c. The reasons for believing that the person lacks the capability to consent to or refuse medical care and the factual basis supported by an appropriate statement for this belief.

d. The patient’s opinion regarding the proposed care, if known, and the source(s) of the information regarding this opinion.

e. If the patient’s opinion regarding the proposed care is not known, the person filing the application shall include a stated opinion on whether the best interests of the patient would be promoted by such care and the basis for the opinion.

f. Any other information that may be necessary to determine the need for such care, including a copy of a second medical or dental opinion which would be required by a prudent physician or dentist based on the nature of the proposed medical care.

g. A statement, completed, signed and dated by a physician or dentist including:

(1) A description of the proposed medical care and the patient’s medical or dental condition which requires such treatment indicating the date of diagnosis;

(2) The risks and benefits to the patient of the proposed care and any alternative treatments including consideration and consequences of nontreatment; and

(3) A statement whether the patient has any medical or dental condition which would prevent the patient's travel to or presence at the panel meeting and including a description of such condition.

*h.* The application shall be signed and dated by the person filing it stating that the information on the application is true to the best of that person's knowledge, except for any portion signed and dated by another person who shall make a similar statement as to that portion.

**641—85.5(135) Notification of patient and review of application.**

**85.5(1)** When an application is received, the patient shall be notified that an application has been submitted, a hearing will be scheduled, and the patient will be notified of the time and place of the hearing. The notification shall inform the patient of the right to be present, to testify orally or in writing, and to designate someone to represent the patient at the hearing. The hearing shall be held no less than 48 hours after the patient receives this notification.

**85.5(2)** The board chairperson or designee shall preliminarily review the application to ascertain whether additional information may be necessary to assist the board in determining the patient's need for surrogate decision making and in determining whether the patient's best interests will be served by consenting to or refusing medical care on the patient's behalf. The board chairperson or designee may:

*a.* Request and shall, notwithstanding any other law to the contrary, be entitled to receive from any physician, hospital or health care facility or person licensed to render health care, any information which is relevant to the patient's need for surrogate decision making or for the proposed medical care. Such information may include, among other things: information regarding the patient's preferences regarding medical care; facts regarding the patient's attorney-in-fact, guardian, spouse, adult child, parent, or an adult sibling; facts and professional opinions regarding the patient's inability to consent to or refuse medical care; and facts and professional opinions regarding whether the proposed medical care is in the patient's best interests; the board chairperson or designee shall maintain the confidentiality of records as required by Iowa Code chapters 22, 141, and 228, and 42 Code of Federal Regulations Part 2, as of January 1, 1992, or any other applicable confidentiality law provision;

*b.* Consult with any other person who might assist in such a determination of the best interests of the patient, including ascertainment of the personal beliefs and values of the patient.

**641—85.6(135) Panel appointment and procedures.**

**85.6(1)** When an application is filed, the chairperson shall appoint a panel to handle the case and designate a panel chairperson. The panel shall consist of at least three members with at least one from each category listed in rule 85.3(135). A person shall not participate on a panel for a case when that person has a conflict of interest. The panel may include the entire local board.

**85.6(2)** Upon appointment of the panel, the board chairperson or designee shall provide a copy of the application to each panel member accompanied by a notice of the time, place and date of the panel hearing on the application. The notice of the hearing shall also be provided to the patient, the person who filed the application, and any other interested party, if known. The notice shall inform the recipients of the procedures of the panel, including the opportunity for the recipient to be present and to be heard. The notice shall be given no less than 24 hours prior to the scheduled time for the hearing.

**85.6(3)** The general procedures of the hearing are as follows:

*a.* The panel shall be empowered to administer oaths and take testimony from any person who might assist the panel in making its decision. It shall also be empowered to conduct its proceeding via telephone conference calls in appropriate cases, unless someone objects and requests a face-to-face hearing.

*b.* A record of the deliberations and proceedings of the panel shall be made and retained for ten years. Such record shall include any information, record, assessment or consultation submitted to or considered by the panel.

*c.* The panel and each member of the local board shall maintain the confidentiality of records as required by Iowa Code chapters 22, 141, and 228 and 42 Code of Federal Regulations Part 2 or any other applicable confidentiality law provision.

*d.* The patient shall have the right to be present at the hearing and the right to express feelings to the panel orally or in writing and the right to designate someone to represent the patient before the panel.

*e.* If at any time during the pendency or prior to initiation of treatment, an attorney-in-fact, guardian, spouse, adult child, parent or an adult sibling is reasonably available, willing and able to consent to or refuse such care on the patient's behalf, objects to the panel acting upon the application, the proceedings regarding such patient shall cease. A record of any such person's objection shall be included as part of the record as provided for by this section.

*f.* The panel shall issue its written decision within 24 hours after the conclusion of the hearing. The decision shall state when the decision shall become effective and shall include a statement describing the right of appeal. The written decision shall be issued to the necessary persons, including the patient.

*g.* If the decision is hand-delivered, it shall not be effective sooner than 24 hours after the written decision is delivered to the patient or the person designated by the patient in 85.6(3) "e." If the decision is sent by certified mail, return receipt requested, it shall not be effective sooner than 48 hours after it is mailed. The date, time, and method of delivery of the decision to the patient shall be noted in the record.

*h.* A panel determination that a patient is in need of surrogate decision making for the proposed medical care shall not be valid for any future medical care and shall not be construed or deemed valid for any other purpose or for any other future medical care unless the determination explicitly applies to related or continuing treatment necessitated by the original treatment. No panel determination shall be valid after 60 days from its effective date unless the determination explicitly states otherwise.

*i.* All information, records, assessments or consultations submitted to or considered by the panel or board and the panel and board deliberations are confidential as required by Iowa Code chapters 22, 141, and 228 and 42 Code of Federal Regulations Part 2 or any other applicable confidentiality law provision.

**641—85.7(135) Panel determination of need for surrogate decision making.** The panel's determination of the patient's need for surrogate decision making shall be made in accordance with the following provisions:

**85.7(1)** The panel shall decide based upon a preponderance of evidence whether the patient is in need of surrogate decision making by determining that the patient: lacks the ability to consent to or refuse the proposed medical care and does not have an attorney-in-fact, guardian, spouse, adult child, parent, or an adult sibling who is reasonably available, willing and able to make such a decision.

The method of determining patient's capability to consent to or refuse care shall include examination of patient by a licensed physician with a written report to the local board.

When practical, the panel members shall personally interview and observe the patient as a part of the hearing. If a personal appearance by the patient before the panel is not practical, then either the panel chairperson shall designate a member of the panel to interview and observe the patient prior to the hearing or the panel shall require one of the following:

1. Written report of examination by psychiatrist.
2. Written report of examination by psychologist.
3. Written report of examination by physician not involved in case.
4. Written report from a department of human services investigator involved with patient.
5. Written report from long-term care case management project.

**85.7(2)** In making the determination of whether the patient lacks the capacity to consent to or refuse the proposed medical care, the panel or board shall consider whether the patient is unable to adequately understand and appreciate the nature and consequences of the proposed medical care.

**85.7(3)** A majority of the panel members must vote in the affirmative that the patient is in need of surrogate decision making or the patient will be deemed not to need surrogate decision making.

**85.7(4)** A panel determination that a patient is in need of surrogate decision making shall not be construed or deemed to be a legal determination that such person is incompetent.

**85.7(5)** In the event the panel or board has determined the patient to be capable of decision making, then the patient's consent to or refusal of such treatment, if given, shall constitute valid consent or refusal. No other consent shall be required by a provider of health services.

**641—85.8(135) Panel determination regarding proposed medical care decision.** If a patient has been determined by the panel to be in need of surrogate decision making, the panel's determination regarding the proposed medical care shall be made in accordance with the following provisions:

**85.8(1)** The past or present expression of wishes by the patient will be presumed valid unless clearly overcome by other evidence. The patient's autonomy should always be respected.

**85.8(2)** If there is no clear preference by the patient, the panel shall make the determination whether the proposed medical care is in the best interests of the patient based upon a preponderance of the evidence by considering the following standards:

*a.* The burdens of the treatment to the patient in terms of pain and suffering outweighing the benefits or whether the proposed treatment would merely prolong the patient's suffering and not provide any net benefit;

*b.* The degree, expected duration, and constancy of pain with and without treatment, and the possibility that the pain could be mitigated by less intrusive forms of medical treatment including the administration of medications;

*c.* The likely prognosis, expectant level of functioning, degree of humiliation and dependency with or without the proposed medical care; and

*d.* Evaluation of treatment options, including nontreatment, and their benefits and risks compared to those of the proposed medical care.

**85.8(3)** A majority of the panel members must vote in the affirmative for a valid determination of consent to or refusal of medical care on behalf of the patient.

**85.8(4)** The panel determination consenting to or refusing medical care shall constitute valid consent to or refusal of such treatment in the same manner and to the same extent as if the patient were able to consent or refuse on the patient's own behalf.

**85.8(5)** The panel's consent to medical care shall state that any tissues or parts surgically removed may be disposed of or preserved by the provider of health services in accordance with customary practice.

**641—85.9(135) Right of appeal.**

**85.9(1)** The patient, the person who filed the application, or a correspondent may appeal the local board's decision to the department. The appeal must be made before the date and time that the consent becomes effective. The person appealing shall notify the local board or the department of the appeal. The notice of the appeal shall be in writing or by telephone followed by a written appeal to the department. If the appeal is initially made by telephone, the written appeal to the department shall be postmarked within 48 hours of the telephone notice. The written appeal shall state the reason for the appeal. If the initial appeal is made to the local board, the local board representative shall immediately notify the department and the health care provider. If the initial appeal is made to the department, the department representative shall immediately notify the local board and the health care provider.

**85.9(2)** Upon receipt of the notice of appeal, the local board shall immediately provide a copy of the record of the case to the department. The department shall review the record to determine whether the determination by the local panel is supported by substantial evidence. The department shall also review new information which is submitted regarding the case. The department's decision shall be based on a review of the record and a review of any new information and shall be made in accordance with the provisions for local panel determination in rules 641—85.7(135) and 641—85.8(135). The department's decision shall be promptly sent by certified mail, return receipt requested, or otherwise provided by any other means that will provide more timely or reliable written notice to: the patient, the person filing the appeal, the person who filed the application and the chairperson of the local board. If any of these persons are dissatisfied with the department's decision, an appeal may be taken in the manner provided by Iowa Code chapter 17A.

[ARC 0061C, IAB 4/4/12, effective 5/9/12]

**641—85.10(135) Records and reports.** Each fiscal year, prior to October 1, the local board shall submit an annual report to the department on forms provided by the department. The report shall include summary information regarding the number, nature and disposition of applications filed with the local

board in the preceding year. It shall also include a list of the local board members and officers for the new year and such other information as the department may deem necessary. Authorized representatives of the department shall have access to all records of the local boards. All record information which is excluded from public access and inspection pursuant to Iowa Code chapter 22, 141A or 228 and 42 Code of Federal Regulations Part 2, or any other confidentiality law provision shall be respected by the department.

[ARC 0061C, IAB 4/4/12, effective 5/9/12]

**641—85.11(135) Liability.** The local substitute medical decision-making board and its members shall not be held liable, jointly or separately, for any actions or omissions taken or made in the official discharge of their duties, except those acts or omissions constituting willful or wanton misconduct.

[ARC 0061C, IAB 4/4/12, effective 5/9/12]

These rules are intended to implement Iowa Code section 135.29.

CHAPTER 86  
PLACES WHERE DEAD HUMAN BODIES ARE PREPARED  
FOR BURIAL OR ENTOMBMENT  
[Prior to 7/29/87, Health Department[470] Ch 86]

**641—86.1(156) Purpose.** The purpose of this chapter is to establish standards for the operation and inspection of places where dead human bodies are prepared for burial, cremation or entombment.

**641—86.2(156) Definitions.**

*“Board”* means the board of mortuary science examiners.

*“Cremated remains”* means the body of a deceased person, including any form of body prosthesis that has been permanently attached to or implanted in the body.

*“Cremation”* means the technical process, using heat and flame, that reduces human remains to bone fragments. The reduction takes place through heat and evaporation. Cremation shall include the processing, and may include the pulverization, of the bone fragments.

*“Cremation chamber”* means the enclosed space within which the cremation takes place.

*“Cremation establishment”* means a place of business which provides any aspect of cremation of human remains.

*“Cremation room”* means the room in which the cremation chamber is located.

*“Department”* means the Iowa department of public health.

*“Funeral establishment”* means a place of business, as defined by the board of mortuary science examiners, devoted to providing any aspect of mortuary science.

*“Human remains”* means a deceased human being for which a death certificate or fetal death certificate is required.

*“Listed”* means equipment or materials included in a list published by an agency that maintains periodic inspection on current production of listed equipment or materials and whose listing states either that the equipment or material complies with approved standards or has been tested and found suitable for use in a specified manner.

*“Preparation room”* means a room in a funeral establishment where human remains are prepared, sanitized, embalmed or held for ceremonies and final disposition.

**641—86.3(156) Licensing.** No person, business or corporation shall operate a funeral establishment, preparation room or cremation chamber without first licensing the establishment with the board.

**641—86.4(156) Public access areas.** Public access areas of funeral homes and crematorium establishments shall have a public rest room with hot and cold running water.

**641—86.5(156) Preparation room.** The preparation room shall meet the following standards:

**86.5(1)** The preparation room shall be of such size and dimensions to accommodate and shall contain an embalming table, an appropriate sink, or other liquid waste receptacle with sewer and water connections, suitable cabinet or shelves, and hand-washing facilities to include hot water, soap and towels.

**86.5(2)** The preparation room shall be private. It shall not be used as a passageway from room to room. No toilet or commode shall be located within the preparation room. Only equipment necessary for use in preparation of bodies for burial, shipment or cremation shall be permitted in the preparation room.

**86.5(3)** There shall be a toilet and hand-washing facility accessible elsewhere in the building.

**86.5(4)** Ventilation shall be provided by an exhaust fan vented to the outside of the building.

**86.5(5)** Doors and windows of the preparation room shall be so installed and constructed as to obstruct view from outside and to prevent fumes and odors from entering any other part of the building.

**86.5(6)** There shall be adequate lighting. Light fixtures shall be easy to clean and kept clean.

**86.5(7)** The preparation room shall be provided with an adequate water supply with hot and cold running water.

**86.5(8)** The building drainage system must be discharged into the municipal sewage system where such a system is available. Where a municipal sewage system is not available, the building drainage system must be discharged into a private system of waste disposal acceptable to the Iowa department of natural resources and the Iowa department of public health.

**86.5(9)** Backflow prevention.

*a.* Funeral homes not meeting the requirements of 86.5(9) “c” shall have water-supplied aspirators equipped with a listed atmospheric vacuum breaker mounted at least six inches above the aspirator. The discharge of the aspirator shall be through an air gap.

*b.* Funeral homes not meeting the requirements of 86.5(9) “c” shall have hose bibbs protected by a listed nonremovable hose bibb type backflow preventer. Potable water outlets with a tube connection fitting shall be protected by a listed atmospheric vacuum breaker mounted at least six inches above the highest point of water usage.

*c.* In new construction, the water supply to the preparation room and to fixtures in the preparation room shall be protected against backflow in accordance with the Iowa state plumbing code (641—Chapter 25) or in accordance with the ordinance of the political subdivision in which the facility is located, provided that the requirements of the ordinance are equal to or greater than the requirements of the Iowa state plumbing code.

**86.5(10)** The embalming table shall have a top composed of stainless steel, porcelain or other rustproof material, and the edges shall be raised at least three-fourths inch around the entire table. There shall be a drain opening in the table.

**86.5(11)** Each preparation room shall have a covered, watertight receptacle for solid refuse.

**86.5(12)** All preparation rooms shall be maintained in a clean and sanitary condition. All embalming tables, sinks, receptacles, instruments and other appliances used in embalming dead human bodies shall be thoroughly cleaned with hot water and disinfectant. There shall be available a suitable means to sterilize instruments.

**641—86.6(156) Crematorium chambers.**

**86.6(1)** Cremation chambers shall be installed according to the manufacturer’s recommendations.

**86.6(2)** Cremation chambers shall be vented to the outside of the building.

**86.6(3)** There shall be a means to bring in a fresh air supply to aid in combustion.

**86.6(4)** The room where the cremation chamber is located shall have adequate exhaust to prevent heat buildup.

**86.6(5)** The cremation chamber shall be cleaned after each use, with cremated remains and pulverized materials being placed in containers as defined in 645—100.1(156).

**641—86.7(156) Inspection fees.** Inspection fees shall be billed to the owner of a funeral home or crematorium upon the completion of an inspection. Inspection fees are due upon receipt of a notice of payment due. When the funeral home or crematorium is located within the contracted area of a board of health that has a 28E agreement for inspections with the department, inspection fees billed shall be paid to the contracted board of health or its designee.

**86.7(1)** The fee for the inspection of a funeral home or crematorium shall be \$15 for each facility.

**86.7(2)** Penalty. Inspection fees not received by the department or contracted board of health within 45 days of the date of billing will be assessed a \$25 penalty for each month or fraction thereof that the payment is delinquent.

These rules are intended to implement Iowa Code chapter 156.

CHAPTER 87  
HEALTHY FAMILIES IOWA (HFI)

**641—87.1(135) Purpose.** These rules are intended to establish standards for the healthy families Iowa (HFI) program, a family support program that provides services to families and children during the prenatal to preschool years through home visitation. This program shall be identified as healthy opportunities for parents to experience success—healthy families Iowa (HOPES-HFI). The HOPES-HFI program is intended to promote optimal child health and development; improve family coping skills and functioning; promote positive parenting skills and intrafamilial interaction; and prevent child abuse and neglect and infant mortality and morbidity. These rules outline the process by which the department assists the Iowa empowerment board in managing contracting for HOPES-HFI funds.

**641—87.2(135) Definitions.** For the purpose of these rules, the following terms shall have the meaning indicated in this rule:

*“Accreditation”* means national recognition of compliance with Healthy Families America standards through a peer review process.

*“Applicant”* means a governmental or nonprofit agency that received grant funds in the previous fiscal year, is fully accredited by Healthy Families America, and applies to the department during a competitive year. In any year in which expansion funds are available for the HOPES-HFI program, the department shall award new grants, subject to annual renewal, to selected applicants in a competitive process.

*“Competitive grant”* means the competitive grant application process to determine the grant awards for a project period.

*“Contractor”* means a governmental or nonprofit agency that holds a contract with the department to provide HOPES-HFI services.

*“Department”* means the Iowa department of public health.

*“Family support”* means community-based services to promote the well-being of children and families.

1. Family support programs have the following characteristics:

- Family-driven, meaning there is a true partnership with families.
  - Comprehensive, flexible, and individualized for each family based on the family’s culture, needs, values and preferences.
  - Build on strengths to increase the stability of family members and the family unit.
  - Utilize informal and formal support networks.
2. Family support programs produce the following results:
- Increased parent confidence and competence in parenting abilities.
  - Safe, stable, and supportive families who are connected to their communities.
  - Enhanced health, growth, and development of children and adults in the family unit.

*“Healthy Families America”* or *“HFA”* means a research-based national program model designed to help overburdened families. HFA is a family support program that provides services to families and children during the prenatal to preschool years through home visitation.

*“Healthy families Iowa”* or *“HFI”* means the state family support program that provides services to families and children during the prenatal to preschool years through home visitation.

*“Home visitation”* means a face-to-face interaction that occurs between the participant(s) and home visitor. The goals of the home visit are to promote positive parent-child interaction and healthy childhood growth and development and to enhance family functioning. Typically, home visits occur in the home, lasting a minimum of an hour, and the child is present.

*“HOPES-HFI”* means the healthy opportunities for parents to experience success—healthy families Iowa program. The HOPES-HFI program is intended to promote optimal child health and development; improve family coping skills and functioning; promote positive parenting skills and intrafamilial interaction; and prevent child abuse and neglect and infant mortality and morbidity.

“*Nonprofit*” means an entity that meets the requirement for tax-exempt status under Internal Revenue Code Section 501(c)(3) or 501(c)(4).

“*Participant*” means a family voluntarily enrolled in and receiving services from the program.

“*Project period*” means the period of time the department intends to support the project without requiring competition for funds.

**641—87.3(135) Applicant eligibility.** Governmental or nonprofit agencies that received grant funds in the previous fiscal year, are fully accredited by HFA, and apply to the department during a competitive year are eligible applicants for funding. The purpose of the applications is to administer HOPES-HFI services for a specified project period, as defined in the request for proposals, with an annual continuation application.

**641—87.4(135) Participant eligibility.** Families must meet the following requirements to be eligible to participate in the HOPES-HFI program: (1) A family member is pregnant or the family has a child aged birth to five years; and (2) The family is determined to be eligible for enrollment according to a universal risk assessment as defined by HFA standards.

**641—87.5(135) Program requirements.** Contractors shall meet the following minimum program requirements:

**87.5(1) Accreditation.** Contractors shall comply with Healthy Families America (HFA) standards and maintain HFA or Council on Accreditation (COA) accreditation status. HOPES-HFI contractors will be required to submit evidence of reaccreditation reports to the department within 30 days of receipt.

**87.5(2) Participant identification.** Contractors shall collaborate with health care, human services, education, and other partners serving pregnant women and women of childbearing age to identify families who are at risk in order to promote positive birth and parenting outcomes.

**87.5(3) Standardized tools.** Contractors shall utilize standardized tools approved by the department to assess and reassess a participant’s risk status and achievements and the appropriate level of service.

**87.5(4) Quality assessment and improvement.** Contractors shall develop a process for annual program evaluation. The process shall include the following:

*a.* The outcome of the program evaluation shall be reviewed by the program’s governing or advisory board with recommendations made for program improvement.

*b.* The evaluation shall demonstrate the effectiveness of the program through program outcomes, including acceptance and retention rates.

**641—87.6(135) Contractor assurance.** In order to receive funding, the contractor shall provide to the department assurance that all applicable federal, state, and local requirements are met. The contractor shall ensure compliance with Title IV of the Civil Rights Act, the Americans with Disabilities Act of 1990 (ADA), Section 504 of the 1973 Rehabilitation Act, and all affirmative action requirements. In addition, the contractor shall ensure the following:

**87.6(1) Program policies and procedures.** Policies and procedures shall be in accordance with HFA standards.

**87.6(2) Personnel policies and procedures.** The personnel policies and procedures shall, at a minimum, include:

*a.* Conditions of employment, including recruitment, selection, termination, promotion, and compensation.

*b.* A leave of absence policy.

*c.* A grievance procedure.

*d.* Annual employee performance evaluations.

*e.* A nondiscrimination policy.

*f.* Fringe benefits.

*g.* Employment application forms that comply with civil rights regulations.

*h.* Current job descriptions that delineate qualifications, responsibilities, and essential functions, that reflect current responsibilities, and that are dated.

*i.* A current salary schedule.

**87.6(3) Fiscal management.** Fiscal management shall, at a minimum, include the following:

*a.* An annual budget.

*b.* Fiscal policies and procedures that follow generally accepted accounting practices.

*c.* Utilization of other funds such as private and third-party funds when available.

**641—87.7(135) Applicant appeal process.**

**87.7(1) Right of appeal.** The right to appeal shall be granted when an applicant's application to participate is denied. The right to appeal shall also be granted when, during the course of the contract or agreement period, a contractor is disqualified or any other action that affects participation is taken. For participating contractors, a minimum of 60 days' advance notice shall be given before the effective date of the action.

**87.7(2) Request for hearing.** An appeal is brought by filing a written request for a hearing with the Division Director, Division of Health Promotion and Chronic Disease Prevention, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075, within ten days of receipt of notification of the adverse action. The written request for hearing shall state the adverse action being appealed.

**87.7(3) Contested cases.** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information that may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**87.7(4) Notice of hearing.** The administrative law judge (ALJ) shall schedule the time, place and date of the hearing as expeditiously as possible. Hearings shall be conducted by telephone or in person in Des Moines at the Lucas State Office Building or another suitable location. If necessary, parties will be provided at least two opportunities to have the hearing rescheduled.

**87.7(5) Conduct of hearing.** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**87.7(6) Decision.** A written decision of the ALJ shall be issued, when possible, within 60 days from the date of the request for a hearing unless the parties agree to a longer period of time. The decision of the ALJ shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action, without further proceedings, ten days after it is received by the aggrieved party unless an appeal to the director is filed as provided in subrule 87.7(7).

**87.7(7) Appeal to director.** Any appeal to the director for review of the proposed decision of the ALJ shall be filed in writing and mailed to the Director, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075, by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the ALJ's proposed decision by the aggrieved party. A copy of the appeal shall also be mailed to the ALJ. Any request for an appeal shall state the reason for appeal.

**87.7(8) Record of hearing.** Upon receipt of an appeal request, the ALJ shall prepare the record of the hearing for submission to the director of the department. The record shall include the following:

*a.* All pleadings, motions, and rules.

*b.* All evidence received or considered and all other submissions by recording or transcript.

*c.* A statement of all matters officially noticed.

*d.* All questions and offers of proof, objections and rulings thereon.

*e.* All proposed findings and exceptions.

*f.* The proposed decision and order of the hearing officer.

**87.7(9) *Decision of director.*** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or by personal service.

**87.7(10) *Exhausting administrative remedies.*** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final decision of the department who has exhausted all administrative remedies may petition for judicial review pursuant to Iowa Code chapter 17A.

**87.7(11) *Petition for judicial review.*** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Division Director, Division of Health Promotion and Chronic Disease Prevention, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**641—87.8(135) Participant right to appeal.**

**87.8(1) *Denial, reduction or termination of services.***

*a.* When a contractor denies, reduces or terminates services funded by the HOPES-HFI grant against the wishes of a participant, the contractor shall notify the participant of the following:

- (1) The action taken;
- (2) The reason for the action; and
- (3) The participant's right to appeal.

*b.* If a participant files an appeal, the contractor shall provide services to the participant throughout the appeals process, unless the contractor receives a waiver from the department pending the outcome of the appeal.

**87.8(2) *Local appeals process.***

*a.* All contractors shall have a written local procedure to hear appeals. The local procedure shall, at a minimum, include:

- (1) The method of notification of the right to appeal;
- (2) The procedure for conducting the appeal;
- (3) Time limits for each step; and
- (4) The method of notification of the outcome of the local appeal and notification of the participant's right to appeal to the state. Notifications of the outcome of the local appeal shall include the facts used to reach the decision and the conclusions drawn from the facts to support the contractor's decision.

*b.* The written appeals procedure and the record of appeals filed (including the record and disposition of each) shall be available for inspection by authorized representatives of the Iowa department of public health.

**87.8(3) *Appeal to department.***

*a. Procedure for appeal.* If a participant is dissatisfied with the decision of the local appeal, the participant may appeal to the state. The appeal shall be made in writing by certified mail, return receipt requested, to the Division Director, Division of Health Promotion and Chronic Disease Prevention, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075, within 15 days of receipt of the local contractor's appeal decision.

*b. Department review.* The department shall evaluate the appeal based upon the merits of the local appeal documentation. A department decision affirming, reserving, or modifying the local appeal decision shall be issued within 30 days of the receipt of all local appeal documentation. The department decision shall be in writing and shall be sent by certified mail, return receipt requested, to the participant and the contractor.

**87.8(4) *Further appeal.*** The participant may appeal the department's decision by submitting an appeal, within 10 days of receipt of the department's decision, to the Division Director, Division of Health Promotion and Chronic Disease Prevention, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. Upon receipt of an appeal that meets contested case status, the department shall forward the appeal within 5 working days to the department of inspections and appeals pursuant to the rules adopted by the department of inspections and appeals regarding the

transmission of contested cases. The continued process for appeals shall be governed by 641—Chapter 173, Iowa Administrative Code.

These rules are intended to implement Iowa Code section 135.106.

CHAPTER 88  
VOLUNTEER HEALTH CARE PROVIDER PROGRAM

**641—88.1(135) Purpose.** The volunteer health care provider program (VHCPP) is established to defend and indemnify eligible individual volunteer health care providers and protected clinics providing free health care services as provided in Iowa Code section 135.24 and these rules.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

**641—88.2(135) Definitions.** For the purpose of these rules, the following definitions shall apply:

*“Charitable organization”* means a charitable organization within the meaning of Section 501(c)(3) of the Internal Revenue Code.

*“Defend”* means that the office of the attorney general shall provide the individual volunteer health care provider and protected clinic with legal representation at no cost to the individual volunteer health care provider or protected clinic.

*“Department”* means the Iowa department of public health.

*“Field dental clinic”* means a dental clinic temporarily or periodically erected at a location where mobile dental equipment, instruments, or supplies, as necessary, are utilized to provide dental services.

*“Free clinic”* means a facility, other than a hospital or health care provider’s office, which is exempt from taxation under Section 501(c)(3) of the Internal Revenue Code and which has as its sole purpose the provision of health care services without charge to individuals who are otherwise unable to pay for the services.

*“Health care facility”* means a residential care facility, a nursing facility, an intermediate care facility for persons with mental illness, or an intermediate care facility for persons with mental retardation.

*“Health care provider”* means an emergency medical care provider certified pursuant to Iowa Code chapter 147A; a physician licensed pursuant to Iowa Code chapter 148; a physical therapist licensed pursuant to Iowa Code chapter 148A; an occupational therapist licensed pursuant to Iowa Code chapter 148B; a physician assistant licensed pursuant to Iowa Code chapter 148C and practicing under the supervision of a physician; a podiatrist licensed pursuant to Iowa Code chapter 149; a chiropractor licensed pursuant to Iowa Code chapter 151; a respiratory therapist licensed pursuant to Iowa Code chapter 152B; an advanced registered nurse practitioner, a licensed practical nurse or a registered nurse licensed pursuant to Iowa Code chapter 152 or 152E; a dentist, dental assistant, or dental hygienist licensed or registered pursuant to Iowa Code chapter 153; an optometrist licensed pursuant to Iowa Code chapter 154; a psychologist licensed pursuant to Iowa Code chapter 154B; a bachelor social worker, a master social worker, or an independent social worker licensed pursuant to Iowa Code chapter 154C; a marital and family therapist or mental health counselor licensed pursuant to Iowa Code chapter 154D; a speech pathologist or audiologist licensed pursuant to Iowa Code chapter 154F; or a pharmacist licensed pursuant to Iowa Code chapter 155A.

*“Health care services”* means services received from a health care provider at a protected clinic or sponsor entity, as provided in Iowa Code section 135.24 and these rules, and approved in a protection agreement or sponsor entity agreement. The agreement covers “health care services” that are volunteer, uncompensated services. For those services to qualify as volunteer, uncompensated services under this chapter, the individual volunteer health care provider, health care provider, protected clinic, or sponsor entity must receive no compensation for any services provided under the agreement and must not bill or accept compensation from the person, or any public or private third-party payor, for the specific services provided.

*“Indemnify”* means that the state of Iowa shall pay all sums that the individual volunteer health care provider or protected clinic holding a protection agreement with the VHCPP is legally obligated to pay as damages because of any claim made against the individual volunteer health care provider or protected clinic which arises out of the provision of free health care services rendered or which should have been rendered by the individual volunteer health care provider or protected clinic.

*“Individual volunteer health care provider”* means any one of the following health care providers who has a fully executed protection agreement with the VHCPP: an emergency medical care provider

certified pursuant to Iowa Code chapter 147A; a physician licensed pursuant to Iowa Code chapter 148; a physical therapist licensed pursuant to Iowa Code chapter 148A; an occupational therapist licensed pursuant to Iowa Code chapter 148B; a physician assistant licensed pursuant to Iowa Code chapter 148C and practicing under the supervision of a physician; a podiatrist licensed pursuant to Iowa Code chapter 149; a chiropractor licensed pursuant to Iowa Code chapter 151; a respiratory therapist licensed pursuant to Iowa Code chapter 152B; an advanced registered nurse practitioner, a licensed practical nurse or a registered nurse licensed pursuant to Iowa Code chapter 152 or 152E; a dentist, dental assistant, or dental hygienist licensed or registered pursuant to Iowa Code chapter 153; an optometrist licensed pursuant to Iowa Code chapter 154; a psychologist licensed pursuant to Iowa Code chapter 154B; a bachelor social worker, a master social worker, or an independent social worker licensed pursuant to Iowa Code chapter 154C; a marital and family therapist or mental health counselor licensed pursuant to Iowa Code chapter 154D; a speech pathologist or audiologist licensed pursuant to Iowa Code chapter 154F; or a pharmacist licensed pursuant to Iowa Code chapter 155A.

*“Major surgical procedure”* means a surgical procedure not ordinarily performed in a private provider’s office, free clinic, or specialty health care provider office and includes the surgery performed in a hospital as defined in Iowa Code section 135B.1(3) or an outpatient surgical facility.

*“Minor surgical procedure”* means a surgical procedure ordinarily performed in a private provider’s office, free clinic, or specialty health care provider office.

*“Outpatient surgical facility”* means a facility defined in Iowa Code section 135.61(21).

*“Protected clinic”* means field dental clinic, free clinic, or specialty health care provider office providing free care to the uninsured and underinsured. Each protected clinic has a signed protection agreement, which provides for defense and indemnification of the protected clinic. The protection agreement shall allow the protected clinic to deliver health care services to uninsured and underinsured persons as an agent of the state.

*“Protection agreement”* means a signed contract providing for defense and indemnification between an individual volunteer health care provider or protected clinic and the volunteer health care provider program (VHCPP). This agreement shall allow the individual health care provider or protected clinic to deliver health care services to uninsured and underinsured persons as an agent of the state. The agreement covers “health care services” that are volunteer, uncompensated services. For those services to qualify as volunteer, uncompensated services under this chapter, the individual volunteer health care provider, health care provider, and protected clinic must receive no compensation for any services provided under the agreement and must not bill or accept compensation from the person, or any public or private third-party payor, for the specific services provided by the individual volunteer health care provider covered by the agreement.

*“Specialty care referral network”* means the referral network established through the Iowa Collaborative Safety Net Provider Network.

*“Specialty health care provider office”* means the private office or clinic of an individual specialty health care provider or a group of specialty health care providers as referred by the Iowa Collaborative Safety Net Provider Network established in Iowa Code section 135.153 but does not include a field dental clinic, a free clinic, or a hospital.

*“Sponsor entity”* or *“sponsor entity clinic”* means a hospital, clinic, free clinic, health care facility, health care referral program, charitable organization, specialty health care provider office, outpatient surgical facility, or field dental clinic. Each sponsor entity has a fully executed sponsor entity agreement. The sponsor entity agreement shall allow an individual volunteer health care provider to deliver health care services to uninsured and underinsured persons as an agent of the state.

*“Sponsor entity agreement”* means a signed contract between the VHCPP and a hospital, clinic, free clinic, health care facility, health care referral program, charitable organization, specialty health care provider office, outpatient surgical facility, or field dental clinic allowing an individual volunteer health care provider to deliver free health care services through the VHCPP at the sponsor entity location.

*“Underinsured”* means that a person does not have adequate insurance, which is determined on cost-exposure to family income with at least one of three indicators: (1) out-of-pocket medical expenses equal to or greater than 10 percent of income; (2) out-of-pocket medical expenses equal to or greater

than 5 percent of income if income is less than 200 percent of the federal poverty level; and (3) health plan deductibles equal to or greater than 5 percent of income.

“*Volunteer health care provider program*” or “*VHCPP*” means the volunteer health care provider program of the department.

[ARC 8791B, IAB 6/2/10, effective 7/7/10; ARC 9535B, IAB 6/1/11, effective 5/11/11; ARC 9536B, IAB 6/1/11, effective 5/11/11; ARC 9645B, IAB 8/10/11, effective 9/14/11]

#### **641—88.3(135) Eligibility for the volunteer health care provider program.**

**88.3(1)** *Individual volunteer health care provider eligibility.* To be eligible for protection as an employee of the state under Iowa Code chapter 669 for a claim arising from covered health care services, an individual volunteer health care provider shall satisfy each of the following conditions at the time of the act or omission allegedly resulting in injury:

*a.* The individual volunteer health care provider shall hold an active unrestricted license, registration, or certification to practice in Iowa under Iowa Code chapter 147A, 148, 148A, 148B, 148C, 149, 151, 152, 152B, 152E, 153, 154, 154B, 154C, 154D, 154F, or 155A. The individual volunteer health care provider shall provide a sworn statement attesting that the license, registration, or certification to practice is free of restrictions. The statement shall describe any disciplinary action that has ever been taken against the individual volunteer health care provider by any professional licensing, registering, or certifying authority or health care facility, including any voluntary surrender of license, registration, or certification or other agreement involving the individual volunteer health care provider’s license, registration, or certification to practice or any restrictions on practice, suspension of privileges, or other sanctions. The statement shall also describe any malpractice suits that have been filed against the individual volunteer health care provider. The statement provided by a pharmacist shall also describe any disciplinary action that has ever been taken against any pharmacy in which the pharmacist has ever been owner, partner, or officer.

(1) Every physician and dentist shall authorize the release of information allowing certified statements to be sent to the board of medicine or dental board from the National Practitioner Data Bank, the Federation of State Medical Boards Disciplinary Data Bank, or State Dental Boards Disciplinary Data Bank, as appropriate, setting forth any malpractice judgment or award or disciplinary action involving the physician or dentist.

(2) Every physical therapist, occupational therapist, physician assistant, podiatrist, chiropractor, respiratory therapist, licensed practical nurse, registered nurse, advanced registered nurse practitioner, optometrist, psychologist, bachelor social worker, master social worker, independent social worker, marital and family therapist, mental health counselor, speech pathologist, and audiologist shall request certified statements directly from the National Practitioner Data Bank-Healthcare Integrity and Protection Data Bank setting forth any malpractice judgment or award or disciplinary action involving the requester, shall pay the cost for such certified statements and shall submit such certified statements as part of the VHCPP application. Every chiropractor shall also authorize the release of information allowing certified statements to be sent to the board of chiropractic from the Chiropractic Information Network-Board Action Databank (CIN-BAD) setting forth any malpractice judgment or award or disciplinary action involving the chiropractor.

(3) Every pharmacist shall authorize the release of information allowing certified statements to be sent to the board of pharmacy from the National Association of Boards of Pharmacy setting forth any disciplinary action involving the pharmacist or any pharmacy in which the pharmacist has ever been owner, partner, or officer, and the pharmacist shall pay the cost for such certified statements. Every pharmacist shall also authorize the release of information from the pharmacist’s malpractice insurance carrier to be sent to the board of pharmacy, and the pharmacist shall pay the cost for such release. Information released from the pharmacist’s malpractice insurance carrier shall include the history and details of all claims that have been filed on behalf of the pharmacist or any pharmacy in which the pharmacist has ever been owner, partner, or officer, or confirmation that there have been no claims.

(4) Every emergency medical care provider shall authorize the release of information allowing information to be sent from the bureau of emergency medical services to the VHCPP setting forth any

malpractice judgment or award or disciplinary action involving the requester and shall authorize the release of information allowing such information to be shared with the bureau of emergency medical services by licensing entities within and outside Iowa.

*b.* Application. The applicant shall submit the following information on forms provided by the VHCPP:

- (1) The patients to be served;
- (2) The health care services to be provided;
- (3) The site where health care services are to be provided;
- (4) The days and maximum number of hours when the free health care services will be provided each week at each site;
- (5) The services that will be provided to those persons who are uninsured and underinsured for the public health purpose of improved health, prevention of illness/injury, and disease management.

*c.* Agreement. The individual volunteer health care provider shall have a signed and current protection agreement with the VHCPP which identifies the covered health care services within the respective scope of practice and conditions of defense and indemnification as provided in rules 641—88.5(135) and 641—88.6(135). The protection agreement shall:

- (1) Provide that the individual volunteer health care provider shall perform only those health care services identified and approved by the VHCPP;
- (2) Identify the health care services to be provided by the sponsor entity or protected clinic which has been approved by the VHCPP through an application process;
- (3) Identify by category the patient groups to be served;
- (4) Identify the sites at which the free health care services will be provided;
- (5) Identify the maximum amount of time the free health care services will be provided by the individual volunteer health care provider at the identified sites each week;
- (6) Provide that the individual volunteer health care provider shall maintain proper records of the health care services;
- (7) Provide that the individual volunteer health care provider shall make no representations concerning eligibility for the VHCPP or eligibility of services for indemnification by the state except as authorized by the department;
- (8) Provide that the individual volunteer health care provider shall cooperate fully with the state in the defense of any claim or suit relating to participation in the VHCPP, including attending hearings, depositions and trials and assisting in securing and giving evidence, responding to discovery and obtaining the attendance of witnesses;
- (9) Provide that the individual volunteer health care provider shall accept financial responsibility for personal expenses and costs incurred in the defense of any claim or suit related to participation in the VHCPP, including travel, meals, compensation for time and lost practice, and copying costs, and agree that the state will not compensate the individual volunteer health care provider for the individual volunteer health care provider's expenses or time needed for the defense of the claim or suit;
- (10) Provide that the individual volunteer health care provider shall receive no direct monetary compensation of any kind for services provided in the VHCPP;
- (11) Provide that the individual volunteer health care provider shall comply with the protection agreement with the VHCPP concerning approved health care services.

**88.3(2) Protected clinic eligibility.** To be eligible for protection as a state agency under Iowa Code chapter 669 for a claim arising from the provision of covered health care services at a protected clinic, the protected clinic shall satisfy each of the following conditions at the time of the act or omission allegedly resulting in injury:

- a.* The protected clinic shall comply with subrules 88.4(1) through 88.4(5).
- b.* The protected clinic shall have provided to the department a list of all health care providers who provide health care services at the protected clinic.
- c.* The protected clinic shall have submitted proof to the department that each health care provider providing health care services at the protected clinic either:
  - (1) Holds a current protection agreement with the VHCPP, or

(2) Holds current professional liability insurance coverage and an active unrestricted license, registration, or certification to practice in Iowa under Iowa Code chapter 147A, 148, 148A, 148B, 148C, 149, 151, 152, 152B, 152E, 153, 154, 154B, 154C, 154D, 154F, or 155A.

*d.* The protected clinic shall submit a list of the clinic board of directors and contact information for the board of directors, if applicable.

*e.* If the protected clinic is a charitable organization within the meaning of Section 501(c)(3) of the Internal Revenue Code, the protected clinic shall provide proof of Section 501(c)(3) status to the VHCPP.

*f.* A protected clinic may allow health care profession students to volunteer at the protected clinic provided that the following conditions are satisfied:

(1) The college, university, or other health care profession educational institution provides professional liability insurance which covers the students; and

(2) The protected clinic or the health care profession institution provides general liability and professional liability insurance which covers the students; and

(3) The students provide only those services or activities as are authorized by the education agreement, and such services and activities are provided under the on-site supervision of a health care provider.

**88.3(3) Sponsor entity or sponsor entity clinic.** As a condition of sponsoring individual volunteer health care providers in the VHCPP, a hospital, clinic, free clinic, health care facility, health care referral program, charitable organization, specialty health care provider office, outpatient surgical facility, or field dental clinic shall comply with subrules 88.4(1) through 88.4(5).

[ARC 8791B, IAB 6/2/10, effective 7/7/10; ARC 9535B, IAB 6/1/11, effective 5/11/11; ARC 9536B, IAB 6/1/11, effective 5/11/11; ARC 9645B, IAB 8/10/11, effective 9/14/11]

#### **641—88.4(135) Sponsor entity and protected clinic.**

**88.4(1) Licensure.** The sponsor entity or protected clinic shall be licensed to the extent required by law for the facility in question.

**88.4(2)** If the sponsor entity or protected clinic is a charitable organization within the meaning of Section 501(c)(3) of the Internal Revenue Code, the sponsor entity or protected clinic shall provide proof of Section 501(c)(3) status to the VHCPP.

**88.4(3) Application.** The sponsor entity or protected clinic shall submit the following information on forms provided by the VHCPP:

*a.* By category, the patient groups to be served;

*b.* The health care services to be provided;

*c.* The site where free health care services are to be provided;

*d.* The days and times when health care services are to be provided at each site;

*e.* The services that will be provided to those persons who are uninsured and underinsured for the public health purpose of improved health, prevention of illness/injury, and disease management.

**88.4(4) Agreement.** A signed and current sponsor entity agreement or protected clinic agreement shall exist with the VHCPP which shall:

*a.* Provide that the individual volunteer health care provider or health care provider within a protected clinic and the individual volunteer health care provider within a sponsor entity shall perform only those health care services identified and approved by the VHCPP;

*b.* Identify by category the patient groups to be served;

*c.* Identify the sites at which the free health care services will be provided;

*d.* Identify the days and times when health care services are to be provided at each site;

*e.* Provide that the sponsor entity or protected clinic shall maintain proper records of health care services for a period of seven years from the date of service or, in the case of a minor, for a period of one year after the minor has reached the age of majority; and

*f.* Provide that the sponsor entity agrees that only the individual volunteer health care provider or protected clinic is afforded protection under Iowa Code section 135.24 and that the state assumes no obligation to the sponsor entity, its employees, officers, or agents. The sponsor entity or protected clinic

shall submit a statement, which shall be submitted on forms provided by the VHCPP, attesting that the sponsor entity or protected clinic and its staff, employees and volunteers agree to:

(1) Cooperate fully with the state in the defense of any claim or suit relating to participation in the VHCPP, including attending hearings, depositions and trials and assisting in securing and giving evidence, responding to discovery and obtaining the attendance of witnesses;

(2) Accept financial responsibility for the sponsor entity's or protected clinic's expenses and costs incurred in the defense of any claim or suit related to participation in the VHCPP, including travel, meals, compensation for time and lost practice, and copying costs, and agree that the state will not compensate the sponsor entity or protected clinic for expenses or time needed for the defense of the claim or suit;

(3) Receive no direct monetary compensation of any kind for health care services provided in the sponsor entity or protected clinic;

(4) Comply with the sponsor entity agreement or protected clinic agreement with the VHCPP concerning approved health care services.

**88.4(5) General liability insurance.** The sponsor entity or protected clinic shall submit proof of general liability insurance for the clinic site.

[ARC 8791B, IAB 6/2/10, effective 7/7/10; ARC 9536B, IAB 6/1/11, effective 5/11/11; ARC 9645B, IAB 8/10/11, effective 9/14/11]

**641—88.5(135) Covered health care services.** An individual volunteer health care provider holding a current protection agreement with the VHCPP shall be afforded the protection of an employee of the state under Iowa Code chapter 669, and a protected clinic holding a current protection agreement with the VHCPP shall be afforded protection as an agency of the state under Iowa Code chapter 669, only for claims for injury alleged to have been proximately caused by an individual volunteer health care provider's provision of covered health care services or solely on the basis of the individual volunteer health care provider's participation in the sponsor entity or protected clinic.

**88.5(1) Covered health care services are only those that are:**

- a. Identified in the protection agreement with the VHCPP;
- b. In compliance with these rules;
- c. Provided by or under the direct supervision of the individual volunteer health care provider;
- d. Health care services of:

(1) Advanced registered nurse practitioners for: well-child examinations; annual adult examinations; diagnosis and treatment of acute and chronic conditions; health education; health maintenance; immunizations; and minor surgical procedures. Certified registered nurse anesthetists may provide anesthesia services for major surgical procedures only if the following conditions are satisfied:

1. The surgery is performed in a hospital as defined in Iowa Code section 135B.1(3) or an outpatient surgical facility;

2. The hospital or outpatient surgical facility at which the surgery is performed has executed a sponsor entity agreement;

3. The physician performing the surgery provides or assures the provision of adequate presurgical and postsurgical care, including any follow-up necessary to address postoperative complications; and

4. The physician performing the surgery is an individual specialty health care provider or part of a group of specialty health care providers which has registered with the department as a specialty health care provider office.

(2) Audiologists for: testing, measurement and evaluation related to hearing and hearing disorders and associated communication disorders for the purpose of nonmedically identifying, preventing, modifying or remediating such disorders and conditions including the determination and use of appropriate amplification; patient instruction/counseling; patient habilitation/rehabilitation; and referrals.

(3) Bachelor social workers for: psychosocial assessment and intervention through direct contact with clients; referral to other qualified resources for assistance; performance of social histories; problem identification; establishment of goals and monitoring of progress; interviewing techniques; counseling; social work administration; supervision; evaluation; interdisciplinary consultation and collaboration.

(4) Chiropractors for: examinations; diagnosis and treatment; health education; and health maintenance.

(5) Dental assistants for: intraoral services; extraoral services; infection control; radiography; and removal of plaque or stain by toothbrush, floss, or rubber cup coronal polish.

(6) Dental hygienists for: assessments and screenings; health education; health maintenance; and preventive services (cleaning, X-rays, sealants, fluoride treatments, fluoride varnish).

(7) Dentists for: dental examinations; diagnosis and treatment of acute and chronic conditions; health education; health maintenance; and minor surgical procedures.

(8) Emergency medical care providers for: airway/ventilation/oxygenation; assisted medications - patient's; cardiovascular/circulation; immobilization; IV initiation/maintenance/fluids; and medication administration - routes.

(9) Independent social workers for: psychosocial assessment, diagnosis, and treatment; performance of psychosocial histories; problem identification; evaluation of symptoms and behavior; assessment of psychosocial and behavioral strengths and weaknesses and effects of the environment on behavior; psychosocial therapy; differential treatment planning; and interdisciplinary consultation.

(10) Licensed practical nurses for: supportive or restorative care.

(11) Marital and family therapists for: marital and family therapy; and application of counseling techniques in the assessment and resolution of emotional conditions.

(12) Master social workers for: psychosocial assessment, diagnosis, and treatment; performance of psychosocial histories; problem identification; evaluation of symptoms and behavior; assessment of psychosocial and behavioral strengths and weaknesses and effects of the environment on behavior; psychosocial therapy; differential treatment planning; and interdisciplinary consultation.

(13) Mental health counselors for: mental health counseling; and counseling services involving assessment, referral and consultation.

(14) Occupational therapists for: evaluation and treatment of problems interfering with functional performance in persons impaired by physical illness or injury, emotional disorder, congenital or developmental disability or the aging process.

(15) Optometrists for: examinations; diagnosis and treatment of the human eye and adnexa; health education; and health maintenance.

(16) Pharmacists for: drug dispensing; patient counseling; health screenings and education; and immunizations.

(17) Physical therapists for: interpretation of performance, tests, and measurements; evaluation and treatment of human capabilities and impairments; use of physical agents, therapeutic exercises, and rehabilitative procedures to prevent, correct, minimize, or alleviate a physical impairment; establishment and modification of physical therapy program; treatment planning; and patient instruction/education.

(18) Physicians and physician assistants for: well-child examinations; annual adult examinations; diagnosis and treatment of acute and chronic conditions; health education; health maintenance; immunizations; and minor surgical procedures. Physicians may perform major surgical procedures only if the following conditions are satisfied:

1. The surgery is performed in a hospital as defined in Iowa Code section 135B.1(3) or an outpatient surgical facility;

2. The hospital or outpatient surgical facility at which the surgery is performed has executed a sponsor entity agreement;

3. The physician provides or assures the provision of adequate presurgical and postsurgical care, including any follow-up necessary to address postoperative complications; and

4. The physician performing the surgery is an individual specialty health care provider or part of a group of specialty health care providers which has registered with the department as a specialty health care provider office.

(19) Podiatrists for: examinations; diagnosis and treatment; health education; health maintenance; and minor surgical procedures.

(20) Psychologists for: counseling and the use of psychological remedial measures with persons with adjustment or emotional problems.

(21) Registered nurses for: well-child examinations; annual adult examinations; treatment of acute and chronic conditions; health education; health maintenance; and immunizations.

(22) Respiratory therapists for: diagnostic and therapeutic use of administration of medical gases, aerosols, and humidification, not including general anesthesia; pharmacologic agents relating to respiratory care procedures; bronchopulmonary hygiene; specific diagnostic and testing techniques employed in the medical management of patients to assist in diagnosis, monitoring, treatment, and research of cardiopulmonary abnormalities; and pulmonary function testing.

(23) Speech pathologists for: testing, measurement and evaluation related to the development and disorders of speech, fluency, voice or language for the purpose of nonmedically preventing, ameliorating, modifying or remediating such disorders and conditions; patient instruction/counseling; patient habilitation/rehabilitation; and referrals.

**88.5(2)** Experimental procedures or procedures and treatments which lack sufficient evidence of clinical effectiveness are excluded from the VHCPP.

**88.5(3)** Patient referral to a specialty health care provider office shall be made solely by the specialty care referral network.

[ARC 8791B, IAB 6/2/10, effective 7/7/10; ARC 9535B, IAB 6/1/11, effective 5/11/11]

**641—88.6(135) Defense and indemnification.** The state shall defend and indemnify an individual volunteer health care provider or a protected clinic for a claim arising from the VHCPP only to the extent provided by Iowa Code chapter 669 and Iowa Code section 135.24. Persons or entities other than the participating individual volunteer health care provider or protected clinic are not considered state employees or state agencies under Iowa Code chapter 669. Defense and indemnification of the individual volunteer health care provider or a protected clinic under Iowa Code chapter 669 and Iowa Code section 135.24 shall occur only if all of the following requirements are met:

**88.6(1)** The claim involves medical injury alleged to have been proximately caused by health care services which were identified and approved in the protection or sponsor agreement with the VHCPP and then only to the extent the health care services were provided by or under the direct supervision of the individual volunteer health care provider, including claims based on negligent delegation of health care, or the individual volunteer health care provider is named as a defendant solely because of the individual volunteer health care provider's participation in the protected clinic or sponsor entity clinic.

**88.6(2)** The claim arises from covered health care services that were performed at a site identified and approved in the protection agreement with the VHCPP.

**88.6(3)** The claim arises from covered health care services provided through a protected clinic or sponsor entity clinic identified and approved in the individual volunteer health care provider's protection agreement with the VHCPP and which meets the requirements of rule 641—88.3(135).

**88.6(4)** The individual volunteer health care provider, health care provider, protected clinic, or sponsor entity clinic that provided the health care services receives no direct monetary compensation of any kind and no promise to pay compensation for the health care services which allegedly resulted in medical injury.

**88.6(5)** The health care services are provided to a patient who is a member of a patient group identified in the protection agreement with the VHCPP.

**88.6(6)** The individual volunteer health care provider, protected clinic, or sponsor entity clinic is eligible and registered as provided in rule 641—88.3(135) or the care is provided by a health care provider who holds current professional liability insurance coverage and an active unrestricted license to practice in Iowa under Iowa Code chapter 147A, 148, 148A, 148B, 148C, 149, 151, 152, 152B, 152E, 153, 154, 154B, 154C, 154D, 154F, or 155A and has been approved by the VHCPP.

[ARC 8791B, IAB 6/2/10, effective 7/7/10; ARC 9535B, IAB 6/1/11, effective 5/11/11; ARC 9536B, IAB 6/1/11, effective 5/11/11; ARC 9645B, IAB 8/10/11, effective 9/14/11]

**641—88.7(135) Term of agreement.**

**88.7(1)** *Individual volunteer health care provider.* The protection agreement with the VHCPP shall expire two years from the date of execution. Individual volunteer health care providers may apply for renewal by filing an application at least 30 days prior to expiration of the protection agreement.

**88.7(2) Protected clinic.** The protection agreement with the VHCPP shall expire two years from the date of execution. The protected clinic may apply for renewal by filing an application at least 30 days prior to expiration of the protection agreement.

**88.7(3) Sponsor entity.** The sponsor entity agreement with the VHCPP shall expire two years from the date of execution. Sponsor entities may apply for renewal by filing an application at least 30 days prior to expiration of the sponsor entity agreement.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

**641—88.8(135) Reporting requirements and duties.**

**88.8(1)** Upon obtaining knowledge or becoming aware of any injury allegedly arising out of the negligent rendering of, or the negligent failure to render, covered health care services under the VHCPP, a participating individual volunteer health care provider, protected clinic, or sponsor entity shall provide to the VHCPP, as soon as practicable, written notice containing, to the extent obtainable, the circumstance of the alleged injury, the names and addresses of the injured, and any other relevant information.

**88.8(2)** Upon obtaining knowledge or becoming aware of an injury as defined in subrule 88.8(1), the participating protected clinic or sponsor entity shall promptly take all reasonable steps to prevent further or other injury from arising out of the same or similar incidents, situations or conditions.

**88.8(3)** A participating individual volunteer health care provider, protected clinic, or sponsor entity shall immediately notify the Iowa Department of Justice, Special Litigation Division, Hoover State Office Building, Des Moines, Iowa 50319, of service or receipt of an original notice, petition, suit or claim seeking damages from the individual volunteer health care provider, protected clinic or sponsor entity related to participation in the VHCPP.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

**641—88.9(135) Revocation of agreement.** The VHCPP may deny, suspend, revoke, or condition the agreement of an individual volunteer health care provider, protected clinic or sponsor entity for cause, including but not limited to:

1. Failure to comply with the protection agreement or sponsor entity agreement with the VHCPP.
2. Violation of state law governing the respective scope of practice or other law governing the health care services provided under the VHCPP.
3. Making false, misleading, or fraudulent statements in connection with the VHCPP, including determination of eligibility of the individual volunteer health care provider, protected clinic, or sponsor entity or handling of a claim against the individual volunteer health care provider, protected clinic, sponsor entity or the state.
4. Evidence of substance abuse or intoxication affecting the provision of health care services under the VHCPP.
5. Reasonable grounds to believe that the individual volunteer health care provider or health care provider may have provided incompetent or inadequate care to a patient under the VHCPP or is likely to do so.
6. Reasonable grounds to believe that the individual volunteer health care provider's, protected clinic's, or sponsor entity's participation in the VHCPP may expose the state to undue risk.
7. Failure to immediately notify the VHCPP of any disciplinary action brought against the individual volunteer health care provider by the applicable state licensing board.

[ARC 8791B, IAB 6/2/10, effective 7/7/10; ARC 9536B, IAB 6/1/11, effective 5/11/11; ARC 9645B, IAB 8/10/11, effective 9/14/11]

**641—88.10(135) Procedure for revocation of agreement.** A proceeding for revocation of an individual volunteer health care provider's protection agreement or a protected clinic's protection agreement or a sponsor entity's agreement for participation shall be conducted as a contested case proceeding pursuant to Iowa Code chapter 17A and 641—Chapter 173. Iowa Code section 17A.18 does not preclude emergency summary suspension of a protection agreement or a sponsor entity agreement. The VHCPP shall immediately notify the appropriate licensing board and the appropriate protected

clinic or sponsor entity of revocation of an individual volunteer health care provider's protection agreement.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

**641—88.11(135) Effect of suspension or revocation.** If the VHCPP suspends or revokes an individual volunteer health care provider's protection agreement, sponsor entity agreement, or protected clinic's protection agreement, the action shall suspend or revoke future protection but shall not negate defense and indemnification coverage for covered acts or omissions which occurred during the effective dates of the protection agreement.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

**641—88.12(135) Protection denied.**

**88.12(1) Protection denied—appeal procedure.** An applicant who has been denied protection by the VHCPP may appeal the denial and request a hearing on the issues related to the denial by serving a notice of the appeal and request for hearing to the Director, Iowa Department of Public Health, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319-0075, in writing, not more than 30 days following the date of the mailing of the notification of protection denial to the applicant or not more than 30 days following the date upon which the applicant was served notice if notification was made in the manner of service of an original notice. The request for hearing shall specifically delineate the facts to be contested and determined at the hearing.

**88.12(2) Protection denied—hearing.** If an applicant who has been denied protection by the VHCPP appeals the protection denial and requests a hearing pursuant to subrule 88.12(1), the hearing and subsequent procedures shall be conducted pursuant to Iowa Code chapter 17A and 641—Chapter 173.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

**641—88.13(135) Board notice of disciplinary action.** The applicable state licensing board shall notify the VHCPP of the initiation of a contested case against a protected individual volunteer health care provider or the imposition of disciplinary action, including providing copies of any contested case decision or settlement agreement with the protected individual volunteer health care provider upon request of the VHCPP.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

**641—88.14(135) Effect of eligibility protection.** A fully executed protection agreement of an individual volunteer health care provider or protected clinic as eligible for participation in the VHCPP by the applicable state licensing board and the department is solely a determination that the state will defend and indemnify the individual volunteer health care provider or the protected clinic to the extent provided by Iowa Code section 135.24 and these rules. The protection is not an approval or indication of ability or competence and may not be represented as such. The protected clinic or sponsor entity through which the individual volunteer health care provider provides free health care services shall retain responsibility for determining that health care personnel are competent and capable of adequately performing the health care services to be provided.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

**641—88.15(135) Reporting by a protected clinic or sponsor entity.** A reporting form will be provided by the VHCPP to the participating protected clinic or sponsor entity at the time the protected clinic or sponsor entity agreement is approved by the VHCPP. Within 60 days following each calendar quarter, the protected clinic or sponsor entity shall provide a report to the VHCPP. At a minimum, the report shall include the number of clinic patients receiving free health care services and patient demographics by age, ethnicity, and insurance status.

[ARC 8791B, IAB 6/2/10, effective 7/7/10]

These rules are intended to implement Iowa Code section 135.24.

CHAPTER 89  
DECISION-MAKING ASSISTANCE PROGRAM  
AND PARENTAL NOTIFICATION OF INTENT  
TO TERMINATE A PREGNANCY THROUGH ABORTION

**641—89.1(135L) Title.** This chapter may be cited as “Decision-Making Assistance Program and Parental Notification of Intent to Terminate a Pregnancy Through Abortion.”

**641—89.2(135L) Purpose and scope.** The rules contained in this chapter govern the procedures and documentation necessary for notification of a parent or grandparent of a pregnant minor prior to the termination of the pregnancy through abortion. These rules also describe the certification procedure for the decision-making assistance program.

**641—89.3(135L) Definitions.** The following definitions shall apply throughout the chapter.

“*Abortion*” means an abortion as defined in Iowa Code chapter 146.

“*Adult*” means a person 18 years of age or older.

“*Certification form*” means the form included in the written decision-making materials developed by the department.

“*Court*” means juvenile court.

“*Department*” means the Iowa department of public health.

“*Grandparent*” means the parent of an individual who is the parent of the pregnant minor.

“*Licensed physician*” means a physician as licensed by the Iowa board of medical examiners, Iowa Code chapters 148, 150, and 150A.

“*Medical emergency*” means a condition which, based upon a physician’s judgment, necessitates an abortion to avert the pregnant minor’s death, or for which a delay will create a risk of serious impairment of a major bodily function.

“*Minor*” means a person under 18 years of age who has not been and is not married.

“*Parent*” means a parent or a legal guardian or custodian of a pregnant minor.

“*Video*” means the video developed by the Iowa department of public health which provides information regarding the various options available to a pregnant minor with regard to the pregnancy, including a decision to continue the pregnancy to term and retain parental rights following the child’s birth, a decision to continue the pregnancy to term and place the child for adoption following the child’s birth, and a decision to terminate the pregnancy through abortion.

“*Written decision-making materials*” means the materials developed by the Iowa department of public health which provide information regarding the various options available to a pregnant minor with regard to the pregnancy as outlined in the definition of video.

**641—89.4 to 89.10** Reserved.

DECISION-MAKING ASSISTANCE PROGRAM

**641—89.11(135L) Purpose.** The program is intended to provide assistance to minors in making informed decisions relating to pregnancy through the use of the video and written decision-making materials developed by the department.

**89.11(1)** The video and written decision-making materials contain information regarding the following options available to a pregnant minor with regard to the pregnancy:

- a. Continue the pregnancy to term and retain parental rights following the child’s birth;
- b. Continue the pregnancy to term and place the child for adoption following the child’s birth; and
- c. Terminate the pregnancy through abortion.

**89.11(2)** Reserved.

**641—89.12(135L) Initial appointment of a pregnant minor with a licensed physician from whom an abortion is sought and certification procedure for the decision-making assistance program.**

**89.12(1)** A licensed physician from whom a pregnant minor is seeking the performance of an abortion shall offer the viewing of the video and the written decision-making materials to the pregnant minor during the initial appointment relating to those services.

**89.12(2)** The pregnant minor shall sign and date the certification form provided in the written decision-making materials or an exact replica certifying that she has been offered a viewing of the video and the written decision-making materials.

*a.* The minor shall complete a certification form for the licensed physician providing medical services relating to the termination of the minor's pregnancy.

*b.* The licensed physician from whom an abortion is sought shall keep the original certification form as a part of the minor's medical record relating to the termination of the pregnancy.

*c.* A copy of the completed certification form shall be provided to the pregnant minor.

**89.12(3)** A licensed physician shall not knowingly perform an abortion on a pregnant minor prior to obtaining the completed certification form and completing the notification process.

**641—89.13 to 89.20** Reserved.

NOTIFICATION PROCESS

**641—89.21(135L) Notification of parent prior to the performance of abortion on a pregnant minor.**

**89.21(1)** Notification shall be made to the parent of the pregnant minor at least 48 hours prior to the termination of a pregnancy through abortion unless a judicial waiver is granted as provided in Iowa Code section 135L.3, or unless any of the conditions of rule 89.22(135L) have been met.

*a.* The licensed physician who will perform the abortion shall provide notification in person or by mailing the notification by restricted certified mail to a parent of the pregnant minor at the usual place of abode of the parent.

*b.* For the purpose of delivery by restricted certified mail, the time of delivery is deemed to occur at 12 noon on the next day on which regular mail delivery takes place, subsequent to the mailing.

*c.* The notification form shall be in duplicate in the form that may be provided by the department or shall be in duplicate and include, at a minimum, the following:

(1) The name of the minor.

(2) Notification of the intent to terminate the pregnancy.

(3) The name, address, and relationship of the person to be notified.

*d.* The licensed physician who will perform the abortion shall keep the original notification form as a part of the minor's medical record relating to the termination of the pregnancy.

*e.* A copy of the completed notification form shall be provided to the pregnant minor.

**89.21(2)** If the pregnant minor objects to the notification of a parent prior to the performance of an abortion on the pregnant minor, the pregnant minor may petition the court to authorize waiver of the notification requirement pursuant to Iowa Code section 135L.3.

**641—89.22(135L) Exceptions to notification of parent.** The requirements of rule 89.21(135L) do not apply if any of the following conditions exist:

**89.22(1)** The abortion is authorized in writing by a parent entitled to notification.

**89.22(2)** The pregnant minor declares, in a written statement submitted to the licensed physician who will perform the abortion, a reason for not notifying a parent and a reason for notifying a grandparent of the pregnant minor in lieu of the notification of a parent.

*a.* The licensed physician who will perform the abortion shall keep all written documentation as a part of the minor's medical record relating to the termination of the pregnancy.

*b.* Upon receipt of the written statement from the pregnant minor, the licensed physician who will perform the abortion shall provide notification to a grandparent of the pregnant minor, specified by the pregnant minor, in the manner in which the notification of a parent was prescribed in rule 89.21(135L).

c. The notification form shall be in duplicate in the form that may be provided by the department or shall be in duplicate and include, at a minimum, the following:

- (1) The name of the minor.
- (2) Notification of the intent to terminate the pregnancy.
- (3) The name, address, and relationship of the person to be notified.
- (4) A declaration which informs the grandparent of the pregnant minor that the grandparent of the pregnant minor may be subject to civil action if the grandparent accepts notification.
- (5) A provision that the grandparent of the pregnant minor may refuse acceptance of notification and a provision that the grandparent immediately contact the licensed physician if refusing acceptance of the notification.

d. The licensed physician who will perform the abortion shall keep the original notification form as a part of the minor's medical record relating to the termination of the pregnancy.

e. A copy of the completed notification form shall be provided to the pregnant minor.

**89.22(3)** The licensed physician who will perform the abortion certifies in writing that a medical emergency exists which necessitates the immediate performance of an abortion in accordance with Iowa Code chapter 135L. The physician shall certify in writing the basis for the medical judgment that a medical emergency exists and place this written certification in the medical file of the pregnant minor.

**89.22(4)** The pregnant minor declares that the pregnant minor is a victim of child abuse pursuant to Iowa Code section 232.68, the person responsible for the care of the child is a parent of the child, and either the abuse has been reported pursuant to the procedures prescribed in Iowa Code chapter 232, division III, part 2, or a parent of the child is named in a report of founded child abuse.

**89.22(5)** The pregnant minor declares that the pregnant minor is a victim of sexual abuse as defined in Iowa Code chapter 709 and has reported the sexual abuse to law enforcement.

**89.22(6)** The pregnant minor elects not to allow notification of the pregnant minor's parent and a court authorizes waiver of the notification requirement following completion of the proceedings prescribed under Iowa Code chapter 135L.

**641—89.23(135L) Physician compliance.** A licensed physician shall not perform an abortion on a pregnant minor prior to compliance with the requirements outlined in rule 89.21(135L) or 89.22(135L).

**641—89.24 and 89.25** Reserved.

**641—89.26(135L) Fraudulent practice.** A person who does any of the following is guilty of a fraudulent practice in the fourth degree pursuant to Iowa Code section 714.12:

**89.26(1)** Knowingly tenders a false original or copy of the signed and dated certification form described in rule 89.12(135L) or Iowa Code section 135L.2, to be retained by the licensed physician.

**89.26(2)** Knowingly tenders a false original or copy of the notification document mailed to a parent or grandparent of the pregnant minor under this chapter, a false original or copy of the written certification to be provided to a parent of a pregnant minor pursuant to rule 89.22(135L) or Iowa Code section 135L.6, or a false original or copy of the order waiving notification relative to the performance of an abortion on a pregnant minor.

These rules are intended to implement Iowa Code chapter 135L as amended by 1997 Iowa Acts, House File 121.

[Filed emergency 11/14/96 after Notice 10/9/96—published 12/4/96, effective 1/1/97]

[Filed emergency 7/11/97 after Notice 6/4/97—published 7/30/97, effective 7/11/97]

CHAPTER 90  
IOWA CHILD DEATH REVIEW TEAM

**641—90.1(135) Purpose.** The purpose of the Iowa child death review team is to aid in the reduction of preventable deaths of children under the age of 18 years through the identification of unsafe consumer products; identification of unsafe environments; identification of factors that play a role in accidents, homicides and suicides which may be eliminated or counteracted; and promotion of communication, discussion, cooperation, and exchange of ideas and information among agencies investigating child deaths.

[ARC 9248B, IAB 12/1/10, effective 1/5/11]

**641—90.2(135) Definitions.**

“*Team*” means the Iowa child death review team.

“*Unexcused absence*” means failure by a team member to notify the chairperson of an anticipated absence from a team meeting.

**641—90.3(135) Agency.** The Iowa child death review team is established as part of the office of the state medical examiner. The office of the state medical examiner shall provide staffing and administrative support to the team as needed to collect data, organize meetings, and issue an annual report.

[ARC 9248B, IAB 12/1/10, effective 1/5/11]

**641—90.4(135) Membership.** The membership of the review team is subject to the provisions of Iowa Code sections 69.16 and 69.16A, relating to political affiliation and gender balance. Review team members who are not designated by another appointing authority shall be appointed by the state medical examiner. Membership terms shall be for three years. Members may not serve more than two consecutive terms.

**90.4(1)** The review team shall include the following:

- a. The state medical examiner’s designee.
- b. A certified or licensed professional who is knowledgeable concerning sudden infant death syndrome.
- c. A pediatrician who is knowledgeable concerning deaths of children.
- d. A family practice physician who is knowledgeable concerning deaths of children.
- e. One mental health professional who is knowledgeable concerning deaths of children.
- f. One social worker who is knowledgeable concerning deaths of children.
- g. A certified or licensed professional who is knowledgeable concerning domestic violence.
- h. A professional who is knowledgeable concerning substance abuse.
- i. A local law enforcement official.
- j. A county attorney.
- k. An emergency room nurse who is knowledgeable concerning the deaths of children.
- l. A perinatal expert.
- m. A representative of the health insurance industry.
- n. One other appointed at large.

The state medical examiner’s office may temporarily appoint other members to serve as experts, as needed, on a case-by-case basis.

**90.4(2)** Vacancies shall be filled in the same manner in which the original appointments were made. An appointment shall complete the original member’s term.

**90.4(3)** Three consecutive unexcused absences shall be grounds for the state medical examiner to consider dismissal of the team member and to appoint another. The chairperson of the team is charged with providing notification of absences.

[ARC 9248B, IAB 12/1/10, effective 1/5/11]

**641—90.5(135) Officers.** The review team shall elect a chairperson, a vice chairperson, and other officers as deemed necessary by the review team. Officers shall be elected at the first meeting of each

fiscal year. Vacancy in the office of the chairperson shall be filled by elevation of the vice chairperson. Vacancy in the office of the vice chairperson shall be filled by election at the next meeting after the vacancy occurs. The chairperson shall preside at all meetings of the team, appoint such subcommittees as deemed necessary, and designate the chairperson of each subcommittee. If the chairperson is absent or unable to act, the vice chairperson shall perform the duties of the chairperson. When so acting, the vice chairperson shall have all the powers of and be subject to all restrictions upon the chairperson. The vice chairperson shall also perform such other duties as may be assigned by the chairperson.

[ARC 9248B, IAB 12/1/10, effective 1/5/11]

**641—90.6(135) Meetings.** The team shall meet as determined by the state medical examiner or as determined by the review team.

[ARC 9248B, IAB 12/1/10, effective 1/5/11]

**641—90.7(135) Expenses of team members.** The state medical examiner's office shall reimburse members of the team for travel expenses according to state guidelines.

[ARC 9248B, IAB 12/1/10, effective 1/5/11]

**641—90.8(135) Team responsibilities.** The state medical examiner's office will be responsible for the collection of data for sudden unexpected or nonnatural deaths for all children under the age of 18 years that occur in the state of Iowa. The state medical examiner's office will review all child deaths in Iowa and will refer those deemed preventable for additional review by the child death review team. The state medical examiner's office will be responsible for data entry. The team shall perform the following responsibilities:

**90.8(1)** Collect, review, and analyze child death certificates and child death data, including patient records, other pertinent confidential information, and other information the review team deems appropriate concerning deaths of children under 18 years of age which have been deemed preventable by the state medical examiner's office. An annual report will be prepared for the governor and the general assembly concerning the cause and manner of child deaths. The report shall include factual information obtained through review and recommendations regarding prevention of child deaths.

**90.8(2)** Recommend to the governor and the general assembly interventions to prevent deaths of children based on an analysis of the cause and manner of such deaths.

**90.8(3)** Recommend to the agencies represented on the review team and to other agencies changes which may prevent child deaths.

**90.8(4)** Maintain the confidentiality of any patient records or other confidential information reviewed.

**90.8(5)** If deemed appropriate by the team at any point in the review, the team may recommend to the department of human services, appropriate law enforcement agencies, and any person involved with child protection interventions that may prevent harm to a child who is related to or is living in the same home as a child whose case is reviewed by the team.

**90.8(6)** Develop protocols for a child fatality review committee (see 641—Chapter 92) to be appointed by the state medical examiner on an ad hoc basis to immediately review the child abuse assessments which involve the fatality of a child under the age of 18 years. The state medical examiner shall appoint a medical examiner, a pediatrician, and a person involved with law enforcement to the committee.

**90.8(7)** The team may establish subcommittees to which the team may delegate some or all of the team's responsibilities set out in this rule.

[ARC 9248B, IAB 12/1/10, effective 1/5/11]

**641—90.9(135) Liaisons.**

**90.9(1)** The following individuals shall each designate a liaison to assist the team in fulfilling its responsibilities.

- a. Director of public health.
- b. Director of human services.

- c. Commissioner of public safety.
- d. Administrator of the bureau of vital records of the Iowa department of public health.
- e. Attorney general.
- f. Director of transportation.
- g. Director of the department of education.

**90.9(2)** The chairperson shall designate a liaison from the public at large.

**90.9(3)** The membership terms of the liaisons shall be for three years. The liaisons may not serve more than two consecutive terms.

[ARC 9248B, IAB 12/1/10, effective 1/5/11]

**641—90.10(135) Confidentiality and disclosure of information.** The team and liaisons shall maintain the confidentiality of all information and records used in the review and analysis of child deaths, including disclosure of information which is confidential under Iowa Code chapter 22 or any other provisions of state law. No information on individual deaths contained in the records described in this rule shall be disclosed except for the purposes of the team, committee or subcommittee meeting, and no confidential information received in preparation for or during the course of such meeting shall be removed from the meeting room except for further review as authorized by the team chairperson.

In preparation for review of an individual death by the team or its authorized committee or subcommittee, the chairperson of the team or the chairperson's designee is authorized to gather all information pertinent to the review. This information may include, but is not limited to, hospital records, physician's records, school records, day-care records, autopsy records, child abuse registry, investigation or assessment records, state public assistance records, traffic records, public safety records, law enforcement records, fire marshal's records, birth records, death records, and other relevant records necessary to conduct a complete review.

A person in possession or control of medical, investigative or other information pertaining to a child death and child abuse review shall allow the inspection and reproduction of the information by the department upon the request of the department, to be used only in the administration and for the duties of the Iowa child death review team. Information and records which are confidential under Iowa Code section 22.7 and chapter 235A, and information or records received from the confidential records, remain confidential under this rule. A person does not incur legal liability by reason of releasing information to the department as required under and in compliance with this rule.

**641—90.11(135) Immunity and liability.** Review team members and their agents are immune from any liability, civil or criminal, which might otherwise be incurred or imposed as a result of any act, omission, proceeding, decision, or determination undertaken or performed, or recommendation made as a review team member or agent provided that the review team members or agents acted in good faith and without malice in carrying out their official duties in their official capacity. A complainant bears the burden of proof in establishing malice or lack of good faith in an action brought against review team members involving the performance of their duties and powers.

A person who releases or discloses confidential data, records, or any other type of information in violation of this chapter is guilty of a serious misdemeanor.

These rules are intended to implement Iowa Code Supplement section 135.43.

CHAPTER 91  
IOWA DOMESTIC ABUSE DEATH REVIEW TEAM

**641—91.1(135) Purpose.** The purpose of the domestic abuse death review team is to aid in the reduction of the incidence of domestic abuse deaths by accurately identifying the cause and manner of deaths occurring from domestic violence and by making recommendations for changes in policy and practice to improve community interventions for preventing domestic abuse deaths.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.2(135) Definitions.**

“*Team*” means the Iowa domestic abuse death review team.

“*Unexcused absence*” means failure by a team member to notify the chairperson of an anticipated absence from a team meeting.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.3(135) Agency.** The Iowa domestic abuse death review team is established as an independent agency of state government. The Iowa department of public health shall provide staffing and administrative support to the team.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.4(135) Membership.** The membership of the team is subject to the provisions of Iowa Code sections 69.16 and 69.16A, relating to political affiliation and gender balance. Team members who are not designated by another appointing authority shall be appointed by the director of public health, in consultation with the attorney general. At least one member shall also be a member of the Iowa child death review team. Membership terms shall be for three years. One-third of the initial members shall serve for three years, one-third of the initial members shall serve for two years, and one-third of the initial members shall serve for one year, as designated by the appointing authority.

**91.4(1)** The team shall include the following:

- a. The state medical examiner or the state medical examiner’s designee.
- b. A licensed physician or nurse who is knowledgeable concerning domestic abuse injuries and deaths, including suicides.
- c. A licensed mental health professional who is knowledgeable concerning domestic abuse.
- d. A representative or designee of the Iowa coalition against domestic violence.
- e. A certified or licensed professional who is knowledgeable concerning substance abuse.
- f. A law enforcement official who is knowledgeable about domestic abuse and is a member of a state law enforcement association.
- g. A law enforcement investigator experienced in domestic abuse investigation.
- h. A prosecuting attorney experienced in prosecuting domestic abuse cases.
- i. A member of the judiciary appointed by the chief justice of the supreme court.
- j. A clerk of the district court appointed by the chief justice of the supreme court.
- k. A department of correctional services’ employee or subcontractor who is assigned batterers’ treatment program responsibilities and is knowledgeable about risk level assessment.
- l. An attorney licensed in this state who provides criminal defense assistance or child custody representation and who is experienced in dissolution of marriage proceedings.
- m. Both a female and a male victim of domestic abuse.
- n. A family member of a decedent whose death resulted from domestic abuse.

**91.4(2)** Vacancies shall be filled in the same manner in which the original appointments were made. An appointee shall complete the original member’s term.

**91.4(3)** Three consecutive unexcused absences shall be grounds for the director to consider dismissal of the team member and the appointment of another. The chairperson of the team is charged with providing notification of absences.

**91.4(4)** The department may temporarily appoint other members to serve as experts, as needed, on a case-by-case basis.

**91.4(5)** Members of the team who are currently practicing attorneys or current employees of the judicial branch shall not participate in the following:

- a. A case review involving a case in which the team member is presently involved by professional capacity.
- b. Development of protocols for domestic abuse death investigations and team review.
- c. Development of regulatory changes related to domestic abuse deaths.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.5(135) Officers.** Officers of the team shall be a chairperson and a vice chairperson and shall be elected at the first meeting of each fiscal year unless designated at the time of appointment. Vacancy in the office of chairperson shall be filled by elevation of the vice chairperson. Vacancy in the office of vice chairperson shall be filled by election at the next meeting after the vacancy occurs. The chairperson shall preside at all meetings of the team, appoint such subcommittees as deemed necessary, and designate the chairperson of each subcommittee. If the chairperson is absent or unable to act, the vice chairperson shall perform the duties of the chairperson. When so acting, the vice chairperson shall have all the powers of and be subject to all restrictions upon the chairperson. The vice chairperson shall also perform such other duties as may be assigned by the chairperson.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.6(135) Meetings.** The team shall meet upon the call of the chairperson, upon the request of a state agency, or as determined by the team. Robert's Rules of Order shall govern all meetings.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.7(135) Expenses of team members.** The members of the team are eligible for reimbursement of actual and necessary expenses incurred in the performance of their official duties.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.8(135) Team duties and responsibilities.**

**91.8(1)** The team shall perform the following duties:

a. Prepare a biennial report to the governor, supreme court, attorney general, and the general assembly concerning the following subjects:

- (1) The causes and manner of domestic abuse deaths, including an analysis of factual information obtained through review of domestic abuse death certificates and domestic abuse death data, including patient records and other pertinent confidential and public information concerning domestic abuse deaths.
- (2) The contributing factors of domestic abuse deaths.
- (3) Recommendations regarding the prevention of future domestic abuse deaths, including actions to be taken by communities, based on an analysis of the contributing factors.

b. Advise and consult the agencies represented on the team and other state agencies regarding program and regulatory changes that may prevent domestic abuse deaths.

c. Develop protocols for domestic abuse death investigations and team review.

**91.8(2)** In performing duties pursuant to subrule 91.8(1), the review team shall:

a. Review information concerning the relationship between the decedent victim and the alleged or convicted perpetrator from the point when the abuse began until the death occurred in order to identify any correlation between events in the relationship and the escalation of the abuse.

b. Review documents such as orders of protection, dissolution, custody, and support or related court records.

c. Determine whether patterns regarding these events can be established in relation to domestic abuse deaths in general, and consider such conclusions in making recommendations for the biennial report.

**91.8(3)** The team may establish committees or panels to which the team may assign some or all of the team's responsibilities set out in this rule.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.9(135) Liaisons.** The following individuals shall each designate a liaison to assist the team in fulfilling its responsibilities:

1. Director of public health.
2. Director of human services.
3. Commissioner of public safety.
4. Director of corrections.
5. Attorney general.
6. Director of education.
7. State court administrator.
8. Director of the law enforcement academy.
9. Director of human rights.
10. Administrator of the bureau of vital records of the department of public health.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.10(135) Confidentiality and disclosure of information.** The team and liaisons shall maintain the confidentiality of all information and records used in the review and analysis of domestic abuse deaths, including disclosure of information which is confidential under Iowa Code chapter 22 or any other provisions of state law.

**91.10(1)** No information on individual deaths contained in the records described in this rule shall be disclosed except for the purposes of the team, committee or subcommittee meeting, and no confidential information received in preparation for or during the course of such meeting shall be removed from the meeting room except for further review as authorized by the team chairperson.

**91.10(2)** In preparation for review of an individual death by the team or its authorized committee or subcommittee, the chairperson of the team or the chairperson's designee is authorized to gather all information pertinent to the review. This information may include, but is not limited to:

- a. Hospital records;
- b. Physician's records;
- c. School and child care records;
- d. Autopsy records;
- e. Child abuse registry, investigation or assessment records;
- f. State public assistance records;
- g. Traffic and public safety records;
- h. Law enforcement records;
- i. Fire marshal's records;
- j. Birth and death records; and
- k. Other relevant records necessary to conduct a complete review.

**91.10(3)** A person in possession or control of medical, investigative or other information pertaining to a domestic abuse death and related incidents and events preceding the domestic abuse death shall allow the inspection and reproduction of the information by the department upon the request of the department to be used only in the administration and for the duties of the Iowa domestic abuse death review team.

**91.10(4)** Information and records which are confidential under Iowa Code section 22.7 and Iowa Code chapter 235A, and information or records received from the confidential records, remain confidential under this rule.

**91.10(5)** A person does not incur legal liability by reason of releasing information to the department as required under and in compliance with this rule.

**91.10(6)** A person who releases or discloses confidential data, records, or any other type of information in violation of this rule is guilty of a serious misdemeanor.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

**641—91.11(135) Immunity and liability.**

**91.11(1)** Review team members and their agents are immune from any liability, civil or criminal, which might otherwise be incurred or imposed as a result of any act, omission, proceeding, decision, or determination undertaken or performed, or recommendation made as a review team member or agent

provided that the review team members or agents acted in good faith and without malice in carrying out their official duties in their official capacity.

**91.11(2)** A complainant bears the burden of proof in establishing malice or lack of good faith in an action brought against review team members involving the performance of their duties and powers.

[ARC 9110B, IAB 10/6/10, effective 11/10/10]

These rules are intended to implement Iowa Code sections 135.108 to 135.112.

[Filed 11/10/98, Notice 9/9/98—published 12/2/98, effective 1/6/99]

[Filed ARC 9110B (Notice ARC 8974B, IAB 7/28/10), IAB 10/6/10, effective 11/10/10]

CHAPTER 92  
IOWA FATALITY REVIEW COMMITTEE

**641—92.1(135) Purpose.** The purpose of the child fatality review committee is to determine whether the department of human services and others involved with the case of child abuse responded appropriately.

**641—92.2(135) Definitions.**

“*Child abuse assessment*” means an assessment performed in accordance with Iowa Code section 232.71B.

“*Child fatality*” means the death of a child under the age of 18.

“*Committee*” means the Iowa child fatality review committee.

“*Department*” means the department of public health.

“*Multidisciplinary team*” means the group of individuals as defined in Iowa Code section 235A.13.  
[ARC 9355B, IAB 2/9/11, effective 3/16/11]

**641—92.3(135) Committee.** The committee is an ad hoc committee appointed by the state medical examiner on a case-by-case basis. The committee shall include a medical examiner, a pediatrician who is knowledgeable concerning deaths of children, and a person involved in law enforcement. The committee may also consult with individuals with specific child death expertise as necessary to perform the duties and responsibilities of the committee. The office of the state medical examiner shall provide staffing and administrative support to the committee.

[ARC 9355B, IAB 2/9/11, effective 3/16/11]

**641—92.4(135) Formation of the committee.** The state medical examiner may appoint a committee to review the death of a child under the age of 18 upon the request from a member of the legislature or the governor in cases in which a report of suspected child abuse had been filed with the department of human services pursuant to Iowa Code section 232.70 within two years preceding the child’s death.

[ARC 9355B, IAB 2/9/11, effective 3/16/11]

**641—92.5(135) Committee protocol for review.** In determining whether the department of human services and others involved with the case of child abuse responded appropriately, the committee shall review records relevant to the child’s death, which may include but are not limited to the following:

1. All reports of suspected child abuse on the identified child made to the department of human services pursuant to Iowa Code section 232.70;
2. All child abuse assessments performed on the identified child in accordance with Iowa Code section 232.71B;
3. All other department of human services records maintained on the identified child;
4. All relevant law enforcement records which refer to the identified child;
5. All relevant medical and hospital records of the identified child;
6. All relevant court records which refer to the identified child;
7. Records of any multidisciplinary team which reviewed the case of the identified child;
8. Records of any public entity which reviewed the case of the identified child; and
9. All relevant records maintained by a day care provider, other child care provider, preschool, elementary school, middle school, or high school which refer to the identified child.

The committee shall also consult with any multidisciplinary team that is operating in the area where the fatality occurred.

**641—92.6(135) Content of report.**

**92.6(1)** Upon completion of the review, the state medical examiner shall submit the committee’s report to:

- a. The governor or the governor’s designee;
- b. The member of the senate or employee of the general assembly designated by the majority leader or minority leader of the senate;

c. The member of the house of representatives or employee of the general assembly designated by the speaker or minority leader of the house of representatives.

**92.6(2)** The committee report shall include findings concerning the case and recommendations for changes to prevent child fatalities when similar circumstances exist. The report shall include but is not limited to the following information:

a. The dates, outcomes, and results of any actions taken by the department of human services and others in regard to each report and allegation of child abuse involving the child who died.

b. The results of any review of the case performed by a multidisciplinary team, or by any other public entity that reviewed the case.

c. Confirmation of the department of human services' receipt of any report of child abuse involving the child, including confirmation as to whether or not any assessment involving the child was performed in accordance with Iowa Code section 232.71B, the results of any assessment, a description of the most recent assessment and the services offered to the family, the services rendered to the family, and the basis for the department's decisions concerning the case.

**92.6(3)** If deemed appropriate by the committee, the committee may, at any point in the review, recommend to the department of human services, appropriate law enforcement agencies, and any other person involved with child protection, interventions intended to prevent harm to a child who is related to or is living in the same home as a child whose case is reviewed by the committee.

[ARC 9355B, IAB 2/9/11, effective 3/16/11]

**641—92.7(135) Consultation with county attorney.** Prior to issuing the report, the committee shall consult with the county attorney responsible for prosecution of the alleged perpetrator of the child fatality. The committee's report shall include child abuse information associated with the case and the child but is subject to the restrictions applicable to the department of human services for release of information concerning a child fatality or near fatality in accordance with Iowa Code section 235A.15(9).

**641—92.8(135) Supplemental report.** Following the completion of the trial of any alleged perpetrator of the child fatality and the appeal period for the granting of a new trial, the committee shall issue a supplemental report containing the information that was withheld, in accordance with rule 92.7(135), so as not to jeopardize the prosecution or the rights of the alleged perpetrator to a fair trial as described in Iowa Code section 235A.15(9) "f" and "g."

**641—92.9(135) Confidentiality and disclosure of information.** The committee shall have access to patient records and other confidential information. The committee may disseminate confidential information in the committee's report which shall be submitted to the governor and the general assembly. For all other purposes, the committee shall maintain the confidentiality of all records which are confidential under Iowa Code section 22.7, Iowa Code chapter 235, or other provision of law. A person in possession or control of medical, investigative, or assessment information or other information pertaining to a child death and child abuse review shall allow the inspection and reproduction of the information by the department, upon the request of the department, to be used only in the administration and for the duties of the Iowa child fatality review committee. A person does not incur legal liability by reason of releasing information to the department as required under and in compliance with this rule.

**641—92.10(135) Immunity and liability.** Review committee members are immune from any liability, civil or criminal, which might otherwise be incurred or imposed as a result of any act, omission, proceeding, decision, or determination undertaken or performed, or recommendation made as a review committee member provided that the review committee members acted in good faith and without malice in carrying out their official duties in their official capacity. A complainant bears the burden of proof in establishing malice or lack of good faith in an action brought against review committee members involving the performance of their duties and powers.

A person who releases or discloses confidential data, records, or any other type of information in violation of this chapter is guilty of a serious misdemeanor.

These rules are intended to implement Iowa Code section 135.43(4).

CHAPTER 93  
MANDATORY REPORTER TRAINING CURRICULA

**641—93.1(135) Purpose.** The purpose of the mandatory reporter training curricula process is to provide an objective method by which curricula for child and dependent adult abuse mandatory reporter training are reviewed and approved. Approved curricula are to be taught to persons who work in a position classification that under law makes the persons mandatory reporters of child or dependent adult abuse and the position classification does not have a mandatory reporter training curriculum approved by a licensing or examining board.

[ARC 1300C, IAB 2/5/14, effective 3/12/14]

**641—93.2(135) Panel.** Rescinded ARC 1300C, IAB 2/5/14, effective 3/12/14.

**641—93.3(135) Meetings.** Rescinded ARC 1300C, IAB 2/5/14, effective 3/12/14.

**641—93.4(135) Duties.** The department shall perform the following duties:

1. Review and approve criteria for child and dependent adult abuse curricula for persons who work in a position classification that under law makes the persons mandatory reporters of child or dependent adult abuse and the position classification does not have a mandatory reporter training curriculum approved by a licensing or examining board.
2. Conduct literature reviews and scrutinize existing research pertinent to its purpose.
3. Review curricula based on the criteria established in rule 93.5(135).
4. Report decisions regarding approvals or denials to applicants.
5. Review appeals as provided in rule 93.7(135).
6. Maintain a list of all approved curricula and distribute the list upon request.

[ARC 1300C, IAB 2/5/14, effective 3/12/14]

**641—93.5(135) Standards for approval of curricula.** The following criteria are established to assist in evaluation of curricula. Nothing in this rule shall preclude providers from offering additional coursework, training, or information that exceeds or expands upon the curriculum prescribed by the department. At a minimum, approved curricula shall contain each of the following:

**93.5(1)** Content that necessitates at least two hours of training.

**93.5(2)** The definition of child abuse as defined in Iowa Code section 232.68(2) or the definition of dependent adult abuse as defined in Iowa Code section 235B.2(5) or both.

**93.5(3)** Training in the physical, psychological, behavioral, environmental, and other relevant indicators of child abuse as defined in Iowa Code section 232.68(2) or dependent adult abuse as defined in Iowa Code section 235B.2(5) or both.

**93.5(4)** Requirements and procedures for reporting suspected cases of abuse, including when to report, how to report, and to whom to report.

**93.5(5)** Review of the Code of Iowa and the Iowa Administrative Code pertaining to child or dependent adult abuse, including review of the classifications of mandatory reporters, confidentiality provisions, immunity provisions, and penalties for failure to report.

**93.5(6)** A description of the assessment protocol utilized by the department of human services and other investigating agencies following receipt of a report and the manner in which information is shared between the department of human services and the reporter, other relevant individuals, agencies, and entities.

**93.5(7)** An evaluation component to assess the understanding, knowledge, and skills acquired.

**93.5(8)** Resource materials or information in the following areas:

- a. The causes and risk factors of child or dependent adult abuse;
- b. Assisting individuals and families who have experienced child or dependent adult abuse, including information on local resources and available referral services;
- c. Prevention of child or dependent adult abuse.

[ARC 1300C, IAB 2/5/14, effective 3/12/14]

**641—93.6(135) Process for application review and approval.**

**93.6(1) *Submission and decision.*** An organization, institution, agency, or individual may submit an application for approval of curriculum on a form prescribed by the department. The application shall at a minimum demonstrate the manner in which the proposed curriculum meets the criteria in rule 93.5(135). Within three months of submission of an application, the department shall review the application and issue a written decision regarding the application. If each of the standards for approval has been satisfied, the department shall approve the curriculum for a period of three years and shall notify the applicant of the department's decision in writing. If the standards for approval have not been met, the department shall deny the curriculum and shall provide to the applicant a written explanation of the reason for denial.

**93.6(2) *Renewal.*** Within 90 days of expiration of the three-year approval period, an applicant may apply for approval renewal by completing a renewal of application form provided by the department.

**93.6(3) *Additional information.*** The department may request additional information from the applicant or other individuals at any phase in the review process.

**93.6(4) *Evaluation of approved curriculum.*** The department may at any time reevaluate an approved curriculum. Upon evidence of a significant variation in the curriculum presented from the curriculum approved, the department may disapprove all or any part of the previously approved curriculum.

**93.6(5) *Amendment to approved curriculum.*** The department may require amendments to an approved curriculum based on legislative or administrative rule changes.

[ARC 1300C, IAB 2/5/14, effective 3/12/14]

**641—93.7(135) Process for appeal.** A person aggrieved by a department decision may, within 30 days of receipt of the decision, appeal the decision by submitting a written appeal to the department which states the reason for the appeal. Within 60 days of receipt of the appeal, the department shall review the application and any additional information submitted. If the department finds that each of the standards for approval has been satisfied, the department shall approve the curriculum. If the standards for approval have not been met, the department shall deny the curriculum. The department shall provide a written explanation of the reasons for the approval or denial of approval. This decision is the final action of the department and shall be considered final agency action for purposes of judicial review. The appeal review process is not a contested case proceeding as that term is defined in Iowa Code chapter 17A.

[ARC 1300C, IAB 2/5/14, effective 3/12/14]

These rules are intended to implement Iowa Code section 135.11(24) as amended by 2013 Iowa Acts, Senate File 396, section 49.

[Filed ARC 1300C (Notice ARC 1036C, IAB 10/2/13), IAB 2/5/14, effective 3/12/14]

CHAPTER 94  
CHILD PROTECTION CENTER GRANT PROGRAM

**641—94.1(135) Scope and purpose.** A child protection center grant program is established to provide grants to eligible applicants for the purpose of establishing new child protection centers and to support existing child protection centers. Grants may be available to eligible organizations that meet, or that are in the process of implementing, child protection center standards established by the National Children’s Alliance. If sufficient funding is available, the program shall, at a minimum, award a grant to a child protection center in or available to each department of human services region in Iowa. Implementation of the grant program is subject to the availability of funding.

**641—94.2(135) Definitions.** For the purposes of these rules, the following definitions shall apply:

“*Child abuse*” means abuse as defined by Iowa Code section 232.68(2).

“*Child protection center*” or “*child advocacy center*” means a comprehensive, child-focused program, designed by communities to meet their needs, based in a facility that allows law enforcement, child protection professionals, prosecutors, and the mental health and medical communities to work together to handle child abuse cases. Child advocacy center is synonymous with child protection center.

“*Child protection worker*” means a worker as defined by Iowa Code section 232.68(2A).

“*Culturally competent*” means the capacity to function in more than one culture, requiring the ability to appreciate, understand and interact with members of diverse populations within the community.

“*Department*” means the Iowa department of public health.

“*Developmentally appropriate*” means that services are based on human development and learning, individual characteristics and experiences, social and cultural contexts.

“*Director*” means the director of the Iowa department of public health.

“*Family advocate*” means an individual who supports a child provided service through a child protection center and ensures access to formal or informal community services as needed by the child or the child’s family.

“*Forensic interview*” means a face-to-face meeting between individuals to elicit information and that follows a process suitable for a law court or public debate.

“*Multidisciplinary team*” means individuals with many education levels that encompass the individuals’ beliefs and training in fields of health, education, human service, justice, faith, and others.

**641—94.3(135) Goals.** A child protection center’s goals for victims of child abuse allegations shall be:

1. To provide consistent and expedient response and follow-up to abuse reports.
2. Coordination of activities to investigate, prosecute, and treat child abuse.
3. To advocate for medical and mental health resources to effectively help the child and the child’s family.
4. To reduce the number of interviews and interactions with a victim.
5. To provide consistent and compassionate support for the child and the child’s family.
6. To ensure that the child is not further victimized by the system designed to protect the child.
7. To increase successful prosecutions.

**641—94.4(135) Review process.**

**94.4(1)** The department shall establish a request for proposal and application process for organizations eligible to receive funding. The department shall establish a process to review applications, which includes receiving input from a review committee. The review process and review criteria shall be described in the request for proposals.

**94.4(2)** The director shall create a committee to review proposals and make recommendations to the director. At a minimum, committee membership shall include representation from:

- a. State departments of human services, justice and public health;
- b. Iowa Medical Society;
- c. Iowa Hospital Association;

- d.* Iowa Nurses Association; and
- e.* Iowa chapter of the National Association of Social Workers.

**641—94.5(135) Eligibility and criteria.** To be eligible for a child protection center grant, an organization shall:

**94.5(1)** Have acquired partial membership rank as a child advocacy center from the National Children's Alliance and shall identify a plan to acquire full membership rank within one year of receiving a state grant.

**94.5(2)** Have in place an interagency memorandum of understanding which meets the requirements of Iowa Code section 135.118. The applicant shall provide in the application written information in the following areas:

- a.* Data, statistics and facts from an assessment of need and assets in the community to support a child protection center for children.
- b.* Identification of barriers to the child protection center to reach the purpose and goals for children as may exist in federal, state or local rules, regulations, codes, policies or procedures.
- c.* A plan to request and advocate waivers of federal, state, or local rules, regulations, codes, policies, or procedures to remove or reduce barriers.
- d.* The child protection center's access to information regarding all suspected or confirmed child abuse/neglect victims in the identified service area.
- e.* The child protection center's provision of 24-hour access to center staff for support, questions and referrals regarding child abuse.
- f.* Identification of matching local funds to support and sustain the child protection center in the community.
- g.* A plan for community education on prevention of child abuse and neglect.
- h.* Collaboration agreements with providers of human services, child health services, early education services, and all other potential community partners to support the purpose and goals of the child protection center.
- i.* The child protection center's ability to access and utilize alternate funds for activities provided.

**641—94.6(135) Appeals.** An applicant may appeal the denial of a properly submitted grant application. Appeals shall be governed by rule 641—176.8(135,17A).

These rules are intended to implement Iowa Code section 135.118.

[Filed 3/14/03, Notice 2/5/03—published 4/2/03, effective 5/7/03]

CHAPTER 95  
VITAL RECORDS: GENERAL ADMINISTRATION  
[Prior to 12/12/12, see [641] Ch 96, 98.1, Chs 103, 104]

**641—95.1(144) Definitions.** For the purpose of 641—Chapters 95 to 100, the following definitions shall apply:

“*Administrative costs*” means costs for the registration, collection, preservation, modification and certification of records, including but not limited to costs related to copying, regular mailing, searching, staffing, and maintenance of systems.

“*Advanced registered nurse practitioner*” or “*ARNP*” means an individual licensed pursuant to Iowa Code chapter 152.

“*Age of majority*” means the chronological moment when a child legally assumes majority control over the child’s own person and actions and decisions, thereby terminating the legal control and legal responsibilities of the child’s parents over and for the child. The period of minority extends to the age of 18 years, but every minor attains majority by marriage.

“*Amendment*” means a change made by the state registrar upon request from an entitled person as described in 641—95.8(144) to an obvious error, omission, or transposition of letters in a word of common knowledge one year or more after the event.

“*Birth center*” means a facility or institution, which is not an ambulatory surgical center or a hospital or in a hospital, in which births are planned to occur following a normal, uncomplicated, low-risk pregnancy.

“*Birth institution*” means a private or public hospital licensed pursuant to Iowa Code chapter 135B that has a licensed obstetric unit or is licensed to provide obstetric services.

“*Burial-transit permit*” means a permit which is required to assume custody of a dead body or fetus pursuant to Iowa Code section 144.32.

“*Certificate*” means the written or electronic legal document containing the facts of an event; also used interchangeably with the term “record.”

“*Certificate of birth resulting in stillbirth,*” pursuant to Iowa Code section 144.31A, means a noncertified copy issued based upon a properly filed fetal death certificate to record the birth of a stillborn fetus.

“*Certified copy*” means an official copy of a registered vital record that is authenticated by the state registrar or county registrar. A certified copy contains a statement certifying the facts are true and accurate as recorded, is printed on security paper, and has authentication seals and signatures. A certified copy excludes all entries indicated as confidential or for statistical information.

“*Commemorative certificate,*” pursuant to Iowa Code section 144.45A, means a commemorative abstract of an Iowa birth or marriage record that has been properly filed.

“*Competent and disinterested person*” means an individual of legal age who is acquainted with both applicants who plan to marry.

“*Confidential information*” means data or information that is on a vital record, is not considered public information, and is restricted as to its release pursuant to Iowa Code chapter 144 or other provision of federal or state law.

“*Correction*” means a change made by the state registrar upon observation, upon query, or upon request from an entitled person as described in 641—95.8(144) to an obvious error, omission, or transposition of letters in a word of common knowledge within one year and prior to the first anniversary of the event.

“*County registrar*” means the county recorder with the authority to record vital records and issue certified copies. The county registrar operates under the state vital records laws and rules and the guidance of the state registrar pursuant to Iowa Code sections 144.5 and 144.9. Pursuant to Iowa Code section 331.601(4), if the office of the county recorder has been abolished, “county registrar” means the office to which the duties are assigned by the county board of supervisors.

“*County resident copy*” means a properly filed, clearly marked working copy of a decedent’s death certificate which is sent to and recorded by the county registrar of the county of the decedent’s residence in the event the death occurred outside the county of the decedent’s residence.

“*Court of competent jurisdiction*” means the appropriate court for the type of action. When used to refer to inspection of an original certificate of birth based upon an adoption, “court of competent jurisdiction” means the court in which the adoption was ordered.

“*Custody*” means guardianship or control of vital records, including both physical possession, referred to as physical custody, and legal responsibility, referred to as legal custody, unless one or the other is specified. The state registrar shall not transfer legal custody of vital records to another agency for purposes of granting public access until all the records have been purged of all confidential information.

“*Day*” means calendar day.

“*Dead human body*” means a lifeless human body or parts or bones of a body, if, from the state of the body, parts, or bones, it may reasonably be concluded that death recently occurred.

“*Death*” means the condition as defined in Iowa Code section 702.8.

“*Declaration of paternity registry*” means a registry for a putative father to declare paternity pursuant to Iowa Code section 144.12A. The declaration does not constitute an affidavit of paternity filed pursuant to Iowa Code section 252A.3A.

“*Delayed birth record*” means the registration of a live birth event occurring in Iowa one or more years after the date of birth which is clearly marked as delayed and shall show on its face the date of the delayed registration.

“*Delayed death record*” means the registration of a death event occurring in Iowa one or more years after the date of death which is clearly marked as delayed and shall show on its face the date of the delayed registration.

“*Delayed marriage record*” means the registration of a marriage event occurring in Iowa one or more years after the event which is clearly marked as delayed and shall show on its face the date of the delayed registration.

“*Department*” means the Iowa department of public health.

“*Disinterment permit*” means a permit which allows the removal of a dead human body or fetus from its original place of burial, entombment or interment for the purpose of autopsy or reburial.

“*Electronic access*” means authority given by the state registrar to a county registrar to access electronic vital records through the electronic statewide vital records system for purposes of retrieving information. The state registrar shall provide guidelines for electronic access and the retrieval of information from the electronic statewide vital records system.

“*Electronic statewide vital records system*” means the combined vital records system for registration of birth records, registration of death records, issuance of certified copies of vital records by the state registrar and county registrar, and fee accounting.

“*Emancipated minor*” means a person younger than 18 years of age who has obtained the age of majority by court order.

“*Fetal death*” means a death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy which is not an induced termination of pregnancy. The death is indicated by the fact that, after such expulsion or extraction, the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord or definite movement of voluntary muscles. In determining a fetal death, heartbeats shall be distinguished from transient cardiac contractions, and respirations shall be distinguished from fleeting respiratory efforts or gasps.

“*Filing*” means the presentation of a certificate, report, or other record of a live birth, death, fetal death, adoption, marriage, dissolution, or annulment for registration pursuant to Iowa Code chapter 144.

“*Final disposition*” means the burial, interment, cremation, removal from the state, or other disposition of a dead body or fetus.

“*Foundling*” means a living infant of unknown parentage whose place of birth is where the infant is found and whose date of birth shall be determined by approximation.

“*Funeral director*” means a person licensed in Iowa to practice mortuary science pursuant to Iowa Code chapter 156.

“*Gestational surrogate arrangement*” or “*surrogate mother arrangement*,” as defined in Iowa Code section 710.11, means an arrangement whereby a female agrees to be artificially inseminated with the sperm of a donor, to bear a child, and to relinquish all rights regarding that child to the donor or donor couple.

“*Health care provider*” means an individual licensed under Iowa Code chapter 148, 148C, 148D, or 152 or any individual who provides medical services under the authorization of the licensee.

“*Induced termination of pregnancy*” means the use of any means to terminate the pregnancy of a woman known to be pregnant with the intent other than to produce a live birth or to remove a dead fetus as defined in Iowa Code section 144.29A(8).

“*Institution*” means a facility as defined in Iowa Code section 144.1(10), including “hospital” as defined in Iowa Code section 135B.1(3) but not including “birth center” as defined in Iowa Code section 135.61(2).

“*Institutional health facility*” means a hospital as defined in Iowa Code section 135B.1, including a facility providing medical or health services that is open 24 hours per day, seven days per week and that is a hospital emergency room or a health care facility as defined in Iowa Code section 135C.1.

“*Jurisdiction*” means the state or county to which legal authority for the system of vital statistics has been granted by statute.

“*Last name*” means surname.

“*Lineal consanguinity*” means the existence of a line of descent in which one person is descended in a direct lineal relationship to another: as between the registrant and the registrant’s parent, grandparent, great-grandparent, and so upward, in the direct ascending line; or between the registrant and the registrant’s child, grandchild, great-grandchild and so downward in the direct descending line; or any siblings of the registrant.

“*Live birth*” means the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy, which after such expulsion or extraction, breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached. In determining a live birth, heartbeats shall be distinguished from transient cardiac contractions, and respirations shall be distinguished from fleeting respiratory efforts or gasps.

“*Marriage license valid date*” means the day on which the marriage license becomes valid and on or after which the parties are authorized to marry. When the marriage license valid date is computed, the date of application shall be excluded. The marriage license shall become valid after the expiration of three calendar days after the date of application, unless earlier validated by a court of competent jurisdiction.

“*Medical certification*” means a statement which attests that the medical information reported on the certificate of death or fetal death is accurate to the best of the medical certifier’s knowledge.

“*Medical certifier*” means an Iowa-licensed physician, physician assistant, advanced registered nurse practitioner, or medical examiner who attests that the death event has taken place and who determines the cause and manner of death.

“*Medical examiner*” means the medical legal officer who makes the determination of the cause of death in nonroutine deaths such as non-natural, sudden, or unattended deaths or other deaths which affect the public interest.

“*Modification*” means any change made to a record that has been accepted and registered, such as a correction, an amendment, a change after adoption or paternity determination, or any other change.

“*Mutual consent voluntary adoption registry*” means a registry which authorizes adult adopted children, adult siblings, and the biological parents of adult adoptees to register to obtain identifying birth information.

“*Natural cause of death*” means a death due to a disease or the aging process and not due to external causes.

*“Newborn safe haven registration”* means the registration of the birth of a living infant of unknown parentage who has been abandoned or left at some unknown time after birth in a location other than the place of delivery.

*“Non-birthing institution”* means a private or public hospital licensed pursuant to Iowa Code chapter 135B that does not have a licensed obstetric unit or is not licensed to provide obstetric services but may provide obstetric services on an emergency basis.

*“Non-institution birth”* means a live birth that occurs outside of an institution and not en route to an institution.

*“Non-natural cause of death,”* pursuant to Iowa Code section 144.28(1)“a,” means the death is a direct or indirect result of physical, chemical, thermal, or electrical trauma, or drug or alcohol intoxication or other poisoning.

*“Notification of record search”* means the document issued to the applicant when the record requested cannot be located through a search of registered records. The document contains a certification statement, is printed on security paper, and has authentication seals and signatures.

*“Officiant”* means (1) a judge of the Iowa supreme court, court of appeals, or district court, including a district associate judge, an associate juvenile judge, or a judicial magistrate, and including a senior judge as defined in Iowa Code section 602.9202(3), or (2) a person ordained or designated as a leader of the person’s religious faith.

*“Physician”* means an individual licensed pursuant to Iowa Code chapter 148.

*“Physician assistant”* means an individual licensed pursuant to Iowa Code chapter 148C.

*“Presumptive death”* means a death event presumed to have occurred in Iowa where no human body is found and a court of competent jurisdiction has determined the death has occurred.

*“Putative father”* means a man who is alleged to be or who claims to be the biological father of a child born to a woman to whom the man is not married at the time of the conception or birth of the child or at any time during the period between the conception and birth of the child.

*“Record of death”* means the compilation of those entries of a death, whether electronic or paper, which are contained in indexed systems which record the death event occurring in Iowa. “Record of death” shall include the certificate of death.

*“Record of fetal death”* means the compilation of those entries of a fetal death, whether electronic or paper, which are contained in indexed systems which record a fetal death event occurring in Iowa. “Record of fetal death” shall include the certificate of fetal death.

*“Record of foreign born adoption”* means the compilation of those entries of a live birth event for a child born in a foreign country and adopted by an Iowa resident. “Record of foreign born adoption” shall include the certificate of foreign birth and shall not constitute U.S. citizenship.

*“Record of live birth”* means the compilation of those entries of a live birth event, whether electronic or paper, which are contained in indexed systems which record a live birth event occurring in Iowa. “Record of live birth” shall include the certificate of live birth.

*“Record of marriage”* means the compilation of those entries of a marriage event, whether electronic or paper, which are contained in indexed systems which record a marriage event occurring in Iowa. “Record of marriage” shall include the certificate of marriage.

*“Registrant”* means the person named on the certificate as the person who was born, died, or was married.

*“Registration”* means the process by which vital statistics records are completed, filed, and incorporated by the state registrar in the official records.

*“Report of dissolution or annulment”* means the statistical report of dissolution or annulment, whether electronic or paper, excluding all entries indicated as confidential or for statistical information only.

*“Report of termination of pregnancy”* means the aggregated compilation of the information received by the department on terminations of pregnancies for each information item listed, with the exception of the report tracking number, the health care provider code, and any set of information for which the number is so small that the confidentiality of any person to whom the information relates may be compromised.

“*Research*” means the systematic investigation designed primarily to develop or contribute to scientific, medical, public health or psychosocial disciplines and generalized knowledge and not for private gain.

“*Sealed*” means the removal from inspection of any copy of an original certificate in the custody of the county registrar and the state registrar.

“*Security paper*” means standardized paper for issuing certified copies of vital record events that meets, at a minimum, national requirements for security features embedded within the paper to deter tampering, counterfeiting, photocopying, or imaging in order to help prevent fraudulent use of the certified copy and prevent identity theft.

“*Single parent birth*” means any record of live birth for which there is a reference or statement on the certificate or entry which directly indicates “no” regarding “born in wedlock” or “married”; or any record of live birth for which there is reference or statement on the certificate or entry that either parent is “unknown” or “anonymous”; or any certificate or entry which reflects the omission or absence of the name of the father of the child.

“*Spontaneous termination of pregnancy*” means the occurrence of an unintended termination of pregnancy at any time during the period from conception to 20 weeks’ gestation and is not a spontaneous termination of pregnancy at any time during the period from 20 weeks or greater which is reported to the department as a fetal death under Iowa Code section 144.29.

“*Standard birth registration*” means a vital record of a live birth event that occurred in Iowa which was submitted and accepted for registration within one year of the event.

“*State registrar*” means the director of the department or the director’s designee.

“*Stillbirth*” means an unintended fetal death occurring after a gestation period of 20 completed weeks or more or an unintended fetal death of a fetus with a weight of 350 or more grams.

“*System of vital statistics*” or “*system*” means the registration, collection, preservation, amendment, and certification of vital statistics records, and activities and records related thereto including the data processing, analysis, and publication of statistical data derived from such records.

“*Uncertified copy*” means an unofficial copy of a registered vital record which is not printed on security paper and which does not contain any authentication by the issuing jurisdiction. Uncertified copies shall contain an overstamp such as: “Not for Legal Purposes,” “Administrative Use Only,” “Deceased,” “For Genealogical Purposes Only,” “Working Copy,” or any other overstamp as authorized by the state registrar.

“*Vital records*” means certificates or reports of birth, death, fetal death, marriage, dissolution, annulment, and related data.

“*Vital statistics*” means data derived from reports, certificates, and records of live birth, death, fetal death, induced termination of pregnancy, marriage, dissolution of marriage or annulment, and data related thereto.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2275C, IAB 12/9/15, effective 1/13/16]

**641—95.2(144) Vital records and statistics.** There is established a division in the department which shall install, maintain, and operate the system of vital statistics throughout the state. No official system for the registration of births, deaths, fetal deaths, adoptions, marriages, dissolutions, and annulments shall be maintained in the state or any of its political subdivisions other than the one provided for in Iowa Code chapter 144, including, but not limited to, a system maintained by any agency or private entity.

**95.2(1)** No person shall prepare or issue any certificate which purports to be an original certified copy or a copy of a certificate of birth, death, fetal death, adoption, marriage, dissolution, or annulment except as provided for in Iowa Code chapter 144 and authorized by the state registrar.

**95.2(2)** The state registrar and the county registrar shall not maintain or issue copies of any vital record of an event occurring outside the state registrar’s or county registrar’s jurisdiction except as provided for in Iowa Code chapter 144 and authorized by the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2933C, IAB 2/1/17, effective 3/8/17; see Delay note at end of chapter]

**641—95.3(144) Forms—property of department.** All forms, certificates and reports pertaining to the registration of vital events are the property of the department and shall be surrendered to the state registrar upon demand.

**95.3(1)** The forms supplied or approved for reporting vital events shall be used for official purposes as provided for by law, rules and instructions of the state registrar.

**95.3(2)** No forms, except those furnished or approved by the state registrar, shall be used in the reporting of vital events or the making of copies of vital records.

**95.3(3)** Security paper used to report vital events shall be maintained in a secure location accessible only to the state and county registrars and their employees for administrative purposes.

**95.3(4)** Security paper shall be used to issue certified copies of Iowa vital records and shall be maintained in a secure location accessible only to the state and county registrars and their employees for administrative purposes.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—95.4(144) Information by others.**

**95.4(1)** Any person having knowledge of the facts shall furnish information that the person possesses regarding any birth, death, fetal death, adoption, marriage, dissolution, or annulment, upon demand of the state registrar.

**95.4(2)** Every person in charge of an institution, or the person's designee, shall maintain a record of personal particulars and data concerning each person admitted or confined to the institution pursuant to Iowa Code section 144.47. This record shall include information required by the standard certificate of birth, death, and fetal death forms issued under the direction of the state registrar. The record shall be made at the time of admission based on the information provided by such person, but when information cannot be obtained from the person, it shall be obtained from the most knowledgeable relative or person acquainted with the facts. The name and address of the person providing the information shall be a part of the record.

**95.4(3)** Records maintained under this rule shall be retained for a period of not less than ten years and shall be made available for inspection by the state registrar upon demand.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—95.5(144) Handling of vital records.**

**95.5(1)** State equipment and state vital records shall not be handled or accessed except by the state registrar, the state registrar's employees, or other authorized personnel for administrative purposes.

**95.5(2)** The county registrar shall provide assistance to the public in accessing vital records designated as public records in the custody of the county registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—95.6(144) Fees.**

**95.6(1)** *Fees for services provided by state registrar or county registrar.* The following fees shall be charged and remitted for the various services provided by the state registrar or the county registrar.

*a.* The state registrar or county registrar, as applicable, shall charge a fee of \$20 to conduct a search for a record. On and after July 1, 2019, this fee will revert to \$15.

(1) The search fee shall include one certified copy of the record.

(2) For each additional certified copy of the same record, a \$20 fee shall be charged. On and after July 1, 2019, this fee will revert to \$15.

(3) If, following a search, no record is found and no certified copy is printed, the \$20 fee may be retained. On and after July 1, 2019, this fee will revert to \$15.

*b.* The state registrar shall charge a fee of \$20 to prepare an adoption certificate, to amend a certificate, to amend a certificate of live birth to reflect a legal change of name, to prepare a delayed certificate, to process other administrative or legal actions, or for the search and preparation of copies of supporting documents on file in the state registrar's office. On and after July 1, 2019, this fee will revert to \$15. No fee shall be charged for establishment of paternity.

c. The state registrar shall charge a fee of \$25 to file a completed application for the mutual consent voluntary adoption registry.

d. The state registrar shall charge a fee of \$5 to update applicant information maintained in the mutual consent voluntary adoption registry and the declaration of paternity registry.

e. The state registrar shall charge a fee of \$20 to amend an abstract or other legal documentation in support of the preparation of a new certificate. On and after July 1, 2019, this fee will revert to \$15.

f. The state registrar shall charge a fee of \$35 to conduct a search for a record for the purpose of issuing a commemorative copy of a certificate of birth or a certificate of marriage pursuant to Iowa Code section 144.45A. Fees collected shall be deposited in the emergency medical services fund established in Iowa Code section 135.25.

g. The state registrar shall charge a fee of \$20 to conduct a search for a certificate of fetal death for the purpose of issuing an uncertified copy of a certificate of birth resulting in stillbirth pursuant to Iowa Code section 144.31A. On and after July 1, 2019, this fee will revert to \$15.

**95.6(2) *Overpayments.*** Any overpayment of \$5 or less received by the state registrar for the copying of or search for vital records or for the preparation or amending of a certificate shall not be refunded and shall be retained by the department.

**95.6(3) *Certified copy of modified vital record.*** When an individual is in possession of a previously issued certified copy of a vital record and the original record is subsequently modified, the individual may request and receive a certified copy of the modified record without charge if the certified copy prior to modification is relinquished to the registrar's office that issued the certified copy, unless otherwise directed by the state registrar.

**95.6(4) *Search of county registrar's records—fee for uncertified copy.*** A person who is requesting an uncertified copy of a record in the custody of the county registrar shall conduct the search of the county files to locate the record. If a copy is requested, the county registrar may charge a fee of no more than \$5 for an uncertified copy of the county record. The fee shall be retained by the county.

**95.6(5) *Distribution of fees.***

a. All fees collected by the county registrar and the state registrar shall be distributed as follows:

(1) For fees collected by a county registrar, with the exception of the fee in subrule 95.6(4), the county registrar shall retain \$4 of each \$20 fee collected by that office. On and after July 1, 2019, this \$20 fee will revert to \$15. Fees collected shall be divided as follows:

1. For a birth certificate or a marriage certificate, the state registrar shall receive \$13, and \$3 shall be deposited in the general fund of the state, except for the fee collected pursuant to paragraph 95.6(1) "f." On and after July 1, 2019, the amount received by the state registrar will revert to \$8.

2. For a death certificate, the state registrar shall receive \$11, the office of the state medical examiner shall receive \$3, and \$2 shall be deposited in the general fund of the state. On and after July 1, 2019, the amount received by the state registrar will revert to \$6.

(2) For fees collected by the state registrar, the state registrar shall retain all fees, with the exception of the fees in paragraph 95.6(1) "a," of which the state registrar shall retain \$14 of each \$20 fee collected for the issuance of certified copies. On and after July 1, 2019, the fee collected will revert to \$15 and the amount retained by the state registrar will revert to \$9. The \$6 balance of certified copy fees collected by the state registrar shall be divided as follows:

1. For a birth certificate or a marriage certificate, \$6 shall be deposited in the general fund of the state.

2. For a death certificate, the office of the state medical examiner shall receive \$3, and \$3 shall be deposited in the general fund of the state.

b. All fees retained by the state registrar shall be added to the vital records fund established by the department pursuant to Iowa Code section 144.46A.

c. All fees received by the office of the state medical examiner shall be added to the operating budget established for the operation of that office.

**95.6(6) *Fee for search to verify vital statistics record.*** A fee shall be charged by the state registrar for each search conducted for the purpose of providing verification of vital statistics data to an agency authorized to receive such data under subrule 95.12(2).

*a.* The amount of the fee shall be determined in an agreement with the department and shall be dependent on the nature and scope of the project and the resources required to obtain the data requested.

*b.* The state registrar shall retain the full amount of all fees collected under this subrule in the vital records fund established pursuant to Iowa Code section 144.46A.

**95.6(7) Fee for researcher access to vital statistics data.** A fee shall be charged to each researcher who is provided access to vital statistics data in accordance with Iowa Code section 144.44 and the required agreement executed with the department. The amount of the fee shall be based on the nature and scope of the research project and resources required to obtain the data requested.

*a.* The state registrar shall allocate the fees for copies of birth, marriage, and death certificates provided to researchers pursuant to the distribution of fees set forth in subrule 95.6(5).

*b.* The state registrar shall retain in the vital records fund established pursuant to Iowa Code section 144.46A the full amount of fees collected from researchers for searching files or records to create a data file.

**95.6(8) Service member who died while on active duty—waiver of fee.** The certified copy fee for a birth certificate or a death certificate of a service member, as defined in Iowa Code section 29A.90, who died while on active duty shall be waived for a period of one year from the date of death. Application for the certified copy shall be made by an entitled family member as described in 641—95.8(144) of the deceased service member or the entitled family member’s legal representative. Documentation shall be submitted at the time of application to substantiate the date of death and active duty status.

**95.6(9) Retention of applications and reports.** An application for a certified copy of a vital record in Iowa shall be retained by the county registrar for a minimum of six months from date of issuance of the certified copy. All financial reports for vital records fees shall be retained by the county registrar for a minimum of three calendar years.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1074C, IAB 10/2/13, effective 1/1/14; see Delay note at end of chapter; ARC 1402C, IAB 4/2/14, effective 5/7/14; ARC 2275C, IAB 12/9/15, effective 1/13/16]

**641—95.7(144) General public access of vital records in the custody of the county registrar.** A vital record may be in the custody of the county registrar if the event occurred in that county and the record is not excluded by statute or definition for purposes of confidentiality.

**95.7(1)** There shall be public access and the right to inspect all vital records in the custody of the county registrar after the vital records are purged of confidential information pursuant to rule 641—95.11(144). The county registrar shall allow the general public access to the electronic statewide vital records system to search as a public user as a right under Iowa Code chapter 22 for events which occurred in that county.

**95.7(2)** Information inspected and copied shall not be used to establish an official system for the registration of vital statistics except as authorized by Iowa Code chapter 144.

**95.7(3)** County registrars may issue uncertified copies of vital records held in the registrars’ physical custody or accessible through the electronic statewide vital records system, except those records excluded by statute. Uncertified copies issued by the county registrar shall be issued on plain white paper and clearly stamped “not for legal purposes.” Security paper provided by the state registrar shall not be used to produce uncertified copies.

**95.7(4)** For records available in the electronic statewide vital records system, the state registrar shall send to the county registrars a list of all records that have been modified. County registrars shall, as directed by the state registrar, remove all forms of any vital record in their physical custody from the county vital records system if the vital record appears on the list of modified records.

**95.7(5)** For records not available in the electronic statewide vital records system, the state registrar shall send a copy of any modified vital record to the county of event and, if the record is a death record, to the county of residence.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2275C, IAB 12/9/15, effective 1/13/16; ARC 2933C, IAB 2/1/17, effective 3/8/17; see Delay note at end of chapter]

**641—95.8(144) Direct tangible interest in and entitlement to a vital record.** Certified copies of vital records may be issued by the state registrar or county registrar upon written application, payment of the

required fee pursuant to paragraph 95.6(1) “a,” and demonstration of a verifiable, direct tangible interest and entitlement.

**95.8(1)** The following persons shall be considered to have a direct tangible interest and entitlement and are authorized to obtain a certified copy of a vital record:

*a.* The registrant, if the registrant is of legal age, has reached the age of majority, or is an emancipated minor.

*b.* A member of the registrant’s immediate legal family, including:

- (1) Current spouse or surviving spouse;
- (2) Children;
- (3) Mother or father if listed on the registrant’s birth certificate;
- (4) Sibling, if sibling has reached the age of majority;
- (5) Maternal grandparents, or paternal grandparents if the father is listed on the birth certificate; or
- (6) Step-parent or step-child if:
  1. Legal parent and step-parent are currently married at the time of application; or
  2. Step-parent is the surviving spouse of the legal parent and not remarried.

*c.* The documented legal representative of the registrant or the registrant’s immediate legal family, including:

- (1) An attorney;
- (2) A court-appointed guardian;
- (3) A foster parent;
- (4) A funeral director, for up to one year following the decedent’s date of death; or
- (5) A legal executor.

*d.* Other persons who demonstrate a direct tangible interest and entitlement when it is shown that the certified copy is needed to determine or protect a personal or property interest.

**95.8(2)** The following persons shall not be deemed to have direct tangible interest and entitlement or be authorized to secure vital records:

*a.* Biological parents of adopted persons in the absence of a court order from the court of competent jurisdiction;

*b.* Biological family members of adopted persons;

*c.* Adopted persons requesting biological family records; or

*d.* Commercial firms or agencies requesting lists of vital record events, or lists of names, or lists of addresses.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—95.9(144) Search and issuance of a certified copy of a vital record.** The search and issuance of a certified copy of a vital record shall be requested from the state registrar or county registrar.

**95.9(1)** Only entitled applicants as described in rule 641—95.8(144) may submit requests for certified copies of vital records.

**95.9(2)** A person requesting a search and issuance of a certified copy of a vital record shall provide in writing the following:

- a.* The name of the person or persons whose vital record is to be searched;
- b.* The purpose of such request;
- c.* The relationship to the registrant of the person making the request; and
- d.* The notarized signature and the address of the person making the request.

**95.9(3)** In addition to a completed written application, the applicant shall provide:

*a.* A current, legible government-issued photo identification of the applicant making the request or other identification documents acceptable to the state registrar; and

*b.* Payment of the required fee before the search is conducted.

**95.9(4)** The state registrar and county registrar shall have the authority to require additional supporting documents to prove direct tangible interest and entitlement pursuant to rule 641—95.8(144).

**95.9(5)** If, after the search is conducted, no record is on file and the state registrar or county registrar issues a “notification of record search” on certified paper, the fee for the search may be retained pursuant to paragraph 95.6(1) “a.”

**95.9(6)** If a certified copy of a vital record is issued and sent to the applicant using a mail service and the applicant does not receive the certified copy, the state registrar or the county registrar may replace the certified copy without an additional fee using an Affidavit of Non-Receipt. The applicant must contact the issuing registrar within 90 days of the date of request. A minimum of 30 days must have elapsed from the time the certified copy was mailed. The applicant shall read the instructions, complete the Affidavit of Non-Receipt and have the applicant’s signature notarized. The original Affidavit of Non-Receipt and a photocopy of the applicant’s driver’s license must be reviewed by the issuing registrar before the certified copy can be replaced for no additional fee. The state registrar or county registrar may refuse any Affidavit of Non-Receipt when the state registrar or county registrar determines proof of receipt, fraud or misrepresentation. The state registrar shall give to the registrant a notice in writing of the state registrar’s reason and intention to refuse the Affidavit of Non-Receipt.

**95.9(7)** If printed from the electronic statewide vital records system by a county registrar, the certified copy of a vital record shall be stamped by the issuing county registrar to reflect the county in which the certified copy was issued.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2275C, IAB 12/9/15, effective 1/13/16]

**641—95.10(144) Search and issuance for genealogy or family history.** The search and issuance of a vital record for genealogy may be requested from the state registrar or county registrar upon written application and payment of the required fee pursuant to paragraph 95.6(1) “a.”

**95.10(1)** The state registrar or county registrar may issue certified copies of a vital record for genealogy or family history to an applicant who can satisfactorily demonstrate a line of direct lineal consanguinity and to aunts, uncles, and cousins not past twice removed.

**95.10(2)** All certified copies issued for genealogy or family history shall be clearly marked “for genealogical purposes only.”

**95.10(3)** No certified copy shall be issued for genealogy or family history if the registrant is known to be living.

**95.10(4)** If, after the search is conducted, no record is on file, the state registrar or county registrar shall issue a “notification of record search” on certified paper, and the fee for the search shall be retained pursuant to paragraph 95.6(1) “a.”

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2933C, IAB 2/1/17, effective 3/8/17; see Delay note at end of chapter]

**641—95.11(144) Registrars’ responsibility for maintenance of confidentiality.**

**95.11(1)** The state registrar and county registrar shall maintain the confidentiality of the following material, records, and information:

*a.* Entries indicated as confidential or statistical in nature on the face of the record or otherwise confidential by law;

*b.* Any record which is ordered sealed by the state registrar or pursuant to a court order.

**95.11(2)** The county registrar shall take all necessary steps to ensure that confidential information reflected on vital records has been redacted from general public access. If confidential information is included with accessible information, only accessible information shall be made available to the general public for examination.

**95.11(3)** The county registrar shall employ at a minimum all of the following methods to ensure confidentiality:

*a.* Permanently cover or remove, by appropriate means, confidential information;

*b.* Promptly process the notice to seal a record as directed by the state registrar; and

*c.* Seal and not reproduce confidential information when copies of vital records are made.

**95.11(4)** The county registrar may charge reasonable administrative costs to reflect the expenses for efforts required to allow general public access, examination and the assurance of confidentiality of this material and information pursuant to the authority of Iowa Code chapter 22.

*a.* The administrative cost is to be paid by persons who request the services provided by the county registrar, including supervising, copying or providing a suitable place for such work.

*b.* The county registrar shall retain all administrative costs collected to allow general public access, examination, and the assurance of confidentiality of the vital record and information pursuant to the authority of Iowa Code chapter 22.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2275C, IAB 12/9/15, effective 1/13/16]

**641—95.12(144) Disclosure of data.**

**95.12(1)** The state registrar may disclose data from the system of vital statistics to federal, state, county or municipal agencies of government that request such data in the conduct of their official duties, subject to conditions the state registrar may impose to ensure that the use of the data is limited to official purposes.

*a.* The aforementioned agencies shall not provide the certified copy or a copy of the vital record, or release information contained therein, to the person named on the certificate, a member of the person's legal family, or the person's legal representative.

*b.* Certified copies issued to the aforementioned agencies shall be appropriately stamped, for example, "administrative purposes only" or "for veteran affairs purposes only."

**95.12(2)** Confidential verifications of the facts contained in vital records may be furnished by the state registrar to any federal, state, county or municipal government agency or other entity in the conduct of the agency's or entity's official duties, subject to conditions the state registrar may impose to ensure that the verification is limited to official purposes. Confidential verification of the facts contained in vital records may be furnished by a county registrar to another county office, within the county jurisdiction, in the conduct of the county's official duties, subject to conditions the state and county registrar may impose to ensure that the verification is limited to official purposes.

*a.* Such confidential verifications shall be on forms prescribed and furnished by the state registrar or on forms furnished by the requesting agency or entity and acceptable to the state registrar, or the state registrar may authorize the verification in other ways.

*b.* The aforementioned agencies and entities shall not provide the original or a copy of the verified certificate, or release information contained therein, to the person named on the certificate, a member of the person's legal family, or the person's legal representative.

**95.12(3)** The state registrar may permit the use of data from vital statistics for research purposes subject to conditions the state registrar may impose to ensure the use of the data is limited to such research purposes. No data shall be furnished from vital statistics for research purposes until the state registrar has prepared in writing the conditions under which the data may be used and has received an agreement signed by a responsible agent of the research organization agreeing to meet and conform to such conditions.

**95.12(4)** The state registrar may transmit to the county registrar data needed to produce certified copies of vital records pursuant to rule 641—95.8(144).

**95.12(5)** The state registrar may transmit to the statewide immunization registry information from birth certificates for the sole purpose of identifying those children in need of immunizations. The state registrar may impose conditions to ensure that the use of the information is limited to official purposes.

**95.12(6)** The state medical examiner or the county medical examiner may request an uncertified copy of a death certificate before the death certificate is accepted and filed at the county registrar's office.

*a.* The copy shall be clearly stamped "administrative purposes only."

*b.* The death certificate shall be for the sole use of the state medical examiner or county medical examiner and shall not be used as a legal document, be distributed, be copied or be maintained other than to be made a part of the investigatory file.

*c.* If the state medical examiner or any county medical examiner determines the death does not warrant further investigation, the state medical examiner or county medical examiner shall destroy the uncertified copy of the death certificate.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2275C, IAB 12/9/15, effective 1/13/16]

**641—95.13(144) Preparation of certified copies.** Certified copies of vital records may be prepared and issued by the state registrar or the county registrar pursuant to rules 641—95.3(144) and 641—95.9(144).

**95.13(1)** Certified copies of vital records may be made by mechanical, electronic, or other reproductive processes, except for confidential information. Certified copies shall be issued using security paper that is prescribed by the state registrar.

**95.13(2)** When a certified copy is issued, each certification shall contain a statement certifying that the facts are the true facts recorded in the issuing office, the date issued, the name of the issuing office, the registrar's signature or an authorized copy thereof, and the seal of the issuing office.

**95.13(3)** No person shall prepare or issue any certificate which purports to be an original, certified copy, or copy of a certificate of birth, death, fetal death, or marriage.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—95.14(144) Cancellation of fraudulent records.**

**95.14(1)** When the state registrar determines that a certificate was registered through fraud or misrepresentation, the state registrar shall give to the registrant a notice in writing of the state registrar's intention to cancel said certificate.

**95.14(2)** The notice of cancellation shall give the registrant an opportunity to appear and show cause why the certificate shall not be canceled.

*a.* The notice may be served on the registrant, or, in the case of a minor or incompetent person, on the parent or guardian, by the forwarding of the notice by certified mail to the last-known address on file in the office of the state registrar.

*b.* The certificate shall not be available for certification unless the registrant, parent or guardian within 30 days after the date of mailing the notice shows cause satisfactory to the state registrar why the certificate shall not be canceled.

**95.14(3)** Upon presentation to the state registrar of a court order stating a marriage certificate was registered through fraud or misrepresentation, the state registrar shall remove said record from the vital statistics system. The state registrar shall order the county registrar to remove any record related to the marriage.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—95.15(144) Unlawful acts.**

**95.15(1) *Serious misdemeanors.*** Any person who reports information required under Iowa Code chapter 144 and who commits any of the following acts is guilty of a serious misdemeanor:

*a.* Willfully and knowingly makes any false statement in a report, record, or certificate required to be filed or in an application for an amendment or willfully and knowingly supplies false information intending that such information be used in the preparation or amendment of any such report, record, or certificate.

*b.* Without lawful authority and with the intent to deceive, makes, alters, amends, or mutilates any report, record, or certificate required to be filed or a certified copy of such report, record, or certificate.

*c.* Willfully and knowingly uses or attempts to use or furnish to another for use for any purpose of deception any certificate, record, or report or certified copy thereof.

*d.* Willfully and knowingly alters, amends, or mutilates any copy, certified copy, record or report.

*e.* Willfully, with the intent to deceive, uses or attempts to use any certificate of birth or certified copy of a record of birth knowing that such certificate or certified copy was issued based upon a record which is false in whole or in part or which relates to the birth of another person.

*f.* Willfully and knowingly furnishes a certificate of birth or certified copy of a record of birth with the intention that it be used by a person other than the person to whose birth the record relates.

*g.* Disinterring a body in violation of Iowa Code section 144.34.

*h.* Knowingly violates a provision of Iowa Code section 144.29A.

**95.15(2) *Simple misdemeanors.*** Any person committing any of the following acts is guilty of a simple misdemeanor:

*a.* Knowingly transports or accepts for transportation, interment, or other disposition a dead body without an accompanying permit as provided in Iowa Code sections 144.32, 144.33, and 144.34.

- b. Refuses to provide information required by Iowa Code chapter 144.
  - c. Willfully violates any of the provisions of Iowa Code chapter 144 or refuses to perform any of the duties imposed upon the person.
- [ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—95.16(144) Enforcement assistance.**

**95.16(1)** The department shall report cases of alleged violations to the proper county attorney, with a statement of the facts and circumstances, for such action as is appropriate.

**95.16(2)** Upon request of the department, the attorney general shall assist in the enforcement of the provisions of Iowa Code chapter 144.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

These rules are intended to implement Iowa Code chapter 144 as amended by 2015 Iowa Acts, House File 662.

CHAPTER 96  
BIRTH REGISTRATION

[Prior to 12/12/12, see [641] 95.1 to 95.4, Ch 99, 100.3]

**641—96.1(144) Definitions.** For the purpose of this chapter, the definitions in 641—Chapter 95 shall apply.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.2(144) Forms—property of department.** All forms, certificates and reports pertaining to the registration of vital events are the property of the department and shall be surrendered to the state registrar upon demand.

**96.2(1)** The forms supplied or approved for reporting birth events shall be used for official purposes as provided for by law, rules and instructions of the state registrar.

**96.2(2)** No forms, except those furnished or approved by the state registrar, shall be used in the reporting of birth events or the making of copies of vital records.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.3(144) Standard birth registration—up to seven days.**

**96.3(1)** A certificate of live birth for each live birth which occurs in this state shall be filed as directed by the state registrar within seven days after the birth.

**96.3(2)** The person responsible for registering the certificate of live birth pursuant to rules 641—96.5(144), 641—96.6(144) and 641—96.7(144) shall:

*a.* Utilize the official birth worksheet to report all information and any additional documentation as needed to complete the standard form for a certificate of live birth; and

*b.* Submit all required fees and reports with the birth registration.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.4(144) Standard birth registration—seven days to one year.**

**96.4(1)** After seven days but within one year, a certificate of live birth for each live birth which occurs in this state shall be filed as directed by the state registrar.

**96.4(2)** The person responsible for registering the certificate of live birth pursuant to rules 641—96.5(144), 641—96.6(144) and 641—96.7(144) shall:

*a.* Utilize the official birth worksheet to report all information and any additional documentation as needed to complete the standard form for a certificate of live birth; and

*b.* Submit all required fees and reports with the birth registration.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.5(144) Birthing institutions.**

**96.5(1)** When a live birth occurs in an institution or en route to an institution, the person in charge of the institution or the person's designated representative, utilizing the official birth worksheet, shall within seven days:

*a.* Obtain the personal data;

*b.* Obtain the signature of the mother or her legal spouse or other signature as directed by the state registrar;

*c.* Provide the medical information required;

*d.* Certify that the child was born alive at the place, date, and time stated; and

*e.* File the certificate using the electronic birth registration system or as directed by the state registrar.

