an essential member of the treatment planning team and works closely with radiation oncologists and radiation physicists.

“*Megavoltage therapy*” means the use of ionizing radiation in excess of one million electron volts. Energies above one million electron volts cause considerably less skin damage, increase depth dose markedly, and result in much less scatter from the therapeutic beam. Megavoltage machines are classified as follows:

1. Electron accelerator. A machine such as a linear accelerator that uses a supply of electrons, which are accelerated into high energy beams. These electron beams are either caused to strike a target resulting in high energy X-ray production or are used themselves as the treatment beam. Electron accelerators generate over one million electron volts.

2. Heavy particle accelerator. A machine such as a cyclotron that produces beams of high energy particles such as protons, neutrons, pions, carbon ions, or other heavy ions with masses greater than that of an electron.

3. Isotope sources (gamma ray teletherapy units).

Cobalt 60 units—emit gamma rays of approximately 1.2 million electron volts.

“*Megavoltage therapy unit*” means a piece of megavoltage therapeutic radiologic equipment that provides megavoltage therapy.

“*New occurrence*” means a course of treatment for a new occurrence on a given patient at a given radiation therapy facility. First-time radiation therapy at a new facility is based on each round of treatment.

“*Radiation modality*” means the method of applying ionizing radiation in the treatment of patients with malignant disease using megavoltage external beam equipment.

“*Radiation oncologist*” means a physician authorized user trained in accordance with 641—subrule 41.3(5).

“*Radiation therapy facility*” or “*facility*” means the physical space that houses a megavoltage therapy unit and accompanying support equipment.

“*Radiation therapy physicist*” means an individual who works closely with radiation oncologists and is responsible for the safe and accurate delivery of radiation to patients. A radiation therapy physicist conducts quality control programs for the equipment and procedures, as well as calibrating the equipment. A radiation therapy physicist shall practice in accordance with 641—subrule 41.3(6).

“*Radiation therapy technologist*” means an individual who possesses an Iowa permit to practice as a radiation therapist in accordance with rule 641—42.7(136C).

“*Service area*” means the county in which the facility is located and any other counties from which the applicant expects to draw patients with a cancer diagnosis who need radiation therapy treatment.

“*Simulation*” means the precise mock-up of a patient treatment with an apparatus that uses planar X-rays, magnetic resonance imaging device, or computed tomography scanner, which is used in reproducing the two-dimensional or three-dimensional internal or external geometry to the patient, for use in treatment planning and delivery.

“*Superficial X-ray therapy*” means the use of a conventional X-ray machine, which generates X-rays of up to 150 kilovolts (150 kv), to treat superficial lesions, such as skin cancer.

“*Treatment*” means radiation fields applied in a single patient visit fraction or delivery session.

2203.3(3) Availability.

(1) A megavoltage radiation therapy unit and cobalt units should treat at least 250 new occurrences annually within three years after initiation of the service.

(2) The expected number of new occurrences needing megavoltage radiation therapy annually in a service area should be calculated as follows:

1. Multiply the service area population times 0.00582 (5.82/1,000 population was the mean cancer incidence rate in 2017 in Iowa as filed by the Surveillance, Epidemiology, and End Results (SEER) Program).

2. Multiply this product times .5 (50 percent of all new occurrences receive radiation therapy).

(3) The expected volume of utilization sufficient to support the need for a new megavoltage therapy unit should be calculated as follows: each unit shall provide a minimum of 5,000 treatments per annum. Megavoltage treatments should be projected by multiplying the number of projected new occurrences needing megavoltage therapy times 20, which will result in no fewer than 5,000 treatments per annum.

(4) Applicants shall account for other providers of radiation therapy in the service area including, but not limited to, factors such as technological capability and quality. [ARC 7933C, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 9/4/24]

481—2203.4(10A) Computerized tomography standards.

2203.4(1) Purpose and scope.

a. These standards are measures of some of those criteria in Iowa Code section 10A.714(1) “a” through “l.” Criteria that are measured by a standard are cited in parentheses following each standard.

- (1) Proposals to commence or expand the capacity of computerized tomography services.
- (2) Any other applications that relate to computerized tomography services.

2203.4(2) Definitions.

a. Computerized tomographic (CT) scanner—a diagnostic tool that rotates about and that sends X-ray beams through the body or brain. The X-ray beams that emerge from the body or brain are absorbed by a detector. Differences in the amount of X-rays absorbed by the detector indicate differences in tissue density. As the scanner rotates, it takes many images of a volume or cross-section. The images on the detector are transmitted to a computer that displays on a monitor a reconstructed cross-sectional slice or volume. Contrast media is often injected to alter absorption of the detector. If the scan is repeated, it is called enhancement. Studies of the heart, arteries and veins may be done with contrast only.

