The agenda may include a specific time for the public to address the commission on any issue related to the duties and responsibilities of the commission, except as otherwise provided in these rules.

a. The agenda for each meeting will be posted at the department's main office and on the department's website. The agenda will be provided to anyone who files a request with the department. The final agenda will be posted at least 24 hours prior to the meeting, unless for good cause such notice is impossible or impractical, in which case as much notice as is reasonably possible will be given. Any additions to the agenda after posting and distribution will be posted at least 24 hours prior to the meeting, unless for good cause such notice is impossible or impractical, in which case as much notice as is reasonably possible will be given. The commission may adopt additions to the agenda at the meeting only if good cause exists requiring expeditious discussion or action. - a.* Nonrecurring sale or lease of goods and services if the official is not engaged for profit in the business of selling or leasing those goods or services.
- b.* Sale or lease of farm products at market prices to a buyer ordinarily engaged in the business of purchasing farm products or to the general public at a farmer's market, retail store, or road-side stand.
- c.* Sale or lease of goods to general public at an established retail or consignment shop.

- g.* Sale or lease of goods to general public at market or franchiser-established prices. However, if an official's customer has a matter for decision before the commission, the official shall not participate in the discussion and voting on that matter unless consent has been obtained.
- h.* Sale or lease of real estate at a live auction or through an open or closed bidding process. However, if the buyer, seller, lessee, or lessor has a matter for decision before the commission within the next 12 months, the official shall not participate in the discussion and voting on that matter unless consent has been obtained.
- i.* Leasing of real estate; however, if the lessee or lessor has a matter for decision before the commission, the official shall not participate in the discussion and voting on that matter unless consent has been obtained.

13.4(2) Hazardous conditions. Trees, rock, brush or other natural materials located on sovereign or dedicated lands may be removed by persons without a permit issued pursuant to these rules only after the department, in its sole discretion, determines and evidences in writing that a hazard or other detrimental condition exists and that the proposed mitigative activity is appropriate. Such activity shall be limited only to the work required to address the immediate hazard or other detrimental condition. Any removal allowed by this rule shall conform to the requirements enumerated by the department regarding such removal, or the removal shall be deemed an unauthorized action resulting in damage to public lands and waters. Persons proposing to remove hazards must contact a local department official and request an exception to a permit. The department official shall inspect the hazard and provide written authorization to proceed or shall require the person to apply for a permit.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.5(455A,461A) Interest in real estate. A permit shall be construed to do no more than give the permit holder a license to alter an area as specifically set forth in the permit. The permit creates no interest, personal or real, in the real estate covered by the permit.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.6(455A,461A,462A) Evaluation.

13.6(1) In considering complete applications, the department will evaluate the impact of the proposed activities on public use and enjoyment of public lands or waters, on the natural resources in the areas within and surrounding the proposed activities, and the department's present and future intended management for the area against the applicant's identified and reasonable need to undertake the proposed activities and the viable alternatives that may exist with respect to the proposed activities.

13.6(2) In no event shall the department issue a permit for activities that:

a. May result in the taking, possession, transport, import, export, processing, selling, buying, transporting, or receiving any species of fish, plants or wildlife appearing on lists referenced in Iowa Code section 481B.5, unless the permittee meets one of the exemptions enumerated in rule 571—77.4(481B).

f. Allow fill to be placed beyond the OHWM of waters described in rule 571—13.2(455A,461A,462A) for purposes of regaining land lost due to erosion.

13.6(3) The department may withhold a permit when the applicant has not obtained all other required permits or licenses necessary to construct and operate the proposed activity.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.7(455A,461A,462A) Review standards. Department staff shall conduct an environmental review of the application. In completing the environmental review, different bureaus and staff members of the department will provide input based on law, professional judgment, data and accepted scientific theory. The following standards shall apply to permits issued under the rules of this chapter:

13.7(1) *Uses of public lands and waters.* Development of public lands and public waters permitted by these rules shall be limited to projects that meet all of the following criteria. The projects:

a. Are built to minimally impact the natural resources of public recreational use and navigation on such lands and waters. Specifically, applicants must demonstrate that the project accomplishes all of the following:

- (1) Does not negatively impact water quality in or around the proposed permitted area.
- (2) Minimizes erosion and sedimentation in or around the proposed area.
- (3) Minimizes detrimental impacts to biological and botanical resources in or around the proposed area, including upland, wetland and sensitive areas and unique community structures.
- (4) Complies with laws and regulations related to threatened and endangered species, through both federal and state programs.

b. Utilize the smallest amount of public lands and public waters.

c. Do not convert the public lands and public waters to an exclusive or private use.

d. Are the only viable method for conducting the activities, and no viable alternatives to constructing on public lands exist.

13.7(2) *Shoreline erosion protection and retaining walls.* Shoreline erosion protection activities may be permitted if the activities are in compliance with rule 571—13.6(455A,461A,462A) and the following additional standards:

a. Shoreline erosion protection activities on meandered sovereign lakes shall be limited to placement of native stone riprap, extending to a maximum of four feet horizontally within or below the elevation contour line of the OHWM. Placement of earth fill within the OHWM shall not be allowed. Retaining walls, sheet piling, gabions or other retaining structures shall be placed above the OHWM. When such retaining structures are placed at the OHWM, they must be faced with native stone riprap.

b. Shoreline erosion protection activities on meandered sovereign rivers, except the Mississippi River, shall be limited to placement of approved in-stream erosion control structures or native stone or standard riprap. Riprap shall extend riverward from the OHWM and may not exceed a slope of two feet horizontal to one foot vertical (2:1). Placement of earth fill below the OHWM shall not be allowed. Retaining walls, sheet piling, gabions or other retaining structures shall not be placed within the OHWM. When such retaining structures are placed at the OHWM, they must be faced with riprap.

c. Shoreline erosion protection activities on the Mississippi River shall be limited to placement of approved in-stream erosion control structures or native stone riprap. Riprap shall extend riverward from the OHWM and may not exceed a slope of two feet horizontal to one foot vertical (2:1). Placement of earth fill within the OHWM shall not be allowed. Retaining walls, sheet piling, gabions or other retaining structures shall not be placed within the OHWM. When such retaining structures are placed at the OHWM, they must be faced with native stone riprap.

d. Retaining walls on all meandered sovereign lakes and meandered sovereign rivers. The landowner shall maintain the wall system at all times and take corrective measures to eliminate any nuisance condition, repair deterioration of the structure, eliminate erosion around the structure, and repair damage to the structure caused by the action of the water or ice. When a retaining wall or other structure placed on the shoreline prevents the public from traversing the shoreline, the landowner shall grant the public a license to walk from the landowner's property within 15 feet of the top of the wall or structure for the purpose of traversing the shoreline.

Notwithstanding the prohibitions in this subrule, nothing in this subrule shall prohibit activities that would be part of habitat development or natural resources mitigation projects constructed or approved by a political subdivision of the state and subject to review under these rules.

13.7(3) *Quality of the applicant.* Applicants or authorized agents who have a current violation for another project are not eligible for consideration for a permit under these rules unless and until all other noncompliant projects have been remediated and any enforcement actions related to the same have been resolved or satisfied.

13.7(4) *Cantilever access structures.* Permanent cantilever access structures that lawfully existed and were lawfully permitted under prior sovereign lands construction permit rules as of April 15, 2009, shall be deemed lawfully permitted under these rules. All cantilever access structures that were not

lawfully installed prior to April 15, 2009, or were installed after April 15, 2009, shall be regulated as docks by 571—Chapter 16.

13.7(5) *Beaches, canals, commercial boat ramps, and channels.* Permits may be granted to maintain existing beaches, canals, and channels lawfully installed as of April 15, 2009, to ensure the navigation and safety of those existing lawful beaches, canals, and channels. The department shall not permit new beaches, canals, commercial boat ramps or artificial channels or expansion of existing beaches, canals, commercial boat ramps or artificial channels, except that the department may permit new beaches, canals, commercial boat ramps and artificial channels and expansions of existing beaches, canals, commercial boat ramps and artificial channels when such establishment or expansion would be under the jurisdiction of a political subdivision of the state, would be accomplished to provide public access to the water, and would meet the review standards established by these rules.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.8(455A,461A) Leases or easements as a condition of permits. If a permitted structure or its use will have a continuing impact on the availability or desirability of public lands or public waters, the permit shall be conditioned on the requirement that the permittee obtain a lease or easement under Division II of this chapter. However, a lease or easement shall not be required for proposed activities that are wholly within the scope of the permittee's littoral or riparian rights.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.9(455A,461A,462A) Permit application. Applicants shall apply for permits using an application form provided by the department. 571—13.13(455A,461A) Inspection. The department may inspect the location during the term of the permit to ensure that the permitted activities comply with the terms of the permit. The permittee shall grant the department the right to access the permitted activities for purposes of inspecting the permitted activities during the term of the permit. If the permittee denies permission for entry, the department may obtain an order from the Iowa district court for the county in which the permitted activities or the majority of the permitted activities occur, as needed, to enable the department to carry out its inspection duty. The intent of the inspection is to evaluate compliance with permit conditions and the impact to the natural resources and the public's recreational use of the area.

13.15(2) Types of enforcement actions. A person who violates these rules shall be subject to either of the following:

a. *Criminal enforcement.* A peace officer of the state may issue a citation for each offense. A person who is found guilty of violating these rules shall be charged with a simple misdemeanor for each violation.

b. *Civil enforcement.* A civil penalty may be assessed in conformance with Iowa Code section 461A.5B and rule 571—13.17(455A,461A). Written notice of the violation(s) shall be given to the person against whom disciplinary action is being considered. The notice shall state the informal and formal procedures available for determining the matter. If agreement as to appropriate disciplinary sanction, if any, can be reached between the director and the person against whom disciplinary action is being considered, a written stipulation and settlement between the department and the person shall be entered. Such a settlement shall take into account how the corrective actions described in subrule 13.15(3) shall be accomplished. In addition, the stipulation and settlement shall recite the basic facts and violations alleged, any facts brought forth by the person, and the reasons for the particular sanctions imposed. If an agreement as to appropriate disciplinary action, if any, cannot be reached, the director may issue an administrative order as described in rule 571—13.17(455A,461A).

13.15(3) Actions to be taken upon receipt of citation or notice of violation. A person who has violated these rules shall cease the specified unauthorized activity upon receipt of a citation or as may be stipulated in the notice of violation. The notice of violation or a written notice accompanying the citation from the department shall require the person to take one or more of the following actions within a specified time:

a. Apply for a permit to authorize completion of construction or maintenance and use, as applicable;

b. Remove materials and restore the affected area to the condition that existed before commencement of the unauthorized activity;

c. Remediate the affected area in a manner and according to a plan approved by the department. The department may enforce such a remediation at the expense of the permittee, adjacent landowner or culpable party.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.16(455A,461A) Removal orders. If the violation includes the unauthorized placement of materials or personal property on the public lands or public waters under the jurisdiction of the commission, and the person, who may include a permittee or authorized agent but may not, fails to comply with the action required by the notice, the director may cause a proposed removal order to be issued to the person responsible for such placement. The proposed removal order shall specify the removal action required and include notice of the right to an administrative appeal including a contested case hearing under procedures in 571—Chapter 7. The proposed decision in a contested case may be appealed to the commission under 571—Chapter 7. If there is no appeal from a proposed decision that

includes a removal requirement, the proposed decision shall be presented to the director for review and adoption. A removal order approved by the director shall constitute final agency action under Iowa Code sections 461A.4 and 461A.5A and may be enforced through an original action in equity filed in a district court of the state by the attorney general on behalf of the department and the commission.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.17(455A,461A) Civil penalties. The department may assess a civil penalty of up to \$5,000 per offense for each violation of these rules, provided the department does not utilize a criminal citation for a violation. Each day the violation continues shall be a separate offense or violation. Penalties shall be assessed through issuance of an administrative order of the director which recites the facts and the legal requirements that have been violated and a general rationale for the prescribed fines. The order also may be combined with any other order authorized by statute for mandatory or prohibitory injunctive conditions and is subject to normal contested case and appellate review under procedures in 571—Chapter 7. The proposed decision in a contested case may be appealed to the commission under 571—Chapter 7. The commission may refer orders that include singular or cumulative penalties over \$10,000 to the attorney general's office.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.18(455A,461A) Report of completion. Once an approved activity is completed, the permittee shall notify the department through PERMT using the project's PERMT identification number created through the original application process. The activity shall be subject to final approval before the department determines that the conditions of the permit have been met.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.19(455A,461A) Final inspection. Once the permittee notifies the department pursuant to rule 571—13.18(455A,461A), the department shall inspect the permitted area to ensure that the permittee has complied with the terms of the permit. Such inspection shall occur within 60 days of the department's receipt of the notice provided pursuant to rule 571—13.18(455A,461A). In the event the department does not provide final inspection within 60 days of the department's receipt of the notice provided pursuant to rule 571—13.18(455A,461A), the permittee shall be deemed compliant and the permit shall expire. The intent of this inspection is to evaluate compliance with permit conditions and the impacts to the natural resources and the public's recreational use of the area.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.20(455A,461A) Permit extensions. Prior to the expiration of a permit, a permittee or an authorized agent may submit a written request by email to the department for an extension of the permit. In evaluating whether to grant the extension, the department will consider the work completed, the work to be performed, the extent to which the permit extension is needed and the extent to which the permittee has made efforts to meet the obligations of the original permit. The department reserves the right to modify the conditions of a permit as part of any extension. An extension granted by this rule is not a project modification.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.21(455A,461A) Project modifications. If projects are modified to the extent that the additional or modified work would not be allowed within the original permit, the permittee must apply for a new permit for the additional or modified work.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.22(455A,461A) Transferability. Permits are transferable only upon written approval of the department and only after the department is satisfied that the permitted activities will not change and the new permittee would be eligible to receive a permit under subrule 13.7(3).

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.23 to 13.50 Reserved.

DIVISION II
LEASES AND EASEMENTS

571—13.51(455A,461A) Leases. Where a permitted structure or related activity will have a continuing impact on the availability or desirability of public lands or public waters or exceeds the scope of littoral or riparian rights, the permittee must enter into a lease covering the area affected by the construction. Fees for leases shall be determined by 571—Chapter 17 or other methods approved by the commission and executed pursuant to Iowa Code section 461A.25. Requests for leases shall be made on the form and shall include the information required by rule 571—13.9(455A,461A,462A) under Division I of this chapter. The department may grant a lease if, in the department's sole discretion, the lease will not impair the state's intended use of the area during the term of the lease; the lease will not negatively impact a federal interest, including related deed restrictions, related to the area during the term of the lease; and the lease will not result in an exclusive use.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.52(455A,461A) Easements. The director may grant an easement to political subdivisions and utility companies pursuant to Iowa Code section 461A.25, provided the following terms are met:

13.52(1) Requests for easements shall be made on the form and shall include the information required by rule 571—13.9(455A,461A,462A) under Division I of this chapter. The department may grant an easement if, in the department's sole discretion, the easement will not impair the state's intended use of the area during the term of the easement or the easement will not negatively impact a federal interest, including related deed restrictions, related to the area during the term of the agreement.

13.52(2) The value of an easement shall be determined by the director based upon a real estate appraisal or other method approved by the commission, as evidenced in the meeting minutes thereof. In addition to fees for easements, the director may assess the applicant for the reasonable transaction costs associated with the issuing of an easement including the cost of appraisals, other methods of establishing values, and land surveys. In determining the fee for an easement, the department may consider the value the proposed activity may contribute to the department's management of the affected property.

13.52(3) Recipients of any easements granted pursuant to this rule shall assume liability for structures installed pursuant to such easement and shall comply with the standards enumerated in rule 571—13.7(455A,461A,462A), as applicable, in the sole discretion of the department.

[ARC 7891C, IAB 5/1/24, effective 6/5/24]

571—13.53(455A,461A) Appeals. The department and the commission are under no legal obligation to provide any person a legal interest in property under the jurisdiction of the commission. An applicant may appeal to the director a decision of the department regarding leases and easements and request that the director reconsider a condition of an easement or a lease or a denial of an easement or a lease. The determination of the director shall be final agency action.

The contract may be amended during its term, in writing, and effective only if the amendments are approved by all parties.

14.5(1) Construction. The contract may allow the construction of department-approved buildings or other facilities by the concessionaire in lieu of annual concession fee payments on an equal value basis. The value of the buildings or facilities shall be based on actual, documented cost of construction. Any structures built under this contract condition shall become state property and cannot be removed by the concessionaire unless removal is required by the contract.

14.5(2) Insurance. Insurance coverage required to be carried by the concessionaire shall be "occurrence" type rather than "claims made."

14.5(3) Exclusive rights. The contract gives the concessionaire exclusive rights to conduct the concession operation in a particular state park or recreation area. The concessionaire must have department approval prior to allowing other vendors to do business in the area under the terms of the contract. This provision does not prohibit the department from allowing other vendors in an area if the department identifies a service that is not under contract with the concessionaire and the concessionaire declines to provide that service.

14.5(4) Temporary authorization. If necessary, the department director shall have authority to issue a temporary letter of authorization to enable the successful bidder to operate a concession pending approval of the contract by the commission if commission approval is required by statute. 14.7(1) Emergency suspension. The notice shall contain specific reasons for the emergency suspension.

The department may enforce the suspension by physically closing the concession premises. The department may assign employees to operate any part of a concession which the department determines should be opened during a suspension in order to provide continued services for park users.

If possible, the concessionaire may take action to correct the hazardous situation and request reinstatement of the contract if the department agrees that a hazardous situation no longer exists.

14.7(2) Termination of contract. The department may terminate the contract, for one or more of the following reasons:

a. Failure to correct a hazardous condition within a reasonable time specified in the notice of emergency termination.

15.5(2) Application. Application forms to sell electronically issued licenses may be secured by a written or in-person request to the Licensing Section, Department of Natural Resources, Wallace State Office Building, 502 East 9th Street, Des Moines, Iowa 50319-0034. 15.5(4) Issuance of electronic licensing equipment. Upon the director's approval of an application under this rule and designation of a license agent for electronic license sales, the equipment necessary to conduct such sales will be issued to the license agent by the department subject to the following terms and conditions:

b. The amount of money due for accumulated sales will be drawn electronically by the department on a weekly basis. The license agent shall be given notice of the amount to be withdrawn at least two business days before the actual transfer of funds occurs. (2) If a person does not have a Notice of Decision letter as described in subparagraph 15.23(3)“c”(1), a document shall be provided that states that the applicant’s annual income does not exceed the federal poverty limit for the current year and lists income from all sources, including but not limited to any wages or compensation, social security, retirement income, dividends and interest, cash gifts, rents and royalties, or other cash income. In addition, the applicant shall provide documentation of such income by submitting a copy of the applicant’s most recently filed state or federal income tax return to the department. In the event an applicant does not have a tax return that was filed within the last year because the applicant’s income level does not require the filing of a tax return, the applicant shall so notify the department, shall provide to the department bank statements, social security statements or other relevant income documentation identified by the department, and shall meet with the department to verify income eligibility under this rule.

Federal poverty guidelines are published in February of each year and will be the income standard for applicants from that time until the guidelines are available in the subsequent year. The guidelines will be shown on the application and will be available upon request from the department.

15.23(4) Revocation. Any license issued pursuant to rule 571—15.23(483A) may be revoked, in whole or in part, by written notice, if the director determines that a license holder had provided false information to obtain a license under this chapter or has violated any provision of this chapter and that continuation of the license is not in the public interest. Such revocation shall become effective upon a date specified in the notice. The notice shall state the extent of the revocation and the reasons for the action. Within 30 days following receipt of the notice of a revocation, the license holder may file a notice of appeal, requesting a contested case hearing pursuant to 561—Chapter 7. The notice of appeal shall specify the basis for requesting that the license be reinstated.

571—15.24(483A) Free annual fishing license for persons who have severe physical or mental disabilities.

15.24(1) Purpose. Pursuant to Iowa Code section 483A.24(9), the department of natural resources will issue a free annual fishing license to Iowa residents 16 or more years of age who have severe mental or physical disabilities who meet the definition of “severe mental disability” or “severe physical disability” in subrule 15.24(2).

15.24(2) Definitions. For the purposes of this rule, the following definitions apply:

“*Severe mental disability*” means a person who has severe, chronic conditions in all of the following areas which:

1. Are attributable to a mental impairment or combination of mental and physical impairments;
2. Result in substantial functional limitations in three or more of the following areas of major life activities: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, or economic self-sufficiency;
3. Reflect the person’s need for a combination and sequence of services that are individually planned and coordinated; and
4. Requires the full-time assistance of another person to maintain a safe presence in the outdoors.

“*Severe physical disability*” means a disability that limits or impairs the person’s mobility or use of a hand or arm and that requires the full-time assistance of another person or that makes the person dependent on a wheelchair for the person’s normal life routine.

15.24(3) Procedure. Each person shall apply to the department of natural resources for a license as follows:

a. Application shall be made on a form provided by the department and shall include the name, home address, home telephone number, height, weight, eye and hair color, date of birth, and gender of the applicant and other information as required. The license issued under this rule will be issued by the department upon verification of program eligibility and will be valid until January 10 of the subsequent year. Proof of eligibility must be submitted each year in order to obtain the license.

b. The application shall be certified by the applicant’s attending physician with an original signature and, based upon the definition of severe mental disability or severe physical disability as

provided for in this rule, declare that the applicant has a severe mental or physical disability. A medical statement from the applicant's attending physician specifying the applicant's type of disability shall be on 8½" x 11" stationery of the attending physician or on paper inscribed with the attending physician's letterhead. For purposes of this rule, the attending physician must be a currently practicing licensed physician, osteopathic physician, physician assistant, or advanced registered nurse practitioner.

15.24(4) Revocation. Any license issued pursuant to rule 571—15.24(483A) may be revoked, in whole or in part, by written notice, if the director determines that a license holder had provided false information to obtain a license under this chapter or has violated any provision of this chapter and that continuation of the license is not in the public interest. Such revocation shall become effective upon a date specified in the notice. The notice shall state the extent of the revocation and the reasons for the action. Within 30 days following receipt of the notice of a revocation, the license holder may file a notice of appeal, requesting a contested case hearing pursuant to 561—Chapter 7. The notice of appeal shall specify the basis for requesting that the license be reinstated.

Only conservation officers of the department shall be authorized to issue military transportation tags.

15.25(2) Annual limit for military transportation tags. A person receiving a military transportation tag shall be limited to one military deer tag and one military turkey tag annually.

15.25(3) Regulations apply to military personnel. With the exception of the license requirement exemption set forth in Iowa Code section 483A.24(7), all hunting and fishing regulations shall apply to active duty military personnel.

CHAPTER 16
DOCKS AND OTHER STRUCTURES ON PUBLIC WATERS
[Prior to 12/31/86, Conservation Commission[290] Ch 33]

571—16.1(461A,462A) Definitions.

“Artificial lake” means all river impoundments and all other impoundments of water to which the public has a right of access from land or from a navigable stream inlet. Examples are Lake Panorama, Lake Delhi, Lake Nashua, and Lake Macbride.

“Boat” means “watercraft” as defined in Iowa Code section 462A.2.

“Boat hoist” or *“lift”* means a structure placed in the water or below the ordinary high-water mark for boat storage, including platforms for storage of personal watercraft. For the purposes of this chapter, a boat hoist that is designed to store up to two small vessels such as personal watercraft or one-person sailboats may be treated as a single hoist. For the purposes of this chapter, storage of stand-up paddleboards on racks above the platform of a dock is not counted as a boat hoist or lift; however, a rack for storage of canoes or kayaks is a boat hoist.

“Catwalk” means a platform no more than four feet wide installed to provide access from a dock to a moored boat or boat hoist.

“Commercial dock” means a dock used as part of a business, including a dock extending from residential property if one or more mooring spaces at the dock are rented for a fee. A dock maintenance fee charged by a property owners’ association to its members is not a basis to classify a dock as commercial. This definition is not applicable to docks in dock management areas or concession operations administered by the department.

“Commission” means the natural resource commission.

“Common dock” means a dock serving two or more adjoining shoreline properties.

“Department” means the department of natural resources.

“Director” means the director of the department of natural resources or the director’s designee.

“Dock” means a platform-type structure extending from shoreline property over a public water body, including but not limited to platforms that provide access to boats moored on the water body.

“Dock management area” or *“DMA”* means an area designated by the department in the bed of a water body adjoining a state park, wildlife management area, or recreation area or adjoining a strip of land that was dedicated to the public and is subject to the jurisdiction of the department pursuant to Iowa Code section 461A.11(2). A dock management area as designated by the department includes an area adjoining public land from which docks extend.

“Impoundment” means a body of water formed by constructing a dam across a waterway.

“Public dock” means a dock constructed and maintained to provide public access from public land to a water body.

“Public land” means land that is owned by the state, a city, or a county or land that has been dedicated for public access to a public water body.

“Public water body” is a water body to which the public has a right of access.

“Rental” means taking compensation, trading, or bartering for the usage of a slip or hoist on a Class I or Class III dock, including the rental of a vehicle parking spot that includes the privilege of using a hoist or slip on a Class I or Class III dock.

“Shoreline property” means a parcel of property adjoining (littoral to) a lake or adjoining (riparian to) a river or other navigable stream.

“Slip” means a mooring space, usually adjacent to a dock, sometimes accessed by a catwalk.

“Water body” means a river or other stream, a natural lake, an artificial lake or other impoundment, or an excavated pit.

DIVISION I
PRIVATE, COMMERCIAL AND PUBLIC DOCKS

571—16.2(461A,462A) Scope of division and classes of permits. Permits are required for docks on all water bodies open to the public for boating or other recreational uses. This division governs permits for all types of docks except docks in dock management areas designated by the department. Classes of permits are designated as follows: Class I permits authorize standard private docks, other private docks in specified areas, and docks permitted by the U.S. Army Corps of Engineers; Class II permits authorize docks that are managed by governmental entities and extend from shoreline property owned by those governmental entities; Class III permits authorize nonstandard private docks; and Class IV permits authorize commercial docks. A dock that involves placement of fill or construction of a permanent structure in a state-owned public water body also requires a construction permit issued under 571—Chapter 13. A dock issued a permit by the U.S. Army Corps of Engineers, located on a water body managed by the U.S. Army Corps of Engineers, does not require a state dock permit under this chapter.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.3(461A,462A) Standard requirements for all docks. All docks are subject to the following requirements:

16.3(1) Adverse impacts on aquatic ecosystem. All docks, hoists, slips and related structures shall be located, sized, configured, constructed and installed to limit their adverse impacts on the aquatic ecosystem. In areas of sensitive aquatic habitat, docks and hoists shall be located, configured, constructed and installed to minimize harm to aquatic habitat. Other restrictions may be placed on docks that are in a state-protected waters area as necessary to protect the natural features of the designated area.

16.3(2) Adverse impacts on public access for recreational use. A dock shall not be configured to enclose an area of a public water body and create a private water area or otherwise adversely affect public recreational use of the water body. Where walking or wading parallel to the shore below the ordinary high-water mark would be physically practical except for the obstruction created by a dock, the dock owner shall not prevent a person from stepping on or over the dock to bypass the obstruction.

16.3(3) Location and offsets. To the extent practical, a dock and boat hoists shall be placed near the center of the shoreline property frontage and installed perpendicular to the ordinary high-water mark to maximize offsets from neighboring properties. Each dock, hoist, moored vessel and other permitted structure shall be offset a minimum of five feet from an adjoining property line and five feet from the projection of a line perpendicular from the ordinary high-water mark at the common boundary with adjoining shoreline property as determined by the department. A minimum gap of ten feet shall be maintained between adjoining docks (including “L” or “T” or catwalk segments), hoists or moored boats. Where projection of a line perpendicular from the ordinary high-water mark is impractical, it is the intent of this rule that a ten-foot gap be maintained in a manner that is equitable to each adjoining shoreline property owner.

16.3(4) Length. A dock shall not extend farther from the water’s edge than the distance necessary for reasonable access to the water body in relation to characteristics of the water body in the vicinity of the dock site and the impacts on the water body and other users. Access to maintain one or more boats in water with a minimum depth of three feet shall be considered sufficient access.

16.3(5) Display of 911 address. Each dock owner shall display the 911 address, including the street and city, assigned to the property served by the dock. The owner of a dock authorized by an individual permit shall also display the dock permit number. The information shall be displayed in block letters and numbers at least one inch high in a color contrasting with the background, on the water end of the dock, facing away from shore, and shall be plainly visible.

16.3(6) Winter removal. Each dock must be removed from public waters before December 15 of each year and shall not be reinstalled until the following spring unless the removal requirement is waived by a condition of a dock permit or by rule 571—16.18(461A,462A).

16.3(7) *No enclosure of private docks.* Private docks and docks in dock management areas shall not be enclosed by roofs or sides. Hoists may be enclosed by roofs and sides constructed of soft-sided natural fiber or synthetic fiber materials for the purpose of protecting watercraft.

16.3(8) *Materials and flotation specifications.* Every new floating structure authorized by this chapter shall use flotation methods and devices of a type constructed of low-density, closed-cell rigid plastic foam; high-impact polyethylene fiberglass material; wood products pressure-treated with a product approved by the United States Environmental Protection Agency for aquatic use; or other inert materials to provide flotation. Synthetic (such as plastic or fiberglass) or metal containers not originally manufactured as flotation devices may be used as dock flotation devices if they have been cleaned of any product residue, sealed and watertight, and filled with a closed-cell rigid plastic foam.

16.3(9) *Flow of water.* All docks shall be constructed and placed in a manner that allows the free flow of water beneath them.

16.3(10) *Excavation, fill and aquatic vegetation removal prohibited.* No bed material may be excavated or fill placed, and no aquatic vegetation may be removed below the ordinary high-water mark of a water body in association with construction of a dock unless excavation, placement of fill, or aquatic vegetation removal is specifically authorized by a construction permit issued under 571—Chapter 13.

16.3(11) *Storage, use, and dispensing of fuel.* The storage, use, and dispensing of any fuel on a dock on or over a public water body or adjacent public land shall be in compliance with Iowa Code chapter 101 and administrative rules that implement Iowa Code chapter 101.

16.3(12) *Electrical service.* Any electrical service on or leading to any dock used for storage or dispensing of fuel must comply with the National Electrical Code, 2023 edition. All electrical service leading to docks shall include ground fault circuit interrupter protection.

16.3(13) *Anchoring of river docks.* All river docks must be securely anchored to prevent them from becoming floating hazards during times of high river flows. The riparian owner is responsible for dock retrieval and removal when necessary to prevent or remove a navigation hazard.

16.3(14) *Access for inspection.* A dock, boat hoist, raft, platform, mooring buoy or any other structure on a public water body may be physically inspected at any time by a representative of the department as needed to determine whether it was placed and is maintained in a manner consistent with the requirements in these rules or with a permit issued under these rules.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.4(461A,462A) Class I permits for standard private docks. This rule establishes criteria and procedures for Class I permits for private docks qualifying as standard docks under criteria in this rule and for certain other docks in areas listed in this rule.

16.4(1) *Criteria for standard docks.* A Class I permit for a standard dock may authorize a total of one dock and up to two hoists serving one residence. It may authorize a common dock serving two or more residences located on adjoining shoreline properties. A common dock may include up to three hoists per shoreline property and be eligible for a Class I dock permit. The dock must extend from shoreline property on which one or more of the residences are located and must meet all of the following criteria:

a. Dock length limits. A dock on a natural lake may extend the greater of 100 feet from the water's edge or far enough so that the outer 50 feet of the dock is in 3 feet of water up to a maximum of 300 feet from the water's edge. These lengths shall be measured from the water's edge when the dock is installed. A dock on an artificial lake or river may extend the lesser of 50 feet from the water's edge or one-fourth of the width of the waterway measured from the water's edge when the dock is installed. However, the department may give notice to a property owner that a shorter dock length is necessary to avoid interference with navigation or an adjoining property owner's access. The width of an "L" or "T" segment at the outer end of a dock is included in measuring the length of the dock.

b. Width and configuration of docks on natural lakes. A dock on a natural lake may have no more than one "L" or "T" segment. The total length of the "L" or "T" segment facing opposite from shore may not be greater than 20 feet including the width of the dock. The total area of the "L" or "T" segment may not exceed 200 square feet. That part of the main dock forming the center of a "T" segment or an extension of an "L" segment is included in measuring the area of the "T" or "L" segment. No other part

of the dock may be more than six feet wide. Catwalks shall be at least two feet wide and considered as part of the dock. Catwalks shall be limited in length as in an “L” or “T” segment of the dock construction and may not extend beyond the width of the hoist, except that a catwalk may be extended around the hoist for access to the hoist.

c. Compliance with standard requirements. The dock and associated hoists must comply with the standard requirements in rule 571—16.3(461A,462A) for all docks.

d. Other structures not authorized. A Class I permit does not authorize placement of any other anchored or floating structure, such as a swim raft.

16.4(2) *Class I permits for private docks in other specified areas.* This subrule authorizes issuance of Class I permits for private docks in certain areas where circumstances, including narrowness of the water areas specified below, require different dock and hoist configurations. In the following areas, docks that fail to comply with the offset or ten-foot gap requirement in subrule 16.3(3) but that meet other standard dock requirements in rule 571—16.3(461A,462A) are eligible for a Class I permit, unless they obstruct navigation or an adjoining property owner’s access: canals off West Okoboji Lake; Okoboji Harbor; inside harbor of Harbourage at Clear Lake; Venetian Village Canal at Clear Lake; Cottage Reserve on Lake Macbride; Lake Panorama; canals at Lake Manawa; and Lake Delhi.

16.4(3) *Procedures for issuance of Class I dock permits.* The owner of a standard dock eligible for a Class I permit under the criteria in subrule 16.4(1) or a dock in an area specified in subrule 16.4(2) shall apply for a Class I dock permit via the department’s website. The applicant shall certify that the dock meets the criteria for a Class I permit. The department shall approve the application based on the applicant’s certification and shall assign a permit number, which may be a series of numbers or letters or a combination of numbers and letters. The applicant is responsible for obtaining stickers with the permit numbers and letters, for attaching them to the end of the dock facing opposite from the shoreline, and for displaying the 911 address as provided in subrule 16.3(5). Class I dock permits authorized by this rule are issued without administrative fee and remain valid until the property is sold or transferred. In the event the property is sold or transferred, the new owner may request to transfer the Class I dock permit as provided in subrule 16.11(1). A Class I dock permit shall be valid only while dock and hoists comply with the criteria for a Class I permit.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.5(461A,462A) Class II permits for docks authorized by governmental entities that own or otherwise control shoreline property. This rule authorizes issuance of a Class II dock permit to a governmental entity for docks authorized by that entity to extend from public land owned or controlled by the entity. A Class II permit may include all docks and hoists authorized by a governmental entity on one water body. The Class II dock permit shall require that all docks comply with the standard requirements in rule 571—16.3(461A,462A). Class II permits may include exceptions as needed to provide continuing authorization for docks and hoists that were lawfully installed and maintained before the effective date of certain requirements as set forth in this rule. A dock on a natural lake may extend the greater of 100 feet from the water’s edge or far enough so that the outer 80 feet of the dock is in 3 feet of water up to a maximum of 300 feet from the water’s edge. These lengths shall be measured from the water’s edge when the dock is installed. The governmental entity authorizing maintenance of a dock and boat hoists shall be responsible for enforcing the standard requirements and length limit. The department reserves authority to determine whether the requirements of rule 571—16.3(461A,462A) and the length limit are met upon complaint of a person who claims that a public or private right is adversely affected by a permitted dock. If the department determines that a dock or hoist must be moved or removed from the water body because of an adverse effect, the department shall issue an administrative order to the governmental entity that is authorizing maintenance or use of the dock and to the person who is maintaining or using the dock. Issuance of the administrative order shall trigger a right of the governmental entity and the affected person to a contested case. If shoreline property is public land but there is uncertainty concerning the relationship between the authority of the governmental entity and the authority of the department,

the Class II permit shall include a recital concerning the relative authorities of the department and the permittee. Class II permits are issued without fee and are valid until a classification change is made.

571—16.6(461A,462A) Class III permits for nonstandard private docks. All private docks that are not authorized by Class I or Class II permits shall require a Class III dock permit. In determining whether to issue a Class III permit for a private dock or to condition the permit by denying an application in part, the department shall apply the following criteria:

16.6(1) A Class III private dock permit shall require docks or hoists to be in compliance with requirements in rule 571—16.3(461A,462A), except as provided in rule 571—16.8(461A,462A).

16.6(2) An individual private dock on a natural lake may be permitted by a Class III permit to extend 100 feet from the water's edge or far enough so that the outer 80 feet of the dock is in 3 feet of water when the dock is installed. These lengths shall be measured from the water's edge when the dock is installed. If the water level declines after installation, additional segments may be installed during the season as needed to maintain 80 feet of dock in 3 feet of water, up to a maximum length of 300 feet from the water's edge. However, the department may give notice to a permittee that a shorter dock length is required to avoid interference with navigation or an adjoining property owner's access. The maximum permitted length of an individual private dock on an artificial lake or river is the lesser of 50 feet from the water's edge or one-fourth of the width of the waterway measured from the water's edge at normal water levels. The width of an "L" or "T" segment at the outer end of a dock is included in measuring the length of the dock.

16.6(3) The maximum number of hoists authorized by a Class III permit for an individual private dock is one hoist for every 10 feet of shoreline.

16.6(4) A Class III permit for an individual private dock on a natural lake may not authorize "L" or "T" segments containing more than a total of 240 square feet including the area of the adjoining parts of the main dock.

16.6(5) An individual private dock may be exempted by permit condition from the winter removal requirement in appropriate circumstances under criteria in rule 571—16.12(461A,462A).
[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.7(461A,462A) Class IV permits for commercial docks. In determining whether to issue a Class IV permit for a commercial dock or to condition the permit by denying an application in part, the department shall apply the following criteria:

16.7(1) A Class IV permit shall require docks or hoists to be in compliance with requirements in rule 571—16.3(461A,462A), except as provided in rule 571—16.8(461A,462A). Greater offsets may be required for new commercial docks or hoists if needed to minimize boat traffic and congestion that spills over in front of other shoreline property not owned or controlled by the applicant.

16.7(2) A commercial dock on a natural lake may be permitted to extend a maximum of 300 feet from the water's edge. However, the applicant must provide justification for a length greater than 150 feet and demonstrate that there are no appropriate alternatives available.

16.7(3) The maximum number of hoists or slips authorized by a permit for a commercial dock is one hoist or slip for every ten feet of shoreline. This limit shall not apply where a business operated on the shoreline property primarily involves boat sales, rentals, storage, or other boat services. In calculating the hoist limit, courtesy hoists shall not be counted if they are provided without charge to boaters to temporarily moor their boats while they go ashore to access services at a business on the shoreline property.

16.7(4) A permit for a commercial dock shall not be issued or the permit will include restrictions as needed to prevent uses of the dock that would be incompatible with zoning of the shoreline property from which the dock extends (including special use exceptions or variances recognized by the local governing body). However, a change in local zoning ordinance or termination of a local variance or special use exception shall not automatically be a ground for the department to revoke or refuse to renew a dock permit.

16.7(5) Authorization for roofs or sides on commercial docks or slips may be restricted as needed to minimize adverse visual impact on owners of other property and the public.

16.7(6) Each mooring site (slip) shall be marked by an identifying number or letter, in block style at least 3 inches high, of contrasting color, and located uniformly near the vessel's bow.

571—16.8(461A,462A) Exceptions for renewal of Class III and Class IV permits for existing docks. This rule provides certain exceptions to length limits, hoist limits and platform size limits for docks and hoists that lawfully existed before the effective date of the limits. Criteria for exceptions to offset requirements are separately listed in subrule 16.8(2). Exceptions under this rule are granted at the discretion of the department.

16.8(1) Class III and Class IV permits shall include exceptions as needed to provide continuing authorization for docks and hoists that were lawfully installed and maintained before the effective date of certain requirements as set forth in this rule. Permits shall include exceptions to the length limits in subrules 16.6(2) and 16.7(2) for docks up to 300 feet long that were lawfully installed and maintained before the effective date of the length limits. Permits shall include exceptions to the hoist limit in subrules 16.6(3) and 16.7(3), and to the platform size limit in subrule 16.6(4) for docks and hoists that were lawfully installed and maintained before the effective date of the limits. Any exceptions granted for such docks will expire upon sale or transfer of the property.

16.8(2) An exception to the offset requirements in subrule 16.3(3) shall be granted if the applicant can satisfy all three of the following criteria:

a. The lack of offset on one side of the property is compensated for by a larger offset on the other side of the property;

b. The applicant provides the department with a copy of the written consent of each affected adjoining property owner or an affidavit attesting that the affected adjacent property owner named in the affidavit has verbally given the applicant consent for the requested exception, or provides adequate documentation that the adjoining shoreline parcel is burdened by restrictive covenants, easements, or other valid use restrictions that impose on the owner of the parcel an obligation to tolerate docks and hoists that would otherwise violate the offset or gap requirements in subrule 16.3(3); and

c. The applicant demonstrates that no other dock or hoist configuration is physically practical.

571—16.9(461A,462A) Initial decision and right of appeal. The decision on an application for a Class II, Class III or Class IV permit shall be provided in writing and may grant the permit, grant the permit with specific conditions, or deny the permit. If the decision is to deny the permit or to issue a permit with specific conditions that deny the application in part, the written decision shall include notice of the applicant's right to request a contested case under 571—Chapter 7. An applicant's request for a contested case may include a request for a waiver under the provisions of Iowa Code section 17A.9A and 571—Chapter 11.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.10(461A,462A) Application and administrative fees.

16.10(1) The applicant for a Class II, Class III or Class IV permit shall apply via the department's website. If the applicant for a Class III or Class IV permit is not the owner of the shoreline property from which the dock extends, the applicant shall identify the contractual relationship between the applicant and each property owner and shall submit as part of the application the written consent from each owner. The application shall be accompanied by plans and drawings that accurately show the size and location of each boat hoist, slip, platform, catwalk, buoy, or other structure to be maintained in front of the shoreline property. Docks in front of nonadjoining shoreline properties on the same water body owned by the same person or legal entity may be included in one application. An application for renewal of a permit for an existing dock and hoists must specifically describe each requested modification. The applicant shall submit an administrative fee with the application. The application will be assigned to a conservation officer to investigate.

16.10(2) The Class III permit application fee shall be \$125 for one or more individual private docks. The Class IV permit application fee shall be \$250 for one or more commercial docks. A Class III permittee shall pay an annual administrative fee of \$50 for each hoist or slip in excess of a total of four hoists or slips. A Class IV permittee shall pay an annual administrative fee of \$50 for each hoist or slip in excess of a total of six hoists or slips, except for each hoist or slip designated in the permit as courtesy mooring for customers and affixed with a sign identifying it as a courtesy hoist or slip. The hoist/slip fee is due on March 1 of each year or whenever a permit is modified by adding a hoist or slip. Any fees owed to the department shall be paid in full prior to the installation of any portion of an individual private dock or commercial dock and before a boat is placed in a hoist or slip. The department may waive the permit application fee if the application is for a minor modification of an existing permit without an extension of the term of the permit.

571—16.11(461A,462A) Duration and transferability of permits; refund of application fees; suspension, modification, or revocation of permits; complaint investigation; property line location.

16.11(1) *Duration and transferability of dock permits; administrative fee refunds.* With the exception of Class I dock permits, each dock permit shall be issued for a term of five years unless a shorter term is needed due to specified circumstances. The administrative fee paid with an application is nonrefundable unless the application is withdrawn before the department incurs administrative expense in investigating the application. A dock permit is transferable to a new owner of the shoreline property upon request to the department by the new owner; however, if the permit contains exceptions pursuant to rule 571—16.8(461A,462A), those exceptions shall expire upon transfer, and the new owner shall immediately bring the dock into compliance with all current rules.

16.11(2) *Suspension, modification, or revocation of permits.* A dock permit may be modified, suspended, or revoked, in whole or in part, by written notice served in compliance with Iowa Code section 17A.18, if the director determines that the dock is a hazard to other users of the water body, that a violation of any terms or conditions of the permit has occurred, or that continuation of the permit is contrary to the public interest. Such modification, suspension, or revocation is effective upon a date specified in the notice. The notice shall state the extent of the modification, suspension, or revocation, the reasons for the action, and any corrective or preventative measures to be taken by the permittee to bring the dock, structure, or activity into compliance. Within 30 days following receipt of the notice of a revocation or modification, or during the course of a suspension, the permittee may request a hearing in order to present information demonstrating that the alleged violation did not occur or that required corrective and preventative measures have been taken, or to present any other information relevant to a decision as to whether the permit should be reinstated, modified, or revoked. The hearing shall be conducted as prescribed by 571—Chapter 7. After completion of the hearing, a final decision will be made concerning the status of the permit. In the event that no hearing is requested, notices of modification and revocation shall remain in effect, and suspended permits shall be reinstated, modified, or revoked. These procedures are not intended to limit the authority of a department law enforcement officer to issue a citation for a violation of a provision of Iowa Code chapter 461A or 462A, or a provision in this chapter.

16.11(3) *Investigation of complaints.* Any person adversely affected by a permitted dock or associated boat hoist may request, in writing, an investigation and a hearing to reconsider the permit. Requests for hearings shall specify adverse effects on the complainant and shall be made in accordance with procedures described in 571—Chapter 7.

16.11(4) *Determining property boundaries.* An applicant for a permit, a permittee, and an owner of shoreline property adjoining property of an applicant or permittee are responsible for determining the accurate location of common boundaries of their respective properties.

571—16.12(461A,462A) Exemptions from winter removal requirement. This rule provides for exemptions from the general requirement in Iowa Code section 462A.27 that nonpermanent structures

be removed on or before December 15 of each year. Docks and other structures subject to destruction or damage by ice movement must be removed. Where a dock may be left in ice without damage to the dock, it must have reflective material visible from all directions to operators of snowmobiles, other motorized machines, or wind-propelled vessels lawfully operated on the frozen surface of the water body. Generally, ice damage is greatest on Iowa's rivers and natural lakes. Docks must be removed by December 15 of each year unless they have the required reflective materials and are specifically exempted by a condition of a dock permit or are located in one of the areas listed as follows: artificial lakes; Upper Gar Lake; canals off West Okoboji Lake; Okoboji Harbor; Lazy Lagoon portion of Triboji dock management area; Smith's Bay on West Okoboji Lake; area between the trestle and U.S. Highway 71 bridges on Okoboji lakes; Templar Park on Big Spirit Lake; Venetian Village Canal and Harbourage Inlet on Clear Lake; Casino Bay of Storm Lake; Black Hawk Marina at Black Hawk Lake; and canals off Lake Manawa and Carter Lake. A permit shall not authorize an exception from the winter removal requirement unless the applicant provides adequate documentation that the dock will not be damaged by normal ice movement.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.13(461A,462A) General conditions of all dock permits. All dock permits, unless specifically excepted by another provision of this chapter, shall include the following conditions of approval:

16.13(1) The permit creates no interests, personal or real, in the real estate below the ordinary high-water mark nor does it relieve the requirement to obtain federal or local authorization when required by law for such activity. The permit does not authorize the permittee to prevent the public from using areas of the water body adjacent to the permitted structure. However, a lawfully permitted private dock or commercial dock is property of the permittee. Use of the dock is reserved to the permittee and the permittee's invitees, subject to the public right of passage stated in subrule 16.3(2).

16.13(2) A permit is valid only while the permittee has the necessary permissions to use the adjoining shoreline property from which the dock projects.

16.13(3) The permittee shall not charge a fee for use of the dock or associated structure unless: the permit is for a commercial dock; the fee is expressly authorized by the permit; or the permittee is a homeowners association and the fee is for recovery of expenses incurred in providing access to association members.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.14(461A,462A) Permit criteria for rafts, platforms, or other structures. A raft, platform, or other structure maintained on a public water body requires authorization in a permit. The raft, platform, or other structure may not be placed more than 250 feet from the shoreline, shall be equipped with reflectors that are visible from approaching boats, and shall be subject to the winter removal requirement unless specifically exempted by the permit.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

DIVISION II DOCK MANAGEMENT AREAS

571—16.15(461A) Designation or modification of dock management areas.

16.15(1) *Purposes and status of dock management areas.* The director may designate an area of public land under the commission's jurisdiction and adjoining water as a dock management area. The primary purpose of dock management areas is to accommodate requests for boating access from owners of properties that are close to a water body but do not include riparian or littoral property rights. Dock permittees have priority use of the docks for mooring of vessels. However, the docks may be used by members of the public at their own risk for fishing and emergency mooring when public use does not interfere with the permittee's use. Other uses allowed by the permittee shall be the responsibility of the permittee.

16.15(2) Criteria for designation or enlargement. In designating a dock management area or authorizing enlargement of an existing dock management area, the director shall apply the following criteria:

a. The shoreline property in question shall be public land and shall have been developed and managed for recreational access to water or determined by the department to be suitable for such access.

b. The establishment or enlargement of a dock management area shall not adversely affect other public recreational use of the water body.

c. A dock management area shall not be established or enlarged where depth or bottom configuration is incompatible with the placement of docks.

d. A dock management area shall not be established or enlarged where fish and wildlife habitat, other natural resources or scenic features would be disturbed by the presence of docks.

e. Documentation of need for a new or larger dock management area and the lack of adverse impacts of the proposal must be sufficient to clearly outweigh and overcome a presumption against increasing the number or size of dock management areas.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.16(461A) Procedures and policies for dock site permits and hoist or slip assignments in dock management areas.

16.16(1) Application permit and slip assignment. A dock site permit authorizes a person to install and maintain a dock in a designated dock management area. Each permit shall identify the number of hoists or slips to be included for storage of boats at the dock. A separate hoist or slip assignment will be issued for each hoist or slip space at the dock. For purposes of these dock management area rules, “permittee” means the person(s) to whom a dock site permit is issued and the person(s) to whom each hoist or slip assignment is issued. Application forms for dock site permits and hoist or slip assignments in a dock management area shall be made available at a nearby DNR office.

16.16(2) Priority selection process. Dock site permits and hoist or slip assignments shall be available to all members of the public through a selection process based on the following order of priorities. A waiting list shall be established that follows the same order of priorities. First priority is for owners of residences adjoining or immediately across a street from the public land; second priority is for owners of other residences within the housing association or subdivision adjoining or immediately across a street from the public land; third priority is for all other Iowa residents; fourth priority is for nonresidents. The order of priorities, changes in the number of residential units per dock site, and changes in the number of vessels per residential unit will be made effective as existing permits expire. A permittee who has a valid hoist or slip assignment will not lose their assignment to a new higher priority applicant if the permit is renewed prior to it expiring at the end of the five-year term and payment is received by the deadline established in rule 571—16.19(461A). If the permittee fails to renew the permit, the permittee may be placed on the waiting list and the highest person on the waiting list will be offered the open hoist or slip assignment. Any permittee who moves to a new residence may be considered a new applicant when the current permit expires at the end of the five-year term. The permittee will be placed on the waiting list based on the new address, and the highest person on the waiting list will be offered the open hoist or slip assignment. For purposes of these dock management area rules, “residence” means a single residential living unit, which may be a rental unit. Notwithstanding these priorities, if property in the first or second priority category is redeveloped with higher density residential living units, there is no assurance that dock, hoist or slip space will be available to accommodate such increased density before other property included in the first or second priority categories.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.17(461A) Standard requirements for dock management area docks. Docks in dock management areas shall conform to the following requirements:

16.17(1) Occupancy of docks. At least two residences shall share a dock. The department may require that more residences share a dock if there is a waiting list including people in the first or second priority categories established in rule 571—16.16(461A). A maximum of six residences shall share a dock.

