c. This chapter does not make available records compiled by the department in reasonable anticipation of court litigation or formal administrative proceedings. The availability of these records to the public or to any individual or party to such litigation or proceedings shall be governed by applicable legal and constitutional principles, statutes, rules of discovery, evidentiary privileges, and applicable regulations of the department.

4.1(2) Custodian. The custodian of a record is the person who heads the departmental office responsible for that record. The department's electronic Records Management Manual identifies the offices that are responsible for particular records.

a. As used in this chapter, the term "custodian" includes the custodian's superiors and the custodian's designees.

b. A custodian's designee may include but is not limited to the records center.

c. The custodian of a record is authorized to provide or deny access to that record in accordance with the provisions of this chapter. However, the custodian's authority to provide access to a confidential record is limited to the persons listed in subrule 4.4(2).

4.1(3) Address of records center. The address of the department's records center is: Records Management Section, Information Technology Division, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

4.1(4) Records Management Manual.

a. The department's electronic Records Management Manual contains the records management information required by Iowa Code chapter 305, including descriptions of department records and their formats, management, maintenance, storage, retention, security, and disposal.

b. The manual also contains the descriptive information on records that is required by Iowa Code section 22.11. The manual is updated as needed and its provisions are made a part of these rules.

c. The manual is available for examination and copying at the department's records center and at various other departmental offices located throughout the state. A copy of the manual may also be obtained, upon request, from the records center.

4.1(5) Availability of open records. Open records of the department are available to the public for examination and copying unless otherwise provided by state or federal law, regulation or rule.

4.1(6) Data processing matching. All departmental data processing systems that have common data elements can potentially match, collate and compare personally identifiable information.

4.1(7) Warranty. No warranty of the accuracy or completeness of a record is made.

4.1(8) Existing records. A request for access shall apply only to records that exist at the time the request is made and access is provided. The department is not required to create, compile or procure a record solely for the purpose of making it available. EXCEPTIONS: See Iowa Code section 22.3A and subrule 4.4(4).

4.1(9) Definitions. As used in this chapter:

"Confidential record" means a record that is not available as a matter of right for examination and copying by members of the public under applicable provisions of law. Confidential records include records or information contained in records that the department is prohibited by law from making available for examination by members of the public, and records or information contained in records that are specified as confidential by Iowa Code section 22.7 or another provision of law, but that may be disclosed upon order of the court, the custodian of the record, or by another person duly authorized

to release the record. Mere inclusion in a record of information declared confidential by an applicable provision of law does not necessarily make that entire record a confidential record.

“Open record” means a record other than a confidential record.

“Personally identifiable information” means information about an individual in a record that identifies the individual and is retrievable by a unique personal identifier associated with the individual.

“Public” means those persons who are not officials, employees or agents of the department.

“Record” means the whole or a part of a “public record” as defined in Iowa Code section 22.1 that is owned by or in the physical possession of the department.

“Requester” means a member of the public.

This rule is intended to implement Iowa Code chapter 22 and section 305.15.

[ARC 7909B, IAB 7/1/09, effective 7/1/09; ARC 2049C, IAB 7/8/15, effective 8/12/15]

761—4.2(22) Statement of policy and purpose. It is the policy of the department that free and open examination of public records is generally in the public interest. The purpose of these rules is to facilitate broad public access to open records and sound determinations with respect to the handling of confidential records.

This rule is intended to implement Iowa Code chapter 22.

761—4.3(22) Access to records.

4.3(1) Submission of request for access.

a. A request for access to a record shall be submitted to the custodian of the record. If the requester does not know the identity of the custodian, the request may be submitted to the records center at the address in subrule 4.1(3). The records center will forward the request to the custodian.

b. Notwithstanding paragraph “*a*” of this subrule, any request that may be related to a potential or an actual tort claim or other litigation shall be submitted to the following address: General Counsel, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010. If the custodian receives a request of this nature, the custodian shall forward the request to the department’s general counsel.

c. If a request for access is misdirected, department personnel will forward the request to the custodian.

4.3(2) Office hours. Open records are available during customary office hours, which are 8 a.m. to 4:30 p.m., excluding Saturdays, Sundays, and legal holidays.

4.3(3) Form of request. A request for access to a record shall reasonably describe the record requested. A request for access to an open record may be made orally or in writing. A requester shall not be required to give reasons for requesting an open record.

4.3(4) Response to request. The custodian shall provide access to an open record promptly upon request. However, if the size or nature of the request makes prompt access infeasible, the custodian shall fill the request as soon as feasible and give the requester an estimate of when the record will be available.

4.3(5) Delay. Access to a record may be delayed for one of the purposes authorized by Iowa Code subsection 22.8(4) or 22.10(4). The custodian shall inform the requester of the reason for the delay and the estimated length of the delay.

4.3(6) Security of records. No person may, without permission from the custodian, search agency files or remove any record from the place where it is made available. The custodian shall supervise the examination and copying of records and protect the records from damage and disorganization. Original paper records shall be released from department custody only upon court order. At least one certified copy shall be retained in the file if the original record is released.

4.3(7) Copies. A photocopy of an open record may be made on department photocopiers. If a photocopier is not available in the office where an open record is kept, the custodian shall permit its examination in that office and, if requested, arrange to have a copy made elsewhere. Most department records are stored in electronic formats; therefore, if the requested record is electronic, an electronic copy will be provided. If the requester is unable to open and read an electronic copy, or if the record does not exist in electronic form, a hard copy will be provided.

4.3(8) Fees. The department may charge fees for records as authorized by Iowa Code section 22.3 or another provision of law. Under Iowa Code section 22.3, the fee for the copying service, whether electronic or hard copy, shall not exceed the cost of providing the service.

This rule is intended to implement Iowa Code sections 22.2, 22.3, 22.4, 22.8, 22.10, and 22.11.
[ARC 2049C, IAB 7/8/15, effective 8/12/15]

761—4.4(22) Access to confidential records. The following provisions are in addition to those specified in rule 761—4.3(22) and are minimum requirements. A statute or another department rule may impose additional requirements for access to certain classes of confidential records. A confidential record may, due to its nature or the way it is compiled or stored, contain a mixture of confidential and nonconfidential information. The department shall not refuse to release the nonconfidential information simply because of the manner in which the record is compiled or stored.

4.4(1) Procedure.

a. Form of request. The custodian shall ensure that there is sufficient information to provide reasonable assurance that access to a confidential record may be granted. Therefore, the custodian may require the requester to:

- (1) Submit the request in writing.
- (2) Provide proof of identity and authority to secure access to the record.
- (3) Sign a certified statement or affidavit listing the specific reasons justifying access to the record and provide any proof necessary to establish relevant facts.

b. Response to request. The custodian shall notify the requester of approval or denial of the request for access. If the requester indicates to the custodian that a written notice is desired if the request for access is denied, the custodian shall provide such notice promptly. The notice shall be signed by the custodian and include:

- (1) The name and title or position of the custodian, and
- (2) A brief statement of the grounds for denial, including a citation to the applicable statute or other provision of law.

c. Reconsideration of denial. A requester whose request is denied by the custodian may apply to the director of transportation for reconsideration of the request.

4.4(2) Release of confidential records by the custodian. The custodian may release a confidential record or a portion of it:

- a.* To the legislative services agency pursuant to Iowa Code section 2A.3.
- b.* To the ombudsman pursuant to Iowa Code section 2C.9.
- c.* To other governmental officials and employees only as needed to discharge their duties.
- d.* To those persons as permitted or required by rule 761—4.9(22).
- e.* To persons authorized by the subject of the record in accordance with rule 761—4.5(22).
- f.* To the public information board pursuant to Iowa Code section 23.6.

4.4(3) Release of confidential records by the director.

a. The director of transportation may release a confidential record or a portion of it to a person not covered in subrule 4.4(2) if the release:

- (1) Is permitted by statute, rule or another provision of law, and
- (2) Is not inconsistent with the stated or implied purpose of the law which establishes or authorizes confidentiality.

b. Before the director of transportation releases a record to a person not covered in subrule 4.4(2), the director of transportation may notify the subject of the record of the impending release and may give the subject a reasonable amount of time to seek an injunction.

4.4(4) Information released. If a person is provided access to less than an entire record, the department shall take measures to ensure that the person is furnished only the information that is to be released. This may be done by providing to the person either an extraction of the information to be released or a copy of the record from which the information not to be released has been deleted.

This rule is intended to implement Iowa Code section 22.11.
[ARC 2049C, IAB 7/8/15, effective 8/12/15; ARC 3026C, IAB 4/12/17, effective 5/17/17]

761—4.5(22) Consent to release a confidential record to a third party. To the extent permitted by law, the subject of a confidential record may consent to its release to a third party. The consent must be in writing and must identify the particular record that may be disclosed and the particular person or class of persons to whom the record may be disclosed. The subject of the record may be required to provide proof of identity. Appearance of counsel before the agency on behalf of a person who is the subject of a confidential record may be deemed to constitute consent for the department to disclose records about that person to the person's counsel.

This rule is intended to implement Iowa Code section 22.11.

761—4.6(22) Requests for confidential treatment.

4.6(1) A person may request that all or a portion of a record be confidential. The request must be submitted in writing to the custodian and:

- a. Identify the information for which confidential treatment is sought.
- b. Cite the legal basis that justifies confidential treatment.
- c. Demonstrate that disclosure of the information would clearly not be in the public interest.
- d. Give the reasons why any person or persons would be substantially and irreparably injured by disclosure of the information. The requester may be required to provide any proof necessary to support these reasons.

4.6(2) The custodian shall notify the requester in writing of the granting or denial of the request and, if denied, the reasons therefor.

4.6(3) If the request is denied, the requester may apply to the director of transportation for reconsideration of the request.

This rule is intended to implement Iowa Code sections 22.8 and 22.11.
[ARC 2049C, IAB 7/8/15, effective 8/12/15]

761—4.7(22) Procedure by which additions, dissents, or objections may be entered into records. Except as otherwise provided by law, the person who is the subject of a record may have a written statement of additions, dissents or objections entered into that record. The statement shall be filed with the custodian. The statement must be dated and signed by the person who is the subject of the record and include the person's current address and telephone number. This rule does not authorize the person who is the subject of the record to alter the original record or to expand the official record of any agency proceeding.

This rule is intended to implement Iowa Code section 22.11.

761—4.8(22) Notice to suppliers of information. When the department requests a person to supply information about that person, the department shall notify the person of the use that will be made of the information, which persons outside the agency might routinely be provided this information, which parts of the requested information are required and which are optional, and the consequences of a failure to provide the information requested. This notice may be given in these or other rules of the department, on the written form used to collect the information, on a separate fact sheet or letter, in brochures, in formal agreements, in contracts, in handbooks, in manuals, orally, or by other appropriate means.

This rule is intended to implement Iowa Code section 22.11.

761—4.9(22) Confidential records. This rule describes the types of departmental information or records that are confidential. This rule is not exhaustive. A citation of the legal authority for confidentiality follows each description. The following records shall be kept confidential. Records are listed by category, according to the legal basis for withholding them from public inspection.

CHAPTER 11
WAIVER OF RULES

761—11.1(17A) Purpose and scope.

11.1(1) The purpose of this chapter is to establish a general process for granting waivers or variances (hereinafter referred to as waivers) from the requirements of department rules. A waiver is an agency action which suspends in whole or in part the requirements or provisions of a rule as applied to an identified person on the basis of the particular circumstances of that person.

11.1(2) This chapter does not preclude the granting of waivers using another process if a statute or another department rule so provides. If the rule for which a waiver is sought has a specific waiver process of its own, this chapter is applicable only when it is specifically cited.

11.1(3) This chapter does not apply to contested case proceedings.

11.1(4) This chapter does not apply to rules that merely define the meaning of a statute or other provision of law if the department does not possess the delegated authority to bind the courts to any extent with its definition.

761—11.2(17A) Authority to grant waiver. The director of transportation may, in response to a written petition submitted in accordance with rule 761—11.5(17A), grant a waiver from the requirements of a rule. The decision to grant a waiver shall be made at the sole discretion of the director and is final agency action.

761—11.3(17A) Criteria, considerations and limitations.

11.3(1) The director shall not grant a waiver from the requirements of a rule unless the director or the department has jurisdiction over the rule and the waiver is consistent with any applicable statute, constitutional provision, or other provision of law. The director shall not waive any requirement created or duty imposed by statute.

11.3(2) The director may grant a waiver from the requirements of a rule if the director finds, based on clear and convincing evidence, all of the following:

- a.* Application of the rule will pose an undue hardship.
- b.* The waiver will not prejudice the substantial legal rights of any person.
- c.* The provisions of the rule subject to waiver are not specifically mandated by statute or another provision of law, and the waiver will not cause a denial of federal funds.
- d.* Substantially equal protection of the public health, safety, and welfare will be afforded by means other than that prescribed in the rule.

11.3(3) The department shall evaluate each petition for a waiver based on the unique, individual circumstances set out in the petition. The burden of persuasion rests with the petitioner.

11.3(4) A waiver, if granted, shall provide the narrowest exception possible to the provisions of the rule.

11.3(5) The director may place any condition on a waiver that the director finds desirable to protect the public health, safety, and welfare.

11.3(6) A waiver shall not be permanent, unless the director finds that a temporary waiver would be impracticable.

11.3(7) If a temporary waiver is granted, there is no automatic right to renewal. At the sole discretion of the director, a waiver may be renewed if the director finds all of the factors set out in subrule 11.3(2) remain valid.

761—11.4(17A) Decision on waiver.

11.4(1) The director's decision to grant or deny a waiver in response to a written petition shall be in writing and contain:

- a.* The name of the person to whom the decision pertains.
- b.* A citation to the rule or portion thereof to which the decision pertains and a brief summary of the rule's requirements that are pertinent to the requested waiver.

c. The relevant facts and reasons upon which the decision is based. If a waiver is granted, the decision must include the findings set out in subrule 11.3(2).

d. The scope and duration of a waiver if one is granted.

e. Any other conditions placed on a waiver if one is granted.

11.4(2) Reserved.

761—11.5(17A) Petition for waiver.

11.5(1) *Petitioner.* Any person may petition the department for a waiver from the requirements of a rule. The petitioner must have a real and direct interest in the matter.

11.5(2) *Form of petition.* A petition for a waiver from the requirements of a rule must be in writing and state clearly at the top of the petition that it is a “petition for waiver of a rule.” The petition shall contain the following information where applicable and known to the petitioner:

a. The name, address and telephone number of the petitioner, and any license, permit or case number applicable to the requested waiver.

b. A description of and citation to the specific rule from which a waiver is requested.

c. The specific waiver requested, including its scope and duration.

d. The relevant facts and reasons the petitioner believes would justify the requested waiver. The petitioner should address each of the following:

(1) Why applying the rule will result in an undue hardship to the petitioner.

(2) Why waiving the rule will not prejudice the substantial legal rights of any other person.

(3) Whether the provisions of the rule are specifically mandated by statute or another law other than the rule.

(4) How substantially equal protection of the public health, safety, and welfare will be afforded by means other than those prescribed by the rule.

e. A history of any prior contacts between the petitioner and the department that are related to the requested waiver.

f. Whether the petitioner is currently a party to a rule making, declaratory order, contested case, judicial proceeding, or any other proceeding related to the requested waiver.

g. Information regarding the department’s treatment of similar situations.

h. The name, address and telephone number of any public agency or political subdivision that also regulates the activity in question or that may be affected if the waiver were granted.

i. The name, address and telephone number of any person or entity that may be adversely affected if the waiver were granted.

j. The name, address and telephone number of any person who has knowledge of facts relevant to the requested waiver.

k. Releases authorizing persons with knowledge of relevant facts to furnish that information to the department.

l. The signature of the petitioner and the date signed.

11.5(3) *Submission of petition.* A petition for waiver from the requirements of a rule shall be submitted to the Rules Administrator, Operations and Finance Division, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

[ARC 2231C, IAB 11/11/15, effective 12/16/15; ARC 2889C, IAB 1/4/17, effective 2/8/17]

761—11.6(17A) Action on petition. Following is the procedure for responding to a petition for a waiver from the requirements of a rule:

11.6(1) The department shall acknowledge receipt of a petition immediately.

11.6(2) Before a waiver is granted or denied, the department may request a petitioner to furnish additional information related to the petition.

11.6(3) The director shall issue a written decision to grant or deny a waiver within 120 days after the department receives the petition unless the petitioner agrees to a later time. However, if the matter is also the subject of a contested case proceeding, the decision to grant or deny a waiver need not be issued until after the final decision in the contested case is issued.

11.6(4) The decision to grant or deny a waiver shall contain the information set out in rule 761—11.4(17A).

11.6(5) Within seven days after the decision is issued, the department shall transmit it to the petitioner.

11.6(6) Failure to grant or deny a waiver within the required time is deemed a denial.

11.6(7) The director's decision on a petition for a waiver from the requirements of a rule is final agency action.

11.6(8) A petition for a waiver from the requirements of a rule is independent of a contested case proceeding. Submission of a petition does not delay the time to request a contested case hearing, to appeal a proposed decision in a contested case, or to file a petition for judicial review of a final decision in a contested case.

11.6(9) A petition for a waiver from the requirements of a rule is not required to exhaust administrative remedies before judicial review of a department action under Iowa Code section 17A.19.

761—11.7(17A) Modification or cancellation of waiver. The department may, after notice and opportunity for hearing, modify or cancel a waiver granted pursuant to this chapter if the director finds any of the following:

1. A material fact upon which the waiver is based is not true or has changed.
2. The petitioner withheld or knowingly misrepresented a material fact relevant to the propriety or desirability of the waiver.
3. The petitioner has failed to comply with the conditions set forth in the decision granting the waiver.
4. The alternate means for ensuring that the public health, safety and welfare will be adequately protected after the waiver is granted are insufficient.

761—11.8(17A) Records.

11.8(1) All records relating to waivers granted or denied under this chapter are open records. However, if a record contains personal information that is confidential, only the portion of the record that is nonconfidential will be made available for public inspection.

11.8(2) The operations and finance division shall, at a minimum, retain for five years records relating to waivers granted or denied under this chapter.

CHAPTER 12
DECLARATORY ORDERS
[Prior to 11/8/06, see rule 761—10.4(17A)]

761—12.1(17A) Definitions.

“*Declaratory order*” means the department’s interpretation of a statute, rule or order as applied to specified circumstances. A declaratory order is issued in response to a petition for declaratory order.

“*Director*” means the director of transportation or the director’s designee.

“*Petition for declaratory order*” means a formal request from a person or agency to the department asking how the department will apply a statute, rule or order based on a specific set of facts contained in the petition. The purpose of the petition is to seek binding advice from the department, not to challenge a decision that the department has already made.

761—12.2(17A) Petition for declaratory order.

12.2(1) Any person or agency may file with the department a petition for declaratory order. The subject matter of the petition must be within the primary jurisdiction of the department.

12.2(2) The petition must be submitted to the department’s rules administrator at the following address: Rules Administrator, Operations and Finance Division, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

12.2(3) The petition must be typewritten or legibly handwritten in ink and must substantially conform to the following form:

IOWA DEPARTMENT OF TRANSPORTATION
800 Lincoln Way, Ames, Iowa 50010

PETITION BY (insert petitioner’s name)

FOR DECLARATORY ORDER ON
(insert number of statute, rule, etc. and
brief description of subject matter)

DOCKET NO. _____

PETITION FOR DECLARATORY
ORDER

(In separate numbered paragraphs, the petition shall include the following.)

1. The petitioner’s name, address and telephone number.
2. The exact words, passages, sentences or paragraphs of statutes, rules, etc. which are the subject of the inquiry.
3. A clear, concise and complete statement of all relevant facts for which the order is requested.
4. The uncertainties or conflicting interpretations which arise when the cited statutes, rules, etc. are applied to the facts.
5. (Optional) The interpretation urged based upon the facts set forth.
6. The reasons for the petition and a full disclosure of the petitioner’s interest.
7. Whether the petitioner is currently a party to a rule-making, contested case or judicial proceeding involving the controversy or uncertainty.
8. The names and addresses, when known, of other persons who may be affected by the declaratory order.

12.2(4) The petition must be dated and signed by the petitioner or, if applicable, petitioner’s representative.

12.2(5) If applicable, the petition must also include the name, address, and telephone number of the petitioner’s representative and a statement indicating the person to whom communications concerning the petition should be directed.

12.2(6) The date of receipt of the petition is the day it reaches the department’s rules administrator. The administrator shall promptly send an acknowledgment of receipt to the petitioner or, if applicable, petitioner’s representative.

[ARC 2231C, IAB 11/11/15, effective 12/16/15; ARC 2889C, IAB 1/4/17, effective 2/8/17]

761—12.3(17A) Notice of petition. Within 15 days after receipt of a petition for declaratory order, the department shall provide copies of the acknowledgment of receipt and copies of the petition to all persons to whom notice of the petition is required by any provision of law. The department may also give notice to any other persons deemed appropriate.

761—12.4(17A) Action on petition.

12.4(1) A declaratory order or an order declining to issue a declaratory order shall be issued by the director.

12.4(2) The director shall not issue a declaratory order that would substantially prejudice the rights of a person who would be a necessary party and who does not consent in writing to the determination of the matter by a declaratory order proceeding.

12.4(3) The director may issue an order declining to issue a declaratory order on some or all of the questions raised in the petition for any of the following reasons:

- a.* The petition does not substantially comply with the required form.
- b.* The petition does not contain facts sufficient to demonstrate that the petitioner will be aggrieved or adversely affected by the failure of the department to issue a declaratory order.
- c.* The department does not have jurisdiction over the questions presented in the petition.
- d.* The questions presented in the petition are also presented in a current rule-making, contested case, or other agency or judicial proceeding that may definitively resolve them.
- e.* The questions presented in the petition would more properly be resolved in a different type of proceeding or by another body with jurisdiction over the matter.
- f.* The questions posed or facts presented in the petition are unclear, vague, incomplete, overbroad, insufficient, or otherwise inappropriate as a basis upon which to issue a declaratory order.
- g.* There is no need to issue a declaratory order because the questions raised in the petition have been settled due to a change in circumstances.
- h.* The petition is not based upon facts calculated to aid in the planning of future conduct but is, instead, based solely upon prior conduct in an effort to establish the effect of that conduct or to challenge a department decision already made.
- i.* The petition requests a declaratory order that would necessarily determine the legal rights, duties or responsibilities of other persons who have not joined in the petition or filed a similar petition and whose position on the questions presented may fairly be presumed to be adverse to that of the petitioner.
- j.* The petitioner requests the department to determine whether a statute is unconstitutional on its face.

12.4(4) If the director issues an order declining to issue a declaratory order, the order must indicate the specific grounds for declining to issue a declaratory order and constitutes final agency action on the petition.

761—12.5(17A) Effect of a declaratory order. A declaratory order has the same status and binding effect as a final order issued in a contested case proceeding. It is binding on the department and the petitioner and is applicable only in circumstances where the relevant facts and the law involved are indistinguishable from those on which the order was based. As to all other persons, a declaratory order serves only as precedent and is not binding on the department. The issuance of a declaratory order constitutes final agency action on the petition.

These rules are intended to implement Iowa Code sections 17A.9 and 17A.19.

CHAPTER 13
CONTESTED CASES

[Prior to 6/3/87, Transportation Department[820]—(01.B) Ch3]

761—13.1(17A) Definitions. The definitions in 761—Chapter 2 and in Iowa Code section 17A.2 are hereby adopted.

761—13.2(17A) Applicability.

13.2(1) This chapter of rules provides the minimum procedural requirements for department involvement in contested cases under Iowa Code chapter 17A.

13.2(2) Rules which apply to a particular type of contested case shall take precedence over this chapter of rules. If there are no other rules applicable to a particular type of contested case, it shall be conducted in accordance with this chapter of rules.

761—13.3(17A) Initiation of contested case.

13.3(1) The department may initiate a contested case proceeding to determine the legal rights, duties or privileges of a person as required by the constitution or a statute. Prior to initiating the contested case proceeding, the department, unless prohibited by statute, may attempt to settle the matter informally.

13.3(2) A person who is aggrieved by an action of the department and who is entitled to an evidentiary (contested case) hearing may:

- a. Unless prohibited by statute, request an informal settlement.
- b. Initiate a contested case by submitting a request for a contested case hearing.
- c. Use both procedures.

13.3(3) A person may also request that the department resolve a controversy in accordance with rule 761—13.20(17A).

761—13.4(17A) Submission of request for informal settlement or hearing.

13.4(1) A request to the department for an informal settlement or a request for a contested case hearing shall be submitted in writing to the director of the office or division of the department which administers the matter at issue.

13.4(2) The request shall include complete names, addresses and telephone numbers for all persons involved and any attorneys representing them. The request shall also specify the mailing address to be used for all communications from the department.

13.4(3) A statute or rule may provide for submission of requests within a specified time period. A request shall be considered timely submitted if it is postmarked or delivered to the appropriate office or division of the department within the time period specified. Timely submission of a request shall be jurisdictional.

761—13.5(17A) Informal settlement.

13.5(1) An informal settlement may be handled by telephone.

13.5(2) If an informal settlement cannot be reached within a reasonable period of time, the department shall notify the person in writing that there has been a failure to reach an informal settlement, that the department's action or decision is sustained, and that the person may request a contested case hearing.

761—13.6(17A) Contested case decision. After a contested case hearing, a written decision will be issued by the presiding officer.

761—13.7(17A) Appeal. A decision by a presiding officer shall become the final decision of the department and shall be binding on the department and the party whose legal rights, duties and privileges are being determined unless either appeals the decision as provided in this rule.

13.7(1) No additional evidence shall be presented on appeal which shall be decided on the basis of the record made before the presiding officer in the contested case hearing.

13.7(2) The appeal shall include a statement of the specific issues presented for review and the precise ruling or relief requested.

13.7(3) An appeal of a presiding officer's decision shall be submitted in writing to the director of the office or division which administers the matter being contested. The appeal shall be deemed timely submitted if it is delivered to the director of the appropriate office or division or properly addressed and postmarked within 20 days after the date of the presiding officer's decision.

13.7(4) The director of the administering office or division shall forward the appeal to the director of transportation.

13.7(5) Failure to timely appeal a presiding officer's decision shall be considered a failure to exhaust administrative remedies.

13.7(6) The director of transportation may make a decision affirming, modifying or reversing the presiding officer's decision, or may remand the case to the presiding officer.

13.7(7) The decision of the director of transportation shall be the final decision of the department and shall constitute final agency action for purposes of judicial review. No further steps are necessary to exhaust administrative remedies.

761—13.8(17A) Motion for review. The director of transportation may, on the director's own motion, review the presiding officer's decision. The motion for review is subject to the same time limits as an appeal from a presiding officer's decision. If there is a motion for review, subrules 13.7(6) and 13.7(7) apply.

761—13.9(17A) Rehearings. An application for rehearing of a final decision under Iowa Code section 17A.16 shall be filed with the director of transportation.

761—13.10(17A) Maintenance of records. The department shall retain for at least five years from the date of the final decision copies of the record made before the presiding officer, the decision received from the presiding officer, the decision issued by the director, and related correspondence.

[ARC 1846C, IAB 2/4/15, effective 3/11/15]

761—13.11(17A) Use of legal assistants or paralegals. The department may be represented by legal assistants or paralegals at contested case hearings.

These authorized legal assistants or paralegals shall be under the supervision of attorneys from the department's general counsel.

761—13.12(17A) Communications.

13.12(1) Each party to a contested case shall keep the department informed of the party's current address and telephone number, the name, address and telephone number of the party's attorney, if any, and the mailing address to be used for communications from the department.

13.12(2) Mailed notices, communications and decisions regarding the contested case shall be sent by first class or certified mail to the latest address which each party has provided to the department.

761—13.13(17A) Default.

13.13(1) If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no continuance is granted, either enter a default decision or proceed with the hearing and render a decision in the absence of the party.

13.13(2) Any party may move for default against a party who has requested the contested case proceeding and who has failed to appear after proper service.

13.13(3) A default decision or a decision rendered on the merits after a party has failed to appear or participate in a contested case proceeding becomes final agency action unless, within 20 days after the date of the decision, either a motion to vacate is filed and served on the presiding officer and the other parties or an appeal of a decision on the merits is timely submitted in accordance with rule 761—13.7(17A). A motion to vacate must state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate.

13.13(4) The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

13.13(5) Timely filed motions to vacate shall be granted only for good cause shown. The burden of proof is on the moving party. Adverse parties shall have ten days to respond to a motion to vacate.

13.13(6) “Good cause” for the purpose of this rule means surprise, excusable neglect or unavoidable casualty.

13.13(7) A decision denying a motion to vacate is subject to further appeal in accordance with rule 761—13.7(17A).

13.13(8) A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party in accordance with rule 761—13.7(17A).

13.13(9) If a motion to vacate is granted and no timely interlocutory appeal has been taken, the presiding officer shall issue another notice of hearing and the contested case shall proceed accordingly.

761—13.14 to 13.19 Reserved.

761—13.20(17A) Additional procedures when the department is not a party.

13.20(1) Jurisdiction. When the department is required by statute to administer a controversy to which it is not a party, the following additional procedures shall apply.

13.20(2) Request. A person who has an interest in a controversy and who is entitled to an evidentiary (contested case) hearing may submit a written request to the department to resolve the controversy.

a. The request shall state the facts alleged and the relief sought by the requester.

b. The request shall identify by name and address the persons involved and any attorneys representing them. The request shall also specify the requester’s telephone number and the mailing address to be used for all communications to the requester from the department.

13.20(3) Informal settlement.

a. The department shall contact the persons involved, either by telephone or letter, and shall offer to assist the parties to reach an informal settlement of the controversy.

b. A controversy may be settled informally by the persons involved at any time before the department initiates a contested case proceeding.

c. When a controversy is settled informally, the persons involved shall each notify the department by telephone and confirming letter that the controversy has been resolved.

13.20(4) Contested case.

a. When the department is notified by a person involved in the controversy that there has been a failure to reach an informal settlement, or when the department determines that no progress toward a settlement is being made, the department shall send a written notice to the persons involved.

b. The notice shall specify the following: If the department is not notified of a settlement within 20 days after the notice is mailed, the department shall initiate a contested case proceeding.

These rules are intended to implement Iowa Code chapter 17A and Iowa Code section 10A.801.

CHAPTERS 14 to 19

CHAPTER 20
PROCUREMENT OF EQUIPMENT, MATERIALS, SUPPLIES AND SERVICES

[Prior to 6/3/87, Transportation Department[820]—(01,B)Ch2]

761—20.1(307) Scope and applicability.

20.1(1) Scope. This chapter pertains only to the procurement of equipment, materials, supplies and services by the Iowa department of transportation with funds from the department's operating budget or from the materials and equipment revolving fund established in Iowa Code section 307.47 or other program funds authorized for department use.

20.1(2) Applicability. Rules 761—20.4(307) through 761—20.6(307) apply to professional and technical services procured using the general purchasing process where contracts are awarded competitively and cost is a factor. Rule 761—20.10(307) applies to professional and technical services contracts that are awarded based on qualifications when the cost is negotiated after the vendor is selected.

[ARC 4341C, IAB 3/13/19, effective 4/17/19]

761—20.2(307) Definitions. As used in this chapter, unless the context otherwise requires:

"Bidder" means a respondent to a solicitation as a bidder, offeror or contractor.

"Competition" means the efforts of three or more parties acting independently to secure a contract with the department to provide equipment, materials, supplies or services to the department by offering or being in a position to offer the most favorable terms. "Favorable terms" includes, but is not limited to: price, speed of execution, anticipated quality of the product to be provided judged according to the expertise and experience of the provider, or ability to produce a desired result or to provide a desired commodity.

"Department" means the Iowa department of transportation.

"Firm" means any bona fide contracting entity, including individuals and educational institutions. Except for educational institutions, the term shall not include governmental agencies or political subdivisions.

"Methods of procurement" means formal advertising, limited solicitation, or negotiation as follows:

1. *"Formal advertising"* means procurement by competition and awards involving the following basic steps:

- Preparing a solicitation that describes the requirements of the department clearly, accurately and completely but avoids unnecessarily restrictive specifications or requirements which might unduly limit the number of responses.
- Distributing the solicitation to prospective bidders and advertising in appropriate media in sufficient time to enable prospective bidders to prepare and submit responses before the time set for public opening of responses.
- Receiving responses submitted by prospective contractors.
- Awarding the contract, after responses are publicly opened, to that responsible bidder whose response conforms to the solicitation and is the most advantageous to the department, price and other factors considered.

2. *"Limited solicitation"* means procurement by obtaining a sufficient number of quotations, bids or proposals from qualified sources:

- As is deemed necessary to ensure that the procurement is fair to the department, price and other factors considered, including the administrative costs of the procurement.
- As is consistent with the nature and requirements of the particular procurement.
- So that the procurement is competitive to the maximum practicable extent.

3. *"Negotiation"* means any method of procurement other than formal advertising or limited solicitation to seek the best and final offer which is most advantageous to the department.

"Professional and technical services" means services that are unique, technical, or infrequent functions performed by independent contractors whose occupation is the rendering of such services. Contracts may go to partnerships, firms, or corporations as procured through formal advertising, solicitation or negotiation methods outlined in rules 761—20.3(307) through 761—20.6(307)

and architectural, landscape architectural, surveying, general engineering consultant, construction inspection, or engineering services and other related professional and technical services as outlined in rule 761—20.10(307).

“*Response*” means the submittal of written documents by a prospective bidder, offeror or contractor as a response to any type of solicitation issued by the department for a quotation, bid or proposal.

“*Solicitation*” means the request by the department for a quotation, bid or proposal. This includes but is not limited to the complete assembly of related documents (whether attached or incorporated by reference) furnished to prospective bidders for the purpose of responding to a solicitation.

[ARC 4341C, IAB 3/13/19, effective 4/17/19]

761—20.3(307) Procurement policy. It is the policy of the department to procure equipment, materials, supplies and services in the most efficient and economical manner possible. It is also the policy of the department that procurement shall be competitive to the maximum practicable extent.

20.3(1) Formal advertising. The formal advertising method of procurement shall be used whenever this method is feasible and practicable under the existing conditions and circumstances and the estimated, aggregate amount of the purchase equals or exceeds \$50,000.

20.3(2) Limited solicitation. The limited solicitation method of procurement may be used if formal advertising is not feasible or practicable, or the estimated, aggregate amount of purchase is less than \$50,000.

20.3(3) Negotiation. The negotiation method of procurement may be used if formal advertising or limited solicitation is not feasible or practicable, or in any of the following instances:

a. Procurement by negotiation is determined to be necessary and in the public interest during a period of man-made or natural disaster or emergency.

b. The estimated, aggregate amount of the purchase is less than \$5,000.

c. The procurement is for architectural, landscape architectural, engineering, or related professional and technical services.

d. The procurement is for other professional and technical services.

e. When cost is only one of many factors considered to determine the award.

f. The procurement is for services to be rendered by an educational institution.

g. It is impracticable to secure competition through formal advertising or limited solicitation, such as when:

(1) Equipment, materials, supplies or services can be obtained from only one source.

(2) Competition is precluded because of the existence of patent rights, copyrights, secret processes, control of basic raw materials, or similar circumstances.

(3) Solicitations have been made available to prospective bidders and no responses to the solicitation have been received.

(4) Solicitations have been made available and the submitted responses do not cover the quantity requirements of the solicitation. In this case, negotiation is permitted for the remaining quantity requirements.

(5) The procurement is for electrical power or energy, natural or manufactured gas, water or other utility services, or the procurement is for construction of a part of a utility system or railroad and it would not be practicable to allow a contractor other than the utility or railroad company to perform the work.

(6) The procurement is for professional and technical services in connection with the assembly, installation or servicing (or the instruction of personnel therein) of equipment of a highly technical or specialized nature.

(7) The procurement involves maintenance, repair, alteration or inspection, and the exact nature or amount of work to be done is not known.

(8) The procurement is for commercial transportation.

(9) It is impossible to draft adequate specifications or any other adequately detailed description of the item or services to be procured.

(10) The procurement is for a part or component being procured as a replacement in support of equipment specially designed by the manufacturer, and the data available is not adequate to ensure that

the part or component supplied by another manufacturer will perform the same function as the part or component it is to replace.

(11) The procurement involves construction where a contractor or group of contractors is already at work on the site, and either it would not be practicable to allow another contractor or an additional contractor to work on the same site or the amount of work involved is too small to interest other contractors to mobilize and demobilize.

h. The procurement is for experimental, developmental or research work or for the manufacture or furnishing of property for experimentation, development, research or testing.

i. It is determined that the responses received are not reasonable or have not been independently arrived at.

j. Procurement by negotiation is otherwise authorized by law including, but not limited to, Iowa Code section 73.19.

k. The manufacturer is willing to sell directly to the state at distributor cost.
[ARC 4341C, IAB 3/13/19, effective 4/17/19]

761—20.4(307) Formal advertising procedures and requirements.

20.4(1) Bidders list. The department's purchasing section shall maintain current bidders lists by commodity classification.

a. These lists are developed using available sources such as technical publications, telephone books, trade journals, commercial vendor registers, advertising literature, Internet resources and targeted small businesses certified by the Iowa economic development authority. Solicitations will be posted as required on the Iowa economic development authority's targeted small business website no later than 48 hours prior to the issuance of the solicitation.

b. Any firm legally doing business in Iowa may be placed on an appropriate bidders list or lists by submitting a written request to: DOT Director of Purchasing, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

c. Subject to concurrence of legal counsel, a bidder's name may be removed from a bidders list or lists for any of the following reasons:

- (1) When the bidder has failed to respond to three consecutive requests for proposals.
- (2) When the bidder has failed to meet the performance requirements of a previous procurement.
- (3) When the bidder has attempted to improperly influence the decision of any state employee involved in the procurement process.
- (4) When there are reasonable grounds to believe that there is a collusive effort by bidders to restrain competition by any means.
- (5) Where there is a determination by the civil rights commission that the bidder conducts discriminatory employment practices.

d. A bidder may appeal removal from a bidders list or lists by submitting the appeal in writing to the department at the address given in paragraph 20.4(1) "b."

20.4(2) Solicitation documents. The department shall prepare the solicitation documents complete with requirements, specifications and instructions, as applicable, to be sent (or publicly posted) for the purpose of procuring goods or services.

a. In special situations (e.g., the procurement of new model equipment), the solicitation may be marked "preliminary" and sent to prospective bidders requesting their review of the solicitation to determine their ability to respond and meet the requirements of the procurement request. The "preliminary" solicitation process involves the following steps:

- (1) A conference may be held to discuss the "preliminary" solicitation requirements with prospective bidders when the item in question is a new acquisition for the department.
- (2) Written requests for variations, deviations or approved equal substitutions to the solicitation shall be accepted, evaluated and answered by the department.
- (3) The solicitation requirements may be revised to incorporate approved changes.
- (4) A final solicitation shall be sent to prospective bidders that participated in the preliminary process.

b. The method to be used by the department in evaluating responses received shall be disclosed in the solicitation.

c. The solicitation shall be sent to a sufficient number of prospective bidders so as to promote adequate competition commensurate with the dollar value of the procurement.

(1) Generally, the solicitation shall be sent to all bidders listed on the appropriate bidders list for the item to be procured.

(2) However, where the number of names on a bidders list is considered excessive in relation to a specific procurement, the list may be reduced for that procurement by any method consistent with paragraph 20.4(2)“c.”

(3) The fact that less than an entire bidders list is used shall not in itself preclude the furnishing of the solicitation to others upon request, or the consideration of responses received from bidders who were not originally included in the bidders list.

d. The department shall publicize the procurement by advertising in appropriate media, providing the date and time set for public opening of submitted responses, a general description of the item to be procured, and the name and address of the person to contact to obtain a copy of the solicitation.

20.4(3) Response instructions. Each bidder shall prepare the response to the solicitation in the manner prescribed and furnish all information and samples requested in the solicitation. The following shall be adhered to by all bidders when preparing and submitting responses:

a. *Response preparation.* Responses shall be signed and prepared in ink or typewritten in the solicitation documents provided. Telephonic, email or facsimile responses shall not be considered. When available, bidders may respond electronically to a secure authorized system as instructed in the solicitation.

b. *Information to be provided by bidder.* In the space provided, the bidder shall denote brand name, manufacturer’s name, model number and any other required information to assist in identifying each item the bidder proposes to supply.

c. *New merchandise.* Unless otherwise specified, all items offered shall be new, of the latest model or manufacture, and shall be at least equal in quality to that specified.

d. *Response price.* Where requested, the unit and total price for each separate item, and the total price for all items, shall be provided in the bidder’s response. Alternate prices for approved substitutions may be submitted by attaching a response marked as an alternate to the original response. In case of error, the unit price shall prevail. If unit price is not requested in the solicitation, the total price per item shall prevail.

e. *Discounts.* Bidders shall quote net discount price. No other discounts shall be considered in making the award.

f. *Time of acceptance.* The bidder shall hold the offered prices open for action by the department at least 30 days past the time set for public opening of submitted responses.

g. *Escalator clauses.* Unless specifically provided for in the solicitation, a response containing an escalator clause shall not be considered.

h. *Federal and state taxes.* Except for specific items that will be noted in the solicitation, the department is exempt from payment of federal and state taxes. These taxes shall not be included in the bidder’s response. Exemption certificates shall be furnished to bidders upon request.

i. *Delivery dates.* In the space provided, the bidder shall show the earliest date on which delivery can be made. When the solicitation shows the acceptable delivery date for an item, the proposed delivery date may be used as a factor in determining the successful bidder.

j. *Ties and reservations.* No ties or reservations by the bidder are permitted. Any tie or reservation stipulated by the bidder shall be sufficient grounds to reject the submitted response.

k. *Changes and additions.* No changes in or additions to the solicitation shall be permitted unless a written request for a change or an addition is submitted to the department’s purchasing section in sufficient time to allow an appropriate analysis and response to all bidders, and the change or addition is approved by the purchasing section. The purchasing section shall notify all bidders of approved changes or additions by means of addenda.

Any unauthorized change in or addition to the solicitation shall be sufficient grounds to reject the submitted response.

l. Response submission. All responses shall be submitted in sufficient time to reach the department's purchasing section prior to the time set for public opening of submitted responses. Any response received after the time set for public opening of submitted responses shall be returned to the bidder unopened. Responses received shall be dated and time-stamped by the purchasing section showing the date and hour received. By submitting a response, the bidder:

(1) Agrees that the contents of the response will become part of the contract if the bidder receives the award.

(2) Shall be assumed to have become familiar with the contents and requirements of the solicitation.

m. Proposal guaranty. A proposal guaranty may be required as security that the bidder will execute the contract if awarded. If required, each response shall be supported by a proposal guaranty in the form and amount prescribed in the solicitation. Responses not so supported shall not be read.

n. Withdrawal of responses prior to opening. Responses may be withdrawn prior to the time set forth in the solicitation. Prior to opening, a bidder who withdraws the response to a solicitation may submit a new response if desired.

o. Modification or withdrawal of responses after opening. After opening, no response may be modified. A response may be withdrawn after opening only if:

(1) The bidder submits, at least three days prior to award, a sworn statement asserting that the response contains a substantial inadvertent error and that the bidder would suffer a serious financial loss if required to perform under the response, and

(2) The purchasing director approves the withdrawal. The purchasing director may base the decision to approve or deny the withdrawal on any factors the purchasing director deems relevant, including but not limited to the best interests of the agency, possible prejudice to other bidders or the bidding process, and the extent of financial hardship on the bidder if withdrawal is not allowed.

20.4(4) Public opening of responses. Responses shall be opened publicly and read aloud at the time stipulated in the solicitation.

20.4(5) Consideration of responses. The department reserves the right to accept or reject any or all responses. Individual responses may be rejected for any of the following reasons:

a. Noncompliance with the requirements of this rule or of the solicitation.

b. Financial insolvency of the bidder.

c. Evidence of unfair bidding practices.

d. For any other reason stated in this rule.

20.4(6) Recommendation of award.

a. Time frame. Unless otherwise specified by the department in the solicitation, an award shall be made within 30 days after the date and time set for public opening of submitted responses if it is in the best interest of the state. If an award is not made within the applicable time frame, the procurement shall be canceled unless an extension of time is mutually agreed to by the department and the apparent successful bidder.

b. Tied responses. Responses which are equal in all respects and are tied in price shall be resolved among the tied bidders by giving first preference to an Iowa bidder and second preference to the bidder who satisfactorily performed a contract the previous year for the same item at the same location. If the tie involves bidders with equal standing, the award shall be determined by lot among these bidders. A tied bidder or the bidder's representative may witness the determination by lot.

c. Tabulation of responses. A tabulation of responses with an award recommendation shall be sent to all interested parties including bidders at least ten days prior to award.

d. Protests. Any protest of the recommended award shall be submitted in writing to: Director of Purchasing, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010. A written protest must be received by the director of purchasing within seven days after the recommended award has been posted. The protest shall be considered by the authority making the award. This is not a contested case as defined in Iowa Code section 17A.2.

e. Return of proposal guaranty. Unsuccessful bidders' proposal guaranties shall be promptly returned by the department after award is made. The proposed guaranty of the successful bidder shall be returned in accordance with subrule 20.4(7).

20.4(7) Contract execution and performance.

a. Execution. The successful bidder shall enter into (execute) a formal contract with the department within 14 days after award.

b. Performance bond and certificate of insurance. A performance bond or certificate of liability and property damage insurance, or both, may be required for those contracts involving services or specially constructed equipment. If required, the performance bond and certificate of insurance shall be filed with the department within 14 days after award.

c. Return of awarded bidder's proposal guaranty. The proposal guaranty of the successful bidder shall be returned following execution of the contract. However, if the successful bidder fails to execute the contract and file an acceptable performance bond and certificate of insurance (if they are required) within 14 days after award, or fails to comply with Iowa Code chapter 490, the award may be annulled and the proposal guaranty forfeited.

d. Assignment of contract. The contractor may not assign the contract to another party without written authorization from the department's purchasing section.

e. Strikes, lockouts or acts of God. If the contractor's business or source of supply has been disrupted by a strike, lockout or act of God, the contractor shall promptly advise the department's purchasing section. The department may elect to cancel the contract without penalty to either the contractor or to the department.

f. Payment. Unless otherwise stated in the contract, payment terms shall be net following the department's receipt and acceptance of the item(s) procured and receipt of an original invoice.

g. Liquidated damages. The contract terms may provide for liquidated damages to be assessed if the contractor fails to complete the contract within the contract period or for any other reason as specified in the contract.

20.4(8) Additional requirements.

a. The department's standard specifications for highway and bridge construction, as available on the department's website at www.iowadot.gov, where applicable and not in conflict with this rule or with the requirements of a particular procurement, shall apply to formal advertising procurement activities.

b. If there are federal funds involved in a particular procurement, and the federal procurement regulations conflict with this rule, then the federal procurement regulations shall apply.

c. Procurement of motor vehicles shall be in accordance with Iowa Code section 8A.311(20).
[ARC 4341C, IAB 3/13/19, effective 4/17/19]

761—20.5(307) Limited solicitation procedures and requirements.

20.5(1) Bidders lists. The department shall use its current bidders lists (see subrule 20.4(1)) to the extent feasible and practicable. However, the solicitation will also be offered to any qualified bidder that has requested an opportunity to participate.

20.5(2) Form of solicitation. The solicitation shall be as detailed and complete as practicable for the time and resources available.

20.5(3) Form of response. Responses shall be submitted in writing or electronically when practicable. Written responses will prevail over oral responses in case of discrepancies, disputes or errors. Following is the order of preference:

1. Original, signed submitted response.
2. Electronically submitted response (facsimile, email, Internet).
3. Oral response (e.g., telephonic).

20.5(4) Award. The award shall be offered to that responsible bidder whose response meets the requirements of the solicitation and is the most advantageous to the department. An Iowa bidder will be given preference over an out-of-state bidder when responses are equal in all respects and are tied in price.

[ARC 4341C, IAB 3/13/19, effective 4/17/19]

761—20.6(307) Professional and technical services. This rule applies to professional and technical services procured through the purchasing section using formal advertising, solicitation or negotiation methods outlined in rules 761—20.3(307) to 761—20.6(307). Professional and technical services procured based on qualifications are covered by rule 761—20.10(307).

20.6(1) Request for proposal (RFP). A solicitation prepared by the department shall include at least the minimum requirements for the type of goods or services sought. The solicitation is sent to prospective offerors and is publicly posted on the department's website.

20.6(2) Evaluation committee. A committee is established for the purpose of reviewing and evaluating proposed responses based on a set of criteria as outlined in the RFP. "Evaluation criteria" will define categories with assigned weighted values to be used as a scoring measure to determine the best overall solution for the department based on technical expertise and price, including but not limited to:

- a. Overall content of written submitted proposal information.
- b. Business knowledge.
- c. Work experience in required skills sets.
- d. Presentation or demonstration.
- e. Cost.

20.6(3) Award. The award shall be offered to a firm whose properly submitted compliant response best meets the requirements of the solicitation and receives the highest overall score of the weighted criteria.

[ARC 4341C, IAB 3/13/19, effective 4/17/19]

761—20.7(307) Sole source or emergency selection. Sole source or emergency selection applies to all services, including professional and technical services. The department shall fully document and include in the contract file the justification for use of sole source or emergency selection and the basis on which a particular firm is selected.

20.7(1) Sole source selection. The department may select a single firm which meets the requirements of the required work categories to perform the work with which to negotiate when one of the following conditions exists:

a. Only a single firm is determined qualified or eligible to perform the contemplated services or is eminently more likely to most satisfactorily complete the work than another firm.

b. The services involve work that is of such a specialized character or nature, or related to a specific geographical location, that only a single firm, by virtue of experience, expertise, proximity to or familiarity with the project or ownership of intellectual property rights, could most satisfactorily complete the work.

20.7(2) Emergency selection. The department may select a single firm which meets the requirements of the required work categories to perform the work when there is an emergency that will not permit the time necessary to use normal selection procedures. An emergency includes, but is not limited to, one of the following:

- a. A condition that threatens the public health, welfare or safety.
- b. A need to protect the health, welfare or safety of persons occupying or visiting a public improvement or property located adjacent to the public improvement.
- c. A situation in which the department must act to preserve critical services or programs.

[ARC 4341C, IAB 3/13/19, effective 4/17/19]

761—20.8(307) Conflicts with federal requirements. If any provision of this chapter would cause a denial of federal funds or services or would otherwise be inconsistent with federal law, federal law shall be adhered to, but only to the extent necessary to prevent denial of the federal funds or services or to eliminate the inconsistency with federal law.

[ARC 4341C, IAB 3/13/19, effective 4/17/19]

761—20.9 Reserved.

761—20.10(307) Negotiation—architectural, landscape architectural, engineering and related professional and technical services. This rule prescribes procedures for the procurement of architectural, landscape architectural, surveying, general engineering consultant, construction inspection, engineering and related professional and technical services by negotiation where selection is based on qualifications in compliance with 23 CFR Part 172. Contract costs are negotiated after a qualification-based selection.

20.10(1) Registration of firms providing professional and technical services.

a. A firm wishing to provide professional and technical services to the department as a consultant may register to receive information through the GovDelivery portal available at the department's website at www.iowadot.gov. The firm is responsible for keeping the firm's information updated. For information, persons may contact the consultant coordinator at the Office of Project Management, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010, or by telephone at (515)239-1803.

b. The department shall maintain a list of work categories, descriptions and requirements for each work category online.

20.10(2) and 20.10(3) Reserved.

20.10(4) Request for professional and technical services. Prior to selecting a firm with which to initiate negotiations under this rule, the department shall document the need for outside services, a description of the needed services, the time frame within which the work must be performed, and the method of selection to be used. One of the following methods shall be used to select a firm with which to initiate negotiations:

a. Complete process. See subrule 20.10(5).

b. Small contract process. See subrule 20.10(6).

c. Sole source or emergency selection. See rule 761—20.7(307).

20.10(5) Complete process. The complete process method will use the following process and will be used unless another selection method is justified.

a. Request for proposal (RFP). The department shall prepare an RFP which will include the scope of the work, duration of the contract, list of applicable work categories, evaluation criteria (excluding cost), any established disadvantaged business enterprise or targeted small business goal for the proposed work, type of contract anticipated, submission details including the point of contact for the RFP for any questions, the time by which the RFP should be received by the department and anticipated date of selection. The RFP will not require any cost information to be submitted by the proposing firms.

b. Website.

(1) The RFP will be posted on the Iowa department of administrative services' website no later than 48 hours prior to the issuance of the RFP.

(2) The RFP will be posted on the department's website. The notification of the RFP being posted will be sent to all users who have signed up to receive the notification via GovDelivery. The notification will include the link to the website where the RFP is posted. See subrule 20.10(1).

(3) The department will post any questions received on the RFP and answers thereto on the website indicated in the GovDelivery notification.

c. Selection committee. The department shall appoint a selection committee to become familiar with the RFP, review the firms that have responded to the RFP to determine if they meet the requirements of the work to be performed, and evaluate the firms that meet the qualifications per the evaluation criteria. The selection committee will, if necessary, interview the firms, score the firms, document the committee's decision and provide the scoring to the consultant steering committee.

d. Evaluation criteria. The selection committee is responsible for establishing criteria for evaluating each firm submitting a proposal, assigning weighted values to the criteria, and rating each firm on each criterion. Evaluation criteria are tailored to the needed services. Typical evaluation criteria are listed below. The list is intended as a guideline only; it is not exhaustive, nor is each criterion mandatory.

- (1) Staffing expertise consistent with special project needs.
- (2) Past experience with similar types of work.
- (3) Current workload and commitment of key personnel.

(4) Specific qualifications of key staff who will be forming the firm's project team.

(5) Resources the firm has available and proposes to use on the project, including the firm's use of equipment and automated technology and the firm's compatibility with equipment and technology used by the department.

(6) Identification of proposed subconsultants and the work the subconsultants will perform.

e. Consultant steering committee. A consultant steering committee is responsible for reviewing the firms as scored by the selection committee, determining the order of preference for negotiations, and documenting its decision. The number of firms selected shall include at least two alternate firms. The committee shall document its reasoning when the number of selected firms is less than the minimum requirement. The consultant steering committee shall consider not only the selection committee's scoring but other factors such as:

(1) A firm's ability to complete required tasks in the time allotted, taking into account other work currently under contract.

(2) The volume of work a firm has with the department, both existing and potential.

(3) The department's goal of having a breadth of experienced firms capable of providing quality services to the department.

(4) Other items unique to the particular contract.

f. Completion of selection process. After selection committee and consultant steering committee activities are complete, the department shall determine whether negotiations may begin. If negotiations are approved, the department shall proceed to negotiate with the firm that is first in order of preference.

g. Notification to firms. The department shall post the results of the selection on the website identified in the GovDelivery notification. For firms not included on the ranked list of firms, the department shall also provide a matrix showing the high, low and average scores for each item evaluated and that firm's score for each item.

20.10(6) Small contract process. The small contract process may be used to identify a single firm with which to negotiate when the estimated work under the contract can normally be completed within a 12-month period and the estimated cost of the contract will not exceed \$150,000.

a. Selection committee. The department shall appoint a selection committee to identify at least three firms that meet the requirements of the work categories involved in performing the work; document the names of the firms considered, if necessary; interview the firms; select a firm with which to initiate negotiations; and document the committee's decision.

b. Completion of selection process. After selection committee activities are complete, the department shall determine whether negotiations may begin. If negotiations are approved, the department shall proceed to negotiate with the selected firm.

20.10(7) Selection dispute resolution. Any dispute of the recommended selection shall be submitted in writing to the consultant coordinator. A written notice of the dispute with supporting evidence must be received by the consultant coordinator within 15 calendar days from the date the selection is posted on the department's website. This is not a contested case as defined in Iowa Code section 17A.2. The department will inform the selected firm(s) of the dispute and inform the firm(s) that the department reserves the right to proceed with negotiations with the selected firm(s) pending resolution of the dispute or claim.

20.10(8) Negotiation of contract. The purpose of negotiations is to develop a contract that is mutually satisfactory to the department and the selected firm.

a. The firm must submit a detailed cost proposal, including a detailed cost proposal for each proposed subcontract. The department shall prepare an independent estimate of the cost of the proposed services, including a detailed estimate of the firm's staff hours needed to complete the contract. Significant differences shall be evaluated and resolved to the satisfaction of both parties. If it is impractical to make an independent estimate, the department shall evaluate the acceptability of the firm's cost proposal on the basis of the reasonableness of the individual elements of the price proposed.

b. The department may perform a preaudit. A preaudit typically includes:

(1) An analysis of the firm's cost proposal and financial records for the method of accounting in place to ensure that the firm has the ability to adequately segregate and accumulate reasonable and allowable costs to be charged against the contract.

(2) An analysis of the firm's proposed direct costing rates and indirect overhead factors to ensure the firm's propriety and allowability.

c. For contracts with federal funding, the department shall verify federal suspension and debarment actions and eligibility status of firms prior to entering into an agreement or contract.

20.10(9) *Unsuccessful negotiations.* If a mutually satisfactory contract cannot be negotiated, the department shall formally terminate the negotiations and notify the firm in writing. Termination of negotiations is without prejudice and at the department's discretion. The substance of terminated negotiations is confidential.

The department shall then initiate negotiations with the firm given next preference, and this procedure may be continued until a mutually satisfactory contract has been negotiated. If a satisfactory contract cannot be negotiated with any of the selected firms, the department shall either:

a. Direct the selection committee to select one or more firms with which to continue negotiations, or

b. Redefine the scope of the project or work and start over. See subrule 20.10(4). Once negotiations are terminated, negotiations cannot be reopened with the same firm.

20.10(10) *Evaluation of performance .*

a. The department shall evaluate all firms under this rule annually based on the contracts that were active during the fiscal year. Both the firm's performance and quality of the final product shall be evaluated. The evaluation shall consider:

(1) The quality and adequacy of work performed.

(2) The ability to meet established schedules and budgets.

(3) General administration of the contract, including substantiation of cost billings, payments to subconsultants, and documentation of claims.

(4) Cooperation shown by the firm in responding to requests for information and in revising procedures and products according to directions.

(5) Coordination exhibited by the firm in communicating with the department, subconsultants, agencies and others to accomplish tasks and resolve problems.

(6) Ingenuity displayed in solving unique and unusual design problems encountered during performance of contract objectives.

(7) The ability to obtain an acceptable end product with appropriate department staff guidance.

b. The firm shall be given an opportunity to review, comment on and sign the evaluation.

761—27.1(573) Interest on retained funds.

27.1(1) Scope. This rule implements Iowa Code section 573.12, regarding payment to a contractor of interest earned on retained funds. This rule does not address payment of interest under Iowa Code section 573.14.

A retention release voucher releases the retained funds and the interest accrued on those funds less assessed liquidated damages, twice the amount of claims on file, and the amount of possible overpayments or adjustments to contract items and change orders. A retention release voucher may be paid at any time after 30 days have expired following completion and final acceptance of the project, if the contractor has submitted the required documentation.

CHAPTER 101
FARM-TO-MARKET REVIEW BOARD

761—101.1(306) Purpose. The purpose of these procedural rules is to formalize the process by which the farm-to-market review board, created by Iowa Code section 306.6, will administer its duties.

101.1(1) Iowa Code section 306.6 requires the farm-to-market review board to make final administrative decisions based on sound farm-to-market road system designation principles for all modifications relative to the farm-to-market road system.

101.1(2) Iowa Code section 306.6A requires the farm-to-market review board to adopt procedural rules for modifications to the existing farm-to-market road system and designation of farm-to-market routes on new alignment. These rules implement this requirement.

101.1(3) Iowa Code section 306.5 states that the farm-to-market road system shall be a continuous, interconnected system and that provision shall be made for continuity by the designation of extensions within municipalities, state parks, state institutions, other state lands, and county parks and conservation areas.

761—101.2(306) Definitions.

“Area service roads” or *“local roads”* or *“local road system”* means those secondary roads that are not a part of the farm-to-market road system.

“Board” means the farm-to-market review board.

“Executive board” means the Iowa county engineers association executive board.

The mileage of these extensions of the system shall be included in the total mileage of the farm-to-market road system.

“Farm-to-market roads” or *“farm-to-market road system”* means those county jurisdiction intracounty and intercounty roads which serve principal traffic generating areas and connect such areas to other farm-to-market roads and primary roads. The farm-to-market road system includes those county jurisdiction roads providing service for short-distance intracounty and intercounty traffic or providing connections between farm-to-market and area service roads, and includes those secondary roads which are federal aid eligible. The farm-to-market road system shall not exceed 35,000 miles.

“President” means the president of the Iowa county engineers association.

761—101.3(306) Composition and membership of the farm-to-market review board.

101.3(1) The farm-to-market review board shall be composed of 12 county engineers selected by the Iowa county engineers association. Two members shall be selected from each district to serve staggered terms. After the first complete term rotation as shown below, the members shall serve six-year terms. Rotations shall be staggered so that no more than one-sixth of the membership is rotated off the board in any one year. The rotation of board members shall further provide that two members from one district will not be rotated off the board in the same year, and that their rotations will be varied by three years. Board rotation shall be as follows and shall be extended in future years in the same pattern:

Year	Rotation	
2015	District 1 Representative A	District 4 Representative A
2016	District 2 Representative A	District 5 Representative A
2017	District 3 Representative A	District 6 Representative A
2018	District 1 Representative B	District 4 Representative B
2019	District 2 Representative B	District 5 Representative B
2020	District 3 Representative B	District 6 Representative B

101.3(2) Members shall be nominated by their districts and approved by the executive board. A county engineer may serve multiple, consecutive terms if so nominated by the county engineer’s district.

If a county engineer is unable to complete a term for any reason, the president shall select another county engineer within the district to serve the balance of the term.

101.3(3) The farm-to-market review board shall select from its membership a chair and a vice-chair to serve one-year terms. The chair serves at the pleasure of the board and may be elected to multiple terms as deemed appropriate by the board. The vice-chair shall preside at a meeting in the absence of the chair.

[ARC 2392C, IAB 2/3/16, effective 3/9/16]

761—101.4(306) Collection of system modification requests and frequency of meetings.

101.4(1) The department of transportation will collect applications for modifications to the farm-to-market road system. The board chair shall schedule meetings of the board. In general, the farm-to-market review board shall meet in conjunction with statewide meetings of the Iowa state association of counties and Iowa county engineers association to review accumulated applications for farm-to-market road system modifications. Applications must be filed no less than 30 days prior to each scheduled board meeting. Additional board meetings shall be called as determined by the chair.

101.4(2) The farm-to-market review board is required to follow the provisions of Iowa Code chapter 21 with regard to open meetings. The chair shall post a meeting agenda on the Iowa County Engineers Association Service Bureau Web site and send copies of the agenda to all counties.

101.4(3) Minutes of each meeting shall be kept; the chair shall be responsible for the minutes. Meetings may be recorded to facilitate the preparation of meeting minutes, but any recordings made shall not be retained after the minutes have been completed.

[ARC 2392C, IAB 2/3/16, effective 3/9/16]

761—101.5(306) Procedure for requesting modifications to the farm-to-market road system. To apply for a modification to the farm-to-market road system, a county must file an application through the department of transportation.

101.5(1) The application must include the following:

a. A copy of a resolution of the county board of supervisors requesting the modification to the existing farm-to-market road system. Farm-to-market modifications may include proposed roads, redesignation of area service roads, or transfers of jurisdiction.

b. A report of the county engineer explaining and justifying the addition of new mileage to the farm-to-market road system or the change in the route or farm-to-market classification proposed by the county.

101.5(2) In the case of intercounty routes, joint applications may be filed. Resolutions shall be required of each county.

761—101.6(306) Review criteria for determining eligibility for inclusion of additional roads into the farm-to-market road system.

101.6(1) The farm-to-market review board shall make final administrative determinations based on sound farm-to-market road system designation principles for all modifications relative to the farm-to-market road system.

101.6(2) The board shall consider the following factors in making decisions to modify the farm-to-market road system:

- a.* Intracounty and intercounty continuity of systems.
- b.* Properly integrated systems.
- c.* Existing and potential traffic.
- d.* Land use.
- e.* Location of the route.
- f.* Equitable distribution of farm-to-market mileage.

761—101.7(306) Voting and approval of requested modifications. Each member is a voting member and is eligible to vote at every meeting at which that member is in attendance. Attendance may include

members being present at the meeting through a conference telephone call, Iowa communications network connection, or other electronic means deemed appropriate by the chair.

101.7(1) *Determination of a quorum.* A minimum of eight board members is required for a quorum. If a quorum is not present at a meeting, the meeting shall be rescheduled.

101.7(2) *Number of votes needed to approve or deny a modification.* For a requested modification to the farm-to-market road system to be approved, it must receive a minimum of seven affirmative votes; in other words, a majority of the entire board. A motion to deny a requested modification need only receive six votes for the denial to be approved.

761—101.8(306) Report of board decision to applicant county. Within 30 calendar days after a board meeting, the chair shall send a letter to each county whose request was acted upon by the board at the meeting. The letter shall apprise each applicant of the decision of the farm-to-market review board, briefly explain the reasons for the board's decision, and explain the reapplication and judicial review processes.

761—101.9(306) Reapplication for modification. A county may reapply for a modification to the farm-to-market road system if its initial request is denied. The county must again follow all provisions for requesting a modification and should be prepared to present additional information in support of the requested change. Any requested system modification that receives two denials may not be resubmitted for consideration for a minimum of three years.

761—101.10(306) Judicial review. Any county that is aggrieved or adversely affected by a decision of the farm-to-market review board may seek judicial review of such agency action under the provisions of Iowa Code section 17A.19.

761—101.11(306) Adoption and modification of rules. The chair shall direct the board to review these rules annually. Board members may recommend changes to these rules.

761—101.12(306) Severability clause. If any section, provision, or part of these rules is adjudged invalid or unconstitutional, such adjudication shall not affect the validity of these rules as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

These rules are intended to implement Iowa Code sections 306.6 and 306.6A.

SECONDARY ROAD FUND DISTRIBUTION COMMITTEE

761—102.1(312) Purpose. The purpose of these rules is to adopt the formulas to be used for distribution of moneys in the secondary road fund and the farm-to-market road fund and to formalize the process by which the secondary road fund distribution committee will administer its duties.

102.1(1) Iowa Code section 312.3C creates a secondary road fund distribution committee and requires the committee to be comprised of representatives appointed by the president of the Iowa County Engineers Association, the president of the Iowa State Association of County Supervisors, and the department of transportation.

102.1(2) Iowa Code section 312.3C requires the secondary road fund distribution committee to:

a. Determine the methodology to be used for distribution of moneys in the secondary road fund and the farm-to-market road fund.

b. Adopt rules to govern the determination and modification of the methodology to be used for distribution of moneys in the secondary road fund and the farm-to-market road fund.

102.1(3) Iowa Code section 312.3B requires the Iowa County Engineers Association Service Bureau to annually compute secondary road fund and farm-to-market road fund distributions using the methodology determined by the secondary road fund distribution committee.

1. Funding levels to counties should be relatively stable, with only small changes occurring from year to year.

2. The formula should be able to factor in changes in population, mileages, the centerline lineal feet of bridges, and traffic levels as they occur over time, without needing to be revised.

761—102.11(312) Process for approval of a new or modified distribution formula.

102.11(4) If the official report recommends adoption of a new or modified distribution formula, the chair shall communicate the details of the committee's recommendations to all county engineers, all county supervisors and the department of transportation in such a manner as the committee deems appropriate. This communication shall solicit comments on the committee's recommendations.

102.11(5) After receipt and consideration of comments from counties, the committee may adopt a resolution that formally proposes a distribution formula and places it into official consideration.

102.11(6) The chair shall forward the resolution to the executive boards of both the Iowa County Engineers Association and the Iowa State Association of County Supervisors, with a request for endorsement of the proposed distribution formula.

102.11(7) If both executive boards endorse the proposed distribution formula, the chair shall request each individual county to consider and adopt a resolution in favor of or in opposition to the proposed distribution formula.

102.11(8) If at least 66 counties adopt resolutions in favor of the proposed distribution formula, the distribution formula is adopted without further committee action.

102.11(9) The chair shall notify the following organizations and groups when the distribution formula has been adopted:

761—102.13(312) Severability clause. If any section, provision, or part of these rules is adjudged invalid or unconstitutional, such adjudication shall not affect the validity of these rules as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

These rules are intended to implement Iowa Code sections 312.2, 312.3, 312.3B, 312.3C and 312.5.

[ARC 3561C, IAB 1/3/18, effective 2/7/18]

761—105.2(307) General.

105.2(1) *Holiday rest stop.* A holiday rest stop is a location where a nonprofit organization or group serves free refreshments to motorists during holiday periods to provide a break from driving monotony, promote safer driving, and reduce the potential for highway accidents.

105.2(2) *Free refreshments.* Free refreshments means water, coffee, cookies, any nonintoxicating, noncarbonated beverage which is not already bottled or canned, doughnuts, or baked dessert goods.

105.2(3) *Holiday periods.* Holiday periods shall be limited to:

a. Memorial Day weekend and Labor Day weekend, starting at noon on the preceding Friday and ending at midnight between Monday and Tuesday of the holiday weekend.

b. The period surrounding Independence Day, starting at noon on July 1 and ending at midnight between July 6 and July 7.

105.2(4) *Information.* General information regarding holiday rest stops is available from the Office of Maintenance, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010, or the department's website at www.iowadot.gov.

[ARC 3561C, IAB 1/3/18, effective 2/7/18]

761—105.3(307,314) Conditions. The sponsor of a holiday rest stop shall comply with the following general conditions:

105.3(1) The sponsor shall not request or accept payment for the refreshments served. The sponsor may accept voluntary donations using containers clearly labeled with a sign stating "donations." If donation containers are used, the sponsor shall place signs within the immediate area of the operation at locations designated by the department stating "free refreshments."

105.3(2) The sponsor shall not distribute any literature or other promotional material.

105.3(3) Rescinded IAB 4/3/02, effective 5/8/02.

105.3(4) The sponsor shall clean up the area and remove all signs it has erected promptly after the holiday rest stop is discontinued.

105.3(5) Parking shall not be permitted on the highway shoulders.

105.3(6) The sponsor shall agree to save the department of transportation and the state of Iowa harmless from any liability that may result from the directing of traffic to the holiday rest stop area, and as a result of changes of traffic patterns caused by the activities of the sponsor in or about the holiday rest stop area, and all other liability related to the operation of the special holiday rest stop and the refreshments provided.

[ARC 3561C, IAB 1/3/18, effective 2/7/18]

761—105.4(307,314) Holiday rest stops on interstate highways.

105.4(1) *Site.* A holiday rest stop along an interstate highway shall be located in an established interstate rest area. The department shall designate an appropriate spot within the rest area for the holiday rest stop. The sponsor shall not use the rest area restroom building or welcome center buildings for the purposes of the holiday rest stop. The sponsor may use the information kiosk where available. A tent or canopy may be used in areas without a kiosk during inclement weather. Running water is available at each rest area. The department will provide electricity if requested.

105.4(2) *Signs.*

a. The sponsor shall not place any signs directing highway traffic to the holiday rest stop. The sponsor shall not place any signs for the holiday rest stop along the interstate highway or interchange

ramps. The department shall place signs stating “free refreshments” adjacent to the interstate highway and shall remove these signs when the holiday rest stop is discontinued.

b. The sponsor is responsible for any signs posted at the actual holiday rest stop site. Signs provided or placed by the sponsor shall not include any advertising but may include the sponsor’s name. Signs shall not be mounted on objects (including vehicles) that contain the name of any organization or individual except the sponsor. The sponsor shall remove all signs it has erected promptly after the holiday rest stop is discontinued.

105.4(3) Request. A request to sponsor a holiday rest stop in an interstate rest area shall be made on Form 810023. This form is available from the department’s district offices, the office of maintenance or the department’s website.

a. The site shall be large enough to provide parking space for at least 15 vehicles and located so that all parked vehicles will be at least 50 feet from the edge of the traveled way of the primary highway.

b. An access drive from the primary highway shoulder to the parking area shall have a top width of at least 20 feet and shall provide a clear view of the primary highway for at least 900 feet in each direction.

105.5(2) Signs.

a. The sponsor shall not place any signs directing highway traffic to the holiday rest stop. The sponsor shall provide two signs approximately 4 feet by 4 feet announcing the holiday rest stop, one for each highway approach to the site. These signs will be installed by the department, not the sponsor. The department shall remove these signs when the holiday rest stop is discontinued.

b. The sponsor is responsible for any signs posted at the actual holiday rest stop site. Signs provided or placed by the sponsor shall not include any advertising but may include the sponsor’s name. Signs shall not be mounted on objects (including vehicles) that contain the name of any organization or individual except the sponsor. The sponsor shall remove all signs it has erected promptly after the holiday rest stop is discontinued.

CHAPTER 111
REAL PROPERTY ACQUISITION AND RELOCATION ASSISTANCE

[Prior to 6/3/87, see Transportation Department[820]—(06,F) Ch 8]

761—111.1(316) Acquisition and relocation assistance manual. The September 2017 edition of Section II of the manual entitled “Uniform Manual, Real Property Acquisition and Relocation Assistance” is adopted by reference.

111.1(1) Contents. Section II establishes uniform rules and procedures that comply with Iowa law and the Federal Uniform Relocation Act for the acquisition of real property and for the provision of relocation assistance to persons who are displaced from real property as a result of programs and projects.

Relocation assistance is not compensation for real property acquired nor is it compensation for damages to remaining property. Rather, relocation assistance is assistance and compensation provided to a displaced person for making the move and relocating.

111.1(2) Applicability.

a. In general, Section II applies to any program or project that involves the acquisition of real property or that causes a person to be a displaced person if the program or project:

- (1) Is undertaken with federal financial assistance, or
- (2) Is a road or street program or project undertaken with state financial assistance from the primary road fund, including primary road funds allocated for state park and institutional roads, or
- (3) Is a public road or highway eligible for federal aid.

b. In general, Section II applies to any of the following entities that acquire real property or displace a person for a program or project described in paragraph “a”:

- (1) The state of Iowa.
- (2) A political subdivision of the state.
- (3) A department, agency or instrumentality of one or more states or political subdivisions.
- (4) A utility or railroad subject to Iowa Code section 327C.2 or chapter 476, 478, 479, 479A or 479B authorized by law to acquire property by eminent domain.
- (5) Any other person who has the authority to acquire property by eminent domain under state law.
- (6) Any other person who acquires real property or displaces a person for a program or project described in paragraph “a.”

c. Any exceptions to paragraphs “a” and “b” are set out in Section II.

d. In accordance with Iowa Code subsection 316.9(3), an entity that provides relocation assistance benefits for any program or project is required to provide an appeal process, regardless of the source of funding for the program or project. The appeal process provided shall not diminish the rights of the appellant or the scope of the appeal as described in Section II.

111.1(3) Availability of manual. Copies of the manual or portions thereof are available from the Office of Right of Way, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; or on the department’s Web site at www.iowadot.gov.

111.1(4) Future programs or projects. Failure to comply with Section II when acquiring real property or displacing persons for a program or project may preclude the receipt of future federal financial assistance for the program or project area.

This rule is intended to implement Iowa Code chapter 316 and sections 6B.42, 6B.45, 6B.54, 6B.55 and 310.22.

CHAPTER 112
PRIMARY ROAD ACCESS CONTROL
[Prior to 6/3/87, Transportation Department[820]—(06,C) Ch 1]

761—112.1(306A) General information.

112.1(1) *Statement of policy.* The efficiency and safety of a highway depend to a large extent upon the amount and character of interruptions to the movement of traffic. The primary cause of these interruptions is vehicular movements to and from businesses, residences, and other developments along the highway. All primary highways are controlled access facilities. Regulation and overall control of highway access are necessary to provide efficient and safe highway operation and to utilize the full potential of the highway investment. Accordingly, the department hereby establishes rules for control of access to primary highways.

112.1(2) *Information and forms.* Information and forms regarding this chapter may be obtained from any of the department's six district offices; the Office of Traffic and Safety, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; or the Internet Web site: <http://www.iowadot.gov/traffic/index.htm>.

