state for emergency medical treatment by or at the direction of an out-of-state law enforcement officer or public authority shall be paid by the state. A claim for payment shall be filed with the state appeal board.

*d. Out-of-state resident—no law enforcement involvement.* The fee and expenses of a county medical examiner who performs an investigation or autopsy of an out-of-state resident shall be paid by the county of appointment.

*e. Child under the age of two.* Rescinded IAB 4/2/14, effective 5/7/14.  
[ARC 1403C, IAB 4/2/14, effective 5/7/14; ARC 2841C, IAB 12/7/16, effective 1/11/17]

#### **641—127.5(144,331,691) Death certificates—deaths affecting the public interest.**

**127.5(1) Completion.** The funeral director to whom the body is released shall complete the personal data on the death certificate. The medical examiner shall complete the manner of death and cause of death sections of the death certificate within 72 hours after determination of the cause of death. If an autopsy is performed by the state medical examiner, the death certificate shall be submitted to the state medical examiner's office for completion. All information included on the certificate shall be typewritten.

**127.5(2) Filing.** The funeral director shall file the certificate with the county registrar in the county in which the death occurred. A death certificate shall be filed prior to the issuance of a burial transit permit and prior to disposal of the body.

**127.5(3) Extension of time.** If a medical examiner is unable to complete the manner of death and cause of death sections of the death certificate within the 24-hour time period, the funeral director shall file a death certificate form completed with all available information. Such certificate shall be authority for the issuance of a burial transit permit. Within 15 days, a supplemental report shall be filed with the local registrar which provides the information missing from the original certificate.

**127.5(4) Additional standards.** Additional rules relative to death certificates may be found at 641—Chapter 101.

#### **641—127.6(331,691) Cremation.**

**127.6(1) Permit obtained prior to cremation—Form ME-5.** A permit for cremation shall be obtained from a county medical examiner prior to cremation of a body of a decedent. For purposes of this requirement, a facsimile or electronic copy of the cremation permit has the same legal effect as the original. Cremation permits shall be issued on the Cremation Permit by Medical Examiner, Form ME-5.

**127.6(2) Requirements for issuance of permit.** A county medical examiner shall direct an inquiry into the cause and manner of death and shall determine whether the death is one which affects the public interest prior to issuing a cremation permit.

*a. Death which affects the public interest.* If the death occurred in a manner specified in Iowa Code section 331.802(3) or if reasonable suspicion that the death occurred in such a manner exists, a medical examiner shall view the body, make a personal inquiry into the cause and manner of death, and complete or cause to be completed all necessary autopsy or postmortem examinations prior to issuing a cremation permit.

*b. Death which does not affect the public interest.* If, following an inquiry into the cause and manner of death, the county medical examiner determines that the death did not occur in a manner specified in Iowa Code section 331.802(3), a medical examiner is not required to view the body prior to issuing a cremation permit. A county medical examiner shall certify on the Cremation Permit by Medical Examiner, Form ME-5, that the medical examiner's inquiry into the cause and manner of death did not disclose evidence that the death occurred in a manner specified in Iowa Code section 331.802(3).

**127.6(3) Fee.** A fee for the Cremation Permit by Medical Examiner, Form ME-5, shall be paid by the family, next of kin, guardian of the decedent, or other person authorized to act on behalf of the decedent.

#### **641—127.7(331,691) County medical examiner investigators.**

**127.7(1) Appointment.** A county medical examiner may appoint one or more county medical examiner investigators upon approval by the board of supervisors and the state medical examiner.

**127.7(2) Qualifications.**

*a.* Prior to appointment, a CME-I should possess a minimum of two years of experience as a licensed or certified nurse or medical care provider. A certified peace officer may be appointed to the position of CME-I if a nurse or medical care provider is not available.

*b.* A CME-I shall satisfy the following criteria:

(1) Prior to or within two years of appointment, attend the St. Louis University School of Medicine Basic Medicolegal Death Investigation Course or its state medical examiner-approved equivalent; and

(2) Prior to or within five years of appointment, obtain certification at the registry-level as a death investigator by the American Board of Medicolegal Death Investigators.

*c.* A CME-I is not required to meet the requirements of paragraph “*a*” or “*b*” if the individual has functioned in the capacity of a CME-I for a period of five years as of January 1, 2002.

*d.* If a CME is unable to appoint a CME-I who possesses the qualifications required by paragraph “*a*,” “*b*,” or “*c*,” the CME may request a waiver. Waiver requests shall be submitted in writing to the state medical examiner and shall include the efforts undertaken by the CME to locate a CME-I who meets the above qualifications; the qualifications of the individual willing to serve in the capacity of CME-I; and the period of time for which the waiver is requested, not to exceed two years. The state medical examiner has sole discretion to waive the requirements of this rule and may withdraw or modify a waiver request upon a finding that the CME-I has failed to adequately perform the duties of the position or for other good cause.

*e.* If a CME-I is unable to meet the eligibility requirements for obtaining registry certification due to the small number of cases requiring investigation in the county of appointment, then a waiver shall be obtained from the state medical examiner in order for the investigator to continue his or her duties. The county medical examiner shall submit a request for a waiver in writing with documentation of the number of deaths occurring in the county of appointment which require death investigation. The waiver must be renewed every five years if the required number of investigations has still not been achieved.

**127.7(3) Duties.** A CME-I shall assist in death investigations. A CME-I acting under the supervision of a county medical examiner may sign the Form ME-1. A CME-I shall not sign a certificate of death or a Form ME-5.

**127.7(4) Supervision.** A CME-I shall serve under the supervision of a county medical examiner. A CME-I provides services under the direction of a county medical examiner or state medical examiner’s office. A CME-I shall at all times perform services in a manner which is consistent with the protocol outlined in the most current edition of the County Medical Examiner’s Handbook and any policies or protocols of the supervising county medical examiner.

**127.7(5) Fees.** Fees for the services provided by a CME-I shall be paid by the county of appointment or by the county of the decedent’s residence. A CME-I shall also receive from the county of appointment or the county of the decedent’s residence reimbursement for actual expenses. The fee and expenses shall be submitted by the CME-I to the county of appointment, which may immediately pay the invoice or forward the invoice to the county of the decedent’s residence for payment to the CME-I. If the CME-I does not receive payment from the county of the decedent’s residence within 60 days of receiving the invoice, the county of appointment shall pay the invoice.

[ARC 8526B, IAB 2/10/10, effective 3/17/10; ARC 2841C, IAB 12/7/16, effective 1/11/17]

#### **641—127.8(331,691) Deputy county medical examiners.**

**127.8(1) Appointment.** A county medical examiner may appoint one or more deputy county medical examiners upon approval by the board of supervisors and the state medical examiner.

**127.8(2) Qualifications.** A DCME shall be licensed in the state of Iowa as a medical or osteopathic physician or surgeon.

**127.8(3) Duties.** A DCME shall serve at the direction of the county medical examiner and may perform any duty of a county medical examiner which is delegated by the county medical examiner to the DCME.

**127.8(4) Fees.** Fees for the services provided by a DCME shall be paid by the county of appointment or by the county of the decedent’s residence. A DCME shall also receive from the county of appointment or the county of the decedent’s residence reimbursement for actual expenses. The fee and expenses shall

be submitted by the DCME to the county of appointment, which may immediately pay the invoice or forward the invoice to the county of the decedent's residence for payment to the DCME. If the DCME does not receive payment from the county of the decedent's residence within 60 days of receiving the invoice, the county of appointment shall pay the invoice.

[ARC 2841C, IAB 12/7/16, effective 1/11/17]

**641—127.9(331,691) Failure to comply with rules.** If a county medical examiner, deputy county medical examiner, county medical examiner investigator, pathologist, or other physician fails to comply with these rules, the state medical examiner may provide written notice of the failure to comply to that individual, the appropriate county medical examiner, and the appropriate county board of supervisors. Within 30 days of the date of the notice, the individual to whom the notice was provided shall submit a written response to the state medical examiner, outlining a proposed corrective action plan. If no response is received within the 30 days or if the proposed corrective action plan is unacceptable, the state medical examiner shall forward copies of the notice and all pertinent correspondence and information to the board of supervisors for the county which appointed the individual, notifying the board of the individual's failure to comply with these rules.

**641—127.10(331,691,22) Confidentiality.** Records and reports of a medical examiner may be confidential records pursuant to Iowa Code sections 22.7(2), 22.7(5), and 22.7(41) and other provisions of Iowa law. Prior to releasing a medical examiner record or report to a member of the public, a county medical examiner may inform the appropriate law enforcement agency, the county attorney, and the state medical examiner to determine whether release is authorized under Iowa law.

**641—127.11(331,691,670) Indemnification.** A board of supervisors shall defend, hold harmless, and indemnify a county medical examiner and any properly appointed staff members to the extent provided in Iowa Code chapter 670.

These rules are intended to implement Iowa Code chapters 331 and 691.

CHAPTER 130  
EMERGENCY MEDICAL SERVICES ADVISORY COUNCIL

**641—130.1(147A) Definitions.** For the purposes of this chapter, the following definitions shall apply:

“*Chairperson*” means the chair of the advisory council, who has been elected by the majority of the advisory council’s members.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency medical care provider*” means an emergency medical care provider as defined in rule 641—131.1(147A).

“*Emergency medical services*” or “*EMS*” means emergency medical services as defined in rule 641—131.1(147A).

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.2(147A) Purpose.** The EMS advisory council shall advise the director and develop policy recommendations concerning the regulation, administration, and coordination of emergency medical services in the state.

**641—130.3(147A) Appointment and membership.**

**130.3(1)** The EMS advisory council shall be appointed by the director.

**130.3(2)** The appointments shall be for three-year staggered terms, which shall expire on June 30.

**130.3(3)** Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**130.3(4)** Membership of the council shall be comprised of individuals nominated from, but not limited to, the following state or national organizations:

*a.* One physician from each of the following organizations:

- (1) Iowa Osteopathic Medical Association.
- (2) Iowa Medical Society.
- (3) American College of Emergency Physicians.
- (4) Iowa Academy of Family Physicians.
- (5) University of Iowa Hospitals and Clinics.
- (6) American Academy of Emergency Medicine.
- (7) American Academy of Pediatrics.

*b.* A representative from each of the following organizations:

- (1) Iowa Physician Assistant Society.
- (2) EMS Education Programs Committee.
- (3) Iowa Nurses Association.
- (4) Iowa Hospital Association.
- (5) Iowa State Association of Counties.

*c.* Two out-of-hospital emergency medical care providers from the Iowa Firefighters Association.

*d.* One out-of-hospital emergency medical care provider from the Iowa Professional Firefighters.

*e.* Three out-of-hospital emergency medical care providers, with at least one representing volunteer EMS and one representing a private service program, from the Iowa EMS Association.

*f.* Two at-large volunteer emergency medical care providers.

**130.3(5) Absences.**

*a.* Three unexcused absences in a 12-month period shall be grounds for the director to request nomination of an alternative representative to fill the position.

*b.* Absences may be excused by notification provided to the chairperson prior to the meeting.

*c.* The chairperson shall be charged with providing notification of absences to the department.

[ARC 9356B, IAB 2/9/11, effective 3/16/11; ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.4(147A) Officers.**

**130.4(1)** Officers of the advisory council shall be a chairperson and a vice chairperson, who shall be elected at the first meeting of each fiscal year.

- a. Officers may serve no more than three consecutive terms as chairperson or vice chairperson.
- b. Vacancies in the office of chairperson shall be filled by the vice chairperson.
- c. Vacancies in the office of vice chairperson shall be filled by election at the next meeting after the vacancy occurs.

**130.4(2)** Duties of officers.

- a. The chairperson shall:
  - (1) Preside at all meetings of the advisory council,
  - (2) Appoint such subcommittees as deemed necessary, and
  - (3) Designate the chairperson of each subcommittee.
- b. The vice chairperson shall:
  - (1) Perform the duties of the chairperson if the chairperson is absent or unable to act. When so acting, the vice chairperson shall have all the powers of and be subject to all the restrictions upon the chairperson.
  - (2) Perform such other duties as may be assigned by the chairperson.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.5(147A) Meetings.**

**130.5(1)** The advisory council shall establish a meeting schedule on an annual basis to conduct business. There shall be a minimum of four meetings per year.

- a. Meetings may be scheduled as business requires, but notice to members must be given at least five working days prior to the meeting date.
- b. Notice given four weeks in advance is encouraged to accommodate the schedules of professional members.

**130.5(2)** Any advisory council member who is unable to attend a meeting will notify the chairperson.

**130.5(3)** A majority of appointed members constitutes a quorum.

**130.5(4)** When a quorum is present, a position is carried by affirmative vote of the majority of those present. No official business that requires a vote of the membership shall be conducted without a quorum present.

**130.5(5)** Persons wishing to make a presentation to the advisory council shall submit the request to the chairperson not less than 14 days prior to the meeting. Presentations may be made at the discretion of the chairperson.

**130.5(6)** Persons wishing to submit written materials should do so at least 14 days in advance of the scheduled meeting to ensure that advisory council members have adequate time to receive and evaluate the materials.

**130.5(7)** The advisory council may conduct a meeting by electronic means pursuant to Iowa Code section 21.8.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.6(147A) Subcommittees.** The advisory council may designate one or more subcommittees to perform such duties as may be deemed necessary.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.7(147A) Expenses of advisory council members.** The following may be considered necessary expenses for reimbursement of advisory council members when the expenses are incurred on behalf of advisory council business and are subject to established state reimbursement rates.

1. Reimbursement for travel in a private car.
2. Actual lodging and meal expenses, including sales tax on lodging and meals.
3. Actual expenses of public transportation.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

**641—130.8(147A) Council composition.** The council's composition shall be developed and maintained pursuant to Iowa Code chapter 69.

[ARC 2565C, IAB 6/8/16, effective 7/13/16]

These rules are intended to implement Iowa Code chapter 147A.

[Filed 9/13/07, Notice 8/1/07—published 10/10/07, effective 11/14/07]

[Filed ARC 9356B (Notice ARC 9237B, IAB 11/17/10), IAB 2/9/11, effective 3/16/11]

[Filed ARC 2565C (Notice ARC 2444C, IAB 3/16/16), IAB 6/8/16, effective 7/13/16]

CHAPTER 131  
EMERGENCY MEDICAL SERVICES—PROVIDER  
EDUCATION/TRAINING/CERTIFICATION

**641—131.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Advanced emergency medical technician*” or “*AEMT*” means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Advanced Emergency Medical Technician Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the AEMT, and is currently certified by the department as an AEMT.

“*Automated external defibrillator*” or “*AED*” means an external semiautomatic device that determines whether defibrillation is required.

“*Candidate*” means an individual who has successfully completed a course of study at an EMR, EMT, AEMT or paramedic or other level certified by the department and who has been recommended by a training program for NREMT certification examination.

“*CECBEMS*” means the continuing education coordinating board for emergency medical services.

“*CEH*” means continuing education hour, which is based upon a minimum of 50 minutes of training per hour.

“*Certification period*” means the length of time an emergency medical care provider certificate is valid. The certification period shall be for two years from initial issuance or from renewal, unless otherwise specified on the certificate or unless sooner suspended or revoked.

“*Certification status*” means a condition placed on an individual certificate for identification as active, deceased, denied, dropped, expired, failed, hold, idle, inactive, incomplete, pending, probation, restricted, retired, revoked, surrendered, suspended, or temporary.

“*Continuing education*” means department-approved training which is obtained by a certified emergency medical care provider to maintain, improve, or expand relevant skills and knowledge and to satisfy renewal of certification requirements.

“*Course completion date*” means the date of the final classroom session of an emergency medical care provider course.

“*Course coordinator*” means an individual who has been assigned by the training program to coordinate the activities of an emergency medical care provider course.

“*CPR*” means training and successful course completion in cardiopulmonary resuscitation, AED, and obstructed airway procedures for all age groups according to recognized national standards.

“*Critical care paramedic*” or “*CCP*” means a currently certified paramedic specialist who has successfully completed a critical care course of instruction approved by the department and has received endorsement from the department as a critical care paramedic.

“*Current course completion*” means written recognition given for training and successful course completion of CPR with an expiration date or a recommended renewal date that exceeds the current date.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*DOT*” means the United States Department of Transportation.

“*Emergency medical care*” means such medical procedures as:

1. Administration of intravenous solutions.
2. Intubation.
3. Performance of cardiac defibrillation and synchronized cardioversion.
4. Administration of emergency drugs as provided by protocol.
5. Any medical procedure authorized by subrule 131.3(3).

“*Emergency medical care provider*” means an individual who has been trained to provide emergency and nonemergency medical care at the EMR, EMT, AEMT, paramedic or other certification level recognized by the department before 2011 and who has been issued a certificate by the department.

*“Emergency medical responder”* or *“EMR”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Emergency Medical Responder Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the EMR, and is currently certified by the department as an EMR.

*“Emergency medical services”* or *“EMS”* means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

*“Emergency medical technician”* or *“EMT”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Emergency Medical Technician Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the EMT, and is currently certified by the department as an EMT.

*“Emergency medical technician-ambulance”* or *“EMT-A”* means an individual who has successfully completed the 1984 United States Department of Transportation’s Emergency Medical Technician-Ambulance curriculum, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-A.

*“Emergency medical technician-basic”* or *“EMT-B”* means an individual who has successfully completed the current United States Department of Transportation’s Emergency Medical Technician-Basic curriculum and department enhancements, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-B.

*“Emergency medical technician-defibrillation”* or *“EMT-D”* means an individual who has successfully completed an approved program which specifically addresses manual or automated defibrillation, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-D.

*“Emergency medical technician-intermediate”* or *“EMT-I”* means an individual who has successfully completed an EMT-Intermediate curriculum approved by the department, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-I.

*“Emergency medical technician-paramedic”* or *“EMT-P”* means an individual who has successfully completed the current United States Department of Transportation’s EMT-Intermediate curriculum (1999) or the 1985 or earlier DOT EMT-P curriculum, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-P.

*“EMS advisory council”* means the council appointed by the director, pursuant to Iowa Code chapter 147A, to advise the director and develop policy recommendations concerning regulation, administration, and coordination of emergency medical services in the state.

*“EMS evaluator”* or *“EMS-E”* means an individual who has successfully completed an EMS evaluator curriculum approved by the department and is currently endorsed by the department as an EMS-E.

*“EMS instructor”* or *“EMS-I”* means an individual who has successfully completed an EMS instructor curriculum approved by the department and is currently endorsed by the department as an EMS-I.

*“Endorsement”* means an approval granted by the department authorizing an individual to serve as an EMS-I, EMS-E or CCP.

*“First responder”* or *“FR”* means an individual who has successfully completed the current United States Department of Transportation’s first responder curriculum and department enhancements, has passed the department’s approved written and practical examinations, and is currently certified by the department as an FR.

*“First responder-defibrillation”* or *“FR-D”* means an individual who has successfully completed an approved program that specifically addresses defibrillation, has passed the department’s approved written and practical examinations, and is currently certified by the department as an FR-D.

*“Good standing”* means that a student or candidate is in compliance with these rules and training program requirements.

*“Idle”* means the status of a lower certification level when a higher certification level is held.

*“Inactive”* means the status of a certification level when an individual requests inactive status or moves from a higher certification level to a lower certification level that was previously idle.

*“NCA”* means North Central Association of Colleges and Schools.

*“NREMT”* means National Registry of Emergency Medical Technicians.

*“Out-of-state student”* means any individual participating in clinical or field experience as a student in an approved out-of-state training program.

*“Out-of-state training program”* means an EMS program located outside the state of Iowa that is approved by the authorizing agency of the program’s home state to conduct initial EMS training for EMR, EMT, AEMT, paramedic or other level certified by the department.

*“Outreach course coordinator”* means an individual who has been assigned by the training program to coordinate the activities of an emergency medical care provider course held outside the training program facilities.

*“Paramedic”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Paramedic Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examination for the paramedic, and is currently certified by the department as a paramedic.

*“Paramedic specialist”* or *“PS”* means an individual who has successfully completed the current United States Department of Transportation’s EMT-Paramedic curriculum (1999) or equivalent, has passed the department’s approved written and practical examinations, and is currently certified by the department as a paramedic specialist.

*“Patient”* means an individual who is sick, injured, or otherwise incapacitated.

*“Physician”* means an individual licensed under Iowa Code chapter 148.

*“Physician assistant”* or *“PA”* means an individual licensed pursuant to Iowa Code chapter 148C.

*“Physician designee”* means a registered nurse licensed under Iowa Code chapter 152 or any physician assistant licensed under Iowa Code chapter 148C and approved by the board of physician assistants. The physician designee acts as an intermediary for a supervising physician in accordance with written policies and protocols in directing the care provided by emergency medical care providers.

*“Preceptor”* means an individual who has been assigned by the training program, clinical facility or service program to supervise students while the students are completing their clinical or field experience. A preceptor must be an emergency medical care provider certified at the level at which the preceptor is providing supervision or at a higher level or must be licensed as a registered nurse, physician assistant or physician.

*“Primary instructor”* means an individual who is responsible for teaching the majority of an emergency medical care provider course.

*“Protocols”* means written directions and orders consistent with the department’s standard of care that are to be followed by an emergency medical care provider in emergency and nonemergency situations. Protocols must be approved by the service program’s medical director and address the care of both adult and pediatric patients.

*“Registered nurse”* or *“RN”* means an individual licensed pursuant to Iowa Code chapter 152.

*“Service program”* or *“service”* means any medical care ambulance service or nontransport service that has received authorization from the department.

*“Service program area”* means the geographic area of responsibility served by any given ambulance or nontransport service program.

*“Student”* means any individual enrolled in a training program and participating in the didactic, clinical, or field experience portion of the program.

*“Training program”* means an Iowa college approved by the North Central Association of Colleges and Schools or an Iowa hospital authorized by the department to conduct emergency medical care training.

*“Training program director”* means an appropriate health care professional (full-time educator or practitioner of emergency or critical care) assigned by the training program to direct the operation of the training program.

“*Training program medical director*” means a physician licensed under Iowa Code chapter 148 who is responsible for directing an emergency medical care training program.  
[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.2(147A) Emergency medical care providers—requirements for enrollment in training programs.** To be enrolled in an EMS training program course leading to certification by the department, an applicant shall:

1. Be at least 17 years of age at the time of enrollment.
2. Have a high school diploma or its equivalent if enrolling in an AEMT or paramedic course.
3. Be able to speak, write and read English.
4. Hold a current course completion card in CPR if enrolling in an EMT, AEMT or paramedic course.
5. Be currently certified, as a minimum, as an EMT if enrolling in an AEMT or paramedic course. If an applicant is currently nationally registered but not certified in Iowa, the applicant must submit an endorsement application to the department within 14 days after the course start date.
6. Be a current emergency medical care provider, RN, PA, or physician and submit a recommendation in writing from an approved EMS training program if enrolling in an EMS instructor course.
7. Be currently certified as a paramedic if enrolling in a CCP course.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.3(147A) Emergency medical care providers—authority.**

**131.3(1)** Authority of emergency medical care personnel. An emergency medical care provider who holds an active certification issued by the department may:

a. Render, via on-line medical direction, emergency and nonemergency medical care in those areas for which the emergency medical care provider is certified as part of an authorized service program:

- (1) At the scene of an emergency;
- (2) During transportation to a hospital;
- (3) While in the hospital emergency department;
- (4) Until patient care is directly assumed by a physician or by authorized hospital personnel; and
- (5) During transfer from one medical care facility to another or to a private home.

b. Function in any hospital or any other entity in which health care is ordinarily provided only when under the direct supervision of a physician when:

- (1) Enrolled as a student in, and approved by, a training program;
- (2) Fulfilling continuing education requirements;
- (3) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician as a member of an authorized service program, or in an individual capacity, by rendering lifesaving services in the facility in which employed or assigned pursuant to the emergency medical care provider’s certification and under direct supervision of a physician, physician assistant, or registered nurse. An emergency medical care provider shall not routinely function without the direct supervision of a physician, physician assistant, or registered nurse. However, when the physician, physician assistant, or registered nurse cannot directly assume emergency care of the patient, the emergency medical care provider may perform, without direct supervision, emergency medical care procedures for which certified, if the life of the patient is in immediate danger and such care is required to preserve the patient’s life;
- (4) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only under the direct supervision of a physician, as a member of an authorized service program, or in an individual capacity, to perform nonlifesaving procedures for which certified and designated in a written job description. Such procedures may be performed after the patient is observed by and when the emergency medical care provider is under the supervision of the physician, physician assistant, or registered nurse, including when the registered nurse is not acting in the capacity of a physician designee, and where the procedure may be immediately abandoned without risk to the patient.

**131.3(2)** When emergency medical care personnel are functioning in a capacity identified in 131.3(1)“a,” they may perform emergency and nonemergency medical care without contacting a supervising physician or physician designee if written protocols have been approved by the service program medical director which clearly identify when the protocols may be used in lieu of voice contact.

**131.3(3)** Scope of practice.

*a.* Emergency medical care providers shall provide only those services and procedures that are authorized within the scope of practice for which they are certified.

*b.* Scope of Practice for Iowa EMS Providers (June 2016) is hereby incorporated and adopted by reference for emergency medical care providers. For any differences that may occur between the Scope of Practice adopted by reference and these administrative rules, the administrative rules shall prevail.

*c.* The department may grant a variance for changes to the Scope of Practice that have not yet been adopted by reference in these rules. A variance to these rules may be granted by the department pursuant to 641—subrule 132.14(1).

*d.* Scope of Practice for Iowa EMS Providers is available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**131.3(4)** The department may approve emergency medical pilot project(s) on a limited basis. Requests for a pilot project application shall be made to the department.

**131.3(5)** An emergency medical care provider who has knowledge of an emergency medical care provider, service program or training program that has violated Iowa Code chapter 147A or these rules shall report such information to the department within 30 days.

[ARC 9443B, IAB 4/6/11, effective 8/1/11; ARC 0062C, IAB 4/4/12, effective 5/9/12; ARC 0480C, IAB 12/12/12, effective 1/16/13; ARC 1404C, IAB 4/2/14, effective 5/7/14; ARC 2277C, IAB 12/9/15, effective 1/13/16; ARC 2767C, IAB 10/12/16, effective 11/16/16]

**641—131.4(147A) Emergency medical care providers—certification, renewal standards, procedures, continuing education, and fees.**

**131.4(1)** *Student application and candidate examination.*

*a.* Applicants shall complete the EMS Student Registration within 14 days after the beginning of the course. The EMS Student Registration shall be completed via the bureau of EMS Web site at [www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems).

*b.* Upon satisfactory completion of the course and all training program requirements, including payment of appropriate fees, a candidate shall be recommended by a training program to take the appropriate NREMT certification examination. A candidate is not eligible to continue functioning as a student in the clinical and field settings and must obtain state certification to perform appropriate skills.

*c.* A candidate shall submit an EMS Certification Application form to the department. EMS Certification Application forms are provided by the department.

*d.* When a student’s EMS Student Registration or a candidate’s EMS Certification Application is referred to the department for investigation or when a student or candidate is otherwise under investigation by the department, the individual shall not be eligible for certification, and the practical examination results will not be confirmed with the NREMT, until the individual is approved by the department.

*e.* The fee for certification as an emergency medical care provider is \$30, payable to the Iowa Department of Public Health. This nonrefundable fee shall be paid prior to a candidate’s receiving certification.

*f.* A candidate must successfully complete the NREMT practical and cognitive examinations to be eligible for state certification.

*g.* The practical examination may be conducted by an authorized training program and must be conducted according to the policies and procedures of the NREMT.

*h.* A candidate must meet all certification requirements within two years of the initial course completion date. If a candidate is unable to complete the requirements within two years due to medical reasons or military obligation, an extension may be granted upon submission of a signed statement from an appropriate medical or military authority and approval by the department.

*i.* Examination scores shall be confidential except that they may be released to the training program that provided the training or to other appropriate state agencies or released in a manner which does not permit the identification of an individual.

*j.* An applicant for EMS-I endorsement shall successfully complete an EMS-Instructor curriculum approved by the department.

**131.4(2) Multiple certificates and renewal.**

*a.* The department shall consider the highest level of certification attained to be active. Any lower levels of certification shall be considered idle.

*b.* A lower-level certificate may be issued if the individual fails to renew the higher level of certification or voluntarily chooses to move from a higher level to a lower level. To be issued a certificate in these instances, an individual shall:

(1) Complete all applicable continuing education requirements for the lower level during the certification period and submit a change of status request, available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

(2) Complete and submit to the department an EMS Affirmative Renewal of Certification Application and the applicable fee.

(3) Complete the reinstatement process in 131.4(4) “*f*” if renewal of the higher level is requested later.

*c.* A citation and warning, denial, probation, restriction, suspension or revocation imposed upon an individual certificate holder by the department shall be considered applicable to all certificates issued to that individual by the department.

**131.4(3) Certification transition.**

*a.* An individual certified as a first responder based on the 1996 National Standard Curriculum for First Responders, an EMT-B, an EMT-I, an EMT-P or a PS shall complete the following certification transition requirements. Transition documents for each level are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

*b.* FR transition to EMR.

(1) The FR shall complete training identified in the FR to EMR Documentation (January 2011).

(2) The FR shall verify completion of training on the Affirmative Renewal of Certification Application by the certification’s regular expiration date prior to October 1, 2014.

(3) An FR who does not complete the transition requirements will not satisfy the renewal requirements for the certification period immediately prior to October 1, 2014.

*c.* EMT-B transition to EMT.

(1) The EMT-B shall complete training identified in the EMT-B to EMT Documentation (January 2011).

(2) The EMT-B shall verify completion of training on the Affirmative Renewal of Certification Application by the certification’s regular expiration date prior to April 1, 2015.

(3) An EMT-B who does not complete the transition requirements will not satisfy the renewal requirements for the certification period immediately prior to April 1, 2015.

*d.* EMT-I transition to AEMT.

(1) The EMT-I shall submit documentation of training identified in the EMT-I to AEMT Documentation (January 2011) to the department.

(2) The EMT-I shall successfully complete the NREMT computer-based AEMT examination.

(3) A provider certified as an EMT-I who has not completed the transition to AEMT will be issued an EMT certification on April 1, 2016.

*e.* EMT-P transition to paramedic.

(1) The EMT-P shall submit documentation of training identified in the EMT-P to Paramedic Documentation (January 2011) to the department.

(2) The EMT-P shall successfully complete the NREMT computer-based paramedic examination.

(3) A provider certified as an EMT-P who has not completed the transition to paramedic will be issued an AEMT certification on April 1, 2018.

*f.* PS transition to paramedic.

(1) The PS shall complete training identified in the PS to Paramedic Documentation (January 2011).

(2) The PS shall verify completion of training on the Affirmative Renewal of Certification Application by the certification's regular expiration date prior to April 1, 2015.

(3) A PS who does not complete the transition requirements will not satisfy the renewal requirements for the certification period immediately prior to April 1, 2015.

**131.4(4)** *Renewal of certification.*

*a.* A certificate shall be valid for two years from issuance unless specified otherwise on the certificate or unless sooner suspended or revoked.

*b.* All continuing education requirements shall be completed during the certification period prior to the certificate's expiration date. Failure to complete the continuing education requirements prior to the expiration date shall result in an expired certification, unless the emergency medical care provider requests an extension as described in 131.4(11) "b."

*c.* An emergency medical care provider shall submit the EMS Affirmative Renewal of Certification Application to the department within 90 days prior to the expiration date. Failure to submit a renewal application to the department within 90 days prior to the expiration date (date of submission is based upon the postmark date) shall cause the current certification to expire.

*d.* An emergency medical care provider shall not function with an expired certification.

*e.* An emergency medical care provider who completes the required continuing education during the certification period but fails to submit the EMS Affirmative Renewal of Certification Application within 90 days prior to the expiration date shall be required to submit a late fee of \$30 (in addition to the renewal fee) and complete the audit process pursuant to 131.4(5) "i" to obtain renewal of certification.

*f.* An emergency medical care provider who has not completed the required continuing education during the certification period or who is seeking to reinstate an expired, inactive, or retired certificate shall:

(1) Complete a refresher course or equivalent approved by the department.

(2) Meet all applicable eligibility requirements.

(3) Submit an EMS Reinstatement Application and the applicable fees to the department.

(4) Pass the appropriate practical and cognitive certification examinations.

*g.* An emergency medical care provider may request an inactive or retired status for a certificate. The request must be made by submitting a change of status request, available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)). Reinstatement of an inactive or retired certificate shall be made pursuant to 131.4(4) "f." A request for inactive or retired status, when accepted in connection with a disciplinary investigation or proceeding, has the same effect as an order of revocation.

*h.* An emergency medical care provider shall be deemed to have complied with the continuing education requirements during periods in which the provider serves honorably on active duty in the military services or for periods in which the provider is a government employee working as an emergency medical care provider and assigned to duty outside the United States. The emergency medical care provider must submit the Affirmative Renewal of Certification Application, all appropriate fees and documentation of assignment.

**131.4(5)** *Continuing education renewal standards.* The following standards apply to renewal through continuing education:

*a.* An applicant shall sign and submit an Affirmative Renewal of Certification Application provided by the department and submit the applicable fee within 90 days prior to the certificate's expiration date.

*b.* An applicant shall complete the continuing education requirements, including current course completion in CPR, during the certification period for the following emergency medical care provider levels:

- (1) EMR, FR, FR-D—12 hours of approved continuing education.
- (2) EMT, EMT-A, EMT-B, EMT-D—24 hours of approved continuing education.
- (3) AEMT, EMT-I—36 hours of approved continuing education.
- (4) EMT-P—48 hours of approved continuing education.
- (5) PS, paramedic—60 hours of approved continuing education.
- (6) EMS-I—Attend at least one EMS-I workshop sponsored by the department.
- (7) CCP—8 hours of approved CCP core curriculum topics.

*c.* At least 50 percent of the required hours for renewal shall be formal continuing education including, but not limited to, refresher programs, seminars, lecture programs, scenario-based programs, conferences, and Internet-delivered courses approved by CECBEMS and shall meet the criteria established in 131.4(6) “*d.*”

*d.* Up to 50 percent of the required continuing education hours may be made up of any of the following:

- (1) Nationally recognized EMS-related courses.
- (2) EMS self-study courses.
- (3) Medical director or designee case reviews.
- (4) Clinical rounds with medical team (grand rounds).
- (5) Working with students as an EMS field preceptor.
- (6) Hospital or nursing home clinical performance.
- (7) Skills workshops/maintenance.
- (8) Community public information education projects.
- (9) Emergency driver training.
- (10) EMS course audits.
- (11) Injury prevention or wellness initiatives.
- (12) EMS service operations, e.g., management programs, continuous quality improvement.
- (13) EMS system development meetings that occur at the county, regional or state level.
- (14) Disaster preparedness.
- (15) Emergency runs/responses as a volunteer member of an authorized EMS service program (primary attendant).
- (16) EMS-Instructor development.

*e.* Additional hours may be allowed for any of the following (maximum):

- (1) CPR—2 hours.
- (2) Disaster drill—4 hours.
- (3) Rescue—4 hours.
- (4) Hazardous materials—8 hours.
- (5) Practical examination evaluator—4 hours.
- (6) Topics outside the provider’s core curriculum—8 hours.

*f.* With training program approval, a person who is not enrolled in an emergency medical care provider course may audit the course for CEHs.

*g.* The certificate holder must notify the department within 30 days of a change in address.

*h.* The certificate holder shall maintain a file containing documentation of CEHs accrued during each certification period for four years from the end of each certification period.

*i.* A group of individual certificate holders will be audited for each certification period. Certificate holders to be audited will be chosen in a random manner or at the discretion of the bureau of EMS. Falsifying reports or failure to comply with the audit request may result in formal disciplinary action. Certificate holders who are audited will be required to submit an Audit Report Form provided by the department within 45 days of the request. If audited, the certificate holders must provide the following information:

- (1) Date of program.
- (2) Program sponsor number.
- (3) Title of program.
- (4) Number of approved hours.

(5) Appropriate supervisor signatures if clinical or practical evaluator hours are claimed.

*j.* An EMS instructor who teaches EMS initial or continuing education courses may use those courses for renewal as approved under subrule 131.4(6).

**131.4(6) Continuing education approval.** The following standards shall be applied for approval of continuing education:

*a.* Required CEHs identified in 131.4(5) “*c*” shall be approved by the department, CECBEMS, or an authorized EMS training program, using a sponsor number assignment system approved by the department.

*b.* Optional CEHs identified in 131.4(5) “*d*” and 131.4(5) “*e*” require no formal sponsor number; however, CEHs awarded shall be verified by an authorized EMS training program, a national EMS continuing education accreditation entity, a service program medical director, an appropriate community sponsor, or the department. Documentation of CEHs awarded shall include the date and title of the program or event, the number of hours approved, and the applicable signatures.

*c.* Courses in physical, social or behavioral sciences offered by accredited colleges and universities are approved for CEHs and need no further approval. One quarter credit equals 10 hours. One semester credit equals 15 hours.

*d.* Courses approved as formal education must meet the following criteria:

(1) Involve live interaction with an instructor or be an Internet-delivered course approved by CECBEMS; and

(2) Be based on the appropriate department curricula for EMS providers and include one or more of the following topic areas: airway management, patient assessment, trauma assessment and management, medical assessment and management, behavioral emergencies, obstetrics, gynecology, pediatrics, or patient care record documentation.

*e.* Programs developed and delivered by the department may be approved for formal education.

**131.4(7) Out-of-state continuing education.** Out-of-state continuing education courses will be accepted for CEHs if they meet the criteria in subrule 131.4(5) and have been approved for emergency medical care personnel in the state in which the courses were held. A copy of course completion certificates (or other verifying documentation) shall, upon request, be submitted to the department with the EMS Affirmative Renewal of Certification Application.

**131.4(8) Fees.** The following fees shall be collected by the department and shall be nonrefundable:

*a.* FR, EMR, EMT-B, EMT, EMT-I, AEMT, EMT-P, PS and paramedic certification fee—\$30.

*b.* Certification renewal fees:

(1) FR, EMR, EMT-B, and EMT—no fee.

(2) EMT-I, AEMT—\$10.

(3) EMT-P, PS and paramedic—\$25.

A certification renewal fee is refundable if the applicant’s certification renewal status is not posted on the bureau of EMS Web site in the certification database within ten working days from the date the department receives the completed renewal application.

*c.* Endorsement certification fee—\$50.

*d.* Reinstatement fee—\$30.

*e.* Late fee—\$30.

*f.* Duplicate/replacement card—\$10.

*g.* Returned check—\$20.

*h.* Extension fee—\$50.

**131.4(9) Certification through reciprocity.** An individual currently certified by the NREMT must also possess a current Iowa certificate to be considered certified in this state. The department shall contact the NREMT to verify certification or registry and good standing.

*a.* To receive Iowa certification, the individual shall:

(1) Complete and submit the EMS Reciprocity Application available from the department.

(2) Provide verification of current certification in another state, if applicable, and registration with the NREMT.

(3) Provide verification of current course completion in CPR.

(4) Meet all other applicable eligibility requirements necessary for Iowa certification pursuant to these rules.

(5) Submit all applicable fees to the department.

*b.* An individual certified through reciprocity shall satisfy the renewal and continuing education requirements set forth in subrule 131.4(4) to renew Iowa certification.

**131.4(10) National registration in lieu of continuing education.**

*a.* An emergency medical care provider who is certified in Iowa and is registered with the NREMT may renew certification by meeting the NREMT reregistration requirements.

*b.* The emergency medical care provider shall submit the NREMT Registration in Lieu of Continuing Education Application, available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)), to the department, with proof of NREMT registration exceeding the current certification expiration date, within 90 days prior to the expiration date.

**131.4(11) Extension of certification.**

*a.* If an emergency medical care provider is unable to complete the required continuing education during the certification period due to a medical reason, an extension of certification may be issued upon submission of a signed statement from an appropriate medical provider and approval by the department. The statement must include information concerning the reason the emergency medical care provider could not complete the continuing education requirements, the time period affected, and the length of time requested for extension.

*b.* If an emergency medical care provider is unable to attain all continuing education requirements within the certification period, a 45-day extension may be granted. To complete the extension process, the provider shall:

(1) Submit a Request for Extension Application, available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)), at least 7 days prior to the expiration date, but no more than 90 days prior to the expiration date, and a \$50 extension fee.

(2) Be given 45 days from the current expiration date to complete continuing education requirements.

(3) Submit the EMS Affirmative Renewal of Certification Application, with all applicable renewal fees, to the department prior to the extended expiration date (date of submission is based on the postmark date).

(4) Not use continuing education completed during the extension period in the subsequent renewal period.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

#### **641—131.5(147A) Training programs—standards, application, inspection and approval.**

**131.5(1) Education standards.**

*a.* A training program shall use the applicable United States Department of Transportation's Education Standards (January 2009) for courses leading to certification.

*b.* A training program shall use the EMS-Instructor curriculum approved by the department for courses leading to the EMS-I endorsement.

*c.* A training program shall use the Iowa CCP curriculum (January 2016) for courses leading to the CCP endorsement.

*d.* A training program may waive portions of the required emergency medical care provider training for individuals certified as emergency medical care providers or licensed in other health care professions including, but not limited to, nursing, physician assistant, respiratory therapist, dentistry, and military. The training program shall document equivalent training and what portions of the course have been waived for equivalency.

**131.5(2) Clinical or field experience resources.** If clinical or field experience resources are located outside the framework of the training program, written agreements for such resources shall be obtained by the training program.

**131.5(3) Facilities.**

a. A training program shall ensure adequate classroom, laboratory, and practice space to conduct the training program. A library with reference materials on emergency and critical care shall also be available.

b. A training program shall ensure opportunities for the student to accomplish the appropriate skill competencies in the clinical environment. The following hospital units shall be available for clinical experience for each training program as required in approved education standards pursuant to subrule 131.5(1):

- (1) Emergency department;
- (2) Intensive care unit or coronary care unit or both;
- (3) Operating room and recovery room;
- (4) Intravenous or phlebotomy team or other method to obtain IV experience;
- (5) Pediatric unit;
- (6) Labor and delivery suite and newborn nursery; and
- (7) Psychiatric unit.

c. A training program shall ensure opportunities for the student to accomplish the appropriate skill competencies in the field environment. The training program shall use an appropriate emergency medical care service program to provide field experience as required in approved education standards pursuant to subrule 131.5(1).

d. A training program shall have liability insurance and shall offer liability insurance to students while they are enrolled in the training program.

**131.5(4) Staff.**

a. A training program medical director shall be a physician licensed under Iowa Code chapter 148.

b. A training program director who is an appropriate health care professional shall be appointed. This individual shall be a full-time educator or a practitioner in emergency or critical care.

c. Course coordinators, outreach course coordinators, and primary instructors used by the training program shall be currently endorsed as EMS instructors.

d. The instructional staff shall be comprised of physicians, nurses, pharmacists, emergency medical care personnel, or other health care professionals who have appropriate education and experience in emergency and critical care.

e. Preceptors shall be assigned in each of the clinical units in which emergency medical care students are obtaining clinical experience and field experience. The preceptors shall supervise student activities to ensure the quality and relevance of the experience. Student activity records shall be kept and reviewed by the immediate supervisor(s) and by the program director and course coordinator.

f. If a training program's medical director resigns, the training program director shall report this to the department and provide a curriculum vitae for the medical director's replacement. A new course shall not be started until a qualified medical director has been appointed.

g. A training program shall maintain records pertaining to each instructor used which include, as a minimum, the instructor's qualifications.

h. A training program is responsible for ensuring that each instructor is experienced in the area being taught and adheres to the education standards.

i. The training program shall ensure that each practical examination evaluator and mock patient is familiar with the NREMT practical examination requirements and procedures. Practical examination evaluators shall attend a workshop sponsored by the department and have the evaluator endorsement.

**131.5(5) Advisory committee.** There shall be an advisory committee which includes training program representatives and representatives from other groups such as affiliated medical facilities, local medical establishments, and ambulance, rescue and first response service programs.

**131.5(6) Student records.** A training program shall maintain an individual record for each student. Training program policy and department requirements will determine contents. These requirements include, but are not limited to:

- a. Application;
- b. Current certifications and endorsements;

c. Student record or transcript of hours and performance (including examinations) in classroom, clinical, and field experience settings.

**131.5(7) Selection of students.** There may be a selection committee to select students. The selection committee shall use, as a minimum, the prerequisites outlined in rule 641—131.2(147A).

**131.5(8) Students.**

a. A student may perform any procedures and skills for which the student has received training if the student is under the direct supervision of a physician or physician designee or under the remote supervision of a physician or physician designee with direct field supervision by an appropriately certified emergency medical care provider.

b. A student shall not be substituted for the regular personnel of any affiliated medical facility or service program but may be employed while enrolled in the training program.

c. A student is not eligible to continue functioning as a student of the training program in the clinical or field setting if the student is not in good standing with the training program, once the student has met the training program requirements, or once the student has been approved for certification testing.

**131.5(9) Financing and administration.**

a. There shall be sufficient funding available to the training program to ensure that each class started can be completed.

b. Tuition charged to students shall be accurately stated.

c. Advertising for training programs shall be appropriate.

d. A training program shall provide to each student, no later than the first session of the course, a guide that outlines, as a minimum:

(1) Course objectives.

(2) Required hours for completion.

(3) Minimum acceptable scores on interim testing.

(4) Attendance requirements.

(5) Grievance procedure.

(6) Disciplinary actions that may be invoked, the grounds for such actions, and the process provided.

(7) Requirements for certification.

**131.5(10) Training program application, inspection and approval.**

a. A training program graduating students at the paramedic level after December 31, 2012, must be accredited by, or must have submitted a self-study application to, the Committee on Accreditation for the Emergency Medical Services Professions.

b. A training program seeking initial or renewal approval shall use the EMS Training Program Application provided by the department. The application shall include, as a minimum:

(1) Names of appropriate officials of the training program;

(2) Evidence of availability of clinical resources;

(3) Evidence of availability of physical facilities;

(4) Evidence of qualified faculty;

(5) Qualifications and major responsibilities of each faculty member;

(6) Policies used for selection, promotion, and graduation of trainees;

(7) Practices followed in safeguarding the health and well-being of trainees and of patients receiving emergency medical care within the scope of the training program; and

(8) Level(s) of EMS certification to be offered.

c. A new training program shall submit a needs assessment which justifies the need for the training program.

d. Applications shall be reviewed by the department in accordance with the 2005 Standards and Guidelines for the Accreditation of Educational Programs in the Emergency Medical Services Professions, published by the Commission on Accreditation of Allied Health Education Programs. Failure to comply with the standards may lead to disciplinary action as described in rule 641—131.8(147A).

*e.* The department shall perform an on-site inspection of the training program's facilities and clinical resources. The purpose of the inspection is to examine educational objectives, patient care practices, facilities and administrative practices and to prepare a written report for review and action by the department.

*f.* The department shall inspect each training program at least once every five years. The department without prior notification may make additional inspections at times, places and under such circumstances as it deems necessary to ensure compliance with Iowa Code chapter 147A and these rules.

*g.* No person shall interfere with the inspection activities of the department or its agents. Interference with or failure to allow an inspection may be cause for disciplinary action regarding training program approval.

*h.* Representatives of the training program may be required by the department to meet with the department at the time the application and inspection report are discussed.

*i.* A written report of department action and the department inspection report shall be sent to the training program.

*j.* Training program approval shall not exceed five years.

*k.* A training program shall notify the department, in writing, of any change in ownership or control within 30 days.

*l.* Temporary variances. If during a period of authorization there is some occurrence that temporarily causes a training program to be in noncompliance with these rules, the department may grant a temporary variance. Temporary variances to these rules (not to exceed six months in length per any approved request) may be granted by the department to a currently authorized training program. Requests for temporary variances shall apply only to the training program requesting the variance and shall apply only to those requirements and standards for which the department is responsible. To request a variance, the training program shall:

(1) Notify the department verbally (as soon as possible) of the need to request a temporary variance. The program shall submit to the department, within ten days after having given verbal notification to the department, a written explanation for the temporary variance request. The address is Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075.

(2) Cite the rule from which the variance is requested.

(3) State why compliance with the rule cannot be maintained.

(4) Explain the alternative arrangements that have been or will be made regarding the variance request.

(5) Estimate the period of time for which the variance will be needed.

*m.* Training program applications and on-site inspection reports are public information.

**131.5(11)** *Out-of-state training program application and approval.*

*a.* An out-of-state training program shall apply to the department for approval.

*b.* An out-of-state training program seeking department approval shall use the out-of-state training program application provided by the department. The application shall include, as a minimum:

(1) Verification of approval to conduct initial EMS training by the authorizing agency within the out-of-state training program's home state;

(2) Evidence of oversight provided by a physician medical director;

(3) Evidence of qualified faculty;

(4) Evidence of curriculum utilized;

(5) Evidence of written contracts between the out-of-state training program and clinical and field sites being utilized within Iowa; and

(6) Description of practices followed in safeguarding the health and well-being of trainees and of patients receiving emergency medical care within the scope of the training program.

*c.* An out-of-state training program shall provide the department with a roster of students who will be participating in the clinical or field experience within the state of Iowa and, for each program, the sites where the students will be participating.

*d.* An out-of-state training program shall not be authorized to provide initial EMS training within the state of Iowa.

*e.* An out-of-state training program shall be limited to utilization of clinical or field sites or both within Iowa.

*f.* Representatives of the out-of-state training program may be required by the department to meet with the department at the time the application is discussed.

*g.* An out-of-state training program approval shall not exceed five years.

*h.* An out-of-state training program shall notify the department, in writing, of any change in ownership, control, or approval status by the out-of-state training program's authorizing state agency within 30 days.

**131.5(12) *Out-of-state students.***

*a.* An out-of-state student shall be registered in good standing in an approved out-of-state training program.

*b.* An out-of-state student may perform any procedures and skills for which the student is training provided that the procedure or skill is within the Iowa scope of practice policy of a comparable Iowa emergency medical care provider. The student must be under the direct supervision of a physician or physician designee or under the remote supervision of a physician or physician designee with direct supervision by an appropriately certified emergency medical care provider.

*c.* An out-of-state student shall not be substituted for personnel of any affiliated medical facility or service program but may be employed while enrolled in the training program.

*d.* An out-of-state student participating in the clinical or field setting within the state of Iowa shall provide documentation of liability insurance.

*e.* An out-of-state student is not eligible to continue functioning as a student of the approved out-of-state training program in the clinical or field setting if the student is not in good standing with the approved out-of-state training program, once the student has met the training program's requirements, or once the student has been approved for certification testing.

*f.* An out-of-state student shall not be eligible for Iowa EMS certification without meeting the requirements for certification through reciprocity in subrule 131.4(9).

[ARC 9443B, IAB 4/6/11, effective 8/1/11; ARC 2767C, IAB 10/12/16, effective 11/16/16]

**641—131.6(147A) Continuing education providers—approval, record keeping and inspection.**

**131.6(1)** Continuing education courses for emergency medical care personnel may be approved by the department, an EMS training program or a national EMS continuing education accreditation entity.

**131.6(2)** A training program may conduct continuing education courses (utilizing appropriate instructors) pursuant to subrule 131.4(6).

*a.* Each training program shall assign a sponsor number to each appropriate continuing education course using an assignment system approved by the department.

*b.* Course approval shall be completed prior to the course's being offered.

*c.* Each training program shall maintain a participant record that includes, as a minimum:

- (1) Name.
- (2) Address.
- (3) Certification number.
- (4) Course sponsor number.
- (5) Course instructor.
- (6) Date of course.
- (7) CEHs awarded.

*d.* Each training program shall submit to the department on a quarterly basis a completed Approved EMS Continuing Education Form.

**131.6(3) Record keeping and record inspection.**

*a.* To ensure compliance or to verify the validity of any training program application, the department may request additional information or inspect the records of any continuing education provider who is currently approved or who is seeking approval.

*b.* No person shall interfere with the inspection activities of the department or its agents. Interference with or failure to allow an inspection may be cause for disciplinary action regarding training program approval.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.7(147A) Complaints and investigations—denial, citation and warning, probation, suspension, or revocation of emergency medical care personnel certificates or renewal.**

**131.7(1)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**131.7(2)** Method of discipline. The department has the authority to impose the following disciplinary sanctions against an emergency medical care provider:

- a.* Issue a citation and warning.
- b.* Impose a civil penalty not to exceed \$1000.
- c.* Require reexamination.
- d.* Require additional education or training.
- e.* Impose a period of probation under specific conditions.
- f.* Prohibit permanently, until further order of the department, or for a specific period, a provider's ability to engage in specific procedures, methods, acts or activities incident to the practice of the profession.
- g.* Suspend a certificate until further order of the department or for a specific period.
- h.* Deny an application for certification.
- i.* Revoke a certification.
- j.* Impose such other sanctions as allowed by law and as may be appropriate.

**131.7(3)** The department may deny an application for issuance or renewal of an emergency medical care provider certificate, including endorsement, or may impose any of the disciplinary sanctions provided in subrule 131.7(2) when it finds that the applicant or certificate holder has committed any of the following acts or offenses:

- a.* Negligence in performing emergency medical care.
- b.* Failure to follow the directions of supervising physicians or their designees.
- c.* Rendering treatment not authorized under Iowa Code chapter 147A.
- d.* Fraud in procuring certification or renewal including, but not limited to:
  - (1) An intentional perversion of the truth in making application for a certification to practice in this state;
  - (2) False representations of a material fact, whether by word or by conduct, by false or misleading allegations, or by concealment of that which should have been disclosed when making application for a certification in this state; or
  - (3) Attempting to file or filing with the department or training program any false or forged diploma or certificate or affidavit or identification or qualification in making an application for a certification in this state.
- e.* Professional incompetency. Professional incompetency includes, but is not limited to:
  - (1) A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.
  - (2) A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other emergency medical care providers in the state of Iowa acting in the same or similar circumstances.
  - (3) A failure to exercise the degree of care which is ordinarily exercised by the average emergency medical care provider acting in the same or similar circumstances.
  - (4) Failure to conform to the minimal standard of acceptable and prevailing practice of certified emergency medical care providers in this state.
- f.* Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof

of actual injury need not be established. Acts which may constitute unethical conduct include, but are not limited to:

- (1) Verbally or physically abusing a patient or coworker.
- (2) Improper sexual contact with or making suggestive, lewd, lascivious or improper remarks or advances to a patient or coworker.
- (3) Betrayal of a professional confidence.
- (4) Engaging in a professional conflict of interest.
- (5) Falsification of medical records.
- g.* Engaging in any conduct that subverts or attempts to subvert a department investigation.
- h.* Failure to comply with a subpoena issued by the department or failure to cooperate with an investigation of the department.
- i.* Failure to comply with the terms of a department order or the terms of a settlement agreement or consent order.
- j.* Failure to report another emergency medical care provider to the department for any violations listed in these rules, pursuant to Iowa Code chapter 147A.
- k.* Knowingly aiding, assisting or advising a person to unlawfully practice EMS.
- l.* Representing oneself as an emergency medical care provider when one's certification has been suspended or revoked or when one's certification is lapsed or has been placed on inactive status.
- m.* Permitting the use of a certification by a noncertified person for any purpose.
- n.* Mental or physical inability reasonably related to and adversely affecting the emergency medical care provider's ability to practice in a safe and competent manner.
- o.* Being adjudged mentally incompetent by a court of competent jurisdiction.
- p.* Sexual harassment of a patient, student, or supervisee. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- q.* Habitual intoxication or addiction to drugs.
  - (1) The inability of an emergency medical care provider to practice with reasonable skill and safety by reason of the excessive use of alcohol on a continuing basis.
  - (2) The excessive use of drugs which may impair an emergency medical care provider's ability to practice with reasonable skill or safety.
  - (3) Obtaining, possessing, attempting to obtain or possess, or administering controlled substances without lawful authority.
- r.* Fraud in representation as to skill, ability or certification.
- s.* Willful or repeated violations of Iowa Code chapter 147A or these rules.
- t.* Violating a statute of this state, another state, or the United States, without regard to its designation as either a felony or misdemeanor, which relates to the provision of emergency medical care, including but not limited to a crime involving dishonesty, fraud, theft, embezzlement, controlled substances, substance abuse, assault, sexual abuse, sexual misconduct, or homicide. A copy of the record of conviction or plea of guilty is conclusive evidence of the violation.
- u.* Having certification to practice emergency medical care suspended or revoked or having other disciplinary action taken by a licensing or certifying authority of this state or another state, territory or country. A copy of the record or order of suspension, revocation or disciplinary action is conclusive or prima facie evidence.
- v.* Falsifying certification renewal reports or failure to comply with the renewal audit request.
- w.* Acceptance of any fee by fraud or misrepresentation.
- x.* Repeated failure to comply with standard precautions for preventing transmission of infectious diseases as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.
- y.* Violating privacy and confidentiality. An emergency medical care provider shall not disclose or be compelled to disclose patient information unless required or authorized by law.
- z.* Discrimination. An emergency medical care provider shall not practice, condone, or facilitate discrimination against a patient, student, or supervisee on the basis of race, ethnicity, national origin,

color, sex, sexual orientation, age, marital status, political belief, religion, mental or physical disability, diagnosis, or social or economic status.

*aa.* Practicing emergency medical services or using a designation of certification or otherwise holding oneself out as practicing emergency medical services at a certain level of certification when the emergency medical care provider is not certified at such level.

*ab.* Failure to respond within 30 days of receipt, unless otherwise specified, of communication from the department which was sent by registered or certified mail.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.8(147A) Complaints and investigations—denial, citation and warning, probation, suspension, or revocation of training program approval or renewal.**

**131.8(1)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**131.8(2)** Method of discipline. The department has the authority to impose the following disciplinary sanctions against a training program:

- a.* Issue a citation and warning.
- b.* Impose a period of probation under specific conditions.
- c.* Prohibit permanently, until further order of the department, or for a specific period, a program's ability to engage in specific procedures, methods, acts or activities incident to the practice of the profession.
- d.* Suspend an authorization until further order of the department or for a specific period.
- e.* Deny an application for authorization.
- f.* Revoke an authorization.
- g.* Impose such other sanctions as allowed by law and as may be appropriate.

**131.8(3)** The department may impose any of the disciplinary sanctions provided in subrule 131.8(2) when it finds that the training program or applicant has failed to meet the applicable provisions of these rules or has committed any of the following acts or offenses:

- a.* Fraud in procuring approval or renewal.
- b.* Falsification of training or continuing education records.
- c.* Suspension or revocation of approval to provide emergency medical care training or other disciplinary action taken pursuant to Iowa Code chapter 147A. A certified copy of the record or order of suspension, revocation or disciplinary action is conclusive or prima facie evidence.
- d.* Engaging in any conduct that subverts or attempts to subvert a department investigation.
- e.* Failure to respond within 30 days of receipt of communication from the department which was sent by registered or certified mail.
- f.* Failure to comply with a subpoena issued by the department or failure to cooperate with an investigation of the department.
- g.* Failure to comply with the terms of a department order or the terms of a settlement agreement or consent order.
- h.* Submission of a false report of continuing education or failure to submit the quarterly report of continuing education.
- i.* Knowingly aiding, assisting or advising a person to unlawfully practice EMS.
- j.* Representing itself as an approved training program or continuing education provider when approval has been suspended or revoked or when approval has lapsed or has been placed on inactive status.
- k.* Using an unqualified individual as an instructor or evaluator.
- l.* Allowing verbal or physical abuse of a student or staff.
- m.* A training program provider or continuing education provider shall not sexually harass a patient, student, or supervisee. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- n.* Betrayal of a professional confidence.
- o.* Engaging in a professional conflict of interest.

*p.* Discrimination. A training program or continuing education provider shall not practice, condone, or facilitate discrimination against a patient, student, or supervisee on the basis of race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, mental or physical disability, diagnosis, or social or economic status.

*q.* Failure to comply with the 2005 Standards and Guidelines for the Accreditation of Educational Programs in the Emergency Medical Services Professions, published by the Commission on Accreditation of Allied Health Education Programs.  
[ARC 9443B, IAB 4/6/11, effective 8/1/11]

#### **641—131.9(147A) Reinstatement of certification.**

**131.9(1)** Any person whose certification to practice has been revoked or suspended may apply to the department for reinstatement in accordance with the terms and conditions of the order of revocation or suspension, unless the order of revocation provides that the certification is permanently revoked.

**131.9(2)** If the order of revocation or suspension did not establish terms and conditions upon which reinstatement might occur or if the certification was voluntarily surrendered, an initial application for reinstatement may not be made until one year has elapsed from the date of the order or the date of the voluntary surrender.

**131.9(3)** All proceedings for reinstatement shall be initiated by the respondent, who shall file with the department an application for reinstatement of the certification. Such application shall be docketed in the original case in which the certification was revoked, suspended, or relinquished. All proceedings upon the application for reinstatement shall be subject to the same rules of procedure as other cases before the department.

**131.9(4)** An application for reinstatement shall allege facts which, if established, will be sufficient to enable the department to determine that the basis for the revocation or suspension of the respondent's certification no longer exists and that it will be in the public interest for the certification to be reinstated. The burden of proof to establish such facts shall be on the respondent.

**131.9(5)** An order denying or granting reinstatement shall be based upon a decision which incorporates findings of facts and conclusions of law. The order shall be published as provided for in this chapter.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

#### **641—131.10(147A) Certification denial.**

**131.10(1)** An applicant who has been denied certification by the department may appeal the denial and request a hearing on the issues related to the licensure denial by serving a notice of appeal and request for hearing upon the department not more than 20 days following the date of mailing of the notification of certification denial to the applicant. The request for hearing shall specifically delineate the facts to be contested at hearing.

**131.10(2)** All hearings held pursuant to this rule shall be held pursuant to the process outlined in this chapter.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.11(147A) Emergency adjudicative proceedings.** To the extent necessary to prevent or avoid immediate danger to the public health, safety or welfare and consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18 to suspend a certificate in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order.

**131.11(1)** Before issuing an emergency adjudicative order, the department shall consider factors including, but not limited to, the following:

*a.* Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;

*b.* Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;

- c.* Whether the individual required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;
- d.* Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and
- e.* Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

**131.11(2) Issuance of order.**

*a.* An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action. The order is a public record.

*b.* The written emergency adjudicative order shall be immediately delivered to the individual who is required to comply with the order. Delivery shall be made by one or more of the following procedures:

- (1) Personal delivery.
- (2) Certified mail, return receipt requested, to the last address on file with the department.
- (3) Fax. Fax may be used as the sole method of delivery if the individual required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

*c.* To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

*d.* Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the individual who is required to comply with the order.

*e.* After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

*f.* Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the individual that is required to comply with the order is the party requesting the continuance.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

**641—131.12(147A) Complaints, investigations and appeals.**

**131.12(1)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**131.12(2)** All complaints regarding emergency medical care personnel, training programs or continuing education providers, or those purporting to be or operating as the same, shall be reported to the department in writing. The address is Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**131.12(3)** An emergency medical care provider who has knowledge of an emergency medical care provider or service program that has violated Iowa Code chapter 147A, 641—Chapter 132 or these rules shall report such information to the department.

**131.12(4)** Complaint investigations may result in the department's issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**131.12(5)** A determination of mental incompetence by a court of competent jurisdiction automatically suspends a certificate for the duration of the certificate unless the department orders otherwise.

**131.12(6)** Notice of denial, issuance of a citation and warning, probation, suspension or revocation shall be affected in accordance with the requirements of Iowa Code section 17A.12. Notice to the alleged violator of denial, probation, suspension or revocation shall be served by certified mail, return receipt requested, or by personal service.

**131.12(7)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice to take action. The address is Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**131.12(8)** Upon receipt of a request for hearing, the department shall forward the request within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**131.12(9)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10.

**131.12(10)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken as provided in subrule 131.12(11).

**131.12(11)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**131.12(12)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**131.12(13)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or by personal service.

**131.12(14)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**131.12(15)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**131.12(16)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**131.12(17)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, the news media or employer.

[ARC 9443B, IAB 4/6/11, effective 8/1/11]

CHAPTER 132  
EMERGENCY MEDICAL SERVICES—SERVICE PROGRAM AUTHORIZATION

[Joint Rules pursuant to 147A.4]

[Prior to 7/29/87, Health Department[470] Ch 132]

**641—132.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Advanced emergency medical technician*” or “*AEMT*” means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Advanced Emergency Medical Technician Instructional Guidelines (January 2009), has passed the National Registry of Emergency Medical Technicians (NREMT) practical and cognitive examinations for the AEMT, and is currently certified by the department as an AEMT.

“*Ambulance*” means any privately or publicly owned ground vehicle specifically designed, modified, constructed, equipped, staffed and used regularly to transport the sick, injured or otherwise incapacitated.

“*Ambulance service*” means any privately or publicly owned service program which utilizes ambulances in order to provide patient transportation and emergency medical services.

“*Automated defibrillator*” means any external semiautomatic device that determines whether defibrillation is required.

“*Automated external defibrillator*” or “*AED*” means an external semiautomated device that determines whether defibrillation is required.

“*CEH*” means “continuing education hour” which is based upon a minimum of 50 minutes of training per hour.

“*Continuous quality improvement (CQI)*” means a program that is an ongoing process to monitor standards at all EMS operational levels including the structure, process, and outcomes of the patient care event.

“*CPR*” means training and successful course completion in cardiopulmonary resuscitation, AED and obstructed airway procedures for all age groups according to recognized national standards.

“*Critical care paramedic*” or “*CCP*” means a currently certified paramedic specialist or paramedic who has successfully completed a critical care course of instruction approved by the department and has received endorsement from the department as a critical care paramedic.

“*Critical care transport*” or “*CCT*” means specialty care patient transportation, when medically necessary for a critically ill or injured patient needing critical care paramedic skills, provided by an authorized ambulance service that is approved by the department to provide critical care transportation and staffed by one or more critical care paramedics or other health care professional in an appropriate specialty area.

“*Current course completion*” means written recognition given for training and successful course completion of CPR with an expiration date or a recommended renewal date that exceeds the current date.

“*Deficiency*” means noncompliance with Iowa Code chapter 147A or these rules.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Direct supervision*” means services provided by an EMS provider in a hospital setting or other health care entity in which health care is ordinarily performed when in the personal presence of a physician or under the direction of a physician who is immediately available or under the direction of a physician assistant or registered nurse who is immediately available and is acting consistent with adopted policies and protocols of a hospital or other health care entity.

“*Emergency medical care*” means such medical procedures as:

1. Administration of intravenous solutions.
2. Intubation.
3. Performance of cardiac defibrillation and synchronized cardioversion.
4. Administration of emergency drugs as provided by protocol.
5. Any medical procedure authorized by 641—subrule 131.3(3).

*“Emergency medical care provider”* means an individual who has been trained to provide emergency and nonemergency medical care at the EMR, EMT, AEMT, paramedic or other certification levels recognized by the department before 2011 and who has been issued a certificate by the department.

*“Emergency medical responder”* or *“EMR”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Emergency Medical Responder Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the EMR, and is currently certified by the department as an EMR.

*“Emergency medical services”* or *“EMS”* means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

*“Emergency medical technician”* or *“EMT”* means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Emergency Medical Technician Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the EMT, and is currently certified by the department as an EMT.

*“Emergency medical technician-basic (EMT-B)”* means an individual who has successfully completed the current United States Department of Transportation’s Emergency Medical Technician-Basic curriculum and department enhancements, passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-B.

*“Emergency medical technician-intermediate (EMT-I)”* means an individual who has successfully completed an EMT-intermediate curriculum approved by the department, passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-I.

*“Emergency medical technician-paramedic”* or *“EMT-P”* means an individual who has successfully completed the United States Department of Transportation’s EMT-Intermediate (1999) or the 1985 or earlier DOT EMT-P curriculum, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-P.

*“Emergency medical transportation”* means the transportation, by ambulance, of sick, injured or otherwise incapacitated persons who require emergency medical care.

*“EMS advisory council”* means a council appointed by the director to advise the director and develop policy recommendations concerning regulation, administration, and coordination of emergency medical services in the state.

*“EMS contingency plan”* means an agreement or dispatching policy between two or more ambulance service programs that addresses how and under what circumstances patient transportation will be provided in a given service area when coverage is not possible due to unforeseen circumstances.

*“EMS system”* is any specific arrangement of emergency medical personnel, equipment, and supplies designed to function in a coordinated fashion.

*“Endorsement”* means an approval granted by the department authorizing an individual to serve as an EMS-I, EMS-E or CCP.

*“First responder (FR)”* means an individual who has successfully completed the current United States Department of Transportation’s First Responder curriculum and department enhancements, passed the department’s approved written and practical examinations, and is currently certified by the department as an FR.

*“First response vehicle”* means any privately or publicly owned vehicle which is used solely for the transportation of emergency medical care personnel and equipment to and from the scene of a medical or nonmedical emergency.

*“Hospital”* means any hospital licensed under the provisions of Iowa Code chapter 135B.

*“Inclusion criteria”* means criteria determined by the department and adopted by reference to determine which patients are to be included in the Iowa EMS service program registry or the trauma registry.

*“Intermediate”* means an emergency medical technician-intermediate.

*“Iowa EMS Patient Registry Data Dictionary”* means reportable data elements for all ambulance service responses and definitions determined by the department and adopted by reference.

“*Medical direction*” means direction, advice, or orders provided by a medical director, supervising physician, or physician designee (in accordance with written parameters and protocols) to emergency medical care personnel.

“*Medical director*” means any physician licensed under Iowa Code chapter 148, 150, or 150A who shall be responsible for overall medical direction of the service program and who has completed a medical director workshop, sponsored by the department, within one year of assuming duties.

“*Mutual aid*” means an agreement, preferably in writing, between two or more services that addresses how and under what circumstances each service will respond to a request for assistance in situations that exhaust available resources.

“*Nonemergency transportation*” means transportation that may be provided for those persons determined to need transportation only.

“*Nontransport service*” means any privately or publicly owned rescue or first response service program which does not provide patient transportation (except when no ambulance is available or in a disaster situation) and utilizes only rescue or first response vehicles to provide emergency medical care at the scene of an emergency.

“*Off-line medical direction*” means the monitoring of EMS providers through retrospective field assessments and treatment documentation review, critiques of selected cases with the EMS personnel, and statistical review of the system.

“*On-line medical direction*” means immediate medical direction provided directly to service program EMS providers, in accordance with written parameters and protocols, by the medical director, supervising physician or physician designee either on-scene or by any telecommunications system.

“*Paramedic*” means an individual who has successfully completed a course of study based on the United States Department of Transportation’s Paramedic Instructional Guidelines (January 2009), has passed the NREMT practical and cognitive examinations for the paramedic, and is currently certified by the department as a paramedic.

“*Paramedic specialist (PS)*” means an individual who has successfully completed the current United States Department of Transportation’s EMT-Paramedic curriculum or equivalent, passed the department’s approved written and practical examinations, and is currently certified by the department as a paramedic specialist.

“*Patient*” means any individual who is sick, injured, or otherwise incapacitated.

“*Patient care report (PCR)*” means a computerized or written report that documents the assessment and management of the patient by the emergency care provider in the out-of-hospital setting.

“*Physician*” means any individual licensed under Iowa Code chapter 148, 150, or 150A.

“*Physician assistant (PA)*” means an individual licensed pursuant to Iowa Code chapter 148C.

“*Physician designee*” means any registered nurse licensed under Iowa Code chapter 152, or any physician assistant licensed under Iowa Code chapter 148C and approved by the board of physician assistant examiners. The physician designee acts as an intermediary for a supervising physician in accordance with written policies and protocols in directing the care provided by emergency medical care providers.

“*Preceptor*” means an individual who has been assigned by the training program, clinical facility or service program to supervise students while the students are completing their clinical or field experience. A preceptor must be an emergency medical care provider certified at the level being supervised or higher, or must be licensed as a registered nurse, physician’s assistant or physician.

“*Protocols*” means written directions and orders, consistent with the department’s standard of care, that are to be followed by an emergency medical care provider in emergency and nonemergency situations. Protocols must be approved by the service program’s medical director and address the care of both adult and pediatric patients.

“*Registered nurse (RN)*” means an individual licensed pursuant to Iowa Code chapter 152.

“*Reportable patient data*” means data elements and definitions determined by the department and adopted by reference to be reported to the Iowa EMS service program registry or the trauma registry or a trauma care facility on patients meeting the inclusion criteria.

“*Rescue vehicle*” means any privately or publicly owned vehicle which is specifically designed, modified, constructed, equipped, staffed and used regularly for rescue or extrication purposes at the scene of a medical or nonmedical emergency.

“*Service director*” means an individual who is responsible for the operation and administration of a service program.

“*Service program*” or “*service*” means any medical care ambulance service or nontransport service that has received authorization by the department.

“*Service program area*” means the geographic area of responsibility served by any given ambulance or nontransport service program.

“*Student*” means any individual enrolled in a training program and participating in the didactic, clinical, or field experience portions.

“*Supervising physician*” means any physician licensed under Iowa Code chapter 148, 150, or 150A. The supervising physician is responsible for medical direction of emergency medical care personnel when such personnel are providing emergency medical care.

“*Tiered response*” means a rendezvous of service programs to allow the transfer of patient care.

“*Training program*” means an NCA-approved Iowa college, the Iowa law enforcement academy or an Iowa hospital approved by the department to conduct emergency medical care training.

“*Transport agreement*” means a written agreement between two or more service programs that specifies the duties and responsibilities of the agreeing parties to ensure appropriate transportation of patients in a given service area.

[ARC 8661B, IAB 4/7/10, effective 5/12/10; ARC 9357B, IAB 2/9/11, effective 3/16/11; ARC 0063C, IAB 4/4/12, effective 5/9/12]

#### **641—132.2(147A) Authority of emergency medical care provider.**

**132.2(1)** Rescinded IAB 2/7/01, effective 3/14/01.

**132.2(2)** An emergency medical care provider who holds an active certification issued by the department may:

*a.* Render via on-line medical direction emergency and nonemergency medical care in those areas for which the emergency medical care provider is certified, as part of an authorized service program:

- (1) At the scene of an emergency;
- (2) During transportation to a hospital;
- (3) While in the hospital emergency department;
- (4) Until patient care is directly assumed by a physician or by authorized hospital personnel; and
- (5) During transfer from one medical care facility to another or to a private home.

*b.* Function in any hospital or any other entity in which health care is ordinarily provided only when under the direct supervision of a physician when:

- (1) Enrolled as a student in and approved by a training program;
- (2) Fulfilling continuing education requirements;
- (3) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician as a member of an authorized service program, or in an individual capacity, by rendering lifesaving services in the facility in which employed or assigned pursuant to the emergency medical care provider’s certification and under direct supervision of a physician, physician assistant, or registered nurse. An emergency medical care provider shall not routinely function without the direct supervision of a physician, physician assistant, or registered nurse. However, when the physician, physician assistant, or registered nurse cannot directly assume emergency care of the patient, the emergency medical care personnel may perform, without direct supervision, emergency medical care procedures for which certified, if the life of the patient is in immediate danger and such care is required to preserve the patient’s life;

(4) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician, as a member of an authorized service program, or in an individual capacity, to perform nonlifesaving procedures for which certified and designated in a written job description. Such procedures may be performed after the patient is observed by and when the emergency medical care provider is under the supervision of the physician, physician assistant, or

registered nurse, including when the registered nurse is not acting in the capacity of a physician designee, and where the procedure may be immediately abandoned without risk to the patient.

**132.2(3)** When emergency medical care personnel are functioning in a capacity identified in subrule 132.2(2), paragraph “a,” they may perform emergency and nonemergency medical care without contacting a supervising physician or physician designee if written protocols have been approved by the service program medical director which clearly identify when the protocols may be used in lieu of voice contact.

**132.2(4)** Scope of practice.

*a.* Emergency medical care providers shall provide only those services and procedures as are authorized within the scope of practice for which they are certified.

*b.* Scope of Practice for Iowa EMS Providers (June 2016) is hereby incorporated and adopted by reference for emergency medical care providers. For any differences that may occur between the Scope of Practice adopted by reference and these administrative rules, the administrative rules shall prevail.

*c.* The department may grant a variance for changes to the Scope of Practice that have not yet been adopted by these rules. A variance to these rules may be granted by the department pursuant to 132.14(1).

*d.* Scope of Practice for Iowa EMS Providers is available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**132.2(5)** The department may approve other emergency medical care skills on a limited pilot project basis. Requests for a pilot project application shall be made to the department.

**132.2(6)** An emergency medical care provider who has knowledge of an emergency medical care provider, service program or training program that has violated Iowa Code chapter 147A or these rules shall report such information to the department within 30 days.

[ARC 8230B, IAB 10/7/09, effective 11/11/09; ARC 0063C, IAB 4/4/12, effective 5/9/12; ARC 0480C, IAB 12/12/12, effective 1/16/13; ARC 1404C, IAB 4/2/14, effective 5/7/14; ARC 2278C, IAB 12/9/15, effective 1/13/16; ARC 2767C, IAB 10/12/16, effective 11/16/16]

**641—132.3(147A) Emergency medical care providers—requirements for enrollment in training programs.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.4(147A) Emergency medical care providers—certification, renewal standards and procedures, and fees.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.5(147A) Training programs—standards, application, inspection and approval.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.6(147A) Continuing education providers—approval, record keeping and inspection.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.7(147A) Service program—authorization and renewal procedures, inspections and transfer or assignment of certificates of authorization.**

**132.7(1)** *General requirements for authorization and renewal of authorization.*

*a.* An ambulance or nontransport service in this state that desires to provide emergency medical care, in the out-of-hospital setting, shall apply to the department for authorization to establish a program utilizing certified emergency medical care providers for delivery of care at the scene of an emergency or nonemergency, during transportation to a hospital, during transfer from one medical care facility to another or to a private home, or while in the hospital emergency department and until care is directly assumed by a physician or by authorized hospital personnel. Application for authorization shall be made on forms provided by the department. Applicants shall complete and submit the forms to the department at least 30 days prior to the anticipated date of authorization.

b. To renew service program authorization, the service program shall continue to meet the requirements of Iowa Code chapter 147A and these rules. The renewal application shall be completed and submitted to the department at least 30 days before the current authorization expires.

c. Applications for authorization and renewal of authorization may be obtained upon request to: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

d. The department shall approve an application when the department is satisfied that the program proposed by the application will be operated in compliance with Iowa Code chapter 147A and these administrative rules.

e. Service program authorization is valid for a period of three years from its effective date unless otherwise specified on the certificate of authorization or unless sooner suspended or revoked.

f. Service programs shall be fully operational upon the effective date and at the level specified on the certificate of authorization and shall meet all applicable requirements of Iowa Code chapter 147A and these rules. Deficiencies that are identified shall be corrected within a time frame determined by the department.

g. The certificate of authorization shall be issued to the service program based in the city named in the application. Any ambulance service or nontransport service that operates from more than one city shall apply for and, if approved, shall receive an inclusive authorization for each city of operation that is listed in the application.

h. Any service program owner in possession of a certificate of authorization as a result of transfer or assignment shall continue to meet all applicable requirements of Iowa Code chapter 147A and these rules. In addition, the new owner shall apply to the department for a new certificate of authorization within 30 days following the effective date of the transfer or assignment.

i. Service programs that acquire and maintain current status with a nationally recognized EMS service program accreditation entity that meets or exceeds Iowa requirements may be exempted from the service application/inspection process. A copy of the state service application and accreditation inspection must be filed with the department for approval.

**132.7(2) *Out-of-state service programs.***

a. Service programs located in other states which wish to provide emergency medical care in Iowa must meet all requirements of Iowa Code chapter 147A and these rules and must be authorized by the department except when:

- (1) Transporting patients from locations within Iowa to destinations outside of Iowa;
- (2) Transporting patients from locations outside of Iowa to destinations within Iowa;
- (3) Transporting patients to or from locations outside of Iowa that requires travel through Iowa;
- (4) Responding to a request for mutual aid in this state; or
- (5) Making an occasional EMS response to locations within Iowa and then transporting the patients to destinations within Iowa.

b. An out-of-state service program that meets any of the exception criteria established in 132.7(2) shall be authorized to provide emergency medical care by the state in which the program resides and shall provide the department with verification of current state authorization upon request.

**132.7(3) *Air ambulances.*** Rescinded IAB 4/7/10, effective 5/12/10.

**132.7(4) *Service program inspections.***

a. The department shall inspect each service program at least once every three years. The department without prior notification may make additional inspections at times, places and under such circumstances as it deems necessary to ensure compliance with Iowa Code chapter 147A and these rules.

b. The department may request additional information from or may inspect the records of any service program which is currently authorized or which is seeking authorization to ensure continued compliance or to verify the validity of any information presented on the application for service program authorization.

c. The department may inspect the patient care records of a service program to verify compliance with Iowa Code chapter 147A and these rules.

*d.* No person shall interfere with the inspection activities of the department or its agents pursuant to Iowa Code section 135.36.

*e.* Interference with or failure to allow an inspection by the department or its agents may be cause for disciplinary action in reference to service program authorization.

**132.7(5) Temporary service program authorization.**

*a.* A temporary service program authorization may be issued to services that wish to operate during special events that may need emergency medical care coverage. Temporary authorization is valid for a period of 30 days unless otherwise specified on the certificate of authorization or unless sooner suspended or revoked. Temporary authorization shall apply to those requirements and standards for which the department is responsible. Applicants shall complete and submit the necessary forms to the department at least 30 days prior to the anticipated date of need.

*b.* The service shall meet applicable requirement of these rules, but may apply for a variance using the criteria outlined in rule 641—132.14(147A).

*c.* The service shall submit a justification which demonstrates the need for the temporary service program authorization.

*d.* The service shall submit a report, to the department, within 30 days after the expiration of the temporary authorization which includes as a minimum:

- (1) Number of patients treated;
- (2) Types of treatment rendered;
- (3) Any operational or medical problems.

**132.7(6) Conditional service program authorization.** Rescinded IAB 2/6/02, effective 3/13/02.  
[ARC 8661B, IAB 4/7/10, effective 5/12/10; ARC 9357B, IAB 2/9/11, effective 3/16/11]

**641—132.8(147A) Service program levels of care and staffing standards.**

**132.8(1)** A service program seeking ambulance authorization shall:

*a.* Apply for authorization at one of the following levels:

- (1) EMT-B/EMT.
- (2) EMT-I.
- (3) AEMT.
- (4) EMT-P.
- (5) PS/Paramedic.

*b.* Maintain an adequate number of ambulances and personnel to provide 24-hour-per-day, 7-day-per-week coverage. Ambulances shall comply with paragraph 132.8(1)“*d.*” The number of ambulances and personnel to be maintained shall be determined by the department, and shall be based upon, but not limited to, the following:

- (1) Number of calls;
- (2) Service area and population; and
- (3) Availability of other services in the area.

*c.* Provide as a minimum, on each ambulance call, the following staff:

(1) One currently certified EMT-B or EMT.  
(2) One currently licensed driver. The service shall document each driver’s training in CPR (AED training not required).

*d.* Submit an EMS contingency plan that will be put into operation when coverage pursuant to the 24/7 rule in paragraph 132.8(1)“*b*” is not possible due to unforeseen circumstances.

*e.* Report frequency of use of the contingency plan to the department upon request.

*f.* Seek approval from the department to provide nontransport coverage in addition to or in lieu of ambulance authorization.

*g.* Advertise or otherwise imply or hold itself out to the public as an authorized ambulance service only to the level of care maintained 24 hours per day, seven days a week.

*h.* Apply to the department to receive approval to provide critical care transportation based upon appropriately trained staff and approved equipment.

*i.* Unless otherwise established by protocol approved by the medical director, the emergency medical care provider with the highest level of certification (on the transporting service) shall attend the patient.

**132.8(2)** A service program seeking nontransport authorization shall:

*a.* Apply for authorization at one of the following levels:

- (1) First responder/EMR.
- (2) EMT-B/EMT.
- (3) EMT-I.
- (4) AEMT.
- (5) EMT-P.
- (6) PS/Paramedic.

*b.* For staffing purposes provide, as a minimum, a transport agreement.

*c.* Advertise or otherwise hold itself out to the public as an authorized nontransport service program only to the level of care maintained 24 hours per day, seven days a week.

*d.* Not be prohibited from transporting patients in an emergency situation when lack of transporting resources would cause an unnecessary delay in patient care.

**132.8(3)** Service program operational requirements. Ambulance and nontransport service programs shall:

*a.* Complete and maintain a patient care report concerning the care provided to each patient. Ambulance services shall provide, at a minimum, a PCR verbal report upon delivery of a patient to a receiving facility and shall provide a complete PCR within 24 hours to the receiving facility.

*b.* Utilize department protocols as the standard of care. The service program medical director may make changes to the department protocols provided the changes are within the EMS provider's scope of practice and within acceptable medical practice. A copy of the changes shall be filed with the department.

*c.* Ensure that personnel duties are consistent with the level of certification and the service program's level of authorization.

*d.* Maintain current personnel rosters and personnel files. The files shall include the names and addresses of all personnel and documentation that verifies EMS provider credentials including, but not limited to:

(1) Current provider level certification.

(2) Current course completions/certifications/endorsements as may be required by the medical director.

(3) PA and RN exception forms for appropriate personnel and verification that PA and RN personnel have completed the appropriate EMS level continuing education.

*e.* If requested by the department, notify the department in writing of any changes in personnel rosters.

*f.* Have a medical director and 24-hour-per-day, 7-day-per-week on-line medical direction available.

*g.* Ensure that the appropriate service program personnel respond as required in this rule and that they respond in a reasonable amount of time.

*h.* Notify the department in writing within seven days of any change in service director or ownership or control or of any reduction or discontinuance of operations.

*i.* Select a new or temporary medical director if for any reason the current medical director cannot or no longer wishes to serve in that capacity. Selection shall be made before the current medical director relinquishes the duties and responsibilities of that position.

*j.* Within seven days of any change of medical director, notify the department in writing of the selection of the new or temporary medical director who must have indicated in writing a willingness to serve in that capacity.

*k.* Not prevent a registered nurse or physician assistant from supplementing the staffing of an authorized service program provided equivalent training is documented pursuant to Iowa Code sections 147A.12 and 147A.13.

*l.* Not be authorized to utilize a manual defibrillator (except paramedic, paramedic specialist).

*m.* Implement a continuous quality improvement program that provides a policy to include as a minimum:

- (1) Medical audits.
- (2) Skills competency.
- (3) Follow-up (loop closure/resolution).

*n.* Require physician assistants and registered nurses providing care pursuant to Iowa Code sections 147A.12 and 147A.13 to meet CEH requirements approved by the medical director.

*o.* Document an equipment maintenance program to ensure proper working condition and appropriate quantities.

*p.* Ensure a response to requests for assistance when dispatched by a public safety answering point within the primary service area identified in the service program's authorization application.

*q.* Submit reportable patient data identified in subrule 132.8(7) via electronic transfer. Data shall be submitted in a format approved by the department.

*r.* Submit reportable patient data identified in subrule 132.8(7) to the department for each calendar quarter. Reportable patient data shall be submitted no later than 90 days after the end of the quarter.

*s.* Ensure that any member of the service driving a service's first response vehicle, ambulance, or rescue vehicle or a personal vehicle when responding as a member of the service has documented training in emergency driving techniques and in the use of the service's communications equipment. Training in emergency driving techniques shall include:

- (1) A review of Iowa laws regarding emergency vehicle operations.
- (2) A review of the service program's driving policy for first response vehicles, ambulances, rescue vehicles or personal vehicles when used by a service member responding as a member of the service.

The policy shall include, at a minimum:

1. Frequency and content of driver's training requirements.
2. Criteria for response with lights or sirens or both.
3. Speed limits when responding with lights or sirens or both.
4. Procedure for approaching intersections with lights or sirens or both.
5. Notification process in the event of a motor vehicle collision involving a first response vehicle, ambulance, rescue vehicle or personal vehicle when used by a service member responding as a member of the service.

(3) Behind-the-wheel driving of the service's first response vehicles, ambulances and rescue vehicles.

**132.8(4)** Equipment and vehicle standards. The following standards shall apply:

*a.* Ambulances placed into service after July 1, 2002, shall meet, as a minimum, the National Truck and Equipment Association's Ambulance Manufacture Division (AMD) performance specifications.

*b.* All EMS service programs shall carry equipment and supplies in quantities as determined by the medical director and appropriate to the service program's level of care and available certified EMS personnel and as established in the service program's approved protocols.

*c.* Pharmaceutical drugs and over-the-counter drugs may be carried and administered upon completion of training and pursuant to the service program's established protocols approved by the medical director.

*d.* All drugs shall be maintained in accordance with the rules of the state board of pharmacy examiners.

*e.* Accountability for drug exchange, distribution, storage, ownership, and security shall be subject to applicable state and federal requirements. The method of accountability shall be described in the written pharmacy agreement. A copy of the written pharmacy agreement shall be submitted to the department.

*f.* Each ambulance service program shall maintain a telecommunications system between the emergency medical care provider and the source of the service program's medical direction and other appropriate entities. Nontransport service programs shall maintain a telecommunications system between the emergency medical care provider and the responding ambulance service and other appropriate entities.

*g.* All telecommunications shall be conducted in an appropriate manner and on a frequency approved by the Federal Communications Commission and the department.

**132.8(5)** Preventative maintenance. Each ambulance service program shall document a preventative maintenance program to make certain that:

*a.* Vehicles are fully equipped and maintained in a safe operating condition. In addition:

(1) All ground ambulances shall be housed in a garage or other facility that prevents engine, equipment and supply freeze-up and windshield icing. An unobstructed exit to the street shall also be maintained;

(2) The garage or other facility shall be adequately heated or each response vehicle shall have permanently installed auxiliary heating units to sufficiently heat the engine and patient compartment; and

(3) The garage or other facility shall be maintained in a clean, safe condition free of debris or other hazards.

*b.* The exterior and interior of the vehicles are kept clean. The interior and equipment shall be cleaned after each use as necessary. When a patient with a communicable disease has been transported or treated, the interior and any equipment or nondisposable supplies coming in contact with the patient shall be thoroughly disinfected.

*c.* All equipment stored in a patient compartment is secured so that, in the event of a sudden stop or movement of the vehicle, the patient and service program personnel are not injured by moving equipment.

*d.* All airway, electrical and mechanical equipment is kept clean and in proper operating condition.

*e.* Compartments provided within the vehicles and the medical and other supplies stored therein are kept in a clean and sanitary condition.

*f.* All linens, airway and oxygen equipment or any other supplies or equipment coming in direct patient contact is of a single-use disposable type or cleaned, laundered or disinfected prior to reuse.

*g.* Freshly laundered blankets and linen or disposable linens are used on cots and pillows and are changed after each use.

*h.* Proper storage is provided for clean linen.

*i.* Soiled supplies shall be appropriately disposed of according to current biohazard practices.

**132.8(6)** Service program—incident and accident reports.

*a.* Incidents of fire or other destructive or damaging occurrences or theft of a service program ambulance, equipment, or drugs shall be reported to the department within 48 hours following the occurrence of the incident.

*b.* A copy of the motor vehicle accident report required under Iowa Code subsection 321.266(2), relating to the reporting of an accident resulting in personal injury, death or property damage, shall be submitted to the department within seven days following an accident involving a service program vehicle.

*c.* A service program must report the termination of an emergency medical care provider due to negligence, professional incompetency, unethical conduct or substance use to the department within ten days following the termination.

**132.8(7)** Adoption by reference. The Iowa EMS Patient Registry Data Dictionary identified in 641—paragraph 136.2(1)“*c*” is adopted and incorporated by reference for inclusion criteria and reportable patient data. For any differences which may occur between the adopted reference and this chapter, the administrative rules shall prevail.

*a.* The Iowa EMS Patient Registry Data Dictionary identified in 641—paragraph 136.2(1)“*c*” is available through the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the EMS bureau Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

*b.* The department shall prepare compilations for release or dissemination on all reportable patient data entered into the EMS service program registry during the reporting period. The compilations shall include, but not be limited to, trends and patient care outcomes for local, regional, and statewide evaluations. The compilations shall be made available to all service programs submitting reportable patient data to the registry.

*c.* Access and release of reportable patient data and information.

(1) The data collected by and furnished to the department pursuant to this subrule are confidential records of the condition, diagnosis, care, or treatment of patients or former patients, including outpatients, pursuant to Iowa Code section 22.7. The compilations prepared for release or dissemination from the data collected are not confidential under Iowa Code section 22.7, subsection 2. However, information which individually identifies patients shall not be disclosed, and state and federal law regarding patient confidentiality shall apply.

(2) The department may approve requests for reportable patient data for special studies and analysis provided the request has been reviewed and approved by the deputy director of the department with respect to the scientific merit and confidentiality safeguards, and the department has given administrative approval for the proposal. The confidentiality of patients and the EMS service program shall be protected.

(3) The department may require entities requesting the data to pay any or all of the reasonable costs associated with furnishing the reportable patient data.

*d.* To the extent possible, activities under this subrule shall be coordinated with other health data collection methods.

*e.* Quality assurance.

(1) For the purpose of ensuring the completeness and quality of reportable patient data, the department or authorized representative may examine all or part of the patient care report as necessary to verify or clarify all reportable patient data submitted by a service program.

(2) Review of a patient care report by the department shall be scheduled in advance with the service program and completed in a timely manner.

*f.* The director, pursuant to Iowa Code section 147A.4, may grant a variance from the requirements of these rules for any service program, provided that the variance is related to undue hardships in complying with this chapter.

**132.8(8)** The patient care report is a confidential document and shall be exempt from disclosure pursuant to Iowa Code subsection 22.7(2) and shall not be accessible to the general public. Information contained in these reports, however, may be utilized by any of the indicated distribution recipients and may appear in any document or public health record in a manner which prevents the identification of any patient or person named in these reports.

**132.8(9)** Implementation. The director may grant exceptions and variances from the requirements of this chapter for any ambulance or nontransport service. Exceptions or variations shall be reasonably related to undue hardships which existing services experience in complying with this chapter. Services requesting exceptions and variances shall be subject to other applicable rules adopted pursuant to Iowa Code chapter 147A.

[ARC 8661B, IAB 4/7/10, effective 5/12/10; ARC 9357B, IAB 2/9/11, effective 3/16/11; ARC 9444B, IAB 4/6/11, effective 5/11/11; ARC 0063C, IAB 4/4/12, effective 5/9/12; ARC 2391C, IAB 2/3/16, effective 3/9/16]

#### **641—132.9(147A) Service program—off-line medical direction.**

**132.9(1)** The medical director shall be responsible for providing appropriate medical direction and overall supervision of the medical aspects of the service program and shall ensure that those duties and responsibilities are not relinquished before a new or temporary replacement is functioning in that capacity.

**132.9(2)** The medical director's duties include, but need not be limited to:

*a.* Developing, approving and updating protocols to be used by service program personnel that meet or exceed the minimum standard protocols developed by the department.

*b.* Developing and maintaining liaisons between the service, other physicians, physician designees, hospitals, and the medical community served by the service program.

*c.* Monitoring and evaluating the activities of the service program and individual personnel performance, including establishment of measurable outcomes that reflect the goals and standards of the EMS system.

*d.* Assessing the continuing education needs of the service and individual service program personnel and assisting them in the planning of appropriate continuing education programs.

- e.* Being available for individual evaluation and consultation to service program personnel.
- f.* Performing or appointing a designee to complete the medical audits required in subrule 132.9(4).
- g.* Developing and approving an applicable continuous quality improvement policy demonstrating type and frequency of review, including an action plan and follow-up.
- h.* Informing the medical community of the emergency medical care being provided according to approved protocols in the service program area.
- i.* Helping to resolve service operational problems.
- j.* Approving or removing an individual from service program participation.

**132.9(3)** Supervising physicians, physician designees, or other appointees as defined in the continuous quality improvement policy referenced in 132.9(2) "g" may assist the medical director by:

- a.* Providing medical direction.
- b.* Reviewing the emergency medical care provided.
- c.* Reviewing and updating protocols.
- d.* Providing and assessing continuing education needs for service program personnel.
- e.* Helping to resolve operational problems.

**132.9(4)** The medical director or other qualified designees shall randomly audit (at least quarterly) documentation of calls where emergency medical care was provided. The medical director shall randomly review audits performed by the qualified appointee. The audit shall be in writing and shall include, but need not be limited to:

- a.* Reviewing the patient care provided by service program personnel and remedying any deficiencies or potential deficiencies that may be identified regarding medical knowledge or skill performance.
- b.* Response time and time spent at the scene.
- c.* Overall EMS system response to ensure that the patient's needs were matched to available resources including, but not limited to, mutual aid and tiered response.
- d.* Completeness of documentation.

**132.9(5)** Rescinded IAB 2/6/02, effective 3/13/02.

**132.9(6)** On-line medical direction when provided through a hospital.

*a.* The medical director shall designate in writing at least one hospital which has established a written on-line medical direction agreement with the department. It shall be the medical director's responsibility to notify the department in writing of changes regarding this designation.

*b.* Hospitals signing an on-line medical direction agreement shall:

- (1) Ensure that the supervising physicians or physician designees will be available to provide on-line medical direction via telecommunications on a 24-hour-per-day basis.
- (2) Identify the service programs for which on-line medical direction will be provided.
- (3) Establish written protocols for use by supervising physicians and physician designees who provide on-line medical direction.

(4) Administer a quality assurance program to review orders given. The program shall include a mechanism for the hospital and service program medical directors to discuss and resolve any identified problems.

*c.* A hospital which has a written medical direction agreement with the department may provide medical direction for any or all service program authorization levels and may also agree to provide backup on-line medical direction for any other service program when that service program is unable to contact its primary source of on-line medical direction.

*d.* Only supervising physicians or physician designees shall provide on-line medical direction. A physician assistant, registered nurse or emergency medical care provider (of equal or higher level) may relay orders to emergency medical care personnel, without modification, from a supervising physician. A physician designee may not deviate from approved protocols.

*e.* The hospital shall provide, upon request to the department, a list of supervising physicians and physician designees providing on-line medical direction.

*f.* Rescinded IAB 2/6/02, effective 3/13/02.

*g.* The department may verify a hospital's communications system to ensure compliance with the on-line medical direction agreement.

*h.* A supervising physician or physician designee who gives orders (directly or via communications equipment from some other point) to an emergency medical care provider is not subject to criminal liability by reason of having issued the orders and is not liable for civil damages for acts or omissions relating to the issuance of the orders unless the acts or omissions constitute recklessness.

*i.* Nothing in these rules requires or obligates a hospital, supervising physician or physician designee to approve requests for orders received from emergency medical care personnel.

NOTE: Hospitals in other states may participate provided the applicable requirements of this subrule are met.

[ARC 0063C, IAB 4/4/12, effective 5/9/12]

**641—132.10(147A) Complaints and investigations—denial, citation and warning, probation, suspension or revocation of service program authorization or renewal.**

**132.10(1)** All complaints regarding the operation of authorized emergency medical care service programs, or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**132.10(2)** Complaints and the investigative process will be treated as confidential in accordance with Iowa Code section 22.7.

**132.10(3)** Service program authorization may be denied, issued a civil penalty not to exceed \$1000, issued a citation and warning, placed on probation, suspended, revoked, or otherwise disciplined by the department in accordance with Iowa Code subsection 147A.5(3) for any of the following reasons:

- a.* Knowingly allowing the falsifying of a patient care report (PCR).
- b.* Failure to submit required reports and documents.
- c.* Delegating professional responsibility to a person when the service program knows that the person is not qualified by training, education, experience or certification to perform the required duties.
- d.* Practicing, condoning, or facilitating discrimination against a patient, student or employee based on race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, mental or physical disability diagnosis, or social or economic status.
- e.* Knowingly allowing sexual harassment of a patient, student or employee. Sexual harassment includes sexual advances, sexual solicitations, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- f.* Failure or repeated failure of the applicant or alleged violator to meet the requirements or standards established pursuant to Iowa Code chapter 147A or the rules adopted pursuant to that chapter.
- g.* Obtaining or attempting to obtain or renew or retain service program authorization by fraudulent means or misrepresentation or by submitting false information.
- h.* Engaging in conduct detrimental to the well-being or safety of the patients receiving or who may be receiving emergency medical care.
- i.* Failure to correct a deficiency within the time frame required by the department.

**132.10(4)** The department shall notify the applicant of the granting or denial of authorization or renewal, or shall notify the alleged violator of action to issue a citation and warning, place on probation or suspend or revoke authorization or renewal pursuant to Iowa Code sections 17A.12 and 17A.18. Notice of issuance of a denial, citation and warning, probation, suspension or revocation shall be served by restricted certified mail, return receipt requested, or by personal service.

**132.10(5)** Any requests for appeal concerning the denial, citation and warning, probation, suspension or revocation of service program authorization or renewal shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If such a request is made within the 20-day time period, the notice shall be deemed to be suspended. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial,

citation and warning, probation, suspension or revocation has been or will be removed. After the hearing, or upon default of the applicant or alleged violator, the administrative law judge shall affirm, modify or set aside the denial, citation and warning, probation, suspension or revocation. If no request for appeal is received within the 20-day time period, the department's notice of denial, probation, suspension or revocation shall become the department's final agency action.

**132.10(6)** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**132.10(7)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10.

**132.10(8)** When the administrative law judge makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken as provided in subrule 132.10(9).

**132.10(9)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**132.10(10)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections, and rulings thereon.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**132.10(11)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

**132.10(12)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**132.10(13)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Bureau of Emergency Medical Services, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**132.10(14)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**132.10(15)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, the news media or employer.

**132.10(16)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**132.10(17)** Emergency adjudicative proceedings.

a. Necessary emergency action. To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18 to suspend a

certificate in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order.

*b.* Before issuing an emergency adjudicative order, the department shall consider factors including, but not limited to, the following:

(1) Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;

(2) Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;

(3) Whether the program required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;

(4) Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and

(5) Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

*c.* Issuance of order.

(1) An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action. The order is a public record.

(2) The written emergency adjudicative order shall be immediately delivered to the service program that is required to comply with the order by utilizing one or more of the following procedures:

1. Personal delivery.

2. Certified mail, return receipt requested, to the last address on file with the department.

3. Fax. Fax may be used as the sole method of delivery if the service program required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

(3) To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

(4) Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the service program that is required to comply with the order.

(5) After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

(6) Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the service program that is required to comply with the order is the party requesting the continuance.

[ARC 8661B, IAB 4/7/10, effective 5/12/10]

**641—132.11(147A) Complaints and investigations—denial, citation and warning, probation, suspension, or revocation of emergency medical care personnel certificates or renewal.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.12(147A) Complaints and investigations—denial, citation and warning, probation, suspension, or revocation of training program or continuing education provider approval or renewal.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.13(147A) Complaints, investigations and appeals.** Rescinded IAB 2/9/00, effective 3/15/00.

**641—132.14(147A) Temporary variances.**

**132.14(1)** If during a period of authorization there is some occurrence that temporarily causes a service program to be in noncompliance with these rules, the department may grant a temporary variance. Temporary variances to these rules (not to exceed six months in length per any approved request) may be granted by the department to a currently authorized service program. Requests for temporary variances shall apply only to the service program requesting the variance and shall apply only to those requirements and standards for which the department is responsible.

**132.14(2)** To request a variance, the service program shall:

*a.* Notify the department verbally (as soon as possible) of the need to request a temporary variance. Submit to the department, within ten days after having given verbal notification to the department, a written explanation for the temporary variance request. The address and telephone number are Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075; (515)725-0326.

*b.* Cite the rule from which the variance is requested.

*c.* State why compliance with the rule cannot be maintained.

*d.* Explain the alternative arrangements that have been or will be made regarding the variance request.

*e.* Estimate the period of time for which the variance will be needed.

*f.* Rescinded IAB 2/2/05, effective 3/9/05.

**132.14(3)** Upon notification of a request for variance, the department shall take into consideration, but shall not be limited to:

*a.* Examining the rule from which the temporary variance is requested to determine if the request is appropriate and reasonable.

*b.* Evaluating the alternative arrangements that have been or will be made regarding the variance request.

*c.* Examining the effect of the requested variance upon the level of care provided to the general populace served.

*d.* Requesting additional information if necessary.

**132.14(4)** Preliminary approval or denial shall be provided verbally within 24 hours. Final approval or denial shall be issued in writing within ten days after having received the written explanation for the temporary variance request and shall include the reason for approval or denial. If approval is granted, the effective date and the duration of the temporary variance shall be clearly stated.

**132.14(5)** Rescinded, effective July 10, 1987.

**132.14(6)** Any request for appeal concerning the denial of a request for temporary variance shall be in accordance with the procedures outlined in rule 641—132.10(147A).

**132.14(7)** Rescinded IAB 2/3/93, effective 3/10/93.

**641—132.15(147A) Transport options for fully authorized EMT-P, PS, and paramedic service programs.**

**132.15(1)** Upon responding to an emergency call, ambulance or nontransport EMT-P, PS, and paramedic level services may make a determination at the scene as to whether emergency medical transportation or nonemergency transportation is needed. The determination shall be made by an EMT-P, paramedic or paramedic specialist and shall be based upon the nonemergency transportation protocol approved by the service program's medical director. When applying this protocol, the following criteria, as a minimum, shall be used to determine the appropriate transport option:

*a.* Primary assessment,

*b.* Focused history and physical examination,

*c.* Chief complaint,

*d.* Name, address and age, and

*e.* Nature of the call for assistance.

Emergency medical transportation shall be provided whenever any of the above criteria indicate that treatment should be initiated.

**132.15(2)** If treatment is not indicated, the service program may make arrangements for nonemergency transportation. If arrangements are made, the service program shall remain at the scene until nonemergency transportation arrives. During the wait for nonemergency transportation, however, the ambulance or nontransport service may respond to an emergency.

[ARC 0063C, IAB 4/4/12, effective 5/9/12]

**641—132.16(147A) Public access defibrillation.** Rescinded IAB 2/2/05, effective 3/9/05.

CHAPTER 133  
WHITE FLASHING LIGHT AUTHORIZATION

**641—133.1(321) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Ambulance*” means ambulance as defined in 641—132.1(147A).

“*Ambulance service*” means ambulance service as defined in 641—132.1(147A).

“*Authorization certificate*” means a permit issued to an emergency medical care provider which authorizes the use of a white flashing light.

“*Authorized vehicles*” means any vehicles owned by members of the service program that are authorized by the department to use flashing white lights.

“*Department*” means Iowa department of public health.

“*Emergency medical care provider*” means emergency medical care provider as defined in 641—131.1(147A).

“*First response vehicle*” means first response vehicle as defined in 641—132.1(147A).

“*Medical director*” means medical director as defined in 641—132.1(147A).

“*Member*” means any individual utilized by an ambulance or nontransport service to provide emergency medical care.

“*Nontransport service*” means nontransport service as defined in 641—132.1(147A).

“*Rescue vehicle*” means rescue vehicle as defined in 641—132.1(147A).