**96.5(2)** The birthing institution shall submit the fee report and remit the fees to the state registrar pursuant to rule 641—96.16(144).

**96.5(3)** The birthing institution shall maintain the birth worksheet for a minimum of ten years.

**96.5(4)** Upon demand of the state registrar, the birth worksheet and other information about the birth event shall be made available for inspection by the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

**641—96.6(144) Non-birthing institutions.**

**96.6(1)** Institutions that do not register birth records through the electronic birth registration system shall request instructions from the state registrar.

**96.6(2)** The person in charge of the non-birthing institution or the person's designee shall submit to the state registrar for registration of the live birth at a minimum the following:

*a.* A cover letter that is on business letterhead of the institution and that identifies the live birth submitted for registration, supports the facts of the live birth, and contains the original signature of the person responsible for registering the live birth;

*b.* A copy of the hospital delivery report, emergency department admittance, or physician notes;

*c.* The original Iowa official birth worksheet completed and signed by the mother, or her legal spouse, or as directed by the state registrar; and

*d.* Payment of the fees, which shall be included with the birth worksheet.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

**641—96.7(144) Non-institution birth.**

**96.7(1)** In case of a non-institution Iowa live birth, the official non-institution birth worksheet shall be completed and filed with the state registrar by one of the following in the indicated order of priority:

*a.* The physician in attendance at or immediately after the live birth.

*b.* Any other person in attendance at or immediately after the live birth.

*c.* The mother or her legal spouse.

*d.* The person in charge of the premises where the live birth occurred.

**96.7(2)** Evidence in support of the facts of live birth shall be included in a cover letter, which shall contain the notarized signature of the person responsible for registering the birth. A certificate of live birth shall be completed and filed upon presentation of the following clear and convincing evidence by the individual responsible for filing the certificate:

*a.* Evidence of pregnancy including:

(1) Prenatal record;

(2) A statement from a physician, certified nurse midwife, or other health care provider qualified to determine pregnancy;

(3) A statement from a public health nurse or other health care provider documenting a prenatal home visit; or

(4) Other evidence acceptable to the state registrar.

*b.* Evidence the infant was born alive including:

(1) A statement from the physician, certified nurse midwife or other health care provider who saw or examined the infant;

(2) A statement from a public health nurse or other health care provider documenting a postnatal home visit; or

(3) Other evidence acceptable to the state registrar.

*c.* Clear and convincing evidence acceptable to the state registrar of the mother's presence in this state at the reported place and date of the live birth.

**96.7(3)** An Iowa-licensed certified nurse midwife may preregister with the state registrar by submitting a dated statement on business letterhead identifying the midwife's business name, if applicable, printed full name and original signature of the midwife, professional title, license number, address and telephone number.

*a.* Certified nurse midwives who are preregistered shall submit to the state registrar for registration of the live birth at a minimum the following:

(1) A cover letter that is on the business letterhead, that identifies the live birth submitted for registration, that supports the facts of the live birth, and that contains the original signature of the person responsible for registering the live birth;

(2) The original official non-institution birth worksheet completed and signed pursuant to subrule 96.7(5) or as directed by the state registrar; and

(3) Payment of fees, which shall be included with the birth worksheet.

*b.* It is the responsibility of the individual preregistering to update any information provided in the individual's original registration.

**96.7(4)** Certified nurse midwives not preregistered prior to submitting a certificate of live birth for registration shall follow subrules 96.7(1), 96.7(2) and 96.7(5) for all live births the midwives attend outside a birthing institution.

**96.7(5)** The official non-institution birth worksheet shall include a notarized signature of the mother or her legal spouse and shall be accompanied by a clear photocopy of that person's current government-issued photo identification. If photo identification is unavailable, other identifying documentation may be acceptable to the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

**641—96.8(144) Gestational surrogate arrangement birth registration.** Establishment of a certificate of live birth for a child born of a gestational surrogate arrangement shall conform to the process established pursuant to rule 641—99.15(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.9(144) Foundling birth registration.**

**96.9(1)** The person assuming physical custody of a foundling shall, within one business day of finding the infant, contact the state registrar for specific directions and guidance for filing the certificate of live birth.

**96.9(2)** Foundling registration shall be completed in the standard manner by the state registrar pursuant to Iowa Code section 144.14. Within five days after assuming physical custody of the foundling, the custodian of the foundling shall provide on the official birth worksheet the following minimum birth data and other data required by the state registrar:

- a.* The date when and the place where the child was found;
- b.* The sex, color or race, and approximate age of the child;
- c.* The name and address of the person or institution that has assumed physical custody of the child;
- d.* The name given to the child by the custodian;
- e.* The name, title, and license number, if any, of the person acting as the certifier to the facts of the foundling registration;
- f.* Parentage information, if the parent is known;
- g.* A cover letter with supporting documentation; and
- h.* Any additional information known.

**96.9(3)** The place where the child was found shall be entered as the place of birth and the date of birth shall be determined by approximation. The information provided on the official birth worksheet shall constitute the certificate of live birth.

**96.9(4)** The record shall be on file only at the state registrar's office, and all supporting documentation shall be placed in a sealed file, which shall be opened only by order of a court of competent jurisdiction or for vital records administrative purposes.

**96.9(5)** Pursuant to Iowa Code section 144.14, if the child is properly identified after the registration, the certificate of live birth shall be reestablished as needed and all records pertaining to the foundling registration shall be sealed along with the original supporting documentation, which shall be opened only by order of a court of competent jurisdiction or for vital records administrative purposes.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.10(144) Newborn safe haven registration.**

**96.10(1)** Newborn safe haven registration procedures shall apply to living infants who have been abandoned or left at an institutional health facility.

**96.10(2)** The person assuming physical custody of the living infant pursuant to Iowa Code section 233.2(2) "a" shall, within one business day of assuming custody, contact the state registrar for specific directions and guidance for registering the birth.

**96.10(3)** If the name of the parent is unknown, newborn safe haven registration shall be completed in the standard manner by the state registrar pursuant to Iowa Code section 144.14. Within five days after assuming physical custody of the infant, the custodian shall provide on the official birth worksheet the following minimum birth data and other data required by the state registrar:

- a.* The date when and the place where the child was found;
- b.* The sex, color or race, and approximate age of the child;
- c.* The name and address of the person or institution that has assumed physical custody of the child;
- d.* The name given to the child by the custodian;
- e.* The name, title, and license number, if any, of the person acting as the certifier to the facts of the newborn safe haven registration;
- f.* A cover letter with supporting documentation; and
- g.* Any additional information known.

**96.10(4)** If the name of the parent is disclosed to the institutional health facility, the facility shall file the certificate of live birth as required pursuant to Iowa Code sections 144.13 and 233.2(2) “c.”

**96.10(5)** Pursuant to Iowa Code section 144.14, if the child is properly identified after the newborn safe haven registration, the birth record shall be reestablished as needed and all records pertaining to the newborn safe haven registration shall be sealed along with the original supporting documentation, which shall be opened only by order of a court of competent jurisdiction or for vital records administrative purposes.

**96.10(6)** The record shall be on file only at the state registrar’s office, and all supporting documentation shall be placed in a sealed file which shall be opened only by order of a court of competent jurisdiction or for vital records administrative purposes. The confidentiality of the live birth certificate shall be maintained pursuant to Iowa Code sections 233.2(2) “c” and 144.43.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

#### **641—96.11(144) Birth registration following a foreign-born adoption.**

**96.11(1)** A certificate of foreign birth shall be established by the state registrar for a child born in a foreign nation upon the state registrar’s receipt of a completed Certificate of Adoption Report form from an Iowa court of competent jurisdiction or upon request of the resident adoptive parent or parents and the state registrar’s receipt of all of the following documents:

- a.* The authenticated adoption decree in both the foreign language and the English translation, which shall contain the official signature of the translator, or a certified copy of an adoption decree from an Iowa court of competent jurisdiction;
- b.* If the decree does not contain information to establish the certificate of foreign birth, the adoptee’s authenticated birth certificate in both the foreign language and the English translation, which shall contain the official signature of the translator;
- c.* Evidence of the adoptee’s permanent residence such as a passport or citizenship papers;
- d.* A certified copy of the certificate of live birth of each adoptive parent; and
- e.* A notarized statement that is on letterhead from the licensed adoption agency or certified adoption investigator and that establishes the parent or parents were residents of Iowa at the time the adoption was final in the foreign nation. The statement will not be required if the parent’s or parents’ Iowa address is shown in the adoption documents.

**96.11(2)** The certificate of foreign birth shall not constitute U.S. citizenship.

**96.11(3)** The state registrar shall charge the adoptive parent or parents the appropriate fee for the registration of a certificate of foreign birth for a foreign-born child adopted by a parent who resided in Iowa at the time of adoption pursuant to Iowa Code section 144.13A.

**96.11(4)** Administrative and certified copy fees shall be charged and remitted as provided in rule 641—95.6(144).

**96.11(5)** The evidence presented shall be on file only at the state registrar's office, and all supporting documentation shall be placed in a sealed file which shall be opened only by order of a court of competent jurisdiction or for vital records administrative purposes.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.12(144) Birth registration fees.** A fee is required for each birth registered pursuant to Iowa Code sections 144.13, 144.13A, 144.15, 144.18, 144.23, 144.25A, and 600.15.

**96.12(1)** The parents shall be charged and the person responsible for filing the certificate of live birth shall remit to the state registrar the \$20 fee for the standard registration of a certificate of live birth and the \$15 fee for a certified copy of the birth certificate pursuant to Iowa Code section 144.13A.

**96.12(2)** The individual filing a delayed certificate of live birth shall be charged and shall remit to the state registrar the \$20 fee for the registration of a delayed certificate of live birth for a registrant 17 years of age or younger pursuant to Iowa Code sections 144.13A, 144.15, and 144.18.

**96.12(3)** The adoptive parents shall be charged and shall remit to the state registrar the \$20 fee for the registration of a certificate of foreign birth pursuant to Iowa Code sections 144.13A and 144.25A.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.13(144) Fee collection.** If a person responsible for the registration of a certificate of live birth under Iowa Code section 144.13 is not the parent, the person shall collect the fees from the parent and remit the fees to the state registrar.

**96.13(1)** The person collecting the fee on behalf of the state registrar shall not charge an administrative fee for collection of the registration and certified copy fees pursuant to Iowa Code section 144.13A(3).

**96.13(2)** A person is discharged from the duty to collect and remit the fees when the person has made a good-faith effort to collect the fees from the parent or has established that the fees are to be waived pursuant to Iowa Code section 144.13A(3).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.14(144) Waivers.** The registration fee and certified copy fee are waived if the expenses of the birth are reimbursed under the medical assistance program established by Iowa Code chapter 249A or if the parent is indigent and unable to pay the expenses of the birth and no other means of payment is available to the parent.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.15(144) Fee deposit.** Birth registration and certified copy fees collected on behalf of the state registrar and forwarded to the state registrar shall be remitted to the treasurer of state for deposit in the appropriate state fund.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.16(144) Responsibilities of institutions.** Institutions responsible for filing certificates of live birth shall collect both the registration fee and the certified copy fee from the parent.

**96.16(1)** The institution shall complete the Summary of Fee Report for Birth Registration and Certified Copy form. The institution shall submit the completed form and the total fee amount by check or money order, to the state registrar, within seven days of the live birth or as directed by the state registrar. All live births shall be reported and indicate for each birth that:

- a. The fee was collected for the registration and certified copy;
- b. The fee was waived, as applicable, and the reason for waiver; or
- c. No fee was collected after a good-faith effort was made.

**96.16(2)** If a late birth registration fee is received, it shall be noted on the original Summary of Fee Report for Birth Registration and Certified Copy form.

**96.16(3)** The institution shall maintain copies of the submitted Summary of Fee Report for Birth Registration and Certified Copy form for three state fiscal years.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.17(144) Responsibility for births occurring in non-institutions and non-birthing institutions.**

**96.17(1)** The state registrar shall collect the registration and certified copy fees and complete a Summary of Fee Report for Birth Registration and Certified Copy form.

**96.17(2)** If a late birth registration fee is received, it shall be noted on the original Summary of Fee Report for Birth Registration and Certified Copy form.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—96.18(144) Delayed birth registration—one year or more after event.** All Iowa births registered one year or more after the date of the birth shall be prepared on a Delayed Certificate of Live Birth form. The state registrar shall require documentary evidence to prove the facts of the birth pursuant to subrule 96.18(2). The delayed birth record shall be registered and maintained solely at the state registrar's office.

**96.18(1) Application—certificate form.** A completed Delayed Certificate of Live Birth form shall be signed before a notary and filed with the state registrar by the following applicants in the indicated order of priority:

*a.* The registrant, if 18 years of age or older, whose birth occurred in Iowa but was not recorded within one year of the birth;

*b.* The registrant's parent or current legal court-appointed guardian; or

*c.* If no parent or legal guardian exists, a member of the registrant's family who has direct tangible interest and entitlement and who is competent to affirm to the accuracy of the information.

**96.18(2) Facts to be established.**

*a.* The applicant shall submit a notification of record search certified by the state registrar, which shall indicate that no prior certificate of live birth is on file for the person whose delayed birth record is to be filed. The notification of record search shall be returned to the applicant and shall not be exchanged for a certified copy of delayed certificate of live birth.

*b.* The applicant shall substantiate the following with documentary evidence:

(1) The full name of the registrant at the time of the birth, except that the delayed certificate may reflect the name established by adoption or legitimation when such evidence is submitted;

(2) The date and place of the birth;

(3) The full name of the mother prior to any marriage as it is listed on her birth certificate;

(4) The full name of the mother at the time of the birth; and

(5) The full name of the mother's legal spouse. However, if the mother was not married at the time of conception or birth or at any time during the period between conception and birth, the name of a second parent shall not be entered on the delayed certificate unless the child has been adopted or legitimated or parentage has been determined by a court of competent jurisdiction.

**96.18(3) Documentary evidence.**

*a.* To be acceptable for purposes of registration, the name of the registrant and the date and place of birth entered on a Delayed Certificate of Live Birth form shall be supported at a minimum by the following documentary evidence:

(1) Two pieces of dated documentary evidence if the Delayed Certificate of Live Birth form is filed within seven years after the registrant's date of birth; or

(2) Three pieces of dated documentary evidence if the Delayed Certificate of Live Birth form is filed seven years or more after the registrant's date of birth.

*b.* Each piece of documentary evidence must be from an independent source. Facts of parentage shall be supported by at least one of the documents.

*c.* Documentary evidence shall be in the form of the original record, a certified copy thereof, or a notarized statement from the custodian of the record or document on the custodian's letterhead.

*d.* All documentary evidence submitted shall consistently support the facts of birth to be established.

*e.* All documentary evidence shall have been executed at least five years prior to the date of filing or shall have been established prior to the registrant's seventh birthday.

*f.* Documents not acceptable to establish a delayed certificate of live birth include, but are not limited to:

- (1) Baptismal record,
- (2) Confirmation record,
- (3) Family bible entries,
- (4) Hospital commemorative birth certificate,
- (5) Crib card,
- (6) Cradle roll,
- (7) Baby book memento, and
- (8) Personal affidavit.

**96.18(4) *Abstraction and certification by the state registrar.*** The state registrar shall abstract on the Delayed Certificate of Live Birth form a description of each document submitted to support the facts of birth. This description shall include:

- a.* The title or description of the document;
- b.* The name and address of the custodian who has attested to the fact on the original documents in the custodian's custody;
- c.* The date of the original filing of the document being abstracted; and
- d.* The information regarding the registrant's birth and parentage.

**96.18(5) *Acceptance of documentary evidence for registration.***

- a.* The state registrar shall by signature certify that:
  - (1) No prior certificate of live birth is on file for the person whose birth is to be recorded;
  - (2) The evidence has been reviewed and substantiates the alleged facts of the birth; and
  - (3) The abstract of the evidence appearing on the Delayed Certificate of Live Birth form accurately reflects the nature and content of the documents.

*b.* All documents submitted in support of the delayed registration of live birth shall be returned to the applicant after review, abstraction, and registration.

**96.18(6) *Denial of registration.***

*a.* When the applicant does not submit substantiating evidence or the state registrar finds reason to question the validity or adequacy of the evidence submitted to establish a delayed certificate of live birth, the state registrar shall not register the delayed certificate of live birth. The written notice of refusal from the state registrar shall include:

- (1) The rejected form;
- (2) The Delayed Birth Evidence Refusal form; and
- (3) Information related to the applicant's right of appeal to the district court pursuant to Iowa Code sections 144.17 and 144.18.

*b.* The application to establish a delayed certificate of live birth shall be dismissed if not actively pursued within six months of the date the notice of refusal was sent to the applicant.

**96.18(7) *Duties of the county registrar.*** The county registrar may assist the registrant, registrant's parent, or current court-appointed guardian in the completion and notarization of the delayed form, excluding the portion restricted for state use only. The county registrar may forward the form, documents and fees to the state registrar for final review and possible acceptance.

**96.18(8) *Fees.*** Administrative and certified copy fees shall be charged as provided in rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

These rules are intended to implement Iowa Code sections 144.12, 144.13, 144.13A, 144.14, 144.15, 144.17, 144.18, 233.2(2) "c" and 600.15.

[Filed ARC 1075C (Notice ARC 0925C, IAB 8/7/13), IAB 10/2/13, effective 11/6/13]

<sup>1</sup> January 16, 2013, effective date of the rescission of Chapter 96 and the adoption of new Chapter 96 [ARC 0483C] delayed until adjournment of the 2013 General Assembly by the Administrative Rules Review Committee at its meeting held January 8, 2013; delay lifted at the meeting held March 8, 2013.

CHAPTER 97  
DEATH REGISTRATION AND DISPOSITION OF DEAD HUMAN BODIES

[Prior to 12/12/12, see [641] 98.2, Chs 99, 101]

**641—97.1(144) Definitions.** For the purpose of this chapter, the definitions in 641—Chapter 95 shall apply.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.2(144) Forms—property of department.** All forms, certificates and reports pertaining to the registration of death events are the property of the department and shall be surrendered to the state registrar upon demand.

**97.2(1)** The forms supplied or approved for reporting death events shall be used for official purposes as provided for by law, rules and instructions of the state registrar.

**97.2(2)** No forms, except those furnished or approved by the state registrar, shall be used in the reporting of death events or the making of copies of vital records.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.3(144) Standard registration of death—up to one year.** Iowa death records submitted for registration within one year from the date of death shall be prepared on the standard Certificate of Death form.

**97.3(1)** The county in which the death occurs or in which the dead human body is found is the county of death.

**97.3(2)** If the death occurs in a moving conveyance, the county in which the dead human body is first removed from the conveyance is the county of death.

**97.3(3)** A blank Certificate of Death form shall be used only by the state registrar or authorized agents.

**97.3(4)** If a funeral director uses a computer software program to generate death records, the certificate of death form shall be provided to the state registrar prior to the funeral director's use of the form. The state registrar shall review the form and provide written approval to the funeral director or shall deny approval of the form if the form does not conform to the standard certificate of death as prescribed. Denial shall be provided in writing.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.4(144) Standard registration of fetal death—up to one year.** Iowa fetal death records submitted for registration within one year from the date of fetal death shall be prepared on the standard Certificate of Fetal Death form. A fetal death certificate shall not be filed after one year from the date of the event.

**97.4(1)** When a fetal death occurs in an institution, the person in charge of the institution or the person's designee, the physician in attendance at or after delivery, or a medical examiner may assist in preparation of the Certificate of Fetal Death form as directed by the state registrar.

**97.4(2)** In cases in which a fetus has reached the gestation period of 20 completed weeks or more or a weight of 350 grams or more, a Certificate of Fetal Death form shall be:

- a. Registered and maintained solely at the state registrar's office; and
- b. Filed within three days after delivery and prior to final disposition of the fetus.

**97.4(3)** The county in which the dead human fetus is found is the county of death. The certificate shall be filed within three days after the fetus is found.

**97.4(4)** If the fetal death occurs in a moving conveyance, the county in which the fetus is first removed from the conveyance is the county of death.

**97.4(5)** A blank Certificate of Fetal Death form shall be used only by the state registrar or authorized agents.

**97.4(6)** If a funeral director uses a computer software program to generate fetal death records, the certificate of fetal death form shall be provided to the state registrar prior to the funeral director's use of the form. The state registrar shall review the form and provide written approval to the funeral director

or shall deny approval of the form if the form does not conform to the standard certificate of death as prescribed. Denial shall be provided in writing.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.5(144) Preparation of the certificate of death or fetal death.**

**97.5(1)** The funeral director or person other than the funeral director who first assumes custody of a dead human body or fetus for the purposes of disposition shall:

- a. Obtain the personal data from the next of kin or the best-qualified person or source available;
- b. Obtain the medical certification of cause of death from the medical certifier; and
- c. Within three days after the death and prior to final disposition of the dead human body, file the completed certificate of death using the electronic statewide vital records system or, within three days after delivery and prior to disposition of the fetus, file the completed certificate of fetal death with the state registrar.

**97.5(2)** The funeral director or person other than the funeral director who first assumes custody of the dead human body for the purposes of disposition shall prepare the certificate of death using the electronic statewide vital records system.

**97.5(3)** The funeral director or person other than the funeral director who first assumes custody of the dead fetus for the purposes of disposition shall prepare the certificate of fetal death on the official paper issued by the state registrar by one of the following means:

- a. Use of a typewriter with dark blue or black ribbon to complete the standard certificate form;
- b. Use of a funeral director's computer program to complete the form that has been preapproved by the state registrar pursuant to subrules 97.3(4) and 97.4(6);
- c. Use of an electronic form prescribed by the state registrar; or
- d. As directed by the state registrar.

**97.5(4)** Unless otherwise directed by the state registrar, a certificate of fetal death shall be accepted for filing and registration only when:

- a. All names are typed in the spaces provided;
- b. All items are completed as required;
- c. No alterations or erasures are apparent;
- d. All signatures are original and genuine and are in dark blue or black ink;
- e. The certificate presented for registration is on the approved form and official paper prescribed by the state registrar;
- f. Data are consistent with the facts of death; and
- g. The form is prepared in conformity with these rules or instructions issued by the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2276C, IAB 12/9/15, effective 1/13/16]

**641—97.6(144) Medical certification of death.** The funeral director shall submit the completed fact of death portion of the certificate of death to the physician, physician assistant, advanced registered nurse practitioner, or medical examiner for the completion of the medical portion.

**97.6(1)** For a natural cause of death, the physician, physician assistant or advanced registered nurse practitioner in charge of the patient's care for the illness or condition which resulted in death shall complete and sign the medical certification within 72 hours after receipt of the death certificate from the funeral director or individual who initially assumed custody of the body.

**97.6(2)** If there is a non-natural cause of death, the state medical examiner or county medical examiner shall be notified and shall conduct an inquiry.

**97.6(3)** If the decedent was an infant or child and the cause of death is not known, a medical examiner's inquiry shall be conducted and an autopsy performed as necessary to exclude a non-natural cause of death.

**97.6(4)** If upon inquiry into a death, the state medical examiner or county medical examiner determines that a preexisting natural disease or condition was the likely cause of death and that the death does not affect the public interest as described in Iowa Code section 331.802(3), the state medical examiner or county medical examiner may elect to defer to the physician, physician assistant or

advanced registered nurse practitioner in charge of the patient's preexisting condition the certification of the cause of death.

**97.6(5)** When an inquiry is required by the state medical examiner or county medical examiner, the state medical examiner or county medical examiner shall investigate the cause and manner of death and shall complete and sign the medical certification within 72 hours after determination of the cause and manner of death.

**97.6(6)** The medical certifier completing the medical certification of cause of death shall attest to the accuracy of the medical certification either by signature or by an electronic process approved by the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.7(144) Medical certification of fetal death.**

**97.7(1)** The medical certification for a fetal death shall be completed by the physician in attendance at or after delivery of the fetus within 72 hours after delivery, except when an inquiry is required by a medical examiner.

**97.7(2)** When an inquiry by a medical examiner is required, or when a fetal death occurs without medical attendance upon the mother at or after delivery, the medical examiner shall investigate the cause of fetal death and shall complete the medical certification of the fetal death within 72 hours after taking charge of the case.

**97.7(3)** The physician or medical examiner completing the medical certification of fetal death shall attest to the accuracy either by signature or by an electronic process approved by the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.8(144) Medical certifier.**

**97.8(1)** Only an Iowa-licensed physician, physician assistant, advanced registered nurse practitioner, or medical examiner shall certify to the cause and manner of death.

**97.8(2)** If the medical certifier is unavailable, an alternate medical certifier may complete the cause and manner of death when:

- a. The alternate medical certifier has access to the medical history of the case;
- b. The alternate medical certifier views the deceased at the time of death or after death has occurred; and
- c. The death is from natural causes.

**97.8(3)** In all other cases in which a medical certifier is unavailable, the medical examiner shall prepare the medical certification of cause of death.

**97.8(4)** The medical certifier who signs the medical certification on a certificate of death shall be entitled to view the death record through the electronic statewide vital records system for up to one year from the date of death.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 2276C, IAB 12/9/15, effective 1/13/16]

**641—97.9(144) Report of autopsy findings.**

**97.9(1)** In cases in which an autopsy is to be performed, it shall not be necessary to defer the entry of the cause of death pending a full report of microscopic or toxicological studies.

**97.9(2)** In any case in which the gross findings of an autopsy are inadequate to determine the cause of death, the medical certifier shall mark the cause of death as "pending investigation" on the certificate and sign the certificate. Immediately after the medical data necessary for determining the cause of death have been made known, the medical certifier shall provide to the state registrar a signed statement that identifies the decedent and the cause of death. The signed statement shall be on the medical certifier's official letterhead.

**97.9(3)** In any case in which the autopsy findings significantly change the medical diagnosis of cause of death, the medical certifier shall make a report of the cause of death and submit it to the state registrar as soon as the findings are available. Such report shall be a signed statement that identifies the decedent

and the revised cause of death and shall be on the medical certifier's official letterhead. Such report shall amend the original certificate, and the report shall be maintained in a sealed file.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.10(144) Extension of time.** If the medical certifier is unable to complete the medical certification of cause of death or if the funeral director is unable to obtain the personal information about the deceased within the statutory time period, the funeral director shall file the certificate of death or fetal death with all available information.

**97.10(1)** Such certificate of death or fetal death shall be considered appropriate authority to issue a burial-transit permit.

**97.10(2)** As soon as possible, the person responsible for completing the information missing from the original certificate shall report the missing information to the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.11(144) Removal of a dead human body or fetus.**

**97.11(1)** A person assuming custody of a dead human body shall:

*a.* Contact the attending physician, physician assistant, or advanced registered nurse practitioner and receive assurance that the death was from natural causes and that the physician, physician assistant, or advanced registered nurse practitioner will assume responsibility for certifying to the cause of death; or

*b.* Contact the medical examiner and receive authorization to remove the dead human body if the case is within the jurisdiction of the medical examiner.

**97.11(2)** A person assuming custody of a dead human fetus shall:

*a.* Contact the attending physician and receive assurance that the death was from natural causes and that the physician will assume responsibility for certifying to the cause of fetal death; or

*b.* Contact the medical examiner and receive authorization to remove the dead human fetus if the case is within the jurisdiction of the medical examiner.

**97.11(3)** A person other than a funeral director, medical examiner, or emergency medical service provider who assumes custody of a dead human body or fetus shall first register the certificate of death or fetal death and then secure a burial-transit permit pursuant to rule 641—97.12(144) prior to removal of the dead human body or fetus from the place of death.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.12(144) Burial-transit permit.** If a person other than a funeral director, medical examiner, or emergency medical service assumes custody of a dead human body or fetus, the person shall secure a burial-transit permit pursuant to Iowa Code section 144.32. Pursuant to rule 645—100.4(144), an unlicensed employee of the funeral establishment shall be considered an agent of the funeral director.

**97.12(1)** The burial-transit permit shall be issued upon a form prescribed by the state registrar and shall state:

- a.* The name of the decedent;
- b.* The date and place of death;
- c.* If the death was from a communicable disease;
- d.* The name and location of the cemetery, crematory, or other location where final disposition of the remains is to be made;
- e.* The method of disposition;
- f.* That a certificate of death or fetal death has been filed; and
- g.* That permission is granted to inter, remove or otherwise dispose of the dead human body or fetus.

**97.12(2)** To be valid, the burial-transit permit must be issued by the county medical examiner, a funeral director, or the state registrar. The burial-transit permit shall be obtained prior to the removal of the dead human body or fetus from the place of death and shall accompany the body or fetus to the place of final disposition. The person responsible for obtaining the burial-transit permit shall provide the permit to the person in charge of the place of final disposition.

**97.12(3)** The person in charge of the place of final disposition shall ensure that all of the requirements of this chapter relative to the burial-transit permit have been complied with before the final disposition of the remains. Such person shall retain the burial-transit permit for a period of one year from the date of the final disposition.

**97.12(4)** The burial-transit permit shall not be issued prior to the presentation of the completed certificate of death or certificate of fetal death.

**97.12(5)** A burial-transit permit shall not be issued to a person other than a licensed funeral director if the death or fetal death was caused by a suspected or known communicable disease as defined by Iowa Code section 139A.2.

**97.12(6)** In cases in which a fetus has reached the gestation period of 20 completed weeks or more, or a weight of 350 grams or more, a burial-transit permit shall be obtained prior to the final disposition of the fetus.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.13(144) Transportation and disposition of a dead human body or fetus.**

**97.13(1)** A dead human body or fetus shall be transported only after enclosure in a container for transfer that will control odor and prevent leakage of body fluids, unless the body or fetus has been embalmed or is being transported by a licensed funeral director, emergency medical service provider or medical examiner. The transport of a dead human body or fetus shall be in a manner that is respectful of the dead, the feelings of relatives, and the sensibilities of the community.

**97.13(2)** When a dead human body or fetus is transported from the state for final disposition, the burial-transit permit shall accompany the body or fetus. When a dead human body or fetus is brought into the state for final disposition, a burial-transit permit under the law of the state in which the death occurred shall accompany the body or fetus.

**97.13(3)** If the final disposition of a dead human body or fetus is cremation at a licensed cremation establishment, scattering of cremated remains shall be subject to the local ordinances of the political subdivision and any and all regulations of the cemetery, if applicable, in which the scattering site is located. However, such local ordinances and cemetery regulations shall not allow the scattering of cremated remains upon public property or upon private property without the property owner's consent. In the absence of an applicable local ordinance or cemetery regulation, the scattering of cremated remains shall not be allowed upon any public property or upon private property without the property owner's consent. Cremation shall be considered final disposition by the department, and no further burial-transit permit shall be required.

**97.13(4)** If the final disposition of a dead human body or fetus is burial, interment, or entombment, local ordinances of the political subdivision in which the final disposition site is located and any and all regulations of the cemetery, if applicable, shall apply. In the absence of an applicable local ordinance, the depth of the grave at its shallowest point shall be at least three feet from the top of the burial container.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.14(144) Disinterment permits.**

**97.14(1)** Disinterment of a dead human body or fetus shall be allowed for the purpose of autopsy or reburial only, and then only if the disinterment is accomplished by a funeral director.

**97.14(2)** Disinterment permits shall be required for any relocation aboveground or belowground of remains from the original site of interment. Disinterment permits shall be valid for 30 days after the date the permit is signed by the state registrar. Disinterment permits are issued on a form as prescribed by the state registrar with copies to be distributed as follows:

- a. One copy filed with the sexton or person in charge of the cemetery in which disinterment is to be made;
- b. One copy to be used during transportation of the remains;
- c. One copy filed with the sexton or person in charge of the cemetery of reburial; and
- d. One copy to be returned to the state registrar by the funeral director within ten days after the date of disinterment.

**97.14(3)** When removed from the vault for final burial, a dead human body or fetus, properly embalmed and placed in a receiving vault, shall not be considered a disinterment.

**97.14(4)** The following persons who are competent adults may acquire a disinterment permit without a court order pursuant to Iowa Code sections 144.34 and 144C.5 in the following descending order:

- a. A designee, or alternate designee, acting pursuant to the decedent's declaration.
- b. The surviving spouse of the decedent, if not legally separated from the decedent, whose whereabouts are reasonably ascertainable.
- c. A surviving child of the decedent or, if there is more than one surviving child, a majority of the surviving children whose whereabouts are reasonably ascertainable.
- d. The surviving parent or parents of the decedent whose whereabouts are reasonably ascertainable.
- e. A surviving grandchild of the decedent or, if there is more than one surviving grandchild, a majority of the surviving grandchildren whose whereabouts are reasonably ascertainable.
- f. A surviving sibling of the decedent or, if there is more than one surviving sibling, a majority of the surviving siblings whose whereabouts are reasonably ascertainable.
- g. A surviving grandparent of the decedent or, if there is more than one surviving grandparent, a majority of the surviving grandparents whose whereabouts are reasonably ascertainable.
- h. A person in the next degree of kinship to the decedent in the order named by law to inherit the estate of the decedent under the rules of inheritance for intestate succession or, if there is more than one such surviving person, a majority of such surviving persons whose whereabouts are reasonably ascertainable.
- i. A person who represents that the person knows the identity of the decedent and who signs an affidavit warranting the identity of the decedent and assuming the right to control final disposition of the decedent's remains and the responsibility to pay any expense attendant to such final disposition. A person who warrants the identity of the decedent pursuant to this paragraph is liable for all damages that result, directly or indirectly, from that warrant.
- j. The county medical examiner, if responsible for the decedent's remains.

**97.14(5)** A funeral director may await a court order before proceeding with disinterment of a decedent's remains if the funeral director is aware of a dispute among:

- a. Persons who are members of the same class of persons described in subrule 97.14(4); or
- b. Persons who are authorized under subrule 97.14(4) and the executor named in the decedent's will or personal representative appointed by the court.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.15(144) Delayed death registration—one year or more after event.** Iowa deaths registered one year or more after the date of death shall be prepared on a Delayed Certificate of Death form developed by the state registrar. The state registrar shall require documentary evidence to prove the facts of the death pursuant to Iowa Code section 144.16. The delayed certificate of death shall be registered and maintained solely at the state registrar's office.

**97.15(1) Application.** Registration of a delayed certificate of death may be requested by the surviving next of kin of the deceased, or the surviving next of kin's legal representative, in the following descending order:

- a. Executor of the decedent's estate;
- b. Spouse, if not legally separated from the decedent;
- c. Child or legal guardian of the child if the child is under the age of majority;
- d. Parent;
- e. Grandchild or legal guardian of the grandchild if the grandchild is under the age of majority;
- f. Sibling;
- g. Grandparent; or
- h. Funeral director responsible for the disposition of the decedent.

**97.15(2) Facts to be established.**

*a.* The applicant shall submit a notification of record search certified by the state registrar, which shall indicate that no prior certificate of death is on file for the person whose delayed death record is to be filed. The notification of record search shall be returned to the applicant and shall not be exchanged for a certified copy of the delayed certificate of death.

*b.* The applicant shall substantiate the following with documentary evidence:

- (1) The full legal name and gender of the deceased at the time of the death;
- (2) The date and place of birth;
- (3) The date and time of death;
- (4) The place of death, including the type of place and location where the death occurred;
- (5) The method and location of the final disposition;
- (6) The full name and address of the person responsible for the final disposition;
- (7) Cause and manner of death; and
- (8) The full name, address, and relationship to the decedent of the person applying to register the delayed certificate of death.

**97.15(3) *Documentary evidence.***

*a.* The application to register the delayed certificate of death shall be supported by a minimum of the following:

- (1) An affidavit of the person filing the certificate attesting to the accuracy of the information on the certificate; and
- (2) Three dated documents from independent sources that consistently support the information required pursuant to subrule 97.15(2). The documents shall be in the form of the original record, a certified copy thereof, or a notarized statement from the custodian of the record or document on the custodian's letterhead. Personal affidavits are not acceptable.

*b.* The state registrar may require additional documentary evidence to prove the facts of the death event.

**97.15(4) *Abstraction and certification by the state registrar.*** The state registrar shall abstract on the Delayed Certificate of Death form a description of each document submitted to support the facts of death. This description shall include:

- a.* The title or description of the document;
- b.* The name and address of the custodian who attested to the facts on the original documents in the custodian's custody;
- c.* The date of the original filing of the document being abstracted; and
- d.* The information regarding the death for delayed registration.

**97.15(5) *Acceptance of documentary evidence for registration.*** All documents submitted in support of the delayed registration shall be returned to the applicant after review, abstraction, and registration. The state registrar shall by signature certify that:

- a.* No prior certificate of death is on file for the decedent;
- b.* The evidence has been reviewed and substantiates the facts of death; and
- c.* The abstract of the evidence appearing on the delayed certificate of death accurately reflects the nature and content of the documents.

**97.15(6) *Denial of registration.*** In the absence of adequate substantiating evidence or if the state registrar finds reason to question the validity or adequacy of the evidence required to establish a delayed certificate of death, the state registrar shall not register the delayed record.

*a.* The written notice of rejection from the state registrar shall include:

- (1) The Delayed Certificate of Death form stamped "rejected"; and
- (2) The Delayed Evidence Refusal form.

*b.* Applications for delayed certificates which have not been completed within one year from the date of application may be dismissed at the discretion of the state registrar. Upon dismissal, the state registrar shall advise the applicant, and all documents submitted in support of such registration shall be returned to the applicant.

**97.15(7) *Duties of county registrar.*** The county registrar may assist the applicant in the completion and notarization of the delayed form, excluding the portion restricted for state use only. The county

registrar may forward the partially completed delayed form, documents and fees to the state registrar for final review and possible acceptance.

**97.15(8) Fees.** Administrative and certified copy fees shall be charged as provided in rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.16(144) Registration of presumptive death.**

**97.16(1)** A petition shall be filed with the district court in the county where the presumptive death occurred and shall be supported with the completed Affidavit of Personal Knowledge of a Missing Person form. The form shall be completed by the surviving next of kin of the deceased, or the surviving next of kin's legal representative, in the following descending order:

- a. Spouse, if not legally separated from the decedent;
- b. Child or the child's legal guardian if the child is under the age of majority;
- c. Parent;
- d. Grandchild or the grandchild's legal guardian if the grandchild is under the age of majority;
- e. Sibling;
- f. Grandparent;
- g. Aunt or uncle;
- h. Niece or nephew; or

i. A person in the next degree of kinship to the decedent in the order named by law to inherit the estate of the decedent pursuant to Iowa Code sections 633.210 to 633.226.

**97.16(2)** In addition to the Affidavit of Personal Knowledge of a Missing Person form or in the absence of the next of kin, the petition may be supported by the following:

- a. Affidavit by Employer for an Employee Who Was Working at Time of Disappearance form;
- b. Affidavit by Government Official for a Government Employee Missing While Involved in Rescue Efforts form; or
- c. Affidavit by Reliable Informant of Missing Person form.

**97.16(3)** The state registrar shall provide the affidavit forms and the certificate of presumptive death. The affidavits and the certificate of presumptive death shall be registered and maintained solely at the state registrar's office.

**97.16(4)** Upon presentation of a certified copy of a court order, the state registrar shall file a certificate of presumptive death pursuant to Iowa Code sections 633.517 to 633.520. The order from the district court shall only establish the presumptive death record.

**97.16(5)** In cases under the jurisdiction of the medical examiner, the certified copy of the court order and the completed supporting affidavits listed in subrules 97.16(1) and 97.16(2) shall be delivered to the medical examiner. The medical examiner shall complete the certificate of presumptive death and certify to the cause of death.

**97.16(6)** The certificate of presumptive death shall be registered and maintained solely at the state registrar's office.

**97.16(7)** The certificate of presumptive death shall be recorded based on the date of the court order and shall not be registered as a delayed certificate.

**97.16(8)** If the missing person is located and found to be alive, the certificate of presumptive death shall be voided and removed from the vital records system of registration. Any issued certified copies shall be surrendered to the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.17(144) Release or final disposition of a dead human body or fetus by an institution.**

**97.17(1)** When a dead human body or fetus is released by an institution, the person in charge of the institution shall maintain a record showing:

- a. Name of the deceased;
- b. Date, time, and place of death;
- c. Name, title, and license number of person who pronounced death;
- d. Name and address of the medical certifier;

- e.* Name and address of the person to whom the dead human body or fetus is released; and
- f.* Date of removal of the dead human body or fetus from the institution.

**97.17(2)** When a dead human body or fetus is released or final disposition is completed by an institution, the person in charge of the institution shall keep a record showing the date, place, and manner of release or final disposition.

**97.17(3)** At the direction of the state registrar, the institution shall provide the information listed in subrule 97.17(1) to the funeral director or person acting as such who assumes custody of the dead human body for purposes of final disposition.

**97.17(4)** Records maintained under this rule shall be retained for a period of not less than ten years and shall be made available for inspection by the state registrar upon demand.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—97.18(144) Additional record by funeral director.**

**97.18(1)** In addition to filing any certificate or other form required by Iowa Code chapter 144, a funeral director or other person who removes from the place of death or transports or completes final disposition of a dead human body or fetus shall maintain a record which shall identify the following:

- a.* Name of the deceased;
- b.* Date, time, and place of death;
- c.* Name and address of the person to whom the dead human body or fetus is released;
- d.* Name of institution or other place of death releasing the dead human body or fetus;
- e.* Date of removal from the place of death; and
- f.* Place and method of final disposition of the dead human body or fetus.

**97.18(2)** Records maintained under this rule shall be retained for a period of not less than ten years at the funeral establishment responsible for disposition and shall be made available for inspection by the state registrar upon demand.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

These rules are intended to implement Iowa Code sections 135.11(7), 144.12, 144.16 to 144.18, 144.26 to 144.29, 144.30 to 144.35, 144.47, 144.49 to 144.51, 144C.5, 331.802(3) and 633.517 to 633.520.

[Filed ARC 0483C (Notice ARC 0376C, IAB 10/3/12), IAB 12/12/12, effective 1/16/13]<sup>1</sup>

[Filed ARC 2276C (Notice ARC 2156C, IAB 9/30/15), IAB 12/9/15, effective 1/13/16]

<sup>1</sup> January 16, 2013, effective date of Chapter 97 [ARC 0483C] delayed until the adjournment of the 2013 General Assembly by the Administrative Rules Review Committee at its meeting held January 8, 2013; delay lifted at the meeting held March 8, 2013.

CHAPTER 98  
MARRIAGE REGISTRATION  
[Prior to 12/12/12, see [641] Ch 96, 99.13]

**641—98.1(144,595) Definitions.** For the purpose of this chapter, the definitions in 641—Chapter 95 shall apply.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—98.2(144,595) Forms—property of department.** All forms, certificates and reports pertaining to the registration of a marriage are the property of the department and shall be surrendered to the state registrar upon demand.

**98.2(1)** The forms supplied or approved for reporting a marriage shall be used for official purposes as provided for by statute, rules and instructions of the state registrar.

**98.2(2)** No forms, except those furnished or approved by the state registrar, shall be used in the reporting of a marriage or the making of copies of vital records.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—98.3(144,595) Standard registration of marriage—up to one year.** A marriage event that takes place in Iowa shall be prepared on the standard Certificate of Marriage form and submitted for registration within one year from the date of marriage.

**98.3(1)** Prior to marriage, the applicants shall:

*a.* Obtain an Application for a License to Marry in Iowa form from the county registrar;

*b.* Submit to the county registrar the completed application and fee pursuant to Iowa Code section 331.605(6); and

*c.* Receive a license to marry in Iowa and a Certificate of Marriage form from the county registrar.

**98.3(2)** Once the marriage is solemnized, the completed certificate of marriage shall be filed with the county registrar where the license to marry was issued. The county registrar shall then forward the certificate of marriage to the state registrar for filing.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—98.4(144,595) Application for a license to marry in Iowa.**

**98.4(1)** The Application for a License to Marry in Iowa form is available from any county registrar. The applicants are the parties to be married.

**98.4(2)** The application shall not be processed until all items on the double-sided application form, including the affidavit of a competent and disinterested person, have been completed. The affidavit shall be completed and signed in front of a notary public by an individual of legal age who is acquainted with both applicants who plan to marry. A family member may serve as the competent and disinterested person.

**98.4(3)** Each applicant shall verify the personal information by notarized signature.

**98.4(4)** If an applicant is 16 or 17 years of age, the Certificate of Consent of Underage Party to Marry form shall be completed in accordance with Iowa Code section 595.2(4) and shall be approved by a judge in the county's judicial district before the application for a marriage license may be accepted by the county registrar. Persons 15 years of age or younger may not marry in Iowa.

**98.4(5)** The Application for a License to Marry in Iowa form shall be signed in front of a notary public by both parties to be married and their competent and disinterested person. By signature, the applicants and their competent and disinterested person are attesting that the applicants are:

*a.* Eighteen years of age or older or, if either or both are 16 or 17 years of age, that they have provided a signed Certificate of Consent of Underage Party to Marry form;

*b.* Competent to enter into a civil contract pursuant to Iowa Code section 595.1A;

*c.* Not legally married to each other and that neither is legally married to someone else who is living; and

*d.* Acknowledging that they have provided accurate information on the application form.

**98.4(6)** An applicant is not required to be a U.S. citizen.

**98.4(7)** The application for a license to marry in Iowa shall be submitted to the registrar in the county where the application and marriage certificate are to be filed. The marriage license is valid in any county in Iowa.

**98.4(8)** A fee is due upon the submittal of a completed application for the license to marry pursuant to Iowa Code section 331.605(1) “g.”

**98.4(9)** At the time of completion of the Application for a License to Marry in Iowa form, the applicants shall indicate the adoption of the legal name to be used after marriage pursuant to Iowa Code section 595.5(1). When the application is filed, the county registrar shall enter the legal name on the License to Marry in Iowa form and the original Certificate of Marriage form. Once the application is filed, any changes to the legal name to be adopted shall only be made prior to the marriage by reapplication and repayment of the application fee unless it can be proven that an obvious typographical error was made when the license or the certificate was prepared. An individual shall have only one legal name at any one time pursuant to Iowa Code section 595.5(2).

**98.4(10)** The original certificate of marriage shall not later be modified to reflect a court-ordered legal change of name.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

#### **641—98.5(144,595) License to marry.**

**98.5(1)** Upon receipt and acceptance of a completed application for a license to marry in Iowa, the county registrar may issue the license to marry. When the marriage license valid date is computed, the day of application shall be excluded. The license shall become valid after the expiration of three calendar days after the date of application to marry.

**98.5(2)** The three-day waiting period may be waived by a district judge in the county’s judicial district pursuant to Iowa Code section 595.4. An Application for Waiver of 3-Day Waiting Period form is available from the county registrar. If the waiver is granted, the county registrar shall collect the \$5 fee for the waiver pursuant to Iowa Code section 595.4.

**98.5(3)** When a license is issued, the county registrar shall deliver to the applicant the Certificate of Marriage form and provide instructions to ensure the return of a complete and accurate certificate of marriage for filing.

**98.5(4)** If the license to marry in Iowa is not retrieved from the county registrar within six months from the date of application, the application is void.

**98.5(5)** The license to marry is proof that proper application to marry in Iowa has been made. The parties to be married shall present the license to the person who will solemnize the marriage pursuant to Iowa Code section 595.10.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

#### **641—98.6(144, 595) Certificate of marriage.**

**98.6(1)** At the time the license to marry in Iowa is issued, the county registrar shall also prepare the original copy of the Certificate of Marriage form. The person solemnizing the marriage shall complete the blank items pertaining to the marriage ceremony and obtain the required signatures.

**98.6(2)** All participants in the marriage ceremony shall be present at the same time and location within the geographic boundaries of the state of Iowa, including the parties to be married, two witnesses and the officiant. Marriage ceremonies shall not occur by proxy, telephone, or other electronic means.

**98.6(3)** After the marriage ceremony:

*a.* The parties married shall sign, at a minimum, their first and last legal name on the Certificate of Marriage form as indicated on the Application for a License to Marry in Iowa form; and

*b.* Two witnesses present at the ceremony and the officiant shall sign and print their names on the Certificate of Marriage form in the spaces provided. If there is more than one officiant, the signature and name of only one of the officiants shall be on the Certificate of Marriage form.

**98.6(4)** Photocopies of the certificate of marriage are prohibited prior to registration of the certificate with the county registrar. The officiant shall not affix any kind of seal to the certificate of marriage.

**98.6(5)** Within 15 days after the marriage ceremony, the officiant who solemnized the marriage shall file for registration the certificate of marriage with the county registrar that issued the marriage license, except as directed pursuant to Iowa Code section 595.16.

**98.6(6)** Upon registration of the certificate of marriage, the application for a license to marry becomes part of the record of marriage, including the three-day waiver and consent to marriage of a minor, if applicable.

**98.6(7)** Original certificates of marriage registered by the county registrar shall be forwarded to the state registrar weekly or as directed by the state registrar.  
[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—98.7(144,595) Delayed registration of marriage—one year or more after date of event.** All Iowa marriages registered one year or more after the date of the marriage shall be prepared on the Delayed Certificate of Marriage form. The state registrar shall require documentary evidence to establish the facts of the marriage pursuant to Iowa Code section 144.16 and subrule 98.7(2). The delayed marriage record shall be registered and maintained solely at the state registrar's office.

**98.7(1) Application.** A completed Delayed Certificate of Marriage form shall be signed before a notary by both parties to the marriage and filed with the state registrar.

**98.7(2) Facts to be established.**

*a.* The applicant shall submit a notification of record search certified by the state registrar, which shall indicate that no prior certificate of marriage is on file for the persons whose delayed marriage record is to be filed. The notification of record search shall be returned to the applicant and shall not be exchanged for a certified copy of delayed certificate of marriage.

*b.* The applicant shall substantiate the following with documentary evidence:

- (1) The county in Iowa where the license to marry was issued;
- (2) The full name of the registrants before and after the marriage;
- (3) The date and place of the marriage in Iowa;
- (4) The full names of the registrants' parents;
- (5) The full names of the two witnesses present at the marriage ceremony; and
- (6) The full name and address of the officiant who performed the marriage ceremony.

**98.7(3) Documentary evidence.**

*a.* To be acceptable for purposes of registration by the state registrar, the delayed certificate of marriage must be supported by:

(1) All of the following:

1. A copy of the issued license to marry in Iowa or the completed application for the license to marry in Iowa secured from the county registrar in the county where the license to marry was issued;
2. A notarized affidavit from two witnesses to the wedding ceremony attesting to the facts of the marriage; and
3. A certified copy transcribed from the official records where the marriage was performed including the date and place of such marriage as attested to by the custodian of such records; or

(2) An affidavit of the person who performed the ceremony documenting that there was a marriage and the date and place of such marriage.

*b.* The state registrar may require additional documentary evidence to prove the facts of the marriage event.

**98.7(4) Abstraction and certification by the state registrar.** The state registrar shall abstract on the Delayed Certificate of Marriage form a description of each document submitted to support the facts of the marriage event. This abstract shall include:

- a.* The title, description and signatory from each document presented;
- b.* The date of the original filing of the document being abstracted; and
- c.* The facts of the marriage event as established pursuant to paragraph 98.7(2) "b."

**98.7(5) Acceptance of documentary evidence for registration.** All documents submitted in support of the delayed registration shall be returned to the applicant after review, abstraction, and registration. The state registrar shall by signature certify that:

- a. No prior certificate of marriage is on file for the registrants;
- b. The evidence has been reviewed and substantiates the facts of the marriage event; and
- c. The abstract of the evidence appearing on the delayed certificate of marriage accurately reflects the nature and content of the document.

**98.7(6) *Denial of registration.*** In the absence of adequate substantiating evidence or if the state registrar finds reason to question the validity or adequacy of the evidence required to establish a delayed certificate of marriage, the state registrar shall not register the delayed record.

- a. The written notice of rejection from the state registrar shall include:
  - (1) The Delayed Certificate of Marriage form stamped “rejected”; and
  - (2) The Delayed Evidence Refusal form.
- b. Applications for delayed certificates which have not been completed within one year from the date of application may be dismissed at the discretion of the state registrar. Upon dismissal, the state registrar shall advise the applicant, and all documents submitted in support of such registration shall be returned to the applicant.

**98.7(7) *Duties of county registrar.*** The county registrar may assist the applicant in the completion and notarization of the delayed form, excluding the portion restricted for state use only. The county registrar may forward the partially completed delayed form, documents and fees to the state registrar for final review and possible acceptance.

**98.7(8) *Fees.*** Administrative and certified copy fees shall be charged as provided in rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

#### **641—98.8(144,595) Dissolution of marriage or annulment.**

**98.8(1)** The completed Report of Dissolution of Marriage or Annulment form shall be filed with the clerk of district court within one month from the date of the dissolution of marriage or annulment and be prepared on the official paper issued by the state registrar by one of the following means:

- a. Use of a typewriter using a dark blue or black ribbon on the standard form of the report;
- b. Use of a computer program that is preapproved by the state registrar;
- c. Use of an electronic form prescribed by the state registrar; or
- d. As directed by the state registrar.

**98.8(2)** If an attorney or clerk of district court uses a computer software program to generate the report of dissolution of marriage or annulment, the form shall be reviewed by the state registrar for approval. The state registrar shall deny approval if the form does not conform to the standard Report of Dissolution of Marriage or Annulment form as prescribed.

**98.8(3)** Clerks of district court shall submit reports of dissolution of marriage or annulment to the state registrar weekly or as directed by the state registrar.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

These rules are intended to implement Iowa Code sections 144.12, 144.16, 331.605(1) “f” and “g,” 595.2(4), 595.4, 595.5, 595.10, and 595.16.

[Filed ARC 0483C (Notice ARC 0376C, IAB 10/3/12), IAB 12/12/12, effective 1/16/13]<sup>1</sup>

<sup>1</sup> January 16, 2013, effective date of the rescission of Chapter 98 and the adoption of new Chapter 98 [ARC 0483C] delayed until adjournment of the 2013 General Assembly by the Administrative Rules Review Committee at its meeting held January 8, 2013; delay lifted at the meeting held March 8, 2013.

CHAPTER 99  
VITAL RECORDS MODIFICATIONS  
[Prior to 12/12/12, see [641] Chs 100, 102]

**641—99.1(144) Definitions.** For the purpose of this chapter, the definitions in 641—Chapter 95 shall apply.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.2(144) Forms—property of department.** All forms, certificates and reports pertaining to the registration of vital events are the property of the department and shall be surrendered to the state registrar upon demand.

**99.2(1)** The forms supplied or approved for reporting vital events shall be used for official purposes as provided for by law, rules and instructions of the state registrar.

**99.2(2)** No forms, except those furnished or approved by the state registrar, shall be used in the reporting or modification of vital events or the making of copies of vital records.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.3(144) Forms used in the establishment of new records.** The standard certificate form for reporting of live birth, death, fetal death, or marriage in use at the time of the event shall be used to prepare a new certificate.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.4(144) Corrections of minor error in vital record—within one year of event.**

**99.4(1)** Corrections of minor errors may be made by the state registrar within one year and prior to the first anniversary of the date of the event upon observation, upon request of the data provider, upon query, or upon request from an entitled person. Minor errors include obvious errors, omissions, or transpositions of letters in words of common knowledge.

**99.4(2)** For a certificate of live birth, entitled persons include in the following descending order of priority:

- a. Either parent as shown on the child's certificate of live birth; or
- b. The legal guardian or agency having legal custody of the child.

**99.4(3)** For a certificate of death or fetal death other than the medical certification, entitled persons include in the following descending order of priority:

- a. The surviving spouse as shown on the certificate of death;
- b. A parent as shown on the certificate of death or fetal death;
- c. The informant as shown on the certificate; or
- d. The data provider in the case of a data entry error.

**99.4(4)** For a certificate of marriage, entitled persons include:

- a. The county registrar that issued the license to marry; or
- b. Either of the parties married.

**99.4(5)** Entitled persons requesting a correction shall submit to the state registrar:

- a. A notarized statement and a legible copy of current government-issued photo identification or other identification documents acceptable to the state registrar; and
- b. Supporting evidence if requested by the state registrar.

(1) The state registrar shall determine a priority of best evidence and may, at the state registrar's discretion, require additional documentary evidence to support the requested correction.

(2) The state registrar shall evaluate the evidence submitted in support of any correction, and when there is reason to question the validity or adequacy of the evidence, the state registrar may reject the request for correction and shall advise the applicant of the reasons for this action.

**99.4(6)** Only the state registrar shall make corrections on a vital record. The source of information and the date of correction shall be documented on the record but shall not appear on the certified copy.

**99.4(7)** There are no administrative fees required to correct a certificate pursuant to this rule.

**99.4(8)** Certificates corrected pursuant to this rule shall not be marked "amended."

**99.4(9)** Any certified copies of the incorrect certificate shall be surrendered to the state registrar for replacement at no cost pursuant to 641—subrule 95.6(3). Additional certified copies of the corrected certificate may be obtained upon receipt of a notarized application, legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar and payment of the fee pursuant to 641—paragraph 95.6(1) “a.”

**99.4(10)** The corrected certificate shall be on file at the county registrar’s office pursuant to rule 641—95.7(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

**641—99.5(144) Amendment of certificate of live birth to add first or middle given name—within one year of event.**

**99.5(1)** The first or middle given name for a child whose birth was reported without a first or middle given name may be amended to add the first or middle given name within one year and prior to the first anniversary of the date of the live birth based upon a completed and notarized Affidavit to Add Child’s Given Name form as provided by the department pursuant to Iowa Code section 144.38. The affidavit shall be submitted to the state registrar by entitled persons in the following descending order of priority:

- a. The single parent or both parents as shown on the child’s certificate of live birth;
- b. The mother, in the case of the death or incapacity of the second parent;
- c. The second parent if listed on the birth certificate, in the case of the death or incapacity of the mother; or
- d. The legal guardian or agency having legal custody of the child.

**99.5(2)** A first or middle given name may be added to the certificate of live birth once in this manner. Thereafter, a first or middle given name shall be changed only upon submission of a court order for a legal change of name from a court of competent jurisdiction pursuant to Iowa Code chapter 674.

**99.5(3)** An administrative fee shall be charged and remitted pursuant to 641—paragraph 95.6(1) “b.”

**99.5(4)** The original certificate shall be marked “amended” and shall be endorsed on the certified copy. The date of amendment and a summary description of the evidence submitted in support of the amendment shall be made a part of the record.

**99.5(5)** The certificate shall be on file at the county registrar’s office pursuant to rule 641—95.7(144).

**99.5(6)** Any certified copies of the incorrect certificate shall be surrendered for replacement at no cost. Additional certified copies of the amended certificate may be obtained upon the state registrar’s receipt of a notarized application, legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar, and payment of the fee pursuant to rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

**641—99.6(144) Amendment of vital record—one year or more after the event.**

**99.6(1)** Amendments of vital records may be made by the state registrar one year or more after the date of the event upon request from an entitled person. Amendments include the correction of obvious errors, omissions, or transposition of letters in words of common knowledge.

**99.6(2)** For a certificate of live birth, entitled persons include in the following descending order of priority:

- a. Either parent as shown on the child’s certificate of live birth;
- b. The mother, in the case of the death or incapacity of the second parent;
- c. The second parent if listed on the birth certificate, in the case of the death or incapacity of the mother; or
- d. The legal guardian or agency having legal custody of the child.

**99.6(3)** For a certificate of death or fetal death other than the medical certification, entitled persons include:

- a. The surviving spouse as shown on the certificate of death;
- b. A parent as shown on the certificate of death or fetal death; or
- c. The informant as shown on the certificate of death or fetal death.

**99.6(4)** Amendment of a medical certification of cause of death or fetal death shall be requested solely by the medical certifier listed on the certificate of death or fetal death.

**99.6(5)** For a certificate of marriage, entitled persons include either of the parties married.

**99.6(6)** Entitled persons requesting an amendment shall submit the following to the state registrar:

*a.* A completed and notarized amendment request on the applicable form as follows:

(1) Amendment to Certificate of Live Birth form.

(2) Amendment to Certificate of Death or Fetal Death form.

(3) Amendment to Certificate of Marriage form;

*b.* A legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar;

*c.* Certified copies of one or more pieces of documentary evidence supporting the amendment; and

*d.* The required fees pursuant to rule 641—95.6(144).

**99.6(7)** The documentary evidence shall have been established at least five years prior to the date of the application or within seven years of the date of the event.

*a.* The state registrar shall determine a priority of best evidence and may, at the state registrar's discretion, require additional documentary evidence to support the requested amendment.

*b.* The state registrar shall evaluate the evidence submitted in support of any amendment, and when there is reason to question the validity or adequacy of the evidence, the state registrar may reject the amendment and shall advise the applicant of the reasons for this action.

**99.6(8)** An administrative fee shall be charged and remitted pursuant to rule 641—95.6(144).

**99.6(9)** The original certificate shall be clearly marked "amended" and the date of the amendment shall be endorsed on the certified copy. A summary description of the evidence submitted in support of the amendment shall be made a part of the record.

**99.6(10)** The amended certificate shall be on file at the county registrar's office pursuant to rule 641—95.7(144).

**99.6(11)** Any certified copies of the incorrect certificate shall be surrendered for replacement at no cost. Additional certified copies of the amended certificate may be obtained upon the state registrar's receipt of a notarized application, legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar and payment of the fee pursuant to rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

#### **641—99.7(144) Method of amendment of vital records.**

**99.7(1)** Records not on the electronic vital records system shall be amended by drawing a single line through the incorrect item and inserting the correct or missing data immediately above or to the side of the item or by completing a blank item. In all cases in which a line must be drawn through an original entry, the line must not obliterate the original entry. The following shall be endorsed on or made a part of the record:

*a.* The word "amended" and the date of the amendment action; and

*b.* A summary of the evidence submitted in support of the amendment.

**99.7(2)** Records on the electronic vital records system shall be amended by correction of the incorrect item. The following shall be endorsed on or made a part of the record:

*a.* The word "amended" and the date of the amendment action;

*b.* A statement identifying the amendment; and

*c.* A summary of the evidence submitted in support of the amendment.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.8(144) Correction or amendment of same item more than once.** After a correction or an amendment is made on a vital record, that entry shall not be corrected again unless:

**99.8(1)** It can be proven that an error was made in processing the first correction or amendment; or

**99.8(2)** A court order is received from a court of competent jurisdiction to correct or amend the item. If a court order for a correction or an amendment is received, an administrative fee shall be charged and remitted pursuant to rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.9(144) Other amendments to certificate of live birth.**

**99.9(1)** The parent's name or both parents' names as reported by the parent or parents on the birth worksheet used to establish the certificate of live birth shall not be corrected or amended except by an order from a court of competent jurisdiction.

**99.9(2)** Certificates of live birth of deceased persons shall not be amended.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.10(144) Correction or amendment to medical certification of cause of death.**

**99.10(1)** Corrections or amendments to the medical certification of cause of death shall be requested solely by the medical certifier listed on the certificate of death or fetal death.

**99.10(2)** The medical certifier may correct the medical certification of cause of death within 90 days following the date of death or fetal death. The request shall be submitted on official letterhead signed and dated by the medical certifier listed on the certificate of death or fetal death.

**99.10(3)** Any amendment after 90 days following the date of death or fetal death shall be made by order of a court of competent jurisdiction. However, the medical certification of cause of death may be amended at any time upon submission of a report of autopsy or toxicological findings or additional findings by the county or state medical examiner.

**99.10(4)** No fee shall be charged for correction or amendment made pursuant to this rule.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.11(144) Correction or amendment to a certificate of marriage.**

**99.11(1)** The request to correct a certificate of marriage during the first year may be made by the county registrar that issued the license to marry. The written request shall be submitted to the state registrar with supporting evidence.

**99.11(2)** The request to correct or amend a certificate of marriage may be made by either of the parties married. The written request shall be submitted to the state registrar with supporting evidence.

**99.11(3)** The correction or amendment process shall not be used to change a legal name after marriage.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.12(144) Correction to a report of dissolution of marriage or annulment.**

**99.12(1)** A written notice to correct a report of dissolution of marriage or annulment may be submitted to the state registrar by the clerk of district court maintaining the record from which the original report was prepared. The notice shall state in what manner the report shall be corrected.

**99.12(2)** Those items appearing on the Report of Dissolution of Marriage or Annulment form that are not a part of the divorce decree may be corrected either by query or upon application of either party to the dissolution of marriage or annulment or the legal representative.

**99.12(3)** Corrections to the report of dissolution of marriage or annulment shall be accepted only within the first year from the date of dissolution of marriage or annulment.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.13(144) Minimum information required to establish a new certificate of live birth.**

**99.13(1)** A request to establish a new certificate of live birth shall be submitted to the state registrar and include at a minimum the following information:

- a. The full name of the child as stated on the original certificate of live birth;
- b. The full name of the child to be listed on the new certificate of live birth;
- c. The date and place of birth as stated on the original certificate of live birth;
- d. The full name of the parent or parents as listed on the original certificate of live birth; and

*e.* The full name, place of birth, date of birth, and complete residential address of the parent or parents to be listed on the new certificate of live birth.

**99.13(2)** The new certificate of live birth shall contain the same state file number and registration file date as were assigned to the original certificate of live birth.  
[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.14(144) Establishment of new certificate of live birth following adoption.**

**99.14(1)** Upon receipt of a completed Certificate of Adoption Report form or a certified copy of the decree of adoption from a court of competent jurisdiction and the information required pursuant to rule 641—99.13(144), the state registrar shall establish a new certificate of live birth for a person who was born in Iowa and has been adopted.

**99.14(2)** The new certificate of live birth shall not be marked “amended.”

**99.14(3)** When a new certificate of live birth is established, the actual date and place of birth shall be shown on the certificate.

**99.14(4)** The county registrar and state registrar shall seal the original certificate of live birth. The state registrar shall place the original certificate of live birth and all related adoption information in a sealed file, and the file shall not be opened and inspected except by the state registrar for administrative purposes or upon an order from a court of competent jurisdiction pursuant to Iowa Code section 144.24.

**99.14(5)** The new certificate of live birth after adoption shall not be on file at the county registrar’s office.

**99.14(6)** The state registrar shall reveal the date of the adoption and the name and address of the court that issued the adoption decree upon the receipt of a completed, notarized Revelation of County of Adoption form from an adult adopted person, a biological parent, an adoptive parent, or the legal representative of the adult adopted person, the biological parent, or the adoptive parent pursuant to Iowa Code section 144.24.

**99.14(7)** Administrative and certified copy fees shall be charged and remitted pursuant to rule 641—95.6(144).  
[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.15(144) Establishment of new certificate of live birth following a birth by gestational surrogate arrangement.**

**99.15(1)** All live births shall be considered the product of the woman who delivered the live infant and shall be filed in the standard manner, with that woman named as the birth mother on the original record submitted for registration.

**99.15(2)** For the purpose of filing for registration the record of a live birth by a gestational surrogate, the institution’s or non-institution’s person responsible for filing the certificate of live birth shall:

- a.* Notify the state registrar of the birth of a child pursuant to a gestational surrogate arrangement;
- b.* Follow directives for completion of the official birth worksheet;
- c.* Submit the birth record for registration based on the birth mother’s information; and
- d.* Notify the state registrar when the birth record has been submitted for registration.

**99.15(3)** In addition, the institution’s or non-institution’s person responsible for filing the record for registration shall:

- a.* Provide the prenatal and medical data on the medical portion of the birth worksheet pertinent to the pregnancy and the birth mother’s prenatal care;
- b.* Waive all birth registration and copy fees as collected on behalf of the state registrar;
- c.* Indicate on the registration that the birth mother does not have custody of the infant;
- d.* Assist in advising the intended parents of the procedures required to file the original birth record for registration and to reestablish the record to reflect the intended parents’ information; and
- e.* Advise the birth mother to complete the mother’s portion of the birth worksheet and to mark “no” for the social security card for the child.

**99.15(4)** Two intended parents—both intended parents are biological parents to the child. If the intended mother is the egg donor and the intended father is the sperm donor to the child being carried by the gestational surrogate:

*a.* After the birth of the child, the intended parents shall petition a court of competent jurisdiction to establish legal paternity and maternity of the child.

*b.* The court shall enter an order requiring the state registrar to reestablish the certificate of live birth naming the intended mother and father as the legal mother and father and requiring the state registrar to seal the original birth certificate and all related documentation.

*c.* The court order shall:

- (1) Identify the child's full name as stated on the original certificate of live birth;
- (2) State the child's date of birth and place of birth;
- (3) Identify the full names of the birth mother and her legal spouse, if married;
- (4) Disestablish the birth mother and her legal spouse, if married, as the legal parents of the child;

and

(5) Identify the intended parents' full names prior to any marriage, full current legal names, dates of birth, birthplaces, social security numbers, and full current residential address including county.

*d.* The intended parents or their legal representative shall:

- (1) Submit a certified copy of the court order to the state registrar;
- (2) Remit administrative and certified copy fees pursuant to rule 641—95.6(144); and
- (3) Include a notarized written request with mailing instructions for the certified copy of the certificate of live birth.

**99.15(5)** Two intended parents—intended mother is biological mother to the child; her legal spouse is not a biological parent. If the intended mother is the egg donor but her legal spouse is not the sperm donor, the intended mother shall petition a court of competent jurisdiction after the birth of the child to establish legal maternity.

*a.* The court shall enter an order requiring the state registrar to reestablish the certificate of live birth naming the intended mother as the legal mother and shall require the state registrar to seal the original certificate of live birth and all related documents.

*b.* The court order establishing legal maternity shall:

- (1) Identify the child's full name as stated on the original certificate of live birth;
- (2) State the child's date of birth and place of birth;
- (3) Identify the full names of the birth mother and her legal spouse, if married;
- (4) Disestablish the birth mother and her legal spouse, if married, as the legal parents of the child;

and

(5) Identify the intended mother's full name prior to any marriage, full current name, date of birth, birthplace, social security number, and full current residential address including county.

*c.* The intended mother or her legal representative shall:

- (1) Submit a certified copy of the court order to the state registrar;
- (2) Remit administrative and certified copy fees pursuant to rule 641—95.6(144); and
- (3) Include a notarized written request with mailing instructions for the certified copy of the certificate of live birth.

**99.15(6)** Two intended parents—intended father is biological father to the child; his legal spouse is not a biological parent.

*a.* If the surrogate birth mother is unmarried and the intended father is the sperm donor, the unmarried surrogate birth mother and the intended father may complete a Voluntary Paternity Affidavit form after the child's birth to place the intended father's name and information on the certificate of live birth.

*b.* If the surrogate birth mother is married and the intended father is the sperm donor, the married surrogate birth mother and the intended father shall by court order disestablish the surrogate birth mother's legal spouse as the legal parent and may complete a Voluntary Paternity Affidavit form pursuant to Iowa Code section 144.13.

*c.* The court order that disestablishes the married surrogate birth mother's legal spouse and the completed Voluntary Paternity Affidavit form shall be submitted to the state registrar.

*d.* If a certified copy of the certificate of live birth is requested, a notarized written request shall also be submitted to the state registrar with the certified copy fee and mailing instructions.

- e.* There is no administrative fee to process the completed Voluntary Paternity Affidavit form.
- f.* Adoption laws shall be followed to reestablish the certificate of live birth by establishing the nonbiological parent on the certificate of live birth pursuant to Iowa Code chapter 600.

**99.15(7)** Two intended parents—neither biological parent to the child. If the intended parents are neither the egg donor nor sperm donor, adoption laws shall be followed to reestablish the certificate of live birth by disestablishing the birth mother and her legal spouse, if any, and establishing the nonbiological parents on the certificate of live birth pursuant to Iowa Code chapter 600.

**99.15(8)** One female intended parent—biological mother to the child. If the intended mother is the egg donor to the child being carried by the gestational surrogate:

*a.* After the birth of the child, the intended mother shall petition a court of competent jurisdiction to establish legal maternity of the child.

*b.* The court shall enter an order requiring the state registrar to reestablish the certificate of live birth naming the intended mother as the legal mother and requiring the state registrar to seal the original certificate of live birth and all related documentation.

*c.* The court order shall:

- (1) Identify the child's full name as stated on the original certificate of live birth;
- (2) State the child's date of birth and place of birth;
- (3) Identify the full names of the birth mother and her legal spouse, if married;
- (4) Disestablish the birth mother and her legal spouse, if married, as the legal parents of the child;

and

(5) Identify the intended parent's full name prior to any marriage, full current legal name, date of birth, birthplace, social security number, and full current residential address including county.

*d.* The intended parent or her legal representative shall:

- (1) Submit a certified copy of the court order to the state registrar;
- (2) Remit administrative and certified copy fees pursuant to rule 641—95.6(144); and
- (3) Include a notarized written request with mailing instructions for the certified copy of the certificate of live birth.

**99.15(9)** One male intended parent—biological father to the child.

*a.* If the surrogate birth mother is unmarried and the intended father is the sperm donor, the unmarried surrogate birth mother and the intended father may complete a Voluntary Paternity Affidavit form after the child's birth to place the intended father's name and information on the certificate of live birth.

*b.* If the surrogate birth mother is married and the intended father is the sperm donor, the married surrogate birth mother and the intended father shall by court order disestablish the surrogate birth mother's legal spouse as the legal parent and may complete a Voluntary Paternity Affidavit form pursuant to Iowa Code section 144.13.

*c.* The court order that disestablishes the married surrogate birth mother's legal spouse and the completed Voluntary Paternity Affidavit form shall be submitted to the state registrar.

*d.* If a certified copy of the certificate of live birth is requested, a notarized written request shall also be submitted to the state registrar with the certified copy fee and mailing instructions.

*e.* There is no administrative fee to process the completed Voluntary Paternity Affidavit form.

*f.* If the intended father has been established as the legal father pursuant to paragraph 99.15(9) "a" or "b" and the surrogate birth mother and the intended father wish to remove the surrogate birth mother as the legal mother from the certificate of live birth, the parties shall seek a court order. The court order disestablishing legal maternity shall:

- (1) Identify the child's full name as stated on the original certificate of live birth;
- (2) State the child's date of birth and place of birth;
- (3) Identify the full name of the birth mother; and
- (4) Disestablish the birth mother as the legal parent of the child.

*g.* The intended parent or his legal representative shall:

- (1) Submit a certified copy of the court order to the state registrar;
- (2) Remit administrative and certified copy fees pursuant to rule 641—95.6(144); and

(3) Include a notarized written request with mailing instructions for the certified copy of the certificate of live birth.

**99.15(10)** One intended parent—not biological parent to the child. If the intended parent is neither the egg donor nor sperm donor, adoption laws shall be followed to reestablish the certificate of live birth by disestablishing the birth mother and her legal spouse, if any, and establishing the nonbiological parent on the certificate of live birth pursuant to Iowa Code chapter 600.

**99.15(11)** The state registrar shall seal the original certificate of live birth. The state registrar shall place the original certificate of live birth and all related documents in a sealed file, and the file shall not be opened and inspected except by the state registrar for administrative purposes or upon an order from a court of competent jurisdiction pursuant to Iowa Code section 144.24.

**99.15(12)** The new certificate of live birth shall not be marked “amended.”

**99.15(13)** The new certificate of live birth shall not be on file at the county registrar’s office pursuant to rule 641—95.7(144).

**99.15(14)** A certified copy fee and an administrative fee to replace a parent’s information on a certificate of live birth shall be charged and remitted pursuant to rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

**641—99.16(144) Certificate of live birth following voluntary paternity affidavit.**

**99.16(1)** If the birth mother was legally married at the time of conception or birth or at any time during the period between conception and birth, the name of her spouse shall be entered on the certificate of live birth as a parent pursuant to Iowa Code section 144.13.

**99.16(2)** If the birth mother was not legally married at the time of conception or birth or at any time during the period between conception and birth, the birth mother and the alleged biological father may:

- a. Complete a Voluntary Paternity Affidavit form after the birth of the child; and
- b. Submit the completed form to the state registrar.

**99.16(3)** If the birth mother was legally married at the time of conception or birth or at any time during the period between conception and birth, and her legal spouse is not the biological father, the birth mother and the alleged biological father may:

- a. Complete a Voluntary Paternity Affidavit form after the birth of the child;
- b. Obtain a court order that disestablishes her legal spouse as a parent; and
- c. Submit the completed form and a certified copy of the court order to the state registrar.

**99.16(4)** If the birth mother and the biological father of an Iowa-born child subsequently marry each other after a voluntary affidavit of paternity has been processed, the parents may submit a second completed Voluntary Paternity Affidavit form with a certified copy of the parents’ certificate of marriage to establish a new certificate changing the child’s last name to that of the father.

**99.16(5)** If another man is shown as the father on the original certificate of live birth, a new certificate of live birth may be established only when a determination of paternity is made by a court of competent jurisdiction.

**99.16(6)** There is no age limitation and no fee for filing a completed Voluntary Paternity Affidavit form.

**99.16(7)** The county registrar and the state registrar shall seal the original certificate of live birth. The state registrar shall place the original certificate of live birth and all related documents in a sealed file, and the file shall not be opened and inspected except by the state registrar for administrative purposes or upon an order from a court of competent jurisdiction pursuant to Iowa Code section 144.24.

**99.16(8)** A copy of the completed and processed Voluntary Paternity Affidavit form may be acquired by either parent or either parent’s legal representative upon notarized application and payment of the fee pursuant to rule 641—95.6(144). The notarized application shall include at a minimum the following items:

- a. The child’s full name;
- b. The child’s date and place of birth;
- c. The mother’s full name prior to any marriage; and
- d. The full name and mailing address of the applicant.

**99.16(9)** The new certificate of live birth shall not be marked “amended.”

**99.16(10)** The new certificate of live birth shall be on file at the county registrar’s office pursuant to rule 641—95.7(144).

**99.16(11)** The birth mother and the biological father shall surrender any incorrect certified copies of the child’s certificate of live birth for replacement at no cost. Additional certified copies of the new certificate of live birth shall be acquired upon receipt of a notarized application, legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar and payment of the fee pursuant to rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

**641—99.17(144) Certificate of live birth following court determination of paternity.**

**99.17(1)** If the birth mother was married at the time of conception or birth or at any time during the period between conception and birth, the name of her spouse shall be entered on the certificate of live birth as a parent unless paternity has been determined otherwise by a court of competent jurisdiction pursuant to Iowa Code section 144.13.

**99.17(2)** Upon receipt of a certified copy of the court determination of paternity order from a court of competent jurisdiction or the completed Abstract From Court Determination of Paternity form, the state registrar shall establish a new certificate of live birth to be filed in place of the original certificate of live birth.

**99.17(3)** The new certificate of live birth shall list the name of the child as stated in the court determination of paternity order.

**99.17(4)** The state child support recovery unit may not change the child’s name.

**99.17(5)** After a court determination of paternity has been completed, the parents as listed on the court order may submit a completed Voluntary Paternity Affidavit form to change the child’s last name to that of the established father.

**99.17(6)** The county registrar and the state registrar shall seal the original certificate of live birth. The state registrar shall place the original certificate of live birth and all related documents in a sealed file, and the file shall not be opened and inspected except by the state registrar for administrative purposes or upon an order from a court of competent jurisdiction pursuant to Iowa Code section 144.24.

**99.17(7)** The new certificate of live birth shall not be marked “amended.”

**99.17(8)** The new certificate of live birth shall be on file at the county registrar’s office pursuant to rule 641—95.7(144).

**99.17(9)** There are no administrative fees required to establish a new certificate of live birth following a court determination of paternity.

**99.17(10)** Any incorrect certified copy of the child’s certificate of live birth shall be surrendered for replacement at no cost. Additional certified copies of the new certificate of live birth shall be acquired upon receipt of a notarized application, legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar and payment of the fee pursuant to rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 1075C, IAB 10/2/13, effective 11/6/13]

**641—99.18(144) Certificate of live birth following rescision of paternity affidavit or disestablishment of paternity.**

**99.18(1)** An application to rescind a voluntary paternity affidavit shall be made on the Rescision of Paternity Affidavit form by either the birth mother or the putative father who originally completed and signed the Voluntary Paternity Affidavit form pursuant to Iowa Code section 252A.3A.

*a.* The completed Rescision of Paternity Affidavit form shall be notarized and received by the state registrar within the earlier of either 60 days from the latest notarized parental signature on the original Voluntary Paternity Affidavit form or entry of a court order regarding the child by the Iowa child support recovery unit pursuant to Iowa Code section 252A.3A.

*b.* Acceptance of the completed Rescision of Paternity Affidavit form shall remove the alleged biological father’s information from the certificate of live birth and rescind the voluntary paternity affidavit.

*c.* The child's last name shall revert to the last name as it was listed on the certificate of live birth prior to the voluntary paternity affidavit.

*d.* The state registrar shall send a written notice of the rescision to the last-known address of the signatory of the voluntary paternity affidavit who did not sign the Rescision of Paternity Affidavit form.

*e.* After the completed Rescision of Paternity Affidavit form has been accepted and processed, the state registrar shall not accept any subsequent Voluntary Paternity Affidavit forms signed by the same mother and putative father relating to the same child pursuant to Iowa Code section 252A.3A.

**99.18(2)** Upon receipt of a court-ordered disestablishment of paternity, the father's information shall be removed from the certificate of live birth. The child's last name shall revert to the last name as it was listed on the certificate of live birth prior to the establishment of paternity.

**99.18(3)** An administrative fee shall be charged and remitted pursuant to rule 641—95.6(144).

**99.18(4)** The county registrar and the state registrar shall seal the original certificate of live birth. The state registrar shall place the rescision of paternity information in the same sealed file as the original certificate of live birth and all previous related documents. The file shall not be opened and inspected except by the state registrar for administrative purposes or upon an order from a court of competent jurisdiction pursuant to Iowa Code section 144.24.

**99.18(5)** The new certificate of live birth shall not be marked "amended."

**99.18(6)** The new certificate of live birth shall be on file at the county registrar's office pursuant to rule 641—95.7(144).

**99.18(7)** Any incorrect certified copies of the child's certificate of live birth shall be surrendered for replacement at no cost. Additional certified copies of the new certificate of live birth shall be acquired upon receipt of a notarized application, legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar and payment of the fee pursuant to rule 641—95.6(144).

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.19(144) Certificate of live birth following court-ordered change of name.**

**99.19(1)** For a court-ordered name change, a certified copy of an order from a court of competent jurisdiction pursuant to Iowa Code chapter 674 or an Abstract to Change Registrant's Legal Name form completed by the clerk of district court changing the name shall be submitted to the state registrar.

**99.19(2)** Only the person named on the record, parent or parents if the registrant is a minor child, legal guardian, or legal representative may request a court-ordered change of name.

**99.19(3)** The court order or abstract shall contain:

- a.* The registrant's full name as it appears on the original certificate of live birth;
- b.* The registrant's date and place of birth;
- c.* The mother's full maiden name and father's full name as it appears on the original certificate of live birth;
- d.* The registrant's full new name; and
- e.* The certification of the clerk of district court.

**99.19(4)** The certified copy of a certificate of live birth after a legal change of name shall be clearly marked "legal change of name" and note the following:

- a.* The registrant's full name as shown on the original certificate;
- b.* Any previous legal name changes;
- c.* The registrant's full new name according to the court order;
- d.* The date the legal change of name order was granted; and
- e.* The name of the court that ordered the name change pursuant to Iowa Code chapter 674.

**99.19(5)** A parent cannot be added to the certificate of live birth with a court-ordered change of name.

**99.19(6)** The county registrar and the state registrar shall seal the original certificate of live birth. The state registrar shall place the original certificate of live birth and all related documents in a sealed file, and the file shall not be opened and inspected except by the state registrar for administrative purposes or upon an order from a court of competent jurisdiction pursuant to Iowa Code section 144.24.

**99.19(7)** After the court-ordered change of name, the certificate of live birth shall not be on file at the county registrar's office pursuant to rule 641—95.7(144).

**99.19(8)** An administrative fee shall be charged and remitted pursuant to rule 641—95.6(144).

**99.19(9)** Any incorrect certified copies of the certificate shall be surrendered for replacement at no cost. Additional certified copies of the new certificate shall be acquired upon receipt of a notarized application, legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar and payment of the fee pursuant to rule 641—95.6(144).  
[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—99.20(144) Certificate of live birth following sex designation change.**

**99.20(1)** After surgery or other treatment to change a sex designation, the registrant shall submit to the state registrar a notarized affidavit from the physician and surgeon, or osteopathic physician and surgeon, completing the sex designation treatment stating the following:

- a. The sex designation has been permanently changed by surgery or other treatment;
- b. Description of the medical procedures; and
- c. The physician and surgeon or osteopathic physician and surgeon's full name, address, state of medical license, and medical license number.

**99.20(2)** The medical affidavit shall be accompanied by a completed and notarized Amendment to Certificate of Live Birth form.

**99.20(3)** If the registrant's name is to be changed on the certificate of live birth, the registrant shall submit to the state registrar a certified copy of the court-ordered change of name.

**99.20(4)** Pursuant to Iowa Code section 144.23, the state registrar may make further investigation or require further information necessary to determine whether a sex change has occurred.

**99.20(5)** The county registrar and the state registrar shall seal the original certificate of live birth. The state registrar shall place the original certificate of live birth and all related documents in a sealed file, and the file shall not be opened and inspected except by the state registrar for administrative purposes or upon an order from a court of competent jurisdiction pursuant to Iowa Code section 144.24.

**99.20(6)** The certificate of live birth after the sex designation change shall not be on file at the county registrar's office pursuant to rule 641—95.7(144).

**99.20(7)** The new certificate of live birth shall not be marked "amended."

**99.20(8)** Administrative fees shall be charged and remitted pursuant to rule 641—95.6(144).

**99.20(9)** Any incorrect certified copies of the certificate shall be surrendered for replacement at no cost. Additional certified copies of the new certificate shall be acquired upon receipt of a notarized application, legible copy of a current government-issued photo identification or other identification documents acceptable to the state registrar and payment of the fee pursuant to rule 641—95.6(144).  
[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

These rules are intended to implement Iowa Code sections 144.19 to 144.21, 144.23, 144.24, 144.25A, 144.38 to 144.41, 252A.3A, 600.15, 600.16A, 674.2, 674.7 and 674.9.

[Filed ARC 0483C (Notice ARC 0376C, IAB 10/3/12), IAB 12/12/12, effective 1/16/13]<sup>1</sup>

[Filed ARC 1075C (Notice ARC 0925C, IAB 8/7/13), IAB 10/2/13, effective 11/6/13]

<sup>1</sup> January 16, 2013, effective date of the rescission of Chapter 99 and the adoption of new Chapter 99 [ARC 0483C] delayed until adjournment of the 2013 General Assembly by the Administrative Rules Review Committee at its meeting held January 8, 2013; delay lifted at the meeting held March 8, 2013.

CHAPTER 100  
VITAL RECORDS REGISTRIES AND REPORTS

[Prior to 12/12/12, see [641] Chs 105 to 107]

**641—100.1(144) Definitions.** For the purpose of this chapter, the definitions in 641—Chapter 95 shall apply. In addition, the following definitions shall apply solely to this chapter:

“*Adult*,” when used in reference to the mutual consent voluntary adoption registry, means an individual who has reached the age of 18 years at the time application is made.

“*Aggregate form*” means a compilation of the information received by the department on the Statistical Report of Termination of Pregnancy form for each item listed, with the exception of the report tracking number, the health care provider code, and any set of data for which the number is so small that the confidentiality of any person to whom the information relates may be compromised.

“*Child*,” when used in reference to the declaration of paternity registry, means a person under 18 years of age for whom paternity has not been established.

“*Court*” means the juvenile court when used in reference to the declaration of paternity registry.

“*Father*” means the male, biological parent of a child when used in reference to the declaration of paternity registry.

“*Registrant*,” when used in reference to the declaration of paternity registry, means a person who has registered and claims to be the father of a child.

“*Registry*” means the declaration of paternity registry or the mutual consent voluntary adoption registry.

“*Sibling*” means one of two or more persons who are born of the same parents or, sometimes, who have at least one parent in common. “*Sibling*” also means brother or sister when used in reference to the mutual consent voluntary adoption registry.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—100.2(144) Forms—property of department.** All forms, certificates and reports pertaining to the registration of vital events are the property of the department and shall be surrendered to the state registrar upon demand.

**100.2(1)** The forms supplied or approved for reporting vital events shall be used for official purposes as provided for by law, rules and instructions of the state registrar.

**100.2(2)** No forms, except those furnished or approved by the state registrar, shall be used in the reporting of vital events or the making of copies of vital records.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—100.3(144) Declaration of paternity registry established.** Pursuant to Iowa Code section 144.12A, there is established in the department a registry for the declaration of paternity of a putative father who wishes to register prior to the birth of a child and no later than the date of the filing of the petition for termination of parental rights.

**100.3(1)** The putative father who files a Declaration of Paternity Registry form with the state registrar shall provide the following:

*a.* Registrant’s name, current address, social security number, and notarized signature and date signed;

*b.* The name, last-known address, and social security number, if known, of the mother of the child; and

*c.* The name of the child, if known, and the date and location of the birth of the child, if known.

**100.3(2)** The putative father who files the Declaration of Paternity Registry form shall be responsible to notify the state registrar in writing of any change in address.

**100.3(3)** The state registrar shall forward a copy of the declaration of paternity to the mother as notification that the person has registered, if the mother’s name and address have been provided.

**100.3(4)** There shall be no fee required to file the declaration of paternity.

**100.3(5)** A fee as established pursuant to rule 641—95.6(144) shall be charged and remitted for conducting a search of the registry. The fee shall be retained for the search.

**100.3(6)** Upon written request and remittance of the required fee, the department shall conduct a search of the registry. Written requests may be submitted by only:

- a. The biological mother of the child;
- b. A court;
- c. The department of human services;
- d. The child support recovery unit for an action to establish paternity or support; or
- e. The attorney of any party to an adoption, termination of parental rights, or establishment of paternity or support action.

**100.3(7)** If a declaration of paternity is on file, the department shall provide the name, address, and social security number of a registrant to the following:

- a. The biological mother of the child;
- b. A court;
- c. The department of human services;
- d. The child support recovery unit for an action to establish paternity or support; or
- e. The attorney of any party to an adoption, termination of parental rights, or establishment of paternity or support action.

**100.3(8)** If no declaration of paternity is on file, a written statement to that effect shall be provided to the person making the inquiry.

**100.3(9)** Information from the declaration of paternity registry shall not be divulged to any person other than those listed in subrule 100.3(6) and shall be considered a confidential record as to any other person, except upon order of the court for good cause shown.

**100.3(10)** Information provided to the registry may be revoked by the registrant by the submission of a written statement, signed and acknowledged by the registrant before a notary public.

- a. The statement shall include a declaration that to the best of the registrant's knowledge:
  - (1) The registrant is not the father of the named child; or
  - (2) That paternity of the true father has been established.
- b. Revocation shall nullify the registration, and the information provided by the registrant shall be expunged.
- c. Revocation is effective only following the birth of the child.

**100.3(11)** The Declaration of Paternity Registry form shall be available from the state registrar of vital records or the county registrar.

**100.3(12)** The declaration of paternity registry does not constitute an affidavit of paternity filed pursuant to Iowa Code section 252A.3A. Declarations filed shall be maintained in a registry separate and distinct from the affidavit of paternity registry.

**100.3(13)** A declaration of paternity filed with the registry may be used as evidence of paternity in an action to establish paternity or to determine a support obligation with respect to the putative father.

**100.3(14)** Failure or refusal to file a declaration of paternity shall not be used as evidence to avoid a legally established obligation of financial support for a child.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—100.4(144) Mutual consent voluntary adoption registry established.** There is established in the department a mutual consent voluntary adoption registry. Adult adopted children, adult siblings, and the biological parents of adult adoptees may register with the mutual consent voluntary adoption registry to obtain identifying birth information.

**100.4(1)** All identifying information maintained in the registry is confidential.

**100.4(2)** All requests shall be completed on the Mutual Consent Voluntary Adoption Registry Application form available from the state registrar of vital records or the county registrar.

**100.4(3)** Pursuant to rule 641—95.6(144), a fee shall be charged and remitted for the filing of a completed application for the registry, and a fee shall be charged and remitted for updating applicant information maintained in the registry.

**100.4(4)** The state registrar shall reveal the identity of the biological parent to the adult adopted child or reveal the identity of the adult adopted child to the biological parent if all the following conditions are met:

- a.* A biological parent has filed a completed request form and provided consent to the revelation of the biological parent's identity to the adult adopted child, upon request of the adult adopted child;
- b.* An adult adopted child has filed a completed request form and provided consent to the revelation of the identity of the adult adopted child to a biological parent, upon request of the biological parent; and
- c.* The state registrar has been provided sufficient information to make the requested match with certainty.

**100.4(5)** The state registrar shall reveal the identity of the adult adopted child to an adult sibling or shall reveal the identity of an adult sibling to the adult adopted child if all of the following conditions are met:

- a.* An adult adopted child has filed a completed request form and provided consent to the revelation of the adult adopted child's identity to an adult sibling;
- b.* The adult sibling has filed a completed request form and provided consent to the revelation of the identity of the adult sibling to the adult adopted child; and
- c.* The state registrar has been provided sufficient information to make the requested match with certainty.

**100.4(6)** If the adult adopted child has a sibling who is a minor and who has also been adopted, the state registrar shall not grant the request of either the adult adopted child or the biological parent to reveal the identities of the parties.

**100.4(7)** A person who has filed a request or provided consent may withdraw the consent at any time prior to the release of any information by submitting a written withdrawal of consent statement with the state registrar.

**100.4(8)** The adult adoptee, adult sibling, and biological parent completing an application shall be responsible for updating the contact information.

**100.4(9)** The state registrar shall notify the parties via telephone, verify the address information, and provide written notice to the parties.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

**641—100.5(144) Statistical report of termination of pregnancy report.** A health care provider who initially identifies and diagnoses a spontaneous termination of pregnancy or who induces a termination of pregnancy shall file with the department a Statistical Report of Termination of Pregnancy form for each termination.

**100.5(1)** The health care provider shall make a good-faith effort to obtain all of the following information that is available with respect to each termination:

- a.* The confidential health care provider code as assigned by the department.
- b.* The report tracking number.
- c.* The maternal health services region of the Iowa department of public health, as designated as of July 1, 1997, in which the patient resides. If the patient resides in another state, the residence shall be reported as "nonresident."
- d.* The race of the patient.
- e.* The age of the patient.
- f.* The marital status of the patient.
- g.* The educational level of the patient.
- h.* The number of previous pregnancies, live births, and spontaneous or induced terminations of pregnancies.
- i.* The month and year in which the termination occurred.
- j.* The number of weeks since the patient's last menstrual period and a clinical estimate of gestation.
- k.* Whether the termination was spontaneous or induced.
- l.* The method used for an induced termination, including whether mifepristone was used.

**100.5(2)** The health care provider who identifies a spontaneous or induced termination shall prepare the report on the standard form and forward to the state registrar on or before the tenth day of each calendar month all records for the preceding month. Reports may be sent by certified mail to the state registrar. Termination reports shall be submitted within 30 days of the date of the occurrence.

**100.5(3)** The department shall provide the forms, or the provider may use the master copy of the form provided by the department to make copies for reporting.

**100.5(4)** The information shall be collected, reproduced, released, and disclosed in a manner which ensures the anonymity of:

- a. The patient who experiences a termination of pregnancy;
- b. The health care provider who identifies and diagnoses or induces a termination of pregnancy; and
- c. The hospital, clinic, or health facility in which a termination of pregnancy is identified and diagnosed or induced.

**100.5(5)** The department may share information with federal public health officials for the purpose of securing federal funding or conducting public health research. However, in sharing the information, the department shall not relinquish control of the information, and any agreement entered into by the department with federal public health officials to share information shall prohibit the use, reproduction, release, or disclosure of the information by federal public health officials in a manner which violates Iowa Code section 144.29A.

**100.5(6)** The department shall annually publish a demographic summary of the information obtained, except that the department shall not reproduce, release, or disclose any information obtained which reveals the identity of any patient, health care provider, hospital, clinic, or other health facility, and shall ensure anonymity in the following ways:

- a. The department may use information concerning the report tracking number or concerning the identity of a reporting health care provider, hospital, clinic, or other health facility only for the purpose of information collection. The department shall not reproduce, release, or disclose this information for any purpose other than for use in annually publishing the demographic summary.
- b. The department shall enter information from any report of termination submitted within 30 days of receipt of the statistical report of termination of pregnancy and, following entry of the information, shall immediately destroy the report by shredding it. However, entry of the information from a report shall not include any health care provider, hospital, clinic, or other health facility identification information including, but not limited to, the confidential health care provider code, as assigned by the department.
- c. To protect confidentiality, the department shall limit release of information in an aggregate form which prevents identification of any individual patient, health care provider, hospital, clinic, or other health facility.
- d. The department shall establish and use a methodology to provide a statistically verifiable basis for any determination of the aggregate level at which information may be released so that the confidentiality of any person is not comprised. The methodology shall consider both the counts of the events for each item of information and the population that could be represented.

**100.5(7)** Reports, information, and records submitted and maintained are strictly confidential and shall not be released or made public upon subpoena, search warrant, discovery proceedings, or by any other means.

**100.5(8)** The department shall assign a code to any health care provider who may be required to report a termination. An application procedure shall not be required for assignment of a code to a health care provider.

**100.5(9)** A health care provider shall assign a report tracking number which enables the health care provider to access the patient's medical information without identifying the patient. The report tracking number shall be maintained by the provider for a period of six months after the end of the calendar year.

**100.5(10)** To ensure proper performance of the reporting requirements, it is preferred that a health care provider who practices within a hospital, clinic, or other health facility authorize one staff person to fulfill the reporting requirements.

**100.5(11)** Any person who knowingly violates a provision of these rules is guilty of a serious misdemeanor pursuant to Iowa Code section 144.52.

[ARC 0483C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

These rules are intended to implement Iowa Code sections 144.29A, 144.52 and 252A.3A.

CHAPTER 105  
DECLARATION OF PATERNITY REGISTRY  
Rescinded **ARC 0483C**, IAB 12/12/12, effective 1/16/13

January 16, 2013, effective date of the rescission of Chapter 105 [ARC 0483C] delayed until adjournment of the 2013 General Assembly by the Administrative Rules Review Committee at its meeting held January 8, 2013; delay lifted at the meeting held March 8, 2013.

CHAPTER 106  
REPORTING OF TERMINATION OF PREGNANCY  
Rescinded **ARC 0483C**, IAB 12/12/12, effective 1/16/13

January 16, 2013, effective date of the rescission of Chapter 106 [ARC 0483C] delayed until adjournment of the 2013 General Assembly by the Administrative Rules Review Committee at its meeting held January 8, 2013; delay lifted at the meeting held March 8, 2013.

## CHAPTER 107

## BOARD-CERTIFIED BEHAVIOR ANALYST AND BOARD-CERTIFIED ASSISTANT BEHAVIOR ANALYST (BCBA/BCaBA) GRANTS PROGRAM

**641—107.1(135) Scope and purpose.** The board-certified behavior analyst and board-certified assistant behavior analyst (BCBA/BCaBA) grants program is established to increase access for Iowans to applied behavior analysis services by providing grants to Iowa resident and nonresident applicants who have been accepted for admission or are attending a university, a community college, or an accredited private institution, within or outside the state of Iowa; are enrolled in a program, offered at a physical location or online, that is accredited and meets coursework requirements to prepare the applicant to be eligible for board certification as a behavior analyst or assistant behavior analyst; and demonstrate financial need. [ARC 2765C, IAB 10/12/16, effective 11/16/16]

**641—107.2(135) Definitions.** For the purposes of these rules, the following definitions shall apply:

*“Board-certified assistant behavior analyst”* or *“BCaBA”* means a person who has a bachelor’s degree from an accredited university, has completed approved coursework as defined by the international Behavior Analyst Certification Board, has completed a defined period of supervised practical experience, and has passed the BCaBA examination.

*“Board-certified behavior analyst”* or *“BCBA”* means a person who has an acceptable graduate degree from an accredited university as defined by the international Behavior Analyst Certification Board, has completed acceptable graduate coursework in behavior analysis, has completed a defined period of supervised practical experience, and has passed the BCBA examination.

*“Department”* means the Iowa department of public health.

*“Director”* means the director of the Iowa department of public health.

*“Full-time enrollment”* means the applicant is enrolled in a program to be eligible for board certification as a behavior analyst or assistant behavior analyst with the appropriate number of semester credit hours as defined by the educational institution.

*“Nonresident”* means a person who is not a resident.

*“Part-time enrollment”* means the applicant is enrolled in a program to be eligible for board certification as a behavior analyst or assistant behavior analyst with the appropriate number of semester credit hours as defined by the educational institution.

*“Resident”* means a natural person who physically resides in Iowa as the person’s principal and primary residence and who establishes evidence of such residency by providing the department with one of the following:

1. A valid Iowa driver’s license,
2. A valid Iowa nonoperator’s identification card,
3. A valid Iowa voter registration card,
4. A current Iowa vehicle registration certificate,
5. A utility bill,
6. A statement from a financial institution,
7. A residential lease agreement,
8. A check or pay stub from an employer,
9. A child’s school or child care enrollment documents,
10. Valid documentation establishing a filing for homestead or military tax exemption on property located in Iowa, or
11. Other valid documentation as deemed acceptable by the department to establish residency.

[ARC 2765C, IAB 10/12/16, effective 11/16/16]

**641—107.3(135) Eligibility criteria.** To be eligible for a grant, the applicant shall:

**107.3(1)** Be an Iowa resident or nonresident.

**107.3(2)** Be accepted for admission to or be attending a university, a community college, or an accredited private institution, within or outside the state of Iowa, be enrolled in a program, offered at a physical location or online, that is accredited and meets coursework requirements to prepare the applicant

to be eligible for board certification as a behavior analyst or assistant behavior analyst, and demonstrate financial need.

**107.3(3)** Have on file with the college student aid commission a current Free Application for Federal Student Aid (FAFSA) and Iowa Financial Aid Application or similar financial aid documentation from another state and submit documentation of financial need as described in the department's request for proposal process.

**107.3(4)** Agree to practice in the state of Iowa for a period of time, not to exceed four years, as specified in the contract entered into between the applicant and the department at the time the grant is awarded.

**107.3(5)** Agree, as specified in the contract between the applicant and the department at the time the grant is awarded, that during the contract period, the applicant will assist in supervising an individual working toward board certification as a behavior analyst or assistant behavior analyst or to consult with schools and service providers that provide services and supports to individuals with autism.

[ARC 2765C, IAB 10/12/16, effective 11/16/16]

**641—107.4(135) Priority in grant awards.** Priority in the awarding of a grant shall be given to resident applicants.

[ARC 2765C, IAB 10/12/16, effective 11/16/16]

**641—107.5(135) Amount of a grant.** The department shall award funds based upon the amount set aside in the special fund, as identified in Iowa Code section 135.181 as amended by 2016 Iowa Acts, House File 2460, sections 57 and 58. Moneys appropriated to, and all other moneys specified for deposit in, the fund shall be dedicated to the board-certified behavior analyst and board-certified assistant behavior analyst (BCBA/BCaBA) grants program as established in Iowa Code section 135.181 as amended by 2016 Iowa Acts, House File 2460, sections 57 and 58. These rules shall be implemented only to the extent that funding is available. The amount of funding awarded to each applicant shall be based on the applicant's enrollment status (full-time enrollment or part-time enrollment), the number of applicants, and the total amount of available funds. The total amount of funds awarded to an individual applicant shall not exceed 50 percent of the total costs attributable to program tuition and fees, annually. Awarded grant funds will be payable to the student and prorated on the number of semesters or other terms of study to complete the program.

[ARC 2765C, IAB 10/12/16, effective 11/16/16]

**641—107.6(135) Use of funds.** Funds awarded may be used to offset the costs attributable to tuition and fees for the accredited behavior analyst or assistant behavior analyst program.

[ARC 2765C, IAB 10/12/16, effective 11/16/16]

**641—107.7(135) Review process.**

**107.7(1)** An applicant shall complete and submit an application to the program in the manner specified by the department. An applicant, if awarded a grant, shall enter into a contract with the department for up to a four-year period. The department shall follow requirements for competitive selection contained in 641—Chapter 176 in awarding these funds.

**107.7(2)** The department shall establish an application process for applicants eligible to receive funding. The application review process and review criteria for preference in awarding the grants shall be described in a request for proposals.

**107.7(3)** An applicant may appeal the denial of a properly submitted grant application. Appeals shall be governed by rule 641—176.8(135).

[ARC 2765C, IAB 10/12/16, effective 11/16/16]

**641—107.8(135) Reporting.** The department shall submit a report to the governor and the general assembly by January 1, annually. The report shall include the number of applications received for the immediately preceding fiscal year; the number of applications approved; the total amount of funding

awarded in grants in the immediately preceding fiscal year; the cost of administering the program in the immediately preceding fiscal year; and recommendations for any changes to the program.

[ARC 2765C, IAB 10/12/16, effective 11/16/16]

These rules are intended to implement Iowa Code section 135.181 as amended by 2016 Iowa Acts, House File 2460, sections 57 and 58.

[Filed ARC 2765C (Notice ARC 2460C, IAB 3/16/16; Amended Notice ARC 2621C, IAB 7/20/16),  
IAB 10/12/16, effective 11/16/16]

CHAPTER 108  
MEDICAL RESIDENCY TRAINING STATE MATCHING GRANTS PROGRAM

**641—108.1(135) Scope and purpose.** The medical residency training state matching grants program is established to provide greater access to health care by increasing the number of practicing physicians in Iowa through the expansion of residency positions in Iowa. The department shall provide funding to sponsors of accredited graduate medical education residency programs for the establishment, expansion, or support of medical residency training programs that will increase the number of residents trained. Funding for the program may be provided through the health care workforce shortage fund, medical residency training account, and is specifically dedicated to the medical residency training state matching grants program as established in Iowa Code section 135.176. These rules shall be implemented only to the extent funding is available.

[ARC 1480C, IAB 6/11/14, effective 7/16/14]

**641—108.2(135) Definitions.** For the purposes of these rules, the following definitions shall apply:

*“Accredited medical residency training program”* means a graduate medical education program approved by the Accreditation Council for Graduate Medical Education (ACGME) or by the American Osteopathic Association (AOA).

*“Department”* means the Iowa department of public health.

*“Director”* means the director of the Iowa department of public health.

*“Health professional shortage areas”* means federal designations that are based on general health professional shortage area (HPSA) designation criteria, plus additional criteria and guidelines specific to each of the three types of designations from the Health Resources and Services Administration Federal Office of Shortage Designations. The three types of designations include primary care, dental and mental health.

*“In excess of the federal residency cap”* means a residency position for which no federal Medicare funding is available because the residency position is a position beyond the cap for residency positions established by the federal Balanced Budget Act of 1997, Pub. L. No. 105-33.

*“New or alternative campus accredited medical residency training program”* means a program that is accredited by a recognized entity approved for such purpose by the ACGME or the AOA with the exception that a new medical residency training program that, by reason of an insufficient period of operation is not eligible for accreditation on or before the date of submission of an application for a grant, may be deemed accredited if the ACGME or the AOA finds, after consultation with the appropriate accreditation entity, that there is reasonable assurance that the program will meet the accreditation standards of the entity prior to the date of graduation of the initial class in the program.

*“Sponsor”* means a hospital, school, or consortium located in Iowa that sponsors and maintains primary organizational and financial responsibility for a graduate medical education residency program in Iowa and is accountable to the accrediting body.

[ARC 1480C, IAB 6/11/14, effective 7/16/14]

**641—108.3(135) Eligibility criteria.** To be eligible for a matching grant, a sponsor shall satisfy the following requirements and qualifications:

**108.3(1)** A sponsor shall be financially and organizationally responsible for a residency training program that is accredited by the ACGME or by the AOA.

**108.3(2)** A sponsor shall demonstrate through documented financial information that funds have been budgeted and will be expended by the sponsor in the amount required to provide matching funds for each residency proposed in the request for state matching funds. A sponsor shall document this requirement by providing with its request a line-item budget showing sponsor funding amounts and state matching funds requested.

**108.3(3)** A sponsor shall demonstrate a need for such residency program in the state by providing with its request for state matching funds objective evidence of such need including:

- a. Workforce data, including state and federal workforce data and data from tracking databases;
- b. Population data, including community health needs assessments;

- c. Supply and demand data, including health professional shortage area designations; and
- d. Other related research including unique community- or state-level factors which establish a need for such residency program.

**108.3(4)** A sponsor shall submit with its request for state matching funds a recruitment and retention plan to encourage residents to enter practice in Iowa with a preference for health professional shortage areas and to demonstrate over time the impact on Iowa's workforce.

[ARC 1480C, IAB 6/11/14, effective 7/16/14; ARC 2179C, IAB 9/30/15, effective 1/13/16]

**641—108.4(135) Amount of grant.**

**108.4(1)** The department shall award funds based upon the funds budgeted as demonstrated in the request, as identified in subrule 108.3(2).

**108.4(2)** The total amount of a grant awarded to a sponsor proposing the establishment of a new or alternative campus accredited medical residency training program shall be limited to no more than 100 percent of the amount of funds the sponsor has budgeted as demonstrated through a line-item budget for each residency sponsored for the purpose of the residency program.

The total amount of a grant awarded to a sponsor proposing the provision of a new residency position within an existing accredited medical residency or fellowship training program, or a sponsor funding residency positions which are in excess of the federal residency cap, shall be limited to no more than 25 percent of the amount of funds the sponsor has budgeted as demonstrated through a line-item budget for each residency position sponsored for the purpose of the residency program.

**108.4(3)** A sponsor, if awarded, shall enter into a contract with the department over a minimum of a three-year project period to include approximately one-year (12-month) renewable contract periods. Annual contracts shall include annual budgets and, upon approval of annual performance measures, renewal applications for the project period. Annual contract periods shall be renewed based on the availability of funds.

**108.4(4)** A sponsor shall receive funds based on budgeted expenses that include but are not limited to:

- a. Stipends and fringe benefits for residents and fellows;
- b. The portion of teaching physician salaries and fringe benefits associated with teaching and supervision of residents and fellows;
- c. Other direct costs that can be attributed to medical education (e.g., clerical salaries, telephone, office supplies).

**108.4(5)** An individual sponsor that establishes a new or alternative campus accredited medical residency training program shall not receive more than 50 percent of the state matching funds available each year to support the program. An individual sponsor proposing the provision of a new residency position within an existing accredited medical residency or fellowship training program, or a sponsor funding residency positions which are in excess of the federal residency cap, shall not receive more than 25 percent of the state matching funds available each year to support the program.

[ARC 1480C, IAB 6/11/14, effective 7/16/14; ARC 2179C, IAB 9/30/15, effective 1/13/16]

**641—108.5(135) Review process.**

**108.5(1)** The department shall follow requirements for competitive selection contained in 641—Chapter 176 in awarding these funds.

**108.5(2)** The department shall establish a request for proposal process for sponsors eligible to receive funding. The request for proposal and review process and review criteria for preference in awarding the grants shall be described in the request for proposal, including preference in the residency specialty. This preference may be reflective of a subspecialty where particular demands for services have been demonstrated, of geographic areas of preference, or of other particular preferences that advance the objectives of the program.

**108.5(3)** Each request for proposal issued by the department will identify one or more of the following purposes for use of the funding:

- a. The establishment of new or alternative campus accredited medical residency training programs;

*b.* The provision of new residency positions within existing accredited medical residency or fellowship training programs; or

*c.* The funding of residency positions which are in excess of the federal residency cap.

**108.5(4)** An applicant may appeal the denial of a properly submitted request for proposal. Appeals shall be governed by rule 641—176.8(135,17A).

[ARC 1480C, IAB 6/11/14, effective 7/16/14]

These rules are intended to implement Iowa Code section 135.176.

[Filed ARC 1480C (Notice ARC 1392C, IAB 4/2/14), IAB 6/11/14, effective 7/16/14]

[Filed ARC 2179C (Notice ARC 2066C, IAB 7/22/15), IAB 9/30/15, effective 1/13/16]

CHAPTER 109  
PRESCRIPTION DRUG DONATION REPOSITORY PROGRAM

**641—109.1(135M) Definitions.** For purposes of this chapter, the following definitions apply:

*“Centralized repository”* means a distributor approved by the contractor and licensed pursuant to 657 IAC Chapter 17 that accepts donated drugs, conducts a safety inspection of the drugs, and ships the donated drugs to a local repository to be dispensed in compliance with this chapter and federal and state laws, rules and regulations.

*“Contractor”* means the third party approved by the department to implement and administer the prescription drug donation repository program.

*“Controlled substance”* means the same as defined in Iowa Code section 124.101.

*“Department”* means the Iowa department of public health.

*“Indigent”* means a person with an income that is below 200 percent of the federal poverty level (FPL) as defined by the most recently revised poverty income guidelines published by the United States Department of Health and Human Services.

*“Local repository”* means a pharmacy or medical facility that elects to accept and dispense donated drugs and that meets the eligibility requirements of rule 641—109.3(135M).

*“Medical facility”* means any of the following:

1. A physician’s office.
2. A hospital.
3. A health clinic.
4. A nonprofit health clinic, including a federally qualified health center as defined in 42 U.S.C. § 1396d(1)(2)(B); a rural health clinic as defined in 42 U.S.C. § 1396d(1)(1); and a nonprofit health clinic that provides medical care to patients who are indigent, uninsured, or underinsured.

5. A free clinic as defined in Iowa Code section 135.24.

6. A charitable organization as defined in Iowa Code section 135.24.

7. A nursing facility as defined in Iowa Code section 135C.1.

*“NDC #”* means the unique national drug code number that identifies a specific approved drug.

*“Nurse practitioner”* means an advanced registered nurse practitioner as defined in 655 IAC Chapter 7.

*“Pharmacist”* means a pharmacist as defined in Iowa Code section 155A.3.

*“Pharmacy”* means a pharmacy as defined in Iowa Code section 155A.3.

*“Physician”* means an individual licensed under Iowa Code chapter 148, 150, or 150A.

*“Prescription drug”* means the same as defined in Iowa Code section 155A.3 and includes cancer drugs and antirejection drugs, but does not include controlled substances.

*“Supplies”* means the supplies necessary to administer the prescription drugs donated.

*“USP”* means United States Pharmacopoeia.

**641—109.2(135M) Purpose.** The overall purpose of this chapter is to establish administrative rules in accordance with Iowa Code chapter 135M relative to the following:

1. Requirements for medical facilities and pharmacies to accept and dispense donated prescription drugs and supplies.
2. Eligibility criteria for individuals to receive donated prescription drugs and supplies.

**641—109.3(135M) Eligibility criteria for program participation by medical facilities and pharmacies.**

**109.3(1)** To be eligible for participation in the prescription drug donation repository program, a medical facility or pharmacy shall be in compliance with all applicable federal and state laws, including laws applicable to the storage and distribution of drugs and the appropriate licensure standards, and shall hold active, nonrestricted, state-issued licenses or registrations in good standing.

**109.3(2)** Participation in the prescription drug donation repository program is voluntary.

**109.3(3)** A pharmacy or medical facility may elect to participate in the prescription drug donation repository program by providing, on a form prescribed by the department and available on the program's Web page, written notification to the centralized repository of all of the following:

*a.* The name, street address, and telephone number of the pharmacy or medical facility, and any state-issued license or registration number issued to the pharmacy or medical facility, including the name of the issuing agency.

*b.* The name and telephone number of the responsible pharmacist, physician or nurse practitioner who is employed by or under contract with the pharmacy or medical facility.

*c.* A statement, signed and dated by the responsible pharmacist, physician or nurse practitioner, indicating that the pharmacy or medical facility meets the eligibility requirements under this rule and shall comply with the requirements of this chapter.

**109.3(4)** Withdrawal from participation. A pharmacy or medical facility may withdraw from participation in the prescription drug donation repository program at any time by providing written notice to the centralized repository on a form prescribed by the department and available on the program's Web page.

**641—109.4(135M) Standards and procedures for accepting donated prescription drugs and supplies.**

**109.4(1)** Any individual who is 18 years of age or older may donate legally obtained prescription drugs or supplies to the centralized repository or a local repository if the drugs or supplies meet the requirements of this rule, as determined by a pharmacist who is employed by or under contract with a drug repository.

**109.4(2)** No drugs that require storage temperatures other than normal room temperature as specified by the manufacturer or United States Pharmacopoeia shall be donated or accepted as part of the prescription drug donation repository program. Drugs that require storage temperatures other than normal room temperature as specified by the manufacturer or USP shall not be donated or accepted because of the increased potential for these drugs to become adulterated. Excluded from this restriction are drugs donated directly from a drug manufacturer.

**109.4(3)** Controlled substances shall not be donated or accepted. Pursuant to federal and state laws, a controlled substance cannot be returned or reused once the drug has been dispensed to a patient.

**109.4(4)** The centralized repository or a local repository may accept a prescription drug only if all of the following requirements are met:

*a.* The drug is in its original sealed and tamper-evident packaging. However, a drug in a single-unit dose or blister pack with the outside packaging opened may be accepted if the single-unit-dose packaging is undisturbed;

*b.* The drug has been stored according to manufacturer or USP storage requirements;

*c.* The packaging contains the lot number and expiration date of the drug. If the lot number is not retrievable, all specified medications will be destroyed in the event of a recall, pursuant to Iowa board of pharmacy rules;

*d.* The drug has an expiration date that is more than six months after the date that the drug was donated. However, a donated prescription drug bearing an expiration date that is six months or less after the date the prescription drug was donated may be accepted and distributed if the drug is in high demand and can be dispensed for use prior to the drug's expiration date;

*e.* The drug does not have any physical signs of tampering or adulteration, and there is no reason to believe that the drug is adulterated;

*f.* The packaging does not have any physical signs of tampering, misbranding, deterioration, compromised integrity or adulteration; and

*g.* All drugs shall be inventoried at the centralized repository or a local repository. The inventory shall include the name of the drug, strength of the drug, quantity of the drug, and the date of donation if the drug has been continually under the control of a health care professional. If the drug has not been continually under the control of a health care professional, the repository shall collect a donation form

provided by the prescription drug donation repository program that is signed by the person making the donation or that person's authorized representative.

**109.4(5)** A repository may accept supplies necessary to administer the prescription drugs donated only if all of the following requirements are met:

- a.* The supplies are in their original, unopened, sealed packaging;
- b.* The supplies are not adulterated or misbranded; and
- c.* All supplies shall be inventoried at the centralized repository or a local repository. The inventory shall include a description of the supplies and the date donated. Such inventory shall be recorded on a form provided by the prescription drug donation repository program.

**109.4(6)** Drugs and supplies may be donated on the premises of a participating centralized repository or a local repository to a person designated by the repository. A drop box may not be used to deliver or accept donations.

**641—109.5(135M) Standards and procedures for inspecting and storing donated prescription drugs and supplies.**

**109.5(1)** A licensed pharmacist employed by or under contract with the centralized repository or a local repository shall inspect donated prescription drugs and supplies to determine, to the extent reasonably possible in the judgment of the pharmacist, that the drugs and supplies are not adulterated or misbranded, are safe and suitable for dispensing, and are not ineligible drugs or supplies. The pharmacist who inspects the drugs shall sign an inspection record stating the above and attach it to the copy of the inventory or donor record provided with the drugs. If a local repository receives drugs and supplies from the centralized repository, the local repository does not need to reinspect the drugs and supplies.

**109.5(2)** The centralized repository and local repositories shall store donated drugs and supplies in a secure storage area under environmental conditions appropriate for the drugs or supplies being stored. Donated drugs and supplies may not be stored with nondonated inventory. When donated drugs are not inspected immediately upon receipt, a repository shall quarantine the donated drugs separately from all dispensing stock until the donated drugs have been inspected and approved for dispensing under the program.

**109.5(3)** Repositories shall destroy donated noncontrolled substances that are not suitable for dispensing and make a record of such destruction according to board of pharmacy rule 657—8.8(124,155A). The destruction record shall be made in the same manner as prescribed for the record of return or destruction of a controlled substance in subrule 109.5(4).

**109.5(4)** Controlled substances shall not be accepted for donation.

*a.* Controlled substances submitted for donation shall be documented and returned immediately to the donor or the donor's representative that provided the drugs.

*b.* In the event controlled substances enter the centralized repository or a local repository and it is not possible or practicable to return the controlled substances to the donor or the donor's representative due to inability to identify the donor or the donor's representative or due to refusal by the donor or the donor's representative to receive them, abandoned controlled substances shall be documented and destroyed beyond reclamation pursuant to rules of the board of pharmacy examiners. Such destruction shall be performed by a pharmacist or other person that has authority to dispense controlled substances and shall be witnessed by another responsible adult employee of the repository.

**109.5(5)** If a repository receives a recall notification, the repository shall perform a uniform destruction of all of the recalled prescription drugs in the repository and complete the destruction information form for all donated drugs destroyed. If a recalled drug has been dispensed, the repository shall immediately notify the recipient of the recalled drug pursuant to established drug recall procedures.

**641—109.6(135M) Standards and procedures for dispensing donated prescription drugs and supplies.**

**109.6(1)** Donated drugs and supplies may be dispensed only if the drugs or supplies are prescribed by a health care practitioner for use by an eligible individual and are dispensed by a licensed pharmacist, physician or nurse practitioner.

**109.6(2)** A repository shall prioritize dispensing to an individual requesting drugs through the program as follows:

- a. First, to an indigent individual;
- b. Second, to an individual who has no active third-party prescription drug reimbursement coverage for the drug prescribed; and
- c. Third, to any other individual if an indigent or uninsured individual is unavailable.

**109.6(3)** A repository shall dispense donated prescription drugs in compliance with applicable federal and state laws and regulations for dispensing prescription drugs, including all requirements relating to packaging, labeling, record keeping, drug utilization review, and patient counseling.

**109.6(4)** The centralized repository and a local repository shall remove the original donor's identification and the name of the dispensing pharmacy from the package prior to dispensing the drugs or supplies.

**109.6(5)** The centralized repository and a local repository shall be responsible for drug recalls and shall have an established mechanism to notify recipients in the event of a drug recall.

**109.6(6)** Prescription drugs or supplies donated under this program shall not be resold.

**109.6(7)** The participating centralized repository and local repositories may distribute drugs and supplies donated under this program to other participating repositories for use pursuant to the program. The repository distributing the drugs or supplies shall complete a transfer form.

**641—109.7(135M) Eligibility criteria for individuals to receive donated prescription drugs and supplies.**

**109.7(1)** An individual who requests drugs from the prescription drug donation repository program shall certify to the repository that the individual is a resident of Iowa and meets one or both of the following criteria:

- a. Is indigent;
- b. Has no active third-party prescription drug reimbursement coverage for the drug prescribed.

**109.7(2)** The local repository shall collect from each individual recipient a signed intake collection form provided by the department or its contractor.

- a. The intake collection form shall attest that:
  - (1) The individual is a resident of the state of Iowa;
  - (2) The individual's income does not exceed 200 percent of the FPL;
  - (3) The individual is uninsured and has no prescription coverage or is underinsured and has no prescription coverage;
  - (4) The individual acknowledges that the drugs may have been donated; and
  - (5) The individual consents to a waiver of the requirement for child resistant packaging of the Poison Prevention Packaging Act.
- b. The intake collection form will include an identification card to be given to the recipient for continued use for one year.

**109.7(3)** The identification card is valid for one year or until the new federal poverty guidelines have been published for all prescriptions and supplies.

**109.7(4)** A summary of data taken from the intake collection form is to be sent via regular mail, E-mail or facsimile to the centralized repository for data collection.

**641—109.8(135M) Forms and record keeping.**

**109.8(1)** The following forms developed for the administration of this program shall be utilized by participants of the program and are available on the program's Web page on the department's Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us).

- a. Prescription drug donation repository program notice of participation or withdrawal.
- b. Prescription drug donation repository program donation, transfer, inventory or destruction record.
- c. A record of medications dispensed.

**109.8(2)** The prescription drug donation repository program recipient data collection form and identification card are given to the recipient by the local repository, and the completed data collection form is collected from the recipient by the local repository.

**109.8(3)** Record-keeping requirements.

a. All records required to be maintained as a part of the prescription drug donation repository program shall be maintained for a minimum of five years by participating pharmacies and medical facilities.

b. Records required as part of this program shall be maintained pursuant to all current applicable practice acts.

c. Data collected by the prescription drug donation repository program from all participating repositories shall be submitted quarterly or upon request to the centralized repository. The data will consist of the information collected in accordance with 641—109.8(135M), Forms and record keeping.

d. The centralized repository and the contractor shall submit reports to the department as required by the contract or upon request of the department.

**641—109.9(135M) Handling fee.** A repository may charge the recipient of a donated drug a handling fee, not to exceed a maximum of 200 percent of the Medicaid professional dispensing fee as established by rule of the department of human services, to cover stocking and dispensing costs. A prescription drug dispensed through the prescription drug donation repository program shall not be eligible for reimbursement under the medical assistance program.

**641—109.10(135M) List of drugs and supplies program will accept.** All prescription drugs, excluding controlled substances, that have been approved for medical use in the United States, that are listed in the USP or National Formulary (USP/NF), and that meet the criteria for donation established by these rules may be accepted for donation under the prescription drug donation repository program.

**641—109.11(135M) Exemption from disciplinary action, civil liability and criminal prosecution.**

**109.11(1)** A drug manufacturer acting reasonably and in good faith is not subject to criminal prosecution or civil liability for injury, death, or loss to a person or property for matters related to the donation, acceptance, or dispensing of a prescription drug manufactured by the drug manufacturer that is donated under this chapter, including liability for failure to transfer or communicate product or consumer information or the expiration date of the donated prescription drug.

**109.11(2)** Except as provided in subrule 109.11(3), a person other than a drug manufacturer subject to subrule 109.11(1), acting reasonably and in good faith, is immune from civil liability and criminal prosecution for injury to or the death of an individual to whom a donated prescription drug is dispensed under this chapter and shall be exempt from disciplinary action related to the person's acts or omissions related to the donation, acceptance, distribution, or dispensing of a donated prescription drug under this chapter.

**109.11(3)** The immunity and exemption provided in subrule 109.11(2) does not extend to any of the following:

- a. The donation, acceptance, distribution, or dispensing of a donated prescription drug under this chapter by a person if the person's acts or omissions are not performed reasonably and in good faith.
- b. Acts or omissions outside the scope of the program.

**641—109.12 and 109.13** Reserved.

**641—109.14(135M) Prescription drug donation repository in disaster emergencies.** The following are the requirements for the department to receive and distribute prescription drugs and supplies in

preparation for a disaster emergency proclaimed by the governor or in preparation for a public health disaster.

**109.14(1)** The department may receive prescription drugs and supplies directly from the prescription drug donation repository contractor and dispense prescription drugs and supplies through licensed personnel during or in preparation for a disaster emergency proclaimed by the governor pursuant to Iowa Code section 29C.6 or during or in preparation for a public health disaster as defined in 2009 Iowa Code Supplement section 135.140, subsection 6.

**109.14(2)** The department may receive and distribute prescription drugs and supplies as defined in Iowa Code section 135.142 to any Iowan who has been a victim of a disaster emergency proclaimed by the governor.

CHAPTER 110  
CENTER FOR RURAL HEALTH  
AND PRIMARY CARE

**641—110.1(135) Purpose and scope.** The following rules developed by the department of public health govern the organization of the center for rural health and primary care within the bureau of health delivery systems of the department of public health.

**641—110.2(135) Definitions.**

*“Area health education center (AHEC)”* means the linking of university health centers with community-based delivery systems in order to improve delivery of health care.

*“Center for rural health and primary care”* means the department of public health administrative entity that is responsible for provision of technical planning assistance to rural communities and counties, administration of a comprehensive primary care provider recruitment and retention endeavor, coordination of services to provide research of rural occupational health injuries and hazards, and coordination with the following: the center for agricultural health and safety, the center for health effects of environmental contamination, and the department of agriculture and land stewardship.

*“Center for rural health and primary care advisory committee”* means a group of individuals appointed by the governor, department directors and the Iowa legislature whose purpose is to provide advice and make recommendations on rural health issues to the center for rural health and primary care, department of public health.

*“Community grant program”* means a program that provides assistance in the form of a forgivable loan, grant, or other nonfinancial assistance to communities, to support the effort of a community which is part of the community’s long-term community health services assessment and developmental plan.

*“Community health services assessment and developmental plan”* means a comprehensive health services assessment and plan which has been developed through a community-wide collaborative effort of public and private entities, including citizens at large, located in rural communities.

*“Department”* means the Iowa department of public health.

*“Director”* means the director of the department of public health.

*“Primary care collaborative work group”* means a group of individuals who, at a minimum, represent the following entities, who are responsible for coordination of all statewide recruitment and retention activities and for recommendations related to the implementation of the primary care provider recruitment and retention endeavor (PRIMECARRE): University of Iowa college of medicine, University of Osteopathic Medicine and Health Sciences, University of Iowa physician assistant school, University of Iowa nurse practitioner school, University of Osteopathic Medicine and Health Sciences physician assistant program, Iowa-Nebraska primary care association, Iowa medical society, Iowa osteopathic medical association, Iowa chapter of American college of osteopathic family physicians, Iowa academy of family physicians, nurse practitioner association, Iowa nurses association, Iowa hospital association, and Iowa physician assistants association.

*“Primary care health professional”* means an individual who is providing primary health services, and is licensed to practice in the state of Iowa.

*“Primary care provider community scholarship program”* means a scholarship program that provides obligated-service scholarships to eligible health professional students for qualifying educational expenses incurred to obtain the credentials in that profession in return for providing primary care services in health professional shortage areas in the state.

*“Primary care provider loan repayment program”* means a loan repayment for qualifying loans to eligible health professionals who choose to establish practices in designated health professional shortage areas of the state.

*“Primary care provider recruitment and retention endeavor (PRIMECARRE)”* means a comprehensive primary health care initiative to promote and assist local efforts in developing health care provider recruitment and retention programs, and which includes a community grant program, a

primary care provider loan repayment program, primary care provider community scholarships, and area health education centers.

*“Primary health services”* means health services regarding family practice, internal medicine, pediatrics, obstetrics and gynecology, dentistry, or mental health that are provided by physicians or other health professionals.

**641—110.3(135) Responsibilities of the center.**

**110.3(1)** The center for rural health and primary care shall provide technical planning assistance to rural communities and counties exploring innovative means of delivering rural health services through community health services assessment, planning, and implementation, including but not limited to hospital conversions, cooperative agreements among hospitals, physician and health practitioner support, recruitment and retention of primary health care providers, public health services, emergency medical services, medical assistance facilities, rural health care clinics, and alternative means which may be included in the long-term community health services assessment and developmental plan.

**110.3(2)** The center for rural health and primary care shall encourage collaborative efforts of the local boards of health, hospital governing boards, and other public and private entities located in rural communities to adopt a long-term community health services assessment and developmental plan.

**110.3(3)** The center for rural health and primary care shall provide technical assistance to assist rural communities in improving Medicare reimbursements or establishing additional sources of funding through initiatives such as rural health clinics, distinct part skilled nursing facility beds, and the swing-bed program.

**110.3(4)** The center for rural health and primary care shall coordinate services to provide research for the following:

- a. Examination of the prevalence of rural occupational health injuries in the state.
- b. Assessment of training and continuing education available through local hospitals and others relating to diagnosis and treatment of diseases associated with rural occupational health hazards.
- c. Determination of continuing education support necessary for rural health practitioners to diagnose and treat illnesses caused by exposure to rural occupational health hazards.
- d. Determination of the types of actions that can help prevent agricultural accidents, surveillance and reporting of disabilities suffered by persons engaged in agricultural-related injuries and diseases in the state.
- e. Identifying causal factors associated with agricultural-related injuries and diseases, and indicating the effectiveness of intervention programs designed to reduce injuries and diseases.
- f. Cooperation with the center for agricultural health and safety, the center for health effects of environmental contamination and the department of agriculture and land stewardship, to coordinate programs to the extent practicable.

**110.3(5)** The center for rural health and primary care shall administer grants for farm safety education efforts directed to rural families for the purpose of preventing farm-related injuries to children.

**110.3(6)** The center for rural health and primary care shall administer a primary care provider recruitment and retention endeavor (PRIMECARRE).

**110.3(7)** The department of public health shall, in cooperation with the primary care collaborative work group, coordinate the initiative for the development of area health education centers, including making application for a federal grant.

**641—110.4(135) Advisory committee to the center for rural health and primary care.**

**110.4(1)** The purpose of the advisory committee is to provide advice and make recommendations on rural health issues to the center for rural health and primary care, department of public health.

**110.4(2)** The advisory committee will provide the expertise and technical assistance necessary to review and recommend policies pertinent to rural health issues, as well as guidelines for grants and other programs of the center for rural health and primary care.

**110.4(3)** The advisory committee will review reports prepared for the general assembly and make recommendations regarding the reports compiled.

**110.4(4)** The advisory committee will evaluate new care delivery concepts arising to meet the needs of the rural population.

**641—110.5(135) Organization.** The advisory committee to the center for rural health and primary care shall consist of one representative, approved by the respective agency, of each of the following agencies: the department of agriculture and land stewardship, the Iowa department of public health, the department of inspections and appeals, the national institute for rural health policy, the social and behavioral research center for rural health, the institute of agricultural medicine and occupational health, and the Iowa state association of counties. The governor shall appoint two representatives of consumer groups active in rural health issues and a representative of each of two farm organizations active within the state, a representative of an agricultural business in the state, a practicing rural family physician, a practicing rural physician assistant, a practicing rural advanced registered nurse practitioner, and a rural health practitioner who is not a physician, physician assistant, or advanced registered nurse practitioner, as members of the advisory committee. The advisory committee shall also include as members two state representatives, one appointed by the speaker of the house of representatives and one by the minority leader of the house, and two state senators, one appointed by the majority leader of the senate and one by the minority leader of the senate.

**641—110.6(135) Meetings.**

**110.6(1) Meeting dates.** The advisory committee shall meet at least quarterly to conduct its business. Meetings can be scheduled as business requires, but notice to committee members must be at least five working days prior to the meeting date. The administrative head of the center for rural health and primary care shall attend these meetings.

**110.6(2) Meeting procedures.** Robert's Rules of Order shall govern at all meetings.

**110.6(3) Quorum.** A majority of the total membership shall constitute a quorum. Action can be taken by a vote of the majority of the membership.

**110.6(4) Vacancies.** Vacancies will be filled in the same manner as was prescribed in the Code of Iowa. In the case of a vacancy the chairperson will notify the agency of the need to appoint another representative.

**110.6(5) Term of appointment.** Unless otherwise specified by law, term of appointment is for two years with no more than three consecutive terms, excepting the department of public health representative. Exceptions for individual reappointment from organizations represented shall be determined by the director of public health.

**110.6(6) Subcommittees.** The advisory committee for the center for rural health and primary care may designate one or more subcommittees to have such powers and perform such duties as may be deemed necessary by the committee.

**641—110.7 to 110.10** Reserved.

PRIMECARRE COMMUNITY GRANT PROGRAM

**641—110.11(135) Purpose.** The purpose of the PRIMECARRE community grant program is to support community efforts which are part of the community's long-term community health services assessment and developmental plan. A community or region applying for assistance must complete a community health services assessment and adopt a long-term developmental plan. The community may request assistance with the assessment from the center for rural health and primary care. The long-term developmental plan shall include a clear commitment to informing high school students of the health care opportunities which may be available to such students. The grant assistance may be in the form of a forgivable loan, grant, or other nonfinancial assistance as deemed appropriate by the center for rural health and primary care. Grants or other assistance provided by the center are intended to promote and accommodate local creativity in efforts to recruit and retain health care professionals to provide services in the locality. Notice of the availability of these public funds shall be published in the Iowa Administrative Bulletin in accordance with 641—Chapter 176.

**110.11(1) Eligibility.** The following requirements must be met in order to be eligible for the program:

- a. The applicant must be a single community with a population of 10,000 or less, or a region consisting of communities with populations of 10,000 or less, respectively.
- b. The community or region must have illustrated efforts to meet the health care provider needs of the locality and surrounding area.
- c. The community or region must have completed a community health services assessment and adopted a long-term developmental plan as established herein.
- d. A letter of intent must be submitted by January 1 preceding the year for which application for assistance is to be made.

**110.11(2) Funding limitations.** Grants awarded under the program shall be subject to the following limitations:

- a. An award of no more than \$10,000 for a single community or region with a population of 10,000 or less.
- b. An award of no more than \$1 per capita for a region in which the population exceeds 10,000.

**110.11(3) Use of funds.** Funds may be used for the following:

- a. The procurement of clinical equipment, clinical facilities, and telecommunications facilities.
- b. Support for locum tenens arrangements and primary care provider mentor programs.
- c. Other capacity-building activities as they relate to recruitment and retention of primary health care providers.

**110.11(4) Matching requirements.** Applications submitted shall contain a commitment of at least a dollar-for-dollar match of the grant assistance.

**110.11(5) Application process.** Applicants for grant funds must complete application forms provided by the department. Application materials shall be made available by the department at least 45 days prior to the application due date. Grant applications will be issued in accordance with 641—Chapter 176.

**110.11(6) Selection criteria and review process.** Selection criteria will be based on illustrated efforts to meet the health care provider needs of the locality and surrounding area. Selection criteria and the process for evaluation of applications shall be described in the application materials provided by the department. A competitive grant application review committee shall be appointed by the administrative head of the center for rural health and primary care. Grants will be awarded according to review criteria developed by the center, in accordance with 641—Chapter 176.

**110.11(7) Notice of grant award.** The director of public health shall notify all applicants in writing of the decision of grant awards.

**110.11(8) Appeals.** Applicants with a denied request for funding may appeal the decision of grant awards. The appeal shall be made in writing to the director, Iowa department of public health, within 10 days of the notification date of the grant awards decision. The appeal shall be mailed by certified mail, return receipt requested, or delivered by personal service. The decision of the director of public health becomes the department's final action and shall be sent by certified mail, return receipt requested, or delivered by personal service within 14 days of the receipt of the appeal.

**110.11(9) Grantee oversight.** The department shall monitor the use of funds granted to communities to ensure accountability and conformance with legislative intent. Oversight processes shall be described in the application materials provided by the department.

**641—110.12 to 110.15** Reserved.

PRIMECARRE PRIMARY CARE PROVIDER  
COMMUNITY SCHOLARSHIP PROGRAM

**641—110.16(135) Purpose.** A primary care provider community scholarship program is established to recruit and to provide scholarships to train primary health care practitioners in federally designated health professional shortage areas of the state. If sufficient state funds are available, applications will be considered for scholarship placement in communities not located in federally designated shortage areas. Under the program, scholarships may be awarded to a recipient for educational expenses incurred

while completing an accredited health education program directly related to obtaining the credentials necessary to practice the recipient's health profession. Notice of the availability of these public funds shall be published in the Iowa Administrative Bulletin in accordance with 641—Chapter 176.

**110.16(1) *Student eligibility.*** The following requirements must be met by students in order to be eligible for the program:

*a.* The status of the student's citizenship must meet requirements of the National Health Service Corps scholarship program.

*b.* The student must be enrolled or accepted for enrollment as a student in an accredited primary care health professions program, and meet eligibility requirements of Section 338A of the Public Health Service Act as amended November 16, 1990, by Public Law 101-597.

*c.* The student must agree, while enrolled in a health professional school, to maintain an acceptable level of academic standing as determined by the school.

*d.* The student must agree to meet educational and licensure requirements necessary to become a licensed primary care health professional in the state.

*e.* The student must agree to provide full-time primary health care services in a designated shortage area in the state for the minimum number of years required by federal programs providing funding support for the program.

*f.* The student must agree not to discriminate on the basis of the ability of the individual to pay for such care or on the basis that payment for such care will be made pursuant to the program established in Title XVIII (Medicare) of the Social Security Act, or pursuant to the program established in Title XIX (Medicaid) of such Act.

*g.* The student must agree to accept assignment under Section 1842(b)(3)(B)(ii) of the Social Security Act for all services for which payment may be made under Part B of Title XVIII and agree to enter into an appropriate agreement with the state agency that administers the state plan for medical assistance under Title XIX of such Act to provide service to individuals entitled to medical assistance under the plan.

*h.* The student must complete an application form provided by the Iowa department of public health.

**110.16(2) *Site eligibility.*** The following requirements must be met, in order for a site to be eligible for placement of PRIMECARRE scholars:

*a.* The site must be located in a designated health professional shortage area in the state.

*b.* The site must agree to accept Medicare/Medicaid assignment.

*c.* The site must have a sliding fee schedule in place that is based upon the ability to pay.

*d.* The site must have completed a community health services assessment and adopted a long-term developmental plan.

*e.* The site must be part of a system of care. For the purpose of receiving federal assistance, a system of care is defined as a service continuum that includes comprehensive primary care for all regardless of ability to pay, and appropriate arrangements for secondary and tertiary care, including a referral system and arrangements for call coverage.

*f.* The site must complete an application form provided by the department.

*g.* The site must agree to report to the department those health professionals unable to fulfill the contract.