112.1(3) *Considerations.* If the department determines that the literal application of these rules to a specific situation will create or result in an unsafe situation or an unreasonable design, the department shall use sound engineering practices to determine the appropriate design for the specific situation. The appropriate district office shall include justification for the design in the permit or the highway project file, as applicable. The appropriate design shall address:

- a. Safety to the traveling public.
- b. Perpetuation of the traffic-carrying capacity of the highway.
- c. Protection of the rights of the traveling public and of property owners, including the rights of abutting property owners.
- d. Topography and geometric limitations and constraints affecting typical engineering standards.

112.1(4) *Permit approval process.*

a. A district representative may, in response to an application for an access connection to the primary highway system, grant approval for an access permit. The process for inquiring about and applying for an access connection to the primary highway system is through one of the department's six district offices. All applications for access permits must be applied for in the particular district where the entrance is proposed. A district representative will do one of the following: approve the application for an access permit, approve the application for an access permit with conditions, or deny the application for an access permit. The district representative may use the considerations set forth in subrule 112.1(3) in making the decision. The district representative shall notify the applicant of the determination in writing.

b. Upon receipt of a denial letter or if the permit was approved with conditions, the applicant may choose to pursue a waiver from the director of transportation, pursuant to subrule 112.1(5).

112.1(5) *Waivers.* The director of transportation may, in response to a written petition, waive provisions of this chapter in accordance with 761—Chapter 11. The written petition must contain the information as required in 761—subrule 11.5(2) and shall be submitted to the Rules Administrator, Operations and Finance Division, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

112.1(6) *Waivers involving interstate highways.* The director of transportation shall not waive these rules in access situations involving the interstate highway system, including its ramps, without the approval of the Federal Highway Administration.

761—112.2(306A) Definitions. The following terms, when used in this chapter, shall have the following meanings unless the context otherwise requires:

“Access.” A means of ingress or egress between a primary highway and abutting property or an intersecting local public road or street.

“Acquisition.” To receive title by gift, purchase or condemnation.

“Bridge.” Any structure, including supports, that is erected over a depression or obstruction, has a track or passageway for carrying traffic or other moving loads, and has a length measured along the center of the driveway of more than 20 feet between undercopings of abutments or extreme ends of openings for multiple boxes.

“Built-up area.” An area adjacent to a primary road that meets the following general criteria:

1. The lots or area abutting the primary road does not have sufficient setback for the construction of a frontage road, and the development in depth precludes the establishment of a frontage-type road to the rear of the lots or area.

2. When a “built-up area” exists on one side of a primary road, the other side of the road is also considered to be “built-up” for the purpose of determining access requirements.

“Clear zone.” The roadside border area, starting at the edge of the traveled way, available for use by errant vehicles.

“Concrete box culvert.” A concrete structure not classified as a bridge, that provides an opening under a roadway or driveway, is either precast or cast in place, and has vertical sidewalls, a top slab and a floor.

“Controlled access highway.” All primary highways are controlled access facilities.

“District representative.” A department employee who processes requests for access in an assigned geographical area.

“Entrance.” A physical connection between a primary highway and abutting property or an intersecting local public road or street.

“Entrance type.” Entrances are divided into the following three classes according to their normal usage:

1. Type “A” entrance. An entrance developed to carry sporadic or continuous heavy concentrations of traffic. Generally, a Type “A” entrance carries in excess of 150 vehicles per hour. An entrance of this type would normally consist of multiple approach lanes and may incorporate a median. Possible examples include racetracks, large industrial plants, shopping centers, subdivisions, or amusement parks.

2. Type “B” entrance. An entrance developed to serve moderate traffic volumes. Generally, a Type “B” entrance carries at least 20 vehicles per hour but less than 150 vehicles per hour. An entrance of this type would normally consist of one inbound and one outbound traffic lane. Possible examples include service stations, small businesses, drive-in banks, or light industrial plants.

3. Type “C” entrance. An entrance developed to serve light traffic volumes. Generally, a Type “C” entrance carries less than 20 vehicles per hour. An entrance of this type would not normally accommodate simultaneous inbound and outbound vehicles. Possible examples include residential, farm or field entrances.

“Entrance width.” See subrule 112.4(7).

“Fringe area.” A suburban-type area adjacent to a primary road that meets the following general criterion: The layout of the lots or area abutting the primary road, including intermittent or unrelated development, permits construction of a frontage road in front of, or a frontage-type road to the rear of, the development.

“Frontage.” The length along a public road right-of-way of a single property tract. A corner property at an intersection of two public roads has separate frontage along each roadway.

“Frontage road.” A public road or street auxiliary to and usually located alongside and parallel to a primary highway for maintaining local road continuity and for control of access.

“Fully controlled access highway.” A highway for which the rights of ingress and egress from abutting properties have been legally eliminated by the roadway jurisdiction. Permanent access to the facility is allowed only at interchange locations. No permanent at-grade access is allowed.

“Highway,” “street” or “road.” A public way for the purpose of vehicular travel, including the entire area between the right-of-way lines.

“Interchange.” A system that provides for the movement of traffic between intersecting roadways via one or more grade separations.

“Median.” The portion of a divided highway or divided entrance separating traffic moving in opposite directions. Medians may be depressed, raised or painted. Openings in the primary highway median to accommodate entrances are governed by the following:

1. New median openings should not be permitted except to accommodate intersecting local public roads or streets or large traffic-generating facilities such as large shopping centers or industrial plants. Median openings may be permitted in these instances if satisfactorily justified and in the public interest.
2. If a median opening exists prior to the construction of a driveway or local public road or street, the opening may be modified to accommodate the turning movements of the traffic expected.
3. Costs incurred for adding or modifying median openings shall not be borne by the department.
4. The department reserves the right to close an existing median opening when the department deems it is necessary.

“Normal peak hour traffic.” The highest number of vehicles found to be entering and leaving an entrance during 60 consecutive minutes in a 24-hour period, excluding holidays.

“Pavement.” The portion of a roadway used for the movement of vehicles, excluding shoulders.

“Predetermined access location.” A location of access reserved for the adjacent property at the time access rights are acquired.

“Primary road” or *“primary highway.”* A road or street designated as a “primary road” in accordance with Iowa Code subsection 306.3(6). This definition includes primary road extensions in cities and primary roads under construction.

“Priority I highway.” A primary highway constructed as a fully controlled access highway. Permanent access to the facility is allowed only at interchange locations. No permanent at-grade access is allowed.

“Priority II highway.” A primary highway constructed as a two-lane or multilane (more than two lanes) facility with a high degree of access control. Access to the facility is allowed only at interchanges and selected at-grade locations.

The minimum allowable spacing between access locations is one-half mile. Limiting primary highway access to existing public road intersections at intervals of one mile is preferable.

“Priority III highway.” A primary highway constructed as a two-lane or multilane facility. Access to the facility is allowed at interchanges and at-grade locations.

The minimum allowable spacing between access locations is 1,000 feet. Spacing of one-quarter mile is preferable.

“Priority IV highway.” A primary highway constructed as a two-lane facility; however, the definition may include a multilane facility. Priority IV is divided into Priority IV(a) and Priority IV(b).

1. For highways designated as Priority IV(a), the minimum allowable spacing between access locations is 600 feet.

2. For highways designated as Priority IV(b), the minimum allowable spacing between access locations is 300 feet.

“Priority V highway.” A primary highway where access rights to it were acquired between 1956 and 1966, entrances were reserved at that time with no spacing limitations, and the department has subsequently determined that a higher degree of access control is desirable. The definition also includes a highway where access rights have not been acquired, but the department anticipates acquiring access rights in the future.

In rural areas, entrances to the highway are generally restricted to one entrance for contiguous highway frontage not exceeding 1,000 feet, two entrances for contiguous highway frontage exceeding 1,000 feet but not exceeding 2,000 feet, and so on.

“Priority VI highway.” A primary highway where the acquisition of access rights or additional access rights is not anticipated. This definition may also include a highway where access rights were acquired between 1956 and 1966, entrances were reserved at that time with no spacing limitations, and the department has subsequently determined that restricting access to the facility is no longer necessary.

Access locations are approved based on safety and need.

“Ramp bifurcation.” The point where the baseline of the ramp intersects the centerline of the adjacent roadway.

“Recreational trail.” A trail established for biking, pedestrian, snowmobiling, cross-country skiing, or equestrian use.

“Right-of-way line.” The boundary line between the land acquired for or dedicated to public road use and the adjacent property.

“Roadway.” The portion of a highway used for the movement of vehicles, including shoulders and auxiliary lanes. A divided highway has two or more roadways.

“Rural area.” An area clearly not meeting the criteria set forth for a built-up or fringe area. Rural area also includes agricultural land within the corporate limits of a city.

“Rural-designed area.” An area in which the predominant cross section accommodates surface drainage from the roadway and adjacent terrain via an open ditch.

“Shoulder.” The portion of a public road contiguous to the traveled way for the accommodation of disabled vehicles and for emergency use.

“Sight distance.” The distance of clear vision along a primary highway in each direction from any given point of access where a vehicle must stop before entering the highway.

1. Sight distance at an access location is measured from the driver’s height of eye (3.5 feet) to the height of an approaching vehicle (4.25 feet).

2. An access location should be established where desirable sight distance is available and shall not be authorized in a location providing less than minimum sight distance, as shown below.

POSTED DAYTIME SPEED LIMIT (mph)	DESIRABLE SIGHT DISTANCE (feet)	MINIMUM SIGHT DISTANCE (feet)
70	910	730
65	820	645
60	730	570
55	645	495
50	570	425
45	495	360
40	425	305
35	360	250
30	305	200

3. On a four-lane divided primary highway where access is proposed at a location that will not be served by a median crossover, sight distance is required only in the direction of the flow of traffic.

“Special access connection.” An access location authorized to the primary road system in an area where access rights were previously acquired.

“Traveled way.” The portion of a roadway used for the movement of vehicles, excluding shoulders and auxiliary lanes.

“Turning lane.” An auxiliary lane, including taper areas, primarily used for the deceleration or storage of vehicles leaving the through traffic lanes.

“Urban-designed area.” A built-up or fringe area in which the predominant cross section accommodates roadway surface drainage by means of a curbed roadway.

761—112.3(306A) General requirements for control of access.

112.3(1) *Establishment of controlled access highway.* Access locations necessary for free and convenient access that exist at the time a primary highway is established are hereby approved if the department deems they are reasonably located.

112.3(2) *Frontage roads.* If a frontage road is open to public travel, access from the abutting property shall be to the frontage road.

a. Access to frontage roads maintained by the department shall be authorized in accordance with rules 761—112.4(306A), 761—112.8(306A) and 761—112.9(306A).

b. Access to frontage roads maintained by other governmental agencies shall conform to those agencies' access requirements.

112.3(3) Enforcement of access control.

a. *Fences.* The department may construct and maintain fences or other appropriate physical separations within the primary highway right-of-way to effectively enforce and control access to the highway.

b. *Unauthorized construction or modification of entrances.* If an entrance is constructed or altered without the approval of the department or if the work is not completed in conformity with an approved permit or agreement, the department may notify the owner by certified mail of the violation and the need to restore the area to the standards which existed immediately prior to construction or alteration or advise of the changes necessary to conform. If after 20 days the changes have not been made, the department may make the necessary changes and immediately send a statement of the cost to the property owner. If within 30 days after sending the statement the cost is not paid, the department may institute proceedings in the district court system to collect the cost.

c. *Written permission—right to inspect.* A person must have written permission from the department via the specified permit or agreement before the person may construct or alter an entrance.

(1) The department reserves the right to inspect and approve any work performed within the right-of-way.

(2) If the work is not performed as required by the permit or agreement, the department may revoke its permission and deny access until the conditions are corrected.

(3) If the work performed does not conform to the department's specifications, the department may make the necessary changes, charge the costs to the party responsible and pursue other available remedies.

112.3(4) Maintenance of entrances.

a. Property owners having access to a primary highway are responsible for the maintenance of their entrances as follows:

(1) For an entrance that does not have a paved surface, the property owner is responsible for maintaining the entrance from the outer shoulder line of the primary highway to the right-of-way line.

(2) For an entrance that has a paved surface, the property owner is responsible for maintaining the entrance from the paved edge of the primary highway to the right-of-way line.

b. Drainage structures located within the primary highway right-of-way shall be maintained by the department except for concrete box culverts and bridges constructed by a permit holder under authority of an entrance permit. These structures shall be maintained by the permit holder.

761—112.4(306A) General requirements for entrances where access rights have not been acquired. This rule establishes the general requirements for access to primary highways where access rights have not been acquired.

112.4(1) Entrance permit. A person shall not modify an existing entrance or construct a new entrance to a primary highway from abutting property or from a local public road or street until the department has issued an entrance permit for the work.

a. An application for an entrance permit shall be submitted to the appropriate district representative on a form prescribed by the department.

b. The department shall be provided with a plan, drawing or sketch of the property or site to be served by the requested access. This may vary from a simple sketch in the case of a Type "C" entrance to a detailed plan in the case of a Type "A" entrance. See rule 761—112.5(306A) for further Type "A" entrance requirements.

c. The application shall be signed by the owner or owners of record. The signature(s) shall be notarized.

d. If the request is for a property within the corporate limits of a city, an authorized representative of the city must sign the application recommending approval. See subrule 112.4(5).

e. The application shall be approved or denied by the appropriate district representative.

f. If the district representative denies the application, the applicant may appeal the decision by submitting to the appropriate district engineer the application along with background information and an explanation of the need for access.

g. If the district engineer denies the application, the applicant may appeal the decision by submitting to the director of transportation the application along with background information and an explanation of the need for access. The director's decision is final agency action.

112.4(2) Construction or modification of entrances.

a. All work performed on a primary highway under the terms of an entrance permit shall comply with the conditions of the permit. These conditions include any accompanying plans, drawings, sketches, or other attachments to the permit. The permit holder or the permit holder's contractor shall have a copy of the permit available at the work site.

b. During the time an entrance is being constructed or modified, care must be taken to ensure the safety of the workers on the site and of the traveling public. The work shall be accomplished in a manner that will minimize interference with normal highway operations. Care must be taken during construction or modification of the entrance and development of the abutting property to avoid tracking mud or other material onto the primary highway.

112.4(3) Construction costs. Construction costs, including any costs incurred for modifying the existing primary highway as may be required by the entrance permit, should not be borne by the department.

112.4(4) Maintenance of entrances. See subrule 112.3(4).

112.4(5) Primary road extensions.

a. On primary road extensions, the location and geometrics of entrances must meet local requirements within the limitations of this chapter, and entrance permit applications must be approved by authorized city officials before final action is taken by the department.

b. Applicants are responsible for ensuring compliance with local building codes, setback requirements, minimum lot sizes, density of buildings, provisions for adequate parking, and other local ordinances and regulations.

c. Entrance permits issued by the department apply to the construction of entrances within the primary highway right-of-way and do not release applicants from compliance with local ordinances and regulations. These requirements are not altered by the issuance of entrance permits. Applicants are responsible for obtaining the required local approvals and permits.

d. Without an approved permit, there shall be no encroachment onto the primary highway right-of-way.

112.4(6) Considerations for entrance width and radius or flared returns.

a. Entrance width and the size of radius or flared returns should be determined based on the predominant type of vehicle that will use the entrance. The combination of entrance width and return radii or flares should permit vehicles to enter and exit the highway with minimum disruption to through traffic, yet be restrictive enough to discourage erratic maneuvers.

b. Entrance width should minimize speed differential, which is the difference between the speed of through traffic and the speed of vehicles that are turning into the entrance. In general, the narrower the entrance, the more vehicles must slow down to negotiate the entrance. An increase in speed differential increases the tendency for potential crashes. Use of larger turning radii or flares will reduce speed differential.

c. An entrance can also be too wide. An entrance that is too wide may confuse motorists by creating uncertainty as to where they should position their vehicles within the entrance. Pedestrian traffic must also be considered. Wider entrances may place pedestrians in greater conflict with vehicular traffic.

112.4(7) Entrance widths. The width of an entrance is the distance between the beginning points of the return radii or flares, measured perpendicular to the centerline of the entrance.

a. Type "A" entrances. Each case requires special study. See rule 761—112.5(306A).

b. Type "B" entrances.

(1) The minimum allowable width is 24 feet.

(2) The maximum allowable width is 45 feet.

(3) For one-way operation, the minimum allowable width is 12 feet and the maximum allowable width is 30 feet.

c. Type "C" entrances.

(1) The minimum allowable entrance width is 20 feet. In an area where the posted speed limit is 35 miles per hour or less, a minimum width of 15 feet may be allowed.

(2) The maximum allowable width is 30 feet.

(3) If an entrance will serve more than one property, the minimum allowable width is 20 feet and the maximum allowable width is 35 feet.

d. City street and secondary road intersections. The department shall determine the width of city street and secondary road intersections on a case-by-case basis, taking into consideration both local and department standards.

112.4(8) Radius or flared returns. Return radii for granular entrances shall be measured along the edge of the primary highway shoulder. Return radii for paved entrances shall be measured along the edge of the primary highway pavement.

If the predominant types of vehicles that will use an entrance are passenger cars and straight trucks, paragraphs "a" to "i" of this subrule apply. If the predominant types are truck tractor-semitrailer combinations and large equipment, paragraph "j" applies.

a. Type "A" entrances. Each case requires special study. See rule 761—112.5(306A).

b. Type "B" entrances, rural-designed area, not paved.

(1) For an entrance angle of 90 degrees to the centerline of the primary highway, the return radii should not exceed 35 feet.

(2) For an entrance angle of 60 degrees to the centerline of the primary highway, the return radius of the obtuse angle should not exceed 50 feet. The return radius of the acute angle should not exceed 25 feet.

(3) For an entrance angle that is between 90 and 60 degrees, the maximum radii of the obtuse and acute angles should be interpolated between the values given in subparagraphs (1) and (2) above and rounded to the nearest 5 feet.

(4) Entrance angles that are less than 60 degrees require department review to establish appropriate radii.

c. Type "B" entrances, rural-designed area, paved.

(1) For an entrance angle of 90 degrees to the centerline of the primary highway, the return radii should not exceed 50 feet.

(2) For an entrance angle of 60 degrees to the centerline of the primary highway, the return radius of the obtuse angle should not exceed 60 feet. The return radius of the acute angle should not exceed 25 feet.

(3) For an entrance angle that is between 90 and 60 degrees, the maximum radii of the obtuse and acute angles should be interpolated between the values given in subparagraphs (1) and (2) above and rounded to the nearest 5 feet.

(4) Entrance angles that are less than 60 degrees require department review to establish appropriate radii.

d. Type "B" entrances, urban-designed area, paved or not paved.

(1) All Type "B" entrances within an urban-designed area should be paved for a minimum distance of 10 feet back from the primary highway curb, as measured 90 degrees to the edge of the primary highway roadway.

(2) The return radii should be no less than 10 feet nor greater than 20 feet.

e. Rescinded IAB 10/30/02, effective 12/4/02.

f. Type "C" entrances, rural-designed area, not paved.

(1) For an entrance angle of 60 to 90 degrees to the centerline of the primary highway, the return radii should not exceed 15 feet for either the obtuse or acute angle.

(2) Entrance angles that are less than 60 degrees require department review to establish appropriate radii.

g. Type "C" entrances, rural-designed area, paved.

(1) For an entrance angle of 60 to 90 degrees to the centerline of the primary highway, the return radii should not exceed 20 feet.

(2) Entrance angles that are less than 60 degrees require department review to establish appropriate radii.

(3) If an existing entrance is being reconstructed, the returns may be replaced in kind.

h. Type “C” entrances, urban-designed area, paved or not paved.

(1) All Type “C” entrances within an urban-designed area should be paved for a minimum distance of 10 feet back from the primary highway curb, as measured 90 degrees to the edge of the primary highway roadway.

(2) The return radii should equal the distance between the back of the curb and the front edge of the sidewalk, not to exceed 10 feet.

(3) When no sidewalk is present or anticipated, the maximum radii should be 10 feet.

i. Flared entrances, urban-designed area. In an urban-designed area, entrances may be constructed with flared returns rather than radius returns. When used, the flare shall be constructed at a 2:1 ratio with the “2” value measured on a line parallel to the entrance centerline and the “1” value measured on a line perpendicular to the entrance centerline. The length of the flare as measured parallel to the entrance centerline should be equal to the radii requirements shown in paragraphs 112.4(8) “*d*” and “*h*” above.

j. Truck tractor-semitrailer combinations. Truck tractor-semitrailer combinations and large equipment vary greatly in length and generally require a customized design for the entrance. Flares will generally not accommodate the movement of these types of vehicles and therefore should not be used. To reduce encroachments onto the traveled way and opposing entrances, turning templates should be used. All turning movements should be evaluated to ensure the entrance width and radii are designed to handle the types and volume of traffic anticipated.

112.4(9) Entrance angle.

a. In general, the entrance angle shall be established as near to 90 degrees to the centerline of the primary highway as site conditions will allow.

b. Normally, the centerline of that part of an entrance lying within the right-of-way shall be at a right angle to the centerline of the primary highway for a minimum distance of 30 feet from the near edge of the primary highway pavement.

c. An entrance established for two-way operation for a service station or other development where two access points are authorized shall be 70 to 90 degrees to the centerline of the primary highway.

d. On a divided primary highway where two access locations are authorized for one-way operation, the “ingress” may be 45 to 60 degrees to the centerline of the primary highway and the “egress” may be 60 to 90 degrees to centerline of the primary highway.

112.4(10) Slope and cross section of entrances in rural-designed area.

a. The finished, surface elevation of an entrance over a culvert, or the location where a culvert would normally be placed, should be lower than the primary highway pavement, preferably an extension of the 4 percent shoulder grade, to prevent surface water from draining onto the highway pavement. The shoulder grade should be extended onto the entrance at a distance sufficient to provide a safe platform for a vehicle to stop before entering the highway.

b. If an entrance requires drainage pipe, the entrance side slopes from highway shoulder to the entrance pipe shall be no steeper than 8:1 and from the entrance pipe to the right-of-way line shall be no steeper than 6:1. A smooth transition from the 8:1 to the 6:1 slope is required.

c. If an entrance does not require drainage pipe, the entrance side slopes from highway shoulder to the minimum clear zone distance shall be no steeper than 10:1, right-of-way width permitting. From the point of minimum clear zone to the right-of-way line, a smooth transition to a 6:1 slope is acceptable.

d. Upgrading only the surfacing material of an existing entrance will not require a change in existing side slopes.

112.4(11) Entrance grade. The grade of an entrance is an important element when considering overall motorist safety because the grade impacts speed differential. Vehicles must slow appreciably to turn into an entrance; therefore, the steeper the entrance grade, the greater the reduction in speed required to prevent “bottoming out.” Ideally, the maximum practical grade for entrances varies from 8

to 14 percent for low-volume entrances to approximately 5 percent for high-volume entrances. Above these values, bumpers and other low-hanging parts of a vehicle will scrape the entrance.

An entrance's vertical profile should allow for a smooth transition to and from the highway. Flattening entrance grade lines is another tool in providing safe access to and from the highway system.

761—112.5(306A) Additional requirements for Type “A” entrances. This rule establishes additional requirements for Type “A” entrances serving commercial, industrial or residential developments.

112.5(1) General.

a. The most important factors in developing an access plan for a commercial, industrial or residential development are a determination of the potential traffic generated by the site and a determination of the directional distribution of site-generated traffic on the major approach routes and proposed entrances serving the site. Entrances serving the site represent an important element in the efficiency and safety of the highway handling the site-generated traffic. To properly handle traffic from these entrances, the anticipated traffic volumes must be determined by the applicant and submitted to the department.

b. The location of entrances, particularly commercial entrances, is a critical factor in minimizing disruption to traffic and pedestrians. A site should be developed with an internal circulation pattern for traffic movements so that access to the site may be gained by a free flow of traffic from the primary road system. Parking stalls and pedestrian movements should be located away from the main entrance to the facility.

c. Adequate storage for vehicles must be provided on commercial and industrial sites so that vehicles do not wait on the highway to enter. Adequate storage space is a function of the demand volume, the service time per facility, and the number of service facilities available. Service time is dependent upon the time required to maneuver into position and the time needed to obtain the service. The geometrics of the internal circulation pattern control a portion of the service time. The radii of internal curves should be as large as possible. Buildings on a site should be arranged to allow for the maximum storage available on the site for exiting traffic and situated so that they will not disrupt the free flow of entering traffic.

d. A service station site should be designed to provide a minimum distance of 15 feet from the right-of-way line to the near edge of the pump island. No portion of the highway right-of-way shall be used for servicing vehicles.

e. When property is being developed, consideration must be given to locating the access directly opposite an existing commercial entrance or street intersection.

f. Comments from local authorities regarding the proposed development should be included in the application to allow the department to incorporate the input of local authorities into the final design of the entrance location. This input should refer to the zoning plan, land use plan, or metrotransportation plan.

112.5(2) Type “A” access requests.

a. *Application for entrance permit.* An entrance permit application for a Type “A” entrance shall, when relevant to the proposed development, include the following data in detail:

- (1) Type and location of the proposed development.
- (2) Site plan.
- (3) Location of all proposed entrances, turning lanes on adjacent highways or streets, and internal traffic lanes and parking facilities within the development area. This information shall be sufficiently complete to allow determination of dimensions, the direction of traffic flow, and restrictions to traffic caused by plantings, curbing, medians, walls, signing, etc.
- (4) Detailed design of proposed highway pavement widenings, additional lane provisions, relocations, and other highway improvements considered necessary to the efficient operation of the proposed development.
- (5) Signal warrant analysis and application to construct a traffic control device, when required. See paragraphs “*b*” and “*c*” of this subrule.
- (6) Preliminary drainage data.
- (7) Gross leasable floor area in square feet.

- (8) Number of parking spaces.
- (9) Anticipated total daily trips inbound and outbound during an average 24-hour period for total site development. Special holiday shopping traffic shall not be used for this estimate.
- (10) Estimated traffic volumes arriving and departing during the normal peak hour.
- (11) Estimated distribution of traffic via individual entrances for the normal peak hour.
- (12) Estimated distribution of traffic by percentage of total daily trips via major highways from origin to the development.

b. Signal warrant analysis. The applicant must submit to the department a signal warrant analysis for all multimovement access points within the study area for the proposed development. The purpose of the analysis is to determine if traffic signals are warranted. The analysis should also evaluate the feasibility of coordinating any proposed traffic signals with existing traffic signals in the study area to achieve the desired traffic progression. The department may require a proposed entrance to be redesigned or relocated if the proposed entrance meets signal warrant thresholds but does not meet other standards in these rules.

c. Application to construct a traffic control device. The applicant shall submit for department approval an application to construct a traffic control device if an existing traffic signal will be modified or a new traffic signal will be installed.

112.5(3) Agreement supplementary to permit.

a. A major development often involves a variety of special access requirements. In addition to the entrance permit, an agreement between the department, the local governmental unit and the applicant may be required to fit the particular situation, listing in detail the responsibilities of each party.

b. Upon receipt of the agreement, the applicant shall be responsible for obtaining the necessary signature approvals including those of appropriate local authorities and returning the agreement to the appropriate district representative.

c. The department shall notify the applicant when it has approved or denied the agreement. No work shall be done within the primary highway right-of-way until the department approves the agreement. Any work completed without the prior approval of the department is a violation of Iowa Code section 319.14.

112.5(4) Primary highway improvements. The cost of primary highway improvements needed to handle the volume of traffic generated by the development should not be the responsibility of the department.

761—112.6(306A) Drainage requirements. This rule establishes drainage requirements for all locations where access is requested to the primary highway system.

112.6(1) Entrances must be constructed so that they do not adversely affect primary highway drainage or drainage of the adjacent property. The drainage and the stability of the highway subgrade must not be impaired by driveway construction or roadside development. Construction of an entrance shall not cause water to flow across the primary highway pavement or to pond on the shoulders or in the ditch, or result in erosion within the primary highway right-of-way limits.

112.6(2) Drainage collected by ditches, gutters or pipes on private property shall not be discharged into the primary highway drainage system unless expressly approved by the department. An applicant may be required to submit a drainage study to the department that justifies the drainage system proposed and the pipe or sewer sizes to be used. The applicant shall not interfere with the natural course of drainage.

112.6(3) When the construction of an entrance necessitates crossing a highway ditch that has been constructed to carry drainage, a drainage structure shall be installed in the ditch by the applicant at the applicant's expense. The low point of the ditch shall dictate the location for culvert placement unless otherwise specified by the department. Under no circumstances shall existing ditches or gutters be filled without adequate alternate provisions for drainage.

a. The department's engineering staff will assist in determining the size and length of culverts and aprons. A culvert shall be of adequate size to handle drainage, but in most situations the culvert shall not be less than 18 inches in diameter. Where shallow ditches exist, the department may approve

small arched culverts or culvert sizes less than 18 inches in diameter. Culvert pipe shall comply with departmental standard specifications as they exist at the time of installation.

b. Length of culvert pipe shall be sufficient to accommodate the entrance slopes. The finished surface elevation of an entrance over a culvert pipe, or the location where a culvert would normally be placed, should be sloped away from the primary highway pavement, preferably an extension of the 4 percent shoulder slope, to prevent surface water from draining onto the highway pavement.

c. Drainage structures located within the primary highway right-of-way shall be maintained by the department except for concrete box culverts and bridges constructed by a permit holder under authority of an entrance permit. These structures shall be maintained by the permit holder.

112.6(4) Where drainage is carried along an existing curb, the entrance shall be constructed with a rise in elevation of at least 6 inches from the street gutter at the entrance to a point 6 feet behind the gutter to prevent runoff from spilling onto private property. The flow line of the gutter through the entrance shall be restored.

761—112.7(306A) Access to Priority I, II, III and IV highways. Access rights are acquired on Priority I, II, III and IV highways. See rules 761—112.11(306A) and 761—112.12(306A). After access rights are acquired, additional access may be allowed as follows:

112.7(1) Priority I highway. The department may allow a temporary at-grade access in emergency situations or for construction or maintenance purposes. Temporary access to the interstate highway system requires the concurrence of the Federal Highway Administration. See subrule 112.13(4).

112.7(2) Priority II, III and IV highways. An additional entrance to a property from which access rights have been acquired may be permitted only as a special access connection. See rule 761—112.13(306A). This includes a temporary at-grade access for emergency situations or for construction or maintenance purposes. See subrule 112.13(4).

761—112.8(306A) Access to Priority V highways, rural areas. This rule establishes requirements for access to Priority V highways in rural areas.

112.8(1) General. Where access rights have not been acquired, access is generally limited to one entrance for contiguous highway frontage not exceeding 1,000 feet, two entrances for contiguous highway frontage exceeding 1,000 feet but not exceeding 2,000 feet, and so on. Ownership on each side of the highway shall be considered as separate ownership. Except for the above-stated restrictions and those contained in subrules 112.8(2) and 112.8(3), no spacing restrictions shall be imposed. Additional entrances may be permitted when a single entrance will not provide adequate access due to topographic conditions or when additional entrances will comply with future construction plans for the roadway and the access priority classification to be applied.

112.8(2) Access requirements near public road intersections.

a. A property abutting a primary road and a local public road or another primary road may be granted access to the primary road at a distance generally no less than 300 feet from the intersection of the centerlines of the two roads.

b. At a “T” type intersection, access to the primary road may be located directly opposite the intersection.

c. Access shall not be permitted onto a local public road within the primary road right-of-way limits. The centerline of an access onto a local public road should be no closer than 150 feet to the near edge of the primary highway traveled way.

112.8(3) Property lines. The centerline of an entrance to the primary roadway should be no closer than 50 feet to the property line as extended to intersect the roadway centerline at a right angle. No portion of an entrance located within the right-of-way should extend beyond the property line as extended. If an entrance does extend onto an adjoining property within the right-of-way, the applicant should contact that property owner to request the property owner’s concurrence or to suggest a joint entrance. An entrance that will serve two properties abutting the primary road may be centered on the property line by mutual agreement between the property owners.

761—112.9(306A) Access to Priority V highways, fringe or built-up areas, and Priority VI highways, all areas. This rule establishes requirements for access to Priority V highways in fringe or built-up areas, and access to Priority VI highways in rural, fringe, or built-up areas.

112.9(1) General. Property frontage may be granted access where needed to the primary road, provided safety and construction standards are satisfactory. In a rural area, a minimum distance of 30 feet between toes of slopes along the centerline of the ditch shall be maintained. In a fringe or built-up area, there shall be a minimum of 15 feet of curb maintained between near edges of curb drops when more than one access is allowed to a single highway frontage. If the property is within corporate limits, city requirements apply if they are more restrictive.

112.9(2) Access requirements near public road intersections.

a. Rural area. Same as subrule 112.8(2).

b. Fringe or built-up area.

(1) The beginning of the curb drop for an entrance to a primary highway shall be no closer than 15 feet to an intersecting street's curb tangent point. No portion of the entrance along the primary highway should extend beyond the property line as extended or into a crosswalk.

(2) The beginning of the curb drop for an entrance to a street should be no closer than 15 feet to an intersecting primary highway's curb tangent point. No portion of the entrance along the street should extend beyond the property line as extended or into a crosswalk.

(3) If an intersection does not have an existing or a planned curb and gutter to define the radius, the following assumptions shall be applied to the above requirements for determining the location of an entrance:

Minimum width of the traveled way of the primary highway is assumed to be 53 feet back to back of curbs.

However, if the platted width of the primary highway right-of-way is less than 66 feet, the width of the traveled way is assumed to be 75 percent of the platted width.

Minimum width of the traveled way of an intersecting local public road or street is assumed to be 31 feet back to back of curbs.

112.9(3) Channelized intersection or divided highway. When there is a median in a primary road or intersecting street, or both, the curb drop for an entrance to the primary road or intersecting street shall be determined as stated in subrule 112.9(2), except that at the beginning or end of the median, or at a median break, the nearest edge of the curb drop for the entrance shall be no closer than 20 feet to the end of the median as measured at a right angle to the median. This does not apply to access centered on a median break.

112.9(4) Median openings.

a. When a divided primary highway has been constructed with a median, crossovers or median breaks shall not be permitted if there are frequent openings for local street intersections or traffic conditions do not make median breaks advisable. The layout of entrances to adjacent properties along the primary highway shall be designed to take advantage of existing or planned median crossovers.

b. When a crossover or median break is deemed necessary by the department as a result of traffic generated by a business or other development, the required improvements shall be constructed by the property owner as a part of a permit process. The department shall bear no part of the construction costs.

c. The permit authorizing a new crossover shall specify the exact location, design, and construction requirements. Any drainage facilities required by the construction shall be installed by the permit holder at the permit holder's expense.

d. The minimum width of a new median crossover is 40 feet. In a rural-designed area, the width of a median crossover shall be measured at the normal culvert line. In an urban-designed area, the width of a median crossover shall be measured parallel to the highway centerline between the curbed noses of the median.

e. Upon completion of construction of the improvements as provided by this subrule, the department shall assume ownership of the improvements and shall be responsible for their future maintenance.

112.9(5) Property lines.

- a. Rural area. Same as subrule 112.8(3).
- b. Fringe or built-up area. The beginning of an entrance radius return or flare shall be no closer than 1 foot to the property line as extended on an interior lot line to intersect the primary road centerline at a right angle. An entrance to serve two properties abutting the primary road may be centered on the property line by mutual agreement between the property owners.

761—112.10 Reserved.

761—112.11(306A) Policy on acquisition of access rights.

112.11(1) General. It is necessary that every effort be made to preserve the public investment in the primary highway system. Where efficiency of traffic movement is desired, this investment is preserved by acquiring the adjacent property's access rights and limiting or prohibiting direct access to the primary highway. This provides a safer environment for the highway user, increases the free and efficient movement of through traffic, and reduces highway accidents by minimizing the number of conflict points or entrances located along the highway.

112.11(2) Project development. During the initial stages of project development for a highway improvement project, the department shall determine if access rights to the primary highway will be acquired and the applicable access priority classification to be applied.

The department shall consider average daily traffic, proposed design features of the facility, terrain, the function of the particular section in relation to the total highway system, the commercial/industrial network of highways, service level, continuity of the system and sound engineering judgment.

112.11(3) Access rights at at-grade intersections with city streets and secondary roads. When access rights to a primary highway are acquired, the department may also acquire access rights along a city street or secondary road where an at-grade intersection with the highway exists or is proposed. If access rights are acquired, they will be acquired along the city street or secondary road for a distance of 150 feet from the near edge of the primary highway traveled way. However, the department may acquire more or less than 150 feet of access rights after considering the severity of damage to adjacent properties and traffic volumes and other safety factors.

112.11(4) Access rights at at-grade primary intersections.

a. When access rights to a primary highway in a rural area are acquired, the department may also acquire access rights along an intersecting at-grade primary highway for a minimum distance from the intersection of the centerlines of the two primary highways as follows:

1. 150 feet when the intersecting primary highway carries less than 2,500 vehicles per day.
2. 300 feet when the intersecting primary highway carries 2,500 or more vehicles per day.

However, the department may acquire more or less than the specified access rights after considering the severity of damage to adjacent properties and traffic volumes and other safety factors.

b. If the intersection is channelized, access rights shall be acquired and no access shall be permitted along the channelized primary highway for a minimum distance of 100 feet beyond the beginning or end of the median. For the purpose of access control, the beginning or end of a median is the point where the distance between the edges of the opposing traveled lanes is 4 feet.

112.11(5) Access rights along intersecting roadways at interchanges.

a. When an interchange is constructed on a primary road, the department shall acquire access rights along the public road or street intersecting the primary road. Once access rights are acquired, no access is allowed. The following are the minimum distances where access rights shall be acquired along the intersecting public road or street; in each case, the greater distance shall prevail.

1. 600 feet from the point of ramp bifurcation in a rural or fringe area.
2. 300 feet desired, 150 feet minimum, from the point of ramp bifurcation in a built-up area.
3. 150 feet from the beginning of a deceleration lane or taper.
4. 100 feet from the beginning or end of a median.

However, the department may acquire more or less than the specified access rights after considering the severity of damage to adjacent properties and traffic volumes and other safety factors.

b. When an interchange is constructed as a half-diamond or partial cloverleaf, the department may permit an access directly opposite a ramp connection to the primary road.

112.11(6) *Agreement with city or county.* When access rights are acquired along a city street or secondary road, the department shall negotiate an agreement with the city or county which states that access rights shall be acquired by the department in the state's name or in the name of the city or county and that the city or county shall not permit any third party to use the controlled portion of the street or road without the prior written consent of the department.

761—112.12(306A) Policy on location of predetermined access locations.

112.12(1) *General.* At the time access rights are acquired, existing entrances shall be removed or relocated to connect to predetermined access locations. These locations shall thereafter be defined as the adjacent properties' access locations.

a. The department is responsible for the construction of entrances at predetermined access locations, either as a part of the project or at a future date when requested by the property owners. Entrances not constructed as a part of the project will be designated on the construction plans as predetermined access locations that are reserved for the property.

b. Any alteration or relocation of an access location requires the written approval of the department, and the property owner is responsible for all costs incurred. See subrule 112.12(5), revision of access.

112.12(2) *Establishing predetermined access locations.* The department realizes that these rules cannot reasonably be expected to address every situation or issue that may arise when developing plans for a proposed highway improvement project. It is foreseeable that not all access locations will comply strictly with the required or recommended spacing standards set out in these rules; however, all reasonable efforts shall be made to establish predetermined access locations that meet these spacing standards.

a. The department shall establish predetermined access locations by considering the following:

- (1) Zoning and intended land use, as reviewed with city and county officials.
- (2) Potential adverse impacts on adjacent property if spacing standards are applied strictly, such as but not limited to an unreasonable restriction on the property due to a unique physical situation that cannot be remedied or an unreasonable damage to the property.
- (3) Environmental, social, or economic constraints that prevent the application of spacing standards.
- (4) Federal, state, or local standards that conflict with these rules and take precedence.
- (5) Sound engineering judgment consistent with the goals of the department.

b. When establishing predetermined access locations, the department may conduct a field examination, giving consideration to information received from city and county officials, sight distance availability, natural barriers, property ownership, proposed roadway design, and development of future frontage roads.

c. A predetermined access location that does not meet required spacing standards is not a waiver or variance of these rules if justification for the access location is based on one or more of the considerations listed in paragraph "a" of this subrule. The final access review letter must include this justification.

112.12(3) *Spacing.* Spacing between predetermined access locations shall conform to the following requirements:

- a. Priority I highway. Access is allowed only at interchange locations.
- b. Priority II highway. One mile is desirable. One-half mile is the minimum.
- c. Priority III highway. One-quarter mile is desirable. 1,000 feet is the minimum.
- d. Priority IV highway.
 - (1) Priority IV(a). 600 feet is the minimum.
 - (2) Priority IV(b). 300 feet is the minimum.

112.12(4) *Entrances constructed after project completion.* After completion of a highway project, a property owner may request the department to construct an entrance at a predetermined access location. Unless otherwise specified in the right-of-way acquisition contract or in the condemnation documents:

a. The department is responsible for constructing, at the department's expense, a granular-surfaced entrance that does not exceed the maximum width for a Type "C" entrance.

b. The department may approve modifications, such as widening or paving the entrance. In this instance, the property owner is responsible for constructing the entrance. After the property owner has constructed the entrance, the department will compensate the property owner for the cost of constructing a granular-surfaced Type "C" entrance. The property owner is responsible for the remainder of the costs.

112.12(5) Revision of access. After an entrance has been constructed at a predetermined access location, no change in entrance type or location may be made unless a revision of access has been approved by the department. The property owner is responsible for the cost of altering or relocating the entrance.

a. A request for revision of access shall be submitted by the property owner to the appropriate district representative upon the prescribed application form furnished by the department.

b. The application shall be approved or denied by the department's access policy administrator.

c. If the access policy administrator denies the application, the applicant may appeal the decision by submitting to the appropriate district engineer the application along with background information and an explanation of the need for access.

d. If the district engineer denies the application, the applicant may appeal the decision by submitting to the director of transportation the application along with background information and an explanation of the need for access. The director's decision is final agency action.

761—112.13(306A) Policy on special access connections where access rights have been previously acquired.

112.13(1) General. An additional entrance to a property from which access rights have been previously acquired may be permitted only as a special access connection.

a. An applicant for a special access connection should be aware the state of Iowa has previously acquired the rights of direct access to the primary highway from the applicant's highway frontage and, therefore, the applicant has no remaining right of additional direct access to the highway.

This acquisition of access rights is recorded in the local county courthouse and is a restriction placed upon the property.

b. The department realizes there may be locations where granting an entrance within an area where access rights were previously acquired may be consistent with the department's current rules.

In these special cases, the department may authorize a special access connection upon such terms and conditions as may be determined by the department.

c. In an area where access rights were acquired after July 1, 1966, an applicant may be required to reimburse the state for the increase in land value resulting from the new connection, as determined by a department appraisal.

112.13(2) Application.

a. A request for the establishment of a special access connection shall be submitted by the property owner to the appropriate district representative upon the prescribed application form furnished by the department.

b. The application shall be approved or denied by the department's access policy administrator.

c. If the access policy administrator denies the application, the applicant may appeal the decision by submitting to the appropriate district engineer the application along with background information and an explanation of the need for access.

d. If the district engineer denies the application, the applicant may appeal the decision by submitting to the director of transportation the application along with background information and an explanation of the need for access. The director's decision is final agency action.

112.13(3) Requirements.

a. Whenever possible, a special access connection should be established as a joint access location to serve more than one property ownership.

b. A special access connection is a special permit for access and is not a permanent right of access to the highway.

c. The property owner is responsible for all costs incurred for the construction of the approved connection, including any required drainage structure.

d. A special access connection shall be recorded by the department in the county recorder's office and will be a restriction placed upon the property. All provisions of the special access connection shall be binding on successors or assigns of the applicant property owner.

e. Special access connections shall be constructed in compliance with rules 761—112.4(306A), 761—112.5(306A) and 761—112.6(306A).

f. The department shall approve spacing for special access connections in accordance with subrules 112.12(2) and 112.12(3).

112.13(4) Temporary access.

a. The department realizes temporary access may be needed in emergency situations or for highway construction or maintenance purposes. In these cases, a temporary connection may be allowed, but is subject to special stipulations as may be determined by the department.

b. Temporary access shall be authorized for a determinable period of time. The access need not comply with paragraph 112.13(3) "a" (joint access) or 112.13(3) "f" (spacing). The applicant is responsible for all costs incurred, including removal of the access and restoration of the right-of-way.

c. The granting of temporary access to the interstate highway system requires the concurrence of the Federal Highway Administration.

d. A separate application for temporary access is not needed if the temporary access is for a construction or maintenance project, it is shown on the original plan, and it has been approved previously by the department and, when required, the Federal Highway Administration.

761—112.14(306A) Recreational trail connections. This rule establishes requirements for access to the primary road system from recreational trails.

112.14(1) General.

a. No access to a Priority I highway from a recreational trail is allowed.

b. Reserved.

112.14(2) Application.

a. An application for access to a Priority II, III, or IV highway shall be submitted and processed in accordance with subrule 112.13(2).

b. An application for access to a Priority V or VI highway shall be submitted and processed in accordance with subrule 112.4(1).

c. The applicant shall submit with the application a detailed plan sufficient for departmental review. The plan shall include an appropriate recreational trail signing layout.

d. The applicant may contact the appropriate district representative for assistance in preparing the application.

112.14(3) Requirements.

a. Spacing.

(1) Spacing for a Priority II, III, or IV highway shall conform to subrule 112.12(3). It is preferable that an entrance provide access to adjacent properties as well as to the recreational trail.

(2) Spacing for a Priority V or VI highway shall conform to rule 761—112.8(306A) or 761—112.9(306A) as applicable.

b. *Sight distance.* Sight distance for a recreational trail connection shall conform to the desirable sight distance as listed in rule 761—112.2(306A).

c. *Entrance width and radius return.* The entrance width and radius return of a recreational trail connection shall conform to the design standards adopted for the Statewide Iowa Trails Plan.

d. *Entrance angle.* The entrance angle for a recreational trail connection shall be established as near to 90 degrees to the centerline of the primary highway as site conditions will allow.

e. *Slope and cross section.* The slope and cross section of a recreational trail connection shall conform to subrule 112.4(10).

f. *Drainage.* Drainage for a recreational trail connection shall conform to rule 761—112.6(306A).

g. Construction. The permit holder shall be responsible for constructing the recreational trail connection in compliance with the approved permit and at no cost to the department. The department reserves the right to inspect any work performed within the primary highway right-of-way. See subrule 112.3(3).

h. Maintenance. Maintenance responsibilities shall conform to subrule 112.3(4).

These rules are intended to implement Iowa Code sections 306.19, 306A.1 to 306A.8, and 319.14.

CHAPTER 115
UTILITY ACCOMMODATION
[Prior to 6/3/87, Transportation Department[820]—(06,D) Ch 1]

761—115.1(306A) General information.

115.1(1) *Scope of chapter.* This chapter covers initial placement, adjustment and maintenance of utility facilities in, on, above or below the right-of-way of primary highways, including attachments to primary highway structures. It embodies the basic specifications and standards needed to ensure the safety of the highway user and the integrity of the highway.

115.1(2) *Information and forms.* Information and forms regarding this chapter may be obtained from any of the department's six district offices; the Office of Traffic and Safety, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; or the Internet Web site: <http://www.iowadot.gov/traffic/index.htm>.

115.1(3) *Considerations.* If the department determines that the literal application of these rules to a specific situation will create or result in an unsafe situation or an unreasonable design, the department shall use sound engineering practices to determine the appropriate design for the specific situation. The appropriate district office shall include justification for the design in the permit or the highway project file, as applicable. The appropriate design shall address:

- a. Safety of motorists, pedestrians, construction workers and other highway users.
- b. Integrity of the highway.
- c. Protection of the rights of the traveling public and of property owners, including the rights of abutting property owners.
- d. Topography and geometric limitations and constraints affecting typical engineering standards.

115.1(4) *Permit approval process.*

a. A district representative may, in response to an application for a utility accommodation on the primary highway system grant approval for a utility permit. The process for inquiring about and applying for a utility accommodation on the primary highway system is through one of the department's six district offices. All applications for utility permits must be applied for in the particular district where the utility accommodation is proposed. A district representative will do one of the following: approve the application for a utility permit, approve the application for a utility permit with conditions, or deny the application for a utility permit. The district representative may use the considerations set forth in subrule 115.1(3) in making the decision. The district representative shall notify the applicant of the determination in writing.

b. Upon receipt of a denial letter or if the permit was approved with conditions, the applicant may choose to pursue a waiver from the director of transportation, pursuant to subrule 115.1(5).

115.1(5) *Waivers.* The director of transportation may, in response to a written petition, waive provisions of this chapter in accordance with 761—Chapter 11. The written petition must contain the information as required in 761—subrule 11.5(2) and shall be submitted to the Rules Administrator, Operations and Finance Division, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

115.1(6) *Additional requirement for waivers involving interstate highways.* The director of transportation shall not waive these rules in utility accommodation and adjustment situations involving the interstate highway system, including its ramps, without the approval of the Federal Highway Administration.

The emergency may be the result of storm damage and may involve disruption of utility service to customers. Work on a utility facility due to an emergency is unplanned work and may be necessary at any time of the day or night. The emergency work operation usually involves a small crew and a work vehicle for a short period of time.

“*Encasement*” means placing a casing around a utility facility.

“*FHWA*” means the Federal Highway Administration.

“*Foreslope*” means the sloping surface of an embankment, ditch, or borrow pit of which the downward inclination is away from the traveled way.

“*Freeway*” means a fully controlled access primary highway. The rights of ingress and egress from abutting properties have been legally eliminated by the department. Permanent access to the highway is allowed only at interchange locations. A freeway is generally five or more miles in length.

“*Highly energized*” means an electrical energy level that could be hazardous if the utility facility is struck or exposed. For purposes of this chapter, voltage exceeding 60 volts is considered to be highly energized.

“*Highway*,” “*street*” or “*road*” means a public way for the purpose of vehicular travel, including the entire area between the right-of-way lines.

“*Interchange*” means a system that provides for the movement of traffic between intersecting roadways via one or more grade separations.

“*Maintenance*” as the term is used in conjunction with a utility facility means any repair or replacement of the utility facility that is not an adjustment and that does not increase the capacity of the original installation. The term “maintenance” when used in conjunction with a highway means repair or other operational activities performed by the department within the highway right-of-way to preserve the function of the highway and its structures.

“*Median*” means that portion of a divided highway separating traffic moving in opposite directions.

“*Multiduct*” means a system comprised of two or more conduits.

“*MUTCD*” means the Manual on Uniform Traffic Control Devices, as adopted in 761—Chapter 130.

“*Nonfreeway primary highway*” means a primary highway that is not a freeway.

“*Occupy the primary highway right-of-way*” means located or to be located in, on, above or below the primary highway right-of-way. The term includes attachments to primary highway structures.

“*Pavement*” means that portion of a roadway used for the movement of vehicles, excluding shoulders.

“*Permit*” means a utility accommodation permit issued by the department. The term “permit” includes any attachments to the permit.

“*Pipe*” means a tubular product used to transport solids, liquids or gases.

“*Pipeline*” means a carrier system used to transport liquids, gases, or slurries.

“*Plowing*” means the installation of a utility line in the ground by means of a plow-type mechanism that breaks the ground, places the utility line and closes the break in the ground in a single operation.

“*Primary highway*” means a road or street designated as a “primary road” in accordance with Iowa Code subsection 306.3(6). This definition includes primary highway extensions in cities and primary highways under construction.

“*Right-of-way*” means the land for a public highway, street or road, including the entire area between the property lines. For purposes of this chapter, the right-of-way line for a freeway is the access control line.

“*Roadway*” means that portion of a highway used for the movement of vehicles, including shoulders and auxiliary lanes. A divided highway has two or more roadways.

“*Rural-type roadway*” means a roadway that does not have as its outside extremities a curb and gutter section.

“*Service connection*” means a water, gas, power, communication, sanitary sewer or storm sewer line that extends from the main or primary utility facility into an adjacent property and that is used to serve the property.

“*Shoulder*” means that portion of a roadway contiguous to the traveled way for the accommodation of disabled vehicles, for emergency use and for the lateral support of the pavement base and surface courses.

“*Toe of foreslope*” means the intersection of the foreslope and the natural ground or ditch bottom.

“*Traveled way*” means that portion of a roadway used for the movement of vehicles, excluding shoulders and auxiliary lanes.

“*Trenched*” means installed in a narrow open excavation.

“*Trenchless*” means installed without breaking the ground or the pavement surface, such as by jacking, boring, tunneling or mechanical compaction.

“*Urban-type roadway*” means a roadway that has as its outside extremities a curb and gutter section.

“*Utility*” means a system for supplying water, gas, power, or communications; a storm sewer, sanitary sewer, drainage tile or other system for transmitting liquids; a pipeline system; or like service systems. The term “utility” includes traffic signal systems and street and intersection lighting systems.

“*Utility access*” means an opening in an underground utility system through which workers or others may enter for the purpose of making installations, inspections, removals, repairs, connections or tests.

“*Utility facility*” means any pole, pipe, pipeline, pipeline company facility, sewer line, drainage tile, conduit, cable, aqueduct or other utility-related structure or appurtenance. However, the term does not include department facilities or the utility lines that service them.

“*Utility owner*” means the owner of a utility facility.

“*Vent*” means an appurtenance used to ventilate or to discharge gaseous contaminants from casings.

761—115.3 Reserved.

761—115.4(306A) General requirements for occupancy of the right-of-way.

115.4(1) *Permit required and exceptions to permit.*

a. Permit required.

(1) A utility owner shall obtain permission from the department in the form of a utility accommodation permit before it places its utility facilities in, on, above or below the primary highway right-of-way; attaches its utility facilities to a primary highway structure; or adjusts existing utility facilities occupying the right-of-way.

(2) The purpose of the permit process is to ensure the safety of motorists, pedestrians, construction workers and other highway users; to ensure the integrity of the highway; and to document the location of utility facilities for use in managing the highway right-of-way and in locating the facilities in the future.

b. Exceptions to required permit.

(1) A permit is not required for storm sewers, subdrains, and lighting designed and constructed as part of a department highway construction project.

(2) A permit is not required for service connections within the corporate limits of a city. These connections require city approval rather than department approval; the utility owner shall apply to the city. However, service connections shall meet all other requirements of this chapter.

115.4(2) Agreement required. For certain utility facility adjustments, the department may require an agreement between the department and the utility owner. However, the agreement by itself does not constitute a permit nor does it grant permission to occupy the primary highway right-of-way. The utility owner is responsible for obtaining a permit prior to commencing work within the right-of-way. The agreement shall then be attached to and become a part of the permit.

115.4(3) Compliance with requirements. It is the responsibility of the utility owner to ensure that its utility facility complies with all applicable federal, state, local and franchise requirements and meets generally accepted industry standards at the time of installation.

115.4(4) Performance bond. The department may require a performance bond for utility work within the highway right-of-way under the following circumstances: the installation is unusual; abnormal site conditions exist, such as but not limited to unstable soil or unique vegetation; or the utility owner has a history of performance problems. A performance bond is required for longitudinal freeway occupancy; see subrule 115.16(9) for specific requirements.

a. If a performance bond is required, the utility owner shall file the bond with the department prior to commencing work within the right-of-way.

b. The minimum amount of a required performance bond is \$5,000 per permit. Depending on the type and extent of the facility installed, the department may require a higher bond amount. The bond shall be in force for the duration of the permit. The department shall have the right to file a claim against the bond for two years thereafter.

c. The department may accept an annual performance bond in the amount of \$50,000 for statewide activities in lieu of an individual bond for each permit. The statewide performance bond shall be kept in force for as long as the utility owner's facilities occupy the primary highway right-of-way anywhere within the state of Iowa. The department shall have the right to file a claim against the bond for two years thereafter.

d. A performance bond shall guarantee prompt restoration of any damage that is the result of the utility facility's occupancy of the highway right-of-way.

115.4(5) Execution of work. Utility construction and maintenance work within the primary highway right-of-way shall be executed in a satisfactory manner and in accordance with good construction practices.

115.4(6) Disturbance of other contractors. Utility construction and maintenance work within the primary highway right-of-way shall be accomplished in a manner that minimizes disturbance to any other contractor working within the right-of-way. It is the responsibility of the utility owner to coordinate work with other contractors.

115.4(7) No adverse effect on highway. A utility facility shall not adversely affect the safety, design, construction, operation, maintenance or stability of the present use or future expansion of a primary highway.

115.4(8) Safety, health and sanitation. Construction and maintenance of a utility facility shall be accomplished in a manner that minimizes disruption of primary highway traffic and other hazards to the highway user. The utility owner shall comply with the MUTCD and all applicable federal, state and local statutes, ordinances and regulations governing safety, health and sanitation. The owner shall furnish such additional safeguards, safety devices and protective equipment and shall take such actions as are reasonably necessary to protect the life and health of the public.

115.4(9) Parking or storage in clear zone or median. When not in actual use, vehicles, equipment and materials shall not be parked or stored within the clear zone or median.

115.4(10) Protection of landscaped or planted areas. A landscaped or planted area that is disturbed shall be restored as nearly as practical to its original condition. Specific authorization must be obtained from the district representative prior to trimming trees or spraying within the right-of-way.

115.4(11) Noncompliance. The department may take any or all of the following actions for noncompliance with any provision of this chapter or any term of a permit:

- a. Halt utility construction or maintenance activities within the right-of-way.
- b. Withhold an adjustment reimbursement until compliance is ensured.
- c. Revoke the permit.
- d. Remove the noncomplying construction or maintenance work, restore the area to its previous condition, and assess the removal and restoration costs to the utility owner.
- e. Place all pending and future permits on hold until the issue is resolved.

115.4(12) Private utility facility. A utility facility that is dedicated to private use shall be accommodated in accordance with this chapter. However, the district representative may, when necessary, allow an exception to the cover requirements of subrule 115.13(1) for tile lines and sewer lines.

115.4(13) Insufficient capacity of right-of-way. The department shall deny issuance of a permit if it determines there is insufficient room for additional utility facilities within the right-of-way.

761—115.5(306A) General design provisions.

115.5(1) Plans. Design plans for a utility facility shall be prepared by a person knowledgeable in highway design and in work zone traffic control and shall include the measures to be taken to preserve the safe and free flow of traffic, structural integrity of the roadway and highway structures, ease of highway maintenance, appearance of the highway and integrity of the utility facility.

115.5(2) Materials. All utility facilities shall consist of durable materials designed for long service life expectancy and be relatively free from routine servicing and maintenance.

115.5(3) Number of crossings. The number of utility facilities crossing the primary highway right-of-way shall be kept to a minimum. The department may require distribution facilities to be installed on each side of the highway to minimize the number of crossings and service connections. In individual cases, the department may require several facilities to cross in a single conduit or structure. Crossings should be as near to perpendicular to the highway alignment as practical.

115.5(4) Aboveground facilities. The design of aboveground utility facilities shall be compatible with the visual quality of the specific highway section being traversed. See rule 761—115.6(306A).

115.5(5) Clear zone requirements and aboveground obstructions. Highway roadsides shall be as free from physical obstructions above the ground as practical. The department shall determine the clear zone distance.

- a. The clear zone distance on rural-type roadways is based on present day traffic and the existing foreslope adjacent to and preceding the utility facility.
- b. Unless otherwise specified, the clear zone shall be measured from the edge of the traveled way.
- c. In rural areas with rural-type roadways, a permanent, aboveground obstruction is restricted to an area beyond the clear zone or the highway foreslope, whichever area locates the obstruction a greater distance from the edge of the traveled way.
- d. If sufficient right-of-way is not available to accommodate the clear zone distance, the department may require the utility facility to have a breakaway design, require regrading of the right-of-way, require the utility facility to be located underground, or authorize the facility to be placed near the right-of-way line.

761—115.6(306A) Scenic enhancement.

115.6(1) Introduction. The type and size of a utility facility and the manner in which it is installed can materially alter the scenic quality, appearance and view of highway roadsides and adjacent areas. For these reasons, additional controls are applicable in areas that have been acquired or set aside for their scenic quality. Such areas may include, but are not limited to, scenic strips, scenic overlooks, rest areas, recreation areas, public parks and historic sites, aesthetically enhanced corridors, and the

right-of-way of primary highways that pass through or are adjacent to these areas. These additional controls are addressed in this rule.

115.6(2) *Underground installations.* The department may permit a new underground installation if it does not require extensive removal or alteration of trees or other natural features visible to the highway user and if it does not impair the visual quality of the area being traversed.

115.6(3) *Aboveground installations.* The department may permit a new aboveground installation only if the following three conditions are met:

- a. Other locations for an aboveground installation are unusually difficult, are unreasonably costly, or are less desirable from the standpoint of visual quality.
- b. Underground installation is not technically feasible or is unreasonably costly.
- c. The location, design and materials to be used for the proposed aboveground installation will give adequate attention to the visual qualities of the area being traversed.

761—115.7(306A) Liability.

115.7(1) Liability under a permit. The following are conditions of a utility accommodation permit.

a. The owner of the utility facility shall indemnify and save harmless the state of Iowa, its agencies and employees from any and all causes of action, suits at law or in equity, for losses, damages, claims or demands, and from any and all liability and expense of whatsoever nature (including reasonable attorney fees), arising out of or in connection with the owner's use or occupancy of the primary highway right-of-way.

b. The state of Iowa, its agencies or employees, will be liable for expense incurred by the permit holder in its use and occupancy of the primary highway right-of-way only when negligence of the state, its agencies or employees, is the sole proximate cause of such expense. Whether in contract, tort or otherwise, the liability of the state, its agencies, and employees is limited to the reasonable, direct expenses to repair damaged utilities, and in no event will such liability extend to loss of profits or business, indirect, special, consequential or incidental damages.

115.7(2) Reserved.

761—115.8(306A) Utility accommodation permit.

115.8(1) *Application for permit.*

a. To apply for a utility accommodation permit, the utility owner shall submit an application to the appropriate district representative on a form prescribed by the department.

b. If the utility facility will cross or impact a county road connection, the application must be approved by the county. If the facility is within corporate limits of a city, the application must be approved by the city. The utility owner is responsible for obtaining these approvals prior to submitting the application to the department.

115.8(2) *Permit.*

a. At a minimum, a utility accommodation permit allows:

- (1) The applicant (the utility owner) or its representative to perform the work covered by the permit.
- (2) The utility facility described in the permit to occupy the right-of-way.
- (3) The utility facility to be operated and maintained.

b. A utility accommodation permit does not convey a permanent right of occupancy.

115.8(3) *Plan.* Each permit application shall be accompanied by a plan showing the following:

a. Location of the utility facility by route, county, section, township, range, milepost and highway stationing, where these references exist.

b. Highway centerline and right-of-way limits.

c. Location of the utility facility by distance to the nearest foot at each point where the facility's location changes alignment, as measured from the:

- (1) Centerline of the highway on nonfreeway installations.
- (2) Right-of-way fence on freeway installations.

d. All construction details including the:

- (1) Depth of burial.

- (2) Types of materials to be used in the installation.
- (3) Operating pressures and voltages.
- (4) Vertical and horizontal clearances.
- (5) Traffic control plan prepared by a person knowledgeable in work zone traffic control, or a reference to a standard traffic control plan of the department.

115.8(4) *Discharging into waterways.*

a. A permit application for the placement of a utility facility that will discharge materials into the nation's waters must be accompanied by satisfactory evidence of compliance with all applicable federal, state and local environmental statutes, ordinances and regulatory standards.

b. The utility owner is responsible for obtaining all necessary approvals from the appropriate agencies. The department will not issue a permit until these approvals are obtained.

115.8(5) *Department action on permit application.*

a. The department shall act on the permit application within 30 days after its filing with the appropriate district representative. If an emergency should exist, the department shall act on the application as expeditiously as practical.

b. Failure on the part of the utility owner to provide complete information may result in a delay in the department's taking final action on the application.

115.8(6) *Changes to work.* Changes in the work as described in the original permit require the prior approval of the department.

115.8(7) *Copy of permit at job site.* The utility owner or its contractor shall have a copy of the permit on the construction site at all times for examination by highway officials.

115.8(8) *As-built plans.*

a. Within 90 days after completion of construction, the utility owner shall submit to the district representative an as-built plan or a letter certifying that the actual placement of the utility facility is as described in the original permit.

b. If the utility owner fails to submit the as-built plan or letter within the time required, the department may hire an independent contractor to locate the utility facility and prepare an as-built drawing. All costs associated with this activity are the responsibility of the utility owner.

c. Any costs incurred by the department or its contractors due to incorrect as-built information supplied by the utility owner or deviations in actual placement from that described in the original permit are the responsibility of the utility owner.

115.8(9) *Transfer of permit.* A new utility accommodation permit is not needed when a utility facility is transferred or leased in its entirety. The requirements of the permit and this chapter remain in force for as long as the utility facility continues to occupy the right-of-way and serve its intended purpose. The transferee or lessee shall submit the following information to the appropriate district representative:

- a. The name and address of the transferee or lessee.
- b. Geographical area involved in the transaction.
- c. Designated telephone number for notification purposes.

115.8(10) *Expiration of certain permits.* See subrule 115.16(12) for permits covering longitudinal occupancy of freeways.

761—115.9(306A) Traffic protection.

115.9(1) *Traffic control for all work.*

a. When performing work within the right-of-way, the utility owner is responsible for providing, installing, maintaining and cleaning warning signs and protective devices; removing warning signs and protective devices when the work is complete; and providing flaggers.

b. Flagging operations and the placement of warning signs, protective devices, barricades and channelizing devices shall comply with the MUTCD and department requirements for the protection of the traveling public and workers on the site.

c. Flaggers are required at work sites to stop traffic intermittently as necessitated by work progress or to maintain continuous traffic past a work site at reduced speeds to help protect the work crew. For both of these functions the flagger must, at all times, be clearly visible to approaching traffic for a distance

sufficient to permit proper response by motorists to the flagging instructions, and to permit traffic to reduce speed before entering the work site. In positioning flaggers, consideration must be given to maintaining color contrast between the work area background and the flaggers' protective garments.

d. The utility owner shall provide additional protection when special complexities and hazards exist.

115.9(2) *Traffic control for construction and maintenance work that is not emergency work.*

a. The utility owner is responsible for using the types of traffic controls that are adequate for the nature, location and duration of work, type of roadway, traffic volume and speed, and potential hazards.

b. Where high traffic volumes cause frequent congestion, routine scheduled maintenance and construction should be avoided during hours of peak traffic.

c. Work areas should be occupied for only as long as it is necessary to safely move in, finish the work, remove all utility work signs and move out.

d. Special care should be taken to clearly mark suitable boundaries for the workspace with channelizing devices so that pedestrians and drivers can see the workspace. If any of the traveled lanes are closed, tapers shall be used as required by the MUTCD.

e. Pedestrians should not be expected to walk on a path that is inferior to the previous path. Loose dirt, mud, broken concrete or steep slopes may force pedestrians to walk on the roadway rather than the sidewalk. Repairs (temporary or permanent) to damaged sidewalks should be made quickly. This may include bridging with steel plates or good quality wood supports.

f. Work areas involving excavations on the roadway should not exceed the width of one traffic lane at a time. The work should be staged and, if needed, approved bridging should be used. The utility owner should fully coordinate this type of activity with the district representative or, in a city, with the city's traffic or public works office.

115.9(3) *Traffic control for emergency work.*

a. The extent of traffic control used for emergency work may be less than that used for longer-term construction or maintenance. However, the utility owner shall provide for the safety of pedestrians, motorists and workers. It may be necessary for the utility owner to contact local law enforcement officials to assist in securing the safety of the traveling public.

b. The work vehicle should be equipped with an amber revolving light or amber strobe light, portable signs and channelizing devices, and necessary equipment for flagging operations.

761—115.10(306A) Construction responsibilities and procedures.

115.10(1) *Permit required before work may begin.* The utility owner shall not commence construction work in the primary highway right-of-way until it has received a utility accommodation permit from the department for the work.

115.10(2) *Notice of construction.* The utility owner shall give the district representative at least 48 hours' prior notice of its intent to start construction within the right-of-way.

115.10(3) *Authority of the district representative.*

a. The district representative has the authority to resolve any issues or concerns that arise regarding the intent of the permit and compliance therewith, as they relate to the condition of the highway.

b. During the progress of the work, the district representative may approve minor alterations in the plans or character of the work, as they relate to the condition of the highway, that the district engineer deems necessary or desirable to satisfactorily complete the work. Such an alteration is not a waiver of the permit nor does it invalidate any provision of the permit.

115.10(4) *Work in progress.* The utility owner is responsible for the care and maintenance of partially completed work within the right-of-way. Unless otherwise authorized by the permit or the district representative, all work performed within the right-of-way is restricted to a time frame of 30 minutes after sunrise to 30 minutes before sunset.

115.10(5) *Authority of department to inspect and approve.*

a. The department may inspect and approve any construction work performed within the right-of-way as it relates to the condition of the highway.

b. The utility owner shall provide reasonable cooperation.

115.10(6) *Department inspectors.* The department may appoint inspectors to represent the department in the inspection of construction. Inspectors are placed on the job to keep the district representative informed of the progress of the work and the manner in which it is being performed, and to call to the utility owner's attention any infringements of the permit. The inspectors shall not:

- a. Modify in any way the provisions of the permit.
- b. Delay the work by failing to inspect the work with reasonable promptness.
- c. Act as a supervisor for the work or perform any other duties for the utility owner or its contractor.
- d. Improperly interfere with the management of the work.
- e. Approve or accept any portion of the work on behalf of the department.

115.10(7) *Repair and cleanup.* Prior to the department's final inspection, the utility owner shall:

- a. Upon notification by the department, immediately make any repairs to the right-of-way that are necessary due to the construction work.
- b. Remove from the right-of-way all unused materials and rubbish resulting from the work and leave the right-of-way in a clean, presentable condition.

115.10(8) *Final inspection.*

a. Upon notification by the owner of the utility facility or its authorized representative that the work is complete, the district representative may inspect each item of work included in the permit as it relates to the condition of the highway.

b. If the district representative finds that the work is not in compliance with the permit, the district representative shall provide to the utility owner written notice of the particular defects found. The owner is responsible for remedying these defects in a timely manner.

761—115.11(306A) Vertical overhead clearance requirements.

115.11(1) *Conformance to standards.* The vertical clearance for overhead utility facilities and the lateral and vertical clearances for bridges shall conform to accepted industry standards as well as applicable codes and regulations.

115.11(2) *Minimum vertical clearance.* In no event shall the vertical clearance be less than 20 feet above the roadway for all overhead utilities.

761—115.12(306A) Utility facility attachments to bridges.

115.12(1) *Electrical power and communication cable attachments.*

a. An electrical power or communication cable may be attached to an existing primary highway bridge if the department determines that the attachment is in the best interests of the public. The department may accommodate an electrical power or communication cable attachment in its design for a new bridge if the department determines that the accommodation is in the best interests of the public.

b. The permit application shall include a detailed sketch showing the method of attachment and weights of attachment. A separate permit is required for each bridge.

c. All attachments shall be placed in conduits, pipes or trays; beneath the bridge's floor; and above low steel or masonry of the bridge. Department-approved clamps shall be used for any attachment to structural steel.

d. Expansion devices are required. Cables in cells or casings shall be grounded wherever necessary. Carrier pipe shall be suitably insulated from electrical power line attachments.

e. All costs attributable to the installation of an attachment to a bridge shall be paid by the utility owner unless the attachment is installed pursuant to a utility agreement.

f. Welding or drilling holes in structural steel primary members is prohibited.

g. Utility facilities may be attached to noncritical concrete areas.

h. Holes should not be cut in wing walls, abutments or piers.

115.12(2) *Pipeline attachments.*

a. Pipelines may be attached to primary highway bridges when installation below ground is not feasible, the design of the bridge can accommodate the attachment, and space is available.

b. The permit application shall include a detailed sketch showing the method of attachment and weights of attachment. A separate permit is required for each bridge.

c. Pipes shall be placed beneath the bridge's floor, inside the outer girders or beams (or in cells specifically designed for the installation), and above low steel or masonry of the bridge.

d. Pipes shall be designed to withstand expected expansion or contraction forces. If necessary, expansion devices such as expansion joints, offsets or loops shall be used.

e. Pipelines in cells or casings shall be vented and grounded whenever necessary.

f. Pipelines that have an operating pressure of more than 75 pounds per square inch or that are larger than two inches in diameter shall have shutoffs not more than 300 feet from each end of the bridge.

g. The department shall consider casing requirements on an individual basis. In some instances, thicker-walled or extra-strength pipe may be considered in lieu of encasement. Encasement is required for plastic pipe attachments to bridges.

h. All costs attributable to the installation of an attachment to a bridge shall be paid by the utility owner unless the attachment is installed pursuant to a utility agreement.

i. Welding or drilling holes in or attaching to structural steel primary members is prohibited.

j. Utility facilities may be attached to noncritical concrete areas.

k. Holes should not be cut in wing walls, abutments or piers.

l. The utility owner shall provide an indemnity bond to be executed by either itself or by a responsible bonding company, at the department's option.

(1) The indemnifier under the bond shall, in the event of damage resulting from any cause whatsoever arising out of or from permission to attach a pipeline, indemnify the department against all loss or damage to it or any third party therefrom, including but not limited to the expense of repairing or replacing the bridge and the cost of alternate highway facilities for traffic during the period when the bridge is being repaired or replaced.

(2) The indemnity bond shall be kept in force for as long as the pipeline is attached to the bridge. The department may periodically review the amount of the bond and require adjustments in the bond amount.

115.12(3) Attachment fee.

a. The utility owner shall pay to the department an attachment fee for attaching its utility facility to a primary highway bridge. The attachment fee is \$100 per bridge plus \$0.55 times the weight of the attachment in pounds per foot times the length of bridge in feet. The fee shall increase 3 percent per year after the base year of 2004.

b. The attachment fee is due before any construction work commences within the right-of-way.

c. Utility facilities belonging to or exclusively serving a city may, if the department considers it desirable, be attached to a primary highway bridge without assessment of an attachment fee.

115.12(4) Engineering fee. When a primary highway bridge is in the planning stages and the department designs the bridge to accommodate a requested attachment, the department shall assess to the utility owner an engineering fee. The engineering fee shall reimburse the department for the department's increased costs of design, construction and inspection due to the attachment. The department shall bill the fee to the utility owner when the department's work is complete.

115.12(5) Utility attachments to freeway border bridges. The department may permit a utility facility to be attached to an existing or planned freeway border bridge if the following conditions are met:

a. The appropriate state agency of the adjoining state approves the attachment.

b. Except for communication cable, the facility exits the freeway right-of-way as soon as physically practical after crossing the state line into Iowa.

c. The attachment otherwise complies with this chapter, specifically including this rule on attachments and rule 761—115.16(306A) on longitudinal freeway occupancy.

761—115.13(306A) Underground utility facilities.

115.13(1) Depth requirements.

a. *Minimum cover—roadway.* The minimum required cover under a roadway is 48 inches.

b. Minimum cover—other portions of right-of-way. The minimum required cover under other portions of the right-of-way is:

- (1) 48 inches for electrical cable.
- (2) 30 inches for communication cable except that 36 inches is required for longitudinal occupancy under freeway right-of-way.
- (3) 36 inches for all other underground facilities.

c. Rocky terrain. The department may allow an exception to the minimum depth requirement where rocky terrain makes it difficult to obtain the required depth. The department shall determine the minimum depth in these situations; however, no installation shall be authorized with less than 24 inches of cover.

d. Other protective measures. In critical situations where the necessary cover cannot be obtained, the department may approve other protective measures.

115.13(2) Measurement of cover. The cover is measured from one of the following:

- a.* On rural-type roadways, the lowest pavement surface edge.
- b.* On urban-type roadways, the gutter flow line, excluding local depressions at inlets.
- c.* Where longitudinal installations will be behind the curb, the top of the curb.
- d.* The surface of the surrounding ground or the low point of the ditch.

115.13(3) Casing. A casing shall:

- a.* Protect the highway from damage.
- b.* Protect the carrier pipe from external loads or shock, either during or after construction of the highway.
- c.* Convey leaking liquids or gases away from the area directly beneath the traveled way.
- d.* Provide for repair, removal and replacement of the utility facility without interference to the highway.