16.17(2) Spacing and alignment. Dock sites where feasible shall be at least 50 feet apart.

16.17(3) Dimensions.

a. Length. A dock may extend the greater of 100 feet from the water's edge or far enough so that the outer 80 feet of the dock is in 3 feet of water up to a maximum of 300 feet, but the dock shall be no longer than the length for which the applicant provides justification, and the length shall be stated in the permit.

b. Width. Docks shall be at least four feet wide and no more than six feet wide.

16.17(4) Configuration.

a. "L" or "T" segments. A dock shall have no more than one "L" or "T" segment. The total length of the "L" or "T" segment facing opposite from shore shall not be greater than 20 feet including the width of the dock. The total area of the "L" or "T" segment shall not exceed 200 square feet. That part of the main dock forming the center of a "T" segment or an extension of an "L" segment shall be included in measuring the area of the "T" or "L" segment. A smaller platform size limit may be required at locations specified by the department as having limited available space.

b. Catwalks. Catwalks shall be at least two feet wide and considered as part of the dock. The length limit for an "L" or "T" segment stated in paragraph "a" shall be applicable to each catwalk. A catwalk shall not extend beyond the width of the hoist.

c. Hoists. A hoist or other boat storage structure shall not be placed adjacent to any "L" or "T" segment of a dock or adjacent to any other part of a dock that is more than six feet wide. The hoist shall not exceed ten feet in width at locations specified by the department as having limited available space.

16.17(5) Exceptions for certain dock management areas. Notwithstanding other provisions in this rule, in artificially constructed lagoon or harbor areas, the configuration and dimensions of the docks, catwalks and hoists shall be determined by the department on an individual basis, taking into consideration the physical characteristics of the area, the mooring pattern of boats and public safety. Except at Lake Macbride, the Clear Lake Harbourage, and Lake Odessa, a maximum of two residences, each in accordance with 571—16.16(461A), shall share a single dock site.

16.17(6) Display of dock management area sign, DMA name and dock site number. The end of the dock facing the water shall be marked with the DMA name and dock number as assigned by the department. Each hoist shall also be marked with the hoist assignee's last name and dock site number in two-inch block letters on one of the upright poles. The dock site permittee shall be responsible for installing and maintaining a sign provided by DNR at the landward entrance to the dock. The sign shall state that the dock is privately constructed; it shall include a caution to members of the public with the statement "use at your own risk"; and it shall include the statement "no diving" with a drawing of a diver over which is superimposed the universal no symbol (a circle with a diagonal slash through it).

16.17(7) Other requirements. Standard requirements found in rule 571—16.3(461A,462A) shall apply to all docks in a dock management area except requirements relating to property line offsets and display of information.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.18(461A) Dock management area permit restrictions and conditions. The following conditions and restrictions shall apply to docks in a dock management area.

16.18(1) Use of dock for mooring. Only the persons named as permittees shall have use of the dock for mooring. All vessels must be registered to the permittees and listed on the dock management area permit. A dock site permit or hoist/slip assignment may authorize an exception to allow a vessel of a tenant of the permittee's residential rental unit.

16.18(2) Equitable sharing of dock costs. Permittees shall agree on the equitable sharing of the cost of construction, installation, maintenance and removal of the dock and any other component of the dock. In no case shall a dock owner collect more money from hoist/slip permittees than is needed to cover legitimate dock costs nor make a profit from operating the dock. Doing so is grounds for suspension and/or revocation of the dock permit.

16.18(3) Number of assignments allowed. Only one dock assignment may be allocated to a residence.

16.18(4) *Number of hoists allowed.* Each permittee may be limited to one hoist for one vessel. The number of hoists and vessels for each permittee should be limited, especially when there is a waiting list that includes people in the first or second priority category established in rule 571—16.16(461A).

16.18(5) *Nontransferability of dock permits and privileges.* Dock permits and hoist or slip assignments shall not be transferred, assigned or conveyed by the permittee to any other person.

16.18(6) *Liability insurance.* Prior to constructing a dock or installing hoists, the dock site permittee shall provide proof of a current liability insurance policy in the amount of \$1 million.

16.18(7) *Winter storage of docks, catwalks and hoists on public property.* Winter storage of docks, catwalks and hoists on public property shall not be allowed unless specifically authorized by a dock site permit or hoist assignment. Docks, hoists and catwalks shall be stored at locations determined by the state parks bureau district supervisor as appropriate for an individual dock management area. A dock, catwalk or hoist stored on public land without authorization from the department may be removed by the department at the owner's expense.

16.18(8) *Land use restrictions.* Nothing shall be constructed or placed on public land adjacent to any dock in a dock management area under this rule unless the construction or placement is a necessary appurtenance to the dock as determined by the director.

16.18(9) *Expiration of permits.* The term of a dock site permit and a hoist or slip assignment shall not exceed five years. Renewals shall be requested on a current application form. A permit expires when the permittee fails to apply for renewal prior to the current permit's expiration date.

16.18(10) *Cancellation for nonuse.* A dock site permit or hoist/slip assignment may be canceled for nonuse if the dock or hoist/slip is not used at least one time each calendar year in order to provide space for applicants on a waiting list.

16.18(11) *Other permit restrictions and conditions.* All restrictions and conditions in rule 571—16.13(461A,462A), except subrule 16.13(2), shall apply to all docks in a dock management area. [ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.19(461A) Fees for docks in dock management areas. Payment of the annual dock site permit fee shall be made upon application. Payment of the annual hoist or slip fee shall be made upon application for the hoist or slip assignment. These fees may be paid in a lump sum in advance for the term of the permit or assignment. Failure to pay the annual fee by April 1 of any year may result in revocation or cancellation of the permit or assignment. Payment of any dock management area fee under this rule shall be made to the department of natural resources as specified in the permit. Annual fees are as follows:

	Dock Fee	Hoist Fee
Beed's Lake	\$100	\$50
Black Hawk Lake Marina	\$200	\$50

Triboji Lakeshore	\$250	\$50
Triboji Lazy Lagoon	\$250	\$50 - hoist or slip fee
Pillsbury Point	\$250	\$50

Lower Pine Lake	\$100	\$50
Lake Macbride The Pines	\$600	\$100 - slip fee

571—16.20(461A) Suspension, modification or revocation of dock management area permits. A dock management area permit may be modified, suspended, or revoked, in whole or in part, by written notice, if the director determines that the dock is not safe, that a violation of any terms or conditions of the permit or these rules has occurred, or that continuation of the permit is not in the public interest. Such modification, suspension, or revocation shall become effective upon a date specified in the notice. The notice shall state the extent of the modification, suspension, or revocation, the reasons for the action, and any corrective or preventative measures to be taken by the permittee to bring the dock, structure, or activity into compliance. Within 30 days following receipt of the notice of a revocation or modification, or during the course of a suspension, the permittee may file a notice of appeal, requesting a contested case pursuant to 571—Chapter 7. The notice of appeal shall specify the basis for requesting that the permit be reinstated.

[ARC 7894C, IAB 5/1/24, effective 6/5/24]

571—16.21(461A) Persons affected by DMA permit—hearing request. Any person who claims that riparian or littoral property rights are adversely affected by a DMA dock site permit may request, in writing, a hearing to reconsider the permit. Requests for hearings shall show cause and shall be made in accordance with procedures described in 571—Chapter 7.

[Prior to 5/1/24, subject appeared in Chs 17, 18 and 19]

571—17.1(461A) Purpose. The purpose of these rules is to regulate the practices of leasing of state-owned land, barge fleeting, and permitting of sand and gravel removal in order to protect public and private rights and interests in public waters of the state of Iowa under the jurisdiction of the commission; to protect public health, safety, and welfare; and to protect fish and wildlife habitat.
[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.3(461A) Application for lease or permit. An applicant for, or a renewal of, a lease or permit shall submit an application to the department on forms provided by the department.

[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.4(461A) Lease and permit approval. If the director determines that there is not a material issue concerning whether the application complies with applicable criteria in these rules, a lease will be presented to the commission for further consideration. Upon approval of the commission, the lease will be presented to the executive council for final consideration. Permits will be signed by the director or designee.

[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.5(461A) Fee adjustments. Beginning January 1, 2024, and on each subsequent January 1, the lease or permit fee shall be adjusted on a cumulative basis by the percentage of the Consumer Price Index annual rate for the previous year for the Midwest Urban Region, published by the U.S. Department of

Labor, Bureau of Labor Statistics. This change in fee will be applied when leases or permits are created or renewed.

[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.6(461A) Renewals of leases or permits. The permit or lease holder shall request renewal of the lease or permit no less than six months prior to its expiration or risk loss of operator's right to the area. The appropriate application fee must accompany the application documents. A lease or permit shall remain in force during the processing of an application for renewal, including any appeals process.

[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.7(461A) Disputes concerning leases. Contested case procedures are not applicable to disputes concerning leases under this chapter, except as set forth in rule 571—17.8(461A) and subrule 17.10(9). A commission decision whether or not to recommend a lease or a particular condition of a lease is final agency action, subject to the right of an applicant or other affected person to file with the director a written request for reconsideration by the commission. The director must receive the request for reconsideration within 30 days after the commission's decision on a proposed lease. A commission decision to recommend a lease will be forwarded to the executive council of Iowa for approval after 30 days following the commission's decision unless the director has been notified of a written request for reconsideration or the filing of a petition for judicial review of the commission's recommendation.

[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.8(461A) Termination for cause. Permits or leases may be terminated by the director at any time if a permit or lease holder fails to fulfill the obligations under the permit or lease in a timely and proper manner, or if a permit or lease holder violates any of the terms and conditions of the permit or lease. Termination proceedings shall be in compliance with Iowa Code chapter 17A and 571—Chapter 7. Upon termination or expiration of the permit or lease, the permit or lease holder shall immediately stop all operations and remove all equipment from the lands and waters covered by the permit or lease within a time frame designated in the notice of termination. In the event of failure of the permit or lease holder to remove all equipment from the premises within such time period, the director shall have the right to remove the equipment at the expense of the permit or lease holder.

[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.9(461A) Lease fees for state-owned property, riverbed, lakebed, and waterfront lands. The following guidelines are for the purpose of expediting the administration of applications for lease and use of land under the jurisdiction of the natural resource commission, excepting those lands leased for agricultural purposes, commercial concession agreements, and agreements covering the removal of sand, gravel, and other natural materials.

17.9(1) Annual lease fee. Beginning January 1, 2024, the fee for leases shall be \$0.0600 per square foot. Leases deemed commercial by the commission will have a minimum lease value of \$300, and those deemed nonprofit or noncommercial by the commission will have a minimum lease value of \$150.

17.9(2) Administration fee. All nonfleeting leases shall be assessed a one-time charge of 18 percent to cover the department's cost of inspecting lease sites, reviewing applications, preparing leases, and administering the lease program.

17.9(3) Exceptions to standard lease fee. When persons apply for permission to convert or have converted state property under the jurisdiction of the commission to personal use and the commission determines that leasing is an appropriate alternative to removal or that the above rates are not appropriate, the annual lease fee shall be determined by the commission. When determining the fee, the commission may consider availability of the property for public use, the type of personal use being made of the property, appraisal, effect on the natural resources and other items appropriate for the area involved.

[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.10(461A) Barge fleeting regulations. The purpose of this rule is to regulate the practice of barge fleeting in order to protect public and private rights and interest in public waters of the state of Iowa under the jurisdiction of the commission.

17.10(1) *Applicability.* This rule is applicable to all public waters under the jurisdiction of the commission except that portion of the Mississippi River conveyed to certain cities by 1945 Iowa Acts, chapter 249; 1961 Iowa Acts, chapter 299; or special charters enacted by the Legislature in 1856 and 1857. This rule regulates the use of those waters for barge fleeting, including the installation of structures, physical site modification such as dredging, and operation of fleeting equipment and maneuvering of barges within the fleet.

17.10(2) *Barge fleeting leases.* A person shall not assert any exclusive privilege to conduct barge fleeting and mooring service for hire, or not for hire, and shall not prevent or obstruct any lawful use of navigable waters under the jurisdiction of the commission except within a fleeting area leased by the executive council of Iowa or at a loading or off-loading facility necessary to carry on commerce, provided the facility is constructed in compliance with Iowa department of transportation, U.S. Army Corps of Engineers, and all other applicable permits and regulations.

17.10(3) *Restricted areas.* Leases shall not be issued for a fleeting area in the following locations unless the department, subject to the approval of the commission, determines that fleeting in such areas is not contrary to the purpose of these rules as stated in rule 571—17.1(461A):

a. A site subject to unusual hazards including but not limited to high wind, strong current, violent ice movement, and hydraulic surges during the time fleeting operations are proposed to be carried out.

b. A site receiving high use for recreation, sport fishing, or commercial fishing, unless the fleeting area can be placed or structured to be compatible with such uses.

c. A site immediately adjacent to industries or other facilities, which, together with fleeting operations, present a substantial risk of fire, explosion, water pollution, or other serious safety hazards.

d. A site where fleeting area activities would restrict or interfere with or have a substantial adverse effect on the use and enjoyment of an area owned by federal, state, or local government, including but not limited to public parks, game refuges, forests, or recreation areas used for access to docks, slips, harbors, marinas, boat launching ramps or unique biological or physical features of the river valley itself.

e. A site immediately adjacent to or over a dam, sill, lock, breakwater, revetment, navigation aid, or wing dam.

f. A site within established navigation channels for commercial or recreational vessels.

g. A site within the approach area for a lock portion of a dam structure.

h. A site adjacent to bridges or vessel approach areas to bridges.

17.10(4) *Prohibited areas.* Leases shall not be issued for a fleeting area in the following locations:

a. A site that will have a substantial adverse effect on fish or wildlife (mussels, fish spawning, waterfowl, or furbearer) habitat due to dredging, propeller wash or other activity related to fleeting.

b. A site that would have an adverse impact on documented threatened and endangered species.

c. A site adjacent to national monuments or registered landmarks.

17.10(5) *Riparian rights.* A fleeting area shall not be leased in any location that would interfere with the rights and privileges of the riparian property owner except with written permission of the riparian property owner.

17.10(6) *Standards.* The following standards shall apply to operation of fleeting areas:

a. A fleeting lease shall be construed to do no more than give the operator the right to designate and improve an area to be utilized for fleeting. The lease creates no interest, personal or real, in the real estate below the ordinary high-water mark except as provided in the lease.

b. Improvements in fleeting areas shall be limited to items such as construction of dolphins, mooring cells, deadmen, mooring barge anchors, and other similar methods of ensuring retention of barges if approved by the department. Improvements shall be constructed in a manner consistent with engineering standards of the U.S. Army Corps of Engineers. Structures associated with barge fleeting leases will be covered by the fees of the barge fleeting lease.

c. Fleeting activities within leased fleeting areas shall be limited to barge mooring service, ancillary harbor towing and minor barge repair or servicing. No washing or cleaning of barges is permitted, unless conducted in compliance with the requirements of Iowa Code chapter 455B, the washing activities will not have a substantial adverse effect on fish or wildlife (mussels, fish spawning, waterfowl, or furbearer) habitat, and the department specifically approves the cleaning activity.

d. Barges shall not be moored to trees or other natural features of an area except with the approval of the riparian property owner or during an emergency.

e. Barge fleeting shall be conducted in a manner that minimizes bank erosion attributable to the fleeting operation.

f. Leased fleeting areas may be used for navigation and recreational pursuits such as boating and fishing only to the extent that such use does not interfere with fleeting activities. Other waterway users shall not obstruct barge fleeting activities within leased fleeting areas.

g. The right of entry of barges into a fleeting area may be refused by:

(1) The operator.

(2) The department, after conferring with the operator, when there is an imminent hazard to the public interest or to public health, safety or welfare.

h. The operator shall, at all times, be responsible for the safety and security of the barges in the fleeting area and shall take reasonable precautions to eliminate hazards to boaters or other persons in the fleeting area.

i. Lights or other warning devices as required by state and federal navigation regulations shall mark moored or fledged barges.

j. The operator shall notify the department of the current name, address, and day and evening telephone numbers of the individual directly responsible for supervising the fleeting area who is to be notified in case of emergency.

k. A lease issued under this chapter may not be exercised until all other necessary permits or approvals have been issued by local, state or federal agencies having jurisdiction over the lease area.

17.10(7) Application review and approval. The following process applies to barge fleeting lease applications:

a. Upon receipt of a barge fleeting lease application that complies with the requirements of rule 571—17.3(461A), the department will review the application to determine whether the application complies with applicable criteria in these rules. In order to determine such compliance, the applicant may be required, at the applicant's expense, to provide the department with anchor design criteria, underwater surveys, and dives necessary to determine compliance.

b. Upon determination that an application complies with applicable criteria in these rules, the department staff shall give notice of receipt of the application through publication of one public notice that will be published in a newspaper as defined in Iowa Code section 618.3 where the proposed fleeting area is located or other approved outlets. The notice shall briefly describe the location and nature of the proposed fleeting area, identify the department rules that are pertinent to the application, state whether the application is a new lease or renewal, and provide that a hearing will be scheduled if the director determines that there is a material issue concerning whether the application complies with applicable criteria in these rules. The notice shall allow interested persons 30 days from the date of publication to submit comments or a request for hearing, and shall state that a request for hearing must be supported by documentation of potential adverse effects of the proposed fleeting facility on an affected or aggrieved person. Notice will also be sent by first-class ordinary mail or an equivalent method of service to the directors of the Iowa department of transportation and the Iowa department of economic development, the Iowa secretary of agriculture, the U.S. Army Corps of Engineers, the U.S. Fish and Wildlife Service, and the U.S. Coast Guard.

17.10(8) Barge fleeting lease fees. The following fees shall be paid to the department by applicants and lessees:

a. An annual lease fee based on the dimensions of the area leased as a fleeting area. Beginning January 1, 2024, the rate for the annual lease fee shall be \$4.38 per 100 square feet.

b. A fee of \$1,000 for the cost of review, issuance, and administration of a lease is required at the time of application for a new or renewal lease.

17.10(9) Nonuse. Failure by an operator to substantially exercise the rights granted in a lease issued under this chapter within a period of two years from the issuance of the lease shall render the lease null and void unless extended by the department. Failure by an operator to substantially exercise the rights granted in a lease issued under this chapter for any period of two consecutive years shall create

a rebuttable presumption that the operator intends to abandon and forfeit the lease and shall be cause for a review of the lease by the department. The operator may request a contested case proceeding in accordance with Iowa Code chapter 17A and 571—Chapter 7.
[ARC 7895C, IAB 5/1/24, effective 6/5/24]

571—17.11(461A) Sand and gravel permits. This rule provides the procedures for obtaining a permit for removal of sand and gravel from state-owned lands and waters under the jurisdiction of the department and the rules associated with the holding of a permit.

17.11(1) Permit applications. Applications for permits must be accompanied by an application for a sovereign lands permit pursuant to 571—Chapter 13. Applications will be accepted at any time throughout the year. The permit for sand and gravel will run concurrently with the sovereign lands permit. If more than one application for a permit site is received, issuance will be determined by written sealed bids. Bids shall be based on royalty rates. Bids submitted with a royalty rate less than the current rate will not be accepted. The permit shall be issued to the applicant submitting the highest royalty rate bid.

17.11(2) Application fee. The applicant for a sand and gravel permit shall submit a fee of \$100 for the cost of inspection and issuance of each permit.

17.11(3) Insurance. Prior to issuance of permits, approved applicants shall provide the department a certificate of insurance, covering the entire permit term, to jointly and severally indemnify and hold harmless the state of Iowa and its agencies, officials, and employees from and against all liability, loss, damage or expense that may arise in consequence of issuance of the permit.

17.11(4) Surety bonds. Prior to issuance of permits, approved applicants shall provide to the department a surety bond in the amount of \$5,000 covering the term of the permit. The surety bond shall guarantee payment to the state of Iowa for all material removed under the permit within 60 days after expiration of the permit, unless the permit holder renews the permit within 30 days of said expiration date, and for the recovery of any costs associated with reclamation or other environmental mitigation required as a condition of issued permits.

17.11(5) Permit conditions and operating procedures. The following shall apply to all sand and gravel permits:

a. Permits require a sovereign lands permit and will run concurrently with that sovereign lands permit.

b. The size and configuration of permit sites shall be as designated by the director. The maximum continuous length of a river or stream covered by each permit shall be 4,500 lineal feet.

c. Removal operations authorized by permits shall not be performed within 30 feet of the existing bank or breach the bank at any location along any lake, stream or river unless written permission is obtained from the director prior to performance of such operations.

d. Removal operations authorized by permits shall not obstruct the flow of water to the extent of preventing its ultimate passage to its usual course below the lands and waters covered by the permits and shall not prevent movement of watercraft through such waters.

e. All equipment at permit sites that is on the surface of water or above or under the water shall be marked to be visible 24 hours per day. Any structure or other device below the water must be marked to indicate to watercraft operators where safe passage may occur. All markings shall conform to the uniform waterway marking system and be provided and installed by permit holders.

f. Permit sites may be inspected by the director at any time during the permit term in order to verify compliance with permit terms and conditions, or thereafter until final payment is made under a terminated permit. Permit holders shall keep a daily record of the amount of material removed in the manner described by the director. All such records shall be open to inspection by the director at all times.

g. Permit holders shall furnish an itemized statement of material removal operations to the director within ten days after the last day of each calendar month. Statements shall also be filed in months when no materials are removed. Reporting procedures may be modified on a case-by-case basis at the discretion of the director, to accommodate differences in material removal or operation methods. However, reporting periods shall not be greater than one-month intervals. Permit holders shall notify the department ten days

prior to the initial start of removal operations or whenever the previous monthly statement indicated no materials were removed. Each cubic yard of sand, gravel, and stone removed under permits shall be considered to weigh 3,000 pounds. Statements shall be submitted on forms furnished by the department and shall indicate the following:

- (1) Hours of removal operations performed each day on lands and waters covered by the permit.
- (2) Tons of material removed from the lands and waters covered by the permit each day.
- (3) Tons of material, from all sources, stockpiled at the operations site at the end of the month.

h. Royalty payments. Permit holders shall make royalty payments on a monthly basis for all material removed from permit sites within ten days after the last day of each calendar month. Monthly royalty payments shall be calculated using the tonnage of material removed as reported on the monthly statement. The royalty rate shall be \$0.2500 cents per ton or the rate determined by sealed bids.

CHAPTER 21

HABITAT LEASE PROGRAM

[Prior to 12/31/86, Conservation Commission[290] Ch 74]

571—21.1(456A) Purpose. The purpose of the habitat lease program is to enhance habitat for wildlife in the state of Iowa, thereby providing recreational opportunities to the public. Utilization of habitat leases provides practices that are essential to successful wildlife habitat management and vegetation management and reduces associated operating expenses.

[ARC 7898C, IAB 5/1/24, effective 6/5/24]

571—21.2(456A) Definitions.

“Cash rent” means an agreed-upon sum of money to be paid to the department.

“Crop year” means a one-year period terminating each February 28.

“Department” means the department of natural resources.

“Director” means the director of the department of natural resources or a designee.

“Land manager” means the department employee or authorized agent responsible for managing a particular area under department jurisdiction.

“Operator” means any party who enters into a lease with the department as provided in these rules.

“Program” means the lease to beginning farmers program as provided in Iowa Code section 456A.38.

“Sovereign land” means state-owned land within the ordinary high-water mark of meandered rivers and lakes where ownership was transferred directly from the United States to the state of Iowa upon its admission to the union.

[ARC 7898C, IAB 5/1/24, effective 6/5/24]

571—21.3(456A) Habitat lease policy. The policy of the department is to lease agricultural land under its jurisdiction so as to protect and enhance natural resources and to provide public use opportunities. Generally accepted farming practices will be followed so long as they are commensurate with good resource management practices. All leases shall be in writing.

21.3(1) Agricultural land use. Leased agricultural land is subject to any practice necessary to enable the department to carry out its resource management and subject to recreational use by the public according to the laws of the state of Iowa. Operators shall not inhibit any lawful use of the land by the public including, but not limited to, use by the public for hunting and fishing as described by the rules of the department and the laws of the state of Iowa, except as otherwise may be agreed to between the department and the operator.

21.3(2) Soil conservation. Farming practices shall not exceed compliance-based soil loss limits as established by the USDA Natural Resource Conservation Service or the local soil and water conservation district.

21.3(3) Lease basis. Leases shall be in writing on a cash rent basis, except a crop share basis may be utilized when determined to be in the state’s best interest.

21.3(4) United States Department of Agriculture programs. The inclusion, by the operator, of land under lease in any U.S. Department of Agriculture program will be allowed only if it is compatible with the department’s management plan established for said land.

[ARC 7898C, IAB 5/1/24, effective 6/5/24]

571—21.4(456A) Lease to beginning farmers program.

21.4(1) *Beginning farmers program.* This program shall be implemented in accordance with Iowa Code section 456A.38.

21.4(2) *Establishing annual lease payments.* Iowa Code section 456A.38(3) “d” provides criteria the department uses to determine lease payment amounts, including, but not limited to, the cost of the establishment or maintenance of water quality practices, wildlife habitat, vegetation management, or food plots, if applicable.

[ARC 7898C, IAB 5/1/24, effective 6/5/24]

571—21.5(456A) Alternative lease procedures. In the event that no beginning farmer seeks to participate in the program, or no beginning farmer is found qualified to participate in the program for a given lease, the following procedures shall be followed by the department in administering the habitat lease program.

21.5(1) *Advertising for bids.* A notice advertising for bids shall be published in at least one local newspaper.

21.5(2) *Prebid informational meeting.* A prebid informational meeting may be held when the land manager determines that a meeting is in the state’s best interest. Notice of a prebid informational meeting shall be included in the advertisement for bids and in the written instructions to bidders. The meeting shall be held no later than one week prior to the bid opening. If a prebid meeting is required, bidders must attend to qualify to submit a bid.

21.5(3) *Form of bid.* Written sealed bids shall be utilized.

21.5(4) *Public bid opening.* All sealed bids shall be publicly opened as stated in the notice for bids. The results of the bids shall be made available to any interested party.

21.5(5) *Awarding of lease.* The amount of the bid, past experience with the bidder, the bidder’s ability to comply with the terms of the lease, and the bidder’s ability to perform the required farming practices shall be considered. The department reserves the right to waive technicalities and reject any or all bids not in the best interest of the state of Iowa.

21.5(6) *Negotiated leases.* The land manager may negotiate a lease with any prospective operator, subject to approval of the director, in any of the following instances:

- a. No bids are received.
- b. Gross annual rent is \$5,000 or less.
- c. Where land acquired by the department is subject to an existing tenancy.
- d. To synchronize the lease period of newly leased areas with other leases in the same management unit.
- e. Where a proposed lease includes only land not accessible to equipment necessary to perform the required farming operations, except over privately owned land, provided the prospective operator possesses legal access to the leased land over said privately owned land.
- f. Where the director authorizes a lease as a condition of a land purchase or trade.

[ARC 7898C, IAB 5/1/24, effective 6/5/24]

571—21.6(456A) Terms applicable to all habitat leases. The following terms and conditions apply to all department habitat leases entered into pursuant to rule 571—21.4(456A) or 571—21.5(456A).

21.6(1) *Final approval of award.* All awards of leases shall be approved by the director. Additionally, awards of all leases on sovereign land shall be subject to approval by the state executive council on recommendation of the natural resource commission.

21.6(2) *Payment of cash rent.* The operator shall pay a minimum of 10 percent of the total gross rent at the time of the signing of the lease and the balance for each crop year on or before December 1, or the operator shall pay 50 percent of the total annual rent each April 1 and the balance for each crop year on or before December 1. The appropriate minimum payment shall be determined by the land manager.

21.6(3) *Payment of crop share rent.* The operator shall pay the total annual rent on December 1 or at the time of harvest, whichever is later.

21.6(4) *Termination.* In accordance with Iowa Code section 562.6, the lease shall serve as the written agreement fixing the time of termination of the tenancy. The lease shall terminate at the end of the agreed-upon lease term without notice. If the department requires leased land for other conservation

purposes during the term of the lease, the operator shall relinquish all rights under the existing lease, upon demand by the director, at the end of the current crop year.

21.6(5) *Termination for cause.* If the operator fails to comply with any of the terms of the lease, the department may serve notice on the operator demanding redress within a specified period of time. If compliance is not made within the specified period, the department may proceed to collect any moneys that may be due and payable during the crop year in which the lease is terminated and may void the remainder of the lease. Further, the department may have a landlord's lien as set out by Iowa Code chapter 570.

21.6(6) *Previous agreements.* The department shall recognize legal agreements regarding habitat leases that are in effect at the time the department acquires jurisdiction to the land covered by those legal agreements.

21.6(7) *Amendment to lease.* Amendments to any lease shall be evidenced by written instruments attached to and made a part of the lease. Final approval of amendments shall be made by the director.
[ARC 7898C, IAB 5/1/24, effective 6/5/24]

571—22.1(456A,483A) Purpose and authority. These rules set forth the procedures to open private lands to public hunting, while providing grant funds to create, manage, and enhance wildlife habitat.
[ARC 7899C, IAB 5/1/24, effective 6/5/24]

571—22.2(456A,483A) Eligibility. In order to be eligible for this program, an applicant shall:

22.2(1) Have land in Iowa that already contains wildlife habitat or be willing to allow development of wildlife habitat;

22.2(2) Enter into an agreement with the department; and

22.2(3) Allow public access for hunting without charge on at least 40 acres.

[ARC 7899C, IAB 5/1/24, effective 6/5/24]

571—22.3(456A,483A) Application procedures. Applications will be accepted only from those eligible pursuant to rule 571—22.2(456A,483A).

22.3(1) Applications. Applications must be submitted on forms furnished by the department. Landowners will be notified in writing within 30 days of submission of an application whether they have been accepted into the program.

22.3(2) Project review and selection. Projects will be selected based on the ranked scoring criteria in the application, which prioritize sites with the greatest chance of benefiting wildlife populations and providing adequate recreational hunting opportunities. The criteria include, but are not necessarily limited to, the site's habitat potential, site suitability, priority locations, and other relevant habitat and hunting access factors.

[ARC 7899C, IAB 5/1/24, effective 6/5/24]

571—22.4(456A,483A) Agreements.

22.4(1) The commission shall enter into an agreement with approved landowners to carry out the purposes of this program.

22.4(2) Enrolled lands are subject to game management area hunting rules as contained in 571—Chapter 51. Access and boundary signs shall be placed and maintained on enrolled lands by the department.

[ARC 7899C, IAB 5/1/24, effective 6/5/24]

571—22.5(456A,483A) Cost reimbursement. Whenever a landowner has been found to be in violation of an agreement or terminates the agreement early, the landowner shall reimburse the state a prorated amount of the value of wildlife habitat improvement work completed on the property divided by the entire agreement period multiplied by the unfulfilled years of the agreement, e.g., (total dollars ÷ total years) × unfulfilled years = prorated amount owed. Additionally, the landowner may be assessed early termination penalties that the department may be required to pay a contractor performing the wildlife habitat improvement work on the property.

CHAPTER 23
WILDLIFE HABITAT PROMOTION WITH LOCAL ENTITIES PROGRAM
[Prior to 12/31/86, Conservation Commission[290]]

571—23.1(483A) Purpose and definition. The purpose of this chapter is to designate procedures for allotments of wildlife habitat stamp revenues to local entities. These funds must be used specifically for the acquisition of whole or partial interests in land from willing sellers for use as wildlife habitats, and the development and enhancement of wildlife lands and habitat areas. The department will administer the stamp funds for the purposes as stated in the law at both the state and local levels. The following definition applies in these rules:

“Waiver of retroactivity” means approval by the department for an applicant to purchase land prior to the next round of wildlife habitat fund application reviews. The waiver allows the applicant to remain eligible for the next round of wildlife habitat funds when extenuating circumstances exist that require an immediate purchase of the subject property by the applicant or a third party that will hold the property until funds become available to the applicant.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.2(483A) Availability of funds. Habitat stamp funds are dependent on stamp sales. The amount of moneys available at any time will be determined by revenues received by the department. Final stamp sales for each calendar year will be determined by July 1 of the following year.

23.2(1) Local share. Funds available for local entities shall be specified in the department’s budget in accordance with legislative appropriations. Funds will be made available during a fiscal year of July 1 to June 30.

23.2(2) Distribution. After deducting 5 percent to be held for contingencies, the remaining local share will be available on a semiannual basis each year.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.3(483A) Project limitations. Because of administrative costs, no application for assistance totaling less than \$3,000 (total project cost—\$4,000) will be considered.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.4(483A) Eligibility for cost-sharing assistance. No project shall be eligible for cost sharing unless it is specifically approved by the commission, or the applicant has received a written waiver of retroactivity from the director, prior to its initiation. A project shall not be eligible for cost sharing unless public hunting and trapping will be allowed; however, the review and selection committee may recommend for commission approval projects with restrictions on hunting and trapping under exceptional circumstances, such as waterfowl refuges. Fees charged for recreational purposes will not be allowed on land purchased or developed with wildlife habitat funds. Wildlife habitat promotion funds shall not be used to fund mitigation lands or banks, or other lands, to satisfy mitigation requirements. Only the following types of project expenditures will be eligible for cost-sharing assistance:

23.4(1) Acquisition projects. Lands or rights thereto to be acquired in fee or by any other instrument shall be appraised by a competent appraiser and the appraisal approved by the department staff. Applicants whose applications have been approved for funding must submit an appraisal that meets the Uniform Appraisal Standards for Federal Land Acquisitions “Yellow Book” (2016). The appraisal requirements may be waived when the staff determines that they are impractical for a specific project. Cost sharing will not be approved for more than 75 percent of the approved appraised value. Acquisition projects are eligible for either cost sharing by direct payments as described in subrule 23.10(3) or by reimbursement to local entities. When a county receives or will receive financial income directly or indirectly from sources that would have been paid to the previous landowner as a result of a purchase agreement or other title transfer action, 75 percent of that income will be transferred to the department unless the grantee has demonstrated and committed to habitat development projects or additional acquisitions on the project site to be funded from the income received. The project review and selection committee must recommend, and the director and commission must approve, plans for the expenditure

of income. In the absence of acceptable wildlife habitat development or acquisition plans, the county will transfer 75 percent of income received to the department as it is received. The department will credit that income to the county apportionment of the wildlife habitat stamp fund as described in subrule 23.2(1). The schedule of those reimbursements from a county to the state will be included in the project agreement.

23.4(2) *Development and enhancement projects.* Equipment purchases are not eligible. Donated labor, materials and equipment use, and force account labor and equipment use shall not be eligible for cost-sharing assistance. Force account means the agency's own labor and equipment use. Development projects are limited to lands legally controlled by the grantee for the expected life of the project. Development projects are eligible only for reimbursement of reasonable costs actually incurred and paid by the public agency.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.5(483A) Application for assistance.

23.5(1) *Form.* Applications shall be submitted on forms provided by the department.

23.5(2) *Time of submission.* The department shall publish on its website the date and time for submitting a funding proposal, providing at least 90 days' notice. Applications must be submitted to the department as described on the website. Local entities can obtain a waiver so that acquisition projects may be approved for retroactive payments, provided that funds are available and the project meets all other criteria.

23.5(3) *Local funding.* By signing the application, the applicant agency is certifying that all required match has been identified and is committed and available for the project. An applicant shall certify in writing that it has the 25 percent match committed and available, by signing on the signature block provided on the application, and shall state the means of providing for the local share. All necessary approvals for acquisition and financing shall be included with the application. All financial income received directly or indirectly from sources that would have been paid to the previous landowner as a result of a purchase agreement or other title transfer action will be completely documented in the application.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.6(483A) Project review and selection.

23.6(1) *Review and selection committee.*

a. A review and selection committee, hereinafter referred to as the committee, composed of one person appointed by the director to represent the department and designated by the director as chairperson and four persons appointed by the director to represent county conservation boards shall recommend grant applications and amendments for funding. Additionally, there shall be at least two alternates designated by the director to represent the county conservation boards in the event of a conflict of interest.

b. Conflict of interest. An individual who is a member, volunteer, or employee of a county conservation board that has submitted a project shall not serve on the scoring committee during that award cycle. Instead, one of the alternates shall review and score in the individual's place.

23.6(2) *Application rating system.* The committee will apply a numerical rating system to each grant application that is considered for fund assistance that will be posted on the department's website, providing at least 90 days' notice. The following criteria, with a weight factor for each, will be considered:

Wildlife habitat needs	2
Existing or potential habitat quality	3
Species diversity	1

Each criterion will be given a score of from 0 to 10 that is then multiplied by the weight factor. Four additional criteria will be considered in the rating system:

a. Prior assistance. Any applicant who has never received a prior grant for acquisition of land will be given a bonus of five points.

b. Active projects. Any applicant who has one or more active projects at the time of application rating will be assessed five penalty points for each project that has not been completed. A project is deemed closed after the project has had a final inspection, all funds have been paid and, in the case of acquisition, the title has been transferred from the seller.

c. Urgency. Projects may be given one or two bonus points if there is a strong urgency to acquire lands that might otherwise be lost.

d. Cost-effectiveness. Projects will be given one point if the grant amount requested is at least 35 percent less than the appraised amount or two points if at least 45 percent less than the appraised amount.

All points will be totaled for each application, and those applications receiving the highest scores will be recommended for fund assistance to the extent of the allotment for each semiannual period, except that any project scoring a total of not more than 45 points will not be funded.

23.6(3) Applications not selected for fund assistance. All applications not selected for fund assistance will be retained on file for consideration and possible funding for three consecutive review periods or until a request for withdrawal is received from the applicant.

23.6(4) Rating system not used. The rating system will not be applied during any semiannual period in which the total grant request, including backlogged applications, is less than the allotment. Applications will be reviewed only to determine eligibility and overall desirability, and to ascertain that they meet minimum scoring requirements.

23.6(5) Rating of scores for tiebreakers. If two or more projects receive the same score, the committee shall use the points awarded to the highest weighted factor and so forth, beginning with existing or potential habitat quality, to determine which project has a higher rank. If after considering the existing or potential habitat quality points the project scores remain tied, the committee will then consider the points awarded for species diversity. If after considering the species diversity points the project scores remain tied, the committee will then consider the points awarded for wildlife habitat needs.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.7(483A) Commission review. The commission will review committee recommendations semiannually at the next following commission meeting. The commission may accept or reject any application recommended for funding.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.8(483A) Grant amendments. Projects for which grants have been approved may be amended, if funds are available, to increase or decrease project scope or to increase or decrease project costs and fund assistance. Project changes must be approved by the selection committee and then by the director prior to their inception. Amendments to increase project costs and fund assistance due to cost overruns will not be approved if the work has already been performed.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.9(483A) Timely commencement of projects. Projects for which grants are approved shall be commenced within six months of the date upon which the grantee is notified that the project is approved, or at another date agreed upon by both parties. Failure to do so may be cause for termination of the project and cancellation of the grant by the commission. Each project will be assigned a project period. Extensions will only be granted in case of extenuating circumstances.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.10(483A) Payments.

23.10(1) Grant amount. Grant recipients will be paid 75 percent of all eligible costs incurred on a project up to the amount of the grant unless otherwise specified in the project agreement.

23.10(2) Project billings. Grant recipients shall submit billings for reimbursements or cost sharing on forms provided by the department.

23.10(3) Acquisition projects. If clearly requested in the project application and the applicant has shown good cause for such procedure, the department may approve direct payment to the seller of the

state's share provided that marketable fee simple title, free and clear of all liens and encumbrances or material objections, is obtained by the local entity at the time of payments and state funds are then available.

23.10(4) *Development projects.* On approved development projects, payment will be made by the department only as reimbursement for funds already expended by the local entity.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.11(483A) *Recordkeeping and retention.* A grant recipient shall keep adequate records relating to its administration of a project, particularly relating to all incurred costs and direct or indirect income from other sources that normally would have been paid to the previous landowner resulting from a purchase agreement or other title transfer action. A copy of the county's audits particularly showing such income and disbursements for the grant period will be submitted to the department's budget and grants bureau. These records shall be available for audit by appropriate personnel of the department and the state auditor's office. All records shall be retained in accordance with state laws.

[ARC 7900C, IAB 5/1/24, effective 6/5/24]

571—23.12(483A) *Penalties.* Whenever any property, real or personal, acquired or developed with habitat stamp fund assistance passes from the control of the grantee or is used for other purposes that conflict with the project purpose, it will be considered an unlawful use of the funds. The department shall notify the local entity of any such violation.

23.12(1) *Remedy.* Funds used unlawfully must be returned to the department for inclusion in the wildlife habitat stamp fund, or a property of equal value at current market prices and with commensurate benefits to wildlife must be acquired with local, non-cost-shared funds to replace it. Such replacement must be approved by the commission. The local entity shall have a period of two years after notification by the department in which to correct the unlawful use of funds. The remedies provided by this rule are in addition to others provided by law.

23.12(2) *Land disposal.* Whenever it has been determined and agreed upon by the grantee and the commission that land acquired or developed with habitat stamp fund assistance is no longer of value for the project purpose, or that the local entity has other good cause, the land, with the approval of the commission, may be disposed of and the proceeds thereof used to acquire or develop an area of equal value, or 75 percent of the proceeds shall be returned to the state for inclusion in the wildlife habitat stamp fund.

23.12(3) *Ineligibility.* Whenever a local agency is in violation of this rule or the grant agreement, it shall be ineligible for further assistance until the matter has been resolved to the satisfaction of the commission.

Acquisition must be fee simple and title to lands purchased must be free of encumbrances, unless approved by the director on the recommendation of the attorney general. Loan applicants shall submit an abstract of title to lands to be purchased with loans from the fund for examination by the attorney general prior to issuance of any loan.

[ARC 7901C, IAB 5/1/24, effective 6/5/24]

571—24.3(161A) Application for loans. Conservation organizations shall apply for loans on forms available on the department’s website.

571—24.4(161A) Approval of loan applications. The director shall appoint a committee to review and evaluate loan applications. The committee shall make appropriate recommendations to the director.

[ARC 7901C, IAB 5/1/24, effective 6/5/24]

571—24.5(161A) Interest and other terms of loan agreements. Loans shall be for a maximum term of five years with payment due at the end of the loan term. At the end of the loan term, an appropriate conservation easement approved by the department shall be in effect unless the fee title is conveyed to a public entity in trust to be held for conservation purposes. Simple interest at an annual rate of 4 percent shall accrue on the principal amount of the loan and shall be payable with the principal at the end of the loan term. However, interest shall be waived for the period commencing with the effective date of an approved conservation easement. All interest shall be waived if the fee title is conveyed to a public entity in trust for conservation purposes. The loan agreement and documents establishing security for the loan shall be in a form approved by the department and the attorney general. The applicant shall execute and deliver a first mortgage in favor of the state of Iowa acting through the department of natural resources or provide equivalent security to secure the principal and interest due on the loan. The mortgage shall contain provisions for foreclosure in accordance with Iowa Code chapter 654.

571—24.7(161A) Custody and management of land during loan term. Loan recipients must hold title to blufflands acquired throughout the term of the loan. Where practicable, lands purchased with loan funds shall be available for public use under terms and conditions stated in the loan agreement. If the bluffland is sold before the end of the loan term, it must first be offered to a governmental entity. If no governmental entity agrees to purchase the land, it may be sold to a private buyer provided title is first encumbered by a conservation easement granted to the conservation organization or the state of Iowa or its political subdivisions. The easements shall ensure that the natural, scenic or cultural resources of the bluffland are permanently protected. If the bluffland is sold before the end of the loan term, the loan balance shall become due immediately at the time of sale. A loan recipient may enter into agreements, at any time, with governmental entities for the care, management and public use of lands purchased with loan funds.

[Prior to 12/31/86, Conservation Commission[290] Ch 25]

571—25.1(427) Purpose. The purpose of this chapter is to define lands that qualify for native prairie and wildlife habitat property tax exemptions and to provide procedures whereby owners may have them certified as such.

[ARC 7902C, IAB 5/1/24, effective 6/5/24]

571—25.2(427) Definitions. Before lands will be certified as either “native prairie” or “wildlife habitat” under Iowa Code section 427.1, they must meet the criteria of the following definitions:

“*Native prairie*” is defined as those lands that have never been cultivated, are unimproved, and are natural or restored grasslands wherein at least 50 percent of the plant canopy is a mixture of grass and forb species that were found originally on Iowa’s prairie lands.

“*Wildlife habitat*” is defined as those parcels of agricultural land of two acres or less, composed of native species having adequate ground cover, that are devoted exclusively for use as habitat for wildlife and are protected from all other economic uses of any kind.

571—25.3(427) Restrictions. Lands classified as native prairie or wildlife habitat under this rule shall not be used for economic gain of any type. This includes the storage of equipment, machinery, and crops, or receiving lease or rental payments. There shall not be any buildings, used or unused, on the tax parcel containing the exempted area.

[ARC 7902C, IAB 5/1/24, effective 6/5/24]

571—25.4(427) Maintenance. Maintenance activities, including burning, chemical treatment, or selective brush removal, may be performed on native prairies if approved by the county conservation board or by the department of natural resources in areas not served by a county conservation board. Similar activities, as well as seedings and plantings, may be performed on wildlife habitats if approved by the department of natural resources.

[ARC 7902C, IAB 5/1/24, effective 6/5/24]

571—25.5(427) Certification. In order to have lands certified as native prairie or wildlife habitat, the taxpayer must make an application to the department of natural resources on forms made available by the department. The application shall describe and locate the property to be exempted on a map.

[ARC 7902C, IAB 5/1/24, effective 6/5/24]

571—25.6(427) Decertification. Whenever land certified as natural prairie or as wildlife habitat is used for economic gain or otherwise becomes ineligible for tax-exempt status, the Department shall notify the appropriate assessor.

The local share of state all-terrain vehicle registration funds as established in Iowa Code section 321I.8 and this rule shall be distributed in accordance with this chapter and upon execution of agreements. The local share of the registration fund shall be at least 50 percent of appropriate registration revenues. The remaining revenues shall be known as the state share. State share funds shall not exceed 50 percent of the total registration revenue generated for the program per fiscal year.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.4(321I) Application procedures.

28.4(1) Forms. Applications for local share moneys shall be made on forms available from the department. The application must be completed and signed by the chairperson or chief executive officer of the applying sponsor. The application must be accompanied by a copy of the minutes of the sponsoring organization meeting at which the request was approved.

1. Projects proposing maintenance and operation of existing designated riding areas and trails.
2. Development within existing designated riding areas or trails.
3. Projects having documented local support and involvement.
4. Acquisition and development projects located in areas of high demand with preference given to projects with the most long-term, stable management plan and that have the least adverse environmental and social impacts.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.8(321I) Items eligible for funding. Items listed in this rule or approved by the director which can reasonably be utilized in the operation, development, or maintenance of designated riding areas or trails shall be eligible for funding.

Payments may be made directly to the landowner by the department. The grant agreement may contain provisions in addition to those contained in this chapter for disposal of property if it ceases to be managed and used for the purpose for which it was acquired. Land acquisitions (or leases) using all-terrain registration revenues shall utilize the following specific criteria:

a. Designated riding areas shall be limited to previously disturbed areas. High-quality natural areas and historical and cultural areas shall be avoided. If a proposed riding area contains fragments of any of the aforementioned areas, those areas shall be managed and protected as off-limit sites.

b. In making the determination of whether high-quality natural areas and historical or cultural areas exist, an expert in the said field shall complete a thorough assessment utilizing all available resources, including local expertise.

f. A local sponsoring political subdivision shall support the designated riding area and may provide local input.

28.8(3) Hourly wages may be reimbursed for operation and maintenance. Labor costs shall be documented in a manner approved by the department and shall be accompanied by proof that the cost was paid by the sponsor. If labor and repair are contracted, reimbursement shall be at the amount specified in the grant agreement. The sponsor shall obtain any federal, state or local permits required for the project.

28.8(5) Purchase of approved equipment to be used for maintenance of designated riding areas. Cost of leasing equipment used to maintain designated riding areas.

28.8(6) Program and facility liability insurance. Insurance shall be in place for project sponsors receiving grant funds. If insurance is purchased by the sponsor, proof of liability insurance shall be provided to the department. The state may purchase a statewide insurance policy covering all project sponsors receiving funds from the grant program, in which case a copy of the policy shall be made available to covered sponsors upon request. This insurance coverage may include liability insurance for the landowner(s) or other insurable interests. All-terrain vehicle fund moneys shall not be used to purchase insurance for special events. The total payment from the all-terrain vehicle fund shall be 100 percent of the approved actual cost. All insurance paid under this subrule must be furnished by companies licensed to do business in Iowa.

In-state travel reimbursement for overnight lodging, registration costs, and mileage to educational events, conferences, and meetings as approved by the review and selection committee and the director. Out-of-state travel for up to three sponsors annually will be eligible. Reimbursement rates will follow department policy.

28.8(11) Direct payment to vendors. The department may establish operational procedures to facilitate direct payment to vendors for:

a. Major expenditures or specialty items, including land acquisitions, development expenses, program liability insurance fees, equipment, and trail signs.

b. Unexpected repairs, including materials or other expenses costing more than \$250 that may be necessary to operate and maintain the designated riding area in a safe manner.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.9(321I) Use of funded items. Manufactured products or machinery purchased by sponsors with all-terrain vehicle fund moneys shall be used only for the purpose of establishing or maintaining designated riding areas, trails, or facilities and as emergency rescue equipment, where applicable.

Sponsors shall, in the case of equipment or facilities, reimburse the all-terrain vehicle fund a percentage of the disposal price received, that percentage being the percent of the original purchase price paid by the fund.

28.10(2) Real property and equipment shall be disposed of as stipulated in the grant agreement under which they were acquired. Reimbursements from the sale of real property and equipment shall be credited to the all-terrain vehicle fund.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.11(321I) Recordkeeping. Sponsors receiving funds under this program shall keep adequate records relating to the administration of the grant, particularly relating to all incurred costs as stated in the grant agreement. These records shall be available for audit by appropriate personnel of the department and the state auditor's office.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.12(321I) Sponsors bonded. Prior to receiving prepayment from this grant program, all nonpublic sponsors must produce proof that their chairperson and treasurer are covered under a fidelity bond, personal or surety, to the sponsor in a sum of no less than the total prepayment amount for each office.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.13(321I) Competitive bids. Any equipment or development expense costing more than \$2,500 and funded by the all-terrain vehicle fund must be purchased through a competitive bid or quotation process. Documentation of such process must be submitted before funds are released by the state. Items purchased by any other means are not reimbursable by the state.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.14(321I) Prepayment for certain anticipated costs. Only those expenditures contained in signed agreements may be prepaid. Program or facility liability insurance may be prepaid up to 100 percent. Approved facility and development costs and operations and maintenance costs may be prepaid up to 90 percent.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.15(321I) Expense documentation, balance payment or reimbursement.

28.15(1) Documentation of expenditures eligible for prepayment or reimbursement shall be submitted in a manner approved by the department and shall be accompanied by applicable receipts. The sponsoring organization shall sign a certification stating that all expenses for which reimbursement is requested are related to the program and have been paid by the sponsor prior to requesting reimbursement. The sponsoring organization shall provide copies of canceled checks or other verification of expenditure payment.