“*Service director*” means service director as defined in 641—132.1(147A).

“*Service program*” or “*service*” means service program as defined in 641—132.1(147A).

“*White light*” means a white or clear rotating, flashing, or strobe lighting device utilized for identification purposes only. Any such lighting device shall not display a constant white or clear light to the rear of the vehicle.

[ARC 0901C, IAB 8/7/13, effective 9/11/13]

**641—133.2(321) Purpose.**

**133.2(1)** Flashing white lights may be used on emergency vehicles or other authorized vehicles utilized by emergency medical care providers and service programs for identification purposes only.

**133.2(2)** Flashing white lights shall be used only on an authorized vehicle and shall not be used except in any of the following circumstances:

- a. When responding to an emergency in the line of duty requiring the services of the member.
- b. When at the scene of an emergency.
- c. When transporting a patient during a disaster situation.

**133.2(3)** Owners and operators of authorized vehicles are responsible for ensuring that the lighting devices are utilized in a safe manner. This shall include, but not be limited to, ensuring that lighting devices do not:

- a. Obstruct the view of the vehicle operator.
- b. Overburden the electrical system of the vehicle.
- c. Interfere with the vision of the vehicle operator, passengers, or drivers of other vehicles.

**133.2(4)** Operators of authorized vehicles shall ensure that the authorization certificate is carried in the vehicle.

**641—133.3(321) Application.**

**133.3(1)** Authorization certificates shall be issued by the service director for service vehicles and vehicles owned by emergency medical care providers who are members in good standing with the service. Authorization certificates are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)). Vehicle authorization shall be limited to:

- a. Vehicles owned or exclusively operated by the ambulance or nontransport service.
- b. Vehicles owned or operated by emergency medical care provider members of the ambulance or nontransport service.

- c. Vehicles owned or operated by the service program's medical director.
- d. One authorization certificate per vehicle.

**133.3(2)** Nothing in these rules shall prevent the use of white flashing lights on vehicles which are authorized to use red or blue flashing lights.

**133.3(3)** The service director shall report the issuance of white light authorization certificates within 15 days to the department on forms approved by the department. Information required by the department shall include, but not be limited to:

- a. Demonstrated necessity for authorization.
- b. Vehicle liability insurance.
- c. Current Iowa vehicle registration.
- d. The member's current driver's license number, if the authorized vehicle is privately owned.

**133.3(4)** The service director shall provide, upon request of the department or its agents, proof of the information required in 133.3(3) for each authorization certificate issued.

**133.3(5)** The service director shall provide an informational sheet which explains the requirements for use of the white lights to each member who is issued an authorization certificate. The information sheet is available upon request from the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**133.3(6)** The service director shall encourage members operating authorized vehicles to complete a course in emergency driving techniques and the laws and rules governing emergency vehicle operation.

**133.3(7)** The authorization shall expire five years from the date issued unless sooner suspended or revoked.

**133.3(8)** The department may issue authorization certificates for vehicles used by employees of the department when responding to emergencies or disasters.

[ARC 0901C, IAB 8/7/13, effective 9/11/13]

#### **641—133.4(321) Approval, denial, probation, suspension and revocation of authorization.**

**133.4(1)** The service director or the department may approve or deny an application and the department may place on probation, suspend or revoke an authorization certificate if the service director or the department finds reason to believe that the applicant or certificate holder:

- a. Has failed to meet all applicable requirements of these rules.
- b. Has been convicted of a moving violation while using flashing white lights.
- c. Has utilized a white flashing light without obtaining an authorization certificate.
- d. Does not have a valid driver's license.
- e. Does not have a current vehicle registration.

**133.4(2)** The authorization certificate shall be surrendered upon the request of the department or its agents.

**133.4(3)** An emergency medical care provider or service director who has knowledge of any emergency medical care provider or service program that has violated Iowa Code chapter 147A, Iowa Administrative Code 641—Chapter 132 or these rules shall, within 30 days, report that information to the department.

**133.4(4)** A denial, probation, suspension or revocation ordered by the department shall be effected, and may be appealed according to the provisions set forth in rule 641—133.5(321).

#### **641—133.5(321) Appeal of denial, probation, or revocation of authorization.**

**133.5(1)** Denial, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice of denial, probation, suspension or revocation shall be served to the alleged violator by restricted certified mail, return receipt requested, or by personal service.

**133.5(2)** Any request for appeal concerning denial, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 30 days of the receipt of the department's notice. The address is: Iowa Department of Public

Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 30-day time period, the notice shall be deemed to be suspended. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, probation, suspension or revocation has been or will be removed. If no request for appeal is received within the 30-day time period, the department's notice of denial, probation, suspension or revocation shall become the department's final agency action.

**133.5(3)** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**133.5(4)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 4, Iowa Administrative Code.

**133.5(5)** When the administrative law judge makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken as provided in subrule 133.5(6).

**133.5(6)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**133.5(7)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**133.5(8)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

**133.5(9)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**133.5(10)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**133.5(11)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

These rules are intended to implement Iowa Code section 321.423.

CHAPTER 134  
TRAUMA CARE FACILITY CATEGORIZATION  
AND VERIFICATION

**641—134.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Categorization*” means a preliminary determination by the department that a hospital or emergency care facility is capable of providing trauma care at Level I, II, III or IV care capabilities.

“*Certificate of verification*” means a document awarded by the department that identifies a hospital or emergency care facility’s level and term of verification as a trauma care facility.

“*Criteria deficiency*” or “*deficiency*” means a failure to meet criteria requirements as outlined in paragraph 134.2(3)“a.”

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency care facility*” means a physician’s office, clinic, or other health care center which provides emergency medical care in conjunction with other primary care services.

“*Emergency medical care provider*” means emergency medical care provider as defined in 641—131.1(147A).

“*Final report*” means the verification report issued by the department following a verification review conducted by trauma survey team members and department staff.

“*Governing body*” means a group of individuals responsible for the governance of a hospital, including but not limited to a board of directors or board of trustees.

“*Hospital*” means any hospital licensed under Iowa Code chapter 135B.

“*On-site verification survey*” means an on-site survey conducted by the department or survey team members to assess a hospital or emergency care facility’s ability to meet the level of categorization requested.

“*Persistently occurring deficiencies*” means deficiencies identified in two sequential verification reviews.

“*Trauma*” means a single or multisystem life-threatening or limb-threatening injury, or an injury requiring immediate medical or surgical intervention or treatment to prevent death or permanent disability.

“*Trauma care facility*” means a hospital or emergency care facility which provides trauma care and has been verified by the department as having Level I, Level II, Level III or Level IV care capabilities and has been issued a certificate of verification pursuant to Iowa Code section 147A.23(2)“c.”

“*Trauma care system*” means an organized approach to providing personnel, facilities, and equipment for effective and coordinated trauma care.

“*Trauma survey team*” means a group of health care providers contracted by the department to assist in verifying trauma care facilities’ compliance with trauma criteria adopted in 134.2(3).

“*Type I criteria*” or “*Type I criteria deficiency*” indicates criteria requirements that may significantly impact a trauma care facility’s ability to provide optimal care for trauma patients.

“*Type II criteria*” or “*Type II criteria deficiency*” indicates criteria that are required but have a less critical impact on the trauma care facility’s ability to provide optimal care for trauma patients than Type I criteria.

“*Verification*” means a process by which the department certifies a trauma care facility’s capacity to provide trauma care in accordance with criteria established for Level I, Level II, Level III or Level IV trauma care facilities and these rules.

[ARC 1079C, IAB 10/2/13, effective 1/6/14; ARC 3240C, IAB 8/2/17, effective 9/6/17]

**641—134.2(147A) Trauma care facility categorization and verification.** Categorization and verification of trauma care facilities shall be made by the department based upon the trauma care facilities’ resources available for providing trauma care services.

**134.2(1) Categorization.**

*a.* Categorization as a trauma care facility shall be determined by the department from self-reported information provided to the department by a hospital or emergency care facility through a self-assessment categorization application provided by the department.

*b.* Categorization applications shall be submitted by all hospitals. New hospitals shall submit a categorization application no later than 90 days after licensing by the department of inspections and appeals, health facilities division. Categorization applications may be submitted by emergency care facilities. New emergency care facilities may submit a categorization application no later than 90 days after opening or reopening.

*c.* Categorization applications may be obtained from the department upon written request to: Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**134.2(2)** Categorization levels for trauma care facilities shall be identified as:

- a.* Level I.
- b.* Level II.
- c.* Level III.
- d.* Level IV.

**134.2(3)** Adoption by reference.

*a.* Criteria specific to Level I trauma care facilities identified in the “Resources for Optimal Care of the Injured Patient 2014” (6th edition) published by the American College of Surgeons Committee on Trauma (ACS-COT) is incorporated and adopted by reference for Level I hospital and emergency care facility categorization criteria. Criteria specific to Level II trauma care facilities identified in the “Resources for Optimal Care of the Injured Patient 2014” (6th edition) published by the American College of Surgeons Committee on Trauma is incorporated and adopted by reference for Level II hospital and emergency care facility categorization criteria. Criteria specific to Level III trauma care facilities identified in the “Resources for Optimal Care of the Injured Patient 2014” (6th edition) published by the American College of Surgeons Committee on Trauma is incorporated and adopted by reference for Level III hospital and emergency care facility categorization criteria. Criteria specific to Level IV trauma care facilities identified in the “Resources for Optimal Care of the Injured Patient 2014” (6th edition) published by the American College of Surgeons Committee on Trauma is incorporated and adopted by reference for Level IV hospital and emergency care categorization criteria. For any differences which may occur between the adopted references and these administrative rules, the administrative rules shall prevail.

*b.* “Resources for Optimal Care of the Injured Patient 2014” (6th edition) published by the American College of Surgeons Committee on Trauma is available through the Iowa Department of Public Health, Bureau of Emergency and Trauma Services (BETS), Lucas State Office Building, Des Moines, Iowa 50319-0075, or the BETS Web site (<http://idph.iowa.gov/BETS/Trauma>).

*c.* Trauma care facilities shall transition to the criteria outlined in paragraph 134.2(3) “*a.*”

(1) Level IV trauma care facilities shall transition to the criteria outlined in paragraph 134.2(3) “*a.*” on or before October 1, 2017.

(2) Level III trauma care facilities shall maintain, at a minimum, the criteria requirements effective in 2013 until a transition to the criteria in paragraph 134.2(3) “*a.*” at the next scheduled verification visit. Transition to paragraph 134.2(3) “*a.*” criteria shall be completed on or before December 31, 2020.

(3) Level II trauma care facilities shall maintain, at a minimum, the criteria requirements effective in 2013 until American College of Surgeons Committee on Trauma verification on or before October 31, 2021.

*d.* The 2013 criteria for all levels of trauma care facilities are available through the Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the BETS Web site (<http://idph.iowa.gov/BETS/Trauma>).

**134.2(4)** Categorization shall not be construed to imply any guarantee on the part of the department as to the level of trauma care services available at a trauma care facility.

**134.2(5)** A trauma care facility may apply to the department for a change in level of categorization through submission of a self-assessment categorization application. Hospitals, emergency care facilities,

or trauma care facilities applying for initial verification or a change in level of categorization shall be verified based on the criteria outlined in paragraph 134.2(3)“a.”

**134.2(6)** Verification. Verification of a trauma care facility shall be determined by the department upon successful completion of the categorization application and completion of a verification survey. All categorized hospitals and emergency care facilities shall be verified.

*a.* Level I and Level II trauma care facilities shall be verified by the American College of Surgeons Committee on Trauma on or before October 31, 2021.

*b.* Trauma care facilities verified by the American College of Surgeons Committee on Trauma shall be accepted by the department as equivalent for categorization and verification as a trauma care facility in Iowa provided that all policy, reporting, and administrative rules have been met. The department may issue a certification of verification provided that the trauma care facility has been verified by the American College of Surgeons Committee on Trauma. The facility shall provide the department documentation including, but not limited to, a current copy of the ACS-COT verification.

*c.* A Level I or Level II trauma care facility which fails to attain American College of Surgeons Committee on Trauma verification shall submit an application to the department to be verified as a Level III or Level IV trauma care facility to ensure compliance with Iowa Code section 147A.23(2)“a.”

*d.* Level III and Level IV trauma care facilities shall be verified by the department in consultation with the trauma survey team.

**134.2(7)** The department shall conduct a verification survey for categorized hospitals or emergency care facilities.

*a.* A verification survey shall assess the ability of the hospital or emergency care facility to meet criteria for the level of categorization pursuant to 134.2(3).

*b.* Verification criteria are weighted by criteria types, Type I and Type II, as indicated in the “Resources for Optimal Care of the Injured Patient 2014” (6th edition) published by the American College of Surgeons Committee on Trauma and adopted in 134.2(3)“a.”

*c.* Type II criteria deficiencies identified during the verification process may result in disciplinary action. Criteria deficiencies shall be resolved in accordance with the trauma care facility’s final report. Failure to rectify deficiencies in accordance with the trauma care facility’s final report shall result in disciplinary action.

*d.* Type I criteria deficiencies or persistently occurring Type II criteria deficiencies identified during the verification process shall result in disciplinary action. The department shall notify the trauma care facility’s governing body of Type I or persistently occurring Type II criteria deficiencies. The trauma care facility shall implement a plan of correction within 45 days of issuance of the trauma facility’s final report. Criteria deficiencies shall be resolved in accordance with the trauma care facility’s final report and the implemented plan of correction. Failure to rectify deficiencies shall result in disciplinary action.

*e.* The department may conduct electronic review or on-site verification that criteria deficiencies have been resolved as outlined in final reports or disciplinary actions.

*f.* The department shall approve trauma care facility verification when the department is satisfied that the proposed facility will provide services and be operated in compliance with Iowa Code section 147A.23 and these administrative rules.

*g.* The department shall notify the applicant, in writing, as to the approval or denial of verification as a trauma care facility within 90 days after the completion of a verification survey.

*h.* Verification shall not be construed to imply any guarantee on the part of the department as to the level of trauma care services available at a hospital or emergency care facility.

*i.* Trauma care facility verification is valid for a period of three years from the effective date unless otherwise specified on the certificate of verification or unless sooner suspended or revoked.

*j.* Trauma care facilities shall be fully operational at their verified level upon the effective date specified on the certificate of verification. Trauma care facilities shall meet all requirements of Iowa Code section 147A.23 and these administrative rules.

*k.* As part of the verification and renewal process, the department or its designated trauma survey team may conduct periodic on-site reviews of the services and facilities of trauma care facilities including chart review at those facilities.

*l.* Trauma care facilities that are unable to maintain their categorization or verification, or both, shall notify the department within 48 hours.

*m.* The director, pursuant to 641—Chapter 178, may grant a variance from the requirements of rules adopted under this chapter for any trauma care facility.

*n.* Proceedings, records, and reports developed pursuant to this chapter constitute peer review records under Iowa Code section 147.135, and are not subject to discovery by subpoena or admissible as evidence. All information and documents received from a hospital, emergency care facility, or trauma care facility under Iowa Code chapter 147A shall be confidential pursuant to Iowa Code section 272C.6(4).

**134.2(8)** Prohibited acts. A hospital or emergency care facility that imparts or conveys, or causes to be imparted or conveyed, that it is a trauma care facility, or that uses any other term to indicate or imply that the hospital or emergency care facility is a trauma care facility without having obtained a certificate of verification by the department is subject to civil penalty not to exceed \$100 per day for each offense. The director may apply to the district court for a writ of injunction to restrain the use of the term “trauma care facility.”

**134.2(9)** Nothing in Iowa Code section 147A.23 or these administrative rules shall be construed to restrict a hospital or emergency care facility from providing any services for which it is duly authorized. [ARC 9445B, IAB 4/6/11, effective 5/11/11; ARC 1079C, IAB 10/2/13, effective 1/6/14; ARC 3240C, IAB 8/2/17, effective 9/6/17]

**641—134.3(147A) Complaints and investigations and appeals—denial, citation and warning, probation, suspension, and revocation of verification as a trauma care facility.**

**134.3(1)** The department may deny verification as a trauma care facility or may give a citation and warning, place on probation, suspend, or revoke existing verification if the department finds reason to believe that the facility has not been or will not be operated in compliance with Iowa Code section 147A.23 and these administrative rules or that there is insufficient assurance of adequate protection for the public. The denial, citation and warning, period of probation, suspension, or revocation shall be effected and may be appealed in accordance with the requirements of Iowa Code section 17A.12.

**134.3(2)** All complaints regarding the operation of a trauma care facility, or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**134.3(3)** An EMS provider who has knowledge of a hospital, emergency care facility or trauma care facility that has violated Iowa Code section 147A.23, or these administrative rules, shall immediately report such information to the department. The address is: Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**134.3(4)** Complaints and the investigative process shall be treated as confidential to the extent they are protected by Iowa Code sections 22.7 and 147A.24 and Iowa Code chapter 272C.

**134.3(5)** Complaint investigations may result in the department’s issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**134.3(6)** Notice of denial, citation and warning, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice to the alleged violator of denial, citation and warning, probation, suspension, or revocation shall be served by certified mail, return receipt requested, or by personal service.

**134.3(7)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department’s notice to take action. The address is: Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or

at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**134.3(8)** Upon receipt of a request for hearing, the request shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**134.3(9)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**134.3(10)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**134.3(11)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**134.3(12)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**134.3(13)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or by personal service.

**134.3(14)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**134.3(15)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**134.3(16)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**134.3(17)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, news media or employer.

CHAPTER 135  
TRAUMA TRIAGE AND TRANSFER PROTOCOLS

**641—135.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Out-of-Hospital Trauma Triage Destination Decision Protocol*” means written directives to assist in the decision making, established and approved by the department, that address the method of transport and trauma care facility destination to be followed by the service program.

“*Service program*” or “*service*” means any medical care ambulance service or nontransport service that has received authorization by the department.

“*Transfer*” means the process of a patient being transferred from the scene of an injury to a trauma care facility or from one trauma care facility to another.

“*Trauma care facility*” means a hospital or emergency care facility which provides trauma care and has been verified by the department as having Resource (Level I), Regional (Level II), Area (Level III) or Community (Level IV) care capabilities and has been issued a certificate of verification pursuant to Iowa Code section 147A.23, subsection 2, paragraph “c.”

“*Trauma system advisory council*” means an advisory council established pursuant to Iowa Code section 147A.24 to advise the department on issues and strategies to achieve optimal trauma care delivery throughout the state.

“*Trauma triage and transfer*” means to determine trauma care facility destination and mode of transportation.

“*TSAC*” means trauma system advisory council.

[ARC 1080C, IAB 10/2/13, effective 2/1/14]

**641—135.2(147A) Trauma triage and transfer protocols.**

**135.2(1)** Trauma triage and transfer protocols approved by the department shall be utilized to assist personnel from each service program and trauma care facility. This requirement shall not preclude service programs or trauma care facilities from making emergency revisions of the approved triage and transfer protocols when an incident overburdens medical care resources causing unnecessary delay in patient care.

*a.* Adoption by reference. The “Out-of-Hospital Trauma Triage Destination Decision Protocol” (Adult, 2013) and the “Out-of-Hospital Trauma Triage Destination Decision Protocol” (Pediatric, 2013) are incorporated by reference and adopted as the out-of-hospital trauma triage destination decision protocols. For any differences which may occur between the adopted references and these administrative rules, the administrative rules shall prevail.

*b.* The protocols adopted by reference in paragraph 135.2(1)“*a*” are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

*c.* Revisions and modifications to the protocols adopted by reference in paragraph 135.2(1)“*a*” may be made upon recommendation to the department from the trauma system advisory council (TSAC). Revisions and modifications shall be approved by the department.

*d.* The director, pursuant to rule, may grant a variance from the requirements of rules adopted under this chapter for any hospital, emergency care facility, or service program provided that the variance is related to undue hardships in complying with this chapter or the rules adopted pursuant to this chapter.

**135.2(2)** Reserved.

[ARC 1080C, IAB 10/2/13, effective 2/1/14]

**641—135.3(147A) Offenses and penalties.**

**135.3(1)** The department may deny verification as a trauma care facility or deny authorization as a service program or may give a citation and warning, place on probation, suspend, or revoke existing trauma care facility verification or service program authorization if the department finds reason to believe that the facility or service program has not been or will not be operated in compliance with Iowa Code

section 147A.27 and these administrative rules. The denial, citation and warning, period of probation, suspension, or revocation shall be effected and may be appealed in accordance with the requirements of Iowa Code section 17A.12.

**135.3(2)** All complaints regarding the operation of a trauma care facility or service program, or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**135.3(3)** Complaints and the investigative process shall be treated as confidential to the extent they are protected by Iowa Code section 22.7.

**135.3(4)** Complaint investigations may result in the department's issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**135.3(5)** Notice of denial, citation and warning, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice to the alleged violator of denial, citation and warning, probation, suspension, or revocation shall be served by certified mail, return receipt requested, or by personal service.

**135.3(6)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice to take action. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**135.3(7)** Upon receipt of a request for hearing, the request shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**135.3(8)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**135.3(9)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**135.3(10)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**135.3(11)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**135.3(12)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or personal service.

**135.3(13)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**135.3(14)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**135.3(15)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**135.3(16)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, news media or employer.

These rules are intended to implement Iowa Code section 147A.23.

CHAPTER 136  
TRAUMA REGISTRY

**641—136.1(147A) Definitions.** For the purposes of these rules, the following definitions shall apply:

“*Cases*” means trauma patients that meet the trauma registry inclusion criteria.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Health care providers*” for the purpose of this chapter includes licensed physicians, nurse practitioners, physician assistants, and registered nurses.

“*Inclusion criteria*” means criteria determined by the department and adopted by reference to determine which trauma patients are to be included in the trauma registry.

“*Reportable patient data*” means data and definitions determined by the department and adopted by reference to be reported to the trauma registry on trauma patients meeting the inclusion criteria.

“*Trauma care facility*” means a hospital or emergency care facility which provides trauma care and has been verified by the department as having Level I, Level II, Level III or Level IV care capabilities and has been issued a certificate of verification pursuant to Iowa Code section 147A.23(2)“c.”

“*Trauma patient*” means a victim of an external cause of injury that results in major or minor tissue damage or destruction caused by intentional or unintentional exposure to thermal, mechanical, electrical or chemical energy, or by the absence of heat or oxygen as defined in the “Iowa Trauma Patient Data Dictionary” as established in 136.2(1)“a.”

“*Trauma registry*” means the data repository operated by the department to collect and analyze reportable patient data on the incidence, severity, and causes of trauma, including the central registry for brain and spinal cord injuries ( rule 641—21.1(135)) and farm-related injuries.

“*Trauma survey team*” means a group of health care providers contracted by the department to assist in verifying trauma care facilities’ compliance with trauma criteria adopted by reference in 641—subrule 134.2(3).

[ARC 3106C, IAB 6/7/17, effective 7/12/17; ARC 3834C, IAB 6/6/18, effective 7/11/18]

**641—136.2(147A) Trauma registry.**

**136.2(1)** Adoption by reference.

*a.* “Iowa Trauma Patient Data Dictionary” (January 2017) is incorporated by reference for inclusion criteria and reportable patient data to be reported to the trauma registry. For any differences which may occur between the adopted reference and this chapter, the administrative rules shall prevail.

*b.* “Iowa Trauma Patient Data Dictionary” (January 2017) is available through the Iowa Department of Public Health, Bureau of Emergency and Trauma Services (BETS), Lucas State Office Building, Des Moines, Iowa 50319-0075, or the BETS website [idph.iowa.gov/Portals/1/userfiles/43/Trauma\\_Patient\\_Registry\\_Data\\_Dictionary.pdf](http://idph.iowa.gov/Portals/1/userfiles/43/Trauma_Patient_Registry_Data_Dictionary.pdf).

**136.2(2)** A trauma care facility shall report data as follows:

*a.* Trauma care facilities shall submit reportable patient data identified in 136.2(1) electronically to the department. Data shall be submitted in a format approved by the department.

*b.* Trauma care facilities that enter required trauma data identified in 136.2(1)“a” directly into the state registry shall, at a minimum, enter 80 percent of cases within 60 days of a patient’s discharge. Within 120 days of a patient’s discharge, 100 percent of cases shall be entered into the registry.

*c.* Trauma care facilities that submit required trauma data identified in 136.2(1)“a” via upload shall, at a minimum, submit 80 percent of cases discharged within the previous 60 days of the first business day of every even-numbered calendar month. Within 120 days of a patient’s discharge or next scheduled data upload, 100 percent of cases shall be entered into the registry.

**136.2(3)** Reportable patient data compilations. The department shall prepare compilations for release or dissemination on reportable patient data entered into the trauma registry during the reporting period. The compilations shall include, but not be limited to, trends and patient care outcomes for local, regional and statewide evaluations. The compilations shall be made available to all providers submitting reportable patient data to the registry.

**136.2(4)** Access and release of reportable patient data and information.

*a.* The data collected by the trauma registry and furnished to the department pursuant to this rule are confidential records of the condition, diagnosis, care, or treatment of patients or former patients, including outpatients, pursuant to Iowa Code section 22.7. The compilations prepared for release or dissemination from the data collected are not confidential under Iowa Code section 22.7(2). However, information which individually identifies patients shall not be disclosed and state and federal law regarding patient confidentiality shall apply.

*b.* The department may approve requests for reportable patient data for special studies and analysis provided:

(1) The request has been reviewed and approved by the department with respect to the scientific merit and confidentiality safeguards; and

(2) The department has given administrative approval for the proposal.

(3) The confidentiality of patients and trauma care facilities is protected pursuant to Iowa Code sections 22.7 and 147A.24.

*c.* The department may require those requesting the data to pay any or all of the reasonable costs associated with furnishing the reportable patient data.

**136.2(5)** Data collection methods. To the extent possible, activities under this rule shall be coordinated with other health data collection methods.

**136.2(6)** Quality assurance of reported data.

*a.* For the purpose of ensuring the completeness and quality of reportable patient data, the department or its designated trauma survey team may examine medical records to validate the accuracy of data submitted by a trauma care facility.

*b.* Review of medical records by the department or its designated trauma survey team shall be scheduled in advance with the trauma care facility and completed in a timely manner.

*c.* The director, pursuant to 641—Chapter 178, may grant a variance from the requirements of rules adopted under this chapter for a trauma care facility that meets the requirements of this chapter.

[ARC 9444B, IAB 4/6/11, effective 5/11/11; ARC 3106C, IAB 6/7/17, effective 7/12/17; ARC 3834C, IAB 6/6/18, effective 7/11/18]

**641—136.3(147A) Offenses and penalties.** All complaints, offenses and penalties will be addressed pursuant to rule 641—134.3(147A).

[ARC 3106C, IAB 6/7/17, effective 7/12/17]

These rules are intended to implement Iowa Code section 147A.26.

[Filed 11/14/96, Notice 10/9/96—published 12/4/96, effective 1/8/97]

[Filed 1/13/05, Notice 11/24/04—published 2/2/05, effective 3/9/05]

[Filed ARC 3106C (Notice ARC 2902C, IAB 1/18/17), IAB 6/7/17, effective 7/12/17]

[Filed ARC 3834C (Notice ARC 3706C, IAB 3/28/18), IAB 6/6/18, effective 7/11/18]

CHAPTER 137  
TRAUMA EDUCATION AND TRAINING

**641—137.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

*“Advanced registered nurse practitioner”* or *“ARNP”* means a nurse pursuant to 655—7.1(152) with current licensure as a registered nurse in Iowa who is registered in Iowa to practice in an advanced role. The ARNP is prepared for an advanced role by virtue of additional knowledge and skills gained through a formal advanced practice education program of nursing in a specialty area approved by the board. In the advanced role, the nurse practices nursing assessment, intervention, and management within the boundaries of the nurse-client relationship. Advanced nursing practice occurs in a variety of settings within an interdisciplinary health care team, which provide for consultation, collaborative management, or referral. The ARNP may perform selected medically delegated functions when a collaborative practice agreement exists.

*“Department”* means the Iowa department of public health.

*“Formal education”* means education in standardized educational settings with a curriculum.

*“Licensed practical nurse”* or *“LPN”* means an individual licensed pursuant to Iowa Code chapter 152.

*“Physician”* means an individual licensed under Iowa Code chapter 148, 150 or 150A.

*“Physician assistant”* or *“PA”* means an individual licensed pursuant to Iowa Code chapter 148C.

*“Practitioner”* means a person who practices medicine or one of the associated health care professions.

*“Registered nurse”* or *“RN”* means an individual licensed pursuant to Iowa Code chapter 152.

*“Trauma”* means a single or multisystem life-threatening or limb-threatening injury, or an injury requiring immediate medical or surgical intervention or treatment to prevent death or disability.

*“Trauma care facility”* means a hospital or emergency care facility which provides trauma care and has been verified by the department as having Level I, Level II, Level III or Level IV care capabilities and has been issued a certificate of verification pursuant to Iowa Code section 147A.23(2)*“c.”*

*“Trauma nursing course objectives”* means the trauma nursing course objectives recommended to the department by the trauma system advisory council and adopted by reference in these rules.

*“Trauma patient”* means a victim of an external cause of injury that results in major or minor tissue damage or destruction caused by intentional or unintentional exposure to thermal, mechanical, electrical or chemical energy, or by the absence of heat or oxygen.

*“Trauma system advisory council”* or *“TSAC”* means the council established by the department pursuant to Iowa Code section 147A.24.

*“Trauma team”* means a team of multidisciplinary health care providers established and defined by a trauma care facility that provides trauma care commensurate with the level of trauma care facility verification.

*“Verification”* means a process by which the department certifies a trauma care facility’s capacity to provide trauma care in accordance with criteria established for Level I, Level II, Level III or Level IV trauma care facilities and these rules.

[ARC 1081C, IAB 10/2/13, effective 11/6/13; ARC 3241C, IAB 8/2/17, effective 9/6/17]

**641—137.2(147A) Initial trauma education requirements.** Trauma education is required of physicians, physician assistants, advanced registered nurse practitioners, registered nurses, and licensed practical nurses who are identified or defined as trauma team members by a trauma care facility and who participate directly in the initial resuscitation of the trauma patient.

**137.2(1)** General requirements for initial trauma education.

*a.* Completion of initial trauma education shall be done within three years of the trauma care facility’s initial verification or within one year of the practitioner’s joining the trauma care facility’s trauma team.

*b.* Trauma nursing course objectives (2007) are incorporated and adopted by reference for all trauma care facilities. For any differences which may occur between the adopted references and these administrative rules, the administrative rules shall prevail.

*c.* Trauma nursing course objectives are available from the Department of Public Health, Bureau of Emergency and Trauma Services (BETS), Lucas State Office Building, Des Moines, Iowa 50319-0075, or the BETS Web site (<http://idph.iowa.gov/BETS/Trauma>).

**137.2(2)** Specific requirements for initial trauma education for each provider category are as follows:

*a.* Physicians, PAs and ARNPs shall comply with education criteria specific to the level for which the trauma care facility is verified according to the “Resources for Optimal Care of the Injured Patient 2014” (6th edition) published by the American College of Surgeons Committee on Trauma.

*b.* RNs and LPNs: successful completion of trauma nursing course objectives (2007) recommended by TSAC.

[ARC 1081C, IAB 10/2/13, effective 11/6/13; ARC 3241C, IAB 8/2/17, effective 9/6/17]

**641—137.3(147A) Continuing trauma education requirements.** Continuing trauma education is required every four years of physicians, physician assistants, advanced registered nurse practitioners, registered nurses, and licensed practical nurses who are identified or defined as trauma team members by a trauma care facility and who participate directly in the initial resuscitation of the trauma patient.

**137.3(1)** Specific requirements for continuing trauma education for each provider category are as follows:

*a.* Physicians, PAs and ARNPs shall comply with education criteria specific to the level for which the trauma care facility is verified according to the “Resources for Optimal Care of the Injured Patient 2014” (6th edition) published by the American College of Surgeons Committee on Trauma.

*b.* RN and LPN: 16 hours of continuing trauma education is required, with a minimum of 4 hours as formal education.

*c.* RN and LPN: Sustainment of training using trauma nursing course objectives (2007) recommended by TSAC. Continuing education hours earned sustaining trauma nurse course objectives may be applied to continuing education requirements identified in paragraph 137.3(1)“*b.*”

**137.3(2) to 137.3(4)** Rescinded IAB 8/2/17, effective 9/6/17.

[ARC 1081C, IAB 10/2/13, effective 11/6/13; ARC 3241C, IAB 8/2/17, effective 9/6/17]

**641—137.4(147A) Offenses and penalties.** Offenses and penalties will be addressed pursuant to 641—Chapter 134, Trauma Care Facility Categorization and Verification.

[ARC 3241C, IAB 8/2/17, effective 9/6/17]

These rules are intended to implement Iowa Code chapter 147A.

[Filed 5/14/99, Notice 2/10/99—published 6/2/99, effective 7/7/99]

[Filed 1/13/05, Notice 11/24/04—published 2/2/05, effective 3/9/05]

[Filed ARC 1081C (Notice ARC 0773C, IAB 5/29/13), IAB 10/2/13, effective 11/6/13]

[Filed ARC 3241C (Notice ARC 3076C, IAB 5/24/17), IAB 8/2/17, effective 9/6/17]

CHAPTER 138  
TRAUMA SYSTEM ADVISORY COUNCIL

**641—138.1(147A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency medical care provider*” means emergency medical care provider as defined in rule 641—131.1(147A).

“*Trauma care system*” means an organized approach to providing personnel, facilities, and equipment for effective and coordinated trauma care.

“*TSAC*” means the trauma system advisory council established pursuant to Iowa Code section 147A.24.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.2(147A) Purpose and duties.**

**138.2(1)** The TSAC shall advise the department on issues and strategies to achieve optimal trauma care delivery throughout the state.

**138.2(2)** Duties of the TSAC shall include, but not be limited to:

*a.* Annually reviewing Iowa Administrative Code rules related to the trauma care system to make recommendations to the department for changes to further promote optimal trauma care, including but not limited to review of this chapter and the following chapters:

(1) 641—Chapter 134, Trauma Care Facility Categorization and Verification.

(2) 641—Chapter 135, Trauma Triage and Transfer Protocols.

(3) 641—Chapter 136, Trauma Registry.

(4) 641—Chapter 137, Trauma Education and Training.

*b.* Assisting the department in development and implementation of an Iowa trauma care plan inclusive of all aspects of the statewide trauma system utilizing a system assessment and annual benchmarking.

*c.* Developing and maintaining criteria for the categorization of all hospitals and emergency care facilities according to their trauma care capabilities. These categories shall be for Levels I, II, III, and IV, based on the most current guidelines published by the American College of Surgeons’ committee on trauma, the American College of Emergency Physicians, and the model trauma care plan of the U.S. Department of Health and Human Services’ Health Resources and Services Administration. These criteria are established in 641—Chapter 134, and TSAC shall, pursuant to paragraph 138.2(2)“*a*,” annually review the criteria.

*d.* Developing and maintaining a process for the verification of the trauma care capacity of each facility and the issuance of a certificate of verification. This process is established in 641—Chapter 134, and TSAC shall, pursuant to paragraph 138.2(2)“*a*,” annually review the process.

*e.* Developing and maintaining standards for medical direction, trauma care, and triage and transfer protocols. These standards are established in 641—Chapter 135, and TSAC shall, pursuant to paragraph 138.2(2)“*a*,” annually review these standards.

*f.* Developing and maintaining standards for trauma registries. These standards are established in 641—Chapter 136, and TSAC shall, pursuant to paragraph 138.2(2)“*a*,” annually review these standards.

*g.* Collaborating with the department to develop trauma standards for medical direction, procedures, and protocols to support a statewide trauma system.

*h.* Developing, implementing, and conducting trauma care system evaluation, quality assessment, and quality improvement in coordination with the department.

*i.* Partnering with the department to promote public information and educational activities for injury prevention and in support of the statewide trauma system.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.3(147A) Appointment and membership.**

**138.3(1)** The members of TSAC shall be appointed by the director from the recommendations of the organizations listed in subrule 138.3(4).

**138.3(2)** Appointments shall be for two-year staggered terms, which shall expire on June 30.

**138.3(3)** Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**138.3(4)** Membership. The voting membership of the TSAC shall be comprised of one representative nominated from each of the following organizations:

- a. American Academy of Pediatrics.
- b. American College of Emergency Physicians, Iowa chapter.
- c. American College of Surgeons, Iowa chapter.
- d. Department of public health.
- e. Governor's traffic safety bureau.
- f. Iowa Academy of Family Physicians.
- g. Iowa Emergency Medical Services Association.
- h. Iowa Emergency Nurses Association.
- i. Iowa Hospital Association representing rural hospitals.
- j. Iowa Hospital Association representing urban hospitals.
- k. Iowa Medical Society.
- l. Iowa Osteopathic Medical Society.
- m. Iowa Physician Assistant Society.
- n. Iowa Society of Anesthesiologists.
- o. Orthopedic System Advisory Council of the American Academy of Orthopedic Surgeons, Iowa representative.
- p. Rehabilitation services delivery representative.
- q. Iowa's Medicare quality improvement organization.
- r. State medical examiner.
- s. Trauma nurse coordinator representing a trauma registry hospital.
- t. University of Iowa, Injury Prevention Research Center.

**138.3(5)** Absences.

a. Three unexcused absences in a 12-month period shall be grounds for the director to request nomination of an alternate representative to fill the position.

b. Absences may be excused by notification provided to the chairperson prior to the meeting.

c. The chairperson of the TSAC shall be charged with providing notification of absences to the department.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

#### **641—138.4(147A) Officers.**

**138.4(1)** Officers of the TSAC shall consist of a chairperson and a vice chairperson, who shall be elected at the first meeting of each fiscal year.

- a. Officers may serve no more than three consecutive terms as chairperson or vice chairperson.
- b. Vacancies in the office of chairperson shall be filled by elevation of the vice chairperson.
- c. Vacancies in the office of vice chairperson shall be filled by election at the next meeting after the vacancy occurs.

**138.4(2)** Duties of officers.

- a. The chairperson shall:
  - (1) Preside at all meetings of the TSAC,
  - (2) Appoint such subcommittees as deemed necessary, and
  - (3) Designate the chairperson of each subcommittee.
- b. The vice chairperson shall:
  - (1) Perform the duties of the chairperson if the chairperson is absent or unable to act. When so acting, the vice chairperson shall have all the powers of and be subject to all restrictions upon the chairperson.

(2) Perform such other duties as may be assigned by the chairperson.  
[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.5(147A) Meetings.**

**138.5(1)** The TSAC shall establish a meeting schedule on an annual basis to conduct its business. There shall be a minimum of four meetings per year.

*a.* Meetings may be scheduled as business requires, but notice to members must be given at least five working days prior to the meeting date.

*b.* Notice given four weeks in advance is encouraged to accommodate the schedules of professional members.

**138.5(2)** Any TSAC member who is unable to attend the meeting will notify the chairperson.

**138.5(3)** A majority of appointed members constitutes a quorum.

**138.5(4)** When a quorum is present, a position is carried by affirmative vote of the majority of those present. No official business that requires a vote of the membership shall be conducted without a quorum present.

**138.5(5)** Persons wishing to make a presentation to the TSAC shall submit the request to the chairperson not less than 14 days prior to the meeting. Presentations may be made at the discretion of the chairperson.

**138.5(6)** Persons wishing to submit written materials should do so at least 14 days in advance of the scheduled meeting to ensure that TSAC members have adequate time to receive and evaluate the materials.

**138.5(7)** TSAC may conduct meetings by electronic means pursuant to Iowa Code section 21.8.  
[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.6(147A) Subcommittees.** TSAC may designate one or more subcommittees to perform such duties as may be deemed necessary.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.7(147A) Confidentiality.**

**138.7(1)** The data collected by and furnished to the department pursuant to Iowa Code section 147A.26 are confidential records of the condition, diagnosis, care, or treatment of patients or former patients, including outpatients, and shall not be public record under Iowa Code chapter 22. The confidentiality of patients is to be protected, and the laws of this state shall apply with regard to patient confidentiality.

**138.7(2)** Proceedings, records, and reports reviewed or developed pursuant to Iowa Code section 147A.24 constitute peer review records under Iowa Code section 147.135 and are not subject to discovery by subpoena or admissible as evidence. All information and documents received from a hospital or emergency care facility under Iowa Code chapter 147A shall be confidential pursuant to Iowa Code section 272C.6(4).

**138.7(3)** TSAC or subcommittees of TSAC may enter into closed session proceeding pursuant to Iowa Code section 21.5.

**138.7(4)** All council and subcommittee members shall sign a confidentiality agreement not to divulge or discuss information obtained during a TSAC or subcommittee closed session proceeding. The signed confidentiality statements shall be kept on file at the department.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.8(147A) Documentation.**

**138.8(1)** The department, pursuant to Iowa Code section 21.3, shall keep minutes of open session proceedings.

**138.8(2)** The department, pursuant to Iowa Code section 21.5, shall also maintain minutes and tape recordings of closed session proceedings.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.9(147A) Expenses of advisory council members.** The following may be considered necessary expenses for reimbursement of TSAC members when the expenses are incurred on behalf of TSAC business and are subject to established state reimbursement rates:

1. Reimbursement for travel in a private car.
2. Actual lodging and meal expenses, including sales tax on lodging and meals.
3. Actual expense of public transportation.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

**641—138.10(147A) Council composition.** The council's composition shall be developed and maintained pursuant to Iowa Code chapter 69.

[ARC 2566C, IAB 6/8/16, effective 7/13/16]

These rules are intended to implement Iowa Code chapter 147A.

[Filed ARC 2566C (Notice ARC 2448C, IAB 3/16/16), IAB 6/8/16, effective 7/13/16]

CHAPTER 139  
IOWA LAW ENFORCEMENT EMERGENCY CARE PROVIDER  
Rescinded **ARC 4077C**, IAB 10/10/18, effective 11/14/18

CHAPTER 140  
EMERGENCY MEDICAL SERVICES SYSTEM DEVELOPMENT GRANTS FUND

**641—140.1(135) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Ambulance service*” means ambulance service as defined in 641—132.1(147A).

“*CEHs*” means CEH as defined in 641—131.1(147A).

“*Continuing education*” means continuing education as defined in 641—131.1(147A).

“*County EMS association*” means a countywide group of EMS providers and various agency and organization representatives and consumers who provide leadership for the local EMS system on needs and objectives. The county EMS association should also include representatives of services located in a neighboring county if service is provided on a regular basis to residents of the county receiving funding.

“*Department*” means the Iowa department of public health.

“*Director*” means the director of the Iowa department of public health.

“*Emergency medical care provider*” means emergency medical care provider as defined in 641—131.1(147A).

“*Emergency medical services*” or “*EMS*” means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

“*EMS course*” means a course for emergency medical care personnel pursuant to Iowa Code section 147A.4, subsection 2.

“*Fiscal year*” means the 12-month period beginning July 1 and ending June 30.

“*Infrastructure*” means those elements that make up an EMS system.

“*Nontransport service*” means nontransport service as defined in 641—132.1(147A).

“*Regional EMS council*” means a multicounty nonprofit corporation whose purpose is to facilitate EMS development on a regional basis.

“*Service program*” means service program as defined in 641—131.1(147A).

“*Strategic plan*” means a document produced via a multiagency effort to evaluate and define needs and goals to improve the local EMS system.

“*Training*” means EMS-related courses designed and intended for EMS providers and includes any item used in training including, but not limited to, slides, films, mannequins, emergency care devices, books and other items pertinent and necessary for training purposes.

[ARC 0756C, IAB 5/29/13, effective 7/3/13]

**641—140.2(135) Purpose.** The EMS system development grant is intended to supplement EMS funds at the regional, county or local level to promote EMS system development.

**641—140.3(135) County EMS associations.** Each county shall have a county EMS association, council or board to develop and maintain the countywide EMS system strategic plan and to provide leadership on related EMS system development funding needs and objectives.

**641—140.4(135) County EMS system development grants.** Grants for EMS system development proposals at the regional, county, and local level are available through a grant process from the department to county boards of supervisors or local boards of health for equipment, training, and support of infrastructure needs as identified in the countywide EMS strategic plan and the department system standards. County boards of supervisors or local boards of health may not take any administrative fee from these funds to support their work under this rule. County recipients of funds may subcontract work under this agreement to a county EMS association. Funds for training will be used to train members of a service program that provides service on a regular basis to residents of the county being funded. Funds for equipment require a \$1 match of regional, county, or local funds for each \$1 of EMS system development grant funds.

**140.4(1) Eligible costs.** Costs which are eligible for EMS system development grant expenditures as defined in the request for proposal (RFP) include:

- a. Training.

(1) Reimbursement for initial training tuition, fees and materials up to an amount that is the lowest fee charged by the training entity following successful completion of an EMS course. Practical and written examination fees may also be included.

(2) Payment of continuing education tuition, fees and materials. Education provided by an EMS service program for the general public is an allowable expense.

(3) Payment for EMS training aids.

*b.* Other equipment as defined by the RFP.

*c.* Infrastructure support.

(1) Development and enhancement of EMS systems.

(2) Office equipment and supplies necessary to coordinate a countywide EMS system.

(3) Personnel services for staffing to provide countywide continuous quality improvement and medical direction.

The title to any EMS equipment purchased with these funds shall not lie with the department, but shall be determined by the county.

**140.4(2) *Ineligible costs.*** Costs which are not eligible for funding include, but are not limited to, the following:

*a.* Certification/recertification fees.

*b.* Building and construction costs.

*c.* Debt amortization.

*d.* Land.

*e.* Rent.

*f.* Utilities.

*g.* Vehicles including, but not limited to, ambulances, fire apparatus, boats, rescue/first response vehicles, snowmobiles and vehicle parts.

[ARC 0756C, IAB 5/29/13, effective 7/3/13]

**641—140.5(135) Disbursement of funds.** Rescinded IAB 2/2/05, effective 3/9/05.

**641—140.6(135) Application denial or partial denial—appeal.** Rescinded IAB 2/2/05, effective 3/9/05.

These rules are intended to implement Iowa Code section 135.25.

CHAPTER 141  
LOVE OUR KIDS GRANT

**641—141.1(321) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Applicant*” means an individual, organization, or entity that has as its responsibility the development, promotion, and implementation of injury prevention and education initiatives for children and who has submitted an application for a love our kids grant.

“*Department*” means the Iowa department of public health.

“*Project period*” means the period of time which the department intends to support the project.

“*Service program*” means any medical care ambulance service or nontransport service that has received authorization by the department.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

**641—141.2(321) Purpose.** The purpose of the love our kids grant is to provide grant funding to statewide, regional and local agencies and service programs that have as their responsibility the development, promotion, and implementation of injury prevention and education initiatives for children in Iowa.

**641—141.3(321) Funding limitations.** Grants awarded under this program shall be subject to the guidelines within the contract and the following, including but not limited to:

**141.3(1)** Up to 10 percent of the funds generated by this program may be retained by the department for program management.

**141.3(2)** Rescinded IAB 12/6/06, effective 11/8/06.

**141.3(3)** Following the disbursement of the funds pursuant to subrule 141.3(1), funding may be made available to statewide, regional and local agencies or service programs that are responsible for development, promotion, and implementation of injury prevention and education initiatives for children. To the extent possible, funds shall be awarded and equally distributed to applicants across all geographic areas of the state.

**141.3(4)** Expenditures occurring prior to the project period are not eligible for reimbursement.

**141.3(5)** Grant awards shall be subject to the availability of funds.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

**641—141.4(321) Use of funds.** Funds may be used for injury prevention initiatives specified within the guidelines for children aged birth to 21, including but not limited to:

1. Education and training materials;
2. Equipment, supplies, and materials;
3. Public information and education campaigns;
4. Conferences/seminars/workshops;
5. Contractual services;
6. Personnel costs.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

**641—141.5(321) Application process.** An application for a love our kids grant is required. Applications are available from the Iowa Department of Public Health, Bureau of Emergency and Trauma Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. The application process is as follows:

**141.5(1)** Applications from qualified applicants shall be submitted to the department in accordance with the department’s approved application process.

**141.5(2)** The department shall review the application and may request clarification, approve the application, or deny the application.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

**641—141.6(321) Application denial—appeal.** An applicant may appeal the denial of a timely submitted application. Appeals shall be conducted pursuant to 641—Chapter 176.

[ARC 2477C, IAB 3/30/16, effective 5/5/16]

These rules are intended to implement Iowa Code section 147A.4 and Iowa Code Supplement section 321.34.

[Filed 1/23/98, Notice 10/22/97—published 2/11/98, effective 3/18/98]

[Filed 1/13/05, Notice 11/24/04—published 2/2/05, effective 3/9/05]

[Filed emergency 11/8/06—published 12/6/06, effective 11/8/06]

[Filed 1/10/07, Notice 12/6/06—published 1/31/07, effective 3/7/07]

[Filed ARC 2477C (Notice ARC 2366C, IAB 1/20/16), IAB 3/30/16, effective 5/5/16]

CHAPTER 142  
OUT-OF-HOSPITAL DO-NOT-RESUSCITATE ORDERS

**641—142.1(144A) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Adult*” means an individual 18 years of age or older.

“*Attending physician*” means a physician selected by, or assigned to, the patient who has primary responsibility for the treatment and care of the patient.

“*Comfort care*” means care within the scope of the health care provider’s training and certification to alleviate pain and suffering, but does not include resuscitative measures.

“*Department*” means the Iowa department of public health.

“*Emergency medical care*” means such medical procedures as:

1. Administration of intravenous solutions.
2. Intubation.
3. Performance of cardiac defibrillation and synchronized cardioversion.
4. Administration of emergency drugs as provided by rule by the department.
5. Any other medical procedure approved by the department, by rule, as appropriate to be performed by emergency medical care providers who have been certified in that procedure.

“*EMS provider*” means an emergency medical care provider as defined in Iowa Code section 147A.1.

“*Health care provider*” means a person, including an emergency medical care provider, who is licensed, certified, or otherwise authorized or permitted by the law of this state to administer health care in the ordinary course of business or in the practice of a profession.

“*Hospital*” means any hospital licensed under the provisions of Iowa Code section 135B.1.

“*Life-sustaining procedure*” means any medical procedure, treatment, or intervention, including resuscitation, which utilizes mechanical or artificial means to sustain, restore or supplant a spontaneous vital function, and when applied to a patient in a terminal condition, would serve only to prolong the dying process. “*Life-sustaining procedure*” does not include the provision of nutrition or hydration except when required to be provided parenterally or through intubation or the administration of medication or performance of any medical procedure deemed necessary to provide comfort care or to alleviate pain.

“*Medical direction*” means direction, advice, or orders provided by a medical director, supervising physician, or physician designee (in accordance with written parameters and protocols) to emergency medical care providers.

“*Medical director*” means any physician licensed under Iowa Code chapter 148, 150, or 150A who shall be responsible for overall medical direction of the service program and who has completed a medical director workshop, sponsored by the department, within one year of assuming duties.

“*On-line medical direction*” means immediate medical direction provided directly to service program emergency medical care providers, in accordance with written parameters and protocols, by the medical director, supervising physician or physician designee either on scene or by any telecommunications system.

“*Out-of-hospital do-not-resuscitate identifier*” or “*OOH DNR identifier*” means a durable yet easily removable unique identification approved by the department and worn by a patient who has an out-of-hospital do-not-resuscitate order.

“*Out-of-hospital do-not-resuscitate order*” or “*OOH DNR order*” means a written order on a form approved by the department, signed by an attending physician, executed in accordance with the requirements of Iowa Code section 144A.7A and issued consistent with Iowa Code section 144A.2, that directs the withholding or withdrawal of resuscitation when an adult patient in a terminal condition is outside the hospital.

“*Out-of-hospital do-not-resuscitate protocol*” or “*OOH DNR protocol*” means the statewide protocol approved by the department and intended to avoid unwarranted resuscitation by emergency medical care providers when a valid out-of-hospital do-not-resuscitate order or identifier is encountered.

“*Patient*” means any individual who is sick, injured, or otherwise incapacitated.

“*Physician*” means any individual licensed under Iowa Code chapter 148, 150, or 150A.

“*Physician assistant*” or “*PA*” means an individual licensed pursuant to Iowa Code chapter 148C.

“*Physician designee*” means any registered nurse licensed under Iowa Code chapter 152, or any physician assistant licensed under Iowa Code chapter 148C and approved by the board of physician assistant examiners. The physician designee acts as an intermediary for a supervising physician in accordance with written policies and protocols in directing the actions of emergency medical care providers.

“*Qualified patient*” means any adult patient as defined in Iowa Code section 144A.2.

“*Registered nurse*” or “*RN*” means an individual licensed pursuant to Iowa Code chapter 152.

“*Resuscitation*” means any medical intervention that utilizes mechanical or artificial means to sustain, restore, or supplant a spontaneous vital function, including but not limited to chest compression, defibrillation, intubation, and emergency drugs intended to alter cardiac function or otherwise to sustain life.

“*Service program*” or “*service*” means any medical care ambulance service or nontransport service that has received authorization by the department.

“*Supervising physician*” means any physician licensed under Iowa Code chapter 148, 150, or 150A. The supervising physician is responsible for medical direction of emergency medical care providers when such providers are providing emergency medical care.

“*Terminal condition*” means an incurable or irreversible condition that, without the administration of life-sustaining procedures, will, in the opinion of the attending physician, result in death within a relatively short period of time or a state of permanent unconsciousness from which, to a reasonable degree of medical certainty, there can be no recovery.

**641—142.2(144A) Purpose.** These rules direct EMS providers and service programs on the processes for the recognition of OOH DNR orders or identifiers and implementation of the OOH DNR protocol. In addition, these rules set forth guidelines for consideration by health care providers and organizations to help ensure uniform and orderly understandings, processes and procedures for the use and implementation of OOH DNR orders consistent with the provisions of Iowa Code chapter 144A.

**641—142.3(144A,147A) Responsibilities of the department.**

**142.3(1) OOH DNR physician order.** The department designates the OOH DNR order form contained in Appendix A as the uniform OOH DNR order form to be used statewide. If an attending physician issues an OOH DNR order for a qualified patient, the physician shall use the form contained in Appendix A.

**142.3(2) OOH DNR personal identifier.** The department designates the identifier supplied by MedicAlert® as the uniform personal identifier to be used for mobile qualified patients statewide. Instructions for obtaining a uniform personal identifier are contained in Appendix A.

**142.3(3) OOH DNR protocol.** The department designates the OOH DNR protocol contained in Appendix B as the uniform protocol to be used by EMS providers in implementing an OOH DNR order.

**142.3(4) Appendix A and Appendix B forms.** Forms referenced in subrules 142.3(1) through 142.3(3) are available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or through the bureau of EMS’s Web site at [www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems).

**641—142.4(144A,147A) EMS providers.**

**142.4(1) Uniform protocol.** EMS providers shall act in accordance with the department’s OOH DNR protocol when implementing an OOH DNR order. EMS service programs shall incorporate the OOH DNR protocol as part of their service protocols and, using educational materials consistent with the curriculum developed and approved by the department, shall inform and educate EMS providers on the protocol’s requirements as well as the requirements of Iowa Code chapter 144A and these rules.

**142.4(2) Responsibility of the EMS provider.** The EMS provider responding outside a hospital as a member of a service program shall:

*a.* Evaluate the patient’s status and needs through an assessment consistent with the provider’s training and certification.

- b. Determine the existence of an OOH DNR order or that the patient is wearing an OOH DNR identifier.
- c. Honor the OOH DNR order or OOH DNR identifier worn by the patient.
- d. Discontinue resuscitation if the OOH DNR order or OOH DNR identifier worn by the patient is discovered after resuscitation has begun.
- e. Follow the OOH DNR protocol.
- f. Provide comfort care to the patient at all times.
- g. Contact on-line medical direction for further instructions as necessary to provide appropriate patient care.
- h. If uncertainty exists regarding the validity or applicability of the OOH DNR order or identifier, the EMS provider shall provide the necessary and appropriate resuscitation.
- i. Document compliance or noncompliance with the OOH DNR order and the reasons for not complying with the order, including evidence that the order was revoked or uncertainty regarding the validity or applicability of the order.

**641—142.5(144A) Guidelines for non-EMS health care providers, patients, and organizations.** In order to encourage understanding and implementation of OOH DNR orders and protocols throughout Iowa and honor a qualified patient's wishes and intent regarding the provision of life-sustaining procedures in an out-of-hospital setting consistent with the requirements of Iowa Code chapter 144A, the following guidelines should be considered.

**142.5(1) Attending physicians who issue OOH DNR orders.** The attending physician should ensure that the following are accomplished:

- a. Establish that the patient is qualified because the patient:
  - (1) Is an adult; and
  - (2) Has a terminal condition.
- b. Explain to the patient or the individual legally authorized to act on the patient's behalf the implications of an OOH DNR order.
- c. If the qualified patient or individual legally authorized to act on the patient's behalf decides that the patient should not be resuscitated, the attending physician may issue the OOH DNR order on the prescribed uniform order form. The order will direct health care providers to withhold or withdraw resuscitation.
- d. Explain to the qualified patient or the individual legally authorized to act on the patient's behalf how the OOH DNR order is revoked.
- e. Include a copy of the order in the qualified patient's medical record.
- f. Provide a copy of the order to the qualified patient or the individual legally authorized to act on the patient's behalf.

**142.5(2) Qualified patients or legally authorized persons.** A qualified patient or a person legally authorized to act on a qualified patient's behalf should:

- a. Make an informed decision concerning resuscitation in the face of a terminal condition.
- b. Ensure that the qualified patient's family members are aware of this decision and inform them of the location of the OOH DNR order and the purpose of an OOH DNR identifier.
- c. Understand the process for revocation as described in rule 641—142.6(144A).

**142.5(3) Non-EMS health care providers.** A non-EMS health care provider contemplating resuscitation for a patient should:

- a. Evaluate the patient's status and needs through an assessment consistent with the provider's training, certification and licensure.
- b. Determine that the presenting condition is within the scope of the patient's terminal condition and is not the result of a motor vehicle collision, fire, mass casualty or other cause of a sudden accident or injury.
- c. Determine the existence of an OOH DNR order or that the patient is wearing an OOH DNR identifier.
- d. Honor the OOH DNR order or OOH DNR identifier worn by the patient.

*e.* Discontinue resuscitation if the OOH DNR order or OOH DNR identifier worn by the patient is discovered after resuscitation has begun.

*f.* Provide comfort care to the patient at all times.

*g.* If uncertainty exists regarding the validity or applicability of the OOH DNR order or identifier, the health care provider shall provide the necessary and appropriate resuscitation.

*h.* Document compliance or noncompliance with the OOH DNR order and the reasons for not complying with the order, including evidence that the order was revoked or uncertainty regarding the validity or applicability of the order or OOH DNR identifier.

**142.5(4) Hospitals.** A hospital licensed under Iowa Code chapter 135B:

*a.* Shall not be precluded from honoring an OOH DNR order entered in accordance with this chapter and in compliance with established hospital policies and protocols.

*b.* Should, to avail itself of the immunities provided within Iowa Code chapter 142, establish such policies and protocols to address an OOH DNR order or identifier encountered on a person who presents to the emergency department or in any other area within the facility if the person presents as a patient or visitor.

*c.* Should integrate policies and procedures with the OOH DNR protocol for hospital-based ambulance service programs, if present.

**142.5(5) Other health care organizations.** A nursing home, home health care agency, hospice, or other health care organization should establish policies and protocols consistent with these rules to address admitted patients who have OOH DNR orders.

**641—142.6(144A) Revocation of the out-of-hospital do-not-resuscitate order.** An OOH DNR order is deemed revoked at any time that a patient, or an individual authorized to act on the patient's behalf as designated on the OOH DNR order, is able to communicate in any manner the intent that the order be revoked, without regard to the mental or physical condition of the patient. A revocation is only effective as to the health care provider upon communication to that provider by the patient, an individual authorized to act on the patient's behalf as designated in the OOH DNR order, or by another person to whom the revocation is communicated by the patient.

**641—142.7(144A) Personal wishes of family members or other individuals who are not authorized to act on the patient's behalf.** The personal wishes of family members or other individuals who are not authorized in the order to act on the patient's behalf shall not supersede a valid OOH DNR order.

**641—142.8(144A) Transfer of patients.**

**142.8(1)** An attending physician who is unwilling to comply with an OOH DNR order or who is unwilling to comply with the provisions of Iowa Code section 144A.7A shall take all reasonable steps to effect the transfer of the patient to another physician.

**142.8(2)** If the policies of a hospital, nursing home, home health care agency, hospice or other health care organization preclude compliance with the OOH DNR order of a qualified patient, the provider shall take all reasonable steps to effect the transfer of the patient to an organization in which the provisions of Iowa Code section 144A.7A can be carried out.

**641—142.9(144A) Application to existing orders.**

**142.9(1)** An OOH DNR order or similar order executed prior to September 10, 2003, is valid and shall be honored in accordance with the then-applicable provisions of the law.

**142.9(2)** Health care providers may honor an OOH DNR order or identifier from another state if it can be validated and applied in a manner consistent with the OOH DNR order or identifier prescribed in these rules. In cases where there is uncertainty, clarification should be sought through on-line medical direction or resuscitation efforts should be initiated.

These rules are intended to implement Iowa Code sections 144A.7A and 147A.4.

APPENDIX A

Iowa Department of Public Health  
OUT-OF-HOSPITAL DO-NOT-RESUSCITATE ORDER

(Please type or print)

Date of Order: \_\_\_\_/\_\_\_\_/\_\_\_\_

Patient Information:

Name: (Last)\_\_\_\_\_(First)\_\_\_\_\_(Middle)\_\_\_\_\_

Address: \_\_\_\_\_(City)\_\_\_\_\_ (Zip)\_\_\_\_\_

Date of Birth: \_\_\_\_/\_\_\_\_/\_\_\_\_ Gender (Circle): M or F

Name of Hospice or Care Facility (if applicable): \_\_\_\_\_

Attending Physician Order

As the attending physician for the above-named patient, I certify that this individual is over 18 years of age and has a terminal diagnosis. After consultation with this patient (or the patient’s legal representative), I hereby direct any and all health care providers, including qualified emergency medical services (EMS) personnel, to withhold or withdraw the following life-sustaining procedures in accordance with Iowa law (Iowa Code chapter 142A):

- Cardiopulmonary Resuscitation/Cardiac Compression (Chest Compressions).
- Endotracheal Intubation/Artificial or Mechanical Ventilation (Advance Airway Management).
- Defibrillation and Related Procedures.
- Use of Resuscitation Drugs.

**This directive does NOT apply to other medical interventions for comfort care.**

\_\_\_\_\_  
Signature of Attending Physician (MD, DO)      \_\_\_\_/\_\_\_\_/\_\_\_\_  
Date

\_\_\_\_\_  
Printed Name of Attending Physician      (\_\_\_\_)\_\_\_\_-\_\_\_\_  
Physician’s Telephone (Emergency)

**To the extent that it is possible, a person designated by the patient may revoke this order on the patient’s behalf. If the patient wishes to authorize any other person(s) to revoke this order, the patient MUST list those persons’ names below:**

Name: \_\_\_\_\_  
Name: \_\_\_\_\_  
Name: \_\_\_\_\_  
Name: \_\_\_\_\_

**Patients please note:** Directions for obtaining a uniform identifier are listed on the back of this form. The uniform identifier is the key way the health care provider and/or EMS personnel can quickly recognize that you have an Out-of-Hospital Do-Not-Resuscitate order. If you are not wearing an identifier, the health care provider and/or EMS personnel may not realize that you do not want to be resuscitated.

**Physicians please note:** Information regarding the completion of an Out-of-Hospital Do-Not-Resuscitate order is on the back of this form.

## APPENDIX A

**Directions for obtaining a uniform identifier:**

The uniform identifier may be obtained through MedicAlert®<sup>1</sup>, which requires:

1. A completed MedicAlert® application, which is available in physician offices or through MedicAlert® by phoning (800)432-5378 or the Web site [www.medicalert.org](http://www.medicalert.org), and fee.
2. A copy of this completed OOH DNR order, which must accompany the MedicAlert® application or be sent to MedicAlert® prior to the identifier's being mailed.

<sup>1</sup>*MedicAlert® is a nonprofit 501C membership organization.*

**Suggested guidelines for physicians:**

1. Please review the Iowa Out-of-Hospital Do-Not-Resuscitate order and related protocol with the patient/patient's legal representative(s). The following points may be helpful:

- Patient/patient's legal representative(s) listed on this order must understand the significance of this order, that in the event the patient's heart or breathing stops or malfunctions, the anticipated result of this order is death.
- Patient/patient's legal representative(s) listed on this order may revoke this directive at any time. However, the desire to revoke must be communicated to the EMS or other health care professionals at the scene.
- It is important to emphasize that this order does not apply to medical interventions to make the patient more comfortable.
- The importance of wearing the uniform identifier for those qualified patients who would benefit from the mobility this offers should be stressed. It is also helpful to walk patients through the process they must follow to acquire the identifier.

2. Provide a copy of this order to the patient/patient's legal representative(s) listed on this order and place the original in the patient's medical records.

**The OOH DNR Order form is available through the Iowa Department of Public Health, Bureau of EMS, Lucas State Office Building, Des Moines, Iowa 50319-0075, or through the Bureau of EMS's Web site [www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems).**

[ARC 7550B, IAB 2/11/09, effective 3/18/09]

## APPENDIX B

**EMS OUT-OF-HOSPITAL DO-NOT-RESUSCITATE PROTOCOL**

**Purpose:** This protocol is intended to avoid unwarranted resuscitation by emergency care providers in the out-of-hospital setting for a *qualified patient*.<sup>1</sup> There must be a valid Out-of-Hospital Do-Not-Resuscitate (OOH DNR) order signed by the qualified patient's attending physician or the presence of the OOH DNR identifier indicating the existence of a valid OOH DNR order.

**No resuscitation:** Means withholding any medical intervention that utilizes mechanical or artificial means to sustain, restore, or supplant a spontaneous vital function, including but not limited to:

1. Chest compressions,
2. Defibrillation,
3. Esophageal/tracheal/double-lumen airway; endotracheal intubation, or
4. Emergency drugs to alter cardiac or respiratory function or otherwise sustain life.

**Patient criteria:** The following patients are recognized as qualified patients to receive no resuscitation:

1. The presence of the uniform OOH DNR order or uniform OOH DNR identifier, or
2. The presence of the attending physician to provide direct verbal orders for care of the patient.

*The presence of a signed physician order on a form other than the uniform OOH DNR order form approved by the department may be honored if approved by the service program EMS medical director. However, the immunities provided by law apply only in the presence of the uniform OOH DNR order or uniform OOH DNR identifier. When the uniform OOH DNR order or uniform OOH DNR identifier is not present, contact must be made with on-line medical control and on-line medical control must concur that no resuscitation is appropriate.*

**Revocation:** An OOH DNR order is deemed revoked at any time that a patient, or an individual authorized to act on the patient's behalf as listed on the OOH DNR order, is able to communicate in any manner the intent that the order be revoked. The personal wishes of family members or other individuals who are not authorized in the order to act on the patient's behalf shall not supersede a valid OOH DNR order.

**Comfort Care (♥):** When a patient has met the criteria for no resuscitation under the foregoing information, the emergency care provider should continue to provide that care which is intended to make the patient comfortable (a.k.a. ♥ Comfort Care). Whether other types of care are indicated will depend upon individual circumstances for which medical control may be contacted by or through the responding ambulance service personnel.

**♥Comfort Care** may include, but is not limited to:

1. Pain medication.
2. Fluid therapy.
3. Respiratory assistance (oxygen and suctioning).

<sup>1</sup>*Qualified patient* means an adult patient determined by an attending physician to be in a terminal condition for which the attending physician has issued an Out-of-Hospital DNR order in accordance with the law. (Iowa Administrative Code 641—142.1(144A), definitions)

CHAPTER 143  
AUTOMATED EXTERNAL DEFIBRILLATOR MAINTENANCE

**641—143.1(613) Purpose.** These rules establish standards for the maintenance of automated external defibrillators for a person or entity that owns, manages or is otherwise responsible for the premises on which an automated external defibrillator is located if the person or entity maintains the automated external defibrillator in accordance with Iowa Code section 613.17.

[ARC 7551B, IAB 2/11/09, effective 3/18/09; ARC 3396C, IAB 10/11/17, effective 11/15/17]

**641—143.2(613) Definition.** For the purposes of these rules, the following definition shall apply:

*“Automated external defibrillator”* or *“AED”* means an external semiautomatic device that determines whether defibrillation is required.

[ARC 7551B, IAB 2/11/09, effective 3/18/09; ARC 3396C, IAB 10/11/17, effective 11/15/17]

**641—143.3(613) AED maintenance.** The person or entity maintaining the AED shall:

**143.3(1)** Ensure that the AED is maintained and inspected in accordance with the manufacturer’s guidelines.

**143.3(2)** Maintain records of all maintenance and inspections of the AED for the usable life of the device.

**143.3(3)** Ensure that the AED is programmed to conform to nationally accepted guidelines for treatment of cardiac arrest patients.

[ARC 7551B, IAB 2/11/09, effective 3/18/09; ARC 3396C, IAB 10/11/17, effective 11/15/17]

These rules are intended to implement Iowa Code section 613.17.

[Filed emergency 11/10/04—published 12/8/04, effective 11/10/04]

[Filed 1/13/05, Notice 12/8/04—published 2/2/05, effective 3/9/05]

[Filed ARC 7551B (Notice ARC 7358B, IAB 11/19/08), IAB 2/11/09, effective 3/18/09]

[Filed ARC 9358B (Notice ARC 9241B, IAB 11/17/10), IAB 2/9/11, effective 3/16/11]

[Filed ARC 3396C (Notice ARC 3204C, IAB 7/19/17), IAB 10/11/17, effective 11/15/17]

CHAPTER 144  
EMERGENCY MEDICAL SERVICES—AIR MEDICAL SERVICE  
PROGRAM AUTHORIZATION

**641—144.1(147A) Definitions.** For the purposes of this chapter, the following definitions shall apply:

*“Air ambulance”* means any privately or publicly owned rotorcraft or fixed-wing aircraft which may be specifically designed, modified, constructed, equipped, staffed and used regularly to transport the sick, injured or otherwise incapacitated who are in need of out-of-hospital emergency medical care or whose condition requires treatment or continuous observation while being transported.

*“Air ambulance crew member”* means an individual who has been trained to provide emergency and nonemergency medical care at the certification or licensure levels recognized by the department and who has been issued a certificate or license by the department.

*“Air ambulance service”* means any privately or publicly owned service program which utilizes rotorcraft or fixed-wing aircraft in order to provide patient transportation and emergency medical services.

*“Continuous quality improvement”* or *“CQI”* means a program that is an ongoing process to monitor standards at all EMS operational levels including the structure, process, and outcomes of the patient care event.

*“Critical care paramedic”* or *“CCP”* means a currently certified paramedic specialist who has successfully completed a critical care course of instruction approved by the department and has received endorsement from the department as a critical care paramedic.

*“Critical care transport”* or *“CCT”* means specialty care patient transportation when medically necessary, for a critically ill or injured patient needing CCP skills, between medical care facilities, and provided by an authorized ambulance service that is approved by the department to provide critical care transportation and staffed by one or more critical care paramedics or other health care professional in an appropriate specialty area.

*“Deficiency”* means noncompliance with Iowa Code chapter 147A or these rules.

*“Department”* means the Iowa department of public health.

*“Director”* means the director of the Iowa department of public health.

*“Direct supervision”* means services provided by an EMS provider in a hospital setting or other health care entity in which health care is ordinarily performed when in the personal presence of a physician or under the direction of a physician who is immediately available or under the direction of a physician assistant or registered nurse who is immediately available and is acting consistent with adopted policies and protocols of a hospital or other health care entity.

*“Emergency medical care”* means such medical procedures as:

1. Administration of intravenous solutions.
2. Intubation.
3. Performance of cardiac defibrillation and synchronized cardioversion.
4. Administration of emergency drugs as provided by protocol.
5. Any medical procedure authorized by 641—subrule 131.3(3).

*“Emergency medical care provider”* means an individual who has been trained to provide emergency and nonemergency medical care at the first responder, EMT-basic, EMT-intermediate, EMT-paramedic, paramedic specialist or other certification levels recognized by the department before 1984 and who has been issued a certificate by the department.

*“Emergency medical services”* or *“EMS”* means an integrated medical care delivery system to provide emergency and nonemergency medical care at the scene or during out-of-hospital patient transportation in an ambulance.

*“Emergency medical technician-basic”* or *“EMT-B”* means an individual who has successfully completed the current United States Department of Transportation’s Emergency Medical Technician-Basic curriculum and department enhancements, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-B.

*“Emergency medical technician-paramedic”* or *“EMT-P”* means an individual who has successfully completed the current United States Department of Transportation’s (DOT) EMT-intermediate curriculum or the 1985 or earlier DOT EMT-P curriculum, has passed the department’s approved written and practical examinations, and is currently certified by the department as an EMT-P.

*“Emergency medical transportation”* means the transportation by ambulance of sick, injured or otherwise incapacitated persons who require emergency medical care.

*“EMS advisory council”* means a council appointed by the director to advise the director and develop policy recommendations concerning regulation, administration, and coordination of emergency medical services in the state.

*“EMS system”* means any specific arrangement of emergency medical personnel, equipment, and supplies designed to function in a coordinated fashion.

*“Endorsement”* means providing approval in an area related to emergency medical care including, but not limited to, CCP and emergency medical services.

*“FAA”* means Federal Aviation Administration.

*“FAR”* means Federal Aviation Regulation.

*“Fixed-wing ambulance”* means any privately or publicly owned fixed-wing aircraft specifically designed, modified, constructed, equipped, staffed and used regularly to transport the sick, injured or otherwise incapacitated who are in need of out-of-hospital emergency medical care or whose condition requires treatment or continuous observation while being transported.

*“Hospital”* means any hospital licensed under the provisions of Iowa Code chapter 135B.

*“Inclusion criteria”* means criteria determined by the department and adopted by reference to determine which patients are to be included in the Iowa EMS service program registry or the trauma registry.

*“Iowa EMS Patient Registry Data Dictionary”* means reportable data elements for all ambulance service responses and definitions determined by the department and adopted by reference.

*“Medical direction”* means direction, advice, or orders provided by a medical director, supervising physician, or physician designee (in accordance with written parameters and protocols) to emergency medical care personnel.

*“Medical director”* means any physician licensed under Iowa Code chapter 148, who shall be responsible for overall medical direction of the service program and who has completed a medical director workshop, sponsored by the department, within one year of assuming duties.

*“Nonemergency transportation”* means transportation that may be provided for those persons determined to need transportation only.

*“NTSB”* means National Transportation Safety Board.

*“Off-line medical direction”* means the monitoring of EMS providers through retrospective field assessments and treatment documentation review, critiques of selected cases with the EMS personnel, and statistical review of the system.

*“On-line medical direction”* means immediate medical direction provided directly to service program EMS providers, in accordance with written parameters and protocols, by the medical director, supervising physician or physician designee either on-scene or by any telecommunications system.

*“Paramedic”* or *“EMT-P”* means an emergency medical technician-paramedic.

*“Paramedic specialist”* or *“PS”* means an individual who has successfully completed the current United States Department of Transportation’s EMT-Paramedic curriculum or equivalent, has passed the department’s approved written and practical examinations, and is currently certified by the department as a paramedic specialist.

*“Patient”* means any individual who is sick, injured, or otherwise incapacitated.

*“Patient care report”* or *“PCR”* means a computerized or written report that documents the assessment and management of the patient by the emergency care provider in the out-of-hospital setting.

*“Physician”* means any individual licensed under Iowa Code chapter 148.

*“Physician assistant”* or *“PA”* means an individual licensed pursuant to Iowa Code chapter 148C.

*“Physician designee”* means any registered nurse licensed under Iowa Code chapter 152, or any physician assistant licensed under Iowa Code chapter 148C and approved by the board of physician

assistants. The physician designee acts as an intermediary for a supervising physician in accordance with written policies and protocols in directing the care provided by emergency medical care providers.

*“Preceptor”* means an individual who has been assigned by the training program, clinical facility or service program to supervise students while the students are completing their clinical or field experience. A preceptor must be an emergency medical care provider certified at the level being supervised or higher, or must be licensed as a registered nurse, physician assistant or physician.

*“Protocols”* means written directions and orders, consistent with the department’s standard of care, that are to be followed by an emergency medical care provider in emergency and nonemergency situations. Protocols must be approved by the service program’s medical director and must address the care of both adult and pediatric patients.

*“Registered nurse”* or *“RN”* means an individual licensed pursuant to Iowa Code chapter 152.

*“Reportable patient data”* means data elements and definitions determined by the department and adopted by reference to be reported to the Iowa EMS service program registry or the trauma registry or a trauma care facility on patients meeting the inclusion criteria.

*“Rotorcraft ambulance”* means any privately or publicly owned rotorcraft specifically designed, modified, constructed, equipped, staffed and used regularly to transport the sick, injured or otherwise incapacitated who are in need of out-of-hospital emergency medical care or whose condition requires treatment or continuous observation while being transported.

*“Service director”* means an individual who is responsible for the operation and administration of a service program.

*“Service program”* or *“service”* means any medical care air ambulance service that has received authorization by the department.

*“Service program area”* means the geographic area of responsibility served by any given ambulance or nontransport service program.

*“Student”* means any individual enrolled in a training program and participating in the didactic, clinical, or field experience portions.

*“Supervising physician”* means any physician licensed under Iowa Code chapter 148. The supervising physician is responsible for medical direction of emergency medical care personnel when such personnel are providing emergency medical care.

*“Training program”* means an NCA-approved Iowa college, the Iowa law enforcement academy or an Iowa hospital approved by the department to conduct emergency medical care training.

*“Transport agreement”* means a written agreement between two or more service programs that specifies the duties and responsibilities of the agreeing parties to ensure appropriate transportation of patients in a given service area.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

#### **641—144.2(147A) Authority of emergency medical care provider.**

**144.2(1)** An emergency medical care provider who holds an active certification issued by the department may:

*a.* Render via on-line medical direction emergency and nonemergency medical care in those areas for which the emergency medical care provider is certified, as part of an authorized service program:

- (1) At the scene of an emergency;
- (2) During transportation to a hospital;
- (3) While in the hospital emergency department;
- (4) Until patient care is directly assumed by a physician or by authorized hospital personnel; and
- (5) During transfer from one entity where health care is normally provided to another.

*b.* Function in any hospital or any other entity in which health care is ordinarily provided only when under the direct supervision of a physician when:

- (1) Enrolled as a student in and approved by a training program;
- (2) Fulfilling continuing education requirements;
- (3) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician as a member of an authorized service

program, or in an individual capacity, by rendering lifesaving services in the facility in which employed or assigned pursuant to the emergency medical care provider's certification and under direct supervision of a physician, physician assistant, or registered nurse. An emergency medical care provider shall not routinely function without the direct supervision of a physician, physician assistant, or registered nurse. However, when the physician, physician assistant, or registered nurse cannot directly assume emergency care of the patient, the emergency medical care personnel may perform, without direct supervision, emergency medical care procedures for which certified, if the life of the patient is in immediate danger and such care is required to preserve the patient's life;

(4) Employed by or assigned to a hospital or other entity in which health care is ordinarily provided only when under the direct supervision of a physician, as a member of an authorized service program, or in an individual capacity, to perform nonlifesaving procedures for which certified and designated in a written job description. Such procedures may be performed after the patient is observed by and when the emergency medical care provider is under the supervision of the physician, physician assistant, or registered nurse, including when the registered nurse is not acting in the capacity of a physician designee, and where the procedure may be immediately abandoned without risk to the patient.

**144.2(2)** When emergency medical care personnel are functioning in a capacity identified in paragraph 144.2(1) "a," they may perform emergency and nonemergency medical care without contacting a supervising physician or physician designee if written protocols have been approved by the service program medical director which clearly identify when the protocols may be used in lieu of voice contact.

**144.2(3)** An emergency medical care provider who has knowledge of an emergency medical care provider, service program or training program that has violated Iowa Code chapter 147A or these rules shall report such information to the department within 30 days.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.3(147A) Air ambulance service program—authorization and renewal procedures, inspections and transfer or assignment of certificates of authorization.**

**144.3(1)** *General requirements for air ambulance authorization and renewal of authorization.*

a. An air ambulance service in this state that desires to provide emergency medical care in an out-of-hospital setting shall apply to the department for authorization to establish a program utilizing certified emergency medical care providers for delivery of care at the scene of an emergency or a nonemergency, during transportation to a hospital, during transfer from one medical care facility to another, or while in the hospital emergency department and until care is directly assumed by a physician or by authorized hospital personnel. Application for authorization shall be made on forms provided by the department. Applicants shall complete and submit the forms to the department at least 30 days prior to the anticipated date of authorization.

b. To renew service program authorization, the service program shall continue to meet the requirements of Iowa Code chapter 147A and these rules. The renewal application shall be completed and submitted to the department at least 30 days before the current authorization expires.

c. Applications for authorization and renewal of authorization may be obtained upon request to: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

d. The department shall approve an application when the department is satisfied that the program proposed by the application will be operated in compliance with Iowa Code chapter 147A and these rules.

e. Service program authorization is valid for a period of three years from its effective date unless otherwise specified on the certificate of authorization or unless sooner suspended or revoked.

f. Service programs shall be fully operational upon the effective date and at the level specified on the certificate of authorization and shall meet all applicable requirements of Iowa Code chapter 147A and these rules. Deficiencies that are identified shall be corrected within a time frame determined by the department.

g. Any service program owner in possession of a certificate of authorization as a result of transfer or assignment shall continue to meet all applicable requirements of Iowa Code chapter 147A and these rules. In addition, the new owner shall apply to the department for a new certificate of authorization within 30 days following the effective date of the transfer or assignment.

h. Service programs that acquire and maintain current status with a nationally recognized EMS service program accreditation entity that meets or exceeds Iowa requirements may be exempted from the service application/inspection process. A copy of the state service application and accreditation inspection must be filed with the department for approval.

**144.3(2) *Out-of-state air ambulance service programs.***

a. Service programs located in other states which wish to provide emergency medical care in Iowa must meet all requirements of Iowa Code chapter 147A and these rules and must be authorized by the department except when:

- (1) Transporting patients from locations within Iowa to destinations outside of Iowa;
- (2) Transporting patients from locations outside of Iowa to destinations within Iowa;
- (3) Transporting patients to and from locations outside of Iowa when doing so requires travel through Iowa;
- (4) Responding to a request for mutual aid in this state; or
- (5) Making less than 30 EMS responses per year to locations within Iowa and then transporting the patients to destinations within Iowa.

b. An out-of-state service program that meets any of the exception criteria established in this subrule shall be authorized to provide emergency medical care by the state in which the program resides and shall provide the department with verification of current state authorization upon request.

**144.3(3) *Air ambulance service program inspections.***

a. The department shall inspect each service program at least once every three years. The department without prior notification may make additional inspections at times, places and under such circumstances as it deems necessary to ensure compliance with Iowa Code chapter 147A and these rules.

b. The department may request additional information from or may inspect the records of any service program which is currently authorized or which is seeking authorization to ensure continued compliance or to verify the validity of any information presented on the application for service program authorization.

c. The department may inspect the patient care records of a service program to verify compliance with Iowa Code chapter 147A and these rules.

d. No person shall interfere with the inspection activities of the department or its agents pursuant to Iowa Code section 135.36.

e. Interference with or failure to allow an inspection by the department or its agents may be cause for disciplinary action in reference to service program authorization.

**144.3(4) *Temporary service program authorization.***

a. A temporary service program authorization may be issued to services that wish to operate during special events that may need emergency medical care coverage at a level other than basic care. Temporary authorization is valid for a period of 30 days unless otherwise specified on the certificate of authorization or unless sooner suspended or revoked. Temporary authorization shall apply to those requirements and standards for which the department is responsible. Applicants shall complete and submit the necessary forms to the department at least 30 days prior to the anticipated date of need.

b. The service shall meet applicable requirements of these rules but may apply for a variance using the criteria outlined in rule 641—144.7(147A).

c. The service shall submit a justification which demonstrates the need for the temporary service program authorization.

d. The service shall submit a report to the department within 30 days after the expiration of the temporary authorization which includes as a minimum:

- (1) Number of patients treated;
- (2) Types of treatment rendered;

- (3) Any operational or medical problems.  
[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.4(147A) Service program levels of care and staffing standards.**

**144.4(1)** An air ambulance service program seeking authorization shall:

- a. Apply for authorization at the following levels:
  - (1) EMT-Basic.
  - (2) Paramedic specialist.
  - (3) Critical care transport.
- b. Conduct all air ambulance service flights under a minimum of FAR rules, Part 135.
- c. Maintain an adequate number of aircraft and personnel to provide 24-hour-per-day, 7-day-per-week coverage. The number of aircraft and personnel to be maintained shall be determined by the service and shall be based upon, but not limited to, the following:
  - (1) Number of calls;
  - (2) Service area and population; and
  - (3) Availability of other services in the area.
- d. Staff fixed-wing ambulances, at a minimum on each flight request, with the following staff while a patient is being transported:
  - (1) One health care provider who is certified or licensed in the state from which the aircraft launches and is certified as an EMT-Basic or higher level; and
  - (2) One FAA-certified commercial pilot who is appropriately rated in the aircraft being used for the transport.
- e. Staff rotorcraft ambulances, at a minimum on each flight request, with the following staff while a patient is being transported:
  - (1) Two health care providers who are certified or licensed in the state from which the aircraft launches, one of whom must at a minimum be certified as a paramedic specialist; and
  - (2) One FAA-certified commercial pilot who is appropriately rated in the aircraft being used for the transport.
- f. Train medical crew members in the following areas:
  - (1) Patient care limitations in flight.
  - (2) Altitude physiology.
  - (3) Appropriate utilization of air medical services.
  - (4) Communication system.
  - (5) Aircraft operations and safety.
  - (6) Emergency safety and survival.
  - (7) Prehospital scene response and safety.
  - (8) Crew resource management.
  - (9) Program flight risk assessment procedures.
- g. Apply to the department to receive approval to provide critical care transportation based upon appropriately trained staff and approved equipment.
- h. Ensure that the health care provider with the highest level of certification (on the transporting service) attends the patient, unless otherwise established by protocol approved by the medical director.

**144.4(2)** Air ambulance service program operational requirements. Air ambulance service programs shall:

- a. Complete and maintain a patient care report concerning the care provided to each patient. Services shall provide, at a minimum, a verbal report upon delivery of a patient to a receiving facility and shall provide a complete PCR within 24 hours to the receiving facility.
- b. Ensure that personnel duties are consistent with the level of certification and the service program's level of authorization.
- c. Maintain current personnel rosters and personnel files. The files shall include the names and addresses of all personnel and documentation that verifies EMS provider credentials including, but not limited to:

- (1) Current provider level certification.
- (2) Current course completions/certifications/endorsements as may be required by the medical director.
  - d.* If requested by the department, notify the department in writing of any changes in personnel rosters.
  - e.* Have a medical director and 24-hour-per-day, 7-day-per-week on-line medical direction available.
  - f.* Ensure that the appropriate service program personnel respond as required in this rule and that personnel respond in a reasonable amount of time.
  - g.* Notify the department in writing within seven days of any change in service director or ownership or control or of any reduction or discontinuance of operations.
  - h.* Select a new or temporary medical director if for any reason the current medical director cannot or no longer wishes to serve in that capacity. Selection shall be made before the current medical director relinquishes the duties and responsibilities of that position.
  - i.* Within seven days of any change of medical director, notify the department in writing of the selection of the new or temporary medical director who must have indicated in writing a willingness to serve in that capacity.
  - j.* Implement a continuous quality improvement program for patient transport missions to include as a minimum:
    - (1) Medical audits.
    - (2) Skills competency.
    - (3) Flight safety procedures.
    - (4) Appropriateness of air medical response.
    - (5) Review of flight risk assessment.
    - (6) Loop closure requiring physician review of patient transport missions.
  - k.* Document an equipment maintenance program to ensure proper working condition and appropriate quantities.

**144.4(3) Air ambulance equipment and vehicle standards.**

- a.* All air ambulance service programs shall carry equipment and supplies in quantities as determined by the medical director and appropriate to the service program's level of care and available medical crew member personnel, and as established in the service program's approved protocols.
- b.* Pharmaceutical drugs may be carried and administered by appropriate staff upon completion of training and pursuant to the service program's established protocols approved by the medical director.
- c.* All pharmaceuticals shall be maintained in accordance with the rules of the state board of pharmacy.
- d.* Accountability for drug exchange, distribution, storage, ownership, and security shall be subject to applicable state and federal requirements. The method of accountability shall be described in the written pharmacy agreement. A copy of the written pharmacy agreement shall be submitted to the department.
- e.* Each aircraft shall be equipped and maintained in accordance with FAA operating requirements.
- f.* Each aircraft shall be equipped with a survival kit.

**144.4(4) Communications and flight dispatch program.**

- a.* Each service program shall maintain a telecommunications system between the medical crew member and the source of the service program's medical direction and other appropriate entities.
- b.* All telecommunications shall be conducted in an appropriate manner and on a frequency approved by the Federal Communications Commission and the department.
- c.* A flight-following policy shall be adopted. This policy shall at a minimum contain the following:
  - (1) Minimum time between communications with aircraft and its monitoring center;
  - (2) Documentation of communications with flight;
  - (3) Lost communications procedures; and
  - (4) Overdue aircraft procedures.

*d.* Flight programs shall provide staff or contract with a flight dispatch system for receiving flight requests. Communication specialists shall be trained in the following:

- (1) Flight operations;
- (2) Aviation weather;
- (3) Aviation maintenance;
- (4) Flight following;
- (5) Flight risk assessment;
- (6) Flight service minimum safety standards; and
- (7) Overdue aircraft procedures.

**144.4(5)** Flight risk assessment policy.

*a.* Each service shall have a flight risk assessment policy in accordance with current FAA guidelines.

*b.* Flight risk assessment policies shall mandate adherence to policy for all flights.

*c.* Flight risk assessment policies shall address other flight services being requested, en route, or having been denied request to same incident.

**144.4(6)** Air ambulance service program—incident and accident response and reports.

*a.* Air medical services shall have a policy in place outlining missing/overdue/accident issues. This policy will contain at a minimum the following:

- (1) Overdue aircraft procedures; and
- (2) Postincident action plans.

*b.* Incidents of fire or other destructive or damaging occurrences or theft of a service program aircraft, vehicle, equipment, or drugs shall be reported to the department within 48 hours following the occurrence of the incident.

*c.* A report relating to an accident resulting in personal injury, death or property damage shall be submitted to the department within seven days following an accident involving a service program aircraft or vehicle. A complete FAA/NTSB accident report shall be submitted to the bureau of EMS upon completion of the report.

**144.4(7)** Reportable patient data—adoption by reference.

*a.* The department shall prepare compilations for release or dissemination on all reportable patient data entered into the EMS service program registry during the reporting period. The compilations shall include, but not be limited to, trends and patient care outcomes for local, regional, and statewide evaluations. The compilations shall be made available to all service programs submitting reportable patient data to the registry.

*b.* Access and release of reportable patient data and information.

(1) The data collected by and furnished to the department pursuant to this subrule are confidential records of the condition, diagnosis, care, or treatment of patients or former patients, including outpatients, pursuant to Iowa Code section 22.7. The compilations prepared for release or dissemination from the data collected are not confidential under Iowa Code subsection 22.7(2). However, information which individually identifies patients shall not be disclosed, and state and federal law regarding patient confidentiality shall apply.

(2) The department may approve requests for reportable patient data for special studies and analysis provided that the request has been reviewed and approved by the deputy director of the department with respect to the scientific merit and confidentiality safeguards and the department has given administrative approval for the proposal. The confidentiality of patients and the EMS service program shall be protected.

(3) The department may require entities requesting the data to pay any or all of the reasonable costs associated with furnishing the reportable patient data.

*c.* To the extent possible, activities under this subrule shall be coordinated with other health data collection methods.

*d.* Quality assurance.

(1) For the purpose of ensuring the completeness and quality of reportable patient data, the department or an authorized representative may examine all or part of the patient care report as necessary to verify or clarify all reportable patient data submitted by a service program.

(2) Review of a patient care report by the department shall be scheduled in advance with the service program and completed in a timely manner.

*e.* “Iowa Trauma Patient Data Dictionary” is available through the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

*f.* “Iowa EMS Patient Registry Data Dictionary” identified in 641—paragraph 136.2(1)“*c*” is incorporated by reference for inclusion criteria and reportable patient data to be reported to the department. For any differences which may occur between the adopted reference and this chapter, the administrative rules shall prevail.

*g.* “Iowa EMS Patient Registry Data Dictionary” identified in 641—paragraph 136.2(1)“*c*” is available through the Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075, or the bureau of EMS Web site ([www.idph.state.ia.us/ems](http://www.idph.state.ia.us/ems)).

**144.4(8)** An air ambulance service program shall:

*a.* Submit reportable patient data identified in subrule 144.4(7) via electronic transfer. Data shall be submitted in a format approved by the department.

*b.* Submit reportable patient data identified in subrule 144.4(7) to the department for each calendar quarter. Reportable patient data shall be submitted no later than 90 days after the end of the quarter.

**144.4(9)** The patient care report is a confidential document and shall be exempt from disclosure pursuant to Iowa Code subsection 22.7(2) and shall not be accessible to the general public. Information contained in these reports, however, may be utilized by any of the indicated distribution recipients and may appear in any document or public health record in a manner which prevents the identification of any patient or person named in these reports.

**144.4(10)** Implementation. The director may grant exceptions and variances from the requirements of this chapter for any air medical service. Exceptions or variations shall be reasonably related to undue hardships which existing services experience in complying with this chapter. Services requesting exceptions and variances shall be subject to other applicable rules adopted pursuant to Iowa Code chapter 147A. Nothing in this chapter shall be construed to require any service to provide a level of care beyond minimum basic care standards.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.5(147A) Air ambulance service program—off-line medical direction.**

**144.5(1)** The medical director shall be responsible for providing appropriate medical direction and overall supervision of the medical aspects of the service program and shall ensure that those duties and responsibilities are not relinquished before a new or temporary replacement is functioning in that capacity.

**144.5(2)** The medical director’s duties include, but need not be limited to:

*a.* Developing, approving and updating protocols to be used by service program personnel that meet or exceed the minimum standard protocols developed by the department.

*b.* Developing and maintaining liaisons between the service, other physicians, physician designees, hospitals, and the medical community served by the service program.

*c.* Monitoring and evaluating the activities of the service program and individual personnel performance, including establishment of measurable outcomes that reflect the goals and standards of the EMS system.

*d.* Assessing the continuing education needs of the service and individual service program personnel and assisting them in the planning of appropriate continuing education programs.

*e.* Being available for individual evaluation and consultation to service program personnel.

*f.* Performing or appointing a designee to complete the medical audits required in subrule 144.5(4).

*g.* Developing and approving an applicable continuous quality improvement policy to be used for all patient care encounters, including an action plan and follow-up.

*h.* Informing the medical community of the emergency medical care being provided according to approved protocols in the service program area.

*i.* Helping to resolve service operational problems.

*j.* Approving or removing an individual from service program participation.

**144.5(3)** Supervising physicians, physician designees, or other appointees as defined in the continuous quality improvement policy referenced in paragraph 144.5(2) “g” may assist the medical director by:

*a.* Providing medical direction.

*b.* Reviewing the emergency medical care provided.

*c.* Reviewing and updating protocols.

*d.* Providing and assessing continuing education needs for service program personnel.

*e.* Helping to resolve operational problems.

**144.5(4)** The medical director or other qualified designees shall randomly audit (at least quarterly) documentation of calls where emergency medical care was provided. The medical director shall randomly review audits performed by the qualified appointee. The audit shall be in writing and shall include, but need not be limited to:

*a.* Reviewing the patient care provided by service program personnel and remedying any deficiencies or potential deficiencies that may be identified regarding medical knowledge or skill performance.

*b.* Response time and time spent at the scene.

*c.* Overall EMS system response to ensure that the patient’s needs were matched to available resources including, but not limited to, mutual aid and tiered response.

*d.* Completeness of documentation.

**144.5(5)** On-line medical direction when provided through a hospital.

*a.* The medical director shall designate in writing at least one hospital which has established a written on-line medical direction agreement with the department. It shall be the medical director’s responsibility to notify the department in writing of changes regarding this designation.

*b.* Hospitals signing an on-line medical direction agreement shall:

(1) Ensure that the supervising physicians or physician designees will be available to provide on-line medical direction via telecommunications on a 24-hour-per-day basis.

(2) Identify the service programs for which on-line medical direction will be provided.

(3) Establish written protocols for use by supervising physicians and physician designees who provide on-line medical direction.

(4) Administer a quality assurance program to review orders given. The program shall include a mechanism for the hospital and service program medical directors to discuss and resolve any identified problems.

*c.* A hospital which has a written medical direction agreement with the department may provide medical direction for any or all service program authorization levels and may also agree to provide backup on-line medical direction for any other service program when that service program is unable to contact its primary source of on-line medical direction.

*d.* Only supervising physicians or physician designees shall provide on-line medical direction. However, a physician assistant, registered nurse or EMT (of equal or higher level) may relay orders to emergency medical care personnel, without modification, from a supervising physician. A physician designee may not deviate from approved protocols.

*e.* The hospital shall provide, upon request to the department, a list of supervising physicians and physician designees providing on-line medical direction.

*f.* The department may verify a hospital’s communications system to ensure compliance with the on-line medical direction agreement.

*g.* A supervising physician or physician designee who gives orders (directly or via communications equipment from some other point) to an emergency medical care provider is not subject to criminal liability by reason of having issued the orders and is not liable for civil damages for acts or omissions relating to the issuance of the orders unless the acts or omissions constitute recklessness.

*h.* Nothing in these rules requires or obligates a hospital, supervising physician or physician designee to approve requests for orders received from emergency medical care personnel.

NOTE: Hospitals in other states may participate provided that the applicable requirements of this subrule are met.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.6(147A) Complaints and investigations—denial, citation and warning, probation, suspension or revocation of service program authorization or renewal.**

**144.6(1)** All complaints regarding the operation of authorized air medical service programs, or those purporting to be or operating as the same, shall be reported to the department. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**144.6(2)** Complaints and the investigative process will be treated as confidential in accordance with Iowa Code section 22.7 and chapter 272C.

**144.6(3)** Air ambulance service program authorization may be denied or a program may be disciplined as provided in subrule 144.6(4) by the department in accordance with Iowa Code subsections 147A.5(3) and 272C.3(2) for any of the following reasons:

- a.* Knowingly allowing the falsifying of a patient care report (PCR).
- b.* Failure to submit required reports and documents.
- c.* Delegating professional responsibility to a person when the service program knows that the person is not qualified by training, education, experience or certification to perform the required duties.
- d.* Practicing, condoning, or facilitating discrimination against a patient, student or employee based on race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, mental or physical disability diagnosis, or social or economic status.
- e.* Knowingly allowing sexual harassment of a patient, student or employee. Sexual harassment includes sexual advances, sexual solicitations, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- f.* Failure or repeated failure of the applicant or alleged violator to meet the requirements or standards established pursuant to Iowa Code chapter 147A or the rules adopted pursuant to that chapter.
- g.* Obtaining or attempting to obtain or renew or retain service program authorization by fraudulent means or misrepresentation or by submitting false information.
- h.* Engaging in conduct detrimental to the well-being or safety of the patients receiving or who may be receiving emergency medical care.
- i.* Failure to correct a deficiency within the time frame required by the department.

**144.6(4)** Method of discipline. The department has the authority to impose the following disciplinary sanctions against an authorized service program:

- a.* Issue a citation and warning.
- b.* Impose a civil penalty not to exceed \$1,000.
- c.* Require additional education or training.
- d.* Impose a period of probation under specified conditions.
- e.* Prohibit permanently, until further order of the department, or for a specific period a service program's ability to engage in specific procedures, methods, acts, or activities incident to the practice of the profession.
- f.* Suspend an authorization until further order of the department or for a specific period.
- g.* Revoke an authorization.
- h.* Impose such other sanctions as allowed by law and as may be appropriate.

**144.6(5)** The department shall notify the applicant of the granting or denial of authorization or renewal, or shall notify the alleged violator of action to issue a citation and warning, place on probation, suspend or revoke authorization or renewal pursuant to Iowa Code sections 17A.12 and 17A.18. Notice of issuance of a denial, citation and warning, probation, suspension or revocation shall be served by restricted certified mail, return receipt requested, or by personal service.

**144.6(6)** Any requests for appeal concerning the denial, citation and warning, probation, suspension or revocation of service program authorization or renewal shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice. The address is: Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075. If such a request is made within the 20-day time period, the notice shall be deemed to be suspended. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. After the hearing, or upon default of the applicant or alleged violator, the administrative law judge shall affirm, modify or set aside the denial, citation and warning, probation, suspension or revocation. If no request for appeal is received within the 20-day time period, the department's notice of denial, probation, citation and warning, suspension or revocation shall become the department's final agency action.

**144.6(7)** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**144.6(8)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10.

**144.6(9)** When the administrative law judge makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken as provided in subrule 144.6(10).

**144.6(10)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**144.6(11)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections, and rulings thereon.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**144.6(12)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

**144.6(13)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**144.6(14)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Bureau of Emergency Medical Services, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**144.6(15)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**144.6(16)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the appropriate professional associations, the news media or an employer.

**144.6(17)** This rule is not subject to waiver or variance pursuant to 641—Chapter 178 or any other provision of law.

**144.6(18)** Emergency adjudicative proceedings.

*a.* Necessary emergency action. To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18 to suspend authorization in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order.

*b.* Before issuing an emergency adjudicative order, the department shall consider factors including, but not limited to, the following:

(1) Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;

(2) Whether the specific circumstances which pose immediate danger to the public health, safety, or welfare have been identified and determined to be continuing;

(3) Whether the program required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety, or welfare;

(4) Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety, or welfare; and

(5) Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

*c.* Issuance of order.

(1) An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action. The order is a public record.

(2) The written emergency adjudicative order shall be immediately delivered to the service program that is required to comply with the order by utilizing one or more of the following procedures:

1. Personal delivery.

2. Certified mail, return receipt requested, to the last address on file with the department.

3. Facsimile. Fax may be used as the sole method of delivery if the service program required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

(3) To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

(4) Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the service program that is required to comply with the order.

(5) After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

(6) Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the service program that is required to comply with the order is the party requesting the continuance.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

**641—144.7(147A) Temporary variances.**

**144.7(1)** If during a period of authorization there is some occurrence that temporarily causes a service program to be in noncompliance with these rules, the department may grant a temporary variance. Temporary variances from these rules (not to exceed six months in length per any approved

request) may be granted by the department to a currently authorized service program. Requests for temporary variances shall apply only to the service program requesting the variance and shall apply only to those requirements and standards for which the department is responsible.

**144.7(2)** To request a variance, the service program shall:

*a.* Notify the department verbally (as soon as possible) of the need to request a temporary variance. Submit to the department, within ten days after having given verbal notification to the department, a written explanation for the temporary variance request. The address and telephone number are Iowa Department of Public Health, Bureau of Emergency Medical Services, Lucas State Office Building, Des Moines, Iowa 50319-0075; (515)725-0326.

*b.* Cite the rule from which the variance is requested.

*c.* State why compliance with the rule cannot be maintained.

*d.* Explain the alternative arrangements that have been or will be made regarding the variance request.

*e.* Estimate the period of time for which the variance will be needed.

**144.7(3)** Upon notification of a request for variance, the department shall consider, but shall not be limited to the following:

*a.* Examining the rule from which the temporary variance is requested to determine if the request is appropriate and reasonable.

*b.* Evaluating the alternative arrangements that have been or will be made regarding the variance request.

*c.* Examining the effect of the requested variance upon the level of care provided to the general populace served.

*d.* Requesting additional information if necessary.

**144.7(4)** Preliminary approval or denial shall be provided verbally within 24 hours. Final approval or denial shall be issued in writing within ten days after department receipt of the written explanation for the temporary variance request and shall include the reason for approval or denial. If approval is granted, the effective date and the duration of the temporary variance shall be clearly stated.

**144.7(5)** Any request for appeal concerning the denial of a request for temporary variance shall be in accordance with the procedures outlined in rule 641—144.6(147A).

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

#### **641—144.8(147A) Transport options for air medical services.**

**144.8(1)** Upon responding to an emergency call, air medical services may make a determination at the scene as to whether air medical transportation is needed. The determination shall be made by a medical crew member and shall be based upon protocol and concurrence of medical control approved by the service program's medical director. When the medical crew member applies this protocol to determine the appropriate transport option, the following criteria, as a minimum, shall be used:

*a.* Primary assessment;

*b.* Focused history and physical examination;

*c.* Chief complaint;

*d.* Name, address and age of the individual in need of emergency assistance; and

*e.* Nature of the call for assistance.

**144.8(2)** Air medical transportation shall be provided whenever any of the above criteria indicate that treatment should be initiated. If treatment is not indicated, the air medical service program shall make arrangements for alternate transportation, if indicated.

[ARC 8662B, IAB 4/7/10, effective 5/12/10]

These rules are intended to implement Iowa Code chapter 147A.

[Filed ARC 8662B (Notice ARC 8499B, IAB 1/27/10), IAB 4/7/10, effective 5/12/10]

CHAPTER 145  
IOWA PHYSICIAN ORDERS FOR SCOPE OF TREATMENT

**641—145.1(144D) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Advanced registered nurse practitioner*” means an advanced registered nurse practitioner licensed pursuant to Iowa Code chapter 152 or 152E.

“*Department*” means the department of public health.

“*Director*” means the director of the department of public health.

“*Emergency medical care provider*” means emergency medical care provider as defined in Iowa Code section 147A.1.

“*Health care facility*” means health care facility as defined in Iowa Code section 135C.1, a hospice program as defined in Iowa Code section 135J.1, an elder group home as defined in Iowa Code section 231B.1, and an assisted living program as defined in Iowa Code section 231C.2.

“*Health care provider*” means an individual, including an emergency medical care provider and an individual providing home- and community-based services, and including a home health agency, licensed, certified, or otherwise authorized or permitted by the law of this state to administer health care in the ordinary course of business or in the practice of a profession.

“*Home health agency*” means home health agency as defined in 42 CFR Part 484.

“*Hospital*” means hospital as defined in Iowa Code section 135B.1.

“*Legal representative*” means an individual authorized to execute a POST form on behalf of a patient who is not competent to do so, in the order of priority set out in Iowa Code section 144A.7, subsection 1, and guided by the express or implied intentions of the patient or, if such intentions are unknown, by the patient’s best interests given the patient’s overall medical condition and prognosis.

“*Patient*” means an individual who is frail and elderly or who has a chronic, critical medical condition or a terminal illness and for which a physician orders for scope of treatment is consistent with the individual’s goals of care.