115.13(4) Seals. Casing pipe shall be sealed at both ends with a suitable material to prevent water or debris from entering the annular space between the casing and the carrier, in accordance with generally accepted industry standards.

115.13(5) Transverse occupancy—encasement and related requirements.

a. Trenchless construction. Underground transverse crossings of existing paved roadways shall be made by trenchless construction whenever practical. Any exception to this requirement must be specifically authorized by the district representative and noted in the permit.

b. Electrical service. Underground electrical service must be placed in a conduit from right-of-way line to right-of-way line and shall be clearly marked by the utility owner at the outer limits of the right-of-way.

c. Pipelines.

(1) Except as set out in 115.13(5)“c”(2), a pipeline carrying natural gas at an operating pressure of greater than 60 pounds per square inch, liquid petroleum products, ammonia, chlorine or other hazardous or corrosive products shall be encased from right-of-way line to right-of-way line.

(2) Encasement of a pipeline carrying a product listed in 115.13(5)“c”(1) is not required if the pipeline meets all of the following requirements and the utility owner certifies as a part of the permit that these requirements are met:

- It is welded steel pipeline.
- It is cathodically protected.
- It is coated in accordance with accepted industry standards.
- It complies with federal, state and local requirements and meets accepted industry standards regarding wall thickness and operating stress levels.

(3) A pipeline carrying a product listed in 115.13(5)“c”(1) shall be vented and marked at the outer right-of-way limits. The markers shall comply with accepted industry standards and include the following information: name and address of the owner, telephone number to contact in case of an emergency, and type of product carried.

(4) Encasement of a natural gas pipeline with an operating pressure that is not greater than 60 pounds per square inch is not required if the pipeline is made of copper, steel or plastic; the pipeline is

protected and installed in accordance with accepted industry standards; and the utility owner certifies as a part of the permit that these standards are met. Otherwise, encasement is required.

d. Communication cable. The department may require encasement of communication cable.

e. Sanitary sewer lines. Sanitary sewer lines, both gravity and force mains, shall be encased from right-of-way line to right-of-way line. Exception: A gravity flow line that is installed subsequent to highway construction need not be encased if it will meet all of the following requirements:

(1) The opening is cut to the size of the carrier pipe so that there are no excessive voids around the pipe.

(2) The pipe is of sufficient strength to withstand the external loads created by the vehicular traffic on the roadway being traversed.

(3) Lines beyond the toe of foreslope are properly embedded.

f. Waterlines. Waterlines shall be encased from right-of-way line to right-of-way line. Exceptions:

(1) Encasement is not required where it is impractical due to existing conditions, as determined by the district representative. As a minimum, waterlines shall be encased from toe of foreslope to toe of foreslope.

(2) Waterlines with an inside diameter of two inches or less need be encased only from toe of foreslope to toe of foreslope. Venting and sealing of the encasement are not required.

(3) Properly embedded waterlines that are installed prior to highway construction need not be encased if extra strength cast iron or ductile iron pipe with mechanical joints and seals, or equivalent, is used from right-of-way line to right-of-way line.

g. Installations vulnerable to damage. Utility facilities that by reason of shallow depth or location are vulnerable to damage from highway construction or maintenance operations shall be protected with a casing, suitable bridging, concrete slabs or other appropriate measures.

h. Other installations. When it is acceptable to both the utility owner and the department, an underground utility facility not otherwise addressed in this subrule may be installed without protective casing if the installation involves trenched construction or small bores. Encasement requirements will be determined on an individual basis.

115.13(6) Longitudinal occupancy—encasement and related requirements.

a. Utility lines installed longitudinally to the primary highway right-of-way shall be encased at crossings of hard-surfaced side roads, streets and entrances in accordance with subrule 115.13(5).

b. Reserved.

115.13(7) Multiduct systems. The department may require installation of a multiduct system to be shared with others. Details of the installation are subject to department approval.

a. The department shall designate a “lead company” for the system. The lead company is generally the first utility owner requesting occupancy. The lead company is responsible for:

(1) Design and construction of the multiduct system.

(2) Maintenance of the multiduct system.

(3) Providing all capital required to construct the multiduct system.

b. Once a multiduct system has been established, the department shall require future occupancies to be located within one of the unoccupied inner ducts of the system. If all inner ducts are occupied, the department may require the establishment of an additional multiduct system.

c. Each occupant of a multiduct system shall share equally in the entire capital costs of the facility. As each new occupant is added to an existing system, the department shall require the new occupant to pay its proportionate share based on the number of inner ducts it occupies.

d. See subrule 115.16(8) for occupancy fees for longitudinal installations on freeways.

115.13(8) Procedures for backfilling trenched construction and jacking or boring pits.

a. When a carrier, pipe, conduit, or cable is placed by trenched construction, the backfill shall be placed and compacted so that there is no settlement or erosion. If settling or erosion of a trench is observed, it is the responsibility of the utility owner to correct the problem.

b. Jacking or boring pits shall be backfilled in the same manner as that described in paragraph “a” of this subrule.

c. Backfill under roadways or entrances shall be of a suitable material to minimize settlement. Examples of suitable material include granular backfill or flowable mortar.

115.13(9) Procedures for trenchless construction.

a. When trenchless construction techniques are used, the bore shall be as small as practical and in no case more than four inches larger than the facility or casing inserted.

b. Grout backfill is required for all unused holes and abandoned pipes. Grout or sand backfill is required for any borehole more than two inches larger than the installed casing or other facility. All bored facilities shall be constructed in such a manner that surface water is not transported to or otherwise allowed access to groundwater.

115.13(10) Procedures for pavement removal.

a. When the existing pavement must be cut to accommodate a utility installation, the cut shall be made with a concrete saw.

b. The width of the pavement removal shall be a minimum of six feet. If the distance from the specified cut to any adjacent longitudinal or transverse joint or crack is less than four feet, the pavement shall be removed to that joint or crack.

c. The district representative shall make the final determination on the required depth and width of cut.

115.13(11) Procedures for pavement replacement.

a. Restoration of pavement shall be accomplished in accordance with methods approved by the district representative.

b. The district representative may authorize temporary repair with bituminous material.

c. A permanent patch shall be placed as soon as conditions permit.

115.13(12) Clear zone for pits.

a. On freeways, jacking or boring pits are not allowed within the median. A jacking or boring pit shall be located in an area beyond the clear zone or the highway foreslope, whichever area locates the pit a greater distance from the edge of the traveled way, right-of-way width permitting.

b. On rural-type, nonfreeway primary highways, jacking or boring pits are not allowed within the median. A jacking or boring pit shall normally be located in an area beyond the clear zone or the highway foreslope, whichever area locates the pit a greater distance from the edge of the traveled way, right-of-way width permitting. However, a jacking or boring pit may be allowed within the foreslope if it is specifically authorized by the district representative and noted in the permit.

c. On urban-type, nonfreeway primary highways, jacking or boring pits should be located at least two feet back from the curb.

d. Jacking or boring pits authorized within the clear zone shall be protected at all times. Protection may include backfilling of the pit, temporary barrier rail, reflective fence, or other measures. All measures must be approved by the district representative.

115.13(13) Construction methods. Casing and pipeline installations shall be accomplished by dry boring, tunneling, jacking, trenching, directional drilling or other approved methods.

a. The use of water under pressure (jetting) or puddling to facilitate boring, pushing or jacking operations is not allowed.

b. However, a boring operation that requires the use of water only to lubricate the cutter and pipe is considered dry boring and is allowed.

115.13(14) Encasement material. It is the responsibility of the utility owner to ensure that it complies with all applicable federal, state, local and franchise requirements and meets generally accepted industry standards in the selection of encasement materials.

761—115.14(306A) Freeways.

115.14(1) Access to utility facilities occupying freeway right-of-way.

a. Except for emergency work, access shall not be obtained from the freeway or its ramps during utility construction or maintenance operations. This means that access must be obtained from intersecting, adjacent or nearby public highways, streets, roads or trails or from private property. See subrules 115.9(3) and 115.19(2) for emergency work.

- b. Fence removal and replacement are subject to the limitations imposed by the permit.

b. In the interest of safety and when considered advisable, the district representative may authorize the placement of temporary poles in the median during cable or conductor stringing operations.

115.14(3) Aboveground appurtenances. Unless otherwise provided, aboveground appurtenances are not allowed within the right-of-way of freeways.

115.14(4) Existing facilities.

a. A utility facility occupying land that subsequently becomes freeway right-of-way may remain within the right-of-way if the facility:

- (1) Can be accessed from other than the freeway or its ramps.
- (2) Does not adversely affect the safety, design, construction, operation, maintenance or stability of the freeway.

b. If these conditions are not met, the facility shall be relocated.

761—115.15(306A) Transverse installations on freeways.

115.15(1) Interchange areas.

a. Utility facilities are not allowed within the interchange area of intersecting freeways unless they are highway-related.

b. In other interchange areas, the department may permit occupancy if access to the utility facility can be obtained from other than the freeway or its ramps. If a utility facility cannot reasonably be accessed from an intersecting, adjacent or nearby public highway, street, road or trail, the utility facility shall be installed on private property outside the interchange area.

115.15(2) Aboveground installations.

a. Poles, guys and other supporting structures and related aboveground facilities should be located outside the freeway right-of-way. A single span shall be used to cross the freeway where the width of freeway right-of-way permits.

b. Within interchange areas:

- (1) Single-pole construction shall be used, with the number of poles kept to a minimum.
- (2) Overhead lines shall be constructed on tangent, parallel to the intersecting road, without guys or anchors being placed in the areas between the ramps and the main roadways of the freeway. Guy poles shall be located as near to the freeway right-of-way line as practical.
- (3) Poles should be located as close to the toe of foreslope of the intersecting road as practical, but shall remain outside the clear zone.

(4) Poles should be located as far from the main roadways and ramps of the freeway as practical. No poles are allowed within the median or within the clear zone along the ramp pavement and the freeway pavement.

(5) The use of self-supporting poles or towers, double arming and insulators, breakaway devices and dead-end construction should be considered.

115.15(3) Encasement requirements. Underground facilities crossing the freeway shall be encased from right-of-way-line to right-of-way line. Exception: Encasement of a pipeline carrying natural gas at an operating pressure of greater than 60 pounds per square inch, liquid petroleum products, ammonia, chlorine or other hazardous or corrosive products is not required if the pipeline meets the requirements of subparagraph 115.13(5) "c"(2).

761—115.16(306A) Longitudinal installations on freeways.

115.16(1) *Type of installation permitted.*

a. The engineer is responsible for overseeing continuous on-site inspection of the installation of the facility including all provisions pertaining to access to the work site and traffic control.

b. Upon completion of the project, the engineer shall certify to the department on the appropriate forms that the installation, traffic control, and access to the work site were accomplished in accordance with the permit.

c. Any change to the alignment as described in the original permit requires the prior approval of the department and the submission of as-built plans.

115.16(8) *Occupancy fee.* The utility owner shall pay to the department an annual fee for longitudinal occupancy of the freeway right-of-way. The initial fee is due before any construction work commences within the right-of-way.

a. Unless otherwise specified, the annual fee shall be as follows:

(1) When a multiduct system is required by the department: flat fee of \$14,500 per cable installation or \$7,250 per mile of cable, whichever is greater. These fees shall increase 3 percent per year after the base year of 2004.

(2) All other installations: flat fee of \$12,000 per cable installation or \$2,500 per mile of cable, whichever is greater. These fees shall increase 3 percent per year after the base year of 2004.

b. When the department requires the installation of a multiduct system, the department may enter into an agreement with the lead company for a discounted fee payment schedule to be in effect until the company has recovered all or an agreed upon portion of its cost of installing the system. Subsequent occupants of the multiduct system shall pay the full annual fee.

c. The department may negotiate an annual fee for occupancy dedicated solely to state government use.

115.16(9) Performance bond. The utility owner shall file a performance bond with the department prior to commencing work within the freeway right-of-way.

a. The bond shall be in the amount of \$100,000 per permit and shall guarantee prompt restoration of any damage caused during the installation of the utility facility.

b. The bond shall be in force for the duration of the construction. The department shall have the right to file a claim against the bond for two years thereafter.

a. The utility owner shall maintain the following insurance for bodily injury, death and property damage arising out of or in connection with the construction, maintenance and operation of the facility:

(1) General public liability insurance with limits of not less than \$500,000 for injury to or death of a single person, or not less than \$1,000,000 for any one accident, and not less than \$250,000 per accident for property damage.

(2) Comprehensive automobile liability insurance with limits of not less than \$500,000 for injury to or death of a single person, or not less than \$1,000,000 for any one accident, and not less than \$250,000 per accident for property damage.

(3) Excess liability coverage with limits of not less than \$5,000,000.

(4) Statutory workers' compensation coverage.

b. This insurance shall be in effect before the utility owner commences any work within the freeway right-of-way.

c. Coverage may be provided by blanket policies of insurance covering other property or risks.

d. The department shall be named as an additional insured party in the general public liability and excess liability insurance policies.

115.16(11) Future adjustment.

a. As a condition of the permit, the utility owner shall agree to waive all future rights to be reimbursed for adjustment costs incurred should maintenance or construction of the freeway system require adjustment of the utility facility.

b. Should adjustment of the utility facility be required, the department makes no assurance nor assumes any liability to the utility owner that the facility will again be allowed to occupy the freeway right-of-way.

115.16(12) Term of permit. The term of the permit shall not exceed 20 years. When the permit expires, the department may extend it in writing or renegotiate its terms.

115.16(13) Utilities for highway facilities. Longitudinal occupancy of utility facilities that service highway-related facilities are permissible upon such terms and conditions as the department may determine.

761—115.17(306A) Nonfreeway primary highways.

115.17(1) Clear zone requirements and aboveground obstructions. Subrule 115.5(5) applies. In addition:

a. In urban areas with rural-type roadways and speed limits of 45 miles per hour or lower, a permanent, aboveground obstruction shall be located at least 15 feet from the edge of the paved traveled way or beyond the highway foreslope, whichever location is farther from the traveled way.

b. On urban-type roadways, the face of a permanent, aboveground obstruction shall be located no closer than ten feet from the back of the curb. In areas with parking or auxiliary lanes, aboveground obstructions shall be located no closer than two feet behind the back of the curb or a minimum of ten feet from the edge of the traveled way, whichever location is farther from the traveled way.

c. In rural areas with rural-type roadways, poles, guys and other supporting structures and related aboveground facilities should be located as near to the right-of-way line as practical.

(1) These aboveground obstructions shall be located in an area beyond the clear zone or the highway foreslope, whichever area locates the obstruction a greater distance from the edge of the traveled way, right-of-way width permitting.

(2) In individual cases, the department may require the use of self-supporting poles or towers, double arming and insulators, breakaway devices and dead-end construction.

d. In suburban areas with rural-type roadways and speed limits of 45 miles per hour or lower, utility poles shall be located at least 15 feet from the edge of the paved traveled way or beyond the highway foreslope, whichever location is farther from the traveled way. The preferred location is near the right-of-way line.

e. Poles, guys, anchors and other appurtenances shall not be located in ditches, at drainage structure openings or on roadway shoulders. All poles, guys, anchors and other appurtenances shall be located to minimize interference with the maintenance operations of the department.

f. The district representative may approve the adjustment of minimum setback distances for poles and other appurtenances that have a breakaway design.

115.17(2) Reserved.

761—115.18(306A) Longitudinal installations on nonfreeway primary highways.

115.18(1) *Location.* Longitudinal utility facility installations should be located on uniform alignment as near as practical to the right-of-way line so as to provide a safe environment for traffic operations and to preserve space for future highway improvements and other utility installations.

115.18(2) *Underground installations.*

a. No carrier of flammable, corrosive, expansive or unstable material shall be placed longitudinally within the right-of-way of a nonfreeway primary highway. Exceptions:

(1) A natural gas line with an operating pressure that is no greater than 150 pounds per square inch is permissible.

(2) The department may permit the placement of a natural gas line with an operating pressure that is greater than 150 pounds per square inch only if a suitable alternate location cannot be found.

b. On rural-type roadways, utility facilities shall be located in an area beyond the highway foreslope, right-of-way width permitting, except at locations where this is not acceptable, such as deep ravines or ditches.

c. On urban-type roadways, utility facilities should be located as near to the right-of-way line as practical and preferably not within the traveled way. A utility access placed within the right-of-way shall not protrude above the surrounding surface.

d. In general, utility facilities are not allowed in the median. However, in special cases the district representative may approve such an installation.

761—115.19(306A) Maintenance and emergency work.

115.19(1) *Maintenance responsibilities.* The owner of a utility facility is responsible for its maintenance. The owner shall:

a. Maintain the facility in a good state of repair in accordance with applicable federal, state and local statutes, ordinances and regulatory standards.

b. Replace and stabilize all earth cover and vegetation where they have eroded over an underground utility facility when the erosion is due to or caused by the placement or existence of the facility.

c. Give the department's district representative 48 hours' prior notice of its intent to perform predictable routine maintenance within the right-of-way. Exception: Notice is not required if the predictable routine maintenance is for a service connection located beyond the clear zone of a nonfreeway primary highway.

115.19(2) Utility emergency work.

a. Access to the worksite is permissible from the freeway roadways and ramps when an emergency exists.

b. The utility owner shall take all necessary, appropriate and reasonable measures to protect the safety of the traveling public and cooperate fully with the state highway patrol and the department in completing the emergency work.

c. The utility owner shall notify the department of the emergency as soon as practical, describing the steps being taken to protect the traveling public, the extent of the emergency, and the steps being taken to address the emergency.

d. If the nature of the emergency is such that it interferes with the free movement of traffic, the utility owner shall immediately notify the state highway patrol and the department.

e. When an emergency occurs on the interstate system, the department shall notify the FHWA as soon as practical, describing the steps being taken to protect the traveling public and the steps being taken to address the emergency.

115.19(3) Department emergency work. There will be times when the department performs highway-related emergency work. Examples include but are not limited to stop sign replacement, handling hazardous material spills, and addressing natural disasters and acts of terrorism. If utility facilities are affected, the department shall as soon as practical notify the utility owner of the emergency condition and what steps are necessary to protect the utility facility.

761—115.20(306A) Abandonment or removal of utility facilities.

115.20(1) Notice to department. Within 90 days after the abandonment or removal of all or a portion of an existing utility facility that occupies the primary highway right-of-way, the utility owner shall submit a written notice of abandonment or removal to the department. The notice shall include:

a. Type of facility.

b. Location of the utility facility by route, county, section, township, range, milepost and highway stationing, where these references exist.

c. Name of the original utility owner if different than the current owner.

d. Original utility permit number and date of approval, if known.

115.20(2) Reserved.

761—115.21 to 115.24 Reserved.

761—115.25(306A) Utility facility adjustments for highway improvement projects. Rules 761—115.26(306A) to 761—115.30(306A) establish administrative procedures for utility facility adjustments made necessary by state highway improvement projects. The purpose of these procedures is to adjust utility facilities with minimal delays or added expense. Rules 761—115.26(306A) to 761—115.30(306A) apply to all state highway improvement projects with the following exceptions:

1. Projects the department develops on an accelerated schedule.

2. Projects with no anticipated utility adjustments.

115.25(1) Should the department be responsible for the cost of a utility facility adjustment required for highway work, the department shall not pay for any betterment that results in an increase in the capacity of the facility or for any other adjustment not required by highway construction. The department is entitled to receive credit for the accrued depreciation on replaced facilities and the salvage value of any materials or parts salvaged and retained or sold by the utility owner.

115.25(2) Adjustment costs for which the department is responsible shall be paid on a cost reimbursement basis.

115.25(3) If adjustment of an existing utility facility occupying the right-of-way is required due to highway construction, the utility owner shall adjust the facility without cost to the state and, whenever possible, in advance of the highway work.

761—115.26(306A) Notice of project.

115.26(1) *Determining affected utilities.* The department shall make a reasonable effort to determine what utility facilities are located within the project limits of a state highway improvement project by researching permit files, through field investigations or contacts with one-call locating services, and through contacts with local government units.

115.26(2) *Notifying utilities.* The department shall identify by name the owner of each known utility facility that is located within the project limits. The department shall send to each utility owner a notice of the improvement project, including the route number of the highway, the geographical limits of the project and a general description of the highway work to be done.

115.26(3) *Responding to notice.* The utility owner shall:

a. Within seven calendar days after the date of the notice, reply to the department, acknowledging receipt of the notice.

b. Within 90 calendar days after the date of the notice, provide to the department information about its utility facilities that are in the vicinity of the improvement project, including the name of any company that has utility facilities which coexist with the utility owner's facilities. The utility owner shall reply regardless of whether or not it has facilities in the project's vicinity.

761—115.27(306A) First plan submission, preliminary work plan and agreement.

115.27(1) *First plan.* The department shall submit its first plan to the owner of each known utility facility within the project limits. The first plan shall contain information the owner needs in order to design and lay out the adjustment of its utility facilities, including the placement of adjusted or additional facilities, within the project limits.

115.27(2) *Preliminary work plan.* Within 90 calendar days after the date the department submits its first plan, the utility owner shall provide to the department a preliminary work plan.

a. The preliminary work plan shall include the following:

(1) A narrative description of what work the utility owner will do.

(2) A drawing showing the present and proposed locations of the utility owner's facilities in relation to the highway plan.

(3) Whether the work is dependent on work by another utility owner.

(4) Whether the work can be done prior to highway construction or must be coordinated with the highway contractor.

(5) The number of working days required to complete the work.

(6) A list of permits and approvals the utility owner is required to obtain from governmental agencies and railroad companies for the work, and the expected time schedule to obtain them.

b. If the utility adjustment work is reimbursable, the utility owner shall submit with the preliminary work plan the following:

(1) Copies of documents verifying real estate interests.

(2) A detailed cost estimate for the adjustment, including appropriate credits for betterments or salvage.

115.27(3) *Department review of preliminary work plan.* The department shall review each utility owner's preliminary work plan to ensure compatibility with utility accommodation permit requirements, the plans for the highway improvement project, and the construction schedule.

115.27(4) *Conflict between preliminary work plans.* When requested by the utility owners or when the department determines there is potential for conflict between preliminary work plans, the department shall schedule a coordination meeting. All affected utility owners shall attend the meeting to coordinate

their work plans. The department may allow a utility owner an additional 30 calendar days to submit its preliminary work plan if coordination is required with other utility owners.

115.27(5) *Acceptance of preliminary work plan.* The department shall notify the utility owner of the department's acceptance of the utility owner's preliminary work plan.

a. If the preliminary work plan is not acceptable to the department, the department shall notify the utility owner that the plan is not acceptable and provide a detailed explanation of the problem.

b. The utility owner shall submit a revised preliminary work plan to the department within 30 calendar days after its receipt of notice from the department that the plan was not acceptable.

c. The department shall review the revised preliminary work plan. If the work plan is acceptable, the department shall notify the utility owner of the department's acceptance of the plan.

d. If the work plan is still not acceptable, the process set out in 115.27(5) "a" to "c" shall be repeated.

115.27(6) *Agreement.*

a. The department shall enter into an agreement with the utility owner if the adjustment is eligible for reimbursement.

b. The agreement by itself does not constitute a permit nor does it grant permission to occupy the primary highway right-of-way. The utility owner is responsible for obtaining a utility accommodation permit prior to commencing work within the right-of-way. The agreement will then be attached to and become part of the permit.

761—115.28(306A) Second plan submission, final work plan and permit application.

115.28(1) *Second plan.* After the final public information meeting, the department shall submit its second plan to the owner of each known utility facility within the project limits. The second plan shall show any additional plan information or design changes the owner needs in order to complete its design and layout for the adjustment. The department shall clearly identify to the utility owner the differences between the first and second plans.

115.28(2) *Final work plan.* Within 60 calendar days after the date the department submits the second plan, the utility owner shall provide to the department a final work plan.

a. The final work plan shall include the anticipated starting date for the utility owner's work within the primary highway right-of-way.

b. A completed application for a utility accommodation permit must accompany the final work plan for work within the primary highway right-of-way. The work plan by itself does not constitute a permit nor does it grant permission to occupy the primary highway right-of-way.

c. When requested by the utility owner, the department may allow additional time to complete the final work plan if the second plan requires extensive modifications to the preliminary work plan.

d. If there are no changes to the preliminary work plan, the utility owner need only notify the department that the preliminary work plan is now the final work plan.

115.28(3) *Department review of final work plan.* The department shall review each utility owner's final work plan to ensure compatibility with utility accommodation permit requirements, the plans for the highway improvement project, and the construction schedule.

115.28(4) *Acceptance of final work plan.* The department shall notify the utility owner of the department's acceptance of the utility owner's final work plan.

a. If the final work plan is not acceptable to the department, the department shall notify the utility owner that the plan is not acceptable and provide a detailed explanation of the problem.

b. The utility owner shall submit a revised final work plan to the department within 30 calendar days after its receipt of notice from the department that the plan was not acceptable.

c. The department shall review the revised final work plan. If the work plan is acceptable, the department shall notify the utility owner of the department's acceptance of the plan.

d. If the work plan is still not acceptable, the process set out in 115.28(4) "a" to "c" shall be repeated.

761—115.29(306A) Notice of work.

115.29(1) *Notice of receipt of permits and approvals.* The utility owner shall notify the department within 14 calendar days after the utility owner has received all required permits and approvals from government agencies and railroad companies.

115.29(2) *Notice to utility owner to begin work.*

a. The department shall send a notice to proceed to the utility owner not less than 30 calendar days before the utility owner is required to begin the work provided for in its work plan.

b. If the utility owner's work plan is dependent upon work by the highway contractor, the contractor shall provide the department and the utility owner a good faith notice 14 calendar days before the contractor's work is expected to be complete and ready for the utility owner to begin its work. The highway contractor shall follow up with a confirmation notice to the department and the utility owner not less than three working days before the contractor's work will be complete and ready for the utility owner to begin its work.

115.29(3) *Notice to department of commencement and completion of work.* The utility owner shall give the department 48 hours' prior notice, excluding weekends and holidays, of its intent to start utility adjustment work within the project limits. The utility owner shall also notify the department immediately upon completion of the work.

761—115.30(306A) Miscellaneous adjustment provisions.

115.30(1) *Work plan compliance.* The utility owner shall complete its utility adjustment work within the time frame of the work plan accepted by the department. Upon completion of the work, the utility owner shall certify to the department that the adjustment of its facilities is in accordance with the accepted work plan.

115.30(2) *Project changes prior to the letting.* If, prior to the letting date of the highway improvement project, changes to the project result in the need for additional utility adjustment work, the department shall furnish a revised project plan to each affected utility owner. The department shall clearly identify to the utility owner those portions of the project that have been revised. Within 60 calendar days after the date the department submits the revised project plan, the utility owner shall provide to the department a revised work plan.

115.30(3) *Project changes after the letting.* If, after the letting date of the highway improvement project, changes to the project result in the need for additional utility adjustment work, the department shall notify each affected utility owner. The department and the owner shall agree on a revised work plan.

115.30(4) *Work plan changes.* If a utility owner needs to change its work plan after its adjustment work begins, the utility owner shall notify the department. Once the department approves a modified work plan, the utility owner may make the necessary changes and perform the work.

115.30(5) *Cost allocation.*

a. If the department requires the adjustment of a utility facility that was originally determined, per the notice and work plan processes, to not need adjustment:

(1) The utility owner shall bear the cost of the adjustment if the work is otherwise not reimbursable.

(2) The department shall bear the reasonable cost of the adjustment if the work is otherwise reimbursable.

b. If the department requires additional adjustment to a utility facility after the facility has been adjusted in accordance with a work plan accepted by the department, the department shall bear the reasonable cost of the additional work. This applies to all utility facilities, whether the original adjustment work was reimbursable or not reimbursable.

c. The utility owner shall bear the cost of additional adjustment work performed after its facilities have been adjusted in accordance with a work plan accepted by the department if the additional work is due to the utility owner's error.

115.30(6) *Failure to provide a work plan or to adjust utility facilities.* If a utility owner fails to provide a work plan, fails to comply with the accepted work plan, or fails to complete the adjustment of its facilities, and its failure to perform results in a delay to the highway project or causes damages to be incurred by the department or the department's highway contractor, the utility owner is liable for all

costs and damages incurred as a result of its failure to perform. The department may withhold approval of permits for failure to comply with the requirements of these rules.

These rules are intended to implement Iowa Code chapters 306A and 319, section 314.20, and sections 320.4 to 320.8.

CHAPTER 116
JUNKYARD CONTROL

[Prior to 6/3/87, Transportation Department[820]—(06,F)Ch 7]

761—116.1(306C) Definitions. The definitions in Iowa Code section 306C.1 apply to this chapter. In addition:

“Abandoned or discontinued junkyard” means an accumulation of junk which would be a junkyard except that it has not been maintained, operated or used as an establishment or place of business for storing, keeping, buying or selling junk for the past 12 months. The owner or operator of a yard that otherwise would be an abandoned or discontinued junkyard may continue to qualify the yard as a junkyard by providing proof of income or loss through a copy of federal, state or local income tax return or proof of the purchase or acquisition of new junk or sale or disposal of junk as substantiated by receipts, canceled checks, or other acceptable evidence of value exchanged.

“Adjacent area” means an area which is contiguous to and within 1,000 feet of the nearest edge of the right-of-way of any highway on the national highway system.

“Automobile graveyard” means any establishment which is maintained, used, or operated for storing, keeping, buying, or selling ten or more wrecked, scrapped, ruined, dismantled or inoperative motor vehicles, but does not include any location where motor vehicle bodies are placed along stream banks for purposes of bank stabilization and soil erosion control, if such placement conforms with guidelines established by the department of natural resources.

“Industrial activities” means activities that are permitted only in industrial zones, or in less restrictive zones by the nearest zoning authority within the state, or prohibited by the authority but generally recognized as industrial by other zoning authorities within the state, except that none of the following are considered to be industrial activities:

1. Outdoor advertising structures.
2. Agricultural, forestry, ranching, grazing, farming and related activities including, but not limited to, wayside fresh produce stands.
3. Activities normally and regularly in operation less than three months of the year.
4. Transient or temporary activities.
5. Activities not visible from the main traveled way.
6. Activities more than 300 feet from the nearest edge of the main traveled way within the corporate limits of cities.
7. Activities more than 1,000 feet from the nearest edge of the main traveled way outside the corporate limits of cities.
8. Activities conducted in a building principally used as a residence.
9. Railroad tracks, minor sidings, and passenger depots.
10. Junkyards.

“Industrial zone” means a zone established by zoning authorities as being most appropriate for industry or manufacturing. A zone which simply permits certain industrial activities as an incident to the primary land use designation is not considered to be an industrial zone.

“Inoperative motor vehicle” means any of the following:

1. A motor vehicle that does not have a valid title.
2. A motor vehicle that does not have a current registration, unless the motor vehicle is in the inventory of a motor vehicle dealer licensed under Iowa Code chapter 322.
3. A motor vehicle with one or more of the following items missing or in need of substantial repair: windshield, driver’s seat, steering wheel or steering system, battery, ignition system, fuel tank or fuel supply system, engine, transmission, drive shaft, differential, axle, suspension system, brake system, or frame.
4. A motor vehicle that is not immediately capable of legal operation on a public road or street.

However, any one of the following by itself does not render a motor vehicle inoperative: a battery that can be recharged, one tire and wheel missing or in need of repair, or lack of fuel.

The burden of proving that a motor vehicle is not inoperative rests with the person or persons in possession of that vehicle. However, if the temperature is below 32 degrees Fahrenheit, no person is required to demonstrate that the engine of a motor vehicle will start.

“Main traveled way” means the portion of the roadway for movement of vehicles on which through traffic is carried, exclusive of shoulders and auxiliary lanes. In the case of a divided highway, the main traveled way includes each of the separated roadways for traffic moving in opposite directions, exclusive of shoulders, auxiliary lanes, frontage roads, turning roadways, and parking areas.

“Nonconforming junkyard” means a junkyard which continues to be legally maintained, but which does not meet any of the exceptions in subrule 116.2(2), and which was lawfully established:

1. Prior to July 1, 1972, and is located within the adjacent area of an interstate highway.
2. Prior to May 6, 2015, and is located within the adjacent area of a noninterstate highway on the national highway system.
3. Prior to the effective date of a zoning change which caused nonconformity with these rules.
4. Prior to the departure or closure of an industrial activity which caused nonconformity with these rules.
5. Prior to the establishment of a highway as part of the national highway system.

“Right-of-way” means land area dedicated to public use for the highway and its maintenance, and includes land acquired in fee simple or by permanent easement for highway purposes, but does not include temporary easements or rights for supplementary highway appurtenances.

“Unzoned industrial area” means land occupied by a regularly used building, parking lot, storage area or processing area of an industrial activity, and land within 1,000 feet thereof which is:

1. Located on the same side of the highway as the activity,
2. Not predominantly used for residential or commercial purposes, and
3. Not zoned by state or local law, regulation or ordinance.

“Visible” means capable of being seen without visual aid by a person of normal visual acuity.

This rule is intended to implement Iowa Code sections 306C.1 to 306C.9.

[ARC 1923C, IAB 4/1/15, effective 5/6/15]

761—116.2(306C) Junkyards prohibited—exceptions.

116.2(1) Prohibitions.

a. After July 1, 1972, a person shall not establish, operate, or maintain a junkyard any portion of which is within the adjacent area.

b. After May 6, 2015, a person shall not establish, operate, or maintain a junkyard any portion of which is within the adjacent area of a highway on the national highway system.

116.2(2) Exceptions. Junkyards that are prohibited in subrule 116.2(1) shall be allowed if they meet one or more of the following criteria:

- a.* The junkyard is screened by natural objects, plantings, fences, or other appropriate means.
- b.* The junkyard is located within an industrial zone.
- c.* The junkyard is located within an unzoned industrial area.
- d.* The junkyard is not visible from the main traveled portion of the highway.

This rule is intended to implement Iowa Code section 306C.2.

[ARC 1923C, IAB 4/1/15, effective 5/6/15]

761—116.3(306C) Screening or removal.

116.3(1) Nonconforming junkyards. Nonconforming junkyards which do not meet any of the exceptions in subrule 116.2(2) shall be screened by the department, if feasible, or removed by the department. However, this requirement is conditioned on the availability of participating federal funds for this purpose and a determination by the department that such funds are adequate for this purpose. Prior to the date of the installation of screening or of removal, a nonconforming junkyard may continue in existence unscreened, provided the portion visible to the main traveled way is not increased in height, width, or length. This subrule shall not abrogate any other more restrictive state or local law or regulation which governs the screening, licensing, operation or existence of the junkyard.

116.3(2) Owner requirements. The following junkyards shall be screened or removed by the owner at no expense to the department:

a. Junkyards established after July 1, 1972, and located within the adjacent area of an interstate highway, but which do not meet any of the exceptions in subrule 116.2(2).

b. Junkyards established after May 6, 2015, and located within the adjacent area of a noninterstate highway on the national highway system, but which do not meet any of the exceptions in subrule 116.2(2).

c. Nonconforming junkyards of which portions visible to the main traveled way have increased in height, width, or length since the date the junkyard became nonconforming.

This rule is intended to implement Iowa Code section 306C.3.

[ARC 1923C, IAB 4/1/15, effective 5/6/15]

761—116.4(306C) Acquisition. When the department determines that it is in the best interests of the state, it may acquire by gift, purchase, exchange, or condemnation, as provided by law, the property or rights or interests in property as may be necessary to provide adequate screening for junkyards. When the department determines that screening of a junkyard will not be economically feasible, the department may acquire the property or rights or interests in property as may be necessary to secure the relocation, removal, or disposal of the junkyard and shall pay the cost of the relocation, removal, or disposal. However, no plan for relocation, removal, or disposal which qualifies for federal participation shall be undertaken unless the department has received notification from the federal government that the federal share to be paid is immediately available for that purpose.

This rule is intended to implement Iowa Code section 306C.5.

761—116.5(306C) Screening. Screening for each individual junkyard required to be screened shall meet the standards of these rules. Where the owner is required to screen, the owner shall submit a screening plan which shall be approved by the department. Screening plans shall integrate the screen with the natural surroundings and shall consider and make provisions to ensure reasonable access to the screen for purposes of maintaining the screens required by these rules.

116.5(1) Purpose. Screening shall be designed to eliminate the visual impact of the junkyard contents by obscuring it from view from the main traveled portion of the highway.

116.5(2) Type. Materials for use in screening and junkyards shall generally consist of natural objects, plantings, fences, or other appropriate means such as storage sheds, buildings and other similar elements.

a. Natural objects shall be earthen berms, rock formations, wooded areas, or other similar elements.

b. Plantings shall be shrubs and trees of such types as to provide year-round obscurement commensurate with local site conditions. All plant material used for screening shall be of a size and quantity to provide obscurement.

c. Screens shall be made of wood, metal or other materials commonly used in the building trade, and shall be of a height and type necessary to provide obscurement. Screens shall be designed to withstand a minimum wind load of 20 pounds per square foot and shall be of a permanent nature. All materials used for finishing screens shall be a nonreflective material which will blend with the natural surroundings. Screening shall not be placed so that either the screen or the maintenance of the screen will create or contribute to the creation of a safety hazard or endanger public safety or will interfere with the public's use or the department's maintenance of the highway.

116.5(3) Maintenance. The owner or operator of a junkyard shall maintain the screening in a condition equal to the original installation of the screening. Maintenance shall include, but not be limited to, the following items:

a. Replacement of plant material which is dead or has been damaged so that it no longer serves the intended purpose of screening the junkyard.

b. Screen maintenance shall include the renewal of the surface treatment with stains, paints, or other appropriate material as specified in subrule 116.5(2) when needed and the replacement of panels, sections, members, or support structures of the screening when needed.

This rule is intended to implement Iowa Code section 306C.4.

761—116.6(306C) Nuisance—injunction. Any junkyard operated or maintained or which is altered, changed or enlarged in violation of these rules and the Iowa Code shall be considered a public nuisance. If, after written notice by certified mail to the landowner and the owner of the junkyard of any such violation, the owner or operator fails or refuses to comply with the terms of the notice, the department may apply for an injunction to abate the nuisance.

This rule is intended to implement Iowa Code section 306C.6.

761—116.7(17A) Hearings and appeals. A person who is aggrieved by a decision of the department and who is entitled to a hearing may contest the decision pursuant to 761—Chapter 13.

This rule is intended to implement Iowa Code chapter 17A.

761—116.8(306C) Contact information. Inquiries regarding this chapter shall be directed to the Advertising Management Section, Office of Traffic and Safety, Department of Transportation, 800 Lincoln Way, Ames, Iowa, 50010.

This rule is intended to implement Iowa Code sections 306C.1 to 306C.9.

CHAPTER 117
OUTDOOR ADVERTISING

[Prior to 6/3/87, Transportation Department[820]—(06,O) Ch 5]

761—117.1(306B,306C) Definitions. The definitions in Iowa Code section 306C.10 are adopted. In addition:

“Abandoned sign” means an advertising device for which the owner has failed to timely apply for the required outdoor advertising permit(s) or has failed to timely pay the required fee(s).

“Area zoned and used for commercial or industrial purposes” means an area zoned for commercial or industrial purposes in accordance with Iowa Code chapter 414, in the case of city zoning, or in accordance with Iowa Code chapter 335, in the case of county zoning, in which one or more commercial or industrial activities, as defined under the city or county zoning ordinance, are located.

“Billboard control Act” means Iowa Code chapter 306C, division II.

“Bonus Act” means Iowa Code chapter 306B.

“Daylight area” means a triangular area formed by a line connecting two points each back (50 feet in city, 100 feet in unincorporated area) from the point where the right-of-way lines of the main traveled way and an intersecting street meet or would meet if extended.

“Development directory sign” means the same as defined in rule 761—117.15(306C).

“Directional and official signs and notices” means official signs and notices, public utility signs, service club and religious notices, public service signs, and directional signs.

“Directional sign” means a sign governed by 761—Chapter 120.

“Face” means that part of an advertising device that is devoted to the display of advertising and that is visible to traffic proceeding in any one direction.

“Interchange” means the entire area constructed for a junction of two or more public streets or highways by a system of separate levels that permit traffic to pass from one level to another without the crossing of traffic streams. This includes all acceleration and deceleration lanes constructed to accommodate this movement of traffic.

“Lease” means an agreement, oral or written, by which possession or use of land or interests therein are given by the owner or other person to another person for a specified purpose.

“LED display” means a face, as defined herein, displaying a message that is formed by light emitting diodes and that is changed by an electronic process. An LED display is a single face.

“Modification” means any addition to or change in dimensions, lighting, structure or advertising face, except as incidental to the customary maintenance of an advertising device.

1. A change in the number or type of support posts is a modification. A change in dimensions is a modification. However, the addition of extensions or cutouts, including forward projecting, is not a modification if the extensions or cutouts are added for a period of 90 days or less and if they are illuminated only by existing sign lighting and do not contain internal lighting.

2. A lawful change in advertising message is not a modification. The use of a vinyl overlay or wrap on either a poster panel or paint unit is a change in advertising message, not a modification.

3. On an advertising device that conforms to all current requirements, the replacement of one metal-framed face with another metal-framed face of the same size, using dissimilar component parts or assembly methods, or both, is not a modification.

4. The addition of LED display capabilities to an advertising device is a modification.

“Nonconforming sign” means an advertising device that was lawfully erected and continues to be lawfully maintained, but that does not comply fully with current size and spacing requirements due to changed conditions, such as a change in zoning, establishment of a new highway, or a similar change that affects compliance.

“Obsolete sign” means an advertising device displaying information pertaining to activities that are no longer conducted or products or services that are no longer available at the advertised location.

“Official sign or notice” means a sign or notice lawfully erected and maintained by a city, county or public agency within its territorial or zoning jurisdiction for the purpose of carrying out an official duty or responsibility.

“*On-premises sign*” or “*on-property sign*” means an advertising device advertising the sale or lease of, or activities being conducted upon, the property where the sign is located. The criteria to be used to determine if an advertising device qualifies as on-premises signing, excluding development directory signing, include but are not limited to the following:

1. A sign that consists solely of the name of the establishment or that identifies the establishment’s principal or accessory products or services offered on the property is an on-premises sign.

2. An on-premises sign must be located on the same property as the advertised activity or the same property as that advertised for sale or lease. A subdivided property may be considered to be one property if all lots remain under common ownership and all lots share a common, private access to public roads. However, if any lot in the subdivided property is sold or disposed of in any manner, that lot will be considered to be separate property.

3. Contiguous lots or parcels of land may be considered to be one property for outdoor advertising control purposes provided they are owned or leased by the same party. To be considered one property, all contiguous lots or parcels of land must also be used for a purpose related to the advertised activity other than signing.

4. An on-premises sign shall not be located on a narrow strip of land that cannot reasonably be used for a purpose related to the advertised activity other than signing.

5. An on-premises sign is limited to advertising the property’s sale or lease, or identifying the activities located on or products or services available on the property.

6. An advertising device is not an on-premises sign if it consists principally of brand- or trade-name advertising and either the product or service advertised is only incidental to the establishment’s principal products or services or the advertising brings rental income to the property owner. “Principally” means 50 percent or more of the display area of the sign.

7. An on-premises sign concerning the sale or lease of property shall not display the legend “sold” or “leased” or a similar message.

“*Public utility sign*” means a warning or informational sign, notice or marker that is customarily erected and maintained by a publicly or privately owned utility to mark the location of a utility facility.

“*Regularly used*” means open for business and staffed by an owner or employee for at least 20 hours per week, on property assessed as commercial or industrial by the jurisdiction having authority; the hours of operation must be visibly posted on the premises. The department may delay action on the permit application for up to 180 days from the date of the application in order to conduct periodic checks on the site as necessary to determine whether the purported commercial or industrial activity meets this definition. A rental storage business is excepted from the staffing requirement if it has 24-hour access for customers and a minimum of 50 units, each occupying at least 50 square feet, individually separated, and enclosed by walls.

“*Scenic area*” means any area of particular scenic beauty or historical significance, as determined by the federal, state or local officials having jurisdiction of the area. It includes real property interests that have been acquired for the restoration, preservation and enhancement of scenic beauty.

“*Service club or religious notice*” means a sign displaying a message that is limited to the name of a nonprofit service club, charitable association, church or religious group or cemetery, the location and hours of its meetings or services or the hours it is open to the public, and an appropriate emblem.

“*Tri-face device*” means an advertising device with three singular faces attached to one common structure in a triangular configuration. The maximum area of any face is 750 square feet. The inside angle formed by any two faces may not exceed 60 degrees.

“*Tri-vision device*” means an advertising device that has an advertising face with a mechanical device that allows three advertising messages to be alternately visible to traffic proceeding in any one direction. Each message is attached to individual vertical or horizontal louvers, which are mechanically rotated to change the message.

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—117.2(306B,306C) General provisions.

117.2(1) Scope. This chapter of rules pertains to all advertising devices which are visible from the main traveled way of any primary highway, with the following exceptions:

a. Within incorporated areas, this chapter does not apply to advertising devices which are beyond 660 feet from the nearest edge of the right-of-way.

b. Except where specified otherwise, this chapter does not apply to official traffic control devices, logo signing, tourist-oriented directional signing, or private directional signing.

117.2(2) Contact information. Inquiries, requests for forms, and applications regarding this chapter shall be directed to the Advertising Management Section, Office of Traffic and Safety, Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

117.2(3) Unauthorized signs, signals, or markings. Any sign, signal, marking or device prohibited by Iowa Code section 321.259 is a public nuisance and shall be removed by the department if it is within the department's jurisdiction.

117.2(4) Advertising devices obstructing the view of a highway or railway. Any advertising device that obstructs the view of any portion of a public highway or railway track in violation of Iowa Code subsection 318.11(2) or 657.2(7) is a public nuisance, which shall be abated as provided in Iowa Code chapter 657.

117.2(5) Advertising devices within the right-of-way. Any advertising device placed or erected within the right-of-way of any primary highway in violation of Iowa Code chapter 318 is subject to removal in the manner specified in Iowa Code chapter 318.

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—117.3(306B,306C) General criteria. The department shall control the erection and maintenance of advertising devices, subject to the provisions of these rules, in accord with the following criteria:

117.3(1) Prohibition. Advertising devices shall not be erected, maintained or illuminated unless they comply with the following:

a. No advertising device shall attempt or appear to attempt to direct the movement of traffic.

b. No advertising device shall interfere with, imitate or resemble any official sign, signal or device.

c. No advertising device subject to the more restrictive controls of the bonus Act shall move or have any animated or moving parts.

d. No advertising device shall be erected or maintained upon trees, painted or drawn upon rocks or other natural features.

e. No off-premises advertising device shall include any flashing, intermittent or moving light or lights except those signs giving public service information such as time, date, temperature, weather and news. No on-premises sign located within the adjacent area of an interstate highway but outside an area zoned and used for commercial or industrial purposes, as defined in rule 761—117.1(306B,306C), shall include any flashing, intermittent or moving light or lights except those signs giving public service information such as time, date, temperature, weather and news. Any variation or addition to the stated service information is subject to department approval. This paragraph does not prohibit an LED display, provided:

(1) Each change of message is accomplished in one second or less.

(2) Each message remains in a fixed position for at least eight seconds.

(3) No traveling messages (e.g., moving messages, animated messages, full-motion video, scrolling text messages) or segmented messages are presented.

f. No lighting shall be used in any way in connection with any advertising device unless it is so effectively shielded as to prevent beams or rays of light from being directed at any portion of the main traveled way of any highway, or is of such low intensity or brilliance as to not cause glare or to impair the vision of the driver of any motor vehicle, or to otherwise interfere with any driver's operation of a motor vehicle. This paragraph does not prohibit an LED display provided the light intensity presented does not exceed that allowed for other illuminated displays.

g. No advertising device subject to the more restrictive controls of the bonus Act shall be obsolete.

h. No advertising device shall be in a state of disrepair or illegible for a period of time exceeding 90 days.

- i.* Advertising devices shall be securely affixed to a substantial structure.
- j.* No advertising device subject to the more restrictive controls of the bonus Act shall advertise activities which are illegal under federal or state laws in effect at the location of those activities or at the location of the sign.
- k.* An advertising device shall comply with all applicable state and local laws, regulations and ordinances, including but not limited to zoning, building and sign codes as locally interpreted and applied and enforced, which may be stricter than this chapter.
- l.* No off-premises advertising device may be erected within the adjacent area of any primary highway that has been designated a scenic highway or scenic byway if the advertising device will be visible from the highway.
- m.* An advertising device shall not be constructed or reconstructed beyond the adjacent area in unincorporated areas of the state if the advertising device is visible from the main traveled way of any primary highway except for on-premises signs and official signs and notices.

117.3(2) *Measurements of distance.* Distance from the edge of a right-of-way shall be measured horizontally along a line normal or perpendicular to the centerline of the highway. All other measurements of distance shall be measured horizontally between points on a line parallel to the highway centerline.

117.3(3) *Measurement of area.* The area of an advertising device shall be measured by the smallest square, rectangle, triangle, circle or combination thereof which will encompass the entire display area including border and trim, but excluding temporary cutouts and extensions, base, apron, support, and other structural members.

117.3(4) *Zoning exclusions.*

- a.* A zone in which limited commercial or industrial activities are permitted incidental to other primary land uses is not a commercial or industrial zone for advertising control purposes.
- b.* Action which is not a part of comprehensive zoning in accordance with Iowa Code chapter 335 or Iowa Code chapter 414 is not a commercial or industrial zone for advertising control purposes.
- c.* Action taken primarily to permit advertising devices is not a commercial or industrial zone for advertising control purposes.

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—117.4(306B,306C) Interstate special provisions for on-premises signs. This rule applies to on-premises signs located within the adjacent area of any interstate highway, except those areas exempt from control under Iowa Code section 306B.2(4).

117.4(1) *Interstate on-premises signs (restricted).* Within the adjacent area of any interstate highway not more than one on-premises sign, visible to traffic proceeding in any one direction on any one interstate highway, advertising activities conducted upon the real property where the sign is located, may be erected or maintained more than 50 feet from the advertised activity. Such on-premises signs more than said 50 feet shall be subject to the permit provisions of rule 117.6(306C).

117.4(2) *Interstate on-premises signs (for sale or lease).* Within the adjacent area of any interstate highway, not more than one on-premises sign advertising the sale or lease of the same property upon which the sign is located may be permitted in such a manner as to be visible to traffic proceeding in any one direction on any one interstate highway.

117.4(3) *Interstate on-premises size limitations.* An on-premises sign within the adjacent area of an interstate shall be no larger than 20 feet in length, width or height and 150 square feet in area. However, an on-premises sign advertising activities conducted within 50 feet of the sign is exempt from these size limitations. This exemption does not apply to a sign advertising the sale or lease of property where the sign is located.

117.4(4) *Interstate on-premises signs (unrestricted).* Within the adjacent area of any interstate highway, on-premises signs advertising activities conducted within 50 feet of the sign, located upon the same real property where the sign is located, are not subject to regulations as to number of signs, size, or spacing; however, for the purpose of determining the 50-foot distance, the limits of the advertised activity shall be determined as follows:

a. When the advertised activity is a business, commercial or industrial land use, the distance shall be measured from the regularly used buildings, parking lots, storage or processing areas or other structures which are essential and customary to the conduct of the business.

b. When the advertised activity is a noncommercial or nonindustrial land use such as a residence, farm, or orchard, the distance shall be measured from the major structures or areas used in furtherance of the advertised activities.

117.4(5) *Interstate advertising devices not subject to control until July 1, 1972.* Rescinded IAB 8/4/04, effective 9/8/04.

761—117.5(306B,306C) Location, size and spacing requirements. This rule does not apply to on-premises signs.

117.5(1) *Advertising devices lawfully in existence prior to July 1, 1972.*

a. An advertising device that was lawfully in existence prior to July 1, 1972, and is visible from any primary highway, including a device located beyond the adjacent area in unincorporated areas, may remain in existence without conforming to subrule 117.5(5) as long as the device otherwise conforms to all other applicable statutory and regulatory requirements. The permit provisions of rule 761—117.6(306C) apply.

b. If the advertising device is located in an adjacent area which is neither a zoned nor an unzoned commercial or industrial area, the device may remain in existence as described in paragraph “a” of this subrule only until such time as the device is acquired by the department. The permit issued for the device will be a provisional permit. See subrule 117.6(3) and rule 761—117.9(306B,306C).

117.5(2) *Advertising devices lawfully in existence prior to July 1, 1972, beyond 660 feet from the right-of-way.* Rescinded IAB 11/27/02, effective 1/1/03.

117.5(3) *Abandoned signs.* Abandoned signs which do not comply with these rules shall be removed by the department without compensation regardless of when erected.

117.5(4) *Advertising devices lawfully in existence prior to July 1, 1972, within adjacent areas neither zoned nor unzoned commercial or industrial.* Rescinded IAB 11/27/02, effective 1/1/03.

117.5(5) *Advertising devices erected after July 1, 1972.* Except as otherwise provided in this chapter, an advertising device which is visible from the main traveled way of any primary highway shall not be erected after July 1, 1972, or subsequently maintained within the adjacent area unless the advertising device complies with the following:

a. Permit required. A current permit from the department is required for the erection or subsequent maintenance of the advertising device.

b. Commercial or industrial area.

(1) An advertising device visible from the main traveled way of an interstate highway must be located within an area zoned and used for commercial or industrial purposes, as defined in rule 761—117.1(306B,306C); within 750 feet of the regularly used portion of a commercial or industrial activity visible from the main traveled way; and on the same, individual, platted parcel of land as that commercial or industrial activity. The commercial or industrial activity must be one defined under the city’s or county’s, as applicable, zoning ordinance.

(2) An advertising device visible from the main traveled way of a noninterstate primary highway must be located within a commercial or industrial zone or an unzoned commercial or industrial area, as defined in Iowa Code section 306C.10.

c. Spacing within city—interstate and freeway-primary highway. Within the corporate limits of a municipality, the following provisions apply to an advertising device which is visible from an interstate or a freeway-primary highway:

(1) The advertising device shall not be located within 250 feet of another advertising device when both are visible to traffic proceeding in any one direction. If the advertising device has an LED display, the advertising device shall not be located within 500 feet of another advertising device that has an LED display when both are visible to traffic proceeding in any one direction.

(2) The advertising device shall not be located within the adjacent area on either side of the highway in, or within 250 feet of an interchange or rest area. The 250 feet shall be measured along a line parallel

to the centerline from a point opposite the end or beginning of whichever acceleration or deceleration ramp extends the farthest from the interchange or rest area to a point opposite the advertising device.

(3) In an area where two interchanges are in such close proximity that the acceleration or deceleration lanes or ramps merge or overlap or where there are continuous acceleration or deceleration lanes between interchanges, the area will be treated as one continuous interchange.

d. Spacing outside city—interstate and freeway-primary highway. Outside the corporate limits of a municipality, the following provisions apply to an advertising device which is visible from an interstate or a freeway-primary highway:

(1) The advertising device shall not be located within 500 feet of another advertising device when both are visible to traffic proceeding in any one direction. If the advertising device has an LED display, the advertising device shall not be located within 1000 feet of another advertising device that has an LED display when both are visible to traffic proceeding in any one direction.

(2) The advertising device shall not be located within the adjacent area on either side of the highway in, or within 250 feet of an interchange or rest area. The 250 feet shall be measured along a line parallel to the centerline from a point opposite the end or beginning of whichever acceleration or deceleration ramp extends the farthest from the interchange or rest area to a point opposite the advertising device.

(3) In an area where two interchanges are in such close proximity that the acceleration or deceleration lanes or ramps merge or overlap or where there are continuous acceleration or deceleration lanes between interchanges, the area will be treated as one continuous interchange.

e. Spacing within city—nonfreeway-primary highway. Within the corporate limits of a municipality, the following provisions apply to an advertising device which is visible from a nonfreeway-primary highway:

(1) The advertising device shall not be located within 100 feet of another advertising device when both are visible to traffic proceeding in any one direction. If the advertising device has an LED display, the advertising device shall not be located within 500 feet of another advertising device that has an LED display when both are visible to traffic proceeding in any one direction.

(2) The advertising device shall not be located within the daylight area. However, if a building is located within the daylight area, a wall advertising device may be attached to the building provided the device does not protrude more than 12 inches, exclusive of catwalk and lights. No part of a catwalk or lights may overhang the right-of-way. The permit for the advertising device shall be revoked if the building the device is attached to is removed.

f. Spacing outside city—nonfreeway-primary highway. Outside the corporate limits of a municipality, the following provisions apply to an advertising device which is visible from a nonfreeway-primary highway:

(1) The advertising device shall not be located within 300 feet of another advertising device when both are visible to traffic proceeding in any one direction. If the advertising device has an LED display, the advertising device shall not be located within 1000 feet of another advertising device that has an LED display when both are visible to traffic proceeding in any one direction.

(2) The advertising device shall not be located within the daylight area. However, if a building is located within the daylight area, a wall advertising device may be attached to the building provided the device does not protrude more than 12 inches exclusive of catwalk and lights. No part of a catwalk or lights may overhang the right-of-way. The permit for the advertising device shall be revoked if the building the device is attached to is removed.

g. Spacing—signs separated by a building. The distance and spacing requirements of subparagraphs “c”(1), “d”(1), “e”(1), and “f”(1), above, shall not apply to advertising devices which are separated by a building in such a manner that only one advertising device located within the minimum spacing distance is visible from a highway at any one time.

h. Spacing—measurement of distance. The minimum distance between two advertising devices visible to traffic proceeding in the same direction shall apply without regard to the side of the highway on which the advertising devices may be located and shall be measured along a line parallel to the centerline of the highway between points directly opposite the advertising devices. When a sign is visible and

subject to control from more than one primary highway, it must meet spacing requirements along each route.

i. Spacing—rural area next to incorporated area.

(1) In a rural area next to an incorporated area, the first rural sign placement shall be no closer than the rural spacing requirement measured from the point where the corporation line intersects the centerline or from the point where a line normal or perpendicular to the centerline of the highway intersects the first unincorporated area within the adjacent area to a point directly opposite the first potential sign location.

(2) In those areas where the adjacent area on one side of the highway is incorporated and on the opposite side of the highway all or part of the adjacent area is not, the spacing on both sides of the highway, except for daylight spacing, shall be regulated by the rural or unincorporated area spacing requirements.

j. Signs not considered when determining spacing. Directional and other official signs and notices and on-premises advertising devices shall not be taken into consideration in determining compliance with spacing requirements.

k. Sizes and types. Only the following types of advertising devices are permitted: single-face, side-by-side, double-deck, tri-vision, back-to-back, v-type, and tri-face.

(1) The multiple faces or panels of an advertising device must be contiguous or on a common structure. Side-by-side configurations are contiguous if the faces are not more than two feet apart and they are owned by the same permit holder. Side-by-side configurations must be on the same vertical and horizontal planes.

(2) A maximum of one face of an advertising device may be visible to traffic proceeding in any one direction. An advertising device other than a tri-face device may have no more than two faces.

(3) For an advertising device with one face, the maximum display area of the face is 1200 square feet. This applies to single-face, side-by-side, double-deck and tri-vision devices. For permit purposes, side-by-side and double-deck configurations are considered one face with the surface areas combined into one square footage.

(4) For an advertising device with two or more faces, the maximum display area of each face is 750 square feet. This applies to back-to-back and v-type devices (which have two faces) and tri-face devices (which have three faces).

(5) Each message on a tri-vision device must be displayed for a minimum of four seconds and the transition between messages must be completed in two seconds.

l. Spacing—transition to freeway-primary highway. As a segment of a noninterstate primary highway changes to a freeway-primary highway, the first freeway-primary highway sign placement shall be no closer than the freeway-primary highway spacing requirements measured along a line parallel to the centerline from a point opposite the point where the centerline of the highway and centerline of the at-grade crossing intersect to a point opposite the first potential sign location. See the appendix for an illustration of this spacing requirement.

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—117.6(306C) Outdoor advertising permits and fees required. The owner of an advertising device must apply to the department for an outdoor advertising permit if the device is visible from the main traveled way of any primary highway and the device is regulated by subrule 117.4(1) or rule 761—117.5(306B,306C).

1. If an advertising device was in existence on July 1, 1972, application for a permit must have been made on or before July 31, 1972.

2. After July 1, 1972, the owner or an advertising device must obtain a permit from the department prior to the erection of the advertising device.

3. If an advertising device that was lawfully erected later becomes subject to these rules due to an event such as, but not limited to, a change in zoning, the establishment of a new highway or a change in the designation of a highway, the owner of the advertising device shall apply to the department for an outdoor advertising permit within 30 days after the event that made the device nonconforming. A nonconforming advertising device that complies with the permit provisions of rule 117.6(306C) may

remain in existence without being in compliance with subrule 117.5(5) as long as the device otherwise complies with all other applicable statutory and regulatory requirements.

117.6(1) Application. Application for a permit shall be made in accordance with Iowa Code section 306C.18.

a. A permit is required for each face of an advertising device; thus, a permit application must be submitted for each face. Three permits are required for a tri-face device if all three faces are visible from the main traveled way of a primary highway. However, only one application and permit are required for a back-to-back advertising device that identifies the same business or service on each face if each face is no larger than 8 feet in width or height and 32 square feet in area.

b. A copy of the current lease shall be submitted upon application for a permit.

c. Any intentional falsification or misrepresentation of information in the application or renewal process shall result in immediate denial or revocation of the permit.

117.6(2) Fees.

a. The initial fee, payable at the time of application, is \$100 per permit. This fee is not refundable unless the application is withdrawn prior to the department's field review of the proposed location.

b. The annual renewal fee for each permit, due on or before June 30 of each year, is as follows:

<u>Area of Sign</u>	<u>Annual Renewal Fee</u>
Up to 375 square feet	\$15
376 to 999 square feet	\$25
1000 square feet or more	\$50

For tri-vision signs, the area shall be calculated by multiplying the area of the face by three.

(1) The renewal fee is not refundable.

(2) Failure to timely pay the annual renewal fee when due shall result in revocation of any permit that has been issued for the advertising device and removal of the advertising device as an abandoned sign.

c. Fees shall not be prorated.

d. If an outdoor advertising permit is revoked, any permit fee paid is forfeited.

117.6(3) Permits to be issued.

a. The department shall issue an outdoor advertising permit in accordance with Iowa Code section 306C.18.

b. An advertising device that was lawfully in existence prior to July 1, 1972, and is located within an adjacent area which is neither a zoned nor an unzoned commercial or industrial area shall be issued a provisional permit and annual renewals thereof upon timely application and payment of the required fees, until such time as the department acquires the advertising device. See rule 761—117.9(306B,306C).

117.6(4) Permit plate.

a. Upon approval of the application, the department shall issue a metal permit plate for the advertising face.

b. The owner of the advertising device shall securely attach the plate to the advertising face at the bottom corner nearest the main traveled way or to the support structure immediately below the bottom corner. If these locations do not permit unobscured display of the permit number, the permit plate shall be attached to another prominent area of the advertising device. The permit number shall not be obscured when viewed from the main traveled way.

c. The owner of an advertising device is responsible for replacing a permit plate that is missing or illegible. To obtain a replacement, the owner shall apply to the department and pay a \$10 fee.

d. If the department notifies the owner of the advertising device that a permit plate is not properly displayed, the owner shall within 90 days of notification either correct the situation or secure and display a replacement permit plate. Failure to properly display a permit plate after the 90-day period has expired

shall result in revocation of any permit that has been issued for the advertising device and removal of the advertising device in the manner specified in subrule 117.8(1).

117.6(5) *New permit required for reconstruction or modification.* A new permit is required from the department prior to the reconstruction or modification of an advertising device subject to the permit provisions of this rule.

a. To obtain a new permit, the owner of the advertising device shall submit a new application to the department, accompanied by the initial application fee.

b. A reconstructed or modified advertising device is subject to the provisions of this chapter as if it were a new advertising device.

c. Reconstruction or modification of an advertising device prior to the issuance of the required permit shall result in revocation of any permit that has been issued for the advertising device and removal of the advertising device in the manner specified in subrule 117.8(1).

d. Rescinded IAB 4/7/99, effective 5/12/99.

117.6(6) *One year to erect advertising device.* The permit for an advertising device that has not been erected within one year after the date the permit was issued shall be revoked. After revocation, a new permit is required. To obtain a new permit, the owner of the advertising device shall submit a new application to the department, accompanied by the initial application fee and a copy of the current lease.

117.6(7) *Access.* Access to the private property upon which an advertising device is located shall be gained from highway right-of-way only at access points designated or allowed by the department in accordance with 761—Chapter 112. An initial violation of this requirement by or on behalf of the permit holder shall result in the department sending a written warning by certified mail to the permit holder. A second violation of this requirement shall result in revocation of any permit that has been issued for the advertising device and removal of the advertising device in the manner specified in subrule 117.8(1). If a permit is revoked for an access violation, the permit holder is ineligible to apply for a permit for at least 12 months after revocation for any location within 500 feet of the revoked permit's sign location.

117.6(8) *Destruction of vegetation.* Without the written authorization of the department, vegetation growing on the highway right-of-way shall not be cut, trimmed, removed, or in any manner altered or damaged to improve the visibility of an advertising device. Violation of this prohibition by or on behalf of the permit holder shall result in revocation of any permit that has been issued for the advertising device and removal of the advertising device in the manner specified in subrule 117.8(1). If a permit is revoked for destruction of vegetation, the permit holder is ineligible to apply for a permit for 12 months after revocation for any location within 500 feet of the revoked permit's sign location.

117.6(9) *Blank sign.*

a. A blank sign is:

(1) An advertising device that has had a face physically removed.

(2) An advertising device that does not display copy. "This space for rent" or a similar message is not copy.

(3) An advertising device that qualifies as an obsolete sign.

b. A blank sign shall not remain in blank status for a period of time exceeding six months.

c. If the department determines that an advertising device has been blank for a period of time exceeding six months, the department shall issue a notice pursuant to rule 761—117.8(306B,306C) in which the owner has 30 days to either cause it to conform or to remove it.

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—117.7(306C) Official signs and notices, public utility signs, and service club and religious notices.

117.7(1) *Official signs and notices.* Official signs and notices shall comply with applicable state law, local ordinance or administrative authority.

117.7(2) *Public utility signs.* Public utility signs shall be erected no larger than required to adequately convey the necessary message and only at such places as are required to adequately mark the location of the utility.

117.7(3) *Service club and religious notices.* Service club and religious notices may be placed upon private property with the permission of the land owner provided the notice complies with the definition of “service club or religious notice” in rule 761—117.1(306B,306C), complies with the general criteria of rule 761—117.3(306B,306C), and does not exceed eight square feet in area.
[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—117.8(306B,306C) Removal procedures. The department shall cause to be removed every advertising device illegally erected or maintained and every abandoned sign.

117.8(1) *Removal of illegal and abandoned advertising devices.* In accordance with Iowa Code sections 306B.5 and 306C.19, an advertising device erected or maintained in violation of Iowa Code chapter 306B or 306C or these rules is a public nuisance and may be removed by the department upon 30 days’ notice, by certified mail, to the owner of the advertising device and to the owner of the land on which the advertising device is located.

a. The notice shall require the owner of the advertising device to remove the advertising device if it is prohibited, or to cause it to conform to the provisions of these rules if it is not. The department may revoke a permit issued for the advertising device as part of the same notice, in which case, the notice shall be served by restricted certified mail or by personal service.

b. If the advertising device has not been removed or made to conform with the provisions of these rules, the advertising device is deemed to be forfeited and the department may enter upon the land and remove the advertising device, aided by injunction to abate the nuisance and to ensure peaceful entry, if necessary.

c. Costs of removal, including fees and costs or expenses as may arise out of any action brought by the department to ensure peaceful entry and removal, shall be assessed against the owner of the advertising device. Should the owner of the advertising device fail to pay such fees, costs, or expenses within 30 days after assessment, the department may commence an action to collect them.

d. The advertising device may be used, scrapped, dismantled, or otherwise destroyed or disposed of by the department as it sees fit.

e. No compensation shall be paid to the owner of any advertising device which is illegally erected or maintained.

117.8(2) *Removal from right-of-way and other state-owned property.* The department shall remove advertising devices erected upon the right-of-way of any primary highway; see subrule 117.2(5). Unauthorized advertising devices erected upon other property owned by the state of Iowa are subject to removal by the agency, board, commission or department having control or jurisdiction of the property.
[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—117.9(306B,306C) Acquisition of advertising devices that have been issued provisional permits.

117.9(1) The department will acquire an advertising device for which a provisional permit has been issued only if all of the following conditions are met:

- a.* Acquisition is required by federal law.
- b.* All necessary federal and state funding is available for the purpose.
- c.* The permit has not been revoked.

117.9(2) If the advertising device will be acquired, the department will use the following procedure:

a. The department shall mail or deliver to the owner of the advertising device and to the owner of the land upon which the device is located a written notice of the department’s intent to revoke the provisional permit and acquire the device. The notice shall include an offer to purchase the advertising device. If good-faith negotiations with the owner of the device and the owner of the land upon which the device is located do not result in a mutually agreeable sale price, the department shall revoke the provisional permit and initiate condemnation proceedings as provided in Iowa Code chapter 6B.

b. In the event of condemnation, the department will take possession of the advertising device as soon as the award has been deposited with the sheriff.

761—117.10(17A,306C) Contested cases.

117.10(1) An applicant who has been denied an outdoor advertising permit by the department may contest the decision in accordance with 761—Chapter 13. The request for a contested case hearing shall be submitted in writing to the director of the office of traffic and safety at the address in subrule 117.2(2). The request shall be deemed timely submitted if it is delivered or postmarked within 30 days of the department’s mailing of the letter denying the application.

117.10(2) The owner of an outdoor advertising permit which has been revoked or canceled by the department may contest the decision in accordance with 761—Chapter 13. The request for a contested case hearing shall be submitted in writing to the director of the office of traffic and safety at the address in subrule 117.2(2). The request shall be deemed timely submitted if it is delivered or postmarked within 30 days of the owner’s receipt of the revocation notice issued by the department.

117.10(3) Failure to timely request a hearing on the denial, revocation, or cancellation of a permit is a waiver of the right to a hearing and a failure to exhaust administrative remedies.

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—117.11 to 117.14 Reserved.

761—117.15(306C) Development directory signing.

117.15(1) Definition. “Development directory sign” means a type of on-premises sign displaying a message that is limited to the names of two or more businesses located within a commercial or industrial development. The sign may also display the name of the development. The sign must be located within the limits of the development but may be located anywhere within the development regardless of land ownership.

117.15(2) Limitation. Each business within the development is limited to its name appearing on not more than two development directory signs visible to traffic proceeding in any one direction on any primary highway.

117.15(3) Commercial or industrial development. A development directory sign must be located within a commercial or industrial development. For the purposes of this rule, a commercial or industrial development is a single premises that meets all of the following requirements:

- a. All of the lots, regardless of whether they are individually owned, are contiguous, except for roadways or driveways providing access to lots or common areas within the development.
- b. No part of the development is separated from another part by a primary highway.
- c. The development is approved for the establishment of commercial or industrial activities by an authorized governing authority, and is occupied by commercial or industrial activities. The term “commercial or industrial activities” is defined in Iowa Code section 306C.10.
- d. The development is subject to a common development and common use plan that provides for common areas such as sidewalks, roadways, parking, storage, and service areas, to which all businesses within the development have irrevocable shared use and shared property rights, and for which they have irrevocable shared obligations.
- e. The development operates through an association or other entity, actively managed and maintained, through which all lot owners have irrevocable rights and obligations with respect to the development and its common areas.
- f. The development and the businesses within the development present themselves to the public as a common development through signage or other marketing efforts.
- g. The common areas of the development have necessary and true value to the regular operations of the businesses within the development, and were created for purposes other than establishing eligibility for development directory signing.

Spacing--Transition To Freeway-Primary Highway

CHAPTER 118
LOGO SIGNING

761—118.1(306C) Introduction. Logo signing consists of individual business signs attached to specific service signs erected by the department within the right-of-way of interstate and freeway-primary highways. The purpose of logo signing is to provide specific motorist service information of interest to the traveling public. Logo signing shall comply with this chapter and the “Manual on Uniform Traffic Control Devices,” as adopted in rule 761—130.1(321). The department shall perform all required installation, maintenance, removal and replacement of specific service signs and business signs within the right-of-way. The business signs are provided by the applicants.

761—118.2(306C) Definitions.

“*Business sign*” means a separate sign attached to a specific service sign; the business sign shows the name, symbol or trademark of a business that provides the type of motorist service identified on the specific service sign.

“*General service sign*” means an official guide sign that identifies general road user services such as gas, food, lodging and camping. This sign does not provide for the placement of business signs.

“*Mainline*” means the main-traveled way of an interstate or a freeway-primary highway.

“*Motorist service*” means one of the following five types of services: gas, food, lodging, camping or attraction.

“*Qualified business*” means a business that meets all requirements to participate in the logo signing program and meets all qualifications pertaining to a particular type of motorist service without the granting of an exception.

“*Specific service sign*” means an official guide sign that identifies one or more types of motorist services, provides directional information, and has spaces for the attachment of business signs to identify businesses providing those services.

“*Trailblazing sign*” means a specific service sign erected on the road network accessed from an interchange that has logo signing; the sign directs motorists to a particular business signed on the mainline and has spaces for the attachment of business signs.

761—118.3(306C) Erection and location of specific service signs and placement of business signs.

118.3(1) General.

a. The department shall erect specific service signs at rural interchanges if the requirements of this chapter are met and sufficient space is available. The department may also erect specific service signs at urban, or nonrural interchanges if the requirements of this chapter are met and sufficient space is available. If sufficient space is not available for more than one specific service sign, the department may install a general service sign in lieu of a specific service sign.

b. Specific service signs shall be erected at an interchange only when the motorist can conveniently reenter the interstate or freeway-primary highway and continue in the same direction of travel.

118.3(2) Mainline specific service signs and placement of business signs. Following are the requirements for mainline specific service signs erected in advance of an interchange, in a single direction of travel, and limitations regarding the number and types of business signs attached to these service signs.

a. As spacing permits, a maximum of four mainline specific service signs may be erected in advance of an interchange from which motorist services are available.

b. The minimum spacing required between mainline specific service signs and between mainline specific service signs and other official guide or destination signs on the mainline is 800 feet.

c. If spacing limitations and the four-sign limit prohibit the erection of mainline specific service signs for the types of motorist services available, preference shall be given to available gas, food, lodging, camping or attraction services, in that order.

d. If services are displayed, the order of display of services in the direction of travel on successive mainline specific service signs is as follows: attraction, camping, lodging, food, and gas.

e. Each mainline specific service sign is limited to six business signs. This restriction applies regardless of whether the specific service sign displays a single type of motorist service or a combination of service types.

f. In general, only one type of motorist service should be displayed on each mainline specific service sign. However, the department may combine service types on one sign for a reason such as, but not limited to, the following:

(1) There is limited space available on the mainline for specific service signs.

(2) There is limited interest from qualified businesses or limited availability of motorist services at the interchange.

(3) There is an imbalance of qualified businesses between service types.

g. The requirements for mainline specific service signs that display a combination of motorist services are as follows:

(1) Each combination sign is limited to six business signs.

(2) No more than three types of motorist services shall be represented on any combination sign.

(3) For a combination sign displaying three types of motorist services, the number of business signs for each service type is limited to two.

(4) For a combination sign that will accommodate at least four business signs, each type of motorist service displayed on the sign must have at least two positions designated for that service type.

h. Either preference or equal representation shall be given for higher priority service types, as set out in paragraph “*c*” of this subrule, depending upon the motorist services available at the interchange, the interest expressed by qualified businesses in the logo signing program, and the anticipated future development of the area near the interchange.

i. In a single direction of travel, the total number of business signs displayed for a single type of motorist service is limited to 12, and no more than two mainline specific service signs shall display business signs for a single service type.

j. The department shall designate each mainline specific service sign for a particular type of motorist service, although the service sign may, in use, be displaying more than one service type, subject to paragraph “*h*” of this subrule. When a specific service sign designated for a particular service type exists and that sign is full, the department may grant an exception, in accordance with subrule 118.4(11), to allow the placement of a business sign for that service type on a specific service sign designated for another service type, provided that the department has displayed the legend for that service type on the service sign.