- (1) Whole body scanner—one capable of imaging the entire body.
- (2) Head scanner—one capable of imaging only the brain and structures adjacent to the head.

b. Enhanced scan—a scan performed on a patient who has been administered a contrast medium so that specific organs or areas of the body will be displayed more distinctly on the scan image.

c. Minimum shared-market area for a scanner (hereafter referred to as “area”)—the smallest geographic area within which any scanner installation is judged to affect the utilization rate of any other scanner is the community (as defined by the U.S. Bureau of the Census) or a Standard Metropolitan Statistical Area (where an area is so designated).

d. Emergency medical service (EMS) level II trauma service—the level of various services and staffing that qualify a facility to be designated by the emergency medical service division of the Iowa department of health and human services, using the facilities categorization criteria of such services that is in effect on the date of the enactment of this standard.

e. Shared service agreements—a multi-institutional arrangement for coordination or consolidation of services or sharing of support services. Among the various types of arrangements are referred services, purchased or joint contract services, multisponsored services and regional services.

f. CT consortia—a cooperative venture in which two or more institutions form a separate entity that is created for the purpose of owning, leasing, planning for, and maintaining the use of the scanner. Each facility in the consortium maintains its autonomy for all other services.

g. Applicant—an applicant may be a facility or a consortium of facilities within an area, or a physician or group of physicians.

h. General imaging procedures—a radiological diagnostic procedure performed on an X-ray machine or similar radiological diagnostic instrument.

i. Active oncology service—full, multidisciplinary cancer care, provided by a medical team that would include: surgery, gynecology, medical oncology, radiation oncology, pathology, diagnostic radiology and nuclear medicine. The surgery specialties that might be available would include: thoracic, abdominal, genitourinary and gynecological. The active oncology staff would include those specialists with training in oncology, hematology, and pathology and who spend at least half of their time at the institution.

j. Radiotherapy service—the therapeutic application of megavoltage radiation, using a linear accelerator or cobalt unit. The availability of such service at a hospital would necessitate personnel trained in the therapeutic application of radiology.

k. Chemotherapy service—the treatment of cancer by chemical agents.

2203.4(3) Determination of need.

a. Applicants who do not have a scanner, or who have a scanner and seek a certificate for one or more additional scanners.

100% of the number of patients referred to other facilities for CT diagnosis $\times$ 1.75 (in the case of head scans) and 2.75 (in the case of body scans)

(2) Applicants in areas with one or more scanners.

1. An applicant must meet the requirement of need, described in subparagraph 2203.4(3) “a”(1), and

2. The average level of utilization for scanners within the area was at least 3000 HECTs (plus or minus 10 percent) for the past calendar year or 12 months. The average level of utilization will be determined by adding the number of HECTs performed during the period at all area facilities divided by the number of facilities.

3. The University of Iowa Hospitals and Clinics is specifically exempted from consideration under numbered paragraph 2203.4(3) “a”(2) “2” because it has a service area that encompasses the entire state and adjoining states. The utilization statistics for the University Hospital will therefore neither affect nor be affected by Mercy Hospital, Iowa City. Additionally, the utilization statistics for scanners at the University of Nebraska Hospitals and Clinics and St. Joseph’s Hospital (both in Omaha) will not affect the need for scanners at hospitals in Council Bluffs.

b. Replacement scanners—applicants who currently have a scanner.

(1) All applicants seeking to replace a scanner with another scanner, head or body.

1. The applicant must demonstrate that the applicant’s use of the applicant’s current scanner was at least at the operating capacity level during the last calendar year or 12 months, or

2. Below the operating capacity level, but above 1500 CT scan level, and the applicant must demonstrate reasons for permanently utilizing their scanner below operating capacity level and demonstrate that discontinuation of their scanner service would impair the applicant’s ability to respond to the emergency needs of the area. Reasons for utilizing the scanner below the capacity should include a unique patient or procedure mix that would define the capacity level differently for this applicant.

(2) Reserved.

2203.4(4) Costs and financial feasibility. (Iowa Code section 10A.714(1) “f,” “i,” “p”) CT scanners should be depreciated over a period of not less than seven years. Remodeling shall be depreciated as appropriate by generally accepted accounting principles.

b. Services should be provided to all patients regardless of the patient’s ability to pay, taking into consideration the availability of those programs available in the state that serve the medically indigent.

c. Applicants will demonstrate a willingness to accept referrals for CT services from all area physicians.

2203.4(6) Quality. (Iowa Code section 10A.714(1) “i,” “k”)

a. Data on use and costs of the CT scanners should be submitted to the Iowa department of health and human services as a condition of approval. (Iowa Code section 10A.714(1) “a,” “h”)

Such documentation may include reference to board certification, apprenticeship, academic credentials or such other qualifications that would prompt a medical staff to accept the responsibility for offering this new service. Applicants who intend to acquire staff with the desired expertise should provide signed letters of intent from the incoming medical personnel. Applicants who intend to upgrade the specialty skills of their staff should document a plan for training their current staff in the use of CT scanners.

(3) All applicants should have a complement of other diagnostic modalities available. Applicants seeking body scanners should also have available ultrasound and conventional X-ray services.

(4) All applicants should have the facilities for treating the conditions diagnosed by imaging with the scanner or should demonstrate referral agreements with treatment facilities, in the event that the scanner will be used as a screening device.