“*Physician*” means a person licensed to practice medicine and surgery or osteopathic medicine and surgery in this state.

“*Physician assistant*” means a person licensed as a physician assistant under Iowa Code chapter 148C.

“*Physician orders for scope of treatment form*” or “*POST form*” means a document containing medical orders which may be relied upon across medical settings that consolidates and summarizes a patient’s preferences for life-sustaining treatments and interventions and acts as a complement to and does not supersede any valid advance directive.

[ARC 2280C, IAB 12/9/15, effective 1/13/16]

**641—145.2(144D) Purpose.** The purpose of this chapter is to establish the process for the development, review, modification, and posting of the POST form.

[ARC 2280C, IAB 12/9/15, effective 1/13/16]

**641—145.3(144D) Responsibilities of the department.**

**145.3(1)** The department shall prescribe the uniform POST form and shall post the form on the department’s Web site [www.idph.iowa.gov](http://www.idph.iowa.gov) for public availability.

**145.3(2)** The POST form shall be a uniform form based upon the national physician orders for life-sustaining treatment (POLST) paradigm form. The form shall have all of the following characteristics:

- a. The form shall include the patient’s name and date of birth.
- b. The form shall be signed and dated by the patient or the patient’s legal representative.
- c. The form shall be signed and dated by the patient’s physician, advanced registered nurse practitioner, or physician assistant.
- d. If preparation of the form was facilitated by an individual other than the patient’s physician, advanced registered nurse practitioner, or physician assistant, the facilitator shall also sign and date the form.

*e.* The form shall include the patient's wishes regarding the care of the patient, including but not limited to all of the following:

- (1) The administration of cardiopulmonary resuscitation.
- (2) The level of medical interventions in the event of a medical emergency.
- (3) The use of medically administered nutrition by tube.
- (4) The rationale for the orders.

*f.* The form shall be easily distinguishable to facilitate recognition by health care providers, hospitals, and health care facilities.

*g.* An incomplete section on the form shall imply the patient's wishes for full treatment for the type of treatment addressed in that section.

**145.3(3)** The POST form shall be reviewed by the department on an annual basis and may be reviewed more frequently at the discretion of the director. The POST form may be modified based on changes to the national POLST paradigm, input from interested parties, advances in evidence-based research or quality improvement processes, or clinical experience. The director shall annually designate a task force to review and recommend modifications to the POST form. The director shall review the task force recommendations and approve all final modifications to the POST form before it is posted on the department's Web site.

[ARC 2280C, IAB 12/9/15, effective 1/13/16]

These rules are intended to implement Iowa Code section 144D.2.

[Filed ARC 2280C (Notice ARC 2084C, IAB 8/5/15), IAB 12/9/15, effective 1/13/16]

CHAPTER 146  
STROKE CARE REPORTING

**641—146.1(135) Purpose.** The purpose of this chapter is to identify the statewide stroke database where nationally certified comprehensive stroke centers and nationally certified primary stroke centers in the state are required to report stroke care data in accordance with Iowa Code chapter 135.

[ARC 3748C, IAB 4/11/18, effective 5/16/18]

**641—146.2(135) Definitions.**

“*Comprehensive stroke center*” means a hospital certified as a comprehensive stroke center by a nationally recognized certifying body with certification criteria consistent with the most current nationally recognized, evidence-based stroke guidelines related to reducing the occurrence of and disabilities and death associated with stroke.

“*Department*” means the Iowa department of public health.

“*Primary stroke center*” means a hospital certified as a primary stroke center by a nationally recognized certifying body with certification criteria consistent with the most current nationally recognized, evidence-based stroke guidelines related to reducing the occurrence of and disabilities and death associated with stroke.

“*Stroke*” means a clinical diagnosis of acute stroke or principal International Classification of Disease, 10th Revision, Clinical Modification (ICD-10-CM) discharge code of “stroke,” or “transient ischemic attack,” or “cerebral infarction,” or “cerebral hemorrhage.”

“*Stroke care*” means care provided to individuals with confirmed cases of stroke.

[ARC 3748C, IAB 4/11/18, effective 5/16/18]

**641—146.3(135) Stroke care reporting.**

**146.3(1) Iowa statewide stroke database.** The department designates the Get with the Guidelines stroke module of the American Heart Association/American Stroke Association as the Iowa stroke database established in Iowa Code section 135.191.

**146.3(2) Who is required to report.** All nationally certified comprehensive stroke centers and all nationally certified primary stroke centers operating in the state of Iowa are required to report stroke data. Nationally certified acute stroke-ready hospitals and emergency medical services operating in the state of Iowa are encouraged to report stroke care data.

**146.3(3) What is required to be reported.** Reportable data of stroke care are required to be reported. Reportable data are those data identified by a clinical diagnosis of acute stroke or by the following ICD-10 coding:

ICD-10-CM Code	Short Description
I60.00 - I60.9	Nontraumatic subarachnoid hemorrhage
I61.0 - I61.9	Nontraumatic intracerebral hemorrhage
I63.00 - I63.9	Cerebral infarction (occlusion and stenosis of cerebral and precerebral arteries, resulting in cerebral infarction)
G45.0 - G45.2	TIA and related syndromes
G45.8 - G45.9	TIA and related syndromes
O99.411 - O99.43	Diseases of the circulatory system complicating pregnancy, childbirth and puerperium
G97.31 - G97.32	Intraoperative hemorrhage and hematoma of a nervous system organ or structure complicating a procedure
G97.51 - G97.52	Postprocedural hemorrhage and hematoma of a nervous system organ or structure following a procedure
I97.810 - I97.821	Intraoperative and postoperative cerebrovascular infarction

[ARC 3748C, IAB 4/11/18, effective 5/16/18]

**641—146.4(135) Method and frequency of reporting.**

**146.4(1)** Stroke centers shall report the required stroke care information for any reportable stroke case no later than 120 days after the patient was discharged, transferred to another hospital, or pronounced dead.

**146.4(2)** Reports shall meet the data quality, format, and timeliness standards prescribed by the Iowa statewide stroke database.

[ARC 3748C, IAB 4/11/18, effective 5/16/18]

**641—146.5(135) Confidentiality.** The Iowa statewide stroke database shall comply with federal and state law and other health information and data collection, storage, and sharing requirements of the department.

[ARC 3748C, IAB 4/11/18, effective 5/16/18]

**641—146.6(135) Penalties and enforcement.** If a stroke center required to report under this chapter does not comply with the reporting requirements, the department may request a review of the certification of the comprehensive stroke center or the primary stroke center by the certifying entity.

[ARC 3748C, IAB 4/11/18, effective 5/16/18]

These rules are intended to implement Iowa Code section 135.191.

CHAPTER 150  
IOWA REGIONALIZED SYSTEM OF PERINATAL HEALTH CARE

**641—150.1(135) Purpose and scope.** Hospitals within the state shall determine whether to participate in Iowa's regionalized system of perinatal health care and shall select the hospital's level of participation in the regionalized system. A hospital having determined to participate in the regionalized system shall comply with the rules appropriate to the levels of participation for maternal care and neonatal care selected by the hospital. Maternal levels of designation and neonatal levels of designation are evaluated separately, and a hospital may have a level of designation for maternal care that is different from the level of designation for neonatal care; however, a pregnant woman should be cared for at the hospital that best meets both her and her newborn infant's needs.

Iowa's regionalized system of perinatal health care helps practitioners in rural Iowa to rapidly access specialty services for their patients even though such services may not exist in the local community. This is predicated on several factors, including the willingness of certain hospitals in moderate-to-large Iowa cities to provide specialty services and the presence of a functional system of patient transportation. These rules address how participating Iowa hospitals relate to the regionalized system and suggest a level of functioning which should identify the role each participating hospital plays in the system.

The following rules present a description of the levels of care among Iowa perinatal hospitals. The levels are as follows: maternal levels of care, which include Level I maternal care hospital, Level II maternal care hospital, Level III maternal care hospital and Level IV maternal care hospital, and neonatal levels of care, which include Level I neonatal care hospital, Level II neonatal care hospital, Level III neonatal care hospital and Level IV neonatal care hospital. Due to the need for organization of limited resources in a rural state, the rules are designed to encourage and support the presence of Level II and Level III maternal care and neonatal care hospitals in areas not populous enough to support a Level IV maternal care and neonatal care hospital.

The rules are not meant to hold Iowa hospitals and Iowa perinatal professionals to an impractical ideal. The rules specify particulars for a tiered provision of care on the basis of functional capabilities, based on national recommendations from the American Academy of Pediatrics and the American Congress of Obstetricians and Gynecologists.

The primary purpose of the level of care designation is to ensure Iowa perinatal patients receive appropriate maternal and neonatal care as close to their homes as possible.

The rules provide a framework to ensure that, when a participating hospital represents itself at a particular level of perinatal care, the hospital is capable of providing that care. The public is entitled to know the level of functioning of a hospital. The rules provide the framework for defining and evaluating the level of perinatal services offered by a hospital.

[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.2(135) Definitions.** For the purpose of these rules, the following definitions shall apply:

*"Categorization"* means a preliminary determination by the department that a hospital is capable of providing maternal care and neonatal care at Level I, Level II, Level III, or Level IV.

*"Certificate of verification"* means a document awarded by the department that identifies a hospital's level of maternal care and neonatal care at Level I, Level II, Level III, or Level IV and the term of verification at that level.

*"Department"* means the Iowa department of public health.

*"Director"* means the director of the Iowa department of public health.

*"Hospital"* means a facility licensed under Iowa Code chapter 135B.

*"Late preterm"* means that a newborn infant is born between 34 0/7 and 36 6/7 weeks' gestation.

*"Levels-of-care assessment tool"* or *"tool"* means a tool to assess the maternal and neonatal risk-appropriate care, using the minimum information necessary to identify a hospital's maternal level of care based on criteria by the American Congress of Obstetricians and Gynecologists/Society for Maternal-Fetal Medicine and a hospital's neonatal level of care based on criteria by the American

Academy of Pediatrics. The tool will be chosen by the department in consultation with the perinatal guidelines advisory committee.

“*Neonate*” means a newborn infant, up to 28 days of life.

“*On-site verification survey*” means an on-site survey conducted by the department’s statewide perinatal care team based at the University of Iowa hospitals and clinics or by a survey team of members (medical experts) contracted to assess a hospital’s ability to meet the level of designation selected by the hospital.

“*Perinatal*” means the five months before and one month after birth.

“*Perinatal center*” means a medical facility capable of providing complex obstetric, fetal and neonatal care.

“*Perinatal guidelines advisory committee*” means the committee that provides consultation to the department regarding these rules for the regionalized system of perinatal health care, reviews and updates Guidelines for Perinatal Services and provides review and counsel to the statewide perinatal care program.

“*Prenatal*” means during pregnancy.

“*Readily available*” means on site or at a closely related institution by prearranged consultative agreement.

“*Regionalized system of perinatal health care*” means the department’s program for designating regional perinatal health care services at a verified level of care, based on a hospital’s functional capabilities. Levels of care designations are stratified in an increasing order of intensity and complexity for both maternal health care and neonatal health care.

“*Regionalized system of perinatal health care coordinator*” means the department’s program manager for the regionalized system of perinatal health care.

“*Respiratory distress*” means tachypnea (respiratory rate of 60 or more per minute), grunting, tugging, retracting, nasal flaring, or cyanosis. Any or all of these may constitute respiratory distress in a neonate.

“*Reverification*” means the process of periodic review, conducted at least every three years, to certify that a hospital has maintained its designated level of care in accordance with criteria established under these rules for hospitals that are participating in the regionalized system of perinatal health care.

“*Statewide perinatal care program*” means a program consisting of the regionalized system of perinatal health care coordinator, the statewide perinatal care team contracted by the department, and the regionalized system of perinatal health care as defined in these rules.

“*Statewide perinatal care team*” means the educational team based at the University of Iowa hospitals and clinics and contracted by the department to support the regionalized system of perinatal health care and to provide services to decrease perinatal morbidity and mortality.

“*Verification*” means a process by which the department certifies a hospital’s capacity to provide perinatal care in accordance with criteria established under these rules for hospitals that are participating in the regionalized system of perinatal health care.

[ARC 3835C, IAB 6/6/18, effective 7/11/18]

#### **641—150.3(135) Perinatal guidelines advisory committee.**

**150.3(1) Purpose.** The director shall appoint an advisory committee to consult with the department in its development and maintenance of the regionalized system of perinatal health care and to provide review and counsel to the statewide perinatal care program.

**150.3(2) Appointment.** Appointments to the committee shall be made by the director.

a. Each appointment shall be for a term of three years, commencing on July 1.

b. No member shall serve more than three consecutive terms, unless this provision is waived by the director.

c. In order to ensure that one third of the committee rotates each year, staggered terms shall be initiated in June. For terms expiring during the calendar year, appointments and reappointments shall be staggered, resulting in a committee with approximately one third of the terms of membership expiring each year.

- d.* Members of the perinatal guidelines advisory committee shall include:
- (1) A representative from each of the following organizations that chooses to designate a nominee to the director:
    1. Iowa Hospital Association;
    2. Iowa Medical Society;
    3. Iowa Osteopathic Medical Association;
    4. Iowa Chapter, American Academy of Pediatrics;
    5. Iowa Section, American Congress of Obstetricians and Gynecologists;
    6. Iowa Academy of Family Physicians;
    7. Iowa Nurses Association;
    8. Iowa Association of Neonatal Nurses;
    9. Iowa Association of Women's Health, Obstetrical and Neonatal Nurses.
  - (2) The director or designee of the statewide perinatal care team.
  - (3) One designated representative each from a Level I, Level II, Level III, and Level IV hospital (either maternal or neonatal). Hospital representatives in this category will be appointed based on recommendations made by the Iowa Hospital Association to the director of the department.
  - (4) Representatives from the department of inspections and appeals and the bureau of family health at the department, who shall serve as nonvoting ex officio members of the committee.
- e.* Vacancies shall be filled in the same manner in which the original appointments were made.
- f.* Three consecutive unexcused absences shall be grounds for the director to consider dismissal of the committee member and appointment of another.

**150.3(3) Officers.** Officers of the committee are the chairperson and vice-chairperson. The vice-chairperson succeeds the chairperson at the end of the chairperson's term. A new vice-chairperson shall be elected, by majority vote of the committee, at the first meeting of the sitting chairperson's third or final year in office. The chairperson shall preside at all meetings of the committee, appoint such subcommittees as deemed necessary, and designate the chairperson of each subcommittee. If the chairperson is absent or unable to act, the vice-chairperson shall perform the duties of the chairperson. When so acting, the vice-chairperson shall have all the powers of and be subject to all restrictions upon the chairperson. The vice-chairperson shall also perform such other duties as may be assigned by the chairperson.

**150.3(4) Meetings.**

*a.* The committee shall establish a meeting schedule on an annual basis to conduct its business. Meetings may be scheduled as business requires, but notice to members must be given at least five working days prior to the meeting date. A four-week notice is encouraged to accommodate the schedules of members.

*b.* Action on any issue before the committee can be taken only by a majority vote of the entire membership. The committee shall maintain information sufficient to indicate the vote of each member present.

**150.3(5) Subcommittees.** The committee may designate one or more subcommittees to perform such duties as may be deemed necessary.

**150.3(6) Expenses of committee members.** When incurred on behalf of committee business, the following may be considered necessary expenses for reimbursement of committee members and are subject to established state reimbursement rates:

- a.* Reimbursement for travel in a private car.
- b.* Actual lodging and meal expenses including sales tax on lodging and meals.
- c.* Actual expense of public transportation.

**150.3(7) Confidentiality.**

*a.* All committee members and subcommittee members shall sign a confidentiality agreement and shall agree not to divulge or discuss confidential information.

*b.* The signed confidentiality agreements shall be kept on file at the department.

**641—150.4(135) Duties of statewide perinatal care team.** The team shall:

1. Promote evidence-based and evidence-informed care of pregnant women and newborns.
2. Provide education and consultation to regional and primary providers of perinatal care.
3. Provide chart review to assess quality of care provided and additional education required.
4. Promote change in practice when needed through sharing best practice ideas, policies and procedures.
5. Promote maternal-fetal transfer if delivery of an at-risk infant or mother is anticipated and a higher level of care is anticipated.
6. Provide on-site verification to determine a hospital's ability to meet its level-of-care designation.

This rule is intended to implement Iowa Code section 135.11(27).

[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.5(135) Duties of the department.** The department shall:

1. Certify a hospital's capacity to provide perinatal health care in accordance with criteria established under these rules.
2. Provide technical assistance to the hospitals that choose to participate.
3. Review the submitted levels-of-care assessment tool from all participating hospitals.
4. Conduct or coordinate the on-site verification of determined levels of care for maternal and neonatal care hospitals designated as Level II, Level III and Level IV.
5. Facilitate all meetings of the perinatal guidelines advisory committee.

This rule is intended to implement Iowa Code section 135.11(27).

[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.6(135) Maternal and neonatal levels of care—categorization and verification.** Categorization and verification of hospitals participating in Iowa's regionalized system of perinatal health care shall be made by the department based on national recommendations from the American Academy of Pediatrics and the American Congress of Obstetricians and Gynecologists.

**150.6(1) Application for initial verification.**

a. An application for initial verification may be submitted when:

- (1) A new hospital with a perinatal service is opened;
- (2) A hospital is reopening a previously inactive obstetrical unit; or
- (3) A hospital requests a change to a higher-level designation in maternal care or neonatal care.

b. A hospital requesting an initial verification may obtain application materials from the department upon written request to:

Iowa Department of Public Health  
 Bureau of Family Health  
 Regionalized System of Perinatal Health Care Coordinator  
 Lucas State Office Building  
 321 East 12th Street  
 Des Moines, Iowa 50319-0075

c. Upon receipt of an application from a hospital that is requesting to change to a higher level of maternal or neonatal care, the department will request and review copies of the results of the last site visit to the hospital by the statewide perinatal team or request a site visit. The results of the site visit along with the application will be shared with the statewide perinatal team and the perinatal guidelines advisory committee to determine if all requirements are met. The committee recommendations will be sent to the department, which will notify the hospital if its application is approved or denied. If the application is denied, the applicant will be informed of the applicant's right to appeal the department's decision.

**150.6(2) Application for a hospital that has previously participated in the regionalized system of perinatal health care.**

a. If a hospital chooses to continue its participation, the hospital must select the levels for maternal care and neonatal care appropriate for the hospital's capacity to provide perinatal health care in accordance with the criteria outlined in these rules.

b. To maintain continuous participation in the regionalized system of perinatal health care, a hospital shall complete the levels-of-care assessment tool and an attestation statement available at [idph.iowa.gov/perinatal-care](http://idph.iowa.gov/perinatal-care) and mail them by April 11, 2019, to:

Iowa Department of Public Health  
Bureau of Family Health  
Regionalized System of Perinatal Health Care Coordinator  
Lucas State Office Building  
321 East 12th Street  
Des Moines, Iowa 50319-0075

c. The department shall set dates when each hospital's certification of verification will expire based on the statewide perinatal health care team's site visit schedule and the level of care selected.

**150.6(3) Reverification of level designation.** The levels-of-care assessment tool will be used for all reverifications. The tool is found at [idph.iowa.gov/perinatal-care](http://idph.iowa.gov/perinatal-care). The process of reverification of a hospital participating in the regionalized system of perinatal health care will take place once every three years as follows:

a. Reverification of a Level I maternal care or neonatal care hospital will be completed through the use of the levels-of-care assessment tool. A hospital shall complete and return the levels-of-care assessment tool to the department at least 60 days before the hospital's certification is due to expire.

b. Reverification of a Level II or Level III maternal care or neonatal care hospital will be completed through use of the levels-of-care assessment tool and an on-site reverification visit. A hospital shall complete and return the levels-of-care assessment tool to the department at least 120 days before the hospital's certification is due to expire. The department will ensure that arrangements are made for the on-site reverification visit. Level II and Level III hospitals may utilize one of two on-site reverification visit options:

(1) A review conducted by the statewide perinatal care team, or

(2) A review by an independent out-of-state team identified by the hospital, approved by the department and paid for by the hospital.

c. Reverification of a Level IV maternal care and neonatal care hospital will be completed through the same process as that for a Level II or Level III maternal care or neonatal care hospital except that the on-site reverification team will consist of an out-of-state team identified by the hospital and approved by the department. The team will include, at a minimum, a maternal-fetal specialist, a neonatologist, an obstetrical nurse and a neonatal nurse. The Level IV hospital will pay the expense of the review team. All department staff and staff contracted by the department involved in the on-site reverification process will sign a confidentiality statement that will be kept on file at the department.

d. Reverification shall not be construed to imply any guarantee on the part of the department as to the level of perinatal health care services available at a hospital.

e. Hospital reverification of the level of care is valid for a period of three years from the effective date unless otherwise specified on the certificate of verification or unless sooner suspended or revoked.

f. As part of the reverification and renewal process, the department or a designated survey team may conduct periodic on-site reviews of the services of the maternal care and neonatal care hospitals, including chart reviews.

**150.6(4) Level designation maintenance, variance and confidential records.**

a. A hospital which is unable to maintain its designated level of care shall notify the department, in writing, within 60 days of the change in capacity to meet the designated level of care.

b. The director may grant a variance from the requirements of rules adopted under this chapter for any hospital participating in the regionalized system of perinatal health care.

c. Proceedings, records, and reports developed pursuant to this chapter are confidential pursuant to Iowa Code section 135.11(27) and constitute peer review records under Iowa Code section 147.135, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the affected hospital, and are not admissible in evidence in a judicial or administrative proceeding other than a proceeding involving verification of the participating hospital.

This rule is intended to implement Iowa Code section 135.11(27).  
[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.7(135) Levels of maternal care.** The levels of maternal care include basic obstetrical care Level I, specialty care Level II, subspecialty care Level III and regional perinatal health care Level IV. The levels reflect the overall evidence for risk-appropriate care in a hospital through the availability of appropriate personnel, physical space, equipment, technology, and organization. Each level reflects the minimal capabilities, provider type and functional criteria required.

**150.7(1) Level I maternal care hospital.**

a. *Provider of basic obstetrical care.* A Level I maternal care hospital provides care to women who are low risk and are expected to have an uncomplicated birth.

b. *Capabilities.* A Level I maternal care hospital has the following capabilities:

(1) To perform routine intrapartum and postpartum care that is anticipated to be uncomplicated. Care of uncomplicated pregnancies includes the ability to detect, stabilize and initiate management of unanticipated maternal, fetal or neonatal problems that occur during the antepartum, intrapartum, or postpartum period until the patient can be transferred to a facility that provides specialty maternal care.

(2) To begin an emergency cesarean delivery within a time interval that best incorporates maternal and fetal risks and benefits with the provision of emergency care.

c. *Types of health care providers.* A Level I maternal care hospital will have:

(1) Maternity care providers, including certified nurse-midwives, family practice physicians, or obstetrician-gynecologists, available to attend all births.

(2) Every birth attended by at least two professionals, including the primary maternal care provider and a person competent to provide neonatal resuscitation and postnatal care to stabilize the infant.

(3) Adequate numbers of registered nurses available who have completed orientation and demonstrated competence in the care of obstetric patients, including women and fetuses, consistent with Level I care criteria and who are able to stabilize and transfer high-risk women and newborns.

(4) Nursing leadership with expertise in perinatal nursing care.

(5) A provider with privileges to perform an emergency cesarean delivery, available to attend all deliveries. The provider may be a general surgeon, an obstetrician-gynecologist, or a family practice physician with certification.

(6) A provider of anesthesia services available to provide labor analgesia and surgical anesthesia.

d. *Functional criteria of support services.* Support services include, but are not limited to, access to obstetric ultrasonography, laboratory testing, and blood bank supplies at all times. A Level I maternal care hospital will:

(1) Have protocols and capabilities in place for:

1. Massive transfusion,
2. Emergency release of blood products (before full compatibility testing is complete),
3. Management of multiple component therapy.

(2) Ensure optimal care of all pregnant women by having formal transfer plans established in partnership with a higher-level receiving hospital. These plans will include:

1. Risk identification,
2. Determination of conditions necessitating consultation,
3. Referral and transfer, and

4. A reliable, accurate, and comprehensive communication system between the participating hospital and the transport team.

(3) Have education and quality improvement programs to maximize patient safety, provide such programs through collaboration with facilities with higher levels of care that receive transfers, or both.

- (4) Have data collection, storage and retrieval to support quality improvement.

**150.7(2) Level II maternal care hospital.**

*a. Provider of specialty care.* In addition to meeting the criteria of a Level I maternal care hospital, a Level II maternal care hospital provides care of appropriate high-risk pregnant women, both those directly admitted to the hospital and those transferred from another hospital.

*b. Capabilities.* In addition to having the capabilities of a Level I maternal care hospital, a Level II maternal care hospital has the following capabilities:

- (1) The infrastructure for continuous availability of adequate numbers of registered nurses who have demonstrated competence in the care of obstetric patients (women and fetuses).

- (2) Orientation and demonstrated competence consistent with Level II care criteria and the capability to stabilize and transfer high-risk women and newborns who exceed Level II care criteria.

*c. Types of health care providers.* In addition to meeting the health care provider requirements of a Level I maternal care hospital, a Level II maternal care hospital will have:

- (1) Health care providers, including certified nurse-midwives or family physicians.

- (2) Nursing leaders and staff with formal training and experience in the provision of perinatal nursing care who can coordinate with respective neonatal care services.

- (3) An attending obstetrician-gynecologist available at all times.

- (4) A board-certified or board-eligible obstetrician-gynecologist with special interest and experience in obstetric care as the director of obstetric services.

- (5) Access to a maternal-fetal medicine subspecialist for consultation, available on site, by telephone, or by telemedicine as needed.

- (6) A provider of anesthesia services available at all times to provide labor analgesia and surgical anesthesia.

- (7) A board-certified or board-eligible anesthesiologist with special training or experience in obstetric anesthesia, available for consultation.

- (8) Medical and surgical consultants available to stabilize obstetric patients who have been directly admitted to the facility or transferred from other hospitals.

*d. Functional criteria of support services.* In addition to meeting the support services requirements of a Level I maternal care hospital, a Level II maternal care hospital will have:

- (1) Computed tomography scan and, ideally, magnetic resonance imaging with interpretation available.

- (2) Basic ultrasonographic imaging services for maternal and fetal assessment at all times, either in house or on call.

- (3) Special equipment needed to accommodate the care and services needed for obese women. In addition, based on the patient's BMI and other risk factors, a consultation with an obstetrician-gynecologist or a maternal fetal medicine specialist should be considered.

- (4) The ability to provide high-risk obstetrical care, but efforts should be made to transfer women whose newborns are likely to need a higher level of care than a Level II maternal care hospital can provide, or when the pregnancy has risk factors that require the consultation or care of a maternal-fetal medicine specialist.

**150.7(3) Level III maternal care hospital.**

*a. Provider of subspecialty care.* A Level III maternal care hospital provides care to women that includes all Level I and Level II services and has subspecialists available on site, by telephone, or by telemedicine to assist in providing care for more complex maternal and fetal conditions.

*b. Capabilities.* A Level III maternal care hospital functions as the regional perinatal health care center for some areas of Iowa if there are no Level IV maternal care hospitals available. In these areas, a Level III maternal care hospital will be responsible for the leadership; facilitation of transport and referral; educational outreach; and data collection, storage and retrieval to support quality improvement. Designation of Level III maternal care hospital should be based on the demonstrated experience and capability of the facility to provide comprehensive management of severe maternal and fetal complications.

*c. Types of health care providers.* In addition to meeting the health care provider requirements of a Level II maternal care hospital, a Level III maternal care hospital will have:

- (1) An obstetrician-gynecologist with inpatient privileges, available on site at all times.
- (2) A maternal-fetal medicine subspecialist with inpatient privileges, available at all times, either on site, by telephone, or by telemedicine.
- (3) A director of the maternal-fetal medicine service who is a board-certified or board-eligible maternal-fetal medicine subspecialist.
- (4) A board-certified or board-eligible obstetrician-gynecologist with special interest and experience in obstetric care directing obstetric services.
- (5) A provider of anesthesia services available at all times on site.
- (6) A board-certified or board-eligible anesthesiologist with special training or experience in obstetric anesthesia who is in charge of obstetric anesthesia services.
- (7) A full complement of subspecialists, available for inpatient consultations, including subspecialists in:
  1. Critical care,
  2. General surgery,
  3. Infectious disease,
  4. Hematology,
  5. Cardiology,
  6. Nephrology,
  7. Neurology, and
  8. Neonatology.
- (8) Nursing leaders and adequate numbers of registered nurses who have completed orientation and demonstrated competence in the care of obstetric patients (women and fetuses) consistent with Level III care criteria, including the transfer of high-risk women who exceed Level III care criteria, and who have special training and experience in the management of women with complex maternal illnesses and obstetric complications. Nursing personnel will be continuously available.

*d. Functional criteria of support services.* In addition to meeting the support services requirements of a Level II maternal care hospital, a Level III maternal care hospital will have:

- (1) An on-site intensive care unit to accept pregnant women.
- (2) Critical care providers on site to actively collaborate with maternal-fetal specialists at all times.
- (3) Equipment and personnel with expertise available on site to ventilate and monitor women in the labor and delivery unit until they can be safely transferred to the intensive care unit.
- (4) The ability to provide the following imaging services, with interpretation available at all times:
  1. Basic interventional radiology,
  2. Maternal echocardiography,
  3. Computed tomography,
  4. Magnetic resonance imaging, and
  5. Nuclear medicine imaging.
- (5) The ability to perform detailed obstetric ultrasonography and fetal assessment, including Doppler studies.

**150.7(4) Level IV maternal care hospital.**

*a. Provider of services as a regional perinatal health care center.* In addition to meeting the requirements for a Level III maternal care hospital, a Level IV maternal care hospital provides care to women with additional requirements and has considerable experience in the care of the most complex and critically ill pregnant women throughout antepartum, intrapartum, and postpartum care. The particular specialty of fetal surgery, advanced neurosurgery, transplant, and advanced cardiovascular capabilities may not all be available at an individual Level IV maternal care hospital. In some cases, specific advanced care will require care coordination to the Level IV maternal care hospital by availability of specific expertise, including but not limited to fetal surgery, advanced neurosurgery, transplant, and advanced cardiovascular capabilities. Each hospital will have a clear understanding of

the categories of perinatal patients who can be managed appropriately in the local hospital and those who must be transferred.

*b. Capabilities.* Although Level III and Level IV maternal care hospitals may seem to overlap, a Level IV maternal care hospital is distinct from a Level III maternal care hospital in the approach to the care of pregnant women and women in the postpartum period with complex and critical illnesses. In addition to having an intensive care unit on site for obstetric patients, a Level IV maternal care hospital must have evidence of a maternal-fetal medicine care team that has the expertise to assume responsibility for pregnant women and women in the postpartum period who are in critical condition or have complex medical conditions. The maternal-fetal medicine team collaborates actively in the co-management of all obstetric patients who require critical care and intensive care unit services, including co-management of intensive care unit-admitted obstetric patients.

*c. Types of health care providers.* In addition to meeting the health care provider requirements of a Level III maternal care hospital, a Level IV maternal care hospital will have:

(1) A maternal-fetal medicine team member with full privileges, available at all times for on-site consultation and management.

(2) A board-certified maternal-fetal medicine subspecialist with expertise in critical care obstetrics to lead the team.

(3) A maternal-fetal medicine team with expertise in critical care at the physician level, nursing level, and ancillary services level.

(4) Institutional support for the routine involvement of a maternal-fetal medicine care team with the critical care units and specialists. A key principle of caring for critically ill pregnant and peripartum women is the hospital's recognition of the need for seamless communication between maternal-fetal medicine subspecialists and other subspecialists in the planning and facilitation of care for women with the most high-risk complications of pregnancy.

(5) A commitment to having physician and nursing leaders with expertise in maternal intensive and critical care, as well as adequate numbers of available registered nurses in a Level IV maternal care hospital who have experience in the care of women with complex medical illnesses and obstetric complications; this experience includes completed orientation and demonstrated competence in the care of obstetric patients (women and fetuses) consistent with Level IV maternal care criteria.

(6) A director of obstetric services who is a board-certified maternal-fetal medicine subspecialist or a board-certified obstetrician-gynecologist with expertise in critical care obstetrics.

(7) A provider of anesthesia services available on site at all times.

(8) A board-certified anesthesiologist with special training or experience in obstetric anesthesia who is in charge of obstetric anesthesia services.

(9) Adult medical and surgical specialty and subspecialty consultants, a minimum of those listed for a Level III maternal care hospital, available on site at all times to collaborate with the maternal-fetal medicine care team.

*d. Functional criteria of support services.* In addition to meeting the support services requirements of a Level III maternal care hospital, a Level IV maternal care hospital will have:

(1) The capability for on-site medical and surgical care of complex maternal conditions (e.g., congenital maternal cardiac lesions, vascular injuries, neurosurgical emergencies, and transplants) with the availability of critical (or intensive) care unit beds.

(2) Perinatal system leadership, including facilitation of maternal referral and transport, outreach education for facilities and health care providers in the region and analysis and evaluation of regional data, including perinatal complications, outcomes and quality improvement.

This rule is intended to implement Iowa Code section 135.11(27).

[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.8(135) Maternal-fetal transport—all levels.** Maternal-fetal transport is an essential component of perinatal care. A hospital participating in the regionalized system of perinatal health care must be familiar with its own resources and capabilities in dealing with obstetrical and neonatal complications. In most instances, maternal-fetal transport is preferable to neonatal transport. Each

hospital, when transporting or accepting a transport, needs a system in place to facilitate a smooth transition of care in the most expeditious manner possible. The majority of maternal-fetal transports can be carried out by ground transportation. It is important for ambulance services to be equipped for maternal-fetal transport and have appropriately trained staff.

This rule is intended to implement Iowa Code section 135.11(27).  
[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.9(135) Levels of neonatal care.** The levels of neonatal care include basic neonatal care Level I, specialty care Level II, and subspecialty intensive care Level III and Level IV. The levels reflect the overall evidence for risk-appropriate care through the availability of appropriate functional criteria, physical facilities, medical and nursing personnel, outreach education, allied health personnel and services, infection control, newborn or neonatal safety, neonatal transport and quality improvement.

**150.9(1) Level I neonatal care hospital.**

*a. Provider of basic neonatal care.* A Level I neonatal care hospital provides a basic level of care to neonates without complications. A Level I neonatal care hospital has the following capabilities:

- (1) To provide neonatal resuscitation at every delivery.
- (2) To evaluate and provide postnatal care to stable term newborn infants.
- (3) To stabilize and provide care for infants born at 35 to 37 weeks' gestation who remain physiologically stable.
- (4) To stabilize newborn infants who are ill and those born at less than 35 weeks' gestation until transfer to a higher level of care.

(5) To provide leadership in early risk identification before and after birth.

(6) To seek consultation or referral for high-risk neonates.

(7) To provide public and professional education.

*b. Functions.* A Level I neonatal care hospital has a family-centered philosophy. Parents have reasonable access to their newborns 24 hours a day within all functional units and are encouraged to participate in the care of their newborns. Generally, a newborn can be with its parents in the mother's room.

*c. Physical facilities.* A Level I neonatal care hospital will maintain a nursery for normal-term or late preterm neonates.

*d. Medical personnel.* At a Level I neonatal care hospital, neonatal care is under the supervision of one of the following:

- (1) A board-eligible or board-certified neonatologist,
- (2) A pediatrician,
- (3) A family medicine physician,
- (4) A board-eligible or board-certified advanced registered nurse practitioner, or
- (5) A physician assistant.

*e. Nursing personnel.* At a Level I neonatal care hospital, a registered nurse assigned to the neonatal service has nursing orientation to and demonstrates competency in the care of a neonate.

*f. Outreach education.* A Level I neonatal care hospital will assume an active role in the development and coordination of wellness and preventive programs concerning neonatal and child health at the community level, including parenting, breastfeeding, and cessation of smoking.

*g. Allied health personnel and services.* A Level I neonatal care hospital will have available, at a minimum, the following allied health personnel and services:

- (1) Dietitian with knowledge of maternal and neonatal nutrition management,
- (2) Social worker,
- (3) Bioengineer-safety and environmental control,
- (4) Pharmacy,
- (5) Radiology,
- (6) Laboratory,
- (7) Pathology, and
- (8) Chaplain, spiritual support.

*h. Infection control.*

(1) Each Level I neonatal care hospital will establish written policies and procedures for assessing the health of personnel assigned to the perinatal care services and of those who have significant contact with the newborn. The policies and procedures will include restricting contact with patients when necessary and screening per department recommendations for health care providers. Routine culturing of specimens obtained from personnel is not useful, although selective culturing may be of value when a pattern of infection is suspected.

(2) No special or separate isolation facility is required for neonates born at home or in transit to the hospital. Detailed descriptions of the isolation categories and requirements will be available in each hospital's infection control manual.

*i. Newborn safety.* At a Level I neonatal care hospital, the protection of newborns is the responsibility of all personnel in the neonatal care hospital. Newborns will always be within the sight and supervision of hospital staff, the mother, or other family members or friends designated by the mother. Each neonatal care hospital has a policy established that addresses strategies to promote newborn safety.

**150.9(2) Level II neonatal care hospital.**

*a. Provider of specialty care.* In addition to meeting the requirements for care and services as a Level I neonatal care hospital, a Level II neonatal care hospital will:

(1) Provide management of certain high-risk neonates with selected complications.

(2) Have a board-certified or board-eligible neonatologist(s) or a board-certified or board-eligible pediatrician(s) on staff, one of whom directs the special care nursery.

*b. Functions.* In addition to performing the functions of a Level I neonatal care hospital, a Level II neonatal care hospital will have the capability to:

(1) At a minimum, manage neonates of greater than or equal to 32 weeks' gestation and weighing greater than or equal to 1,500 grams who have physiological immaturity or who are moderately ill with problems that are expected to resolve rapidly and are not anticipated to need subspecialty services on an urgent basis and, for neonates of 32 weeks' gestation and weighing less than 1,500 grams, recommend consultation with a higher-level facility by prearranged consultative agreement.

(2) Provide mechanical ventilation for a brief duration (less than 24 hours).

(3) Provide continuous positive airway pressure as needed (less than 24 hours).

(4) Stabilize infants born before 32 weeks and weighing less than 1,500 grams until transfer to a Level III or Level IV neonatal care hospital.

(5) Provide care for infants convalescing after intensive care.

*c. Physical facilities.* In addition to having the physical facilities of a Level I neonatal care hospital, a Level II neonatal care hospital will have:

(1) A special care nursery (a special area designated for the care of sick neonates),

(2) A mechanical ventilator,

(3) A portable X-ray machine,

(4) A laboratory with a blood gas analyzer,

(5) Physiologic monitoring equipment, and

(6) A pharmacy.

*d. Medical personnel.* In addition to having the medical personnel of a Level I neonatal care hospital, a Level II neonatal care hospital will:

(1) Be under the co-direction/supervision of a board-eligible or board-certified neonatologist or pediatrician.

(2) Have a neonatologist or pediatrician on staff. Other provider types that may be utilized include a pediatric hospitalist, a neonatal nurse practitioner or pediatric nurse practitioner or a physician assistant with appropriate training.

(3) Have allied medical specialists in various disciplines on staff, including specialists in internal medicine, radiology, and pathology.

*e. Nursing personnel.* In addition to having the nursing personnel of a Level I neonatal care hospital, a Level II neonatal care hospital has nursing orientation to and demonstrates competency in the care of sick neonates.

*f. Outreach education.* A Level II neonatal care hospital has the same responsibility for outreach education as that of a Level I neonatal care hospital.

*g. Allied health personnel and services.* In addition to having the allied health personnel and services of a Level I neonatal care hospital, a Level II neonatal care hospital has:

- (1) Respiratory therapists,
- (2) Certified laboratory technicians/blood gas technicians, and
- (3) X-ray technologists and ultrasound technicians with neonatal/perinatal experience.

*h. Infection control.* A Level II neonatal care hospital has the same infection control guidelines as those for a Level I neonatal care hospital.

*i. Neonatal safety.* A Level II neonatal care hospital has the same requirements for newborn safety as those for a Level I neonatal care hospital.

*j. Neonatal transport.* In addition to having the Level I neonatal care hospital capabilities for neonatal transport, a Level II neonatal care hospital is expected to accept patient referrals when appropriate. A critical function of providers at a Level II neonatal care hospital is to communicate with the providers at a Level I neonatal care hospital in deciding whether a particular patient should be transported to the Level II neonatal care hospital. Careful assessment of the hospital's capabilities for perinatal management will be critical in these decisions. This information will need to be disseminated among the hospital staff. Providers of obstetric care need to know the critical gestational age limitations for their particular nursery. Below this gestational age, maternal-fetal transport should be utilized if delivery is anticipated and the circumstances permit.

*k. Perinatal care committee.*

(1) A Level II neonatal care hospital must maintain a perinatal care committee. Members of this committee will represent, at a minimum, the fields of:

1. Obstetrics,
2. Pediatrics,
3. Family practice,
4. Nursing,
5. Administration,
6. Laboratory,
7. Respiratory therapy,
8. Anesthesia, and
9. Social services.

(2) Responsibilities of the perinatal care committee include the following:

1. To develop policies for the unit, including provisions to ensure adequate patient care by qualified providers.

2. To conduct a meeting, at least semiannually, to resolve problems related to the unit.

3. To review educational activities conducted by the unit.

4. To serve as a general liaison between the various groups represented on the committee.

**150.9(3) Level III neonatal care hospital.**

*a. Provider of subspecialty intensive care.* In addition to providing the care and services of a Level II neonatal care hospital, a Level III neonatal care hospital will manage high-risk neonates, including infants born at less than 32 weeks or weighing less than 1,500 grams. High-risk neonates requiring surgical intervention or pediatric subspecialty should go to a Level IV neonatal care hospital.

*b. Functions.* In addition to performing the functions of a Level II neonatal care hospital, a Level III neonatal care hospital will have the capability to:

(1) Provide sustained life support.

(2) Provide comprehensive care for infants born at less than 32 weeks and weighing less than 1,500 grams and infants born at all gestations and birth weights who have critical illness.

(3) Provide an organized program for monitoring treatment and follow-up of retinopathy of prematurity.

(4) Maintain a prearranged consultative agreement with a higher-level hospital within the Level III neonatal care hospital's referral area.

(5) Transfer a surgical patient within approximately two hours from the time the referral call is made until arrival at the referral hospital.

(6) Provide follow-up care for high-risk newborns.

*c. Physical facilities.* In addition to having the physical facilities of a Level II neonatal care hospital, a Level III neonatal care hospital:

(1) Has a neonatal intensive care unit with continuously available personnel, including a neonatologist, neonatal nurses and respiratory therapists to provide life support for as long as necessary.

(2) Provides a full range of respiratory support that includes invasive mechanical ventilation and may include high-frequency ventilation or inhaled nitric oxide or both.

(3) Performs advanced imaging, with interpretation on an urgent basis, including computed tomography, magnetic resonance imaging, and echocardiography.

(4) Maintains a neonatal transport team for the regional area served.

*d. Medical personnel.* In addition to having the medical personnel of a Level II neonatal care hospital, a Level III neonatal care hospital will:

(1) Have a medical director of the neonatal intensive care unit who is a full-time, board-eligible or board-certified neonatologist.

(2) Provide prompt and readily available access to the following, either on site or by prearranged consultative agreement. Using telemedicine technology or telephone consultation, a prearranged consultation can be performed from a distant location by:

1. Pediatric medical subspecialists,

2. A pediatric surgical specialist,

3. A pediatric anesthesiologist, and

4. A pediatric ophthalmologist.

(3) Have a neonatologist on the premises when an unstable critically ill infant is in the Level III neonatal care hospital.

*e. Nursing personnel.* A Level III neonatal care hospital has the same requirements for nursing personnel as those of a Level II neonatal care hospital.

*f. Outreach education.* Outreach education is provided to each hospital in the referral area at least once per year. This outreach education can be achieved by one or more of the following:

(1) Sponsoring an annual conference.

(2) Visiting a Level I neonatal care hospital and a Level II neonatal care hospital.

(3) Providing educational programs and materials for the staff members of the Level I and Level II neonatal care hospitals.

*g. Allied health personnel and services.* In addition to having the allied health personnel and services of a Level II neonatal care hospital, a Level III neonatal care hospital has:

(1) X-ray technologists and ultrasound technicians with neonatal/perinatal experience, available on a 24-hour basis.

(2) Social work services with social workers assigned specifically to the neonatal units.

*h. Infection control.* A Level III neonatal care hospital has the same infection control guidelines as those of a Level I neonatal care hospital.

*i. Neonatal safety.* A Level III neonatal care hospital has the same requirements for newborn safety as those for a Level I neonatal care hospital.

*j. Neonatal transport.* In addition to having the Level II neonatal care hospital transport capabilities, a Level III neonatal care hospital is capable of providing neonatal transport with crews who have demonstrated competence in neonatal resuscitation and stabilization. Important decisions to be made jointly will include:

(1) The appropriateness of transport.

(2) The best mode of transportation.

- (3) The need for additional personnel accompanying the transport.
- (4) The appropriate medical management to initiate prior to transport.

*k. Perinatal care committee.* A Level III neonatal care hospital shall maintain a perinatal care committee that meets the same criteria as those for a Level II neonatal care hospital.

**150.9(4) Level IV neonatal care hospital.**

*a. Provider of subspecialty intensive care.* In addition to providing the level-of-care services of a Level III neonatal care hospital, a Level IV neonatal care hospital manages higher-risk neonates. The differentiating factor between a Level III neonatal care hospital and a Level IV neonatal care hospital is primarily one of having additional professional staff with considerable experience in the care of the most complex and critically ill infants and having the ability to provide surgical repair of complex congenital or acquired conditions.

*b. Physical facilities.* In addition to having the physical facilities of a Level III neonatal care hospital, a Level IV neonatal care hospital has more equipment, more extensive physical facilities and will serve a more complicated patient population.

*c. Medical personnel.* In addition to having the medical personnel of a Level III neonatal care hospital, a Level IV neonatal care hospital will:

- (1) Have a medical director of the neonatal intensive care unit who is a full-time, board-certified neonatologist.
- (2) Have anesthesia providers on staff with special training or experience in pediatric anesthesia.
- (3) Maintain a full range of pediatric medical subspecialists and pediatric surgical subspecialists at the site.
- (4) Have the subspecialist physicians immediately available to the Level IV neonatal care hospital.
- (5) Have a neonatologist on the premises when an unstable critically ill infant is in the Level IV neonatal care hospital.

*d. Nursing personnel.* A Level IV neonatal care hospital has the same requirements for nursing personnel as those for a Level II neonatal care hospital.

*e. Outreach education.* A Level IV neonatal care hospital has the same responsibilities for outreach education as those for a Level III neonatal care hospital.

*f. Allied health personnel and services.* A Level IV neonatal care hospital has the same level of allied health personnel and services as that of a Level III neonatal care hospital.

*g. Infection control.* A Level IV neonatal care hospital has the same infection control guidelines as those for a Level I neonatal care hospital.

*h. Neonatal safety.* A Level IV neonatal care hospital has the same requirements for neonatal safety as those for a Level I neonatal care hospital.

*i. Neonatal transport.* In addition to meeting the neonatal transport requirements of a Level III neonatal care hospital, a Level IV neonatal care hospital is capable of providing ground and air transportation with crews who have demonstrated competencies in neonatal resuscitation and stabilization.

*j. Perinatal care committee.* In addition to maintaining a perinatal care committee that meets the same criteria as those for a Level II neonatal care hospital, a Level IV neonatal care hospital maintains a perinatal care committee that has additional representation by surgical specialties. The Level IV neonatal care hospital's perinatal care committee will maintain and analyze data on long-term outcomes to evaluate the effectiveness of the delivery of perinatal health care services.

This rule is intended to implement Iowa Code section 135.11(27).  
[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.10(135) Grant or denial of certificate of verification; and offenses and penalties.**

**150.10(1)** Upon receipt of the levels-of-care assessment tool and the on-site survey results, if required, the department shall within 30 days issue its decision to grant or deny the hospital a certificate of verification. The department may deny verification or may give a citation and warning, place on probation, suspend, or revoke existing verification if the department finds reason to believe the hospital's perinatal care program has not been or will not be operated in compliance with these rules.

The denial, citation and warning, period of probation, suspension or revocation shall be effected and may be appealed in accordance with the requirements of Iowa Code section 17A.12.

**150.10(2)** All complaints regarding the operation of a participating hospital's perinatal care program shall be reported to the department and to the department of inspections and appeals.

**150.10(3)** Complaints and the investigative process shall be treated as confidential to the extent they are protected by Iowa Code sections 22.7 and 135.11(27).

**150.10(4)** Complaint investigations may result in the department's issuance of a notice of denial, citation and warning, probation, suspension or revocation.

**150.10(5)** Notice of denial, citation and warning, probation, suspension or revocation shall be effected in accordance with the requirements of Iowa Code section 17A.12. Notice to the hospital of denial, citation and warning, probation, suspension or revocation shall be served by certified mail, return receipt requested, or by personal service.

**150.10(6)** Any request for a hearing concerning the denial, citation and warning, probation, suspension or revocation shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice to take action. The address is: Iowa Department of Public Health, Bureau of Family Health, Regionalized System of Perinatal Health Care Coordinator, 321 East 12th Street, Lucas State Office Building, Des Moines, Iowa 50319-0075. If the request is made within the 20-day time period, the notice to take action shall be deemed to be suspended pending the hearing. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the denial, citation and warning, probation, suspension or revocation has been or will be removed. If no request for a hearing is received within the 20-day time period, the department's notice of denial, citation and warning, probation, suspension or revocation shall become the department's final agency action.

**150.10(7)** Upon receipt of a request for hearing, the request shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by that agency regarding the transmission of contested cases. The information upon which the adverse action is based and any additional information, which may be provided by the aggrieved party, shall also be provided to the department of inspections and appeals.

**150.10(8)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10, Iowa Administrative Code.

**150.10(9)** When the administrative law judge makes a proposed decision and order, it shall be served by certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**150.10(10)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**150.10(11)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections and rulings on them.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**150.10(12)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by certified mail, return receipt requested, or by personal service.

**150.10(13)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19.

The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**150.10(14)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Bureau of Family Health, Regionalized System of Perinatal Health Care Coordinator, 321 East 12th Street, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**150.10(15)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**150.10(16)** Final decisions of the department relating to disciplinary proceedings may be transmitted to the department of inspections and appeals and to the appropriate professional associations or news media.

[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.11(135) Prohibited acts.** A hospital that imparts or conveys, or causes to be imparted or conveyed, that it is a participating hospital in Iowa’s regionalized system of perinatal health care, or that uses any other term, such as a designated level of care, to indicate or imply that the hospital is a participating hospital in the regionalized system of perinatal health care without having obtained a certificate of verification from the department is subject to licensure disciplinary action by the department of inspections and appeals, as well as to the application by the director to the district court for a writ of injunction to restrain the use of the term or terms “Level I maternal care or neonatal care hospital,” “Level II maternal care or neonatal care hospital,” “Level III maternal care or neonatal care hospital” and “Level IV maternal care or neonatal care hospital” in relation to the provision of perinatal health care services.

[ARC 3835C, IAB 6/6/18, effective 7/11/18]

**641—150.12(135) Construction of rules.** Nothing in these administrative rules shall be construed to restrict a hospital from providing any services for which it is duly authorized.

[ARC 3835C, IAB 6/6/18, effective 7/11/18]

These rules are intended to implement Iowa Code section 135.11(27).

[Filed 1/10/07, Notice 11/22/06—published 1/31/07, effective 3/7/07]

[Filed ARC 3835C (Notice ARC 3708C, IAB 3/28/18), IAB 6/6/18, effective 7/11/18]

CHAPTER 151  
TOBACCO USE PREVENTION AND CONTROL  
COMMUNITY PARTNERSHIP INITIATIVE

**641—151.1(142A) Scope.** These rules apply to community partnerships established under Iowa Code chapter 142A as part of a comprehensive tobacco use prevention and control initiative to reduce tobacco use by youth and pregnant women, to promote compliance by minors and retailers with tobacco sales laws and ordinances, to enhance the capacity of youth to make healthy choices and to foster a social and legal climate in which tobacco use becomes undesirable and unacceptable.

**641—151.2(142A) Community partnership areas.** It is the goal of the commission on tobacco use prevention and control that the entire state be divided into multiple community partnership areas, so that all portions of the state are included in a community partnership area and no portion of the state is without the services of a community partnership. Toward this goal, the commission will encourage formation of community partnership areas that incorporate surrounding communities in a manner that does not isolate any geographic region of the state, and encourages optimal use of resources. In addition to the requirements of Iowa Code section 142A.8(1), a community partnership area:

**151.2(1)** Shall be composed of one or more counties, school districts, economic development enterprise zones, or community empowerment areas.

**151.2(2)** Shall follow existing boundaries of one or more counties, school districts, economic development enterprise zones, or community empowerment areas.

**151.2(3)** Shall serve a population of at least 4,000, including a minimum school-age population of 500.

**151.2(4)** Shall serve a minimum geographic area of one county.

**641—151.3(142A) Community partnerships.** A community partnership is a public agency or nonprofit organization which utilizes broad community involvement and represents a broad coalition of community groups, organizations, and interests. Community partnerships shall promote a wide range of activities that discourage tobacco use and support smoke-free environments. Some of these activities include developing coalitions with local organizations, conducting educational programs and encouraging policies that support tobacco use prevention and cessation.

**641—151.4(142A) Application requirements for community partnerships.** In order to qualify for funding through the tobacco use prevention and control program, a public agency or nonprofit organization seeking to be designated as a community partnership must apply to, and be approved by, the department of public health. Only one application per community partnership will be accepted. An application must provide the following information:

**151.4(1)** A description of the community partnership area to be served by the community partnership, including:

*a.* The geographic boundaries of the area;

*b.* Population, including both general population and school-age population, of the area;

**151.4(2)** A description of the applicant, including a description of the governing structure of the agency or organization, a table of organization, and the applicant's mission statement;

**151.4(3)** A description of the tobacco use prevention and control services currently provided by the applicant;

**151.4(4)** A description of the community outreach and educational programming services currently provided by the applicant;

**151.4(5)** A description of the number of years the applicant has provided tobacco use prevention and control services and the number of clients served annually by the applicant;

**151.4(6)** A description of the funds currently received by the applicant which are targeted to provide tobacco use prevention and control services, including the source of funds, the dollar amount, and the period of funding;

**151.4(7)** A list of the other agencies, organizations, and entities currently providing tobacco use prevention and control services in the proposed community partnership area and a description of the tobacco use prevention and control services currently provided by the other agencies, organizations, or entities;

**151.4(8)** A description of the collaborative efforts the applicant has undertaken with the agencies, organizations, and entities described in subrule 151.4(6) and an action plan describing anticipated collaborative efforts during the funding period;

**151.4(9)** An assessment of the needs of the community partnership area which incorporates, but is not limited to, the following information for each county in the community partnership area:

*a.* Tobacco-related information from the community health needs assessment and health improvement plan (CHNA and HIP, Healthy Iowans);

*b.* Tobacco-related information from the most recent Iowa youth survey;

*c.* Relevant data regarding tobacco use;

*d.* Relevant Synar data;

*e.* Information or data received from other service providers, organizations, or law enforcement agencies;

**151.4(10)** A description of how the applicant intends to implement the initiative's goals described in Iowa Code section 142A.6(2) in light of the community needs identified in subrule 151.4(11), including a proposed budget and a description of how performance measures shall be developed and utilized;

**151.4(11)** Identification of the source and amount of local matching funds, services, or support;

**151.4(12)** A description of how youth (aged 5 to 24 years) will be involved in the community partnership.

[ARC 1225C, IAB 12/11/13, effective 1/15/14]

**641—151.5(142A) Performance indicators.** Periodic reports shall be submitted to the department by the community partnerships. These required reports shall be based on the degree to which the partnerships have achieved goals set out in the application and shall include information such as how many events/meetings were held and how many participants were in attendance.

**641—151.6(142A) Application deadline.** An applicant seeking to be approved as a community partnership for distribution of funds during the current fiscal year may apply once the RFA/RFP has been posted.

**151.6(1)** Rescinded IAB 12/11/13, effective 1/15/14.

**151.6(2)** Any change in the geographic boundaries of a community partnership area after a community partnership has been approved must be submitted to the tobacco use prevention and control division as a request to amend the application. The request shall describe the boundary change, explain the reason for the boundary change and describe any impact the boundary change will have on the information provided in response to rule 641—151.4(142A).

[ARC 1225C, IAB 12/11/13, effective 1/15/14]

**641—151.7(142A) Distribution of funding.**

**151.7(1)** Applications submitted in accordance with these rules will be evaluated by the administrator of the division of tobacco use prevention and control, or the administrator's designee, to determine whether the application meets the requirements for funding as designated in these rules. The administrator or designee may request additional information from any applicant regarding the content of the application and may condition funding based on an applicant's submission of additional information or based on an applicant's willingness to change any term of the application, including geographic boundaries of the community partnership area.

**151.7(2)** The department in consultation with the commission shall allocate funding to the community partnerships from the total moneys appropriated to the tobacco use prevention and control initiative. If sufficient funds are available, the department shall distribute the funding allocated to the community partnerships in accordance with this rule.

**151.7(3)** The department shall fund one community partnership per community partnership area. Funds shall be distributed equitably among the state's community partnership areas based on general population, school-age population, and designation of county or counties which comprise the community partnership area as a rural county or an urban county as defined by the Office of Management and Budget. Available funds will be distributed under the following formulas, using United States Census Bureau annual population estimates:

Rural counties:

\$.84 per school-age youth plus an additional \$.84 per non-school-age county resident

Urban counties:

\$.52 per school-age youth plus an additional \$.52 per non-school-age county resident; provided that application of the funding formula results in distribution to a community partnership of a minimum amount per county included in each community partnership area as determined annually by the department in consultation with the commission.

If application of the funding formula would result in distribution of less than the minimum established amount, the department shall distribute to such community partnership no less than the minimum established amount per county included in the community partnership area.

As sufficient funds become available, the department in consultation with the commission may also distribute to community partnerships funds for special or pilot projects within a community partnership area.

**151.7(4)** Funding received by a community partnership shall be matched on a one-to-four basis. The match may include in-kind services, office support, or other tangible support or offset of costs.

Any offers to assist the applicant in reaching the match must be disclosed to the department in writing. In regard to any cash offers that are declined, the applicant must disclose reasons and rationale as to why these offers were declined.

**151.7(5)** Prior to receiving funding, a community partnership shall be required to execute a contract with the department.

**151.7(6)** Funding may be denied on grounds including, but not limited to:

- a. Applications from more than one entity have been received covering the same, or portions of the same, geographic area and another application more closely satisfies application criteria.
- b. The application is incomplete, untimely, or includes misleading or inaccurate information.
- c. Program funds are no longer available.
- d. Local matching funds, services, or support is not available.
- e. The applicant refuses to execute a contract with the department.
- f. The applicant fails to comply with the statute or administrative rules governing this program.

[ARC 1225C, IAB 12/11/13, effective 1/15/14]

**641—151.8(142A) Gifts.** The commission shall solicit and accept gifts of money or services or property from governmental or private sources for use in support of the comprehensive tobacco use prevention and control initiative.

**151.8(1)** The commission shall not accept gifts of money or services or property from a manufacturer of tobacco products.

a. A gift means a rendering of anything of value in return for which legal consideration of equal or greater value is not given and received. A gift does not include funds deposited by any manufacturer of tobacco products into the tobacco settlement fund.

b. A manufacturer of tobacco products means every person who ships cigarettes or other tobacco products as defined in Iowa Code section 453A.1 into this state from outside the state.

**151.8(2)** The commission shall not accept a gift of money or services or property from a corporation or other private legal entity which is controlled by a manufacturer of tobacco products. A manufacturer of tobacco products controls a corporation or other private legal entity when the manufacturer possesses, directly or indirectly, the power to direct or cause the direction of the management and policies of a

corporation or other private legal entity, whether through the ownership of voting rights, by contract, or otherwise.

**151.8(3)** The commission may not accept a gift of money or services or property from a corporation or other private legal entity in which a manufacturer of tobacco products has a noncontrolling interest. A manufacturer of tobacco products has a noncontrolling interest in a corporation or other private legal entity when the manufacturer has a commercial contract for goods or nonmanagement services, or holds the power to vote, or holds proxies representing less than 10 percent of the voting rights of any other person.

**151.8(4)** The commission, in its discretion, may require any corporation or other private legal entity from which it solicits, or which offers to it, a gift of money or services or property for use in support of the comprehensive tobacco use prevention and control initiative to submit a statement describing the relationship, if any, between the corporation or other private legal entity and a manufacturer of tobacco products.

**151.8(5)** If the commission accepts a gift from a corporation or other private legal entity under the circumstances described in subrule 151.8(3), the commission may require the gift to be contingent on a waiver by the manufacturer of tobacco products of any right to advertise with regard to, claim responsibility for, or otherwise publicize the gift.

These rules are intended to implement Iowa Code chapter 142A.

CHAPTER 152  
TOBACCO USE PREVENTION AND CONTROL FUNDING PROCESS

**641—152.1(78GA, HF2565) Scope and purpose.** In addition to funding community partnerships in accordance with 641—Chapter 151, it is the goal of the commission on tobacco use prevention and control to provide funding for other programs for the purpose of achieving the goals of the initiative as defined in 2000 Iowa Acts, House File 2565. Toward this end, the commission intends to provide funding on a competitive basis for school programs; a media, marketing, and communications program; and a cessation program for pregnant women.

**641—152.2(78GA, HF2565) Funding.**

**152.2(1)** In addition to other requests for proposals necessary to implement the initiative, the commission shall issue a request for proposal (RFP) for the youth program, the media, marketing and communications program, and the cessation program for pregnant women. The RFP for each program shall include the amount of funding available, the project period, the services to be delivered, performance measures, application due date and other relevant time frames, a description of the review process, the review criteria to be used, expected contract terms, and a reference to the appeal process in the event an application is denied.

**152.2(2)** Applications submitted in accordance with these rules shall be evaluated in accordance with the review process described in the RFP. The administrator of the division of tobacco use prevention and control shall make the final determination regarding funding and shall notify all applicants regarding funding decisions by restricted certified mail, return receipt requested.

**641—152.3(78GA, HF2565) Appeals.**

**152.3(1)** Any request for an appeal concerning denial or partial denial of an application for funding shall be submitted by an aggrieved party in writing to the department by certified mail, return receipt requested, within ten days of receipt of the notice of denial. The address is Department of Public Health, Tobacco Use Prevention and Control Division, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319. The request for appeal must state the party's complete legal name, street address, telephone number, fax number, and the specific grounds upon which the party challenges the board's denial, including legal authority, if any. The request for appeal commences a contested case.

**152.3(2)** Upon receipt of an appeal, the appeal shall be forwarded within five working days to the department of inspections and appeals pursuant to the rules adopted by the department regarding transmission of contested cases.

**152.3(3)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 4.

**152.3(4)** When the hearing officer makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceeding ten days after it is received by the aggrieved party unless an appeal to the commission is taken as provided in subrule 152.3(5).

**152.3(5)** Any appeal to the commission for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the commission by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for appeal shall state the reasons for appeal.

**152.3(6)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the commission.

**152.3(7)** Review of a proposed decision shall be based on the record and limited to the issues raised in the hearing. The issues shall be specified in the notice of appeal of a proposed decision. The party requesting the review shall be responsible for transcribing any tape of the oral proceedings or arranging for a transcript of oral proceedings reported by a certified shorthand reporter.

**152.3(8)** Each party shall have the opportunity to file exceptions and present briefs. The administrator may set deadlines for the submission of exceptions or briefs. If oral argument will be held, the administrator shall notify all parties of the date, time and location at least ten days in advance.

**152.3(9)** The commission shall not receive any additional evidence, unless it grants an application to present additional evidence. Any such application must be filed by a party no less than five business days in advance of oral argument. Additional evidence shall be allowed only upon a showing that it is material to the outcome and that there were good reasons for failure to present it at hearing. If an application to present additional evidence is granted, the commission shall order the conditions under which it shall be presented.

**152.3(10)** The commission's final decision shall be in writing and it may incorporate all or part of the proposed decision.

**152.3(11)** The decision and order of the commission becomes the department's final agency action pursuant to Iowa Code chapter 17A upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

These rules are intended to implement Iowa Code chapter 17A and 2000 Iowa Acts, House File 2565.

[Filed emergency 10/13/00—published 11/1/00, effective 10/13/00]

CHAPTER 153  
SMOKEFREE AIR

**641—153.1(82GA, HF2212) Purpose and scope.** The purpose of these rules is to implement Iowa's Smokefree Air Act, enacted to reduce the level of exposure by the general public and employees to environmental tobacco smoke in order to improve the public health of Iowans. These rules apply to public places, places of employment, and certain outdoor areas in the state.

**641—153.2(82GA, HF2212) Definitions.** For the purposes of this chapter, the following definitions shall apply:

*"Ashtray"* means any receptacle, including a can, bottle, bowl, tray, or other vessel that is used for extinguishing or disposing of any lighted cigar, cigarette, pipe, or other tobacco product in any manner or form including ash, cigarette butts or filters, or cigar stubs. However, "ashtray" shall not include any receptacle located outdoors and on the perimeter of any public place, the perimeter of the grounds of any public building, the perimeter of school grounds, or the perimeter of any other outdoor space subject to the prohibition in 2008 Iowa Acts, House File 2212, section 3, and rule 641—153.3(82GA, HF2212).

*"Bar"* means an establishment where one may purchase alcoholic beverages, as defined in Iowa Code section 123.3, for consumption on the premises and in which the serving of food is only incidental to the consumption of those beverages.

*"Child care facility"* means child care facility as defined by the department of human services pursuant to Iowa Code section 237A.1.

*"Child care home"* means child care home as defined by the department of human services pursuant to Iowa Code section 237A.1.

*"Department"* means the Iowa department of public health.

*"Entrance"* means any doorway to an enclosed area used by the public or employees for ingress to any public place or place of employment, but does not include any doorway designated for use as an exit in an emergency only. "Entrance" also includes the commonly understood points of entry to an outdoor area, subject to the prohibitions of this chapter, such as a driveway, sidewalk, pathway, access road, gate, or dedicated point of entry, but not including a street, road, highway, or sidewalk in the public right-of-way.

*"Gaming floor"* means gaming floor as defined by the state racing and gaming commission pursuant to Iowa Code section 99F.1.

*"Grounds of any public building"* means an outdoor area of a public building that is used in connection with the building, including but not limited to a sidewalk or driveway immediately adjacent to the building, but not including a sidewalk in the public right-of-way; a sitting or standing area immediately adjacent to the building; a patio; a deck; a curtilage or courtyard; a swimming or wading pool; a beach; or any other outdoor area as designated by the person having custody or control of the public building. A person having custody or control of a public building may exclude from the designated grounds of any public building the following: a parking lot, the course of play at a golf course, a hiking trail, locations of an individual campsite or campfire, or a lake, river, or other body of water. Nothing in this definition prohibits any owner, operator, manager, or other person having custody or control of an area that is exempt from the prohibitions of 2008 Iowa Acts, House File 2212, section 3, and rule 641—153.3(82GA, HF2212) from declaring the entire area or property a nonsmoking place.

*"Hotel and motel"* means any building or structure equipped, used, advertised as, or held out to the public to be an inn, hotel, motel, motor inn, or place where sleeping accommodations are furnished for hire to transient guests.

*"Incidental to the sale of tobacco products"* means that the gross revenue of a retail tobacco store derived from the sale of products other than tobacco products is not more than 20 percent of the retail tobacco store's total gross revenue.

*"Infiltrate"* means to permeate an area where smoking is prohibited by passing through a wall, ceiling, floor, window, door, or ventilation system to the extent that an individual can smell secondhand smoke.

*“Public and private educational facility”* means a public school and nonpublic school as defined in Iowa Code section 280.2, a community college as defined in Iowa Code section 260C.2, an accredited private institution as defined in Iowa Code section 261.9, and an institution governed by the board of regents pursuant to Iowa Code section 262.7.

*“Public building”* means an enclosed area owned, leased, or operated by or under the control of the state government or its political subdivisions.

*“Restaurant”* means eating establishments, including private and public school cafeterias, which offer food to the public, guests, or employees, including the kitchen and catering facilities in which food is prepared on the premises for serving elsewhere, and including a bar area within a restaurant.

*“Retail tobacco store”* means a retail store utilized primarily for the sale of tobacco products and accessories and in which the sale of other products is incidental to the sale of tobacco products.

*“Seating areas of outdoor sports arenas, stadiums, amphitheaters, or other entertainment venues”* means areas designated by the owner, operator, manager, or other person having custody or control of the area to be used primarily to witness entertainment events and shall include, but not be limited to, all chairs, seats, and bleachers whether permanent or temporary; standing room only; general admission or festival-style seating; and any other areas where individuals congregate to witness entertainment events.

*“Serving of food incidental to the consumption of alcoholic beverages”* means food preparation that is limited to the service of ice, prepackaged snack foods, popcorn, peanuts, and the reheating of commercially prepared foods that do not require assembly, such as frozen pizza, prepackaged sandwiches, or other prepackaged, ready-to-serve products.

*“Smoking cessation program”* means a course of treatment that is capable of clinical review for evidence-based outcomes that verify that individuals in the program stop smoking and that has been approved for coverage by a private or managed health care plan, Medicaid, Medicare, the Veterans Health Administration, or the United States military.

#### **641—153.3(82GA, HF2212) Prohibition of smoking.**

**153.3(1)** *Public places, places of employment.* Smoking is prohibited and a person shall not smoke in either of the following areas:

- a. Public places, as defined in 2008 Iowa Acts, House File 2212.
- b. All enclosed areas within places of employment including but not limited to work areas, private offices, conference and meeting rooms, classrooms, auditoriums, employee lounges and cafeterias, hallways, medical facilities, restrooms, elevators, stairways and stairwells, and vehicles owned, leased, or provided by the employer unless otherwise provided under these rules and 2008 Iowa Acts, House File 2212.

**153.3(2)** *Outdoor areas.* Smoking is prohibited and a person shall not smoke in or on any of the following outdoor areas:

- a. The seating areas of outdoor sports arenas, stadiums, amphitheaters and other entertainment venues where members of the general public assemble to witness entertainment events.
- b. Outdoor seating or serving areas of restaurants.
- c. Public transit stations, platforms, and shelters under the authority of the state or its political subdivisions.
- d. School grounds, including parking lots, athletic fields, playgrounds, tennis courts, and any other outdoor area under the control of a public or private educational facility, including inside any vehicle located on such school grounds.
- e. The grounds of any public buildings owned, leased, or operated by or under the control of the state government or its political subdivisions, including the grounds of a private residence of any state employee any portion of which is open to the public with the following exceptions:

(1) This paragraph shall not apply to the Iowa state fairgrounds, or fairgrounds as defined in Iowa Code section 174.1.

(2) This paragraph shall not apply to institutions administered by the department of corrections, except that smoking on the grounds shall be limited to designated smoking areas.

(3) This paragraph shall not apply to facilities of the Iowa National Guard as defined in Iowa Code section 29A.1, except that smoking on the grounds shall be limited to designated smoking areas.

**641—153.4(82GA, HF2212) Areas where smoking not regulated.** Notwithstanding any provision of these rules and 2008 Iowa Acts, House File 2212, to the contrary, the following areas are exempt from the prohibitions of 2008 Iowa Acts, House File 2212, section 3:

**153.4(1)** Private residences, unless used as a child care facility, child care home, or a health care provider location.

**153.4(2)** Hotel and motel rooms that are rented to guests and are designated as smoking rooms; provided that not more than 20 percent of the rooms of a hotel or motel rented to guests are designated as smoking rooms, all smoking rooms on the same floor are contiguous, and smoke from smoking rooms does not infiltrate into areas in which smoking is otherwise prohibited under these rules. The status of smoking and nonsmoking rooms shall not be changed, except to provide additional nonsmoking rooms.

**153.4(3)** Retail tobacco stores, provided that smoke from these locations does not infiltrate into areas in which smoking is otherwise prohibited under these rules.

**153.4(4)** Private and semiprivate rooms in long-term care facilities, occupied by one or more individuals, all of whom are smokers and have requested in writing to be placed in a room where smoking is permitted, provided that smoke from these locations does not infiltrate into areas in which smoking is otherwise prohibited under these rules and 2008 Iowa Acts, House File 2212.

**153.4(5)** Private clubs that have no employees, except when being used for a function to which the general public is invited, provided that smoke from these locations does not infiltrate into areas in which smoking is otherwise prohibited under these rules and 2008 Iowa Acts, House File 2212. This exemption shall not apply to any entity that is established for the purpose of avoiding compliance with these rules and 2008 Iowa Acts, House File 2212.

**153.4(6)** Outdoor areas that are places of employment except those areas where smoking is prohibited pursuant to 2008 Iowa Acts, House File 2212, section 3, subsection 2.

**153.4(7)** Limousines under private hire; vehicles owned, leased, or provided by a private employer that are for the sole use of the driver and are not used by more than one person in the course of employment either as a driver or passenger; privately owned vehicles not otherwise defined as a place of employment or public place; and cabs of motor trucks or truck tractors if no nonsmoking employees are present.

**153.4(8)** An enclosed area within a place of employment or public place that provides a smoking cessation program or a medical or scientific research or therapy program, if smoking is an integral part of the program.

**153.4(9)** Farm tractors, farm trucks, and implements of husbandry when being used for their intended purposes.

**153.4(10)** Only the gaming floor of premises licensed pursuant to Iowa Code chapter 99F exclusive of any bar or restaurant located within the gaming floor which is an enclosed area and subject to the prohibitions of 2008 Iowa Acts, House File 2212, section 3.

**153.4(11)** The Iowa veterans home.

**641—153.5(82GA, HF2212) Duties of employers, owners, operators, managers, and persons having custody or control of a public place, place of employment, area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5, or outdoor areas where smoking is prohibited.**

**153.5(1)** The employer, owner, operator, manager, or person having custody or control of a place where smoking is prohibited under 2008 Iowa Acts, House File 2212, shall:

*a.* Not permit smoking in a public place, place of employment, outdoor area where smoking is prohibited, or an area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5.

*b.* Inform all current employees and all prospective employees upon application for employment of the prohibitions of 2008 Iowa Acts, House File 2212.

*c.* Not retaliate against any employee, applicant for employment, or customer that exercises any rights under 2008 Iowa Acts, House File 2212, registers a complaint, or attempts to prosecute a violation of 2008 Iowa Acts, House File 2212.

*d.* Post signs in and at every entrance to the public place, place of employment, area declared nonsmoking, and outdoor area where smoking is prohibited that clearly and conspicuously inform persons that they are entering a no smoking facility or area.

(1) The signs shall be clear and conspicuous in or at the entrance where posted.

(2) The signs shall be at least 24 square inches in size (for example, 4 inches by 6 inches) and shall be in legible font type.

(3) The signs shall contain the words “No Smoking” or the international “no smoking” symbol; the telephone number for reporting complaints, 1-888-944-2247; and the department of public health Web site, [www.IowaSmokefreeAir.gov](http://www.IowaSmokefreeAir.gov).

*e.* Place no smoking signs in every vehicle that constitutes a public place, place of employment, or area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5.

(1) Such signs shall be clear and conspicuous from the exterior of the vehicle.

(2) The signs shall be at least 9 square inches (for example, 3 inches by 3 inches) and shall be in legible font type.

(3) The signs shall contain the words “No Smoking” or the international “no smoking” symbol; the telephone number for reporting complaints, 1-888-944-2247; and the department of public health Web site, [www.IowaSmokefreeAir.gov](http://www.IowaSmokefreeAir.gov).

(4) Nothing in this rule requires the placement of a sign in any vehicle that the director of the department of administrative services or the director of transportation orders to receive a regular registration plate pursuant to Iowa Code section 321.19.

*f.* Remove all ashtrays from areas where smoking is prohibited.

**153.5(2)** The owner or operator of a building or facility that contains more than one public place, place of employment, or area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5, which is controlled by other employers, owners, or operators shall comply with the provisions of subrule 153.5(1) for the area of the building or facility under the owner's or operator's control.

**153.5(3)** An employer, owner, or operator of a public place, place of employment or area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5, that is within a public place that is owned or operated by another person shall comply with the provisions of subrule 153.5(1) for the area under the control of the employer, owner, or operator within that public place.

**153.5(4)** An employer, owner, operator, manager, or person having custody or control of a place where smoking is prohibited under 2008 Iowa Acts, House File 2212, shall inform any individual smoking in a place where smoking is prohibited that the individual is violating the smokefree air Act and shall request that the individual stop smoking immediately.

*a.* If the individual refuses to stop smoking, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may discontinue service to that individual.

*b.* If the individual refuses to stop smoking, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may request that the individual leave the area where smoking is prohibited.

*c.* If the individual refuses to leave the area where smoking is prohibited, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may notify the state or local law enforcement agency with jurisdiction over the area where smoking is prohibited.

**641—153.6(82GA, HF2212) Duties of other state agencies and political subdivisions.** A state agency or political subdivision which inspects public places shall assess compliance with the requirements of these rules and 2008 Iowa Acts, House File 2212, during any inspection process and shall report any violations of 2008 Iowa Acts, House File 2212, to the department.

**641—153.7(82GA, HF2212) Leases.** Any lease entered into by the state or its political subdivisions on or after July 1, 2008, shall require that all areas where smoking is prohibited in 2008 Iowa Acts, House File 2212, section 3, comply with the provisions of 2008 Iowa Acts, House File 2212.

**641—153.8(82GA, HF2212) Complaints and enforcement.**

**153.8(1) Duties of department.** The department shall maintain a system for receiving and investigating complaints against persons who own, operate, manage, or otherwise have custody or control of a place where smoking is prohibited and who fail to comply with the provisions of 2008 Iowa Acts, House File 2212.

*a.* Pursuant to 2008 Iowa Acts, House File 2212, section 9, subsection 7, the department may designate one or more public agencies through a 28E agreement or other written contract to assist with the enforcement of 2008 Iowa Acts, House File 2212.

*b.* The department may refer complaints regarding a violation of 2008 Iowa Acts, House File 2212, to the law enforcement authorities of the state or of the political subdivision of the state in which the alleged violation occurred.

**153.8(2) Enforcement against a person who smokes in an area where smoking is prohibited.** Pursuant to 2008 Iowa Acts, House File 2212, section 9, subsection 7, the department designates the law enforcement authorities of the state and of each political subdivision of the state to assist with the enforcement of 2008 Iowa Acts, House File 2212. A peace officer may issue a citation in lieu of arrest pursuant to Iowa Code chapter 805 against a person who smokes in an area where smoking is prohibited pursuant to 2008 Iowa Acts, House File 2212, and such person shall pay a civil penalty pursuant to Iowa Code section 805.8C(3)“a” for each violation.

**153.8(3) Enforcement against a person who owns, operates, manages, or otherwise has control of a place where smoking is prohibited.** Pursuant to 2008 Iowa Acts, House File 2212, section 9, subsection 7, the department designates the law enforcement authorities of the state and of each political subdivision of the state to assist with the enforcement of 2008 Iowa Acts, House File 2212. The department or its designee may initiate a civil action against an owner, operator, manager, or person who otherwise has custody or control of a place where smoking is prohibited pursuant to 2008 Iowa Acts, House File 2212, and such person shall pay the applicable civil penalty pursuant to 2008 Iowa Acts, House File 2212, section 9.

**153.8(4) Manner of filing a complaint.** Any person may register a complaint with the department by calling the toll-free number, 1-888-944-2247, or registering a complaint on the department’s Web site, [www.IowaSmokefreeAir.gov](http://www.IowaSmokefreeAir.gov), or downloading a complaint form from the department’s Web site and mailing the complaint form to the department at Department of Public Health, Division of Tobacco Use Prevention and Control, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319.

**153.8(5) Contents of the complaint.** A complaint filed with the department shall include:

*a.* The name or location of the public place, place of employment, area declared a nonsmoking place pursuant to 2008 Iowa Acts, House File 2212, section 5, or outdoor area where smoking is prohibited which is the subject of the complaint;

*b.* A description of the occurrence that prompted the complaint; and

*c.* Any other information relevant to the occurrence.

**153.8(6) Review of complaint by department.** Upon receipt of a complaint, the department or its designee may contact the individual making the complaint to confirm the details of the complaint and obtain any additional information.

**153.8(7) Information from inspections.** Information received by the department pursuant to rule 641—153.6(82GA, HF2212) of one or more violations of 2008 Iowa Acts, House File 2212, as a result of an inspection of a public place by the state or political subdivision of the state shall be considered a credible complaint under this rule.

**153.8(8) Notice of potential violation.** If the department determines that a complaint against a public place, place of employment, area declared nonsmoking pursuant to 2008 Iowa Acts, House File 2212, section 5, or outdoor areas where smoking is prohibited is credible, the department shall:

*a.* For the first complaint.

(1) Issue a written notice of potential violation to the owner, operator or person having custody or control including the details of the complaint.

(2) The notice shall include educational materials about how to comply with 2008 Iowa Acts, House File 2212, and information on whom to contact for further information and assistance for compliance.

*b.* For the second complaint in one year.

(1) Issue a second notice of potential violation to the owner, operator, or person having custody or control.

(2) In addition, the department may authorize one or more public agencies to conduct a compliance check of the location.

(3) In addition, the department may pursue the civil penalties provided for in 2008 Iowa Acts, House File 2212, section 9, subsection 2; may refer the complaint to the appropriate authority for enforcement of the civil penalties provided for in 2008 Iowa Acts, House File 2212, section 9, subsection 2; or may pursue any other remedy authorized by 2008 Iowa Acts, House File 2212.

*c.* For the third and subsequent complaints of a potential violation within one year.

(1) Issue a subsequent notice of potential violation to the owner, operator, or person having custody or control.

(2) In addition, the department may authorize one or more public agencies to conduct a compliance check of the location.

(3) In addition, the department may pursue the civil penalties provided for in 2008 Iowa Acts, House File 2212, section 9, subsection 2; may refer the complaint to the appropriate authority for enforcement of the civil penalties provided for in 2008 Iowa Acts, House File 2212, section 9, subsection 2; or may pursue any other remedy authorized by 2008 Iowa Acts, House File 2212.

**641—153.9(82GA, HF2212) Limitation of rules.** Nothing in these rules is intended to limit any other state administrative rule or federal regulation that prohibits smoking.

These rules are intended to implement 2008 Iowa Acts, House File 2212.

CHAPTER 154  
MEDICAL CANNABIDIOL PROGRAM

**641—154.1(124E) Definitions.** For the purposes of these rules, the following definitions shall apply:

“*Acceptance criteria*” means the specified limits placed on characteristics of an item or method that are used to determine data quality.

“*Accreditation*” means the procedure by which an authoritative body gives formal recognition that an organization is competent to carry out specific tasks and verifies that the appropriate quality management system is in place.

“*Accredited nonpublic school*” means any nonpublic school accredited by the Iowa state board of education, excluding home schools.

“*Action level*” means the threshold value that provides the criterion for determining whether a sample passes or fails a test performed pursuant to these rules.

“*Aliquot*” means a portion of a sample that is used in an analysis.

“*Analyte*” means a chemical, compound, element, bacteria, yeast, fungus, or toxin to be identified or measured.

“*Analytical batch*” means a group of samples that are prepared together for the same analysis and analyzed sequentially using the same instrument calibration curve and common analytical quality control checks.

“*Analytical method*” means a technique used qualitatively or quantitatively to determine the composition of a sample or a microbial contamination of a sample.

“*Audit*” means a financial review by an independent certified public accountant that includes select scope engagement or other methods of review that analyze operational or compliance issues.

“*Background investigation*” means a thorough review of an entity, an owner, investors, and employees conducted by the department of public safety, including but not limited to state and national criminal history records, credit records, and internal revenue service records.

“*Batch*” means a set of cannabis plants that are grown, harvested, and processed together, such that they are exposed to substantially similar conditions throughout cultivation and processing.

“*Batch number*” means a unique numeric or alphanumeric identifier assigned to a batch of cannabis plants by a manufacturer when the batch is first planted. The batch number shall contain the manufacturer’s number and a sequence to allow for inventory and traceability.

“*Biosecurity*” means a set of preventative measures designed to reduce the risk of transmission of:

1. Infectious diseases in crops;
2. Quarantined pests;
3. Invasive alien species;
4. Living modified organisms.

“*Bordering state*” means the same as defined in Iowa Code section 331.910.

“*Cannabinoid*” means a chemical compound that is unique to and derived from cannabis.

“*Cannabis*” means seeds, plants, cuttings, or plant waste material from *Cannabis sativa* L. or *Cannabis indica* used in the manufacture of medical cannabidiol.

“*CAS number*” means a unique numerical identifier assigned to every chemical substance described in the open literature by Chemical Abstracts Service.

“*CBD*” means cannabidiol, Chemical Abstracts Service number 13956-29-1.

“*CBDA*” means cannabidiolic acid, Chemical Abstracts Service number 1244-58-2.

“*CBG*” means cannabigerol, Chemical Abstracts Service number 25654-31-3.

“*CBN*” means cannabiniol, Chemical Abstracts Service number 521-35-7.

“*Certificate of analysis*” means the report prepared for the requester about the analytical testing performed and the results obtained by a laboratory.

“*Certification*” means a procedure by which a third party gives written assurance (certificate of conformity) that a product, process or service conforms to specified requirements.

“*Certified*” means that a laboratory demonstrates to the satisfaction of the department its ability to consistently produce valid data within the acceptance limits as specified in the department’s

requirements for certification and meets the minimum requirements of this chapter and all applicable regulatory requirements.

*“Certified reference material”* means a reference material prepared by a certifying body.

*“Crop input”* means any substance applied to or used in the cultivation and growth of a cannabis plant. “Crop input” includes, but is not limited to, pesticides, fungicides, fertilizers, and other soil or medium amendments.

*“Data-quality assessment”* means a scientific and statistical process that establishes whether the collected data are of the right type, quality, and quantity to support the intended use of the data.

*“Date of expiration”* means one year from the date of issuance of the medical cannabidiol registration card by the department of transportation.

*“Date of issuance”* means the date of issuance of the medical cannabidiol registration card by the department of transportation.

*“Debilitating medical condition”* means any of the following:

1. Cancer, if the underlying condition or treatment produces one or more of the following:
  - Severe or chronic pain.
  - Nausea or severe vomiting.
  - Cachexia or severe wasting.
2. Multiple sclerosis with severe and persistent muscle spasms.
3. Seizures, including those characteristic of epilepsy.
4. AIDS or HIV as defined in Iowa Code section 141A.1.
5. Crohn’s disease.
6. Amyotrophic lateral sclerosis.
7. Any terminal illness, with a probable life expectancy of under one year, if the illness or its treatment produces one or more of the following:

- Severe or chronic pain.
  - Nausea or severe vomiting.
  - Cachexia or severe wasting.
8. Parkinson’s disease.
  9. Untreatable pain.

*“Department”* means the Iowa department of public health.

*“Department of transportation”* means the Iowa department of transportation.

*“Director”* means the director of the Iowa department of public health.

*“Dispensary”* means an individual or entity licensed by the department to dispense medical cannabidiol to patients and primary caregivers pursuant to Iowa Code chapter 124E and these rules. “Dispensary” includes the employees and agents of the dispensary.

*“Dispensary facility”* means any secured building, space, grounds, and physical structure of a dispensary licensed by the department to dispense medical cannabidiol and where the dispensing of medical cannabidiol is authorized.

*“Dispense”* or *“dispensing”* means to supply medical cannabidiol to patients pursuant to Iowa Code chapter 124E and these rules.

*“Disqualifying felony offense”* means a violation under federal or state law of a felony under federal or state law, which has as an element the possession, use, or distribution of a controlled substance, as defined in 21 U.S.C. §802(6).

*“Edible medical cannabidiol products”* means food items containing medical cannabidiol. “Edible medical cannabidiol products” does not include pills, tinctures, oils, or other forms of medical cannabidiol that may be consumed orally or through the nasal cavity that do not contain food or food additives; provided that food or food additives used as carriers, excipients, or processing aids shall not be considered food or food additives.

*“Field duplicate sample”* means a sample that is taken in the identical manner and from the same batch, process lot, or lot being sampled as the primary sample. A field duplicate sample is analyzed separately from the primary sample and is used for quality control only.

“*Form and quantity*” means the types and amounts of medical cannabidiol allowed to be dispensed to a patient or primary caregiver as approved by the department subject to recommendation by the medical cannabidiol board and approval by the board of medicine.

“*Frequency*” means the number of items occurring in a given category. Frequency may be determined by analytical method or laboratory-specific requirements for the purpose of accuracy, precision of the analysis, or statistical calculation.

“*Health care practitioner*” means an individual licensed under Iowa Code chapter 148 to practice medicine and surgery or osteopathic medicine and surgery who is a patient’s primary care provider. “Health care practitioner” shall not include a physician assistant licensed under Iowa Code chapter 148C or an advanced registered nurse practitioner licensed pursuant to Iowa Code chapter 152 or 152E.

“*Increment*” or “*sample increment*” means a smaller sample that, together with other increments, makes up the primary sample.

“*Inspection*” means an on-site evaluation by the department, the department of public safety, or a department-approved independent consultant of facilities, records, personnel, equipment, methodology, and quality assurance practices for compliance with these rules.

“*International Electrotechnical Commission*” or “*IEC*” means an independent, nongovernmental membership organization that prepares and publishes international standards for all electrical, electronic, and related technologies.

“*International Organization for Standardization*” or “*ISO*” means an independent, nongovernmental membership organization and the largest developer of voluntary international standards.

“*Laboratory*” means the state hygienic laboratory at the University of Iowa or other independent medical cannabidiol testing facility accredited to Standard ISO/IEC 17025 by an ISO-approved accrediting body, with a controlled substance registration certificate from the Drug Enforcement Administration of the U.S. Department of Justice and a certificate of registration from the Iowa board of pharmacy, and approved by the department to examine, analyze, or test samples of medical cannabidiol or any substance used in the manufacture of medical cannabidiol.

“*Limit of detection*” or “*LOD*” means the lowest quantity of a substance or analyte that can be distinguished from the absence of that substance within a stated confidence limit.

“*Limit of quantitation*” or “*LOQ*” means the minimum concentration of an analyte in a specific matrix that can be reliably quantified while also meeting predefined goals for bias and imprecision.

“*Lot*” means a specific quantity of medical cannabidiol that is uniform and intended to meet specifications for identity, strength, purity, and composition, and that is manufactured, packaged, and labeled during a specified time period according to a single manufacturing, packaging, and labeling record.

“*Lot number*” means a unique numeric or alphanumeric identifier assigned to a lot by a manufacturer when medical cannabidiol is produced. The lot number shall contain the manufacturer’s number and a sequence to allow for inventory, traceability, and identification of the plant batches used in the production of a lot of medical cannabidiol.

“*Manufacture*” or “*manufacturing*” means the process of converting harvested cannabis plant material into medical cannabidiol.

“*Manufacturer*” means an individual or entity licensed by the department to produce medical cannabidiol and distribute it to dispensaries pursuant to Iowa Code chapter 124E and these rules. “Manufacturer” includes the employees and agents of the manufacturer.

“*Manufacturing facility*” means any secured building, space, grounds, and physical structure of a manufacturer for the cultivation, harvesting, packaging, processing, storage, and distribution of cannabis or medical cannabidiol and where access is restricted to designated employees of a manufacturer and escorted visitors.

“*Market withdrawal*” means the voluntary removal of medical cannabidiol from dispensaries and patients by a manufacturer for minor issues that do not pose a serious health threat.

“*Mass spectrometry*” means an analytical technique that ionizes chemical species and sorts the ions based on their mass-to-charge ratio.

“*Matrix*” means the component or substrate that contains the analyte of interest.

“*Matrix spike duplicate*” means a duplicate sample prepared by adding a known quantity of a target analyte to a field sample matrix or other matrix that is as closely representative of the matrix under analysis as possible.

“*Matrix spike sample*” means a sample prepared by adding a known quantity of the target analyte to a field sample matrix or to a matrix that is as closely representative of the matrix under analysis as possible.

“*Medical assistance program*” means IA Health Link, Medicaid Fee-for-Service, or HAWK-I, as administered by the Iowa Medicaid enterprise of the Iowa department of human services.

“*Medical cannabidiol*” means any pharmaceutical grade cannabinoid found in the plant *Cannabis sativa* L. or *Cannabis indica* or any other preparation thereof that has a tetrahydrocannabinol level of no more than 3 percent and that is delivered in a form recommended by the medical cannabidiol board, approved by the board of medicine, and designated in this chapter.

“*Medical cannabidiol waste*” means medical cannabidiol that is returned, damaged, defective, expired, or contaminated.

“*Medical cannabis goods*” means medical cannabidiol process lots, medical cannabidiol products, and cannabis plant material, including dried tissue.

“*Method blank*” means an analyte-free matrix to which all reagents are added in the same volumes or proportions as are used in sample preparation.

“*Moisture content*” means the percentage of water in a dry sample by weight.

“*National criminal history background check*” means fingerprint processing through the department of public safety and the Federal Bureau of Investigation (FBI) and review of records on file with national organizations, courts, and law enforcement agencies to the extent allowed by law.

“*Non-target organism*” means an organism that the test method or analytical procedure is not testing for. Non-target organisms are used in evaluating the specificity of a test method.

“*Patient*” means a person who is a permanent resident of the state of Iowa who suffers from a debilitating medical condition that qualifies for the use of medical cannabidiol pursuant to Iowa Code chapter 124E and these rules.

“*Percent recovery*” means the percentage of a measured concentration relative to the added (spiked) concentration in a reference material, matrix spike sample, or matrix spike duplicate.

“*Permanent resident*” means a natural person who physically resides in Iowa as the person’s principal and primary residence and who establishes evidence of such residency by providing the department with one of the following:

1. A valid Iowa driver’s license,
2. A valid Iowa nonoperator’s identification card,
3. A valid Iowa voter registration card,
4. A current Iowa vehicle registration certificate,
5. A utility bill,
6. A statement from a financial institution,
7. A residential lease agreement,
8. A check or pay stub from an employer,
9. A child’s school or child care enrollment documents,
10. Valid documentation establishing a filing for homestead or military tax exemption on property located in Iowa, or
11. Other valid documentation as deemed acceptable by the department to establish residency.

“*Pharmaceutical grade*” means medical cannabidiol that meets standards for content, contamination, and consistency set by the department as determined by testing conducted at a laboratory pursuant to Iowa Code chapter 124E and these rules.

“*Plant material*” means any cannabis plant, cutting, trimming, or clone that has roots or that is cultivated with the intention of growing roots.

“*Plant material waste*” means plant material that is not used in the production of medical cannabidiol in a form allowable under these rules.

“*Primary caregiver*” means a person who is a resident of this state or a bordering state, including but not limited to a parent or legal guardian, at least 18 years of age, who has been designated by a patient’s health care practitioner as a necessary caretaker taking responsibility for managing the well-being of the patient with respect to the use of medical cannabidiol pursuant to the provisions of Iowa Code chapter 124E and these rules.

“*Primary care provider*” means any health care practitioner involved in the diagnosis and treatment of a patient’s debilitating medical condition.

“*Primary sample*” means a portion of a batch, process lot, or lot that is used for testing for identity, strength, purity, and composition.

“*Process lot*” means any amount of cannabinoid concentrate or extract that is uniform, produced from one or more batches, and used for testing for identity, strength, purity, and composition prior to being packaged.

“*Product expiration date*” means the date after which a medical cannabidiol product may not be sold by a manufacturer or a dispensary.

“*Production*” or “*produce*” means:

1. Cultivating or harvesting plant material;
2. Processing or manufacturing; or
3. Packaging of medical cannabidiol.

“*Proficiency test*” means an evaluation of a laboratory’s performance against preestablished criteria by means of interlaboratory comparisons of test measurements.

“*Proficiency test sample*” means a sample prepared by a party independent of the testing laboratory, with a concentration and identity of an analyte that is known to the independent party but is unknown to the testing laboratory and testing laboratory personnel.

“*Public or private school*” means any property operated by a school district, charter school, or accredited nonpublic school for purposes related to elementary, middle, or secondary schools or secondary vocation centers.

“*Qualitative analysis*” means identification of an analyte in a substance or mixture.

“*Quality assurance*” means a set of operating principles to produce data of known accuracy and precision. “Quality assurance” encompasses employee training, equipment preventative maintenance procedures, calibration procedures, and quality control testing, among other things.

“*Quality control*” means a set of measures implemented within an analytical procedure to ensure that the measurement system is operating in a state of statistical control in which errors have been reduced to acceptable levels.

“*Quality control samples*” means samples produced and used for the purpose of assuring quality control. Quality control samples include but are not limited to blank samples, spike samples, duplicate samples, and reference material samples.

“*Quantitative analysis*” means measurement of the quantities of chemical components present in a substance or mixture. Quantitative analysis typically uses a certified reference material, if available, to create a calibration curve.

“*Reagent*” means a compound or mixture added to a system to cause a chemical reaction or to test if a reaction occurs. A reagent may be used to tell whether or not a specific chemical substance is present by causing a reaction to occur with the chemical substance.

“*Recall*” means the return of medical cannabidiol from patients and dispensaries to a manufacturer because of the potential for serious health consequences from the use of the medical cannabidiol.

“*Reference material*” means a material containing a known concentration of an analyte of interest that is in solution or in a homogeneous matrix. Reference material is used to document the bias of the analytical process.

“*Reference method*” means a method by which the performance of an alternate method is measured or evaluated.

“*Relative percent difference*” or “*RPD*” means a comparative statistic used to calculate precision or random error. RPD is calculated using the following equation:  $RPD = \text{absolute value (primary sample)}$

measurement - duplicate sample measurement) / ([primary sample measurement + duplicate sample measurement] / 2) × 100.

“*Relative standard deviation*” or “*RSD*” means the standard deviation expressed as a percentage of the mean recovery. “RSD” is the coefficient of variation multiplied by 100. If any results are less than the limit of quantitation, then the absolute value of the limit of quantitation is used in the following equation:  $RSD = (s / x) \times 100$ , where  $s$  = standard deviation and  $x$  = mean recovery.

“*Requester*” means a person who submits a request to a licensed testing laboratory for state-mandated testing of medical cannabis goods. The requester may be a licensed manufacturer or the department.

“*Residual solvents and processing chemicals*” means volatile organic chemicals that are used or produced in the manufacture or production of medical cannabidiol.

“*Restricted access area*” means a building, room, or other contiguous area on the premises where plant material is grown, cultivated, harvested, stored, packaged, or processed for sale under control of the manufacturer, and where no person under the age of 18 is permitted.

“*Sample*” means a representative part of or a single item from a larger whole or group.

“*Sanitize*” means to sterilize, disinfect, or make hygienic.

“*Semiquantitative analysis*” means less than quantitative precision and does not involve a full calibration. Analyte identification is based on a single-point reference or high-probability library match. The determination of amount uses the ratio of the unknown chemical analyte to that of a known analyte added to the sample before analysis. Uncertainty for semiquantitative results is higher than for quantitative results.

“*Significant figures*” means the number of digits used to express a measurement.

“*Stability*” or “*stable*” means that after storage of an unopened package of medical cannabidiol, the contents shall not vary in concentrations of THC and CBD by more or less than 15 percent by weight in milligrams per milliliter (mg/ml) for liquids and milligrams per gram (mg/g) for solids from the concentration indicated on the package label. Thus, after storage, a solid product labeled as containing a concentration of CBD of 10 milligrams per gram shall have a detected concentration of CBD that is no more than 11.50 milligrams per gram and no less than 8.50 milligrams per gram.

“*Standard operating procedure*” means a written document that provides detailed instructions for the performance of all aspects of an analysis, operation, or action.

“*State*” means a state of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

“*Synthetic cannabinoid*” means a designed compound with structural features that allow binding to the known cannabinoid receptors present in human cells and that produce biological effects similar to those of natural cannabinoids.

“*Tamper-evident*” means that one or more one-time-use seals are affixed to the opening of a package, allowing a person to recognize whether or not the package has been opened.

“*Target organism*” means an organism that is being tested for in an analytical procedure or test method.

“*Testing laboratory record*” means information relating to the testing laboratory and the analyses it performs that is prepared, owned, used, or retained by the laboratory and includes electronic files and video footage.

“*THC*” or “*delta-9 THC*” means tetrahydrocannabinol, Chemical Abstracts Service number 1972-08-3.

“*THCA*” means tetrahydrocannabinolic acid, Chemical Abstracts Service number 23978-85-0.

“*Untreatable pain*” means any pain whose cause cannot be removed and, according to generally accepted medical practice, the full range of pain management modalities appropriate for the patient has been used without adequate result or with intolerable side effects.

“*Validation*” means the confirmation by examination and objective evidence that the particular requirements for a specific intended use are fulfilled.

“*Written certification*” means a document signed by a health care practitioner, with whom the patient has established a patient-provider relationship, which states that the patient has a debilitating medical condition and identifies that condition and provides any other relevant information.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17; ARC 3606C, IAB 1/31/18, effective 3/7/18; ARC 3836C, IAB 6/6/18, effective 7/11/18]

#### REGISTRATION CARDS

### **641—154.2(124E) Health care practitioner certification—duties.**

**154.2(1)** Prior to a patient’s submission of an application for a medical cannabidiol registration card pursuant to this rule, a health care practitioner shall do all of the following:

*a.* Determine, in the health care practitioner’s medical judgment, whether the patient whom the health care practitioner has examined and treated suffers from a debilitating medical condition that qualifies for the use of medical cannabidiol as defined by this chapter, and if so determined, provide the patient with a written certification of that diagnosis by completing the health care practitioner section of the application form provided for this purpose on the department’s website ([www.idph.iowa.gov](http://www.idph.iowa.gov)).

*b.* Provide explanatory information to the patient as provided on the department’s website ([www.idph.iowa.gov](http://www.idph.iowa.gov)) about the therapeutic use of medical cannabidiol and the possible risks, benefits, and side effects of the proposed treatment.

**154.2(2)** Subsequently, the health care practitioner shall do the following:

*a.* Determine, on an annual basis, if the patient continues to suffer from a debilitating medical condition and, if so, issue the patient a new certification of that diagnosis.

*b.* Otherwise comply with all requirements in this chapter and requests from the department for more information.

**154.2(3)** A health care practitioner may provide, but has no duty to provide, a written certification pursuant to this rule.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

### **641—154.3(124E) Medical cannabidiol registration card—application and issuance to patient.**

**154.3(1)** Subject to subrule 154.3(7), the department may approve the issuance of a medical cannabidiol registration card by the department of transportation to a patient who:

*a.* Is at least 18 years of age.

*b.* Is a permanent resident of Iowa.

*c.* Submits a written certification to the department, provided to the patient pursuant to rule 641—154.2(124E) and signed by the patient’s health care practitioner certifying that the patient is suffering from a debilitating medical condition.

*d.* Submits an application to the department, on a form created by the department in consultation with the department of transportation and available at the department’s website ([www.idph.iowa.gov](http://www.idph.iowa.gov)), that contains all of the following:

(1) The patient’s full legal name, Iowa residence address, mailing address (if different from the patient’s residence address), telephone number, date of birth, and sex designation. The patient shall not provide as a mailing address an address for which a forwarding order is in place.

(2) A copy of the patient’s valid photo identification. Acceptable photo identification includes:

1. A valid Iowa driver’s license,

2. A valid Iowa nonoperator’s identification card, or

3. An alternative form of valid photo identification. A patient who possesses or is eligible for an Iowa driver’s license or an Iowa nonoperator’s identification card shall present such document as valid photo identification. A patient who is ineligible to obtain an Iowa driver’s license or an Iowa nonoperator’s identification card may apply for an exemption and request submission of an alternative form of valid photo identification. A patient who applies for an exemption is subject to verification of the patient’s identity through a process established by the department and the department of transportation to ensure the genuineness, regularity, and legality of the alternative form of valid photo identification.

(3) Full name, address, and telephone number of the patient’s health care practitioner.

(4) Full legal name, residence address, date of birth, and telephone number of each primary caregiver of the patient, if any.

(5) An attestation as to the truthfulness and accuracy of the information provided by the patient on the application.

*e.* Has not been convicted of a disqualifying felony offense.

*f.* Submits the required fee, as described in subrule 154.12(1).

**154.3(2)** Upon the completion, verification, and approval of the patient's application and the receipt of the required fee, the department shall notify the department of transportation that the patient may be issued a medical cannabidiol registration card.

**154.3(3)** A medical cannabidiol registration card issued to a patient by the department of transportation shall contain all of the following:

*a.* The patient's full legal name, Iowa residence address, date of birth, and sex designation, as shown on the patient's Iowa driver's license, nonoperator's identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.3(1) "d"(2)"3." If the patient's name, Iowa residence address, date of birth, or sex designation has changed since the issuance of the patient's Iowa driver's license, nonoperator's identification card, or alternative form of valid photo identification, the patient shall first update the patient's Iowa driver's license or nonoperator's identification card to reflect the current information, according to the procedures set forth in 761—subrule 605.11(2), 761—subrule 605.25(4), or rule 761—630.3(321), or shall update the alternative form of valid photo identification in accordance with the process of the issuing agency.

*b.* The date of issuance and the date of expiration, which shall be one year from the date of issuance.

*c.* A distinguishing registration number that is not the patient's social security number.

*d.* The patient's signature. The signature shall be without qualification and shall contain only the patient's usual signature without any other titles, characters, or symbols. The patient's signature certifies, under penalty of perjury and pursuant to the laws of the state of Iowa, that the statements made and information provided in the patient's application for a medical cannabidiol registration card are true and correct. The patient's signature shall be captured electronically.

*e.* A color photograph of the patient.

*f.* A statement that the medical cannabidiol registration card is not valid for identification purposes.

**154.3(4)** Every patient 18 years of age or older must obtain a valid medical cannabidiol registration card to use medical cannabidiol in Iowa.

**154.3(5)** An authorization to use medical cannabidiol or marijuana for medicinal purposes issued by another state, territory, or jurisdiction does not satisfy the requirements of Iowa Code chapter 124E or these rules for the issuance of a medical cannabidiol registration card.

**154.3(6)** A valid medical cannabidiol registration card, or its equivalent, issued under the laws of another state that allow an out-of-state patient to possess or use medical cannabidiol in the jurisdiction of issuance shall have the same force and effect as a valid medical cannabidiol registration card issued pursuant to Iowa Code chapter 124E, except that an out-of-state patient in Iowa shall not obtain medical cannabidiol from a medical cannabidiol dispensary in Iowa.