118.3(3) Ramp specific service signs and placement of business signs.

a. On a single-exit interchange, the department shall erect a ramp specific service sign if businesses for that type of motorist service are signed on the corresponding mainline specific service sign and one or more of these businesses or their on-premises signing is either not visible from the mainline or is not visible from the ramp at or before the point where a motorist needs to make a lane decision or turning decision. However:

(1) The department shall not erect ramp specific service signs if ramp design or spacing limitations prohibit the erection of these signs.

(2) The department may erect a general service sign on the ramp for the appropriate service type in lieu of a ramp specific service sign.

(3) If all services represented by business signs on the mainline specific service signs are located the same direction from the interchange, the department may erect a general service sign on the ramp in lieu of ramp specific service signs.

b. The number of ramp specific service signs that may be erected, the order of preference when space for ramp signs is limited, and the order in which motorist services are displayed on successive ramp signs are the same as the requirements for mainline specific service signs. Also, each ramp specific service sign is limited to six business signs.

c. Ramp specific service signs shall not be erected on double-exit interchanges.

d. If a business sign for a motorist service is displayed on a mainline specific service sign, the department has erected a ramp specific service sign for that service type, and the department has determined that the business or its on-premises signing is either not visible from the mainline or is not visible from the ramp at or before the point where a motorist needs to make a lane decision or turning decision, then a ramp business sign corresponding to the mainline business sign is required.

e. A ramp business sign is allowed only if it has a corresponding business sign displayed on a mainline specific service sign.

118.3(4) Trailblazing signs and placement of business signs.

a. Trailblazing signs are required for a business that has a business sign displayed on a mainline specific service sign when the business is neither located on nor is visible from the road that intersects the mainline at the logo-signed interchange.

b. Trailblazing signs are used only on non-fully controlled access highways and are installed only for businesses that have business signs displayed on mainline specific service signs.

c. The department shall install trailblazing signs on routes under its jurisdiction and shall make signs available for local jurisdictions to place on routes within their jurisdictions.

d. Trailblazing signs shall not display more than four business signs.

e. The department may approve the use of an official traffic control device that is placed by the department or a local jurisdiction on the public right-of-way in compliance with the “Manual on Uniform Traffic Control Devices” as a substitute for a trailblazing sign.

f. If site or other conditions do not permit the erection of a trailblazing sign, the department may approve the use of an off-premises advertising device as a substitute for a trailblazing sign if the advertising device complies, as applicable, with 761—Chapter 117 (including permit requirements) and any local regulations; the device is legible and understandable; and the device is placed along the route in advance of the intersection where the trailblazing sign would have been placed.

g. No more than two trailblazing signs, including approved substitutes, are allowed for a business. If the department determines that more than two trailblazing signs, including approved substitutes, would be needed to guide motorists to the business, the business does not qualify for logo signing at the interchange. Also, if the department determines that one or two trailblazing signs or approved substitutes are required and conditions do not permit the erection of the required trailblazing signs or approved substitutes, the business does not qualify for logo signing at the interchange.

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—118.4(306C) Eligibility for placement of business signs on mainline specific service signs. To qualify for placement of a business sign on a mainline specific service sign, the business shall be open to the general public, shall not restrict entrance based on age, and shall meet the following requirements:

118.4(1) Discrimination prohibited. As a condition of approval as a participant in the logo signing program, the applicant shall give the department written assurance of the business’s conformity with all applicable laws prohibiting discrimination based on age, race, creed, color, sex, sexual orientation, gender identity, national origin, religion or disability, and a participant shall not be in breach of that assurance.

The distance shall be measured from the beginning of the widening for the deceleration ramp at the exit to the entrance of the business.

b. Limit of eligibility reduced to one mile. In urban areas where the number of qualified businesses for a particular type of motorist service exceeds six within the three-mile limit, the department may reduce the maximum distance to one mile for that service type.

c. Exceptions. If there is space for additional business signs on a mainline specific service sign for a particular type of motorist service and no businesses which provide that motorist service within the limit of eligibility have expressed an interest to the department in the space, the department may grant

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—118.5(306C) Application, drawing, and fees.**118.5(1) Application.**

a. A business requesting placement of a business sign upon a mainline specific service sign shall submit a completed application form, provided by the department, along with the application fee, to the Advertising Management Section, Office of Traffic and Safety, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

b. A separate application is not needed for the corresponding ramp business sign or trailblazing business signs. The department will advise the applicant what signs are required once the department approves the application.

c. Once the application is approved and the department has determined what business signs are required, the applicant shall furnish the department with business signs meeting department specifications.

d. Approved applications are valid for the fiscal year (July 1 to June 30) or portion thereof and expire on June 30. If the fees, as billed by the department, are paid by the business in accordance with subrule 118.5(5), the application is renewed on July 1.

118.5(2) Drawing to select applicants. If the number of applicants that are qualified businesses is greater than the number of vacant spaces on a mainline specific service sign, the department shall hold a drawing among these applicants to select the applicants to fill the vacant spaces. If no qualified businesses have applied for the vacant spaces, the department shall consider applicants that would qualify if exceptions were granted. If the number of these applicants is greater than the number of vacant spaces, the department shall hold a drawing among these applicants to select the applicants to fill the vacant spaces.

118.5(3) Applications for attraction signing. The department shall perform an initial review of all applications for attraction signing to determine if the attraction signing meets the technical requirements, such as the maximum distance the site or attraction is allowed to be from the interchange. If the site or attraction meets the technical requirements, the department shall submit the applications to the tourist signing committee. The tourist signing committee will determine whether the applications meet the qualifications set forth in subrule 118.4(7) for an attraction under the logo signing program. The composition of the committee is set out in 761—subrule 119.5(3).

118.5(4) New application required for business name change. If a business participating in the logo signing program changes its name or franchise affiliation from that which appears on its business sign, a new application is required. If the new application is received by the department prior to the change on the business premises, the business will retain its position on the specific service sign, the department will approve the application, and no application fee is due.

118.5(5) Fees. A business is required to pay the following fees to the department for participation in the logo signing program.

a. Application fee. For a new application, the application fee is \$100, except that no application fee is required for an application submitted in accordance with subrule 118.5(4) (business name change). The application fee is a one-time fee and is nonrefundable once the department has performed an on-site review to verify compliance with the requirements of this chapter. The application fee shall be submitted with the application.

b. Annual fee. The annual fee is \$230 for each business sign posted on a mainline specific service sign and \$230 for each business sign posted on a ramp specific service sign and is due on or before July 1 of each fiscal year (July 1 to June 30). However, for a new application, the department shall prorate the annual fee for the portion of the fiscal year that the business signs are installed and, following installation of the signs, shall invoice the business for the prorated annual fee; the fee is due within 30 days.

c. Service fee. The department may install replacement business signs at the request of the business and shall assess a \$50 service fee per business sign installed. The department shall also assess a \$50 service fee to install a renovated or new business sign that replaces a misleading, unsightly, badly faded or dilapidated sign, as specified in subrule 118.7(5). If removal of an existing business sign for the purpose of refurbishing is requested by the business, thereby requiring two service trips by the department, the service fee shall be applied per trip. The department shall invoice the business once installation is complete; the service fee is due within 30 days.

118.5(6) Failure to pay annual fee or service fee. Failure to pay the annual fee or service fee when due shall terminate the business's existing application on file with the department and shall be cause for removal and disposition of the affected business signs by the department. Termination of the application shall occur on the day of delinquency without respect to the date the department removes the business signs. In order to have its business signs reinstalled, the business must submit a new application to the department. The new application is subject to all of the requirements of this chapter, including payment of the application fee and a drawing, if needed, to select applicants.

118.5(7) Fee options for seasonal operations. Subject to subrule 118.5(5), a business that operates on a seasonal basis and is permitted to do so by this chapter has the following payment options:

a. Pay the annual fee for a full year. The department shall remove and reinstall each business sign once each year, free of additional charge, coinciding with the dates of operation, if possible.

b. Pay the annual fee for a prorated year, based on the calendar months in which the business is in operation, plus a \$50 annual service fee per business sign for removal and reinstallation services performed. The department shall remove and reinstall each business sign once each year, coinciding with the dates of operation, if possible.

c. Pay the annual fee for a prorated year, based on the calendar months in which the business is in operation, and provide mainline business signs that contain a supplemental message indicating the dates of operation. Ramp business signs, if required, may contain a supplemental message indicating the dates of operation. The supplemental message must comply with subrule 118.7(4).

118.5(8) Fees for temporary specific service signs. In cases where the attachment of a business sign will require the installation of a new or larger specific service sign, an applicant that wishes to have its

business sign installed sooner than the estimated date of installation as performed by the department's contractor may request the department to erect a temporary specific service sign. The time frame for erection of a temporary specific service sign will depend on the availability of department resources, but is typically one to three months. The applicant shall be charged a fee of \$700 per mainline specific service sign if none exists for that service type, \$400 per mainline specific service sign if the existing specific service sign is full, and \$300 per ramp specific service sign if a ramp business sign is required but cannot be accommodated on the existing ramp specific service sign. This is in addition to the fees specified in subrule 118.5(5). The applicant shall furnish the business sign to be attached to the temporary specific service sign. When the permanent specific service sign is erected, the department shall remove the business sign from the temporary specific service sign and reinstall it on the permanent specific service sign at no additional charge.

[ARC 2645C, IAB 8/3/16, effective 9/7/16]

761—118.6(306C) Business sign blank specifications. Business signs shall meet the following specifications for the sign blank and shall not be installed until they are inspected and approved by the department.

118.6(1) Mainline business sign blank. Mainline business signs shall be fabricated from a rectangular sheet of aluminum, between 0.074 inches and 0.125 inches thick, with 3-inch radius corners. Gas business signs shall be 48 inches wide and 36 inches high. Food, lodging, camping and attraction business signs shall be 60 inches wide and 36 inches high.

118.6(2) Ramp business sign blank. Ramp business signs shall be fabricated from a rectangular sheet of aluminum, between 0.074 inches and 0.125 inches thick, with 2-inch radius corners. Gas business signs shall be 24 inches wide and 16 inches high. Food, lodging, camping and attraction business signs shall be 36 inches wide and 16 inches high.

118.6(3) Trailblazing business sign blank. Trailblazing business signs shall be fabricated from a rectangular sheet of aluminum, between 0.074 inches and 0.125 inches thick, with 2-inch radius corners. All trailblazing signs shall be 20 inches wide and 12 inches high.

761—118.7(306C) Business sign face specifications. Business signs shall meet the following specifications for the sign face and shall not be installed until they are inspected and approved by the department. Businesses shall submit a proposed sign design to the department for approval before proceeding with fabrication.

118.7(1) Design layout. A legend layout or a logo layout, but not both, shall be used for the design of the sign's message.

a. Legend layout. A legend layout shall reflect the name of the business in white letters on a blue background. Recommended letter height is 10 inches on a mainline business sign, 4 inches on a ramp business sign, and 3 inches on a trailblazing business sign. The recommended number of text lines is one or two. Reducing the letter height or adding a third text line will reduce the legibility of the message.

b. Logo layout. A logo layout shall reflect the nationally, regionally, or locally known symbol or trademark of the business, using colors consistent with customary use of the symbol or trademark and resembling the business's on-premises sign. The symbol or trademark may be modified to improve legibility.

118.7(2) Borders. Mainline business signs shall have a white $\frac{3}{4}$ -inch border on the outside edge of the sign. Ramp business signs shall have a white $\frac{1}{2}$ -inch border on the outside edge of the sign. Trailblazing business signs shall have a white $\frac{1}{2}$ -inch border on the outside edge of the sign. If a logo layout has a white background, no border is required. No inset border is allowed on legend layouts, and no inset border is allowed on logo layouts unless it is customary usage for the symbol or trademark.

118.7(3) Reflectorization. All business signs must be retroreflective.

118.7(4) Supplemental messages.

a. With department approval, a supplemental message such as "OPEN 24 HRS," "DIESEL," "E-85," "MECHANIC ON DUTY," "24 HR TOWING," "RV ACCESS," or the dates of operation for seasonal operations may be displayed on a mainline business sign provided the letter height is at least

5 inches. Approval shall be limited to essential motorist information and does not extend to messages such as, but not limited to, “INDOOR POOL,” “CAR WASH” or “PLAY AREA.”

b. With departmental approval, a scaled-down version of the supplemental message used on the mainline business sign may be displayed on ramp business signs provided the letter height is at least 2 inches.

c. Business signs are limited to one supplemental message per business sign.

118.7(5) *Misleading or dilapidated signs.* No business sign shall be displayed if it would mislead or misinform the traveling public, or if it is unsightly, badly faded, or dilapidated. The department may remove or mask business signs that violate these provisions. The department shall require a business to provide a renovated or new business sign to replace a misleading, unsightly, badly faded or dilapidated sign and shall assess a \$50 service fee to install the renovated or new sign.

118.7(6) *Signs that interfere with or imitate official signs.* Messages, trademarks, or brand symbols that interfere with, imitate, or resemble any official warning or regulatory traffic sign, signal or device are prohibited.

118.7(7) *Damaged signs.* The department is not responsible for damages to business signs caused by vandalism, vehicle accidents or acts of God. CHAPTER 119
TOURIST-ORIENTED DIRECTIONAL SIGNING

761—119.1(321) Definitions.

“*Primary highway*,” for the purpose of this chapter, does not include an interstate highway or a freeway primary highway as defined in Iowa Code section 306C.10.

“*Tourist-oriented directional signing*” is official signing that is located within the right-of-way of a primary highway and that identifies and gives directions to activities or sites of significant interest to the traveling public. However, official signing for campgrounds and ski area facilities is not included in this definition. This signing is provided for elsewhere.

761—119.2(321) General.

119.2(1) *Conformance to MUTCD.* Tourist-oriented directional signing shall conform to the “Manual on Uniform Traffic Control Devices” (MUTCD), as adopted in rule 761—130.1(321).

119.2(2) *Spacing and location.*

- a. Tourist-oriented directional signing shall be installed only when sufficient space is available.
- b. Tourist-oriented directional signing shall be installed in advance of the intersection where the motorist leaves the primary highway system to travel to the activity or site. However, tourist-oriented directional signs may be placed on a higher classified highway to direct motorists onto a lower classified highway, or on a greater traveled highway to direct motorists onto a lesser traveled highway.
- c. Tourist-oriented directional signing shall not be placed at interchanges. If an at-grade intersection on a primary highway is replaced with an interchange, the intersection will no longer qualify for tourist-oriented directional signing. Any tourist-oriented directional signing previously erected shall be removed by the department.
- d. If an adjacent landowner complains to the department about the placement of a tourist-oriented directional sign, the department shall attempt to reach an agreement with the landowner for relocating the sign. If possible, the sign shall be relocated to the least objectionable place.
- e. Tourist-oriented directional signing shall not be placed within the urban area as established by the U.S. Census Bureau of an incorporated municipality with a population of 5000 or more.

119.2(3) *Advance signing.* Advance signing authorized by the MUTCD may be installed where the department determines that advance notification of an activity or site would reduce vehicle conflicts and improve highway safety.

119.2(4) *Message.* The message on a tourist-oriented directional sign is limited to a descriptive name, a directional arrow, and travel distance to the activity or site. However, if an agricultural business activity offers tours, the message for the activity shall include the word “tours.”

[ARC 1202C, IAB 12/11/13, effective 1/15/14]

761—119.3(321) General eligibility requirements for an activity or site. This rule describes the general requirements which an individual activity or site must meet to qualify for tourist-oriented directional signing.

119.3(1) *Hours.* The activity or site shall be open to the general public during regular and reasonable hours and not by appointment, reservation or membership only.

- a. Seasonal activities shall be in operation a minimum of four consecutive weeks.
- b. The current months, days and hours of operation shall be conspicuously posted on the premises.

119.3(2) *Building or area.* The activity shall be conducted in an appropriate area or in a building appropriately designed or well-suited for the purpose.

- a. The activity shall not be conducted in a building principally used as a residence unless there is a convenient, separate, and well-marked entrance.

119.3(3) *Location of activity or site.* The activity or site shall be located:

a. Within ten miles of the intersection on the primary highway where the tourist-oriented directional sign will be placed.

b. Outside the urban area, as established by the U.S. Census Bureau, of an incorporated municipality with a population of 5000 or more.

119.3(4) *Signing restrictions.* An activity or site does not qualify for a tourist-oriented directional sign if:

a. The activity or site or an on-premises sign advertising the activity or site is readily recognizable from the primary highway far enough ahead of the entrance to allow the motorist time to safely make the turn into the entrance.

b. An advertising device which serves the activity or site is erected or maintained in violation of Iowa Code chapter 306B; Iowa Code chapter 306C, division II; or other statutes or administrative rules regulating outdoor advertising.

119.3(5) *Nondiscrimination.* The activity or site shall comply with all applicable laws concerning public accommodations without regard to age, race, creed, color, sex, sexual orientation, gender identity, national origin, religion or disability.

[ARC 1202C, IAB 12/11/13, effective 1/15/14]

761—119.4(321) Specific eligibility requirements for the type of activity or site. This rule describes the types of activities or sites that may qualify for tourist-oriented directional signing. Within each type, this rule also describes the specific requirements that an individual activity or site must meet to qualify for tourist-oriented directional signing. These requirements are in addition to those found in rule 761—119.3(321).

119.4(1) *Motorist service.*

119.4(2) *Tourist attraction.*

a. An attraction that is of significant interest to tourists as a historic, cultural, scientific, or religious site, or as a site of natural scenic beauty or naturally suited for outdoor recreation, may qualify.

b. In determining significant interest, the tourist signing committee shall consider information provided by the applicant and a site review of the attraction, and may seek advice from agencies or organizations who have specific information on the attraction.

c. A tourist attraction must:

(1) Be open a minimum of 40 hours a week, five days a week.

(2) Be open a minimum of three consecutive months each year.

119.4(3) *Agricultural business activity.*

a. An agricultural business activity of significant interest to the traveling public may qualify.

The department shall return to the applicant an application that does not meet the minimum requirements.

119.5(3) The tourist signing committee consists of representatives from the economic development authority, the department of transportation, the department of agriculture and land stewardship, the department of natural resources, the department of cultural affairs, the Travel Federation of Iowa, and the Outdoor Advertising Association of Iowa. The committee's responsibility is to approve or deny applications.

[ARC 1202C, IAB 12/11/13, effective 1/15/14]

761—119.6(321) Installation, maintenance, replacement and removal.

119.6(1) *Installation and maintenance of tourist-oriented directional signs.* Except as provided in subrule 119.6(5), the department shall fabricate and perform all required installation, maintenance, removal and replacement of tourist-oriented directional signs that are located within the right-of-way.

a. The department shall design the tourist-oriented directional sign and provide a scaled drawing of it to the applicant prior to sign fabrication.

b. A tourist-oriented directional sign for a for-profit activity or site shall not be installed until the applicant has paid the department the initial fee specified in subrule 119.6(3). If the activity or site is not for profit, the department shall fabricate and install the sign and provide normal maintenance at no cost to the applicant.

119.6(2) *Installation and maintenance of trailblazing signs.* If the activity or site is not located adjacent to the secondary road or city street intersecting the primary route, trailblazing signs are required. Trailblazing signs shall conform to requirements in the MUTCD.

a. The department shall fabricate trailblazing signs and provide them to cities and counties for installation on secondary roads and city streets. Cities and counties are responsible for the installation and maintenance of trailblazing signs on routes under their jurisdiction.

b. Trailblazing signs for a for-profit activity or site shall not be installed until the applicant has paid the department a fee for the cost of sign fabrication.

c. Tourist-oriented directional signs shall not be installed until necessary trailblazing signs are in place.

119.6(3) *Fees.* The initial fee, payable once an application is approved, is \$100 per sign plus the cost of sign fabrication and installation. The annual renewal fee, payable on or before June 30 of each year, is \$50 per sign, which covers administrative costs and normal maintenance. These fees apply to for-profit activities or sites only.

119.6(4) *Additional services.* The department may perform additional services requested for an activity or site in connection with the modification of a tourist-oriented directional sign. If the sign is for a for-profit activity or site, the activity or site shall prepay a \$50 service charge plus the cost of any required new or renovated sign.

119.6(5) *Seasonal activity or site.* A tourist-oriented directional sign for a seasonal activity or site must either be masked or have a "closed" panel installed over the sign's directional information when the

activity or site is closed or when the hours of operation decrease below the minimum requirements during the off-season period. Either the department or the activity or site with the department's permission shall perform the work. If the department performs the work, the approved applicant must pay the actual cost to install and remove the "closed" panel or to mask the sign.

119.6(6) Required replacement.

a. The department shall determine when a tourist-oriented directional sign is no longer serviceable and needs to be replaced. A for-profit activity or site must pay for the cost of a new sign and its installation prior to installation. If the activity or site is not for profit, the department shall replace the sign at no cost to the activity or site.

b. The department is not responsible for theft of tourist-oriented directional signs or damage to them caused by vandalism, vehicle accidents, or natural causes. If a sign for a for-profit activity or site requires repair or replacement due to theft or damage, the activity or site must pay the cost of a new sign and its installation. At the activity's or site's request, this cost may be spread over a 12-month period. If the activity or site is not for profit, the department shall repair or replace the sign at no cost to the activity or site.

119.6(7) Removal. The department shall remove a tourist-oriented directional sign if the activity or site no longer qualifies for tourist-oriented directional signing. As official signs, all tourist-oriented directional signs are the property of the department and shall not be given to applicants upon the signs' removal.

These rules are intended to implement Iowa Code section 321.252.

“*Interchange*” means the entire area constructed for the junction of two or more roads or streets by a system of separate levels that permit traffic to pass from one to another without crossing traffic streams. This definition includes all acceleration and deceleration lanes constructed to accommodate this movement of traffic.

“*Lease*” means an oral or written agreement by which possession or use of land or interests therein are given by the owner or other person to another person for a specified purpose.

“*Parkland*” means any public land that is designated or used as a public park, recreation area, wildlife management area, wildlife or waterfowl refuge or historic site.

“*Private directional signs*” means signs containing directional information about public places owned or operated by federal, state or local governments or their agencies; publicly or privately owned natural phenomena or historical, cultural, scientific, educational or religious sites; or publicly or privately owned areas of natural scenic beauty or naturally suited for outdoor recreation. This definition includes sites set aside as refuges for the preservation of species on the federal or state endangered species list. “Private directional signs” pertains only to signs erected on private property.

“*Scenic area*” means any area of particular scenic beauty or historical significance, as determined by the federal, state, or local officials having jurisdiction over the area. “Scenic area” includes real property interests that have been acquired for the restoration, preservation and enhancement of scenic beauty.

- a. Attempt or appear to attempt to direct the movement of traffic.
- b. Interfere with, imitate or resemble any official traffic sign, signal, or device.
- c. Move or have any animated or moving part.
- d. Be erected or maintained on a tree or painted or drawn on a rock or other natural feature.
- e. Violate state or local law.
- f. Obstruct or impair the view of any portion of the public roadway at an intersection or a railroad

crossing and cause an unsafe condition as determined by the department.

[ARC 1203C, IAB 12/11/13, effective 1/15/14]

761—120.3(306C) Size requirements.

120.3(1) A private directional sign shall not exceed the following dimensions:

- a. Area: 150 square feet.
- b. Height: 20 feet.
- c. Length: 20 feet.

120.3(2) These dimensions include border and trim, but exclude supports.

120.3(3) A private directional sign shall be rectangular in shape.

761—120.4(306C) Lighting requirements. A private directional sign may be illuminated, subject to the following:

120.4(1) A private directional sign shall not contain or be illuminated by any flashing, intermittent, variable intensity, or moving light.

120.4(2) The illumination of a private directional sign shall not interfere with the effectiveness of or obscure an official traffic sign, signal or device.

120.4(3) The illumination of a private directional sign shall be either:

- a.* Effectively shielded so that beams or rays of light are not directed at any portion of the main traveled way, or
- b.* Of an intensity or brilliance that does not cause glare, impair a motorist's vision, or otherwise interfere with the operation of a motor vehicle.

761—120.5(306C) Spacing and location requirements.

120.5(1) A private directional sign shall be located off the highway right-of-way.

120.5(2) A private directional sign for a privately owned activity or site shall not be located in a publicly owned rest area, parkland or scenic area.

120.5(3) The following spacing requirements apply to private directional signs:

- b.* Private directional signs facing the same direction of travel shall be spaced at least one mile apart.

c. A private directional sign shall not be erected within one mile of a tourist-oriented directional sign for the same activity or site if both signs would be on the same route and face the same direction.

d. Distance (spacing) is measured along a line parallel to the highway centerline from a point perpendicular to the starting point (e.g., another sign or the boundary of a rest area, parkland, scenic area or interchange) to a point perpendicular to the proposed sign location.

e. The boundary of an interchange is the end or beginning of whichever acceleration or deceleration ramp that extends the farthest from the interchange. In an area where two interchanges are in such close proximity that the acceleration or deceleration lanes or ramps merge or overlap or where there are continuous acceleration or deceleration lanes between interchanges, the area will be treated as one continuous interchange.

f. Except as otherwise specified, on-premises signs, permitted billboards, and official signs and notices are not taken into consideration when determining compliance with spacing requirements.

120.5(4) In unincorporated areas, private directional signs shall not be located beyond the adjacent area.

120.6(2) Unless otherwise specified by the department, the sign message shall include travel distance to the activity or site and information that sufficiently informs motorists of the hours, days, and months of operation of the activity or site. At the department's discretion, this information may be omitted if the department determines that the omission will not inconvenience motorists.

120.6(3) Unless otherwise specified by the department, the sign message for an area naturally suited for outdoor recreation shall advise the motorist of the types of recreational amenities available. At the department's discretion, this information may be given by either listing the activities or displaying the appropriate symbols, and may be omitted altogether if the department determines that the omission will not inconvenience motorists.

120.6(4) The sign message shall not contain additional words or phrases descriptive of the activity or site, pictorial or photographic representations of the activity or site or its environs, or advertisements of brand-name goods. However, the department may authorize the display of a nationally or regionally recognized trademark or logo in lieu of a word message to identify the activity or site.

120.6(5) The sign message shall contain current information.

120.6(6) The sign message shall not identify an activity or site that is illegal, either at the location of the activity or site or at the location of the sign.

120.7(2) Eligibility is limited to activities or sites that are nationally or regionally known and are of outstanding interest to the traveling public.

120.7(3) The activity or site must be open to the general public and not by appointment, reservation or membership only and must comply with all applicable laws concerning public accommodations without regard to age, race, creed, color, sex, sexual orientation, gender identity, national origin, religion or disability.

120.7(4) To be eligible for a private directional sign visible from an interstate highway, the activity or site shall meet the location requirement of subrule 120.5(6). It shall also have an annual visitor count of 15,000 or more.

120.7(5) To be eligible for a private directional sign visible from a freeway primary or primary highway, the activity or site shall meet the location requirement of subrule 120.5(7). It shall also have an annual visitor count of 10,000 or more. However:

120.8(1) An application for a private directional sign shall be submitted to: Advertising Management Section, Office of Traffic and Safety, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

120.8(2) The department shall verify compliance with minimum requirements and develop an agenda for the tourist signing committee's review of applications that meet minimum requirements. The department shall return to the applicant an application that does not meet minimum requirements.

120.8(3) The tourist signing committee will approve or deny applications, except that signs located along noninterstate routes and not exceeding 32 square feet in size may be approved or denied by the department. The composition of the committee is set out in 761—subrule 119.5(3).

120.8(4) If an application is approved and the applicant has obtained the department's approval of the sign location and message and has paid the appropriate fee, the department shall issue a directional signing permit. A directional signing permit is issued for a specific sign at a specific location for a qualifying activity or site and is not transferable.

120.8(5) If there are two or more applications for qualifying activities or sites and space limitations will not permit the installation of signs for all applications, applications shall be approved on a first-come, first-served basis.

[ARC 1203C, IAB 12/11/13, effective 1/15/14]

761—120.9(306C) Fees. Fees are applicable to all signs measuring over 32 square feet in size. The initial fee, payable at the time of application, is \$100 per permit. The annual renewal fee, payable on or before June 30 of each year, is \$15 per permit.

761—120.10(306C) Erection and maintenance.

120.10(1) A private directional sign shall not be erected until a directional signing permit has been issued for it.

120.10(2) A private directional sign shall be securely affixed to a substantial structure.

120.10(3) A private directional sign shall be maintained in a neat, clean, and attractive condition and shall be in good repair.

120.10(4) The permit holder is responsible for procurement, erection, and maintenance of the sign, including associated costs.

120.10(5) The department shall revoke a directional signing permit for any of the reasons listed below. If the permit is revoked, the permit holder shall remove the sign without compensation.

a. The activity or site no longer qualifies for private directional signing.

b. The annual renewal fee has not been paid.

c. The sign violates a provision of this chapter.

d. Information or facts in the application are intentionally falsified or misrepresented.

120.10(6) Permit plate.

a. The department shall issue a metal permit plate for a permitted sign. The permit plate displays the permit number for the sign.

b. The permit holder shall securely attach the plate to the sign face at the bottom corner nearest the main traveled way or to the support structure immediately below the bottom corner. However, if these locations do not provide an unobstructed view of the permit number from the main traveled way, the permit plate shall be attached to another prominent area of the sign so that the view of the permit number is unobstructed.

c. The permit holder is responsible for replacing a permit plate that is missing or illegible. To obtain a replacement, the permit holder shall apply to the department and pay a \$10 fee.

d. If the department notifies the permit holder that a permit plate is not properly displayed, the permit holder shall within 90 days of notification either correct the situation or secure and display a replacement permit plate. Failure to properly display a permit plate after the 90-day period has expired shall result in revocation of the directional signing permit for the sign.

120.10(7) Access. Access to the private property upon which a private directional sign is located shall be gained from highway right-of-way only at access points designated or allowed by the department in accordance with 761—Chapter 112. An initial violation of this requirement by or on behalf of the permit holder shall result in the department's sending a written warning by certified mail to the permit holder. A second violation of this requirement shall result in revocation of the directional signing permit. If a directional signing permit is revoked for an access violation, the permit holder is ineligible to apply for a permit for at least 12 months after revocation for any location within 500 feet of the revoked permit's sign location.

120.10(8) Destruction of vegetation. Without the written authorization of the department, vegetation growing on the highway right-of-way shall not be cut, trimmed, removed, or in any manner altered or damaged to improve the visibility of a private directional sign. Violation of this prohibition by or on behalf of the permit holder shall result in revocation of the directional signing permit. If a directional signing permit is revoked because of destruction of vegetation, the permit holder is ineligible to apply for a permit for 12 months after revocation for any location within 500 feet of the revoked permit's sign location.

These rules are intended to implement Iowa Code sections 306C.10 to 306C.19 and 657.2.

CHAPTER 124
HIGHWAY HELPER SPONSORSHIP PROGRAM

761—124.1(307) Introduction and purpose. The department operates the highway helper sponsorship program on the primary highways to keep traffic flowing by providing minor breakdown assistance and aiding with traffic control at crash scenes. This chapter establishes the requirements for a sponsorship for this program. The purpose of this sponsorship program is to provide contributory support for the primary road fund. The highway helper fleet is funded through the primary road fund and provides a public service.

[ARC 0187C, IAB 7/11/12, effective 8/15/12; see Delay note at end of chapter]

761—124.2(307) Contact information. Information relating to the issuance of requests for proposals when sponsorship opportunities become available may be obtained from the Office of Traffic and Safety, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010, or by telephone at (515)239-1296.

[ARC 0187C, IAB 7/11/12, effective 8/15/12; see Delay note at end of chapter]

761—124.3(307) Definitions. As used in this chapter, unless the context otherwise requires:

“Acknowledgment sign” means an official sign placed within the right-of-way which meets all design and placement guidelines for acknowledgment signs as covered in Part 2 of the MUTCD, and all sign design principles covered in the most current edition of the “Standard Highway Signs and Markings Book,” as published by the U.S. Department of Transportation, Federal Highway Administration, and which is intended only to inform the traveling public that a highway-related service, product or monetary contribution has been sponsored by a person, firm or entity.

“Advertise” means to provide information on a sign which includes, but is not limited to, any of the following: promotional offers, location directions, a listing of amenities, descriptive words or phrases, telephone numbers, Internet addresses including domain names, slogans or any message that is extraneous to the identification of a single-sponsoring person, firm or entity.

“Freeway-primary highway” means those highways under department jurisdiction which have been constructed as a fully controlled access facility with no access to the facility except at established interchanges.

“Highway helper vehicle” means a motor vehicle included in the program as designated by the department.

“Identification” means a display on an acknowledgment sign which is limited to the name of the sponsor or a registered or unregistered trademark in addition to or instead of the name of the sponsor, if such mark is used consistently by the sponsor whenever and wherever the firm’s or entity’s name is visible to the public, and the medium will allow. If multiple trademarks are used by the sponsor, identification is provided only by the one in the simplest form needed to identify the sponsor.

“Interstate highway” means any highway of the primary system at any time officially designated as a part of the national system of interstate and defense highways by the department and approved by the appropriate authority of the federal government.

“Main-traveled way” means the portion of the roadway for movement of vehicles on which through traffic is carried, exclusive of shoulders and auxiliary lanes. In the case of a divided highway, the main-traveled way includes each of the separated roadways for traffic in opposite directions, exclusive of frontage roads, turning roadways or parking areas.

“MUTCD” means the Manual on Uniform Traffic Control Devices as adopted in 761—Chapter 130.

“Right-of-way” means land area dedicated to public use for the highway and its maintenance, and includes land acquired in fee simple or by permanent easement for highway purposes, but does not include temporary easements or rights for supplementary highway appurtenances.

“Sponsor” means a single person, firm or entity which has been approved by the department for the highway helper sponsorship program. If the highway helper sponsorship program includes more than one urban area, this definition shall not preclude the approval of one sponsor per urban area.

Failure to comply with this requirement may result in removal of all signs for the named route or memorial bridge along the primary highway. The applicant is responsible for providing the department with the applicant’s current contact information. If the department is unable to make contact with the applicant when replacement signs are needed, it may be necessary to remove all signs for the named route or memorial bridge along the primary highway.

e. The applicant shall be responsible for the costs to install the signs, including the posts and hardware.

f. A named route or memorial bridge shall not be given a name which could be considered discriminatory, biased or inappropriate.

131.10(3) Memorial highway or bridge signing. Signing for memorial highways or bridges shall comply with the MUTCD as modified by the following:

a. Memorial highway or bridge signing off the primary highway right-of-way:

(1) Preferably, signing for a memorial highway or bridge should neither appear on or along the primary highway nor be placed on bridges or other highway components. Signing is best accomplished by placing memorial plaques in rest areas, scenic overlooks or other appropriate locations off the right-of-way where parking is provided. These plaques shall be located in a manner that will not distract motor vehicle operators.

(2) Departmental approval is not needed for memorial highway or bridge signing placed off the right-of-way at locations not subject to control under Iowa Code chapter 306B or chapter 306C, division II.

b. Memorial highway or bridge signing within the primary highway right-of-way:

(1) If placement of memorial plaques off the right-of-way is not acceptable, the department may approve the installation of memorial highway or bridge signs within the right-of-way provided they are independent of other guide and directional signing and they do not adversely compromise the safety or efficiency of traffic flow.

(2) As determined by the department, a memorial highway or bridge sign within the right-of-way shall be sized based on the size of lettering required for the traffic speed and type of highway being named. The color will be white lettering on brown background, and the design must be approved by the department. If the applicant prefers the sign include a design symbolic of the group or event, instead of the name, then the sign is limited in size to no larger than 24 inches in width and 30 inches in height. The color and design must be approved by the department.

(3) The number of memorial highway signs within the right-of-way shall be limited to one sign at each end of the memorial highway and one sign when entering the corporate limits of each city through

which the memorial highway passes. The number of memorial bridge signs will be limited to one sign for each direction of traffic.

131.10(4) *Historic trail and scenic trail signing.* The department may approve the installation of historic trail and scenic trail signing within the primary highway right-of-way. Signing for historic trails and scenic trails shall comply with the MUTCD and the following:

a. A sign designating a historic trail or scenic trail shall be no larger than 24 inches in width and 30 inches in height. The colors used shall be limited to white, black, brown, blue or green. The color and design must be approved by the department.

b. Signs designating a historic trail or scenic trail may be placed at each end of the trail, when entering the corporate limits of cities through which the trail passes, and at points where the trail direction changes.

c. Additional trail signs may be placed between cities along the trail. These signs when facing the same direction of travel shall be spaced at least five miles apart. An exception may be made when the trail direction changes.

d. A sign designating a historic trail or scenic trail shall be placed alone on a post.

131.10(5) *Procedures.*

a. To request placement of signs designating a primary highway or bridge as a named route or memorial bridge, the applicant shall submit a formal written request to the appropriate district office.

b. The request shall contain the following:

(1) A detailed description of the proposed named route or memorial bridge, including those portions of the route off the primary highway system.

(2) If the request is for a memorial highway or bridge, documentation supporting the significance of the person, group, place or event for which the memorial highway or bridge is named. Any person being honored must have provided extraordinary public service or some exemplary contribution to the public good or outstanding service to the nation, this state or the person's community and have a connection to the community where the highway or bridge is located. The person being honored must be deceased for one year.

(3) If the request is for a historic trail, documentation supporting the historical significance of the trail.

(4) If the request is for a scenic trail, information outlining the features or facilities that are of special scenic or recreational appeal.

(5) A sketch of the sign proposed for designating the named route.

(6) Proposed locations for placement of the signs, including those locations off the primary highway system.

(7) A signed resolution from each city and county through which the named route passes or where the bridge is located, indicating support of the route designation.

c. The department shall evaluate the request against the requirements of this rule and notify the requester of approval or denial of the request. Notification of denial shall include the reasons for denial.

d. The department shall install approved signs provided by the applicant (see paragraph 131.10(2)“*d*”) and provide routine maintenance when the signs are to be located within the primary highway right-of-way. The applicant shall be responsible for the installation costs for each of the signs.

e. The department is not responsible for the installation or maintenance of signs placed off the right-of-way or placed on the city or county highways.

CHAPTER 132
IOWA BYWAYS PROGRAM

761—132.1(306D) Purpose, overview and information.

132.1(1) Purpose. The purpose of the Iowa Byways program is to designate qualifying Iowa roads as byways on the basis of scenic byway, heritage byway, or a combination of scenic and heritage byway qualities. These designations are intended both to preserve the state's scenic, natural, and historic resources and to support economic development through travel and tourism.

132.1(2) Overview. Under the Iowa Byways program, proposed routes are identified via an application process. The department inventories and evaluates the proposed routes. The advisory council recommends the routes to be designated by the department. The department provides identifying signs for the designated routes. Routes designated as an Iowa Byway are part of Iowa's scenic byway program and are therefore subject to the prohibition set forth in 23 U.S.C. Section 131(s).

132.1(3) Information and forms. Information, instructions and application forms may be obtained from the Office of Systems Planning, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; telephone (515)239-1664; or through the department's Web site at www.iowadot.gov.

[ARC 3298C, IAB 8/30/17, effective 10/4/17]

761—132.2(306D) Definitions.

"Advisory council" means the Iowa Byways advisory council. This group is responsible for recommending routes for Iowa Byways designation. It is comprised of representatives from the state agencies with jurisdiction over transportation, tourism, cultural resources, historic resources and natural resources.

"Department" means the Iowa department of transportation.

"Designation" means department approval of a route as an Iowa Byway.

"Heritage byway" means a route that has historic or cultural significance along its length or connects various areas or sites of historic or cultural significance along its length.

"Scenic byway" means a route that has naturally scenic features visible along its length.

[ARC 3298C, IAB 8/30/17, effective 10/4/17]

761—132.3(306D) General requirements.

132.3(1) A route eligible for designation as an Iowa Byway must meet the definition of either a heritage byway or a scenic byway. A route may also be eligible for designation if segments of the route meet a combination of either a heritage byway or a scenic byway along its entire length.

132.3(2) Primary roads, secondary roads and city streets are eligible for designation as Iowa Byways.

132.3(3) A route eligible for designation as an Iowa Byway should be continuous and at least 20 miles in length.

132.3(4) The governing body of each city and county through which a route passes must pass a formal resolution endorsing the application for Iowa Byway designation and agreeing to the responsibilities of having jurisdiction over a portion of a designated route.

132.3(5) The initial installation of signs identifying an Iowa Byway including the accompanying posts and hardware necessary for installation shall be paid for and furnished by the department. Each roadway jurisdiction is responsible for the inventory, maintenance, and reinstallation of signs provided by the department following the initial installation.

[ARC 3298C, IAB 8/30/17, effective 10/4/17]

761—132.4(306D) Application and approval process.

132.4(1) Program cycle. The Iowa Byways program shall operate on a four-year cycle, with applications due by October 1, 2020, and every fourth year thereafter. Field inventories, evaluation, and rating of proposed routes will follow with designation of any new routes completed by the next application deadline.

132.4(2) Application. Application to designate a route as an Iowa Byway or to propose an extension or loop to an existing route shall be on a form provided by the department and shall be received by

the department by the stated application deadline. The application must be accompanied by a formal resolution described in subrule 132.3(4). Applications must provide some discussion of the planned administration and governance of the proposed Iowa Byway as well as how the byway will be marketed to visitors.

132.4(3) *Initial review.* Applications shall be reviewed by the advisory council to acquaint the council members with the proposed routes and to allow the members an opportunity to provide the department with information from their areas of expertise. Such input may provide details related to the existence and quality of scenic, archaeological, cultural, historic, natural, and recreational resources along a proposed route.

132.4(4) *Field inventory.* The department shall conduct a field inventory of proposed routes which will address the following qualities:

a. Scenic value. Types and qualities of views along the proposed route contributing to the scenic quality of the route shall be identified as well as views that distract from or negatively affect the scenic quality of the route. The field inventory will provide an assessment of the visual character of the proposed route along its length.

b. Cultural and historic resources. Known cultural and historic resources will be identified along the length of the proposed route. Such resources may include archaeological, architectural, historical or other cultural sites of national or state significance and may also include interesting or unique local cultures or architecture that may appeal to visitors.

c. Natural resources. Resources including but not limited to agricultural lands, forests, river basins, and other distinctive landforms will be identified.

d. Recreational resources. Public lands and facilities providing opportunities for organized sport, outdoor recreation, or other recreation will be identified.

e. Transportation. An assessment will be made of existing and future traffic conditions, planned improvements to the proposed route, and any safety concerns whether existing or anticipated. If the route is being considered for heritage byway designation, historic elements specific to transportation will be identified.

132.4(5) *Evaluation and rating.* The department shall compile and evaluate the field inventory data for each proposed route, calculate an overall quality rating for each proposed route, and prepare a written report documenting these findings. The written report shall also consider the sustainability of the proposed route based on the information provided in the application for planned governance and marketing plans as well as how the proposed route will complement the existing Iowa Byways.

132.4(6) *Selection.* The advisory council shall review the evaluations and recommend routes to be designated as Iowa Byways based on this information and any other information the council may have obtained regarding the routes.

132.4(7) *Designation.* The department will consider designating routes recommended by the advisory council as Iowa Byways.

132.4(8) *Signing.* Upon the designation of Iowa Byways, the department will proceed with the initial design and installation of signage identifying new Iowa Byways.

[ARC 3298C, IAB 8/30/17, effective 10/4/17]

761—132.5(306D) *Reevaluation.* At its discretion, the department may inventory and evaluate designated Iowa Byways or portions of byways to determine their continued eligibility for the program. The department reserves the right to remove a route or portion of a route from the program if the route no longer meets the designating criteria or if the route signage has not been maintained. The department may modify an existing route if an alternative route would better benefit the traveling public in cases of poor road conditions, closures or changes in available amenities.

[ARC 3298C, IAB 8/30/17, effective 10/4/17]

761—132.6(306D) *Promotional and tourism efforts.* The department is not responsible for economic development, promotional, or other tourism efforts for Iowa Byways.

CHAPTER 136
LIGHTING

[Prior to 6/3/87, Transportation Department[820]—(06,K) Ch 4]

761—136.1(319) Lighting of primary-secondary intersections. The purpose of this rule is to establish the qualification criteria, application procedure and financial responsibilities for the placement of roadway luminaires within the limits of the primary road right-of-way at a rural intersection of a primary road and a paved secondary road.

136.1(1) Lighting criteria. A primary-secondary intersection is a candidate for lighting if one of the following is met:

Major traffic flow (primary): A to B and B to A
 Minor traffic flow (secondary): C to D and D to C
 Possible left turns: A to C, B to D, C to B and D to A

- a. The night-to-day accident rate ratio is 2.0 or greater with a minimum of three reportable nighttime accidents in a 12-month period.
- b. Substantial lighted commercial or business development that is affecting operations exists adjacent to the intersection.
- c. Motorists are experiencing operational problems which might be expected to be reduced by lighting.
- d. The current average daily traffic (ADT) is 3500 entering vehicles for the intersection and:
 - (1) The intersection is channelized or “T,” or
 - (2) A change in the direction of the major route occurs.
- e. After making the following calculations, the total in subparagraph (3) below exceeds 3000 points.
 - (1) Determine the “Roadway/Traffic Factors” for traffic at A and for traffic at B, using the following formula and “Standard Sight Distances for Speed”:

$$\text{Roadway/Traffic Factor} = \frac{\text{Standard Passing Sight Distance for Speed}}{\text{Actual Sight Distance}} \times \frac{\text{Actual Approaching Traffic Volume}}{1000}$$

Standard Passing Sight Distances For Posted Speeds

Speed	Distance
55 mph	2000 ft.
50 mph	1800 ft.
45 mph	1700 ft.
40 mph	1500 ft.

- (2) Compare the two answers; the larger number is the “Greater Roadway/Traffic Factor.”
- (3) Calculate points based on the following formula, using current average daily traffic (ADT):

Greater Roadway/Traffic Factor × Traffic Volume from C to D	= _____
Greater Roadway/Traffic Factor × Traffic Volume from D to C	= _____
Greater Roadway/Traffic Factor × Traffic Volume from C to B × (1.5)	= _____
Greater Roadway/Traffic Factor × Traffic Volume from D to A × (1.5)	= _____
Roadway/Traffic Factor for A × Traffic Volume from B to D × (1.5)	= _____
Roadway/Traffic Factor for B × Traffic Volume from A to C × (1.5)	= _____
TOTAL	= _____

136.1(2) Reserved.

136.1(3) Procedures.

a. A request for lighting shall be made by the county to the appropriate district engineer. The request shall indicate the type and size of luminaires proposed, sight distance measurements and posted speed. If the county is requesting that the department participate in the installation costs as a C-STEP (County-State Traffic Engineering Program) project, this should be indicated in the request. A lighting plan shall accompany the request showing:

- (1) The complete dimensions of the intersection including pavement and shoulders.
- (2) The locations of proposed luminaires and poles.
- (3) The mounting heights, mast arm lengths, lateral and vertical light distributions of proposed luminaires and the approximate location for electrical service.

b. The district engineer shall forward the request to the department’s office of traffic and safety for review.

c. If design requirements are satisfied, the department shall approve the lighting installation.

(1) The county shall be responsible for designing and installing the lighting and for all future energy and maintenance costs.

(2) If the location qualifies for lighting installation and if funds are available, the department shall share the installation costs on the basis of the current C-STEP participation ratio.

(3) If the department does not share the installation costs but the county wishes to install the lighting, the county shall be responsible for the installation costs.

d. If the department will share the installation costs, the department shall prepare an agreement for departmental and county approval.

This rule is intended to implement Iowa Code sections 319.1, 319.12 and 319.14.

761—136.2(319) Destination lighting. The purpose of this rule is to establish the application procedure and financial responsibilities for the placement of a roadway luminaire within the limits of primary road right-of-way at a rural intersection of a primary road and a minor road.

136.2(1) Definition.

“Minor road,” for the purposes of this rule, is an entrance to a primary road from a frontage road, a rural commercial establishment, a governmental agency facility, a generator of a substantial traffic volume, or a secondary road.

136.2(2) Reserved.

136.2(3) *Procedures.*

a. Application shall be made to the appropriate district engineer on Form 810025, “Application for Use of Highway Right-of-Way for Utilities Accommodation.” The application shall indicate the type of luminaire and intensity of illumination proposed. A sketch shall accompany the application showing the location of the proposed luminaire and pole and the mounting height of the luminaire.

b. The district engineer shall be responsible for departmental approval of the application. A copy of the application indicating the district engineer’s determination shall be returned to the applicant. Approved applications are termed “permits.”

c. The applicant shall be responsible for installing the lighting and for all installation, energy and maintenance costs.

This rule is intended to implement Iowa Code sections 319.1, 319.12 and 319.14.

761—136.3 to 136.5 Reserved.

761—136.6(306) Warrants and design requirements for lighting.

136.6(1) *Warrants.* Meeting departmental warrants or criteria for lighting simply establishes the location as a candidate for lighting. It does not obligate the department to provide lighting or to participate in lighting costs.

136.6(2) *Design requirements.* The design of lighting installations shall comply with departmental specifications and standard road plans for highway lighting as they exist at the time of installation of the lighting.

This rule is intended to implement Iowa Code subsections 306.4(1) and 669.14(8).

CHAPTER 143
TRAFFIC SIGNAL SYNCHRONIZATION

761—143.1(364) Definitions. The following definitions apply to these rules:

“*Arterial street*” means any U.S. or state numbered route, controlled access highway, or other major street or highway designated by the city within its respective jurisdiction as a part of a major arterial system of streets or highways.

“*Controller*” means a supervisory device that controls the sequence and duration of indications displayed by traffic signals.

“*Coordination*” means the establishment of a definite timing relationship between adjacent traffic signals.

“*Cycle*” means any complete sequence of traffic signal indications (phases).

“*Detector*” means a device that senses vehicular or pedestrian demand and transmits an impulse to a controller.

“*Local controller*” means a controller supervising the operation of traffic signals at a single or two closely spaced intersections.

“*Master controller*” means a controller supervising the operation of several local controllers.

“*Phase*” means a portion of the cycle during which an assignment of right-of-way is made to a traffic movement or combination of traffic movements.

“*Traffic signal*” means any permanently installed, electrically powered traffic control device by which traffic is alternately directed to stop and to proceed.

“*Traffic signal system*” means two or more traffic signals operating in a coordinated manner. Types of coordinated systems:

1. “*Adaptive signal control system*” means a system in which traffic signals across a signal network are coordinated by adjusting the lengths of signal phases based on prevailing traffic conditions.

2. “*Computerized system*” means a system in which controllers are supervised by a computer.

3. “*Interconnected master-controlled system*” means a system in which local controllers are supervised by a master controller through a communications link (wire/radio). The master establishes a base line condition; the local then operates its intersection in a predetermined relationship with the base line.

4. “*Noninterconnected system*” means a system in which timing relationships between individual local controllers are coordinated by manual settings, without physical interconnection between the controllers.

5. “*Time-based coordinated system*” means a noninterconnected system in which the local controllers use a programmable digital timing and control device (time-based coordinator) to maintain coordination.

6. “*Traffic responsive system*” means a system in which a master controller specifies cycle timings based on the real time demands of traffic as sensed by vehicle detectors.

[ARC 2984C, IAB 3/15/17, effective 4/19/17]

761—143.2(364) Applicability. This chapter applies to all cities with more than three traffic signals within the corporate limits.

761—143.3(364) Traffic signal inventory. Rescinded IAB 9/4/02, effective 10/9/02.

761—143.4(364) Required synchronization.

143.4(1) Unless a traffic engineering study documents that it is not practical, traffic signals within one-half mile of each other along an arterial street or in a network of intersecting arterial streets shall be operated as a traffic signal system.

143.4(2) Reserved.

143.4(3) Timing and operational plans developed for traffic signals shall be developed by application of traffic engineering principles to provide maximum traffic flow efficiencies and safety.

143.4(4) All traffic signal installations and operations shall meet the requirements of the “Manual on Uniform Traffic Control Devices,” as adopted in 761—Chapter 130.

761—150.1(306) Definitions.

“*Access control limits*” means the area within the primary highway right-of-way limits, including right-of-way lines extended across side streets and roads. The term includes areas on side streets and roads where the department has acquired access control rights in accordance with 761—Chapter 112.

If the department participates, the department's share of the installation costs shall be based on the current U-STEP cost apportionment.
- c. When new pavement construction or additional lanes are not involved, the department may participate in the installation costs of new and modernized traffic signals or signals that are for pedestrian use only. If the department participates, the department's share of the installation costs shall be based on

d. The department shall be responsible for the costs of construction of longitudinal and outlet storm sewers made necessary by highway construction and construction of local service roads developed as a part of the construction or reconstruction of the through traffic lanes in the proportion that the right-of-way of the primary road extension bears to the total drainage area to be served by the proposed sewers. The city shall be responsible for the remaining portion of storm sewer costs not paid for by the department.

e. Unless otherwise mutually agreed to and specified in the agreement, the department shall be responsible for the cost of right-of-way and construction of local service roads developed as a part of the construction or reconstruction of the through traffic lanes.

150.3(2) Maintenance. The department shall enter into an agreement with a city regarding the maintenance of primary roads within the corporate city limits. This is intended to include corporate line roads, when appropriate. Unless otherwise mutually agreed to and specified in the agreement, maintenance responsibilities shall be as follows:

150.3(3) Lighting.

a. The department shall not be responsible for the installation, energy, and maintenance costs of lighting on extensions of nonfreeway primary highways. The city may elect to provide lighting at its own expense. However:

(1) For cities with a population of 5,000 or less, the department may elect to install interchange lighting and to be responsible for or to participate in the energy and maintenance costs of this lighting.

(2) On a new construction project that results in a predominately fully controlled access highway, but incorporates some nonfreeway segments, the department may elect to participate in the installation of lighting at conflict points if the city agrees to be responsible for the energy and maintenance costs of this lighting.

b. At corporate line primary road junctions, the lighting shall be installed where necessary by the department in accordance with department warrants. The department shall be responsible for the installation costs. Unless otherwise agreed, the energy and maintenance costs shall be shared by the city and department in proportion to the number of luminaires in each jurisdiction as established by the corporate line. When and if the corporate line is extended to include any part of the lighting installation or a greater proportion of luminaires, the proportionate costs for maintenance and energy shall be redetermined on the basis of the number of luminaires in each jurisdiction as established by the new location of the corporate line.

150.3(4) Traffic signals.

a. All traffic signal installations shall meet the standards and warrants established in the MUTCD.

b. On projects initiated by the department, the department may install, at no cost to the city, traffic signals warranted when replacing existing pavement or adding new lanes. the department participates, the department's share of the installation costs shall be based on the current U-STEP cost apportionment.

c. When new pavement construction or additional lanes are not involved, the department may participate in the installation costs of new and modernized traffic signals or signals that are for pedestrian use only. If the department participates, the department's share of the installation costs shall be based on the current U-STEP cost apportionment; the city shall prepare plans, award the contract, supervise the installation, and be responsible for the remaining installation costs.

d. Modifications made to the traffic signal system to coordinate it with other city signal systems (not on the primary road extension system) shall be the sole financial responsibility of the city.

e. The department shall not participate in the cost of signals for commercial use only.

f. The department shall not participate in the signalization of primary road stub routes which terminate within the city.

g. The department shall not assume ownership and shall not be responsible for any energy or maintenance costs for traffic signals.

h. Signal phasing, initial and future, as well as timing and coordination between intersections shall be coordinated between the department and the city.

150.3(5) *Overdimensional and overweight vehicles.* The city shall comply with all current statutes, rules and regulations pertaining to overdimensional and overweight vehicles using primary roads when issuing special permits for overdimensional and overweight vehicles.

This rule is intended to implement Iowa Code sections 306.4, 313.5, 313.21 to 313.24, 313.27, 313.36, 314.5, 314.6 and 321E.3 and chapter 306A.
[ARC 3501C, IAB 12/6/17, effective 1/10/18]

150.4(1) *Signing.*

a. The department shall be responsible for permanent traffic control signing on primary road extensions.

b. The department shall not be responsible for construction and maintenance work zone signing unless the work is being done by the department.

c. The department shall not be responsible for street name signs, any regulatory parking signs which denote special regulations as may be determined by the city in cooperation with the department, and those signs which regulate parking as to time, hours and days of the week.

d. The department shall not be responsible for signs facing traffic on primary road extensions which regulate traffic movements on city cross streets (one-way traffic).

e. "Business District" signs on primary road extensions may be permitted upon application by the city to the department.

f. All signing within the right-of-way shall conform to the MUTCD.

150.4(2) *Encroachments and obstructions.*

a. The city shall remove any existing obstructions within the highway right-of-way and prevent any future obstructions from occurring within the highway right-of-way, in a manner consistent with Iowa Code chapter 318.

b. The city shall remove any existing encroachments and prevent any future encroachments from occurring within the highway right-of-way, except those authorized or permitted by the highway authority. Under no circumstances shall an overhanging sign or awning be allowed within two feet of the inside edge of the curb (also known as the face of the curb, which is that part of the curb that is next to traffic) or within two feet of the edge of the pavement in the absence of a curb. Any encroachments authorized or permitted by the highway authority shall be in accordance with Iowa Code chapter 318.

150.4(3) *Pedestrian, equestrian, and bicycle routes (sidewalks).*

a. The department shall remove and replace portions of existing routes as required by construction.

b. The department will consider the impacts to pedestrian accommodation at all stages of the project development process and encourage pedestrian accommodation efforts when pedestrian accommodation is impacted by highway construction. The cost of pedestrian accommodation made

at the time of the highway improvement may be considered an additional roadway construction cost. Providing pedestrian accommodation independent of a highway construction project may be considered with construction funding obtained from local jurisdictions or other federal and non-road use tax state sources.

c. If a project is initiated by the department, the department shall fund 100 percent of all curb ramps, turning spaces, transitions, sidewalks, curb drops and pedestrian signals within the right-of-way of primary road extensions to meet the requirements of the Americans with Disabilities Act if such improvements are in the project.

d. If a project is initiated by a local jurisdiction, the department may participate by funding 55 percent of the cost of constructing curb ramps, turning spaces, transitions, sidewalks, curb drops and pedestrian signals on existing sidewalks within the right-of-way of primary road extensions to meet the requirements of the Americans with Disabilities Act if such improvements are in the project. However, departmental participation shall not exceed \$250,000 per year for any one local jurisdiction and \$5 million per year in total.

150.4(4) *Overpasses and underpasses for pedestrian, equestrian, and bicycle routes.*

a. During initial construction of freeways and other relocated primary road extensions and when user-volumes and topographic conditions warrant the construction of a separation, the cost shall be shared between the department and the city on the basis of the current U-STEP cost apportionment.

b. The department may participate in a city-initiated separation as an unscheduled project.

150.4(5) *Utility relocation and removal.*

a. The city shall relocate or cause to be relocated, without cost to the department, all city-owned utilities necessary for construction when these utilities are within the existing street or alley right-of-way. The department shall reimburse the owner of a utility which is located on private right-of-way for the costs of relocation or removal, including the costs of installation in a new location.

b. The city shall comply with the utility accommodation policy of the department, as adopted in 761—Chapter 115.

150.4(6) *Project concept statements and predesign project agreements for proposed construction projects.*

a. As early as possible after an urban project is included in the department's "Five-Year Iowa Transportation Improvement Program," a concept statement for the project shall be developed and shall be reviewed with the officials of the city prior to the public hearing.

b. During the design process, a predesign project agreement may be submitted to city officials for their approval. It shall include:

- (1) A preliminary description of the project,
- (2) The general concepts of the project,
- (3) Responsibilities for right-of-way acquisition, storm sewer costs and utility adjustment costs,
- (4) The parking and access control restrictions to be applied to the project, and
- (5) Financial participation above minimum standards.

150.4(7) *Preconstruction project agreements for proposed construction projects.*

a. The department shall maintain a close liaison with the city during the development of the project plan so that all parties will be fully informed of the details involved in the proposed improvement.

b. When the plan is sufficiently complete to provide typical cross sections, plan and profile drawings and incidental details, the department shall submit a preconstruction project agreement, which shall include known design data, to city officials for their approval. Terms for reimbursement to the state and local financial participation shall be stated in this agreement.

c. Modifications to this agreement necessitated by design changes encountered during construction shall be made by extra work order agreed to in writing by the city, the contractor, and the department.

This rule is intended to implement Iowa Code sections 306.4, 313.21 to 313.24, 313.27, 313.36, 314.5 and 314.6 and chapters 306A and 318.

[Prior to 6/3/87, Transportation Department[820]—(06,L) Ch 2]

761—151.1(321) Closing primary road extensions. The purpose of this rule is to establish requirements and procedures for the closing of primary road extensions for reasons other than fire, construction or repair in accordance with Iowa Code section 321.348.

151.1(1) Definitions. The following terms shall have these meanings unless the context indicates a different meaning.

“*Adequate detour*” shall mean an alternate route which, based on the engineering judgment of the district engineer, has the operational capability to handle the increased traffic for the specified period of the detour.

“*Local enforcement officers*” shall mean city police, town marshals, or other entities legally granted police power for control of traffic.

“*Primary road extensions*” shall mean the extension of any primary road into or through the corporate limits of a city.

“*Primary stub*” shall mean the extension of any primary road that crosses the corporate limits and terminates at the central business district of a city.

151.1(2) Requirements.

a. Adequate detour over paved roads shall be provided with traffic controls as prescribed in the “Manual on Uniform Traffic Control Devices,” as adopted in rule 761—130.1(321). City officials shall secure the written approval of the county board of supervisors to use any county road as a detour.

b. The city shall be responsible for maintenance and restoration of the detour, and shall accept responsibility for any damages that may occur to the closed section of the primary extension. The city shall accept full liability for conditions and operations of the detour.

c. The closed streets shall be used only for a civic purpose; no closing for promotion of commercial activities shall be allowed.

d. The benefit to the community must outweigh the temporary inconvenience to motorists.

e. The city shall request the Iowa state patrol to review the proposed detour for safety. During use, traffic shall be policed by local enforcement officers.

151.1(3) Arterial system. Rescinded IAB 4/3/02, effective 5/8/02.

151.1(4) Arterial connector system. Rescinded IAB 4/3/02, effective 5/8/02.

151.1(5) Procedures. Procedures for closing primary road extensions shall be as follows:

a. Cities shall file a “Request for Closing Primary Road Extension,” Form 810030, available from district offices. The request shall include the name of the city, period that the covered route is to be closed, the precise section involved, the proposed detour and the purpose for the closure. If the proposed detour involves any part of a county road, the written approval of the county board of supervisors must be submitted with the request.

b. The request shall be signed by the city officials, be reviewed by the Iowa state patrol, and submitted to the district engineer 45 days prior to the first day of closure. The department shall respond to the city in 20 days from the date the request is received. If all requirements in this rule are met, the department may approve the request.

c. The department shall erect any necessary signs on the detour.

151.1(6) Primary stub routes. The city may close a section of a primary stub route for a municipal celebration without obtaining department approval if substitute traffic arrangements are provided. The requirements set out in subrules 151.1(2) to 151.1(5) shall not apply.

These rules are intended to implement Iowa Code section 321.348.

761—161.3(307) Source of funds. The Surface Transportation Block Grant Program established in 23 U.S.C. Section 133 provides for the use of federal funds to replace or rehabilitate public road bridges. The department, in consultation with county and city officials through their representative organizations, has dedicated a portion of these funds for replacement and rehabilitation of city and county bridges.

761—161.5(307) Administration of funds. The Highway Bridge Program funds shall be made available for obligation throughout the state on a fair and equitable basis. The department shall administer the program by dividing each fiscal year Highway Bridge Program apportionment into two separate funds: one for counties and one for incorporated cities. The amount allocated to each of the two funds shall be determined by the department after consultation with county and city officials through their representative organizations. This consultation shall precede any change in allocation.

161.5(1) The counties' share shall be administered by the department's office of local systems and shall be divided among the counties as determined by the department after consultation with county officials through their representative organizations.

161.5(2) The cities' share shall be administered by the department's office of local systems and shall be divided among the cities as determined by the department after consultation with city officials through their representative organizations.

CHAPTER 162
SURFACE TRANSPORTATION BLOCK GRANT PROGRAM

761—162.1(307) Purpose. Federal authorization acts appropriate funds to states to support surface transportation investments. A portion of these funds are provided to the state of Iowa for the Surface Transportation Block Grant Program. The purpose of these rules is to establish requirements for the Surface Transportation Block Grant Program.

[ARC 2745C, IAB 10/12/16, effective 10/1/16; ARC 2843C, IAB 12/7/16, effective 1/11/17; ARC 3878C, IAB 7/4/18, effective 8/8/18]

761—162.3(307) Source of funds. The Surface Transportation Block Grant Program established in 23 U.S.C. Section 133 provides for the use of federal funds to preserve and improve the condition and performance of any federal-aid highway, bridge or tunnel project on any public road. Surface Transportation Block Grant funds may also be used on pedestrian and bicycle infrastructure and transit capital projects including intercity bus terminals.

[ARC 3878C, IAB 7/4/18, effective 8/8/18]

761—162.5(307) Administration of funds. Surface Transportation Block Grant funds are administered by the department and shall be made available for obligation throughout the state on a fair and equitable basis. The department, in consultation with city, county and local planning agency officials, through their representative organizations, shall allocate these funds to Iowa's transportation management areas, metropolitan planning organizations, regional planning affiliations, incorporated cities, counties and the department. Allocation of these funds shall be based upon a distribution methodology approved by the commission. The commission shall review and approve the distribution methodology upon passage of each federal authorization act. Funds allocated to cities and counties to support the Federal-Aid Highway Bridge Program shall be made in accordance with 761—Chapter 161. All allocations of the Surface Transportation Block Grant funds shall be made in accordance with the Federal Highway Administration's regulations and include the allocations of the Surface Transportation Program (STP) Set-Aside for transportation alternatives as established in 23 U.S.C. CHAPTER 163
RISE PROGRAM

[Prior to 6/3/87, Transportation Department[820]—(06,Q) Ch 4]

761—163.1(315) Definitions. When used in this chapter, unless the context otherwise requires:

“Brownfield site” means an abandoned, idled, or underutilized industrial or commercial facility where expansion or redevelopment is complicated by real or perceived environmental contamination.

“Commission” means the state transportation commission.

“Department” means the Iowa department of transportation.

“Direct jobs created” refers to jobs new to the state in firms, developments, or sites specifically assisted by a RISE project.

“Direct jobs retained” refers to existing Iowa jobs that would otherwise be lost in firms, developments, or sites specifically assisted by a RISE project.

“Economic development” means private investment involving the creation of new jobs and income or the retention of existing jobs and income that would otherwise be lost. For the purposes of this program, economic development shall be viewed from a statewide perspective rather than a local or substate, regional perspective and shall result in a net gain to the state.

“Funding commitment” means commission approval of the use of RISE funds for a project.

“Grant” means funds received for a RISE project with no provision for applicant repayment of principal.

“Immediate opportunity project,” one of the two types of RISE projects, is a roadway project that needs a funding commitment within a short time period and meets the threshold criteria in subrule 163.10(6). The project primarily provides improved access to a single economic unit, such as a county, a city, an industrial park, a plant or other business, a development site or a tourist attraction.

“Import substitution” means replacing inputs, products or services from out-of-state firms or locations with Iowa inputs, products or services.

“Jurisdiction” means the state, county, or city having legal authority over a road or street.

“Loan” means funds received for a RISE project with provision for applicant repayment of principal. A loan may or may not involve the payment of interest charges.

“Local development project,” one of the two types of RISE projects, is a roadway project which is programmed through a semiannual competitive rating procedure. The project primarily provides improved access to either a single economic unit, such as a county, a city, an industrial park, a plant or other business, a development site or a tourist attraction, or to a portion of a metropolitan area.

“Project” means an eligible activity or cost or set of eligible activities or costs funded with RISE program funds. The two types of projects which may be funded under the RISE program are immediate opportunity projects and local development projects.

“RISE” means revitalize Iowa’s sound economy.

“RISE fund” means the fund created in Iowa Code section 315.2.

“Total capital investment” means the economic value of all permanent purchases, donations, or improvements directly associated with an economic development activity but not funded with RISE moneys, including land; improvements to land; buildings; equipment; furnishings; electric, gas, telephone, and other utilities; sanitary sewer and storm sewer extensions and hookups; and railroad spurs, access roads, parking lots, and other transportation facilities.

“Transportation justification” means the reasons given for a project from a transportation planning and engineering standpoint. The justification should address the current condition of existing roadways or bridges, the relationship of the project to connecting roads, anticipated total traffic, anticipated large truck traffic, proposed major design features, roadway function, and the reasons the proposed alternative was selected over other available alternatives.

“Value-adding activities” means activities which, through the employment of knowledge or labor, add value to a product, process or service that results in the creation of new wealth to the state.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.2(315) Information and forms. Information, instructions and application forms may be obtained from the Office of Systems Planning, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; telephone (515)239-1664; or through the department's Web site at www.iowadot.gov.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.3(315) Purpose of RISE program. The purpose of the RISE program is to promote economic development in Iowa through the establishment, construction, improvement, and maintenance of roads and streets. The RISE program shall be targeted toward value-adding activities to provide maximum economic impact to the state. Value-adding activities feed new dollars into the economy. As these dollars are circulated, the state experiences economic growth. Tourism activities that result in the attraction of out-of-state dollars to the state economy may also be targeted by the program. Residential development, local government facilities, local public schools, locally oriented business services and personal services are generally not value-adding activities and will rarely meet the intent of the program.

The RISE program shall also be administered to encourage economic diversification, new business opportunities, small business development, exporting, import substitution and tourism in Iowa.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.4(315) Administration of RISE program.

163.4(1) The RISE program shall be administered by the department as a statewide program, with projects evaluated primarily on the basis of economic development criteria rather than solely on the basis of transportation criteria. In carrying out its program responsibilities, the department shall:

a. Involve local officials in program development and periodic program review and evaluation, including evaluation of the accomplishments and effectiveness of the RISE program. However, all project funding decisions shall be the responsibility of the commission.

b. Simplify application processes and administrative procedures to the maximum practicable extent.

c. Design the RISE program administrative procedures so that they are flexible enough to meet county and city needs.

d. Ensure neutrality and fairness in the treatment of all applications submitted for funding under the RISE program.

e. Promote intergovernmental cooperation on economic development.

f. Promote the use of innovative financing mechanisms for RISE projects.

163.4(2) The commission shall be responsible for all RISE project funding commitments. All project funding commitments are made subject to the availability of RISE funds.

163.4(3) The department shall annually prepare a written report indicating the amount and percentage of funds expended during the previous year on primary roads, secondary roads, city streets, state park roads and county conservation parkways.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.5(315) Source, allocation, and use of RISE funds.

163.5(1) Source. The RISE program is funded with dedicated state motor fuel and special fuel tax revenues as set out in Iowa Code section 312.2 and chapter 315.

163.5(2) Allocation and use.

a. *Allocation among roadway jurisdictions.* The RISE fund shall be allocated as specified in Iowa Code section 315.4.

b. *Funding restricted to public roads.* The use of RISE funds is restricted to construction or improvement of primary roads, secondary roads, city streets, state park roads and county conservation parkways presently open to public use or ones which will be dedicated and open to public use in the future. RISE funds may not be used for private road projects or for any other private purpose. Project activities which may and may not be funded under the RISE program are listed in rule 163.7(315).

c. *Use of county or city RISE funds on primary road projects.* Counties or cities may at their option make application to the department to apply RISE funds allocated for use on secondary road or city street

projects toward primary road projects. Use of county or city RISE funds on primary road projects shall be approved by the commission.

d. Type of projects. The two types of projects which may be funded under the RISE program are immediate opportunity projects and local development projects. The requirements and procedures specifically applicable to the two project types are located in the following rules of this chapter:

(1) Immediate opportunity projects: Rule 761—163.10(315).

(2) Local development projects: Rule 761—163.11(315).

e. Relationship of project. The demonstrated relationship of a project to economic development shall generally be the main criterion employed in determining the priority for funding. The department is required to assign the lowest priority to a project if it involves a business with wages substantially below other area businesses or with a consistent record of law violations. In terms of project type, an immediate opportunity project shall have first priority for all available RISE funds.

f. Use of repaid funds. RISE funds repaid to the department for any reason may be used for other projects or carried over to the next programming cycle. RISE funds repaid shall be credited to the share of the fund from which the project was originally funded.

g. Carryover of funds. The commission need not commit the spending of all RISE funds available during a programming cycle. Uncommitted funds may be carried over to the next programming cycle or used for immediate opportunity projects. On June 30 of each year, all uncommitted county funds shall be credited to the secondary road fund.

h. Reserve for future needs and contingencies. The commission shall monitor RISE fund commitments and expected RISE fund cash flow and take actions necessary to ensure that funds remain available for anticipated present and future immediate opportunity project needs and other contingencies. Such actions may include placing a moratorium on the receipt and award of local development RISE applications, placing a limit on RISE dollars awarded to each project, or taking other actions at the discretion of the commission.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.6(315) Project financing and funding shares.

163.6(1) *Financing.* Applicants may choose to propose grant financing for any RISE project. Applicants are encouraged but not required to propose below market rate interest loan, no interest loan, or partial principal payback rather than grant financing for RISE projects. The extent to which a project will return moneys to the RISE fund shall be considered in project evaluation processes. Final financial terms for all RISE projects are subject to negotiation between the department and the applicant and approval by the commission.

163.6(2) *Funding shares.* Applicants may propose the proportions and sources of RISE and non-RISE funds to be used for a project. Use of RISE funds is subject to commission approval.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.7(315) Eligibility of applicants and joint applications.

163.7(1) *Applicant eligibility.* All incorporated cities and all counties in the state of Iowa are eligible to apply for and receive funds under the RISE program. The department is also eligible to initiate projects and receive funds under this program but need not formally apply for funds. Private firms or developers or other agencies may not apply directly for funds but are encouraged to work with county or city governments in seeking funding for projects. In any case, all projects must be let by the applicant or through the department's office of contracts and in accordance with all applicable laws and rules.

163.7(2) *Joint applications.* Joint applications from two or more counties or cities are encouraged when mutual action is required to support economic development. Joint applications shall designate a lead county or city to serve as a principal contact point for the department.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.8(315) Project activities eligible and ineligible for RISE funds.

163.8(1) Eligible activities. Project activities or costs eligible for RISE funding, and which may be counted as part of the non-RISE participation in immediate opportunity and local development roadway projects, include only the following:

- a. Roadway resurfacing, rehabilitation, modernization, upgrading, reconstruction or initial construction, including grading and drainage, paving, erosion control, pavement overlays, and shoulder widening and stabilization.
- b. Bridge and culvert repair, modernization, replacement or initial construction.
- c. Roadway intersection and interchange improvements including warranted traffic signalization when it is integral to the improvement.
- d. Public transportation system improvements, including but not limited to bus shelters, bus turnouts, and passenger information signage, when they are integral to the roadway improvement.

- j. Storm drainage and storm sewer costs to the extent needed for draining the roadway.
- k. Reconstruction or adjustment of utilities, including but not limited to water, sanitary sewer, electric, telephone, and natural gas, when utilities are located on private property and require replacement or relocation due to project construction; or said utilities are located in the public right-of-way and the utility is not required to relocate at its own expense.
- l. Costs associated with the acquisition of local, state and federal permits required for roadway construction.

163.8(2) Ineligible activities. Activities or costs ineligible for RISE funding, and which may not be counted as part of the non-RISE participation in immediate opportunity or local development roadway projects, include but are not limited to the following:

- a. Any and all costs incurred prior to a funding commitment by the commission notwithstanding rule 761—163.9(315).
- b. Routine roadway, bridge and culvert maintenance, including but not limited to pothole filling, crack sealing, seal coating, patching, shoulder maintenance, gravel or earth roadway maintenance, and bridge painting.
- c. Winter roadway and bridge maintenance, including but not limited to snow plowing, sanding, and salting.