*h.* The site must meet matching funds requirements consistent with current federal requirements.

**110.16(3) *Federal grant requirements.*** Use of federal grant dollars for scholarships requires that eligibility be determined as authorized by federal grant requirements.

**110.16(4) *Funding limitations.*** Scholarships awarded under this program shall be determined annually, based upon the legislative appropriation for the PRIMECARRE initiative and other sources of funds.

**110.16(5) *Other sources of funds.*** The department of public health shall seek participation in federal programs supporting scholarships for health care providers and shall accept gifts, grants, and other aid or amounts from any person, association, foundation, trust, corporation, governmental agency, or other entity for the purposes of the program.

**110.16(6) *Review process.*** The department of public health shall establish a review committee which will review all community applications and make recommendations for scholarship awards. The department shall provide the review committee with a methodology for prioritization of federal shortage areas and eligible nonfederal shortage areas to be utilized in the application review process. The department of public health shall provide the review committee with the criteria and scoring methodology to be used in reviewing the applications, in accordance with 641—Chapter 176.

**110.16(7) *Contract oversight and administration.*** The department of public health shall establish and enforce the terms of the contract, including implementation of any methods, including legal action, that may be necessary to recoup scholarship funds in the event of failure on the part of an individual scholarship recipient to fulfill the terms and conditions of the contract. The department shall take into consideration mitigating circumstances which may prohibit a recipient from fulfilling the recipient's contractual obligation or for whom fulfilling the obligation would cause undue hardship. The department of public health shall also provide for cancellation of contracts for reasonable cause to be determined by the department.

**110.16(8) *Appeals.*** A community with a denied request for funding may appeal the decision of scholarship awards. The appeal shall be made in writing to the director, Iowa department of public health, within 10 days of the notification date of the grant awards decision. The appeal shall be mailed by certified mail, return receipt requested, or delivered by personal service. The decision of the director of public health becomes the department's final action and shall be sent by certified mail, return receipt requested, or delivered by personal service within 14 days of the receipt of the appeal.

**641—110.17 to 110.20** Reserved.

PRIMECARRE PRIMARY CARE PROVIDER LOAN REPAYMENT PROGRAM

**641—110.21(135) Purpose.** A primary care provider loan repayment program is established to increase the number of health professionals practicing primary care in federally designated health professional shortage areas of the state. If sufficient state funds are available, applications will be considered for loan repayment for primary care providers practicing in communities not located in federally designated shortage areas. Under the program, loan repayment may be made to a recipient for educational loans incurred while completing an accredited health education program directly related to obtaining credentials necessary to practice the recipient's health profession. Notice of the availability of these public funds shall be published in the Iowa Administrative Bulletin in accordance with 641—Chapter 176.

**110.21(1) *Health care professional eligibility.*** The following requirements must be met by health care professionals in order to be eligible for the program:

*a.* The status of the health care professional's citizenship must meet requirements of the National Health Service Corps loan repayment program.

*b.* The health care professional must be licensed or certified to practice in the state of Iowa as a primary care health professional as defined in 110.2(135) and approved by the state for purposes of program priorities and requirements. Physicians must have completed a primary care residency and be board-eligible or board-certified.

*c.* The health care provider must possess evidence of a contractual agreement to practice full-time at a site in a designated shortage area within the state and approved by the state for the minimum number of years required by federal programs providing support for the program.

*d.* The health care provider must agree to comply with all contract provisions and the rules and regulations as promulgated by the department.

*e.* The health care provider must possess a license that is not restricted by a medical regulatory authority of any jurisdiction of the United States, other nations, or territories.

*f.* The health care professional must be eligible under Section 338B of the Public Health Service Act as amended November 16, 1990, by Public Law 101-597.

g. The health care provider must agree to provide full-time primary health care services at a clinical site in a designated health professional shortage area.

h. The health care provider must agree not to discriminate on the basis of the ability of the individual to pay for such care or on the basis that payment for such care will be made pursuant to the program established in Title XVIII (Medicare) of the Social Security Act, or pursuant to the program established in Title XIX (Medicaid) of such Act.

i. The health care provider must agree to accept assignment under Section 1842(b)(3)(B)(ii) of the Social Security Act for all services for which payment may be made under Part B of Title XVIII and to enter into an appropriate agreement with the state agency that administers the state plan for medical assistance under Title XIX of such Act to provide service to individuals entitled to medical assistance under the plan.

j. The health care provider must complete an application form provided by the Iowa department of public health.

**110.21(2) *Site eligibility.*** The following requirements must be met in order to be eligible for placement of a health professional qualified under the PRIMECARRE loan repayment program:

a. The site must be located in a designated health professional shortage area in the state.

b. The site must agree to accept Medicare/Medicaid assignment.

c. The site must have a sliding fee schedule in place that is based upon the ability to pay.

d. The site must have completed a community health services assessment and adopted a long-term developmental plan.

e. The site must be part of a system of care. For the purpose of receiving federal assistance, a system of care is defined as a service continuum that includes comprehensive primary care for all regardless of ability to pay, and appropriate arrangements for secondary and tertiary care, including a referral system and arrangements for call coverage.

f. The site must complete an application form provided by the department.

g. The site must agree to report to the department those individuals unable to fulfill the contract.

**110.21(3) *Federal grant requirements.*** Use of federal grant dollars for loan repayment contracts requires that eligibility be determined as authorized by federal grant requirements.

**110.21(4) *Funding limitations.*** Loan repayment contracts provided under this program shall be determined annually, based upon the legislative appropriation for the PRIMECARRE initiative and other sources of funds.

**110.21(5) *Other sources of funds.*** The department of public health shall seek participation in federal programs supporting repayment of loans of health care providers and acceptance of gifts, grants, and other aid or amounts from any person, association, foundation, trust, corporation, governmental agency, or other entity for the purposes of the program.

**110.21(6) *Review process.*** The department of public health shall establish a review committee which will review all applications and make recommendations for loan repayment contracts. The department shall provide the review committee with a methodology for prioritization of federal shortage areas and eligible nonfederal shortage areas to be utilized in the application review process. The department shall provide the review committee with the criteria and scoring methodology to be used in reviewing the applications, in accordance with 641—Chapter 176. Evaluation criteria will include the applicant's outstanding educational loans and professional credentials.

**110.21(7) *Contract oversight and administration.*** The department of public health shall establish and enforce the terms of the contract, including implementation of any methods, e.g., legal action, that may be necessary to recoup loan repayment funds in the event of failure on the part of a program recipient to fulfill the terms and conditions of the contract. The department shall take into consideration mitigating circumstances which may prohibit a recipient from fulfilling the recipient's contractual obligation or for whom fulfilling the obligation would cause undue hardship. The department of public health shall also provide for cancellation of contracts for reasonable cause to be determined by the department.

**110.21(8) *Appeals.*** Applicants with a denied request for loan repayment funding may appeal the decision of loan repayment awards. The appeal shall be made in writing to the director, Iowa department of public health, within 10 days of the notification date of the loan repayment awards decision. The appeal

shall be mailed by certified mail, return receipt requested, or delivered by personal service. The decision of the director of public health becomes the department's final action and shall be sent by certified mail, return receipt requested, or delivered by personal service within 14 days of the receipt of the appeal.

These rules are intended to implement Iowa Code section 135.107.

CHAPTER 111  
IOWA NEEDS NURSES NOW INFRASTRUCTURE ACCOUNT

**641—111.1(135) Scope and purpose.** The Iowa needs nurses now infrastructure account is established to award grants for clinical simulators, laboratory facilities, health information technology and other infrastructure to improve the education of nurses and nurse educators in the state and to enhance the clinical experience for nurses. Moneys in the account shall consist of moneys appropriated or allocated for deposit in or received by the fund or the account and specifically dedicated to the Iowa needs nurses now infrastructure account for the purposes of the account. Grants from the account may not be used for the construction of buildings. Grants awarded shall authorize the use of a reasonable portion of the grant moneys for training in the use of the infrastructure purchased with the grant moneys. These rules shall be implemented only to the extent funding is available.

[ARC 9247B, IAB 12/1/10, effective 1/5/11]

**641—111.2(135) Definitions.** For the purposes of these rules, the following definitions shall apply:

“*Department*” means the Iowa department of public health.

“*Iowa Needs Nurses Now Coalition*” means the coalition of nurse, health, education and business leaders who understand that nurses are important to families and communities.

[ARC 9247B, IAB 12/1/10, effective 1/5/11]

**641—111.3(135) Eligibility and criteria.** To be eligible for an Iowa needs nurses now infrastructure grant, an organization shall:

**111.3(1)** Be an educational institution with prelicensure nursing education programs approved by the Iowa board of nursing.

**111.3(2)** Address the long-term sustainability of the infrastructure project to be funded through the grant.

[ARC 9247B, IAB 12/1/10, effective 1/5/11]

**641—111.4(135) Review process.**

**111.4(1)** The department shall follow requirements for competitive selection contained in 641—Chapter 176 in awarding grants pursuant to this chapter.

**111.4(2)** The department shall establish a request for proposal and application process for organizations eligible to receive funding. The review process and review criteria shall be described in the request for proposal.

**111.4(3)** The department shall establish a committee to review proposals and make recommendations to the department. The committee membership may include representation from the following:

- a. Iowa board of nursing;
- b. Iowa Nurses Association;
- c. Iowa Needs Nurses Now Coalition; and
- d. Iowa department of education.

**111.4(4)** The department shall consider financial need of the applying entity as a criterion in determining grant awards.

**111.4(5)** The department shall consider geographic areas where there is limited access to clinical facilities due to geographic location or limited patient census to support eligible students as a criterion in determining grant awards.

**111.4(6)** The department shall consider collaboration between education programs and clinical facilities as a criterion in determining grant awards.

[ARC 9247B, IAB 12/1/10, effective 1/5/11]

**641—111.5(135) Performance standards.** A grantee shall provide clinical experiences for nurses and nurse educators that:

1. Expand the capacity of its nursing program in terms of opportunities for increased learning by the students completing the program.

2. Offer educational opportunities in geographic areas where there is limited access to clinical facilities due to geographic location or limited patient census to support eligible students.

3. Enhance learning opportunities for the students in the nursing program.  
[ARC 9247B, IAB 12/1/10, effective 1/5/11]

**641—111.6(135) Appeals.** An applicant may appeal the denial of a properly submitted grant application. Appeals shall be governed by rule 641—176.8(135,17A).  
[ARC 9247B, IAB 12/1/10, effective 1/5/11]

These rules are intended to implement 2009 Iowa Code Supplement section 135.175(5) as amended by 2010 Iowa Acts, Senate File 2384, section 5.

[Filed ARC 9247B (Notice ARC 9096B, IAB 9/22/10), IAB 12/1/10, effective 1/5/11]

CHAPTER 112  
BIOLOGICAL AGENT RISK ASSESSMENT

**641—112.1(135) Purpose.** The purpose of a statewide biological agent risk assessment is to protect the citizens of Iowa from exposure to biological agents which are or have the potential to be biological weapons. In order to protect the public health, the department is charged with identifying sources, locations, safety and security of select biological agents.

**641—112.2(135) Definitions.** For the purposes of these rules, the following definitions shall apply:

*“Biological agent”* means any microorganism (including bacteria, viruses, fungi, rickettsiae or protozoa), pathogen, or infectious substance, toxin, or any naturally occurring, bioengineered or synthesized component of any such microorganism, pathogen or infectious substance, whatever its origin or method of production.

*“Biosecurity council”* or *“council”* means a council established by the director to advise the department on biosecurity issues and to recommend guidelines to protect the citizens of Iowa from exposure to select biological agents.

*“CDC”* means the Centers for Disease Control and Prevention.

*“Department”* means the Iowa department of public health.

*“Director”* means the director of the Iowa department of public health.

*“DOJ”* means the federal Department of Justice.

*“EMD”* means the emergency management division of the department of public defense.

*“FBI”* means Federal Bureau of Investigation.

*“HHS”* means the federal Department of Health and Human Services.

*“Laboratory”* means a facility for the examination of biological, microbiological, serological, chemical, immunohematological, hematological, biophysical, cytological or pathological materials or other materials derived from humans, animals, or plants to provide information for the diagnosis, prevention or treatment of any disease or impairment of, or for the assessment of the health of, humans, animals, or plants.

*“Lethality”* or *“L”* means the relative power and degree of pathogenicity possessed by organisms to produce disease.

*“Select biological agent”* means a biological agent identified by the director, upon recommendation from the biosecurity council, for heightened monitoring and security, including but not limited to any biological agent that is listed as a Category A, B, or C biological agent by the Centers for Disease Control and Prevention, any agent identified as a select agent in the Code of Federal Regulations, Title 42, Part 72, Appendix A, and any biological agent identified by the United States Army Medical Research Institute of Infectious Diseases as appropriate for a heightened level of monitoring and security.

*“Suitability”* or *“S”* means suitability for weaponization.

*“Transmissibility”* or *“T”* means degree of contagion.

*“USAMRIID”* means the United States Army Medical Research Institute of Infectious Diseases.

*“Weaponization”* means manipulation of a biological agent to increase the potential for use as a weapon.

**641—112.3(135) Biosecurity council established.** The director shall appoint a biosecurity council to advise the department on biosecurity issues and to recommend guidelines to protect the citizens of Iowa from exposure to select biological agents.

**112.3(1)** The council shall, at a minimum, consist of the following members:

- a. The director of the department of public health;
- b. The governor’s homeland security advisor;
- c. The director of the University of Iowa Hygienic Laboratory;
- d. A representative from the FBI as made available by the director of the FBI or a representative of the U.S. Secret Service as made available by the director of the U.S. Secret Service;
- e. A representative appointed by the Iowa adjutant general;

- f.* A representative from the Iowa attorney general's office;
- g.* The medical director of the department of public health;
- h.* The executive director of the office of disease epidemiology and disaster preparedness, department of public health;
- i.* A microbiologist at the master's or doctorate level who has expertise in human microbiology;
- j.* A microbiologist at the master's or doctorate level who has expertise in zoonosis;
- k.* A biological safety professional; and
- l.* The emergency management division administrator.

**112.3(2)** The council shall make recommendations to the department on classification of select biological agents, select biological agent risk assessment guidelines, and security guidelines.

**112.3(3)** Security guidelines shall be consistent with applicable state and federal laws, including but not limited to specific antiterrorism regulations of HHS and DOJ.

**641—112.4(135) Biological agent risk assessment.**

**112.4(1) Questionnaire.**

*a. Duty to complete and submit.* Any laboratory, clinic, research facility, commercial enterprise, or other entity which possesses select biological agents shall complete and submit to EMD a biological agent risk assessment questionnaire on an annual basis or more frequently as requested by EMD. The questionnaire shall identify the select biological agents possessed and shall contain such other information as required by the department and EMD.

*b. Purpose and use.* The questionnaires shall be used in the development of the critical asset protection plan prepared pursuant to Iowa Code section 29C.8. EMD shall provide the department with the completed questionnaires for the purpose of preparing relevant security guidelines. The department shall not disseminate the information contained in the questionnaires.

**112.4(2) Assessment criteria.** The criteria for assessing the risk of a select biological agent shall be based on, but not limited to, current CDC guidelines, recommendations from USAMRIID, recommendations from the biosecurity council, and this subrule. The biosecurity council may modify the criteria based on new scientific information, treatments, or public perceptions, or any combination thereof.

*a. Biological agent rating criteria.* Biological agents shall be rated by the department based on the following three categories:

- (1) Transmissibility (T). 0 = nontransmissible, 1 = transmissible only by injection, sexual interface or bite, 2 = transmissible by ingestion, 3 = transmissible by air or touch.
- (2) Lethality (L). 0 = nonlethal, 1 = 0-25 percent mortality, 2 = 26-50 percent mortality, 3 = 51-100 percent mortality.
- (3) Suitability for or degree of weaponization (S). 0 = not suitable, 1 = suitable but not modified, 2 = modified for antibiotic resistance or improved environmental resilience, 3 = modified and packaged for effective delivery on a mass scale.

*b.* The final rating for a biological agent is determined by adding the score the biological agent received in each of the three categories (T + L + S = biological agent rating).

**112.4(3) On-site examination.**

*a. Notification.* The department or its designee may conduct an on-site examination of any premises containing select biological agents. Prior to conducting the on-site examination, the department shall notify the owner or person in charge of the premises.

- b. Examination.* An on-site examination shall include each of the following components:
- (1) A review of laboratory safety and security policies and procedures;
  - (2) A review of external and internal access to the premises;
  - (3) A review of access controls to areas where select biological agents are used and stored;
  - (4) A review of employee, student and visitor access to the premises, including the identification required to access the premises and the method of recording access to the premises;
  - (5) A review of background and security clearance measures implemented;
  - (6) A review of the screening process for packages brought into or taken out of the premises;

- (7) A review of the emergency plan;
- (8) A review of appropriate biocontainment within a laboratory;
- (9) A review of the training and knowledge of research staff;
- (10) A review of the process for reporting and investigating breach-of-security incidents;
- (11) A review of disposal procedures; and
- (12) A tour of the premises to view access security, select biological agent locations, storage, inventory, records, coding and database procedures.

*c. Administrative search warrant.* If the owner or person in charge of the premises refuses the department's employee or designee admittance or if the department's employee or designee is not permitted to conduct a full examination, the department may obtain an administrative search warrant under Iowa Code section 808.14.

**112.4(4) Security guidelines.** After a biological agent risk assessment questionnaire has been completed and the on-site examination has been conducted, the department shall provide the entity with a biological agent risk assessment report and security guidelines. A select biological agent which is listed as a CDC Category A biological agent or as determined by the biosecurity council shall be maintained in accordance with maximum security guidelines as established by the biosecurity council and the director.

**112.4(5) Confidentiality.** The biological agent risk assessment questionnaire, the biological agent risk report and security guidelines, and any other information if it relates to the imminent threat of death, disease, biological malfunction in a human, animal, plant or other living thing, deterioration of food, water, equipment, supplies, or a deleterious alteration of the environment provided to or by EMD or the department pursuant to this chapter may be considered critical asset protection plan information and may be maintained as confidential pursuant to Iowa Code section 22.7(43).

**641—112.5(135) Requests for biological agent information.** A laboratory, clinic, research facility, commercial enterprise, or other entity which possesses select biological agents shall respond to written requests from the department regarding the presence, location, and security of biological agents within 30 days of the request. In the event of a disaster emergency, a laboratory, clinic, research facility, commercial enterprise, or other entity which possesses select biological agents shall immediately respond to a request from the department or its designee regarding the presence, location, and security of biological agents.

**641—112.6(135) Exceptions.**

**112.6(1)** The requirements of this chapter are not applicable to hospital laboratories which possess select biological agents solely as a result of a patient culture provided that the culture is destroyed within 14 days after referral to and confirmation by the University of Iowa Hygienic Laboratory or other laboratory approved by the council.

**112.6(2)** The requirements of this chapter are not applicable to a person who detects a biological agent in a clinical or environmental sample for the purpose of diagnosing disease, epidemiological surveillance, exposure assessment, reference, verification or proficiency testing, and who discards the agent within 14 calendar days. If a biological agent is kept for more than 14 calendar days, the laboratory shall provide written notice to the department identifying the agent and reason for continued or extended possession.

These rules are intended to implement Iowa Code Supplement section 135.11(28).

[Filed 7/18/02, Notice 5/29/02—published 8/7/02, effective 9/11/02]

CHAPTER 113  
PUBLIC HEALTH RESPONSE TEAMS

**641—113.1(135) Definitions.** For purposes of this chapter, the following definitions shall apply:

*“Defend”* means that the office of the Iowa attorney general shall provide a public health response team member with legal representation at no cost to the public health response team member.

*“Department”* means the Iowa department of public health.

*“Director”* means the director of the Iowa department of public health.

*“Disaster medical assistance team”* or *“DMAT”* means a public health response team that is sponsored by the department or a sponsor agency, and approved by the department, to provide medical assistance in the event of a disaster or threatened disaster or other incident as defined in Iowa Code section 135.143.

*“Environmental health response team”* or *“EHRT”* means a public health response team that is sponsored by the department or a sponsor agency, and approved by the department, to provide environmental health expertise and assistance in the event of a disaster or threatened disaster or other incident defined in Iowa Code section 135.143.

*“Indemnify”* means that the state of Iowa shall pay all sums that a public health response team member is legally obligated to pay as damages because of any claim made against the public health response team member which arises out of the provision of direct medical care or other support services rendered or which should have been rendered during a disaster, threatened disaster, or other incident defined in Iowa Code section 135.143, or arising out of a training exercise to prepare for a disaster or other incident defined in Iowa Code section 135.143.

*“Iowa mortuary operational response team”* or *“IMORT”* means a public health response team that is sponsored by the department or a sponsor agency, and approved by the department, to provide decedent care in the event of a mass fatality disaster or threatened disaster or other incident defined in Iowa Code section 135.143.

*“Logistical support response team”* or *“LSRT”* means a public health response team that is sponsored by the department or a sponsor agency, and approved by the department, to provide logistical support and assistance in the event of a disaster or threatened disaster or other incident defined in Iowa Code section 135.143.

*“Public health response team”* or *“PHRT”* means a team of professionals, including licensed health care providers, nonmedical professionals skilled and trained in disaster or emergency response, and public health practitioners, that is sponsored by the department or a sponsor agency, a hospital or other entity, and approved by the department, to provide assistance in the event of a disaster or threatened disaster or other incident defined in Iowa Code section 135.143. “Public health response team” shall include a disaster medical assistance team, an environmental health response team, a logistical support response team, the Iowa mortuary operational response team and other teams established and approved upon written order of the director to supplement and support disrupted or overburdened local medical and public health personnel, hospitals, and resources.

*“Public health response team member”* or *“PHRT member”* means an individual who has registered with the department and has received approval from the department to serve on a public health response team.

*“Sponsor agreement”* means a signed agreement between a sponsor agency and the department which defines the terms and conditions under which the agency shall sponsor a public health response team.

[ARC 0578C, IAB 2/6/13, effective 3/13/13; ARC 2476C, IAB 3/30/16, effective 5/5/16]

**641—113.2(135) Purpose.**

**113.2(1)** The department, through the division of acute disease prevention, emergency response and environmental health, bureau of emergency and trauma services, shall establish, register, and approve public health response teams to supplement and support disrupted or overburdened local medical and public health personnel, hospitals, and resources in the event of a disaster or threatened disaster or

other incident as defined in Iowa Code section 135.143. The primary purpose of the public health response teams is to respond to Iowa incidents and to provide support for Iowa medical and public health personnel, hospitals, and resources. A public health response team may also be requested to respond to an out-of-state disaster or emergency pursuant to the emergency management assistance compact at Iowa Code section 29C.21.

**113.2(2)** PHRTs shall be established, registered and approved pursuant to this chapter. Additional PHRTs may be established, registered and approved as necessary upon written order of the director. [ARC 0578C, IAB 2/6/13, effective 3/13/13; ARC 2476C, IAB 3/30/16, effective 5/5/16]

#### **641—113.3(135) Sponsor agency.**

**113.3(1)** *Sponsor agency approval.* A hospital or other entity may apply to the department to be a sponsor agency of a public health response team. The applicant shall apply on a form approved by the department and shall provide all information requested by the department. The department may approve an application when the department is satisfied that the sponsor agency will operate the PHRT in compliance with Iowa Code section 135.143 and this chapter. Upon approval of the application, the department and the sponsor agency shall execute a sponsor agreement which shall provide that the agency is registered with the department and has been approved to sponsor a public health response team. The sponsor agreement shall also include the effective date of the approval and the terms and conditions of approval.

**113.3(2)** *Sponsor agency denial and revocation.* The department may deny approval to an applicant sponsor agency or may revoke a sponsor agency's approval if the department determines that the sponsor agency has violated or failed to comply with Iowa Code section 135.143 or this chapter, any term or condition contained in the sponsor agreement, any operational procedure, or state or federal law. The department shall notify the applicant or sponsor agency of the department's decision in writing by certified mail, return receipt requested. In the event an applicant or a sponsor agency is dissatisfied with the department's decision, the applicant or sponsor agency may submit a request for reconsideration with the division director. Such request shall be delivered by certified mail, return receipt requested, within 20 days of the date of the denial or revocation notification, to Division Director, Division of Acute Disease Prevention and Emergency Response, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319. The division director shall review the matter and issue a written decision within 20 days of receipt of the request. The division director's decision shall be final agency action. This appeal process does not constitute a contested case proceeding as defined in Iowa Code chapter 17A.

#### **641—113.4(135) Public health response team members.**

**113.4(1)** *Registration and approval.* An individual may apply to the department to be a public health response team member. The applicant shall apply on the Iowa statewide registry of volunteers (iSERV) Web site or on a form approved by the department and shall provide all requested information. The department shall register and approve an individual to serve as a PHRT member when the department is satisfied that the individual satisfies the requirements of this chapter and will perform on a PHRT in compliance with Iowa Code section 135.143 and this chapter. Upon registration and approval of an individual, the department shall provide the individual with written notification that the individual is registered with the department and has been approved to serve on a public health response team. The written notification shall also include the effective date of the approval and the terms and conditions of approval.

**113.4(2)** *Denial and revocation.* The department may deny approval to an individual or may revoke an individual's approval if the department determines that the individual has violated or failed to comply with Iowa Code section 135.143 or this chapter, any term or condition contained in the written approval notification from the department, any operational procedure, or state or federal law, or has exposed or may expose the state to undue risk. The department shall notify the individual of the department's decision in writing by certified mail, return receipt requested. In the event an individual is dissatisfied with the department's decision, the individual may submit a request for reconsideration with the division

director. Such request shall be delivered by certified mail, return receipt requested, within 20 days of the date of the denial or revocation notification, to Division Director, Division of Acute Disease Prevention and Emergency Response, Lucas State Office Building, 321 E. 12th Street, Des Moines Iowa 50319. The division director shall review the matter and issue a written decision within 20 days of receipt of the request. The division director's decision shall be final agency action. This appeal process does not constitute a contested case proceeding as defined in Iowa Code chapter 17A.

**113.4(3) *Effect of revocation.*** If the department revokes a public health response team member's approval, the action may preclude future eligibility, but shall not negate defense and indemnification coverage or other protection for covered acts or omissions which occurred during the effective date of approval.

[ARC 2476C, IAB 3/30/16, effective 5/5/16]

#### **641—113.5(135) Public health response team.**

##### **113.5(1) *General requirements.***

*a.* An entity may make application to the department to be a sponsor agency pursuant to subrule 113.3(1). An individual may make application to be a member of a PHRT pursuant to subrule 113.4(1).

*b.* The department shall establish the Iowa Volunteer Public Health Response Team Operational Procedures Manual. The operational procedures shall be in writing and shall be provided to each PHRT member. All PHRT members and sponsor agencies shall follow the PHRT operational procedures as established by the department. The Iowa Volunteer Public Health Response Team Operational Procedures Manual is available through the Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

*c.* If the department notifies a PHRT member or sponsor agency of a violation of Iowa Code section 135.143, this chapter, or an operational procedure, the PHRT member or sponsor agency shall correct the deficiency or violation identified by the department within a time frame determined by the department. If a PHRT member or sponsor agency fails to correct a deficiency or violation within the time frame identified by the department, or if the deficiency or violation constitutes an immediate danger to the public health, safety, or welfare, the department may initiate action to revoke approval pursuant to subrule 113.3(2) or 113.4(2).

##### **113.5(2) *Team composition.***

*a.* A PHRT shall be comprised of health care professionals and administrative personnel as identified in the Iowa Volunteer Public Health Response Team Operational Procedures Manual.

*b.* The sponsor agency or department, as applicable, shall be responsible for maintaining adequate staffing.

##### **113.5(3) *Licensure and educational requirements.***

*a.* Each PHRT member shall hold and maintain an active unrestricted license, registration, or certification to practice in Iowa (if applicable) in the member's respective medical or health care profession.

*b.* Each PHRT member shall complete required training as listed in the Iowa Volunteer Public Health Response Team Operational Procedures Manual, including training specified in respective team annexes.

*c.* A sponsor agency may provide specific position training to PHRT members as determined to be necessary by the sponsor agency and as approved by the department.

*d.* The department shall develop and implement training exercises to test the team's notification process, deployment readiness, and response capabilities.

*e.* The sponsor agency or department, as applicable, shall be responsible for documenting each PHRT member's completion of required training.

##### **113.5(4) *Deployment and standdown.***

*a.* PHRTs shall prepare to deploy within two to four hours of notification by the department. PHRTs shall not self-deploy and shall not be covered by the provisions of Iowa Code section 135.143 and this chapter if the PHRTs self-deploy or are deployed by another agency or entity.

*b.* Deployment and standdown procedures are outlined in the Iowa Volunteer Public Health Response Team Operational Procedures Manual and shall be followed by all PHRT members.  
[ARC 0578C, IAB 2/6/13, effective 3/13/13; ARC 2476C, IAB 3/30/16, effective 5/5/16]

**641—113.6(135) Legal and other protections.** A public health response team member acting pursuant to Iowa Code section 135.143 and this chapter shall be considered an employee of the state under Iowa Code section 29C.21 and chapter 669, shall be afforded protection as an employee of the state under Iowa Code section 669.21 whom the state shall defend and indemnify, and shall be considered an employee of the state for purposes of workers' compensation, disability, and death benefits, provided that the member has done all of the following:

1. Registered with and received approval from the department pursuant to subrule 113.4(1) to serve on a public health response team.

2. Provided direct medical care or other support services during a disaster, threatened disaster, or other incident described in Iowa Code section 135.143(1); or participated in a training exercise to prepare for a disaster or other incident described in Iowa Code section 135.143(1).

[ARC 0578C, IAB 2/6/13, effective 3/13/13]

**641—113.7(135) Reporting requirements and duties.**

**113.7(1)** Upon obtaining knowledge or becoming aware of any injury allegedly arising out of the negligent rendering of, or the negligent failure to render, medical or other services as a public health response team member, the member shall provide written notice to the department, as soon as practicable, containing to the extent obtainable the circumstance of the alleged injury, the name and address of the injured, and any other relevant information.

**113.7(2)** Upon obtaining knowledge or becoming aware of any injury as defined in subrule 113.7(1), a public health response team member shall promptly take all reasonable steps to prevent further or additional injury from the same or similar circumstances, situations, or conditions.

**113.7(3)** A public health response team member shall immediately notify the Iowa Department of Justice, Special Litigation Division, Hoover State Office Building, Des Moines, Iowa 50319, of service or receipt of an original petition, suit, or claim seeking damage from the public health response team member related to participation on a public health response team.

**113.7(4)** Each public health response team member shall fully cooperate with the state in the defense of any claim or suit related to participation on a public health response team, including attending hearings, depositions, and trials and assisting in securing and giving evidence, responding to discovery and ensuring the attendance of witnesses.

**113.7(5)** Each public health response team member shall accept financial responsibility for personal expenses and costs incurred in the defense of any claim or suit related to participation on a public health response team, including travel, meals, and compensation for time and lost practice.

[ARC 0578C, IAB 2/6/13, effective 3/13/13; ARC 2476C, IAB 3/30/16, effective 5/5/16]

These rules are intended to implement Iowa Code section 135.143.

[Filed 1/10/07, Notice 11/22/06—published 1/31/07, effective 3/7/07]

[Filed ARC 0578C (Notice ARC 0474C, IAB 11/28/12), IAB 2/6/13, effective 3/13/13]

[Filed ARC 2476C (Notice ARC 2367C, IAB 1/20/16), IAB 3/30/16, effective 5/5/16]

CHAPTER 114  
PREPAREDNESS ADVISORY COMMITTEE

**641—114.1(135) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Chairperson*” means the chairperson of the preparedness advisory committee, who has been elected by a majority of advisory committee members.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*PAC*” means the preparedness advisory committee.

[ARC 2564C, IAB 6/8/16, effective 7/13/16]

**641—114.2(135) Purpose.** The preparedness advisory committee (PAC) shall provide technical assistance and make recommendations for the planning and implementation of the public health emergency preparedness and hospital preparedness programs for the department. The committee shall advise the department on matters of policy, plan development, funding allocations, and coordination of state, regional and local entities that are responsible for promoting and protecting the health and safety of all Iowans prior to, during, or after a public health emergency or disaster.

[ARC 2564C, IAB 6/8/16, effective 7/13/16]

**641—114.3(135) Appointment and membership.**

**114.3(1)** The voting members of the PAC shall be appointed by the director.

**114.3(2)** The appointments shall be for three-year staggered terms, which shall expire on June 30.

**114.3(3)** Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**114.3(4) Membership.** The voting membership of the PAC shall be comprised of individuals nominated from, but not limited to, the following organizations:

- a. American Red Cross.
- b. Indian Health Services.
- c. Upper Midwest Preparedness and Emergency Response Learning Center.
- d. Three representatives identified by the Iowa Counties Public Health Association representing one small, one midsized, and one large public health agency.
- e. Two representatives identified by the Iowa Environmental Health Association.
- f. Iowa Emergency Management Association.
- g. Iowa Emergency Medical Services Association.
- h. Six representatives identified by the Iowa Hospital Association representing two rural, two regional, and two urban hospitals.
- i. Iowa Medical Society.
- j. Iowa Primary Care Association.
- k. Iowa Nurses Association.
- l. Iowa Osteopathic Medical Association.
- m. Iowa Pharmacy Association.
- n. Iowa Poison Control Center.
- o. Three representatives identified by the Iowa Public Health Association representing one small, one midsized, and one large public health agency.
- p. Iowa National Guard.
- q. State hygienic laboratory.
- r. Veterans Health Administration.
- s. Safeguard Iowa Partnership.
- t. School Administrators of Iowa.
- u. A mental health association.
- v. American Academy of Pediatrics.

**114.3(5)** The PAC may also include, as nonvoting members, representation from the following agencies:

- a. The Iowa department of public health.
- b. The Iowa department of human services.
- c. The Iowa homeland security and emergency management department.
- d. The Iowa department of natural resources.
- e. The Iowa department of agriculture and land stewardship.
- f. The Iowa department on aging.
- g. The Iowa department of education.

**114.3(6) Absences.**

- a. Three unexcused absences in a 12-month period shall be grounds for the director to request nomination of an alternate representative to fill the position.
- b. Absences may be excused by notification provided to the chairperson prior to the meeting.
- c. The chairperson of the PAC shall be charged with providing notification of absences to the department.

[ARC 2564C, IAB 6/8/16, effective 7/13/16]

**641—114.4(135) Officers.**

**114.4(1)** Officers of the PAC shall consist of a chairperson and a vice chairperson, who shall be elected at the first meeting of each fiscal year.

- a. Officers may serve no more than three consecutive terms as chairperson or vice chairperson.
- b. Vacancies in the office of chairperson shall be filled by elevation of the vice chairperson.
- c. Vacancies in the office of vice chairperson shall be filled by election at the next meeting after the vacancy occurs.

**114.4(2) Duties of officers.**

- a. The chairperson shall:
  - (1) Preside at all meetings of the PAC,
  - (2) Appoint such subcommittees as deemed necessary, and
  - (3) Designate the chairperson of each subcommittee.
- b. The vice chairperson shall:
  - (1) Perform the duties of the chairperson if the chairperson is absent or unable to act. When so acting, the vice chairperson shall have all the powers of and be subject to all restrictions upon the chairperson.
  - (2) Perform such other duties as may be assigned by the chairperson.

[ARC 2564C, IAB 6/8/16, effective 7/13/16]

**641—114.5(135) Meetings.**

**114.5(1)** The PAC shall establish a meeting schedule on an annual basis to conduct its business. There shall be a minimum of four meetings per year.

- a. Meetings may be scheduled as business requires, but notice to members must be given at least five working days prior to the meeting date unless action is required by the PAC on an emergency basis.
- b. Notice given four weeks in advance is encouraged to accommodate the schedules of professional members.

**114.5(2)** Any PAC member who is unable to attend the meeting will notify the chairperson.

**114.5(3)** A majority of appointed members constitutes a quorum.

**114.5(4)** When a quorum is present, a position is carried by affirmative vote of the majority of those present. No official business that requires a vote of the membership shall be conducted without a quorum present.

**114.5(5)** Persons wishing to make a presentation to the PAC shall submit the request to the chairperson not less than 14 days prior to the meeting. Presentations may be made at the discretion of the chairperson.

**114.5(6)** Persons wishing to submit written materials should do so at least 14 days in advance of the scheduled meeting to ensure that PAC members have adequate time to receive and evaluate the materials.

**114.5(7)** The PAC may conduct meetings by electronic means pursuant to Iowa Code section 21.8.

[ARC 2564C, IAB 6/8/16, effective 7/13/16]

**641—114.6(135) Subcommittees.** The PAC may designate one or more subcommittees to perform such duties as may be deemed necessary.

[ARC 2564C, IAB 6/8/16, effective 7/13/16]

**641—114.7(135) Expenses of preparedness advisory committee voting members.** The following may be considered necessary expenses for reimbursement of PAC members when incurred on behalf of advisory committee business and are subject to established state reimbursement rates:

1. Reimbursement for travel in a private car.
2. Actual lodging and meal expenses, including sales tax on lodging and meals.
3. Actual expense of public transportation.

[ARC 2564C, IAB 6/8/16, effective 7/13/16]

**641—114.8(135) Committee composition.** The committee's composition shall be developed and maintained pursuant to Iowa Code chapter 69.

[ARC 2564C, IAB 6/8/16, effective 7/13/16]

These rules are intended to implement Iowa Code chapter 135.

[Filed 7/10/08, Notice 5/21/08—published 7/30/08, effective 9/3/08]

CHAPTER 122  
ANATOMICAL GIFT PUBLIC AWARENESS AND TRANSPLANTATION FUND

**641—122.1(142C) Scope and purpose.** The anatomical gift public awareness and transplantation fund was established by the legislature as a separate fund consisting of monetary contributions collected by county treasurers during the vehicle registration process and other contributions to the fund. Not more than 20 percent of the moneys in the fund annually may be expended in the form of grants to state agencies or to nonprofit legal entities. Not more than 30 percent of the moneys in the fund annually may be expended in the form of grants to hospitals for reimbursement for costs directly related to the development of in-hospital anatomical gift public awareness projects, anatomical gift referral protocols, and associated administrative expenses. Any unobligated moneys in the fund annually may be expended in the form of grants to transplant recipients, transplant candidates, living organ donors, or to legal representatives on behalf of transplant recipients, transplant candidates, or living organ donors for the reimbursement of out-of-pocket expenses not covered by insurance. These rules shall be implemented only to the extent that funding is available.

[ARC 2766C, IAB 10/12/16, effective 11/16/16]

**641—122.2(142C) Definitions.** For purposes of this chapter, the following definitions apply:

“*Anatomical gift*” means a human organ donated by a living or deceased person for the purpose of transplantation.

“*Caretaker*” means a person who provides care, protection, or services to a transplant recipient or living organ donor.

“*Department*” means the Iowa department of public health.

“*Donor*” means an individual whose body or body part is the subject of an anatomical gift.

“*Human organ*” means an eye, heart, lung, liver, pancreas, kidney, cornea, bone, tendon, heart valve, blood vessel, vein, or skin.

“*Recipient*” means the person receiving a human organ via transplant surgery.

“*Resident*” means a natural person who physically resides in Iowa as the person’s principal and primary residence and who establishes evidence of such residency by providing the department with one of the following:

1. A valid Iowa driver’s license,
2. A valid Iowa nonoperator’s identification card,
3. A valid Iowa voter registration card,
4. A current Iowa vehicle registration certificate,
5. A utility bill,
6. A statement from a financial institution,
7. A residential lease agreement,
8. A check or pay stub from an employer,
9. A child’s school or child care enrollment documents,
10. Valid documentation establishing a filing for homestead or military tax exemption on property located in Iowa, or
11. Other valid documentation as deemed acceptable by the department to establish residency.

“*Transplantation*” means surgically moving a human organ from an organ donor to a recipient.

“*Transplant social worker*” means the hospital social worker assisting the organ donor or recipient.

[ARC 2766C, IAB 10/12/16, effective 11/16/16]

**641—122.3(142C) State agencies or nonprofit legal entities.** Funding is available for state of Iowa agencies or nonprofit legal entities to conduct anatomical gift public awareness projects.

**122.3(1) Eligibility criteria.** To be eligible for a grant, the applicant shall be a state agency or nonprofit legal entity which, through a competitive bid process, submits a plan for an anatomical gift public awareness project.

**122.3(2) Amount of grant.** The department may offer a grant opportunity to state agencies and nonprofit entities through a competitive bid process. The total amount of grant funds awarded to an

applicant shall be based on the number of applicants and the availability of funds. Awarded grant funds will be made payable to the applicant.

**122.3(3) Review process.**

*a.* An applicant shall make an application to the program in the manner specified by the department. The department shall follow the requirements for competitive selection contained in 641—Chapter 176 in awarding these funds.

*b.* The department shall establish a request for bids and application process for applicants eligible to receive funding. The application review process and review criteria for preference in awarding the grants shall be described in the request for bids.

*c.* An applicant may appeal the denial of a properly submitted grant application. Appeals shall be governed by rule 641—176.8(135,17A).

[ARC 2766C, IAB 10/12/16, effective 11/16/16]

**641—122.4(142C) Hospitals.** Funding is available to hospitals for reimbursement for costs directly related to the development of in-hospital anatomical gift public awareness projects, anatomical gift referral protocols, and associated administrative expenses.

**122.4(1) Eligibility criteria.** To be eligible for a grant, the applicant shall be a hospital physically located in Iowa which, through a competitive bid process, submits a plan for an anatomical gift public awareness project or an implementation or improvement of referral protocol.

**122.4(2) Amount of grant.** The department may offer a grant opportunity to Iowa hospitals through a competitive bid process. The total amount of grant funds awarded to an applicant shall be based on the number of applicants and the availability of funds. Awarded grant funds will be made payable to the applicant.

**122.4(3) Review process.**

*a.* An applicant shall make an application to the program in the manner specified by the department. The department shall follow the requirements for competitive selection contained in 641—Chapter 176 in awarding these funds.

*b.* The department shall establish a request for bids and application process for applicants eligible to receive funding. The application review process and review criteria for preference in awarding the grants shall be described in the request for bids.

*c.* An applicant may appeal the denial of a properly submitted grant application. Appeals shall be governed by rule 641—176.8(135,17A).

[ARC 2766C, IAB 10/12/16, effective 11/16/16]

**641—122.5(142C) Transplant recipients and donors.** Funding is available to transplant recipients, donors, and a single caretaker for the reimbursement of out-of-pocket expenses not covered by insurance.

**122.5(1) Eligibility criteria.** To be eligible for a grant, an applicant (or the applicant's legal representative) must be a U.S. citizen and a resident of the state of Iowa or be a living organ donor to a resident of Iowa who:

*a.* Has undergone a transplant surgery, or

*b.* Is in need of dental clearance in order to be placed on a transplant list as maintained by the United Network for Organ Sharing (UNOS), or

*c.* Has been tested as a potential donor and been rejected.

**122.5(2) Grant application.** The department shall make the grant application form available on the department's Web site. Awards shall be made on a reimbursement basis to Iowa resident donors and donor recipients. The total amount of grant funds awarded to an applicant shall be based on the number of applicants and the availability of funds. Awarded grant funds will be made payable to the applicant.

**122.5(3) Application process.**

*a.* The applicant shall complete the application, as provided by the department, in its entirety and forward the application to the applicant's transplant social worker for review, comment and approval.

*b.* The transplant social worker shall review the information and documentation provided by the applicant and attest to their accuracy.

c. The completed application shall be mailed to the address provided on the application. Applications that are incomplete or illegible shall be returned via U.S. mail to the applicant or to the attention of transplant social workers for completion. Original receipts shall be submitted with the application.

d. Grant application documentation shall be retained by the applicant and the transplant social workers for a minimum of five years.

**122.5(4) Eligible expenses.** The department may reimburse applicants for the following expenses. A more comprehensive list of items eligible for reimbursement is located in the Guidelines - Category 3 document at <http://idph.iowa.gov/anatomical-gift>.

a. Dental expenses required for placement of the recipient on a transplant list and expenses directly related to the transplant, to include:

- (1) Initial routine exam.
- (2) Complete cleaning.
- (3) Full mouth X-rays.
- (4) Up to \$1,500 of remaining expenses.

b. Prescription medication (maximum of \$2,000).

c. Lodging (rate determined by the department).

d. Airfare (coach) for donor and caretaker for a maximum of two people at a rate determined by the department.

e. Expenses immediately preceding and immediately following transplant surgery until the recipient and living organ donor are medically released by the hospital.

f. Disposable, short-term cleaning and daily life items, such as paper towels, paper plates, tin foil, toilet paper, etc.

g. Rehospitalization.

h. Mileage at current rate of state reimbursement.

i. Child care when both parents undergo surgery related to a single organ transplant.

**122.5(5) Ineligible expenses.** The department may not reimburse for the following.

a. Lost wages.

b. Alcohol or nonfood items, such as gum, breath mints, candy, etc.

c. Delivery fees and charges, Internet access, or garage rental.

d. In-domicile meals, food, or lodging.

e. Medication not directly associated with the transplant or medication taken prior to the transplant.

f. Medication and supplies available over the counter, such as blood pressure cuffs, gauze, bandages, scales, support hose, etc.

g. Credit card fees, check processing fees, and nonrefundable security deposits.

h. Lodging and meals for visitors.

i. Dentures.

j. Nondisposable or long-term cleaning and daily life expenses, such as vacuum, broom, towels, bedding, etc.

k. Personal items, such as shampoo, lotion, toothbrush, toothpaste, personal hygiene items, or clothing, etc.

l. Labels, stamps, envelopes, notebooks, etc.

m. Follow-up visit meals, lodging, etc.

n. Expenses covered by primary, secondary, or tertiary insurance.

**122.5(6) Review process.**

a. The department shall review grant applications and supporting documentation on a first-come, first-served basis.

b. Grant reimbursement limits and eligibility shall be determined by the department.

*c.* Grant applications and payments are not considered public records pursuant to Iowa Code section 22.7(2).

These rules are intended to implement Iowa Code section 142C.15.

CHAPTER 124  
INTERAGENCY COORDINATING COUNCIL  
FOR THE STATE MEDICAL EXAMINER

**641—124.1(691) Purpose.** The purpose of the interagency coordinating council for the state medical examiner is to provide a venue for the effective coordination of the functions and operations of the office of the state medical examiner with the needs and interests of the department of public safety and the department of public health, with input and guidance from the governor's office.

**641—124.2(691) Membership.** Members shall include the chief state medical examiner or, when the state medical examiner is not available, the deputy state medical examiner, the commissioner of public safety or the commissioner's designee, the director of public health or the director's designee, and the governor or the governor's designee.

**641—124.3(691) Meetings.**

**124.3(1)** The interagency coordinating council shall schedule two meetings per year to be held at the office of the director of public health.

**124.3(2)** Meetings may be scheduled more frequently or less frequently depending upon the circumstances and the need for consultation.

**124.3(3)** Meetings may be canceled by any member with the agreement of the other members.

**124.3(4)** All meetings are open to the public in accordance with the open meetings law, Iowa Code chapter 21.

[ARC 8229B, IAB 10/7/09, effective 11/11/09]

**641—124.4(691) Duties.** The interagency coordinating council shall perform the following duties:

**124.4(1)** Provide a venue to coordinate the functions and operations of the office of the state medical examiner with the department of public safety and the department of public health in order to better serve the needs of the citizens of Iowa.

**124.4(2)** Provide to and receive from the governor's office updated information relevant to the mission of the state medical examiner's office.

**124.4(3)** Discuss legislative and budgetary decisions that may impact the functions and operations of one, two, or all three agencies represented by the interagency coordinating council.

**641—124.5(691) Minutes.** The office of the state medical examiner shall keep minutes of all meetings showing the date, time, place, members present, and the general topics presented.

**124.5(1)** The minutes shall be provided to the members of the interagency coordinating council prior to the next scheduled meeting.

**124.5(2)** The minutes shall be available at the office of the state medical examiner for public inspection Monday through Friday from 8:30 a.m. to 4:30 p.m.

These rules are intended to implement Iowa Code section 691.6B.

[Filed 1/10/08, Notice 11/21/07—published 1/30/08, effective 3/5/08]

[Filed ARC 8229B (Notice ARC 7968B, IAB 7/15/09), IAB 10/7/09, effective 11/11/09]

CHAPTER 125  
ADVISORY COUNCIL FOR THE STATE MEDICAL EXAMINER

**641—125.1(691) Purpose.** The purposes of the advisory council for the state medical examiner are to provide guidance concerning medicolegal death investigation for the state of Iowa, facilitate optimal relationships between the state and county medical examiners and other agencies involved in death investigation, and provide a venue for the exchange of information vital to the continued operations of the Iowa office of the state medical examiner.

**641—125.2(691) Membership.** Members shall include representatives from agencies and organizations that are directly involved with the office of the state medical examiner and medicolegal death investigation in the state of Iowa.

**125.2(1)** The advisory council shall include but not be limited to a representative from the following agencies:

- a.* The office of the attorney general;
- b.* The Iowa County Attorneys Association;
- c.* The Iowa Medical Society;
- d.* The Iowa Association of Pathologists;
- e.* The Iowa Association of County Medical Examiners;
- f.* The department of public safety;
- g.* The department of public health;
- h.* The Iowa Emergency Medical Services Association;
- i.* The Iowa Funeral Directors Association;
- j.* The University of Iowa department of pathology;
- k.* The state public defender's office; and
- l.* The office of the state medical examiner.

**125.2(2)** Each specific organization shall designate a representative to serve on the advisory council. Representatives shall be approved by the chief state medical examiner in consultation with the director of public health. Members may be selected from other organizations not specified in subrule 125.2(1) at the discretion of the chief state medical examiner.

**125.2(3)** The chair and presiding member of the council shall be the chief state medical examiner or a designee from the office of the state medical examiner.

**641—125.3(691) Meetings.** The advisory council will hold a meeting at the Iowa laboratory facility in Ankeny at least two times per year or on a more frequent basis as deemed necessary by the chief state medical examiner with approval of a majority of members of the council.

**125.3(1)** Meetings may be conducted via the Iowa Communications Network (ICN) for members who cannot physically be present at the laboratory facilities.

**125.3(2)** Meetings may be conducted by telephone at the discretion of the chief state medical examiner depending upon the complexity of the agenda.

**125.3(3)** Notice of routine meetings and agenda will be made available to the members a minimum of five working days prior to the meeting.

**125.3(4)** The chief state medical examiner or any member of the council may ask for a special meeting to discuss emergent issues within a 24-hour time period.

**125.3(5)** All meetings are open to the public in accordance with the open meetings law, Iowa Code chapter 21.

**125.3(6)** The operation of council meetings will be governed by the following rules of procedure:

- a.* A simple majority will be defined as a quorum, but the chair may choose to continue with the meeting even if a quorum is not present.
- b.* A course of action for topics under debate will be agreed upon by a simple majority vote of the members present at the meeting.

c. Any council member or a designated replacement who is unable to attend a meeting will notify the office of the state medical examiner at least 24 hours prior to the start of a regularly scheduled meeting; a meeting may be canceled if attendance is expected to be low.  
[ARC 8229B, IAB 10/7/09, effective 11/11/09]

**641—125.4(691) Duties.** The advisory council shall perform the following duties:

**125.4(1)** Provide information to council members regarding the current operations and functions of the office of the state medical examiner.

**125.4(2)** Provide information to council members regarding any legislative or budgetary decisions that impact the office of the state medical examiner.

**125.4(3)** Elicit council members' suggestions and recommendations to improve the overall operations of the office of the state medical examiner.

**641—125.5(691) Minutes.** The advisory council shall keep minutes of all its meetings showing the date, time, place, members present, members absent, and the general topics discussed.

**125.5(1)** The minutes shall reflect the actions agreed upon by the members for topics requiring the members' input or consensus.

**125.5(2)** If a meeting is convened within a 24-hour time period to discuss emergent issues, then the minutes shall reflect the emergent nature of this meeting.

**125.5(3)** If a meeting is conducted via telephone, then the minutes shall reflect the reason for the use of this method of communication.

**125.5(4)** The minutes shall be available at the office of the state medical examiner for inspection Monday through Friday from 8:30 a.m. to 4:30 p.m.

These rules are intended to implement Iowa Code section 691.6C.

[Filed 1/10/08, Notice 11/21/07—published 1/30/08, effective 3/5/08]

[Filed ARC 8229B (Notice ARC 7968B, IAB 7/15/09), IAB 10/7/09, effective 11/11/09]

CHAPTER 126  
 STATE MEDICAL EXAMINER  
 [Prior to 4/20/88, see Medical Examiner, State[566] Ch 1]  
 [Prior to 6/30/99, see Public Safety Department[661] Ch 21]

**641—126.1(144,331,691) Definitions.**

“Autopsy” means the external and internal postmortem examination of a deceased person.

“County of appointment” means the county which requests a medical examiner to conduct an investigation, perform or order an autopsy, or prepare a report(s) in a death investigation case. The request may be authorized by the county attorney or the county medical examiner. The county of appointment shall be the county in which the death occurred.

**641—126.2(691) Medical examiner coverage.** Rescinded IAB 12/12/01, effective 1/16/02.

**641—126.3(691) Fees for autopsies and related services and reimbursement for related expenses.** Autopsies performed by the state medical examiner are provided on a fee-for-service basis. Costs of autopsies and related services and expenses are the responsibility of the county of appointment. The county of residence of the deceased shall reimburse the county of appointment.

**126.3(1) Fee schedule.** The fees collected under this subrule shall be considered repayment receipts as defined in Iowa Code section 8.2.

a. The following fees shall apply to autopsies conducted by the state medical examiner:

|                         |        |
|-------------------------|--------|
| Autopsy .....           | \$1400 |
| Copies of reports ..... | \$20   |

EXCEPTIONS: A copy of the autopsy report is automatically sent to the county medical examiner and to the county attorney without fee. A single copy of an autopsy report may be provided to the immediate next of kin of the deceased without fee. Copies of autopsy reports may be provided to public officials and physicians of record for official purposes without fee.

b. The following fee is for time spent reviewing case materials, preparing for deposition or court, testifying in deposition or court, and travel time.

|   |  |
|---|--|
| State, deputy, or associate medical examiner(s)<br>time for all court cases ..... | \$450 per hour with a one-hour minimum |
|---|--|

c. A cremation permit fee of \$75 will be assessed for each permit investigated and authorized by the state medical examiner’s office.

**126.3(2) Expense reimbursement.** Other laboratory services associated with an autopsy, which shall include, but not be limited to, photography, toxicology, radiology, microbiology, and morgue fees, shall be billed by the department to the county of appointment. Moneys collected pursuant to this subrule shall be paid by the department to the laboratory or other entity providing the service.

**126.3(3) State medical examiner acting as county medical examiner.** When the state medical examiner acts in the capacity of county medical examiner, the state medical examiner shall receive from the county of appointment a fee of \$100 per hour, with a one-hour minimum, for each report prepared plus the state medical examiner’s actual expenses. Counties may not depend on the state medical examiner for full-time coverage.

[ARC 9533B, IAB 6/1/11, effective 7/6/11; ARC 9880B, IAB 11/30/11, effective 1/4/12]

**641—126.4(691) Fees for tissue recovery.** When the tissue recovery room located within the office of the state medical examiner is utilized by an authorized tissue recovery agency, a fee of \$400 per case shall be assessed. The tissue recovery agency is responsible for this fee, payable to the office of the state medical examiner.

These rules are intended to implement Iowa Code section 691.6.

CHAPTER 127  
COUNTY MEDICAL EXAMINERS  
[Prior to 7/29/87, Health Department [470] Ch 127]

**641—127.1(144,331,691) Definitions.**

“*Autopsy*” means the external and internal postmortem examination of a deceased person.

“*Cause of death*” means the disease or injury which sets in motion the chain of events which eventually result in the death of a person. The physician shall consider “but for” this injury or disease the person would still be living.

“*County medical examiner*” or “*CME*” means a medical or osteopathic physician or surgeon licensed in the state of Iowa and appointed by the board of supervisors to serve in this capacity.

“*County medical examiner investigator*” or “*CME-I*” means an individual appointed by a county medical examiner, with approval by the board of supervisors and the state medical examiner, to serve under the supervision of a county medical examiner to assist in death investigations.

“*County of appointment*” means the county which requests a medical examiner to conduct an investigation, perform or order an autopsy, or prepare a report(s) in a death investigation case. The request may be authorized by the county attorney or the county medical examiner. The county of appointment shall be the county in which the death occurred.

“*Cremation*” means the technical process, using heat and flame, that reduces human remains to bone fragments.

“*Day*” means calendar day.

“*Death*” means the condition as described in Iowa Code section 702.8.

“*Death affecting the public interest*” means any death of a human being in which the circumstances are sudden, unexpected, violent, suspicious, or unattended, including but not limited to those deaths listed at Iowa Code section 331.802(3) and described as follows:

1. Violent death. Violent death includes homicide, suicide, or accidental death resulting from physical, mechanical, thermal, chemical, electrical, or radiation injury. A medical examiner’s investigation and report are required irrespective of the period of survival following injury.

2. Death caused by criminal abortion, including self-induced.

3. Death related to disease thought to be virulent or contagious which may constitute a public hazard. Any such case investigated by a medical examiner shall be reported to the department and to the local health authority.

4. Death that has occurred unexpectedly or from an unexplained cause. This term includes the following situations:

- Death without prior medical conditions accounting for the death.

- Apparently instantaneous death without obvious cause.

- Death during or following an unexplained syncope or coma.

- Death during an unexplained, acute, or rapidly fatal illness.

5. Death of a person confined in a prison, jail, or correctional institution.

6. Death of a person when unattended by a physician during the period of 36 hours immediately preceding death.

- This term includes the following situations:

- Persons found dead without obvious or probable cause.

- Death when the person was unattended by a physician during a terminal illness.

- Fetal death unattended by a physician. A fetal death is a fetus born dead after a gestation period of 20 completed weeks or greater or a fetus which weighs 350 grams or more (Iowa Code section 144.29).

- This term does not include a prediagnosed terminal or bedfast case in which a physician has been in attendance within 30 days preceding the death.

- This term does not include a terminally ill patient who was admitted to and received services from a hospice program as defined in Iowa Code section 135J.1, if a physician or registered nurse employed by the program was in attendance within 30 days preceding the death.

7. Death of a person if the body is not claimed by a relative or friend.

8. Death of a person if the identity of the deceased is unknown.
9. Death of a child under the age of two years if death results from an unknown cause or if the circumstances surrounding the death indicate that sudden infant death syndrome may be the cause of death.

“*Department*” means the Iowa department of public health.

“*Deputy county medical examiner*” or “*DCME*” means an individual appointed by a county medical examiner, with approval by the board of supervisors and the state medical examiner, to assist the county medical examiner in the performance of the county medical examiner’s duties.

“*External examination*” means a close inspection of the exterior of a deceased human body for the purpose of locating, describing, and delineating any and all injuries or other abnormalities. External examination of a body does not constitute an autopsy, even if toxicology samples are obtained.

“*Fee*” means an amount to be paid to a county medical examiner’s office as determined by the board of supervisors of the county of appointment for completion of an investigation, autopsy, or report(s). Fees for services provided by the state medical examiner’s office are established at 641—126.3(691).

“*Form ME-1*” means the Preliminary Report of Investigation by Medical Examiner form.

“*Form ME-2*” means the Medical Examiner Embalming Certificate form.

“*Form ME-3*” means the Permit by Medical Examiner for Autopsy form.

“*Form ME-4*” means the Preliminary Report of Child/Infant Death Scene Investigation form.

“*Form ME-5*” means the Cremation Permit by Medical Examiner form.

“*Form ME-6*” means the Iowa State Medical Examiner’s Office Personal Effects form.

“*Form ME-7*” means the Medication List form.

“*Form ME-8*” means the Body Identification Record form.

“*Manner of death*” means the circumstances under which the cause of death occurred and may be specified as follows: natural, accident, suicide, homicide, undetermined, or pending.

“*Medical care provider*” means an individual licensed or certified in any medical profession, including but not limited to a physician, physician assistant, nurse, emergency medical care provider, certified nurse’s aide, pharmacist, physical therapist, and medical technologist.

“*Medical examiner*” means the state medical examiner, deputy state medical examiner, county medical examiner, or deputy county medical examiner.

**641—127.2(331,691) Duties of medical examiners—jurisdiction over deaths which affect the public interest.**

**127.2(1) Jurisdiction.** Upon receiving notification of a death which affects the public interest, a medical examiner shall notify any appropriate law enforcement agency not otherwise notified and shall take charge of the body of the decedent. The body shall not be disturbed or removed from the position in which it was found without authorization from the medical examiner except for the purpose of preserving the body from loss or destruction or permitting the passage of traffic on a highway, railroad, or airport, or unless the failure to remove the body might endanger life, safety, or health.

**127.2(2) Investigation.** A county medical examiner shall conduct a preliminary investigation of the cause and manner of death and shall utilize the investigative protocol outlined in the most current edition of the County Medical Examiner’s Handbook, available from the state medical examiner’s office. A medical examiner may perform or authorize performance of any scientific study to assist in identifying the cause, circumstances, and manner of death. A medical examiner shall cooperate with other investigating officials and agencies involved and shall share reports, information, and conclusions with these officials and agencies.

**127.2(3) Reports required.**

a. *Form ME-1.*

(1) Preparation and filing. A county medical examiner shall prepare a written report of the examiner’s findings on the Preliminary Report of Investigation by Medical Examiner, Form ME-1. A county medical examiner shall file the original Form ME-1 with the state medical examiner’s office within 14 days of the date of death and shall file a copy of the Form ME-1 with the county attorney within 14 days of the date of the death and shall retain a copy for the medical examiner’s records.

(2) Content. Form ME-1 shall be completed as fully as possible in light of all available information and may be signed by either a county medical examiner or a county medical examiner investigator acting under the supervision of a county medical examiner. If the cause or manner of death, identity of the decedent, or other information is unknown or pending at the time of filing, “unknown” or “pending” may be written in the appropriate area of the form. If additional information becomes available, this information shall be forwarded to the state medical examiner in written form at such time as it becomes available to be added as a supplement to the file.

*b. Jurisdiction declined or terminated.* A form designated by the office of the state medical examiner shall be completed and filed in accordance with subparagraphs (1) and (2) of paragraph “a” above in cases reported to the county medical examiner where jurisdiction is terminated or declined.

**127.2(4) Disposition of body.** After an investigation, including an autopsy if one was performed, the body of the decedent shall be made available to the funeral home designated by a relative or friend of the decedent for burial or appropriate disposition. A medical examiner shall not use influence in favor of a particular funeral director or funeral home. If no one claims a body, it shall be disposed of as provided in Iowa Code chapter 142.

**127.2(5) Coverage.**

*a.* When an individual is required to report a death to a medical examiner and the county medical examiner cannot be located or is not available, the individual shall contact a county medical examiner from any adjacent Iowa county to perform those duties outlined in this chapter. The responding medical examiner shall have full authority to conduct any procedures necessary to the investigation of the cause and manner of death. If an adjacent county medical examiner is not available, the state medical examiner shall be contacted and may act in the capacity of a county medical examiner.

*b.* The responding county medical examiner shall be reimbursed by the county for which the service is provided for all fees and expenses at the rate which is customarily paid by the county for which the service is provided or at a rate agreed upon by the medical examiner and the board of supervisors of the county for which the service is provided.

**641—127.3(331,691) Autopsies.**

**127.3(1) Autopsy required.** A county medical examiner shall perform an autopsy or order that an autopsy be performed in the following cases:

*a.* All cases of homicide or suspected homicide, irrespective of the period of survival following injury.

*b.* All cases in which the manner of death is undetermined.

*c.* All cases involving unidentified bodies.

*d.* All deaths of children under the age of two when there is not a clear cause of death, including suspected cases of sudden infant death syndrome. A summary of the findings of the autopsy shall be transmitted by the physician who performed the autopsy to the county medical examiner within two days of completion of the report. Autopsies performed on children under the age of two when the circumstances surrounding the death indicate that sudden infant death syndrome may be the cause of death or the cause of death is not clearly explained by known medical history shall conform to Form ME-4.

*e.* All work- and farm-related deaths unless there is an obvious natural cause of death.

*f.* All drowning deaths.

*g.* All deaths of commercial vehicle drivers that occur during the performance of their job duties.

*h.* Deaths due to poisoning.

*i.* Deaths of airplane pilots who die as a result of an airplane crash. The National Transportation Safety Board and the Federal Aviation Administration should be contacted prior to the autopsy to request specimen kit(s).

*j.* Deaths due to a natural disaster, including tornadoes and floods.

*k.* Deaths in a prison, jail or correctional institution or under police custody, where there is not a natural disease process that accounts for the death.

**127.3(2) *Autopsy recommended.*** It is recommended that a county medical examiner should perform an autopsy or order that an autopsy be performed in the following cases:

- a. Deaths of adolescents less than 18 years of age when there is not a natural cause of death.
- b. All cases which involve a motor vehicle crash, unless it is a single motor vehicle accident with no potential for litigation and there is an obvious cause of death or the injuries have been clearly documented by hospitalization.
- c. Rescinded IAB 3/29/06, effective 5/3/06.
- d. Deaths from suicide.
- e. All pedestrian, bicycle, motorcycle, snowmobile, boating, watercraft, three- or four-wheeler or all-terrain vehicle fatalities.
- f. Deaths due to failure of a consumer product.
- g. Deaths due to a possible public health hazard.
- h. Deaths due to drug or alcohol abuse or overdose.
- i. Electrical- and lightning-related deaths.
- j. Deaths from burns or smoke or soot inhalation.
- k. All deaths related to exposure, such as hypothermia and hyperthermia.
- l. All sport-related deaths, including but not limited to deaths from auto racing and deaths resulting from injuries sustained in football, basketball, baseball, softball, soccer, or other games or sports.

**127.3(3) *Other deaths.*** For those deaths not listed in subrule 127.3(1) or 127.3(2), a county medical examiner shall determine whether the public interest requires an autopsy and may perform an autopsy or order that an autopsy be performed. A county medical examiner may consult with the state medical examiner to assist in determining the need for an autopsy.

**127.3(4) *Performance of autopsy.***

a. *Who may authorize.* Autopsies may be authorized by the state medical examiner, the county medical examiner for the county in which the death occurred or the county where any injury contributing to or causing the death was sustained, or the county attorney who would have jurisdiction in any criminal proceeding related to the death.

b. *Who may perform.* An autopsy shall be performed by a pathologist trained or with experience in forensic pathology, licensed to practice medicine and surgery or osteopathic medicine and surgery in the state of Iowa and board-certified by the American Board of Pathology, or under the direct supervision of a physician with these qualifications. If an autopsy is performed by a physician who does not satisfy these criteria and who is not performing under the direct supervision of a physician who satisfies these criteria, the physician shall submit a supplemental report with the Permit by Medical Examiner for Autopsy, Form ME-3, which details the specific training, education, and experience which qualify the physician to perform an autopsy. The following cases/types of deaths shall be transported to the office of the state medical examiner for autopsy unless otherwise approved by the state medical examiner:

- (1) Deaths of adolescents through 18 years of age when there is not a known or preexisting natural cause of death.
- (2) All cases of homicide or suspected homicide, irrespective of the period of survival following injury.
- (3) Deaths of children under the age of 2 years if death results from an unknown cause or if the circumstances surrounding the death indicate that Sudden Infant Death Syndrome may be the cause of death.
- (4) All suspicious suicides.
- (5) All high-profile deaths including, but not limited to, deaths of elected officials in municipal, state or federal government.
- (6) All deaths of inmates occurring in any institutions under the department of corrections as outlined in Iowa Code section 904.102, excluding those deaths that result from a pre-existing medical condition.

c. *Permit required—Form ME-3.* A medical examiner shall complete the Permit by Medical Examiner for Autopsy, Form ME-3. All reasonable efforts shall be made to complete the Form ME-3

prior to the performance of an autopsy and to submit the form with the body of the decedent or to submit the form via facsimile to the state medical examiner.

**127.3(5) Autopsy report.** A complete record of the findings of the autopsy shall be submitted to the state medical examiner's office, the county attorney of the county where the death occurred and the county attorney of the county where the injury contributing to or causing the death was sustained within 90 days following the date of death, unless unusual circumstances requiring further investigation or testing exist. The report filed shall include all diagrams, transcriptions of the autopsy observations and opinions, and toxicology reports.

**127.3(6) Out-of-state autopsy.** The body of a decedent may be sent out of state for an autopsy or postmortem examination only if the county medical examiner certifies in writing that the out-of-state autopsy or examination is necessary for any of the following reasons:

- a. A forensic pathologist practicing in the state of Iowa is unavailable;
- b. Requiring an in-state autopsy would cause financial hardship; or
- c. Requiring an in-state autopsy would delay the funeral or burial more than three days.

**127.3(7) Retention and disposal of tissues, organs, and bodily fluids.** The office of the state medical examiner shall retain tissues, organs, and bodily fluids as necessary to determine the cause and manner of death or as deemed advisable by the state medical examiner for medical or public health investigation, teaching, or research. Tissues, organs, and bodily fluids shall be retained at a minimum for the time periods established by the National Association of Medical Examiners and may be retained for a longer time period at the discretion of the state medical examiner. Tissues, organs, and bodily fluids retained under this subrule shall be disposed of without the specific consent or notification of the legal next of kin and in accordance with applicable federal and state regulations including but not limited to OSHA-recommended biohazard and blood-borne pathogen standards. The anatomical material shall be removed from the laboratory premises through use of a contracted, licensed, and bonded medical waste removal service to a medical waste processing center for final disposition.

#### **641—127.4(331,691) Fees.**

##### **127.4(1) Payment of fee and expenses.**

a. A medical examiner shall receive from the county of appointment or the county of the decedent's residence a fee for each preliminary investigation and report submitted in a case in which a death affects the public interest. A county medical examiner shall also receive from the county of appointment or the county of the decedent's residence the examiner's actual expenses. The fee and expenses shall be submitted by the county medical examiner to the county of appointment, which may immediately pay the invoice or forward the invoice to the county of the decedent's residence for payment to the county medical examiner. If the county medical examiner does not receive payment from the county of the decedent's residence within 60 days of receiving the invoice, the county of appointment shall pay the invoice.

b. A pathologist or other physician who performs an autopsy under medical examiner authorization shall be paid for the services by the county of appointment.

c. Invoices produced for services performed by a county medical examiner, deputy county medical examiner or county medical examiner investigator shall be submitted as a joint invoice to the county of appointment when services were rendered in a case by multiple county medical examiner staff.

##### **127.4(2) Reimbursement.**

a. *County of residence different from county of appointment—Iowa resident.* The county of the decedent's residence shall reimburse the county of appointment for the fee and expenses paid by the county of appointment.

b. *Death caused by criminal defendant.* If the person's death is caused by a criminal defendant who has been convicted and sentenced for murder, voluntary manslaughter, involuntary manslaughter, or homicide by vehicle, the county of the person's residence may recover from the defendant the fee and expenses.

c. *Out-of-state resident—law enforcement involvement.* The fee and expenses of a county medical examiner who performs an investigation or autopsy of a person who dies after being brought into the

state for emergency medical treatment by or at the direction of an out-of-state law enforcement officer or public authority shall be paid by the state. A claim for payment shall be filed with the state appeal board.

*d. Out-of-state resident—no law enforcement involvement.* The fee and expenses of a county medical examiner who performs an investigation or autopsy of an out-of-state resident shall be paid by the county of appointment.

*e. Child under the age of two.* Rescinded IAB 4/2/14, effective 5/7/14.  
[ARC 1403C, IAB 4/2/14, effective 5/7/14; ARC 2841C, IAB 12/7/16, effective 1/11/17]

#### **641—127.5(144,331,691) Death certificates—deaths affecting the public interest.**

**127.5(1) Completion.** The funeral director to whom the body is released shall complete the personal data on the death certificate. The medical examiner shall complete the manner of death and cause of death sections of the death certificate within 72 hours after determination of the cause of death. If an autopsy is performed by the state medical examiner, the death certificate shall be submitted to the state medical examiner's office for completion. All information included on the certificate shall be typewritten.

**127.5(2) Filing.** The funeral director shall file the certificate with the county registrar in the county in which the death occurred. A death certificate shall be filed prior to the issuance of a burial transit permit and prior to disposal of the body.

**127.5(3) Extension of time.** If a medical examiner is unable to complete the manner of death and cause of death sections of the death certificate within the 24-hour time period, the funeral director shall file a death certificate form completed with all available information. Such certificate shall be authority for the issuance of a burial transit permit. Within 15 days, a supplemental report shall be filed with the local registrar which provides the information missing from the original certificate.

**127.5(4) Additional standards.** Additional rules relative to death certificates may be found at 641—Chapter 101.

#### **641—127.6(331,691) Cremation.**

**127.6(1) Permit obtained prior to cremation—Form ME-5.** A permit for cremation shall be obtained from a county medical examiner prior to cremation of a body of a decedent. For purposes of this requirement, a facsimile or electronic copy of the cremation permit has the same legal effect as the original. Cremation permits shall be issued on the Cremation Permit by Medical Examiner, Form ME-5.

**127.6(2) Requirements for issuance of permit.** A county medical examiner shall direct an inquiry into the cause and manner of death and shall determine whether the death is one which affects the public interest prior to issuing a cremation permit.

*a. Death which affects the public interest.* If the death occurred in a manner specified in Iowa Code section 331.802(3) or if reasonable suspicion that the death occurred in such a manner exists, a medical examiner shall view the body, make a personal inquiry into the cause and manner of death, and complete or cause to be completed all necessary autopsy or postmortem examinations prior to issuing a cremation permit.

*b. Death which does not affect the public interest.* If, following an inquiry into the cause and manner of death, the county medical examiner determines that the death did not occur in a manner specified in Iowa Code section 331.802(3), a medical examiner is not required to view the body prior to issuing a cremation permit. A county medical examiner shall certify on the Cremation Permit by Medical Examiner, Form ME-5, that the medical examiner's inquiry into the cause and manner of death did not disclose evidence that the death occurred in a manner specified in Iowa Code section 331.802(3).

**127.6(3) Fee.** A fee for the Cremation Permit by Medical Examiner, Form ME-5, shall be paid by the family, next of kin, guardian of the decedent, or other person authorized to act on behalf of the decedent.

#### **641—127.7(331,691) County medical examiner investigators.**

**127.7(1) Appointment.** A county medical examiner may appoint one or more county medical examiner investigators upon approval by the board of supervisors and the state medical examiner.

**127.7(2) Qualifications.**

*a.* Prior to appointment, a CME-I should possess a minimum of two years of experience as a licensed or certified nurse or medical care provider. A certified peace officer may be appointed to the position of CME-I if a nurse or medical care provider is not available.

*b.* A CME-I shall satisfy the following criteria:

(1) Prior to or within two years of appointment, attend the St. Louis University School of Medicine Basic Medicolegal Death Investigation Course or its state medical examiner-approved equivalent; and

(2) Prior to or within five years of appointment, obtain certification at the registry-level as a death investigator by the American Board of Medicolegal Death Investigators.

*c.* A CME-I is not required to meet the requirements of paragraph “*a*” or “*b*” if the individual has functioned in the capacity of a CME-I for a period of five years as of January 1, 2002.

*d.* If a CME is unable to appoint a CME-I who possesses the qualifications required by paragraph “*a*,” “*b*,” or “*c*,” the CME may request a waiver. Waiver requests shall be submitted in writing to the state medical examiner and shall include the efforts undertaken by the CME to locate a CME-I who meets the above qualifications; the qualifications of the individual willing to serve in the capacity of CME-I; and the period of time for which the waiver is requested, not to exceed two years. The state medical examiner has sole discretion to waive the requirements of this rule and may withdraw or modify a waiver request upon a finding that the CME-I has failed to adequately perform the duties of the position or for other good cause.

*e.* If a CME-I is unable to meet the eligibility requirements for obtaining registry certification due to the small number of cases requiring investigation in the county of appointment, then a waiver shall be obtained from the state medical examiner in order for the investigator to continue his or her duties. The county medical examiner shall submit a request for a waiver in writing with documentation of the number of deaths occurring in the county of appointment which require death investigation. The waiver must be renewed every five years if the required number of investigations has still not been achieved.

**127.7(3) Duties.** A CME-I shall assist in death investigations. A CME-I acting under the supervision of a county medical examiner may sign the Form ME-1. A CME-I shall not sign a certificate of death or a Form ME-5.

**127.7(4) Supervision.** A CME-I shall serve under the supervision of a county medical examiner. A CME-I provides services under the direction of a county medical examiner or state medical examiner’s office. A CME-I shall at all times perform services in a manner which is consistent with the protocol outlined in the most current edition of the County Medical Examiner’s Handbook and any policies or protocols of the supervising county medical examiner.

**127.7(5) Fees.** Fees for the services provided by a CME-I shall be paid by the county of appointment or by the county of the decedent’s residence. A CME-I shall also receive from the county of appointment or the county of the decedent’s residence reimbursement for actual expenses. The fee and expenses shall be submitted by the CME-I to the county of appointment, which may immediately pay the invoice or forward the invoice to the county of the decedent’s residence for payment to the CME-I. If the CME-I does not receive payment from the county of the decedent’s residence within 60 days of receiving the invoice, the county of appointment shall pay the invoice.

[ARC 8526B, IAB 2/10/10, effective 3/17/10; ARC 2841C, IAB 12/7/16, effective 1/11/17]

#### **641—127.8(331,691) Deputy county medical examiners.**

**127.8(1) Appointment.** A county medical examiner may appoint one or more deputy county medical examiners upon approval by the board of supervisors and the state medical examiner.

**127.8(2) Qualifications.** A DCME shall be licensed in the state of Iowa as a medical or osteopathic physician or surgeon.

**127.8(3) Duties.** A DCME shall serve at the direction of the county medical examiner and may perform any duty of a county medical examiner which is delegated by the county medical examiner to the DCME.

**127.8(4) Fees.** Fees for the services provided by a DCME shall be paid by the county of appointment or by the county of the decedent’s residence. A DCME shall also receive from the county of appointment or the county of the decedent’s residence reimbursement for actual expenses. The fee and expenses shall

be submitted by the DCME to the county of appointment, which may immediately pay the invoice or forward the invoice to the county of the decedent's residence for payment to the DCME. If the DCME does not receive payment from the county of the decedent's residence within 60 days of receiving the invoice, the county of appointment shall pay the invoice.

[ARC 2841C, IAB 12/7/16, effective 1/11/17]

**641—127.9(331,691) Failure to comply with rules.** If a county medical examiner, deputy county medical examiner, county medical examiner investigator, pathologist, or other physician fails to comply with these rules, the state medical examiner may provide written notice of the failure to comply to that individual, the appropriate county medical examiner, and the appropriate county board of supervisors. Within 30 days of the date of the notice, the individual to whom the notice was provided shall submit a written response to the state medical examiner, outlining a proposed corrective action plan. If no response is received within the 30 days or if the proposed corrective action plan is unacceptable, the state medical examiner shall forward copies of the notice and all pertinent correspondence and information to the board of supervisors for the county which appointed the individual, notifying the board of the individual's failure to comply with these rules.

**641—127.10(331,691,22) Confidentiality.** Records and reports of a medical examiner may be confidential records pursuant to Iowa Code sections 22.7(2), 22.7(5), and 22.7(41) and other provisions of Iowa law. Prior to releasing a medical examiner record or report to a member of the public, a county medical examiner may inform the appropriate law enforcement agency, the county attorney, and the state medical examiner to determine whether release is authorized under Iowa law.

**641—127.11(331,691,670) Indemnification.** A board of supervisors shall defend, hold harmless, and indemnify a county medical examiner and any properly appointed staff members to the extent provided in Iowa Code chapter 670.

These rules are intended to implement Iowa Code chapters 331 and 691.

CHAPTER 129  
Reserved

CHAPTER 130  
EMERGENCY MEDICAL SERVICES ADVISORY COUNCIL

**641—130.1(147A) Definitions.** For the purposes of this chapter, the following definitions shall apply:

“*Chairperson*” means the chair of the advisory council, who has been elected by the majority of the advisory council’s members.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency medical care provider*” means an emergency medical care provider as defined in rule 641—131.1(147A).

“*Emergency medical services*” or “*EMS*” means emergency medical services as defined in rule 641—131.1(147A).

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.2(147A) Purpose.** The EMS advisory council shall advise the director and develop policy recommendations concerning the regulation, administration, and coordination of emergency medical services in the state.

**641—130.3(147A) Appointment and membership.**

**130.3(1)** The EMS advisory council shall be appointed by the director.

**130.3(2)** The appointments shall be for three-year staggered terms, which shall expire on June 30.

**130.3(3)** Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**130.3(4)** Membership of the council shall be comprised of individuals nominated from, but not limited to, the following state or national organizations:

*a.* One physician from each of the following organizations:

- (1) Iowa Osteopathic Medical Association.
- (2) Iowa Medical Society.
- (3) American College of Emergency Physicians.
- (4) Iowa Academy of Family Physicians.
- (5) University of Iowa Hospitals and Clinics.
- (6) American Academy of Emergency Medicine.
- (7) American Academy of Pediatrics.

*b.* A representative from each of the following organizations:

- (1) Iowa Physician Assistant Society.
- (2) EMS Education Programs Committee.
- (3) Iowa Nurses Association.
- (4) Iowa Hospital Association.
- (5) Iowa State Association of Counties.

*c.* Two out-of-hospital emergency medical care providers from the Iowa Firefighters Association.

*d.* One out-of-hospital emergency medical care provider from the Iowa Professional Firefighters.

*e.* Three out-of-hospital emergency medical care providers, with at least one representing volunteer EMS and one representing a private service program, from the Iowa EMS Association.

*f.* Two at-large volunteer emergency medical care providers.

**130.3(5) Absences.**

*a.* Three unexcused absences in a 12-month period shall be grounds for the director to request nomination of an alternative representative to fill the position.

*b.* Absences may be excused by notification provided to the chairperson prior to the meeting.

*c.* The chairperson shall be charged with providing notification of absences to the department.

[ARC 9356B, IAB 2/9/11, effective 3/16/11; ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.4(147A) Officers.**

**130.4(1)** Officers of the advisory council shall be a chairperson and a vice chairperson, who shall be elected at the first meeting of each fiscal year.

- a. Officers may serve no more than three consecutive terms as chairperson or vice chairperson.
- b. Vacancies in the office of chairperson shall be filled by the vice chairperson.
- c. Vacancies in the office of vice chairperson shall be filled by election at the next meeting after the vacancy occurs.

**130.4(2) Duties of officers.**

a. The chairperson shall:

- (1) Preside at all meetings of the advisory council,
- (2) Appoint such subcommittees as deemed necessary, and
- (3) Designate the chairperson of each subcommittee.

b. The vice chairperson shall:

(1) Perform the duties of the chairperson if the chairperson is absent or unable to act. When so acting, the vice chairperson shall have all the powers of and be subject to all the restrictions upon the chairperson.

(2) Perform such other duties as may be assigned by the chairperson.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.5(147A) Meetings.**

**130.5(1)** The advisory council shall establish a meeting schedule on an annual basis to conduct business. There shall be a minimum of four meetings per year.

a. Meetings may be scheduled as business requires, but notice to members must be given at least five working days prior to the meeting date.

b. Notice given four weeks in advance is encouraged to accommodate the schedules of professional members.

**130.5(2)** Any advisory council member who is unable to attend a meeting will notify the chairperson.

**130.5(3)** A majority of appointed members constitutes a quorum.

**130.5(4)** When a quorum is present, a position is carried by affirmative vote of the majority of those present. No official business that requires a vote of the membership shall be conducted without a quorum present.

**130.5(5)** Persons wishing to make a presentation to the advisory council shall submit the request to the chairperson not less than 14 days prior to the meeting. Presentations may be made at the discretion of the chairperson.

**130.5(6)** Persons wishing to submit written materials should do so at least 14 days in advance of the scheduled meeting to ensure that advisory council members have adequate time to receive and evaluate the materials.

**130.5(7)** The advisory council may conduct a meeting by electronic means pursuant to Iowa Code section 21.8.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.6(147A) Subcommittees.** The advisory council may designate one or more subcommittees to perform such duties as may be deemed necessary.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.7(147A) Expenses of advisory council members.** The following may be considered necessary expenses for reimbursement of advisory council members when the expenses are incurred on behalf of advisory council business and are subject to established state reimbursement rates.

1. Reimbursement for travel in a private car.
2. Actual lodging and meal expenses, including sales tax on lodging and meals.
3. Actual expenses of public transportation.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.8(147A) Council composition.** The council's composition shall be developed and maintained pursuant to Iowa Code chapter 69.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

These rules are intended to implement Iowa Code chapter 147A.

[Filed 9/13/07, Notice 8/1/07—published 10/10/07, effective 11/14/07]

[Filed ARC 9356B (Notice ARC 9237B, IAB 11/17/10), IAB 2/9/11, effective 3/16/11]

CHAPTER 131  
EMERGENCY MEDICAL SERVICES—PROVIDER  
EDUCATION/TRAINING/CERTIFICATION

**641—131.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Advanced emergency medical technician*” or “*AEMT*” means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Advanced Emergency Medical Technician Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the AEMT, and is currently certified by the department as an AEMT.

“*Automated external defibrillator*” or “*AED*” means an external semiautomatic device that determines whether defibrillation is required.

“*Candidate*” means an individual who has successfully completed a course of study at an EMR, EMT, AEMT or paramedic or other level certified by the department and who has been recommended by a training program for NREMT certification examination.

“*CECBEMS*” means the continuing education coordinating board for emergency medical services.

“*CEH*” means continuing education hour, which is based upon a minimum of 50 minutes of training per hour.

“*Certification period*” means the length of time an emergency medical care provider certificate is valid. The certification period shall be for two years from initial issuance or from renewal, unless otherwise specified on the certificate or unless sooner suspended or revoked.

“*Certification status*” means a condition placed on an individual certificate for identification as active, deceased, denied, dropped, expired, failed, hold, idle, inactive, incomplete, pending, probation, restricted, retired, revoked, surrendered, suspended, or temporary.

“*Continuing education*” means department-approved training which is obtained by a certified emergency medical care provider to maintain, improve, or expand relevant skills and knowledge and to satisfy renewal of certification requirements.

“*Course completion date*” means the date of the final classroom session of an emergency medical care provider course.

“*Course coordinator*” means an individual who has been assigned by the training program to coordinate the activities of an emergency medical care provider course.

“*CPR*” means training and successful course completion in cardiopulmonary resuscitation, AED, and obstructed airway procedures for all age groups according to recognized national standards.

“*Critical care paramedic*” or “*CCP*” means a currently certified paramedic specialist who has successfully completed a critical care course of instruction approved by the department and has received endorsement from the department as a critical care paramedic.

“*Current course completion*” means written recognition given for training and successful course completion of CPR with an expiration date or a recommended renewal date that exceeds the current date.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*DOT*” means the United States Department of Transportation.

“*Emergency medical care*” means such medical procedures as:

1. Administration of intravenous solutions.
2. Intubation.
3. Performance of cardiac defibrillation and synchronized cardioversion.
4. Administration of emergency drugs as provided by protocol.
5. Any medical procedure authorized by subrule 131.3(3).

“*Emergency medical care provider*” means an individual who has been trained to provide emergency and nonemergency medical care at the EMR, EMT, AEMT, paramedic or other certification level recognized by the department before 2011 and who has been issued a certificate by the department.

*“Emergency medical responder”* or *“EMR”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Emergency Medical Responder Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the EMR, and is currently certified by the department as an EMR.

*“Emergency medical services”* or *“EMS”* means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

*“Emergency medical technician”* or *“EMT”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Emergency Medical Technician Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the EMT, and is currently certified by the department as an EMT.

*“Emergency medical technician-ambulance”* or *“EMT-A”* means an individual who has successfully completed the 1984 United States Department of Transportation’s Emergency Medical Technician-Ambulance curriculum, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-A.

*“Emergency medical technician-basic”* or *“EMT-B”* means an individual who has successfully completed the current United States Department of Transportation’s Emergency Medical Technician-Basic curriculum and department enhancements, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-B.

*“Emergency medical technician-defibrillation”* or *“EMT-D”* means an individual who has successfully completed an approved program which specifically addresses manual or automated defibrillation, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-D.

*“Emergency medical technician-intermediate”* or *“EMT-I”* means an individual who has successfully completed an EMT-Intermediate curriculum approved by the department, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-I.

*“Emergency medical technician-paramedic”* or *“EMT-P”* means an individual who has successfully completed the current United States Department of Transportation’s EMT-Intermediate curriculum (1999) or the 1985 or earlier DOT EMT-P curriculum, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-P.

*“EMS advisory council”* means the council appointed by the director, pursuant to Iowa Code chapter 147A, to advise the director and develop policy recommendations concerning regulation, administration, and coordination of emergency medical services in the state.

*“EMS evaluator”* or *“EMS-E”* means an individual who has successfully completed an EMS evaluator curriculum approved by the department and is currently endorsed by the department as an EMS-E.

*“EMS instructor”* or *“EMS-I”* means an individual who has successfully completed an EMS instructor curriculum approved by the department and is currently endorsed by the department as an EMS-I.

*“Endorsement”* means an approval granted by the department authorizing an individual to serve as an EMS-I, EMS-E or CCP.

*“First responder”* or *“FR”* means an individual who has successfully completed the current United States Department of Transportation’s first responder curriculum and department enhancements, has passed the department’s approved written and practical examinations, and is currently certified by the department as an FR.

*“First responder-defibrillation”* or *“FR-D”* means an individual who has successfully completed an approved program that specifically addresses defibrillation, has passed the department’s approved written and practical examinations, and is currently certified by the department as an FR-D.

*“Good standing”* means that a student or candidate is in compliance with these rules and training program requirements.

*“Idle”* means the status of a lower certification level when a higher certification level is held.

*“Inactive”* means the status of a certification level when an individual requests inactive status or moves from a higher certification level to a lower certification level that was previously idle.

*“NCA”* means North Central Association of Colleges and Schools.

*“NREMT”* means National Registry of Emergency Medical Technicians.

*“Out-of-state student”* means any individual participating in clinical or field experience as a student in an approved out-of-state training program.

*“Out-of-state training program”* means an EMS program located outside the state of Iowa that is approved by the authorizing agency of the program’s home state to conduct initial EMS training for EMR, EMT, AEMT, paramedic or other level certified by the department.

*“Outreach course coordinator”* means an individual who has been assigned by the training program to coordinate the activities of an emergency medical care provider course held outside the training program facilities.

*“Paramedic”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Paramedic Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examination for the paramedic, and is currently certified by the department as a paramedic.

*“Paramedic specialist”* or *“PS”* means an individual who has successfully completed the current United States Department of Transportation’s EMT-Paramedic curriculum (1999) or equivalent, has passed the department’s approved written and practical examinations, and is currently certified by the department as a paramedic specialist.

*“Patient”* means an individual who is sick, injured, or otherwise incapacitated.

*“Physician”* means an individual licensed under Iowa Code chapter 148.

*“Physician assistant”* or *“PA”* means an individual licensed pursuant to Iowa Code chapter 148C.

*“Physician designee”* means a registered nurse licensed under Iowa Code chapter 152 or any physician assistant licensed under Iowa Code chapter 148C and approved by the board of physician assistants. The physician designee acts as an intermediary for a supervising physician in accordance with written policies and protocols in directing the care provided by emergency medical care providers.

*“Preceptor”* means an individual who has been assigned by the training program, clinical facility or service program to supervise students while the students are completing their clinical or field experience. A preceptor must be an emergency medical care provider certified at the level at which the preceptor is providing supervision or at a higher level or must be licensed as a registered nurse, physician assistant or physician.

*“Primary instructor”* means an individual who is responsible for teaching the majority of an emergency medical care provider course.

*“Protocols”* means written directions and orders consistent with the department’s standard of care that are to be followed by an emergency medical care provider in emergency and nonemergency situations. Protocols must be approved by the service program’s medical director and address the care of both adult and pediatric patients.

*“Registered nurse”* or *“RN”* means an individual licensed pursuant to Iowa Code chapter 152.

*“Service program”* or *“service”* means any medical care ambulance service or nontransport service that has received authorization from the department.

*“Service program area”* means the geographic area of responsibility served by any given ambulance or nontransport service program.

*“Student”* means any individual enrolled in a training program and participating in the didactic, clinical, or field experience portion of the program.

*“Training program”* means an Iowa college approved by the North Central Association of Colleges and Schools or an Iowa hospital authorized by the department to conduct emergency medical care training.

*“Training program director”* means an appropriate health care professional (full-time educator or practitioner of emergency or critical care) assigned by the training program to direct the operation of the training program.

“*Training program medical director*” means a physician licensed under Iowa Code chapter 148 who is responsible for directing an emergency medical care training program.  
 [ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.2(147A) Emergency medical care providers—requirements for enrollment in training programs.** To be enrolled in an EMS training program course leading to certification by the department, an applicant shall:

1. Be at least 17 years of age at the time of enrollment.
2. Have a high school diploma or its equivalent if enrolling in an AEMT or paramedic course.
3. Be able to speak, write and read English.
4. Hold a current course completion card in CPR if enrolling in an EMT, AEMT or paramedic course.
5. Be currently certified, as a minimum, as an EMT if enrolling in an AEMT or paramedic course. If an applicant is currently nationally registered but not certified in Iowa, the applicant must submit an endorsement application to the department within 14 days after the course start date.
6. Be a current emergency medical care provider, RN, PA, or physician and submit a recommendation in writing from an approved EMS training program if enrolling in an EMS instructor course.
7. Be currently certified as a paramedic if enrolling in a CCP course.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.3(147A) Emergency medical care providers—authority.**

**131.3(1)** Authority of emergency medical care personnel. An emergency medical care provider who holds an active certification issued by the department may:

a. Render, via on-line medical direction, emergency and nonemergency medical care in those areas for which the emergency medical care provider is certified as part of an authorized service program:

- (1) At the scene of an emergency;
- (2) During transportation to a hospital;
- (3) While in the hospital emergency department;
- (4) Until patient care is directly assumed by a physician or by authorized hospital personnel; and
- (5) During transfer from one medical care facility to another or to a private home.

b. Function in any hospital or any other entity in which health care is ordinarily provided only when under the direct supervision of a physician when:

- (1) Enrolled as a student in, and approved by, a training program;
- (2) Fulfilling continuing education requirements;
- (3) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician as a member of an authorized service program, or in an individual capacity, by rendering lifesaving services in the facility in which employed or assigned pursuant to the emergency medical care provider’s certification and under direct supervision of a physician, physician assistant, or registered nurse. An emergency medical care provider shall not routinely function without the direct supervision of a physician, physician assistant, or registered nurse. However, when the physician, physician assistant, or registered nurse cannot directly assume emergency care of the patient, the emergency medical care provider may perform, without direct supervision, emergency medical care procedures for which certified, if the life of the patient is in immediate danger and such care is required to preserve the patient’s life;

(4) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician, as a member of an authorized service program, or in an individual capacity, to perform nonlifesaving procedures for which certified and designated in a written job description. Such procedures may be performed after the patient is observed by and when the emergency medical care provider is under the supervision of the physician, physician assistant, or registered nurse, including when the registered nurse is not acting in the capacity of a physician designee, and where the procedure may be immediately abandoned without risk to the patient.

(4) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician, as a member of an authorized service program, or in an individual capacity, to perform nonlifesaving procedures for which certified and designated in a written job description. Such procedures may be performed after the patient is observed by and when the emergency medical care provider is under the supervision of the physician, physician assistant, or registered nurse, including when the registered nurse is not acting in the capacity of a physician designee, and where the procedure may be immediately abandoned without risk to the patient.

(4) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician, as a member of an authorized service program, or in an individual capacity, to perform nonlifesaving procedures for which certified and designated in a written job description. Such procedures may be performed after the patient is observed by and when the emergency medical care provider is under the supervision of the physician, physician assistant, or registered nurse, including when the registered nurse is not acting in the capacity of a physician designee, and where the procedure may be immediately abandoned without risk to the patient.

**131.3(2)** When emergency medical care personnel are functioning in a capacity identified in 131.3(1)“a,” they may perform emergency and nonemergency medical care without contacting a supervising physician or physician designee if written protocols have been approved by the service program medical director which clearly identify when the protocols may be used in lieu of voice contact.

**131.3(3)** Scope of practice.

*a.* Emergency medical care providers shall provide only those services and procedures that are authorized within the scope of practice for which they are certified.

*b.* Scope of Practice for Iowa EMS Providers (June 2016) is hereby incorporated and adopted by reference for emergency medical care providers. For any differences that may occur between the Scope of Practice adopted by reference and these administrative rules, the administrative rules shall prevail.

*c.* The department may grant a variance for changes to the Scope of Practice that have not yet been adopted by reference in these rules. A variance to these rules may be granted by the department pursuant to 641—subrule 132.14(1).

*d.* Scope of Practice for Iowa EMS Providers is available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**131.3(4)** The department may approve emergency medical pilot project(s) on a limited basis. Requests for a pilot project application shall be made to the department.

**131.3(5)** An emergency medical care provider who has knowledge of an emergency medical care provider, service program or training program that has violated Iowa Code chapter 147A or these rules shall report such information to the department within 30 days.

[**ARC 9443B**, IAB 4/6/11, effective 8/1/11; **ARC 0062C**, IAB 4/4/12, effective 5/9/12; **ARC 0480C**, IAB 12/12/12, effective 1/16/13; **ARC 1404C**, IAB 4/2/14, effective 5/7/14; **ARC 2277C**, IAB 12/9/15, effective 1/13/16; **ARC 2767C**, IAB 10/12/16, effective 11/16/16]

**641—131.4(147A) Emergency medical care providers—certification, renewal standards, procedures, continuing education, and fees.**

**131.4(1)** *Student application and candidate examination.*

*a.* Applicants shall complete the EMS Student Registration within 14 days after the beginning of the course. The EMS Student Registration shall be completed via the bureau of EMS Web site at [www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems).

*b.* Upon satisfactory completion of the course and all training program requirements, including payment of appropriate fees, a candidate shall be recommended by a training program to take the appropriate NREMT certification examination. A candidate is not eligible to continue functioning as a student in the clinical and field settings and must obtain state certification to perform appropriate skills.

*c.* A candidate shall submit an EMS Certification Application form to the department. EMS Certification Application forms are provided by the department.

*d.* When a student’s EMS Student Registration or a candidate’s EMS Certification Application is referred to the department for investigation or when a student or candidate is otherwise under investigation by the department, the individual shall not be eligible for certification, and the practical examination results will not be confirmed with the NREMT, until the individual is approved by the department.

*e.* The fee for certification as an emergency medical care provider is \$30, payable to the Iowa Department of Public Health. This nonrefundable fee shall be paid prior to a candidate’s receiving certification.

*f.* A candidate must successfully complete the NREMT practical and cognitive examinations to be eligible for state certification.

*g.* The practical examination may be conducted by an authorized training program and must be conducted according to the policies and procedures of the NREMT.

*h.* A candidate must meet all certification requirements within two years of the initial course completion date. If a candidate is unable to complete the requirements within two years due to medical reasons or military obligation, an extension may be granted upon submission of a signed statement from an appropriate medical or military authority and approval by the department.

*i.* Examination scores shall be confidential except that they may be released to the training program that provided the training or to other appropriate state agencies or released in a manner which does not permit the identification of an individual.

*j.* An applicant for EMS-I endorsement shall successfully complete an EMS-Instructor curriculum approved by the department.

**131.4(2) Multiple certificates and renewal.**

*a.* The department shall consider the highest level of certification attained to be active. Any lower levels of certification shall be considered idle.

*b.* A lower-level certificate may be issued if the individual fails to renew the higher level of certification or voluntarily chooses to move from a higher level to a lower level. To be issued a certificate in these instances, an individual shall:

(1) Complete all applicable continuing education requirements for the lower level during the certification period and submit a change of status request, available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

(2) Complete and submit to the department an EMS Affirmative Renewal of Certification Application and the applicable fee.

(3) Complete the reinstatement process in 131.4(4) “*f*” if renewal of the higher level is requested later.

*c.* A citation and warning, denial, probation, restriction, suspension or revocation imposed upon an individual certificate holder by the department shall be considered applicable to all certificates issued to that individual by the department.

**131.4(3) Certification transition.**

*a.* An individual certified as a first responder based on the 1996 National Standard Curriculum for First Responders, an EMT-B, an EMT-I, an EMT-P or a PS shall complete the following certification transition requirements. Transition documents for each level are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

*b.* FR transition to EMR.

(1) The FR shall complete training identified in the FR to EMR Documentation (January 2011).

(2) The FR shall verify completion of training on the Affirmative Renewal of Certification Application by the certification’s regular expiration date prior to October 1, 2014.

(3) An FR who does not complete the transition requirements will not satisfy the renewal requirements for the certification period immediately prior to October 1, 2014.

*c.* EMT-B transition to EMT.

(1) The EMT-B shall complete training identified in the EMT-B to EMT Documentation (January 2011).

(2) The EMT-B shall verify completion of training on the Affirmative Renewal of Certification Application by the certification’s regular expiration date prior to April 1, 2015.

(3) An EMT-B who does not complete the transition requirements will not satisfy the renewal requirements for the certification period immediately prior to April 1, 2015.

*d.* EMT-I transition to AEMT.

(1) The EMT-I shall submit documentation of training identified in the EMT-I to AEMT Documentation (January 2011) to the department.

(2) The EMT-I shall successfully complete the NREMT computer-based AEMT examination.

(3) A provider certified as an EMT-I who has not completed the transition to AEMT will be issued an EMT certification on April 1, 2016.

*e.* EMT-P transition to paramedic.

(1) The EMT-P shall submit documentation of training identified in the EMT-P to Paramedic Documentation (January 2011) to the department.

(2) The EMT-P shall successfully complete the NREMT computer-based paramedic examination.

(3) A provider certified as an EMT-P who has not completed the transition to paramedic will be issued an AEMT certification on April 1, 2018.

*f.* PS transition to paramedic.

(1) The PS shall complete training identified in the PS to Paramedic Documentation (January 2011).

(2) The PS shall verify completion of training on the Affirmative Renewal of Certification Application by the certification's regular expiration date prior to April 1, 2015.

(3) A PS who does not complete the transition requirements will not satisfy the renewal requirements for the certification period immediately prior to April 1, 2015.

**131.4(4)** *Renewal of certification.*

*a.* A certificate shall be valid for two years from issuance unless specified otherwise on the certificate or unless sooner suspended or revoked.

*b.* All continuing education requirements shall be completed during the certification period prior to the certificate's expiration date. Failure to complete the continuing education requirements prior to the expiration date shall result in an expired certification, unless the emergency medical care provider requests an extension as described in 131.4(11) "b."

*c.* An emergency medical care provider shall submit the EMS Affirmative Renewal of Certification Application to the department within 90 days prior to the expiration date. Failure to submit a renewal application to the department within 90 days prior to the expiration date (date of submission is based upon the postmark date) shall cause the current certification to expire.

*d.* An emergency medical care provider shall not function with an expired certification.

*e.* An emergency medical care provider who completes the required continuing education during the certification period but fails to submit the EMS Affirmative Renewal of Certification Application within 90 days prior to the expiration date shall be required to submit a late fee of \$30 (in addition to the renewal fee) and complete the audit process pursuant to 131.4(5) "i" to obtain renewal of certification.

*f.* An emergency medical care provider who has not completed the required continuing education during the certification period or who is seeking to reinstate an expired, inactive, or retired certificate shall:

(1) Complete a refresher course or equivalent approved by the department.

(2) Meet all applicable eligibility requirements.

(3) Submit an EMS Reinstatement Application and the applicable fees to the department.

(4) Pass the appropriate practical and cognitive certification examinations.

*g.* An emergency medical care provider may request an inactive or retired status for a certificate. The request must be made by submitting a change of status request, available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)). Reinstatement of an inactive or retired certificate shall be made pursuant to 131.4(4) "f." A request for inactive or retired status, when accepted in connection with a disciplinary investigation or proceeding, has the same effect as an order of revocation.

*h.* An emergency medical care provider shall be deemed to have complied with the continuing education requirements during periods in which the provider serves honorably on active duty in the military services or for periods in which the provider is a government employee working as an emergency medical care provider and assigned to duty outside the United States. The emergency medical care provider must submit the Affirmative Renewal of Certification Application, all appropriate fees and documentation of assignment.

**131.4(5)** *Continuing education renewal standards.* The following standards apply to renewal through continuing education:

*a.* An applicant shall sign and submit an Affirmative Renewal of Certification Application provided by the department and submit the applicable fee within 90 days prior to the certificate's expiration date.

*b.* An applicant shall complete the continuing education requirements, including current course completion in CPR, during the certification period for the following emergency medical care provider levels:

- (1) EMR, FR, FR-D—12 hours of approved continuing education.
- (2) EMT, EMT-A, EMT-B, EMT-D—24 hours of approved continuing education.
- (3) AEMT, EMT-I—36 hours of approved continuing education.
- (4) EMT-P—48 hours of approved continuing education.
- (5) PS, paramedic—60 hours of approved continuing education.
- (6) EMS-I—Attend at least one EMS-I workshop sponsored by the department.
- (7) CCP—8 hours of approved CCP core curriculum topics.

*c.* At least 50 percent of the required hours for renewal shall be formal continuing education including, but not limited to, refresher programs, seminars, lecture programs, scenario-based programs, conferences, and Internet-delivered courses approved by CECBEMS and shall meet the criteria established in 131.4(6) “*d.*”

*d.* Up to 50 percent of the required continuing education hours may be made up of any of the following:

- (1) Nationally recognized EMS-related courses.
- (2) EMS self-study courses.
- (3) Medical director or designee case reviews.
- (4) Clinical rounds with medical team (grand rounds).
- (5) Working with students as an EMS field preceptor.
- (6) Hospital or nursing home clinical performance.
- (7) Skills workshops/maintenance.
- (8) Community public information education projects.
- (9) Emergency driver training.
- (10) EMS course audits.
- (11) Injury prevention or wellness initiatives.
- (12) EMS service operations, e.g., management programs, continuous quality improvement.
- (13) EMS system development meetings that occur at the county, regional or state level.
- (14) Disaster preparedness.
- (15) Emergency runs/responses as a volunteer member of an authorized EMS service program (primary attendant).
- (16) EMS-Instructor development.

*e.* Additional hours may be allowed for any of the following (maximum):

- (1) CPR—2 hours.
- (2) Disaster drill—4 hours.
- (3) Rescue—4 hours.
- (4) Hazardous materials—8 hours.
- (5) Practical examination evaluator—4 hours.
- (6) Topics outside the provider’s core curriculum—8 hours.

*f.* With training program approval, a person who is not enrolled in an emergency medical care provider course may audit the course for CEHs.

*g.* The certificate holder must notify the department within 30 days of a change in address.

*h.* The certificate holder shall maintain a file containing documentation of CEHs accrued during each certification period for four years from the end of each certification period.

*i.* A group of individual certificate holders will be audited for each certification period. Certificate holders to be audited will be chosen in a random manner or at the discretion of the bureau of EMS. Falsifying reports or failure to comply with the audit request may result in formal disciplinary action. Certificate holders who are audited will be required to submit an Audit Report Form provided by the department within 45 days of the request. If audited, the certificate holders must provide the following information:

- (1) Date of program.
- (2) Program sponsor number.
- (3) Title of program.
- (4) Number of approved hours.

(5) Appropriate supervisor signatures if clinical or practical evaluator hours are claimed.

*j.* An EMS instructor who teaches EMS initial or continuing education courses may use those courses for renewal as approved under subrule 131.4(6).

**131.4(6) Continuing education approval.** The following standards shall be applied for approval of continuing education:

*a.* Required CEHs identified in 131.4(5) “*c*” shall be approved by the department, CECBEMS, or an authorized EMS training program, using a sponsor number assignment system approved by the department.

*b.* Optional CEHs identified in 131.4(5) “*d*” and 131.4(5) “*e*” require no formal sponsor number; however, CEHs awarded shall be verified by an authorized EMS training program, a national EMS continuing education accreditation entity, a service program medical director, an appropriate community sponsor, or the department. Documentation of CEHs awarded shall include the date and title of the program or event, the number of hours approved, and the applicable signatures.

*c.* Courses in physical, social or behavioral sciences offered by accredited colleges and universities are approved for CEHs and need no further approval. One quarter credit equals 10 hours. One semester credit equals 15 hours.

*d.* Courses approved as formal education must meet the following criteria:

(1) Involve live interaction with an instructor or be an Internet-delivered course approved by CECBEMS; and

(2) Be based on the appropriate department curricula for EMS providers and include one or more of the following topic areas: airway management, patient assessment, trauma assessment and management, medical assessment and management, behavioral emergencies, obstetrics, gynecology, pediatrics, or patient care record documentation.

*e.* Programs developed and delivered by the department may be approved for formal education.

**131.4(7) Out-of-state continuing education.** Out-of-state continuing education courses will be accepted for CEHs if they meet the criteria in subrule 131.4(5) and have been approved for emergency medical care personnel in the state in which the courses were held. A copy of course completion certificates (or other verifying documentation) shall, upon request, be submitted to the department with the EMS Affirmative Renewal of Certification Application.

**131.4(8) Fees.** The following fees shall be collected by the department and shall be nonrefundable:

*a.* FR, EMR, EMT-B, EMT, EMT-I, AEMT, EMT-P, PS and paramedic certification fee—\$30.

*b.* Certification renewal fees:

(1) FR, EMR, EMT-B, and EMT—no fee.

(2) EMT-I, AEMT—\$10.

(3) EMT-P, PS and paramedic—\$25.

A certification renewal fee is refundable if the applicant’s certification renewal status is not posted on the bureau of EMS Web site in the certification database within ten working days from the date the department receives the completed renewal application.

*c.* Endorsement certification fee—\$50.

*d.* Reinstatement fee—\$30.

*e.* Late fee—\$30.

*f.* Duplicate/replacement card—\$10.

*g.* Returned check—\$20.

*h.* Extension fee—\$50.

**131.4(9) Certification through reciprocity.** An individual currently certified by the NREMT must also possess a current Iowa certificate to be considered certified in this state. The department shall contact the NREMT to verify certification or registry and good standing.

*a.* To receive Iowa certification, the individual shall:

(1) Complete and submit the EMS Reciprocity Application available from the department.

(2) Provide verification of current certification in another state, if applicable, and registration with the NREMT.

(3) Provide verification of current course completion in CPR.

(4) Meet all other applicable eligibility requirements necessary for Iowa certification pursuant to these rules.

(5) Submit all applicable fees to the department.

*b.* An individual certified through reciprocity shall satisfy the renewal and continuing education requirements set forth in subrule 131.4(4) to renew Iowa certification.

**131.4(10) National registration in lieu of continuing education.**

*a.* An emergency medical care provider who is certified in Iowa and is registered with the NREMT may renew certification by meeting the NREMT reregistration requirements.

*b.* The emergency medical care provider shall submit the NREMT Registration in Lieu of Continuing Education Application, available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)), to the department, with proof of NREMT registration exceeding the current certification expiration date, within 90 days prior to the expiration date.

**131.4(11) Extension of certification.**

*a.* If an emergency medical care provider is unable to complete the required continuing education during the certification period due to a medical reason, an extension of certification may be issued upon submission of a signed statement from an appropriate medical provider and approval by the department. The statement must include information concerning the reason the emergency medical care provider could not complete the continuing education requirements, the time period affected, and the length of time requested for extension.

*b.* If an emergency medical care provider is unable to attain all continuing education requirements within the certification period, a 45-day extension may be granted. To complete the extension process, the provider shall:

(1) Submit a Request for Extension Application, available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)), at least 7 days prior to the expiration date, but no more than 90 days prior to the expiration date, and a \$50 extension fee.

(2) Be given 45 days from the current expiration date to complete continuing education requirements.

(3) Submit the EMS Affirmative Renewal of Certification Application, with all applicable renewal fees, to the department prior to the extended expiration date (date of submission is based on the postmark date).

(4) Not use continuing education completed during the extension period in the subsequent renewal period.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

#### **641—131.5(147A) Training programs—standards, application, inspection and approval.**

**131.5(1) Education standards.**

*a.* A training program shall use the applicable United States Department of Transportation's Education Standards (January 2009) for courses leading to certification.

*b.* A training program shall use the EMS-Instructor curriculum approved by the department for courses leading to the EMS-I endorsement.

*c.* A training program shall use the Iowa CCP curriculum (January 2016) for courses leading to the CCP endorsement.

*d.* A training program may waive portions of the required emergency medical care provider training for individuals certified as emergency medical care providers or licensed in other health care professions including, but not limited to, nursing, physician assistant, respiratory therapist, dentistry, and military. The training program shall document equivalent training and what portions of the course have been waived for equivalency.

**131.5(2) Clinical or field experience resources.** If clinical or field experience resources are located outside the framework of the training program, written agreements for such resources shall be obtained by the training program.

**131.5(3) Facilities.**

a. A training program shall ensure adequate classroom, laboratory, and practice space to conduct the training program. A library with reference materials on emergency and critical care shall also be available.

b. A training program shall ensure opportunities for the student to accomplish the appropriate skill competencies in the clinical environment. The following hospital units shall be available for clinical experience for each training program as required in approved education standards pursuant to subrule 131.5(1):

- (1) Emergency department;
- (2) Intensive care unit or coronary care unit or both;
- (3) Operating room and recovery room;
- (4) Intravenous or phlebotomy team or other method to obtain IV experience;
- (5) Pediatric unit;
- (6) Labor and delivery suite and newborn nursery; and
- (7) Psychiatric unit.

c. A training program shall ensure opportunities for the student to accomplish the appropriate skill competencies in the field environment. The training program shall use an appropriate emergency medical care service program to provide field experience as required in approved education standards pursuant to subrule 131.5(1).

d. A training program shall have liability insurance and shall offer liability insurance to students while they are enrolled in the training program.

**131.5(4) Staff.**

a. A training program medical director shall be a physician licensed under Iowa Code chapter 148.

b. A training program director who is an appropriate health care professional shall be appointed. This individual shall be a full-time educator or a practitioner in emergency or critical care.

c. Course coordinators, outreach course coordinators, and primary instructors used by the training program shall be currently endorsed as EMS instructors.

d. The instructional staff shall be comprised of physicians, nurses, pharmacists, emergency medical care personnel, or other health care professionals who have appropriate education and experience in emergency and critical care.

e. Preceptors shall be assigned in each of the clinical units in which emergency medical care students are obtaining clinical experience and field experience. The preceptors shall supervise student activities to ensure the quality and relevance of the experience. Student activity records shall be kept and reviewed by the immediate supervisor(s) and by the program director and course coordinator.

f. If a training program's medical director resigns, the training program director shall report this to the department and provide a curriculum vitae for the medical director's replacement. A new course shall not be started until a qualified medical director has been appointed.

g. A training program shall maintain records pertaining to each instructor used which include, as a minimum, the instructor's qualifications.

h. A training program is responsible for ensuring that each instructor is experienced in the area being taught and adheres to the education standards.

i. The training program shall ensure that each practical examination evaluator and mock patient is familiar with the NREMT practical examination requirements and procedures. Practical examination evaluators shall attend a workshop sponsored by the department and have the evaluator endorsement.

**131.5(5) Advisory committee.** There shall be an advisory committee which includes training program representatives and representatives from other groups such as affiliated medical facilities, local medical establishments, and ambulance, rescue and first response service programs.

**131.5(6) Student records.** A training program shall maintain an individual record for each student. Training program policy and department requirements will determine contents. These requirements include, but are not limited to:

- a. Application;
- b. Current certifications and endorsements;

c. Student record or transcript of hours and performance (including examinations) in classroom, clinical, and field experience settings.

**131.5(7) Selection of students.** There may be a selection committee to select students. The selection committee shall use, as a minimum, the prerequisites outlined in rule 641—131.2(147A).

**131.5(8) Students.**

a. A student may perform any procedures and skills for which the student has received training if the student is under the direct supervision of a physician or physician designee or under the remote supervision of a physician or physician designee with direct field supervision by an appropriately certified emergency medical care provider.

b. A student shall not be substituted for the regular personnel of any affiliated medical facility or service program but may be employed while enrolled in the training program.

c. A student is not eligible to continue functioning as a student of the training program in the clinical or field setting if the student is not in good standing with the training program, once the student has met the training program requirements, or once the student has been approved for certification testing.

**131.5(9) Financing and administration.**

a. There shall be sufficient funding available to the training program to ensure that each class started can be completed.

b. Tuition charged to students shall be accurately stated.

c. Advertising for training programs shall be appropriate.

d. A training program shall provide to each student, no later than the first session of the course, a guide that outlines, as a minimum:

(1) Course objectives.

(2) Required hours for completion.

(3) Minimum acceptable scores on interim testing.

(4) Attendance requirements.

(5) Grievance procedure.

(6) Disciplinary actions that may be invoked, the grounds for such actions, and the process provided.

(7) Requirements for certification.

**131.5(10) Training program application, inspection and approval.**

a. A training program graduating students at the paramedic level after December 31, 2012, must be accredited by, or must have submitted a self-study application to, the Committee on Accreditation for the Emergency Medical Services Professions.

b. A training program seeking initial or renewal approval shall use the EMS Training Program Application provided by the department. The application shall include, as a minimum:

(1) Names of appropriate officials of the training program;

(2) Evidence of availability of clinical resources;

(3) Evidence of availability of physical facilities;

(4) Evidence of qualified faculty;

(5) Qualifications and major responsibilities of each faculty member;

(6) Policies used for selection, promotion, and graduation of trainees;

(7) Practices followed in safeguarding the health and well-being of trainees and of patients receiving emergency medical care within the scope of the training program; and

(8) Level(s) of EMS certification to be offered.

c. A new training program shall submit a needs assessment which justifies the need for the training program.

d. Applications shall be reviewed by the department in accordance with the 2005 Standards and Guidelines for the Accreditation of Educational Programs in the Emergency Medical Services Professions, published by the Commission on Accreditation of Allied Health Education Programs. Failure to comply with the standards may lead to disciplinary action as described in rule 641—131.8(147A).

*e.* The department shall perform an on-site inspection of the training program's facilities and clinical resources. The purpose of the inspection is to examine educational objectives, patient care practices, facilities and administrative practices and to prepare a written report for review and action by the department.

*f.* The department shall inspect each training program at least once every five years. The department without prior notification may make additional inspections at times, places and under such circumstances as it deems necessary to ensure compliance with Iowa Code chapter 147A and these rules.

*g.* No person shall interfere with the inspection activities of the department or its agents. Interference with or failure to allow an inspection may be cause for disciplinary action regarding training program approval.

*h.* Representatives of the training program may be required by the department to meet with the department at the time the application and inspection report are discussed.

*i.* A written report of department action and the department inspection report shall be sent to the training program.

*j.* Training program approval shall not exceed five years.

*k.* A training program shall notify the department, in writing, of any change in ownership or control within 30 days.

*l.* Temporary variances. If during a period of authorization there is some occurrence that temporarily causes a training program to be in noncompliance with these rules, the department may grant a temporary variance. Temporary variances to these rules (not to exceed six months in length per any approved request) may be granted by the department to a currently authorized training program. Requests for temporary variances shall apply only to the training program requesting the variance and shall apply only to those requirements and standards for which the department is responsible. To request a variance, the training program shall:

(1) Notify the department verbally (as soon as possible) of the need to request a temporary variance. The program shall submit to the department, within ten days after having given verbal notification to the department, a written explanation for the temporary variance request. The address is Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075.

(2) Cite the rule from which the variance is requested.

(3) State why compliance with the rule cannot be maintained.

(4) Explain the alternative arrangements that have been or will be made regarding the variance request.

(5) Estimate the period of time for which the variance will be needed.

*m.* Training program applications and on-site inspection reports are public information.

**131.5(11)** *Out-of-state training program application and approval.*

*a.* An out-of-state training program shall apply to the department for approval.

*b.* An out-of-state training program seeking department approval shall use the out-of-state training program application provided by the department. The application shall include, as a minimum:

(1) Verification of approval to conduct initial EMS training by the authorizing agency within the out-of-state training program's home state;

(2) Evidence of oversight provided by a physician medical director;

(3) Evidence of qualified faculty;

(4) Evidence of curriculum utilized;

(5) Evidence of written contracts between the out-of-state training program and clinical and field sites being utilized within Iowa; and

(6) Description of practices followed in safeguarding the health and well-being of trainees and of patients receiving emergency medical care within the scope of the training program.

*c.* An out-of-state training program shall provide the department with a roster of students who will be participating in the clinical or field experience within the state of Iowa and, for each program, the sites where the students will be participating.

*d.* An out-of-state training program shall not be authorized to provide initial EMS training within the state of Iowa.

*e.* An out-of-state training program shall be limited to utilization of clinical or field sites or both within Iowa.

*f.* Representatives of the out-of-state training program may be required by the department to meet with the department at the time the application is discussed.

*g.* An out-of-state training program approval shall not exceed five years.

*h.* An out-of-state training program shall notify the department, in writing, of any change in ownership, control, or approval status by the out-of-state training program's authorizing state agency within 30 days.

**131.5(12) *Out-of-state students.***

*a.* An out-of-state student shall be registered in good standing in an approved out-of-state training program.

*b.* An out-of-state student may perform any procedures and skills for which the student is training provided that the procedure or skill is within the Iowa scope of practice policy of a comparable Iowa emergency medical care provider. The student must be under the direct supervision of a physician or physician designee or under the remote supervision of a physician or physician designee with direct supervision by an appropriately certified emergency medical care provider.

*c.* An out-of-state student shall not be substituted for personnel of any affiliated medical facility or service program but may be employed while enrolled in the training program.

*d.* An out-of-state student participating in the clinical or field setting within the state of Iowa shall provide documentation of liability insurance.

*e.* An out-of-state student is not eligible to continue functioning as a student of the approved out-of-state training program in the clinical or field setting if the student is not in good standing with the approved out-of-state training program, once the student has met the training program's requirements, or once the student has been approved for certification testing.

*f.* An out-of-state student shall not be eligible for Iowa EMS certification without meeting the requirements for certification through reciprocity in subrule 131.4(9).

[ARC 9443B, IAB 4/6/11, effective 8/1/11; ARC 2767C, IAB 10/12/16, effective 11/16/16]

**641—131.6(147A) Continuing education providers—approval, record keeping and inspection.**

**131.6(1)** Continuing education courses for emergency medical care personnel may be approved by the department, an EMS training program or a national EMS continuing education accreditation entity.

**131.6(2)** A training program may conduct continuing education courses (utilizing appropriate instructors) pursuant to subrule 131.4(6).

*a.* Each training program shall assign a sponsor number to each appropriate continuing education course using an assignment system approved by the department.

*b.* Course approval shall be completed prior to the course's being offered.

*c.* Each training program shall maintain a participant record that includes, as a minimum:

- (1) Name.
- (2) Address.
- (3) Certification number.
- (4) Course sponsor number.
- (5) Course instructor.
- (6) Date of course.
- (7) CEHs awarded.

*d.* Each training program shall submit to the department on a quarterly basis a completed Approved EMS Continuing Education Form.

**131.6(3) Record keeping and record inspection.**

*a.* To ensure compliance or to verify the validity of any training program application, the department may request additional information or inspect the records of any continuing education provider who is currently approved or who is seeking approval.

*b.* No person shall interfere with the inspection activities of the department or its agents. Interference with or failure to allow an inspection may be cause for disciplinary action regarding training program approval.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.7(147A) Complaints and investigations—denial, citation and warning, probation, suspension, or revocation of emergency medical care personnel certificates or renewal.**

**131.7(1)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**131.7(2)** Method of discipline. The department has the authority to impose the following disciplinary sanctions against an emergency medical care provider:

- a.* Issue a citation and warning.
- b.* Impose a civil penalty not to exceed \$1000.
- c.* Require reexamination.
- d.* Require additional education or training.
- e.* Impose a period of probation under specific conditions.
- f.* Prohibit permanently, until further order of the department, or for a specific period, a provider's ability to engage in specific procedures, methods, acts or activities incident to the practice of the profession.
- g.* Suspend a certificate until further order of the department or for a specific period.
- h.* Deny an application for certification.
- i.* Revoke a certification.
- j.* Impose such other sanctions as allowed by law and as may be appropriate.

**131.7(3)** The department may deny an application for issuance or renewal of an emergency medical care provider certificate, including endorsement, or may impose any of the disciplinary sanctions provided in subrule 131.7(2) when it finds that the applicant or certificate holder has committed any of the following acts or offenses:

- a.* Negligence in performing emergency medical care.
- b.* Failure to follow the directions of supervising physicians or their designees.
- c.* Rendering treatment not authorized under Iowa Code chapter 147A.
- d.* Fraud in procuring certification or renewal including, but not limited to:
  - (1) An intentional perversion of the truth in making application for a certification to practice in this state;
  - (2) False representations of a material fact, whether by word or by conduct, by false or misleading allegations, or by concealment of that which should have been disclosed when making application for a certification in this state; or
  - (3) Attempting to file or filing with the department or training program any false or forged diploma or certificate or affidavit or identification or qualification in making an application for a certification in this state.
- e.* Professional incompetency. Professional incompetency includes, but is not limited to:
  - (1) A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.
  - (2) A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other emergency medical care providers in the state of Iowa acting in the same or similar circumstances.
  - (3) A failure to exercise the degree of care which is ordinarily exercised by the average emergency medical care provider acting in the same or similar circumstances.
  - (4) Failure to conform to the minimal standard of acceptable and prevailing practice of certified emergency medical care providers in this state.
- f.* Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof

of actual injury need not be established. Acts which may constitute unethical conduct include, but are not limited to:

- (1) Verbally or physically abusing a patient or coworker.
- (2) Improper sexual contact with or making suggestive, lewd, lascivious or improper remarks or advances to a patient or coworker.
- (3) Betrayal of a professional confidence.
- (4) Engaging in a professional conflict of interest.
- (5) Falsification of medical records.
- g.* Engaging in any conduct that subverts or attempts to subvert a department investigation.
- h.* Failure to comply with a subpoena issued by the department or failure to cooperate with an investigation of the department.
- i.* Failure to comply with the terms of a department order or the terms of a settlement agreement or consent order.
- j.* Failure to report another emergency medical care provider to the department for any violations listed in these rules, pursuant to Iowa Code chapter 147A.
- k.* Knowingly aiding, assisting or advising a person to unlawfully practice EMS.
- l.* Representing oneself as an emergency medical care provider when one's certification has been suspended or revoked or when one's certification is lapsed or has been placed on inactive status.
- m.* Permitting the use of a certification by a noncertified person for any purpose.
- n.* Mental or physical inability reasonably related to and adversely affecting the emergency medical care provider's ability to practice in a safe and competent manner.
- o.* Being adjudged mentally incompetent by a court of competent jurisdiction.
- p.* Sexual harassment of a patient, student, or supervisee. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- q.* Habitual intoxication or addiction to drugs.
  - (1) The inability of an emergency medical care provider to practice with reasonable skill and safety by reason of the excessive use of alcohol on a continuing basis.
  - (2) The excessive use of drugs which may impair an emergency medical care provider's ability to practice with reasonable skill or safety.
  - (3) Obtaining, possessing, attempting to obtain or possess, or administering controlled substances without lawful authority.
- r.* Fraud in representation as to skill, ability or certification.
- s.* Willful or repeated violations of Iowa Code chapter 147A or these rules.
- t.* Violating a statute of this state, another state, or the United States, without regard to its designation as either a felony or misdemeanor, which relates to the provision of emergency medical care, including but not limited to a crime involving dishonesty, fraud, theft, embezzlement, controlled substances, substance abuse, assault, sexual abuse, sexual misconduct, or homicide. A copy of the record of conviction or plea of guilty is conclusive evidence of the violation.
- u.* Having certification to practice emergency medical care suspended or revoked or having other disciplinary action taken by a licensing or certifying authority of this state or another state, territory or country. A copy of the record or order of suspension, revocation or disciplinary action is conclusive or prima facie evidence.
- v.* Falsifying certification renewal reports or failure to comply with the renewal audit request.
- w.* Acceptance of any fee by fraud or misrepresentation.
- x.* Repeated failure to comply with standard precautions for preventing transmission of infectious diseases as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.
- y.* Violating privacy and confidentiality. An emergency medical care provider shall not disclose or be compelled to disclose patient information unless required or authorized by law.
- z.* Discrimination. An emergency medical care provider shall not practice, condone, or facilitate discrimination against a patient, student, or supervisee on the basis of race, ethnicity, national origin,

color, sex, sexual orientation, age, marital status, political belief, religion, mental or physical disability, diagnosis, or social or economic status.

*aa.* Practicing emergency medical services or using a designation of certification or otherwise holding oneself out as practicing emergency medical services at a certain level of certification when the emergency medical care provider is not certified at such level.

*ab.* Failure to respond within 30 days of receipt, unless otherwise specified, of communication from the department which was sent by registered or certified mail.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.8(147A) Complaints and investigations—denial, citation and warning, probation, suspension, or revocation of training program approval or renewal.**

**131.8(1)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**131.8(2)** Method of discipline. The department has the authority to impose the following disciplinary sanctions against a training program:

- a.* Issue a citation and warning.
- b.* Impose a period of probation under specific conditions.
- c.* Prohibit permanently, until further order of the department, or for a specific period, a program's ability to engage in specific procedures, methods, acts or activities incident to the practice of the profession.
- d.* Suspend an authorization until further order of the department or for a specific period.
- e.* Deny an application for authorization.
- f.* Revoke an authorization.
- g.* Impose such other sanctions as allowed by law and as may be appropriate.

**131.8(3)** The department may impose any of the disciplinary sanctions provided in subrule 131.8(2) when it finds that the training program or applicant has failed to meet the applicable provisions of these rules or has committed any of the following acts or offenses:

- a.* Fraud in procuring approval or renewal.
- b.* Falsification of training or continuing education records.
- c.* Suspension or revocation of approval to provide emergency medical care training or other disciplinary action taken pursuant to Iowa Code chapter 147A. A certified copy of the record or order of suspension, revocation or disciplinary action is conclusive or prima facie evidence.
- d.* Engaging in any conduct that subverts or attempts to subvert a department investigation.
- e.* Failure to respond within 30 days of receipt of communication from the department which was sent by registered or certified mail.
- f.* Failure to comply with a subpoena issued by the department or failure to cooperate with an investigation of the department.
- g.* Failure to comply with the terms of a department order or the terms of a settlement agreement or consent order.
- h.* Submission of a false report of continuing education or failure to submit the quarterly report of continuing education.
- i.* Knowingly aiding, assisting or advising a person to unlawfully practice EMS.
- j.* Representing itself as an approved training program or continuing education provider when approval has been suspended or revoked or when approval has lapsed or has been placed on inactive status.
- k.* Using an unqualified individual as an instructor or evaluator.
- l.* Allowing verbal or physical abuse of a student or staff.
- m.* A training program provider or continuing education provider shall not sexually harass a patient, student, or supervisee. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- n.* Betrayal of a professional confidence.
- o.* Engaging in a professional conflict of interest.

*p.* Discrimination. A training program or continuing education provider shall not practice, condone, or facilitate discrimination against a patient, student, or supervisee on the basis of race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, mental or physical disability, diagnosis, or social or economic status.

*q.* Failure to comply with the 2005 Standards and Guidelines for the Accreditation of Educational Programs in the Emergency Medical Services Professions, published by the Commission on Accreditation of Allied Health Education Programs.  
[ARC 9443B, IAB 4/6/11, effective 8/1/11]

#### **641—131.9(147A) Reinstatement of certification.**

**131.9(1)** Any person whose certification to practice has been revoked or suspended may apply to the department for reinstatement in accordance with the terms and conditions of the order of revocation or suspension, unless the order of revocation provides that the certification is permanently revoked.

**131.9(2)** If the order of revocation or suspension did not establish terms and conditions upon which reinstatement might occur or if the certification was voluntarily surrendered, an initial application for reinstatement may not be made until one year has elapsed from the date of the order or the date of the voluntary surrender.

**131.9(3)** All proceedings for reinstatement shall be initiated by the respondent, who shall file with the department an application for reinstatement of the certification. Such application shall be docketed in the original case in which the certification was revoked, suspended, or relinquished. All proceedings upon the application for reinstatement shall be subject to the same rules of procedure as other cases before the department.

**131.9(4)** An application for reinstatement shall allege facts which, if established, will be sufficient to enable the department to determine that the basis for the revocation or suspension of the respondent's certification no longer exists and that it will be in the public interest for the certification to be reinstated. The burden of proof to establish such facts shall be on the respondent.

**131.9(5)** An order denying or granting reinstatement shall be based upon a decision which incorporates findings of facts and conclusions of law. The order shall be published as provided for in this chapter.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

#### **641—131.10(147A) Certification denial.**

**131.10(1)** An applicant who has been denied certification by the department may appeal the denial and request a hearing on the issues related to the licensure denial by serving a notice of appeal and request for hearing upon the department not more than 20 days following the date of mailing of the notification of certification denial to the applicant. The request for hearing shall specifically delineate the facts to be contested at hearing.

**131.10(2)** All hearings held pursuant to this rule shall be held pursuant to the process outlined in this chapter.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.11(147A) Emergency adjudicative proceedings.** To the extent necessary to prevent or avoid immediate danger to the public health, safety or welfare and consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18 to suspend a certificate in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order.

**131.11(1)** Before issuing an emergency adjudicative order, the department shall consider factors including, but not limited to, the following:

*a.* Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;

*b.* Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;

- c.* Whether the individual required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;
- d.* Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and
- e.* Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

**131.11(2) Issuance of order.**

*a.* An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action. The order is a public record.

*b.* The written emergency adjudicative order shall be immediately delivered to the individual who is required to comply with the order. Delivery shall be made by one or more of the following procedures:

- (1) Personal delivery.
- (2) Certified mail, return receipt requested, to the last address on file with the department.
- (3) Fax. Fax may be used as the sole method of delivery if the individual required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

*c.* To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

*d.* Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the individual who is required to comply with the order.

*e.* After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

*f.* Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the individual that is required to comply with the order is the party requesting the continuance.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.12(147A) Complaints, investigations and appeals.**

**131.12(1)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**131.12(2)** All complaints regarding emergency medical care personnel, training programs or continuing education providers, or those purporting to be or operating as the same, shall be reported to the department in writing. The address is Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**131.12(3)** An emergency medical care provider who has knowledge of an emergency medical care provider or service program that has violated Iowa Code chapter 147A, 641—Chapter 132 or these rules shall report such information to the department.

**131.12(4)** Complaint investigations may result in the department's issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**131.12(5)** A determination of mental incompetence by a court of competent jurisdiction automatically suspends a certificate for the duration of the certificate unless the department orders otherwise.

**131.12(6)** Notice of denial, issuance of a citation and warning, probation, suspension or revocation shall be affected in accordance with the requirements of Iowa Code section 17A.12. Notice to the alleged violator of denial, probation, suspension or revocation shall be served by certified mail, return receipt requested, or by personal service.

**131.12(7)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice to take action. The address is Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**131.12(8)** Upon receipt of a request for hearing, the department shall forward the request within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**131.12(9)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10.

**131.12(10)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken as provided in subrule 131.12(11).

**131.12(11)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**131.12(12)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**131.12(13)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or by personal service.

**131.12(14)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**131.12(15)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**131.12(16)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**131.12(17)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, the news media or employer.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

CHAPTER 132  
EMERGENCY MEDICAL SERVICES—SERVICE PROGRAM AUTHORIZATION

[Joint Rules pursuant to 147A.4]

[Prior to 7/29/87, Health Department[470] Ch 132]

**641—132.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Advanced emergency medical technician*” or “*AEMT*” means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Advanced Emergency Medical Technician Instructional Guidelines (January 2009), has passed the National Registry of Emergency Medical Technicians (NREMT) practical and cognitive examinations for the AEMT, and is currently certified by the department as an AEMT.

“*Ambulance*” means any privately or publicly owned ground vehicle specifically designed, modified, constructed, equipped, staffed and used regularly to transport the sick, injured or otherwise incapacitated.

“*Ambulance service*” means any privately or publicly owned service program which utilizes ambulances in order to provide patient transportation and emergency medical services.

“*Automated defibrillator*” means any external semiautomatic device that determines whether defibrillation is required.

“*Automated external defibrillator*” or “*AED*” means an external semiautomated device that determines whether defibrillation is required.

“*CEH*” means “continuing education hour” which is based upon a minimum of 50 minutes of training per hour.

“*Continuous quality improvement (CQI)*” means a program that is an ongoing process to monitor standards at all EMS operational levels including the structure, process, and outcomes of the patient care event.

“*CPR*” means training and successful course completion in cardiopulmonary resuscitation, AED and obstructed airway procedures for all age groups according to recognized national standards.

“*Critical care paramedic*” or “*CCP*” means a currently certified paramedic specialist or paramedic who has successfully completed a critical care course of instruction approved by the department and has received endorsement from the department as a critical care paramedic.

“*Critical care transport*” or “*CCT*” means specialty care patient transportation, when medically necessary for a critically ill or injured patient needing critical care paramedic skills, provided by an authorized ambulance service that is approved by the department to provide critical care transportation and staffed by one or more critical care paramedics or other health care professional in an appropriate specialty area.

“*Current course completion*” means written recognition given for training and successful course completion of CPR with an expiration date or a recommended renewal date that exceeds the current date.

“*Deficiency*” means noncompliance with Iowa Code chapter 147A or these rules.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Direct supervision*” means services provided by an EMS provider in a hospital setting or other health care entity in which health care is ordinarily performed when in the personal presence of a physician or under the direction of a physician who is immediately available or under the direction of a physician assistant or registered nurse who is immediately available and is acting consistent with adopted policies and protocols of a hospital or other health care entity.

“*Emergency medical care*” means such medical procedures as:

1. Administration of intravenous solutions.
2. Intubation.
3. Performance of cardiac defibrillation and synchronized cardioversion.
4. Administration of emergency drugs as provided by protocol.
5. Any medical procedure authorized by 641—subrule 131.3(3).

*“Emergency medical care provider”* means an individual who has been trained to provide emergency and nonemergency medical care at the EMR, EMT, AEMT, paramedic or other certification levels recognized by the department before 2011 and who has been issued a certificate by the department.

*“Emergency medical responder”* or *“EMR”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Emergency Medical Responder Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the EMR, and is currently certified by the department as an EMR.

*“Emergency medical services”* or *“EMS”* means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

*“Emergency medical technician”* or *“EMT”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Emergency Medical Technician Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the EMT, and is currently certified by the department as an EMT.

*“Emergency medical technician-basic (EMT-B)”* means an individual who has successfully completed the current United States Department of Transportation’s Emergency Medical Technician-Basic curriculum and department enhancements, passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-B.

*“Emergency medical technician-intermediate (EMT-I)”* means an individual who has successfully completed an EMT-intermediate curriculum approved by the department, passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-I.

*“Emergency medical technician-paramedic”* or *“EMT-P”* means an individual who has successfully completed the United States Department of Transportation’s EMT-Intermediate (1999) or the 1985 or earlier DOT EMT-P curriculum, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-P.

*“Emergency medical transportation”* means the transportation, by ambulance, of sick, injured or otherwise incapacitated persons who require emergency medical care.

*“EMS advisory council”* means a council appointed by the director to advise the director and develop policy recommendations concerning regulation, administration, and coordination of emergency medical services in the state.

*“EMS contingency plan”* means an agreement or dispatching policy between two or more ambulance service programs that addresses how and under what circumstances patient transportation will be provided in a given service area when coverage is not possible due to unforeseen circumstances.

*“EMS system”* is any specific arrangement of emergency medical personnel, equipment, and supplies designed to function in a coordinated fashion.

*“Endorsement”* means an approval granted by the department authorizing an individual to serve as an EMS-I, EMS-E or CCP.

*“First responder (FR)”* means an individual who has successfully completed the current United States Department of Transportation’s First Responder curriculum and department enhancements, passed the department’s approved written and practical examinations, and is currently certified by the department as an FR.

*“First response vehicle”* means any privately or publicly owned vehicle which is used solely for the transportation of emergency medical care personnel and equipment to and from the scene of a medical or nonmedical emergency.

*“Hospital”* means any hospital licensed under the provisions of Iowa Code chapter 135B.

*“Inclusion criteria”* means criteria determined by the department and adopted by reference to determine which patients are to be included in the Iowa EMS service program registry or the trauma registry.

*“Intermediate”* means an emergency medical technician-intermediate.

*“Iowa EMS Patient Registry Data Dictionary”* means reportable data elements for all ambulance service responses and definitions determined by the department and adopted by reference.

*“Medical direction”* means direction, advice, or orders provided by a medical director, supervising physician, or physician designee (in accordance with written parameters and protocols) to emergency medical care personnel.

*“Medical director”* means any physician licensed under Iowa Code chapter 148, 150, or 150A who shall be responsible for overall medical direction of the service program and who has completed a medical director workshop, sponsored by the department, within one year of assuming duties.

*“Mutual aid”* means an agreement, preferably in writing, between two or more services that addresses how and under what circumstances each service will respond to a request for assistance in situations that exhaust available resources.