**154.3(7)** The department shall not approve the issuance of a medical cannabidiol registration card for a patient who is enrolled in a federally approved clinical trial for the treatment of a debilitating medical condition with medical cannabidiol.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

#### **641—154.4(124E) Medical cannabidiol registration card—application and issuance to primary caregiver.**

**154.4(1)** For a patient in a primary caregiver's care, the department may approve the issuance of a medical cannabidiol registration card by the department of transportation to a primary caregiver who:

*a.* Is at least 18 years of age.

*b.* Submits a written certification to the department, provided to the patient pursuant to rule 641—154.2(124E) and signed by the patient's health care practitioner certifying that the patient is suffering from a debilitating medical condition.

*c.* Submits an application as a primary caregiver for each patient for whom the person is the primary caregiver. The primary caregiver application must be on a form created by the department in consultation with the department of transportation and available at the department's website ([www.idph.iowa.gov](http://www.idph.iowa.gov)) that contains all of the following:

(1) The primary caregiver's full legal name, residence address, mailing address (if different from the primary caregiver's residence address), telephone number, date of birth, and sex designation. The primary caregiver shall not provide as a mailing address an address for which a forwarding order is in place.

(2) The patient's full legal name, date of birth, and parent or legal guardian's name if the patient is under the age of 18.

(3) A copy of the primary caregiver's valid photo identification. Acceptable photo identification includes:

1. A valid Iowa driver's license,

2. A valid Iowa nonoperator's identification card,

3. If the primary caregiver is not a resident of the state of Iowa, a valid state-issued driver's license or nonoperator's identification card issued by a state other than Iowa, or

4. An alternative form of valid photo identification. A primary caregiver who possesses or is eligible for a driver's license or a nonoperator's identification card shall present such document as valid photo identification. A primary caregiver who is ineligible to obtain a driver's license or a nonoperator's identification card may apply for an exemption and request submission of an alternative form of valid photo identification. A primary caregiver who applies for an exemption is subject to verification of the primary caregiver's identity through a process established by the department and the department of transportation to ensure the genuineness, regularity, and legality of the alternative form of valid photo identification.

(4) Full name, address, and telephone number of the patient's health care practitioner.

(5) An attestation as to the truthfulness and accuracy of the information provided by the primary caregiver on the application.

*d.* Has not been convicted of a disqualifying felony offense.

*e.* Submits the required fee, as described in subrule 154.12(2).

**154.4(2)** Upon the completion, verification, and approval of the primary caregiver's application, the department shall notify the department of transportation that the primary caregiver may be issued a medical cannabidiol registration card.

**154.4(3)** A medical cannabidiol registration card issued to a primary caregiver by the department of transportation shall contain all of the following:

*a.* The primary caregiver's full legal name, current residence address, date of birth, and sex designation, as shown on the primary caregiver's state-issued driver's license, nonoperator's identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.4(1)“c”(3)“4.” If the primary caregiver's name, current residence address, date of birth, or sex designation has changed since issuance of the primary caregiver's Iowa-issued driver's license, nonoperator's identification card, or other form of valid photo identification, the primary caregiver shall first update the primary caregiver's Iowa-issued driver's license or nonoperator's identification card according to the procedures set forth in 761—subrule 605.11(2), 761—subrule 605.25(4), or rule 761—630.3(321) or update the alternative form of valid photo identification in accordance with the process of the issuing agency.

*b.* The date of issuance and the date of expiration, which shall be one year from the date of issuance.

*c.* A distinguishing registration number that is not the primary caregiver's social security number.

*d.* The medical cannabidiol registration number for each patient in the primary caregiver's care. This number shall not be the primary caregiver's or patient's social security number. If the patient in the

primary caregiver's care is under the age of 18, the full name of the patient's parent or legal guardian shall be printed on the primary caregiver's registration card in lieu of the patient's medical cannabidiol registration number.

*e.* The primary caregiver's signature. The signature shall be without qualification and shall contain only the primary caregiver's usual signature without any other titles, characters, or symbols. The primary caregiver's signature certifies, under penalty of perjury and pursuant to the laws of the state of Iowa, that the statements made and information provided in the primary caregiver's application for a medical cannabidiol registration card are true and correct. The primary caregiver's signature shall be captured electronically.

*f.* A color photograph of the primary caregiver.

*g.* A statement that the medical cannabidiol registration card is not valid for identification purposes.

*h.* A statement distinguishing the medical cannabidiol registration cardholder as a primary caregiver.

**154.4(4)** A patient who is 18 years of age or older must have an approved application and a distinguishing medical cannabidiol registration number that is not the patient's social security number prior to the issuance of a medical cannabidiol registration card to the patient's primary caregiver.

**154.4(5)** An authorization to use, or to act as a primary caregiver for a patient authorized to use, cannabidiol or marijuana for medicinal purposes issued by another state, territory, or jurisdiction does not satisfy the requirements of Iowa Code chapter 124E or these rules for the issuance of a medical cannabidiol registration card.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.5(124E) Tamperproofing.** The department of transportation shall issue a medical cannabidiol registration card by a method or process which prevents as nearly as possible the alteration, reproduction, or superimposition of a photograph on the cannabidiol registration card without ready detection.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.6(124E) Denial and cancellation.** The department may deny an application for a medical cannabidiol registration card, or may cancel or direct the department of transportation to cancel a medical cannabidiol registration card, for any of the following reasons:

1. Information contained in the application is illegible, incomplete, falsified, misleading, deceptive, or untrue.

2. The department or the department of transportation is unable to verify the identity of the applicant from the photo identification or other documentation presented pursuant to paragraph 154.3(1)“d”(2)“3” or 154.4(1)“c”(3)“4.”

3. The applicant violates or fails to satisfy any of the provisions of Iowa Code chapter 124E or these rules.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.7(124E) Appeal.** If the department denies an application for or cancels a medical cannabidiol registration card, the department shall inform the applicant or cardholder of the denial or cancellation and state the reasons for the denial or cancellation in writing. An applicant or cardholder may appeal the denial or cancellation of a medical cannabidiol registration card by submitting a request for appeal to the department by certified mail, return receipt requested, within 20 days of receipt of the notice of denial or cancellation. The department's address is Iowa Department of Public Health, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319-0075. Upon receipt of a request for appeal, the department shall forward the request within five working days to the department of inspections and appeals. A contested case hearing shall be conducted in accordance with 641—Chapter 173.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.8(124E) Duplicate card.**

**154.8(1) *Lost, stolen, or destroyed card.*** To replace a medical cannabidiol registration card that is lost, stolen, or destroyed, a cardholder shall present to the department of transportation the cardholder's valid state-issued driver's license, nonoperator's identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.3(1) "d"(2)"3" or 154.4(1) "c"(3)"4."

**154.8(2) *Change in card information and voluntary replacement.***

*a.* To replace a medical cannabidiol registration card that is damaged, the cardholder shall surrender to the department of transportation the card to be replaced and present the cardholder's valid state-issued driver's license, nonoperator's identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.3(1) "d"(2)"3" or 154.4(1) "c"(3)"4."

*b.* A patient or primary caregiver to whom a medical cannabidiol registration card is issued shall notify the department of a change in current residence address, name, or sex designation listed on the card, within ten calendar days of the change. To replace a medical cannabidiol registration card to change the current residence address, name, or sex designation listed on the card, the cardholder shall surrender to the department of transportation the card to be replaced and present a valid state-issued driver's license, nonoperator's identification card, or alternative form of valid photo identification provided pursuant to paragraph 154.3(1) "d"(2)"3" or 154.4(1) "c"(3)"4" that has been updated according to the procedures established by the state or agency of issuance to reflect the requested residence address, name, or sex designation.

*c.* To replace a medical cannabidiol registration card held by a primary caregiver to change, add, or remove a patient's medical cannabidiol registration number or the name of a patient's parent or legal guardian listed on the primary caregiver's card, the primary caregiver shall submit a new application to the department pursuant to rule 641—154.4(124E). A medical cannabidiol registration card issued pursuant to this paragraph shall not be considered a duplicate card.

**154.8(3) *Expiration date.*** A duplicate medical cannabidiol registration card shall have the same expiration date as the medical cannabidiol registration card being replaced, changed, or amended.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.9(124E) *Renewal.*** A medical cannabidiol registration card shall be valid for one year from the date of issuance unless canceled pursuant to rule 641—154.6(124E).

**154.9(1)** A cardholder seeking renewal of a medical cannabidiol registration card shall submit a renewal application and fee to the department at least 60 days prior to the date of expiration.

*a.* A patient applying for renewal of a medical cannabidiol registration card shall submit a renewal application and fee to the department on a form approved by the department.

*b.* A primary caregiver applying for a renewal of a medical cannabidiol registration card shall submit a renewal application and fee to the department on a form approved by the department.

**154.9(2)** A cardholder who fails to renew the medical cannabidiol registration card may not lawfully possess medical cannabidiol pursuant to this chapter.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.10(124E) *Confidentiality.*** The department shall maintain a confidential file of the names of each patient to or for whom the department approves the issuance of a medical cannabidiol registration card and the name of each primary caregiver to whom the department issues a medical cannabidiol registration card under Iowa Code section 124E.4.

**154.10(1)** Personally identifiable information of patients and primary caregivers shall be maintained as confidential and is not accessible to the public. The department and the department of transportation shall release aggregate and statistical information regarding the medical cannabidiol act registration card program in a manner which prevents the identification of any patient or primary caregiver.

**154.10(2)** Personally identifiable information of patients and primary caregivers may be disclosed under the following limited circumstances:

*a.* To authorized employees or agents of the department and the department of transportation as necessary to perform the duties of the department and the department of transportation pursuant to Iowa Code chapter 124E.

b. To authorized employees of state or local law enforcement agencies located in Iowa, solely for the purpose of verifying that a person is lawfully in possession of a medical cannabidiol registration card issued pursuant to Iowa Code chapter 124E.

c. To a patient, primary caregiver, or health care practitioner, upon written authorization of the patient or primary caregiver.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.11(124E) Agreement with department of transportation.** The department may enter into a chapter 28E agreement with the department of transportation to facilitate the issuance of medical cannabidiol registration cards. The agreement may include provisions which govern the issuance, denial, and cancellation of medical cannabidiol registration cards, the sharing of information between the department and the department of transportation, and reimbursement for costs incurred by the department of transportation for issuing the card.

[ARC 1640C, IAB 10/1/14, effective 1/30/15; ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.12(124E) Fees.** All fees are nonrefundable.

**154.12(1) Patient medical cannabidiol registration card fee.**

a. Each application fee is \$100 unless the patient qualifies for a reduced fee as described in paragraph 154.12(1) "b."

b. Each reduced application fee is \$25 if the patient attests to receiving social security disability benefits, supplemental security income payments, or is enrolled in the medical assistance program as defined in rule 641—154.1(124E).

c. Each renewal fee is the same as the initial card application fee.

**154.12(2) Primary caregiver medical cannabidiol registration card fee.**

a. Each application fee is \$25.

b. Each renewal fee is \$25.

[ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.13(124E) Use of medical cannabidiol—smoking prohibited.** A patient shall not consume medical cannabidiol possessed or used pursuant to Iowa Code chapter 124E by smoking medical cannabidiol.

[ARC 3150C, IAB 7/5/17, effective 6/13/17]

**641—154.14(124E) Form and quantity of medical cannabidiol.** The form and quantity of medical cannabidiol authorized in this rule may be modified pursuant to recommendations by the medical cannabidiol board, subsequent approval of the recommendations by the board of medicine and adoption of the recommendations by the department by rule.

**154.14(1) Quantity.** A 90-day supply is the maximum amount of each product that shall be dispensed by a dispensary at one time.

**154.14(2) Form.**

a. A manufacturer may only manufacture medical cannabidiol in the following forms:

(1) Oral forms, including but not limited to:

1. Tablet.
2. Capsule.
3. Liquid.
4. Tincture.
5. Sublingual.

(2) Topical forms, including but not limited to:

1. Gel.
2. Ointment, cream or lotion.
3. Transdermal patch.

(3) Inhaled forms, limited to:

1. Nebulizable.

2. Vaporizable.
- (4) Rectal/vaginal forms, including but not limited to suppository.
  - b. A manufacturer may not produce medical cannabidiol in any form that may be smoked.
  - c. A manufacturer may not produce medical cannabidiol in an edible form as defined in rule 641—154.1(124E).

[ARC 3150C, IAB 7/5/17, effective 6/13/17; ARC 3836C, IAB 6/6/18, effective 7/11/18; ARC 4399C, IAB 4/10/19, effective 5/15/19]

**641—154.15** Reserved.

#### MANUFACTURING

#### **641—154.16(124E) Duties of the department.**

**154.16(1) *Interagency agreements.*** The department may enter into any interagency agreements with other state agencies for technical services or other assistance related to the regulation or inspection of manufacturers.

**154.16(2) *Notice to law enforcement.*** The department shall notify local law enforcement agencies and the department of public safety of the locations of manufacturers. If the department determines there is a threat to public safety, the department shall notify local law enforcement agencies and the department of public safety of any conditions that pose a threat to public safety, including but not limited to:

- a. Loss or theft of medical cannabidiol or plant material;
- b. Diversion or potential diversion of medical cannabidiol or plant material;
- c. Unauthorized access to the secure sales and inventory tracking system or other patient and caregiver information system or file; or
- d. Other violations of law.

**154.16(3) *Inspection of manufacturers.*** The department or its agents shall conduct regular inspections of manufacturers and manufacturing facilities as described in rule 641—154.28(124E).

**154.16(4) *Establishment and maintenance of a secure sales and inventory tracking system.*** The department shall establish and maintain a secure, electronic system that is available 24 hours a day, seven days a week to track:

- a. Inventory of plant material, medical cannabidiol, and waste material;
- b. Transport of plant material, waste material, and laboratory samples;
- c. Application and use of crop inputs and other solvents and chemicals;
- d. Sales of medical cannabidiol to dispensaries;
- e. Sales of medical cannabidiol from dispensaries to patients and primary caregivers.

**154.16(5) *Licensure and licensure renewal of manufacturers.*** The department shall issue a request for proposals to select and license by December 1, 2017, up to two manufacturers to manufacture and to possess, cultivate, harvest, transport, package, process, and supply medical cannabidiol within the state consistent with the provisions of Iowa Code chapter 124E and these rules.

a. To be eligible for licensure, an applicant manufacturer shall provide information on forms and in a manner required by the department of public safety for the completion of a background investigation. In addition, the applicant manufacturer shall submit to the department of public safety necessary funds to satisfy the full reimbursement of costs associated with completing the background investigations. If an applicant manufacturer is not found suitable for licensure as a result of the background investigation, a license shall not be issued by the department.

b. As a condition for licensure, an applicant manufacturer shall agree to begin supplying medical cannabidiol to licensed medical cannabidiol dispensaries in Iowa no later than December 1, 2018.

c. The initial license to manufacture medical cannabidiol shall be valid from December 1, 2017, through November 30, 2018. The license shall be renewed annually unless a manufacturer relinquishes the license, there is a change in state law prohibiting the department from renewing the license, or the license is revoked pursuant to Iowa Code chapter 124E or these rules.

d. A license to manufacture issued by the department pursuant to these rules is not assignable or transferable.

*e.* The department shall consider the following factors in determining whether to select and license a medical cannabidiol manufacturer:

- (1) The technical expertise of an applicant manufacturer regarding medical cannabidiol;
- (2) The qualifications of an applicant manufacturer's employees;
- (3) The long-term financial stability of an applicant manufacturer;
- (4) The ability to provide appropriate security measures on the premises of an applicant manufacturer;

(5) Whether an applicant manufacturer has demonstrated an ability to meet certain medical cannabidiol production needs for medical use regarding the range of recommended dosages for each debilitating medical condition, the range of chemical compositions of any plant of the genus cannabis that will likely be medically beneficial for each of the debilitating medical conditions, and the form or forms of medical cannabidiol that may be appropriate for the approved debilitating medical conditions;

- (6) An applicant manufacturer's projection of and ongoing assessment of wholesale product costs.

*f.* Pursuant to Iowa Code section 124E.6(1) "b," information submitted during the application process shall be confidential until the licensure process is completed unless otherwise protected from disclosure under state or federal law.

*g.* A licensed manufacturer shall submit an application to renew its license with the department at least six months before the license expires. The application shall be submitted on a form created by the department.

*h.* The department shall notify a manufacturer of the decision to approve or deny the manufacturer's license by August 1 of the year in which the renewal application is submitted.

**154.16(6) *Collection of fees from manufacturers.*** Except as provided in this rule, all fees are nonrefundable, shall be retained by the department, and shall be considered repayment receipts as defined in Iowa Code section 8.2.

*a. Fees to the department.*

(1) Each application for licensure as a manufacturer shall include a nonrefundable application fee of \$7,500.

(2) Licensed manufacturers shall pay an annual fee to the department to cover costs associated with regulating and inspecting manufacturers and for other expenses necessary for the administration of the medical cannabidiol program. The department shall assess the fee with the notice of approval of license renewal each year by August 1, payable by the manufacturer to the department no later than December 1.

*b. Fees to the department of public safety.*

(1) An applicant manufacturer shall be responsible to reimburse the department of public safety the full cost of conducting background investigations related to an application for licensure and operation as a licensed manufacturer. The department of public safety shall retain the right to bill a manufacturer for additional background investigations, as needed.

(2) Each manufacturer submitting an application for licensure shall, at the time of application, submit to the department of public safety a deposit of \$10,000 for each business owner subject to a background investigation and a national criminal history background check. Background investigation costs shall be deducted from the funds deposited. If the background investigation fees exceed the funds deposited, the applicant shall submit additional funds as required by the department of public safety. If the background investigation fees are less than the funds deposited, the department of public safety may refund or retain the fees as mutually agreed with the manufacturer.

(3) A licensed manufacturer shall pay a deposit of \$200 per employee to the department of public safety for a background investigation and a national criminal history background check on any person being considered for hire as an employee of the manufacturer. Background investigation costs shall be deducted from the funds deposited. If the background investigation fees exceed the funds deposited, the manufacturer shall submit additional funds as required by the department of public safety. If the background investigation fees are less than the funds deposited, the department of public safety may refund or retain the fees as mutually agreed with the manufacturer. The department shall retain the right

to preclude a potential employee from hire based upon the results of the background investigation and national criminal history background check.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.17(124E) Manufacturer operations.**

**154.17(1) *Operating documents.*** The operating documents of a manufacturer shall include all of the following:

*a.* Procedures for the oversight of the manufacturer, including descriptions of operational and management practices regarding:

(1) The forms and quantities of medical cannabidiol products that are produced at the manufacturing facility;

(2) The methods of planting, harvesting, drying, and storing cannabis;

(3) The estimated types and amounts of all crop inputs used in the production of medical cannabidiol;

(4) The estimated types and amounts of medical cannabidiol waste and plant material waste to be generated;

(5) The disposal methods for all waste materials;

(6) Employee training methods for the specific phases of production;

(7) Biosecurity measures used in the production and manufacturing of medical cannabidiol;

(8) Strategies for identifying and reconciling discrepancies in inventory of plant material or medical cannabidiol;

(9) Sampling strategy and quality testing for labeling purposes;

(10) Medical cannabidiol packaging and labeling procedures;

(11) Procedures for recall and market withdrawal of medical cannabidiol;

(12) Plans for responding to a security breach at a manufacturing facility or while medical cannabidiol is in transit to a dispensary;

(13) A business continuity plan;

(14) Records relating to all transport activities; and

(15) Other information requested by the department.

*b.* Procedures to ensure accurate record keeping.

*c.* Procedures for the implementation of appropriate security measures to deter and prevent the theft of medical cannabidiol and unauthorized entrance into areas containing medical cannabidiol.

**154.17(2) *Prohibited activities.*** A manufacturer shall not:

*a.* Own or operate a medical cannabidiol manufacturing facility unless the manufacturer is licensed by the department pursuant to Iowa Code chapter 124E and these rules;

*b.* Produce or manufacture medical cannabidiol in any location except in those areas approved by the department;

*c.* Sell, deliver, transport, or distribute medical cannabidiol from any location except its manufacturing facility or a dispensary facility;

*d.* Produce or manufacture medical cannabidiol in Iowa for sales or distribution outside of Iowa;

*e.* Sell or distribute medical cannabidiol to any person or business other than a dispensary;

*f.* Refuse to sell, deliver, transport, or distribute medical cannabidiol in any form or quantity produced by the manufacturer to a dispensary, unless deemed appropriate in the manufacturer's reasonable business judgment and approved by the department in writing;

*g.* Transport or deliver medical cannabidiol to any location except as allowed in subrule 154.22(1);

*h.* Sell medical cannabidiol that is not packaged and labeled in accordance with rule 641—154.21(124E);

*i.* Sell medical cannabidiol in any form or quantity other than a form or quantity approved by the department, subject to recommendation by the medical cannabidiol board and approval by the board of medicine;

*j.* Permit any person to consume medical cannabidiol on the property of the manufacturer;

*k.* Employ a person who is under 18 years of age or who has been convicted of a disqualifying felony offense;

*l.* Manufacture edible medical cannabidiol products.

**154.17(3) Criminal background investigations.**

*a.* A manufacturer shall not have been convicted of a disqualifying felony offense and shall be subject to a background investigation conducted by the department of public safety, including but not limited to a national criminal history record check.

*b.* An employee of a manufacturer shall not have been convicted of a disqualifying felony offense and shall be subject to a background investigation conducted by the department of public safety, including but not limited to a national criminal history background check.

**154.17(4) Relationship to health care practitioners.** A manufacturer shall not share office space with, refer patients to, or have any financial relationship with a health care practitioner.

[ARC 3606C, IAB 1/31/18, effective 3/7/18; ARC 3836C, IAB 6/6/18, effective 7/11/18]

**641—154.18(124E) Security requirements.** The department may request assistance from the department of public safety in ensuring manufacturers meet the security requirements in this rule.

**154.18(1) Visitor logs.** Visitors to the manufacturing facility shall sign visitor manifests with name, date, and times of entry and exit, and shall wear badges that are visible at all times and that identify them as visitors.

**154.18(2) Restricted access.** A manufacturer shall use a controlled access system and written manifests to limit entrance to all restricted access areas of its manufacturing facility and shall retain a record of all persons who entered the restricted access areas.

*a.* The controlled access system shall do all of the following:

(1) Limit access to authorized individuals;

(2) Maintain a log of individuals with approved access, including dates of approvals and revocations;

(3) Track times of personnel entry to and exit from the facility;

(4) Store data for retrieval for a minimum of one year; and

(5) Limit access to authorized individuals in the event of a power failure.

*b.* Separate written manifests of visitors to restricted access areas shall be kept and stored for a minimum of one year if the controlled access system does not include electronic records of visitors to the restricted access areas.

*c.* A manufacturer shall promptly, but no later than five business days after receipt of request, submit stored controlled access system data to the department.

*d.* Restricted access areas shall be identified with signs that state: “Do Not Enter – Restricted Access Area – Access Limited to Authorized Personnel Only.”

**154.18(3) Perimeter intrusion detection system.**

*a. Computer-controlled video surveillance system.* A manufacturer shall operate and maintain in good working order a computer-controlled, closed-circuit television surveillance system on its premises that operates 24 hours per day, seven days a week, and visually records:

(1) All phases of medical cannabidiol production;

(2) All areas that might contain plant material and medical cannabidiol, including all safes and vaults;

(3) All points of entry and exit;

(4) The entrance to the video surveillance control room; and

(5) Parking areas, which shall have appropriate lighting for the normal conditions of the area under surveillance.

*b. Camera specifications.* Cameras shall:

(1) Capture clear and certain identification of any person entering or exiting a manufacturing facility or its parking areas to the extent identification is technologically feasible with generally accepted commercial security cameras;

(2) Have the ability to produce a clear, color still photograph live or from a recording;

(3) Have on all recordings an embedded date-and-time stamp that is synchronized to the recording and does not obscure the picture; and

(4) Continue to operate during a power outage.

*c. Video recording specifications.*

(1) A video recording shall export still images in an industry standard image format, such as .jpg, .bmp, or .gif.

(2) Exported video shall be archived in a format that ensures authentication and guarantees that the recorded image has not been altered.

(3) Exported video shall also be saved in an industry standard file format that can be played on a standard computer operating system.

(4) All recordings shall be erased or destroyed at the end of the retention period and prior to disposal of any storage medium.

*d. Additional requirements.* A manufacturer shall maintain all security system equipment and recordings in a secure location to prevent theft, loss, destruction, corruption, and alterations.

*e. Retention.* A manufacturer shall ensure that recordings from all video cameras are:

(1) Available for viewing by the department upon request;

(2) Retained for at least 60 days;

(3) Maintained free of alteration or corruption; and

(4) Retained longer, as needed, if a manufacturer is given actual notice of a pending criminal, civil, or administrative investigation, or other legal proceeding for which the recording may contain relevant information.

*f. Required signage.* A manufacturer shall post a sign in capital letters in a conspicuous location at every entrance to the manufacturing facility that reads, "THESE PREMISES ARE UNDER CONSTANT VIDEO SURVEILLANCE."

**154.18(4) Security alarm system requirements.**

*a.* A manufacturer shall install and maintain a professionally monitored security alarm system that provides intrusion and fire detection of all:

(1) Facility entrances and exits;

(2) Rooms with exterior windows;

(3) Rooms with exterior walls;

(4) Roof hatches;

(5) Skylights; and

(6) Storage rooms.

*b.* For the purposes of this subrule, a security alarm system means a device or series of devices that summons law enforcement personnel during, or as a result of, an alarm condition. Devices may include:

(1) Hardwired systems and systems interconnected with a radio frequency method such as cellular or private radio signals that emit or transmit a remote or local audio, visual, or electronic signal;

(2) Motion detectors;

(3) Pressure switches;

(4) A duress alarm;

(5) A panic alarm;

(6) A holdup alarm;

(7) An automatic voice dialer; and

(8) A failure notification system that provides an audio, text, or visual notification of any failure in the surveillance system.

*c.* A manufacturer's security alarm system and all devices shall continue to operate during a power outage.

*d.* A manufacturer's security alarm system shall be inspected and all devices tested annually by a qualified alarm vendor. A manufacturer shall provide documentation of the annual inspection and device testing to the department upon request.

**154.18(5) Personnel identification system.** A manufacturer shall use a personnel identification system that controls and monitors individual employee access to restricted access areas within the manufacturing facility and that meets the requirements of this subrule and subrule 154.18(1).

*a.* Requirement for employee identification card. An employee identification card shall contain:

- (1) The name of the employee;
- (2) The date of issuance and expiration;
- (3) An alphanumeric identification number that is unique to the employee; and
- (4) A photographic image of the employee.

*b.* A manufacturer's employee shall keep the identification card visible at all times when the employee is in a manufacturing facility, a dispensary, or a vehicle transporting medical cannabidiol.

*c.* Upon termination or resignation of an employee, a manufacturer shall immediately:

- (1) Revoke the employee's access to the manufacturing facility; and
- (2) Obtain and destroy the employee's identification card, if possible.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.19(124E) Location.** All of a manufacturer's manufacturing, cultivating, harvesting, packaging, processing, and storage of medical cannabidiol shall take place in one secured manufacturing facility location at a physical address provided to the department during the licensure and application processes.

**154.19(1) Proximity to dispensary.** A manufacturer shall not operate a manufacturing facility at the same physical location as a medical cannabidiol dispensary.

**154.19(2) Proximity to school.** A manufacturer shall not operate a manufacturing facility in any location, whether for manufacturing, possessing, cultivating, harvesting, transporting, packaging, processing, storing, or supplying, within 1,000 feet of a public or private school existing before the date of the manufacturer's licensure by the department.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.20(124E) Advertising and marketing.**

**154.20(1) Permitted marketing and advertising activities.**

*a.* A manufacturer may:

(1) Display the manufacturer's business name and logo on medical cannabidiol labels, signs, website, and informational material provided to patients. The name or logo shall not include:

1. Images of cannabis or cannabis-use paraphernalia;
2. Colloquial references to cannabis;
3. Names of cannabis plant strains or varieties;
4. Unsubstantiated medical claims; or
5. Medical symbols that bear a reasonable resemblance to established medical associations.

Examples of established medical organizations include the American Medical Association or American Academy of Pediatrics. The use of medical symbols is subject to approval by the department;

- (2) Display signs on the manufacturing facility; and
- (3) Maintain a business website that contains the following information:
  1. The manufacturer's name and contact information;
  2. The medical cannabidiol forms and quantities manufactured in Iowa; and
  3. Other information as approved by the department.

*b.* The business website shall not include any false, misleading, or unsubstantiated statements regarding health or physical benefits to the patient.

c. The department reserves the right to review a manufacturer's marketing and advertising materials and to require a manufacturer to make changes to the content. The department has 30 calendar days following submission to approve or deny marketing and advertising materials of a manufacturer.

**154.20(2) *Other marketing and advertising activities.*** A manufacturer shall request and receive the department's written approval before beginning marketing or advertising activities that are not specified in subrule 154.20(1). The department has 30 calendar days to approve, deny, or request additional information regarding marketing and advertising activity requests from a manufacturer. In the event the department fails to respond to a manufacturer within 30 days with an approval, denial, or request for additional information, the manufacturer's marketing and advertising activity requests shall be deemed approved.

**154.20(3) *Inconspicuous display.*** A manufacturer shall arrange displays of medical cannabidiol, interior signs, and other exhibits to reasonably prevent public viewing from outside the manufacturing facility.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

### **641—154.21(124E) Packaging and labeling.**

**154.21(1) *Medical cannabidiol packaging.*** A manufacturer shall package all medical cannabidiol intended for distribution according to the following standards:

a. The manufacturer shall properly package medical cannabidiol in compliance with the United States Poison Prevention Packing Act regarding child-resistant packaging and exemptions for packaging for elderly patients.

b. The manufacturer shall label packaged medical cannabidiol as described in subrule 154.21(3).

c. The manufacturer shall use medical containers that are:

(1) Of sufficient size to accommodate a separate dispensary label containing the information described in rule 641—154.46(124E);

(2) Designed to maximize the shelf life of the contained medical cannabidiol;

(3) Tamper-evident; and

(4) Child-resistant.

d. Medical cannabidiol packaging shall not bear a reasonable resemblance to commonly available nonmedical commercial products.

e. The manufacturer shall package medical cannabidiol in a manner that minimizes the package's appeal to children.

f. The manufacturer shall not depict images other than the manufacturer's business name or logo on the packaging.

**154.21(2) *Trade names.*** A manufacturer's medical cannabidiol trade names shall comply with the following:

a. Names shall be limited to those that clearly reflect the form's medical cannabidiol nature;

b. Any name that is identical to, or similar to, the name of an existing nonmedical cannabidiol product is prohibited;

c. Any name that is identical to, or similar to, the name of an unlawful product or substance is prohibited; and

d. Any name that contains language that suggests using medical cannabidiol for recreational purposes or for a condition other than a qualifying debilitating medical condition is prohibited.

**154.21(3) *Package labeling.***

a. A manufacturer shall ensure that all medical cannabidiol packaging is labeled with the following information:

(1) The name and address of the manufacturer where the medical cannabidiol was manufactured;

(2) The medical cannabidiol's primary active ingredients, including concentrations of tetrahydrocannabinol, tetrahydrocannabinolic acid, cannabidiol, and cannabidiolic acid;

(3) Directions for use of the product, including recommended and maximum amount by age and weight, if applicable;

- (4) All ingredients of the product shown with common or usual names, including any colors, artificial flavors, and preservatives, listed in descending order by predominance of weight;
- (5) Instructions for storage, including light and temperature requirements, if any;
- (6) Product expiration date;
- (7) The date of manufacture and lot number;
- (8) A notice with the statement, including capitalization: “This product has not been analyzed or approved by the United States Food and Drug Administration. There is limited information on the side effects of using this product, and there may be associated health risks and medication interactions. This product is not recommended for use by pregnant or breastfeeding women. KEEP THIS PRODUCT OUT OF REACH OF CHILDREN.”;
- (9) The universal warning symbol provided by the department; and
- (10) A notice with the statement: “This medical cannabidiol is for therapeutic use only. Use of this product by a person other than the patient listed on the label is unlawful and may result in the cancellation of the patient’s medical cannabidiol registration card. Return unused medical cannabidiol to a dispensary for disposal.”
  - b. Labeling text shall not include any false or misleading statements.
  - c. A package may contain multiple labels if the information required by this rule is not obstructed.
  - d. Labeling text font size shall be no smaller than 6 point.

[ARC 3606C, IAB 1/31/18, effective 3/7/18; ARC 3836C, IAB 6/6/18, effective 7/11/18]

**641—154.22(124E) Transportation of medical cannabidiol and plant material.**

**154.22(1)** *Transport of medical cannabidiol.* A manufacturer is authorized to transport medical cannabidiol to and from:

- a. Dispensaries;
- b. A laboratory for testing;
- c. A waste facility for disposal;
- d. Other sites only with departmental approval.

**154.22(2)** *Transport of plant material.* A manufacturer is authorized to transport cannabis plant material from its manufacturing facility to:

- a. A waste disposal site;
- b. Other sites only with departmental approval.

**154.22(3)** *Chain-of-custody tracking system.*

a. A manufacturer shall use the secure sales and inventory tracking system, if available, or a department-approved manifest system to track shipping of medical cannabidiol. The system shall include a chain of custody that records:

- (1) The name and address of the destination;
  - (2) The weight and description of each individual package that is part of the shipment, and the total number of individual packages;
  - (3) The date and time the medical cannabidiol shipment is placed into the transport vehicle;
  - (4) The date and time the shipment is accepted at the delivery destination;
  - (5) The person’s identity, and the circumstances, duration, and disposition of any other person who had custody or control of the shipment; and
  - (6) Any handling or storage instructions.
- b. Before transporting medical cannabidiol, a manufacturer shall:
- (1) Record in the secure sales and inventory tracking system or on the manifest information about the material to be transported; and
  - (2) Notify the dispensary, laboratory, or waste facility, as applicable, of the expected arrival time and transmit a copy of the manifest to the dispensary, laboratory, or waste facility, if applicable.
- c. Each transport shall be approved electronically or in writing by:
- (1) An authorized manufacturer employee when the transport vehicle is departing the manufacturing facility; and
  - (2) An authorized employee of the receiving dispensary, laboratory, or waste facility.

d. An authorized employee at the dispensary, laboratory, or waste facility receiving medical cannabidiol shall:

(1) Verify and document the type and quantity of the transported medical cannabidiol against the information in the secure sales and inventory tracking system or written manifest;

(2) Approve the transport electronically or return a signed copy of the manifest to the manufacturing facility; and

(3) Record the medical cannabidiol that is received as inventory in the secure sales and inventory tracking system, if available. If a manifest system is being used, the dispensary, laboratory, or waste facility shall also maintain a signed copy of manifest, and shall maintain records of the inventory received consistent with these rules.

e. A manufacturer shall maintain all manifests for at least five years and make them available upon request of the department.

**154.22(4) *Vehicle requirements for transport.***

a. A manufacturer shall ensure that all medical cannabidiol transported on public roadways is:

(1) Packaged in tamper-evident, bulk containers;

(2) Transported so it is not visible or recognizable from outside the vehicle; and

(3) Transported in a vehicle that does not bear any markings to indicate that the vehicle contains medical cannabidiol or bears the name or logo of the manufacturer.

b. When the motor vehicle contains medical cannabidiol, manufacturer employees who are transporting the medical cannabidiol on public roadways shall:

(1) Travel directly to a dispensary or other department-approved locations; and

(2) Document refueling and all other stops in transit, including:

1. The reason for the stop;

2. The duration of the stop; and

3. The location of the stop.

c. If the vehicle must be stopped due to an emergency situation, the employee shall notify 911 and complete an incident report on a form approved by the department.

d. Under no circumstance shall any person other than a designated manufacturer employee have actual physical control of the motor vehicle that is transporting the medical cannabidiol.

e. A manufacturer shall staff all motor vehicles with a minimum of two employees when transporting medical cannabidiol between a manufacturing facility and a dispensary. At least one employee shall remain with the motor vehicle at all times that the motor vehicle contains medical cannabidiol. A single employee may transport medical cannabidiol to the laboratory.

f. Each employee in a transport motor vehicle shall have telephone or other communication access with the manufacturer's personnel and have the ability to contact law enforcement via telephone or other method at all times that the motor vehicle contains medical cannabidiol.

g. An employee shall carry the employee's identification card at all times when transporting or delivering medical cannabidiol and, upon request, produce the identification card to the department or to a law enforcement officer acting in the course of official duties.

h. A manufacturer shall not leave a vehicle that is transporting medical cannabidiol unattended overnight.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.23(124E) Disposal of medical cannabidiol and plant material.**

**154.23(1) *Return of medical cannabidiol from dispensaries and laboratory.*** A manufacturer shall collect at no charge unused, excess, or expired medical cannabidiol from dispensaries, including medical cannabidiol that was returned to a dispensary from a patient or primary caregiver, and from the laboratory that has tested samples submitted by the manufacturer. A manufacturer shall:

a. Collect waste medical cannabidiol from each dispensary on a schedule mutually agreed upon by the manufacturer and dispensary;

b. Collect waste medical cannabidiol from a laboratory on a schedule mutually agreed upon by the manufacturer and laboratory;

- c. Dispose of the returned medical cannabidiol as provided in subrule 154.23(2); and
- d. Maintain a written record of disposal that includes:
  - (1) The tracking number assigned at the time of the dispensing, if available, or the name of the patient, if the tracking number is unavailable, when the medical cannabidiol was returned to the dispensary from a patient or primary caregiver;
  - (2) The date the medical cannabidiol was returned;
  - (3) The quantity of medical cannabidiol returned; and
  - (4) The type and lot number of medical cannabidiol returned.

**154.23(2) *Medical cannabidiol and plant material waste.*** A manufacturer shall store, secure, and manage medical cannabidiol waste and plant material waste in accordance with all applicable federal, state, and local regulations.

a. The manufacturer shall dispose of medical cannabidiol waste at a waste facility according to federal and state law and in a manner which renders it unusable.

b. The manufacturer shall dispose of plant material waste at an approved solid waste disposal facility, according to federal and state law.

c. Before transport of plant material waste, the manufacturer shall render the plant material waste unusable and unrecognizable by grinding and incorporating the waste with a greater quantity of nonconsumable, solid wastes including:

- (1) Paper waste;
- (2) Cardboard waste;
- (3) Food waste;
- (4) Yard waste;
- (5) Vegetative wastes generated from industrial or manufacturing processes that prepare food for human consumption;
- (6) Soil; or
- (7) Other waste approved by the department.

**154.23(3) *Liquid and chemical waste disposal.*** A manufacturer shall dispose of all liquid and chemical product waste generated in the process of cultivating, manufacturing, and distributing medical cannabidiol in accordance with all applicable federal, state, and local regulations.

**154.23(4) *Waste-tracking requirements.*** A manufacturer shall use forms approved by the department to maintain accurate and comprehensive records regarding waste material. The records shall account for, reconcile, and evidence all waste activity related to the disposal of medical cannabidiol waste and plant material waste.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

#### **641—154.24(124E) Record-keeping requirements.**

**154.24(1) *Sales and distribution.*** A manufacturer shall maintain complete and accurate electronic sales transaction records in the department's secure sales and inventory tracking system, including:

- a. The date of each sale or distribution;
- b. The item number, product name and description, and quantity of medical cannabidiol sold or otherwise distributed; and
- c. The sale price.

**154.24(2) *Financial transactions.*** A manufacturer shall maintain records that reflect all financial transactions and the financial condition of the business. The following records shall be maintained for at least five years and made available for review, upon request of the department:

- a. Purchase invoices, bills of lading, sales records, copies of bills of sale, and any supporting documents, to include the items or services purchased, from whom the items were purchased, and the date of purchase;
- b. Bank statements and canceled checks for all business accounts;
- c. Accounting and tax records;
- d. Records of all financial transactions, including contracts and agreements for services performed or services received;

**154.24(3) Other records.**

a. A manufacturer shall maintain the following for at least five years, unless otherwise noted, and provide to the department upon request:

- (1) All personnel records;
- (2) Records of any theft, loss, or other unaccountability of any medical cannabidiol or plant material;
- (3) Transport manifests and incident reports; and
- (4) Records of all samples sent to a testing laboratory and the quality assurance test results.

b. A manufacturer shall maintain for at least one year and provide to the department upon request its controlled access system data and visitor manifests.

c. A manufacturer shall use the department's secure sales and inventory tracking system to maintain the following:

- (1) Crop input records;
- (2) Production records;
- (3) Transportation records; and
- (4) Inventory records, including disposal of waste.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.25(124E) Production requirements.****154.25(1) Cultivation and processing.**

a. Only a licensed manufacturer is authorized to produce and manufacture medical cannabidiol.

b. All phases of production shall take place in designated, restricted access areas that are monitored by a surveillance camera system in accordance with rule 641—154.18(124E).

c. The production process shall be designed to limit contamination. Examples of contamination include mold, fungus, bacterial diseases, rot, pests, nonorganic pesticides, and mildew.

d. Each production area shall allow for access, observation, and inventory of each plant group.

e. Biosecurity measures shall be in effect as described in the operating documents pursuant to subrule 154.17(1).

**154.25(2) Record-keeping and tracking requirements.**

a. The manufacturer shall use the department's secure sales and inventory tracking system to maintain an electronic record of all crop inputs for at least five years. The record shall include the following:

- (1) The date of input application;
- (2) The name of the employee applying the crop input;
- (3) The crop input that was applied;
- (4) The plants that received the application;
- (5) The amount of crop input that was applied; and
- (6) A copy of or electronic link to the safety data sheet for the crop input applied.

b. At the time of planting, all plants shall be tracked in a batch process with a unique batch number that shall remain with the batch through final processing into medical cannabidiol.

c. A manufacturer shall record any removal of plants from the batch, including the reason for removal, on a record maintained at the manufacturing facility for at least five years.

d. Each batch or part of a batch of cannabis plants that contributes to a lot of medical cannabidiol shall be recorded in the department's secure sales and inventory tracking system or other manifest system.

**154.25(3) Production of medical cannabidiol.**

a. A manufacturer shall comply with all state and local building and fire code requirements.

b. A manufacturer shall obtain approval from the department for use of any hydrocarbon-based extraction process. Examples of a hydrocarbon-based extraction process include the use of butane, ethanol, hexane, and isopropyl alcohol.

c. Medical cannabidiol shall be prepared, handled, and stored in compliance with the sanitation requirements in this rule.

d. A manufacturer shall produce shelf-stable, nonperishable forms of medical cannabidiol.

*e.* A manufacturer shall ensure that the cannabinoid content of the medical cannabidiol it produces is homogenous.

*f.* Each lot of medical cannabidiol shall be assigned a unique lot number and recorded in the department's secure sales and inventory tracking system or other manifest system.

**154.25(4) General sanitation requirements.** A manufacturer shall take all reasonable measures and precautions to ensure that:

*a.* Any employee who has a communicable disease does not perform any tasks that might contaminate plant material or medical cannabidiol;

*b.* Hand-washing facilities are:

(1) Convenient and furnished with running water at a suitable temperature;

(2) Located in all production areas; and

(3) Equipped with effective hand-cleaning and -sanitizing preparations and sanitary towel service or electronic drying devices;

*c.* All employees working in direct contact with plant material and medical cannabidiol use hygienic practices while on duty, including:

(1) Maintaining personal cleanliness; and

(2) Washing hands thoroughly in a hand-washing area before starting work and at any other time when the hands may have become soiled or contaminated;

*d.* Litter and waste are routinely removed and the operating systems for waste disposal are routinely inspected;

*e.* Floors, walls, and ceilings are constructed with a surface that can be easily cleaned and maintained in good repair to inhibit microbial growth;

*f.* Lighting is adequate in all areas where plant material and medical cannabidiol are processed, stored, or sold;

*g.* Screening or other protection against the entry of pests is provided, including that rubbish is disposed of to minimize the development of odor and the potential for the waste becoming an attractant, harborage, or breeding place for pests;

*h.* Any buildings, fixtures, and other facilities are maintained in a sanitary condition;

*i.* Toxic cleaning compounds, sanitizing agents, and other potentially harmful chemicals are identified and stored in a separate location away from plant material and medical cannabidiol and in accordance with applicable local, state, or federal law;

*j.* All contact surfaces, utensils, and equipment used in the production of plant material and medical cannabidiol are maintained in a clean and sanitary condition;

*k.* The manufacturing facility water supply is sufficient for necessary operations;

*l.* Plumbing size and design meets operational needs and all applicable state and local laws;

*m.* Employees have accessible toilet facilities that are sanitary and in good repair; and

*n.* Plant material and medical cannabidiol that could support the rapid growth of undesirable microorganisms are isolated to prevent the growth of those microorganisms.

**154.25(5) Storage.**

*a.* A manufacturer shall store plant material and medical cannabidiol during production, transport, and testing to prevent diversion, theft, or loss, including ensuring that:

(1) Plant material and medical cannabidiol are returned to a secure location immediately after completion of the process or at the end of the scheduled business day; and

(2) The tanks, vessels, bins, or bulk containers containing plant material or medical cannabidiol are locked inside a secure area if a process is not completed at the end of a business day.

*b.* A manufacturer shall store all plant material and medical cannabidiol during production, transport, and testing, and all saleable medical cannabidiol:

(1) In areas that are maintained in a clean, orderly, and well-ventilated condition; and

(2) In storage areas that are free from infestation by insects, rodents, birds, and other pests of any kind.

c. To prevent degradation, a manufacturer shall store all plant material and medical cannabidiol in production, transport, and testing, and all saleable medical cannabidiol under conditions that will protect the product and its container against physical, chemical, and microbial contamination and deterioration.

d. A manufacturer shall maintain a separate secure storage area for medical cannabidiol that is returned from a dispensary, including medical cannabidiol that is outdated, damaged, deteriorated, mislabeled, or contaminated, or whose containers or packaging has been opened or breached, until the returned medical cannabidiol is destroyed. For purposes of this rule, a separate secure storage area includes a container, closet, or room that can be locked or secured.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

#### **641—154.26(124E) Quality assurance and control.**

**154.26(1) *Quality control program.*** A manufacturer shall develop and implement a written quality assurance program that assesses the chemical and microbiological composition of medical cannabidiol. Assessment includes a profile of the active ingredients, including shelf life, and the presence of inactive ingredients and contaminants. A manufacturer shall use these testing results to determine appropriate storage conditions and product expiration dates.

**154.26(2) *Sampling protocols.*** A manufacturer shall develop and follow written procedures for sampling medical cannabidiol that require the manufacturer to:

a. Conduct sample collection in a manner that provides analytically sound and representative samples;

b. Document every sampling event and provide this documentation to the department upon request;

c. Describe all sampling and testing plans in written procedures that include the sampling method and the number of units per lot to be tested;

d. Ensure that random samples from each lot are:

(1) Taken in an amount necessary to conduct the applicable test;

(2) Labeled with the lot number; and

(3) Submitted for testing;

e. Retain the results from the random samples for at least five years; and

f. Notify the department at least two business days prior to sample collection and allow the department or its designees to be present to observe the sampling procedures when the samples are to be sent to a laboratory for testing.

**154.26(3) *Sampling and testing.*** A manufacturer shall:

a. Work with the department and laboratory personnel to develop acceptance criteria for all potential contaminants based on the levels of metals, microbes, or other contaminants that the manufacturer uses in cultivating and producing medical cannabidiol;

b. Conduct sampling and testing of all medical cannabidiol lots using acceptance criteria that are protective of patient health. The sampling and testing results shall be approved by the department and laboratory personnel and shall ensure that lots of medical cannabidiol meet allowable health risk limits for contaminants. Testing of lots shall occur as follows:

(1) At a minimum, testing of lots for cannabinoid potency and all microbiological impurities except microbiological toxins shall occur after packaging but before transport or sale to a dispensary;

(2) At a minimum, testing of lots for residual solvents and processing chemicals, pesticides, and metals shall occur at the process lot stage. A packaged product that contains medical cannabidiol solely from process lots that passed laboratory testing for residual solvents and processing chemicals, pesticides, and metals does not need to be retested for these analytes provided that solvents and processing chemicals are not used during the processing into the packaged product;

(3) Testing of lots for residual solvents and processing chemicals shall also occur after packaging but before transport or sale to a dispensary if solvents or processing chemicals are used in the production process after the testing of the process lot has occurred;

c. Refrain from packaging or selling medical cannabidiol from a process lot that fails to meet established standards, specifications, and any other relevant quality control criteria. Medical cannabidiol from a process lot that fails quality assurance testing may be remixed and retested;

d. Reject and destroy medical cannabidiol from a lot that fails to meet established standards, specifications, and any other relevant quality control criteria when remixing and retesting are not warranted;

e. Develop and follow a written procedure for responding to results failing to meet established standards, specifications, and any other relevant quality control criteria, including:

- (1) Criteria for when remixing and retesting are warranted;
- (2) Instructions for destroying contaminated or substandard medical cannabidiol as provided in subrule 154.23(2) when remixing and retesting are not warranted; and
- (3) Instructions for determining the source of contamination;

f. Retain documentation of test results, assessment, and destruction of medical cannabidiol for at least five years.

**154.26(4) Stability testing.**

a. The quality assurance program shall include procedures for performing stability testing of each product type produced to determine product expiration dates. The procedures shall describe:

- (1) Sample size and test intervals based on statistical criteria and departmental guidance pursuant to subrule 154.69(1) for each attribute examined to ensure valid stability estimates;
- (2) Storage conditions for samples retained for testing; and
- (3) Reliable and specific test methods.

b. Stability studies shall include:

- (1) Medical cannabidiol testing at appropriate intervals; and
- (2) Medical cannabidiol testing in the same container-closure system in which the medical cannabidiol is marketed and dispensed.

c. If product-expiration-date studies have not been completed before December 1, 2018, a manufacturer shall assign a tentative product expiration date, not to exceed one year, based on any available stability information. A manufacturer shall concurrently conduct stability studies to determine the actual product expiration date.

d. After a manufacturer verifies the tentative product expiration date, or determines the appropriate product expiration date, a manufacturer shall include that product expiration date on each lot of medical cannabidiol.

e. Stability testing shall be repeated if the manufacturing process or the product's chemical composition is changed.

**154.26(5) Reserve samples.**

a. A manufacturer shall retain a uniquely labeled reserve sample that represents each lot of medical cannabidiol and store the reserve sample under conditions consistent with product labeling. The reserve sample shall be stored in the same immediate container-closure system in which the medical cannabidiol is marketed or in one that has similar characteristics. The reserve sample shall consist of at least twice the quantity necessary to perform all the required tests.

b. A manufacturer shall retain the reserve for at least two years from the date of manufacture.

c. After two years from the date of manufacture, reserve samples shall be destroyed as provided in subrule 154.23(2).

**154.26(6) Retesting.** If the department deems that public health may be at risk, the department may require the manufacturer to retest any sample of plant material or medical cannabidiol.

**154.26(7) Disposal of substandard product.** A manufacturer shall dispose of all medical cannabidiol as provided in subrule 154.23(2) when samples fail to meet established standards, specifications, and other relevant quality control criteria and when an adequate remedy for remixing and retesting as provided in paragraph 154.26(3) "c" is unavailable.

**154.26(8) Recall and market withdrawal procedures.** Each manufacturer shall establish a procedure for recalling or withdrawing from the market, as applicable, medical cannabidiol that has a reasonable

probability of causing an unexpected or harmful response in a patient population, despite appropriate use, that outweighs the potential benefit of the medical cannabidiol. This procedure shall include:

- a. Factors that make a recall or market withdrawal necessary;
  - b. Manufacturer's personnel who are responsible for overseeing the recall or market withdrawal;
- and
- c. How to notify affected parties of a recall or market withdrawal.

[ARC 3606C, IAB 1/31/18, effective 3/7/18; ARC 3836C, IAB 6/6/18, effective 7/11/18; ARC 4078C, IAB 10/10/18, effective 11/14/18]

**641—154.27(124E) Supply and inventory.**

**154.27(1) *Reliable and ongoing supply.*** A manufacturer shall provide a reliable and ongoing supply of medical cannabidiol to medical cannabidiol dispensaries.

**154.27(2) *Inventory controls and procedures.*** A manufacturer shall establish inventory controls and procedures for conducting inventory reviews to prevent and detect any diversion, theft, or loss in a timely manner.

**154.27(3) *Real-time inventory required.*** A manufacturer shall use the department-approved secure sales and inventory tracking system to track medical cannabidiol production from seed or plant cutting through distribution of medical cannabidiol to a dispensary. The manufacturer shall use the system to maintain a real-time record of the manufacturer's inventory of plant material and medical cannabidiol to include:

- a. The quantity and form of medical cannabidiol maintained by the manufacturer at the manufacturing facility on a daily basis;
- b. The amount of plants being grown at the manufacturing facility on a daily basis;
- c. The names of the employees or employee conducting the inventory; and
- d. Other information deemed necessary and requested by the department.

**154.27(4) *Waste inventory.*** A manufacturer shall maintain a record of its inventory of all medical cannabidiol waste and plant material waste for disposal.

**154.27(5) *Reconciliation.*** No less often than every two calendar weeks, a manufacturer shall reconcile its physical inventory with the inventory recorded in the department's secure sales and inventory tracking system.

- a. Reconciliation shall include:
  - (1) Plant material at the manufacturing facility and in transit; and
  - (2) Medical cannabidiol at the manufacturing facility, at distribution and storage facilities, and in transit.

- b. Discrepancies between the physical inventory of the manufacturer and the inventory recorded in the department's secure sales and inventory system shall be handled as follows:

- (1) A manufacturer shall report suspected diversion of plant material or medical cannabidiol to the department and law enforcement within 72 hours of discovery.

- (2) A manufacturer shall have up to 72 hours to reconcile discrepancies in the manufacturer's physical inventory with the inventory recorded in the secure sales and inventory tracking system. If the manufacturer cannot reconcile the manufacturer's physical inventory with the secure sales and inventory tracking system's inventory within 72 hours but diversion of plant material or medical cannabidiol is not suspected, the manufacturer shall immediately contact the department to report the discrepancy and to initiate a compliance action plan pursuant to paragraph 154.28(4) "b."

**154.27(6) *Scales.*** All scales used to weigh usable plant material for purposes of these rules shall be certified in accordance with ISO/IEC Standard 17025, which is incorporated herein by reference.

[ARC 3606C, IAB 1/31/18, effective 3/7/18; ARC 4078C, IAB 10/10/18, effective 11/14/18]

**641—154.28(124E) Inspection by department or independent consultant.** A manufacturer is subject to reasonable inspection by the department, a department-approved consultant, or other agency pursuant to Iowa Code chapter 124E and these rules and as authorized by laws and regulations.

**154.28(1) *Types of inspections.*** Inspections may include:

- a. Aspects of the business operations;

- b. The manufacturing facility;
- c. Vehicles used for transport or delivery of medical cannabidiol or plant material;
- d. Financial information and inventory documentation;
- e. Physical and electronic security alarm systems; and
- f. Other inspections as determined by the department.

**154.28(2) Local safety inspections.** A manufacturer may be subject to inspection of its manufacturing facility and grounds by the local fire department, building inspector, or code enforcement officer to confirm that no health or safety concerns are present. The inspection could result in additional specific standards to meet local licensing authority restrictions related to medical cannabidiol manufacturing or other local businesses. An annual fire safety inspection may result in the required installation of fire suppression devices, or other means necessary for adequate fire safety.

**154.28(3) Health and sanitary inspection.** The department has discretion to determine when an inspection by an independent consultant is necessary. The following is a nonexhaustive list of examples that may justify an independent inspection:

a. The department has reasonable grounds to believe that the manufacturer is in violation of one or more of the requirements set forth in these rules or other applicable public health or sanitary laws, rules or regulations; or

b. The department has reasonable grounds to believe that the manufacturer was the cause or source of contamination of medical cannabidiol.

**154.28(4) Compliance required.** A manufacturer shall respond to deficiencies found during inspections or inventory reconciliation as follows:

a. Deficiencies not related to inventory reconciliation.

(1) Upon written notification by the department of deficiencies that do not involve reconciliation of inventory, a manufacturer shall have up to 30 days to submit an action plan to the department with proposed remedies and timelines for completion of the remedies.

(2) The department shall have up to two weeks to accept or require revision of the action plan.

b. Deficiencies related to inventory reconciliation.

(1) Upon notifying the department that the manufacturer cannot reconcile the manufacturer's physical inventory with the inventory recorded in the department's secure sales and inventory tracking system, the manufacturer shall have up to two business days to submit an action plan to the department with proposed remedies and timelines for completion of the remedies.

(2) The department shall have up to two business days to accept or require revision of the action plan.

c. Failure to complete actions in the action plan within the timelines mutually agreed upon by the manufacturer and the department shall result in assessment of penalties or in suspension or revocation of a manufacturer license as authorized by these rules.

d. At the department's request and in a timely manner, a manufacturer shall pay for and undergo an independent health and sanitary inspection in accordance with this rule.

[ARC 3606C, IAB 1/31/18, effective 3/7/18; ARC 4078C, IAB 10/10/18, effective 11/14/18]

**641—154.29(124E) Assessment of penalties.** The department shall assess to a manufacturer a civil penalty of up to \$1,000 per violation of Iowa Code chapter 124E or these rules in addition to other applicable penalties.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.30(124E) Suspension or revocation of a manufacturer license.**

**154.30(1)** The department may suspend or revoke a manufacturer license upon any of the following grounds:

a. Submission of false, inaccurate, misleading, or fraudulent information to the department in the application or inspection processes.

b. Failure to submit required reports and documents.

c. Violation of Iowa Code chapter 124E or these rules, or violation of state or local law related to operation of the licensee.

- d.* Conduct or practices detrimental to the safety, health, or welfare of a patient, primary caregiver, or the public.
- e.* Criminal, civil, or administration action taken against a license or registration in this or another state or country related to manufacturing or dispensing medical cannabidiol.
- f.* False, misleading, or deceptive representations to the department, another state or federal agency, or a law enforcement agency.
- g.* Discontinuance of operation for more than 30 days, unless the department approves an extension of such period for good cause shown.
- h.* Failure to maintain effective controls against diversion, theft, or loss of medical cannabidiol.
- i.* Failure to correct a deficiency within the time frame required by the department.
- j.* Failure of a manufacturer's business owner to have a satisfactory result in a background investigation or national criminal history background check conducted by the department of public safety and as determined by the department.

**154.30(2)** The department shall notify the licensee of the proposed action pursuant to Iowa Code sections 17A.12 and 17A.18. Notice of issuance of a suspension or revocation shall be served by restricted certified mail, return receipt requested, or by personal service.

**154.30(3)** A request for appeal concerning the suspension or revocation of a license shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice. The address is: Iowa Department of Public Health, Office of Medical Cannabidiol, Lucas State Office Building, Des Moines, Iowa 50319-0075. If such a request is made within the 20-day time period, the notice shall be deemed to be suspended. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the suspension or revocation has been or will be removed. After the hearing or upon default of the applicant or alleged violator, the administrative law judge shall affirm, modify or set aside the suspension or revocation. If no request for appeal is received within the 20-day time period, the department's notice of suspension or revocation shall become the department's final agency action.

**154.30(4)** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**154.30(5)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10.

**154.30(6)** When the administrative law judge makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**154.30(7)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**154.30(8)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a.* All pleadings, motions, and rules.
- b.* All evidence received or considered and all other submissions by recording or transcript.
- c.* A statement of all matters officially noticed.
- d.* All questions and offers of proof, objections, and rulings thereon.
- e.* All proposed findings and exceptions.
- f.* The proposed decision and order of the administrative law judge.

**154.30(9)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

**154.30(10)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**154.30(11)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**154.30(12)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**154.30(13)** Emergency adjudicative proceedings.

*a.* Necessary emergency action. To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18A to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order.

*b.* Before issuing an emergency adjudicative order, the department shall consider factors including, but not limited to, the following:

(1) Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;

(2) Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;

(3) Whether the licensee required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;

(4) Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and

(5) Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

*c.* Issuance of order.

(1) An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action. The order is a public record.

(2) The written emergency adjudicative order shall be immediately delivered to the licensee that is required to comply with the order. The order shall be delivered by one or more of the following methods:

1. Personal delivery.

2. Certified mail, return receipt requested, to the last address on file with the department.

3. Fax. Fax may be used as the sole method of delivery if the licensee required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

(3) To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

(4) Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the licensee that is required to comply with the order.

(5) After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

(6) Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only

in compelling circumstances upon application in writing unless the licensee that is required to comply with the order is the party requesting the continuance.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.31(124E) Closure of operations.**

**154.31(1) Notice.** A manufacturer shall notify the department at least six months before the closure of the manufacturing facility.

**154.31(2) Procedures.** If a manufacturer ceases operation, the manufacturer shall work with the department to verify the remaining inventory of the manufacturer and ensure that any plant material, plant material waste, and medical cannabidiol are destroyed at a waste facility as provided in subrule 154.23(2).

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.32 to 154.39** Reserved.

DISPENSING

**641—154.40(124E) Duties of the department.**

**154.40(1) Interagency agreements.** The department may enter into any interagency agreements with other state agencies for technical services or other assistance related to the regulation or inspection of dispensaries.

**154.40(2) Notice to law enforcement.** The department shall notify local law enforcement agencies and the department of public safety of the locations of dispensaries. If the department has sufficient cause to believe that there is a threat to public safety, the department shall notify local law enforcement agencies and the department of public safety of any conditions that pose a threat to public safety including but not limited to:

- a. Loss or theft of medical cannabidiol;
- b. Diversion or potential diversion of medical cannabidiol;
- c. Unauthorized access to the secure sales and inventory tracking system or other patient and caregiver information system or file; or
- d. Other violations of law.

**154.40(3) Inspection of dispensaries.** The department or its agents shall conduct regular inspections of dispensaries and their facilities as described in rule 641—154.52(124E).

**154.40(4) Establishment and maintenance of a secure sales and inventory tracking system.** The department shall establish and maintain a secure, electronic system that is available 24 hours a day, seven days a week to track:

- a. Inventory of medical cannabidiol and waste material;
- b. Sales of medical cannabidiol from dispensaries to patients and primary caregivers.

**154.40(5) Licensure and licensure renewal of dispensaries.** The department shall issue a request for proposals to select and license by April 1, 2018, up to five dispensaries to dispense medical cannabidiol within the state consistent with the provisions of Iowa Code chapter 124E and these rules.

a. To be eligible for licensure, an applicant dispensary shall provide information on forms and in a manner required by the department of public safety for the completion of a background investigation. In addition, the applicant dispensary shall submit to the department of public safety necessary funds to satisfy the full reimbursement of costs associated with completing the background investigations. If the applicant dispensary is not found suitable for licensure as a result of the background investigation, a license shall not be issued by the department.

b. As a condition for licensure, an applicant dispensary shall agree to begin dispensing medical cannabidiol to patients and primary caregivers in Iowa no later than December 1, 2018.

c. The initial license to dispense medical cannabidiol shall be valid from April 1, 2018, through November 30, 2018. The license shall be renewed annually unless a dispensary relinquishes the license, there is a change in state law prohibiting the department from renewing the license, or the license is revoked pursuant to Iowa Code chapter 124E or these rules.

d. A license to dispense medical cannabidiol issued by the department pursuant to these rules is not assignable or transferable.

e. The department shall consider the following factors in determining whether to select and license a medical cannabidiol dispensary:

- (1) Geographical location of the proposed dispensary facility;
- (2) The technical expertise of an applicant dispensary's staff regarding medical cannabidiol;
- (3) The qualifications of an applicant dispensary's employees;
- (4) The long-term financial stability of an applicant dispensary;
- (5) The ability of an applicant dispensary to provide appropriate security measures on the premises of the dispensary;
- (6) An applicant dispensary's projection of and ongoing assessment of retail product costs, including any dispensing fees.

f. Pursuant to Iowa Code section 124E.8(1) "b," information submitted during the application process shall be confidential until an applicant dispensary is licensed by the department unless otherwise protected from disclosure under state or federal law.

g. A licensed dispensary shall submit an application to renew its license with the department at least six months before the license expires. The application shall be submitted on a form created by the department.

h. The department shall notify a dispensary of the decision to approve or deny the dispensary's license by August 1 of the year in which the renewal application is submitted.

**154.40(6) Collection of fees from dispensaries.** Except as provided in this rule, all fees are nonrefundable, shall be retained by the department, and shall be considered repayment receipts as defined in Iowa Code section 8.2.

a. *Fees to the department.*

- (1) One application is required for each dispensary location.
- (2) Each application for licensure as a dispensary shall include a nonrefundable application fee of \$5,000.
- (3) Licensed dispensaries shall pay an annual fee to the department to cover costs associated with regulating and inspecting dispensaries and for other expenses necessary for the administration of the medical cannabidiol program. The department shall assess the fee with the notice of approval of license renewal each year on August 1, payable by the dispensary to the department no later than December 1.

b. *Fees to the department of public safety.*

(1) An applicant dispensary shall be responsible to reimburse the department of public safety the full cost of conducting background investigations related to an application for licensure and operation as a licensed dispensary. The department of public safety shall retain the right to bill a dispensary for additional background investigations, as needed.

(2) Each dispensary submitting an application for licensure shall, at time of application, submit to the department of public safety a deposit of \$10,000 for each business owner subject to a background investigation and a national criminal history background check. Background investigation costs shall be deducted from the funds deposited. If the background investigation fees exceed the funds deposited, the applicant shall submit additional funds as required by the department of public safety. If the background investigation fees are less than the funds deposited, the department of public safety may refund or retain the fees as mutually agreed with the dispensary.

(3) A licensed dispensary shall pay a deposit of \$200 per employee to the department of public safety for a background investigation and a national criminal history background check on any person being considered for hire as an employee of the dispensary. Background investigation costs shall be deducted from the funds deposited. If the background investigation fees exceed the funds deposited, the dispensary shall submit additional funds as required by the department of public safety. If the background investigation fees are less than the funds deposited, the department of public safety may refund or retain the fees as mutually agreed with the dispensary. The department shall retain the right to preclude a

potential employee from hire based upon the results of the background investigation and national criminal history background check.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.41(124E) Dispensary operations.**

**154.41(1) *Operating documents.*** The operating documents of a dispensary shall include all of the following:

*a.* Procedures for the oversight of the dispensary, including descriptions of operational and management practices regarding:

(1) The forms and quantities of medical cannabidiol products that will be stored and dispensed at the dispensary;

(2) The estimated forms and quantities of medical cannabidiol waste to be generated or collected;

(3) The disposal methods for all waste materials;

(4) Employee training methods for the dispensary employees;

(5) Strategies for identifying and reconciling discrepancies in inventory of medical cannabidiol;

(6) Medical cannabidiol labeling procedures;

(7) Procedures for recall or market withdrawal of medical cannabidiol;

(8) Plans for responding to a security breach at the dispensary facility;

(9) A business continuity plan; and

(10) Other information requested by the department.

*b.* Procedures to ensure accurate record keeping.

*c.* Procedures for the implementation of appropriate security measures to deter and prevent the theft of medical cannabidiol and unauthorized entrance into areas of the dispensary facility containing medical cannabidiol.

**154.41(2) *Prohibited activities.***

*a.* A person or entity shall not own or operate a dispensary unless the person or entity is licensed by the department pursuant to Iowa Code chapter 124E and these rules.

*b.* A dispensary shall not:

(1) Dispense medical cannabidiol in any location except in those areas approved by the department;

(2) Sell, receive, transport, or distribute medical cannabidiol from any location except its dispensary;

(3) Sell, receive, or distribute medical cannabidiol from any entity other than a manufacturer licensed by the department;

(4) Sell or distribute medical cannabidiol to any person other than an approved patient or primary caregiver;

(5) Transport or deliver medical cannabidiol to any location, unless approved by the department;

(6) Sell medical cannabidiol that is not packaged and labeled in accordance with rules 641—154.21(124E) and 641—154.46(124E);

(7) Repackage medical cannabidiol or remove the manufacturer's label;

(8) Sell medical cannabidiol in any form or quantity other than a form or quantity approved by the department and adopted by rule;

(9) Permit any person to consume medical cannabidiol on the property of the dispensary;

(10) Employ a person who is under 18 years of age or who has been convicted of a disqualifying felony offense.

**154.41(3) *Criminal background checks.***

*a.* An owner of a dispensary shall not have been convicted of a disqualifying felony offense and shall be subject to a background investigation conducted by the department of public safety, including but not limited to a national criminal history background check.

b. An employee of a dispensary shall not have been convicted of a disqualifying felony offense and shall be subject to a background investigation conducted by the department of public safety, including but not limited to a national criminal history background check.

**154.41(4) Relationship to health care practitioners.** A dispensary shall not share office space with, refer patients to, or have any financial relationship with a health care practitioner.  
[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.42(124E) Security requirements.** The department may request assistance from the department of public safety in ensuring dispensaries meet the security requirements in this rule.

**154.42(1) Restricted access.** A dispensary shall have a controlled access system to limit entrance to all restricted access areas of the dispensary facility. Visitors to restricted access areas shall sign manifests with name, date, and times of entry and exit, if the controlled access system cannot electronically record visitors. Visitors shall wear badges that are visible at all times and identify them as visitors.

a. The controlled access system shall do all of the following:

- (1) Limit access to authorized individuals;
- (2) Maintain a log of individuals with approved access, including dates of approvals and revocations;
- (3) Track times of personnel entry to and exit from restricted access areas;
- (4) Store data for retrieval for a minimum of one year; and
- (5) Limit access to authorized individuals in the event of a power failure.

b. A dispensary shall promptly, but no later than five business days after receipt of request, submit stored controlled access system data to the department.

c. Separate written manifests of visitors to restricted access areas shall be kept and stored for a minimum of one year if the controlled access system does not include electronic records of visitors to the restricted access areas.

d. Restricted access areas shall be identified with signs that state: “Do Not Enter – Restricted Access Area – Access Limited to Authorized Personnel Only.”

**154.42(2) Perimeter intrusion detection system.**

a. *Computer-controlled video surveillance system.* A dispensary shall operate and maintain in good working order a computer-controlled, closed-circuit television surveillance system on its premises that operates 24 hours per day, seven days a week, and visually records:

- (1) All areas that might contain medical cannabidiol, including all safes, vaults, and storage areas;
- (2) All points of entry and exit;
- (3) The entrance to the video surveillance control room; and
- (4) Parking areas, which shall have appropriate lighting for the normal conditions of the area under surveillance.

b. *Camera specifications.* Cameras shall:

- (1) Capture clear and certain identification of any person entering or exiting a dispensary or its parking areas to the extent identification is technologically feasible with generally accepted commercial security cameras;
- (2) Have the ability to produce a clear, color still photograph live or from a recording;
- (3) Have on all recordings an embedded date-and-time stamp that is synchronized to the recording and does not obscure the picture; and
- (4) Continue to operate during a power outage.

c. *Video recording specifications.*

- (1) A video recording shall export still images in an industry standard image format, such as .jpg, .bmp, or .gif.
- (2) Exported video shall be archived in a format that ensures authentication and guarantees that the recorded image has not been altered.
- (3) Exported video shall also be saved in an industry standard file format that can be played on a standard computer operating system.

(4) All recordings shall be erased or destroyed at the end of the retention period and prior to disposal of any storage medium.

*d. Additional requirements.* A dispensary shall maintain all security system equipment and recordings in a secure location to prevent theft, loss, destruction, corruption, and alterations.

*e. Retention.* A dispensary shall ensure that recordings from all video cameras are:

- (1) Available for viewing by the department upon request;
- (2) Retained for at least 60 days;
- (3) Maintained free of alteration or corruption; and

(4) Retained longer, as needed, if a dispensary is given actual notice of a pending criminal, civil, or administrative investigation, or other legal proceeding for which the recording may contain relevant information.

*f. Required signage.* A dispensary shall post a sign in capital letters in a conspicuous location at every entrance to the dispensary that reads, "THESE PREMISES ARE UNDER CONSTANT VIDEO SURVEILLANCE."

**154.42(3) Security alarm system requirements.**

*a.* A dispensary shall install and maintain a professionally monitored security alarm system that provides intrusion and fire detection of all:

- (1) Dispensary entrances and exits;
- (2) Rooms with exterior windows;
- (3) Rooms with exterior walls;
- (4) Roof hatches;
- (5) Skylights; and
- (6) Storage rooms.

*b.* For the purposes of this subrule, a security alarm system means a device or series of devices that summons law enforcement personnel during, or as a result of, an alarm condition. Devices may include:

- (1) Hardwired systems and systems interconnected with a radio frequency method such as cellular or private radio signals that emit or transmit a remote or local audio, visual, or electronic signal;
- (2) Motion detectors;
- (3) Pressure switches;
- (4) A duress alarm;
- (5) A panic alarm;
- (6) A holdup alarm;
- (7) An automatic voice dialer; and
- (8) A failure notification system that provides an audio, text, or visual notification of any failure in the surveillance system.

*c.* A dispensary's security alarm system and all devices shall continue to operate during a power outage.

*d.* A dispensary's security alarm system shall be inspected and all devices tested annually by a qualified alarm vendor. A dispensary shall provide documentation of the annual inspection and device testing to the department upon request.

**154.42(4) Personnel identification system.** A dispensary shall use a personnel identification system that controls and monitors individual employee access to restricted access areas within the dispensary and that meets the requirements of this subrule and subrule 154.42(1).

*a.* Requirement for employee identification card. An employee identification card shall contain:

- (1) The name of the employee;
- (2) The date of issuance and expiration;
- (3) An alphanumeric identification number that is unique to the employee; and
- (4) A photographic image of the employee.

*b.* A dispensary's employees shall keep the identification card visible at all times when the employee is in a dispensary or a vehicle transporting medical cannabidiol.

*c.* Upon termination or resignation of an employee, a dispensary shall immediately:

- (1) Revoke the employee's access to restricted access areas of the dispensary; and

(2) Obtain and destroy the employee's identification card, if possible.  
[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.43(124E) Location.** All dispensing of medical cannabidiol shall take place in an enclosed facility at one physical address provided to the department during the licensure process.

**154.43(1) Proximity to manufacturers.** A dispensary shall not operate at the same physical location as a manufacturer.

**154.43(2) Proximity to schools.** A dispensary shall not operate in any location within 1,000 feet of a public or private school existing before the date of the dispensary's licensure by the department.  
[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.44(124E) Advertising and marketing.**

**154.44(1) Permitted marketing and advertising activities.**

a. A dispensary may:

(1) Display the dispensary's business name and logo on medical cannabidiol labels, signs, website, and informational material provided to patients. The name or logo shall not include:

1. Images of cannabis or cannabis-use paraphernalia;
2. Colloquial references to cannabis;
3. Names of cannabis plant strains or varieties;
4. Unsubstantiated medical claims; or
5. Medical symbols that bear a reasonable resemblance to established medical associations.

Examples of established medical organizations include the American Medical Association or American Academy of Pediatrics. The use of medical symbols is subject to approval by the department.

(2) Display signs on the dispensary; and

(3) Maintain a business website that contains the following information:

1. The dispensary's name and contact information;
2. The medical cannabidiol forms and quantities provided;
3. Medical cannabidiol pricing;
4. Hours of operation; and
5. Other information as approved by the department.

b. The business website shall not include any false, misleading, or unsubstantiated statements.

c. The department reserves the right to review a dispensary's marketing and advertising materials and to require a dispensary to make changes to the content. The department has 30 calendar days following submission to approve or deny marketing and advertising materials of a dispensary.

**154.44(2) Other marketing and advertising activities.** A dispensary shall request and receive the department's written approval before beginning marketing or advertising activities that are not specified in subrule 154.44(1). The department has 30 calendar days to approve, deny, or request additional information regarding marketing and advertising activity requests from a dispensary. In the event the department fails to respond to a dispensary within 30 days with an approval, denial, or request for additional information, the dispensary's marketing and advertising activity requests shall be deemed approved.

**154.44(3) Inconspicuous display.** A dispensary shall arrange displays of medical cannabidiol, interior signs, and other exhibits to reasonably prevent public viewing from outside the dispensary.  
[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.45(124E) Storage.**

**154.45(1) Storage of saleable medical cannabidiol.**

a. A dispensary shall store medical cannabidiol to prevent diversion, theft, or loss, including ensuring that:

- (1) Medical cannabidiol is kept in a secure and monitored location within the dispensary; and
- (2) Cabinets or storage containers inside the secure and monitored area are locked at the end of a business day.

b. A dispensary shall store all medical cannabidiol:

- (1) In areas that are maintained in a clean, orderly, and well-ventilated condition;
- (2) In areas that are free from infestation by insects, rodents, birds, and other pests of any kind;
- (3) According to the manufacturer's requirements regarding temperature, light exposure, or other environmental conditions;
- (4) Under conditions that will protect the product and its container against physical, chemical, and microbial contamination and deterioration.

**154.45(2) *Storage of returned medical cannabidiol.*** A dispensary shall maintain a separate secure storage area for medical cannabidiol that is to be returned to a manufacturer for disposal, including medical cannabidiol that is outdated, damaged, deteriorated, mislabeled, or contaminated, or whose containers or packaging has been opened or breached, until the medical cannabidiol is collected by a manufacturer. For purposes of this subrule, a separate secure storage area includes a container, closet, or room that can be locked or secured.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.46(124E) Dispensing.**

**154.46(1) *Access to all forms of product.*** A dispensary shall provide access to all medical cannabidiol forms produced by each licensed manufacturer.

**154.46(2) *Dispensing to a patient.***

*a.* Prior to dispensing any medical cannabidiol to a patient, a dispensary shall do all of the following:

- (1) Verify the patient's identity;
- (2) Verify that the patient is registered and listed in the secure sales and inventory tracking system and has a valid medical registration card;
- (3) Assign a tracking number to any medical cannabidiol that is to be dispensed to the patient;
- (4) Issue a label that contains the following information:
  1. The medical cannabidiol tracking number;
  2. The date and time the medication is being dispensed;
  3. The name and address of the dispensary;
  4. The patient's registry identification number, name, and date of birth;
  5. The patient's address; and
  6. Any specific instructions for use based upon manufacturer or departmental guidelines. Labeling text shall not include any false, misleading, or unsubstantiated statements regarding health or physical benefits to the patient.

*b.* The dispensary shall record the patient name, the amount dispensed, the price, the medical cannabidiol tracking number, the time and date, and other information required by the department in the secure sales and inventory tracking system within one business day.

**154.46(3) *Dispensing to a primary caregiver.***

*a.* Prior to dispensing any medical cannabidiol to a primary caregiver, a dispensary shall do all of the following:

- (1) Verify the primary caregiver's identity;
- (2) Verify that the patient and the primary caregiver are registered and listed in the secure sales and inventory tracking system and have valid medical registration cards;
- (3) Assign a medical cannabidiol tracking number to any medical cannabidiol that is to be dispensed to the primary caregiver;
- (4) Issue a label that contains the following information:
  1. The medical cannabidiol tracking number;
  2. The date and time the medication is being dispensed;
  3. The name and address of the dispensary;
  4. The patient's registry identification number, name, and date of birth;
  5. The primary caregiver's registry identification number, name, and date of birth;
  6. The patient's address; and

7. Any specific instructions for use based upon manufacturer or departmental guidelines. Labeling text shall not include any false, misleading, or unsubstantiated statements regarding health or physical benefits to the patient.

b. The dispensary shall record the names of the patient and primary caregiver, the amount dispensed, the price, the medical cannabidiol tracking number, the time and date, and other information required by the department in the secure sales and inventory tracking system within one business day.  
[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.47(124E) Transportation of medical cannabidiol.** A dispensary is not authorized to transport medical cannabidiol, unless approved by the department. Any approved transport shall be logged in the secure sales and inventory tracking system.  
[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.48(124E) Disposal of medical cannabidiol.**

**154.48(1) Identification of excess, expired, or damaged medical cannabidiol.**

a. Dispensaries shall identify unused, excess, expired, or damaged medical cannabidiol for return to manufacturers.

b. Unused, excess, expired, or damaged medical cannabidiol shall be stored as described in subrule 154.45(2).

**154.48(2) Return of medical cannabidiol from a patient or primary caregiver to a dispensary.**

a. A dispensary shall accept at no charge unused, expired, or unwanted medical cannabidiol from any patient or primary caregiver.

b. The dispensary shall enter the following information into the secure sales and inventory tracking system for all medical cannabidiol returned from a patient or primary caregiver:

(1) The tracking number assigned at the time of the dispensing, if available, or the name of the patient, if the tracking number is unavailable, when the medical cannabidiol was returned to the dispensary from a patient or primary caregiver;

(2) The date the medical cannabidiol was returned;

(3) The quantity of medical cannabidiol returned; and

(4) The type and lot number of medical cannabidiol returned.

c. A dispensary shall store medical cannabidiol returned from patients and primary caregivers as described in subrule 154.45(2).

**154.48(3) Return of medical cannabidiol to a manufacturer.**

a. A manufacturer shall collect and dispose of medical cannabidiol from dispensaries as provided in rule 641—154.23(124E).

b. A dispensary shall record information on all medical cannabidiol collected by the manufacturer in the secure sales and inventory tracking system. Information shall include:

(1) The date the medical cannabidiol was collected by the manufacturer;

(2) The quantity of medical cannabidiol collected; and

(3) The type and lot number of medical cannabidiol collected.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.49(124E) Record-keeping requirements.**

**154.49(1) Sales.** A dispensary shall maintain complete and accurate electronic sales transaction records in the department's secure sales and inventory tracking system, including:

a. The name of the patient and, if purchase is made by the primary caregiver, the name of the primary caregiver;

b. The date of each sale;

c. The item number, product name and description, and quantity of medical cannabidiol sold;

d. The sale price;

e. Other information required by the department.

**154.49(2) *Financial transactions.*** A dispensary shall maintain records that reflect all financial transactions and the financial condition of the business. The following records shall be maintained for at least five years and made available for review, upon request of the department:

*a.* Purchase invoices, bills of lading, sales records, copies of bills of sale, and any supporting documents, to include the items or services purchased, from whom the items were purchased, and the date of purchase;

*b.* Bank statements and canceled checks for all business accounts;

*c.* Accounting and tax records;

*d.* Records of all financial transactions, including contracts and agreements for services performed or services received.

**154.49(3) *Other records.***

*a.* A dispensary shall maintain the following for at least five years, unless otherwise noted, and provide to the department upon request:

(1) All personnel records; and

(2) Records of any theft, loss, or other unaccountability of any medical cannabidiol.

*b.* A dispensary shall maintain for at least one year and provide to the department upon request its controlled access system data and visitor manifests.

*c.* A dispensary shall use the department's secure sales and inventory tracking system to maintain the following:

(1) Inventory records;

(2) Return of medical cannabidiol from a patient or primary caregiver; and

(3) Return of unused, excess, expired, or damaged medical cannabidiol to a manufacturer.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.50(124E) *Quality assurance and control.*** A dispensary shall cooperate with manufacturers and the department on quality assurance and control procedures, including participating in stability-testing studies, developing sampling strategies, and returning medical cannabidiol that has been recalled or withdrawn from the market.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.51(124E) *Inventory.***

**154.51(1) *Inventory controls and procedures.*** A dispensary shall establish inventory controls and procedures for conducting inventory reviews to prevent and detect any diversion, theft, or loss in a timely manner.

**154.51(2) *Real-time inventory required.*** A dispensary shall use the department-approved secure sales and inventory tracking system to maintain a real-time record of the dispensary's inventory of medical cannabidiol to include:

*a.* The quantity and form of saleable medical cannabidiol maintained at the dispensary on a daily basis;

*b.* The amount of damaged, expired, or returned medical cannabidiol being held at the dispensary for return to a manufacturer; and

*c.* Other information deemed necessary and requested by the department.

**154.51(3) *Reconciliation.*** At least once a calendar week, a dispensary shall reconcile all medical cannabidiol at the dispensary with the inventory recorded in the department's secure sales and inventory tracking system. Discrepancies shall be handled as follows:

*a.* A dispensary shall report suspected diversion of medical cannabidiol to the department and law enforcement within 24 hours of discovery.

*b.* A dispensary shall have up to 24 hours to reconcile the dispensary's physical inventory with the inventory recorded in the secure sales and inventory tracking system. If the dispensary cannot reconcile the dispensary's physical inventory with the secure sales and inventory tracking system's inventory within 24 hours but diversion of product is not suspected, the dispensary shall immediately contact

the department to report the discrepancy and to initiate a compliance action plan pursuant to paragraph 154.52(4)“b.”

[ARC 3606C, IAB 1/31/18, effective 3/7/18; ARC 4078C, IAB 10/10/18, effective 11/14/18]

**641—154.52(124E) Inspection by department or independent consultant.** A dispensary is subject to reasonable inspection by the department, a department-approved consultant, or other agency as authorized by Iowa Code chapter 124E and these rules or state or local laws and regulations.

**154.52(1) Types of inspections.** Inspections may include:

- a. Aspects of the business operations;
- b. The physical location of a dispensary, including any storage facilities;
- c. Financial information and inventory documentation;
- d. Physical and electronic security alarm systems; and
- e. Other aspects or areas as determined by the department.

**154.52(2) Local safety inspections.** A dispensary may be subject to inspection of its dispensary by the local fire department, building inspector, or code enforcement officer to confirm that no health or safety concerns are present. The inspection could result in additional specific standards to meet local licensing authority restrictions related to medical cannabidiol dispensing or other local businesses. An annual fire safety inspection may result in the required installation of fire suppression devices, or other means necessary for adequate fire safety.

**154.52(3) Health and sanitary inspection.** The department has discretion to determine when an inspection by an independent consultant is necessary. The following is a nonexhaustive list of examples that may justify an independent inspection:

- a. The department has reasonable grounds to believe that the dispensary is in violation of one or more of the requirements set forth in these rules or other applicable public health or sanitary laws, rules or regulations;
- b. The department has reasonable grounds to believe that the dispensary was the cause or source of contamination of medical cannabidiol; or
- c. The department has reasonable grounds to believe that the dispensary was the cause of loss of product quality or change in chemical composition due to improper storage and handling of medical cannabidiol.

**154.52(4) Compliance required.** A dispensary shall respond to deficiencies found during inspections or inventory reconciliation as follows:

- a. Deficiencies not related to inventory reconciliation.
  - (1) Upon written notification by the department of deficiencies that do not involve reconciliation of inventory, a dispensary shall have up to 30 days to submit an action plan to the department with proposed remedies and timelines for completion of the remedies.
  - (2) The department shall have up to two weeks to accept or require revision of the action plan.
- b. Deficiencies related to inventory reconciliation.
  - (1) Upon notifying the department that the dispensary cannot reconcile the dispensary’s physical inventory with the inventory recorded in the department’s secure sales and inventory tracking system, the dispensary shall have up to two business days to submit an action plan to the department with proposed remedies and timelines for completion of the remedies.
  - (2) The department shall have up to two business days to accept or require revision of the action plan.
- c. Failure to complete actions in the action plan within the timelines mutually agreed upon by the dispensary and the department shall result in assessment of penalties or in suspension or revocation of a dispensary license as authorized by these rules.
- d. At the department’s request and in a timely manner, a dispensary shall pay for and undergo an independent health and sanitary inspection in accordance with this rule.

[ARC 3606C, IAB 1/31/18, effective 3/7/18; ARC 4078C, IAB 10/10/18, effective 11/14/18]

**641—154.53(124E) Assessment of penalties.** The department shall assess to a dispensary a civil penalty of up to \$1,000 per violation of Iowa Code chapter 124E or these rules in addition to other applicable penalties.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.54(124E) Suspension or revocation of a dispensary license.**

**154.54(1)** The department may suspend or revoke a dispensary license upon any of the following grounds:

- a.* Submission of false, inaccurate, misleading, or fraudulent information to the department in the application or inspection processes.
- b.* Failure to submit required reports and documents.
- c.* Violation of Iowa Code chapter 124E or these rules, or violation of state or local law related to operation of the licensee.
- d.* Conduct or practices detrimental to the safety, health, or welfare of a patient, primary caregiver, or the public.
- e.* Criminal, civil, or administration action taken against a license or registration in this or another state or country related to manufacturing or dispensing medical cannabidiol.
- f.* False, misleading, or deceptive representations to the department, another state or federal agency, or a law enforcement agency.
- g.* Discontinuance of operation for more than 30 days, unless the department approves an extension of such period for good cause shown.
- h.* Failure to maintain effective controls against diversion, theft, or loss of medical cannabidiol.
- i.* Failure to correct a deficiency within the time frame required by the department.
- j.* Failure of a dispensary's business owner to have a satisfactory result in a background investigation or national criminal history background check conducted by the department of public safety and as determined by the department.

**154.54(2)** The department shall notify the licensee of the proposed action pursuant to Iowa Code sections 17A.12 and 17A.18. Notice of issuance of a suspension or revocation shall be served by restricted certified mail, return receipt requested, or by personal service.

**154.54(3)** A request for appeal concerning the suspension or revocation of a license shall be submitted by the aggrieved party in writing to the department by certified mail, return receipt requested, within 20 days of the receipt of the department's notice. The address is: Iowa Department of Public Health, Office of Medical Cannabidiol, Lucas State Office Building, Des Moines, Iowa 50319-0075. If such a request is made within the 20-day time period, the notice shall be deemed to be suspended. Prior to or at the hearing, the department may rescind the notice upon satisfaction that the reason for the suspension or revocation has been or will be removed. After the hearing or upon default of the applicant or alleged violator, the administrative law judge shall affirm, modify or set aside the suspension or revocation. If no request for appeal is received within the 20-day time period, the department's notice of suspension or revocation shall become the department's final agency action.

**154.54(4)** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals. The information upon which the adverse action is based and any additional information which may be provided by the aggrieved party shall also be provided to the department of inspections and appeals.

**154.54(5)** The hearing shall be conducted according to the procedural rules of the department of inspections and appeals found in 481—Chapter 10.

**154.54(6)** When the administrative law judge makes a proposed decision and order, it shall be served by restricted certified mail, return receipt requested, or delivered by personal service. That proposed decision and order then becomes the department's final agency action without further proceedings ten days after it is received by the aggrieved party unless an appeal to the director is taken.

**154.54(7)** Any appeal to the director for review of the proposed decision and order of the administrative law judge shall be filed in writing and mailed to the director by certified mail, return receipt requested, or delivered by personal service within ten days after the receipt of the administrative

law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge. Any request for an appeal shall state the reason for appeal.

**154.54(8)** Upon receipt of an appeal request, the administrative law judge shall prepare the record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules.
- b. All evidence received or considered and all other submissions by recording or transcript.
- c. A statement of all matters officially noticed.
- d. All questions and offers of proof, objections, and rulings thereon.
- e. All proposed findings and exceptions.
- f. The proposed decision and order of the administrative law judge.

**154.54(9)** The decision and order of the director becomes the department's final agency action upon receipt by the aggrieved party and shall be delivered by restricted certified mail, return receipt requested, or by personal service.

**154.54(10)** It is not necessary to file an application for a rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19. The aggrieved party to the final agency action of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A.

**154.54(11)** Any petition for judicial review of a decision and order shall be filed in the district court within 30 days after the decision and order becomes final. A copy of the notice of appeal shall be sent to the department by certified mail, return receipt requested, or by personal service. The address is: Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**154.54(12)** The party who appeals a final agency action to the district court shall pay the cost of the preparation of a transcript of the contested case hearing for the district court.

**154.54(13)** Emergency adjudicative proceedings.

a. Necessary emergency action. To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18A to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order.

b. Before issuing an emergency adjudicative order, the department shall consider factors including, but not limited to, the following:

(1) Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;

(2) Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;

(3) Whether the licensee required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;

(4) Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and

(5) Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

c. Issuance of order.

(1) An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action. The order is a public record.

(2) The written emergency adjudicative order shall be immediately delivered to the licensee that is required to comply with the order. The order shall be delivered by one or more of the following methods:

1. Personal delivery.

2. Certified mail, return receipt requested, to the last address on file with the department.

3. Fax. Fax may be used as the sole method of delivery if the licensee required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

(3) To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

(4) Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the licensee that is required to comply with the order.

(5) After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

(6) Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the licensee that is required to comply with the order is the party requesting the continuance.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

#### **641—154.55(124E) Closure of operations.**

**154.55(1) Notice.** A dispensary shall notify the department at least six months before the closure of the dispensary.

**154.55(2) Procedures.** If a dispensary ceases operation, the dispensary shall work with the department to verify the remaining inventory of the dispensary and ensure that any medical cannabidiol is returned to a manufacturer.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.56 to 154.59** Reserved.

#### MEDICAL CANNABIDIOL BOARD

#### **641—154.60(124E) Purpose and duties of board.**

**154.60(1)** The purpose of the board is to administer the provisions of Iowa Code section 124E.5.

**154.60(2)** Responsibilities of the board include but are not limited to:

*a.* Accepting and reviewing petitions to add medical conditions, medical treatments, or debilitating diseases to the list of debilitating medical conditions for which the medical use of cannabidiol would be medically beneficial under Iowa Code chapter 124E.

*b.* Making recommendations to the board of medicine relating to the removal or addition of debilitating medical conditions to the list of allowable debilitating medical conditions for which the medical use of cannabidiol under Iowa Code chapter 124E would be medically beneficial.

*c.* Working with the department regarding the requirements for the licensure of manufacturers and dispensaries, including licensure procedures.

*d.* Advising the department regarding the location of manufacturers and dispensaries throughout the state.

*e.* Making recommendations to the board of medicine relating to the form and quantity of allowable medical uses of cannabidiol.

*f.* Considering recommendations to the general assembly for statutory revisions to the definition of medical cannabidiol to increase the tetrahydrocannabinol (THC) level to more than 3 percent.

*g.* Submitting an annual report to the general assembly detailing the activities of the board no later than January 1.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

#### **641—154.61(124E) Organization of board and proceedings.**

**154.61(1) Membership.** The board shall be composed of nine members appointed by the governor pursuant to Iowa Code section 124E.5. The appointments, unless provided otherwise by law, shall be for three-year staggered terms which shall expire on June 30. Board members shall be knowledgeable

about the use of medical cannabidiol. The medical practitioners appointed to the board shall be licensed in Iowa and be nationally board-certified in their area of specialty.

**154.61(2) Vacancies.** Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**154.61(3) Absences.** Three consecutive unexcused absences shall be grounds for the governor to consider dismissal of a board member and to appoint another. Department staff is charged with providing notification of absences to the governor's office.

**154.61(4) Board meetings.**

*a.* The board shall convene at least twice but no more than four times a year.

*b.* Board meetings shall be conducted in accordance with the open meetings requirements of Iowa Code chapter 21.

*c.* The department's office of medical cannabidiol shall schedule the time, date and location of meetings.

*d.* A majority of the members shall constitute a quorum for conducting business of the board.

*e.* An affirmative vote of a majority of the board members present at a meeting is required for a motion to pass.

**154.61(5) Facilities and staffing.** The department shall furnish the board with the necessary facilities and employees to perform the duties required by this chapter but shall be reimbursed for all costs incurred by fee revenue generated from licensing activities and registration card applications.

**154.61(6) Subcommittees.** The board may designate one or more subcommittees to perform such duties as may be deemed necessary.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.62(124E) Official communications.** All official communications, including submissions, petitions and requests, may be addressed to the Medical Cannabidiol Board, Office of Medical Cannabidiol, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319-0075.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.63(124E) Office hours.** The board office is open for public business from 8 a.m. to 4:30 p.m., Monday to Friday of each week, except holidays.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.64(124E) Public meetings.** Members of the public may be present during board meetings unless the board votes to hold a closed session. Dates and location of board meetings may be obtained through the Iowa department of public health's website ([idph.iowa.gov/mcarcp](http://idph.iowa.gov/mcarcp)) or directly from the board office.

**154.64(1) Exclusion of participants.** The person presiding at a meeting of the board may exclude a person from an open meeting for behavior that obstructs the meeting.

**154.64(2) Recording of meetings.** Cameras and recording devices may be used at open meetings, provided the cameras or recording devices do not obstruct the meeting. If the user of a camera or recording device obstructs the meeting by the use of such device, the presiding department staff member at the meeting may request the user to discontinue use of the camera or device.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

**641—154.65(124E) Petitions for the addition or removal of medical conditions, medical treatments or debilitating diseases.** Petitions for the addition or removal of medical conditions, medical treatments, or debilitating conditions for which the medical use of cannabidiol would be medically beneficial under Iowa Code chapter 124E may be submitted to the board pursuant to this rule.

**154.65(1) Petition form.** Any person or entity may file a petition to add or remove medical conditions, medical treatments or debilitating diseases with the board. A petition is deemed filed when it is received by the medical cannabidiol office. The board must provide the petitioner with a file-stamped copy of the petition if the petitioner provides the board an extra copy for this purpose. The petition must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

## BEFORE THE MEDICAL CANNABIDIOL BOARD

---

Petition by (Name of Petitioner)  
for the (addition or removal) of (medical  
conditions, medical treatments or  
debilitating diseases) to the list of  
debilitating medical conditions for which  
the medical use of cannabidiol would be  
medically beneficial.

---

PETITION FOR  
(ADDITION or REMOVAL)

---

The petition must provide the following information:

*a.* A statement of the specific medical condition, medical treatment or debilitating disease the petitioner is seeking to add to or remove from the list of debilitating medical conditions for which the medical use of cannabidiol would be medically beneficial.

*b.* A brief summary of the petitioner's arguments in support of the action urged in the petition.

*c.* A brief summary of any data or scientific evidence supporting the action urged in the petition.

*d.* A list of reference material supporting the petition.

*e.* A list of subject matter experts who are willing to testify in support of the petition. The list of subject matter experts must contain names, credentials (if applicable), email addresses, telephone numbers, and mailing addresses.

*f.* The names and addresses of other persons, or a description of any class of persons, known by petitioner to be affected by, or interested in, the proposed action which is the subject of the petition.

**154.65(2) *Signature and address.*** The petition must be dated and signed by the petitioner or the petitioner's representative. It must also include the name, mailing address, telephone number and email address of the petitioner and petitioner's representative, and a statement indicating the person to whom communications concerning the petition should be directed.

**154.65(3) *Denial for format.*** The board may deny a petition because it does not substantially conform to the required form.

**154.65(4) *Briefs.*** The petitioner may attach a brief to the petition in support of the action urged in the petition. The board may request a brief from the petitioner or from any other person or entity concerning the substance of the petition.

**154.65(5) *Inquiries.*** Inquiries concerning the status of a petition may be made to the Office of Medical Cannabidiol, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**154.65(6) *Additional information.*** The board may request the petitioner to submit additional information concerning the petition. The board may also solicit comments from any person on the substance of the petition. Comments on the substance of the petition may be submitted to the board by any person.

**154.65(7) *Presentation to the board.*** The board may request or allow the petitioner to make an oral presentation of the contents of a petition at a board meeting following submission of the petition.

**154.65(8) *Board response.*** Within six months after the filing of the petition, or within any longer period agreed to by the petitioner, the board must, in writing, either deny the petition and notify the petitioner of the board's action and the reasons therefore, or grant the petition and notify the petitioner that the board has recommended addition or removal of the medical condition, medical treatment, or debilitating disease to the board of medicine. A petitioner shall be deemed notified of the denial or recommendation on the date when the board mails the required notification to the petitioner.

**154.65(9) *Denials.*** Denial of a petition because it does not substantially conform to the required form does not preclude the filing of a new petition on the same subject that seeks to eliminate the grounds for the agency's rejection of the petition.

[ARC 3606C, IAB 1/31/18, effective 3/7/18]

641—154.66 to 154.68 Reserved.

## LABORATORY TESTING

**641—154.69(124E) Requirements of the department.**

**154.69(1) *Laboratory testing requirements and acceptance criteria.*** The department shall work with manufacturers and laboratories to create and maintain a document describing required sampling methodology, acceptance criteria, stability-testing procedures, and other guidance for manufacturers and laboratories on testing procedures. The document shall:

*a.* Describe the minimum number of sample units and reserve samples required for testing by the laboratory;

*b.* Describe an option for manufacturers to reduce the amount of testing conducted by allowing compositing of sample units or other techniques that reduce the number of tests required without compromising the safety of the products once a manufacturer has satisfactorily completed a control study for a specific extraction or production process;

*c.* Describe the minimum requirements for sample size and testing intervals for stability testing;

*d.* Be available on the department's website ([www.idph.iowa.gov](http://www.idph.iowa.gov)).

**154.69(2) *Review and approval of manufacturer sampling protocols.*** The department shall have up to two weeks to review and approve or request revisions to a manufacturer's sampling protocols required pursuant to subrules 154.26(2) and 154.26(3).

**154.69(3) *Review and approval of manufacturer stability-testing procedures.*** The department shall have up to two weeks to review and approve or request revisions to a manufacturer's stability-testing procedures required pursuant to subrule 154.26(4).

[ARC 4078C, IAB 10/10/18, effective 11/14/18]

**641—154.70(124E) Requirements of a laboratory.**

**154.70(1) *Minimum testing requirements.*** A laboratory shall establish and implement test methods and corresponding standard operating procedures for the analyses of cannabinoids, residual solvents and processing chemicals, pesticides, microbiological impurities, and metals.

**154.70(2) *Additional tests upon request.*** A laboratory shall establish and implement test methods and corresponding standard operating procedures for other analyses as requested by the department.

**154.70(3) *Level of quantitation.*** A laboratory shall be able to demonstrate that its LOQ is below any action level established by the department.

**154.70(4) *Inventory tracking.***

*a.* A laboratory shall use the department's secure sales and inventory tracking system, if available, or a manifest system to record the receipt of medical cannabis goods from a manufacturer for testing.

*b.* A laboratory shall use the department's secure sales and inventory tracking system, if available, or a manifest system to record the return of medical cannabis goods or waste to a manufacturer.

**154.70(5) *Hazardous waste disposal.***

*a.* A laboratory shall discard hazardous waste, including hazardous waste containing medical cannabis goods, in accordance with federal and state hazardous waste laws.

*b.* A laboratory shall document the waste disposal procedures followed for each sample.

[ARC 3836C, IAB 6/6/18, effective 7/11/18]

**641—154.71(124E) Requirements of a manufacturer.**

**154.71(1) *Assuming costs.*** A manufacturer shall assume the costs for all laboratory testing requested by the department or laboratory for medical cannabis goods produced by the manufacturer.

**154.71(2) *Sample waste retrieval.*** A manufacturer shall retrieve analyzed samples and waste containing medical cannabis goods from the laboratory at a duration and frequency approved by the department.

**154.71(3) *Obtaining approval for sampling protocols.*** A manufacturer shall obtain approval from the department for the manufacturer's sampling protocols pursuant to subrule 154.26(2) prior to submitting samples for laboratory testing related to content and contamination.

**154.71(4) *Obtaining approval for stability-testing procedures.*** A manufacturer shall obtain approval from the department for the manufacturer's stability-testing procedures pursuant to subrule 154.26(4)

prior to submitting samples for laboratory testing related to stability testing and product-expiration-date studies.

[ARC 3836C, IAB 6/6/18, effective 7/11/18; ARC 4078C, IAB 10/10/18, effective 11/14/18]

**641—154.72(124E) Content testing.**

**154.72(1) Cannabinoids.**

a. For each unique lot of medical cannabidiol, and if asked to do so by a requester for other medical cannabis goods, a laboratory shall, at minimum, test for and report measurements for the following cannabinoid analytes:

- (1) THC;
- (2) THCA;
- (3) CBD;
- (4) CBDA;
- (5) CBG; and
- (6) CBN.

b. A laboratory shall report that the primary sample passed THC potency testing if the detected concentration of THC does not exceed 3 percent by weight in milligrams per milliliter (mg/ml) for liquids and milligrams per gram (mg/g) for solids and if the detected concentration of THC does not vary from the manufacturer's labeled concentration by more than 15 percent by weight in mg/ml for liquids and mg/g for solids. Thus, a solid product labeled as containing a concentration of THC of 10 mg/g shall have a detected concentration of THC that is no more than 11.50 mg/g and no less than 8.50 mg/g.

c. A laboratory shall report that the primary sample failed THC potency testing if the detected concentration of THC exceeds 3 percent by weight in mg/ml for liquids and mg/g for solids or if the detected concentration of THC varies from the labeled concentration of THC by more than 15 percent by weight in mg/ml for liquids and mg/g for solids.

d. A laboratory shall report that the primary sample passed CBD potency testing if the detected concentration of CBD does not vary from the manufacturer's labeled concentration by more than 15 percent by weight in mg/ml for liquids and mg/g for solids. Thus, a solid product labeled as containing a concentration of CBD of 10 mg/g shall have a detected concentration of CBD that is no more than 11.50 mg/g and no less than 8.50 mg/g.

e. A laboratory shall report that the primary sample failed potency testing if the detected concentration of CBD varies from the labeled concentration of CBD by more than 15 percent by weight in mg/ml for liquids and mg/g for solids.

f. For each cannabinoid analyte test, a laboratory shall issue a certificate of analysis that contains the following:

(1) Concentrations of cannabinoid analytes in mg/ml for liquids and mg/g for solids, or other measures approved by the department.

(2) Whether the primary sample passed or failed the test in accordance with paragraphs 154.72(1) "b" and 154.72(1) "c."

g. The laboratory may test for and provide test results for additional cannabinoid analytes if asked to do so by a requester.

**154.72(2) Contaminants—residual solvents and processing chemicals.**

a. For each unique lot of medical cannabidiol, and if asked to do so by a requester for other medical cannabis goods, a laboratory shall analyze primary samples for residual solvents and processing chemicals.

b. The department shall provide a list of residual solvents and processing chemicals for which primary samples are to be tested with corresponding action levels on the department's website ([www.idph.iowa.gov](http://www.idph.iowa.gov)).

c. For each residual solvent or processing chemical for which a primary sample is tested, a laboratory shall report that the primary sample passed the testing if the concentration of residual solvent or processing chemical is at or below the action level approved by the department.

*d.* For each residual solvent or processing chemical for which a laboratory tests, the laboratory shall report that the primary sample failed the testing if the concentration of residual solvent or processing chemical is above the action level approved by the department.

*e.* If a laboratory is using mass spectrometry instrumentation to analyze primary samples for residual solvents and processing chemicals and the laboratory determines that a primary sample contains residual solvent or processing chemical analytes that are not included in the department-approved list of required tests, the laboratory shall attempt to achieve tentative identification and semiquantitative results of the residual solvent or processing chemical analytes.

*f.* The laboratory may test for and provide test results for additional residual solvents or processing chemicals if asked to do so by a requester.

*g.* For each primary sample tested, a laboratory shall issue a certificate of analysis that contains the following:

(1) The name and concentration of each residual solvent or processing chemical for which the primary sample was tested.

1. The concentrations shall be listed in parts per million (ppm) or other units as determined by the department.

2. The laboratory shall report a result of “detected but not quantified” for any target residual solvent or processing chemical that falls below the LOQ, has a signal-to-noise ratio of greater than 3:1, and meets identification criteria.

