h. Work demands or conditions render continued employment unreasonable, such as working without being paid on schedule.

i. Circumstances beyond the control of the participant, such as disruption of regular mail delivery.

93.133(3) *Jobs that participants have the choice of refusing or quitting or limiting or reducing, or instances when participants are excused for discharge from the job due to misconduct as described at rule 441—93.132(239B).*

a. Employment change or termination is part of the FIA.

b. Job does not pay at least the minimum amount customary for the same work in the community.

c. Employment is terminated in order to take a better-paying job, even though hours of employment may be less than current.

d. The employment would result in the family of the participant experiencing a net loss of cash income. Net loss of cash income results if the family's gross income less necessary work-related expenses is less than the cash assistance the person was receiving at the time the offer of employment is made. Gross income includes, but is not limited to, earnings, unearned income, and cash assistance. Gross income does not include food stamp benefits and in-kind income.

e. The employment changes substantially from the terms of hire, such as a change in work hours, work shift, or decrease in pay rate.

93.133(4) *Instances when problems of participation could negatively impact the client's achievement of self-sufficiency.* There may be instances where staff determine that a participant's problems of participation are not described in 93.133(1) to 93.133(3), but may be circumstances which could negatively impact the participant's achievement of self-sufficiency. When this occurs, the case shall be referred to the administrator of the division of economic assistance for a determination as to whether the problems are acceptable instances for not participating or for refusing or quitting a job or for discharge from employment due to misconduct as described at rule 441—93.132(239B).

441—93.134(239B) Barriers to participation. Problems with participation of a permanent or long-term nature shall be considered barriers to participation and shall be identified in the FIA as issues to be resolved so that participation can result. These barriers may be identified during assessment and shall be part of the FIA from the beginning. When barriers are revealed by the applicant or participant during the FIA development or are identified by problems that develop after the FIA is signed, the FIA shall be renegotiated and amended to provide for removal of the barriers.

93.134(1) An FIA-responsible applicant who chooses not to cooperate in removing barriers to participation identified during FIA development shall be denied FIP.

93.134(2) An FIA-responsible participant who chooses not to cooperate in removing identified barriers to participation shall be considered to have chosen the limited benefit plan unless the person claims a physical or mental disability that is expected to last for more than 12 consecutive months. When such a person refuses to apply for social security benefits or supplemental security income, the FIP household is ineligible for FIP as described at 441—subrule 41.27(1) and the limited benefit plan does not apply.

93.134(3) Barriers to participation shall include, but not be limited to, the following:

a. Child or adult care is needed before a person can participate or take a job, and the care is not available. Participants are not required to do any activity unless suitable child or adult care has been arranged. In limited instances where special-needs care is not available, it may be most practical for the participant to develop the FIA to identify providing the child or adult care as the FIA option.

b. Lack of transportation.

c. Substance addiction.

d. Sexual or domestic abuse history.

e. Overwhelming family stress.

f. Physical or mental disability.

441—93.135(239B) Required client documentation. Documentation necessary to verify that the PROMISE JOBS participant is carrying out the terms of the FIA shall be provided by the participant.

93.135(1) *Written verification.* The client can be required to provide written verification of family emergency, lack of transportation, or job search activities. It is the responsibility of the client to notify program staff or work site supervisors as soon as possible that a lack of transportation or family emergency has occurred and the expected duration.

93.135(2) *Time and attendance.* The participant's hours of attendance in work and training activities shall be verified monthly.

a. When the participant is in the work experience (WEP) component, the hours of participation shall be verified monthly by the work site, within ten calendar days following the end of each month.

b. Rescinded IAB 3/3/93, effective 5/1/93.

c. When work and training services are provided by training institutions, organizations, agencies, or persons outside of the PROMISE JOBS program, unless some other method is agreed to by the provider and PROMISE JOBS staff, the participant's hours of attendance shall be verified on the PROMISE JOBS Time and Attendance Report, Form 470-2617, which shall be signed and dated by the training provider. When a training provider refuses or fails to verify the hours of attendance, a signed and dated statement from the participant on Form 470-2617 shall be accepted in lieu of a signed statement from the training provider. The form shall be returned by the training provider or client within ten calendar days following the end of each month. In those instances when a training provider refuses or fails to return a completed, signed and dated PROMISE JOBS Time and Attendance Report, Form 470-2617, and it is necessary to request that the form be completed by the participant instead, the participant shall be allowed five working days to provide the form, even if the fifth working day falls on or after the tenth calendar day following the end of the month.

d. In those instances where the participant is involved in an activity, other than job search, which is not directly monitored by the PROMISE JOBS worker or an outside training provider, the participant shall record the hours of participation on the PROMISE JOBS Time and Attendance Report, Form 470-2617, and shall sign and date the form. The PROMISE JOBS worker shall review the form. The participant's hours shall be accepted unless the PROMISE JOBS worker has justifiable cause to doubt the accuracy of the hours. If the PROMISE JOBS worker accepts the hours, the PROMISE JOBS worker shall also sign and date the form. The form shall be returned within ten calendar days following the end of each month. If the hours reported are questioned, the PROMISE JOBS worker shall meet with the participant to resolve the discrepancy. The participant shall provide further verification, if required.

e. When a participant involved in any PROMISE JOBS component fails to verify the participant's hours of attendance as described above, the participant shall enter the limited benefit plan. Policies at subrule 93.138(3) apply.

93.135(3) *Job search documentation.* Documentation of any job search activities which cannot be documented by the PROMISE JOBS worker shall be provided by the participant using Form 470-3099, Job Search Record. The Job Search Record shall include the name and address of the employer, the name and telephone number of the contact person, the date on which contact was made, and the outcome of the contact. It shall also contain authorization for PROMISE JOBS staff to telephone any listed employer to verify the contact.

The Job Search Record shall be provided within five working days after the last working day of any week during which the participant has made a job search. Participants who fail to provide all information described above on the Job Search Record or do not provide the documentation timely have chosen the limited benefit plan. Policies at rules 441—93.132(239B), 441—93.133(239B) and 441—93.134(239B), and at subrule 93.138(3) apply.

93.135(4) *Employment verification.* When the information is not available from any other source, participants shall verify scheduled and actual hours of employment at the time that employment begins and on a monthly basis thereafter. Participants may use employer statements or copies of pay stubs, or may sign Form 470-0429, Consent to Obtain and Release Information, so that the employer may provide information directly to the PROMISE JOBS worker.

Participants shall provide verification of scheduled and actual hours of employment within ten calendar days following the end of each month for ongoing employment.

441—93.136(249C) Duration of probationary periods. Rescinded IAB 12/8/93, effective 1/1/94.

441—93.137(239B) Written notification.

93.137(1) Applicants. At the time of referral, applicants shall be notified verbally and hand-issued the notice of a scheduled appointment for orientation and FIA development. If the notice of appointment cannot be hand-issued, at least five working days shall be allowed from the date notice is mailed for an applicant to appear for the scheduled appointment for orientation and FIA development unless the applicant agrees to an appointment that is scheduled to take place in less than five working days.

93.137(2) Participants. Participants shall be notified in writing of all scheduled meetings, component assignments, work site assignments, and participation issues as described at rule 441—93.132(239B). Written notice to the participant shall also be provided when a physical examination, doctor's statement, employment verification, or other verification is required.

a. Participants shall be allowed 45 calendar days from the date notice is mailed to provide a physical examination report.

b. Five working days shall be allowed from the date notice is mailed for a participant to appear for scheduled meetings unless the participant agrees to an appointment that is scheduled to take place in less than five working days.

c. Five working days shall be allowed from the date notice is mailed for a participant to appear for component or work site assignments, provide a doctor's statement, employment verification, or provide other verification.

d. Additional time shall be allowed when it is verified that a participant is making every effort but is unable to fulfill requirements within the established time frames.

441—93.138(239B) Resolution of disputes around the FIA and PROMISE JOBS participation.

93.138(1) Informal resolution process. When there is a disagreement between the participant and the immediate PROMISE JOBS worker regarding the participant's FIA or participation in PROMISE JOBS components, the participant can request to talk to the supervisor and request a decision on the dispute. The supervisor shall schedule a face-to-face interview with the participant within 7 days and issue a decision in writing within 14 days of the participant's request.

93.138(2) Resolution process for FIP participants who choose a first limited benefit plan. Before a notice of decision establishing a first limited benefit plan is issued, the case shall be reviewed in a procedure approved by the division of workforce development administration in the workforce development department. The procedure may include review by state-level division of workforce development administration staff or by a regional PROMISE JOBS manager, a PROMISE JOBS supervisor, an income maintenance supervisor, a person designated to coordinate services for FIP participants in the area, or a combination of any of the above. Approval of any review procedure at less than the state level for participants choosing a limited benefit plan by not carrying out the FIA responsibilities shall occur only after the service delivery region demonstrates satisfactory performance of the resolution process. The department of human services retains control and oversees review procedures through its contract with the workforce development department.

The notice of decision establishing a first limited benefit plan shall inform the FIP participant that the participant may reconsider at any time from the date timely and adequate notice is issued establishing the limited benefit plan. The notice of decision shall inform the participant that the participant shall contact the department or appropriate PROMISE JOBS office to reconsider the limited benefit plan.

a. For participants who choose a first limited benefit plan, the notice of decision shall inform the participant of the action needed to reconsider the limited benefit plan as described at 441—subparagraph 41.24(8)“d”(1).

(1) When the participant contacts either the income maintenance worker or the PROMISE JOBS office, the participant shall be scheduled to begin or resume development of the FIA as described elsewhere in these rules.

(2) When the FIA is signed, the PROMISE JOBS worker shall notify the department and the limited benefit plan shall be terminated. FIP benefits shall be effective as described at 441—subparagraph 41.24(8)“d”(1).

b. For participants who appear to be choosing a first limited benefit plan by not carrying out the FIA responsibilities, the PROMISE JOBS worker shall make every effort to negotiate for a solution at the time that the PROMISE JOBS worker determines that a reminder, request, or other written notification must be sent due to a potential participation issue as described at rule 441—93.132(239B). The written reminder, request, or other notification shall identify the participation issue, clarify expectations, attempt to identify barriers to participation which should be addressed in the FIA, explain the consequences of the LBP, and offer supervisory intervention. This subrule applies when a participant fails to respond to the PROMISE JOBS worker’s request to renegotiate the FIA when the participant has not attained self-sufficiency by the date established in the FIA. In this situation, an LBP shall be imposed regardless of whether the request to renegotiate is made prior to or after expiration of the FIA.

(1) Local PROMISE JOBS management shall have the option to involve an impartial third party to assist in a resolution process. Arrangements shall be indicated in the local services plan of the local service delivery region.

(2) If the above resolution actions do not lead to fulfillment of the FIA, the case shall be referred for review as previously stated in this rule.

(3) If the above steps do not lead to fulfillment of the FIA, the FIP participant is considered to have chosen the limited benefit plan and the notice of decision shall be initiated. The notice of decision shall inform the participant of the action needed to reconsider the limited benefit plan as described at 441—subparagraph 41.24(8)“d”(1).

(4) When the participant contacts either the income maintenance worker or the PROMISE JOBS office, the participant shall be scheduled to sign a new or updated FIA as described elsewhere in these rules.

(5) When the FIA is signed and the participant has satisfactorily completed significant action, the PROMISE JOBS worker shall notify the department and the limited benefit plan shall be terminated. FIP benefits shall be effective as described at 441—subparagraph 41.24(8)“d”(1).

c. Appeal rights under the limited benefit plan are described at rule 441—93.140(239B), and judicial review upon petition of the participant is always available.