28.15(2) The sponsor is responsible for maintaining auditable records of all expenditures of funds received whether by prepayment or on a reimbursement basis. This documentation shall include logs of maintenance equipment, operation and repair. Work done under contract to the sponsor requires a copy of the contract and copies of canceled checks showing payment.

28.15(3) Documentation of expenditures under the all-terrain vehicle revenue program must be received within 60 days of the project end date as specified in the grant agreement, unless the project sponsor has requested an extension and the extension has been approved in writing by the department.

Failure by the sponsor to complete projects in a timely manner may be cause for termination of the agreement or ineligibility for future grants.

28.15(4) Approved expenditures by the sponsor in excess of the prepayment amount received, up to the maximum approved amount, will be reimbursed by the department if appropriately documented. In instances where the sponsor has expended less than the amount prepaid, the sponsor shall reimburse the balance to the department to be credited back to the all-terrain vehicle fund.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

571—28.16(321I) Use of funds. If a grantee desires to use the approved funds for a purpose not within the approved project scope as stated in the grant agreement, the grantee shall request an amendment to the project. If the department and review and selection committee approve a project amendment, the department shall notify the project sponsor in writing. Whenever any real or personal property acquired, developed or maintained with registration funds passes from the control of the grantee or is used for purposes other than the approved project purpose, such an act will be considered an unlawful use of the funds. Whenever the director determines that a grantee is in violation of this rule, that grantee shall be ineligible for further assistance until the matter has been resolved to the satisfaction of the department.

[ARC 7905C, IAB 5/1/24, effective 6/5/24]

LOCAL RECREATION INFRASTRUCTURE GRANTS PROGRAM

CHAPTER 30
WATERS COST-SHARE AND GRANT PROGRAMS
[Prior to 12/31/86, Conservation Commission[290] Ch 79]

DIVISION I
WATER RECREATION ACCESS COST-SHARE PROGRAM

571—30.1(452A) Title and purpose. This division provides rules for the water recreation access cost-share program. The purpose of this division is to define procedures for cost sharing between state and local public agencies to provide for the acquisition or development of public recreational boating accesses to Iowa waters.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.2(452A) Availability of funds. Moneys derived from the excise tax on the sale of motor fuel used in watercraft under Iowa Code section 452A.79 are deposited as a “marine fuel tax” and are subject to appropriation by the general assembly to the department of natural resources. Each year, as part of its approval of the department’s capital improvement plan, the commission may designate an amount to be available for this program.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.3(452A) Eligibility of development projects. Projects proposing to develop properties or facilities for the purposes of providing or enhancing recreational boating access consistent with Iowa Code section 452A.79A may apply for funding. Additional eligibility guidance or requirements may be provided during the application process described in 571—30.9(452A).

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.4(452A) Eligibility of acquisition projects. Projects proposing to acquire land for recreational boating/canoeing access are eligible to apply for water access funding. Costs for a department-approved appraisal report and the cost of surveys necessary to determine acreage and establish boundaries are also eligible for assistance on those projects approved for funding. Additional eligibility guidance or requirements may be provided during the application process described in 571—30.8(452A).

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.5 Reserved.

571—30.6(452A) Waiver of retroactivity. In case of extreme urgency involving land acquisition, a grant applicant may formally request a written waiver of retroactivity that, if granted by the director of the department of natural resources, will permit the applicant to acquire the real property immediately without jeopardizing the applicant’s chances of receiving a grant. However, the granting of the waiver in no way implies or guarantees that any subsequent grant application covering the acquisition will be selected for funding by the water access committee. The request for the waiver must include justification regarding the urgency of the acquisition, a description of the land to be acquired, and a county map on which the land to be acquired is located. Acceptable justification would include situations in which land is to be sold at auction or by sealed bids or when the landowner requires immediate purchase.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.7(452A) Establishing project priorities. The director shall appoint a six-member water access committee representing a cross section of department responsibilities for the purpose of reviewing and establishing priorities for cost sharing.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.8(452A) Application procedures. Applications for funds shall be reviewed and selected for funding at least once per year. The department shall publish on its website the date and time for submitting a funding proposal, providing at least 90 days’ notice. Applications must be submitted to the department as described on the website.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.9(452A) Cost-sharing rates. All projects approved for assistance will normally be cost-shared at a 75 percent state/25 percent local ratio. Exceptions to the normal funding formula may occur under the following conditions:

30.9(1) Where a local public agency agrees under terms of a long-term agreement to assume maintenance and operation of a department of natural resources water access facility, the approved development or improvements needed on that facility may be funded at up to 100 percent.

30.9(2) Where feasible and practical, the department will provide funds to cover 100 percent of materials needed for a development project if the local subdivision agrees to provide 100 percent of the labor and equipment to complete that development.

30.9(3) Where joint use will be made of a project by commercial interests as well as by recreational boaters, only that portion of a project attributable to the use by recreational boaters will be cost-shared through this program.

30.9(4) When, at the discretion of the director, some alternate funding level is deemed appropriate.
[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.10(452A) Joint sponsorship. Two or more local public agencies may join together to carry out a water access project. However, for the purposes of the grant program, the committee will accept only one local agency as the prime project sponsor. Any written agreements between the local agencies involved in any joint venture will be made a part of any grant application. The application rating system will be applied only to the prime sponsor. The project agreement will be negotiated with the prime sponsor and reimbursements will be paid to it.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.11(452A) Control of project site. In order for a project site to be eligible for a development grant, it must be under the physical control of the grant applicant, either by fee title, lease, management agreement, or easement. The term of a lease, management agreement, or easement must be commensurate with the life expectancy of the proposed development.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.12(452A) Project agreements.

30.12(1) A cooperative agreement approved by the director between the department and the local grant recipient describing the work to be accomplished and specifying the amount of the grant and the project completion date will be negotiated as soon as possible after a grant has been approved. Maximum time period for project completion shall be two years for acquisition or development projects, unless an extension approved by the director is authorized. However, agreements covering land acquisition will be dependent upon receipt of a department-approved appraisal report since assistance will be based on the approved appraised valuation or the actual purchase price, whichever is the lesser. Approved development projects costing over \$25,000 must have plans certified by a registered engineer before an agreement will be issued.

30.12(2) Cooperative agreements between the department and the local project sponsor may be amended to increase or decrease project scope or to increase or decrease project costs and fund assistance. Any increase in fund assistance will be subject to the availability of funds. Amendments to increase scope or fund assistance must be approved by the director before work is commenced or additional costs incurred. A project sponsor may request amendment of the agreement for a previously completed project to allow commercial use under the conditions specified in 30.9(3). The director shall have the authority to approve such amendments.

30.12(3) All approved projects, except those in which the project is owned by the state and managed by a local entity, having a grant request in excess of \$25,000 will be presented to the natural resource commission members for their information prior to project initiation. The commissioners may act to disapprove or modify projects.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.13(452A) Reimbursement procedures. Financial assistance from the water access fund will typically be in the form of reimbursement grants, which will be made on the basis of the approved percentage of all eligible expenditures up to the amount of the approved grant.

Reimbursement requests will be submitted on project billing forms provided by the department.

30.13(1) For acquisition projects, one copy each of the following additional documentation will be required:

- a. Deed.
- b. Invoices or bills for any appraisal or survey expense.
- c. All applicable canceled checks or warrants.
- d. A certificate of title prepared by the agency's official legal officer.

30.13(2) For development projects, grant recipients shall provide documentation as required by the department to substantiate all project expenditures.

30.13(3) Reimbursements will be made on real estate contract payments using the following procedures:

a. The grant recipient will submit to the department a copy of the real estate contract, which must stipulate that the grant recipient will get physical control of the property on or before the date the first contract payment is made.

b. The grant recipient will submit to the department a copy of any approval that it is required to obtain from any governing body to enter into a real estate contract.

c. The grant recipient will submit to the department an up-to-date title opinion from its official legal officer indicating that the landowner has and can convey clear title to the grant recipient.

d. The grant recipient will submit a project billing with photocopy of the canceled warrant when claiming reimbursement.

e. When final payment has been made and title obtained, the grant recipient will submit to the department a copy of the deed and a certificate of title from its official legal officer. Only one reimbursement request may be submitted if the total project cost is \$10,000 or less. If more than \$10,000, no more than two reimbursement requests may be submitted.

A final reimbursement request shall be submitted within 90 days following the completion date indicated on the cooperative agreement. Failure to do so may be cause for termination of the project with no further reimbursement to the grant recipient.

Ten percent of the total reimbursement due any grant recipient for a development project will be withheld pending a final site inspection or until any irregularities discovered as a result of a final inspection have been resolved. Final site inspections will be conducted by assigned department staff within 30 days of notification by project sponsor that a project is completed.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.14 to 30.50 Reserved.

These rules are intended to implement Iowa Code section 452A.79.

571—30.52(455A,461A,462A) Purpose and intent. The water trails development program and the low-head dam public hazard program provide funds to assist development of local water trails on navigable waters of the state of Iowa and to support safety projects for low-head dams in the state of Iowa. The programs will be available to fund two types of projects: those that enhance water trails development and recreation and those that are limited to projects that primarily enhance dam safety in order to reduce drownings.

[ARC 7907C, IAB 5/1/24, effective 6/5/24]

571—30.53(455A,461A,462A) Program descriptions.

30.53(1) *Water trails development program.* The department will provide funds to cities and counties in the state of Iowa to plan and develop water trails throughout the state. The goal of the water trails development program is to assist and encourage the development of community-driven water trails that provide features described in statewide and local plans and herein.

30.53(2) *Low-head dam public hazard program.* The department will provide funds to dam owners, including counties, cities, state agencies, cooperatives, and individuals, within Iowa to undertake projects that warn the general public about drowning hazards related to low-head dams or that remove or otherwise modify low-head dams to create a safer experience on Iowa’s navigable waters and enhance fish passage, aquatic habitat, and navigation.

30.55(2) *Timely commencement of projects.* Funds must be completely expended within two years of the award. If the sponsor is not able to complete a project within the original time period, the sponsor must seek and receive a written extension from the department to receive reimbursements for expended funds. Any advanced funds must be returned after either the completion date or extension date if the department determines the project cannot be completed in a timely manner.

30.55(3) *Expenditures.* The sponsor shall expend all funds in accordance with the sponsor’s governance documents, which may include applicable provisions of the Iowa Code.

30.55(4) *Recordkeeping.* The sponsor shall keep all project records for three years after the final report is completed. These records are to be available for audit by the state.

30.55(5) *Permits and licenses.* The sponsor must obtain any and all required licenses and permits from federal, state, and local authorities before commencing any activity pursuant to a grant award.

30.55(6) *Control of project site.* The sponsor must demonstrate that the project site or sites are under the physical control of the sponsor or its partners, either by fee title, lease, management agreement, or easement. The sponsor assumes long-term maintenance of the integrity of the project and shall enter into

such agreements with landowners or other relevant parties as may be necessary to ensure such long-term maintenance.

CHAPTER 33
RESOURCE ENHANCEMENT AND PROTECTION PROGRAM: COUNTY, CITY,
PRIVATE OPEN SPACES AND CONSERVATION EDUCATION GRANT PROGRAMS

DIVISION I
GENERAL PROVISIONS

571—33.1(455A) Purpose. The purpose of these rules is to define procedures for the administration of the private cost-sharing funds within the open spaces account, the county conservation account, the city park and open spaces account, and the conservation education grant program of the resource enhancement and protection (REAP) fund.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.2(455A) Resource enhancement policy. The REAP program and its various elements shall constitute a long-term integrated effort to wisely use and protect Iowa's natural resources through the acquisition and management of public lands; the upgrading of public park and preserve facilities; environmental education, monitoring, and research; and other environmentally sound means. Expenditure of funds from the county conservation account, the city park and open spaces account and the private cost-sharing portion of the open spaces account shall be in accord with this policy.

571—33.3(455A) Definition. In addition to the definitions in Iowa Code section 455A.1, the following definition shall apply to this chapter:

“Open spaces” means those natural or cultural resource areas that contain natural vegetation, fish, or wildlife, or have historic, scenic, recreation and education value. Examples of open spaces in cities and towns include, but are not limited to, parks, riverfronts and town squares. In rural areas, open spaces include, but are not limited to, such areas as woodlands, prairies, marshlands, river corridors, lake shores, parks and wildlife areas.

571—33.4(455A) Grant applications, general procedures.

33.4(1) Applications for all grant programs shall be made on forms provided by the department.

33.4(2) Applications shall provide sufficient detail as to clearly describe the scope of the project. Any application that is not complete at the time of project review and scoring, or for which additional pertinent information has been requested and not received, shall not be considered for funding.

33.4(3) Application deadlines are the same for county, city, and private open space grant programs. Applications will be reviewed and projects selected for funding at least once per year. The department shall publish on its website the date and time for submitting a funding proposal, providing at least 90 days' notice. Applications must be submitted to the department as described on the website.

33.4(4) Joint applications are permitted. One entity must serve as the primary applicant. Joint projects sponsored by entities competing for funds from different REAP accounts (e.g., a joint city/county project) are allowable. Applications must clearly spell out the respective shares of project costs to be derived from various REAP accounts if the project is approved for funding. Any cooperative agreement between joint applicants must be provided as a part of the application.

33.4(5) Applicants shall not use other department grants, such as land and water conservation fund or wildlife habitat promotion with local entities, as leveraged funds for a project requesting REAP funds. Likewise, REAP funds shall not be used as matching funds for applications to other grants.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.5(455A) Appraisals. Appraisal reports must be approved or disapproved in writing by the director. Grants may include incidental costs associated with the acquisition, including, but not limited to, costs for appraisals, abstracts, prorated taxes, deed tax stamps, recording fees and any necessary surveys and fencing.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.6(455A) Groundwater hazard statements. Grantees must obtain a properly completed groundwater hazard statement on all proposed acquisitions before the acquisition is completed. The statement must be filed with the department and county recorder pursuant to Iowa Code section 558.69. Prior to the acquisition of any property that has an abandoned or unused well, hazardous waste disposal site, solid waste disposal site, or underground storage tank, the grantee must file with the department a plan that details how these conditions will be managed to best protect the environment. This plan must be approved in writing by the director before the land is acquired.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.7(455A) Rating systems not used. During any funding cycle when total grant requests are less than the allotment available, the rating system need not be applied. All applications will be reviewed by the appropriate committee for eligibility to ensure they meet minimum scoring requirements and to ensure consistency with program policy and purposes.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.8(455A) Applications not selected for grants. All applications for projects considered eligible but not scoring high enough to be awarded a grant immediately will be retained by the department until two months prior to the next regular submittal date during which time they may be funded. If not approved for funding by that time, applicants will be notified by the department in writing. The original application will be returned to applicants only upon request. The applicant may resubmit the project or an amended version of the project for scoring and consideration during the next application cycle by resubmitting an original or amended application and five copies by the respective deadline.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.9(455A) Similar development projects. An application for a development project grant may include development on more than one area if that development is of a like type (e.g., tree and shrub plantings).

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.10(455A) Timely commencement and completion of projects. Grant recipients are expected to commence and complete projects in a timely and expeditious manner. A project period commensurate with the work to be accomplished will be established and included in the project agreement. Project sponsors may receive up to 90 percent of approved grant funds at the start of the project period. Failure to initiate the project or to complete it in a timely manner may be cause for termination of the project, return of unused grant funds at the time of termination, and cancellation of the grant by the department.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.11(455A) Waivers of retroactivity. Normally, grants for acquisitions or developments completed prior to application scoring will not be approved. However, an applicant may make written request for a waiver of retroactivity to allow project elements to be considered for grant assistance. Waivers will be granted in writing by the director and receipt of a waiver does not ensure funding, but only ensures that the project will be considered for funding along with all other applications.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.12(455A) Project amendments. Projects for which grants have been approved may be amended, if funds are available, to increase or decrease project scope or to increase or decrease project costs and grant amount. All amendments must be approved by the appropriate project review and selection committee and by the director. Amendments that result in an increase in the cost of the project in excess of \$25,000 or 25 percent of the approved cost, whichever is greater, or that involve a change in the project purpose also must be approved by the commission.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.13(455A) Recordkeeping and retention. Grant recipients shall keep adequate records relating to the administration of a project, particularly relating to all incurred expenses. These records shall be

available for audit by representatives of the department and the state auditor's office. All records shall be retained in accordance with state laws.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.14(455A) Penalties. Whenever any property, real or personal, acquired or developed with REAP funds passes from the control of the grantee or is used for purposes other than the approved project purpose, it will be considered an unlawful use of the funds. If a grantee desires to use the approved funds for a purpose other than the approved project purpose that is an approved use of funds under the provisions of Iowa Code chapter 455A and these rules, the grantee shall seek an amendment to the project purpose by following the provisions provided in this rule. The department shall notify the grantee of any such violation.

33.14(1) Remedy. Funds used without authorization, for purposes other than the approved project purpose, or unlawfully must be returned to the department for deposit in the account of the REAP fund from which they were originally apportioned. In the case of diversion of property acquired with REAP fund assistance, property of equal value at current market prices and with similar open space benefits may be acquired with local, nongrant funds to replace it. Such replacement must be approved by the appropriate review and selection committee and the director. In the case of diversion of personal property, the grantee shall remit to the department at the current valuation of the real estate. The grantee shall have a period of two years after notification by the department in which to correct the unlawful use of funds. The remedies provided in this subrule are in addition to others provided by law.

33.14(2) Land disposal. Whenever the department, and, if a city or county, the grantee, determine that land acquired or developed with REAP fund assistance is no longer of value for the program purposes, or that the grantee can show good cause why the land should no longer be used in accord with the approved project purpose, the land may be disposed of with the director's approval and the proceeds therefrom used to acquire or develop an area of equal value, or the grantee shall remit to the department funds at the current valuation of the real estate for inclusion in the account from which the grant was originally made. If land acquired through the private grant program is determined to be no longer of interest by the state, the proposed dispersal of the property shall be reviewed by the grantee, and the grantee shall have the first right of refusal on an option to take title to the property in question. For projects that only received developmental money, the life of the project is deemed closed after a period of 20 years from the date of the original grant; repayment of the grant will not be required.

33.14(3) Ineligibility. Whenever the director determines that a grantee is in violation of this rule or in violation or noncompliance with other grants administered by the department, that grantee shall be ineligible for further assistance until the matter has been resolved to the satisfaction of the commission.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.15(455A) Public communications. Grant recipients shall participate in public communications activities to inform the public of the REAP program and of their particular project. The project will not be considered successfully completed, for purposes of this rule, until evidence is provided to the department REAP coordinator that the following requirements have been met. The remaining 10 percent payment of the grant total will not be issued until such evidence has been provided. Evidence includes but is not limited to photographs showing sign placement, newspaper or magazine clippings, printed brochures or flyers available to the public, exhibits for public display and other related materials. Information gathered from site inspections by the department may also be considered acceptable evidence.

33.15(1) Signs. Grant recipients are required to adequately display the 12-inch by 12-inch REAP signs, provided by the department at no charge, on project locations where appropriate so that users of the project can readily see that REAP is at least partially responsible for the project. The REAP signs will be maintained and replaced as necessary as long as the department has signs available.

33.15(2) Dedication ceremony. Grant recipients shall hold a public meeting or event to dedicate the project. Information provided during the event shall include information in regard to the REAP program and its role in supporting the project. This information shall also be provided to local news media by use of a news release. Local and state elected officials shall be invited to attend and participate.

33.15(3) *Grants include public communications plan.* A description of the public communications plan shall be included in every project submitted as a grant request. Grant recipients shall carry out the plan if their project is funded.

DIVISION II
COUNTY GRANTS

571—33.16(455A) County conservation account. All funds allocated to counties under this program may be used for land easements or acquisitions, capital improvements, stabilization and protection of resources, repair and upgrading of facilities, environmental education, and equipment; except as restricted by Iowa Code section 455A.19.

33.16(1) Expenditure guidelines. All expenditures and restrictions shall be in accordance with Iowa Code section 455A.19. Expenditure of funds for personnel costs are allowed by Iowa Code section 455A.19, but only when personnel are clearly directed toward the purpose and policy of the REAP program. Personnel costs are not allowable under the competitive grant program. Up to 20 percent of a total project's cost may be used to cover costs of engineering and design work or other consultant fees directly associated with the project.

33.16(2) Competitive grant project planning and review committee.

a. The makeup of this committee is as follows: two representatives of the department appointed by the director; two county conservation board directors appointed by the director of the department with input from the Iowa association of county conservation boards; and one member selected every three years by a majority vote of the director's appointees. Additionally, there shall be at least two alternates designated by the director with input from the Iowa association of county conservation boards. The members shall select a chairperson at the first meeting during each calendar year. Terms of appointment to the committee shall be on a three-year staggered term basis.

b. Conflict of interest. An individual who is a member, volunteer, or employee of an entity that has submitted a project shall not serve on the scoring committee during that award cycle. Instead, one of the alternates shall review and score in the individual's place.

33.16(3) Competitive grant project selection criteria. Under the competitive grant program, a project planning and review committee shall establish criteria and scoring systems to be utilized in project evaluation. The criteria and scoring system shall be submitted to the director and natural resource commission for approval. Criteria and scoring systems must be distributed to all counties at least 90 days prior to the project application deadline. In order to be eligible for award, an applicant must receive, at a minimum, 50 percent of the total allowable points.

33.16(4) Availability of funds. Those funds allocated on a per capita basis and those awarded in the competitive grant program shall be allocated only to counties dedicating property tax revenue at least equal to 22 cents per \$1,000 of the assessed value of the county's taxable property to conservation purposes. Annual certification from the county auditor of each county shall be made on forms provided by the department. The certification shall include information on total assessed value of taxable property in the county; budget of the county conservation board, including a distinction of that which is derived from sources other than property taxes; and a schedule of expenditures and staffing. A copy of this certification must be filed with the director. REAP program funds received shall not reduce or replace county tax revenues appropriated for county conservation purposes.

a. County conservation purposes include and are limited to the following activities and responsibilities:

(1) Operation and maintenance of real property and equipment under the jurisdiction and control of the county conservation board, and utilized by the public for museums, parks, preserves, parkways, playgrounds, recreational centers, county forests, county wildlife areas, establishment and maintenance of natural parks, multipurpose trails, restroom facilities, shelter houses and picnic facilities and other county conservation and recreational purposes as provided in Iowa Code section 350.4.

(2) The acquisition and development of real estate utilized for purposes authorized by Iowa Code chapter 350. The cost of planning, engineering or architectural services directly related to acquisition and development is allowable as a county conservation purpose.

(3) The county conservation board's share of joint operations of facilities and programs as described in Iowa Code section 350.7. The cost of the county's weed control program, as required by Iowa Code chapter 317, may specifically be included as a county conservation purpose if the county conservation board director or a member of the county conservation board staff is appointed county weed commissioner by the board of supervisors, and is given full authority to plan and accomplish an environmentally sound vegetative management program.

(4) The administration of the county conservation program, including and limited to the expenses of board members, salary and expenses of the county conservation board director, and related clerical, technical and support costs charged directly to the county conservation board's budget.

(5) Any reimbursement from the county conservation board's budget for the actual expense of county-owned equipment, use of county equipment operators, supplies, and materials of the county, or the reasonable value of county real estate made available for the use of the county conservation board as provided by Iowa Code section 350.7. Such reimbursements shall be supported by daily time and activity records detailing the hourly charge for equipment and operator use, the specific quantities and cost of materials used, or a fee appraisal prepared by an independent fee appraiser and approved by the director.

(6) No other costs, including indirect costs as computed for purposes of federal grant programs or distribution of general county overhead, are allowable as a county conservation purpose.

b. Reserved.

33.16(5) Certification procedures. The annual certification that a county is dedicating property tax revenue at least equal to 22 cents per \$1,000 of the assessed value of the county's taxable property to conservation purposes shall be submitted by the county auditor to the department on forms provided by the department. Certification is based upon actual expenditures for conservation purposes during the previous fiscal year. Submission of a certification by October 1 of any year will qualify the county for per capita funds held in reserve for that county and establish eligibility for participation in the competitive grant program. The certification will remain in effect through June 30 of the following year. Counties that fail to meet this requirement for any given fiscal year are ineligible for that fiscal year. A county that is ineligible can reestablish eligibility for a future fiscal year through the certification process.

a. The levy of property taxes for county conservation board purposes shall be calculated in the following manner. First, the actual expenditures for all county conservation purposes for the fiscal year shall be determined. Next, the total of all receipts derived from county conservation activities and all grants and donations received or billed for from whatever source for county conservation purposes shall be determined. The total of all receipts and grants shall then be subtracted from the total expenditures. This result shall then be divided by the total taxable value of all county property to determine the amount per thousand dollars utilized to support county conservation purposes.

b. Transfers of property tax receipts to the reserve account established under Iowa Code section 350.6 shall be included as expenditures in the fiscal year that transfers occur for purposes of the calculation of the certified levy. Withdrawals from the reserve account and expenditures and receipts reflected in the special resource enhancement account created as provided in Iowa Code section 455A.19 shall not be included in the calculation of the certified levy.

c. If a dispute arises over the appropriateness of a county expenditure as a county conservation purpose or the accuracy and correctness of the certified levy by the county auditor, the director shall notify the state auditor and request that a recommendation be included in the next audit report. Upon receipt of the audit report, the director shall make a final determination and adjust subsequent distributions to the county or request reimbursement from the county as necessary.

33.16(6) Fund distribution schedule. Funds from the county resource account that are distributed on a per capita and per county basis shall be distributed by the department to each eligible county quarterly.

33.16(7) *Special account.* Each county board of supervisors shall create a special resource enhancement account in the office of the county treasurer, and the county treasurer shall credit all REAP funds from the state to that account.

a. REAP funds received by the county shall not be used to fund any program or activity that was funded in prior years by other county revenues. Expansion of previously funded programs is permitted. Each county board director, as part of financial documentation regarding the special resource enhancement and reserve accounts, shall document that county expenditures of REAP funds supported only programs and activities not funded in prior years by county revenues other than REAP funds. For purposes of this documentation, expenditures from the special resource enhancement account for land acquisition shall be viewed as a new program and not a continuation of previous land acquisition programs. Expenditures from the special resource enhancement account for routine maintenance of facilities must involve only facilities previously constructed or otherwise acquired with REAP funds. REAP funds may be used for renovation, expansion or upgrading of facilities regardless of the source of funding for the original facilities, except as prohibited by Iowa Code section 455A.19. Likewise, expenditures from the special resource enhancement account for equipment, supplies, materials, or staff salaries must directly relate to the establishment or expansion of programs or activities with REAP funds, and such programs or activities shall not have been previously funded with other county revenues.

b. Failure to adequately document expenditures from the special resource enhancement account or to provide the documentation as previously described regarding these expenditures upon request by the state auditor or department staff will result in the county losing its eligibility to receive per capita and competitive grants from the REAP program for a period of one to three years. A county that loses its eligibility may reestablish its eligibility by certifying that the county tax dollars dedicated to county conservation purposes during the previous fiscal year were at least 22 cents per \$1,000 of assessed taxable property.

DIVISION III
CITY GRANTS

571—33.17(455A) Competitive grants to cities. Fifteen percent of available funds in the REAP fund (after the \$350,000 annual allocation to the conservation education board and 1 percent of revenues to the fund are allocated to the administration fund) shall be allocated annually to the city park and open spaces grant account. That 15 percent shall be divided into three portions according to the percentage of the state's urban population in each category, with each portion available on a competitive basis to cities falling within one of the following three size categories: (1) cities of less than 2,000; (2) cities between 2,000 and 25,000; and (3) cities larger than 25,000. Funds shall be initially apportioned to each category as per this rule. If at the time of project review and scoring there are funds available in any category that exceed the requests for grants in that category, those funds may, at the director's discretion, be transferred to another category where requests exceed the funds available.

33.17(1) *Eligible sponsors.* Any incorporated city or town in the state may make application for a grant.

33.17(2) *Grant ceilings.* Incorporated cities and towns are eligible to receive annual grants from the REAP fund in accordance with the following schedule:

Population	Maximum
0 — 1,000	\$ 50,000
1,001 — 5,000	75,000
5,001 — 10,000	100,000
10,001 — 25,000	125,000
25,001 — 50,000	150,000
50,001 — 75,000	200,000
over 75,000	300,000

The grant ceiling may be waived upon approval by the director if (1) the project is regional in nature or is projected to serve a minimum of 100,000 people; or (2) the project cannot be staged over a multiyear period so that a separate grant application might be submitted each year.

33.17(3) *Review and selection committee.*

a. The director shall appoint a five-member review and selection committee to evaluate project applications. This committee shall include one member representing each of the three size classes of cities (e.g., one from a city of less than 2,000, one from a city of 2,000 to 25,000, and one from a city of more than 25,000). The director shall request a list of candidates from the Iowa league of cities and Iowa parks and recreation association. The remaining two members of the committee shall be a representative of the department and an at-large member. Additionally, there shall be at least two alternates designated by the director from the candidates list provided by the Iowa league of cities and the Iowa parks and recreation association. The committee shall elect its own chairperson from its members. Members shall serve three-year staggered terms.

b. Conflict of interest. An individual who is a member, volunteer, or employee of an entity that has submitted a project shall not serve on the scoring committee during that award cycle. Instead, one of the alternates shall review and score in the individual's place.

33.17(4) *Project selection criteria.* A project planning and review committee shall establish criteria and scoring systems to be utilized in project evaluation. The criteria and scoring system shall be submitted to the director and natural resource commission for approval. Criteria and scoring systems must be distributed to all counties at least 90 days prior to the project application deadline. In order to be eligible for award, an applicant must receive, at a minimum, 50 percent of the total allowable points. [ARC 7910C, IAB 5/1/24, effective 6/5/24]

DIVISION IV
PRIVATE GRANTS

571—33.18(455A) Private cost-sharing program. At least 10 percent of the funds placed in the open spaces account shall be made available for cost sharing with private entities for cost sharing at a maximum level of 75 percent.

33.18(1) *Protection defined.* Protection is defined as the purchase of all or a portion of the rights associated with ownership of real property so as to ensure that open space values associated with that property are protected in perpetuity. Protection methods, in order of preference, include, but are not limited to, fee title acquisition, purchase of easements, or other mechanisms that provide long-term assurance of open space protection. Title for acquired properties shall be vested in the state of Iowa, and projects must be consistent with priorities established by the department.

33.18(2) *Eligibility to participate.* Any trust, foundation, incorporated conservation organization, private individual, corporation or other nongovernmental group able to provide funds or interest in land sufficient to equal at least 25 percent of a proposed protection project may submit or cause to have submitted a project for funding consideration. Except however, a private organization established to benefit a specific governmental entity is not eligible to submit a project. Governmental entities are also not eligible to submit a project.

33.18(3) *Grant amount.* The department will provide grants for up to 75 percent of the appraised cost of the land plus incidental acquisition costs. Costs in excess of these must be borne by the grantee.

33.18(4) *Project review and selection committee.*

a. The director shall appoint a committee to review and score projects. The committee shall include the following: three persons representing the private sector and two alternates selected from a pool of potential names as submitted to the director by the various private eligible groups; administrator of the conservation and recreation division of the department, or the administrator's designee; and the bureau chiefs of the department's wildlife bureau and parks, forests, and preserves bureau or their designees. The committee shall elect its own chairperson from its members. The committee will report to the director the order in which proposed projects were ranked using criteria as specified in subrule 33.18(5).

b. Conflict of interest. An individual who is a member, volunteer, or employee of an entity that has submitted a project shall not serve on the scoring committee during that award cycle. Instead, one of the alternates shall review and score in the individual's place.

33.18(5) *Project selection criteria.* A project planning and review committee shall establish criteria and scoring systems to be utilized in project evaluation. The criteria and scoring system shall be submitted to the director and natural resource commission for approval. Criteria and scoring systems must be distributed to all counties at least 90 days prior to the project application deadline. In order to be eligible for award, an applicant must receive, at a minimum, 50 percent of the total allowable points.

33.18(6) *Department rejection of applications.* The director may remove from consideration by the project review and selection committee any application for funding the acquisition of property that the department determines is not in the state's best interest for the department to manage. The department's basis for determining such interest may include, but not be limited to, inaccessibility to the project area, environmental contamination and unacceptable use restrictions, management cost, the proximity to other governmental entities that may impose use restrictions or special tax assessments on the area, or lack of conformance with priorities established by the department. Examples of use restrictions can include prohibitions on hunting, trapping, timber harvest, vegetation management, and easements that affect the range of public use and activities that could otherwise be allowed.

33.18(7) *Certification of availability of funds.* Applicants must certify at the time of application that sufficient funds, land, letter of credit, or other acceptable financial instrument is available from private sources to cover the private share of the project.

33.18(8) *Acquisition responsibilities and process.* The grantee is responsible for obtaining an appraisal that is approvable by the department and for obtaining the director's written approval of that appraisal. The grantee is responsible for negotiating an option to purchase the property with the seller. If the option contains any requirements for action by the department or restrictions on the use of the land, those requirements or restrictions must be approved by the director and the commission before they are incorporated into the option. The grantee is responsible for closing the transaction, recording the transaction with the appropriate county recorder, and providing the department with a copy of the deed naming the department as owner and a title vesting certificate. The director may, under special conditions, allow title to be vested in the name of a city or county. Necessary assurances may include the placement of special conditions on that title, the existence of an approved, long-term management agreement or other measures as deemed appropriate by the commission. The department may provide assistance at the request of the grantee, or at the director's recommendation.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

DIVISION V
CONSERVATION EDUCATION BOARD

571—33.19(455A) *Conservation education program policy.* The conservation education program board shall constitute a long-term integrated effort to support conservation education for Iowa educators and students. To support this policy, the board may establish guidelines from time to time to direct applicants to priority areas for funding and shall give preference to grants that meet these guidelines. The board may provide funding for activities that expand the impact of the project and provide accessibility for widespread adoption of programs for implementation by others. The board may provide funding for tracking of project implementation and evaluation.

33.19(1) *Conservation education program board.* The board will review and amend, as needed, the review and selection criteria for competitive grants and policies of conduct.

33.19(2) *Definitions.* The following definitions shall apply to this division:

"Board" means REAP conservation education program board.

"Conservation education programs" means programs developed for formal (K-12 students), nonformal (preschool, adult and continuing education) and higher education (postsecondary and adult) programs, within the subject areas of natural resource conservation and environmental protection.

“*Educator*” means any person who teaches environmental/conservation education. This may apply to certified teachers, governmental or private naturalists, education specialists, or others so determined by the board.

“*Environmental/conservation education materials*” means materials that are developed or produced that provide knowledge, skills, processes and strategies that enhance Iowa citizens’ understanding of natural resources conservation and environmental issues.

“*Stipends for Iowa educators who participate in innovative conservation education programs*” may include tuition costs; acceptable food and lodging costs; substitute teacher costs; mileage expenses or separate allowances when applicable for educators to attend board-approved environmental/conservation education workshops, in-service programs and conferences; and other costs as approved by the board.
[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.20(455A) Eligibility for funds. In years in which funds are made available, grant applications may be submitted by institutions of higher learning; government agencies, including local school districts; nonpublic schools; area education agencies; organizations; and individuals with an Iowa residence. Preference shall be given to Iowa participants.
[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.21(455A) Grant applications, general procedures.

33.21(1) Applications for all grant programs shall be made on forms provided by the department.

33.21(2) The board shall establish criteria and scoring systems to be utilized in the project evaluation and approved during a regularly scheduled board meeting. Criteria and scoring systems must be distributed to all potential applicants at least 90 days prior to the project application deadline.

33.21(3) Joint applications are permitted. One entity must serve as the primary applicant. Joint projects sponsored by entities (e.g., an organization or institution, and an area education agency) competing for funds from different REAP accounts are allowable. Applications must clearly spell out the respective shares of project costs to be derived from various REAP accounts if the project is approved for funding. Any cooperative agreement between joint applicants must be provided as a part of the application.

33.21(4) Similar development projects. An application for a conservation education program grant may serve more than one target population (e.g., scouting and K-6 classrooms).

571—33.22(455A) Grantee responsibilities.

33.22(1) *Timely completion of projects.* Projects are expected to be completed in a 12-month time period; however, up to 18 months may be allowed by the board for grants difficult to accomplish in 12 months. The board may consider extending the time period of a grant upon request.

33.22(2) *Recordkeeping and retention.* Grant recipients shall keep adequate records relating to the administration of a project, particularly all incurred expenses. These records shall be available for audit by representatives of the department and the state auditor’s office. All records shall be retained in accordance with state laws.

33.22(3) *Midterm and final reports.* Grantees shall provide midterm and final reports that include information detailing progress toward goals and objectives, expenditures and services on forms provided for those reports. The reports shall clearly identify the status of fundraising relevant to the approved project and problems that may cause a delay in completing the project within the approved project period. Failure to submit reports by the due date shall result in suspension of financial payments to the grantee until the time that the report is received. Grants are considered active until the board notifies the grantee that the grant has been terminated or completed by the terms of the grant. At the completion of the project and prior to the final payment, a final written report shall be submitted by the grantee to the board. The final 10 percent payment shall be withheld pending this report, which shall include a 75- to 100-word summary of project results. This summary will be posted on the state environmental education website. No new awards shall be made for continuation programs when there are delinquent reports from prior grants.

33.22(4) Contract revisions. The grantee shall immediately inform the board of any revisions in the project budget in excess of 10 percent of a line item. The board and the grantee may negotiate a revision to the contract to allow for expansion or modification of services, but shall not increase the total amount of the grant. The board retains the authority to approve or deny contract revisions.

33.22(5) Nonapplication of copyright. Program materials developed from REAP funds for conservation education materials shall bear the REAP logo. However, materials developed under this grant shall not be copyrighted by the grantee unless the board gives permission.

33.22(6) Restrictions. Funds allocated under this chapter shall not be used for out-of-state travel or equipment, such as typewriters, computers, and hardware, or for construction, renovation, or remodeling costs unless specifically approved by the board.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.23(455A) Board review and approval. The board or its designee shall review and rank projects for funding, and funds shall be awarded on a competitive basis. If delegated, the reviewing, scoring and ranking of projects will be presented to the board as recommendations. The board may approve or deny funding for any project or part thereof.

33.23(1) In each year that funds are made available by the Iowa legislature, payments shall be as follows:

a. For grant periods in excess of 90 days, up to 50 percent shall be paid at the beginning of the grant period, up to 40 percent at the midpoint of the grant period, and the balance upon successful completion as determined by the board.

b. For grant periods of fewer than 90 days, 75 percent shall be paid at the beginning of the grant period and the balance at successful completion as determined by the board.

33.23(2) The board shall notify successful applicants and shall provide a contract for signature. This contract shall be signed by an official with authority to bind the applicant and shall be returned to the department prior to the award of any funds under this program.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.24(455A) Waivers of retroactivity. Normally, grant program developments completed prior to application scoring will not be approved. However, an applicant may make written request for a waiver of retroactivity to allow project elements to be considered for grant assistance. Waivers will be issued in writing by the board. Receipt of a waiver does not ensure funding, but only ensures that the project will be considered for funding along with all other applications.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.25(455A) Penalties. Whenever any property, real or personal, acquired or developed with REAP funds passes from the control of the grantee or is used for purposes other than the approved project purpose, it will be considered an unlawful use of the funds. If a grantee desires to use the approved funds for a purpose other than the approved project purpose, the grantee shall seek an amendment to the project purpose. The board shall notify the grantee of any apparent violation.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.26(455A) Remedy. Funds used unlawfully, without authorization, or for other than the approved project purpose shall be returned to the department within the period specified by the board or director. The remedies provided in this rule are in addition to others provided by law.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.27(455A) Termination for convenience. The contract may be terminated in whole or in part when both parties agree that the continuation of the project would not produce beneficial results commensurate with the future expenditure of funds. The parties shall agree upon the termination conditions, including the effective date, and, in the case of partial terminations, the portion to be terminated. The grantee shall not incur new obligations for the terminated portion after the effective date and shall cancel as many outstanding obligations as possible.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.28(455A) Termination for cause. The contract may be terminated in whole or in part at any time before the date of completion whenever it is determined by the board that the grantee has failed to comply substantially with the conditions of the contract. The grantee shall be notified in writing by the department of the reasons for the termination and the effective date. The department shall administer the conservation education grants contingent upon their availability. If there is a lack of funds necessary to fulfill the fiscal responsibility of the conservation education grants, the contracts shall be terminated or renegotiated. The board may terminate or renegotiate a contract upon 30 days' notice when there is a reduction of funds by executive order. The grantee shall not incur new obligations for the terminated portion after the effective date and shall cancel as many outstanding obligations as possible.

33.28(1) Failure to initiate or complete project. Failure to initiate or complete the project in a timely manner shall be cause for termination of the project by the board. The grantee shall return unused grant funds at the time of termination.

33.28(2) Ineligibility. Whenever the board determines that a grantee is in violation of these rules, that grantee shall be ineligible for further assistance until the matter has been resolved to the satisfaction of the board.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.29(455A) Responsibility of grantee at termination. Within 45 days of the termination, the grantee shall supply the department with a financial statement detailing all costs up to the effective date of the termination. If the grantee expends moneys for other than specified budget items approved by the board, the grantee shall return moneys for unapproved expenditures.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

571—33.30(455A) Appeals. Appeals to the decisions on grant awards shall be filed with the director of the department. The letter of appeal shall be filed within ten working days of receipt of notice of decision and shall be based on a contention that the process was arbitrary; was conducted outside of statutory authority; violated state or federal law, policy, or rule; did not provide adequate public notice or was altered without adequate public notice; or involved conflict of interest by staff or board members. The director of the department shall notify the board of the appeal. The board may submit evidence in support of its decision within ten days of notice from the director. The director shall issue a decision within a reasonable time following receipt of the appeal.

[ARC 7910C, IAB 5/1/24, effective 6/5/24]

These rules are intended to implement Iowa Code sections 455A.19 and 455A.21.

CHAPTER 34
COMMUNITY FORESTRY
GRANT PROGRAM (CFGP)
Rescinded **ARC 7911C**, IAB 5/1/24, effective 6/5/24

CHAPTER 35
FISH HABITAT PROMOTION FOR COUNTY CONSERVATION BOARDS

571—35.1(483A) Purpose and definitions. The purpose of this chapter is to designate procedures for the allotment of fish habitat revenue to county conservation boards. These funds shall be used specifically to acquire from willing sellers whole or partial interest in land for use as or for protection of fish habitats and to develop and enhance fishable waters and habitat areas.

The following definitions apply in these rules:

“*Commission*” means the natural resource commission.

“*County*” means a county conservation board.

“*Department*” means the department of natural resources.

“*Director*” means the director of the department of natural resources.

“*District*” means a county conservation district.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.2(483A) Availability of funds. Fish habitat funds are dependent on sales. Revenues received by the department determine the amount of moneys available at any time.

35.2(1) Local share. Funds available for county conservation boards shall be specified in the department’s budget in accordance with legislative appropriations. At least 50 percent of the fish habitat revenue will be apportioned to county conservation boards.

35.2(2) Distribution. After deduction of 5 percent to be held for contingencies, the remaining local share will be available on an annual basis. The department shall divide fish habitat funds equally among the districts. The districts have two years to obligate fish habitat funds once the funds are made available. After two years, the department will apportion all unobligated funds equally among the districts.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.3(483A) Program eligibility. All counties are eligible to participate in this program.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.4(483A) Eligibility for cost-sharing assistance. A project is not eligible for cost sharing unless the commission specifically approves the project or the applicant has received a written waiver of retroactivity from the director prior to the project’s initiation. A project must allow for public fishing to be eligible for cost sharing; however, the review and selection committee as described in subrule 35.6(1) may recommend for commission approval projects with restrictions on boating.

35.4(1) Acquisition projects. A licensed appraiser shall appraise lands or rights thereto to be acquired, and the appraisal shall be approved by department staff. The appraisal requirement may be waived when the staff determines that it is impractical for a specific project. The cost share shall not be approved for more than 90 percent of the approved appraised value. Acquisition projects are eligible for cost share either by direct payment as described in subrule 35.11(6) or by reimbursement to counties.

35.4(2) Eligible acquisition activities.

- a. Acquisition for pond and lake construction.
- b. Acquisition of fishable streams, ponds and lakes.
- c. Acquisition for watershed protection.

35.4(3) Development projects. Eligible expenditures for development projects include, but are not limited to, preliminary expenses, contracts, the purchase of materials and supplies, rentals, and extra labor that is hired only for the specific project. The purchase of equipment is not an eligible expenditure. Donated labor, materials and equipment-use and use of a county’s own labor and equipment are not eligible for cost-share assistance. Development projects are limited to lands legally controlled by the county for the expected life of the project. Development projects are eligible only for reimbursement of reasonable costs actually incurred and paid by the county.

35.4(4) Enhancement projects. For purposes of this rule, “enhancement” is considered to be synonymous with “development.” Eligible enhancement activities include:

- a. Physical placement of fish habitats in ponds, lakes, pits and streams.

- b. Armoring of pond, lake, pit and stream shores.
- c. Construction of aeration systems.
- d. Dredging of ponds or lakes.
- e. Construction of ponds and lakes.
- f. Construction of sediment-retaining basins.
- g. Repair of lake dam/outlets.
- h. Manipulation of fish populations and aquatic vegetation.
- i. Removal of dams.
- j. Construction of fish ladders.
- k. Construction of fish barriers.
- l. Construction of rock-faced jetties.

35.4(5) *Project income.* When, as a result of a purchase agreement or other title transfer action involving cost sharing with fish habitat funds, a county directly or indirectly receives financial income that would have been paid to the previous landowner, 90 percent of that income shall be transferred to the department unless the county has identified and committed to habitat development projects or additional acquisitions on the project site to be funded from the income received. The project review and selection committee shall recommend, and the director and commission shall approve, plans for the expenditure of income received pursuant to this subrule. In the absence of acceptable fish habitat development or acquisition plans, the county shall transfer to the department 90 percent of the income received as it is received. The department shall credit that income to the county's apportionment of the fish habitat fund as described in subrule 35.2(1). The schedule of those reimbursements from a county to the state shall be included in the project agreement.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.5(483A) Application for assistance. Applications must contain sufficient detail as to clearly describe the scope of the project and how the area will be managed.

35.5(1) *Form.* Applications must be submitted on forms provided by the department.

35.5(2) *Time of submission.* Applications for funds will be reviewed and selected for funding at least once per year. The department will publish on its website the date and time for submitting a funding proposal, providing at least 90 days' notice. Applications must be submitted to the department as described on the website. Upon timely notice to eligible recipients, additional selection periods may be scheduled if necessary to expedite the distribution of funds. In emergencies, a county may request a waiver so that an acquisition project may be approved for retroactive payments if funds are available and the project meets all other criteria.

35.5(3) *Joint applications.* Joint applications are permitted. One county shall serve as the primary applicant. A joint application shall clearly describe the respective share of project costs for each county named. Any cooperative agreement between the counties named shall be provided as a part of the application.

35.5(4) *County funding.* An applicant shall certify that it has committed its share of project costs and that these funds are available and shall state the means of providing for the county share. All necessary approvals for acquisition and financing shall be included with the application. All financial income received directly or indirectly that would have been paid to the previous landowner as a result of a purchase agreement or other title transfer action shall be completely documented in the application.

35.5(5) *Multiple development projects.* An application for development project assistance may include development on more than one area if the development is of a like nature.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.6(483A) Project review and selection.

35.6(1) *Review and selection committee.*

a. Each district shall have a review and selection committee, hereinafter referred to as the committee. Each committee shall be composed of at least five county directors or their designees, with at least two designated alternates. Each district's committee shall determine which grant applications

and amendment requests are selected for funding. For advisory purposes only, a department biologist or designee shall be present during review and selection of grant applications and amendment requests.

b. Conflict of interest. An individual who is a member, volunteer, or employee of an entity that has submitted a project cannot serve on the scoring committee during that award cycle. Instead, one of the alternates shall review and score in the individual's place.

35.6(2) Consideration withheld. The committee shall not consider any application that on the date of the selection session is incomplete or for which additional pertinent information has been requested but not received.

35.6(3) Application rating system. The committee shall apply a rating system to each grant application considered for fund assistance. The department shall develop the rating system. The rating system shall be used to rate each application, and those applications receiving the highest ratings shall be selected for fund assistance to the extent of the allotment for each annual period. If the amount of grant moneys available exceeds that requested, applications will be reviewed only to determine eligibility.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.7(483A) Commission review. The director shall present the committees' recommendations to the commission at its next meeting following the rating of projects for funding. The commission may approve or disapprove funding for any project on the list.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.8(483A) Grant amendments. If funds are available, projects for which grants have been approved may be amended to increase or decrease project scope or to increase or decrease project costs and fund assistance. The director shall approve project changes prior to their inception. Amendments to increase project costs and fund assistance due to cost overruns shall not be approved if funds have already been committed or the work has already been performed.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.9(483A) Timely commencement of projects. Grant recipients are expected to carry out their projects in an expeditious manner. A project for which a grant is approved shall be commenced within six months of the date upon which the grantee is notified that the project is approved, or at another date agreed upon by both parties. Failure to do so may be cause for termination of the project and cancellation of the grant by the commission.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.10(483A) Project period. A project period that is commensurate with the work to be accomplished shall be assigned to each project. Extensions may be granted only in case of extenuating circumstances.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.11(483A) Payments.

35.11(1) Grant amount. Grant recipients will be paid 90 percent of all eligible costs incurred on a project up to the amount of the grant unless otherwise specified in the project agreement.

35.11(2) Project billings. Grant recipients shall submit billings for reimbursement or cost sharing on forms provided by the commission.

35.11(3) Project billing frequency. Project billings shall be submitted on the following basis:

a. Up to \$10,000 total project cost—one billing.

b. Over \$10,000 total project cost—no more than two billings.

35.11(4) Documentation. Grant recipients shall provide documentation to substantiate all costs incurred on a project as may be required by the department.

35.11(5) Development projects. Eighty percent of the approved local share may be paid to the county when requested, but not earlier than start-up of the project. The department, pending successful completion and final inspection of the project, shall withhold 20 percent of the local share until any irregularities discovered as a result of a final site inspection have been resolved.

35.11(6) Acquisition projects. The department may make payment directly to a property seller pursuant to the following criteria:

- a. The county requests direct payment in the project application and shows good cause for such procedure;
- b. The seller provides to the county a marketable fee simple title, free and clear of all liens and encumbrances or material objections at the time of payment; and
- c. Sufficient program funds are available at the time of transfer.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.12(483A) Recordkeeping and retention. A grant recipient shall keep adequate records relating to its administration of a project, particularly relating to all incurred costs and direct or indirect income that normally would have been paid to the previous landowner as a result of a purchase agreement or other title transfer action. A copy of the county's audits showing such income and disbursements for the grant period shall be submitted to the department's budget and grant bureau. These records shall be available for audit by appropriate personnel of the department and the state auditor's office. All records shall be retained in accordance with state law.

[ARC 7912C, IAB 5/1/24, effective 6/5/24]

571—35.13(483A) Penalties. Whenever any real or personal property acquired or developed with fish habitat fund assistance passes from the control of the grantee or is used for other purposes that conflict with the project purpose, it shall be considered an unlawful use of the funds. The department shall notify the county of any such violation.