*“Nonemergency transportation”* means transportation that may be provided for those persons determined to need transportation only.

*“Nontransport service”* means any privately or publicly owned rescue or first response service program which does not provide patient transportation (except when no ambulance is available or in a disaster situation) and utilizes only rescue or first response vehicles to provide emergency medical care at the scene of an emergency.

*“Off-line medical direction”* means the monitoring of EMS providers through retrospective field assessments and treatment documentation review, critiques of selected cases with the EMS personnel, and statistical review of the system.

*“On-line medical direction”* means immediate medical direction provided directly to service program EMS providers, in accordance with written parameters and protocols, by the medical director, supervising physician or physician designee either on-scene or by any telecommunications system.

*“Paramedic”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Paramedic Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the paramedic, and is currently certified by the department as a paramedic.

*“Paramedic specialist (PS)”* means an individual who has successfully completed the current United States Department of Transportation’s EMT-Paramedic curriculum or equivalent, passed the department’s approved written and practical examinations, and is currently certified by the department as a paramedic specialist.

*“Patient”* means any individual who is sick, injured, or otherwise incapacitated.

*“Patient care report (PCR)”* means a computerized or written report that documents the assessment and management of the patient by the emergency care provider in the out-of-hospital setting.

*“Physician”* means any individual licensed under Iowa Code chapter 148, 150, or 150A.

*“Physician assistant (PA)”* means an individual licensed pursuant to Iowa Code chapter 148C.

*“Physician designee”* means any registered nurse licensed under Iowa Code chapter 152, or any physician assistant licensed under Iowa Code chapter 148C and approved by the board of physician assistant examiners. The physician designee acts as an intermediary for a supervising physician in accordance with written policies and protocols in directing the care provided by emergency medical care providers.

*“Preceptor”* means an individual who has been assigned by the training program, clinical facility or service program to supervise students while the students are completing their clinical or field experience. A preceptor must be an emergency medical care provider certified at the level being supervised or higher, or must be licensed as a registered nurse, physician’s assistant or physician.

*“Protocols”* means written directions and orders, consistent with the department’s standard of care, that are to be followed by an emergency medical care provider in emergency and nonemergency situations. Protocols must be approved by the service program’s medical director and address the care of both adult and pediatric patients.

*“Registered nurse (RN)”* means an individual licensed pursuant to Iowa Code chapter 152.

*“Reportable patient data”* means data elements and definitions determined by the department and adopted by reference to be reported to the Iowa EMS service program registry or the trauma registry or a trauma care facility on patients meeting the inclusion criteria.

“*Rescue vehicle*” means any privately or publicly owned vehicle which is specifically designed, modified, constructed, equipped, staffed and used regularly for rescue or extrication purposes at the scene of a medical or nonmedical emergency.

“*Service director*” means an individual who is responsible for the operation and administration of a service program.

“*Service program*” or “*service*” means any medical care ambulance service or nontransport service that has received authorization by the department.

“*Service program area*” means the geographic area of responsibility served by any given ambulance or nontransport service program.

“*Student*” means any individual enrolled in a training program and participating in the didactic, clinical, or field experience portions.

“*Supervising physician*” means any physician licensed under Iowa Code chapter 148, 150, or 150A. The supervising physician is responsible for medical direction of emergency medical care personnel when such personnel are providing emergency medical care.

“*Tiered response*” means a rendezvous of service programs to allow the transfer of patient care.

“*Training program*” means an NCA-approved Iowa college, the Iowa law enforcement academy or an Iowa hospital approved by the department to conduct emergency medical care training.

“*Transport agreement*” means a written agreement between two or more service programs that specifies the duties and responsibilities of the agreeing parties to ensure appropriate transportation of patients in a given service area.

[ARC 8661B, IAB 4/7/10, effective 5/12/10; ARC 9357B, IAB 2/9/11, effective 3/16/11; ARC 0063C, IAB 4/4/12, effective 5/9/12]

#### **641—132.2(147A) Authority of emergency medical care provider.**

**132.2(1)** Rescinded IAB 2/7/01, effective 3/14/01.

**132.2(2)** An emergency medical care provider who holds an active certification issued by the department may:

*a.* Render via on-line medical direction emergency and nonemergency medical care in those areas for which the emergency medical care provider is certified, as part of an authorized service program:

- (1) At the scene of an emergency;
- (2) During transportation to a hospital;
- (3) While in the hospital emergency department;
- (4) Until patient care is directly assumed by a physician or by authorized hospital personnel; and
- (5) During transfer from one medical care facility to another or to a private home.

*b.* Function in any hospital or any other entity in which health care is ordinarily provided only when under the direct supervision of a physician when:

- (1) Enrolled as a student in and approved by a training program;
- (2) Fulfilling continuing education requirements;
- (3) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician as a member of an authorized service program, or in an individual capacity, by rendering lifesaving services in the facility in which employed or assigned pursuant to the emergency medical care provider’s certification and under direct supervision of a physician, physician assistant, or registered nurse. An emergency medical care provider shall not routinely function without the direct supervision of a physician, physician assistant, or registered nurse. However, when the physician, physician assistant, or registered nurse cannot directly assume emergency care of the patient, the emergency medical care personnel may perform, without direct supervision, emergency medical care procedures for which certified, if the life of the patient is in immediate danger and such care is required to preserve the patient’s life;

(4) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician, as a member of an authorized service program, or in an individual capacity, to perform nonlifesaving procedures for which certified and designated in a written job description. Such procedures may be performed after the patient is observed by and when the emergency medical care provider is under the supervision of the physician, physician assistant, or

registered nurse, including when the registered nurse is not acting in the capacity of a physician designee, and where the procedure may be immediately abandoned without risk to the patient.

**132.2(3)** When emergency medical care personnel are functioning in a capacity identified in subrule 132.2(2), paragraph “a,” they may perform emergency and nonemergency medical care without contacting a supervising physician or physician designee if written protocols have been approved by the service program medical director which clearly identify when the protocols may be used in lieu of voice contact.

**132.2(4)** Scope of practice.

a. Emergency medical care providers shall provide only those services and procedures as are authorized within the scope of practice for which they are certified.

b. Scope of Practice for Iowa EMS Providers (June 2016) is hereby incorporated and adopted by reference for emergency medical care providers. For any differences that may occur between the Scope of Practice adopted by reference and these administrative rules, the administrative rules shall prevail.

c. The department may grant a variance for changes to the Scope of Practice that have not yet been adopted by these rules. A variance to these rules may be granted by the department pursuant to 132.14(1).

d. Scope of Practice for Iowa EMS Providers is available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**132.2(5)** The department may approve other emergency medical care skills on a limited pilot project basis. Requests for a pilot project application shall be made to the department.

**132.2(6)** An emergency medical care provider who has knowledge of an emergency medical care provider, service program or training program that has violated Iowa Code chapter 147A or these rules shall report such information to the department within 30 days.

[ARC 8230B, IAB 10/7/09, effective 11/11/09; ARC 0063C, IAB 4/4/12, effective 5/9/12; ARC 0480C, IAB 12/12/12, effective 1/16/13; ARC 1404C, IAB 4/2/14, effective 5/7/14; ARC 2278C, IAB 12/9/15, effective 1/13/16; ARC 2767C, IAB 10/12/16, effective 11/16/16]

**641—132.3(147A) Emergency medical care providers—requirements for enrollment in training programs.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.4(147A) Emergency medical care providers—certification, renewal standards and procedures, and fees.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.5(147A) Training programs—standards, application, inspection and approval.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.6(147A) Continuing education providers—approval, record keeping and inspection.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.7(147A) Service program—authorization and renewal procedures, inspections and transfer or assignment of certificates of authorization.**

**132.7(1)** *General requirements for authorization and renewal of authorization.*

a. An ambulance or nontransport service in this state that desires to provide emergency medical care, in the out-of-hospital setting, shall apply to the department for authorization to establish a program utilizing certified emergency medical care providers for delivery of care at the scene of an emergency or nonemergency, during transportation to a hospital, during transfer from one medical care facility to another or to a private home, or while in the hospital emergency department and until care is directly assumed by a physician or by authorized hospital personnel. Application for authorization shall be made on forms provided by the department. Applicants shall complete and submit the forms to the department at least 30 days prior to the anticipated date of authorization.

b. To renew service program authorization, the service program shall continue to meet the requirements of Iowa Code chapter 147A and these rules. The renewal application shall be completed and submitted to the department at least 30 days before the current authorization expires.

c. Applications for authorization and renewal of authorization may be obtained upon request to: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

d. The department shall approve an application when the department is satisfied that the program proposed by the application will be operated in compliance with Iowa Code chapter 147A and these administrative rules.

e. Service program authorization is valid for a period of three years from its effective date unless otherwise specified on the certificate of authorization or unless sooner suspended or revoked.

f. Service programs shall be fully operational upon the effective date and at the level specified on the certificate of authorization and shall meet all applicable requirements of Iowa Code chapter 147A and these rules. Deficiencies that are identified shall be corrected within a time frame determined by the department.

g. The certificate of authorization shall be issued to the service program based in the city named in the application. Any ambulance service or nontransport service that operates from more than one city shall apply for and, if approved, shall receive an inclusive authorization for each city of operation that is listed in the application.

h. Any service program owner in possession of a certificate of authorization as a result of transfer or assignment shall continue to meet all applicable requirements of Iowa Code chapter 147A and these rules. In addition, the new owner shall apply to the department for a new certificate of authorization within 30 days following the effective date of the transfer or assignment.

i. Service programs that acquire and maintain current status with a nationally recognized EMS service program accreditation entity that meets or exceeds Iowa requirements may be exempted from the service application/inspection process. A copy of the state service application and accreditation inspection must be filed with the department for approval.

**132.7(2) *Out-of-state service programs.***

a. Service programs located in other states which wish to provide emergency medical care in Iowa must meet all requirements of Iowa Code chapter 147A and these rules and must be authorized by the department except when:

- (1) Transporting patients from locations within Iowa to destinations outside of Iowa;
- (2) Transporting patients from locations outside of Iowa to destinations within Iowa;
- (3) Transporting patients to or from locations outside of Iowa that requires travel through Iowa;
- (4) Responding to a request for mutual aid in this state; or
- (5) Making an occasional EMS response to locations within Iowa and then transporting the patients to destinations within Iowa.

b. An out-of-state service program that meets any of the exception criteria established in 132.7(2) shall be authorized to provide emergency medical care by the state in which the program resides and shall provide the department with verification of current state authorization upon request.

**132.7(3) *Air ambulances.*** Rescinded IAB 4/7/10, effective 5/12/10.

**132.7(4) *Service program inspections.***

a. The department shall inspect each service program at least once every three years. The department without prior notification may make additional inspections at times, places and under such circumstances as it deems necessary to ensure compliance with Iowa Code chapter 147A and these rules.

b. The department may request additional information from or may inspect the records of any service program which is currently authorized or which is seeking authorization to ensure continued compliance or to verify the validity of any information presented on the application for service program authorization.

c. The department may inspect the patient care records of a service program to verify compliance with Iowa Code chapter 147A and these rules.

*d.* No person shall interfere with the inspection activities of the department or its agents pursuant to Iowa Code section 135.36.

*e.* Interference with or failure to allow an inspection by the department or its agents may be cause for disciplinary action in reference to service program authorization.

**132.7(5) Temporary service program authorization.**

*a.* A temporary service program authorization may be issued to services that wish to operate during special events that may need emergency medical care coverage. Temporary authorization is valid for a period of 30 days unless otherwise specified on the certificate of authorization or unless sooner suspended or revoked. Temporary authorization shall apply to those requirements and standards for which the department is responsible. Applicants shall complete and submit the necessary forms to the department at least 30 days prior to the anticipated date of need.

*b.* The service shall meet applicable requirement of these rules, but may apply for a variance using the criteria outlined in rule 641—132.14(147A).

*c.* The service shall submit a justification which demonstrates the need for the temporary service program authorization.

*d.* The service shall submit a report, to the department, within 30 days after the expiration of the temporary authorization which includes as a minimum:

- (1) Number of patients treated;
- (2) Types of treatment rendered;
- (3) Any operational or medical problems.

**132.7(6) Conditional service program authorization.** Rescinded IAB 2/6/02, effective 3/13/02.  
[ARC 8661B, IAB 4/7/10, effective 5/12/10; ARC 9357B, IAB 2/9/11, effective 3/16/11]

**641—132.8(147A) Service program levels of care and staffing standards.**

**132.8(1)** A service program seeking ambulance authorization shall:

*a.* Apply for authorization at one of the following levels:

- (1) EMT-B/EMT.
- (2) EMT-I.
- (3) AEMT.
- (4) EMT-P.
- (5) PS/Paramedic.

*b.* Maintain an adequate number of ambulances and personnel to provide 24-hour-per-day, 7-day-per-week coverage. Ambulances shall comply with paragraph 132.8(1)“*d.*” The number of ambulances and personnel to be maintained shall be determined by the department, and shall be based upon, but not limited to, the following:

- (1) Number of calls;
- (2) Service area and population; and
- (3) Availability of other services in the area.

*c.* Provide as a minimum, on each ambulance call, the following staff:

(1) One currently certified EMT-B or EMT.  
(2) One currently licensed driver. The service shall document each driver’s training in CPR (AED training not required).

*d.* Submit an EMS contingency plan that will be put into operation when coverage pursuant to the 24/7 rule in paragraph 132.8(1)“*b*” is not possible due to unforeseen circumstances.

*e.* Report frequency of use of the contingency plan to the department upon request.

*f.* Seek approval from the department to provide nontransport coverage in addition to or in lieu of ambulance authorization.

*g.* Advertise or otherwise imply or hold itself out to the public as an authorized ambulance service only to the level of care maintained 24 hours per day, seven days a week.

*h.* Apply to the department to receive approval to provide critical care transportation based upon appropriately trained staff and approved equipment.

*i.* Unless otherwise established by protocol approved by the medical director, the emergency medical care provider with the highest level of certification (on the transporting service) shall attend the patient.

**132.8(2)** A service program seeking nontransport authorization shall:

*a.* Apply for authorization at one of the following levels:

- (1) First responder/EMR.
- (2) EMT-B/EMT.
- (3) EMT-I.
- (4) AEMT.
- (5) EMT-P.
- (6) PS/Paramedic.

*b.* For staffing purposes provide, as a minimum, a transport agreement.

*c.* Advertise or otherwise hold itself out to the public as an authorized nontransport service program only to the level of care maintained 24 hours per day, seven days a week.

*d.* Not be prohibited from transporting patients in an emergency situation when lack of transporting resources would cause an unnecessary delay in patient care.

**132.8(3)** Service program operational requirements. Ambulance and nontransport service programs shall:

*a.* Complete and maintain a patient care report concerning the care provided to each patient. Ambulance services shall provide, at a minimum, a PCR verbal report upon delivery of a patient to a receiving facility and shall provide a complete PCR within 24 hours to the receiving facility.

*b.* Utilize department protocols as the standard of care. The service program medical director may make changes to the department protocols provided the changes are within the EMS provider's scope of practice and within acceptable medical practice. A copy of the changes shall be filed with the department.

*c.* Ensure that personnel duties are consistent with the level of certification and the service program's level of authorization.

*d.* Maintain current personnel rosters and personnel files. The files shall include the names and addresses of all personnel and documentation that verifies EMS provider credentials including, but not limited to:

(1) Current provider level certification.

(2) Current course completions/certifications/endorsements as may be required by the medical director.

(3) PA and RN exception forms for appropriate personnel and verification that PA and RN personnel have completed the appropriate EMS level continuing education.

*e.* If requested by the department, notify the department in writing of any changes in personnel rosters.

*f.* Have a medical director and 24-hour-per-day, 7-day-per-week on-line medical direction available.

*g.* Ensure that the appropriate service program personnel respond as required in this rule and that they respond in a reasonable amount of time.

*h.* Notify the department in writing within seven days of any change in service director or ownership or control or of any reduction or discontinuance of operations.

*i.* Select a new or temporary medical director if for any reason the current medical director cannot or no longer wishes to serve in that capacity. Selection shall be made before the current medical director relinquishes the duties and responsibilities of that position.

*j.* Within seven days of any change of medical director, notify the department in writing of the selection of the new or temporary medical director who must have indicated in writing a willingness to serve in that capacity.

*k.* Not prevent a registered nurse or physician assistant from supplementing the staffing of an authorized service program provided equivalent training is documented pursuant to Iowa Code sections 147A.12 and 147A.13.

*l.* Not be authorized to utilize a manual defibrillator (except paramedic, paramedic specialist).

*m.* Implement a continuous quality improvement program that provides a policy to include as a minimum:

- (1) Medical audits.
- (2) Skills competency.
- (3) Follow-up (loop closure/resolution).

*n.* Require physician assistants and registered nurses providing care pursuant to Iowa Code sections 147A.12 and 147A.13 to meet CEH requirements approved by the medical director.

*o.* Document an equipment maintenance program to ensure proper working condition and appropriate quantities.

*p.* Ensure a response to requests for assistance when dispatched by a public safety answering point within the primary service area identified in the service program's authorization application.

*q.* Submit reportable patient data identified in subrule 132.8(7) via electronic transfer. Data shall be submitted in a format approved by the department.

*r.* Submit reportable patient data identified in subrule 132.8(7) to the department for each calendar quarter. Reportable patient data shall be submitted no later than 90 days after the end of the quarter.

*s.* Ensure that any member of the service driving a service's first response vehicle, ambulance, or rescue vehicle or a personal vehicle when responding as a member of the service has documented training in emergency driving techniques and in the use of the service's communications equipment. Training in emergency driving techniques shall include:

- (1) A review of Iowa laws regarding emergency vehicle operations.
- (2) A review of the service program's driving policy for first response vehicles, ambulances, rescue vehicles or personal vehicles when used by a service member responding as a member of the service.

The policy shall include, at a minimum:

1. Frequency and content of driver's training requirements.
2. Criteria for response with lights or sirens or both.
3. Speed limits when responding with lights or sirens or both.
4. Procedure for approaching intersections with lights or sirens or both.
5. Notification process in the event of a motor vehicle collision involving a first response vehicle, ambulance, rescue vehicle or personal vehicle when used by a service member responding as a member of the service.

(3) Behind-the-wheel driving of the service's first response vehicles, ambulances and rescue vehicles.

**132.8(4)** Equipment and vehicle standards. The following standards shall apply:

*a.* Ambulances placed into service after July 1, 2002, shall meet, as a minimum, the National Truck and Equipment Association's Ambulance Manufacture Division (AMD) performance specifications.

*b.* All EMS service programs shall carry equipment and supplies in quantities as determined by the medical director and appropriate to the service program's level of care and available certified EMS personnel and as established in the service program's approved protocols.

*c.* Pharmaceutical drugs and over-the-counter drugs may be carried and administered upon completion of training and pursuant to the service program's established protocols approved by the medical director.

*d.* All drugs shall be maintained in accordance with the rules of the state board of pharmacy examiners.

*e.* Accountability for drug exchange, distribution, storage, ownership, and security shall be subject to applicable state and federal requirements. The method of accountability shall be described in the written pharmacy agreement. A copy of the written pharmacy agreement shall be submitted to the department.

*f.* Each ambulance service program shall maintain a telecommunications system between the emergency medical care provider and the source of the service program's medical direction and other appropriate entities. Nontransport service programs shall maintain a telecommunications system between the emergency medical care provider and the responding ambulance service and other appropriate entities.

*g.* All telecommunications shall be conducted in an appropriate manner and on a frequency approved by the Federal Communications Commission and the department.

**132.8(5)** Preventative maintenance. Each ambulance service program shall document a preventative maintenance program to make certain that:

*a.* Vehicles are fully equipped and maintained in a safe operating condition. In addition:

(1) All ground ambulances shall be housed in a garage or other facility that prevents engine, equipment and supply freeze-up and windshield icing. An unobstructed exit to the street shall also be maintained;

(2) The garage or other facility shall be adequately heated or each response vehicle shall have permanently installed auxiliary heating units to sufficiently heat the engine and patient compartment; and

(3) The garage or other facility shall be maintained in a clean, safe condition free of debris or other hazards.

*b.* The exterior and interior of the vehicles are kept clean. The interior and equipment shall be cleaned after each use as necessary. When a patient with a communicable disease has been transported or treated, the interior and any equipment or nondisposable supplies coming in contact with the patient shall be thoroughly disinfected.

*c.* All equipment stored in a patient compartment is secured so that, in the event of a sudden stop or movement of the vehicle, the patient and service program personnel are not injured by moving equipment.

*d.* All airway, electrical and mechanical equipment is kept clean and in proper operating condition.

*e.* Compartments provided within the vehicles and the medical and other supplies stored therein are kept in a clean and sanitary condition.

*f.* All linens, airway and oxygen equipment or any other supplies or equipment coming in direct patient contact is of a single-use disposable type or cleaned, laundered or disinfected prior to reuse.

*g.* Freshly laundered blankets and linen or disposable linens are used on cots and pillows and are changed after each use.

*h.* Proper storage is provided for clean linen.

*i.* Soiled supplies shall be appropriately disposed of according to current biohazard practices.

**132.8(6)** Service program—incident and accident reports.

*a.* Incidents of fire or other destructive or damaging occurrences or theft of a service program ambulance, equipment, or drugs shall be reported to the department within 48 hours following the occurrence of the incident.

*b.* A copy of the motor vehicle accident report required under Iowa Code subsection 321.266(2), relating to the reporting of an accident resulting in personal injury, death or property damage, shall be submitted to the department within seven days following an accident involving a service program vehicle.

*c.* A service program must report the termination of an emergency medical care provider due to negligence, professional incompetency, unethical conduct or substance use to the department within ten days following the termination.

**132.8(7)** Adoption by reference. The Iowa EMS Patient Registry Data Dictionary identified in 641—paragraph 136.2(1)“*c*” is adopted and incorporated by reference for inclusion criteria and reportable patient data. For any differences which may occur between the adopted reference and this chapter, the administrative rules shall prevail.

*a.* The Iowa EMS Patient Registry Data Dictionary identified in 641—paragraph 136.2(1)“*c*” is available through the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the EMS bureau Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

*b.* The department shall prepare compilations for release or dissemination on all reportable patient data entered into the EMS service program registry during the reporting period. The compilations shall include, but not be limited to, trends and patient care outcomes for local, regional, and statewide evaluations. The compilations shall be made available to all service programs submitting reportable patient data to the registry.

*c.* Access and release of reportable patient data and information.

(1) The data collected by and furnished to the department pursuant to this subrule are confidential records of the condition, diagnosis, care, or treatment of patients or former patients, including outpatients, pursuant to Iowa Code section 22.7. The compilations prepared for release or dissemination from the data collected are not confidential under Iowa Code section 22.7, subsection 2. However, information which individually identifies patients shall not be disclosed, and state and federal law regarding patient confidentiality shall apply.

(2) The department may approve requests for reportable patient data for special studies and analysis provided the request has been reviewed and approved by the deputy director of the department with respect to the scientific merit and confidentiality safeguards, and the department has given administrative approval for the proposal. The confidentiality of patients and the EMS service program shall be protected.

(3) The department may require entities requesting the data to pay any or all of the reasonable costs associated with furnishing the reportable patient data.

*d.* To the extent possible, activities under this subrule shall be coordinated with other health data collection methods.

*e.* Quality assurance.

(1) For the purpose of ensuring the completeness and quality of reportable patient data, the department or authorized representative may examine all or part of the patient care report as necessary to verify or clarify all reportable patient data submitted by a service program.

(2) Review of a patient care report by the department shall be scheduled in advance with the service program and completed in a timely manner.

*f.* The director, pursuant to Iowa Code section 147A.4, may grant a variance from the requirements of these rules for any service program, provided that the variance is related to undue hardships in complying with this chapter.

**132.8(8)** The patient care report is a confidential document and shall be exempt from disclosure pursuant to Iowa Code subsection 22.7(2) and shall not be accessible to the general public. Information contained in these reports, however, may be utilized by any of the indicated distribution recipients and may appear in any document or public health record in a manner which prevents the identification of any patient or person named in these reports.

**132.8(9)** Implementation. The director may grant exceptions and variances from the requirements of this chapter for any ambulance or nontransport service. Exceptions or variations shall be reasonably related to undue hardships which existing services experience in complying with this chapter. Services requesting exceptions and variances shall be subject to other applicable rules adopted pursuant to Iowa Code chapter 147A.

[**ARC 8661B**, IAB 4/7/10, effective 5/12/10; **ARC 9357B**, IAB 2/9/11, effective 3/16/11; **ARC 9444B**, IAB 4/6/11, effective 5/11/11; **ARC 0063C**, IAB 4/4/12, effective 5/9/12; **ARC 2391C**, IAB 2/3/16, effective 3/9/16]

#### **641—132.9(147A) Service program—off-line medical direction.**

**132.9(1)** The medical director shall be responsible for providing appropriate medical direction and overall supervision of the medical aspects of the service program and shall ensure that those duties and responsibilities are not relinquished before a new or temporary replacement is functioning in that capacity.

**132.9(2)** The medical director's duties include, but need not be limited to:

*a.* Developing, approving and updating protocols to be used by service program personnel that meet or exceed the minimum standard protocols developed by the department.

*b.* Developing and maintaining liaisons between the service, other physicians, physician designees, hospitals, and the medical community served by the service program.

*c.* Monitoring and evaluating the activities of the service program and individual personnel performance, including establishment of measurable outcomes that reflect the goals and standards of the EMS system.

*d.* Assessing the continuing education needs of the service and individual service program personnel and assisting them in the planning of appropriate continuing education programs.

- e.* Being available for individual evaluation and consultation to service program personnel.
- f.* Performing or appointing a designee to complete the medical audits required in subrule 132.9(4).
- g.* Developing and approving an applicable continuous quality improvement policy demonstrating type and frequency of review, including an action plan and follow-up.
- h.* Informing the medical community of the emergency medical care being provided according to approved protocols in the service program area.
- i.* Helping to resolve service operational problems.
- j.* Approving or removing an individual from service program participation.

**132.9(3)** Supervising physicians, physician designees, or other appointees as defined in the continuous quality improvement policy referenced in 132.9(2) "g" may assist the medical director by:

- a.* Providing medical direction.
- b.* Reviewing the emergency medical care provided.
- c.* Reviewing and updating protocols.
- d.* Providing and assessing continuing education needs for service program personnel.
- e.* Helping to resolve operational problems.

**132.9(4)** The medical director or other qualified designees shall randomly audit (at least quarterly) documentation of calls where emergency medical care was provided. The medical director shall randomly review audits performed by the qualified appointee. The audit shall be in writing and shall include, but need not be limited to:

- a.* Reviewing the patient care provided by service program personnel and remedying any deficiencies or potential deficiencies that may be identified regarding medical knowledge or skill performance.
- b.* Response time and time spent at the scene.
- c.* Overall EMS system response to ensure that the patient's needs were matched to available resources including, but not limited to, mutual aid and tiered response.
- d.* Completeness of documentation.

**132.9(5)** Rescinded IAB 2/6/02, effective 3/13/02.

**132.9(6)** On-line medical direction when provided through a hospital.

*a.* The medical director shall designate in writing at least one hospital which has established a written on-line medical direction agreement with the department. It shall be the medical director's responsibility to notify the department in writing of changes regarding this designation.

*b.* Hospitals signing an on-line medical direction agreement shall:

- (1) Ensure that the supervising physicians or physician designees will be available to provide on-line medical direction via telecommunications on a 24-hour-per-day basis.
- (2) Identify the service programs for which on-line medical direction will be provided.
- (3) Establish written protocols for use by supervising physicians and physician designees who provide on-line medical direction.

(4) Administer a quality assurance program to review orders given. The program shall include a mechanism for the hospital and service program medical directors to discuss and resolve any identified problems.

*c.* A hospital which has a written medical direction agreement with the department may provide medical direction for any or all service program authorization levels and may also agree to provide backup on-line medical direction for any other service program when that service program is unable to contact its primary source of on-line medical direction.

*d.* Only supervising physicians or physician designees shall provide on-line medical direction. A physician assistant, registered nurse or emergency medical care provider (of equal or higher level) may relay orders to emergency medical care personnel, without modification, from a supervising physician. A physician designee may not deviate from approved protocols.

*e.* The hospital shall provide, upon request to the department, a list of supervising physicians and physician designees providing on-line medical direction.

*f.* Rescinded IAB 2/6/02, effective 3/13/02.

*g.* The department may verify a hospital's communications system to ensure compliance with the on-line medical direction agreement.

*h.* A supervising physician or physician designee who gives orders (directly or via communications equipment from some other point) to an emergency medical care provider is not subject to criminal liability by reason of having issued the orders and is not liable for civil damages for acts or omissions relating to the issuance of the orders unless the acts or omissions constitute recklessness.

*i.* Nothing in these rules requires or obligates a hospital, supervising physician or physician designee to approve requests for orders received from emergency medical care personnel.

NOTE: Hospitals in other states may participate provided the applicable requirements of this subrule are met.

[ARC 0063C, IAB 4/4/12, effective 5/9/12]

**641—132.10(147A) Complaints and investigations—denial, citation and warning, probation, suspension or revocation of service program authorization or renewal.**

**132.10(1)** All complaints regarding the operation of authorized emergency medical care service programs, or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**132.10(2)** Complaints and the investigative process will be treated as confidential in accordance with Iowa Code section 22.7.

**132.10(3)** Service program authorization may be denied, issued a civil penalty not to exceed \$1000, issued a citation and warning, placed on probation, suspended, revoked, or otherwise disciplined by the department in accordance with Iowa Code subsection 147A.5(3) for any of the following reasons:

- a.* Knowingly allowing the falsifying of a patient care report (PCR).
- b.* Failure to submit required reports and documents.
- c.* Delegating professional responsibility to a person when the service program knows that the person is not qualified by training, education, experience or certification to perform the required duties.
- d.* Practicing, condoning, or facilitating discrimination against a patient, student or employee based on race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, mental or physical disability diagnosis, or social or economic status.
- e.* Knowingly allowing sexual harassment of a patient, student or employee. Sexual harassment includes sexual advances, sexual solicitations, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- f.* Failure or repeated failure of the applicant or alleged violator to meet the requirements or standards established pursuant to Iowa Code chapter 147A or the rules adopted pursuant to that chapter.
- g.* Obtaining or attempting to obtain or renew or retain service program authorization by fraudulent means or misrepresentation or by submitting false information.
- h.* Engaging in conduct detrimental to the well-being or safety of the patients receiving or who may be receiving emergency medical care.
- i.* Failure to correct a deficiency within the time frame required by the department.

**132.10(4)** The department shall notify the applicant of the granting or denial of authorization or renewal, or shall notify the alleged violator of action to issue a citation and warning, place on probation or suspend or revoke authorization or renewal pursuant to Iowa Code sections 17A.12 and 17A.18. Notice of issuance of a denial, citation and warning, probation, suspension or revocation shall be served by restricted certified mail, return receipt requested, or by personal service.

**132.10(5)** Any requests for appeal concerning the denial, citation and warning, probation, suspension or revocation of service program authorization or renewal shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If such a request is made within the 20-day time period, the notice shall be deemed to be suspended. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial,

citation and warning, probation, suspension or revocation has been or will be removed. After the hearing, or upon default of the applicant or alleged violator, the administrative law judge shall affirm, modify or set aside the denial, citation and warning, probation, suspension or revocation. If no request for appeal is received within the 20-day time period, the department's notice of denial, probation, suspension or revocation shall become the department's final agency action.

**132.10(6)** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**132.10(7)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10.

**132.10(8)** When the administrative law judge makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken as provided in subrule 132.10(9).

**132.10(9)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**132.10(10)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections, and rulings thereon.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**132.10(11)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

**132.10(12)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**132.10(13)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Bureau of Emergency Medical Services, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**132.10(14)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**132.10(15)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, the news media or employer.

**132.10(16)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**132.10(17)** Emergency adjudicative proceedings.

a. Necessary emergency action. To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18 to suspend a

certificate in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order.

*b.* Before issuing an emergency adjudicative order, the department shall consider factors including, but not limited to, the following:

(1) Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;

(2) Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;

(3) Whether the program required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;

(4) Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and

(5) Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

*c.* Issuance of order.

(1) An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action. The order is a public record.

(2) The written emergency adjudicative order shall be immediately delivered to the service program that is required to comply with the order by utilizing one or more of the following procedures:

1. Personal delivery.

2. Certified mail, return receipt requested, to the last address on file with the department.

3. Fax. Fax may be used as the sole method of delivery if the service program required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

(3) To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

(4) Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the service program that is required to comply with the order.

(5) After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

(6) Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the service program that is required to comply with the order is the party requesting the continuance.

[ARC 8661B, IAB 4/7/10, effective 5/12/10]

**641—132.11(147A) Complaints and investigations—denial, citation and warning, probation, suspension, or revocation of emergency medical care personnel certificates or renewal.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.12(147A) Complaints and investigations—denial, citation and warning, probation, suspension, or revocation of training program or continuing education provider approval or renewal.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.13(147A) Complaints, investigations and appeals.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.14(147A) Temporary variances.**

**132.14(1)** If during a period of authorization there is some occurrence that temporarily causes a service program to be in noncompliance with these rules, the department may grant a temporary variance. Temporary variances to these rules (not to exceed six months in length per any approved request) may be granted by the department to a currently authorized service program. Requests for temporary variances shall apply only to the service program requesting the variance and shall apply only to those requirements and standards for which the department is responsible.

**132.14(2)** To request a variance, the service program shall:

*a.* Notify the department verbally (as soon as possible) of the need to request a temporary variance. Submit to the department, within ten days after having given verbal notification to the department, a written explanation for the temporary variance request. The address and telephone number are Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075; (515)725-0326.

*b.* Cite the rule from which the variance is requested.

*c.* State why compliance with the rule cannot be maintained.

*d.* Explain the alternative arrangements that have been or will be made regarding the variance request.

*e.* Estimate the period of time for which the variance will be needed.

*f.* Rescinded IAB 2/2/05, effective 3/9/05.

**132.14(3)** Upon notification of a request for variance, the department shall take into consideration, but shall not be limited to:

*a.* Examining the rule from which the temporary variance is requested to determine if the request is appropriate and reasonable.

*b.* Evaluating the alternative arrangements that have been or will be made regarding the variance request.

*c.* Examining the effect of the requested variance upon the level of care provided to the general populace served.

*d.* Requesting additional information if necessary.

**132.14(4)** Preliminary approval or denial shall be provided verbally within 24 hours. Final approval or denial shall be issued in writing within ten days after having received the written explanation for the temporary variance request and shall include the reason for approval or denial. If approval is granted, the effective date and the duration of the temporary variance shall be clearly stated.

**132.14(5)** Rescinded, effective July 10, 1987.

**132.14(6)** Any request for appeal concerning the denial of a request for temporary variance shall be in accordance with the procedures outlined in rule 641—132.10(147A).

**132.14(7)** Rescinded IAB 2/3/93, effective 3/10/93.

**641—132.15(147A) Transport options for fully authorized EMT-P, PS, and paramedic service programs.**

**132.15(1)** Upon responding to an emergency call, ambulance or nontransport EMT-P, PS, and paramedic level services may make a determination at the scene as to whether emergency medical transportation or nonemergency transportation is needed. The determination shall be made by an EMT-P, paramedic or paramedic specialist and shall be based upon the nonemergency transportation protocol approved by the service program's medical director. When applying this protocol, the following criteria, as a minimum, shall be used to determine the appropriate transport option:

*a.* Primary assessment,

*b.* Focused history and physical examination,

*c.* Chief complaint,

*d.* Name, address and age, and

*e.* Nature of the call for assistance.

Emergency medical transportation shall be provided whenever any of the above criteria indicate that treatment should be initiated.

**132.15(2)** If treatment is not indicated, the service program may make arrangements for nonemergency transportation. If arrangements are made, the service program shall remain at the scene until nonemergency transportation arrives. During the wait for nonemergency transportation, however, the ambulance or nontransport service may respond to an emergency.

[ARC 0063C, IAB 4/4/12, effective 5/9/12]

**641—132.16(147A) Public access defibrillation.** Rescinded IAB 2/2/05, effective 3/9/05.

These rules are intended to implement Iowa Code chapter 147A.

CHAPTER 133  
WHITE FLASHING LIGHT AUTHORIZATION

**641—133.1(321) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Ambulance*” means ambulance as defined in 641—132.1(147A).

“*Ambulance service*” means ambulance service as defined in 641—132.1(147A).

“*Authorization certificate*” means a permit issued to an emergency medical care provider which authorizes the use of a white flashing light.

“*Authorized vehicles*” means any vehicles owned by members of the service program that are authorized by the department to use flashing white lights.

“*Department*” means Iowa department of public health.

“*Emergency medical care provider*” means emergency medical care provider as defined in 641—131.1(147A).

“*First response vehicle*” means first response vehicle as defined in 641—132.1(147A).

“*Medical director*” means medical director as defined in 641—132.1(147A).

“*Member*” means any individual utilized by an ambulance or nontransport service to provide emergency medical care.

“*Nontransport service*” means nontransport service as defined in 641—132.1(147A).

“*Rescue vehicle*” means rescue vehicle as defined in 641—132.1(147A).

“*Service director*” means service director as defined in 641—132.1(147A).

“*Service program*” or “*service*” means service program as defined in 641—132.1(147A).

“*White light*” means a white or clear rotating, flashing, or strobe lighting device utilized for identification purposes only. Any such lighting device shall not display a constant white or clear light to the rear of the vehicle.

[ARC 0901C, IAB 8/7/13, effective 9/11/13]

**641—133.2(321) Purpose.**

**133.2(1)** Flashing white lights may be used on emergency vehicles or other authorized vehicles utilized by emergency medical care providers and service programs for identification purposes only.

**133.2(2)** Flashing white lights shall be used only on an authorized vehicle and shall not be used except in any of the following circumstances:

- a. When responding to an emergency in the line of duty requiring the services of the member.
- b. When at the scene of an emergency.
- c. When transporting a patient during a disaster situation.

**133.2(3)** Owners and operators of authorized vehicles are responsible for ensuring that the lighting devices are utilized in a safe manner. This shall include, but not be limited to, ensuring that lighting devices do not:

- a. Obstruct the view of the vehicle operator.
- b. Overburden the electrical system of the vehicle.
- c. Interfere with the vision of the vehicle operator, passengers, or drivers of other vehicles.

**133.2(4)** Operators of authorized vehicles shall ensure that the authorization certificate is carried in the vehicle.

**641—133.3(321) Application.**

**133.3(1)** Authorization certificates shall be issued by the service director for service vehicles and vehicles owned by emergency medical care providers who are members in good standing with the service. Authorization certificates are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)). Vehicle authorization shall be limited to:

- a. Vehicles owned or exclusively operated by the ambulance or nontransport service.
- b. Vehicles owned or operated by emergency medical care provider members of the ambulance or nontransport service.

- c. Vehicles owned or operated by the service program's medical director.
- d. One authorization certificate per vehicle.

**133.3(2)** Nothing in these rules shall prevent the use of white flashing lights on vehicles which are authorized to use red or blue flashing lights.

**133.3(3)** The service director shall report the issuance of white light authorization certificates within 15 days to the department on forms approved by the department. Information required by the department shall include, but not be limited to:

- a. Demonstrated necessity for authorization.
- b. Vehicle liability insurance.
- c. Current Iowa vehicle registration.
- d. The member's current driver's license number, if the authorized vehicle is privately owned.

**133.3(4)** The service director shall provide, upon request of the department or its agents, proof of the information required in 133.3(3) for each authorization certificate issued.

**133.3(5)** The service director shall provide an informational sheet which explains the requirements for use of the white lights to each member who is issued an authorization certificate. The information sheet is available upon request from the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**133.3(6)** The service director shall encourage members operating authorized vehicles to complete a course in emergency driving techniques and the laws and rules governing emergency vehicle operation.

**133.3(7)** The authorization shall expire five years from the date issued unless sooner suspended or revoked.

**133.3(8)** The department may issue authorization certificates for vehicles used by employees of the department when responding to emergencies or disasters.

[ARC 0901C, IAB 8/7/13, effective 9/11/13]

#### **641—133.4(321) Approval, denial, probation, suspension and revocation of authorization.**

**133.4(1)** The service director or the department may approve or deny an application and the department may place on probation, suspend or revoke an authorization certificate if the service director or the department finds reason to believe that the applicant or certificate holder:

- a. Has failed to meet all applicable requirements of these rules.
- b. Has been convicted of a moving violation while using flashing white lights.
- c. Has utilized a white flashing light without obtaining an authorization certificate.
- d. Does not have a valid driver's license.
- e. Does not have a current vehicle registration.

**133.4(2)** The authorization certificate shall be surrendered upon the request of the department or its agents.

**133.4(3)** An emergency medical care provider or service director who has knowledge of any emergency medical care provider or service program that has violated Iowa Code chapter 147A, Iowa Administrative Code 641—Chapter 132 or these rules shall, within 30 days, report that information to the department.

**133.4(4)** A denial, probation, suspension or revocation ordered by the department shall be effected, and may be appealed according to the provisions set forth in rule 641—133.5(321).

#### **641—133.5(321) Appeal of denial, probation, or revocation of authorization.**

**133.5(1)** Denial, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice of denial, probation, suspension or revocation shall be served to the alleged violator by restricted certified mail, return receipt requested, or by personal service.

**133.5(2)** Any request for appeal concerning denial, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 30 days of the receipt of the department's notice. The address is: Iowa Department of Public

Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 30-day time period, the notice shall be deemed to be suspended. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, probation, suspension or revocation has been or will be removed. If no request for appeal is received within the 30-day time period, the department's notice of denial, probation, suspension or revocation shall become the department's final agency action.

**133.5(3)** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**133.5(4)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 4, Iowa Administrative Code.

**133.5(5)** When the administrative law judge makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken as provided in subrule 133.5(6).

**133.5(6)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**133.5(7)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**133.5(8)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

**133.5(9)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**133.5(10)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**133.5(11)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

These rules are intended to implement Iowa Code section 321.423.

CHAPTER 134  
TRAUMA CARE FACILITY CATEGORIZATION  
AND VERIFICATION

**641—134.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Categorization*” means a preliminary determination by the department that a hospital or emergency care facility is capable of providing trauma care at Level I, II, III or IV care capabilities.

“*Certificate of verification*” means a document awarded by the department that identifies a hospital or emergency care facility’s level and term of verification as a trauma care facility.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency care facility*” means a physician’s office, clinic, or other health care center which provides emergency medical care in conjunction with other primary care services.

“*Emergency medical care provider*” means emergency medical care provider as defined in 641—131.1(147A).

“*Hospital*” means any hospital licensed under Iowa Code chapter 135B.

“*On-site verification survey*” means an on-site survey conducted by the department to assess a hospital or emergency care facility’s ability to meet the level of categorization requested.

“*Trauma*” means a single or multisystem life-threatening or limb-threatening injury, or an injury requiring immediate medical or surgical intervention or treatment to prevent death or permanent disability.

“*Trauma care facility*” means a hospital or emergency care facility which provides trauma care and has been verified by the department as having Resource (Level I), Regional (Level II), Area (Level III) or Community (Level IV) care capabilities and has been issued a certificate of verification pursuant to Iowa Code section 147A.23, subsection 2, paragraph “c.”

“*Trauma care system*” means an organized approach to providing personnel, facilities, and equipment for effective and coordinated trauma care.

“*Verification*” means a process by which the department certifies a hospital or emergency care facility’s capacity to provide trauma care in accordance with criteria established for Resource (Level I), Regional (Level II), Area (Level III) or Community (Level IV) trauma care facilities and these rules.

[ARC 1079C, IAB 10/2/13, effective 1/6/14]

**641—134.2(147A) Trauma care facility categorization and verification.** Categorization and verification of hospitals and emergency care facilities shall be made by the department based upon the hospitals’ or emergency care facilities’ resources available for providing trauma care services.

**134.2(1) Categorization.**

a. Categorization as a trauma care facility shall be determined by the department from self-reported information provided to the department by a hospital or emergency care facility through a self-assessment categorization application provided by the department.

b. Categorization applications shall be submitted by all hospitals. New hospitals shall submit a categorization application no later than 90 days after licensing by the department of inspections and appeals, health facilities division. Categorization applications may be submitted by emergency care facilities. New emergency care facilities may submit a categorization application no later than 90 days after opening or reopening.

c. Categorization applications may be obtained from the department upon written request to: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**134.2(2) Categorization levels for trauma care facilities shall be identified as:**

- a. Resource (Level I).
- b. Regional (Level II).
- c. Area (Level III).
- d. Community (Level IV).

**134.2(3)** Adoption by reference.

*a.* “Resources for Optimal Care of the Injured Patient” (2006) published by the American College of Surgeons Committee on Trauma is incorporated and adopted by reference for Resource (Level I) hospital and emergency care facility categorization criteria. “Iowa Trauma System Regional (Level II) Hospital and Emergency Care Facility Categorization Criteria” (2013) is incorporated and adopted by reference for Regional (Level II) hospital and emergency care facility categorization criteria. “Iowa Trauma System Area (Level III) Hospital and Emergency Care Facility Categorization Criteria” (2013) is incorporated and adopted by reference for Area (Level III) hospital and emergency care facility categorization criteria. “Iowa Trauma System Community (Level IV) Hospital and Emergency Care Facility Categorization Criteria” (2013) is incorporated and adopted by reference for Community (Level IV) hospital and emergency care categorization criteria. For any differences which may occur between the adopted references and these administrative rules, the administrative rules shall prevail.

*b.* “Iowa Trauma System Regional (Level II) Hospital and Emergency Care Facility Categorization Criteria” (2013), “Iowa Trauma System Area (Level III) Hospital and Emergency Care Facility Categorization Criteria” (2013) and “Iowa Trauma System Community (Level IV) Hospital and Emergency Care Facility Categorization Criteria” (2013) are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**134.2(4)** Categorization shall not be construed to imply any guarantee on the part of the department as to the level of trauma care services available at a hospital or emergency care facility.

**134.2(5)** A hospital, emergency care facility, or trauma care facility may apply to the department for a change in level of categorization through submission of a self-assessment categorization application.

**134.2(6)** Verification. Verification of a trauma care facility shall be determined by the department upon successful completion of the categorization application and completion of a verification survey. All categorized hospitals and emergency care facilities shall be verified.

**134.2(7)** The department shall conduct a verification survey for categorized hospitals or emergency care facilities.

*a.* A verification survey shall assess the ability of the hospital or emergency care facility to meet criteria for the level of categorization pursuant to 134.2(3).

*b.* The department shall approve trauma care facility verification when the department is satisfied that the proposed facility will provide services and be operated in compliance with Iowa Code section 147A.23 and these administrative rules.

*c.* The department shall notify the applicant, in writing, as to the approval or denial of verification as a trauma care facility within 90 days after the completion of a verification survey.

*d.* Verification shall not be construed to imply any guarantee on the part of the department as to the level of trauma care services available at a hospital or emergency care facility.

*e.* Trauma care facility verification is valid for a period of three years from the effective date unless otherwise specified on the certificate of verification or unless sooner suspended or revoked.

*f.* Trauma care facilities shall be fully operational at their verified level upon the effective date specified on the certificate of verification. Trauma care facilities shall meet all requirements of Iowa Code section 147A.23 and these administrative rules.

*g.* As part of the verification and renewal process, the department may conduct periodic on-site reviews of the services and facilities of trauma care facilities.

*h.* Trauma care facilities that are unable to maintain their categorization or verification, or both, shall notify the department within 48 hours.

*i.* The director, pursuant to rule, may grant a variance from the requirements of rules adopted under this chapter for any hospital or emergency care facility provided that the variance is related to undue hardships in complying with this chapter or the rules adopted pursuant to this chapter.

*j.* Hospitals currently verified by the American College of Surgeons shall be accepted as equivalent for categorization and verification as a trauma care facility in Iowa provided that all policy, reporting, and administrative rules have been met. Documentation shall be provided to the department including, but not limited to, a current copy of the ACS verification certification, the hospital’s

completed ACS verification application or a completed Self-Assessment Categorization Application (SACA).

**134.2(8)** Prohibited acts. A hospital or emergency care facility that imparts or conveys, or causes to be imparted or conveyed, that it is a trauma care facility, or that uses any other term to indicate or imply that the hospital or emergency care facility is a trauma care facility without having obtained a certificate of verification by the department is subject to civil penalty not to exceed \$100 per day for each offense. The director may apply to the district court for a writ of injunction to restrain the use of the term “trauma care facility.”

**134.2(9)** Nothing in Iowa Code section 147A.23 or these administrative rules shall be construed to restrict a hospital or emergency care facility from providing any services for which it is duly authorized. [ARC 9445B, IAB 4/6/11, effective 5/11/11; ARC 1079C, IAB 10/2/13, effective 1/6/14]

**641—134.3(147A) Complaints and investigations and appeals—denial, citation and warning, probation, suspension, and revocation of verification as a trauma care facility.**

**134.3(1)** The department may deny verification as a trauma care facility or may give a citation and warning, place on probation, suspend, or revoke existing verification if the department finds reason to believe that the facility has not been or will not be operated in compliance with Iowa Code section 147A.23 and these administrative rules or that there is insufficient assurance of adequate protection for the public. The denial, citation and warning, period of probation, suspension, or revocation shall be effected and may be appealed in accordance with the requirements of Iowa Code section 17A.12.

**134.3(2)** All complaints regarding the operation of a trauma care facility, or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**134.3(3)** An EMS provider who has knowledge of a hospital, emergency care facility or trauma care facility that has violated Iowa Code section 147A.23, or these administrative rules, shall immediately report such information to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**134.3(4)** Complaints and the investigative process shall be treated as confidential to the extent they are protected by Iowa Code section 22.7.

**134.3(5)** Complaint investigations may result in the department’s issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**134.3(6)** Notice of denial, citation and warning, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice to the alleged violator of denial, citation and warning, probation, suspension, or revocation shall be served by certified mail, return receipt requested, or by personal service.

**134.3(7)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department’s notice to take action. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department’s notice of denial, citation and warning, probation, suspension or revocation shall become the department’s final agency action.

**134.3(8)** Upon receipt of a request for hearing, the request shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**134.3(9)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**134.3(10)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**134.3(11)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**134.3(12)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**134.3(13)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or by personal service.

**134.3(14)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**134.3(15)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**134.3(16)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**134.3(17)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, news media or employer.

These rules are intended to implement Iowa Code section 147A.23.

CHAPTER 135  
TRAUMA TRIAGE AND TRANSFER PROTOCOLS

**641—135.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Out-of-Hospital Trauma Triage Destination Decision Protocol*” means written directives to assist in the decision making, established and approved by the department, that address the method of transport and trauma care facility destination to be followed by the service program.

“*Service program*” or “*service*” means any medical care ambulance service or nontransport service that has received authorization by the department.

“*Transfer*” means the process of a patient being transferred from the scene of an injury to a trauma care facility or from one trauma care facility to another.

“*Trauma care facility*” means a hospital or emergency care facility which provides trauma care and has been verified by the department as having Resource (Level I), Regional (Level II), Area (Level III) or Community (Level IV) care capabilities and has been issued a certificate of verification pursuant to Iowa Code section 147A.23, subsection 2, paragraph “c.”

“*Trauma system advisory council*” means an advisory council established pursuant to Iowa Code section 147A.24 to advise the department on issues and strategies to achieve optimal trauma care delivery throughout the state.

“*Trauma triage and transfer*” means to determine trauma care facility destination and mode of transportation.

“*TSAC*” means trauma system advisory council.

[ARC 1080C, IAB 10/2/13, effective 2/1/14]

**641—135.2(147A) Trauma triage and transfer protocols.**

**135.2(1)** Trauma triage and transfer protocols approved by the department shall be utilized to assist personnel from each service program and trauma care facility. This requirement shall not preclude service programs or trauma care facilities from making emergency revisions of the approved triage and transfer protocols when an incident overburdens medical care resources causing unnecessary delay in patient care.

*a.* Adoption by reference. The “Out-of-Hospital Trauma Triage Destination Decision Protocol” (Adult, 2013) and the “Out-of-Hospital Trauma Triage Destination Decision Protocol” (Pediatric, 2013) are incorporated by reference and adopted as the out-of-hospital trauma triage destination decision protocols. For any differences which may occur between the adopted references and these administrative rules, the administrative rules shall prevail.

*b.* The protocols adopted by reference in paragraph 135.2(1)“*a*” are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

*c.* Revisions and modifications to the protocols adopted by reference in paragraph 135.2(1)“*a*” may be made upon recommendation to the department from the trauma system advisory council (TSAC). Revisions and modifications shall be approved by the department.

*d.* The director, pursuant to rule, may grant a variance from the requirements of rules adopted under this chapter for any hospital, emergency care facility, or service program provided that the variance is related to undue hardships in complying with this chapter or the rules adopted pursuant to this chapter.

**135.2(2)** Reserved.

[ARC 1080C, IAB 10/2/13, effective 2/1/14]

**641—135.3(147A) Offenses and penalties.**

**135.3(1)** The department may deny verification as a trauma care facility or deny authorization as a service program or may give a citation and warning, place on probation, suspend, or revoke existing trauma care facility verification or service program authorization if the department finds reason to believe that the facility or service program has not been or will not be operated in compliance with Iowa Code

section 147A.27 and these administrative rules. The denial, citation and warning, period of probation, suspension, or revocation shall be effected and may be appealed in accordance with the requirements of Iowa Code section 17A.12.

**135.3(2)** All complaints regarding the operation of a trauma care facility or service program, or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**135.3(3)** Complaints and the investigative process shall be treated as confidential to the extent they are protected by Iowa Code section 22.7.

**135.3(4)** Complaint investigations may result in the department's issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**135.3(5)** Notice of denial, citation and warning, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice to the alleged violator of denial, citation and warning, probation, suspension, or revocation shall be served by certified mail, return receipt requested, or by personal service.

**135.3(6)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice to take action. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**135.3(7)** Upon receipt of a request for hearing, the request shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**135.3(8)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**135.3(9)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**135.3(10)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**135.3(11)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**135.3(12)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or personal service.

**135.3(13)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**135.3(14)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**135.3(15)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**135.3(16)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, news media or employer.

These rules are intended to implement Iowa Code section 147A.23.

CHAPTER 136  
TRAUMA REGISTRY

**641—136.1(147A) Definitions.** For the purposes of these rules, the following definitions shall apply:

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*ICD9*” means International Classification of Diseases, 9th Revision.

“*Inclusion criteria*” means criteria determined by the department and adopted by reference to determine which trauma patients are to be included in the trauma registry.

“*Reportable patient data*” means data elements and definitions determined by the department and adopted by reference to be reported to the trauma registry or reported to a trauma care facility on trauma patients meeting the inclusion criteria.

“*Service program*” or “*service*” means any medical care ambulance service, or nontransport service that has received authorization by the department.

“*Trauma care facility*” means a hospital or emergency care facility which provides trauma care and has been verified by the department as having Resource (Level I), Regional (Level II), Area (Level III) or Community (Level IV) care capabilities and has been issued a certificate of verification pursuant to Iowa Code section 147A.23, subsection 2, paragraph “c.”

“*Trauma patient*” means a victim of an external cause of injury that results in major or minor tissue damage or destruction caused by intentional or unintentional exposure to thermal, mechanical, electrical or chemical energy, or by the absence of heat or oxygen (ICD9 Codes E800.0 - E999.9).

“*Trauma registry*” means the data repository operated by the department to collect and analyze reportable patient data on the incidence, severity, and causes of trauma, including the central registry for brain and spinal cord injuries (IAC 641—21.1(135)) and farm-related injuries.

**641—136.2(147A) Trauma registry.**

**136.2(1)** Adoption by reference.

a. “Iowa Trauma Patient Data Dictionary” (July 2005) is incorporated by reference for inclusion criteria and reportable patient data to be reported to the trauma registry or reported to a trauma care facility. For any differences which may occur between the adopted reference and this chapter, the administrative rules shall prevail.

b. “Iowa Trauma Patient Data Dictionary” is available through the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

c. “Iowa EMS Patient Registry Data Dictionary” (August 2007) is incorporated by reference for inclusion criteria and reportable patient data to be reported to the department. For any differences which may occur between the adopted reference and this chapter, the administrative rules shall prevail.

d. “Iowa EMS Patient Registry Data Dictionary” is available through the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**136.2(2)** A verified trauma care facility shall:

a. Submit reportable patient data identified in 136.2(1) via electronic transfer or in writing to the department. Data shall be submitted in a format approved by the department.

b. Submit reportable patient data identified in 136.2(1) to the department for each calendar quarter. Reportable patient data shall be submitted no later than 90 days after the end of the quarter.

c. Submit reportable patient data identified in 136.2(1) to the receiving trauma care facility upon delivery of the injured patient. Data shall be submitted in a format approved by the department.

**136.2(3)** A service program shall:

a. Submit reportable patient data identified in 136.2(1) via electronic transfer. Data shall be submitted in a format approved by the department.

b. Submit reportable patient data identified in 136.2(1) to the department for each calendar quarter. Reportable patient data shall be submitted no later than 90 days after the end of the quarter.

c. Submit reportable patient data identified in 136.2(1) to the receiving trauma care facility upon delivery of the injured patient. Data shall be submitted in a format approved by the department.

**136.2(4)** Reportable patient data compilations. The department shall prepare compilations for release or dissemination on all reportable patient data entered into the trauma registry during the reporting period. The compilations shall include, but not be limited to, trends and patient care outcomes for local, regional and statewide evaluations. The compilations shall be made available to all providers submitting reportable patient data to the registry.

**136.2(5)** Access and release of reportable patient data and information.

a. The data collected by and furnished to the department pursuant to this section are confidential records of the condition, diagnosis, care, or treatment of patients or former patients, including outpatients, pursuant to Iowa Code section 22.7. The compilations prepared for release or dissemination from the data collected are not confidential under Iowa Code section 22.7, subsection 2. However, information which individually identifies patients shall not be disclosed and state and federal law regarding patient confidentiality shall apply.

b. The department may approve requests for reportable patient data for special studies and analysis provided:

(1) The request has been reviewed and approved by the department with respect to the scientific merit and confidentiality safeguards; and

(2) The department has given administrative approval for the proposal.

(3) The confidentiality of patients and trauma care facilities is protected pursuant to Iowa Code section 22.7.

c. The department may require those requesting the data to pay any or all of the reasonable costs associated with furnishing the reportable patient data.

**136.2(6)** Data collection methods. To the extent possible, activities under this section shall be coordinated with other health data collection methods.

**136.2(7)** Quality assurance.

a. For the purpose of ensuring the completeness and quality of reportable patient data, the department or authorized representative may examine all or part of the patient's medical records as necessary to verify or clarify all reportable patient data submitted by a trauma care facility or a service program.

b. Review of a patient's medical record by the department shall be scheduled in advance with the trauma care facility or service program and completed in a timely manner.

c. The director, pursuant to rule, may grant a variance from the requirements of rules adopted under this chapter for any hospital, emergency care facility, or service program provided that the variance is related to undue hardships in complying with this chapter or the rules adopted pursuant to this chapter. [ARC 9444B, IAB 4/6/11, effective 5/11/11]

#### **641—136.3(147A) Offenses and penalties.**

**136.3(1)** The department may deny verification as a trauma care facility or deny authorization as a service program or may give a citation and warning, place on probation, suspend, or revoke existing trauma care facility verification or service program authorization if the department finds reason to believe that the facility or service program has not been or will not be operated in compliance with Iowa Code section 147A.26 and these administrative rules. The denial, citation and warning, period of probation, suspension, or revocation shall be effected and may be appealed in accordance with the requirements of Iowa Code section 17A.12.

**136.3(2)** All complaints regarding the operation of a trauma care facility or service program or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**136.3(3)** Complaints and the investigative process shall be treated as confidential to the extent they are protected by Iowa Code section 22.7.

**136.3(4)** Complaint investigations may result in the department's issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**136.3(5)** Notice of denial, citation and warning, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice to the alleged violator of denial, citation and warning, probation, suspension, or revocation shall be served by certified mail, return receipt requested, or by personal service.

**136.3(6)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice to take action. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**136.3(7)** Upon receipt of a request for hearing, the request shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**136.3(8)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**136.3(9)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**136.3(10)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**136.3(11)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a.* All pleadings, motions, and rules.
- b.* All evidence received or considered and all other submissions by recording or transcript.
- c.* A statement of all matters officially noticed.
- d.* All questions and offers of proof, objections and rulings on them.
- e.* All proposed findings and exceptions.
- f.* The proposed decision and order of the administrative law judge.

**136.3(12)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or personal service.

**136.3(13)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**136.3(14)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**136.3(15)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**136.3(16)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, news media or employer.

These rules are intended to implement Iowa Code section 147A.26.

CHAPTER 137  
TRAUMA EDUCATION AND TRAINING

**641—137.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*ACLS course*” means advanced cardiac life support course.

“*Advanced emergency medical technician*” or “*AEMT*” means advanced emergency medical technician as defined in 641—131.1(147A).

“*Advanced registered nurse practitioner*” or “*ARNP*” means a nurse pursuant to 655—7.1(152) with current licensure as a registered nurse in Iowa who is registered in Iowa to practice in an advanced role. The ARNP is prepared for an advanced role by virtue of additional knowledge and skills gained through a formal advanced practice education program of nursing in a specialty area approved by the board. In the advanced role, the nurse practices nursing assessment, intervention, and management within the boundaries of the nurse-client relationship. Advanced nursing practice occurs in a variety of settings within an interdisciplinary health care team, which provide for consultation, collaborative management, or referral. The ARNP may perform selected medically delegated functions when a collaborative practice agreement exists.

“*Advanced trauma life support course*®” or “*ATLS*®” means a course for physicians with an emphasis on the first hour of initial assessment and primary management of the injured patient, starting at the point in time of injury continuing through initial assessment, life-saving intervention, reevaluation, stabilization, and transfer when appropriate.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency care facility*” means a physician’s office, clinic, or other health care center which provides emergency medical care in conjunction with other primary care services.

“*Emergency medical care provider*” means emergency medical care provider as defined in 641—131.1(147A).

“*Emergency medical services*” or “*EMS*” means emergency medical services as defined in 641—132.1(147A).

“*Emergency medical technician*” or “*EMT*” means emergency medical technician as defined in 641—131.1(147A).

“*Emergency medical technician-ambulance*” or “*EMT-A*” means emergency medical technician-ambulance as defined in 641—131.1(147A).

“*Emergency medical technician-basic*” or “*EMT-B*” means emergency medical technician-basic as defined in 641—131.1(147A).

“*Emergency medical technician-defibrillation*” or “*EMT-D*” means emergency medical technician-defibrillation as defined in 641—131.1(147A).

“*Emergency medical technician-intermediate*” or “*EMT-I*” means emergency medical technician-intermediate as defined in 641—131.1(147A).

“*Emergency medical technician-paramedic*” or “*EMT-P*” means emergency medical technician-paramedic as defined in 641—131.1(147A).

“*First responder*” or “*FR*” means first responder as defined in 641—131.1(147A).

“*First responder-defibrillation*” or “*FR-D*” means first responder-defibrillation as defined in 641—131.1(147A).

“*Formal education*” means education in standardized educational settings with a curriculum.

“*Hospital*” means a facility licensed under Iowa Code chapter 135B, or comparable emergency care facility located and licensed in another state.

“*Licensed practical nurse*” or “*LPN*” means an individual licensed pursuant to Iowa Code chapter 152.

“*NRP course*” means neonatal resuscitation provider course.

“*PALS course*” means pediatric advanced life support course.

“*Paramedic*” means paramedic as defined in 641—131.1(147A).

“*Paramedic specialist*” or “*PS*” means paramedic specialist as defined in 641—131.1(147A).

*“Physician”* means an individual licensed under Iowa Code chapter 148, 150 or 150A.

*“Physician assistant”* or *“PA”* means an individual licensed pursuant to Iowa Code chapter 148C.

*“Practitioner”* means a person who practices medicine or one of the associated health care professions.

*“Registered nurse”* or *“RN”* means an individual licensed pursuant to Iowa Code chapter 152.

*“Service program”* or *“service”* means service program as defined in 641—132.1(147A).

*“Trauma”* means a single or multisystem life-threatening or limb-threatening injury, or an injury requiring immediate medical or surgical intervention or treatment to prevent death or disability.

*“Trauma care facility”* means a hospital or emergency care facility which provides trauma care and has been verified by the department as having Resource (Level I), Regional (Level II), Area (Level III) or Community (Level IV) care capabilities and has been issued a certificate of verification pursuant to Iowa Code section 147A.23, subsection 2, paragraph “c.”

*“Trauma care system”* means an organized approach to providing personnel, facilities, and equipment for effective and coordinated trauma care.

*“Trauma nursing course objectives”* means the trauma nursing course objectives recommended to the department by the trauma system advisory council and adopted by reference in these rules.

*“Trauma patient”* means a victim of an external cause of injury that results in major or minor tissue damage or destruction caused by intentional or unintentional exposure to thermal, mechanical, electrical or chemical energy, or by the absence of heat or oxygen (ICD9 Codes E800.0 - E999.9).

*“Trauma system advisory council”* or *“TSAC”* means the council established by the department pursuant to Iowa Code section 147A.24 to advise the department on issues and strategies to achieve optimal trauma care delivery throughout the state, to assist the department in the implementation of an Iowa trauma care plan, to develop criteria for the categorization of all hospitals and emergency care facilities according to their trauma care capabilities, to develop a process for verification of the trauma care capacity of each facility and the issuance of a certificate of verification, to develop standards for medical direction, trauma care, triage and transfer protocols, and trauma registries, to promote public information and education activities for injury prevention, to review rules adopted under this division, and to make recommendations to the director for changes to further promote optimal trauma care.

*“Trauma team”* means a team of multidisciplinary health care providers established and defined by a hospital or emergency care facility that provides trauma care commensurate with the level of trauma care facility verification.

*“Verification”* means a process by which the department certifies a hospital or emergency care facility’s capacity to provide trauma care in accordance with criteria established for Resource (Level I), Regional (Level II), Area (Level III) or Community (Level IV) trauma care facilities and these rules.

[ARC 1081C, IAB 10/2/13, effective 11/6/13]

**641—137.2(147A) Initial trauma education for Iowa’s trauma system.** Initial trauma education is required of physicians, physician assistants, advanced registered nurse practitioners, registered nurses, and licensed practical nurses who are identified or defined as trauma team members by a trauma care facility and who participate directly in the initial resuscitation of the trauma patient.

**137.2(1) General requirements for initial trauma education.**

*a.* Completion of initial trauma education shall be done within three years of the trauma care facility’s initial verification or within one year of the practitioner’s joining the trauma care facility’s trauma team.

*b.* Trauma nursing course objectives (2007) are incorporated and adopted by reference for all trauma care facilities. For any differences which may occur between the adopted references and these administrative rules, the administrative rules shall prevail.

*c.* Trauma nursing course objectives are available from the Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**137.2(2) Specific requirements for initial trauma education for each provider category are as follows:**

*a.* Physicians, PAs and ARNPs: current ATLS® certification.

*b.* RNs and LPNs: successful completion of trauma nursing course objectives (2007) recommended by TSAC.

[ARC 1081C, IAB 10/2/13, effective 11/6/13]

**641—137.3(147A) Continuing trauma education for Iowa's trauma system.** Continuing trauma education is required every four years of physicians, physician assistants, advanced registered nurse practitioners, registered nurses, and licensed practical nurses who are identified or defined as trauma team members by a trauma care facility and who participate directly in the initial resuscitation of the trauma patient.

**137.3(1)** Topics for all or part of the continuing trauma education hours may be recommended to the department by TSAC based on trauma care system outcomes.

**137.3(2)** General requirements for continuing trauma education.

*a.* Sixteen hours of the required continuing trauma education hours may be informal, determined and approved by a trauma care facility from any of the following:

1. Multidisciplinary trauma case reviews;
2. Multidisciplinary trauma conferences;
3. Multidisciplinary trauma mortality and morbidity reviews;
4. Multidisciplinary trauma committee meetings;
5. Trauma peer review meetings;
6. Any trauma care facility committee meeting with a focus on trauma care evaluation; and
7. Critical care education such as ACLS course, PALS course, NRP course, or equipment inservices.

*b.* Eight hours of the required continuing trauma education hours shall be obtained through any formalized continuing education programs.

**137.3(3)** Specific requirements for each provider category are as follows:

*a.* Physicians: 24 hours of continuing trauma education is required, with a minimum of 8 hours as formal education.

(1) Physicians who treat trauma patients in the emergency department but are not board-certified in emergency medicine must maintain current ATLS® certification.

(2) Surgeons who are not board-certified in general surgery must maintain current ATLS® certification.

(3) The designated trauma service medical director, regardless of board certification, must maintain current ATLS® certification.

*b.* PA and ARNP: 24 hours of continuing trauma education is required, with a minimum of 8 hours as formal education. Of the 8 hours of formal education, current ATLS® certification is required.

*c.* RN and LPN: 16 hours of continuing trauma education is required, with a minimum of 4 hours as formal education based upon the trauma nursing course objectives (2007) recommended by TSAC.

**137.3(4)** Continuing trauma education is required of certified emergency medical care providers every two years as follows:

- a.* EMR, FR or FR-D: 2 continuing education hours.
- b.* EMT, EMT-A, EMT-B, EMT-D: 4 continuing education hours.
- c.* AEMT, EMT-I: 4 continuing education hours.
- d.* EMT-P, PS, Paramedic: 6 continuing education hours.

[ARC 1081C, IAB 10/2/13, effective 11/6/13]

**641—137.4(147A) Offenses and penalties.**

**137.4(1)** The department may deny verification as a trauma care facility or deny authorization as a service program, may give a citation and warning, or may place on probation, suspend, or revoke existing trauma care facility verification or service program authorization if the department finds reason to believe that the facility or service program has not been or will not be operated in compliance with Iowa Code sections 147A.27 and these administrative rules. The denial, citation and warning, period of probation, suspension, or revocation shall be effected and may be appealed in accordance with the requirements of Iowa Code section 17A.12.

**137.4(2)** All complaints regarding the operation of a trauma care facility or service program, or those purporting to be or operating as the same, shall be reported to the department. The address is Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**137.4(3)** Complaints and the investigative process shall be treated as confidential to the extent they are protected by Iowa Code section 22.7.

**137.4(4)** Complaint investigations may result in the department's issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**137.4(5)** Notice of denial, citation and warning, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice to the alleged violator of denial, citation and warning, probation, suspension, or revocation shall be served by certified mail, return receipt requested, or by personal service.

**137.4(6)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice to take action. The address is Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**137.4(7)** A request for a hearing shall be forwarded within five working days of receipt of the request to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**137.4(8)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**137.4(9)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**137.4(10)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**137.4(11)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**137.4(12)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or personal service.

**137.4(13)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The

aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**137.4(14)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**137.4(15)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**137.4(16)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, news media or employer.

These rules are intended to implement Iowa Code chapter 147A.

CHAPTER 138  
TRAUMA SYSTEM ADVISORY COUNCIL

**641—138.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency medical care provider*” means emergency medical care provider as defined in rule 641—131.1(147A).

“*Trauma care system*” means an organized approach to providing personnel, facilities, and equipment for effective and coordinated trauma care.

“*TSAC*” means the trauma system advisory council established pursuant to Iowa Code section 147A.24.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.2(147A) Purpose and duties.**

**138.2(1)** The TSAC shall advise the department on issues and strategies to achieve optimal trauma care delivery throughout the state.

**138.2(2)** Duties of the TSAC shall include, but not be limited to:

*a.* Annually reviewing Iowa Administrative Code rules related to the trauma care system to make recommendations to the department for changes to further promote optimal trauma care, including but not limited to review of this chapter and the following chapters:

(1) 641—Chapter 134, Trauma Care Facility Categorization and Verification.

(2) 641—Chapter 135, Trauma Triage and Transfer Protocols.

(3) 641—Chapter 136, Trauma Registry.

(4) 641—Chapter 137, Trauma Education and Training.

*b.* Assisting the department in development and implementation of an Iowa trauma care plan inclusive of all aspects of the statewide trauma system utilizing a system assessment and annual benchmarking.

*c.* Developing and maintaining criteria for the categorization of all hospitals and emergency care facilities according to their trauma care capabilities. These categories shall be for Levels I, II, III, and IV, based on the most current guidelines published by the American College of Surgeons’ committee on trauma, the American College of Emergency Physicians, and the model trauma care plan of the U.S. Department of Health and Human Services’ Health Resources and Services Administration. These criteria are established in 641—Chapter 134, and TSAC shall, pursuant to paragraph 138.2(2)“*a*,” annually review the criteria.

*d.* Developing and maintaining a process for the verification of the trauma care capacity of each facility and the issuance of a certificate of verification. This process is established in 641—Chapter 134, and TSAC shall, pursuant to paragraph 138.2(2)“*a*,” annually review the process.

*e.* Developing and maintaining standards for medical direction, trauma care, and triage and transfer protocols. These standards are established in 641—Chapter 135, and TSAC shall, pursuant to paragraph 138.2(2)“*a*,” annually review these standards.

*f.* Developing and maintaining standards for trauma registries. These standards are established in 641—Chapter 136, and TSAC shall, pursuant to paragraph 138.2(2)“*a*,” annually review these standards.

*g.* Collaborating with the department to develop trauma standards for medical direction, procedures, and protocols to support a statewide trauma system.

*h.* Developing, implementing, and conducting trauma care system evaluation, quality assessment, and quality improvement in coordination with the department.

*i.* Partnering with the department to promote public information and educational activities for injury prevention and in support of the statewide trauma system.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.3(147A) Appointment and membership.**

**138.3(1)** The members of TSAC shall be appointed by the director from the recommendations of the organizations listed in subrule 138.3(4).

**138.3(2)** Appointments shall be for two-year staggered terms, which shall expire on June 30.

**138.3(3)** Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**138.3(4)** Membership. The voting membership of the TSAC shall be comprised of one representative nominated from each of the following organizations:

- a. American Academy of Pediatrics.
- b. American College of Emergency Physicians, Iowa chapter.
- c. American College of Surgeons, Iowa chapter.
- d. Department of public health.
- e. Governor's traffic safety bureau.
- f. Iowa Academy of Family Physicians.
- g. Iowa Emergency Medical Services Association.
- h. Iowa Emergency Nurses Association.
- i. Iowa Hospital Association representing rural hospitals.
- j. Iowa Hospital Association representing urban hospitals.
- k. Iowa Medical Society.
- l. Iowa Osteopathic Medical Society.
- m. Iowa Physician Assistant Society.
- n. Iowa Society of Anesthesiologists.
- o. Orthopedic System Advisory Council of the American Academy of Orthopedic Surgeons, Iowa representative.
- p. Rehabilitation services delivery representative.
- q. Iowa's Medicare quality improvement organization.
- r. State medical examiner.
- s. Trauma nurse coordinator representing a trauma registry hospital.
- t. University of Iowa, Injury Prevention Research Center.

**138.3(5) Absences.**

a. Three unexcused absences in a 12-month period shall be grounds for the director to request nomination of an alternate representative to fill the position.

b. Absences may be excused by notification provided to the chairperson prior to the meeting.

c. The chairperson of the TSAC shall be charged with providing notification of absences to the department.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.4(147A) Officers.**

**138.4(1)** Officers of the TSAC shall consist of a chairperson and a vice chairperson, who shall be elected at the first meeting of each fiscal year.

a. Officers may serve no more than three consecutive terms as chairperson or vice chairperson.

b. Vacancies in the office of chairperson shall be filled by elevation of the vice chairperson.

c. Vacancies in the office of vice chairperson shall be filled by election at the next meeting after the vacancy occurs.

**138.4(2) Duties of officers.**

a. The chairperson shall:

- (1) Preside at all meetings of the TSAC,
- (2) Appoint such subcommittees as deemed necessary, and
- (3) Designate the chairperson of each subcommittee.

b. The vice chairperson shall:

(1) Perform the duties of the chairperson if the chairperson is absent or unable to act. When so acting, the vice chairperson shall have all the powers of and be subject to all restrictions upon the chairperson.

(2) Perform such other duties as may be assigned by the chairperson.  
[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.5(147A) Meetings.**

**138.5(1)** The TSAC shall establish a meeting schedule on an annual basis to conduct its business. There shall be a minimum of four meetings per year.

*a.* Meetings may be scheduled as business requires, but notice to members must be given at least five working days prior to the meeting date.

*b.* Notice given four weeks in advance is encouraged to accommodate the schedules of professional members.

**138.5(2)** Any TSAC member who is unable to attend the meeting will notify the chairperson.

**138.5(3)** A majority of appointed members constitutes a quorum.

**138.5(4)** When a quorum is present, a position is carried by affirmative vote of the majority of those present. No official business that requires a vote of the membership shall be conducted without a quorum present.

**138.5(5)** Persons wishing to make a presentation to the TSAC shall submit the request to the chairperson not less than 14 days prior to the meeting. Presentations may be made at the discretion of the chairperson.

**138.5(6)** Persons wishing to submit written materials should do so at least 14 days in advance of the scheduled meeting to ensure that TSAC members have adequate time to receive and evaluate the materials.

**138.5(7)** TSAC may conduct meetings by electronic means pursuant to Iowa Code section 21.8.  
[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.6(147A) Subcommittees.** TSAC may designate one or more subcommittees to perform such duties as may be deemed necessary.  
[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.7(147A) Confidentiality.**

**138.7(1)** The data collected by and furnished to the department pursuant to Iowa Code section 147A.26 are confidential records of the condition, diagnosis, care, or treatment of patients or former patients, including outpatients, and shall not be public record under Iowa Code chapter 22. The confidentiality of patients is to be protected, and the laws of this state shall apply with regard to patient confidentiality.

**138.7(2)** Proceedings, records, and reports reviewed or developed pursuant to Iowa Code section 147A.24 constitute peer review records under Iowa Code section 147.135 and are not subject to discovery by subpoena or admissible as evidence. All information and documents received from a hospital or emergency care facility under Iowa Code chapter 147A shall be confidential pursuant to Iowa Code section 272C.6(4).

**138.7(3)** TSAC or subcommittees of TSAC may enter into closed session proceeding pursuant to Iowa Code section 21.5.

**138.7(4)** All council and subcommittee members shall sign a confidentiality agreement not to divulge or discuss information obtained during a TSAC or subcommittee closed session proceeding. The signed confidentiality statements shall be kept on file at the department.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.8(147A) Documentation.**

**138.8(1)** The department, pursuant to Iowa Code section 21.3, shall keep minutes of open session proceedings.

**138.8(2)** The department, pursuant to Iowa Code section 21.5, shall also maintain minutes and tape recordings of closed session proceedings.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.9(147A) Expenses of advisory council members.** The following may be considered necessary expenses for reimbursement of TSAC members when the expenses are incurred on behalf of TSAC business and are subject to established state reimbursement rates:

1. Reimbursement for travel in a private car.
2. Actual lodging and meal expenses, including sales tax on lodging and meals.
3. Actual expense of public transportation.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.10(147A) Council composition.** The council's composition shall be developed and maintained pursuant to Iowa Code chapter 69.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

These rules are intended to implement Iowa Code chapter 147A.

[Filed ARC 2566C (Notice ARC 2448C, IAB 3/16/16), IAB 6/8/16, effective 7/13/16]

CHAPTER 139  
IOWA LAW ENFORCEMENT EMERGENCY CARE PROVIDER

**641—139.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*AED*” means automated external defibrillator.

“*CEHs*” means “continuing education hours” which are based upon a minimum of 50 minutes of training per hour.

“*Continuing education*” means training approved by the department which is obtained by a certified Iowa law enforcement emergency care provider to maintain, improve, or expand relevant skills and knowledge and to satisfy renewal of certification requirements.

“*Course completion date*” means the date of the final classroom session of an Iowa law enforcement emergency care provider course.

“*CPR*” means training and successful course completion in cardiopulmonary resuscitation, AED and obstructed airway procedures for all age groups according to recognized national standards.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency medical services*” or “*EMS*” means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

“*EMS instructor*” means an individual who has successfully completed an EMS instructor curriculum approved by the department, and is currently certified by the department as an EMS-I.

“*Iowa law enforcement emergency care provider*” or “*ILEECP*” means an individual who is certified by the Iowa law enforcement academy as an Iowa peace officer, and has successfully completed an emergency care provider curriculum approved by the department, and who is currently certified by the department as an Iowa law enforcement emergency care provider.

“*Iowa law enforcement training program*” means the law enforcement academy or a law enforcement training program approved by the department to conduct ILEECP emergency medical care training.

“*Law enforcement AED service program*” means a recognized Iowa law enforcement agency that has trained its peace officers in the use of an AED and has registered with the department as a law enforcement AED service program.

“*Student*” means any individual enrolled in a training program and participating in the didactic, clinical, or field experience portions.

**641—139.2(147A) Authority of Iowa law enforcement emergency care provider.** Iowa law enforcement emergency care provider may perform skills identified in the Iowa law enforcement emergency care provider curriculum approved by the department, plus the skill of automated defibrillation for which training can be documented.

**641—139.3(147A) Iowa law enforcement emergency care providers—requirements for enrollment in training programs.** To be enrolled in an Iowa law enforcement training program, an applicant shall:

1. Be at least 18 years of age at the time of enrollment.
2. Have a high school diploma or its equivalent.
3. Be able to speak, write and read English.

**641—139.4(147A) Iowa law enforcement emergency care providers—certification, renewal standards and procedures, and fees.**

**139.4(1) Application and examination.**

a. Applicants shall complete an EMS student registration form at the beginning of the course. EMS student registration forms are provided by the department.

b. EMS student registration forms shall be forwarded to the department by the training program no later than two weeks after the beginning of the course.

c. Upon satisfactory completion of the course and all training program requirements, including successful completion of the state certifying practical examination, the student shall be recommended by the training program to take the state certification written examinations. Candidates for state certification are not eligible to continue functioning as students in the clinical and field setting. State certification must be obtained to perform appropriate skills.

d. The practical examination shall be administered by the training program using the standards and forms provided by the department. The training program shall notify the department at least two weeks prior to the administration of a practical examination.

e. To be eligible to take the written examination, the student shall first pass the practical examination.

f. The student shall submit an EMS certification application form. EMS certification application forms are provided by the department.

g. When a student's EMS student registration or EMS certification application is referred to the department for investigation, the student shall not be certified until approved by the department.

h. The certifying written examinations shall be administered at times and places determined by the department.

i. No oral certification examinations shall be permitted; however, candidates may be eligible for appropriate accommodations. Contact the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

j. Practical examination fees shall be determined by the training program.

k. A student who fails the practical certification examination shall be required to repeat only those stations which were failed and shall have two additional opportunities to attain a passing score. The student may repeat the failed examination stations on the same day as determined by the training program. A student who fails a practical station for the third time shall be required to repeat the entire course in order to be eligible for certification. If a student fails the written examination, the practical examination remains valid for a 12-month period from the date it was successfully completed.

l. A student who fails to attain the appropriate overall score on the written certification examination shall have two additional opportunities to complete the entire examination and attain a passing score. Required overall passing score is 70 percent.

m. All examination attempts shall be completed within one year of the initial course completion date. If an individual is unable to complete the testing within one year due to medical reasons, an extension may be granted upon submission of a signed statement from a physician and approval by the department.

n. Examination scores shall be confidential except that they may be released to the training program which provided the training or released in a manner which does not permit the identification of an individual.

**139.4(2) *Renewal of certification.***

a. A certificate shall be valid for two years from issuance unless specified otherwise on the certificate or unless sooner suspended or revoked.

b. All continuing education requirements shall be completed during the certification period prior to the certificate's expiration date. Failure to complete the continuing education requirements prior to the expiration date shall result in an expired certification.

c. The application for renewal of certification shall be submitted to the department within the 90 days prior to the expiration date. Failure to submit a renewal application to the department within the 90 days prior to the expiration date (based upon the postmark date) shall cause the current certification to expire. Iowa law enforcement emergency care providers shall not function on an expired certification.

An individual who completes the required continuing education during the certification period, but fails to submit the application for renewal of certification within 90 days prior to the expiration date, shall be required to submit a late fee of \$30 to obtain renewal of certification.

d. An individual who has not completed the required continuing education during the certification period and is seeking to reinstate an expired certificate shall complete a refresher course approved by the department and pass the practical and written certification examinations.

*e.* If an individual is unable to complete the required continuing education during the certification period due to an illness or injury, an extension of certification may be issued upon submission of a signed statement from a physician and approval by the department.

**139.4(3) *Renewal standards.*** To be eligible for renewal, the certificate holder shall:

*a.* Have signed and submitted an application for renewal of certification, provided by the department, within the 90 days prior to the certificate's expiration date.

*b.* Have a current CPR course completion card or a signed and dated statement from a recognized CPR instructor that documents current course completion in CPR.

*c.* Have completed four continuing education hours during the certification period including a minimum of one hour in the following topics:

Infectious diseases

Abuse (child and dependent adult)

Trauma emergencies

Medical emergencies

*d.* Notify the department of a change in address.

*e.* Maintain a file containing documentation of continuing education hours accrued during each certification period and retain this file for four years from the end of each certification period.

A group of individual certificate holders will be audited for each certification period and will be required to submit verification of continuing education compliance within 45 days of the request. If audited, the following information must be provided: date of program, program sponsor number, title of program, and number of hours approved. Certificate holders audited will be chosen in a random manner or at the discretion of the bureau of EMS. Falsifying reports or failure to comply with the audit request may result in formal disciplinary action.

#### **641—139.5(147A) Iowa law enforcement training programs.**

**139.5(1) *Curricula.***

*a.* The training program shall use the course curricula approved by the department for an Iowa law enforcement emergency care provider and shall include, as a minimum, the following course components:

1. Twenty-four hours of classroom instruction.

2. Practical and written examinations.

3. Clinical and field experience as may be required by the training program.

*b.* The training program may waive portions of the required training by documenting equivalent training and what portions of the course have been waived for equivalency.

*c.* An individual currently certified by the department as an emergency medical care provider, pursuant to 641—Chapter 132, may request Iowa law enforcement emergency care provider certification. Such a request must be made in writing to the department with documentation of credentials as an Iowa peace officer.

**139.5(2) *Staff.***

*a.* Course coordinators, outreach course coordinators, and primary instructor(s) used for the Iowa law enforcement emergency care provider course shall be currently certified by the department as EMS instructors.

*b.* Practical examination evaluators used for the Iowa law enforcement emergency care provider course shall attend a workshop sponsored by the department.

**641—139.6(147A) Law enforcement AED service program authorization.** A recognized Iowa law enforcement agency that desires to allow its peace officers to use an AED may register with the department to provide AED coverage. The purpose of this rule is to allow law enforcement agencies to train their peace officers in the use of the automated external defibrillator and to provide AED coverage when appropriately trained personnel are available. This rule is intended to enhance and supplement the local EMS system with nontraditional early defibrillation agencies.

**139.6(1)** Training requirements. Law enforcement personnel wishing to provide AED coverage as part of an Iowa law enforcement agency shall have current course completion in:

- a.* Adult CPR, including one rescuer CPR, foreign body airway obstruction, rescue breathing, recovery position, and activating the EMS system; and
- b.* A nationally recognized AED course approved by the department.

**139.6(2)** Iowa law enforcement AED service program—registration, guidelines, and standards. An Iowa law enforcement agency may register with the department to provide AED coverage. Iowa law enforcement AED service programs seeking registration with the department shall:

- a.* Complete the department's AED service program registration form.
- b.* Provide an AED liaison who shall be responsible for supervision of the AED service program.
- c.* Implement a policy for periodic maintenance of the AED.
- d.* Ensure that the service program's AED providers maintain AED and CPR skill competency.
- e.* Identify which authorized Iowa ambulance service program(s) will provide patient transportation.
- f.* Reregister with the department every five years.

**139.6(3)** Complaints and investigations shall be conducted as with any complaint received against an EMS service program, applying rule 641 IAC 132.10(147A).

These rules are intended to implement Iowa Code chapter 147A.

CHAPTER 140  
EMERGENCY MEDICAL SERVICES SYSTEM DEVELOPMENT GRANTS FUND

**641—140.1(135) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Ambulance service*” means ambulance service as defined in 641—132.1(147A).

“*CEHs*” means CEH as defined in 641—131.1(147A).

“*Continuing education*” means continuing education as defined in 641—131.1(147A).

“*County EMS association*” means a countywide group of EMS providers and various agency and organization representatives and consumers who provide leadership for the local EMS system on needs and objectives. The county EMS association should also include representatives of services located in a neighboring county if service is provided on a regular basis to residents of the county receiving funding.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency medical care provider*” means emergency medical care provider as defined in 641—131.1(147A).

“*Emergency medical services*” or “*EMS*” means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

“*EMS course*” means a course for emergency medical care personnel pursuant to Iowa Code section 147A.4, subsection 2.

“*Fiscal year*” means the 12-month period beginning July 1 and ending June 30.

“*Infrastructure*” means those elements that make up an EMS system.

“*Nontransport service*” means nontransport service as defined in 641—132.1(147A).

“*Regional EMS council*” means a multicounty nonprofit corporation whose purpose is to facilitate EMS development on a regional basis.

“*Service program*” means service program as defined in 641—131.1(147A).

“*Strategic plan*” means a document produced via a multiagency effort to evaluate and define needs and goals to improve the local EMS system.

“*Training*” means EMS-related courses designed and intended for EMS providers and includes any item used in training including, but not limited to, slides, films, mannequins, emergency care devices, books and other items pertinent and necessary for training purposes.

[ARC 0756C, IAB 5/29/13, effective 7/3/13]

**641—140.2(135) Purpose.** The EMS system development grant is intended to supplement EMS funds at the regional, county or local level to promote EMS system development.

**641—140.3(135) County EMS associations.** Each county shall have a county EMS association, council or board to develop and maintain the countywide EMS system strategic plan and to provide leadership on related EMS system development funding needs and objectives.

**641—140.4(135) County EMS system development grants.** Grants for EMS system development proposals at the regional, county, and local level are available through a grant process from the department to county boards of supervisors or local boards of health for equipment, training, and support of infrastructure needs as identified in the countywide EMS strategic plan and the department system standards. County boards of supervisors or local boards of health may not take any administrative fee from these funds to support their work under this rule. County recipients of funds may subcontract work under this agreement to a county EMS association. Funds for training will be used to train members of a service program that provides service on a regular basis to residents of the county being funded. Funds for equipment require a \$1 match of regional, county, or local funds for each \$1 of EMS system development grant funds.

**140.4(1) Eligible costs.** Costs which are eligible for EMS system development grant expenditures as defined in the request for proposal (RFP) include:

- a. Training.

(1) Reimbursement for initial training tuition, fees and materials up to an amount that is the lowest fee charged by the training entity following successful completion of an EMS course. Practical and written examination fees may also be included.

(2) Payment of continuing education tuition, fees and materials. Education provided by an EMS service program for the general public is an allowable expense.

(3) Payment for EMS training aids.

*b.* Other equipment as defined by the RFP.

*c.* Infrastructure support.

(1) Development and enhancement of EMS systems.

(2) Office equipment and supplies necessary to coordinate a countywide EMS system.

(3) Personnel services for staffing to provide countywide continuous quality improvement and medical direction.

The title to any EMS equipment purchased with these funds shall not lie with the department, but shall be determined by the county.

**140.4(2) *Ineligible costs.*** Costs which are not eligible for funding include, but are not limited to, the following:

*a.* Certification/recertification fees.

*b.* Building and construction costs.

*c.* Debt amortization.

*d.* Land.

*e.* Rent.

*f.* Utilities.

*g.* Vehicles including, but not limited to, ambulances, fire apparatus, boats, rescue/first response vehicles, snowmobiles and vehicle parts.

[ARC 0756C, IAB 5/29/13, effective 7/3/13]

**641—140.5(135) Disbursement of funds.** Rescinded IAB 2/2/05, effective 3/9/05.

**641—140.6(135) Application denial or partial denial—appeal.** Rescinded IAB 2/2/05, effective 3/9/05.

These rules are intended to implement Iowa Code section 135.25.

[Filed 2/26/98, Notice 9/10/97—published 3/25/98, effective 4/29/98]

[Filed emergency 5/8/02—published 5/29/02, effective 5/8/02]

CHAPTER 141  
LOVE OUR KIDS GRANT

**641—141.1(321) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Applicant*” means an individual, organization, or entity that has as its responsibility the development, promotion, and implementation of injury prevention and education initiatives for children and who has submitted an application for a love our kids grant.

“*Department*” means the Iowa department of public health.

“*Project period*” means the period of time which the department intends to support the project.

“*Service program*” means any medical care ambulance service or nontransport service that has received authorization by the department.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

**641—141.2(321) Purpose.** The purpose of the love our kids grant is to provide grant funding to statewide, regional and local agencies and service programs that have as their responsibility the development, promotion, and implementation of injury prevention and education initiatives for children in Iowa.

**641—141.3(321) Funding limitations.** Grants awarded under this program shall be subject to the guidelines within the contract and the following, including but not limited to:

**141.3(1)** Up to 10 percent of the funds generated by this program may be retained by the department for program management.

**141.3(2)** Rescinded IAB 12/6/06, effective 11/8/06.

**141.3(3)** Following the disbursement of the funds pursuant to subrule 141.3(1), funding may be made available to statewide, regional and local agencies or service programs that are responsible for development, promotion, and implementation of injury prevention and education initiatives for children. To the extent possible, funds shall be awarded and equally distributed to applicants across all geographic areas of the state.

**141.3(4)** Expenditures occurring prior to the project period are not eligible for reimbursement.

**141.3(5)** Grant awards shall be subject to the availability of funds.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

**641—141.4(321) Use of funds.** Funds may be used for injury prevention initiatives specified within the guidelines for children aged birth to 21, including but not limited to:

1. Education and training materials;
2. Equipment, supplies, and materials;
3. Public information and education campaigns;
4. Conferences/seminars/workshops;
5. Contractual services;
6. Personnel costs.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

**641—141.5(321) Application process.** An application for a love our kids grant is required. Applications are available from the Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. The application process is as follows:

**141.5(1)** Applications from qualified applicants shall be submitted to the department in accordance with the department’s approved application process.

**141.5(2)** The department shall review the application and may request clarification, approve the application, or deny the application.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

**641—141.6(321) Application denial—appeal.** An applicant may appeal the denial of a timely submitted application. Appeals shall be conducted pursuant to 641—Chapter 176.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

These rules are intended to implement Iowa Code section 147A.4 and Iowa Code Supplement section 321.34.

[Filed 1/23/98, Notice 10/22/97—published 2/11/98, effective 3/18/98]

[Filed 1/13/05, Notice 11/24/04—published 2/2/05, effective 3/9/05]

[Filed emergency 11/8/06—published 12/6/06, effective 11/8/06]

[Filed 1/10/07, Notice 12/6/06—published 1/31/07, effective 3/7/07]

[Filed ARC 2477C (Notice ARC 2366C, IAB 1/20/16), IAB 3/30/16, effective 5/5/16]

CHAPTER 142  
OUT-OF-HOSPITAL DO-NOT-RESUSCITATE ORDERS

**641—142.1(144A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Adult*” means an individual 18 years of age or older.

“*Attending physician*” means a physician selected by, or assigned to, the patient who has primary responsibility for the treatment and care of the patient.

“*Comfort care*” means care within the scope of the health care provider’s training and certification to alleviate pain and suffering, but does not include resuscitative measures.

“*Department*” means the Iowa department of public health.

“*Emergency medical care*” means such medical procedures as:

1. Administration of intravenous solutions.
2. Intubation.
3. Performance of cardiac defibrillation and synchronized cardioversion.
4. Administration of emergency drugs as provided by rule by the department.
5. Any other medical procedure approved by the department, by rule, as appropriate to be performed by emergency medical care providers who have been certified in that procedure.

“*EMS provider*” means an emergency medical care provider as defined in Iowa Code section 147A.1.

“*Health care provider*” means a person, including an emergency medical care provider, who is licensed, certified, or otherwise authorized or permitted by the law of this state to administer health care in the ordinary course of business or in the practice of a profession.

“*Hospital*” means any hospital licensed under the provisions of Iowa Code section 135B.1.

“*Life-sustaining procedure*” means any medical procedure, treatment, or intervention, including resuscitation, which utilizes mechanical or artificial means to sustain, restore or supplant a spontaneous vital function, and when applied to a patient in a terminal condition, would serve only to prolong the dying process. “*Life-sustaining procedure*” does not include the provision of nutrition or hydration except when required to be provided parenterally or through intubation or the administration of medication or performance of any medical procedure deemed necessary to provide comfort care or to alleviate pain.

“*Medical direction*” means direction, advice, or orders provided by a medical director, supervising physician, or physician designee (in accordance with written parameters and protocols) to emergency medical care providers.

“*Medical director*” means any physician licensed under Iowa Code chapter 148, 150, or 150A who shall be responsible for overall medical direction of the service program and who has completed a medical director workshop, sponsored by the department, within one year of assuming duties.

“*On-line medical direction*” means immediate medical direction provided directly to service program emergency medical care providers, in accordance with written parameters and protocols, by the medical director, supervising physician or physician designee either on scene or by any telecommunications system.

“*Out-of-hospital do-not-resuscitate identifier*” or “*OOH DNR identifier*” means a durable yet easily removable unique identification approved by the department and worn by a patient who has an out-of-hospital do-not-resuscitate order.

“*Out-of-hospital do-not-resuscitate order*” or “*OOH DNR order*” means a written order on a form approved by the department, signed by an attending physician, executed in accordance with the requirements of Iowa Code section 144A.7A and issued consistent with Iowa Code section 144A.2, that directs the withholding or withdrawal of resuscitation when an adult patient in a terminal condition is outside the hospital.

“*Out-of-hospital do-not-resuscitate protocol*” or “*OOH DNR protocol*” means the statewide protocol approved by the department and intended to avoid unwarranted resuscitation by emergency medical care providers when a valid out-of-hospital do-not-resuscitate order or identifier is encountered.

“*Patient*” means any individual who is sick, injured, or otherwise incapacitated.

“*Physician*” means any individual licensed under Iowa Code chapter 148, 150, or 150A.

“*Physician assistant*” or “*PA*” means an individual licensed pursuant to Iowa Code chapter 148C.

“*Physician designee*” means any registered nurse licensed under Iowa Code chapter 152, or any physician assistant licensed under Iowa Code chapter 148C and approved by the board of physician assistant examiners. The physician designee acts as an intermediary for a supervising physician in accordance with written policies and protocols in directing the actions of emergency medical care providers.

“*Qualified patient*” means any adult patient as defined in Iowa Code section 144A.2.

“*Registered nurse*” or “*RN*” means an individual licensed pursuant to Iowa Code chapter 152.

“*Resuscitation*” means any medical intervention that utilizes mechanical or artificial means to sustain, restore, or supplant a spontaneous vital function, including but not limited to chest compression, defibrillation, intubation, and emergency drugs intended to alter cardiac function or otherwise to sustain life.

“*Service program*” or “*service*” means any medical care ambulance service or nontransport service that has received authorization by the department.

“*Supervising physician*” means any physician licensed under Iowa Code chapter 148, 150, or 150A. The supervising physician is responsible for medical direction of emergency medical care providers when such providers are providing emergency medical care.

“*Terminal condition*” means an incurable or irreversible condition that, without the administration of life-sustaining procedures, will, in the opinion of the attending physician, result in death within a relatively short period of time or a state of permanent unconsciousness from which, to a reasonable degree of medical certainty, there can be no recovery.

**641—142.2(144A) Purpose.** These rules direct EMS providers and service programs on the processes for the recognition of OOH DNR orders or identifiers and implementation of the OOH DNR protocol. In addition, these rules set forth guidelines for consideration by health care providers and organizations to help ensure uniform and orderly understandings, processes and procedures for the use and implementation of OOH DNR orders consistent with the provisions of Iowa Code chapter 144A.

**641—142.3(144A,147A) Responsibilities of the department.**

**142.3(1) OOH DNR physician order.** The department designates the OOH DNR order form contained in Appendix A as the uniform OOH DNR order form to be used statewide. If an attending physician issues an OOH DNR order for a qualified patient, the physician shall use the form contained in Appendix A.

**142.3(2) OOH DNR personal identifier.** The department designates the identifier supplied by MedicAlert® as the uniform personal identifier to be used for mobile qualified patients statewide. Instructions for obtaining a uniform personal identifier are contained in Appendix A.

**142.3(3) OOH DNR protocol.** The department designates the OOH DNR protocol contained in Appendix B as the uniform protocol to be used by EMS providers in implementing an OOH DNR order.

**142.3(4) Appendix A and Appendix B forms.** Forms referenced in subrules 142.3(1) through 142.3(3) are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or through the bureau of EMS’s Web site at [www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems).

**641—142.4(144A,147A) EMS providers.**

**142.4(1) Uniform protocol.** EMS providers shall act in accordance with the department’s OOH DNR protocol when implementing an OOH DNR order. EMS service programs shall incorporate the OOH DNR protocol as part of their service protocols and, using educational materials consistent with the curriculum developed and approved by the department, shall inform and educate EMS providers on the protocol’s requirements as well as the requirements of Iowa Code chapter 144A and these rules.

**142.4(2) Responsibility of the EMS provider.** The EMS provider responding outside a hospital as a member of a service program shall:

*a.* Evaluate the patient’s status and needs through an assessment consistent with the provider’s training and certification.

- b. Determine the existence of an OOH DNR order or that the patient is wearing an OOH DNR identifier.
- c. Honor the OOH DNR order or OOH DNR identifier worn by the patient.
- d. Discontinue resuscitation if the OOH DNR order or OOH DNR identifier worn by the patient is discovered after resuscitation has begun.
- e. Follow the OOH DNR protocol.
- f. Provide comfort care to the patient at all times.
- g. Contact on-line medical direction for further instructions as necessary to provide appropriate patient care.
- h. If uncertainty exists regarding the validity or applicability of the OOH DNR order or identifier, the EMS provider shall provide the necessary and appropriate resuscitation.
- i. Document compliance or noncompliance with the OOH DNR order and the reasons for not complying with the order, including evidence that the order was revoked or uncertainty regarding the validity or applicability of the order.

**641—142.5(144A) Guidelines for non-EMS health care providers, patients, and organizations.** In order to encourage understanding and implementation of OOH DNR orders and protocols throughout Iowa and honor a qualified patient's wishes and intent regarding the provision of life-sustaining procedures in an out-of-hospital setting consistent with the requirements of Iowa Code chapter 144A, the following guidelines should be considered.

**142.5(1) Attending physicians who issue OOH DNR orders.** The attending physician should ensure that the following are accomplished:

- a. Establish that the patient is qualified because the patient:
  - (1) Is an adult; and
  - (2) Has a terminal condition.
- b. Explain to the patient or the individual legally authorized to act on the patient's behalf the implications of an OOH DNR order.
- c. If the qualified patient or individual legally authorized to act on the patient's behalf decides that the patient should not be resuscitated, the attending physician may issue the OOH DNR order on the prescribed uniform order form. The order will direct health care providers to withhold or withdraw resuscitation.
- d. Explain to the qualified patient or the individual legally authorized to act on the patient's behalf how the OOH DNR order is revoked.
- e. Include a copy of the order in the qualified patient's medical record.
- f. Provide a copy of the order to the qualified patient or the individual legally authorized to act on the patient's behalf.

**142.5(2) Qualified patients or legally authorized persons.** A qualified patient or a person legally authorized to act on a qualified patient's behalf should:

- a. Make an informed decision concerning resuscitation in the face of a terminal condition.
- b. Ensure that the qualified patient's family members are aware of this decision and inform them of the location of the OOH DNR order and the purpose of an OOH DNR identifier.
- c. Understand the process for revocation as described in rule 641—142.6(144A).

**142.5(3) Non-EMS health care providers.** A non-EMS health care provider contemplating resuscitation for a patient should:

- a. Evaluate the patient's status and needs through an assessment consistent with the provider's training, certification and licensure.
- b. Determine that the presenting condition is within the scope of the patient's terminal condition and is not the result of a motor vehicle collision, fire, mass casualty or other cause of a sudden accident or injury.
- c. Determine the existence of an OOH DNR order or that the patient is wearing an OOH DNR identifier.
- d. Honor the OOH DNR order or OOH DNR identifier worn by the patient.

*e.* Discontinue resuscitation if the OOH DNR order or OOH DNR identifier worn by the patient is discovered after resuscitation has begun.

*f.* Provide comfort care to the patient at all times.

*g.* If uncertainty exists regarding the validity or applicability of the OOH DNR order or identifier, the health care provider shall provide the necessary and appropriate resuscitation.

*h.* Document compliance or noncompliance with the OOH DNR order and the reasons for not complying with the order, including evidence that the order was revoked or uncertainty regarding the validity or applicability of the order or OOH DNR identifier.

**142.5(4) Hospitals.** A hospital licensed under Iowa Code chapter 135B:

*a.* Shall not be precluded from honoring an OOH DNR order entered in accordance with this chapter and in compliance with established hospital policies and protocols.

*b.* Should, to avail itself of the immunities provided within Iowa Code chapter 142, establish such policies and protocols to address an OOH DNR order or identifier encountered on a person who presents to the emergency department or in any other area within the facility if the person presents as a patient or visitor.

*c.* Should integrate policies and procedures with the OOH DNR protocol for hospital-based ambulance service programs, if present.

**142.5(5) Other health care organizations.** A nursing home, home health care agency, hospice, or other health care organization should establish policies and protocols consistent with these rules to address admitted patients who have OOH DNR orders.

**641—142.6(144A) Revocation of the out-of-hospital do-not-resuscitate order.** An OOH DNR order is deemed revoked at any time that a patient, or an individual authorized to act on the patient's behalf as designated on the OOH DNR order, is able to communicate in any manner the intent that the order be revoked, without regard to the mental or physical condition of the patient. A revocation is only effective as to the health care provider upon communication to that provider by the patient, an individual authorized to act on the patient's behalf as designated in the OOH DNR order, or by another person to whom the revocation is communicated by the patient.

**641—142.7(144A) Personal wishes of family members or other individuals who are not authorized to act on the patient's behalf.** The personal wishes of family members or other individuals who are not authorized in the order to act on the patient's behalf shall not supersede a valid OOH DNR order.

**641—142.8(144A) Transfer of patients.**

**142.8(1)** An attending physician who is unwilling to comply with an OOH DNR order or who is unwilling to comply with the provisions of Iowa Code section 144A.7A shall take all reasonable steps to effect the transfer of the patient to another physician.

**142.8(2)** If the policies of a hospital, nursing home, home health care agency, hospice or other health care organization preclude compliance with the OOH DNR order of a qualified patient, the provider shall take all reasonable steps to effect the transfer of the patient to an organization in which the provisions of Iowa Code section 144A.7A can be carried out.

**641—142.9(144A) Application to existing orders.**

**142.9(1)** An OOH DNR order or similar order executed prior to September 10, 2003, is valid and shall be honored in accordance with the then-applicable provisions of the law.

**142.9(2)** Health care providers may honor an OOH DNR order or identifier from another state if it can be validated and applied in a manner consistent with the OOH DNR order or identifier prescribed in these rules. In cases where there is uncertainty, clarification should be sought through on-line medical direction or resuscitation efforts should be initiated.

These rules are intended to implement Iowa Code sections 144A.7A and 147A.4.

Name of Hospice or Care Facility (if applicable): \_\_\_\_\_

Attending Physician Order

As the attending physician for the above-named patient, I certify that this individual is over 18 years of age and has a terminal diagnosis. After consultation with this patient (or the patient’s legal representative), I hereby direct any and all health care providers, including qualified emergency medical services (EMS) personnel, to withhold or withdraw the following life-sustaining procedures in accordance with Iowa law (Iowa Code chapter 142A):

- Cardiopulmonary Resuscitation/Cardiac Compression (Chest Compressions).
- Endotracheal Intubation/Artificial or Mechanical Ventilation (Advance Airway Management).
- Defibrillation and Related Procedures.
- Use of Resuscitation Drugs.

**This directive does NOT apply to other medical interventions for comfort care.**

\_\_\_\_\_/\_\_\_\_\_/\_\_\_\_\_  
**Signature of Attending Physician (MD, DO)**                      **Date**

\_\_\_\_\_  
**Printed Name of Attending Physician**                      **Physician’s Telephone (Emergency)**

**To the extent that it is possible, a person designated by the patient may revoke this order on the patient’s behalf. If the patient wishes to authorize any other person(s) to revoke this order, the patient MUST list those persons’ names below:**

- Name: \_\_\_\_\_
- Name: \_\_\_\_\_
- Name: \_\_\_\_\_
- Name: \_\_\_\_\_

**Patients please note:** Directions for obtaining a uniform identifier are listed on the back of this form. The uniform identifier is the key way the health care provider and/or EMS personnel can quickly recognize that you have an Out-of-Hospital Do-Not-Resuscitate order. If you are not wearing an identifier, the health care provider and/or EMS personnel may not realize that you do not want to be resuscitated.

**Physicians please note:** Information regarding the completion of an Out-of-Hospital Do-Not-Resuscitate order is on the back of this form.

## APPENDIX A

**Directions for obtaining a uniform identifier:**

The uniform identifier may be obtained through MedicAlert®<sup>1</sup>, which requires:

1. A completed MedicAlert® application, which is available in physician offices or through MedicAlert® by phoning (800)432-5378 or the Web site [www.medicalert.org](http://www.medicalert.org), and fee.
2. A copy of this completed OOH DNR order, which must accompany the MedicAlert® application or be sent to MedicAlert® prior to the identifier's being mailed.

<sup>1</sup>*MedicAlert® is a nonprofit 501C membership organization.*

**Suggested guidelines for physicians:**

1. Please review the Iowa Out-of-Hospital Do-Not-Resuscitate order and related protocol with the patient/patient's legal representative(s). The following points may be helpful:

- Patient/patient's legal representative(s) listed on this order must understand the significance of this order, that in the event the patient's heart or breathing stops or malfunctions, the anticipated result of this order is death.
- Patient/patient's legal representative(s) listed on this order may revoke this directive at any time. However, the desire to revoke must be communicated to the EMS or other health care professionals at the scene.
- It is important to emphasize that this order does not apply to medical interventions to make the patient more comfortable.
- The importance of wearing the uniform identifier for those qualified patients who would benefit from the mobility this offers should be stressed. It is also helpful to walk patients through the process they must follow to acquire the identifier.

2. Provide a copy of this order to the patient/patient's legal representative(s) listed on this order and place the original in the patient's medical records.

**The OOH DNR Order form is available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or through the Bureau of EMS's Web site [www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems).**

[ARC 7550B, IAB 2/11/09, effective 3/18/09]

## APPENDIX B

**EMS OUT-OF-HOSPITAL DO-NOT-RESUSCITATE PROTOCOL**

**Purpose:** This protocol is intended to avoid unwarranted resuscitation by emergency care providers in the out-of-hospital setting for a *qualified patient*.<sup>1</sup> There must be a valid Out-of-Hospital Do-Not-Resuscitate (OOH DNR) order signed by the qualified patient's attending physician or the presence of the OOH DNR identifier indicating the existence of a valid OOH DNR order.

**No resuscitation:** Means withholding any medical intervention that utilizes mechanical or artificial means to sustain, restore, or supplant a spontaneous vital function, including but not limited to:

1. Chest compressions,
2. Defibrillation,
3. Esophageal/tracheal/double-lumen airway; endotracheal intubation, or
4. Emergency drugs to alter cardiac or respiratory function or otherwise sustain life.

**Patient criteria:** The following patients are recognized as qualified patients to receive no resuscitation:

1. The presence of the uniform OOH DNR order or uniform OOH DNR identifier, or
2. The presence of the attending physician to provide direct verbal orders for care of the patient.

*The presence of a signed physician order on a form other than the uniform OOH DNR order form approved by the department may be honored if approved by the service program EMS medical director. However, the immunities provided by law apply only in the presence of the uniform OOH DNR order or uniform OOH DNR identifier. When the uniform OOH DNR order or uniform OOH DNR identifier is not present, contact must be made with on-line medical control and on-line medical control must concur that no resuscitation is appropriate.*

**Revocation:** An OOH DNR order is deemed revoked at any time that a patient, or an individual authorized to act on the patient's behalf as listed on the OOH DNR order, is able to communicate in any manner the intent that the order be revoked. The personal wishes of family members or other individuals who are not authorized in the order to act on the patient's behalf shall not supersede a valid OOH DNR order.

**Comfort Care (♥):** When a patient has met the criteria for no resuscitation under the foregoing information, the emergency care provider should continue to provide that care which is intended to make the patient comfortable (a.k.a. ♥ Comfort Care). Whether other types of care are indicated will depend upon individual circumstances for which medical control may be contacted by or through the responding ambulance service personnel.

**♥Comfort Care** may include, but is not limited to:

1. Pain medication.
2. Fluid therapy.
3. Respiratory assistance (oxygen and suctioning).

<sup>1</sup>*Qualified patient* means an adult patient determined by an attending physician to be in a terminal condition for which the attending physician has issued an Out-of-Hospital DNR order in accordance with the law. (Iowa Administrative Code 641—142.1(144A), definitions)

CHAPTER 143  
AUTOMATED EXTERNAL DEFIBRILLATOR PROGRAM

AUTOMATED EXTERNAL DEFIBRILLATOR GRANT PROGRAM

**641—143.1(135) Purpose.** An automated external defibrillator grant program is established to provide matching funds to eligible organizations that are seeking to implement an early defibrillation program. The objective of the grant program is to enhance and supplement the emergency response system in rural areas of the state by providing increased access to automated external defibrillator equipment by rural emergency and community personnel.

**641—143.2(135) Definitions.** For the purposes of these rules, the following definitions shall apply:

“*Automated external defibrillator*” or “*AED*” means an external semiautomatic device that determines whether defibrillation is required.

“*Community organization*” means an educational institution, nonprofit organization, social service agency, philanthropic organization, or business, trade, or professional association.

“*CPR*” means cardiopulmonary resuscitation.

“*Department*” means the Iowa department of public health.

“*Early defibrillation program*” means a program established by the applicant to enhance and supplement the local EMS system.

“*EMS*” means emergency medical services.

“*Local board of health*” means a county, city, or district board of health.

“*Rural*” means a geographic area outside an urban or suburban setting with a population of less than 15,000 persons.

**641—143.3(135) Application process.** To be eligible for an automated external defibrillator program grant, a local board of health, community organization or city shall:

**143.3(1)** Properly complete and submit the department’s AED grant program application, which shall require an applicant to:

- a. Demonstrate the ability to provide matching funds of 50 percent of the cost of the program;
- b. Designate an individual who shall be responsible for the overall supervision of the early defibrillation program; and
- c. Include a plan for increasing rural emergency or community personnel access to automated external defibrillator equipment; and

**143.3(2)** Notify local EMS service programs of the intent to establish an early defibrillation program.

**641—143.4(135) Early defibrillation program.** A local board of health, community organization or city that receives an automated external defibrillator program grant shall:

**143.4(1)** Adopt and implement a policy that ensures establishment of an emergency plan of action; AED maintenance; personnel competency in the use of an AED and CPR; and a method for postevent analysis and staff debriefing.

**143.4(2)** Designate an individual who shall be responsible for the overall supervision of the early defibrillation program.

**143.4(3)** Submit an annual report to the department indicating the number of AED uses, patient outcomes and number of individuals trained.

**143.4(4)** Comply with the terms and conditions of the contract with the department for implementation of the program.

**641—143.5(135) Review process.** The department shall establish a request for proposal and application process for eligible organizations to apply for an automated external defibrillator program grant. The department shall establish a process to review applications, which shall include receiving input from a review committee. The review process and review criteria shall be described in the request for proposals.

**641—143.6(135) Appeals.** An applicant may appeal the denial of a properly submitted grant application. Appeals shall be governed by 641—176.8(135,17A).

**641—143.7 to 143.9** Reserved.

AUTOMATED EXTERNAL DEFIBRILLATOR MAINTENANCE

**641—143.10(135) Purpose.** These rules establish standards for the maintenance of automated external defibrillators for a person or entity that owns, manages or is otherwise responsible for the premises on which an automated external defibrillator is located if the person or entity maintains the automated external defibrillator in accordance with Iowa Code section 613.17 as amended by 2008 Iowa Acts, Senate File 505.

[ARC 7551B, IAB 2/11/09, effective 3/18/09]

**641—143.11(135) Definition.** For the purposes of these rules, the following definition shall apply:

“Automated external defibrillator” or “AED” means an external semiautomatic device that determines whether defibrillation is required.

[ARC 7551B, IAB 2/11/09, effective 3/18/09]

**641—143.12(135) AED maintenance.** The person or entity maintaining the AED shall:

**143.12(1)** Ensure that the AED is maintained and inspected in accordance with the manufacturer’s guidelines.

**143.12(2)** Maintain records of all maintenance and inspections of the AED for the usable life of the device.

**143.12(3)** Ensure that the AED is programmed to conform to nationally accepted guidelines for treatment of cardiac arrest patients.

[ARC 7551B, IAB 2/11/09, effective 3/18/09]

These rules are intended to implement Iowa Code section 135.26.

**641—143.13 to 143.15** Reserved.

FIRE DEPARTMENT RESPONSE WITH AUTOMATED EXTERNAL DEFIBRILLATOR

**641—143.16(147A) Purpose.** The purpose of these rules is to allow a local fire department that is not authorized as an EMS service program and that has an AED to respond to cardiac arrest events in the department’s community. These rules are intended to enhance and supplement the local EMS system with nontraditional early defibrillation programs.

[ARC 9358B, IAB 2/9/11, effective 3/16/11]

**641—143.17(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“Automated external defibrillator” or “AED” means an external semiautomatic device that determines whether defibrillation is required.

“CPR” means training and successful course completion in cardiopulmonary resuscitation, AED, and obstructed airway procedures for all age groups according to recognized national standards.

“Emergency medical care provider” means an individual who has been trained to provide emergency and nonemergency medical care at the first responder, EMT-basic, EMT-intermediate, EMT-paramedic, paramedic specialist or other certification levels recognized by the department before 1984 and who has been issued a certificate by the department.

“Local fire department” means a paid, volunteer, or combination fire protection service provided by a benefited fire district under Iowa Code chapter 357B or by a county, municipality or township or a private corporate organization that has a valid contract to provide fire protection service for a benefited fire district, county, municipality, township or governmental agency. “Local fire department” does not include a military or private industrial fire department or an authorized Iowa EMS service.

“*Service program*” or “*service*” means any medical care ambulance service or nontransport service that has received authorization by the department.

[ARC 9358B, IAB 2/9/11, effective 3/16/11]

**641—143.18(147A) Local fire department AED service registration.** A local fire department that desires to allow its firefighters to use an AED may register with the department to provide AED coverage.

**143.18(1) Training requirements.** Local fire department personnel wishing to provide AED coverage shall have current course completion in CPR.

**143.18(2) Local fire department AED service—registration, guidelines, and standards.** A local fire department may register with the department to provide AED coverage. Local fire departments seeking registration with the department shall:

*a.* Complete the department’s AED service registration form initially and every five years thereafter.

*b.* Provide an AED liaison to be responsible for supervision of the AED service.

*c.* Ensure that the AED is maintained and inspected in accordance with rule 641—143.12(135).

*d.* Maintain records of all maintenance and inspections of the AED for the usable life of the device.

*e.* Ensure that the fire department’s AED providers maintain AED and CPR skill competency.

*f.* Identify which authorized Iowa ambulance service program(s) will provide patient transportation.

*g.* Ensure that emergency medical care is limited to CPR and AED.

**143.18(3) Complaints and investigations.** Complaints and investigations shall be conducted as with any complaint received against an EMS service program in accordance with rule 641—132.10(147A).

[ARC 9358B, IAB 2/9/11, effective 3/16/11]

These rules are intended to implement Iowa Code chapters 135, 147A and 613.

[Filed emergency 11/10/04—published 12/8/04, effective 11/10/04]

[Filed 1/13/05, Notice 12/8/04—published 2/2/05, effective 3/9/05]

[Filed ARC 7551B (Notice ARC 7358B, IAB 11/19/08), IAB 2/11/09, effective 3/18/09]

[Filed ARC 9358B (Notice ARC 9241B, IAB 11/17/10), IAB 2/9/11, effective 3/16/11]

CHAPTER 144  
EMERGENCY MEDICAL SERVICES—AIR MEDICAL SERVICE  
PROGRAM AUTHORIZATION

**641—144.1(147A) Definitions.** For the purposes of this chapter, the following definitions shall apply:

*“Air ambulance”* means any privately or publicly owned rotorcraft or fixed-wing aircraft which may be specifically designed, modified, constructed, equipped, staffed and used regularly to transport the sick, injured or otherwise incapacitated who are in need of out-of-hospital emergency medical care or whose condition requires treatment or continuous observation while being transported.

*“Air ambulance crew member”* means an individual who has been trained to provide emergency and nonemergency medical care at the certification or licensure levels recognized by the department and who has been issued a certificate or license by the department.

*“Air ambulance service”* means any privately or publicly owned service program which utilizes rotorcraft or fixed-wing aircraft in order to provide patient transportation and emergency medical services.

*“Continuous quality improvement”* or *“CQI”* means a program that is an ongoing process to monitor standards at all EMS operational levels including the structure, process, and outcomes of the patient care event.

*“Critical care paramedic”* or *“CCP”* means a currently certified paramedic specialist who has successfully completed a critical care course of instruction approved by the department and has received endorsement from the department as a critical care paramedic.

*“Critical care transport”* or *“CCT”* means specialty care patient transportation when medically necessary, for a critically ill or injured patient needing CCP skills, between medical care facilities, and provided by an authorized ambulance service that is approved by the department to provide critical care transportation and staffed by one or more critical care paramedics or other health care professional in an appropriate specialty area.

*“Deficiency”* means noncompliance with Iowa Code chapter 147A or these rules.

*“Department”* means the Iowa department of public health.

*“Director”* means the director of the Iowa department of public health.

*“Direct supervision”* means services provided by an EMS provider in a hospital setting or other health care entity in which health care is ordinarily performed when in the personal presence of a physician or under the direction of a physician who is immediately available or under the direction of a physician assistant or registered nurse who is immediately available and is acting consistent with adopted policies and protocols of a hospital or other health care entity.

*“Emergency medical care”* means such medical procedures as:

1. Administration of intravenous solutions.
2. Intubation.
3. Performance of cardiac defibrillation and synchronized cardioversion.
4. Administration of emergency drugs as provided by protocol.
5. Any medical procedure authorized by 641—subrule 131.3(3).

*“Emergency medical care provider”* means an individual who has been trained to provide emergency and nonemergency medical care at the first responder, EMT-basic, EMT-intermediate, EMT-paramedic, paramedic specialist or other certification levels recognized by the department before 1984 and who has been issued a certificate by the department.

*“Emergency medical services”* or *“EMS”* means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

*“Emergency medical technician-basic”* or *“EMT-B”* means an individual who has successfully completed the current United States Department of Transportation’s Emergency Medical Technician-Basic curriculum and department enhancements, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-B.

*“Emergency medical technician-paramedic”* or *“EMT-P”* means an individual who has successfully completed the current United States Department of Transportation’s (DOT) EMT-intermediate curriculum or the 1985 or earlier DOT EMT-P curriculum, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-P.

*“Emergency medical transportation”* means the transportation by ambulance of sick, injured or otherwise incapacitated persons who require emergency medical care.

*“EMS advisory council”* means a council appointed by the director to advise the director and develop policy recommendations concerning regulation, administration, and coordination of emergency medical services in the state.

*“EMS system”* means any specific arrangement of emergency medical personnel, equipment, and supplies designed to function in a coordinated fashion.

*“Endorsement”* means providing approval in an area related to emergency medical care including, but not limited to, CCP and emergency medical services.

*“FAA”* means Federal Aviation Administration.

*“FAR”* means Federal Aviation Regulation.

*“Fixed-wing ambulance”* means any privately or publicly owned fixed-wing aircraft specifically designed, modified, constructed, equipped, staffed and used regularly to transport the sick, injured or otherwise incapacitated who are in need of out-of-hospital emergency medical care or whose condition requires treatment or continuous observation while being transported.

*“Hospital”* means any hospital licensed under the provisions of Iowa Code chapter 135B.

*“Inclusion criteria”* means criteria determined by the department and adopted by reference to determine which patients are to be included in the Iowa EMS service program registry or the trauma registry.

*“Iowa EMS Patient Registry Data Dictionary”* means reportable data elements for all ambulance service responses and definitions determined by the department and adopted by reference.

*“Medical direction”* means direction, advice, or orders provided by a medical director, supervising physician, or physician designee (in accordance with written parameters and protocols) to emergency medical care personnel.

*“Medical director”* means any physician licensed under Iowa Code chapter 148, who shall be responsible for overall medical direction of the service program and who has completed a medical director workshop, sponsored by the department, within one year of assuming duties.

*“Nonemergency transportation”* means transportation that may be provided for those persons determined to need transportation only.

*“NTSB”* means National Transportation Safety Board.

*“Off-line medical direction”* means the monitoring of EMS providers through retrospective field assessments and treatment documentation review, critiques of selected cases with the EMS personnel, and statistical review of the system.

*“On-line medical direction”* means immediate medical direction provided directly to service program EMS providers, in accordance with written parameters and protocols, by the medical director, supervising physician or physician designee either on-scene or by any telecommunications system.

*“Paramedic”* or *“EMT-P”* means an emergency medical technician-paramedic.

*“Paramedic specialist”* or *“PS”* means an individual who has successfully completed the current United States Department of Transportation’s EMT-Paramedic curriculum or equivalent, has passed the department’s approved written and practical examinations, and is currently certified by the department as a paramedic specialist.

*“Patient”* means any individual who is sick, injured, or otherwise incapacitated.

*“Patient care report”* or *“PCR”* means a computerized or written report that documents the assessment and management of the patient by the emergency care provider in the out-of-hospital setting.

*“Physician”* means any individual licensed under Iowa Code chapter 148.

*“Physician assistant”* or *“PA”* means an individual licensed pursuant to Iowa Code chapter 148C.

*“Physician designee”* means any registered nurse licensed under Iowa Code chapter 152, or any physician assistant licensed under Iowa Code chapter 148C and approved by the board of physician

assistants. The physician designee acts as an intermediary for a supervising physician in accordance with written policies and protocols in directing the care provided by emergency medical care providers.

“*Preceptor*” means an individual who has been assigned by the training program, clinical facility or service program to supervise students while the students are completing their clinical or field experience. A preceptor must be an emergency medical care provider certified at the level being supervised or higher, or must be licensed as a registered nurse, physician assistant or physician.

“*Protocols*” means written directions and orders, consistent with the department’s standard of care, that are to be followed by an emergency medical care provider in emergency and nonemergency situations. Protocols must be approved by the service program’s medical director and must address the care of both adult and pediatric patients.

“*Registered nurse*” or “*RN*” means an individual licensed pursuant to Iowa Code chapter 152.

“*Reportable patient data*” means data elements and definitions determined by the department and adopted by reference to be reported to the Iowa EMS service program registry or the trauma registry or a trauma care facility on patients meeting the inclusion criteria.

“*Rotorcraft ambulance*” means any privately or publicly owned rotorcraft specifically designed, modified, constructed, equipped, staffed and used regularly to transport the sick, injured or otherwise incapacitated who are in need of out-of-hospital emergency medical care or whose condition requires treatment or continuous observation while being transported.

“*Service director*” means an individual who is responsible for the operation and administration of a service program.

“*Service program*” or “*service*” means any medical care air ambulance service that has received authorization by the department.

“*Service program area*” means the geographic area of responsibility served by any given ambulance or nontransport service program.

“*Student*” means any individual enrolled in a training program and participating in the didactic, clinical, or field experience portions.

“*Supervising physician*” means any physician licensed under Iowa Code chapter 148. The supervising physician is responsible for medical direction of emergency medical care personnel when such personnel are providing emergency medical care.

“*Training program*” means an NCA-approved Iowa college, the Iowa law enforcement academy or an Iowa hospital approved by the department to conduct emergency medical care training.

“*Transport agreement*” means a written agreement between two or more service programs that specifies the duties and responsibilities of the agreeing parties to ensure appropriate transportation of patients in a given service area.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

#### **641—144.2(147A) Authority of emergency medical care provider.**

**144.2(1)** An emergency medical care provider who holds an active certification issued by the department may:

*a.* Render via on-line medical direction emergency and nonemergency medical care in those areas for which the emergency medical care provider is certified, as part of an authorized service program:

- (1) At the scene of an emergency;
- (2) During transportation to a hospital;
- (3) While in the hospital emergency department;
- (4) Until patient care is directly assumed by a physician or by authorized hospital personnel; and
- (5) During transfer from one entity where health care is normally provided to another.

*b.* Function in any hospital or any other entity in which health care is ordinarily provided only when under the direct supervision of a physician when:

- (1) Enrolled as a student in and approved by a training program;
- (2) Fulfilling continuing education requirements;
- (3) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician as a member of an authorized service

program, or in an individual capacity, by rendering lifesaving services in the facility in which employed or assigned pursuant to the emergency medical care provider's certification and under direct supervision of a physician, physician assistant, or registered nurse. An emergency medical care provider shall not routinely function without the direct supervision of a physician, physician assistant, or registered nurse. However, when the physician, physician assistant, or registered nurse cannot directly assume emergency care of the patient, the emergency medical care personnel may perform, without direct supervision, emergency medical care procedures for which certified, if the life of the patient is in immediate danger and such care is required to preserve the patient's life;

(4) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician, as a member of an authorized service program, or in an individual capacity, to perform nonlifesaving procedures for which certified and designated in a written job description. Such procedures may be performed after the patient is observed by and when the emergency medical care provider is under the supervision of the physician, physician assistant, or registered nurse, including when the registered nurse is not acting in the capacity of a physician designee, and where the procedure may be immediately abandoned without risk to the patient.

**144.2(2)** When emergency medical care personnel are functioning in a capacity identified in paragraph 144.2(1) "a," they may perform emergency and nonemergency medical care without contacting a supervising physician or physician designee if written protocols have been approved by the service program medical director which clearly identify when the protocols may be used in lieu of voice contact.

**144.2(3)** An emergency medical care provider who has knowledge of an emergency medical care provider, service program or training program that has violated Iowa Code chapter 147A or these rules shall report such information to the department within 30 days.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.3(147A) Air ambulance service program—authorization and renewal procedures, inspections and transfer or assignment of certificates of authorization.**

**144.3(1)** *General requirements for air ambulance authorization and renewal of authorization.*

a. An air ambulance service in this state that desires to provide emergency medical care in an out-of-hospital setting shall apply to the department for authorization to establish a program utilizing certified emergency medical care providers for delivery of care at the scene of an emergency or a nonemergency, during transportation to a hospital, during transfer from one medical care facility to another, or while in the hospital emergency department and until care is directly assumed by a physician or by authorized hospital personnel. Application for authorization shall be made on forms provided by the department. Applicants shall complete and submit the forms to the department at least 30 days prior to the anticipated date of authorization.

b. To renew service program authorization, the service program shall continue to meet the requirements of Iowa Code chapter 147A and these rules. The renewal application shall be completed and submitted to the department at least 30 days before the current authorization expires.

c. Applications for authorization and renewal of authorization may be obtained upon request to: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

d. The department shall approve an application when the department is satisfied that the program proposed by the application will be operated in compliance with Iowa Code chapter 147A and these rules.

e. Service program authorization is valid for a period of three years from its effective date unless otherwise specified on the certificate of authorization or unless sooner suspended or revoked.

f. Service programs shall be fully operational upon the effective date and at the level specified on the certificate of authorization and shall meet all applicable requirements of Iowa Code chapter 147A and these rules. Deficiencies that are identified shall be corrected within a time frame determined by the department.

g. Any service program owner in possession of a certificate of authorization as a result of transfer or assignment shall continue to meet all applicable requirements of Iowa Code chapter 147A and these rules. In addition, the new owner shall apply to the department for a new certificate of authorization within 30 days following the effective date of the transfer or assignment.

h. Service programs that acquire and maintain current status with a nationally recognized EMS service program accreditation entity that meets or exceeds Iowa requirements may be exempted from the service application/inspection process. A copy of the state service application and accreditation inspection must be filed with the department for approval.

**144.3(2) *Out-of-state air ambulance service programs.***

a. Service programs located in other states which wish to provide emergency medical care in Iowa must meet all requirements of Iowa Code chapter 147A and these rules and must be authorized by the department except when:

- (1) Transporting patients from locations within Iowa to destinations outside of Iowa;
- (2) Transporting patients from locations outside of Iowa to destinations within Iowa;
- (3) Transporting patients to and from locations outside of Iowa when doing so requires travel through Iowa;
- (4) Responding to a request for mutual aid in this state; or
- (5) Making less than 30 EMS responses per year to locations within Iowa and then transporting the patients to destinations within Iowa.

b. An out-of-state service program that meets any of the exception criteria established in this subrule shall be authorized to provide emergency medical care by the state in which the program resides and shall provide the department with verification of current state authorization upon request.

**144.3(3) *Air ambulance service program inspections.***

a. The department shall inspect each service program at least once every three years. The department without prior notification may make additional inspections at times, places and under such circumstances as it deems necessary to ensure compliance with Iowa Code chapter 147A and these rules.

b. The department may request additional information from or may inspect the records of any service program which is currently authorized or which is seeking authorization to ensure continued compliance or to verify the validity of any information presented on the application for service program authorization.

c. The department may inspect the patient care records of a service program to verify compliance with Iowa Code chapter 147A and these rules.

d. No person shall interfere with the inspection activities of the department or its agents pursuant to Iowa Code section 135.36.

e. Interference with or failure to allow an inspection by the department or its agents may be cause for disciplinary action in reference to service program authorization.

**144.3(4) *Temporary service program authorization.***

a. A temporary service program authorization may be issued to services that wish to operate during special events that may need emergency medical care coverage at a level other than basic care. Temporary authorization is valid for a period of 30 days unless otherwise specified on the certificate of authorization or unless sooner suspended or revoked. Temporary authorization shall apply to those requirements and standards for which the department is responsible. Applicants shall complete and submit the necessary forms to the department at least 30 days prior to the anticipated date of need.

b. The service shall meet applicable requirements of these rules but may apply for a variance using the criteria outlined in rule 641—144.7(147A).

c. The service shall submit a justification which demonstrates the need for the temporary service program authorization.

d. The service shall submit a report to the department within 30 days after the expiration of the temporary authorization which includes as a minimum:

- (1) Number of patients treated;
- (2) Types of treatment rendered;

- (3) Any operational or medical problems.  
[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.4(147A) Service program levels of care and staffing standards.**

**144.4(1)** An air ambulance service program seeking authorization shall:

- a. Apply for authorization at the following levels:
  - (1) EMT-Basic.
  - (2) Paramedic specialist.
  - (3) Critical care transport.
- b. Conduct all air ambulance service flights under a minimum of FAR rules, Part 135.
- c. Maintain an adequate number of aircraft and personnel to provide 24-hour-per-day, 7-day-per-week coverage. The number of aircraft and personnel to be maintained shall be determined by the service and shall be based upon, but not limited to, the following:
  - (1) Number of calls;
  - (2) Service area and population; and
  - (3) Availability of other services in the area.
- d. Staff fixed-wing ambulances, at a minimum on each flight request, with the following staff while a patient is being transported:
  - (1) One health care provider who is certified or licensed in the state from which the aircraft launches and is certified as an EMT-Basic or higher level; and
  - (2) One FAA-certified commercial pilot who is appropriately rated in the aircraft being used for the transport.
- e. Staff rotorcraft ambulances, at a minimum on each flight request, with the following staff while a patient is being transported:
  - (1) Two health care providers who are certified or licensed in the state from which the aircraft launches, one of whom must at a minimum be certified as a paramedic specialist; and
  - (2) One FAA-certified commercial pilot who is appropriately rated in the aircraft being used for the transport.
- f. Train medical crew members in the following areas:
  - (1) Patient care limitations in flight.
  - (2) Altitude physiology.
  - (3) Appropriate utilization of air medical services.
  - (4) Communication system.
  - (5) Aircraft operations and safety.
  - (6) Emergency safety and survival.
  - (7) Prehospital scene response and safety.
  - (8) Crew resource management.
  - (9) Program flight risk assessment procedures.
- g. Apply to the department to receive approval to provide critical care transportation based upon appropriately trained staff and approved equipment.
- h. Ensure that the health care provider with the highest level of certification (on the transporting service) attends the patient, unless otherwise established by protocol approved by the medical director.

**144.4(2)** Air ambulance service program operational requirements. Air ambulance service programs shall:

- a. Complete and maintain a patient care report concerning the care provided to each patient. Services shall provide, at a minimum, a verbal report upon delivery of a patient to a receiving facility and shall provide a complete PCR within 24 hours to the receiving facility.
- b. Ensure that personnel duties are consistent with the level of certification and the service program's level of authorization.
- c. Maintain current personnel rosters and personnel files. The files shall include the names and addresses of all personnel and documentation that verifies EMS provider credentials including, but not limited to:

- (1) Current provider level certification.
- (2) Current course completions/certifications/endorsements as may be required by the medical director.
  - d.* If requested by the department, notify the department in writing of any changes in personnel rosters.
  - e.* Have a medical director and 24-hour-per-day, 7-day-per-week on-line medical direction available.
  - f.* Ensure that the appropriate service program personnel respond as required in this rule and that personnel respond in a reasonable amount of time.
  - g.* Notify the department in writing within seven days of any change in service director or ownership or control or of any reduction or discontinuance of operations.
  - h.* Select a new or temporary medical director if for any reason the current medical director cannot or no longer wishes to serve in that capacity. Selection shall be made before the current medical director relinquishes the duties and responsibilities of that position.
  - i.* Within seven days of any change of medical director, notify the department in writing of the selection of the new or temporary medical director who must have indicated in writing a willingness to serve in that capacity.
  - j.* Implement a continuous quality improvement program for patient transport missions to include as a minimum:
    - (1) Medical audits.
    - (2) Skills competency.
    - (3) Flight safety procedures.
    - (4) Appropriateness of air medical response.
    - (5) Review of flight risk assessment.
    - (6) Loop closure requiring physician review of patient transport missions.
  - k.* Document an equipment maintenance program to ensure proper working condition and appropriate quantities.

**144.4(3) Air ambulance equipment and vehicle standards.**

- a.* All air ambulance service programs shall carry equipment and supplies in quantities as determined by the medical director and appropriate to the service program's level of care and available medical crew member personnel, and as established in the service program's approved protocols.
- b.* Pharmaceutical drugs may be carried and administered by appropriate staff upon completion of training and pursuant to the service program's established protocols approved by the medical director.
- c.* All pharmaceuticals shall be maintained in accordance with the rules of the state board of pharmacy.
- d.* Accountability for drug exchange, distribution, storage, ownership, and security shall be subject to applicable state and federal requirements. The method of accountability shall be described in the written pharmacy agreement. A copy of the written pharmacy agreement shall be submitted to the department.
- e.* Each aircraft shall be equipped and maintained in accordance with FAA operating requirements.
- f.* Each aircraft shall be equipped with a survival kit.

**144.4(4) Communications and flight dispatch program.**

- a.* Each service program shall maintain a telecommunications system between the medical crew member and the source of the service program's medical direction and other appropriate entities.
- b.* All telecommunications shall be conducted in an appropriate manner and on a frequency approved by the Federal Communications Commission and the department.
- c.* A flight-following policy shall be adopted. This policy shall at a minimum contain the following:
  - (1) Minimum time between communications with aircraft and its monitoring center;
  - (2) Documentation of communications with flight;
  - (3) Lost communications procedures; and
  - (4) Overdue aircraft procedures.

*d.* Flight programs shall provide staff or contract with a flight dispatch system for receiving flight requests. Communication specialists shall be trained in the following:

- (1) Flight operations;
- (2) Aviation weather;
- (3) Aviation maintenance;
- (4) Flight following;
- (5) Flight risk assessment;
- (6) Flight service minimum safety standards; and
- (7) Overdue aircraft procedures.

**144.4(5)** Flight risk assessment policy.

*a.* Each service shall have a flight risk assessment policy in accordance with current FAA guidelines.

*b.* Flight risk assessment policies shall mandate adherence to policy for all flights.

*c.* Flight risk assessment policies shall address other flight services being requested, en route, or having been denied request to same incident.

**144.4(6)** Air ambulance service program—incident and accident response and reports.

*a.* Air medical services shall have a policy in place outlining missing/overdue/accident issues. This policy will contain at a minimum the following:

- (1) Overdue aircraft procedures; and
- (2) Postincident action plans.

*b.* Incidents of fire or other destructive or damaging occurrences or theft of a service program aircraft, vehicle, equipment, or drugs shall be reported to the department within 48 hours following the occurrence of the incident.

*c.* A report relating to an accident resulting in personal injury, death or property damage shall be submitted to the department within seven days following an accident involving a service program aircraft or vehicle. A complete FAA/NTSB accident report shall be submitted to the bureau of EMS upon completion of the report.

**144.4(7)** Reportable patient data—adoption by reference.

*a.* The department shall prepare compilations for release or dissemination on all reportable patient data entered into the EMS service program registry during the reporting period. The compilations shall include, but not be limited to, trends and patient care outcomes for local, regional, and statewide evaluations. The compilations shall be made available to all service programs submitting reportable patient data to the registry.