93.138(3) *Resolution process for FIP participants who choose a subsequent limited benefit plan.* The notice of decision establishing a subsequent limited benefit plan shall inform the FIP participant of the six-month ineligibility period and that the participant may reconsider at any time following the six-month ineligibility period. To reconsider, the participant must complete significant contact with or action in regard to the PROMISE JOBS program as described at 441—subparagraph 41.24(8)“d”(3). When the six-month ineligibility period ends, and the participant contacts either the income maintenance worker or the PROMISE JOBS office, the participant shall be scheduled to sign a new or updated FIA and to begin significant action as described at 441—subparagraph 41.24(8)“d”(3). When the FIA is signed and the participant has satisfactorily completed the significant action, the PROMISE JOBS worker shall notify the department and the limited benefit plan shall be terminated. FIP benefits shall be effective as described at 441—subparagraph 41.24(8)“d”(3).

a. For participants who choose a subsequent limited benefit plan as described at 441—subparagraph 41.24(8)“c”(1), the reminder letter shall include an explanation of the consequences of a subsequent limited benefit plan and offer supervisory intervention.

b. For participants who appear to be choosing a subsequent limited benefit plan by not carrying out the FIA responsibilities, the PROMISE JOBS worker shall make every effort to negotiate for a solution at the time that the PROMISE JOBS worker determines that a reminder, request, or other written notification must be sent due to a potential participation issue as described at rule 441—93.132(239B) and at subrule 93.114(14). The written reminder, request, or other notification shall identify the participation issue, clarify expectations, attempt to identify barriers to participation which should be addressed in the FIA, explain the consequences of the LBP, and offer supervisory intervention. This paragraph applies when a participant fails to respond to the PROMISE JOBS worker’s request to renegotiate the FIA when

the participant has not attained self-sufficiency by the date established in the FIA. An LBP shall be imposed regardless of whether the request to renegotiate is made prior to or after expiration of the FIA. Local PROMISE JOBS management shall have the option to involve an impartial third party to assist in a resolution process. Arrangements shall be indicated in the local service plan of the local service delivery region.

(1) and (2) Rescinded IAB 2/6/02, effective 4/1/02.

c. Before a notice of decision to establish a second limited benefit plan is issued, the case shall be reviewed under a procedure approved by the workforce development department.

(1) The procedure may include review by state-level division of workforce development center administration staff or by a regional PROMISE JOBS manager, a PROMISE JOBS supervisor, an income maintenance supervisor, a person designated to coordinate services for FIP participants in the area, or a combination of any of the above.

(2) Approval of any review procedure at less than the state level for participants choosing a subsequent limited benefit plan by not carrying out the FIP responsibilities shall occur only after the service delivery region demonstrates satisfactory performance of the resolution process.

(3) The department of human services retains control and oversees review procedures through its contract with the workforce development department.

d. If the above steps do not lead to fulfillment of the FIA, the FIP participant is considered to have chosen a subsequent limited benefit plan and the notice of decision establishing the limited benefit plan shall be initiated. The notice of decision shall inform the participant of the action needed to reconsider the limited benefit plan as described at 441—subparagraph 41.24(8)“d”(3).

e. Appeal rights under the limited benefit plan are described at rule 441—93.140(239B), and judicial review upon petition of the participant is always available.

f. Rescinded IAB 4/3/02, effective 4/1/02.

93.138(4) *Check on the well-being of the children in subsequent LBP households.* Rescinded IAB 4/3/02, effective 4/1/02.

441—93.139(239B) Notice of decision. PROMISE JOBS will send written notice to each client in accordance with 441—Chapter 7 when:

1. Services are approved, rejected, renewed, changed, canceled, or terminated for failure to cooperate or participate. PROMISE JOBS services are considered to be approved at that point when the client is assigned to begin participation in a component as written in the FIA.

2. An expense allowance is offset or the offset amount is changed due to action to recover an overpayment.

441—93.140(239B) Right of appeal. Each applicant and recipient is entitled to appeal and be granted a hearing over disputes regarding services being received or services which have been requested and denied, reduced, canceled, or inadequately provided, and acts of discrimination on the basis of race, sex, national origin, religion, age or handicapping condition according to 441—Chapter 7.

93.140(1) *Right to appeal alleged violation of PROMISE JOBS program policy.* Participants shall have the right to file a written appeal concerning any alleged violation of PROMISE JOBS program policy as set forth in these administrative rules which is imposed as a condition of participation. The responsible agency shall provide the participant with written documentation which specifies the participation requirement in dispute.

93.140(2) *Appeal rights under the limited benefit plan.* A participant only has the right to appeal the establishment of the limited benefit plan once at the time the department issues the timely and adequate notice that establishes the limited benefit plan.

However, when the reason for the appeal is based on incorrect grant computation, an error in determining the eligible group, or another worker error, a hearing shall be granted when the appeal otherwise meets the criteria for hearing.

93.140(3) *Right to request a hearing.* A participant who is enrolled in the PROMISE JOBS program may request a hearing if dissatisfied with working conditions, the availability of workers' compensation

coverage or the wage rate used in determining hours of community work experience program participation. When any involved party is dissatisfied with the decision on the appeal, the dissatisfied party shall be informed of the right and, if so desired, assisted with appealing the issue to the Secretary of Labor, at Office of Administrative Law Judges, U.S. Department of Labor, Vanguard Building, Room 600, 111 20th Street N.W., Washington, DC 20036, within 20 days of receipt of the department's final decision. For the purposes of this rule, the department's final decision shall be considered received the second day after the date that the written decision was mailed, unless the intended recipient can demonstrate that it was not received on the second day after the mailing date. When the second day falls on a Sunday or legal holiday, the time shall be extended to the next mail delivery day. The option to appeal to the Secretary of Labor does not preclude an individual from exercising any right to judicial review provided in Iowa Code chapter 17A or as described in 441—Chapter 7.

93.140(4) *Right to appeal the content of the family investment agreement.* A participant shall have the right to appeal the content of the FIA when the informal resolution process described at 93.138(1) does not resolve a disagreement between the participant and the PROMISE JOBS worker and the participant wishes to continue in the FIA process.

441—93.141(249C) Participant recycling, deactivation, and waiving participation. Rescinded IAB 12/8/93, effective 1/1/94.

441—93.142(249C) Eligibility-termination. Rescinded IAB 12/8/93, effective 1/1/94.

441—93.143(239B) Confidentiality. The departments of education, workforce development, economic development, and human rights, local education agencies, and all subcontractor provider agencies shall safeguard client information in conformance with Iowa Code section 217.30.

The department and PROMISE JOBS provider agencies may disclose client information to other state agencies, or to any other entity or person who is not subject to the Iowa Administrative Procedure Act, when that agency or other entity or person must have that information in order to provide services to PROMISE JOBS participants which have been determined to be necessary for successful participation in PROMISE JOBS.

441—93.144(239B) PROMISE JOBS grievance procedure. The PROMISE JOBS program shall provide a grievance procedure to address and resolve public complaints regarding the displacement of regular workers with program participants.

93.144(1) The procedure will provide that:

a. Complaints must be filed in writing and received by the PROMISE JOBS contractee within one year of the alleged violation.

b. A representative of the PROMISE JOBS contractee must schedule a face-to-face interview with the complainant within seven days of the date the complaint is filed, to provide the opportunity for informal resolution of the complaint.

c. Written notice of the location, date and time of the face-to-face interview must be provided.

d. An opportunity must be provided to present evidence at the face-to-face interview.

e. The representative of the PROMISE JOBS contractee shall issue a decision in writing within 14 days of the date a complaint is filed.

f. A written explanation must be provided to all involved parties of the right to file a written appeal, according to 441—Chapter 7, if the opportunity for informal resolution is declined, if a party receives an adverse decision from the PROMISE JOBS contractee, or if there is no decision within the 14-day period.

(1) To be considered, an appeal must be filed with the department within ten days of the mailing date of the adverse decision or ten days from the date on which a decision should have been mailed.

(2) An appeal hearing will not be granted until informal resolution procedures have been exhausted, unless a decision has not been issued within 24 days of the complaint filing date.

93.144(2) The department shall issue a final decision within 90 days of the date the complaint was filed with the PROMISE JOBS contractee.

93.144(3) Any dissatisfied party shall be informed of the right to appeal the decision of the department to the Secretary of Labor at Office of Administrative Law Judges, U.S. Department of Labor, Vanguard Building, Room 600, 111 20th Street N.W., Washington, DC 20036, within 20 days of the receipt of the department's final decision. For the purposes of this rule, the department's final decision shall be considered received the second day after the date that the written decision was mailed, unless the intended recipient can demonstrate that it was not received on the second day after the mailing date. When the second day falls on a Sunday or legal holiday, the time shall be extended to the next mail delivery date. The option to appeal to the Secretary of Labor does not preclude an individual from exercising any right to judicial review as provided in Iowa Code chapter 17A or as described in 441—Chapter 7.

93.144(4) Upon notice of a complaint or grievance, the PROMISE JOBS office must provide the complaining party with a copy of the grievance procedures, notification of the right to file a formal complaint and instruction on how to file a complaint.

93.144(5) Upon filing a complaint, and at each stage thereafter, each complainant must be notified in writing of the next step in the complaint procedure.

93.144(6) The identity of any person who has furnished information relating to, or assisting in, an investigation of a possible violation must be kept confidential to the extent possible, consistent with due process and a fair determination of the issues.

93.144(7) All employers who participate in the PROMISE JOBS program shall provide assurances that all regular employees are aware of this grievance procedure.

441—93.145(239B) Workers' compensation for PROMISE JOBS work experience participants. The department shall provide workers' compensation coverage for all PROMISE JOBS work experience participants.

441—93.146(239B) Safety rules from PROMISE JOBS work sponsors. Each work experience program sponsor shall provide to the PROMISE JOBS contractee a copy of the safety rules in effect in that entity before participants are referred for work site placement.

441—93.147(249C) Required notices to the department. Rescinded IAB 3/3/93, effective 5/1/93.

441—93.148(239B) Records maintenance. All agencies who contract with the department to provide PROMISE JOBS services shall maintain all records related to the program for three years.

93.148(1) Agencies shall allow federal or state officials access to all records upon request.

93.148(2) Rescinded IAB 3/3/93, effective 5/1/93.

441—93.149(249C) Responsibilities of any organization with a UP-CWEP work site other than the provider agency. Rescinded IAB 3/3/93, effective 5/1/93.

441—93.150(239B) Financial. The provider agency shall receive financial reimbursement as specified in contracts negotiated with each agency. Contracts shall also specify in detail the expenses which are not eligible for reimbursement.

441—93.151(239B) Recovery of PROMISE JOBS expense allowances. When an applicant, a participant, or a provider receives an expense allowance for transportation or other supportive expenses which is greater than allowed under these rules or receives a duplicate payment of an expense allowance, an overpayment is considered to have occurred and recovery is required. There are two categories of PROMISE JOBS expense allowances subject to recovery: (1) transportation and (2) other supportive expense allowances.

The PROMISE JOBS worker shall notify the department of inspections and appeals (DIA) to record the overpayment in the Overpayment Recovery System. The outstanding balance of any overpayments which occurred before July 1, 1990, shall be treated in the same manner.

A PROMISE JOBS overpayment shall be recovered through repayment in part or in full or through offsetting against future payments in the same category. Underpayments and overpayments may be offset against each other in correcting incorrect payments in the same category. Repayments received by the PROMISE JOBS unit and information about recoveries made through offsetting shall be transmitted to the Department of Human Services, Cashier's Office, Room 14, 1305 E. Walnut Street, Des Moines, Iowa 50319-0144.

Overpayments of PROMISE JOBS child care issued for months prior to July 1999 shall be subject to recovery rules of the PROMISE JOBS program. Overpayments of child care assistance issued for July 1999 and any month thereafter are subject to recovery rules of the child care assistance program set forth in rule 441—170.9(234).

93.151(1) The department of inspections and appeals shall notify the client or the provider when it is determined that an overpayment exists, as described at 441—subrule 7.5(6). Notification shall include the amount, date, and reason for the overpayment. Upon the client's request, the local office shall provide additional information regarding the computation of the overpayment. The client may appeal the computation of the overpayment and any action to recover the overpayment through benefit reduction in accordance with 441—subrule 7.5(6). If a client or provider files an appeal request, the PROMISE JOBS unit shall notify DIA within three working days of receipt of the appeal request.

a. Actual offsetting in the PROMISE JOBS office cannot begin until after the end of the 30-day appeal period which begins with the day following issuance of the Notice of Overpayment—PROMISE JOBS Expense Allowances. If a client or a provider files an appeal request during the 30-day appeal period, the PROMISE JOBS unit shall not initiate offsetting until the appeal is resolved by withdrawal or a final appeal decision which permits offsetting as a method of overpayment recovery.

b. When a client or a provider offers repayment in part or in full before the end of the 30-day appeal period, the PROMISE JOBS unit or the department of human services local office shall accept the payment. If a subsequent appeal request is received, the PROMISE JOBS unit shall notify DIA and shall not accept any further payments on the claim. The amount of the voluntary payment shall not be returned to the client or provider unless the final decision on the appeal directs the department to do so.