“Skilled nursing facility” or “SNF” means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which is

certified by a physician, to three or more individuals not related to the administrator or owner thereof within the third degree of consanguinity who by reason of illness, disease, or physical or mental infirmity require continuous nursing care services and related medical services, but do not require hospital care. The nursing care services provided must be under the direction of a registered nurse on a 24-hour-per-day basis.

“*Urban counties*” means those counties designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

2203.5(3) *Availability and need.* (Iowa Code section 10A.714(1) “c,” “d,” “e,” “g,” “h”)

a. The following formula shall be used as a means of projecting the approximate number of intermediate and skilled nursing care beds needed to serve the projected population five years into the future:

(1) Rural counties:

$[.09(65 + \text{population}) + .0015(64 - \text{population})] \times 110\%$ equals total long-term care bed need

Combined SNF and ICF bed need equals $2/3$ (total long-term care bed need)

Assumed RCF bed need equals $1/3$ (total long-term care bed need).

(2) Urban counties:

$[.07(65 + \text{population}) + .0015(64 - \text{population})] \times 110\%$ equals total long-term care bed need

Combined SNF and ICF bed need equals $2/3$ (total long-term care bed need)

Assumed RCF bed need equals $1/3$ (total long-term care bed need).

(3) Economic development authority population projections are adopted for use in the determination of long-term care bed need.

(4) The department of inspections, appeals, and licensing will calculate long-term care bed need figures annually, using population projections five years into the future.

b. For purposes of comparing “need” to “existing” beds in a given county, the following shall be considered in the calculation of “existing” beds:

(1) ICF and SNF beds licensed at freestanding facilities in the county.

(2) Additional ICF and SNF beds previously approved through certificate of need but not yet licensed.

(3) ICF and SNF beds in designated units in hospitals in the county.

c. The statistical calculation of bed need shall serve as a guideline for the health facilities council in reviewing need for the proposed long-term care beds. Other factors that may be considered by the council include, but are not limited to:

(1) The availability and utilization of other ICF and SNF services in the county, or within the applicant’s service area.

(2) The availability and utilization of other long-term care services in nearby hospitals, such as skilled care available through the swing bed program.

(3) The availability of supportive living arrangements that may or may not be licensed as residential care facilities (RCF).

(4) The availability of home health and other in-home services.

(5) The availability of other services to the elderly.

(6) The availability of ICF and SNF services in neighboring counties.

(7) Utilization by out-of-state residents of facilities in counties bordering other states, where the applicant provides evidence that in-migration of long-term care patients exceeds out-migration to the bordering state.

(8) Programs and services directed at special populations whose needs cannot otherwise be met, or whose needs cannot be met cost-effectively at other facilities.

d. In documenting need for a project, the applicant shall identify the service area and target population, including a description of the methodology used by the applicant in determining need for the requested beds and the expected sources of referrals. The applicant shall document that the number of beds requested is appropriate to address the identified need. The applicant shall also identify how the target population is currently being cared for, and what hardship is being experienced by the absence of the proposed beds.

2203.5(4) *Quality.* (Iowa Code section 10A.714(1) “i,” “k”) The applicant shall document that the applicant has contacted the health and safety division of the department of inspections, appeals, and

licensing to conform with physical standards, staffing requirements, and other licensing requirements to assess the potential for provision of quality care at the facility. When necessary, the applicant shall attempt to arrange an on-site visit to the facility to determine compliance with physical requirements, and shall provide documentation of this site visit or attempts to arrange such a site visit.

2203.5(5) Continuity. (Iowa Code section 10A.714(1) “g,” “h,” “k”)

a. The applicant shall document the relationship of the facility’s proposed services to other health and long-term care services in the community such as physician and hospital services, habilitation, rehabilitation, transportation or other services. The facility should be capable of providing or arranging for the provision of a continuum of long-term care services.

b. The facility should be capable of providing or arranging for the provision of a comprehensive program of coordinated patient services. The applicant shall provide evidence of contracts for services, appropriate staffing patterns and ratios, and licensure of personnel as necessary.

2203.5(6) Accessibility and acceptability. (Iowa Code section 10A.714(1) “c,” “d”)

a. Population subgroups that have traditionally been underserved, such as adolescents, the elderly, women, racial minorities, mentally ill, intellectually disabled, and developmentally disabled should be considered when planning for or reviewing long-term care facilities.

b. The applicant shall document to what extent Medicaid patients will be served by the proposed beds, using past Medicaid utilization as an indicator or, in the case of a new facility, projecting anticipated Medicaid utilization.

2203.5(7) Costs and financial feasibility. (Iowa Code section 10A.714(1) “e,” “f,” “i,” “p”)

a. The applicant shall identify capital and operating costs associated with the project, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. Construction costs shall be in line with construction costs of other similar projects.

c. The applicant shall provide budgets for the first three years of operation, including documentation of all assumptions used. The budget shall include anticipated sources of revenue, including the percentage of revenue from private pay, Medicaid, Medicare and other patient revenues.

d. Proposed charges per patient day should be justifiable when compared to current charges of other similarly licensed facilities in the applicant’s service area, or other similar facilities elsewhere in the state. If charges are significantly higher or lower, the applicant shall provide a description of proposed programs or services that explain the difference in charges.