*b.* Access and release of reportable patient data and information.

(1) The data collected by and furnished to the department pursuant to this subrule are confidential records of the condition, diagnosis, care, or treatment of patients or former patients, including outpatients, pursuant to Iowa Code section 22.7. The compilations prepared for release or dissemination from the data collected are not confidential under Iowa Code subsection 22.7(2). However, information which individually identifies patients shall not be disclosed, and state and federal law regarding patient confidentiality shall apply.

(2) The department may approve requests for reportable patient data for special studies and analysis provided that the request has been reviewed and approved by the deputy director of the department with respect to the scientific merit and confidentiality safeguards and the department has given administrative approval for the proposal. The confidentiality of patients and the EMS service program shall be protected.

(3) The department may require entities requesting the data to pay any or all of the reasonable costs associated with furnishing the reportable patient data.

*c.* To the extent possible, activities under this subrule shall be coordinated with other health data collection methods.

*d.* Quality assurance.

(1) For the purpose of ensuring the completeness and quality of reportable patient data, the department or an authorized representative may examine all or part of the patient care report as necessary to verify or clarify all reportable patient data submitted by a service program.

(2) Review of a patient care report by the department shall be scheduled in advance with the service program and completed in a timely manner.

*e.* “Iowa Trauma Patient Data Dictionary” is available through the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

*f.* “Iowa EMS Patient Registry Data Dictionary” identified in 641—paragraph 136.2(1)“*c*” is incorporated by reference for inclusion criteria and reportable patient data to be reported to the department. For any differences which may occur between the adopted reference and this chapter, the administrative rules shall prevail.

*g.* “Iowa EMS Patient Registry Data Dictionary” identified in 641—paragraph 136.2(1)“*c*” is available through the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**144.4(8)** An air ambulance service program shall:

*a.* Submit reportable patient data identified in subrule 144.4(7) via electronic transfer. Data shall be submitted in a format approved by the department.

*b.* Submit reportable patient data identified in subrule 144.4(7) to the department for each calendar quarter. Reportable patient data shall be submitted no later than 90 days after the end of the quarter.

**144.4(9)** The patient care report is a confidential document and shall be exempt from disclosure pursuant to Iowa Code subsection 22.7(2) and shall not be accessible to the general public. Information contained in these reports, however, may be utilized by any of the indicated distribution recipients and may appear in any document or public health record in a manner which prevents the identification of any patient or person named in these reports.

**144.4(10)** Implementation. The director may grant exceptions and variances from the requirements of this chapter for any air medical service. Exceptions or variations shall be reasonably related to undue hardships which existing services experience in complying with this chapter. Services requesting exceptions and variances shall be subject to other applicable rules adopted pursuant to Iowa Code chapter 147A. Nothing in this chapter shall be construed to require any service to provide a level of care beyond minimum basic care standards.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.5(147A) Air ambulance service program—off-line medical direction.**

**144.5(1)** The medical director shall be responsible for providing appropriate medical direction and overall supervision of the medical aspects of the service program and shall ensure that those duties and responsibilities are not relinquished before a new or temporary replacement is functioning in that capacity.

**144.5(2)** The medical director’s duties include, but need not be limited to:

*a.* Developing, approving and updating protocols to be used by service program personnel that meet or exceed the minimum standard protocols developed by the department.

*b.* Developing and maintaining liaisons between the service, other physicians, physician designees, hospitals, and the medical community served by the service program.

*c.* Monitoring and evaluating the activities of the service program and individual personnel performance, including establishment of measurable outcomes that reflect the goals and standards of the EMS system.

*d.* Assessing the continuing education needs of the service and individual service program personnel and assisting them in the planning of appropriate continuing education programs.

*e.* Being available for individual evaluation and consultation to service program personnel.

*f.* Performing or appointing a designee to complete the medical audits required in subrule 144.5(4).

*g.* Developing and approving an applicable continuous quality improvement policy to be used for all patient care encounters, including an action plan and follow-up.

*h.* Informing the medical community of the emergency medical care being provided according to approved protocols in the service program area.

*i.* Helping to resolve service operational problems.

*j.* Approving or removing an individual from service program participation.

**144.5(3)** Supervising physicians, physician designees, or other appointees as defined in the continuous quality improvement policy referenced in paragraph 144.5(2) “g” may assist the medical director by:

*a.* Providing medical direction.

*b.* Reviewing the emergency medical care provided.

*c.* Reviewing and updating protocols.

*d.* Providing and assessing continuing education needs for service program personnel.

*e.* Helping to resolve operational problems.

**144.5(4)** The medical director or other qualified designees shall randomly audit (at least quarterly) documentation of calls where emergency medical care was provided. The medical director shall randomly review audits performed by the qualified appointee. The audit shall be in writing and shall include, but need not be limited to:

*a.* Reviewing the patient care provided by service program personnel and remedying any deficiencies or potential deficiencies that may be identified regarding medical knowledge or skill performance.

*b.* Response time and time spent at the scene.

*c.* Overall EMS system response to ensure that the patient’s needs were matched to available resources including, but not limited to, mutual aid and tiered response.

*d.* Completeness of documentation.

**144.5(5)** On-line medical direction when provided through a hospital.

*a.* The medical director shall designate in writing at least one hospital which has established a written on-line medical direction agreement with the department. It shall be the medical director’s responsibility to notify the department in writing of changes regarding this designation.

*b.* Hospitals signing an on-line medical direction agreement shall:

(1) Ensure that the supervising physicians or physician designees will be available to provide on-line medical direction via telecommunications on a 24-hour-per-day basis.

(2) Identify the service programs for which on-line medical direction will be provided.

(3) Establish written protocols for use by supervising physicians and physician designees who provide on-line medical direction.

(4) Administer a quality assurance program to review orders given. The program shall include a mechanism for the hospital and service program medical directors to discuss and resolve any identified problems.

*c.* A hospital which has a written medical direction agreement with the department may provide medical direction for any or all service program authorization levels and may also agree to provide backup on-line medical direction for any other service program when that service program is unable to contact its primary source of on-line medical direction.

*d.* Only supervising physicians or physician designees shall provide on-line medical direction. However, a physician assistant, registered nurse or EMT (of equal or higher level) may relay orders to emergency medical care personnel, without modification, from a supervising physician. A physician designee may not deviate from approved protocols.

*e.* The hospital shall provide, upon request to the department, a list of supervising physicians and physician designees providing on-line medical direction.

*f.* The department may verify a hospital’s communications system to ensure compliance with the on-line medical direction agreement.

*g.* A supervising physician or physician designee who gives orders (directly or via communications equipment from some other point) to an emergency medical care provider is not subject to criminal liability by reason of having issued the orders and is not liable for civil damages for acts or omissions relating to the issuance of the orders unless the acts or omissions constitute recklessness.

*h.* Nothing in these rules requires or obligates a hospital, supervising physician or physician designee to approve requests for orders received from emergency medical care personnel.

NOTE: Hospitals in other states may participate provided that the applicable requirements of this subrule are met.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.6(147A) Complaints and investigations—denial, citation and warning, probation, suspension or revocation of service program authorization or renewal.**

**144.6(1)** All complaints regarding the operation of authorized air medical service programs, or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**144.6(2)** Complaints and the investigative process will be treated as confidential in accordance with Iowa Code section 22.7 and chapter 272C.

**144.6(3)** Air ambulance service program authorization may be denied or a program may be disciplined as provided in subrule 144.6(4) by the department in accordance with Iowa Code subsections 147A.5(3) and 272C.3(2) for any of the following reasons:

- a.* Knowingly allowing the falsifying of a patient care report (PCR).
- b.* Failure to submit required reports and documents.
- c.* Delegating professional responsibility to a person when the service program knows that the person is not qualified by training, education, experience or certification to perform the required duties.
- d.* Practicing, condoning, or facilitating discrimination against a patient, student or employee based on race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, mental or physical disability diagnosis, or social or economic status.
- e.* Knowingly allowing sexual harassment of a patient, student or employee. Sexual harassment includes sexual advances, sexual solicitations, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- f.* Failure or repeated failure of the applicant or alleged violator to meet the requirements or standards established pursuant to Iowa Code chapter 147A or the rules adopted pursuant to that chapter.
- g.* Obtaining or attempting to obtain or renew or retain service program authorization by fraudulent means or misrepresentation or by submitting false information.
- h.* Engaging in conduct detrimental to the well-being or safety of the patients receiving or who may be receiving emergency medical care.
- i.* Failure to correct a deficiency within the time frame required by the department.

**144.6(4)** Method of discipline. The department has the authority to impose the following disciplinary sanctions against an authorized service program:

- a.* Issue a citation and warning.
- b.* Impose a civil penalty not to exceed \$1,000.
- c.* Require additional education or training.
- d.* Impose a period of probation under specified conditions.
- e.* Prohibit permanently, until further order of the department, or for a specific period a service program's ability to engage in specific procedures, methods, acts, or activities incident to the practice of the profession.
- f.* Suspend an authorization until further order of the department or for a specific period.
- g.* Revoke an authorization.
- h.* Impose such other sanctions as allowed by law and as may be appropriate.

**144.6(5)** The department shall notify the applicant of the granting or denial of authorization or renewal, or shall notify the alleged violator of action to issue a citation and warning, place on probation, suspend or revoke authorization or renewal pursuant to Iowa Code sections 17A.12 and 17A.18. Notice of issuance of a denial, citation and warning, probation, suspension or revocation shall be served by restricted certified mail, return receipt requested, or by personal service.

**144.6(6)** Any requests for appeal concerning the denial, citation and warning, probation, suspension or revocation of service program authorization or renewal shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If such a request is made within the 20-day time period, the notice shall be deemed to be suspended. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. After the hearing, or upon default of the applicant or alleged violator, the administrative law judge shall affirm, modify or set aside the denial, citation and warning, probation, suspension or revocation. If no request for appeal is received within the 20-day time period, the department's notice of denial, probation, citation and warning, suspension or revocation shall become the department's final agency action.

**144.6(7)** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**144.6(8)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10.

**144.6(9)** When the administrative law judge makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken as provided in subrule 144.6(10).

**144.6(10)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**144.6(11)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections, and rulings thereon.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**144.6(12)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

**144.6(13)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**144.6(14)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Bureau of Emergency Medical Services, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**144.6(15)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**144.6(16)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, the news media or an employer.

**144.6(17)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**144.6(18)** Emergency adjudicative proceedings.

*a.* Necessary emergency action. To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18 to suspend authorization in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order.

*b.* Before issuing an emergency adjudicative order, the department shall consider factors including, but not limited to, the following:

(1) Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;

(2) Whether the specific circumstances which pose immediate danger to the public health, safety, or welfare have been identified and determined to be continuing;

(3) Whether the program required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety, or welfare;

(4) Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety, or welfare; and

(5) Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

*c.* Issuance of order.

(1) An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action. The order is a public record.

(2) The written emergency adjudicative order shall be immediately delivered to the service program that is required to comply with the order by utilizing one or more of the following procedures:

1. Personal delivery.

2. Certified mail, return receipt requested, to the last address on file with the department.

3. Facsimile. Fax may be used as the sole method of delivery if the service program required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

(3) To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

(4) Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the service program that is required to comply with the order.

(5) After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

(6) Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the service program that is required to comply with the order is the party requesting the continuance.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.7(147A) Temporary variances.**

**144.7(1)** If during a period of authorization there is some occurrence that temporarily causes a service program to be in noncompliance with these rules, the department may grant a temporary variance. Temporary variances from these rules (not to exceed six months in length per any approved

request) may be granted by the department to a currently authorized service program. Requests for temporary variances shall apply only to the service program requesting the variance and shall apply only to those requirements and standards for which the department is responsible.

**144.7(2)** To request a variance, the service program shall:

*a.* Notify the department verbally (as soon as possible) of the need to request a temporary variance. Submit to the department, within ten days after having given verbal notification to the department, a written explanation for the temporary variance request. The address and telephone number are Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075; (515)725-0326.

*b.* Cite the rule from which the variance is requested.

*c.* State why compliance with the rule cannot be maintained.

*d.* Explain the alternative arrangements that have been or will be made regarding the variance request.

*e.* Estimate the period of time for which the variance will be needed.

**144.7(3)** Upon notification of a request for variance, the department shall consider, but shall not be limited to the following:

*a.* Examining the rule from which the temporary variance is requested to determine if the request is appropriate and reasonable.

*b.* Evaluating the alternative arrangements that have been or will be made regarding the variance request.

*c.* Examining the effect of the requested variance upon the level of care provided to the general populace served.

*d.* Requesting additional information if necessary.

**144.7(4)** Preliminary approval or denial shall be provided verbally within 24 hours. Final approval or denial shall be issued in writing within ten days after department receipt of the written explanation for the temporary variance request and shall include the reason for approval or denial. If approval is granted, the effective date and the duration of the temporary variance shall be clearly stated.

**144.7(5)** Any request for appeal concerning the denial of a request for temporary variance shall be in accordance with the procedures outlined in rule 641—144.6(147A).

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.8(147A) Transport options for air medical services.**

**144.8(1)** Upon responding to an emergency call, air medical services may make a determination at the scene as to whether air medical transportation is needed. The determination shall be made by a medical crew member and shall be based upon protocol and concurrence of medical control approved by the service program's medical director. When the medical crew member applies this protocol to determine the appropriate transport option, the following criteria, as a minimum, shall be used:

*a.* Primary assessment;

*b.* Focused history and physical examination;

*c.* Chief complaint;

*d.* Name, address and age of the individual in need of emergency assistance; and

*e.* Nature of the call for assistance.

**144.8(2)** Air medical transportation shall be provided whenever any of the above criteria indicate that treatment should be initiated. If treatment is not indicated, the air medical service program shall make arrangements for alternate transportation, if indicated.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

These rules are intended to implement Iowa Code chapter 147A.

[Filed ARC 8662B (Notice ARC 8499B, IAB 1/27/10), IAB 4/7/10, effective 5/12/10]

CHAPTER 145  
IOWA PHYSICIAN ORDERS FOR SCOPE OF TREATMENT

**641—145.1(144D) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Advanced registered nurse practitioner*” means an advanced registered nurse practitioner licensed pursuant to Iowa Code chapter 152 or 152E.

“*Department*” means the department of public health.

“*Director*” means the director of the department of public health.

“*Emergency medical care provider*” means emergency medical care provider as defined in Iowa Code section 147A.1.

“*Health care facility*” means health care facility as defined in Iowa Code section 135C.1, a hospice program as defined in Iowa Code section 135J.1, an elder group home as defined in Iowa Code section 231B.1, and an assisted living program as defined in Iowa Code section 231C.2.

“*Health care provider*” means an individual, including an emergency medical care provider and an individual providing home- and community-based services, and including a home health agency, licensed, certified, or otherwise authorized or permitted by the law of this state to administer health care in the ordinary course of business or in the practice of a profession.

“*Home health agency*” means home health agency as defined in 42 CFR Part 484.

“*Hospital*” means hospital as defined in Iowa Code section 135B.1.

“*Legal representative*” means an individual authorized to execute a POST form on behalf of a patient who is not competent to do so, in the order of priority set out in Iowa Code section 144A.7, subsection 1, and guided by the express or implied intentions of the patient or, if such intentions are unknown, by the patient’s best interests given the patient’s overall medical condition and prognosis.

“*Patient*” means an individual who is frail and elderly or who has a chronic, critical medical condition or a terminal illness and for which a physician orders for scope of treatment is consistent with the individual’s goals of care.

“*Physician*” means a person licensed to practice medicine and surgery or osteopathic medicine and surgery in this state.

“*Physician assistant*” means a person licensed as a physician assistant under Iowa Code chapter 148C.

“*Physician orders for scope of treatment form*” or “*POST form*” means a document containing medical orders which may be relied upon across medical settings that consolidates and summarizes a patient’s preferences for life-sustaining treatments and interventions and acts as a complement to and does not supersede any valid advance directive.

[ARC 2280C, IAB 12/9/15, effective 1/13/16]

**641—145.2(144D) Purpose.** The purpose of this chapter is to establish the process for the development, review, modification, and posting of the POST form.

[ARC 2280C, IAB 12/9/15, effective 1/13/16]

**641—145.3(144D) Responsibilities of the department.**

**145.3(1)** The department shall prescribe the uniform POST form and shall post the form on the department’s Web site [www.idph.iowa.gov](http://www.idph.iowa.gov) for public availability.

**145.3(2)** The POST form shall be a uniform form based upon the national physician orders for life-sustaining treatment (POLST) paradigm form. The form shall have all of the following characteristics:

- a. The form shall include the patient’s name and date of birth.
- b. The form shall be signed and dated by the patient or the patient’s legal representative.
- c. The form shall be signed and dated by the patient’s physician, advanced registered nurse practitioner, or physician assistant.
- d. If preparation of the form was facilitated by an individual other than the patient’s physician, advanced registered nurse practitioner, or physician assistant, the facilitator shall also sign and date the form.

*e.* The form shall include the patient's wishes regarding the care of the patient, including but not limited to all of the following:

- (1) The administration of cardiopulmonary resuscitation.
- (2) The level of medical interventions in the event of a medical emergency.
- (3) The use of medically administered nutrition by tube.
- (4) The rationale for the orders.

*f.* The form shall be easily distinguishable to facilitate recognition by health care providers, hospitals, and health care facilities.

*g.* An incomplete section on the form shall imply the patient's wishes for full treatment for the type of treatment addressed in that section.

**145.3(3)** The POST form shall be reviewed by the department on an annual basis and may be reviewed more frequently at the discretion of the director. The POST form may be modified based on changes to the national POLST paradigm, input from interested parties, advances in evidence-based research or quality improvement processes, or clinical experience. The director shall annually designate a task force to review and recommend modifications to the POST form. The director shall review the task force recommendations and approve all final modifications to the POST form before it is posted on the department's Web site.

[ARC 2280C, IAB 12/9/15, effective 1/13/16]

These rules are intended to implement Iowa Code section 144D.2.

CHAPTER 150  
IOWA REGIONALIZED SYSTEM OF PERINATAL HEALTH CARE

**641—150.1(135,77GA,ch1221) Purpose and scope.** Hospitals within the state shall determine whether to participate in Iowa's regionalized system of perinatal health care and shall select the hospital's level of participation in the regionalized system. A hospital having determined to participate in the regionalized system shall comply with the rules appropriate to the level of participation selected by the hospital.

Iowa's regionalized system of perinatal health care helps practitioners in rural Iowa to rapidly access specialty services for their patients even though such services may not exist in the local community. This is predicated on several factors, including the willingness of certain hospitals in moderate-to-large Iowa cities to provide specialty services and the presence of a functional system of patient transportation. These rules address how participating Iowa hospitals relate to the regionalized system and suggest a level of functioning which should identify the role each participating hospital plays in the system.

The following rules present a description of the levels of care among Iowa perinatal hospitals. The levels are as follows: Level I hospital, Level II hospital, Level II regional center, Level II regional neonatology center, and Level III center. The department is very much aware of the need for organization of limited resources in a rural state. Accordingly, the rules are designed to encourage and support the presence of a Level II regional center in areas not populous enough to support a Level III center.

These rules are not meant to hold Iowa hospitals and Iowa perinatal professionals to an impractical ideal. Although the rules are clearly not intended to serve as standards, they do specify particulars when feasible. For example, specification of a designated level of care for a hospital should be clearly evident from the descriptions. Levels of care are designated by the functional capacity of the hospital. Thus, it may be possible to have a number of Level II hospitals or Level III centers in one city.

The primary purpose of designation is to ensure Iowa perinatal patients appropriate care as close to their homes as possible. In an ideal situation, no community hospital would be more than 50 miles from a perinatal center. Unfortunately, Iowa's low population density precludes this. Accordingly, Iowa developed a network of regional centers.

The further intent of these rules is to ensure that when a hospital markets itself at a particular level of perinatal care, it is capable of providing that care. The public is entitled to know the level of functioning. The rules provide the framework to be used in defining and evaluating the level of perinatal services being offered.

**641—150.2(135,77GA,ch1221) Definitions.** For the purpose of these rules, the following definitions shall apply:

*"Categorization"* means a preliminary determination by the department that a hospital is capable of providing perinatal care at Level I, Level II, Level II regional, Level II regional neonatology center, or Level III care capabilities.

*"Certificate of verification"* means a document awarded by the department that identifies a hospital's level of perinatal care and term of verification at that level.

*"Department"* means the Iowa department of public health.

*"Director"* means the director of the Iowa department of public health.

*"Hospital"* means a facility licensed under Iowa Code chapter 135B or a comparable facility located and licensed in another state.

*"On-site verification survey"* means an on-site survey conducted by the department's statewide perinatal care program based at the University of Iowa hospitals and clinics to assess a hospital's ability to meet the level of designation selected by the hospital.

*"Perinatal advisory committee"* means the committee that provides review and counsel to the statewide perinatal care program based at the University of Iowa hospitals and clinics.

*"Perinatal guidelines advisory committee"* means the committee that provides consultation to the department regarding these rules for the regionalized system of perinatal health care.

*"Regionalized system of perinatal health care"* means the department's program for the provision of appropriate perinatal care as close to patients' homes as possible.

“*Respiratory distress*” means tachypnea (respiratory rate of 60 or more per minute), grunting, tugging, retracting, nasal flaring, or cyanosis. Any or all of these may constitute respiratory distress.

“*Statewide perinatal health care program*” means the educational team based at the University of Iowa hospitals and clinics and retained by the department of public health.

“*Verification*” means a process by which the department certifies a hospital’s capacity to provide perinatal care in accordance with criteria established for Level I hospitals, Level II hospitals, Level II regional centers, Level II regional neonatology centers, and Level III centers under these rules.

**641—150.3(135,77GA,ch1221) Perinatal guidelines advisory committee.**

**150.3(1) Purpose.** The director shall appoint an advisory committee to consult with the department in its development and maintenance of the regionalized system of perinatal health care. This advisory committee should not be confused with the perinatal advisory committee that provides review and counsel to the statewide perinatal care program.

**150.3(2) Appointment.**

*a.* Members of the advisory committee shall include a representative from each of the following organizations that chooses to designate a nominee to the director: Iowa Hospitals and Health Systems; Iowa Medical Society; Iowa Osteopathic Medical Association; Iowa Chapter, American Academy of Pediatrics; Iowa Section, American College of Obstetricians and Gynecologists; Iowa Academy of Family Physicians; Iowa Nurses Association; Iowa Association of Neonatal Nurses; Iowa Association of Women’s Health, Obstetrical and Neonatal Nurses; and Iowa Chapter, Great Plains Organization for Perinatal Health Care.

*b.* Nonvoting ex officio members of the committee shall include representatives from the department of inspections and appeals, the statewide perinatal health care program at the University of Iowa hospitals and clinics and the division of family and community health medical director at the department.

*c.* Vacancies shall be filled in the same manner in which the original appointments were made.

*d.* Three consecutive unexcused absences shall be grounds for the director to consider dismissal of the committee member and appointment of another. The chairperson of the committee shall notify the director of the department.

**150.3(3) Officers.** Officers of the committee shall be a chairperson and a vice-chairperson and shall be elected at the first meeting of each fiscal year unless designated at the time of appointment. Vacancies in the office of chairperson shall be filled by elevation of the vice-chairperson. Vacancies in the office of vice-chairperson shall be filled by election at the next meeting after the vacancy occurs. The chairperson shall preside at all meetings of the committee, appoint such subcommittees as deemed necessary, and designate the chairperson of each subcommittee. If the chairperson is absent or unable to act, the vice-chairperson shall perform the duties of the chairperson. When so acting, the vice-chairperson shall have all the powers of and be subject to all restrictions upon the chairperson. The vice-chairperson shall also perform such other duties as may be assigned by the chairperson.

**150.3(4) Meetings.**

*a.* The committee shall establish a meeting schedule on an annual basis to conduct its business. Meetings may be scheduled as business requires, but notice to members must be at least five working days prior to the meeting date. A four-week notice is encouraged to accommodate the schedules of members.

*b.* Robert’s Rules of Order shall govern all meetings.

*c.* Action on any issue before the committee can be taken only by a majority vote of the entire membership. The committee shall maintain information sufficient to indicate the vote of each member present.

**150.3(5) Subcommittees.** The committee may designate one or more subcommittees to perform such duties as may be deemed necessary.

**150.3(6) Expenses of committee members.** The following may be considered necessary expenses for reimbursement of committee members when incurred on behalf of committee business and are subject to established state reimbursement rates:

- a. Reimbursement for travel in a private car.
- b. Actual lodging and meal expenses including sales tax on lodging and meals.
- c. Actual expense of public transportation.

**641—150.4(135,77GA,ch1221) Categorization and selection of level of care designation.** Hospitals that have previously participated in the regionalized system of perinatal health care shall be categorized by the department at the level of care designation last verified by the department. A hospital that has chosen to participate in the regionalized system for the first time or that has chosen to select a new level of care designation shall:

1. Submit the following information to the department:
  - Description of the geographic area to be served.
  - Identification of the target population to be served.
  - Identification of Level I hospitals to be served.
  - Identification of unmet needs of the area to be served.
  - Demonstration of the ability to meet these rules.

2. Mail the information to:

Iowa Regionalized System of Perinatal Health Care  
Iowa Department of Public Health  
Division of Health Promotion and Chronic Disease Prevention  
321 East 12th Street, Lucas State Office Building  
Des Moines, Iowa 50319-0075

**641—150.5(135,77GA,ch1221) Recommendation by the statewide perinatal care program.**

**150.5(1)** Upon receipt of the hospital's application information from the department, the statewide perinatal care program will provide verification of the hospital's ability to meet the criteria for the level of designation selected by the hospital. The results of the verification shall be submitted to the department, along with a recommendation to grant or deny the hospital a certificate of verification.

**150.5(2)** The statewide perinatal health care program shall also perform periodic on-site verification surveys of established perinatal service programs to verify the continued ability of each hospital visited to meet the criteria for the level of designation selected by the hospital. The results of each survey shall also be submitted to the department, along with a recommendation to continue, suspend, or revoke the hospital's certificate of verification.

**150.5(3)** Any review and evaluation of the University of Iowa hospitals and clinics' established perinatal service program shall be performed by the department, or for the department, by a person or entity unaffiliated with the University of Iowa hospitals and clinics.

**641—150.6(135,77GA,ch1221) Level I hospitals.**

**150.6(1) Definition.** Level I hospitals provide basic inpatient care for pregnant women and newborns without complications; manage perinatal emergencies, including neonatal resuscitation; provide leadership in early risk identification before and after birth; seek consultation or referral for high-risk patients; and provide public and professional education.

**150.6(2) Functions.** Level I hospitals have a family-centered philosophy. Parents have reasonable access to their newborns 24 hours a day within all functional units and are encouraged to participate in the care of their newborns. Generally, parents can be with their newborns in the mother's room. Noninfectious siblings may visit in the mother's room or in a designated space.

Level I hospitals have the capability to:

- a. Provide surveillance and care of all patients admitted to the obstetric service with an established triage system for identifying high-risk patients who should be transferred to a facility that provides Level II or higher care, prior to delivery;
- b. Provide proper detection and supportive care of unanticipated maternal-fetal problems that occur during labor and delivery;

- c. Perform emergency Cesarean sections as soon as possible after the decision to do the operation has been made;
- d. Provide transfusions of blood and fresh frozen plasma on a 24-hour basis;
- e. Provide anesthesia, pharmacy, radiology, respiratory support, electronic fetal heart-rate monitoring, and laboratory services on a 24-hour basis;
- f. Provide care of postpartum conditions;
- g. Evaluate the condition of healthy neonates and their continuing care until discharge;
- h. Resuscitate all neonates using the neonatal resuscitation program guidelines as published by the American Heart Association/American Academy of Pediatrics;
- i. Stabilize all neonates including unexpectedly small or sick neonates before transfer;
- j. Consult and arrange transfers in conjunction with the obstetrician, pediatrician or neonatologist at the referral center;
- k. Maintain a nursery for normal-term or near-term newborns.

**150.6(3) Physical facilities.** Physical facilities for perinatal care in hospitals should be conducive to care that meets the normal physiologic and psychosocial needs of mothers, neonates, fathers, and families. Special facilities should be available when deviations from the norm require uninterrupted physiologic, biochemical, and clinical observations of patients throughout the perinatal period. Labor, delivery, and newborn care facilities should be located contiguously.

The following recommendations are intended as general guidelines and are meant to be flexible enough to meet local needs. It is recognized that individual limitations of physical facilities for perinatal care may impede strict adherence to the recommendations. Furthermore, not all hospitals will have all the functional units described. Provisions for individual units should be consistent within the framework of a regionalized perinatal care system and the state and local public health regulations.

- a. *Obstetric functional units.*
  - (1) Labor. Areas used for women in labor are equipped with the following components:
    - 1. Adequate space for support persons, personnel, and equipment;
    - 2. Adequate ventilation and temperature control;
    - 3. A labor or birthing bed;
    - 4. A storage area for the patient's clothing and personal belongings;
    - 5. Adjustable lighting that is pleasant for the patient and adequate for examinations;
    - 6. An emergency signal and an intercommunication system;
    - 7. A sphygmomanometer and stethoscope;
    - 8. Mechanical infusion equipment;
    - 9. Fetal monitoring equipment;
    - 10. Oxygen and suction outlets;
    - 11. Access to at least one shower for use by labor patients; and
    - 12. Storage facilities for supplies and equipment.
  - (2) Delivery.
    - 1. Delivery rooms should be close to the labor rooms in order to afford easy access and to provide privacy to women in labor. A waiting area for families should be adjacent to the delivery suite, and restrooms should be located nearby.
    - 2. Traditional delivery rooms and Cesarean birth rooms are similar in design to operating rooms. Vaginal deliveries can be performed in either room, whereas Cesarean birth rooms are designed especially for that purpose and are thus larger. Each type of birthing room is well lighted and environmentally controlled to prevent chilling of the mother and neonate.
    - 3. It is desirable that Cesarean deliveries be performed in the obstetric unit; however, if this is not possible due to cost and space, equipment for neonatal stabilization and resuscitation, as described herein under 150.6(3) "b"(1), is available during delivery.
    - 4. Each delivery room is maintained as a separate unit with the following equipment and supplies necessary for normal delivery and for the management of complications:
      - Delivery/operating table that allows variation in position for delivery;
      - Instrument table and solution basin stand;

- Instruments and equipment for vaginal delivery, repair of laceration, Cesarean delivery, and the management of obstetric emergencies;
- Solutions and equipment for the intravenous administration of fluids;
- Equipment for administration of all types of anesthesia, including equipment for emergency resuscitation of the mother;
- Individual oxygen, air, and suction outlets for mother and neonate;
- An emergency call system;
- Mirrors for patients to observe the birth;
- Wall clock with a second hand;
- Equipment for fetal heart rate monitoring; and
- Scrub sinks with controls strategically placed to allow observation of the patient.

5. 5. Trays containing drugs and equipment necessary for emergency treatment of both mother and neonate are kept in the delivery room area. Equipment necessary for the treatment of cardiac arrest is easily accessible.

(3) Postpartum care. The postpartum unit is flexible enough to permit comfortable accommodation of patients when the patient census is at its peak and use of beds for alternate functions when the patient census is low. Ideally, single-occupancy rooms should be provided; however, not more than two patients should share one room. If possible, each room in the postpartum unit should have its own toilet and hand-washing facilities. When this is not possible and it is necessary for patients to use common facilities, patients should be able to reach them without entering a general corridor. When the newborn rooms-in with the mother, the room should have hand-washing facilities, a mobile bassinet unit, and supplies necessary for the care of the newborn.

(4) Combined units (labor/delivery/recovery or labor/delivery/recovery/postpartum room).

1. Comprehensive obstetric and neonatal care can be provided to the low-risk and the high-risk parturient and infant and the family in a single room. A homelike, family-centered environment with the capability for providing high-risk care is a key design criterion for both the labor/delivery/recovery (LDR) and labor/delivery/recovery/postpartum (LDRP) rooms. Each room is equipped for all types of delivery except Cesarean deliveries or those that may require general anesthesia.

2. During the labor, delivery, and recovery phases, care can be provided in an LDR room or can be extended to include the postpartum period in an LDRP room.

3. Nurses providing care in combined units are knowledgeable in antepartum care, labor and delivery, postpartum care, and neonatal care, making the use of staff cost-effective and increasing the continuity and quality of care.

*b. Neonatal functional units.*

(1) Resuscitation/stabilization.

1. A resuscitation and stabilization bed should be available in the immediate area of delivery for those neonates who require it. Contingent upon their condition, neonates are moved from this area to the nursery for admission and stabilization and possible transfer to a Level II regional center or Level III center.

2. The resuscitation area contains the following items:

- Overhead source of radiant heat that can be regulated based on the infant's temperature; radiant warmers with accommodations for X-ray capabilities are recommended;
- Thin resuscitation/examination mattress that allows access on three sides;
- Wall clock;
- Equipment and medications as recommended by the neonatal resuscitation program. This includes a laryngoscope with infant-sized blades, endotracheal tubes, and resuscitation (breathing) bags with masks for full-term and preterm neonates;
- Oxygen, compressed air and suction sources that are separate from those for the mother;
- Equipment for examination, immediate care, and identification of the neonate.

3. The resuscitation area is usually within the delivery room, although it may be in a designated, contiguous, separate room. If resuscitation takes place in the delivery room, the area is large enough to ensure that the resuscitation of the neonate can be achieved without interference with or from the ongoing

care of the mother. Following stabilization of the neonate, the newborn's vital signs must be maintained (e.g., by using prewarmed blankets). The room temperature is kept at a level higher than that customary for patient rooms or operating suites. Qualified nursing staff is available to assess the newborn during this period.

(2) Admission/observation (transitional care stabilization).

1. The admission/observation area is for careful assessment of the neonate's condition during the first 24 hours after birth (i.e., during the period of physiologic adjustment to extrauterine life). This assessment may take place within one or more functional areas (e.g., the room in which the mother is recovering, the LDRP room, the newborn nursery, or a separate admission/observation area). In some hospitals, the newborn nursery is the primary area for transitional care, both for neonates born within the hospital and for those born outside the hospital.

2. The admission/observation area should be near the delivery/Cesarean birth room. If it is part of the maternal recovery area, which is preferable, physical separation of the mother and newborn during this period can be avoided.

3. The capacity of the admission/observation area depends on the size of the delivery service and the duration of close observation. The admission/observation area is well lighted, has a wall clock, and contains emergency resuscitation equipment similar to that in the designated resuscitation area.

4. The physicians' and registered nurses' assessments of the neonate's condition determine the subsequent level of care. Most neonates are transferred from the admission/observation area to the newborn nursery or to the postpartum area for rooming-in. Some neonates may require transfer to another facility. Consultation with a pediatrician or neonatologist and possible referral to a hospital offering a higher level of care should be initiated for infants with respiratory distress or those infants requiring oxygen therapy for more than two hours.

(3) Newborn nursery. Routine care of apparently normal full-term neonates who have demonstrated successful adaptation to extrauterine life may be provided either in the newborn nursery or in the area where the mother is receiving postpartum care. The nursery should be relatively close to the postpartum area. The newborn nursery is well lighted, has a large wall clock, and is equipped for emergency resuscitation.

**150.6(4) Medical personnel.**

a. The obstetric/newborn care area is under the supervision of a board-eligible or board-certified obstetrician-gynecologist, pediatrician or a physician with special interest and experience in obstetrics or pediatrics.

b. Adequate anesthesia coverage by a qualified anesthesia provider is available in a timely fashion for emergency situations on a 24-hour-a-day, 7-day-a-week basis.

c. For Cesarean sections or if neonatal problems are anticipated during vaginal delivery, a second physician or attendant who is skilled in resuscitation and care of the neonate should be in attendance.

**150.6(5) Nursing personnel.** Nurses assigned to the obstetrical/neonatal service demonstrate competency in the care of the mother and infant.

a. *Staffing.* Registered nurses assigned to the obstetrical/neonatal service must be licensed to practice in Iowa, complete an obstetrical or neonatal orientation and demonstrate obstetrical or neonatal competencies as defined by each hospital. At least one of these registered nurses must be available at all times. The primary responsibility of the registered nurse is the delivery of nursing care and departmental organization.

b. *Labor/delivery/immediate postpartum/newborn.*

(1) A registered nurse is responsible for the admission assessment of the gravida in labor, as well as continuing assessment and support of the mother and fetus during labor, delivery and the early postpartum period.

(2) A registered nurse is responsible for the admission assessment of the newborn, as well as continuing assessment during the stabilization period.

(3) Licensed practical nurses, nursing assistants and other appropriate technical personnel may assist in the care of the gravida in labor, but should be under the direct supervision of the registered nurse.

*c. Later postpartum period/newborn care.*

(1) Nursing care of the mother and newborn is directed and supervised by a registered nurse. A licensed practical nurse may provide care for patients without complications.

(2) Nurses have a supporting and teaching role in assisting mothers to care for their infants. This should be recognized and fostered.

**150.6(6) Outreach education.** Level I hospitals should assume an active role in the development and coordination of wellness and preventive programs concerning maternal/child health at the community level (e.g., programs on family planning, family-life education, parenting, breast feeding, cessation of smoking).

**150.6(7) Allied health personnel and services.** Level I hospitals have available, but are not limited to, the following allied health personnel and services:

- a.* Registered dietitian with knowledge of maternal and neonatal nutrition management;
- b.* Social worker;
- c.* Bioengineer-safety and environmental control;
- d.* Pharmacy;
- e.* Radiology;
- f.* Laboratory;
- g.* Pathology.

**150.6(8) Infection control.**

*a.* Each hospital establishes written policies and procedures for assessing the health of personnel assigned to the perinatal care services and those who have significant contact with the newborn. This includes restricting their contact with patients when necessary. These policies and procedures include screening for tuberculosis and rubella. Routine culturing of specimens obtained from personnel is not useful, although selective culturing may be of value when a pattern of infection is suspected.

*b.* No special or separate isolation facilities are required for neonates born at home or in transit to the hospital. Detailed descriptions of the isolation categories and requirements should be available in each hospital's infection control manual.

**150.6(9) Newborn safety.** The protection of infants is the responsibility of all personnel in a facility. Infants are to be transported in a bassinet or stroller and should never be carried. Infants are transported one at a time and are never grouped in a hallway without direct supervision. Infants should always be within the sight and supervision of staff, the mother, or other family members or friends designated by the mother. Each hospital has a policy established that addresses strategies to promote infant safety.

**150.6(10) Maternal-fetal transport.** Maternal-fetal transport is an essential component of modern perinatal care. All facilities in the state providing obstetrics need to be familiar with their own resources and capabilities in dealing with obstetrical and neonatal complications. In most instances, maternal-fetal transport is preferable to neonatal transport. Each hospital, when transporting or accepting a transport, needs a system in place to facilitate a smooth transition of care in the most expeditious manner possible. The majority of maternal-fetal transports can be carried out by ground transportation. It is important for ambulance services to be equipped for maternal-fetal transport and have appropriately trained staff.

**641—150.7(135,77GA,ch1221) Level II hospitals.**

**150.7(1) Definition.** Level II hospitals provide the same care and services as Level I hospitals plus they provide management of certain high-risk pregnancies and services for newborns with selected complications. These hospitals deliver approximately 500 or more babies annually and have an obstetrician and pediatrician on staff. The perinatal unit is under the co-direction of a pediatrician and an obstetrician.

**150.7(2) Functions.** In addition to the functions of Level I hospitals, Level II hospitals have the capability to:

- a.* Manage selected high-risk pregnancies.
- b.* At a minimum, manage neonates of 34 weeks and greater gestation.
- c.* Manage recovering neonates who can be appropriately transferred from the referral center.
- d.* Maintain a special area designated for the care of sick neonates.

- e. Maintain nursing personnel with demonstrated competency in the care of sick neonates.
- f. Maintain nursing personnel with demonstrated competency in the care of high-risk mothers.

Consultation with a pediatrician or neonatologist and possible referral to a higher-level perinatal center should be initiated for infants requiring oxygen therapy for more than six hours or ventilatory care for more than two hours.

**150.7(3) *Physical facilities.*** Level II hospitals have the same physical facilities as Level I hospitals.

**150.7(4) *Medical personnel.*** Level II hospitals have the same medical personnel as Level I hospitals. In addition, the perinatal units in Level II hospitals are under the co-direction/supervision of either a board-eligible or board-certified obstetrician/gynecologist or a board-eligible or board-certified pediatrician for their respective areas. Allied medical specialists in various disciplines are on staff, including specialists in internal medicine, radiology, and pathology. Psychiatric services are available.

**150.7(5) *Nursing personnel.*** Level II hospitals have the same minimal requirements for nursing personnel as Level I hospitals. Nursing orientation and competencies in a Level II hospital are specific to the patient population they serve.

**150.7(6) *Outreach education.*** Level II hospitals have the same responsibility for outreach education as Level I hospitals.

**150.7(7) *Allied health personnel and services.*** Level II hospitals have the same allied health personnel and services available as Level I hospitals, with the addition of the following:

- a. Respiratory therapy.
- b. Ultrasound.

**150.7(8) *Infection control.*** Infection control guidelines are the same as for Level I hospitals.

**150.7(9) *Newborn safety.*** Level II hospitals have at least the same requirements for newborn safety as Level I hospitals.

**150.7(10) *Maternal-fetal transport.*** Level II hospitals have the same requirements for maternal-fetal transport as Level I hospitals. In addition, Level II hospitals are expected to accept patient referrals when appropriate. A critical function of providers at Level II hospitals is to communicate with the providers at Level I hospitals in deciding whether a particular patient should be transported to the Level II hospital. Careful assessment of the hospital's capabilities for perinatal management will be critical in these decisions. This information will need to be disseminated among the hospital staff. Providers of obstetric care need to know the critical gestational age limitations for their particular nursery. Below this gestational age, maternal-fetal transport should be utilized if delivery is anticipated and the circumstances permit.

**150.7(11) *Perinatal care committee.***

a. All Level II hospitals maintain a perinatal care committee. Members of this committee should represent, but not be limited to, the fields of obstetrics, pediatrics, family practice, nursing, administration, laboratory, respiratory therapy, anesthesia and social services.

b. Responsibilities of the perinatal care committee include the following:

(1) Develop policies for the unit including provisions to ensure adequate patient care by qualified providers.

(2) Conduct a meeting at least semiannually to resolve problems related to the unit.

(3) Review educational activities conducted by the unit.

(4) Serve as a general liaison between the various groups represented on the committee.

#### **641—150.8(135,77GA,ch1221) Level II regional centers.**

**150.8(1) *Definition.***

a. Level II regional centers have a developed neonatal intensive care unit (NICU). The sizes of the units vary because of the differing demands in the various regions in Iowa. Accordingly, a Level II regional center may have as few as four neonatal intensive care beds.

b. The obstetric service in a Level II regional center provides services for maternity patients at higher risk than those in Level II hospitals because of the presence of an NICU. However, reasonable efforts should be expended to transfer those patients whose newborns are likely to require a higher intensity of care not available in the Level II regional center but offered in a Level III center.

c. Level II regional centers provide the same care and services as Level II hospitals. In addition, Level II regional centers have the following differentiating characteristics:

- (1) A defined referral area;
- (2) A defined relationship with a Level III center either in Iowa or a contiguous state;
- (3) A minimum of three pediatricians and three obstetricians on staff; and
- (4) The ability to manage patients at higher risk than Level I or Level II hospitals. Complexity of care is determined by the training and experience of physicians and nursing staff and extent of support services available.

**150.8(2) Functions.** Level II regional centers have the same functions as Level II hospitals. In addition, Level II regional centers have the capability to:

- a. Accept selected maternal transports based on criteria developed in conjunction with the Level III center;
- b. Maintain nursing personnel demonstrating competency in the care of high-risk mothers;
- c. Maintain a defined neonatal intensive care unit;
- d. Maintain nursing personnel that demonstrate competency in the care of infants in neonatal intensive care;
- e. Provide care for infants requiring ventilatory support;
- f. Maintain a functioning neonatal transport team for the regional area served; and
- g. Provide for follow-up care of high-risk newborns in accordance with the Iowa high-risk infant follow-up program.

**150.8(3) Physical facilities.** Level II regional centers have the same physical facilities as Level II hospitals with the addition of the following.

a. *Obstetric functional units.*

(1) Labor/delivery. Patients who have significant medical or obstetric complications are cared for in a room especially equipped with cardiopulmonary resuscitation equipment and other monitoring equipment necessary for observation and special care. It is preferable that this room be located in the labor and delivery area and meet the physical requirements of any other intensive care room in the hospital. When patients with significant medical or obstetric complications are cared for in the labor and delivery area, the unit has the same capabilities as an intensive care unit.

(2) Postpartum. Larger services may have a specific recovery room for postpartum patients with a separate area for high-risk patients. Required equipment is similar to that needed in any surgical recovery room and includes equipment for monitoring vital signs, suctioning, administering oxygen, and infusing fluids intravenously. Cardiopulmonary resuscitation equipment must be immediately available.

b. *Neonatal functional units.*

(1) Continuous cardiopulmonary monitoring and constant nursing care and other support for severely ill infants are provided in the intensive care area. Because emergency care is provided in this area, laboratory and radiological services are readily available 24 hours a day. The results of blood gas analysis are available soon after blood sample collection.

(2) The neonatal intensive care area should be near the delivery/Cesarean birth room and should be easily accessible from the hospital's ambulance entrance. It should be away from routine hospital traffic.

(3) The amount and complexity of equipment are considerably greater than required in Level I and Level II nurseries. Equipment and supplies in the intensive care area include the same items as needed in the resuscitation and intermediate care areas. Immediate availability of emergency oxygen is essential. Continuous monitoring of delivered oxygen concentrations, patient oxygenation, body temperature, ECG, respirations and blood pressure should be available. Supplies should be kept close to the patient station so that nurses are not away from the neonate unnecessarily and may use their time and skills efficiently.

**150.8(4) Medical personnel.**

a. Level II regional centers have the same medical personnel as Level II hospitals with the addition of a board-eligible or board-certified pediatrician serving as director of the NICU. This physician maintains a consultative relationship with Level III physicians. Additionally, Level II regional centers have a minimum of three pediatricians and three obstetricians on staff.

b. If an infant is placed on mechanical ventilation, a physician, nurse practitioner, physician assistant, or appropriate person capable of airway management and experienced in diagnosis is available in-house on a 24-hour basis.

**150.8(5) *Nursing personnel.*** Level II regional centers have the same minimal requirements for nursing personnel as Level II hospitals. Additionally, Level II regional center registered nurses have demonstrated competency in high-risk obstetrics or neonatal care.

**150.8(6) *Outreach education.*** Outreach education is provided to each hospital in the referral area at least once per year. This can be achieved by one or more of the following:

- a. Sponsoring an annual conference;
- b. Visiting Level I and Level II hospitals;
- c. Providing educational programs at the regional center for the staff members of the Level I and Level II hospitals;
- d. Sending written educational materials to the Level I and II hospitals.

**150.8(7) *Allied health personnel and services.*** Level II regional centers have the same allied health personnel and services available as Level II hospitals, with the addition of the following:

a. A respiratory therapist, certified lab technician/blood gas technician and an X-ray technologist should be in-house on a 24-hour basis when a neonate is being managed on mechanical ventilation.

b. Allied personnel should have special training and an interest in high-risk mothers and infants.

**150.8(8) *Infection control.*** Infection control guidelines are the same as for Level II hospitals.

**150.8(9) *Newborn safety.*** Level II regional centers have at least the same requirements for newborn safety as Level II hospitals.

**150.8(10) *Maternal-fetal transport.*** Level II regional centers have the same requirements for maternal-fetal transport as Level II hospitals. In addition, Level II regional centers are expected to provide transportation services.

**150.8(11) *Perinatal care committee.*** Level II regional centers have at least the same requirements for a perinatal care committee as Level II hospitals.

#### **641—150.9(135,77GA,ch1221) Level II regional neonatology centers.**

##### **150.9(1) *Definition.***

a. Level II regional neonatology centers provide the same care and services as Level II regional centers with the addition of a demonstrated commitment to providing a higher level of neonatology care. The Level II regional neonatology center will manage high-risk pregnancies and infants born at less than 34 weeks' gestation or weighing less than 1500 grams. Exceptions will be cases for which surgical intervention or pediatric subspecialty care is anticipated or needed.

b. The obstetric service in a Level II regional neonatology center provides services for maternity patients at higher risk than those in Level II hospitals because of the presence of a NICU. However, reasonable efforts should be expended to transfer those patients whose newborns are likely to require a higher intensity of care not available in the Level II regional neonatology center but offered in a Level III center. Efforts should also be made to transfer those patients to a Level III center when the pregnancy has risk factors that require the care of a maternal-fetal medicine specialist.

c. Level II regional neonatology centers provide the same care and services as Level II regional centers. In addition, Level II regional neonatology centers have the following differentiating characteristics:

- (1) A defined referral area;
- (2) A defined relationship with a Level III center either in Iowa or a contiguous state;
- (3) A minimum of two board-eligible or board-certified neonatal/perinatal medicine subspecialists on staff;
- (4) Neonatology care available on a continuous 24-hour basis, with at least three obstetricians on staff; and

(5) A medical director in the neonatal intensive care unit who is a full-time, board-eligible or board-certified pediatrician with board eligibility or certification in neonatal/perinatal medicine.

**150.9(2) Functions.** Level II regional neonatology centers have the same functions as Level II regional centers.

- a. Accept selected maternal transports based on criteria developed in conjunction with the Level III center;
- b. Maintain nursing personnel demonstrating competency in the care of high-risk mothers;
- c. Maintain a defined neonatal intensive care unit;
- d. Maintain nursing personnel that demonstrate competency in the care of infants in neonatal intensive care;
- e. Provide care for infants requiring ventilatory support;
- f. Maintain a functioning neonatal transport team for the regional area served; and
- g. Provide for follow-up care of high-risk newborns in accordance with the Iowa high-risk infant follow-up program.

**150.9(3) Physical facilities.** Level II regional neonatology centers have the same physical facilities as Level II regional centers; however, they have special equipment for infants born at less than 34 weeks' gestation or weighing less than 1500 grams, and they serve a more complicated patient population.

**150.9(4) Medical personnel.**

- a. Level II regional neonatology centers have the same medical personnel as Level II regional centers.
- b. The medical director of the neonatal intensive care unit is a full-time, board-eligible or board-certified pediatrician with certification in neonatal/perinatal medicine. This physician maintains a consultative relationship with Level III physicians.
- c. Anesthesia providers on staff have special training or experience in obstetric and pediatric anesthesia.
- d. A pediatric cardiologist is active on staff.
- e. A neonatologist shall be on the premises when unstable critically ill infants are in the Level II regional neonatology center.

**150.9(5) Nursing personnel.** Level II regional neonatology centers have the same minimal requirements for nursing personnel as Level II regional centers. Additionally, registered nurses in the NICU of Level II regional neonatology centers must have specialty certification or advanced training and experience in the nursing management of high-risk neonates and their families.

**150.9(6) Outreach education.** Outreach education is provided to each hospital in the referral area at least once per year. This can be achieved by one or more of the following:

- a. Sponsoring an annual conference;
- b. Visiting Level I and Level II hospitals;
- c. Providing educational programs at the regional center for the staff members of the Level I and Level II hospitals;
- d. Sending written educational materials to the Level I and II hospitals.

**150.9(7) Allied health personnel and services.** Level II regional neonatology centers have the same allied health personnel and services available as Level II regional centers, with the addition of the following:

- a. Respiratory therapists, certified lab technicians/blood gas technicians, X-ray technologists, and ultrasound technicians with neonatal/perinatal experience available on a 24-hour basis.
- b. Social services, with social workers assigned specifically to the maternal and neonatal units.

**150.9(8) Infection control.** Infection control guidelines are the same as for Level II hospitals and Level II regional centers.

**150.9(9) Newborn safety.** Level II regional neonatology centers have at least the same requirements for newborn safety as Level II regional centers.

**150.9(10) Maternal-fetal transport.** Level II regional neonatology centers have the same requirements for maternal-fetal transport as Level II hospitals and Level II regional centers. In addition, Level II regional neonatology centers are expected to provide neonatal transportation services.

**150.9(11) *Perinatal care committee.*** Level II regional neonatology centers maintain a perinatal care committee with the same required meetings and membership as the Level II hospitals and Level II regional centers.

**150.9(12) *Quality improvement.*** Centers that routinely provide care to infants born at less than 34 weeks' gestation or weighing less than 1500 grams shall maintain a patient database of all NICU admissions that includes an accounting of patient mortality and morbidity for the benchmarking of results against other centers (national or statewide) and for the purpose of continuous review and quality improvement.

**641—150.10(135,77GA,ch1221) Level III centers.**

**150.10(1) *Definition and function.*** Level III centers provide the same care and services as Level II regional centers, plus they manage high-risk pregnancies and neonates, with the possible exception of a few very specialized complications. The Level III center is an extension of the Level II regional center and serves the same regional functions. The differentiating factor between them is primarily one of additional professional staff and more extensive physical facilities. There may be multiple Level III centers in the same city.

**150.10(2) *Physical facilities.*** Level III centers have the same physical facilities as Level II regional centers; however, they have more equipment and serve a more complicated patient population.

**150.10(3) *Medical personnel.***

*a.* The medical director of the maternal-fetal intensive care unit is a full-time, board-eligible or board-certified obstetrician with certification in maternal-fetal medicine.

*b.* The medical director of the neonatal intensive care unit is a full-time, board-eligible or board-certified pediatrician with certification in neonatal/perinatal medicine.

*c.* Anesthesia providers on staff have special training or experience in obstetric and pediatric anesthesia.

*d.* A pediatric surgeon is on staff.

*e.* A pediatric cardiologist is on staff.

*f.* These physicians must be immediately available to the Level III center and reside in the same metropolitan area as the hospital.

*g.* A neonatologist should be on the premises when unstable critically ill infants are in the Level III center. An obstetrician should be on the premises when unstable critically ill mothers are in the Level III center.

**150.10(4) *Nursing personnel.*** Level III centers have the same minimal requirements for nursing personnel as Level II regional centers. The nurse managers of the perinatal units in Level III centers have prior experience in maternal or pediatric nursing and have a minimum of a bachelor of science in nursing degree, or a bachelor's degree in a related field.

**150.10(5) *Outreach education.*** Level III centers have the same responsibilities for outreach education as Level II regional centers.

**150.10(6) *Allied health personnel and services.*** Level III centers have the same allied health personnel and services as Level II regional centers. Additionally, Level III centers have respiratory therapists, certified lab technicians/blood gas technicians, X-ray technologists and ultrasound technicians with neonatal/perinatal experience available on a 24-hour basis. Level III centers also have social work services with social workers assigned specifically to the maternal and neonatal units.

**150.10(7) *Infection control.*** Infection control guidelines are the same as for Level II regional centers.

**150.10(8) *Newborn safety.*** Level III centers have at least the same requirements for newborn safety as Level II regional centers.

**150.10(9) *Maternal-fetal transport.*** Level III centers have the same requirements for maternal-fetal transport as Level II regional centers. In addition, Level III centers are capable of providing ground and air transportation whose crews have demonstrated competencies in maternal/neonatal resuscitation. Important decisions to be made jointly will include the appropriateness of transport, the best mode of transportation, the need for additional personnel accompanying the transport, and the appropriate medical management to initiate prior to transport.

**150.10(10)** *Perinatal care committee.* Level III centers maintain a perinatal care committee with additional representation by surgical specialties.

**641—150.11(135,77GA,ch1221) Grant or denial of certificate of verification; and offenses and penalties.**

**150.11(1)** Upon receipt of the on-site survey results, the department shall within 30 days issue its decision to grant or deny the hospital a certificate of verification. The department may deny verification or may give a citation and warning, place on probation, suspend, or revoke existing verification if the department finds reason to believe the hospital's perinatal care program has not been or will not be operated in compliance with these rules. The denial, citation and warning, period of probation, suspension, or revocation shall be effected and may be appealed in accordance with the requirements of Iowa Code section 17A.12.

**150.11(2)** All complaints regarding the operation of a participating hospital's perinatal care program shall be reported to the department and to the department of inspections and appeals.

**150.11(3)** Complaints and the investigative process shall be treated as confidential to the extent they are protected by Iowa Code section 22.7.

**150.11(4)** Complaint investigations may result in the department's issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**150.11(5)** Notice of denial, citation and warning, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice to the hospital of denial, citation and warning, probation, suspension or revocation shall be served by certified mail, return receipt requested, or by personal service.

**150.11(6)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice to take action. The address is: Iowa Regionalized System of Perinatal Health Care, Iowa Department of Public Health, Division of Health Promotion and Chronic Disease Prevention, 321 East 12th Street, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**150.11(7)** Upon receipt of a request for hearing, the request shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information, which may be provided by the aggrieved party, shall also be provided to the department of inspections and appeals.

**150.11(8)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**150.11(9)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**150.11(10)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**150.11(11)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.

- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**150.11(12)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or by personal service.

**150.11(13)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**150.11(14)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Regionalized System of Perinatal Health Care, Iowa Department of Public Health, Division of Health Promotion and Chronic Disease Prevention, 321 East 12th Street, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**150.11(15)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**150.11(16)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the department of inspections and appeals and to the appropriate professional associations or news media.

**641—150.12(135,77GA,ch1221) Prohibited acts.** A hospital that imparts or conveys, or causes to be imparted or conveyed, that it is a participating hospital in Iowa's regionalized system of perinatal health care, or that uses any other term, such as a designated level of care, to indicate or imply that the hospital is a participating hospital in the regionalized system of perinatal health care without having obtained a certificate of verification from the department is subject to licensure disciplinary action by the department of inspections and appeals, as well as to the application by the director to the district court for a writ of injunction to restrain the use of the term or terms "Level I hospital," "Level II hospital," "Level II regional center," "Level II regional neonatology center," and "Level III center" in relation to the provision of perinatal health care services.

**641—150.13(135,77GA,ch1221) Construction of rules.** Nothing in these administrative rules shall be construed to restrict a hospital from providing any services for which it is duly authorized.

These rules are intended to implement 1998 Iowa Acts, chapter 1221, section 5, subsection 4 "a" (2)(c).

[Filed 1/21/99, Notice 11/18/98—published 2/10/99, effective 3/17/99]

[Filed 1/10/07, Notice 11/22/06—published 1/31/07, effective 3/7/07]

CHAPTER 151  
TOBACCO USE PREVENTION AND CONTROL  
COMMUNITY PARTNERSHIP INITIATIVE

**641—151.1(142A) Scope.** These rules apply to community partnerships established under Iowa Code chapter 142A as part of a comprehensive tobacco use prevention and control initiative to reduce tobacco use by youth and pregnant women, to promote compliance by minors and retailers with tobacco sales laws and ordinances, to enhance the capacity of youth to make healthy choices and to foster a social and legal climate in which tobacco use becomes undesirable and unacceptable.

**641—151.2(142A) Community partnership areas.** It is the goal of the commission on tobacco use prevention and control that the entire state be divided into multiple community partnership areas, so that all portions of the state are included in a community partnership area and no portion of the state is without the services of a community partnership. Toward this goal, the commission will encourage formation of community partnership areas that incorporate surrounding communities in a manner that does not isolate any geographic region of the state, and encourages optimal use of resources. In addition to the requirements of Iowa Code section 142A.8(1), a community partnership area:

**151.2(1)** Shall be composed of one or more counties, school districts, economic development enterprise zones, or community empowerment areas.

**151.2(2)** Shall follow existing boundaries of one or more counties, school districts, economic development enterprise zones, or community empowerment areas.

**151.2(3)** Shall serve a population of at least 4,000, including a minimum school-age population of 500.

**151.2(4)** Shall serve a minimum geographic area of one county.

**641—151.3(142A) Community partnerships.** A community partnership is a public agency or nonprofit organization which utilizes broad community involvement and represents a broad coalition of community groups, organizations, and interests. Community partnerships shall promote a wide range of activities that discourage tobacco use and support smoke-free environments. Some of these activities include developing coalitions with local organizations, conducting educational programs and encouraging policies that support tobacco use prevention and cessation.

**641—151.4(142A) Application requirements for community partnerships.** In order to qualify for funding through the tobacco use prevention and control program, a public agency or nonprofit organization seeking to be designated as a community partnership must apply to, and be approved by, the department of public health. Only one application per community partnership will be accepted. An application must provide the following information:

**151.4(1)** A description of the community partnership area to be served by the community partnership, including:

*a.* The geographic boundaries of the area;

*b.* Population, including both general population and school-age population, of the area;

**151.4(2)** A description of the applicant, including a description of the governing structure of the agency or organization, a table of organization, and the applicant's mission statement;

**151.4(3)** A description of the tobacco use prevention and control services currently provided by the applicant;

**151.4(4)** A description of the community outreach and educational programming services currently provided by the applicant;

**151.4(5)** A description of the number of years the applicant has provided tobacco use prevention and control services and the number of clients served annually by the applicant;

**151.4(6)** A description of the funds currently received by the applicant which are targeted to provide tobacco use prevention and control services, including the source of funds, the dollar amount, and the period of funding;

**151.4(7)** A list of the other agencies, organizations, and entities currently providing tobacco use prevention and control services in the proposed community partnership area and a description of the tobacco use prevention and control services currently provided by the other agencies, organizations, or entities;

**151.4(8)** A description of the collaborative efforts the applicant has undertaken with the agencies, organizations, and entities described in subrule 151.4(6) and an action plan describing anticipated collaborative efforts during the funding period;

**151.4(9)** An assessment of the needs of the community partnership area which incorporates, but is not limited to, the following information for each county in the community partnership area:

*a.* Tobacco-related information from the community health needs assessment and health improvement plan (CHNA and HIP, Healthy Iowans);

*b.* Tobacco-related information from the most recent Iowa youth survey;

*c.* Relevant data regarding tobacco use;

*d.* Relevant Synar data;

*e.* Information or data received from other service providers, organizations, or law enforcement agencies;

**151.4(10)** A description of how the applicant intends to implement the initiative's goals described in Iowa Code section 142A.6(2) in light of the community needs identified in subrule 151.4(11), including a proposed budget and a description of how performance measures shall be developed and utilized;

**151.4(11)** Identification of the source and amount of local matching funds, services, or support;

**151.4(12)** A description of how youth (aged 5 to 24 years) will be involved in the community partnership.

[ARC 1225C, IAB 12/11/13, effective 1/15/14]

**641—151.5(142A) Performance indicators.** Periodic reports shall be submitted to the department by the community partnerships. These required reports shall be based on the degree to which the partnerships have achieved goals set out in the application and shall include information such as how many events/meetings were held and how many participants were in attendance.

**641—151.6(142A) Application deadline.** An applicant seeking to be approved as a community partnership for distribution of funds during the current fiscal year may apply once the RFA/RFP has been posted.

**151.6(1)** Rescinded IAB 12/11/13, effective 1/15/14.

**151.6(2)** Any change in the geographic boundaries of a community partnership area after a community partnership has been approved must be submitted to the tobacco use prevention and control division as a request to amend the application. The request shall describe the boundary change, explain the reason for the boundary change and describe any impact the boundary change will have on the information provided in response to rule 641—151.4(142A).

[ARC 1225C, IAB 12/11/13, effective 1/15/14]

**641—151.7(142A) Distribution of funding.**

**151.7(1)** Applications submitted in accordance with these rules will be evaluated by the administrator of the division of tobacco use prevention and control, or the administrator's designee, to determine whether the application meets the requirements for funding as designated in these rules. The administrator or designee may request additional information from any applicant regarding the content of the application and may condition funding based on an applicant's submission of additional information or based on an applicant's willingness to change any term of the application, including geographic boundaries of the community partnership area.

**151.7(2)** The department in consultation with the commission shall allocate funding to the community partnerships from the total moneys appropriated to the tobacco use prevention and control initiative. If sufficient funds are available, the department shall distribute the funding allocated to the community partnerships in accordance with this rule.

**151.7(3)** The department shall fund one community partnership per community partnership area. Funds shall be distributed equitably among the state's community partnership areas based on general population, school-age population, and designation of county or counties which comprise the community partnership area as a rural county or an urban county as defined by the Office of Management and Budget. Available funds will be distributed under the following formulas, using United States Census Bureau annual population estimates:

Rural counties:

\$.84 per school-age youth plus an additional \$.84 per non-school-age county resident

Urban counties:

\$.52 per school-age youth plus an additional \$.52 per non-school-age county resident; provided that application of the funding formula results in distribution to a community partnership of a minimum amount per county included in each community partnership area as determined annually by the department in consultation with the commission.

If application of the funding formula would result in distribution of less than the minimum established amount, the department shall distribute to such community partnership no less than the minimum established amount per county included in the community partnership area.

As sufficient funds become available, the department in consultation with the commission may also distribute to community partnerships funds for special or pilot projects within a community partnership area.

**151.7(4)** Funding received by a community partnership shall be matched on a one-to-four basis. The match may include in-kind services, office support, or other tangible support or offset of costs.

Any offers to assist the applicant in reaching the match must be disclosed to the department in writing. In regard to any cash offers that are declined, the applicant must disclose reasons and rationale as to why these offers were declined.

**151.7(5)** Prior to receiving funding, a community partnership shall be required to execute a contract with the department.

**151.7(6)** Funding may be denied on grounds including, but not limited to:

- a. Applications from more than one entity have been received covering the same, or portions of the same, geographic area and another application more closely satisfies application criteria.
- b. The application is incomplete, untimely, or includes misleading or inaccurate information.
- c. Program funds are no longer available.
- d. Local matching funds, services, or support is not available.
- e. The applicant refuses to execute a contract with the department.
- f. The applicant fails to comply with the statute or administrative rules governing this program.

[ARC 1225C, IAB 12/11/13, effective 1/15/14]

**641—151.8(142A) Gifts.** The commission shall solicit and accept gifts of money or services or property from governmental or private sources for use in support of the comprehensive tobacco use prevention and control initiative.

**151.8(1)** The commission shall not accept gifts of money or services or property from a manufacturer of tobacco products.

a. A gift means a rendering of anything of value in return for which legal consideration of equal or greater value is not given and received. A gift does not include funds deposited by any manufacturer of tobacco products into the tobacco settlement fund.

b. A manufacturer of tobacco products means every person who ships cigarettes or other tobacco products as defined in Iowa Code section 453A.1 into this state from outside the state.

**151.8(2)** The commission shall not accept a gift of money or services or property from a corporation or other private legal entity which is controlled by a manufacturer of tobacco products. A manufacturer of tobacco products controls a corporation or other private legal entity when the manufacturer possesses, directly or indirectly, the power to direct or cause the direction of the management and policies of a

corporation or other private legal entity, whether through the ownership of voting rights, by contract, or otherwise.

**151.8(3)** The commission may not accept a gift of money or services or property from a corporation or other private legal entity in which a manufacturer of tobacco products has a noncontrolling interest. A manufacturer of tobacco products has a noncontrolling interest in a corporation or other private legal entity when the manufacturer has a commercial contract for goods or nonmanagement services, or holds the power to vote, or holds proxies representing less than 10 percent of the voting rights of any other person.

**151.8(4)** The commission, in its discretion, may require any corporation or other private legal entity from which it solicits, or which offers to it, a gift of money or services or property for use in support of the comprehensive tobacco use prevention and control initiative to submit a statement describing the relationship, if any, between the corporation or other private legal entity and a manufacturer of tobacco products.

**151.8(5)** If the commission accepts a gift from a corporation or other private legal entity under the circumstances described in subrule 151.8(3), the commission may require the gift to be contingent on a waiver by the manufacturer of tobacco products of any right to advertise with regard to, claim responsibility for, or otherwise publicize the gift.

These rules are intended to implement Iowa Code chapter 142A.

CHAPTER 152  
TOBACCO USE PREVENTION AND CONTROL FUNDING PROCESS

**641—152.1(78GA, HF2565) Scope and purpose.** In addition to funding community partnerships in accordance with 641—Chapter 151, it is the goal of the commission on tobacco use prevention and control to provide funding for other programs for the purpose of achieving the goals of the initiative as defined in 2000 Iowa Acts, House File 2565. Toward this end, the commission intends to provide funding on a competitive basis for school programs; a media, marketing, and communications program; and a cessation program for pregnant women.

**641—152.2(78GA, HF2565) Funding.**

**152.2(1)** In addition to other requests for proposals necessary to implement the initiative, the commission shall issue a request for proposal (RFP) for the youth program, the media, marketing and communications program, and the cessation program for pregnant women. The RFP for each program shall include the amount of funding available, the project period, the services to be delivered, performance measures, application due date and other relevant time frames, a description of the review process, the review criteria to be used, expected contract terms, and a reference to the appeal process in the event an application is denied.

**152.2(2)** Applications submitted in accordance with these rules shall be evaluated in accordance with the review process described in the RFP. The administrator of the division of tobacco use prevention and control shall make the final determination regarding funding and shall notify all applicants regarding funding decisions by restricted certified mail, return receipt requested.

**641—152.3(78GA, HF2565) Appeals.**

**152.3(1)** Any request for an appeal concerning denial or partial denial of an application for funding shall be submitted by an aggrieved party in writing to the department by certified mail, return receipt requested, within ten days of receipt of the notice of denial. The address is Department of Public Health, Tobacco Use Prevention and Control Division, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319. The request for appeal must state the party's complete legal name, street address, telephone number, fax number, and the specific grounds upon which the party challenges the board's denial, including legal authority, if any. The request for appeal commences a contested case.

**152.3(2)** Upon receipt of an appeal, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by the department regarding transmission of contested cases.

**152.3(3)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 4.

**152.3(4)** When the hearing officer makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceeding ten days after it is received by the aggrieved party unless an appeal to the commission is taken as provided in subrule 152.3(5).

**152.3(5)** Any appeal to the commission for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the commission by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for appeal shall state the reasons for appeal.

**152.3(6)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the commission.

**152.3(7)** Review of a proposed decision shall be based on the record and limited to the issues raised in the hearing. The issues shall be specified in the notice of appeal of a proposed decision. The party requesting the review shall be responsible for transcribing any tape of the oral proceedings or arranging for a transcript of oral proceedings reported by a certified shorthand reporter.

**152.3(8)** Each party shall have the opportunity to file exceptions and present briefs. The administrator may set deadlines for the submission of exceptions or briefs. If oral argument will be held, the administrator shall notify all parties of the date, time and location at least ten days in advance.

**152.3(9)** The commission shall not receive any additional evidence, unless it grants an application to present additional evidence. Any such application must be filed by a party no less than five business days in advance of oral argument. Additional evidence shall be allowed only upon a showing that it is material to the outcome and that there were good reasons for failure to present it at hearing. If an application to present additional evidence is granted, the commission shall order the conditions under which it shall be presented.

**152.3(10)** The commission's final decision shall be in writing and it may incorporate all or part of the proposed decision.

**152.3(11)** The decision and order of the commission becomes the department's final agency action pursuant to Iowa Code chapter 17A upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

These rules are intended to implement Iowa Code chapter 17A and 2000 Iowa Acts, House File 2565.

[Filed emergency 10/13/00—published 11/1/00, effective 10/13/00]

CHAPTER 153  
SMOKEFREE AIR

**641—153.1(82GA, HF2212) Purpose and scope.** The purpose of these rules is to implement Iowa's Smokefree Air Act, enacted to reduce the level of exposure by the general public and employees to environmental tobacco smoke in order to improve the public health of Iowans. These rules apply to public places, places of employment, and certain outdoor areas in the state.

**641—153.2(82GA, HF2212) Definitions.** For the purposes of this chapter, the following definitions shall apply:

*"Ashtray"* means any receptacle, including a can, bottle, bowl, tray, or other vessel that is used for extinguishing or disposing of any lighted cigar, cigarette, pipe, or other tobacco product in any manner or form including ash, cigarette butts or filters, or cigar stubs. However, "ashtray" shall not include any receptacle located outdoors and on the perimeter of any public place, the perimeter of the grounds of any public building, the perimeter of school grounds, or the perimeter of any other outdoor space subject to the prohibition in 2008 Iowa Acts, House File 2212, section 3, and rule 641—153.3(82GA, HF2212).

*"Bar"* means an establishment where one may purchase alcoholic beverages, as defined in Iowa Code section 123.3, for consumption on the premises and in which the serving of food is only incidental to the consumption of those beverages.

*"Child care facility"* means child care facility as defined by the department of human services pursuant to Iowa Code section 237A.1.

*"Child care home"* means child care home as defined by the department of human services pursuant to Iowa Code section 237A.1.

*"Department"* means the Iowa department of public health.

*"Entrance"* means any doorway to an enclosed area used by the public or employees for ingress to any public place or place of employment, but does not include any doorway designated for use as an exit in an emergency only. "Entrance" also includes the commonly understood points of entry to an outdoor area, subject to the prohibitions of this chapter, such as a driveway, sidewalk, pathway, access road, gate, or dedicated point of entry, but not including a street, road, highway, or sidewalk in the public right-of-way.

*"Gaming floor"* means gaming floor as defined by the state racing and gaming commission pursuant to Iowa Code section 99F.1.

*"Grounds of any public building"* means an outdoor area of a public building that is used in connection with the building, including but not limited to a sidewalk or driveway immediately adjacent to the building, but not including a sidewalk in the public right-of-way; a sitting or standing area immediately adjacent to the building; a patio; a deck; a curtilage or courtyard; a swimming or wading pool; a beach; or any other outdoor area as designated by the person having custody or control of the public building. A person having custody or control of a public building may exclude from the designated grounds of any public building the following: a parking lot, the course of play at a golf course, a hiking trail, locations of an individual campsite or campfire, or a lake, river, or other body of water. Nothing in this definition prohibits any owner, operator, manager, or other person having custody or control of an area that is exempt from the prohibitions of 2008 Iowa Acts, House File 2212, section 3, and rule 641—153.3(82GA, HF2212) from declaring the entire area or property a nonsmoking place.

*"Hotel and motel"* means any building or structure equipped, used, advertised as, or held out to the public to be an inn, hotel, motel, motor inn, or place where sleeping accommodations are furnished for hire to transient guests.

*"Incidental to the sale of tobacco products"* means that the gross revenue of a retail tobacco store derived from the sale of products other than tobacco products is not more than 20 percent of the retail tobacco store's total gross revenue.

*"Infiltrate"* means to permeate an area where smoking is prohibited by passing through a wall, ceiling, floor, window, door, or ventilation system to the extent that an individual can smell secondhand smoke.

*“Public and private educational facility”* means a public school and nonpublic school as defined in Iowa Code section 280.2, a community college as defined in Iowa Code section 260C.2, an accredited private institution as defined in Iowa Code section 261.9, and an institution governed by the board of regents pursuant to Iowa Code section 262.7.

*“Public building”* means an enclosed area owned, leased, or operated by or under the control of the state government or its political subdivisions.

*“Restaurant”* means eating establishments, including private and public school cafeterias, which offer food to the public, guests, or employees, including the kitchen and catering facilities in which food is prepared on the premises for serving elsewhere, and including a bar area within a restaurant.

*“Retail tobacco store”* means a retail store utilized primarily for the sale of tobacco products and accessories and in which the sale of other products is incidental to the sale of tobacco products.

*“Seating areas of outdoor sports arenas, stadiums, amphitheaters, or other entertainment venues”* means areas designated by the owner, operator, manager, or other person having custody or control of the area to be used primarily to witness entertainment events and shall include, but not be limited to, all chairs, seats, and bleachers whether permanent or temporary; standing room only; general admission or festival-style seating; and any other areas where individuals congregate to witness entertainment events.

*“Serving of food incidental to the consumption of alcoholic beverages”* means food preparation that is limited to the service of ice, prepackaged snack foods, popcorn, peanuts, and the reheating of commercially prepared foods that do not require assembly, such as frozen pizza, prepackaged sandwiches, or other prepackaged, ready-to-serve products.

*“Smoking cessation program”* means a course of treatment that is capable of clinical review for evidence-based outcomes that verify that individuals in the program stop smoking and that has been approved for coverage by a private or managed health care plan, Medicaid, Medicare, the Veterans Health Administration, or the United States military.

#### **641—153.3(82GA, HF2212) Prohibition of smoking.**

**153.3(1)** *Public places, places of employment.* Smoking is prohibited and a person shall not smoke in either of the following areas:

- a. Public places, as defined in 2008 Iowa Acts, House File 2212.
- b. All enclosed areas within places of employment including but not limited to work areas, private offices, conference and meeting rooms, classrooms, auditoriums, employee lounges and cafeterias, hallways, medical facilities, restrooms, elevators, stairways and stairwells, and vehicles owned, leased, or provided by the employer unless otherwise provided under these rules and 2008 Iowa Acts, House File 2212.

**153.3(2)** *Outdoor areas.* Smoking is prohibited and a person shall not smoke in or on any of the following outdoor areas:

- a. The seating areas of outdoor sports arenas, stadiums, amphitheaters and other entertainment venues where members of the general public assemble to witness entertainment events.
- b. Outdoor seating or serving areas of restaurants.
- c. Public transit stations, platforms, and shelters under the authority of the state or its political subdivisions.
- d. School grounds, including parking lots, athletic fields, playgrounds, tennis courts, and any other outdoor area under the control of a public or private educational facility, including inside any vehicle located on such school grounds.
- e. The grounds of any public buildings owned, leased, or operated by or under the control of the state government or its political subdivisions, including the grounds of a private residence of any state employee any portion of which is open to the public with the following exceptions:

(1) This paragraph shall not apply to the Iowa state fairgrounds, or fairgrounds as defined in Iowa Code section 174.1.

(2) This paragraph shall not apply to institutions administered by the department of corrections, except that smoking on the grounds shall be limited to designated smoking areas.

(3) This paragraph shall not apply to facilities of the Iowa National Guard as defined in Iowa Code section 29A.1, except that smoking on the grounds shall be limited to designated smoking areas.

**641—153.4(82GA, HF2212) Areas where smoking not regulated.** Notwithstanding any provision of these rules and 2008 Iowa Acts, House File 2212, to the contrary, the following areas are exempt from the prohibitions of 2008 Iowa Acts, House File 2212, section 3:

**153.4(1)** Private residences, unless used as a child care facility, child care home, or a health care provider location.

**153.4(2)** Hotel and motel rooms that are rented to guests and are designated as smoking rooms; provided that not more than 20 percent of the rooms of a hotel or motel rented to guests are designated as smoking rooms, all smoking rooms on the same floor are contiguous, and smoke from smoking rooms does not infiltrate into areas in which smoking is otherwise prohibited under these rules. The status of smoking and nonsmoking rooms shall not be changed, except to provide additional nonsmoking rooms.

**153.4(3)** Retail tobacco stores, provided that smoke from these locations does not infiltrate into areas in which smoking is otherwise prohibited under these rules.

**153.4(4)** Private and semiprivate rooms in long-term care facilities, occupied by one or more individuals, all of whom are smokers and have requested in writing to be placed in a room where smoking is permitted, provided that smoke from these locations does not infiltrate into areas in which smoking is otherwise prohibited under these rules and 2008 Iowa Acts, House File 2212.

**153.4(5)** Private clubs that have no employees, except when being used for a function to which the general public is invited, provided that smoke from these locations does not infiltrate into areas in which smoking is otherwise prohibited under these rules and 2008 Iowa Acts, House File 2212. This exemption shall not apply to any entity that is established for the purpose of avoiding compliance with these rules and 2008 Iowa Acts, House File 2212.

**153.4(6)** Outdoor areas that are places of employment except those areas where smoking is prohibited pursuant to 2008 Iowa Acts, House File 2212, section 3, subsection 2.

**153.4(7)** Limousines under private hire; vehicles owned, leased, or provided by a private employer that are for the sole use of the driver and are not used by more than one person in the course of employment either as a driver or passenger; privately owned vehicles not otherwise defined as a place of employment or public place; and cabs of motor trucks or truck tractors if no nonsmoking employees are present.

**153.4(8)** An enclosed area within a place of employment or public place that provides a smoking cessation program or a medical or scientific research or therapy program, if smoking is an integral part of the program.

**153.4(9)** Farm tractors, farm trucks, and implements of husbandry when being used for their intended purposes.

**153.4(10)** Only the gaming floor of premises licensed pursuant to Iowa Code chapter 99F exclusive of any bar or restaurant located within the gaming floor which is an enclosed area and subject to the prohibitions of 2008 Iowa Acts, House File 2212, section 3.

**153.4(11)** The Iowa veterans home.

**641—153.5(82GA, HF2212) Duties of employers, owners, operators, managers, and persons having custody or control of a public place, place of employment, area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5, or outdoor areas where smoking is prohibited.**

**153.5(1)** The employer, owner, operator, manager, or person having custody or control of a place where smoking is prohibited under 2008 Iowa Acts, House File 2212, shall:

*a.* Not permit smoking in a public place, place of employment, outdoor area where smoking is prohibited, or an area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5.

*b.* Inform all current employees and all prospective employees upon application for employment of the prohibitions of 2008 Iowa Acts, House File 2212.

*c.* Not retaliate against any employee, applicant for employment, or customer that exercises any rights under 2008 Iowa Acts, House File 2212, registers a complaint, or attempts to prosecute a violation of 2008 Iowa Acts, House File 2212.

*d.* Post signs in and at every entrance to the public place, place of employment, area declared nonsmoking, and outdoor area where smoking is prohibited that clearly and conspicuously inform persons that they are entering a no smoking facility or area.

(1) The signs shall be clear and conspicuous in or at the entrance where posted.

(2) The signs shall be at least 24 square inches in size (for example, 4 inches by 6 inches) and shall be in legible font type.

(3) The signs shall contain the words “No Smoking” or the international “no smoking” symbol; the telephone number for reporting complaints, 1-888-944-2247; and the department of public health Web site, [www.IowaSmokefreeAir.gov](http://www.IowaSmokefreeAir.gov).

*e.* Place no smoking signs in every vehicle that constitutes a public place, place of employment, or area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5.

(1) Such signs shall be clear and conspicuous from the exterior of the vehicle.

(2) The signs shall be at least 9 square inches (for example, 3 inches by 3 inches) and shall be in legible font type.

(3) The signs shall contain the words “No Smoking” or the international “no smoking” symbol; the telephone number for reporting complaints, 1-888-944-2247; and the department of public health Web site, [www.IowaSmokefreeAir.gov](http://www.IowaSmokefreeAir.gov).

(4) Nothing in this rule requires the placement of a sign in any vehicle that the director of the department of administrative services or the director of transportation orders to receive a regular registration plate pursuant to Iowa Code section 321.19.

*f.* Remove all ashtrays from areas where smoking is prohibited.

**153.5(2)** The owner or operator of a building or facility that contains more than one public place, place of employment, or area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5, which is controlled by other employers, owners, or operators shall comply with the provisions of subrule 153.5(1) for the area of the building or facility under the owner's or operator's control.

**153.5(3)** An employer, owner, or operator of a public place, place of employment or area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5, that is within a public place that is owned or operated by another person shall comply with the provisions of subrule 153.5(1) for the area under the control of the employer, owner, or operator within that public place.

**153.5(4)** An employer, owner, operator, manager, or person having custody or control of a place where smoking is prohibited under 2008 Iowa Acts, House File 2212, shall inform any individual smoking in a place where smoking is prohibited that the individual is violating the smokefree air Act and shall request that the individual stop smoking immediately.

*a.* If the individual refuses to stop smoking, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may discontinue service to that individual.

*b.* If the individual refuses to stop smoking, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may request that the individual leave the area where smoking is prohibited.

*c.* If the individual refuses to leave the area where smoking is prohibited, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may notify the state or local law enforcement agency with jurisdiction over the area where smoking is prohibited.

**641—153.6(82GA, HF2212) Duties of other state agencies and political subdivisions.** A state agency or political subdivision which inspects public places shall assess compliance with the requirements of these rules and 2008 Iowa Acts, House File 2212, during any inspection process and shall report any violations of 2008 Iowa Acts, House File 2212, to the department.

**641—153.7(82GA, HF2212) Leases.** Any lease entered into by the state or its political subdivisions on or after July 1, 2008, shall require that all areas where smoking is prohibited in 2008 Iowa Acts, House File 2212, section 3, comply with the provisions of 2008 Iowa Acts, House File 2212.

**641—153.8(82GA, HF2212) Complaints and enforcement.**

**153.8(1) Duties of department.** The department shall maintain a system for receiving and investigating complaints against persons who own, operate, manage, or otherwise have custody or control of a place where smoking is prohibited and who fail to comply with the provisions of 2008 Iowa Acts, House File 2212.

*a.* Pursuant to 2008 Iowa Acts, House File 2212, section 9, subsection 7, the department may designate one or more public agencies through a 28E agreement or other written contract to assist with the enforcement of 2008 Iowa Acts, House File 2212.

*b.* The department may refer complaints regarding a violation of 2008 Iowa Acts, House File 2212, to the law enforcement authorities of the state or of the political subdivision of the state in which the alleged violation occurred.

**153.8(2) Enforcement against a person who smokes in an area where smoking is prohibited.** Pursuant to 2008 Iowa Acts, House File 2212, section 9, subsection 7, the department designates the law enforcement authorities of the state and of each political subdivision of the state to assist with the enforcement of 2008 Iowa Acts, House File 2212. A peace officer may issue a citation in lieu of arrest pursuant to Iowa Code chapter 805 against a person who smokes in an area where smoking is prohibited pursuant to 2008 Iowa Acts, House File 2212, and such person shall pay a civil penalty pursuant to Iowa Code section 805.8C(3)“a” for each violation.

**153.8(3) Enforcement against a person who owns, operates, manages, or otherwise has control of a place where smoking is prohibited.** Pursuant to 2008 Iowa Acts, House File 2212, section 9, subsection 7, the department designates the law enforcement authorities of the state and of each political subdivision of the state to assist with the enforcement of 2008 Iowa Acts, House File 2212. The department or its designee may initiate a civil action against an owner, operator, manager, or person who otherwise has custody or control of a place where smoking is prohibited pursuant to 2008 Iowa Acts, House File 2212, and such person shall pay the applicable civil penalty pursuant to 2008 Iowa Acts, House File 2212, section 9.

**153.8(4) Manner of filing a complaint.** Any person may register a complaint with the department by calling the toll-free number, 1-888-944-2247, or registering a complaint on the department’s Web site, [www.IowaSmokefreeAir.gov](http://www.IowaSmokefreeAir.gov), or downloading a complaint form from the department’s Web site and mailing the complaint form to the department at Department of Public Health, Division of Tobacco Use Prevention and Control, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319.

**153.8(5) Contents of the complaint.** A complaint filed with the department shall include:

*a.* The name or location of the public place, place of employment, area declared a nonsmoking place pursuant to 2008 Iowa Acts, House File 2212, section 5, or outdoor area where smoking is prohibited which is the subject of the complaint;

*b.* A description of the occurrence that prompted the complaint; and

*c.* Any other information relevant to the occurrence.

**153.8(6) Review of complaint by department.** Upon receipt of a complaint, the department or its designee may contact the individual making the complaint to confirm the details of the complaint and obtain any additional information.

**153.8(7) Information from inspections.** Information received by the department pursuant to rule 641—153.6(82GA, HF2212) of one or more violations of 2008 Iowa Acts, House File 2212, as a result of an inspection of a public place by the state or political subdivision of the state shall be considered a credible complaint under this rule.

**153.8(8) Notice of potential violation.** If the department determines that a complaint against a public place, place of employment, area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5, or outdoor areas where smoking is prohibited is credible, the department shall:

*a.* For the first complaint.

(1) Issue a written notice of potential violation to the owner, operator or person having custody or control including the details of the complaint.

(2) The notice shall include educational materials about how to comply with 2008 Iowa Acts, House File 2212, and information on whom to contact for further information and assistance for compliance.

*b.* For the second complaint in one year.

(1) Issue a second notice of potential violation to the owner, operator, or person having custody or control.

(2) In addition, the department may authorize one or more public agencies to conduct a compliance check of the location.

(3) In addition, the department may pursue the civil penalties provided for in 2008 Iowa Acts, House File 2212, section 9, subsection 2; may refer the complaint to the appropriate authority for enforcement of the civil penalties provided for in 2008 Iowa Acts, House File 2212, section 9, subsection 2; or may pursue any other remedy authorized by 2008 Iowa Acts, House File 2212.

*c.* For the third and subsequent complaints of a potential violation within one year.

(1) Issue a subsequent notice of potential violation to the owner, operator, or person having custody or control.

(2) In addition, the department may authorize one or more public agencies to conduct a compliance check of the location.

(3) In addition, the department may pursue the civil penalties provided for in 2008 Iowa Acts, House File 2212, section 9, subsection 2; may refer the complaint to the appropriate authority for enforcement of the civil penalties provided for in 2008 Iowa Acts, House File 2212, section 9, subsection 2; or may pursue any other remedy authorized by 2008 Iowa Acts, House File 2212.

**641—153.9(82GA, HF2212) Limitation of rules.** Nothing in these rules is intended to limit any other state administrative rule or federal regulation that prohibits smoking.

These rules are intended to implement 2008 Iowa Acts, House File 2212.

[Filed emergency 6/30/08—published 7/30/08, effective 7/1/08]

CHAPTER 154  
MEDICAL CANNABIDIOL ACT REGISTRATION CARD PROGRAM

**641—154.1(85GA,SF2360) Definitions.** For the purposes of these rules, the following definitions shall apply:

“*Cannabidiol*” means a nonpsychoactive cannabinoid found in the plant *Cannabis sativa L.* or *Cannabis indica* or any other preparation thereof that is essentially free from plant material, and has a tetrahydrocannabinol level of no more than 3 percent.

“*Date of expiration*” means one year from the date of issuance of the cannabidiol registration card by the department of transportation.

“*Date of issuance*” means the date of issuance of the cannabidiol registration card by the department of transportation.

“*Department*” means the Iowa department of public health.

“*Department of transportation*” means the Iowa department of transportation.

“*Intractable epilepsy*” means an epileptic seizure disorder for which standard medical treatment does not prevent or significantly ameliorate recurring, uncontrolled seizures or for which standard medical treatment results in harmful side effects.

“*Neurologist*” means an allopathic or osteopathic physician board-certified in neurology in good standing and licensed under Iowa Code chapter 148.

“*Patient*” means a person who is a permanent resident of the state of Iowa who suffers from intractable epilepsy and has received a recommendation from a neurologist for the medical use of cannabidiol pursuant to 2014 Iowa Acts, Senate File 2360.

“*Permanent resident*” means a natural person who physically resides in Iowa as the person’s principal and primary residence and who establishes evidence of such residency by providing the department with one of the following:

1. A valid Iowa driver’s license,
2. A valid Iowa nonoperator’s identification card,
3. A valid Iowa voter registration card,
4. A current Iowa vehicle registration certificate,
5. A utility bill,
6. A statement from a financial institution,
7. A residential lease agreement,
8. A check or pay stub from an employer,
9. A child’s school or child care enrollment documents,
10. Valid documentation establishing a filing for homestead or military tax exemption on property located in Iowa, or
11. Other valid documentation as deemed acceptable by the department to establish residency.

“*Primary caregiver*” means a person, at least 18 years of age, who has been designated by a patient’s neurologist or a person having custody of a patient, as being necessary to take responsibility for managing the well-being of the patient with respect to the medical use of cannabidiol pursuant to the provisions of 2014 Iowa Acts, Senate File 2360.

“*State*” means a state of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.  
[ARC 1640C, IAB 10/1/14, effective 1/30/15]

**641—154.2(85GA,SF2360) Neurologist recommendation—medical use of cannabidiol.**

**154.2(1)** A neurologist who has examined and treated a patient suffering from intractable epilepsy may provide, but has no duty to provide, a written recommendation for the patient’s medical use of cannabidiol to treat or alleviate symptoms of intractable epilepsy if no other satisfactory treatment options exist for the patient and all of the following conditions apply:

- a. The patient is a permanent resident of Iowa.

*b.* A neurologist has treated the patient for intractable epilepsy for at least six months. For purposes of this treatment period, and notwithstanding 2014 Iowa Acts, Senate File 2360, section 3, subsection 4, treatment provided by a neurologist may include treatment by a neurologist licensed in another state and in good standing.

*c.* The neurologist has tried and documented alternative treatment options that have not alleviated the patient's symptoms.

*d.* The neurologist determines the risks of recommending the medical use of cannabidiol are reasonable in light of the potential benefit for the patient and has documented a discussion of the risks and benefits with the patient or the patient's parent or legal guardian.

*e.* The neurologist maintains a patient treatment plan. The neurologist shall have the sole, exclusive authority to recommend the use and amount of cannabidiol, if any, in the treatment plan, and shall recommend in the treatment plan only the oral or transdermal administration of cannabidiol.

*f.* The neurologist shall be available to provide follow-up care and treatment to the patient, including but not limited to patient examinations; however, this rule shall not restrict the authority of a neurologist to terminate the physician-patient relationship, provided that such termination is effectuated in accordance with rule 653—13.7(147,148,272C).

**154.2(2)** The neurologist is required to use the written recommendation section of the application form provided for this purpose on the department's Web site ([www.idph.state.ia.us](http://www.idph.state.ia.us)).

**154.2(3)** The neurologist, or authorized persons in the neurologist's office or clinic, is required to complete the written recommendation section of the application form and send the application to the department's address as provided on the application form.

**154.2(4)** A neurologist who provides a written recommendation pursuant to this chapter shall maintain a record-keeping system for all patients for whom the neurologist has recommended the medical use of cannabidiol to treat or alleviate symptoms of intractable epilepsy.

**154.2(5)** A neurologist who provides a written recommendation pursuant to this chapter is required to participate in any survey that will be conducted by the department on the implementation of the medical cannabidiol Act. Any such survey will adhere to the federal Health Insurance Portability and Accountability Act of 1996.

[ARC 1640C, IAB 10/1/14, effective 1/30/15]

#### **641—154.3(85GA,SF2360) Cannabidiol registration card—application and issuance to patient.**

**154.3(1)** The department may approve the issuance of a cannabidiol registration card by the department of transportation to a patient who:

*a.* Is at least 18 years of age.

*b.* Is a permanent resident of Iowa.

*c.* Requests the patient's neurologist to submit to the department, pursuant to rule 641—154.2(85GA,SF2360), a written recommendation signed by the neurologist that the patient may benefit from the medical use of cannabidiol.

*d.* Is listed as the patient on the application form submitted to the department, on a form created by the department in consultation with the department of transportation and available at the department's Web site ([www.idph.state.ia.us](http://www.idph.state.ia.us)) that contains all of the following:

(1) The patient's full legal name, Iowa residence address, mailing address (if different from the patient's residence address), telephone number, date of birth, and sex designation. The patient shall not provide as a mailing address an address for which a forwarding order is in place.

(2) A copy of the patient's valid photo identification. Acceptable photo identification includes:

1. A valid Iowa driver's license,

2. A valid Iowa nonoperator's identification card, or

3. An alternative form of valid photo identification. A patient who possesses or is eligible for an Iowa driver's license or an Iowa nonoperator's identification card shall present such document as valid photo identification. A patient who is ineligible to obtain an Iowa driver's license or an Iowa nonoperator's identification card may apply for an exemption and request submission of an alternative form of valid photo identification. A patient who applies for an exemption is subject to verification of the

patient's identity through a process established by the department and the department of transportation to ensure the genuineness, regularity, and legality of the alternative form of valid photo identification.

(3) Full name, address, and telephone number of the patient's neurologist.

(4) Full legal name, residence address, date of birth, and telephone number of each primary caregiver of the patient, if any.

(5) An attestation as to the truthfulness and accuracy of the information provided by the patient on the application.

**154.3(2)** Upon the completion, verification, and approval of the patient's application, the department shall notify the department of transportation that the patient may be issued a cannabidiol registration card.

**154.3(3)** A cannabidiol registration card issued to a patient by the department of transportation shall contain all of the following:

*a.* The patient's full legal name, Iowa residence address, date of birth, and sex designation, as shown on the patient's Iowa driver's license, nonoperator's identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.3(1) "d"(2)"3." If the patient's name, Iowa residence address, date of birth, or sex designation has changed since the issuance of the patient's Iowa driver's license, nonoperator's identification card, or alternative form of valid photo identification, the patient shall first update the patient's Iowa driver's license or nonoperator's identification card to reflect the current information, according to the procedures set forth in 761—subrule 605.11(2), 761—subrule 605.25(4), or rule 761—630.3(321), or shall update the alternative form of valid photo identification in accordance with the process of the issuing agency.

*b.* The date of issuance and the date of expiration.

*c.* A distinguishing registration number that is not the patient's social security number.

*d.* The patient's signature. The signature shall be without qualification and shall contain only the patient's usual signature without any other titles, characters, or symbols. The patient's signature certifies, under penalty of perjury and pursuant to the laws of the state of Iowa, that the statements made and information provided in the patient's application for a cannabidiol registration card are true and correct. The patient's signature shall be captured electronically.

*e.* A color photograph of the patient.

*f.* A statement that the cannabidiol registration card is not valid for identification purposes.

**154.3(4)** A patient in possession of a valid cannabidiol registration card issued pursuant to this rule shall not possess a quantity of cannabidiol oil in excess of 32 ounces.

**154.3(5)** An authorization to use cannabidiol or marijuana for medicinal purposes issued by another state, territory, or jurisdiction does not satisfy the requirements of 2014 Iowa Acts, Senate File 2360, or these rules for the issuance of a cannabidiol registration card.

[ARC 1640C, IAB 10/1/14, effective 1/30/15]

#### **641—154.4(85GA,SF2360) Cannabidiol registration card—application and issuance to primary caregiver.**

**154.4(1)** For a patient in a primary caregiver's care, the department may approve the issuance of a cannabidiol registration card by the department of transportation to a primary caregiver who:

*a.* Is at least 18 years of age.

*b.* Requests the patient's neurologist to submit to the department, pursuant to rule 641—154.2(85GA,SF2360), a written recommendation signed by the neurologist that the patient may benefit from the medical use of cannabidiol pursuant to 2014 Iowa Acts, Senate File 2360, section 4.

*c.* Is listed as a primary caregiver on the application form submitted to the department, on a form created by the department in consultation with the department of transportation and available at the department's Web site ([www.idph.state.ia.us](http://www.idph.state.ia.us)) that contains all of the following:

(1) The primary caregiver's full legal name, residence address, mailing address (if different from the primary caregiver's residence address), telephone number, date of birth, and sex designation. The primary caregiver shall not provide as a mailing address an address for which a forwarding order is in place.

(2) The patient's full legal name.

(3) A copy of the primary caregiver's valid photo identification. Acceptable photo identification includes:

1. A valid Iowa driver's license,
2. A valid Iowa nonoperator's identification card,
3. If the primary caregiver is not a resident of the state of Iowa, a valid state-issued driver's license or nonoperator's identification card issued by a state other than Iowa, or
4. An alternative form of valid photo identification. A primary caregiver who possesses or is eligible for a driver's license or a nonoperator's identification card shall present such document as valid photo identification. A primary caregiver who is ineligible to obtain a driver's license or a nonoperator's identification card may apply for an exemption and request submission of an alternative form of valid photo identification. A primary caregiver who applies for an exemption is subject to verification of the primary caregiver's identity through a process established by the department and the department of transportation to ensure the genuineness, regularity, and legality of the alternative form of valid photo identification.

(4) Full name, address, and telephone number of the patient's neurologist.

(5) An attestation as to the truthfulness and accuracy of the information provided by the primary caregiver on the application.

**154.4(2)** Upon the completion, verification, and approval of the primary caregiver's application, the department shall notify the department of transportation that the primary caregiver may be issued a cannabidiol registration card.

**154.4(3)** A cannabidiol registration card issued to a primary caregiver by the department of transportation shall contain all of the following:

*a.* The primary caregiver's full legal name, current residence address, date of birth, and sex designation, as shown on the primary caregiver's state-issued driver's license, nonoperator's identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.4(1)"c"(3)"4." If the primary caregiver's name, current residence address, date of birth, or sex designation has changed since issuance of the primary caregiver's Iowa-issued driver's license, nonoperator's identification card, or other form of valid photo identification, the primary caregiver shall first update the primary caregiver's Iowa-issued driver's license or nonoperator's identification card according to the procedures set forth in 761—subrule 605.11(2), 761—subrule 605.25(4), or rule 761—630.3(321) or update the alternative form of valid photo identification in accordance with the process of the issuing agency.

*b.* The date of issuance and the date of expiration.

*c.* A distinguishing registration number that is not the primary caregiver's social security number.

*d.* The primary caregiver's signature. The signature shall be without qualification and shall contain only the primary caregiver's usual signature without any other titles, characters, or symbols. The primary caregiver's signature certifies, under penalty of perjury and pursuant to the laws of the state of Iowa, that the statements made and information provided in the primary caregiver's application for a cannabidiol registration card are true and correct. The primary caregiver's signature shall be captured electronically.

*e.* A color photograph of the primary caregiver.

*f.* A statement that the cannabidiol registration card is not valid for identification purposes.

*g.* A statement distinguishing the cannabidiol registration cardholder as a primary caregiver.

*h.* The full name of each patient in the primary caregiver's care, as approved by the department in its notice to the department of transportation.

**154.4(4)** A primary caregiver in possession of a valid cannabidiol registration card issued pursuant to this rule shall not possess a quantity of cannabidiol oil in excess of 32 ounces per patient.

**154.4(5)** An authorization to use, or to act as a primary caregiver for a patient authorized to use, cannabidiol or marijuana for medicinal purposes issued by another state, territory, or jurisdiction does not satisfy the requirements of 2014 Iowa Acts, Senate File 2360, or these rules for the issuance of a cannabidiol registration card.

[ARC 1640C, IAB 10/1/14, effective 1/30/15]

**641—154.5(85GA,SF2360) Tamperproofing.** The department of transportation shall issue a cannabidiol registration card by a method or process which prevents as nearly as possible the alteration, reproduction, or superimposition of a photograph on the cannabidiol registration card without ready detection.

[ARC 1640C, IAB 10/1/14, effective 1/30/15]

**641—154.6(85GA,SF2360) Denial and cancellation.** The department may deny an application for a cannabidiol registration card, or may cancel or direct the department of transportation to cancel a cannabidiol registration card, for any of the following reasons:

1. Information contained in the application is illegible, incomplete, falsified, misleading, deceptive, or untrue.

2. The department or the department of transportation is unable to verify the identity of the applicant from the photo identification or other documentation presented pursuant to paragraph 154.3(1)“d”(2)“3” or 154.4(1)“c”(3)“4.”

3. The applicant violates or fails to satisfy any of the provisions of 2014 Iowa Acts, Senate File 2360, or these rules.

[ARC 1640C, IAB 10/1/14, effective 1/30/15]

**641—154.7(85GA,SF2360) Appeal.** If the department denies an application for or cancels a cannabidiol registration card, the department shall inform the applicant or cardholder of the denial or cancellation and state the reasons for the denial or cancellation in writing. An applicant or cardholder may appeal the denial or cancellation of a cannabidiol registration card by submitting a request for appeal to the department by certified mail, return receipt requested, within 20 days of receipt of the notice of denial or cancellation. The department’s address is Iowa Department of Public Health, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319-0075. Upon receipt of a request for appeal, the department shall forward the request within five working days to the department of inspections and appeals. A contested case hearing shall be conducted in accordance with 641—Chapter 173.

[ARC 1640C, IAB 10/1/14, effective 1/30/15]

**641—154.8(85GA,SF2360) Duplicate card.**

**154.8(1) *Lost, stolen, or destroyed card.*** To replace a cannabidiol registration card that is lost, stolen, or destroyed, a cardholder shall present to the department of transportation the cardholder’s valid state-issued driver’s license, nonoperator’s identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.3(1)“d”(2)“3” or 154.4(1)“c”(3)“4.”

**154.8(2) *Change in card information and voluntary replacement.***

*a.* To replace a cannabidiol registration card that is damaged, the cardholder shall surrender to the department of transportation the card to be replaced and present the cardholder’s valid state-issued driver’s license, nonoperator’s identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.3(1)“d”(2)“3” or 154.4(1)“c”(3)“4.”

*b.* A patient or primary caregiver to whom a cannabidiol registration card is issued shall notify the department of a change in current residence address, name, or sex designation listed on the card, within ten calendar days of the change. To replace a cannabidiol registration card to change the current residence address, name, or sex designation listed on the card, the cardholder shall surrender to the department of transportation the card to be replaced and present a valid state-issued driver’s license, nonoperator’s identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.3(1)“d”(2)“3” or 154.4(1)“c”(3)“4” that has been updated according to the procedures established by the state or agency of issuance to reflect the requested residence address, name, or sex designation.

*c.* To replace a cannabidiol registration card held by a primary caregiver to change the patient or patients listed on the primary caregiver’s card, the primary caregiver shall submit a new application

to the department pursuant to rule 641—154.4(85GA,SF2360). A cannabidiol registration card issued pursuant to this paragraph shall not be considered a duplicate card.

**154.8(3) Expiration date.** A duplicate cannabidiol registration card shall have the same expiration date as the cannabidiol registration card being replaced, changed, or amended.  
[ARC 1640C, IAB 10/1/14, effective 1/30/15]

**641—154.9(85GA,SF2360) Renewal.** A cannabidiol registration card shall be valid for one year from the date of issuance unless canceled pursuant to rule 641—154.6(85GA,SF2360).

**154.9(1)** A cardholder seeking renewal of a cannabidiol registration card shall submit a renewal application to the department at least 60 days prior to the date of expiration.

*a.* A patient applying for renewal of a cannabidiol registration card shall submit a renewal application to the department on a form approved by the department.

*b.* A primary caregiver applying for a renewal of a cannabidiol registration card shall submit a renewal application to the department on a form approved by the department.

**154.9(2)** A cardholder who fails to renew the cannabidiol registration card may not lawfully possess cannabidiol pursuant to this chapter.  
[ARC 1640C, IAB 10/1/14, effective 1/30/15]

**641—154.10(85GA,SF2360) Confidentiality.** The department shall maintain a confidential file of the names of each patient to or for whom the department approves the issuance of a cannabidiol registration card and the name of each primary caregiver to whom the department issues a cannabidiol registration card under 2014 Iowa Acts, Senate File 2360, section 5.

**154.10(1)** Personally identifiable information of patients and primary caregivers shall be maintained as confidential and is not accessible to the public. The department and the department of transportation shall release aggregate and statistical information regarding the medical cannabidiol act registration card program in a manner which prevents the identification of any patient or primary caregiver.

**154.10(2)** Personally identifiable information of patients and primary caregivers may be disclosed under the following limited circumstances:

*a.* To authorized employees or agents of the department and the department of transportation as necessary to perform the duties of the department and the department of transportation pursuant to this chapter.

*b.* To authorized employees of state or local law enforcement agencies located in Iowa, solely for the purpose of verifying that a person is lawfully in possession of a cannabidiol registration card issued pursuant to this chapter.

*c.* To a patient, primary caregiver, or neurologist, upon written authorization of the patient or primary caregiver.

[ARC 1640C, IAB 10/1/14, effective 1/30/15]

**641—154.11(85GA,SF2360) Agreement with department of transportation.** The department may enter into a chapter 28E agreement with the department of transportation to facilitate the issuance of cannabidiol registration cards. The agreement may include provisions which govern the issuance, denial, and cancellation of cannabidiol registration cards and the sharing of information between the department and the department of transportation.

[ARC 1640C, IAB 10/1/14, effective 1/30/15]

These rules are intended to implement 2014 Iowa Acts, Senate File 2360.

[Filed ARC 1640C (Notice ARC 1571C, IAB 8/6/14), IAB 10/1/14, effective 1/30/15]

CHAPTER 155  
LICENSURE STANDARDS FOR SUBSTANCE USE DISORDER AND  
PROBLEM GAMBLING TREATMENT PROGRAMS

[Prior to 7/27/88, see Substance Abuse, Iowa Department of[805] Ch 3]

[Prior to 3/29/06, see 643—Ch 3]

**641—155.1(125,135) Definitions.** Unless otherwise indicated, the following definitions shall apply to the specific terms used in these rules:

*“Addictive disorder”* means a substance use disorder and problem gambling.

*“Addictive disorder professional”* means an individual who is qualified by virtue of certification or license and education, training and experience to provide program services.

*“Administration”* means the direct application of a prescription medication to a patient by a prescriber or the prescriber’s authorized agent.

*“Admission”* means the point at which an initial assessment has been completed sufficient to determine the patient’s need and eligibility for program services, and the patient has agreed to begin treatment.

*“Admission, continued service, and discharge criteria”* means the ASAM criteria dimensions to be considered in determining the level of care appropriate for the patient.

*“Applicant”* means a person, facility, or legal entity that has applied for an initial license, renewal of a license, or a license under deemed status pursuant to these rules.

*“Application”* means the process through which an applicant requests an initial license, renewal of a license, or a license under deemed status pursuant to these rules.

*“ASAM criteria”* means the most current version of the clinical guide for the treatment of addictive, substance use and co-occurring conditions as published by the American Society of Addiction Medicine (ASAM).

*“Assessment”* means the ongoing process of evaluating a patient’s strengths, resources, preferences, limitations, problems, and needs; determining the licensed program services needed by the patient; determining the patient’s eligibility for program services; and identifying treatment plan priorities, in accordance with the ASAM criteria and accepted standards of practice.

*“Board”* means the state board of health created pursuant to Iowa Code chapter 136.

*“Care coordination”* or *“case management”* means the collaborative process which assesses, plans, implements, coordinates, monitors and evaluates the options and services, both internal and external to the program, to meet patient needs, using communication and available resources to promote quality care and effective outcomes.

*“Chemical substance”* means alcohol, wine, spirits and beer as defined in Iowa Code chapter 123 and controlled substances as defined in Iowa Code section 124.101.

*“Chemical substitutes and antagonists program”* means an opioid treatment program that provides opioid treatment services in accordance with Iowa Code section 125.21 and rule 641—155.35(125,135).

*“Clinically managed”* means that program services are directed by addictive disorder professionals.

*“Clinically managed high-intensity residential treatment”* means the ASAM criteria level of care totaling at least 50 hours of clinically managed inpatient treatment services per week.

*“Clinically managed low-intensity residential treatment”* means the ASAM criteria level of care totaling at least five hours of clinically managed inpatient treatment services per week.

*“Clinically managed medium-intensity residential treatment”* means the ASAM criteria level of care totaling at least 30 hours of clinically managed inpatient treatment services per week.

*“Clinical oversight”* means oversight provided by an individual who, by virtue of certification or license and education, training and experience is qualified to oversee treatment services in accordance with subrule 155.21(3).

*“Committee”* means the substance abuse and gambling treatment program committee appointed by the state board of health pursuant to Iowa Code section 136.3(13).

*“Concerned person”* means an individual who is seeking treatment services due to problems arising from a personal relationship with an individual with an addictive disorder.

*“Confidentiality”* means protection of patient information in compliance with state and federal law.

*“Crisis stabilization”* means medically monitored subacute inpatient services for individuals with urgent addictive disorder needs requiring immediate intervention, assessment, and mobilization of family, community and program resources.

*“Culturally and environmentally specific”* means integrating into assessment and treatment the customs and beliefs of a given population, as well as awareness and acceptance of diversity regarding conditions, circumstances and influences affecting an individual or group.

*“Data reporting”* means the required submission of certain patient demographic and program services information to the department by a program.

*“Department”* means the Iowa department of public health.

*“Detoxification”* means the safe management of intoxication states and withdrawal states in accordance with the ASAM criteria and accepted standards of practice.

*“Dimension”* means one of the six ASAM criteria patient biopsychosocial areas to be considered in the assessment process to identify patient needs and determine the appropriate level of care for admission and continued services.

*“Director”* means the director of the Iowa department of public health.

*“Discharge”* means the point at which the patient ceases participation in licensed program services, marking the end of a specific encounter or episode of care. Discharge does not require termination of the relationship between the patient and the program.

*“Discharge planning”* means the process, begun at admission, of determining a patient’s continued need for licensed program services and of developing a plan to address ongoing patient needs following discharge.

*“Division”* means the department’s division of behavioral health, which acts as the single state authority for the federal substance abuse prevention and treatment block grant and associated state of Iowa addictive disorder appropriations and funding.

*“Early intervention”* means the ASAM criteria level of care which explores and addresses problems or risk factors that appear to be related to an addictive disorder and which helps the individual recognize potential harmful consequences.

*“Enhanced program”* means a licensee that provides enhanced treatment services in accordance with paragraph 155.2(2)“j” and rule 641—155.34(125,135).

*“Enhanced treatment services”* means licensed program services provided in accordance with paragraph 155.2(2)“j” and rule 641—155.34(125,135).

*“Facility”* means an institution, a detoxification center, or an installation providing care, maintenance or treatment for persons with substance use disorders licensed by the department under Iowa Code section 125.13, hospitals licensed under Iowa Code chapter 135B, or the state mental health institutes designated by Iowa Code chapter 226. “Facility” also means the physical areas such as grounds, buildings, or portions thereof under administrative control of the program.

*“Governing body”* means the person, group, or legal entity that has ultimate authority and responsibility for the overall operation of the program.

*“Inpatient”* means 24-hour licensed program services.

*“Intensive outpatient treatment”* means the ASAM criteria level of care totaling a minimum of nine hours of clinically managed outpatient treatment services per week for adults or a minimum of six hours of clinically managed outpatient treatment services per week for juveniles.

*“Level of care”* or *“level of service”* means the different ASAM criteria service options. “Level of care” also means certain licensed program services under these rules.

*“Licensed program services”* means the services a licensee may be authorized to provide under these rules.

*“Licensee”* means a program licensed by the department pursuant to these rules.

*“Licensure”* means the issuance of a license by the department pursuant to these rules which validates the licensee’s compliance with these rules and authorizes the licensee to operate a program in the state of Iowa.

*“Licensure weighting report”* means the division’s report that is used to determine an applicant’s level of compliance with these rules and the length of time a license will be in effect.

*“Maintenance”* means the prolonged, scheduled administration of an opiate agonist medication such as buprenorphine or methadone by an opioid treatment program in accordance with federal and state laws, rules and regulations.

*“Management of care”* means the ongoing application of the ASAM criteria and the coordination of care to ensure the appropriate provision of licensed program services to a patient.

*“May”* means a term used in the interpretation of a standard to reflect an acceptable method that is recognized but not necessarily preferred.

*“Medically managed”* means that the inpatient program services that involve daily medical care in a hospital setting are directed by a prescriber.

*“Medically managed intensive inpatient treatment”* means the ASAM criteria level of care for medically managed inpatient treatment services.

*“Medically monitored”* means that the program services are directed by addictive disorder professionals with medical oversight by a prescriber.

*“Medically monitored intensive inpatient treatment”* means the ASAM criteria level of care for medically monitored subacute inpatient treatment services.

*“Medication-assisted treatment”* means the medically monitored use of certain substance use disorder medications in combination with other treatment services.

*“Opioid treatment program”* means a substance use disorder treatment program or a substance use disorder and problem gambling treatment program licensed to provide opioid treatment services in accordance with Iowa Code section 125.21 and rules 641—155.2(125,135) and 641—155.35(125,135).

*“Opioid treatment services”* means medically monitored outpatient maintenance services provided in accordance with federal and state laws, rules and regulations.

*“Outpatient”* means non-24-hour licensed program services.

*“Outpatient treatment”* means the ASAM criteria level of care totaling less than nine hours of clinically managed outpatient treatment services per week for adults and less than six hours of clinically managed outpatient treatment services per week for juveniles.

*“OWI evaluation”* means an assessment completed solely for the purpose of compliance with the substance abuse evaluation requirements of Iowa Code chapter 321J.

*“Partial/day treatment”* means the ASAM criteria level of care totaling 20 or more hours of clinically managed outpatient treatment services per week.

*“Patient”* means an individual who participates in licensed program services.

*“Placement”* means selection of an appropriate licensed program service, based on ongoing assessment.

*“Prescriber”* means a licensed health care professional with the authority to prescribe medication in accordance with Iowa law.

*“Prevention”* means activities aimed at minimizing the use of potentially addictive substances, lowering risk in at-risk individuals, or minimizing potential adverse consequences of substance use or gambling.

*“Prime programming time”* means any period of the day, as determined by a program treating juveniles, when special attention or supervision is necessary.

*“Problem gambling”* means a gambling disorder that results in a functional impairment of sufficient impact and duration to meet diagnostic criteria specified within the most current Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association.

*“Program”* means a person, facility, institution, building, agency or legal entity that provides one or more of the services stated in subrule 155.2(2) and is required to be licensed under these rules.

*“Quality improvement”* means the process of objectively and systematically monitoring and evaluating the quality and appropriateness of patient care and program services and operations to resolve identified problems and to make continued improvements.

*“Recovery”* means the process of addressing an addictive disorder and working toward personally defined health and well-being.

*“Recovery supports”* means the broad range of nontreatment services, such as transportation, that assists patients in their recovery efforts.

*“Region”* means the geographic grouping of counties for conducting the department’s responsibilities under Iowa Code chapter 125.

*“Rehabilitation”* means the restoration of an optimal state of health by medical, psychological, and social means, including peer group support.

*“Residential”* means clinically managed inpatient treatment services.

*“Resiliency- and recovery-oriented system of care”* means coordinated, person-centered approaches to health promotion, prevention, early intervention, treatment and recovery support that build on the protective factors and strengths of individuals to sustain or achieve health and well-being.

*“Rule”* means each department statement of general applicability that implements, interprets, or prescribes law or policy, or that describes the procedure or practice requirements of the division. The term includes the amendment or repeal of existing rules as specified in the Iowa Code.

*“Screening”* means the brief review of a patient’s or potential patient’s current risk factors for an addictive disorder or medical or mental health condition to determine if they indicate a need for immediate admission or referral. Screening is not an assessment and is not sufficient to develop a treatment plan, rule out an addictive disorder, or determine that admission to treatment or referral to other services is not indicated.

*“Self-administration of medication”* means the process whereby a properly trained and qualified staff person observes a patient take medication prescribed by a prescriber.

*“Shall”* means the term used to indicate a mandatory statement, the only acceptable method under these rules.

*“Should”* means the term used in the interpretation of a standard to reflect the commonly accepted method, but allowing for the use of effective alternatives.

*“Staff”* means any individual who conducts an activity on behalf of a program as an employee, agent, consultant, contractor, volunteer or other status.

*“Standards category”* means the grouping of standards, such as clinical, administrative or programming, in the licensure weighting report.

*“Subacute”* means medically monitored inpatient services for individuals who require management, supervision and treatment to reduce immediate risk of danger to self or others or severe disability or complication of an addictive disorder or an addictive disorder and a medical or mental health condition.

*“Substance abuse treatment and rehabilitation facility”* or *“substance abuse treatment program”* means a program required to be licensed under these rules.

*“Substance use disorder”* means a substance use disorder that results in a functional impairment of sufficient impact and duration to meet diagnostic criteria specified within the most current Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association.

*“Time frames”* means the periods of time specified throughout the standards.

*“Treatment”* means the broad range of planned services to identify and change patterns of behavior that are maladaptive, destructive or injurious to health; or to restore appropriate levels of physical, psychological or social functioning. Such services may include assessment; care coordination; crisis stabilization; detoxification; early intervention; health promotion; individual, group and family counseling; management of care; and medication administration, provided by addictive disorder professionals and a mix of medical, mental health and peer professionals as appropriate to the structure of the program.

*“Treatment planning”* means the process, based on ongoing assessment, by which a patient and qualified staff identify and rank problems, establish agreed-upon goals, and decide on the treatment services and resources to be utilized.

*“Variance”* or *“waiver”* means action by the committee or division that suspends the requirements of a standard on a case-by-case basis in accordance with 641—Chapter 178.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.2(125,135) Licensing.** In accordance with Iowa Code section 125.13, a person shall not maintain or conduct a substance use disorder program without having first obtained a license for the program from the department, and in accordance with Iowa Code section 135.150, a person shall not maintain or conduct a problem gambling treatment program funded by the department unless the person has obtained a license for the program from the department. The provision of treatment to a patient through any electronic means, regardless of the location of the program or facility, shall constitute the practice of treatment in the state of Iowa and shall be subject to regulation in accordance with Iowa Code chapter 125, Iowa Code section 135.150, and these rules. An applicant shall apply for one license only. The department shall award one license only to an applicant or licensee.

**155.2(1) Program licenses.** The department shall offer the following program licenses:

- a. A substance use disorder assessment and OWI evaluation-only program license.
- b. A substance use disorder treatment program license.
- c. A problem gambling treatment program license.
- d. A substance use disorder and problem gambling treatment program license.

**155.2(2) Licensed program services.** The license will delineate the licensed program service(s) the program is authorized to provide and will specify that each licensed program service is licensed for adults, juveniles, or adults and juveniles. Licensed program services are:

- a. Substance use disorder assessment and OWI evaluation only, provided by a substance use disorder assessment and OWI evaluation-only program;
- b. Outpatient treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- c. Intensive outpatient treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- d. Partial/day treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- e. Clinically managed low-intensity residential treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- f. Clinically managed medium-intensity residential treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- g. Clinically managed high-intensity residential treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- h. Medically monitored intensive inpatient treatment, provided by a substance use disorder treatment program or a substance use disorder and problem gambling treatment program;
- i. Medically managed intensive inpatient treatment, provided by a substance use disorder treatment program or a substance use disorder and problem gambling treatment program;
- j. Enhanced treatment services, provided by a substance use disorder treatment program or a substance use disorder and problem gambling treatment program;
- k. Opioid treatment services, provided by a substance use disorder treatment program or a substance use disorder and problem gambling treatment program.

**155.2(3) Licensing body.** The committee shall:

- a. Consider and approve or deny all license applications, suspensions and revocations;
- b. Advise the department on policies governing the performance of the department in the discharge of any duties imposed on the department by law;
- c. Advise or make recommendations to the board relative to addictive disorder programs in this state; and
- d. Perform other duties as assigned by the board.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.3(125,135) Types of licenses.**

**155.3(1)** The department may issue an initial license for 270 days to a new applicant scoring a minimum rating of 70 percent in each standards category on the licensure weighting report. An initial license shall expire in 270 days and shall not be extended or renewed.

**155.3(2)** The department may issue a license subsequent to an initial license for one, two, or three years based on the applicant's rating on the licensure weighting report.

*a.* An applicant achieving a rating of 95 percent or higher in each standards category may qualify for a three-year license.

*b.* An applicant achieving a rating of less than 95 percent but not less than 90 percent in each standards category may qualify for a two-year license.

*c.* An applicant achieving a rating of less than 90 percent but not less than 70 percent in each standards category may qualify for a one-year license.

*d.* A license for one, two, or three years shall expire on the date noted on the license and shall not be extended but may be renewed upon application.

**155.3(3)** The department may issue a license under deemed status to an applicant providing required documentation of accreditation by a recognized accreditation body. A deemed-status license shall be effective for the same time frame as that of the accreditation granted by the accreditation body, up to three years.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.4(125,135) Nonassignability.**

**155.4(1)** A license issued by the department for the operation of a program applies both to the licensee and the facility in which the program is operated. A license is not transferable.

**155.4(2)** A closing program is one which intends to cease providing licensed program services. The licensee shall notify the division 30 days before ceasing service provision. The licensee shall be responsible for the transition of patients to another program and for the preservation of all records. The licensee shall include in its notice to the division its plan to transition patients and locate records. When a program closes, the program's license is void on the date the program ceases providing licensed program services, and the license shall be returned to the department.

**155.4(3)** A closed program is one which has ceased providing licensed program services. The licensee shall notify the division immediately of ceased service provision. The licensee shall be responsible for the transition of patients to another program and for the preservation of all records. The licensee shall include in its notice to the division its plan to transition patients and locate records. When a program is closed, the program's license is void on the date the program ceased providing licensed program services, and the license shall be returned to the department.

**155.4(4)** A person, facility or legal entity acquiring a licensed, closing or closed program for the purpose of operating a program shall apply for a license.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.5(125,135) Application procedures.** The division shall provide license application forms on the department's Web site and at its office. An applicant shall submit application materials to the division. The division will proceed with inspection of the applicant upon receipt of a complete application. To be complete, an application must include all required materials and be responsive to all licensure standards, as described in these rules.

**155.5(1) Application information.** An applicant shall submit application materials on the forms provided and in the required format. Application materials shall include, but may not be limited to:

*a.* The name and address of the applicant and, if the applicant is part of a larger organization, the name and address of the larger organization.

*b.* The name and address of the applicant's executive director and, if the applicant is part of a larger organization, the name and address of the executive director of the larger organization.

*c.* The names, titles, dates of employment, education, and years of current job-related experience of the applicant's staff; and the table of organization. If the applicant is part of a larger organization or has multiple organizational components and physical facilities, the relationships between the

larger organization, organizational components and physical facilities must be shown on the table of organization, with the applicant and applicant's staff positions clearly delineated.

*d.* The names and addresses of members of the applicant's governing body, sponsors, and advisory boards; and the current articles of incorporation and bylaws.

*e.* The names and addresses of individuals, facilities, organizations, and legal entities with which the applicant has a contractual or affiliation agreement pertaining to licensed program services.

*f.* A description of the licensed program services to be provided by the applicant and a calendar showing program services each week.

*g.* For each physical facility, copies of reports substantiating compliance with federal, state and local laws, rules and regulations, to include appropriate Iowa department of inspections and appeals rules, state fire marshal rules and fire ordinances, and local health, fire, occupancy, and safety regulations.

*h.* Information required for programs admitting juveniles as described under Iowa Code section 125.14A.

*i.* Fiscal management information, to include a recent audit or opinion of auditor and program board minutes to reflect approval of the program's budget and insurance.

*j.* Insurance coverage related to professional and general liability, building, workers' compensation, and fidelity bond.

*k.* The address of each physical facility.

*l.* The written policies and procedures manual that covers all the requirements of these rules.

**155.5(2) *Application time frame.*** An applicant seeking to be licensed subsequent to a 270-day initial license or a licensee seeking to renew a one-, two-, or three-year license or to significantly change a currently licensed program shall submit an application at least 90 days before expiration of the current license or before the program change.

**155.5(3) *License under deemed status.*** An organization seeking to be licensed under deemed status shall submit an application.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.6(125,135) Technical assistance.** The division may provide technical assistance to an applicant or licensee.

**155.6(1)** An applicant may request technical assistance regarding these rules and the licensure process.

**155.6(2)** A licensee may request technical assistance regarding these rules and the licensure process or to bring areas of noncompliance with these rules into compliance.

**155.6(3)** The division may require a licensee to receive technical assistance to bring areas of noncompliance with these rules into compliance.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.7(125,135) Inspection of applicants.**

**155.7(1) *Inspection of applicants.*** The division shall inspect each applicant. Inspection shall include review of the complete application and may include, but may not be limited to, review of patient records, review of applicant data reporting, and interviews with staff and patients. Inspection shall include on-site inspection unless specifically waived as allowed under these rules. The division will send the applicant a report of inspection findings within 30 business days of the inspection.

**155.7(2) *On-site inspection.*** The division will schedule an on-site inspection of an applicant within 60 business days of receipt of the applicant's complete application.

*a.* The division may waive on-site inspection of an applicant that is:

(1) A licensee applying to renew a license when the applicant's licensed program services are limited to substance use disorder assessment and OWI evaluation services only, outpatient treatment, or intensive outpatient treatment.

(2) An applicant applying for a license under deemed status.

*b.* The department shall not be required to provide advance notice of the on-site inspection to the applicant.

*c.* The on-site inspection team will consist of designated employees or agents of the division.

*d.* The on-site inspection team will inspect the applicant to verify application information and determine compliance with all laws, rules and regulations.  
[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.8(125,135) License—approval.** The department shall issue a license upon approval of an application for a license by the committee. The license shall become effective on the date approved by the committee.

**155.8(1) Committee meeting preparation.** The division shall prepare an inspection findings report with a license recommendation for presentation at a committee meeting held within 60 business days from the date of the inspection findings report.

*a.* The division will provide public notice of committee meetings in accordance with Iowa Code section 21.4.

*b.* The division shall provide committee members with the inspection findings report and license recommendation for each application to be acted upon at each committee meeting.

**155.8(2) Committee meeting format.**

*a.* The chairperson or chairperson's designee shall call the meeting to order at the designated time.

*b.* Division staff will review each application, inspection findings report, and license recommendation, as directed by the chairperson or the chairperson's designee.

*c.* The chairperson or the chairperson's designee may give the applicant and the public the opportunity to provide comment on each application.

*d.* After any applicant and public comments are heard, the committee will make a decision to approve or initially deny the application for a license.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.9(125,135) Written corrective action plan.** A program approved for a license shall submit a written corrective action plan to the division within 30 days following the committee meeting to bring any area of noncompliance with these rules into compliance.

**155.9(1)** The written corrective action plan shall include, but may not be limited to:

*a.* Any area of noncompliance specified in the inspection findings report;

*b.* The corrective measures to be taken by the program for each area of noncompliance; and

*c.* The completion date for each corrective measure.

**155.9(2)** The department may inspect the licensee, including on-site inspection, to review the implemented corrective measures and report to the committee.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.10(125,135) Grounds for denial of license.**

**155.10(1)** The committee may deny an application for a license for any of the following reasons:

*a.* The application is not complete, is not timely or otherwise does not meet the requirements of these rules.

*b.* The applicant fails to achieve the minimum licensure weighting report rating required for a 270-day initial license or a one-, two- or three-year license.

*c.* Lack of patients or patient records for review.

*d.* Violation of any of the following grounds for discipline:

(1) Submission of fraudulent or misleading information.

(2) Violation by a program or staff of any statute or rule pertaining to programs, including violation of any provision of these rules, or failure to adhere to program policies and procedures adopted pursuant to these rules.

(3) Failure to comply with licensure, inspection, health, fire, occupancy, safety, sanitation, zoning, or building codes or regulations required by federal, state or local law.

(4) Sanction, modification, termination, withdrawal, refused renewal, suspension, or revocation of accreditation by an accreditation body.

(5) Sanction, modification, termination, withdrawal, refused renewal, suspension, revocation, or refused issuance of a federal registration to distribute or dispense controlled substances.

- (6) Commission of or permitting, aiding or abetting commission of an unlawful act.
- (7) Conviction of a member of the governing body, a director, administrator, chief executive officer, or other managing staff person of a felony or misdemeanor related to the management, operation or integrity of the program.
- (8) Use of untruthful or improbable statements in advertising.
- (9) Conduct or practices determined to be detrimental to the general health, safety, or welfare of a patient, potential patient, concerned person, visitor, staff or member of the public.
- (10) Violation of a patient's confidentiality or willful, substantial, or repeated violation of a patient's rights.
- (11) Defrauding a patient, potential patient, concerned person, visitor, staff or third-party payor.
- (12) Inappropriate conduct by staff, including sexual or other harassment or exploitation of a patient, potential patient, concerned person, visitor or staff.
- (13) Utilization of treatment techniques that endanger the health, safety, or welfare of a patient, potential patient, concerned person, visitor, staff or member of the public.
- (14) Discrimination or retaliation against a patient, potential patient, concerned person, visitor, staff, or member of the public who has submitted a complaint or information to the department.
- (15) Failure to allow an employee or agent of the department access to the program or facility for the purpose of inspection, investigation, or other activity necessary to the performance of the department's duties.
- (16) Failure to submit an acceptable written corrective action plan or failure to comply with a corrective action plan issued pursuant to rule 641—155.9(125,135) or 641—155.16(125,135).
- (17) Violation of an order of the committee or violating the terms or conditions of a consent agreement or informal settlement between a program and the committee.

**155.10(2)** Reserved.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.11(125,135) Denial, suspension or revocation of a license.** The committee may deny an application for a license. The committee may suspend or revoke a license for any of the grounds for discipline pursuant to paragraph 155.10(1)“d.”

**155.11(1) Initial notice from committee.** When the committee determines to deny, suspend or revoke a one-, two-, or three-year license or a license under deemed status, the division shall notify the applicant or licensee by certified mail, return receipt requested. Such notice shall provide the applicant or licensee the opportunity to submit a written corrective action plan or written objections to the division.

**155.11(2) Submission of corrective action plan or objections.** An applicant notified of denial of a one-, two-, or three-year license or a license under deemed status or a licensee notified of suspension or revocation of a license may submit a written corrective action plan or written objections to the division within 20 days after receipt of the notice.

*a. Written corrective action plan.* The written corrective action plan must meet the requirements of paragraphs 155.9(1)“a” to “c.” If the applicant or licensee submits a written corrective action plan, the applicant or licensee shall have 90 days from the date of submission within which to show compliance with the plan. The applicant or licensee shall submit any information to the committee that the committee requests or that the applicant or licensee deems pertinent to show compliance with the plan. The department may inspect the licensee, including on-site inspection, to review the implemented corrective measures and report to the committee.

*b. Objections.* If the applicant or licensee submits written objections, the applicant or licensee shall submit to the committee any information that the committee or the applicant or licensee deems pertinent to support the applicant's or licensee's defense.

**155.11(3) Decision of committee.** Following receipt of a written corrective action plan and expiration of the 90-day compliance period, or following receipt of written objections, or when a written corrective action plan or written objections have not been received within the 20-day time period, the committee may meet to determine whether to proceed with the denial, suspension or revocation. The division shall send notice of this meeting to the applicant or licensee by certified mail, return receipt requested, ten

days prior to the committee meeting, notifying the program director and the program board chairperson of the time, place and date of the committee meeting.

**155.11(4) *Notice of decision and opportunity for contested case hearing.***

*a.* When the committee determines to deny, suspend, or revoke a license, the applicant or licensee shall be given written notice by restricted certified mail.

*b.* The applicant or licensee may request a hearing on the determination. The request must be in writing and sent by certified mail, return receipt requested, to the department's address within 30 days of the notice issued by the division. Failure to request a hearing will result in final action by the committee.

**155.11(5) *Summary suspension.*** If the committee or department finds that the health, safety or welfare of the public is endangered by continued operation of a program, the committee or department may order summary suspension of a license, pursuant to Iowa Code sections 17A.18 and 125.15A, pending proceedings for revocation or other actions in accordance with Iowa Code sections 17A.18A and 125.15A. These proceedings shall be promptly instituted and determined.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.12(125,135) Contested case hearing.** An applicant or licensee may contest the denial, suspension or revocation of a license by requesting a hearing before an administrative law judge from the department of inspections and appeals. The applicant or licensee will be notified by certified mail, return receipt requested, of the date of the hearing, no less than 30 days before the hearing.

**155.12(1) *Failure to appear.*** If a party fails to appear in a contested case hearing proceeding after proper service of notice, the administrative law judge shall, in such a case, enter a default judgment against the party failing to appear.

**155.12(2) *Conduct of hearing.*** Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved and to be represented by counsel at their own expense.

*a.* The hearing shall be informal, and all relevant evidence shall be admissible. Effect will be given to the rules of privilege recognized by law. Objections to evidentiary offers may be made and shall be noted in the record. When the hearing will be expedited and the interests of the parties will not be prejudiced substantially, any part of the evidence may be required to be submitted in verified written form.

*b.* Documentary evidence may be received in the form of copies or excerpts if the original is not readily available. Upon request, parties shall be given an opportunity to compare the copy with the original, if available.

*c.* Witnesses present at the hearing shall be subject to cross-examination by any party as necessary for a full and true disclosure of the facts.

*d.* The record in a contested case shall include:

- (1) All pleadings, motions and intermediate rulings.
- (2) All evidence received or considered and all other submissions.
- (3) A statement of all matters officially noticed.
- (4) All questions and offers of proof, objections and rulings therein.
- (5) All proposed findings and exceptions.
- (6) Any decision, opinion or report by the administrative law judge presiding at the hearing.

*e.* Oral proceedings shall be open to the public and shall be recorded either by mechanized means or by certified shorthand reporters. Oral proceedings or any part thereof shall be transcribed at the request of any party with the expense of the transcription charged to the requesting party. The recording or stenographic notes of oral proceedings or the transcription thereof shall be filed with and maintained by the agency for at least five years from the date of decision.

*f.* Findings of fact shall be based solely on the evidence in the record and on matters officially noticed in the record.

**155.12(3) *Continuance.*** For good cause, the administrative law judge may continue hearings beyond the time originally scheduled or recessed. Requests for continuance shall be made to the administrative law judge in writing at least three days prior to the scheduled hearing date. Continuances will not be granted less than three days before the hearing except in exigent circumstances.

**155.12(4) Decision.** Findings of fact shall be based solely on the evidence in the record and upon matters officially noticed in the record.

*a.* The decision of the administrative law judge shall be the final decision unless there is an appeal to the board within 20 days of the receipt of the decision.

*b.* A proposed or final decision or order in a contested case hearing shall be in writing. A proposed or final decision shall include findings of fact and conclusions of law, separately stated. Parties will be promptly notified of each proposed or final decision or order by the delivery to them of a copy of such decision or order by certified mail, return receipt requested. In the case of a proposed decision, parties shall be notified of the right to appeal the decision to the board.

**155.12(5) Appeal to the board.**

*a.* Either party may request that the board review the proposed decision. The request shall be in writing and mailed within 20 days of receipt of the proposed decision.

*b.* The parties shall have an opportunity to submit briefs to the board. The board will review the record and any briefs. No new evidence shall be admitted unless requested and allowed by the board.

*c.* Oral presentation will be made to the board at a time set by the board.

*d.* The board shall issue its decision in writing within 30 days after conclusion of the hearing.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.13(125,135) Rehearing application.** Any party may file an application for rehearing, stating the specific grounds therefor and the relief sought, within 20 days after the issuance of any final decision by the board in a contested case. A copy of such application for rehearing shall be timely mailed by the applicant to all parties of record not joining therein. Such an application for rehearing shall be deemed to have been denied unless the board grants the application within 20 days after its filing.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.14(125,135) Judicial review.** An applicant or licensee that is aggrieved or adversely affected by the board's final decision and that has exhausted all adequate administrative remedies may seek judicial review of the board's decision pursuant to and in accordance with Iowa Code section 17A.19.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.15(125,135) Issuance of a license after denial, suspension or revocation.** After denial, suspension, or revocation of a license, the former applicant or licensee shall not have a license issued within one year of the effective date of the denial, suspension or revocation. After one year, the former applicant or licensee may submit an application for a 270-day initial license. For purposes of this rule, "former applicant or licensee" shall include any director, officer, administrator, chief executive officer, or other managing staff of the former applicant or licensee.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.16(125,135) Complaints and investigations.**

**155.16(1) Complaints.** Any person may file a complaint with the department against any program licensed pursuant to this chapter. The complaint shall be made in writing and shall be e-mailed, mailed or delivered to the health facility officer at the Division of Behavioral Health, Iowa Department of Public Health, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0075. The complaint shall include the name and address of the complainant, the name of the program, and a concise statement of the allegations against the program, including the specific alleged violations of Iowa Code chapter 125 or this chapter, if known. A complaint may also be initiated upon the committee's own motion or by the department when an emergency exists that is deemed to endanger the health, safety or welfare of a patient, potential patient, concerned person, visitor, staff or the public, pursuant to evidence received by the department. Timely filing of complaints is required to ensure the availability of witnesses and to avoid initiation of an investigation under conditions which may have been significantly altered during the period of delay.

**155.16(2) Evaluation and investigation.** Upon receipt of a complaint, the division shall make a preliminary review of the allegations contained in the complaint. The division may request that

the complainant submit the complaint to the program's grievance process. Unless the division concludes that the complaint is intended solely to harass a program or lacks a reasonable basis, or is more reasonably addressed through the program's grievance process, the department shall conduct an investigation of the program that is the subject of the complaint as soon as is practicable. The program that is the subject of the complaint shall be given an opportunity to informally respond to the allegations contained in the complaint either in writing or through a personal interview or conference with department staff.

**155.16(3) Investigative report.** Within 30 days after completion of the investigation, the division shall prepare a written investigative report and shall submit the report to the executive director of the program, the chairperson of the governing body of the program, and the committee. This report shall include the nature of the complaint and shall indicate if the complaint allegations were substantiated, unsubstantiated, or undetermined; the basis for the finding; the specific statutes or rules at issue; a response from the program, if received; and a recommendation for action.

**155.16(4) Review of investigations.** The committee shall review the investigative report at its next regularly scheduled meeting and shall determine appropriate action.

*a. Closure.* If the committee determines that the allegations contained in the complaint are unsubstantiated, the committee shall close the case and the division shall promptly notify the complainant and the program by letter.

*b. Referral for further investigation.* If the committee determines that the complaint warrants further investigation, the committee shall refer the complaint to the department for further investigation.

*c. Written corrective action plan.* If the committee determines that the allegations contained in the complaint are substantiated and corrective action is warranted, the committee may require the program to submit and comply with a written corrective action plan. A program shall submit a written corrective action plan to the division within 20 business days after receiving a request for such plan. The written corrective action plan shall include a plan for correcting areas of noncompliance as required by the committee and a time frame within which such plan shall be implemented. The plan is subject to department approval. Requiring a written corrective action plan is not formal disciplinary action. Failure to submit or comply with a written corrective action plan may result in formal disciplinary action against the program.

*d. Disciplinary action.* If the committee determines that the allegations contained in the complaint are substantiated and disciplinary action is warranted, the committee may proceed with such action in accordance with rule 641—155.11(125,135).