93.151(2) When offsetting is to be used to recover the overpayment, the PROMISE JOBS worker shall issue a Notice of Decision-Services, Form SS-1104-0, after the end of the 30-day appeal period, informing the client or the provider of the amount to be offset. In those instances where the amount to be offset changes, a new Notice of Decision-Services shall be issued. The notice must be timely and the client or provider has the right to appeal the notice which initiates offsetting and any subsequent notice which changes the amount to be offset.

93.151(3) When a participant receives an overpayment and is unable or unwilling to make a refund, the PROMISE JOBS worker shall recover the overpayment by offsetting it against future months' expenses in the same category.

a. Rescinded IAB 6/30/99, effective 7/1/99.

b. In those instances when the PROMISE JOBS worker is offsetting to recover support services, sufficient current expenses shall be paid to enable continued participation in the activity.

c. When it becomes impossible to recover through offsetting, either because the participant is no longer participating in PROMISE JOBS or because any potential offsetting would jeopardize the participant's progress toward the employment goal, the PROMISE JOBS worker shall notify DIA so that recovery procedures can be initiated.

93.151(4) When a support services provider receives an overpayment on behalf of a PROMISE JOBS participant and is unable or unwilling to make a refund, the PROMISE JOBS worker may recover the overpayment by offsetting it against future months' expenses for the same client.

a. The period of time available to complete the offsetting will be limited according to the amount of the overpayment. For amounts up to \$500, three months is the maximum period; for amounts over \$500

and up to \$1,000, six months is the maximum period. Offsetting shall not be initiated for overpayments which do not meet these limits.

b. When it becomes impossible to recover through offsetting, because the client is no longer participating in PROMISE JOBS, or because the overpayment amount exceeds the limits described in paragraph “*a*” above or because the provider will deny service to the client if offsetting is initiated, the PROMISE JOBS worker shall notify the DIA so that repayment procedures can be initiated.

c. If the provider does not agree that an overpayment has occurred or will deny service to the client if offsetting is initiated, the PROMISE JOBS worker shall not initiate offsetting. The worker shall explain that DIA will contact the provider regarding recovery procedures and shall explain appeal rights as found in 441—Chapter 7.

93.151(5) When a client or a provider has been referred to DIA to initiate recovery, DIA shall use the same methods of recovery as are used for the FIP program, described at DIA rules 481—71.1(10A) to 71.9(10A), except that the FIP grant shall not be reduced to effect recovery without the client’s written permission.

a. When the client requests grant reduction on Form 470-0495, Repayment Contract, grant reduction will be made as described in 441—subrule 46.25(3), paragraphs “*a*,” “*b*,” and “*c*,” based on definitions of client error and agency error in rule 441—46.21(239B).

b. With regard to provider overpayments, DIA is authorized to take any reasonable action to effect recovery such as, but not limited to: informal agreements, civil action, or criminal prosecution. However, DIA shall not take any action which would jeopardize the participant’s continued participation in the PROMISE JOBS program.

441—93.152(239B) Disadvantaging the family by a change in child care method. Rescinded IAB 6/30/99, effective 7/1/99.

These rules are intended to implement Iowa Code Supplement sections 239B.17 to 239B.22.

CHAPTER 94
IOWA TRANSITIONAL ASSISTANCE FOR
DIRECT EDUCATION COSTS PROGRAM

Rescinded IAB 2/6/02, effective 4/1/02

TITLE X
SUPPORT RECOVERYCHAPTER 95
COLLECTIONS

[Prior to 7/1/83, Social Services[770] Ch 95]

[Prior to 2/11/87, Human Services[498]]

441—95.1(252B) Definitions.

“*Bureau chief*” shall mean the chief of the bureau of collections of the department of human services or the bureau chief’s designee.

“*Caretaker*” shall mean a custodial parent, relative or guardian whose needs are included in an assistance grant paid according to Iowa Code chapter 239B, or who is receiving this assistance on behalf of a dependent child, or who is a recipient of nonassistance child support services.

“*Child support recovery unit*” shall mean any person, unit, or other agency which is charged with the responsibility for providing or assisting in the provision of child support enforcement services pursuant to Title IV-D of the Social Security Act.

“*Consumer reporting agency*” shall mean any person or organization which, for monetary fees, dues or on a cooperative nonprofit basis, regularly engages in whole or in part in the practice of assembling or evaluating consumer credit information or other information on consumers for the purpose of furnishing consumer reports to third parties, and which uses any means or facility of interstate commerce for the purpose of preparing or furnishing consumer reports.

“*Current support*” shall mean those payments received in the amount, manner and frequency as specified by an order for support and which are paid to the clerk of the district court, the public agency designated as the distributor of support payments as in interstate cases, or another designated agency. Payments to persons other than the clerk of the district court or other designated agency do not satisfy the definition of support pursuant to Iowa Code section 598.22. In addition, current support shall include assessments received as specified pursuant to rule 441—156.1(234).

“*Date of collection*” shall mean the date that a support payment is received by the department or the legal entity of any state or political subdivision actually making the collection, or the date that a support payment is withheld from the income of a responsible person by an employer or other income provider, whichever is earlier.

“*Delinquent support*” shall mean a payment, or portion of a payment, including interest, not received by the clerk of the district court or other designated agency at the time it was due. In addition, delinquent support shall also include assessments not received as specified pursuant to rule 441—156.1(234).

“*Department*” shall mean the department of human services.

“*Dependent child*” shall mean a person who meets the eligibility criteria established in Iowa Code chapter 234 or 239B, and whose support is required by Iowa Code chapter 234, 239B, 252A, 252C, 252F, 252H, 252K, 598 or 600B, and any other comparable chapter.

“*Federal nontax payment*” shall mean an amount payable by the federal government which is subject to administrative offset for support under the federal Debt Collection Improvement Act, Public Law 104-134.

“*Obligee*” shall mean any person or entity entitled to child support or medical support for a child.

“*Obligor*” shall mean a parent, relative or guardian, or any other designated person who is legally liable for the support of a child or a child’s caretaker.

“*Payor of income*” shall have the same meaning provided this term in Iowa Code section 252D.16.

“*Prepayment*” shall mean payment toward an ongoing support obligation when the payment exceeds the current support obligation and amounts due for past months are fully paid.

“*Public assistance*” shall mean assistance provided according to Iowa Code chapter 239B or 249A, the cost of foster care provided by the department according to chapter 234, or assistance provided under comparable laws of other states.

“*Responsible person*” shall mean a parent, relative or guardian, or any other designated person who is or may be declared to be legally liable for the support of a child or a child’s caretaker. For the purposes of calculating a support obligation pursuant to the mandatory child support guidelines prescribed by the

Iowa Supreme Court in accordance with Iowa Code section 598.21, subsection 4, this shall mean the person from whom support is sought.

“*Support*” shall mean child support or medical support or both for purposes of establishing, modifying or enforcing orders, and spousal support for purposes of enforcing an order.

This rule is intended to implement Iowa Code chapters 252B, 252C and 252D.

441—95.2(252B) Child support recovery eligibility and services.

95.2(1) *Public assistance cases.* The child support recovery unit shall provide paternity establishment and support establishment, modification and enforcement services, as appropriate, under federal and state laws and rules for children and families referred to the unit who have applied for or are receiving public assistance. Referrals under this subrule may be made by the family investment program, the Medicaid program, the foster care program or agencies of other states providing child support services under Title IV-D of the Social Security Act for recipients of public assistance.

95.2(2) *Nonpublic assistance cases.* The same services provided by the child support recovery unit for public assistance cases shall also be made available to any person not otherwise eligible for public assistance. The services shall be made available to persons upon the completion and filing of an application with the child support recovery unit except that an application shall not be required to provide services to the following persons:

a. Persons not receiving public assistance for whom an agency of another state providing Title IV-D child support recovery services has requested services.

b. Persons for whom a foreign reciprocating country or a foreign country with which this state has an arrangement as provided in 42 U.S.C. §659 has requested services.

c. Persons who are eligible for continued services upon termination of assistance under the family investment program or Medicaid.

95.2(3) *Services available.* Except as provided by separate rule, the child support recovery unit shall provide the same services as the unit provides for public assistance recipients to persons not otherwise eligible for services as public assistance recipients. The child support recovery unit shall determine the appropriate enforcement procedure to be used. The services are limited to the establishment of paternity, the establishment and enforcement of child support obligations and medical support obligations, and the enforcement of spousal support orders if the spouse is the custodial parent of a child for whom the department is enforcing a child support or medical support order.

95.2(4) *Application for services.*

a. A person who is not on public assistance requesting services under this chapter, except for those persons eligible to receive support services under paragraphs 95.2(2)“*a,*” “*b,*” and “*c,*” shall complete and return Form 470-0188, Application for Nonassistance Support Services, for each parent from whom the person is seeking support.

(1) The application shall be returned to the child support recovery unit serving the county where the person resides. If the person does not live in the state, the application form shall be returned to the county in which the support order is entered or in which the other parent or putative father resides.

(2) The person requesting services has the option to seek support from one or both of the child’s parents.

b. An individual who is required to complete Form 470-0188, Application for Nonassistance Support Services, shall be charged an application fee in the amount set by statute. The unit shall charge one application fee for each parent from whom support is sought. The unit shall charge the fee at the time of initial application and any subsequent application for services. The individual shall pay the application fee to the local child support recovery unit before services are provided.

This rule is intended to implement Iowa Code sections 252B.3 and 252B.4.

441—95.3(252B) Crediting of current and delinquent support. The amounts received as support from the obligor shall be credited as the required support obligation for the month in which they are collected. Any excess shall be credited as delinquent payments and shall be applied to the immediately preceding

month, and then to the next immediately preceding month until all excess has been applied. Funds received as a result of federal tax offsets shall be credited according to rule 441—95.7(252B).

The date of collection shall be determined as follows:

95.3(1) *Payments from income withholding.* Payments collected as the result of income withholding are considered collected in the month in which the income was withheld by the income provider. The date of collection shall be the date on which the income was withheld.

a. For the purpose of reporting the date the income was withheld, the department shall notify income providers of the requirement to report the date income was withheld and shall provide Form 470-3221, “Income Withholding Return Document,” to those income providers who manually remit payments. When reported on this form or through other electronic means or multiple account listings, the date of collection shall be used to determine support distributions. When the date of collection is not reported, support distributions shall initially be issued based on the date of the check. If proof of the date of collection is subsequently provided, any additional payments due the recipient shall be issued.

b. When the collection services center (CSC) is notified or otherwise becomes aware that a payment received from an income provider pursuant to 441—Chapter 98, Division II, includes payment amounts such as vacation pay or severance pay, these amounts are considered irrevocably withheld in the months documented by the income provider. When the income provider does not document the months for which the sums are withheld, the amounts shall initially be distributed based on the date of the check. If documentation is subsequently provided, any additional payments due the recipient shall be issued.

95.3(2) *Payments from state or political subdivisions.* Payments collected from any state or political subdivision are considered collected in the same month the payments were actually received by that legal entity or the month withheld by an income provider, whichever is earlier. Any state or political subdivision transmitting payments to the department shall be responsible for reporting the date the payments were collected. When the date of collection is not reported, support distributions shall be initially issued based on the date of the state’s or political subdivision’s check. If proof of the date of collection is subsequently provided, any additional payments due the recipient shall be issued.

95.3(3) *Additional payments.* An additional payment in the month which is received within five calendar days prior to the end of the month shall be considered collected in the next month if:

- a.* CSC is notified or otherwise becomes aware that the payment is for the next month, and
- b.* Support for the current month is fully paid.

This rule is intended to implement Iowa Code sections 252B.15 and 252D.17.

441—95.4(252B) Prepayment of support. Prepayment which is due to the child support obligee shall be sent to the obligee upon receipt by the department, and shall be credited as payment of future months’ support. Prepayment which is due the state shall be distributed as if it were received in the month when due. Support is prepaid when amounts have been collected which fully satisfy the ongoing support obligation for the current month and all past months.

441—95.5(252B) Lump sum settlement.

95.5(1) Any lump sum settlement of child support involving an assignment of child support payments shall be negotiated in conjunction with the child support recovery unit. The child support recovery unit shall be responsible for the determination of the amount due the department, including any accrued interest on the support debt computed in accordance with Iowa Code section 535.3 for court judgments. This determination of the amount due shall be made in accordance with Section 302.51, Code of Federal Regulations, Title 45 as amended to August 4, 1989. The bureau chief may waive collection of the accrued interest when negotiating a lump sum settlement of a support debt, if the waiver will facilitate the collection of the support debt.