35.13(1) Remedy. Funds thus used unlawfully shall be returned to the department for inclusion in the fish habitat fund, or local, non-cost-shared funds shall be used to acquire a replacement property of equal value at current market prices and with commensurate benefits to fish. The replacement property must be approved by the commission. The county shall have a period of two years after notification by the department in which to correct the unlawful use of funds. The remedies provided by this subrule are in addition to others provided by law.

35.13(2) Land disposal. Whenever it has been determined and agreed upon by the grantee and the commission that land acquired or developed with fish habitat fund assistance is no longer of value for the project purpose or that the county has other good cause, the commission may authorize that the land be disposed of and the proceeds thereof used to acquire or develop an area of equal value or that 90 percent of the proceeds be returned to the state for inclusion in the fish habitat fund.

35.13(3) Ineligibility. If the department determines that a county has unlawfully used fish habitat funds, the county shall be ineligible for further assistance until the matter has been resolved to the satisfaction of the commission.

CHAPTER 37
BOATING SAFETY EQUIPMENT
[Prior to 12/31/86, Conservation Commission[290] Ch 27]

571—37.1(462A) Fire extinguishers. The number and type of fire extinguishers required for motorboats within the state of Iowa are as follows:

37.1(1) Fire extinguishers. Fire extinguishers shall be a U.S. Coast Guard-approved type as identified in the coast guard publication equipment list (CG-190) by manufacturer’s model, number and size, or type bearing the labeling “marine type” by the Underwriters’ Laboratories, Inc., which are U.S. Coast Guard-approved as per Federal Register 5, November 1960.

37.1(2) Approved fire extinguishers. Each fire extinguisher is classified, by letter and number, according to the type of fire it may be expected to extinguish, and the size of the extinguisher. The letter indicates the type of fire (“A” for fires in ordinary combustibile materials; “B” for gasoline, oil and grease fires). Extinguishers approved for motorboats are hand-portable, of either B-I or B-II classification.

Classification (type-size)	Foam (minimum gallons)	Carbon Dioxide (minimum pounds)	Dry Chemical (minimum pounds)
B-I	1¼	4	2
B-II	2½	15	10

The number of approved extinguishers required depends upon the class (or length) of the motorboat. One B-II extinguisher may be substituted for two B-I extinguishers. When the engine compartment of the motorboat is equipped with a fixed (built-in) extinguishing system of an approved type, one less B-I extinguisher is required.

37.1(3) Fire extinguishers required.

Class of motorboat	Without fixed fire extinguisher system in machinery space	With fixed fire extinguisher system in machinery space
I (less than 16 ft.)	1 B-I	None
II (16 ft. to under 26 ft.)	1 B-I	None
III (26 ft. to under 40 ft.)	2 B-I or 1 B-II	1 B-I
IV (40 ft. to 65 ft.)	3 B-I or 1 B-II and 1 B-I	2 B-I or 1 B-II

571—37.2(462A) Flame arrester required. All motorboat engines, except outboard engines, shall be equipped with an efficient flame arrester, backfire trap or other similar device.

An acceptable flame arrester shall have one of the following markings:

1. U.S. Coast Guard approval number.
2. Complies with UL 1111 per tests by (name of testing facility).
3. Evidence of compliance with the standard shall be indicated by the marking SAE J-1928 with the word MARINE arranged in a suitable manner.

A flotation wet suit may include a full suit (top and bottom) or a form-fitting top as long as the top will float the wearer when air is expelled from the wearer's lungs. A special event may include practice sessions if all practice sessions for the season are listed on the special event application. In that case, the application shall include a specific location, date and time for each practice session.

37.13(10) No person shall operate a vessel on any waters of this state under the jurisdiction of the commission, towing a person or persons on water skis, surfboard, or similar device, nor shall any person

40.61(1) Watercraft and vehicles shall be prohibited from entering the safety zone in order to prevent access to areas within Camp Dodge where a hazard to the public may exist. This prohibition shall not apply to watercraft or vehicles explicitly authorized to enter the safety zone by the Iowa national guard. The safety zone boundaries shall be indicated by signage including the wording “Warning, Restricted Area, No Entrance.” The Iowa national guard shall be responsible for the acquisition, placement, and maintenance of any signage.

40.61(2) The safety zone shall be recognized by the state of Iowa only where signage is posted as required. Any section of Beaver Creek that is not designated as a safety zone shall remain open to any otherwise lawful public access.

40.61(3) Signs establishing the safety zone boundaries may be moved within the present or future boundaries of Camp Dodge at the sole discretion of Iowa national guard personnel. The Iowa national guard shall notify the department of natural resources when the location of the safety zone boundary is changed.

This rule is intended to implement Iowa Code sections 321G.2, 321I.2, 462A.3, and 462A.26.

CHAPTER 41
BOATING NAVIGATION AIDS
[Prior to 12/31/86, Conservation Commission[290] Ch 31]

571—41.1(462A) Definitions.

“A display area” is the area on a sign or buoy needed for display of a waterway marker symbol.

“Buoy” is any device designed to float which is anchored in the water and which is used to convey a message.

“Regulatory marker” is a waterway marker which has no equivalent in the U.S. Coast Guard system of navigational aids.

“Sign” is any device for carrying a message which is attached to another object such as a piling, buoy, structure or the land itself.

“State aid to navigation” is a waterway marker which is the equivalent of a U.S. Coast Guard aid to navigation.

“Symbols” are geometric figures such as a diamond, circle, rectangle, etc., used to convey a basic message.

“Waterway marker” is any device designed to be placed in, on, or near the water to convey an official message to a boat operator on matters which may affect health, safety, or well being, except that such devices of the U.S. or any agency of the United States are excluded from the meaning of this definition.

571—41.2(462A) Waterway markers. Waterway markers used on the waters of this state shall be as follows:

41.2(1) State aids to navigation.

a. A red-topped white buoy, red buoy or sign shall indicate that side of the channel to be kept to the right side of the vessel when entering the channel from the main water body or when proceeding upstream.

b. A green-topped white buoy, green buoy or sign shall indicate that side of the channel to be kept to the left of a vessel when entering the channel from the main water body or when proceeding upstream.

c. Buoys or signs described in “*a*” and “*b*” above shall normally be used in pairs and only for the purpose of marking a clearly defined channel.

d. State aids to navigation shall be numbered or lettered for identification. Red buoys and signs marking channels shall be identified with even numbers, and green buoys and signs marking channels shall be identified with odd numbers, the numbers increasing from the main water body or proceeding upstream. Buoys and signs indicating the center of a waterway will be identified by letters of the alphabet. All numbers and letters used to identify state aids to navigation shall be preceded by the letters “IA”.

e. Letters and numerals used with state aids to navigation shall be white, in block characters of good proportion, and spaced in a manner which will provide maximum legibility. Such letters and numerals shall be at least six inches in height.

f. The shapes of state aids to navigation shall be compatible with the shapes established by U.S. Coast Guard regulations for the equivalent U.S. Coast Guard aids to navigation.

g. Where reflectorized materials are used, a red reflector will be used on a red buoy, and a green reflector on a green buoy.

41.2(2) Regulatory markers.

a. A diamond shape of international orange with white center shall indicate danger. The nature of the danger may be indicated by words or well-known abbreviations in black letters inside the diamond shape, or above or below it, or both, on white background.

b. A diamond shape of international orange with a cross of the same color within it against a white center without qualifying explanation shall indicate a zone from which all vessels are excluded.

c. A circle of international orange with white center will indicate a control or restriction. The nature of the control or restriction shall be indicated by words, numerals, or well-known abbreviations in black letters inside the circle. Additional explanation may be given above or below it in black letters on white background.

d. A rectangular shape of international orange with white center will indicate information, other than a danger, control or restriction, which may contribute to health, safety or well-being. The message will be presented within the rectangle in black letters.

e. Letters or numerals used with regulatory markers shall be black, in block characters of good proportion, spaced in a manner which will provide maximum legibility, and of a size which will provide the necessary degree of visibility.

571—41.3(462A) Authority to place markers.

41.3(1) No waterway marker shall be placed on, in, or near the waters of the state unless such placement is authorized by the agency or political subdivision of the state exercising jurisdiction, with respect to regulation of boating, over the area where placed, except that the provisions of this section shall not apply to private aids to navigation under the jurisdiction of the U.S. Coast Guard.

41.3(2) Such agency or political subdivision of the state will, prior to authorizing placement, obtain the necessary clearances of federal and state agencies exercising regulatory authority over the area concerned.

41.3(3) The agency or political subdivision of the state authorizing the placement of a waterway marker will inform the department of natural resources of the following:

a. Exact location of the marker, expressed in distance and direction from one or more fixed objects whose precise location is known.

b. The description and purpose of the marker including its identifying number, if any.

571—41.4(462A) Maintenance of waterway markers.

41.4(1) Waterway markers will be maintained in proper condition or be replaced or removed.

41.4(2) Zoned areas shall extend not less than 50 feet nor more than 400 feet from shore.

41.4(3) Buoys delineating the restricted speed zone shall be placed no more than 400 feet apart through the length of the affected portion of the channel.

This rule is intended to implement the provisions of Iowa Code sections 462A.17, 462A.26, 462A.31, and 462A.32.

571—41.5 and 41.6 Reserved.

571—41.7(462A) Display of waterway markers.

41.7(1) A waterway marker may be displayed as a sign or a fixed support, as a buoy bearing a symbol on its surface, or as a sign mounted on a buoy.

41.7(2) When a buoy is used to carry a symbol on its surface, it will be white, with bands of international orange on the top, and at the bottom above the water line.

41.7(3) A buoy whose sole purpose is to carry a sign above it will be marked with three bands of international orange alternating with two bands of white, each band occupying approximately one-fifth of the total area of the buoy above the water line, except where the sign itself carries orange bands; however, nothing in these rules shall be construed to prohibit the mounting of a sign on a buoy which has been placed for a purpose other than that of carrying a sign.

41.7(4) When symbols are placed on signs, a suitable white background may be used outside the symbol.

571—41.8(462A) Specifications for waterway markers.

41.8(1) The size of a display area shall be as required by circumstances, except that no display area shall be smaller than 1 foot in height. The size shall increase in increments of 6 inches; provided, however, that this specification for increase in increments shall not apply to markers in existence prior to the adoption of this rule.

41.8(2) The thickness of the symbol outline shall be one-tenth of the height of the display area.

41.8(3) The outside width of the diamond, the inner diameter of the circle, and the average of the inside and outside widths of a square shall be two-thirds of the display area height.

41.8(4) The sides of the diamond shall slope at a 35 degree angle from the vertical on a plane surface. Appropriate adjustments for curvature may be made when applied to a cylindrical surface.

41.8(5) Materials. Waterway markers shall be made of materials which will retain, despite weather and other exposures, the characteristics essential to their basic significance, such as color, shape, legibility and position. Reflectorized materials may be used.

571—41.9(462A) Waterway marking devices. All waters under the jurisdiction of the natural resource commission.

41.9(1) Mooring buoys shall be white with a 2-inch blue reflectorized band clearly visible above the water; the buoy shall extend a minimum of 12 inches above the surface of the water, and shall have at least 1 square foot of surface visible from any direction.

41.9(2) Placement of mooring buoys shall be within 250 feet of shore, except under certain circumstances the natural resource commission may require them to be placed at a lesser distance. Requirements for mooring buoys may be waived by the director under special circumstances.

41.9(3) Permanent race course marker buoys shall be white with a ball of international orange, of at least 12 inches in diameter. The buoy shall extend a minimum of 2 feet above the surface of the water and shall be at least 16 inches in diameter, and shall be lighted during periods of low visibility, and during the hours of darkness.

41.9(4) Markers such as mooring buoys and race course markers will be processed in the same manner as waterway markers, and authorization for their placement will be obtained from the agency or political subdivision of the state exercising jurisdiction with respect to regulation of boating, and such agency or political subdivision will ensure that proper clearances for their placement are obtained from state and federal agencies exercising regulatory authority over the area concerned.

41.9(5) Such markers shall not be of a color, shape, configuration or marking which could result in their confusion with any federal or state aid to navigation or any state regulatory marker, and shall not be placed where they will obstruct navigation, cause confusion or constitute a hazard.

571—41.10(462A) The diver's flag.

41.10(1) A red flag with a white diagonal running from the upper left hand corner to the lower right hand corner (from mast head to lower outside corner) and known as the "diver's flag" shall, when displayed on the water, indicate the presence of a diver in the water in the immediate area.

41.10(2) Recognition of this flag by regulation will not be construed as conferring any rights or privileges on its users, and its presence in a water area will not be construed in itself as restricting the use of the water area so marked.

41.10(3) Operators of vessels will, however, exercise precaution commensurate with conditions indicated.

41.10(4) This flag shall be displayed only when diver activities are in progress, and its display in a water area when no diver activities are in progress in that area will constitute a violation of this rule and of Iowa Code chapter 462A.

[Prior to 12/31/86, Conservation Commission[290] Ch 36]

571—43.1(462A) Definitions.

“*A scale*” means the physical scale marked “A” graduated in decibels on a sound level meter which meets the requirements of the American National Standards Institute, Incorporated, publication S1.4 — 1983 General Purpose Sound Level Meters.

571—43.2(462A) Sound level limitation. No person shall operate or give permission for the operation of any motorboat in or upon the waters of this state under the jurisdiction of the natural resource commission, in such a manner as to exceed the following noise levels:

43.2(1) *Stationary sound level test.* For engines manufactured before January 1, 1993, a motorboat engine shall not exceed a noise level of 90dB(A) when subjected to a stationary sound level test as prescribed by SAE J2005. For engines manufactured on or after January 1, 1993, a motorboat engine shall not exceed a noise level of 88dB(A) when subjected to a stationary sound level test as prescribed by SAE J2005.

43.2(2) *Shoreline sound level test.* A motorboat engine shall not exceed a noise level of 75dB(A) when measured as specified in SAE J1970. Compliance with the requirement of this subrule is required in addition to, and shall not preclude the application of, subrule 43.2(1).

571—43.3(462A) Serviceability. All muffling devices used on motorboats shall be in good working order and in constant operation to prevent excessive or unusual noise.

This rule is intended to implement Iowa Code section 462A.11.

CHAPTER 44
SPECIAL EVENTS AND FIREWORKS DISPLAYS

[Prior to 12/31/86, Conservation Commission[290] Ch 35]
[Prior to 6/1/11, see also 571—Chs 65 and 88 and subrule 61.7(16)]

571—44.1(321G,321I,461A,462A,481A) Scope. The purpose of this chapter is to provide rules on the issuance of permits for special events and fireworks displays held on public land, waters, and ice of the state.

[ARC 9114B, IAB 10/6/10, effective 9/10/10; ARC 9539B, IAB 6/1/11, effective 7/6/11]

571—44.2(321G,321I,461A,462A,481A) Definitions. For the purposes of this chapter, the following definitions shall apply:

“Accredited postsecondary institution or program” means an institution or program listed in the U.S. Department of Education’s database of accredited postsecondary institutions and programs.

“Administrative processing fee” means the fee collected for the processing of each special event application that is submitted.

“All-terrain vehicle” or *“ATV”* means a motorized flotation-tire vehicle with not less than three and not more than six low-pressure tires that is limited in engine displacement to less than 1,000 cubic centimeters and in total dry weight to less than 1,000 pounds and that has a seat or saddle designed to be straddled by the operator and handlebars for steering control.

“Bass fishing tournament” means an event with the purpose of fishing for black bass as defined in 2017 Iowa Acts, Senate File 257. For purposes of this chapter, “bass fishing tournament” is included in the definition of “special event” unless otherwise specified.

“Catfish fishing tournament” means an event with the purpose of fishing for catfish from boats that meets the definition of “fishing tournament.” For purposes of this chapter, “catfish fishing tournament” is included in the definition of “special event” unless otherwise specified.

“Centralized special events application system” means the web-based system used by applicants to submit applications for special events as permitted under this chapter. Approved applications shall be placed on a calendar of events web page, accessible from the department’s homepage, to inform the general public of scheduled events on public, or when applicable, private, land, water, and ice.

“Department” means the Iowa department of natural resources.

“Field and retriever meet or trial” means an event held on either private or public land where the skill of dogs in pointing, retrieving, trailing, or chasing any game bird, game animal, or fur-bearing animal is demonstrated. For purposes of this chapter, “field and retriever meet or trial” is included in the definition of “special event” unless otherwise specified.

“Fishing tournament” means any organized fishing event, except for department-sponsored fishing events held for educational purposes, involving any of the following: (1) six or more boats or 12 or more participants, except for waters of the Mississippi River, where the number of boats shall be 20 or more and the number of participants shall be 40 or more; (2) an entry fee is charged; or (3) prizes or other inducements are awarded. Additionally, a “virtual fishing tournament,” also known as a “catch-photo-release” tournament, is a fishing tournament where fish are not possessed (i.e., not placed in a live well) by the angler but instead are photographed and released upon catching. An “aggregated virtual fishing tournament” occurs when all participants are present on one body of water simultaneously. A “distributed virtual fishing tournament” occurs when participants are present on two or more bodies of water. - a. Bluff Creek OHV Park, Mahaska County.
- b. Lakeview OHV Park, Johnson County.
- c. Gypsum City OHV Park, Webster County.
- d. Nicholson-Ford OHV Park, Marshall County.

All studies or surveys required by these rules shall be at the local sponsor’s expense. The department may require additional surveys or studies and conduct an on-site evaluation for each proposed designated riding area to determine whether the department should recommend that the commission adopt the proposed area as a designated riding area. The commission may adopt additional designated riding areas that meet the following minimum qualifications:

a. The site and plan for development and management is suitable for off-highway vehicle recreation. The department shall give greater consideration to sites that were previously disturbed areas, such as agricultural lands, mining operations, road surfaces or other intensive land uses that have resulted in the elimination of high-quality natural areas, native plant communities, critical habitats and cultural resources. Soil survey reports for the trail portions of the proposed designated riding area shall indicate the general soil classification of the riding areas and must indicate that those soils are of moderate risk or less for path or trail development.

c. The local sponsor demonstrates a willingness and ability to maintain the proposed designated riding area consistent with these rules.

d. There is evidence that adjacent property owners, including those within the viewshed and within earshot of the proposed designated riding area, that exist at the time of establishment have been notified of the plan and their concerns have been addressed.

e. The proposed development and management of the proposed designated riding area comply with local, state or federal laws, including without limitation zoning ordinances and accommodation laws.

f. Any federal- or state-listed threatened or endangered species are identified and a plan to ensure that the development and management of the proposed designated riding area would not negatively impact those species is included.

g. Any cultural, historical or high-quality natural resources on the site are identified and a plan to ensure that the development and management of the proposed designated riding area would not

negatively impact those resources is included. High-quality areas include those areas of high-quality native plant communities, highly restorable native plant communities or other areas which provide critical wildlife habitat. In addition, if a site contains fragments of high-quality areas, but has been determined by the commission as suitable for use as a designated riding area, the local sponsor shall include in the plan how it will protect and enhance those fragments.

46.52(4) Designated riding areas approved by the commission shall be subject to these rules and shall be managed according to the plan approved by the commission. Major modifications to the plan, including expansions, must be approved by the commission for the designated riding area to continue to be a recognized designated riding area under these rules.

571—48.3(462A) Inspection requirements. All PMVs shall be inspected by a qualified inspector to determine compliance with the “State of Iowa Permanently Moored Vessel Inspection Requirements,” 2005, as adopted by reference herein.

571—48.4(462A) Inspectors. Inspections of PMVs shall be conducted by a person or persons meeting the criteria set forth in this rule.

48.4(1) Qualifications. An inspector shall:

- a. Have prior experience as a U.S. Coast Guard marine inspector or as a classification society (recognized by the U.S. Coast Guard) surveyor; or
- b. Be a classification surveyor acting on behalf of a classification society; or
- c. Be a professional engineer licensed by one of the 50 states; or
- d. Be a professional naval architect or marine engineer.

48.4(2) Minimum documented work experience. An inspector shall:

- a. Have obtained three years’ experience in the examination of steel or aluminum vessels of similar design; and
- b. Be familiar with the regulations and standards under which the PMV was built; and
- c. Be familiar with permanent mooring arrangements and ship structures supporting the same; and
- d. Have experience in marine emergency response operations and planning that is sufficient for the individual to competently review emergency action plans required by these rules; and
- e. Have experience in the investigation of reportable occurrences as described in the “State of Iowa Permanently Moored Vessel Inspection Requirements,” 2005.

571—48.5(462A) Statewide inspection contract. If the department determines that the administration of this chapter could best be effectuated through a contract with one or more third parties, the state may award such a contract or contracts pursuant to the provisions of 561—Chapter 8, as adopted by reference in rule 571—8.1(17A).

48.5(1) A statewide inspection contract shall authorize an inspection program coordinator to conduct the inspections required by this chapter, prepare and submit the required reports, and engage in such other activities as may be necessary for the administration of the PMV inspection program.

48.5(2) A contract entered into pursuant to this rule shall establish fees to be paid by PMV operators to the inspection program coordinator for the inspection of PMVs. There shall be a fixed fee established by contract for inspections and administration of the program by the inspection program coordinator. The contract may establish additional fees to be charged by the inspection program coordinator for work related to addressing deficiencies or other noncompliance by a PMV operator. Said fees shall be the sole source of payment to the inspection program coordinator.

48.5(3) In the event that a statewide inspection contract is executed by the department, all submissions required by these rules shall be sent to the inspection program coordinator established by the contract.

571—48.6(462A) Submission. Any person making application to the commission for the licensing of a PMV shall submit proof to the department that the PMV has been inspected by a qualified inspector and that the PMV satisfies all of the requirements of the “State of Iowa Permanently Moored Vessel Inspection Requirements,” 2005. All PMVs licensed pursuant to Iowa Code chapter 99F shall submit to the department quarterly and annual reports in compliance with all of the requirements of the “State of Iowa Permanently Moored Vessel Inspection Requirements,” 2005.

571—48.7(462A) Notification to the commission. If a PMV operator fails to cure an inadequacy in a required inspection report or to comply with a correction report for a critical system or maritime security deficiency within the applicable time period, a determination of inadequacy shall be forwarded to the commission and shall be subject to the appeal and contested case procedures of the department as established by 561—Chapter 7 and adopted by reference at 571—7.1(17A).

48.7(1) Inspection reports. The department shall, within 60 days of receipt of an initial inspection, quarterly or annual report, determine the adequacy of the report and shall notify the submitting party of such determination. The submitting party shall be given a minimum of 60 days to cure any inadequacy not involving critical systems or maritime security.

48.7(2) Correction reports. To minimize safety and maritime security risks to the public, the environment and the PMV itself, deficiencies found in critical systems or security systems shall be immediately reported to the department. After consulting with the PMV operator, the department may issue a correction report if the deficiency was not immediately corrected. The correction report will direct the PMV operator to take corrective action within a specific period of time that is based on the nature and severity of the deficiency.

These rules are intended to implement Iowa Code sections 99F.7(14) and 462A.20.

CHAPTER 49
OPERATION OF MOTOR VEHICLES IN MEANDERED
STREAMS, NAVIGABLE STREAMS AND TROUT STREAMS

571—49.1(462A) Purpose and intent. This chapter implements Iowa Code section 462A.34A and identifies meandered streams, trout streams, and navigable streams in which motor vehicles may not be operated.

571—49.2(462A) Definitions.

“Department” means the department of natural resources.

“Meandered stream” means a lake or stream which at the time of the original government survey was so surveyed as to mark, plat and compute acreage of adjacent fractional sections.

“Motor vehicle” means a vehicle which is self-propelled, but not including vehicles known as trackless trolleys which are propelled by electric power obtained from overhead trolley wires and are not operated upon rails. A motor vehicle is not a watercraft as defined in Iowa Code section 462A.2(32).

“Navigable stream” means all streams which can support a vessel capable of carrying one or more persons during a total of a six-month period in one out of every ten years.

“Trout stream” means a cold-water stream which, by natural or artificial methods, supports trout fish species.

571—49.3(462A) Stream identification process.

49.3(1) The names and locations of trout streams and navigable streams shall be provided by the department’s district fisheries supervisors to the administrator of the parks, recreation and preserves division and the administrator of the fish and wildlife division.

49.3(2) The division administrators of the fish and wildlife division and the parks, recreation and preserves division will provide a list of navigable streams and trout streams to the director for review.

49.3(3) The director will approve a list of navigable streams and trout streams for the purpose of this rule.

49.3(4) As per Iowa Code subsection 17A.6(3), the department will provide upon request a complete list of meandered streams, navigable streams and trout streams which are included as a part of this rule.

571—49.4(462A) Motor vehicle prohibition in meandered streams, trout streams and navigable streams. Motor vehicles shall not be operated in any portion of a meandered stream, trout stream, or navigable stream when covered by water except as provided for in Iowa Code section 462A.34A(2). A vessel operating on any of the streams listed in this rule must be operating by floating on the water as a result of the buoyant force of the water. A vessel propelled by tires in contact with the bed of the stream is not a watercraft for the purpose of this rule. For the purpose of this rule, meandered streams, trout streams and navigable streams include the following:

“*All-terrain vehicle*” means a motorized flotation-tire vehicle with not less than three and not more than six low-pressure tires that is limited in engine displacement to less than 1,000 cubic centimeters and in total dry weight to less than 1,000 pounds and that has a seat or saddle designed to be straddled by the operator and handlebars for steering control.

“*Off-road motorcycle*” means a two-wheeled motor vehicle that has a seat or saddle designed to be straddled by the operator and handlebars for steering control and that is intended by the manufacturer for use on natural terrain. “Off-road motorcycle” includes a motorcycle that was originally issued a certificate of title and registered for highway use under Iowa Code chapter 321, but which contains design features that enable operation over natural terrain.

“*Off-road utility vehicle*” means a motorized flotation-tire vehicle with not less than four and not more than eight low-pressure tires that is limited in engine displacement to less than 1,500 cubic centimeters and in total dry weight to not more than 1,800 pounds and that has a seat that is of bucket or bench design, not intended to be straddled by the operator, and a steering wheel or control levers for control. A motorized vehicle that was previously titled or is currently titled under Iowa Code chapter 321 shall not be registered or operated as an off-road utility vehicle.

DIVISION I
ALL-TERRAIN VEHICLES, OFF-ROAD MOTORCYCLES,
OFF-ROAD UTILITY VEHICLES AND SNOWMOBILES

571—50.2(321G,321I) Bond required before issuance of title or registration. If the county recorder or the department is not satisfied as to the ownership of the regulated vehicle or that there are no undisclosed security interests in the regulated vehicle, the recorder or the department shall require completion of the following procedures prior to issuing title and registration:

50.2(1) Identification. The applicant shall contact the department and provide identifying information in regard to the regulated vehicle. The required identifying information shall include the identification number and such additional information about the regulated vehicle as may be requested by the department. If no identification number is currently affixed to the regulated vehicle, the applicant shall complete the department’s procedure for obtaining such number, and the assigned number shall be affixed before the applicant may proceed with the application process set forth in this chapter.

50.2(2) Records search. Upon receipt of sufficient identifying information from an applicant, the department shall:

a. Search the department’s registration records to determine if there is an owner of record for the regulated vehicle and if the regulated vehicle has been reported stolen; and

b. Notify the applicant, orally or in writing, in regard to whether a record of prior ownership has been located and, if so, provide the name and last-known address of the owner of record.

50.2(3) Examination. At any time after being contacted by the applicant and before approval of an application, the department may examine the regulated vehicle.

50.2(4) Notice to owner of record. If the department finds a record of prior ownership in the department's registration records, the department shall provide the applicant with a bonding packet containing instructions that describe how to complete the bonding process. The packet shall include a notice to the owner of record and a certified mail envelope, return receipt requested, with a return address of the department. The notice shall state that the owner of record may assert the owner's right to claim the regulated vehicle. If neither the applicant nor the department receives a response from the owner of record within ten days after receipt of notice or the post office returns the notice to the applicant or the department as undeliverable or unclaimed, the department will continue processing the bond application.

50.2(5) Submission of application. To register the regulated vehicle, the applicant must submit the appropriate forms and fees described in 571—Chapter 46. In addition, the application shall include a statement obtained from an Iowa-registered dealer for the same type of regulated vehicle for which the value is being sought or documentation from the North American Dealers' Association indicating the current value of the regulated vehicle. In addition to the appropriate application form required under 571—Chapter 46, the following documents shall be submitted with the application form:

a. Photographs of the regulated vehicle which show the front, rear, and one side of the regulated vehicle.

b. The written ownership document received at the time that the regulated vehicle was acquired.

c. Satisfactory proof of the regulated vehicle identification number or DNR Form 542-8065. Examples of what constitutes satisfactory proof include, without limitation, corresponding photographs of the vehicle identification number and the vehicle or a readable pencil rubbing of the vehicle identification number.

d. The undeliverable or unclaimed certified letter and envelope addressed to the previous owner or the signed certified mail receipt, if available, if a record of prior ownership was located by the department.

e. A surety bond on DNR Form 542-8092 in an amount equal to one and one-half times the current value of the regulated vehicle, if required.

50.2(6) Approval. If the department determines that the applicant has complied with this rule, that there is sufficient evidence to indicate that the applicant is the rightful owner, and that there is no known unsatisfied security interest, the department shall forward the original application to the county recorder and notify the applicant that the regulated vehicle may be registered and titled in Iowa.

50.2(7) Disapproval. If the department determines that the applicant has not complied with this rule, that there is sufficient evidence to indicate that the applicant may not be the rightful owner, that there is an unsatisfied security interest, or that the owner of record asserts a claim for the regulated vehicle, the department shall not authorize issuance of a certificate of title or registration receipt and shall notify the applicant in writing of the reason(s).

571—50.3 to 50.9 Reserved.

DIVISION II

In the event the county recorder or the department is not satisfied as to the ownership of a vessel or that there are no undisclosed security interests in the vessel, the recorder or the department shall require completion of the following procedures prior to issuing title or registration:

50.10(1) Identification. The applicant shall contact the department and provide the department with identifying information in regard to the vessel. The required identifying information shall include the hull identification number, if applicable, and such additional information as may be requested by the

department. If no hull identification number is currently affixed on a vessel otherwise required by law to have a hull identification number, the applicant shall complete the department's procedure for obtaining such number, and the assigned number shall be affixed after the applicant has completed the registration and bonding process set forth in this chapter.

50.10(2) *Records search.* Upon receipt of sufficient identifying information from an applicant, the department shall:

a. Search the department registration records to determine if there is an owner of record for the vessel and if the vessel has been reported stolen; and

b. Notify the applicant, orally or in writing, in regard to whether a record of prior ownership has been located and, if so, provide the name and last-known address of the owner of record.

50.10(3) *Examination.* At any time after being contacted by the applicant and before approval of an application, the department may examine the vessel.

50.10(4) *Notice to owner of record.* If the department finds a record of prior ownership in the department's registration records, the department shall provide the applicant with a bonding packet containing instructions that describe how to complete the bonding process. The packet shall include a notice to the owner of record and a certified mail envelope, return receipt requested, with a return address of the department. The notice shall state that the owner of record may assert the owner's right to claim the vessel. If neither the applicant nor the department receives a response from the owner of record within ten days after receipt of notice or the post office returns the notice to the applicant or the department as undeliverable or unclaimed, the department will continue processing the bond application.

50.10(5) *Submission of application.* The applicant shall submit an application on DNR Form 542-8067. The form shall include a statement obtained from an Iowa-registered dealer for vessels or documentation from the North American Dealers' Association indicating the current value of the vessel. The following documents shall be submitted with the application form:

a. Photographs of the vessel which show the front, rear, and one side of the vessel.

b. The written ownership document received at the time that the vessel was acquired.

c. Satisfactory proof of the hull identification number or DNR Form 542-2000. Examples of what constitutes satisfactory proof include, without limitation, corresponding photographs of the hull identification number and the vessel or a readable pencil rubbing of the hull identification number.

d. The undeliverable or unclaimed certified letter and envelope addressed to the previous owner or the signed certified mail receipt, if available, if a record of prior ownership was located by the department.

e. A surety bond on DNR Form 542-8092 in an amount equal to one and one-half times the current value of the vessel.

50.10(6) *Approval.* If the department determines that the applicant has complied with this rule, that there is sufficient evidence to indicate that the applicant is the rightful owner, and that there is no known unsatisfied security interest, the department shall forward the original application to the county recorder and notify the applicant that the vessel may be registered and titled in Iowa.

50.10(7) *Disapproval.* If the department determines that the applicant has not complied with this rule, that there is sufficient evidence to indicate that the applicant may not be the rightful owner, that there is an unsatisfied security interest, or that the owner of record asserts a claim for the vessel, the department shall not authorize issuance of a certificate of title or registration receipt and shall notify the applicant in writing of the reason(s).

51.6(1) Stationary blinds. The construction and use of stationary blinds on all game management areas, except on Pool 14 downstream of the Upper Mississippi River National Wildlife and Fish Refuge (River Mile 502) near Princeton, Iowa, and on Pools 15, 16, 17, and 18 of the Mississippi River, are restricted as follows:

No trees or parts of trees other than willows may be cut for use in constructing a blind. No other man-made materials of any type may be used for building or providing access to a stationary blind.

b. *Use of blinds.* The use of any stationary blind which is constructed in violation of 51.6(1) “a” is prohibited.

c. Ownership of blinds. Any person who constructs or uses a stationary blind shall not have any proprietary right-of-ownership to the blind.

51.6(2) Portable blinds. The construction and use of portable blinds on game management areas shall be restricted as follows:

a. Construction. A portable blind may be constructed of any natural or man-made material, as long as it is a self-contained unit capable of being readily moved from one site to another.

b. Prohibited use. Portable blinds shall be prohibited from one hour after sunset until midnight each day. Portable blinds which are built on, or are part of, a boat shall be considered as removed from an area when the boat and blind are tied up or moored at an approved access site. No boat shall be anchored away from shore and left unattended unless it is attached to a legal buoy.

c. Exception—tree blinds. Portable blinds placed in trees and used for purposes other than hunting waterfowl may be left on an area for a continuous period of time beginning seven days prior to the open season for hunting deer or turkey and ending seven days after the final day of that open season. Portable blinds left on game management areas do not guarantee the owner exclusive use of the blind when unattended, or exclusive use of the site.

d. Protection of trees. The use of any spike, nail, pin, or other object which is driven or screwed into a tree is prohibited.

51.6(3) Use of decoys. The use of decoys on any game management area, except on Pool 14 downstream of the Upper Mississippi River National Wildlife and Fish Refuge (River Mile 502) near Princeton, Iowa, and on Pools 15, 16, 17, and 18 of the Mississippi River, is restricted as follows:

51.6(4) Use of stationary blinds and waterfowl decoys on Pool 14 downstream of the Upper Mississippi River National Wildlife and Fish Refuge (River Mile 502) near Princeton, Iowa, and on Pools 15, 16, 17, and 18 of the Mississippi River. The use of permanent blinds for waterfowl hunting on Pool 14 downstream of the Upper Mississippi River National Wildlife and Fish Refuge (River Mile 502) near Princeton, Iowa, and on Pools 15, 16, 17, and 18 of the Mississippi River is restricted as follows:

a. Registration. Hunters must register their blind site with the department of natural resources by completing a registration card and designating the blind's location on a map. Registration will be held in August at a site to be publicly announced by the department. Registration is for a five-year period and requires payment of a fee of \$100. The blind registration number must be visibly posted at the blind's entrance.

b. Construction. Blinds must have minimum dimensions of 4 feet by 8 feet and not greater than 500 square feet of floor space, not including a boat hide. The blind must be constructed of biodegradable materials, including nontreated dimensional lumber and nontreated plywood, unless the blind will be removed at the end of the waterfowl season. The use of metal or nylon fasteners, including but not limited to nails, screws, lag bolts, staples and ties, is allowed. Treated lumber, treated plywood, woven wire, chicken wire, cattle panels, tin and sheet metal, vinyl and plastic, and other nonbiodegradable materials are not allowed unless those materials or the entire blind is removed within three days after the close of the waterfowl season.

c. Tree and brush removal. No person shall remove brush or trees around any blind, except willows. Willows and annual vegetation from the blind site may be used to cover the blind.

d. Occupation of blinds. Registrants must occupy their blind site by the opening of shooting time each day to claim the blind site for that day. After that time, unoccupied blind sites will be available to any other hunters. No person shall claim or attempt to claim a blind that is legally occupied. No person shall harass, in any manner, the occupants of a blind that is legally occupied.

e. Locking blinds. No person shall lock a blind.

f. Decoys. Decoys may be left out for the entire waterfowl season but must be picked up and removed from the area within three days after the close of the waterfowl season. All jugs and other floating devices used to attract waterfowl shall be considered decoys.

571—51.7(481A) Trapping on game management areas.

51.7(1) Marking trap sites. No one shall place on any game management area any trap, stake, flag, marker, or any other item or device to be used for trapping furbearers, or to mark or otherwise claim any site for trapping furbearers, except during the open season for taking furbearers other than coyote.

51.7(2) Reserved.

571—51.8(481A) Motor vehicle restrictions. The use of motor vehicles on all game management areas is restricted.

51.8(1) Roads and parking lots. Except as otherwise provided in these rules, motor vehicles are prohibited on a game management area except on constructed and designated roads and parking lots.

51.8(2) Handicapped persons. Handicapped persons may use certain motor vehicles on game management areas, according to the restrictions set out in this rule, in order that they might enjoy such uses as are available to others.

a. Definitions. For purposes of this subrule, 51.8(2), the following definition shall apply: “Motor vehicle” means any self-propelled vehicle having at least three wheels and registered as a motor vehicle under Iowa Code chapter 321, 321G, or 321I.

b. Permits. Each handicapped person must have a permit issued by the director in order to use motor vehicles on game management areas. Such permits will be issued without charge. Applicants must submit certificates from their doctors stating that the applicants meet the criteria describing handicapped persons. Nonhandicapped companions of permit holders are not covered under the conditions of the permit.

c. Approved areas. A permit holder must contact the technician or wildlife biologist of the specific area(s) that the permit holder wishes to use annually. The technician or wildlife biologist will determine which areas or portions of areas will not be open to use by permittees, in order to protect the permittee from hazards or to protect certain natural resources of the area. The technician or wildlife biologist will assist by arranging access to the area and by designating specific sites on the area where the motor vehicle may be used, and where it may not be used. The technician or wildlife biologist will provide a map of the area showing the sites where use is permitted and bearing the signature of the technician or wildlife biologist and the date.

d. Exclusive use. The issuance of a permit does not imply that the permittee has exclusive use of an area. Permittees shall take reasonable care so as not to unduly interfere with the use of the area by others.

e. Prohibited acts. Except as provided in subrule 51.8(1), the use of a motor vehicle on any game management area by a person without a valid permit, or at any site not approved on a signed map, is prohibited. Permits and maps must be carried by the permittee at any time the permittee is using a motor vehicle on a game management area, and must be exhibited to any department employee or law enforcement official upon request.

f. Shooting from motor vehicle. Except where prohibited by law, a handicapped person meeting the conditions of this rule may shoot from a stationary motor vehicle.

571—51.9(481A) Employees exempt. Restrictions in rules 571—51.3(481A) to 571—51.8(481A) shall not apply to department personnel, law enforcement officials, or other authorized persons engaged in research, management, or enforcement when in performance of their duties.

571—51.10(481A) Use of nontoxic shot on wildlife areas. CHAPTER 54
RESTRICTIONS ON INTRODUCTION AND REMOVAL OF PLANT LIFE
[Prior to 12/31/86, Conservation Commission[290] Ch 47]

571—54.1(461A) Mushrooms and asparagus. Lands under the jurisdiction of the commission shall be open for the harvesting of mushrooms and asparagus during the hours the areas are open to the public. [ARC 8594B, IAB 3/10/10, effective 4/14/10]

571—54.2(461A) Fruit. Lands under the jurisdiction of the commission shall be open for the harvesting of all varieties of nuts, fruits, and berries unless signs are posted prohibiting such activity. Nut, fruit, and berry gathering shall be permitted only during the hours the areas are open to the public and shall not be permitted in state preserves unless otherwise allowed by the preserves management plan. [ARC 8594B, IAB 3/10/10, effective 4/14/10]

571—54.3(461A) American ginseng. The harvesting of American ginseng (*Panax quinquefolius*) is subject to regulation by 571—Chapter 78.

This rule is intended to implement Iowa Code sections 456A.24(11) and 461A.41. [ARC 8594B, IAB 3/10/10, effective 4/14/10]

571—54.4(461A) Trees. The commercial harvest of trees from lands under the jurisdiction of the commission shall be done in accordance with 561—8.5(17A,456A,461A) and 561—8.6(455B), according to the department's Forest Ecosystem Management Guide, approved by the natural resource commission on December 8, 1994, and hereby adopted by reference.

This rule is intended to implement Iowa Code sections 461A.35 and 461A.41.

571—54.5(461A) Aquatic plants. This rule applies to the introduction and removal of plants in public waters as those waters are defined by rule 571—13.2(455A,461A,462A). For purposes of this rule, aquatic plants are those listed in subrule 54.5(6) and include vegetation that exists at or below the ordinary high water line of a waterway.

54.5(1) Permits.

a. The department may issue permits for the introduction and removal of aquatic plants in public waters. To be considered for a permit under this rule, applicants shall use the department's application form for sovereign lands construction permits, as described in rule 571—13.9(455A,461A,462A), and shall complete all relevant information on that application form. Applicants shall also provide any additional information as may be necessary, as described in rule 571—13.10(455A,461A). The term of the permit shall be stated in the permit. Permits are nontransferable and shall be subject to reevaluation upon expiration. Permits may be issued for between one and five years.

b. Cities and counties in Iowa may use chemicals, including pesticides and herbicides, to remove aquatic vegetation from water intake structures. However, such cities and counties shall be required to obtain a permit under this rule, and 567—Chapter 66 as may be required, for such activities.

c. Cities and counties in Iowa may use chemicals, including pesticides and herbicides, to remove aquatic vegetation for certain recreation and navigation purposes, including boating, fishing, and swimming. However, such cities and counties shall be required to obtain a permit under this rule, and 567—Chapter 66 as may be required, for such activities. Additionally, all such use of chemicals shall be conducted by a certified aquatic applicator and shall be subject to the terms of a vegetation management plan approved by the director. Issuance of such permits and approval of a vegetation management plan shall be at the sole discretion of the department.

54.5(2) Evaluation. The department shall evaluate all permits sought under this rule in accordance with the evaluation criteria enumerated in rule 571—13.6(455A,461A,462A). In addition, the department shall consider the following criteria:

a. For aquatic plant introduction:

(1) Unless otherwise approved by the department, all introduced plants shall be included in the list provided in subrule 54.5(6);

(2) Introduced plants shall not include cultivars;

(3) Plants shall be introduced for the purposes of preventing shoreline erosion, stabilizing bottom sediment, providing fish or wildlife habitat, or removing nutrients from the water;

(4) Plants shall be thoroughly rinsed away from the water into which they are being introduced prior to being transported to the site if the plants have not been cultivated on site in a manner to prevent any foreign nonplant or seed material from entering the water prior to introduction; and

(5) Plants shall be obtained from a seed source that is within 50 miles of the introduction area and from stocks of only cultivated material (i.e., material that has not been taken from natural areas) or from a source that is approved by the department. Approval for a seed source may be sought from the department by contacting the area fisheries management biologist.

b. For aquatic plant removal:

(1) The plants shall be removed by hand-cutting, hand-pulling, hand-raking or mechanical cutting only;

(2) The plants shall be removed to establish a designated travel lane from a boat dock that has been permitted in accordance with 571—Chapter 16. Such travel lane shall not exceed a 15-foot width, and the placement of such lane shall be subject to the review and approval of the department. A travel lane allowed under this rule may be in the same location during the term of the permit, may be sited by the department to accommodate vegetation, and may not necessarily be the most direct path from the dock to the open water area; and

(3) All plant material removed under the permit must be left in place or collected and composted on the land owned, leased or otherwise subject to use by the applicant that is adjacent to the removal area.

Unless otherwise provided by this rule, in no event may a person be allowed to apply chemicals including, without limitation, pesticides or herbicides to remove aquatic plants from public waters. For nonpublic waters that meet certain designations in 567—Chapter 66, a person may be required to seek a permit under the rules established herein to use pesticides.

54.5(3) Inspection requirements. For the purpose of inspecting for compliance with permit conditions, the department shall have the right to enter the property attached to the public water at or near the place of introduction or removal. This inspection shall include, without limitation, identification of introduced species; a determination as to whether the travel lane is being maintained in accordance with the permit conditions; and whether plant material, if removed, is left on site.

54.5(4) Violations. Persons in violation of this rule are guilty of a simple misdemeanor as described by Iowa Code section 461A.57.

54.5(5) Exceptions.

a. A dock permittee whose dock meets rule 571—16.4(461A,462A), 571—16.6(461A,462A), or 571—16.7(461A,462A) may remove aquatic vegetation without a permit if the aquatic vegetation:

- (1) Creates a hazardous or detrimental condition in the boating area around the dock, or
- (2) Covers a minimum of 75 percent of the boating area around the dock.

b. A dock permittee meeting one of the exceptions in paragraph 54.5(5)“a” must verify at inspection that the dock meets the criteria for a Class I, Class II or Class III dock permit and is limited to the following:

- (1) Removal of vegetation in a 20-foot radius around the dock;
- (2) Removal of a hazardous or detrimental condition when it interferes with safe boating passage and is located within the boating area around the dock;
- (3) Creation of a 15-foot-wide boating pathway utilizing a direct route from the dock to open water;
- (4) Adherence to the requirement to leave the vegetation in place or collect and compost it on land that is owned, leased or otherwise subject to use by the dock permittee and is adjacent to the removal area;

(5) Removal of the vegetation by hand-cutting, hand-pulling, hand-raking or mechanical cutting devices, excluding automated plant control devices that disturb the bottom substrate.

54.5(6) Appropriate plants. The department is committed to maintaining the natural integrity of public waters in the state and strengthening native populations of vegetation and wildlife in those waters.

To that end, the following table comprises the plants that may be permitted to be introduced into public waters:

CHAPTER 63
KEG BEER RULES

[Prior to 12/31/86, Conservation Commission(290) Ch 42]

571—63.1(461A,123) Purpose. This chapter governs the use of state park and recreation areas and designated state forests for consumption of beer dispensed from a keg or other container larger than one gallon. The purpose is to enhance public enjoyment of state areas through regulation of an activity which can be disruptive.

[ARC 0382C, IAB 10/3/12, effective 11/7/12]

571—63.2(461A,123) Applicability. This chapter is applicable to all state parks and recreation areas managed by the department and to the state forests containing designated campground areas listed in 571—61.1(461A).

[ARC 0382C, IAB 10/3/12, effective 11/7/12]

571—63.3(461A,123) Definitions.

“*Beach*” or “*beach area*” is as defined in rule 571—64.1(461A).

“*Beer*” is as defined in Iowa Code section 123.3(7).

“*Campground*” means that portion of state parks or recreation areas designated for camping activity including parking areas contiguous to the campground and designated camp areas of state forests.

“*Department*” means the department of natural resources.

“*Person*” is as defined in Iowa Code section 4.1(20).

“*Rental facility*” means a lodge or open shelter with kitchenette as defined in rule 571—61.2(461A).

[ARC 0382C, IAB 10/3/12, effective 11/7/12]

571—63.4(461A,123) Prohibited areas. Gatherings at which keg beer is served shall not be conducted in beach areas, in campgrounds, or in parking areas or in areas immediately adjacent to those areas.

[ARC 0382C, IAB 10/3/12, effective 11/7/12]

571—63.5(461A,123) Procedure. Any person wishing to hold a gathering with keg beer in any area to which this chapter applies shall notify department personnel in charge of the area in advance and comply with the following procedure:

63.5(1) A designated agent shall be named who shall sign a responsibility agreement. The content of the responsibility agreement shall be as stated in 571—63.7(461A,123).

63.5(2) The designated agent shall be available for personal contact by department personnel at all times during the gathering with keg beer.

63.5(3) The agent shall pay a deposit of \$100 per 100 or fewer persons at the gathering with keg beer. The deposit shall be held by department personnel in charge of the area as a damage deposit. Department personnel in charge of the area may designate the area in which the gathering with keg beer is to be conducted. If the gathering with keg beer takes place in a rental facility that requires a rental fee and damage deposit, the keg deposit shall be waived in lieu of the rental facility damage deposit if the rental facility damage deposit is equal to or greater than the keg deposit.

63.5(4) The agent shall assume responsibility to ensure that all state laws are complied with in the conduct of persons attending the gathering with keg beer, that the area used for the gathering is left in a clean, uncluttered condition, and that no state property is damaged beyond the extent of normal wear and tear.

63.5(5) Conducting or continuation of the gathering with keg beer shall be contingent on whether the persons involved are complying with all applicable state laws including but not limited to Iowa Code section 123.47 and chapter 461A and the rules promulgated under those sections and on whether the activity does not interfere with other uses of area facilities.

63.5(6) The agent shall inform department personnel in charge of the area when the gathering with keg beer is concluded and attendees have left the area.

[ARC 0382C, IAB 10/3/12, effective 11/7/12]

571—63.6(461A,123) Deposit disposition.

63.6(1) The deposit required by 63.5(3) shall be refunded within three days in full or on a prorated basis computed according to 63.6(2) depending on the condition in which the site is left after the gathering with keg beer is held.

63.6(2) If it is necessary for department personnel to clean up the area or repair any damage beyond ordinary wear and tear, a log of the time spent in such cleanup or repair shall be kept. The damage deposit refund shall be reduced by an amount equivalent to the applicable hourly wage of the employees for the time necessary to clean the area or repair the damage.

63.6(3) The keg deposit is not to be construed as a limit of liability for damage to state property. The department may take any legal action necessary to recover additional damages.

[ARC 0382C, IAB 10/3/12, effective 11/7/12]

64.2(2) *Drained lakes.* When an artificial lake has been drained or the water level lowered for any reason, metal detector use may be allowed during the hours established in 571—61.1(461A) only after the lake bed has been thoroughly surveyed for archaeological resources and a survey report has been completed and approved by the state historic preservation office.

571—64.3(461A) Archaeological/scientific studies. When the use of a metal detector may support an archaeological or scientific study, a permit may be issued by the manager in charge of the property. Review of all permit applications shall be coordinated with the state historic preservation officer and the state archaeologist. The DNR shall take the state historic preservation officer’s and the state archaeologist’s views into account before acting upon the issuance of a permit.

64.7(2) When digging is done to search for an object, the metal detector operator shall restore the disturbed area as nearly as possible to its original condition.

571—64.8(461A) Disposal of litter. Persons using metal detectors shall wear or carry a litter apron or bag, and all litter that is recovered shall be disposed of in approved trash receptacles.

CHAPTER 67
DEVELOPMENT AND MANAGEMENT OF RECREATION TRAILS
ON STATE FORESTS, PARKS, PRESERVES AND RECREATION AREAS

571—67.1(456A,461A) Applicability. This chapter is applicable to all state-owned parks, recreation areas, forests and preserves under the jurisdiction of the department of natural resources, except those areas under management by a local government entity.

571—67.2(456A,461A) Definitions.

“All-terrain vehicle” means a motorized flotation-tire vehicle with not less than three low-pressure tires, but not more than six low-pressure tires, or a two-wheeled off-road motorcycle, that is limited in engine displacement to less than 800 cubic centimeters and in total dry weight to less than 850 pounds and that has a seat or saddle designed to be straddled by the operator and handlebars for steering control and any other vehicle registered under Iowa Code chapter 321I.