(2) Whether the primary sample passed or failed the test in accordance with paragraphs 154.72(2)“*c*” and 154.72(2)“*d*.”

(3) The names and amounts of any additional residual solvents and processing chemicals identified by the laboratory.

*h.* If the primary sample fails testing for residual solvents and processing chemicals, the lot fails laboratory testing.

*i.* When a laboratory identifies additional residual solvents and processing chemicals in a primary sample, the laboratory shall:

(1) Notify the department of the additional residual solvents and processing chemicals and the amounts detected.

(2) Refrain from issuing a final certificate of analysis to a manufacturer until given approval to do so by the department.

**154.72(3) Contaminants—pesticides.**

*a.* For each unique lot of medical cannabidiol, and if asked to do so by a requester for other medical cannabis goods, the laboratory shall analyze primary samples for pesticides.

*b.* The department shall provide a list of pesticides for which primary samples are to be tested with corresponding action levels on the department’s website ([www.idph.iowa.gov](http://www.idph.iowa.gov)).

*c.* For each pesticide for which a laboratory tests, the laboratory shall report that the primary sample passed the testing if the concentration of pesticide is at or below the action level approved by the department.

*d.* For each pesticide for which a laboratory tests, the laboratory shall report that the primary sample failed the testing if the concentration of pesticide is above the action level approved by the department.

*e.* If a laboratory is using mass spectrometry instrumentation to analyze primary samples for pesticides and the laboratory determines that a primary sample contains pesticide analytes that are not included in the department-approved list of required tests, the laboratory shall attempt to achieve tentative identification and semiquantitative results of the pesticide analytes.

*f.* The laboratory may test for and provide test results for additional pesticides if asked to do so by a requester.

*g.* For each primary sample tested, a laboratory shall issue a certificate of analysis that contains the following:

(1) The name and concentration of each pesticide for which the primary sample was tested.

1. The concentrations shall be listed in parts per million (ppm) or other units as determined by the department.

2. The laboratory shall report a result of “detected but not quantified” for any pesticide that falls below the LOQ, has a signal-to-noise ratio of greater than 3:1, and meets identification criteria.

(2) Whether the primary sample passed or failed the test in accordance with paragraphs 154.72(3)“c” and 154.72(3)“d.”

(3) The names and amounts of any additional pesticides identified by the laboratory.

*h.* If the primary sample fails testing for pesticides, the lot fails laboratory testing.

*i.* When a laboratory identifies additional pesticides in a primary sample, the laboratory shall:

(1) Notify the department of the additional pesticides and the amounts detected.

(2) Refrain from issuing a final certificate of analysis to a manufacturer until given approval to do so by the department.

**154.72(4) Contaminants—metals.**

*a.* For each unique lot of medical cannabidiol, and if asked to do so by a requester for other medical cannabis goods, the laboratory shall analyze primary samples for metals.

*b.* The department shall provide a list of metals for which primary samples are to be tested with corresponding action levels on the department’s website ([www.idph.iowa.gov](http://www.idph.iowa.gov)).

*c.* For each metal for which a laboratory tests, the laboratory shall report that the primary sample passed the testing if the concentration of metal is at or below the action level approved by the department.

*d.* For each metal for which a laboratory tests, the laboratory shall report that the primary sample failed the testing if the concentration of metal is above the action level approved by the department.

*e.* If a laboratory is using mass spectrometry instrumentation to analyze primary samples for metals and the laboratory determines that a primary sample contains metal analytes that are not included in the department-approved list of required tests, the laboratory shall attempt to achieve tentative identification and semiquantitative results of the metal analytes.

*f.* The laboratory may test for and provide test results for additional metals if asked to do so by a requester.

*g.* For each primary sample tested, a laboratory shall issue a certificate of analysis that contains the following:

(1) The name and concentration of each metal for which the primary sample was tested.

1. The concentrations shall be listed in micrograms per gram or other units as determined by the department.

2. The laboratory shall report a result of “detected but not quantified” for any metal that falls below the LOQ, has a signal-to-noise ratio of greater than 3:1, and meets identification criteria.

(2) Whether the primary sample passed or failed the test in accordance with paragraphs 154.72(4)“c” and 154.72(4)“d.”

(3) The names and amounts of any additional metals identified by the laboratory.

*h.* If the primary sample fails testing for metals, the lot fails laboratory testing.

*i.* When a laboratory identifies additional metals in a primary sample, the laboratory shall:

(1) Notify the department of the additional metals and the amounts detected.

(2) Refrain from issuing a final certificate of analysis to a manufacturer until given approval to do so by the department.

**154.72(5) Contaminants—microbiological impurities.**

*a.* For each unique lot of medical cannabidiol, and if asked to do so by a requester for other medical cannabis goods, the laboratory shall analyze primary samples for microbiological impurities.

*b.* The department shall provide a list of microbiological impurities for which primary samples are to be tested on the department’s website ([www.idph.iowa.gov](http://www.idph.iowa.gov)).

*c.* For each microbiological impurity for which a laboratory tests, the laboratory shall report that the primary sample passed the testing if the microbiological impurity is not detected in 1 gram of matrix or as approved by the department. A primary sample may be reported as passed if a screening procedure yields a negative result or if a presumptively positive result is not found to be positive on the confirmatory procedure.

*d.* For each microbiological impurity for which a laboratory tests, the laboratory shall report that the primary sample failed the testing if the microbiological impurity is detected in 1 gram of matrix or as approved by the department. Confirmatory procedures shall be conducted on all presumptively positive results.

*e.* If a laboratory is using methods to test primary samples for microbiological impurities and the laboratory determines that a primary sample contains microbiological impurities that are not included in the department-approved list of required tests, the laboratory shall attempt to achieve tentative identification of the biological impurity.

*f.* The laboratory may test for and provide test results for additional microbiological impurities if asked to do so by a requester.

*g.* For each primary sample tested, a laboratory shall issue a certificate of analysis that contains the following:

(1) The name of each microbiological impurity for which the primary sample was tested.

(2) Whether the primary sample passed or failed the test in accordance with paragraphs 154.72(5)“*c*” and 154.72(5)“*d*.”

(3) The names of any additional microbiological impurities identified by the laboratory.

*h.* If the primary sample fails testing for microbiological impurities, the lot fails laboratory testing.

*i.* When a laboratory identifies additional microbiological impurities in a primary sample, the laboratory shall:

(1) Notify the department of the additional microbiological impurities detected.

(2) Refrain from issuing a final certificate of analysis to a manufacturer until given approval to do so by the department.

**154.72(6) *Additional tests.*** The laboratory may perform additional tests if asked to do so by a requester.

[ARC 3836C, IAB 6/6/18, effective 7/11/18; ARC 4078C, IAB 10/10/18, effective 11/14/18]

#### **641—154.73(124E) Reporting requirements.**

**154.73(1) *Reporting test results.*** The laboratory shall generate a certificate of analysis for each primary sample that it tests and make the certificate of analysis available to the manufacturer who ordered the tests and the department through the department’s secure sales and inventory tracking system, if available, or another laboratory information management system.

**154.73(2) *Tentatively identified analytes.*** A laboratory shall report on the certificate of analysis any tentatively identified analytes detected during the analysis of the primary sample. When a laboratory identifies additional analytes in a primary sample, the laboratory shall:

*a.* Notify the department of the additional analytes detected.

*b.* Refrain from issuing a final certificate of analysis to a manufacturer until given approval to do so by the department.

**154.73(3) *Additional reporting requirements.***

*a.* In addition to the requirements described in rule 641—154.72(124E), the certificate of analysis shall contain, at a minimum, the following information:

(1) All requirements of Standard ISO/IEC 17025;

(2) Date of primary sample collection;

(3) Date the primary sample was received by the laboratory;

(4) Date of each analysis;

(5) The LOQ and action level for each analyte, as applicable;

(6) Whether the primary sample and lot passed or failed laboratory testing; and

(7) A signature by the laboratory quality officer and the date the certificate of analysis was validated as being accurate by the laboratory quality officer.

*b.* Any test result that is not covered under the laboratory’s ISO/IEC 17025 scope of accreditation shall be clearly identified on the certificate of analysis.

*c.* Measurements below a method’s limit of detection shall be reported as “<” (less than) or “not detected” and reference the reportable limit. The reporting of zero concentration is not permitted.

- d. Measurements  $\geq$  LOD but  $<$  LOQ shall be reported as “detected but not quantified.”
  - e. The number of significant figures reported shall reflect the precision of the analysis.
- [ARC 3836C, IAB 6/6/18, effective 7/11/18]

**641—154.74(124E) Record-keeping requirements.**

**154.74(1) Data package.** A laboratory shall create a data package for each analytical batch of primary samples that the laboratory analyzes. The data package shall contain at minimum the following information:

- a. The name and address of the laboratory that performed the analytical procedures;
- b. The names, functions, and signatures (electronic or handwritten) of the laboratory personnel that performed the primary sample preparation, analyzed the primary samples, and reviewed and approved the data;
- c. All primary sample and analytical batch quality control sample results;
- d. Raw data for each primary sample analyzed;
- e. Instrument raw data, if any was produced;
- f. Instrument test method with parameters;
- g. Instrument tune report, if one was created;
- h. All instrument standard calibration data;
- i. Test-method worksheets or forms used for primary sample identification, characterization, and calculations, including chromatograms, sample-preparation worksheets, and final datasheets;
- j. The quality control report with worksheets, forms, or copies of laboratory notebook pages containing pertinent information related to the identification and traceability of all reagents, reference materials, and standards used for analysis;
- k. The analytical batch sample sequence;
- l. The field sample log; and
- m. The chain-of-custody form.

**154.74(2) Review of data package.** After the laboratory has compiled a data package, another individual at the laboratory shall independently review the data package. The reviewer shall:

- a. Assess the analytical results for technical correctness and completeness;
- b. Verify that the results of each analysis carried out by the laboratory are reported accurately, clearly, unambiguously, and objectively;
- c. Verify that the measurements can be traced back; and
- d. Approve the measurement results by signing and dating the data package prior to release of the certificate of analysis by the laboratory.

**154.74(3) Data package record retention.** The entire data package shall be stored by a laboratory for a minimum of five years and shall be made available upon request by the department or the requester of the laboratory testing.

**154.74(4) Other records.** A laboratory shall maintain all documents, forms, records, and standard operating procedures associated with the testing of medical cannabis goods.

- a. A laboratory shall maintain analytical testing laboratory records in such a manner that the analyst, the date the analysis was performed, the approver of the certificate of analysis, the reviewer and approver of the data package, the test method, and the materials that were used can be determined by the department.
- b. Records shall be stored in such a way that the data may be readily retrieved when requested by the department.
- c. All testing laboratory records shall be kept for a minimum of five years, unless otherwise noted in these rules.
- d. The department shall be allowed access to all electronic data, including standards records, calibration records, extraction logs, and laboratory notebooks.
- e. A laboratory shall keep and make available to the department the following records related to the testing of medical cannabis goods:

- (1) Personnel qualification, training, and competency documentation, including but not limited to résumés, training records, continuing education records, analytical proficiency testing records, and demonstration of competency records for laboratory work. These records shall be kept current.
- (2) Method verification and validation records, including method modification records, method detection limit and quantitation limit determination records, ongoing verification records such as proficiency test records and reference material analysis records.
- (3) Quality control and quality assurance records, including the laboratory's quality assurance manual and control charts with control limits.
- (4) Chain-of-custody records, including chain-of-custody forms, field sample logs, sample-receipt records, sample-description records, sample-rejection records, laboratory information management system records, sample-storage records, sample-retention records, and disposal records.
- (5) Purchasing and supply records, equipment-services records, and other equipment records, including purchase requisition records, packing slips, supplier records, and certificates of analysis.
- (6) Laboratory equipment installation records, maintenance records, and calibration records. These records shall include the date and name of the person performing the installation of, calibration of, or maintenance on the equipment, with a description of the work performed, maintenance logs, pipette calibration records, balance calibration records, working and reference mass calibration records, and daily verification-of-calibration records.
- (7) Customer service records, including customer contracts, customer requests, certificates of analysis, customer transactions, customer feedback, records related to the handling of complaints and nonconformities, and corrective action pertaining to complaints.
- (8) Nonconforming work and corrective action records, including corrective action, nonconformance, nonconformities resolved by correction, customer notification of nonconformities, internal investigations, implementation of corrective action, and resumption-of-work records.
- (9) Internal-audit and external-audit records, including audit checklists, standard operating procedures, and audit observation and findings reports. These records shall include the date and name of the person performing the audit.
- (10) Management review records, including technical data review reports and final management-review reports. These records shall include the review date and the name of the reviewer.
- (11) Laboratory data reports, data review, and data approval records, including instrument and equipment identification records, records with unique sample identifiers, analysts' laboratory notebooks and logbooks, traceability records, test-method worksheets and forms, instrumentation-calibration data, and test-method raw data. These records shall include the analysis date and the name of the analyst.
- (12) Proficiency testing records, including the proficiency test schedule, proficiency tests, data-review records, data-reporting records, nonconforming work and corrective actions, and quality control and quality assurance records related to proficiency testing.
- (13) Electronic data, backed-up data, records regarding the protection of data, including unprocessed instrument output data files and processed quantitation output files, electronic data protocols and records, and authorized personnel records.
- (14) Security data, including laboratory-security records and laboratory-access records, surveillance-equipment records, and security-equipment records. These records shall be stored for at least one year.
- (15) Traceability, raw data, standards records, calibration records, extraction logs, reference materials records, analysts' laboratory notebooks and logbooks, supplier records, and certificates of analysis, and all other data-related records.
- (16) Laboratory contamination and cleaning records, including autoclave records, acid-wash logs and records, and general laboratory-safety and chemical-hygiene protocols.

[ARC 3836C, IAB 6/6/18, effective 7/11/18]

**641—154.75(124E) Quality control.** The laboratory shall have quality control protocols that include the following elements:

**154.75(1) Quality control samples required.**

a. The laboratory shall run quality control samples with every analytical batch of samples for chemical and microbiological analysis.

b. For microbiological analysis, the laboratory shall develop procedures for quality control requirements for each analytical batch of samples.

c. The laboratory shall analyze the quality control samples in exactly the same manner as the test samples to validate the laboratory testing results.

**154.75(2) *Types of quality control samples.*** At a minimum, a laboratory shall have the following quality control samples as part of every analytical batch tested for chemical analytes:

a. Negative control (method blank). A laboratory shall prepare and run at least one method blank sample with an analytical batch of 10 to 20 samples along with and under the same conditions, including all sample preparation steps, as the other samples in the analytical batch, to demonstrate that the analytical process did not introduce contamination.

b. Positive control (laboratory control sample). A laboratory shall prepare and run at least one laboratory control sample with an analytical batch of 10 to 20 samples along with and under the same conditions, including all sample preparation steps, as the other samples in the analytical batch.

c. Matrix spike sample. A laboratory shall prepare and run one or more matrix spike samples for each analytical batch.

(1) A laboratory shall calculate the percent recovery for quantitative chemical analysis by dividing the sample result by the expected result and multiplying that by 100. All quality control measures shall be assessed and evaluated on an ongoing basis, and quality control acceptance criteria shall be used. When necessary, the department may establish acceptance criteria on the department's website ([www.idph.iowa.gov](http://www.idph.iowa.gov)).

(2) If quality control acceptance criteria are not acceptable, a laboratory shall investigate the cause, correct the problem, and rerun the analytical batch of samples. If the problem persists, the laboratory shall reprepare the samples and run the analysis again, if possible.

d. Field duplicate sample. A laboratory shall prepare and run a duplicate sample with every 10 to 20 samples for each analytical method. The acceptance criterion between the primary sample and the duplicate sample is less than 20 percent relative percentage difference.

**154.75(3) *Certified reference material for chemical analysis.*** The laboratory shall use a reference material for each analytical batch in accordance with the following standards:

a. The reference material should be certified and obtained from an outside source, if possible. If a reference material is not available from an outside source, the laboratory shall make its own in-house reference material.

b. Reference material made in-house should be made from a different source of standards than the source from which the calibration standards are made.

c. The test result for the reference material shall fall within the quality control acceptance criteria. If it does not, the laboratory shall document and correct the problem and run the analytical batch again.

**154.75(4) *Calibration standards.*** The laboratory shall prepare calibration standards by serially diluting a standard solution to produce working standards used for calibration of an instrument and quantitation of analyses in samples.

**154.75(5) *Quality control-sample report.*** A laboratory shall generate a quality control-sample report that includes quality control parameters and measurements, analysis date, and type of matrix.

**154.75(6) *Limit-of-detection and limit-of-quantitation calculations.*** For chemical method analysis, a laboratory shall calculate the limit of detection and limit of quantitation using generally accepted methodology.

[ARC 3836C, IAB 6/6/18, effective 7/11/18]

**641—154.76(124E) Security requirements.** The department may request assistance from the department of public safety in ensuring a laboratory meets the security requirements in this rule.

**154.76(1) *Security policy requirement.*** A laboratory shall maintain a security policy to prevent the loss, theft, or diversion of medical cannabis goods and samples. The security policy shall apply to all staff and visitors at a laboratory facility.

**154.76(2) Visitor logs.** Visitors to a laboratory facility shall sign visitor manifests with name, date, and times of entry and exit, and shall wear badges that are visible at all times and that identify them as visitors.

**154.76(3) Restricted access.** A laboratory shall use a controlled access system and written manifests to limit entrance to all restricted access areas of its laboratory facility and shall retain a record of all persons who entered the restricted access areas.

a. The controlled access system shall do all of the following:

- (1) Limit access to authorized individuals;
- (2) Maintain a log of individuals with approved access, including dates of approvals and revocations;
- (3) Track times of personnel entry;
- (4) Track times of personnel movement between restricted access areas;
- (5) Store data for retrieval for a minimum of one year; and
- (6) Remain operable in the event of a power failure.

b. Separate written manifests of visitors to restricted areas shall be kept and stored for a minimum of one year if the controlled access system does not include electronic records of visitors to the restricted areas.

c. A laboratory shall promptly, but no later than five business days after receipt of request, submit stored controlled access system data to the department.

**154.76(4) Personnel identification system.** A laboratory shall use a personnel identification system that controls and monitors individual employee access to restricted access areas within the laboratory facility and that meets the requirements of this subrule and subrule 154.76(2).

a. Requirement for employee identification card. An employee identification card shall contain:

- (1) The name of the employee;
- (2) The date of issuance;
- (3) An alphanumeric identification number that is unique to the employee; and
- (4) A photographic image of the employee.

b. A laboratory employee shall keep the identification card visible at all times when the employee is in the laboratory.

c. Upon termination or resignation of an employee, a laboratory shall immediately:

- (1) Revoke the employee's access to the laboratory; and
- (2) Obtain and destroy the employee's identification card, if possible.

**154.76(5) Video monitoring and surveillance.**

a. *Video surveillance system.* A laboratory shall operate and maintain in good working order a video surveillance system for its premises that operates 24 hours per day, seven days a week, and visually records all areas where medical cannabis goods are stored or tested.

b. *Camera specifications.* Cameras shall:

- (1) Capture clear and certain identification of any person entering or exiting a restricted access area containing medical cannabis goods;
- (2) Have the ability to produce a clear, color still photograph live or from a recording;
- (3) Have on all recordings an embedded date-and-time stamp that is synchronized to the recording and does not obscure the picture; and
- (4) Continue to operate during a power outage.

c. *Video recording specifications.*

(1) A video recording shall export still images in an industry standard image format, such as .jpg, .bmp, or .gif.

(2) Exported video shall be archived in a format that ensures authentication and guarantees that the recorded image has not been altered.

(3) Exported video shall also be saved in an industry standard file format that can be played on a standard computer operating system.

(4) All recordings shall be erased or destroyed at the end of the retention period and prior to disposal of any storage medium.

*d. Additional requirements.* A laboratory shall maintain all security system equipment and recordings in a secure location to prevent theft, loss, destruction, corruption, and alterations.

*e. Retention.* A laboratory shall ensure that 24-hour recordings from all video cameras are:

- (1) Available for viewing by the department upon request;
- (2) Retained for a minimum of 60 days;
- (3) Maintained free of alteration or corruption; and

(4) Retained longer, as needed, if a manufacturer is given actual notice of a pending criminal, civil, or administrative investigation, or other legal proceeding for which the recording may contain relevant information.

**154.76(6)** *Chain-of-custody policy and procedures.* A laboratory shall maintain a current chain-of-custody policy and procedures. The policy should ensure that:

*a.* Chain of custody is maintained for samples which may have probable forensic evidentiary value; and

*b.* Annual training is available for individuals who will be involved with testing medical cannabis goods.

**154.76(7)** *Information technology systems security.* A laboratory shall maintain information technology systems protection by employing comprehensive security controls that include security firewall protection, antivirus protection, network and desktop password protection, and security patch management procedures.

[ARC 3836C, IAB 6/6/18, effective 7/11/18]

These rules are intended to implement Iowa Code chapter 124E.

CHAPTER 155  
LICENSURE STANDARDS FOR SUBSTANCE USE DISORDER AND  
PROBLEM GAMBLING TREATMENT PROGRAMS

[Prior to 7/27/88, see Substance Abuse, Iowa Department of[805] Ch 3]

[Prior to 3/29/06, see 643—Ch 3]

**641—155.1(125,135) Definitions.** Unless otherwise indicated, the following definitions shall apply to the specific terms used in these rules:

*“Addictive disorder”* means a substance use disorder and problem gambling.

*“Addictive disorder professional”* means an individual who is qualified by virtue of certification or license and education, training and experience to provide program services.

*“Administration”* means the direct application of a prescription medication to a patient by a prescriber or the prescriber’s authorized agent.

*“Admission”* means the point at which an initial assessment has been completed sufficient to determine the patient’s need and eligibility for program services, and the patient has agreed to begin treatment.

*“Admission, continued service, and discharge criteria”* means the ASAM criteria dimensions to be considered in determining the level of care appropriate for the patient.

*“Applicant”* means a person, facility, or legal entity that has applied for an initial license, renewal of a license, or a license under deemed status pursuant to these rules.

*“Application”* means the process through which an applicant requests an initial license, renewal of a license, or a license under deemed status pursuant to these rules.

*“ASAM criteria”* means the most current version of the clinical guide for the treatment of addictive, substance use and co-occurring conditions as published by the American Society of Addiction Medicine (ASAM).

*“Assessment”* means the ongoing process of evaluating a patient’s strengths, resources, preferences, limitations, problems, and needs; determining the licensed program services needed by the patient; determining the patient’s eligibility for program services; and identifying treatment plan priorities, in accordance with the ASAM criteria and accepted standards of practice.

*“Board”* means the state board of health created pursuant to Iowa Code chapter 136.

*“Care coordination”* or *“case management”* means the collaborative process which assesses, plans, implements, coordinates, monitors and evaluates the options and services, both internal and external to the program, to meet patient needs, using communication and available resources to promote quality care and effective outcomes.

*“Chemical substance”* means alcohol, wine, spirits and beer as defined in Iowa Code chapter 123 and controlled substances as defined in Iowa Code section 124.101.

*“Chemical substitutes and antagonists program”* means an opioid treatment program that provides opioid treatment services in accordance with Iowa Code section 125.21 and rule 641—155.35(125,135).

*“Clinically managed”* means that program services are directed by addictive disorder professionals.

*“Clinically managed high-intensity residential treatment”* means the ASAM criteria level of care totaling at least 50 hours of clinically managed inpatient treatment services per week.

*“Clinically managed low-intensity residential treatment”* means the ASAM criteria level of care totaling at least five hours of clinically managed inpatient treatment services per week.

*“Clinically managed medium-intensity residential treatment”* means the ASAM criteria level of care totaling at least 30 hours of clinically managed inpatient treatment services per week.

*“Clinical oversight”* means oversight provided by an individual who, by virtue of certification or license and education, training and experience is qualified to oversee treatment services in accordance with subrule 155.21(3).

*“Committee”* means the substance abuse and gambling treatment program committee appointed by the state board of health pursuant to Iowa Code section 136.3(13).

*“Concerned person”* means an individual who is seeking treatment services due to problems arising from a personal relationship with an individual with an addictive disorder.

“*Confidentiality*” means protection of patient information in compliance with state and federal law.

“*Crisis stabilization*” means medically monitored subacute inpatient services for individuals with urgent addictive disorder needs requiring immediate intervention, assessment, and mobilization of family, community and program resources.

“*Culturally and environmentally specific*” means integrating into assessment and treatment the customs and beliefs of a given population, as well as awareness and acceptance of diversity regarding conditions, circumstances and influences affecting an individual or group.

“*Data reporting*” means the required submission of certain patient demographic and program services information to the department by a program.

“*Department*” means the Iowa department of public health.

“*Detoxification*” means the safe management of intoxication states and withdrawal states in accordance with the ASAM criteria and accepted standards of practice.

“*Dimension*” means one of the six ASAM criteria patient biopsychosocial areas to be considered in the assessment process to identify patient needs and determine the appropriate level of care for admission and continued services.

“*Director*” means the director of the Iowa department of public health.

“*Discharge*” means the point at which the patient ceases participation in licensed program services, marking the end of a specific encounter or episode of care. Discharge does not require termination of the relationship between the patient and the program.

“*Discharge planning*” means the process, begun at admission, of determining a patient’s continued need for licensed program services and of developing a plan to address ongoing patient needs following discharge.

“*Division*” means the department’s division of behavioral health, which acts as the single state authority for the federal substance abuse prevention and treatment block grant and associated state of Iowa addictive disorder appropriations and funding.

“*Early intervention*” means the ASAM criteria level of care which explores and addresses problems or risk factors that appear to be related to an addictive disorder and which helps the individual recognize potential harmful consequences.

“*Enhanced program*” means a licensee that provides enhanced treatment services in accordance with paragraph 155.2(2)“j” and rule 641—155.34(125,135).

“*Enhanced treatment services*” means licensed program services provided in accordance with paragraph 155.2(2)“j” and rule 641—155.34(125,135).

“*Facility*” means an institution, a detoxification center, or an installation providing care, maintenance or treatment for persons with substance use disorders licensed by the department under Iowa Code section 125.13, hospitals licensed under Iowa Code chapter 135B, or the state mental health institutes designated by Iowa Code chapter 226. “*Facility*” also means the physical areas such as grounds, buildings, or portions thereof under administrative control of the program.

“*Governing body*” means the person, group, or legal entity that has ultimate authority and responsibility for the overall operation of the program.

“*Inpatient*” means 24-hour licensed program services.

“*Intensive outpatient treatment*” means the ASAM criteria level of care totaling a minimum of nine hours of clinically managed outpatient treatment services per week for adults or a minimum of six hours of clinically managed outpatient treatment services per week for juveniles.

“*Level of care*” or “*level of service*” means the different ASAM criteria service options. “*Level of care*” also means certain licensed program services under these rules.

“*Licensed program services*” means the services a licensee may be authorized to provide under these rules.

“*Licensee*” means a program licensed by the department pursuant to these rules.

“*Licensure*” means the issuance of a license by the department pursuant to these rules which validates the licensee’s compliance with these rules and authorizes the licensee to operate a program in the state of Iowa.

*“Licensure weighting report”* means the division’s report that is used to determine an applicant’s level of compliance with these rules and the length of time a license will be in effect.

*“Maintenance”* means the prolonged, scheduled administration of an opiate agonist medication such as buprenorphine or methadone by an opioid treatment program in accordance with federal and state laws, rules and regulations.

*“Management of care”* means the ongoing application of the ASAM criteria and the coordination of care to ensure the appropriate provision of licensed program services to a patient.

*“May”* means a term used in the interpretation of a standard to reflect an acceptable method that is recognized but not necessarily preferred.

*“Medically managed”* means that the inpatient program services that involve daily medical care in a hospital setting are directed by a prescriber.

*“Medically managed intensive inpatient treatment”* means the ASAM criteria level of care for medically managed inpatient treatment services.

*“Medically monitored”* means that the program services are directed by addictive disorder professionals with medical oversight by a prescriber.

*“Medically monitored intensive inpatient treatment”* means the ASAM criteria level of care for medically monitored subacute inpatient treatment services.

*“Medication-assisted treatment”* means the medically monitored use of certain substance use disorder medications in combination with other treatment services.

*“Opioid treatment program”* means a substance use disorder treatment program or a substance use disorder and problem gambling treatment program licensed to provide opioid treatment services in accordance with Iowa Code section 125.21 and rules 641—155.2(125,135) and 641—155.35(125,135).

*“Opioid treatment services”* means medically monitored outpatient maintenance services provided in accordance with federal and state laws, rules and regulations.

*“Outpatient”* means non-24-hour licensed program services.

*“Outpatient treatment”* means the ASAM criteria level of care totaling less than nine hours of clinically managed outpatient treatment services per week for adults and less than six hours of clinically managed outpatient treatment services per week for juveniles.

*“OWI evaluation”* means an assessment completed solely for the purpose of compliance with the substance abuse evaluation requirements of Iowa Code chapter 321J.

*“Partial/day treatment”* means the ASAM criteria level of care totaling 20 or more hours of clinically managed outpatient treatment services per week.

*“Patient”* means an individual who participates in licensed program services.

*“Placement”* means selection of an appropriate licensed program service, based on ongoing assessment.

*“Prescriber”* means a licensed health care professional with the authority to prescribe medication in accordance with Iowa law.

*“Prevention”* means activities aimed at minimizing the use of potentially addictive substances, lowering risk in at-risk individuals, or minimizing potential adverse consequences of substance use or gambling.

*“Prime programming time”* means any period of the day, as determined by a program treating juveniles, when special attention or supervision is necessary.

*“Problem gambling”* means a gambling disorder that results in a functional impairment of sufficient impact and duration to meet diagnostic criteria specified within the most current Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association.

*“Program”* means a person, facility, institution, building, agency or legal entity that provides one or more of the services stated in subrule 155.2(2) and is required to be licensed under these rules.

*“Quality improvement”* means the process of objectively and systematically monitoring and evaluating the quality and appropriateness of patient care and program services and operations to resolve identified problems and to make continued improvements.

*“Recovery”* means the process of addressing an addictive disorder and working toward personally defined health and well-being.

*“Recovery supports”* means the broad range of nontreatment services, such as transportation, that assists patients in their recovery efforts.

*“Region”* means the geographic grouping of counties for conducting the department’s responsibilities under Iowa Code chapter 125.

*“Rehabilitation”* means the restoration of an optimal state of health by medical, psychological, and social means, including peer group support.

*“Residential”* means clinically managed inpatient treatment services.

*“Resiliency- and recovery-oriented system of care”* means coordinated, person-centered approaches to health promotion, prevention, early intervention, treatment and recovery support that build on the protective factors and strengths of individuals to sustain or achieve health and well-being.

*“Rule”* means each department statement of general applicability that implements, interprets, or prescribes law or policy, or that describes the procedure or practice requirements of the division. The term includes the amendment or repeal of existing rules as specified in the Iowa Code.

*“Screening”* means the brief review of a patient’s or potential patient’s current risk factors for an addictive disorder or medical or mental health condition to determine if they indicate a need for immediate admission or referral. Screening is not an assessment and is not sufficient to develop a treatment plan, rule out an addictive disorder, or determine that admission to treatment or referral to other services is not indicated.

*“Self-administration of medication”* means the process whereby a properly trained and qualified staff person observes a patient take medication prescribed by a prescriber.

*“Shall”* means the term used to indicate a mandatory statement, the only acceptable method under these rules.

*“Should”* means the term used in the interpretation of a standard to reflect the commonly accepted method, but allowing for the use of effective alternatives.

*“Staff”* means any individual who conducts an activity on behalf of a program as an employee, agent, consultant, contractor, volunteer or other status.

*“Standards category”* means the grouping of standards, such as clinical, administrative or programming, in the licensure weighting report.

*“Subacute”* means medically monitored inpatient services for individuals who require management, supervision and treatment to reduce immediate risk of danger to self or others or severe disability or complication of an addictive disorder or an addictive disorder and a medical or mental health condition.

*“Substance abuse treatment and rehabilitation facility”* or *“substance abuse treatment program”* means a program required to be licensed under these rules.

*“Substance use disorder”* means a substance use disorder that results in a functional impairment of sufficient impact and duration to meet diagnostic criteria specified within the most current Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association.

*“Time frames”* means the periods of time specified throughout the standards.

*“Treatment”* means the broad range of planned services to identify and change patterns of behavior that are maladaptive, destructive or injurious to health; or to restore appropriate levels of physical, psychological or social functioning. Such services may include assessment; care coordination; crisis stabilization; detoxification; early intervention; health promotion; individual, group and family counseling; management of care; and medication administration, provided by addictive disorder professionals and a mix of medical, mental health and peer professionals as appropriate to the structure of the program.

*“Treatment planning”* means the process, based on ongoing assessment, by which a patient and qualified staff identify and rank problems, establish agreed-upon goals, and decide on the treatment services and resources to be utilized.

*“Variance”* or *“waiver”* means action by the committee or division that suspends the requirements of a standard on a case-by-case basis in accordance with 641—Chapter 178.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.2(125,135) Licensing.** In accordance with Iowa Code section 125.13, a person shall not maintain or conduct a substance use disorder program without having first obtained a license for the program from the department, and in accordance with Iowa Code section 135.150, a person shall not maintain or conduct a problem gambling treatment program funded by the department unless the person has obtained a license for the program from the department. The provision of treatment to a patient through any electronic means, regardless of the location of the program or facility, shall constitute the practice of treatment in the state of Iowa and shall be subject to regulation in accordance with Iowa Code chapter 125, Iowa Code section 135.150, and these rules. An applicant shall apply for one license only. The department shall award one license only to an applicant or licensee.

**155.2(1) Program licenses.** The department shall offer the following program licenses:

- a. A substance use disorder assessment and OWI evaluation-only program license.
- b. A substance use disorder treatment program license.
- c. A problem gambling treatment program license.
- d. A substance use disorder and problem gambling treatment program license.

**155.2(2) Licensed program services.** The license will delineate the licensed program service(s) the program is authorized to provide and will specify that each licensed program service is licensed for adults, juveniles, or adults and juveniles. Licensed program services are:

- a. Substance use disorder assessment and OWI evaluation only, provided by a substance use disorder assessment and OWI evaluation-only program;
- b. Outpatient treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- c. Intensive outpatient treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- d. Partial/day treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- e. Clinically managed low-intensity residential treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- f. Clinically managed medium-intensity residential treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- g. Clinically managed high-intensity residential treatment, provided by a substance use disorder treatment program, a problem gambling treatment program, or a substance use disorder and problem gambling treatment program;
- h. Medically monitored intensive inpatient treatment, provided by a substance use disorder treatment program or a substance use disorder and problem gambling treatment program;
- i. Medically managed intensive inpatient treatment, provided by a substance use disorder treatment program or a substance use disorder and problem gambling treatment program;
- j. Enhanced treatment services, provided by a substance use disorder treatment program or a substance use disorder and problem gambling treatment program;
- k. Opioid treatment services, provided by a substance use disorder treatment program or a substance use disorder and problem gambling treatment program.

**155.2(3) Licensing body.** The committee shall:

- a. Consider and approve or deny all license applications, suspensions and revocations;
- b. Advise the department on policies governing the performance of the department in the discharge of any duties imposed on the department by law;
- c. Advise or make recommendations to the board relative to addictive disorder programs in this state; and
- d. Perform other duties as assigned by the board.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.3(125,135) Types of licenses.**

**155.3(1)** The department may issue an initial license for 270 days to a new applicant scoring a minimum rating of 70 percent in each standards category on the licensure weighting report. An initial license shall expire in 270 days and shall not be extended or renewed.

**155.3(2)** The department may issue a license subsequent to an initial license for one, two, or three years based on the applicant's rating on the licensure weighting report.

*a.* An applicant achieving a rating of 95 percent or higher in each standards category may qualify for a three-year license.

*b.* An applicant achieving a rating of less than 95 percent but not less than 90 percent in each standards category may qualify for a two-year license.

*c.* An applicant achieving a rating of less than 90 percent but not less than 70 percent in each standards category may qualify for a one-year license.

*d.* A license for one, two, or three years shall expire on the date noted on the license and shall not be extended but may be renewed upon application.

**155.3(3)** The department may issue a license under deemed status to an applicant providing required documentation of accreditation by a recognized accreditation body. A deemed-status license shall be effective for the same time frame as that of the accreditation granted by the accreditation body, up to three years.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.4(125,135) Nonassignability.**

**155.4(1)** A license issued by the department for the operation of a program applies both to the licensee and the facility in which the program is operated. A license is not transferable.

**155.4(2)** A closing program is one which intends to cease providing licensed program services. The licensee shall notify the division 30 days before ceasing service provision. The licensee shall be responsible for the transition of patients to another program and for the preservation of all records. The licensee shall include in its notice to the division its plan to transition patients and locate records. When a program closes, the program's license is void on the date the program ceases providing licensed program services, and the license shall be returned to the department.

**155.4(3)** A closed program is one which has ceased providing licensed program services. The licensee shall notify the division immediately of ceased service provision. The licensee shall be responsible for the transition of patients to another program and for the preservation of all records. The licensee shall include in its notice to the division its plan to transition patients and locate records. When a program is closed, the program's license is void on the date the program ceased providing licensed program services, and the license shall be returned to the department.

**155.4(4)** A person, facility or legal entity acquiring a licensed, closing or closed program for the purpose of operating a program shall apply for a license.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.5(125,135) Application procedures.** The division shall provide license application forms on the department's Web site and at its office. An applicant shall submit application materials to the division. The division will proceed with inspection of the applicant upon receipt of a complete application. To be complete, an application must include all required materials and be responsive to all licensure standards, as described in these rules.

**155.5(1) Application information.** An applicant shall submit application materials on the forms provided and in the required format. Application materials shall include, but may not be limited to:

*a.* The name and address of the applicant and, if the applicant is part of a larger organization, the name and address of the larger organization.

*b.* The name and address of the applicant's executive director and, if the applicant is part of a larger organization, the name and address of the executive director of the larger organization.

*c.* The names, titles, dates of employment, education, and years of current job-related experience of the applicant's staff; and the table of organization. If the applicant is part of a larger organization or has multiple organizational components and physical facilities, the relationships between the

larger organization, organizational components and physical facilities must be shown on the table of organization, with the applicant and applicant's staff positions clearly delineated.

*d.* The names and addresses of members of the applicant's governing body, sponsors, and advisory boards; and the current articles of incorporation and bylaws.

*e.* The names and addresses of individuals, facilities, organizations, and legal entities with which the applicant has a contractual or affiliation agreement pertaining to licensed program services.

*f.* A description of the licensed program services to be provided by the applicant and a calendar showing program services each week.

*g.* For each physical facility, copies of reports substantiating compliance with federal, state and local laws, rules and regulations, to include appropriate Iowa department of inspections and appeals rules, state fire marshal rules and fire ordinances, and local health, fire, occupancy, and safety regulations.

*h.* Information required for programs admitting juveniles as described under Iowa Code section 125.14A.

*i.* Fiscal management information, to include a recent audit or opinion of auditor and program board minutes to reflect approval of the program's budget and insurance.

*j.* Insurance coverage related to professional and general liability, building, workers' compensation, and fidelity bond.

*k.* The address of each physical facility.

*l.* The written policies and procedures manual that covers all the requirements of these rules.

**155.5(2) *Application time frame.*** An applicant seeking to be licensed subsequent to a 270-day initial license or a licensee seeking to renew a one-, two-, or three-year license or to significantly change a currently licensed program shall submit an application at least 90 days before expiration of the current license or before the program change.

**155.5(3) *License under deemed status.*** An organization seeking to be licensed under deemed status shall submit an application.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.6(125,135) Technical assistance.** The division may provide technical assistance to an applicant or licensee.

**155.6(1)** An applicant may request technical assistance regarding these rules and the licensure process.

**155.6(2)** A licensee may request technical assistance regarding these rules and the licensure process or to bring areas of noncompliance with these rules into compliance.

**155.6(3)** The division may require a licensee to receive technical assistance to bring areas of noncompliance with these rules into compliance.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.7(125,135) Inspection of applicants.**

**155.7(1) *Inspection of applicants.*** The division shall inspect each applicant. Inspection shall include review of the complete application and may include, but may not be limited to, review of patient records, review of applicant data reporting, and interviews with staff and patients. Inspection shall include on-site inspection unless specifically waived as allowed under these rules. The division will send the applicant a report of inspection findings within 30 business days of the inspection.

**155.7(2) *On-site inspection.*** The division will schedule an on-site inspection of an applicant within 60 business days of receipt of the applicant's complete application.

*a.* The division may waive on-site inspection of an applicant that is:

(1) A licensee applying to renew a license when the applicant's licensed program services are limited to substance use disorder assessment and OWI evaluation services only, outpatient treatment, or intensive outpatient treatment.

(2) An applicant applying for a license under deemed status.

*b.* The department shall not be required to provide advance notice of the on-site inspection to the applicant.

*c.* The on-site inspection team will consist of designated employees or agents of the division.

d. The on-site inspection team will inspect the applicant to verify application information and determine compliance with all laws, rules and regulations.  
[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.8(125,135) License—approval.** The department shall issue a license upon approval of an application for a license by the committee. The license shall become effective on the date approved by the committee.

**155.8(1) Committee meeting preparation.** The division shall prepare an inspection findings report with a license recommendation for presentation at a committee meeting held within 60 business days from the date of the inspection findings report.

a. The division will provide public notice of committee meetings in accordance with Iowa Code section 21.4.

b. The division shall provide committee members with the inspection findings report and license recommendation for each application to be acted upon at each committee meeting.

**155.8(2) Committee meeting format.**

a. The chairperson or chairperson's designee shall call the meeting to order at the designated time.

b. Division staff will review each application, inspection findings report, and license recommendation, as directed by the chairperson or the chairperson's designee.

c. The chairperson or the chairperson's designee may give the applicant and the public the opportunity to provide comment on each application.

d. After any applicant and public comments are heard, the committee will make a decision to approve or initially deny the application for a license.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.9(125,135) Written corrective action plan.** A program approved for a license shall submit a written corrective action plan to the division within 30 days following the committee meeting to bring any area of noncompliance with these rules into compliance.

**155.9(1)** The written corrective action plan shall include, but may not be limited to:

a. Any area of noncompliance specified in the inspection findings report;

b. The corrective measures to be taken by the program for each area of noncompliance; and

c. The completion date for each corrective measure.

**155.9(2)** The department may inspect the licensee, including on-site inspection, to review the implemented corrective measures and report to the committee.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.10(125,135) Grounds for denial of license.**

**155.10(1)** The committee may deny an application for a license for any of the following reasons:

a. The application is not complete, is not timely or otherwise does not meet the requirements of these rules.

b. The applicant fails to achieve the minimum licensure weighting report rating required for a 270-day initial license or a one-, two- or three-year license.

c. Lack of patients or patient records for review.

d. Violation of any of the following grounds for discipline:

(1) Submission of fraudulent or misleading information.

(2) Violation by a program or staff of any statute or rule pertaining to programs, including violation of any provision of these rules, or failure to adhere to program policies and procedures adopted pursuant to these rules.

(3) Failure to comply with licensure, inspection, health, fire, occupancy, safety, sanitation, zoning, or building codes or regulations required by federal, state or local law.

(4) Sanction, modification, termination, withdrawal, refused renewal, suspension, or revocation of accreditation by an accreditation body.

(5) Sanction, modification, termination, withdrawal, refused renewal, suspension, revocation, or refused issuance of a federal registration to distribute or dispense controlled substances.

- (6) Commission of or permitting, aiding or abetting commission of an unlawful act.
- (7) Conviction of a member of the governing body, a director, administrator, chief executive officer, or other managing staff person of a felony or misdemeanor related to the management, operation or integrity of the program.
- (8) Use of untruthful or improbable statements in advertising.
- (9) Conduct or practices determined to be detrimental to the general health, safety, or welfare of a patient, potential patient, concerned person, visitor, staff or member of the public.
- (10) Violation of a patient's confidentiality or willful, substantial, or repeated violation of a patient's rights.
- (11) Defrauding a patient, potential patient, concerned person, visitor, staff or third-party payor.
- (12) Inappropriate conduct by staff, including sexual or other harassment or exploitation of a patient, potential patient, concerned person, visitor or staff.
- (13) Utilization of treatment techniques that endanger the health, safety, or welfare of a patient, potential patient, concerned person, visitor, staff or member of the public.
- (14) Discrimination or retaliation against a patient, potential patient, concerned person, visitor, staff, or member of the public who has submitted a complaint or information to the department.
- (15) Failure to allow an employee or agent of the department access to the program or facility for the purpose of inspection, investigation, or other activity necessary to the performance of the department's duties.
- (16) Failure to submit an acceptable written corrective action plan or failure to comply with a corrective action plan issued pursuant to rule 641—155.9(125,135) or 641—155.16(125,135).
- (17) Violation of an order of the committee or violating the terms or conditions of a consent agreement or informal settlement between a program and the committee.

**155.10(2)** Reserved.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.11(125,135) Denial, suspension or revocation of a license.** The committee may deny an application for a license. The committee may suspend or revoke a license for any of the grounds for discipline pursuant to paragraph 155.10(1) "d."

**155.11(1) Initial notice from committee.** When the committee determines to deny, suspend or revoke a one-, two-, or three-year license or a license under deemed status, the division shall notify the applicant or licensee by certified mail, return receipt requested. Such notice shall provide the applicant or licensee the opportunity to submit a written corrective action plan or written objections to the division.

**155.11(2) Submission of corrective action plan or objections.** An applicant notified of denial of a one-, two-, or three-year license or a license under deemed status or a licensee notified of suspension or revocation of a license may submit a written corrective action plan or written objections to the division within 20 days after receipt of the notice.

*a. Written corrective action plan.* The written corrective action plan must meet the requirements of paragraphs 155.9(1) "a" to "c." If the applicant or licensee submits a written corrective action plan, the applicant or licensee shall have 90 days from the date of submission within which to show compliance with the plan. The applicant or licensee shall submit any information to the committee that the committee requests or that the applicant or licensee deems pertinent to show compliance with the plan. The department may inspect the licensee, including on-site inspection, to review the implemented corrective measures and report to the committee.

*b. Objections.* If the applicant or licensee submits written objections, the applicant or licensee shall submit to the committee any information that the committee or the applicant or licensee deems pertinent to support the applicant's or licensee's defense.

**155.11(3) Decision of committee.** Following receipt of a written corrective action plan and expiration of the 90-day compliance period, or following receipt of written objections, or when a written corrective action plan or written objections have not been received within the 20-day time period, the committee may meet to determine whether to proceed with the denial, suspension or revocation. The division shall send notice of this meeting to the applicant or licensee by certified mail, return receipt requested, ten

days prior to the committee meeting, notifying the program director and the program board chairperson of the time, place and date of the committee meeting.

**155.11(4) Notice of decision and opportunity for contested case hearing.**

*a.* When the committee determines to deny, suspend, or revoke a license, the applicant or licensee shall be given written notice by restricted certified mail.

*b.* The applicant or licensee may request a hearing on the determination. The request must be in writing and sent by certified mail, return receipt requested, to the department's address within 30 days of the notice issued by the division. Failure to request a hearing will result in final action by the committee.

**155.11(5) Summary suspension.** If the committee or department finds that the health, safety or welfare of the public is endangered by continued operation of a program, the committee or department may order summary suspension of a license, pursuant to Iowa Code sections 17A.18 and 125.15A, pending proceedings for revocation or other actions in accordance with Iowa Code sections 17A.18A and 125.15A. These proceedings shall be promptly instituted and determined.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.12(125,135) Contested case hearing.** An applicant or licensee may contest the denial, suspension or revocation of a license by requesting a hearing before an administrative law judge from the department of inspections and appeals. The applicant or licensee will be notified by certified mail, return receipt requested, of the date of the hearing, no less than 30 days before the hearing.

**155.12(1) Failure to appear.** If a party fails to appear in a contested case hearing proceeding after proper service of notice, the administrative law judge shall, in such a case, enter a default judgment against the party failing to appear.

**155.12(2) Conduct of hearing.** Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved and to be represented by counsel at their own expense.

*a.* The hearing shall be informal, and all relevant evidence shall be admissible. Effect will be given to the rules of privilege recognized by law. Objections to evidentiary offers may be made and shall be noted in the record. When the hearing will be expedited and the interests of the parties will not be prejudiced substantially, any part of the evidence may be required to be submitted in verified written form.

*b.* Documentary evidence may be received in the form of copies or excerpts if the original is not readily available. Upon request, parties shall be given an opportunity to compare the copy with the original, if available.

*c.* Witnesses present at the hearing shall be subject to cross-examination by any party as necessary for a full and true disclosure of the facts.

*d.* The record in a contested case shall include:

- (1) All pleadings, motions and intermediate rulings.
- (2) All evidence received or considered and all other submissions.
- (3) A statement of all matters officially noticed.
- (4) All questions and offers of proof, objections and rulings therein.
- (5) All proposed findings and exceptions.
- (6) Any decision, opinion or report by the administrative law judge presiding at the hearing.

*e.* Oral proceedings shall be open to the public and shall be recorded either by mechanized means or by certified shorthand reporters. Oral proceedings or any part thereof shall be transcribed at the request of any party with the expense of the transcription charged to the requesting party. The recording or stenographic notes of oral proceedings or the transcription thereof shall be filed with and maintained by the agency for at least five years from the date of decision.

*f.* Findings of fact shall be based solely on the evidence in the record and on matters officially noticed in the record.

**155.12(3) Continuance.** For good cause, the administrative law judge may continue hearings beyond the time originally scheduled or recessed. Requests for continuance shall be made to the administrative law judge in writing at least three days prior to the scheduled hearing date. Continuances will not be granted less than three days before the hearing except in exigent circumstances.

**155.12(4) Decision.** Findings of fact shall be based solely on the evidence in the record and upon matters officially noticed in the record.

*a.* The decision of the administrative law judge shall be the final decision unless there is an appeal to the board within 20 days of the receipt of the decision.

*b.* A proposed or final decision or order in a contested case hearing shall be in writing. A proposed or final decision shall include findings of fact and conclusions of law, separately stated. Parties will be promptly notified of each proposed or final decision or order by the delivery to them of a copy of such decision or order by certified mail, return receipt requested. In the case of a proposed decision, parties shall be notified of the right to appeal the decision to the board.

**155.12(5) Appeal to the board.**

*a.* Either party may request that the board review the proposed decision. The request shall be in writing and mailed within 20 days of receipt of the proposed decision.

*b.* The parties shall have an opportunity to submit briefs to the board. The board will review the record and any briefs. No new evidence shall be admitted unless requested and allowed by the board.

*c.* Oral presentation will be made to the board at a time set by the board.

*d.* The board shall issue its decision in writing within 30 days after conclusion of the hearing.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.13(125,135) Rehearing application.** Any party may file an application for rehearing, stating the specific grounds therefor and the relief sought, within 20 days after the issuance of any final decision by the board in a contested case. A copy of such application for rehearing shall be timely mailed by the applicant to all parties of record not joining therein. Such an application for rehearing shall be deemed to have been denied unless the board grants the application within 20 days after its filing.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.14(125,135) Judicial review.** An applicant or licensee that is aggrieved or adversely affected by the board's final decision and that has exhausted all adequate administrative remedies may seek judicial review of the board's decision pursuant to and in accordance with Iowa Code section 17A.19.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.15(125,135) Issuance of a license after denial, suspension or revocation.** After denial, suspension, or revocation of a license, the former applicant or licensee shall not have a license issued within one year of the effective date of the denial, suspension or revocation. After one year, the former applicant or licensee may submit an application for a 270-day initial license. For purposes of this rule, "former applicant or licensee" shall include any director, officer, administrator, chief executive officer, or other managing staff of the former applicant or licensee.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.16(125,135) Complaints and investigations.**

**155.16(1) Complaints.** Any person may file a complaint with the department against any program licensed pursuant to this chapter. The complaint shall be made in writing and shall be e-mailed, mailed or delivered to the health facility officer at the Division of Behavioral Health, Iowa Department of Public Health, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0075. The complaint shall include the name and address of the complainant, the name of the program, and a concise statement of the allegations against the program, including the specific alleged violations of Iowa Code chapter 125 or this chapter, if known. A complaint may also be initiated upon the committee's own motion or by the department when an emergency exists that is deemed to endanger the health, safety or welfare of a patient, potential patient, concerned person, visitor, staff or the public, pursuant to evidence received by the department. Timely filing of complaints is required to ensure the availability of witnesses and to avoid initiation of an investigation under conditions which may have been significantly altered during the period of delay.

**155.16(2) Evaluation and investigation.** Upon receipt of a complaint, the division shall make a preliminary review of the allegations contained in the complaint. The division may request that

the complainant submit the complaint to the program's grievance process. Unless the division concludes that the complaint is intended solely to harass a program or lacks a reasonable basis, or is more reasonably addressed through the program's grievance process, the department shall conduct an investigation of the program that is the subject of the complaint as soon as is practicable. The program that is the subject of the complaint shall be given an opportunity to informally respond to the allegations contained in the complaint either in writing or through a personal interview or conference with department staff.

**155.16(3) Investigative report.** Within 30 days after completion of the investigation, the division shall prepare a written investigative report and shall submit the report to the executive director of the program, the chairperson of the governing body of the program, and the committee. This report shall include the nature of the complaint and shall indicate if the complaint allegations were substantiated, unsubstantiated, or undetermined; the basis for the finding; the specific statutes or rules at issue; a response from the program, if received; and a recommendation for action.

**155.16(4) Review of investigations.** The committee shall review the investigative report at its next regularly scheduled meeting and shall determine appropriate action.

*a. Closure.* If the committee determines that the allegations contained in the complaint are unsubstantiated, the committee shall close the case and the division shall promptly notify the complainant and the program by letter.

*b. Referral for further investigation.* If the committee determines that the complaint warrants further investigation, the committee shall refer the complaint to the department for further investigation.

*c. Written corrective action plan.* If the committee determines that the allegations contained in the complaint are substantiated and corrective action is warranted, the committee may require the program to submit and comply with a written corrective action plan. A program shall submit a written corrective action plan to the division within 20 business days after receiving a request for such plan. The written corrective action plan shall include a plan for correcting areas of noncompliance as required by the committee and a time frame within which such plan shall be implemented. The plan is subject to department approval. Requiring a written corrective action plan is not formal disciplinary action. Failure to submit or comply with a written corrective action plan may result in formal disciplinary action against the program.

*d. Disciplinary action.* If the committee determines that the allegations contained in the complaint are substantiated and disciplinary action is warranted, the committee may proceed with such action in accordance with rule 641—155.11(125,135).

**155.16(5) Confidential information and public information.** Information contained in a complaint may be confidential pursuant to Iowa Code section 22.7(2), 22.7(18), or 125.37 or any other provision of state or federal law. Investigative reports, written corrective action plans, and all notices and orders issued pursuant to rule 641—155.11(125,135) shall refer to patients by number and shall not include patient identifying information. Investigative reports, written corrective action plans, and all notices and orders issued pursuant to rule 641—155.11(125,135) shall be available to the public as open records pursuant to Iowa Code chapter 22.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.17(125,135) License revision.** A licensee shall submit a written request to the division to revise a license at least 30 days prior to any change of address, executive director, clinical oversight staff, facility, or licensed program service. The division will determine if the requested revision can be approved or if the change is significant enough to require the submission of an application for license renewal by the licensee.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.18(125,135) Deemed status.**

**155.18(1) Accreditation.** The committee shall approve a license under deemed status for an applicant accredited by a recognized national accreditation body when the committee determines that the accreditation is for the same licensed program services as those addressed by these rules and when such accreditation is consistent with these rules.

a. An applicant for a license under deemed status shall submit a copy of the entire accreditation body survey or inspection report, certificate of accreditation, accreditation conditions, and corrective action requirements and plans with the applicant's application.

b. The committee may accept the division's review of an accreditation body's survey or inspection report, certificate of accreditation, and conditions or corrective action plans as meeting the requirements for inspection for those licensed program services described in these rules.

c. An applicant for a license under deemed status shall be licensed only for licensed program services that are described in these rules.

d. A program licensed under deemed status shall be licensed for the same period of time as that for which the program is accredited, up to three years.

**155.18(2) *National accreditation bodies.*** The national accreditation bodies recognized for the purposes of licensure under deemed status are:

a. The Joint Commission.

b. The Council on Accreditation of Rehabilitation Facilities (CARF).

c. The Council on Accreditation of Children and Family Services (COA).

d. The American Osteopathic Association (AOA).

**155.18(3) *Credentials and expectations of accreditation bodies.*** The accreditation credentials of an accreditation body shall specify the types of organizations, programs and services the body accredits.

**155.18(4) *Responsibilities of programs licensed under deemed status.***

a. A program licensed under deemed status shall meet all requirements of these rules and all applicable laws and regulations.

b. A program licensed under deemed status may submit an application for licensure of licensed program services covered by these rules that are not covered by the accreditation.

**155.18(5) *Rights and responsibilities of committee and department.*** The committee and the department shall retain the following responsibilities and rights for deemed status applicants and licensees:

a. The department may inspect the applicant or licensee.

b. The division shall investigate complaints in accordance with these rules and recommend and require corrective action or other sanctions. Complaints, findings, and required corrective action may be reported to the accreditation body.

c. The committee shall review and act upon a license under deemed status when complaints have been founded, when the national accreditation body identifies noncompliance with accreditation, when accreditation expires without renewal, or when accreditation is sanctioned, modified, terminated, withdrawn, suspended or revoked.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.19(125,135) *Funding.*** The issuance of a license shall not be construed as a commitment on the part of either the state or federal government to provide funds to such licensee.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.20(125,135) *Inspection.*** An applicant or licensee agrees as a condition of licensure:

**155.20(1)** To permit properly designated representatives of the department to enter into and inspect any and all programs and facilities for which a license has been applied or issued to verify information contained in the application or to ensure compliance with all laws, rules, and regulations relating thereto, during all hours of operation of said applicant or licensee and at any other reasonable hour.

**155.20(2)** To permit properly designated representatives of the department to audit and collect statistical data from all records maintained by the applicant or licensee. An applicant or licensee that does not permit inspection by the department or examination of all records, including financial records, records pertaining to methods of administration, general and special dietary programs, and the disbursement of medications and methods of supply, and any other records the committee deems relevant, shall not be licensed.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.21(125,135) General standards for all programs.** The following standards shall apply to all programs. For programs for which both the general standards and specific standards apply, both sets of standards shall be met.

**155.21(1) Governing body.** The program shall have a formally designated governing body that complies with Iowa Code chapter 504 and that is the ultimate authority for program operations.

*a.* The governing body shall develop and adopt written bylaws and policies that define the powers and duties of the governing body, its committees, its advisory groups, and the executive director. These bylaws and policies shall be reviewed and revised by the governing body as necessary.

*b.* The bylaws shall minimally specify the following:

- (1) The type of membership;
- (2) The term of appointment;
- (3) The frequency of meetings;
- (4) The attendance requirements; and
- (5) The quorum necessary to transact business.

*c.* The governing body shall maintain minutes of all meetings, and the minutes shall be available for review by the department and shall include, but not necessarily be limited to:

- (1) Date of the meeting;
- (2) Names of members attending;
- (3) Topics discussed; and
- (4) Decisions reached and actions taken.

*d.* The duties of the governing body shall include, but may not be limited to:

- (1) Appointment of a qualified executive director, who shall have the responsibility and authority for the management of the program in accordance with the governing body's established policies;
- (2) Establishment of effective controls to ensure that quality services are provided;
- (3) Review and approval of the program's annual budget; and
- (4) Approval of all contracts.

*e.* The governing body shall approve policies and procedures for the effective operation of the program.

*f.* The governing body shall be responsible for all funds, equipment, and supplies and the facility in which the program operates. The governing body shall be responsible for the appropriateness and adequacy of services provided by the program.

*g.* The governing body shall at least annually prepare a report, which shall include, but may not be limited to:

- (1) The name, address, occupation, and place of employment of each governing body member;
- (2) Disclosure of any family relationship a member of the governing body has with a program staff member;
- (3) The names and addresses of any owners or controlling parties whether they are individuals, partnerships, a corporation body, or a subdivision of other bodies;
- (4) Disclosure of any potential conflict of interest a member of the governing body may have.

*h.* The governing body shall ensure that the program has malpractice, liability and workers' compensation insurance for all staff and a fidelity bond that covers all staff.

**155.21(2) Executive director.** The executive director shall have primary responsibility for program operations. The duties of the executive director shall be clearly defined in accordance with the policies established by the governing body.

**155.21(3) Clinical oversight.** The program shall designate a treatment supervisor to oversee provision of licensed program services.

**155.21(4) Policies and procedures manual.** The program shall maintain and implement a written policies and procedures manual that documents the program's compliance with these rules. The manual shall describe the program's licensed program services and related activities, specify the policies and procedures to be followed, and govern all staff.

*a.* The manual shall have a table of contents.

b. Revisions to the manual shall be entered with the date and with the name and title of the staff person making the revisions.

**155.21(5) Staff development and training.** The program's policies and procedures shall establish a staff development and training plan that encompasses all staff and all licensed program services, considers the professional continuing education requirements of certified and licensed staff, and is available to all staff.

a. The program shall designate a staff person responsible for the staff development and training plan.

b. The staff person responsible for the staff development and training plan shall conduct an annual needs assessment.

c. The staff development and training plan shall describe orientation for new staff which includes an overview of the program and licensed program services, confidentiality, tuberculosis and blood-borne pathogens, including HIV/AIDS, and culturally and environmentally specific information. Orientation shall also address the specific responsibilities of each staff person and community resources specific to the staff person's responsibilities.

d. The staff development and training plan shall address training when program operations or licensed program services change.

e. The staff development and training plan may include on-site training activities. The program shall maintain minutes of on-site training that include the name and date of the training, the training topic, the name and title of the trainer, and the names of staff attending the training.

**155.21(6) Data reporting.** The program's policies and procedures shall describe how the program reports required data to the division in accordance with department requirements and processes.

**155.21(7) Fiscal management.** The program's policies and procedures shall ensure proper fiscal management, which shall include:

a. The preparation and maintenance of an annual written budget, which shall be reviewed and approved by the governing body prior to the beginning of the budget year.

b. A fiscal management system maintained in accordance with generally accepted accounting principles, including internal controls to reasonably protect program assets. This shall be verified by an annual independent fiscal audit of the program by the state auditor's office or a certified public accountant based on an agreement entered into by the governing body. A program with an annual budget of \$100,000 or less shall conduct a fiscal audit no less than every three years.

c. An insurance program that provides for the protection of the physical and financial resources of the program and provides coverage for all people, buildings, and equipment. The insurance program shall be reviewed annually by the governing body.

**155.21(8) Personnel.** The program shall have personnel policies and procedures.

a. Personnel policies and procedures shall address:

- (1) Recruitment and selection of staff;
- (2) Wage and salary administration;
- (3) Promotions;
- (4) Employee benefits;
- (5) Working hours;
- (6) Vacation and sick leave;
- (7) Lines of authority;
- (8) Rules of conduct;
- (9) Disciplinary actions and termination;
- (10) Methods for handling cases of inappropriate patient care;
- (11) Work performance appraisal;
- (12) Staff accidents and safety;
- (13) Staff grievances;
- (14) Prohibition of sexual harassment;
- (15) Implementation of the Americans with Disabilities Act;
- (16) Implementation of the Drug-Free Workplace Act;

(17) Use of social media; and

(18) Implementation of equal employment opportunity.

*b.* The program shall have for each position and each staff person a written job description that describes the duties of each position and staff and the qualifications required for each position.

(1) A staff person providing screening, OWI evaluation, assessment or treatment services in accordance with these rules shall be qualified as an addictive disorder professional by meeting at least one of the following conditions:

1. Be certified or licensed as a substance use disorder or problem gambling counselor by a national or state organization approved by the division.

2. Be licensed as a marital and family therapist or a mental health counselor under Iowa Code chapters 154D and 147, an independent social worker under Iowa Code chapters 154C and 147, or another independent professional authorized by the Iowa Code to diagnose and treat mental disorders as specified in the most current Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association.

3. Be licensed as a master social worker under Iowa Code chapters 154C and 147.

4. Be licensed as a bachelor social worker under Iowa Code chapters 154C and 147.

5. Be temporarily or provisionally certified or licensed as allowed under a certification or license acceptable to the division. Such staff person must meet all requirements of the temporary or provisional certification or license, must be supervised by a staff person meeting one of the requirements of paragraphs “1” to “4” above, and must be fully certified or licensed within two years of the date on which the person began to provide licensed program services.

6. A staff person employed on and after July 1, 2010, who is not qualified as described in any of the paragraphs “1” to “5” above shall be deemed qualified while the person is in the process of being certified or licensed under a certification or license acceptable to the division. Such staff must meet the requirements of the certification or licensure process, must be supervised by a staff person meeting one of the requirements of paragraphs “1” to “4” above, and must be fully certified or licensed within two years of the date on which the person began to provide licensed program services. The two-year time frame is continuous from the person’s date of first employment by the program, including if the person changes employment from one program to another.

7. A person employed before July 1, 2010, and continuously since that date at a program licensed pursuant to this chapter, who is not qualified as described in any of the paragraphs “1” to “5” above, shall be deemed qualified as long as such person remains employed by that program and that program remains licensed. Such staff shall maintain a minimum of 30 hours of training every two years, including a minimum of 3 hours of ethics training, and shall be supervised by a staff person meeting at least one of the conditions of paragraphs “1” to “4” above.

(2) The program shall review job descriptions annually and whenever there is a change in a position’s duties or required qualifications.

(3) The program shall include job descriptions in the personnel section of the policies and procedures manual.

*c.* The program shall conduct a written evaluation of job performance with each staff person at least annually. The evaluation shall include the opportunity for the staff person to comment.

*d.* The program shall maintain a personnel record on each staff person. The record shall contain, as applicable:

(1) Verification of training, experience, qualifications, and professional credentials;

(2) Job performance evaluations;

(3) Incident reports;

(4) Disciplinary action taken; and

(5) Documentation of review of and agreement to adhere to confidentiality laws and regulations.

This review and agreement shall occur prior to the staff person’s assumption of duties.

*e.* The personnel policies and procedures shall ensure confidentiality of personnel records and shall specify staff authorized to have access to personnel information.

*f.* The program shall notify the division in writing within ten days of being informed that a staff person has been sanctioned or disciplined by a certifying or licensing body. Such notice shall include the sanction or discipline order.

**155.21(9)** *Child abuse, dependent adult abuse and criminal history background checks.* The program's policies and procedures shall address child abuse, dependent adult abuse and criminal history background checks.

*a.* The program shall prohibit mistreatment, neglect, or abuse of children and dependent adults and shall specify reporting and enforcement procedures. Alleged violations shall be reported immediately to the program's executive director and appropriate department of human services personnel. Policies and procedures on reporting alleged violations shall be in compliance with subrule 155.21(10). A staff person found to be in violation of Iowa Code sections 232.67 through 232.70, as substantiated by a department of human services investigation, shall be subject to the program's policies concerning termination.

*b.* For each staff person working with juveniles as set forth in Iowa Code section 125.14A or with dependent adults as set forth in Iowa Code chapter 235B, the personnel record shall contain:

(1) Documentation of a criminal history background check with the Iowa division of criminal investigation on all new staff applicants. The background check shall include asking whether the applicant has been convicted of a crime.

(2) A written, signed and dated statement furnished by a new staff applicant which discloses any substantiated report of child abuse, neglect or sexual abuse or dependent adult abuse.

(3) Documentation of a check prior to permanent acceptance of a person as staff, with the Iowa central registry for any substantiated reports of child abuse, neglect or sexual abuse pursuant to Iowa Code section 125.14A or substantiated reports of dependent adult abuse for all staff hired or accepted on or after July 1, 1994, pursuant to Iowa Code chapter 235B.

*c.* A person who has a record of a criminal conviction or founded child abuse report or founded dependent adult abuse report shall not be hired or accepted as staff unless an evaluation of the crime or founded child abuse or founded dependent adult abuse has been made by the department of human services which concludes that the crime or founded child abuse or founded dependent adult abuse does not merit prohibition of employment. If a record of criminal conviction or founded child abuse or founded dependent adult abuse does exist, the person shall be offered the opportunity to complete and submit Form 470-2310, Record Check Evaluation. In its evaluation, the department of human services shall consider the nature and seriousness of the crime or founded abuse in relation to the position sought, the time elapsed since the commission of the crime or founded abuse, the circumstances under which the crime or founded abuse was committed, the degree of rehabilitation and the number of crimes or founded abuses committed by the person involved.

*d.* A staff person providing screening, OWI evaluation, assessment or treatment in accordance with this chapter shall complete two hours of training on identification and reporting of child abuse and dependent adult abuse within six months of initial employment and at least two hours of additional training every five years thereafter.

**155.21(10)** *Patient records.* The program's policies and procedures shall describe compilation, storage and dissemination of patient records and release or disclosure of information.

*a.* The policies and procedures shall ensure that:

(1) The program protects the patient record against loss, tampering or unauthorized disclosure of information;

(2) The content and format of patient records are uniform;

(3) All entries in the patient record are in chronological order, signed, dated and legible. When records are maintained electronically, a staff identification code number authorizing access shall be accepted in lieu of a signature;

(4) Each entry in the patient record is made in permanent ink, by typewriter, or by computer; and

(5) Entries in the patient record use language consistent with generally accepted standards of practice and do not include abstract terms, technical jargon or slang.

*b.* The program shall provide adequate physical facilities for the secure storage, processing and handling of patient records.

c. Appropriate patient records shall be readily accessible to staff as specifically authorized by program policy.

d. The program shall appropriately maintain and dispose of patient records. Patient records shall be maintained for not less than seven years from the date they are officially closed.

e. Each file cabinet or storage area containing patient records shall be locked.

f. The program shall release or disclose information on individuals seeking program services or on patients in strict accordance with the Health Insurance Portability and Accountability Act (HIPAA) and state and federal confidentiality laws, rules and regulations.

(1) The confidentiality of substance use disorder patient records and information is protected by HIPAA and the regulations on confidentiality of alcohol and drug abuse patient records, 42 CFR Part 2, which implement federal statutory provisions, 42 U.S.C. 290dd-3 applicable to alcohol abuse patient records, and 42 U.S.C. 290ee-3 applicable to drug abuse patient records.

(2) The confidentiality of problem gambling patient records and information is protected by HIPAA, Iowa Code chapter 228 and Iowa Code section 22.7(35).

g. A program that provides licensed program services via electronic means shall inform the patient of the limitations and risks associated with such services and shall document in the patient record that such notice has been provided.

h. Upon receipt of a properly executed written release of information or authorization to disclose signed by the patient, the program shall release patient records in a timely manner. A program shall not refuse to release patient records related to continuation of care solely because payment has not been received. A program may refuse to release patient records that are unrelated to continuation of care if payment has not been received. A program may refuse to file the reporting form required by 641—subrule 157.3(1), “Notice Iowa Code 321J—Confidential Medical Record,” reporting screening, evaluation, and treatment completion, if payment has not been received for such services.

**155.21(11) Assessment and admission.** The program’s policies and procedures shall address screening, assessment, referral and admission and documentation of such activities in the patient record.

a. The program shall conduct an assessment with each patient prior to admission unless the patient’s current risk factors indicate a need for immediate admission.

(1) If the program admits a patient based on a screening or initial assessment that indicates the patient requires immediate admission, that screening or initial assessment must be updated and expanded to a full assessment when the patient’s current risk factors are stabilized.

(2) The assessment shall be documented in the patient record and shall be organized in a manner that supports development of a treatment plan by the program or by any program to which the patient is referred.

b. The program shall implement a uniform assessment process that describes:

(1) The information to be gathered;

(2) Procedures for accepting a referral from another program, agency or organization;

(3) Procedures for referring a patient to another program, agency or organization.

c. A substance use disorder treatment program, problem gambling treatment program, or substance use disorder and problem gambling treatment program shall update the assessment on an ongoing basis, when clinically indicated, and within the periods of time specified for each level of care in the management-of-care review process.

d. The results of each assessment shall be clearly explained to the patient, and to the patient’s family when appropriate, and such explanation shall be documented in the patient record.

e. At the time of admission, a substance use disorder treatment program, problem gambling treatment program, or substance use disorder and problem gambling treatment program shall document that the patient has been informed of:

(1) The general nature and goals of the program;

(2) Rules governing patient conduct and infractions that can lead to disciplinary action or discharge from the program;

(3) The hours during which services are available;

(4) The costs to be borne by the patient;

- (5) Patient rights and responsibilities;
- (6) Confidentiality laws, rules and regulations; and
- (7) Safety and emergency procedures.

**155.21(12) Treatment plans.** The policies and procedures for substance use disorder treatment programs, problem gambling treatment programs, and substance use disorder and problem gambling treatment programs shall describe the program's uniform process for developing individualized treatment plans based on ongoing assessment and documentation of such plans in the patient record.

a. Staff shall initiate development of the treatment plan as soon after the patient's admission as is clinically feasible and within the period of time between admission and the review date specified for that level of care in the management-of-care review process.

b. The treatment plan shall minimally contain:

- (1) A summary of assessment findings;
- (2) Patient short- and long-term goals;
- (3) The type and frequency of planned treatment activities;
- (4) The staff responsible for the patient's treatment; and
- (5) Culturally and environmentally specific considerations.

c. Staff shall develop each treatment plan in partnership with the patient, with patient participation documented in the patient record. The treatment plan shall be written in a manner clearly understandable to the patient. Staff shall give the patient a copy of each treatment plan. The patient and staff shall review and revise the treatment plan when clinically indicated and in accordance with the time frames specified in the management-of-care review process.

d. Treatment plan reviews shall be based on ongoing assessment and shall specify the indicated level of care and licensed program services and any revision of treatment plan goals. The date of the review and any revision of the treatment plan shall be documented in the patient record.

**155.21(13) Progress notes.** The policies and procedures for substance use disorder treatment programs, problem gambling treatment programs, and substance use disorder and problem gambling treatment programs shall describe the program's uniform process for reviewing a patient's current status and progress in meeting treatment plan goals and documenting such review in the patient record.

a. Progress notes shall include the date each service was provided or observation was made and the name and title of the staff person providing each service.

b. Staff shall enter a progress note following each individual counseling session.

c. Staff shall enter a summary progress note at least weekly for group counseling sessions.

d. Progress notes that involve subjective interpretations of a patient's status or progress should be supplemented with a description of the behavioral observations that were the basis for the interpretation.

**155.21(14) Patient record contents.** The program's policies and procedures shall require that a record be maintained for each patient and shall specify the contents of the patient record.

a. The patient record shall include:

- (1) Any screening;
- (2) Each assessment;
- (3) Results of any physical examination or laboratory test;
- (4) Admission information;
- (5) Any report from a referring source or outside resource;
- (6) Notes from any case conference, consultation, care coordination or case management;
- (7) Any correspondence related to the patient, including letters, electronic communications and telephone conversations;
- (8) Any treatment consent form;
- (9) Any release of information or authorization to disclose;
- (10) Notes on any service provided; and
- (11) Any incident report.

b. For substance use disorder treatment programs, problem gambling treatment programs, and substance use disorder and problem gambling treatment programs, the patient record shall also include:

- (1) Treatment plans;

- (2) Management-of-care reviews;
- (3) Medication records, which shall allow for the monitoring of all medications administered and self-administered and detection of adverse drug reactions;
- (4) Progress notes;
- (5) Discharge summaries completed within 30 days of discharge, which shall be sufficiently detailed to identify the types of services the patient received, action taken to address specific problems identified, and plans for services and referrals postdischarge.

*c.* For problem gambling treatment programs and substance use disorder and problem gambling treatment programs, the patient record shall also include documentation of financial counseling services that assist problem gambling patients in preparing a budget and addressing financial debt options, including restitution and bankruptcy.

**155.21(15) Drug screening.** The program's policies and procedures shall address collection of drug-screening specimens and utilization of drug-screening results. Such policies may state that the program does not conduct drug screening.

*a.* A specimen obtained from a patient shall be collected under direct supervision and analyzed in accordance with program policies, or the program shall have a policy in place to reduce the patient's ability to alter the drug screening.

*b.* Any laboratory used by the program for drug screening and analysis shall comply with federal and state requirements.

*c.* A program conducting on-site drug screening shall comply with the Clinical Laboratory Improvement Act regulations.

*d.* The manner in which drug-screening results are utilized shall be documented in the patient record.

**155.21(16) Medical and mental health services.** The program's policies and procedures shall address patient medical and mental health conditions.

*a.* In addition to assessment of biomedical conditions and complications as described in the ASAM criteria, the program shall take a medical history and perform a physical examination and necessary laboratory tests as follows for patients admitted to the level of care specified:

(1) Medically managed intensive inpatient treatment and medically monitored intensive inpatient treatment: within 24 hours of admission.

(2) Clinically managed high-intensity residential treatment and clinically managed medium-intensity residential treatment: within 7 days of admission.

(3) Clinically managed low-intensity residential treatment: within 21 days of admission.

(4) Crisis stabilization services and opioid treatment program services: within 24 hours of admission.

*b.* A program may accept a medical history or physical examination from a qualified source if the history or examination was completed no more than 90 days prior to the patient's current admission.

*c.* In addition to assessment of emotional, behavioral, and cognitive conditions and complications as described in the ASAM criteria, a program may accept a mental health history from a qualified source if the history was completed no more than three days prior to the patient's current admission.

**155.21(17) Emergency services.** The program's policies and procedures shall address the availability of emergency services for substance use disorders and medical and mental health conditions.

*a.* Emergency services shall be available 24 hours a day, seven days a week.

*b.* Emergency services may be provided by the program or by any other qualified individual, institution, facility, or other legal entity.

*c.* The program shall communicate the availability of emergency services by posting notice at facilities, having a recorded message on the program's telephone system, posting notice on the program's Web site and through program materials.

**155.21(18) Medication control.** The program's policies and procedures shall describe how medications are administered or self-administered in accordance with federal, state and local laws, rules and regulations. Such policies may state that the program does not conduct medication administration or self-administration.

*a.* Staff authorized to administer medications shall be qualified, and a current list of such staff shall be maintained. The following health professionals are designated by rule 657—8.32(124,155A) as qualified individuals to whom a prescriber can delegate the administration of medications:

(1) Persons who have successfully completed a medication administration course reviewed by the board of pharmacy.

(2) Advanced emergency medical technicians and paramedics.

(3) Licensed physician assistants.

(4) Licensed pharmacists.

(5) Nurses, interns or other qualified individuals delegated the responsibility to administer medications by a prescriber licensed by the appropriate state board to administer medications to patients, in accordance with Iowa Code section 155A.4(2) “c.”

*b.* Medication shall be administered only in accordance with the instructions of the attending prescriber. The type and amount of the medication, the time and date, and the staff person administering the medication shall be documented in the patient record.

*c.* Self-administration of medication shall be observed by a staff person who has been oriented to the program’s policies and procedures on self-administration. Self-administration of medication shall be permitted only when the patient’s medication is clearly labeled. The policies and procedures on self-administration shall include:

(1) Medications are ordered or prescribed by a prescriber.

(2) The prescriber agrees that the patient can self-administer the medication.

(3) The medication taken and how and when the medication is taken are documented in the patient record.

*d.* Prescription medication shall not be administered to or self-administered by a patient without a written order signed by a prescriber. All prescribed medications shall be clearly labeled indicating the patient’s full name, the prescriber’s name, the prescription number, and the name and strength of the medication, the dosage, the directions for use, and the date of issue; and the name, address and telephone number of the pharmacy or prescriber issuing the medication. Medications shall be packaged and labeled according to state and federal guidelines.

*e.* If a medication the patient brings to the program is not used, it shall be packaged, sealed and stored. The sealed package of medication shall be returned to the patient, family or designee at the time of discharge.

*f.* Accountability and control of medications.

(1) There shall be a specific routine for medication administration, indicating dose schedules and standardization of abbreviations.

(2) There shall be specific methods for control and accountability of medication products throughout the program.

(3) The staff person in charge of medications shall provide for monthly inspection of all storage units.

(4) Prescription medication containers having soiled, damaged, illegible, or makeshift labels shall be returned to the issuing pharmacist, pharmacy, or prescriber for relabeling or disposal.

(5) Unused prescription medication prescribed for a patient who leaves a program without the patient’s medication shall be destroyed by a staff person with a staff witness, and a notation shall be made in the patient record. When a patient is discharged or leaves the program, medication currently being administered shall be sent, in the original container, with the patient or with a responsible agent, as approved by a prescriber.

*g.* Medication storage shall be maintained in accordance with the security requirements of federal, state and local laws.

(1) All medication shall be maintained in locked storage. Controlled substances shall be maintained in a locked box within the locked cabinet.

(2) Medications requiring refrigeration shall be kept in a refrigerator and separated from food and other items.

(3) Disinfectants and medication for external use shall be stored separately from internal and injectable medications.

(4) The medication for each patient shall be stored in the original container.

(5) All poisonous or caustic medication shall be plainly labeled, stored separately from other medication in a specific well-illuminated cabinet, closet, or storeroom and made accessible only to authorized staff.

*h.* Prescription medication provided to a patient shall be dispensed only from a licensed pharmacy in the state of Iowa in accordance with the pharmacy laws in the Iowa Code, or from a licensed pharmacy in another state according to the laws of that state, or by a licensed prescriber.

*i.* Prescription medication prescribed for one patient shall not be administered to or allowed to be in the possession of another patient.

*j.* Any unusual patient reaction to a medication shall be documented in the patient record and reported to the prescriber immediately.

*k.* Dilution or reconstitution and labeling of medication shall be done only by a licensed pharmacist.

**155.21(19) *Management of care and discharge planning.*** The program's policies and procedures shall use the ASAM criteria for assessment, admission, continued service and discharge decisions and shall describe management-of-care processes.

*a.* The program shall conduct care coordination to meet each patient's needs and promote effective outcomes.

*b.* The program shall conduct management-of-care activities at least minimally within the time frames specified for each level of care.

(1) Medically managed intensive inpatient treatment and medically monitored intensive inpatient treatment: daily.

(2) Clinically managed high-intensity residential treatment, clinically managed medium-intensity residential treatment, partial/day treatment, and intensive outpatient treatment: within seven days of the patient's admission.

(3) Clinically managed low-intensity residential treatment and outpatient treatment: within 30 days of the patient's admission.

*c.* The program shall coordinate patient care with other programs for any licensed program service for which the program is not licensed and with qualified individuals and organizations for any related services the program does not provide, such as crisis stabilization, medical services, mental health services, and social services.

*d.* At the time of the patient's admission, the program shall initiate discharge planning that includes a determination of the patient's continued need for licensed program services and development of a plan to address ongoing patient needs postdischarge.

**155.21(20) *Quality improvement.*** The program's policies and procedures shall describe a written quality improvement plan that encompasses all licensed program services and related program operations.

*a.* The program shall designate a staff person responsible for the quality improvement plan.

*b.* The quality improvement plan shall describe and document monitoring, problem-solving and evaluation activities designed to systematically identify and resolve problems and make continued improvements.

(1) The quality improvement plan shall include specific goals, objectives, and methods.

(2) The quality improvement plan shall include objective criteria to measure its effectiveness.

*c.* The program shall document whether the quality of patient care and program operations are improved and identified problems are resolved.

*d.* The program shall communicate quality improvement plan activities and findings to all staff.

*e.* Quality improvement plan findings are used to detect trends, patterns of performance, and potential problems that affect patient care and program operations.

*f.* The program shall evaluate the effectiveness of the quality improvement plan at least annually and revise the plan as necessary.

**155.21(21) Facility safety and cleanliness.** The program's policies and procedures shall ensure that program physical facilities are clean, well-ventilated, heated, free from vermin, and appropriately furnished and are designed, constructed, equipped, and maintained in a manner that provides for the physical safety of patients, concerned persons, visitors and staff.

- a. If required by local jurisdiction, the program shall maintain a certification of occupancy.
- b. During all phases of construction or alterations of buildings, the level of life safety shall not be diminished in any occupied area. The construction shall be in compliance with all applicable federal, state, and local codes. New construction shall comply with Iowa Code chapter 104A and all applicable federal and local codes and provide for safe and convenient use by disabled individuals.
- c. The program shall have specific policies and procedures for each of the following:
  - (1) Identification, development, implementation, maintenance and review of safety policies and procedures.
  - (2) Promotion and maintenance of an ongoing, facilitywide hazard surveillance program to detect and report all safety hazards.
  - (3) Safe and proper disposal of biohazardous waste.
  - (4) Stairways, halls, and aisles. Stairways, halls, and aisles shall be of substantial, nonslippery material, maintained in a good state of repair, adequately lighted and kept free from obstructions at all times. All stairways shall have handrails.
  - (5) Radiators, registers, and steam and hot water pipes, each of which shall have protective covering or insulation. Electrical outlets and switches shall have wall plates.
  - (6) For programs serving juveniles, fuse boxes that shall be under lock and key or six feet above the floor.
  - (7) Safe and proper handling and storage of hazardous materials.
  - (8) Prohibition against weapon possession; safe and proper removal of weapons.
  - (9) Swimming pools. Swimming pools shall conform to state and local health and safety rules and regulations. Adult supervision shall be provided at all times when juveniles are using the pool.
  - (10) Ponds, lakes, or any bodies of water located on or near the program and accessible to patients, concerned persons, visitors and staff.
  - (11) The written plan to be followed in the event of fire or tornado. The plan shall be conspicuously displayed at the facility.

**155.21(22) Therapeutic environment.** The program's policies and procedures shall provide for the establishment of an environment that preserves human dignity. Program facilities shall have adequate space for the program to provide licensed program services.

- a. The program's policies and procedures shall include a description of how all licensed program services are accessible to people with disabilities or how the program provides accommodations for people with disabilities. All programs shall comply with the Americans with Disabilities Act.
- b. The waiting or reception areas shall be of adequate size and be located so as to ensure patient confidentiality.
- c. Staff shall be available in waiting or reception areas to address the needs of the patients, potential patients, concerned persons, and visitors.
- d. The program's policies and procedures shall include:
  - (1) Possession and use of chemical substances in the facility.
  - (2) Prohibition of smoking.
  - (3) Prohibition of the sale or other provision of any tobacco product.
  - (4) Informing patients of their legal and human rights at the time of admission.
  - (5) Patient communication, opinions, or grievances, with a mechanism for redress.
  - (6) Prohibition of sexual harassment.
  - (7) Patient right to privacy.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.22(125,135) Inpatient and residential program facilities.** Specific standards apply for programs providing clinically managed low-intensity residential treatment, clinically managed

medium-intensity residential treatment, clinically managed high-intensity residential treatment, medically monitored intensive inpatient treatment, and medically managed intensive inpatient treatment. The program's policies and procedures shall address each standard.

**155.22(1) *Health and fire safety inspections.*** Inpatient and residential programs shall comply with applicable department of inspections and appeals rules; state fire marshal's rules and fire ordinances; and applicable local health, fire, occupancy, and safety regulations. The program shall maintain documentation of such compliance.

*a.* Inpatient and residential programs shall comply with standards for food service sanitation in accordance with rules promulgated by the department of inspections and appeals pursuant to 481—Chapter 32 and Iowa Code chapter 137B.

*b.* The use of door locks or closed sections shall be documented in written policies and procedures approved by the fire marshal and governing body.

**155.22(2) *Emergency preparedness.*** Inpatient and residential programs shall have a written emergency preparedness plan for continuation of licensed program services during an emergency or disaster.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.23(125,135) Specific standards for inpatient and residential programs.** The program's policies and procedures shall address each standard.

**155.23(1) *Hours of operation.*** Inpatient and residential programs shall operate seven days per week, 24 hours per day.

**155.23(2) *Meals.*** Inpatient and residential programs shall provide a minimum of three meals per day to each patient. A program where patients are not present during mealtime shall make provisions to make available the necessary meals. Menus shall be prepared in consultation with a dietitian. If patients are allowed to prepare meals, the program shall document conformity with all commonly accepted policies and procedures of state health rules and regulations and food hygiene.

**155.23(3) *Consultation with counsel.*** Patients shall have opportunity for and access to consultation with legal counsel at any reasonable time.

**155.23(4) *Visitation with family and friends.***

*a.* Each patient shall have opportunities for continuing contact with family and friends. If such contact is clinically contraindicated, it may be restricted. Any restriction shall be approved by the treatment supervisor and the executive director. Justification for the restriction shall be documented in the patient record. Any restriction shall be reviewed within three calendar days by the treatment supervisor, who may continue or end the restriction. Continuation of a restriction shall be documented in the patient record and shall be reviewed by the treatment supervisor every three calendar days.

*b.* The program shall establish visiting hours, which shall be conspicuously displayed at the facility and in such a manner to be visible to those entering the facility.

**155.23(5) *Telephone use.***

*a.* Each patient shall have opportunities to conduct private telephone conversations. If such conversations are clinically contraindicated, they may be restricted. Any restriction shall be approved by the treatment supervisor and the executive director. Justification for the restriction shall be documented in the patient record. Any restriction shall be reviewed within three calendar days by the treatment supervisor, who may continue or end the restriction. Continuation of a restriction shall be documented in the patient record and shall be reviewed by the treatment supervisor every three calendar days.

*b.* The program shall establish telephone hours. Emergency telephone conversations may be received at the time of the call or made when necessary.

**155.23(6) *Written communication.***

*a.* Each patient shall have opportunities to conduct private written communications. If such communications are clinically contraindicated, they may be restricted. Any restriction shall be approved by the treatment supervisor and the executive director. Justification for the restriction shall be documented in the patient record. Any restriction shall be reviewed within three calendar days by the treatment supervisor, who may continue or end the restriction. Continuation of a restriction shall be

documented in the patient record and shall be reviewed by the treatment supervisor every three calendar days.

*b.* The program shall establish access to written communications. The program shall not intercept, read, or censor the U.S. mail.

**155.23(7) Facility.** Inpatient and residential program facilities shall be appropriate for 24-hour occupancy.

*a.* Patient bedrooms shall include:

- (1) A sturdily constructed bed;
- (2) A clean mattress protected with a clean mattress pad;
- (3) A designated space for personal possessions and for hanging clothing in proximity to the sleeping area; and
- (4) Curtains or window blinds on any windows.

*b.* Sleeping areas.

- (1) Sleeping areas shall include doors for privacy.
- (2) Sleeping areas shall include partitioning or placement of furniture to provide privacy for all patients.

(3) The number of patients in a room shall be appropriate to the goals of the facility and to the ages, developmental levels, and clinical needs of the patients.

(4) Patients will be allowed to keep and display personal belongings and add personal touches to the decoration of their rooms in accordance with program policy.

(5) Staff shall respect the patient's right to privacy by knocking on the door of the patient's room before entering.

*c.* Clean linen, towels and washcloths shall be available minimally on a weekly basis and more often as needed.

*d.* Bathrooms.

(1) Bathrooms shall provide the facilities necessary for patients' personal hygiene and personal privacy, including:

1. A safe supply of hot and cold running potable water;
2. Clean towels, electric hand dryers or paper towel dispensers, toilet paper and soap;
3. Natural or mechanical ventilation capable of removing odors;
4. Tubs or showers that have slip-proof surfaces;
5. Partitions with doors which provide privacy if a bathroom has multiple toilet stools; and
6. Toilets, wash basins, and other plumbing or sanitary facilities that shall at all times be maintained in good operating condition.

(2) The ratio of bathroom facilities to inpatient and residential patients shall be one tub or shower head per 12 patients, one wash basin per 12 patients and one toilet per 8 patients.

(3) If the facility is coeducational, the program shall designate and so identify separate bathrooms for male and female patients.

*e.* The written plan to be followed in the event of fire or tornado shall be conspicuously displayed on each floor or in each area that patients, concerned persons, staff or visitors occupy at the facility and shall be explained to all inpatient and residential patients as a part of their orientation to the program. Fire drills shall be conducted at least monthly, and tornado drills shall be conducted monthly from April through October.

*f.* Written reports of annual inspections by state or local fire safety officials or private fire protection companies approved by the department shall be maintained with records of corrective action taken by the program based on recommendations articulated in such reports.

*g.* Every facility shall have an adequate water supply from an approved source. A municipal water system shall meet this requirement. Private water sources shall be tested annually.

*h.* The facility shall allow for the following:

- (1) Areas in which a patient may be alone when appropriate; and
- (2) Areas for private conversations with others.

*i.* Articles of grooming and personal hygiene that are appropriate to the patient's age, developmental level, and clinical state shall be readily available in a space reserved near the patient's sleeping area. If access to such articles is clinically contraindicated as approved by the treatment supervisor, a patient's personal articles may be kept under lock and key by staff. Staff shall explain to the patient the conditions under which the articles may be used. Justification for this restriction shall be documented in the patient record.

*j.* If patients maintain their own living quarters or perform day-to-day housekeeping activities, these responsibilities shall be clearly defined in writing and be a part of the patient orientation program. Staff assistance and equipment shall be provided as needed.

*k.* Patients shall be allowed to wear their own clothing in accordance with program rules. If clothing is provided by programs, it shall be suited to the climate and appropriate. A laundry room shall be accessible so patients may wash their clothing.

*l.* The program shall ensure that the use and location of noise-producing equipment and appliances, such as television sets, radios, computers, and CD players, do not interfere with clinical and therapeutic activities.

*m.* The program shall provide recreation and outdoor activities unless clinically contraindicated.

**155.23(8) Religion-culture.** Program policies and procedures shall include a written description of any religious orientation, religious practice, or religious restrictions. For juvenile patients, this description shall be provided to the patient, parent(s) or guardian, and placing agency at the time of admission in compliance with HIPAA and DHHS, 42 CFR Part 2, regulations on the confidentiality of alcohol and drug abuse patient records. For adult patients, this information shall be available during orientation. The patient shall have the opportunity to participate in religious activities and services in accordance with the patient's faith or that of a patient's parent(s) or guardian if the patient is a minor. The program shall, when necessary and reasonable, arrange transportation to religious activities.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.24(125,135) Specific standards for inpatient and residential programs licensed to provide services to juveniles.** Inpatient and residential programs that provide services to juveniles under the age of 18 shall also comply with the following standards. The program's policies and procedures shall address each standard.

**155.24(1) Personal possessions.** A program shall allow a patient to bring personal belongings. The program may limit or supervise the use of these items. The program shall ensure that each patient has adequate, clean, well-fitting, attractive, and seasonable clothing as required for health, comfort, and physical well-being. The clothes should be appropriate to the patient's individual needs, age, and sex.

**155.24(2) Family involvement.** The program shall encourage family involvement.

**155.24(3) Money.** Money earned or received as a gift or as an allowance by a patient shall be that patient's personal property. The program shall maintain a separate accounting system for patient money and shall address the patient's use of funds.

**155.24(4) Discipline.** The program's methods for control and discipline of juveniles shall be available to all staff and to the juvenile's family. Staff shall be in control of and responsible for discipline at all times. Discipline shall not include withholding basic necessities such as food, clothing, or sleep.

*a.* The program shall prohibit staff or patients from utilizing corporal punishment as a method of disciplining or correcting patients. This policy shall be communicated in writing to all staff.

*b.* The program's written policies on behavior expectations shall be made available to the patient and the patient's parent(s) or guardian, including:

(1) The general expectations of behavior, including the program's rules and practices.

(2) The range of reasonable consequences that may be used to deal with inappropriate behavior.

**155.24(5) Number of staff.** The program shall have staff coverage seven days per week, 24 hours per day. The number and qualifications of the staff will vary depending on the needs of the patients.

*a.* The program shall have a 24-hour supervisory consultation on-call system. During prime programming time, there shall be at least a one-to-eight staff-to-patient ratio.

b. Comprehensive residential facilities, as defined in 441—Chapter 115, shall have at least a one-to-five staff-to-patient ratio during prime programming time. A staff person shall be in each living unit at all times when juveniles are in residence, and there shall be a minimum of three nighttime checks between the hours of 12 midnight and 6 a.m. These checks shall be logged. The program's policies and procedures shall address nighttime checks.

c. The program shall define its prime programming time.

**155.24(6)** *Illness, accident, death, or absence from the inpatient or residential program.* The program shall notify the patient's parent(s), guardian, and responsible agency of any serious illness, incident involving serious bodily injury, absence, or removal of the juvenile from the facility, in compliance with HIPAA and DHHS, 42 CFR Part 2, regulations on the confidentiality of alcohol and drug abuse patient records. In the event of the death of a patient, the program shall immediately notify the prescriber, the patient's parent(s) or guardian, the placing agency, and the appropriate state authority.

**155.24(7)** *Educational services.* The program's educational program shall meet the requirements of the department of education and shall be available for each patient in accordance with abilities and needs. [ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.25(125,135) Specific standards for substance use assessment and OWI evaluation-only programs.** Programs that provide substance use assessment and OWI evaluation-only services shall also comply with the following standards. The program's policies and procedures shall address each standard.

**155.25(1)** A program conducting OWI evaluations on persons convicted of operating a motor vehicle while intoxicated (OWI) pursuant to Iowa Code section 321J.2 and on persons whose driver's license or nonresident operating privileges are revoked under Iowa Code chapter 321J shall do so in accordance with 641—Chapter 157.

**155.25(2)** The program shall make its fees public and shall inform potential patients of the fee at the time the assessment or evaluation is scheduled.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.26 to 155.33** Reserved.

**641—155.34(125,135) Specific standards for enhanced treatment services.** Substance use disorder and problem gambling treatment programs licensed to provide enhanced treatment services shall also comply with the following standards. The program's policies and procedures shall address each standard.

**155.34(1)** *Personnel.* The program shall meet the requirements in subrule 155.21(8). In addition:

a. The program's policies and procedures shall include job descriptions for positions that provide prevention services for substance use disorders and problem gambling, treatment for substance use disorders and problem gambling, services for medical conditions, and services for mental health conditions.

b. The program shall have staff on site who are qualified to provide prevention and early intervention services for substance use disorders and problem gambling, treatment for substance use disorders and problem gambling, services for medical conditions, and services for mental health conditions.

**155.34(2)** Reserved.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.35(125,135) Specific standards for opioid treatment programs.** All programs that use methadone or other medications approved by the Food and Drug Administration under Section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and by the state of Iowa for use in the treatment of opioid addiction shall comply with this rule, HIPAA, and Part II, Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, 42 CFR Part 8, Opioid Drugs in Maintenance and Detoxification Treatment of Opiate Addiction, effective May 18, 2001.

**155.35(1)** *Definitions.*

*“Accredited opioid treatment program”* means an opioid treatment program that is the subject of a current, valid accreditation from an accreditation body approved by the Substance Abuse and Mental Health Services Administration (SAMHSA).

*“Certification”* means the process by which SAMHSA determines that an opioid treatment program is qualified to provide opioid treatment under the federal opioid treatment standards.

*“Certification application”* means the application filed by an opioid treatment program for purposes of obtaining certification from SAMHSA.

*“Certified opioid treatment program”* means an opioid treatment program that is the subject of a current, valid certification.

*“Comprehensive maintenance treatment”* means maintenance treatment provided in conjunction with a comprehensive range of appropriate medical and rehabilitative services.

*“Detoxification treatment”* means the dispensing of an opioid agonist treatment medication in decreasing doses to an individual to alleviate adverse physical or psychological effects incident to withdrawal from the continuous or sustained use of an opioid drug and as a method of bringing the individual to a drug-free state within such a period.

*“Interim maintenance treatment”* means detoxification treatment for a period of more than 30 days but not in excess of 180 days.

*“Maintenance treatment”* means the dispensing of an opioid agonist treatment medication at stable dosage levels for a period in excess of 21 days in the treatment of an individual for opioid addiction.

*“Medical and rehabilitative services”* means services such as medical evaluations, counseling, and rehabilitative and other social programs (e.g., vocational and educational guidance, employment placement) that are intended to help patients in opioid treatment programs become or remain productive members of society.

*“Medical director”* means a physician who is licensed to practice medicine in accordance with Iowa Code chapter 148, 150, or 150A and who assumes responsibility for administering all medical services performed by the program, either by performing them directly or by delegating specific responsibility to authorized program physicians and health care professionals functioning under the medical director’s direct supervision.

*“Medication unit”* means a facility established as part of, but geographically separate from, an opioid treatment program from which licensed private practitioners or community pharmacists dispense or administer opioid agonist treatment medications or collect samples for drug testing or analysis.

*“Opiate addiction”* means a cluster of cognitive, behavioral, and physiological symptoms in which the individual continues use of opiates despite significant opiate-induced problems. Opiate dependence is characterized by an individual’s repeated self-administration of opiates that usually results in opiate tolerance, withdrawal symptoms, and compulsive drug-taking. Dependency may occur with or without the physiological symptoms of tolerance and withdrawal.

*“Opioid agonist treatment medication”* means any opioid agonist drug that is approved by the Food and Drug Administration under Section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) for use in the treatment of opiate addiction.

*“Opioid drug”* means any drug having an addiction-forming or addiction-sustaining liability similar to morphine or being capable of conversion into a drug having such addiction-forming or addiction-sustaining liability.

*“Opioid treatment”* means the dispensing of an opioid agonist treatment medication, along with providing a comprehensive range of medical and rehabilitative services, when clinically necessary, to an individual to alleviate the adverse medical, psychological, or physical effects incident to opiate addiction. This term encompasses detoxification treatment, short-term detoxification treatment, long-term detoxification treatment, maintenance treatment, comprehensive maintenance treatment, and interim maintenance treatment.

*“Opioid treatment program”* or *“OTP”* means a program or practitioner engaged in opioid treatment or interim maintenance treatment.

*“Patient”* means any individual who undergoes treatment in an opioid treatment program.

*“Program sponsor”* means the person responsible for the operation of the opioid treatment program and who assumes responsibility for all its employees, including any practitioners, agents, or other persons providing medical, rehabilitative, or counseling services at the program or any of its medication units. The program sponsor need not be a licensed physician but shall employ a licensed physician for the position of medical director.

*“Short-term detoxification treatment”* means detoxification treatment for a period not in excess of 30 days.

*“State authority”* means the Iowa department of public health, division of behavioral health, which regulates the treatment of opiate addiction with opioid drugs.

*“Treatment plan”* means a plan which outlines for each patient attainable short-term treatment goals that are mutually acceptable to the patient and the opioid treatment program and which specifies the services to be provided and the frequency and schedule for their provision.

**155.35(2) Required approvals.** All opioid treatment programs shall be licensed or approved by the committee and shall maintain all other approvals required by the Drug Enforcement Administration, Substance Abuse and Mental Health Services Administration and the Iowa board of pharmacy in order to provide services.

**155.35(3) Central registry system.** To prevent simultaneous enrollment of a patient in more than one program, all opioid treatment programs shall participate in a central registry as established by the division.

Prior to admission of an applicant to an opioid treatment program, the program shall submit to the registry the applicant’s name, birth date, and date of intended admission, and any other information required for the clearance procedure. No person shall be admitted to a program who is found by the registry to be participating in another such program. All opioid treatment programs shall report all admissions, discharges, and transfers to the registry immediately. All information reported to the registry from the programs and all information reported to the programs from the registry shall be treated as confidential in accordance with HIPAA and DHHS regulations on the confidentiality of alcohol and drug abuse patient records, 42 CFR Part 2.

*a. Definitions.* For purposes of this subrule:

*“Central registry”* means the system through which the Iowa department of public health, division of behavioral health, obtains patient identifying information about individuals applying for maintenance or detoxification treatment for the purpose of preventing an individual’s concurrent enrollment in more than one such program.

*“Opioid treatment program”* means a detoxification or maintenance treatment program which is required to report patient identifying information to the central registry and which is located in the state.

*b. Restrictions on disclosure.* A program may disclose patient identifying information to a central registry for the purpose of preventing the multiple enrollment of a patient only if:

- (1) The disclosure is made when:
  1. The patient is admitted for treatment; or
  2. The treatment is interrupted, resumed or terminated.
- (2) The disclosure is limited to:
  1. Patient identifying information; and
  2. Relevant dates of admission.

The program shall inform the patient of the required disclosure prior to admission.

*c. Use of information limited to prevention of multiple enrollments.* Any information disclosed to the central registry to prevent multiple enrollments shall not be redisclosed by the registry nor shall such information be used for any other purpose than the prevention of multiple enrollments unless so authorized by court order in accordance with HIPAA and 42 CFR Part 2.

*d. Permitted disclosure by the central registry to prevent a multiple enrollment.* If a program petitions the central registry and an identified patient is enrolled in another program, the registry may disclose:

- (1) The name, address, and telephone number of the program in which the patient is currently enrolled to the inquiring program; and

(2) The name, address, and telephone number of the inquiring program to the program in which the patient is currently enrolled. The programs may communicate as necessary to verify that no error has been made and to prevent or eliminate any multiple enrollment.

**155.35(4) Admission requirements.**

a. Prior to or at the time of a patient's admission to an opioid treatment program, the program shall conduct a comprehensive assessment so as to determine appropriateness for admission.

b. The program shall verify, to the extent possible, the patient's name, address, and date of birth.

c. The program physician shall determine and document in the patient's record that the patient is physiologically dependent on narcotic substances and has been physiologically dependent for at least one year prior to the patient's admission. A one-year history of addiction means that the patient was physiologically dependent on a narcotic at a time one year before the patient's admission to a program and was addicted for most of the year preceding admission.

(1) When physiological addiction cannot be clearly documented, the program physician or an appropriately trained staff member designated and supervised by the physician shall record in the patient's record the criteria used to determine the patient's current physiologic dependence and history of addiction. In the latter circumstance, the program physician shall review, date, and countersign the supervised staff member's evaluation to demonstrate the physician's agreement with the evaluation. The program physician shall make the final determination concerning a patient's physiologic dependence and history of addiction. The program physician shall also sign, date, and record a statement that the physician has reviewed all the documented evidence to support a one-year history of addiction and current physiologic dependence by the patient and that in the physician's reasonable clinical judgment the patient fulfills the requirements for admission to maintenance treatment. Before the program administers any medication to the patient, the program physician shall complete and record the statement documenting the patient's addiction and current physiologic dependence.