95.5(2) The child support recovery unit shall be responsible for the determination of the department’s entitlement to all or any of the lump sum payment in a paternity action.

This rule is intended to implement Iowa Code chapter 252C.

441—95.6(252B) Offset against state income tax refund or rebate. The department will make a claim against an obligor's state income tax refund or rebate when a support payment is delinquent as set forth in rule 11—40.1(8A). A claim against an obligor's state income tax refund or rebate shall apply to support which the department is attempting to collect.

95.6(1) By the first day of each month, the department shall submit to the department of administrative services a list of obligors who:

- a. Are delinquent at least \$50 in support payments; and
- b. Have not paid the current support obligation plus a monthly payment on the delinquency in each of the preceding 12 months.

95.6(2) When the department claims an obligor's state income tax refund or rebate, the department shall mail a preoffset notice to the obligor to inform the obligor of the amount the department intends to claim and apply to support. The department shall mail a preoffset notice when:

- a. The department of administrative services notifies the department that the obligor is entitled to a state income tax refund or rebate; and
- b. The obligor has a delinquency of \$50 or greater; and
- c. The obligor has not paid the current support obligation plus a monthly payment on the delinquency in each of the 12 months preceding the month in which the preoffset notice is mailed.

95.6(3) When the obligor wishes to contest a claim, a written request shall be submitted to the department within 15 days after the preoffset notice is mailed. When the request is received within the 15-day limit, a hearing shall be granted pursuant to rules in 441—Chapter 7.

95.6(4) The spouse's proportionate share of a joint return filed with an obligor, as determined by the department of revenue, shall be released by the department of revenue unless other claims are made on that portion of the joint income tax refund. The request for release of a spouse's proportionate share shall be in writing and received by the department within 15 days after the mailing date of the preoffset notice.

95.6(5) Rescinded IAB 4/30/03, effective 7/1/03.

95.6(6) The department shall notify an obligor of the final decision regarding the claim against the tax refund or rebate by mailing a final disposition of support recovery claim notice to the obligor.

95.6(7) Application of offset. Offsets shall be applied as provided in rule 441—95.3(252B).

This rule is intended to implement Iowa Code sections 252B.3 and 252B.4.

441—95.7(252B) Offset against federal income tax refund and federal nontax payment. The department will make a claim against an obligor's federal income tax refund or federal nontax payment when delinquent support is owed. For purposes of this offset, delinquent support shall include the entire balance of a judgment for accrued support, as provided in Iowa Code section 252B.5(4).

95.7(1) Amount of assigned support. If the delinquent support is assigned to the department, the amount of delinquent support shall be at least \$150, calculated by combining the assigned delinquent support in all of the obligor's cases in which the assigned delinquent support is at least \$50.

95.7(2) Amount of nonassigned support. If delinquent support is not assigned to the department, the claim shall be made if the amount of delinquent support is at least \$500, calculated by combining the nonassigned delinquent support in all of the obligor's cases in which the nonassigned delinquent support is at least \$50.

a. The amount distributed to an obligee shall be the amount remaining following payment of a support delinquency assigned to the department. The department shall distribute to an obligee the amount collected from an offset according to subrule 95.7(9) within the following time frames:

(1) Within six months from the date the department applies an offset amount from a joint income tax refund to the child support account of the responsible person, or within 15 days of the date of resolution of an appeal under subrule 95.7(8), whichever is later, or

(2) Within 30 days from the date the department applies an offset amount from a single income tax refund to the child support account of the responsible person, or within 15 days of the date of resolution of an appeal under subrule 95.7(8), whichever is later.

(3) However, the department is not required to distribute until it has received the amount collected from an offset from the federal Department of the Treasury.

b. Federal nontax payment offset distribution. Federal nontax payment offsets shall be applied as provided in rule 441—95.3(252B).

95.7(3) Notification to federal agency. The department shall, by October 1 of each year or at times as permitted or specified by federal regulations, submit a notification(s) of liability for delinquent support to the federal office of child support enforcement.

95.7(4) Preoffset notice and review. Each obligor who does not have an existing support debt on record with the federal office of child support enforcement will be sent a preoffset notice in writing, using address information provided to the federal office of child support enforcement, stating the amount of the delinquent support certified for offset.

a. Individuals whose names were submitted for federal offset who wish to dispute the offset must notify the department in writing within the time period specified in the preoffset notice.

b. Upon receipt of a complaint from the individual disputing the submission for offset, the child support recovery unit shall conduct a review to determine if there is a mistake of fact and respond to the individual in writing within ten days. For purposes of this rule, “mistake of fact” means a mistake in the identity of the obligor or whether the delinquency meets the criteria for referral.

95.7(5) Recalculation of delinquency. When the records of the department differ with those of the obligor for determining the amount of the delinquent support, the obligor may provide and the department will accept documents verifying modifications of the order, and records of payments made pursuant to state law, and will recalculate the delinquency.

95.7(6) The department shall notify the federal office of child support enforcement, within time frames established by it, of any modification or elimination of an amount referred for offset.

95.7(7) When an individual does not respond to the preoffset notice within the specified time even though the department later agrees a certification error was made, the person must wait for corrective action as specified in subrule 95.7(8).

95.7(8) Offset notice, appeal, and refund. The federal Department of the Treasury will send notice that a federal income tax refund or federal nontax payment owed to the obligor has been intercepted. When the unit receives information from the federal office of child support enforcement regarding the offset, or when the individual whose name was submitted for federal offset notifies the department that the individual has received an offset notice, the department shall issue to that individual Form 470-3684, Appeal Rights for Federal Offsets.

a. The individual whose name was submitted for federal offset shall have 15 days from the date of the notice to contest the offset by initiating an administrative appeal pursuant to 441—subrules 7.8(1) and 7.8(2). Except as specifically provided in this rule, administrative appeals will be governed by 441—Chapter 7. The issue on appeal shall be limited to a mistake of fact as specified at paragraph 95.7(4) “*b.*”

b. The department shall refund the incorrect portion of a federal income tax offset or federal nontax payment offset within 30 days following verification of the offset amount. Verification shall mean a listing from the federal office of child support enforcement containing the obligor’s name and the amount of tax refund or nontax payment to which the obligor is entitled. The date the department receives the federal listing will be the beginning day of the 30-day period in which to make a refund.

The department shall refund the amount incorrectly set off to the obligor unless the obligor agrees to apply the refund of the incorrect offset to any other support obligation due. Prior to the receipt of the refund, the obligor shall sign Form 470-2082, Adjustment of Federal Tax or Nontax Offset Agreement, agreeing to repay any amount of the offset the Department of the Treasury later requires the department to return.

95.7(9) Application of offsets. Offsets of federal income tax refunds shall be applied to delinquent support only. The department shall first apply the amount collected from an offset to delinquent support assigned to the department under Iowa Code chapters 234 and 239B. The department shall then apply

any amount remaining in equal proportions to delinquent support due individuals receiving nonassistance services.

This rule is intended to implement Iowa Code sections 252B.3, 252B.4, and 252B.5.

441—95.8(96) Child support offset of unemployment insurance benefits. When the department of workforce development notifies the child support recovery unit that an individual who owes a child support obligation being enforced by the unit has been determined to be eligible for unemployment insurance benefits, the unit will enforce a child support obligation that is owed by an obligor but is not being met by offset of unemployment insurance benefits. “Owed but not being met” means either current child support not being met or arrearages that are owed.

95.8(1) Withholding. The child support recovery unit shall offset unemployment insurance benefits by initiating a withholding of income pursuant to Iowa Code chapter 252D and 441—Chapter 98, Division II. The amount to be withheld through a withholding of unemployment insurance benefits shall not exceed the amount specified in 15 U.S.C. 1673(b).

95.8(2) A receipt of the payments intercepted through unemployment insurance benefits will be provided once a year, upon the obligor’s request to the child support recovery unit.

This rule is intended to implement Iowa Code section 96.3 and 15 U.S.C. 1673(b).

441—95.9 Reserved.

441—95.10(252C) Mandatory assignment of wages. Rescinded IAB 9/5/90, effective 11/1/90.

441—95.11(252C) Establishment of an administrative order. Rescinded IAB 9/1/93, effective 11/1/93. See 441—99.41(252C).

441—95.12(252B) Procedures for providing information to consumer reporting agencies. The bureau chief shall make information available to consumer reporting agencies, upon their request, regarding the amount of overdue support owed by a responsible person only in cases where the overdue support exceeds \$1,000.

95.12(1) Request of information. Agencies shall request the information from the Bureau of Collections, Department of Human Services, Hoover State Office Building, Des Moines, Iowa 50319-0114. Requests for information about an individual shall include the individual’s name and identifying information such as a social security number or birth date. Agencies may also request a listing of all obligors owing support in excess of \$1,000.

95.12(2) A notice of proposed release of information shall be sent to the last known address of the responsible person 30 calendar days prior to the release of the support arrearage information to a consumer reporting agency. This notice shall explain the information to be released and the methods available for contesting the accuracy of the information.

95.12(3) The responsible person may, within 15 calendar days of the date of the notice of proposed release of information, request a conference with the child support recovery officer to contest the accuracy of the information to be given to the consumer reporting agency. In contested cases no referral shall be made to the consumer reporting agency until after the amount of overdue support has been confirmed to exceed \$1,000.

95.12(4) Rescinded IAB 11/6/96, effective 1/1/97.

This rule is intended to implement Iowa Code section 252B.8.

441—95.13(17A) Appeals. Nonreceipt of support collected by the department that is to be paid to the obligee may be appealed pursuant to the procedures provided in this rule if the obligee claims that the payment was credited to the incorrect month in accordance with subrules 95.3(1), 95.3(2), and 95.3(3).

95.13(1) Contact with department. Obligees who believe they have not received all or part of a support payment to which they are entitled in accordance with subrules 95.3(1), 95.3(2), and 95.3(3) must first contact a customer service representative and indicate that they have not received the payment.

a. An obligee may contact a customer service representative in person at the department's collection services center, by telephone through the specialized customer services unit, or by writing to the Collection Services Center, 727 East 2nd Street, Des Moines, Iowa 50306.

b. The department will acknowledge this contact in writing, indicating the months at issue.

95.13(2) *Written decision.* Within 30 days of the contact, the department shall issue a written decision on all contested support distributions based on the date of collection.

95.13(3) *Initiation of appeal.* If the department denies some or all support payments that are claimed based on the date of collection, the obligee may initiate an administrative appeal.

a. To initiate an administrative appeal, the obligee shall make a written request to the child support recovery unit indicating an intent to appeal.

b. The time limit for initiating an administrative appeal shall be governed by 441—subrule 7.5(4). The time limit provided in 441—subrule 7.5(4) shall start with the date that a written decision as required by subrule 95.13(2) is issued.

c. If no written decision has been issued after 30 days, the obligee may appeal the failure to issue a written decision. The appeal may be initiated at any time after 30 days and before a written decision is issued.

95.13(4) *Limitation of appeals.* Appeals will be limited to claims based on child support received by the department during the nine-month period before the month in which the appeal is initiated.

95.13(5) *Appeal process.* Except as specifically provided in this rule, administrative appeals shall be governed by 441—Chapter 7.

95.13(6) *Appeal issue.* The issue in appeals held pursuant to these procedures shall be limited to the obligee's entitlement to a support payment that has been collected by the department.

This rule is intended to implement Iowa Code sections 17A.12 to 17A.20.

441—95.14(252B) Termination of services.

95.14(1) *Case closure criteria.*

a. Child support services to a recipient of public assistance may be terminated when one of the following case closure criteria is met:

(1) There is no ongoing support obligation and arrearages are under \$500 or unenforceable under state law.

(2) The noncustodial parent or putative father is deceased and no further action, including a levy against the estate, can be taken.

(3) Paternity cannot be established because:

1. The child is at least 18 years old and action to establish paternity is barred by the statute of limitations;

2. A genetic test or a court or administrative process has excluded the putative father and no other putative father can be identified; or

3. The identity of the biological father is unknown and cannot be identified after diligent efforts, including at least one interview by the child support recovery unit with the recipient of services.

(4) The noncustodial parent's location is unknown, and the child support recovery unit has made diligent efforts to locate the noncustodial parent using multiple sources, in accordance with regulations in 45 CFR 303.3, as amended to March 10, 1999, all of which have been unsuccessful, within the applicable time frame:

1. Over a three-year period when there is sufficient information to initiate an automated locate effort.

2. Over a one-year period when there is not sufficient information to initiate an automated locate effort.

(5) The noncustodial parent cannot pay support for the duration of the child's minority because the parent has been institutionalized in a psychiatric facility, is incarcerated with no chance for parole, or has a medically verified total and permanent disability with no evidence of support potential. The child support recovery unit must have determined that no income or assets are available to the noncustodial parent which could be levied or attached for the payment of support.