“Area” means any park, recreation area, forest, or preserve under the jurisdiction of the department of natural resources.

“Department” means the department of natural resources (DNR).

“Director” means the director of the department of natural resources or designee.

“Division administrator” means the division administrator of the DNR division responsible for managing the area in question.

“Equestrian” means a horserider or a person who is horseback riding.

“Equestrian hunting permit, which may include an annual permit, application” means an application by a hunter wishing to ride off trail to hunt in an area. This application shall include the dates and area and provide a contact number in case of conflicts or questions. Applications will be evaluated for potential user conflicts and the potential for the need to obtain a special event permit pursuant to 571—subrule 61.7(16).

“Horse” means any equine animal, including horses, mules, burros, donkeys, and all llamas or alpacalike animals.

“Snowmobile” means a motorized vehicle weighing less than 1,000 pounds which uses sled-type runners or skis, endless belt-type tread, or any combination of runners, skis, or tread, and is designed for travel on snow or ice and any vehicle registered under Iowa Code chapter 321G.

571—67.3(456A,461A) Purpose. The purpose of this chapter is to establish guidelines for developing and properly managing the use of recreation trails on state parks, recreation areas, forests and preserves.

571—67.4(456A,461A) Establishment of trails. Establishment and designation of recreation trails shall not be undertaken until after a plan showing the basic design, location and designated use for any such trail has been prepared. The director shall approve all trail plans for areas, and trails shall follow only those routes designated on the plan.

571—67.5(456A,461A) Designation of recreation trails. All trails shall be designated by the department. Designation shall include an assignment of the use or uses for which each trail is intended. Uses shall be classified as follows: foot traffic, horseback riding, snowmobiling, cross-country skiing, bicycling and multiple-use trails. The intended uses of trails shall be described on signs at appropriate locations within the area, in informational brochures about the area, or on posted notice at the area’s headquarters.

571—67.6(456A,461A) Guidelines for trail location. No new trail shall be designated or constructed:

1. On any slope where erosion will occur unless measures are taken to permanently control erosion. The measures may include, but not be limited to: water bars, steps, vegetative or crushed stone surfacing and terraces;
2. Through rare or sensitive plant communities, except for trails intended for interpretive purposes and designed for foot traffic only;

3. In locations where wildlife management practices are being carried out that would be negatively affected by trail activity;
4. To pass over archaeological sites or adversely affect known archaeological sites eligible for the National Register of Historic Places or known sites not yet evaluated;
5. Where past trail use has resulted in erosion or other environmental damage that would be exacerbated by continued trail use;
6. So as to allow travel through a river, stream or wetland or waterway except at designated crossings.

571—67.7(456A,461A) Control of trail use.

67.7(1) Use of trails may be temporarily limited or suspended by the area manager when use or any natural event has created conditions that will cause the trail to degrade if further use is allowed. Guidelines may include, but are not limited to, the following considerations:

- a.* Precipitation events (e.g., rain, thaws, or flooding that, based on the soils and topography, would present a problem for resource protection or public safety if the trail were to remain open).
- b.* Special events (e.g., events that are large, involve concessionaires, or would otherwise require a special event permit as described in 571—subrule 61.7(16) and would interfere with the safety or enjoyment of other trail users).
- c.* Ecosystem management activities (e.g., scheduled harvests, timber stand improvement, planting, or controlled burns that would temporarily disrupt trail use).
- d.* Trail construction or repair.
- e.* Off-trail use (e.g., vehicle or animal use that has created damage off the actual trail which affects the trail and needs to be corrected).
- f.* Conflicts between trail users.
- g.* Trail damage/erosion (e.g., overuse, use at the wrong time, or unauthorized vehicle use).

67.7(2) The area manager shall limit or suspend use of a trail by posting signs at appropriate trailheads and by posting notices in conspicuous locations within the area.

67.7(3) Upon suspension or limitation of trail use, the area manager shall take prompt and reasonable steps to correct the conditions that led to suspension or limitation. When, in the area manager's judgment, such conditions have been corrected, normal use of the trail may resume.

67.7(4) No trail shall be permanently closed to public use without approval of the director. Recommendations for permanent closure shall be made to the division administrator by the area manager. The division administrator shall prepare a report documenting reasons for closure and provide the report and recommendation to the director. At the request of six or more persons, the director shall direct that a public informational meeting be held in the vicinity of the area to inform the public of the planned closure and to receive public comments. A summary of the public comments made at the meeting shall be presented to the natural resource commission for review. The commission may uphold or reverse the director's decision and shall consider both public comments and staff recommendations before taking action.

571—67.8(456A,461A) Use of designated trails.

67.8(1) Bicyclists, equestrians and snowmobile operators shall use only trails officially designated and properly signed for such uses.

67.8(2) Unless otherwise prohibited by law, the use of motorized all-terrain vehicles shall be limited to roadways on all areas except as necessary to carry on authorized activities such as area management, agricultural activity, search and rescue operations and special events authorized by the department.

67.8(3) An area manager may approve off-trail riding by issuing an equestrian hunting permit. Any person or group wishing to request off-trail riding under a special use permit must comply with the following:

- a.* The sponsor shall submit an application to the area manager where the proposed event is to take place. Application forms shall be furnished by DNR. Submission of an application does not guarantee issuance of a permit.

b. The sponsor shall contact the area manager for current trail conditions prior to the equestrian hunting event. Trail closure policies apply to equestrian hunting permits.

However, the total amount of the bond shall be not less than \$3,000 and no more than \$15,000.

(2) In the case of a timber buyer not previously engaged in business as a timber buyer, the amount of the bond shall be based on the estimated dollar amount to be paid by the timber buyer to timber growers for timber purchased during the next succeeding year.

b. The timber buyer is responsible for maintaining the proper amount of bond to comply with the Act.

c. Change in bond amount. If the amount of the bond, as determined under this section, has changed from that of the existing bond on file, the timber buyer shall enclose a rider to the bond or an additional certificate of deposit as necessary to increase the amount of bonding to meet the required amount for the new year or may request approval of a substituted bond or certificate of deposit if the amount required for future bonding is reduced.

b. If the timber buyer no longer wishes to stay in the timber buying business in Iowa, the department will hold the verified application for 12 months from the date of receipt and after that time release the certificate of deposit and collateral bond to the timber buyer or the timber buyer's authorized representative by certified mail or in person, if no known claims on the collateral bond exist.

c. Should any person be adversely affected by the release of the collateral bond, that person may file a written request with the department to obtain notice of any application by the timber buyer for release of collateral bond. The request shall give name, mailing address, and the reason why that party would be affected.

72.2(6) Use of bond proceeds when the bond is forfeited. If the department realizes more than the amount of the liability from the security, after deducting expenses including all costs and expenses of the state in forfeiture proceedings and incurred by the state in converting the security into money, the department shall pay the excess as follows:

a. Certificate of deposit excess will be paid to the timber buyer who furnished the security.

b. Surety bond excess will be paid to the corporate surety.

72.2(7) Requests for confidential treatment. The person shall conspicuously indicate on the face of the original document that it is confidential information and shall file a statement specifying the justification of nondisclosure of the information for which confidential treatment is claimed. If the person filing a document does not submit a second copy of the document

with the confidential information deleted, the director may assume that there is no objection to public disclosure of the document in its entirety.

The director retains the right to make a determination with regard to any claim of confidentiality. Notice of the decision by the director to deny a claim, in whole or in part, and an opportunity to respond shall be given to a person claiming confidentiality of information no less than five days if possible prior to its public disclosure, or placement in files open to the public.

571—73.1(427C,456A) Criteria for establishing and maintaining forest and fruit-tree reservations.

73.1(1) *Designation.* The selection of a forest or fruit-tree reservation is the prerogative of the taxpayer and shall not be denied unless the criteria set forth in Iowa Code chapter 427C and these rules have not been satisfied.

73.1(2) *Area designated.* The area designated as a forest or fruit-tree reservation may be less than one legally described tract of land if the minimum acreage requirement of Iowa Code section 427C.2 is satisfied.

73.1(3) *Size of reservation.* As used in Iowa Code section 427C.2, the term “continuous area” means an area of land which is not separated by public roads or streets. A “continuous area” may include land contained in more than one legal description.

73.1(4) *Fencing.* It is not mandatory that a forest or fruit-tree reservation be fenced. However, it is the taxpayer’s responsibility to ensure that livestock are not permitted on the reservation (1938 O.A.G. 198).

73.1(5) *Number of trees.* To qualify initially as a forest reservation, a tract of land must contain at least 200 growing trees on each acre. However, if trees are removed pursuant to Iowa Code section 427C.4, a taxpayer has up to one year to replace the trees.

73.1(6) *Economic gain.* As used in Iowa Code section 427C.10, the term “gain from raising fruit or forest trees” means gain from the harvest from trees including, but not limited to, fruit, nuts, Christmas trees and greens, posts, poles, logs, fuelwood, pulpwood, and tree sap.

CHAPTER 74
FOREST LAND ENHANCEMENT PROGRAM (FLEP)

571—74.1(461A) Purpose. The purpose of this chapter is to define procedures by which federal, state, or private moneys designated for cost-share forestry practices on private lands may be utilized for that purpose.

571—74.2(461A) Definitions.

“Department” means the department of natural resources and its designated representatives.

“FLEP” means the forest land enhancement program.

“Forest stewardship committee” means a committee of individuals from state, federal, county, and private institutions who serve as an advisory board to the department on forest stewardship issues.

“Private lands” means lands not owned by federal, state, county, or local governments.

“Private moneys” means any money from an individual or entity that is not a unit of federal, state, county, or local government.

571—74.3(461A) Project scope. This program will provide forestry cost-share assistance to private landowners primarily through the forest land enhancement program (FLEP). The primary source of funding shall be federally allocated funds; however, other public or private funds may be utilized if available. These funds will be used for conservation tree and shrub planting such as reforestation, wildlife habitat establishment, forest riparian buffer establishment, timber stand improvement and other forestry enhancement projects on private lands as approved by the department and the forest stewardship committee.

571—74.4(461A) Availability of funds. Funds to institute FLEP landowner cost-share assistance will primarily be derived through federal allocations pursuant to Title VIII, Subtitle A, Section 8002, of the Farm Security and Rural Investment Act of 2002, which amends the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2102). Availability of funds will vary based upon the federal allocation from the USDA Forest Service. Funding through the 2002 Farm Security and Rural Investment Act should be available through 2007. Allocations from other available public or private sources may be used for the purpose of this program at the discretion of the department.

74.4(1) Allotments. Funds available for cost-share assistance shall be dependent upon the allocation designated to the department from the USDA Forest Service.

74.4(2) Additional funding. To maximize forestry conservation practices, the department may accept contributions from any governmental or private entity or individual for the purpose of approved cost-share forestry practices on private lands.

571—74.5(461A) Forest land enhancement program areas. This rule delineates eligibility and procedures for cost-share assistance for forestry practices.

74.5(1) Eligibility. FLEP funds are available statewide except that funds from a specific funding entity may be earmarked for cost-share assistance in a specific geographic region of the state. To be eligible for cost-share assistance, individual landowners must have a forest stewardship plan approved by the department and enter into a written agreement with the department specifying the obligations of each party.

74.5(2) Applications. Applications will be accepted only from those eligible as noted above.

a. Applications must be on forms furnished by the department.

b. Applications must be signed by the landowner and by the department.

74.5(3) Project review and selection. Project applications will be reviewed separately for each department forestry district. Department district foresters in each district will recommend what projects are approved and the total amount of cost-share funds to be allocated to the landowner. The department will have final approval over projects.

74.5(4) Contract agreements. The department is authorized to enter into agreements with landowners to carry out the purposes of this program.

a. Agreement forms will be provided by the department. They shall state the terms of the agreement including, but not limited to, conservation practices to be implemented, total project cost, and cost-share dollars allocated for the specified practices.

b. The approved forest stewardship plan shall be considered a part of the contract.

c. Cost-share assistance will not be provided unless both parties have signed an agreement.

d. Contract periods will not be approved for any period less than ten years in duration.

e. Contracts may be amended by mutual agreement of both parties.

74.5(5) *Specifications and guidelines.* Forestry practices must conform with the department's Forestry Practices Manual: Technical Guide.

74.5(6) *Cost-share rates.* The department, with input from the state forest stewardship committee and in accordance with USDA Forest Service policies, shall set cost-share rates and payment maximums for each authorized forest conservation practice.

74.5(7) *Reimbursements.* Cooperators shall submit billings for reimbursements on forms provided by the department.

a. Billings shall be submitted immediately after project completion and within 18 months of project approval.

b. Billings shall include documentation on all costs incurred for the project.

c. Reimbursements shall not be made unless the landowner has fulfilled obligations as specified in the contract.

d. Billings shall be approved or disapproved by the department's district forester or assistant district forester after inspection of the project.

571—74.6(461A) Cost reimbursement. Whenever a landowner has been found to be in violation of a contract specified in this chapter, the department may cancel the contract, and the landowner shall reimburse the department for the full amount of any payments received from FLEP. The requirements and procedures for recovering expended funds in the event of a violation of the contract shall be established in the contract.

These rules are intended to implement Iowa Code subsections 455A.13(1) and 456A.24(13).

571—77.4(481B) Exemptions. Notwithstanding the foregoing list and the prohibitions in Iowa Code chapter 481B, a person may import, export, possess, transport, purchase, barter, buy, sell, offer to sell, hold for processing or process a species of animal or plant which is listed as endangered or threatened on the state list or as listed in the Code of Federal Regulations, Title 50, part 17, as amended to December 30, 1991, according to the following rules:

77.4(1) Trophies lawfully taken by persons licensed to hunt or fish (not including trapping or commercial harvest licenses) in another state, country or territory may be brought into this state and possessed, held for processing and processed but may not be sold or offered for sale.

77.4(2) Furs or skins of wildlife species appearing on the state list of endangered and threatened species which were lawfully taken or purchased in another state, country or territory may be imported, exported, purchased, possessed, bartered, offered for sale, sold, held for processing, or processed in this state if they are tagged or permanently marked by the state, country, or territory of origin.

77.4(3) Species of live animals appearing on the state list of endangered and threatened species may be imported, exported, possessed, purchased, bartered, offered for sale, or sold under the terms of a scientific collecting permit or educational project permit issued pursuant to Iowa Code section 481A.6 and administrative rules adopted by the department.

77.4(4) Plants, seeds, roots, and other parts of plants which appear on the state list of endangered and threatened plants which were lawfully taken or purchased in another state, country or territory may be imported, exported, purchased, possessed, offered for sale or sold in this state.

77.4(5) A part or product of a species of fish or wildlife appearing on the state list of endangered or threatened species which enters the state from another state or from a point outside the territorial limits of the United States may enter, be transported, exported, possessed, sold, offered for sale, held for processing or processed in accordance with the terms of a permit issued by the agency of jurisdiction in the state of origin or, if entering from outside the United States, a federal permit issued by the United States government. If proper documentation is available, a person may buy or offer to buy a part or product of a species of fish or wildlife appearing on the state or federal lists as long as it is imported from a legal source outside this state and proper documentation is provided.

77.4(6) If a person possesses a species of fish or wildlife or a part, product or offspring of such a species, proper documentation such as receipt of purchase and the permit from the state of origin or the U.S. government must be presented upon request of any conservation officer. Failure to produce such documentation is a violation of this chapter and will constitute grounds for forfeiture to the Iowa DNR.

77.4(7) A species of plant, fish or wildlife appearing on the state list of endangered and threatened species may be collected, held, salvaged and possessed under the terms of a scientific collecting permit issued pursuant to Iowa Code section 481A.6 and administrative rules adopted by the department.

77.4(8) Drainage district repairs and improvements to existing open ditch facilities are excluded from the department's protection efforts for the Topeka shiner. This includes facilities of levee and drainage districts established and maintained under Iowa Code chapter 468. This exclusion does not apply to new channelization, deepening, or leveeing of existing streams and rivers with permanent flow or existing streams with off-channel water areas capable of supporting fish.

77.4(9) The department may enter into an agreement with a private landowner for habitat improvements that benefit endangered and threatened species while limiting the potential impacts to the landowner arising when a covered species becomes more numerous due to the voluntary improvements to the habitat. If any covered species becomes more numerous as a result of the landowner's voluntary actions, a private landowner who commits to implement voluntary conservation measures for a listed

species will not be required to implement additional measures, and additional land, water, or resource use restrictions will not be imposed.

a. The department will provide participating landowners with technical assistance to develop landowner incentive program agreements. Each agreement shall include the following:

1. Landowner's name.
2. Legal description of the property covered by the agreement.
3. Length of agreement period.
4. Species covered by the agreement.
5. Baseline conditions: the estimated number of listed species and the size and condition of habitat for each species covered.
6. Conservation measures to be implemented and implementation schedule.
7. Financial commitment of the department and the landowner.
8. Measures to determine if the agreement has been fulfilled.
9. Any property use restrictions.
10. Terms for the termination of the agreement prior to its scheduled expiration.

b. The landowner, through normal lawful activities, may return the property to the baseline or a mutually agreed-upon condition above the baseline at any time after expiration of the landowner incentive program agreement.

This rule is intended to implement Iowa Code chapter 481B.

CHAPTER 78
GINSENG HARVESTING AND SALE

571—78.1(456A) Purpose. The purposes of these rules are to establish a program for the harvesting and sale of American Ginseng subject to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES); to provide for the time and conditions for harvesting the plant; and to provide requirements for the registration of growers, dealers and exporters and the records kept by dealers and exporters. The goal of the department's program is to ensure that American Ginseng (*Panax quinquefolius*), a slow-growing plant with increased demand due to its medicinal and commercial value, remains a sustainable resource in the state of Iowa.

[ARC 7680B, IAB 4/8/09, effective 4/1/09]

571—78.2(456A) Scope. These rules shall apply to all persons harvesting, cultivating and dealing in American Ginseng (*Panax quinquefolius*) in Iowa. However, these rules are not intended to apply to the trade or trafficking of lawfully obtained American Ginseng that has been processed, prepared, packaged and labeled in a manner intended for its final consumptive use.

[ARC 7680B, IAB 4/8/09, effective 4/1/09]

571—78.3(456A) Definitions. All words and phrases used in these rules shall have their ordinary and customary meaning, except that the following words and phrases shall be defined as follows:

"Controlled conditions" means a nonnatural environment that is intensively manipulated by human intervention for the purpose of plant production. General characteristics of controlled conditions may include, but are not limited to, tillage, fertilization, weed and pest control, irrigation, or nursery operations, such as potting, bedding, or protection from weather and artificial or natural shade or light.

"Cultivated ginseng" means ginseng that is nurtured, artificially propagated or maintained under controlled conditions from a seed, cutting, division, callus tissue, root, rhizome, other plant tissue, spore, or other propagule that has been derived from cultivated parental stock.

"Cultivated parental stock" means the ensemble of plants grown under controlled conditions that are used for reproduction and must be maintained in sufficient quantities for propagation.

"Cutting" or *"division"* means a plant grown from the root, rhizome, stem, or leaf of another plant and is considered to be artificially propagated only if the traded specimen does not contain any material collected from the wild.

"Dealer" means any person who deals in ginseng, which includes without limitation buying, selling, purchasing, holding, brokering, billing for, bartering, trading or otherwise receiving payment for wild or cultivated ginseng in Iowa, for the purpose of selling or otherwise transacting wild or cultivated ginseng. The term "dealer" includes any person, including without limitation a harvester, who sells ginseng to any person other than a dealer licensed pursuant to these rules or lawfully licensed in another state.

"Dealer's permit" means a permit issued to a dealer by the department under these rules.

"Department" means the Iowa department of natural resources.

"Director" means the director of the Iowa department of natural resources or a designee.

"Ginseng" means all parts of the American Ginseng (*Panax quinquefolius*) plant, including without limitation roots, rhizomes, leaves and seeds, which may be cultivated or wild. "Ginseng," however, for purposes of these rules, does not mean those parts of the American Ginseng plant that have been processed.

"Green ginseng" means a root of ginseng from which the moisture has not been removed by drying. For the purposes of these rules, the amount of dried ginseng rhizome which can be derived from green ginseng rhizome shall be calculated using a ratio of three and three-tenths to one (3.3:1) by weight.

"Grower" means a person who grows cultivated ginseng for the purpose of selling the ginseng.

"Grower's permit" means a permit issued under these rules to a grower.

"Harvester" means any person who harvests, possesses, transports, cuts, gathers, destroys, digs or uproots wild ginseng for the purpose of selling the ginseng or for personal use.

"Harvester's permit" means a permit issued under these rules to a harvester.

"Nonresident" means a person other than a resident as defined by Iowa Code section 483A.1A.

“*Permits*” means dealer’s permits, grower’s permits and harvester’s permits issued under these rules.

“*Resident*” means a resident as defined by Iowa Code section 483A.1A.

“*Root*” means the ginseng rhizome and its roots.

“*True leaves*” or “*prongs*” means compound leaves that include five leaflets consisting of three large leaflets and two small leaflets.

“*Wild ginseng*” means an unprocessed plant, dry or live green root, rhizome, seed or other part of ginseng, which is growing in or has been collected from its native habitat, including ginseng plants which have arisen from a seed that is planted in the wild, or which have been transplanted into native habitat. “Wild ginseng” is ginseng that has not been grown or nurtured by a person beyond planting of seeds or plants.

[ARC 7680B, IAB 4/8/09, effective 4/1/09]

571—78.4(456A) Season for legal harvest. The season for legally harvesting ginseng is September 1 to October 31.

[ARC 7680B, IAB 4/8/09, effective 4/1/09]

571—78.5(456A) General prohibitions.

78.5(1) Harvest. From November 1 through the following August 31, no person shall harvest, dig, cut, uproot, gather, intentionally disturb, or destroy ginseng, whether the ginseng is wild or cultivated ginseng. This prohibition shall not apply to the transplantation or intentional disturbance of cultivated ginseng when such activities are incidental to the cultivation and growing of cultivated ginseng in a nursery business.

78.5(2) Sale. A person, other than a dealer licensed pursuant to these rules, shall not sell ginseng from March 16 through August 31.

78.5(3) Sale and possession of green ginseng. A person shall not possess or transact business in green ginseng from November 21 through August 31, unless otherwise provided for by these rules.

78.5(4) State-owned and state-managed lands. In an effort to conserve and protect native stands of wild ginseng, the introduction of nonnative ginseng stock on state-owned or state-managed lands under the jurisdiction of the commission is prohibited, except in narrow circumstances as described in these rules. As such, a person shall not, at any time, possess, harvest, dig, cut, uproot, gather, plant, propagate, intentionally disturb or destroy ginseng or ginseng seed on state-owned or state-managed lands under the jurisdiction of the commission. Any person who harvests wild ginseng must have a valid harvester's permit issued by the department and shall produce such permit upon the request of the department while the person is engaged in harvesting activities, including the person's moving to or from the harvest site, transporting ginseng and the selling of the harvested ginseng.

b. An application for a harvester's permit shall be made on the form provided by the department, unless the harvester's permit is purchased through ELSI, and shall be accompanied by a fee of \$35 for residents and \$65 for nonresidents. All wild ginseng possessed pursuant to this paragraph shall be for the harvester's personal use only and may not be lawfully sold.

f. No person may sell, barter or otherwise offer for sale any ginseng that has been unlawfully collected, obtained or possessed in violation of this chapter, the Code of Iowa, or the Code of Federal Regulations.

a. *West Okoboji, East Okoboji, Spirit, Upper Gar, Minnewashta, and Lower Gar Lakes in Dickinson County, Storm Lake in Buena Vista County, Clear Lake in Cerro Gordo County, and Big Creek Lake in Polk County.* The daily bag limit shall be three, with a possession limit of six.

b. *Length limits.* Length limits shall apply on walleye in public waters that have length limits posted or published.

81.2(4) Paddlefish snagging is permitted in waters of the state designated in rule 571—81.1(481A), except as follows:

a. There shall be no open season above the Interstate 29 bridge in the Big Sioux River, nor in any tributary of this stream within 200 yards immediately upstream of a tributary confluence.

b. Snagging for paddlefish on the Missouri and Big Sioux Rivers is limited to Iowa waters only, beginning in the Big Sioux River below the Interstate 29 bridge to the Big Sioux River's confluence with the Missouri River and in the Missouri River, including all backwaters and sloughs and any tributary of the Missouri River at its confluence and extending below its Interstate 29 bridge, beginning at the Big Sioux River confluence and extending to the Hamburg Landing boat ramp.

- (1) There shall be an open season from February 1 through April 30.
- (2) Snagging hours are from sunrise to sunset.

(3) The bag limit is one paddlefish per paddlefish fishing license.

(4) The paddlefish fishing license quota is 950 for resident anglers and 50 for nonresident anglers. Licenses shall be issued on a first-come, first-served basis. A person may purchase one paddlefish fishing license from December 15 through December 31 and either a first or second license between January 1 and January 7. No duplicate license or transportation tag shall be issued after the start of the season.

(5) Each angler fishing for paddlefish and any species listed in subrule 81.2(11) on the Missouri and Big Sioux Rivers shall have a valid paddlefish fishing license and unused tag. All snagged fish except for a species listed in subrule 81.2(11) or a legal paddlefish taken into possession shall immediately be released alive.

(6) Immediately upon an angler's taking into possession a legal paddlefish, a valid current year transportation tag issued with the license shall be visibly attached to the fish's lower jaw. The tag must be attached in such a manner that it cannot be removed without mutilating or destroying the tag. An angler shall not possess a paddlefish fishing license or transportation tag issued to another angler or tag a paddlefish with a transportation tag issued to another angler. The transportation tag shall be attached before the carcass can be moved in any manner from the place of harvest. The transportation tag shall remain affixed to the paddlefish until the paddlefish is processed for consumption. The paddlefish shall remain intact except for the snout in front of the eye until the fish reaches the final processing place. For the purposes of this subrule, the "final processing place" is defined as the angler's residence or the location where consumption occurs. The transportation tag shall be proof of possession of the carcass by the above-mentioned licensee. During the closed season, the possession of paddlefish on the Missouri and Big Sioux Rivers is prohibited unless the paddlefish are legally taken in Nebraska or South Dakota.

(7) No hooks larger than 5/0 treble or measuring more than 1¼ inches in length when two of the hook points are placed on a ruler are permitted when snagging.

(8) A gaffe hook or other penetrating device may not be used as an aid in the landing of a snagged fish.

c. Snagging for paddlefish on the Mississippi River is restricted to the area within 500 yards below the navigation dams and their spillways. No hooks larger than 5/0 treble or measuring more than 1¼ inches in length when two of the hook points are placed on a ruler are permitted when snagging. The open season on the Mississippi River is the period from March 1 through April 15.

d. Except during the Missouri and Big Sioux Rivers open paddlefish fishing season, snagging for paddlefish is not permitted at any time in those areas where snagging is prohibited as a method of take as listed in subrule 81.2(11).

e. On the Mississippi River, a 33-inch maximum length limit shall apply; any paddlefish measuring 33 inches or more when measured from the front of the eye to the natural unaltered fork of the tail must immediately be released alive. On the Missouri and Big Sioux Rivers and on each Missouri River tributary from its confluence and extending to below its Interstate 29 bridge, a 35-inch to 45-inch protected-slot limit shall apply; a paddlefish measuring 35 inches to 45 inches when measured from the front of the eye to the natural unaltered fork of the tail shall immediately be released alive. To measure a paddlefish, the angler shall use a flexible tape and measure along and over the center line contour of the fish while it is lying flat.

81.2(5) Trout regulations. The department may post season, bag or possession limits, length limits, catch and release regulations, and tackle restrictions specific to a body of water at that body of water. On bodies of water posted as artificial lure only, "artificial lure" means lures that do not contain or have applied to them any natural or synthetic substances designed to attract fish by the sense of taste or smell. For bodies of water without posted regulations, the following regulations apply to trout:

a. Open season is continuous.

b. A five-fish daily bag limit and ten-fish possession limit shall apply to any combination of brown trout, brook trout, rainbow trout, and their hybrids.

c. A trout fee is required to fish for and possess trout.

81.2(6) Exception border lakes. In Little Spirit Lake, Dickinson County; Iowa and Tuttle (Okamanpedan) Lakes, Emmet County; Burt (Swag) Lake, Kossuth County; and Iowa Lake, Osceola

County, the following species have a continuous open season and daily bag and possession limits as set forth below:

- a. Walleye—daily bag and possession limit 3;
- b. Northern pike—daily bag and possession limit 3;
- c. Largemouth and smallmouth bass—daily bag and possession limit 3;
- d. Channel catfish—daily bag and possession limit 8;
- e. Yellow perch—daily bag and possession limit 25;
- f. Crappie species—combined daily bag and possession limit 25;
- g. Sunfish (bluegill, pumpkinseed, green sunfish, orangespotted sunfish, longear sunfish, warmouth, and hybrids)—combined daily bag and possession limit 25;
- h. White bass, yellow bass, bullhead, common carp, bowfin, suckers, sheepshead, buffalo, gar and quillback—no daily bag or possession limit;
- i. Muskellunge—daily bag and possession limit one. Open season shall be May 21 through November 30. A 40-inch minimum length limit shall apply on all border lakes;
- j. Spears and bow and arrow may be used to take carp, buffalo, bowfin, gar, sheepshead, and quillback carpsucker with a continuous open season;
- k. All species not listed above are subject to the inland regulations of the state and have a continuous open season.

81.2(7) DeSoto Bend Lake. All fishers shall conform with federal refuge regulations as posted under the authority of Section 33.19 of Title 50 CFR. The text of the rules will be contained on the signs as posted.

81.2(8) General restriction. Anglers must comply with the most restrictive set of regulations applicable to the water on which they are fishing. Where length limits apply, fish less than the legal length must be immediately released into the water from which they were caught.

81.2(9) Catfish. For the purpose of this rule, stream catfish bag and possession limits apply at the federal flood control impoundments of Rathbun Lake, Red Rock Lake, Saylorville Lake, and Coralville Lake.

81.2(10) Identification of catch. No person shall transport or possess on any waters of the state any fish unless (a) the species of any such fish can be readily identified and a portion of the skin (at least 1 square inch) including scales is left on all fish or fillets and (b) the length of fish can be determined when length limits apply. “On any waters of the state” includes from the bank or shoreline in addition to wading and by boat.

81.2(11) Method of take. Artificial light may be used in the taking of any fish. The following species of fish may be taken by snagging, spearing, and bow and arrow: common carp, bighead carp, grass carp, silver carp, black carp, bigmouth buffalo, smallmouth buffalo, black buffalo, quillback carpsucker, highfin carpsucker, river carpsucker, spotted sucker, white sucker, shorthead redhorse, golden redhorse, silver redhorse, sheepshead, shortnose gar, longnose gar, dogfish, gizzard shad, and goldfish. All other species of fish not hooked in the mouth, except paddlefish legally taken by snagging, must be returned to the water immediately with as little injury as possible. A fish is foul hooked when caught by a hook in an area other than in the fish’s mouth. Snagging is defined as the practice of jerking any type of hook or lure, baited or unbaited, through the water with the intention of foul hooking fish. No hook larger than a 5/0 treble hook or measuring more than 1¼ inches in length when two of the hook points are placed on a ruler are permitted when snagging. Exceptions to snagging as a method of take are as follows:

- a. No snagging is permitted in the following areas:
 - (1) Des Moines River from directly below Saylorville Dam to the Southeast 14th Street bridge in Des Moines.
 - (2) Cedar River in Cedar Rapids from directly below the 5 in 1 Dam under Interstate 380 to the 1st Avenue bridge.
 - (3) Cedar River in Cedar Rapids from directly below the “C” Street Roller Dam to 300 yards downstream.
 - (4) Iowa River from directly below the Coralville Dam to 300 yards downstream.
 - (5) Chariton River from directly below Lake Rathbun Dam to 300 yards downstream.

- (6) Spillway area from directly below the Spirit Lake outlet to the confluence at East Okoboji Lake.
- (7) Northeast bank of the Des Moines River from directly below the Ottumwa Dam, including the catwalk, to the Jefferson Street Bridge. Snagging from the South Market Street Bridge is also prohibited.
- (8) Missouri River, any Missouri River tributary beginning at its confluence and extending below its Interstate 29 bridge and the Big Sioux River from the Interstate 29 bridge to the confluence with the Missouri River, with the exception of snagging paddlefish or any of the species listed in subrule 81.2(11) during the paddlefish open season.
- (9) Des Moines River from directly below the Hydroelectric Dam (Big Dam) to the Hawkeye Avenue Bridge in Fort Dodge.
- (10) Des Moines River from directly below the Little Dam to the Union Pacific Railroad Bridge in Fort Dodge.
- (11) Skunk River from directly below Oakland Mills Dam to the downstream end of the 253rd Street boat ramp.

b. No snagging, bow and arrow fishing, or spearing of fish is permitted in the following areas:

- (1) Clear Lake and Ventura Marsh from the Ventura Grade, Jetties and Bridge.
- (2) Lost Island Lake Inlet within 300 feet of the concrete culvert and metal fish barrier.
- (3) Lost Island Lake Outlet within 300 feet of the outlet structure and metal fish barrier.
- (4) Barringer Slough Outlet within 300 feet of the outlet and metal fish barrier.
- (5) The outlet area of Lower Gar Lake beginning at 230th Avenue and extending downstream to the signed Iowa Great Lakes Sanitary District property line.

81.2(12) Panfish. The daily bag limit for crappie and bluegill applies only to public waters of the state. In all waters of the Mississippi River, the daily bag and possession limit applied individually to crappie, yellow perch and rock bass shall be 25 and 50, respectively. In all waters of the Mississippi River, the daily bag and possession limit applied in the aggregate for bluegill and pumpkinseed and for white bass and yellow bass shall be 25 and 50, respectively.

81.2(13) Culling. It is prohibited to sort, cull, high-grade, or replace any fish already in possession. Participants in permitted black bass fishing tournaments are exempted, as are participants in catch and release catfish fishing tournaments if the participants are fishing from a boat with a functioning aerated or water-circulated live well. Any fish taken into possession by holding in a live well, on a stringer or in other fish-holding devices is part of the daily bag limit. Once the daily bag limit of a particular species is reached, fishing for that species is permitted as long as all fish of that species caught are immediately released.

CHAPTER 82
COMMERCIAL FISHING

[Prior to 12/31/86, Conservation Commission[290] Ch 110]

INLAND WATERS

571—82.1(482) Contract policy. All contracts for removal of fish from inland waters shall be awarded on a competitive basis to the maximum practical extent subject to the following provisions. Commercial fishers licensed with the state may enter into contract with owners of private water bodies for the removal of injurious fish provided approval is received from the director or staff of the department prior to any sampling or removal operations. Owners of private water bodies need not comply with subrules 82.1(1) to 82.1(6).

82.1(1) Invitation for bids. Sealed bids to be opened at a specified time, place, and date must be solicited for all fish removal operations under contract. Prospective bidders shall be informed by an advertisement in at least one newspaper of statewide circulation; one newspaper published in the county seat of the county in which the work is to be done, and such other means as may be appropriate in sufficient time to enable prospective bidders to prepare and submit bids. Specifications of the contract shall be provided to all prospective bidders as provided in the invitation for bids.

82.1(2) Public bid letting. All sealed bids shall be publicly opened as specified in the invitation for bids. The bids shall be tabulated and made available in a written form to any interested party.

82.1(3) Contract award. The contract shall be awarded to the firm or individual whose bid is believed to be the most advantageous to the state. Bids may be rejected if they do not appear to be reasonable or if there is reason to believe that the firm or individual is not sufficiently qualified to accomplish the desired work.

82.1(4) Contract approval. All contracts for fish removal operations in excess of \$25,000 shall be approved by the commission. Contracts less than \$25,000 shall be approved by the director.

82.1(5) Failure to receive a bid. In the event that no sealed bids are received, the fisheries bureau chief, or staff at the direction of the fisheries bureau chief, may negotiate a contract with a qualified contractor.

82.1(6) Contract period. Contracts shall have a maximum duration of 12 months. A contract may be extended, with the mutual consent of both parties, on an annual basis, for a period up to and including three years from the time of the original contract. All terms and conditions existing in the original contract will apply during the extended contract period.

MISSISSIPPI AND MISSOURI RIVERS

571—82.2(482) Commercial taking. Fish may be taken for commercial purposes, from the Mississippi and Missouri Rivers subject to the following regulations.

82.2(1) Permissive catch. Except for channel catfish, flathead catfish and shovelnose sturgeon which may not be taken from the Missouri River, it shall be lawful to take with licensed commercial fishing gear the following species: carp, smallmouth buffalo, largemouth buffalo, black buffalo, channel catfish, flathead catfish, black bullhead, yellow bullhead, brown bullhead, freshwater drum, northern redhorse, silver redhorse, spotted sucker, white sucker, river carpsucker, quillback, highfin carpsucker, white amur, bighead carp, silver carp, shovelnose sturgeon, longnose gar, shortnose gar, bowfin, gizzard shad, goldeye, and mooneye.

82.2(2) Size limits. Fish less than a minimum length or longer than the maximum length shall be returned to the water unharmed. The minimum total length for all catfish is 15 inches. The minimum fork length for shovelnose sturgeon, measured from the tip of the snout to the fork of the tail, is 27 inches. No shovelnose sturgeon longer than 34 inches fork length may be harvested from waters of the Mississippi River bordering Wisconsin. No shovelnose sturgeon less than 27 inches fork length may be possessed in Iowa waters.

82.2(3) Permitted gear. Hoop nets, trap nets (fyke nets), gill nets, trammel nets, slat nets (basket traps), seines, and trotlines (setlines) may be used by licensed commercial fishers.

82.2(4) Mesh size restrictions.

a. Hoop nets. An escape hole with a minimum diameter of 1½ inches all directions shall be provided within 12 inches beyond the last hoop to the tail-line.

b. Trap nets. An escape hole with a minimum diameter of 1½ inches all directions shall be provided within 12 inches beyond the last hoop to the tail-line.

c. Gill nets. The webbing shall have a mesh size not less than 3½ inches square measure.

d. Trammel nets. The webbing shall have a mesh size not less than 2 inches square measure.

e. Seines. There are no mesh size restrictions.

f. Slat nets. An escape hole with a minimum diameter of 1½ inches all directions shall be provided in the end opposite the throat.

82.2(5) Gear attendance. All commercial gear shall be lifted and emptied of catch at the following time intervals, except during periods of inclement weather. Inclement weather is defined as that threatening to life, health, or safety.

a. Hoop nets shall be attended at least once every 96 hours and slat nets at least once every 48 hours during open water conditions. Hoop nets shall be attended at least once every 20 days during ice cover conditions.

b. Trap nets and trotlines shall be attended at least once every 24 hours.

c. Gill nets and trammel nets shall be attended at least once every 24 hours during open water conditions, and at least once every 96 hours during ice cover conditions.

82.2(6) Report of catch. Licensed commercial fishers must comply with the reporting requirements as set forth in Iowa Code section 482.14.

82.2(7) Duplicate operator's license. An owner making a request for a duplicate operator's license will be issued one only after records show the owner has purchased a limit of five operator's licenses. The duplicate helper's license will be issued to one individual and is not transferable. The issuing fee is \$1.

82.2(8) Seasons. There is a continuous open season for commercial fishing of all species listed in 82.2(1) except there is a closed season for shovelnose sturgeon from May 16 through October 14. No shovelnose sturgeon may be harvested from gear set prior to midnight on October 15.

82.2(9) Special shovelnose and bowfin regulations. Shovelnose sturgeon and bowfin must remain intact until the fish reach the final processing facility or business. For the purposes of this subrule, final processing facility does not include vessels or vehicles.

82.2(10) Closed areas. The use of entanglement gear, including gill and trammel nets, is prohibited from that area extending 600 feet downstream of the 900 foot existing closed areas (Iowa Code section 482.9, subsection 2) located below each of the locks and dams on the Mississippi River.

These rules are intended to implement Iowa Code sections 481A.38, 481A.39, 482.1, 482.3, 482.5, and 482.14.

571—89.2(481A) Importation permit. An importation permit is required to receive, propagate or sell in the state any aquaculture species not listed in subrule 89.1(1). In addition, aquaculture units shall not import live fish, viable eggs, or semen of any species of the salmonid family (trout, salmon or char) and ictalurid family (catfishes and bullheads), unless the owner or operator possesses a fish importation permit. Importation permits may be applied for on forms provided by the department.

571—89.3(481A) Disease-free certification. Importation permits will not be issued for live fish, viable eggs, or semen of any species of the salmonid family (trout, salmon or char) unless the owner or operator of an aquaculture unit provides a statement certifying the fish, eggs or semen to be free of the following diseases:

90.3(1) A person shall not possess, introduce, import, purchase, sell, barter, propagate, or transport aquatic invasive species in any form in this state, except:

- a.* By written permission of the director;
- b.* For disposal as part of a harvest or control activity;
- c.* When a species is being transported to the department, or to another destination as directed by the department, in a sealed container for purposes of identifying the species or reporting the presence of the species;
- d.* When the specimen has been lawfully acquired dead and, in the case of plant species, when all seeds are removed or are otherwise secured in a sealed container;
- e.* In the form of herbaria or other preserved specimens;

At any time, the department may designate additional waters or remove from designation those waters that are no longer infested.

90.4(2) *Restricted activities on infested waters.* The department may restrict boating, fishing, swimming, and trapping in infested waters of the state. When determining when to restrict activities in infested waters, the department shall consider:

- a.* The extent of a species' distribution within the state;

- c.* Whether restrictions specific to infested waters containing a specific species will effectively reduce that species' spread.

These rules are intended to implement Iowa Code section 456A.37 as amended by 2004 Iowa Acts, House File 2357.

[ARC 7914C, IAB 5/1/24, effective 6/5/24]

571—91.5(481A) Canada goose hunting within closed areas.

91.5(1) Closed areas. All areas are as described in subrule 91.4(2).

a. *Purpose.* The hunting of Canada geese in closed areas is being undertaken to allow landowners or tenants who farm in these closed areas to hunt Canada geese on land they own or farm in the closed area.

b. *Criteria.*

(1) Landowners and tenants who own or farm land in the closed areas will be permitted to hunt Canada geese in the closed areas.

(2) Landowners and those individuals named on the permit according to the criteria specified in subparagraph 91.5(1) "b"(9) will be permitted to hunt in the closed area. Tenants may obtain a permit instead of the landowner if the landowner transfers this privilege to the tenant. Landowners may choose, at their discretion, to include the tenant and those individuals of the tenant's family specified in subparagraph 91.5(1) "b"(9) on their permit. Assigned permits must be signed by both the permittee and the landowner assigning the permit.

(3) Landowners must hold title to, or tenants must farm by a rent/share/lease arrangement, at least eight acres inside the closed area to qualify for a permit.

(4) No more than one permit will be issued to corporations, estates, or other legal associations that jointly own land in the closed area. No individual may obtain more than two permits nor may an individual be named as a participant on more than two permits.

(5) Persons holding a permit can hunt with those individuals named on their permit as specified in subparagraph 91.5(1) "b"(9) on any property they own (or rent/share/lease in the case of tenants) in the closed area provided their activity complies with all other regulations governing hunting. Nothing herein shall permit the hunting of Canada geese on public property within the closed area.

(6) Persons hunting under this permit must adhere to all municipal, county, state and federal regulations that are applicable to hunting and specifically applicable to Canada goose hunting. Hunting as authorized by this rule shall not be used to stir or rally waterfowl.

(7) Hunting within the closed area will be allowed through October 31.

(8) Permit holders will be allowed to take eight Canada geese per year in the closed area.

(9) Permits will be issued only to individual landowners or tenants; however, permit holders must specify, when requesting a permit, the names of all other individuals qualified to hunt on the permit. Individuals qualified to hunt on the permit shall include the landowners or tenants and their spouses, domestic partners, parents, grandparents, children, children's spouses, grandchildren, siblings and siblings' spouses only.

c. Procedures.

(1) Permits can be obtained from the local conservation officer or wildlife unit headquarters within the closed area no later than 48 hours before the first Canada goose season opens. The permit will be issued to an individual landowner or tenant and must list the names of all individuals who may hunt with the permittee. The permit will also contain a description of the property covered by the permit. The permit must be carried by a member of the hunting party whose name is listed on the permit. Conservation officers will keep a record of permittees and locations of properties that are covered by permits.

(2) Eight consecutively numbered tags will be issued with each permit. Geese will be tagged around the leg immediately upon being reduced to possession and will remain tagged until delivered to the person's abode.

(3) No one may attempt to take Canada geese under this permit unless the person possesses an unused tag for the current year.

(4) No landowner or tenant shall be responsible or liable for violations committed by other individuals listed on the permit issued to the landowner or tenant.

[ARC 7914C, IAB 5/1/24, effective 6/5/24]

571—91.6(481A,483A) Youth waterfowl hunt. A special youth waterfowl hunt will be held the weekend before the first segment of the regular duck season in each duck hunting zone. Youth hunters must be residents of Iowa as defined in Iowa Code section 483A.1A and less than 16 years old. Each youth hunter must be accompanied by an adult 18 years old or older. The youth hunter does not need to have a hunting license or stamps. The adult must have a valid hunting license and habitat stamp if normally required to have them to hunt and a state waterfowl stamp. Only the youth hunter may shoot ducks and coots. The adult may hunt for any game birds for which the season is open. The daily bag and

possession limits are the same as for the regular waterfowl season, as defined in rule 571—91.1(481A). All other hunting regulations in effect for the regular waterfowl season apply to the youth hunt.
[ARC 7914C, IAB 5/1/24, effective 6/5/24]

These rules are intended to implement Iowa Code sections 481A.38, 481A.39, 481A.48(2), and 483A.2.

CHAPTER 92
MIGRATORY GAME BIRDS
[Prior to 12/31/86, Conservation Commission[290] Ch 105]

571—92.1(481A) General. Migratory game birds may be taken only in accordance with the daily bag and possession limits during the open season and shooting hours as prescribed annually by the natural resource commission.

571—92.2(481A) Duck stamp. It shall be unlawful for any person who has attained the age of 16 years to take any migratory waterfowl (brant, wild ducks, geese, and swans) unless at the time of such taking that person has with them an unexpired federal migratory bird hunting and conservation stamp (commonly called duck stamp), validated by the person's signature written across the face of the stamp in ink.

571—92.3(481A) Hunting methods. Migratory game birds may be taken by any method except those prohibited in this rule. No person shall take migratory game birds (brant, wild ducks, geese, rails, coots, woodcock, and snipe):

92.3(1) With a trap, snare, net, crossbow, rifle, pistol, swivel gun, shotgun larger than 10-gauge, punt gun, battery gun, machine gun, fish hook, poison, drug, explosive or stupefying substance;

92.3(2) With a shotgun of any description capable of holding more than three shells, unless it is plugged with a one-piece filler, incapable of removal without disassembling the gun, so its total capacity does not exceed three shells;

92.3(3) On all lands and waters of the state of Iowa while having in one's possession any shot other than nontoxic shot approved by the U.S. Fish and Wildlife Service. This subrule shall not apply to the taking of woodcock.

92.3(4) From or by means or use of a sinkbox or any other type of low-floating device, having a depression affording the hunter a means of concealment beneath the surface of the water;

92.3(5) From or by means, aid, or use of any motor vehicle, motor-drive land conveyance, or aircraft of any kind, except that paraplegics and single or double amputees of the legs may take from any stationary motor-driven land conveyance. "Paraplegic" means an individual afflicted with paralysis of the lower half of the body with the involvement of both legs, usually due to disease of or injury to the spinal cord;

92.3(6) From or by means of any motorboat or other craft having a motor attached, or any sailboat, unless the motor has been completely shut off or the sail furled, and its progress therefrom has ceased: Provided, that a craft under power may be used to retrieve dead or crippled birds. However, crippled birds may not be shot from such craft under power;

92.3(7) By the use or aid of live birds as decoys; although not limited to, it shall be a violation of this subrule for any person to take migratory waterfowl on an area where tame or captive live ducks or geese are present unless such birds are and have been for a period of ten consecutive days prior to such taking, confined within an enclosure which substantially reduces the audibility of their calls and totally conceals such birds from the sight of wild migratory waterfowl;

92.3(8) By the use or aid of recorded or electrically amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds;

92.3(9) By means or aid of any motor-driven land, water, or air conveyance or any sailboat used for the purpose of or resulting in the concentrating, driving, rallying, or stirring up of any migratory bird; or

92.3(10) By the aid of baiting, or on or over any baited area. As used in this subrule, "baiting" shall mean the placing, exposing, depositing, distributing, or scattering of shelled, shucked or unshucked corn, wheat or other grain, salt, or other feed so as to constitute for such birds a lure, attraction or enticement to, on, or over any areas where hunters are attempting to take them; and "baited area" means any area where shelled, shucked or unshucked corn, wheat or other grain, salt, or other feed capable of luring, attracting, or enticing such birds is directly or indirectly placed, exposed, deposited, distributed, or scattered and such area shall remain a baited area for ten days following complete removal of all such corn, wheat or other grain, salt, or other feed. However, nothing in this subrule shall prohibit:

a. The taking of all migratory game birds, including waterfowl, on or over standing crops, flooded standing crops (including aquatics), flooded harvested croplands, grain crops properly shocked on the field where grown, or grains found scattered solely as the result of normal agricultural planting or harvesting; and

b. The taking of all migratory game birds, except waterfowl, on or over any lands where shelled, shucked or unshucked corn, wheat or other grain, salt, or other feed has been distributed or scattered solely as the result of valid agricultural operations or procedures.

92.3(11) By any of the methods or means prohibited in this rule unless such methods or means have been approved by the U.S. Fish and Wildlife Service for the taking of light geese during special light goose-only seasons or light goose-only hunts.

[ARC 6355C, IAB 6/15/22, effective 7/20/22]

571—92.4(481A) Restrictions applicable to possession, tagging, and record-keeping requirements.

92.4(1) No person shall possess, have in custody, or transport more than the daily bag limit or aggregate daily bag limit, whichever applies, of migratory game birds, tagged or not tagged, at or between the place, where taken and either:

- a.* The person's automobile or principal means of land transportation; or
- b.* The person's personal abode or temporary or transient place of lodging; or
- c.* A migratory bird preservation facility; or
- d.* A post office; or
- e.* A common carrier facility.

92.4(2) No person shall put or leave any migratory game birds at any place other than at the person's personal abode, or in the custody of another person for picking, cleaning, processing, shipping, transportation, or storage (including temporary storage), or for the purpose of having taxidermy services performed, unless such birds have a tag attached, signed by the hunter, stating the person's address, the total number and species of birds, and the date such birds were killed. Migratory game birds being transported in any vehicle as the personal baggage of the possessor shall not be considered as being in storage or temporary storage.

92.4(3) No person shall receive or have in custody any migratory game birds belonging to another person unless such birds are tagged as required under 92.4(2).

92.4(4) No migratory bird preservation facility shall:

a. Receive or have in custody any migratory game birds unless accurate records are maintained showing:

- (1) The number of each species;
- (2) The date such birds were received;
- (3) The name and address of the person from whom such birds were received;
- (4) The date such birds were disposed of;
- (5) The name and address of the person to whom such birds were delivered.

b. Destroy any records required to be maintained under this rule for period of one year following the last entry on the record.

c. No migratory bird preservation facility shall prevent any person authorized to enforce this part from entering such facilities at all reasonable hours and inspecting the records and the premises where such operations are being carried on.