- n.* Parking expenditures, including those for structures, lots, meters, paving, and marking whether for on-street or off-street parking.
 - o.* Nonroadway transportation expenditures, including those for railway, aviation, public transportation, and inland waterway facilities and equipment.
 - p.* Purchase of furnishings, construction equipment, and personal property.
 - q.* General government expenses and expenses associated with the provision of any public service which are not eligible for RISE program assistance.
 - r.* Donated right-of-way.
- [ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.9(315) Advance eligibility of land acquisition and preliminary design costs incurred prior to funding commitment by commission.

163.9(1) *Need for advance eligibility.* If there is extreme urgency involving land acquisition or preliminary design and a necessity to protect or preserve a project corridor or to proceed with the preparation of project construction plans prior to a RISE funding commitment, a potential applicant may submit a written request to the department for a determination of advance eligibility to incur costs for land acquisition or preliminary design immediately. A determination of advance eligibility by the department will allow specified costs incurred prior to a funding commitment by the commission to be eligible for reimbursement with RISE funding without jeopardizing the project's eligibility for funding approval, but does not imply or guarantee that the commission will commit RISE funding to a subsequent application.

163.9(2) *Request, justification and review.* The request must be received by the department prior to the expenditure and must include justification regarding the extreme urgency and necessity to incur costs prior to a RISE funding commitment. A request for land acquisition must also include a description of the land to be acquired, a summary of the estimated costs, and a map showing the parcels to be acquired. Preliminary design requests must include a description of the project scope, location map, and proposed cross section. If the request will include consultant design costs, a draft agreement between the jurisdiction and the consultant must be submitted which includes the scope of services to be rendered. Costs for RISE application preparation and submission or project feasibility, route alignment studies or other planning expenses as cited in paragraphs 163.8(2) "e" and "f" remain ineligible for RISE funding and shall not be included in a request for determination of advance eligibility. The department will review the submittal. If the requirements of this rule are met, the department will provide written confirmation of the determination of advance eligibility.

163.9(3) *Requirements.* Any cost incurred before the request is received by the department will be ineligible for reimbursement. Costs receiving a determination of advance eligibility must be noted in the subsequent RISE funding application submitted to the department. Land acquired or design work completed following a determination of advance eligibility will not be eligible for reimbursement with RISE funds if the property acquired or design work completed is not necessary to construct the proposed RISE project included in the subsequent application. Design costs receiving a determination of advance eligibility may not exceed 10 percent of the total construction costs for the project. An application for funding which includes the expenditure must be received by the department within two years following the determination of advance eligibility, or the costs may become ineligible for RISE funding.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.10(315) Immediate opportunity projects.

163.10(1) *General provisions.* The following provisions are applicable to immediate opportunity projects:

- a.* Immediate opportunity projects may be located on primary roads, secondary roads, city streets, state park roads or county conservation parkways.
- b.* There is no restriction on the number of applications per county or city that will be considered for RISE funding.
- c.* Counties and cities may apply for single-year or multiyear funding. Multiyear funding shall be limited to funding commitments from no more than three program years' allocations.

d. Applicants may use staff from other counties or cities, areawide planning organizations, areawide economic development organizations, or other jurisdictions to prepare application materials or administer projects.

e. There must be an adequate transportation justification for the roadway project. The proposed improvement need not be designed prior to project application, but the concept must generally be reasonable from a transportation planning and engineering standpoint and detailed enough to enable project cost estimates to be developed.

163.10(2) Contents of applications. Each application for an immediate opportunity project must contain the following:

a. General information, including applicant name, contact person, mailing address, telephone number, and other information of a general nature about the project proposal and the associated economic development activity.

b. Cost information, including the estimated total capital investment involved with the associated economic development activity, the estimated total cost of the roadway project, the amount of RISE funds requested for the roadway project, and the amount of non-RISE funds to be used to match or supplement RISE funding. Itemized breakdowns (showing the item, cost, and funding source) must be included for the total capital investment, the total roadway project cost, the RISE funds requested, and the non-RISE funds to be used to match or supplement RISE funding.

c. Data showing the impact of the associated economic development activity, including the number of direct jobs created or retained. Jobs created as a result of jobs being displaced elsewhere in the state shall not be considered direct jobs created for the purpose of evaluating the application.

(1) To expedite the review, the applicant shall provide the following data for each business included in the project justification: a list of in-state competitors; a list of in-state suppliers; the percentage of out-of-state sales; the effect on import substitution; long-range growth potential; and a list of all current and anticipated employment positions, both full- and part-time, the hourly wage for each, and the turnover rate.

(2) The applicant shall certify that each business will give hiring preference to residents of the state or local area, except for out-of-state employees offered a transfer to Iowa.

d. A preliminary project concept statement for the roadway project, including a location map, a sketch plan and a justification for the transportation improvement. In most cases, a sketch plan should include a simple plan and profile defining the horizontal and vertical geometrics and a typical roadway cross section defining pavement, shoulders, foreslope, and backslope or border treatment.

e. A time schedule for the total development, including the roadway project and the associated economic development activity.

f. A formal resolution passed by the governing body of the jurisdiction responsible or to be responsible for the road or street to be constructed or improved. The resolution shall state that the project will be adequately maintained and dedicated to public use for a minimum of 20 years after completion of the project. The resolution must also certify that the project meets the threshold criteria cited in paragraph 163.10(6) "a."

g. Documentation showing that the threshold criteria of subrule 163.10(6) have been met.

163.10(3) Submission of applications. An original and one copy of each completed application shall be submitted to the department. Applications may be submitted at any time.

Once an application has been submitted, no further information concerning that application shall be accepted by the department from the applicant unless specifically requested by the department. Applications may be withdrawn by the applicant and resubmitted at any time. Resubmitted applications shall be dated accordingly.

163.10(4) Incomplete applications. An applicant must satisfy the application requirements outlined in this chapter and must fully complete the official application form before the application will be considered by the commission.

163.10(5) Verification of application materials. Complete applications shall be reviewed to verify the figures or statements in the applications. This may include site visits. If inaccuracies, omissions, or errors are found, the commission may rescind the commitment of funds or reevaluate the application

based on the correct information. If an applicant loses funding through this process, the commission shall have complete discretion concerning the disposition of those funds, including awarding them to other applicants or carrying them over to the next programming cycle.

163.10(6) *Threshold criteria.* Funding commitment decisions for immediate opportunity projects shall be made on an individual basis. There is no competitive ranking of project applications. In order to gain a funding commitment, an application must meet all of the following threshold criteria:

a. The project must be related to an immediate, nonspeculative opportunity for permanent job creation or retention. The applicant county or city (or its agent) should be in the process of negotiating a location or retention decision with a developer or firm.

b. The applicant must demonstrate that an immediate funding commitment is essential to influence the job location or retention decision.

c. The applicant must demonstrate that necessary arrangements have been made for nonroadway factors (e.g., labor force training, zoning, sewer, water, police and fire protection, financing, and permits) essential for the proposed job creation or job retention activity.

d. There must be at least 20 percent non-RISE financial participation in the roadway project, except the commission may approve a participation amount that is less than 20 percent if it determines that the applicant city or county is economically distressed.

e. There must be a strong likelihood that the total development, including the roadway project, can be completed in a timely manner. It is up to the applicant to identify a time schedule and maintain it. This time schedule may be adjusted for such reasons including but not limited to the project involves unusually complex engineering studies, extensive real estate negotiations, extensive analysis for environmental clearances, or unusually complex planning for associated development. The commission may withdraw funding if time schedules have been misrepresented or have not been maintained.

163.10(7) *Review and funding of applications.*

a. The staff of the department shall review complete immediate opportunity project applications and may consult with other organizations with economic development responsibilities. As part of the review, the staff shall evaluate the effect of the proposed project on the state economy using the following factors: consistency with the state economic development plan; diversification of the state economy; the impact on in-state suppliers, competitors, and import substitution; percentage of out-of-state sales; the quality of employment positions; and the record of law violations. This review shall be performed within a reasonable period of time after receipt of the application. Following this review, complete applications meeting the threshold criteria of subrule 163.10(6) shall be forwarded to the commission for action at its next meeting.

b. The commission may fund all or any part of an application and may make a conditional funding commitment. In making its decision, the commission will consider the amount of total capital investment per RISE dollar requested, and the amount of RISE dollars requested per job created or retained.

c. The commission may deny funding for projects which will not result in net job creation or job retention from a statewide point of view, for instance, projects which simply involve the relocation of jobs or other economic activity within Iowa.

d. Immediate opportunity project applications may, at the discretion of the commission, be considered as applications for local development projects. These applications shall be included in the current round of local development project programming, regardless of the deadlines stated in subrule 163.11(3). However, immediate opportunity project applications submitted solely to circumvent the deadlines for local development project applications shall not be considered in this manner.

761—163.11(315) Local development projects.

163.11(1) *General provisions.* The following provisions are applicable to local development projects:

a. Local development projects may be located on primary roads, secondary roads, city streets, state park roads or county conservation parkways.

b. There is no restriction on the number of applications per county or city that will be considered for RISE funding.

c. Counties and cities may apply for single-year or multiyear funding. Multiyear funding shall be limited to funding commitments from no more than three program years' allocations.

d. Applicants may use staff from other counties or cities, areawide planning organizations, areawide economic development organizations, or other jurisdictions to prepare application materials or administer projects.

e. There must be an adequate transportation justification for the roadway project. The proposed improvement need not be designed prior to project application, but the concept must generally be reasonable from a transportation planning and engineering standpoint and detailed enough to enable project cost estimates to be developed.

163.11(2) Contents of applications. Each application for a local development project must contain the following:

a. General information, including applicant name, contact person, mailing address, telephone number, and other information of a general nature about the project proposal and the associated economic development activity.

b. Cost information, including the estimated total capital investment involved with the associated economic development activity, the estimated total cost of the roadway project, the amount of RISE funds requested for the roadway project, and the amount of non-RISE funds to be used to match or supplement RISE funding. Itemized breakdowns (showing the item, cost and funding source) must be included for the total capital investment, the total roadway project cost, the RISE funds requested, and the non-RISE funds to be used to match or supplement RISE funding.

c. Data showing the impact of the associated economic development activity, including the number of direct jobs created or retained. Jobs created as a result of jobs being displaced elsewhere in the state shall not be considered direct jobs created for the purpose of evaluating the application.

(1) To expedite the review, the applicant shall provide the following data for each business included in the project justification: a list of in-state competitors; a list of in-state suppliers; the percentage of out-of-state sales; the effect on import substitution; long-range growth potential; and a list of all current and anticipated employment positions, both full- and part-time, the hourly wage for each, and the turnover rate.

(2) The applicant shall certify that each business will give hiring preference to residents of the state or local area, except for out-of-state employees offered a transfer to Iowa.

d. A preliminary project concept statement for the roadway project, including a location map, a sketch plan and a justification for the transportation improvement. In most cases, a sketch plan should include a simple plan and profile defining the horizontal and vertical geometrics and a typical roadway cross section defining pavement, shoulders, foreslope, and backslope or border treatment.

e. A time schedule for the total development, including the roadway project and the associated economic development activity.

f. A formal resolution passed by the governing body of the jurisdiction responsible or to be responsible for the road or street to be constructed or improved. The resolution shall state that the project will be adequately maintained and dedicated to public use for a minimum of 20 years after completion of the project.

163.11(3) Submission of applications. An original and one copy of each completed application shall be submitted to the department.

a. Applications may be submitted at any time. However, in order to be considered in the current round of programming, complete applications must be received by the department or postmarked no later than February 1 or September 1.

b. Once an application has been submitted, no further information concerning that application shall be accepted by the department from the applicant unless specifically requested by the department. Applications may be withdrawn by the applicant and resubmitted at any time. Resubmitted applications shall be dated accordingly.

163.11(4) *Incomplete applications.* An applicant must satisfy the application requirements outlined in this chapter and must fully complete the official application form before the application will be considered by the commission. An applicant shall be notified if an application is incomplete.

163.11(5) *Verification of application materials.* Complete applications shall be reviewed to verify the figures or statements in the applications. This may include site visits. If inaccuracies, omissions, or errors are found, the commission may rescind the commitment of funds or reevaluate the application based on the correct information. If an applicant loses funding through this process, the commission shall have complete discretion concerning the disposition of those funds, including awarding them to other applicants or carrying them over to the next programming cycle.

163.11(6) *Rating factors.* The following factors and potential rating points shall be used in assessing applications for local development projects. Assessment of these factors shall be the responsibility of the department.

a. Development potential. This factor measures the degree of certainty involved in the economic development activity to be supported by the proposed RISE project and the potential for future job growth. Maximum points: 35.

b. Economic impact. This factor measures the economic impact of the development activity to be supported by the proposed RISE project, including the number of direct jobs assisted, investment leveraging, the percentage of out-of-state sales and in-state suppliers, the impact on competition and diversification, and the quality of job factors. Maximum points: 20.

c. Local commitment and initiative. This factor measures the level of effort being put forth by the applicant to attract economic development and the adequacy of the supporting infrastructure. Maximum points: 35 (includes 5 points for the remediation or redevelopment of a brownfield site).

d. Transportation need. This factor measures the condition and quality of existing road or street service. Maximum points: 4.

e. Area economic need. This factor measures the economic condition of the area. Maximum points: 6.

163.11(7) *Review and funding of applications.*

a. The staff of the department shall review and rate complete local development project applications and may consult with other organizations with economic development responsibilities. As part of the review, the staff shall evaluate the effect of the proposed project on the state economy using the following factors: consistency with the state economic development plan; diversification of the state economy; the impact on in-state suppliers, competitors, and import substitution; percentage of out-of-state sales; the quality of employment positions; and the record of law violations. Complete applications shall be forwarded to the commission for a funding commitment action within a reasonable period of time after the application deadline. An application considered but not funded in one programming cycle must be resubmitted by the applicant if it is to be considered in a subsequent cycle.

b. The commission may fund all or any part of an application and may make a funding commitment conditional upon adherence to a specific time schedule, realization of a development prospect, or fulfillment of other agreements.

[ARC 3299C, IAB 8/30/17, effective 10/4/17]

761—163.12(315) Project administration.

163.12(1) *Agreement.* After a funding commitment has been made for a project, the department shall enter into a project agreement with the applicant. The agreement shall delineate responsibilities for project planning, design, right-of-way, contracting, construction and materials inspection, and documentation. The agreement shall require that a business assisted by the project which acquires or merges with an Iowa corporation within three years following the RISE application shall make a good-faith effort to hire the workers of the merged or acquired company. The agreement shall require the applicant to comply with all local, state, and federal laws, rules and regulations that may apply to the project.

163.12(2) *Project payments.* Payments from the RISE fund to counties or cities shall be made on a cost reimbursement basis, and financial participation shall be limited to the maximum percentage

allowed by the funding commitment. The non-RISE financial participation shall include only those items listed as eligible for RISE funding and may be in the form of cash, the value of design engineering and construction inspection services, or the cost of eligible advance right-of-way acquisitions or preliminary design pursuant to rule 761—163.9(315). Grants from other state agencies or programs may also contribute to the non-RISE financial participation if their laws and rules allow. The applicant shall provide documentation to the department supporting the value of any noncash contribution to the project. The department has the sole authority to determine the value of noncash contributions. Contributions made by a third party may be allowed.

163.12(3) *Project expenditures incurred prior to agreement.* Project expenditures incurred after the commission has made a funding commitment, but before execution of the agreement, are eligible for reimbursement if a project agreement is subsequently executed. However, under no circumstances shall any reimbursement be paid until the agreement has been executed.

163.12(4) *Remedies for noncompliance with project agreement.* The commission may revoke funding commitments, require repayment of RISE funds loaned or granted, or take both actions when the county or city has not fulfilled the terms of the project agreement.

163.12(5) *Cost overruns.* RISE funds committed for projects are for a maximum dollar amount. Cost overruns shall be the responsibility of the administering jurisdiction.

163.12(6) *Audit.* The department may audit all project costs incurred for compliance with the agreement, including costs that are part of the matching contribution. All force account work performed by a county or city on the project shall be audited.

164.3(2) Local participation. The department shall administer the traffic safety fund as a statewide program and will encourage local participation in the review and evaluation of applications for funding.

164.3(3) Funding.

a. The commission shall review all applications and be responsible to program selected projects, subject to the availability of funds. The commission may fund all or part of a project and may make funding dependent upon adherence to a time schedule or fulfillment of specified conditions.

b. The commission need not commit all funds available during a fiscal year. Unexpended funds shall be retained for subsequent programming cycles.

c. The maximum traffic safety funding for a site-specific project shall generally not exceed \$500,000. Total funding allotted for the traffic control device materials category shall not exceed \$500,000 annually. 761—164.7(312) Ineligible project costs.

164.7(1) Any and all costs incurred prior to commission approval of funding for a project are ineligible.

164.7(2) Activities and costs not eligible for traffic safety funding as a portion of a site-specific improvement include, but are not limited to:

- a.* Routine maintenance of a road, street, bridge, culvert or traffic control device.
- b.* Safety-related activities associated with projects initiated for purposes other than traffic safety.
- c.* Contract administration costs.
- d.* Design and construction engineering and inspection.
- e.* Utility construction, reconstruction or adjustment, except as an integral part of a project.

- a.* Maintenance or energy costs for traffic control devices or lighting.
- b.* Installation costs.

761—164.8(312) Applications. Application procedures for each funding category will be distinct.

164.8(1) An application by a city or county for funding site-specific construction must be submitted on a departmental form specifically used for the traffic safety fund. Comparable information will be provided by the department for state-initiated projects. Required information shall include:

- a.* The applicant's name, mailing address, telephone number, and a designated contact person for the project.
- b.* A preliminary project concept statement, including a location map and a sketch plan. The concept must be reasonable from a traffic engineering standpoint and detailed enough to generate project cost estimates.

761—165.3 and 165.4 Reserved.

761—165.5(465B) Program administration.

165.5(1) Purpose. The recreational trails program provides funds to establish recreational trails in Iowa for the use, enjoyment and participation of the public. The department shall administer the recreational trails fund as a statewide program.

165.5(2) Funding.

a. The commission is solely responsible for all funding commitments and shall determine the projects to be funded, subject to the availability of recreational trails funds. The commission may approve, modify, or deny an application. The commission may fund all or part of a project and may make funding conditional upon adherence to a time schedule or to fulfillment of an agreement.

b. The commission need not commit all funds available during a programming cycle. The commission may reserve unexpended or repaid funds for the next programming cycle or for anticipated present and future project needs and other contingencies.

c. Project costs that exceed the commission’s funding commitment shall not be eligible for reimbursement from the recreational trails fund. Reimbursement for project costs shall be limited to the percentage match approved by the commission and actual eligible project costs incurred.

[ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.6 to 165.8 Reserved.

761—165.9(465B) Applicant eligibility.

165.9(1) A state or local government agency, a municipal corporation, a county or a nonprofit organization is eligible to apply for and receive funds from the recreational trails program.

165.9(2) A private business or developer is not eligible to apply directly for funds from the recreational trails program.

[ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.10 and 165.11 Reserved.

761—165.12(465B) Project eligibility.

165.12(1) *Public use.* The recreational trails program is restricted to the acquisition, construction or improvement of recreational trails open for public use or trails which will be dedicated to public use upon completion. A private trail project or a project for a private purpose is not eligible for funding under this program.

165.12(2) *Criteria.* A proposed recreational trails project shall meet all of the following requirements:

- a.* The project must be part of a local, areawide, regional or statewide plan.
 - b.* The trail route shall be designed to allow enjoyment of scenic views or points of historical interest and to maximize safety. The route may use existing roads, streets or parkways, if the normal flow of motor vehicle traffic will not be hindered, abandoned railroad corridors, utility corridors, or new right-of-way as necessary.
 - c.* The project shall include a contribution of at least 25 percent matching funds.
 - d.* Matching funds may include grants from other state agencies or programs if their laws and rules allow and the donation of in-kind labor, materials, equipment, and services from a third party. The department has the sole authority to determine the value of noncash contributions. The value of donated land may be an eligible matching contribution if:
 - (1) The land is donated after the commission's funding commitment, and
 - (2) The value is based on a real estate appraisal acceptable to the department. The appraisal is subject to review and approval by the department after a funding commitment has been made.
- [ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.13 and 165.14 Reserved.

761—165.15(465B) Eligible project costs.

165.15(1) *Land.* Land acquisition costs including, but not limited to, appraisals, negotiation, compensation and cultural resources surveys necessary to comply with applicable local, state and federal laws, rules and regulations are eligible project costs. Land may be acquired by lease, easement or fee simple and as allowed by Iowa Code section 6A.21. The performance of land negotiation and acquisition activities shall not be the responsibility of the department although the department may provide advisory services.

165.15(2) *Other eligible costs.* Other project costs that are eligible for funding are limited to the following:

- a.* Trail surfacing, resurfacing, rehabilitation, modernization, upgrading and reconstruction, including pavement repairs and overlays and shoulder widening and stabilization; or initial trail construction including grading, drainage, paving and erosion control.

- g.* Reconstruction or adjustment of utilities including but not limited to water, sanitary sewer, electric, telephone, and natural gas when utilities are located on private property and require replacement or relocation due to project construction; or said utilities are located in the public right-of-way and the utility is not required to relocate at its own expense.
- h.* Trail signs, fencing, landscaping, parking areas, and walkways.

[ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.16 Reserved.

761—165.17(465B) Ineligible project costs.

165.17(1) *Before commission approval.* Any and all costs incurred prior to a funding commitment by the commission are ineligible for funding notwithstanding rule 761—165.19(465B).

165.17(2) *Other ineligible costs.* Other project costs that are ineligible for funding include, but are not limited to, the following:

d. Predesign engineering, feasibility, or alignment studies and other planning expenses.

e. Utility construction, reconstruction or adjustment except for those activities or costs described in subrule 165.15(2).

f. Pavement markings, traffic signs, safety appurtenances or lighting except as an integral part of a trail project.

g. Purchases of office furnishings or equipment, construction or maintenance equipment, or personal property.

h. General government expenses and expenses associated with the provision of any public service that are not otherwise eligible for project funding.

[ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.18 Reserved.

761—165.19(465B) Advance eligibility of land acquisition and preliminary design costs incurred prior to funding commitment by commission.

165.19(1) *Need for advance eligibility.* If there is extreme urgency involving land acquisition or preliminary design and a necessity to protect or preserve a project corridor or to proceed with the preparation of project construction plans prior to a recreational trails program funding commitment, a potential applicant may submit a written request to the department for a determination of advance eligibility to incur costs for land acquisition or preliminary design immediately. A determination of advance eligibility by the department will allow specified costs incurred prior to a funding commitment by the commission to be eligible for reimbursement with recreational trails program funding without jeopardizing the project's eligibility for funding approval, but does not imply or guarantee that the commission will commit recreational trails program funding to a subsequent application.

165.19(2) *Request, justification and review.* The request must be received by the department prior to the expenditure and must include justification regarding the extreme urgency and necessity to incur costs prior to a recreational trails program funding commitment. A request for land acquisition must also include a description of the land to be acquired, a summary of the estimated costs, and a map showing the parcels to be acquired. Preliminary design requests must include a description of the project scope, location map, and proposed cross section. If the request will include consultant design costs, a draft agreement between the jurisdiction and the consultant must be submitted which includes the scope of services to be rendered. Costs for recreational trails program application preparation and submission or project feasibility, route alignment studies or other planning expenses as cited in paragraphs 165.17(2) "c" and "d" remain ineligible for recreational trails program funding and shall not be included in a request for determination of advance eligibility. The department will review the submittal. If the requirements of this rule are met, the department will provide written confirmation of the determination of advance eligibility.

165.19(3) *Requirements.* Any cost incurred before the request is received by the department will be ineligible for reimbursement. Costs receiving a determination of advance eligibility must be noted in the subsequent recreational trails program funding application submitted to the department. Land acquired or design work completed following a determination of advance eligibility will not be eligible for reimbursement with recreational trails program funds if the property acquired or design work

completed is not necessary to construct the proposed recreational trails program project included in the subsequent application. Design costs receiving a determination of advance eligibility may not exceed 10 percent of the total construction costs for the project. An application for funding which includes the expenditure must be received by the department within two years following the determination of advance eligibility, or the costs may become ineligible for recreational trails program funding.

[ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.20 and 165.21 Reserved.

761—165.22(465B) Application.

165.22(1) *Submission.* An eligible applicant shall complete and submit an application on a form and in the quantity prescribed by the department.

- a. An eligible applicant may submit more than one application in a funding cycle.
- b. Two or more eligible applicants may submit a joint application and are encouraged to do so when a project requires mutual action. A joint application shall designate a lead applicant to serve as the principal contact with the department.
- c. The application deadline shall be on the first day of the fiscal year for which funding has been provided to the program and any additional stated deadline as deemed necessary by the department to fully award program funding.
- d. Applications shall be received by the department or postmarked by the stated application deadline.

165.22(2) *Contents of application.* Each application shall contain the following:

- a. The applicant's name, mailing address and telephone number, and the contact person who will serve as liaison with the department.
- b. A project concept statement including a location map, a cross section and a sketch of the project intended to be constructed with program funds. The proposed project need not be designed before applying, but the concept must be reasonable from a transportation engineering standpoint and detailed enough to generate project cost estimates.
- c. An itemized cost estimate for the total project to be constructed showing for each item the cost and funding source. When a project is part of a larger multiphase project, the application shall differentiate the costs and scope of the proposed construction project from the costs and scope of the overall multiphase project.
- d. A time schedule for project completion. A time schedule adjustment may be approved by the department if the project involves unusually complex studies, extensive real estate negotiations, extensive analyses for environmental clearances, complex planning for associated developments, or another compelling reason.
- e. An adequate justification for the recreational trails project based on the project eligibility criteria in subrule 165.12(2) and the evaluation criteria in subrule 165.26(2).
- f. A formal resolution passed by the governing body of the responsible authority endorsing the application and the timeline for project completion provided therein. The resolution shall also state that the proposed trail project will be adequately maintained and made available for the intended public use for a minimum of 20 years after completion of the project.

165.22(3) *Funding requests.* An applicant shall specify in the application the amount of grant funding requested from the recreational trails program and may offer a matching fund contribution larger than is required.

165.23(2) An application that is considered but not funded in one funding cycle may be resubmitted by the applicant for consideration in the next cycle.

165.23(3) An applicant may withdraw an application at any time.
[ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.24 and 165.25 Reserved.

761—165.26(465B) Evaluation and approval.

165.26(1) The department shall review each application, may verify the contents and may visit the trail site.

165.26(2) The department shall evaluate each complete application primarily on the basis of whether the predicted use of the trail justifies the construction and maintenance costs including, but not limited to, the following criteria:

- a. Need, in terms of the population to be served and existing trails in the area (25 points).
- b. Compatibility with local, areawide, regional or statewide plans (15 points).
- c. Benefits of multiple uses and recreational opportunities (20 points).
- d. Quality of the site (25 points).
- e. Economic benefits to the local area (10 points).
- f. Special facilities for persons with disabilities (5 points).
- g. Project is shovel-ready and planned to be completed within three years of award of funding (25 points).
- h. Projects with cash match (5 points).

165.26(3) Completed applications shall be reviewed by a committee composed of one representative from state agencies with jurisdiction over transportation, tourism, cultural resources and natural resources. The committee shall recommend applications to the department by ranking them in order of funding priority.

165.26(4) The department shall prepare a list of applications and funding recommendations and present it to the commission for final approval and award of funding.
[ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.27 to 165.29 Reserved.

761—165.30(465B) Project agreement.

165.30(1) After the commission has approved funding for a recreational trails project, the department and the applicant shall execute a project agreement.

a. The agreement shall specify the responsibilities for project planning, design, land acquisition, contracting, construction and materials inspection, and documentation and the criteria for each. The agreement shall also specify the overall funding level approved and contain an estimated budget for eligible work items.

b. The agreement shall require the applicant to comply with all local, state and federal laws, rules and regulations that may apply to the project.

165.30(2) The department shall reimburse the authority for actual eligible project costs incurred as specified in the agreement, not to exceed the amounts authorized by the project agreement.

165.30(3) Project expenditures incurred after the commission has made a funding commitment, but before execution of the agreement, are eligible for reimbursement if a project agreement is subsequently executed. However, under no circumstances shall any reimbursement be paid until the project agreement has been executed.

165.30(4) The department may audit all project costs incurred for compliance with the agreement, including costs that are part of the matching contribution. All force account work performed by a county or city on the project shall be audited.
[ARC 3300C, IAB 8/30/17, effective 10/4/17]

761—165.31 and 165.32 Reserved.

165.33(1) The terms of the project agreement have not been fulfilled.

165.33(2) An agreement has not been signed within six months after the project sponsor receives the signature copy.

165.33(3) The department finds that the application contained inaccuracies, omissions, errors or misrepresentations.

165.33(4) The time schedule for project completion was misrepresented or has not been maintained.

165.33(5) The authority fails to comply with subrule 165.22(2), paragraph “f.”

[ARC 2425C, IAB 3/2/16, effective 4/6/16]

761—178.2(314) Contact information. Questions regarding this chapter may be directed to the Office of Local Systems, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010.

761—178.3(314) Definitions.

“*City*” means a municipal corporation as defined in Iowa Code section 312.8 or 362.2.

“*Construction*” means the building or development of a road, street, bridge or culvert in a new location when:

1. The new location deviates substantially from the existing alignment, and
2. The result is an entirely new road or street for the greater part of the length of the project.

“*Day labor*” means road, street, bridge or culvert work performed by permanent or temporary city or county employees.

“*Improvement*” means a betterment to a road, street, bridge or culvert. The work increases the value of the facility and enhances the facility, its traffic operations or its safety beyond the original design. The work would not be so extensive as to be classified as construction or reconstruction, but it could involve rehabilitation, restoration or resurfacing (3R) work.

“*Reconstruction*” means a significant change to the existing type of road, street, bridge or culvert or its geometric or structural features. Some realignment and the use of current design criteria may be involved.

“*Repair or maintenance*” means the preservation of a road, street, bridge or culvert so that it is in sound or proper condition. The work may include minor replacements and additions necessary to restore the road, street, bridge or culvert to its originally built condition with essentially the same design.

[ARC 2425C, IAB 3/2/16, effective 4/6/16]

761—178.4(314) Detailed instructions furnished to cities and counties.

178.4(1) Each year the department shall provide to cities and counties a set of detailed instructions for reporting the following information:

- a. The cost of day labor and contracts for construction, reconstruction, and improvement projects on the farm-to-market, secondary road and municipal street systems.
- b. The cost of purchasing, leasing, and renting construction and maintenance equipment.
- c. The use of this equipment for construction, reconstruction, and improvement projects on the farm-to-market, secondary road and municipal street systems.

178.4(2) These instructions constitute the form, content and method of preparation acceptable to the department. Cities and counties shall include this information in the annual reports they submit to the department under Iowa Code sections 309.22 and 312.14.

[ARC 2425C, IAB 3/2/16, effective 4/6/16]

761—178.5(314) Project reporting. Reporting under Iowa Code section 314.1A of projects accomplished by day labor or contract is required for any construction, reconstruction or improvement project that has a total cost of 90 percent or more of the applicable bid threshold. Other reporting requirements set out in the Iowa Code still apply.

178.5(1) Types of projects. Project type shall be identified. The project types are:

- a. *Bridge.* The definition of “bridge” in Iowa Code section 309.1 applies. This project type includes removal of existing structures and all new construction, reconstruction and improvement of bridges.

b. Culvert. The definition of “culvert” in Iowa Code section 309.1 applies. This project type includes new construction or installation of an individual box or pipe culvert with a span or diameter that is greater than four feet but no greater than 20 feet.

c. Roadway construction. This project type includes, but is not limited to, all types of excavation, overhaul, clearing and grubbing, removal of pavement, and culverts included with grading.

d. Surfaces. This type includes, but is not limited to:

(1) Hot mix asphalt and Portland cement concrete pavements and overlays on roads, streets and shoulders.

(2) Stabilized bases and granular surfacing on new grades.

e. Roadside construction. This project type includes, but is not limited to:

(1) Erosion control structures such as check dams and letdown structures.

(2) Landscape treatments such as seedbed preparation, seeding, sodding, mulching, fertilizing, and planting of shrubs and trees on newly graded roads.

(3) Construction of shoulders on paved roads and rebuilding or raising entrances due to shoulder construction.

f. Traffic control. This project type includes, but is not limited to, installation of major signs, traffic signals, railroad crossing signals, guardrail, roadway lighting, construction signing, and pavement markings on newly paved roads and streets.

g. Miscellaneous. This project type includes, but is not limited to, construction, reconstruction, or installation of storm sewers, subdrains, retaining walls, noise barriers, and sidewalks.

178.5(2) Contract work. The cost of contract work on a project is the contract price plus additions and deductions.

178.5(3) Day labor. The cost of day labor on a project shall include the following expenditures:

a. Labor. Labor cost includes the wages of city or county employees for their time devoted to the project, plus corresponding fringe benefits such as, but not limited to, IPERS, FICA and insurance.

b. Equipment. Equipment cost is calculated based on the equipment used on the project and the time the equipment is used. If an item of equipment is rented or leased, its rental or lease rate may be used to calculate cost. If an item of equipment is not leased, its cost shall be calculated using the standard rate established by the department for that type of equipment. The department shall establish equipment rates each year based on the latest “Rental Rate Blue Book for Construction Equipment.”

c. Materials. Materials cost is the cost of materials and supplies consumed or expended on the project. The materials and supplies may be procured directly for the project or charged to the project from stock on hand. The cost of used material is its salvage value.

d. Overhead. Overhead cost is the pro-rata share of indirect costs to be allocated to day labor projects. Indirect costs are the city’s or county’s road- or street-related costs that cannot be charged directly to any project. The city or county may use its records to calculate the cost of overhead, or it may use a standard overhead rate of 10 percent of the labor cost excluding fringe benefits.

If a governmental entity is unable to perform the work using its own employees, the governmental entity must follow the appropriate public improvement process set out in Iowa Code section 26.3 or 26.14, based on the estimated total cost of the work.

761—180.5(314) Solicitation of quotations.

180.5(1) A governmental entity shall solicit competitive quotations for a public improvement when the estimated total cost of the public improvement exceeds the competitive quotation threshold established in Iowa Code section 26.14, as adjusted pursuant to Iowa Code section 314.1B, but is less than the competitive bid threshold established in Iowa Code section 26.3, as adjusted pursuant to Iowa Code section 314.1B. The adjusted thresholds are published on the department’s website at www.iowadot.gov.

180.5(2) The governmental entity shall make a good-faith effort to obtain quotations for the work from at least two contractors regularly engaged in such work prior to letting a contract. Quotations shall be obtained by means of either an oral or a written solicitation directed to not less than two contractors.

180.5(3) Each solicitation shall include a description of the work to be performed, and plans and specifications for the work prepared by an architect or engineer if required by Iowa Code chapter 542B or 544A. (See 193B—Chapter 5 or rule 193C—1.5(542B) for additional guidelines.) In its solicitation, the governmental entity shall advise each contractor that it has an opportunity to inspect the work site. Each contractor requesting to inspect the work site shall be provided an equal and adequate opportunity to do so.

180.5(4) Additional information deemed pertinent by the governmental entity, or requested by a contractor, may be provided by the governmental entity if the same information is provided to all contractors from which quotations are solicited. If the information is provided in written form to a contractor, it shall be provided in the same form to all contractors from which quotations are solicited.

180.5(5) In its solicitation, the governmental entity shall:

- a. Specify the required form and content of quotations. (See rule 761—180.7(314).)
- b. Require that quotations be filed by a particular time, at a particular location and with a particular office or representative of the governmental entity.
- c. Establish the acceptable method(s) for delivery of quotations. The governmental entity may specify any or all of the following methods of delivery: mail, facsimile, electronic mail, or delivery in-hand.

180.5(6) As required by Iowa Code section 573.2, the governmental entity shall in its solicitation inform quoting contractors of the obligation of the contractor awarded the contract to provide a performance and payment bond to secure the performance and timely completion of the work and to secure the payment of subcontractors and suppliers.

180.5(7) In its solicitation, the governmental entity may require each quoting contractor to:

- a. Provide along with its quotation a quotation bond, or other quotation security or evidence of its responsibility, to assure that it will enter into a contract to perform the work and that it will provide the required performance and payment bond.
- b. Commit to the execution of a contract for the work in a form required by the governmental entity.
- c. Commit to commencement and completion dates for the work as directed by the governmental entity.
- d. File evidence of insurance, as specified by the governmental entity, with its quotation, or commit to filing such evidence of insurance upon award of the contract to perform the work.

180.5(8) In its solicitation, the governmental entity may provide that it will issue special sales tax exemption certificates to contractors and subcontractors, pursuant to Iowa Code section 423.3, subsection 80.

[ARC 3448C, IAB 11/8/17, effective 12/13/17]

761—180.6(314) Submission of competitive quotation by governmental entity. The governmental entity may itself file a competitive quotation to perform the work. The governmental entity's quotation shall be filed in the same manner as it requires quotations to be filed by contractors except as provided in subrule 180.7(3).

761—180.7(314) Form and content of competitive quotations.

180.7(1) A competitive quotation filed by a contractor or by the governmental entity shall be in writing and shall include the total price for labor, equipment, materials and supplies required to perform the work. A contractor shall not be required to include in its quotation or in individual quotation items a breakdown of costs for labor, materials, equipment and supplies. Competitive quotations filed by contractors shall include all other information, documentation or commitments required by the governmental entity in its solicitation of quotations.

180.7(2) If the governmental entity in its solicitation indicates its intention to file a competing quotation, contractors shall also separately identify in their quotations the premium cost for the required performance and payment bond and an estimate of the sales and fuel taxes they will incur in performing the work. However, if in its solicitation the governmental entity provides for the issuance of sales tax

exemption certificates to the contractor and subcontractors performing the work, quoting contractors shall not include or separately identify estimated sales tax in their quotations.

180.7(3) A quotation submitted by a governmental entity need not include the information, documents or commitments required of quoting contractors in subrule 180.5(7). A governmental entity is not required to submit a performance and payment bond.

180.7(4) The governmental entity may require that quotations from contractors be submitted on a form prescribed by the governmental entity, provided the form complies with the requirements of these rules.

761—180.8(314) Evaluation of competitive quotations.

180.8(1) If a quoting contractor does not file a quotation in the form required by the governmental entity, or does not provide all information or documentation or make all commitments required by the governmental entity, or does not sign the quotation if required by the governmental entity, the quotation shall be determined to be nonresponsive and shall be rejected by the governmental entity.

180.8(2) If the governmental entity submits a quotation to perform the work, paragraphs “a” to “c” of this subrule are applicable. If the governmental entity does not submit a quotation, these paragraphs do not apply.

a. Because the governmental entity is not required to pay sales tax or fuel tax or to submit a performance and payment bond in connection with work performed by governmental employees using governmental equipment, each contractor’s total quotation shall be adjusted to deduct the amounts identified in the quotation for estimated sales and fuel taxes and the bond premium. The amount of each contractor’s adjusted quotation shall then be compared to the amount of the quotation submitted by the governmental entity for the purpose of determining if the governmental entity’s quotation is the lowest responsive, responsible quotation.

b. If in its solicitation the governmental entity provides for the issuance of sales tax exemption certificates to the contractor and subcontractors performing the work, quoting contractors shall not include or separately identify estimated sales tax in their quotations, and the governmental entity shall not deduct estimated sales tax from the contractors’ quotations for the purpose of determining if the governmental entity’s quotation is the lowest responsive, responsible quotation.

c. The governmental entity may require the contractor to which the work is awarded to provide documentation of the premium cost incurred by it for the performance and payment bond and of all sales and fuel taxes paid by it and its subcontractors in connection with the work. The governmental entity may decline to pay the amounts identified by the contractor in its quotation for the bond premium and estimated sales and fuel taxes if these amounts are not properly documented as having been paid.

761—180.9(314) Award of contract and subsequent procedures.

180.9(1) Except as provided in subrule 180.9(3), the governmental entity shall award the contract for the work to the contractor submitting the lowest responsive, responsible quotation, subject to Iowa Code section 26.9, or the governmental entity may reject all of the quotations. A contract shall be considered awarded when the governmental entity unconditionally accepts and approves the lowest responsive, responsible quotation. The governing body of the governmental entity shall record the approved quotation in its meeting minutes.

180.9(2) The governing body of a governmental entity may delegate the authority to award and execute contracts, or to award contracts and authorize the work to proceed, to an officer or employee of the governmental entity, provided that an award approved outside a meeting of the governing body shall be reported in the meeting minutes of the next regular meeting of the governing body.

180.9(3) If no quotations are received from contractors to perform the work or if the governmental entity’s estimated cost to do the work with its employees, as reflected in its quotation, is less than the lowest responsive, responsible quotation received from a contractor, the governmental entity may authorize its employees to perform the work.

180.9(4) Upon the submission of the required performance and payment bond by the contractor to which the contract has been awarded and upon approval of the bond by the governmental entity, the

governmental entity shall execute a contract to perform the work or shall authorize the contractor to proceed with the work.

180.9(5) Upon execution of the contract by the contractor and the governmental entity or upon authorization to proceed by the governmental entity and acknowledgment thereof by the contractor, the governmental entity shall release the quotation bonds or other quotation security submitted with the quotations received.

180.9(6) If the governmental entity is a city and the cost of the work will exceed the amount provided for in Iowa Code section 380.4, the governing body is required to pass a resolution approving the expenditure.

761—180.10(314) Retained funds. In addition to requiring the contractor to submit a performance and payment bond, the governmental entity shall also retain funds from each payment to the contractor for the benefit of subcontractors and suppliers, and apply or release such funds, as required by Iowa Code chapter 573.

CHAPTER 181
STATEWIDE STANDARD FOR PERMITTING
CERTAIN IMPLEMENTS OF HUSBANDRY

761—181.1(321) Statewide standard.

181.1(1) A local authority may issue a special permit, based on this rule, allowing the operation over a bridge within its jurisdiction of a fence-line feeder, grain cart, tank wagon or tracked implement of husbandry with a weight in excess of the weights allowed under Iowa Code chapter 321.

181.1(2) A local authority shall evaluate a bridge according to section 6 of the American Association of State Highway and Transportation Officials (AASHTO) Manual for Bridge Evaluation (MBE), Third Edition (2018). The operating level shall be used for the evaluation of the bridge with only one fence-line feeder, grain cart, tank wagon or tracked implement of husbandry on the bridge at a time. The live load to be used in the analysis for permit decisions should be the actual vehicle crossing the bridge, together with a dynamic load allowance in accordance with section 6A.4.4.3 or 6A.4.5.5 of the AASHTO MBE, Third Edition (2018).

181.1(3) A local authority is not liable for damage to any vehicle operating within the terms of a permit the local authority issues under this rule, or to the vehicle's cargo, if the local authority imposes weight limits on a bridge specified in the permit subsequent to the issuance of the permit. The weight limits are effective when signs giving notice of the limits are erected.

181.1(4) The AASHTO publications may be ordered from the website www.transportation.org. They may be inspected at the department's office of bridges and structures.

This rule is intended to implement Iowa Code sections 321.1, 321.463(4) and 321.471.

761—201.1(473) General information.

201.1(1) Scope of chapter. This chapter establishes procedures for an intermodal pilot project program using funds transferred to the department by 1987 Iowa Acts, chapter 230, section 1, and 1998 Iowa Acts, chapter 1211, section 1, for grants and loans for one or more pilot projects of intermodal transportation facilities.

201.1(2) Information. Information about the program, project guidelines, requests for assistance, and answers to questions about the preparation and submission of project applications may be obtained by contacting the department at the following address: Office of Rail Transportation, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; telephone (515)239-1140. Submissions to the department under this chapter shall be sent or delivered to this address.

761—201.2(473) Definitions. The following terms when used in this chapter shall have the following meanings:

“Demonstration project.” A pilot project that demonstrates a commercially available energy conservation technique or technology to a target audience.

“Iowa shipper.” A freight originator or receiver located within Iowa. This term does not include a shipper whose freight passes through Iowa without originating or terminating in Iowa.

“Present value.” The current worth of a future cash flow, determined by discounting the future cash flow by an assumed percentage per year factor.

“Target audience.” The audience which a demonstration project is intended to reach. A target audience may be an industry, a public agency, a legislative body, or other group which may use or benefit from the concepts or technologies demonstrated by the pilot project or influence the spread of the concept or technology.

761—201.3(473) Eligibility.

201.3(1) Applicant. An applicant is an individual, partnership, firm, company, cooperative, corporation, association or governmental entity and is the proposed recipient of financial assistance. The applicant shall have, where applicable, authority from its board of directors or other governing body to seek financial assistance for the proposed pilot project, to enter into a commitment to repay any loan awarded, to pledge any security offered for the loan, and to proceed with the pilot project if the requested financial assistance is granted.

201.3(2) Pilot project. A pilot project is eligible for financial assistance if it meets all of the following conditions:

a. It is a specific plan for a new intermodal transportation facility or for the improvement, restoration, conservation, repair, rehabilitation or expansion of an existing intermodal transportation facility.

b. It is a site, a structure, or equipment that accomplishes or aids in the transfer of freight from one mode of transportation to another, including but not limited to ports, terminals, freight distribution centers, intermodal rolling stock, bulk-breaking facilities, and loading facilities.

c. It is located within Iowa. An eligible pilot project may involve freight and equipment which travels beyond Iowa, provided that any permanently located facility is located within Iowa.

d. It complies with Iowa Code section 473.11 and with 10 CFR section 420.12.

201.3(3) Costs.

a. *All projects.* All costs of the pilot project are eligible except the following:

(1) Preparation of the application.

(2) Acquisition of land, a building or structure or any interest therein.

- (1) Construction.
- (2) Construction or repair of buildings or structures.
- (3) Purchase or installation of equipment or materials for energy conservation building retrofits or weatherization.
- (4) Purchase of office supplies, library materials, or equipment in excess of 20 percent of project costs.

761—201.4(473) Financial assistance.

201.4(1) Grants. The department may award to an applicant a grant for up to 80 percent of the eligible costs of the pilot project.

201.4(2) Loans. The department may loan money to an applicant for up to 90 percent of the eligible costs of the pilot project. The department shall determine all loan terms based upon an evaluation of the application.

201.4(3) Combination of grants and loans. The department may award a combination of a grant and a loan to an applicant. The total of all grants and loans awarded for one pilot project shall not exceed 90 percent of the eligible costs of the pilot project.

761—201.5(473) Application procedure.

201.5(1) Request. Rescinded IAB 8/6/03, effective 9/10/03.

201.5(2) Application. The applicant shall submit an original and four copies of an application for financial assistance to the department at the address given in subrule 201.1(2). The application shall include, but not be limited to, the following information:

- (5) A marketing and traffic plan projecting the quantities and major origins, destinations or overhead transfer points of potential and committed freight traffic that will use the project. The plan shall distinguish between potential freight and committed freight.

c. If financial assistance is sought for a demonstration project, a detailed description of the target audience for the project and the applicant’s plans to inform the target audience about the project, to make the project accessible for the target audience to visit, to provide technical assistance to the target audience to help implement the techniques demonstrated by the project, and to determine if the concepts and practices in the project are being used by the target audience.

d. A cash flow projection for the project including operating revenues and costs, capital costs, debt repayments of principal and interest, and profit distributions. The cash flow projection shall cover at least the number of years requested by the applicant to repay any loan.

f. A projection of total annual ton-miles of freight in Iowa to be diverted from highway to nonhighway modes as a result of the project.

g. A projection of annual energy savings from the project. The projection shall show methods of calculation and show how the projected energy savings are consistent with the projected operating plan and the marketing and traffic plan.

h. A description of agreements to permit transportation companies to have reasonable competitive access to the project to maximize the use of, and the energy savings from, the proposed project.

i. A written statement by the applicant acknowledging that all of the information in the application is public information, and a release of the department from liability for its disclosure.

j. If a loan is requested, a description of the security (including an appraisal of any real estate) to be offered to the department shall be included.

k. A certification by the applicant under penalty of perjury, that any award of financial assistance, any subsequent letting of contracts for project costs, or the furnishing of materials therefor, shall not involve direct or indirect interest, prohibited by Iowa Code section 314.2, 362.5, or 331.342, of any state, county, or city official, elective or appointive. The certification shall also state that any award of financial assistance or any letting of any contract in violation of the foregoing provisions shall invalidate the award of financial assistance and authorize a complete recovery of any funds previously disbursed.

201.5(3) Review and acceptance of application.

a. The department shall determine and notify the applicant of the completeness of the application.

b. If the application is incomplete, the department shall specify the additional information needed.

201.5(4) Public announcement. Rescinded IAB 8/6/03, effective 9/10/03.

761—201.6(473) Staff analysis.

201.6(1) Department staff shall prepare an analysis of each complete application.

201.6(2) The analysis shall include but not be limited to:

a. An evaluation of the projected energy savings from the project.

b. If the project is a demonstration project, an evaluation of the project's target audience and the applicant's proposed efforts to reach the target audience.

c. An economic analysis of the public benefits versus the public costs of the project. All benefits and costs shall be calculated for a period reflecting a reasonable life expectancy of the project, discounted to present value, using the following formula and terms:

$$\frac{\text{Public benefits}}{\text{Public costs}} = \frac{\text{Shipper benefits} + \text{highway authority benefits}}{\text{Public financial assistance}}$$

(1) Shipper benefits are the dollar savings of freight transportation, handling and other costs to Iowa shippers from use of the proposed project.

(2) Highway authority benefits are road and street maintenance, construction, and reconstruction costs projected to be avoided as a result of diversion of freight traffic from Iowa roads and streets because of the proposed project.

(3) Public financial assistance is the dollar amount of any grant, plus the present value of an interest subsidy for any loan provided by the department to the project.

d. A financial analysis of the project to determine whether it can reasonably be expected to succeed financially. The analysis shall include:

(1) An evaluation of whether the project will be able to repay a commercial interest rate loan, in which case department financial assistance may be unnecessary;

(2) An evaluation of what combination and type of loan or grant may be needed to provide the project with a likelihood of financial viability, if this is possible; and

(3) An evaluation of whether the project is so financially insecure that it cannot be expected to succeed even with department financial assistance.

761—201.7(473) Staff recommendation.

201.7(1) Department staff shall prepare a recommendation for each complete application.

201.7(2) The staff shall not recommend approval of the application unless all of the following conditions, where applicable, are satisfied:

a. The project shall have projected energy savings.

b. If the project is a demonstration project, it shall have a specific target audience, the applicant's proposed efforts to reach the target audience shall be reasonable and adequate, the project shall be convenient for the target audience to visit, and there shall be a method to determine if the project is being accepted and used by the target audience.

c. The present value of the public benefits from the project shall equal or exceed the present value of the public costs, or the energy savings shall be substantial enough to be judged by staff to outweigh an unfavorable economic analysis.

d. The financial analysis shall show that the applicant is financially responsible and able to undertake the pilot project with the recommended financial assistance, so that the projected energy savings and public benefits can reasonably be expected to be achieved.

201.7(3) A staff recommendation for approval shall include the type and amount of assistance recommended.

761—201.8(473) Commission action.

201.8(1) The staff shall present the application and the staff recommendation to the commission for approval.

201.8(2) The commission may approve, reject, or modify the staff recommendation.

201.8(3) If financial assistance is approved by the commission, the department shall submit the project to the department of natural resources for approval. If the project is approved by the department of natural resources, the department shall submit the project to the U.S. Department of Energy for approval.

201.8(4) If the commission denies financial assistance, the application may be submitted as a new application.

761—201.9(473) Contract preparation and execution.

201.9(1) After the commission and other necessary authorities have approved financial assistance, the department and the applicant shall negotiate and enter into a contract that complies with all the approval terms and requirements specified. The contract shall require the applicant to indemnify the state and its officers and employees to the full extent permitted by law.

201.9(2) Prior to execution of the contract, the department may require a preaudit evaluation of the applicant. The preaudit evaluation may include, but shall not be limited to, the following:

a. An examination of the applicant's accounting methods and procedures to determine the applicant's ability to segregate and accumulate costs to be charged against the project.

b. An examination of the applicant's cost factors to assure their propriety and allowability.

c. An examination of any other information which may be pertinent or necessary to determine the applicant's auditability.

201.9(3) If the preaudit evaluation shows that revisions to the applicant's accounting procedures are necessary to assure that applicant's auditability, the revisions shall be made by the applicant prior to execution of the contract.

201.9(4) Rescinded IAB 8/6/03, effective 9/10/03.

201.9(5) If contract negotiations are not successfully completed within a reasonable period, the commission may withdraw its approval of financial assistance.

761—201.10(473) Monitoring. The department shall monitor all contract provisions for compliance.

These rules are intended to implement Iowa Code section 473.11, 1987 Iowa Acts, chapter 230, sections 1 and 4, and 1998 Iowa Acts, chapter 1211, section 1.

400.2(6) *Vehicles leased by the government.* Vehicles leased by the government for a period of 60 days or more are exempted from payment of registration fees. A copy of the lease agreement, certificate of lease, or other evidence that the vehicle is being leased by the government shall be required in order to obtain this exemption. However, these vehicles are not exempt from the requirements for obtaining a certificate of title as set out in Iowa Code chapter 321, including payment of the appropriate certificate of title fee.

This rule is intended to implement Iowa Code sections 321.18 to 321.22, 321.24 and 321.123.

761—400.3(321) Application for certificate of title or registration for a vehicle.

400.3(1) *Application form.* To apply for a certificate of title or registration for a vehicle, the owner of the vehicle shall complete an application form prescribed by the department, which may be electronic.

400.3(4) Plate number and validation number. If the owner has registration plates that have been assigned to the owner and affixed to the vehicle, the owner shall list the plate number on the application form. The validation number from the validation sticker shall also be listed.

400.3(5) Birth or registration month. If the vehicle is owned by one individual, the individual's month of birth shall be listed on the application form and shall determine the registration year. If the vehicle is owned by two or three individuals, the month of birth of one of the individuals shall be listed and shall determine the registration year. If the vehicle is owned by a partnership, corporation, association, or governmental subdivision, the birth or registration month shall be left blank on the application; the county treasurer shall determine the month of registration.

400.3(16) *Electronic applications.*

a. Applications for certificate of title or registration of a vehicle may be submitted electronically via web-based services offered and maintained by ERT service providers authorized by the department. To be authorized to serve as an ERT service provider, the ERT service provider must establish to the satisfaction of the department that the ERT service provider has the technical, financial, legal, and administrative capacity to meet the department's requirements for submission of electronic applications and must execute an agreement, in a form and content determined by the department, that authorizes and permits the ERT service provider to interact with the department's vehicle title and registration system via an application program interface established by the department and to submit electronic applications on behalf of end users that choose to use the ERT service provider's services to submit an application electronically. Agreements executed by ERT service providers under this paragraph shall include provisions that address security, financial responsibility, privacy, termination, and any other matters deemed appropriate by the department.

b. An agreement executed by an ERT service provider is a condition of authorization and permission only. An ERT service provider authorized by the department is not a contractor, vendor, employee, or agent for the department, the state of Iowa, or any county treasurer accepting electronic applications, and shall not be entitled to compensation from the department, the state of Iowa, or any county treasurer for any service, transaction, or other act rendered as an ERT service provider. The ERT service provider remains solely liable and responsible for the ERT service provider's services and activities as an ERT service provider and shall defend, indemnify and hold harmless the department, any county treasurer, the state of Iowa, and its, or their agents, officers, heirs, assigns, and employees of and from any and all damages, claims, penalties, debts owed, or any other form of liability arising from or related to the ERT service provider's service, performance, errors, acts, or omissions. An ERT service provider that chooses to provide service under the department's permission and authorization does so at the ERT service provider's sole risk and has no claim or right against the department, any county treasurer, or the state of Iowa for fees, costs, profits, loss of profits, interruption of business, or any other form of compensation, remuneration, liability, or damages arising from or related to the ERT service provider's activity as an ERT service provider or inability to serve as an ERT service provider.

c. An ERT service provider authorized by the department may establish web-based services to allow end users to submit applications via an electronic interface established and maintained by the ERT service provider and to submit the applications on behalf of the end user to county treasurers via the department's vehicle title and registration system and application program interface established by the department. In doing so, the ERT service provider is acting as a contractor or vendor for the end user and not the department, any county treasurer, or the state of Iowa, and remains solely responsible to the end user for any failure to perform or breach of performance or agreement. When the end user is a motor vehicle dealer licensed by the department under Iowa Code chapter 322 or 322C, "end user" includes the motor vehicle dealer and any person with an interest in the vehicle that is the subject of the application. The ERT service provider may charge the end user a fee for services rendered as an ERT service provider.

d. In addition to the documentary fee authorized under Iowa Code section 322.19A, an end user that is a motor vehicle dealer licensed by the department under Iowa Code chapter 322 or 322C may pass and charge to a customer the fees or costs incurred by the motor vehicle dealer to submit the customer's application through an ERT service provider's services as a third-party cost or fee under Iowa Code section 322.19A(1), provided that the motor vehicle dealer discloses the charge to the customer before submitting the application. The documentary fee charged by the motor vehicle dealer shall not exceed the amount authorized by Iowa Code section 322.19A(3). Neither the ERT service provider nor the motor vehicle dealer shall charge a customer for creation or delivery of a "registration applied for" card.

e. An ERT service provider authorized by the department has no authority to approve or deny applications. Acceptance of an application by an ERT service provider is not approval of the application. An application is not considered to be formally submitted until it is electronically transmitted by the ERT service provider to the county treasurer via the department's vehicle title and registration system and the application program interface established by the department. The county treasurer remains responsible for approving or denying the application and may reject the application for any reason permitted or required by state or federal law or regulation.

f. An authorized ERT service provider is responsible for the ERT service provider's payment solution and for all payment transaction security and compliance with all applicable standards associated with the payment solution or solutions offered by the ERT service provider. The ERT service provider shall transfer title and registration fees collected by the ERT service provider directly to an account designated by the county treasurer responsible for the transaction via automated clearing house (ACH) transfer and the fees shall be available to the county treasurer no later than three business days following the submission of a transaction for which the fees were paid. Funds received by the ERT service provider shall be held until transfer to the county treasurer's account in a bank insured by the Federal Deposit Insurance Corporation. The ERT service provider shall be responsible for reconciling insufficient funds from an end user.

g. Fees submitted electronically are not deemed to be received until deposited into the county treasurer's account via completion of the ACH transfer. The end user remains responsible for fees submitted via an ERT service provider and the end user's responsibility for payment of any required fees is not waived or excused by the ERT service provider's failure to complete the transfer. As a condition of authorization and permission to serve as an ERT service provider and before the ERT service provider may offer services, the ERT service provider shall furnish a surety bond executed by the ERT service provider as principal and executed by a corporate surety company, licensed and qualified to do business within the state of Iowa. The bond shall run to the state of Iowa, be in the amount of \$150,000 and be conditioned upon the faithful compliance by the ERT service provider of all obligations imposed upon the ERT service provider by any applicable state or federal law or regulation, including the terms of this chapter, the authorizing agreement executed by the ERT service provider under this chapter, and any terms or conditions existing between the ERT service provider and any end user using the ERT service provider's services. The ERT service provider shall indemnify any end user that uses the ERT service provider's services of and from any loss or damage occasioned by the failure of the ERT service provider to so comply, including but not limited to the complete and timely submission to the county treasurer of the title and registration fees required for a given transaction. The bond shall be filed with the department before the ERT service provider may begin or offer services as an ERT service provider. The aggregate liability of the surety shall not exceed the amount of the bond.

h. The ERT service provider shall provide accounting reports of all fees received and transferred to each respective county treasurer, in a manner determined by the department.

i. The ERT service provider shall submit to audits by the department and the state auditor, which shall be at least yearly but may be more frequently if determined necessary by the department or the state auditor.

j. An application submitted electronically must meet all legal requirements for the transaction in question, and no requirement shall be excused or waived as a result of submitting the transaction electronically. However, wherever a signature is required, the signature may be an electronic signature, as determined by the department and according to methods approved by the department. Wherever an electronic solution approved by the department requires the submission of scanned documents, the scanned documents shall be of a quality and resolution determined by the department, which shall at a minimum meet any applicable state or federal standard or requirement, and shall completely capture and represent the original document. The department and any county treasurer processing an application retain the right under Iowa Code section 321.13 to determine the genuineness, regularity, and legality of the application and any scanned document submitted as part of the application and may withhold approval of the application and require presentation of the original document whenever the scanned document is of insufficient quality, content, or appearance to determine the same. An end user that submits a scan of an

original document as part of an electronic application shall retain the original document for a period of six months. An end user shall make all such original documents available for inspection by the department at the department's request. An end user that is a business entity shall retain the documents at the end user's principal place of business in Iowa. Anything in this paragraph notwithstanding, lessors required to retain a damage disclosure statement under Iowa Code section 321.69(4), and authorized vehicle recyclers licensed under Iowa Code chapter 321H and motor vehicle dealers licensed under Iowa Code chapter 322 required to retain damage disclosure statements under Iowa Code section 321.69(6) shall retain the original document for a period of five years from the date of the statement, as required therein.

k. An end user that is a motor vehicle dealer licensed by the department under Iowa Code chapter 322 or 322C and that electronically submits an application on behalf of the person to whom the dealer is transferring the vehicle shall disclose to the person that the application will be submitted electronically and shall obtain the person's written authorization to submit the application on the person's behalf. The written authorization shall be retained at the motor vehicle dealer's principal place of business for a period of six months from the date of application and shall be available for inspection by the department at the department's request. The motor vehicle dealer shall also review with and disclose to the person all details of the application, before submitting the application, and shall provide a complete, true, and accurate copy of the application to the person immediately after submitting the application. The written authorization shall be submitted electronically as a scanned document with the electronic application.

l. An authorized ERT service provider shall retain all data, information, records, and electronic records associated with an electronic application or transaction submitted or transacted through the ERT service provider for a period of at least six months, or longer as required by applicable state or federal law or regulation, and shall make all such data, information, and records available to the department at the department's request. This includes but is not limited to the identity of the end user that initiated the electronic application or transaction. Identity information for end users shall be maintained at the entity and individual level, meaning that the ERT service provider must implement and maintain secure profile management that is capable of authenticating and verifying the identity of any entity that initiated the application or transaction and the individual officer, employee, or agent within the entity that was authorized by the entity to initiate the application or transaction.

m. The ERT service provider shall hold and protect all personal information as required by Iowa Code section 321.11 and the federal Driver's Privacy Protection Act, 18 U.S.C. § 2721 et seq. (the DPPA), shall only use or release such personal information for purposes necessary to perform services as an ERT service provider, and shall release such personal information for no other purposes or use except as required to comply with legal or administrative matters as permitted under the DPPA. The ERT service provider shall immediately advise the department of any suspected or actual unauthorized release of personal information or highly restricted personal information and shall notify the entity and individual whose personal information or highly restricted personal information was released in an unauthorized manner.

This rule is intended to implement Iowa Code sections 321.1, 321.8, 321.20, 321.23 to 321.26, 321.31, 321.34, 321.46, 321.105A, 321.109, 321.122, 322.19A and 423.26.

761—400.4(321) Supporting documents required. This rule describes the basic supporting documents to be submitted by an applicant for a certificate of title or registration.

400.4(1) New vehicle. If application is made for a new vehicle, a manufacturer's certificate of origin, properly assigned to the applicant, shall be submitted. A manufacturer's certificate of origin shall not be accepted if the assignment to the applicant is made by any person other than the manufacturer, importer or distributor, a licensed motor vehicle dealer franchised to sell that line-make of vehicle, or a final-stage manufacturer motor vehicle dealer licensed under rule 761—425.11(322).

a. The first person, including a dealer not franchised to sell that line-make of vehicle, who is assigned the manufacturer's certificate of origin shall obtain a certificate of title and register the vehicle.

b. An uncanceled security interest noted on the reverse side of a manufacturer's certificate of origin (MCO) shall be noted as a separate security interest on the certificate of title, in addition to any security interest acknowledged by the applicant, unless the applicant indicates in the security interest area on the title application that the security interest is the same as the one noted on the reverse side of the MCO.

c. If a 1980 or subsequent model year vehicle is manufactured by a person other than the original manufacturer, both the original manufacturer's certificate of origin and the final-stage manufacturer's certificate of origin shall be submitted if the vehicle's original line-make is changed by the final-stage manufacturer. All assignments or reassignments of ownership of the vehicle shall be made on the final-stage manufacturer's certificate of origin. The face of the original manufacturer's certificate of origin shall be stamped in bold type with the statement: "Final-stage manufacturer's MCO has been issued on this vehicle." The original manufacturer's vehicle identification number shall be listed on the final-stage manufacturer's certificate of origin.

d. If a final-stage manufacturer is a motor vehicle dealer licensed under rule 761—425.11(322), the final-stage manufacturer may reassign the original manufacturer's certificate of origin to the retail buyer.

400.4(2) *Used vehicle registered or titled in this state.* The last issued certificate of title, properly assigned to the applicant, shall be submitted, unless the applicant is an insurer applying for a salvage certificate of title under Iowa Code section 321.52(4). An uncanceled security interest noted on the face of the certificate of title shall be noted on the face of the certificate of title issued to the applicant, in addition to any security interest acknowledged by the applicant. If the vehicle is not subject to titling provisions, the last issued registration receipt or bill of sale, properly assigned to the applicant, shall be submitted.

400.4(3) *Used vehicle from a foreign jurisdiction.* If the vehicle was subject to the issuance of a certificate of title in the foreign jurisdiction, the certificate of title issued by the foreign jurisdiction to the applicant or properly assigned to the applicant shall be submitted, unless the applicant is an insurer applying for a salvage certificate of title under Iowa Code section 321.52(4).

a. A security interest, noted on the face of the foreign certificate of title, which has not been canceled, shall be noted on the face of the certificate of title issued to the applicant, in addition to any security interest acknowledged by the applicant.

b. A certificate of title issued in a foreign jurisdiction may be assigned to a motor vehicle dealer in another jurisdiction, and the dealer may reassign the certificate of title to the applicant. An assignment or reassignment form issued by a foreign jurisdiction may be used with a foreign title to complete an assignment or reassignment of ownership from a foreign motor vehicle dealer to the applicant, provided the ownership chain is complete.

c. An Iowa licensed motor vehicle dealer who acquires a vehicle registered in another state or country may reassign the foreign certificate of title to the applicant, as provided in Iowa Code subsection 321.48(2) and rule 761—400.27(321,322).

d. A person who registers a foreign vehicle under Iowa Code subsection 321.23(3) shall be issued a nontransferable-nonnegotiable registration. To transfer ownership of the vehicle, the owner must first obtain an Iowa certificate of title except as follows: If ownership is transferred to an Iowa licensed motor vehicle dealer as provided in Iowa Code subsection 321.23(3), the foreign certificate of title may be assigned to the dealer; the owner is not required to obtain an Iowa title. The dealer may then reassign the foreign title, as provided in Iowa Code subsection 321.48(2) and rule 761—400.27(321,322).

e. If the vehicle was not subject to the issuance of a certificate of title in the foreign jurisdiction, the registration document issued by the foreign jurisdiction to the applicant or properly assigned to the applicant shall be submitted.

(1) If the foreign registration document is not issued in the applicant's name and does not contain an assignment of ownership form, a bill of sale conveying ownership from the owner as listed on the foreign registration document to the applicant shall be submitted with the foreign registration document.

(2) Upon receipt of the foreign registration document, the county treasurer shall issue a nontransferable—nonnegotiable registration unless the foreign registration document has been approved by the department.

(3) Acceptance of the foreign registration document shall be determined by the department on an individual basis, if the county treasurer of the county where the certificate of title is to be issued cannot determine whether the document is acceptable.

f. If a trailer weighing 2000 lbs. or less is exempt from the issuance of a certificate of title and registration in the foreign jurisdiction, a bill of sale conveying ownership to the applicant, if acquired by a resident from a nonresident, or an affidavit of ownership signed by the applicant, if the applicant is establishing residence in this state, shall be submitted.

g. If a motor vehicle is exempt from the issuance of a certificate of title and registration in the foreign jurisdiction, the bonding procedures as provided in Iowa Code section 321.24 shall be followed.

400.4(4) *Used vehicle acquired by a resident of this state from a government agency.* If the vehicle was acquired from an agency of the federal government, the applicant shall surrender the government bill of sale, General Services Administration Form 97, or Internal Revenue Service Form 2435, properly assigned to the applicant. If the vehicle was acquired from the state of Iowa or a subdivision of government, the applicant shall surrender the Iowa certificate of title issued in the name of the agency, properly assigned to the applicant.

400.4(5) *Manufactured or mobile home.* If the vehicle described on the application is a manufactured or mobile home with an Iowa title, the applicant shall submit a tax clearance form to show that no taxes are owing, unless the title has been issued to a manufactured or mobile home retailer licensed under Iowa Code chapter 103A. The form may be obtained by any owner of record of the manufactured or mobile home from the county treasurer.

400.4(6) *Vehicle acquired by a resident of this state by operation of law.* If the vehicle was acquired by the applicant by operation of law as specified in Iowa Code section 321.47, the last issued certificate of title shall be submitted by the applicant, or when that is not possible, presentation of satisfactory proof of the applicant's ownership and right of possession to the vehicle shall be submitted by the applicant. Proof of ownership may consist of a foreclosure sale affidavit, artisan's or storage lien affidavit, affidavit of death intestate, abandoned vehicle sales receipt, peace officers bill of sale or court order. See also subrules 400.14(4) and 400.14(5).

400.4(7) *Foreign ownership document issued in a language other than English.* A foreign ownership document issued in a language other than English may be required to be reproduced in writing in English and certified to be a correct translation by a person qualified to translate that particular language. The English translation and certification shall be submitted with the foreign ownership document.

400.4(8) *Titles from foreign jurisdictions.*

a. Except as provided in paragraph "b" of this subrule, a certificate of title issued by a foreign jurisdiction shall not be accepted if the title contains an alteration or erasure.

b. An affidavit of correction form issued by a foreign jurisdiction that corrects the certificate of title issued by the foreign jurisdiction shall be accepted only for the reason listed on the affidavit of correction form. However, acceptance of an affidavit of correction form that corrects an odometer statement or a designation shall be determined by the department on an individual basis.

400.4(9) *Applications in the name of trusts.* An application in the name of a trust shall be accompanied by a copy of all documents creating or otherwise affecting the trust or the certification of trust as defined in Iowa Code section 633A.4604. The application shall be signed by each trustee unless otherwise specified in the trust agreement or the certification of trust. The signature shall be followed by the words "as trustee."

400.4(10) *Supporting document retained by county treasurer.* All supporting documents, except those submitted pursuant to subrule 400.3(16), shall be retained by the county treasurer.

This rule is intended to implement Iowa Code sections 321.20, 321.23, 321.24, 321.30, 321.31, 321.45 to 321.50, 321.67 and 322.3.

400.5(2) Application shall be made to the department's office of vehicle and motor carrier services for the following:

761—400.12(321) Replacement certificate of title.

400.12(1) When a certificate of title is lost, destroyed or altered, the owner or lienholder shall apply for a replacement certificate of title. If a security interest noted on the certificate of title was released by the secured party on a separate form, but the secured party has not delivered the original certificate of title to the appropriate party, the owner may apply for a replacement certificate of title as provided in Iowa Code section 321.42.

400.12(2) Application for a replacement certificate of title shall be made on a form prescribed by the department. All owners of the vehicle as listed on the certificate of title shall sign the application form. If an owner is deceased, the signatures and documents specified in subrules 400.14(4) and 400.14(5) shall be required in lieu of the deceased owner’s signature. A person entitled to vehicle ownership under the

400.13(1) Procedures. This subrule describes the procedures to be followed to obtain a “bonded” certificate of title. The procedures described are in addition to the regular procedures for titling and registering a vehicle.

a. The applicant shall submit a bond application to the office of vehicle and motor carrier services on a form prescribed by the department. The application shall be accompanied by evidence of ownership of the vehicle.

b. The department shall search the state files to determine if there is an owner of record for the vehicle and if the vehicle has been reported stolen or embezzled.

(1) If a record is found, the applicant shall complete a request for release of personal information form explaining that the applicant is the current owner and is requesting a duplicate title. The department shall mail the release by first-class mail to the owner of record, at the owner’s last-known address.

(2) If the department receives no response from the owner of record within ten days after the date of mailing or the owner of record does not want the owner’s personal information released, the department will continue processing the bond application.

c. If the department determines that the applicant has complied with this rule, that there is sufficient evidence to indicate that the applicant is the rightful owner, and that there is no known unsatisfied security interest, the department shall determine the current value of the vehicle and notify the applicant to deposit cash or file a surety bond with the department in an amount equal to one and one-half times the current value of the vehicle.

d. After the cash deposit or surety bond has been deposited, a motor vehicle investigator of the department may examine the vehicle to verify the information submitted on the application is correct. The owner of the vehicle may drive or tow the vehicle to and from the examination location after completing an affidavit to drive on a form provided by the department. The form shall state that the vehicle is reasonably safe for operation, and the form must be signed by the owner. After verifying the information, the investigator shall authorize the county treasurer to issue a title for and register the vehicle. Should the vehicle not meet the equipment requirements of Iowa Code chapter 321, the investigator shall authorize the county treasurer to issue a title and registration but instruct the county treasurer to immediately suspend the registration until such time as the vehicle meets these equipment requirements. If applicable, the investigator shall also affix an assigned vehicle identification number to the vehicle.

e. The applicant shall then make application for a certificate of title and registration.

400.13(2) Disapproval. If the department determines that the applicant has not complied with this rule, that there is sufficient evidence to indicate that the applicant may not be the rightful owner, or that there is an unsatisfied security interest, then the department shall not authorize issuance of a certificate of title or registration receipt and shall notify the applicant in writing of the reason(s).

400.13(3) Junked vehicle. A certificate of title shall not be reinstated for a vehicle that has been issued a junking certificate unless the junking certificate was issued in error, as explained in rule 761—400.23(321), or the vehicle qualifies as an antique vehicle under Iowa Code subsection 321.115(1).

This rule is intended to implement Iowa Code sections 321.24 and 321.52.

a. If the names of the owners of a vehicle on the certificate of title or on the manufacturer's certificate of origin are joined by the word "or," as in "John Doe, Jane Doe or Mary Doe," then the signature of any of these owners is sufficient to transfer title or to junk the vehicle.

b. If ownership of a vehicle is stated as a name or names followed by the words "Doing Business As" or the initials "DBA" and another name, only the name of an owner followed by the signature of an authorized representative of an owner is required to transfer title or to junk the vehicle.

EXAMPLE: Ownership is stated as "John Smith and Mary Smith DBA Smith Repair." Jane Doe is an authorized representative of John Smith and Mary Smith. To transfer ownership, Jane Doe may sign as "John Smith and Mary Smith DBA Smith Repair, by Jane Doe," "John Smith and Mary Smith by Jane Doe," or Smith Repair by Jane Doe."

c. In all other cases the signature of each named owner is required.

400.14(2) *Assignment of title to two or three persons.* If a certificate of title or a manufacturer's certificate of origin is assigned to two or three persons with their names joined by the word "or," as in "John Doe, Jane Doe or Mary Doe," then a certificate of title may be issued to any one of these persons, or to any two or all three of these persons with their names joined by the word "or." However, a certificate of title shall only be issued to persons who have signed the application for title.

400.14(3) *Organizational ownership.*

a. When a vehicle is owned by a partnership, corporation, association, governmental unit, or private organization, the signature of its authorized representative is required.

b. When a vehicle is owned by a trust, the signature of each trustee is required, unless otherwise specified in the trust agreement or the certification of trust as defined in Iowa Code section 633A.4604. The signature shall be followed by the words "as trustee." In addition, the title shall be accompanied by a copy of all documents creating or otherwise affecting the trust or the certification of trust.

400.14(4) *Death with a will.* When ownership is transferred according to a decedent's will, a certified copy of the court order or the letter of appointment appointing the person assigning the title as executor of the will shall be required.

400.14(5) *Death without a will.* When ownership is transferred from a decedent without a will and there is no administration of the estate, an affidavit of death intestate form signed by the clerk of court shall be required. When ownership is transferred from a decedent without a will but there is an administration of the estate, a copy of the court order or the letter of appointment appointing the person assigning the title as administrator shall be required.