(6) The noncustodial parent is a citizen of, and lives in, a foreign country, does not work for the federal government or a company with headquarters or offices in the United States, and has no reachable domestic income or assets, and there is not a reciprocity agreement with that country.

(7) There has been a finding of good cause or other exception in a public assistance case as specified in 441—subrules 41.22(8) through 41.22(12) and 441—subrule 75.14(3), including a determination that support enforcement may not proceed without risk or harm to the child or caretaker relative.

(8) The child support recovery unit documents failure by the child support agency of another state which requested services to take an action which is essential for the next step in providing services.

(9) The non-IV-A recipient of services requests closure of a case and there is no assignment to the state of medical support under 42 CFR 433.146, as amended to October 1, 2002, or of arrearages which accrued under a support order.

(10) The case meets any other basis for case closure based upon federal law.

b. Child support services to a person who is not receiving public assistance may be terminated when one of the case closure criteria of subparagraphs 95.14(1)“*a*”(1) through (6) or (8) is met or for one or more of the following reasons:

(1) The child support recovery unit has received a written or oral request from the recipient to close the case, and there is no assignment to the state of medical support or arrearages which accrued under a support order.

(2) The child support recovery unit has received information that the address in the unit’s record is no longer current, and the unit is unable to contact or otherwise locate the recipient within 60 days following receipt of this information, despite an attempt of at least one letter sent by first-class mail to the recipient’s last-known address.

(3) The recipient of services has failed to cooperate with the child support recovery unit, the circumstances of the noncooperation have been documented, and an action by the recipient of services is essential for the next step in providing services. (See rule 441—95.19(252B).)

(4) The child support recovery unit has provided location-only services.

(5) The child support recovery unit has determined that it would not be in the best interest of the child to establish paternity in a case that involves incest or forcible rape or a case in which legal proceedings for adoption are pending.

(6) The case meets any other basis for case closure based upon federal law.

95.14(2) Notification in public assistance cases. In cases meeting one of the criteria of subparagraphs 95.14(1)“*a*”(1) through (6), (8), or (10), the child support recovery unit shall send notification of its intent to close the case to the recipient of services or the child support agency in the state which requested services in writing 60 calendar days before case closure. The notice shall be sent to the recipient of services or the state requesting services at the last-known address stating the reason for denying or terminating services, the effective date, and an explanation of the right to request a hearing according to 441—Chapter 7. Closure of the case following notification is subject to the following:

a. If, in response to the notice, the recipient of services or the state requesting services supplies information which could lead to the establishment of paternity or a support order or enforcement of an order, the case shall be kept open.

b. The recipient of services may request that the case be reopened at a later date if there is a change in circumstances which could lead to the establishment of paternity or a support order or enforcement of an order by completing a new application and paying any applicable fee.

95.14(3) Reasons for termination of services to nonpublic assistance recipients. Rescinded IAB 4/30/03, effective 7/1/03.

95.14(4) Notification in nonpublic assistance cases. The child support recovery unit shall provide notification to nonpublic assistance cases meeting the criteria for closure in paragraph 95.14(1)“*b*” in the manner and under the conditions stated in subrule 95.14(2), except for cases terminated for the reasons listed in subparagraphs 95.14(1)“*b*”(1) and (4). If the case is to be closed because the child support recovery unit was unable to contact the recipient of services as provided in subparagraph 95.14(1)“*b*”(2),

the case shall be kept open if contact is reestablished with the recipient of services before the effective date of the closure.

This rule is intended to implement Iowa Code sections 252B.4, 252B.5 and 252B.6.

441—95.15(252B) Child support recovery unit attorney.

95.15(1) *State's representative.* An assistant attorney general, assistant county attorney, or independent contract attorney employed by or under contract with the child support recovery unit represents only the state of Iowa. The sole attorney-client relationship for the child support recovery unit attorney is between the attorney and the state of Iowa. A private attorney acting under Iowa Code section 252B.6A is not a child support recovery unit attorney, and is not a party to the action.

95.15(2) *Provision of services.* The special role of the child support recovery unit attorney is limited by the attorney-client relationship between the attorney and the state of Iowa. The provision of legal services by the child support recovery unit attorney is limited as follows:

a. The child support recovery unit attorney shall not represent any person or entity other than the state of Iowa in the course of the attorney's employment by or contractual relationship with the child support recovery unit.

b. The child support recovery unit attorney shall issue written disclosure of the attorney-client relationship between the attorney and the state of Iowa to recipients of child support enforcement services and to all parties in a review and adjustment proceeding.

95.15(3) *Communication concerning case circumstances.*

a. The child support recovery unit shall provide case status information upon written request by any recipient of child support enforcement services or any party under the review and adjustment procedure, unless otherwise prohibited by state or federal statute or rules pertaining to confidentiality.

b. All communications with other parties will be directed to those parties personally, unless a licensed attorney has entered an appearance or notified the child support recovery unit in writing that the attorney is representing a party. If any party is represented by counsel, all communications shall be directed to counsel for that party.

c. When a party is receiving public assistance, the unit shall refer any suspected fraud or questionable family investment program expenditures to the appropriate governmental agencies.

This rule is intended to implement Iowa Code sections 252B.5 to 252B.7 and 598.21.

441—95.16(252B) Handling and use of federal 1099 information. Data from the collection and reporting system is matched with federal 1099 records for information on assets and income. Verified 1099 information may be used for: establishing support orders, modifying support orders under the review and adjustment process and enforcing payment of support debts.

95.16(1) *Security of 1099 information.* Information received from the federal source, 1099, shall be safeguarded in accordance with Internal Revenue Code Section 6103(p)(4). Information shall be kept in a secure section of the state computer system and not released until verified by a third party.

95.16(2) *Verification of 1099 information.* Prior to release of any information to the local child support recovery office, the information shall be verified by a third party as follows:

a. When information indicates there may be assets available from a financial institution, the child support recovery unit shall secure verification of these assets from the financial institution on Form 470-3170, Asset Verification Form.

b. When address information is received, the child support recovery unit shall secure verification of the address information from the post office on Form 470-0176, Address Information Request.

c. When employment information is received, the child support recovery unit shall secure verification of the employment from the employer on Form 470-0177, Employer Information Request.

This rule is intended to implement Iowa Code section 252B.9.

441—95.17(252B) Effective date of support. For all original orders established by the child support recovery unit, the effective date of the support obligation under the orders shall be the twentieth day following the date the order is prepared by the unit, unless otherwise specified.

441—95.18(252B) Continued services available to canceled family investment program (FIP) or Medicaid recipients. Support services shall automatically be provided to persons who were eligible to receive support services as recipients of FIP or Medicaid and who were canceled from FIP or Medicaid. Continued support services shall not be provided to a person who has been canceled from FIP or Medicaid when a claim of good cause, as defined at 441—subrule 41.22(8) or 441—subrule 75.14(3), as appropriate, was valid at the time assistance was canceled or when one of the reasons for termination of services, listed at rule 441—95.14(252B), applies to the case.

Support services shall be provided to eligible persons without application or application fee, but subject to applicable enforcement fees.

95.18(1) Notice of services. When a family is no longer eligible for public assistance, the department shall forward Form 470-1981, Notice of Continued Support Services, to the family's last-known address within five working days of the notification of ineligibility, to inform the family:

a. That, unless the family notifies the department to the contrary, services will continue.

b. Of the effect of continuing to receive support services, including the available services and the state's policies on fees, cost recovery, and distribution.

95.18(2) Termination of services. A person may request the department to terminate support services at any time by the completion and return of the appropriate portion of Form 470-1981, Notice of Continued Support Services, or in any other form of written communication, to the child support recovery unit.

Continued support services may be terminated at any time for any of the reasons listed in rule 441—95.14(252B).

95.18(3) Reapplication for services. A person whose services were denied or terminated may reapply for services under this chapter by completing the application process and paying the application fee described in subrule 95.2(4).

This rule is intended to implement Iowa Code section 252B.4.

441—95.19(252B) Cooperation of public assistance recipients in establishing and obtaining support. If a person who is a recipient of FIP or Medicaid is required to cooperate with the child support recovery unit in establishing paternity; in establishing, modifying, or enforcing child or medical support; or in enforcing spousal support, the following shall apply:

95.19(1) Cooperation defined. The person shall cooperate in good faith in obtaining support for persons whose needs are included in the assistance grant or Medicaid household, except when good cause or other exception as defined in 441—subrule 41.22(8) or 75.14(8) for refusal to cooperate, is established.

a. The person shall cooperate in the following areas:

(1) Identifying and locating the parent of the child for whom assistance or Medicaid is claimed.

(2) Establishing the paternity of a child born out of wedlock for whom assistance or Medicaid is claimed.

(3) Obtaining support payments for the person and the child for whom assistance is claimed, and obtaining medical support for the person and child for whom Medicaid is claimed.

b. Cooperation is defined as including the following actions by the person if the action is requested by the child support recovery unit:

(1) Providing the name of the noncustodial parent and additional necessary information.

(2) Appearing at the child support recovery unit to provide verbal or written information or documentary evidence known to, possessed by, or reasonably obtained by the person that is relevant to achieving the objectives of the child support recovery program.

(3) Appearing at judicial or other hearings, proceedings or interviews.

(4) Providing information or attesting to the lack of information, under penalty of perjury.

(5) If the paternity of the child has not been legally established, submitting to blood or genetic tests pursuant to a judicial or administrative order. The person may be requested to sign a voluntary affidavit of paternity after being given notice of the rights and consequences of signing such an affidavit

as required by the statute in Iowa Code section 252A.3A. However, the person shall not be required to sign an affidavit or otherwise relinquish the right to blood or genetic tests.

c. The person shall cooperate with the child support recovery unit to the extent of supplying all known information and documents pertaining to the location of the noncustodial parent and taking action as may be necessary to secure or enforce a support obligation or establish paternity or to secure medical support. This includes completing and signing Form 470-3877, Child Support Information, if requested, as well as documents determined to be necessary by the state's attorney for any relevant judicial or administrative process.

95.19(2) *Failure to cooperate.* The local child support recovery unit shall make the determination of whether or not a person has cooperated with the unit. The child support recovery unit shall promptly send notice of a determination of noncooperation to the person on Form 470-3400, Notice of Noncooperation, and notify the FIP and Medicaid programs, as appropriate, of the noncooperation determination and the reason for the determination. The FIP and Medicaid programs shall take appropriate sanctioning actions as provided in statute and rules.

95.19(3) *Good cause or other exception.*

a. A person who is a recipient of FIP assistance may claim a good cause or other exception for not cooperating, taking into consideration the best interests of the child as provided in 441—subrules 41.22(8) through 41.22(12).

b. A person who is a recipient of Medicaid may claim a good cause or other exception for not cooperating, taking into consideration the best interests of the child as provided in 441—subrule 75.14(3).

This rule is intended to implement Iowa Code section 252B.3.

441—95.20(252B) Cooperation of public assistance applicants in establishing and obtaining support. If a person who is an applicant of FIP or Medicaid is required to cooperate in establishing paternity; in establishing, modifying, or enforcing child or medical support; or in enforcing spousal support, the requirements in 441—subrule 41.22(6) and rule 441—75.14(249A) shall apply. The appropriate staff in the FIP and Medicaid programs are designees of the child support recovery unit to determine noncooperation and issue notices of that determination until the referral to the unit is completed.

This rule is intended to implement Iowa Code section 252B.3.

441—95.21(252B) Cooperation in establishing and obtaining support in nonpublic assistance cases.

95.21(1) *Requirements.* The individual receiving nonpublic assistance support services shall cooperate with the child support recovery unit by meeting all the requirements of rule 441—95.19(252B), except that the individual may not claim good cause or other exception for not cooperating.

95.21(2) *Failure to cooperate.* The child support recovery unit shall make the determination of whether or not the nonpublic assistance applicant or recipient of services has cooperated. Noncooperation shall result in termination of support services. An applicant or recipient may also request termination of services under 95.14(1)“*b*”(1).

This rule is intended to implement Iowa Code section 252B.4.