571—92.5(481A) Transportation within the state or between states.

92.5(1) No person shall transport or ship any migratory game birds, unless the head or one fully feathered wing remains attached to each such bird at all times while being transported or shipped from the place where taken until they have arrived at the personal abode of the possessor or a migratory bird preservation facility.

92.5(2) Reserved.

571—92.6(481A) Wounded, live migratory game birds.

92.6(1) Every migratory game bird wounded by hunting and reduced to possession by the hunter shall be immediately killed and become a part of the daily bag limit.

92.6(2) Wanton waste. No person shall kill or cripple any migratory game bird pursuant to this chapter without making a reasonable effort to retrieve the bird and include it in the daily bag limit.

571—92.7(481A) Harvest information program (HIP).

92.7(1) Beginning January 1, 1998, no persons shall hunt migratory game birds (brant, wild ducks, geese, rails, coots, snipe, woodcock or any other migratory game bird) without carrying proof that they have first registered with the HIP. Hunters must supply their name, address, and information on the number of migratory game birds taken during the previous year, or other information that may be requested.

92.7(2) The natural resource commission will develop methods for collecting information from hunters at the time they purchase their hunting license or prior to going hunting, either by written or electronic means, and develop a method for validating in the field that hunters have registered.

These rules are an adoption of the federal waterfowl method to take regulations, and are intended to implement Iowa Code sections 481A.38, 481A.39, and 481A.48.

CHAPTER 93
COMMERCIAL USE OF CAPTIVE-REARED WATERFOWL
[Prior to 12/31/86, see Conservation Commission[290] Ch 10]

571—93.1(481A) General. Nothing in this chapter shall be construed to permit the taking of live waterfowl or their eggs from the wild.

571—93.2(481A) Required markings. All waterfowl released for shooting purposes or sold by a licensed taxidermist must be captive-reared and marked pursuant to Iowa Code section 481A.22 and these rules.

571—93.3(481A) Definitions. In addition to definitions contained in Iowa Code section 481A.1, as used in this chapter:

“*Bred in captivity*” or “*captive-reared*” refers to waterfowl, including eggs hatched in captivity from parents that mated or otherwise transferred gametes in captivity.

“*Captivity*” means that live waterfowl are held in a controlled environment that is intensively manipulated by man for the purpose of producing waterfowl of selected species, and that has boundaries designed to prevent waterfowl, eggs or gametes of the selected species from entering or leaving the controlled environment. General characteristics of captivity may include, but are not limited to, artificial housing, waste removal, health care, protection from predators, and artificially supplied food.

“*Waterfowl*” means any goose, brant, or duck.

571—93.4(484B) Marked for shooting. All waterfowl released for shooting purposes shall be physically marked by removal of the hind toe from the right foot at not more than four weeks of age.

571—93.5(481A) Commercial sale of captive-reared waterfowl by a taxidermist.

93.5(1) Taxidermist permit required. A taxidermist permit is required before any person may perform taxidermy services on migratory birds or their parts, nests, or eggs for any reason other than personal use.

93.5(2) In addition to the records required by Iowa Code section 481A.126, the permittee must maintain files containing the original of federal Form 3-186, Notice of Waterfowl Sale or Transfer, confirming acquisition of captive-reared, properly marked waterfowl from the holder of a current waterfowl sale and disposal permit. Properly marked, captive-reared mallards are exempt from this requirement.

93.5(3) All captive-reared waterfowl being purchased or held by a taxidermist for mounting and resale shall have been physically marked by at least one of the following methods:

- a. Removal of the hind toe from the right foot.
- b. Pinioning of a wing: Provided, this method shall be the removal of the metacarpal bones of one wing or a portion of the metacarpal bones which renders the bird permanently incapable of flight.
- c. Banding of one metatarsus with a seamless metal band.
- d. Tattooing of a readily discernible number or letter or combination thereof on the web of one foot.

93.5(4) When any mounted captive-bred waterfowl (except captive-reared, properly marked mallards) are acquired from a taxidermist, the taxidermist shall furnish a copy of federal Form 3-186, Notice of Waterfowl Sale or Transfer, indicating all information required by the form and the method or methods by which individual birds are marked as required in subrule 93.5(3).

93.5(5) The buyer shall retain Form 3-186 on file for the duration of the buyer’s possession of such mounted, captive-reared waterfowl.

These rules are intended to implement Iowa Code sections 481A.55, 481A.126, and 484B.8.

CHAPTER 94
NONRESIDENT DEER HUNTING
Rescinded **ARC 7915C**, IAB 5/1/24, effective 6/5/24

CHAPTER 95
GAME HARVEST REPORTING AND LANDOWNER-TENANT REGISTRATION

571—95.1(481A) Harvest reporting system. Deer and turkey hunters must report each deer and wild turkey harvested to the department of natural resources (DNR) harvest reporting system. The hunter whose name is on the transportation tag is responsible for making the report. Hunters who do not bag a deer or wild turkey do not report.

95.1(1) Reporting deadlines for deer and turkey. A harvest report must be made by midnight on the day after the animal is tagged or before the animal is taken to a locker or taxidermist, is processed for consumption, or is transported out of state, whichever occurs first.

95.1(2) Method of reporting. Hunters may report the harvest in one of three ways:

a. By calling the DNR toll-free harvest reporting telephone number. The telephone number will be in operation from 6 a.m. to midnight each day during hunting seasons and for the legal reporting period after the season.

b. By reporting through the Internet using the DNR online harvest reporting system. The system will function 24 hours a day, seven days a week during hunting seasons and for the legal reporting period after the season.

c. By visiting an electronic licensing system for Iowa (ELSI) license agent during the license agent's normal business hours. Reports may be made through ELSI whenever hunting seasons are open and for the legal reporting period after the seasons.

95.1(3) Report confirmation. After the report is made, the hunter will be given a confirmation number to write on the harvest report tag to verify that the hunter has reported the kill. The harvest report tag and confirmation number must remain attached to the deer or wild turkey until the deer or turkey is processed for consumption.

571—95.2(481A) Verifying eligibility for free landowner or tenant licenses. Eligibility for free and reduced-fee deer and wild turkey hunting licenses, which are hereafter referred to as free licenses, is defined in Iowa Code section 483A.24, rule 571—98.5(483A) and rule 571—106.12(481A). The electronic licensing system for Iowa (ELSI) will not issue free licenses to persons who have not registered their eligibility with ELSI.

95.2(1) Farm unit. As provided in 571—subrule 106.12(6), all the land under the lawful control of the landowner or tenant is considered one farm unit no matter how it is subdivided for business purposes. No one may be registered as eligible for free licenses on more than one farm unit. Registering on one parcel of land within the farm unit will allow the landowner, tenant or family member to hunt on all land in the farm unit.

95.2(2) Who may obtain free licenses. One member of the landowner family (the landowner or an eligible family member) may obtain a free any-deer license. Members of the landowner family may divide the free antlerless-deer-only licenses for which the family is eligible among themselves in any way they choose. If there is a tenant on the same property, one member of the tenant family (the tenant or an eligible family member) may also obtain a free any-deer license. Members of the tenant family may divide the free antlerless-deer-only licenses for which they may be eligible among themselves in any way they choose. One member of the landowner family and one member of the tenant family may each obtain one free spring turkey hunting license and one free fall turkey hunting license.

95.2(3) Method of registration. A landowner or tenant may register in one of the following ways:

a. Landowners. Persons who own at least one parcel of qualifying land may register on the Internet through ELSI or by mailing or faxing an affidavit obtained from DNR. The online system is available 24 hours a day, seven days a week. An online registrant may immediately obtain a free license once the registration process is complete. A person who registers through the mail or by fax may have to wait up to ten business days after the form is received by DNR to obtain a free license.

b. Tenants. A person who qualifies as a tenant but does not own any qualifying land may register on the Internet through ELSI or by mailing or faxing an affidavit obtained from DNR. A tenant may have to wait up to ten business days after the affidavit is received by DNR before obtaining a free license.

95.2(4) Information verifying eligibility. In order to register, a landowner, tenant or qualifying family member must have a customer record in ELSI, i.e., have already purchased a license through ELSI. A person without an ELSI customer record must call the ELSI telephone ordering system to establish a customer record before registering. When registering, landowners, tenants and family members will be required to provide their ELSI customer number or their Iowa driver's license number or social security number and their date of birth to identify their ELSI customer record.

a. Landowners. A landowner shall provide the parcel identification number (PIN) from the landowner's current property tax statement for one parcel of qualifying land owned by the landowner and the number of the county where the land is located. Qualifying family members shall be registered to the same parcel of qualifying land as the landowner.

b. Partnerships, corporations or other forms of joint land ownership. Each owner of a jointly owned farm unit and the owner's qualifying family members who wish to receive free licenses for that farm unit shall register with the same county number and PIN. Only one joint owner or family member may obtain the one any-deer license available for the farm unit. The other joint owner(s) and family members may divide any other free licenses to which they are entitled among themselves in any way they choose.

c. Tenants. A tenant shall provide an affidavit that contains the name, address, and telephone number of the owner of the qualifying land rented by the tenant; the county number where the land is located; and the landowner's PIN from one parcel of that qualifying land. If a tenant rents land from more than one landowner, the tenant shall provide the required information about only one landowner. The tenant's qualifying family members shall be registered to the same parcel of qualifying land as the tenant.

d. Signature required. Pursuant to Iowa Code section 483A.24(2)“f,” all affidavits submitted to register eligibility for free licenses shall bear the signature of the landowner, tenant, or family member attesting that the information contained therein is true.

95.2(5) Forms. Instructions and affidavits may be obtained online at www.iowadnr.com, at DNR offices, or by calling (515)281-5918.

95.2(6) Registration expiration and renewal. A registered landowner, tenant, or eligible family member may obtain free licenses as allowed in subrule 95.2(2) provided the registration information and eligibility status remain valid. If the registration information or eligibility status of a registered landowner, tenant, or eligible family member changes, that individual must send by U.S. mail or by fax a DNR affidavit form or contact the DNR by telephone. The DNR will periodically review registration information to verify eligibility status and will inactivate registrations when the registration information fails to indicate eligibility.

95.2(7) Penalties. Free licenses will not be issued to an applicant until a legible and complete affidavit is received by DNR. An illegible or incomplete affidavit will be returned to the applicant for correction. A person who has made a false attestation in obtaining a license in violation of Iowa Code Supplement section 483A.24(2)“f” shall be guilty of a simple misdemeanor and subject to license revocation, as provided in Iowa Code section 483A.21, Iowa Code supplement section 483A.24(2)“f” and 571—subrule 106.8(3).

CHAPTER 98
WILD TURKEY SPRING HUNTING
[Prior to 12/31/86, Conservation Commission[290] Ch 111]

RESIDENT WILD TURKEY SPRING HUNTING

571—98.1(483A) General. Wild turkey may be taken during the spring season subject to the following:

98.1(1) License. When hunting wild turkey, all hunters must have in possession a wild turkey spring hunting license valid for the current year, the unused transportation tag issued with that license, a hunting license, and evidence of having paid the habitat fee (if normally required to have a hunting license and to pay the habitat fee to hunt). No one, while hunting wild turkey, shall carry or have in possession any license or transportation tag issued to another hunter. No one who is issued a wild turkey license and transportation tag shall allow another person to use or possess that license or transportation tag while turkey hunting or tagging a turkey. A hunter having a license valid for one of the spring turkey seasons may accompany, call for, or otherwise assist any other hunter who has a valid turkey hunting license for any of the spring seasons. The hunter who is assisting may not shoot a turkey or carry a firearm or bow unless the hunter has a valid license with an unused tag for the current season.

a. Two types of licenses will be issued.

(1) Combination shotgun-or-archery license. Combination shotgun-or-archery licenses shall be issued by season and shall be valid statewide in the designated season only.

(2) Archery-only license. Archery-only licenses shall be valid statewide and shall be valid during all seasons open for spring turkey hunting, except the youth season.

b. Number of licenses. No one may apply for or obtain more than two paid spring wild turkey hunting licenses. A hunter may obtain no more than two combination shotgun-or-archery licenses, or two archery-only licenses, or one of each. If two paid combination shotgun-or-archery licenses are obtained, at least one must be for season 4. If one paid combination shotgun-or-archery license and one archery-only license are obtained, the combination shotgun-or-archery license must be for season 4.

98.1(2) Daily bag and possession limit. Season possession limit, including daily bag limit, is one bearded (or male) wild turkey per license.

98.1(3) Shooting hours. Shooting hours shall be from one-half hour before sunrise to sunset.

571—98.2(483A) Means and method of take.

98.2(1) Permitted weapons. Wild turkey may be taken in accordance with the type of license issued as follows:

a. Combination shotgun-or-archery license. Wild turkey may be taken by shotgun or muzzleloading shotgun not smaller than caliber .410 and shooting only shot sizes number 4 through 10 lead or nontoxic shot; and by bow and arrow as defined in paragraph 98.2(1)“b.” A person shall not have shotshells containing shot of any size other than number 4 through 10 lead or nontoxic shot on the person while hunting wild turkey.

b. Archery-only license. Except for crossbows for persons with certain afflictions of the upper body, as provided in 571—15.22(481A), only longbow, compound, or recurve bows shooting broadhead arrows are permitted. Blunthead arrows with a minimum diameter of 9/16 inch may also be used. Arrows must be at least 18 inches long. No explosive or chemical devices may be attached to the arrow, broadhead, or blunthead.

98.2(2) Prohibited devices. The use of live decoys, dogs, horses, motorized vehicles, aircraft, bait, crossbows, except as otherwise provided, and the use or aid of recorded or electronically amplified bird calls or sounds, or recorded or electronically amplified imitations of bird calls or sounds are prohibited. Paraplegics and single or double amputees of the legs may hunt from any stationary motor-driven land conveyance. “Paraplegic” means an individual afflicted with paralysis of the lower half of the body with the involvement of both legs, usually due to disease of or injury to the spinal cord. “Bait” means grain, fruit, vegetables, nuts or any other natural food materials; commercial products containing natural food

products; or by-products of such materials transported to or placed in an area for the intent of attracting wildlife.

98.2(3) Zones. A person with a resident wild turkey spring hunting license may take wild turkey statewide.

98.2(4) Seasons. Seasons will be established in accordance with the type of license issued.

a. Combination shotgun-or-archery licenses. Consecutive seasons are 4, 5, 7, and 19 days, respectively, with the first season beginning on the second Monday of April. These seasons shall be designated as seasons 1, 2, 3 and 4, respectively.

b. Archery-only licenses. The season shall be 35 days beginning on the second Monday of April. [ARC 9656B, IAB 8/10/11, effective 9/14/11; ARC 3832C, IAB 6/6/18, effective 7/11/18; ARC 5065C, IAB 7/1/20, effective 8/5/20; ARC 6787C, IAB 1/11/23, effective 2/15/23]

571—98.3(483A) Procedures to obtain licenses. All spring wild turkey hunting licenses will be sold using the electronic licensing system for Iowa (ELSI). Licenses may be purchased through ELSI license agents, by calling the ELSI telephone ordering system, or through the ELSI Internet license sales website.

98.3(1) Spring wild turkey hunting licenses will be sold beginning December 15 through the last day of the season for which the license is valid.

98.3(2) License quotas. There will be no quotas for combination shotgun-or-archery licenses or for archery-only licenses for resident hunters.

98.3(3) Landowner/tenant licenses. An eligible landowner or tenant may obtain a free combination shotgun-or-archery license or a free archery-only license. Nonresident landowners are not eligible for free turkey hunting licenses.

a. Free combination shotgun-or-archery licenses. A free combination shotgun-or-archery license will be issued by season and will be valid only on the farm unit of the landowner or tenant.

b. Free archery-only licenses. A free archery-only license will be valid for all seasons but only on the farm unit of the landowner or tenant.

c. Number of licenses. One paid combination shotgun-or-archery license or one paid archery-only license may be obtained in addition to the free shotgun-or-archery license or the free archery-only license. If a free archery-only license and a paid combination shotgun-or-archery license are obtained, the shotgun-or-archery license must be for season 4. If a free shotgun-or-archery license and a paid shotgun-or-archery license are obtained, one of the licenses must be for season 4.

571—98.4(483A) Transportation tag. Immediately upon the killing of a wild turkey, the transportation tag issued with the license and bearing the license number of the licensee, year of issuance, and date of kill properly shown shall be visibly attached to one leg of the turkey. The hunter who shot the turkey must use the transportation tag issued to that hunter to tag the turkey. No one may tag a turkey with a transportation tag issued to another hunter. The tag must be attached in such a manner that it cannot be removed without mutilating or destroying the tag. The tag must be attached before the carcass can be moved in any manner from the place of kill. The transportation tag shall remain affixed to the leg of the turkey until the turkey is processed for consumption. The leg that bears the tag must be attached to the carcass of any wild turkey being transported within the state during any wild turkey spring hunting season. The tag shall be proof of possession of the carcass by the above-mentioned licensee.

571—98.5(483A) Eligibility for free landowner/tenant turkey licenses.

98.5(1) Who qualifies for a free turkey hunting license.

a. Owners and tenants of a farm unit and the spouse or domestic partner as defined by the Iowa department of administrative services and juvenile child of an owner or tenant who reside with the owner or tenant are eligible for free turkey licenses. The owner or tenant does not have to reside on the farm unit but must be actively engaged in farming it. Nonresident landowners do not qualify.

b. “Juvenile child” means a person less than 18 years of age or a person who is 18 or 19 years of age and is in full-time attendance at an accredited school pursuing a course of study leading to a

high school diploma or a high school equivalency diploma. A person 18 years of age or older who has received a high school diploma or high school equivalency diploma does not qualify.

98.5(2) *Who qualifies as a tenant.* A “tenant” is a person other than the landowner who is actively engaged in the operation of the farm. The tenant may be a member of the landowner’s family, including in some circumstances the landowner’s spouse or child, or a third party who is not a family member. The tenant does not have to reside on the farm unit.

98.5(3) *Definition of “actively engaged in farming.”* Landowners and tenants are “actively engaged in farming” if they personally participate in decisions about farm operations and those decisions, along with external factors such as weather and market prices, determine their profit or loss for the products they produce. Tenants qualify if they farm land owned by another and pay rent in cash or in kind. A farm manager or other third party that operates a farm for a fee or a laborer who works on the farm for a wage and is not a family member does not qualify as a tenant.

98.5(4) *Landowners who qualify as active farmers.* These landowners:

- a. Are the sole operator of a farm unit (along with immediate family members); or
- b. Make all decisions about farm operations, but contract for custom farming or hire labor to do some or all of the work; or
- c. Participate annually in decisions about farm operations such as negotiations with federal farm agencies or negotiations about cropping practices on specific fields that are rented to a tenant; or
- d. Raise specialty crops from operations such as orchards, nurseries, or tree farms that do not necessarily produce annual income but require annual operating decisions about maintenance or improvements; or
- e. May have portions of the farm enrolled in a long-term land retirement program such as the Conservation Reserve Program (CRP) as long as other farm operations occur annually; or
- f. Place their entire cropland in the CRP or other long-term land retirement program with no other active farming operation occurring on the farm.

98.5(5) *Landowners who do not qualify.* These landowners:

- a. Use a farm manager or other third party to operate the farm; or
- b. Cash rent the entire farm to a tenant who is responsible for all farm operations including following preapproved operations plans.

98.5(6) *Where free licenses are valid.* A free license is valid only on the farm unit of the landowner or tenant. “Farm unit” means all parcels of land that are at least two contiguous acres in size, that are operated as a unit for agricultural purposes, and that are under lawful control of the landowner or tenant regardless of how that land is subdivided for business purposes. Individual parcels of land do not need to be adjacent to one another to be included in the farm unit. “Agricultural purposes” includes but is not limited to field crops, livestock, horticultural crops (e.g., from nurseries, orchards, truck farms, or Christmas tree plantations), and land managed for timber production.

98.5(7) *How many free licenses may be obtained.* The maximum number of free licenses for the spring turkey season is two per farm unit, one for the landowner (or family member) and one for the tenant (or family member). If there is no tenant, the landowner’s family may obtain only one license. A tenant or the tenant’s family is entitled to only one free license even if the tenant farms land for more than one landowner.

98.5(8) *Registration of landowners and tenants.* Landowners and tenants and their eligible family members who want to obtain free spring wild turkey hunting licenses must register with DNR before the free licenses will be issued. Procedures for registering are described in 571—95.2(481A).

571—98.6(483A) Youth spring wild turkey hunt.

98.6(1) *Licenses.* A special youth spring wild turkey hunting license valid statewide may be issued to any Iowa resident who is 15 years old or younger on the date the youth purchases the license. The youth license may be paid or free to persons eligible for free licenses. If the youth obtains a free landowner/tenant license, it will count as the one free license for which the youth’s family is eligible. Each participating youth must be accompanied by an adult who possesses a valid wild turkey spring hunting license for one of the seasons and a hunting license, and has paid the habitat fee (if the adult is

normally required to have a hunting license and to pay the habitat fee to hunt). The accompanying adult must not possess a firearm or bow and must be in the direct company of the youth at all times. A person may obtain only one youth turkey hunting license but may also obtain one archery-only license or one combination shotgun-or-archery license for season 4.

98.6(2) *Youth season dates.* The youth turkey hunting license shall be valid during the three days immediately before the first turkey season. A person who is issued a youth spring wild turkey hunting license and does not take a wild turkey during the youth spring wild turkey hunting season may use the wild turkey hunting license and unused tag during any remaining spring wild turkey hunting season in the year in which the youth license was issued.

98.6(3) *Limits and license quotas.* An unlimited number of licenses may be issued. The daily and season bag and possession limit is one bearded (or male) wild turkey.

98.6(4) *Method of take and other regulations.* Wild turkeys may be taken with shotguns, muzzleloaded shotguns or bows as described in 571—98.2(483A). All other spring wild turkey hunting regulations for residents shall apply.

98.6(5) *Procedures for obtaining licenses.* Paid and free youth season licenses may be obtained through ELSI beginning December 15 through the last day of the youth season.

NONRESIDENT WILD TURKEY SPRING HUNTING

571—98.9(483A) General. Wild turkey may be taken during the spring season subject to the following:

98.9(1) *License.* When hunting wild turkey, all hunters must have in possession a valid nonresident wild turkey spring hunting license, the unused transportation tag issued with that license, a valid nonresident hunting license, and proof of having paid the current year's habitat fee. No one, while hunting turkey, shall carry or have in possession any license or transportation tag issued to another hunter. No one who is issued a wild turkey license and transportation tag shall allow another person to possess that license or transportation tag while turkey hunting or tagging a turkey. Licenses will be issued by zone and season and will be valid in the designated zone and season only. No one shall obtain more than one nonresident wild turkey spring hunting license. A hunter having a license valid for one of the spring turkey seasons may accompany, call for, or otherwise assist any other hunter who has a valid turkey hunting license in that season and zone. The hunter who is providing assistance may not shoot a turkey or carry a firearm or bow unless that hunter has a valid license and an unused tag for the current season and zone. Two types of licenses will be issued:

a. Combination shotgun-or-archery license. Shotguns, muzzleloading shotguns and archery equipment as defined in subrule 98.12(1) may be used.

b. Muzzleloading shotgun-only license. Only muzzleloading shotguns as defined in subrule 98.12(1) may be used.

98.9(2) *Seasons.* Bearded (or male) wild turkey may be taken only by the use of shotguns, muzzleloading shotguns, and bow and arrow during the first, second, third or fourth seasons as defined in 98.2(4) "a."

98.9(3) *Daily bag, possession and season limits.* The daily bag limit is one bearded (or male) wild turkey; the possession and season limit is one bearded (or male) wild turkey.

98.9(4) *Shooting hours.* Shooting hours shall be from one-half hour before sunrise to sunset each day.

98.9(5) *Special licenses.* The commission shall issue licenses in conformance with Iowa Code section 483A.24(12) to nonresidents 21 years of age or younger who have a severe physical disability or who have been diagnosed with a terminal illness. A person applying for this license must provide a completed form obtained from the department of natural resources. The application shall be certified

by the applicant's attending physician with an original signature and declare that the applicant has a severe physical disability or a terminal illness using the criteria listed in 571—Chapter 15. A medical statement from the applicant's attending physician that specifies criteria met shall be on 8½" × 11" letterhead stationery. The attending physician shall be a currently practicing doctor of medicine, doctor of osteopathy, physician assistant or nurse practitioner.

[ARC 8253B, IAB 11/4/09, effective 12/9/09; ARC 3832C, IAB 6/6/18, effective 7/11/18]

571—98.10(483A) Zones open to hunting. Licenses shall be valid only in designated areas as follows:

1. Zone 4. Zone 4 is that portion of Iowa bounded on the north by Interstate Highway 80 and on the west by U.S. Highway 59.
2. Zone 5. Zone 5 is that portion of Iowa bounded on the north by U.S. Highway 20 and on the east by U.S. Highway 59.
3. Zone 6. Zone 6 is that portion of Iowa lying east of U.S. Highway 63 and north of Interstate Highway 80.
4. Zone 7. Zone 7 is that portion of Iowa bounded on the north by U.S. Highway 20, on the west by U.S. Highway 59, on the south by Interstate Highway 80, and on the east by U.S. Highway 63.
5. Zone 8. Zone 8 is that portion of Iowa north of U.S. Highway 20 and west of U.S. Highway 63.

571—98.11(483A) License quotas. A limited number of wild turkey hunting licenses will be issued in each zone in each season as follows:

98.11(1) Combination shotgun-or-archery licenses.

- a. Zone 4. 262.
- b. Zone 5. 55.
- c. Zone 6. 165.
- d. Zone 7. 35.
- e. Zone 8. 20.

98.11(2) Muzzleloading shotgun-only licenses. 150 statewide. A hunter purchasing a muzzleloading shotgun license must declare a zone and season and hunt only in that zone and season.

571—98.12(483A) Means and method of take.

98.12(1) Permitted weapons. Wild turkey may be taken only with shotguns and muzzleloading shotguns not smaller than caliber .410 and shooting only shot sizes number 4 through 10 lead or nontoxic shot. No person may have shotshells containing shot of any size other than number 4 through 10 lead or nontoxic shot on the person while hunting wild turkey. Except for crossbows for persons with certain afflictions of the upper body, as provided in 571—15.22(481A), only longbow, compound, or recurve bows shooting broadhead arrows are permitted. Blunthead arrows with a minimum diameter of 9/16 inch may also be used. Arrows must be at least 18 inches long. No explosive or chemical devices may be attached to the arrow, broadhead, or blunthead.

98.12(2) Prohibited devices. The use of live decoys, dogs, horses, motorized vehicles, aircraft, bait, crossbows, except as otherwise provided, and the use or aid of recorded or electronically amplified bird calls or sounds, or recorded or electronically amplified imitations of bird calls or sounds are prohibited, except that paraplegics and single or double amputees of the legs may hunt from any stationary motor-driven land conveyance. "Paraplegic" means an individual afflicted with paralysis of the lower half of the body with the involvement of both legs, usually due to disease of or injury to the spinal cord. "Bait" means grain, fruit, vegetables, nuts or any other natural food materials; commercial products containing natural food materials; or by-products of such materials transported to or placed in an area for the intent of attracting wildlife.

[ARC 3832C, IAB 6/6/18, effective 7/11/18; ARC 6787C, IAB 1/11/23, effective 2/15/23]

571—98.13(483A) Application procedure. Applications for nonresident wild turkey spring hunting licenses must be made through the electronic licensing system for Iowa (ELSI) telephone ordering system or the ELSI Internet license sales website. Applications will be accepted from December 15 through the last Sunday in January. No one may submit more than one application during the application period.

If applications have been sold in excess of the license quota for any license type, zone, or season, a drawing will be held to determine which applicants receive licenses. Licenses or refunds of license fees will be mailed to applicants after the drawing is completed. License agent writing fees, department administrative fees, Internet sales charges and telephone order charges will not be refunded. If any license quota has not been filled, the excess licenses will be sold first-come, first-served through the telephone ordering system or the Internet license sales website beginning at 6 a.m. the second Saturday after the close of the application period until the quota has been filled or the last day of the season for which the license is valid, whichever occurs first. No one may obtain more than one nonresident wild turkey spring hunting license. Hunters may apply individually or as a group of up to 15 applicants. All members of a group will be accepted or rejected as a group in the drawing. If a group is rejected, members of that group may purchase licenses individually if excess licenses are available.

Each individual applicant who is unsuccessful in the drawing will be assigned one preference point for each year in which the individual applies and is unsuccessful. If a person who was unsuccessful in the drawing purchases a leftover license within four weeks, the person will receive a refund for the cost of the preference point. Preference points will not accrue in a year in which an applicant fails to apply, but the applicant will retain any preference points previously earned. Once an applicant receives a license, all preference points will be erased. Preference points will apply to any zone or season for which a hunter applies. The first license drawing each year will be made from the pool of applicants with the most preference points. If licenses are still available after the first drawing, subsequent drawings will be made from pools of applicants with successively fewer preference points and continue until the license quota is reached or all applicants have received licenses. Applicants who apply as a group will be included in a pool of applicants with the same number of preference points as that of the member of the group with the fewest preference points assigned.

[ARC 9656B, IAB 8/10/11, effective 9/14/11]

571—98.14(483A) Transportation tag. Immediately upon the killing of a wild turkey, the transportation tag issued with the license and bearing the license number of the licensee, year of issuance, and date of kill properly shown shall be visibly attached to one leg of the turkey. The hunter who shot the turkey must use the transportation tag issued to that hunter to tag the turkey. No one may tag a turkey with a transportation tag issued to another hunter. The tag must be attached in such a manner that it cannot be removed without mutilating or destroying the tag. The tag must be attached before the carcass can be moved in any manner from the place of kill. The transportation tag shall remain affixed to the leg of the turkey until the turkey is processed for consumption. The leg that bears the tag must be attached to the carcass of any wild turkey being transported within the state during any wild turkey spring hunting season. The tag shall be proof of possession of the carcass by the above-mentioned licensee.

571—98.15(481A) Harvest reporting. Each hunter who bags a turkey must report that kill according to procedures described in 571—95.1(481A).

These rules are intended to implement Iowa Code sections 481A.38, 481A.39, 481A.48, 483A.1, 483A.7 and 483A.24.

When hunting wild turkey, all hunters must have in possession a fall wild turkey hunting license valid for the current year, the unused transportation tag issued with that license, a hunting license, and evidence of having paid the habitat fee (if normally required to have a hunting license and to pay the habitat fee to hunt). No person shall carry or have in possession a fall wild turkey hunting license or transportation tag issued to another person while hunting wild turkey. No one who is issued a wild turkey hunting license and transportation tag shall allow another person to use or possess that license or transportation tag while turkey hunting or tagging a turkey. Licenses for the fall turkey season will only be issued to Iowa residents except as specified in subrule 99.2(4).

[ARC 8254B, IAB 11/4/09, effective 12/9/09]

99.2(4) Special licenses. The commission shall issue licenses in conformance with Iowa Code section 483A.24(12) to nonresidents 21 years of age or younger who have a severe physical disability or who have been diagnosed with a terminal illness. A person applying for this license must provide a completed form obtained from the department of natural resources. The application shall be certified by the applicant's attending physician with an original signature and declare that the applicant has a severe physical disability or a terminal illness using the criteria listed in 571—Chapter 15. A medical statement from the applicant's attending physician that specifies criteria met shall be on 8½" × 11" letterhead stationery. The attending physician shall be a currently practicing doctor of medicine, doctor of osteopathy, physician assistant or nurse practitioner.

571—99.9(481A) Procedures to obtain licenses. All paid and free resident fall turkey hunting licenses must be obtained using the electronic licensing system for Iowa (ELSI). Licenses may be purchased from ELSI license agents or by calling the ELSI telephone ordering system.

99.9(1) Licenses with quotas. All paid turkey hunting licenses for which a quota is established may be obtained from ELSI agents on a first-come, first-served basis beginning August 15 until the quota fills, or through the last day of the hunting period for which the license is valid.

99.9(2) Licenses without quotas. All paid and free turkey hunting licenses that have no quota may be obtained from ELSI agents beginning August 15 through the last day of the hunting period for which a license is valid.

99.9(3) Providing false information. If anyone provides false information when obtaining any fall turkey hunting license, that license and transportation tag and any other fall turkey hunting license and transportation tag obtained during the same year shall be invalid.

571—99.10(481A) Transportation tag. Immediately upon the killing of a wild turkey, the transportation tag issued with the license and bearing the license number of the licensee, year of issuance, and date of kill properly shown shall be visibly attached to one leg of the turkey. The hunter who shot the turkey must use the transportation tag issued to that hunter to tag the turkey. No one may tag a turkey with a transportation tag issued to another hunter. The tag must be attached in such a manner that it cannot be removed without mutilating or destroying the tag. The tag must be attached before the carcass can be moved in any manner from the place of kill. The transportation tag shall remain affixed to the leg of the turkey until the turkey is processed for consumption. The leg that bears the tag must be attached to the carcass of any wild turkey being transported within the state during any wild turkey hunting season. The tag shall be proof of possession of the carcass by the above-mentioned licensee.

571—99.11(481A) Eligibility for free landowner/tenant turkey licenses.

99.11(1) Who qualifies for free turkey hunting license.

a. Owners and tenants of a farm unit and the spouse or domestic partner as defined by the Iowa department of administrative services and juvenile child of an owner or tenant who reside with the owner or tenant are eligible for free turkey licenses. The owner or tenant does not have to reside on the farm unit but must be actively engaged in farming it. Nonresident landowners do not qualify.

b. “Juvenile child” means a person less than 18 years of age or a person who is 18 or 19 years of age and is in full-time attendance at an accredited school pursuing a course of study leading to a high school diploma or a high school equivalency diploma. A person 18 years of age or older who has received a high school diploma or high school equivalency diploma does not qualify.

99.11(2) Who qualifies as a tenant. A “tenant” is a person other than the landowner who is actively engaged in the operation of the farm. The tenant may be a member of the landowner’s family, including in some circumstances the landowner’s spouse or child, or a third party who is not a family member. The tenant does not have to reside on the farm unit.

99.11(3) What “actively engaged in farming” means. Landowners and tenants are “actively engaged in farming” if they personally participate in decisions about farm operations and those decisions, along with external factors such as weather and market prices, determine their profit or loss for the products they produce. Tenants qualify if they farm land owned by another and pay rent in cash or in kind. A farm manager or other third party who operates a farm for a fee or a laborer who works on the farm for a wage and is not a family member does not qualify as a tenant.

99.11(4) Landowners who qualify as active farmers. These landowners:

- a.* Are the sole operator of a farm unit (along with immediate family members), or
- b.* Make all decisions about farm operations, but contract for custom farming or hire labor to do some or all of the work, or
- c.* Participate annually in decisions about farm operations such as negotiations with federal farm agencies or negotiations about cropping practices on specific fields that are rented to a tenant, or
- d.* Raise specialty crops from operations such as orchards, nurseries, or tree farms that do not necessarily produce annual income but require annual operating decisions about maintenance or improvements, or
- e.* May have portions of the farm enrolled in a long-term land retirement program such as the Conservation Reserve Program (CRP) as long as other farm operations occur annually, or
- f.* Place their entire cropland in the CRP or other long-term land retirement program with no other active farming operation occurring on the farm.

99.11(5) *Landowners who do not qualify.* These landowners:

- a. Use a farm manager or other third party to operate the farm, or
- b. Cash rent the entire farm to a tenant who is responsible for all farm operations including following preapproved operations plans.

99.11(6) *Where free licenses are valid.* A free license is valid only on the farm unit of the landowner or tenant. “Farm unit” means all parcels of land that are at least two contiguous acres in size, that are operated as a unit for agricultural purposes, and that are under lawful control of the landowner or tenant regardless of how that land is subdivided for business purposes. Individual parcels of land do not need to be adjacent to one another to be included in the farm unit. “Agricultural purposes” includes but is not limited to field crops, livestock, horticultural crops (e.g., nurseries, orchards, truck farms, or Christmas tree plantations), and land managed for timber production.

99.11(7) *How many free licenses may be obtained.* The maximum number of free licenses for the fall turkey season is two per farm unit, one for the landowner (or family member) and one for the tenant (or family member). If there is no tenant, the landowner’s family may obtain only one license. A tenant or the tenant’s family is entitled to only one free license even if the tenant farms land for more than one landowner.

99.11(8) *Registration of landowners and tenants.* Landowners and tenants and their eligible family members who want to obtain free fall wild turkey hunting licenses must register with DNR before the free licenses will be issued. Procedures for registering are described in 571—95.2(481A).

571—99.12(481A) Harvest reporting. Each hunter who bags a turkey must report that kill according to procedures described in 571—95.1(481A).

These rules are intended to implement Iowa Code sections 481A.38, 481A.39, 481A.48, 483A.7 and 483A.24.

[Prior to 12/31/86, Conservation Commission [290] Ch 101]

571—100.1(481A) Crow season. Open season for hunting crows shall be from October 15 through November 30 and January 14 through March 31 of each year. No bag or possession limit. Entire state open.

571—100.2(481A) Pigeons.

CHAPTER 101
FALCONRY REGULATIONS
[Prior to 12/31/86, Conservation Commission[290] Ch 18]

571—101.1(481A) Falconry regulations. No person may take, transport, or possess any raptor without having first obtained a valid state/federal falconer's permit. Falconry permit holders shall comply with the department's rules and with the current Code of Federal Regulations pertaining to falconry. Only the following raptors may be taken from the wild: American kestrel, Cooper's hawk, Ferruginous hawk, Northern goshawk, Great horned owl, Gyrfalcon, Harris's hawk, Merlin, Peregrine falcon, Prairie falcon, Red-tailed hawk, Rough-legged hawk, and Sharp-shinned hawk. Raptors taken from the wild shall not be sold, bartered or traded. All wild raptors legally trapped or taken by a resident or nonresident falconer must be marked with an Iowa marker band provided by the department.

101.1(1) A falconry permit allows for the purchase, capture, possession and use of designated legal raptors in hunting, subject to state regulations.

101.1(2) A falconry permit may be issued to any person 14 years of age or older who has successfully passed a written examination provided by the department and approved by the U.S. Department of the Interior covering basic biology, care and handling of raptors, laws, regulations or other appropriate subject matter, with a minimum score of 80 percent, and who has satisfied the minimum requirements for keeping raptors as determined by inspection of the applicant's facilities. In the event an individual fails the examination, this individual may reapply.

101.1(3) There shall be three classes of falconer permits as follows:

a. Apprentice falconer.

(1) An applicant shall be at least 14 years old and shall have a sponsor who is a holder of a general or master falconry permit and who has at least two years of active experience as a general falconer. A qualifying sponsor must submit a signed letter to the department in which the sponsor agrees to assist and mentor the apprentice falconer for the duration of the apprenticeship. A sponsor may have no more than two apprentices at any one time.

(2) Apprentice permit holders shall not possess more than one raptor and may not obtain more than one raptor for replacement during any 12-month period. Apprentice permit holders shall possess only a red-tailed hawk (*Buteo jamaicensis*). Apprentice permit holders shall be restricted from taking nestling or fledgling birds.

(3) A sponsor has the right to withdraw sponsorship at any time and, upon withdrawal, must submit a signed letter to the department requesting withdrawal of sponsorship. If an apprentice falconer fails to successfully complete the required two-year apprenticeship, the red-tailed hawk shall be transferred to the sponsor of record. The sponsor will be required to properly care for the bird until it is transferred to another falconer or hatched back into the wild.

(4) Upon completion of the apprenticeship requirements, the apprentice's sponsor must submit a signed letter of endorsement confirming that the apprentice has satisfied the terms and conditions of the apprenticeship as required by these rules and approved by the department and the Iowa Falconers Association (IFA) Apprenticeship Guideline Manual.

b. General falconer. An applicant shall be at least 18 years old. An applicant shall have at least two years of field experience in the practice of falconry at the apprentice level or its equivalent; the mere keeping of raptors shall not count as field experience and is strongly discouraged. General permit holders shall not possess more than three raptors and may not take more than one raptor for a replacement bird from the wild during any 12-month period. Licensed general class falconers may purchase properly marked captive-bred raptors only from federally licensed raptor propagators.

c. Master falconer. An applicant shall have at least five years of field experience in the practice of falconry at the general level or its equivalent. The keeping of raptors without actively hunting the bird(s) shall not be considered field experience. A master falconer shall possess no more than five raptors at any one time and be permitted to take no more than two replacement birds from the wild in any 12-month period. Master class falconers may purchase properly marked captive-bred raptors only from federally licensed raptor propagators.

101.1(4) Falconry permits are \$61.50, are valid for a three-year period, and are nontransferable. Permits shall expire June 30 of the third year after issuance. Permits may be renewed without examination following the falconer's submission of an annual report of birds possessed during the previous year and provided that the department of natural resources is satisfied as to the competency of the applicant whose permit has expired.

101.1(5) A federal raptor propagation permit is required before any raptor propagator may take, possess, transport, sell, purchase, barter, or transfer any captive-bred raptor, raptor egg, or raptor semen for propagation or sale purposes.

This rule is intended to implement Iowa Code section 481A.48 and conforms to the federal regulations promulgated under the "Migratory Bird Treaty Act."

[ARC 9189B, IAB 11/3/10, effective 12/8/10; ARC 3798C, IAB 5/9/18, effective 6/13/18]

571—101.2(481A) Facilities and equipment. Before any individual shall be issued a falconry permit, the applicant's raptor housing facilities and falconry equipment shall be inspected and certified by a representative of the department of natural resources as meeting the following standards:

101.2(1) Facilities. The primary consideration for raptor housing facilities, whether indoors (mews) or outdoors (weathering area), is protection from the environment, predators or undue disturbance. Depending upon climatic conditions, the applicant shall have either or both of the following facilities:

a. Indoor facilities. Indoor facilities (mews) shall be a minimum of 6 feet high, with a floor area at least 6 feet square for each bird. If more than one raptor is to be kept in the mews, the raptors shall be tethered or separated by partitions. There shall be at least one window, protected on the inside by vertical bars spaced narrower than the width of the bird's body and a door that can be easily closed and secured. The floor of the mews shall permit easy cleaning. Falcons are to be kept on perches with a flat perching surface while accipiters, buteos and eagles are to be kept on perches that have a perching surface round in cross section and all perches should provide a good grasping surface satisfactory to the bird in possession.

b. Indoor facilities—exception. An exception may be allowed from the standard size requirements listed in 101.2(1) "a" to General and Master Class permittees only for housing the smaller species of raptors; however, the facilities shall be large enough to allow the bird to fully extend its wings without touching the walls of the mew.

c. Outdoor facilities. Outdoor facilities (weathering area) shall be fenced and covered with netting or wire, or roofed to protect the birds from disturbance and attack by predators. The enclosed area shall be large enough to ensure the birds cannot strike the fence when flying from the perch. Protection from excessive sun, wind, and inclement weather shall be provided for each bird. Adequate perches shall be provided.

101.2(2) Equipment. The following items shall be in the possession of the applicant before the applicant can obtain a permit.

a. Jesses. At least one pair of Alymeri jesses or similar-type jesses constructed of pliable, high-quality leather or suitable synthetic material to be used when any raptor is flown free. (Traditional one-piece jesses may be used on raptors when the raptors are not being flown.)

b. Leashes and swivels. At least one flexible, weather-resistant leash and one strong swivel of acceptable falconry design.

c. Bath container. At least one suitable container, 2 to 6 inches deep and wider than the length of the raptor, for drinking and bathing for each raptor.

d. Outdoor perches. At least one weathering area perch of an acceptable design shall be provided for each raptor.

e. Weighing device. A working scale or balance suitable for weighing the raptor(s) held and graduated to increments of not more than two-tenths of an ounce, or five grams, shall be provided by the falconer.

f. Maintenance and inspection. All facilities and equipment shall be kept at or above the preceding standards at all times and shall be available for inspection by representatives of the department of natural resources at all reasonable hours.

g. Transportation—temporary holding. A raptor may be transported or held in temporary facilities which shall be provided with an adequate perch and protected from extreme temperatures and excessive disturbance for a period not to exceed 30 days.

[ARC 9189B, IAB 11/3/10, effective 12/8/10]

571—101.3(481A) Taking and possession provision. The taking of American kestrel, Cooper's hawk, Ferruginous hawk, Northern goshawk, Great horned owl, Gyrfalcon, Harris's hawk, Merlin, Prairie falcon, Red-tailed hawk, Rough-legged hawk, and Sharp-shinned hawk from the wild by resident falconers shall be limited to the following conditions:

101.3(1) Nestling birds may be taken only by general class or master class permit holders.

101.3(2) Young birds not yet capable of flight may be taken at any time following hatch by a general class or master class falconer. The falconer may take no more than two nestlings, and at least one nestling shall be left in any nest from which a nestling is taken. The taking of nestlings and branchers is permitted only between April 1 and July 31. Removal of eggs from nests is prohibited.

101.3(3) First year (passage) birds shall be taken only from August 1 through March 31.

101.3(4) Only American kestrels (*Falco sparverius*) and great horned owls (*Bubo virginianus*) may be taken when over one year old; however, the permissible period for taking shall be no different than that prescribed for passage birds of all other legal species.

101.3(5) No permittee shall employ any method of taking raptors which is injurious to the bird.

101.3(6) Any species except endangered or threatened species or exotic birds, the import of which has been banned by the international convention, federal regulation or the department of natural resources, may be possessed and used for falconry provided the license holder can provide evidence that the bird was legally acquired. No one may import a raptor into Iowa or export a raptor out of Iowa for a period greater than 30 days without having first obtained written permission of the department of natural resources.

101.3(7) Recapture. Banded raptors that are lost to the wild through accident may be retrapped provided that the department of natural resources has been advised of the loss and is notified of the attempt to recapture. If the banded raptor is recaptured, the department of natural resources shall be notified of the recovery within 48 hours.

101.3(8) Previously banded birds. Any raptor captured with a federal leg band or any research band already attached shall be immediately released at the site of capture, and the band number and location of trapping site shall be reported to the department within 48 hours.

101.3(9) Nonresident raptor trapping. A permit may be issued upon application by a nonresident for the purpose of taking a raptor in Iowa, provided that the applicant's resident state is listed in Paragraph (K), Subpart C, Part 21-29, Chapter 1, of Title 50, Code of Federal Regulations, as a participating state, and the applicant's resident state provides for the taking of raptors by nonresidents. Nonresidents shall submit a photocopy of a valid state or federal falconry permit. Nonresident raptor trapping permits shall be issued only in the general class or master class.

a. Trapping provisions. Trapping of raptors in Iowa by permitted nonresident falconers shall be limited to the legal species listed in these rules.

b. Marking requirements. Raptors legally trapped by nonresidents must be marked with an Iowa marker band provided by the department. No raptor shall be transported from Iowa without first having had the Iowa marker band attached. Permittees may, with written permission from the department, provide their own marker band issued by their state of residency. Permittees who provide their own marker band shall place the band on the raptor immediately upon capture and must notify the department within five days of the capture and of the corresponding marker band number.

c. Fees. Fees for nonresident raptor trapping applications shall be reciprocal to the fee charged by the applicant's resident state. If the applicant's resident state does not provide for a nonresident raptor trapping fee, then the Iowa nonresident raptor trapping application fee shall be \$100.

d. Restrictions. Nonresident falconers may apply for one raptor trapping permit per trapping season. All nonresident raptor trapping permits shall be valid for a period not to exceed 60 consecutive days, beginning on the date of issuance. No nestlings or raptor eggs may be taken. First year (passage)

birds may be taken only from September 1 through January 31. The nonresident raptor trapping permit shall be valid for only one raptor of the species designated on the permit. The raptor trapping permit shall be carried by the permittee while in the act of trapping and the transportation of any subsequently trapped raptor.

[ARC 9189B, IAB 11/3/10, effective 12/8/10; ARC 3798C, IAB 5/9/18, effective 6/13/18]

571—101.4(481A) Wild Peregrine falcons. A wild Peregrine falcon permit allows for the capture, possession and use of a wild Peregrine falcon in hunting, subject to 571—Chapter 102. In addition to the following provisions, the holder of a wild Peregrine falcon permit shall comply with 571—101.1(481A), 571—101.2(481A), and 571—101.5(481A) through 571—101.7(481A) as well as other applicable law.

101.4(1) The taking of Peregrine falcons from the wild shall be conducted only by resident master falconers or resident general falconers with at least five consecutive years of field experience in the years immediately preceding the filing of an application as described in 101.4(4) and subject to the following conditions:

a. Nestling birds shall not be taken. Young birds not yet capable of flight shall not be taken. Removal of eggs from nests is prohibited.

b. Only wild Peregrine falcons less than one year old shall be taken, and only between September 20 and October 20.

c. No permittee shall employ any method of take that is injurious to the bird.

d. No more than one wild Peregrine falcon per person may be possessed at any given time.

101.4(2) Recapture. Banded Peregrine falcons that are lost to the wild through accident may be retrapped at any time provided that the department has been advised of the loss and is notified of the attempt to recapture. If the banded raptor is recaptured, the department shall be notified of the recovery within 48 hours.

101.4(3) Previously banded Peregrines. Any wild Peregrine falcon captured with a federal leg band or any research band already attached shall be immediately released at the site of capture, and the band number and location of trapping site shall be reported to the department within 48 hours.

101.4(4) Lottery. Applications for wild Peregrine falcon permits shall be received by the department no later than July 31 of each year. Permit drawing from the names of qualifying applicants will be held at the August commission meeting.

[ARC 3798C, IAB 5/9/18, effective 6/13/18]

571—101.5(481A) Annual reports. Each holder of a falconer's permit shall submit an annual report to the department of natural resources by July 31 of each year. This report shall list all raptors in possession on the preceding thirtieth day of June and any raptor held during the year by species, sex (if known), age (if known), date acquired and where or from whom acquired, and whether the raptor escaped, died, was recaptured, or was released during this time period and the date on which the event occurred.

[ARC 9189B, IAB 11/3/10, effective 12/8/10; ARC 3798C, IAB 5/9/18, effective 6/13/18]

571—101.6(481A) Other provisions.

101.6(1) Any raptor captured with a research radio transmitter attached must be reported to the department within five days, and the raptor shall be released immediately.

101.6(2) No permittee may take, purchase, receive or otherwise acquire, sell, barter, transfer, or otherwise dispose of any raptor unless such permittee submits federal Form 3-186A (Migratory Bird Acquisition/Disposition Report), completed in accordance with the instructions on the form, to the issuing regional fish and wildlife service office within five days of such transaction. A falconry permittee shall notify the department of natural resources in writing of the death, replacement, loss, release or temporary transfer or other such change in the status of the permittee's raptors within five days of such occurrence. Written authorization shall be obtained from the department of natural resources before a replacement raptor may be secured. Each dead raptor shall be surrendered to the department of natural resources or disposed of at the department's direction. Primary, secondary, and tail feathers may be retained and exchanged from these birds to imp or repair broken feathers.

101.6(3) Raptor exportation and importation permits may be issued to resident and nonresident falconers licensed to practice falconry in other states. Such permits shall be issued only when the export or import term will exceed 30 days. In the case of exportation or importation terms of less than 30 days, the permittee shall have in possession a photocopy of raptor possession documentation (Form 3-186A) and a photocopy of a valid state or federal falconry permit. Persons wishing to participate in hunting will be required to possess appropriate hunting licenses or permits.