(2) When a patient has voluntarily left an opioid treatment program in good standing and seeks readmission within two years of discharge, the program shall document the following information about the patient:

1. Prior opioid treatment of six months or more; and

2. That in the physician's medical judgment, treatment of the patient is warranted. Such documentation shall be entered in the patient's record by the program physician.

d. The program shall collect a drug screening sample for analysis. Where dependence is substantially verified through other indicators, a negative drug screen will not necessarily preclude admission to the program.

e. Prior to a patient's admission, the program shall confirm with the central registry that the patient is not currently enrolled in another opioid treatment program.

f. If a potential patient has previously been enrolled in another program, the admitting program shall request from the previous program a copy of the patient's assessment data, treatment plan, and discharge summary including the type of or reason for discharge. All programs subject to these rules shall promptly respond to such a request upon receipt of a valid release of information.

g. A person under the age of 18 is required to have had two documented attempts at short-term detoxification or drug-free treatment to be eligible for maintenance treatment. A one-week waiting period is required after such a detoxification attempt, however, before an attempt is repeated. The program physician shall document in the patient's record that the patient continues to be, or is again, physiologically dependent on narcotic drugs.

h. Program staff shall ensure that a patient is voluntarily participating in the program, and the patient shall sign a Consent to Treatment Form.

i. Pregnant patients may be admitted to opioid treatment in accordance with the following provisions:

(1) Evidence of current physiological dependency is not needed if the program physician certifies the pregnancy and, in the physician's reasonable judgment, finds treatment to be justified. Documentation of all findings and justifications for admission shall be documented in the patient's record by the program physician prior to the administration of the initial dose of medication.

(2) Pregnant patients shall be offered comprehensive prenatal care. If the program cannot provide prenatal services, the program shall assist the patient in obtaining such services and shall coordinate ongoing care with the collateral provider.

(3) The program physician shall document that the patient has been informed of the possible risks to the unborn child from the use of medication and the risks of continued use of illicit substances.

(4) Should a program have a waiting list for admission to the program, pregnant patients shall be given priority.

**155.35(5) Placement, admission and assessment.** The program shall have written criteria for considering an individual for placement and admission. In addition, the program shall maintain current procedures to ensure that patients are admitted to maintenance treatment by qualified staff who have determined by using accepted medical criteria, such as those outlined in the Diagnostic and Statistical Manual for Mental Disorders, that the person is currently addicted to an opioid drug.

a. The program physician or a designee who is a qualified medical professional shall complete a medical evaluation and a current psychological/mental status evaluation of the patient prior to the administration of the initial dose of medication. If the history and current psychological/mental status evaluation is completed by an individual other than the program physician, the program shall document in the patient's case record that this information was reviewed by the program physician prior to administration of the initial dose of medication.

b. The medical evaluation of the patient shall include, but not be limited to:

- (1) A complete medical history;
- (2) An assessment of the patient's current psychological and mental status;
- (3) A physical examination, including examination for:
  1. Pulmonary, liver, or cardiac abnormalities;
  2. Infectious disease; and
  3. Dermatologic sequela of addiction;
- (4) Laboratory tests, including:
  1. Serological test for syphilis; and
  2. Urine screening for drugs;
- (5) An intradermal PPD (tuberculosis skin test) and review of tetanus immunization status; and
- (6) When indicated, an EKG, chest X-ray, pap smear, pregnancy test, sickle cell screening, complete blood count and white cell differential, multiphasic chemistry profile, routine and microscopic urinalysis, or other tests indicated by the patient's condition.

**155.35(6) Treatment plans.** Based upon the initial assessment, an individualized written treatment plan shall be developed and recorded in the patient's case record.

a. A treatment plan shall be developed and shall delineate the patient's immediate needs and the actions required to meet these needs.

b. The treatment plan shall be developed as soon after the patient's admission as is clinically feasible, but no later than 30 days following the patient's admission to an outpatient opioid maintenance treatment program.

c. Treatment plans shall be developed in partnership with the patient. Comprehensive treatment plans shall be reviewed by the primary counselor and the patient as often as necessary, but no less than every 90 days during the first year and semiannually each subsequent year for opioid treatment modalities. Treatment plans shall be reviewed by the program physician on an annual basis.

**155.35(7) Rehabilitative services.** The program shall have policies and procedures on the minimum attendance for rehabilitative services relative to the patient's progress and length of involvement in treatment. The minimum frequency of rehabilitative services shall occur at the same frequency as that of on-site dosing for patients receiving more than two take-home dosages a week in the first year. The minimum frequency for rehabilitative services for patients receiving two or fewer take-home dosages shall be weekly. The program shall provide rehabilitative services that are appropriate for the patient based on needs identified during the assessment process. A patient who does not comply with the program's rehabilitative service requirements shall be placed on a period of probation as defined by the program or shall be required to immediately increase the frequency of clinic attendance for medication

and rehabilitative services. If, during a period of probation, the patient continues to be in noncompliance with rehabilitation services, the program shall continue to increase the attendance requirement until daily attendance is obtained or until the patient complies with rehabilitative services. This requirement shall not preclude the program's ability to determine that discharge of a patient is warranted for therapeutic reasons or program needs.

**155.35(8) Medication administration.**

a. The program physician shall determine the patient's initial and subsequent dose of medication and on-site dosing schedule and shall assume responsibility for the amount of the narcotic drug administered or dispensed and shall record, date, and sign in each patient's case record each change in the dosage schedule. The physician shall directly communicate orders to the pharmacy or registered or licensed personnel supervising medication administration. The program physician may communicate such orders verbally; however, orders shall be reduced to writing and countersigned within 72 hours by the program physician.

b. The initial dose of medication shall not exceed 30 milligrams, and the total dose for the first day shall not exceed 40 milligrams, unless the program physician documents in the patient's case record that 40 milligrams did not suppress opiate abstinence symptoms. A patient transferring into the program or on a guest-dosing status may receive an initial dosage of no more than the last daily dosage authorized by the former or primary program.

(1) Medication shall be administered by a professional authorized by law.

(2) No medication shall be administered until the patient has completed admission procedures unless the patient enters the program on a weekend and the central registry cannot be contacted. If, in the clinical judgment of the program physician, a patient is experiencing an emergency situation, the admission procedures may be completed on the following workday.

c. Administration.

(1) Take-home medication shall be labeled in accordance with state and federal law and have childproof caps.

(2) A medication administration log shall be kept in the dosing area and in the patient's case record. The amount of medication administered and the signature of the staff member authorized to administer the medication shall also be included in the patient's case record. No dose shall be administered until the patient has been positively identified and the dosage amount has been compared with the currently ordered and documented dosage level.

(3) Ingestion shall be observed and verified by the staff person authorized to administer the medication.

(4) The program physician shall record, date, and sign in each patient's case record each change in the dosage schedule. Daily dosages of medications in excess of 100 milligrams shall be dispensed only with the approval of the program physician and shall be documented and justified in the patient's case record.

**155.35(9) Take-home or unsupervised medication use.**

a. Take-home medication may be given to patients who demonstrate a need for a more flexible schedule in order to enhance and continue rehabilitative progress. For patients receiving take-home medication, the program shall document the following requirements:

(1) Absence of recent abuse of drugs (narcotic or nonnarcotic), including alcohol;

(2) Regular attendance at the clinic;

(3) Attendance at a licensed or approved treatment program for rehabilitative services (e.g., programs are considered approved when licensed or approved in accordance with Iowa Code chapter 125);

(4) Absence of recent criminal activity;

(5) Stable home environment and social relationships;

(6) Active employment or participation in school or similar responsible activities related to employment, education or vocation; and

(7) Assurance that medication can be safely transported and stored by the patient for the patient's own use.

b. Prior to granting take-home privileges, the program physician shall document in the patient's case record that all the above criteria have been considered and that, in the physician's professional judgment, the risk of diversion or abuse is outweighed by the rehabilitative benefits to be derived.

c. If the patient meets the above criteria, the patient may receive take-home medication according to the following guidelines:

(1) During the first 90 days of treatment, the take-home supply is limited to a single dose each week;

(2) During the second 90 days of treatment, the take-home supply is limited to two doses per week;

(3) During the third 90 days of treatment, the take-home supply is limited to three doses per week;

(4) In the remaining months of the first year, a patient may be given a maximum six-day supply of take-home medication;

(5) After one year of continuous treatment, a patient may be given a maximum two-week supply of take-home medication;

(6) After two years of continuous treatment, a patient may be given a maximum one-month supply of take-home medication; and

(7) Take-home medication shall not be dispensed to patients in interim maintenance treatment or detoxification.

d. If a patient is unable to conform to the applicable mandatory schedule, a revised schedule may be permitted provided that the program receives an exception to these rules from the division and SAMHSA, when applicable. A copy of the written exception shall be placed in the patient's case record. The division will consider exceptions only in unusual circumstances. When a program is applying for less frequent pickups for patients, approval will be based on considerations in addition to distance if another program exists within 25 miles of the patient's residence.

e. Should a patient receiving take-home medication provide a drug screen that is confirmed either positive for substances or negative for the prescribed medication, the program shall ensure that, when test results are used, presumptive laboratory results are distinguished from results that are definitive.

(1) The program physician shall place the patient on three months' probation, as defined by the program, or increase the patient's frequency of clinic dosing after considering the patient's overall progress and length of involvement in the program.

(2) Should the patient provide a drug screen that is positive for substances or negative for medication during a period of probation, the program physician shall increase the patient's frequency of clinic attendance for dosage pickup for at least three months. If after the three-month period the patient meets the eligibility criteria, the patient may return to the previous take-home schedule.

f. Take-home or unsupervised dosages of medication in excess of 100 milligrams may be dispensed by the program physician when the need for those dosages is carefully reviewed and considered and justified in the patient's case record based on the physician's clinical judgment.

**155.35(10) Drug testing.** Each program shall establish policies and procedures for the collection of drug-screening specimens and utilization of results.

a. The program shall ensure that an initial drug-screening test or analysis is completed for each prospective patient and that at least eight additional random tests or analyses are performed on each patient during the patient's first year in maintenance treatment and that at least quarterly random tests or analyses are performed on each patient in maintenance treatment for each subsequent year. When a sample is collected from each patient for such a test or analysis, it shall be done in a manner that minimizes opportunity for falsification. Each test or analysis shall be analyzed for opiates, methadone, amphetamines, cocaine, and barbiturates. In addition, if any other drug or drugs have been determined by a program to be abused in that program's locality, or as otherwise indicated, each test or analysis must be analyzed for any of those drugs as well. Any laboratory that performs the testing required under this rule shall be in compliance with all applicable federal proficiency testing and licensing standards and all applicable state standards.

b. The program shall ensure that test results are not used as the sole criterion to force a patient out of treatment but are used as a guide to change treatment approaches. The program shall also ensure

that when test results are used, presumptive laboratory results are distinguished from results that are definitive.

**155.35(11) *Diversion prevention plan.***

*a.* The program shall develop a diversion identification and prevention plan that:

(1) Outlines the methods by which the program shall detect possible diversion of take-home medication; and

(2) Describes the actions to be taken when diversion is identified or suspected.

*b.* The program shall establish and implement proactive procedures to reduce the likelihood or possibility of diversion.

**155.35(12) *Interim maintenance treatment.***

*a.* An approved program may offer interim maintenance treatment when, due to capacity, the program cannot place the patient in a program offering comprehensive services within 14 days of the patient's application for admission.

*b.* An approved program may provide interim maintenance treatment only if the program also provides comprehensive maintenance treatment to which interim maintenance treatment patients may be transferred.

*c.* Interim maintenance treatment program approval.

(1) Before a public or nonprofit private narcotic treatment program may provide interim maintenance treatment:

1. The program must receive approval of both the U.S. Food and Drug Administration and the division of behavioral health; and

2. The program director must certify that the program seeking such authorization is unable to place patients in a public or private nonprofit program within a reasonable geographic area within 14 days of the patient's application for admission and that interim maintenance treatment will not reduce the capacity of the program's comprehensive maintenance treatment.

(2) Patients admitted to interim maintenance treatment shall be transferred to comprehensive maintenance treatment within 120 days of admission.

*d.* Minimum standards for interim maintenance treatment. The program may admit a patient who is eligible for comprehensive maintenance treatment to interim maintenance treatment if the patient cannot be placed in a public or private nonprofit comprehensive program within a reasonable geographic area and within 14 days of application for services. An initial drug screen and at least two other drug screens shall be taken from the patient during the maximum admission period of 120 days. A program shall establish and follow reasonable criteria for determining the transfer of patients to comprehensive maintenance treatment. These transfer criteria shall be in writing and available for inspection and shall include at a minimum a preference for the transfer of pregnant patients. Interim maintenance shall be conducted in accordance with all applicable federal regulations and state rules. The program shall notify the division when a patient begins interim treatment, when a patient leaves interim treatment, and when a patient transfers to comprehensive maintenance treatment. Such notifications shall be documented by the program in the patient's case record. All requirements for comprehensive maintenance treatment apply to interim maintenance treatment, with the following exceptions:

(1) The medication is required to be administered daily under observation;

(2) Take-home medication is not allowed;

(3) Initial and comprehensive treatment plans are not required;

(4) A primary counselor is not required to be assigned to the patient; and

(5) Interim maintenance treatment cannot be provided for longer than 120 days in any 12-month period.

**155.35(13) *Accreditation.*** All opioid treatment programs shall obtain and retain accreditation by a recognized national accreditation organization. The national accreditation bodies currently recognized as meeting committee criteria are:

*a.* The Joint Commission.

*b.* The Council on Accreditation of Rehabilitation Facilities (CARF).

*c.* The Council on Accreditation of Children and Family Services (COA).

d. The American Osteopathic Association (AOA).  
[ARC 1926C, IAB 4/1/15, effective 5/6/15]

#### TUBERCULOSIS (TB) SCREENING: HEALTH CARE WORKERS AND RESIDENTS

**641—155.36(125,135) Purpose.** The purpose of these rules is to outline procedures for conducting tuberculosis (TB) screening for health care workers and residents at substance use disorder and problem gambling treatment program facilities. Facilities will need to conduct a risk assessment to determine the risk classification of the facility and to identify appropriate screening criteria. The screening criteria are consistent with those of the U.S. Centers for Disease Control and Prevention (CDC), TB Elimination Division, as outlined in the MMWR December 30, 2005/Vol. 54/No. RR-17, “Guidelines for Preventing the Transmission of *Mycobacterium tuberculosis* in Health-Care Settings, 2005.”

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

**641—155.37(125,135) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Bacille Calmette-Guerin (BCG) vaccination*” means a vaccine for TB. BCG is used in many countries with a high prevalence of TB to prevent childhood tuberculosis meningitis and military disease. BCG is not generally recommended for use in the United States because of the low risk of infection with *Mycobacterium tuberculosis*, the variable effectiveness of the vaccine against adult pulmonary TB, and the vaccine’s potential interference with tuberculin skin test reactivity.

“*Baseline TB screening*” means the screening of staff and residents for latent tuberculosis infection (LTBI) and TB disease at the beginning of employment or upon admission to a facility. Baseline TB screening includes a symptom screen for all staff and residents and tuberculin skin tests (TSTs) or interferon-gamma release assay (IGRA) for *Mycobacterium tuberculosis* for those staff and residents with previous negative test results for *M. tuberculosis* infection.

“*Baseline TST*” or “*baseline IGRA*” means the TST or IGRA, respectively, that is administered at the beginning of employment to newly hired staff or upon admission to residents of facilities.

“*Boosting*” means a phenomenon in which a person has a negative TST (i.e., false-negative) result years after infection with *M. tuberculosis* and then a positive subsequent TST result. The positive TST result is caused by a boosted immune response of previous sensitivity rather than by a new infection (false-positive TST conversion). Two-step testing reduces the likelihood of mistaking a boosted reaction for a new infection.

“*Extrapulmonary TB*” means TB disease in any part of the body other than the lungs (e.g., kidney, spine, or lymph nodes).

“*Interferon-gamma release assay*” or “*IGRA*” means a whole-blood test that can aid in diagnosing *Mycobacterium tuberculosis* infection.

“*Laryngeal TB*” means a form of TB disease that involves the larynx and may be highly infectious.

“*Latent TB infection*” or “*LTBI*” means infection with *M. tuberculosis* without symptoms or signs of disease having manifested.

“*Mantoux method*” means a skin test performed by intradermally injecting 0.1 mL of purified protein derivative (PPD) tuberculin solution into the volar or dorsal surface of the forearm.

“*Pulmonary TB*” means TB disease that occurs in the lung parenchyma, usually producing a cough that lasts three weeks or longer. Pulmonary TB is usually infectious.

“*Purified protein derivative (PPD) tuberculin*” means a material used in diagnostic tests for detecting infection with *M. tuberculosis*.

“*Risk classification*” means the category on which the infection control team, or designated other, determines the setting’s TB risk classification is based, as a result of the TB risk assessment.

“*Serial screening*” refers to TB screening performed at regular intervals following baseline TB screening. Serial TB screening, also called annual or ongoing TB testing, consists of two components: (1) assessing for current symptoms of active TB disease, and (2) testing for the presence of infection with *M. tuberculosis* by administering either a TST or single IGRA.

“*Symptom screen*” means a procedure used during a clinical evaluation in which patients are asked if they have experienced any departure from normal in function, appearance, or sensation related to TB disease (e.g., cough).

“*TB patient*” means a person who had undiagnosed infectious pulmonary or laryngeal TB while in the facility during the preceding year. “TB patient” does not include persons with LTBI (treated or untreated), extrapulmonary TB disease, pulmonary, or laryngeal TB who have met criteria for noninfectiousness.

“*TB risk assessment*” means an initial and ongoing evaluation of the risk for transmission of *M. tuberculosis* in a particular health care setting.

“*TB screening*” means an administrative control measure in which evaluation for LTBI and TB disease is performed through baseline and serial screening of staff and residents of facilities.

“*TB screening plan*” means a plan that facilities develop and implement that comprises four major components: (1) baseline testing for *M. tuberculosis* infection, (2) serial testing for *M. tuberculosis* infection, (3) serial screening for signs or symptoms of TB disease, and (4) TB training and education.

“*Treatment for LTBI*” means treatment that prevents the progression of *M. tuberculosis* infection into TB disease.

“*Tuberculin skin test*” or “*TST*” means a diagnostic aid for finding *M. tuberculosis* infection. The Mantoux method is the recommended method to be used for the TST.

“*Tuberculosis*” or “*TB*” means the namesake member organism of *M. tuberculosis* complex and the most common causative infectious agent of TB disease in humans. In certain instances, the species name refers to the entire *M. tuberculosis* complex, which includes *M. bovis* and *M. african*, *M. microti*, *M. canetti*, *M. caprae*, and *M. pinnipedii*.

“*Tuberculosis disease*” or “*TB disease*” means a condition caused by infection with a member of the *M. tuberculosis* complex that has progressed to causing clinical (manifesting symptoms or signs) or subclinical (early stage of disease in which signs or symptoms are not present, but other indications of disease activity are present) illness.

“*Two-step tuberculin skin test*” or “*two-step TST*” means the procedure used for the baseline skin testing of persons who will receive serial TSTs to reduce the likelihood of mistaking a boosted reaction for a new infection.

[ARC 1926C, IAB 4/1/15, effective 5/6/15]

#### **641—155.38(125,135) Tuberculosis screening of staff and residents.**

**155.38(1) *TB risk assessment.*** Annually, each facility shall conduct a TB risk assessment to evaluate the risk for transmission of *M. tuberculosis*, regardless of whether a person with suspected or confirmed TB disease is expected to be encountered in the facility. The TB risk assessment shall be utilized to determine the types of administrative, environmental, and respiratory protection controls needed and serves as an ongoing evaluation tool of the quality of TB infection control and for the identification of needed improvements in infection control measures. The risk assessment shall include:

- a. The community rate of TB,
- b. The number of persons with infectious TB encountered in the facility, and
- c. The speed with which persons with infectious TB are suspected, isolated, and evaluated to determine if persons with infectious TB exposed staff or others in the facility. TB cases include persons who had undiagnosed infectious pulmonary or laryngeal TB while in the facility during the preceding year. This does not include persons with LTBI (treated or untreated), persons with extrapulmonary TB disease, or persons with pulmonary or laryngeal TB who have met criteria for noninfectiousness.

**155.38(2) *Facility risk classification.*** The infection control team or designated staff in a facility is responsible for determining the type of risk classification of the facility. The facility risk classification is used to determine the frequency of TB screening. The facility risk classification may change due to an increase or decrease in the number of TB cases during the preceding year.

- a. *Types of risk classifications.*
  - (1) “Low risk” means that a facility is one in which persons with active TB disease are not expected to be encountered and in which exposure to TB is unlikely.

(2) “Medium risk” means that a facility is one in which health care workers will or might be exposed to persons with active TB disease or to clinical specimens that might contain *M. tuberculosis*.

(3) “Potential ongoing transmission” means that a facility is one in which there is evidence of person-to-person transmission of *M. tuberculosis*. This classification is a temporary classification. If it is determined that this classification applies to a facility, the facility shall consult with the department’s TB control program.

*b. Classification criteria—low risk.*

(1) Inpatient settings with 200 or more beds: If a facility has fewer than six TB patients for the preceding year, the facility shall be classified as low risk.

(2) Inpatient settings with fewer than 200 beds: If a facility has fewer than three TB patients for the preceding year, the facility shall be classified as low risk.

(3) Outpatient, outreach, and home-based health care settings: If a facility has fewer than three TB patients for the preceding year, the facility shall be classified as low risk.

*c. Classification criteria—medium risk.*

(1) Inpatient settings with 200 or more beds: If a facility has six or more TB patients for the preceding year, the facility shall be classified as medium risk.

(2) Inpatient settings with fewer than 200 beds: If a facility has three or more TB patients for the preceding year, the facility shall be classified as medium risk.

(3) Outpatient, outreach, and home-based health care settings: If a facility has three or more TB patients for the preceding year, the facility shall be classified as medium risk.

*d. Classification criteria—potential ongoing transmission.* If evidence of ongoing *M. tuberculosis* transmission exists at a facility, the facility shall be classified as potential ongoing transmission, regardless of the facility’s previous classification.

**155.38(3)** *Baseline TB screening procedures for facilities.*

*a.* All facility staff members shall receive baseline TB screening upon hire. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) using a two-step TST or a single IGRA to test for infection with *M. tuberculosis*.

*b.* A staff member may begin working with patients after a negative TB symptom screen (i.e., no symptoms of active TB disease) and a negative TST (i.e., first step) or a negative IGRA. The second TST may be performed after the staff member starts working with patients.

*c.* A staff member with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless symptoms or signs of TB disease develop or unless recommended by a clinician. Treatment for LTBI should be considered in accordance with CDC guidelines.

*d.* A staff member with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, does not need another chest radiograph at the time of hire.

*e.* TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for staff with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., interferon-gamma (IFN-g)). All other staff should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

*f.* A second TST is not needed if the staff member has a documented TST result from any time during the previous 12 months. If a newly employed staff member has had a documented negative TST result within the previous 12 months, a single TST can be administered in the new setting. This additional TST represents the second stage of two-step testing. The second test decreases the possibility that boosting on later testing will lead to incorrect suspicion of transmission of *M. tuberculosis* in the setting.

g. Previous BCG vaccination is not a contraindication to having an IGRA, a TST or two-step skin testing administered. Health care workers with previous BCG vaccination should receive baseline and serial testing in the same manner as those without BCG vaccination. Evaluation of TST reactions in persons vaccinated with BCG should be interpreted using the same criteria for those not BCG-vaccinated. A health care worker's history of BCG vaccination should be disregarded when administering and interpreting TST results. Previous BCG vaccination does not cause a false-positive IGRA test result.

**155.38(4)** *Serial TB screening procedures for facilities.*

a. *Facilities classified as low risk.* After baseline testing of staff for infection with *M. tuberculosis*, additional TB screening of staff is not necessary unless an exposure to *M. tuberculosis* occurs.

b. *Facilities classified as medium risk.*

(1) After undergoing baseline testing for infection with *M. tuberculosis*, staff should receive TB screening annually (i.e., symptom screen for all staff members and testing for infection with *M. tuberculosis* for staff members with baseline negative test results).

(2) Staff members with a baseline positive or new positive test result for *M. tuberculosis* infection or documentation of previous treatment for LTBI or TB disease shall receive one chest radiograph result to exclude TB disease. Instead of participating in serial testing, staff should receive a symptom screen annually. This screen should be accomplished by educating the staff about symptoms of TB disease and instructing the staff members to report any such symptoms immediately to the occupational health unit. Treatment for LTBI should be considered in accordance with CDC guidelines.

c. *Facilities classified as potential ongoing transmission.* Testing for infection with *M. tuberculosis* may need to be performed every eight to ten weeks until lapses in infection control have been corrected and no additional evidence of ongoing transmission is apparent. The potential ongoing transmission classification should be used only as a temporary classification. This classification warrants immediate investigation and corrective steps. After a determination that ongoing transmission has ceased, the setting shall be reclassified as medium risk for a minimum of one year.

**155.38(5)** *Screening of staff who transfer to other facilities.*

a. *Staff transferring from a low-risk facility to another low-risk facility.* After a baseline result for infection with *M. tuberculosis* is established and documented, serial testing for *M. tuberculosis* infection is not necessary for staff transferring from a low-risk facility to another low-risk facility.

b. *Staff transferring from a low-risk facility to a medium-risk facility.* After a baseline result for infection with *M. tuberculosis* is established and documented, annual TB screening, including a symptom screen and TST or IGRA for persons with previously negative test results, should be performed for staff transferring from a low-risk facility to a medium-risk facility.

**155.38(6)** *Baseline TB screening procedures for residents of residential, inpatient, and halfway house facilities.*

a. TB screening is a formal procedure to evaluate residents for LTBI and TB disease. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) using a two-step TST or a single IGRA to test for infection with *M. tuberculosis*.

b. All residents shall be assessed for current symptoms of active TB disease upon admission. Within 72 hours of a resident's admission, baseline TB testing for infection shall be initiated unless baseline TB testing occurred within three months prior to the resident's admission.

c. Residents with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless symptoms or signs of TB disease develop or unless recommended by a clinician.

d. Residents with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, do not need another chest radiograph at the time of admission.

e. TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for residents with a documented history of TB disease, a documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a

baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., IFN-g). All other residents should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

*f.* A second TST is not needed if the resident has a documented TST result from any time during the previous 12 months. If a new resident has had a documented negative TST result within the previous 12 months, a single TST can be administered in the new setting. This additional TST represents the second stage of two-step testing. The second test decreases the possibility that boosting on later testing will lead to incorrect suspicion of transmission of *M. tuberculosis* in the setting.

*g.* After baseline TB screening is accomplished, serial TB screening of the residents is not recommended.

**155.38(7)** *Serial TB screening procedures for residents of residential, inpatient, and halfway house facilities.*

*a.* If a resident is discharged and readmitted to a facility and less than 12 months have passed since the last TB screening, residents should receive a symptom screen upon readmittance. This screen should be accomplished by educating the resident about symptoms of TB disease and instructing the resident to report any such symptoms immediately to the infection control team or designated other staff. If symptoms or signs of TB disease are documented, then a medical evaluation to include a chest X-ray to rule out TB disease is required.

*b.* If a resident is discharged and readmitted to a facility and more than 12 months have passed since the last TB screening, baseline TB screening should be repeated as outlined in subrule 155.38(6). [ARC 1926C, IAB 4/1/15, effective 5/6/15]

These rules are intended to implement Iowa Code sections 125.13, 125.21 and 135.150.

<sup>1</sup> Effective date of Ch 3 delayed by the Administrative Rules Review Committee 70 days from 8/2/78. Delay suspended by the Administrative Rules Review Committee at their meeting held on 9/11/78.

<sup>2</sup> Effective date of 643—3.35(125) delayed 70 days by the Administrative Rules Review Committee at its meeting held April 11, 1994; on June 15, 1994, the Committee voted to delay the rule until adjournment of the 1995 General Assembly.

CHAPTER 156  
LICENSURE STANDARDS FOR SUBSTANCE ABUSE TREATMENT PROGRAMS  
IN CORRECTIONAL FACILITIES

[Prior to 7/27/88, see Substance Abuse, Iowa Department of[805] Ch 6]

[Prior to 3/29/06, see 643—Ch 6]

**641—156.1(125) Definitions.** Unless otherwise indicated, the following definitions shall apply to the specific terms used in these rules:

*“Admissions”* means the point in an inmate’s relationship with the program at which the screening process has been completed and the inmate is to receive treatment services.

*“Affiliation agreement”* means a written agreement between the governing authority of the program and another organization under the terms of which specified services, space or personnel are provided to one organization by the other, but without exchange of moneys.

*“Applicant”* means any substance abuse treatment program which has applied for a license or renewal.

*“Application”* means the process through which a substance abuse treatment program applies for a license or renewal as outlined in the application procedures.

*“Assessment”* means the process of evaluating an inmate’s strengths, weaknesses, problems, current status, and needs so that a treatment plan can be developed.

*“Board”* means the state board of health created pursuant to Iowa Code chapter 136.

*“Case management”* means the process of using predefined criteria to evaluate the necessity and appropriateness of client/patient care.

*“Chemical dependency”* means alcohol or drug dependence or psychoactive substance use disorder as defined by the criteria in the current Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM IV), or by other standardized and widely accepted criteria.

*“Chemical dependency rehabilitation services”* means those inmate or group services that are directly related to chemical dependency or the inmate treatment plan. These services may include inmate, group, and family counseling; educational services; curriculum-based therapeutic approaches; self-help groups; and structured recreational activities. These services do not include active employment or education courses beyond the secondary level.

*“Chemical substance”* means alcohol, wine, spirits, and beer as defined in Iowa Code chapter 123 and controlled substances as defined in Iowa Code section 124.101.

*“Concerned person”* means an inmate who is receiving treatment services due to problems arising from the person’s involvement or association with a correctional substance abuser or chemically dependent inmate or client/patient, and is negatively affected by the behavior of the substance abuser, chemically dependent inmate, or client/patient.

*“Continuing care”* means providing a specific period of structured therapeutic involvement designed to enhance, facilitate and promote transition from primary treatment to ongoing recovery.

*“Continuum of care/treatment”* means a structure of interlinked treatment modalities and services designed so that an inmate’s changing needs will be met as that inmate moves through the treatment and recovery process.

*“Contract”* means a formal legal document adopted by the governing authority of the program and any other organization, agency, or individual that specifies services, personnel, or space to be provided to the program as well as the moneys to be expended in the exchange.

*“Correctional substance abuse treatment facilities”* means those correctional specialized unit facilities and OWI programs that provide 24-hour, live-in, seven-days-a-week substance abuse treatment services.

*“Counselor”* means an individual who, by virtue of education, training, or experience, provides treatment, which includes advice, opinion, or instruction, to an inmate or in a group setting to allow an opportunity for an inmate to explore the inmate’s problems related directly or indirectly to substance abuse or dependence.

*“Culturally and environmentally specific”* means integrating into the assessment and treatment process the ideas, customs, beliefs, and skills of a given population, as well as an acceptance, awareness, and celebration of diversity regarding conditions, circumstances, and influences surrounding and affecting the development of an inmate or group.

*“Department”* means the Iowa department of public health.

*“Designee”* means the staff person or counselor who is delegated tasks, duties and responsibilities normally performed by the treatment supervisor, treatment director or executive director.

*“Detoxification”* means the withdrawal of an inmate from a physiologically addicting substance.

*“Director”* means the director of the Iowa department of public health.

*“Discharge criteria”* means criteria to be considered when determining appropriateness of discharge or referral to a different level of treatment.

*“Discharge planning”* means the process, begun at admission, of determining a client/patient’s continued need for treatment services and of developing a plan to address ongoing client/patient posttreatment needs. Discharge planning may or may not include a document identified as a discharge plan.

*“Division”* means the division of behavioral health and professional licensure.

*“Extended residential program”* means a designated unit for substance abuse treatment that is staffed 24 hours a day, seven days a week. There is a structured daily schedule. Treatment services total a minimum of 20 hours a week for no less than four months, unless the primary residential program is two months or longer.

*“Facility”* means a hospital, correctional institution, a program located in a judicial district, or detoxification center, or installation providing care, maintenance, and treatment for substance abusers and licensed by the department under Iowa Code section 125.13.

*“Follow-up”* means the process for determining the status of an inmate who has been referred to an outside resource for services or who has been discharged from the program.

*“Governing body”* means the individual(s), group, or agency that has ultimate authority and responsibility for the overall operation of the facility.

*“Inmate”* means a person confined in a correctional institution or under the supervision of the department of corrections or a judicial district department of correctional services as a result of a conviction of a public offense.

*“Intake”* means the process of collecting and assessing information to determine the appropriateness of admitting or retaining an inmate in a substance abuse treatment program.

*“Iowa board of substance abuse certification”* means the professional certification board that certifies substance abuse counselors and prevention specialists in the state of Iowa.

*“Licensee”* means any program licensed by the department.

*“Licensure”* means the issuance of a license by the department upon due process by the board which validates the licensee’s compliance with substance abuse standards and authorizes the licensee to operate a substance abuse treatment program in the state of Iowa.

*“Licensure weighting report”* means the report that is used to determine the type of license for which a program qualifies based on point values assigned to areas reviewed and total number of points attained. In addition, a minimum percent value in each of three categories shall be attained to qualify a program for a license as follows: 95 percent or better rating in clinical, administrative and programming for a three-year license; 90 percent or better rating in clinical, administrative and programming for a two-year license; or less than 90 percent but no less than 70 percent rating in clinical, administrative and programming for a one-year license.

*“May,”* in the interpretation of a standard, means an acceptable method that is recognized but not necessarily preferred.

*“Outpatient program”* means substance abuse services totaling a minimum of ten hours per week for no less than three months that are not assigned to a designated unit.

*“Primary residential program”* means a designated unit for substance abuse treatment that is staffed 24 hours a day, seven days a week. There is a structured daily schedule. Treatment services total a minimum of 30 hours per week for no less than one month.

*“Program”* means any partnership, corporation, association, correctional facility, governmental subdivision, or public or private organization.

*“Protected classes”* means classes of people who have required special legislation to ensure equality.

*“Quality improvement”* means the process of objectively and systematically monitoring and evaluating the quality and appropriateness of client/patient care to improve client/patient care and resolve identified problems.

*“Referral agreement”* means a written document defining a relationship between the program and an outside resource for the provision of inmate services that are not available within the substance abuse treatment program.

*“Rehabilitation”* means assisting an inmate to attain the fullest physical, mental, social, vocational, and economic usefulness within the inmate’s own capabilities. Rehabilitation may include, but is not limited to, medical treatment, psychological therapy, occupational training, job counseling, prosocial behavioral change and domestic rehabilitation/habilitation, and education.

*“Relapse”* means progressively irresponsible, inappropriate and dysfunctional or criminal behavior patterns that could lead to resumption of alcohol or drug use. “Relapse” also refers to the resumption of alcohol or drug use.

*“Rule”* means each statement of general applicability that implements, interprets, or prescribes department law or policy, or that describes the organization, procedure or practice requirements of the department. The term includes the amendment or repeal of existing rules as specified in the Iowa Administrative Code.

*“Screening”* means the process by which a client/patient is determined to be appropriate and eligible for admission to a particular program. The focus is on the minimum criteria necessary for appropriateness/eligibility.

*“Shall,”* in the interpretation of a standard, means a mandatory statement; that is, the only acceptable method under the present standards.

*“Should,”* in the interpretation of a standard, means the commonly accepted method, yet allows for the use of effective alternatives.

*“Staff”* means any individual who provides services to the program on a regular basis as a paid employee, agent, or consultant or as a volunteer.

*“Standards”* means specifications that represent the minimum criteria of a substance abuse treatment program which are acceptable for the issuance of a license.

*“Substance abuser”* means an inmate who habitually lacks self-control as to the use of chemical substances or uses chemical substances to the extent that the inmate’s health is substantially impaired or endangered or that the inmate’s social or economic function is substantially disrupted.

*“Treatment”* means the broad range of planned and continuing inpatient, outpatient, and residential care services, including diagnostic evaluation, counseling, and medical, psychiatric, psychological, and social service care which may be extended to substance abusers, concerned persons, concerned family members or significant others, and which is geared toward influencing the inmate’s behavior to achieve a state of rehabilitation.

*“Treatment days”* means days in which the treatment program is open for services or actual working days.

*“Treatment plan”* means a written plan which specifies the goals, activities, and services determined through process of assessment to be appropriate to meet the objective needs of the inmate.

*“Treatment planning”* means the process by which a counselor and client/patient identify and rank problems, establish agreed-upon goals, and decide on the treatment process and resources to be utilized.

*“Treatment supervisor”* means an individual who, by virtue of education, training, or experience, is capable of assessing the psychosocial history of a substance abuser to determine the treatment plan most appropriate for the inmate. This individual shall be designated by the applicant.

**641—156.2(125) Inspection.** Upon approval of the warden/superintendent or district director, each applicant or licensee shall agree as a condition of license to permit properly designated representatives of the department to enter into and inspect any and all premises of facilities for which a license has been

either applied or issued to verify information contained in the application or to ensure compliance with all laws, rules, and regulations during all hours of operation of the facility and at any other reasonable hour. Further, each licensee shall agree to permit properly designated representatives of the department to audit and collect statistical data from all records maintained by the licensee. Right of entry and inspection shall, under due process of law, extend to any premises on which the department has reason to believe a program is being operated in violation of these rules. A facility shall not be licensed which does not permit inspection by the department or examination of all records, including financial records, methods of administration, general and special dietary programs, the disbursement of drugs and methods of supply, and any other records the board deems relevant to the establishment of a system.

**641—156.3(125) General standards for all correctional substance abuse treatment programs.** The following standards shall apply to all correctional substance abuse treatment programs in the state of Iowa regardless of the category of treatment services provided by the programs. In situations in which differences between general standards for all treatment programs and specific standards occur, both general and specific standards must be met.

**156.3(1) Procedures manual.** All programs shall develop and maintain a procedures manual. This manual shall define the program's policies and procedures to reflect the program's activities. Revisions to the procedures manual shall be entered with the date, name, and title of the individual making the entries. This manual shall contain all of the required written policies, procedures, definitions, and all other documentation required by these standards in the following areas:

- a. Organization and management of the program;
- b. Personnel policies;
- c. Medical services/detoxification;
- d. Staff training;
- e. Intake and initial assessment;
- f. Treatment planning;
- g. Inmate case records;
- h. Discharge planning;
- i. Inmate rights;
- j. Confidentiality of inmate records;
- k. Medication control;
- l. Treatment philosophy;
- m. Objectives;
- n. The role of the coordinator/director in charge of this service;
- o. Admission criteria; and
- p. Interrelationship with other service components and providers.

The policies and procedures manual shall be reviewed and approved on an annual basis.

**156.3(2) Personnel.** Written personnel policies and procedures shall be developed by all programs. Merit rules may be utilized in lieu of specific program personnel policies and procedures.

- a. All programs shall have written policies and procedures that address the following areas:
  - (1) Recruitment, selection, and certification of staff members;
  - (2) Recruitment and selection of volunteers;
  - (3) Wage and salary administration;
  - (4) Promotions;
  - (5) Employee benefits;
  - (6) Working hours;
  - (7) Vacation and sick leave;
  - (8) Lines of authority;
  - (9) Rules of conduct;
  - (10) Disciplinary actions and termination of employees;
  - (11) Methods for handling cases of inappropriate client care;
  - (12) Work performance appraisal;

- (13) Employee accidents and safety;
  - (14) Employee grievances; and
  - (15) Policy on staff persons suspected of using or abusing substances.
- b.* The written personnel policies and practices shall include an equal employment opportunity policy and an affirmative action plan for hiring members of protected classes.
  - c.* There shall be written job descriptions.
  - d.* Job descriptions shall accurately reflect the actual job situation and shall be reviewed when necessary by the executive director or whenever there is a change in required qualifications or duties.
  - e.* All positions shall have job descriptions included in the personnel section of the procedures manual or personnel record of the staff member.
  - f.* The written personnel policies and practices shall include a mechanism for the written evaluation of personnel performance on at least an annual basis. Evidence that this evaluation is reviewed with the employee and that the employee is given the opportunity to respond to this evaluation shall be documented.
  - g.* A personnel record shall be kept on each staff member. These records shall contain as applicable:
    - (1) Verification of training, experience, and all professional credentials relevant to the position;
    - (2) Documentation of a criminal records check with the Iowa division of criminal investigation;
    - (3) Job performance evaluations;
    - (4) Incident reports;
    - (5) Disciplinary actions taken; and
    - (6) Documentation of review and adherence to confidentiality laws and regulations. This review and agreement shall occur prior to assumption of duties.
  - h.* Written policies and procedures shall be designed to ensure confidentiality of personnel records and a delineation of authorized personnel who have access to various types of personnel information.
  - i.* Personnel providing screening, evaluations, assessments or treatment shall be certified through the Iowa board of substance abuse certification, or certified by an international certification and reciprocity consortium member board, or have education, training, and experience in the substance abuse field.
  - j.* There shall be written policies related to the prohibition of sexual harassment.
  - k.* There shall be written policies related to the implementation of the Americans with Disabilities Act.

**156.3(3) Medical services.** A medical history and physical examination shall be conducted for all inmates within seven days of admission to the residential OWI facility. Laboratory examinations may be completed as deemed necessary by the physician.

The program shall have written policies and procedures defining the appropriate action to be taken when a medical emergency arises and the detoxification of an inmate is necessary.

OWI facilities shall ensure by contract or affiliation agreement that emergency medical services at a general hospital are available on a 24-hour, seven-days-a-week basis.

**156.3(4) Confidentiality.** All inmate substance abuse records shall be kept confidential and shall be handled in compliance with the Confidentiality of Alcohol and Drug Abuse Patient Records regulations, 42 CFR Part 2, effective June 9, 1987, which implement federal statutory provisions, 42 U.S.C. 290dd-3, applicable to alcohol abuse client/patient records, and 42 U.S.C. 290ee-3, applicable to drug abuse client/patient records.

*a. Disclosure of benefits.* If the inmate gives specific written consent, the content of the record may be disclosed to legal counsel upon written endorsement by the attorney to nongovernmental personnel for the purpose of collecting health insurance claims or other benefits or to a present or potential employer when employment is conditioned upon the status or progress in a treatment program.

*b. Disclosure for evaluation.* Disclosure of information for research, management, audit, or evaluation purposes must be specifically authorized by the warden/superintendent or district director.

*c. Record of consent.* The inmate's written release of information shall be kept in the inmate's record.

*d. Confidentiality orientation.* A program shall ensure that all staff and inmates, as a part of their initial orientation, are made aware of the confidentiality requirements. Any decision to disclose inmate information under any provision of Iowa Code chapter 125, or other applicable federal or state rule which permits disclosure, shall be made only by the warden/superintendent or district director.

**156.3(5) Clinical oversight.** The program shall have appropriate clinical oversight to ensure quality of clinical services provided to inmates. Clinical oversight may be provided in house or through consultation. Clinical oversight may include assisting the program in developing policies and procedures relating to the assessment and treatment of psychopathology, assisting in the training of the staff and providing assistance to the clinical staff in assessment or treatment. The executive director or designee shall ultimately be responsible for clinical services and implementation of treatment services to inmates.

**156.3(6) Staff development and training.** There shall be written policies and procedures that establish staff development. Staff development shall include orientation for and opportunities for continuing job-related education.

Documentation of continuing education to maintain substance abuse certification shall meet the requirements of this subrule.

*a.* Evidence of substance abuse certification or orientation which includes the following: psychosocial, medical, and pharmacological information, confidentiality, and tuberculosis and blood-borne pathogens; an orientation to the program and community resources; counseling skill development; HIV/AIDS (human immunodeficiency virus/acquired immune deficiency syndrome) information/education; and the attitudes, values and lifestyles of racially diverse cultures, other cultures and special populations.

*b.* The program shall establish on-site training programs or enter into relationships with outside resources capable of meeting staff training needs.

*c.* The staff development program shall ensure that staff members are kept informed of new developments in the field of substance abuse treatment and rehabilitation.

*d.* In-service training programs shall be instituted when program operations or functions are changed and shall be designed to allow staff members to develop new skills.

*e.* Staff development activities and participation in state, national and regional training shall be planned and scheduled on an annual basis. These activities shall be documented in order to evaluate their scope, effectiveness, attendance, and amount of time spent on such efforts. The written plan for on-site staff development and the activities for professional growth and development of personnel shall be based on the annual needs assessment and shall be available to all personnel.

*f.* A record shall be kept of on-site training activities and shall include, but not necessarily be limited to, the following:

- (1) Date of the meeting;
- (2) Names of persons attending; and
- (3) Topics discussed.

**156.3(7) Intake.** Clearly stated written criteria shall determine the eligibility of inmates for admission to level of care. The program shall have written policies and procedures governing a uniform intake process that defines the following:

- a.* The types of information to be gathered on all inmates upon admission; and
- b.* Procedures to be followed when accepting referrals.

**156.3(8) Orientation.** During the intake process, documentation shall be made that the inmate has been informed of the following:

- a.* General nature and goals of the correctional substance abuse program;
- b.* Rules governing conduct and infractions that can lead to disciplinary action or discharge from the program;
- c.* Inmate's rights and responsibilities;
- d.* Confidentiality laws, rules, and regulations; and
- e.* Treatment costs to be borne by the individual, if any.

**156.3(9) Assessment.**

a. Sufficient information shall be collected during the intake process so that the assessment process allows for the development of a complete assessment of the inmate's status and a comprehensive plan of treatment can be developed.

b. A complete assessment of the inmate's status, which shall include an analysis and synthesis of the intake data, shall be developed and shall address the inmate's strengths, problems, and areas of clinical concern.

c. If the initial assessment was developed by personnel of the Iowa Medical and Classification Center (IMCC) or other correctional institution personnel, the substance abuse treatment program must document review of information in the inmate's record and provide updates or amendments as applicable.

d. The following information shall be collected as part of the assessment process:

- (1) Identifying information which includes name, home address, and telephone number;
- (2) Demographic information which includes date of birth, sex, race or ethnicity;
- (3) Presenting problem;
- (4) Substance abuse history, including type, amount, frequency, and duration of substance use;
- (5) Family history, which describes the family composition and dynamics;
- (6) Education status and history, which describes levels of achievement;
- (7) Vocational, employment status and history, which describes skills or trades learned, record of jobs held, duration, and reasons for leaving;
- (8) Peers and friends, which includes a description of interpersonal relationships and interaction with persons and groups outside the home, if available;
- (9) Legal history, which describes involvement with the criminal justice system;
- (10) Medical and health history, including any incidences of overdoses and any physical indicators of contagious diseases for which necessary action was required in accordance with the Iowa Code;
- (11) Psychological history and mental status;
- (12) Any other relevant information which will assist in formulating an initial assessment of the inmate; and
- (13) A financial evaluation.

**156.3(10) Treatment plans.** Based upon the initial assessment, a written treatment plan shall be developed and recorded in the inmate's case record.

a. A treatment plan shall be developed as soon after the inmate's admission to the substance abuse program as is clinically feasible, but no later than 30 days following admission.

b. The treatment plan shall, at a minimum, contain the following:

- (1) A clear and concise statement of the inmate's current strengths and needs;
- (2) Clear and concise statements of the short- and long-term goals the inmate will be attempting to achieve;
- (3) A delineation of primary and support services to be provided to the inmate; and
- (4) The staff person(s) to be responsible for the inmate's treatment.

c. Treatment plans shall be developed in conjunction with the inmate. Treatment plans shall be reviewed by the primary counselor and the inmate as often as necessary, but at least every 60 days.

d. A review shall consist of a reassessment of the inmate's current status including accomplishments and needs and a redefinition of treatment goals when appropriate. The date of the review and any change, as well as the persons involved in the review, shall also be recorded.

e. The use of abstract terms, technical jargon, or slang should be avoided in the written treatment plan.

f. Treatment plans shall be culturally and environmentally specific so as to meet the needs of the inmate. Treatment plans shall be written in a manner readily understandable to the inmate, with assistance if necessary.

g. The program shall provide the inmate with a copy of all treatment plans.

**156.3(11) Progress notes.** An inmate's progress and current status in meeting the goals set in the treatment plan as well as efforts by staff members to help the inmate achieve these stated goals shall be recorded in the inmate's case record. Information shall be noted following each inmate's counseling session. Group counseling sessions shall be summarized at least monthly for each inmate receiving group

counseling services in an outpatient program. Group summaries shall be completed at least biweekly for inmates receiving residential correctional substance abuse treatment services.

*a.* Entries shall be filed in chronological order and shall include the date of service or the observation made, the date of the entry, and the signature or initials and staff title of the individual rendering the service. All progress notes shall be entered into the inmate's case record in permanent pen, by typewriter, or by computer. In those instances in which records are maintained electronically, a staff identification code number authorizing access shall be accepted in lieu of a signature.

*b.* All entries that involve subjective interpretations of an inmate's progress should be supplemented with a description of the actual behavioral observations which were the basis for the interpretations.

*c.* The use of abstract terms, technical jargon, or slang should be avoided in progress notes.

*d.* The program shall develop a uniform progress note format to be used by all clinical staff.

**156.3(12) Discharge planning.**

*a.* The substance abuse program shall participate in release planning through the discharge summary. The discharge summary shall contain:

- (1) Summary of current strengths and weaknesses of inmate;
- (2) Summary of assessment results;
- (3) Summary of treatment activities;
- (4) Social family support;
- (5) Summary of current client status to include motivation/participation; and
- (6) Recommendations that include the reason for referral and prognosis.

*b.* The program shall maintain a list of all substance abuse resources available within the state.

The list of resources shall, at a minimum, contain the following:

- (1) The name and location of the resource;
- (2) The types of services provided by the resource.

**156.3(13) Quality improvement.** The program shall have an ongoing quality improvement process designed to objectively and systematically monitor and evaluate the quality and appropriateness of inmate care, pursue opportunities to improve inmate care, and resolve identified problems.

*a.* The program shall have a written plan for a quality improvement process. The written plan shall describe the objectives, organization, scope, and mechanisms for overseeing the effectiveness of monitoring, evaluation, and problem-solving activities.

*b.* The program shall establish written policies and procedures to describe and document the quality improvement process, including the monitoring and evaluation activities of the program. The policies and procedures shall ensure that:

- (1) Information is collected or screened by a designated individual(s) or committee. Quality improvement activities may be contracted through all outside resources;
- (2) Objective criteria are utilized in the development and application of criteria relating to the care or service the program provides; and
- (3) Objective criteria are utilized in the evaluation of the information collected in order to identify important problems in, or opportunities to improve, inmate care and clinical performance.

*c.* The program shall document that the quality of inmate care is improved and identified problems are resolved through appropriate actions taken by the program's administrative and supervisory staff and through professional staff functions.

*d.* Necessary information shall be communicated among program components, modalities, or services when problems or opportunities to improve inmate care involve more than one program component or service.

*e.* The program shall ensure that the status of identified problems is tracked to ensure improvement or resolution.

*f.* The program shall ensure that information from program components or services and the findings of distinct quality improvement activities are used to detect trends, patterns of performance, and potential problems that affect more than one program component or service.

g. The objectives, scope, organization, and effectiveness of the quality improvement process are evaluated at least annually and revised as necessary.

**156.3(14) Inmate case records.** There shall be written policies and procedures governing the compilation, storage, and dissemination of inmate case records.

a. These policies and procedures shall ensure that:

(1) The program exercises its responsibility for safeguarding and protecting the inmate case record against loss, tampering, or unauthorized disclosure of information;

(2) The content and format of records are kept uniform; and

(3) The entries in the case record are signed and dated.

b. The program shall provide adequate physical facilities for the storage, processing, and handling of case records. These facilities shall include suitably locked, secured rooms or file cabinets.

c. Appropriate records shall be readily accessible to those staff members providing services directly to the inmate and other persons specifically authorized by program policy. Records should be kept in proximity to the area in which the inmate normally receives services.

d. There shall be a written policy governing the disposal and maintenance of inmate case records. Inmate case records shall be maintained for not less than seven years from the date the record is officially closed.

e. The governing body shall establish policies that specify the conditions under which information may be released and the procedures to be followed for releasing information. Even if a program is not federally funded, all policies and procedures shall be in accordance with applicable provisions of Section 408 of Public Law 92-255, the Drug Abuse Office and Treatment Act of 1972 (21 U.S.C. 1175) as amended by Section 303 of Public Law 93-282, the Comprehensive Alcohol Abuse and Rehabilitation Act amendments of 1974 (88 Stat, 137), the federal confidentiality regulations issued, and state confidentiality laws and rules.

f. An inmate's written authorization shall appear on a consent form containing the following:

(1) The name of the program which is to make the disclosure;

(2) The name or title of the person or organization to which disclosure is to be made;

(3) The name of the inmate;

(4) The purpose or need for the disclosure;

(5) The extent or nature of information to be disclosed; and

(6) Except when the inmate is a mandatory criminal justice system referral, a statement that the consent is subject to revocation at any time, date, event or condition upon which it will expire without express revocation.

g. When participation by an inmate in a treatment program is made a condition of the release of the inmate from confinement, the disposition or status of any criminal proceedings against the inmate, or the execution or suspension of any sentence imposed upon the inmate, the inmate may consent to unrestricted communication between any program in which the inmate is enrolled in fulfillment of a condition and (1) the court granting probation or other posttrial or retrial conditional release, (2) the parole board or other authority granting parole, or (3) probation or parole officers responsible for the inmate's supervision. In addition, when consent is given for disclosures in this manner, consent shall expire 60 days after it is given or when there is substantial change in the inmate's status, whichever is later.

h. All policies related to confidentiality shall apply even after the inmate has terminated active involvement with the program.

i. In a life-threatening situation, or when an inmate's condition or situation precludes the possibility of obtaining written consent, the program may release pertinent medical information to the medical personnel responsible for the inmate's care without the inmate's authorization and without the authorization of the warden/superintendent or district director or designee if obtaining authorization would cause an excessive delay in delivering treatment to the inmate.

j. When information has been released without the inmate's authorization under these standards, the staff member responsible for the release of information shall enter into the inmate's case record all details pertinent to the transaction, which shall include at least:

- (1) The date the information was released;
- (2) The person to whom the information was released;
- (3) The reason the information was released; and
- (4) The nature and details of the information given.

*k.* As soon as possible after the release of information, the inmate shall be informed that it was released.

*l.* There shall be a record for each inmate that contains the following:

- (1) Results of all examinations, tests, and intake and assessment information;
- (2) Reports from referring sources;
- (3) Treatment plans;
- (4) Medication records, which shall allow for the monitoring of all medications administered and the detection of adverse drug reactions. All medication orders in the inmate case records shall define at least the name of the medication, dose, route of administration, frequency of administration, the name of the physician who prescribed the medication, and the name of the person administering or dispensing the medication;
- (5) Reports from outside resources, which shall include the name of the resource and the date of the report. These reports shall be signed by the person making the report or by the program staff member receiving the report;
- (6) Multidisciplinary case conference and consultation notes if applicable, including the date of the conference or consultation, recommendations made, and action taken;
- (7) Correspondence related to the inmate, including all letters and dated notations of telephone conversations relevant to the inmate's treatment;
- (8) Treatment consent forms, if applicable;
- (9) Information release forms;
- (10) Progress notes;
- (11) Records of service provided; and
- (12) Discharge summary.

**156.3(15) *Inmate rights.*** The program shall maintain written policies and procedures that ensure that the legal rights of inmates participating in the program are observed and protected.

*a.* Procedures to inform all inmates of legal rights shall be available at the time of admission into the program.

*b.* The implementation of these procedures shall be documented.

*c.* Written policies and procedures for reviewing and responding to an inmate's communications, e.g., opinions, recommendations, and inmate grievances, with a mechanism for redress, shall be documented.

*d.* Procedures shall be designed to protect the inmate's rights and privacy with respect to facility visitors, e.g., educational or other individual or group visitations at the program.

**156.3(16) *Medication control.*** Policies and procedures shall be developed to ensure that all medications are administered or self-administered safely and properly in accordance with federal, state, and local laws and regulations. OWI facilities shall be in compliance with 641—subrule 155.22(19).

**156.3(17) *Facilities.***

*a.* The facilities shall comply with rules 641—155.22(125) and 641—155.23(125) or ACA standards or other standards established by the department of corrections.

*b.* The facilities shall comply with rules 641—155.2(125) to 641—155.20(125).

These rules are intended to implement Iowa Code section 125.13.

CHAPTER 157  
STANDARDS FOR SUBSTANCE ABUSE TREATMENT AND  
ASSESSMENT PROGRAMS AND THE OPERATING A MOTOR VEHICLE  
WHILE INTOXICATED (OWI) LAW

[Prior to 3/29/06, see 643—Ch 8]

**641—157.1(125) Definitions.** Unless otherwise indicated, the following definitions shall apply to the specific terms used in these rules:

*“Assessment”* means the ongoing process of identifying a diagnosis, ruling out other diagnoses, and determining the level of care needed by the client.

*“Course for drinking drivers”* means an approved course designed to inform the offender about drinking and driving and to encourage the offender to assess the offender’s own drinking and driving behavior in order to select practical alternatives. Enrollment in the course is not limited to persons ordered to enroll, attend, and successfully complete the course required under Iowa Code sections 321J.1 and 321J.17. However, any person under the age of 18 who is required to attend the course for violation of Iowa Code section 321J.2 or 321J.17 must attend a course offered by a substance abuse treatment program licensed under Iowa Code chapter 125. Any instructional course for drinking drivers shall be approved by the department of education in consultation with the community colleges and substance abuse treatment programs licensed under Iowa Code chapter 125 and using the course of instruction detailed in 281—21.31(321J).

*“Department”* means the Iowa department of public health.

*“Evaluation”* means the process to evaluate the client’s strengths, weaknesses, problems, and needs for the purpose of defining a course of treatment. This includes use of a standardized placement screening and any additional patient/client profile information, and recommendation to an appropriate level of care.

*“HIPAA”* means the Health Insurance Portability and Accountability Act of 1996.

*“Licensed”* means issuance of a license by the department and the state board of health, which validates the licensee’s compliance with substance abuse program standards and authorizes the licensee to operate a substance abuse program in the state of Iowa.

*“Posttreatment”* means continuing care after primary treatment has been completed.

*“Primary treatment”* means substance abuse treatment modality including inpatient, primary residential treatment, extended residential treatment, medically monitored residential, extended outpatient, intensive outpatient, and partial hospitalization.

*“Program”* means any individual, partnership, corporation, association, governmental subdivision or public or private organization.

*“Qualifying program”* means a program which has a contract with the state of Iowa or the state’s contracted managed care entity to provide substance abuse treatment using a sliding fee scale.

*“Satisfactory completion of the drinking drivers course”* means receiving at the completion of the course a grade from the course instructor of “C” or “2.0,” or better.

*“Screening”* means the process by which a client/patient is determined at risk and in need of further evaluation. The focus is on the minimum criteria necessary for appropriateness/eligibility.

*“Substance abuser”* means a person who lacks self-control as to the use of chemical substances or uses chemical substances to the extent that the person’s health is substantially impaired or endangered or that the person’s social or economic function is substantially disrupted.

*“Treatment”* means the broad range of planned and continuing, inpatient, outpatient, residential care services, including diagnostic evaluation, counseling, medical, psychiatric, psychological, and social service care, which may be extended to substance abusers, concerned persons, concerned family members, or significant others, and which is geared toward influencing the behavior of such individuals to achieve a state of rehabilitation.

**641—157.2(125) Screening, evaluation, treatment, and drinking drivers course.** Persons who are charged with operating a motor vehicle while intoxicated (OWI), Iowa Code section 321J.2, and whose driver’s license or nonresident operating privileges are revoked under Iowa Code chapter 321J shall

be assigned to undergo a substance abuse evaluation and, if recommended, treatment from a provider licensed by the department under Iowa Code chapter 125.

**157.2(1) *Screening.*** The initial screening shall consist of a generally accepted standardized substance abuse screening instrument. The program shall utilize a recognized diagnostic test or tool to determine “substance abuse” or “dependence” as those terms are defined in the DSM IV (Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition). In addition, programs shall collect information on blood alcohol content at time of arrest; history of other alcohol or drug-related arrests; history of alcohol/drug treatment; history of mental health problems and treatment; any OWI arrest that included personal injury or additional charge(s); and family history of substance abuse.

**157.2(2) *Evaluation.*** If the initial screening shows a potential for chemical dependency, then a further evaluation will be completed. This evaluation shall consist of further development of the six assessment dimensions outlined in the American Society of Addiction Medicine, Patient Placement Criteria for the Treatment of Substance-Related Disorders, Second Edition-Revised.

**157.2(3) *Treatment.*** Treatment shall consist of a broad range of planned and continuing, inpatient, outpatient, and residential care services, including ongoing diagnostic evaluation, counseling, and medical, psychiatric, psychological, and social service care geared toward influencing the behavior of such individuals to achieve a state of rehabilitation. Individuals will be placed in the appropriate level of care at a substance abuse treatment program licensed by the department under Iowa Code chapter 125 in accordance with the American Society of Addiction Medicine, Patient Placement Criteria for the Treatment of Substance-Related Disorders, Second Edition-Revised.

**157.2(4) *Drinking drivers course.*** Substance abuse treatment programs licensed by the department under Iowa Code chapter 125 may provide the drinking drivers course if the course curriculum is approved by the department of education under Iowa Code section 321J.22 and 281—21.31(321J).

**641—157.3(125) Screening, evaluation, treatment, and drinking drivers course completion.** The program shall report substance abuse screening, assessment, evaluation and treatment completion to the department of transportation and to the district court in accordance with Iowa Code sections 125.37, 125.84 and 125.86; the federal confidentiality regulations, “Confidentiality of Alcohol and Drug Abuse Patient Records,” 42 CFR, Part 2, effective June 9, 1987; HIPAA; and other relevant provisions of federal and state law. The program shall report satisfactory completion of the drinking drivers course to the department of education in accordance with Iowa Code section 321J.22 and 281—21.31(321J); the federal confidentiality regulations, “Confidentiality of Alcohol and Drug Abuse Patient Records,” 42 CFR, Part 2, effective June 9, 1987; HIPAA; and other relevant provisions of federal and state law.

**157.3(1) *Reporting form.*** Programs shall report screening, evaluation, and treatment completion utilizing the form “Notice Iowa Code 321J—Confidential Medical Record.” Iowa substance abuse evaluation and treatment providers licensed by the department under Iowa Code chapter 125 shall submit this form online to the department of transportation using the department of transportation’s 321J Web site, <https://www.saeval.dot.state.ia.us>.

**157.3(2) *Primary treatment.*** Upon completion of primary treatment, programs shall report to the department of transportation and the courts that treatment has been completed in accordance with Iowa Code section 321J.22; the federal confidentiality regulations, “Confidentiality of Alcohol and Drug Abuse Patient Records,” 42 CFR, Part 2, effective June 9, 1987; HIPAA; and other relevant provisions of federal and state law.

**157.3(3) *Posttreatment results.*** If the court orders a posttreatment program, the program shall report progress and attendance to the person’s probation officer or otherwise as ordered by the court in accordance with Iowa Code section 321J.22; the federal confidentiality regulations, “Confidentiality of Alcohol and Drug Abuse Patient Records,” 42 CFR, Part 2, effective June 9, 1987; HIPAA; and other relevant provisions of federal and state law.

**157.3(4) *Drinking drivers course.*** Substance abuse treatment programs licensed by the department under Iowa Code chapter 125 may provide the drinking drivers course and shall report satisfactory completion of the drinking drivers course to the department of education in accordance with Iowa Code section 321J.22 and 281—21.31(321J).

**641—157.4(125) Cost of evaluation and treatment.**

**157.4(1) Screening and evaluation.** The program shall charge no more than \$125 for the cost of screening and evaluation. The individual or the individual's insurance provider shall be responsible for the costs of the screening and evaluation.

**157.4(2) Treatment.** Qualifying programs shall consider a person admitted to the program pursuant to Iowa Code section 321J.3 who does not possess sufficient income or estate to make payment of the costs of the treatment in whole or in part to be a state patient and eligible for state-funded treatment as provided in Iowa Code section 125.44. Qualifying programs shall utilize a sliding fee schedule approved by the department to determine cost of treatment. There is no prohibition on any individual from paying in whole the cost of treatment.

**157.4(3) Reimbursement.** Programs shall be able to seek reimbursement of the cost of screening, evaluation and treatment from an individual's insurance company, firm or corporation bound to pay, or from Medicaid for an individual who is eligible or enrolled in Medicaid.

**641—157.5(125) Timeliness.** The program shall conduct and complete substance abuse evaluations and treatment at the program's earliest convenience.

**641—157.6(125) Confidentiality.** Programs will abide by the federal regulations, "Confidentiality of Alcohol and Drug Abuse Patient Records," 42 CFR, Part 2; Iowa Code section 125.37; HIPAA; and other relevant provisions of federal and state law.

**641—157.7(125) Records.**

**157.7(1)** Programs shall maintain records for a minimum of seven years after discharge or completion of screening, evaluation, or treatment, and then destroy or maintain the records based on the program's written policy and procedure.

**157.7(2)** Upon receipt of a properly executed written release of information signed by the client/patient, the program shall release client/patient records in a timely manner.

*a.* A program shall not refuse to transfer or release client/patient records related to continuation of care solely because payment has not been received.

*b.* A program may refuse to release client/patient records which are unrelated to continuation of care if payment has not been received.

*c.* A program may refuse to file the reporting form required by subrule 157.3(1), "Notice Iowa Code 321J—Confidential Medical Record," reporting screening, evaluation, and treatment completion, if payment has not been received for such services.

[ARC 8796B, IAB 6/2/10, effective 7/7/10]

**641—157.8(125) Reciprocity.** For a resident of a state other than Iowa or an Iowa resident obtaining evaluation or treatment outside the state, screening, evaluation or treatment services shall be provided by programs licensed or approved by that state's substance abuse authority. Programs shall submit the results of the screening, evaluation and treatment to the Iowa department of public health, division of behavioral health and professional licensure, for review and reporting purposes to the Iowa department of transportation.

These rules are intended to implement Iowa Code section 125.13.

CHAPTER 158  
REGIONS FOR SUBSTANCE ABUSE PREVENTION AND TREATMENT

[Prior to 3/29/06, see 643—Ch 9]

**641—158.1(125) Service areas established.** The department of public health has established regions for substance abuse prevention and treatment service areas. Substance abuse assessment, prevention and education, and outpatient and follow-up treatment and rehabilitation shall be available in each service area. Emergency treatment provided by a facility affiliated with or part of the medical service of a general hospital, inpatient treatment, residential treatment, and halfway house treatment shall be available within reasonable driving distance of the service area.

**641—158.2(125) Request for a change in service areas.** Any existing service provider may file an application with the director to change an existing service area.

**641—158.3(125) Application.** The application shall include the following:

1. The name, address, and description of the applicant;
2. A description of the proposed change;
3. The applicant's rationale in support of the change in service area;
4. The number of clients the applicant proposes to serve and the proposed increase in quality or quantity of services to these clients;
5. A description of community support for the change; and
6. The names and addresses of all affected parties, including existing service providers.

**641—158.4(125) Notification of affected parties.** Within ten calendar days of receipt of a completed application, the director shall provide written notification to any affected parties identified in the application and shall allow any affected parties so notified 30 calendar days to submit written information in support of, or in opposition to, the application.

**641—158.5(125) Public hearing.** The director may hold a public hearing at which the applicant and any affected parties may provide an oral presentation with respect to their positions. The director shall give notice to the applicant and all affected parties ten calendar days prior to holding the hearing. The hearing shall not be a contested case hearing as that term is defined in Iowa Code chapter 17A.

**641—158.6(125) Proposed decision.** The director shall issue a written proposed decision which includes findings of fact and either approves or rejects the application. In issuing this decision, the director shall consider the proposed application, other information received from the applicant, information received from affected parties, the terms of any relevant contract, city and county lines, population concentrations, and existing substance abuse treatment and prevention services.

**641—158.7(125) Change during term of contract.** The director shall not approve an application which would change a service area during the term of an existing contract or after the release of a request for proposal for a new contract. Applications submitted after issuance of a request for proposal will, if granted, not become effective until after the expiration of the contract awarded pursuant to said request for proposal.

**641—158.8(125) State board of health review.** The director's proposed decision shall be reviewed by the board at its next regularly scheduled meeting. The board shall review all of the materials considered by the director, as described in rule 158.6(125), and the proposed decision and vote to approve or reject the director's proposed decision.

**641—158.9(125) State board of health decision.** The board's decision shall be issued in writing and shall be final agency action for the purposes of Iowa Code chapter 17A.

These rules are intended to implement Iowa Code section 125.12.

CHAPTER 170  
ORGANIZATION OF THE DEPARTMENT  
[Prior to 7/29/87, Health Department[470]Ch 170]

**641—170.1(17A,135) Definitions.**

*“Department”* means the Iowa department of public health.

*“Deputy director”* means the deputy director of the department of public health.

*“Director”* means the director of the department of public health.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.2(17A,135) Mission.** The mission of the department of public health is to promote and protect the health of Iowans. The department strives to improve the quality of life for all Iowans by:

1. Preventing epidemics and the spread of disease;
2. Protecting against environmental hazards;
3. Preventing injuries;
4. Promoting healthy behaviors;
5. Preparing for, responding to, and recovering from public health emergencies;
6. Improving access to quality health services; and
7. Strengthening the public health infrastructure.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.3(17A,136) State board of health.** The state board of health is the policymaking body for the Iowa department of public health and has the power and duty to adopt, promulgate, amend and repeal rules; consider legislation; and advise or make recommendations to the governor, general assembly, and director relative to public health, hygiene, and sanitation.

**170.3(1)** The state board of health consists of 11 members appointed by the governor.

**170.3(2)** The state board of health meets on the second Wednesday of July and on the second Wednesday of each second month thereafter and at such other times as may be deemed necessary by the president of the board.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.4(17A,135) Director of the department of public health.** The director is the chief administrative officer of the department, and in that capacity is responsible for the programs and services of the department. The director provides the department with national exposure and works with policymakers in both Iowa and Washington, D.C.

**170.4(1)** The following are the duties and responsibilities of the director. The director:

- a. Oversees the establishment of the administrative organization;
- b. Makes recommendations to the state board of health;
- c. Oversees the adoption of rules for the implementation of statutes;
- d. Serves as secretary to the state board of health;
- e. Serves as spokesperson and advocate for public health across the state of Iowa, regionally and nationally;
- f. Acts as a liaison to local boards of health, local public health administrators, health care providers, and consumers;
- g. Represents the department in a variety of state and national organizations; and
- h. Serves as the incident commander during public health emergencies and disasters.

**170.4(2)** Acting director.

a. The director may appoint an employee of the department to serve as acting director, who shall have all the powers and duties of the director.

b. The director may appoint more than one acting director, but only one acting director shall exercise the powers and perform the duties of the director at any time.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.5(17A,135) Deputy director.**

**170.5(1)** Under the direction of the director, the deputy director has the following duties and responsibilities. The deputy director:

- a. Is responsible for the operations of the department, including but not limited to fiscal and personnel management.
- b. Supervises and evaluates the work of the department's division directors.
- c. Working with the director, is responsible for developing policy, legislation and administrative rules.
- d. Assists the director in the development of policies related to marketing and communications, both internally and externally with other agencies, partners, and the public.
- e. Provides advice to the director on matters relating to department strategic planning, goals, mission and programs.
- f. Represents the director at private, state, and national meetings.
- g. Reports on department accomplishments and performance to the director.
- h. Is responsible for departmentwide strategic and performance plans, including preparation of the annual report.
- i. Serves as the deputy incident commander during public health emergencies and disasters.
- j. Represents the director during the director's absence.

**170.5(2)** The deputy director also serves as the director of one of the divisions in the department.  
[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.6(17A,135) Executive team.** The executive team serves as the leadership team for the department. The director appoints the members of the executive team.

**170.6(1)** The executive team assists the department director with strategic planning, policy development, and programmatic decision making.

**170.6(2)** The executive team members communicate division-level information that contributes to intradepartmental and interdepartmental planning and utilization of resources.  
[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.7(17A,135) Administrative divisions of the department.** The department is divided into seven organizational units. In addition to the director's office, there are six divisions in the department, each directed by a division director who reports either to the deputy director or the director.

**170.7(1) Office of the director.** The following are included in the office of the director.

a. *Medical director.* The medical director of the department is a doctor of medicine (M.D.) or osteopathy (D.O.), specializing in public health, who serves as a medical advisor to the department, medical professionals, and the public. The medical director may also serve as the state epidemiologist.

b. *Office of state medical examiner.* The mission of the office of state medical examiner is to establish credibility in death investigation in a system that will operate efficiently and serve the needs of the citizens of Iowa. This is done by providing assistance, direction, and training to county medical examiner personnel and law enforcement officials. Staff is responsible for conducting death investigations and performing autopsies.

c. *Dental board.* The dental board consists of nine members and has the overall responsibility for regulating the professions of dentistry, dental hygiene, and dental assisting in Iowa.

d. *Board of medicine.* The board of medicine, consisting of ten members, regulates the practice of medicine and surgery, osteopathic medicine and surgery, osteopathy and acupuncture.

e. *Board of nursing.* The six-member board of nursing enforces regulations for nursing education, nursing practice and continuing education for nurses.

f. *Board of pharmacy.* The seven-member board of pharmacy is responsible for regulating the practice of pharmacy and the legal distribution and dispensing of prescription drugs and precursor substances throughout Iowa.

**170.7(2) Division of acute disease prevention and emergency response.** This division provides support, technical assistance, education and consultation regarding departmentwide strategic and project planning, personnel resources, public information, infectious disease prevention and control, injury prevention and control, emergency medical services, and public health and health care emergency

preparedness and response. Division programs within these areas also provide regulatory functions. The deputy state epidemiologist and state public health veterinarian are in this division and report to the division director. Included in the division are the following bureaus and centers.

*a.* The bureau of communication and planning (CAP) provides communication services to the public, public health partners, media, governor's office, and legislators concerning public health programs, services, statutory requirements, administrative rules, and health-related issues. The bureau leads planning work to develop the department's strategic plan and measure and evaluate performance; improve the dissemination of public health data; and improve and evaluate the public health system in Iowa. The bureau provides administrative services to the state health facilities council and manages the certificate of need program. The bureau ensures a competent workforce through human resources and workforce development services.

*b.* The center for acute disease epidemiology (CADE) works to protect and preserve the health and safety of Iowans from infectious diseases through disease surveillance; investigation of acute outbreaks; education and consultation to county, local, and private health agencies on infectious diseases; immunization and vaccine guidelines; treatment after animal bites; and vaccines for international travel. The center also provides consultation to county and local health agencies on diseases requiring public health intervention; collaborates with the Centers for Disease Control and Prevention by weekly reporting of nationally reportable diseases; and offers health education opportunities through lectures and organizational seminars.

*c.* The bureau of emergency medical services (EMS) is responsible for EMS provider certification and renewal, service program authorization, and trauma care facility certification and renewal. The bureau provides leadership and resource support for planning, medical direction, EMS education, public education and injury prevention. Through oversight and coordination, the bureau's objective is the development, implementation and evaluation of a comprehensive statewide EMS system.

*d.* The center for disaster operations and response (CDOR) is responsible for the development and implementation of emergency plans and operating procedures for the department while ensuring integration into Iowa's Homeland Security and Emergency Management Plan. CDOR works with local public health agencies, hospitals, and other health care entities to ensure communications, capacity, capability, emergency planning, drills and exercises, and education to detect, respond to, and recover from bioterrorism, public health emergencies, and other disasters that may affect the health of Iowans. Additionally, CDOR is responsible for the department's emergency coordination center (ECC), continuity of operations plan, Iowa public health response teams, and the Strategic National Stockpile (SNS).

*e.* The bureau of immunization and tuberculosis works to protect the health of Iowans from vaccine-preventable diseases and tuberculosis, with the goal of reducing and ultimately eliminating the incidence of these diseases. The bureau conducts surveillance and prevention activities in conjunction with public and private health care providers. Surveillance activities include disease monitoring and reporting, laboratory testing, disease investigation, and rapid institution of disease control measures, including isolation and quarantine. Bureau prevention and treatment activities include targeted disease testing, vaccination programs, dispensing medications, health care provider consultation, and education.

*f.* The office of health information technology works to ensure a healthier Iowa through the use and exchange of electronic health information to improve patient-centered health care and population health. The office leads planning work to implement statewide electronic exchange of health information to improve the quality of health care, ensure patient safety, and increase efficiency in health care delivery.

**170.7(3) *Division of administration and professional licensure.*** This division provides services for birth, marriage and death certificates; monitors and reports progress on health objectives and identifies emerging health issues; coordinates 19 licensing boards regulating the activities of 39 health professions; provides fiscal management of department funding and contract administration; and provides software, network and computer support. The following bureaus are included in this division.

*a.* The bureau of finance provides support to department staff in functions of fiscal and office services, including fiscal management of revenues and expenditures, coordination of office supply purchases, contract administration, use of state vehicles, mail, printing, and inventory control.

b. The bureau of information management provides information technology support for the department, including maintaining the local area network, core software applications, mainframe access, program-specific software application development, hardware installation and help-desk activities.

c. The bureau of professional licensure provides staff support in licensing and certification to the following boards:

- (1) Athletic training.
- (2) Barbering.
- (3) Behavioral science.
- (4) Chiropractic.
- (5) Cosmetology arts and sciences.
- (6) Dietetics.
- (7) Hearing aid dispensers.
- (8) Sign language interpreters and transliterators.
- (9) Massage therapy.
- (10) Mortuary science.
- (11) Nursing home administrators.
- (12) Optometry.
- (13) Physical and occupational therapy.
- (14) Physician assistants.
- (15) Podiatry.
- (16) Psychology.
- (17) Respiratory care.
- (18) Social work.
- (19) Speech pathology and audiology.

d. The bureau of health statistics provides certified copies of birth, death, and marriage records to Iowans and other entitled persons.

**170.7(4) *Division of behavioral health.*** This division promotes the prevention of substance abuse and problem gambling, secondary conditions among people with disabilities, and violent behavior. The division also regulates substance abuse and gambling treatment programs. The division is responsible for approving laboratories that desire to perform drug-testing services for businesses located or doing business in Iowa. Included in the division are the following bureaus and offices.

a. The bureau of administration, regulation, and licensure licenses and monitors substance abuse treatment programs, including community-based and hospital-based programs, assessment and evaluation services, and operating while intoxicated (OWI) correctional and correctional institution programs. The bureau also licenses and monitors problem gambling treatment programs in Iowa.

b. The bureau of substance abuse prevention and treatment provides leadership and resources pertaining to substance abuse in the state. The bureau focuses on both substance abuse prevention and treatment and oversees resources provided by the state and federal governments.

c. The office of gambling treatment and prevention provides funding on a sliding fee scale for outpatient counseling for families, concerned persons, and gamblers affected by problem gambling. The program serves as a resource for all Iowans by providing information, referral, and educational services.

d. The office of injury prevention strives to address the burden of injury on the public health by disseminating information about injury, deaths and hospitalizations and promoting programs directed at preventing both intentional and unintentional injuries.

e. The bureau of HIV, STD, and hepatitis administers programs for the prevention, detection, and treatment of HIV, chlamydia, gonorrhea, syphilis, and viral hepatitis. Program staff provides information, training, and funding to local public health agencies and community-based organizations for prevention and control of these diseases; offers counseling, testing, and referral services; notifies sexual and needle-sharing partners of potential exposures; provides medications, case management, and supportive services for diagnosed persons; and collects data on disease diagnoses to be used for program planning and evaluation related to prevention and care.

**170.7(5) *Division of environmental health.*** This division provides both educational and regulatory services to ensure a safe and healthy environment for Iowans. The state toxicologist is in this division and reports to the division director. Included in the division are the following bureaus and offices.

*a.* The bureau of radiological health regulates facilities that use radioactive materials or utilize ionizing radiation-producing machines; credentials persons who use radioactive material or operate ionizing radiation-producing machines; and provides emergency response related to radioactive materials and nuclear power plant incidents.

*b.* The bureau of lead poisoning prevention ensures that children are tested for lead poisoning and provides medical and environmental case management for cases of childhood lead poisoning through direct services and grant support to local public health partners. The bureau also regulates professionals who work with lead-based paint through required notification, certification, and work practice standards for those individuals. In addition, the bureau conducts surveillance and education on lead exposure, pesticide exposure, and occupational health and safety issues.

*c.* The bureau of environmental health services provides assessment, education, consultation, technical assistance and resource referral related to the delivery of environmental health services, emergency response, and regulatory functions to local public health agencies and local boards of health. In addition, the bureau provides consultation and assistance to the public on environmental health matters. The bureau also has regulatory oversight for public swimming pools and spas, water treatment devices, backflow prevention assembly testers, tattoo artists and establishments, and migrant labor camps. In addition, the bureau conducts Grade A milk rating inspections.

*d.* The office of plumbing and mechanical systems supports the plumbing and mechanical systems board and administers licensing and continuing education requirements for professionals in the plumbing, mechanical, hydronics and refrigeration trades.

**170.7(6) *Division of health promotion and chronic disease prevention.*** This division promotes and supports healthy behaviors and communities, the prevention and management of chronic diseases, and the development of public health infrastructure and access to health care services at local and state levels. Included in the division are the following bureaus and offices.

*a.* The bureau of nutrition and health promotion provides nutrition education, supplemental foods, breast-feeding promotion and support, and referrals for health services for low-income women and their children through the Women, Infants and Children (WIC) program. Health promotion programs bring state and local partners together to build a network of health partners dedicated to healthy nutrition and physical activity and provide funding and technical support/coaching to Iowa communities for community wellness initiatives.

*b.* The oral health bureau, overseen by the public health dental director, promotes and advances health behaviors to reduce the risk of oral diseases and improve the oral health status of all Iowans. Programs are in place targeting pregnant women, children, and youth for the prevention, early identification, referral, and treatment of oral disease.

*c.* The bureau of local public health provides education, ongoing technical assistance, monitoring, and support to local boards of health and local public health agencies for the development and delivery of services that contribute to compliance with the Iowa Public Health Standards. The bureau acts as a direct liaison between the department and the local public health system to achieve a common goal of promoting and protecting the health of Iowans and contributing to the state of Iowa's goal of becoming a "healthy community."

*d.* The office of multicultural health assists in fostering partnerships between state government programs, local governments, community groups, and ethnic/racial communities, assists in policy analysis to improve health care access and services for minority populations, and advocates for policies and practices that will reduce health disparities among Iowa's minority, immigrant, and refugee populations.

*e.* The office for healthy communities works to build healthy communities, thus supporting the department's vision of healthy people in healthy communities. Communities benefit from technical assistance and support services that improve the capacity of communities to plan and implement health improvement programs.

*f.* The bureau of family health promotes the health of Iowa families by developing family-centered, community-based, coordinated, and culturally sensitive systems of care for women, infants, children, and adolescents and their families.

*g.* The bureau of health care access advocates for quality health care delivery systems for all Iowans and provides information, referrals, education, grant opportunities, technical assistance, and planning for Iowa communities. The bureau is the designated state entity for addressing rural health, primary care and health care workforce issues in Iowa and works to improve access to health care for vulnerable populations.

*h.* The bureau of chronic disease prevention and management supports the development and implementation of services that help prevent chronic disease or assist in the detection and management of chronic disease, including cancer, cardiovascular disease and diabetes.

**170.7(7) *Division of tobacco use prevention and control.*** This division promotes partnerships among state government, local communities, and the people of Iowa to reduce tobacco use. The division works to reduce tobacco use and the toll of tobacco-caused disease and death by preventing youth from starting to smoke, helping adults to quit smoking, and preventing exposure to secondhand smoke.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.8(17A) Central office.** The address of the central office is: Iowa Department of Public Health, Sixth Floor, Lucas State Office Building, Des Moines, Iowa 50319-0075. Locations of specific offices and regional offices may be obtained by writing to the department at the above address.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.9(17A) Business hours.** The normal business hours of the department are 8 a.m. to 4:30 p.m., Monday through Friday, except legal holidays. One notable exception is the vital records section, which staffs a customer service window just inside the north entrance of the Lucas State Office Building from 7 a.m. to 4:45 p.m., Monday through Friday, except legal holidays.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.10(17A) Submission of materials.** Requests for applications and submission of applications and other materials shall be made directly to the division of the department administering the relevant program. Any person who submits materials should enclose a cover letter which states the use for which the materials are intended. Where the administrative rules give a specific procedure, such procedure should be followed.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

**641—170.11(17A) Requests for information.** Requests for information concerning programs within the department should be addressed to the specific division of the department. General requests for information may be made to: Public Information Officer, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. The department's home page on the Internet, [www.idph.state.ia.us](http://www.idph.state.ia.us), also features a "contact us" option.

[ARC 8663B, IAB 4/7/10, effective 5/12/10]

These rules are intended to implement Iowa Code section 17A.3 and chapter 135.

CHAPTER 171  
PETITIONS FOR RULE MAKING  
[Prior to 7/29/87, Department of Health[470] Ch 171]

**641—171.1(17A) Petition for rule making.**

**171.1(1)** Any person or agency may file a petition for rule making with the Director, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. A petition is deemed filed when it is received by that office. The department must provide the petitioner with a file-stamped copy of the petition if the petitioner provides the agency an extra copy for this purpose. The petition must be typewritten, or legibly handwritten in ink and must substantially conform to the following form:

BEFORE THE DEPARTMENT OF PUBLIC HEALTH	
Petition by (Name of Petitioner) for the (adoption, amendment, or repeal) of rules relating to (state subject matter).	 PETITION FOR RULE MAKING

The petition must provide the following information:

1. A statement of the specific rule-making action sought by the petitioner including the text or a summary of the contents of the proposed rule or amendment to a rule and, if it is a petition to amend or repeal a rule, a citation and the relevant language to the particular portion or portions of the rule proposed to be amended or repealed.
2. A citation to any law deemed relevant to the department’s authority to take the action urged or to the desirability of that action.
3. A brief summary of petitioner’s arguments in support of the action urged in the petition.
4. A brief summary of any data supporting the action urged in the petition.
5. The names and addresses of other persons, or a description of any class of persons, known by petitioner to be affected by or interested in, the proposed action which is the subject of the petition.
6. Any request by petitioner for a meeting provided for by rule 641—171.4(17A).

**171.1(2)** The petition must be dated and signed by the petitioner or the petitioner’s representative. It must also include the name, mailing address, and telephone number of the petitioner and petitioner’s representative, and a statement indicating the person to whom communications concerning the petition should be directed.

**171.1(3)** The department may deny a petition because it does not substantially conform to the required form.

**641—171.2(17A) Briefs.** The petitioner may attach a brief to the petition in support of the action urged in the petition. The department may request a brief from the petitioner or from any other person concerning the substance of the petition.

**641—171.3(17A) Inquiries.** Inquiries concerning the status of a petition for rule making may be made to the Director, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**641—171.4(17A) Department consideration.**

**171.4(1)** Within 14 days after the filing of a petition, the department must submit a copy of the petition and any accompanying brief to the administrative rules coordinator and to the administrative rules review committee. Upon request by petitioner in the petition, the department must schedule a brief and informal meeting between the petitioner and a member of the staff of the department, to discuss the petition. The department may request the petitioner to submit additional information or argument concerning the petition. The department may also solicit comments from any person on the substance of the petition. Also, comments on the substance of the petition may be submitted to the department by any person.

**171.4(2)** Within 60 days after the filing of the petition, or within any longer period agreed to by the petitioner, the department must, in writing, deny the petition, and notify petitioner of its action and the specific grounds for the denial, or grant the petition and notify petitioner that it has instituted rule-making proceedings on the subject of the petition. Petitioner shall be deemed notified of the denial or grant of the petition on the date when the department mails or delivers the required notification to petitioner.

**171.4(3)** Denial of a petition because it does not substantially conform to the required form does not preclude the filing of a new petition on the same subject that seeks to eliminate the grounds for the agency's rejection of the petition.

These rules are intended to implement Iowa Code chapter 17A.

[Filed 3/18/76, Notice 2/9/76—published 4/5/76, effective 5/10/76]

[Filed emergency 7/10/87—published 7/29/87, effective 7/10/87]

[Filed 5/14/99, Notice 3/24/99—published 6/2/99, effective 7/7/99]

[Filed ARC 8664B (Notice ARC 8494B, IAB 1/27/10), IAB 4/7/10, effective 5/12/10]

CHAPTER 172  
DECLARATORY ORDERS  
[Prior to 7/29/87, Health Department[470] Ch 172]

**641—172.1(17A) Petition for declaratory order.** Any person may file a petition with the department of public health for a declaratory order as to the applicability to specified circumstances of a statute, rule, or order within the primary jurisdiction of the Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. A petition is deemed filed when it is received by that office. The department shall provide the petitioner with a file-stamped copy of the petition if the petitioner provides the department an extra copy for this purpose. The petition must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

---

BEFORE THE DEPARTMENT OF PUBLIC HEALTH

---

Petition by (Name of Petitioner) for a Declaratory Order on (Cite provisions of law involved).		PETITION FOR DECLARATORY ORDER
------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------	-----------------------------------

---

The petition must provide the following information:

1. A clear and concise statement of all relevant facts on which the order is requested.
2. A citation and the relevant language of the specific statutes, rules, policies, decisions, or orders, whose applicability is questioned, and any other relevant law.
3. The questions petitioner wants answered, stated clearly and concisely.
4. The answers to the questions desired by the petitioner and a summary of the reasons urged by the petitioner in support of those answers.
5. The reasons for requesting the declaratory order and disclosure of the petitioner’s interest in the outcome.
6. A statement indicating whether the petitioner is currently a party to another proceeding involving the questions at issue and whether, to the petitioner’s knowledge, those questions have been decided by, are pending determination by, or are under investigation by, any governmental entity.
7. The names and addresses of other persons, or a description of any class of persons, known by petitioner to be affected by, or interested in, the questions presented in the petition.
8. Any request by petitioner for a meeting provided for by 172.7(17A).

The petition must be dated and signed by the petitioner or the petitioner’s representative. It must also include the name, mailing address, and telephone number of the petitioner and petitioner’s representative and a statement indicating the person to whom communications concerning the petition should be directed.

**641—172.2(17A) Notice of petition.** Within 15 days after receipt of a petition for a declaratory order, the department shall give notice of the petition to all persons not served by the petitioner pursuant to 172.6(17A) to whom notice is required by any provision of law. The department may also give notice to any other persons.

**641—172.3(17A) Intervention.**

**172.3(1)** Persons who qualify under any applicable provision of law as an intervenor and who file a petition for intervention within 20 days of the filing of a petition for declaratory order shall be allowed to intervene in a proceeding for a declaratory order.

**172.3(2)** Any person who files a petition for intervention at any time prior to the issuance of an order may be allowed to intervene in a proceeding for a declaratory order at the discretion of the department.

**172.3(3)** A petition for intervention shall be filed at the Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. Such a petition is deemed filed when it is received by that office. The department will provide the petitioner with a file-stamped copy of the petition for

intervention if the petitioner provides an extra copy for this purpose. A petition for intervention must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

BEFORE THE DEPARTMENT OF PUBLIC HEALTH	
Petition by (Name of Original Petitioner) for a Declaratory Order on (Cite provisions of law cited in original petition).	 PETITION FOR INTERVENTION

The petition for intervention must provide the following information:

1. Facts supporting the intervenor's standing and qualifications for intervention.
2. The answers urged by the intervenor to the question or questions presented and a summary of the reasons urged in support of those answers.
3. Reasons for requesting intervention and disclosure of the intervenor's interest in the outcome.
4. A statement indicating whether the intervenor is currently a party to any proceeding involving the questions at issue and whether, to the intervenor's knowledge, those questions have been decided by, are pending determination by, or are under investigation by, any governmental entity.
5. The names and addresses of any additional persons, or a description of any additional class of persons, known by the intervenor to be affected by, or interested in, the questions presented.
6. Whether the intervenor consents to be bound by the determination of the matters presented in the declaratory order proceeding.

The petition must be dated and signed by the intervenor or the intervenor's representative. It must also include the name, mailing address, and telephone number of the intervenor and intervenor's representative, and a statement indicating the person to whom communications should be directed.

**641—172.4(17A) Briefs.** The petitioner or any intervenor may file a brief in support of the position urged. The department may request a brief from the petitioner, any intervenor, or any other person concerning the questions raised.

**641—172.5(17A) Inquiries.** Inquiries concerning the status of a declaratory order proceeding may be made to the Director, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075.

**641—172.6(17A) Service and filing of petitions and other papers.**

**172.6(1) Service—when required.** Except where otherwise provided by law, every petition for declaratory order, petition for intervention, brief, or other paper filed in a proceeding for a declaratory order shall be served upon each of the parties of record to the proceeding, and on all other persons identified in the petition for declaratory order or petition for intervention as affected by or interested in the questions presented, simultaneously with their filing. The party filing a document is responsible for service on all parties and other affected or interested persons.

**172.6(2) Filing—when required.** All petitions for declaratory orders, petitions for intervention, briefs, or other papers in a proceeding for a declaratory order shall be filed with the Director, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. All petitions, briefs, or other papers that are required to be served upon a party shall be filed simultaneously with the department.

**172.6(3) Method of service, time of filing, and proof of mailing.** Method of service, time of filing, and proof of mailing shall be as provided by 641—173.12(17A).

**641—172.7(17A) Consideration.** Upon request by petitioner, the department must schedule a brief and informal meeting between the original petitioner, all intervenors, and a member of the staff of the department, to discuss the questions raised. The department may solicit comments from any person on the questions raised. Also, comments on the questions raised may be submitted to the department by any person.

**641—172.8(17A) Action on petition.**

**172.8(1)** Within the time allowed by Iowa Code section 17A.9, after receipt of a petition for a declaratory order, the department or designee shall take action on the petition as required by Iowa Code section 17A.9.

**172.8(2)** The date of issuance of an order or of a refusal to issue an order is as defined in 641—173.2(17A).

[ARC 8665B, IAB 4/7/10, effective 5/12/10]

**641—172.9(17A) Refusal to issue order.**

**172.9(1)** The department shall not issue a declaratory order where prohibited by Iowa Code section 17A.9 and may refuse to issue a declaratory order on some or all questions raised for the following reasons:

1. The petition does not substantially comply with the required form.
2. The petition does not contain facts sufficient to demonstrate that the petitioner will be aggrieved or adversely affected by the failure of the department to issue an order.
3. The department does not have jurisdiction over the questions presented in the petition.
4. The questions presented by the petition are also presented in a current rule making, contested case, or other agency or judicial proceeding, that may definitively resolve them.
5. The questions presented by the petition would more properly be resolved in a different type of proceeding or by another body with jurisdiction over the matter.
6. The facts or questions presented in the petition are unclear, overbroad, insufficient, or otherwise inappropriate as a basis upon which to issue an order.
7. There is no need to issue an order because the questions raised in the petition have been settled due to a change in circumstances.
8. The petition is not based upon facts calculated to aid in the planning of future conduct but is, instead, based solely upon prior conduct in an effort to establish the effect of that conduct or to challenge an agency decision already made.
9. The petition requests a declaratory order that would necessarily determine the legal rights, duties, or responsibilities of other persons who have not joined in the petition, intervened separately, or filed a similar petition and whose position on the questions presented may fairly be presumed to be adverse to that of petitioner.
10. The petitioner requests the department to determine whether a statute is unconstitutional on its face.

**172.9(2)** A refusal to issue a declaratory order must indicate the specific grounds for the refusal and constitutes final agency action on the petition.

**172.9(3)** Refusal to issue a declaratory order pursuant to this provision does not preclude the filing of a new petition that seeks to eliminate the grounds for the refusal to issue an order.

[ARC 8665B, IAB 4/7/10, effective 5/12/10]

**641—172.10(17A) Contents of declaratory order—effective date.** In addition to the order itself, a declaratory order must contain the date of its issuance, the name of petitioner and all intervenors, the specific statutes, rules, policies, decisions, or orders involved, the particular facts upon which it is based, and the reasons for its conclusion. A declaratory order is effective on the date of issuance.

**641—172.11(17A) Copies of orders.** A copy of all orders issued in response to a petition for a declaratory order shall be mailed promptly to the original petitioner and all intervenors.

**641—172.12(17A) Effect of a declaratory order.** A declaratory order has the same status and binding effect as a final order issued in a contested case proceeding. It is binding on the department, the petitioner, and any intervenors and is applicable only in circumstances where the relevant facts and the law involved are indistinguishable from those on which the order was based. As to all other persons, a declaratory

order serves only as precedent and is not binding on the department. The issuance of a declaratory order constitutes final agency action on the petition.

These rules are intended to implement Iowa Code chapter 17A.

CHAPTER 173  
CONTESTED CASES

[Prior to 7/29/87, Health Department[470] Ch 173]

**641—173.1(17A) Scope and applicability.** This chapter applies to contested case proceedings conducted by the department of public health.

**641—173.2(17A) Definitions.** Except where otherwise specifically defined by law:

“*Contested case*” means a proceeding defined by Iowa Code section 17A.2(5) and includes any matter defined as a no factual dispute contested case under 1998 Iowa Acts, chapter 1202, section 14.

“*Issuance*” means the date of mailing of a decision or order or date of delivery if service is by other means unless another date is specified in the order.

“*Party*” means each person or agency named or admitted as a party or properly seeking and entitled as of right to be admitted as a party.

“*Presiding officer*” means an administrative law judge from the department of inspections and appeals or the director of the department or the members of a multimember board or commission.

“*Proposed decision*” means the presiding officer’s recommended findings of fact, conclusions of law, decision, and order in a contested case in which the department did not preside.

**641—173.3(17A) Time requirements.**

**173.3(1)** Time shall be computed as provided in Iowa Code subsection 4.1(34).

**173.3(2)** For good cause, the presiding officer may extend or shorten the time to take any action, except as precluded by statute or by rule. Except for good cause stated in the record, before extending or shortening the time to take any action, the presiding officer shall afford all parties an opportunity to be heard or to file written arguments.

**641—173.4(17A) Requests for contested case proceeding.** Any person claiming an entitlement to a contested case proceeding shall file a written request for such a proceeding within the time specified by the particular rules or statutes governing the subject matter or, in the absence of such law, the time specified in the agency action in question.

The request for a contested case proceeding should state the name and address of the requester, identify the specific department action which is disputed, and where the requester is represented by a lawyer identify the provisions of law or precedent requiring or authorizing the holding of a contested case proceeding in the particular circumstances involved, and include a short and plain statement of the issues of material fact in dispute.

**641—173.5(17A) Notice of hearing.**

**173.5(1) Delivery.** Delivery of the notice of hearing constitutes the commencement of the contested case proceeding. Delivery may be executed by:

- a. Personal service as provided in the Iowa Rules of Civil Procedure; or
- b. Certified mail, return receipt requested; or
- c. First-class mail; or
- d. Publication, as provided in the Iowa Rules of Civil Procedure.

**173.5(2) Contents.** The notice of hearing shall contain the following information:

- a. A statement of the time, place, and nature of the hearing;
- b. A statement of the legal authority and jurisdiction under which the hearing is to be held;
- c. A reference to the particular sections of the statutes and rules involved;
- d. A short and plain statement of the matters asserted. If the department or other party is unable to state the matters in detail at the time the notice is served, the initial notice may be limited to a statement of the issues involved. Thereafter, upon application, a more definite and detailed statement shall be furnished;

e. Identification of all parties including the name, address and telephone number of the person who will act as advocate for the department or the state and of parties’ counsel where known;

- f.* Reference to the procedural rules governing conduct of the contested case proceeding;
- g.* Reference to the procedural rules governing informal settlement;
- h.* Identification of the presiding officer, if known. If not known, a description of who will serve as presiding officer; and
- i.* Notification of the time period in which a party may request, pursuant to 1998 Iowa Acts, chapter 1202, section 15(1), and rule 173.6(17A), that the presiding officer be an administrative law judge.

**641—173.6(17A) Presiding officer.**

**173.6(1)** Any party who wishes to request that the presiding officer assigned to render a proposed decision be an administrative law judge employed by the department of inspections and appeals must file a written request within 20 days after service of a notice of hearing which identifies or describes the presiding officer as the director of the department or members of the department.

**173.6(2)** The department may deny the request only upon a finding that one or more of the following apply:

- a.* Neither the department nor any officer of the department under whose authority the contested case is to take place is a named party to the proceeding or a real party in interest to that proceeding.
- b.* There is a compelling need to expedite issuance of a final decision in order to protect the public health, safety, or welfare.
- c.* An administrative law judge with the qualifications identified in subrule 173.6(4) is unavailable to hear the case within a reasonable time.
- d.* The case involves significant policy issues of first impression that are inextricably intertwined with the factual issues presented.
- e.* The demeanor of the witnesses is likely to be dispositive in resolving the disputed factual issues.
- f.* Funds are unavailable to pay the costs of an administrative law judge and an interagency appeal.
- g.* The request was not timely filed.
- h.* The request is not consistent with a specified statute.

**173.6(3)** The department shall issue a written ruling specifying the grounds for its decision within 20 days after a request for an administrative law judge is filed. If the ruling is contingent upon the availability of an administrative law judge with the qualifications identified in subrule 173.6(4), the parties shall be notified at least 10 days prior to hearing if a qualified administrative law judge will not be available.

**173.6(4)** An administrative law judge assigned to act as presiding officer in a contested case shall have the following technical expertness unless waived by the department: a J.D. degree.

**173.6(5)** Except as provided otherwise by another provision of law, all rulings by an administrative law judge acting as presiding officer are subject to appeal to the department. A party must seek any available intra-agency appeal in order to exhaust adequate administrative remedies.

**173.6(6)** Unless otherwise provided by law, the director of the department and members of multimember boards and commissions, when reviewing a proposed decision upon intra-agency appeal, shall have the powers of and shall comply with the provisions of this chapter which apply to presiding officers.

**641—173.7(17A) Waiver of procedures.** Unless otherwise precluded by law, the parties in a contested case proceeding may waive any provision of this chapter. However, the department in its discretion may refuse to give effect to such a waiver when it deems the waiver to be inconsistent with the public interest.

**641—173.8(17A) Telephone proceedings.** The presiding officer may resolve preliminary procedural motions by telephone conference in which all parties have an opportunity to participate. Other telephone proceedings may be held with the consent of all parties. The presiding officer will determine the location of the parties and witnesses for telephone hearings. The convenience of the witnesses or parties, as well as the nature of the case, will be considered when location is chosen.

**641—173.9(17A) Disqualification.**

**173.9(1)** A presiding officer or other person shall withdraw from participation in the making of any proposed or final decision in a contested case if that person:

- a.* Has a personal bias or prejudice concerning a party or a representative of a party;
- b.* Has personally investigated, prosecuted or advocated in connection with that case, the specific controversy underlying that case, another pending factually related contested case, or a pending factually related controversy that may culminate in a contested case involving the same parties;
- c.* Is subject to the authority, direction or discretion of any person who has personally investigated, prosecuted or advocated in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy involving the same parties;
- d.* Has acted as counsel to any person who is a private party to that proceeding within the past two years;
- e.* Has a personal financial interest in the outcome of the case or any other significant personal interest that could be substantially affected by the outcome of the case;
- f.* Has a spouse or relative within the third degree of relationship that (1) is a party to the case, or an officer, director or trustee of a party; (2) is a lawyer in the case; (3) is known to have an interest that could be substantially affected by the outcome of the case; or (4) is likely to be a material witness in the case; or
- g.* Has any other legally sufficient cause to withdraw from participation in the decision making in that case.

**173.9(2)** The term “personally investigated” means taking affirmative steps to interview witnesses directly or to obtain documents or other information directly. The term “personally investigated” does not include general direction and supervision of assigned investigators, unsolicited receipt of information which is relayed to assigned investigators, review of another person’s investigative work product in the course of determining whether there is probable cause to initiate a proceeding, or exposure to factual information while performing other agency functions, including fact gathering for purposes other than investigation of the matter which culminates in a contested case. Factual information relevant to the merits of a contested case received by a person who later serves as presiding officer in that case shall be disclosed if required by Iowa Code section 17A.17 as amended by 1998 Iowa Acts, chapter 1202, section 19, and subrules 173.9(3) and 173.23(9).

**173.9(3)** In a situation where a presiding officer or other person knows of information which might reasonably be deemed to be a basis for disqualification and decides voluntary withdrawal is unnecessary, that person shall submit the relevant information for the record by affidavit and shall provide for the record a statement of the reasons for the determination that withdrawal is unnecessary.

**173.9(4)** If a party asserts disqualification on any appropriate ground, including those listed in subrule 173.9(1), the party shall file a motion supported by an affidavit pursuant to 1998 Iowa Acts, chapter 1202, section 19(7). The motion must be filed as soon as practicable after the reason alleged in the motion becomes known to the party.

If the presiding officer determines that disqualification is appropriate, the presiding officer or other person shall withdraw. If the presiding officer determines that withdrawal is not required, the presiding officer shall enter an order to that effect. A party asserting disqualification may seek an interlocutory appeal under rule 173.25(17A) and seek a stay under rule 173.29(17A).

#### **641—173.10(17A) Consolidation—severance.**

**173.10(1)** *Consolidation.* The presiding officer may consolidate any or all matters at issue in two or more contested case proceedings where (a) the matters at issue involve common parties or common questions of fact or law; (b) consolidation would expedite and simplify consideration of the issues involved; and (c) consolidation would not adversely affect the rights of any of the parties to those proceedings.

**173.10(2)** *Severance.* The presiding officer may, for good cause shown, order any contested case proceedings or portions thereof severed.

#### **641—173.11(17A) Pleadings.**

**173.11(1)** Pleadings may be required by rule, by the notice of hearing, or by order of the presiding officer.

**173.11(2)** Answer. An answer shall be filed within 20 days of service of the notice of hearing unless otherwise ordered. A party may move to dismiss or apply for a more definite and detailed statement when appropriate.

An answer shall show on whose behalf it is filed and specifically admit, deny, or otherwise answer all material allegations of the notice of hearing to which it responds. It shall state any facts deemed to show an affirmative defense and contain as many additional defenses as the pleader may claim.

An answer shall state the name, address and telephone number of the person filing the answer, the person or entity on whose behalf it is filed, and the attorney representing that person, if any.

Any allegation in the notice of hearing not denied in the answer is considered admitted. The presiding officer may refuse to consider any defense not raised in the answer which could have been raised on the basis of facts known when the answer was filed if any party would be prejudiced.

**173.11(3)** Amendment. Notices of hearing and answers may be amended with the consent of the parties or in the discretion of the presiding officer who may impose terms or grant a continuance.

**641—173.12(17A) Service and filing of pleadings and other papers.**

**173.12(1)** *Service—when required.* Except where otherwise provided by law, every document filed in a contested case proceeding shall be served upon each of the parties of record to the proceeding, including the person designated as prosecutor for the state or the department, simultaneously with their filing. Except for the original notice of hearing and an application for rehearing as provided in Iowa Code section 17A.16(2), the party filing a document is responsible for service on all parties.

**173.12(2)** *Service—how made.* Service upon a party represented by an attorney shall be made upon the attorney unless otherwise ordered. Service is made by delivery or by mailing a copy to the person's last-known address. Service by mail is complete upon mailing, except where otherwise specifically provided by statute, rule, or order.

**173.12(3)** *Filing—when required.* After the notice of hearing, all documents in a contested case proceeding shall be filed with the Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. All documents that are required to be served upon a party shall be filed simultaneously with the department.