441—95.22(252B) Charging pass-through fees. Pass-through fees are fees or costs incurred by the department for service of process, genetic testing and court costs if the entity providing the service charges a fee for the services. The child support recovery unit may charge pass-through fees to persons who receive continued services according to rule 441—95.18(252B) and to other persons receiving nonassistance services, except no fees may be charged an obligee residing in a foreign country or the foreign country if the unit is providing services under paragraph 95.2(2)“*b*.”

This rule is intended to implement Iowa Code section 252B.4.

441—95.23(252B) Reimbursing assistance with collections of assigned support. For an obligee and child who currently receive assistance under the family investment program, the full amount of any assigned support collection that the department receives shall be distributed according to

rule 441—95.3(252B) and retained by the department to reimburse the family investment program assistance.

This rule is intended to implement Iowa Code section 252B.15.

441—95.24(252B) Child support account. The child support recovery unit shall maintain a child support account for each client. The account, representing money due the department, shall cover all periods of time public assistance has been paid, commencing with the date of the assignment. The child support recovery unit will not maintain an interest-bearing account.

This rule is intended to implement Iowa Code chapter 252C.

441—95.25(252B) Emancipation verification. The child support recovery unit (CSRU) may verify whether a child will emancipate according to the provisions established in the court order prior to the child's eighteenth birthday.

95.25(1) Verification process. CSRU shall send Form 470-2562, Emancipation Verification, to the obligor and obligee on a case if CSRU has an address.

95.25(2) Return information. The obligor and obligee shall be asked to complete and return the form to the unit. CSRU shall use the information provided by the obligor or obligee to determine if the status of the child indicates that any previously ordered adjustments related to the obligation and a child's emancipation are necessary on the case.

95.25(3) Failure to return information. If the obligor and obligee fail to return the questionnaire, CSRU shall apply the earliest emancipation date established in the support order to the case and implement changes in support amounts required in the support order.

95.25(4) Conflicting information returned. If conflicting information is returned or made known to CSRU, CSRU shall have the right to verify the child's status through sources other than the obligor and obligee.

This rule is intended to implement Iowa Code sections 252B.3 and 252B.4.

¹ Effective date of 95.1, definition of “Date of collection,” and 95.3 delayed 70 days by the Administrative Rules Review Committee at its meeting held September 15, 1999; delayed until the end of the 2000 Session of the General Assembly at its meeting held October 11, 1999.

CHAPTER 96
INFORMATION AND RECORDS

PREAMBLE

Title IV-D of the Social Security Act provides that state child support agencies providing services under the Act shall have access to information and records from third parties to assist in providing services. Information and records shall be provided as specified in these rules, other rules, Iowa statutes, and federal statute and regulations. These rules implement a procedure for the child support agency to request or administratively subpoena information from employers and other sources, and provide an appeal procedure before imposition of the statutory fine for failure to comply.

441—96.1(252B) Access to information and records from other sources. In addition to statutes and other rules, the following entities shall provide information and records based on the following methods of requesting the information and within the following time frame:

96.1(1) *Oral or written request.* All persons and entities, including all for-profit, nonprofit, and governmental employers, shall, within 15 days of receipt of a request, provide the child support recovery unit or a child support agency of another state information on the employment, compensation, and benefits of any individual employed by the person or entity as an employee or contractor if the unit or agency is providing services in relation to that individual. The request may be made orally, by letter, by form or by other written request listed in subrule 96.1(3); however, the fine and procedures described in rules 96.2(252B) to 96.6(252B) only apply if the request was by a written request listed in subrule 96.1(3).

96.1(2) *Subpoena.* All persons and entities shall comply with a Child Support Recovery Unit Subpoena, Form 470-3413, issued by the child support recovery unit, or an Administrative Subpoena, OMB Control # 0970-0152, or its successor, issued by the unit or a child support agency of another state, as provided in Iowa Code section 252B.9. The child support recovery unit or a child support agency of another state may issue a subpoena regarding more than one individual. The person or entity shall provide the information and records as directed in Form 470-3413 or the Administrative Subpoena.

96.1(3) *Time to reply to a written request.* A person or entity who is sent any of the following shall provide the information and records requested in the manner requested to the child support recovery unit or child support agency of another state, as appropriate, within 15 days of the date of the request.

a. Form 470-3232, Employer Verification Request, Form 470-0177, Employment and Health Insurance Questionnaire, or other forms as specified in appropriate rules from the child support recovery unit which request information described at subrule 96.1(1).

b. Form 470-3413, Child Support Recovery Unit Subpoena, or an Administrative Subpoena, OMB Control # 0970-0152, or its successor, as provided at subrule 96.1(2), from the child support recovery unit.

c. A written request or form as provided at subrule 96.1(1) from a child support agency of another state.

d. An Administrative Subpoena, OMB Control # 0970-0152, or its successor, as provided at subrule 96.1(2), from a child support agency of another state.

441—96.2(252B) Refusal to comply with written request or subpoena.

96.2(1) A parent or putative father in a support or paternity proceeding in which the child support recovery unit or a child support agency of another state is providing services who fails to comply with a request or subpoena as provided in subrule 96.1(3) shall be subject to license sanctioning as provided in 441—Chapter 98, Division VIII.

96.2(2) An entity or a person who is not a parent or putative father as described in subrule 96.2(1) may refuse to comply under the circumstances provided in rule 441—96.3(252B).

441—96.3(252B) Procedure for refusal.

96.3(1) *No information.* A person or entity who does not have any information or records requested or subpoenaed shall respond as follows:

a. If the request or subpoena is a form from the child support recovery unit under paragraph 96.1(3) “*a*” or “*b*,” the person or entity shall sign and return to the unit the appropriate portion of the form indicating the lack of information or records.

b. If the request or subpoena is one listed in paragraphs 96.1(3) “*c*” or “*d*,” the person or entity shall send the child support agency of the other state a signed and dated written statement indicating the lack of information or records.

96.3(2) *Good cause.* The person or entity may claim good cause for refusing to comply as required in Iowa Code section 252B.9.

a. To claim good cause, the person or entity shall file a request for a conference by mailing or submitting a written request to the child support recovery unit which issued the request or subpoena within 15 days of the issuance of the request or subpoena.

b. If a child support agency of another state issued the request or subpoena, the person or entity may request a conference with the child support recovery unit or with the child support agency of the other state. The person or entity shall request a conference with the child support recovery unit by mailing or submitting a written request and a copy of the subpoena or document received from the child support agency of the other state to the Iowa Department of Human Services, Bureau of Collections, Central Registry, P.O. Box 9218, Des Moines, Iowa 50306-9218. The person or entity shall request a conference with the child support agency of the other state by following the requirements of that state’s laws and regulations.

441—96.4(252B) Conference conducted.

96.4(1) *Request or subpoena issued by CSRU.* If the child support recovery unit issued the request or subpoena, the unit shall notify the person or entity and conduct a conference within ten days of receipt of the request for a conference. At the request of either the unit or the person or entity, the conference may be rescheduled one time. The conference may be conducted in person or by telephone.

96.4(2) *Request or subpoena issued by other state.* If a conference with the child support recovery unit is requested based upon a request or subpoena issued by a child support agency of another state, the bureau chief, as defined at rule 441—95.1(252B), shall request that agency send an interstate referral and appropriate information to the unit or central registry.

a. The child support recovery unit shall notify the person or entity and conduct a conference within ten days of opening a case based upon an interstate referral and appropriate information. If the child support recovery unit does not receive an interstate referral and appropriate information within 60 days of the bureau chief’s request, the request or subpoena received under subrule 96.1(3) shall be void, and the child support recovery unit shall notify the person or entity it is void.

b. The voiding of a request or subpoena under this subrule shall not prevent the issuance of subsequent requests or subpoenas.

96.4(3) *Submission of information.* On or before the conference date, the person or entity shall submit information to the child support recovery unit which demonstrates a mistake in the identity of the person or entity, or a mistake in the identity of the individual who is the subject of the request or subpoena, or which demonstrates a specific prohibition under federal law to release of the information or records. The child support recovery unit may extend the time to conduct the conference an additional ten days to allow time for the person or entity to provide the information.

96.4(4) *Notice of findings.* Following the conference, the unit shall issue a notice as provided in Iowa Code section 252B.9.

441—96.5(252B) Fine assessed.

96.5(1) *Conditions resulting in fine.* The child support recovery unit shall assess a fine of \$100 per refusal and notify the person or entity of the fine if any one of the following applies:

a. Ten days have passed since the unit issued a notice under subrule 96.4(4) stating the unit determined there is no good cause to refuse to comply with the request or subpoena, and the information or records have not been received.

b. Fifteen days have passed since the child support recovery unit issued the request or subpoena and the information or records have not been received, nor has the person or entity filed a request for a conference.

c. Fifteen days have passed since a child support agency of another state has issued the request or subpoena, and that agency sends an interstate referral to the child support recovery unit requesting enforcement of the request or subpoena because the information or records were not received.

96.5(2) *Definition of refusal.* One refusal is a refusal to supply information or records based on one written request, or one subpoena regarding one or more individuals.

96.5(3) *Notification of fine.* If the child support recovery unit assesses a fine, the unit shall notify the person or entity by regular mail with proof of service completed according to Rule of Civil Procedure 1.442. The person or entity shall have 30 days from the date of the notice to pay the fine.

441—96.6(252B) Objection to fine or failure to pay.

96.6(1) *Objection filed.* The person or entity may object to the imposition of the fine by filing an application for judicial review in district court within 30 days of issuance of the notice of the fine, and sending a copy of the application to the child support recovery unit.

96.6(2) *Petition to compel.* If the person or entity fails to pay the fine imposed, and does not file an application for judicial review within the time provided in this rule, the child support recovery unit may file a petition to compel the person or entity to comply with the request, subpoena or fine in district court in the county in which the underlying support order or pending matter is filed. If there is no support order or pending matter filed in district court in Iowa, then the unit may file the petition in the county in which the person resides, or the person or entity has its principal place of business.

96.6(3) *Certification to court.* If the person, entity, or the child support recovery unit files an action in district court, the unit shall certify a copy of the following, as appropriate, to the court prior to a hearing:

- a.* Proof of service of the request or subpoena.
- b.* Proof of service of the notice of assessment of a fine.
- c.* Written decision following a conference.

96.6(4) *Failure to comply with court order.* Failure of the person or entity to comply with an order of the district court shall be subject to enforcement through contempt of court.

These rules are intended to implement Iowa Code section 252B.9.

CHAPTER 97
COLLECTION SERVICES CENTER

PREAMBLE

The collection services center is the public agency designated by state law as the state disbursement unit with responsibility for the receipt, recording and disbursement of specified support payments within the state of Iowa. The administrative guidelines within this chapter describe the process of transferring support cases or information from the clerks of district court to the collection services center and the policies and procedures used to receive, monitor, and distribute support payments.

441—97.1(252B) Definitions. The definitions of terms used in this chapter shall follow those terms defined in rule 441—95.1(252B) with the exception or addition of the following:

“Collection services center” means the public agency designated to receive, record, monitor, and disburse support payments as defined in Iowa Code section 598.1, 252B.15 or 252D.16, in accordance with Iowa Code sections 252B.13A and 252B.14.

“Correlated non-IV-D case” means a non-IV-D case where income withholding information must be maintained by the unit in order to properly process an income withholding payment because the obligor has both a non-IV-D and a current or former IV-D case.

“Former IV-D case” means a case that previously received services from the unit under rule 441—95.2(252B) but currently receives only payment processing services from the collection services center.

“Insufficient funds payment” means a support payment by check or other financial instrument which is dishonored, not paid, or the funding of the payment is determined to be inadequate.

“IV-D case” means a case that receives services from the unit under rule 441—95.2(252B), including payment processing services from the collection services center.

“Non-IV-D case” means a support order that never received services from the unit under rule 441—95.2(252B), but that receives payment processing services from the collection services center for income withholding payments.

“Obligee” means the guardian, custodial parent, person, or entity entitled to receive support payments.

“Obligor” means a parent, relative, or any other person declared to be legally liable for the support of a child or the custodial parent or guardian of the child.

“Payor of income” shall have the same meaning provided this term in Iowa Code section 252D.16.

“Support payment” shall have the same meaning provided this term in Iowa Code section 252D.16.

“Unit” means the child support recovery unit as defined in Iowa Code section 252B.2.