The marker band from an intentionally released raptor which is indigenous to the state shall also be removed and surrendered to the department of natural resources. A standard federal bird band shall be attached to such raptors by the state or a service-authorized federal bird bander whenever possible. A falconer shall not permanently release a captive-bred raptor to the wild.

101.6(5) A raptor possessed under a state or federal falconry permit may be temporarily held by a person other than the permittee only if that person is otherwise authorized to possess raptors and only if the raptor is accompanied at all times by the properly completed Form 3-186A (Migratory Bird Acquisition/Disposition Report) designating the permittee as the possessor of record and by a signed, dated statement from the permittee authorizing the temporary possession.

101.6(6) A general or master falconer may charge a fee for presentation of a raptor education program to the public. The fee cannot exceed the amount required to cover the falconer's expenses.

101.6(7) When a hybrid or exotic falconry bird is flown free, it must be fitted with two working radio telemetry transmitters.

A person who keeps captive cervids in this state may enroll the herd in the cervid CWD surveillance identification (CCWDSI) program under this rule. A person shall not move a live captive cervid from a herd in this state unless the herd is enrolled in the CCWDSI program under this rule. To enroll a herd in the CCWDSI program under this rule, a person shall complete and submit a form as provided by the department. No person may enroll a herd in this program prior to October 15, 2002. All animals enrolled in this program must be identified as prescribed in 104.4(481A).

571—104.4(481A) Identification of animals. Beginning May 1, 2003, each captive cervid must be identified with two individual permanent identifications that are unique identifying numbers or marks and that can be a combination of any two of the following: ear tag, tattoo, microchip or other permanent identifier approved by the department in writing. Tags or marks shall be used to identify the herd premises and uniquely identify the individual animal. Licensed hunting preserves are exempt from this requirement except in regard to those cervids purchased or otherwise acquired after October 15, 2002.

571—104.5(481A) Supervision of the CCWDSI program. The department will conduct an annual inventory of Cervidae in a herd enrolled in the CCWDSI program.

104.6(1) Slaughter establishments. All slaughtered Cervidae over six months of age must have brain tissue and other appropriate tissues submitted at slaughter and examined for CWD by an approved laboratory. These tissue samples will be obtained by the department or accredited veterinarian on the premises at the time of slaughter.

104.6(2) Cervid herds. All cervid herds must be under continuous surveillance for CWD as defined in the CCWDSI program.

1. Histopathology.
2. Immunohistochemistry.
3. Western blot.
4. Negative stain electron microscopy.

571—104.8(481A) Investigation of CWD affected animals identified through surveillance. Trace back must be performed for all animals diagnosed at an approved laboratory as affected with CWD. All herds of origin and all adjacent herds having contact with affected animals as determined by the CCWDSI program must be investigated epidemiologically. All herds of origin, adjacent herds, and herds having contact with affected animals or exposed animals must be quarantined.

571—104.9(481A) Duration of quarantine. Quarantines placed in accordance with these rules shall be removed as follows:

1. For herds of origin, quarantines shall be removed after five years of compliance with rules 571—104.2(481A) through 571—104.22(481A).
2. For herds having contact with affected or exposed animals, quarantines shall be removed after five years of compliance with rules 571—104.2(481A) through 571—104.22(481A).
3. For adjacent herds, quarantines shall be removed as directed by the department in consultation with a designated epidemiologist.

571—104.10(481A) Herd plan. The herd owner, the owner's veterinarian, if requested, and a designated epidemiologist shall develop a plan for eradicating CWD in each affected herd. The plan must be designed to reduce and then eliminate CWD from the herd, to prevent spread of the disease to other herds, and to prevent reintroduction of CWD after the herd becomes a certified CWD cervid herd. The herd plan must be developed and signed within 60 days after the determination that the herd is affected. The plan must address herd management and adhere to rules 571—104.2(481A) through 571—104.22(481A). The plan must be formalized as a memorandum of agreement between the owner and program officials, must be approved by the department, and must include plans to obtain certified CWD cervid herd status.

571—104.11(481A) Identification and disposal requirements. Affected and exposed animals must remain on the premises where they are found until they are identified and disposed of in accordance with this rule.

104.11(1) The carcasses of affected or exposed animals may be disposed of at a permitted sanitary disposal project, incinerated in a department-approved incinerator, or buried on the premises. Appropriate disposal method(s) will be determined by the department. If burial is the approved method, it must be done in accordance with all of the following:

- a. A maximum loading rate of 20 Cervidae per acre per year may be buried on the premises. Animals or parts thereof that are less than 40 pounds may be buried without regard to number.
- b. The animals are buried in soils listed in tables contained in the county soil surveys and soil interpretation records (published by the Natural Resources Conservation Service) as being moderately well drained, well drained, somewhat excessively well drained, or excessively drained.
- c. The lowest elevation of the burial pit is 6 feet or less below the surface.
- d. The animals are immediately covered with a minimum of 6 inches of soil and finally covered with a total minimum of 30 inches of soil.

104.11(2) In addition to the disposal methods listed in 104.11(1), the Cervidae carcasses, or portions thereof, which come into the possession of the department for the purpose of disease testing or for any other reason may be disposed of by burial on public property under the jurisdiction of the department provided that burial is done in accordance with 104.11(1) "a" through "d" and the location of burial is situated to minimize the impact on public use of the property.

571—104.12(481A) Cleaning and disinfecting. Premises must be cleaned and disinfected under department supervision within 15 days after affected animals have been removed.

571—104.13(481A) Methods for obtaining certified CWD cervid herd status. Certified CWD cervid herd status must include all Cervidae under common ownership. They cannot be commingled with other cervids that are not certified, and a minimum geographic separation of 30 feet between herds of different status must be maintained in accordance with the USDA Uniform Methods and Rules as defined in APHIS manual 91-45-011, revised as of January 22, 1999. A herd owner may qualify a herd for status as a certified CWD cervid herd by one of the following means:

104.13(1) Purchasing a certified CWD cervid herd. Upon request and with proof of purchase, the department shall issue a new certificate in the new owner's name. The anniversary date and herd status for the purchased animals shall be the same as for the herd to which the animals are added; or if part or all of the purchased herd is moved directly to premises that have no other Cervidae, the herd may retain the certified CWD status of the herd of origin. The anniversary date of the new herd is the date of the most recent herd certification status certificate.

104.13(2) *Complying with the CCWDSI program.* Upon request and with proof by records, a herd owner shall be issued a certified CWD cervid herd certificate by complying with the CCWDSI program for a period of five years.

571—104.14(481A) Recertification of CWD cervid herds. A herd is certified for 12 months. Annual inventories conducted by the department are required every 9 to 15 months from the anniversary date. For continuous certification, adherence to the provisions in these rules and all other state laws and rules pertaining to raising cervids is required. A herd's certification status is immediately terminated and a herd investigation shall be initiated if CWD affected or exposed animals are determined to originate from that herd.

571—104.15(481A) Movement into a certified CWD cervid herd.

104.15(1) Animals originating from certified CWD cervid herds may move into another certified CWD cervid herd.

104.15(2) Animals originating from noncertified or nonmonitored herds that are moving into certified CWD cervid herds will change the status of the certified CWD cervid herd to the same level as the animals that are imported into that herd.

104.15(3) Animals originating from CWD monitored herds cannot be certified until the years in the CCWDSI program total five years.

571—104.16(481A) Movement into a monitored CWD cervid herd.

104.16(1) Animals originating from a monitored CWD cervid herd may move into another monitored CWD cervid herd of the same status.

104.16(2) Animals originating from a herd which is not a monitored CWD cervid herd or from a lower status monitored CWD cervid herd will change the status of the monitored CWD cervid herd to the same level as the animals that are imported into that herd until completion of CWD certification.

571—104.17(481A) Recognition of monitored CWD cervid herds. The department shall issue a monitored CWD cervid herd certificate including CWD monitored herd status as CWD monitored Level A during the first calendar year, CWD monitored Level B during the second calendar year, CWD monitored Level C during the third calendar year, CWD monitored Level D during the fourth calendar year, CWD monitored Level E during the fifth calendar year, and CWD certification at the end of the fifth year and thereafter.

571—104.18(481A) Recognition of certified CWD cervid herds. The department shall issue a certified CWD cervid herd certificate when the herd first qualifies for recertification. The department shall issue a renewal form annually.

571—104.19(481A) Intrastate movement requirements.

104.19(1) All intrastate movements of Cervidae other than to a state-inspected or federally inspected slaughter establishment shall be accompanied by an intrastate movement certificate of veterinary inspection signed by a licensed, accredited veterinarian.

104.19(2) Such intrastate movement certificate shall include all of the following:

- a. Consignor's name and address.
- b. Consignee's name and address.
- c. Individual identification of each animal as prescribed in 571—104.4(481A).
- d. The following statement: "There has been no diagnosis, sign, or epidemiological evidence of CWD in this herd for the past two years."

571—104.20(481A) Import requirements.

104.20(1) All Cervidae transported into Iowa must be accompanied by all of the following:

- a. An official certificate of veterinary inspection.

b. A permit number requested by the licensed, accredited veterinarian signing the certificate and issued by the Iowa department of agriculture and land stewardship prior to movement.

c. One of the following statements must appear on the certificate:

“All Cervidae on this certificate have been part of the herd of origin for at least two years or were natural additions to this herd. There has been no diagnosis, sign, or epidemiological evidence of CWD in this herd for the past five years”; or

“All Cervidae on this certificate originate from a CWD monitored or certified herd in which these animals have been kept for at least two years or were natural additions. There has been no diagnosis, sign, or epidemiological evidence of CWD in this herd for the past five years.”

104.20(2) All cervids transported into Iowa must be in compliance with the uniform methods and rules set forth in U.S. Department of Agriculture, Animal and Plant Health Inspection Service bulletins 91-45-001, “Tuberculosis Eradication in Cervidae,” (effective February 3, 1989), 91-45-005 (effective May 15, 1994, including 1996 amendments) and 91-45-12, “Brucellosis in Cervidae,” (effective September 30, 1998).

104.20(3) Animal health officials of the state of origin must have access to herd records for the past five years including records of cervid deaths and causes of death.

104.20(4) If the Cervidae listed on the certificate are enrolled in a CWD program, the anniversary date and program status for each individual animal must be listed.

571—104.21(481A) Prohibited movement of cervid carcasses. The importation into Iowa of cervid carcasses from a CWD endemic area is prohibited, except for the meat from which all bones have been removed, the cape (skin), and antlers. Antlers may be attached to a clean skull plate from which all brain tissue has been removed.

571—104.22(481A) Inspection. The department may inspect any shipment of cervids and accompanying certificate of veterinary inspection or shipment documentation. The department may quarantine or destroy any cervids that are found to be infected with CWD or TB.

These rules are intended to implement Iowa Code sections 481A.47, 481A.62 and 484B.12.

CHAPTER 105
DEER POPULATION MANAGEMENT ZONES

571—105.1(481A) Purpose. The purpose of this chapter is to establish special deer management zones, including educational hunts in those zones, on selected properties managed by the department, county conservation boards, cities, or other governmental jurisdictions, and on private lands. The purpose of the hunts shall be to ensure the harvest of an adequate number of deer to reduce economic and biological damage caused by high deer populations. Selected hunts in deer management zones may be educational hunts and limited to novice hunters to introduce them to deer hunting as a method of deer population control and to encourage safe and ethical hunting.

571—105.2(481A) Definitions.

“*Commission*” means the natural resource commission.

“*Department*” means the department of natural resources.

“*Educational hunts*” means hunts in special deer management zones that are limited to hunters who are being introduced to deer hunting.

“*Special deer management zones*” means defined units of public and private land, including state parks, state recreation areas, county parks, urban areas, and areas managed by other governmental jurisdictions.

“*Urban deer management zones*” means areas mostly within incorporated city limits including city, county, state, and private land.

571—105.3(481A) Special deer management zones. Special deer management zone boundaries, seasons, permitted weapons, and other conditions for hunting shall be designated annually by the commission.

105.3(1) Seasons. Deer hunting in a special deer management zone may occur only on dates established by the commission. Season dates may or may not coincide with seasons for general deer hunting outside special deer management zones.

105.3(2) Licenses. Every hunter must have in possession a paid special hunting license valid only for the specific special deer management zone. The hunting license shall specify dates of hunting and the type of deer that may be taken as designated by the commission. The special licenses will be issued at locations and on dates announced by the commission. Special licenses shall be issued to Iowa residents only and shall cost the same as deer licenses issued during the general deer seasons. The commission may establish procedures for issuing more than one license per person if quotas for any hunt do not fill, or if special circumstances limit the number of hunters that can be safely accommodated. Incentives, including but not limited to issuing additional antlerless-only or any-deer licenses, may be used to attract hunters to a special hunt.

105.3(3) Permitted weapons. Only weapons permitted during the general deer seasons may be used. The commission may limit the use of specific weapons in some deer management zones and seasons on a case-by-case basis to improve the safety of hunters and the surrounding area.

105.3(4) Hunter safety and proficiency. Hunters may be required to pass a weapons proficiency test or attend a meeting prior to hunting in special deer management zones. The meeting will be used to familiarize hunters with zone boundaries, location of private lands, safety areas around buildings, access points, objectives of the hunt and other aspects of hunting in a special deer management zone.

105.3(5) Checking deer. A hunter who takes a deer may be required to check the deer at a designated headquarters prior to leaving the area.

105.3(6) Penalty for violating regulations. A hunter who violates the hunting regulations in a deer population management zone may forfeit the license for the remainder of the hunt and may forfeit the right to participate in a future year in addition to the imposition of any legal penalties.

105.3(7) Educational hunts. Hunts in designated special deer management zones may be restricted to youth or novice hunters to introduce them to safe and ethical deer hunting.

- a. Age, experience or other eligibility restrictions may be designated by the commission. Zones, seasons and other conditions for hunting will be designated the same as specified in 571—105.3(481A).
- b. An adult must accompany each youth participating in an educational hunt. The adult must be licensed as specified in 571—subrule 106.10(1).
- c. A novice, nonyouth hunter may be accompanied by an adult mentor. The mentor must have a valid hunting license and have paid the habitat fee, if otherwise required to do so.

571—105.4(481A) State parks and recreation areas. A public meeting shall be held in the vicinity of each state park or state recreation area before the park or recreation area is designated as a special deer management zone for the first time. The purpose of the meeting will be to assess the need for and interest in holding a deer population control hunt in that park or recreation area. A summary of public comments received at the meeting shall be included with other recommendations to the commission related to hunting in the state park or state recreation area.

571—105.5(481A) Urban deer management zones. Urban deer management zones will be established only upon request from a city government or special urban deer task force and when approved by the natural resource commission. Zones, seasons and other conditions for hunting will be designated the same as specified in 571—105.3(481A).

105.5(1) Special restrictions. Cities, deer task forces, or other public entities may require hunters to do one or more of the following: pass a hunter safety and education course, pass a weapons proficiency test, or be approved by the appropriate police department or conservation officer.

105.5(2) Other methods. The natural resource commission in cooperation with the city government may approve other methods of deer removal in urban areas.

571—105.6(481A) Iowa Army Ammunition Plant (IAAP) deer management zone. The IAAP deer management zone is defined as all federal land administered by the IAAP. Licenses, season dates and other conditions for hunting in the IAAP zone will be designated the same as specified in 571—105.3(481A). The IAAP may establish special restrictions for entering and hunting in the IAAP deer management zone.

571—105.7(481A) County park deer management zones.

105.7(1) Deer management zones will be established in county parks only after a request from county government and when approved by the commission. Zones, seasons and other conditions for hunting will be designated the same as specified in 571—105.3(481A).

105.7(2) Special restrictions. County park managers may require hunters to do one or more of the following: pass a hunter safety and education course, pass a weapons proficiency test, or be approved by the appropriate county sheriff or conservation officer.

571—105.8(481A) Special deer management zones on private land. Special deer management zones may be established on private land when approved by the commission. Zones, seasons, and other conditions for hunting will be determined by the commission. Hunters will be required to comply with all applicable regulations specified in 571—Chapter 106.

These rules are intended to implement Iowa Code sections 481A.38, 481A.39, 481A.48 and 483A.8.

CHAPTER 106
DEER HUNTING

[Prior to 12/31/86, Conservation Commission[290] Ch 106]

PART I
DEER HUNTING

571—106.1(481A) Licenses. When hunting deer, all hunters must have in their possession a valid deer hunting license and a valid resident or nonresident hunting license and must have paid the habitat fee (if normally required to have a hunting license and to pay the habitat fee to hunt).

106.1(1) Types of resident licenses.

a. General deer licenses. General deer licenses shall be valid for taking deer in one season selected at the time the license is purchased. General deer licenses shall be valid for taking deer of either sex except in counties designated by the natural resource commission (commission) during the first regular gun season when the general deer license will be valid for taking deer with at least one forked antler. Paid general deer licenses shall be valid statewide except where prohibited in deer population management zones established under 571—Chapter 105. Free general deer licenses shall be valid for taking deer of either sex only on the farm unit of an eligible landowner or tenant in the season or seasons selected at the time the license is obtained.

b. Antlerless-deer-only licenses. Antlerless-deer-only licenses shall be valid for taking deer that have no forked antler. Paid antlerless-deer-only licenses shall be valid in one county or in one deer population management zone and in one season as selected at the time the license is purchased. Free and reduced-fee antlerless-deer-only licenses shall be valid on the farm unit of an eligible landowner or tenant in the season or seasons selected at the time the license is obtained.

c. Bow season licenses. General deer and antlerless-deer-only licenses, paid or free, shall be valid in both segments of the bow season.

d. Regular gun season licenses. Paid general deer and antlerless-deer-only licenses shall be valid in either the first or the second regular gun season, as designated on the license. Free general deer licenses and antlerless-deer-only licenses shall be valid in both the first and second regular gun seasons.

e. Muzzleloader season licenses. General deer and antlerless-deer-only licenses, paid or free, shall be valid in either the early or the late muzzleloader season, as designated on the license.

106.1(2) January antlerless-deer-only resident licenses.

a. Population management season. Licenses for the population management January antlerless-deer-only season may be issued for counties designated by the commission following a 30-day public comment period. Population management January antlerless-deer-only licenses shall be issued for a county only when a minimum of 100 antlerless-deer-only licenses, as described in 106.10(5), remain unsold in that county as of the third Monday in December. If 100 or more antlerless-deer-only licenses remain unsold for a given county as of the third Monday in December, those remaining antlerless-deer-only licenses shall be made available for the population management January antlerless-deer-only season in that county until the relevant antlerless-deer-only quota as described in 106.10(5) is met.

b. Excess tag season. Licenses for the excess tag January antlerless-deer-only season may be issued in any county. Excess tag January antlerless-deer-only licenses shall be issued for a county only when a minimum of one antlerless-deer-only license, as described in 106.10(5), remains unsold for a given county through January 10. Remaining antlerless-deer-only licenses shall be made available starting on January 11 for the excess tag January antlerless-deer-only season in that county until the relevant antlerless-deer-only quota as described in 106.10(5) is met.

106.1(3) Types of nonresident licenses.

a. Any-deer licenses. Any-deer licenses shall be valid for taking deer of either sex in the zone and season designated by the hunter when the application is submitted as described in 571—106.8(483A).

b. Mandatory antlerless-deer-only licenses. Each hunter who is successful in drawing an any-deer license must also purchase an antlerless-deer-only license for the same zone and season as the any-deer license. If the hunter is unsuccessful in drawing an any-deer license, neither the any-deer nor

antlerless-deer-only license will be issued. Antlerless-deer-only licenses shall be valid for taking deer that have no forked antler.

c. Optional antlerless-deer-only licenses. A hunter who is not successful in drawing an any-deer license may purchase an antlerless-deer-only license as described in 571—106.8(483A).

d. Bow season license. Bow and arrow deer licenses shall be valid for deer of either sex or antlerless deer during the bow season and in the zone designated by the hunter at the time the application is submitted.

e. Regular gun season license. Regular gun season licenses will be issued for deer of either sex or antlerless deer. Regular gun season licenses will be issued by zone and season and will be valid in the zone and season designated by the hunter when the application is submitted.

f. Muzzleloader season license. Muzzleloader season licenses will be issued for deer of either sex or antlerless deer and shall be valid only during the muzzleloader season and in the zone designated by the hunter when the application is submitted.

g. Excess tag January antlerless-deer-only license. Beginning on January 11, nonresident hunters may obtain antlerless-deer-only licenses for the excess tag January antlerless-deer-only season specified in 106.2(4). Licenses will be available only in those counties specified in 106.10(3) until the quota provided in 106.10(5) is filled. All regulations specified in Chapter 106 for the January antlerless deer season for resident hunters including limits, shooting hours, method of take, tagging and reporting requirements will also apply to nonresident hunters during this season.

h. Special licenses. The commission shall issue licenses in conformance with Iowa Code section 483A.24(12) to nonresidents 21 years of age or younger who have a severe physical disability or who have been diagnosed with a terminal illness. A person applying for this license must provide a completed form obtained from the department of natural resources. The application shall be certified by the applicant's attending physician with an original signature and declare that the applicant has a severe physical disability or a terminal illness using the criteria listed in 571—Chapter 15. A medical statement from the applicant's attending physician that specifies criteria met shall be on 8½" × 11" letterhead stationery. The attending physician shall be a currently practicing doctor of medicine, doctor of osteopathy, physician assistant or nurse practitioner.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.5(481A) Areas closed to hunting. There shall be no open seasons for hunting deer on the county roads immediately adjacent to or through Union Slough National Wildlife Refuge, Kossuth County, where posted accordingly. There shall be no open seasons for hunting deer on all portions of rights-of-way on Interstate Highways 29, 35, 80 and 380.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.6(483A) Nonresident zones open to hunting. Licenses will be valid only in designated areas as follows:

106.6(1) Nonresident zone boundaries. As specified in the nonresident deer hunting zones map (dated December 2023) published on the department’s website (www.iowadnr.gov/Hunting/Deer-Hunting) “Nonresident Deer Hunting Zones.”

106.6(2) Reserved.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.7(483A) Nonresident license quotas. A limited number of nonresident deer licenses will be issued in zones as follows:

106.7(1) Zone license quotas. Nonresident license quotas are as follows:

	Any-sex licenses		Mandatory Antlerless-deer-only	Optional Antlerless-deer-only
	All Methods	Bow		
Zone 1	90	31	90	
Zone 2	90	31	90	
Zone 3	560	196	560	
Zone 4	1280	448	1280	
Zone 5	1600	560	1600	
Zone 6	800	280	800	
Zone 7	360	126	360	
Zone 8	240	84	240	
Zone 9	880	308	880	
Zone 10	100	35	100	
Total	6000	2099	6000	3500

106.7(2) Quota applicability. The license quota issued for each zone will be the quota for all bow, regular gun and muzzleloader season licenses combined. No more than 6,000 any-deer licenses and 6,000 mandatory antlerless-deer-only licenses will be issued for all methods of take combined, for the entire state. Of the 6,000 any-deer and 6,000 mandatory antlerless-deer-only licenses, no more than 35 percent in any zone can be bow licenses. A maximum of 4,500 optional antlerless-deer-only licenses will be issued on a county-by-county basis. The licenses will be divided between the counties in the

same proportion as resident antlerless-deer-only licenses. Hunters must designate a zone or county and season when purchasing the license and hunt only in that zone or county and season.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.8(483A) Nonresident application procedure. Applications for nonresident deer hunting licenses must be made through the electronic licensing system for Iowa (ELSI) telephone order system or the ELSI Internet license sales website.

106.8(1) Any-deer licenses. Applications for any-deer and mandatory antlerless-deer-only licenses will be accepted from the first Saturday in May through the first Sunday in June. No one may submit more than one application during the application period. Hunters may apply as individuals or as a group of up to 15 applicants. All members of a group will be accepted or rejected together in the drawing. If applications have been sold in excess of the license quota for any zone or season, a drawing will be held to determine which applicants receive licenses. Licenses or refunds of license fees will be mailed to applicants after the drawing is completed. License agent writing fees, department administrative fees and telephone order charges will not be refunded. If any zone's license quota for any-deer and mandatory antlerless-deer-only licenses has not been filled, the excess any-deer and mandatory antlerless-deer-only licenses will be sold on a first-come, first-served basis through the ELSI telephone ordering system or the ELSI Internet license sales website. Excess any-deer and mandatory antlerless-deer-only licenses will be sold beginning the last Saturday in July until the quota has been filled or the last day of the hunting period for which the license is valid, whichever occurs first. Members of a group that are rejected may purchase licenses individually if excess any-deer and mandatory antlerless-deer-only licenses or optional antlerless-deer-only licenses are available.

106.8(2) Optional antlerless-deer-only licenses. Optional antlerless-deer-only licenses must be purchased through the ELSI telephone ordering system or the ELSI Internet license sales website. Licenses for taking only antlerless deer will be available on the same date as excess any-deer licenses are sold as explained in 106.8(1). Optional antlerless-deer-only licenses will only be issued for one of the two regular gun seasons and for qualified disabled hunters (571—106.15(481A)). They will be sold first-come, first-served until the county quota is filled, or until the last day of the season for which a license is valid. If optional antlerless-deer-only licenses are still available on December 15, they may be purchased by nonresidents to hunt during the period from December 24 through January 2. These licenses will be available to nonresidents who have not purchased a nonresident deer license during one of the current deer seasons. The hunter must have in possession a valid nonresident small game hunting license and proof of having paid the current year's wildlife habitat fee. Optional antlerless-deer-only licenses will be valid only in the season and county designated by the hunter at the time the license is purchased.

a. Nonresident landowners. Nonresidents who own land in Iowa will have preference in obtaining optional antlerless-deer-only licenses. Nonresidents must qualify as landowners following the criteria stated in 106.17(1) and 106.17(3) through 106.17(6), except that nonresident tenants and family members of nonresident landowners and tenants do not qualify and nonresident optional antlerless-deer-only licenses will not be free of charge. If a farm unit is owned jointly by more than one nonresident, only one owner may claim landowner preference in the same year. Nonresidents who own land jointly with a resident do not qualify for preference. Nonresidents who have provided proof to the department that they own land in Iowa and meet the qualifying criteria may purchase an optional antlerless-deer-only license for one of the two regular gun seasons when excess any-deer licenses go on sale or for the holiday season beginning December 15. Such proof must be provided before an optional antlerless-deer-only license can be purchased and must be resubmitted each year in which an optional antlerless-deer-only license is purchased. These licenses do not count against the county quota.

b. Nonresident proof of land ownership. Nonresidents who request preference for optional antlerless-deer-only licenses will be required to submit a copy of their state of Iowa property tax statement for the current year or sign an affidavit that lists the legal description of their land, date purchased, and book and page number, or instrument number, where the deed is recorded.

106.8(3) Preference points. Each individual applicant who is unsuccessful in the drawing for an any-deer license will be assigned one preference point for each year that the individual is unsuccessful. If a person who was unsuccessful in the drawing purchases a leftover license within four weeks, the person will receive a refund for the cost of the preference point. Preference points will not accrue in a year in which an applicant fails to apply, but the applicant will retain any preference points previously earned. Preference points will apply only to obtaining any-deer licenses. Once an applicant receives an any-deer nonresident deer hunting license, all preference points will be removed until the applicant is again unsuccessful in a drawing or purchases a preference point as described in 106.8(4). Preference points will apply to any zone or season for which a hunter applies. The first drawing for any-deer licenses each year will be made from the pool of applicants with the most preference points. If licenses are still available after the first drawing, subsequent drawings will be made from pools of applicants with successively fewer preference points and continue until the any-deer license quota is reached or all applicants have received licenses. Applicants who apply as a group will be included in a pool of applicants with the same number of preference points as that of the member of the group with the fewest preference points assigned.

106.8(4) Purchasing preference points. A nonresident who does not want to hunt in the current year may purchase one preference point per calendar year. The preference point will apply to the next year's drawing for any-deer licenses. The preference point will be treated in the same manner as preference points obtained by hunters who are unsuccessful in the any-deer license drawing. A nonresident may not purchase a preference point and apply for an any-deer license in the same calendar year. Preference points may be purchased only during the application period for any-deer licenses.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.9(481A) Free and reduced-fee deer licenses for resident landowners and tenants. A maximum of one free general deer license, two free antlerless-deer-only licenses, and two reduced-fee antlerless-deer-only licenses may be issued to a qualifying landowner or eligible family member and a qualifying tenant or eligible family member. Eligibility for licenses is described in 571—106.17(481A). The free general deer license shall be available for one of the following seasons: the youth/disabled hunter season (if eligible), bow season, early muzzleloader season, late muzzleloader season, or first and second regular gun seasons. One free antlerless-deer-only license shall be available for one of the following seasons: youth/disabled hunter season (if eligible), bow season, early muzzleloader season, late muzzleloader season, or first and second regular gun seasons. The second free antlerless-deer-only license shall be valid only for the January antlerless-deer-only season and will be available only if a portion of the farm unit lies within a county where paid antlerless-deer-only licenses are available during that season. Each reduced-fee antlerless-deer-only license shall be valid for one of the following seasons: youth/disabled hunter season (if eligible), bow season, early muzzleloader season, late muzzleloader season, first and second regular gun seasons, or January antlerless-deer-only seasons. January antlerless-deer-only licenses will be available only if a portion of the farm unit is located in a county where paid antlerless-deer-only licenses are available in that season.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.10(481A) Resident paid deer license quotas and restrictions. Paid deer licenses, including antlerless-deer-only licenses, will be restricted in the type and number that may be purchased.

106.10(1) Paid general deer licenses. Residents may purchase no more than two paid general deer licenses, one for the bow season and one for one of the following seasons: early muzzleloader season, late muzzleloader season, first regular gun season, or second regular gun season. No more than 7,500 paid statewide general deer licenses will be sold for the early muzzleloader season. Fifty additional paid early muzzleloader season licenses will be sold through and will be valid only for the Iowa Army Ammunition Plant. There will be no quota on the number of paid general deer licenses issued in the bow season, late muzzleloader season, first regular gun season, or second regular gun season.

106.10(2) Paid antlerless-deer-only licenses. Paid antlerless-deer-only licenses have quotas for each county and will be sold for each county until quotas are reached.

a. Paid antlerless-deer-only licenses may be purchased for any season in counties where licenses are available, except as outlined in 106.10(2) "b." A license must be used in the season, county or deer population management area selected at the time the license is purchased.

b. No one may obtain paid licenses for both the first regular gun season and second regular gun season regardless of whether the licenses are valid for any deer or antlerless deer only. Paid antlerless-deer-only licenses for the early muzzleloader season may only be purchased by hunters who have already purchased one of the 7,500 paid statewide general deer licenses. Hunters who purchase one of the 7,500 paid statewide general deer licenses for the early muzzleloader season may not obtain paid antlerless licenses for the first or second regular gun season.

c. Prior to September 15, a hunter may purchase one antlerless-deer-only license for any season for which the hunter is eligible. Beginning September 15, a hunter may purchase an unlimited number of antlerless-deer-only licenses for any season for which the hunter is eligible, as set forth in 106.10(2) "b," until the county or population management area quotas are filled. Licenses purchased for deer population management areas will not count in the county quota.

106.10(3) Population management and excess tag January antlerless-deer-only seasons. Only antlerless-deer-only licenses, paid or free, are available in counties pursuant to the conditions described in 106.1(2). A license must be used during the population management or excess tag January antlerless-deer-only season as described in 106.2(4) and in the county or deer population management area selected at the time the license is purchased. Free antlerless-deer-only licenses shall be available only in the portion of the farm unit located in a county where paid antlerless-deer-only licenses are available during the population management or excess tag January antlerless-deer-only season.

106.10(4) Free resident landowner/tenant licenses. A person obtaining a free landowner/tenant license may purchase any combination of paid bow and paid gun licenses available to persons who are not eligible for landowner/tenant licenses as described in 571—106.17(481A).

106.10(5) Antlerless-deer-only licenses. Paid antlerless-deer-only licenses shall be available by county as designated annually by the commission. Prior to the commission designating the quotas, the department shall publish on its website (www.iowadnr.gov/Hunting/Deer-Hunting) a proposed allocation and accept public comments for at least 30 days.

571—106.11(481A) Method of take. Permitted weapons and devices vary according to the type of season.

106.11(1) Bow season. Only longbow, compound, or recurve bows shooting broadhead arrows are permitted during the bow season. Arrows must be at least 18 inches long.

a. Crossbows, as described in 106.11(1) "b," may be used during the bow season in the following two situations:

- (1) By persons with certain afflictions of the upper body as provided in 571—15.22(481A); and
- (2) By persons over the age of 65 with an antlerless-deer-only license as provided in Iowa Code section 483A.8B.

b. Crossbow means a weapon consisting of a bow mounted transversely on a stock or frame and designed to fire a bolt, arrow, or quarrel by the release of the bow string, which is controlled by a mechanical trigger and a working safety. Crossbows equipped with pistol grips and designed to be fired with one hand are illegal for taking or attempting to take deer. All projectiles used in conjunction with a crossbow for deer hunting must be equipped with a broadhead.

c. No explosive or chemical device may be attached to any arrow, broadhead or bolt.

106.11(2) Regular gun seasons. Only the following shall be used in the regular gun season: 10-, 12-, 16-, and 20-gauge shotguns shooting single slugs; any handgun or rifle as described in Iowa Code section 481A.48; and any muzzleloaders as described in 106.11(3).

106.11(3) Muzzleloader seasons. Only muzzleloading rifles, muzzleloading muskets, muzzleloading pistols, and muzzleloading revolvers will be permitted for taking deer during the early muzzleloader season. During the late muzzleloader season, deer may be taken with a muzzleloading rifle, muzzleloading musket, muzzleloading pistol, muzzleloading revolver, any handgun as defined in

106.11(2), crossbow as described in 106.11(1) “b,” or bow as described in 106.11(1). All muzzleloaders as described in this subrule shall only shoot a single projectile between .44 and .775 of an inch.

106.11(4) *January antlerless-deer-only seasons.*

a. Population management January antlerless-deer-only season. Bows, crossbows, shotguns, muzzleloaders, and handguns, as each is described in this rule, and rifles as described in Iowa Code section 483A.8(9) may be used during the population management January antlerless-deer-only season.

b. Excess tag January antlerless-deer-only season. Only rifles as described in Iowa Code section 483A.8(9) shall be used during the excess tag January antlerless-deer-only season.

106.11(5) *Prohibited weapons and devices.* The use of dogs, domestic animals, bait, firearms except as provided for in this chapter, crossbows except as provided in 106.11(1), automobiles, aircraft, or any mechanical conveyance or device, including electronic calls, is prohibited, except that paraplegics and single or double amputees of the legs may hunt from any stationary motor-driven land conveyance. “Bait” means grain, fruit, vegetables, nuts, hay, salt, mineral blocks, or any other natural food materials; commercial products containing natural food materials; or by-products of such materials transported to or placed in an area for the intent of attracting wildlife. Bait does not include food placed during normal agricultural activities. “Paraplegic” means an individual with paralysis of the lower half of the body with involvement of both legs, usually due to disease of or injury to the spinal cord. It shall be unlawful for a person, while hunting deer, to carry or have in possession a rifle except as provided in 106.11(2) or 106.11(3). Only handguns as described in 106.11(2) may be used to hunt deer and only when a handgun is a lawful method of take.

106.11(6) *Discharge of firearms from roadway.* No person shall discharge a rifle, including a muzzleloading rifle or musket, or a handgun from a highway while deer hunting. In addition, no person shall discharge a shotgun shooting slugs from a highway north of U.S. Highway 30. A “highway” means the way between property lines open to the public for vehicle traffic, including the road ditch, as defined in Iowa Code section 321.1(78).

106.11(7) *Hunting from blinds.* No person shall use a blind for hunting deer during the regular gun deer seasons as defined in 106.2(2), unless such blind exhibits a solid blaze orange marking that is a minimum of 144 square inches in size and is visible in all directions. Such blaze orange shall be affixed directly on or directly on top of the blind. For the purposes of this subrule, the term “blind” is defined as an enclosure used for concealment while hunting, constructed either wholly or partially from man-made materials, and used by a person who is hunting for the purpose of hiding from sight. A blind is not a naturally occurring landscape feature or an arrangement of natural or agricultural plant material that a hunter uses for concealment. In addition to the requirements in this subrule, hunters using blinds must also satisfy the requirements of wearing blaze orange as prescribed in Iowa Code section 481A.122.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.12(481A) Procedures to obtain licenses. All resident deer hunting licenses must be obtained using the ELSI. Licenses may be purchased from ELSI license agents, or online at www.iowadnr.com, or by calling the ELSI telephone ordering system.

106.12(1) *Licenses with quotas.* All paid deer hunting licenses for which a quota is established may be obtained from the ELSI system on a first-come, first-served basis beginning August 15 until the quota fills, or through the last day of the hunting period for which the license is valid.

106.12(2) *Licenses without quotas.* All deer hunting licenses that have no quota may be obtained from the ELSI system beginning August 15 through the last day of the hunting period for which a license is valid.

106.12(3) *Providing false information.*

a. Any person who provides false information about the person’s identity or eligibility for any paid or free landowner/tenant deer license and tag and who attests that the information is correct by accepting and signing the license or tag shall have the person’s hunting license revoked as a part of the sentencing for such criminal conviction, and the person shall not be issued a hunting license for one year pursuant to the authority of Iowa Code section 483A.24(2) “f” and 571—15.6(483A).

b. In addition to any legal penalties that may be imposed, the obtaining of a license in violation of this rule shall invalidate that deer license and transportation tag and any other deer hunting license and transportation tag obtained during the same year.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.13(481A) Transportation tag.

106.13(1) Use of transportation tag. A transportation tag bearing the license number of the licensee, year of issuance, and date of kill properly shown shall be visibly attached to one leg of each antlerless deer or on the main beam between two points, if present, on one of the antlers of an antlered deer in such a manner that the tag cannot be removed without mutilating or destroying the tag. This tag shall be attached to the carcass of the deer within 15 minutes of the time the deer carcass is located after being taken or before the carcass is moved to be transported by any means from the place where the deer was taken, whichever occurs first. No person shall tag a deer with a transportation tag issued to another person or with a tag that was purchased after the deer was taken. This tag shall be proof of possession and shall remain affixed to the carcass until such time as the animal is processed for consumption. The head, and antlers if any, shall remain attached to the deer while being transported by any means whatsoever from the place where taken to the processor or commercial preservation facility or until the deer has been processed for consumption. The hunter who killed the deer must tag the deer using the transportation tag issued in that person's name unless lawfully party hunting.

106.13(2) Party hunting.

a. Resident party hunting. During the first and second regular gun seasons and the January antlerless-deer-only seasons, any resident hunter present in the hunting party may use their tag on a deer harvested by another resident.

b. Nonresident party hunting. Party hunting is not allowed by nonresidents.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.14(481A) Resident youth deer and severely disabled hunts.

106.14(1) Licenses.

a. Youth deer hunt. A youth deer license may be issued to any Iowa resident who is not over 15 years old on the day the youth obtains the license. The youth license may be paid or free to persons eligible for free licenses. If the youth obtains a free landowner/tenant license, it will count as the one free general deer license for which the youth's family is eligible.

Each participating youth must be accompanied by an adult who possesses a regular hunting license and has paid the habitat fee (if the adult is normally required to have a hunting license and to pay the habitat fee to hunt). Only one adult may participate for each youth hunter. The accompanying adult must not possess a long gun, bow, or crossbow and must be in the direct company of the youth at all times.

A person may obtain only one youth general deer license but may also obtain any other paid or free general deer and antlerless-deer-only licenses that are available to other hunters. Antlerless-deer-only licenses must be obtained in the same manner with which other hunters obtain them, as described in 106.10(2).

b. Severely disabled hunt. Any severely disabled Iowa resident meeting the requirements of Iowa Code section 321L.1(8) may be issued one general deer license to hunt deer during the youth season. A person applying for this license must either possess a disability parking permit or provide a completed form from the department of natural resources. The form must be signed by a physician verifying that the person's disability meets the criteria defined in Iowa Code section 321L.1(8). The attending physician shall be currently practicing medicine and shall be a medical doctor, a doctor of osteopathy, a physician assistant, or a nurse practitioner. Forms are available online at www.iowadnr.gov, by visiting the Department of Natural Resources office at the Wallace State Office Building, Des Moines, Iowa, or any district office, or by calling 515.725.8200. A person between 16 and 65 years of age must also possess a regular hunting license and have paid the habitat fee to obtain a license (if normally required to have a hunting license and to pay the habitat fee to hunt). A severely disabled person obtaining this license may obtain any other paid and free general deer and antlerless-deer-only licenses that are

available to other hunters. Antlerless-deer-only licenses must be obtained in the same manner by which other hunters obtain them, as described in 106.10(2).

106.14(2) *Season dates.* Deer of either sex may be taken statewide for 16 consecutive days beginning on the third Saturday in September. A person who is issued a youth deer hunting license and does not take a deer during the youth deer hunting season may use the deer hunting license and unused tag during any subsequent deer seasons. The license will be valid for the type of deer and in the area specified on the original license. The youth must follow all other rules specified in this chapter for each season, including method of take. If the tag is filled during any of the seasons, the license will not be valid in subsequent seasons.

106.14(3) *Shooting hours.* Legal shooting hours will be one-half hour before sunrise to one-half hour after sunset each day regardless of weapon used.

106.14(4) *Limits and license quotas.* An unlimited number of licenses may be issued. The daily and season bag and possession limit is one deer per license. A person may shoot and tag a deer only by utilizing the license and tag issued in the person's name.

106.14(5) *Method of take and other regulations.* Deer may be taken with shotguns, bows, handguns, rifles, or muzzleloaders as permitted in 571—106.11(481A). Youth hunters using a handgun must be accompanied and under direct supervision throughout the hunt by a responsible person with a valid hunting license who is at least 21 years of age, with the consent of a parent or guardian. The responsible person with a valid hunting license who is at least 21 years of age shall be responsible for the conveyance of the pistol or revolver while the pistol or revolver is not actively being used for hunting. "Direct supervision" means the same as defined in Iowa Code section 483A.27A(4). All participants must meet the deer hunters' orange apparel requirement in Iowa Code section 481A.122. All other regulations for obtaining licenses or hunting deer shall apply.

106.14(6) *Procedures for obtaining licenses.* Paid and free youth season licenses and licenses for severely disabled hunters may be obtained through ELSI beginning August 15 through the last day of the youth season.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.15(481A) Nonresident deer hunting season for severely disabled persons.

106.15(1) *Licenses.* A nonresident meeting the requirements of Iowa Code section 321L.1(8) may apply for or purchase a nonresident deer hunting license to participate in a special deer hunting season for severely disabled persons. Nonresidents applying for this license must have on file with the department of natural resources either a copy of a disabilities parking permit issued by a state department of transportation or an Iowa department of natural resources form signed by a physician that verifies their disability.

106.15(2) *Season dates.* Any deer or antlerless deer may be taken in the hunting zone indicated on the deer license during 16 consecutive days beginning the third Saturday in September.

106.15(3) *Shooting hours.* Legal shooting hours will be from one-half hour before sunrise until one-half hour after sunset each day regardless of the type of weapon used.

106.15(4) *Limits.* Daily bag and possession limit is one deer. A person may shoot and tag only one deer by utilizing the license and tag issued in the person's name.

106.15(5) *License quotas.* Licenses for the special hunting season for severely disabled persons shall be issued from the quotas established in 571—106.7(483A). A special quota will not be set aside for severely disabled persons.

106.15(6) *Method of take and other regulations.* Deer may be taken with shotgun, bow, muzzleloading rifle or pistol as defined in 571—106.11(483A). All participants must meet the hunters' orange apparel requirement in Iowa Code section 481A.122. All other regulations for taking deer with a gun or bow shall apply.

106.15(7) *Application procedures.* Persons meeting the requirements for this season must apply following the procedures described in 571—106.12(483A). A person who does not have a form on file to verify a disability will not be entered into the drawing or be allowed to purchase a license and will have the license fee refunded, less a \$10 administrative fee to cover the cost of handling the application as

provided in 571—subrule 15.8(1). License agent writing fees, department administrative fees, Internet sales charges and telephone order charges will not be refunded.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

These rules are intended to implement Iowa Code sections 481A.38, 481A.48, 483A.8, and 483A.24.

PART II
DEER DEPREDATION

571—106.16(481A) Deer depredation management. The deer depredation management program provides assistance to producers through technical advice and additional deer licenses and permits where the localized reduction of female deer is needed to reduce damage. Upon signing a depredation management agreement with the department, producers of agricultural or high-value horticultural crops may be issued deer depredation permits to shoot deer causing excessive crop damage. If immediate action is necessary to forestall serious damage, depredation permits may be issued before an agreement is signed. Further permits will not be authorized until an agreement is signed.

106.16(1) Method of take and other regulations. Legal weapons and restrictions will be governed by 571—106.11(481A). For deer shooting permits only, there are no shooting hour restrictions; however, taking deer with an artificial light is prohibited by Iowa Code section 481A.93. The producer or designee must meet the deer hunters' orange apparel requirement in Iowa Code section 481A.122.

106.16(2) Eligibility. Producers growing typical agricultural crops (such as corn, soybeans, hay and oats and tree farms and other forestlands under a timber management program) and producers of high-value horticultural crops (such as Christmas trees, fruit or vegetable crops, nursery stock, and commercially grown nuts) shall be eligible to enter into depredation management agreements if these crops sustain excessive damage.

- a. The producer may be the landowner or a tenant, whoever has cropping rights to the land.
- b. Excessive damage is defined as crop losses exceeding \$1,000 in a single growing season, or the likelihood that damage will exceed \$1,000 if preventive action is not taken, or a documented history of at least \$1,000 of damage annually in previous years.
- c. Producers who lease their deer hunting rights are not eligible for the deer depredation management program.

106.16(3) Depredation management plans. Upon request from a producer, field employees of the wildlife bureau will inspect and identify the type and amount of crop damage. If deer damage is not excessive, technical advice will be given to the producer on methods to reduce or prevent future damage. If damage is excessive and the producer agrees to participate, a depredation management plan will be developed by depredation biologists in consultation with the producer.

a. The goal of the management plan will be to reduce damage to below excessive levels within a specified time period through a combination of producer-initiated preventive measures and the issuance of deer depredation permits.

(1) Depredation plans may require preventive measures such as harassment of deer with pyrotechnics and cannons, guard dogs, temporary fencing, permanent fencing costing less than \$1,000, allowing more hunters, increasing the take of antlerless deer, and other measures.

(2) Depredation permits to shoot deer may be issued to Iowa residents to reduce deer numbers until long-term preventive measures become effective. Depredation permits will not be used as a long-term solution to deer damage problems.

b. Depredation management plans will normally be written for a three-year period with progress reviewed annually by the department and the producer.

- (1) The plan will become effective when signed by the depredation biologist and the producer.
- (2) Plans may be modified or extended if mutually agreed upon by the department and the producer.
- (3) Depredation permits will not be issued after the initial term of the management plan if the producer fails to implement preventive measures outlined in the plan.

106.16(4) Depredation permits. Two types of permits may be issued under a depredation management plan.

a. Deer depredation licenses. Deer depredation licenses may be sold to resident hunters only for a fee of \$5 for use during one or more legal hunting seasons. Depredation licenses will be available to producers of agricultural and horticultural crops.

(1) Depredation licenses will be issued up to the number specified in the management plan.

(2) The landowner or an eligible family member, which shall include the landowner's spouse or domestic partner and juvenile children, may obtain one depredation license for each season established by the commission.

(3) Depredation licenses will be valid only for hunting antlerless deer, regardless of restrictions that may be imposed on regular deer hunting licenses in that county.

(4) All other regulations for the hunting season specified on the license apply.

(5) Depredation licenses are valid only on the land where damage is occurring and the immediately adjacent property unless the land is within a designated block hunt area as described in 106.16(4) "a"(6). Other parcels of land in the farm unit not adjacent to the parcels receiving damage will not qualify.

(6) Block hunt areas are areas designated and delineated by wildlife biologists of the wildlife bureau to facilitate herd reduction in a given area where all producers may not qualify for the depredation program or in areas of persistent deer depredation. Depredation licenses issued to producers within the block hunt area are valid on all properties within the delineated boundaries. Individual landowner permission is required for hunters utilizing depredation licenses within the block hunt area boundaries. Creation of a given block hunt area does not authorize trespass.

b. Deer shooting permits. Permits for shooting deer outside an established hunting season may be issued to producers of high-value horticultural crops when damage cannot be controlled in a timely manner during the hunting seasons (such as late summer buck rubs in an orchard and winter browsing in a Christmas tree plantation) and to other agricultural producers who have an approved department deer depredation plan, and on areas such as airports where public safety may be an issue.

(1) Deer shooting permits will be issued for a fee of \$5 to the applicant.

(2) The applicant or one or more designees approved by the department may take all the deer specified on the permit.

(3) Permits available to producers of high-value horticultural crops or agricultural crops may be valid for taking deer outside of a hunting season depending on the nature of the damage. The number and type of deer to be killed will be determined by a department depredation biologist and will be part of the deer depredation management plan.

(4) Permits issued due to public safety concerns may be used for taking any deer, as necessary, to address unpredictable intrusion that could jeopardize public safety. Permits may be issued for an entire year (January 1 through December 31) if the facility involved signs an agreement with the department.

(5) All deer killed must be recovered and processed for human consumption.

(6) The times, dates, place and other restrictions on the shooting of deer will be specified on the permit.

(7) Antlers from all deer recovered must be turned over to the conservation officer within 48 hours. Antlers will be disposed of according to department rules.

(8) For out-of-season shooting permits, there are no shooting hour restrictions; however, taking deer with an artificial light is prohibited by Iowa Code section 481A.93.

c. Depredation licenses and shooting permits will be issued in addition to any other licenses for which the hunters may be eligible.

d. Depredation licenses and shooting permits will not be issued if the producer restricts the legal take of deer from the property sustaining damage by limiting hunter numbers below levels required to control the deer herd. This restriction does not apply in situations where shooting permits are issued for public safety concerns.

e. A person who receives a depredation permit pursuant to this paragraph shall pay a \$1 fee for each license that shall be used and is appropriated for the purpose of deer herd population management, including assisting with the cost of processing deer donated to the help us stop hunger (HUSH) program administered by the commission and a \$1 writing fee for each license to the license agent.

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.17(481A) Eligibility for free landowner/tenant deer licenses.**106.17(1) *Who qualifies for free deer hunting licenses.***

a. Owners and tenants of a farm unit and the spouse and juvenile child of an owner or tenant who reside with the owner or tenant are eligible for free deer licenses. The owner or tenant does not have to reside on the farm unit but must be actively engaged in farming it. Nonresident landowners do not qualify.

b. Juvenile child defined. “Juvenile child” means a person less than 18 years of age or a person who is 18 or 19 years of age and is in full-time attendance at an accredited school pursuing a course of study leading to a high school diploma or a high school equivalency diploma. A person 18 years of age or older who has received a high school diploma or high school equivalency diploma does not qualify.

106.17(2) *Who qualifies as a tenant.* A “tenant” is a person other than the landowner who is actively engaged in the operation of the farm. The tenant may be a member of the landowner’s family, including in some circumstances the landowner’s spouse or child, or a third party who is not a family member. The tenant does not have to reside on the farm unit.