**155.16(5) Confidential information and public information.** Information contained in a complaint may be confidential pursuant to Iowa Code section 22.7(2), 22.7(18), or 125.37 or any other provision of state or federal law. Investigative reports, written corrective action plans, and all notices and orders issued pursuant to rule 641—155.11(125,135) shall refer to patients by number and shall not include patient identifying information. Investigative reports, written corrective action plans, and all notices and orders issued pursuant to rule 641—155.11(125,135) shall be available to the public as open records pursuant to Iowa Code chapter 22.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.17(125,135) License revision.** A licensee shall submit a written request to the division to revise a license at least 30 days prior to any change of address, executive director, clinical oversight staff, facility, or licensed program service. The division will determine if the requested revision can be approved or if the change is significant enough to require the submission of an application for license renewal by the licensee.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.18(125,135) Deemed status.**

**155.18(1) Accreditation.** The committee shall approve a license under deemed status for an applicant accredited by a recognized national accreditation body when the committee determines that the accreditation is for the same licensed program services as those addressed by these rules and when such accreditation is consistent with these rules.

*a.* An applicant for a license under deemed status shall submit a copy of the entire accreditation body survey or inspection report, certificate of accreditation, accreditation conditions, and corrective action requirements and plans with the applicant's application.

*b.* The committee may accept the division's review of an accreditation body's survey or inspection report, certificate of accreditation, and conditions or corrective action plans as meeting the requirements for inspection for those licensed program services described in these rules.

*c.* An applicant for a license under deemed status shall be licensed only for licensed program services that are described in these rules.

*d.* A program licensed under deemed status shall be licensed for the same period of time as that for which the program is accredited, up to three years.

**155.18(2) *National accreditation bodies.*** The national accreditation bodies recognized for the purposes of licensure under deemed status are:

*a.* The Joint Commission.

*b.* The Council on Accreditation of Rehabilitation Facilities (CARF).

*c.* The Council on Accreditation of Children and Family Services (COA).

*d.* The American Osteopathic Association (AOA).

**155.18(3) *Credentials and expectations of accreditation bodies.*** The accreditation credentials of an accreditation body shall specify the types of organizations, programs and services the body accredits.

**155.18(4) *Responsibilities of programs licensed under deemed status.***

*a.* A program licensed under deemed status shall meet all requirements of these rules and all applicable laws and regulations.

*b.* A program licensed under deemed status may submit an application for licensure of licensed program services covered by these rules that are not covered by the accreditation.

**155.18(5) *Rights and responsibilities of committee and department.*** The committee and the department shall retain the following responsibilities and rights for deemed status applicants and licensees:

*a.* The department may inspect the applicant or licensee.

*b.* The division shall investigate complaints in accordance with these rules and recommend and require corrective action or other sanctions. Complaints, findings, and required corrective action may be reported to the accreditation body.

*c.* The committee shall review and act upon a license under deemed status when complaints have been founded, when the national accreditation body identifies noncompliance with accreditation, when accreditation expires without renewal, or when accreditation is sanctioned, modified, terminated, withdrawn, suspended or revoked.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.19(125,135) *Funding.*** The issuance of a license shall not be construed as a commitment on the part of either the state or federal government to provide funds to such licensee.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.20(125,135) *Inspection.*** An applicant or licensee agrees as a condition of licensure:

**155.20(1)** To permit properly designated representatives of the department to enter into and inspect any and all programs and facilities for which a license has been applied or issued to verify information contained in the application or to ensure compliance with all laws, rules, and regulations relating thereto, during all hours of operation of said applicant or licensee and at any other reasonable hour.

**155.20(2)** To permit properly designated representatives of the department to audit and collect statistical data from all records maintained by the applicant or licensee. An applicant or licensee that does not permit inspection by the department or examination of all records, including financial records, records pertaining to methods of administration, general and special dietary programs, and the disbursement of medications and methods of supply, and any other records the committee deems relevant, shall not be licensed.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.21(125,135) General standards for all programs.** The following standards shall apply to all programs. For programs for which both the general standards and specific standards apply, both sets of standards shall be met.

**155.21(1) Governing body.** The program shall have a formally designated governing body that complies with Iowa Code chapter 504 and that is the ultimate authority for program operations.

*a.* The governing body shall develop and adopt written bylaws and policies that define the powers and duties of the governing body, its committees, its advisory groups, and the executive director. These bylaws and policies shall be reviewed and revised by the governing body as necessary.

*b.* The bylaws shall minimally specify the following:

- (1) The type of membership;
- (2) The term of appointment;
- (3) The frequency of meetings;
- (4) The attendance requirements; and
- (5) The quorum necessary to transact business.

*c.* The governing body shall maintain minutes of all meetings, and the minutes shall be available for review by the department and shall include, but not necessarily be limited to:

- (1) Date of the meeting;
- (2) Names of members attending;
- (3) Topics discussed; and
- (4) Decisions reached and actions taken.

*d.* The duties of the governing body shall include, but may not be limited to:

- (1) Appointment of a qualified executive director, who shall have the responsibility and authority for the management of the program in accordance with the governing body's established policies;
- (2) Establishment of effective controls to ensure that quality services are provided;
- (3) Review and approval of the program's annual budget; and
- (4) Approval of all contracts.

*e.* The governing body shall approve policies and procedures for the effective operation of the program.

*f.* The governing body shall be responsible for all funds, equipment, and supplies and the facility in which the program operates. The governing body shall be responsible for the appropriateness and adequacy of services provided by the program.

*g.* The governing body shall at least annually prepare a report, which shall include, but may not be limited to:

- (1) The name, address, occupation, and place of employment of each governing body member;
- (2) Disclosure of any family relationship a member of the governing body has with a program staff member;
- (3) The names and addresses of any owners or controlling parties whether they are individuals, partnerships, a corporation body, or a subdivision of other bodies;
- (4) Disclosure of any potential conflict of interest a member of the governing body may have.

*h.* The governing body shall ensure that the program has malpractice, liability and workers' compensation insurance for all staff and a fidelity bond that covers all staff.

**155.21(2) Executive director.** The executive director shall have primary responsibility for program operations. The duties of the executive director shall be clearly defined in accordance with the policies established by the governing body.

**155.21(3) Clinical oversight.** The program shall designate a treatment supervisor to oversee provision of licensed program services.

**155.21(4) Policies and procedures manual.** The program shall maintain and implement a written policies and procedures manual that documents the program's compliance with these rules. The manual shall describe the program's licensed program services and related activities, specify the policies and procedures to be followed, and govern all staff.

*a.* The manual shall have a table of contents.

b. Revisions to the manual shall be entered with the date and with the name and title of the staff person making the revisions.

**155.21(5) Staff development and training.** The program's policies and procedures shall establish a staff development and training plan that encompasses all staff and all licensed program services, considers the professional continuing education requirements of certified and licensed staff, and is available to all staff.

a. The program shall designate a staff person responsible for the staff development and training plan.

b. The staff person responsible for the staff development and training plan shall conduct an annual needs assessment.

c. The staff development and training plan shall describe orientation for new staff which includes an overview of the program and licensed program services, confidentiality, tuberculosis and blood-borne pathogens, including HIV/AIDS, and culturally and environmentally specific information. Orientation shall also address the specific responsibilities of each staff person and community resources specific to the staff person's responsibilities.

d. The staff development and training plan shall address training when program operations or licensed program services change.

e. The staff development and training plan may include on-site training activities. The program shall maintain minutes of on-site training that include the name and date of the training, the training topic, the name and title of the trainer, and the names of staff attending the training.

**155.21(6) Data reporting.** The program's policies and procedures shall describe how the program reports required data to the division in accordance with department requirements and processes.

**155.21(7) Fiscal management.** The program's policies and procedures shall ensure proper fiscal management, which shall include:

a. The preparation and maintenance of an annual written budget, which shall be reviewed and approved by the governing body prior to the beginning of the budget year.

b. A fiscal management system maintained in accordance with generally accepted accounting principles, including internal controls to reasonably protect program assets. This shall be verified by an annual independent fiscal audit of the program by the state auditor's office or a certified public accountant based on an agreement entered into by the governing body. A program with an annual budget of \$100,000 or less shall conduct a fiscal audit no less than every three years.

c. An insurance program that provides for the protection of the physical and financial resources of the program and provides coverage for all people, buildings, and equipment. The insurance program shall be reviewed annually by the governing body.

**155.21(8) Personnel.** The program shall have personnel policies and procedures.

a. Personnel policies and procedures shall address:

- (1) Recruitment and selection of staff;
- (2) Wage and salary administration;
- (3) Promotions;
- (4) Employee benefits;
- (5) Working hours;
- (6) Vacation and sick leave;
- (7) Lines of authority;
- (8) Rules of conduct;
- (9) Disciplinary actions and termination;
- (10) Methods for handling cases of inappropriate patient care;
- (11) Work performance appraisal;
- (12) Staff accidents and safety;
- (13) Staff grievances;
- (14) Prohibition of sexual harassment;
- (15) Implementation of the Americans with Disabilities Act;
- (16) Implementation of the Drug-Free Workplace Act;

(17) Use of social media; and

(18) Implementation of equal employment opportunity.

b. The program shall have for each position and each staff person a written job description that describes the duties of each position and staff and the qualifications required for each position.

(1) A staff person providing screening, OWI evaluation, assessment or treatment services in accordance with these rules shall be qualified as an addictive disorder professional by meeting at least one of the following conditions:

1. Be certified or licensed as a substance use disorder or problem gambling counselor by a national or state organization approved by the division.

2. Be licensed as a marital and family therapist or a mental health counselor under Iowa Code chapters 154D and 147, an independent social worker under Iowa Code chapters 154C and 147, or another independent professional authorized by the Iowa Code to diagnose and treat mental disorders as specified in the most current Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association.

3. Be licensed as a master social worker under Iowa Code chapters 154C and 147.

4. Be licensed as a bachelor social worker under Iowa Code chapters 154C and 147.

5. Be temporarily or provisionally certified or licensed as allowed under a certification or license acceptable to the division. Such staff person must meet all requirements of the temporary or provisional certification or license, must be supervised by a staff person meeting one of the requirements of paragraphs "1" to "4" above, and must be fully certified or licensed within two years of the date on which the person began to provide licensed program services.

6. A staff person employed on and after July 1, 2010, who is not qualified as described in any of the paragraphs "1" to "5" above shall be deemed qualified while the person is in the process of being certified or licensed under a certification or license acceptable to the division. Such staff must meet the requirements of the certification or licensure process, must be supervised by a staff person meeting one of the requirements of paragraphs "1" to "4" above, and must be fully certified or licensed within two years of the date on which the person began to provide licensed program services. The two-year time frame is continuous from the person's date of first employment by the program, including if the person changes employment from one program to another.

7. A person employed before July 1, 2010, and continuously since that date at a program licensed pursuant to this chapter, who is not qualified as described in any of the paragraphs "1" to "5" above, shall be deemed qualified as long as such person remains employed by that program and that program remains licensed. Such staff shall maintain a minimum of 30 hours of training every two years, including a minimum of 3 hours of ethics training, and shall be supervised by a staff person meeting at least one of the conditions of paragraphs "1" to "4" above.

(2) The program shall review job descriptions annually and whenever there is a change in a position's duties or required qualifications.

(3) The program shall include job descriptions in the personnel section of the policies and procedures manual.

c. The program shall conduct a written evaluation of job performance with each staff person at least annually. The evaluation shall include the opportunity for the staff person to comment.

d. The program shall maintain a personnel record on each staff person. The record shall contain, as applicable:

(1) Verification of training, experience, qualifications, and professional credentials;

(2) Job performance evaluations;

(3) Incident reports;

(4) Disciplinary action taken; and

(5) Documentation of review of and agreement to adhere to confidentiality laws and regulations.

This review and agreement shall occur prior to the staff person's assumption of duties.

e. The personnel policies and procedures shall ensure confidentiality of personnel records and shall specify staff authorized to have access to personnel information.

*f.* The program shall notify the division in writing within ten days of being informed that a staff person has been sanctioned or disciplined by a certifying or licensing body. Such notice shall include the sanction or discipline order.

**155.21(9)** *Child abuse, dependent adult abuse and criminal history background checks.* The program's policies and procedures shall address child abuse, dependent adult abuse and criminal history background checks.

*a.* The program shall prohibit mistreatment, neglect, or abuse of children and dependent adults and shall specify reporting and enforcement procedures. Alleged violations shall be reported immediately to the program's executive director and appropriate department of human services personnel. Policies and procedures on reporting alleged violations shall be in compliance with subrule 155.21(10). A staff person found to be in violation of Iowa Code sections 232.67 through 232.70, as substantiated by a department of human services investigation, shall be subject to the program's policies concerning termination.

*b.* For each staff person working with juveniles as set forth in Iowa Code section 125.14A or with dependent adults as set forth in Iowa Code chapter 235B, the personnel record shall contain:

(1) Documentation of a criminal history background check with the Iowa division of criminal investigation on all new staff applicants. The background check shall include asking whether the applicant has been convicted of a crime.

(2) A written, signed and dated statement furnished by a new staff applicant which discloses any substantiated report of child abuse, neglect or sexual abuse or dependent adult abuse.

(3) Documentation of a check prior to permanent acceptance of a person as staff, with the Iowa central registry for any substantiated reports of child abuse, neglect or sexual abuse pursuant to Iowa Code section 125.14A or substantiated reports of dependent adult abuse for all staff hired or accepted on or after July 1, 1994, pursuant to Iowa Code chapter 235B.

*c.* A person who has a record of a criminal conviction or founded child abuse report or founded dependent adult abuse report shall not be hired or accepted as staff unless an evaluation of the crime or founded child abuse or founded dependent adult abuse has been made by the department of human services which concludes that the crime or founded child abuse or founded dependent adult abuse does not merit prohibition of employment. If a record of criminal conviction or founded child abuse or founded dependent adult abuse does exist, the person shall be offered the opportunity to complete and submit Form 470-2310, Record Check Evaluation. In its evaluation, the department of human services shall consider the nature and seriousness of the crime or founded abuse in relation to the position sought, the time elapsed since the commission of the crime or founded abuse, the circumstances under which the crime or founded abuse was committed, the degree of rehabilitation and the number of crimes or founded abuses committed by the person involved.

*d.* A staff person providing screening, OWI evaluation, assessment or treatment in accordance with this chapter shall complete two hours of training on identification and reporting of child abuse and dependent adult abuse within six months of initial employment and at least two hours of additional training every five years thereafter.

**155.21(10)** *Patient records.* The program's policies and procedures shall describe compilation, storage and dissemination of patient records and release or disclosure of information.

*a.* The policies and procedures shall ensure that:

(1) The program protects the patient record against loss, tampering or unauthorized disclosure of information;

(2) The content and format of patient records are uniform;

(3) All entries in the patient record are in chronological order, signed, dated and legible. When records are maintained electronically, a staff identification code number authorizing access shall be accepted in lieu of a signature;

(4) Each entry in the patient record is made in permanent ink, by typewriter, or by computer; and

(5) Entries in the patient record use language consistent with generally accepted standards of practice and do not include abstract terms, technical jargon or slang.

*b.* The program shall provide adequate physical facilities for the secure storage, processing and handling of patient records.

c. Appropriate patient records shall be readily accessible to staff as specifically authorized by program policy.

d. The program shall appropriately maintain and dispose of patient records. Patient records shall be maintained for not less than seven years from the date they are officially closed.

e. Each file cabinet or storage area containing patient records shall be locked.

f. The program shall release or disclose information on individuals seeking program services or on patients in strict accordance with the Health Insurance Portability and Accountability Act (HIPAA) and state and federal confidentiality laws, rules and regulations.

(1) The confidentiality of substance use disorder patient records and information is protected by HIPAA and the regulations on confidentiality of alcohol and drug abuse patient records, 42 CFR Part 2, which implement federal statutory provisions, 42 U.S.C. 290dd-3 applicable to alcohol abuse patient records, and 42 U.S.C. 290ee-3 applicable to drug abuse patient records.

(2) The confidentiality of problem gambling patient records and information is protected by HIPAA, Iowa Code chapter 228 and Iowa Code section 22.7(35).

g. A program that provides licensed program services via electronic means shall inform the patient of the limitations and risks associated with such services and shall document in the patient record that such notice has been provided.

h. Upon receipt of a properly executed written release of information or authorization to disclose signed by the patient, the program shall release patient records in a timely manner. A program shall not refuse to release patient records related to continuation of care solely because payment has not been received. A program may refuse to release patient records that are unrelated to continuation of care if payment has not been received. A program may refuse to file the reporting form required by 641—subrule 157.3(1), “Notice Iowa Code 321J—Confidential Medical Record,” reporting screening, evaluation, and treatment completion, if payment has not been received for such services.

**155.21(11) Assessment and admission.** The program’s policies and procedures shall address screening, assessment, referral and admission and documentation of such activities in the patient record.

a. The program shall conduct an assessment with each patient prior to admission unless the patient’s current risk factors indicate a need for immediate admission.

(1) If the program admits a patient based on a screening or initial assessment that indicates the patient requires immediate admission, that screening or initial assessment must be updated and expanded to a full assessment when the patient’s current risk factors are stabilized.

(2) The assessment shall be documented in the patient record and shall be organized in a manner that supports development of a treatment plan by the program or by any program to which the patient is referred.

b. The program shall implement a uniform assessment process that describes:

(1) The information to be gathered;

(2) Procedures for accepting a referral from another program, agency or organization;

(3) Procedures for referring a patient to another program, agency or organization.

c. A substance use disorder treatment program, problem gambling treatment program, or substance use disorder and problem gambling treatment program shall update the assessment on an ongoing basis, when clinically indicated, and within the periods of time specified for each level of care in the management-of-care review process.

d. The results of each assessment shall be clearly explained to the patient, and to the patient’s family when appropriate, and such explanation shall be documented in the patient record.

e. At the time of admission, a substance use disorder treatment program, problem gambling treatment program, or substance use disorder and problem gambling treatment program shall document that the patient has been informed of:

(1) The general nature and goals of the program;

(2) Rules governing patient conduct and infractions that can lead to disciplinary action or discharge from the program;

(3) The hours during which services are available;

(4) The costs to be borne by the patient;

- (5) Patient rights and responsibilities;
- (6) Confidentiality laws, rules and regulations; and
- (7) Safety and emergency procedures.

**155.21(12) Treatment plans.** The policies and procedures for substance use disorder treatment programs, problem gambling treatment programs, and substance use disorder and problem gambling treatment programs shall describe the program's uniform process for developing individualized treatment plans based on ongoing assessment and documentation of such plans in the patient record.

a. Staff shall initiate development of the treatment plan as soon after the patient's admission as is clinically feasible and within the period of time between admission and the review date specified for that level of care in the management-of-care review process.

b. The treatment plan shall minimally contain:

- (1) A summary of assessment findings;
- (2) Patient short- and long-term goals;
- (3) The type and frequency of planned treatment activities;
- (4) The staff responsible for the patient's treatment; and
- (5) Culturally and environmentally specific considerations.

c. Staff shall develop each treatment plan in partnership with the patient, with patient participation documented in the patient record. The treatment plan shall be written in a manner clearly understandable to the patient. Staff shall give the patient a copy of each treatment plan. The patient and staff shall review and revise the treatment plan when clinically indicated and in accordance with the time frames specified in the management-of-care review process.

d. Treatment plan reviews shall be based on ongoing assessment and shall specify the indicated level of care and licensed program services and any revision of treatment plan goals. The date of the review and any revision of the treatment plan shall be documented in the patient record.

**155.21(13) Progress notes.** The policies and procedures for substance use disorder treatment programs, problem gambling treatment programs, and substance use disorder and problem gambling treatment programs shall describe the program's uniform process for reviewing a patient's current status and progress in meeting treatment plan goals and documenting such review in the patient record.

a. Progress notes shall include the date each service was provided or observation was made and the name and title of the staff person providing each service.

b. Staff shall enter a progress note following each individual counseling session.

c. Staff shall enter a summary progress note at least weekly for group counseling sessions.

d. Progress notes that involve subjective interpretations of a patient's status or progress should be supplemented with a description of the behavioral observations that were the basis for the interpretation.

**155.21(14) Patient record contents.** The program's policies and procedures shall require that a record be maintained for each patient and shall specify the contents of the patient record.

a. The patient record shall include:

- (1) Any screening;
- (2) Each assessment;
- (3) Results of any physical examination or laboratory test;
- (4) Admission information;
- (5) Any report from a referring source or outside resource;
- (6) Notes from any case conference, consultation, care coordination or case management;
- (7) Any correspondence related to the patient, including letters, electronic communications and telephone conversations;
- (8) Any treatment consent form;
- (9) Any release of information or authorization to disclose;
- (10) Notes on any service provided; and
- (11) Any incident report.

b. For substance use disorder treatment programs, problem gambling treatment programs, and substance use disorder and problem gambling treatment programs, the patient record shall also include:

- (1) Treatment plans;

- (2) Management-of-care reviews;
- (3) Medication records, which shall allow for the monitoring of all medications administered and self-administered and detection of adverse drug reactions;
- (4) Progress notes;
- (5) Discharge summaries completed within 30 days of discharge, which shall be sufficiently detailed to identify the types of services the patient received, action taken to address specific problems identified, and plans for services and referrals postdischarge.

*c.* For problem gambling treatment programs and substance use disorder and problem gambling treatment programs, the patient record shall also include documentation of financial counseling services that assist problem gambling patients in preparing a budget and addressing financial debt options, including restitution and bankruptcy.

**155.21(15) Drug screening.** The program's policies and procedures shall address collection of drug-screening specimens and utilization of drug-screening results. Such policies may state that the program does not conduct drug screening.

*a.* A specimen obtained from a patient shall be collected under direct supervision and analyzed in accordance with program policies, or the program shall have a policy in place to reduce the patient's ability to alter the drug screening.

*b.* Any laboratory used by the program for drug screening and analysis shall comply with federal and state requirements.

*c.* A program conducting on-site drug screening shall comply with the Clinical Laboratory Improvement Act regulations.

*d.* The manner in which drug-screening results are utilized shall be documented in the patient record.

**155.21(16) Medical and mental health services.** The program's policies and procedures shall address patient medical and mental health conditions.

*a.* In addition to assessment of biomedical conditions and complications as described in the ASAM criteria, the program shall take a medical history and perform a physical examination and necessary laboratory tests as follows for patients admitted to the level of care specified:

(1) Medically managed intensive inpatient treatment and medically monitored intensive inpatient treatment: within 24 hours of admission.

(2) Clinically managed high-intensity residential treatment and clinically managed medium-intensity residential treatment: within 7 days of admission.

(3) Clinically managed low-intensity residential treatment: within 21 days of admission.

(4) Crisis stabilization services and opioid treatment program services: within 24 hours of admission.

*b.* A program may accept a medical history or physical examination from a qualified source if the history or examination was completed no more than 90 days prior to the patient's current admission.

*c.* In addition to assessment of emotional, behavioral, and cognitive conditions and complications as described in the ASAM criteria, a program may accept a mental health history from a qualified source if the history was completed no more than three days prior to the patient's current admission.

**155.21(17) Emergency services.** The program's policies and procedures shall address the availability of emergency services for substance use disorders and medical and mental health conditions.

*a.* Emergency services shall be available 24 hours a day, seven days a week.

*b.* Emergency services may be provided by the program or by any other qualified individual, institution, facility, or other legal entity.

*c.* The program shall communicate the availability of emergency services by posting notice at facilities, having a recorded message on the program's telephone system, posting notice on the program's Web site and through program materials.

**155.21(18) Medication control.** The program's policies and procedures shall describe how medications are administered or self-administered in accordance with federal, state and local laws, rules and regulations. Such policies may state that the program does not conduct medication administration or self-administration.

*a.* Staff authorized to administer medications shall be qualified, and a current list of such staff shall be maintained. The following health professionals are designated by rule 657—8.32(124,155A) as qualified individuals to whom a prescriber can delegate the administration of medications:

(1) Persons who have successfully completed a medication administration course reviewed by the board of pharmacy.

(2) Advanced emergency medical technicians and paramedics.

(3) Licensed physician assistants.

(4) Licensed pharmacists.

(5) Nurses, interns or other qualified individuals delegated the responsibility to administer medications by a prescriber licensed by the appropriate state board to administer medications to patients, in accordance with Iowa Code section 155A.4(2) “c.”

*b.* Medication shall be administered only in accordance with the instructions of the attending prescriber. The type and amount of the medication, the time and date, and the staff person administering the medication shall be documented in the patient record.

*c.* Self-administration of medication shall be observed by a staff person who has been oriented to the program’s policies and procedures on self-administration. Self-administration of medication shall be permitted only when the patient’s medication is clearly labeled. The policies and procedures on self-administration shall include:

(1) Medications are ordered or prescribed by a prescriber.

(2) The prescriber agrees that the patient can self-administer the medication.

(3) The medication taken and how and when the medication is taken are documented in the patient record.

*d.* Prescription medication shall not be administered to or self-administered by a patient without a written order signed by a prescriber. All prescribed medications shall be clearly labeled indicating the patient’s full name, the prescriber’s name, the prescription number, and the name and strength of the medication, the dosage, the directions for use, and the date of issue; and the name, address and telephone number of the pharmacy or prescriber issuing the medication. Medications shall be packaged and labeled according to state and federal guidelines.

*e.* If a medication the patient brings to the program is not used, it shall be packaged, sealed and stored. The sealed package of medication shall be returned to the patient, family or designee at the time of discharge.

*f.* Accountability and control of medications.

(1) There shall be a specific routine for medication administration, indicating dose schedules and standardization of abbreviations.

(2) There shall be specific methods for control and accountability of medication products throughout the program.

(3) The staff person in charge of medications shall provide for monthly inspection of all storage units.

(4) Prescription medication containers having soiled, damaged, illegible, or makeshift labels shall be returned to the issuing pharmacist, pharmacy, or prescriber for relabeling or disposal.

(5) Unused prescription medication prescribed for a patient who leaves a program without the patient’s medication shall be destroyed by a staff person with a staff witness, and a notation shall be made in the patient record. When a patient is discharged or leaves the program, medication currently being administered shall be sent, in the original container, with the patient or with a responsible agent, as approved by a prescriber.

*g.* Medication storage shall be maintained in accordance with the security requirements of federal, state and local laws.

(1) All medication shall be maintained in locked storage. Controlled substances shall be maintained in a locked box within the locked cabinet.

(2) Medications requiring refrigeration shall be kept in a refrigerator and separated from food and other items.

(3) Disinfectants and medication for external use shall be stored separately from internal and injectable medications.

(4) The medication for each patient shall be stored in the original container.

(5) All poisonous or caustic medication shall be plainly labeled, stored separately from other medication in a specific well-illuminated cabinet, closet, or storeroom and made accessible only to authorized staff.

*h.* Prescription medication provided to a patient shall be dispensed only from a licensed pharmacy in the state of Iowa in accordance with the pharmacy laws in the Iowa Code, or from a licensed pharmacy in another state according to the laws of that state, or by a licensed prescriber.

*i.* Prescription medication prescribed for one patient shall not be administered to or allowed to be in the possession of another patient.

*j.* Any unusual patient reaction to a medication shall be documented in the patient record and reported to the prescriber immediately.

*k.* Dilution or reconstitution and labeling of medication shall be done only by a licensed pharmacist.

**155.21(19) *Management of care and discharge planning.*** The program's policies and procedures shall use the ASAM criteria for assessment, admission, continued service and discharge decisions and shall describe management-of-care processes.

*a.* The program shall conduct care coordination to meet each patient's needs and promote effective outcomes.

*b.* The program shall conduct management-of-care activities at least minimally within the time frames specified for each level of care.

(1) Medically managed intensive inpatient treatment and medically monitored intensive inpatient treatment: daily.

(2) Clinically managed high-intensity residential treatment, clinically managed medium-intensity residential treatment, partial/day treatment, and intensive outpatient treatment: within seven days of the patient's admission.

(3) Clinically managed low-intensity residential treatment and outpatient treatment: within 30 days of the patient's admission.

*c.* The program shall coordinate patient care with other programs for any licensed program service for which the program is not licensed and with qualified individuals and organizations for any related services the program does not provide, such as crisis stabilization, medical services, mental health services, and social services.

*d.* At the time of the patient's admission, the program shall initiate discharge planning that includes a determination of the patient's continued need for licensed program services and development of a plan to address ongoing patient needs postdischarge.

**155.21(20) *Quality improvement.*** The program's policies and procedures shall describe a written quality improvement plan that encompasses all licensed program services and related program operations.

*a.* The program shall designate a staff person responsible for the quality improvement plan.

*b.* The quality improvement plan shall describe and document monitoring, problem-solving and evaluation activities designed to systematically identify and resolve problems and make continued improvements.

(1) The quality improvement plan shall include specific goals, objectives, and methods.

(2) The quality improvement plan shall include objective criteria to measure its effectiveness.

*c.* The program shall document whether the quality of patient care and program operations are improved and identified problems are resolved.

*d.* The program shall communicate quality improvement plan activities and findings to all staff.

*e.* Quality improvement plan findings are used to detect trends, patterns of performance, and potential problems that affect patient care and program operations.

*f.* The program shall evaluate the effectiveness of the quality improvement plan at least annually and revise the plan as necessary.

**155.21(21) Facility safety and cleanliness.** The program's policies and procedures shall ensure that program physical facilities are clean, well-ventilated, heated, free from vermin, and appropriately furnished and are designed, constructed, equipped, and maintained in a manner that provides for the physical safety of patients, concerned persons, visitors and staff.

- a. If required by local jurisdiction, the program shall maintain a certification of occupancy.
- b. During all phases of construction or alterations of buildings, the level of life safety shall not be diminished in any occupied area. The construction shall be in compliance with all applicable federal, state, and local codes. New construction shall comply with Iowa Code chapter 104A and all applicable federal and local codes and provide for safe and convenient use by disabled individuals.
- c. The program shall have specific policies and procedures for each of the following:
  - (1) Identification, development, implementation, maintenance and review of safety policies and procedures.
  - (2) Promotion and maintenance of an ongoing, facilitywide hazard surveillance program to detect and report all safety hazards.
  - (3) Safe and proper disposal of biohazardous waste.
  - (4) Stairways, halls, and aisles. Stairways, halls, and aisles shall be of substantial, nonslippery material, maintained in a good state of repair, adequately lighted and kept free from obstructions at all times. All stairways shall have handrails.
  - (5) Radiators, registers, and steam and hot water pipes, each of which shall have protective covering or insulation. Electrical outlets and switches shall have wall plates.
  - (6) For programs serving juveniles, fuse boxes that shall be under lock and key or six feet above the floor.
  - (7) Safe and proper handling and storage of hazardous materials.
  - (8) Prohibition against weapon possession; safe and proper removal of weapons.
  - (9) Swimming pools. Swimming pools shall conform to state and local health and safety rules and regulations. Adult supervision shall be provided at all times when juveniles are using the pool.
  - (10) Ponds, lakes, or any bodies of water located on or near the program and accessible to patients, concerned persons, visitors and staff.
  - (11) The written plan to be followed in the event of fire or tornado. The plan shall be conspicuously displayed at the facility.

**155.21(22) Therapeutic environment.** The program's policies and procedures shall provide for the establishment of an environment that preserves human dignity. Program facilities shall have adequate space for the program to provide licensed program services.

- a. The program's policies and procedures shall include a description of how all licensed program services are accessible to people with disabilities or how the program provides accommodations for people with disabilities. All programs shall comply with the Americans with Disabilities Act.
- b. The waiting or reception areas shall be of adequate size and be located so as to ensure patient confidentiality.
- c. Staff shall be available in waiting or reception areas to address the needs of the patients, potential patients, concerned persons, and visitors.
- d. The program's policies and procedures shall include:
  - (1) Possession and use of chemical substances in the facility.
  - (2) Prohibition of smoking.
  - (3) Prohibition of the sale or other provision of any tobacco product.
  - (4) Informing patients of their legal and human rights at the time of admission.
  - (5) Patient communication, opinions, or grievances, with a mechanism for redress.
  - (6) Prohibition of sexual harassment.
  - (7) Patient right to privacy.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.22(125,135) Inpatient and residential program facilities.** Specific standards apply for programs providing clinically managed low-intensity residential treatment, clinically managed

medium-intensity residential treatment, clinically managed high-intensity residential treatment, medically monitored intensive inpatient treatment, and medically managed intensive inpatient treatment. The program's policies and procedures shall address each standard.

**155.22(1) *Health and fire safety inspections.*** Inpatient and residential programs shall comply with applicable department of inspections and appeals rules; state fire marshal's rules and fire ordinances; and applicable local health, fire, occupancy, and safety regulations. The program shall maintain documentation of such compliance.

*a.* Inpatient and residential programs shall comply with standards for food service sanitation in accordance with rules promulgated by the department of inspections and appeals pursuant to 481—Chapter 32 and Iowa Code chapter 137B.

*b.* The use of door locks or closed sections shall be documented in written policies and procedures approved by the fire marshal and governing body.

**155.22(2) *Emergency preparedness.*** Inpatient and residential programs shall have a written emergency preparedness plan for continuation of licensed program services during an emergency or disaster.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.23(125,135) Specific standards for inpatient and residential programs.** The program's policies and procedures shall address each standard.

**155.23(1) *Hours of operation.*** Inpatient and residential programs shall operate seven days per week, 24 hours per day.

**155.23(2) *Meals.*** Inpatient and residential programs shall provide a minimum of three meals per day to each patient. A program where patients are not present during mealtime shall make provisions to make available the necessary meals. Menus shall be prepared in consultation with a dietitian. If patients are allowed to prepare meals, the program shall document conformity with all commonly accepted policies and procedures of state health rules and regulations and food hygiene.

**155.23(3) *Consultation with counsel.*** Patients shall have opportunity for and access to consultation with legal counsel at any reasonable time.

**155.23(4) *Visitation with family and friends.***

*a.* Each patient shall have opportunities for continuing contact with family and friends. If such contact is clinically contraindicated, it may be restricted. Any restriction shall be approved by the treatment supervisor and the executive director. Justification for the restriction shall be documented in the patient record. Any restriction shall be reviewed within three calendar days by the treatment supervisor, who may continue or end the restriction. Continuation of a restriction shall be documented in the patient record and shall be reviewed by the treatment supervisor every three calendar days.

*b.* The program shall establish visiting hours, which shall be conspicuously displayed at the facility and in such a manner to be visible to those entering the facility.

**155.23(5) *Telephone use.***

*a.* Each patient shall have opportunities to conduct private telephone conversations. If such conversations are clinically contraindicated, they may be restricted. Any restriction shall be approved by the treatment supervisor and the executive director. Justification for the restriction shall be documented in the patient record. Any restriction shall be reviewed within three calendar days by the treatment supervisor, who may continue or end the restriction. Continuation of a restriction shall be documented in the patient record and shall be reviewed by the treatment supervisor every three calendar days.

*b.* The program shall establish telephone hours. Emergency telephone conversations may be received at the time of the call or made when necessary.

**155.23(6) *Written communication.***

*a.* Each patient shall have opportunities to conduct private written communications. If such communications are clinically contraindicated, they may be restricted. Any restriction shall be approved by the treatment supervisor and the executive director. Justification for the restriction shall be documented in the patient record. Any restriction shall be reviewed within three calendar days by the treatment supervisor, who may continue or end the restriction. Continuation of a restriction shall be

documented in the patient record and shall be reviewed by the treatment supervisor every three calendar days.

*b.* The program shall establish access to written communications. The program shall not intercept, read, or censor the U.S. mail.

**155.23(7) Facility.** Inpatient and residential program facilities shall be appropriate for 24-hour occupancy.

*a.* Patient bedrooms shall include:

- (1) A sturdily constructed bed;
- (2) A clean mattress protected with a clean mattress pad;
- (3) A designated space for personal possessions and for hanging clothing in proximity to the sleeping area; and
- (4) Curtains or window blinds on any windows.

*b.* Sleeping areas.

- (1) Sleeping areas shall include doors for privacy.
- (2) Sleeping areas shall include partitioning or placement of furniture to provide privacy for all patients.

(3) The number of patients in a room shall be appropriate to the goals of the facility and to the ages, developmental levels, and clinical needs of the patients.

(4) Patients will be allowed to keep and display personal belongings and add personal touches to the decoration of their rooms in accordance with program policy.

(5) Staff shall respect the patient's right to privacy by knocking on the door of the patient's room before entering.

*c.* Clean linen, towels and washcloths shall be available minimally on a weekly basis and more often as needed.

*d.* Bathrooms.

(1) Bathrooms shall provide the facilities necessary for patients' personal hygiene and personal privacy, including:

1. A safe supply of hot and cold running potable water;
2. Clean towels, electric hand dryers or paper towel dispensers, toilet paper and soap;
3. Natural or mechanical ventilation capable of removing odors;
4. Tubs or showers that have slip-proof surfaces;
5. Partitions with doors which provide privacy if a bathroom has multiple toilet stools; and
6. Toilets, wash basins, and other plumbing or sanitary facilities that shall at all times be maintained in good operating condition.

(2) The ratio of bathroom facilities to inpatient and residential patients shall be one tub or shower head per 12 patients, one wash basin per 12 patients and one toilet per 8 patients.

(3) If the facility is coeducational, the program shall designate and so identify separate bathrooms for male and female patients.

*e.* The written plan to be followed in the event of fire or tornado shall be conspicuously displayed on each floor or in each area that patients, concerned persons, staff or visitors occupy at the facility and shall be explained to all inpatient and residential patients as a part of their orientation to the program. Fire drills shall be conducted at least monthly, and tornado drills shall be conducted monthly from April through October.

*f.* Written reports of annual inspections by state or local fire safety officials or private fire protection companies approved by the department shall be maintained with records of corrective action taken by the program based on recommendations articulated in such reports.

*g.* Every facility shall have an adequate water supply from an approved source. A municipal water system shall meet this requirement. Private water sources shall be tested annually.

*h.* The facility shall allow for the following:

- (1) Areas in which a patient may be alone when appropriate; and
- (2) Areas for private conversations with others.

*i.* Articles of grooming and personal hygiene that are appropriate to the patient's age, developmental level, and clinical state shall be readily available in a space reserved near the patient's sleeping area. If access to such articles is clinically contraindicated as approved by the treatment supervisor, a patient's personal articles may be kept under lock and key by staff. Staff shall explain to the patient the conditions under which the articles may be used. Justification for this restriction shall be documented in the patient record.

*j.* If patients maintain their own living quarters or perform day-to-day housekeeping activities, these responsibilities shall be clearly defined in writing and be a part of the patient orientation program. Staff assistance and equipment shall be provided as needed.

*k.* Patients shall be allowed to wear their own clothing in accordance with program rules. If clothing is provided by programs, it shall be suited to the climate and appropriate. A laundry room shall be accessible so patients may wash their clothing.

*l.* The program shall ensure that the use and location of noise-producing equipment and appliances, such as television sets, radios, computers, and CD players, do not interfere with clinical and therapeutic activities.

*m.* The program shall provide recreation and outdoor activities unless clinically contraindicated.

**155.23(8) Religion-culture.** Program policies and procedures shall include a written description of any religious orientation, religious practice, or religious restrictions. For juvenile patients, this description shall be provided to the patient, parent(s) or guardian, and placing agency at the time of admission in compliance with HIPAA and DHHS, 42 CFR Part 2, regulations on the confidentiality of alcohol and drug abuse patient records. For adult patients, this information shall be available during orientation. The patient shall have the opportunity to participate in religious activities and services in accordance with the patient's faith or that of a patient's parent(s) or guardian if the patient is a minor. The program shall, when necessary and reasonable, arrange transportation to religious activities.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.24(125,135) Specific standards for inpatient and residential programs licensed to provide services to juveniles.** Inpatient and residential programs that provide services to juveniles under the age of 18 shall also comply with the following standards. The program's policies and procedures shall address each standard.

**155.24(1) Personal possessions.** A program shall allow a patient to bring personal belongings. The program may limit or supervise the use of these items. The program shall ensure that each patient has adequate, clean, well-fitting, attractive, and seasonable clothing as required for health, comfort, and physical well-being. The clothes should be appropriate to the patient's individual needs, age, and sex.

**155.24(2) Family involvement.** The program shall encourage family involvement.

**155.24(3) Money.** Money earned or received as a gift or as an allowance by a patient shall be that patient's personal property. The program shall maintain a separate accounting system for patient money and shall address the patient's use of funds.

**155.24(4) Discipline.** The program's methods for control and discipline of juveniles shall be available to all staff and to the juvenile's family. Staff shall be in control of and responsible for discipline at all times. Discipline shall not include withholding basic necessities such as food, clothing, or sleep.

*a.* The program shall prohibit staff or patients from utilizing corporal punishment as a method of disciplining or correcting patients. This policy shall be communicated in writing to all staff.

*b.* The program's written policies on behavior expectations shall be made available to the patient and the patient's parent(s) or guardian, including:

(1) The general expectations of behavior, including the program's rules and practices.

(2) The range of reasonable consequences that may be used to deal with inappropriate behavior.

**155.24(5) Number of staff.** The program shall have staff coverage seven days per week, 24 hours per day. The number and qualifications of the staff will vary depending on the needs of the patients.

*a.* The program shall have a 24-hour supervisory consultation on-call system. During prime programming time, there shall be at least a one-to-eight staff-to-patient ratio.

b. Comprehensive residential facilities, as defined in 441—Chapter 115, shall have at least a one-to-five staff-to-patient ratio during prime programming time. A staff person shall be in each living unit at all times when juveniles are in residence, and there shall be a minimum of three nighttime checks between the hours of 12 midnight and 6 a.m. These checks shall be logged. The program's policies and procedures shall address nighttime checks.

c. The program shall define its prime programming time.

**155.24(6)** *Illness, accident, death, or absence from the inpatient or residential program.* The program shall notify the patient's parent(s), guardian, and responsible agency of any serious illness, incident involving serious bodily injury, absence, or removal of the juvenile from the facility, in compliance with HIPAA and DHHS, 42 CFR Part 2, regulations on the confidentiality of alcohol and drug abuse patient records. In the event of the death of a patient, the program shall immediately notify the prescriber, the patient's parent(s) or guardian, the placing agency, and the appropriate state authority.

**155.24(7)** *Educational services.* The program's educational program shall meet the requirements of the department of education and shall be available for each patient in accordance with abilities and needs. [ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.25(125,135) Specific standards for substance use assessment and OWI evaluation-only programs.** Programs that provide substance use assessment and OWI evaluation-only services shall also comply with the following standards. The program's policies and procedures shall address each standard.

**155.25(1)** A program conducting OWI evaluations on persons convicted of operating a motor vehicle while intoxicated (OWI) pursuant to Iowa Code section 321J.2 and on persons whose driver's license or nonresident operating privileges are revoked under Iowa Code chapter 321J shall do so in accordance with 641—Chapter 157.

**155.25(2)** The program shall make its fees public and shall inform potential patients of the fee at the time the assessment or evaluation is scheduled.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.26 to 155.33** Reserved.

**641—155.34(125,135) Specific standards for enhanced treatment services.** Substance use disorder and problem gambling treatment programs licensed to provide enhanced treatment services shall also comply with the following standards. The program's policies and procedures shall address each standard.

**155.34(1)** *Personnel.* The program shall meet the requirements in subrule 155.21(8). In addition:

a. The program's policies and procedures shall include job descriptions for positions that provide prevention services for substance use disorders and problem gambling, treatment for substance use disorders and problem gambling, services for medical conditions, and services for mental health conditions.

b. The program shall have staff on site who are qualified to provide prevention and early intervention services for substance use disorders and problem gambling, treatment for substance use disorders and problem gambling, services for medical conditions, and services for mental health conditions.

**155.34(2)** Reserved.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.35(125,135) Specific standards for opioid treatment programs.** All programs that use methadone or other medications approved by the Food and Drug Administration under Section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and by the state of Iowa for use in the treatment of opioid addiction shall comply with this rule, HIPAA, and Part II, Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, 42 CFR Part 8, Opioid Drugs in Maintenance and Detoxification Treatment of Opiate Addiction, effective May 18, 2001.

**155.35(1)** *Definitions.*

*“Accredited opioid treatment program”* means an opioid treatment program that is the subject of a current, valid accreditation from an accreditation body approved by the Substance Abuse and Mental Health Services Administration (SAMHSA).

*“Certification”* means the process by which SAMHSA determines that an opioid treatment program is qualified to provide opioid treatment under the federal opioid treatment standards.

*“Certification application”* means the application filed by an opioid treatment program for purposes of obtaining certification from SAMHSA.

*“Certified opioid treatment program”* means an opioid treatment program that is the subject of a current, valid certification.

*“Comprehensive maintenance treatment”* means maintenance treatment provided in conjunction with a comprehensive range of appropriate medical and rehabilitative services.

*“Detoxification treatment”* means the dispensing of an opioid agonist treatment medication in decreasing doses to an individual to alleviate adverse physical or psychological effects incident to withdrawal from the continuous or sustained use of an opioid drug and as a method of bringing the individual to a drug-free state within such a period.

*“Interim maintenance treatment”* means detoxification treatment for a period of more than 30 days but not in excess of 180 days.

*“Maintenance treatment”* means the dispensing of an opioid agonist treatment medication at stable dosage levels for a period in excess of 21 days in the treatment of an individual for opioid addiction.

*“Medical and rehabilitative services”* means services such as medical evaluations, counseling, and rehabilitative and other social programs (e.g., vocational and educational guidance, employment placement) that are intended to help patients in opioid treatment programs become or remain productive members of society.

*“Medical director”* means a physician who is licensed to practice medicine in accordance with Iowa Code chapter 148, 150, or 150A and who assumes responsibility for administering all medical services performed by the program, either by performing them directly or by delegating specific responsibility to authorized program physicians and health care professionals functioning under the medical director’s direct supervision.

*“Medication unit”* means a facility established as part of, but geographically separate from, an opioid treatment program from which licensed private practitioners or community pharmacists dispense or administer opioid agonist treatment medications or collect samples for drug testing or analysis.

*“Opiate addiction”* means a cluster of cognitive, behavioral, and physiological symptoms in which the individual continues use of opiates despite significant opiate-induced problems. Opiate dependence is characterized by an individual’s repeated self-administration of opiates that usually results in opiate tolerance, withdrawal symptoms, and compulsive drug-taking. Dependency may occur with or without the physiological symptoms of tolerance and withdrawal.

*“Opioid agonist treatment medication”* means any opioid agonist drug that is approved by the Food and Drug Administration under Section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) for use in the treatment of opiate addiction.

*“Opioid drug”* means any drug having an addiction-forming or addiction-sustaining liability similar to morphine or being capable of conversion into a drug having such addiction-forming or addiction-sustaining liability.

*“Opioid treatment”* means the dispensing of an opioid agonist treatment medication, along with providing a comprehensive range of medical and rehabilitative services, when clinically necessary, to an individual to alleviate the adverse medical, psychological, or physical effects incident to opiate addiction. This term encompasses detoxification treatment, short-term detoxification treatment, long-term detoxification treatment, maintenance treatment, comprehensive maintenance treatment, and interim maintenance treatment.

*“Opioid treatment program”* or *“OTP”* means a program or practitioner engaged in opioid treatment or interim maintenance treatment.

*“Patient”* means any individual who undergoes treatment in an opioid treatment program.

*“Program sponsor”* means the person responsible for the operation of the opioid treatment program and who assumes responsibility for all its employees, including any practitioners, agents, or other persons providing medical, rehabilitative, or counseling services at the program or any of its medication units. The program sponsor need not be a licensed physician but shall employ a licensed physician for the position of medical director.

*“Short-term detoxification treatment”* means detoxification treatment for a period not in excess of 30 days.

*“State authority”* means the Iowa department of public health, division of behavioral health, which regulates the treatment of opiate addiction with opioid drugs.

*“Treatment plan”* means a plan which outlines for each patient attainable short-term treatment goals that are mutually acceptable to the patient and the opioid treatment program and which specifies the services to be provided and the frequency and schedule for their provision.

**155.35(2) Required approvals.** All opioid treatment programs shall be licensed or approved by the committee and shall maintain all other approvals required by the Drug Enforcement Administration, Substance Abuse and Mental Health Services Administration and the Iowa board of pharmacy in order to provide services.

**155.35(3) Central registry system.** To prevent simultaneous enrollment of a patient in more than one program, all opioid treatment programs shall participate in a central registry as established by the division.

Prior to admission of an applicant to an opioid treatment program, the program shall submit to the registry the applicant’s name, birth date, and date of intended admission, and any other information required for the clearance procedure. No person shall be admitted to a program who is found by the registry to be participating in another such program. All opioid treatment programs shall report all admissions, discharges, and transfers to the registry immediately. All information reported to the registry from the programs and all information reported to the programs from the registry shall be treated as confidential in accordance with HIPAA and DHHS regulations on the confidentiality of alcohol and drug abuse patient records, 42 CFR Part 2.

*a. Definitions.* For purposes of this subrule:

*“Central registry”* means the system through which the Iowa department of public health, division of behavioral health, obtains patient identifying information about individuals applying for maintenance or detoxification treatment for the purpose of preventing an individual’s concurrent enrollment in more than one such program.

*“Opioid treatment program”* means a detoxification or maintenance treatment program which is required to report patient identifying information to the central registry and which is located in the state.

*b. Restrictions on disclosure.* A program may disclose patient identifying information to a central registry for the purpose of preventing the multiple enrollment of a patient only if:

- (1) The disclosure is made when:
  1. The patient is admitted for treatment; or
  2. The treatment is interrupted, resumed or terminated.
- (2) The disclosure is limited to:
  1. Patient identifying information; and
  2. Relevant dates of admission.

The program shall inform the patient of the required disclosure prior to admission.

*c. Use of information limited to prevention of multiple enrollments.* Any information disclosed to the central registry to prevent multiple enrollments shall not be redisclosed by the registry nor shall such information be used for any other purpose than the prevention of multiple enrollments unless so authorized by court order in accordance with HIPAA and 42 CFR Part 2.

*d. Permitted disclosure by the central registry to prevent a multiple enrollment.* If a program petitions the central registry and an identified patient is enrolled in another program, the registry may disclose:

- (1) The name, address, and telephone number of the program in which the patient is currently enrolled to the inquiring program; and

(2) The name, address, and telephone number of the inquiring program to the program in which the patient is currently enrolled. The programs may communicate as necessary to verify that no error has been made and to prevent or eliminate any multiple enrollment.

**155.35(4) Admission requirements.**

a. Prior to or at the time of a patient's admission to an opioid treatment program, the program shall conduct a comprehensive assessment so as to determine appropriateness for admission.

b. The program shall verify, to the extent possible, the patient's name, address, and date of birth.

c. The program physician shall determine and document in the patient's record that the patient is physiologically dependent on narcotic substances and has been physiologically dependent for at least one year prior to the patient's admission. A one-year history of addiction means that the patient was physiologically dependent on a narcotic at a time one year before the patient's admission to a program and was addicted for most of the year preceding admission.

(1) When physiological addiction cannot be clearly documented, the program physician or an appropriately trained staff member designated and supervised by the physician shall record in the patient's record the criteria used to determine the patient's current physiologic dependence and history of addiction. In the latter circumstance, the program physician shall review, date, and countersign the supervised staff member's evaluation to demonstrate the physician's agreement with the evaluation. The program physician shall make the final determination concerning a patient's physiologic dependence and history of addiction. The program physician shall also sign, date, and record a statement that the physician has reviewed all the documented evidence to support a one-year history of addiction and current physiologic dependence by the patient and that in the physician's reasonable clinical judgment the patient fulfills the requirements for admission to maintenance treatment. Before the program administers any medication to the patient, the program physician shall complete and record the statement documenting the patient's addiction and current physiologic dependence.

(2) When a patient has voluntarily left an opioid treatment program in good standing and seeks readmission within two years of discharge, the program shall document the following information about the patient:

1. Prior opioid treatment of six months or more; and

2. That in the physician's medical judgment, treatment of the patient is warranted. Such documentation shall be entered in the patient's record by the program physician.

d. The program shall collect a drug screening sample for analysis. Where dependence is substantially verified through other indicators, a negative drug screen will not necessarily preclude admission to the program.

e. Prior to a patient's admission, the program shall confirm with the central registry that the patient is not currently enrolled in another opioid treatment program.

f. If a potential patient has previously been enrolled in another program, the admitting program shall request from the previous program a copy of the patient's assessment data, treatment plan, and discharge summary including the type of or reason for discharge. All programs subject to these rules shall promptly respond to such a request upon receipt of a valid release of information.

g. A person under the age of 18 is required to have had two documented attempts at short-term detoxification or drug-free treatment to be eligible for maintenance treatment. A one-week waiting period is required after such a detoxification attempt, however, before an attempt is repeated. The program physician shall document in the patient's record that the patient continues to be, or is again, physiologically dependent on narcotic drugs.

h. Program staff shall ensure that a patient is voluntarily participating in the program, and the patient shall sign a Consent to Treatment Form.

i. Pregnant patients may be admitted to opioid treatment in accordance with the following provisions:

(1) Evidence of current physiological dependency is not needed if the program physician certifies the pregnancy and, in the physician's reasonable judgment, finds treatment to be justified. Documentation of all findings and justifications for admission shall be documented in the patient's record by the program physician prior to the administration of the initial dose of medication.

(2) Pregnant patients shall be offered comprehensive prenatal care. If the program cannot provide prenatal services, the program shall assist the patient in obtaining such services and shall coordinate ongoing care with the collateral provider.

(3) The program physician shall document that the patient has been informed of the possible risks to the unborn child from the use of medication and the risks of continued use of illicit substances.

(4) Should a program have a waiting list for admission to the program, pregnant patients shall be given priority.

**155.35(5) Placement, admission and assessment.** The program shall have written criteria for considering an individual for placement and admission. In addition, the program shall maintain current procedures to ensure that patients are admitted to maintenance treatment by qualified staff who have determined by using accepted medical criteria, such as those outlined in the Diagnostic and Statistical Manual for Mental Disorders, that the person is currently addicted to an opioid drug.

a. The program physician or a designee who is a qualified medical professional shall complete a medical evaluation and a current psychological/mental status evaluation of the patient prior to the administration of the initial dose of medication. If the history and current psychological/mental status evaluation is completed by an individual other than the program physician, the program shall document in the patient's case record that this information was reviewed by the program physician prior to administration of the initial dose of medication.

b. The medical evaluation of the patient shall include, but not be limited to:

(1) A complete medical history;

(2) An assessment of the patient's current psychological and mental status;

(3) A physical examination, including examination for:

1. Pulmonary, liver, or cardiac abnormalities;

2. Infectious disease; and

3. Dermatologic sequela of addiction;

(4) Laboratory tests, including:

1. Serological test for syphilis; and

2. Urine screening for drugs;

(5) An intradermal PPD (tuberculosis skin test) and review of tetanus immunization status; and

(6) When indicated, an EKG, chest X-ray, pap smear, pregnancy test, sickle cell screening, complete blood count and white cell differential, multiphasic chemistry profile, routine and microscopic urinalysis, or other tests indicated by the patient's condition.

**155.35(6) Treatment plans.** Based upon the initial assessment, an individualized written treatment plan shall be developed and recorded in the patient's case record.

a. A treatment plan shall be developed and shall delineate the patient's immediate needs and the actions required to meet these needs.

b. The treatment plan shall be developed as soon after the patient's admission as is clinically feasible, but no later than 30 days following the patient's admission to an outpatient opioid maintenance treatment program.

c. Treatment plans shall be developed in partnership with the patient. Comprehensive treatment plans shall be reviewed by the primary counselor and the patient as often as necessary, but no less than every 90 days during the first year and semiannually each subsequent year for opioid treatment modalities. Treatment plans shall be reviewed by the program physician on an annual basis.

**155.35(7) Rehabilitative services.** The program shall have policies and procedures on the minimum attendance for rehabilitative services relative to the patient's progress and length of involvement in treatment. The minimum frequency of rehabilitative services shall occur at the same frequency as that of on-site dosing for patients receiving more than two take-home dosages a week in the first year. The minimum frequency for rehabilitative services for patients receiving two or fewer take-home dosages shall be weekly. The program shall provide rehabilitative services that are appropriate for the patient based on needs identified during the assessment process. A patient who does not comply with the program's rehabilitative service requirements shall be placed on a period of probation as defined by the program or shall be required to immediately increase the frequency of clinic attendance for medication

and rehabilitative services. If, during a period of probation, the patient continues to be in noncompliance with rehabilitation services, the program shall continue to increase the attendance requirement until daily attendance is obtained or until the patient complies with rehabilitative services. This requirement shall not preclude the program's ability to determine that discharge of a patient is warranted for therapeutic reasons or program needs.

**155.35(8) Medication administration.**

a. The program physician shall determine the patient's initial and subsequent dose of medication and on-site dosing schedule and shall assume responsibility for the amount of the narcotic drug administered or dispensed and shall record, date, and sign in each patient's case record each change in the dosage schedule. The physician shall directly communicate orders to the pharmacy or registered or licensed personnel supervising medication administration. The program physician may communicate such orders verbally; however, orders shall be reduced to writing and countersigned within 72 hours by the program physician.

b. The initial dose of medication shall not exceed 30 milligrams, and the total dose for the first day shall not exceed 40 milligrams, unless the program physician documents in the patient's case record that 40 milligrams did not suppress opiate abstinence symptoms. A patient transferring into the program or on a guest-dosing status may receive an initial dosage of no more than the last daily dosage authorized by the former or primary program.

(1) Medication shall be administered by a professional authorized by law.

(2) No medication shall be administered until the patient has completed admission procedures unless the patient enters the program on a weekend and the central registry cannot be contacted. If, in the clinical judgment of the program physician, a patient is experiencing an emergency situation, the admission procedures may be completed on the following workday.

c. Administration.

(1) Take-home medication shall be labeled in accordance with state and federal law and have childproof caps.

(2) A medication administration log shall be kept in the dosing area and in the patient's case record. The amount of medication administered and the signature of the staff member authorized to administer the medication shall also be included in the patient's case record. No dose shall be administered until the patient has been positively identified and the dosage amount has been compared with the currently ordered and documented dosage level.

(3) Ingestion shall be observed and verified by the staff person authorized to administer the medication.

(4) The program physician shall record, date, and sign in each patient's case record each change in the dosage schedule. Daily dosages of medications in excess of 100 milligrams shall be dispensed only with the approval of the program physician and shall be documented and justified in the patient's case record.

**155.35(9) Take-home or unsupervised medication use.**

a. Take-home medication may be given to patients who demonstrate a need for a more flexible schedule in order to enhance and continue rehabilitative progress. For patients receiving take-home medication, the program shall document the following requirements:

(1) Absence of recent abuse of drugs (narcotic or nonnarcotic), including alcohol;

(2) Regular attendance at the clinic;

(3) Attendance at a licensed or approved treatment program for rehabilitative services (e.g., programs are considered approved when licensed or approved in accordance with Iowa Code chapter 125);

(4) Absence of recent criminal activity;

(5) Stable home environment and social relationships;

(6) Active employment or participation in school or similar responsible activities related to employment, education or vocation; and

(7) Assurance that medication can be safely transported and stored by the patient for the patient's own use.

b. Prior to granting take-home privileges, the program physician shall document in the patient's case record that all the above criteria have been considered and that, in the physician's professional judgment, the risk of diversion or abuse is outweighed by the rehabilitative benefits to be derived.

c. If the patient meets the above criteria, the patient may receive take-home medication according to the following guidelines:

(1) During the first 90 days of treatment, the take-home supply is limited to a single dose each week;

(2) During the second 90 days of treatment, the take-home supply is limited to two doses per week;

(3) During the third 90 days of treatment, the take-home supply is limited to three doses per week;

(4) In the remaining months of the first year, a patient may be given a maximum six-day supply of take-home medication;

(5) After one year of continuous treatment, a patient may be given a maximum two-week supply of take-home medication;

(6) After two years of continuous treatment, a patient may be given a maximum one-month supply of take-home medication; and

(7) Take-home medication shall not be dispensed to patients in interim maintenance treatment or detoxification.

d. If a patient is unable to conform to the applicable mandatory schedule, a revised schedule may be permitted provided that the program receives an exception to these rules from the division and SAMHSA, when applicable. A copy of the written exception shall be placed in the patient's case record. The division will consider exceptions only in unusual circumstances. When a program is applying for less frequent pickups for patients, approval will be based on considerations in addition to distance if another program exists within 25 miles of the patient's residence.

e. Should a patient receiving take-home medication provide a drug screen that is confirmed either positive for substances or negative for the prescribed medication, the program shall ensure that, when test results are used, presumptive laboratory results are distinguished from results that are definitive.

(1) The program physician shall place the patient on three months' probation, as defined by the program, or increase the patient's frequency of clinic dosing after considering the patient's overall progress and length of involvement in the program.

(2) Should the patient provide a drug screen that is positive for substances or negative for medication during a period of probation, the program physician shall increase the patient's frequency of clinic attendance for dosage pickup for at least three months. If after the three-month period the patient meets the eligibility criteria, the patient may return to the previous take-home schedule.

f. Take-home or unsupervised dosages of medication in excess of 100 milligrams may be dispensed by the program physician when the need for those dosages is carefully reviewed and considered and justified in the patient's case record based on the physician's clinical judgment.

**155.35(10) Drug testing.** Each program shall establish policies and procedures for the collection of drug-screening specimens and utilization of results.

a. The program shall ensure that an initial drug-screening test or analysis is completed for each prospective patient and that at least eight additional random tests or analyses are performed on each patient during the patient's first year in maintenance treatment and that at least quarterly random tests or analyses are performed on each patient in maintenance treatment for each subsequent year. When a sample is collected from each patient for such a test or analysis, it shall be done in a manner that minimizes opportunity for falsification. Each test or analysis shall be analyzed for opiates, methadone, amphetamines, cocaine, and barbiturates. In addition, if any other drug or drugs have been determined by a program to be abused in that program's locality, or as otherwise indicated, each test or analysis must be analyzed for any of those drugs as well. Any laboratory that performs the testing required under this rule shall be in compliance with all applicable federal proficiency testing and licensing standards and all applicable state standards.

b. The program shall ensure that test results are not used as the sole criterion to force a patient out of treatment but are used as a guide to change treatment approaches. The program shall also ensure

that when test results are used, presumptive laboratory results are distinguished from results that are definitive.

**155.35(11) *Diversion prevention plan.***

*a.* The program shall develop a diversion identification and prevention plan that:

(1) Outlines the methods by which the program shall detect possible diversion of take-home medication; and

(2) Describes the actions to be taken when diversion is identified or suspected.

*b.* The program shall establish and implement proactive procedures to reduce the likelihood or possibility of diversion.

**155.35(12) *Interim maintenance treatment.***

*a.* An approved program may offer interim maintenance treatment when, due to capacity, the program cannot place the patient in a program offering comprehensive services within 14 days of the patient's application for admission.

*b.* An approved program may provide interim maintenance treatment only if the program also provides comprehensive maintenance treatment to which interim maintenance treatment patients may be transferred.

*c.* Interim maintenance treatment program approval.

(1) Before a public or nonprofit private narcotic treatment program may provide interim maintenance treatment:

1. The program must receive approval of both the U.S. Food and Drug Administration and the division of behavioral health; and

2. The program director must certify that the program seeking such authorization is unable to place patients in a public or private nonprofit program within a reasonable geographic area within 14 days of the patient's application for admission and that interim maintenance treatment will not reduce the capacity of the program's comprehensive maintenance treatment.

(2) Patients admitted to interim maintenance treatment shall be transferred to comprehensive maintenance treatment within 120 days of admission.

*d.* Minimum standards for interim maintenance treatment. The program may admit a patient who is eligible for comprehensive maintenance treatment to interim maintenance treatment if the patient cannot be placed in a public or private nonprofit comprehensive program within a reasonable geographic area and within 14 days of application for services. An initial drug screen and at least two other drug screens shall be taken from the patient during the maximum admission period of 120 days. A program shall establish and follow reasonable criteria for determining the transfer of patients to comprehensive maintenance treatment. These transfer criteria shall be in writing and available for inspection and shall include at a minimum a preference for the transfer of pregnant patients. Interim maintenance shall be conducted in accordance with all applicable federal regulations and state rules. The program shall notify the division when a patient begins interim treatment, when a patient leaves interim treatment, and when a patient transfers to comprehensive maintenance treatment. Such notifications shall be documented by the program in the patient's case record. All requirements for comprehensive maintenance treatment apply to interim maintenance treatment, with the following exceptions:

(1) The medication is required to be administered daily under observation;

(2) Take-home medication is not allowed;

(3) Initial and comprehensive treatment plans are not required;

(4) A primary counselor is not required to be assigned to the patient; and

(5) Interim maintenance treatment cannot be provided for longer than 120 days in any 12-month period.

**155.35(13) *Accreditation.*** All opioid treatment programs shall obtain and retain accreditation by a recognized national accreditation organization. The national accreditation bodies currently recognized as meeting committee criteria are:

*a.* The Joint Commission.

*b.* The Council on Accreditation of Rehabilitation Facilities (CARF).

*c.* The Council on Accreditation of Children and Family Services (COA).

d. The American Osteopathic Association (AOA).  
[ARC 1926C, IAB 4/1/15, effective 5/6/15]

#### TUBERCULOSIS (TB) SCREENING: HEALTH CARE WORKERS AND RESIDENTS

**641—155.36(125,135) Purpose.** The purpose of these rules is to outline procedures for conducting tuberculosis (TB) screening for health care workers and residents at substance use disorder and problem gambling treatment program facilities. Facilities will need to conduct a risk assessment to determine the risk classification of the facility and to identify appropriate screening criteria. The screening criteria are consistent with those of the U.S. Centers for Disease Control and Prevention (CDC), TB Elimination Division, as outlined in the MMWR December 30, 2005/Vol. 54/No. RR-17, “Guidelines for Preventing the Transmission of *Mycobacterium tuberculosis* in Health-Care Settings, 2005.”

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.37(125,135) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Bacille Calmette-Guerin (BCG) vaccination*” means a vaccine for TB. BCG is used in many countries with a high prevalence of TB to prevent childhood tuberculosis meningitis and military disease. BCG is not generally recommended for use in the United States because of the low risk of infection with *Mycobacterium tuberculosis*, the variable effectiveness of the vaccine against adult pulmonary TB, and the vaccine’s potential interference with tuberculin skin test reactivity.

“*Baseline TB screening*” means the screening of staff and residents for latent tuberculosis infection (LTBI) and TB disease at the beginning of employment or upon admission to a facility. Baseline TB screening includes a symptom screen for all staff and residents and tuberculin skin tests (TSTs) or interferon-gamma release assay (IGRA) for *Mycobacterium tuberculosis* for those staff and residents with previous negative test results for *M. tuberculosis* infection.

“*Baseline TST*” or “*baseline IGRA*” means the TST or IGRA, respectively, that is administered at the beginning of employment to newly hired staff or upon admission to residents of facilities.

“*Boosting*” means a phenomenon in which a person has a negative TST (i.e., false-negative) result years after infection with *M. tuberculosis* and then a positive subsequent TST result. The positive TST result is caused by a boosted immune response of previous sensitivity rather than by a new infection (false-positive TST conversion). Two-step testing reduces the likelihood of mistaking a boosted reaction for a new infection.

“*Extrapulmonary TB*” means TB disease in any part of the body other than the lungs (e.g., kidney, spine, or lymph nodes).

“*Interferon-gamma release assay*” or “*IGRA*” means a whole-blood test that can aid in diagnosing *Mycobacterium tuberculosis* infection.

“*Laryngeal TB*” means a form of TB disease that involves the larynx and may be highly infectious.

“*Latent TB infection*” or “*LTBI*” means infection with *M. tuberculosis* without symptoms or signs of disease having manifested.

“*Mantoux method*” means a skin test performed by intradermally injecting 0.1 mL of purified protein derivative (PPD) tuberculin solution into the volar or dorsal surface of the forearm.

“*Pulmonary TB*” means TB disease that occurs in the lung parenchyma, usually producing a cough that lasts three weeks or longer. Pulmonary TB is usually infectious.

“*Purified protein derivative (PPD) tuberculin*” means a material used in diagnostic tests for detecting infection with *M. tuberculosis*.

“*Risk classification*” means the category on which the infection control team, or designated other, determines the setting’s TB risk classification is based, as a result of the TB risk assessment.

“*Serial screening*” refers to TB screening performed at regular intervals following baseline TB screening. Serial TB screening, also called annual or ongoing TB testing, consists of two components: (1) assessing for current symptoms of active TB disease, and (2) testing for the presence of infection with *M. tuberculosis* by administering either a TST or single IGRA.

“*Symptom screen*” means a procedure used during a clinical evaluation in which patients are asked if they have experienced any departure from normal in function, appearance, or sensation related to TB disease (e.g., cough).

“*TB patient*” means a person who had undiagnosed infectious pulmonary or laryngeal TB while in the facility during the preceding year. “TB patient” does not include persons with LTBI (treated or untreated), extrapulmonary TB disease, pulmonary, or laryngeal TB who have met criteria for noninfectiousness.

“*TB risk assessment*” means an initial and ongoing evaluation of the risk for transmission of *M. tuberculosis* in a particular health care setting.

“*TB screening*” means an administrative control measure in which evaluation for LTBI and TB disease is performed through baseline and serial screening of staff and residents of facilities.

“*TB screening plan*” means a plan that facilities develop and implement that comprises four major components: (1) baseline testing for *M. tuberculosis* infection, (2) serial testing for *M. tuberculosis* infection, (3) serial screening for signs or symptoms of TB disease, and (4) TB training and education.

“*Treatment for LTBI*” means treatment that prevents the progression of *M. tuberculosis* infection into TB disease.

“*Tuberculin skin test*” or “*TST*” means a diagnostic aid for finding *M. tuberculosis* infection. The Mantoux method is the recommended method to be used for the TST.

“*Tuberculosis*” or “*TB*” means the namesake member organism of *M. tuberculosis* complex and the most common causative infectious agent of TB disease in humans. In certain instances, the species name refers to the entire *M. tuberculosis* complex, which includes *M. bovis* and *M. african*, *M. microti*, *M. canetti*, *M. caprae*, and *M. pinnipedii*.

“*Tuberculosis disease*” or “*TB disease*” means a condition caused by infection with a member of the *M. tuberculosis* complex that has progressed to causing clinical (manifesting symptoms or signs) or subclinical (early stage of disease in which signs or symptoms are not present, but other indications of disease activity are present) illness.

“*Two-step tuberculin skin test*” or “*two-step TST*” means the procedure used for the baseline skin testing of persons who will receive serial TSTs to reduce the likelihood of mistaking a boosted reaction for a new infection.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

#### **641—155.38(125,135) Tuberculosis screening of staff and residents.**

**155.38(1) *TB risk assessment.*** Annually, each facility shall conduct a TB risk assessment to evaluate the risk for transmission of *M. tuberculosis*, regardless of whether a person with suspected or confirmed TB disease is expected to be encountered in the facility. The TB risk assessment shall be utilized to determine the types of administrative, environmental, and respiratory protection controls needed and serves as an ongoing evaluation tool of the quality of TB infection control and for the identification of needed improvements in infection control measures. The risk assessment shall include:

- a. The community rate of TB,
- b. The number of persons with infectious TB encountered in the facility, and
- c. The speed with which persons with infectious TB are suspected, isolated, and evaluated to determine if persons with infectious TB exposed staff or others in the facility. TB cases include persons who had undiagnosed infectious pulmonary or laryngeal TB while in the facility during the preceding year. This does not include persons with LTBI (treated or untreated), persons with extrapulmonary TB disease, or persons with pulmonary or laryngeal TB who have met criteria for noninfectiousness.

**155.38(2) *Facility risk classification.*** The infection control team or designated staff in a facility is responsible for determining the type of risk classification of the facility. The facility risk classification is used to determine the frequency of TB screening. The facility risk classification may change due to an increase or decrease in the number of TB cases during the preceding year.

- a. *Types of risk classifications.*
  - (1) “Low risk” means that a facility is one in which persons with active TB disease are not expected to be encountered and in which exposure to TB is unlikely.

(2) “Medium risk” means that a facility is one in which health care workers will or might be exposed to persons with active TB disease or to clinical specimens that might contain *M. tuberculosis*.

(3) “Potential ongoing transmission” means that a facility is one in which there is evidence of person-to-person transmission of *M. tuberculosis*. This classification is a temporary classification. If it is determined that this classification applies to a facility, the facility shall consult with the department’s TB control program.

*b. Classification criteria—low risk.*

(1) Inpatient settings with 200 or more beds: If a facility has fewer than six TB patients for the preceding year, the facility shall be classified as low risk.

(2) Inpatient settings with fewer than 200 beds: If a facility has fewer than three TB patients for the preceding year, the facility shall be classified as low risk.

(3) Outpatient, outreach, and home-based health care settings: If a facility has fewer than three TB patients for the preceding year, the facility shall be classified as low risk.

*c. Classification criteria—medium risk.*

(1) Inpatient settings with 200 or more beds: If a facility has six or more TB patients for the preceding year, the facility shall be classified as medium risk.

(2) Inpatient settings with fewer than 200 beds: If a facility has three or more TB patients for the preceding year, the facility shall be classified as medium risk.

(3) Outpatient, outreach, and home-based health care settings: If a facility has three or more TB patients for the preceding year, the facility shall be classified as medium risk.

*d. Classification criteria—potential ongoing transmission.* If evidence of ongoing *M. tuberculosis* transmission exists at a facility, the facility shall be classified as potential ongoing transmission, regardless of the facility’s previous classification.

**155.38(3)** *Baseline TB screening procedures for facilities.*

*a.* All facility staff members shall receive baseline TB screening upon hire. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) using a two-step TST or a single IGRA to test for infection with *M. tuberculosis*.

*b.* A staff member may begin working with patients after a negative TB symptom screen (i.e., no symptoms of active TB disease) and a negative TST (i.e., first step) or a negative IGRA. The second TST may be performed after the staff member starts working with patients.

*c.* A staff member with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless symptoms or signs of TB disease develop or unless recommended by a clinician. Treatment for LTBI should be considered in accordance with CDC guidelines.

*d.* A staff member with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, does not need another chest radiograph at the time of hire.

*e.* TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for staff with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., interferon-gamma (IFN-g)). All other staff should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

*f.* A second TST is not needed if the staff member has a documented TST result from any time during the previous 12 months. If a newly employed staff member has had a documented negative TST result within the previous 12 months, a single TST can be administered in the new setting. This additional TST represents the second stage of two-step testing. The second test decreases the possibility that boosting on later testing will lead to incorrect suspicion of transmission of *M. tuberculosis* in the setting.

g. Previous BCG vaccination is not a contraindication to having an IGRA, a TST or two-step skin testing administered. Health care workers with previous BCG vaccination should receive baseline and serial testing in the same manner as those without BCG vaccination. Evaluation of TST reactions in persons vaccinated with BCG should be interpreted using the same criteria for those not BCG-vaccinated. A health care worker's history of BCG vaccination should be disregarded when administering and interpreting TST results. Previous BCG vaccination does not cause a false-positive IGRA test result.

**155.38(4)** *Serial TB screening procedures for facilities.*

a. *Facilities classified as low risk.* After baseline testing of staff for infection with *M. tuberculosis*, additional TB screening of staff is not necessary unless an exposure to *M. tuberculosis* occurs.

b. *Facilities classified as medium risk.*

(1) After undergoing baseline testing for infection with *M. tuberculosis*, staff should receive TB screening annually (i.e., symptom screen for all staff members and testing for infection with *M. tuberculosis* for staff members with baseline negative test results).

(2) Staff members with a baseline positive or new positive test result for *M. tuberculosis* infection or documentation of previous treatment for LTBI or TB disease shall receive one chest radiograph result to exclude TB disease. Instead of participating in serial testing, staff should receive a symptom screen annually. This screen should be accomplished by educating the staff about symptoms of TB disease and instructing the staff members to report any such symptoms immediately to the occupational health unit. Treatment for LTBI should be considered in accordance with CDC guidelines.

c. *Facilities classified as potential ongoing transmission.* Testing for infection with *M. tuberculosis* may need to be performed every eight to ten weeks until lapses in infection control have been corrected and no additional evidence of ongoing transmission is apparent. The potential ongoing transmission classification should be used only as a temporary classification. This classification warrants immediate investigation and corrective steps. After a determination that ongoing transmission has ceased, the setting shall be reclassified as medium risk for a minimum of one year.

**155.38(5)** *Screening of staff who transfer to other facilities.*

a. *Staff transferring from a low-risk facility to another low-risk facility.* After a baseline result for infection with *M. tuberculosis* is established and documented, serial testing for *M. tuberculosis* infection is not necessary for staff transferring from a low-risk facility to another low-risk facility.

b. *Staff transferring from a low-risk facility to a medium-risk facility.* After a baseline result for infection with *M. tuberculosis* is established and documented, annual TB screening, including a symptom screen and TST or IGRA for persons with previously negative test results, should be performed for staff transferring from a low-risk facility to a medium-risk facility.

**155.38(6)** *Baseline TB screening procedures for residents of residential, inpatient, and halfway house facilities.*

a. TB screening is a formal procedure to evaluate residents for LTBI and TB disease. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) using a two-step TST or a single IGRA to test for infection with *M. tuberculosis*.

b. All residents shall be assessed for current symptoms of active TB disease upon admission. Within 72 hours of a resident's admission, baseline TB testing for infection shall be initiated unless baseline TB testing occurred within three months prior to the resident's admission.

c. Residents with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless symptoms or signs of TB disease develop or unless recommended by a clinician.

d. Residents with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, do not need another chest radiograph at the time of admission.

e. TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for residents with a documented history of TB disease, a documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a

baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., IFN-g). All other residents should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

*f.* A second TST is not needed if the resident has a documented TST result from any time during the previous 12 months. If a new resident has had a documented negative TST result within the previous 12 months, a single TST can be administered in the new setting. This additional TST represents the second stage of two-step testing. The second test decreases the possibility that boosting on later testing will lead to incorrect suspicion of transmission of *M. tuberculosis* in the setting.

*g.* After baseline TB screening is accomplished, serial TB screening of the residents is not recommended.

**155.38(7)** *Serial TB screening procedures for residents of residential, inpatient, and halfway house facilities.*

*a.* If a resident is discharged and readmitted to a facility and less than 12 months have passed since the last TB screening, residents should receive a symptom screen upon readmittance. This screen should be accomplished by educating the resident about symptoms of TB disease and instructing the resident to report any such symptoms immediately to the infection control team or designated other staff. If symptoms or signs of TB disease are documented, then a medical evaluation to include a chest X-ray to rule out TB disease is required.

*b.* If a resident is discharged and readmitted to a facility and more than 12 months have passed since the last TB screening, baseline TB screening should be repeated as outlined in subrule 155.38(6). [ARC 1926C, IAB 4/1/15, effective 5/6/15]

These rules are intended to implement Iowa Code sections 125.13, 125.21 and 135.150.

- <sup>1</sup> Effective date of Ch 3 delayed by the Administrative Rules Review Committee 70 days from 8/2/78. Delay suspended by the Administrative Rules Review Committee at their meeting held on 9/11/78.
- <sup>2</sup> Effective date of 643—3.35(125) delayed 70 days by the Administrative Rules Review Committee at its meeting held April 11, 1994; on June 15, 1994, the Committee voted to delay the rule until adjournment of the 1995 General Assembly.

CHAPTER 156  
LICENSURE STANDARDS FOR SUBSTANCE ABUSE TREATMENT PROGRAMS  
IN CORRECTIONAL FACILITIES

[Prior to 7/27/88, see Substance Abuse, Iowa Department of[805] Ch 6]

[Prior to 3/29/06, see 643—Ch 6]

**641—156.1(125) Definitions.** Unless otherwise indicated, the following definitions shall apply to the specific terms used in these rules:

*“Admissions”* means the point in an inmate’s relationship with the program at which the screening process has been completed and the inmate is to receive treatment services.

*“Affiliation agreement”* means a written agreement between the governing authority of the program and another organization under the terms of which specified services, space or personnel are provided to one organization by the other, but without exchange of moneys.

*“Applicant”* means any substance abuse treatment program which has applied for a license or renewal.

*“Application”* means the process through which a substance abuse treatment program applies for a license or renewal as outlined in the application procedures.

*“Assessment”* means the process of evaluating an inmate’s strengths, weaknesses, problems, current status, and needs so that a treatment plan can be developed.

*“Board”* means the state board of health created pursuant to Iowa Code chapter 136.

*“Case management”* means the process of using predefined criteria to evaluate the necessity and appropriateness of client/patient care.

*“Chemical dependency”* means alcohol or drug dependence or psychoactive substance use disorder as defined by the criteria in the current Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM IV), or by other standardized and widely accepted criteria.

*“Chemical dependency rehabilitation services”* means those inmate or group services that are directly related to chemical dependency or the inmate treatment plan. These services may include inmate, group, and family counseling; educational services; curriculum-based therapeutic approaches; self-help groups; and structured recreational activities. These services do not include active employment or education courses beyond the secondary level.

*“Chemical substance”* means alcohol, wine, spirits, and beer as defined in Iowa Code chapter 123 and controlled substances as defined in Iowa Code section 124.101.

*“Concerned person”* means an inmate who is receiving treatment services due to problems arising from the person’s involvement or association with a correctional substance abuser or chemically dependent inmate or client/patient, and is negatively affected by the behavior of the substance abuser, chemically dependent inmate, or client/patient.

*“Continuing care”* means providing a specific period of structured therapeutic involvement designed to enhance, facilitate and promote transition from primary treatment to ongoing recovery.

*“Continuum of care/treatment”* means a structure of interlinked treatment modalities and services designed so that an inmate’s changing needs will be met as that inmate moves through the treatment and recovery process.

*“Contract”* means a formal legal document adopted by the governing authority of the program and any other organization, agency, or individual that specifies services, personnel, or space to be provided to the program as well as the moneys to be expended in the exchange.

*“Correctional substance abuse treatment facilities”* means those correctional specialized unit facilities and OWI programs that provide 24-hour, live-in, seven-days-a-week substance abuse treatment services.

*“Counselor”* means an individual who, by virtue of education, training, or experience, provides treatment, which includes advice, opinion, or instruction, to an inmate or in a group setting to allow an opportunity for an inmate to explore the inmate’s problems related directly or indirectly to substance abuse or dependence.

*“Culturally and environmentally specific”* means integrating into the assessment and treatment process the ideas, customs, beliefs, and skills of a given population, as well as an acceptance, awareness, and celebration of diversity regarding conditions, circumstances, and influences surrounding and affecting the development of an inmate or group.

*“Department”* means the Iowa department of public health.

*“Designee”* means the staff person or counselor who is delegated tasks, duties and responsibilities normally performed by the treatment supervisor, treatment director or executive director.

*“Detoxification”* means the withdrawal of an inmate from a physiologically addicting substance.

*“Director”* means the director of the Iowa department of public health.

*“Discharge criteria”* means criteria to be considered when determining appropriateness of discharge or referral to a different level of treatment.

*“Discharge planning”* means the process, begun at admission, of determining a client/patient’s continued need for treatment services and of developing a plan to address ongoing client/patient posttreatment needs. Discharge planning may or may not include a document identified as a discharge plan.

*“Division”* means the division of behavioral health and professional licensure.

*“Extended residential program”* means a designated unit for substance abuse treatment that is staffed 24 hours a day, seven days a week. There is a structured daily schedule. Treatment services total a minimum of 20 hours a week for no less than four months, unless the primary residential program is two months or longer.

*“Facility”* means a hospital, correctional institution, a program located in a judicial district, or detoxification center, or installation providing care, maintenance, and treatment for substance abusers and licensed by the department under Iowa Code section 125.13.

*“Follow-up”* means the process for determining the status of an inmate who has been referred to an outside resource for services or who has been discharged from the program.

*“Governing body”* means the individual(s), group, or agency that has ultimate authority and responsibility for the overall operation of the facility.

*“Inmate”* means a person confined in a correctional institution or under the supervision of the department of corrections or a judicial district department of correctional services as a result of a conviction of a public offense.

*“Intake”* means the process of collecting and assessing information to determine the appropriateness of admitting or retaining an inmate in a substance abuse treatment program.

*“Iowa board of substance abuse certification”* means the professional certification board that certifies substance abuse counselors and prevention specialists in the state of Iowa.

*“Licensee”* means any program licensed by the department.

*“Licensure”* means the issuance of a license by the department upon due process by the board which validates the licensee’s compliance with substance abuse standards and authorizes the licensee to operate a substance abuse treatment program in the state of Iowa.

*“Licensure weighting report”* means the report that is used to determine the type of license for which a program qualifies based on point values assigned to areas reviewed and total number of points attained. In addition, a minimum percent value in each of three categories shall be attained to qualify a program for a license as follows: 95 percent or better rating in clinical, administrative and programming for a three-year license; 90 percent or better rating in clinical, administrative and programming for a two-year license; or less than 90 percent but no less than 70 percent rating in clinical, administrative and programming for a one-year license.

*“May,”* in the interpretation of a standard, means an acceptable method that is recognized but not necessarily preferred.

*“Outpatient program”* means substance abuse services totaling a minimum of ten hours per week for no less than three months that are not assigned to a designated unit.

*“Primary residential program”* means a designated unit for substance abuse treatment that is staffed 24 hours a day, seven days a week. There is a structured daily schedule. Treatment services total a minimum of 30 hours per week for no less than one month.

*“Program”* means any partnership, corporation, association, correctional facility, governmental subdivision, or public or private organization.

*“Protected classes”* means classes of people who have required special legislation to ensure equality.

*“Quality improvement”* means the process of objectively and systematically monitoring and evaluating the quality and appropriateness of client/patient care to improve client/patient care and resolve identified problems.

*“Referral agreement”* means a written document defining a relationship between the program and an outside resource for the provision of inmate services that are not available within the substance abuse treatment program.

*“Rehabilitation”* means assisting an inmate to attain the fullest physical, mental, social, vocational, and economic usefulness within the inmate’s own capabilities. Rehabilitation may include, but is not limited to, medical treatment, psychological therapy, occupational training, job counseling, prosocial behavioral change and domestic rehabilitation/habilitation, and education.

*“Relapse”* means progressively irresponsible, inappropriate and dysfunctional or criminal behavior patterns that could lead to resumption of alcohol or drug use. “Relapse” also refers to the resumption of alcohol or drug use.

*“Rule”* means each statement of general applicability that implements, interprets, or prescribes department law or policy, or that describes the organization, procedure or practice requirements of the department. The term includes the amendment or repeal of existing rules as specified in the Iowa Administrative Code.

*“Screening”* means the process by which a client/patient is determined to be appropriate and eligible for admission to a particular program. The focus is on the minimum criteria necessary for appropriateness/eligibility.

*“Shall,”* in the interpretation of a standard, means a mandatory statement; that is, the only acceptable method under the present standards.

*“Should,”* in the interpretation of a standard, means the commonly accepted method, yet allows for the use of effective alternatives.

*“Staff”* means any individual who provides services to the program on a regular basis as a paid employee, agent, or consultant or as a volunteer.

*“Standards”* means specifications that represent the minimum criteria of a substance abuse treatment program which are acceptable for the issuance of a license.

*“Substance abuser”* means an inmate who habitually lacks self-control as to the use of chemical substances or uses chemical substances to the extent that the inmate’s health is substantially impaired or endangered or that the inmate’s social or economic function is substantially disrupted.

*“Treatment”* means the broad range of planned and continuing inpatient, outpatient, and residential care services, including diagnostic evaluation, counseling, and medical, psychiatric, psychological, and social service care which may be extended to substance abusers, concerned persons, concerned family members or significant others, and which is geared toward influencing the inmate’s behavior to achieve a state of rehabilitation.

*“Treatment days”* means days in which the treatment program is open for services or actual working days.

*“Treatment plan”* means a written plan which specifies the goals, activities, and services determined through process of assessment to be appropriate to meet the objective needs of the inmate.

*“Treatment planning”* means the process by which a counselor and client/patient identify and rank problems, establish agreed-upon goals, and decide on the treatment process and resources to be utilized.

*“Treatment supervisor”* means an individual who, by virtue of education, training, or experience, is capable of assessing the psychosocial history of a substance abuser to determine the treatment plan most appropriate for the inmate. This individual shall be designated by the applicant.

**641—156.2(125) Inspection.** Upon approval of the warden/superintendent or district director, each applicant or licensee shall agree as a condition of license to permit properly designated representatives of the department to enter into and inspect any and all premises of facilities for which a license has been

either applied or issued to verify information contained in the application or to ensure compliance with all laws, rules, and regulations during all hours of operation of the facility and at any other reasonable hour. Further, each licensee shall agree to permit properly designated representatives of the department to audit and collect statistical data from all records maintained by the licensee. Right of entry and inspection shall, under due process of law, extend to any premises on which the department has reason to believe a program is being operated in violation of these rules. A facility shall not be licensed which does not permit inspection by the department or examination of all records, including financial records, methods of administration, general and special dietary programs, the disbursement of drugs and methods of supply, and any other records the board deems relevant to the establishment of a system.

**641—156.3(125) General standards for all correctional substance abuse treatment programs.** The following standards shall apply to all correctional substance abuse treatment programs in the state of Iowa regardless of the category of treatment services provided by the programs. In situations in which differences between general standards for all treatment programs and specific standards occur, both general and specific standards must be met.

**156.3(1) Procedures manual.** All programs shall develop and maintain a procedures manual. This manual shall define the program's policies and procedures to reflect the program's activities. Revisions to the procedures manual shall be entered with the date, name, and title of the individual making the entries. This manual shall contain all of the required written policies, procedures, definitions, and all other documentation required by these standards in the following areas:

- a. Organization and management of the program;
- b. Personnel policies;
- c. Medical services/detoxification;
- d. Staff training;
- e. Intake and initial assessment;
- f. Treatment planning;
- g. Inmate case records;
- h. Discharge planning;
- i. Inmate rights;
- j. Confidentiality of inmate records;
- k. Medication control;
- l. Treatment philosophy;
- m. Objectives;
- n. The role of the coordinator/director in charge of this service;
- o. Admission criteria; and
- p. Interrelationship with other service components and providers.

The policies and procedures manual shall be reviewed and approved on an annual basis.

**156.3(2) Personnel.** Written personnel policies and procedures shall be developed by all programs. Merit rules may be utilized in lieu of specific program personnel policies and procedures.

- a. All programs shall have written policies and procedures that address the following areas:
  - (1) Recruitment, selection, and certification of staff members;
  - (2) Recruitment and selection of volunteers;
  - (3) Wage and salary administration;
  - (4) Promotions;
  - (5) Employee benefits;
  - (6) Working hours;
  - (7) Vacation and sick leave;
  - (8) Lines of authority;
  - (9) Rules of conduct;
  - (10) Disciplinary actions and termination of employees;
  - (11) Methods for handling cases of inappropriate client care;
  - (12) Work performance appraisal;

- (13) Employee accidents and safety;
  - (14) Employee grievances; and
  - (15) Policy on staff persons suspected of using or abusing substances.
- b.* The written personnel policies and practices shall include an equal employment opportunity policy and an affirmative action plan for hiring members of protected classes.
  - c.* There shall be written job descriptions.
  - d.* Job descriptions shall accurately reflect the actual job situation and shall be reviewed when necessary by the executive director or whenever there is a change in required qualifications or duties.
  - e.* All positions shall have job descriptions included in the personnel section of the procedures manual or personnel record of the staff member.
  - f.* The written personnel policies and practices shall include a mechanism for the written evaluation of personnel performance on at least an annual basis. Evidence that this evaluation is reviewed with the employee and that the employee is given the opportunity to respond to this evaluation shall be documented.
  - g.* A personnel record shall be kept on each staff member. These records shall contain as applicable:
    - (1) Verification of training, experience, and all professional credentials relevant to the position;
    - (2) Documentation of a criminal records check with the Iowa division of criminal investigation;
    - (3) Job performance evaluations;
    - (4) Incident reports;
    - (5) Disciplinary actions taken; and
    - (6) Documentation of review and adherence to confidentiality laws and regulations. This review and agreement shall occur prior to assumption of duties.
  - h.* Written policies and procedures shall be designed to ensure confidentiality of personnel records and a delineation of authorized personnel who have access to various types of personnel information.
  - i.* Personnel providing screening, evaluations, assessments or treatment shall be certified through the Iowa board of substance abuse certification, or certified by an international certification and reciprocity consortium member board, or have education, training, and experience in the substance abuse field.
  - j.* There shall be written policies related to the prohibition of sexual harassment.
  - k.* There shall be written policies related to the implementation of the Americans with Disabilities Act.

**156.3(3) Medical services.** A medical history and physical examination shall be conducted for all inmates within seven days of admission to the residential OWI facility. Laboratory examinations may be completed as deemed necessary by the physician.

The program shall have written policies and procedures defining the appropriate action to be taken when a medical emergency arises and the detoxification of an inmate is necessary.

OWI facilities shall ensure by contract or affiliation agreement that emergency medical services at a general hospital are available on a 24-hour, seven-days-a-week basis.

**156.3(4) Confidentiality.** All inmate substance abuse records shall be kept confidential and shall be handled in compliance with the Confidentiality of Alcohol and Drug Abuse Patient Records regulations, 42 CFR Part 2, effective June 9, 1987, which implement federal statutory provisions, 42 U.S.C. 290dd-3, applicable to alcohol abuse client/patient records, and 42 U.S.C. 290ee-3, applicable to drug abuse client/patient records.

*a. Disclosure of benefits.* If the inmate gives specific written consent, the content of the record may be disclosed to legal counsel upon written endorsement by the attorney to nongovernmental personnel for the purpose of collecting health insurance claims or other benefits or to a present or potential employer when employment is conditioned upon the status or progress in a treatment program.

*b. Disclosure for evaluation.* Disclosure of information for research, management, audit, or evaluation purposes must be specifically authorized by the warden/superintendent or district director.

*c. Record of consent.* The inmate's written release of information shall be kept in the inmate's record.

*d. Confidentiality orientation.* A program shall ensure that all staff and inmates, as a part of their initial orientation, are made aware of the confidentiality requirements. Any decision to disclose inmate information under any provision of Iowa Code chapter 125, or other applicable federal or state rule which permits disclosure, shall be made only by the warden/superintendent or district director.

**156.3(5) Clinical oversight.** The program shall have appropriate clinical oversight to ensure quality of clinical services provided to inmates. Clinical oversight may be provided in house or through consultation. Clinical oversight may include assisting the program in developing policies and procedures relating to the assessment and treatment of psychopathology, assisting in the training of the staff and providing assistance to the clinical staff in assessment or treatment. The executive director or designee shall ultimately be responsible for clinical services and implementation of treatment services to inmates.

**156.3(6) Staff development and training.** There shall be written policies and procedures that establish staff development. Staff development shall include orientation for and opportunities for continuing job-related education.

Documentation of continuing education to maintain substance abuse certification shall meet the requirements of this subrule.

*a.* Evidence of substance abuse certification or orientation which includes the following: psychosocial, medical, and pharmacological information, confidentiality, and tuberculosis and blood-borne pathogens; an orientation to the program and community resources; counseling skill development; HIV/AIDS (human immunodeficiency virus/acquired immune deficiency syndrome) information/education; and the attitudes, values and lifestyles of racially diverse cultures, other cultures and special populations.

*b.* The program shall establish on-site training programs or enter into relationships with outside resources capable of meeting staff training needs.

*c.* The staff development program shall ensure that staff members are kept informed of new developments in the field of substance abuse treatment and rehabilitation.

*d.* In-service training programs shall be instituted when program operations or functions are changed and shall be designed to allow staff members to develop new skills.

*e.* Staff development activities and participation in state, national and regional training shall be planned and scheduled on an annual basis. These activities shall be documented in order to evaluate their scope, effectiveness, attendance, and amount of time spent on such efforts. The written plan for on-site staff development and the activities for professional growth and development of personnel shall be based on the annual needs assessment and shall be available to all personnel.

*f.* A record shall be kept of on-site training activities and shall include, but not necessarily be limited to, the following:

- (1) Date of the meeting;
- (2) Names of persons attending; and
- (3) Topics discussed.

**156.3(7) Intake.** Clearly stated written criteria shall determine the eligibility of inmates for admission to level of care. The program shall have written policies and procedures governing a uniform intake process that defines the following:

- a.* The types of information to be gathered on all inmates upon admission; and
- b.* Procedures to be followed when accepting referrals.

**156.3(8) Orientation.** During the intake process, documentation shall be made that the inmate has been informed of the following:

- a.* General nature and goals of the correctional substance abuse program;
- b.* Rules governing conduct and infractions that can lead to disciplinary action or discharge from the program;
- c.* Inmate's rights and responsibilities;
- d.* Confidentiality laws, rules, and regulations; and
- e.* Treatment costs to be borne by the individual, if any.

**156.3(9) Assessment.**

a. Sufficient information shall be collected during the intake process so that the assessment process allows for the development of a complete assessment of the inmate's status and a comprehensive plan of treatment can be developed.

b. A complete assessment of the inmate's status, which shall include an analysis and synthesis of the intake data, shall be developed and shall address the inmate's strengths, problems, and areas of clinical concern.

c. If the initial assessment was developed by personnel of the Iowa Medical and Classification Center (IMCC) or other correctional institution personnel, the substance abuse treatment program must document review of information in the inmate's record and provide updates or amendments as applicable.

d. The following information shall be collected as part of the assessment process:

- (1) Identifying information which includes name, home address, and telephone number;
- (2) Demographic information which includes date of birth, sex, race or ethnicity;
- (3) Presenting problem;
- (4) Substance abuse history, including type, amount, frequency, and duration of substance use;
- (5) Family history, which describes the family composition and dynamics;
- (6) Education status and history, which describes levels of achievement;
- (7) Vocational, employment status and history, which describes skills or trades learned, record of jobs held, duration, and reasons for leaving;
- (8) Peers and friends, which includes a description of interpersonal relationships and interaction with persons and groups outside the home, if available;
- (9) Legal history, which describes involvement with the criminal justice system;
- (10) Medical and health history, including any incidences of overdoses and any physical indicators of contagious diseases for which necessary action was required in accordance with the Iowa Code;
- (11) Psychological history and mental status;
- (12) Any other relevant information which will assist in formulating an initial assessment of the inmate; and
- (13) A financial evaluation.

**156.3(10) Treatment plans.** Based upon the initial assessment, a written treatment plan shall be developed and recorded in the inmate's case record.

a. A treatment plan shall be developed as soon after the inmate's admission to the substance abuse program as is clinically feasible, but no later than 30 days following admission.

b. The treatment plan shall, at a minimum, contain the following:

- (1) A clear and concise statement of the inmate's current strengths and needs;
- (2) Clear and concise statements of the short- and long-term goals the inmate will be attempting to achieve;
- (3) A delineation of primary and support services to be provided to the inmate; and
- (4) The staff person(s) to be responsible for the inmate's treatment.

c. Treatment plans shall be developed in conjunction with the inmate. Treatment plans shall be reviewed by the primary counselor and the inmate as often as necessary, but at least every 60 days.

d. A review shall consist of a reassessment of the inmate's current status including accomplishments and needs and a redefinition of treatment goals when appropriate. The date of the review and any change, as well as the persons involved in the review, shall also be recorded.

e. The use of abstract terms, technical jargon, or slang should be avoided in the written treatment plan.

f. Treatment plans shall be culturally and environmentally specific so as to meet the needs of the inmate. Treatment plans shall be written in a manner readily understandable to the inmate, with assistance if necessary.

g. The program shall provide the inmate with a copy of all treatment plans.

**156.3(11) Progress notes.** An inmate's progress and current status in meeting the goals set in the treatment plan as well as efforts by staff members to help the inmate achieve these stated goals shall be recorded in the inmate's case record. Information shall be noted following each inmate's counseling session. Group counseling sessions shall be summarized at least monthly for each inmate receiving group

counseling services in an outpatient program. Group summaries shall be completed at least biweekly for inmates receiving residential correctional substance abuse treatment services.

*a.* Entries shall be filed in chronological order and shall include the date of service or the observation made, the date of the entry, and the signature or initials and staff title of the individual rendering the service. All progress notes shall be entered into the inmate's case record in permanent pen, by typewriter, or by computer. In those instances in which records are maintained electronically, a staff identification code number authorizing access shall be accepted in lieu of a signature.

*b.* All entries that involve subjective interpretations of an inmate's progress should be supplemented with a description of the actual behavioral observations which were the basis for the interpretations.

*c.* The use of abstract terms, technical jargon, or slang should be avoided in progress notes.

*d.* The program shall develop a uniform progress note format to be used by all clinical staff.

**156.3(12) Discharge planning.**

*a.* The substance abuse program shall participate in release planning through the discharge summary. The discharge summary shall contain:

- (1) Summary of current strengths and weaknesses of inmate;
- (2) Summary of assessment results;
- (3) Summary of treatment activities;
- (4) Social family support;
- (5) Summary of current client status to include motivation/participation; and
- (6) Recommendations that include the reason for referral and prognosis.

*b.* The program shall maintain a list of all substance abuse resources available within the state.

The list of resources shall, at a minimum, contain the following:

- (1) The name and location of the resource;
- (2) The types of services provided by the resource.

**156.3(13) Quality improvement.** The program shall have an ongoing quality improvement process designed to objectively and systematically monitor and evaluate the quality and appropriateness of inmate care, pursue opportunities to improve inmate care, and resolve identified problems.

*a.* The program shall have a written plan for a quality improvement process. The written plan shall describe the objectives, organization, scope, and mechanisms for overseeing the effectiveness of monitoring, evaluation, and problem-solving activities.

*b.* The program shall establish written policies and procedures to describe and document the quality improvement process, including the monitoring and evaluation activities of the program. The policies and procedures shall ensure that:

- (1) Information is collected or screened by a designated individual(s) or committee. Quality improvement activities may be contracted through all outside resources;
- (2) Objective criteria are utilized in the development and application of criteria relating to the care or service the program provides; and
- (3) Objective criteria are utilized in the evaluation of the information collected in order to identify important problems in, or opportunities to improve, inmate care and clinical performance.

*c.* The program shall document that the quality of inmate care is improved and identified problems are resolved through appropriate actions taken by the program's administrative and supervisory staff and through professional staff functions.

*d.* Necessary information shall be communicated among program components, modalities, or services when problems or opportunities to improve inmate care involve more than one program component or service.

*e.* The program shall ensure that the status of identified problems is tracked to ensure improvement or resolution.

*f.* The program shall ensure that information from program components or services and the findings of distinct quality improvement activities are used to detect trends, patterns of performance, and potential problems that affect more than one program component or service.

*g.* The objectives, scope, organization, and effectiveness of the quality improvement process are evaluated at least annually and revised as necessary.

**156.3(14) Inmate case records.** There shall be written policies and procedures governing the compilation, storage, and dissemination of inmate case records.

*a.* These policies and procedures shall ensure that:

(1) The program exercises its responsibility for safeguarding and protecting the inmate case record against loss, tampering, or unauthorized disclosure of information;

(2) The content and format of records are kept uniform; and

(3) The entries in the case record are signed and dated.

*b.* The program shall provide adequate physical facilities for the storage, processing, and handling of case records. These facilities shall include suitably locked, secured rooms or file cabinets.

*c.* Appropriate records shall be readily accessible to those staff members providing services directly to the inmate and other persons specifically authorized by program policy. Records should be kept in proximity to the area in which the inmate normally receives services.

*d.* There shall be a written policy governing the disposal and maintenance of inmate case records. Inmate case records shall be maintained for not less than seven years from the date the record is officially closed.

*e.* The governing body shall establish policies that specify the conditions under which information may be released and the procedures to be followed for releasing information. Even if a program is not federally funded, all policies and procedures shall be in accordance with applicable provisions of Section 408 of Public Law 92-255, the Drug Abuse Office and Treatment Act of 1972 (21 U.S.C. 1175) as amended by Section 303 of Public Law 93-282, the Comprehensive Alcohol Abuse and Rehabilitation Act amendments of 1974 (88 Stat, 137), the federal confidentiality regulations issued, and state confidentiality laws and rules.

*f.* An inmate's written authorization shall appear on a consent form containing the following:

(1) The name of the program which is to make the disclosure;

(2) The name or title of the person or organization to which disclosure is to be made;

(3) The name of the inmate;

(4) The purpose or need for the disclosure;

(5) The extent or nature of information to be disclosed; and

(6) Except when the inmate is a mandatory criminal justice system referral, a statement that the consent is subject to revocation at any time, date, event or condition upon which it will expire without express revocation.

*g.* When participation by an inmate in a treatment program is made a condition of the release of the inmate from confinement, the disposition or status of any criminal proceedings against the inmate, or the execution or suspension of any sentence imposed upon the inmate, the inmate may consent to unrestricted communication between any program in which the inmate is enrolled in fulfillment of a condition and (1) the court granting probation or other posttrial or retrial conditional release, (2) the parole board or other authority granting parole, or (3) probation or parole officers responsible for the inmate's supervision. In addition, when consent is given for disclosures in this manner, consent shall expire 60 days after it is given or when there is substantial change in the inmate's status, whichever is later.

*h.* All policies related to confidentiality shall apply even after the inmate has terminated active involvement with the program.

*i.* In a life-threatening situation, or when an inmate's condition or situation precludes the possibility of obtaining written consent, the program may release pertinent medical information to the medical personnel responsible for the inmate's care without the inmate's authorization and without the authorization of the warden/superintendent or district director or designee if obtaining authorization would cause an excessive delay in delivering treatment to the inmate.

*j.* When information has been released without the inmate's authorization under these standards, the staff member responsible for the release of information shall enter into the inmate's case record all details pertinent to the transaction, which shall include at least:

- (1) The date the information was released;
- (2) The person to whom the information was released;
- (3) The reason the information was released; and
- (4) The nature and details of the information given.

*k.* As soon as possible after the release of information, the inmate shall be informed that it was released.

*l.* There shall be a record for each inmate that contains the following:

- (1) Results of all examinations, tests, and intake and assessment information;
- (2) Reports from referring sources;
- (3) Treatment plans;
- (4) Medication records, which shall allow for the monitoring of all medications administered and the detection of adverse drug reactions. All medication orders in the inmate case records shall define at least the name of the medication, dose, route of administration, frequency of administration, the name of the physician who prescribed the medication, and the name of the person administering or dispensing the medication;
- (5) Reports from outside resources, which shall include the name of the resource and the date of the report. These reports shall be signed by the person making the report or by the program staff member receiving the report;
- (6) Multidisciplinary case conference and consultation notes if applicable, including the date of the conference or consultation, recommendations made, and action taken;
- (7) Correspondence related to the inmate, including all letters and dated notations of telephone conversations relevant to the inmate's treatment;
- (8) Treatment consent forms, if applicable;
- (9) Information release forms;
- (10) Progress notes;
- (11) Records of service provided; and
- (12) Discharge summary.

**156.3(15) *Inmate rights.*** The program shall maintain written policies and procedures that ensure that the legal rights of inmates participating in the program are observed and protected.

*a.* Procedures to inform all inmates of legal rights shall be available at the time of admission into the program.

*b.* The implementation of these procedures shall be documented.

*c.* Written policies and procedures for reviewing and responding to an inmate's communications, e.g., opinions, recommendations, and inmate grievances, with a mechanism for redress, shall be documented.

*d.* Procedures shall be designed to protect the inmate's rights and privacy with respect to facility visitors, e.g., educational or other individual or group visitations at the program.

**156.3(16) *Medication control.*** Policies and procedures shall be developed to ensure that all medications are administered or self-administered safely and properly in accordance with federal, state, and local laws and regulations. OWI facilities shall be in compliance with 641—subrule 155.22(19).

**156.3(17) *Facilities.***

*a.* The facilities shall comply with rules 641—155.22(125) and 641—155.23(125) or ACA standards or other standards established by the department of corrections.

*b.* The facilities shall comply with rules 641—155.2(125) to 641—155.20(125).

These rules are intended to implement Iowa Code section 125.13.

CHAPTER 157  
STANDARDS FOR SUBSTANCE ABUSE TREATMENT AND  
ASSESSMENT PROGRAMS AND THE OPERATING A MOTOR VEHICLE  
WHILE INTOXICATED (OWI) LAW

[Prior to 3/29/06, see 643—Ch 8]

**641—157.1(125) Definitions.** Unless otherwise indicated, the following definitions shall apply to the specific terms used in these rules:

*“Assessment”* means the ongoing process of identifying a diagnosis, ruling out other diagnoses, and determining the level of care needed by the client.

*“Course for drinking drivers”* means an approved course designed to inform the offender about drinking and driving and to encourage the offender to assess the offender’s own drinking and driving behavior in order to select practical alternatives. Enrollment in the course is not limited to persons ordered to enroll, attend, and successfully complete the course required under Iowa Code sections 321J.1 and 321J.17. However, any person under the age of 18 who is required to attend the course for violation of Iowa Code section 321J.2 or 321J.17 must attend a course offered by a substance abuse treatment program licensed under Iowa Code chapter 125. Any instructional course for drinking drivers shall be approved by the department of education in consultation with the community colleges and substance abuse treatment programs licensed under Iowa Code chapter 125 and using the course of instruction detailed in 281—21.31(321J).

*“Department”* means the Iowa department of public health.

*“Evaluation”* means the process to evaluate the client’s strengths, weaknesses, problems, and needs for the purpose of defining a course of treatment. This includes use of a standardized placement screening and any additional patient/client profile information, and recommendation to an appropriate level of care.

*“HIPAA”* means the Health Insurance Portability and Accountability Act of 1996.

*“Licensed”* means issuance of a license by the department and the state board of health, which validates the licensee’s compliance with substance abuse program standards and authorizes the licensee to operate a substance abuse program in the state of Iowa.

*“Posttreatment”* means continuing care after primary treatment has been completed.

*“Primary treatment”* means substance abuse treatment modality including inpatient, primary residential treatment, extended residential treatment, medically monitored residential, extended outpatient, intensive outpatient, and partial hospitalization.

*“Program”* means any individual, partnership, corporation, association, governmental subdivision or public or private organization.

*“Qualifying program”* means a program which has a contract with the state of Iowa or the state’s contracted managed care entity to provide substance abuse treatment using a sliding fee scale.

*“Satisfactory completion of the drinking drivers course”* means receiving at the completion of the course a grade from the course instructor of “C” or “2.0,” or better.

*“Screening”* means the process by which a client/patient is determined at risk and in need of further evaluation. The focus is on the minimum criteria necessary for appropriateness/eligibility.

*“Substance abuser”* means a person who lacks self-control as to the use of chemical substances or uses chemical substances to the extent that the person’s health is substantially impaired or endangered or that the person’s social or economic function is substantially disrupted.

*“Treatment”* means the broad range of planned and continuing, inpatient, outpatient, residential care services, including diagnostic evaluation, counseling, medical, psychiatric, psychological, and social service care, which may be extended to substance abusers, concerned persons, concerned family members, or significant others, and which is geared toward influencing the behavior of such individuals to achieve a state of rehabilitation.

**641—157.2(125) Screening, evaluation, treatment, and drinking drivers course.** Persons who are charged with operating a motor vehicle while intoxicated (OWI), Iowa Code section 321J.2, and whose driver’s license or nonresident operating privileges are revoked under Iowa Code chapter 321J shall

be assigned to undergo a substance abuse evaluation and, if recommended, treatment from a provider licensed by the department under Iowa Code chapter 125.

**157.2(1) Screening.** The initial screening shall consist of a generally accepted standardized substance abuse screening instrument. The program shall utilize a recognized diagnostic test or tool to determine “substance abuse” or “dependence” as those terms are defined in the DSM IV (Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition). In addition, programs shall collect information on blood alcohol content at time of arrest; history of other alcohol or drug-related arrests; history of alcohol/drug treatment; history of mental health problems and treatment; any OWI arrest that included personal injury or additional charge(s); and family history of substance abuse.

**157.2(2) Evaluation.** If the initial screening shows a potential for chemical dependency, then a further evaluation will be completed. This evaluation shall consist of further development of the six assessment dimensions outlined in the American Society of Addiction Medicine, Patient Placement Criteria for the Treatment of Substance-Related Disorders, Second Edition-Revised.

**157.2(3) Treatment.** Treatment shall consist of a broad range of planned and continuing, inpatient, outpatient, and residential care services, including ongoing diagnostic evaluation, counseling, and medical, psychiatric, psychological, and social service care geared toward influencing the behavior of such individuals to achieve a state of rehabilitation. Individuals will be placed in the appropriate level of care at a substance abuse treatment program licensed by the department under Iowa Code chapter 125 in accordance with the American Society of Addiction Medicine, Patient Placement Criteria for the Treatment of Substance-Related Disorders, Second Edition-Revised.

**157.2(4) Drinking drivers course.** Substance abuse treatment programs licensed by the department under Iowa Code chapter 125 may provide the drinking drivers course if the course curriculum is approved by the department of education under Iowa Code section 321J.22 and 281—21.31(321J).

**641—157.3(125) Screening, evaluation, treatment, and drinking drivers course completion.** The program shall report substance abuse screening, assessment, evaluation and treatment completion to the department of transportation and to the district court in accordance with Iowa Code sections 125.37, 125.84 and 125.86; the federal confidentiality regulations, “Confidentiality of Alcohol and Drug Abuse Patient Records,” 42 CFR, Part 2, effective June 9, 1987; HIPAA; and other relevant provisions of federal and state law. The program shall report satisfactory completion of the drinking drivers course to the department of education in accordance with Iowa Code section 321J.22 and 281—21.31(321J); the federal confidentiality regulations, “Confidentiality of Alcohol and Drug Abuse Patient Records,” 42 CFR, Part 2, effective June 9, 1987; HIPAA; and other relevant provisions of federal and state law.

**157.3(1) Reporting form.** Programs shall report screening, evaluation, and treatment completion utilizing the form “Notice Iowa Code 321J—Confidential Medical Record.” Iowa substance abuse evaluation and treatment providers licensed by the department under Iowa Code chapter 125 shall submit this form online to the department of transportation using the department of transportation’s 321J Web site, <https://www.saeval.dot.state.ia.us>.

**157.3(2) Primary treatment.** Upon completion of primary treatment, programs shall report to the department of transportation and the courts that treatment has been completed in accordance with Iowa Code section 321J.22; the federal confidentiality regulations, “Confidentiality of Alcohol and Drug Abuse Patient Records,” 42 CFR, Part 2, effective June 9, 1987; HIPAA; and other relevant provisions of federal and state law.

**157.3(3) Posttreatment results.** If the court orders a posttreatment program, the program shall report progress and attendance to the person’s probation officer or otherwise as ordered by the court in accordance with Iowa Code section 321J.22; the federal confidentiality regulations, “Confidentiality of Alcohol and Drug Abuse Patient Records,” 42 CFR, Part 2, effective June 9, 1987; HIPAA; and other relevant provisions of federal and state law.

**157.3(4) Drinking drivers course.** Substance abuse treatment programs licensed by the department under Iowa Code chapter 125 may provide the drinking drivers course and shall report satisfactory completion of the drinking drivers course to the department of education in accordance with Iowa Code section 321J.22 and 281—21.31(321J).

**641—157.4(125) Cost of evaluation and treatment.**

**157.4(1) Screening and evaluation.** The program shall charge no more than \$125 for the cost of screening and evaluation. The individual or the individual's insurance provider shall be responsible for the costs of the screening and evaluation.

**157.4(2) Treatment.** Qualifying programs shall consider a person admitted to the program pursuant to Iowa Code section 321J.3 who does not possess sufficient income or estate to make payment of the costs of the treatment in whole or in part to be a state patient and eligible for state-funded treatment as provided in Iowa Code section 125.44. Qualifying programs shall utilize a sliding fee schedule approved by the department to determine cost of treatment. There is no prohibition on any individual from paying in whole the cost of treatment.

**157.4(3) Reimbursement.** Programs shall be able to seek reimbursement of the cost of screening, evaluation and treatment from an individual's insurance company, firm or corporation bound to pay, or from Medicaid for an individual who is eligible or enrolled in Medicaid.

**641—157.5(125) Timeliness.** The program shall conduct and complete substance abuse evaluations and treatment at the program's earliest convenience.

**641—157.6(125) Confidentiality.** Programs will abide by the federal regulations, "Confidentiality of Alcohol and Drug Abuse Patient Records," 42 CFR, Part 2; Iowa Code section 125.37; HIPAA; and other relevant provisions of federal and state law.

**641—157.7(125) Records.**

**157.7(1)** Programs shall maintain records for a minimum of seven years after discharge or completion of screening, evaluation, or treatment, and then destroy or maintain the records based on the program's written policy and procedure.

**157.7(2)** Upon receipt of a properly executed written release of information signed by the client/patient, the program shall release client/patient records in a timely manner.

*a.* A program shall not refuse to transfer or release client/patient records related to continuation of care solely because payment has not been received.

*b.* A program may refuse to release client/patient records which are unrelated to continuation of care if payment has not been received.

*c.* A program may refuse to file the reporting form required by subrule 157.3(1), "Notice Iowa Code 321J—Confidential Medical Record," reporting screening, evaluation, and treatment completion, if payment has not been received for such services.

[ARC 8796B, IAB 6/2/10, effective 7/7/10]

**641—157.8(125) Reciprocity.** For a resident of a state other than Iowa or an Iowa resident obtaining evaluation or treatment outside the state, screening, evaluation or treatment services shall be provided by programs licensed or approved by that state's substance abuse authority. Programs shall submit the results of the screening, evaluation and treatment to the Iowa department of public health, division of behavioral health and professional licensure, for review and reporting purposes to the Iowa department of transportation.

These rules are intended to implement Iowa Code section 125.13.

CHAPTER 158  
REGIONS FOR SUBSTANCE ABUSE PREVENTION AND TREATMENT

[Prior to 3/29/06, see 643—Ch 9]

**641—158.1(125) Service areas established.** The department of public health has established regions for substance abuse prevention and treatment service areas. Substance abuse assessment, prevention and education, and outpatient and follow-up treatment and rehabilitation shall be available in each service area. Emergency treatment provided by a facility affiliated with or part of the medical service of a general hospital, inpatient treatment, residential treatment, and halfway house treatment shall be available within reasonable driving distance of the service area.

**641—158.2(125) Request for a change in service areas.** Any existing service provider may file an application with the director to change an existing service area.

**641—158.3(125) Application.** The application shall include the following:

1. The name, address, and description of the applicant;
2. A description of the proposed change;
3. The applicant's rationale in support of the change in service area;
4. The number of clients the applicant proposes to serve and the proposed increase in quality or quantity of services to these clients;
5. A description of community support for the change; and
6. The names and addresses of all affected parties, including existing service providers.

**641—158.4(125) Notification of affected parties.** Within ten calendar days of receipt of a completed application, the director shall provide written notification to any affected parties identified in the application and shall allow any affected parties so notified 30 calendar days to submit written information in support of, or in opposition to, the application.

**641—158.5(125) Public hearing.** The director may hold a public hearing at which the applicant and any affected parties may provide an oral presentation with respect to their positions. The director shall give notice to the applicant and all affected parties ten calendar days prior to holding the hearing. The hearing shall not be a contested case hearing as that term is defined in Iowa Code chapter 17A.

**641—158.6(125) Proposed decision.** The director shall issue a written proposed decision which includes findings of fact and either approves or rejects the application. In issuing this decision, the director shall consider the proposed application, other information received from the applicant, information received from affected parties, the terms of any relevant contract, city and county lines, population concentrations, and existing substance abuse treatment and prevention services.

**641—158.7(125) Change during term of contract.** The director shall not approve an application which would change a service area during the term of an existing contract or after the release of a request for proposal for a new contract. Applications submitted after issuance of a request for proposal will, if granted, not become effective until after the expiration of the contract awarded pursuant to said request for proposal.

**641—158.8(125) State board of health review.** The director's proposed decision shall be reviewed by the board at its next regularly scheduled meeting. The board shall review all of the materials considered by the director, as described in rule 158.6(125), and the proposed decision and vote to approve or reject the director's proposed decision.

**641—158.9(125) State board of health decision.** The board's decision shall be issued in writing and shall be final agency action for the purposes of Iowa Code chapter 17A.

These rules are intended to implement Iowa Code section 125.12.

CHAPTER 170  
ORGANIZATION OF THE DEPARTMENT  
[Prior to 7/29/87, Health Department[470]Ch 170]

**641—170.1(17A,135) Definitions.**

*“Department”* means the Iowa department of public health.

*“Deputy director”* means the deputy director of the department of public health.

*“Director”* means the director of the department of public health.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.2(17A,135) Mission.** The mission of the department of public health is to promote and protect the health of Iowans. The department strives to improve the quality of life for all Iowans by:

1. Preventing epidemics and the spread of disease;
2. Protecting against environmental hazards;
3. Preventing injuries;
4. Promoting healthy behaviors;
5. Preparing for, responding to, and recovering from public health emergencies;
6. Improving access to quality health services; and
7. Strengthening the public health infrastructure.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.3(17A,136) State board of health.** The state board of health is the policymaking body for the Iowa department of public health and has the power and duty to adopt, promulgate, amend and repeal rules; consider legislation; and advise or make recommendations to the governor, general assembly, and director relative to public health, hygiene, and sanitation.

**170.3(1)** The state board of health consists of 11 members appointed by the governor.

**170.3(2)** The state board of health meets on the second Wednesday of July and on the second Wednesday of each second month thereafter and at such other times as may be deemed necessary by the president of the board.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.4(17A,135) Director of the department of public health.** The director is the chief administrative officer of the department, and in that capacity is responsible for the programs and services of the department. The director provides the department with national exposure and works with policymakers in both Iowa and Washington, D.C.

**170.4(1)** The following are the duties and responsibilities of the director. The director:

- a. Oversees the establishment of the administrative organization;
- b. Makes recommendations to the state board of health;
- c. Oversees the adoption of rules for the implementation of statutes;
- d. Serves as secretary to the state board of health;
- e. Serves as spokesperson and advocate for public health across the state of Iowa, regionally and nationally;
- f. Acts as a liaison to local boards of health, local public health administrators, health care providers, and consumers;
- g. Represents the department in a variety of state and national organizations; and
- h. Serves as the incident commander during public health emergencies and disasters.

**170.4(2)** Acting director.

a. The director may appoint an employee of the department to serve as acting director, who shall have all the powers and duties of the director.

b. The director may appoint more than one acting director, but only one acting director shall exercise the powers and perform the duties of the director at any time.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.5(17A,135) Deputy director.**

**170.5(1)** Under the direction of the director, the deputy director has the following duties and responsibilities. The deputy director:

- a. Is responsible for the operations of the department, including but not limited to fiscal and personnel management.
- b. Supervises and evaluates the work of the department's division directors.
- c. Working with the director, is responsible for developing policy, legislation and administrative rules.
- d. Assists the director in the development of policies related to marketing and communications, both internally and externally with other agencies, partners, and the public.
- e. Provides advice to the director on matters relating to department strategic planning, goals, mission and programs.
- f. Represents the director at private, state, and national meetings.
- g. Reports on department accomplishments and performance to the director.
- h. Is responsible for departmentwide strategic and performance plans, including preparation of the annual report.
- i. Serves as the deputy incident commander during public health emergencies and disasters.
- j. Represents the director during the director's absence.

**170.5(2)** The deputy director also serves as the director of one of the divisions in the department.  
[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.6(17A,135) Executive team.** The executive team serves as the leadership team for the department. The director appoints the members of the executive team.

**170.6(1)** The executive team assists the department director with strategic planning, policy development, and programmatic decision making.

**170.6(2)** The executive team members communicate division-level information that contributes to intradepartmental and interdepartmental planning and utilization of resources.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.7(17A,135) Administrative divisions of the department.** The department is divided into seven organizational units. In addition to the director's office, there are six divisions in the department, each directed by a division director who reports either to the deputy director or the director.

**170.7(1) Office of the director.** The following are included in the office of the director.

a. *Medical director.* The medical director of the department is a doctor of medicine (M.D.) or osteopathy (D.O.), specializing in public health, who serves as a medical advisor to the department, medical professionals, and the public. The medical director may also serve as the state epidemiologist.

b. *Office of state medical examiner.* The mission of the office of state medical examiner is to establish credibility in death investigation in a system that will operate efficiently and serve the needs of the citizens of Iowa. This is done by providing assistance, direction, and training to county medical examiner personnel and law enforcement officials. Staff is responsible for conducting death investigations and performing autopsies.

c. *Dental board.* The dental board consists of nine members and has the overall responsibility for regulating the professions of dentistry, dental hygiene, and dental assisting in Iowa.

d. *Board of medicine.* The board of medicine, consisting of ten members, regulates the practice of medicine and surgery, osteopathic medicine and surgery, osteopathy and acupuncture.

e. *Board of nursing.* The six-member board of nursing enforces regulations for nursing education, nursing practice and continuing education for nurses.

f. *Board of pharmacy.* The seven-member board of pharmacy is responsible for regulating the practice of pharmacy and the legal distribution and dispensing of prescription drugs and precursor substances throughout Iowa.

**170.7(2) Division of acute disease prevention and emergency response.** This division provides support, technical assistance, education and consultation regarding departmentwide strategic and project planning, personnel resources, public information, infectious disease prevention and control,

injury prevention and control, emergency medical services, and public health and health care emergency preparedness and response. Division programs within these areas also provide regulatory functions. The deputy state epidemiologist and state public health veterinarian are in this division and report to the division director. Included in the division are the following bureaus and centers.

*a.* The bureau of communication and planning (CAP) provides communication services to the public, public health partners, media, governor's office, and legislators concerning public health programs, services, statutory requirements, administrative rules, and health-related issues. The bureau leads planning work to develop the department's strategic plan and measure and evaluate performance; improve the dissemination of public health data; and improve and evaluate the public health system in Iowa. The bureau provides administrative services to the state health facilities council and manages the certificate of need program. The bureau ensures a competent workforce through human resources and workforce development services.

*b.* The center for acute disease epidemiology (CADE) works to protect and preserve the health and safety of Iowans from infectious diseases through disease surveillance; investigation of acute outbreaks; education and consultation to county, local, and private health agencies on infectious diseases; immunization and vaccine guidelines; treatment after animal bites; and vaccines for international travel. The center also provides consultation to county and local health agencies on diseases requiring public health intervention; collaborates with the Centers for Disease Control and Prevention by weekly reporting of nationally reportable diseases; and offers health education opportunities through lectures and organizational seminars.

*c.* The bureau of emergency medical services (EMS) is responsible for EMS provider certification and renewal, service program authorization, and trauma care facility certification and renewal. The bureau provides leadership and resource support for planning, medical direction, EMS education, public education and injury prevention. Through oversight and coordination, the bureau's objective is the development, implementation and evaluation of a comprehensive statewide EMS system.

*d.* The center for disaster operations and response (CDOR) is responsible for the development and implementation of emergency plans and operating procedures for the department while ensuring integration into Iowa's Homeland Security and Emergency Management Plan. CDOR works with local public health agencies, hospitals, and other health care entities to ensure communications, capacity, capability, emergency planning, drills and exercises, and education to detect, respond to, and recover from bioterrorism, public health emergencies, and other disasters that may affect the health of Iowans. Additionally, CDOR is responsible for the department's emergency coordination center (ECC), continuity of operations plan, Iowa public health response teams, and the Strategic National Stockpile (SNS).

*e.* The bureau of immunization and tuberculosis works to protect the health of Iowans from vaccine-preventable diseases and tuberculosis, with the goal of reducing and ultimately eliminating the incidence of these diseases. The bureau conducts surveillance and prevention activities in conjunction with public and private health care providers. Surveillance activities include disease monitoring and reporting, laboratory testing, disease investigation, and rapid institution of disease control measures, including isolation and quarantine. Bureau prevention and treatment activities include targeted disease testing, vaccination programs, dispensing medications, health care provider consultation, and education.

*f.* The office of health information technology works to ensure a healthier Iowa through the use and exchange of electronic health information to improve patient-centered health care and population health. The office leads planning work to implement statewide electronic exchange of health information to improve the quality of health care, ensure patient safety, and increase efficiency in health care delivery.

**170.7(3) *Division of administration and professional licensure.*** This division provides services for birth, marriage and death certificates; monitors and reports progress on health objectives and identifies emerging health issues; coordinates 19 licensing boards regulating the activities of 39 health professions; provides fiscal management of department funding and contract administration; and provides software, network and computer support. The following bureaus are included in this division.

a. The bureau of finance provides support to department staff in functions of fiscal and office services, including fiscal management of revenues and expenditures, coordination of office supply purchases, contract administration, use of state vehicles, mail, printing, and inventory control.

b. The bureau of information management provides information technology support for the department, including maintaining the local area network, core software applications, mainframe access, program-specific software application development, hardware installation and help-desk activities.

c. The bureau of professional licensure provides staff support in licensing and certification to the following boards:

- (1) Athletic training.
- (2) Barbering.
- (3) Behavioral science.
- (4) Chiropractic.
- (5) Cosmetology arts and sciences.
- (6) Dietetics.
- (7) Hearing aid dispensers.
- (8) Sign language interpreters and transliterators.
- (9) Massage therapy.
- (10) Mortuary science.
- (11) Nursing home administrators.
- (12) Optometry.
- (13) Physical and occupational therapy.
- (14) Physician assistants.
- (15) Podiatry.
- (16) Psychology.
- (17) Respiratory care.
- (18) Social work.
- (19) Speech pathology and audiology.

d. The bureau of health statistics provides certified copies of birth, death, and marriage records to Iowans and other entitled persons.

**170.7(4) *Division of behavioral health.*** This division promotes the prevention of substance abuse and problem gambling, secondary conditions among people with disabilities, and violent behavior. The division also regulates substance abuse and gambling treatment programs. The division is responsible for approving laboratories that desire to perform drug-testing services for businesses located or doing business in Iowa. Included in the division are the following bureaus and offices.

a. The bureau of administration, regulation, and licensure licenses and monitors substance abuse treatment programs, including community-based and hospital-based programs, assessment and evaluation services, and operating while intoxicated (OWI) correctional and correctional institution programs. The bureau also licenses and monitors problem gambling treatment programs in Iowa.

b. The bureau of substance abuse prevention and treatment provides leadership and resources pertaining to substance abuse in the state. The bureau focuses on both substance abuse prevention and treatment and oversees resources provided by the state and federal governments.

c. The office of gambling treatment and prevention provides funding on a sliding fee scale for outpatient counseling for families, concerned persons, and gamblers affected by problem gambling. The program serves as a resource for all Iowans by providing information, referral, and educational services.

d. The office of injury prevention strives to address the burden of injury on the public health by disseminating information about injury, deaths and hospitalizations and promoting programs directed at preventing both intentional and unintentional injuries.

e. The bureau of HIV, STD, and hepatitis administers programs for the prevention, detection, and treatment of HIV, chlamydia, gonorrhea, syphilis, and viral hepatitis. Program staff provides information, training, and funding to local public health agencies and community-based organizations for prevention and control of these diseases; offers counseling, testing, and referral services; notifies sexual and needle-sharing partners of potential exposures; provides medications, case management,

and supportive services for diagnosed persons; and collects data on disease diagnoses to be used for program planning and evaluation related to prevention and care.

**170.7(5) *Division of environmental health.*** This division provides both educational and regulatory services to ensure a safe and healthy environment for Iowans. The state toxicologist is in this division and reports to the division director. Included in the division are the following bureaus and offices.

*a.* The bureau of radiological health regulates facilities that use radioactive materials or utilize ionizing radiation-producing machines; credentials persons who use radioactive material or operate ionizing radiation-producing machines; and provides emergency response related to radioactive materials and nuclear power plant incidents.

*b.* The bureau of lead poisoning prevention ensures that children are tested for lead poisoning and provides medical and environmental case management for cases of childhood lead poisoning through direct services and grant support to local public health partners. The bureau also regulates professionals who work with lead-based paint through required notification, certification, and work practice standards for those individuals. In addition, the bureau conducts surveillance and education on lead exposure, pesticide exposure, and occupational health and safety issues.

*c.* The bureau of environmental health services provides assessment, education, consultation, technical assistance and resource referral related to the delivery of environmental health services, emergency response, and regulatory functions to local public health agencies and local boards of health. In addition, the bureau provides consultation and assistance to the public on environmental health matters. The bureau also has regulatory oversight for public swimming pools and spas, water treatment devices, backflow prevention assembly testers, tattoo artists and establishments, and migrant labor camps. In addition, the bureau conducts Grade A milk rating inspections.

*d.* The office of plumbing and mechanical systems supports the plumbing and mechanical systems board and administers licensing and continuing education requirements for professionals in the plumbing, mechanical, hydronics and refrigeration trades.

**170.7(6) *Division of health promotion and chronic disease prevention.*** This division promotes and supports healthy behaviors and communities, the prevention and management of chronic diseases, and the development of public health infrastructure and access to health care services at local and state levels. Included in the division are the following bureaus and offices.

*a.* The bureau of nutrition and health promotion provides nutrition education, supplemental foods, breast-feeding promotion and support, and referrals for health services for low-income women and their children through the Women, Infants and Children (WIC) program. Health promotion programs bring state and local partners together to build a network of health partners dedicated to healthy nutrition and physical activity and provide funding and technical support/coaching to Iowa communities for community wellness initiatives.

*b.* The oral health bureau, overseen by the public health dental director, promotes and advances health behaviors to reduce the risk of oral diseases and improve the oral health status of all Iowans. Programs are in place targeting pregnant women, children, and youth for the prevention, early identification, referral, and treatment of oral disease.

*c.* The bureau of local public health provides education, ongoing technical assistance, monitoring, and support to local boards of health and local public health agencies for the development and delivery of services that contribute to compliance with the Iowa Public Health Standards. The bureau acts as a direct liaison between the department and the local public health system to achieve a common goal of promoting and protecting the health of Iowans and contributing to the state of Iowa's goal of becoming a "healthy community."

*d.* The office of multicultural health assists in fostering partnerships between state government programs, local governments, community groups, and ethnic/racial communities, assists in policy analysis to improve health care access and services for minority populations, and advocates for policies and practices that will reduce health disparities among Iowa's minority, immigrant, and refugee populations.

*e.* The office for healthy communities works to build healthy communities, thus supporting the department's vision of healthy people in healthy communities. Communities benefit from technical

assistance and support services that improve the capacity of communities to plan and implement health improvement programs.

*f.* The bureau of family health promotes the health of Iowa families by developing family-centered, community-based, coordinated, and culturally sensitive systems of care for women, infants, children, and adolescents and their families.

*g.* The bureau of health care access advocates for quality health care delivery systems for all Iowans and provides information, referrals, education, grant opportunities, technical assistance, and planning for Iowa communities. The bureau is the designated state entity for addressing rural health, primary care and health care workforce issues in Iowa and works to improve access to health care for vulnerable populations.

*h.* The bureau of chronic disease prevention and management supports the development and implementation of services that help prevent chronic disease or assist in the detection and management of chronic disease, including cancer, cardiovascular disease and diabetes.

**170.7(7) *Division of tobacco use prevention and control.*** This division promotes partnerships among state government, local communities, and the people of Iowa to reduce tobacco use. The division works to reduce tobacco use and the toll of tobacco-caused disease and death by preventing youth from starting to smoke, helping adults to quit smoking, and preventing exposure to secondhand smoke.  
[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.8(17A) Central office.** The address of the central office is: Iowa Department of Public Health, Sixth Floor, Lucas State Office Building, Des Moines, Iowa 50319-0075. Locations of specific offices and regional offices may be obtained by writing to the department at the above address.  
[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.9(17A) Business hours.** The normal business hours of the department are 8 a.m. to 4:30 p.m., Monday through Friday, except legal holidays. One notable exception is the vital records section, which staffs a customer service window just inside the north entrance of the Lucas State Office Building from 7 a.m. to 4:45 p.m., Monday through Friday, except legal holidays.  
[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.10(17A) Submission of materials.** Requests for applications and submission of applications and other materials shall be made directly to the division of the department administering the relevant program. Any person who submits materials should enclose a cover letter which states the use for which the materials are intended. Where the administrative rules give a specific procedure, such procedure should be followed.  
[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.11(17A) Requests for information.** Requests for information concerning programs within the department should be addressed to the specific division of the department. General requests for information may be made to: Public Information Officer, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. The department's home page on the Internet, [www.idph.state.ia.us](http://www.idph.state.ia.us), also features a "contact us" option.  
[ARC 8663B, IAB 4/7/10, effective 5/12/10]

These rules are intended to implement Iowa Code section 17A.3 and chapter 135.

CHAPTER 171  
 PETITIONS FOR RULE MAKING  
 [Prior to 7/29/87, Department of Health[470] Ch 171]

**641—171.1(17A) Petition for rule making.**

**171.1(1)** Any person or agency may file a petition for rule making with the Director, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. A petition is deemed filed when it is received by that office. The department must provide the petitioner with a file-stamped copy of the petition if the petitioner provides the agency an extra copy for this purpose. The petition must be typewritten, or legibly handwritten in ink and must substantially conform to the following form:

|   |  |
|---|--|
| BEFORE THE DEPARTMENT OF PUBLIC HEALTH  |  |
| Petition by (Name of Petitioner)<br>for the (adoption, amendment, or<br>repeal) of rules relating to (state<br>subject matter). | <br>PETITION FOR<br>RULE MAKING |

The petition must provide the following information:

1. A statement of the specific rule-making action sought by the petitioner including the text or a summary of the contents of the proposed rule or amendment to a rule and, if it is a petition to amend or repeal a rule, a citation and the relevant language to the particular portion or portions of the rule proposed to be amended or repealed.
2. A citation to any law deemed relevant to the department's authority to take the action urged or to the desirability of that action.
3. A brief summary of petitioner's arguments in support of the action urged in the petition.
4. A brief summary of any data supporting the action urged in the petition.
5. The names and addresses of other persons, or a description of any class of persons, known by petitioner to be affected by or interested in, the proposed action which is the subject of the petition.
6. Any request by petitioner for a meeting provided for by rule 641—171.4(17A).

**171.1(2)** The petition must be dated and signed by the petitioner or the petitioner's representative. It must also include the name, mailing address, and telephone number of the petitioner and petitioner's representative, and a statement indicating the person to whom communications concerning the petition should be directed.

**171.1(3)** The department may deny a petition because it does not substantially conform to the required form.

**641—171.2(17A) Briefs.** The petitioner may attach a brief to the petition in support of the action urged in the petition. The department may request a brief from the petitioner or from any other person concerning the substance of the petition.

**641—171.3(17A) Inquiries.** Inquiries concerning the status of a petition for rule making may be made to the Director, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**641—171.4(17A) Department consideration.**

**171.4(1)** Within 14 days after the filing of a petition, the department must submit a copy of the petition and any accompanying brief to the administrative rules coordinator and to the administrative rules review committee. Upon request by petitioner in the petition, the department must schedule a brief and informal meeting between the petitioner and a member of the staff of the department, to discuss the petition. The department may request the petitioner to submit additional information or argument concerning the petition. The department may also solicit comments from any person on the substance of the petition. Also, comments on the substance of the petition may be submitted to the department by any person.

**171.4(2)** Within 60 days after the filing of the petition, or within any longer period agreed to by the petitioner, the department must, in writing, deny the petition, and notify petitioner of its action and the specific grounds for the denial, or grant the petition and notify petitioner that it has instituted rule-making proceedings on the subject of the petition. Petitioner shall be deemed notified of the denial or grant of the petition on the date when the department mails or delivers the required notification to petitioner.

**171.4(3)** Denial of a petition because it does not substantially conform to the required form does not preclude the filing of a new petition on the same subject that seeks to eliminate the grounds for the agency's rejection of the petition.

These rules are intended to implement Iowa Code chapter 17A.

[Filed 3/18/76, Notice 2/9/76—published 4/5/76, effective 5/10/76]

[Filed emergency 7/10/87—published 7/29/87, effective 7/10/87]

[Filed 5/14/99, Notice 3/24/99—published 6/2/99, effective 7/7/99]

[Filed ARC 8664B (Notice ARC 8494B, IAB 1/27/10), IAB 4/7/10, effective 5/12/10]

CHAPTER 172  
DECLARATORY ORDERS  
[Prior to 7/29/87, Health Department[470] Ch 172]

**641—172.1(17A) Petition for declaratory order.** Any person may file a petition with the department of public health for a declaratory order as to the applicability to specified circumstances of a statute, rule, or order within the primary jurisdiction of the Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. A petition is deemed filed when it is received by that office. The department shall provide the petitioner with a file-stamped copy of the petition if the petitioner provides the department an extra copy for this purpose. The petition must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

---

BEFORE THE DEPARTMENT OF PUBLIC HEALTH

---

|  |   |                                   |
|--|---|-----------------------------------|
| Petition by (Name of Petitioner)<br>for a Declaratory Order on<br>(Cite provisions of law involved). |  | PETITION FOR<br>DECLARATORY ORDER |
|--|---|-----------------------------------|

---

The petition must provide the following information:

1. A clear and concise statement of all relevant facts on which the order is requested.
2. A citation and the relevant language of the specific statutes, rules, policies, decisions, or orders, whose applicability is questioned, and any other relevant law.
3. The questions petitioner wants answered, stated clearly and concisely.
4. The answers to the questions desired by the petitioner and a summary of the reasons urged by the petitioner in support of those answers.
5. The reasons for requesting the declaratory order and disclosure of the petitioner’s interest in the outcome.
6. A statement indicating whether the petitioner is currently a party to another proceeding involving the questions at issue and whether, to the petitioner’s knowledge, those questions have been decided by, are pending determination by, or are under investigation by, any governmental entity.
7. The names and addresses of other persons, or a description of any class of persons, known by petitioner to be affected by, or interested in, the questions presented in the petition.
8. Any request by petitioner for a meeting provided for by 172.7(17A).