441—97.2(252B) Transfer of records and payments. For non-IV-D cases, the clerk of court shall provide core case information to the unit upon the filing of a new income withholding order or upon the request of the unit. “Core case information” means information listed in paragraphs 97.2(1) “a” and “b” and subrule 97.2(2). For IV-D and correlated non-IV-D cases, the clerk of court shall provide detailed case information to the unit upon request. After the establishment of a case, the unit shall send notices of transfer to obligors, obligees, and payors of income based upon case type.

97.2(1) Transfer of information on non-IV-D and correlated non-IV-D cases.

a. In non-IV-D cases, the unit shall request the following information necessary for the receipt, recording and disbursement of payments from the clerk of the district court:

- (1) The obligor’s name and address.
- (2) The obligee’s name and address.
- (3) The court order numbers.

b. In correlated non-IV-D cases, the unit shall request the following information necessary for the receipt, recording and disbursement of payments from the clerk of the district court:

- (1) The obligor’s name and address.
- (2) The obligee’s name and address.

- (3) The court order numbers.
- (4) The income withholding order.

c. The clerk of the district court shall provide case information to the unit on a regular basis when an income withholding order is filed with a clerk of court or when the unit requests the information in order to process a payment.

d. The unit shall automatically create cases for payment processing based upon the information received from the clerks of court.

97.2(2) *Transfer of information on IV-D cases.* In IV-D cases, the clerk of district court shall provide the unit with the following information if the information has been provided to the clerk upon request of the unit:

a. The obligee's name, date of birth, last-known mailing address, the social security number if known and, if different in whole or part, the names of the persons to whom the obligation of support is owed by the obligor.

b. The name, birth date, social security number, and last-known mailing address of the obligor.

c. A copy of all support orders that establish or modify a support amount.

d. The names, social security numbers, and dates of birth of any minor dependents for whom support is ordered, if available.

e. A record of any support payments received by the clerk of district court prior to the transfer of case information and any payments received by the collection services center and the date of transfer to the collection services center.

f. A record of any determination of controlling order under the Uniform Interstate Family Support Act.

441—97.3(252B) Support payment records. Each IV-D, former IV-D and non-IV-D case type shall have an official payment record.

97.3(1) *Official records for cases.* The official payment records for each case type shall be maintained by a designated entity.

a. The collection services center shall establish, maintain and certify the official support payment records for IV-D or former IV-D cases.

b. The clerk of the district court shall establish, maintain and certify the official support payment records for non-IV-D and correlated non-IV-D cases. The collection services center shall establish and maintain records for receipt and disbursement of income withholding payments for these cases, but shall not certify these records as the complete payment record.

97.3(2) *Informal conference for payment records.* The unit shall provide an informal conference or desk review regarding the contents of any support payment record to the obligor or obligee upon request.

a. In IV-D or former IV-D cases, the conference shall be available to review the payment record and to answer questions of the obligee or obligor regarding the accuracy of the record.

b. In non-IV-D and correlated non-IV-D cases, the conference shall be available to review the accuracy of the contents of any record of income withholding payments.

97.3(3) *Certified payment records.* The unit shall provide certified copies of the official support payment records as defined in paragraph 97.3(1) "a" to the public, upon request, as a public record.

441—97.4(252B) Statement of accounts. Rescinded IAB 4/30/03, effective 7/1/03.

441—97.5(252B) Method of payment. Payments shall be accepted in specific forms from obligors and payors of income.

97.5(1) *Form of payment.* Support payments may be paid in the form of cash, check, bank draft, money order, preauthorized withdrawal of funds, or other financial instrument, and sent by mail to the collection services center, or by electronic transfer of funds.

97.5(2) *Treatment of insufficient funds payments.* The unit shall have a process in place to handle insufficient funds payments.

a. An obligor or payor of income submitting an insufficient funds support payment to the collection services center shall be required to submit payments by cash, bank draft, or money order for a period of up to 12 months unless waived by the collection services center. Insufficient funds payments shall not be credited to the collection services center account for the obligor or shall be removed from the account if credited before sufficiency was verified. Insufficient funds support payments shall be subject to additional collection by the collection services center for the dishonored amount.

b. The collection services center shall not process additional payments other than cash, bank drafts or money orders from an obligor or payor of income who has previously submitted insufficient funds payments without first verifying the payment. The collection services center shall have a process in place to allow the obligor or the payor of income the opportunity to replace any additional moneys submitted for payment of support before processing in order to avoid additional insufficient funds entries into the official payment records on the affected cases.

97.5(3) *Distribution of payment.* Nonincome withholding support payments received by the collection services center in IV-D, former IV-D, non-IV-D, or correlated non-IV-D cases which are not directed to a specific account or support obligation shall first be applied proportionately to the current support obligation on all cases for the obligor and, secondly, to the support arrearages owed by the obligor.

441—97.6(252B) Authorization of payment. The collection services center must authorize the generation of payments for support paid. The collection services center shall issue payments as follows:

97.6(1) *Submittal of information to department of administrative services.* In order to disburse payments to the obligee within two working days, the collection services center shall submit information daily to the department of administrative services to issue a warrant or electronic file transfer (EFT) payment to the obligee.

97.6(2) *Release of funds.* The following workday an electronic transfer of funds shall be sent to the designated account of the obligee or an alternate account to be accessed by the obligee through an electronic access card, or if subrule 97.6(5) applies, a state warrant may be sent by regular mail to the last-known address of the obligee.

97.6(3) *Electronic transfer.* Obligees who want electronic transfer of support payments to a designated account shall complete Form 470-2612, Authorization for Automatic Deposit, and submit it to the collection services center. Unless subrule 97.6(5) applies, any obligee not using automatic deposit to a designated account shall be issued an electronic access card for receipt of support payments.

97.6(4) *Walk-ins.* Support payments shall not be hand-delivered to the obligee on a walk-in basis.

97.6(5) *Warrants.* The collection services center may authorize generation of a warrant if any one of the following conditions applies:

a. Generation of a warrant is necessary to meet federal requirements to disburse a payment to an obligee within two working days when electronic transfer is not feasible.

b. The obligee has not requested automatic deposit to a designated account of the obligee, and payment is from a source that is nonrecurring or is not expected to continue in a 12-month period.

c. The obligee has not requested automatic deposit to a designated account of the obligee and has asserted in writing on Form 470-3972, Electronic Support Payments, that one of the exemptions listed in this paragraph applies. To claim an exemption, the obligee must return Form 470-3972 to the collection services center within ten days of the date the form was issued. An exemption granted under this paragraph is subject to periodic review by the collection services center. When the collection services center reviews an exemption, it shall issue Form 470-3973, Review of Electronic Transfer Exemption, to the obligee for completion. The exemptions available under this paragraph are:

- (1) A physical disability imposes a hardship in accessing an electronically transferred payment.
- (2) A mental disability imposes a hardship in accessing an electronically transferred payment.
- (3) A language barrier imposes a hardship in accessing an electronically transferred payment.
- (4) A literacy barrier imposes a hardship in accessing an electronically transferred payment.
- (5) The obligee's home and work addresses are more than 30 miles from an automated teller machine and more than 30 miles from a financial institution where the account funds can be accessed.

d. The representative payee, court appointee, or trustee notifies the collection services center or unit in writing that one of the following applies:

- (1) The obligee is under a court-ordered guardianship or conservatorship.
- (2) The obligee is involved in other legal proceedings, including bankruptcy, which require payments to be sent to a trustee or other representative payee.

441—97.7(252B) Processing misdirected payments. If the collection services center receives a payment for which a corresponding obligee cannot be identified, the collection services center shall contact the person or entity that directed the payment to obtain additional information. Payments inappropriately directed to the collection services center shall be returned to the person or entity sending the payment.

These rules are intended to implement Iowa Code sections 252B.13A through 252B.17.

CHAPTER 98
SUPPORT ENFORCEMENT SERVICES

PREAMBLE

In addition to the enforcement services described in 441—Chapter 95, “Collections,” the child support recovery unit is charged with the responsibility to provide the services delineated in this chapter.

DIVISION I
MEDICAL SUPPORT ENFORCEMENT

441—98.1(252E) Definitions.

“*Medical support*” means either the provision of a health benefit plan, including a group or employment-related or an individual health benefit plan, or a health benefit plan provided pursuant to Iowa Code chapter 514E to meet the medical needs of a dependent and the cost of any premium required by a health benefit plan, or the payment to the obligee of a monetary amount in lieu of a health benefit plan, either of which is an obligation separate from any monetary amount of child support ordered to be paid. Medical support is not alimony.

“*Obligee*” means a custodial parent or other natural person legally entitled to receive a support payment on behalf of a child.

“*Obligor*” means a noncustodial parent or other natural person legally responsible for the support of a dependent.

“*Reasonable in cost*” means that a health insurance is employment-related or other group health insurance regardless of the service delivery mechanism.

441—98.2(252E) Provision of services. The child support recovery unit shall provide medical support enforcement services to recipients of Medicaid for whom an assignment of support is in effect and shall provide these services to nonpublic assistance recipients upon their request.

98.2(1) Nonpublic assistance recipients.

a. Applicants for nonpublic assistance services shall be informed of the availability of medical support enforcement services at the time of application and shall be asked about their desire to receive these services on Form CS-3103-0, Application for Non-Assistance Support Enforcement Service. Applicants who do not desire medical support enforcement services at the time of application may request these services in writing at a later date by completing Form 470-2744, Nonpublic Assistance Medical Support Request.

b. The child support recovery unit shall inform recipients of nonpublic assistance services whose application forms did not contain notice of medical support enforcement services of the availability of these services in writing on Form 470-2744 prior to establishing or enforcing medical support, and shall not provide these services unless a written request is received.

98.2(2) Public assistance recipients. Unless good cause has been established, recipients of Medicaid are required to cooperate with the child support recovery unit as a condition of eligibility as prescribed in rule 441—75.14(249A). This includes completing and signing Form 470-2748, Public Assistance Medical Support Request, upon request of the child support recovery unit.

441—98.3(252E) Establishing medical support. In cases for which services are provided by the child support recovery unit, the unit shall seek medical support for persons receiving Medicaid benefits whose support is assigned and shall seek medical support upon the request of nonpublic assistance recipients, as follows:

98.3(1) New or modified orders. In new or modified court or administrative orders for support, unless the obligee and child have a health benefit plan other than Medicaid that is available at a reasonable cost, the child support recovery unit shall request through a petition or notice of support debt that the obligor provide an employment-related or other group health benefit plan whether or not:

a. It is available to the obligor at the time the order is entered.

b. Modification of current coverage to include the dependents in question is immediately possible.

98.3(2) Existing orders. The child support recovery unit may:

a. Seek to modify or adjust an order for medical support through administrative process pursuant to 441—Chapter 99.

b. Petition for a modification of a support order when a high potential for obtaining medical support exists and employment-related or other group health insurance is available.

98.3(3) Other provisions. Provisions for medical support through an individual health benefit plan, a plan provided pursuant to Iowa Code chapter 514E, or through a monetary amount in lieu of the health benefit plan shall not be specifically requested by the child support recovery unit until rules governing the establishment of these provisions are adopted. However, the child support recovery unit may ask the court to consider, and the court may choose to order these provisions.

441—98.4(252E) Accessibility of the health benefit plan. When a choice of employment-related or group health benefit plans is offered to the obligor, some of which are of little or no value to the dependents because the dependents reside outside the geographic area served by the health benefit plans, the child support recovery unit shall request through a petition or notice of support debt that the obligor provide a plan that is accessible to the dependents.

441—98.5(252E) Health benefit plan information. The unit shall gather information concerning a health benefit plan.

98.5(1) Information from an employer. The unit shall gather information concerning a health benefit plan an employer may offer an obligor as follows:

a. The unit shall send Form 470-0177, Employment and Health Insurance Questionnaire, or Form 470-2240, Employer Health Insurance Questionnaire, whenever a potential employer is identified.

b. The unit shall secure medical support information from a known employer on Form 470-2743, Employer Medical Support Information, when Form 470-3818, Medical Support Notice, or an order has been forwarded to the employer pursuant to Iowa Code section 252E.4.

98.5(2) Information from an obligor. The unit may secure medical support information from an obligor on Form 470-0413, Obligor Insurance Questionnaire.

98.5(3) Disposition of information. The unit shall provide the information:

a. To the Medicaid agency and to the obligee when the dependent is a recipient of Medicaid.

b. To the obligee when the dependent is not a recipient of Medicaid.

441—98.6(252E) Insurer authorization. When the obligor does not provide to the insurer the signed documents necessary to enroll and process claims for the dependent for whom support is ordered, the insurer is authorized to accept the signature of the obligee or the department's designee on necessary forms. For purposes of Division I of this chapter, the third-party liability unit is the department's designee when support is assigned.