106.17(3) *What “actively engaged in farming” means.* Landowners and tenants are “actively engaged in farming” if they personally participate in decisions about farm operations and those decisions, along with external factors such as weather and market prices, determine their profit or loss for the products they produce. Tenants qualify if they farm land owned by another and pay rent in cash or in kind. A farm manager or other third party who operates a farm for a fee or a laborer who works on the farm for a wage and is not a family member does not qualify as a tenant.

106.17(4) *Landowners who qualify as active farmers.* These landowners:

- a. Are the sole operator of a farm unit (along with immediate family members), or
- b. Make all decisions about farm operations, but contract for custom farming or hire labor to do some or all of the work, or
- c. Participate annually in decisions about farm operations such as negotiations with federal farm agencies or negotiations about cropping practices on specific fields that are rented to a tenant, or
- d. Raise specialty crops from operations such as orchards, nurseries, or tree farms that do not necessarily produce annual income but require annual operating decisions about maintenance or improvements, or
- e. May have portions of the farm enrolled in a long-term land retirement program such as the Conservation Reserve Program (CRP) as long as other farm operations occur annually, or
- f. Place their entire cropland in the CRP or other long-term land retirement program with no other active farming operation occurring on the farm.

106.17(5) *Landowners who do not qualify.* These landowners:

- a. Use a farm manager or other third party to operate the farm, or
- b. Cash rent the entire farm to a tenant who is responsible for all farm operations including following preapproved operations plans.

106.17(6) *Where free licenses are valid.* A free license is valid only on that portion of the farm unit that is in a zone open to deer hunting. “Farm unit” means all parcels of land in tracts of two or more contiguous acres that are operated as a unit for agricultural purposes and are under lawful control of the landowner or tenant regardless of how that land is subdivided for business purposes. Individual parcels of land do not need to be adjacent to one another to be included in the farm unit. “Agricultural purposes” includes but is not limited to field crops, livestock, horticultural crops (e.g., from nurseries, orchards, truck farms, or Christmas tree plantations), and land managed for timber production.

106.17(7) *Registration of landowners and tenants.* Landowners and tenants and their eligible family members who want to obtain free deer hunting licenses must register with the department before the free licenses will be issued. Procedures for registering are described in 571—95.2(481A).

[ARC 7915C, IAB 5/1/24, effective 6/5/24]

571—106.18(481A) Harvest reporting. Each hunter who bags a deer must report that kill according to procedures described in 571—95.1(481A).

571—108.8(481A) River otter and bobcat.

108.8(1) License requirements. Each person who takes river otters or bobcats shall have a valid fur harvester license and pay the habitat fee if normally required to have a license to hunt or trap.

108.8(2) Open area. River otters may be taken statewide. Bobcats may be taken in the following counties: Adair, Adams, Appanoose, Audubon, Boone, Cass, Cedar, Cherokee, Clarke, Clinton, Crawford, Dallas, Davis, Decatur, Delaware, Des Moines, Fremont, Guthrie, Harrison, Henry, Iowa, Jackson, Jasper, Jefferson, Johnson, Jones, Keokuk, Lee, Louisa, Lucas, Lyon, Madison, Mahaska, Marion, Mills, Monona, Monroe, Montgomery, Muscatine, Page, Plymouth, Polk, Pottawattamie, Poweshiek, Ringgold, Scott, Shelby, Sioux, Taylor, Union, Van Buren, Wapello, Warren, Washington, Wayne, Webster, and Woodbury.

108.8(3) Seasonal bag limit.

a. The seasonal bag limit for river otters is 3 river otters per person.

b. The seasonal bag limit for bobcats is 1 bobcat per person in the following counties: Audubon, Boone, Cedar, Cherokee, Clinton, Crawford, Dallas, Delaware, Guthrie, Harrison, Iowa, Jackson, Jasper, Johnson, Jones, Lyon, Monona, Muscatine, Plymouth, Polk, Poweshiek, Scott, Shelby, Sioux, Webster, and Woodbury.

c. The seasonal bag limit for bobcats is 3 bobcats per person in the following counties: Adair, Adams, Appanoose, Cass, Clarke, Davis, Decatur, Des Moines, Fremont, Henry, Jefferson, Keokuk, Lee, Louisa, Lucas, Madison, Mahaska, Marion, Mills, Monroe, Montgomery, Page, Pottawattamie, Ringgold, Taylor, Union, Van Buren, Wapello, Warren, Washington, and Wayne.

d. No more than 3 bobcats total can be legally harvested by a fur harvester in a season. River otters or bobcats trapped in excess of the seasonal bag limit or in a closed area must be turned over to the department; the fur harvester shall not be penalized.

108.8(4) Season dates. The season for taking river otters and bobcats opens on the first Saturday in November and closes on February 28 of the following year.

108.8(5) Reporting requirements. Anyone, including a landowner or tenant not required to have a fur harvester license, who takes a river otter or bobcat must report the harvest and arrange to receive a CITES tag from the officer or designated DNR employee within seven days of harvest. The river otter or bobcat shall be skinned and its lower jaw or skull turned over to the DNR conservation officer or designated DNR employee at the time the CITES tag is issued. If the specimen is to be kept whole for taxidermy purposes, a cut shall be made by the trapper between the gum line and eye so the CITES tag can be attached to the skin.

108.8(6) Tagging requirements. Every river otter or bobcat that may legally be kept must have a CITES tag attached. Tags will be supplied by the conservation officer or designated DNR employee. The tag must remain with the pelt until the pelt is sold or used for other purposes that render it no longer available for sale. Persons displaying river otters or bobcats as taxidermy mounts or as other decorative items must keep the tags in their possession as proof of legal harvest.

571—110.1(481A) Public roadside limitations—snares, body-gripping, and conibear type traps. No person shall set or maintain any snare, body-gripping, or conibear type trap within any public road right-of-way within 200 yards of buildings inhabited by human beings unless a resident of the dwelling adjacent to the public road right-of-way has given permission or unless the body-gripping or conibear type trap is completely underwater or at least one-half of the loop of a snare is underwater. Nothing in this rule shall be construed as limiting the use of foothold traps or box-type live traps in public road rights-of-way. No person shall place or leave any trap, stake, or nonindigenous set making material upon any public road right-of-way except during a period of time that begins two weeks before the trapping season opens and ends on the last day of the season.

[ARC 7922B, IAB 7/1/09, effective 8/5/09]

571—110.2(481A) Snares.

110.2(1) Placement. No person shall set or maintain any snare in any public road right-of-way so that the snare when fully extended can touch any fence. Snares may not be attached to a drag.

110.2(2) Loop size. No snare when set will have a loop larger than 8 inches in horizontal measurement except for snares set with at least one-half of the loop underwater or snares set on private land other than roadsides within 30 yards of a pond, lake, drainage ditch, creek, stream or river shall not have a loop larger than 11 inches in horizontal measurement.

110.2(3) Deer locks. All snares must have a functional deer lock that will not allow the snare loop to close smaller than 2½ inches in diameter.

110.2(4) Mechanical snares. It shall be illegal to set any mechanically powered snare designed to capture an animal by the neck or body unless such snares are placed completely underwater.

571—110.3(481A) Body-gripping and conibear type traps. No person shall set or maintain any body-gripping or conibear type trap on any public road right-of-way within 5 feet of any fence.

571—110.4(481A) Foothold and leghold traps. No person shall set or maintain on land any foothold or leghold trap with metal-serrated jaws, metal-toothed jaws or a spread inside the set jaws of greater than 7 inches.

571—110.5(481A) Removal of animals from traps and snares. All animals or animal carcasses caught in any type of trap or snare, except those which are placed entirely underwater and designed to drown the animal immediately, must be removed from the trap or snare by the trap or snare user immediately upon discovery and within 24 hours of the time the animal is caught.

571—110.6(481A) Trap tag requirements. All traps and snares, whether set or not, possessed by a person who can reasonably be presumed to be trapping shall have a metal tag attached plainly labeled with the user's name and address.

571—110.7(481A) Colony traps. All colony traps must be set entirely under water.

These rules are intended to implement Iowa Code sections 481A.38 and 481A.92.

CHAPTER 111
SCIENTIFIC COLLECTING AND WILDLIFE REHABILITATION

571—111.1(481A) Definitions.

“*Educational project permit*” means a permit which may authorize the holder to take and possess live state-protected birds, mammals, amphibians, reptiles, fish, or invertebrates for educational or zoological displays.

“*Permit holder*” means an organization or person that possesses a valid permit issued by the Iowa department of natural resources under Iowa Code section 481A.65.

“*Raptor*” means hawks, owls, eagles, falcons, vultures, harriers, kites, accipiters, and ospreys.

“*Scientific collector’s license*” means a license which authorizes the holder to take, for scientific purposes only, any birds, nests, eggs or mammals, amphibians, reptiles, fish, invertebrates, plants or parts thereof which are protected by state regulations.

“*Wildlife rehabilitation permit*” means a permit which authorizes the holder to take and temporarily possess injured, sick or orphaned state-protected species of birds, mammals, amphibians or reptiles with the intent to return the animal to its natural habitat as soon as possible.

“*Wildlife salvage permit*” means a permit which authorizes the holder to possess, for natural resource education programs, any state-protected species of birds, mammals, amphibians, reptiles, fish, or invertebrates which have died as the result of natural causes or accidents (i.e., road-kills, window-kills or tower-kills) or specimens which have been donated by the department of natural resources.

571—111.2(481A) Scientific collector’s license. A scientific collector’s license may, after investigation, be issued to any university, college or person engaged in a scientific project approved by the department of natural resources.

This license may be issued for a period of up to three years.

Species, numbers, geographic location, and collection methods must be identified in the application narrative and approved by the department of natural resources.

571—111.3(481A) Wildlife salvage permit. A wildlife salvage permit may be issued to any university, college, school, county conservation board, public agency, other organization or person engaged in a natural resource education program approved by the department of natural resources.

This permit may be issued for a period of up to three years.

Special approval is required for the salvage of abandoned bird nests, not including raptor nests. This permit does not authorize any taking or possession of live animals.

571—111.4(481A) Educational project permit. The following classes of educational project permits may be issued by the department:

111.4(1) An apprentice educational project permit may be issued to a person serving a one-year internship with and being sponsored by a person possessing a master wildlife rehabilitation permit and having two years’ experience using raptors under a state or federal educational project permit, or a person possessing a master class state or federal falconry permit. This permit is required only for state and federally protected raptor species. An apprentice permit will be required for each individual providing day-to-day care and for each person presenting educational programs using live raptors. An apprentice will be limited to the possession of one American kestrel and one screech owl that are permanently crippled or human imprinted. In the case where an apprentice will be in charge of an existing facility with additional birds, the sponsor and the conservation officer must approve the possession of the additional species and individuals. This permit may be issued for a period of up to two years.

111.4(2) A general educational project permit for protected animal species other than raptors may be issued to any university, college, school, county conservation board, public agency, other organization or person engaged in a natural resource education program approved by the department of natural resources. The limitation on the number of animals in possession shall be established by the ability of the permit holder to provide adequate facilities and care.

111.4(3) A general educational project permit for raptors may be issued to a person who has served the appropriate apprenticeship and is recommended by the person's sponsor; or has previously held an educational project permit for raptors issued by the Iowa department of natural resources or the U.S. Fish and Wildlife Service; or has held a master class state and federal falconry permit within the last five years.

Any mammals, reptiles, amphibians, or fish which are not state listed endangered or threatened species and are obtained from legal sources outside the state of Iowa are exempt from these permit requirements. Proof of origin of each animal is the responsibility of the owner.

This permit may be issued for a period of up to three years.

571—111.5(481A) Wildlife rehabilitation permit. The following classes of wildlife rehabilitation permits may be issued by the department:

111.5(1) An apprentice wildlife rehabilitation permit may be issued to a person serving a one-year internship with and being sponsored by a person possessing a master wildlife rehabilitation permit, or to a person serving a two-year internship with and being sponsored by a person possessing a general wildlife rehabilitation permit.

This permit may be issued for a period of up to two years.

111.5(2) A general wildlife rehabilitation permit may be issued to a person who has served the appropriate apprenticeship; has graduated with a degree in veterinary medicine; or has previously held a rehabilitation permit issued by the Iowa department of natural resources, U.S. Fish and Wildlife Service, or any other state natural resource agency.

A general wildlife rehabilitator may sponsor up to four apprentices.

This permit may be issued for a period of up to three years.

111.5(3) A master wildlife rehabilitation permit may be issued to a person who has completed five consecutive years of extensive rehabilitation work and has received a recommendation from the local state conservation officer, or who is a licensed veterinarian with specific training and experience in wildlife rehabilitation. The department of natural resources may issue a master wildlife rehabilitation permit to individuals who have demonstrated special ability, knowledge, training and experience in wildlife rehabilitation.

A master wildlife rehabilitator may sponsor up to six apprentices.

This permit may be issued for a period of up to three years.

571—111.6(481A) Application qualifications. All applicants for a wildlife rehabilitation permit must possess adequate facilities to temporarily house and properly confine species held under the permit. The facilities of all applicants should follow the minimum housing guidelines as established for the various species by the National Wildlife Rehabilitator's Association and the International Wildlife Rehabilitation Council in 1993, or be approved by the local state conservation officer. Applicants must provide written documentation of access to a licensed veterinarian willing to provide professional counsel to the rehabilitator. Applicants must list species or groups of species such as but not limited to: rabbits, squirrels, songbirds, snakes or turtles, for which they will be providing rehabilitation services on their permit application narrative.

The application narrative for an educational project permit must list the species and number of each species that will be held. Facilities for raptors must meet the design and size criteria listed in the 1994 Iowa Association of Naturalists' publication "Educating With Raptors—A Resource Booklet."

571—111.7(481A) Evaluation committee. For the purpose of evaluating facilities and standards of care employed by holders of educational project permits and wildlife rehabilitation permits, the director may establish an ad hoc committee of persons with expertise in wildlife care, rehabilitation, veterinary medicine and wildlife education. Upon request by the director, the committee shall inspect the facilities, care procedures and educational programs and provide the department with appropriate recommendations. The recommendations may be used as a basis for placing certain conditions on a permit or modifying or terminating a permit.

571—111.8(481A) Disposition of animals. Injured or orphaned animals which cannot be returned to their natural environment shall be transferred to someone with an educational project permit or, after being euthanized by or under the guidance of a licensed veterinarian, handled as follows:

- Transferred to someone with a scientific collector's license or a wildlife salvage permit after obtaining permission from the local state conservation officer, or
- Buried or burned according to Iowa Code chapter 167.

Specimens held under a wildlife salvage permit may be transferred to someone holding a scientific collector's license, a wildlife salvage permit, or burned or buried according to Iowa Code chapter 167 after obtaining permission from the local conservation officer.

All threatened and endangered species which have died, which must be euthanized, or which cannot be released shall be referred to the department of natural resources. The department of natural resources shall provide these specimens to persons who hold a scientific collector's license, a wildlife salvage permit, or an educational project permit or shall provide for proper disposal.

571—111.9(481A) General conditions for permits.

1. Applications will not be approved for private collections or for commercial use of protected species.

2. Any costs incurred by the permittee for the administration of any permit authorized by this chapter of rules will be the responsibility of the permittee.

3. Scientific collecting licenses, wildlife salvage permits, general educational project permits, with the exception of those for raptors, will generally be issued in the name of the institution or organization. The principal collector or permit holder will be listed on the permit and be responsible for administering the license or permit. All persons collecting or working under the authority of the license or permit shall carry a copy of the permit and a letter of authorization from the principal license or permit holder.

4. Educational project permits for raptors and wildlife rehabilitation permits may list an institution or organization, but also must list the person or persons with the qualifications for that particular permit. These permits do not necessarily continue with the institution or organization if the person or persons listed on the permits leave. If replacement personnel with the proper qualifications for the permit or permits are found, then the permit or permits will stay in the institution's or organization's name.

5. Specimens collected or possessed under any license or permit authorized by this chapter of rules remain the property of the state of Iowa. The department of natural resources reserves the right to determine the disposition of all specimens collected under authority of these permits.

6. Records, facilities and inventories must be made available for inspection by officers of the department of natural resources during reasonable hours.

7. Records of collections and the manner in which specimens have been acquired and their disposition must be kept current at all times. Rehabilitation permits must be updated within 24 hours of the event. All other permits must be updated within 48 hours of the event.

8. Authorization to collect or possess endangered or threatened species requires special permission and must comply with provisions established in Iowa Code chapter 481B.

9. A representative of the department of natural resources must be notified within 72 hours of taking or holding of threatened or endangered species that are found dead and within 24 hours for those that are injured or sick.

10. A licensed rehabilitator or veterinarian must determine if a raptor is permanently crippled before it can be held under an educational project permit.

11. License or permit fees will be \$5 for one year, \$10 for two years, and \$15 for three years.

12. Applicants for scientific collecting, wildlife rehabilitation, and educational projects must be 18 years old or provide written permission from a parent or guardian.

13. No animals being rehabilitated may be used for educational programs.

14. Applicants for scientific collecting licenses, wildlife rehabilitation, wildlife salvage, and educational project permits that are requesting permission to possess, hold, or collect bird species as

listed in the Code of Federal Regulations, 50 CFR 10.13 (April 5, 1985), may also be required to obtain a federal permit issued by the U.S. Fish and Wildlife Service.

These rules are intended to implement Iowa Code section 481A.65.

Packaging material shall be a see-through plastic bag. The plastic bag shall be sealed and the bird tag placed around the opening of the bag or attached to the bag in such a manner so that the bird tag number(s) is completely legible. The number of game birds or combination of bird parts shall correspond to the number of bird tags affixed to the clear plastic bag.

CHAPTER 113
RESTITUTION FOR POLLUTION CAUSING INJURY TO WILD ANIMALS

571—113.1(481A) Applicability. These rules apply to persons who cause, by water pollution, the destruction of or injury to wild animals held in trust by the state for the public. In most cases this would involve the destruction of aquatic life or other wildlife under the ownership of the state, as provided in Iowa Code section 481A.2. These rules relate to the compensation to the state and public for the natural resource damages and are in addition to any other legal recourse for the event or action that caused the destruction or damage. The administration of this chapter shall not result in a duplication of damages collected by the department under Iowa Code section 455B.392, subsection 1, paragraph “c.”

571—113.2(481A) Definitions.

“*AFS*” means the Special Publication 35, “Investigation and Monetary Values of Fish and Freshwater Mollusk Kills,” published by the American Fisheries Society.

“*Damages*” means the costs of restoration, rehabilitation, and replacement of resources or acquisition of equivalent resources, as determined in accordance with this chapter; the reasonable and necessary costs of the assessment, to include the cost of performing the assessment and administrative costs and expenses necessary for, and incidental to, the assessment; lost services to the public; and, in the event the damages claim is not resolved within six months after the incident leading to the damages, interest at the current rate published in the Iowa Administrative Bulletin by the department of revenue pursuant to Iowa Code section 421.7. The interest amount shall be computed from the date the amount of the claim is confirmed by a final ruling of the commission in a contested case decision.

“*Priority watershed*” means a watershed for which:

1. The department of natural resources, in partnership with other state or federal agencies, the agriculture community or nonprofit organizations, creates and implements plans, programs or projects to sustain and enhance watershed and stream functions; and
2. The principal objective is to manage wild animals and their habitats.

“*Surface water resources*” means the waters of the state, including the sediments suspended in water or lying on the bank, bed, or shoreline. This term does not include groundwater or water or sediments in ponds, lakes, or reservoirs designed for waste treatment under applicable laws regulating waste treatment.

“*Wild animals*” means fish, wildlife and other biota belonging to, managed by, held in trust by, appertaining to, or otherwise controlled by the state of Iowa, the United States, or local government. Fish and wildlife include freshwater aquatic and terrestrial species; game, nongame, and commercial species; and threatened and endangered species. Other biota encompass shellfish and other living organisms not otherwise listed in this definition.

[ARC 8464B, IAB 1/13/10, effective 2/17/10; ARC 9054B, IAB 9/8/10, effective 10/13/10; ARC 5058C, IAB 6/17/20, effective 7/22/20]

571—113.3(481A) Liability to the state. Persons who cause by water pollution the destruction of or injury to wild animals of the state shall be liable to the state as provided in Iowa Code section 481A.151. These rules establish the methodologies and criteria for evaluating the extent and value of the destruction or injury and establish the methods of compensation. If the person and the department cannot agree to the proper resolution of a particular case, the issues of liability, damage and compensation will be established through contested case proceedings, as provided by 571—Chapter 7.

[ARC 8464B, IAB 1/13/10, effective 2/17/10]

571—113.4(481A) Assessment. When wild animals are destroyed or injured by an identifiable source of water pollution, the degree and value of the losses shall be assessed by collecting, compiling, and analyzing relevant information, statistics, or data through prescribed methodologies to determine damages, as set forth in this rule.

113.4(1) General. For species other than fish, the professional judgment of fish and wildlife staff and available literature and guidance normally relied on in the fish and wildlife professions may be used to assess the injuries.

113.4(2) Fish loss. Assessment of damages for fish kills shall be in accordance with the following:

a. Normally investigators will follow the methods prescribed by AFS to determine, by species and size, numbers of fish killed.

b. During periods of ice cover, where local conditions prevent using the methods in “*a*” above, or in other appropriate circumstances, for example, when the resources are known to have been diminished by prior incidents, investigators will utilize the best information available to determine, by species and size, numbers of fish killed. Information may include existing or prior data on population levels in the affected water body or a nearby water body with similar characteristics, including any historical fish kill data.

c. The monetary valuation of fish shall be the replacement values as published in AFS for all fish lost except the following: channel catfish, flathead catfish, blue catfish, northern pike, muskellunge, northern pike/muskellunge hybrid, rainbow trout, brown trout, brook trout, white bass, yellow bass, white bass/striped bass hybrid, largemouth bass, smallmouth bass, spotted bass, crappie, rock bass, bluegill, redear sunfish, warmouth, pumpkinseed, freshwater drum, yellow perch, walleye, sauger and walleye/sauger hybrid. The value of these fish shall be \$15 each, unless AFS establishes a higher value. Notwithstanding the above, the value of each fish classified by the department as an endangered or threatened species shall be \$1,000.

d. The value of lost services to the public shall be the number of fishing trips lost over the period of the resource loss, as determined through local creel survey information or through interpolation from the most recent statewide creel survey. Each trip shall be valued at \$30.

e. The cost of the investigation shall include:

(1) Salaries plus overhead of staff, including support staff, involved in investigating the fish kill and performing the assessment.

(2) Any meals and lodging of staff while they are in the field conducting the assessment.

(3) Mileage valued at the current rate established pursuant to Iowa Code section 18.117.

(4) Costs borne by the department associated with containment or cleanup operations.

(5) Any other costs directly associated with the investigation and assessment.

[ARC 8464B, IAB 1/13/10, effective 2/17/10]

571—113.5(481A) Compensation. The department will extend to the responsible person the opportunity to reach voluntary agreement as to the amount of damages and the compensation method. The method of compensation shall be solely in the discretion of the department. If the person disputes liability or the damage amount, these issues will be resolved through contested case proceedings.

113.5(1) Direct monetary payment. Compensation shall normally be by direct monetary payment to the department for projects in priority watersheds selected by the department. To the extent reasonable and practical, the money received will be used to replace, restore or rehabilitate the lost or injured animals. Resource enhancement projects, support of educational programs relating to resource protection or enhancement, or resource acquisition of equal or greater value also may be funded. If practical, such alternatives should provide similar services to the public.

113.5(2) Indirect monetary payment. In cases where the destruction of or injury to wild animals is in a selected priority watershed, an equal or greater amount of compensation may be made by monetary payment to another government agency or private nonprofit group in the natural resource field for the same purposes as provided in subrule 113.5(1).

113.5(3) Direct funding of projects. With the approval and oversight of the department, the person may be allowed to contract directly for the same purposes as provided in subrule 113.5(1).

CHAPTER 114
NUISANCE WILDLIFE CONTROL

571—114.1(456A) Nuisance wildlife control program. This chapter is intended to implement Iowa Code section 456A.24(8) by providing permitting of nuisance wildlife control operators for the purpose of protecting private property from nuisance wildlife. No provision of this chapter shall restrict a landowner from lawfully removing nuisance wildlife pursuant to Iowa Code section 481A.87.

571—114.2(456A) Definitions.

“Annual activity report” means an annual report submitted on a form provided by the department.

“Biologist” means a natural resource biologist employed by the wildlife bureau of the department of natural resources.

“Guidebook” means the nuisance wildlife control operator’s manual provided by the department.

“Helper” means a person who possesses a fur harvester license, has paid the habitat fee, and is listed, by name, on the permit as authorized to perform nuisance wildlife control operator duties under the direction of the permittee.

“Nuisance wildlife” means wild, native animals or birds under the jurisdiction of the department of natural resources that are causing damage to private property, creating a nuisance, or presenting a health hazard.

“Nuisance wildlife control operator” or *“NWCO”* means a person who operates as a business and charges a fee to remove nuisance wildlife from private property.

“Permit” means an annual permit issued by the department under the authority of Iowa Code section 455A.5(6) “e” for the purpose of capturing and removing nuisance wildlife from private property. The permit shall expire January 10 of each year and is not transferable.

“Permittee” means an NWCO who possesses a valid nuisance wildlife control operator’s permit issued by the department and also possesses a valid Iowa fur harvester license and has paid the habitat fee.

“Special Canada goose control permit” or *“SCGCP”* means a permit to engage in the Canada goose population control activities specified by the department of natural resources.

“Technician” means a natural resource technician employed by the wildlife bureau of the department of natural resources.

“Translocate” means to transport and release an animal at a site other than the site at which it was captured.

571—114.3(456A) Nuisance wildlife control operator’s permit. An NWCO permit may be issued to an NWCO who, upon application and following review and testing, complies with all requirements established within this chapter. This is an annual permit and may be renewed by January 10 of the following year. The department shall not renew a permit without first receiving a completed annual activity report for the previous year.

571—114.4(456A) Application requirements. All applicants must be at least 18 years of age and possess a valid driver’s license.

571—114.5(456A) Nuisance wildlife control operator’s guidebook. All applicants will receive an NWCO guidebook at the time they submit a completed permit application form. The permittee shall refer to the guidebook as an operating manual for nuisance wildlife control activity. All requirements and procedures listed in the guidebook must be followed. The NWCO guidebook is hereby adopted by reference and shall be a part of this chapter as if set forth herein.

571—114.6(456A) Nuisance wildlife control operator’s test and interview. An applicant must successfully pass a written test with a minimum test score of 80 percent before an NWCO permit will be issued. If the applicant fails the written test, the applicant must wait 45 days before retaking the test. If the applicant fails the written test a second time, the applicant must wait 180 days before

reapplying. A \$25 testing fee will be assessed when the applicant successfully completes the test. In addition, the applicant must successfully complete an oral, in-person interview with a representative of the department to determine the applicant's knowledge of wildlife and wildlife capture techniques, and to determine if the applicant has the ability to provide effective services to the public.

571—114.7(456A) Records and record-keeping requirements. All permittees shall keep a daily record of their nuisance wildlife control activities. Each record must contain the client's name, address, telephone number, date of service, service provider's name, species of animal, number of animals removed, control methods used, and disposition of the animals. Permittees holding an SCGCP must also document on aerial photos, or similar maps, the locations of all Canada goose nests destroyed, the numbers of Canada goose eggs destroyed, and the numbers of Canada geese killed at each project site. These records shall be kept up to date and on file at the business location specified in the permit. The permittee shall provide these records for inspection by a department representative at any reasonable time.

571—114.8(456A) Annual activity report. The permittee shall submit an annual activity report on forms provided by the department no later than January 31 of the following year. The department shall not renew a permit until a complete and accurate annual activity report has been received for the preceding year.

571—114.9(456A) Permit renewal. An NWCO permit may be renewed by the department when all reporting requirements for the previous year have been met. An administrative fee of \$20 will be assessed at the time of permit renewal.

571—114.10(456A) Helper. A helper shall operate under the same conditions as the permittee. The permittee shall be responsible for all actions of the helpers listed on the permit. Compliance violations committed by a helper may be cause for the department to revoke the NWCO permit.

571—114.11(456A) Capture methods and trap tagging. Live traps such as box traps and leghold traps should be used whenever possible. Humane traps, which are those designed to kill instantly and which have a jaw spread exceeding eight inches, are unlawful except when placed entirely under water. All traps and snares, except those that are placed entirely under water, shall be checked once every 24 hours. All traps and snares for the taking of nuisance wildlife shall have a metal tag attached that is plainly labeled with the permittee's business name and address. If traditional capture methods fail, the permittee may use chemicals, smoking devices, mechanical ferrets, wire, tools, instruments, or water to remove nuisance animals in accordance with the procedures contained in the guidebook. No person, except a person acting under an NWCO permit, shall capture or take, or attempt to capture or take, with any trap, snare, or net, any game bird. The permittee and designated helpers shall observe all Iowa fur trapping and fur possession regulations as provided by Iowa law, the Iowa Administrative Code, and the NWCO guidebook.

571—114.12(456A) Endangered and threatened wildlife species. The permittee is not authorized to capture or possess any wildlife species listed as endangered or threatened. A permittee may only capture or possess a federally protected species to the extent that the permittee is authorized to engage in specific Canada goose population control activities by the terms of a valid SCGCP. This prohibition includes, but is not limited to, the capture or possession of bobcats, spotted skunks, hawks, owls, eagles, migratory birds, waterfowl, and songbirds. When a nuisance wildlife problem involves an endangered or threatened species, the local state conservation officer must be contacted, and the officer will determine how the situation should be handled.

571—114.13(456A) Special Canada goose control permits. A person applying for a special Canada goose control permit to use lethal methods to control Canada goose populations or to trap and translocate Canada geese must be a currently certified NWCO and must abide by the following rules:

114.13(1) *Lethal control practices.* Permittees wishing to use lethal methods, such as nest destruction, egg oiling, egg addling, or killing geese, must comply with the following procedures:

a. Permittees must obtain written permission from the biologist responsible for the county in which the lethal control practice is proposed for every site where a lethal control practice is proposed before implementing any such practice. The biologist will determine if lethal control practices are necessary and will specify the number of nests, eggs, or adult geese that can be destroyed at each site.

b. The permittee must follow the procedures in the NWCO guidebook for implementing lethal control practices and disposing of dead birds, eggs, and nests. Failure to follow such procedures will result in immediate revocation of the permit.

c. Permittees must satisfactorily complete at least two lethal control projects under the direct supervision of a biologist or technician before being granted an SCGCP for lethal control practices. Upon the permittee's satisfactory completion of two lethal control projects, the biologist can issue the NWCO an SCGCP to perform lethal control activities without direct supervision by DNR personnel. The NWCO must carry this permit whenever engaged in lethal Canada goose control activities and exhibit it upon request by department of natural resources personnel. Any persons assisting with the lethal control practices must be listed on the SCGCP. The permittee is responsible for the conduct of all persons listed on the SCGCP who are helping conduct lethal control operations.

d. Permittees must document on an aerial photo, or similar map, the locations of all Canada goose nests destroyed, the numbers of Canada goose eggs destroyed, and the numbers of Canada geese killed at each project site within 48 hours of completion of each project. Any banded geese that are killed must have the bands removed before disposal and be reported as specified in the NWCO guidebook within 48 hours of the permittee's completion of the project.

e. Permittees must provide the department a written report of all lethal control activities by December 31 of the year for which the SCGCP is valid. Failure to provide this report by December 31 will result in the permittee's not being reauthorized to use lethal control methods the following year.

114.13(2) *Trapping and translocation operations.* Permittees wishing to trap and translocate Canada geese must comply with the following procedures:

a. Permittees must obtain written permission from the biologist responsible for the county in which the trap and translocation operation is proposed for every site where such operation is proposed before implementing any such operation. The biologist will determine if a trap and translocation operation is necessary and will specify the number of geese that can be translocated from each site. The biologist will also specify release sites for the captured geese. Release sites must be approved by the biologist before any geese are captured.

b. The permittee must follow the procedures in the NWCO guidebook for implementing trap and translocation operations. Failure to follow such procedures will result in immediate revocation of the permit.

c. Before the permittee engages in a trap and translocation operation, the permittee's trapping and transport equipment must be inspected and approved by a biologist or technician.

d. Permittees must satisfactorily complete at least four trap and translocation projects under the direct supervision of a biologist or technician before being granted an SCGCP for trap and translocation operations. Upon satisfactory completion of four trap and translocation projects, the biologist can issue the NWCO an SCGCP to perform trap and translocation operations without direct supervision by DNR personnel. The NWCO must carry this permit whenever engaged in trap and translocation operations and exhibit it upon request by department of natural resources personnel. Any persons assisting with the trap and translocation operations must be listed on the SCGCP. The permittee is responsible for the conduct of all persons listed on the SCGCP who are helping with trap and translocation operations.

e. Permittees must inform the biologist of the number of birds captured and translocated within 48 hours of the completion of each operation. Permittees must document the number of Canada geese trapped and released for each capture and release site and the number of geese that died during each trap and translocation operation. Any banded geese that are captured and translocated must be reported as specified in the NWCO guidebook within 48 hours of completion of the project.

f. Permittees must provide the department a written report of all trap and translocation operations by December 31 of the year for which the SCGCP is valid. Failure to provide this report by December 31 will result in the permittee's not being reauthorized to trap and translocate geese the following year.

114.13(3) General provisions.

a. The SCGCP is valid for one year and must be reauthorized by a biologist each year when the NWCO permit is renewed.

b. Any plumage, eggs, eggshells, nests, or dead birds encountered by the permittee when performing activities permitted under this rule may not be sold, offered for sale, bartered or shipped or possessed for the purposes of being sold, offered for sale, bartered or shipped.

c. Any properties on which lethal control or trap and transport operations are conducted must be open at all reasonable times, including during actual operations, to any biologist or technician, conservation officer, U.S. Fish and Wildlife Service special agent, or U.S. Department of Agricultural Wildlife Services agent wishing to inspect the activity or the results of the activity.

d. Nothing in the permit should be construed to authorize the killing of any migratory bird or the destruction of the nests or eggs of any migratory bird other than resident Canada geese.

571—114.14(456A) Disposition of captured nuisance wildlife. Nuisance wildlife, with the exception of endangered or threatened species, may be relocated or euthanized. The permittee shall comply with the euthanization and release methods described in the NWCO guidebook. Sick or injured wildlife must be handled as described in the NWCO guidebook. The carcass of a dead nuisance animal must be disposed of in a legal manner and within 24 hours of the animal's death.

571—114.15(456A) General conditions for permits. Records and facilities shall be available for inspection by officers of the department during reasonable hours. All records and reports must be kept current and shall reflect a true and accurate account of the permittee's activities. The department's law enforcement bureau shall be notified in writing within 30 days if the permittee ceases operation as a nuisance wildlife control operator. Permittees and helpers must obtain and possess valid fur harvester licenses and have paid the habitat fees, except that persons listed as assistants on the SCGCP do not need to have a valid fur harvester license nor to have paid the habitat fee when assisting with Canada goose control activities. Permittees must renew their NWCO permits by January 31 of each year.

571—114.16(456A) Permit refusal. The department may suspend, revoke, refuse to issue, or refuse to renew a nuisance wildlife control operator's permit if the department finds that the permittee, a helper, or an employee of the permittee is not in compliance with this chapter. In addition, any violation of Iowa Code chapter 481A, 481B, 482, 483A, 484A, 484B, or 716 shall be cause for the department to suspend, revoke, refuse to issue, or refuse to renew a permit.

571—114.17(456A) Penalties. A person or organization that violates a provision of this chapter is guilty of a simple misdemeanor.

These rules are intended to implement Iowa Code sections 456A.24(8), 481A.38, 481A.39 and 481A.48.

CHAPTER 115
WHITETAIL HUNTING PRESERVES

571—115.1(81GA,SF206) Definitions. As used in these rules:

“*Annual activity report*” means the Annual Report Form provided by the department.

“*Boundary sign*” means a sign prescribed by the department which, when posted, designates the registered hunting preserve boundaries.

“*Documented event*” means but is not limited to the birth, death, harvest, transfer, sale, purchase, escape or release of preserve whitetail.

“*Privately owned*” means the propagation and holding of whitetail whose origins are from privately owned populations.

“*Registrant*” means a person or organization that holds an interest in land including a title holder that registers annually to possess a whitetail hunting preserve operator’s registration issued by the Iowa department of natural resources.

“*Transportation tag*” means a self-adhesive, numbered tag for marking an individual whitetail carcass prior to transportation.

“*Whitetail*” means an animal belonging to the Cervidae family and classified as part of the virginianus species of the odocoileus genus.

“*Whitetail hunting preserve operator’s annual registration*” means a registration which authorizes the holder to establish a hunting preserve for the purpose of holding, propagating, and releasing privately owned whitetail for hunting purposes.

571—115.2(81GA,SF206) Hunting preserve operator’s registration. A hunting preserve operator’s registration may, following review and inspection, be issued to a person or organization that, upon application, complies with all requirements established in 2005 Iowa Acts, Senate File 206, section 17, and this chapter. The registration fee shall be \$350 annually. Renewal registration fees shall be due and payable to the department no later than June 30 and must be accompanied by a completed annual report of the current fiscal year.

571—115.3(81GA,SF206) Boundary signs required. All registered hunting preserves shall provide, post, and maintain boundary signs which meet the following minimum specifications: 160 square-inch surface area; sign material of wood, steel, aluminum or heavy poly-plastic; and white/red sign color combination with the message “Registered Hunting Preserve.” Boundary signs shall be posted at each entrance and perimeter gate and at every boundary corner. If the facility operated prior to September 1, 2005, and was signed as a “Licensed Hunting Preserve,” those signs will satisfy the signing requirement. However, once existing sign supplies are depleted, new signs must read “Registered Hunting Preserve.”

571—115.4(81GA,SF206) Fencing required. All registered hunting preserves that possess a valid hunting preserve registration for whitetail shall construct and maintain a “deer-proof” boundary fence. Preserves shall have fencing constructed and maintained with a minimum fence height of eight feet above ground level. Fencing shall be inspected and approved by officers of the department prior to registration. Follow-up fence inspections by the department shall be allowed at any reasonable time by appointment or by providing the landowner or preserve registrant with at least 48 hours’ notice. Boundary fence gates shall remain closed at all times except for preserve maintenance activity, at which time no open gate shall be left unattended.

571—115.5(81GA,SF206) Records and annual report. All registered hunting preserves shall submit a completed annual activity report no later than June 30 of the current year to the Law Enforcement Bureau, Iowa Department of Natural Resources, Wallace State Office Building, 502 East 9th Street, Des Moines, Iowa 50319-0034. All registered hunting preserves shall retain sales/shipping receipts involving the purchase and delivery of any whitetail to the registrant. All registered hunting preserves shall record any transaction involving the sale or purchase of whitetail. All original sales receipts for harvested whitetail shall remain with the registrant as a part of the permanent record, and a copy shall be provided to the

purchasing client. This record requirement shall also apply to any sale of live whitetail for private or commercial use, and the sale must be recorded immediately following the event.

571—115.6(81GA,SF206) Whitetail transportation tags. A numbered, self-adhesive transportation tag shall be placed on a leg of each whitetail harvested on a registered hunting preserve prior to a person's moving the carcass in any manner. The client shall, upon taking a whitetail, immediately validate the transportation tag by including the following information in the space provided: species and sex of animal taken and the client's signature. The client shall also notch or punch a hole in the corresponding blocks on the transportation tag designating the year, month and day the animal was taken. The transportation tag shall remain attached to the whitetail until the whitetail is processed for consumption. Transportation tags shall be purchased from the license bureau of the Iowa Department of Natural Resources, Wallace State Office Building, 502 East 9th Street, Des Moines, Iowa 50319- 0034, at a cost of \$1 per tag.

571—115.7(81GA,SF206) Processed whitetail. Registered hunting preserves may prepare whitetail for clients by cleaning, dressing, preserving, and packaging the meat. Packaging material shall bear the transportation tag number, date the animal was killed, and hunting preserve name in a legible fashion on the outside of the package. The transportation tag shall remain with the meat during processing and shipment.

571—115.8(81GA,SF206) Health requirements—whitetail. No whitetail shipped or transported into or within Iowa shall be affected with or recently exposed to any infectious, contagious, or communicable disease, or originate from a quarantined area. All whitetail shipped or transported into or within Iowa for hunting preserve purposes must be in compliance with all movement requirements, including but not limited to health certificate requirements, as prescribed by the department and the department of agriculture and land stewardship as established in 21—65.9(163) and 21—66.14(163). All veterinary inspection certificates shall be retained by the registrant for a period of no less than five years.

571—115.9(81GA,SF206) Chronic wasting disease testing.

115.9(1) Testing required. A person who keeps whitetail under this chapter shall have chronic wasting disease tests performed on the following:

- a. Any whitetail that dies or is killed on the premises. A person trained and authorized shall collect the test sample and shall submit the sample for testing at an approved laboratory. This paragraph does not apply to whitetail less than six months old.
- b. Any whitetail that is shipped to slaughter from the herd premises. A person trained and authorized shall collect the test sample after the whitetail is slaughtered and shall submit the sample for testing at an approved laboratory. This paragraph does not apply to whitetail less than six months old.
- c. Testing under this subrule shall not qualify the herd for certification in the chronic wasting disease program administered by the department of agriculture and land stewardship. No live animals will be allowed to leave the hunting preserves.

115.9(2) Collecting test samples. One of the following persons shall collect a test sample and submit it for testing:

- a. A certified veterinarian.
- b. An employee of the department authorized by the department.
- c. A person approved by the department. Before a person collects a test sample, that person shall complete training approved by the department. The person shall comply with standard veterinary procedures when collecting a test sample.

115.9(3) Reporting disease findings. Whenever any person receives a laboratory test result for chronic wasting disease, that person shall immediately report that result to the department. The person shall report by telephone, fax or other rapid means within one day after receiving the test result and shall report in writing within ten days. The person shall provide a copy of the test result to the owner of the tested whitetail. This reporting requirement applies to any laboratory test result for chronic wasting disease. Telephone and fax reports should be made to the following numbers: telephone (515)281-6156

or fax (515)281-6794. Written reports should be sent to Iowa Department of Natural Resources, 502 E. 9th Street, Des Moines, Iowa 50319-0034, Attn: Wildlife Bureau.

571—115.10(81GA,SF206) Positive chronic wasting disease test results. A positive test result for chronic wasting disease will result in a minimum of a five-year quarantine on the preserve and all remaining animals located within the infected preserve. No animal movement in or out of the preserve shall occur during the quarantine period. The preserve operator, the operator's veterinarian if requested, and a designated epidemiologist shall develop a plan for eradicating chronic wasting disease in each affected herd. The plan must be designed to reduce and then eliminate chronic wasting disease from the herd; to prevent the spread of the disease to other herds, both privately owned and wild; and to prevent reintroduction of chronic wasting disease after the herd is released from quarantine. The herd plan must be developed and signed within 30 days after the determination that the herd is infected. The plan must be formalized as a memorandum of agreement between the preserve operator, the department and the state veterinarian's office. Disposal of infected animals must be in accordance with 571—104.11(481A). Premises must be cleaned and disinfected under department supervision within 15 days after affected animals have been removed.

571—115.11(81GA,SF206) General conditions for registration.

1. Records shall be available for inspection by officers of the department during any reasonable hours.
2. All records and reports shall be kept current and shall reflect a true and accurate account of the registrant's activities.
3. The department's law enforcement bureau shall be notified within 30 days in writing if the registrant ceases operation as a hunting preserve, at which time all unused whitetail transportation tags shall be returned to the department.
4. A registrant shall renew the hunting preserve operator's registration and recertify no later than June 30. Registration renewal and recertification requests received by the department after June 30 shall be considered delinquent.
5. The department shall not renew a hunting preserve operator's registration unless a completed annual report, including all documented events for the reporting period, has been received by the department prior to the reporting deadline.
6. For purposes of this chapter, there shall be a continuous open season on whitetail enclosed on registered preserves.
7. Individuals may use centerfire rifles, pistols, crossbows, modern or traditional archery equipment, muzzleloaders, or shotguns to hunt and harvest preserve whitetail.

These rules are intended to implement 2005 Iowa Acts, Senate File 206, sections 14 to 26.

CHAPTER 116
HELP US STOP HUNGER PROGRAM ADMINISTRATION

571—116.1(483A) Purpose. This chapter establishes the procedures for the administration of the help us stop hunger (HUSH) deer donation program. HUSH is established pursuant to Iowa Code section 483A.8(1) to encourage hunters, during periods of excessive deer populations, to harvest more deer than needed for personal consumption and to donate those deer to a program to feed Iowans in need.

571—116.2(483A) Definitions.

“Deer” means any wild deer legally taken in Iowa and deer confiscated as legal evidence if the confiscated carcass is considered by a conservation officer to be in good condition for donation.

“Department” means the department of natural resources.

“Distributor” means the Food Bank of Iowa or, in the event the Food Bank of Iowa discontinues participation in HUSH, such other venison distribution service provider as shall be designated by future contract with the department.

“Field dressed” means that the deer has been properly bled and cleaned of its internal organs.

“Food Bank of Iowa” means the private, nonprofit charitable organization incorporated under that name, whose mission is to alleviate hunger and reduce food waste in Iowa.

“HUSH” means the help us stop hunger program.

“HUSH coordinator” means an employee of the department who administers the deer donation program.

“Meat processor” means any business that is licensed by the department of agriculture and land stewardship’s bureau of meat and poultry inspection, the USDA, or a neighboring state’s department that is similar to Iowa’s, to process meat for retail customers.

571—116.3(483A) Restrictions. Deer is the only species of wildlife that shall be covered by the HUSH program. The entire deer carcass must be donated, but the hunter may keep the antlers, head and cape.

571—116.4(483A) HUSH council. There is hereby created a HUSH council. Members shall serve without additional compensation.

116.4(1) Membership. The HUSH council shall include the following voting members:

- a. The HUSH coordinator, who shall serve as the chairperson;
- b. An additional department representative designated by the department’s wildlife bureau chief;
- c. A representative of the Food Bank of Iowa appointed by its executive director;
- d. The chief of the department of agriculture and land stewardship’s bureau of meat and poultry inspection or a designee of the chief.

116.4(2) Duties.

a. To set a fair market price, the council shall consider prices for similar services paid by retail customers in Iowa and nearby states and shall recommend to the department an annual per-deer processing payment to be made to meat processors.

b. The council shall recommend to the department an annual per-deer administrative payment to be made to the Food Bank of Iowa. The Food Bank of Iowa shall provide information to assist in this determination but shall not participate in any vote of the council regarding the recommendation of the annual per-deer administrative payment to the Food Bank of Iowa.

c. The council shall make recommendations to the department to resolve conflicts or disputes in the operation of the HUSH program as brought to it by any person or entity.

d. The council shall adopt standards for participating lockers to meet in terms of their record of violations of rules of the bureau of meat and poultry inspection and the department of natural resources.

e. The council shall advise the department in the administration of HUSH.

116.4(3) Administration. The HUSH coordinator shall convene the council as needed to conduct business. A majority vote shall be required for action or decision by the council. The chief of the department’s wildlife bureau shall have the right to overrule the council for cause and shall provide the

council with justification for the reasons. A quorum to conduct business shall consist of three council members, one of whom shall be the HUSH coordinator.

571—116.5(483A) Duties of the department. During periods of excessive deer populations, the department shall promote the harvest of deer by hunters and the donation of deer at meat processors participating in HUSH. During periods of nonexcessive deer populations, HUSH may continue with less emphasis on promotion to hunters.

116.5(1) *Meat processors.* The department shall enlist as many meat processors as available to participate in HUSH and shall enter into uniform agreements with meat processors. The department shall provide forms for donations of deer by hunters, posters for meat processors to advertise their participation, venison pickup receipts and invoices, and two-pound freezer bags for use by meat processors that are HUSH participants. The department shall provide informational and promotional materials to meat processors regarding HUSH.

116.5(2) *Venison distributor.* The department shall enter into an annual agreement with the Food Bank of Iowa or, in the event the Food Bank of Iowa discontinues participation in HUSH, other service providers designated by future contract to carry out the duties described in 571—116.6(483A). The department shall pay the distributor a per-deer rate of payment for administrative services provided. The department shall make such payments to the distributor as described in the annual agreement for the purpose of making payments to participating meat processors.

571—116.6(483A) Duties of venison distributor. In order to continue participation in HUSH, the distributor shall enter into an annual agreement with the department for venison pickup from meat processors and distribution throughout Iowa, and for the administration of financial accounts with meat processors. The distributor shall make reports to the department. The distributor shall be compensated by the department at a rate per deer as determined annually by the department, with recommendations from the HUSH council taken into consideration.

116.6(1) *Venison pickup and distribution.* The distributor shall cause timely pickup of venison from meat processors and distribution of the venison to the distributor's member social service agencies.

116.6(2) *Payments to meat processors.* The distributor shall make payments to meat processors at the rate set by the department. Prior to receiving payment, a meat processor shall be required to provide the following: a record of each donated deer that includes information required by the department, an invoice from the meat processor, a copy of a completed donor form, and a supporting record of the venison pickup. Provided funding is available from the department, payments shall be made to meat processors within 30 days of submittal of a complete and accurate record.

116.6(3) *Reports to the department.* The distributor shall keep accurate records of the amount of venison picked up from meat processors and distributed to qualified agencies, including copies of receipts and invoices from venison pickups, and by April 1 of each year shall provide the department a report of each donated deer for which payment was made to a meat processor.

116.6(4) *Reimbursement to the department.* If any funding provided by the DNR is unused for venison processing or administrative costs, all unused funds shall be refunded to the department by May 1 of each year.

571—116.7(483A) Meat processors.

116.7(1) *Eligibility.* To participate in the HUSH program, each meat processor shall enter into a uniform annual agreement with the department which details the meat processor's participation. The agreement shall be signed by the meat processor and the department by August 1 prior to the coming deer season. Exceptions to this date may be considered by the HUSH council, which will then make recommendations to the department.

116.7(2) *Requirements.* Meat processors shall accept the entire field-dressed carcass of a donated deer, pursuant to 571—116.3(483A), and shall not assess any fees or costs to donors. Information from the donor is required for each donated deer and shall be submitted on forms provided by the department. Payment shall not be made to a meat processor without this information.

116.7(3) *Venison.* Meat processors shall accept a donated deer, pursuant to 571—116.3(483A), if the meat processor determines the venison is in acceptable condition. Deer shall be processed into pure ground venison with no additives, put into bags provided by the department, and frozen prior to being received by a representative of the Food Bank of Iowa or another designated distributor. Venison pickup shall be initiated by the meat processor by contacting the meat processor's designated pickup person.

116.7(4) *Venison pickup.* At the time of venison pickup, the meat processor shall provide accurate information and an official signature on a form provided by the department. The meat processor shall retain one copy of the form for billing purposes and one copy for the meat processor's business records.

116.7(5) *Billing the distributor.* To receive payment for venison processing, the meat processor shall submit to the distributor a copy of the venison pickup and invoice form, the department form that provides information on each donated deer, and any additional information that is required by the department on the form provided.

571—116.8(483A) Partnerships with other organizations. The department, at its own discretion, may enter into agreements with other organizations for the purpose of expanding the deer donation program. The department may include the offer of matching grants to pay for deer processing to organizations that acquire funding from sources other than the state of Iowa.

These rules are intended to implement Iowa Code chapter 483A.