400.14(6) *Power of attorney.* An attorney in fact may act for the owner(s) if the appointment is shown on a power of attorney form. Power of attorney forms are available from the department but other forms may be accepted if they contain all necessary information. The power of attorney form or a certified true copy shall be kept by the county treasurer and attached to the document to which it applies.

This rule is intended to implement Iowa Code sections 321.20, 321.24, 321.45, 321.47, 321.49, and 321.67.

[ARC 9048B, IAB 9/8/10, effective 10/13/10]

761—400.15(321) Cancellation of a certificate of title.

400.15(1) The department shall cancel a certificate of title when authorized by any provision of law or when it has reasonable grounds to believe that the title has not been surrendered to the county treasurer as provided in Iowa Code section 321.52 or when the vehicle has been stolen or embezzled from the rightful owner or seized under the provisions of Iowa Code section 321.84, and the person holding the certificate of title, purportedly issued for the vehicle, has no immediate right to possession of the vehicle.

400.15(2) The decision to issue a new certificate of title or to allow the previous title to be reinstated through a replacement title application process or to take any other action regarding ownership of the vehicle for which the current title has been canceled shall be determined after an investigation and recommendation by a motor vehicle investigator of the department.

This rule is intended to implement Iowa Code section 321.101.

761—400.16(321) Application for certificate of title or original registration for a specially constructed, reconstructed, street rod or replica motor vehicle.**400.16(1) Definitions applicable to this rule.**

a. “Ownership document for the vehicle” means the certificate of title, the manufacturer’s certificate of origin, the junking certificate, or other evidence of ownership acceptable to the department.

b. “Ownership documents for essential parts” means bills of sale for all essential parts used to construct or reconstruct the vehicle. Each bill of sale shall contain a description of the part, the manufacturer’s identification number of the part, if any, and the name, address, and telephone number of the seller.

400.16(2) Procedures. This subrule describes the procedures for obtaining department approval to title and register a specially constructed, reconstructed, street rod or replica motor vehicle. The procedures described are in addition to the regular procedures for titling and registering a vehicle.

a. The applicant shall apply to the county treasurer for a certificate of title and registration. The county treasurer, upon receiving an application that indicates the vehicle is a specially constructed, reconstructed, street rod or replica motor vehicle, shall forward the application to a motor vehicle investigator of the department.

b. The investigator shall contact the applicant and schedule a time and place for an examination of the vehicle and the ownership documents. The owner of the vehicle may drive or tow the vehicle to and from the examination location by completing an affidavit to drive on a form provided by the department. The form shall state that the vehicle is reasonably safe for operation and must be signed by the owner. The applicant, when appearing with the vehicle for the examination, shall submit to the investigator the ownership document for the vehicle, the ownership documents for essential parts, and a weigh ticket indicating the weight of the vehicle. However, a weigh ticket is not required for motorcycles, autocycles, trucks, truck tractors, road tractors or trailer-type vehicles.

c. If the investigator determines that the vehicle complies with 761—Chapter 450, that the integral parts and components have been identified as to ownership, and that the application has been completed properly:

(1) The investigator shall approve the application, affix to the vehicle an assigned vehicle identification number, and return the application and ownership documents to the applicant. The investigator shall authorize the county treasurer to issue a title and registration for the vehicle.

(2) If the vehicle is a passenger-type motor vehicle, the department shall determine its weight and value. The vehicle weight shall be fixed at the next even 100 pounds above the actual weight of the vehicle fully equipped, as provided in Iowa Code section 321.162. The weight and value shall constitute the basis for determining the annual registration fee under Iowa Code section 321.109, except as provided in Iowa Code section 321.113.

(3) The applicant shall then submit the ownership document for the vehicle to the county treasurer and continue with the regular title and registration process.

400.16(3) Disapproval. If the department determines that the vehicle does not comply with 761—Chapter 450, that the integral parts or components have not been identified as to ownership, or that the application has not been completed properly, then the department shall not approve the vehicle for titling and registration.

400.16(4) Model year. The model year of a specially constructed or reconstructed motor vehicle is the year the vehicle is approved by the department as a specially constructed or reconstructed motor vehicle.

The department may register a vehicle which does not meet the equipment requirements of Iowa Code chapter 321, due to the particular use for which it is designed or intended. Registration may be accomplished upon payment of the appropriate fees and after inspection and certification by the department that the vehicle is not in an unsafe condition.

400.21(1) Operation of the vehicle may be restricted to a roadway to which a specific lawful speed limit applies, as specified in Iowa Code section 321.285, if the maximum speed of the vehicle is such that the operation of the vehicle would impede or block the normal and reasonable movement of traffic.

400.21(2) The department may also restrict the operation of the vehicle to daylight hours if operation of the vehicle during hours other than daylight would create a hazard.

400.21(3) A certificate of restriction shall be issued in conjunction with registration of the vehicle, listing the restrictions that apply to the operation of the vehicle.

a. Registration laws applicable to motor vehicles in general shall also apply to vehicles registered under a restricted registration.

400.22(1) The new certificate of title and registration shall be issued, upon receipt of the proper documentation, by the county treasurer of the county where the transferee resides.

400.22(2) If the vehicle is not currently registered in this state, the registration fee and penalties due shall be computed in accordance with the following:

b. If the vehicle is sold on a peace officer's bill of sale as an unclaimed, stolen, embezzled or abandoned vehicle, or as a vehicle seized under Iowa Code section 321.84, the fee shall be computed on the remaining unexpired months in the registration year from the date of the sale.

(1) The owner inadvertently surrendered the wrong certificate of title. The owner shall submit to the department a photocopy of the ownership document for each vehicle and a signed statement explaining the circumstances that resulted in the error.

The department shall inspect the vehicle to verify the rebuildable condition.

c. If the department determines that the junking certificate was not issued in error and denies the application for reinstatement of the certificate of title for the vehicle, the owner may apply for a certificate of title under the bonding procedure in rule 761—400.13(321) if the vehicle qualifies as an antique vehicle under Iowa Code subsection 321.115(1).

CHAPTER 405
SALVAGE

761—405.1(321) Applicability. This chapter supplements 761—Chapter 400. It applies to salvage motor vehicles and foreign motor vehicles brought into Iowa that are or were salvage, rebuilt or junked. This chapter applies only to motor vehicles subject to registration except that owners of vehicles with a gross vehicle weight rating of 30,000 pounds or more are not required to submit a salvage theft examination certificate to convert a salvage title to a regular title.

761—405.2(321) Definitions.

“*Authorized vehicle recycler*” means a person licensed under Iowa Code chapter 321H.

“*Iowa salvage title*” means an Iowa salvage certificate of title.

“*Junking certificate*” means an Iowa junking certificate.

“*New motor vehicle dealer*” means a dealer licensed under Iowa Code chapter 322 to sell new motor vehicles.

“*Previous owner*” as used in Iowa Code section 321.24 means the last titled owner.

“*Regular foreign title*” means a certificate of title issued by a foreign jurisdiction that allows the vehicle to be driven or moved upon a highway.

“*Regular Iowa title*” means an Iowa certificate of title that is not a salvage title.

761—405.3(321) Salvage title.

405.3(1) Face of title. Except for vehicles with a gross vehicle weight rating of 30,000 pounds or more, the following shall be stamped in red ink on the face of an Iowa salvage title: SALVAGE—CANNOT BE REGISTERED WITHOUT A SALVAGE THEFT EXAMINATION CERTIFICATE OR AN INSURER’S CERTIFICATION.

405.3(2) Assignment. An Iowa or a foreign salvage title may be assigned only as provided in Iowa Code subsection 321.52(4). Except as provided in subrule 405.3(3), the transferee to whom an Iowa or a foreign salvage title is assigned shall apply for a new Iowa salvage title within 30 days after the date of assignment unless, within this time period, application for a regular title is made or a junking certificate is obtained.

405.3(3) Reassignment. Reassignment of an Iowa or a foreign salvage title by a licensed new motor vehicle dealer or by an authorized vehicle recycler is allowed, and the dealer or recycler is not required to obtain a new Iowa salvage title upon assignment of an Iowa or a foreign salvage title to the dealer or recycler, provided a vacant reassignment space is available on the title. If all reassignment spaces on an Iowa or a foreign salvage title assigned to the dealer or recycler have been used, the dealer or recycler shall obtain a new Iowa salvage title in accordance with subrule 405.3(2). The following shall be stamped on the dealer reassignment portion of Iowa salvage titles: ONLY NEW MOTOR VEHICLE DEALERS OR RECYCLERS MAY REASSIGN THIS TITLE.

405.3(4) Registration fees.

a. An Iowa salvage title may be obtained without payment of the current registration fees or any delinquent registration fees or registration penalties. If the registration fees are delinquent at the time of issuance of an Iowa salvage title, no additional penalty shall accrue after issuance.

b. Any registration fees or registration penalties due at the time of issuance of an Iowa salvage title, together with the current registration fees if not already paid, shall be paid upon issuance of a regular title. However, a dealer is not required to pay current registration fees to obtain a regular title for a vehicle held for resale or trade. See rule 761—400.27(321,322) for any exceptions.

c. Notwithstanding any provision of this chapter to the contrary, an Iowa salvage title obtained by an insurer pursuant to the provisions under Iowa Code section 321.52(4) shall be issued free and clear of all liens and claims of ownership, including any outstanding registration fees or registration penalties.

405.3(5) Plates. Registration plates shall not be assigned when an Iowa salvage title is issued.

761—405.4 and 405.5 Reserved.

761—405.6(321) Iowa salvage title required.

405.6(1) *Wrecked or salvage vehicle.* A vehicle rebuilder or a person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered in this state upon acquisition of a wrecked or salvage vehicle shall obtain an Iowa salvage title or a junking certificate for the vehicle except as provided in subrule 405.3(3).

a. A wrecked or salvage vehicle is a damaged motor vehicle that:

- (1) Has repair costs exceeding 50 percent of its fair market value before it became damaged, and
- (2) Had a fair market value of \$500 or more before it became damaged.

b. Fair market value is the average retail value found in the National Automobile Dealers Association (NADA) Official Used Car Guide. If there is no value available, the office of vehicle services shall determine the fair market value upon request. The address is: Office of Vehicle Services, Department of Transportation, P.O. Box 9278, Des Moines, Iowa 50306-9278.

405.6(2) *Insurer.* An insurer upon acquisition of a motor vehicle as a result of a settlement with the motor vehicle owner arising out of damage to or unrecovered theft of the motor vehicle shall obtain an Iowa salvage title for the motor vehicle.

405.6(3) *Application.* Application for an Iowa salvage title shall be made within 30 days after the date of assignment to the transferee.

761—405.7(321) Converting salvage title to regular title.

405.7(1) *General application procedure.*

a. To obtain a regular title, the owner in whose name the salvage title is issued or assigned shall pay the appropriate fees and surrender the following when applying for the regular title:

- (1) The salvage title.
- (2) The salvage theft examination certificate issued in the applicant's name. However, a salvage theft examination certificate is not required if the vehicle has a gross vehicle weight rating of 30,000 pounds or more. See rule 761—405.15(321) for salvage theft examination.

b. A regular title and registration receipt issued pursuant to this subrule shall bear the designation "prior salvage."

405.7(2) *Insurer's certification.* An insurer who has title pursuant to Iowa Code subsection 321.52(4) may submit an insurer's certification in lieu of a salvage theft examination certificate.

a. The insurer's certification shall:

- (1) Include the name and address of the insurance company and the VIN, year and make of the salvage titled vehicle.
- (2) Include a statement by the insurer certifying that the retail cost of repairs for all damages to the vehicle is less than \$3000.
- (3) Be dated and signed by an authorized representative of the insurer.

b. The insurer's certification is not transferable if the insurer assigns the salvage title to another person.

c. A regular title and registration receipt issued pursuant to this subrule is not required to have a designation of "prior salvage." However, the title and registration receipt shall bear any designation to be carried forward, as explained in rule 761—405.10(321).

761—405.8(321) Foreign vehicles.

405.8(1) *Definitions.* The following definitions apply to foreign titles and the designations shown on them.

"Junked" means the vehicle is damaged or dismantled and is prohibited from ever again being driven upon a highway.

"Rebuilt" means the vehicle had been designated as salvage but had the designation removed, and the vehicle is permitted to be driven and moved upon a highway. Also, a designation of "salvage" on a regular foreign title means that the vehicle is rebuilt.

"Salvage" means the vehicle is damaged and shall not be registered to be driven or moved upon a highway until it is no longer designated as salvage.

405.8(2) Foreign title with rebuilt designation. If the prior title for a vehicle is a foreign title indicating that the vehicle was rebuilt, the Iowa title and registration receipt issued from the foreign title shall contain the designation of “rebuilt” together with the two-letter abbreviation of the name of the jurisdiction that issued the foreign title.

EXCEPTION: If a records check indicates that the vehicle was previously titled in Iowa with a designation of “prior salvage,” the prior salvage designation takes precedence and shall be carried forward to the Iowa title and registration receipt.

405.8(3) Converting foreign salvage title to Iowa title. If the prior title for a vehicle is a foreign title indicating that the vehicle is salvage, a regular Iowa title shall not be issued for the vehicle unless an Iowa salvage title is first issued. After an Iowa salvage title is issued for the vehicle, a regular Iowa title may be obtained pursuant to rule 761—405.7(321).

EXCEPTION 1: As provided in subrule 405.3(3), a licensed new motor vehicle dealer or an authorized vehicle recycler is not required to obtain an Iowa salvage title upon assignment of a foreign salvage title to the dealer or recycler, provided a vacant reassignment space is available on the title.

EXCEPTION 2: As provided in Iowa Code section 321.24(5), an owner who surrenders a foreign salvage title and obtains a salvage theft examination pursuant to Iowa Code section 321.52(4) “b” within 30 days of the date the owner was assigned the foreign salvage title is not required to first obtain an Iowa salvage title.

405.8(4) Salvage titled vehicle leaving and reentering Iowa. If a vehicle leaves Iowa with an Iowa salvage title and reenters Iowa with a regular foreign title, a regular Iowa title may be issued without a salvage theft examination. The regular Iowa title and registration receipt issued from the foreign title will be designated:

- a. “Prior salvage” if the foreign title does not indicate that the vehicle was rebuilt.
- b. As specified in subrule 405.8(2) if the foreign title indicates that the vehicle was rebuilt.

405.8(5) Designation carried forward. If a vehicle leaves Iowa with a regular Iowa title and reenters Iowa with a regular foreign title, the foreign title does not indicate that the vehicle was rebuilt and a records check indicates that the vehicle had a designation listed in paragraphs 405.10(1) “a” to “e,” that designation shall be carried forward to the Iowa title and registration receipt issued from the foreign title.

405.8(6) Foreign title with flood, fire, vandalism or theft designation. If the prior title for a vehicle is a foreign title indicating that the vehicle was damaged by flood, fire or vandalism or is a recovered stolen vehicle and another designation is not required under this rule or rule 761—405.10(321), the Iowa title and registration receipt issued from the foreign title shall contain, as applicable, the designation of “flood,” “fire,” “vandalism” or “theft.”

405.8(7) Foreign title with a lemon buy-back designation. See rule 761—405.10(321).

405.8(8) Junking certificate.

a. An Iowa junking certificate shall be issued if:

- (1) The prior title for a vehicle is a foreign title indicating that the vehicle was junked, regardless of any other designation on the title.
- (2) A records check for a vehicle with a foreign title indicates that the vehicle had previously been issued an Iowa junking certificate.

b. This subrule applies to all vehicles subject to Iowa titling laws.

[ARC 3108C, IAB 6/7/17, effective 7/12/17]

761—405.9(321) Records check. Before a title is issued in Iowa, a computer records check may be made. The purpose of the records check is to:

405.9(1) Determine if the vehicle ever had or should have had a “prior salvage,” “rebuilt,” “damage over 50 percent,” “flood,” “fire,” “vandalism,” “theft,” “lemon buy-back,” or equivalent designation(s) on a previous title. If such a designation is or should have been on a previous title, the Iowa title to be issued shall contain the designation required by this chapter.

405.9(2) Determine if the vehicle is or was ever a wrecked or salvage vehicle as defined in Iowa Code section 321.52. If a vehicle is a wrecked or salvage vehicle, an Iowa salvage title shall be issued.

If the vehicle was a wrecked or salvage vehicle, the Iowa title to be issued shall contain the appropriate designation required by this chapter.

405.9(3) Determine if the vehicle should have been or was ever junked as defined in subrule 405.8(1). If the vehicle should have been or was ever junked, an Iowa junking certificate shall be issued.

761—405.10(321) Designations.

405.10(1) The following designations for a vehicle shall be used on Iowa titles and registrations receipts and shall be carried forward to all subsequent Iowa titles and registration receipts issued for the vehicle, unless otherwise specified:

a. Prior salvage. This designation supersedes other designations. When a designation of “prior salvage” is required pursuant to rule 761—405.7(321), it replaces any other designation.

b. Rebuilt together with a two-letter abbreviation of the name of a foreign jurisdiction. When this designation is required pursuant to subrule 405.8(2), it replaces any other designation except a “prior salvage” designation.

c. Damage over 50 percent. As required by Iowa Code section 321.69, a designation of “damage over 50 percent” shall be used when the seller or the buyer indicates on the damage disclosure statement that the person has knowledge that the motor vehicle sustained damage for which the cost of the repair exceeded 50 percent of the fair market value before the motor vehicle became damaged. This designation replaces any other designation except “prior salvage” or “rebuilt.”

d. Flood, fire, vandalism or theft. The most recent designation applies. Unless superseded by a “prior salvage,” “rebuilt,” or “damage over 50 percent” designation, a designation of “flood,” “fire,” “vandalism” or “theft” shall be used as specified in subrule 405.8(6) and supersedes a “lemon buy-back” designation.

e. Lemon buy-back. Unless superseded by a “prior salvage,” “rebuilt,” “damage over 50 percent,” “flood,” “fire,” “vandalism” or “theft” designation, a designation of “lemon buy-back” shall be used:

(1) When a certificate of title is issued to a manufacturer of a motor vehicle pursuant to Iowa Code section 322G.12.

(2) When the prior certificate of title for a motor vehicle is a foreign title indicating that the vehicle was returned to the manufacturer pursuant to Iowa Code chapter 322G or a law of another state similar to Iowa Code chapter 322G.

405.10(2) An Iowa salvage title will be issued with a designation of “salvage” unless a designation listed in subrule 405.10(1) is required.

761—405.11 to 405.14 Reserved.

761—405.15(321) Salvage theft examination. Except for foreign salvage titles assigned to licensed new motor vehicle dealers or authorized vehicle recyclers, a salvage theft examination may only be conducted on a vehicle with an Iowa salvage title. The vehicle shall not be examined until it has been completely repaired, except for minor body parts such as trim, body marking or paint.

761—415.1(321) Applicability.

415.1(1) This chapter applies to personal information about vehicle owners in records pertaining to certificates of title, registration receipts and registration renewal receipts issued by the department or a county treasurer.

415.1(2) Rules regarding personal information and highly restricted personal information in records pertaining to drivers' licenses and nonoperators' identification cards are found in 761—Chapters 610 and 611.

[ARC 9048B, IAB 9/8/10, effective 10/13/10]

761—415.2(321) Adoption. The department adopts the Driver's Privacy Protection Act of 1994 (18 U.S.C. § 2721 et seq.) as amended through calendar year 2000 (P.L. 106-346) for certificates of title, registration receipts and registration renewal receipts.

761—415.3(321) Definitions.

"Driver's Privacy Protection Act" or *"Act"* means the Act adopted in rule 761—415.2(321).

"Highly restricted personal information" means an individual's photograph or image, social security number, or medical or disability information.

"Law enforcement agency" includes, but is not limited to, offices of county attorneys, offices of United States attorneys, attorneys general offices, state and federal departments of justice, and a division or unit of a governmental agency if the division's or unit's primary responsibility is to prevent or detect crime or enforce criminal laws.

"Motor vehicle record" as used in the Act means any record that pertains to a driver's license, nonoperator's identification card, certificate of title, registration receipt, or registration renewal receipt issued by the department or a county treasurer.

"Person" means an individual, organization or entity.

"Personal information" means information that identifies an individual, including the items listed in Iowa Code section 321.11 and 18 U.S.C. § 2725(3) of the Act adopted in rule 761—415.2(321). "Personal information" also includes information on an individual's nonoperator's identification card.

"Requestor" means an individual or entity that seeks from the department access to personal information or highly restricted personal information contained in the individual's own or another individual's motor vehicle record. A requestor does not include an individual who is an authorized employee of the department or a county treasurer acting within the scope of the employee's office or employment.

"Vehicle owner" as used in this chapter means a vehicle owner who is an individual, not a company, organization or other legal entity.

[ARC 9048B, IAB 9/8/10, effective 10/13/10]

761—415.4(321) Requirements and procedures. Notwithstanding Iowa Code chapter 22 and 761—Chapter 4, the following procedures implement the Driver's Privacy Protection Act and Iowa Code section 321.11 as they pertain to records relating to certificates of title, registration receipts and registration renewal receipts. The department does not provide the waiver procedure described in the Act (codified as 18 U.S.C. § 2721(d)).

415.4(1) The department or a county treasurer shall require a requestor to:

a. Complete Form 431069, "Privacy Act Agreement for Request of Motor Vehicle Records," and submit it to the office of vehicle services.

e. Pay the statutory fee, if applicable, for the requested motor vehicle record.

415.4(2) Form 431069 must be completed by a requestor and approved by the department before the department may disclose personal information or highly restricted personal information to the requestor. The department may deny requests for such information if a requestor refuses to complete Form 431069 or if the department is not satisfied that the requestor provided adequate and truthful information in Form 431069 or in the documents that the requestor attached to Form 431069.

415.4(3) Personal information and highly restricted personal information, except for an individual's photograph or image, may be disclosed with the express written consent of the vehicle owner to whom such information applies. When the requestor has obtained the written consent of the vehicle owner to whom the information applies, the requestor must attach that written consent to a completed Form 431069 and submit it to the office of vehicle services, along with the statutory fee, if applicable.

415.4(4) An individual may obtain the individual's own motor vehicle record by completing Part A of Form 431069, providing proof of identity by attaching a legible photocopy of the requestor's driver's license or nonoperator's identification card, submitting both to the office of vehicle services, and paying the statutory fee, if applicable.

The terms “title certificate,” “title only” and “title” shall be synonymous with the term “certificate of title.”

“Consumer use” means use of a motor vehicle or travel trailer for business or pleasure, not for sale at retail, by a person who has obtained a certificate of title and has registered the vehicle under Iowa Code chapter 321.

CHAPTER 450
MOTOR VEHICLE EQUIPMENT

[Appeared as Ch 1, Department of Public Safety, 1973 IDR; amended January 1975 IDR Supplement]
[Prior to 6/3/87, Transportation Department[820]—(07,E)Ch 1]

761—450.1(321) Safety standards for motor vehicle equipment. Rescinded IAB 7/10/02, effective 8/14/02.

761—450.2(321) Equipment requirements for specially constructed, reconstructed, street rod, and replica motor vehicles, other than motorcycles and motorized bicycles. The following standards are minimum requirements for constructing and equipping specially constructed, reconstructed, street rod, and replica motor vehicles other than motorcycles and motorized bicycles.

450.2(1) Definitions. The definitions in Iowa Code section 321.1 and rule 761—400.16(321) are hereby made part of this chapter.

450.2(2) Application. As outlined in rule 761—400.16(321), the applicant shall submit the required application forms and exhibits to the county treasurer. The vehicle and ownership documents shall be examined by the department. If the department determines that the motor vehicle complies with this rule, that the integral parts and components have been identified as to ownership, and that the application forms have been completed properly, the department shall assign an identification number to the vehicle and certify that the motor vehicle is eligible for titling and registration. If the frame or unibody specified on an application for a specially constructed, reconstructed, street rod, or replica motor vehicle is designated “not for highway use,” the application shall not be approved. The exchange of compatible body parts does not constitute a specially constructed, reconstructed, street rod, or replica motor vehicle. The removal, addition, or substitution of reconstructed motor vehicle parts modifies the vehicle’s external appearance so that it does not reflect the original make or manufacturer model for that model.

450.2(3) Defroster and defogging device. Every closed motor vehicle shall be equipped with a device capable of defogging or defrosting the windshield area.

450.2(4) Door latches. Every motor vehicle that is equipped with doors leading directly into a compartment that contains one or more seating accommodations shall be equipped with mechanically actuated door latches which firmly and automatically secure the door when pushed closed and which allow each door to be opened from the inside by the actuation of a convenient lever, handle or other nonelectric device. Interior handles must be visible.

450.2(5) Floor pan. Every motor vehicle shall be equipped with a floor pan under the entire passenger-carrying compartment. The floor pan shall support the weight of the number of occupants that the vehicle is designed to carry. The floor pan shall be so constructed that it prevents the entry of exhaust fumes.

450.2(6) Glazing.

a. Windshields. Every motor vehicle shall be equipped with a laminated safety glass windshield that complies with and bears the approval marking of the American National Standards Institute (ANSI) Z 26.1 Standard. The windshield shall be in such a position that it affords continuous horizontal frontal protection to the driver and front seat occupants. The minimum vertical height of the unobstructed windshield glass shall be 6 inches. This paragraph does not preclude the use of a windshield that can be folded down to a horizontal position, provided that the windshield can be firmly fastened in both the vertical and horizontal positions.

b. Side and rear glass. Side and rear glass is not required in motor vehicles. If present, however, this glass must be either laminated or tempered safety glass bearing the approval of the ANSI Z 26.1 Standard.

450.2(7) Driver visibility. Each motor vehicle shall provide the driver with a minimum outward horizontal vision capability of 90 degrees each side of a vertical plane passing through the fore and aft centerline of the vehicle. This plane of vision may be interrupted by window framing and windshield door support posts not exceeding 4 inches in width at each side location.

450.2(8) Hood latches. If a motor vehicle is equipped with a front-opening hood, that hood shall be equipped with a primary and secondary latching system to hold the hood in a closed position.

450.2(9) Instruments and controls. Each motor vehicle shall be equipped with:

- a. An operating speedometer calibrated to indicate “miles per hour.”
- b. An operating odometer calibrated to indicate “total miles driven.”
- c. A steering wheel circular or nearly circular in shape, having an outside diameter of not less than 13 inches.
- d. An accelerator control system that returns the engine throttle to an idle position automatically when the driver removes the actuating force from the accelerator control.

450.2(10) Brakes.

a. Every motor vehicle shall be equipped with brakes acting upon all wheels. The service brakes must be capable of meeting or exceeding the stopping requirements of Iowa Code section 321.431. If necessary, the braking system may be tested by a road test on a public roadway by an officer of the motor vehicle division of the department.

b. Every motor vehicle shall be equipped with a parking brake operating on at least two wheels applied with required effectiveness despite exhaustion of any source of energy or leakage of any kind in the service brake system. The parking brake shall meet the requirements of Iowa Code sections 321.430 and 321.431.

450.2(11) Rearview mirror. Every motor vehicle shall be equipped with two rearview mirrors, each having substantial unit magnification. One shall be mounted on the inside of the vehicle in such a position that it affords the driver a clear view to the rear. The other shall be mounted on the outside of the vehicle on the driver’s side in such a position that it affords the driver a clear view to the rear. When an inside mirror does not give a clear view to the rear, a right-hand outside mirror shall be required in lieu thereof. The mirror mounting shall provide a stable support for the mirror, and shall provide for mirror adjustment by tilting in both horizontal and vertical directions. Each mirror shall have a minimum of 10 square inches of reflective surface.

450.2(12) Seat belts. Every motor vehicle shall be equipped with at least a Type I (lap belt) seat belt for the driver and each passenger seating position. The belts at each location shall comply with DOT Motor Vehicle Safety Standard No. 209, and shall be firmly anchored to the vehicle body.

450.2(13) Seating. All bench-type and individual seats in motor vehicles shall be firmly anchored to structural components or body parts.

450.2(14) Fenders and mud flaps. Rescinded IAB 9/8/10, effective 10/13/10.

450.2(15) Bumpers. Rescinded IAB 9/8/10, effective 10/13/10.

450.2(16) Exhaust system. Every motor vehicle shall have an exhaust system meeting the following requirements:

a. The system shall be free of leaks, including the exhaust manifold (or headers), piping forward of the muffler, the muffler(s), and tail piping.

b. Exhaust fumes shall be emitted to the extremity of the vehicle, behind the rear wheels, or to the extremity of the vehicle within 6 inches in front of the rear wheels. Exhaust fumes from trucks, other than enclosed vans, may be emitted to the rear of that part of the vehicle designed for and normally used for carrying the driver and passengers.

c. Each exhaust system must be equipped with a muffler that prevents excessive noise.

d. No part of the exhaust system shall pass through any area of the vehicle that is used as a passenger-carrying compartment, and shall be so constructed that persons entering the vehicle cannot make contact with the exhaust system.

e. All exterior side exhaust pipes must be fully shielded and any vertical truck exhaust stacks shall be shielded to the top of the cab.

450.2(17) Frame. Every vehicle shall be equipped with a frame consisting of wall box tubing, round tubing, wall channel or unitized construction capable of supporting the vehicle, its load and the torque produced by the power source.

450.2(18) Fuel system. Every motor vehicle shall have a fuel system in which all components are securely fastened with fasteners designed for this purpose, including the tank, tubing, hoses, clamps, etc. The filler from the system shall be located in a position not within the passenger-carrying

compartment, and shall be capped. The system shall be leakproof, and fuel lines shall be positioned so as not to come in contact with high temperature surfaces or moving parts.

450.2(19) *Steering and suspension.*

a. Every motor vehicle shall have no parts extending below the wheel rims in their lowest position, except for tires and electrical grounding devices designed for this purpose.

b. The steering system shall remain unobstructed when turned from lock to lock.

c. The steering wheel shall have no less than two turns and no more than six turns when turning the road wheels from lock to lock.

d. While in a sharp turn at a speed between 5 and 15 MPH, release of the steering wheel shall result in a distinct tendency for the vehicle to increase its turning radius.

e. No motor vehicle shall be constructed so that the weight on any axle is less than 20 percent of the gross weight of the vehicle and load.

f. Motor vehicles shall be equipped with a damping device at each wheel location providing a minimum relative motion between the unsprung axle and the chassis of plus or minus 2 inches.

g. When each corner of the vehicle is depressed and released the damping device shall stop vertical body motion within two cycles.

h. There shall be no heating or welding on coil springs, leaf springs, or torsion bars.

450.2(20) *Tires.* Tires shall comply with Iowa Code section 321.440. Each tire shall have a load-bearing capacity in keeping with the size and weight of the vehicle.

450.2(21) *Lighting and electrical system.* Each motor vehicle shall be equipped with approved lighting devices in sufficient number, type, and locations to meet the requirements of Iowa Code sections 321.384 to 321.423, including headlamps, rear lamps, license plate lamp, rear reflectors, parking lamps, stop lamps, turn signals, and high-low beam indicator. In addition, every motor vehicle shall be equipped with:

a. A driver-controlled switch capable of selecting high and low beams (dimmer switch).

b. A motor vehicle more than 40 inches in width shall be equipped with turn signal lamps and have a manually operated switch controlled by the driver that shall cause the turn signal lamps to function. This switch shall be self-canceling.

c. A horn that shall be electrically actuated, and shall emit a sound clearly audible from a distance of 200 feet. The horn shall be actuated with a switch easily accessible to the driver when operating the vehicle.

d. All wiring shall be done in an orderly and workmanlike fashion, with no wiring in contact with high temperature surfaces or moving parts.

e. Headlamps shall be in a plane that is perpendicular to a vertical plane through the longitudinal centerline of the vehicle. The headlamps shall be mounted not less than 24 inches, nor more than 54 inches, above the road surface when measured to the headlamp center.

f. A tail lamp or lamps shall be mounted on the rear of the motor vehicle or vehicle, exhibiting a red light plainly visible from a distance of 500 feet to the rear. The tail lamp or lamps shall be mounted not less than 15 inches, nor more than 72 inches, above the roadway.

g. All original lamps and lighting equipment provided on the motor vehicle by the manufacturer shall be maintained in working condition or shall be replaced with equivalent equipment.

This rule is intended to implement Iowa Code section 321.23.

[ARC 9048B, IAB 9/8/10, effective 10/13/10]

761—450.3(321) Mud and snow tire. A mud and snow tire is a tire that is designed to provide additional starting, stopping and driving traction in mud and snow. The tread design shall have ribs, lugs, blocks or knobs which are discontinuous and have a minimum separation of one-eighth of an inch between the ribs, lugs, blocks or knobs. A substantial portion of the rib, lug, block or knob edge in the design of the tread shall be at an angle greater than 30 degrees to the periphery centerline. A mud and snow tire must comply with the tire restrictions expressed in Iowa Code section 321.440.

A tire labeled “Mud and Snow” or any contraction using the letters “M” and “S,” such as “MS,” “M/S,” “M-S” or “M & S” shall be considered a mud and snow tire.

A representation of the distinguishing features of a mud and snow tire is pictured below.

This rule is intended to implement Iowa Code subsection 321.236(12).

761—450.4(321) Minimum requirements for constructing and equipping specially constructed or reconstructed motorcycles or motorized bicycles. Minimum requirements for constructing and equipping specially constructed or reconstructed motorcycles or motorized bicycles as defined in Iowa Code section 321.1 are as follows:

450.4(1) Application. As outlined in rule 761—400.16(321), the applicant shall submit the required application forms and exhibits to the county treasurer. The vehicle and ownership documents shall be examined by the department. If the department determines that the motor vehicle complies with this rule, that the integral parts and components have been identified as to ownership, and that the application forms have been completed properly, the department shall assign an identification number to the vehicle and certify that the motor vehicle is eligible for titling and registration. If the frame specified on an application for a specially constructed or reconstructed motorcycle or motorized bicycle is designated “not for highway use,” the application shall not be approved. The exchange of compatible body parts does not constitute a specially constructed or reconstructed motorcycle or motorized bicycle. The removal, addition, or substitution of a reconstructed motorcycle or motorized bicycle part modifies the vehicle’s external appearance so that it does not reflect the original make or manufacturer model. EXEMPTION: The conversion of a manufactured motorcycle from two wheels to three-wheel operation by the addition or substitution of a bolt-on conversion kit shall not constitute a reconstructed motorcycle.

450.4(2) Upgrade pulls—minimum speed. No motor vehicle or combination of vehicles which cannot proceed up a 3 percent grade, on dry concrete pavement, at a minimum speed of 20 miles per hour, shall be operated upon the highways of this state.

450.4(3) Engine. Rescinded IAB 9/8/10, effective 10/13/10.

450.4(4) Frame/chassis. A motorcycle or motorized bicycle frame/chassis, including the suspension components and engine mountings, shall be of sufficient strength, capable of supporting the combined weight of all vehicle components and riders for which the vehicle was designed.

450.4(5) Front end assembly.

a. *Trail (extended fork measured in inches)*. No reconstructed or specially constructed motorcycle or motorized bicycle shall have the front fork so extended as to place the center of the front wheel axle farther than 36 inches from a vertical plane through the steering axis.

b. *Rake (extended fork measured in degrees)*. No reconstructed or specially constructed motorcycle or motorized bicycle shall have the front fork so extended as to exceed a 45-degree angle between the fork assembly and a vertical plane through the steering axis.

c. *Extensions*. No reconstructed or specially constructed motorcycle or motorized bicycle shall be equipped with extension slugs. However, one-piece extension tubes and springer units, if approved, are acceptable.

d. *Wheelbase*. No reconstructed or specially constructed motorcycle or motorized bicycle shall have an overall wheelbase, measured from the center of the front axle to the center of the rear axle, of less than 40 inches.

e. *Motorcycle front end geometry*. A representation of the front end geometry of a motorcycle is depicted in the Appendix to this rule.

450.4(6) Brakes. Every motorcycle and motorized bicycle shall be equipped with at least a rear brake. If the vehicle is also equipped with a front brake, all control cables, lines and hoses shall be located and secured so as not to become pinched between the fork and frame members when the wheel is turned completely to the left or right. Brake-actuating devices shall be in a readily accessible location, unencumbered by vehicle components. A suitable mechanism shall be provided for the purpose of automatically returning the actuating devices to a normal position upon release.

450.4(7) Tires, wheels, rims. Motorcycle tires shall be of pneumatic design with a minimum width of two and twenty-five hundredths inches and designed for highway use. Wheel rim diameters shall not be less than 10 inches and rims shall otherwise comply with applicable federal standards.

b. *Wheel alignment*. The rear wheel of a two-wheel motorcycle or motorized bicycle shall track behind the front wheel within 1 inch with both wheels in a vertical plane when the vehicle is operating on a straight course. On a three-wheel motorcycle or motorized bicycle, the two wheels mounted on the rear axle shall have a wheel track distance not less than 30 inches and the midpoint of the rear wheel track distance shall be within 1 inch of the front wheel track when the vehicle is proceeding on a straight course.

c. *Steering*.

(1) The steering head shall be provided with a bearing or similar device that will allow the steering shaft to turn freely in rotational motion only. All handlebar-mounted control cables, wires, lines and hoses shall be located and secured so as not to become pinched between the fork and frame members when the wheel is turned completely to the right or the left.

(2) A steering wheel may be used on a three-wheel reconstructed or specially constructed motorcycle or motorized bicycle provided:

1. The steering wheel is circular or nearly circular in shape, having an outside diameter of not less than 13 inches.

2. The steering wheel shall have no less than two turns and no more than six turns when the road wheels are turned from lock to lock.

d. *Handlebars*. Handlebars shall be of sturdy construction, adequate in size (length) to provide proper leverage for steering, and capable of withstanding a minimum force of 100 pounds applied to each hand grip in any direction. The handlebars shall provide a minimum distance of 18 inches between grips after final assembly.

e. *Hand grips*. Motorcycles or motorized bicycles shall have handlebars equipped with hand grips of nonslip design or material.

450.4(9) Fuel system. All fuel system components, including the tank, pump, tubing, hoses, clamps, etc., shall be securely fastened to the motorcycle or motorized bicycle so as not to interfere with vehicle operation and be leakproof when the vehicle is in its normal operating attitude. Fuel lines and tank shall be positioned in a manner so as to prevent their contact with the engine head, manifold, exhaust system, or other high temperature surfaces or moving components. The fuel system shall be adequately vented and provided with a fuel shutoff valve located between the fuel supply and the engine.

450.4(10) Exhaust system. Motorcycles or motorized bicycles with an internal combustion engine shall be equipped with an exhaust system incorporating a muffler or other mechanical device for the purpose of reducing engine noise. Cutouts and bypasses in the exhaust system are prohibited. The system shall be leakproof and all components shall be securely attached to the vehicle and located so as not to interfere with the operation of the motorcycle or motorized bicycle. Shielding shall be provided to prevent inadvertent contact with the exhaust system by the operator and/or passenger during normal operations.

450.4(11) Mirrors. Every motorcycle and motorized bicycle shall be equipped with at least one mirror of unit magnification, securely affixed to the handlebar and capable of adjustment within a range that will reflect an image that includes at least the horizon and the road surface to the rear of the motorcycle or motorized bicycle. The mirror shall consist of a minimum reflective surface of 10 square inches. All mirrors shall be regular in shape (circular, oval, rectangular, or square) and shall not contain sharp edges or projections capable of producing injury.

450.4(12) Fenders. Rescinded IAB 9/8/10, effective 10/13/10.

450.4(13) Seat or saddle. A seat or saddle securely attached to the vehicle shall be provided for the use of the operator. The seat or saddle shall not be less than 20 inches above a level road surface when measured to the lowest point on top of the seat or saddle cushion with the driver seated in a driving position. The seat or saddle adjustment locking device shall prevent relative movement of the seat from its selected and secured position under all normal vehicle operating conditions.

450.4(14) Horn. Every motorcycle and motorized bicycle shall be equipped with at least one horn. The horn shall be electrically operated and shall operate from a control device located on the handlebar. When operated the horn shall be audible for at least 200 feet.

Headlamp(s) shall be mounted not less than 24 inches, nor more than 54 inches, above the level road surface. A headlight beam indicator light shall be located within the operator's field of vision and illuminated automatically when the high beam of the headlamp is actuated. Every motorcycle and motorized bicycle shall be equipped with a tail and brake light assembly and a license plate light. All original lamps and lighting equipment provided on the motor vehicle by the manufacturer shall be maintained in working condition or shall be replaced with equivalent equipment.

450.4(17) Footrest. Every motorcycle shall be equipped with two footrests, one on each side of the vehicle and shall be provided for each designated seating position. Footrests shall be located so as to provide reasonable accessibility. Footrests shall be able to fold upward if they protrude beyond the side of the motorcycle's fixed items. Every motorized bicycle shall be equipped with either two footrests or two pedals, one on each side of the vehicle, to provide reasonable accessibility.

761—450.5(321) Rescinded IAB 3/26/97, effective 4/30/97.

761—450.6(321) Safety requirements for the movement of implements of husbandry on a roadway. The following standards are minimum safety requirements for the movement of implements of husbandry on a roadway.

450.6(1) Towing standard. No power unit operated by a retail seller or manufacturer shall tow more than one implement of husbandry, except those implements of husbandry that are not self-propelled and are capable of being towed in tandem, from the manufacturer to the retail seller, from the retail seller to the farm purchaser, or from the manufacturer to the farm purchaser.

450.6(2) Equipment standards.

a. Braking. The towing unit or self-propelled implement of husbandry operated upon a highway shall be equipped with a braking device(s) which can control the movement of and stop the vehicle(s). When the vehicle is traveling 20 miles per hour, the braking device shall be adequate to stop the vehicle or vehicles within 30 feet if the gross weight is less than 5000 pounds and 50 feet if the gross weight is 5000 pounds or more.

b. Rearview mirror. The towing vehicle or self-propelled implement of husbandry shall be equipped with a rearview mirror that reflects to the operator a view of the highway for a distance of at least 200 feet to the rear of the vehicle(s). The rearview mirror equipment standard may be met by the use and installation of a temporary rearview mirror.

c. Lighting. The towing or towed vehicle, the rearmost implement of husbandry being towed in tandem, or a self-propelled implement of husbandry shall be equipped with at least one rear taillight which exhibits a red light plainly visible from a distance of 500 feet to the rear. The rear taillight equipment standard may be met by the use and installation of a temporary rear taillight. If an implement of husbandry is being towed by a vehicle which is equipped with brake lights, the towed unit must also have brake lights, constructed and located on the implement of husbandry so as to give a signal of intention to stop. The light shall be red or yellow in color. The signal shall be plainly visible in normal sunlight and at night from a distance of 100 feet to the rear and may be met by the use and installation of a temporary light.

d. Turn signal. The towing or towed vehicle, the rearmost implement of husbandry being towed in tandem, or a self-propelled implement of husbandry shall be equipped with a turn-signal device that operates in conjunction with or separately from the rear taillight. The signal shall be plainly visible and understandable from a distance of 100 feet to the rear. The turn-signal device equipment standard may be met by the use and installation of a temporary turn-signal device.

e. Tires. Pneumatic tires shall not be used if any part of the ply or cord is exposed; if there is any bump, bulge, or separation; if there is a tread design depth of less than one-sixteenth inch; if there is marking “not for highway use” or “unsafe for highway use.”

f. Warning devices. A towing vehicle or self-propelled implement of husbandry shall be equipped with flares, red reflectors or reflective triangles if operated after sunset and before sunrise.

g. Drawbar. When one vehicle is towing another vehicle, the drawbar shall be of sufficient strength to pull the weight towed and shall be fastened to the frame of the towing unit so as to prevent sidesway. In addition to the principal connection there shall be a safety chain which shall be fastened so it is capable of holding the towed vehicle if the principal connection fails.

This rule is intended to implement Iowa Code section 321.383.

[ARC 3108C, IAB 6/7/17, effective 7/12/17]

761—450.7(321) Front windshields, windows or sidewings.

450.7(1) Prohibition. Pursuant to Iowa Code subsection 321.438(2), a person shall not operate on the highway a motor vehicle equipped with a front windshield, a side window to the immediate right or left of the driver (front side window) or a sidewing forward of and to the left or right of the driver (front sidewing) which is excessively dark or reflective.

450.7(2) *Standard of transparency.* “Excessively dark or reflective” means that the windshield, front side window or front sidewing does not meet a minimum standard of transparency of 70 percent light transmittance.

450.7(3) *Dark window exemption.*

a. Effective July 4, 2012, no exemption shall be granted from the minimum standard of transparency set forth in subrule 450.7(2).

b. A motor vehicle fitted with a front windshield, a front side window or a front sidewing with less than 70 percent but not less than 35 percent light transmittance before July 4, 2012, may continue to be maintained and operated with a front windshield, a front side window or a front sidewing with less than 70 percent but not less than 35 percent light transmittance on or after July 4, 2012, so long as the vehicle continues to be used for the transport of a passenger or operator who obtained Form 432020, which documented a medical need for such reduced transparency, and was signed by the person’s physician before July 4, 2012. Form 432020 must be carried at all times in the vehicle to which the exemption applies. At such time as the vehicle is no longer used for the transport of the passenger or operator who is the subject of Form 432020, the exemption expires and may not be renewed. The owner of the vehicle to which the exemption applied must return the vehicle to conformance with the minimum standard of transparency set forth in subrule 450.7(2) within 60 days of expiration of the exemption.

c. “Physician” as used in this rule means a person licensed under Iowa Code chapter 148, 151 or 154.

500.3(5) Circumstances where weather or transportation problems create an undue hardship for citizens of the state of Iowa.

500.3(6) Circumstances where movement involves emergency-type vehicles.

500.3(7) Uncommon or extraordinary circumstances where the movement is essential to the existence of an Iowa business and the move may be accomplished without causing undue hazard to the safety of the traveling public or undue damage to private or public property.

This rule is intended to implement Iowa Code sections 17A.9A and 326.33.

761—500.4(326) Renewal for IRP registration. Renewal forms for the coming year are prepared automatically and distributed in November to all registrants who maintained an active IRP fleet with Iowa during that year. If the registrant does not receive a renewal application by December 1, the registrant is responsible for informing the office of motor carrier services and for making the necessary arrangements for renewal of the registration. Renewal applications should be submitted to the office of motor carrier services no later than January 1 to ensure adequate time for processing. A renewal is considered timely filed when it is received by the office of motor carrier services or postmarked on or before January 31.

500.4(1) The renewal must include:

a. A completed and signed mileage schedule and vehicle schedule(s).

b. An updated Federal Highway Administration motor carrier identification information report (MCS 150).

c. Necessary title documentation.

d. A schedule of heavy highway vehicles (Form 2290).

500.4(2) Additional renewal procedures.

a. Units being removed from the fleet shall be deleted on the renewal vehicle schedule and the plates, cab cards and stickers must be returned. In lieu of returning the plates, cab cards and stickers, a qualified fleet owner may submit a self-certification of IRP credential destruction to the office of motor carrier services on or before December 31. Registration renewal fees for deleted units shall be assessed unless the self-certification of IRP credential destruction or the plates, cab cards and stickers are received by the office of motor carrier services or postmarked on or before December 31. Operating a vehicle with credentials that were self-certified as destroyed shall result in suspension of the self-certification privilege.

b. Units being stored shall be marked “stored” on the renewal vehicle schedule and the plates, cab cards and stickers must be returned in accordance with rule 761—500.5(321).

This rule is intended to implement Iowa Code sections 326.6, 326.14 and 326.15 as amended by 2004 Iowa Acts, chapter 1013, section 32.

761—500.5(321) Deadline for placing a vehicle in storage. The registrant of a currently registered vehicle may at any time request that a vehicle be put into storage. The registrant must complete a vehicle schedule and return it with the plate, cab card and sticker to the office of motor carrier services. The vehicle schedule, plate, cab card and sticker must be received or postmarked on or before January 31 to stop the registration fee from being assessed for the renewal year. The office of motor carrier services shall destroy the plate and return the cab card to the registrant with the word “stored” stamped on it. Placing the vehicle in storage stops penalties on registration fees. When the vehicle is taken out of storage, the vehicle shall be assessed for the current annual registration fee.

This rule is intended to implement Iowa Code sections 321.126 and 321.134.

761—500.6(321,326) Penalty for late filing of renewal. Renewals postmarked or received in the office of motor carrier services after January 31 are filed late and a 5 percent penalty shall be assessed. An additional 5 percent penalty shall be assessed on the first of each month thereafter until the renewal is filed. The penalty is calculated based on the following:

500.6(1) If the renewal is filed on or before May 19, the penalty shall be calculated on all trailer fees for the current year, on the first half of the Iowa power unit registration fees (both permanent and nonpermanent plated vehicles), and all registration fees due the other jurisdictions.

500.6(2) If the renewal is filed on or after May 20, the penalty shall be calculated on all registration fees due all jurisdictions for the current year only.

This rule is intended to implement Iowa Code sections 321.134 and 326.14.

761—500.7(326) IRP payment methods. A registrant with a good Iowa payment history may pay by cash, check, wire transfer or any other means offered by the department. Payment should be made payable to the Iowa Department of Transportation. All other registrants must submit fees by guaranteed funds. Examples of guaranteed funds are: money order, cashier’s check, certified check or cash.

This rule is intended to implement Iowa Code section 326.10A.

761—500.8(326) IRP plate. Upon payment of appropriate fees, the office of motor carrier services shall issue one IRP nonexpiring plate for each power unit to be mounted on the front of the power unit and one nonexpiring trailer plate to be mounted on the rear of the trailer.

This rule is intended to implement Iowa Code sections 326.14 and 326.17.

761—500.9(326) Fleet additions and temporary authority. A registrant may submit a vehicle schedule to change the fleet operations. A temporary authority may be issued to operate a vehicle(s) for the period of time required to process the vehicle schedule. The temporary authority shall not exceed 60 days. However, at the discretion of the permitting authority, the 60-day temporary authority may be extended if there are extenuating circumstances. Once temporary authority is generated and used, fees shall be due and the invoice may only be canceled if an error was made by the department or there were extenuating circumstances for which nonuse can be proven.

This rule is intended to implement Iowa Code section 326.11 as amended by 2005 Iowa Acts, House File 216, section 41.

761—500.10(326) Fleet deletions. A registrant may remove vehicles from the fleet at any time after the commencement of the registration year or from the second-half invoice. Vehicles shall be deleted on the vehicle schedule, and the plates, cab cards and stickers must be returned to the office of motor carrier services at the time of deletion. In lieu of returning the plates, cab cards and stickers, a qualified fleet owner may submit a self-certification of IRP credential destruction on or before the vehicle(s) deletion date to the office of motor carrier services. Second-half fees for deleted vehicles shall be assessed unless the self-certification of IRP credential destruction or the plates, cab cards and stickers are received by the office of motor carrier services or postmarked on or before June 30. Operating a vehicle with credentials that were self-certified as destroyed shall result in suspension of the self-certification privilege.

This rule is intended to implement Iowa Code sections 326.12 and 326.15 as amended by 2004 Iowa Acts, chapter 1013, section 32.

761—500.11(326) Voluntary cancellation of registration. A registrant may cancel an application for IRP registration (the IRP vehicle schedule) if the registrant notifies the office of motor carrier services within 15 days of the invoice date. The notice shall state the reason for cancellation, the licensing status and ownership and be signed by the registrant or its representative. If notice is not received within 15 days or, if a temporary permit was issued in accordance with 761—500.9(326), all registration fees must be paid in full.

This rule is intended to implement Iowa Code sections 326.6 and 326.11.

761—500.12(326) Policy on registration credit. If a vehicle is deleted from the IRP fleet and replaced with another vehicle, registration credit may be applied to IRP fees due on the replacement vehicle. The vehicle schedule identifying the added and deleted vehicles must be submitted to the office of motor carrier services. The deletion must take place on or before the replacement unit's registration fees are required to be effective by law. In accordance with Iowa Code section 326.12, credit shall not be allowed if the registrant is filing late.

This rule is intended to implement Iowa Code section 326.12.

761—500.13(326) Penalty for late filing of vehicle schedule.

500.13(1) A late filing penalty of 5 percent shall be assessed to the vehicle if a vehicle schedule is not filed within 30 days of:

- a. The purchase of a new or used vehicle;
- b. A vehicle's being brought into Iowa from out of state to be registered; or
- c. A vehicle's being first operated with the exemption allowed under Iowa Code section 321.20A.

500.13(2) The 5 percent penalty is calculated based on the following:

- a. If the vehicle schedule is filed on or before May 19, the penalty shall be calculated on all trailer fees for the current year, on the first half of the Iowa power unit registration fees (both permanent and nonpermanent plated vehicles) and all registration fees due the other jurisdictions.
- b. If the vehicle schedule is filed on or after May 20, the penalty shall be calculated on all registration fees due all jurisdictions for the current year only.

500.13(3) An additional 5 percent penalty shall be assessed on the first of each month thereafter until the vehicle schedule is filed.

500.13(4) The department may collect intrastate registration fees and penalties when registering a delinquent vehicle to bring the vehicle fees current before allowing the IRP registration of the vehicle.

This rule is intended to implement Iowa Code section 326.11.

761—500.14(326) Renewal and vehicle schedule late payment penalty. Payment of current registration year invoices, except second-half invoices, shall be considered late and a 5 percent penalty shall be assessed to all payments not received or postmarked within 30 days of the invoice date or within 30 days of January 31 of that registration year, whichever is later. An additional 5 percent penalty shall be assessed on the first of each month thereafter that the payment has not been received.

500.14(1) The penalty shall be calculated based on the following:

- a. If payment is received on or before May 19, the penalty shall be calculated on all trailer fees for the current year, on the first half of the Iowa power unit registration fees (both permanent and nonpermanent plated vehicles) and all fees due the other jurisdictions.
- b. If payment is received on or after May 20, the penalty shall be calculated on all registration fees due all jurisdictions for the current year only.

500.14(2) An additional 5 percent penalty shall be assessed on the first of each month thereafter that the fees remain unpaid.

This rule is intended to implement Iowa Code section 326.16.

761—500.15(321) Deadline for payment of first-half fee. Iowa-based registrants with motor vehicles that are subject to IRP registration and are eligible to pay registration fees in semiannual installments, pursuant to Iowa Code section 321.134, shall be extended this privilege through May 19 of the current

registration year. On May 20 and thereafter, payments shall be accepted only in the amount of the annual registration fee pursuant to Iowa Code sections 321.105, 321.106 and 321.134.

This rule is intended to implement Iowa Code section 321.134.

761—500.16(321,326) Second-half late payment penalty. Payment of second-half invoices shall be considered late and a 5 percent penalty shall be assessed if payment is not received or postmarked before August 1. An additional 5 percent penalty shall continue to accrue on the first of each month thereafter until the second-half invoice(s) is paid. The penalty is calculated on the total of the second-half invoice.

This rule is intended to implement Iowa Code sections 321.134 and 326.16.

761—500.17(326) Duplicate credentials. The fees for duplicate credentials are as follows:

500.17(1) A replacement cab card is \$3.

500.17(2) A replacement plate including the cab card is \$8. If applicable, a mailing fee will also be assessed.

500.17(3) A validation sticker replacement including the cab card is \$3.50.

This rule is intended to implement Iowa Code section 326.22.

761—500.18(326) Suspension for nonpayment of registration fees. The office of motor carrier services shall send a notice of delinquency to all registrants whose registration fees are 30 days overdue. The notice of delinquency will state that the registrant's IRP registrations shall be suspended unless payment is received within 30 days. When a registrant is under suspension, all of the registrant's Iowa-based IRP vehicles shall be suspended.

This rule is intended to implement Iowa Code section 326.16.

761—500.19(326) Suspension of registration if payment is dishonored by a financial institution. The department may suspend a registrant's registration and plates if the registrant's payment is not honored in accordance with Iowa Code sections 321.101 and 326.10A.

This rule is intended to implement Iowa Code section 326.10A.

761—500.20(326) Making claim for refund. A refund of fees previously paid for the registration of vehicles may be made in accordance with Iowa Code sections 321.126, 321.127, 321.173 and 326.15 as amended by 2004 Iowa Acts, chapter 1013, section 32. A claim for refund on an IRP registered vehicle(s) may be obtained from the office of motor carrier services. In lieu of returning the plates, a qualified fleet owner may submit a self-certification of IRP credential destruction on or before the vehicle's deletion date to the office of motor carrier services.

This rule is intended to implement Iowa Code sections 321.126, 321.127 and 326.15 as amended by 2004 Iowa Acts, chapter 1013, section 32.

761—500.21(326) Registration expiration and enforcement dates. The annual registration of IRP vehicles expires on December 31 at midnight. Credentials for the current year for vehicles being renewed under IRP shall be displayed by 12:01 a.m. on March 15.

This rule is intended to implement Iowa Code section 326.14.

761—500.22(326) Registration of vehicles with non-Iowa titles. Registrants applying for registration for non-Iowa titled vehicles shall submit to the office of motor carrier services with the application or payment as specified in rule 761—500.7(326) either a photocopy of the non-Iowa title or a copy of the title application if the title has not been issued. If a jurisdiction does not issue titles, a photocopy of the bill of sale or a copy of the Canadian registration shall accompany the application or payment.

This rule is intended to implement Iowa Code section 326.45.

761—500.23(326) Record retention.

500.23(1) Record retention requirement and penalty. Iowa IRP registrants shall preserve the records upon which their registration is based as required by the IRP and Iowa Code section 326.19. The department may assess a penalty upon registrants who have failed to maintain proper records.

500.23(2) Mileage records. Mileage records shall be preserved for the current registration year and the three preceding registration years. Mileage summaries must be supported by individual vehicle mileage records to provide an auditable system.

500.23(3) Source documents. Individual vehicle mileage records as specified in the IRP audit guidelines shall be acceptable to verify fleet mileage. The individual vehicle mileage record must include all of the following:

- a. Date of trip (starting and ending dates);
- b. Trip origin and destination;
- c. Routes of travel;
- d. Total trip miles;
- e. Mileage by jurisdiction; and
- f. Unit number or vehicle identification number.

Odometer readings may be substituted for routes of travel if the substitution is approved by the department.

500.23(4) Reaudit and assessment. If an audit determines that a registrant has not maintained adequate mileage records, the following procedures shall apply:

- a. The department shall send an audit report to the registrant, detailing the areas of noncompliance.
- b. After a three-month grace period, the department shall reaudit the registrant's records to monitor improvement. If the registrant's record-keeping system is not in compliance at the time of the reaudit, the department shall assess an audit penalty. The penalty shall equal 20 percent of the registrant's projected full Iowa fees for the registration year audited.
- c. After an initial billing, the registrant shall be subject to periodic reaudits, and penalties may be assessed for up to three full years of subsequent noncompliance, pursuant to the IRP agreement.

This rule is intended to implement Iowa Code sections 326.19 and 326.19A.

761—500.24(326) Trip permits. The registrants may meet the registration requirements of Iowa Code chapter 326 by operating under a trip permit. However, moves that are intrastate or exceed legal dimensions or weight and operate under permit as specified in Iowa Code chapter 321E shall not be allowed. Trip permits may be obtained as follows:

500.24(1) The registrant, permit service or process agent may request trip permits by facsimile, telephone, the Internet or mail from the office of motor carrier services. Such requests shall include the appropriate permit fee remittance. Registrants purchasing trip permits in advance of use may not return unused permits for a refund.

500.24(2) Permits may be purchased directly from truck stops in several locations across the state that have executed a "Trip Permit Agreement." The registrant may obtain a list of participating truck stops by contacting the office of motor carrier services.

This rule is intended to implement Iowa Code sections 326.23 and 326.46.

761—500.25(326) Electronic information. To the greatest extent possible, the office of motor carrier services shall maintain in electronic form all records required under this chapter. The retention period for electronic records must follow the guidelines of the IRP.

500.25(2) Heavy highway vehicle schedule. The office of motor carrier services shall destroy paper copies of the heavy highway vehicle schedule once the electronic record is updated.

500.25(3) MCS 150. The office of motor carrier services shall forward the updated Federal Highway Administration's motor carrier identification information (MCS 150) to the Federal Motor Carrier Safety

Administration office after the update is marked on the electronic record. The office of motor carrier services shall not retain paper copies of this form.

This rule is intended to implement Iowa Code section 326.33.

- g. Uncommon or extraordinary circumstances where the movement is essential to the existence of an Iowa business and the move may be accomplished without causing undue hazard to the safety of the traveling public or undue damage to private or public property.

This rule is intended to implement Iowa Code sections 452A.51 and 452A.56.

761—505.3(452A) General stipulations.

505.3(1) IFTA member requirements. In order to enter this state and not be in violation of Iowa Code section 452A.52, the operator of the qualified motor vehicle based in an IFTA member jurisdiction must do one of the following:

- a. Possess a fuel license pursuant to Iowa Code section 452A.53.
- b. Purchase a temporary fuel permit pursuant to Iowa Code section 452A.53 and subrule 505.3(9) when entering or before entering the state.

505.3(2) Non-IFTA member requirements. The operator of a qualified motor vehicle based in a non-IFTA member jurisdiction must do one of the following:

- a. Possess a fuel license pursuant to Iowa Code section 452A.53.
- b. Purchase a temporary fuel permit pursuant to Iowa Code section 452A.53 and subrule 505.3(9) when entering or before entering the state.
- c. Enter the state with 30 gallons of fuel or less.
- d. Enter the state with only Iowa tax paid fuel.

505.3(3) Determination of fuel supply. To determine if a vehicle has entered the state with more than 30 gallons of fuel, the total of all fuel in all tanks that could be used to fuel the power source of the vehicle shall be considered to reach a total gallonage. The fuel tank connected to a “reefer unit” which can neither be directly nor indirectly connected to the power source of the vehicle shall not be considered in arriving at the 30 gallon total.

505.3(4) Fuel license.

a. A fuel license may be obtained from the office of motor carrier services at a cost of \$10. The application must be complete and include, but not be limited to, the following information:

- (1) Name and address of company, corporation, or owner who operates or controls the qualified motor vehicle(s);
- (2) Name(s) and address(es) of principal or corporate officers;
- (3) Signature and telephone number of contact person; and
- (4) A power of attorney if someone other than an officer or employee of the company will be completing quarterly reports or requesting information from the department.

b. The fuel license remains valid until canceled or revoked. The reporting and computation procedure for a fuel license allows for the payment of taxes due and a refund of any overpayment. All persons holding a valid fuel license must file quarterly reports with the department.

505.3(5) *Number of temporary permits or licenses required.* No vehicle may operate under more than one license or temporary permit at a time.

505.3(6) *Possession of the license or temporary permit.* A license or temporary permit must be carried in the vehicle to meet the requirements of Iowa Code chapter 452A. Several vehicles may be operated and reported under the same license by making a photocopy of the license and carrying it in each vehicle operating under said license. A license, copy of a license or temporary permit is void if altered. A duplicate license may be purchased from the office of motor carrier services for a charge of 50 cents.

505.3(7) *Cancellation and reissuance.*

a. If a qualified motor vehicle operating under a license is consistently operated only within the state or only outside the state, the licensee or the department shall request that the license be canceled for nonuse.

505.3(8) *Bond requirements.*

a. Bonds shall be required in the following situations:

(1) When a previous fuel licensee is reapplying for a fuel license and has two or more outstanding fuel billings due for periods within the three years prior to date of application for a new license;

(2) When a previous fuel licensee is reapplying for a new fuel license and has failed to file two or more reports for a calendar year within the three years prior to date of application for a new license;

(3) When a previous fuel licensee is reapplying for a new license and has filed reports late for two or more reporting periods for a calendar year within the three years prior to date of application for a new fuel license; or

(4) When an audit indicates problems severe enough that a bond is required to protect the interests of member jurisdictions.

b. Bonds required shall be payable to the state of Iowa, in the minimum amount of \$500 or the equivalent to at least twice the estimated average tax liability for the reporting period in which the licensee will be required to file a tax return, whichever is greater.

c. A copy of such bond shall be filed with the office of motor carrier services before a new license shall be issued. The office of motor carrier services shall be notified of bond cancellation 30 days before the cancellation is effective.

505.3(9) *Temporary fuel permits.*

a. A temporary fuel permit may be obtained by any person operating a qualified motor vehicle that is not otherwise covered by a license. The temporary permit may be obtained from the office of motor carrier services at a cost of \$20. The temporary permit may also be obtained from permit services, processing agents or truck stops designated by the department. A designated list of authorized business locations may be obtained from the office of motor carrier services upon request. An application for a temporary permit may be made by phone, facsimile or electronically to the office of motor carrier services. Permittees who purchase temporary fuel permits in advance of use may not return unused permits for refund.

b. The temporary fuel permit is valid for 72 consecutive hours from the date and hour appearing on the temporary permit or upon departure from Iowa, whichever occurs first. A new temporary permit is required in order to reenter the state. While a permittee is operating under a temporary permit, unlimited travel is allowed within Iowa. No refund of tax paid on overpurchases of Iowa fuel is allowed.

c. Application may be made to the office of motor carrier services or at locations designated by the department. Alternate locations designated shall be approved "truck stops" as defined in Iowa Code section 326.23. These truck stops shall obtain prepaid temporary fuel permits at a cost of \$20 each. If a truck stop subsequently ceases to sell temporary permits, the remaining unissued permits may be redeemed at the office of motor carrier services for the same price paid to obtain them. When a

temporary permit is purchased from the truck stop, it shall be issued at a price of \$20 plus any specific cost attributable directly to that purchase. The effective date of a temporary fuel permit shall be the date and hour of purchase from the truck stop.

d. An application for a temporary fuel permit shall include, but is not limited to, the following information:

- (1) The name and address of the person who owns or controls the vehicle;
- (2) The make, year, serial number, license number, and unit number of the vehicle; and
- (3) The address to which the temporary permit is to be sent, if applicable.

e. The temporary permit fee shall also accompany the application unless a method of collection upon delivery is requested.

f. A temporary permit shall not be transferred and is valid only for the carrier and the vehicle that are described on the permit. Once a temporary permit has been issued to a qualified motor vehicle, the purchase price is nonrefundable.

g. The temporary permit must be completed and carried in the qualified motor vehicle for which it is issued.

h. The 72-hour period for which the temporary permit is valid may be extended for “emergencies,” such as extreme weather conditions when travel is not advisable or other instances, at the discretion of the office of motor carrier services.

i. A temporary fuel permit is invalid if the permittee has outstanding IFTA fuel tax bills.

j. Fees for a temporary permit may be paid by cash, company or personal check, or credit card through Vital Chek. At the discretion of the department, a payment procedure may also be established to allow for monthly billing. The following procedures shall apply:

(1) Applicants shall deposit sufficient funds with the permit-issuing authority to guarantee payment of fees for the average number of permits ordered monthly. Deposits may be used to pay outstanding fees due when payment is not received upon billing.

(2) Monthly billings shall be sent to account holders.

(3) All future permit activity may be suspended after written notice of suspension to the account holder when the following requirements are not met:

1. Payment shall be received within 30 days from the date of the billing.

2. All information listed on the account holder’s permit shall match the information listed on the permit-issuing authority’s permit.

(4) Account privileges may be permanently canceled for cause after written notice to the account holder.

(5) Any account holder in good standing may close the account and request return of the deposit. Accounts closed under these circumstances may be reopened.

505.3(10) *Qualified motor vehicles on lease.*

a. Long-term lease. Under normal circumstances the lessee is responsible for reporting all mileage and fuel activity unless otherwise specified by the lease. Supporting documentation including the lease must be made available to confirm the responsibility.

b. Short-term lease. The lessor is responsible for reporting all mileage and fuel activity unless otherwise specified by the lease. Supporting documentation such as a maintenance agreement or lease must be made available to confirm the responsibility.

c. Purchase receipts. Purchase receipts must be made out in the name of the lessor, lessee or cash and must identify the vehicle for which the purchase is made by showing one of the following: vehicle license number, full vehicle identification number (VIN) or fleet unit number.

This rule is intended to implement Iowa Code sections 452A.52, 452A.53, 452A.54, 452A.58 and 452A.68.

761—505.4(452A) Quarterly reports.

505.4(1) *Failure to file.* All valid fuel licensees shall file quarterly reports with the department. If a licensee has not traveled in Iowa, the report shall still be filed. Failure to file is cause for revocation of the license and assessment of a penalty.

505.4(2) Filing deadline. All persons holding a valid fuel license, pursuant to the provisions of Iowa Code section 452A.53, shall file quarterly reports with the department and either remit any tax due no later than the last day of the month following the last day of the quarter covered by the report, or request a refund no later than the last day of the third month following the last day of the quarter covered by the report. If the claim for refund is filed after that date, the refund shall be disallowed.

505.4(3) Reporting multiple vehicles on single license. The licensee shall select which vehicles may be operated under the license. All miles traveled, interstate and intrastate, and all fuel purchased for those vehicles shall be reported on a consistent basis.

505.4(4) Tax refund. Refunds shall be computed separately for each fuel type. If a refund for a fuel type does not exceed \$10, it shall not be processed unless there is more than one type of fuel reported on one return and the combined refunds for all fuel types exceed \$10.

505.4(5) Refunds of tax on fuel purchased in Iowa and consumed out of Iowa. Even though fuel is purchased in Iowa, fuel tax is paid in Iowa, and the excess fuel tax paid is subject to refund under the provisions of Iowa Code chapter 452A, division III, relating to interstate motor vehicle operation, the refund is not subject to state sales tax.

505.4(6) Timely filing of report.

a. The interstate fuel tax report required under Iowa Code section 452A.54 shall be deemed timely filed if received in the office of motor carrier services or postpaid, properly addressed, and postmarked by the United States Postal Service on or before midnight of the filing deadline. If the filing date falls on a Saturday, Sunday, or legal holiday, the next secular or business day shall be the filing deadline.

b. All reports and remittances shall be either mailed to the Office of Motor Carrier Services, Iowa Department of Transportation, P.O. Box 10382, Des Moines, Iowa 50306-0382; delivered in person to 6310 SE Convenience Blvd., Ankeny, Iowa; or sent by facsimile to (515)237-3257.

c. If a report or remittance is not received by the department and the taxpayer can prove by competent evidence that the return or remittance was timely filed, the report shall be considered timely filed. For the purpose of this rule, competent evidence means evidence in addition to the testimony of the sender sufficient or adequate to prove that the document was mailed on a specific date.

505.4(7) Extension of time to file. The department may grant an extension for the filing of any required report or tax payment. In order for an extension to be granted, the application requesting such extension must be filed with the department prior to the due date of the report or remittance. In determining whether an application for extension is timely filed, the provisions of subrules 505.4(2) and 505.4(6) shall apply. The application for extension shall be accompanied by an explanation of the circumstances justifying an extension. Any extension granted shall be documented on a form issued by the department indicating the length of the extension. This form shall be attached to the report when it is filed. If an extension is granted, the penalties under Iowa Code section 452A.65 applicable to a late-filed report or remittance shall not accrue until the expiration of the extension period.

505.4(8) Penalties.

a. A penalty of \$50 or 10 percent of the total tax due, whichever is greater, shall be assessed against the taxpayer if the report is not filed by the due date in accordance with subrule 505.4(6).

b. If the quarterly report shows no taxes owed or a refund due, the penalty for filing a report after the due date is \$50.

505.4(9) Reserved.

505.4(10) Interest. Interest at the rate established pursuant to Iowa Code chapter 421 shall be assessed against the taxpayer for each month the tax remains unpaid. The interest shall accrue from the date the return was required to be filed. Interest shall not apply to any penalty. Each fraction of a month shall be considered a full month for the computation of interest.

505.4(11) Application of remittance. All payments shall be first applied to the interest, then to the penalty and then the balance, if any, on the amount of tax then due.

If a taxpayer remits a payment on or before the due date, but the payment is insufficient to discharge the tax liability, the entire amount of such payment shall apply to the tax. Any penalty or interest subsequently assessed shall be based on the unpaid portion of the tax.

If the department determines there is additional tax due from a taxpayer, interest and penalty shall accrue on that amount from the date the tax should have been reported and paid.

505.4(12) Reports, records and variations. The department shall prescribe and furnish all forms upon which reports, claims for refund, temporary permits, and license applications shall be made under Iowa Code chapter 452A, division III.

a. If the information required in these documents is presented to the department on forms or in a manner other than on the prescribed form, the report, application or claim shall not be deemed “filed.”

b. The fact that the reporting party does not have the prescribed form shall not be an acceptable reason for failure to file. The office of motor carrier services may be contacted to request copies of any forms needed.

505.4(13) Estimating gallonage.

a. In the event the taxpayer’s records are lacking or inadequate to support any report filed or to determine the tax liability, the department shall have the power to estimate the gallonage upon which tax is due. This estimation shall be based upon such factors as, but not limited to, the following:

- (1) Prior experience of the taxpayer,
- (2) Taxpayers in similar situations,
- (3) Industry averages,
- (4) Records of suppliers or customers, or
- (5) Such other pertinent information as the department may possess, obtain or examine.

b. The findings of the department as to the amount of fuel taxes due from any person shall be presumed to be the correct amount and in any litigation which may follow, the certificate of the department shall be admitted in evidence, shall be considered to be true and accurate unless shown otherwise by an objecting party and shall impose upon the other party the burden of showing any error in the department’s finding and the extent thereof, or showing that the finding was contrary to law.

505.4(14) Information confidential. Iowa Code section 452A.63, which makes all information obtained from reports or records required to be filed or kept under Iowa Code chapter 452A confidential, applies generally to the director, auditors, agents, officers, or other employees of the department. However, any person having acquired information disclosed in a taxpayer’s filed report shall be bound by the same rules of confidentiality. The information may only be divulged to the appropriate public officials enumerated in Iowa Code section 452A.63.

505.4(15) Taxes erroneously or illegally collected. Any licensee shall be entitled to a refund of taxes, penalties, or interest erroneously or illegally collected by the department or as a result of a computation error. The claim must be filed within a year of payment and accompanied by evidence to support the claim. If the request for refund includes the return of penalties or interest, the interest or penalties shall be refunded in the same proportion as the tax.

505.4(16) Supplemental billings. The amount due is payable upon being billed by the office of motor carrier services. Billings shall be generated by the department for the collection of additional amounts due in the following circumstances:

- a.* Penalties are assessed under the provisions of subrule 505.4(8).
- b.* Interest is assessed under the provisions of subrule 505.4(10).
- c.* An error in the computation on the front of the report results in additional tax due.
- d.* There is a failure to remit payment for part or all of the tax due with the filed report.
- e.* Payment is remitted and subsequently not honored.
- f.* Taxes, penalties or interest are assessed as the result of an audit.

This rule is intended to implement Iowa Code sections 452A.54, 452A.55, 452A.60, 452A.61, 452A.63, 452A.64, and 452A.65.

761—505.5(452A) Audits—required reports.

505.5(1) Delegation to audit and examine. Pursuant to Iowa Code sections 452A.53, 452A.55, and 452A.62, the department reserves the right to examine returns and records, perform audits and determine the correct amount of tax due.

505.5(2) Statute of limitations. Within three years after a return is filed, the department may audit the return to determine the accuracy of taxes paid. There is no time limitation on collection activities for any tax, penalty or interest due the department.

505.5(3) Outstanding tax, penalty, or interest for canceled and inactive licenses. Any outstanding taxes, penalties, or interest must be paid before reapplying for a fuel license.

505.5(4) Audit period—records—costs. The statute of limitations on the determination of any additional tax liability shall be three years after a return is filed; therefore, all records must be kept for four years after a return is filed.

a. For the purpose of verifying the correctness of a return filed or for estimating the tax liability of any taxpayer, the department shall:

(1) Have the right and duty to examine or cause to be examined the books, papers, records, memoranda, or documents of a taxpayer which relate in any manner to fuel taxes.

(2) Have the authority to require, at a hearing, the attendance of the taxpayer and other witness and the production of books, papers, records, memoranda or documents.

b. The cost of an audit shall be at the taxpayer's expense when the records are maintained outside the state of Iowa.

505.5(5) Taxpayers required to keep records. The records required to be kept by this rule shall be preserved for a period of four years after a return is filed unless otherwise stated and shall be open for examination by the department during this period of time. A licensee shall retain invoices or other proofs of purchase which meet the requirements of subrule 505.5(6). The fact that the tax has been paid shall appear on the proof of purchase.