The petition must be dated and signed by the petitioner or the petitioner’s representative. It must also include the name, mailing address, and telephone number of the petitioner and petitioner’s representative and a statement indicating the person to whom communications concerning the petition should be directed.

**641—172.2(17A) Notice of petition.** Within 15 days after receipt of a petition for a declaratory order, the department shall give notice of the petition to all persons not served by the petitioner pursuant to 172.6(17A) to whom notice is required by any provision of law. The department may also give notice to any other persons.

**641—172.3(17A) Intervention.**

**172.3(1)** Persons who qualify under any applicable provision of law as an intervenor and who file a petition for intervention within 20 days of the filing of a petition for declaratory order shall be allowed to intervene in a proceeding for a declaratory order.

**172.3(2)** Any person who files a petition for intervention at any time prior to the issuance of an order may be allowed to intervene in a proceeding for a declaratory order at the discretion of the department.

**172.3(3)** A petition for intervention shall be filed at the Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. Such a petition is deemed filed when it is received by that office. The department will provide the petitioner with a file-stamped copy of the petition for

intervention if the petitioner provides an extra copy for this purpose. A petition for intervention must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

| BEFORE THE DEPARTMENT OF PUBLIC HEALTH  |                                   |
|---|-----------------------------------|
| Petition by (Name of Original Petitioner)<br>for a Declaratory Order on (Cite<br>provisions of law cited in original petition). | }<br>PETITION FOR<br>INTERVENTION |

The petition for intervention must provide the following information:

1. Facts supporting the intervenor's standing and qualifications for intervention.
2. The answers urged by the intervenor to the question or questions presented and a summary of the reasons urged in support of those answers.
3. Reasons for requesting intervention and disclosure of the intervenor's interest in the outcome.
4. A statement indicating whether the intervenor is currently a party to any proceeding involving the questions at issue and whether, to the intervenor's knowledge, those questions have been decided by, are pending determination by, or are under investigation by, any governmental entity.
5. The names and addresses of any additional persons, or a description of any additional class of persons, known by the intervenor to be affected by, or interested in, the questions presented.
6. Whether the intervenor consents to be bound by the determination of the matters presented in the declaratory order proceeding.

The petition must be dated and signed by the intervenor or the intervenor's representative. It must also include the name, mailing address, and telephone number of the intervenor and intervenor's representative, and a statement indicating the person to whom communications should be directed.

**641—172.4(17A) Briefs.** The petitioner or any intervenor may file a brief in support of the position urged. The department may request a brief from the petitioner, any intervenor, or any other person concerning the questions raised.

**641—172.5(17A) Inquiries.** Inquiries concerning the status of a declaratory order proceeding may be made to the Director, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**641—172.6(17A) Service and filing of petitions and other papers.**

**172.6(1) Service—when required.** Except where otherwise provided by law, every petition for declaratory order, petition for intervention, brief, or other paper filed in a proceeding for a declaratory order shall be served upon each of the parties of record to the proceeding, and on all other persons identified in the petition for declaratory order or petition for intervention as affected by or interested in the questions presented, simultaneously with their filing. The party filing a document is responsible for service on all parties and other affected or interested persons.

**172.6(2) Filing—when required.** All petitions for declaratory orders, petitions for intervention, briefs, or other papers in a proceeding for a declaratory order shall be filed with the Director, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. All petitions, briefs, or other papers that are required to be served upon a party shall be filed simultaneously with the department.

**172.6(3) Method of service, time of filing, and proof of mailing.** Method of service, time of filing, and proof of mailing shall be as provided by 641—173.12(17A).

**641—172.7(17A) Consideration.** Upon request by petitioner, the department must schedule a brief and informal meeting between the original petitioner, all intervenors, and a member of the staff of the department, to discuss the questions raised. The department may solicit comments from any person on the questions raised. Also, comments on the questions raised may be submitted to the department by any person.

**641—172.8(17A) Action on petition.**

**172.8(1)** Within the time allowed by Iowa Code section 17A.9, after receipt of a petition for a declaratory order, the department or designee shall take action on the petition as required by Iowa Code section 17A.9.

**172.8(2)** The date of issuance of an order or of a refusal to issue an order is as defined in 641—173.2(17A).

[ARC 8665B, IAB 4/7/10, effective 5/12/10]

**641—172.9(17A) Refusal to issue order.**

**172.9(1)** The department shall not issue a declaratory order where prohibited by Iowa Code section 17A.9 and may refuse to issue a declaratory order on some or all questions raised for the following reasons:

1. The petition does not substantially comply with the required form.
2. The petition does not contain facts sufficient to demonstrate that the petitioner will be aggrieved or adversely affected by the failure of the department to issue an order.
3. The department does not have jurisdiction over the questions presented in the petition.
4. The questions presented by the petition are also presented in a current rule making, contested case, or other agency or judicial proceeding, that may definitively resolve them.
5. The questions presented by the petition would more properly be resolved in a different type of proceeding or by another body with jurisdiction over the matter.
6. The facts or questions presented in the petition are unclear, overbroad, insufficient, or otherwise inappropriate as a basis upon which to issue an order.
7. There is no need to issue an order because the questions raised in the petition have been settled due to a change in circumstances.
8. The petition is not based upon facts calculated to aid in the planning of future conduct but is, instead, based solely upon prior conduct in an effort to establish the effect of that conduct or to challenge an agency decision already made.
9. The petition requests a declaratory order that would necessarily determine the legal rights, duties, or responsibilities of other persons who have not joined in the petition, intervened separately, or filed a similar petition and whose position on the questions presented may fairly be presumed to be adverse to that of petitioner.
10. The petitioner requests the department to determine whether a statute is unconstitutional on its face.

**172.9(2)** A refusal to issue a declaratory order must indicate the specific grounds for the refusal and constitutes final agency action on the petition.

**172.9(3)** Refusal to issue a declaratory order pursuant to this provision does not preclude the filing of a new petition that seeks to eliminate the grounds for the refusal to issue an order.

[ARC 8665B, IAB 4/7/10, effective 5/12/10]

**641—172.10(17A) Contents of declaratory order—effective date.** In addition to the order itself, a declaratory order must contain the date of its issuance, the name of petitioner and all intervenors, the specific statutes, rules, policies, decisions, or orders involved, the particular facts upon which it is based, and the reasons for its conclusion. A declaratory order is effective on the date of issuance.

**641—172.11(17A) Copies of orders.** A copy of all orders issued in response to a petition for a declaratory order shall be mailed promptly to the original petitioner and all intervenors.

**641—172.12(17A) Effect of a declaratory order.** A declaratory order has the same status and binding effect as a final order issued in a contested case proceeding. It is binding on the department, the petitioner, and any intervenors and is applicable only in circumstances where the relevant facts and the law involved are indistinguishable from those on which the order was based. As to all other persons, a declaratory

order serves only as precedent and is not binding on the department. The issuance of a declaratory order constitutes final agency action on the petition.

These rules are intended to implement Iowa Code chapter 17A.

[Filed 3/18/76, Notice 2/9/76—published 4/5/76, effective 5/10/76]

[Filed emergency 7/10/87—published 7/29/87, effective 7/10/87]

[Filed 5/14/99, Notice 3/24/99—published 6/2/99, effective 7/7/99]

[Filed ARC 8665B (Notice ARC 8495B, IAB 1/27/10), IAB 4/7/10, effective 5/12/10]

CHAPTER 173  
CONTESTED CASES

[Prior to 7/29/87, Health Department[470] Ch 173]

**641—173.1(17A) Scope and applicability.** This chapter applies to contested case proceedings conducted by the department of public health.

**641—173.2(17A) Definitions.** Except where otherwise specifically defined by law:

“*Contested case*” means a proceeding defined by Iowa Code section 17A.2(5) and includes any matter defined as a no factual dispute contested case under 1998 Iowa Acts, chapter 1202, section 14.

“*Issuance*” means the date of mailing of a decision or order or date of delivery if service is by other means unless another date is specified in the order.

“*Party*” means each person or agency named or admitted as a party or properly seeking and entitled as of right to be admitted as a party.

“*Presiding officer*” means an administrative law judge from the department of inspections and appeals or the director of the department or the members of a multimember board or commission.

“*Proposed decision*” means the presiding officer’s recommended findings of fact, conclusions of law, decision, and order in a contested case in which the department did not preside.

**641—173.3(17A) Time requirements.**

**173.3(1)** Time shall be computed as provided in Iowa Code subsection 4.1(34).

**173.3(2)** For good cause, the presiding officer may extend or shorten the time to take any action, except as precluded by statute or by rule. Except for good cause stated in the record, before extending or shortening the time to take any action, the presiding officer shall afford all parties an opportunity to be heard or to file written arguments.

**641—173.4(17A) Requests for contested case proceeding.** Any person claiming an entitlement to a contested case proceeding shall file a written request for such a proceeding within the time specified by the particular rules or statutes governing the subject matter or, in the absence of such law, the time specified in the agency action in question.

The request for a contested case proceeding should state the name and address of the requester, identify the specific department action which is disputed, and where the requester is represented by a lawyer identify the provisions of law or precedent requiring or authorizing the holding of a contested case proceeding in the particular circumstances involved, and include a short and plain statement of the issues of material fact in dispute.

**641—173.5(17A) Notice of hearing.**

**173.5(1) Delivery.** Delivery of the notice of hearing constitutes the commencement of the contested case proceeding. Delivery may be executed by:

- a. Personal service as provided in the Iowa Rules of Civil Procedure; or
- b. Certified mail, return receipt requested; or
- c. First-class mail; or
- d. Publication, as provided in the Iowa Rules of Civil Procedure.

**173.5(2) Contents.** The notice of hearing shall contain the following information:

- a. A statement of the time, place, and nature of the hearing;
- b. A statement of the legal authority and jurisdiction under which the hearing is to be held;
- c. A reference to the particular sections of the statutes and rules involved;
- d. A short and plain statement of the matters asserted. If the department or other party is unable to state the matters in detail at the time the notice is served, the initial notice may be limited to a statement of the issues involved. Thereafter, upon application, a more definite and detailed statement shall be furnished;

e. Identification of all parties including the name, address and telephone number of the person who will act as advocate for the department or the state and of parties’ counsel where known;

- f.* Reference to the procedural rules governing conduct of the contested case proceeding;
- g.* Reference to the procedural rules governing informal settlement;
- h.* Identification of the presiding officer, if known. If not known, a description of who will serve as presiding officer; and
- i.* Notification of the time period in which a party may request, pursuant to 1998 Iowa Acts, chapter 1202, section 15(1), and rule 173.6(17A), that the presiding officer be an administrative law judge.

**641—173.6(17A) Presiding officer.**

**173.6(1)** Any party who wishes to request that the presiding officer assigned to render a proposed decision be an administrative law judge employed by the department of inspections and appeals must file a written request within 20 days after service of a notice of hearing which identifies or describes the presiding officer as the director of the department or members of the department.

**173.6(2)** The department may deny the request only upon a finding that one or more of the following apply:

- a.* Neither the department nor any officer of the department under whose authority the contested case is to take place is a named party to the proceeding or a real party in interest to that proceeding.
- b.* There is a compelling need to expedite issuance of a final decision in order to protect the public health, safety, or welfare.
- c.* An administrative law judge with the qualifications identified in subrule 173.6(4) is unavailable to hear the case within a reasonable time.
- d.* The case involves significant policy issues of first impression that are inextricably intertwined with the factual issues presented.
- e.* The demeanor of the witnesses is likely to be dispositive in resolving the disputed factual issues.
- f.* Funds are unavailable to pay the costs of an administrative law judge and an interagency appeal.
- g.* The request was not timely filed.
- h.* The request is not consistent with a specified statute.

**173.6(3)** The department shall issue a written ruling specifying the grounds for its decision within 20 days after a request for an administrative law judge is filed. If the ruling is contingent upon the availability of an administrative law judge with the qualifications identified in subrule 173.6(4), the parties shall be notified at least 10 days prior to hearing if a qualified administrative law judge will not be available.

**173.6(4)** An administrative law judge assigned to act as presiding officer in a contested case shall have the following technical expertness unless waived by the department: a J.D. degree.

**173.6(5)** Except as provided otherwise by another provision of law, all rulings by an administrative law judge acting as presiding officer are subject to appeal to the department. A party must seek any available intra-agency appeal in order to exhaust adequate administrative remedies.

**173.6(6)** Unless otherwise provided by law, the director of the department and members of multimember boards and commissions, when reviewing a proposed decision upon intra-agency appeal, shall have the powers of and shall comply with the provisions of this chapter which apply to presiding officers.

**641—173.7(17A) Waiver of procedures.** Unless otherwise precluded by law, the parties in a contested case proceeding may waive any provision of this chapter. However, the department in its discretion may refuse to give effect to such a waiver when it deems the waiver to be inconsistent with the public interest.

**641—173.8(17A) Telephone proceedings.** The presiding officer may resolve preliminary procedural motions by telephone conference in which all parties have an opportunity to participate. Other telephone proceedings may be held with the consent of all parties. The presiding officer will determine the location of the parties and witnesses for telephone hearings. The convenience of the witnesses or parties, as well as the nature of the case, will be considered when location is chosen.

**641—173.9(17A) Disqualification.**

**173.9(1)** A presiding officer or other person shall withdraw from participation in the making of any proposed or final decision in a contested case if that person:

- a.* Has a personal bias or prejudice concerning a party or a representative of a party;
- b.* Has personally investigated, prosecuted or advocated in connection with that case, the specific controversy underlying that case, another pending factually related contested case, or a pending factually related controversy that may culminate in a contested case involving the same parties;
- c.* Is subject to the authority, direction or discretion of any person who has personally investigated, prosecuted or advocated in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy involving the same parties;
- d.* Has acted as counsel to any person who is a private party to that proceeding within the past two years;
- e.* Has a personal financial interest in the outcome of the case or any other significant personal interest that could be substantially affected by the outcome of the case;
- f.* Has a spouse or relative within the third degree of relationship that (1) is a party to the case, or an officer, director or trustee of a party; (2) is a lawyer in the case; (3) is known to have an interest that could be substantially affected by the outcome of the case; or (4) is likely to be a material witness in the case; or
- g.* Has any other legally sufficient cause to withdraw from participation in the decision making in that case.

**173.9(2)** The term “personally investigated” means taking affirmative steps to interview witnesses directly or to obtain documents or other information directly. The term “personally investigated” does not include general direction and supervision of assigned investigators, unsolicited receipt of information which is relayed to assigned investigators, review of another person’s investigative work product in the course of determining whether there is probable cause to initiate a proceeding, or exposure to factual information while performing other agency functions, including fact gathering for purposes other than investigation of the matter which culminates in a contested case. Factual information relevant to the merits of a contested case received by a person who later serves as presiding officer in that case shall be disclosed if required by Iowa Code section 17A.17 as amended by 1998 Iowa Acts, chapter 1202, section 19, and subrules 173.9(3) and 173.23(9).

**173.9(3)** In a situation where a presiding officer or other person knows of information which might reasonably be deemed to be a basis for disqualification and decides voluntary withdrawal is unnecessary, that person shall submit the relevant information for the record by affidavit and shall provide for the record a statement of the reasons for the determination that withdrawal is unnecessary.

**173.9(4)** If a party asserts disqualification on any appropriate ground, including those listed in subrule 173.9(1), the party shall file a motion supported by an affidavit pursuant to 1998 Iowa Acts, chapter 1202, section 19(7). The motion must be filed as soon as practicable after the reason alleged in the motion becomes known to the party.

If the presiding officer determines that disqualification is appropriate, the presiding officer or other person shall withdraw. If the presiding officer determines that withdrawal is not required, the presiding officer shall enter an order to that effect. A party asserting disqualification may seek an interlocutory appeal under rule 173.25(17A) and seek a stay under rule 173.29(17A).

**641—173.10(17A) Consolidation—severance.**

**173.10(1)** *Consolidation.* The presiding officer may consolidate any or all matters at issue in two or more contested case proceedings where (a) the matters at issue involve common parties or common questions of fact or law; (b) consolidation would expedite and simplify consideration of the issues involved; and (c) consolidation would not adversely affect the rights of any of the parties to those proceedings.

**173.10(2)** *Severance.* The presiding officer may, for good cause shown, order any contested case proceedings or portions thereof severed.

**641—173.11(17A) Pleadings.**

**173.11(1)** Pleadings may be required by rule, by the notice of hearing, or by order of the presiding officer.

**173.11(2)** Answer. An answer shall be filed within 20 days of service of the notice of hearing unless otherwise ordered. A party may move to dismiss or apply for a more definite and detailed statement when appropriate.

An answer shall show on whose behalf it is filed and specifically admit, deny, or otherwise answer all material allegations of the notice of hearing to which it responds. It shall state any facts deemed to show an affirmative defense and contain as many additional defenses as the pleader may claim.

An answer shall state the name, address and telephone number of the person filing the answer, the person or entity on whose behalf it is filed, and the attorney representing that person, if any.

Any allegation in the notice of hearing not denied in the answer is considered admitted. The presiding officer may refuse to consider any defense not raised in the answer which could have been raised on the basis of facts known when the answer was filed if any party would be prejudiced.

**173.11(3)** Amendment. Notices of hearing and answers may be amended with the consent of the parties or in the discretion of the presiding officer who may impose terms or grant a continuance.

**641—173.12(17A) Service and filing of pleadings and other papers.**

**173.12(1)** *Service—when required.* Except where otherwise provided by law, every document filed in a contested case proceeding shall be served upon each of the parties of record to the proceeding, including the person designated as prosecutor for the state or the department, simultaneously with their filing. Except for the original notice of hearing and an application for rehearing as provided in Iowa Code section 17A.16(2), the party filing a document is responsible for service on all parties.

**173.12(2)** *Service—how made.* Service upon a party represented by an attorney shall be made upon the attorney unless otherwise ordered. Service is made by delivery or by mailing a copy to the person's last-known address. Service by mail is complete upon mailing, except where otherwise specifically provided by statute, rule, or order.

**173.12(3)** *Filing—when required.* After the notice of hearing, all documents in a contested case proceeding shall be filed with the Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. All documents that are required to be served upon a party shall be filed simultaneously with the department.

**173.12(4)** *Filing—when made.* Except where otherwise provided by law, a document is deemed filed at the time it is delivered to the department, delivered to an established courier service for immediate delivery to that office, or mailed by first-class mail or state interoffice mail to that office, so long as there is proof of mailing.

**173.12(5)** *Proof of mailing.* Proof of mailing includes either: a legible United States Postal Service postmark on the envelope, a certificate of service, a notarized affidavit, or a certification in substantially the following form:

I certify under penalty of perjury and pursuant to the laws of Iowa that, on (date of mailing), I mailed copies of (describe document) addressed to the Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075, and to the names and addresses of the parties listed below by depositing the same in (a United States post office mailbox with correct postage properly affixed or state interoffice mail).

(Date)

(Signature)

**641—173.13(17A) Discovery.**

**173.13(1)** Discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by these rules or by order of the presiding officer, time periods for compliance with discovery shall be as provided in the Iowa Rules of Civil Procedure.

**173.13(2)** Any motion relating to discovery shall allege that the moving party has previously made a good-faith attempt to resolve the discovery issues involved with the opposing party. Motions in regard to

discovery shall be ruled upon by the presiding officer. Opposing parties shall be afforded the opportunity to respond within ten days of the filing of the motion unless the time is shortened as provided in subrule 173.13(1). The presiding officer may rule on the basis of the written motion and any response, or may order argument on the motion.

**173.13(3)** Evidence obtained in discovery may be used in the contested case proceeding if that evidence would otherwise be admissible in that proceeding.

**641—173.14(17A,135) Subpoenas.**

**173.14(1)** *Investigatory subpoenas.*

*a.* The department may subpoena books, papers, records, and other real evidence which is necessary for the department to decide whether to institute a contested case proceeding. Each subpoena shall contain:

- (1) The name and address of the person to whom the subpoena is directed;
- (2) A description of the books, papers, records or other real evidence requested;
- (3) The date, time and location for production, or inspection and copying;
- (4) The time within which a motion to quash or modify the subpoena must be filed;
- (5) The signature, address and telephone number of the division director or designee;
- (6) The date of issuance;
- (7) A return of service.

*b.* Any person who is aggrieved or adversely affected by compliance with the subpoena and who desires to challenge the subpoena must, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days, file with the department a motion to quash or modify the subpoena. The motion shall describe the legal reasons why the subpoena should be quashed or modified, and may be accompanied by legal briefs or factual affidavits.

*c.* Upon receipt of a timely motion to quash or modify a subpoena, the department may request an administrative law judge to issue a decision. Oral argument may be scheduled at the discretion of the administrative law judge. The administrative law judge may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.

*d.* A person who is aggrieved by a ruling of an administrative law judge and who desires to challenge that ruling must appeal the ruling to the department by serving on the department director, either in person or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

*e.* If the person contesting the subpoena is not the person under investigation, the department's decision is final for purposes of judicial review. If the person contesting the subpoena is the person under investigation, the department's decision is not final for purposes of judicial review until either (1) the person is notified the investigation has been concluded with no formal action, or (2) there is a final decision in the case.

**173.14(2)** *Issuance of subpoenas in a contested case.*

*a.* Subpoenas issued in a contested case may compel the attendance of witnesses at a deposition or hearing, and may compel the production of books, papers, records, and other real evidence. A command to produce evidence or to permit inspection may be joined with a command to appear at a deposition or hearing, or may be issued separately. Subpoenas shall be issued by the department upon written request. In the absence of good cause, a request for a subpoena must be received at least three days before the scheduled hearing.

*b.* A request for a subpoena shall include the following information, as applicable, unless the subpoena is requested to compel testimony or documents for rebuttal or impeachment purposes:

- (1) The name, address and telephone number of the person requesting the subpoena;
- (2) The name and address of the person to whom the subpoena shall be directed;
- (3) The date, time and location at which the person shall be commanded to attend and give testimony;
- (4) Whether the testimony is requested in connection with a deposition or hearing;
- (5) A description of the books, papers, records or other real evidence requested;

- (6) The date, time and location for production, or inspection and copying.
- c. Each subpoena shall contain, as applicable:
  - (1) The caption of the case;
  - (2) The name, address and telephone number of the person who requested the subpoena;
  - (3) The name and address of the person to whom the subpoena is directed;
  - (4) The date, time and location at which the person is commanded to appear;
  - (5) Whether the testimony is commanded in connection with a deposition or hearing;
  - (6) A description of the books, papers, records or other real evidence the person is commanded to produce;
  - (7) The date, time and location for production, or inspection and copying;
  - (8) The time within which a motion to quash or modify the subpoena must be filed;
  - (9) The signature, address and telephone number of the division director or designee;
  - (10) The date of issuance;
  - (11) A return of service.
- d. Unless a subpoena is requested to compel testimony or documents for rebuttal or impeachment purposes, the division director or designee shall mail copies of all subpoenas to the parties to the contested case. The person who requested the subpoena is responsible for serving the subpoena upon the subject of the subpoena.
- e. Any person who is aggrieved or adversely affected by compliance with the subpoena, or any party to the contested case who desires to challenge the subpoena must, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days, file with the department a motion to quash or modify the subpoena. The motion shall describe the legal reasons why the subpoena should be quashed or modified, and may be accompanied by legal briefs or factual affidavits.
- f. Upon receipt of a timely motion to quash or modify a subpoena, the department may request an administrative law judge to issue a decision. Oral argument may be scheduled at the discretion of the administrative law judge. The administrative law judge may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.
- g. A person who is aggrieved by a ruling of an administrative law judge and who desires to challenge that ruling must appeal the ruling to the department by serving on the department director, either in person or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

#### **641—173.15(17A) Motions.**

**173.15(1)** No technical form for motions is required. However, prehearing motions must be in writing, state the grounds for relief, and state the relief sought.

**173.15(2)** Any party may file a written response to a motion within ten days after the motion is served. The presiding officer may consider a failure to respond within the required time period in ruling on a motion.

**173.15(3)** The presiding officer may schedule oral argument on any motion.

**173.15(4)** Motions pertaining to the hearing, except motions for summary judgment, must be filed and served at least ten days prior to the date of hearing unless there is good cause for permitting later action or the time for such action is lengthened or shortened by an order of the presiding officer.

**173.15(5)** Motions for summary judgment. Motions for summary judgment shall comply with the requirements of Iowa Rule of Civil Procedure 237 and shall be subject to disposition according to the requirements of that rule to the extent such requirements are not inconsistent with the provisions of this rule or any other provision of law governing the procedure in contested cases.

Motions for summary judgment must be filed and served at least 45 days prior to the scheduled hearing date, or other time period determined by the presiding officer. Any party resisting the motion shall file and serve a resistance within 15 days, unless otherwise ordered by the presiding officer, from the date a copy of the motion was served. The time fixed for hearing or nonoral submission shall be not less than 20 days after the filing of the motion, unless a shorter time is ordered by the presiding officer.

A summary judgment order rendered on all issues in a contested case is subject to rehearing pursuant to 173.28(17A) and appeal pursuant to 173.27(17A).

**641—173.16(17A) Prehearing conference.**

**173.16(1)** Any party may request a prehearing conference. A written request for prehearing conference or an order for prehearing conference on the presiding officer's own motion shall be filed not less than seven days prior to the hearing date. A prehearing conference shall be scheduled not less than three business days prior to the hearing date.

Written notice of the prehearing conference shall be given by the presiding officer to all parties. For good cause the presiding officer may permit variances from this rule.

**173.16(2)** Each party shall bring to the prehearing conference:

*a.* A final list of the witnesses who the party anticipates will testify at hearing. Witnesses not listed may be excluded from testifying unless there was good cause for the failure to include their names; and

*b.* A final list of exhibits which the party anticipates will be introduced at hearing. Exhibits other than rebuttal exhibits that are not listed may be excluded from admission into evidence unless there was good cause for the failure to include them.

*c.* Witness or exhibit lists may be amended subsequent to the prehearing conference within the time limits established by the presiding officer at the prehearing conference. Any such amendments must be served on all parties.

**173.16(3)** In addition to the requirements of subrule 173.16(2), the parties at a prehearing conference may:

*a.* Enter into stipulations of law or fact;

*b.* Enter into stipulations on the admissibility of exhibits;

*c.* Identify matters which the parties intend to request be officially noticed;

*d.* Enter into stipulations for waiver of any provision of law; and

*e.* Consider any additional matters which will expedite the hearing.

**173.16(4)** Prehearing conferences shall be conducted by telephone unless otherwise ordered. Parties shall exchange and receive witness and exhibit lists in advance of a telephone prehearing conference.

**641—173.17(17A) Continuances.** Applications for continuances shall be made to the presiding officer.

**173.17(1)** A written application for a continuance shall:

*a.* Be made at the earliest possible time and no less than seven days before the hearing except in case of unanticipated emergencies;

*b.* State the specific reasons for the request; and

*c.* Be signed by the requesting party or the party's representative.

**173.17(2)** In determining whether to grant a continuance, the presiding officer may consider:

*a.* Prior continuances;

*b.* The interests of all parties;

*c.* The likelihood of informal settlement;

*d.* The existence of an emergency;

*e.* Any objection;

*f.* Any applicable time requirements;

*g.* The existence of a conflict in the schedules of counsel, parties, or witnesses;

*h.* The timeliness of the request; and

*i.* Other relevant factors.

The presiding officer may require documentation of any grounds for continuance.

**641—173.18(17A) Withdrawals.** A party requesting a contested case proceeding may withdraw that request prior to the hearing only in accordance with department rules. Unless otherwise provided, a withdrawal shall be with prejudice.

**641—173.19(17A) Intervention.**

**173.19(1) Motion.** A motion for leave to intervene in a contested case proceeding shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding. A proposed answer or petition in intervention shall be attached to the motion. Any party may file a response within 14 days of service of the motion to intervene unless the time period is extended or shortened by the presiding officer.

**173.19(2) When filed.** Motion for leave to intervene shall be filed as early in the proceeding as possible to avoid adverse impact on existing parties or the conduct of the proceeding. Unless otherwise ordered, a motion for leave to intervene shall be filed before the prehearing conference, if any, or at least 20 days before the date scheduled for hearing. Any later motion must contain a statement of good cause for the failure to file in a timely manner. Unless inequitable or unjust, an intervenor shall be bound by any agreement, arrangement, or other matter previously raised in the case. Requests by untimely intervenors for continuances which would delay the proceeding will ordinarily be denied.

**173.19(3) Grounds for intervention.** The movant shall demonstrate that (a) intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties; (b) the movant is likely to be aggrieved or adversely affected by a final order in the proceeding; and (c) the interests of the movant are not adequately represented by existing parties.

**173.19(4) Effect of intervention.** If appropriate, the presiding officer may order consolidation of the petitions and briefs of different parties whose interests are aligned with each other and limit the number of representatives allowed to participate actively in the proceedings. A person granted leave to intervene is a party to the proceeding. The order granting intervention may restrict the issues that may be raised by the intervenor or otherwise condition the intervenor's participation in the proceeding.

**641—173.20(17A) Hearing procedures.**

**173.20(1)** The presiding officer presides at the hearing, and may rule on motions, require briefs, issue a proposed decision, and issue such orders and rulings as will ensure the orderly conduct of the proceedings.

**173.20(2)** All objections shall be timely made and stated on the record.

**173.20(3)** Parties have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Partnerships, corporations, or associations may be represented by any member, officer, director, or duly authorized agent. Any party may be represented by an attorney or another person authorized by law.

**173.20(4)** Subject to terms and conditions prescribed by the presiding officer, parties have the right to introduce evidence on issues of material fact, cross-examine witnesses present at the hearing as necessary for a full and true disclosure of the facts, present evidence in rebuttal, and submit briefs and engage in oral argument.

**173.20(5)** The presiding officer shall maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly.

**173.20(6)** Witnesses may be sequestered during the hearing.

**173.20(7)** The presiding officer shall conduct the hearing in the following manner:

*a.* The presiding officer shall give an opening statement briefly describing the nature of the proceedings;

*b.* The parties shall be given an opportunity to present opening statements;

*c.* Parties shall present their cases in the sequence determined by the presiding officer;

*d.* Each witness shall be sworn or affirmed by the presiding officer or the court reporter, and be subject to examination and cross-examination. The presiding officer may limit questioning in a manner consistent with law;

*e.* When all parties and witnesses have been heard, parties may be given the opportunity to present final arguments.

**641—173.21(17A) Evidence.**

**173.21(1)** The presiding officer shall rule on admissibility of evidence and may, where appropriate, take official notice of facts in accordance with all applicable requirements of law.

**173.21(2)** Stipulation of facts is encouraged. The presiding officer may make a decision based on stipulated facts.

**173.21(3)** Evidence in the proceeding shall be confined to the issues as to which the parties received notice prior to the hearing unless the parties waive their right to such notice or the presiding officer determines that good cause justifies expansion of the issues. If the presiding officer decides to admit evidence on issues outside the scope of the notice over the objection of a party who did not have actual notice of those issues, that party, upon timely request, shall receive a continuance sufficient to amend pleadings and to prepare on the additional issue.

**173.21(4)** The party seeking admission of an exhibit must provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents should normally be provided to opposing parties.

All exhibits admitted into evidence shall be appropriately marked and be made part of the record.

**173.21(5)** Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. Such an objection shall be accompanied by a brief statement of the grounds upon which it is based. The objection, the ruling on the objection, and the reasons for the ruling shall be noted in the record. The presiding officer may rule on the objection at the time it is made or may reserve a ruling until the written decision.

**173.21(6)** Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony shall briefly summarize the testimony or, with permission of the presiding officer, present the testimony. If the excluded evidence consists of a document or exhibit, it shall be marked as part of an offer of proof and inserted in the record.

**641—173.22(17A) Default.**

**173.22(1)** If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no adjournment is granted, enter a default decision or proceed with the hearing and render a decision in the absence of the party.

**173.22(2)** Where appropriate and not contrary to law, any party may move for default against a party who has requested the contested case proceeding and has failed to file a required pleading or has failed to appear after proper service.

**173.22(3)** Default decisions or decisions rendered on the merits after a party has failed to appear or participate in a contested case proceeding become final agency action unless, within 15 days after the date of notification or mailing of the decision, a motion to vacate is filed and served on all parties or an appeal of a decision on the merits is timely initiated within the time provided by rule 173.27(17A). A motion to vacate must state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate at the contested case proceeding. Each fact so stated must be substantiated by at least one sworn affidavit of a person with personal knowledge of each such fact, which affidavit(s) must be attached to the motion.

**173.22(4)** The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

**173.22(5)** Properly substantiated and timely filed motions to vacate shall be granted only for good cause shown. The burden of proof as to good cause is on the moving party. Adverse parties shall have ten days to respond to a motion to vacate. Adverse parties shall be allowed to conduct discovery as to the issue of good cause and to present evidence on the issue prior to a decision on the motion, if a request to do so is included in that party's response.

**173.22(6)** "Good cause" for purposes of this rule shall have the same meaning as "good cause" for setting aside a default judgment under Iowa Rule of Civil Procedure 236.

**173.22(7)** A decision denying a motion to vacate is subject to further appeal within the time limit allowed for further appeal of a decision on the merits in the contested case proceeding. A decision

granting a motion to vacate is subject to interlocutory appeal by the adverse party pursuant to rule 173.25(17A).

**173.22(8)** If a motion to vacate is granted and no timely interlocutory appeal has been taken, the presiding officer shall issue another notice of hearing and the contested case shall proceed accordingly.

**173.22(9)** A default decision may award any relief consistent with the request for relief made in the petition and embraced in its issues (but, unless the defaulting party has appeared, it cannot exceed the relief demanded).

**173.22(10)** A default decision may provide either that the default decision is to be stayed pending a timely motion to vacate or that the default decision is to take effect immediately, subject to a request for stay under rule 173.29(17A).

**641—173.23(17A) Ex parte communication.**

**173.23(1)** Prohibited communications. Unless required for the disposition of ex parte matters specifically authorized by statute, following issuance of the notice of hearing, there shall be no communication, directly or indirectly, between the presiding officer and any party or representative of any party or any other person with a direct or indirect interest in such case in connection with any issue of fact or law in the case except upon notice and opportunity for all parties to participate. This does not prohibit persons jointly assigned such tasks from communicating with each other. Nothing in this provision is intended to preclude the presiding officer from communicating with members of the department or seeking the advice or help of persons other than those with a personal interest in, or those engaged in personally investigating as defined in subrule 173.9(2), prosecuting, or advocating in, either the case under consideration or a pending factually related case involving the same parties as long as those persons do not directly or indirectly communicate to the presiding officer any ex parte communications they have received of a type that the presiding officer would be prohibited from receiving or that furnish, augment, diminish, or modify the evidence in the record.

**173.23(2)** Prohibitions on ex parte communications commence with the issuance of the notice of hearing in a contested case and continue for as long as the case is pending.

**173.23(3)** Written, oral or other forms of communication are “ex parte” if made without notice and opportunity for all parties to participate.

**173.23(4)** To avoid prohibited ex parte communications, notice must be given in a manner reasonably calculated to give all parties a fair opportunity to participate. Notice of written communications shall be provided in compliance with rule 173.12(17A) and may be supplemented by telephone, facsimile, electronic mail or other means of notification. Where permitted, oral communications may be initiated through conference telephone call including all parties or their representatives.

**173.23(5)** Persons who jointly act as presiding officer in a pending contested case may communicate with each other without notice or opportunity for parties to participate.

**173.23(6)** The division director or other persons may be present in deliberations or otherwise advise the presiding officer without notice or opportunity for parties to participate as long as they are not disqualified from participating in the making of a proposed or final decision under any provision of law and they comply with subrule 173.23(1).

**173.23(7)** Communications with the presiding officer involving uncontested scheduling or procedural matters do not require notice or opportunity for parties to participate. Parties should notify other parties prior to initiating such contact with the presiding officer when feasible, and shall notify other parties when seeking to continue hearings or other deadlines pursuant to rule 173.17(17A).

**173.23(8)** Disclosure of prohibited communications. A presiding officer who receives a prohibited ex parte communication during the pendency of a contested case must initially determine if the effect of the communication is so prejudicial that the presiding officer should be disqualified. If the presiding officer determines that disqualification is warranted, a copy of any prohibited written communication, all written responses to the communication, a written summary stating the substance of any prohibited oral or other communication not available in written form for disclosure, all responses made, and the identity of each person from whom the presiding officer received a prohibited ex parte communication

shall be submitted for inclusion in the record under seal by protective order (or disclosed). If the presiding officer determines that disqualification is not warranted, such documents shall be submitted for inclusion in the record and served on all parties. Any party desiring to rebut the prohibited communication must be allowed the opportunity to do so upon written request filed within ten days after notice of the communication.

**173.23(9)** Promptly after being assigned to serve as presiding officer at any stage in a contested case proceeding, a presiding officer shall disclose to all parties material factual information received through ex parte communication prior to such assignment unless the factual information has already been or shortly will be disclosed pursuant to Iowa Code section 17A.13(2) or through discovery. Factual information contained in an investigative report or similar document need not be separately disclosed by the presiding officer as long as such documents have been or will shortly be provided to the parties.

**173.23(10)** The presiding officer may render a proposed or final decision imposing appropriate sanctions for violations of this rule including default, a decision against the offending party, censure, or suspension or revocation of the privilege to practice before the department. Violation of ex parte communication prohibitions by department personnel shall be reported to the director for possible sanctions including censure, suspension, dismissal, or other disciplinary action.

**641—173.24(17A) Recording costs.** Upon request, the department shall provide a copy of the whole or any portion of the record at cost. The cost of preparing a copy of the record or of transcribing the hearing record shall be paid by the requesting party. Parties who request that a hearing be recorded by certified shorthand reporters rather than by electronic means shall bear the cost of that recordation, unless otherwise provided by law.

**641—173.25(17A) Interlocutory appeals.** Upon written request of a party or on its own motion, the director or board or commission may review an interlocutory order of the presiding officer. In determining whether to do so, the director or board or commission shall weigh the extent to which its granting the interlocutory appeal would expedite final resolution of the case and the extent to which review of that interlocutory order by the department at the time it reviews the proposed decision of the presiding officer would provide an adequate remedy. Any request for interlocutory review must be filed within 14 days of issuance of the challenged order, but no later than the time for compliance with the order or the date of hearing, whichever is first.

**641—173.26(17A) Final decision.**

**173.26(1)** When the director of the department presides over the reception of evidence at the hearing, the decision is a final decision.

**173.26(2)** When the director of the department does not preside at the reception of evidence, the presiding officer shall make a proposed decision. The proposed decision becomes the final decision of the department without further proceedings unless there is an appeal to, or review on motion of, the department within the time provided in rule 173.27(17A).

**641—173.27(17A) Appeals and review.**

**173.27(1) Appeal by party.** Any adversely affected party may appeal a proposed decision to the director within 30 days after issuance of the proposed decision.

**173.27(2) Review.** The director may initiate review of a proposed decision on its own motion at any time within 30 days following the issuance of such a decision.

**173.27(3) Notice of appeal.** An appeal of a proposed decision is initiated by filing a timely notice of appeal with the department. The notice of appeal must be signed by the appealing party or a representative of that party and contain a certificate of service. The notice shall specify:

- a. The parties initiating the appeal;
- b. The proposed decision or order appealed from;
- c. The specific findings or conclusions to which exception is taken and any other exceptions to the decision or order;

- d. The relief sought;
- e. The grounds for relief.

**173.27(4) Requests to present additional evidence.** A party may request the taking of additional evidence only by establishing that the evidence is material, that good cause existed for the failure to present the evidence at the hearing, and that the party has not waived the right to present the evidence. A written request to present additional evidence must be filed with the notice of appeal or, by a nonappealing party, within 14 days of service of the notice of appeal. The director may remand a case to the presiding officer for further hearing or the director may preside at the taking of additional evidence.

**173.27(5) Scheduling.** The department shall issue a schedule for consideration of the appeal.

**173.27(6) Briefs and arguments.** Unless otherwise ordered, within 20 days of the notice of appeal or order for review, each appealing party may file exceptions and briefs. Within 20 days thereafter, any party may file a responsive brief. Briefs shall cite any applicable legal authority and specify relevant portions of the record in that proceeding. Written requests to present oral argument shall be filed with the briefs.

The director may resolve the appeal on the briefs or provide an opportunity for oral argument. The director may shorten or extend the briefing period as appropriate.

#### **641—173.28(17A) Applications for rehearing.**

**173.28(1) By whom filed.** Any party to a contested case proceeding may file an application for rehearing from a final order.

**173.28(2) Content of application.** The application for rehearing shall state on whose behalf it is filed, the specific grounds for rehearing, and the relief sought. In addition, the application shall state whether the applicant desires reconsideration of all or part of the department decision on the existing record and whether, on the basis of the grounds enumerated in subrule 173.27(4), the applicant requests an opportunity to submit additional evidence.

**173.28(3) Time of filing.** The application shall be filed with the department within 20 days after issuance of the final decision.

**173.28(4) Notice to other parties.** A copy of the application shall be timely mailed by the applicant to all parties of record not joining therein. If the application does not contain a certificate of service, the department shall serve copies on all parties.

**173.28(5) Disposition.** Any application for a rehearing shall be deemed denied unless the department grants the application within 20 days after its filing.

#### **641—173.29(17A) Stays of department actions.**

**173.29(1) When available.**

a. Any party to a contested case proceeding may petition the department for a stay of an order issued in that proceeding or for other temporary remedies, pending review by the department. The petition shall be filed with the notice of appeal and shall state the reasons justifying a stay or other temporary remedy. The director may rule on the stay or authorize the presiding officer to do so.

b. Any party to a contested case proceeding may petition the department for a stay or other temporary remedies pending judicial review of all or part of that proceeding. The petition shall state the reasons justifying a stay or other temporary remedy.

**173.29(2) When granted.** In determining whether to grant a stay, the presiding officer or the board, commission, or director, as appropriate, shall consider the factors listed in 1998 Iowa Acts, chapter 1202, section 23(5c).

**173.29(3) Vacation.** A stay may be vacated by the issuing authority upon application of the department or any other party.

**641—173.30(17A) No factual dispute contested cases.** If the parties agree that no dispute of material fact exists as to a matter that would be a contested case if such a dispute of fact existed, the parties may present all relevant admissible evidence either by stipulation or otherwise as agreed by the parties, without necessity for the production of evidence at an evidentiary hearing. If such agreement is reached,

a jointly submitted schedule detailing the method and timetable for submission of the record, briefs and oral argument should be submitted to the presiding officer for approval as soon as practicable. If the parties cannot agree, any party may file and serve a motion for summary judgment pursuant to the rules governing such motions.

**641—173.31(17A) Emergency adjudicative proceedings.**

**173.31(1) Necessary emergency action.** To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare and, consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18 to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order. Before issuing an emergency adjudicative order the department shall consider factors including, but not limited to, the following:

- a. Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;
- b. Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;
- c. Whether the person required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;
- d. Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and
- e. Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

**173.31(2) Issuance of order.**

a. An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action.

b. The written emergency adjudicative order shall be immediately delivered to persons who are required to comply with the order by utilizing one or more of the following procedures:

- (1) Personal delivery;
- (2) Certified mail, return receipt requested, to the last address on file with the department;
- (3) Certified mail to the last address on file with the department;
- (4) First-class mail to the last address on file with the department; or
- (5) Fax. Fax may be used as the sole method of delivery if the person required to comply with the order has filed a written request that department orders be sent by fax and has provided a fax number for that purpose.

c. To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

**173.31(3) Oral notice.** Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the persons who are required to comply with the order.

**173.31(4) Completion of proceedings.** After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing.

These rules are intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202.

CHAPTER 174  
AGENCY PROCEDURE FOR RULE MAKING

The department of public health adopts the agency procedure for rule making segment of the Uniform Administrative Rules which is printed in the first volume of the Iowa Administrative Code with the following amendments.

**641—174.3(17A) Public rule-making docket.**

**174.3(2) *Anticipated rule making.*** In lieu of the words “(commission, board, council, director)” insert “director”.

**641—174.4(17A) Notice of proposed rule making.**

**174.4(3) *Notices mailed.*** In lieu of the words “(specify time period)” insert “one calendar year”.

**641—174.5(17A) Public participation.**

**174.5(1) *Written comments.*** In lieu of the words “(identify office and address) or” insert “Director’s Office, Iowa Department of Public Health, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319”.

**174.5(5) *Accessibility.*** In lieu of the words “(designate office and telephone number)” insert “Director’s Office, Iowa Department of Public Health, (515)281-7689”.

**641—174.6(17A) Regulatory flexibility analysis.**

**174.6(3) *Mailing list.*** In lieu of the words “(designate office)” insert “Director’s Office, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319”.

**641—174.11(17A) Concise statement of reasons.**

**174.11(1) *General.*** In lieu of the words “(specify the office and address)” insert “Director’s Office, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319”.

**641—174.13(17A) Agency rule-making record.**

**174.13(2) *Contents.*** Amend paragraph “c” by inserting “director” in lieu of “(agency head)”.

These rules are intended to implement Iowa Code section 17A.4 and Iowa Code chapter 135.

[Filed 9/13/91, Notice 8/7/91—published 10/2/91, effective 11/6/91]

[Filed 11/19/01, Notice 8/22/01—published 12/12/01, effective 1/16/02]

CHAPTER 175  
FAIR INFORMATION PRACTICES AND PUBLIC RECORDS

**641—175.1(17A,22) Definitions.** For purposes of this chapter, the following definitions apply:

“*Agency*” or “*department*” means the Iowa department of public health.

“*Confidential record*” means a record which is not available as a matter of right for examination and copying by members of the public under applicable provisions of law. Confidential records include records or information contained in records that the department is prohibited by law from making available for examination by members of the public, and records or information contained in records that are specified as confidential by Iowa Code section 22.7, or other provision of law, but that may be disclosed upon order of a court, the lawful custodian of the record, or by another person duly authorized to release the record. Mere inclusion in a record of information declared confidential by an applicable provision of law does not necessarily make that entire record a confidential record.

“*Custodian*” means the department or a person lawfully delegated authority by the department to act for the department in implementing Iowa Code chapter 22.

“*Open record*” means a record other than a confidential record.

“*Personally identifiable information*” means information about or pertaining to an individual in a record which identifies the individual and which is contained in a record system.

“*Record*” means the whole or a part of a “public record” as defined in Iowa Code section 22.1 that is owned by or in the physical possession of the department.

“*Record system*” means any group of records under the control of the department from which a record may be retrieved by a personal identifier such as the name of an individual, number, symbol, or other unique retriever assigned to an individual.

**641—175.2(17A,22) Statement of policy.** The purpose of this chapter is to facilitate broad public access to open records and to facilitate sound department determinations with respect to the maintenance of confidential records and the implementation of the fair information practices Act. The department is committed to the policies set forth in Iowa Code chapter 22, and department staff shall cooperate with members of the public in implementing the provisions of that chapter.

**641—175.3(17A,22) Requests for access to records.**

**175.3(1) Location of record.** A request for access to a record should be directed to the division where the record is maintained. If the location of the record is not known by the requester, the request shall be directed to the Iowa Department of Public Health, Public Information Officer, Lucas State Office Building, Des Moines, Iowa 50319-0075, Attention: Record Request. The department will forward the request to the appropriate person.

**175.3(2) Office hours.** Open records shall be made available during all customary office hours, which are 8 a.m. to 4:30 p.m. daily, excluding Saturdays, Sundays and legal holidays.

**175.3(3) Request for access.** Requests for access to open records may be made in writing, in person, by telephone, or by electronic means. A person requesting a record shall identify the particular record sought by name or description in order to facilitate the location of the record. A person requesting a record by mail, telephone, or by electronic means shall include the name, address, and telephone number of the person requesting the information in order to facilitate delivery of the record. A person shall not be required to give a reason for requesting an open record.

**175.3(4) Response to requests.** The custodian shall provide prompt access to an open record upon request unless the size or nature of the request makes prompt access infeasible. If the size or nature of the request for access to an open record requires time for compliance, the custodian shall comply with the request as soon as feasible. The custodian may delay access to an open record for one of the purposes authorized by Iowa Code section 22.8(4) or 22.10(4). The custodian shall promptly give notice to the requester of the reason for any delay in access to an open record and an estimate of the length of that delay and, upon request, shall promptly provide that notice to the requester in writing.

The custodian of a record may deny access to the record by members of the public only on the grounds that such a denial is warranted under Iowa Code sections 22.8(4) and 22.10(4), or that it is a confidential record, or that its disclosure is prohibited by a court order.

**175.3(5) *Security of record.*** No person may, without permission from the custodian, search or remove any record from the department files. The custodian or a designee of the custodian shall supervise examination and copying of department records. Records shall be protected from damage and disorganization.

**175.3(6) *Copying.*** A reasonable number of copies of an open record may be made in the department's office. If photocopy equipment is not available in the department office where an open record is kept, the custodian shall permit its examination in that office and shall arrange to have copies promptly made elsewhere.

**175.3(7) *Fees.***

*a. When charged.* The department may charge a reasonable fee in connection with the examination or copying of records. To the extent permitted by applicable provisions of law, the payment of fees may be waived when the imposition of fees is inequitable or when a waiver is in the public interest.

*b. Copying and postage costs.* Price schedules for published materials and for photocopies of records supplied by the department shall be prominently posted in department offices. Copies of records may be made by or for members of the public on department photocopy machines or from electronic storage systems at cost as determined and posted in department offices by the custodian. When the mailing of copies of records is requested, the actual costs of such mailing may also be charged to the requester.

*c. Search and supervisory fee.* An hourly fee may be charged for actual department expenses in searching for and supervising the examination and copying of requested records. The fee shall be based upon the actual costs incurred. The department shall post the hourly fees to be charged in routine cases for search and supervision of records. Except as provided in Iowa Code section 144.46, no fee shall be charged if the records are not made available for inspection, or if the time required does not exceed one hour in duration, or if the time required for the search was the result of department error or record-keeping problems. Iowa Code section 144.46 specifically allows for fees for vital record searches when the record is not copied or is not found, and this Iowa Code section is implemented by 641—96.4(144).

*d. Advance deposits.*

(1) Fulfillment of a request for a copy of a public record may be contingent upon receipt of payment of expenses to be incurred in fulfilling the request, and such estimated expenses shall be communicated to the requester prior to fulfillment of the request. When the estimated total fee chargeable under this subrule exceeds \$25, the custodian may require a requester to make an advance payment to cover all or a part of the estimated fee.

(2) When a requester has previously failed to pay a fee chargeable under this subrule, the custodian may require payment of the prior fee and advance payment of the full amount of any estimated fee before the custodian processes a new request from that requester.

**641—175.4(17A,22) Access to confidential records.** Under Iowa Code section 22.7 or other applicable provisions of law, the lawful custodian may disclose certain confidential records to particular persons under certain limited circumstances if the person is legally entitled to the record. In requesting the custodian to permit the examination and copying of such a confidential record, the following procedures apply and are in addition to those specified for requests for access to records in rule 175.3(17A,22).

**175.4(1) *Proof of identity.*** A person requesting access to a confidential record may be required to provide proof of identity or authority to secure access to the record.

**175.4(2) *Requests.*** The custodian may require a request to examine and copy a confidential record to be in writing. A person requesting access to such a record may be required to sign a certified statement or affidavit enumerating the specific reasons justifying access to the confidential record and to provide any proof necessary to establish relevant facts.

**175.4(3) *Notice to subject of record and opportunity to obtain injunction.*** After the custodian receives a request for access to a confidential record, and before the custodian releases such a record,

the custodian may make reasonable efforts to notify promptly any person who is a subject of that record, is identified in that record, and whose address or telephone number is contained in that record. To the extent such a delay is practicable and in the public interest, the custodian may give the subject of such confidential record to whom notification is transmitted a reasonable opportunity to seek an injunction under Iowa Code section 22.8, and indicate to the subject of the record the specific period of time during which disclosure will be delayed for that purpose. The department is not required to provide notification or an opportunity to seek an injunction under this subrule and retains sole discretion as to whether to pursue such action.

**175.4(4) *Requests denied.*** When the custodian denies a request for access to a confidential record, the custodian shall promptly notify the requester. If the requester indicates to the custodian that a written notification of the denial is desired, the custodian shall promptly provide such a notification that is signed by the custodian and that includes:

- a. The name and title or position of the custodian responsible for the denial; and
- b. A citation to the provision of law vesting authority in the custodian to deny disclosure of the record and a brief statement of the reasons for the denial.

**175.4(5) *Request granted.*** When the custodian grants a request for access to a confidential record to a particular person, the custodian shall notify that person and indicate any lawful restrictions imposed by the custodian on that person's examination and copying of the record.

**641—175.5(17A,22) Requests for treatment of a record as a confidential record and its withholding from examination.** The custodian may treat a record as a confidential record and withhold it from examination only to the extent that the custodian is authorized by Iowa Code section 22.7, another applicable provision of law, or a court order to refuse to disclose that record to members of the public.

**175.5(1) *Persons who may request.*** Any person who would be aggrieved or adversely affected by disclosure of a record and who asserts that Iowa Code section 22.7, another applicable provision of law, or a court order authorizes the custodian to treat the record as a confidential record may request the custodian to treat that record as a confidential record and to withhold it from public inspection.

**175.5(2) *Request.*** A request that a record be treated as a confidential record and be withheld from public inspection shall be in writing and shall be filed with the custodian. The request must set forth the legal and factual basis justifying such confidential treatment for that record, and the name, address, and telephone number of the person authorized to respond to any inquiry or action of the custodian concerning the request. A person requesting treatment of a record as a confidential record may also be required to sign a certified statement or affidavit enumerating the specific reasons justifying the treatment of that record as a confidential record and to provide any proof necessary to establish relevant facts. Requests for treatment of a record as a confidential record for a limited time period shall also specify the precise period of time for which that treatment is requested.

A person filing such a request shall, if possible, accompany the request with a copy of the record in question from which those portions for which such confidential record treatment has been requested have been deleted. If the original record is being submitted to the department by the person requesting such confidential treatment at the time the request is filed, the person shall indicate conspicuously on the original record that all or portions of it are confidential.

**175.5(3) *Failure to request.*** Failure of a person to request confidential record treatment for a record does not preclude the custodian from treating it as a confidential record. However, if a person who has submitted business information to the department does not request that it be withheld from public inspection under Iowa Code sections 22.7(3) and 22.7(6), the custodian of records containing that information may proceed as if that person has no objection to its disclosure to members of the public.

**175.5(4) *Timing of decision.*** A decision by the custodian with respect to the disclosure of a record to members of the public may be made when a request for its treatment as a confidential record is filed or when the custodian receives a request for access to the record by a member of the public.

**175.5(5) *Request granted or deferred.*** If a request for such confidential record treatment is granted, or if action on such a request is deferred, a copy of the record from which the matter in question has been deleted and a copy of the decision to grant the request or to defer action upon the request will be made

available for public inspection in lieu of the original record. If the custodian subsequently receives a request for access to the original record, the custodian will make reasonable and timely efforts to notify any person who has filed a request for its treatment as a confidential record that is not available for public inspection of the pendency of that subsequent request.

**175.5(6) *Request denied and opportunity to seek injunction.*** If a request that a record be treated as a confidential record and be withheld from public inspection is denied, the custodian shall notify the requester in writing of that determination and the reasons therefor. On application by a requester, the custodian may engage in a good faith, reasonable delay in allowing examination of the record so that the requester may seek injunctive relief under the provisions of Iowa Code section 22.8 or other applicable provision of law. However, such a record shall not be withheld from public inspection for any period of time if the custodian determines that the requester had no reasonable ground to justify the treatment of that record as a confidential record. The custodian shall notify requester in writing of the time period allowed to seek injunctive relief or the reasons for the determination that no reasonable grounds exist to justify the treatment of that record as a confidential record. The custodian may extend the period of good faith, reasonable delay in allowing examination of the record so that the requester may seek injunctive relief only if no request for examination of that record has been received, or if a court directs the custodian to treat it as a confidential record, or to the extent permitted by another applicable provision of law, or with the consent of the person requesting access.

**641—175.6(17A,22) Procedure by which additions, dissents, or objections may be entered into certain records.** Except as otherwise provided by law, a person may file a request with the custodian to review, and to have a written statement of additions, dissents, or objections entered into a record containing personally identifiable information pertaining to that person. However, a person who is a subject of such a record shall not be authorized to alter the original copy of that record or to expand the official record of any agency proceeding. A requester shall send the request to review such a record or the written statement of additions, dissents, or objections to the custodian or to the division in which the record is maintained. The request to review such a record or the written statement of such a record of additions, dissents, or objections must be dated and signed by requester, and shall include the current address and telephone number of the requester or the requester's representative.

**641—175.7(17A,22) Consent to disclosure by the subject of a confidential record.** Except as otherwise provided by law, a person who is the subject of a confidential record may have a copy of the portion of that record concerning the subject disclosed to a third party. A request for such a disclosure must be in writing and must identify the particular record or records that may be disclosed, and the particular person or class of persons to whom they may be disclosed. The person who is the subject of the record and, where applicable, the person to whom the record is to be disclosed, may be required to provide proof of identity. Appearance of counsel before the department on behalf of a person who is the subject of a confidential record is deemed to constitute consent for the department to disclose records about that person to the person's attorney.

**641—175.8(17A,22) Notice to suppliers of information.** When the department requests a person to supply information about that person, the department may notify the person of the use that will be made of the information, which persons outside the department might routinely be provided this information, which parts of the requested information are required and which are optional, and the consequences of a failure to provide the information requested. This notice may be given in these rules, on the written form used to collect the information, on a separate fact sheet or letter, in brochures, in formal agreements, in contracts, in handbooks, in manuals, verbally, or by other appropriate means.

**641—175.9(17A,22) Disclosures without the consent of the subject.**

**175.9(1)** The department shall routinely disclose open records without the consent of the subject.

**175.9(2)** To the extent allowed by law, disclosure of confidential records may occur without the consent of the subject. Following are instances where disclosure, if lawful, will generally occur without notice to the subject:

- a.* For a routine use as defined in rule 175.10(17A,22) or in the notice for a particular record system.
- b.* To a recipient who has provided the department with advance written assurance that the record will be used solely as a statistical research or reporting record. The department shall not release confidential data or information pursuant to this chapter unless the department and the recipient have executed an agreement which includes the conditions under which the confidential data or information may be used and a restriction on the further disclosure of the data or information.
- c.* To another government agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil, administrative, or criminal law enforcement activity if the activity is authorized by law, and if an authorized representative of such government agency or instrumentality has submitted a written request to the department specifying the record desired and the law enforcement activity for which the record is sought.
- d.* To an individual pursuant to a showing of compelling circumstances affecting the health or safety of any individual if a notice of the disclosure is transmitted to the last-known address of the subject.
- e.* To the legislative services agency under Iowa Code section 2A.3.
- f.* Disclosures in the course of employee disciplinary proceedings.
- g.* In response to a court order or subpoena.
- h.* To the office of citizens' aide pursuant to Iowa Code section 2C.9.

**641—175.10(17A,22) Routine use.**

**175.10(1)** Defined. "Routine use" means the disclosure of a record without the consent of the subject for a purpose which is compatible with the purpose for which the record was collected. "Routine use" includes disclosures required or authorized by statute or rule.

**175.10(2)** To the extent allowed by law, the following uses are considered routine uses of all department records:

- a.* Disclosure to those officers, employees, and agents of the department who have a need for the record in the performance of their duties.
- b.* Disclosure to employees of federal, state and local agencies and other researchers for purposes of bona fide research. The department shall not release data or information pursuant to this paragraph unless the department and the researcher have executed an agreement which includes the conditions under which the confidential data or information may be used and restrictions on further disclosure of the data or information.
- c.* Disclosure of information indicating an apparent violation of the law to appropriate law enforcement authorities for investigation and possible criminal prosecution, civil court action, or regulatory order.
- d.* Disclosure to the department of inspections and appeals for matters in which it is performing services or functions on behalf of the department.
- e.* Transfers of information within the department, to other state or federal agencies, or to local units of government as necessary to administer the program for which the information is collected or as necessary to administer a program within the other governmental agency. Confidential information transferred within the department or provided to other agencies pursuant to this paragraph shall continue to maintain its confidential status and shall not be rereleased by the receiving agency.
- f.* Information released to staff of federal and state entities for audit purposes or for purposes of determining whether the department is operating a program lawfully.
- g.* Any disclosure specifically authorized by the statute or rule under which the record was collected or maintained.

**641—175.11(17A,22) Consensual disclosure of confidential records.**

**175.11(1)** *Consent to disclosure by a subject individual.* To the extent permitted by law, the subject may consent in writing to department disclosure of confidential records as provided in rule 175.7(17A,22).

**175.11(2)** *Complaints to public officials.* A letter from a subject of a confidential record to a public official which seeks the official's intervention on behalf of the subject in a matter that involves the department may to the extent permitted by law be treated as an authorization to release sufficient information about the subject to the official to resolve the matter.

**641—175.12(17A,22) Release to subject.**

**175.12(1)** The subject of a confidential record may file a written request to review confidential records about that person as provided in rule 175.6(17A,22). However, the department need not release the following records to the subject:

*a.* The identity of a person providing information to the department need not be disclosed directly or indirectly to the subject of the information when the information is authorized to be held confidential pursuant to Iowa Code section 22.7(18) or other provision of law.

*b.* Records need not be disclosed to the subject when they are the work product of an attorney or are otherwise privileged.

*c.* Peace officers' investigative reports may be withheld from the subject, except as required by the Iowa Code.

*d.* As otherwise authorized by law.

**175.12(2)** Where a record has multiple subjects with interest in the confidentiality of the record, the department shall take reasonable steps to protect confidential information relating to another subject.

**641—175.13(17A,22) Availability of records.**

**175.13(1)** *General.* Department records are open for public inspection and copying subject to supervision unless otherwise provided by statute or rule.

**175.13(2)** *Confidential records.* The following records shall be withheld from public inspection. Records are listed by department division and include the legal authority for withholding the record from public inspection.

*a. Division of acute disease prevention and emergency response.*

(1) Records which identify a person infected with or exposed to a reportable disease or other disease or health condition collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.3(2) "b" and Iowa Code section 22.7(16).

(2) Records which identify a business involved in a reportable disease or other disease or health condition investigation collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.3(2) "c." The identity of a business may be disclosed pursuant to this authority only if the state epidemiologist or the director of the department determines such a release of information necessary for the protection of the health of the public.

(3) Records which identify a person infected with or exposed to a reportable sexually transmitted disease or infection collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.30 and Iowa Code section 22.7(16).

(4) Records which identify a person infected with or exposed to HIV/AIDS collected pursuant to Iowa Code chapter 141A, and maintained as confidential pursuant to Iowa Code section 141A.9.

(5) Data and records received or developed by the trauma system evaluation and quality improvement committee, including patient and emergency medical care service program identifying information, collected pursuant to Iowa Code chapter 147A, and maintained as confidential pursuant to Iowa Code section 147A.25.

(6) Data collected by and furnished to the statewide trauma registry which identifies a patient or former patient collected pursuant to Iowa Code section 147A.26, and maintained as confidential pursuant to Iowa Code section 147A.26.

(7) All information in complaint and investigative files maintained by the bureau of emergency medical services collected pursuant to Iowa Code chapter 147A, and maintained as confidential pursuant to Iowa Code section 272C.6(4), except that the information may be released to the provider or the service once a disciplinary proceeding has been initiated by the filing of a notice of proposed action. A notice of proposed action and final agency action are public documents.

(8) Immunization information which identifies a patient maintained on the statewide immunization registry collected pursuant to Iowa Code section 22.7(2), and maintained as confidential pursuant to Iowa Code section 22.7(2) and 641—subrule 7.11(4). The department's rules regarding sharing of immunization information are contained at 641—7.12(22).

*b. Division of administration and professional licensure.*

(1) Vital records maintained pursuant to Iowa Code chapter 144, including records of births, deaths, fetal deaths, adoptions, marriages, divorces, annulments and related data and correspondence, and maintained as confidential pursuant to Iowa Code section 144.43.

(2) Licensing and disciplinary records of the professional licensing boards may be confidential in accordance with Iowa Code section 272C.6(4) and 645—10.13(17A,22).

*c. Division of behavioral health.*

(1) Records which identify a person named in a report to the central registry for brain or spinal cord injuries collected pursuant to Iowa Code section 135.22, and maintained as confidential pursuant to Iowa Code section 135.22 and 641—21.6(135).

(2) Information contained in a complaint regarding a licensed substance abuse program collected pursuant to Iowa Code chapter 125, and maintained as confidential pursuant to Iowa Code sections 22.7(2), 22.7(18), and 125.37. Investigative reports, written plans of corrective action, and all notices and orders issued by the board of health shall refer to clients and patients by number and shall not include any other client or patient identifying information. Investigative reports, written plans of corrective action, and all notices and orders issued by the board of health shall be available to the public as open records in accordance with 641—subrule 155.16(5).

(3) Records which identify the victim of a domestic abuse death collected or maintained by the Iowa domestic abuse death review team pursuant to Iowa Code section 135.110, and maintained as confidential pursuant to Iowa Code section 135.111.

*d. Division of environmental health.*

(1) Drafts of proposed regulations released to the department from the federal government which constitute essential information needed by the department to ensure compliance with federal regulations collected pursuant to Iowa Code chapter 136C, and maintained as confidential pursuant to Iowa Code section 22.9 and 641—subrule 38.7(2).

(2) Applications and documents submitted to the department pursuant to Iowa Code chapter 136C, which may be maintained as confidential pursuant to 641—subrule 39.4(24) if disclosure of their contents is not required in the public interest and would adversely affect the interest of a person concerned.

(3) Records which identify a person infected with or exposed to a reportable disease or other disease or health condition, including lead and other heavy metal poisonings, collected pursuant to Iowa Code chapter 139A, and maintained as confidential in accordance with Iowa Code section 139A.3(2) "b."

(4) Records which identify a business involved in a reportable disease or other disease or health condition investigation, including a lead or other heavy metal poisoning investigation, collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.3(2) "c." The identity of a business may be disclosed pursuant to this authority only if the state epidemiologist or the director of the department determines such a release of information necessary for the protection of the health of the public or if the release is required by federal, state, or local law.

*e. Division of health promotion and chronic disease prevention.*

(1) All medical, health and nutrition information which identifies a WIC program participant collected pursuant to federal law and Iowa Code chapter 135, and maintained as confidential in accordance with 7 CFR 246, Iowa Code section 22.7(2), and 641—subrule 73.7(7).

(2) Records which identify the victim of a child death collected or maintained by the Iowa child death review team pursuant to Iowa Code section 135.43, and maintained as confidential pursuant to Iowa Code section 135.43.

(3) Records which identify a child subject to a newborn and infant hearing screening collected pursuant to Iowa Code section 135.131, and maintained as confidential pursuant to Iowa Code section 135.131 and 641—3.10(80GA,ch102).

(4) Records which identify a person named in a report to the central registry for congenital and inherited disorders collected pursuant to Iowa Code section 136A.7, and maintained as confidential in accordance with Iowa Code section 136A.7 and 641—subrule 4.3(7).

(5) Records which identify a person infected with or exposed to a reportable disease or other disease or health condition, including a congenital or inherited disorder, collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.3(2)“b.”

*f. Sections which govern all divisions.*

(1) Records which contain medical information collected pursuant to Iowa Code chapters 135, 139A, and 147A, and maintained as confidential pursuant to Iowa Code section 22.7(2).

(2) Records collected from any person, hospital, or other organization related to the condition and treatment of any person to be used in the course of any study for the purpose of reducing morbidity or mortality collected pursuant to Iowa Code section 135.40, and maintained as confidential pursuant to Iowa Code sections 135.40, 135.41, and 135.42.

(3) Records concerning security procedures or emergency preparedness developed and maintained by the department or other federal or state agency for the protection of governmental employees, visitors to the department, persons in the care, custody, or under the control of the department, or property under the jurisdiction of the department, if disclosure could reasonably be expected to jeopardize such employees, visitors, or property. Pursuant to Iowa Code section 22.7(50), the department has adopted a policy which identifies all specific records or classes of records to which this protection applies.

**175.13(3)** Minutes of closed meetings of a government body shall be kept confidential in accordance with Iowa Code section 21.5.

**175.13(4)** Identifying details in final orders, decisions and opinions shall be kept confidential to the extent required to prevent a clearly unwarranted invasion of personal privacy or trade secrets under Iowa Code section 17A.3(1)“e.”

**175.13(5)** Portions of department staff manuals, instructions or other statements issued shall be kept confidential when such documents set forth criteria or guidelines to be used by department staff in auditing, in making inspections, in settling commercial disputes or negotiating commercial arrangements, or in the selection or handling of cases, such as operational tactics or allowable tolerances or criteria for the defense, prosecution or settlement of cases, when disclosure of these statements would:

- a. Enable law violators to avoid detection;
- b. Facilitate disregard of requirements imposed by law; or
- c. Give a clearly improper advantage to persons who are in an adverse position to the department.

**175.13(6)** Records which constitute attorney work product or attorney-client communications or which are otherwise privileged shall be kept confidential. Attorney work product is confidential under Iowa Code sections 22.7(4), 622.10 and 622.11, Iowa R.C.P. 1.503, Fed. R. Civ. P. 26(b)(3), and case law. Attorney-client communications are confidential under Iowa Code sections 622.10 and 622.11, the rules of evidence, the Code of Professional Responsibility, and case law.

**175.13(7)** Records exempted from public inspection under Iowa Code section 22.7 or any other provision of law shall be kept confidential.

**641—175.14(17A,22) Personally identifiable information.** This rule describes the nature and extent of personally identifiable information which is collected, maintained, and retrieved by the department by personal identifiers in record systems as defined in rule 175.1(17A,22). For each record system, this rule describes the legal authority for the collection of that information and the means of storage of that information. A data processing system does not match, collate, or permit the comparison of personally

identifiable information in one record system with personally identifiable information in another record system unless so indicated. The record systems maintained by the department are as follows:

**175.14(1) Division of acute disease prevention and emergency response.**

*a.* Records of reportable diseases and other diseases and health conditions collected pursuant to Iowa Code chapter 139A. These records are stored on paper, electronically, or both, depending on the specific type of record. Except for statistical reports, these records are confidential as outlined in 175.13(2)“*a.*”

*b.* Records of reportable sexually transmitted diseases or infections collected pursuant to Iowa Code chapter 139A. These records are stored on paper, electronically, or both, depending on the specific type of record. Except for statistical reports, these records are confidential as outlined in 175.13(2)“*b.*”

*c.* Records of the veterinary public health program collected pursuant to Iowa Code chapter 139A. These records are stored on paper. Certain medical information in these records may be confidential as outlined in 175.13(2)“*a.*”

*d.* Records of the emergency medical services program collected pursuant to Iowa Code chapter 147A. These records are stored on paper, electronically, or both, depending on the specific type of record. Some of these records are confidential as outlined in 175.13(2)“*a.*”

*e.* Records of the AIDS drug reimbursement program collected for purposes of implementing a federal grant program authorized by HR 1827. These records are stored on paper. Certain patient records are confidential as outlined in 175.13(2)“*a.*”

*f.* Personnel records containing information about employees, families and dependents, and applicants for positions with the department. Some of this information is confidential under Iowa Code sections 22.7(11) and 22.7(18).

*g.* Records of the certificate of need program collected pursuant to Iowa Code sections 135.61 to 135.83. These records are stored on paper.

*h.* Annual hospital surveys collected pursuant to Iowa Code sections 135.74 and 135.75. These records are stored on paper and electronically.

**175.14(2) Division of administration and professional licensure.**

*a.* Vital records collected pursuant to Iowa Code chapter 144, including records of births, deaths, fetal deaths, adoptions, marriages, divorces, annulments and related data and correspondence. These records are stored on paper, on microfiche, and electronically. These records are confidential as noted in 175.13(2)“*b.*”

*b.* Licensing records of the professional licensing boards. These records are identified in rules filed by the individual licensing boards (see Professional Licensure Division, IAC 645). They contain information about individuals, some of which is confidential.

*c.* An electronic inventory of records maintained by the department, which indicates the type of information contained in the record, contact person for the record, how the record is stored, whether the record is confidential, and whether it contains personally identifiable information. This inventory is maintained by the information management bureau.

*d.* Fiscal records, including itemized vouchers collected from individuals pursuant to Iowa Code section 8A.514. These records are stored on paper and electronically.

**175.14(3) Division of behavioral health.**

*a.* Records of substance abuse programs of this division are identified in rules adopted by the board of health in 641—Chapter 155.

*b.* Records of the domestic abuse death review team collected pursuant to Iowa Code section 135.110. These records are stored on paper, electronically, or both. Except for statistical reports, these records are confidential as outlined in 175.13(2)“*c.*”

*c.* Records which identify a person named in a report to the central registry for brain or spinal cord injuries collected pursuant to Iowa Code section 135.22. These records are stored on paper, electronically, or both. Except for statistical reports, these records are maintained as confidential pursuant to Iowa Code section 135.22 and 641—21.6(135).

*d.* Records which identify brain injury service program recipients collected pursuant to Iowa Code section 135.22B. These records are stored on paper, electronically, or both.

**175.14(4)** *Division of environmental health.*

*a.* Records of the environmental health programs collected pursuant to Iowa Code section 135.11(1) and PL 96-510, Section 104(d)(1), 40 CFR 763 effective June 28, 1983, and 40 CFR 761 effective May 31, 1979, dealing with asbestos, PCB and other environmental health factors. These records are stored on paper, electronically, or both, depending on the specific type of record. Certain medical information in the work-related disease program file may be confidential as outlined in 175.13(2)“*d.*” Certain asbestos and PCB inspection records are collected under contract with the federal Environmental Protection Agency, and requests for such records will be referred to that agency.

*b.* Records of the radiological health program collected pursuant to Iowa Code chapters 136B and 136C. These records are stored on paper, electronically, or both, depending on the specific record. Certain of these records are confidential as outlined in 175.13(2)“*d.*”

*c.* Records of reportable diseases and other diseases and health conditions, including lead and other heavy metal poisonings, collected pursuant to Iowa Code chapter 139A. These records are stored on paper, electronically, or both, depending on the specific type of record. Except for statistical reports, these records are confidential as outlined in 175.13(2)“*a.*”

*d.* Records of the childhood lead poisoning prevention program collected pursuant to Iowa Code sections 135.100 to 135.105. These records are stored on paper, electronically, or both. Certain of these records are confidential as outlined in 175.13(2)“*d.*” Data processing systems will link certain client data in these programs with client data in the maternal and child health program, WIC program, and refugee health program.

**175.14(5)** *Division of health promotion and chronic disease prevention.*

*a.* Records of the maternal and child health programs collected pursuant to Iowa Code section 135.11(20). These records are stored on paper, electronically, or both, depending on the specific type of record. Data processing systems will link certain client data in these programs with client data in the WIC program.

*b.* Records of the nutrition and WIC (supplemental food program for women, infants and children) programs collected pursuant to Iowa Code section 135.11(1) and Chapter 17 of the federal Child Nutrition Act of 1966 as amended. These records are stored on paper, electronically, or both, depending on the specific type of record. Data processing systems will link certain client data in this program with client data in maternal and child health programs.

*c.* Records of the center for congenital and inherited disorders collected pursuant to Iowa Code chapter 136A. These records are stored on paper.

*d.* Records of the dental health programs collected pursuant to Iowa Code section 135.11(19), funded primarily by maternal and child health funds. These records are stored on paper or electronically, depending on the specific type of record.

*e.* Records of the newborn and infant hearing screening program collected pursuant to Iowa Code section 135.131. These records are stored on paper, electronically, or both, depending on the specific type of record. Information which identifies an individual patient is confidential as outlined in 175.13(2)“*e.*”

*f.* Refugee health program records collected pursuant to Iowa Code section 135.11(1) and Section 412(c)(3) of the federal Immigration and Naturalization Act. These records are stored on paper, electronically, or both, depending on the specific type of record. Certain medical information in these records is confidential as outlined in 175.13(2)“*f.*”

*g.* Records of the bureau of chronic disease prevention and management collected pursuant to Iowa Code section 135.11(1), including the Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN) program and the Breast and Cervical Cancer Early Detection Program (BCCEDP). Certain medical information in these records is confidential as outlined in 175.13(2)“*f.*” The medical information from wellness programs and screening programs is stored on paper, electronically,

or both, depending on the specific type of record. Data processing systems will link certain client data in these programs with client data in the University of Iowa's health registries.

**641—175.15(17A,22) Other groups of records.** This rule describes groups of records maintained by the agency other than record systems as defined in rule 175.2(17A,22). These records are routinely available to the public. However, the department's files of these records may contain confidential information as discussed in rule 175.13(17A,22). The records listed may contain information about individuals. All records are stored on paper unless otherwise noted.

**175.15(1) Rule making.** Rule-making records may contain information about individuals making written or oral comments on proposed rules. This information is collected pursuant to Iowa Code section 17A.4.

**175.15(2) Council and commission records.** Agendas, minutes, and materials presented to the councils, committees and commissions listed below, by division, are available from the department, except those records concerning closed sessions which are exempt from disclosure under Iowa Code section 21.5(4) or which are otherwise confidential by law. Council and commission records contain information about people who participate in meetings. This information is collected pursuant to Iowa Code section 21.3.

- a. Division of acute disease prevention and emergency response.
  - (1) EMS advisory council established in Iowa Code section 147A.2.
  - (2) System evaluation and quality improvement committee established in Iowa Code section 147A.25.
  - (3) Trauma system advisory council established in Iowa Code section 147A.24.
  - (4) State health facilities council established in Iowa Code section 135.61.
- b. Division of administration and professional licensure: professional licensing boards established in Iowa Code chapters 147 and 272C.
- c. Division of behavioral health.
  - (1) Advisory council on brain injuries established in Iowa Code section 135.22A.
  - (2) Domestic abuse death review team established in Iowa Code section 135.109.
  - (3) State substitute medical decision-making board established in Iowa Code section 135.28.
- d. Division of environmental health: technical advisory committee for radiation machines and radioactive materials established in Iowa Code section 136C.3(2).
- e. Division of health promotion and chronic disease prevention.
  - (1) Abuse education review panel established in Iowa Code section 135.11(27).
  - (2) Advisory committee to the center for rural health and primary care established in Iowa Code section 135.107.
  - (3) Committee on maternal and child health established in Iowa Code section 235C.1.
  - (4) Council on chemically exposed infants and children established in Iowa Code section 235C.1.
  - (5) Iowa child death review team established in Iowa Code section 135.43.
- f. Division of tobacco use prevention and control.
  - (1) Commission on tobacco use prevention and control established in Iowa Code section 142A.3(2).
  - (2) Commission on tobacco use prevention and control advisory council established in Iowa Code section 142A.3(9).
  - (3) Just Eliminate Lies executive body established in Iowa Code section 142A.9(2)“c.”
- g. Director's office.
  - (1) Interagency coordinating council established in Iowa Code section 691.6B.
  - (2) State board of health established in Iowa Code chapter 136.
  - (3) State medical examiner advisory council established in Iowa Code section 691.6C.
  - (4) Preventative health and health services block grant advisory committee.
  - (5) Other ad hoc and advisory committees as established by the director pursuant to Iowa Code section 135.11(26).

**175.15(3) Publications.** News releases, annual reports, project reports, and department newsletters are available from the public information office. Department news releases, project reports, and

newsletters may contain information about individuals, including department staff or members of department councils or committees.

**175.15(4) *Statistical reports.*** Periodic reports of vital statistics records are available from the bureau of vital statistics.

**175.15(5) *Appeal decisions and advisory opinions.*** All final orders, decisions and opinions are open to the public except for information that is confidential according to rule 175.13(17A,22) or 175.14(17A,22). These records may contain information about individuals.

**175.15(6) *Published materials.*** The department uses many legal and technical publications in its work. The public may inspect these publications upon request. Some of these materials may be protected by copyright law.

**175.15(7) *Policy manuals.*** Policy or program manuals for various programs may be obtained by contacting the program.

**175.15(8) *All other records that are not exempted from disclosure by law.*** Other records used by the department include correspondence files, surveys conducted by programs, information and data files, and records used for processing purposes internally. Some of these records may contain information about individuals. Correspondence files may contain confidential information protected by statutes cited in rule 175.13(17A,22).

**641—175.16(17A,22) *Data processing systems.*** Except where otherwise noted, data processing systems used by the department do not permit the comparison of personally identifiable information in one record system with personally identifiable information in another record system.

**641—175.17(17A,22) *Applicability.*** This chapter does not:

1. Require the department to index or retrieve records which contain information about individuals by that person's name or other personal identifier.
2. Make available to the general public records which would otherwise not be available under the public records law, Iowa Code chapter 22.
3. Govern the maintenance or disclosure of, notification of, or access to records in the possession of the department which are governed by the regulations of another agency.
4. Apply to grantees, including local governments or subdivisions, that administer state-funded programs, unless otherwise provided by law or agreement.
5. Make available records compiled by the department in reasonable anticipation of court litigation or formal administrative proceedings. The availability of such records to the general public or to any individual or party subject to such litigation or proceedings shall be governed by applicable legal and constitutional principles, statutes, rules of discovery, evidentiary privileges, and applicable regulations of the department.

These rules are intended to implement Iowa Code chapters 17A and 22.

[Filed 4/15/88, Notice 1/27/88—published 5/4/88, effective 7/1/88]

[Filed 7/10/08, Notice 5/21/08—published 7/30/08, effective 9/3/08]

CHAPTER 176  
CRITERIA FOR AWARDS OR GRANTS

**641—176.1(135,17A) Purpose.** The department provides funds to a variety of entities throughout the state for the support of public health programs. The department considers that all funds are subject to competition pursuant to Iowa Code statutes and Iowa Administrative Code rules governing service contracts.

**641—176.2(135,17A) Definitions.** For the purpose of these rules, the following definitions shall apply:

*“Competitive selection process”* means the competitive selection application process engaged in by the department to compare applicant qualifications, terms, conditions and pricing for services to purchase services based on quality, performance, and prices of equal or similar services in order to meet the objective of purchasing services based on quality, performance, or price or any combination thereof.

*“Continuation application”* means the application process for subsequent years within a project period following a competitive selection process.

*“Department”* means the Iowa department of public health.

*“Project”* means the activities or program(s) funded by the department.

*“Project period”* means the period of time which the department intends to support the project without requiring the recompetition for funds. The project period is specified within the competitive selection application and may extend to six years.

*“Service delivery area”* means the defined geographic area for delivery of project services. Competitive applications shall not fragment existing integrated service delivery within the defined geographic area.

**641—176.3(135,17A) Exceptions.** Exceptions to these rules are as follows:

1. New funds (including pilot studies and demonstration grants) that become available for new services.
2. Federal or private funding agency specified a sole source.
3. An organization failed to meet conditions and performance standards specified in the contract awards.
4. Mutual agreement among department and contract organizations.

**641—176.4(135,17A) Requirements.** The following shall be included in all competitive selection applications made available by the department:

1. Funding source.
2. Project period.
3. Services to be delivered.
4. Service delivery area.
5. Funding purpose.
6. Funding restrictions.
7. Funding formula (if any).
8. Matching requirements (if any).
9. Reporting requirements.
10. Performance criteria (experience of applicant in administering similar contracts).
11. Description of eligible applicants.
12. Need for letters of support or other materials (if applicable).
13. Application due date.
14. Anticipated date of award.
15. Eligibility guidelines for those receiving the service or product and the source of those guidelines, including fees or sliding fee scales (if applicable).
16. Target population to be served (if applicable).
17. Evaluation process and criteria.

18. Appeal process.
19. Contractual terms.
20. Business organization.

**641—176.5(135,17A) Review process (competitive applications only).** The review process to be followed in determining the amount of funds to be approved for award of a contract shall be described in the competitive selection application. The review criteria and the point allocation for each criterion shall also be described in the competitive selection application.

The review committee membership shall be determined by the bureau chief, with oversight from the respective division director. The review committee members shall allocate points per review criterion in conducting the review.

In the event applications for the service delivery area receive an equal number of points, a second review may be conducted by two management employees and one nonmanagement employee as designated by the respective division director.

[ARC 1750C, IAB 12/10/14, effective 1/14/15]

**641—176.6(135,17A) Opportunity for review and comment.** Rescinded IAB 1/30/08, effective 3/5/08.

**641—176.7(135,17A) Public notice of available funds.** The department shall post all competitive selection documents on the department of management's IowaGrants Web site at [www.IowaGrants.gov](http://www.IowaGrants.gov) for the duration of the application period.

[ARC 1750C, IAB 12/10/14, effective 1/14/15]

**641—176.8(135,17A) Appeals.**

**176.8(1) Appeal.** Letters of intent and applications received by the department after the due date and time stated in the competitive selection application will be rejected and will not be reviewed by the department, and a notice will be sent to the applicant. An applicant may appeal the denial of a timely submitted application. The appeal shall be submitted in writing within ten business days of receipt of notification of the adverse decision. The appeal shall be addressed to the contract administrator cited in the competitive selection application guidance, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. In the event of an appeal, the department will continue working with the applicant awarded funding pending the outcome of the appeal.

**176.8(2) Contested case.** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals (DIA) pursuant to the administrative rules adopted by DIA regarding transmission of cases.

**176.8(3) Hearing.** Parties shall receive notice of the hearing in advance. The administrative law judge shall schedule the time, place, and date of the hearing so that the hearing is held as expeditiously as possible. The hearing shall be conducted according to the procedural rules for contested case hearings found at 481—Chapter 10.

**176.8(4) Decision of administrative law judge.** The administrative law judge's decision shall be issued within 60 days from the date of the hearing. The administrative law judge's proposed decision shall be served by certified mail, return receipt requested, or delivered by personal service. The proposed decision and order becomes the department's final decision without further proceedings 10 days after it is received by the aggrieved party unless an appeal to the director is filed by either of the parties as provided in subrule 176.8(5) or the director serves notice on the parties of the director's intent to review the decision.

**176.8(5) Appeal to director.** Any appeal to the director for review of a proposed decision shall be in writing and submitted to the director by electronic mail; delivered by certified mail, return receipt requested; or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge and the other parties. A request for appeal shall include the specific grounds for appeal.

**176.8(6) *Record of hearing.*** Upon receipt of an appeal request, the administrative law judge shall prepare a record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules;
- b. All evidence received or considered and all other submissions by recording or transcript;
- c. All statements of matters officially noticed;
- d. All questions and offers of proof, objections, and rulings thereon;
- e. All proposed findings and exceptions; and
- f. The proposed decision and order of the administrative law judge.

**176.8(7) *Decision of director.*** Upon receipt of a properly filed appeal, the director shall establish a briefing schedule and, at the discretion of the director, an opportunity for oral argument. An appeal to the director shall be based on the record made at the hearing. The director may reverse or modify any finding of fact if a preponderance of the evidence will support a determination to reverse or modify such a finding, or may reverse or modify any conclusion of law the director finds to be in error. The decision and order of the director shall be issued within 90 days of the date of the receipt of the appeal and delivered by certified mail, return receipt requested, or by personal service, and becomes the department's final decision upon receipt by the aggrieved party.

**176.8(8) *Exhausting administrative remedies.*** It is not necessary to file an application for rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19.

**176.8(9) *Judicial review.*** The aggrieved party to the final decision of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A. Petitions for judicial review shall be filed within 30 days after the decision becomes final. The party who appeals a final agency action to district court shall pay the costs of the preparation of a transcript of the contested case hearing for the district court.

**176.8(10) *Applicability of rule.*** This rule governs the appeal process for a competitive selection process if the specific administrative rules of the relevant program do not contain a process for appeal.  
[ARC 1750C, IAB 12/10/14, effective 1/14/15]

These rules are intended to implement Iowa Code chapters 17A and 135.

CHAPTER 177  
HEALTH DATA

**641—177.1(76GA,ch1212) Purpose.** The purpose of this chapter is to collect and provide access to health information to health care providers, health care subscribers, third-party payors and the general public. Such information may be collected from state agencies, health care providers, the state medical assistance program, third-party payors, associations, and other appropriate sources.

**641—177.2(76GA,ch1212) Definitions.** For purposes of this chapter, the following definitions shall apply:

“*Confidential record*” in these rules means a record which is not available as a matter of right for examination and copying by members of the public under applicable provisions of law. Confidential records include records or information contained in records that the agencies are prohibited by law from making available for examination by members of the public, and records or information contained in records that are specified as confidential by Iowa Code section 22.7, or other provision of law, but that may be disclosed upon order of a court, the lawful custodian of the record, or by another person duly authorized to release the record. Mere inclusion in a record of information declared confidential by an applicable provision of law does not necessarily make that entire record a confidential record. Included in the definition are those data collected by the department, pursuant to 1996 Iowa Acts, chapter 1212, for preparation and dissemination as compilations.

“*Department*” is defined as Iowa department of public health.

“*Record*” in these rules means the whole or a part of a “public record” as defined in Iowa Code section 22.1, that is owned by or in the physical possession of this agency.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

**641—177.3(76GA,ch1212) Description of data to be submitted.**

**177.3(1)** The department shall collect information from other state agencies for the purpose of public dissemination of health data.

**177.3(2)** Hospitals shall submit data to the Iowa Hospital Association which shall serve as an intermediary for the Iowa department of public health. The information shall include inpatient, outpatient and ambulatory information.

**177.3(3)** The Iowa Hospital Association shall collect, maintain, and disseminate hospital inpatient, outpatient, and ambulatory information pursuant to a memorandum of understanding with the department. The Iowa Hospital Association shall submit data to the department pursuant to the memorandum of understanding.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

**641—177.4(76GA,ch1212) Department studies.** The department may conduct special studies consistent with the intent of 1996 Iowa Acts, chapter 1212, using data collected in accordance with subrule 177.3(1). In conducting such studies, the department may utilize the services of a contractor.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

**641—177.5(76GA,ch1212) Fees.** Fees charged for data provided by the department shall not exceed administrative costs. Such charges may include copying, postage, supervisory, computer programming, time and medium fees.

**641—177.6(76GA,ch1212) Patient confidentiality.** The department shall protect patient confidentiality. Confidential records or parts of such records collected as a part of this process shall be kept confidential. All health data shall be collected, maintained, and disseminated only in accordance with Iowa and federal law.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

**641—177.7(76GA,ch1212) Department contracting.** Rescinded ARC 2654C, IAB 8/3/16, effective 9/7/16.

**641—177.8(76GA,ch1212) Address and specification for data submissions.** Data required to be submitted pursuant to this chapter shall be sent by agencies and health care providers, or their representatives, to the Iowa department of public health by the means and time frame specified by the department.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

These rules are intended to implement 1996 Iowa Acts, chapter 1212, section 5, and Iowa Code section 135.166.

[Filed 5/16/97, Notice 2/26/97—published 6/4/97, effective 7/9/97]

[Filed 3/14/02, Notice 2/6/02—published 4/3/02, effective 5/8/02]

CHAPTER 178  
VARIANCES AND WAIVERS OF PUBLIC HEALTH  
ADMINISTRATIVE RULES

**641—178.1(17A,135) Waivers.**

**178.1(1) Definition.** For purposes of this chapter, “a waiver or variance” means action by the department that suspends, in whole or in part, the requirements or provisions of a rule as applied to an identified person on the basis of the particular circumstances of that person. For simplicity, the term “waiver” shall include both a “waiver” and a “variance.”

**178.1(2) Scope.** This rule outlines generally applicable standards and a uniform process for the granting of an individual waiver from a rule adopted by the department in situations where no other more specifically applicable law provides for a waiver. To the extent another more specific provision of law governs the issuance of a waiver from a particular rule, the more specific provision shall supersede this rule with respect to any waiver from that rule.

**178.1(3) Applicability.** The department may only grant a waiver from a rule if the department has jurisdiction over the rule and the requested waiver is consistent with applicable statutes, constitutional provisions, or other provisions of law. The department may not waive requirements created or duties imposed by statute.

**178.1(4) Criteria for waiver.** In response to a petition completed pursuant to subrule 178.1(6), the department may in its sole discretion issue an order waiving in whole or in part the requirements of a rule if the department finds, based on clear and convincing evidence, all of the following:

- a. The application of the rule would impose an undue hardship on the person for whom the waiver is requested;
- b. The waiver from the requirements of the rule in the specific case would not prejudice the substantial legal rights of any person;
- c. The provisions of the rule subject to the petition for a waiver are not specifically mandated by statute or another provision of law; and
- d. Substantially equal protection of public health, safety, and welfare will be afforded by a means other than that prescribed in the particular rule for which the waiver is requested.

**178.1(5) Filing of petition.** A petition for a waiver must be submitted in writing to the department as follows:

- a. Application for license, registration, certification, or permit. If the petition relates to an application for license, registration, certification, or permit, the petition shall be made in accordance with the filing requirements for the application in question.
- b. Contested cases. If the petition relates to a pending contested case, the petition shall be filed in the contested case proceeding, using the caption of the contested case.
- c. Other. If the petition does not relate to an application or a pending contested case, the petition may be submitted to the department director.
- d. A petition is deemed filed when it is received at the department’s office. A petition should be sent to the Department of Public Health, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319. The petition must be typewritten or legibly handwritten in ink and substantially conform to the form specified in 641—178.2(17A,135).

**178.1(6) Content of petition.** A petition for waiver shall include the following information where applicable and known to the requester:

- a. The name, address, and telephone number of the person for whom a waiver is being requested and a reference to any related contested case. The petition shall also include the name, address, and telephone number of the petitioner’s legal representative, if applicable, and a statement indicating the person to whom communications concerning the petition should be directed.
- b. A description and citation of the specific rule from which a waiver is requested.
- c. The specific waiver requested, including the precise scope and duration.
- d. The relevant facts that the petitioner believes would justify a waiver under each of the four criteria described in subrule 178.1(4). This statement shall include a signed statement from the petitioner

attesting to the accuracy of the facts provided in the petition and a statement of reasons that the petitioner believes will justify a waiver.

*e.* A history of any prior contacts between the department and the petitioner relating to the regulated activity, license, registration, certification, or permit affected by the proposed waiver, including a description of each affected license, registration, certification, or permit held by the requester, any formal charges filed, any notices of violation, contested case hearings, or investigations relating to the regulated activity, license, registration, certification or permit.

*f.* Any information known to the requester regarding the department's action in similar circumstances.

*g.* The name, address, and telephone number of any public agency or political subdivision that also regulates the activity in question or that might be affected by the granting of a waiver.

*h.* The name, address, and telephone number of any person who would be adversely affected by the granting of the petition.

*i.* The name, address, and telephone number of any person with knowledge of the relevant facts relating to the proposed waiver.

*j.* Signed releases of information authorizing persons with knowledge regarding the request to furnish the department with information relevant to the waiver.

**178.1(7) Additional information.** Prior to issuing an order granting or denying a waiver, the department may request additional information from the petitioner relative to the petition and surrounding circumstances. If the petition was not filed in a contested case, the department may, on its own motion or at the petitioner's request, schedule a telephonic or in-person meeting between the petitioner and the department director or the director's designee.

**178.1(8) Notice.** The department shall acknowledge a petition upon receipt. Except where otherwise provided by law, every petition shall be served by the petitioner upon each of the parties of record of the proceeding and on all other persons identified in the petition for waiver as affected by the petition, simultaneously with the filing. The petitioner shall serve the notice on all persons to whom notice is required by any provision of law and provide a written statement to the department attesting that notice has been provided. In addition, the department may give notice to other persons.

**178.1(9) Hearing procedures.** The provisions of Iowa Code sections 17A.10 to 17A.18A regarding contested case hearings shall apply to any petition for a waiver filed within a contested case. A person who objects to a denial of a waiver in proceedings other than a contested case hearing may make an informal appearance before the department director, or the director's designee, to request reconsideration.

**178.1(10) Ruling.** An order granting or denying a waiver shall be in writing and shall contain a reference to the particular person and rule or portion thereof to which the order pertains, a statement of the relevant facts and reasons upon which the action is based, and a description of the precise scope and duration of the waiver if one is issued.

*a. Department discretion.* The final decision on whether the circumstances justify the granting of a waiver shall be made at the sole discretion of the department upon consideration of all relevant factors. Each petition for a waiver shall be evaluated by the department based on the unique, individual circumstances set out in the petition.

*b. Burden of persuasion.* The burden of persuasion rests with the petitioner to demonstrate by clear and convincing evidence that the department should exercise its discretion to grant a waiver from a department rule.

*c. Narrowly tailored exception.* A waiver, if granted, shall provide the narrowest exception possible to the provisions of a rule.

*d. Administrative deadlines.* When the rule from which a waiver is sought establishes administrative deadlines, the department shall balance the special individual circumstances of the petitioner with the overall goal of uniform treatment of all similarly situated persons.

*e. Conditions.* The department may place any condition on a waiver that the department finds desirable to protect the public health, safety, and welfare.

*f. Time period of waiver.* A waiver shall not be permanent unless the petitioner can show that a temporary waiver would be impracticable. If a temporary waiver is granted, there is no automatic right

to renewal. At the sole discretion of the department, a waiver may be renewed if the department finds that grounds for a waiver continue to exist.

*g. Time for ruling.* The department shall grant or deny a petition for a waiver as soon as practicable but, in any event, shall do so within 120 days of its receipt unless the petitioner agrees to a later date. However, if a petition is filed in a contested case, the department shall grant or deny the petition no later than the time at which the final decision in that contested case is issued.

*h. When deemed denied.* Failure of the department to grant or deny a petition within the required time period shall be deemed a denial of that petition by the department. However, the department shall remain responsible for issuing an order denying a waiver.

*i. Service of order.* Within seven days of its issuance, any order issued under this rule shall be transmitted to the petitioner or the person to whom the order pertains and to any other person entitled to such notice by any provision of law.

**178.1(11) Public availability.** All orders granting or denying a waiver petition shall be indexed, filed, and available for public inspection as provided in Iowa Code section 17A.3. Petitions for a waiver and orders granting or denying a waiver petition are public records under Iowa Code chapter 22. Some petitions or orders may contain information the department is authorized or required to keep confidential. The department may accordingly redact confidential information from petitions or orders prior to public inspection.

**178.1(12) Summary reports.** Semiannually, the department shall prepare a summary report identifying the rules for which a waiver has been granted or denied, the number of times a waiver was granted or denied for each rule, a citation to the statutory provisions implemented by these rules, and a general summary of the reasons justifying the department’s actions on waiver requests. If practicable, the report shall detail the extent to which the granting of a waiver has affected the general applicability of the rule itself. Copies of this report shall be available for public inspection and shall be provided semiannually to the administrative rules coordinator and the administrative rules review committee.

**178.1(13) Cancellation of a waiver.** A waiver issued by the department pursuant to this rule may be withdrawn, canceled, or modified if, after appropriate notice and hearing, the department issues an order finding any of the following:

- a.* The petitioner or the person who was the subject of the waiver order withheld or misrepresented material facts relevant to the propriety or desirability of the waiver; or
- b.* The alternative means for ensuring that the public health, safety and welfare will be adequately protected after issuance of the waiver order have been insufficient; or
- c.* The subject of the waiver order has failed to comply with all conditions contained in the order.

**178.1(14) Violations.** A violation of a condition in a waiver order shall be treated as a violation of the particular rule for which the waiver was granted. As a result, the recipient of a waiver under this rule who violates a condition of the waiver may be subject to the same remedies or penalties as a person who violates the rule at issue.

**178.1(15) Defense.** After the department issues an order granting a waiver, the order is a defense within its terms and the specific facts indicated therein only for the person to whom the order pertains in any proceeding in which the rule in question is sought to be invoked.

**178.1(16) Judicial review.** Judicial review of the department’s decision to grant or deny a waiver petition may be taken in accordance with Iowa Code chapter 17A.

**641—178.2(17A,135) Sample petition for waiver.** A petition for waiver filed in accordance with 641—178.1(17A,135) must meet the requirements specified therein and must substantially conform to the following form:

BEFORE THE DEPARTMENT OF PUBLIC HEALTH

Petition by (name of petitioner) for the waiver/variance of (insert rule citation) relating to (insert the subject matter).

PETITION FOR WAIVER/VARIANCE

1. Provide petitioner’s (person asking for a waiver or variance) name, address, and telephone number. Also include the name, address, and telephone number of the petitioner’s legal representative, if applicable, and a statement indicating the person to whom communications concerning the petition should be directed.

2. Describe and cite the specific rule from which a waiver is requested.

3. Describe the specific waiver requested, including the precise scope and time period for which the waiver will extend.

4. Explain the relevant facts and reasons that the petitioner believes justify a waiver. Include in your answer all of the following:

a. Why applying the rule would result in undue hardship to the petitioner;

b. Why waiving the rule would not prejudice the substantial legal rights of any person;

c. Whether the provisions of the rule subject to the waiver are specifically mandated by statute or another provision of law; and

d. How substantially equal protection of public health, safety, and welfare will be afforded by a means other than that prescribed in the particular rule for which the waiver is requested.

5. Provide a history of any prior contacts between the department and petitioner relating to the regulated activity, license, registration, certification or permit that would be affected by the waiver. Include a description of each affected license, registration, certification, or permit held by the petitioner, any formal charges filed, any notices of violation, any contested case hearings held, or any investigations related to the regulated activity, license, registration, certification, or permit.

6. Provide information known to the petitioner regarding the department’s action in similar circumstances.

7. Provide the name, address, and telephone number of any public agency or political subdivision that also regulates the activity in question or that might be affected by the granting of the petition.

8. Provide the name, address, and telephone number of any person or entity that would be adversely affected by the granting of the waiver.

9. Provide the name, address, and telephone number of any person with knowledge of the relevant facts relating to the proposed waiver.

10. Provide signed releases of information authorizing persons with knowledge regarding the request to furnish the department with information relevant to the waiver.

I hereby attest to the accuracy and truthfulness of the above information.

CHAPTER 179  
COLLECTION OF DELINQUENT DEBTS

**641—179.1(8A) Authorization.** The department may participate in the department of administrative services' income offset program.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.2(8A) Definitions.** For purposes of this rule, the following definitions apply:

“*Debtor*” means any person who owes a debt to the department.

“*Department*” means the Iowa department of public health.

“*Income offset program*” means the program established in Iowa Code section 8A.504 through which the department of administrative services coordinates with state agencies to satisfy liabilities owed to those state agencies.

“*Liability*” or “*debt*” means a “qualifying debt” as defined in Iowa Code section 8A.504(1) or any liquidated sum due, owing, and payable by a debtor to the department. Such liquidated sum may be accrued through contract, subrogation, tort, operation of law, or any legal theory regardless of whether there is an outstanding judgment for that sum.

“*Liquidated*” means that the amount of the claim or debt is definite, determined, and fixed by agreement of the parties, by operation of law, or through court or administrative proceedings.

“*Notification of offset*” means receipt of actual notice by the department from the department of administrative services that the debtor is entitled to a payment that qualifies for offset.

“*Offset*” means to set off liabilities owed by a person to the department against claims owed to persons by public agencies.

“*Person*” means an individual, corporation, business trust, estate, trust, partnership or association, or any other legal entity, but does not include a state agency.

“*Preoffset notice*” means the notice required by rule 641—179.4(8A).

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.3(8A) Liability file.** The department may provide the department of administrative services a liability file.

**179.3(1) Contents.** With respect to each individual debtor, the liability file shall contain the following:

*a.* Information relevant to the identification of the debtor, as required by the department of administrative services and including the debtor's name and social security number or federal identification number,

*b.* The amount of liability, and

*c.* A written statement declaring the debt to have occurred.

**179.3(2) Certification.** The department shall certify the liability file at least semiannually, as required by the department of administrative services.

**179.3(3) Updates.** The department shall update the liability file:

*a.* When necessary to reflect new debtors, and

*b.* When the status of a debt changes due to payment of the debt, invalidation of the liability, alternate payment arrangements with the debtor, bankruptcy, or other factors.

**179.3(4) Due diligence.**

*a.* Before submitting debtor information to the outstanding liability file, the department shall make a good-faith attempt to collect from the debtor. Such attempt shall include at least all of the following:

(1) A telephone call requesting payment.

(2) A letter to the debtor's last discernible address requesting payment within 15 days.

*b.* The department shall document due diligence and retain such documentation.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.4(8A) Notification of offset.** Within 10 calendar days of receiving notification from the department of administrative services that the debtor is entitled to a payment, the department shall:

**179.4(1)** Send a preoffset notice to the debtor. The preoffset notice shall inform the debtor of the amount the department intends to claim and shall include all of the following information:

- a. The department's right to the payment in question.
- b. The department's right to recover the payment through the offset procedure.
- c. The basis of the department's case in regard to the debt.
- d. The right of the debtor to request, in accordance with rule 641—179.5(8A) and within 15 days of the mailing of the preoffset notice, a split of the payment between parties when the payment in question is jointly owned or otherwise owned by two or more persons.
- e. The debtor's right to appeal the offset, in accordance with rule 641—179.6(8A) and within 15 days of the mailing of the preoffset notice, and the procedure to follow in that appeal.
- f. The department's contact information, including a telephone number, for the debtor to contact in case of questions.

**179.4(2)** Notify the department of administrative services that the preoffset notice has been sent to the debtor and supply a copy of the preoffset notice to the department of administrative services.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.5(8A) Request to divide a jointly or commonly owned right to payment.**

**179.5(1)** A debtor who receives a preoffset notice may request release of a joint or common owner's share if the request is received by the department within 15 days of the date the preoffset notice is mailed.

**179.5(2)** In conjunction with such a request, the debtor shall provide to the department the full name and social security number of any joint or common owner.

**179.5(3)** Upon receipt of such a request, the department shall notify the department of administrative services of the request.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.6(8A) Appeal process.**

**179.6(1)** A debtor who receives a preoffset notice may request an appeal of the existence or amount of the underlying debt if such request is made within 15 days of the date the preoffset notice is mailed.

**179.6(2)** Request for appeal must be submitted in writing to the Iowa Department of Public Health, Bureau of Finance, Attn: Offset Appeals, 321 E. 12th Street, Des Moines, Iowa 50319-0075.

**179.6(3)** If a request for appeal is timely made, the department shall issue a notice of hearing to the debtor and provide a copy of the notice of hearing to the assistant attorney general for the department.

**179.6(4)** The appeal shall be conducted as a contested case proceeding pursuant to 641—Chapter 173.

**179.6(5)** If a request for appeal is timely made, the department shall notify the department of administrative services within 45 days of the notification of offset. The department shall hold a payment in abeyance until the final disposition of the contested liability or offset.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.7(8A) Notice of offset.** Once any offset has been completed, the department shall notify the debtor of the action taken, and of what balance, if any, still remains owing to the department.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

These rules are intended to implement Iowa Code section 8A.504.

[Filed ARC 2567C (Notice ARC 2457C, IAB 3/16/16), IAB 6/8/16, effective 7/13/16]

CHAPTERS 181 to 185  
Reserved

CHAPTER 186  
GOVERNMENTAL PUBLIC HEALTH ADVISORY COUNCIL

**641—186.1(135A) Purpose.** The governmental public health advisory council shall advise and make policy recommendations to the department, the director of the department, and the state board of health regarding the governmental public health system. The council is intended to support the goal that Iowa's governmentally sponsored public health systems be effective, efficient, well-organized, and well-coordinated to have the greatest impact on the improvement of health status for all Iowans.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.2(135A) Definitions.** For the purposes of this chapter, the following definitions apply:

*“Academic institution”* means an institution of higher education in the state which grants degrees in public health or another health-related field and is accredited by a nationally recognized accrediting agency as determined by the United States Secretary of Education. For purposes of this definition, “accredited” means a certification of the quality of the institution of higher education.

*“Council”* means the governmental public health advisory council as established in Iowa Code section 135A.4.

*“Department”* means the Iowa department of public health.

*“Designated local public health agency”* means an entity that is either governed by or contractually responsible to a local board of health and designated by the local board.

*“Director”* means the director of the Iowa department of public health.

*“Governmental public health system”* means local boards of health, the state board of health, designated local public health agencies, the state hygienic laboratory, and the department.

*“Local board of health”* means a county or district board of health.

*“Organizational capacity”* means the governmental public health infrastructure that must be in place in order to deliver public health services.

*“Public health system”* means all public, private, and voluntary entities that contribute to the delivery of public health services within a jurisdiction.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.3(135A) Roles and responsibilities of the council.** The council shall provide guidance to the department regarding the governmental public health system.

**186.3(1)** A governmental public health advisory council is established to do all of the following:

a. Advise the department and make policy recommendations to the director of the department and the state board of health concerning implementation of Iowa Code chapter 135A.

b. Propose to the director public health standards that may be utilized by the governmental public health system.

c. Develop and implement processes for longitudinal evaluation of the public health system including collection of information about organizational capacity and public health service delivery.

d. Determine what process and outcome improvements in the governmental health system are attributable to voluntary accreditation.

e. Assure that the evaluation process is capturing data to support key research in public health system effectiveness and health outcomes.

f. Develop and make recommendations for improvements to the public health system.

g. Make recommendations for resources to support the public health system.

h. Review rules developed and adopted by the state board of health under Iowa Code chapter 135A and make recommendations to the department for revisions to further promote implementation of Iowa Code chapter 135A and modernization of the governmental public health system.

i. Form and utilize subcommittees as necessary to carry out the duties of the council.

j. Annually submit a report on the activities of the council to the state board of health by July 1.

**186.3(2)** Recommendations from the council shall be provided to the director in writing.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.4(135A) Officers.**

**186.4(1)** The officers of the council shall be a chairperson and vice chairperson.

- a. The officers shall be elected at the first meeting each September.
- b. Vacancy in the office of chairperson shall be filled by the vice chairperson.
- c. Vacancy in the office of vice chairperson shall be filled by election at the next regularly scheduled meeting after the vacancy occurs.

**186.4(2)** Duties of officers.

- a. The chairperson of the council shall preside at all meetings of the council.
- b. Robert's Rules of Order shall govern all meetings.
- c. If the chairperson is absent or unable to act, the vice chairperson shall perform the duties of the chairperson. When so acting, the vice chairperson shall have all the powers of and be subject to all the restrictions upon the chairperson.

d. The vice chairperson shall also perform such other duties as may be assigned by the chairperson.  
[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.5(135A) Members of the council.**

**186.5(1)** The director, pursuant to Iowa Code section 135A.4, shall appoint members of the council.

a. The membership of the council shall consist of all of the following members who satisfy all of the following requirements:

(1) Twelve members who represent various subfields of public health. These members shall provide geographical representation from all areas of the state. Each of these members shall be an employee of a designated local board of public health. Such members shall include a minimum of one local public health administrator and one physician member of a local board of health.

(2) Two members who are representatives of the department.

(3) The director of the state hygienic laboratory at the University of Iowa, or the director's designee.

(4) At least two representatives from academic institutions.

(5) Two members who serve on a county board of supervisors.

(6) At least one economist who has demonstrated experience in public health, health care, or a health-related field.

(7) At least one research analyst.

(8) Four nonvoting members who shall consist of four members of the general assembly, two from the senate and two from the house of representatives, with not more than one member from each chamber being from the same political party. The two senators shall be designated, one member each, by the majority leader of the senate after consultation with the president and by the minority leader of the senate. The two representatives shall be designated, one member each, by the speaker of the house of representatives after consultation with the majority leader of the house of representatives and by the minority leader of the house of representatives.

(9) One member of the state board of health who shall be a nonvoting member.

b. Members shall serve for a term of two years and may be reappointed.

c. Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**186.5(2)** A member's designee shall meet the same criteria for which the member was appointed. The member shall notify the department when the designee will be in attendance. The designee shall have voting rights.

**186.5(3)** Two consecutive unexcused absences of a member or designee shall be grounds for the director to consider dismissal of the council member and to appoint another. The department staff person assigned to the council is charged with providing notification of absences to the director.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.6(135A) Meetings.** The council shall hold a meeting at least quarterly. Notice of routine meetings and agenda should be made available to the members a minimum of five working days prior to the meeting.

**186.6(1)** Persons wishing to submit materials for consideration by the council should submit the materials electronically to the department at least 14 days in advance of the scheduled meeting to ensure that members have adequate time to review the materials.

**186.6(2)** Persons wishing to make a presentation to the council shall submit the request to the department not less than 14 days prior to the meeting. Presentations upon matters appearing on the agenda may be made either at the discretion of the chairperson or the department.

**186.6(3)** All meetings are open to the public in accordance with the open meetings law, Iowa Code chapter 21.

**186.6(4)** The council may conduct a meeting by electronic means pursuant to Iowa Code section 21.8.

**186.6(5)** A simple majority of appointed members shall be considered a quorum.

**186.6(6)** Any member or member's designee who is unable to attend a meeting shall notify the department at least 24 hours prior to the start of a regularly scheduled meeting; a meeting may be canceled if a quorum will not be present.

**186.6(7)** When a quorum is present, a position is carried by affirmative vote of the majority of those present.

**186.6(8)** Minutes. Minutes of all meetings showing the date, time, place, members present, members absent, and the general topics discussed shall be kept. The minutes shall reflect the actions agreed upon by the members for topics requiring the members' input or consensus.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.7(135A) Conflict of interest.** A conflict of interest exists when a member of the council participates in a way that directly affects the financial interests of the council member.

**186.7(1)** To avoid conflict of interest issues, a council member who has a financial interest in an action must abstain from participating in the entire process including discussion and voting.

**186.7(2)** Council members who have or think they may have a conflict of interest shall declare that there is or may be a conflict of interest and request a determination from the department.

**186.7(3)** If a conflict of interest is determined to exist, a council member shall abstain from voting and shall be recorded as abstaining when votes are taken.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.8(135A) Subcommittees.** The council may designate one or more subcommittees to perform such duties as may be deemed necessary.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.9(135A) Roles and responsibilities of the department.** The department is the lead agency to administer Iowa Code chapter 135A. The department's administration shall include evaluation of and quality improvement measures for the governmental health system.

[ARC 2931C, IAB 2/1/17, effective 3/8/17]

These rules are intended to implement Iowa Code sections 135A.2 to 135A.4, 135A.8 and 135A.9.

[Filed ARC 9246B (Notice ARC 9093B, IAB 9/22/10), IAB 12/1/10, effective 1/5/11]

CHAPTER 190  
CONSENT FOR THE SALE OF GOODS AND SERVICES  
Rescinded IAB 4/11/07, effective 5/16/07

CHAPTER 191  
ADVISORY BODIES OF THE DEPARTMENT

**641—191.1(135) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Advisory body*” means a council, committee, or task force whose members have been appointed by the governor, the director or the director’s designee to provide advice or technical assistance to the department in an identified area of public health. An advisory body has no substantive authority to affect individual rights, duties or responsibilities.

“*Chairperson*” means the chair of the advisory body who has been elected by the majority of the advisory body’s members.

“*Department*” means the Iowa department of public health.

“*Designee*” means the individual designated by the director.

“*Director*” means the director of public health.

“*Governor*” means the governor of Iowa.

**641—191.2(135) Purpose.** The department may from time to time establish an advisory body for the provision of advice or technical assistance in an identified area of public health. These rules are applicable only to an advisory body established for a period to exceed one year or more. These rules do not apply to an advisory body governed by other administrative rule or statute.

**641—191.3(135) Appointment.** Members of the advisory body shall be appointed by the governor, director, or designee. The appointments, unless provided otherwise by law, shall be for three-year staggered terms which shall expire on June 30.

**191.3(1)** Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**191.3(2)** Absences. Three consecutive unexcused absences shall be grounds for the director to consider dismissal of the advisory body member and to appoint another. The chairperson of the advisory body is charged with providing notification of absences to the department.

[ARC 8797B, IAB 6/2/10, effective 7/7/10]

**641—191.4(135) Officers.**

**191.4(1)** Officers of the advisory body shall be a chairperson and a vice chairperson and shall be elected at the first meeting of each fiscal year unless designated at the time of appointment.

*a.* Vacancies in the office of chairperson shall be filled by elevation of the vice chairperson.

*b.* Vacancies in the office of vice chairperson shall be filled by election at the next meeting after the vacancy occurs.

**191.4(2)** Duties of officers.

*a.* The chairperson shall:

- (1) Preside at all meetings of the advisory body,
- (2) Appoint such subcommittees as deemed necessary, and
- (3) Designate the chairperson of each subcommittee.

*b.* The vice chairperson shall:

(1) Perform the duties of the chairperson if the chairperson is absent or unable to act. When so acting, the vice chairperson shall have all the powers of and be subject to all restrictions upon the chairperson.

(2) Perform such other duties as may be assigned by the chairperson.

[ARC 8797B, IAB 6/2/10, effective 7/7/10]

**641—191.5(135) Meetings.**

**191.5(1)** The advisory body shall establish a meeting schedule on an annual basis to conduct its business.

*a.* Meetings may be scheduled as business requires, but notice to members must be at least five working days prior to the meeting date.

*b.* A four-week notice is encouraged to accommodate the schedules of professional members.

**191.5(2)** Robert's Rules of Order shall govern all meetings.

**191.5(3)** Action on any issue before the advisory body can only be taken by a majority vote of the entire membership.

**191.5(4)** The advisory body shall maintain information sufficient to indicate the vote of each member present.

[ARC 8797B, IAB 6/2/10, effective 7/7/10]

**641—191.6(135) Subcommittees.** The advisory body may designate one or more subcommittees to perform such duties as may be deemed necessary.

**641—191.7(135) Expenses of advisory body members.** The following may be considered necessary expenses for reimbursement of advisory body members when incurred on behalf of advisory body business and are subject to established state reimbursement rates:

1. Reimbursement for travel in a private car.
2. Actual lodging and meal expenses including sales tax on lodging and meals.
3. Actual expense of public transportation.

**641—191.8(135) Gender balance.** All advisory bodies of the department appointed by the governor, director or designee, if not otherwise provided by law, shall be gender-balanced.

These rules are intended to implement Iowa Code section 135.11.

[Filed 9/17/93, Notice 6/23/93—published 10/13/93, effective 11/17/93]

[Filed 1/11/96, Notice 12/6/95—published 1/31/96, effective 3/6/96]

CHAPTER 192  
CHILD SUPPORT NONCOMPLIANCE

**641—192.1(252J) Definitions.** For the purpose of this chapter, the following definitions shall apply:

“*Applicant*” means an individual who is seeking the issuance of a license.

“*Certificate of noncompliance*” means a document provided by the child support recovery unit of the department of human services certifying that the named applicant or licensee has defaulted on an obligation owed to or collected by the child support recovery unit.

“*Department*” means the department of public health.

“*License*” means a license, certification, registration, permit, approval, renewal, or other similar authorization issued to a person by a licensing authority which evidences the granting of authority to engage in a profession, occupation, or business.

“*Licensing authority*” means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

[ARC 8798B, IAB 6/2/10, effective 7/7/10]

**641—192.2(252J) Issuance or renewal of a license—denial.** The licensing authority shall deny the issuance or renewal of a license upon the receipt of a certificate of noncompliance from the child support recovery unit of the department of human services according to the procedures in Iowa Code chapter 252J. In addition to the procedures set forth in Iowa Code chapter 252J, the following shall apply.

**192.2(1)** The notice required by Iowa Code section 252J.8 shall be served upon the applicant or licensee by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the applicant or licensee may accept service personally or through authorized counsel.

**192.2(2)** The effective date of the denial of the issuance or renewal of a license, as specified in the notice required by Iowa Code section 252J.8, shall be 60 days following service of the notice upon the applicant or licensee.

**192.2(3)** The licensing authority’s administrator is authorized to prepare and serve the notice required by Iowa Code section 252J.8, upon the applicant or licensee.

**192.2(4)** Applicants and licensees shall keep the licensing authority informed of all court actions, and all child support recovery unit actions taken under or in connection with Iowa Code chapter 252J, and shall provide the licensing authority copies, within 7 days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in such actions, and withdrawals of certificates of noncompliance by the child support recovery unit.

**192.2(5)** All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees before a license will be issued, renewed, or reinstated after the licensing authority has denied the issuance or renewal of a license pursuant to Iowa Code chapter 252J.

**192.2(6)** In the event an applicant or licensee timely files a district court action following service of a licensing authority notice pursuant to Iowa Code sections 252J.8 and 252J.9, the licensing authority shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the denial of the issuance or renewal of a license, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**192.2(7)** The licensing authority shall notify the applicant or licensee in writing through regular first-class mail, or such other means as the licensing authority determines appropriate in the circumstances, within 10 days of the effective date of the denial of the issuance or renewal of a license and shall similarly notify the applicant or licensee if the license is issued or renewed following the licensing authority’s receipt of a withdrawal of the certificate of noncompliance.

[ARC 8798B, IAB 6/2/10, effective 7/7/10]

**641—192.3(252J) Suspension or revocation of a license.** The licensing authority shall suspend or revoke a license upon the receipt of a certificate of noncompliance from the child support recovery unit of the department of human services according to the procedures set forth in Iowa Code chapter 252J. In addition to the procedures set forth in Iowa Code chapter 252J, the following shall apply.

**192.3(1)** The notice required by Iowa Code section 252J.8 shall be served upon the licensee by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the licensee may accept service personally or through authorized counsel.

**192.3(2)** The effective date of the suspension or revocation of a license, as specified in the notice required by Iowa Code section 252J.8, shall be 60 days following service of the notice upon the licensee.

**192.3(3)** The licensing authority's administrator is authorized to prepare and serve the notice required by Iowa Code section 252J.8 and is directed to notify the licensee that the license will be suspended unless the license is already suspended on other grounds. In the event that the license is on suspension, the administrator shall notify the licensee of the licensing authority's intention to revoke the license.

**192.3(4)** Licensees shall keep the licensing authority informed of all court actions, and all child support recovery unit action taken under or in connection with Iowa Code chapter 252J, and shall provide the licensing authority copies, within 7 days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in such actions and withdrawals of certificates of noncompliance by the child support recovery unit.

**192.3(5)** All licensing authority fees required for license renewal or license reinstatement must be paid by licensees before a license will be reinstated after the licensing authority has suspended or revoked a license pursuant to Iowa Code chapter 252J.

**192.3(6)** In the event a licensee files a district court action following service of a licensing authority notice pursuant to Iowa Code sections 252J.8 and 252J.9, the licensing authority shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the suspension or revocation, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**192.3(7)** The licensing authority shall notify the licensee in writing through regular first-class mail, or such other means as the licensing authority determines appropriate in the circumstances, within 10 days of the effective date of the suspension or revocation of a license and shall similarly notify the licensee if the license is reinstated following the licensing authority's receipt of a withdrawal of the certificate of noncompliance.

[ARC 8798B, IAB 6/2/10, effective 7/7/10]

**641—192.4(17A,22,252J) Sharing of information.** Notwithstanding any statutory confidentiality provision, the licensing authority may share information with the child support recovery unit of the department of human services through manual or automated means for the sole purpose of identifying applicants or licensees subject to enforcement under Iowa Code chapter 252J or Iowa Code chapter 598.

[ARC 8798B, IAB 6/2/10, effective 7/7/10]

These rules are intended to implement Iowa Code chapter 252J.

[Filed emergency 1/11/96 after Notice 12/6/95—published 1/31/96, effective 1/11/96]

[Filed ARC 8798B (Notice ARC 8631B, IAB 3/24/10), IAB 6/2/10, effective 7/7/10]

CHAPTER 193  
IMPAIRED PRACTITIONER REVIEW COMMITTEE

**641—193.1(272C) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Committee*” means the impaired practitioner review committee as established by a licensing board pursuant to the authority of Iowa Code section 272C.3(1) “k.”

“*Contract*” means the written document establishing the terms for participation in the impaired practitioner program prepared by the committee.

“*Impairment*” means an inability to practice with reasonable safety and skill as a result of alcohol or drug abuse, dependency, or addiction or any mental or physical disorder or disability.

“*Licensing board*” or “*board*” means “licensing board” or “board” as defined in Iowa Code section 272C.1.

“*Practitioner*” means a person licensed under Iowa Code chapter 105, 147, 147A, 148C, 149, 152B, 152C, 152D, 154A, 154E, or 155.

“*Self-report*” means the licensee’s providing written or oral notification to the board that the licensee has been or may be diagnosed as having an impairment prior to the board’s receiving a complaint or report alleging the same from a second party.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.2(272C) Purpose.** The impaired practitioner review committee evaluates, assists, monitors and, as necessary, makes reports to the licensing board on the recovery or rehabilitation of practitioners who self-report impairments. These rules do not apply to an impaired practitioner review committee governed by other administrative rule or statute.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.3(272C) Composition of the committee.** The chairperson of the board shall appoint the members of the committee. The committee shall meet as necessary in order to review licensee compliance, develop consent agreements for new referrals, and determine eligibility for continued monitoring. The membership of the committee includes, but is not limited to:

**193.3(1)** One practitioner, licensed under the same board or similar professional licensing board who has remained free of addiction for a period of no less than two years since successfully completing a board-approved recovery program and board-ordered probation for drug or alcohol dependency, addiction, or abuse.

**193.3(2)** One practitioner with expertise in substance abuse/addiction treatment programs.

**193.3(3)** One public member of the board.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.4(272C) Eligibility.** To be eligible for participation in the impaired practitioner recovery program, a licensee must meet all of the following criteria:

**193.4(1)** The licensee must self-report an impairment or suspected impairment directly to the office of the board.

**193.4(2)** The licensee must not have engaged in the unlawful diversion or distribution of controlled substances or illegal substances.

**193.4(3)** At the time of the self-report, the licensee must not already be under board order for an impairment or any other violation of the laws and rules governing the practice of the profession.

**193.4(4)** The licensee has not caused harm or injury to a client.

**193.4(5)** There is currently no board investigation of the licensee that, as determined by the committee, concerns serious matters related to the ability to practice with reasonable safety and skill or in accordance with the accepted standards of care.

**193.4(6)** The licensee has not been subject to a civil or criminal sanction or ordered to make reparations or remuneration by a government or regulatory authority of the United States, this or any other state or territory or a foreign nation for actions that the committee determines to be serious

infractions of the laws, administrative rules, or professional ethics related to the practice of the licensee's profession.

**193.4(7)** The licensee has provided truthful information and fully cooperated with the board or committee.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.5(272C) Terms of participation in the impaired practitioner recovery program.** A licensee shall agree to comply with the terms for participation in the impaired practitioner recovery program established in a contract. Conditions placed upon the licensee and the duration of the monitoring period shall be established by the committee and communicated to the licensee in writing.

**193.5(1) Noncompliance.** Failure to comply with the provisions of the contract shall require the committee to make immediate referral of the matter to the board for possible disciplinary action.

**193.5(2) Practice restrictions.** The committee may impose restrictions on the licensee's practice as a term of the contract until such time as the committee receives a report from an approved evaluator that the licensee is capable of practicing with reasonable safety and skill.

*a.* As a condition of participating in the program, a licensee is required to agree to restricted practice in accordance with the terms specified in the contract.

*b.* In the event that the licensee refuses to agree to or comply with the restrictions established in the contract, the committee shall refer the licensee to the board for appropriate action.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.6(272C) Limitations.** The committee establishes the terms and monitors a participant's compliance with the program specified in the contract.

**193.6(1)** The committee is not responsible for participants who fail to comply with the terms of or successfully complete the impaired practitioner program.

**193.6(2)** Participation in the program under the auspices of the committee shall not relieve the board of any duties and shall not divest the board of any authority or jurisdiction otherwise provided. Any violation of the statutes or rules governing the practice of the licensee's profession by a participant shall be referred to the board for appropriate action.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.7(272C) Confidentiality.** The committee is subject to the provisions governing confidentiality established in Iowa Code section 272C.6.

**193.7(1)** Information in the possession of the board or the committee about licensees in the program shall not be disclosed to the public.

**193.7(2)** Participation in the impaired practitioner program under the auspices of the committee is not a matter of public record.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

These rules are intended to implement Iowa Code chapter 272C.

[Filed emergency 6/27/96 after Notice 4/10/96—published 7/17/96, effective 6/27/96]

[Filed ARC 8799B (Notice ARC 8634B, IAB 3/24/10), IAB 6/2/10, effective 7/7/10]

CHAPTER 194  
NONPAYMENT OF STATE DEBT

**641—194.1(272D) Definitions.** For the purpose of this chapter, the following definitions shall apply.

“*Applicant*” means an individual who is seeking the issuance of a license.

“*Centralized collection unit*” means the centralized collection unit of the Iowa department of revenue.

“*Certificate of noncompliance*” means a document provided by the centralized collection unit of the department of revenue certifying that the named applicant or licensee has an outstanding liability placed with the unit and has not entered into an approved payment plan to pay the liability.

“*Denial notice*” means a licensing authority notification denying an application for the issuance or renewal of a license as required by Iowa Code chapter 272D.

“*Department*” means the department of public health.

“*License*” means a license, certification, registration, permit, approval, renewal, or other similar authorization issued to a person by a licensing authority which evidences the granting of authority to engage in a profession, occupation, or business.

“*Licensing authority*” means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

“*Revocation or suspension notice*” means a licensing authority notification suspending a license for an indefinite or specified period of time or a notification revoking a license as required by Iowa Code chapter 272D.

“*Withdrawal certificate*” means a document provided by the centralized collection unit certifying that the certificate of noncompliance is withdrawn and that the licensing authority may proceed with issuance, reinstatement, or renewal of a license.

[ARC 7671B, IAB 4/8/09, effective 5/13/09]

**641—194.2(272D) Issuance or renewal of a license—denial.** The licensing authority shall deny the issuance or renewal of a license upon the receipt of a certificate of noncompliance from the centralized collection unit. This rule shall apply in addition to the procedures set forth in Iowa Code chapter 272D.

**194.2(1) *Service of denial notice.*** Notice shall be served upon the applicant or licensee by certified mail, return receipt requested; by personal service; or through authorized counsel.

**194.2(2) *Effective date of denial.*** The effective date of the denial of the issuance or renewal of a license, as specified in the denial notice, shall be 60 days following service of the denial notice upon the applicant or licensee.

**194.2(3) *Preparation and service of denial notice.*** The licensing authority is authorized to prepare and serve the denial notice upon the applicant or licensee.

**194.2(4) *Licensees and applicants responsible to inform licensing authority.*** Licensees and applicants shall keep the licensing authority informed of all court actions and all centralized collection unit actions taken under or in connection with Iowa Code chapter 272D. Licensees and applicants shall also provide the licensing authority copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code chapter 272D, all court orders entered in such actions, and any withdrawals of certificates issued by the centralized collection unit.

**194.2(5) *Reinstatement following license denial.*** All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees before a license will be issued, renewed, or reinstated after the licensing authority has denied the issuance or renewal of a license pursuant to Iowa Code chapter 272D.

**194.2(6) *Effect of filing in district court.*** In the event an applicant or a licensee files a timely district court action following service of a denial notice by a licensing authority, the licensing authority shall continue with the intended action described in the denial notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the denial of the issuance or renewal of a license, the licensing authority

shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**194.2(7) Final notification.** The licensing authority shall notify the applicant or licensee in writing through regular first-class mail, or by such other means as the licensing authority determines appropriate in the circumstances, within ten days of the effective date of the denial of the issuance or renewal of a license, and shall similarly notify the applicant or licensee if the license is issued or renewed following the licensing authority's receipt of a withdrawal certificate.

[ARC 7671B, IAB 4/8/09, effective 5/13/09]

**641—194.3(272D) Suspension or revocation of a license.** The licensing authority shall suspend or revoke a license upon the receipt of a certificate of noncompliance from the centralized collection unit in accordance with the procedures set forth in Iowa Code chapter 272D. This rule shall apply in addition to the procedures set forth in Iowa Code chapter 272D.

**194.3(1) Service of revocation or suspension notice.** A revocation or suspension notice shall be served upon the licensee by certified mail, return receipt requested; by personal service; or through authorized counsel.

**194.3(2) Effective date of revocation or suspension.** The effective date of the suspension or revocation of a license, as specified in the revocation or suspension notice, shall be 60 days following service of the notice upon the licensee.

**194.3(3) Preparation and service of revocation or suspension notice.** The licensing authority is authorized to prepare and serve the revocation or suspension notice upon the licensee and is directed to notify the licensee that the license will be suspended, unless the license is already suspended on other grounds. In the event that the license is on suspension, the licensing authority shall notify the licensee of the licensing authority's intention to revoke the license.

**194.3(4) Licensee responsible to inform licensing authority.** The licensee shall keep the licensing authority informed of all court actions and all centralized collection unit actions taken under or in connection with Iowa Code chapter 272D. Licensees shall also provide the licensing authority copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code chapter 272D, all court orders entered in such actions, and any withdrawal certificates issued by the centralized collection unit.

**194.3(5) Reinstatement following license suspension or revocation.** A licensee shall pay all licensing authority fees required for license renewal or license reinstatement before a license will be reinstated after the licensing authority has suspended or revoked a license pursuant to Iowa Code chapter 272D.

**194.3(6) Effect of filing in district court.** In the event a licensee files a timely district court action pursuant to Iowa Code chapter 272D, and following service of a revocation or suspension notice, the licensing authority shall continue with the intended action described in the revocation or suspension notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the license suspension or revocation, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**194.3(7) Final notification.** The licensing authority shall notify the licensee in writing through regular first-class mail, or by such other means as the licensing authority determines appropriate in the circumstances, within ten days of the effective date of the suspension or revocation of a license, and shall similarly notify the licensee if the license is reinstated following the licensing authority's receipt of a withdrawal certificate.

[ARC 7671B, IAB 4/8/09, effective 5/13/09]

**641—194.4(272D) Sharing of information.** Notwithstanding any statutory confidentiality provision, the department or licensing authority may share information with the centralized collection unit of the department of revenue through automated means for the sole purpose of identifying applicants or licensees subject to enforcement pursuant to Iowa Code chapter 272D.

[ARC 7671B, IAB 4/8/09, effective 5/13/09]

These rules are intended to implement Iowa Code chapter 272D.

[Filed ARC 7671B (Notice ARC 7540B, IAB 1/28/09), IAB 4/8/09, effective 5/13/09]

CHAPTER 195  
STUDENT LOAN DEFAULT/NONCOMPLIANCE WITH AGREEMENT  
FOR PAYMENT OF OBLIGATION

**641—195.1(261) General definitions.** For the purposes of this chapter, the following definitions shall apply:

“*Applicant*” means an individual who is seeking the issuance of a license.

“*Certificate of noncompliance*” means written certification from the college student aid commission to the licensing authority certifying that the licensee has defaulted on an obligation owed to or collected by the commission.

“*Commission*” means the college student aid commission.

“*Department*” means the department of public health.

“*License*” means a license, certification, registration, permit, approval, renewal, or other similar authorization issued to a person by a licensing authority which evidences the granting of authority to engage in a profession, occupation, or business.

“*Licensing authority*” means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

[ARC 8800B, IAB 6/2/10, effective 7/7/10]

**641—195.2(261) Issuance or renewal of a license—denial.** The licensing authority shall deny the issuance or renewal of a license upon receipt of a certificate of noncompliance from the college student aid commission according to the procedures set forth in Iowa Code sections 261.121 to 261.127.

**195.2(1)** In order to process the certificate of noncompliance received by the licensing authority, the licensing authority will maintain records of licensees by name, current known address, and social security number.

**195.2(2)** Upon receipt of a certificate of noncompliance duly issued by the commission, the licensing authority shall initiate procedures for denial of issuance or renewal of licensure.

**195.2(3)** The licensing authority shall provide notice to the licensee or applicant informing that person of the licensing authority’s intent to deny the license, and said notice shall be served by restricted certified mail, return receipt requested, or by personal service in accordance with the Iowa Rules of Civil Procedure. The notice shall state all of the following:

*a.* The licensing authority intends to deny issuance or renewal of an individual’s license due to the receipt of a certificate of noncompliance from the commission.

*b.* The individual must contact the commission to schedule a conference or to otherwise obtain a withdrawal of a certificate of noncompliance.

*c.* Unless the commission furnishes a withdrawal of a certificate of noncompliance to the licensing authority within 30 days of the issuance of the notice under this subrule, the individual’s license shall be denied.

**195.2(4)** The applicant or licensee served with a notice under 195.2(3) shall not have a right to a hearing before the licensing authority but may request a court hearing pursuant to Iowa Code section 261.127. Such court hearing must be requested within 30 days of the provision of notice.

**195.2(5)** The effective date of the denial of the issuance or renewal of a license, as specified in the notice required by Iowa Code section 261.126, shall be 60 days following service of the notice upon the applicant or licensee.

**195.2(6)** The licensing authority’s administrator is authorized to prepare and serve the notice required by Iowa Code section 261.126 upon the applicant or licensee.

**195.2(7)** All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees and all continuing education requirements must be met before a license will be issued, renewed, or reinstated after the licensing authority has denied the issuance or renewal of a license pursuant to Iowa Code chapter 261.

**195.2(8)** In the event an applicant or licensee timely files a district court action following service of a licensing authority notice pursuant to Iowa Code section 261.126, the licensing authority shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed.

**195.2(9)** Upon the filing of a district court action, the applicant or licensee shall promptly file with the licensing authority a copy of the petition filed with the district court. In addition, the applicant or licensee shall provide the licensing authority with copies of all court orders and rulings entered in such action within seven days of the action.

**195.2(10)** For purposes of determining the effective date of the denial of the issuance or renewal of a license, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

[ARC 8800B, IAB 6/2/10, effective 7/7/10]

**641—195.3(261) Suspension or revocation of a license.** The licensing authority shall suspend or revoke a license upon receipt of a certificate of noncompliance from the college student aid commission according to the procedures set forth in Iowa Code sections 261.121 to 261.127. In addition to the provisions contained in those sections, the following shall apply:

**195.3(1)** In order to process the certificate of noncompliance received by the licensing authority, the licensing authority will maintain records of licensees by name, current known address, and social security number.

**195.3(2)** Upon receipt of a certificate of noncompliance duly issued by the commission, the licensing authority shall initiate procedures for suspension or revocation of licensure.

**195.3(3)** The licensing authority shall provide notice to the licensee informing the individual of the licensing authority's intent to suspend or revoke the license, and said notice shall be served by restricted certified mail, return receipt requested, or by personal service in accordance with the Iowa Rules of Civil Procedure. The notice shall state all of the following:

*a.* The licensing authority intends to suspend or revoke an individual's license due to the receipt of a certificate of noncompliance from the commission.

*b.* The individual must contact the commission to schedule a conference or to otherwise obtain a withdrawal of a certificate of noncompliance.

*c.* Unless the commission furnishes a withdrawal of a certificate of noncompliance to the licensing authority within 30 days of the issuance of the notice under this subrule, the individual's license shall be suspended or revoked.

**195.3(4)** The licensee served with a notice under 195.3(3) shall not have a right to a hearing before the licensing authority but may request a court hearing pursuant to Iowa Code section 261.127. Such court hearing must be requested within 30 days of the provision of notice.

**195.3(5)** The effective date of the suspension or revocation of a license, as specified in the notice required by Iowa Code section 261.126, shall be 60 days following service of the notice upon the licensee.

**195.3(6)** The licensing authority's administrator is authorized to prepare and serve the notice required by Iowa Code section 261.126 upon the licensee.

**195.3(7)** All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees and all continuing education requirements must be met before a license will be issued, renewed, or reinstated after the licensing authority has suspended or revoked a license pursuant to Iowa Code chapter 261.

**195.3(8)** In the event a licensee timely files a district court action following service of a licensing authority notice pursuant to Iowa Code section 261.126, the licensing authority shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed.

**195.3(9)** Upon the filing of a district court action, the licensee shall promptly file with the licensing authority a copy of the petition filed with the district court. In addition, the licensee shall provide the licensing authority with copies of all court orders and rulings entered in such action within seven days of the action.

**195.3(10)** For purposes of determining the effective date of the suspension or revocation, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.  
[ARC 8800B, IAB 6/2/10, effective 7/7/10]

**641—195.4(17A,22,261) Sharing of information.** Notwithstanding any statutory confidentiality provision, the licensing authority may share information with the commission for the sole purpose of identifying applicants or licensees subject to enforcement under Iowa Code chapter 261.  
[ARC 8800B, IAB 6/2/10, effective 7/7/10]

These rules are intended to implement Iowa Code chapter 261.

[Filed 5/14/99, Notice 3/24/99—published 6/2/99, effective 7/7/99]

CHAPTER 196  
MILITARY SERVICE AND VETERAN RECIPROCITY

**641—196.1(85GA,ch1116) Definitions.**

*“Department”* means the department of public health.

*“License”* means a license, certification, registration, permit, approval, renewal, or other similar authorization issued to a person by a licensing authority which evidences the granting of authority to engage in a profession, occupation, or business.

*“Licensing authority”* means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

*“Military service”* means honorably serving on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1; in the military services of other states, as provided in 10 U.S.C. Section 101(c); or in the organized reserves of the United States, as provided in 10 U.S.C. Section 10101.