**173.12(4)** *Filing—when made.* Except where otherwise provided by law, a document is deemed filed at the time it is delivered to the department, delivered to an established courier service for immediate delivery to that office, or mailed by first-class mail or state interoffice mail to that office, so long as there is proof of mailing.

**173.12(5)** *Proof of mailing.* Proof of mailing includes either: a legible United States Postal Service postmark on the envelope, a certificate of service, a notarized affidavit, or a certification in substantially the following form:

I certify under penalty of perjury and pursuant to the laws of Iowa that, on (date of mailing), I mailed copies of (describe document) addressed to the Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075, and to the names and addresses of the parties listed below by depositing the same in (a United States post office mailbox with correct postage properly affixed or state interoffice mail).

(Date)

(Signature)

**641—173.13(17A) Discovery.**

**173.13(1)** Discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by these rules or by order of the presiding officer, time periods for compliance with discovery shall be as provided in the Iowa Rules of Civil Procedure.

**173.13(2)** Any motion relating to discovery shall allege that the moving party has previously made a good-faith attempt to resolve the discovery issues involved with the opposing party. Motions in regard to discovery shall be ruled upon by the presiding officer. Opposing parties shall be afforded the opportunity

to respond within ten days of the filing of the motion unless the time is shortened as provided in subrule 173.13(1). The presiding officer may rule on the basis of the written motion and any response, or may order argument on the motion.

**173.13(3)** Evidence obtained in discovery may be used in the contested case proceeding if that evidence would otherwise be admissible in that proceeding.

**641—173.14(17A,135) Subpoenas.**

**173.14(1)** *Investigatory subpoenas.*

a. The department may subpoena books, papers, records, and other real evidence which is necessary for the department to decide whether to institute a contested case proceeding. Each subpoena shall contain:

- (1) The name and address of the person to whom the subpoena is directed;
- (2) A description of the books, papers, records or other real evidence requested;
- (3) The date, time and location for production, or inspection and copying;
- (4) The time within which a motion to quash or modify the subpoena must be filed;
- (5) The signature, address and telephone number of the division director or designee;
- (6) The date of issuance;
- (7) A return of service.

b. Any person who is aggrieved or adversely affected by compliance with the subpoena and who desires to challenge the subpoena must, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days, file with the department a motion to quash or modify the subpoena. The motion shall describe the legal reasons why the subpoena should be quashed or modified, and may be accompanied by legal briefs or factual affidavits.

c. Upon receipt of a timely motion to quash or modify a subpoena, the department may request an administrative law judge to issue a decision. Oral argument may be scheduled at the discretion of the administrative law judge. The administrative law judge may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.

d. A person who is aggrieved by a ruling of an administrative law judge and who desires to challenge that ruling must appeal the ruling to the department by serving on the department director, either in person or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

e. If the person contesting the subpoena is not the person under investigation, the department's decision is final for purposes of judicial review. If the person contesting the subpoena is the person under investigation, the department's decision is not final for purposes of judicial review until either (1) the person is notified the investigation has been concluded with no formal action, or (2) there is a final decision in the case.

**173.14(2)** *Issuance of subpoenas in a contested case.*

a. Subpoenas issued in a contested case may compel the attendance of witnesses at a deposition or hearing, and may compel the production of books, papers, records, and other real evidence. A command to produce evidence or to permit inspection may be joined with a command to appear at a deposition or hearing, or may be issued separately. Subpoenas shall be issued by the department upon written request. In the absence of good cause, a request for a subpoena must be received at least three days before the scheduled hearing.

b. A request for a subpoena shall include the following information, as applicable, unless the subpoena is requested to compel testimony or documents for rebuttal or impeachment purposes:

- (1) The name, address and telephone number of the person requesting the subpoena;
- (2) The name and address of the person to whom the subpoena shall be directed;
- (3) The date, time and location at which the person shall be commanded to attend and give testimony;
- (4) Whether the testimony is requested in connection with a deposition or hearing;
- (5) A description of the books, papers, records or other real evidence requested;
- (6) The date, time and location for production, or inspection and copying.

- c.* Each subpoena shall contain, as applicable:
- (1) The caption of the case;
  - (2) The name, address and telephone number of the person who requested the subpoena;
  - (3) The name and address of the person to whom the subpoena is directed;
  - (4) The date, time and location at which the person is commanded to appear;
  - (5) Whether the testimony is commanded in connection with a deposition or hearing;
  - (6) A description of the books, papers, records or other real evidence the person is commanded to produce;
  - (7) The date, time and location for production, or inspection and copying;
  - (8) The time within which a motion to quash or modify the subpoena must be filed;
  - (9) The signature, address and telephone number of the division director or designee;
  - (10) The date of issuance;
  - (11) A return of service.
- d.* Unless a subpoena is requested to compel testimony or documents for rebuttal or impeachment purposes, the division director or designee shall mail copies of all subpoenas to the parties to the contested case. The person who requested the subpoena is responsible for serving the subpoena upon the subject of the subpoena.
- e.* Any person who is aggrieved or adversely affected by compliance with the subpoena, or any party to the contested case who desires to challenge the subpoena must, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days, file with the department a motion to quash or modify the subpoena. The motion shall describe the legal reasons why the subpoena should be quashed or modified, and may be accompanied by legal briefs or factual affidavits.
- f.* Upon receipt of a timely motion to quash or modify a subpoena, the department may request an administrative law judge to issue a decision. Oral argument may be scheduled at the discretion of the administrative law judge. The administrative law judge may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.
- g.* A person who is aggrieved by a ruling of an administrative law judge and who desires to challenge that ruling must appeal the ruling to the department by serving on the department director, either in person or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

#### **641—173.15(17A) Motions.**

**173.15(1)** No technical form for motions is required. However, prehearing motions must be in writing, state the grounds for relief, and state the relief sought.

**173.15(2)** Any party may file a written response to a motion within ten days after the motion is served. The presiding officer may consider a failure to respond within the required time period in ruling on a motion.

**173.15(3)** The presiding officer may schedule oral argument on any motion.

**173.15(4)** Motions pertaining to the hearing, except motions for summary judgment, must be filed and served at least ten days prior to the date of hearing unless there is good cause for permitting later action or the time for such action is lengthened or shortened by an order of the presiding officer.

**173.15(5)** Motions for summary judgment. Motions for summary judgment shall comply with the requirements of Iowa Rule of Civil Procedure 237 and shall be subject to disposition according to the requirements of that rule to the extent such requirements are not inconsistent with the provisions of this rule or any other provision of law governing the procedure in contested cases.

Motions for summary judgment must be filed and served at least 45 days prior to the scheduled hearing date, or other time period determined by the presiding officer. Any party resisting the motion shall file and serve a resistance within 15 days, unless otherwise ordered by the presiding officer, from the date a copy of the motion was served. The time fixed for hearing or nonoral submission shall be not less than 20 days after the filing of the motion, unless a shorter time is ordered by the presiding officer.

A summary judgment order rendered on all issues in a contested case is subject to rehearing pursuant to 173.28(17A) and appeal pursuant to 173.27(17A).

**641—173.16(17A) Prehearing conference.**

**173.16(1)** Any party may request a prehearing conference. A written request for prehearing conference or an order for prehearing conference on the presiding officer's own motion shall be filed not less than seven days prior to the hearing date. A prehearing conference shall be scheduled not less than three business days prior to the hearing date.

Written notice of the prehearing conference shall be given by the presiding officer to all parties. For good cause the presiding officer may permit variances from this rule.

**173.16(2)** Each party shall bring to the prehearing conference:

*a.* A final list of the witnesses who the party anticipates will testify at hearing. Witnesses not listed may be excluded from testifying unless there was good cause for the failure to include their names; and

*b.* A final list of exhibits which the party anticipates will be introduced at hearing. Exhibits other than rebuttal exhibits that are not listed may be excluded from admission into evidence unless there was good cause for the failure to include them.

*c.* Witness or exhibit lists may be amended subsequent to the prehearing conference within the time limits established by the presiding officer at the prehearing conference. Any such amendments must be served on all parties.

**173.16(3)** In addition to the requirements of subrule 173.16(2), the parties at a prehearing conference may:

*a.* Enter into stipulations of law or fact;

*b.* Enter into stipulations on the admissibility of exhibits;

*c.* Identify matters which the parties intend to request be officially noticed;

*d.* Enter into stipulations for waiver of any provision of law; and

*e.* Consider any additional matters which will expedite the hearing.

**173.16(4)** Prehearing conferences shall be conducted by telephone unless otherwise ordered. Parties shall exchange and receive witness and exhibit lists in advance of a telephone prehearing conference.

**641—173.17(17A) Continuances.** Applications for continuances shall be made to the presiding officer.

**173.17(1)** A written application for a continuance shall:

*a.* Be made at the earliest possible time and no less than seven days before the hearing except in case of unanticipated emergencies;

*b.* State the specific reasons for the request; and

*c.* Be signed by the requesting party or the party's representative.

**173.17(2)** In determining whether to grant a continuance, the presiding officer may consider:

*a.* Prior continuances;

*b.* The interests of all parties;

*c.* The likelihood of informal settlement;

*d.* The existence of an emergency;

*e.* Any objection;

*f.* Any applicable time requirements;

*g.* The existence of a conflict in the schedules of counsel, parties, or witnesses;

*h.* The timeliness of the request; and

*i.* Other relevant factors.

The presiding officer may require documentation of any grounds for continuance.

**641—173.18(17A) Withdrawals.** A party requesting a contested case proceeding may withdraw that request prior to the hearing only in accordance with department rules. Unless otherwise provided, a withdrawal shall be with prejudice.

**641—173.19(17A) Intervention.**

**173.19(1) Motion.** A motion for leave to intervene in a contested case proceeding shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding. A proposed answer or petition in intervention shall be attached to the motion. Any party may file a response within 14 days of service of the motion to intervene unless the time period is extended or shortened by the presiding officer.

**173.19(2) When filed.** Motion for leave to intervene shall be filed as early in the proceeding as possible to avoid adverse impact on existing parties or the conduct of the proceeding. Unless otherwise ordered, a motion for leave to intervene shall be filed before the prehearing conference, if any, or at least 20 days before the date scheduled for hearing. Any later motion must contain a statement of good cause for the failure to file in a timely manner. Unless inequitable or unjust, an intervenor shall be bound by any agreement, arrangement, or other matter previously raised in the case. Requests by untimely intervenors for continuances which would delay the proceeding will ordinarily be denied.

**173.19(3) Grounds for intervention.** The movant shall demonstrate that (a) intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties; (b) the movant is likely to be aggrieved or adversely affected by a final order in the proceeding; and (c) the interests of the movant are not adequately represented by existing parties.

**173.19(4) Effect of intervention.** If appropriate, the presiding officer may order consolidation of the petitions and briefs of different parties whose interests are aligned with each other and limit the number of representatives allowed to participate actively in the proceedings. A person granted leave to intervene is a party to the proceeding. The order granting intervention may restrict the issues that may be raised by the intervenor or otherwise condition the intervenor's participation in the proceeding.

#### **641—173.20(17A) Hearing procedures.**

**173.20(1)** The presiding officer presides at the hearing, and may rule on motions, require briefs, issue a proposed decision, and issue such orders and rulings as will ensure the orderly conduct of the proceedings.

**173.20(2)** All objections shall be timely made and stated on the record.

**173.20(3)** Parties have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Partnerships, corporations, or associations may be represented by any member, officer, director, or duly authorized agent. Any party may be represented by an attorney or another person authorized by law.

**173.20(4)** Subject to terms and conditions prescribed by the presiding officer, parties have the right to introduce evidence on issues of material fact, cross-examine witnesses present at the hearing as necessary for a full and true disclosure of the facts, present evidence in rebuttal, and submit briefs and engage in oral argument.

**173.20(5)** The presiding officer shall maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly.

**173.20(6)** Witnesses may be sequestered during the hearing.

**173.20(7)** The presiding officer shall conduct the hearing in the following manner:

*a.* The presiding officer shall give an opening statement briefly describing the nature of the proceedings;

*b.* The parties shall be given an opportunity to present opening statements;

*c.* Parties shall present their cases in the sequence determined by the presiding officer;

*d.* Each witness shall be sworn or affirmed by the presiding officer or the court reporter, and be subject to examination and cross-examination. The presiding officer may limit questioning in a manner consistent with law;

*e.* When all parties and witnesses have been heard, parties may be given the opportunity to present final arguments.

#### **641—173.21(17A) Evidence.**

**173.21(1)** The presiding officer shall rule on admissibility of evidence and may, where appropriate, take official notice of facts in accordance with all applicable requirements of law.

**173.21(2)** Stipulation of facts is encouraged. The presiding officer may make a decision based on stipulated facts.

**173.21(3)** Evidence in the proceeding shall be confined to the issues as to which the parties received notice prior to the hearing unless the parties waive their right to such notice or the presiding officer determines that good cause justifies expansion of the issues. If the presiding officer decides to admit evidence on issues outside the scope of the notice over the objection of a party who did not have actual notice of those issues, that party, upon timely request, shall receive a continuance sufficient to amend pleadings and to prepare on the additional issue.

**173.21(4)** The party seeking admission of an exhibit must provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents should normally be provided to opposing parties.

All exhibits admitted into evidence shall be appropriately marked and be made part of the record.

**173.21(5)** Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. Such an objection shall be accompanied by a brief statement of the grounds upon which it is based. The objection, the ruling on the objection, and the reasons for the ruling shall be noted in the record. The presiding officer may rule on the objection at the time it is made or may reserve a ruling until the written decision.

**173.21(6)** Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony shall briefly summarize the testimony or, with permission of the presiding officer, present the testimony. If the excluded evidence consists of a document or exhibit, it shall be marked as part of an offer of proof and inserted in the record.

#### **641—173.22(17A) Default.**

**173.22(1)** If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no adjournment is granted, enter a default decision or proceed with the hearing and render a decision in the absence of the party.

**173.22(2)** Where appropriate and not contrary to law, any party may move for default against a party who has requested the contested case proceeding and has failed to file a required pleading or has failed to appear after proper service.

**173.22(3)** Default decisions or decisions rendered on the merits after a party has failed to appear or participate in a contested case proceeding become final agency action unless, within 15 days after the date of notification or mailing of the decision, a motion to vacate is filed and served on all parties or an appeal of a decision on the merits is timely initiated within the time provided by rule 173.27(17A). A motion to vacate must state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate at the contested case proceeding. Each fact so stated must be substantiated by at least one sworn affidavit of a person with personal knowledge of each such fact, which affidavit(s) must be attached to the motion.

**173.22(4)** The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

**173.22(5)** Properly substantiated and timely filed motions to vacate shall be granted only for good cause shown. The burden of proof as to good cause is on the moving party. Adverse parties shall have ten days to respond to a motion to vacate. Adverse parties shall be allowed to conduct discovery as to the issue of good cause and to present evidence on the issue prior to a decision on the motion, if a request to do so is included in that party's response.

**173.22(6)** "Good cause" for purposes of this rule shall have the same meaning as "good cause" for setting aside a default judgment under Iowa Rule of Civil Procedure 236.

**173.22(7)** A decision denying a motion to vacate is subject to further appeal within the time limit allowed for further appeal of a decision on the merits in the contested case proceeding. A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party pursuant to rule 173.25(17A).

**173.22(8)** If a motion to vacate is granted and no timely interlocutory appeal has been taken, the presiding officer shall issue another notice of hearing and the contested case shall proceed accordingly.

**173.22(9)** A default decision may award any relief consistent with the request for relief made in the petition and embraced in its issues (but, unless the defaulting party has appeared, it cannot exceed the relief demanded).

**173.22(10)** A default decision may provide either that the default decision is to be stayed pending a timely motion to vacate or that the default decision is to take effect immediately, subject to a request for stay under rule 173.29(17A).

**641—173.23(17A) Ex parte communication.**

**173.23(1)** Prohibited communications. Unless required for the disposition of ex parte matters specifically authorized by statute, following issuance of the notice of hearing, there shall be no communication, directly or indirectly, between the presiding officer and any party or representative of any party or any other person with a direct or indirect interest in such case in connection with any issue of fact or law in the case except upon notice and opportunity for all parties to participate. This does not prohibit persons jointly assigned such tasks from communicating with each other. Nothing in this provision is intended to preclude the presiding officer from communicating with members of the department or seeking the advice or help of persons other than those with a personal interest in, or those engaged in personally investigating as defined in subrule 173.9(2), prosecuting, or advocating in, either the case under consideration or a pending factually related case involving the same parties as long as those persons do not directly or indirectly communicate to the presiding officer any ex parte communications they have received of a type that the presiding officer would be prohibited from receiving or that furnish, augment, diminish, or modify the evidence in the record.

**173.23(2)** Prohibitions on ex parte communications commence with the issuance of the notice of hearing in a contested case and continue for as long as the case is pending.

**173.23(3)** Written, oral or other forms of communication are “ex parte” if made without notice and opportunity for all parties to participate.

**173.23(4)** To avoid prohibited ex parte communications, notice must be given in a manner reasonably calculated to give all parties a fair opportunity to participate. Notice of written communications shall be provided in compliance with rule 173.12(17A) and may be supplemented by telephone, facsimile, electronic mail or other means of notification. Where permitted, oral communications may be initiated through conference telephone call including all parties or their representatives.

**173.23(5)** Persons who jointly act as presiding officer in a pending contested case may communicate with each other without notice or opportunity for parties to participate.

**173.23(6)** The division director or other persons may be present in deliberations or otherwise advise the presiding officer without notice or opportunity for parties to participate as long as they are not disqualified from participating in the making of a proposed or final decision under any provision of law and they comply with subrule 173.23(1).

**173.23(7)** Communications with the presiding officer involving uncontested scheduling or procedural matters do not require notice or opportunity for parties to participate. Parties should notify other parties prior to initiating such contact with the presiding officer when feasible, and shall notify other parties when seeking to continue hearings or other deadlines pursuant to rule 173.17(17A).

**173.23(8)** Disclosure of prohibited communications. A presiding officer who receives a prohibited ex parte communication during the pendency of a contested case must initially determine if the effect of the communication is so prejudicial that the presiding officer should be disqualified. If the presiding officer determines that disqualification is warranted, a copy of any prohibited written communication, all written responses to the communication, a written summary stating the substance of any prohibited oral or other communication not available in written form for disclosure, all responses made, and the identity of each person from whom the presiding officer received a prohibited ex parte communication shall be submitted for inclusion in the record under seal by protective order (or disclosed). If the presiding officer determines that disqualification is not warranted, such documents shall be submitted

for inclusion in the record and served on all parties. Any party desiring to rebut the prohibited communication must be allowed the opportunity to do so upon written request filed within ten days after notice of the communication.

**173.23(9)** Promptly after being assigned to serve as presiding officer at any stage in a contested case proceeding, a presiding officer shall disclose to all parties material factual information received through ex parte communication prior to such assignment unless the factual information has already been or shortly will be disclosed pursuant to Iowa Code section 17A.13(2) or through discovery. Factual information contained in an investigative report or similar document need not be separately disclosed by the presiding officer as long as such documents have been or will shortly be provided to the parties.

**173.23(10)** The presiding officer may render a proposed or final decision imposing appropriate sanctions for violations of this rule including default, a decision against the offending party, censure, or suspension or revocation of the privilege to practice before the department. Violation of ex parte communication prohibitions by department personnel shall be reported to the director for possible sanctions including censure, suspension, dismissal, or other disciplinary action.

**641—173.24(17A) Recording costs.** Upon request, the department shall provide a copy of the whole or any portion of the record at cost. The cost of preparing a copy of the record or of transcribing the hearing record shall be paid by the requesting party. Parties who request that a hearing be recorded by certified shorthand reporters rather than by electronic means shall bear the cost of that recordation, unless otherwise provided by law.

**641—173.25(17A) Interlocutory appeals.** Upon written request of a party or on its own motion, the director or board or commission may review an interlocutory order of the presiding officer. In determining whether to do so, the director or board or commission shall weigh the extent to which its granting the interlocutory appeal would expedite final resolution of the case and the extent to which review of that interlocutory order by the department at the time it reviews the proposed decision of the presiding officer would provide an adequate remedy. Any request for interlocutory review must be filed within 14 days of issuance of the challenged order, but no later than the time for compliance with the order or the date of hearing, whichever is first.

**641—173.26(17A) Final decision.**

**173.26(1)** When the director of the department presides over the reception of evidence at the hearing, the decision is a final decision.

**173.26(2)** When the director of the department does not preside at the reception of evidence, the presiding officer shall make a proposed decision. The proposed decision becomes the final decision of the department without further proceedings unless there is an appeal to, or review on motion of, the department within the time provided in rule 173.27(17A).

**641—173.27(17A) Appeals and review.**

**173.27(1) Appeal by party.** Any adversely affected party may appeal a proposed decision to the director within 30 days after issuance of the proposed decision.

**173.27(2) Review.** The director may initiate review of a proposed decision on its own motion at any time within 30 days following the issuance of such a decision.

**173.27(3) Notice of appeal.** An appeal of a proposed decision is initiated by filing a timely notice of appeal with the department. The notice of appeal must be signed by the appealing party or a representative of that party and contain a certificate of service. The notice shall specify:

- a. The parties initiating the appeal;
- b. The proposed decision or order appealed from;
- c. The specific findings or conclusions to which exception is taken and any other exceptions to the decision or order;
- d. The relief sought;
- e. The grounds for relief.

**173.27(4) Requests to present additional evidence.** A party may request the taking of additional evidence only by establishing that the evidence is material, that good cause existed for the failure to present the evidence at the hearing, and that the party has not waived the right to present the evidence. A written request to present additional evidence must be filed with the notice of appeal or, by a nonappealing party, within 14 days of service of the notice of appeal. The director may remand a case to the presiding officer for further hearing or the director may preside at the taking of additional evidence.

**173.27(5) Scheduling.** The department shall issue a schedule for consideration of the appeal.

**173.27(6) Briefs and arguments.** Unless otherwise ordered, within 20 days of the notice of appeal or order for review, each appealing party may file exceptions and briefs. Within 20 days thereafter, any party may file a responsive brief. Briefs shall cite any applicable legal authority and specify relevant portions of the record in that proceeding. Written requests to present oral argument shall be filed with the briefs.

The director may resolve the appeal on the briefs or provide an opportunity for oral argument. The director may shorten or extend the briefing period as appropriate.

#### **641—173.28(17A) Applications for rehearing.**

**173.28(1) By whom filed.** Any party to a contested case proceeding may file an application for rehearing from a final order.

**173.28(2) Content of application.** The application for rehearing shall state on whose behalf it is filed, the specific grounds for rehearing, and the relief sought. In addition, the application shall state whether the applicant desires reconsideration of all or part of the department decision on the existing record and whether, on the basis of the grounds enumerated in subrule 173.27(4), the applicant requests an opportunity to submit additional evidence.

**173.28(3) Time of filing.** The application shall be filed with the department within 20 days after issuance of the final decision.

**173.28(4) Notice to other parties.** A copy of the application shall be timely mailed by the applicant to all parties of record not joining therein. If the application does not contain a certificate of service, the department shall serve copies on all parties.

**173.28(5) Disposition.** Any application for a rehearing shall be deemed denied unless the department grants the application within 20 days after its filing.

#### **641—173.29(17A) Stays of department actions.**

**173.29(1) When available.**

*a.* Any party to a contested case proceeding may petition the department for a stay of an order issued in that proceeding or for other temporary remedies, pending review by the department. The petition shall be filed with the notice of appeal and shall state the reasons justifying a stay or other temporary remedy. The director may rule on the stay or authorize the presiding officer to do so.

*b.* Any party to a contested case proceeding may petition the department for a stay or other temporary remedies pending judicial review of all or part of that proceeding. The petition shall state the reasons justifying a stay or other temporary remedy.

**173.29(2) When granted.** In determining whether to grant a stay, the presiding officer or the board, commission, or director, as appropriate, shall consider the factors listed in 1998 Iowa Acts, chapter 1202, section 23(5c).

**173.29(3) Vacation.** A stay may be vacated by the issuing authority upon application of the department or any other party.

**641—173.30(17A) No factual dispute contested cases.** If the parties agree that no dispute of material fact exists as to a matter that would be a contested case if such a dispute of fact existed, the parties may present all relevant admissible evidence either by stipulation or otherwise as agreed by the parties, without necessity for the production of evidence at an evidentiary hearing. If such agreement is reached, a jointly submitted schedule detailing the method and timetable for submission of the record, briefs and oral argument should be submitted to the presiding officer for approval as soon as practicable. If the

parties cannot agree, any party may file and serve a motion for summary judgment pursuant to the rules governing such motions.

**641—173.31(17A) Emergency adjudicative proceedings.**

**173.31(1) *Necessary emergency action.*** To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare and, consistent with the Constitution and other provisions of law, the department may issue a written order in compliance with Iowa Code section 17A.18 to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order. Before issuing an emergency adjudicative order the department shall consider factors including, but not limited to, the following:

- a. Whether there has been a sufficient factual investigation to ensure that the department is proceeding on the basis of reliable information;
- b. Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;
- c. Whether the person required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;
- d. Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and
- e. Whether the specific action contemplated by the department is necessary to avoid the immediate danger.

**173.31(2) *Issuance of order.***

a. An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the department's decision to take immediate action.

b. The written emergency adjudicative order shall be immediately delivered to persons who are required to comply with the order by utilizing one or more of the following procedures:

- (1) Personal delivery;
- (2) Certified mail, return receipt requested, to the last address on file with the department;
- (3) Certified mail to the last address on file with the department;
- (4) First-class mail to the last address on file with the department; or
- (5) Fax. Fax may be used as the sole method of delivery if the person required to comply with the order has filed a written request that department orders be sent by fax and has provided a fax number for that purpose.

c. To the degree practicable, the department shall select the procedure for providing written notice that best ensures prompt, reliable delivery.

**173.31(3) *Oral notice.*** Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the department shall make reasonable immediate efforts to contact by telephone the persons who are required to comply with the order.

**173.31(4) *Completion of proceedings.*** After the issuance of an emergency adjudicative order, the department shall proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

Issuance of a written emergency adjudicative order shall include notification of the date on which department proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further department proceedings to a later date will be granted only in compelling circumstances upon application in writing.

These rules are intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202.

CHAPTER 174  
AGENCY PROCEDURE FOR RULE MAKING

The department of public health adopts the agency procedure for rule making segment of the Uniform Administrative Rules which is printed in the first volume of the Iowa Administrative Code with the following amendments.

**641—174.3(17A) Public rule-making docket.**

**174.3(2) *Anticipated rule making.*** In lieu of the words “(commission, board, council, director)” insert “director”.

**641—174.4(17A) Notice of proposed rule making.**

**174.4(3) *Notices mailed.*** In lieu of the words “(specify time period)” insert “one calendar year”.

**641—174.5(17A) Public participation.**

**174.5(1) *Written comments.*** In lieu of the words “(identify office and address) or” insert “Director’s Office, Iowa Department of Public Health, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319”.

**174.5(5) *Accessibility.*** In lieu of the words “(designate office and telephone number)” insert “Director’s Office, Iowa Department of Public Health, (515)281-7689”.

**641—174.6(17A) Regulatory flexibility analysis.**

**174.6(3) *Mailing list.*** In lieu of the words “(designate office)” insert “Director’s Office, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319”.

**641—174.11(17A) Concise statement of reasons.**

**174.11(1) *General.*** In lieu of the words “(specify the office and address)” insert “Director’s Office, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319”.

**641—174.13(17A) Agency rule-making record.**

**174.13(2) *Contents.*** Amend paragraph “c” by inserting “director” in lieu of “(agency head)”.

These rules are intended to implement Iowa Code section 17A.4 and Iowa Code chapter 135.

[Filed 9/13/91, Notice 8/7/91—published 10/2/91, effective 11/6/91]

[Filed 11/19/01, Notice 8/22/01—published 12/12/01, effective 1/16/02]

CHAPTER 175  
FAIR INFORMATION PRACTICES AND PUBLIC RECORDS

**641—175.1(17A,22) Definitions.** For purposes of this chapter, the following definitions apply:

“*Agency*” or “*department*” means the Iowa department of public health.

“*Confidential record*” means a record which is not available as a matter of right for examination and copying by members of the public under applicable provisions of law. Confidential records include records or information contained in records that the department is prohibited by law from making available for examination by members of the public, and records or information contained in records that are specified as confidential by Iowa Code section 22.7, or other provision of law, but that may be disclosed upon order of a court, the lawful custodian of the record, or by another person duly authorized to release the record. Mere inclusion in a record of information declared confidential by an applicable provision of law does not necessarily make that entire record a confidential record.

“*Custodian*” means the department or a person lawfully delegated authority by the department to act for the department in implementing Iowa Code chapter 22.

“*Open record*” means a record other than a confidential record.

“*Personally identifiable information*” means information about or pertaining to an individual in a record which identifies the individual and which is contained in a record system.

“*Record*” means the whole or a part of a “public record” as defined in Iowa Code section 22.1 that is owned by or in the physical possession of the department.

“*Record system*” means any group of records under the control of the department from which a record may be retrieved by a personal identifier such as the name of an individual, number, symbol, or other unique retriever assigned to an individual.

**641—175.2(17A,22) Statement of policy.** The purpose of this chapter is to facilitate broad public access to open records and to facilitate sound department determinations with respect to the maintenance of confidential records and the implementation of the fair information practices Act. The department is committed to the policies set forth in Iowa Code chapter 22, and department staff shall cooperate with members of the public in implementing the provisions of that chapter.

**641—175.3(17A,22) Requests for access to records.**

**175.3(1) Location of record.** A request for access to a record should be directed to the division where the record is maintained. If the location of the record is not known by the requester, the request shall be directed to the Iowa Department of Public Health, Public Information Officer, Lucas State Office Building, Des Moines, Iowa 50319-0075, Attention: Record Request. The department will forward the request to the appropriate person.

**175.3(2) Office hours.** Open records shall be made available during all customary office hours, which are 8 a.m. to 4:30 p.m. daily, excluding Saturdays, Sundays and legal holidays.

**175.3(3) Request for access.** Requests for access to open records may be made in writing, in person, by telephone, or by electronic means. A person requesting a record shall identify the particular record sought by name or description in order to facilitate the location of the record. A person requesting a record by mail, telephone, or by electronic means shall include the name, address, and telephone number of the person requesting the information in order to facilitate delivery of the record. A person shall not be required to give a reason for requesting an open record.

**175.3(4) Response to requests.** The custodian shall provide prompt access to an open record upon request unless the size or nature of the request makes prompt access infeasible. If the size or nature of the request for access to an open record requires time for compliance, the custodian shall comply with the request as soon as feasible. The custodian may delay access to an open record for one of the purposes authorized by Iowa Code section 22.8(4) or 22.10(4). The custodian shall promptly give notice to the requester of the reason for any delay in access to an open record and an estimate of the length of that delay and, upon request, shall promptly provide that notice to the requester in writing.

The custodian of a record may deny access to the record by members of the public only on the grounds that such a denial is warranted under Iowa Code sections 22.8(4) and 22.10(4), or that it is a confidential record, or that its disclosure is prohibited by a court order.

**175.3(5) *Security of record.*** No person may, without permission from the custodian, search or remove any record from the department files. The custodian or a designee of the custodian shall supervise examination and copying of department records. Records shall be protected from damage and disorganization.

**175.3(6) *Copying.*** A reasonable number of copies of an open record may be made in the department's office. If photocopy equipment is not available in the department office where an open record is kept, the custodian shall permit its examination in that office and shall arrange to have copies promptly made elsewhere.

**175.3(7) *Fees.***

*a. When charged.* The department may charge a reasonable fee in connection with the examination or copying of records. To the extent permitted by applicable provisions of law, the payment of fees may be waived when the imposition of fees is inequitable or when a waiver is in the public interest.

*b. Copying and postage costs.* Price schedules for published materials and for photocopies of records supplied by the department shall be prominently posted in department offices. Copies of records may be made by or for members of the public on department photocopy machines or from electronic storage systems at cost as determined and posted in department offices by the custodian. When the mailing of copies of records is requested, the actual costs of such mailing may also be charged to the requester.

*c. Search and supervisory fee.* An hourly fee may be charged for actual department expenses in searching for and supervising the examination and copying of requested records. The fee shall be based upon the actual costs incurred. The department shall post the hourly fees to be charged in routine cases for search and supervision of records. Except as provided in Iowa Code section 144.46, no fee shall be charged if the records are not made available for inspection, or if the time required does not exceed one hour in duration, or if the time required for the search was the result of department error or record-keeping problems. Iowa Code section 144.46 specifically allows for fees for vital record searches when the record is not copied or is not found, and this Iowa Code section is implemented by 641—96.4(144).

*d. Advance deposits.*

(1) Fulfillment of a request for a copy of a public record may be contingent upon receipt of payment of expenses to be incurred in fulfilling the request, and such estimated expenses shall be communicated to the requester prior to fulfillment of the request. When the estimated total fee chargeable under this subrule exceeds \$25, the custodian may require a requester to make an advance payment to cover all or a part of the estimated fee.

(2) When a requester has previously failed to pay a fee chargeable under this subrule, the custodian may require payment of the prior fee and advance payment of the full amount of any estimated fee before the custodian processes a new request from that requester.

**641—175.4(17A,22) Access to confidential records.** Under Iowa Code section 22.7 or other applicable provisions of law, the lawful custodian may disclose certain confidential records to particular persons under certain limited circumstances if the person is legally entitled to the record. In requesting the custodian to permit the examination and copying of such a confidential record, the following procedures apply and are in addition to those specified for requests for access to records in rule 175.3(17A,22).

**175.4(1) *Proof of identity.*** A person requesting access to a confidential record may be required to provide proof of identity or authority to secure access to the record.

**175.4(2) *Requests.*** The custodian may require a request to examine and copy a confidential record to be in writing. A person requesting access to such a record may be required to sign a certified statement or affidavit enumerating the specific reasons justifying access to the confidential record and to provide any proof necessary to establish relevant facts.

**175.4(3) *Notice to subject of record and opportunity to obtain injunction.*** After the custodian receives a request for access to a confidential record, and before the custodian releases such a record,

the custodian may make reasonable efforts to notify promptly any person who is a subject of that record, is identified in that record, and whose address or telephone number is contained in that record. To the extent such a delay is practicable and in the public interest, the custodian may give the subject of such confidential record to whom notification is transmitted a reasonable opportunity to seek an injunction under Iowa Code section 22.8, and indicate to the subject of the record the specific period of time during which disclosure will be delayed for that purpose. The department is not required to provide notification or an opportunity to seek an injunction under this subrule and retains sole discretion as to whether to pursue such action.

**175.4(4) *Requests denied.*** When the custodian denies a request for access to a confidential record, the custodian shall promptly notify the requester. If the requester indicates to the custodian that a written notification of the denial is desired, the custodian shall promptly provide such a notification that is signed by the custodian and that includes:

- a. The name and title or position of the custodian responsible for the denial; and
- b. A citation to the provision of law vesting authority in the custodian to deny disclosure of the record and a brief statement of the reasons for the denial.

**175.4(5) *Request granted.*** When the custodian grants a request for access to a confidential record to a particular person, the custodian shall notify that person and indicate any lawful restrictions imposed by the custodian on that person's examination and copying of the record.

**641—175.5(17A,22) Requests for treatment of a record as a confidential record and its withholding from examination.** The custodian may treat a record as a confidential record and withhold it from examination only to the extent that the custodian is authorized by Iowa Code section 22.7, another applicable provision of law, or a court order to refuse to disclose that record to members of the public.

**175.5(1) *Persons who may request.*** Any person who would be aggrieved or adversely affected by disclosure of a record and who asserts that Iowa Code section 22.7, another applicable provision of law, or a court order authorizes the custodian to treat the record as a confidential record may request the custodian to treat that record as a confidential record and to withhold it from public inspection.

**175.5(2) *Request.*** A request that a record be treated as a confidential record and be withheld from public inspection shall be in writing and shall be filed with the custodian. The request must set forth the legal and factual basis justifying such confidential treatment for that record, and the name, address, and telephone number of the person authorized to respond to any inquiry or action of the custodian concerning the request. A person requesting treatment of a record as a confidential record may also be required to sign a certified statement or affidavit enumerating the specific reasons justifying the treatment of that record as a confidential record and to provide any proof necessary to establish relevant facts. Requests for treatment of a record as a confidential record for a limited time period shall also specify the precise period of time for which that treatment is requested.

A person filing such a request shall, if possible, accompany the request with a copy of the record in question from which those portions for which such confidential record treatment has been requested have been deleted. If the original record is being submitted to the department by the person requesting such confidential treatment at the time the request is filed, the person shall indicate conspicuously on the original record that all or portions of it are confidential.

**175.5(3) *Failure to request.*** Failure of a person to request confidential record treatment for a record does not preclude the custodian from treating it as a confidential record. However, if a person who has submitted business information to the department does not request that it be withheld from public inspection under Iowa Code sections 22.7(3) and 22.7(6), the custodian of records containing that information may proceed as if that person has no objection to its disclosure to members of the public.

**175.5(4) *Timing of decision.*** A decision by the custodian with respect to the disclosure of a record to members of the public may be made when a request for its treatment as a confidential record is filed or when the custodian receives a request for access to the record by a member of the public.

**175.5(5) *Request granted or deferred.*** If a request for such confidential record treatment is granted, or if action on such a request is deferred, a copy of the record from which the matter in question has been deleted and a copy of the decision to grant the request or to defer action upon the request will be made

available for public inspection in lieu of the original record. If the custodian subsequently receives a request for access to the original record, the custodian will make reasonable and timely efforts to notify any person who has filed a request for its treatment as a confidential record that is not available for public inspection of the pendency of that subsequent request.

**175.5(6) *Request denied and opportunity to seek injunction.*** If a request that a record be treated as a confidential record and be withheld from public inspection is denied, the custodian shall notify the requester in writing of that determination and the reasons therefor. On application by a requester, the custodian may engage in a good faith, reasonable delay in allowing examination of the record so that the requester may seek injunctive relief under the provisions of Iowa Code section 22.8 or other applicable provision of law. However, such a record shall not be withheld from public inspection for any period of time if the custodian determines that the requester had no reasonable ground to justify the treatment of that record as a confidential record. The custodian shall notify requester in writing of the time period allowed to seek injunctive relief or the reasons for the determination that no reasonable grounds exist to justify the treatment of that record as a confidential record. The custodian may extend the period of good faith, reasonable delay in allowing examination of the record so that the requester may seek injunctive relief only if no request for examination of that record has been received, or if a court directs the custodian to treat it as a confidential record, or to the extent permitted by another applicable provision of law, or with the consent of the person requesting access.

**641—175.6(17A,22) Procedure by which additions, dissents, or objections may be entered into certain records.** Except as otherwise provided by law, a person may file a request with the custodian to review, and to have a written statement of additions, dissents, or objections entered into a record containing personally identifiable information pertaining to that person. However, a person who is a subject of such a record shall not be authorized to alter the original copy of that record or to expand the official record of any agency proceeding. A requester shall send the request to review such a record or the written statement of additions, dissents, or objections to the custodian or to the division in which the record is maintained. The request to review such a record or the written statement of such a record of additions, dissents, or objections must be dated and signed by requester, and shall include the current address and telephone number of the requester or the requester's representative.

**641—175.7(17A,22) Consent to disclosure by the subject of a confidential record.** Except as otherwise provided by law, a person who is the subject of a confidential record may have a copy of the portion of that record concerning the subject disclosed to a third party. A request for such a disclosure must be in writing and must identify the particular record or records that may be disclosed, and the particular person or class of persons to whom they may be disclosed. The person who is the subject of the record and, where applicable, the person to whom the record is to be disclosed, may be required to provide proof of identity. Appearance of counsel before the department on behalf of a person who is the subject of a confidential record is deemed to constitute consent for the department to disclose records about that person to the person's attorney.

**641—175.8(17A,22) Notice to suppliers of information.** When the department requests a person to supply information about that person, the department may notify the person of the use that will be made of the information, which persons outside the department might routinely be provided this information, which parts of the requested information are required and which are optional, and the consequences of a failure to provide the information requested. This notice may be given in these rules, on the written form used to collect the information, on a separate fact sheet or letter, in brochures, in formal agreements, in contracts, in handbooks, in manuals, verbally, or by other appropriate means.

**641—175.9(17A,22) Disclosures without the consent of the subject.**

**175.9(1)** The department shall routinely disclose open records without the consent of the subject.

**175.9(2)** To the extent allowed by law, disclosure of confidential records may occur without the consent of the subject. Following are instances where disclosure, if lawful, will generally occur without notice to the subject:

- a.* For a routine use as defined in rule 175.10(17A,22) or in the notice for a particular record system.
- b.* To a recipient who has provided the department with advance written assurance that the record will be used solely as a statistical research or reporting record. The department shall not release confidential data or information pursuant to this chapter unless the department and the recipient have executed an agreement which includes the conditions under which the confidential data or information may be used and a restriction on the further disclosure of the data or information.
- c.* To another government agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil, administrative, or criminal law enforcement activity if the activity is authorized by law, and if an authorized representative of such government agency or instrumentality has submitted a written request to the department specifying the record desired and the law enforcement activity for which the record is sought.
- d.* To an individual pursuant to a showing of compelling circumstances affecting the health or safety of any individual if a notice of the disclosure is transmitted to the last-known address of the subject.
- e.* To the legislative services agency under Iowa Code section 2A.3.
- f.* Disclosures in the course of employee disciplinary proceedings.
- g.* In response to a court order or subpoena.
- h.* To the office of citizens' aide pursuant to Iowa Code section 2C.9.

**641—175.10(17A,22) Routine use.**

**175.10(1)** Defined. "Routine use" means the disclosure of a record without the consent of the subject for a purpose which is compatible with the purpose for which the record was collected. "Routine use" includes disclosures required or authorized by statute or rule.

**175.10(2)** To the extent allowed by law, the following uses are considered routine uses of all department records:

- a.* Disclosure to those officers, employees, and agents of the department who have a need for the record in the performance of their duties.
- b.* Disclosure to employees of federal, state and local agencies and other researchers for purposes of bona fide research. The department shall not release data or information pursuant to this paragraph unless the department and the researcher have executed an agreement which includes the conditions under which the confidential data or information may be used and restrictions on further disclosure of the data or information.
- c.* Disclosure of information indicating an apparent violation of the law to appropriate law enforcement authorities for investigation and possible criminal prosecution, civil court action, or regulatory order.
- d.* Disclosure to the department of inspections and appeals for matters in which it is performing services or functions on behalf of the department.
- e.* Transfers of information within the department, to other state or federal agencies, or to local units of government as necessary to administer the program for which the information is collected or as necessary to administer a program within the other governmental agency. Confidential information transferred within the department or provided to other agencies pursuant to this paragraph shall continue to maintain its confidential status and shall not be rereleased by the receiving agency.
- f.* Information released to staff of federal and state entities for audit purposes or for purposes of determining whether the department is operating a program lawfully.
- g.* Any disclosure specifically authorized by the statute or rule under which the record was collected or maintained.

**641—175.11(17A,22) Consensual disclosure of confidential records.**

**175.11(1)** *Consent to disclosure by a subject individual.* To the extent permitted by law, the subject may consent in writing to department disclosure of confidential records as provided in rule 175.7(17A,22).

**175.11(2)** *Complaints to public officials.* A letter from a subject of a confidential record to a public official which seeks the official's intervention on behalf of the subject in a matter that involves the department may to the extent permitted by law be treated as an authorization to release sufficient information about the subject to the official to resolve the matter.

**641—175.12(17A,22) Release to subject.**

**175.12(1)** The subject of a confidential record may file a written request to review confidential records about that person as provided in rule 175.6(17A,22). However, the department need not release the following records to the subject:

*a.* The identity of a person providing information to the department need not be disclosed directly or indirectly to the subject of the information when the information is authorized to be held confidential pursuant to Iowa Code section 22.7(18) or other provision of law.

*b.* Records need not be disclosed to the subject when they are the work product of an attorney or are otherwise privileged.

*c.* Peace officers' investigative reports may be withheld from the subject, except as required by the Iowa Code.

*d.* As otherwise authorized by law.

**175.12(2)** Where a record has multiple subjects with interest in the confidentiality of the record, the department shall take reasonable steps to protect confidential information relating to another subject.

**641—175.13(17A,22) Availability of records.**

**175.13(1)** *General.* Department records are open for public inspection and copying subject to supervision unless otherwise provided by statute or rule.

**175.13(2)** *Confidential records.* The following records shall be withheld from public inspection. Records are listed by department division and include the legal authority for withholding the record from public inspection.

*a. Division of acute disease prevention and emergency response.*

(1) Records which identify a person infected with or exposed to a reportable disease or other disease or health condition collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.3(2) "b" and Iowa Code section 22.7(16).

(2) Records which identify a business involved in a reportable disease or other disease or health condition investigation collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.3(2) "c." The identity of a business may be disclosed pursuant to this authority only if the state epidemiologist or the director of the department determines such a release of information necessary for the protection of the health of the public.

(3) Records which identify a person infected with or exposed to a reportable sexually transmitted disease or infection collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.30 and Iowa Code section 22.7(16).

(4) Records which identify a person infected with or exposed to HIV/AIDS collected pursuant to Iowa Code chapter 141A, and maintained as confidential pursuant to Iowa Code section 141A.9.

(5) Data and records received or developed by the trauma system evaluation and quality improvement committee, including patient and emergency medical care service program identifying information, collected pursuant to Iowa Code chapter 147A, and maintained as confidential pursuant to Iowa Code section 147A.25.

(6) Data collected by and furnished to the statewide trauma registry which identifies a patient or former patient collected pursuant to Iowa Code section 147A.26, and maintained as confidential pursuant to Iowa Code section 147A.26.

(7) All information in complaint and investigative files maintained by the bureau of emergency medical services collected pursuant to Iowa Code chapter 147A, and maintained as confidential pursuant

to Iowa Code section 272C.6(4), except that the information may be released to the provider or the service once a disciplinary proceeding has been initiated by the filing of a notice of proposed action. A notice of proposed action and final agency action are public documents.

(8) Immunization information which identifies a patient maintained on the statewide immunization registry collected pursuant to Iowa Code section 22.7(2), and maintained as confidential pursuant to Iowa Code section 22.7(2) and 641—subrule 7.11(4). The department's rules regarding sharing of immunization information are contained at 641—7.12(22).

*b. Division of administration and professional licensure.*

(1) Vital records maintained pursuant to Iowa Code chapter 144, including records of births, deaths, fetal deaths, adoptions, marriages, divorces, annulments and related data and correspondence, and maintained as confidential pursuant to Iowa Code section 144.43.

(2) Licensing and disciplinary records of the professional licensing boards may be confidential in accordance with Iowa Code section 272C.6(4) and 645—10.13(17A,22).

*c. Division of behavioral health.*

(1) Records which identify a person named in a report to the central registry for brain or spinal cord injuries collected pursuant to Iowa Code section 135.22, and maintained as confidential pursuant to Iowa Code section 135.22 and 641—21.6(135).

(2) Information contained in a complaint regarding a licensed substance abuse program collected pursuant to Iowa Code chapter 125, and maintained as confidential pursuant to Iowa Code sections 22.7(2), 22.7(18), and 125.37. Investigative reports, written plans of corrective action, and all notices and orders issued by the board of health shall refer to clients and patients by number and shall not include any other client or patient identifying information. Investigative reports, written plans of corrective action, and all notices and orders issued by the board of health shall be available to the public as open records in accordance with 641—subrule 155.16(5).

(3) Records which identify the victim of a domestic abuse death collected or maintained by the Iowa domestic abuse death review team pursuant to Iowa Code section 135.110, and maintained as confidential pursuant to Iowa Code section 135.111.

*d. Division of environmental health.*

(1) Drafts of proposed regulations released to the department from the federal government which constitute essential information needed by the department to ensure compliance with federal regulations collected pursuant to Iowa Code chapter 136C, and maintained as confidential pursuant to Iowa Code section 22.9 and 641—subrule 38.7(2).

(2) Applications and documents submitted to the department pursuant to Iowa Code chapter 136C, which may be maintained as confidential pursuant to 641—subrule 39.4(24) if disclosure of their contents is not required in the public interest and would adversely affect the interest of a person concerned.

(3) Records which identify a person infected with or exposed to a reportable disease or other disease or health condition, including lead and other heavy metal poisonings, collected pursuant to Iowa Code chapter 139A, and maintained as confidential in accordance with Iowa Code section 139A.3(2) "b."

(4) Records which identify a business involved in a reportable disease or other disease or health condition investigation, including a lead or other heavy metal poisoning investigation, collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.3(2) "c." The identity of a business may be disclosed pursuant to this authority only if the state epidemiologist or the director of the department determines such a release of information necessary for the protection of the health of the public or if the release is required by federal, state, or local law.

*e. Division of health promotion and chronic disease prevention.*

(1) All medical, health and nutrition information which identifies a WIC program participant collected pursuant to federal law and Iowa Code chapter 135, and maintained as confidential in accordance with 7 CFR 246, Iowa Code section 22.7(2), and 641—subrule 73.7(7).

(2) Records which identify the victim of a child death collected or maintained by the Iowa child death review team pursuant to Iowa Code section 135.43, and maintained as confidential pursuant to Iowa Code section 135.43.

(3) Records which identify a child subject to a newborn and infant hearing screening collected pursuant to Iowa Code section 135.131, and maintained as confidential pursuant to Iowa Code section 135.131 and 641—3.10(80GA,ch102).

(4) Records which identify a person named in a report to the central registry for congenital and inherited disorders collected pursuant to Iowa Code section 136A.7, and maintained as confidential in accordance with Iowa Code section 136A.7 and 641—subrule 4.3(7).

(5) Records which identify a person infected with or exposed to a reportable disease or other disease or health condition, including a congenital or inherited disorder, collected pursuant to Iowa Code chapter 139A, and maintained as confidential pursuant to Iowa Code section 139A.3(2) “b.”

*f. Sections which govern all divisions.*

(1) Records which contain medical information collected pursuant to Iowa Code chapters 135, 139A, and 147A, and maintained as confidential pursuant to Iowa Code section 22.7(2).

(2) Records collected from any person, hospital, or other organization related to the condition and treatment of any person to be used in the course of any study for the purpose of reducing morbidity or mortality collected pursuant to Iowa Code section 135.40, and maintained as confidential pursuant to Iowa Code sections 135.40, 135.41, and 135.42.

(3) Records concerning security procedures or emergency preparedness developed and maintained by the department or other federal or state agency for the protection of governmental employees, visitors to the department, persons in the care, custody, or under the control of the department, or property under the jurisdiction of the department, if disclosure could reasonably be expected to jeopardize such employees, visitors, or property. Pursuant to Iowa Code section 22.7(50), the department has adopted a policy which identifies all specific records or classes of records to which this protection applies.

**175.13(3)** Minutes of closed meetings of a government body shall be kept confidential in accordance with Iowa Code section 21.5.

**175.13(4)** Identifying details in final orders, decisions and opinions shall be kept confidential to the extent required to prevent a clearly unwarranted invasion of personal privacy or trade secrets under Iowa Code section 17A.3(1) “e.”

**175.13(5)** Portions of department staff manuals, instructions or other statements issued shall be kept confidential when such documents set forth criteria or guidelines to be used by department staff in auditing, in making inspections, in settling commercial disputes or negotiating commercial arrangements, or in the selection or handling of cases, such as operational tactics or allowable tolerances or criteria for the defense, prosecution or settlement of cases, when disclosure of these statements would:

- a.* Enable law violators to avoid detection;
- b.* Facilitate disregard of requirements imposed by law; or
- c.* Give a clearly improper advantage to persons who are in an adverse position to the department.

**175.13(6)** Records which constitute attorney work product or attorney-client communications or which are otherwise privileged shall be kept confidential. Attorney work product is confidential under Iowa Code sections 22.7(4), 622.10 and 622.11, Iowa R.C.P. 1.503, Fed. R. Civ. P. 26(b)(3), and case law. Attorney-client communications are confidential under Iowa Code sections 622.10 and 622.11, the rules of evidence, the Code of Professional Responsibility, and case law.

**175.13(7)** Records exempted from public inspection under Iowa Code section 22.7 or any other provision of law shall be kept confidential.

**641—175.14(17A,22) Personally identifiable information.** This rule describes the nature and extent of personally identifiable information which is collected, maintained, and retrieved by the department by personal identifiers in record systems as defined in rule 175.1(17A,22). For each record system, this rule describes the legal authority for the collection of that information and the means of storage of that information. A data processing system does not match, collate, or permit the comparison of personally identifiable information in one record system with personally identifiable information in another record system unless so indicated. The record systems maintained by the department are as follows:

**175.14(1)** *Division of acute disease prevention and emergency response.*

a. Records of reportable diseases and other diseases and health conditions collected pursuant to Iowa Code chapter 139A. These records are stored on paper, electronically, or both, depending on the specific type of record. Except for statistical reports, these records are confidential as outlined in 175.13(2)“a.”

b. Records of reportable sexually transmitted diseases or infections collected pursuant to Iowa Code chapter 139A. These records are stored on paper, electronically, or both, depending on the specific type of record. Except for statistical reports, these records are confidential as outlined in 175.13(2)“b.”

c. Records of the veterinary public health program collected pursuant to Iowa Code chapter 139A. These records are stored on paper. Certain medical information in these records may be confidential as outlined in 175.13(2)“a.”

d. Records of the emergency medical services program collected pursuant to Iowa Code chapter 147A. These records are stored on paper, electronically, or both, depending on the specific type of record. Some of these records are confidential as outlined in 175.13(2)“a.”

e. Records of the AIDS drug reimbursement program collected for purposes of implementing a federal grant program authorized by HR 1827. These records are stored on paper. Certain patient records are confidential as outlined in 175.13(2)“a.”

f. Personnel records containing information about employees, families and dependents, and applicants for positions with the department. Some of this information is confidential under Iowa Code sections 22.7(11) and 22.7(18).

g. Records of the certificate of need program collected pursuant to Iowa Code sections 135.61 to 135.83. These records are stored on paper.

h. Annual hospital surveys collected pursuant to Iowa Code sections 135.74 and 135.75. These records are stored on paper and electronically.

**175.14(2) Division of administration and professional licensure.**

a. Vital records collected pursuant to Iowa Code chapter 144, including records of births, deaths, fetal deaths, adoptions, marriages, divorces, annulments and related data and correspondence. These records are stored on paper, on microfiche, and electronically. These records are confidential as noted in 175.13(2)“b.”

b. Licensing records of the professional licensing boards. These records are identified in rules filed by the individual licensing boards (see Professional Licensure Division, IAC 645). They contain information about individuals, some of which is confidential.

c. An electronic inventory of records maintained by the department, which indicates the type of information contained in the record, contact person for the record, how the record is stored, whether the record is confidential, and whether it contains personally identifiable information. This inventory is maintained by the information management bureau.

d. Fiscal records, including itemized vouchers collected from individuals pursuant to Iowa Code section 8A.514. These records are stored on paper and electronically.

**175.14(3) Division of behavioral health.**

a. Records of substance abuse programs of this division are identified in rules adopted by the board of health in 641—Chapter 155.

b. Records of the domestic abuse death review team collected pursuant to Iowa Code section 135.110. These records are stored on paper, electronically, or both. Except for statistical reports, these records are confidential as outlined in 175.13(2)“c.”

c. Records which identify a person named in a report to the central registry for brain or spinal cord injuries collected pursuant to Iowa Code section 135.22. These records are stored on paper, electronically, or both. Except for statistical reports, these records are maintained as confidential pursuant to Iowa Code section 135.22 and 641—21.6(135).

d. Records which identify brain injury service program recipients collected pursuant to Iowa Code section 135.22B. These records are stored on paper, electronically, or both.

**175.14(4) Division of environmental health.**

a. Records of the environmental health programs collected pursuant to Iowa Code section 135.11(1) and PL 96-510, Section 104(d)(1), 40 CFR 763 effective June 28, 1983, and 40 CFR 761

effective May 31, 1979, dealing with asbestos, PCB and other environmental health factors. These records are stored on paper, electronically, or both, depending on the specific type of record. Certain medical information in the work-related disease program file may be confidential as outlined in 175.13(2)“d.” Certain asbestos and PCB inspection records are collected under contract with the federal Environmental Protection Agency, and requests for such records will be referred to that agency.

*b.* Records of the radiological health program collected pursuant to Iowa Code chapters 136B and 136C. These records are stored on paper, electronically, or both, depending on the specific record. Certain of these records are confidential as outlined in 175.13(2)“d.”

*c.* Records of reportable diseases and other diseases and health conditions, including lead and other heavy metal poisonings, collected pursuant to Iowa Code chapter 139A. These records are stored on paper, electronically, or both, depending on the specific type of record. Except for statistical reports, these records are confidential as outlined in 175.13(2)“a.”

*d.* Records of the childhood lead poisoning prevention program collected pursuant to Iowa Code sections 135.100 to 135.105. These records are stored on paper, electronically, or both. Certain of these records are confidential as outlined in 175.13(2)“d.” Data processing systems will link certain client data in these programs with client data in the maternal and child health program, WIC program, and refugee health program.

**175.14(5) *Division of health promotion and chronic disease prevention.***

*a.* Records of the maternal and child health programs collected pursuant to Iowa Code section 135.11(20). These records are stored on paper, electronically, or both, depending on the specific type of record. Data processing systems will link certain client data in these programs with client data in the WIC program.

*b.* Records of the nutrition and WIC (supplemental food program for women, infants and children) programs collected pursuant to Iowa Code section 135.11(1) and Chapter 17 of the federal Child Nutrition Act of 1966 as amended. These records are stored on paper, electronically, or both, depending on the specific type of record. Data processing systems will link certain client data in this program with client data in maternal and child health programs.

*c.* Records of the center for congenital and inherited disorders collected pursuant to Iowa Code chapter 136A. These records are stored on paper.

*d.* Records of the dental health programs collected pursuant to Iowa Code section 135.11(19), funded primarily by maternal and child health funds. These records are stored on paper or electronically, depending on the specific type of record.

*e.* Records of the newborn and infant hearing screening program collected pursuant to Iowa Code section 135.131. These records are stored on paper, electronically, or both, depending on the specific type of record. Information which identifies an individual patient is confidential as outlined in 175.13(2)“e.”

*f.* Refugee health program records collected pursuant to Iowa Code section 135.11(1) and Section 412(c)(3) of the federal Immigration and Naturalization Act. These records are stored on paper, electronically, or both, depending on the specific type of record. Certain medical information in these records is confidential as outlined in 175.13(2)“f.”

*g.* Records of the bureau of chronic disease prevention and management collected pursuant to Iowa Code section 135.11(1), including the Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN) program and the Breast and Cervical Cancer Early Detection Program (BCCEDP). Certain medical information in these records is confidential as outlined in 175.13(2)“f.” The medical information from wellness programs and screening programs is stored on paper, electronically, or both, depending on the specific type of record. Data processing systems will link certain client data in these programs with client data in the University of Iowa’s health registries.

**641—175.15(17A,22) Other groups of records.** This rule describes groups of records maintained by the agency other than record systems as defined in rule 175.2(17A,22). These records are routinely available to the public. However, the department’s files of these records may contain confidential information as discussed in rule 175.13(17A,22). The records listed may contain information about individuals. All records are stored on paper unless otherwise noted.

**175.15(1) Rule making.** Rule-making records may contain information about individuals making written or oral comments on proposed rules. This information is collected pursuant to Iowa Code section 17A.4.

**175.15(2) Council and commission records.** Agendas, minutes, and materials presented to the councils, committees and commissions listed below, by division, are available from the department, except those records concerning closed sessions which are exempt from disclosure under Iowa Code section 21.5(4) or which are otherwise confidential by law. Council and commission records contain information about people who participate in meetings. This information is collected pursuant to Iowa Code section 21.3.

- a. Division of acute disease prevention and emergency response.
  - (1) EMS advisory council established in Iowa Code section 147A.2.
  - (2) System evaluation and quality improvement committee established in Iowa Code section 147A.25.
  - (3) Trauma system advisory council established in Iowa Code section 147A.24.
  - (4) State health facilities council established in Iowa Code section 135.61.
- b. Division of administration and professional licensure: professional licensing boards established in Iowa Code chapters 147 and 272C.
- c. Division of behavioral health.
  - (1) Advisory council on brain injuries established in Iowa Code section 135.22A.
  - (2) Domestic abuse death review team established in Iowa Code section 135.109.
  - (3) State substitute medical decision-making board established in Iowa Code section 135.28.
- d. Division of environmental health: technical advisory committee for radiation machines and radioactive materials established in Iowa Code section 136C.3(2).
- e. Division of health promotion and chronic disease prevention.
  - (1) Abuse education review panel established in Iowa Code section 135.11(27).
  - (2) Advisory committee to the center for rural health and primary care established in Iowa Code section 135.107.
  - (3) Committee on maternal and child health established in Iowa Code section 235C.1.
  - (4) Council on chemically exposed infants and children established in Iowa Code section 235C.1.
  - (5) Iowa child death review team established in Iowa Code section 135.43.
- f. Division of tobacco use prevention and control.
  - (1) Commission on tobacco use prevention and control established in Iowa Code section 142A.3(2).
  - (2) Commission on tobacco use prevention and control advisory council established in Iowa Code section 142A.3(9).
  - (3) Just Eliminate Lies executive body established in Iowa Code section 142A.9(2)“c.”
- g. Director's office.
  - (1) Interagency coordinating council established in Iowa Code section 691.6B.
  - (2) State board of health established in Iowa Code chapter 136.
  - (3) State medical examiner advisory council established in Iowa Code section 691.6C.
  - (4) Preventative health and health services block grant advisory committee.
  - (5) Other ad hoc and advisory committees as established by the director pursuant to Iowa Code section 135.11(26).

**175.15(3) Publications.** News releases, annual reports, project reports, and department newsletters are available from the public information office. Department news releases, project reports, and newsletters may contain information about individuals, including department staff or members of department councils or committees.

**175.15(4) Statistical reports.** Periodic reports of vital statistics records are available from the bureau of vital statistics.

**175.15(5) Appeal decisions and advisory opinions.** All final orders, decisions and opinions are open to the public except for information that is confidential according to rule 175.13(17A,22) or 175.14(17A,22). These records may contain information about individuals.

**175.15(6) *Published materials.*** The department uses many legal and technical publications in its work. The public may inspect these publications upon request. Some of these materials may be protected by copyright law.

**175.15(7) *Policy manuals.*** Policy or program manuals for various programs may be obtained by contacting the program.

**175.15(8) *All other records that are not exempted from disclosure by law.*** Other records used by the department include correspondence files, surveys conducted by programs, information and data files, and records used for processing purposes internally. Some of these records may contain information about individuals. Correspondence files may contain confidential information protected by statutes cited in rule 175.13(17A,22).

**641—175.16(17A,22) *Data processing systems.*** Except where otherwise noted, data processing systems used by the department do not permit the comparison of personally identifiable information in one record system with personally identifiable information in another record system.

**641—175.17(17A,22) *Applicability.*** This chapter does not:

1. Require the department to index or retrieve records which contain information about individuals by that person's name or other personal identifier.
2. Make available to the general public records which would otherwise not be available under the public records law, Iowa Code chapter 22.
3. Govern the maintenance or disclosure of, notification of, or access to records in the possession of the department which are governed by the regulations of another agency.
4. Apply to grantees, including local governments or subdivisions, that administer state-funded programs, unless otherwise provided by law or agreement.
5. Make available records compiled by the department in reasonable anticipation of court litigation or formal administrative proceedings. The availability of such records to the general public or to any individual or party subject to such litigation or proceedings shall be governed by applicable legal and constitutional principles, statutes, rules of discovery, evidentiary privileges, and applicable regulations of the department.

These rules are intended to implement Iowa Code chapters 17A and 22.

[Filed 4/15/88, Notice 1/27/88—published 5/4/88, effective 7/1/88]

[Filed 7/10/08, Notice 5/21/08—published 7/30/08, effective 9/3/08]

CHAPTER 176  
CRITERIA FOR AWARDS OR GRANTS

**641—176.1(135,17A) Purpose.** The department provides funds to a variety of entities throughout the state for the support of public health programs. The department considers that all funds are subject to competition pursuant to Iowa Code statutes and Iowa Administrative Code rules governing service contracts.

**641—176.2(135,17A) Definitions.** For the purpose of these rules, the following definitions shall apply:

*“Competitive selection process”* means the competitive selection application process engaged in by the department to compare applicant qualifications, terms, conditions and pricing for services to purchase services based on quality, performance, and prices of equal or similar services in order to meet the objective of purchasing services based on quality, performance, or price or any combination thereof.

*“Continuation application”* means the application process for subsequent years within a project period following a competitive selection process.

*“Department”* means the Iowa department of public health.

*“Project”* means the activities or program(s) funded by the department.

*“Project period”* means the period of time which the department intends to support the project without requiring the recompetition for funds. The project period is specified within the competitive selection application and may extend to six years.

*“Service delivery area”* means the defined geographic area for delivery of project services. Competitive applications shall not fragment existing integrated service delivery within the defined geographic area.

**641—176.3(135,17A) Exceptions.** Exceptions to these rules are as follows:

1. New funds (including pilot studies and demonstration grants) that become available for new services.
2. Federal or private funding agency specified a sole source.
3. An organization failed to meet conditions and performance standards specified in the contract awards.
4. Mutual agreement among department and contract organizations.

**641—176.4(135,17A) Requirements.** The following shall be included in all competitive selection applications made available by the department:

1. Funding source.
2. Project period.
3. Services to be delivered.
4. Service delivery area.
5. Funding purpose.
6. Funding restrictions.
7. Funding formula (if any).
8. Matching requirements (if any).
9. Reporting requirements.
10. Performance criteria (experience of applicant in administering similar contracts).
11. Description of eligible applicants.
12. Need for letters of support or other materials (if applicable).
13. Application due date.
14. Anticipated date of award.
15. Eligibility guidelines for those receiving the service or product and the source of those guidelines, including fees or sliding fee scales (if applicable).
16. Target population to be served (if applicable).
17. Evaluation process and criteria.

18. Appeal process.
19. Contractual terms.
20. Business organization.

**641—176.5(135,17A) Review process (competitive applications only).** The review process to be followed in determining the amount of funds to be approved for award of a contract shall be described in the competitive selection application. The review criteria and the point allocation for each criterion shall also be described in the competitive selection application.

The review committee membership shall be determined by the bureau chief, with oversight from the respective division director. The review committee members shall allocate points per review criterion in conducting the review.

In the event applications for the service delivery area receive an equal number of points, a second review may be conducted by two management employees and one nonmanagement employee as designated by the respective division director.

[ARC 1750C, IAB 12/10/14, effective 1/14/15]

**641—176.6(135,17A) Opportunity for review and comment.** Rescinded IAB 1/30/08, effective 3/5/08.

**641—176.7(135,17A) Public notice of available funds.** The department shall post all competitive selection documents on the department of management's IowaGrants Web site at [www.IowaGrants.gov](http://www.IowaGrants.gov) for the duration of the application period.

[ARC 1750C, IAB 12/10/14, effective 1/14/15]

**641—176.8(135,17A) Appeals.**

**176.8(1) Appeal.** Letters of intent and applications received by the department after the due date and time stated in the competitive selection application will be rejected and will not be reviewed by the department, and a notice will be sent to the applicant. An applicant may appeal the denial of a timely submitted application. The appeal shall be submitted in writing within ten business days of receipt of notification of the adverse decision. The appeal shall be addressed to the contract administrator cited in the competitive selection application guidance, Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. In the event of an appeal, the department will continue working with the applicant awarded funding pending the outcome of the appeal.

**176.8(2) Contested case.** Upon receipt of an appeal that meets contested case status, the appeal shall be forwarded within five working days to the department of inspections and appeals (DIA) pursuant to the administrative rules adopted by DIA regarding transmission of cases.

**176.8(3) Hearing.** Parties shall receive notice of the hearing in advance. The administrative law judge shall schedule the time, place, and date of the hearing so that the hearing is held as expeditiously as possible. The hearing shall be conducted according to the procedural rules for contested case hearings found at 481—Chapter 10.

**176.8(4) Decision of administrative law judge.** The administrative law judge's decision shall be issued within 60 days from the date of the hearing. The administrative law judge's proposed decision shall be served by certified mail, return receipt requested, or delivered by personal service. The proposed decision and order becomes the department's final decision without further proceedings 10 days after it is received by the aggrieved party unless an appeal to the director is filed by either of the parties as provided in subrule 176.8(5) or the director serves notice on the parties of the director's intent to review the decision.

**176.8(5) Appeal to director.** Any appeal to the director for review of a proposed decision shall be in writing and submitted to the director by electronic mail; delivered by certified mail, return receipt requested; or delivered by personal service within ten days after the receipt of the administrative law judge's proposed decision and order by the aggrieved party. A copy of the appeal shall also be mailed to the administrative law judge and the other parties. A request for appeal shall include the specific grounds for appeal.

**176.8(6) *Record of hearing.*** Upon receipt of an appeal request, the administrative law judge shall prepare a record of the hearing for submission to the director. The record shall include the following:

- a. All pleadings, motions, and rules;
- b. All evidence received or considered and all other submissions by recording or transcript;
- c. All statements of matters officially noticed;
- d. All questions and offers of proof, objections, and rulings thereon;
- e. All proposed findings and exceptions; and
- f. The proposed decision and order of the administrative law judge.

**176.8(7) *Decision of director.*** Upon receipt of a properly filed appeal, the director shall establish a briefing schedule and, at the discretion of the director, an opportunity for oral argument. An appeal to the director shall be based on the record made at the hearing. The director may reverse or modify any finding of fact if a preponderance of the evidence will support a determination to reverse or modify such a finding, or may reverse or modify any conclusion of law the director finds to be in error. The decision and order of the director shall be issued within 90 days of the date of the receipt of the appeal and delivered by certified mail, return receipt requested, or by personal service, and becomes the department's final decision upon receipt by the aggrieved party.

**176.8(8) *Exhausting administrative remedies.*** It is not necessary to file an application for rehearing to exhaust administrative remedies when appealing to the director or the district court as provided in Iowa Code section 17A.19.

**176.8(9) *Judicial review.*** The aggrieved party to the final decision of the department who has exhausted all administrative remedies may petition for judicial review of that action pursuant to Iowa Code chapter 17A. Petitions for judicial review shall be filed within 30 days after the decision becomes final. The party who appeals a final agency action to district court shall pay the costs of the preparation of a transcript of the contested case hearing for the district court.

**176.8(10) *Applicability of rule.*** This rule governs the appeal process for a competitive selection process if the specific administrative rules of the relevant program do not contain a process for appeal.  
[ARC 1750C, IAB 12/10/14, effective 1/14/15]

These rules are intended to implement Iowa Code chapters 17A and 135.

[Filed 3/13/92, Notice 1/8/92—published 4/1/92, effective 5/6/92]

[Filed 11/5/92, Notice 9/30/92—published 11/25/92, effective 12/30/92]

[Filed 1/10/08, Notice 11/21/07—published 1/30/08, effective 3/5/08]

[Filed ARC 1750C (Notice ARC 1656C, IAB 10/1/14), IAB 12/10/14, effective 1/14/15]

CHAPTER 177  
HEALTH DATA

**641—177.1(76GA,ch1212) Purpose.** The purpose of this chapter is to collect and provide access to health information to health care providers, health care subscribers, third-party payors and the general public. Such information may be collected from state agencies, health care providers, the state medical assistance program, third-party payors, associations, and other appropriate sources.

**641—177.2(76GA,ch1212) Definitions.** For purposes of this chapter, the following definitions shall apply:

“*Confidential record*” in these rules means a record which is not available as a matter of right for examination and copying by members of the public under applicable provisions of law. Confidential records include records or information contained in records that the agencies are prohibited by law from making available for examination by members of the public, and records or information contained in records that are specified as confidential by Iowa Code section 22.7, or other provision of law, but that may be disclosed upon order of a court, the lawful custodian of the record, or by another person duly authorized to release the record. Mere inclusion in a record of information declared confidential by an applicable provision of law does not necessarily make that entire record a confidential record. Included in the definition are those data collected by the department, pursuant to 1996 Iowa Acts, chapter 1212, for preparation and dissemination as compilations.

“*Department*” is defined as Iowa department of public health.

“*Record*” in these rules means the whole or a part of a “public record” as defined in Iowa Code section 22.1, that is owned by or in the physical possession of this agency.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

**641—177.3(76GA,ch1212) Description of data to be submitted.**

**177.3(1)** The department shall collect information from other state agencies for the purpose of public dissemination of health data.

**177.3(2)** Hospitals shall submit data to the Iowa Hospital Association which shall serve as an intermediary for the Iowa department of public health. The information shall include inpatient, outpatient and ambulatory information.

**177.3(3)** The Iowa Hospital Association shall collect, maintain, and disseminate hospital inpatient, outpatient, and ambulatory information pursuant to a memorandum of understanding with the department. The Iowa Hospital Association shall submit data to the department pursuant to the memorandum of understanding.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

**641—177.4(76GA,ch1212) Department studies.** The department may conduct special studies consistent with the intent of 1996 Iowa Acts, chapter 1212, using data collected in accordance with subrule 177.3(1). In conducting such studies, the department may utilize the services of a contractor.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

**641—177.5(76GA,ch1212) Fees.** Fees charged for data provided by the department shall not exceed administrative costs. Such charges may include copying, postage, supervisory, computer programming, time and medium fees.

**641—177.6(76GA,ch1212) Patient confidentiality.** The department shall protect patient confidentiality. Confidential records or parts of such records collected as a part of this process shall be kept confidential. All health data shall be collected, maintained, and disseminated only in accordance with Iowa and federal law.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

**641—177.7(76GA,ch1212) Department contracting.** Rescinded ARC 2654C, IAB 8/3/16, effective 9/7/16.

**641—177.8(76GA,ch1212) Address and specification for data submissions.** Data required to be submitted pursuant to this chapter shall be sent by agencies and health care providers, or their representatives, to the Iowa department of public health by the means and time frame specified by the department.

[ARC 2654C, IAB 8/3/16, effective 9/7/16]

These rules are intended to implement 1996 Iowa Acts, chapter 1212, section 5, and Iowa Code section 135.166.

[Filed 5/16/97, Notice 2/26/97—published 6/4/97, effective 7/9/97]

[Filed 3/14/02, Notice 2/6/02—published 4/3/02, effective 5/8/02]

CHAPTER 178  
VARIANCES AND WAIVERS OF PUBLIC HEALTH  
ADMINISTRATIVE RULES

**641—178.1(17A,135) Waivers.**

**178.1(1) Definition.** For purposes of this chapter, “a waiver or variance” means action by the department that suspends, in whole or in part, the requirements or provisions of a rule as applied to an identified person on the basis of the particular circumstances of that person. For simplicity, the term “waiver” shall include both a “waiver” and a “variance.”

**178.1(2) Scope.** This rule outlines generally applicable standards and a uniform process for the granting of an individual waiver from a rule adopted by the department in situations where no other more specifically applicable law provides for a waiver. To the extent another more specific provision of law governs the issuance of a waiver from a particular rule, the more specific provision shall supersede this rule with respect to any waiver from that rule.

**178.1(3) Applicability.** The department may only grant a waiver from a rule if the department has jurisdiction over the rule and the requested waiver is consistent with applicable statutes, constitutional provisions, or other provisions of law. The department may not waive requirements created or duties imposed by statute.

**178.1(4) Criteria for waiver.** In response to a petition completed pursuant to subrule 178.1(6), the department may in its sole discretion issue an order waiving in whole or in part the requirements of a rule if the department finds, based on clear and convincing evidence, all of the following:

- a. The application of the rule would impose an undue hardship on the person for whom the waiver is requested;
- b. The waiver from the requirements of the rule in the specific case would not prejudice the substantial legal rights of any person;
- c. The provisions of the rule subject to the petition for a waiver are not specifically mandated by statute or another provision of law; and
- d. Substantially equal protection of public health, safety, and welfare will be afforded by a means other than that prescribed in the particular rule for which the waiver is requested.

**178.1(5) Filing of petition.** A petition for a waiver must be submitted in writing to the department as follows:

- a. Application for license, registration, certification, or permit. If the petition relates to an application for license, registration, certification, or permit, the petition shall be made in accordance with the filing requirements for the application in question.
- b. Contested cases. If the petition relates to a pending contested case, the petition shall be filed in the contested case proceeding, using the caption of the contested case.
- c. Other. If the petition does not relate to an application or a pending contested case, the petition may be submitted to the department director.
- d. A petition is deemed filed when it is received at the department’s office. A petition should be sent to the Department of Public Health, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319. The petition must be typewritten or legibly handwritten in ink and substantially conform to the form specified in 641—178.2(17A,135).

**178.1(6) Content of petition.** A petition for waiver shall include the following information where applicable and known to the requester:

- a. The name, address, and telephone number of the person for whom a waiver is being requested and a reference to any related contested case. The petition shall also include the name, address, and telephone number of the petitioner’s legal representative, if applicable, and a statement indicating the person to whom communications concerning the petition should be directed.
- b. A description and citation of the specific rule from which a waiver is requested.
- c. The specific waiver requested, including the precise scope and duration.
- d. The relevant facts that the petitioner believes would justify a waiver under each of the four criteria described in subrule 178.1(4). This statement shall include a signed statement from the petitioner

attesting to the accuracy of the facts provided in the petition and a statement of reasons that the petitioner believes will justify a waiver.

*e.* A history of any prior contacts between the department and the petitioner relating to the regulated activity, license, registration, certification, or permit affected by the proposed waiver, including a description of each affected license, registration, certification, or permit held by the requester, any formal charges filed, any notices of violation, contested case hearings, or investigations relating to the regulated activity, license, registration, certification or permit.

*f.* Any information known to the requester regarding the department's action in similar circumstances.

*g.* The name, address, and telephone number of any public agency or political subdivision that also regulates the activity in question or that might be affected by the granting of a waiver.

*h.* The name, address, and telephone number of any person who would be adversely affected by the granting of the petition.

*i.* The name, address, and telephone number of any person with knowledge of the relevant facts relating to the proposed waiver.

*j.* Signed releases of information authorizing persons with knowledge regarding the request to furnish the department with information relevant to the waiver.

**178.1(7) Additional information.** Prior to issuing an order granting or denying a waiver, the department may request additional information from the petitioner relative to the petition and surrounding circumstances. If the petition was not filed in a contested case, the department may, on its own motion or at the petitioner's request, schedule a telephonic or in-person meeting between the petitioner and the department director or the director's designee.

**178.1(8) Notice.** The department shall acknowledge a petition upon receipt. Except where otherwise provided by law, every petition shall be served by the petitioner upon each of the parties of record of the proceeding and on all other persons identified in the petition for waiver as affected by the petition, simultaneously with the filing. The petitioner shall serve the notice on all persons to whom notice is required by any provision of law and provide a written statement to the department attesting that notice has been provided. In addition, the department may give notice to other persons.

**178.1(9) Hearing procedures.** The provisions of Iowa Code sections 17A.10 to 17A.18A regarding contested case hearings shall apply to any petition for a waiver filed within a contested case. A person who objects to a denial of a waiver in proceedings other than a contested case hearing may make an informal appearance before the department director, or the director's designee, to request reconsideration.

**178.1(10) Ruling.** An order granting or denying a waiver shall be in writing and shall contain a reference to the particular person and rule or portion thereof to which the order pertains, a statement of the relevant facts and reasons upon which the action is based, and a description of the precise scope and duration of the waiver if one is issued.

*a. Department discretion.* The final decision on whether the circumstances justify the granting of a waiver shall be made at the sole discretion of the department upon consideration of all relevant factors. Each petition for a waiver shall be evaluated by the department based on the unique, individual circumstances set out in the petition.

*b. Burden of persuasion.* The burden of persuasion rests with the petitioner to demonstrate by clear and convincing evidence that the department should exercise its discretion to grant a waiver from a department rule.

*c. Narrowly tailored exception.* A waiver, if granted, shall provide the narrowest exception possible to the provisions of a rule.

*d. Administrative deadlines.* When the rule from which a waiver is sought establishes administrative deadlines, the department shall balance the special individual circumstances of the petitioner with the overall goal of uniform treatment of all similarly situated persons.

*e. Conditions.* The department may place any condition on a waiver that the department finds desirable to protect the public health, safety, and welfare.

*f. Time period of waiver.* A waiver shall not be permanent unless the petitioner can show that a temporary waiver would be impracticable. If a temporary waiver is granted, there is no automatic right

to renewal. At the sole discretion of the department, a waiver may be renewed if the department finds that grounds for a waiver continue to exist.

*g. Time for ruling.* The department shall grant or deny a petition for a waiver as soon as practicable but, in any event, shall do so within 120 days of its receipt unless the petitioner agrees to a later date. However, if a petition is filed in a contested case, the department shall grant or deny the petition no later than the time at which the final decision in that contested case is issued.

*h. When deemed denied.* Failure of the department to grant or deny a petition within the required time period shall be deemed a denial of that petition by the department. However, the department shall remain responsible for issuing an order denying a waiver.

*i. Service of order.* Within seven days of its issuance, any order issued under this rule shall be transmitted to the petitioner or the person to whom the order pertains and to any other person entitled to such notice by any provision of law.

**178.1(11) Public availability.** All orders granting or denying a waiver petition shall be indexed, filed, and available for public inspection as provided in Iowa Code section 17A.3. Petitions for a waiver and orders granting or denying a waiver petition are public records under Iowa Code chapter 22. Some petitions or orders may contain information the department is authorized or required to keep confidential. The department may accordingly redact confidential information from petitions or orders prior to public inspection.

**178.1(12) Summary reports.** Semiannually, the department shall prepare a summary report identifying the rules for which a waiver has been granted or denied, the number of times a waiver was granted or denied for each rule, a citation to the statutory provisions implemented by these rules, and a general summary of the reasons justifying the department’s actions on waiver requests. If practicable, the report shall detail the extent to which the granting of a waiver has affected the general applicability of the rule itself. Copies of this report shall be available for public inspection and shall be provided semiannually to the administrative rules coordinator and the administrative rules review committee.

**178.1(13) Cancellation of a waiver.** A waiver issued by the department pursuant to this rule may be withdrawn, canceled, or modified if, after appropriate notice and hearing, the department issues an order finding any of the following:

- a.* The petitioner or the person who was the subject of the waiver order withheld or misrepresented material facts relevant to the propriety or desirability of the waiver; or
- b.* The alternative means for ensuring that the public health, safety and welfare will be adequately protected after issuance of the waiver order have been insufficient; or
- c.* The subject of the waiver order has failed to comply with all conditions contained in the order.

**178.1(14) Violations.** A violation of a condition in a waiver order shall be treated as a violation of the particular rule for which the waiver was granted. As a result, the recipient of a waiver under this rule who violates a condition of the waiver may be subject to the same remedies or penalties as a person who violates the rule at issue.

**178.1(15) Defense.** After the department issues an order granting a waiver, the order is a defense within its terms and the specific facts indicated therein only for the person to whom the order pertains in any proceeding in which the rule in question is sought to be invoked.

**178.1(16) Judicial review.** Judicial review of the department’s decision to grant or deny a waiver petition may be taken in accordance with Iowa Code chapter 17A.

**641—178.2(17A,135) Sample petition for waiver.** A petition for waiver filed in accordance with 641—178.1(17A,135) must meet the requirements specified therein and must substantially conform to the following form:

BEFORE THE DEPARTMENT OF PUBLIC HEALTH

Petition by (name of petitioner) for the waiver/variance of (insert rule citation) relating to (insert the subject matter).

PETITION FOR WAIVER/VARIANCE

1. Provide petitioner's (person asking for a waiver or variance) name, address, and telephone number. Also include the name, address, and telephone number of the petitioner's legal representative, if applicable, and a statement indicating the person to whom communications concerning the petition should be directed.
  2. Describe and cite the specific rule from which a waiver is requested.
  3. Describe the specific waiver requested, including the precise scope and time period for which the waiver will extend.
  4. Explain the relevant facts and reasons that the petitioner believes justify a waiver. Include in your answer all of the following:
    - a. Why applying the rule would result in undue hardship to the petitioner;
    - b. Why waiving the rule would not prejudice the substantial legal rights of any person;
    - c. Whether the provisions of the rule subject to the waiver are specifically mandated by statute or another provision of law; and
    - d. How substantially equal protection of public health, safety, and welfare will be afforded by a means other than that prescribed in the particular rule for which the waiver is requested.
  5. Provide a history of any prior contacts between the department and petitioner relating to the regulated activity, license, registration, certification or permit that would be affected by the waiver. Include a description of each affected license, registration, certification, or permit held by the petitioner, any formal charges filed, any notices of violation, any contested case hearings held, or any investigations related to the regulated activity, license, registration, certification, or permit.
  6. Provide information known to the petitioner regarding the department's action in similar circumstances.
  7. Provide the name, address, and telephone number of any public agency or political subdivision that also regulates the activity in question or that might be affected by the granting of the petition.
  8. Provide the name, address, and telephone number of any person or entity that would be adversely affected by the granting of the waiver.
  9. Provide the name, address, and telephone number of any person with knowledge of the relevant facts relating to the proposed waiver.
  10. Provide signed releases of information authorizing persons with knowledge regarding the request to furnish the department with information relevant to the waiver.
- I hereby attest to the accuracy and truthfulness of the above information.

These rules are intended to implement Iowa Code section 17A.9A and chapter 135.

[Filed 3/18/98, Notice 1/28/98—published 4/8/98, effective 5/13/98]

[Filed 5/10/01, Notice 2/21/01—published 5/30/01, effective 7/4/01]

CHAPTER 179  
COLLECTION OF DELINQUENT DEBTS

**641—179.1(8A) Authorization.** The department may participate in the department of administrative services' income offset program.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.2(8A) Definitions.** For purposes of this rule, the following definitions apply:

“*Debtor*” means any person who owes a debt to the department.

“*Department*” means the Iowa department of public health.

“*Income offset program*” means the program established in Iowa Code section 8A.504 through which the department of administrative services coordinates with state agencies to satisfy liabilities owed to those state agencies.

“*Liability*” or “*debt*” means a “qualifying debt” as defined in Iowa Code section 8A.504(1) or any liquidated sum due, owing, and payable by a debtor to the department. Such liquidated sum may be accrued through contract, subrogation, tort, operation of law, or any legal theory regardless of whether there is an outstanding judgment for that sum.

“*Liquidated*” means that the amount of the claim or debt is definite, determined, and fixed by agreement of the parties, by operation of law, or through court or administrative proceedings.

“*Notification of offset*” means receipt of actual notice by the department from the department of administrative services that the debtor is entitled to a payment that qualifies for offset.

“*Offset*” means to set off liabilities owed by a person to the department against claims owed to persons by public agencies.

“*Person*” means an individual, corporation, business trust, estate, trust, partnership or association, or any other legal entity, but does not include a state agency.

“*Preoffset notice*” means the notice required by rule 641—179.4(8A).

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.3(8A) Liability file.** The department may provide the department of administrative services a liability file.

**179.3(1) Contents.** With respect to each individual debtor, the liability file shall contain the following:

*a.* Information relevant to the identification of the debtor, as required by the department of administrative services and including the debtor's name and social security number or federal identification number,

*b.* The amount of liability, and

*c.* A written statement declaring the debt to have occurred.

**179.3(2) Certification.** The department shall certify the liability file at least semiannually, as required by the department of administrative services.

**179.3(3) Updates.** The department shall update the liability file:

*a.* When necessary to reflect new debtors, and

*b.* When the status of a debt changes due to payment of the debt, invalidation of the liability, alternate payment arrangements with the debtor, bankruptcy, or other factors.

**179.3(4) Due diligence.**

*a.* Before submitting debtor information to the outstanding liability file, the department shall make a good-faith attempt to collect from the debtor. Such attempt shall include at least all of the following:

(1) A telephone call requesting payment.

(2) A letter to the debtor's last discernible address requesting payment within 15 days.

*b.* The department shall document due diligence and retain such documentation.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.4(8A) Notification of offset.** Within 10 calendar days of receiving notification from the department of administrative services that the debtor is entitled to a payment, the department shall:

**179.4(1)** Send a preoffset notice to the debtor. The preoffset notice shall inform the debtor of the amount the department intends to claim and shall include all of the following information:

- a. The department's right to the payment in question.
- b. The department's right to recover the payment through the offset procedure.
- c. The basis of the department's case in regard to the debt.
- d. The right of the debtor to request, in accordance with rule 641—179.5(8A) and within 15 days of the mailing of the preoffset notice, a split of the payment between parties when the payment in question is jointly owned or otherwise owned by two or more persons.
- e. The debtor's right to appeal the offset, in accordance with rule 641—179.6(8A) and within 15 days of the mailing of the preoffset notice, and the procedure to follow in that appeal.
- f. The department's contact information, including a telephone number, for the debtor to contact in case of questions.

**179.4(2)** Notify the department of administrative services that the preoffset notice has been sent to the debtor and supply a copy of the preoffset notice to the department of administrative services.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.5(8A) Request to divide a jointly or commonly owned right to payment.**

**179.5(1)** A debtor who receives a preoffset notice may request release of a joint or common owner's share if the request is received by the department within 15 days of the date the preoffset notice is mailed.

**179.5(2)** In conjunction with such a request, the debtor shall provide to the department the full name and social security number of any joint or common owner.

**179.5(3)** Upon receipt of such a request, the department shall notify the department of administrative services of the request.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.6(8A) Appeal process.**

**179.6(1)** A debtor who receives a preoffset notice may request an appeal of the existence or amount of the underlying debt if such request is made within 15 days of the date the preoffset notice is mailed.

**179.6(2)** Request for appeal must be submitted in writing to the Iowa Department of Public Health, Bureau of Finance, Attn: Offset Appeals, 321 E. 12th Street, Des Moines, Iowa 50319-0075.

**179.6(3)** If a request for appeal is timely made, the department shall issue a notice of hearing to the debtor and provide a copy of the notice of hearing to the assistant attorney general for the department.

**179.6(4)** The appeal shall be conducted as a contested case proceeding pursuant to 641—Chapter 173.

**179.6(5)** If a request for appeal is timely made, the department shall notify the department of administrative services within 45 days of the notification of offset. The department shall hold a payment in abeyance until the final disposition of the contested liability or offset.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

**641—179.7(8A) Notice of offset.** Once any offset has been completed, the department shall notify the debtor of the action taken, and of what balance, if any, still remains owing to the department.

[ARC 2567C, IAB 6/8/16, effective 7/13/16]

These rules are intended to implement Iowa Code section 8A.504.

CHAPTER 186  
GOVERNMENTAL PUBLIC HEALTH ADVISORY COUNCIL

**641—186.1(135A) Purpose.** The governmental public health advisory council shall advise and make policy recommendations to the department, the director of the department, and the state board of health regarding the governmental public health system. The council is intended to support the goal that Iowa's governmentally sponsored public health systems be effective, efficient, well-organized, and well-coordinated to have the greatest impact on the improvement of health status for all Iowans.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.2(135A) Definitions.** For the purposes of this chapter, the following definitions apply:

*“Academic institution”* means an institution of higher education in the state which grants degrees in public health or another health-related field and is accredited by a nationally recognized accrediting agency as determined by the United States Secretary of Education. For purposes of this definition, “accredited” means a certification of the quality of the institution of higher education.

*“Council”* means the governmental public health advisory council as established in Iowa Code section 135A.4.

*“Department”* means the Iowa department of public health.

*“Designated local public health agency”* means an entity that is either governed by or contractually responsible to a local board of health and designated by the local board.

*“Director”* means the director of the Iowa department of public health.

*“Governmental public health system”* means local boards of health, the state board of health, designated local public health agencies, the state hygienic laboratory, and the department.

*“Local board of health”* means a city, county, or district board of health.

*“Organizational capacity”* means the governmental public health infrastructure that must be in place in order to deliver public health services.

*“Public health system”* means all public, private, and voluntary entities that contribute to the delivery of public health services within a jurisdiction.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17; ARC 3397C, IAB 10/11/17, effective 11/15/17]

**641—186.3(135A) Roles and responsibilities of the council.** The council shall provide guidance to the department regarding the governmental public health system.

**186.3(1)** A governmental public health advisory council is established to do all of the following:

a. Advise the department and make policy recommendations to the director of the department and the state board of health concerning implementation of Iowa Code chapter 135A.

b. Propose to the director public health standards that may be utilized by the governmental public health system.

c. Develop and implement processes for longitudinal evaluation of the public health system including collection of information about organizational capacity and public health service delivery.

d. Determine what process and outcome improvements in the governmental health system are attributable to voluntary accreditation.

e. Assure that the evaluation process is capturing data to support key research in public health system effectiveness and health outcomes.

f. Develop and make recommendations for improvements to the public health system.

g. Make recommendations for resources to support the public health system.

h. Review rules developed and adopted by the state board of health under Iowa Code chapter 135A and make recommendations to the department for revisions to further promote implementation of Iowa Code chapter 135A and modernization of the governmental public health system.

i. Form and utilize subcommittees as necessary to carry out the duties of the council.

j. Annually submit a report on the activities of the council to the state board of health by July 1.

**186.3(2)** Recommendations from the council shall be provided to the director in writing.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.4(135A) Officers.**

**186.4(1)** The officers of the council shall be a chairperson and vice chairperson.

- a. The officers shall be elected at the first meeting each September.
- b. Vacancy in the office of chairperson shall be filled by the vice chairperson.
- c. Vacancy in the office of vice chairperson shall be filled by election at the next regularly scheduled meeting after the vacancy occurs.

**186.4(2)** Duties of officers.

- a. The chairperson of the council shall preside at all meetings of the council.
- b. Robert's Rules of Order shall govern all meetings.
- c. If the chairperson is absent or unable to act, the vice chairperson shall perform the duties of the chairperson. When so acting, the vice chairperson shall have all the powers of and be subject to all the restrictions upon the chairperson.

d. The vice chairperson shall also perform such other duties as may be assigned by the chairperson.  
[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.5(135A) Members of the council.**

**186.5(1)** The director, pursuant to Iowa Code section 135A.4, shall appoint members of the council.

a. The membership of the council shall consist of all of the following members who satisfy all of the following requirements:

(1) Twelve members who represent various subfields of public health. These members shall provide geographical representation from all areas of the state. Each of these members shall be an employee of a designated local board of public health. Such members shall include a minimum of one local public health administrator and one physician member of a local board of health.

(2) Two members who are representatives of the department.

(3) The director of the state hygienic laboratory at the University of Iowa, or the director's designee.

(4) At least two representatives from academic institutions.

(5) Two members who serve on a county board of supervisors.

(6) At least one economist who has demonstrated experience in public health, health care, or a health-related field.

(7) At least one research analyst.

(8) Four nonvoting members who shall consist of four members of the general assembly, two from the senate and two from the house of representatives, with not more than one member from each chamber being from the same political party. The two senators shall be designated, one member each, by the majority leader of the senate after consultation with the president and by the minority leader of the senate. The two representatives shall be designated, one member each, by the speaker of the house of representatives after consultation with the majority leader of the house of representatives and by the minority leader of the house of representatives.

(9) One member of the state board of health who shall be a nonvoting member.

b. Members shall serve for a term of two years and may be reappointed.

c. Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**186.5(2)** A member's designee shall meet the same criteria for which the member was appointed. The member shall notify the department when the designee will be in attendance. The designee shall have voting rights.

**186.5(3)** Two consecutive unexcused absences of a member or designee shall be grounds for the director to consider dismissal of the council member and to appoint another. The department staff person assigned to the council is charged with providing notification of absences to the director.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.6(135A) Meetings.** The council shall hold a meeting at least quarterly. Notice of routine meetings and agenda should be made available to the members a minimum of five working days prior to the meeting.

**186.6(1)** Persons wishing to submit materials for consideration by the council should submit the materials electronically to the department at least 14 days in advance of the scheduled meeting to ensure that members have adequate time to review the materials.

**186.6(2)** Persons wishing to make a presentation to the council shall submit the request to the department not less than 14 days prior to the meeting. Presentations upon matters appearing on the agenda may be made either at the discretion of the chairperson or the department.

**186.6(3)** All meetings are open to the public in accordance with the open meetings law, Iowa Code chapter 21.

**186.6(4)** The council may conduct a meeting by electronic means pursuant to Iowa Code section 21.8.

**186.6(5)** A simple majority of appointed members shall be considered a quorum.

**186.6(6)** Any member or member's designee who is unable to attend a meeting shall notify the department at least 24 hours prior to the start of a regularly scheduled meeting; a meeting may be canceled if a quorum will not be present.

**186.6(7)** When a quorum is present, a position is carried by affirmative vote of the majority of those present.

**186.6(8)** Minutes. Minutes of all meetings showing the date, time, place, members present, members absent, and the general topics discussed shall be kept. The minutes shall reflect the actions agreed upon by the members for topics requiring the members' input or consensus.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.7(135A) Conflict of interest.** A conflict of interest exists when a member of the council participates in a way that directly affects the financial interests of the council member.

**186.7(1)** To avoid conflict of interest issues, a council member who has a financial interest in an action must abstain from participating in the entire process including discussion and voting.

**186.7(2)** Council members who have or think they may have a conflict of interest shall declare that there is or may be a conflict of interest and request a determination from the department.

**186.7(3)** If a conflict of interest is determined to exist, a council member shall abstain from voting and shall be recorded as abstaining when votes are taken.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.8(135A) Subcommittees.** The council may designate one or more subcommittees to perform such duties as may be deemed necessary.

[ARC 9246B, IAB 12/1/10, effective 1/5/11; ARC 2931C, IAB 2/1/17, effective 3/8/17]

**641—186.9(135A) Roles and responsibilities of the department.** The department is the lead agency to administer Iowa Code chapter 135A. The department's administration shall include evaluation of and quality improvement measures for the governmental health system.

[ARC 2931C, IAB 2/1/17, effective 3/8/17]

These rules are intended to implement Iowa Code sections 135A.2 to 135A.4, 135A.8 and 135A.9.

Rescinded IAB 4/11/07, effective 5/16/07

CHAPTER 191  
ADVISORY BODIES OF THE DEPARTMENT

**641—191.1(135) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Advisory body*” means a council, committee, or task force whose members have been appointed by the governor, the director or the director’s designee to provide advice or technical assistance to the department in an identified area of public health. An advisory body has no substantive authority to affect individual rights, duties or responsibilities.

“*Chairperson*” means the chair of the advisory body who has been elected by the majority of the advisory body’s members.

“*Department*” means the Iowa department of public health.

“*Designee*” means the individual designated by the director.

“*Director*” means the director of public health.

“*Governor*” means the governor of Iowa.

**641—191.2(135) Purpose.** The department may from time to time establish an advisory body for the provision of advice or technical assistance in an identified area of public health. These rules are applicable only to an advisory body established for a period to exceed one year or more. These rules do not apply to an advisory body governed by other administrative rule or statute.

**641—191.3(135) Appointment.** Members of the advisory body shall be appointed by the governor, director, or designee. The appointments, unless provided otherwise by law, shall be for three-year staggered terms which shall expire on June 30.

**191.3(1)** Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

**191.3(2)** Absences. Three consecutive unexcused absences shall be grounds for the director to consider dismissal of the advisory body member and to appoint another. The chairperson of the advisory body is charged with providing notification of absences to the department.

[ARC 8797B, IAB 6/2/10, effective 7/7/10]

**641—191.4(135) Officers.**

**191.4(1)** Officers of the advisory body shall be a chairperson and a vice chairperson and shall be elected at the first meeting of each fiscal year unless designated at the time of appointment.

*a.* Vacancies in the office of chairperson shall be filled by elevation of the vice chairperson.

*b.* Vacancies in the office of vice chairperson shall be filled by election at the next meeting after the vacancy occurs.

**191.4(2)** Duties of officers.

*a.* The chairperson shall:

- (1) Preside at all meetings of the advisory body,
- (2) Appoint such subcommittees as deemed necessary, and
- (3) Designate the chairperson of each subcommittee.

*b.* The vice chairperson shall:

(1) Perform the duties of the chairperson if the chairperson is absent or unable to act. When so acting, the vice chairperson shall have all the powers of and be subject to all restrictions upon the chairperson.

(2) Perform such other duties as may be assigned by the chairperson.

[ARC 8797B, IAB 6/2/10, effective 7/7/10]

**641—191.5(135) Meetings.**

**191.5(1)** The advisory body shall establish a meeting schedule on an annual basis to conduct its business.

*a.* Meetings may be scheduled as business requires, but notice to members must be at least five working days prior to the meeting date.

*b.* A four-week notice is encouraged to accommodate the schedules of professional members.

**191.5(2)** Robert's Rules of Order shall govern all meetings.

**191.5(3)** Action on any issue before the advisory body can only be taken by a majority vote of the entire membership.

**191.5(4)** The advisory body shall maintain information sufficient to indicate the vote of each member present.

[ARC 8797B, IAB 6/2/10, effective 7/7/10]

**641—191.6(135) Subcommittees.** The advisory body may designate one or more subcommittees to perform such duties as may be deemed necessary.

**641—191.7(135) Expenses of advisory body members.** The following may be considered necessary expenses for reimbursement of advisory body members when incurred on behalf of advisory body business and are subject to established state reimbursement rates:

1. Reimbursement for travel in a private car.
2. Actual lodging and meal expenses including sales tax on lodging and meals.
3. Actual expense of public transportation.

**641—191.8(135) Gender balance.** All advisory bodies of the department appointed by the governor, director or designee, if not otherwise provided by law, shall be gender-balanced.

These rules are intended to implement Iowa Code section 135.11.

[Filed 9/17/93, Notice 6/23/93—published 10/13/93, effective 11/17/93]

[Filed 1/11/96, Notice 12/6/95—published 1/31/96, effective 3/6/96]

[Filed ARC 8797B (Notice ARC 8630B, IAB 3/24/10), IAB 6/2/10, effective 7/7/10]

CHAPTER 192  
CHILD SUPPORT NONCOMPLIANCE

**641—192.1(252J) Definitions.** For the purpose of this chapter, the following definitions shall apply:

“*Applicant*” means an individual who is seeking the issuance of a license.

“*Certificate of noncompliance*” means a document provided by the child support recovery unit of the department of human services certifying that the named applicant or licensee has defaulted on an obligation owed to or collected by the child support recovery unit.

“*Department*” means the department of public health.

“*License*” means a license, certification, registration, permit, approval, renewal, or other similar authorization issued to a person by a licensing authority which evidences the granting of authority to engage in a profession, occupation, or business.

“*Licensing authority*” means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

[ARC 8798B, IAB 6/2/10, effective 7/7/10]

**641—192.2(252J) Issuance or renewal of a license—denial.** The licensing authority shall deny the issuance or renewal of a license upon the receipt of a certificate of noncompliance from the child support recovery unit of the department of human services according to the procedures in Iowa Code chapter 252J. In addition to the procedures set forth in Iowa Code chapter 252J, the following shall apply.

**192.2(1)** The notice required by Iowa Code section 252J.8 shall be served upon the applicant or licensee by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the applicant or licensee may accept service personally or through authorized counsel.

**192.2(2)** The effective date of the denial of the issuance or renewal of a license, as specified in the notice required by Iowa Code section 252J.8, shall be 60 days following service of the notice upon the applicant or licensee.

**192.2(3)** The licensing authority’s administrator is authorized to prepare and serve the notice required by Iowa Code section 252J.8, upon the applicant or licensee.

**192.2(4)** Applicants and licensees shall keep the licensing authority informed of all court actions, and all child support recovery unit actions taken under or in connection with Iowa Code chapter 252J, and shall provide the licensing authority copies, within 7 days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in such actions, and withdrawals of certificates of noncompliance by the child support recovery unit.

**192.2(5)** All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees before a license will be issued, renewed, or reinstated after the licensing authority has denied the issuance or renewal of a license pursuant to Iowa Code chapter 252J.

**192.2(6)** In the event an applicant or licensee timely files a district court action following service of a licensing authority notice pursuant to Iowa Code sections 252J.8 and 252J.9, the licensing authority shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the denial of the issuance or renewal of a license, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**192.2(7)** The licensing authority shall notify the applicant or licensee in writing through regular first-class mail, or such other means as the licensing authority determines appropriate in the circumstances, within 10 days of the effective date of the denial of the issuance or renewal of a license and shall similarly notify the applicant or licensee if the license is issued or renewed following the licensing authority’s receipt of a withdrawal of the certificate of noncompliance.

[ARC 8798B, IAB 6/2/10, effective 7/7/10]

**641—192.3(252J) Suspension or revocation of a license.** The licensing authority shall suspend or revoke a license upon the receipt of a certificate of noncompliance from the child support recovery unit of the department of human services according to the procedures set forth in Iowa Code chapter 252J. In addition to the procedures set forth in Iowa Code chapter 252J, the following shall apply.

**192.3(1)** The notice required by Iowa Code section 252J.8 shall be served upon the licensee by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the licensee may accept service personally or through authorized counsel.

**192.3(2)** The effective date of the suspension or revocation of a license, as specified in the notice required by Iowa Code section 252J.8, shall be 60 days following service of the notice upon the licensee.

**192.3(3)** The licensing authority's administrator is authorized to prepare and serve the notice required by Iowa Code section 252J.8 and is directed to notify the licensee that the license will be suspended unless the license is already suspended on other grounds. In the event that the license is on suspension, the administrator shall notify the licensee of the licensing authority's intention to revoke the license.

**192.3(4)** Licensees shall keep the licensing authority informed of all court actions, and all child support recovery unit action taken under or in connection with Iowa Code chapter 252J, and shall provide the licensing authority copies, within 7 days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in such actions and withdrawals of certificates of noncompliance by the child support recovery unit.

**192.3(5)** All licensing authority fees required for license renewal or license reinstatement must be paid by licensees before a license will be reinstated after the licensing authority has suspended or revoked a license pursuant to Iowa Code chapter 252J.

**192.3(6)** In the event a licensee files a district court action following service of a licensing authority notice pursuant to Iowa Code sections 252J.8 and 252J.9, the licensing authority shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the suspension or revocation, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**192.3(7)** The licensing authority shall notify the licensee in writing through regular first-class mail, or such other means as the licensing authority determines appropriate in the circumstances, within 10 days of the effective date of the suspension or revocation of a license and shall similarly notify the licensee if the license is reinstated following the licensing authority's receipt of a withdrawal of the certificate of noncompliance.

[ARC 8798B, IAB 6/2/10, effective 7/7/10]

**641—192.4(17A,22,252J) Sharing of information.** Notwithstanding any statutory confidentiality provision, the licensing authority may share information with the child support recovery unit of the department of human services through manual or automated means for the sole purpose of identifying applicants or licensees subject to enforcement under Iowa Code chapter 252J or Iowa Code chapter 598.