505.5(6) Records to be kept and preserved.

a. Every person required to file a quarterly report under Iowa Code section 452A.54 shall keep and preserve the following records:

(1) Fuel purchase invoices or documentation of fuel withdrawn from bulk storage.

(2) Trip sheets or other documentation of mileage activity.

b. Whenever an invoice is required to be kept or prepared by Iowa Code chapter 452A or these rules, the following shall be the minimal requirements which must be complied with:

(1) It must include the seller's name and address.

(2) It must include the purchaser's name and address.

(3) It must contain a vehicle serial number, fleet unit number or vehicle license number.

(4) It must include the calendar date of purchase.

(5) It must indicate the type of fuel purchased.

(6) It must indicate the quantity of fuel purchased.

(7) It must indicate the total purchase price.

(8) If the purchase is special fuel, the fact that the fuel tax is included in the purchase price must be indicated.

c. Whenever an invoice is required to be kept under Iowa Code chapter 452A or these rules, the original or duplicate copy must be kept. If the original or duplicate copy is lost or destroyed, a copy, certified by the seller as being a true copy of the original, shall be acceptable.

d. A copy of any invoice, which is required to be kept by the purchaser, must be kept by the seller for the same period of time.

e. Credit card invoices are acceptable if they meet all the requirements listed in paragraphs 505.5(6) "b," "c," and "d" above.

505.5(7) New licensees. When a person is issued a new license, the department may, within one year of issuance of the license, audit the records of the new licensee for a period going back two years from the date of issuance.

505.5(8) Nonlicense and nonpermit holders. All persons who bring into the state a qualified motor vehicle, upon which the Iowa tax on said fuel has not been paid, are operating within the purview of these rules as stated in Iowa Code section 452A.55. They are therefore subject to audit and must keep the same records required of a fuel licensee.

505.5(9) Interstate—intrastate operators—motor vehicle special fuel holding tanks. If a person operates one or more qualified motor vehicles under a fuel license and also operates one or more qualified motor vehicles which are not operated under the fuel license, record keeping regarding the fuel consumed from the special holding tank may be performed in either of the following ways:

a. Operators of interstate vehicles shall be given an invoice that meets the standards set forth in Iowa Code section 452A.17, subsection 3, for each tank fill, and the vehicle operator must then log the mileage; or

b. The licensee shall report total miles driven and total fuel used from the bulk tank, including both interstate and intrastate vehicles.

This rule is intended to implement Iowa Code sections 452A.53, 452A.55, 452A.60, 452A.62, and 452A.69.

761—505.6(452A) Hearings.

505.6(1) Conduct of hearings. Hearings are conducted in accordance with Iowa Code section 452A.69.

505.6(2) Circumstances for holding hearings.

a. When there is reasonable cause to believe that there is an evasion of fuel taxes, the department may cause a hearing to be held to determine the amount of fuel taxes due, if any. The person who is suspected of evading fuel taxes shall be sent at least ten days' notice of the hearing. The provisions of Iowa Code section 452A.64 and subrule 505.4(13), paragraph "b," shall apply.

b. If a licensee disputes the findings of an investigation or audit by the department, the licensee may request a hearing to present further evidence, information or records to support the claim. The written request for hearing shall be directed to the attention of the director of the office of motor carrier services within 30 days of the date of notice of audit results issued by the department.

This rule is intended to implement Iowa Code sections 452A.64 and 452A.69.

CHAPTER 511
SPECIAL PERMITS FOR OPERATION AND MOVEMENT OF
VEHICLES AND LOADS OF EXCESS SIZE AND WEIGHT

[Appeared as Ch 2, Highway Commission, 1973 IDR; amended in July 1974 and January and July 1975 Supplements]

[Previously numbered as (07,E) Ch 12, transferred at the request of the department on 10/8/75]

[Prior to 6/3/87, Transportation Department[820]—(07,F) Ch 2]

761—511.1(321E) Definitions. As used in this chapter, unless the context otherwise requires:

“*Compacted rubbish vehicle*” means any vehicle hauling rubbish that has been mechanically compacted with a hydraulic, electric, or air-operated ram.

“*Department*” means the Iowa department of transportation.

“*Dimensions*” or “*size*” means length, width or height limits.

“*Indivisible load*” means any load or vehicle exceeding applicable length or weight limits which, if separated into smaller loads or vehicles, would:

1. Compromise the intended use of the vehicle, i.e., make it unable to perform the function for which it was intended;
2. Destroy the value of the load or vehicle, i.e., make it unusable for its intended purpose; or
3. Require more than eight work hours to dismantle using appropriate equipment. The applicant for an indivisible load permit has the burden of proof as to the number of work hours required to dismantle the load.

“*Overdimensional*” or “*oversize*” means the exceeding of statutory length, width or height limits.

“*Permit*” means a permit issued under Iowa Code chapter 321E for the movement of an overdimensional or overweight vehicle, combination of vehicles, or vehicle with load. The term includes any additions or supplements thereto issued by the permit-issuing authority.

“*Permit-issuing authority*” means the:

1. Department’s office of vehicle and motor carrier services for permits for movement on the primary road system.
2. Authority responsible for the maintenance of a nonprimary system of highways or streets for permits for movement on that system. However, the office of vehicle and motor carrier services may issue single-trip permits on primary road extensions in cities in conjunction with movement on the rural primary road system.

“*Primary roads*” or “*primary road system*” is defined in Iowa Code section 306.3. The primary road system includes the interstate road system.

“*Rubbish*” means any unwanted or useless material that has no commercial or practical value or use and that would normally be discarded.

“*Special or emergency situation*” means one or more of the following:

1. Circumstances where the movement is necessary to cooperate with cities, counties, other state agencies or other states in response to a national or other disaster.
2. Circumstances where the movement is necessary to cooperate with national defense officials.
3. Circumstances where the movement is necessary to cooperate with public or private utilities in order to maintain their public services.
4. Circumstances where the movement is essential to ensure safety and protection of any person or property due to an event such as, but not limited to, pollution of natural resources, a potential fire or an explosion.
5. Circumstances where weather or transportation problems create an undue hardship for citizens of the state of Iowa.
6. Circumstances where the movement involves emergency-type vehicles.
7. Uncommon or extraordinary circumstances where the movement is essential to the existence of an Iowa business and the move may be accomplished without causing undue hazards to the safety of the traveling public or undue damage to private or public property.
8. Other unique circumstances that warrant the issuance of a permit as determined by the permit-issuing authority.

“Statutory” when used with size or weight limits refers to those limits found in Iowa Code chapter 321.

This rule is intended to implement Iowa Code sections 321E.9, 321E.15, 321E.29, 321E.30 and 321E.34.

[ARC 3193C, IAB 7/5/17, effective 8/9/17]

761—511.2(321E) Location and general information.

511.2(1) Applications, forms, instructions and restrictions are available on the department’s website at www.iowadot.gov and by mail from the Office of Vehicle and Motor Carrier Services, Iowa Department of Transportation, P.O. Box 10382, Des Moines, Iowa 50306-0382; in person at 6310 SE Convenience Blvd., Ankeny, Iowa; by telephone at (515)237-3264; or by facsimile at (515)237-3257. Permits may be obtained electronically upon making application to the office of vehicle and motor carrier services.

511.2(2) No overdimensional or overweight vehicle, combination of vehicles, or vehicle with load shall be moved on the highways of this state without permit except as provided in Iowa Code section 321.453.

511.2(3) Rescinded IAB 2/7/01, effective 3/14/01.

511.2(4) Except as provided in subrule 511.7(6) and rule 761—511.14(321,321E), permits may be issued only for the transporting of a single article which exceeds statutory size or weight limits or both, and which cannot reasonably be divided or reduced to statutory size and weight limits. However, permits may be issued for the transporting of property consisting of more than one article when:

- a. The statutory weight limits are not exceeded,
- b. One of the articles exceeds the statutory size limits, and
- c. The inclusion of other articles does not cause the statutory size limits to be exceeded by an additional amount.

511.2(5) Nothing in the permit shall be construed as waiving any load limits which have been or which might be established on any bridge or any road which is posted with embargo signs, unless specifically stated on the permit.

511.2(6) The state of Iowa, the department, and any other permit-issuing authority assume no responsibility for the property of the permit holder. Permit holders shall hold permit-issuing authorities harmless of any damages that may be sustained by the traveling public, adjacent property owners or the highways of this state on account of movements made under permit.

This rule is intended to implement Iowa Code sections 17A.3 and 321E.2.

[ARC 3193C, IAB 7/5/17, effective 8/9/17]

761—511.3(321E) Movement under permit.

511.3(1) During the movement of a vehicle or object under permit, the permit holder shall comply with the terms and conditions of the permit and shall take all reasonable precautions to protect and safeguard the lives and property of the traveling public and adjacent property owners.

511.3(2) Movement shall be made only when roads are clear of ice and snow and visibility is at least one-quarter mile. Snow removal equipment operating under permit is exempt from this restriction while snow removal operations are conducted. EXCEPTION: Nothing in this subrule shall be construed to mean that the movement of a compacted rubbish vehicle permitted under rule 761—511.11(321E) shall be subject to this restriction.

511.3(3) Movement shall be permitted only during the hours from one-half hour before sunrise to one-half hour after sunset unless it is established by the permit-issuing authority that the movement can be better accomplished at another period of time because of traffic volume conditions.

511.3(4) Except as provided in Iowa Code section 321.457, no movement shall be permitted on the holidays of Memorial Day, Independence Day and Labor Day, after 12 noon on days preceding these holidays and holiday weekends, during holiday weekends, or during special events when abnormally high traffic volumes can be expected. A holiday weekend occurs when the holiday falls on Friday, Saturday, Sunday or Monday. No movement shall be permitted until one-half hour before sunrise on the day after the holiday or holiday weekend.

511.3(5) Continuous moves. Vehicles and loads may travel by permit between one-half hour after sunset and one-half hour before sunrise if, in addition to the general provisions and general requirements specified by the permit, the following conditions are met.

- a. Dimensions shall not exceed:
 - (1) Width. 11 feet.
 - (2) Height. 14 feet, 6 inches.
 - (3) Length. 100 feet.
 - (4) Weight. Legal axle limits.
- b. Travel must be on roadways with a minimum width of 22 feet and minimum lane width of 11 feet.
- c. Safety lighting shall be provided at the widest part of a load. The lamps may be placed at the outer ends of the load itself or on appurtenances which are equal in width to the widest part of the load and positioned at both the extreme front and rear of the vehicle or trailer as follows:
 - (1) One lighted red lamp on each side at the rear of the load.
 - (2) One lighted yellow or amber lamp on each side at the front of the load.

This rule is intended to implement Iowa Code sections 321E.2 and 321E.11.

761—511.18(321) Movement of combination vehicles on economic export corridors.**511.18(1) Designation of economic export corridors.**

a. The department may in its discretion establish economic export corridors for the transportation of goods or products manufactured in Iowa to or through the state of South Dakota and for the return of unladen semitrailers or unladen full trailers used for the transportation of those goods or products. An economic export corridor shall not include any segment of the interstate system or any part of the national network of highways identified pursuant to 23 CFR Part 658. However, if appropriate, the department may petition the Federal Highway Administration to remove a road or road segment from the national network of highways for the purpose of including it in an economic export corridor.

b. The department may initiate designation of economic export corridors, or a request for economic export corridor designation may be submitted to the department by an interested party. If a proposed economic export corridor includes any roads or road segments that are under the jurisdiction of a city or a county, a resolution from all relevant local jurisdictions must be submitted to the department indicating their support for economic export corridor designation. The resolution must include a description of the proposed economic export corridor under local jurisdiction.

c. The department shall exercise due regard for the safety of the traveling public and the protection of the highway surfaces and structures when establishing an economic export corridor. Factors to be considered include ability of the proposed economic export corridor to safely accommodate combinations of vehicles described in subrule 511.18(2), taking into account physical configurations and restrictions and traffic demands and capacity, as well as connection to markets that will benefit from the established economic export corridor.

d. The department will post established economic export corridors on the department's Web site.

511.18(2) Combination vehicles that may be operated on an economic export corridor.

a. In addition to combinations of vehicles lawful for operation on roads or road segments not designated as an economic export corridor, the following combinations of vehicles may be operated on an economic export corridor designated under subrule 511.18(1) if the combinations of vehicles meet the requirements in paragraph 511.18(2) "b":

(1) A truck tractor-semi-trailer-semi-trailer converted to a full trailer by use of a dolly equipped with a fifth wheel which is considered a part of the trailer for all purposes, and not a separate unit; or

(2) A truck tractor-semi-trailer-full trailer; or

(3) A truck tractor-semi-trailer-semi-trailer combination, where the semi-trailers are connected by a rigid frame extension including a fifth wheel connection point attached to the rear frame of the first semi-trailer.

b. The combination of vehicles shall meet all of the following requirements:

(1) The length of the combination of vehicles, excluding the length of the truck tractor, shall not exceed 81½ feet.

(2) The length of either semi-trailer or full trailer shall not exceed 45 feet.

(3) The weight of the second semi-trailer or full trailer shall not exceed the weight of the first semi-trailer by more than 3,000 pounds.

(4) The gross weight of the combination of vehicles shall not exceed 80,000 pounds and the combination of vehicles shall not exceed the gross axle weight limits of Iowa Code section 321.463(2).

(5) The load on each semi-trailer or full trailer in the combination shall be an indivisible load. For the purpose of issuing permits for height or width under Iowa Code chapter 321E, the combination of

vehicles shall be considered an indivisible load so long as the load on each semitrailer or full trailer in the combination remains an indivisible load.

c. The length of the frame extension shall not be included when determining the overall length of the first semitrailer in a truck tractor-semi-trailer-semi-trailer combination in which the semi-trailers are connected by a rigid frame extension including a fifth wheel connection point attached to the rear frame of the first semitrailer.

d. For purposes of this subrule, “full trailer” means as defined in 49 CFR Section 390.5.

This rule is intended to implement Iowa Code section 321.457(2) “n.”

b. The department shall be given written notice 30 days prior to the cancellation of the insurance or the surety bond.

524.7(2) Self-insurance. The written request shall include a copy of the federal agency's approval. The department shall allow self-insurance as long as a federal agency has approved the carrier to self-insure and the motor carrier provides the department with copies of any information required by that federal agency. carrier services. The written request shall include a copy of the most recent audited financial statement and a vehicle list.

524.8(2) *Review by the department.* The department may request additional information. The department shall deny the request to self-insure or suspend existing approval if the motor carrier fails to meet the self-insurance standard. Approval of self-insurance is continuous. However, the motor carrier shall annually file audited financial statements with the office of vehicle and motor carrier services within 60 days after the end of the motor carrier's fiscal year.

524.8(3) *Cancellation of self-insurance approval.* The department may cancel approval of self-insurance on reasonable grounds. Reasonable grounds include, but are not limited to, the following: failure to pay a final judgment within 30 days or failure to file an annual, audited financial statement. The department shall give five days' notice to the motor carrier prior to any hearing to cancel approval of self-insurance.

[ARC 4346C, IAB 3/13/19, effective 4/17/19]

524.11(1) *Requirement.* Motor carriers of bulk liquid commodities (nondairy) and passengers shall attend an approved safety education seminar within six months of issuance of the permit or certificate except as provided in subrule 524.11(4). The individuals in attendance shall be the persons responsible for the safety records and driver training. Failure to attend an approved safety education seminar within the time provided shall result in suspension of the motor carrier permit or certificate.

524.11(2) *Availability.* The department shall provide an approved safety education seminar periodically. Information on the seminar schedule is available by mail from the Office of Vehicle and Motor Carrier Services, Iowa Department of Transportation, P.O. Box 10382, Des Moines, Iowa 50306-0382; in person at 6310 SE Convenience Blvd., Ankeny, Iowa; or by telephone at (515)237-3268.

524.11(4) Exemption. Passenger carriers with vehicles not meeting the definition of a commercial vehicle as defined in Iowa Code section 321.1 are exempt from attending the safety education seminar and paying the seminar fee. A motor carrier certificate issued for such a carrier contains the statement: "limited to noncommercial vehicles only." If a motor carrier wishes to start operating vehicles that meet the definition of a commercial motor vehicle, the motor carrier must update its authority with the office of vehicle and motor carrier services. A motor carrier must pay the seminar fee and attend the seminar within six months of updating the certificate. A new motor carrier certificate removing the limitation would then be issued.

b. The original power of attorney shall be filed with the office of vehicle and motor carrier services and a copy sent to the agent or motor carrier of household goods on whose behalf the document was issued.

c. Whenever a motor carrier of household goods desires to cancel the authority granted an agent or another motor carrier of household goods by power of attorney, this may be done by a letter addressed to the department revoking the authority on 60 days' notice. For good cause, the department may authorize less than 60 days' notice. Copies of the notice must also be mailed to all interested parties by the motor carrier.

524.15(12) Nonconforming tariffs. The office of vehicle and motor carrier services shall review tariffs that do not conform with subrules 524.15(1) to 524.15(11) to determine if the tariffs contain the necessary information and are acceptable. Tariffs that are unacceptable shall be returned with an explanation.

The suspension or revocation shall continue until the motor carrier is no longer in violation and the reinstatement fee is paid. A new permit or certificate shall be issued upon reinstatement.

761—524.18(325A) Hearings. The certificate of coverage shall also certify that the coverage therein is not dependent on the insurer of a transportation network company driver's personal vehicle first denying a claim, and does not require the insurer of a personal automobile insurance policy to first deny a claim to trigger coverage and defense under the coverage certified.

b. Proof that the transportation network company has established a zero tolerance policy for the use of drugs and alcohol as provided in Iowa Code section 321N.3(5). The transportation network company shall provide a written copy of the applicable policy and an explanation of the manner or means by which the policy is made known to transportation network company drivers and the manner or means by which the policy is enforced.

c. Proof that the transportation network company has adopted and is enforcing nondiscrimination and accessibility policies. As used herein, "nondiscrimination policy" means a policy that prohibits discrimination against transportation network company riders on the basis of race, age, disability, religion, color, sex, or national origin. "Accessibility policy" means a policy that prohibits discrimination against and assures equal opportunity and access to transportation network company riders who are persons with disabilities under the Americans with Disabilities Act of 1990 (ADA) as amended by the ADA Amendments Act of 2008 (P.L. 110-325) codified at 42 U.S.C. 12101 et. seq. d. Proof that the transportation network company has established record retention guidelines that comply with the requirements of Iowa Code section 321N.2(2). The transportation network company shall provide a written copy of the applicable policy and an explanation of the manner or means by which the policy is made known to the designated records retention officer or responsible staff and the manner or means by which the policy is enforced.

Proof that the transportation network company has established a means for informing persons seeking approval to serve as transportation network company drivers of their notification obligations under Iowa Code section 321N.3(2). The transportation network company shall provide a copy of the disclosure form used by the transportation network company to inform such persons of the notification obligations under Iowa Code section 321N.3(2) and an explanation of the manner or means by which the disclosure form is made known to and signed by such persons.

f. The transportation network company shall provide a copy of the written disclosure used by the transportation network company and an explanation of the manner or means by which the written disclosure is made known to transportation network company drivers.

g. Proof that the transportation network company has established a means for making the driver and vehicle disclosures required by Iowa Code section 321N.7 to transportation network company riders. h. Proof that the transportation network company has established a means for transmitting an electronic receipt to transportation network company riders as required by Iowa Code section 321N.8.

The transportation network company shall include a sample, representative receipt and an explanation of the manner or means by which the receipt is delivered and the time frame within which the receipt is delivered.

761—540.5(321N) Issuance of permit. A transportation network company shall not operate or conduct business in the state of Iowa without a valid permit issued under this chapter. Upon submission of a completed application package as set forth in rule 761—540.4(321N), the department shall process the package and shall inform the transportation network company of the package's status no later than 30 days after the department receives the package. Application package statuses for the purpose of this rule are as follows: "in process," "granted," and "denied." If the department informs a transportation network company that the application is "in process," then the department shall also inform the transportation network company of the reason for the status. If the department determines that the transportation network company is in compliance with the provisions of Iowa Code chapter 321N and this chapter, the department shall issue a permit to the transportation network company. A permit, when issued, shall be valid for one year. The department may deny issuance of the permit if the department determines, and evidence demonstrates, that the transportation network company is not in compliance or is not able to comply with the provisions of Iowa Code chapter 321N or this chapter.

[ARC 2987C, IAB 3/15/17, effective 4/19/17]

761—540.6(321N) Amendment to transportation network company permit. If during the period the permit is valid any information required and presented in the application under paragraph 540.4(1) "a," "b," "c," "f," "g" or "i" changes, the transportation network company shall notify the office of vehicle and motor carrier services of the change in writing, within 30 days after the change. Notification shall include the permit number and a recitation of the information that has changed and that should be updated in the department's records. Submission of amended information is not a request for a new permit or for permit approval and shall not extend the period the permit is valid. Upon determination that the information submitted is complete and correct, the department shall update its records and issue an amended permit, if the department determines it is necessary.

[ARC 2987C, IAB 3/15/17, effective 4/19/17]

761—540.7(321N) Suspension. If the department determines that the transportation network company has violated Iowa Code chapter 321N or this chapter and the violation is more than an isolated event and remains uncorrected, the department shall issue to the transportation network company a written notice of the violation. The written notice shall specify the violation and shall advise the transportation network company that failure to remedy the violation and to comply with the applicable requirements within 30 days shall result in the issuance of a written notice of suspension of the permit and the privilege to operate or conduct business as a transportation network company in the state of Iowa. If the transportation network company fails to remedy the violation within 30 days, the department shall issue to the transportation network company a written notice of suspension of the permit and the privilege to operate or conduct business as a transportation network company in the state of Iowa, which shall be effective 30 days after service of the written notice of suspension. Once effective, the suspension shall remain in effect until the transportation network company demonstrates to the department that it is in compliance with the applicable requirements or the permit is revoked or expires, whichever occurs first.

[ARC 2987C, IAB 3/15/17, effective 4/19/17]

761—540.8(321N) Revocation. If the department determines that the transportation network company is in continued noncompliance with Iowa Code chapter 321N or this chapter, the department shall revoke the transportation network company's permit and the privilege to operate or conduct business as a transportation network company in the state of Iowa. Notice of revocation shall be in writing, shall

specify the continued noncompliance, and shall be effective 30 days after service of the written notice of revocation. The period of revocation shall be for at least 90 days, and shall continue thereafter until the following criteria are satisfied: (1) The transportation network company submits a new application, application fee, and supporting documents under rule 761—540.4(321N), and (2) the department determines a new permit should be issued, pursuant to rule 761—540.5(321N). As used in this rule, “continued noncompliance” means a violation of Iowa Code chapter 321N or this chapter for which a notice of suspension has become effective and has remained in effect for a period of at least 180 days. [ARC 2987C, IAB 3/15/17, effective 4/19/17]

761—540.9(321N) Appeal.

540.9(1) A transportation network company whose permit has been suspended, revoked, or denied may request an informal settlement or a contested case proceeding as provided in 761—Chapter 13 to contest said action.

540.9(2) The request shall be submitted in writing, to the director of the office of vehicle and motor carrier services, at the address indicated in subrule 540.3(1), and may be submitted electronically by facsimile, e-mail or other means prescribed by the department. To be timely, the request must be submitted within 20 days of service of the notice of suspension, revocation, or denial. Failure to contest denial of a permit application does not preclude the transportation network company from submitting a new application for a permit at any time after the denial.

540.9(3) When the department receives a properly submitted, timely request for an informal settlement or contested case proceeding or an appeal of a presiding officer’s proposed decision regarding a suspension or revocation, the department shall stay the suspension or revocation pending resolution of the informal resolution, contested case, or appeal.

[ARC 2987C, IAB 3/15/17, effective 4/19/17]

761—540.10(321N) Renewal.

540.10(1) A transportation network company that has been issued and holds a valid permit may renew the permit by submitting, at minimum, the following: (1) the application, (2) the application fee and (3) the supporting documents as set forth in rule 761—540.4(321N). The application for renewal must be submitted no more than 60 days before the expiration date of the existing permit and no fewer than 30 days before the expiration date of the existing permit.

540.10(2) Pursuant to Iowa Code section 17A.18(2), when a transportation network company has made a timely and sufficient application for the renewal of a valid permit, the existing permit does not expire until the application has been finally determined by the department, and, in case the application is denied or the terms of the new permit are limited, until the last day for seeking judicial review of the department’s order or a later date fixed by order of the department or the reviewing court.

540.10(3) If the application for renewal is submitted fewer than 30 days before the expiration date of the existing permit, then the application shall be considered a new application and Iowa Code section 17A.18(2) shall not apply. If a transportation network company does not file a renewal application pursuant to this rule, then the original application shall expire on the expiration date set forth on the original permit.

540.10(4) If a transportation network company initiates an appeal, informal settlement, or contested case proceeding pursuant to rule 761—540.9(321N) and the original application expires pursuant to the expiration date of the application, then the transportation network company shall be required to submit a renewal application pursuant to subrule 540.10(1) if the transportation network company intends to hold a valid permit under this chapter once the appeal, informal settlement, or contested case proceeding has been finally determined.

¹ Effective date of 761—600.13(321) delayed 70 days by the Administrative Rules Review Committee at its meeting held December 9, 1998. At its meeting held January 5, 1999, the Committee delayed the effective date until adjournment of the 1999 Session of the General Assembly.

CHAPTER 601
APPLICATION FOR LICENSE

761—601.1(321) Application for license.

601.1(1) General. In addition to the information required under Iowa Code sections 321.182 and 321.196, the information in this rule is required from an applicant for a driver's license. Additional requirements for a commercial driver's license are found in 761—Chapter 607.

601.1(2) Name. The applicant's full legal name shall be given on the application. Full legal name means an individual's first name, middle name(s), and last name, without use of initials or nicknames. Civilian and military titles, initials and nicknames shall not be given and shall not be used on the applicant's license or in the applicant's record. This prohibition on the use of initials does not apply where a portion of an individual's legal name, whether first, middle or last, consists of a single character, whether followed by a period or not.

601.1(3) Out-of-state verification. Upon application for a driver's license, the department shall ascertain whether the applicant has ever held, or is the holder of, a driver's license issued by any other state.

a. The department shall not issue a driver's license to the applicant if:

(1) The applicant has held a driver's license issued by any other state, but the driver's license has been suspended by reason, in whole or part, of a violation and if such suspension period has not terminated.

(2) The applicant has held a driver's license issued by any other state, but the driver's license has been revoked by reason, in whole or part, of a violation and if such revocation has not terminated, except that after the expiration of one year from the date the license was revoked, the applicant may make application for a new license if permitted by law. The department may refuse to issue a license to any such applicant if, after investigation, the department determines that it will not be safe to grant such applicant the privilege of driving a motor vehicle on the highways.

(3) The applicant is the holder of a driver's license issued by another state and currently in force, unless the applicant surrenders such license.

b. If the applicant is subject to subparagraph 601.1(3) "a"(2) or has committed an offense or acted in a manner in another state which in Iowa would be grounds for revocation and it has been more than one year from the date the license or driving privilege was revoked, the department may issue the applicant a driver's license only upon such terms and conditions and subject to such restrictions or limitations as if the violation had been committed and the revocation imposed in Iowa. The department shall delay licensing or restrict licensing for such period of time that the applicant would be ineligible for a driving privilege or subject to a restricted driving privilege if the violation had been committed and the revocation imposed in Iowa.

(1) For purposes of determining whether it is safe to grant the applicant a driving privilege, an applicant may be determined to be safe only if the department determines all of the following:

1. The applicant has satisfied the same requirements for the grant of a driving privilege if the violation had been committed and the revocation imposed in Iowa.

2. The applicant is otherwise physically and mentally capable of safely operating a motor vehicle.

(2) However, the department shall not assess a civil penalty to the applicant as a condition of licensing under this subrule.

(3) Pursuant to Iowa Code section 321.13, the department may make further investigation or require further information necessary to determine whether it is safe to grant the applicant a driving privilege.

c. If the applicant is licensed in another state but does not have a current out-of-state license to surrender, the department may require verification of the applicant's driving record from the state of record, which may be accomplished electronically where possible, to assist the department in determining whether it is safe to grant the applicant a license.

601.1(4) Disabilities. The applicant shall indicate and explain any mental or physical disabilities which might affect the applicant's ability to operate a motor vehicle safely.

601.1(5) Physical description. The applicant shall provide the applicant's physical description, which shall consist of the applicant's sex, height to the nearest inch, weight to the nearest pound, and eye color.

601.1(6) Address. The applicant shall provide the applicant's current residential address and the applicant's current mailing address, if different from the applicant's current residential address. The applicant shall not provide as a mailing address an address for which a forwarding order with the United States Postal Service is in place. Notwithstanding anything in subrule 601.1(6), an applicant who is a participant in the "safe at home" address confidentiality program administered by the Iowa secretary of state may submit a designated address issued to the applicant by the Iowa secretary of state as the applicant's residential and mailing address.

601.1(7) Signature.

a. The applicant's signature shall be without qualification and shall contain only the applicant's usual signature without any other titles, characters or symbols.

b. The applicant's signature certifies, under penalty of perjury and pursuant to the laws of the state of Iowa, that the statements made and information provided in the applicant's application are true and correct.

c. The applicant's signature further certifies that the fee collected and the change returned, if any, is correct and acknowledges that the applicant is aware of the requirement to notify the department of a change in mailing address within 30 days of the change.

d. The applicant's signature will be captured electronically.

This rule is intended to implement Iowa Code sections 321.13, 321.182, 321.196 and 321C.1, Article V, the REAL ID Act of 2005 (49 U.S.C. Section 30301 note), and 6 CFR Part 37.

761—601.2(321) Surrender of license and nonoperator's identification card. An applicant for a driver's license shall surrender all other driver's licenses and nonoperator's identification cards. This includes those issued by a state other than Iowa or a foreign jurisdiction, unless otherwise provided in a letter of understanding or other written memorialization of reciprocity or understanding. An applicant who renews a driver's license electronically pursuant to 761—subrule 605.25(7) shall destroy the previous driver's license upon receipt of the renewed driver's license.

This rule is intended to implement Iowa Code section 321.182.

601.5(1) Verification of identity and date of birth. To establish identity and date of birth, an applicant must submit at least one of the following documents. The department may require additional documentation if the department believes that the documentation submitted is questionable or if the department has reason to believe that the person is not who the person claims to be.

a. A valid, unexpired U.S. passport or U.S. passport card.

b. A certified copy of a birth certificate and, if applicable, a certified amended or new birth certificate showing a change in name, date of birth, or sex, filed with a state office of vital statistics or equivalent agency in the applicant's state of birth. The birth certificate must bear the issuing authority's certification of authenticity. A hospital-issued certificate is not acceptable. As used herein, "state" means a state of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

c. A Consular Report of Birth Abroad issued by the U.S. Department of State (Form FS-240, DS-1350 or FS-545).

d. A valid, unexpired Permanent Resident Card (Form I-551) issued by the U.S. Department of Homeland Security or U.S. Immigration and Naturalization Service.

e. An unexpired employment authorization document issued by the U.S. Department of Homeland Security (Form I-766 or Form I-688B).

f. An unexpired foreign passport with a U.S. visa affixed, accompanied by the approved I-94 form documenting the applicant's most recent admittance into the United States.

g. A Certificate of Naturalization issued by the U.S. Department of Homeland Security (Form N-550 or Form N-570).

h. A Certificate of Citizenship (Form N-560 or Form N-561) issued by the U.S. Department of Homeland Security.

i. A REAL ID driver's license or identification card issued in compliance with the standards established by 6 CFR Part 37.

j. Such other documents as the U.S. Department of Homeland Security may designate as acceptable proof of identity and date of birth for REAL ID purposes by notice published in the Federal Register.

k. An Inmate Descriptor Inquiry, Client Information Inquiry or Offender Snapshot document issued by the Iowa department of corrections or the United States District Court, Northern and Southern Districts of Iowa. The document must contain the applicant's full legal name and date of birth and be notarized. An applicant who provides only a document listed in this paragraph shall not be eligible for a driver's license or nonoperator's identification card marked as acceptable for federal purposes under 6 CFR Part 37.

601.5(2) *Verification of social security number.*

a. Except as provided in paragraph 601.5(2) "b," an applicant must present the applicant's Social Security Administration's account number card; or if a social security account number card is not available, the applicant may present any of the following documents bearing the applicant's social security number:

- (1) A W-2 form.
- (2) A Social Security Administration-1099 form.
- (3) A non-Social Security Administration-1099 form.

601.5(3) *Verification of Iowa residency and current residential address.*

a. To document Iowa residency and current residential address, an applicant must present two documents that include the applicant's name and current Iowa residential address and that demonstrate residency in the state of Iowa. Acceptable documents are documents issued by a person, organization, or entity other than the applicant, that include the issuer's name and address, include the applicant's name and current residential address, and demonstrate residency in the state of Iowa. The documents must be reasonable, authentic documents capable of verification by the department.

b. The address must be a street or highway address, and may not be a post office box. In areas where a number and street name have not been assigned, an address convention used by the U.S. Postal Service is acceptable. The current residence of a person with more than one dwelling is the dwelling for which the person claims a homestead tax credit under Iowa Code chapter 425, if applicable.

c. An applicant who is a member of the armed forces and is an Iowa resident stationed in another state may use the applicant's address in the state of station as the applicant's current residential address if the applicant does not maintain an Iowa residence during the applicant's deployment outside the state of Iowa. The applicant must provide official documentation confirming the applicant's residential address

in the state of station and that the applicant is stationed in that state. The applicant's mailing address may be the applicant's current residential address or another address at which the applicant receives mail.

d. An applicant who is a dependent family member of and resides with a member of the armed forces who is an Iowa resident stationed in another state may use the applicant's address in the state of station as the applicant's current residential address if the applicant does not maintain an Iowa residence during the applicant's deployment outside the state of Iowa. The applicant must provide official documentation confirming the applicant's residential address in the state of station and that the applicant is a dependent family member of a member of the armed forces stationed in that state. The applicant's mailing address may be the applicant's current residential address or another address at which the applicant receives mail.

601.5(4) Verification of lawful status in the United States.

a. If an applicant presents one of the identity documents listed under subrule 601.5(1), the department's verification of that identity document is satisfactory evidence of lawful status.

b. An applicant who presents only a document listed under subrule 601.5(1), paragraph "e," "f," or "i," is not eligible to receive a driver's license or nonoperator's identification card marked as REAL ID compliant unless the applicant also provides one of the other documents listed in subrule 601.5(1), or another United States Department of Homeland Security-approved document.

601.5(5) Verification of name change. The name listed on the driver's license or nonoperator's identification card that is issued shall be identical to the name listed on the identity document submitted unless the applicant submits the chain of legal documents necessary to show the legal change of the applicant's name from the identity document submitted to the applicant's current legal name. The following documents are acceptable:

a. Court-ordered name change. A court order must contain the applicant's prior legal name, the applicant's court-ordered legal name, the applicant's date of birth, and the court's certification of authenticity. Acceptable court orders include orders under petition for name change, orders for name change set forth in a decree of dissolution, and orders for name change set forth in a decree of adoption.

601.5(6) Verification of change of date of birth. The date of birth listed on the driver's license or nonoperator's identification card that is issued shall be identical to the date of birth listed on the identity document submitted unless the applicant submits a certified amended or new birth certificate that documents the change of date of birth and that meets the requirements of paragraph 601.5(1) "b."

601.5(7) Verification of change of sex designation. The sex designation listed on the driver's license or nonoperator's identification card that is issued shall be identical to the sex designation listed on the identity document submitted unless the applicant does one of the following:

a. *Applicants born in Iowa.* An applicant born in Iowa must submit a certified amended or new Iowa birth certificate that documents the change of sex designation and that meets the requirements of paragraph 601.5(1) "b."

b. *Applicants born outside of Iowa.*

(1) An applicant born outside of Iowa may document the change of sex designation by any of the following methods:

1. Submit a certified amended or new birth certificate from a state other than Iowa that documents the change of sex designation and that meets the requirements of paragraph 601.5(1) "b."

2. Submit an amended or new Consular Report of Birth Abroad that documents the change of sex designation and meets the requirements of paragraph 601.5(1) "c."

(2) Pursuant to Iowa Code section 321.13, the department may make further investigation or require further information necessary to determine whether a change of sex designation occurred.

c. Documentation. Documentation provided under this subrule shall be submitted to Driver and Identification Services, Iowa Department of Transportation, P.O. Box 9204, Des Moines, Iowa, 50306-9204.

d. Name change. A change of sex designation shall not effect a name change unless the applicant verifies a name change pursuant to subrule 601.5(5).

This rule is intended to implement Iowa Code sections 321.13, 321.182 and 321.189, the REAL ID Act of 2005 (49 U.S.C. Section 30301 note), and 6 CFR Part 37.

No exception shall be made for the parent's, guardian's or custodian's absence from Iowa. 761—602.1(321) Driver's licenses.

602.1(1) *Classes.* The department issues the following classes of driver's licenses. All licenses issued, including special licenses and permits, shall carry a class designation. A license shall be issued for only one class, except that Class M may be issued in combination with another class.

- Class B—commercial driver's license (CDL)
- Class C—commercial driver's license (CDL)

602.1(2) *Special licenses and permits.* The department issues the following special licenses and permits. More than one type of special license or permit may be issued to an applicant. On the driver's license, a restriction number designates the type of special license or permit issued, as follows:

- 1—Motorcycle instruction permit—includes motorcycle instruction permits issued under Iowa Code subsections 321.180(1) and 321.180B(1)
- 2—Noncommercial instruction permit (vehicle less than 16,001 gross vehicle weight rating)—includes instruction permits, other than motorcycle instruction permits, issued under Iowa Code subsection 321.180(1), section 321.180A and subsection 321.180B(1)
- 3—Commercial learner's permit
- 4—Chauffeur's instruction permit
- 5—Motorized bicycle license
- 6—Minor's restricted license
- 7—Minor's school license

602.1(3) *Commercial driver's license (CDL).* See 761—Chapter 607 for information on the procedures, requirements and validity of a commercial driver's license (Classes A, B and C) and a commercial learner's permit, and their restrictions and endorsements.

This rule is intended to implement Iowa Code sections 321.178, 321.180, 321.180A, 321.180B, 321.189, and 321.194.

[ARC 2071C, IAB 8/5/15, effective 7/14/15; ARC 2337C, IAB 1/6/16, effective 2/10/16; ARC 2644C, IAB 8/3/16, effective 9/7/16]

761—602.2(321) Information and forms. Applications, forms and information about driver's licensing are available at any driver's license service center. Assistance is also available by mail from Driver and Identification Services, Iowa Department of Transportation, P.O. Box 9204, Des Moines, Iowa 50306-9204; in person at 6310 SE Convenience Blvd., Ankeny, Iowa; by telephone at (515)244-8725; by facsimile at (515)239-1837; or on the department's website at www.iowadot.gov.

602.2(1) *Certificate of completion.* Form 430036 shall be used to submit proof of successful completion of an Iowa-approved course in driver education, motorcycle rider education or motorized bicycle education, except that proof of successful completion of an Iowa-approved course in driver education may instead be submitted through an online reporting system used by participating Iowa-approved driver education schools.

a. If a student completed a course in another state, a public or licensed commercial or private provider of the Iowa-approved course may issue the form or online completion, if applicable, for the student if the provider determines that the out-of-state course is comparable to the Iowa-approved course.

b. If the out-of-state course is comparable but lacks certain components of the Iowa-approved course, the provider may issue the form or online completion, if applicable, after the student completes the missing components.

602.2(2) *Affidavit for school license.* Form 430021 shall be used for submitting the required statements, affidavits and parental consent for a minor's school license. See rule 761—602.26(321).

602.2(3) Waiver of accompanying driver for intermediate licensee. Form 431170 is the waiver described in Iowa Code subsection 321.180B(2). This form allows an intermediate licensee to drive unaccompanied between the hours of 12:30 a.m. and 5 a.m. and must be in the licensee's possession when the licensee is driving during the hours to which the waiver applies.

a. If the waiver is for employment, the form must be signed by the licensee's employer.

b. If the licensee attends a public school and the waiver is for school-related extracurricular activities, the form must be signed by the chairperson of the school board, the superintendent of the school, or the principal of the school if authorized by the superintendent. If the licensee attends an accredited nonpublic school and the waiver is for school-related extracurricular activities, the form must be signed by an authority in charge of the accredited nonpublic school or a duly authorized representative of the authority.

c. The form must be signed by the licensee's parent or guardian. However, the parent's or guardian's signature is not required if the licensee is married and the original or a certified copy of the marriage certificate is in the licensee's possession when the licensee is driving during the hours to which the waiver applies.

602.2(4) Passenger restriction for intermediate licensee. The passenger restriction required by Iowa Code subsection 321.180B(2) will be added to an intermediate license unless waived by the licensee's parent or guardian at the time the license is issued. If the restriction is not waived at the time the license is issued, the intermediate license will be designated with a "9" restriction with the following notation: "Only 1 unrelated minor passenger allowed until [six months from the date the license is issued]." The licensee must obey the restriction for the first six months after the intermediate license is issued. If a parent or guardian wishes to waive the passenger restriction after the license has already been issued, the licensee and the parent or guardian must apply for a duplicate license and pay the replacement fee pursuant to 761—subrule 605.11(3).

This rule is intended to implement Iowa Code sections 321.8, 321.178, 321.180B, 321.184, 321.189, and 321.194.

In lieu of Form 430032, a vision report signed by a licensed vision

specialist on the specialist's letterhead may be accepted if it contains all the information specified on Form 430032.

604.10(4) Exception for persons renewing electronically. An applicant renewing a driver's license electronically pursuant to 761—subrule 605.25(7) is not required to complete a vision screen or submit a vision report to complete the renewal. This subrule does not preclude the department from requiring a vision screen or vision report of a person who has renewed a driver's license electronically when the department has reason to believe that the person is not capable of operating a motor vehicle safely.

This rule is intended to implement Iowa Code sections 321.186, 321.186A and 321.196 as amended by 2013 Iowa Acts, House File 355, section 1.

[ARC 9991B, IAB 2/8/12, effective 3/14/12; ARC 0895C, IAB 8/7/13, effective 7/9/13; ARC 1073C, IAB 10/2/13, effective 11/6/13]

761—604.11(321) Vision standards. The visual acuity and field of vision standards for licensing and the applicable restrictions are as follows.

604.11(1) Visual acuity standards.

a. When the applicant is screened without corrective lenses. If the visual acuity is 20/40 or better with both eyes or with the better eye, no restriction will be imposed. If the visual acuity is less than 20/40 but at least 20/70 with both eyes or with the better eye, the applicant shall be restricted from driving when headlights are required.

b. When the applicant is screened with corrective lenses. If the visual acuity is 20/40 or better with both eyes or with the better eye, the applicant shall be required to wear corrective lenses. If the visual acuity is less than 20/40 but at least 20/70 with both eyes or with the better eye, the applicant shall be required to wear corrective lenses and shall be restricted from driving when headlights are required.

c. Other standards. If the visual acuity in the left eye is less than 20/100, the applicant shall be restricted to driving a vehicle with both left and right outside rearview mirrors. However, if the applicant has a visual acuity of 20/40 in the right eye and less than 20/100 in the left eye without corrective lenses and has corrective lenses that improve the vision in the left eye to better than 20/100, the applicant shall have the option of being restricted to driving with corrective lenses or driving a vehicle with both left and right outside rearview mirrors.

604.11(2) Field of vision standards.

a. If the binocular field of vision is at least 140 degrees, no restriction will be imposed.

b. If the binocular field of vision is less than 140 degrees but at least 110 degrees, or one eye has a monocular field of vision of at least 100 degrees, the applicant shall be restricted to driving a vehicle with both left and right outside rearview mirrors.

This rule is intended to implement Iowa Code sections 321.186, 321.193, and 321.196.

[ARC 9991B, IAB 2/8/12, effective 3/14/12]

761—604.12(321) Vision referrals.

604.12(1) Referral.

a. If an applicant on first screening cannot attain 20/40 but can attain 20/70 with at least one eye, the department shall not issue a license to the applicant. Instead, the department shall advise the applicant to consult a licensed vision specialist.

b. A vision report, pursuant to subrule 604.10(3), shall be required before the department will reconsider licensing.

604.12(2) License.

a. The department shall affix a sticker to the applicant's license stating: "Renewal or license issuance denied due to vision."

b. If the applicant's license is valid for less than 30 days, the department may issue a temporary driving permit with restrictions appropriate to the applicant's visual acuity level and field of vision. The temporary driving permit is valid for not more than 30 days from the end of the current license validity.

604.12(3) Report. If the vision report recommends a restriction, the department shall issue a restricted license even though it would not be required by departmental standards.

604.12(4) Applicant refusal. If an applicant refuses to consult a licensed vision specialist, the department shall issue or deny the license based on the results achieved on the vision screening.

This rule is intended to implement Iowa Code sections 321.181, 321.186, 321.186A, 321.193 and 321.196.

761—604.13(321) Vision screening results.

604.13(1) Two-year license. An applicant who cannot attain a visual acuity of 20/40 with both eyes or with the better eye shall be issued a two-year license. This restriction may be waived by the department when a vision report pursuant to subrule 604.10(3) certifies that the vision has stabilized and is not expected to deteriorate.

604.13(2) License denied.

a. An applicant who cannot attain a visual acuity of 20/70 with both eyes or with the better eye shall not be licensed, subject to discretionary issuance under subrule 604.13(4).

b. If the applicant's binocular field of vision is less than 110 degrees, or the monocular field of vision is less than 100 degrees, the applicant shall not be licensed, subject to discretionary issuance under subrule 604.13(4).

604.13(3) Reapplication. An applicant who cannot meet the vision standards in subrule 604.13(2) may reapply when the vision improves and meets the vision standards. If a suspension or denial notice was served, reapplication must be made to the office of driver services at the address in 761—600.2(17A), and not at a driver's license examination station.

604.13(4) Discretionary issuance.

a. An applicant whose license is restricted under rule 761—604.11(321) or who cannot meet the vision standards in subrule 604.13(2) may submit a written request for review by an informal settlement officer.

b. Based upon consideration of the applicant's vision screening results or vision report, driving test and driving record, the written recommendation of the applicant's licensed vision specialist, and traffic conditions in the vicinity of the applicant's residence, the officer may recommend issuing a license with restrictions suitable to the applicant's capabilities. However:

(1) An applicant who cannot attain a visual acuity of 20/100 with both eyes or with the better eye may be considered for licensing only after recommendation by the medical advisory board.

(2) An applicant who cannot attain a visual acuity of 20/199 with both eyes or with the better eye shall not be licensed.

(3) If an applicant's binocular field of vision or monocular field of vision is less than 75 degrees, the applicant may be considered for licensing only after recommendation by the medical advisory board.

(4) An applicant who cannot attain a binocular or monocular field of vision of 21 degrees shall not be licensed.

c. The officer's recommendation denying discretionary issuance or regarding the extent and nature of restrictions is subject to reversal or modification upon review or appeal only if it is clearly characterized by an abuse of discretion.

This rule is intended to implement Iowa Code sections 321.186, 321.186A, 321.193 and 321.196.

761—604.14 to 604.19 Reserved.

761—604.20(321) Knowledge test.

604.20(1) Written test. A knowledge test is a written test to determine an applicant's ability to read and understand Iowa traffic laws and the highway signs that regulate, warn, and direct traffic. A test may be revised at any time but each test states the minimum passing score.

604.20(2) Three types of tests. There are three types of knowledge tests: an operator's test, a chauffeur's test, and a motorcycle test. The requirement for a license depends upon the class of license desired, applicable endorsements, and the qualifications of the applicant.

604.20(3) Oral test. An applicant who is unable to read or understand a written test may request an oral test. The oral test may be administered by an examiner or by an automated testing device.

604.20(4) Waiver. Rescinded IAB 1/8/92, effective 2/12/92.

This rule is intended to implement Iowa Code section 321.186.

761—604.21(321) Knowledge test requirements and waivers.

604.21(1) Knowledge test requirements. The knowledge test requirements are as follows:

a. Operator's test. An operator's knowledge test is required for all classes of driver's licenses and all types of special driver's licenses and permits.

b. Motorcycle test. A motorcycle knowledge test is required for all:

- (1) Motorcycle instruction permits.
- (2) Class M driver's licenses.
- (3) Motorcycle endorsements.

c. Chauffeur's test. A chauffeur's knowledge test is required for all:

- (1) Chauffeur's instruction permits.
- (2) Class D driver's licenses except those with an endorsement for "passenger vehicle less than 16-passenger design."

604.21(2) Knowledge test waivers. The department may waive a knowledge test listed in subrule 604.21(1) if the applicant meets one of the following qualifications:

a. The applicant has passed the same type of test for another Iowa driver's license or an equivalent out-of-state license that is still valid.

b. The applicant has a valid, equivalent driver's license issued by a foreign jurisdiction with which Iowa has a nonbinding reciprocity agreement.

c. The applicant has a military extension and is renewing the applicant's Iowa driver's license within six months following separation from active duty.

This rule is intended to implement Iowa Code sections 321.180, 321.180A, 321.180B, 321.186, 321.189, 321.196 and 321.198.

761—604.22(321) Knowledge test results.

604.22(1) Proof of Passing score. When necessary, the department shall give the applicant a form, valid for 90 days, which certifies that the applicant has passed the knowledge test.

604.22(2) Retesting. An applicant who fails a knowledge test may repeat the test at the discretion of the examiner, but at least two hours shall elapse between tests.

This rule is intended to implement Iowa Code section 321.186.

761—604.23 to 604.29 Reserved.

761—604.30(321) Driving test. A driving test is a demonstration of an applicant's ability to exercise ordinary and reasonable control in the operation of a motor vehicle under actual traffic conditions. The test is also called a road test, field test, or driving demonstration. A motorcycle skill test is an off-street demonstration of an applicant's ability to control the motorcycle in a set of standard maneuvers, and a motorcycle driving test is an on-street demonstration.

604.30(1) Vehicle type and safety.

a. For the driving test, the applicant shall provide a representative vehicle as defined in 761—604.2(321).

b. The examiner or other authorized personnel shall visually inspect the vehicle. If a vehicle is illegal or unsafe, or is not a representative vehicle, the examiner shall refuse to administer the test until corrections are made or an acceptable vehicle is provided.

604.30(2) Criteria and route. Form 430024, "Your Driving Test," explains the criteria for passing the test and shall be given to the applicant before any required test, except a motorcycle skill test. The applicant shall be directed over one of the routes which have been preselected by the examiner to test driving skills and maneuvers.

604.30(3) Test score. The examiner shall use the standard departmental score sheet and shall enter the test score and the licensing decision in the spaces provided. At the end of the test, the examiner shall explain the test score. The test score result is valid for 90 days.

604.30(4) Retesting. If an applicant fails a driving test, the test may be rescheduled at the discretion of the examiner.

This rule is intended to implement Iowa Code sections 321.174 and 321.186.
[ARC 9991B, IAB 2/8/12, effective 3/14/12]

604.31(1) Driving test requirements. The driving test requirements for noncommercial driver's licenses are as follows:

- a. *Instruction permits.* A driving test is not required to obtain an instruction permit.
- b. *Class C driver's licenses.* For a Class C driver's license other than an instruction permit or a motorized bicycle license, an operator's driving test in a representative vehicle is required, except that an autocycle as defined in Iowa Code section 321.1 shall not be used for the driving test.
- c. *Class D driver's licenses.* For a Class D driver's license, a driving test in a representative vehicle for the endorsement requested, as set out in 761—subrule 605.4(3), is required.
- d. *Class M driver's licenses and motorcycle endorsements.* The driving test for a Class M driver's license or motorcycle endorsement consists of two parts: an off-street motorcycle skill test and an on-street driving test.

(1) The off-street motorcycle skill test is required. The on-street motorcycle driving test is also required if the applicant does not have another driver's license that permits unaccompanied driving. Neither motorcycle test is required for the purposes of operating an autocycle.

(2) A motorcycle shall be used for these tests. If a three-wheeled motorcycle is used, the driver's license shall be restricted: "Not valid for 2-wheel vehicle." An autocycle is not considered a motorcycle or a three-wheeled motorcycle for testing purposes.

e. *Motorized bicycle licenses.* For a motorized bicycle license, an off-street or on-street driving test may be required. A motorized bicycle shall be used for the test.

604.31(2) Driving test waivers. The department may waive a required driving test listed in subrule 604.31(1) if the applicant meets one of the following qualifications:

e. The applicant is applying for a Class C Iowa driver's license that permits unaccompanied driving and has an equivalent out-of-state license that is valid or has expired within the past year.

f. The applicant is applying for a Class D Iowa driver's license and has an equivalent out-of-state license that is valid or has expired within the past year.

g. The applicant is applying for a Class M driver's license or a motorcycle endorsement and has an equivalent out-of-state Class M driver's license or motorcycle endorsement that is valid or has expired within the past year.

761—604.33 and 604.34 Reserved.

761—604.35(321) Determination of gross vehicle weight rating. For a vehicle that has no legible manufacturer's certification label, the applicant may provide documentation of the gross vehicle weight rating, such as a manufacturer's certificate of origin, a title, a vehicle registration document, or the vehicle identification number information for the vehicle. In the absence of the above documentation, the registered weight of the vehicle shall be presumed to be the gross vehicle weight rating.

This rule is intended to implement Iowa Code section 321.1.

761—604.36 to 604.39 Reserved.

761—604.40(321) Failure to pass examination.

d. An applicant may contest a denial or suspension in accordance with 761—615.38(321).

604.40(2) Limitations on the hearing and appeal process.

a. After a suspension or denial for failure to pass a required knowledge or driving test, a person who contests the suspension or denial shall be deemed to have exhausted the person's administrative remedies after three unsuccessful attempts to pass the required test.

b. After the three unsuccessful attempts, no further testing shall be allowed until six months have elapsed from the date of the last test failure, and then only if the applicant demonstrates a significant change or improvement in those physical or mental factors that resulted in the original decision. A request for further testing must be submitted in writing to the office of driver services at the address in rule 761—600.2(17A).

604.50(4) The department may require a special reexamination when a licensee who is 65 years of age or older has been involved in an accident and information in the investigating officer's or the person's own report of the accident indicates the need for reexamination. (2) The department may consult with and defer to the Iowa department of veterans affairs regarding what constitutes a properly completed DD form 214 and veteran status in general.

(3) If the department denies issuance of a license with a veteran designation upon presentation of the DD form 214 to the department, the licensee may obtain a license with a veteran designation if the licensee submits Form 432035, properly completed by the licensee and a designee of the Iowa department of veterans affairs.

(4) If the department issues a veteran designation in error or as the result of fraud on the part of the licensee, the driver's license with a veteran designation shall be canceled, and a duplicate license without the designation may be issued to the licensee. There shall be no charge to issue a duplicate license if the license was issued in error, unless the error was the result of fraud on the part of the licensee.

761—607.3(321) Definitions. The definitions in Iowa Code section 321.1 apply to this chapter of rules. In addition, the following definitions are adopted:

"Air brake system" means a system that uses air as a medium for transmitting pressure or force from the driver's control to the service brake. "Air brake system" shall include any braking system operating fully or partially on the air brake principle.

"Air over hydraulic brakes" means any braking system operating partially on the air brake and partially on the hydraulic brake principle.

"Automatic transmission" means any transmission other than a manual transmission.

"CDLIS" means "commercial driver's license information system" as defined in Iowa Code section 321.1.

"Commercial driver's license downgrade" or *"CDL downgrade"* means either:

1. The driver changes the driver's self-certification of type of driving from non-excepted interstate to excepted interstate, non-excepted intrastate, or excepted intrastate driving, or
2. The department removed the CDL privilege from the driver's license.

"Commercial motor vehicle" or *"CMV"* as defined in Iowa Code section 321.1 does not include a motor vehicle designed as off-road equipment rather than as a motor truck, such as a forklift, motor grader, scraper, tractor, trencher or similar industrial-type equipment. "Commercial motor vehicle" also does not include self-propelled implements of husbandry described in Iowa Code subsection 321.1(32).

"Controlled substance" as used in Iowa Code section 321.208 means a substance defined in Iowa Code section 124.101.

"Hazardous materials" means any material that has been designated as hazardous under 49 U.S.C. Section 5103 and is required to be placarded under 49 CFR Part 172, Subpart F, or any quantity of a material listed as a select agent or toxin in 42 CFR Part 73.

"Manual transmission" means a transmission utilizing a driver-operated clutch that is activated by a pedal or lever and a gear-shift mechanism operated either by hand or by foot. All other transmissions, whether semi-automatic or automatic, will be considered automatic.

“*School bus*” means a commercial motor vehicle used to transport pre-primary, primary, or secondary school students from home to school, from school to home, or to and from school-sponsored events. “School bus” does not include a bus used as a common carrier.

“*Self-certification*” means a written certification of which category of type of driving an applicant for a commercial driver’s license engages in or intends to engage in, from the following categories:

1. Non-excepted interstate. The person certifies that the person operates or expects to operate in interstate commerce, is both subject to and meets the qualification requirements under 49 CFR Part 391, and is required to obtain a medical examiner’s certificate by 49 CFR Section 391.45.

If the applicant is domiciled in a foreign jurisdiction and applying for a nondomiciled commercial driver's license, the applicant must provide a document required by 49 CFR Section 383.71(f).

This rule is intended to implement Iowa Code sections 321.180, 321.182 and 321.188.

[ARC 2071C, IAB 8/5/15, effective 7/14/15; ARC 2337C, IAB 1/6/16, effective 2/10/16; ARC 2530C, IAB 5/11/16, effective 6/15/16]

761—607.16(321) Commercial driver's license (CDL).

607.16(1) Classes. The department may issue a commercial driver's license only as a Class A, B or C driver's license. The license class identifies the types of vehicles that may be operated. A commercial driver's license may have endorsements which authorize additional vehicle operations or restrictions which limit vehicle operations.

607.16(2) Validity.

a. A Class A commercial driver's license allows a person to operate a combination of commercial motor vehicles as specified in Iowa Code paragraph 321.189(1) "a." With the required endorsements and subject to the applicable restrictions, a Class A commercial driver's license is valid to operate any vehicle.

b. A Class B commercial driver's license allows a person to operate a commercial motor vehicle as specified in Iowa Code paragraph 321.189(1) "b." With the required endorsements and subject to the applicable restrictions, a Class B commercial driver's license is valid to operate any vehicle except a truck-tractor semitrailer combination as a chauffeur (Class D) or a vehicle requiring a Class A commercial driver's license.

c. A Class C commercial driver's license allows a person to operate a commercial motor vehicle as specified in Iowa Code paragraph 321.189(1) "c." With the required endorsements and subject to the applicable restrictions, a Class C commercial driver's license is valid to operate any vehicle except a truck-tractor semitrailer combination as a chauffeur (Class D) or a vehicle requiring a Class A or Class B commercial driver's license.

d. A commercial driver's license is valid for operating a motorcycle as a commercial motor vehicle only if the license has a motorcycle endorsement and a hazardous material endorsement. A commercial driver's license is valid for operating a motorcycle as a noncommercial motor vehicle only if the license has a motorcycle endorsement.

e. A commercial driver's license valid for eight years shall be issued to a qualified applicant who is at least 18 years of age but not yet 72 years of age. However, the expiration date of the license issued shall not exceed the licensee's 74th birthday.

f. A commercial driver's license valid for two years shall be issued to a qualified applicant 72 years of age or older. A two-year license may also be issued, at the discretion of the department, to an applicant whose license is restricted due to vision or other physical disabilities.

g. A commercial driver's license is valid for 60 days after the expiration date.

h. A person with a commercial driver's license valid for the vehicle operated is not required to obtain a Class D driver's license to operate the vehicle as a chauffeur.

607.16(3) Requirements.

a. The minimum age to obtain a commercial driver's license is 18 years.

b. The applicant shall meet the requirements set forth in rule 761—607.15(321).

607.16(4) Transition from five-year to eight-year licenses. During the period January 1, 2014, to December 31, 2018, the department shall issue qualified applicants otherwise eligible for an eight-year license a five-year, six-year, seven-year, or eight-year license, subject to all applicable limitations for age and ability. The applicable period shall be randomly assigned to the applicant by the department's computerized issuance system based on a distribution formula intended to spread renewal volumes as equally as practical over the eight-year period beginning January 1, 2019, and ending December 31, 2026.

This rule is intended to implement Iowa Code sections 321.177, 321.182, 321.188, 321.189, and 321.196 and 2013 Iowa Acts, chapter 104, section 2.

[ARC 1714C, IAB 11/12/14, effective 12/17/14; ARC 2071C, IAB 8/5/15, effective 7/14/15; ARC 2337C, IAB 1/6/16, effective 2/10/16]

761—607.17(321) Endorsements. All endorsements except the hazardous material endorsement continue to be valid without retesting or additional fees when renewing or upgrading a license. The endorsements that authorize additional commercial motor vehicle operations with a commercial driver's license are:

607.17(1) Hazardous material. A hazardous material endorsement (H) is required to transport hazardous materials. Upon license renewal, retesting and fee payment are required. Retesting and fee payment are also required when an applicant upgrades an Iowa license or transfers a commercial driver's license from another state unless the applicant provides evidence of passing the endorsement test within the preceding 24 months. A farmer or a person working for a farmer is not subject to the hazardous material endorsement while operating either a pickup or a special truck within 150 air miles of the farmer's farm to transport supplies to or from the farm.

607.17(2) Passenger vehicle. A passenger vehicle endorsement (P) is required to operate a passenger vehicle as defined in rule 761—607.3(321).

607.17(3) Tank vehicle. A tank vehicle endorsement (N) is required to operate a tank vehicle as defined in Iowa Code section 321.1. A vehicle transporting a tank, regardless of the tank's capacity, which does not otherwise meet the definition of a commercial motor vehicle in Iowa Code section 321.1 is not a tank vehicle.

607.17(4) Double/triple trailer. A double/triple trailer endorsement (T) is required to operate a commercial motor vehicle with two or more towed trailers when the combination of vehicles meets the criteria for a Class A commercial motor vehicle. Operation of a triple trailer combination vehicle is not permitted in Iowa.

607.17(5) Hazardous material and tank. A combined endorsement (X) authorizes both hazardous material and tank vehicle operations.

607.17(6) School bus. After September 30, 2005, a school bus endorsement (S) is required to operate a school bus as defined in rule 761—607.3(321). An applicant for a school bus endorsement must also qualify for a passenger vehicle endorsement.

607.17(7) Exceptions for towing operations.

a. A driver who tows a vehicle in an emergency “first move” from the site of a vehicle malfunction or accident on a highway to the nearest appropriate repair facility is not required to have the endorsement(s) applicable to the towed vehicle. In any subsequent move, a driver who tows a vehicle from one repair or disposal facility to another is required to have the endorsement(s) applicable to the towed vehicle with one exception: A tow truck driver is not required to have a passenger endorsement to tow a passenger vehicle.

b. The double/triple trailer endorsement is not required to operate a commercial motor vehicle with two or more towed vehicles that are not trailers.

This rule is intended to implement Iowa Code sections 321.1, 321.176A and 321.189.

[ARC 2071C, IAB 8/5/15, effective 7/14/15; ARC 2337C, IAB 1/6/16, effective 2/10/16; ARC 2530C, IAB 5/11/16, effective 6/15/16]

761—607.18(321) Restrictions. The restrictions that may limit commercial motor vehicle operation with a commercial driver’s license are listed in 761—subrule 605.5(3) and are explained below:

607.18(1) Air brake. The air brake restriction (L, no air brake equipped CMV) applies to a licensee who either fails the air brake component of the knowledge test or performs the skills test in a vehicle not equipped with air brakes and prohibits the operation of a commercial motor vehicle equipped with an air brake system until the licensee passes the required air brake tests and pays the fee for upgrading the license. Retesting and fee payment are not required when the license is renewed.

607.18(2) Full air brake. The full air brake restriction (Z, no full air brake equipped CMV) applies to a licensee who performs the skills test in a vehicle equipped with air over hydraulic brakes and prohibits the operation of a commercial motor vehicle equipped with any braking system operating fully on the air brake principle until the licensee passes the required air brake tests and pays the fee for upgrading the license. Retesting and fee payment are not required when the license is renewed.

607.18(3) Manual transmission. The manual transmission restriction (E, no manual transmission equipped CMV) applies to a licensee who performs the skills test in a vehicle equipped with automatic transmission and prohibits the operation of a commercial motor vehicle equipped with a manual transmission until the licensee passes the required tests and pays the fee for upgrading the license. Retesting and fee payment are not required when the license is renewed.

607.18(4) Tractor-trailer. The tractor-trailer restriction (O, no tractor trailer CMV) applies to a licensee who performs the skills test in a combination vehicle for a Class A commercial driver’s license with the power unit and towed unit connected with a pintle hook or other non-fifth wheel connection and prohibits operation of a tractor-trailer combination connected by a fifth wheel that requires a Class A commercial driver’s license until the licensee passes the required tests and pays the fee for upgrading the license. Retesting and fee payment are not required when the license is renewed.

607.18(5) Class A passenger vehicle. The Class A passenger vehicle restriction (M, no Class A passenger vehicle) applies to a licensee who applies for a passenger endorsement and performs the skills test in a passenger vehicle that requires a Class B commercial driver’s license and prohibits operation of a passenger vehicle that requires a Class A commercial driver’s license.

607.18(6) Class A and B passenger vehicle. The Class A and B passenger vehicle restriction (N, no Class A and B passenger vehicle) applies to a licensee who applies for a passenger endorsement and performs the skills test in a passenger vehicle that requires a Class C commercial driver’s license and prohibits operation of a passenger vehicle that requires a Class A or Class B commercial driver’s license.

607.18(7) Intrastate only. The intrastate only restriction (K, intrastate only) applies to a licensee who self-certifies to non-expected intrastate or expected intrastate driving and prohibits the operation of a commercial motor vehicle in interstate commerce.

607.18(8) Medical variance. The medical variance restriction (V, medical variance) applies to a licensee when the department is notified pursuant to 49 CFR Section 383.73(o)(3) that the driver has

been issued a medical variance and indicates there is information about a medical variance on the CDLIS driver record.

This rule is intended to implement Iowa Code sections 321.189 and 321.191.
[ARC 2071C, IAB 8/5/15, effective 7/14/15; ARC 2337C, IAB 1/6/16, effective 2/10/16; ARC 2530C, IAB 5/11/16, effective 6/15/16]

761—607.19 Reserved.

761—607.20(321) Commercial learner's permit.

607.20(1) Validity.

a. A commercial learner's permit allows the permit holder to operate a commercial motor vehicle when accompanied as required by Iowa Code section 321.180(2)“d.”

b. A commercial learner's permit is valid for one year without retaking the general and endorsement knowledge tests required by Iowa Code section 321.188.

c. A commercial learner's permit is invalid after the expiration date of the underlying commercial or noncommercial driver's license issued to the permit holder or the expiration date of the permit whichever occurs first.

d. The issuance of a commercial learner's permit is a precondition to the initial issuance of a commercial driver's license. The issuance of a commercial learner's permit is also a precondition to the upgrade of a commercial driver's license if the upgrade requires a skills test. The holder of a commercial learner's permit is not eligible to take a required driving skills test for the first 14 days after the permit holder is issued the permit. The 14-day period includes the day the commercial learner's permit was issued.

EXAMPLE: The commercial learner's permit is issued on September 1. The earliest date the permit holder would be eligible to take the skills test is September 15.

e. A commercial learner's permit is not valid for the operation of a vehicle transporting hazardous materials.

607.20(2) Requirements.

a. An applicant for a commercial learner's permit must hold a valid Class A, B, C, or D driver's license issued in this state that is not an instruction permit, a special instruction permit, a motorized bicycle license or a temporary restricted license; must be at least 18 years of age; and must meet the requirements to obtain a valid commercial driver's license, including the requirements set forth in Iowa Code section 321.188. However, the applicant does not have to complete the driving skills tests required for a commercial driver's license to obtain a commercial learner's permit.

b. The applicant must successfully pass a general knowledge test that meets the federal standards contained in 49 CFR Part 383, Subparts F, G and H, for the commercial motor vehicle the applicant operates or expects to operate, including any endorsement for which the applicant applies.

607.20(3) Endorsements. A commercial learner's permit may include the following endorsements. All other endorsements are prohibited on a commercial learner's permit.

a. An applicant for a passenger endorsement (P) must take and pass the passenger endorsement knowledge test. A commercial learner's permit holder with a passenger endorsement is prohibited from operating a commercial motor vehicle carrying passengers, other than federal/state auditors and inspectors, test examiners, other trainees, and the commercial driver's license holder accompanying the permit holder required by Iowa Code section 321.180(2)“d.”

b. An applicant for a school bus endorsement (S) must take and pass the school bus endorsement knowledge test. A commercial learner's permit holder with a school bus endorsement is prohibited from operating a commercial motor vehicle carrying passengers, other than federal/state auditors and inspectors, test examiners, other trainees, and the commercial driver's license holder accompanying the permit holder required by Iowa Code section 321.180(2)“d.”

c. An applicant for a tank vehicle endorsement (N) must take and pass the tank vehicle endorsement knowledge test. A commercial learner's permit holder with a tank vehicle endorsement may only operate an empty tank vehicle and is prohibited from operating any tank vehicle that previously contained hazardous materials that has not been purged of any residue.

607.20(4) Restrictions. A commercial learner's permit may include the air brake (L), medical variance (V), Class A passenger vehicle (M), Class A and B passenger vehicle (N) and intrastate only (K) restrictions described in rule 761—607.18(321). In addition, a commercial learner's permit may include the following restrictions that are specific to the commercial learner's permit:

a. Passenger. The passenger restriction (P, no passengers in CMV bus) applies to a permit holder who has a commercial learner's permit with a passenger or school bus endorsement and prohibits the operation of a commercial motor vehicle carrying passengers, other than federal/state auditors and inspectors, test examiners, other trainees, and the commercial driver's license holder accompanying the permit holder required by Iowa Code section 321.180(2) "d."

b. Cargo. The cargo restriction (X, no cargo in CMV tank vehicle) applies to a permit holder who has a commercial learner's permit with a tank vehicle endorsement and prohibits the operation of any tank vehicle containing cargo or any tank vehicle that previously contained hazardous materials that has not been purged of any residue.

This rule is intended to implement Iowa Code sections 321.180, 321.186 and 321.188.

761—607.27(321) Knowledge tests.

607.27(1) General knowledge test. The general knowledge test for a commercial driver's license is a written test of topics such as vehicle inspection, operation, safety and control in accordance with 49 CFR Section 383.111.

607.27(2) Additional tests. In addition to the general knowledge test for a commercial driver's license, an additional knowledge test is required for each of the following:

- a.* Class A license for combination vehicle operation as required in 49 CFR Section 383.111.
- b.* Hazardous material endorsement as required in 49 CFR Section 383.121. The knowledge test for a hazardous material endorsement shall not be administered orally or in a language other than English.

607.30(2) Certification of third-party testers.

a. The department may certify as a third-party tester a community college or Iowa-based motor carrier to administer skills tests. A community college or Iowa-based motor carrier that seeks certification as a third-party tester shall contact the department’s office of driver services and schedule a review of the proposed testing program, which shall include the proposed testing courses and facilities, information sufficient to identify all proposed third-party skills test examiners, and any other information necessary to demonstrate compliance with 49 CFR Section 383.75.

b. No community college or Iowa-based motor carrier shall be certified to conduct third-party testing unless and until the community college or Iowa-based motor carrier enters an agreement with the department that meets the requirements of 49 CFR Section 383.75 and demonstrates sufficient ability to conduct skills tests in a manner that consistently meets the requirements of 49 CFR Section 383.75.

c. The department shall issue a certified third-party tester a certificate of authority that identifies the classes and types of vehicles for which skills tests may be administered. The certificate shall be valid for the duration of the agreement executed pursuant to paragraph 607.30(2) “b,” unless revoked by the department for engaging in fraudulent activities related to conducting skills tests or failing to comply with the requirements, qualifications, and standards of this chapter, the agreement, or 49 CFR Section 383.75.

607.30(3) Certification of third-party skills test examiners.

a. A certified third-party tester shall not employ or otherwise use as a third-party skills test examiner a person who has not been approved and certified by the department to administer skills tests. Each certified third-party tester shall submit for approval the names of all proposed third-party skills test examiners on a form provided by the department. b. The department shall issue a certificate of authority for each person certified as a third-party skills test examiner that identifies the certified third-party tester for which the person will administer skills tests and the classes and types of vehicles for which the person may administer skills tests. The certificate shall be valid for a period of four years from the date of issuance of the certificate.

c. The department shall revoke the certificate if the person holding the certificate does not administer skills tests to at least ten different applicants per calendar year; does not successfully complete the refresher training required by 49 CFR Section 384.228 every four years; is involved in fraudulent activities related to conducting skills tests; or otherwise fails to comply with and meet the requirements, qualifications and standards of this chapter or 49 CFR Sections 383.75 and 384.228.

d. A third-party skills test examiner who is also a skills instructor shall not administer a skills test to an applicant who received skills training from that third-party skills test examiner.

607.30(4) Bond. As a condition of certification, an Iowa-based motor carrier must maintain a bond in the amount of \$50,000 to pay for the retesting of drivers in the event that the third-party tester or one or more of its third-party skills test examiners are involved in fraudulent activities related to conducting skills tests of applicants for a commercial driver's license.

607.30(5) Limitation applicable to Iowa-based motor carriers. An Iowa-based motor carrier certified as a third-party tester may only administer the skills test to persons who are enrolled in the Iowa-based motor carrier's commercial driving instruction program and shall not administer skills tests to persons who are not enrolled in that program.

A third-party skills tester certified under rule 761—607.30(321) shall transmit the skills test results of tests administered by the third-party tester through secure electronic means determined by the department. The department may retest any person who has passed a skills test administered by a certified third-party tester if it appears to the department that the skills test administered by the third-party tester was administered fraudulently or improperly, and as needed to meet the third-party skills test examiner oversight requirements of 49 CFR Section 383.75(a)(5).

761—607.46 to 607.48 Reserved.

761—607.49(321) Restricted commercial driver's license.

607.49(1) Scope. This rule pertains to the issuance of restricted commercial driver's licenses to suppliers or employees of suppliers of agricultural inputs. Issuance is permitted by 49 CFR 383.3(f). A restricted commercial driver's license shall meet all requirements of a regular commercial driver's license, as set out in Iowa Code chapter 321 and this chapter of rules, except as specified in this rule.

(2) Transport the hazardous materials listed in paragraph 607.49(3) "b."

(3) Operate only during the current, validated seasonal period.

b. A restricted commercial driver's license is not valid for transporting hazardous materials requiring placarding, except as follows:

(1) Liquid fertilizers such as anhydrous ammonia may be transported in vehicles or implements of husbandry with total capacities of 3,000 gallons or less.

(2) Solid fertilizers such as ammonium nitrate may be transported provided they are not mixed with any organic substance.

(3) A hazardous material endorsement is not needed to transport the products listed in the preceding subparagraphs.

c. When not driving for agricultural input purposes, the license is valid for operating a noncommercial motor vehicle that may be legally operated under the noncommercial license held by the licensee.

607.49(4) Requirements.

a. The applicant must have two years of previous driving experience. This means that the applicant must have held a license that permits unaccompanied driving for at least two years. This does not include a motorized bicycle license, a minor's school license or a minor's restricted license.

b. The applicant must have a good driving record for the most recent two-year period, as defined in subrule 607.49(5).

c. An applicant who currently holds a commercial driver's license or a commercial learner's permit is not eligible for issuance of a restricted commercial driver's license.

607.49(5) Good driving record. A "good driving record" means a driving record showing:

a. No multiple licenses.

b. No driver's license suspensions, revocations, disqualifications, denials, bars, or cancellations of any kind.