*“Military service applicant”* means an individual requesting credit toward licensure for military education, training, or service obtained or completed in military service.

*“Veteran”* means an individual who meets the definition of “veteran” in Iowa Code section 35.1(2). [ARC 1749C, IAB 12/10/14, effective 1/14/15]

**641—196.2(85GA,ch1116) Military education, training, and service credit.** A military service applicant may apply for credit for verified military education, training, or service toward any experience or educational requirement for licensure by submitting a military service application form to the licensing authority.

**196.2(1)** The application may be submitted with an application for licensure or examination, or prior to applying for licensure or to take an examination. No fee is required with submission of an application for military service credit.

**196.2(2)** The applicant shall identify the experience or educational licensure requirement to which the credit would be applied if granted. Credit shall not be applied to an examination requirement.

**196.2(3)** The applicant shall provide documents, military transcripts, a certified affidavit, or forms that verify completion of the relevant military education, training, or service, which may include, when applicable, the applicant’s Certificate of Release or Discharge from Active Duty (DD Form 214) or Verification of Military Experience and Training (VMET) (DD Form 2586).

**196.2(4)** Upon receipt of a completed military service application, the licensing authority shall promptly determine whether the verified military education, training, or service will satisfy all or any part of the identified experience or educational qualifications for licensure.

**196.2(5)** The licensing authority shall grant credit requested in the application in whole or in part if the licensing authority determines that the verified military education, training, or service satisfies all or part of the experience or educational qualifications for licensure.

**196.2(6)** The licensing authority shall inform the military service applicant in writing of the credit, if any, given toward an experience or educational qualification for licensure or explain why no credit was granted. The applicant may request reconsideration upon submission of additional documentation or information.

**196.2(7)** A military service applicant who is aggrieved by the licensing authority’s decision may request a contested case (administrative hearing) and may participate in a contested case by telephone. A request for a contested case shall be made within 30 days of issuance of the licensing authority’s decision. The provisions of 641—Chapter 173 shall apply, except that no fees or costs shall be assessed against the military service applicant in connection with a contested case conducted pursuant to this subrule.

**196.2(8)** The licensing authority shall grant or deny the military service application prior to ruling on the application for licensure. The applicant shall not be required to submit any fees in connection with the licensure application unless the licensing authority grants the military service application. If

the licensing authority does not grant the military service application, the applicant may withdraw the licensure application or request that the licensure application be placed in pending status for up to one year or as mutually agreed. The withdrawal of a licensure application shall not preclude subsequent applications supported by additional documentation or information.

[ARC 1749C, IAB 12/10/14, effective 1/14/15]

**641—196.3(85GA,ch1116) Veteran reciprocity.**

**196.3(1)** A veteran with an unrestricted license in another jurisdiction may apply for licensure in Iowa through reciprocity. A veteran must pass any examinations required for licensure to be eligible for licensure through reciprocity and will be given credit for examinations previously passed when consistent with the licensing authority's laws and rules on examination requirements. A fully completed application for licensure submitted by a veteran under this subrule shall be given priority and shall be expedited.

**196.3(2)** Such an application shall contain all of the information required of all applicants for licensure who hold unrestricted licenses in other jurisdictions and who are applying for licensure by reciprocity, including, but not limited to, completion of all required forms, payment of applicable fees, disclosure of criminal or disciplinary history, and, if applicable, a criminal history background check. The applicant shall use the same forms as any other applicant for licensure by reciprocity and shall additionally provide such documentation as is reasonably needed to verify the applicant's status as a veteran under Iowa Code section 35.1(2).

**196.3(3)** Upon receipt of a fully completed licensure application, the licensing authority shall promptly determine if the professional or occupational licensing requirements of the jurisdiction where the veteran is licensed are substantially equivalent to the licensing requirements in Iowa. The licensing authority shall make this determination based on information supplied by the applicant and such additional information as the licensing authority may acquire from the applicable jurisdiction. As relevant to the license at issue, the licensing authority may consider the following factors in determining substantial equivalence: scope of practice, education and coursework, degree requirements, experience, and examinations required for licensure.

**196.3(4)** The licensing authority shall promptly grant a license to the veteran if the veteran is licensed in the same or similar profession in another jurisdiction whose licensure requirements are substantially equivalent to those required in Iowa, unless the applicant is ineligible for licensure based on other grounds, for example, the applicant's disciplinary or criminal background.

**196.3(5)** If the licensing authority determines that the licensure requirements in the jurisdiction in which the veteran is licensed are not substantially equivalent to those required in Iowa, the licensing authority shall promptly inform the veteran of the additional experience, education, or examinations required for licensure in Iowa. Unless the applicant is ineligible for licensure based on other grounds, such as disciplinary or criminal background, or the issuance of a provisional license is inconsistent with the licensing authority's enabling statute, the following shall apply:

*a.* If a veteran has not passed the required examination(s) for licensure, the veteran may not be issued a provisional license but may request that the licensure application be placed in pending status for up to one year or as mutually agreed to provide the veteran with the opportunity to satisfy the examination requirements.

*b.* If additional experience or education is required for the applicant's qualifications to be considered substantially equivalent, the applicant may request that the licensing authority issue a provisional license for a specified period of time during which the applicant will successfully complete the necessary experience or education. The licensing authority shall issue a provisional license for a specified period of time upon such conditions as the licensing authority deems reasonably necessary to protect the health, welfare or safety of the public unless the licensing authority determines that the deficiency is of a character that the public health, welfare or safety will be adversely affected if a provisional license is granted.

*c.* If a request for a provisional license is denied, the licensing authority shall issue an order fully explaining the decision and shall inform the applicant of the steps the applicant may take in order to receive a provisional license.

*d.* If a provisional license is issued, the application for full licensure shall be placed in pending status until the necessary experience or education has been successfully completed or the provisional license expires, whichever occurs first. The licensing authority may extend a provisional license on a case-by-case basis for good cause.

**196.3(6)** A veteran who is aggrieved by the licensing authority's decision to deny an application for a reciprocal license or a provisional license or is aggrieved by the terms under which a provisional license will be granted may request a contested case (administrative hearing) and may participate in a contested case by telephone. A request for a contested case shall be made within 30 days of issuance of the licensing authority's decision. The provisions of 641—Chapter 173 shall apply, except that no fees or costs shall be assessed against the veteran in connection with a contested case conducted pursuant to this subrule.

[ARC 1749C, IAB 12/10/14, effective 1/14/15]

These rules are intended to implement 2014 Iowa Acts, chapter 1116, section 34.

CHAPTER 200  
STANDARDS COMMITTEE PROCEDURES—CHANGES IN STANDARDS  
FOR THE STATE HEALTH PLAN  
Rescinded IAB 5/30/90, effective 7/4/90

CHAPTER 201  
ORGANIZED DELIVERY SYSTEMS

LICENSURE AND REGULATION

**641—201.1(135,75GA,ch158) Purpose and scope.** The following rules developed by the department of public health govern the organization and regulation of organized delivery systems, also referred to as accountable health plans, pursuant to the authority set forth by the Seventy-fifth General Assembly in Senate File 380, which can also be found in chapter 158 of the 1993 Iowa Acts. It is the intent of these rules to allow for flexibility in the formation of organized delivery systems while ensuring accountability for the cost, quality and access to health care for those they serve. This chapter shall apply to all organized delivery systems operating in this state or providing coverage to Iowa residents. This chapter is not intended to apply to entities that fall under the regulation of the division of insurance.

**641—201.2(135,75GA,ch158) Definitions.**

*“Accountable health plan (AHP)”* means a type of organized delivery system.

*“Commissioner”* means the commissioner of insurance.

*“Coverage decision”* means a final adverse decision based on medical necessity. This definition does not include a denial of coverage for a service or treatment specifically listed in plan or evidence of coverage documents as excluded from coverage.

*“Department”* means the department of public health.

*“Director”* means the director of the department of public health.

*“Emergency medical condition”* means a medical condition that manifests itself by symptoms of sufficient severity, including but not limited to severe pain, that an ordinarily prudent person, possessing average knowledge of medicine and health, could reasonably expect the absence of immediate medical attention to result in one of the following:

1. Placing the health of the individual, or with respect to a pregnant woman, the health of the woman or her unborn child, in serious jeopardy.
2. Serious impairment to bodily function.
3. Serious dysfunction of a bodily organ or part.

*“Emergency services”* means covered inpatient and outpatient health care services that are furnished by a health care provider who is qualified to provide the services that are needed to evaluate or stabilize an emergency medical condition.

*“Enrollee”* means an individual, or an eligible dependent, who receives health care benefits coverage through an organized delivery system.

*“Essential community providers”* means those publicly funded health care providing organizations which the director deems to be vital to a local health care delivery system to ensure that all vulnerable populations in Iowa have assured access to health care.

*“Independent review entity”* means a reviewer or entity, certified by the commissioner pursuant to Iowa Code section 514J.6 [1999 Iowa Acts, chapter 41, section 12].

*“Organized delivery system (ODS)”* means an organization with defined governance that is responsible for delivering or arranging to deliver the full range of health care services covered under a standard benefit plan and is accountable to the public for the cost, quality and access of its services and for the effect of its services on their health. The organization operating as an ODS shall assume risk and be subject to solvency standards as found in 201.12(135,75GA,ch158).

*“Primary care”* means essential, community-based health care services that are coordinated, comprehensive, accountable and accessible on a first contact and on an ongoing basis. Primary care includes diagnosis and treatment, prevention, maintenance, management of chronic problems, and linkages for specialized care.

*“Standard benefit plan”* means, at a minimum, the same benefit plan that is required of small group insurers under Iowa Code chapter 513B.

“*Utilization review*” means a program or process by which an evaluation is made of the necessity, appropriateness, and efficiency of the use of health care services, procedures, or facilities given or proposed to be given to an individual within this state. Such evaluation does not apply to requests by an individual or provider for a clarification, guarantee, or statement of an individual’s health insurance coverage or benefits provided under a health insurance policy, nor to claims adjudication. Unless it is specifically stated, verification of benefits, preauthorization, or a prospective or concurrent utilization review program or process shall not be construed as a guarantee or statement of insurance coverage or benefits for any individual under a health insurance policy.

**641—201.3(135,75GA,ch158) Application.** An ODS shall not operate in Iowa without an approved application from the department. An application on forms provided by the department accompanied by a filing fee of \$2,000 (a portion of this fee is for the solvency review) payable to the department, shall be completed by an authorized representative of the organized delivery system. The application shall be submitted in duplicate. An application shall not be deemed to be filed until all information necessary to properly process said application has been received by the department; this includes information that addresses rules 201.4(135,75GA,ch158) through 201.15(135,75GA,ch158). The application shall set forth or be accompanied by the following:

1. A copy of the basic organizational document of the applicant such as the articles of incorporation, articles of association, partnership agreement, trust agreement, or other applicable documents and all of its amendments.
2. A copy of the bylaws, rules or similar document, if any, regulating the governance and the conduct of the internal affairs of the applicant.
3. A list of names, addresses and official position of the persons who are to be responsible for the conduct of the affairs of the applicant, including all members of the board of directors, board of trustees, executive committee, or other governing board or committee, the principal officers of a corporation and the partners or members if a partnership or association.
4. A copy of the form of evidence of coverage.
5. A copy of the form of the group contract, if any, which is to be issued to employers, unions, trustees or other organizations.
6. Financial statements showing the applicant’s current assets, liabilities and sources of financial support. If the applicant’s financial affairs are audited by an independent certified public accountant, a copy of the applicant’s most recent regular certified financial statement shall satisfy this requirement unless the department directs that additional financial information is required.
7. A description of the proposed method of marketing the plan, a financial plan which includes a three-year projection of operating results anticipated, and a statement as to the sources of funding.
8. A statement describing the geographic area to be served.
9. A description of the complaint procedures to be utilized.
10. A sample copy of the provider contract for risk-bearing providers.

**641—201.4(135,75GA,ch158) Governing body.** An organized delivery system shall have a basic written organizational document setting forth its scheme of organization and establishing a governing body appropriate to its form of organization. The governing body shall be responsible for matters of policy and operation.

**201.4(1)** The ODS shall provide for enrollee representation on the governing body. The organizational document shall describe what this representation shall be and the method the ODS proposes to use to achieve enrollee representation.

**201.4(2)** Advisory committee. An ODS shall have an enrollee advisory committee to the board. The majority of the members of this advisory committee shall be enrollees with no official capacity within the ODS.

**641—201.5(135,75GA,ch158) Service area/geographic access.**

**201.5(1)** An organized delivery system shall establish its own service area subject to approval by the department. The department shall approve only service areas where the county was used as the basic building block.

**201.5(2)** The ODS's plan of operation shall address the capability of the ODS to serve an enrollee residing anywhere in the service area.

**201.5(3)** ODSs shall cover emergency care to enrollees who are traveling outside the ODS's service area. The ODS may impose copayments or deductibles for such care to the extent permitted by the enrollee's policy and may require the enrollee to return to the service area for continuing treatment as soon as the enrollee's condition reasonably permits such travel.

**201.5(4)** An ODS shall provide geographic access to its enrollees within its service area as follows:

*a.* Primary care shall be available within 30 minutes' travel time.

*b.* Primary inpatient hospital care shall be available within 60 minutes' travel time. Inpatient hospital services at a secondary or tertiary level may be made available at a referral center exceeding the 60-minute limit and may be located outside the service area.

*c.* The above requirements do not require that care be provided within the state of Iowa.

**201.5(5)** A licensed ODS wishing to expand its service area shall seek approval from the department for the expansion. The ODS shall submit evidence that the requirements of subrules 201.5(1) through 201.5(4) can be met for the additional counties.

**641—201.6(135,75GA,ch158,78GA,ch41) Provider network and contracts; treatment and services.**

**201.6(1)** Each ODS shall have flexibility in establishing a provider network to achieve the balance of providers which best meets the needs of its enrollees. An ODS may determine its own standards and criteria by which it determines which providers will be included in its network. These standards and criteria shall be public and the ODS shall be held accountable for abiding by the standards and criteria. An ODS shall establish an internal first level provider appeal process.

**201.6(2)** An ODS shall not use the design of its provider network as a means for discouraging enrollment from high-risk or special needs populations.

**201.6(3)** Each ODS shall provide data to the department on the utilization of all providers by its enrollees, by provider type. This information shall be disseminated as part of the ODS report card.

**201.6(4)** A list of available ODS providers, which shall be updated at least once a year, shall be provided to enrollees on request.

**201.6(5)** An ODS shall be encouraged to establish working relationships with essential community providers. The department shall provide for the identification of essential community providers within the service area of each ODS. The director shall establish criteria for essential community provider designation. The criteria shall focus on:

*a.* Whether the provider has a demonstrated record of service to impoverished or medically underserved populations which face language, ethnic, or cultural barriers to health care access or which have health care needs that are not being met by other providers in the geographic area; and

*b.* Whether the provider is an entity who serves all patients regardless of ability to pay and who charges for services on an income-based sliding fee schedule.

**201.6(6)** Emergency services. Emergency services, as defined in rule 201.2(135,75GA,ch158), shall be provided by the ODS, either through its own facilities or through guaranteed arrangements with other providers, on a 24-hour basis.

*a.* A physician and sufficient other licensed and ancillary personnel shall be readily available at all times to render such services.

*b.* Since ODSs are not required to contract with every emergency care provider in an area, ODSs shall make every effort to inform enrollees of participating providers.

*c.* Reimbursement to a provider of emergency services shall not be denied by any ODS without review of the patient's medical history, presenting symptoms, and admitting or initial as well as final diagnosis, submitted by the provider, in determining whether, by definition, emergency services could reasonably have been expected to be provided.

*d.* Reimbursement for emergency services shall not be denied solely on the grounds that services were performed by a noncontracted provider. Coverage for emergency services is subject to the terms and conditions of the health plan or contract.

*e.* If reimbursement for emergency services is denied, the enrollee may file a complaint with the ODS as outlined in rule 201.7(135,75GA,ch158). Upon denial of reimbursement for emergency services, the ODS shall notify the enrollee and the provider that they may register a complaint with the department.

*f.* Prior authorization for emergency services shall not be required. All services necessary to evaluate and stabilize an emergency medical condition shall be considered covered emergency services.

**201.6(7)** All provider contracts shall contain the following provisions:

*a.* (Provider), or its assignee or subcontractor, hereby agrees that in no event, including, but not limited to, nonpayment by the ODS, ODS insolvency or breach of this agreement, shall (provider), or its assignee or subcontractor, bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against subscriber/enrollee or persons other than the ODS acting on their behalf for services provided pursuant to this agreement. This provision shall not prohibit collection of supplemental charges or copayments on an ODS's behalf made in accordance with the terms of (applicable agreement) between an ODS and subscriber/enrollee.

*b.* (Provider), or its assignee or subcontractor, further agrees that (1) this provision shall survive the termination of this agreement regardless of the cause giving rise to termination and shall be construed to be for the benefit of the ODS subscriber/enrollee and that (2) this provision supersedes any oral or written contrary agreement now existing or hereafter entered into between (provider) and subscriber/enrollee or persons acting on their behalf.

**201.6(8)** Prohibition of interference with medical communications.

*a.* An ODS shall not prohibit, penalize, or otherwise restrict a participating provider from advising an enrollee of the ODS about the health status of the enrollee or medical care or treatment of the enrollee's condition or disease, regardless of whether benefits for such care or treatment are provided under the plan, if the provider is acting within the lawful scope of practice.

*b.* An ODS shall not penalize a provider because the provider, in good faith, reports to state or federal authorities any act or practice by the ODS that, in the opinion of the provider, jeopardizes patient health or welfare.

*c.* An ODS shall not prohibit, penalize, or otherwise restrict a provider from advocating on behalf of a covered individual within a review or grievance process established by the organized delivery system.

**201.6(9)** Continuity of care—pregnancy.

*a.* An ODS that terminates its contract with a participating health care provider shall continue to provide coverage under the contract to a covered person in the second or third trimester of pregnancy for continued care from such health care provider. Such persons may continue to receive such treatment or care through postpartum care related to the child birth and delivery. Payment for covered benefits and benefit levels shall be according to the terms and conditions of the contract.

*b.* A covered person who makes an involuntary change in health plans may request that the new health plan cover the services of the covered person's physician specialist who is not a participating health care provider under the new health plan, if the covered person is in the second or third trimester of pregnancy. Continuation of such coverage shall continue through postpartum care related to the child birth and delivery. Payment for covered benefits and benefit level shall be according to the terms and conditions of the new health plan contract.

*c.* An ODS that terminates the contract of a participating health care provider for cause shall not be liable to pay for health care services provided by the health care provider to a covered person following the date of termination.

**201.6(10)** Continuity of care—terminal illness.

*a.* If an ODS terminates its contract with a participating health care provider, a covered individual who is undergoing a specified course of treatment for a terminal illness or a related condition, with the recommendation of the covered individual's treating physician licensed under Iowa Code chapter 148, 150, or 150A, may continue to receive coverage for treatment received from the covered individual's

physician for the terminal illness or a related condition, for a period of up to 90 days. Payment for covered benefits and benefit level shall be according to the terms and conditions of the contract.

*b.* A covered person who makes a change in health plans involuntarily may request that the new health plan cover services of the covered person's treating physician licensed under Iowa Code chapter 148, 150, or 150A, who is not a participating health care provider under the new health plan, if the covered person is undergoing a specified course of treatment for a terminal illness or a related condition. Continuation of such coverage shall continue for up to 90 days. Payment for covered benefits and benefit levels shall be according to the terms and conditions of the contract.

*c.* Notwithstanding paragraphs "*a*" and "*b*" above, an ODS that terminates the contract of a participating health care provider for cause shall not be required to cover health care services provided by the health care provider to a covered person following the date of termination.

**201.6(11)** Experimental treatment review. An ODS that limits coverage for experimental medical treatment, drugs, or devices, shall develop and implement a procedure to evaluate experimental medical treatments.

*a.* A description of the procedure must be submitted to the division of insurance in writing and include, at a minimum:

(1) The process used to determine whether the ODS will provide coverage for new medical technologies and new uses of existing technologies;

(2) A requirement for review of information from appropriate government regulatory agencies and published scientific literature concerning new medical technologies, new uses of existing technologies, and the use of external experts in making decisions; and

(3) A process for a person covered under a plan or contract to request an appeal of a denial of coverage because the proposed treatment is experimental.

*b.* An evaluation of a particular treatment shall not be required more than once a year.

*c.* An ODS shall include appropriately licensed or qualified professionals in the evaluation process.

*d.* An ODS that limits coverage for experimental treatment, drugs, or devices shall clearly disclose such limitations in a contract, policy, or certificate of coverage.

**201.6(12)** Utilization review requirements. An organized delivery system that provides health benefits to a covered individual residing in this state shall not conduct utilization review, either directly or indirectly, under a contract with a third party who does not meet the requirements established for accreditation by the Utilization Review Accreditation Commission, National Committee on Quality Assurance, or another national accreditation entity recognized and approved by the commissioner. This subrule does not apply to any utilization review performed solely under contract with the federal government for review of patients eligible for services under any of the following:

1. Title XVIII of the federal Social Security Act.
2. The civilian health and medical program of the uniformed services.
3. Any other federal employee health benefit plan.

**641—201.7(135,75GA,ch158) Complaints.** Each ODS shall provide in its bylaws for a system to resolve and record complaints.

**201.7(1)** The complaint system shall provide for the resolution of the following kinds of complaints:

- a.* Complaints about the quality of health care services provided by the ODS.
- b.* Complaints about the availability of health care services.
- c.* Complaints relating to enrollee participation in the operation of the ODS.
- d.* Complaints relating to reimbursement.

**201.7(2)** An ODS shall submit to the department an annual report in a form prescribed by the department which shall include:

- a.* A description of the procedures of the complaint system.
- b.* The total number of complaints handled through the complaint system and a compilation of reasons underlying the complaints filed in accord with 201.7(1).

c. The number, amount and disposition of malpractice claims settled during the year by the ODS and any of its providers.

**641—201.8(135,75GA,ch158) Accountability.** Accountability measures shall be in place to ensure access and quality of care. Each ODS shall provide information to the department on measures of quality, access, member satisfaction, membership and utilization, finance, and management. The department shall publish annually, by November 1 of each year, the indicators that will be required for the reporting year in a document that shall be shared with all licensed ODSs as well as all applicants. Indicators shall be based upon nationally recognized, documented standards.

**201.8(1) Quality.** The department shall establish indicators to measure the quality of care provided by an ODS.

**201.8(2) Access.** The department shall establish indicators of access to care within an ODS. At least one of the indicators shall be the ratio of primary care providers to enrollees by category of provider.

**201.8(3) Member satisfaction.** The following shall be reported by the ODS to demonstrate member satisfaction.

- a. Percent of members indicating overall satisfaction with plan from a member survey.
- b. Submission of a copy of the member satisfaction survey used by the ODS.

**201.8(4) Membership and utilization.** Indicators of utilization shall be established by the department for costs, frequency of procedures, inpatient and outpatient services. Indicators of membership shall include the following:

- a. Member months stratified by age, gender, residence, and purchaser.
- b. Disenrollments by month stratified by age, gender, residence, and purchaser.

**201.8(5) Finance.** Indicators of financial stability and solvency shall be reported according to the standard established in rules 201.12(135,75GA,ch158) and 201.13(135,75GA,ch158).

**201.8(6) Management practices.** Management practices shall be described for the following areas:

- a. Credentialing. The ODS shall describe its credentialing process as provided for in 201.6(1).
- b. Points of service. The ODS shall provide information on the location of providers, including primary care providers, specialty providers, and hospitals, as provided for in 201.5(4).
- c. Quality assessment and improvement activities.
- d. Case management.
- e. Risk management.
- f. Community needs assessments.
- g. Relationships with essential community providers.
- h. Efforts to address the needs of underserved populations and geographic areas.

**641—201.9(135,75GA,ch158) Reporting.**

**201.9(1)** An ODS shall, as part of the application for licensure, submit documentation of ability to comply or plans to achieve compliance with the reporting of the accountability requirements.

**201.9(2)** Narrative information shall be submitted in report format as specified by the department. Until such time that the data for the calculation of the indicators is available from the Community Health Management Information System (CHMIS), the ODS shall submit the calculated indicator, including documentation of the numerator and denominator used, to the department.

**201.9(3)** Reports shall be based upon calendar year information. Narrative information shall be submitted within 90 days of the close of the reporting period. Indicator reports shall be submitted within 45 days of the end of each quarter.

**201.9(4)** The department or its subcontractor shall have the right to validate reports, including record review and site visits. Reasonable costs related to this review shall be the responsibility of the ODS.

**641—201.10(135,75GA,ch158) Evaluation.** The department shall adopt nationally recognized benchmarks for indicators of quality and access. The department shall seek input and advice from the provider community on the indicators and benchmarks. These benchmarks will include minimum performance standards for identifying ODSs with deficit performance. The department shall establish

criteria for issuing provisional licenses and corrective plans of action. Evaluation criteria shall be published annually with the indicators and shall be based upon established criteria. Utilization, member satisfaction, and management information shall be reported as submitted without established benchmarks.

**641—201.11(135,75GA,ch158) Annual report.** The department shall publish annually a report comparing all ODSs licensed in the state on all information contained in 201.8(135,75GA,ch158). The report shall also include comparisons by geographic area.

**641—201.12(135,75GA,ch158) Finance and solvency.** Solvency oversight shall be conducted by the division of insurance under an agreement with the department with examination fees paid as provided for in 201.3(135,75GA,ch158). For purposes of finance and solvency, including investments as detailed in 201.13(135,75GA,ch158), the ODS submits to the jurisdiction of the insurance division.

**201.12(1) Accounting system.** Statutory accounting principles shall apply to ODSs to ensure the accurate and complete reporting of financial information. Any premium or assessment amount that is not paid within three months of the due date shall be assumed uncollectible for financial statement purposes and in considering the amount of assessments and dividends.

**201.12(2) Unencumbered funds.** ODSs shall maintain at all times unencumbered funds that are the greater of:

- a. \$1 million; or
- b. Three times its average monthly claims for third-party providers. Average monthly expenditure is defined as liabilities incurred, including those which are outstanding. In addition to the requirements set forth above, the required unencumbered funds may be increased when, in the insurance commissioner's judgment, it is necessary to do so to protect the enrollees of the ODS.

**201.12(3) Bond requirement.** ODSs shall obtain a surety bond designating the commissioner of insurance as beneficiary in the event of the insolvency of the ODS in the amount and form acceptable to the commissioner of insurance.

**201.12(4) Financially impaired or insolvent ODSs.** The provisions of Iowa Code chapter 507C shall apply to ODSs, which shall be considered insurers for the purposes of chapter 507C. All HMOs and ODSs in the state operating within the service area of the ODS will provide a 30-day open enrollment in the event of insolvency of the ODS with no underwriting or preexisting conditions imposed. The open enrollment plan shall be actuarially equivalent to the standard benefit plan adopted by the small group reinsurance board.

**201.12(5) Examination.** The commissioner of insurance shall make an examination of the affairs of any ODS and its providers as often as the commissioner deems necessary for the protection of the interests of the residents of Iowa, but not less frequently than once every five years. Iowa Code chapter 507 shall be applicable to the examination of ODSs. The expense of such examination shall be assessed against the ODS in the same manner that insurers are assessed for examinations pursuant to chapter 507. ODS providers shall agree to fully cooperate with the insurance commissioner in providing access to books and records necessary for the commissioner to perform the examination process.

**201.12(6) Annual financial statement.** An ODS shall annually, on or before March 1 of each year, file with the commissioner of insurance an annual financial statement, covering the preceding calendar year, in a form prescribed by the commissioner. Such statement shall be verified by at least two of the ODS's principal officers. The ODS shall also file at this time an independent actuarial opinion certifying the adequacy of the ODS unencumbered funds. The commissioner may also request quarterly filings.

**641—201.13(135,75GA,ch158) Investment.**

**201.13(1)** All ODS assets, including unencumbered funds referenced in subrule 201.12(2), shall be invested only in securities or other investments as follows:

- a. All investments made pursuant to this subrule shall have investment qualities and characteristics such that the speculative elements are not predominant.

*b.* Financial terms relating to an ODS have the meanings assigned to them under statutory accounting methods.

*c.* Investments shall be valued in accordance with the valuation procedures established by the National Association of Insurance Commissioners, unless the commissioner requires or finds another method of valuation reasonable under the circumstances.

*d.* If an investment qualifies under more than one subrule, the ODS may elect to hold the investment under the subrule of its choice.

**201.13(2)** An ODS's investments shall be held in its own name or the name of its nominee, except as follows:

*a.* Investments may be held in the name of a clearing corporation or of a custodian bank or in the name of the nominee of either on the following conditions:

(1) The clearing corporation, custodian bank, or nominee must be legally authorized to hold the particular investment for the account of others.

(2) When the investment is evidenced by a certificate and held in the name of a custodian bank or the nominee of a custodian bank, a written agreement shall provide that certificates so deposited shall at all times be kept separate and apart from other deposits with the depository, so that at all times they may be identified as belonging solely to the ODS making the deposit.

(3) If a clearing corporation is to act as depository, the investment may be merged or held in bulk in the name of the clearing corporation or its nominee with other investments deposited with the clearing corporation by any other person, if a written agreement between the clearing corporation and the ODS provides that adequate evidence of the deposit is to be obtained and retained by the ODS or a custodian bank.

*b.* An ODS may loan stocks or obligations held by it under this rule to a broker-dealer registered under the federal Securities Exchange Act of 1934 or to a member bank. The loan must be evidenced by a written agreement which provides all of the following:

(1) That the loan shall be fully collateralized by cash or obligations issued or guaranteed by the United States or any agency or an instrumentality of the United States and that the collateral shall be adjusted as necessary each business day during the term of the loan to maintain the required collateralization in the event of market value changes in the loaned securities or collateral.

(2) That the loan may be terminated by the ODS at any time and that the borrower shall return the loaned stocks or obligations within five business days after termination.

(3) That the ODS shall have the right to retain the collateral or use the collateral to purchase investments equivalent to the loaned securities if the borrower defaults under the terms of the agreement and that the borrower shall remain liable for any losses and expenses incurred by the association due to default that are not covered by the collateral.

*c.* An ODS may participate through a member bank in the United States federal reserve book entry system, and the records of the member bank shall at all times show that the investments are held for the ODS or for specific accounts of the ODS.

*d.* An investment may consist of an individual interest in a pool of obligations or a fractional interest in a single obligation if the certificate of participation or interest or the confirmation of participation or interest in the investment is issued in the name of the ODS, the name of the custodian bank, or the nominee of either, and, if the interest as evidenced by the certificate or confirmation is, if held by a custodian bank, kept separate and apart from the investments of others so that at all times the participation may be identified as belonging solely to the ODS making the investment.

*e.* Transfers of ownership of investments held as described in subparagraph 201.13(2) "a"(3) and paragraphs 201.13(2) "c" and "d" may be evidenced by bookkeeping entry on the books of the issuer of the investment, its transfer or recording agent, or the clearing corporation without physical delivery of a certificate evidencing the ODS's investment.

**201.13(3)** Except as provided in paragraph 201.13(2) "e," if an investment is not evidenced by a certificate, adequate evidence of the ODS's investment shall be obtained from the issuer or its transfer or recording agent and retained by the ODS, a custodian bank, or clearing corporation. Adequate evidence,

for purposes of this subrule, means a written receipt or other verification issued by the depository or issuer or a custodian bank which shows that the investment is held for the ODS.

**201.13(4)** Except as otherwise permitted by this rule, an ODS licensed under this chapter shall only invest in the following:

*a. United States government obligations.* Obligations issued or guaranteed by the United States or an agency or instrumentality of the United States.

*b. Certain development bank obligations.* Obligations issued or guaranteed by the international bank for reconstruction and development, the Asian development bank, the inter-American development bank, the export-import bank, the world bank, or any United States government-sponsored organization of which the United States is a member, if the principal and interest is payable in United States dollars. An ODS shall not invest more than 5 percent of its total admitted assets in the obligations of any one of these banks or organizations and shall not invest more than a total of 10 percent of its total admitted assets in the obligations authorized by this subrule.

*c. State obligations.* Obligations issued or guaranteed by a state, a political subdivision of a state, or an instrumentality of a state.

*d. Canadian government obligations.* Obligations issued or guaranteed by Canada, by an agency or province of Canada, by a political subdivision of such province, or by an instrumentality of any of those provinces or political subdivisions.

*e. Corporate and business trust obligations.* Obligations issued, assumed, or guaranteed by a corporation or business trust organized under the laws of the United States or a state, or the laws of Canada or a province of Canada, provided that a company shall not invest more than 5 percent of its admitted assets in the obligations of any one corporation or business trust. Investments shall be made only in investment grade bonds.

*f. Stocks.* Common stocks, common stock equivalents, mutual fund shares securities convertible into common stocks or common stock equivalents, or preferred stocks issued or guaranteed by a corporation incorporated under the laws of the United States or a state, or the laws of Canada or a province of Canada. Aggregate investments in non-dividend-paying stocks shall not exceed 5 percent of unencumbered funds.

(1) Stocks purchased under this lettered paragraph shall not exceed 50 percent of unencumbered funds. With the approval of the commissioner of insurance, an ODS may invest any amount in common stocks, preferred stocks, or other securities of one or more subsidiaries provided that after such investments the insurer's surplus as regards policyholders will be reasonable in relation to the insurer's outstanding liabilities and adequate to its financial needs.

(2) An ODS shall not invest more than 10 percent of its unencumbered funds in the stocks of any one corporation.

*g. Home office real estate.* Funds may be invested in a home office building, at the direction of the board of directors and with the prior approval of the commissioner of insurance. An ODS shall not invest more than 25 percent of its total admitted assets in such real estate. With the prior approval of the commissioner, an ODS may exceed the real estate investment limitation to effectuate a merger with, or the acquisition of, another ODS.

**641—201.14(135,75GA,ch158) Rating practices.** An ODS shall use the rate restrictions and regulations applicable to each market segment. All form filings shall include an actuarial certification by a fellow in the society of actuaries (FSA) attesting to the adequacy and fairness of the rates.

**641—201.15(135,75GA,ch158) Name.** No name other than that certified by the department may be used. The name of an ODS or AHP must clearly identify the entity as an ODS or AHP and all literature published by the ODS or AHP must identify its status as an ODS or AHP.

**641—201.16(135,75GA,ch158) Change in organizational documents or control.**

**201.16(1)** Changes to bylaws, articles of incorporation and any other document that would affect the operation and governance of the ODS shall be filed with the department at least 30 days prior to their proposed implementation date.

**201.16(2)** An ODS which desires to transfer ownership or control of more than 10 percent of ownership interest in the ODS shall not do so without first submitting a proposed plan to the department for review.

**641—201.17(135,75GA,ch158) Appeal.** A decision by the department to deny an application for licensure as an ODS may be appealed following the procedures in 641—Chapter 173.

**641—201.18(135,78GA,ch41) External review.** This rule is intended to implement the provisions of 1999 Iowa Acts, chapter 41, to provide a uniform process for enrollees of organized delivery systems to appeal a final adverse coverage decision based on medical necessity. This rule applies to any ODS that issues health plans or policies delivered in the state of Iowa. At the time of a coverage decision, an organized delivery system shall notify the enrollee in writing of the right to have the coverage decision reviewed under the external review process established pursuant to 1999 Iowa Acts, chapter 41, by the division of insurance. The request for an external review shall meet the requirements of the commissioner contained at 191—Chapter 76.

**641—201.19** Reserved.

## ANTITRUST

**641—201.20(135,75GA,ch158) Purpose.** The Iowa legislature has determined that the goals of controlling health care costs and improving the quality of and access to health care services will be significantly enhanced by cooperative arrangements involving providers wishing to become an ODS that might be prohibited by state and federal antitrust law if undertaken without governmental involvement. The purpose of the following rules is to institute new public policy by creating an opportunity for the state to review proposed arrangements and to substitute regulation for competition when an arrangement is likely to result in lower costs, or greater access or quality, than would otherwise occur in the marketplace. It is the intent that approval of arrangements be accompanied by appropriate conditions, supervision, and regulation to protect against private abuses of economic power, and that an arrangement approved by the department and accompanied by such appropriate conditions, supervision, and regulation shall not be subject to state and federal antitrust liability. It is the further intent that any immunity from scrutiny under federal or state antitrust statutes offered under these exceptions shall be limited to such specific agreements as are approved by the department, and shall not be extended or applied to unforeseen circumstances, parties, acts, or other agreements which were not part of or contemplated by the approved agreement.

**641—201.21(135,75GA,ch158) Definitions.**

*“Access”* means the financial, temporal, and geographic availability of health care to individuals who need it.

*“Applicant”* means the party or parties to an agreement or business arrangement for which the department’s approval is sought under this provision.

*“Certificate of public advantage”* means the sanction by and protection of the department of public health of an operating arrangement which otherwise might be excepted under certain antitrust regulations.

*“Cost”* or *“cost of health care”* means the amount paid by consumers or third-party payers for health care services or products.

*“Criteria”* means the cost, access, and quality of health care.

*“Department”* means the department of public health.

*“Person”* means an individual or legal entity.

**641—201.22(135,75GA,ch158) Scope.**

**201.22(1) *Certificate of public advantage.*** Providers or purchasers wishing to engage in contracts, business or financial arrangement, or other activities, practices, or arrangements that might be construed to be violations of state or federal antitrust laws but which are in the best interests of the state and further the policies and goals of this provision may apply to the department for a certificate of public advantage.

**201.22(2) *Immunity regarding negotiation.*** Directors, trustees, or other representatives of a health care provider or third-party payer who participate in discussion or negotiation culminating in any arrangement as described in subrule 201.22(1) are immune from civil actions or criminal prosecution for a violation of state or federal antitrust laws, unless the discussion or negotiation exceeds the scope authorized in this subrule.

**201.22(3) *Disputes among the parties.*** Any dispute among the parties to an arrangement as described in subrule 201.22(1) concerning the meaning or terms of their agreement is governed by normal principles of contract law.

**201.22(4) *Department approval.*** Approval by the department is an absolute defense against any action under state and federal antitrust laws, except as provided under subrule 201.30(5).

**201.22(5) *Application cannot be used to impose liability.*** The department shall ask the attorney general to comment on an application. The application and any information obtained by the department under rules 201.23(135,75GA,ch158) through 201.25(135,75GA,ch158) that is not otherwise available is not admissible in any civil or criminal proceeding brought by the attorney general or any other person based on an antitrust claim, except (a) a proceeding brought under subrule 201.30(5), based on an applicant's failure to substantially comply with the terms of the application; or (b) a proceeding based on actions taken by the applicant prior to submitting the application, where such actions are admitted to in the application.

**201.22(6) *Out-of-state applicant.*** Providers or purchasers not physically located in Iowa are eligible to seek a certificate of public advantage for an arrangement in which they transact business in Iowa.

**641—201.23(135,75GA,ch158) Application.**

**201.23(1) *Disclosure.*** An application for approval must include, to the extent applicable, disclosure of the following:

- a. A descriptive title;
- b. A table of contents;
- c. Exact names of each party to the application and the address of the principal business office of each party;
- d. The name, address, and telephone number of the persons authorized to receive notices and communications with respect to the application;
- e. A verified statement by a responsible officer of each party to the application attesting to the accuracy and completeness of the enclosed information;
- f. Background information relating to the proposed arrangement, including:
  - (1) A description of the proposed arrangement, including a list of any services or products that are the subject of the proposed arrangement;
  - (2) An identification of any tangential services or products associated with the services or products that are the subject of the proposed arrangement;
  - (3) A description of the geographic territory involved in the proposed arrangement;
  - (4) If the geographic territory described in subparagraph 201.23(1) "f"(3) is different from the territory in which the applicants have engaged in the type of business at issue over the last five years, a description of how and why the geographic territory differs;
  - (5) Identification of all products or services that a substantial share of consumers would consider substitutes for any service or product that is the subject of the proposed arrangement;
  - (6) Identification of whether any services or products of the proposed arrangement are currently being offered, capable of being offered, utilized, or capable of being utilized by other providers or purchasers in the geographic territory described in subparagraph 201.23(1) "f"(3);

- (7) Identification of the steps necessary, under current market and regulatory conditions, for other parties to enter the territory described in subparagraph 201.23(1) “f”(3) and compete with the applicant;
- (8) A description of the previous history of dealings between the parties to the application;
- (9) A detailed explanation of the projected effects, including expected volume, change in price, and increased revenue, of the arrangement on each party’s current businesses, both generally as well as the aspects of the business directly involved in the proposed arrangement;
- (10) The present market share of the parties to the application and of others affected by the proposed arrangement, and projected market shares after implementation of the proposed arrangement; and
- (11) A statement of why the projected levels of cost, access, or quality could not be achieved in the existing market without the proposed arrangement.

g. A detailed explanation of how the transaction will affect cost, access, and quality. The explanation must address the factors in paragraphs 201.26(2) “b” to “d” to the extent applicable.

**201.23(2) *Administrative bulletin notice.*** In addition to the disclosures required in subrule 201.23(1), the application must contain a written description of the proposed arrangement for purposes of publication in the Iowa Administrative Bulletin. The notice must include sufficient information to advise the public of the nature of the proposed arrangement and to enable the public to provide meaningful comments concerning the expected results of the arrangement. The notice must also state that any person may provide written comments to the department, with a copy to the applicant, within 20 days of the notice’s publication. The department shall approve the notice before publication. If the department determines that the submitted notice does not provide sufficient information, the department may amend the notice before publication and may consult with the applicant in preparing the amended notice. The department shall not publish an amended notice without the applicant’s approval.

**201.23(3) *Multiple parties to proposed arrangement.*** For a proposed arrangement involving multiple parties, one joint application shall be submitted on behalf of all parties to the arrangement.

**201.23(4) *Department’s authority to refuse to review.***

a. If the department determines that an application is unclear, incomplete, or provides an insufficient basis on which to base a decision, the department may return the application. The applicant may complete or revise the application and resubmit it.

b. If, upon review of the application and upon advice from the attorney general, the department concludes that the proposed arrangement does not present any potential for liability under the state or federal antitrust laws, the department may decline to review the application, and so notify the applicant.

c. The department may decline to review any application relating to arrangements already in effect before the submission of the application. However, the department shall review any application if the review is expressly provided for in a settlement agreement entered into by the applicant and the attorney general before the enactment of these rules.

**201.23(5) *Department’s authority to extend time limit.*** Upon the showing of good cause, the department may extend any of the time limits stated in rules 201.23(135,75GA,ch158) and 201.24(135,75GA,ch158) at the request of the applicant or another person.

#### **641—201.24(135,75GA,ch158) Notice and comment.**

**201.24(1) *Notice.*** The department shall cause the notice described in subrule 201.23(2) to be published in the Iowa Administrative Bulletin and sent to any person who has requested to be placed on a list to receive notice of applications. The department may maintain separate notice lists for different regions of the state. The department may also send a copy of the notice to any person together with a request that the person comment as provided under subrule 201.24(2). Copies of the request must be provided to the applicant.

**201.24(2) *Comments.*** Within 20 days after the notice is published, any person may mail to the department written comments with respect to the application. Persons submitting comments shall provide a copy of the comments to the applicant. The applicant may mail to the department written responses to any comments within 10 days after the deadline for mailing such comments. The applicant shall send a copy of the response to the person submitting the comment.

**641—201.25(135,75GA,ch158) Procedure for review of applications.**

**201.25(1) Choice of procedures.** After the conclusion of the period provided in subrule 201.24(2) for the applicant to respond to comments, the department shall select one of the two procedures provided in subrule 201.25(2). In determining which procedure to use, the department shall consider the following criteria:

- a. The size of the proposed arrangement, in terms of number of parties and amount of money involved;
- b. The complexity of the proposed arrangement;
- c. The novelty of the proposed arrangement;
- d. The substance and quantity of the comments received; and
- e. The presence or absence of any significant gaps in the factual record.

If the applicant demands a contested case hearing no later than the conclusion of the period provided in subrule 201.24(2) for the applicant to respond to comments, the department shall not select a procedure. Instead, the applicant shall be given a contested case proceeding as a matter of right.

**201.25(2) Procedures available.**

a. *Decision on the written record.* The department may issue a decision based on the application, the comments and the applicant's responses to the comments, to the extent each is relevant. In making the decision, the department may consult with the attorney general or the staff of the department and may rely on department data.

b. *Contested case hearing.* The department may order a contested case hearing. A contested case hearing shall be heard before an administrative law judge who shall issue a written recommendation to the department and shall follow the procedures in 641—Chapter 173. All factual issues relevant to a decision must be presented in the contested case. The attorney general may appear as a party. The record in the contested case shall include the application, the comments, the applicant's response to the comments, and any other evidence that is part of the record under 641—Chapter 173.

**641—201.26(135,75GA,ch158) Criteria for decision.**

**201.26(1)** The department shall not approve an application unless the department determines that the arrangement is more likely to result in lower costs, increased access, or increased quality of health care, than would otherwise occur under existing market condition or conditions likely to develop without an exemption from state and federal antitrust law. In the event that a proposed arrangement appears likely to improve one or two of the criteria at the expense of another one or two of the criteria, the department shall not approve the application unless the department determines that the proposed arrangement, taken as a whole, is likely to substantially further the purpose of this chapter. In making such a determination, the department may employ a cost/benefit analysis.

**201.26(2) Factors.**

a. *Generally applicable factors.* In making a determination about cost, access, and quality, the department may consider the following factors, to the extent relevant:

- (1) Market structure: actual and potential sellers and buyers, or providers and purchasers; actual and potential consumers; geographic market area; and entry conditions;
- (2) Current market condition;
- (3) The historical behavior of the market;
- (4) Performance of other similar arrangements;
- (5) Whether the proposal unnecessarily restrains competition, or restrains competition in ways not reasonably related to the purposes of this chapter; and
- (6) The financial condition of the applicant.

b. *Cost.* The department's analysis of cost must focus on the individual consumer of health care. Cost savings to be realized by providers, health carriers, group purchasers, or other participants in the health care system are relevant only to the extent that the savings are likely to be passed on to the consumer. However, where an application is submitted by providers or purchasers who are paid primarily by third-party payers unaffiliated with the applicant, it is sufficient for the applicant to show that cost savings are likely to be passed on to the unaffiliated third-party payers; the applicants do not have the

burden of proving that third-party payers with whom the applicants are not affiliated will pass on cost savings to individuals receiving coverage through the third-party payers. In making determinations as to costs, the department may consider:

- (1) The cost savings likely to result to the applicant;
- (2) The extent to which the cost savings are likely to be passed on to the consumer and in what form;
- (3) The extent to which the proposed arrangement is likely to result in cost-shifting by the applicant onto other payers or purchasers of other products or services;
- (4) The extent to which the cost-shifting by the applicant is likely to be followed by other persons in the market;
- (5) The current and anticipated supply and demand for any products or services at issue;
- (6) The representations and guarantees of the applicant, and their enforceability;
- (7) Likely effectiveness of regulation by the department;
- (8) Inferences to be drawn from market structure;
- (9) The cost of regulation, both for the state and for the applicant; and
- (10) Any other factors tending to show that the proposed arrangement is or is not likely to reduce cost.

c. *Access.* In making determinations as to access, the department may consider:

- (1) The extent to which the utilization of needed health care services or products by the intended targeted population is likely to increase or decrease. When a proposed arrangement is likely to increase access in one geographic area, by lowering prices or otherwise expanding supply, but limits access in another geographic area by removing service capabilities from that second area, the department shall articulate the criteria employed to balance these effects;
- (2) The extent to which the proposed arrangement is likely to make available a new and needed service or product to a certain geographic area; and
- (3) The extent to which the proposed arrangement is likely to otherwise make health care services or products more financially or geographically available to persons who need them.

If the department determines that the proposed arrangement is likely to increase access and bases that determination on a projected increase in utilization, the department shall also determine and make a specific finding that the increased utilization does not reflect overutilization.

d. *Quality.* In making determinations as to quality, the department may consider the extent to which the proposed arrangement is likely to:

- (1) Decrease morbidity and mortality;
- (2) Result in faster convalescence;
- (3) Result in fewer hospital days;
- (4) Permit providers to attain needed experience or frequency of treatment likely to lead to better outcomes;
- (5) Increase patient satisfaction; and
- (6) Have any other features likely to improve or reduce the quality of health care.

**641—201.27(135,75GA,ch158) Decision.**

**201.27(1) Approval or disapproval.** The department shall issue a written decision approving or disapproving the application within 45 days after receipt of the application or, in the case of a contested hearing, within 10 days of receipt of the administrative law judge's recommendation. The department may condition approval on a modification of all or part of the proposed arrangement to eliminate any restriction on competition that is not reasonably related to the goals of reducing cost or improving access or quality. The department may also establish conditions for approval that are reasonably necessary to protect against abuses of private economic power and to ensure that the arrangement is appropriately supervised and regulated by the state.

**201.27(2) Findings of fact.** The department's decision shall make specific findings of fact concerning the cost, access, and quality criteria, and identify one or more of those criteria as the basis for the decision.

**201.27(3) Data for supervision.** A decision approving an application shall require the periodic submission of specific data relating to cost, access, and quality, and to the extent feasible, identify objective standards of cost, access, and quality by which the success of the arrangement will be measured. However, if the department determines that the scope of a particular proposed arrangement is such that the arrangement is certain to have neither a positive nor negative impact on one or two of the criteria, the department's decision need not require the submission of data or establish an objective standard relating to those criteria.

**641—201.28(135,75GA,ch158) Appeal.** After the department has rendered a decision, the applicant or any other person aggrieved may appeal the decision to the district court within 30 days after receipt of the department's decision. The appeal is governed by Iowa Code chapter 17A. The department's determination, under subrule 201.25(1), of which procedure to use may not be raised as an issue on appeal.

**641—201.29(135,75GA,ch158) Supervision after approval.**

**201.29(1) Active supervision.** The department shall actively supervise, monitor, and regulate approved arrangements, as described below.

**201.29(2) Procedures.** The department shall review data submitted periodically by the applicant. The department's order shall set forth the time schedule for the submission of data, which shall be at least once a year. The department's order must identify the data that must be submitted, although the department may subsequently require the submission of additional data or alter the time schedule. Upon review of the data submitted, the department shall notify the applicant of whether the arrangement is in compliance with the department's order. If the arrangement is not in compliance with the department's order, the department shall identify those respects in which the arrangement does not conform to the department's order.

An applicant receiving notification that an arrangement is not in compliance has 30 days in which to respond with additional data. The response may include a proposal and a time schedule by which the applicant shall bring the arrangement into compliance with the department's order. If the arrangement is not in compliance and the department and the applicant cannot agree to the terms of bringing the arrangement into compliance, the matter shall be set for a contested case hearing.

The department shall publish notice in the Iowa Administrative Bulletin two years after the date of an order approving an application, and at two-year intervals thereafter, soliciting comments from the public concerning the impact that the arrangement has had on cost, access, and quality. The department may request additional oral and written information from the applicant or from any other source.

**641—201.30(135,75GA,ch158) Revocation.**

**201.30(1) Conditions.** The department may revoke a certificate of public advantage only if:

- a. The arrangement is not in substantial compliance with the terms of the application;
- b. The arrangement is not in substantial compliance with the conditions of approval;
- c. The arrangement is not in substantial compliance with 641—Chapter 201;
- d. The arrangement has not and is not likely to substantially achieve the improvements in cost, access, or quality identified in the approval order as the basis for the department's approval of the arrangement; or
- e. The conditions in the marketplace have changed to such an extent that competition would promote reductions in cost and improvements in access and quality better than does the arrangement at issue. In order to revoke on the basis that conditions in the marketplace have changed, the department's order shall identify specific changes in the marketplace and articulate why those changes warrant revocation.

**201.30(2) Notice.** The department shall begin a proceeding to revoke approval by providing written notice to the applicant describing in detail the basis for the proposed revocation. Notice of the proceeding shall be published in the Iowa Administrative Bulletin. The notice shall invite the submission of written

comments to the department, with a copy to the applicant. Comments must be received by the department within 20 days of the publication of the notice.

**201.30(3) Procedure.** A proceeding to revoke an approval shall be conducted as a contested case proceeding upon the written request of the applicant. Contested cases regarding revocations shall be heard by an administrative law judge who shall issue a written recommendation to the department and shall follow the procedures in 641—Chapter 5. Decisions of the department in a proceeding to revoke approval are subject to judicial review under Iowa Code chapter 17A.

**201.30(4) Alternatives to revocation preferred.** In deciding whether to revoke an approval, the department shall take into account the hardship that the revocation may impose on the applicant and any potential disruption of the market as a whole. The department shall not revoke an approval if the arrangement can be modified, restructured, or regulated so as to remedy the problem upon which the revocation proceeding is based. The applicant may submit proposals for alternatives to revocation. Before approving an alternative to revocation that involves modifying or restructuring an arrangement, the department shall publish notice in the Iowa Administrative Bulletin that any person may comment on the proposed modification or restructuring within 20 days after publication of the notice. The department shall not approve the modification or restructuring until the comment period has concluded. An approved, modified, or restructured arrangement shall be subject to appropriate supervision under rule 201.29(135,75GA,ch158).

**201.30(5) Impact of revocation.** An applicant that has had its approval revoked is not required to terminate the arrangement. The applicant cannot be held liable under state or federal antitrust law for acts that occurred while the approval was in effect, except to the extent that the applicant failed to substantially comply with the terms of the approval. The applicant is fully subject to state and federal antitrust law after the revocation becomes effective and may be held liable for acts that occur after the revocation.

These rules are intended to implement 1993 Iowa Acts, chapter 158, section 3.

CHAPTER 202  
CERTIFICATE OF NEED PROGRAM  
[Prior to 7/29/87, Health Department[470] Ch 202]

**641—202.1(135) Definitions.** For purposes of this chapter, the following definitions apply:

*“Acute care category of bed usage,”* as the term applies in Iowa Code section 135.63(2) *“k,”* shall be the same as the acute care categories listed in the state survey section of the American Hospital Association Annual Survey of Hospitals.

*“Any expenditure in excess of five hundred thousand dollars,”* as defined in Iowa Code section 135.61(18) *“e,”* means new capital expenditures and new personnel necessary to operate the service for a year.

*“Any mobile health service with a value in excess of one million five hundred thousand dollars,”* as defined in Iowa Code section 135.61(18) *“l,”* means the value of all equipment used to provide the service, including the trailer. The party providing the equipment shall be the applicant regardless of the location of that party.

*“Appropriate geographic service area,”* as the term applies to defining affected persons in Iowa Code section 135.61(1) *“c,”* shall be defined as follows:

1. For applications regarding hospitals, hospitals located in the same county and in Iowa counties contiguous to the county wherein the applicant hospital’s proposed project will be located.

2. For applications regarding health care facilities, other health care facilities located in the same county and in Iowa counties contiguous to the county wherein the applicant’s proposed health care facility will be located.

3. For applications sponsored by other than the hospitals or health care facilities specified in paragraphs “1” and “2,” those providers within the same county who offer similar service or might logically be viewed as potential providers of such service.

*“Bed capacity”* shall be defined as follows:

1. For hospitals, bed capacity is defined as the total facility licensed beds as reported on the state survey section of the American Hospital Association Annual Survey of Hospitals.

2. For health care facilities, bed capacity is defined as a facility’s licensed bed capacity according to the department of inspections and appeals.

*“Cardiac catheterization service,”* as the term applies to a new or changed institutional health service in Iowa Code section 135.61(18) *“m”(1),* means the initiation or expansion of this service.

*“Consumers served by a new institutional health service”* means those consumers residing in the service area as determined by the department.

*“Long-term (acute) care hospital,”* for purposes of these rules, means a hospital that has been approved to participate in the Title XVIII (Medicare) program as a long-term care hospital-prospective payment system hospital (LTCH-PPS) in accordance with 42 CFR Part 412.

*“Open heart surgical service,”* as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) *“m”(2),* means the initiation or expansion of this service.

*“Organized outpatient health facility,”* as defined in Iowa Code section 135.61(20), shall include, but not be limited to, the following types of facilities:

1. Community mental health centers; and
2. Comprehensive outpatient rehabilitation facilities (CORFs) certified by Medicare.

*“Organ transplantation service,”* as the term applies to a new or changed institutional health service in Iowa Code section 135.61(18) *“m”(3),* means the initiation or expansion of this service. Each type of organ transplant shall be considered separately.

*“Permanent change in bed capacity of an institutional health facility”* means a change which is intended to be effective for one year or more.

1. A conversion of a long-term acute care hospital or a rehabilitation hospital as defined by federal regulations to a general acute care hospital or to a different type of specialty hospital is a permanent change in bed capacity and requires a certificate of need.

2. A hospital which has deleted beds pursuant to Iowa Code section 135.63(2) “g” for the purpose of receiving designation as a critical access hospital may reestablish the deleted beds at a later time without obtaining a certificate of need, provided that the number of beds reestablished does not exceed the number of beds maintained prior to the deletion as reported on the bed reduction form.

“*Physical facility*,” as the term applies in Iowa Code section 135.61(18) “f,” means a separately licensed facility.

“*Private offices and private clinics of an individual physician, dentist, or other practitioner or group of health care providers*.” The meaning of this term as used in Iowa Code section 135.63(2) “a” shall be determined by looking at factors which include, but are not limited to:

1. The type of health care service delivered;
2. The control and supervision of medical judgment in the care of and treatment of patients;
3. The control and supervision of professional assistants, including nurses, physician assistants, and technicians; and
4. The ownership and maintenance of medical records of patients.

“*Radiation therapy service applying ionizing radiation for the treatment of malignant disease using megavoltage external beam equipment*,” as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) “m”(4), means the initiation or expansion of this service.

“*Rehabilitation hospital*,” for the purposes of these rules, means a hospital that has been approved to participate in the Title XVIII (Medicare) program as an inpatient rehabilitation facility-prospective payment system hospital (IRF-PPS) in accordance with 42 CFR Part 412.23(b), 412.25 or 412.29.

“*Relocation of an institutional health facility*,” as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) “b,” means the replacement of a facility located in one county with a facility located in another county.

“*Value in excess of one million five hundred thousand dollars*,” as used in Iowa Code section 135.61(18) “g,” “h,” “i” and “j,” means the value of the equipment including any applicable sales tax, delivery charge and installation charge.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

#### **641—202.2(135) Letter of intent.**

**202.2(1)** Before applying for a certificate of need, the sponsor of a proposed new institutional health service or changed institutional health service shall submit a letter of intent to the department. The letter of intent shall contain the following:

- a. A brief description of the proposed project;
- b. The project’s location;
- c. The project’s estimated cost (site costs, land improvements, facility costs, movable equipment and financing costs); and
- d. An explanation of how the project will be financed.

**202.2(2)** The letter shall be submitted as soon as possible after the initiation of the applicant’s planning process and in any case not less than 30 calendar days before applying for a certificate of need and before substantial expenditures are made. This 30-day waiting period shall begin upon the department’s receipt of the applicant’s letter of intent.

**202.2(3)** The department shall make available on the certificate of need Web page located on the department’s Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us), all criteria and standards which are pertinent to an application.

**202.2(4)** A letter of intent received by the department shall be valid for a period of one year from the date of receipt by the department. The sponsor may renew the validity of a letter of intent by providing written notification to the department prior to the one-year expiration date.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.3(135) Determination of reviewability.** A sponsor of a proposed project may submit a written request for a determination of reviewability as to whether the project requires a certificate of need.

**202.3(1)** The request should include sufficient details of the proposed project and cite the sections of the Iowa Code that the sponsor relies upon to assert the project is not reviewable.

**202.3(2)** Upon receipt of a written request from the sponsor of a project, the department shall determine if a proposed project requires a certificate of need under Iowa Code sections 135.61 to 135.83. The department may request additional information about the project to make the determination.

*a.* If it is determined that a certificate of need is required, the sponsor shall be notified by the department and the request for nonreviewability shall be considered the letter of intent for purposes of subrule 202.2(2).

*b.* If it is determined that a certificate of need is not required, the sponsor shall be notified by the department and the determination of nonreviewability shall be placed on the next agenda of the state health facilities council for consideration.

*c.* The notification to the sponsor of the results of the department's review of the request shall include specific Iowa Code citations relied upon to support the determination.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.4(135) Submission of application.**

**202.4(1)** Application form.

*a.* A sponsor of a proposed project for a new or changed institutional health service shall submit to the department an application for certificate of need by using the appropriate application form found on the certificate of need Web page located on the department's Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us). All information requested in the application form will be required in the absence of a waiver by the department.

*b.* An original application and six copies thereof shall be sent to the Certificate of Need Program, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. An electronic copy of the application and all attachments shall also be submitted.

*c.* The department shall establish and maintain files on each application.

**202.4(2)** Application fee. The application shall be accompanied by a fee equivalent to three-tenths of 1 percent of the anticipated cost of the project. There shall be a minimum fee of \$600 and a maximum fee of \$21,000.

*a.* The fee shall be based on the total cost of the project, which shall include site costs, land improvements, facility costs, movable equipment and financing costs.

*b.* The fee for leased or donated new institutional health services shall be calculated in the same manner as if the new institutional health services were purchased.

(1) The leased equipment fee shall be based on total value of the lease, plus sales tax, delivery and installation.

(2) The lease of space includes the cost of a one-year-lease payment for the space in addition to other costs associated with the project.

(3) Financing costs shall not be applicable on leases or cash purchases.

*c.* The fee shall be remitted by check made payable to the Treasurer, State of Iowa, and addressed to Iowa Department of Public Health—Certificate of Need, Lucas State Office Building, Des Moines, Iowa 50319-0075.

*d.* The application fee will be refunded by the department for any application which is voluntarily withdrawn from the review process in the following amounts:

(1) If an application is voluntarily withdrawn within 30 calendar days after submission, 75 percent of the fee shall be refunded;

(2) If an application is voluntarily withdrawn more than 30 but within 60 calendar days after submission, 50 percent of the fee shall be refunded;

(3) If an application is withdrawn voluntarily more than 60 calendar days after submission, 25 percent of the application fee shall be refunded.

*e.* The department shall refund the proper amount within 30 calendar days of the applicant's voluntary withdrawal.

*f.* An applicant for a new or changed institutional health service offered or developed by an intermediate care facility for persons with an intellectual disability or for persons with a mental illness is exempt from payment of the application fee.

*g.* For purposes of this subrule and Iowa Code section 135.63(1), the term “submission” shall mean the day the application is received by the department.

**202.4(3) Determination of completeness.**

*a.* The department shall send written notice to the applicant within 15 business days of receipt of the application if the application has been accepted as complete or otherwise state in said notice what information is needed to make the application complete.

*b.* An application shall be deemed “accepted” once the department has determined it to be complete and the fees defined in 202.4(2) “*a*” are paid in full.

**202.4(4)** Promptly after an application is accepted, the department shall provide written notification to all affected persons defined in Iowa Code section 135.61(1) “*c*” and “*d*” which are identified on the department of inspections and appeals Web site or by the applicant, as provided in Iowa Code section 135.66(2). The department shall notify other affected persons by posting such notification to the certificate of need Web page located on the department’s Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us). The notice and the Web page shall identify deadlines for the submission of written materials as provided in 202.6(2).

**202.4(5) Written analysis of application.**

*a.* The department shall provide a written report evaluating the application against all applicable criteria specified in Iowa Code section 135.64.

*b.* All reports shall be provided to council members and to the applicant prior to the health facilities’ council meeting at which the application is to be heard.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.5(135) Organizational procedures.**

**202.5(1)** The presence of four members of the council shall constitute a quorum.

**202.5(2)** The chairperson and all other council members present shall cast votes or abstain, as the case may be, on all council action. No proxy votes shall be allowed.

**202.5(3)** A vote of a majority of those present shall be necessary to take action on any motion before the council. A tie vote shall mean no action on the motion.

**202.5(4)** The council shall, at the first meeting after July 1 of each odd-numbered year, elect a vice-chairperson, who shall perform the duties of the chairperson in the absence of the chairperson, when the chairperson has a conflict of interest or when the chairperson so directs.

**202.5(5)** The department shall notify the public and affected parties of the council meeting agenda utilizing the certificate of need Web page located on the department’s Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us).

**202.5(6)** A council member shall refrain from participating in an application review process if the member:

- a.* Has a personal bias or prejudice concerning the applicant;
- b.* Has acted as counsel to the applicant or a competitor of the applicant in the same or adjoining county within the past two years;
- c.* Has a financial interest in the outcome of the application process or any other significant personal interest that could be substantially affected by the outcome of the case;
- d.* Has a spouse or relative within the third degree of relationship that (1) is affiliated with or represents the applicant or a competitor of the applicant in the same or adjoining county; (2) has a known financial or significant personal interest which could be substantially affected by the outcome of the application process; or (3) is likely to testify on behalf of the applicant or an affected person at public hearing; or
- e.* Has any other legally sufficient cause to refrain from participating in the application review process.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.6(135) Public hearing on application.** Public hearings conducted pursuant to Iowa Code section 135.66(3) “b” are not contested cases. Judicial review pursuant to Iowa Code section 17A.19 of final agency decisions under Iowa Code section 135.69 shall be treated as other agency action.

**202.6(1)** The council shall use the following meeting format:

- a. Announcement of application under review.
- b. Presentation of department report.
- c. Applicant presentation.
- d. Affected persons’ presentation.
- e. Applicant’s rebuttal.
- f. Council discussion, motion and final decision.

**202.6(2)** The notice of an accepted application issued pursuant to Iowa Code section 135.66(2) shall inform the applicant and affected persons of the deadlines for the submission to the department of written statements or other materials. These deadlines will also be posted on the certificate of need Web page on the department’s Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us).

a. Written submissions received by the department after the deadlines established in this notice shall not be considered by the department or the council unless submitted at the public hearing solely to support oral testimony or upon a showing of good cause.

b. Applicants and affected persons shall submit all written materials electronically. If electronic submission is not possible, then an original and six copies must be submitted.

**202.6(3)** The applicant, affected persons, or their designated representatives shall be given the opportunity to make oral presentations to the council. Other interested persons may be given the opportunity to make oral presentations to the council.

**202.6(4)** Oral testimony that simply duplicates material received in writing will not be heard. The applicant and affected persons shall present only one witness for each issue raised unless permission is requested and granted by the chairperson.

**202.6(5)** All questions to an applicant or affected person presenting oral testimony shall be directed from the council or council staff unless permission is requested and granted by the chairperson. Persons making oral presentations to the council are not expected to be placed under oath.

**202.6(6)** The council may designate technical consultants or experts to assist in its activities as defined by the council.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.7(135) Summary review.** Pursuant to Iowa Code section 135.67, an applicant requesting a summary review shall abide by the following procedures:

**202.7(1)** If an applicant desires to request a summary review of its application for a certificate of need, it shall submit a written request for summary review, an original application and six copies thereof to the Certificate of Need Program, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. An electronic copy of the application and all attachments shall also be submitted. The applicant is not required to submit a letter of intent pursuant to Iowa Code section 135.65 prior to submitting a written request for a summary review.

**202.7(2)** The eligibility of an application for summary review pursuant to Iowa Code section 135.67 shall not mandate or require such review. The department will make the decision as to whether an application will be reviewed in the summary review process.

**202.7(3)** Upon receipt of a written request for summary review, an application, and the fee required by 202.3(2) “a,” the department shall notify the applicant in writing within 15 calendar days if the application is complete and if a summary review will be granted.

**202.7(4)** If an application is deemed incomplete, the department shall state specifically in writing what information is needed to make the application complete.

**202.7(5)** If the department notifies the applicant that a summary review will not be performed, this decision is binding on the applicant and the application will be entered into the formal review process on the date of written notice that such application will not be reviewed summarily.

**202.7(6)** A summary review of an application for a certificate of need shall be completed within 60 calendar days of the acceptance of an application by the department.

**202.7(7)** At any time during the summary review process, an application may be withdrawn without prejudice from the process. The applicant may then submit the application for a formal 90-day review. [ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.8(135) Extension of review time.**

**202.8(1)** A formal review of an application for a certificate of need pursuant to Iowa Code section 135.66 may be extended by the department on the basis of any of the following criteria:

- a. In order to review competing applications simultaneously;
- b. In the case of technologically innovative equipment, to obtain additional information necessary to evaluate the proposal. The department shall specify in writing such additional information as necessary;
- c. At the request of the applicant;
- d. At the request of at least two members of the state health facilities council in order to allow additional time for deliberation on all evidence present. The council shall specify the time of the delay and the date on which the final decision will be rendered.

**202.8(2)** An extension by the department made pursuant to subrule 202.8(1) shall in no case be more than 60 calendar days beyond the time a decision is required under Iowa Code section 135.69 unless the applicant and department agree.

**202.8(3)** Where none of the provisions of 202.8(1) are applicable and where an application will be automatically denied because of the expiration of time required by Iowa Code section 135.69 for the issuance of a written decision by the council, the department shall notify the applicant of the likelihood of an automatic denial and shall ask the applicant to request in writing an extension of the review time. Where an extension is so requested, the application shall be heard at the next regularly scheduled meeting of the council or at any time agreeable to the applicant and the department.

**641—202.9(135) Rehearing of certificate of need decision.**

**202.9(1)** The applicant or any affected person who has participated or sought unsuccessfully to participate in the formal review procedure prescribed in Iowa Code section 135.66 may, for good cause shown, file an application for rehearing in writing with the department stating the specific grounds therefor and the relief sought, within 20 calendar days after the date of the issuance of the final decision on an application for certificate of need.

**202.9(2)** Grounds for rehearing include, but are not limited to:

- a. New significant, relevant information which was unavailable at the date of the hearing;
- b. Significant changes in factors or circumstances relied upon by the council in reaching its decision;
- c. Demonstration that the council has materially failed to follow its adopted procedures in reaching its decision; or
- d. Such other bases as the council determines constitute good cause.

**202.9(3)** An application for rehearing shall be deemed to have been denied unless the council grants the application in writing within 20 calendar days after its filing.

**202.9(4)** If the application for rehearing is granted, the council may issue an order modifying the initial final order, or may set the matter for consideration at a subsequent meeting date. If public hearing is granted on the application for rehearing, notice shall be provided ten calendar days prior to hearing to the person applying for rehearing, the applicant and other affected persons upon request pursuant to 202.10(135).

**202.9(5)** The council shall issue the final decision on rehearing, stating the basis for its decision, within 30 calendar days after the application for rehearing was granted or 30 calendar days after public hearing on rehearing, whichever is later.

**202.9(6)** If a rehearing is not requested or an affected party remains dissatisfied after the request for rehearing, an appeal may be taken in the manner provided by Iowa Code chapter 17A. A request for rehearing is not required prior to appeal under Iowa Code section 17A.19.

**641—202.10(135) Status reports to affected persons.** Affected persons are entitled to status reports from the department while a formal application review is in progress pursuant to Iowa Code section 135.68. The department shall maintain a log of all requests for written status reports by affected persons. Affected persons who request written status reports must submit their name and address in a written request (by letter, fax, or E-mail) to the department, identifying the specific information requested, which may include notification of the council's final decision, any application for rehearing, or the filing of a petition for judicial review. The formal process does not preclude informal contacts with department staff for verbal status reports. Copies of the council's final decision, an application for rehearing, a petition for judicial review, or any other public record will be provided upon request and payment of the department's per page fee for copies as described in 641—175.3(7).

**641—202.11(135) Finality.** The certificate of need application process is continuous beginning with submission of a letter of intent or request for waiver of a letter of intent through issuance of a final decision by the council subject to judicial review under Iowa Code chapter 17A.

**202.11(1)** The following stages of the process are intermediate and subject to judicial review only to the extent they meet criteria for intermediate review under Iowa Code section 17A.19.

*a.* A decision by the department pursuant to 641—202.3(135) that a proposed project does not require a certificate of need;

*b.* A decision by the department to waive submission of the letter of intent and substitute summary review; and

*c.* The rejection of an application by the department which fails to provide all information required under Iowa Code section 135.63, subsection 1.

**202.11(2)** The following stages of the process are final decisions subject to judicial review as final agency action under Iowa Code section 17A.19:

*a.* A decision by the department to disallow summary review;

*b.* A decision by the council that a proposed project does not require a certificate of need;

*c.* A decision by the council to approve or deny an application;

*d.* The council's final ruling on an application for rehearing; and

*e.* A decision by the council to revoke a certificate of need pursuant to 641—202.13(135).

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.12(135) Project progress reports.** The department shall maintain an effective follow-up program to ensure that applicants make timely progress on each approved application.

**202.12(1)** The sponsor of an approved application shall submit a progress report using the form available on the certificate of need Web page on the department's Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us), to the department six months after approval at hearing.

**202.12(2)** Progress reports shall fully identify the project and indicate the current status of the project in descriptive terms. The reports shall also reflect an amended project schedule if necessary.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.13(135) Request for extension of certificate.**

**202.13(1)** A request by the applicant for an extension of a certificate of need must be filed with the department using the form available on the certificate of need Web page on the department's Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us), no later than 30 days prior to the expiration of the certificate of need.

**202.13(2)** A request for extension shall fully identify the project and indicate the current status of the project in descriptive terms.

**202.13(3)** Any affected persons shall have the right to submit to the department in writing, or orally at the council meeting at which the extension request is considered, information which may be relevant to the question of granting an extension.

**202.13(4)** When an extension has been requested, the council shall approve or deny the request at a meeting of the council preceding the expiration of the certification. The certificate of need may be revoked by the council at the end of the certification period for insufficient progress in developing the project.

**202.13(5)** If the extension is denied, the applicant shall have the right to appeal under the provisions of Iowa Code section 135.70.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.14(135) Application changes after approval.**

**202.14(1)** Once a project has been approved by the council, no changes that vary from or alter the number of approved beds, the approved services or the approved cost by an amount indicated in 202.14(2) shall be made unless requested by the applicant and approved by the council. Requests shall be made in writing and filed with the department.

**202.14(2)** An increase in the actual cost of the project over and above that originally approved shall automatically generate a rereview by the council if the increase exceeds the originally approved amount by:

- a. Fifteen percent for projects up to \$999,999.99;
- b. Twelve percent for projects from \$1,000,000.00 to \$4,999,999.99;
- c. Eight percent for projects \$5,000,000.00 and over.

An increase in the approved cost that falls below the above percentages shall be reported to the department.

**202.14(3)** Failure to notify and receive permission of the council to change the project as originally approved may result in the imposition of sanctions provided in Iowa Code section 135.73. The council may make a recommendation to the department regarding the imposition of a sanction and the amount of the fine to be imposed.

**641—202.15(135) Sanctions.** Hearings to determine class I or class II violations pursuant to Iowa Code section 135.73 shall be conducted in accordance with the department's procedural rules for contested cases found at 641—Chapter 173.

**641—202.16(135) Reporting requirements.** For the purposes of the annual reports and data compilation required in Iowa Code sections 135.75 and 135.78, the department will utilize the AHA Annual Survey of Hospitals with the state survey addendum for hospitals and the cost reports for health care facilities submitted to the Medicaid enterprise of the department of human services.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

These rules are intended to implement Iowa Code sections 135.61 to 135.79 and 135.83.

CHAPTER 203  
STANDARDS FOR CERTIFICATE OF NEED REVIEW  
[Prior to 7/29/87, Health Department[470] Ch 203]

**641—203.1(135) Acute care bed need.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.2(135) Cardiac catheterization and cardiovascular surgery standards.**

**203.2(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria found in Iowa Code sections 135.64(1)“*a*” to “*q*,” and 135.64(3). Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these cardiac catheterization and cardiovascular surgery standards include:

- (1) Proposals to commence or expand capacity to perform cardiac catheterization.
- (2) Proposals to add new or replace cardiovascular surgery services.
- (3) Any other applications which relate to cardiac catheterization or cardiovascular surgery.

**203.2(2) Definitions.**

*a.* Adult cardiac catheterization laboratory—a diagnostic facility exclusively for intracardiac or coronary artery catheterization on adults.

*b.* Pediatric cardiac catheterization laboratory—the same as adult cardiac catheterization laboratory, except exclusively for children and infants.

*c.* Cardiac catheterization—

(1) Intracardiac—a diagnostic study of the heart, and pulmonary arteries, or both, in which a small catheter passes through a vein or artery in the neck, leg or arm and advances into the great vessels, the heart or the pulmonary arteries. Through this procedure one can measure pressure within the heart and in adjacent veins and arteries, collect blood samples for blood gas analysis and inject radiopaque material, visualize cardiac and vessel anatomy. The procedure permits detection of congenital and acquired heart abnormalities, the study of ventricular function, the estimation of the orifice size, the placement of pacemakers, etc. Cardiac catheterization is incomplete without cineangiography, intracardiac pressure measurements, blood gas analysis and the ability to diagnose intracardiac shunts.

(2) Coronary artery catheterization—a diagnostic study of the coronary arteries, in which a small catheter passes through an artery in the leg, neck or arm into a coronary artery orifice. Intravascular pressure measurements are taken, and angiography of the coronary arteries is performed. Catheterization and cineangiography of the left ventricle are an integral part of this procedure.

*d.* Angiography.

The photographic recording of X-ray or radiologic images of blood vessels, in any part of the body—the heart, the head, the great vessels, the kidney, etc. In the procedure blood vessels are injected with a radiopaque chemical. Immediately following injection, X-rays are employed to image the path of the injected chemical. These X-ray images are then photographically recorded.

Angiocardiography.

The recording of moving X-ray images (fluoroscopic images) of the heart and great vessels. After injection of radiopaque chemicals, moving X-rays of the chemical’s flow are projected on a screen called a fluoroscope. Moving pictures (cineangiography) or still pictures in sequence (serialography) may be recorded of the X-ray image.

*e.* Adult cardiovascular surgery—cardiovascular surgery exclusively for adults.

*f.* Pediatric cardiovascular surgery—cardiovascular surgery exclusively for infants and children.

*g.* Cardiovascular surgery—the services associated with and surgery performed for congenital or acquired diseases of the heart, great vessels, or pericardium, including the placement of travenous and epicardial pacemakers.

(1) Open heart surgery—cardiovascular surgery in which an incision of sufficient size is made to allow direct vision of the area. Open heart surgery requires temporary use of a heart-lung

(cardiopulmonary bypass) machine, as blood flow through the heart is greatly reduced or stopped altogether.

(2) Coronary artery surgery—surgery to correct inadequate blood flow to the heart through using revascularization techniques to bypass significantly obstructed coronary artery lesions.

*h.* Closed heart surgery—cardiovascular surgery in which a small incision and repairs are made without direct vision of the area.

**203.2(3) Availability of services.**

*a.* Minimum utilization—cardiovascular surgery (Iowa Code sections 135.64(1) “*c*,” “*g*,” “*h*”).

(1) Adult cardiovascular surgical programs should project an annual minimum rate of over 200, or no approval shall be granted. Higher case loads over 200 per annum, are encouraged.

(2) Pediatric cardiovascular surgical units should project a minimum of 100 pediatric heart operations after the first year, at least 75 of which must be open heart procedures.

(3) Combined adult/pediatric cardiovascular surgery units should project the minimum projected annual rates for both adult and pediatric surgery, or no approval shall be granted.

(4) Applicants should project utilization of cardiovascular surgery, catheterization and cardiac care units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa, and bordering states within two hours surface travel time, if the applicant proposes an adult unit; and in consideration of pediatric cardiovascular surgery units currently operating in Iowa and bordering states within three hours surface travel time, if the applicant’s proposed unit is pediatric. If a combined unit is proposed both the two- and three-hour considerations for existing adult and pediatric units apply. The assumptions, data and methodology used to arrive at projections shall be provided in each application.

*b.* Expansions—cardiovascular surgery (sections 135.64(1) “*c*,” “*d*,” “*e*,” “*g*,” “*h*”).

(1) There should be no additional adult cardiovascular surgery units initiated unless each existing unit within two hours surface travel time is operating at a minimum of 350 open heart surgery cases per year.

(2) There should be no additional pediatric cardiovascular surgery units initiated, unless each existing unit within three hours surface travel time is operating at 130 surgeries per year. (If one team serves more than one institution the numbers for those institutions should be combined.)

(3) No additional cardiovascular surgery units should be approved which will reduce the volume of existing services below 350 procedures annually for adults and 130 annually, 75 of which are open heart, for pediatric units. The applicant will demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are within two hours surface travel time for adult services and within three for pediatric services.

(4) Adult cardiovascular surgical service units should be granted only to institutions which can demonstrate an unserved population base of 500,000 persons. An unserved area is one which lies outside of an existing unit’s service area.

(5) Pediatric cardiovascular surgical services should be granted unto institutions which can demonstrate an unserved population base of 2.5 million with 30,000 live births per year.

*c.* Minimum utilization—cardiac catheterization (sections 135.64(1) “*c*,” “*d*,” “*g*,” “*h*”).

(1) Adult cardiac catheterization laboratories should be projected to operate at a minimum of 300 catheterizations per annum.

(2) Pediatric catheterization laboratory units should project a minimum of 150 catheterizations annually.

(3) Combined units should meet each of the adult and pediatric standards.

(4) Applicant should project utilization of cardiac catheterization units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa, and bordering states within two hours surface travel time if the proposed unit is for adults; and in consideration of pediatric cardiovascular surgery

units currently operating in Iowa, and bordering states within three hours surface travel time if the proposed unit is for children. If a combined unit is proposed both time considerations shall apply. The assumptions, data and methodology used to arrive at projections shall be provided in the application.

*d. Expansions—cardiac catheterizations (sections 135.64(1)“c,” “d,” “e,” “g,” “h”).*

(1) There should be no additional adult cardiac catheterization unit opened unless the number of studies per year in each existing unit within two hours surface travel time is greater than 500. No additional pediatric unit should be opened unless the number of studies per year in each existing unit within three hours surface travel time is greater than 250.

(2) There should be no additional cardiac catheterization units initiated which would reduce the volume of existing units below 500 adult catheterizations, 200 of which are intracardiac or coronary artery catheterizations, or 150 pediatric catheterizations, or both for combined units. The applicant must attempt and demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are those within two hours surface travel time for adults or three hours for pediatrics.

*e. There should be no new cardiac catheterization unit open in any facility not performing open heart surgery (sections 135.64(1)“e,” “g,” “h,” “k”).*

**203.2(4) Costs.**

*a. Financial feasibility. (Sections 135.64(1)“f,” “i,” “p”) Cardiovascular surgery and catheterization equipment, and associated remodeling or construction should be depreciated over a period consistent with American Hospital Association schedules as limited by existing reimbursement payors.*

*b. Cost-effectiveness. Proposed new or replacement cardiac catheterization laboratories cost per catheterization and cardiovascular surgery services estimated costs per surgery should when compared to their peers demonstrate cost-effectiveness.*

**203.2(5) Accessibility. (Sections 135.64(1)“c,” “d”)**

*a. Cardiovascular surgery units and cardiac catheterization labs should be available 24 hours a day, seven days a week for emergency coverage.*

*b. Facilities with cardiovascular surgery/cardiac catheterization should have available 24-hour, seven days a week ambulance and emergency room service.*

*c. Travel distance should be within two hours surface travel time or less for 80 percent of the projected service area for pediatric services.*

*d. Cardiac catheterization and cardiovascular surgery service should be provided regardless of ability to pay, in consideration of those programs available in the state which serve the medically indigent.*

**203.2(6) Quality. (Sections 135.64(1)“i,” “k”)**

*a. Each surgery unit and cardiac catheterization lab shall demonstrate a reasonable set of criteria that are used in selecting appropriate candidates for surgery and catheterization.*

*b. Staffing minimums.*

(1) The open heart surgery team should minimally consist of:

1. At least two certified or board eligible cardiovascular surgeons for the first 75 to 130 pediatric open heart surgeries. If pediatric surgery is performed, one surgeon must have special training and experience in surgery for congenital cardiac defects.

2. A board certified or board eligible adult or pediatric cardiologist(s). The latter only if pediatric surgery is performed, the former only if adult surgery is performed.

3. Board certified or board eligible anesthesiologist with special training in the management of cardiovascular cases' respiratory care.

4. Radiologist trained in the cardiovascular field.

5. Pathologist familiar with cardiac problems.

6. Specially trained in heart disease surgical nursing staff.

7. Cardiopulmonary bypass pump technicians.

8. Other ancillary staff as needed.

(2) Each applicant shall document that the proposed surgery unit can be so staffed when completed and operational.

c. Equipment and facilities. The applicant seeking to provide cardiovascular surgery should demonstrate that the following support services will be available:

- (1) General X-ray diagnostic facilities and facilities for emergency X-rays on a 24-hour basis.
- (2) A cardiac catheterization laboratory or angiography lab available on a 24-hour basis.
- (3) A cardiographics laboratory, with facilities for recording the following tests: EKG, vector cardiogram, phonocardiogram, echocardiogram, and exercise stress testing.
- (4) A supporting blood bank and hematology laboratory.
- (5) A microbiology laboratory.

d. Cardiac catheterization labs serving infants and children should have biplane angiographic equipment, either cineangiographic or cut film. Pediatric cardiac catheterization labs should be supervised by board certified or board eligible pediatric cardiologists; adult cardiac catheterization labs should be supervised by a board certified or board eligible adult cardiologist.

**203.2(7) Continuity.** (Sections 135.64(1) “g,” “h,” “i,” “k”)

a. The applicant should demonstrate that an attempt was made to solicit letters and to establish referral agreements from area hospitals and physicians to indicate a willingness to participate in a cooperative endeavor to refer to the proposed service.

b. The applicant should provide documentation that emergency medical transport services will be available.

c. Institutions providing cardiovascular surgery services should include mechanisms for comprehensive medical followup including adequate medical records exchange.

**203.2(8) Acceptability.** (Section 135.64(1) “c”) Facilities with cardiovascular surgery and cardiac catheterization indicate a willingness to observe and respect the rights of patients as stated in the Patients Bill of Rights adopted by the American Hospital Association February 6, 1973, and reprinted in 1975.

#### **641—203.3(135) Radiation therapy or radiotherapy standards.**

**203.3(1) Purpose and scope.**

a. These standards are measures of some of those criteria 1 (a to q) and 3 found in Iowa Code section 135.64. Criteria which are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications which are to be evaluated against these radiation therapy standards include:

- (1) Proposals to commence or expand the kind or capacity of megavoltage radiation therapy services.
- (2) Proposals to replace a radiation therapy unit.
- (3) Any other applications which relate to radiation therapy.

**203.3(2) Definitions.**

a. *Radiation modality.* The method of applying ionizing radiation in the treatment of patients with malignant disease. Externally applied modes.

*Superficial X-ray therapy.* The use of a conventional X-ray machine, which generates X-rays of up to 150 kilovolts (150 kv), to treat superficial lesions, such as skin cancer.

*Orthovoltage X-ray therapy.* The use of a conventional X-ray machine which generates X-rays between 150 kv up to and including 800 kvs. (These X-rays are of insufficient energy to avoid preferential bone absorption or to be “skin sparing”.)

*Megavoltage therapy.* The use of ionizing radiation in excess of one million electron volts. Energies above one million electron volts cause considerably less skin damage, increase depth dose markedly, and result in much less scatter from the therapeutic beam. Megavoltage machines are classified as follows:

1. Particle accelerators. These machines use a supply of electrons, which are accelerated into high energy beams. These beams are either caused to strike a target resulting in high energy X-ray production, or are used themselves as the treatment beam. Particle accelerators generate from 4 million up to as many as 45 million electron volts. Most common particle accelerators are the linear accelerator and the betatron.

2. Isotope sources (gamma ray teletherapy units).

Cobalt 60 units—emit gamma rays of approximately 1.2 million electron volts.

Cesium teletherapy units—utilize gamma rays of approximately 650 kv.

*b. Megavoltage therapy unit.* A piece of megavoltage therapeutic radiologic equipment.

*c. Radiation therapy facility.* A piece of megavoltage therapeutic radiologic equipment, the accompanying support equipment, and the physical space which houses the equipment.

*d. Treatment (procedure).* All those radiation fields applied in a single patient visit. Interstitial/intracavitary treatment counts as one visit.

*e. Dosimetrist.* A technologist who calculates, verifies, and develops maps for the dose distribution of radiation within the patient. The technologist is an essential member of the treatment planning team.

*f. Radiation therapist (radiation oncologist).* A physician who is board certified or board eligible in therapeutic radiology or in general radiology and who devotes full time to the practice of radiation therapy.

*g. Radiation therapy technologist.* An individual registered or eligible for registration by the American Board of Radiologic Technologists, or its equivalent, in radiation therapy.

*h. Transverse tomograms.* A special diagnostic X-ray procedure to determine the depth of the tumors inside the body.

*i. Conjoint radiation oncology center (cancer center).* A multi-institution, multidisciplinary network to provide radiation therapy for cancer patients. Each institution has an equal voice in decision making and direction of the work of the center. Integration of patient care management, common utilization of personnel and equipment, and a single system of records between center institutions assures optimal care regardless of entry portal. A common cancer registry of all patients treated by center hospitals is maintained.

*j. Simulator.* Used to reproduce the geometry of the external beam treatment technique, and consists of an isocentrically mounted X-ray source with X-rays passing per a collimation system to reproduce the therapy beam.

*k. New patient.* A patient receiving treatment for the first time at a given radiation therapy facility.

**203.3(3) Availability.**

*a. Minimum utilization.* (Sections 135.64(1)“c,” “g,” “h”)

(1) A megavoltage radiation therapy unit which is of relatively low energy, including small linear accelerators (4-10 MEVs), cobalt units and cesium teletherapy units, should serve a population of at least 200,000 persons, and treat at least 300 new patients annually within three years after initiation of the service.

(2) A megavoltage radiation therapy unit which is of medium energy, including linear accelerators of 12-20 MEVs should only be placed in facilities which are currently treating with megavoltage radiation therapy a minimum of 500 new patients annually.

(3) A megavoltage radiation therapy unit which is of high energy, including those linear accelerators of greater than 20 MEVs, should only be placed in facilities which are currently treating at least 750 new patients annually with megavoltage radiation therapy.

(4) To determine the number of new patients needing megavoltage radiation therapy annually in a service area, the following formula shall be applied:

Multiply the service area population times .00304 (3.04/1,000 population was the mean cancer incidence rate in 1976 in Iowa as filed by the Surveillance, Epidemiology, and End Results Program—SEER). A service area population is determined by each facility’s catchment area as reported in the most recent patient origin study of the Iowa department of public health.

Multiply this product times .5 (50 percent of all new cancer patients require radiation therapy).

(5) Institutions which form a conjoint oncology center should have at least 500 new patients annually who are amenable to megavoltage therapy.

*b. Expansions.* (Sections 135.64(1)“c,” “d,” “e,” “g,” “h”)

(1) There should be no additional megavoltage units of comparable size approved unless each existing megavoltage unit of that size within 90 minutes travel time of the proposed unit is performing at least 6,000 treatments per annum.

(2) Proposed new small megavoltage units within 90 minutes travel time of other small units must identify an unserved population base of 200,000 apart from that 200,000 currently served by institutions in the service area.

(3) Megavoltage treatments per annum should be projected by multiplying the number of projected new patients needing megavoltage therapy times 20.

(4) There should be no additional megavoltage radiation therapy units of comparable size within 90 minutes surface travel time of existing units which would reduce the projected volume of treatments per annum in existing units of comparable size to less than 6,000 treatments per annum and which would result in less than 300 projected new patients per annum for that existing unit. The applicant will attempt and demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur.

(5) New conjoint centers should be justified if more than 3,000 new patients are currently being treated by radiation therapy in an existing center.

c. A simulator which can accurately reproduce the geometry of each external beam technique should be available for every two megavoltage units in a radiation oncology department.

**203.3(4) Costs.**

a. *Financial feasibility.* (Sections 135.64(1) “f,” “i,” “p”)

(1) Megavoltage radiation therapy units should be depreciated over a period no shorter than that indicated by “Estimated Useful Lives of Depreciable Hospital Assets” published by the American Hospital Association. Associated remodeling should be depreciated according to generally accepted accounting principles and over a period no shorter than indicated in the above-named publication.

(2) Recognizing anticipated volume rate structure, and third party reimbursement, the applicant should present a breakeven analysis for the service. If the analysis shows breakeven will fail to occur after three years of the service’s initiation, the applicant should demonstrate why operating a service with the revenues below costs appears desirable.

(3) Charges will be based on actual or projected yearly treatments, but not less than 6,000 treatments.

b. *Cost-effectiveness.* (Section 135.64(1) “e”) Costs per unit of service should not exceed 10 percent of the state average unit cost for the service. If costs exceed 10 percent of that average the applicant shall demonstrate how the proposal represents the most cost-effective way to deliver the service and explain why the project was chosen instead of alternative ways of meeting the need for the service.

**203.3(5) Accessibility.** (Sections 135.64(1) “c,” “d”)

a. Travel distance shall be within 90 minutes auto travel time for the projected service area population.

b. Radiation therapy services should be provided regardless of ability to pay, in consideration of those programs available in the state which serve the medically indigent.

**203.3(6) Quality.** (Sections 135.64(1) “i,” “k”)

a. Minimum staffing requirements for radiation therapy facilities:

(1) Each facility shall have the services of radiation therapists which should be staffed at a level of one therapist per 400 new cancer patients needing treatment.

(2) Each facility shall have the services of radiation physicists which should be staffed at a level of one physicist per 800 new patients.

(3) Each facility shall have the services of radiation therapy technologists which should be staffed at a level of two technologists per megavoltage unit.

(4) Each facility should have the services of nurses.

(5) Each facility should have the services of dosimetrists which should be staffed at a level of one dosimetrist per 500 new patients.

b. Reserved.

c. Each conjoint center shall have at least two cancer biologists available.

d. Each conjoint center shall have one radiation technologist available for each simulator.

e. Replacement or development of orthovoltage treatment should not occur.

*f.* The long-range plans for radiation therapy services shall be submitted to the Iowa department of public health.

*g.* Multidisciplinary tumor boards should be established in all institutions housing megavoltage or orthovoltage machines.

*h.* A source of continuing education should exist within each conjoint center to reach participating community referral hospitals and physicians.

*i.* Each conjoint center should have a unified training program in radiation therapy for radiation therapists.

*j.* Each radiation therapy facility should offer psychosocial counseling services and nutritional counseling.

**203.3(7) Continuity.** (Sections 135.64(1)“g,” “h,” “i,” “k”)

*a.* The applicant should demonstrate that an attempt was made to solicit letters and establish referral agreements from area hospitals and physicians to indicate their willingness to participate in a cooperative endeavor to refer to the proposed service.

*b.* A minimum of 75 percent of all radiation therapy procedures should be projected to be done on an outpatient basis. If the applicant believes that 75 percent is inappropriate for its facility, then documentation which shows how its facility is different and why it sufficiently justifies not meeting this 75 percent outpatient rate, shall be provided.

**203.3(8) Acceptability.** (Section 135.64(1)“c”) Facilities with radiation therapy services shall document a willingness to observe and respect the rights of patients as stated in the “Patients Bill of Rights” adopted by the American Hospital Association February 6, 1973, and reprinted in 1975. Provisions for counseling services shall be available.

**641—203.4(135) Computerized tomography standards.**

**203.4(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria in Iowa Code sections 135.64(1)“a” to “l.” Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these computerized tomography standards include:

- (1) Proposals to commence or expand the capacity of computerized tomography services.
- (2) Any other applications which relate to computerized tomography services.

**203.4(2) Definitions.**

*a.* Computerized tomographic (CT) scanner—a diagnostic tool which rotates about and which sends X-ray beams through cross-sectional layers of the body or brain. The X-ray beams which emerge from the body or brain are absorbed by a detector. Differences in the amount of X-rays absorbed by the detector indicate differences in tissue density. As the scanner rotates it takes many images of a cross-section. The images on the detector are transmitted to a computer which displays on a TV a reconstructed cross-sectional picture or slice. Contrast media is then usually injected to alter absorption of the detector, and the scan repeated; this is called enhancement.

- (1) Whole body scanner—one capable of imaging the entire body.
- (2) Head scanner—one capable of imaging only the brain and structures adjacent to the head.

*b.* Enhanced scan—a scan performed on a patient who has been treated with a contrast medium so that specific organs or areas of the body will be displayed more distinctly on the scan image.

*c.* Arteriography—imaging of blood vessels supplying the area of interest following injection of contrast media.

*d.* Pneumoencephalogram—the X-ray imaging of the skull and its content after introducing air or gas into the fluid-filled spaces within and around the brain and spinal cord.

*e.* Radioisotope brain scan—nuclear imaging of the concentration of radioactive isotopes which have been injected by biochemical or physiological actions into the brain, referred to later as nuclear brain scan.

*f.* H.E.C.T. (head equivalent C.T. unit)—a unit by which to measure the capacity of a CT scanner, and being defined as the average number of minutes necessary to perform a single unenhanced CT head study on a body scanner (including the room and equipment preparation time).

By comparing the average times for performing various types of scan procedures to the time necessary to perform an unenhanced head scan, the following table of equivalencies was determined:

On a head scanner—

One unenhanced head scan = 1.05 HECTs

One enhanced head scan = 1.26 HECTs

A procedure involving both types of scans = 1.85 HECTs

On a body scanner—

One unenhanced head scan = 1.00 HECTs

One enhanced head scan = 1.16 HECTs

A procedure involving both types of scans = 1.74 HECTs

One unenhanced body scan = 1.48 HECTs

One enhanced body scan = 2.00 HECTs

A procedure involving both types of scans = 2.75 HECTs

*g.* Operational capacity for a CT scanner—the operational capacity of a scanner is 3000 HECTs per year, plus or minus 10 percent.

*h.* Minimum shared-market area for a scanner (hereafter referred to as “area”)—the smallest geographic area within which any scanner installation is judged to affect the utilization rate of any other scanner is the community (as defined by the U.S. Bureau of the Census) or a Standard Metropolitan Statistical Area (where an area is so designated).

*i.* Emergency medical service (EMS) level II trauma service—the level of various services and staffing that qualify a facility to be designated by the emergency medical service division of the Iowa department of public health, using the facilities categorization criteria of such services that is in effect on the date of the enactment of this standard.

*j.* Shared service agreements—a multi-institutional arrangement for coordination or consolidation of services or sharing of support services. Among the various types of arrangements are referred services, purchased or joint contract services, multisponsored services and regional services.

*k.* CT consortia—a cooperative venture in which two or more institutions form a separate entity which is created for the purpose of owning, leasing, planning for, and maintaining the use of the scanner. Each facility in the consortium maintains its autonomy for all other services.

*l.* Applicant—an applicant may be a facility or a consortium of facilities within an area, or a physician or group of physicians.

*m.* General imaging procedures—a radiological diagnostic procedure performed on an X-ray machine or similar radiological diagnostic instrument.

*n.* Active oncology service—full, multidisciplinary cancer care, provided by a medical team that would include: surgery, gynecology, medical oncology, radiation oncology, pathology, diagnostic radiology and nuclear medicine. The surgery specialties that might be available would include: thoracic, abdominal, genitourinary and gynecological. The active oncology staff would include those specialists with training in oncology, hematology, and pathology and who spend at least half of their time at the institution.

*o.* Radiotherapy service—the therapeutic application of megavoltage radiation, using a linear accelerator or cobalt unit. The availability of such service at a hospital would necessitate personnel trained in the therapeutic application of radiology.

*p.* Chemotherapy service—the treatment of cancer by chemical agents.

**203.4(3) Determination of need.**

*a.* Applicants who do not now have a scanner, or who have a scanner and seek a certificate for one or more additional scanners.

(1) Applicants in areas with no other scanners.

*i.* Applicants must have performed at least 30,000 general imaging procedures during the past calendar year or 12 months, or

ii. Demonstrate that during the past calendar year or 12 months, the applicant performed diagnostic procedures equivalent to 1500 HECTs, using the following scale:

50% of the number of radioisotopic brain scans  $\times$  1.75

25% of the number of cerebral angiograms/arteriograms  $\times$  1.75

100% of the number of pneumoencephelograms  $\times$  1.75

100% of the number of echoencephelograms  $\times$  1.17

10% of the number of skull X-rays  $\times$  1.75

100% of the number of patients referred to other facilities for CT diagnosis  $\times$  1.75 (in the case of head scans) and 2.75 (in the case of body scans)

(2) Applicants in areas with one or more scanners.

i. An applicant must meet the requirement of need, described in 203.4(3) "a"(1), and

ii. The average level of utilization for scanners within the area was at least 3000 HECTs (plus or minus 10 percent) for the past calendar year or 12 months. The average level of utilization will be determined by adding the number of HECTs performed during the period at all area facilities divided by the number of facilities.

iii. The University of Iowa Hospitals and Clinics is specifically exempted from consideration under ii., directly above, because it has a service area that encompasses the entire state and adjoining states. The utilization statistics for the University Hospital will therefore neither affect nor be affected by Mercy Hospital, Iowa City. Additionally, the utilization statistics for scanners at the University of Nebraska Hospitals and Clinics and St. Joseph's Hospital (both in Omaha) will not affect the need for scanners at hospitals in Council Bluffs.

b. Replacement scanners—applicants who currently have a scanner.

(1) All applicants seeking to replace a scanner with another scanner, head or body.

i. The applicant must demonstrate that the applicant's use of the applicant's current scanner was at least at the operating capacity level during the last calendar year or 12 months, or

ii. Below the operating capacity level, but above 1500 HECT level, and the applicant must demonstrate reasons for permanently utilizing their scanner below operating capacity level and demonstrate that discontinuation of their scanner service would impair the applicant's ability to respond to the emergency needs of the area. Reasons for utilizing the scanner below the capacity should include a unique patient or procedure mix which would define the capacity level differently for this applicant.

(2) Applicants seeking to replace a head scanner with a body scanner.

i. The applicant must meet the requirements listed in 203.4(3) "a," and

ii. The applicant must meet the requirements for applicants seeking body scanners in 203.4(6), "Quality."

**203.4(4) Costs—whole body and head scanners.**

a. *Financial feasibility.* (Sections 135.64(1) "f," "i," "p") CT scanners should be depreciated over a period of not less than seven years. Remodeling shall be depreciated as appropriate by generally accepted accounting principles.

b. *Cost-effectiveness.*

(1) Applicants should demonstrate for themselves and the health care system that the most cost-effective method of providing CT services has been chosen. If a CT scanner which requires less than 20 seconds to produce one section is chosen, the applicant should demonstrate the scanner's cost-effectiveness over scanners requiring greater than 20 seconds to produce one section. If a CT scanner which requires 20 seconds to 2 minutes to produce one scan is chosen, the applicant should demonstrate the scanner's cost-effectiveness over scanners requiring greater than 2 minutes to produce one section.

(2) Proposed new and replacement CT scanner's cost per CT scan should, when compared to their peers, demonstrate cost-effectiveness.

**203.4(5) Accessibility.** (Sections 135.64(1) "c," "d")

a. All scanners must be available for emergency use 24 hours a day, less any down time. (Section 135.64(1) "d.")

b. Services should be provided to all patients regardless of the patient's ability to pay, taking into consideration the availability of those programs available in the state which serve the medically indigent.

c. Applicants will demonstrate a willingness to accept referrals for CT services from all area physicians.

d. All applicants must demonstrate through documented correspondence that an attempt has been made to form shared CT service agreements with all facilities within the area.

**203.4(6) Quality.** (Sections 135.64(1) "i," "k")

a. Data on use and costs of the CT scanners should be submitted to the Iowa department of public health as a condition of approval. (Sections 135.64(1) "a," "h")

b. All scanners.

(1) All applicants must demonstrate that they have on their staff or will acquire on their staff a full-time diagnostic radiologist, trained in the use of the CT scanner, or other physicians with comparable training and expertise.

(2) All applicants must document that they have on their medical staff individuals who are qualified to operate a scanner and interpret and act upon the diagnostic results. Such documentation may include reference to board certification, apprenticeship, academic credentials or such other qualifications that would prompt a medical staff to accept the responsibility for offering this new service. Applicants who intend to acquire staff with the desired expertise should provide signed letters of intent from the incoming medical personnel. Applicants who intend to upgrade the specialty skills of their staff should document a plan for training their current staff in the use of CT scanners.

(3) All applicants should have a complement of other diagnostic modalities available. Applicants seeking body scanners should also have available ultrasound, radionuclide scanning and conventional X-ray services.

(4) All applicants should have the facilities for treating the conditions diagnosed by imaging with the scanner or should demonstrate referral agreements with treatment facilities, in the event that the scanner will be used as a screening device.

(5) All applicants should have on their staff or available on a consultative basis the services of a biomedical engineer or radiation physicist, with special training in CT applications. These functions may also be provided by contract with the scanner manufacturer.

c. Head scanner only.

(1) Applicants for a head scanner should be a facility which qualifies for EMS Level II Trauma Service.

(2) If an applicant does not qualify for Level II Trauma Services, it must demonstrate that it has or will acquire a specialty practice in the field of diagnosing neurologic disorders, exclusive of neuropsychiatric disorders.

d. Body scanner only.

(1) Applicants for a body scanner must meet the criteria for EMS Level II Trauma Service.

(2) Applicants for a body scanner must be a hospital with 200 or more acute care beds. An applicant who does not meet the 200-bed rule may qualify for a body scanner if the applicant directly provides active oncology services with radiotherapy or chemotherapy treatment services, or both.

**203.4(7) Continuity.** (Sections 135.64(1) "g," "h," "i," "k")

a. The applicant should demonstrate that an attempt was made to solicit letters and to establish referral agreements from area hospitals and physicians to indicate a willingness to participate in a cooperative endeavor to refer to the proposed service.

b. The applicant should provide documentation that emergency medical transport services will be available.

c. The applicant should demonstrate an emphasis on the availability of outpatient CT procedures, and that an appropriate percentage of all CT procedures on head and whole body units will be done on an outpatient basis.

**203.4(8) Acceptability.** (Section 135.64(1) "k") Providers of CT services should indicate a willingness to observe the rights of patients.

**203.4(9)** Rescinded effective 1/28/81.

**641—203.5(135) Long-term care.****203.5(1) Purpose and scope.**

*a.* These standards are measures of criteria found in Iowa Code sections 135.64(1)“a” to “g.” Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these standards include applications to:

(1) Construct, develop, offer new, modernize, replace, renovate, or relocate intermediate care or skilled nursing care beds in nursing homes or hospitals.

(2) Expand bed capacity in intermediate care or skilled nursing care facilities or designated units in hospitals.

**203.5(2) Definitions.**

“*Intermediate care facility*” (ICF) means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which is certified by a physician, to three or more individuals, not related to the administrator or owner thereof within the third degree of consanguinity, who by reason of illness, disease, or physical or mental infirmity require nursing services which can be provided only under the direction of a registered nurse or a licensed practical nurse.

“*Rural counties*” means all counties not designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

“*Skilled nursing facility*” (SNF) means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which is certified by a physician, to three or more individuals not related to the administrator or owner thereof within the third degree of consanguinity who by reason of illness, disease, or physical or mental infirmity require continuous nursing care services and related medical services, but do not require hospital care. The nursing care services provided must be under the direction of a registered nurse on a 24-hour-per-day basis.

“*Urban counties*” means those counties designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

**203.5(3) Availability and need.** (Iowa Code sections 135.64(1)“c,” “d,” “e,” “g,” “h”)

*a.* The following formula shall be used as a means of projecting the approximate number of intermediate and skilled nursing care beds needed to serve the projected population five years into the future:

(1) Rural counties:

$[\text{.09}(\text{65} + \text{population}) + \text{.0015}(\text{64} - \text{population})] \times 110\%$  equals total long-term care bed need

Combined SNF and ICF bed need equals 2/3 (total long-term care bed need)

Assumed RCF bed need equals 1/3 (total long-term care bed need).

(2) Urban counties:

$[\text{.07}(\text{65} + \text{population}) + \text{.0015}(\text{64} - \text{population})] \times 110\%$  equals total long-term care bed need

Combined SNF and ICF bed need equals 2/3 (total long-term care bed need)

Assumed RCF bed need equals 1/3 (total long-term care bed need).

(3) Department of economic development population projections are adopted for use in the determination of long-term care bed need.

(4) The department of public health will calculate long-term care bed need figures annually, using population projections five years into the future.

*b.* For purposes of comparing “need” to “existing” beds in a given county, the following shall be considered in the calculation of “existing” beds:

(1) ICF and SNF beds licensed at freestanding facilities in the county.

(2) Additional ICF and SNF beds previously approved through certificate of need but not yet licensed.

(3) ICF and SNF beds in designated units in hospitals in the county.

c. The statistical calculation of bed need shall serve as a guideline for the health facilities council in reviewing need for the proposed long-term care beds. Other factors which may be considered by the council include, but are not limited to:

- (1) The availability and utilization of other ICF and SNF services in the county, or within the applicant's service area.
- (2) The availability and utilization of other long-term care services in nearby hospitals, such as skilled care available through the swing bed program.
- (3) The availability of supportive living arrangements which may or may not be licensed as residential care facilities (RCF).
- (4) The availability of home health and other in-home services.
- (5) The availability of other services to the elderly.
- (6) The availability of ICF and SNF services in neighboring counties.
- (7) Utilization by out-of-state residents of facilities in counties bordering other states, where the applicant provides evidence that in-migration of long-term care patients exceeds out-migration to the bordering state.
- (8) Programs and services directed at special populations whose needs cannot otherwise be met, or whose needs cannot be met cost-effectively at other facilities.

d. In documenting need for a project, the applicant shall identify the service area and target population, including a description of the methodology used by the applicant in determining need for the requested beds and the expected sources of referrals. The applicant shall document that the number of beds requested is appropriate to address the identified need. The applicant shall also identify how the target population is currently being cared for, and what hardship is being experienced by the absence of the proposed beds.

**203.5(4) Quality.** (Iowa Code sections 135.64(1)“i,” “k”) The applicant shall document that the applicant has contacted the health facilities division of the department of inspections and appeals to conform with physical standards, staffing requirements, and other licensing requirements to assess the potential for provision of quality care at the facility. When necessary, the applicant shall attempt to arrange an on-site visit to the facility to determine compliance with physical requirements, and shall provide documentation of this site visit or attempts to arrange such a site visit.

**203.5(5) Continuity.** (Iowa Code sections 135.64(1)“g,” “h,” “k”)

a. The applicant shall document the relationship of the facility's proposed services to other health and long-term care services in the community such as physician and hospital services, habilitation, rehabilitation, transportation or other services. The facility should be capable of providing or arranging for the provision of a continuum of long-term care services.

b. The facility should be capable of providing or arranging for the provision of a comprehensive program of coordinated patient services. The applicant shall provide evidence of contracts for services, appropriate staffing patterns and ratios, and licensure of personnel as necessary.

**203.5(6) Accessibility and acceptability.** (Iowa Code sections 135.64(1)“c,” “d”)

a. Population subgroups which have traditionally been underserved, such as adolescents, the elderly, women, racial minorities, mentally ill, mentally retarded, and developmentally disabled should be considered when planning for or reviewing long-term care facilities.

b. The applicant shall document to what extent Medicaid patients will be served by the proposed beds, using past Medicaid utilization as an indicator or, in the case of a new facility, projecting anticipated Medicaid utilization.

**203.5(7) Costs and financial feasibility.** (Iowa Code sections 135.64(1)“e,” “f,” “i,” “p”)

a. The applicant shall identify capital and operating costs associated with the project, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. Construction costs shall be in line with construction costs of other similar projects.

c. The applicant shall provide budgets for the first three years of operation, including documentation of all assumptions used. The budget shall include anticipated sources of revenue, including the percentage of revenue from private pay, Medicaid, Medicare and other patient revenues.

*d.* Proposed charges per patient day should be justifiable when compared to current charges of other similarly licensed facilities in the applicant's service area, or other similar facilities elsewhere in the state. If charges are significantly higher or lower, the applicant shall provide a description of proposed programs or services which explain the difference in charges.

**641—203.6(135) Bed need formula for mentally retarded.** Rescinded **ARC 2297C**, IAB 12/9/15, effective 1/13/16.

**641—203.7(135) End-stage renal disease standards.** Rescinded **ARC 2297C**, IAB 12/9/15, effective 1/13/16.

These rules are intended to implement Iowa Code section 135.72.

**641—203.8(135) Financial and economic feasibility.**

**203.8(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria 1<sup>1</sup>(a to q) found in Iowa Code section 135.64. Criteria 1<sup>1</sup>(a to q) which are measured by a standard are cited below:

Financial feasibility subrule 203.8(3), paragraph "*b*," criteria 1<sup>1</sup>"*b*," "*c*," "*p*"; subrule 203.8(3), paragraph "*c*," criteria 1<sup>1</sup>"*f*," "*p*"; subrule 203.8(3), paragraph "*d*," criteria 1<sup>1</sup>"*c*," "*f*," "*p*," "*q*."

Economic feasibility subrule 203.8(4), paragraph "*a*," criteria 1<sup>1</sup>"*e*," "*f*," "*g*," "*i*," "*p*," "*q*."

*b.* Certificate of need applications which are to be evaluated against these financial and economic feasibility standards include institutional health facilities, as defined in Iowa Code section 135.61.

**203.8(2) Definitions.**

*a. Project.* The remodeling, replacing or equipping of existing buildings, as well as the building or equipping of new structures.

*b. Financial feasibility.* The applicant's demonstration that it has the money, or that it can reasonably expect to obtain moneys equal to the estimated project costs, to any debt associated with the project, and to the annual expenses of providing the service, as well as the demonstration of overall institutional financial strength.

*c. Financial ratio analysis.* Evaluation of the financial position of an organization through creating indexes of income, revenue, assets, liabilities, etc. Financial ratios can be classified into liquidity, capital structure, activity and profitability ratios. Financial ratios measure financial feasibility.

(1) Net margin. The net income (after taxes if the applicant is not tax-exempt) minus nonoperating revenue divided by gross revenue.

(2) Net operating margin. Net income (after taxes if the applicant is not tax-exempt) minus nonoperating revenue divided by total operating revenue.

(3) Current asset ratio (current ratio). Current assets divided by current liabilities.

(4) Debt ratio. Total long-term debts divided by total fixed assets.

(5) Debt service coverage. The total of net income, interest expense, amortization of financing costs, and depreciation plus amortization and interest divided by the annual debt service.

(6) Days revenue in accounts receivable. Gross accounts receivable divided by gross patient revenue divided by 365.

*d. Debt financing.* Any portion of the cost of projects to be financed through borrowing either at the time the project is undertaken or at anytime subsequent thereto.

*e. (Gross) revenue.* Total of operating and nonoperating revenues.

*f. Nonoperating revenues.* Revenues not related to patient care or normal day-to-day operations, including unrestricted gifts, unrestricted endowments, income from the sale of a fixed asset, unrestricted income from a restricted or unrestricted fund, rental of facilities not used in operation, etc. (restricted funds are specifically excluded, unless expended during the accounting period, in which case they are accounted for either as operating or nonoperating revenues).

*g. Operating revenues.* Net patient service revenues (patient revenues minus deduction for charity, contractual and bad debt allowances) and other operating revenues.

*h. Excess (or deficiency) of gross revenues over (or under) expenses.* Net income.

- i. Excess (or deficiency) of operating revenues over (or under) expenses.* Net operating income.
- j. Economic feasibility.* The applicant's demonstration that its project will provide for the allocation of scarce resources within a community in a manner that is of maximum benefit to that community, in other words demonstration that the project will be cost-effective and will contain health care costs to the greatest extent possible.
- k. Expense.* An expired cost (cost = price paid for operations and assets, including leased assets vis-a-vis cash outlay, indebtedness incurred, or cash equivalent) incurred directly or indirectly in earning revenue. Expenditures may be expended over many years.
- l. Asset.* Economic potentials from which future benefits are expected to result, include leased capital equipment.
- m. Liabilities.* Debts or obligations.
- n. Gross patient revenues.* Patient service revenues before allowances for bad debt and charity and contracts.
- o. Debt service.* The payment of matured interest and principal; the outlay needed, supplied, or accrued for meeting such payments during any given accounting period; a budget or operating statement heading such items.
- p. Current assets.* Liquid assets which can be expected to directly or indirectly be converted into cash within one year or the operating cycle, whichever is longer (includes leased assets).

**203.8(3) Financial feasibility analysis.**

- a.* The applicant will provide financial feasibility analysis of the project's (facility's) past and projected costs, as requested by the Iowa department of public health.
- b.* The applicant shall show evidence of sound financial planning.
  - (1) If the sponsor has a long-range institutional plan, the project should be consistent with it. If the sponsor has no long-range institutional plan, the applicant shall demonstrate that the proposal helps meet the long-range needs of the community.
  - (2) The project should be consistent with the sponsor's three-year capital expenditure plan which all hospital and skilled nursing facilities must have.
- c.* The applicant shall demonstrate the financial feasibility of the services (institution) at completion and, shall show evidence of sound historical, financial, and operational management.
  - (1) The net operating margin should be positive. If a net loss is projected following completion of the project, an explanation of source funds should be given. Institutions funded by tax levy or endowment shall demonstrate that money from those sources has been historically applied to cover operating expenses if those institutions have a negative net operating margin.
  - (2) The net margin should be positive. If net loss is projected an explanation of source funds should be given.
  - (3) The past and projected current ratio should be at least 2:1.
  - (4) Past and projected debt service coverage ratio should be at least 2:1.
  - (5) The debt financing of a project should not increase the debt ratio above .8 unless debt service payments will derive from sources other than operating revenues.
  - (6) Days revenues in accounts receivable should not have been more than 65 days.
  - (7) If third party payment can be expected for the project, then some documentation indicating that the type of project which is proposed is generally third party reimbursable should be provided.
- d.* Sponsors shall show evidence of past efficient utilization. Standards (1) and (2) below apply to hospital project applications for:
  - Construction of new acute care beds;
  - Modernization or renovation of acute care beds/patient nursing units;
  - Conversion of acute care beds from one service use to another;
  - Addition to the square footage space of the hospital, where it might be architecturally feasible and cost-effective to convert excess bed space.
  - (1) Hospitals should have been no lower than 5 percent below the implicit target occupancy rate according to the bed need formula for the last year. Additionally hospitals with lower than target occupancy rates should show a trend during the last three years of increasing occupancy rates. This 5

percent refers to deviation on a scale of 1-100 percent and not to 5 percent of the target occupancy rate itself. Long-term care facilities should have had a 90 percent average occupancy for the last three years.

(2) Hospitals should have an average length of stay by service no greater than 10 percent above the average of their size category for the last three years.

Standards (1) and (2) above do not amend rule 641—203.1(135) acute bed care need methodology. But are additional measures of financial viability which supplement rule 641—203.1(135).

(3) Prior to the project's initiation, the full-time equivalent employees per adjusted patient day as reported in the most recent American Hospital Association Hospital Statistics should be no greater than 110 percent of the state average for hospitals of similar size. Categories of hospitals of similar size are:

| <u>Beds</u> |
|-------------|
| 6-24        |
| 25-49       |
| 50-99       |
| 100-199     |
| 200-299     |
| 300-399     |
| 400-499     |
| 500+        |

Adjusted patient day as used here is defined in Hospital Statistics, AHA, 1978.

Nursing homes shall meet regulations for licensure personnel requirements.

(4) Prior to initiation of a project, the cost per patient day of a hospital should be within 10 percent of the state average for hospitals within that size category. (See standard 203.8(3)“d”(3) for size categories.) An applicant's costs, which are incurred as a result of shared service contracts with other entities, and which are not charged to patients within the applicant's facility should not be included in the estimation of costs per patient day.

**203.8(4) *Economic feasibility.***

*a.* The project as proposed shall be cost-effective.

(1) The applicant should demonstrate that the project represents the most cost-effective alternative. Such alternatives include, among others, new construction versus renovation and new service versus shared or contracted services.

(2) The applicant should demonstrate that of the financing methods available, the financing method chosen is the least costly alternative.

(3) Applicants shall demonstrate that construction or renovation costs are reasonable when compared to similar projects of the most recent year.

(4) The net operating margin should not exceed a percentage sufficient to provide for the organization's financial requirements, as defined in “Financial Requirements of Health Care Institutions and Services” (American Hospital Association, S031, February 1979), and limited by existing reimbursement payors.

(5) Facilities should show evidence that they have considered alternate energy sources within their institutions; and energy efficiency in project construction design.

*b.* Reserved.

This rule is intended to implement Iowa Code section 135.74.

<sup>1</sup> Iowa Code section 135.64(1).

**641—203.9(135) Obstetrical services and neonatal intensive care unit standards.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.10(135) Designated pediatric units standards.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.11(135) Designated inpatient substance abuse treatment unit standards.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.12(135) Magnetic resonance imaging services standards.**

**203.12(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria in Iowa Code sections 135.64(1) “*a*” to “*q*.” Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these standards include:

- (1) Proposals to commence or expand the capacity of magnetic resonance imaging services.
- (2) Proposals to replace a magnetic resonance imaging unit.
- (3) Any other applications which relate to magnetic resonance imaging.

**203.12(2) Definitions.**

“*Area*” means the community or a metropolitan statistical area (as defined by the U.S. Office of Management and Budget and used by the U.S. Census Bureau).

“*CT (computed tomography) procedure*” means a CT study of a single site of anatomic interest during an individual patient visit.

“*Magnetic resonance imaging (MRI)*” means a diagnostic modality which employs a combination of magnetic and radio frequency fields and computers to produce images of body organs and tissues.

“*MRI procedure*” means each discrete MRI study of one patient.

“*MRI unit*” means the essential equipment and facility necessary to operate one MRI system.

**203.12(3) Availability and need.** (Iowa Code sections 135.64(1) “*c*,” “*d*,” “*e*,” “*g*,” “*h*”)

*a.* Applicants in areas with no other MRI units. Applicant must document a CT procedure volume of at least 4,500 CT procedures during the most recent calendar or fiscal year period. For purposes of calculating the volumes required, the applicant may use the combined total of more than one facility if the application involves joint ownership of the equipment, or the applicant provides evidence of referral arrangements for the proposed MRI service from the facilities whose procedure or patient volumes are included in the calculations.

*b.* Applicants in areas with one or more MRI units currently in operation or approved by certificate of need for operation.

(1) Applicant must meet the requirement of need described in 203.12(3) “*a*” and

(2) The other MRI unit(s) within the area must have been operating at a minimum of 3,000 MRI procedures annually (or 750 in three months), or proportionately more if the MRI unit runs more than one ten-hour shift.

(3) If the annual utilization of the other MRI unit(s) within the area has been below 3,000 procedures, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the 3,000 procedure level must be demonstrated.

*c.* Applicants seeking to replace an MRI unit.

(1) The applicant must demonstrate that the existing MRI unit has been operating at the level of at least 3,000 procedures during the most recent annual period.

(2) If the applicant’s annual utilization has been below 3,000 procedures, the applicant must reasonably project future utilization above that level or demonstrate reasons for permanently utilizing the equipment below that level.

*d.* Applicants seeking to add an additional MRI unit.

(1) The applicant must demonstrate that the existing MRI unit(s) has been operating at the level of at least 3,500 procedures during the most recent annual period.

(2) The applicant must demonstrate that the demand significantly exceeds the 3,500 procedures annually.

*e.* The provisions of subrule 203.12(3) shall be effective until June 30, 1995. Prior to that time the Iowa department of public health shall reconvene a task force to recommend continuing use of the need methodology outlined or develop a new or revised methodology to use in projecting future MRI needs. The department shall promulgate a new subrule 203.12(3) accordingly.

**203.12(4) Quality and continuity.** (Iowa Code sections 135.64(1) “*g*,” “*h*,” “*i*,” “*k*”)

a. The proposed MRI unit must function as a component of a comprehensive inpatient or outpatient diagnostic service. The proposed MRI unit must have the following modalities on-site or through referral arrangements:

- (1) Ultrasound
- (2) Computed tomography — whole body unit
- (3) Angiography
- (4) Nuclear medicine
- (5) Conventional radiography

b. The proposed MRI unit must be located in a facility which has, either in-house or through referral arrangement, the resources necessary to treat most of the conditions diagnosed or confirmed by MRI. The following medical specialties must be available during MRI service hours on-site or by referral arrangements: neurology or neurosurgery, oncology and cardiology.

c. A proposal to provide new or expanded MRI must include satisfactory assurances that the services will be offered in a physical environment that conforms to federal standards, manufacturer's specifications, and licensing agencies' requirements.

d. The applicant must provide evidence that the proposed MRI equipment has been certified for clinical use by the U.S. Food and Drug Administration or will be operated under an institutional review board whose membership is consistent with U.S. Department of Health and Human Services regulations.

e. Applicants for MRI shall document that the necessary qualified staff are available to operate the proposed unit. The following minimum staff shall be available to the MRI unit:

1. A full-time board eligible or board certified radiologist or nuclear medicine imaging physician or any other board eligible or board certified licensed physician whose exclusive responsibility for at least a two-year period prior to submission of a certificate of need request has been in the acquisition and interpretation of clinical images. This individual shall have a knowledge of MRI through training, experience, or documented postgraduate education. The individual shall also have training with a functional MRI facility.

2. Qualified engineering personnel, available to the institution during MRI service hours, with training and experience in the operation and maintenance of the MRI equipment.

3. Diagnostic radiologic technologists or other certified technologists with expertise in computed tomography or other cross-sectional imaging methods, at a staffing level consistent with the hospital's expected MRI service volume.

4. Other appropriate physicians shall be available during MRI service hours in clinical specialties such as neurology or neurosurgery, oncology and cardiology.

f. The applicant shall demonstrate how emergencies within the MRI unit will be managed in conformity with accepted medical practice.

**203.12(5) Accessibility and acceptability.** (Iowa Code sections 135.64(1) "c," "d")

a. MRI facilities should have adequate scheduled hours to avoid an excessive backlog of cases and MRI shall be available 24 hours a day, seven days a week on an emergency (on-call) basis.

b. Selection of patients for clinical MRI studies must guarantee equal access to all persons regardless of insurance coverage or ability to pay.

c. In addition to accepting patients from participating institutions, facilities performing clinical MRI procedures shall accept appropriate referrals from other local providers. These patients shall be accommodated to the extent possible by extending the hours of service and by prioritizing patients according to standards of need and appropriateness rather than source of referral.

**203.12(6) Costs and financial feasibility.** (Iowa Code sections 135.64(1) "e," "f," "i," "p")

a. The applicant shall identify capital and operating costs associated with the proposed MRI unit, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. The applicant shall provide budgets for the first three years of operation, including documentation and justification of all assumptions used.

c. The applicant must document its projected average cost per procedure and charge per procedure for the first three years. Charges for MRI should be reasonably related to service cost, and comparable to MRI charges at other facilities in the state.

*d.* The applicant shall demonstrate that alternatives were considered and the proposed application is the most cost-effective and will accomplish the goals of the project.

*e.* To provide a data base for evaluation of subsequent MRI applications by the health facilities council, applicants granted a certificate of need shall provide to the certificate of need office the following data upon request of the Iowa department of public health. The department will request the following data on an annual basis.

1. Total number of procedures performed;
2. Total number of inpatient procedures;
3. Total number of outpatient procedures;
4. Average charge per procedure;
5. Hours of operation of the MRI unit;
6. Total revenues and expenses for the MRI unit for the year.

This rule is intended to implement Iowa Code section 135.64.

#### **641—203.13(135) Positron emission tomography services standards.**

##### **203.13(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria in Iowa Code sections 135.64(1) “*a*” to “*q*.” Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these standards include:

- (1) Proposals to commence or expand the capacity of positron emission tomography services.
- (2) Proposals to replace a positron emission tomography unit.
- (3) Any other applications which relate to positron emission tomography.

##### **203.13(2) Definitions.**

“*Area*” means the community or a metropolitan statistical area (as defined by the U.S. Office of Management and Budget and used by the U.S. Census Bureau).

“*CT (computed tomography)*” means an imaging method in which a cross-sectional image of the structures in a body plane is reconstructed by a computer program from the X-ray absorption of beams projected through the body in the image plane.

“*Cyclotron*” means an apparatus for accelerating protons or neutrons to high energies by means of a constant magnet and an oscillating electric field.

“*MRI (magnetic resonance imaging)*” means a diagnostic modality which employs a combination of magnetic and radio frequency fields and computers to produce images of body organs and tissues.

“*Radiopharmaceutical*” means a radioactive pharmaceutical used for diagnostic or therapeutic purposes.

“*PET procedure*” means an image-scanning sequence derived from a single administration of PET, equated with a single injection of the tracer.

“*Positron emission tomography (PET)*” means an imaging method in which positron-emitting radionuclides, which are produced either by a cyclotron or generator, and a nuclear camera are used to create pictures of organ function rather than structure. PET installations generally take one of two forms: a PET scanner using only generator-produced tracers (basic PET unit), or a PET scanner with a cyclotron (enhanced PET unit).

“*SPECT (single photon emission computed tomography)*” means a camera-based imaging system using the radionuclides in the routine practice of nuclear medicine.

##### **203.13(3) Availability and need.** (Iowa Code sections 135.64(1) “*c*,” “*d*,” “*e*,” “*g*,” “*h*”)

*a.* Applicants in areas with no other basic or enhanced PET units.

(1) Applicants should demonstrate a reasonable potential utilization of a PET unit based on diversified inpatient and outpatient case mix thresholds including:

1. Intracranial cases
  - Primary brain tumors 50/year
  - Metastasis 100/year
  - Cerebral vascular disease 200/year

- Organic brain disease and dementia/psychiatric diagnoses (including epilepsy-seizure disorders) 500/year
  - Spinal 100/year
  - 2. Cardiovascular cases
    - Ischemic heart disease (including acute and chronic infarction) 1200/year
  - 3. Neoplasms (head, neck, thorax (excluding heart), abdomen, pelvic and musculoskeletal 1300/year
  - 4. If the application is for a basic unit, the above case mix and numbers should be adjusted according to the proposed use of the unit.
- (2) Applicants should have other diagnostic capabilities, on-site or through referral arrangements, with appropriate volumes including:

|  | <u>Proposed<br/>Threshold</u> |
|--|-------------------------------|
| Nuclear medicine imaging services  | 7,000                         |
| Single photon emission computed tomography (including brain, bone, liver, Gallium and Thallium stress) | 2,000                         |
| CT   | 10,000                        |
| MRI  | 3,000                         |
| Cardiac angiography  | 1,500                         |
| Cardiac ultrasound   | 7,000                         |

(3) Applicants must demonstrate secondary and tertiary service capability, on-site or through referral arrangements, including cardiac surgery, cardiology, internal medicine, general surgery, hematology/oncology, neurology, pathology, thoracic surgery and psychiatry.

*b.* Applicants in areas with one or more basic or enhanced PET units currently in operation or approved by the certificate of need program for operation.

(1) Applicant should have access to cyclotron-produced radiopharmaceuticals.

(2) Existing PET units within the area (whether basic or enhanced) must have been operating at a minimum of 1000 PET procedures during the most recent annual period as reported to the certificate of need program according to 203.13(6) "e."

*c.* The provisions of subrule 203.13(3) shall be effective until June 30, 1995. Prior to that time the Iowa department of public health shall reconvene a task force to recommend continuing use of the need methodology outlined or develop a new or revised methodology to use in projecting future PET needs. The department shall promulgate a new subrule 203.13(3) accordingly.

**203.13(4) *Quality and continuity.*** (Iowa Code sections 135.64(1) "g," "h," "i," "k")

*a.* The proposed PET unit must function as a component of a comprehensive inpatient or outpatient diagnostic service. The proposed PET unit must have the following modalities (and capabilities) on-site or through referral arrangements:

- (1) Computed tomography — (whole body)
- (2) Magnetic resonance imaging — (brain and whole body)
- (3) Nuclear medicine — (cardiac, SPECT)
- (4) Conventional radiography

*b.* The proposed PET unit must be located in a facility which has, either in-house or through referral arrangement, the resources necessary to treat most of the conditions diagnosed or confirmed by PET. The following medical specialties must be available during PET service hours on-site or by referral arrangements: cardiology, neurology, neurosurgery, oncology, and psychiatry.

*c.* A proposal to provide new or expanded PET must include satisfactory assurances that services will be offered in a physical environment that conforms to federal standards, manufacturer's specifications, and licensing agencies' requirements. The following areas are to be addressed:

(1) Quality control and assurance of radiopharmaceutical production of generator or cyclotron-produced agents;

- (2) Quality control and assurance of PET tomograph and associated instrumentation;
- (3) Radiation protection and shielding;
- (4) Radioactive emissions to the environment.

*d.* The applicant must provide evidence that the proposed PET equipment has been certified for clinical use by the U.S. Food and Drug Administration or will be operated under an institutional review board whose membership is consistent with U.S. Department of Health and Human Services regulations.

*e.* Applicants for PET shall document that the necessary qualified staff are available to operate the proposed unit. The applicants shall document the PET training and experience of the staff. The following minimum staff shall be available to the PET unit:

(1) One or more nuclear medicine imaging physician(s) available on a full-time basis to the PET unit who have been licensed by the state for the handling of medical radionuclides and whose primary responsibility for at least a one-year period prior to submission of the certificate of need application has been in acquisition and interpretation of tomographic images. This individual shall have knowledge of PET through training, experience, or documented postgraduate education. The individual shall also have training with a functional PET facility.

(2) Qualified PET radiochemist or radiopharmacist personnel, available to the facility during PET service hours, with at least one year of training and experience in the synthesis of short-lived positron-emitting radiopharmaceuticals. The individual(s) shall have experience in the testing of chemical, radiochemical, and radionuclidic purity of PET radiopharmaceutical syntheses.

(3) Qualified engineering and physics personnel, available to the facility during PET service hours, with training and experience in the operation and maintenance of the PET equipment.

(4) Qualified radiation safety personnel, available to the facility at all times, with training and experience in the handling of short-lived positron-emitting nuclides.

(5) Certified nuclear medicine technologists with expertise in computed tomographic nuclear medicine imaging procedures, at a staffing level consistent with the proposed center's expected PET service volume.

(6) Other appropriate physicians shall be available during PET service hours which may include certified nuclear medicine technologists, computer programmers, nurses, and radiochemistry technicians.

*f.* The applicant shall demonstrate how emergencies within the PET unit will be managed in conformity with accepted medical practice.

**203.13(5) Accessibility and acceptability.** (Iowa Code sections 135.64(1) "c," "d")

*a.* PET facilities should have adequate scheduled hours to avoid an excessive backlog of cases.

*b.* Selection of patients for clinical PET studies must guarantee equal access to all persons regardless of insurance coverage or ability to pay.

*c.* In addition to accepting patients from participating institutions, facilities performing clinical PET procedures shall accept appropriate referrals from other local providers. These patients shall be accommodated to the extent possible by extending the hours of service and by prioritizing patients according to standards of need and appropriateness rather than source of referral.

**203.13(6) Costs and financial feasibility.** (Iowa Code sections 135.64(1) "e," "f," "i," "p")

*a.* The applicant shall identify capital and operating costs associated with the proposed PET unit, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

*b.* The applicant shall provide budgets for the first three years of operation, including documentation and justification of all assumptions used.

*c.* The applicant must document its projected average cost per procedure and charge per procedure for the first three years. Charges for PET should be reasonably related to service cost and comparable to PET charges at other facilities in the state.

*d.* The applicant shall verify whether the service is eligible for reimbursement by public and private third-party payers.

*e.* The applicant shall demonstrate that alternatives were considered and the proposed application is the most cost-effective and will accomplish the goals of the project.

*f.* To provide a data base for evaluation of subsequent PET applications by the health facilities council, applicants granted a certificate of need shall provide to the certificate of need office the following data upon request of the Iowa department of public health. The department will request the following data on an annual basis.

- (1) Total number of procedures performed;
- (2) Total number of inpatient procedures (indicate type of procedure);
- (3) Total number of outpatient procedures (indicate type of procedure);
- (4) Average charge per specific procedure;
- (5) Hours of operation of the PET unit;
- (6) Total revenues and expenses for the PET unit for the year.

This rule is intended to implement Iowa Code section 135.64.

CHAPTER 205  
Reserved

CHAPTER 206  
IOWA HEALTH INFORMATION NETWORK

**641—206.1(135) Scope and applicability.** This chapter describes how the department will address issues regarding the Iowa health information network, including: the development of policies and procedures for auditing participants' usage of the Iowa health information network and enforcing compliance with applicable standards, requirements, rules and procedures; the process by which individuals can decline to have their health information shared through the Iowa health information network; and the process by which the department will notify individuals if there has been unauthorized access to or disclosure of their protected health information through the Iowa health information network.

[ARC 1405C, IAB 4/2/14, effective 5/7/14]

**641—206.2(135) Definitions.** For the purposes of this chapter, the following definitions shall apply:

*"Advisory council"* means the electronic health information advisory council established in Iowa Code section 135.156(2) "a."

*"Board"* means the state board of health established in Iowa Code chapter 136.

*"Breach"* means breach as such term is defined in the HIPAA Privacy Rule.

*"Department"* means the Iowa department of public health.

*"Executive committee"* means the executive committee of the electronic health information advisory council established in Iowa Code section 135.156(2) "b."

*"HIPAA"* means the administrative simplification provisions of the Health Insurance Portability and Accountability Act of 1996, as amended by the HITECH Act, and the regulations promulgated thereunder, including the Privacy Rule, the Security Rule and the Omnibus Final Rule.

*"Individual"* means a patient or client of a participant.

*"Iowa health information network"* means the health information exchange operated by the department pursuant to Iowa Code section 135.155.

*"Opt out"* means to decline to have one's health information exchanged through the Iowa health information network.

*"Participant"* means an authorized organization or individual that has voluntarily agreed to enter into a participation agreement to access or use the Iowa health information network.

*"Participation agreement"* means the agreement that is entered into between the department and a participant and prescribes the terms and conditions for access and use of the Iowa health information network.

*"Privacy policies and security policies"* means the department's rules, regulations, policies and procedures for access to and use of the Iowa health information network, as approved and amended by the executive committee and advisory council and the board, that are posted electronically on the Iowa health information network Web site or otherwise furnished to participants.

*"Protected health information"* means protected health information as defined in HIPAA that is created, transmitted or received by an authorized participant.

*"Provider"* means a person or organization that is a health care provider under HIPAA and is licensed or otherwise permitted to provide health care items and services under applicable state law.

*"Security incident"* means the attempted or successful unauthorized access, use, disclosure, modification, or destruction of information available through the Iowa health information network or interference with Iowa health information network operations, including attempted and successful privacy breaches.

[ARC 1405C, IAB 4/2/14, effective 5/7/14]

**641—206.3(135) Policy development and governance.** The department is required to develop and implement the privacy policies and security policies to protect protected health information exchanged through the Iowa health information network. The policies must be reviewed by the executive committee

and advisory council and approved by the board prior to implementation. Any changes to the policies must go through the same review and approval process.

[ARC 1405C, IAB 4/2/14, effective 5/7/14]

**641—206.4(135) Monitoring and audit.** The department shall monitor and audit participant usage of the Iowa health information network in a manner consistent with the privacy policies and security policies.

**206.4(1)** The department shall enforce the privacy policies and security policies, which shall include audit and monitoring requirements for participants.

**206.4(2)** Participant monitoring and audit activity requirements shall be included in the participation agreement. Participants unwilling or unable to abide by the requirements and participants that violate the policies or terms of the participation agreement may face sanctions up to and including suspension or termination of the participation agreement.

[ARC 1405C, IAB 4/2/14, effective 5/7/14]

**641—206.5(135) Consumer participation in the Iowa health information network.** Pursuant to Iowa Code section 135.156E(2), consumers have the opportunity to opt out of participation in the Iowa health information network.

**206.5(1)** The department shall explain the process and provide forms for patients to complete in order to opt out of participation in the Iowa health information network. The information shall be made available in places including, but not limited to, provider offices and on the Iowa health information network Web site.

**206.5(2)** Patients who decline to have their health information shared through the Iowa health information network may later choose to have their information shared by providing verification of identity.

[ARC 1405C, IAB 4/2/14, effective 5/7/14]

**641—206.6(135) Security incidents, breaches.**

**206.6(1)** The department and all participants shall promptly investigate, respond to and report privacy breaches related to the Iowa health information network in compliance with applicable federal and state law.

**206.6(2)** The department shall include in the privacy policies and security policies more detailed requirements regarding security incidents and shall develop a security incident response plan identifying the responsible parties and action steps to be taken in the event of a security incident.

[ARC 1405C, IAB 4/2/14, effective 5/7/14]

**641—206.7(135) Health information audit.** The department shall make available upon request and on the Iowa health information network Web site a form for individuals to request an audit report showing who or what system has accessed their health information through the Iowa health information network.

**206.7(1)** Individuals may request an audit report by contacting the department by:

Mail: Office of Health IT

Iowa Department of Public Health

Lucas State Office Building

321 E. 12th Street

Des Moines, Iowa 50319

Fax: (515)281-4958

E-mail: [ehhealth@idph.state.ia.us](mailto:ehhealth@idph.state.ia.us)

The department may require proof of legal authority to view health information records.

**206.7(2)** The department shall process the health information audit request and provide a response to the individual within 30 days of receipt of the request.

[ARC 1405C, IAB 4/2/14, effective 5/7/14]

These rules are intended to implement Iowa Code sections 135.156E(2) and 135.156E(9).