[ARC 8798B, IAB 6/2/10, effective 7/7/10]

These rules are intended to implement Iowa Code chapter 252J.

[Filed emergency 1/11/96 after Notice 12/6/95—published 1/31/96, effective 1/11/96]

[Filed ARC 8798B (Notice ARC 8631B, IAB 3/24/10), IAB 6/2/10, effective 7/7/10]

CHAPTER 193  
IMPAIRED PRACTITIONER REVIEW COMMITTEE

**641—193.1(272C) Definitions.** For the purpose of these rules, the following definitions shall apply:

“*Committee*” means the impaired practitioner review committee as established by a licensing board pursuant to the authority of Iowa Code section 272C.3(1) “k.”

“*Contract*” means the written document establishing the terms for participation in the impaired practitioner program prepared by the committee.

“*Impairment*” means an inability to practice with reasonable safety and skill as a result of alcohol or drug abuse, dependency, or addiction or any mental or physical disorder or disability.

“*Licensing board*” or “*board*” means “licensing board” or “board” as defined in Iowa Code section 272C.1.

“*Practitioner*” means a person licensed under Iowa Code chapter 105, 147, 147A, 148C, 149, 152B, 152C, 152D, 154A, 154E, or 155.

“*Self-report*” means the licensee’s providing written or oral notification to the board that the licensee has been or may be diagnosed as having an impairment prior to the board’s receiving a complaint or report alleging the same from a second party.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.2(272C) Purpose.** The impaired practitioner review committee evaluates, assists, monitors and, as necessary, makes reports to the licensing board on the recovery or rehabilitation of practitioners who self-report impairments. These rules do not apply to an impaired practitioner review committee governed by other administrative rule or statute.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.3(272C) Composition of the committee.** The chairperson of the board shall appoint the members of the committee. The committee shall meet as necessary in order to review licensee compliance, develop consent agreements for new referrals, and determine eligibility for continued monitoring. The membership of the committee includes, but is not limited to:

**193.3(1)** One practitioner, licensed under the same board or similar professional licensing board who has remained free of addiction for a period of no less than two years since successfully completing a board-approved recovery program and board-ordered probation for drug or alcohol dependency, addiction, or abuse.

**193.3(2)** One practitioner with expertise in substance abuse/addiction treatment programs.

**193.3(3)** One public member of the board.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.4(272C) Eligibility.** To be eligible for participation in the impaired practitioner recovery program, a licensee must meet all of the following criteria:

**193.4(1)** The licensee must self-report an impairment or suspected impairment directly to the office of the board.

**193.4(2)** The licensee must not have engaged in the unlawful diversion or distribution of controlled substances or illegal substances.

**193.4(3)** At the time of the self-report, the licensee must not already be under board order for an impairment or any other violation of the laws and rules governing the practice of the profession.

**193.4(4)** The licensee has not caused harm or injury to a client.

**193.4(5)** There is currently no board investigation of the licensee that, as determined by the committee, concerns serious matters related to the ability to practice with reasonable safety and skill or in accordance with the accepted standards of care.

**193.4(6)** The licensee has not been subject to a civil or criminal sanction or ordered to make reparations or remuneration by a government or regulatory authority of the United States, this or any other state or territory or a foreign nation for actions that the committee determines to be serious

infractions of the laws, administrative rules, or professional ethics related to the practice of the licensee's profession.

**193.4(7)** The licensee has provided truthful information and fully cooperated with the board or committee.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.5(272C) Terms of participation in the impaired practitioner recovery program.** A licensee shall agree to comply with the terms for participation in the impaired practitioner recovery program established in a contract. Conditions placed upon the licensee and the duration of the monitoring period shall be established by the committee and communicated to the licensee in writing.

**193.5(1) Noncompliance.** Failure to comply with the provisions of the contract shall require the committee to make immediate referral of the matter to the board for possible disciplinary action.

**193.5(2) Practice restrictions.** The committee may impose restrictions on the licensee's practice as a term of the contract until such time as the committee receives a report from an approved evaluator that the licensee is capable of practicing with reasonable safety and skill.

*a.* As a condition of participating in the program, a licensee is required to agree to restricted practice in accordance with the terms specified in the contract.

*b.* In the event that the licensee refuses to agree to or comply with the restrictions established in the contract, the committee shall refer the licensee to the board for appropriate action.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.6(272C) Limitations.** The committee establishes the terms and monitors a participant's compliance with the program specified in the contract.

**193.6(1)** The committee is not responsible for participants who fail to comply with the terms of or successfully complete the impaired practitioner program.

**193.6(2)** Participation in the program under the auspices of the committee shall not relieve the board of any duties and shall not divest the board of any authority or jurisdiction otherwise provided. Any violation of the statutes or rules governing the practice of the licensee's profession by a participant shall be referred to the board for appropriate action.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

**641—193.7(272C) Confidentiality.** The committee is subject to the provisions governing confidentiality established in Iowa Code section 272C.6.

**193.7(1)** Information in the possession of the board or the committee about licensees in the program shall not be disclosed to the public.

**193.7(2)** Participation in the impaired practitioner program under the auspices of the committee is not a matter of public record.

[ARC 8799B, IAB 6/2/10, effective 7/7/10]

These rules are intended to implement Iowa Code chapter 272C.

[Filed emergency 6/27/96 after Notice 4/10/96—published 7/17/96, effective 6/27/96]

[Filed ARC 8799B (Notice ARC 8634B, IAB 3/24/10), IAB 6/2/10, effective 7/7/10]

CHAPTER 194  
NONPAYMENT OF STATE DEBT

**641—194.1(272D) Definitions.** For the purpose of this chapter, the following definitions shall apply.

“*Applicant*” means an individual who is seeking the issuance of a license.

“*Centralized collection unit*” means the centralized collection unit of the Iowa department of revenue.

“*Certificate of noncompliance*” means a document provided by the centralized collection unit of the department of revenue certifying that the named applicant or licensee has an outstanding liability placed with the unit and has not entered into an approved payment plan to pay the liability.

“*Denial notice*” means a licensing authority notification denying an application for the issuance or renewal of a license as required by Iowa Code chapter 272D.

“*Department*” means the department of public health.

“*License*” means a license, certification, registration, permit, approval, renewal, or other similar authorization issued to a person by a licensing authority which evidences the granting of authority to engage in a profession, occupation, or business.

“*Licensing authority*” means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

“*Revocation or suspension notice*” means a licensing authority notification suspending a license for an indefinite or specified period of time or a notification revoking a license as required by Iowa Code chapter 272D.

“*Withdrawal certificate*” means a document provided by the centralized collection unit certifying that the certificate of noncompliance is withdrawn and that the licensing authority may proceed with issuance, reinstatement, or renewal of a license.

[ARC 7671B, IAB 4/8/09, effective 5/13/09]

**641—194.2(272D) Issuance or renewal of a license—denial.** The licensing authority shall deny the issuance or renewal of a license upon the receipt of a certificate of noncompliance from the centralized collection unit. This rule shall apply in addition to the procedures set forth in Iowa Code chapter 272D.

**194.2(1) *Service of denial notice.*** Notice shall be served upon the applicant or licensee by certified mail, return receipt requested; by personal service; or through authorized counsel.

**194.2(2) *Effective date of denial.*** The effective date of the denial of the issuance or renewal of a license, as specified in the denial notice, shall be 60 days following service of the denial notice upon the applicant or licensee.

**194.2(3) *Preparation and service of denial notice.*** The licensing authority is authorized to prepare and serve the denial notice upon the applicant or licensee.

**194.2(4) *Licensees and applicants responsible to inform licensing authority.*** Licensees and applicants shall keep the licensing authority informed of all court actions and all centralized collection unit actions taken under or in connection with Iowa Code chapter 272D. Licensees and applicants shall also provide the licensing authority copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code chapter 272D, all court orders entered in such actions, and any withdrawals of certificates issued by the centralized collection unit.

**194.2(5) *Reinstatement following license denial.*** All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees before a license will be issued, renewed, or reinstated after the licensing authority has denied the issuance or renewal of a license pursuant to Iowa Code chapter 272D.

**194.2(6) *Effect of filing in district court.*** In the event an applicant or a licensee files a timely district court action following service of a denial notice by a licensing authority, the licensing authority shall continue with the intended action described in the denial notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the denial of the issuance or renewal of a license, the licensing authority

shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**194.2(7) Final notification.** The licensing authority shall notify the applicant or licensee in writing through regular first-class mail, or by such other means as the licensing authority determines appropriate in the circumstances, within ten days of the effective date of the denial of the issuance or renewal of a license, and shall similarly notify the applicant or licensee if the license is issued or renewed following the licensing authority's receipt of a withdrawal certificate.

[ARC 7671B, IAB 4/8/09, effective 5/13/09]

**641—194.3(272D) Suspension or revocation of a license.** The licensing authority shall suspend or revoke a license upon the receipt of a certificate of noncompliance from the centralized collection unit in accordance with the procedures set forth in Iowa Code chapter 272D. This rule shall apply in addition to the procedures set forth in Iowa Code chapter 272D.

**194.3(1) Service of revocation or suspension notice.** A revocation or suspension notice shall be served upon the licensee by certified mail, return receipt requested; by personal service; or through authorized counsel.

**194.3(2) Effective date of revocation or suspension.** The effective date of the suspension or revocation of a license, as specified in the revocation or suspension notice, shall be 60 days following service of the notice upon the licensee.

**194.3(3) Preparation and service of revocation or suspension notice.** The licensing authority is authorized to prepare and serve the revocation or suspension notice upon the licensee and is directed to notify the licensee that the license will be suspended, unless the license is already suspended on other grounds. In the event that the license is on suspension, the licensing authority shall notify the licensee of the licensing authority's intention to revoke the license.

**194.3(4) Licensee responsible to inform licensing authority.** The licensee shall keep the licensing authority informed of all court actions and all centralized collection unit actions taken under or in connection with Iowa Code chapter 272D. Licensees shall also provide the licensing authority copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code chapter 272D, all court orders entered in such actions, and any withdrawal certificates issued by the centralized collection unit.

**194.3(5) Reinstatement following license suspension or revocation.** A licensee shall pay all licensing authority fees required for license renewal or license reinstatement before a license will be reinstated after the licensing authority has suspended or revoked a license pursuant to Iowa Code chapter 272D.

**194.3(6) Effect of filing in district court.** In the event a licensee files a timely district court action pursuant to Iowa Code chapter 272D, and following service of a revocation or suspension notice, the licensing authority shall continue with the intended action described in the revocation or suspension notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the license suspension or revocation, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**194.3(7) Final notification.** The licensing authority shall notify the licensee in writing through regular first-class mail, or by such other means as the licensing authority determines appropriate in the circumstances, within ten days of the effective date of the suspension or revocation of a license, and shall similarly notify the licensee if the license is reinstated following the licensing authority's receipt of a withdrawal certificate.

[ARC 7671B, IAB 4/8/09, effective 5/13/09]

**641—194.4(272D) Sharing of information.** Notwithstanding any statutory confidentiality provision, the department or licensing authority may share information with the centralized collection unit of the department of revenue through automated means for the sole purpose of identifying applicants or licensees subject to enforcement pursuant to Iowa Code chapter 272D.

[ARC 7671B, IAB 4/8/09, effective 5/13/09]

These rules are intended to implement Iowa Code chapter 272D.

[Filed ARC 7671B (Notice ARC 7540B, IAB 1/28/09), IAB 4/8/09, effective 5/13/09]

CHAPTER 195  
STUDENT LOAN DEFAULT/NONCOMPLIANCE WITH AGREEMENT  
FOR PAYMENT OF OBLIGATION

**641—195.1(261) General definitions.** For the purposes of this chapter, the following definitions shall apply:

“*Applicant*” means an individual who is seeking the issuance of a license.

“*Certificate of noncompliance*” means written certification from the college student aid commission to the licensing authority certifying that the licensee has defaulted on an obligation owed to or collected by the commission.

“*Commission*” means the college student aid commission.

“*Department*” means the department of public health.

“*License*” means a license, certification, registration, permit, approval, renewal, or other similar authorization issued to a person by a licensing authority which evidences the granting of authority to engage in a profession, occupation, or business.

“*Licensing authority*” means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

[ARC 8800B, IAB 6/2/10, effective 7/7/10]

**641—195.2(261) Issuance or renewal of a license—denial.** The licensing authority shall deny the issuance or renewal of a license upon receipt of a certificate of noncompliance from the college student aid commission according to the procedures set forth in Iowa Code sections 261.121 to 261.127.

**195.2(1)** In order to process the certificate of noncompliance received by the licensing authority, the licensing authority will maintain records of licensees by name, current known address, and social security number.

**195.2(2)** Upon receipt of a certificate of noncompliance duly issued by the commission, the licensing authority shall initiate procedures for denial of issuance or renewal of licensure.

**195.2(3)** The licensing authority shall provide notice to the licensee or applicant informing that person of the licensing authority’s intent to deny the license, and said notice shall be served by restricted certified mail, return receipt requested, or by personal service in accordance with the Iowa Rules of Civil Procedure. The notice shall state all of the following:

*a.* The licensing authority intends to deny issuance or renewal of an individual’s license due to the receipt of a certificate of noncompliance from the commission.

*b.* The individual must contact the commission to schedule a conference or to otherwise obtain a withdrawal of a certificate of noncompliance.

*c.* Unless the commission furnishes a withdrawal of a certificate of noncompliance to the licensing authority within 30 days of the issuance of the notice under this subrule, the individual’s license shall be denied.

**195.2(4)** The applicant or licensee served with a notice under 195.2(3) shall not have a right to a hearing before the licensing authority but may request a court hearing pursuant to Iowa Code section 261.127. Such court hearing must be requested within 30 days of the provision of notice.

**195.2(5)** The effective date of the denial of the issuance or renewal of a license, as specified in the notice required by Iowa Code section 261.126, shall be 60 days following service of the notice upon the applicant or licensee.

**195.2(6)** The licensing authority’s administrator is authorized to prepare and serve the notice required by Iowa Code section 261.126 upon the applicant or licensee.

**195.2(7)** All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees and all continuing education requirements must be met before a license will be issued, renewed, or reinstated after the licensing authority has denied the issuance or renewal of a license pursuant to Iowa Code chapter 261.

**195.2(8)** In the event an applicant or licensee timely files a district court action following service of a licensing authority notice pursuant to Iowa Code section 261.126, the licensing authority shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed.

**195.2(9)** Upon the filing of a district court action, the applicant or licensee shall promptly file with the licensing authority a copy of the petition filed with the district court. In addition, the applicant or licensee shall provide the licensing authority with copies of all court orders and rulings entered in such action within seven days of the action.

**195.2(10)** For purposes of determining the effective date of the denial of the issuance or renewal of a license, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

[ARC 8800B, IAB 6/2/10, effective 7/7/10]

**641—195.3(261) Suspension or revocation of a license.** The licensing authority shall suspend or revoke a license upon receipt of a certificate of noncompliance from the college student aid commission according to the procedures set forth in Iowa Code sections 261.121 to 261.127. In addition to the provisions contained in those sections, the following shall apply:

**195.3(1)** In order to process the certificate of noncompliance received by the licensing authority, the licensing authority will maintain records of licensees by name, current known address, and social security number.

**195.3(2)** Upon receipt of a certificate of noncompliance duly issued by the commission, the licensing authority shall initiate procedures for suspension or revocation of licensure.

**195.3(3)** The licensing authority shall provide notice to the licensee informing the individual of the licensing authority's intent to suspend or revoke the license, and said notice shall be served by restricted certified mail, return receipt requested, or by personal service in accordance with the Iowa Rules of Civil Procedure. The notice shall state all of the following:

*a.* The licensing authority intends to suspend or revoke an individual's license due to the receipt of a certificate of noncompliance from the commission.

*b.* The individual must contact the commission to schedule a conference or to otherwise obtain a withdrawal of a certificate of noncompliance.

*c.* Unless the commission furnishes a withdrawal of a certificate of noncompliance to the licensing authority within 30 days of the issuance of the notice under this subrule, the individual's license shall be suspended or revoked.

**195.3(4)** The licensee served with a notice under 195.3(3) shall not have a right to a hearing before the licensing authority but may request a court hearing pursuant to Iowa Code section 261.127. Such court hearing must be requested within 30 days of the provision of notice.

**195.3(5)** The effective date of the suspension or revocation of a license, as specified in the notice required by Iowa Code section 261.126, shall be 60 days following service of the notice upon the licensee.

**195.3(6)** The licensing authority's administrator is authorized to prepare and serve the notice required by Iowa Code section 261.126 upon the licensee.

**195.3(7)** All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees and all continuing education requirements must be met before a license will be issued, renewed, or reinstated after the licensing authority has suspended or revoked a license pursuant to Iowa Code chapter 261.

**195.3(8)** In the event a licensee timely files a district court action following service of a licensing authority notice pursuant to Iowa Code section 261.126, the licensing authority shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed.

**195.3(9)** Upon the filing of a district court action, the licensee shall promptly file with the licensing authority a copy of the petition filed with the district court. In addition, the licensee shall provide the licensing authority with copies of all court orders and rulings entered in such action within seven days of the action.

**195.3(10)** For purposes of determining the effective date of the suspension or revocation, the licensing authority shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.  
[ARC 8800B, IAB 6/2/10, effective 7/7/10]

**641—195.4(17A,22,261) Sharing of information.** Notwithstanding any statutory confidentiality provision, the licensing authority may share information with the commission for the sole purpose of identifying applicants or licensees subject to enforcement under Iowa Code chapter 261.  
[ARC 8800B, IAB 6/2/10, effective 7/7/10]

These rules are intended to implement Iowa Code chapter 261.

[Filed 5/14/99, Notice 3/24/99—published 6/2/99, effective 7/7/99]

[Filed ARC 8800B (Notice ARC 8632B, IAB 3/24/10), IAB 6/2/10, effective 7/7/10]

CHAPTER 196  
MILITARY SERVICE AND VETERAN RECIPROCITY

**641—196.1(85GA,ch1116) Definitions.**

*“Department”* means the department of public health.

*“License”* means a license, certification, registration, permit, approval, renewal, or other similar authorization issued to a person by a licensing authority which evidences the granting of authority to engage in a profession, occupation, or business.

*“Licensing authority”* means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

*“Military service”* means honorably serving on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1; in the military services of other states, as provided in 10 U.S.C. Section 101(c); or in the organized reserves of the United States, as provided in 10 U.S.C. Section 10101.

*“Military service applicant”* means an individual requesting credit toward licensure for military education, training, or service obtained or completed in military service.

*“Veteran”* means an individual who meets the definition of “veteran” in Iowa Code section 35.1(2).  
[ARC 1749C, IAB 12/10/14, effective 1/14/15]

**641—196.2(85GA,ch1116) Military education, training, and service credit.** A military service applicant may apply for credit for verified military education, training, or service toward any experience or educational requirement for licensure by submitting a military service application form to the licensing authority.

**196.2(1)** The application may be submitted with an application for licensure or examination, or prior to applying for licensure or to take an examination. No fee is required with submission of an application for military service credit.

**196.2(2)** The applicant shall identify the experience or educational licensure requirement to which the credit would be applied if granted. Credit shall not be applied to an examination requirement.

**196.2(3)** The applicant shall provide documents, military transcripts, a certified affidavit, or forms that verify completion of the relevant military education, training, or service, which may include, when applicable, the applicant’s Certificate of Release or Discharge from Active Duty (DD Form 214) or Verification of Military Experience and Training (VMET) (DD Form 2586).

**196.2(4)** Upon receipt of a completed military service application, the licensing authority shall promptly determine whether the verified military education, training, or service will satisfy all or any part of the identified experience or educational qualifications for licensure.

**196.2(5)** The licensing authority shall grant credit requested in the application in whole or in part if the licensing authority determines that the verified military education, training, or service satisfies all or part of the experience or educational qualifications for licensure.

**196.2(6)** The licensing authority shall inform the military service applicant in writing of the credit, if any, given toward an experience or educational qualification for licensure or explain why no credit was granted. The applicant may request reconsideration upon submission of additional documentation or information.

**196.2(7)** A military service applicant who is aggrieved by the licensing authority’s decision may request a contested case (administrative hearing) and may participate in a contested case by telephone. A request for a contested case shall be made within 30 days of issuance of the licensing authority’s decision. The provisions of 641—Chapter 173 shall apply, except that no fees or costs shall be assessed against the military service applicant in connection with a contested case conducted pursuant to this subrule.

**196.2(8)** The licensing authority shall grant or deny the military service application prior to ruling on the application for licensure. The applicant shall not be required to submit any fees in connection with the licensure application unless the licensing authority grants the military service application. If

the licensing authority does not grant the military service application, the applicant may withdraw the licensure application or request that the licensure application be placed in pending status for up to one year or as mutually agreed. The withdrawal of a licensure application shall not preclude subsequent applications supported by additional documentation or information.

[ARC 1749C, IAB 12/10/14, effective 1/14/15]

**641—196.3(85GA,ch1116) Veteran reciprocity.**

**196.3(1)** A veteran with an unrestricted license in another jurisdiction may apply for licensure in Iowa through reciprocity. A veteran must pass any examinations required for licensure to be eligible for licensure through reciprocity and will be given credit for examinations previously passed when consistent with the licensing authority's laws and rules on examination requirements. A fully completed application for licensure submitted by a veteran under this subrule shall be given priority and shall be expedited.

**196.3(2)** Such an application shall contain all of the information required of all applicants for licensure who hold unrestricted licenses in other jurisdictions and who are applying for licensure by reciprocity, including, but not limited to, completion of all required forms, payment of applicable fees, disclosure of criminal or disciplinary history, and, if applicable, a criminal history background check. The applicant shall use the same forms as any other applicant for licensure by reciprocity and shall additionally provide such documentation as is reasonably needed to verify the applicant's status as a veteran under Iowa Code section 35.1(2).

**196.3(3)** Upon receipt of a fully completed licensure application, the licensing authority shall promptly determine if the professional or occupational licensing requirements of the jurisdiction where the veteran is licensed are substantially equivalent to the licensing requirements in Iowa. The licensing authority shall make this determination based on information supplied by the applicant and such additional information as the licensing authority may acquire from the applicable jurisdiction. As relevant to the license at issue, the licensing authority may consider the following factors in determining substantial equivalence: scope of practice, education and coursework, degree requirements, experience, and examinations required for licensure.

**196.3(4)** The licensing authority shall promptly grant a license to the veteran if the veteran is licensed in the same or similar profession in another jurisdiction whose licensure requirements are substantially equivalent to those required in Iowa, unless the applicant is ineligible for licensure based on other grounds, for example, the applicant's disciplinary or criminal background.

**196.3(5)** If the licensing authority determines that the licensure requirements in the jurisdiction in which the veteran is licensed are not substantially equivalent to those required in Iowa, the licensing authority shall promptly inform the veteran of the additional experience, education, or examinations required for licensure in Iowa. Unless the applicant is ineligible for licensure based on other grounds, such as disciplinary or criminal background, or the issuance of a provisional license is inconsistent with the licensing authority's enabling statute, the following shall apply:

*a.* If a veteran has not passed the required examination(s) for licensure, the veteran may not be issued a provisional license but may request that the licensure application be placed in pending status for up to one year or as mutually agreed to provide the veteran with the opportunity to satisfy the examination requirements.

*b.* If additional experience or education is required for the applicant's qualifications to be considered substantially equivalent, the applicant may request that the licensing authority issue a provisional license for a specified period of time during which the applicant will successfully complete the necessary experience or education. The licensing authority shall issue a provisional license for a specified period of time upon such conditions as the licensing authority deems reasonably necessary to protect the health, welfare or safety of the public unless the licensing authority determines that the deficiency is of a character that the public health, welfare or safety will be adversely affected if a provisional license is granted.

*c.* If a request for a provisional license is denied, the licensing authority shall issue an order fully explaining the decision and shall inform the applicant of the steps the applicant may take in order to receive a provisional license.

*d.* If a provisional license is issued, the application for full licensure shall be placed in pending status until the necessary experience or education has been successfully completed or the provisional license expires, whichever occurs first. The licensing authority may extend a provisional license on a case-by-case basis for good cause.

**196.3(6)** A veteran who is aggrieved by the licensing authority's decision to deny an application for a reciprocal license or a provisional license or is aggrieved by the terms under which a provisional license will be granted may request a contested case (administrative hearing) and may participate in a contested case by telephone. A request for a contested case shall be made within 30 days of issuance of the licensing authority's decision. The provisions of 641—Chapter 173 shall apply, except that no fees or costs shall be assessed against the veteran in connection with a contested case conducted pursuant to this subrule.

[ARC 1749C, IAB 12/10/14, effective 1/14/15]

These rules are intended to implement 2014 Iowa Acts, chapter 1116, section 34.

CERTIFICATE OF NEED PROGRAM  
[Prior to 7/29/87, Health Department[470] Ch 202]

**641—202.1(135) Definitions.** For purposes of this chapter, the following definitions apply:

*“Acute care category of bed usage,”* as the term applies in Iowa Code section 135.63(2) *“k,”* shall be the same as the acute care categories listed in the state survey section of the American Hospital Association Annual Survey of Hospitals.

*“Any expenditure in excess of five hundred thousand dollars,”* as defined in Iowa Code section 135.61(18) *“e,”* means new capital expenditures and new personnel necessary to operate the service for a year.

*“Any mobile health service with a value in excess of one million five hundred thousand dollars,”* as defined in Iowa Code section 135.61(18) *“l,”* means the value of all equipment used to provide the service, including the trailer. The party providing the equipment shall be the applicant regardless of the location of that party.

*“Appropriate geographic service area,”* as the term applies to defining affected persons in Iowa Code section 135.61(1) *“c,”* shall be defined as follows:

1. For applications regarding hospitals, hospitals located in the same county and in Iowa counties contiguous to the county wherein the applicant hospital’s proposed project will be located.

2. For applications regarding health care facilities, other health care facilities located in the same county and in Iowa counties contiguous to the county wherein the applicant’s proposed health care facility will be located.

3. For applications sponsored by other than the hospitals or health care facilities specified in paragraphs “1” and “2,” those providers within the same county who offer similar service or might logically be viewed as potential providers of such service.

*“Bed capacity”* shall be defined as follows:

1. For hospitals, bed capacity is defined as the total facility licensed beds as reported on the state survey section of the American Hospital Association Annual Survey of Hospitals.

2. For health care facilities, bed capacity is defined as a facility’s licensed bed capacity according to the department of inspections and appeals.

*“Cardiac catheterization service,”* as the term applies to a new or changed institutional health service in Iowa Code section 135.61(18) *“m”(1),* means the initiation or expansion of this service.

*“Consumers served by a new institutional health service”* means those consumers residing in the service area as determined by the department.

*“Long-term (acute) care hospital,”* for purposes of these rules, means a hospital that has been approved to participate in the Title XVIII (Medicare) program as a long-term care hospital-prospective payment system hospital (LTCH-PPS) in accordance with 42 CFR Part 412.

*“Open heart surgical service,”* as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) *“m”(2),* means the initiation or expansion of this service.

*“Organized outpatient health facility,”* as defined in Iowa Code section 135.61(20), shall include, but not be limited to, the following types of facilities:

1. Community mental health centers; and
2. Comprehensive outpatient rehabilitation facilities (CORFs) certified by Medicare.

*“Organ transplantation service,”* as the term applies to a new or changed institutional health service in Iowa Code section 135.61(18) *“m”(3),* means the initiation or expansion of this service. Each type of organ transplant shall be considered separately.

*“Permanent change in bed capacity of an institutional health facility”* means a change which is intended to be effective for one year or more.

1. A conversion of a long-term acute care hospital or a rehabilitation hospital as defined by federal regulations to a general acute care hospital or to a different type of specialty hospital is a permanent change in bed capacity and requires a certificate of need.

2. A hospital which has deleted beds pursuant to Iowa Code section 135.63(2) “g” for the purpose of receiving designation as a critical access hospital may reestablish the deleted beds at a later time without obtaining a certificate of need, provided that the number of beds reestablished does not exceed the number of beds maintained prior to the deletion as reported on the bed reduction form.

“*Physical facility*,” as the term applies in Iowa Code section 135.61(18) “f,” means a separately licensed facility.

“*Private offices and private clinics of an individual physician, dentist, or other practitioner or group of health care providers*.” The meaning of this term as used in Iowa Code section 135.63(2) “a” shall be determined by looking at factors which include, but are not limited to:

1. The type of health care service delivered;
2. The control and supervision of medical judgment in the care of and treatment of patients;
3. The control and supervision of professional assistants, including nurses, physician assistants, and technicians; and
4. The ownership and maintenance of medical records of patients.

“*Radiation therapy service applying ionizing radiation for the treatment of malignant disease using megavoltage external beam equipment*,” as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) “m”(4), means the initiation or expansion of this service.

“*Rehabilitation hospital*,” for the purposes of these rules, means a hospital that has been approved to participate in the Title XVIII (Medicare) program as an inpatient rehabilitation facility-prospective payment system hospital (IRF-PPS) in accordance with 42 CFR Part 412.23(b), 412.25 or 412.29.

“*Relocation of an institutional health facility*,” as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) “b,” means the replacement of a facility located in one county with a facility located in another county.

“*Value in excess of one million five hundred thousand dollars*,” as used in Iowa Code section 135.61(18) “g,” “h,” “i” and “j,” means the value of the equipment including any applicable sales tax, delivery charge and installation charge.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

#### **641—202.2(135) Letter of intent.**

**202.2(1)** Before applying for a certificate of need, the sponsor of a proposed new institutional health service or changed institutional health service shall submit a letter of intent to the department. The letter of intent shall contain the following:

- a. A brief description of the proposed project;
- b. The project’s location;
- c. The project’s estimated cost (site costs, land improvements, facility costs, movable equipment and financing costs); and
- d. An explanation of how the project will be financed.

**202.2(2)** The letter shall be submitted as soon as possible after the initiation of the applicant’s planning process and in any case not less than 30 calendar days before applying for a certificate of need and before substantial expenditures are made. This 30-day waiting period shall begin upon the department’s receipt of the applicant’s letter of intent.

**202.2(3)** The department shall make available on the certificate of need Web page located on the department’s Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us), all criteria and standards which are pertinent to an application.

**202.2(4)** A letter of intent received by the department shall be valid for a period of one year from the date of receipt by the department. The sponsor may renew the validity of a letter of intent by providing written notification to the department prior to the one-year expiration date.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.3(135) Determination of reviewability.** A sponsor of a proposed project may submit a written request for a determination of reviewability as to whether the project requires a certificate of need.

**202.3(1)** The request should include sufficient details of the proposed project and cite the sections of the Iowa Code that the sponsor relies upon to assert the project is not reviewable.

**202.3(2)** Upon receipt of a written request from the sponsor of a project, the department shall determine if a proposed project requires a certificate of need under Iowa Code sections 135.61 to 135.83. The department may request additional information about the project to make the determination.

*a.* If it is determined that a certificate of need is required, the sponsor shall be notified by the department and the request for nonreviewability shall be considered the letter of intent for purposes of subrule 202.2(2).

*b.* If it is determined that a certificate of need is not required, the sponsor shall be notified by the department and the determination of nonreviewability shall be placed on the next agenda of the state health facilities council for consideration.

*c.* The notification to the sponsor of the results of the department's review of the request shall include specific Iowa Code citations relied upon to support the determination.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.4(135) Submission of application.**

**202.4(1)** Application form.

*a.* A sponsor of a proposed project for a new or changed institutional health service shall submit to the department an application for certificate of need by using the appropriate application form found on the certificate of need Web page located on the department's Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us). All information requested in the application form will be required in the absence of a waiver by the department.

*b.* An original application and six copies thereof shall be sent to the Certificate of Need Program, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. An electronic copy of the application and all attachments shall also be submitted.

*c.* The department shall establish and maintain files on each application.

**202.4(2)** Application fee. The application shall be accompanied by a fee equivalent to three-tenths of 1 percent of the anticipated cost of the project. There shall be a minimum fee of \$600 and a maximum fee of \$21,000.

*a.* The fee shall be based on the total cost of the project, which shall include site costs, land improvements, facility costs, movable equipment and financing costs.

*b.* The fee for leased or donated new institutional health services shall be calculated in the same manner as if the new institutional health services were purchased.

(1) The leased equipment fee shall be based on total value of the lease, plus sales tax, delivery and installation.

(2) The lease of space includes the cost of a one-year-lease payment for the space in addition to other costs associated with the project.

(3) Financing costs shall not be applicable on leases or cash purchases.

*c.* The fee shall be remitted by check made payable to the Treasurer, State of Iowa, and addressed to Iowa Department of Public Health—Certificate of Need, Lucas State Office Building, Des Moines, Iowa 50319-0075.

*d.* The application fee will be refunded by the department for any application which is voluntarily withdrawn from the review process in the following amounts:

(1) If an application is voluntarily withdrawn within 30 calendar days after submission, 75 percent of the fee shall be refunded;

(2) If an application is voluntarily withdrawn more than 30 but within 60 calendar days after submission, 50 percent of the fee shall be refunded;

(3) If an application is withdrawn voluntarily more than 60 calendar days after submission, 25 percent of the application fee shall be refunded.

*e.* The department shall refund the proper amount within 30 calendar days of the applicant's voluntary withdrawal.

*f.* An applicant for a new or changed institutional health service offered or developed by an intermediate care facility for persons with an intellectual disability or for persons with a mental illness is exempt from payment of the application fee.

*g.* For purposes of this subrule and Iowa Code section 135.63(1), the term “submission” shall mean the day the application is received by the department.

**202.4(3) Determination of completeness.**

*a.* The department shall send written notice to the applicant within 15 business days of receipt of the application if the application has been accepted as complete or otherwise state in said notice what information is needed to make the application complete.

*b.* An application shall be deemed “accepted” once the department has determined it to be complete and the fees defined in 202.4(2) “*a*” are paid in full.

**202.4(4)** Promptly after an application is accepted, the department shall provide written notification to all affected persons defined in Iowa Code section 135.61(1) “*c*” and “*d*” which are identified on the department of inspections and appeals Web site or by the applicant, as provided in Iowa Code section 135.66(2). The department shall notify other affected persons by posting such notification to the certificate of need Web page located on the department’s Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us). The notice and the Web page shall identify deadlines for the submission of written materials as provided in 202.6(2).

**202.4(5) Written analysis of application.**

*a.* The department shall provide a written report evaluating the application against all applicable criteria specified in Iowa Code section 135.64.

*b.* All reports shall be provided to council members and to the applicant prior to the health facilities’ council meeting at which the application is to be heard.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.5(135) Organizational procedures.**

**202.5(1)** The presence of four members of the council shall constitute a quorum.

**202.5(2)** The chairperson and all other council members present shall cast votes or abstain, as the case may be, on all council action. No proxy votes shall be allowed.

**202.5(3)** A vote of a majority of those present shall be necessary to take action on any motion before the council. A tie vote shall mean no action on the motion.

**202.5(4)** The council shall, at the first meeting after July 1 of each odd-numbered year, elect a vice-chairperson, who shall perform the duties of the chairperson in the absence of the chairperson, when the chairperson has a conflict of interest or when the chairperson so directs.

**202.5(5)** The department shall notify the public and affected parties of the council meeting agenda utilizing the certificate of need Web page located on the department’s Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us).

**202.5(6)** A council member shall refrain from participating in an application review process if the member:

- a.* Has a personal bias or prejudice concerning the applicant;
- b.* Has acted as counsel to the applicant or a competitor of the applicant in the same or adjoining county within the past two years;
- c.* Has a financial interest in the outcome of the application process or any other significant personal interest that could be substantially affected by the outcome of the case;
- d.* Has a spouse or relative within the third degree of relationship that (1) is affiliated with or represents the applicant or a competitor of the applicant in the same or adjoining county; (2) has a known financial or significant personal interest which could be substantially affected by the outcome of the application process; or (3) is likely to testify on behalf of the applicant or an affected person at public hearing; or
- e.* Has any other legally sufficient cause to refrain from participating in the application review process.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.6(135) Public hearing on application.** Public hearings conducted pursuant to Iowa Code section 135.66(3) “b” are not contested cases. Judicial review pursuant to Iowa Code section 17A.19 of final agency decisions under Iowa Code section 135.69 shall be treated as other agency action.

**202.6(1)** The council shall use the following meeting format:

- a. Announcement of application under review.
- b. Presentation of department report.
- c. Applicant presentation.
- d. Affected persons’ presentation.
- e. Applicant’s rebuttal.
- f. Council discussion, motion and final decision.

**202.6(2)** The notice of an accepted application issued pursuant to Iowa Code section 135.66(2) shall inform the applicant and affected persons of the deadlines for the submission to the department of written statements or other materials. These deadlines will also be posted on the certificate of need Web page on the department’s Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us).

a. Written submissions received by the department after the deadlines established in this notice shall not be considered by the department or the council unless submitted at the public hearing solely to support oral testimony or upon a showing of good cause.

b. Applicants and affected persons shall submit all written materials electronically. If electronic submission is not possible, then an original and six copies must be submitted.

**202.6(3)** The applicant, affected persons, or their designated representatives shall be given the opportunity to make oral presentations to the council. Other interested persons may be given the opportunity to make oral presentations to the council.

**202.6(4)** Oral testimony that simply duplicates material received in writing will not be heard. The applicant and affected persons shall present only one witness for each issue raised unless permission is requested and granted by the chairperson.

**202.6(5)** All questions to an applicant or affected person presenting oral testimony shall be directed from the council or council staff unless permission is requested and granted by the chairperson. Persons making oral presentations to the council are not expected to be placed under oath.

**202.6(6)** The council may designate technical consultants or experts to assist in its activities as defined by the council.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.7(135) Summary review.** Pursuant to Iowa Code section 135.67, an applicant requesting a summary review shall abide by the following procedures:

**202.7(1)** If an applicant desires to request a summary review of its application for a certificate of need, it shall submit a written request for summary review, an original application and six copies thereof to the Certificate of Need Program, Iowa Department of Public Health, Lucas State Office Building, Des Moines, Iowa 50319-0075. An electronic copy of the application and all attachments shall also be submitted. The applicant is not required to submit a letter of intent pursuant to Iowa Code section 135.65 prior to submitting a written request for a summary review.

**202.7(2)** The eligibility of an application for summary review pursuant to Iowa Code section 135.67 shall not mandate or require such review. The department will make the decision as to whether an application will be reviewed in the summary review process.

**202.7(3)** Upon receipt of a written request for summary review, an application, and the fee required by 202.3(2) “a,” the department shall notify the applicant in writing within 15 calendar days if the application is complete and if a summary review will be granted.

**202.7(4)** If an application is deemed incomplete, the department shall state specifically in writing what information is needed to make the application complete.

**202.7(5)** If the department notifies the applicant that a summary review will not be performed, this decision is binding on the applicant and the application will be entered into the formal review process on the date of written notice that such application will not be reviewed summarily.

**202.7(6)** A summary review of an application for a certificate of need shall be completed within 60 calendar days of the acceptance of an application by the department.

**202.7(7)** At any time during the summary review process, an application may be withdrawn without prejudice from the process. The applicant may then submit the application for a formal 90-day review. [ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.8(135) Extension of review time.**

**202.8(1)** A formal review of an application for a certificate of need pursuant to Iowa Code section 135.66 may be extended by the department on the basis of any of the following criteria:

- a. In order to review competing applications simultaneously;
- b. In the case of technologically innovative equipment, to obtain additional information necessary to evaluate the proposal. The department shall specify in writing such additional information as necessary;
- c. At the request of the applicant;
- d. At the request of at least two members of the state health facilities council in order to allow additional time for deliberation on all evidence present. The council shall specify the time of the delay and the date on which the final decision will be rendered.

**202.8(2)** An extension by the department made pursuant to subrule 202.8(1) shall in no case be more than 60 calendar days beyond the time a decision is required under Iowa Code section 135.69 unless the applicant and department agree.

**202.8(3)** Where none of the provisions of 202.8(1) are applicable and where an application will be automatically denied because of the expiration of time required by Iowa Code section 135.69 for the issuance of a written decision by the council, the department shall notify the applicant of the likelihood of an automatic denial and shall ask the applicant to request in writing an extension of the review time. Where an extension is so requested, the application shall be heard at the next regularly scheduled meeting of the council or at any time agreeable to the applicant and the department.

**641—202.9(135) Rehearing of certificate of need decision.**

**202.9(1)** The applicant or any affected person who has participated or sought unsuccessfully to participate in the formal review procedure prescribed in Iowa Code section 135.66 may, for good cause shown, file an application for rehearing in writing with the department stating the specific grounds therefor and the relief sought, within 20 calendar days after the date of the issuance of the final decision on an application for certificate of need.

**202.9(2)** Grounds for rehearing include, but are not limited to:

- a. New significant, relevant information which was unavailable at the date of the hearing;
- b. Significant changes in factors or circumstances relied upon by the council in reaching its decision;
- c. Demonstration that the council has materially failed to follow its adopted procedures in reaching its decision; or
- d. Such other bases as the council determines constitute good cause.

**202.9(3)** An application for rehearing shall be deemed to have been denied unless the council grants the application in writing within 20 calendar days after its filing.

**202.9(4)** If the application for rehearing is granted, the council may issue an order modifying the initial final order, or may set the matter for consideration at a subsequent meeting date. If public hearing is granted on the application for rehearing, notice shall be provided ten calendar days prior to hearing to the person applying for rehearing, the applicant and other affected persons upon request pursuant to 202.10(135).

**202.9(5)** The council shall issue the final decision on rehearing, stating the basis for its decision, within 30 calendar days after the application for rehearing was granted or 30 calendar days after public hearing on rehearing, whichever is later.

**202.9(6)** If a rehearing is not requested or an affected party remains dissatisfied after the request for rehearing, an appeal may be taken in the manner provided by Iowa Code chapter 17A. A request for rehearing is not required prior to appeal under Iowa Code section 17A.19.

**641—202.10(135) Status reports to affected persons.** Affected persons are entitled to status reports from the department while a formal application review is in progress pursuant to Iowa Code section 135.68. The department shall maintain a log of all requests for written status reports by affected persons. Affected persons who request written status reports must submit their name and address in a written request (by letter, fax, or E-mail) to the department, identifying the specific information requested, which may include notification of the council's final decision, any application for rehearing, or the filing of a petition for judicial review. The formal process does not preclude informal contacts with department staff for verbal status reports. Copies of the council's final decision, an application for rehearing, a petition for judicial review, or any other public record will be provided upon request and payment of the department's per page fee for copies as described in 641—175.3(7).

**641—202.11(135) Finality.** The certificate of need application process is continuous beginning with submission of a letter of intent or request for waiver of a letter of intent through issuance of a final decision by the council subject to judicial review under Iowa Code chapter 17A.

**202.11(1)** The following stages of the process are intermediate and subject to judicial review only to the extent they meet criteria for intermediate review under Iowa Code section 17A.19.

*a.* A decision by the department pursuant to 641—202.3(135) that a proposed project does not require a certificate of need;

*b.* A decision by the department to waive submission of the letter of intent and substitute summary review; and

*c.* The rejection of an application by the department which fails to provide all information required under Iowa Code section 135.63, subsection 1.

**202.11(2)** The following stages of the process are final decisions subject to judicial review as final agency action under Iowa Code section 17A.19:

*a.* A decision by the department to disallow summary review;

*b.* A decision by the council that a proposed project does not require a certificate of need;

*c.* A decision by the council to approve or deny an application;

*d.* The council's final ruling on an application for rehearing; and

*e.* A decision by the council to revoke a certificate of need pursuant to 641—202.13(135).

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.12(135) Project progress reports.** The department shall maintain an effective follow-up program to ensure that applicants make timely progress on each approved application.

**202.12(1)** The sponsor of an approved application shall submit a progress report using the form available on the certificate of need Web page on the department's Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us), to the department six months after approval at hearing.

**202.12(2)** Progress reports shall fully identify the project and indicate the current status of the project in descriptive terms. The reports shall also reflect an amended project schedule if necessary.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.13(135) Request for extension of certificate.**

**202.13(1)** A request by the applicant for an extension of a certificate of need must be filed with the department using the form available on the certificate of need Web page on the department's Web site, [www.idph.state.ia.us](http://www.idph.state.ia.us), no later than 30 days prior to the expiration of the certificate of need.

**202.13(2)** A request for extension shall fully identify the project and indicate the current status of the project in descriptive terms.

**202.13(3)** Any affected persons shall have the right to submit to the department in writing, or orally at the council meeting at which the extension request is considered, information which may be relevant to the question of granting an extension.

**202.13(4)** When an extension has been requested, the council shall approve or deny the request at a meeting of the council preceding the expiration of the certification. The certificate of need may be revoked by the council at the end of the certification period for insufficient progress in developing the project.

**202.13(5)** If the extension is denied, the applicant shall have the right to appeal under the provisions of Iowa Code section 135.70.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

**641—202.14(135) Application changes after approval.**

**202.14(1)** Once a project has been approved by the council, no changes that vary from or alter the number of approved beds, the approved services or the approved cost by an amount indicated in 202.14(2) shall be made unless requested by the applicant and approved by the council. Requests shall be made in writing and filed with the department.

**202.14(2)** An increase in the actual cost of the project over and above that originally approved shall automatically generate a rereview by the council if the increase exceeds the originally approved amount by:

- a. Fifteen percent for projects up to \$999,999.99;
- b. Twelve percent for projects from \$1,000,000.00 to \$4,999,999.99;
- c. Eight percent for projects \$5,000,000.00 and over.

An increase in the approved cost that falls below the above percentages shall be reported to the department.

**202.14(3)** Failure to notify and receive permission of the council to change the project as originally approved may result in the imposition of sanctions provided in Iowa Code section 135.73. The council may make a recommendation to the department regarding the imposition of a sanction and the amount of the fine to be imposed.

**641—202.15(135) Sanctions.** Hearings to determine class I or class II violations pursuant to Iowa Code section 135.73 shall be conducted in accordance with the department's procedural rules for contested cases found at 641—Chapter 173.

**641—202.16(135) Reporting requirements.** For the purposes of the annual reports and data compilation required in Iowa Code sections 135.75 and 135.78, the department will utilize the AHA Annual Survey of Hospitals with the state survey addendum for hospitals and the cost reports for health care facilities submitted to the Medicaid enterprise of the department of human services.

[ARC 1748C, IAB 12/10/14, effective 1/14/15]

These rules are intended to implement Iowa Code sections 135.61 to 135.79 and 135.83.

CHAPTER 203  
STANDARDS FOR CERTIFICATE OF NEED REVIEW  
[Prior to 7/29/87, Health Department[470] Ch 203]

**641—203.1(135) Acute care bed need.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.2(135) Cardiac catheterization and cardiovascular surgery standards.**

**203.2(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria found in Iowa Code sections 135.64(1)“*a*” to “*q*,” and 135.64(3). Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these cardiac catheterization and cardiovascular surgery standards include:

- (1) Proposals to commence or expand capacity to perform cardiac catheterization.
- (2) Proposals to add new or replace cardiovascular surgery services.
- (3) Any other applications which relate to cardiac catheterization or cardiovascular surgery.

**203.2(2) Definitions.**

*a.* Adult cardiac catheterization laboratory—a diagnostic facility exclusively for intracardiac or coronary artery catheterization on adults.

*b.* Pediatric cardiac catheterization laboratory—the same as adult cardiac catheterization laboratory, except exclusively for children and infants.

*c.* Cardiac catheterization—

(1) Intracardiac—a diagnostic study of the heart, and pulmonary arteries, or both, in which a small catheter passes through a vein or artery in the neck, leg or arm and advances into the great vessels, the heart or the pulmonary arteries. Through this procedure one can measure pressure within the heart and in adjacent veins and arteries, collect blood samples for blood gas analysis and inject radiopaque material, visualize cardiac and vessel anatomy. The procedure permits detection of congenital and acquired heart abnormalities, the study of ventricular function, the estimation of the orifice size, the placement of pacemakers, etc. Cardiac catheterization is incomplete without cineangiography, intracardiac pressure measurements, blood gas analysis and the ability to diagnose intracardiac shunts.

(2) Coronary artery catheterization—a diagnostic study of the coronary arteries, in which a small catheter passes through an artery in the leg, neck or arm into a coronary artery orifice. Intravascular pressure measurements are taken, and angiography of the coronary arteries is performed. Catheterization and cineangiography of the left ventricle are an integral part of this procedure.

*d.* Angiography.

The photographic recording of X-ray or radiologic images of blood vessels, in any part of the body—the heart, the head, the great vessels, the kidney, etc. In the procedure blood vessels are injected with a radiopaque chemical. Immediately following injection, X-rays are employed to image the path of the injected chemical. These X-ray images are then photographically recorded.

Angiocardiography.

The recording of moving X-ray images (fluoroscopic images) of the heart and great vessels. After injection of radiopaque chemicals, moving X-rays of the chemical’s flow are projected on a screen called a fluoroscope. Moving pictures (cineangiography) or still pictures in sequence (serialography) may be recorded of the X-ray image.

*e.* Adult cardiovascular surgery—cardiovascular surgery exclusively for adults.

*f.* Pediatric cardiovascular surgery—cardiovascular surgery exclusively for infants and children.

*g.* Cardiovascular surgery—the services associated with and surgery performed for congenital or acquired diseases of the heart, great vessels, or pericardium, including the placement of travenous and epicardial pacemakers.

(1) Open heart surgery—cardiovascular surgery in which an incision of sufficient size is made to allow direct vision of the area. Open heart surgery requires temporary use of a heart-lung

(cardiopulmonary bypass) machine, as blood flow through the heart is greatly reduced or stopped altogether.

(2) Coronary artery surgery—surgery to correct inadequate blood flow to the heart through using revascularization techniques to bypass significantly obstructed coronary artery lesions.

*h.* Closed heart surgery—cardiovascular surgery in which a small incision and repairs are made without direct vision of the area.

**203.2(3) Availability of services.**

*a.* Minimum utilization—cardiovascular surgery (Iowa Code sections 135.64(1) “*c*,” “*g*,” “*h*”).

(1) Adult cardiovascular surgical programs should project an annual minimum rate of over 200, or no approval shall be granted. Higher case loads over 200 per annum, are encouraged.

(2) Pediatric cardiovascular surgical units should project a minimum of 100 pediatric heart operations after the first year, at least 75 of which must be open heart procedures.

(3) Combined adult/pediatric cardiovascular surgery units should project the minimum projected annual rates for both adult and pediatric surgery, or no approval shall be granted.

(4) Applicants should project utilization of cardiovascular surgery, catheterization and cardiac care units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa, and bordering states within two hours surface travel time, if the applicant proposes an adult unit; and in consideration of pediatric cardiovascular surgery units currently operating in Iowa and bordering states within three hours surface travel time, if the applicant’s proposed unit is pediatric. If a combined unit is proposed both the two- and three-hour considerations for existing adult and pediatric units apply. The assumptions, data and methodology used to arrive at projections shall be provided in each application.

*b.* Expansions—cardiovascular surgery (sections 135.64(1) “*c*,” “*d*,” “*e*,” “*g*,” “*h*”).

(1) There should be no additional adult cardiovascular surgery units initiated unless each existing unit within two hours surface travel time is operating at a minimum of 350 open heart surgery cases per year.

(2) There should be no additional pediatric cardiovascular surgery units initiated, unless each existing unit within three hours surface travel time is operating at 130 surgeries per year. (If one team serves more than one institution the numbers for those institutions should be combined.)

(3) No additional cardiovascular surgery units should be approved which will reduce the volume of existing services below 350 procedures annually for adults and 130 annually, 75 of which are open heart, for pediatric units. The applicant will demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are within two hours surface travel time for adult services and within three for pediatric services.

(4) Adult cardiovascular surgical service units should be granted only to institutions which can demonstrate an unserved population base of 500,000 persons. An unserved area is one which lies outside of an existing unit’s service area.

(5) Pediatric cardiovascular surgical services should be granted unto institutions which can demonstrate an unserved population base of 2.5 million with 30,000 live births per year.

*c.* Minimum utilization—cardiac catheterization (sections 135.64(1) “*c*,” “*d*,” “*g*,” “*h*”).

(1) Adult cardiac catheterization laboratories should be projected to operate at a minimum of 300 catheterizations per annum.

(2) Pediatric catheterization laboratory units should project a minimum of 150 catheterizations annually.

(3) Combined units should meet each of the adult and pediatric standards.

(4) Applicant should project utilization of cardiac catheterization units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa, and bordering states within two hours surface travel time if the proposed unit is for adults; and in consideration of pediatric cardiovascular surgery

units currently operating in Iowa, and bordering states within three hours surface travel time if the proposed unit is for children. If a combined unit is proposed both time considerations shall apply. The assumptions, data and methodology used to arrive at projections shall be provided in the application.

*d. Expansions—cardiac catheterizations (sections 135.64(1)“c,” “d,” “e,” “g,” “h”).*

(1) There should be no additional adult cardiac catheterization unit opened unless the number of studies per year in each existing unit within two hours surface travel time is greater than 500. No additional pediatric unit should be opened unless the number of studies per year in each existing unit within three hours surface travel time is greater than 250.

(2) There should be no additional cardiac catheterization units initiated which would reduce the volume of existing units below 500 adult catheterizations, 200 of which are intracardiac or coronary artery catheterizations, or 150 pediatric catheterizations, or both for combined units. The applicant must attempt and demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are those within two hours surface travel time for adults or three hours for pediatrics.

*e. There should be no new cardiac catheterization unit open in any facility not performing open heart surgery (sections 135.64(1)“e,” “g,” “h,” “k”).*

**203.2(4) Costs.**

*a. Financial feasibility. (Sections 135.64(1)“f,” “i,” “p”) Cardiovascular surgery and catheterization equipment, and associated remodeling or construction should be depreciated over a period consistent with American Hospital Association schedules as limited by existing reimbursement payors.*

*b. Cost-effectiveness. Proposed new or replacement cardiac catheterization laboratories cost per catheterization and cardiovascular surgery services estimated costs per surgery should when compared to their peers demonstrate cost-effectiveness.*

**203.2(5) Accessibility. (Sections 135.64(1)“c,” “d”)**

*a. Cardiovascular surgery units and cardiac catheterization labs should be available 24 hours a day, seven days a week for emergency coverage.*

*b. Facilities with cardiovascular surgery/cardiac catheterization should have available 24-hour, seven days a week ambulance and emergency room service.*

*c. Travel distance should be within two hours surface travel time or less for 80 percent of the projected service area for pediatric services.*

*d. Cardiac catheterization and cardiovascular surgery service should be provided regardless of ability to pay, in consideration of those programs available in the state which serve the medically indigent.*

**203.2(6) Quality. (Sections 135.64(1)“i,” “k”)**

*a. Each surgery unit and cardiac catheterization lab shall demonstrate a reasonable set of criteria that are used in selecting appropriate candidates for surgery and catheterization.*

*b. Staffing minimums.*

(1) The open heart surgery team should minimally consist of:

1. At least two certified or board eligible cardiovascular surgeons for the first 75 to 130 pediatric open heart surgeries. If pediatric surgery is performed, one surgeon must have special training and experience in surgery for congenital cardiac defects.

2. A board certified or board eligible adult or pediatric cardiologist(s). The latter only if pediatric surgery is performed, the former only if adult surgery is performed.

3. Board certified or board eligible anesthesiologist with special training in the management of cardiovascular cases' respiratory care.

4. Radiologist trained in the cardiovascular field.

5. Pathologist familiar with cardiac problems.

6. Specially trained in heart disease surgical nursing staff.

7. Cardiopulmonary bypass pump technicians.

8. Other ancillary staff as needed.

(2) Each applicant shall document that the proposed surgery unit can be so staffed when completed and operational.

c. Equipment and facilities. The applicant seeking to provide cardiovascular surgery should demonstrate that the following support services will be available:

- (1) General X-ray diagnostic facilities and facilities for emergency X-rays on a 24-hour basis.
- (2) A cardiac catheterization laboratory or angiography lab available on a 24-hour basis.
- (3) A cardiographics laboratory, with facilities for recording the following tests: EKG, vector cardiogram, phonocardiogram, echocardiogram, and exercise stress testing.
- (4) A supporting blood bank and hematology laboratory.
- (5) A microbiology laboratory.

d. Cardiac catheterization labs serving infants and children should have biplane angiographic equipment, either cineangiographic or cut film. Pediatric cardiac catheterization labs should be supervised by board certified or board eligible pediatric cardiologists; adult cardiac catheterization labs should be supervised by a board certified or board eligible adult cardiologist.

**203.2(7) Continuity.** (Sections 135.64(1) “g,” “h,” “i,” “k”)

a. The applicant should demonstrate that an attempt was made to solicit letters and to establish referral agreements from area hospitals and physicians to indicate a willingness to participate in a cooperative endeavor to refer to the proposed service.

b. The applicant should provide documentation that emergency medical transport services will be available.

c. Institutions providing cardiovascular surgery services should include mechanisms for comprehensive medical followup including adequate medical records exchange.

**203.2(8) Acceptability.** (Section 135.64(1) “c”) Facilities with cardiovascular surgery and cardiac catheterization indicate a willingness to observe and respect the rights of patients as stated in the Patients Bill of Rights adopted by the American Hospital Association February 6, 1973, and reprinted in 1975.

#### **641—203.3(135) Radiation therapy or radiotherapy standards.**

**203.3(1) Purpose and scope.**

a. These standards are measures of some of those criteria 1 (a to q) and 3 found in Iowa Code section 135.64. Criteria which are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications which are to be evaluated against these radiation therapy standards include:

- (1) Proposals to commence or expand the kind or capacity of megavoltage radiation therapy services.
- (2) Proposals to replace a radiation therapy unit.
- (3) Any other applications which relate to radiation therapy.

**203.3(2) Definitions.**

a. *Radiation modality.* The method of applying ionizing radiation in the treatment of patients with malignant disease. Externally applied modes.

*Superficial X-ray therapy.* The use of a conventional X-ray machine, which generates X-rays of up to 150 kilovolts (150 kv), to treat superficial lesions, such as skin cancer.

*Orthovoltage X-ray therapy.* The use of a conventional X-ray machine which generates X-rays between 150 kv up to and including 800 kvs. (These X-rays are of insufficient energy to avoid preferential bone absorption or to be “skin sparing”.)

*Megavoltage therapy.* The use of ionizing radiation in excess of one million electron volts. Energies above one million electron volts cause considerably less skin damage, increase depth dose markedly, and result in much less scatter from the therapeutic beam. Megavoltage machines are classified as follows:

1. Particle accelerators. These machines use a supply of electrons, which are accelerated into high energy beams. These beams are either caused to strike a target resulting in high energy X-ray production, or are used themselves as the treatment beam. Particle accelerators generate from 4 million up to as many as 45 million electron volts. Most common particle accelerators are the linear accelerator and the betatron.

2. Isotope sources (gamma ray teletherapy units).

Cobalt 60 units—emit gamma rays of approximately 1.2 million electron volts.

Cesium teletherapy units—utilize gamma rays of approximately 650 kv.

*b. Megavoltage therapy unit.* A piece of megavoltage therapeutic radiologic equipment.

*c. Radiation therapy facility.* A piece of megavoltage therapeutic radiologic equipment, the accompanying support equipment, and the physical space which houses the equipment.

*d. Treatment (procedure).* All those radiation fields applied in a single patient visit. Interstitial/intracavitary treatment counts as one visit.

*e. Dosimetrist.* A technologist who calculates, verifies, and develops maps for the dose distribution of radiation within the patient. The technologist is an essential member of the treatment planning team.

*f. Radiation therapist (radiation oncologist).* A physician who is board certified or board eligible in therapeutic radiology or in general radiology and who devotes full time to the practice of radiation therapy.

*g. Radiation therapy technologist.* An individual registered or eligible for registration by the American Board of Radiologic Technologists, or its equivalent, in radiation therapy.

*h. Transverse tomograms.* A special diagnostic X-ray procedure to determine the depth of the tumors inside the body.

*i. Conjoint radiation oncology center (cancer center).* A multi-institution, multidisciplinary network to provide radiation therapy for cancer patients. Each institution has an equal voice in decision making and direction of the work of the center. Integration of patient care management, common utilization of personnel and equipment, and a single system of records between center institutions assures optimal care regardless of entry portal. A common cancer registry of all patients treated by center hospitals is maintained.

*j. Simulator.* Used to reproduce the geometry of the external beam treatment technique, and consists of an isocentrically mounted X-ray source with X-rays passing per a collimation system to reproduce the therapy beam.

*k. New patient.* A patient receiving treatment for the first time at a given radiation therapy facility.

**203.3(3) Availability.**

*a. Minimum utilization.* (Sections 135.64(1) “c,” “g,” “h”)

(1) A megavoltage radiation therapy unit which is of relatively low energy, including small linear accelerators (4-10 MEVs), cobalt units and cesium teletherapy units, should serve a population of at least 200,000 persons, and treat at least 300 new patients annually within three years after initiation of the service.

(2) A megavoltage radiation therapy unit which is of medium energy, including linear accelerators of 12-20 MEVs should only be placed in facilities which are currently treating with megavoltage radiation therapy a minimum of 500 new patients annually.

(3) A megavoltage radiation therapy unit which is of high energy, including those linear accelerators of greater than 20 MEVs, should only be placed in facilities which are currently treating at least 750 new patients annually with megavoltage radiation therapy.

(4) To determine the number of new patients needing megavoltage radiation therapy annually in a service area, the following formula shall be applied:

Multiply the service area population times .00304 (3.04/1,000 population was the mean cancer incidence rate in 1976 in Iowa as filed by the Surveillance, Epidemiology, and End Results Program—SEER). A service area population is determined by each facility’s catchment area as reported in the most recent patient origin study of the Iowa department of public health.

Multiply this product times .5 (50 percent of all new cancer patients require radiation therapy).

(5) Institutions which form a conjoint oncology center should have at least 500 new patients annually who are amenable to megavoltage therapy.

*b. Expansions.* (Sections 135.64(1) “c,” “d,” “e,” “g,” “h”)

(1) There should be no additional megavoltage units of comparable size approved unless each existing megavoltage unit of that size within 90 minutes travel time of the proposed unit is performing at least 6,000 treatments per annum.

(2) Proposed new small megavoltage units within 90 minutes travel time of other small units must identify an unserved population base of 200,000 apart from that 200,000 currently served by institutions in the service area.

(3) Megavoltage treatments per annum should be projected by multiplying the number of projected new patients needing megavoltage therapy times 20.

(4) There should be no additional megavoltage radiation therapy units of comparable size within 90 minutes surface travel time of existing units which would reduce the projected volume of treatments per annum in existing units of comparable size to less than 6,000 treatments per annum and which would result in less than 300 projected new patients per annum for that existing unit. The applicant will attempt and demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur.

(5) New conjoint centers should be justified if more than 3,000 new patients are currently being treated by radiation therapy in an existing center.

c. A simulator which can accurately reproduce the geometry of each external beam technique should be available for every two megavoltage units in a radiation oncology department.

**203.3(4) Costs.**

a. *Financial feasibility.* (Sections 135.64(1) “f,” “i,” “p”)

(1) Megavoltage radiation therapy units should be depreciated over a period no shorter than that indicated by “Estimated Useful Lives of Depreciable Hospital Assets” published by the American Hospital Association. Associated remodeling should be depreciated according to generally accepted accounting principles and over a period no shorter than indicated in the above-named publication.

(2) Recognizing anticipated volume rate structure, and third party reimbursement, the applicant should present a breakeven analysis for the service. If the analysis shows breakeven will fail to occur after three years of the service’s initiation, the applicant should demonstrate why operating a service with the revenues below costs appears desirable.

(3) Charges will be based on actual or projected yearly treatments, but not less than 6,000 treatments.

b. *Cost-effectiveness.* (Section 135.64(1) “e”) Costs per unit of service should not exceed 10 percent of the state average unit cost for the service. If costs exceed 10 percent of that average the applicant shall demonstrate how the proposal represents the most cost-effective way to deliver the service and explain why the project was chosen instead of alternative ways of meeting the need for the service.

**203.3(5) Accessibility.** (Sections 135.64(1) “c,” “d”)

a. Travel distance shall be within 90 minutes auto travel time for the projected service area population.

b. Radiation therapy services should be provided regardless of ability to pay, in consideration of those programs available in the state which serve the medically indigent.

**203.3(6) Quality.** (Sections 135.64(1) “i,” “k”)

a. Minimum staffing requirements for radiation therapy facilities:

(1) Each facility shall have the services of radiation therapists which should be staffed at a level of one therapist per 400 new cancer patients needing treatment.

(2) Each facility shall have the services of radiation physicists which should be staffed at a level of one physicist per 800 new patients.

(3) Each facility shall have the services of radiation therapy technologists which should be staffed at a level of two technologists per megavoltage unit.

(4) Each facility should have the services of nurses.

(5) Each facility should have the services of dosimetrists which should be staffed at a level of one dosimetrist per 500 new patients.

b. Reserved.

c. Each conjoint center shall have at least two cancer biologists available.

d. Each conjoint center shall have one radiation technologist available for each simulator.

e. Replacement or development of orthovoltage treatment should not occur.

*f.* The long-range plans for radiation therapy services shall be submitted to the Iowa department of public health.

*g.* Multidisciplinary tumor boards should be established in all institutions housing megavoltage or orthovoltage machines.

*h.* A source of continuing education should exist within each conjoint center to reach participating community referral hospitals and physicians.

*i.* Each conjoint center should have a unified training program in radiation therapy for radiation therapists.

*j.* Each radiation therapy facility should offer psychosocial counseling services and nutritional counseling.

**203.3(7) Continuity.** (Sections 135.64(1) “g,” “h,” “i,” “k”)

*a.* The applicant should demonstrate that an attempt was made to solicit letters and establish referral agreements from area hospitals and physicians to indicate their willingness to participate in a cooperative endeavor to refer to the proposed service.

*b.* A minimum of 75 percent of all radiation therapy procedures should be projected to be done on an outpatient basis. If the applicant believes that 75 percent is inappropriate for its facility, then documentation which shows how its facility is different and why it sufficiently justifies not meeting this 75 percent outpatient rate, shall be provided.

**203.3(8) Acceptability.** (Section 135.64(1) “c”) Facilities with radiation therapy services shall document a willingness to observe and respect the rights of patients as stated in the “Patients Bill of Rights” adopted by the American Hospital Association February 6, 1973, and reprinted in 1975. Provisions for counseling services shall be available.

**641—203.4(135) Computerized tomography standards.**

**203.4(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria in Iowa Code sections 135.64(1) “a” to “l.” Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these computerized tomography standards include:

- (1) Proposals to commence or expand the capacity of computerized tomography services.
- (2) Any other applications which relate to computerized tomography services.

**203.4(2) Definitions.**

*a.* Computerized tomographic (CT) scanner—a diagnostic tool which rotates about and which sends X-ray beams through cross-sectional layers of the body or brain. The X-ray beams which emerge from the body or brain are absorbed by a detector. Differences in the amount of X-rays absorbed by the detector indicate differences in tissue density. As the scanner rotates it takes many images of a cross-section. The images on the detector are transmitted to a computer which displays on a TV a reconstructed cross-sectional picture or slice. Contrast media is then usually injected to alter absorption of the detector, and the scan repeated; this is called enhancement.

- (1) Whole body scanner—one capable of imaging the entire body.
- (2) Head scanner—one capable of imaging only the brain and structures adjacent to the head.

*b.* Enhanced scan—a scan performed on a patient who has been treated with a contrast medium so that specific organs or areas of the body will be displayed more distinctly on the scan image.

*c.* Arteriography—imaging of blood vessels supplying the area of interest following injection of contrast media.

*d.* Pneumoencephalogram—the X-ray imaging of the skull and its content after introducing air or gas into the fluid-filled spaces within and around the brain and spinal cord.

*e.* Radioisotope brain scan—nuclear imaging of the concentration of radioactive isotopes which have been injected by biochemical or physiological actions into the brain, referred to later as nuclear brain scan.

*f.* H.E.C.T. (head equivalent C.T. unit)—a unit by which to measure the capacity of a CT scanner, and being defined as the average number of minutes necessary to perform a single unenhanced CT head study on a body scanner (including the room and equipment preparation time).

By comparing the average times for performing various types of scan procedures to the time necessary to perform an unenhanced head scan, the following table of equivalencies was determined:

On a head scanner—

One unenhanced head scan = 1.05 HECTs

One enhanced head scan = 1.26 HECTs

A procedure involving both types of scans = 1.85 HECTs

On a body scanner—

One unenhanced head scan = 1.00 HECTs

One enhanced head scan = 1.16 HECTs

A procedure involving both types of scans = 1.74 HECTs

One unenhanced body scan = 1.48 HECTs

One enhanced body scan = 2.00 HECTs

A procedure involving both types of scans = 2.75 HECTs

*g.* Operational capacity for a CT scanner—the operational capacity of a scanner is 3000 HECTs per year, plus or minus 10 percent.

*h.* Minimum shared-market area for a scanner (hereafter referred to as “area”)—the smallest geographic area within which any scanner installation is judged to affect the utilization rate of any other scanner is the community (as defined by the U.S. Bureau of the Census) or a Standard Metropolitan Statistical Area (where an area is so designated).

*i.* Emergency medical service (EMS) level II trauma service—the level of various services and staffing that qualify a facility to be designated by the emergency medical service division of the Iowa department of public health, using the facilities categorization criteria of such services that is in effect on the date of the enactment of this standard.

*j.* Shared service agreements—a multi-institutional arrangement for coordination or consolidation of services or sharing of support services. Among the various types of arrangements are referred services, purchased or joint contract services, multisponsored services and regional services.

*k.* CT consortia—a cooperative venture in which two or more institutions form a separate entity which is created for the purpose of owning, leasing, planning for, and maintaining the use of the scanner. Each facility in the consortium maintains its autonomy for all other services.

*l.* Applicant—an applicant may be a facility or a consortium of facilities within an area, or a physician or group of physicians.

*m.* General imaging procedures—a radiological diagnostic procedure performed on an X-ray machine or similar radiological diagnostic instrument.

*n.* Active oncology service—full, multidisciplinary cancer care, provided by a medical team that would include: surgery, gynecology, medical oncology, radiation oncology, pathology, diagnostic radiology and nuclear medicine. The surgery specialties that might be available would include: thoracic, abdominal, genitourinary and gynecological. The active oncology staff would include those specialists with training in oncology, hematology, and pathology and who spend at least half of their time at the institution.

*o.* Radiotherapy service—the therapeutic application of megavoltage radiation, using a linear accelerator or cobalt unit. The availability of such service at a hospital would necessitate personnel trained in the therapeutic application of radiology.

*p.* Chemotherapy service—the treatment of cancer by chemical agents.

**203.4(3) Determination of need.**

*a.* Applicants who do not now have a scanner, or who have a scanner and seek a certificate for one or more additional scanners.

(1) Applicants in areas with no other scanners.

*i.* Applicants must have performed at least 30,000 general imaging procedures during the past calendar year or 12 months, or

ii. Demonstrate that during the past calendar year or 12 months, the applicant performed diagnostic procedures equivalent to 1500 HECTs, using the following scale:

50% of the number of radioisotopic brain scans  $\times$  1.75

25% of the number of cerebral angiograms/arteriograms  $\times$  1.75

100% of the number of pneumoencephelograms  $\times$  1.75

100% of the number of echoencephelograms  $\times$  1.17

10% of the number of skull X-rays  $\times$  1.75

100% of the number of patients referred to other facilities for CT diagnosis  $\times$  1.75 (in the case of head scans) and 2.75 (in the case of body scans)

(2) Applicants in areas with one or more scanners.

i. An applicant must meet the requirement of need, described in 203.4(3) "a"(1), and

ii. The average level of utilization for scanners within the area was at least 3000 HECTs (plus or minus 10 percent) for the past calendar year or 12 months. The average level of utilization will be determined by adding the number of HECTs performed during the period at all area facilities divided by the number of facilities.

iii. The University of Iowa Hospitals and Clinics is specifically exempted from consideration under ii., directly above, because it has a service area that encompasses the entire state and adjoining states. The utilization statistics for the University Hospital will therefore neither affect nor be affected by Mercy Hospital, Iowa City. Additionally, the utilization statistics for scanners at the University of Nebraska Hospitals and Clinics and St. Joseph's Hospital (both in Omaha) will not affect the need for scanners at hospitals in Council Bluffs.

b. Replacement scanners—applicants who currently have a scanner.

(1) All applicants seeking to replace a scanner with another scanner, head or body.

i. The applicant must demonstrate that the applicant's use of the applicant's current scanner was at least at the operating capacity level during the last calendar year or 12 months, or

ii. Below the operating capacity level, but above 1500 HECT level, and the applicant must demonstrate reasons for permanently utilizing their scanner below operating capacity level and demonstrate that discontinuation of their scanner service would impair the applicant's ability to respond to the emergency needs of the area. Reasons for utilizing the scanner below the capacity should include a unique patient or procedure mix which would define the capacity level differently for this applicant.

(2) Applicants seeking to replace a head scanner with a body scanner.

i. The applicant must meet the requirements listed in 203.4(3) "a," and

ii. The applicant must meet the requirements for applicants seeking body scanners in 203.4(6), "Quality."

**203.4(4) Costs—whole body and head scanners.**

a. *Financial feasibility.* (Sections 135.64(1) "f," "i," "p") CT scanners should be depreciated over a period of not less than seven years. Remodeling shall be depreciated as appropriate by generally accepted accounting principles.

b. *Cost-effectiveness.*

(1) Applicants should demonstrate for themselves and the health care system that the most cost-effective method of providing CT services has been chosen. If a CT scanner which requires less than 20 seconds to produce one section is chosen, the applicant should demonstrate the scanner's cost-effectiveness over scanners requiring greater than 20 seconds to produce one section. If a CT scanner which requires 20 seconds to 2 minutes to produce one scan is chosen, the applicant should demonstrate the scanner's cost-effectiveness over scanners requiring greater than 2 minutes to produce one section.

(2) Proposed new and replacement CT scanner's cost per CT scan should, when compared to their peers, demonstrate cost-effectiveness.

**203.4(5) Accessibility.** (Sections 135.64(1) "c," "d")

a. All scanners must be available for emergency use 24 hours a day, less any down time. (Section 135.64(1) "d.")

b. Services should be provided to all patients regardless of the patient's ability to pay, taking into consideration the availability of those programs available in the state which serve the medically indigent.

c. Applicants will demonstrate a willingness to accept referrals for CT services from all area physicians.

d. All applicants must demonstrate through documented correspondence that an attempt has been made to form shared CT service agreements with all facilities within the area.

**203.4(6) Quality.** (Sections 135.64(1) "i," "k")

a. Data on use and costs of the CT scanners should be submitted to the Iowa department of public health as a condition of approval. (Sections 135.64(1) "a," "h")

b. All scanners.

(1) All applicants must demonstrate that they have on their staff or will acquire on their staff a full-time diagnostic radiologist, trained in the use of the CT scanner, or other physicians with comparable training and expertise.

(2) All applicants must document that they have on their medical staff individuals who are qualified to operate a scanner and interpret and act upon the diagnostic results. Such documentation may include reference to board certification, apprenticeship, academic credentials or such other qualifications that would prompt a medical staff to accept the responsibility for offering this new service. Applicants who intend to acquire staff with the desired expertise should provide signed letters of intent from the incoming medical personnel. Applicants who intend to upgrade the specialty skills of their staff should document a plan for training their current staff in the use of CT scanners.

(3) All applicants should have a complement of other diagnostic modalities available. Applicants seeking body scanners should also have available ultrasound, radionuclide scanning and conventional X-ray services.

(4) All applicants should have the facilities for treating the conditions diagnosed by imaging with the scanner or should demonstrate referral agreements with treatment facilities, in the event that the scanner will be used as a screening device.

(5) All applicants should have on their staff or available on a consultative basis the services of a biomedical engineer or radiation physicist, with special training in CT applications. These functions may also be provided by contract with the scanner manufacturer.

c. Head scanner only.

(1) Applicants for a head scanner should be a facility which qualifies for EMS Level II Trauma Service.

(2) If an applicant does not qualify for Level II Trauma Services, it must demonstrate that it has or will acquire a specialty practice in the field of diagnosing neurologic disorders, exclusive of neuropsychiatric disorders.

d. Body scanner only.

(1) Applicants for a body scanner must meet the criteria for EMS Level II Trauma Service.

(2) Applicants for a body scanner must be a hospital with 200 or more acute care beds. An applicant who does not meet the 200-bed rule may qualify for a body scanner if the applicant directly provides active oncology services with radiotherapy or chemotherapy treatment services, or both.

**203.4(7) Continuity.** (Sections 135.64(1) "g," "h," "i," "k")

a. The applicant should demonstrate that an attempt was made to solicit letters and to establish referral agreements from area hospitals and physicians to indicate a willingness to participate in a cooperative endeavor to refer to the proposed service.

b. The applicant should provide documentation that emergency medical transport services will be available.

c. The applicant should demonstrate an emphasis on the availability of outpatient CT procedures, and that an appropriate percentage of all CT procedures on head and whole body units will be done on an outpatient basis.

**203.4(8) Acceptability.** (Section 135.64(1) "k") Providers of CT services should indicate a willingness to observe the rights of patients.

**203.4(9)** Rescinded effective 1/28/81.

**641—203.5(135) Long-term care.****203.5(1) Purpose and scope.**

*a.* These standards are measures of criteria found in Iowa Code sections 135.64(1)“a” to “g.” Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these standards include applications to:

(1) Construct, develop, offer new, modernize, replace, renovate, or relocate intermediate care or skilled nursing care beds in nursing homes or hospitals.

(2) Expand bed capacity in intermediate care or skilled nursing care facilities or designated units in hospitals.

**203.5(2) Definitions.**

“*Intermediate care facility*” (ICF) means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which is certified by a physician, to three or more individuals, not related to the administrator or owner thereof within the third degree of consanguinity, who by reason of illness, disease, or physical or mental infirmity require nursing services which can be provided only under the direction of a registered nurse or a licensed practical nurse.

“*Rural counties*” means all counties not designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

“*Skilled nursing facility*” (SNF) means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which is certified by a physician, to three or more individuals not related to the administrator or owner thereof within the third degree of consanguinity who by reason of illness, disease, or physical or mental infirmity require continuous nursing care services and related medical services, but do not require hospital care. The nursing care services provided must be under the direction of a registered nurse on a 24-hour-per-day basis.

“*Urban counties*” means those counties designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

**203.5(3) Availability and need.** (Iowa Code sections 135.64(1)“c,” “d,” “e,” “g,” “h”)

*a.* The following formula shall be used as a means of projecting the approximate number of intermediate and skilled nursing care beds needed to serve the projected population five years into the future:

(1) Rural counties:

$[\text{.09}(65 + \text{population}) + \text{.0015}(64 - \text{population})] \times 110\%$  equals total long-term care bed need

Combined SNF and ICF bed need equals 2/3 (total long-term care bed need)

Assumed RCF bed need equals 1/3 (total long-term care bed need).

(2) Urban counties:

$[\text{.07}(65 + \text{population}) + \text{.0015}(64 - \text{population})] \times 110\%$  equals total long-term care bed need

Combined SNF and ICF bed need equals 2/3 (total long-term care bed need)

Assumed RCF bed need equals 1/3 (total long-term care bed need).

(3) Department of economic development population projections are adopted for use in the determination of long-term care bed need.

(4) The department of public health will calculate long-term care bed need figures annually, using population projections five years into the future.

*b.* For purposes of comparing “need” to “existing” beds in a given county, the following shall be considered in the calculation of “existing” beds:

(1) ICF and SNF beds licensed at freestanding facilities in the county.

(2) Additional ICF and SNF beds previously approved through certificate of need but not yet licensed.

(3) ICF and SNF beds in designated units in hospitals in the county.

c. The statistical calculation of bed need shall serve as a guideline for the health facilities council in reviewing need for the proposed long-term care beds. Other factors which may be considered by the council include, but are not limited to:

- (1) The availability and utilization of other ICF and SNF services in the county, or within the applicant's service area.
- (2) The availability and utilization of other long-term care services in nearby hospitals, such as skilled care available through the swing bed program.
- (3) The availability of supportive living arrangements which may or may not be licensed as residential care facilities (RCF).
- (4) The availability of home health and other in-home services.
- (5) The availability of other services to the elderly.
- (6) The availability of ICF and SNF services in neighboring counties.
- (7) Utilization by out-of-state residents of facilities in counties bordering other states, where the applicant provides evidence that in-migration of long-term care patients exceeds out-migration to the bordering state.
- (8) Programs and services directed at special populations whose needs cannot otherwise be met, or whose needs cannot be met cost-effectively at other facilities.

d. In documenting need for a project, the applicant shall identify the service area and target population, including a description of the methodology used by the applicant in determining need for the requested beds and the expected sources of referrals. The applicant shall document that the number of beds requested is appropriate to address the identified need. The applicant shall also identify how the target population is currently being cared for, and what hardship is being experienced by the absence of the proposed beds.

**203.5(4) Quality.** (Iowa Code sections 135.64(1) "i," "k") The applicant shall document that the applicant has contacted the health facilities division of the department of inspections and appeals to conform with physical standards, staffing requirements, and other licensing requirements to assess the potential for provision of quality care at the facility. When necessary, the applicant shall attempt to arrange an on-site visit to the facility to determine compliance with physical requirements, and shall provide documentation of this site visit or attempts to arrange such a site visit.

**203.5(5) Continuity.** (Iowa Code sections 135.64(1) "g," "h," "k")

a. The applicant shall document the relationship of the facility's proposed services to other health and long-term care services in the community such as physician and hospital services, habilitation, rehabilitation, transportation or other services. The facility should be capable of providing or arranging for the provision of a continuum of long-term care services.

b. The facility should be capable of providing or arranging for the provision of a comprehensive program of coordinated patient services. The applicant shall provide evidence of contracts for services, appropriate staffing patterns and ratios, and licensure of personnel as necessary.

**203.5(6) Accessibility and acceptability.** (Iowa Code sections 135.64(1) "c," "d")

a. Population subgroups which have traditionally been underserved, such as adolescents, the elderly, women, racial minorities, mentally ill, mentally retarded, and developmentally disabled should be considered when planning for or reviewing long-term care facilities.

b. The applicant shall document to what extent Medicaid patients will be served by the proposed beds, using past Medicaid utilization as an indicator or, in the case of a new facility, projecting anticipated Medicaid utilization.

**203.5(7) Costs and financial feasibility.** (Iowa Code sections 135.64(1) "e," "f," "i," "p")

a. The applicant shall identify capital and operating costs associated with the project, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. Construction costs shall be in line with construction costs of other similar projects.

c. The applicant shall provide budgets for the first three years of operation, including documentation of all assumptions used. The budget shall include anticipated sources of revenue, including the percentage of revenue from private pay, Medicaid, Medicare and other patient revenues.

*d.* Proposed charges per patient day should be justifiable when compared to current charges of other similarly licensed facilities in the applicant's service area, or other similar facilities elsewhere in the state. If charges are significantly higher or lower, the applicant shall provide a description of proposed programs or services which explain the difference in charges.

**641—203.6(135) Bed need formula for mentally retarded.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.7(135) End-stage renal disease standards.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

These rules are intended to implement Iowa Code section 135.72.

**641—203.8(135) Financial and economic feasibility.**

**203.8(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria 1<sup>1</sup>(a to q) found in Iowa Code section 135.64. Criteria 1<sup>1</sup>(a to q) which are measured by a standard are cited below:

Financial feasibility subrule 203.8(3), paragraph "b," criteria 1<sup>1</sup>"b," "c," "p"; subrule 203.8(3), paragraph "c," criteria 1<sup>1</sup>"f," "p"; subrule 203.8(3), paragraph "d," criteria 1<sup>1</sup>"c," "f," "p," "q."

Economic feasibility subrule 203.8(4), paragraph "a," criteria 1<sup>1</sup>"e," "f," "g," "i," "p," "q."

*b.* Certificate of need applications which are to be evaluated against these financial and economic feasibility standards include institutional health facilities, as defined in Iowa Code section 135.61.

**203.8(2) Definitions.**

*a. Project.* The remodeling, replacing or equipping of existing buildings, as well as the building or equipping of new structures.

*b. Financial feasibility.* The applicant's demonstration that it has the money, or that it can reasonably expect to obtain moneys equal to the estimated project costs, to any debt associated with the project, and to the annual expenses of providing the service, as well as the demonstration of overall institutional financial strength.

*c. Financial ratio analysis.* Evaluation of the financial position of an organization through creating indexes of income, revenue, assets, liabilities, etc. Financial ratios can be classified into liquidity, capital structure, activity and profitability ratios. Financial ratios measure financial feasibility.

(1) Net margin. The net income (after taxes if the applicant is not tax-exempt) minus nonoperating revenue divided by gross revenue.

(2) Net operating margin. Net income (after taxes if the applicant is not tax-exempt) minus nonoperating revenue divided by total operating revenue.

(3) Current asset ratio (current ratio). Current assets divided by current liabilities.

(4) Debt ratio. Total long-term debts divided by total fixed assets.

(5) Debt service coverage. The total of net income, interest expense, amortization of financing costs, and depreciation plus amortization and interest divided by the annual debt service.

(6) Days revenue in accounts receivable. Gross accounts receivable divided by gross patient revenue divided by 365.

*d. Debt financing.* Any portion of the cost of projects to be financed through borrowing either at the time the project is undertaken or at anytime subsequent thereto.

*e. (Gross) revenue.* Total of operating and nonoperating revenues.

*f. Nonoperating revenues.* Revenues not related to patient care or normal day-to-day operations, including unrestricted gifts, unrestricted endowments, income from the sale of a fixed asset, unrestricted income from a restricted or unrestricted fund, rental of facilities not used in operation, etc. (restricted funds are specifically excluded, unless expended during the accounting period, in which case they are accounted for either as operating or nonoperating revenues).

*g. Operating revenues.* Net patient service revenues (patient revenues minus deduction for charity, contractual and bad debt allowances) and other operating revenues.

*h. Excess (or deficiency) of gross revenues over (or under) expenses.* Net income.

- i. Excess (or deficiency) of operating revenues over (or under) expenses.* Net operating income.
- j. Economic feasibility.* The applicant's demonstration that its project will provide for the allocation of scarce resources within a community in a manner that is of maximum benefit to that community, in other words demonstration that the project will be cost-effective and will contain health care costs to the greatest extent possible.
- k. Expense.* An expired cost (cost = price paid for operations and assets, including leased assets vis-a-vis cash outlay, indebtedness incurred, or cash equivalent) incurred directly or indirectly in earning revenue. Expenditures may be expended over many years.
- l. Asset.* Economic potentials from which future benefits are expected to result, include leased capital equipment.
- m. Liabilities.* Debts or obligations.
- n. Gross patient revenues.* Patient service revenues before allowances for bad debt and charity and contracts.
- o. Debt service.* The payment of matured interest and principal; the outlay needed, supplied, or accrued for meeting such payments during any given accounting period; a budget or operating statement heading such items.
- p. Current assets.* Liquid assets which can be expected to directly or indirectly be converted into cash within one year or the operating cycle, whichever is longer (includes leased assets).

**203.8(3) Financial feasibility analysis.**

- a.* The applicant will provide financial feasibility analysis of the project's (facility's) past and projected costs, as requested by the Iowa department of public health.
- b.* The applicant shall show evidence of sound financial planning.
  - (1) If the sponsor has a long-range institutional plan, the project should be consistent with it. If the sponsor has no long-range institutional plan, the applicant shall demonstrate that the proposal helps meet the long-range needs of the community.
  - (2) The project should be consistent with the sponsor's three-year capital expenditure plan which all hospital and skilled nursing facilities must have.
- c.* The applicant shall demonstrate the financial feasibility of the services (institution) at completion and, shall show evidence of sound historical, financial, and operational management.
  - (1) The net operating margin should be positive. If a net loss is projected following completion of the project, an explanation of source funds should be given. Institutions funded by tax levy or endowment shall demonstrate that money from those sources has been historically applied to cover operating expenses if those institutions have a negative net operating margin.
  - (2) The net margin should be positive. If net loss is projected an explanation of source funds should be given.
  - (3) The past and projected current ratio should be at least 2:1.
  - (4) Past and projected debt service coverage ratio should be at least 2:1.
  - (5) The debt financing of a project should not increase the debt ratio above .8 unless debt service payments will derive from sources other than operating revenues.
  - (6) Days revenues in accounts receivable should not have been more than 65 days.
  - (7) If third party payment can be expected for the project, then some documentation indicating that the type of project which is proposed is generally third party reimbursable should be provided.
- d.* Sponsors shall show evidence of past efficient utilization. Standards (1) and (2) below apply to hospital project applications for:
  - Construction of new acute care beds;
  - Modernization or renovation of acute care beds/patient nursing units;
  - Conversion of acute care beds from one service use to another;
  - Addition to the square footage space of the hospital, where it might be architecturally feasible and cost-effective to convert excess bed space.
  - (1) Hospitals should have been no lower than 5 percent below the implicit target occupancy rate according to the bed need formula for the last year. Additionally hospitals with lower than target occupancy rates should show a trend during the last three years of increasing occupancy rates. This 5

percent refers to deviation on a scale of 1-100 percent and not to 5 percent of the target occupancy rate itself. Long-term care facilities should have had a 90 percent average occupancy for the last three years.

(2) Hospitals should have an average length of stay by service no greater than 10 percent above the average of their size category for the last three years.

Standards (1) and (2) above do not amend rule 641—203.1(135) acute bed care need methodology. But are additional measures of financial viability which supplement rule 641—203.1(135).

(3) Prior to the project's initiation, the full-time equivalent employees per adjusted patient day as reported in the most recent American Hospital Association Hospital Statistics should be no greater than 110 percent of the state average for hospitals of similar size. Categories of hospitals of similar size are:

<u>Beds</u>
6-24
25-49
50-99
100-199
200-299
300-399
400-499
500+

Adjusted patient day as used here is defined in Hospital Statistics, AHA, 1978.

Nursing homes shall meet regulations for licensure personnel requirements.

(4) Prior to initiation of a project, the cost per patient day of a hospital should be within 10 percent of the state average for hospitals within that size category. (See standard 203.8(3)“d”(3) for size categories.) An applicant's costs, which are incurred as a result of shared service contracts with other entities, and which are not charged to patients within the applicant's facility should not be included in the estimation of costs per patient day.

**203.8(4) *Economic feasibility.***

*a.* The project as proposed shall be cost-effective.

(1) The applicant should demonstrate that the project represents the most cost-effective alternative. Such alternatives include, among others, new construction versus renovation and new service versus shared or contracted services.

(2) The applicant should demonstrate that of the financing methods available, the financing method chosen is the least costly alternative.

(3) Applicants shall demonstrate that construction or renovation costs are reasonable when compared to similar projects of the most recent year.

(4) The net operating margin should not exceed a percentage sufficient to provide for the organization's financial requirements, as defined in “Financial Requirements of Health Care Institutions and Services” (American Hospital Association, S031, February 1979), and limited by existing reimbursement payors.

(5) Facilities should show evidence that they have considered alternate energy sources within their institutions; and energy efficiency in project construction design.

*b.* Reserved.

This rule is intended to implement Iowa Code section 135.74.

<sup>1</sup> Iowa Code section 135.64(1).

**641—203.9(135) Obstetrical services and neonatal intensive care unit standards.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.10(135) Designated pediatric units standards.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.11(135) Designated inpatient substance abuse treatment unit standards.** Rescinded ARC 2297C, IAB 12/9/15, effective 1/13/16.

**641—203.12(135) Magnetic resonance imaging services standards.**

**203.12(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria in Iowa Code sections 135.64(1) “a” to “q.” Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these standards include:

- (1) Proposals to commence or expand the capacity of magnetic resonance imaging services.
- (2) Proposals to replace a magnetic resonance imaging unit.
- (3) Any other applications which relate to magnetic resonance imaging.

**203.12(2) Definitions.**

“Area” means the community or a metropolitan statistical area (as defined by the U.S. Office of Management and Budget and used by the U.S. Census Bureau).

“CT (computed tomography) procedure” means a CT study of a single site of anatomic interest during an individual patient visit.

“Magnetic resonance imaging (MRI)” means a diagnostic modality which employs a combination of magnetic and radio frequency fields and computers to produce images of body organs and tissues.

“MRI procedure” means each discrete MRI study of one patient.

“MRI unit” means the essential equipment and facility necessary to operate one MRI system.

**203.12(3) Availability and need.** (Iowa Code sections 135.64(1) “c,” “d,” “e,” “g,” “h”)

*a.* Applicants in areas with no other MRI units. Applicant must document a CT procedure volume of at least 4,500 CT procedures during the most recent calendar or fiscal year period. For purposes of calculating the volumes required, the applicant may use the combined total of more than one facility if the application involves joint ownership of the equipment, or the applicant provides evidence of referral arrangements for the proposed MRI service from the facilities whose procedure or patient volumes are included in the calculations.

*b.* Applicants in areas with one or more MRI units currently in operation or approved by certificate of need for operation.

- (1) Applicant must meet the requirement of need described in 203.12(3) “a” and
- (2) The other MRI unit(s) within the area must have been operating at a minimum of 3,000 MRI procedures annually (or 750 in three months), or proportionately more if the MRI unit runs more than one ten-hour shift.
- (3) If the annual utilization of the other MRI unit(s) within the area has been below 3,000 procedures, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the 3,000 procedure level must be demonstrated.

*c.* Applicants seeking to replace an MRI unit.

- (1) The applicant must demonstrate that the existing MRI unit has been operating at the level of at least 3,000 procedures during the most recent annual period.
- (2) If the applicant’s annual utilization has been below 3,000 procedures, the applicant must reasonably project future utilization above that level or demonstrate reasons for permanently utilizing the equipment below that level.

*d.* Applicants seeking to add an additional MRI unit.

- (1) The applicant must demonstrate that the existing MRI unit(s) has been operating at the level of at least 3,500 procedures during the most recent annual period.
- (2) The applicant must demonstrate that the demand significantly exceeds the 3,500 procedures annually.

*e.* The provisions of subrule 203.12(3) shall be effective until June 30, 1995. Prior to that time the Iowa department of public health shall reconvene a task force to recommend continuing use of the need methodology outlined or develop a new or revised methodology to use in projecting future MRI needs. The department shall promulgate a new subrule 203.12(3) accordingly.

**203.12(4) Quality and continuity.** (Iowa Code sections 135.64(1) “g,” “h,” “i,” “k”)

a. The proposed MRI unit must function as a component of a comprehensive inpatient or outpatient diagnostic service. The proposed MRI unit must have the following modalities on-site or through referral arrangements:

- (1) Ultrasound
- (2) Computed tomography — whole body unit
- (3) Angiography
- (4) Nuclear medicine
- (5) Conventional radiography

b. The proposed MRI unit must be located in a facility which has, either in-house or through referral arrangement, the resources necessary to treat most of the conditions diagnosed or confirmed by MRI. The following medical specialties must be available during MRI service hours on-site or by referral arrangements: neurology or neurosurgery, oncology and cardiology.

c. A proposal to provide new or expanded MRI must include satisfactory assurances that the services will be offered in a physical environment that conforms to federal standards, manufacturer's specifications, and licensing agencies' requirements.

d. The applicant must provide evidence that the proposed MRI equipment has been certified for clinical use by the U.S. Food and Drug Administration or will be operated under an institutional review board whose membership is consistent with U.S. Department of Health and Human Services regulations.

e. Applicants for MRI shall document that the necessary qualified staff are available to operate the proposed unit. The following minimum staff shall be available to the MRI unit:

1. A full-time board eligible or board certified radiologist or nuclear medicine imaging physician or any other board eligible or board certified licensed physician whose exclusive responsibility for at least a two-year period prior to submission of a certificate of need request has been in the acquisition and interpretation of clinical images. This individual shall have a knowledge of MRI through training, experience, or documented postgraduate education. The individual shall also have training with a functional MRI facility.

2. Qualified engineering personnel, available to the institution during MRI service hours, with training and experience in the operation and maintenance of the MRI equipment.

3. Diagnostic radiologic technologists or other certified technologists with expertise in computed tomography or other cross-sectional imaging methods, at a staffing level consistent with the hospital's expected MRI service volume.

4. Other appropriate physicians shall be available during MRI service hours in clinical specialties such as neurology or neurosurgery, oncology and cardiology.

f. The applicant shall demonstrate how emergencies within the MRI unit will be managed in conformity with accepted medical practice.

**203.12(5) Accessibility and acceptability.** (Iowa Code sections 135.64(1) "c," "d")

a. MRI facilities should have adequate scheduled hours to avoid an excessive backlog of cases and MRI shall be available 24 hours a day, seven days a week on an emergency (on-call) basis.

b. Selection of patients for clinical MRI studies must guarantee equal access to all persons regardless of insurance coverage or ability to pay.

c. In addition to accepting patients from participating institutions, facilities performing clinical MRI procedures shall accept appropriate referrals from other local providers. These patients shall be accommodated to the extent possible by extending the hours of service and by prioritizing patients according to standards of need and appropriateness rather than source of referral.

**203.12(6) Costs and financial feasibility.** (Iowa Code sections 135.64(1) "e," "f," "i," "p")

a. The applicant shall identify capital and operating costs associated with the proposed MRI unit, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. The applicant shall provide budgets for the first three years of operation, including documentation and justification of all assumptions used.

c. The applicant must document its projected average cost per procedure and charge per procedure for the first three years. Charges for MRI should be reasonably related to service cost, and comparable to MRI charges at other facilities in the state.

*d.* The applicant shall demonstrate that alternatives were considered and the proposed application is the most cost-effective and will accomplish the goals of the project.

*e.* To provide a data base for evaluation of subsequent MRI applications by the health facilities council, applicants granted a certificate of need shall provide to the certificate of need office the following data upon request of the Iowa department of public health. The department will request the following data on an annual basis.

1. Total number of procedures performed;
2. Total number of inpatient procedures;
3. Total number of outpatient procedures;
4. Average charge per procedure;
5. Hours of operation of the MRI unit;
6. Total revenues and expenses for the MRI unit for the year.

This rule is intended to implement Iowa Code section 135.64.

#### **641—203.13(135) Positron emission tomography services standards.**

##### **203.13(1) Purpose and scope.**

*a.* These standards are measures of some of those criteria in Iowa Code sections 135.64(1) “*a*” to “*q*.” Criteria which are measured by a standard are cited in parentheses following each standard.

*b.* Certificate of need applications which are to be evaluated against these standards include:

- (1) Proposals to commence or expand the capacity of positron emission tomography services.
- (2) Proposals to replace a positron emission tomography unit.
- (3) Any other applications which relate to positron emission tomography.

##### **203.13(2) Definitions.**

“*Area*” means the community or a metropolitan statistical area (as defined by the U.S. Office of Management and Budget and used by the U.S. Census Bureau).

“*CT (computed tomography)*” means an imaging method in which a cross-sectional image of the structures in a body plane is reconstructed by a computer program from the X-ray absorption of beams projected through the body in the image plane.

“*Cyclotron*” means an apparatus for accelerating protons or neutrons to high energies by means of a constant magnet and an oscillating electric field.

“*MRI (magnetic resonance imaging)*” means a diagnostic modality which employs a combination of magnetic and radio frequency fields and computers to produce images of body organs and tissues.

“*Radiopharmaceutical*” means a radioactive pharmaceutical used for diagnostic or therapeutic purposes.

“*PET procedure*” means an image-scanning sequence derived from a single administration of PET, equated with a single injection of the tracer.

“*Positron emission tomography (PET)*” means an imaging method in which positron-emitting radionuclides, which are produced either by a cyclotron or generator, and a nuclear camera are used to create pictures of organ function rather than structure. PET installations generally take one of two forms: a PET scanner using only generator-produced tracers (basic PET unit), or a PET scanner with a cyclotron (enhanced PET unit).

“*SPECT (single photon emission computed tomography)*” means a camera-based imaging system using the radionuclides in the routine practice of nuclear medicine.

##### **203.13(3) Availability and need.** (Iowa Code sections 135.64(1) “*c*,” “*d*,” “*e*,” “*g*,” “*h*”)

*a.* Applicants in areas with no other basic or enhanced PET units.

(1) Applicants should demonstrate a reasonable potential utilization of a PET unit based on diversified inpatient and outpatient case mix thresholds including:

1. Intracranial cases
  - Primary brain tumors 50/year
  - Metastasis 100/year
  - Cerebral vascular disease 200/year

- Organic brain disease and dementia/psychiatric diagnoses (including epilepsy-seizure disorders) 500/year
  - Spinal 100/year
  - 2. Cardiovascular cases
    - Ischemic heart disease (including acute and chronic infarction) 1200/year
  - 3. Neoplasms (head, neck, thorax (excluding heart), abdomen, pelvic and musculoskeletal 1300/year
  - 4. If the application is for a basic unit, the above case mix and numbers should be adjusted according to the proposed use of the unit.
- (2) Applicants should have other diagnostic capabilities, on-site or through referral arrangements, with appropriate volumes including:

	<u>Proposed Threshold</u>
Nuclear medicine imaging services	7,000
Single photon emission computed tomography (including brain, bone, liver, Gallium and Thallium stress)	2,000
CT	10,000
MRI	3,000
Cardiac angiography	1,500
Cardiac ultrasound	7,000

(3) Applicants must demonstrate secondary and tertiary service capability, on-site or through referral arrangements, including cardiac surgery, cardiology, internal medicine, general surgery, hematology/oncology, neurology, pathology, thoracic surgery and psychiatry.

*b.* Applicants in areas with one or more basic or enhanced PET units currently in operation or approved by the certificate of need program for operation.

(1) Applicant should have access to cyclotron-produced radiopharmaceuticals.

(2) Existing PET units within the area (whether basic or enhanced) must have been operating at a minimum of 1000 PET procedures during the most recent annual period as reported to the certificate of need program according to 203.13(6) "e."

*c.* The provisions of subrule 203.13(3) shall be effective until June 30, 1995. Prior to that time the Iowa department of public health shall reconvene a task force to recommend continuing use of the need methodology outlined or develop a new or revised methodology to use in projecting future PET needs. The department shall promulgate a new subrule 203.13(3) accordingly.

**203.13(4) *Quality and continuity.*** (Iowa Code sections 135.64(1) "g," "h," "i," "k")

*a.* The proposed PET unit must function as a component of a comprehensive inpatient or outpatient diagnostic service. The proposed PET unit must have the following modalities (and capabilities) on-site or through referral arrangements:

- (1) Computed tomography — (whole body)
- (2) Magnetic resonance imaging — (brain and whole body)
- (3) Nuclear medicine — (cardiac, SPECT)
- (4) Conventional radiography

*b.* The proposed PET unit must be located in a facility which has, either in-house or through referral arrangement, the resources necessary to treat most of the conditions diagnosed or confirmed by PET. The following medical specialties must be available during PET service hours on-site or by referral arrangements: cardiology, neurology, neurosurgery, oncology, and psychiatry.

*c.* A proposal to provide new or expanded PET must include satisfactory assurances that services will be offered in a physical environment that conforms to federal standards, manufacturer's specifications, and licensing agencies' requirements. The following areas are to be addressed:

(1) Quality control and assurance of radiopharmaceutical production of generator or cyclotron-produced agents;

- (2) Quality control and assurance of PET tomograph and associated instrumentation;
- (3) Radiation protection and shielding;
- (4) Radioactive emissions to the environment.

*d.* The applicant must provide evidence that the proposed PET equipment has been certified for clinical use by the U.S. Food and Drug Administration or will be operated under an institutional review board whose membership is consistent with U.S. Department of Health and Human Services regulations.

*e.* Applicants for PET shall document that the necessary qualified staff are available to operate the proposed unit. The applicants shall document the PET training and experience of the staff. The following minimum staff shall be available to the PET unit:

(1) One or more nuclear medicine imaging physician(s) available on a full-time basis to the PET unit who have been licensed by the state for the handling of medical radionuclides and whose primary responsibility for at least a one-year period prior to submission of the certificate of need application has been in acquisition and interpretation of tomographic images. This individual shall have knowledge of PET through training, experience, or documented postgraduate education. The individual shall also have training with a functional PET facility.

(2) Qualified PET radiochemist or radiopharmacist personnel, available to the facility during PET service hours, with at least one year of training and experience in the synthesis of short-lived positron-emitting radiopharmaceuticals. The individual(s) shall have experience in the testing of chemical, radiochemical, and radionuclidic purity of PET radiopharmaceutical syntheses.

(3) Qualified engineering and physics personnel, available to the facility during PET service hours, with training and experience in the operation and maintenance of the PET equipment.

(4) Qualified radiation safety personnel, available to the facility at all times, with training and experience in the handling of short-lived positron-emitting nuclides.

(5) Certified nuclear medicine technologists with expertise in computed tomographic nuclear medicine imaging procedures, at a staffing level consistent with the proposed center's expected PET service volume.

(6) Other appropriate physicians shall be available during PET service hours which may include certified nuclear medicine technologists, computer programmers, nurses, and radiochemistry technicians.

*f.* The applicant shall demonstrate how emergencies within the PET unit will be managed in conformity with accepted medical practice.

**203.13(5) Accessibility and acceptability.** (Iowa Code sections 135.64(1) "c," "d")

*a.* PET facilities should have adequate scheduled hours to avoid an excessive backlog of cases.

*b.* Selection of patients for clinical PET studies must guarantee equal access to all persons regardless of insurance coverage or ability to pay.

*c.* In addition to accepting patients from participating institutions, facilities performing clinical PET procedures shall accept appropriate referrals from other local providers. These patients shall be accommodated to the extent possible by extending the hours of service and by prioritizing patients according to standards of need and appropriateness rather than source of referral.

**203.13(6) Costs and financial feasibility.** (Iowa Code sections 135.64(1) "e," "f," "i," "p")

*a.* The applicant shall identify capital and operating costs associated with the proposed PET unit, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

*b.* The applicant shall provide budgets for the first three years of operation, including documentation and justification of all assumptions used.

*c.* The applicant must document its projected average cost per procedure and charge per procedure for the first three years. Charges for PET should be reasonably related to service cost and comparable to PET charges at other facilities in the state.

*d.* The applicant shall verify whether the service is eligible for reimbursement by public and private third-party payers.

*e.* The applicant shall demonstrate that alternatives were considered and the proposed application is the most cost-effective and will accomplish the goals of the project.

*f.* To provide a data base for evaluation of subsequent PET applications by the health facilities council, applicants granted a certificate of need shall provide to the certificate of need office the following data upon request of the Iowa department of public health. The department will request the following data on an annual basis.

- (1) Total number of procedures performed;
- (2) Total number of inpatient procedures (indicate type of procedure);
- (3) Total number of outpatient procedures (indicate type of procedure);
- (4) Average charge per specific procedure;
- (5) Hours of operation of the PET unit;
- (6) Total revenues and expenses for the PET unit for the year.

This rule is intended to implement Iowa Code section 135.64.