607.49(6) Issuance.

a. The knowledge and skills tests described in rules 761—607.27(321) and 761—607.28(321) are waived.

b. A restricted commercial driver's license shall be coded with restriction "W" on the face of the driver's license, with the restriction explained in text on the back of the driver's license. In addition, the license shall be issued with a restriction stating the license's period of validity.

c. The expiration date for a restricted commercial driver's license that is converted to this license from another Iowa license shall carry the same expiration date as the previous license.

d. A restricted commercial driver's license may be renewed for the period of time specified in Iowa Code section 321.196. The licensee's good driving record shall be confirmed at the time of renewal.

e. The fee for a restricted commercial driver's license shall be as specified in Iowa Code section 321.191.

f. On or before December 31, 2016, there are two periods of validity for commercial motor vehicle operation: March 15 through June 30, and October 4 through December 14. Validity shall not exceed 180 days in any 12-month period. g. On or after January 1, 2017, a licensee may have up to three individual periods of validity for a restricted commercial driver's license, provided the cumulative period of validity for all individual periods does not exceed 180 days in any calendar year. An individual period of validity may be 60, 90, or 180 consecutive days, at the election of the licensee. A licensee may add 30 days to an individual period of validity by applying for an extension, subject to the 180-day cumulative maximum period of validity. A request for extension must be made no later than the date of expiration of the individual period of validity for which an extension is requested; a request for extension made after that date shall be treated as a request for a new individual period of validity. An extension shall be calculated from the date of expiration of the individual period of validity for which an extension is requested. Any period of validity authorized previously by another state's license shall be considered a part of the 180-day cumulative maximum period of validity.

h. A restricted commercial driver's license must be validated for commercial motor vehicle operation for each individual period of validity. This means that the applicant/licensee must have the person's good driving record confirmed at each application for an individual period of validity. Upon confirmation, the department shall issue a replacement license with a restriction validating the license for that individual period of validity, provided the person is otherwise eligible for the license. The fee for a replacement license shall be as specified in Iowa Code section 321.195.

i. The same process must be repeated for each individual period of validity within a calendar year.

This rule is intended to implement Iowa Code section 321.176B.

761—607.50(321) Self-certification of type of driving and submission of medical examiner's certificate.

607.50(1) Applicants for commercial learner's permit or new, transferred, renewed or upgraded CDL.

a. A person shall provide to the department a self-certification of type of driving if the person is applying for:

- (1) A commercial learner's permit,

- (2) An initial commercial driver's license,
- (3) A transfer of a commercial driver's license from a prior state of domicile to the state of Iowa,
- (4) Renewal of a commercial driver's license, or
- (5) A license upgrade for a commercial driver's license or an endorsement authorizing the operation of a commercial motor vehicle not covered by the current commercial driver's license.

b. The self-certification shall be on a form or in a format, which may be electronic, as provided by the department.

607.50(2) *Submission of medical examiner's certificate by persons certifying to non-excepted interstate driving.* Every person who self-certifies to non-excepted interstate driving must give the department a copy of the person's current medical examiner's certificate. A person who fails to provide a required medical examiner's certificate shall not be allowed to proceed with an initial issuance, transfer, renewal, or upgrade of a license until the person gives the department a medical examiner's certificate that complies with the requirements of this subrule, or changes the person's self-certification of type of driving to a type other than non-excepted interstate driving. For persons submitting a current medical examiner's certificate, the department shall post a medical certification status of "certified" on the person's CDLIS driver's record. A person who self-certifies to a type of driving other than non-excepted interstate shall have no medical certification status on the CDLIS driver's record.

607.50(3) *Maintaining certified status.* To maintain a medical certification status of "certified," a person who self-certifies to non-excepted interstate driving must give the department a copy of each subsequently issued medical examiner's certificate valid for the person. The copy must be given to the department at least ten days before the previous medical examiner's certificate expires.

607.50(4) *CDL downgrade.* If the medical examiner's certificate or medical variance for a person self-certifying to non-excepted interstate driving expires or if the Federal Motor Carrier Safety Administration notifies the department that the person's medical variance was removed or rescinded, the department shall post a medical certification status of "not certified" to the person's CDLIS driver's record and shall initiate a downgrade of the person's commercial driver's license or commercial learner's permit. The medical examiner's certificate of a person who fails to maintain a medical certification status of "certified" as required by subrule 607.50(3) shall be deemed to be expired on the date of expiration of the last medical examiner's certificate filed for the person as shown by the person's CDLIS driver's record. The downgrade will be initiated and completed as follows:

a. The department shall give the person written notice that the person's medical certification status is "not certified" and that the commercial motor vehicle privileges will be removed from the person's commercial driver's license or commercial learner's permit 60 days after the date the medical examiner's certificate or medical variance expired or the medical variance was removed or rescinded unless the person submits to the department a current medical certificate or medical variance or self-certifies to a type of driving other than non-excepted interstate.

b. If the person submits a current medical examiner's certificate or medical variance before the end of the 60-day period, the department shall post a medical certification status of "certified" on the person's CDLIS driver's record and shall terminate the downgrade of the person's commercial driver's license or commercial learner's permit.

c. If the person self-certifies to a type of driving other than non-excepted interstate before the end of the 60-day period, the department shall not remove the commercial motor vehicle privileges from the person's commercial driver's license or commercial learner's permit, and the person will have no medical certification status on the person's CDLIS driver's record.

d. If the person fails to take the action in either paragraph 607.50(4) "b" or "c" before the end of the 60-day period, the department shall remove the commercial motor vehicle privileges from the person's commercial driver's license or commercial learner's permit and shall leave the person's medical certification status as "not certified" on the person's CDLIS driver's record.

607.50(5) *Establishment or reestablishment of "certified" status.* A person who has no medical certification status or whose medical certification status has been posted as "not certified" on the person's CDLIS driver's record may establish or reestablish the status as "certified" by submitting a current medical examiner's certificate or medical variance to the department. A person who has failed

to self-certify to a type of driving or has self-certified to a type of driving other than non-excepted interstate must also make a self-certification of type of driving to non-excepted interstate driving. The department shall then post a medical certification status of “certified” on the person’s CDLIS driver’s record.

607.50(6) Reestablishment of the CDL privilege. A person whose commercial motor vehicle privileges have been removed from the person’s commercial driver’s license or commercial learner’s permit under the provisions of paragraph 607.50(4) “d” may reestablish the commercial motor vehicle privileges by either of the following methods:

a. Submitting a current medical examiner’s certificate or medical variance to the department. A person who has failed to self-certify to a type of driving must also make an initial self-certification of type of driving to non-excepted interstate driving. The department shall then post a medical certification status of “certified” on the person’s CDLIS driver’s record and reestablish the commercial motor vehicle privileges, provided that the person otherwise remains eligible for a commercial driver’s license or commercial learner’s permit.

b. Self-certifying to a type of driving other than non-excepted interstate. The department shall then reestablish the commercial motor vehicle privileges, provided that the person otherwise remains eligible for a commercial driver’s license or commercial learner’s permit; the person will have no medical certification status on the driver’s CDLIS driver’s record.

607.50(7) Change of type of driving. A person may change the person’s self-certification of type of driving at any time. As required by subrule 607.50(2), a person certifying to non-excepted interstate driving must give the department a copy of the person’s current medical examiner’s certificate prepared by a medical examiner.

607.50(8) Record keeping. The department shall comply with the medical record-keeping requirements set forth in 49 CFR Section 383.73.

This rule is intended to implement Iowa Code sections 321.182, 321.188 and 321.207.

761—607.51(321) Determination of gross vehicle weight rating.

607.51(1) Actual weight prohibited. In determining whether the vehicle is a representative vehicle for the skills test and the group of commercial driver’s license for which the applicant is applying, the vehicle’s gross weight rating or gross combination weight rating must be used, not the vehicle’s actual gross weight or gross combination weight. For purposes of this rule, “gross weight rating” and “gross combination weight rating” mean as defined in 49 CFR Section 383.5.

607.51(2) Vehicle without legible manufacturer’s certification label. To complete a skills test using a vehicle that has no legible manufacturer’s certification label, whether a power unit or towed vehicle, the applicant must provide documentation of the vehicle’s gross vehicle weight rating, such as a manufacturer’s certificate of origin, a title, or the vehicle identification number information for the vehicle. In the absence of such documentation, the vehicle may not be used, either alone or in combination.

This rule is intended to implement Iowa Code section 321.1.

[ARC 7902B, IAB 7/1/09, effective 8/5/09]

761—610.3(321) Copying files to computer tape cartridges.

610.3(1) Two types of files are available for copying onto blank computer tape cartridges supplied by requesters:

a. Driver's license master file. This file can be sorted by Iowa driver's license number, NDL (no driver's license) number or nonoperator's identification card number. For each individual, the file includes the information that is on the face of the driver's license or nonoperator's identification card: name, address, license or card number, height, weight, gender, eye color, birth date, class of license, restrictions and endorsements. The file does not include the individual's photograph, social security number, or medical or disability information.

b. Driver's license suspension and revocation file. This file can be sorted by Iowa driver's license number, NDL (no driver's license) number or nonoperator's identification card number. For each individual whose privilege to operate motor vehicles or to register vehicles is sanctioned, the file includes the information that is on the face of the driver's license or nonoperator's identification card, plus information on the sanction. The file does not include the individual's photograph, social security number, or medical or disability information. The file is available on a bimonthly basis.

610.3(2) These files may be released only to requesters who are authorized by the Driver's Privacy Protection Act to use the information.

610.3(3) To obtain a copy of either of these files, a requester shall submit a written request to the office of driver services. The blank cartridges needed to copy the files and the appropriate fee for copy preparation and mailing shall accompany the request. The department may require the requester to:

a. Provide proof of identity and authority to secure access to the information.

b. Sign a certified statement or affidavit listing the specific reasons justifying access to the information and provide any proof necessary to establish relevant facts.

610.3(4) Data in a file will be provided only in the sequence currently maintained by the department.

610.3(5) A requested file will be provided within a reasonable period of time but shall not be given priority over other department work.

610.3(6) No warranty is provided concerning the accuracy or completeness of the data. If a copy is unreadable due to the department's negligence or error, the department shall provide a duplicate copy without charge.

761—610.4(321,321A) Certified abstract of operating records.

610.4(1) In accordance with Iowa Code section 321A.3, a printed, certified abstract of the operating record of an individual is available. The record includes the information that is on the face of the individual's driver's license, plus information on the individual's sanctions, reportable vehicle accidents, and convictions. The certified abstract of operating record does not include the individual's photograph, social security number, or medical or disability information.

610.4(2) To obtain a certified abstract of operating record, a requestor shall complete Form 431069, "Privacy Act Agreement for Request of Motor Vehicle Records," and submit it to the office of driver services. Form 431069 must be completed with all required attachments before the department will consider a request for a certified abstract of operating record. A requestor must attach a legible photocopy of the requestor's driver's license or nonoperator's identification card to the form. The statutory fee, if applicable, shall accompany the form.

610.4(3) Personal information and highly restricted personal information protected by Iowa Code section 321.11 and the Driver's Privacy Protection Act may be released only in the following situations:

- a. The requestor has complied with each of the following requirements:
 - (1) Completed Form 431069 and submitted it to the office of driver services;
 - (2) Included all required attachments with the form, including a photocopy of the requestor's driver's license or nonoperator's identification card; and
 - (3) Paid the fee, if applicable, for the requested record.
- b. The department is satisfied that the requestor provided adequate and truthful information on Form 431069 and in the documents that the requestor attached to Form 431069.

610.4(4) The single-use restriction in Iowa Code subsection 321A.3(8) applies only to the certified abstract of operating records and to persons who are subject to the fee listed in Iowa Code subsection 321A.3(1).

610.4(5) Any person who obtains a certified abstract of operating record from the department is required to comply with Iowa Code section 321.11 and the Driver's Privacy Protection Act.

CHAPTER 611
DRIVER'S PRIVACY PROTECTION—DRIVER'S LICENSE
AND NONOPERATOR'S IDENTIFICATION CARD

761—611.1(321) Applicability.

611.1(1) This chapter applies to personal information in records pertaining to drivers' licenses and nonoperators' identification cards. In addition to information on current licensees and cardholders, these records include information on individuals who do not currently hold a driver's license or nonoperator's identification card. Operating records and records of driver sanctions are two examples.

611.1(2) Rules regarding personal information about vehicle owners in records pertaining to certificates of title and vehicle registration are found in 761—Chapter 415.

761—611.2(321) Adoption. The department adopts the Driver's Privacy Protection Act of 1994 (18 U.S.C. § 2721 et seq.) as amended through calendar year 2000 (P.L. 106-346) for driver's license records and nonoperator's identification card records.

761—611.3(321) Definitions.

"Driver's license" is defined in Iowa Code section 321.1.

"Driver's Privacy Protection Act" or *"Act"* means the Act adopted in rule 761—611.2(321).

"Law enforcement agency" includes, but is not limited to, county attorneys, federal district attorneys, attorneys general, and state and federal departments of justice.

"Motor vehicle record" as used in the Act means any record that pertains to a driver's license, nonoperator's identification card, certificate of title, registration receipt, or registration renewal receipt issued by the department or the county treasurer.

"Personal information" means information that identifies an individual, including the items listed in Iowa Code section 321.11 and 18 U.S.C. § 2725 of the Driver's Privacy Protection Act adopted in rule 761—611.2(321). "Personal information" also includes information on an individual's nonoperator's identification card.

[ARC 7902B, IAB 7/1/09, effective 8/5/09]

761—611.4(321) Requirements and procedures. Notwithstanding Iowa Code chapter 22 and 761—Chapter 4, the following procedures implement the Driver's Privacy Protection Act and Iowa Code section 321.11 as they pertain to driver's license records and nonoperator's identification card records. The department does not provide the waiver procedure described in the Driver's Privacy Protection Act (codified as Sec. 2721(d)).

611.4(1) The department may require a person who requests personal information about an individual to:

- a. Submit the request in writing.
- b. Provide proof of identity and authority to secure access to the information.
- c. Sign a certified statement or affidavit listing the specific reasons justifying access to the information and provide any proof necessary to establish relevant facts.

611.4(2) Form 431069, "Privacy Act Agreement for Request of Motor Vehicle Records," must be completed by an applicant and approved by the department before the department may disclose personal information to the applicant without the express written consent of the individual to whom such information applies. On the form, the applicant shall indicate the provision of law that allows the release of personal information to that applicant. For the purpose of this subrule, "applicant" means a person who is not an authorized employee of the department.

611.4(3) An individual's signature on the document providing express written consent allowing disclosure of the individual's personal information to another person must be notarized.

The request shall be deemed timely submitted if it is delivered to the director of driver and identification services or properly addressed and postmarked within this time period.

d. Failure to timely request a hearing on a revocation is a waiver of the right to a hearing under Iowa Code chapter 321J, and the revocation shall become effective on the date specified in the revocation notice.

e. After a hearing, a written decision will be issued by the presiding officer.

620.4(2) Appeal. A decision by a presiding officer shall become the final decision of the department and shall be binding on the department and the person who requested the hearing unless either appeals the decision in accordance with this subrule.

a. The appeal shall be decided on the basis of the record made before the presiding officer in the contested case hearing and no additional evidence shall be presented.

b. Any party may move for default against a party who has requested the contested case proceeding and who has failed to appear after proper service.

c. A default decision or a decision rendered on the merits after a party has failed to appear or participate in a contested case proceeding becomes final agency action unless, within ten days after receipt of the decision, either a motion to vacate is filed and served on the presiding officer and the other parties or an appeal of a decision on the merits is timely submitted in accordance with subrule 620.4(2).

A motion to vacate must state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate.

d. The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

e. Timely filed motions to vacate shall be granted only for good cause shown. The burden of proof is on the moving party. Adverse parties shall have ten days to respond to a motion to vacate.

f. "Good cause" for the purpose of this rule means surprise, excusable neglect or unavoidable casualty.

g. A decision denying a motion to vacate is subject to further appeal in accordance with subrule 620.4(2).

h. A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party in accordance with subrule 620.4(2).

If a petition is based on new evidence, the petitioner shall submit a concise statement of the new evidence and the reason(s) for the unavailability of the evidence at the original hearing.

b. A petition to reopen a hearing may be submitted at any time even if a hearing to contest the revocation was not originally requested or held.

c. A person may appeal a denial of the petition to reopen. The appeal shall be deemed timely if it is delivered to the director of driver and identification services at the address in 761—620.2(321J) or properly addressed and postmarked within 20 days after issuance of the decision denying the petition to reopen.

CHAPTER 630
NONOPERATOR'S IDENTIFICATION
[Prior to 6/3/87, see Transportation Department[820]—(07,C)Ch 12]

761—630.1(321) General information.

630.1(1) The department shall issue a nonoperator's identification card only to an Iowa resident who does not have a driver's license. However, a card may be issued to a person holding a temporary permit under Iowa Code section 321.181.

630.1(2) Information concerning the nonoperator's identification card is available at any driver's license examination station, or at the address in 761—600.2(17A).

761—630.2(321) Application and issuance.

630.2(1) An applicant for a nonoperator's identification card shall complete and sign an application form at a driver's license examination station. The signature shall be without qualification and shall contain only the applicant's usual signature without any other titles, characters or symbols.

630.2(2) The applicant shall present proof of identity, date of birth, social security number, Iowa residency, current residential address and lawful status as required by rule 761—601.5(321). Submission of parent's, guardian's or custodian's consent is also required in accordance with rule 761—601.6(321).

630.2(3) The nonoperator's identification card shall be coded for identification only, as explained on the reverse side of the card. The card shall expire eight years from the date of issue. A card issued to a person who is a foreign national with temporary lawful status shall be issued only for the length of time the person is authorized to be present in the United States as verified by the department, not to exceed two years. However, if the person's lawful status as verified by the department has no expiration date, the card shall be issued for a period of no longer than one year.

630.2(4) Upon the request of the cardholder, the department shall indicate on the nonoperator's identification card any of the following:

- a. The presence of a medical condition.
- b. That the cardholder is a donor under the uniform anatomical gift law.
- c. That the cardholder has in effect a medical advance directive.
- d. That the cardholder is hearing impaired or deaf.
- e. That the cardholder is a veteran.

(1) To be eligible for a veteran designation, the cardholder must be an honorably discharged veteran of the armed forces of the United States, the national guard or reserve forces. A cardholder who requests a veteran designation shall submit Form 432035, properly completed by the cardholder and a designee of the Iowa department of veterans affairs, or the cardholder shall present certification of release or discharge from active duty, DD form 214, to the department indicating that the cardholder was honorably discharged from active duty. A cardholder who was a member of the national guard or reserve forces and who applies directly to the department must present a DD form 214 which indicates that the cardholder was honorably discharged after serving for at least a minimum aggregate (total) of 90 days of active duty service for purposes other than training. A cardholder who was a member of the national guard or reserve forces and who has a discharge document other than a DD form 214 must have the cardholder's eligibility for a veteran designation determined by a designee of the Iowa department of veterans affairs and shall apply to the department for a veteran designation by submitting Form 432035, properly completed by the cardholder and a designee of the Iowa department of veterans affairs.

(2) The department may consult with and defer to the Iowa department of veterans affairs regarding what constitutes a properly completed DD form 214 and veteran status in general.

(3) If the department denies issuance of a nonoperator's identification card with a veteran designation upon presentation of the DD form 214 to the department, the cardholder may obtain a card with a veteran designation if the cardholder submits Form 432035, properly completed by the cardholder and a designee of the Iowa department of veterans affairs.

(4) If the department issues a veteran designation in error or as the result of fraud on the part of the cardholder, the nonoperator's identification card with a veteran designation shall be canceled, and a

duplicate card without the designation may be issued to the cardholder. There shall be no charge to issue a duplicate card if the card was issued in error, unless the error was the result of fraud on the part of the cardholder.

630.2(5) The issuance fee is \$8. However, no issuance fee shall be charged for a person whose license has been suspended for incapability pursuant to rule 761—615.14(321), who has been denied further licensing in lieu of a suspension for incapability pursuant to rule 761—615.4(321), or who voluntarily surrenders the person's license in lieu of suspension for incapability pursuant to rule 761—615.14(321).

630.2(6) An applicant who is a foreign national with temporary lawful status must provide documentation of lawful status as required by 761—subrule 601.5(4) at each renewal.

630.2(7) A person who seeks a nonoperator's identification card that is compliant with the REAL ID Act of 2005, 49 U.S.C. § 30301 note, as further defined in 6 CFR Part 37 ("REAL ID nonoperator's identification card"), must meet and comply with all lawful requirements for an Iowa nonoperator's identification card, and must also meet and comply with all application and documentation requirements set forth at 6 CFR Part 37, including but not limited to documentation of identity, date of birth, social security number, address of principal residence, and evidence of lawful status in the United States. Documents and information provided to fulfill REAL ID requirements must be verified as required in 6 CFR 37.13. An applicant for a REAL ID nonoperator's identification card is subject to a mandatory facial image capture that meets the requirements of 6 CFR 37.11(a). A REAL ID nonoperator's identification card may not be issued, reissued, or renewed except as permitted in 6 CFR Part 37 and may not be issued, reissued, or renewed by any procedure, in any circumstance, to any person, or for any term prohibited under 6 CFR Part 37. The information on the front of any REAL ID nonoperator's identification card must include all information and markings required by 6 CFR 37.17. Nothing in this subrule requires a person to obtain a REAL ID nonoperator's identification card.

630.2(8) A nonoperator's identification card issued to a foreign national with temporary lawful status shall include the following statement on the face of the card: "limited term."

630.2(9) Beginning January 15, 2013, a nonoperator's identification card that is not issued as a REAL ID nonoperator's identification card as defined in subrule 630.2(7) may be marked as required by 6 CFR 37.71 and any subsequent guidance issued by the U.S. Department of Homeland Security.

630.2(10) The department may determine means or methods for electronic renewal of a nonoperator's identification card.

a. An applicant who meets the following criteria may apply for electronic renewal:

- (1) The applicant must be at least 18 years old.
- (2) The applicant updated the applicant's photo at the applicant's last issuance or renewal.
- (3) The applicant's nonoperator's identification card has not been expired for more than one year.
- (4) The department's records show the applicant is a U.S. citizen.
- (5) The applicant's nonoperator's identification card is not marked "valid without photo."
- (6) The applicant is not seeking to change any of the following as it appears on the applicant's nonoperator's identification card:

1. Name.
2. Date of birth.
3. Sex.

b. An applicant who has not previously been issued a REAL ID nonoperator's identification card may not request a REAL ID nonoperator's identification card by electronic renewal.

630.2(11) An applicant for a nonoperator's identification card shall surrender all other driver's licenses and nonoperator's identification cards, other than a temporary permit held under Iowa Code section 321.181. This includes any driver's licenses or nonoperator's identification cards issued by a state other than Iowa or a foreign jurisdiction, unless otherwise provided in a letter of understanding or other written memorialization of reciprocity or understanding. An applicant who renews a nonoperator's

identification card electronically pursuant to subrule 630.2(10) shall destroy the previous nonoperator's identification card upon receipt of a renewed nonoperator's identification card.

761—630.3(321) Duplicate card.

630.3(1) *Lost, stolen or destroyed card.* To replace a nonoperator's identification card that is lost, stolen or destroyed, the cardholder shall provide the cardholder's full legal name, date of birth, and social security number, all of which must be verified by the department, and pay the replacement fee. A cardholder subject to 761—paragraph 601.5(2) "b" shall provide the applicant's U.S. Customs and Immigration Services number, which must be verified by the department. The department may investigate or require additional information as may be reasonably necessary to determine that the cardholder's identity matches the identity of record and shall not issue the replacement card if the cardholder's identity is questionable, cannot be determined, or otherwise does not match the identity of record. If the cardholder's current residential address, name, date of birth, or sex designation has changed since the previous card was issued, the cardholder shall comply with 761—subrule 605.11(2).

630.3(2) *Voluntary replacement.* To voluntarily replace a nonoperator's identification card, the cardholder shall surrender to the department the card to be replaced. The reasons a card may be voluntarily replaced and any additional supporting documentation required are the same as those listed in 761—paragraphs 605.11(2) "a" to "j."

b. Each student shall be scheduled to receive classroom and laboratory instruction each week of the course but in no case shall laboratory instruction conclude later than 30 days after classroom instruction is completed.

c. Behind-the-wheel instruction shall be limited to a maximum of 30 minutes per student per session and a maximum of 60 minutes in a single day.

“Course vendor” means a third-party vendor that makes available commercially an approved course.

“Student” means a person between the ages of 14 and 21 years who is within the custody and control of the teaching parent and who holds a valid Iowa noncommercial instruction permit.

(4) The department has determined the application should be rejected for any reason listed in Iowa Code section 321.13.

c. If the application is denied, the department shall issue a letter of denial to the person explaining the reason or reasons for the denial.

635.2(1) Any entity providing motorcycle rider education to persons under the age of 18 for purposes of early licensing or seeking reimbursement under Iowa Code section 321.179 for providing motorcycle rider education to persons aged 18 and older must teach the motorcycle rider education course approved by the department.

635.2(2) A sponsor must receive approval from the department prior to the beginning of the first class offered and annually thereafter. Private or commercial sponsors must also be licensed by the department prior to the beginning of the first class that is offered and annually thereafter. Application for license issuance or renewal shall be made to the department on forms provided by the department. The fee for a license or the renewal of a license is \$25 for a private or a commercial sponsor. The fee must be paid by cash, money order or check. 635.2(3) The approved course uses a nationally recognized, research-based curriculum. Only persons successfully completing all elements of the approved course shall be issued an Iowa certificate of completion for motorcycle rider education. Issuance of an Iowa certificate of completion to persons who do not successfully complete the approved course is cause for revocation of the instructor’s license and denial of reimbursement to the sponsor for each student involved.

635.2(4) Prior to the beginning of on-cycle instruction, a student enrolled in the approved course must be at least 14 years of age, possess a valid driver’s license as defined in Iowa Code section 321.1, be able to touch the ground with the balls of both feet while sitting astride the training motorcycle, and complete the motorcycle safety course waiver form, including the signature of a parent or legal guardian if the student is under the age of 18.

635.2(5) The scheduled time for instruction—classroom, on-cycle, or a combination of both—shall not exceed eight hours in any one calendar day. During on-cycle instruction, a student shall wear a U.S. DOT-approved helmet, an eye-protective device, and protective clothing, including gloves, a long-sleeved shirt or jacket, long pants, and shoes or boots that cover the feet and ankles.

635.2(6) The student-instructor ratio for classroom instruction shall not exceed 36 to 1. No more than 12 students may receive on-cycle instruction at one time on a single full-size range. The student-instructor ratio for on-cycle instruction shall not exceed 6 to 1.

b. Have an unladen weight that does not exceed 400 pounds.

c. Have a seat height that does not exceed 30 inches.

635.2(9) The driving test for a Class M driver’s license or a motorcycle endorsement may be waived under 761—subrule 604.31(2) provided the applicant has successfully completed the approved course.

The certificate shall verify coverage for scheduled courses of instruction. The certificate shall name the department and its officers, agents, representatives and employees as additional insureds with respect to all work, deliveries or services performed for them by the named insured, and shall specify that the department of transportation, office of driver services, shall be given at least 30 days’ prior notice of any material change in or cancellation of the insurance.

Departmental approval shall be based on the geographical area, the number of students to be served and the availability of moneys in the motorcycle rider education fund. The number of students to be served is determined by range size, the number of courses to be offered, and the number of sponsors providing the course.
- c. Payment to the sponsor for course development expenditures shall be on a cost-reimbursement basis and shall be made after claims under subrule 635.5(5) are paid.

635.5(5) Reimbursement of per pupil costs. The department shall reimburse a sponsor for each student who completes the approved course contingent upon the availability of moneys in the motorcycle rider education fund.

a. Reimbursement shall be paid twice each calendar year, once for training provided from January to June and once for training provided from July to December.

A teacher of an approved motorized bicycle rider education course shall possess a valid license allowing unaccompanied driving other than a temporary restricted license and shall be able to operate a motorized bicycle. A teacher must also have a clear driving record for the previous two years. A clear driving record means the teacher has:

636.8(1) Not been identified as a candidate for driver's license suspension under the habitual violator provisions of rule 761—615.13(321) or the serious violation provisions of rule 761—615.17(321).

636.8(2) No driver's license suspensions, revocations, denials, cancellations, disqualifications or bars.

640.1(1) Definitions. The definitions contained in Iowa Code section 321A.1 are hereby adopted. In addition:

- a. “Department” means the Iowa department of transportation.
- b. Reserved.

640.1(2) Exceptions. Except for accident reporting requirements, this chapter of rules does not apply to the owners or operators of motor vehicles excepted by Iowa Code section 321A.33. To establish availability of an exception, the person required to show proof shall submit to the department a letter from the owner of the motor vehicle authorizing the person to use the motor vehicle.

640.1(3) Submissions and information. All required submissions shall be either mailed to the Office of Driver Services, Iowa Department of Transportation, P.O. Box 9235, Des Moines, Iowa 50306-9235; delivered in person to 6310 SE Convenience Blvd., Ankeny, Iowa; or sent by facsimile to (515)237-3071. Information about the financial responsibility law is available from these sources or by telephone at (800)532-1121.

This rule is intended to implement Iowa Code sections 17A.3, 321A.1 and 321A.33.

761—640.2(321A) Hearing and appeal process. A person who is aggrieved by an action of the department implementing Iowa Code sections 321A.4 to 321A.11 may contest the action in accordance with 761—615.38(17A,321). The administrative law judge in a contested case hearing may subpoena witnesses and conduct any investigation deemed necessary to:

640.2(1) Determine if the person is properly identified with the accident.

640.2(2) Determine if there is any reasonable possibility that judgment could be rendered against the person.

640.2(3) Determine if the person is entitled to any exceptions provided by law.

640.2(4) Determine if the security required following an accident is reasonable and make adjustments deemed necessary or proper.

This rule is intended to implement Iowa Code chapter 17A and section 321A.2.

761—640.3(321A) Accident reporting requirements. Accident reporting requirements are specified in Iowa Code section 321.266 and on Form 433002, “Iowa Accident Report Form,” which is available from law enforcement officers, driver’s license examination stations, or from the office of driver services at the address in subrule 640.1(3).

This rule is intended to implement Iowa Code sections 321.266 and 321A.4.

761—640.4(321A) Security required following accident. Following an accident, security is required pursuant to Iowa Code section 321A.5.

640.4(1) Suspension.

a. If the security requirements of Iowa Code section 321A.5 are not met, the department shall suspend all licenses of the driver and all registrations of the owner.

b. The suspension shall become effective 30 days after a suspension notice is served pursuant to rule 761—615.37(321). The notice shall inform the person of the amount of security required. The duration of the suspension is provided in Iowa Code section 321A.7. When the suspension ends, the department shall issue a suspension termination notice to the person.

640.4(2) Reserved.

640.4(3) Security—amounts and type.

a. The amount of security required of the uninsured driver and owner shall be determined from reports of the drivers involved in the accident, reports of investigating officers and from supplemental information obtained from persons involved in the accident concerning amounts of damage and injury sustained. Form 431020 may be mailed to parties to the accident for supplemental information. The

security required shall not be increased after the suspension notice has been served, but may be reduced if evidence of exact costs is submitted to the department. The amount of security shall not exceed the minimum limits of liability for death or injury specified in Iowa Code chapter 321A.

b. The security shall be deposited with the office of driver services at the address in subrule 640.1(3). The department shall issue to the depositor a receipt when the security is received. The depositor shall surrender the receipt when a refund is requested. Security shall be one of the following types:

- (1) Cash.
- (2) Cashier's check, certified check, bank draft, or postal money order payable to: Treasurer, State of Iowa.
- (3) Surety bond issued by a company authorized to transact insurance business in Iowa.

640.4(4) *Security disposition.*

a. Security is held by the state treasurer and can be released only for payment of a judgment or as otherwise provided in Iowa Code section 321A.10 or by a court "Order for Release of Security," Form 431097, or by "Assignment and Release," Form 433010.

b. The security can be refunded at any time as follows:

- (1) When compliance as provided in 640.4(5) is presented to the office of driver services; or
- (2) When Form 433007, "District Court Affidavit," is completed by the clerk of the district court of the county where the accident occurred, the form indicates that no action has been initiated or judgment rendered, and the form is submitted to the office of driver services.

640.4(5) *Exceptions to requirement of security.* Compliance can be shown as follows: general releases, agreement releases, confession of judgment, accord and satisfaction, covenant not to sue, no-fault or no reasonable possibility of judgment, adjudication nonliability, and bankruptcy.

a. General release. Form 431036, "General Release," may be obtained from the office of driver services at the address in subrule 640.1(3). The signature of the party giving the release shall be notarized or witnessed by a disinterested person. The release shall be accompanied by a power of attorney or subrogation authority if signed by a person other than the party sustaining damage or injury.

b. Agreement release. Form 181301, "Agreement Release," may be obtained from the office of driver services at the address in subrule 640.1(3). Complete information shall be provided on the form including the total amount of settlement agreed upon by the parties involved and a release of liability upon fulfillment of payments. The signatures of all parties to the agreement shall be notarized. The release shall be accompanied by a power of attorney or subrogation authority if signed by a person other than a party sustaining damage or injury. Compliance shall be credited only to a party who has agreed to make payment and whose signature appears on the agreement release.

c. Confession of judgment. A court certified copy of a confession of judgment including the payment schedule agreed to by the parties is acceptable compliance. No specific form is provided by the office of driver services.

d. Accord and satisfaction. Accord and satisfaction may be shown by documentation that one party to an accident or the party's insurance carrier has accepted liability for the accident and has compensated the other party to the accident for damages and injuries. This documentation does not serve as compliance for a third party.

e. Covenant not to sue. A covenant not to sue can be given to a party to an accident as compliance by another party to the accident when a release would damage any claim against a third party.

f. No-fault or no reasonable possibility of judgment. Security cannot be required of a person if there is no reasonable possibility that judgment could be rendered against such person. Freedom from fault or immunity from judgment is acceptable compliance when presented in the following manner:

- (1) The investigating officer's report of the accident indicates the other driver caused the accident.
- (2) The other driver admits causing the accident.
- (3) Witness statements indicate the other driver caused the accident.
- (4) The other driver is convicted of a violation which caused the accident.

g. Adjudication. Adjudication of nonliability may be shown by a certified copy of a final court judgment that is rendered in a civil damage action resulting from the accident and that relieves the uninsured of any obligation to pay damages.

h. Bankruptcy. Security is not required of a person when all possible claims against the person arising from the accident have been scheduled in the bankruptcy petition. To establish this exception, the person shall submit a copy of the petition for bankruptcy to the office of driver services at the address in subrule 640.1(3).

640.4(6) Owner exceptions—requirements.

a. An owner can be excepted from the security requirements if the vehicle was being used at the time of an accident without the owner's consent. The owner may qualify for this exception if the police report indicates the vehicle was stolen, or if the driver was convicted of operating without the owner's consent. In the absence of such police report or conviction, the owner may furnish a sworn affidavit that the vehicle was operated without permission or the owner may furnish affidavits of witnesses that the driver had been denied use of the vehicle.

b. A person may be exempted from the security requirements applicable to an owner if the motor vehicle had been sold but the title had not been transferred when the accident occurred.

(1) The person who sold the motor vehicle may qualify for this exemption by submitting to the department an "Affidavit of Buyer-Seller," Form 431125. This form must be completed by both the buyer and seller with signatures notarized or attested to by an officer of the department.

(2) A sworn affidavit by the seller and witnesses to the sale that the vehicle had been sold may be furnished in lieu of Form 431125. The affidavit must include a description of the vehicle, the date of the sale, the monetary consideration, facts concerning the assignment of title and delivery of possession, and the names of witnesses to the sale.

c. Ownership transferred by operation of law can be shown by furnishing certified copies of any court order by which ownership of a vehicle was awarded to another party.

This rule is intended to implement Iowa Code sections 321A.4 to 321A.11 and 321A.31.

761—640.5(321A) Judgments. A suspension of license and registrations is required when the department receives a certified copy of a judgment which has remained unsatisfied for at least 60 days.

640.5(1) Suspension. The suspension becomes effective on the date Form 431010, a suspension notice, is served pursuant to 761—615.37(321). The notice shall inform the person that the privilege to operate and register motor vehicles in Iowa is suspended until the judgment is satisfied and proof of financial responsibility is shown. The duration of the suspension is provided in Iowa Code section 321A.14. When the suspension ends, the department shall issue to the person Form 431009, a suspension termination notice.

640.5(2) Suspension—exceptions.

a. Creditor's consent. The judgment debtor may request consent from the judgment creditor for issuance of the debtor's license and registrations while paying the judgment. If the creditor consents in writing and the debtor provides proof of financial responsibility, the suspension shall be terminated. If this consent is withdrawn, a new suspension is required in accordance with subrule 640.5(1).

b. Satisfaction of judgment. The judgment suspension will be terminated when the debtor obtains from the clerk of court a certificate of satisfaction or receipt for payment of the judgment and presents the certificate or receipt to the department and files proof of financial responsibility.

c. Bankruptcy. If the debtor submits to the department a copy of the petition for bankruptcy which includes the judgment debt, the department shall terminate the suspension.

d. Court order for installment payments. If the debtor submits to the department a court order authorizing payment of the judgment in installments and files proof of financial responsibility, the department shall terminate the suspension. A new suspension, as provided in subrule 640.5(1), is required when the department receives notice of a default in the payments. The default suspension continues until the judgment is satisfied.

e. Insurance coverage exception. The debtor can be relieved of the suspension if there was liability insurance coverage in effect at the time of the accident from which the judgment was rendered. The

requirements are the same as provided in Iowa Code section 321A.13. The department will accept a letter from the insurance carrier confirming that they were authorized to issue liability insurance and that they did provide coverage for the debtor in amounts required by the financial responsibility law.

This rule is intended to implement Iowa Code sections 321A.12 to 321A.29 and 321A.31.

761—640.6(321A) Proof of financial responsibility for the future. Proof of financial responsibility for the future is required pursuant to Iowa Code sections 321A.13, 321A.14, 321A.16 and 321A.17. Unless the person has filed proof of financial responsibility for all motor vehicles registered to that person, the department shall also suspend the person's motor vehicle registrations.

640.6(1) Duration of proof. Proof of financial responsibility is required for two years starting on the effective date of the person's last suspension or revocation. The requirement terminates if the person required to give proof dies or becomes incapable of operating a motor vehicle, or surrenders license and plates to the department. Reinstatement within the two-year requirement is possible only if the person refiles such proof.

640.6(2) Methods of giving proof.

a. Proof of financial responsibility may be shown by a liability insurance certificate pursuant to Iowa Code section 321A.19. Form SR-22, "AAMVA Uniform Financial Responsibility Form," is required as the form of the certificate. The form may describe an owner's or operator's policy and shall identify the policyholder by name, address, driver license number, and birth date. The effective date of the policy shall be the same as the effective date on the form. The vehicles covered shall be identified by year, make, model and vehicle identification number. The form shall be certified in accordance with the Iowa financial responsibility law by an insurance carrier authorized to transact insurance business in Iowa or by a company authorized by power of attorney. The policy shall be canceled only as provided in Iowa Code section 321A.22. Certification of coverage for an owner's policy authorizes the policyholder to have registrations for the described vehicles. Certification of coverage for an operator's policy does not authorize registrations.

(1) In lieu of Form SR-22, the department shall accept a copy of the form if the copy is no larger than 8½ by 11 inches and is generated by a process that produces an unaltered image or reproduction, except for size and color, of Form SR-22.

(2) In lieu of Form SR-22, the department shall accept an electronic record if the format of the record is approved by the department.

b. Proof may be given for a person who is an operator in the employ of the owner of the motor vehicle, or who is a member of the immediate family or household of the owner pursuant to Iowa Code section 321A.26, if the owner's insurance company certifies Form SR-22 for the person required to show proof. The requirements are given in paragraph 640.6(2) "a" except that the form shall identify both the policyholder and the person for whom proof is given. This certification does not authorize the person required to give proof to register a motor vehicle.

c. Proof may be given for a person who is an operator in the employ of an owner of a fleet of motor vehicles on Form SR-23, "AAMVA Uniform Financial Responsibility Form." The form shall identify the policyholder's name and address, policy number, policy dates and effective date. This certification does not authorize the person required to give proof to register a motor vehicle.

d. Proof may be given for a person who is an operator in the employ of an owner who has qualified as a self-insurer pursuant to Iowa Code section 321A.34. A certificate of self-insurance may be issued by the department to a person in whose name more than 25 vehicles are registered and who submits a financial statement which is found to be satisfactory to the department. Form SR-1, "Application for Self Insurance," shall be completed and submitted to the department with a list of all the owner's motor vehicles registered in Iowa identified by make, year, model, and vehicle identification number. When the application is approved, the department shall issue Form SR-2, "Self Insurance Certificate." Failure to pay a judgment pursuant to Iowa Code section 321A.34 or failure to submit an annual financial statement shall be reasonable grounds for cancellation of the certificate.

640.6(3) Rescinded, effective 1/26/83.

640.6(4) *Terminating the suspension upon filing of proof.* When future proof of financial responsibility is shown and the person is otherwise eligible for licensing, the department shall issue Form 431009, a suspension termination notice, to the person whose privileges were suspended under Iowa Code sections 321A.13, 321A.14, 321A.16 or 321A.17 or rules 640.5(321A) and 640.6(321A). To regain operating privileges, the person shall appear before an Iowa driver license examiner, pass the required examinations, and pay the required fees. The person's operating and registration privileges are restricted to the motor vehicles covered under the proof of financial responsibility filed by the applicant.

640.6(5) *Cancellation of future proof.* An insurance carrier shall only cancel or terminate a certificate of insurance pursuant to Iowa Code section 321A.22. The cancellation shall be certified by an authorized company representative on Form SR-26, "AAMVA Uniform Financial Responsibility." The Form SR-26 shall identify the SR-22 or SR-23 certificate to be canceled by name and address of the person, social security number, birth date, driver license number, number of the policy to be canceled and the effective date of cancellation.

640.6(6) *Suspension when future proof is canceled.*

a. When a person's future proof is canceled, the person shall immediately refile future proof or surrender the license and registrations to the department.

b. If the person fails to refile, Form 431010, a suspension notice, shall be served in accordance with 761—615.37(321). The effective date of the suspension shall be the date the notice is served. The notice shall inform the person that the privilege to operate and register motor vehicles in Iowa is suspended until future proof is refiled. When the person refiles future proof, the department shall issue to the person Form 431009, a suspension termination notice.

640.6(7) *Terminating the two-year proof requirement.* Form 431009, a suspension termination notice, shall be issued to a person who has completed future proof requirements. The form shall notify the person that proof is no longer required and that the person may operate and register motor vehicles without the proof restrictions. If the person's license is still valid, the person shall appear before an Iowa driver license examiner to obtain a duplicate license without the proof restrictions. If the license has expired or has not been reinstated and the person is otherwise eligible for licensing, the person shall pass the required examinations and pay the required fees. The suspension termination notice may also be presented to the county treasurer to obtain a new registration.

This rule is intended to implement Iowa Code sections 321A.12 to 321A.29, 321A.31 and 321A.34. [ARC 7902B, IAB 7/1/09, effective 8/5/09]

761—640.7(321A) Transfer of suspended registration. A person whose motor vehicle registration privileges have been suspended may make a bona fide sale pursuant to Iowa Code sections 321.493 and 321A.30. The department shall release the suspended registration to permit the registration of the motor vehicle by the purchaser when presented with either the seller's sworn statement on Form 433015, "Affidavit of Bona Fide Sale," or confirmation from the county treasurer that the sale has been made and release of the registration is necessary to complete the transfer of title.

This rule is intended to implement Iowa Code sections 321.493 and 321A.30.

CHAPTER 720
IOWA AIRPORT REGISTRATION
[Prior to 6/3/87, Transportation Department [820]—(04,C)Ch 1]

761—720.1(328) Scope. This chapter establishes site approval, registration and registration renewal requirements and minimum safety standards for airports open for use by the public. It also establishes site approval requirements for airports maintained for private use.

761—720.2(328) Definitions. The definitions in Iowa Code section 328.1 and rule 761—700.1(328) shall apply to this chapter. In addition:

“*Obstruction*” means any structure, object of natural growth, or use of land that impedes the airspace required for the takeoff or landing of aircraft at an airport.

“*Private use*” means available for use by the owner or by the owner and other persons authorized by the owner.

“*Public use*” means available for use by the general public without prior approval from the owner or operator.

761—720.3(328) Airport site approval required. A person or governmental subdivision planning to construct or establish an airport shall obtain a certificate of airport site approval from the department before the site is acquired or before the airport is constructed or established.

761—720.4(328) Public-use airport. The site approval requirements of this rule apply to proposed public-use airports. The remaining requirements apply to existing public-use airports.

720.4(1) Application for site approval. The sponsor shall complete Iowa Department of Transportation Form 300025, “Airport Site Approval and New Registration Application,” and submit it to the office of aviation. This form is available from the Office of Aviation, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; telephone (515)239-1468; or through the department’s Web site at www.iowadot.gov.

720.4(2) Site requirements. Before issuing a certificate of airport site approval, the department shall:

- a. Review the application and, if necessary, inspect the site. The sponsor shall ensure access to the site for the inspection at a reasonable time convenient for department personnel.

- b. Require a current airspace determination issued by the FAA which concludes that the proposed site will not adversely affect the safe and efficient use of airspace.

720.4(3) Certificate of site approval.

- a. After the application, inspection and FAA approval requirements have been met, the department shall issue a certificate of site approval for the airport if it complies with the minimum airport safety standards established by the department.

- b. The certificate of site approval shall locate the proposed airport by geographical coordinates; section, township and range; and distance and direction from an established nearby community.

- c. The certificate of site approval shall be valid for two years from the date of issuance.

- d. Aircraft operations shall not be permitted at the proposed site prior to airport registration.

720.4(4) Registration. When construction is complete, the sponsor shall notify the department. The department shall inspect the airport and, if the airport is in compliance with the minimum safety standards designated by the department, shall issue the airport registration certificate.

720.4(5) Registration renewal. Each airport shall apply annually for a registration renewal on a form provided by the department. The department shall issue a registration certificate to a public-use airport if the airport is in compliance with the minimum safety standards designated by the department.

720.4(6) Airport inspection. Each registered public-use airport is subject to inspection by the department at any reasonable time. If the inspection by the department reveals an unsafe condition or a failure to meet the minimum safety standards, the department shall record that fact and shall notify the airport sponsor in writing with necessary corrective actions. Failure to implement corrective actions may result in airport registration revocation or denial. An FAA inspection of an airport certified under 14 CFR Part 139 may be accepted in lieu of an inspection by the department.

720.4(7) Posting. The airport registration certificate shall be posted in a prominent place available to the public at the airport. If there are no buildings at the airport, the registration shall be displayed at the office of the airport manager or caretaker.

720.4(8) Revocation. Rescinded IAB 7/4/07, effective 8/8/07.
[ARC 3301C, IAB 8/30/17, effective 10/4/17]

c. *Line of sight.* The runway sight distance shall provide an unobstructed line of sight from any point 5 feet above the runway surface to any other point 5 feet above the runway surface for the entire length of the runway; or the sponsor shall post in a conspicuous location a warning about the obstruction in the line of sight.

d. *Temporary warning.* Any part of the runway environment other than the runway which has become temporarily unsafe, or for any reason is not available for use, shall be marked by suitable flags, barriers or flares clearly showing the boundaries of the unsafe or unusable area.

e. *Building location.* Rescinded IAB 7/4/07, effective 8/8/07.

720.10(3) Approach zones.

a. Approaches shall be clear of obstructions above a glide path of 20:1 from the ends of each usable runway. If an obstruction exists in an approach zone, the runway threshold on a paved runway shall be displaced in accordance with FAA Advisory Circular 150/5340-1L (Standards for Airport Markings)

as amended through September 27, 2013. On a nonpaved runway, the runway end markers shall be relocated to provide the prescribed obstruction clearance. The runway length remaining between the displaced threshold and the departure end of the runway is the landing distance available.

b. When the approach zone to any runway crosses a road or railroad, the glide path on a 20:1 ratio shall pass at least 17 feet above an interstate highway, 15 feet above any other public roadway, 10 feet above a private road, and 23 feet above a railroad.

720.10(4) Facilities. The airport shall provide all of the following facilities:

a. Wind indicator. The airport shall be equipped with a wind sock, blaze orange in color, which shall be clearly visible from the traffic pattern altitude within one mile of the airport during daylight hours. If the airport is lighted for night operation, the wind sock shall also be lighted.

b. Lighting. If an airport is lighted for night operation, the system shall be lighted from dusk to dawn. An operable air-to-ground controller for the lighting system will meet this requirement.

c. Telephone. A telephone shall be available for public use.

d. Fire extinguisher. At least one operational class B and class C fire extinguisher capable of extinguishing all classes of fires shall be readily accessible to aircraft fueling or ramp areas.

720.15(3) Temporary closing. When conditions require the temporary closing of a runway, it shall be marked on both ends with a yellow X in accordance with FAA Advisory Circular 150/5340-1L (Standards for Airport Markings) as amended through September 27, 2013.

720.15(4) Repayment of financial assistance.

a. Review of closure on or after October 4, 2017. Within 30 days of closing an airport (other than temporary closing), the sponsor shall request from the department a review of contractual obligations that require repayment of financial assistance. The department will provide a determination detailing grant obligations that must be repaid. Any repayment of grants must be made to the department in no more than five equal annual installments, beginning one year from the airport's closure date. If an alternative future use of the airport facility is planned for a project that creates jobs and expands the economy, the sponsor may, within 30 days of the department's determination, request forgiveness of repayment. The request must include a plan detailing the alternative future use of the airport facility, an explanation of how the alternative future use creates jobs and expands the economy, a cost-benefit analysis from the sponsor, a commitment of private investment in the project equal to at least two times the amount of repayment due to the state, and a commitment from the sponsor, or associated political subdivision(s), to complete the alternative use project within five years. The department will review the request for forgiveness of repayment and approve or deny the request within 60 days of receipt.

b. Review of closure after July 1, 2015, and before October 4, 2017. An airport that closed after July 1, 2015 (other than temporary closing), but before October 4, 2017, is eligible to request forgiveness for repayment of financial assistance from the department. By November 3, 2017, the sponsor shall request from the department a review of contractual obligations that require repayment of financial assistance. The department will provide a determination detailing grant obligations that must be repaid. Any repayment of grants must be made to the department in no more than two equal annual installments, beginning one year from October 4, 2017. If an alternative future use of the airport facility is planned for a project that creates jobs and expands the economy, the sponsor may, within 30 days of the department's determination, request forgiveness of repayment. The request must include a plan

detailing the alternative future use of the airport facility, an explanation of how the alternative future use creates jobs and expands the economy, a cost-benefit analysis from the sponsor, a commitment of private investment in the project equal to at least two times the amount of repayment due to the state, and a commitment from the sponsor, or associated political subdivision(s), to complete the alternative use project within five years. HIGHWAY-RAILROAD GRADE CROSSING WARNING DEVICES
[Prior to 6/3/87, Transportation Department [820]—(10,B)Ch 2]

761—811.1(307) Standards. All highway-railroad grade crossing warning devices installed shall conform to Part 8, “Traffic Controls for Highway-Rail Grade Crossings,” of the “Manual on Uniform Traffic Control Devices” as adopted in 761—Chapter 130.

This rule is intended to implement Iowa Code paragraph 307.26(5)“b” and sections 321.252 and 327G.2.

CHAPTER 812
CLASSIFICATIONS AND STANDARDS FOR
HIGHWAY-RAILROAD GRADE CROSSINGS

[Substance formerly in (06,A)Ch 1]

[Prior to 6/3/87, Transportation Department [820]—(10,B)Ch 3]

761—812.1(307) Purpose. This chapter implements Iowa Code paragraph 307.26(5) “c.” This statute requires the department to classify highway-railroad grade crossings based upon their characteristics, conditions and hazards and to adopt standards for warning devices for each classification.

761—812.2(307) Classification. Crossings shall be classified using the Federal Railroad Administration’s predicted accident methodology.

812.2(1) The following formula is used to calculate an initial accident prediction for a crossing:

$$a = K \times EI \times DT \times MS \times MT \times HP \times HL$$

where:

a = initial accident prediction, in accidents per year at the crossing

K = formula constant

EI = factor for exposure index based on product of highway and train traffic

DT = factor for number of through trains per day during daylight

MS = factor for maximum timetable speed

MT = factor for number of main tracks

HP = factor for highway paved (yes or no)

HL = factor for number of highway lanes

812.2(2) A final predicted accident rate is then calculated from the initial prediction using the most recent five years of accident data for that crossing.

812.2(3) On or before October 1 of each year, the department shall furnish to each highway authority and railroad in Iowa a list of its crossings ranked by final predicted accident rate.

761—812.3(307) Warning device standards and their implementation.

812.3(1) A crossing with a final predicted accident rate of .075 or above is a candidate for upgrading. The following are recommended minimum improvements, subject to the considerations set out in the remainder of this rule.

<u>Number Tracks</u>	<u>Current Installation</u>	<u>Proposed Upgrade To</u>
1	Crossbucks	Flashers
1	Flashers	Gate Arms
2 or more	Crossbucks	Gate Arms
2 or more	Flashers	Gate Arms
2 or more	Gate Arms	4 Quadrant Gate Arms or Raised Medians

812.3(2) The highway authority (governmental unit(s) having jurisdiction of the highway or street at the crossing) and the railroad shall jointly conduct a field review of a crossing they propose to upgrade.

a. Variations of warning devices or warning device circuitry including, but not limited to, prediction circuitry, motion sensor circuitry and cantilever assemblies shall be determined by conditions at the crossing site.

b. Site conditions shall determine whether safety improvements to correct these conditions should be made in lieu of the upgrades listed in subrule 812.3(1). Safety improvements are generally recommended if they would be less expensive than the upgrades and would result in a final predicted accident rate lower than .075. Safety improvements to consider include, but are not limited to,

luminaires, pavement markings, sight distance improvement, signing modifications, rail signal/traffic signal interconnections, surveillance systems and crossing surface extensions.

812.3(3) The highway authority shall consider crossing consolidation or closure in lieu of upgrading the warning devices at a crossing. A grade separation may also be considered, but the decision to construct a separation is based on factors beyond the scope of this chapter.

812.3(4) When planning a highway improvement project encompassing or adjacent to a crossing, the highway authority shall consider the effects of the project on the crossing.

812.3(5) An agreement between the highway authority and the railroad is required for warning device installations at a new crossing location and warning device upgrades on a detour.

761—812.4(307) Effect of rules.

812.4(1) In accordance with Iowa Code paragraph 307.26(5)“c,” the department of transportation is not liable for the development or adoption of the classifications or standards. A government agency, department, or political subdivision is not liable for failure to implement the standards.

812.4(2) Nothing in this chapter shall preclude a highway authority and railroad from upgrading the warning devices at any crossing under their jurisdiction.

These rules are intended to implement Iowa Code paragraph 307.26(5)“c.”

CHAPTER 813
CLOSE-CLEARANCE WARNING SIGNS ALONG RAILROAD TRACKS

761—813.1(327F) Purpose and scope. This chapter implements Iowa Code section 327F.13. This statute requires the Iowa department of transportation (department) to implement the placement of close-clearance warning signs along railroad tracks where the close clearance between the tracks and an obstruction physically impedes a person who is lawfully riding the side of a train from clearing the obstruction. This chapter only applies when funds are available from the department to reimburse the owner for the cost of the close-clearance warning sign and installation.

[ARC 8202B, IAB 10/7/09, effective 11/11/09]

761—813.2(327F) Applicability. This chapter applies to railroad companies as well as industries, agricultural cooperatives or other entities that are owners of a railroad track, and it applies to individuals who are owners of a railroad track. This chapter does not apply to any railroad locations where locomotives are powered by overhead or suspended electric power.

[ARC 8202B, IAB 10/7/09, effective 11/11/09]

761—813.3(327F) Information. Information regarding this chapter is available from the Office of Rail Transportation, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; telephone (515)239-1140.

[ARC 8202B, IAB 10/7/09, effective 11/11/09]

761—813.4(327F) Definitions.

“*Close clearance*” means a permanent or temporary situation where an obstruction near a railroad track physically impedes a person who is lawfully riding the side of a train from clearing the obstruction. Rule 761—813.5(327F) provides further detail on the dimensions that identify a close-clearance situation.

“*Obstruction*” means a building, machinery (other than equipment designed for operation on a railroad track when actually located on a railroad track), tree, brush or other object.

“*Owner*” means the railroad company, industry, agricultural cooperative, other entity, or individual that holds a fee simple title, easement, leasehold, contract to purchase, license, or other legal or equitable interest or right in the railroad track, and is in primary possession and control of the railroad track.

“*Tangent track*” means a track segment without any curves.

[ARC 8202B, IAB 10/7/09, effective 11/11/09]

761—813.5(327F) Close-clearance dimensions.

813.5(1) Close clearance for tangent track is a location along the railroad track where there is an obstruction that falls within the following dimensions: starting at the centerline of track at top of rail and extending 5 feet both sides horizontally and level therewith, thence upward vertically 15 inches, thence upward diagonally to a point 4 feet above top of rail and 8 feet laterally from centerline of track, thence vertically to a point 20 feet above top of rail, thence diagonally to a point 6 feet from centerline of track and 22 feet above top of rail, thence horizontally to centerline of track. Vertical clearance shall be 18 feet above top of rail at the entrance to and inside buildings. On curved track, clearances on each side of the track centerline shall be increased 1½ inches per degree of curvature. (See Figure 1.)

Figure 1

813.5(2) Reserved.

[ARC 8202B, IAB 10/7/09, effective 11/11/09]

761—813.6(327F) Signing requirements.

813.6(1) A close-clearance warning sign or signs are required at all locations where there is close clearance. It is the responsibility of the owner to ensure that all close-clearance locations have warning signs.

813.6(2) If an obstruction creating a close-clearance situation is a temporary or nonpermanent obstruction, in lieu of signing the owner may meet the requirements of this rule by opting to remove the obstruction or remove the track from service until the obstruction is removed.

813.6(3) A close-clearance warning sign shall be placed in a location that provides adequate notice to a person who is lawfully riding the side of a train so that the person may prepare for the close clearance.

813.6(4) A close-clearance warning sign shall comply with the following requirements. A warning sign shall:

- a. Include the words "no clearance." The letters must be black on a white reflective background and be a minimum of 3 inches high.
- b. Be a vertical sign not less than 42 inches in height and 4 inches in width.
- c. Be placed at least 1 foot off the ground or on the obstruction and within 3 feet of the close-clearance location or on the obstruction. Signs shall be located on both sides of the obstruction so as to be visible from both directions.
- d. Not be within 8 feet of the centerline of the tracks.

813.6(5) In the event that the placement of the close-clearance warning sign according to paragraph 813.6(4) "c" or 813.6(4) "d" does not provide adequate notice for a person who is lawfully riding the side of a train to prepare for the close clearance (such as a curve or other sight obstruction), an additional sign

reading “no clearance ahead” shall be placed in a location that provides adequate notice to the person who is lawfully riding the side of the train so that the person may prepare for the close clearance. Depending on the particular environment that makes an additional no clearance ahead sign necessary, a no clearance ahead sign may be required on one or on both sides of the obstruction so as to be visible from both directions.

813.6(6) In the event that the physical environment prevents the placement of a warning sign in accordance with paragraph 813.6(4)“c” or 813.6(4)“d,” the sign shall be placed in a highly visible location that is clearly indicative of the point of close clearance. An alternative size and shape of sign may be used if there is no location available where a standard size and shape sign may be used. Any alternative sign must clearly be identifiable as an indicator of the close-clearance situation.

813.6(7) In limited situations where multiple instances of insufficient clearance occur within a confined area or over a distance, and where posting of multiple warning signs could on its own be a safety hazard, or where multiple signs would create a confusing environment making it difficult to discern the areas that lack clearance, a sign reading “no clearance ahead” may be posted in lieu of multiple signs.

813.6(8) A line or other marker shall be maintained at a distance of 8 feet from the centerline of the track on all platforms, excluding passenger platforms, to indicate the space along the edge of such platform that shall be kept clear of merchandise, material, or other articles that could create a temporary close-clearance situation.

813.6(9) Placement of a warning sign does not relieve the owner from any duties required under Iowa Code chapter 317 or Iowa Code section 327F.27.
[ARC 8202B, IAB 10/7/09, effective 11/11/09]

761—813.7 and 813.8 Reserved.

761—813.9(327F) Enforcement.

813.9(1) If the owner is provided written notice by an employee, a person working on or near the tracks, or a railroad inspector that a location is in need of a close-clearance warning sign, the owner shall investigate and, if warranted, ensure the placement of a warning sign or signs within 30 calendar days of notification. If a close-clearance warning sign is not warranted, the owner shall inform the person who provided notice, in writing within 30 calendar days, that a sign is not warranted and shall explain why the location does not need a close-clearance warning sign.

813.9(2) If the owner fails to respond to a written notice by an employee or another person working on or near the tracks, or if the employee or other person disagrees with the owner’s determination that a warning sign is not warranted, the employee or other person may notify the department. The department shall investigate and make a determination if the location warrants the placement of a close-clearance warning sign.

a. If the department determines a close-clearance warning sign is warranted, the department shall notify the owner in writing. The owner shall have 14 calendar days from the date of the notification to install the proper warning sign. Failure to install the close-clearance warning sign is evidence that the owner is in violation of Iowa Code section 327F.13.

b. The owner, an employee or a person working on or near the tracks may contest the determination. If the determination is contested, 761—Chapter 13 applies.

[ARC 8202B, IAB 10/7/09, effective 11/11/09]

761—813.10(327F) Reimbursement.

813.10(1) The owner may request reimbursement from the department for up to \$100 per sign for the cost and installation of the close clearance or no clearance ahead warning sign.

813.10(2) To be reimbursed, the owner shall complete Form 291303, “Close-Clearance Warning Sign Certification,” and submit the form to the office of rail transportation. The owner must certify that the warning sign complies with the requirements in rule 761—813.6(327F) and provide proof of purchase.

813.10(3) The department may inspect, at any time, the sign installation to confirm that the warning sign meets the minimum requirements in rule 761—813.6(327F).

813.10(4) Form 291303 is available on the department's website at www.iowadot.gov or from the office of rail transportation.

CHAPTER 820
HIGHWAY GRADE CROSSING SAFETY FUND

[Substance formerly (06,C)Ch 3]

[Prior to 6/3/87, Transportation Department [820]—(10,B)Ch 4]

761—820.1(327G) Definitions. The following terms when used in this chapter of rules shall have the following meanings:

AAR signal unit. The relative maintenance difficulty value assigned to component parts of an active warning device. Units and interpretations are designated by the Association of American Railroads Signal Manual, Part 203 (1984).

Active warning devices. Traffic control devices activated by the approach or presence of a train, such as flashing light signals, flashing light signals with cantilever assemblies, and flashing light signals with automatic gate arms, all of which actively warn motorists of a train.

Maintenance costs of active warning devices. Costs incurred by a railroad associated with the repair or replacement of obsolete, worn out, damaged, or missing component parts of an approved active warning device. Maintenance costs shall include repair or replacement of damaged, vandalized, or stolen component parts only for that amount which exceeds the amount recovered from the liable party or the liable party's insurer.

Safety fund. The highway grade crossing safety fund established in Iowa Code section 327G.19, and administered by the department.

761—820.2(327G) Purpose. The purpose of this chapter is to set out the requirements for use of the highway grade crossing safety fund to reimburse railroads for a portion of the maintenance costs associated with active warning devices.

761—820.3(327G) Information and submissions. Information about this chapter may be obtained by contacting the department at the following address: Office of Rail Transportation, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; telephone (515)239-1140. Submissions to the department under this chapter shall be sent or delivered to this address.

761—820.4(327G) Participation in the maintenance costs of eligible warning devices. The highway grade crossing safety fund shall be used to participate in the annual maintenance costs of active warning devices ordered or agreed to be installed on or after July 1, 1973, as stated in the individual order or agreement.

820.4(1) Orders or agreements that provide for revision of the maximum amount that can be expended from the highway grade crossing safety fund by reason of amendment to Iowa Code section 327G.15 are binding. These orders and agreements were amended to read: The fund's participation for calendar years preceding 1977 shall be equal to that of the railroad but limited to a maximum of \$450 for any one year, for any one crossing; and for calendar year 1977 and subsequent years, the fund may participate in an amount of up to 75 percent of annual maintenance costs of active warning devices, based upon a cost for each eligible AAR signal unit.

820.4(2) Orders or agreements issued on or after March 8, 1978, shall provide that the highway grade crossing safety fund may be used to participate in an amount of up to 75 percent of the annual maintenance costs of active warning devices, based upon a cost for each eligible AAR signal unit.

820.4(3) Participation in annual maintenance costs is on a reimbursement basis.

761—820.5(327G) Reimbursement.

820.5(1) Calculations. Reimbursement to a railroad for its active warning devices that are eligible for reimbursement under rule 761—820.4(327G) shall equal the number of AAR signal units for that railroad's eligible active warning devices times the average annual maintenance cost per AAR signal unit times the percentage of participation.

a. Each railroad shall tabulate the number of AAR signal units for each eligible warning device and furnish this tabulation to the department. The department shall review the railroads' tabulations for conformance with AAR guidelines.

b. Each year, the department shall compute an average annual maintenance cost per AAR signal unit. This unit cost shall be used by all railroads for billing purposes.

c. The percentage of participation shall not exceed 75 percent.

820.5(2) Billing. Before April 15 of each year, each railroad shall submit one billing to the department covering maintenance costs for the preceding calendar year for all eligible warning devices. Prior to reimbursement, the department may audit the billings to determine conformity of the billings with the orders or agreements. Reimbursement to a railroad may be denied if the railroad fails to submit its billing before April 15.

820.5(3) Proration.

a. If, in any year, the balance of the highway grade crossing safety fund is inadequate to fully reimburse all railroads, the department shall reimburse each railroad on a pro-rata basis.

b. If a warning device has been in operation for less than one calendar year, the maintenance costs shall be prorated from the date the device was placed in operation to the end of that calendar year.

These rules are intended to implement Iowa Code sections 327G.15 and 327G.19.

[Substance formerly in (06,C)Ch 3]

[Prior to 6/3/87, Transportation Department [820]—(10,B)Ch 5]

761—821.1(327G) Definitions. The following terms when used in this chapter shall have the following meanings:

“*Grade crossing surface repair*” means the partial or complete renovation of a highway-railroad grade crossing and the highway approaches to the crossing.

“*Jurisdiction*” means the authority having primary control over a highway, street, or alley.

“*Repair fund*” means the grade crossing surface repair fund established in Iowa Code section 327G.29 and administered by the department.

761—821.2(327G) General information.

821.2(1) The repair fund shall be used for grade crossing surface repair.

821.2(2) Program information, applications and application instructions are available on the department’s Web site at www.iowadot.gov. The program is administered by the Office of Rail Transportation, Iowa Department of Transportation, 800 Lincoln Way, Ames, Iowa 50010; telephone (515)239-1108.

[ARC 2842C, IAB 12/7/16, effective 1/11/17]

761—821.3(327G) Procedures for the use of grade crossing surface repair funds.

821.3(1) Use of funds. A portion of the repair fund, not to exceed 50 percent in any fiscal year, shall be set aside to meet critical or atypical needs. In identifying priorities for the set-aside funds, criteria including, but not limited to, the following shall be considered:

- a. Condition of the crossing.
- b. Safety concerns.
- c. Utilization of the rail line.
- d. Train and motor vehicle traffic density at the site. Special consideration may be given to heavy truck traffic.
- e. Recent or planned development or construction in the vicinity of the crossing.

821.3(2) Notification to department. If a railroad and a jurisdiction agree to use the repair fund for grade crossing surface repair, written notification of the action signed by both parties shall be sent to the department.

a. The notification shall include the American Association of Railroads—Department of Transportation (AAR-DOT) crossing number, the total estimated cost of the repair, and a statement that the railroad and the jurisdiction each agree to pay 20 percent of the cost of the repair.

b. Notification shall be accepted by the department in order of receipt.

821.3(3) Processing an agreement.

a. The department shall determine if the agreed-upon work constitutes grade crossing surface repair and may consult with the jurisdiction or the railroad if further information is needed.

b. If the work constitutes grade crossing surface repair and when funds are available in the repair fund, the department shall furnish the railroad and the jurisdiction with three copies of an agreement for grade crossing surface repair.

c. The railroad and the jurisdiction shall sign all three copies of the agreement and return them to the department.

d. The department shall:

(1) Approve the agreement and obligate from the repair fund an amount equal to 60 percent of the cost of the agreed-upon work.

(2) Sign all three copies of the agreement, retain one copy of the fully executed agreement, transmit one copy to the jurisdiction, and transmit one copy to the railroad, authorizing work to proceed.

821.3(4) *Preaudit.* Prior to approval of the agreement, the department may perform a preaudit evaluation of the railroad.

The preaudit evaluation may include an examination of the railroad's accounting methods and procedures to determine the railroad's ability to segregate and accumulate costs to be charged against the surface repair project; an examination of the railroad's cost factors to ensure their propriety and allowability; and an examination of any other general information available which might be pertinent or necessary in determining the railroad's auditability.

821.3(5) *Review of completed project.* Upon completion of the agreed-upon work, the department, the railroad and the jurisdiction shall review the project to determine satisfactory completion.

821.3(6) *Project billing and payment.*

a. The railroad shall submit to the jurisdiction and the department a final detailed billing covering the actual and necessary costs incurred by the railroad for the agreed-upon work.

b. The jurisdiction and the department shall review the billing for reasonable conformance with the agreement. The department may audit the billing to determine the allowability and propriety of the billing costs in accordance with the agreement.

c. Once the department approves the billing, the department shall pay to the railroad from the repair fund an amount equal to 60 percent of the actual cost of the agreed-upon work.

b. As applicable, the agreement shall address responsibilities for consultant selection, project design, right-of-way acquisition, contracting, construction and materials inspection; documentation required for reimbursement of project costs; loan repayment terms; audit requirements; and maintenance of the completed project.

c. The applicant shall execute the agreement within 180 days following the acceptance of the award. The applicant may request an extension, and department staff may approve an extension for

good cause. Failure to execute an agreement within the specified time may result in forfeiture of the award.

822.13(2) *Reimbursement.* The applicant will be reimbursed for eligible project costs in accordance with the agreement.

822.13(3) *Audits.*

a. Prior to execution of the agreement, department staff may perform a preaudit evaluation of the applicant or others as defined in the agreement. a. Each public transit system shall arrange with the appropriate planning agencies for a review of all projects submitted, shall ensure public participation and discussion, and shall list the projects by priority.

b. Each public transit system shall submit its ranked list of proposed projects to the department.

a. Special projects are extraordinary, emergency or innovative in nature, and may include, but are not limited to, the following purposes:

(1) Expanding the scope of planning, managerial, or technical expertise.

(2) Increasing the public's awareness and understanding of transit.

(3) Enhancing the capacity for administration consolidation and service coordination.

(4) Reducing impediments to intramodal or intermodal transfers.

(5) Increasing the cooperation and coordination between private and public sectors.

b. Proposals for special projects may be submitted to the department at any time.
[ARC 3194C, IAB 7/5/17, effective 8/9/17]

761—920.5(324A) Standards for projects.

920.5(1) Requirements for transit system. A public transit system is eligible for project assistance if the system is in compliance with all of the following criteria:

- a.* The transit system abides by all applicable state and federal laws and regulations.
- b.* The transit system maintains primary documentation for all revenues and expenses for a period of at least three years.
- c.* The transit system maintains the system's policies, routes, schedules, fare structure, and budget in a manner that encourages public review, responsiveness to user concerns, energy conservation, and fiscal solvency.
- d.* The transit system received departmental approval of the system's plan or schedule for repayment of any loan administered by the department.
- e.* The transit system accurately reports all services to be supported with project formula assistance and ensures that all services are open to the general public.

920.5(2) Project conditions. The department shall obligate state transit assistance for joint projects that meet the following criteria:

- a.* Each project must be included in the current year of the locally adopted transportation improvement program.
- b.* Each project shall contain payment criteria, through the joint participation agreement, which are mutually agreed upon by the department and the contracting officer of the transit system.
- c.* Each special project shall have a preestablished basis for determining success using a specified means of performance management and shall have a detailed budget of the resources available and the assistance necessary for implementation.
- d.* State assistance for a special project involving capital expense shall not exceed 85 percent of the project's total capital expense. State assistance for a special project involving operating support shall not exceed 80 percent of the project's total operating expense in the first year and 50 percent of the project's total operating expense in the second year.

920.5(3) Items not eligible for assistance.

- b.* Development of managerial, administrative, or operational systems which duplicate programs made available at no charge to the transit system by the department.

920.5(4) Determination of system eligibility for formula assistance.

a. Prior to the beginning of each fiscal year, each state-designated public transit system's formula percentage shall be determined through the process shown in the appendix located at the end of this chapter.

(1) Transit system data used in determining formula percentage is based only on services which are open to the general public and is derived from the last fiscal year for which complete information is available.

(2) The process shown in the appendix establishes the percentage of available state transit assistance funds not reserved for special projects for which each transit system is eligible during the fiscal year.

b. The amount of each system's eligibility for formula assistance from this appropriation shall be determined by multiplying the system's formula percentage by the amount of the appropriation not reserved for special projects.

c. If the dollar amount of state transit assistance is not known until the funds are actually deposited in the state transit assistance account, the amount of each system's eligibility for formula assistance from these funds shall be determined as follows: At the beginning of each month, the system's formula

percentage shall be multiplied by the amount of new funds not reserved for special projects that were deposited in the state transit assistance account during the previous month.

d. A transit system's eligibility for programmed project assistance may be reduced if it is subject to the sanctions outlined in Iowa Code section 324A.5 or 761—Chapter 910.

920.5(5) *Determination of amount reserved for special projects.* Each fiscal year, at least \$300,000 will be reserved from state transit assistance appropriations for special projects. Any special project funds not obligated in the previous fiscal year and any funds made available through closeout of previously approved projects may also be reserved for special projects. Special project funds are distributed by the department on a discretionary basis in accordance with subrule 920.4(2).

920.6(4) *Advance payment allowed.* Each transit system with a signed joint participation agreement may be paid formula assistance monthly, in advance of project expenditures, if all of the following conditions are met:

a. The transit system included in its application a request for advance allocations as set forth in Iowa Code section 324A.6.

b. The transit system is current on all reporting required by the department.

c. The transit system is current on all scheduled repayments under loan contracts from the department.

[ARC 3194C, IAB 7/5/17, effective 8/9/17]

761—921.7(324A) Reports, and suspension and termination of allocations.

921.7(1) Transit systems receiving advance allocations shall provide quarterly and end-of-the-year financial and statistical reports to the department in the manner and within the time limits described in the state transit assistance joint participation agreements. These reports shall be made through an online portal furnished to the transit systems by the department.

921.7(2) Failure to file quarterly and end-of-the-year financial and statistical reports by any transit system with the department in the manner and within the time limits described in the state transit assistance joint participation agreement shall be cause for suspension or termination of those provisions of the joint participation agreement, and therefore, suspension or termination of advance allocation payments made by the department. The department shall notify any transit system of such actions.

921.7(3) Payment of eligible joint participation agreement expenses to a transit system that has had advance allocation contract provisions suspended or terminated by the department shall be by the method of reimbursement payments as described in the state transit assistance joint participation agreements.

This eligible joint participation agreement amount shall be compared to the total amount of the advance allocations for that joint participation agreement. If the advance allocations' total is greater than the eligible joint participation agreement amount, the transit system must repay the department the difference. After verification of these calculations, the department shall issue to the public transit system an invoice for the amount of the required repayment. Failure to make this repayment shall be grounds for:

- a.* Termination of other transit assistance joint participation agreements with that transit system,
- b.* Suspension or termination of further advance allocations made on future joint participation agreements,
- c.* Reduction of department participation in existing or future joint participation agreements, or
- d.* Reducing future joint participation agreement reimbursement requests of the transit system by an amount not to exceed the unpaid debt owed the department and crediting the outstanding debt of the project being closed out.

921.9(2) The department may institute any such action(s) as stated in subrule 921.9(1) above and shall notify any transit system of such action taken against the transit system.

921.9(3) After the repayment and end-of-the-year financial and statistical reports are submitted, or after the department has instituted any action(s) for failure to do so, the department shall audit the transit system's books, accounts, records and other material and information necessary to determine joint participation agreement compliance. The advance allocations paid to the transit system shall be taken into consideration and made part of the amount to be audited.