441—98.7(252E) Enforcement.

98.7(1) Medical support enforcement. For the purposes of enforcement, medical support may be reduced to a dollar amount and collected through the same remedies available for the collection and enforcement of child support.

98.7(2) Health benefit plan or insurance.

a. If an obligor was ordered to provide a health benefit plan or insurance coverage under an order, but did not comply with the order, the child support recovery unit may implement the order by forwarding to the employer a copy of the order, an ex parte order as provided in Iowa Code section 252E.4, or Form 470-3818, Medical Support Notice.

b. If the child support recovery unit implements an order under this subrule, the unit shall send a notice to the obligor at the last-known address of the obligor by regular mail. The notice shall contain the following information:

(1) A statement of the obligor's right to an informal conference.

- (2) The process to request an informal conference.
- (3) The obligor's right to file a motion to quash with the district court.

98.7(3) Termination of employment. When the child support recovery unit receives information indicating the obligor's employment has terminated, the unit shall secure the status of the health benefit plan by sending Form 470-3218, Employer Insurance Notification, to the employer.

If no response is received within 30 days of sending Form 470-3218, the unit shall send a second request on Form 470-3219, Employer Insurance Second Notification, to the employer. If the obligor does not notify the unit, or no response is received from the employer within 90 days of sending Form 470-3218, the unit shall notify the obligee that the health benefit plan may have terminated.

441—98.8(252E) Contesting the order. The obligor may contest the enforcement of medical support by means of an informal conference with the child support recovery unit, or by filing a motion to quash.

98.8(1) Motion to quash. Procedures for filing a motion to quash the order are specified under Iowa Code sections 252D.31 and 252E.6A.

98.8(2) Informal conference.

a. The obligor shall be entitled to only one informal conference for each new employer to which the unit has forwarded Form 470-3818, Medical Support Notice, or order under Iowa Code section 252E.4 to enforce medical support.

b. Procedures for the informal conference are as follows:

(1) The child support recovery unit shall inform the obligor in writing of the right to request an informal conference.

(2) The obligor may request an informal conference with the child support recovery unit if the obligor believes the enforcement was entered in error.

(3) The obligor shall request an informal conference in writing, within 15 calendar days from the date of the notice of the right to an informal conference, or at any time if a mistake of fact regarding the identity of the obligor is believed to have been made.

(4) The child support recovery unit shall schedule an informal conference within 15 calendar days of the receipt of a written request from the obligor or the obligor's representative.

(5) The child support recovery unit may conduct the conference in person or by telephone.

(6) If the obligor fails to attend the conference, only one alternative time shall be scheduled by the child support recovery unit.

(7) The child support recovery unit shall issue a written decision to the obligor within ten calendar days of the conference.

c. The issues to be reviewed at the conference shall be as follows:

(1) Whether the identity of the obligor is in error.

(2) Whether the obligor is already providing health benefit plan coverage for the dependent.

(3) Whether the availability of dependent coverage under a health benefit plan is in error.

(4) Whether the obligor was ordered to provide a health benefit plan coverage under the support order.

d. The results in an informal conference shall in no way affect the right of the obligor to file a motion to quash the order under Iowa Code section 252E.4.

These rules are intended to implement Iowa Code sections 252A.4, 252B.5, 252C.1, 252C.3, 252C.4, 252C.9, 252D.1, 252D.30, 598.1, 598.21, 598.22 and 600B.25 and Iowa Code chapter 252E.

441—98.9 to 98.20 Reserved.

DIVISION II
INCOME WITHHOLDING
PART A
DELINQUENT SUPPORT PAYMENTS

441—98.21(252D) When applicable. When there is a delinquency in an amount equal to the support payable for one month as specified by an order for support or reimbursement order and the child support

recovery unit is providing services under 441—Chapter 95, the unit shall enter an order to withhold the obligor's income not exempt by state or federal law to require the income withheld to be paid to the collection services center to pay the support obligation. An income withholding order shall also be entered to collect the unpaid balance of a judgment for the reimbursement of a support debt when a repayment schedule is not specified in the order establishing the judgment.

¹**441—98.22 and 98.23** Reserved.

¹ Pursuant to Iowa Code section 17A.6(3), rules 441—98.22 and 441—98.23 nullified by 2005 Iowa Acts, Senate File 350, section 20, effective July 1, 2005, were removed IAC Supplement 6/8/05.

¹ Pursuant to Iowa Code section 17A.6(3), rules 441—98.22 and 441—98.23 nullified by 2005 Iowa Acts, Senate File 350, section 20, effective July 1, 2005, were removed IAC Supplement 6/8/05.

441—98.24(252D) Amount of withholding. The child support recovery unit shall determine the amount to be withheld by the employer or other income providers as follows:

98.24(1) Current support obligation exists. When a current support obligation exists, the amount withheld shall be an amount equal to the current support obligation, and an additional amount equal to 50 percent of the current support obligation to be applied toward the liquidation of any delinquency.

Effective July 1, 1998, the amount withheld to be applied toward the liquidation of any delinquency shall be 20 percent of the current support obligation for any support order entered or modified on or after July 1, 1998, or for any support order entered or modified prior to July 1, 1998, for which no income withholding order has been filed by an Iowa CSRU prior to July 1, 1998.

a. The obligor may request a modification of the amount withheld as payment toward the arrearage or reimbursement on the grounds of hardship. The procedure for this request is described in rule 98.43(252D). Hardship exists if the obligor's income is 200 percent or less than poverty level for one person as defined by the United States Office of Management and Budget and revised annually in accordance with Section 673(2) of the Omnibus Budget Reconciliation Act of 1981.

b. If hardship is claimed by the obligor, the child support recovery unit may verify income from:

- (1) The employer or other income provider of the obligor.
- (2) The obligor.
- (3) The state employment security agency.
- (4) Other records available in accordance with Iowa Code section 252B.9.

c. If the hardship criteria are met, the amount withheld as payment toward the arrears may be modified as follows:

(1) The obligor's gross yearly income shall be divided by 200 percent of the established yearly gross poverty level income for one person. That amount shall be multiplied by .5. The resulting figure will be the percent of the current support order which shall be withheld for payment on the arrearage.

(2) The amount withheld on the arrearage shall not be less than \$5 per month.

(3) If criteria for withholding 20 percent toward liquidation of any delinquency are also met, the lesser of 20 percent or hardship is to be withheld.

98.24(2) Current obligation ended. When the current support obligation has ended or has been suspended, the income withholding order shall remain in effect until any delinquency has been satisfied. The amount withheld shall be equal to the amount of the most recent prior current support obligation which is greater than zero. Hardship criteria shall be applied in accordance with subrule 98.24(1). However, in the following circumstances, the amount withheld shall be 20 percent of the amount owed for current support at the time the obligation ended or was suspended; and, if hardship criteria are met, this amount shall be one-half of the amount established under the guidelines in subrule 98.24(1):

a. There has been a change of legal custody from the obligee to the obligor.

b. The obligee and obligor have reconciled and have obtained a modification ending the current support obligation.

c. The current obligation is suspended through the suspension process.

d. In a foster care case, the order for parental liability ended when the child left placement, or an order ending the liability has been entered and the child in foster care has returned to the home of a parent ordered to pay parental liability. In this situation, the amount withheld shall be reduced to 20 percent of the current support amount when the obligation ended, but only for the parent with whom the child resides.

98.24(3) *No support ordered.* When there is no current child support ordered and the obligation is solely the result of a judgment which does not specify a repayment schedule, the unit shall establish the amount to be withheld per month as follows:

a. Initially the amount shall be set at the amount for one person from the ADC schedule of basic needs. Hardship may be asserted as set out in subrule 98.24(1).

b. If hardship criteria are met in these circumstances, the amount withheld on reimbursement shall be determined by dividing the obligor's gross yearly income by 200 percent of the poverty level income for one person. The resulting number is the percent of the existing withholding amount that will now be withheld. This amount will be reduced by one-half if the obligor has legal custody of the child.

98.24(4) *Lump-sum income source.* Notwithstanding subrules 98.24(1), 98.24(2), and 98.24(3), when the obligor is paid by a lump-sum income source, the withholding amount may include all current and delinquent support due through the current month. Lump-sum income includes income received in a sole payment or in payments that occur at two-month or greater intervals.

98.24(5) *Disability continues.* If hardship criteria under paragraph 98.43(2) "e" are met and the amount withheld as payment toward the arrears is modified, the obligor is deemed to continue to meet the hardship criteria for the duration of the social security disability benefits or supplemental security income disability benefits. If those benefits have not ended, but the amount to withhold would otherwise be amended under this rule and under rule 441—98.45(252D), the unit shall determine the amount to withhold for payment toward arrears under this rule by using the same percent as was used when the hardship amount was first determined under paragraph 98.43(2) "e," but the amount shall not be less than \$5 per month.

441—98.25 to 98.30 Reserved.

PART B
IMMEDIATE INCOME WITHHOLDING

441—98.31(252D) *Effective date.* In cases for which the child support recovery unit is providing enforcement services, the income of the obligor is subject to immediate withholding pursuant to Iowa Code section 252D.8 without regard to the existence of a delinquency in the payment of support.

441—98.32(252D) *Withholding automatic.* Immediate withholding of income is automatic without additional notice to the obligor unless:

98.32(1) *Good cause exists.* Good cause is found to exist by the court or child support recovery unit. For purposes of this rule, "good cause" is defined as the posting of a secured bond by the obligor sufficient to pay all current and future child support obligations, including any arrearages which may accrue.

98.32(2) *Written agreement exists.* A written agreement is reached between both parties which provides for an alternative arrangement for payment of child support subject to the following conditions:

a. Unless approved by the child support recovery unit, written agreements between the obligee and obligor to waive immediate income withholding become void when child support is assigned to this state or to another state pursuant to a statute of that jurisdiction.

b. All payments pursuant to any written agreement shall be paid as directed in Iowa Code sections 252B.14 and 598.22.

441—98.33 Reserved.

¹ Pursuant to Iowa Code section 17A.6(3), rule 441—98.33 nullified by 2005 Iowa Acts, Senate File 350, section 20, effective July 1, 2005, was removed IAC Supplement 6/8/05.

441—98.34(252D) Approval of request for immediate income withholding. When the obligee or other party to the proceeding requests immediate withholding, the child support recovery unit shall determine whether the request shall be approved.

98.34(1) Basis for approval. Approval of a request for immediate income withholding by the child support recovery unit may be based on:

a. Past payment record of the obligor which demonstrates an inconsistent compliance with the support order.

b. Whether the state of Iowa is providing public assistance.

98.34(2) Request denied. The child support recovery unit may not approve a request for immediate income withholding on cases where no public assistance has been expended and there is a prior written agreement between the obligee and obligor which has been approved by court order.

441—98.35(252D) Modification or termination of withholding. The court or the child support recovery unit may modify or revoke the income withholding based on the criteria of Iowa Code chapter 252D. However, the income withholding may not be revoked or terminated if there is any current support owed.

441—98.36(252D) Immediate income withholding amounts. The amount withheld shall be the amount of the current support obligation as specified in the support order. If a judgment for accrued support is established in the support order, the amount withheld shall be the amount due for current support and the periodic payment amount due for the accrued support as specified in the order. If no periodic payment for the accrued support is established in the support order, the amount withheld shall be the amount due for current support plus 10 percent of the amount of the current obligation to be applied to the accrued support.

441—98.37(252D) Immediate income withholding amounts when current support has ended. When the child support obligation has ended, the amounts to be withheld shall be in accordance with subrule 98.24(2).

These rules are intended to implement Iowa Code chapter 252D.

441—98.38 Reserved.

PART C
INCOME WITHHOLDING—GENERAL PROVISIONS

441—98.39(252D,252E) Provisions for medical support. An income withholding order or notice of income withholding may also include provisions for enforcement of medical support when medical support is included in the support order. The income withholding order or notice of income withholding may require implementation of dependent coverage under a health benefit plan pursuant to Iowa Code chapter 252E or the withholding of a dollar amount for medical support. Amounts withheld for medical support shall be determined in the same manner as amounts withheld for child support.

441—98.40(252D,252E) Maximum amounts to be withheld. An income withholding order or a notice issued by the child support recovery unit shall require that the employer or other income provider withhold no more than the maximum amounts allowed under the Federal Consumer Credit Protection Act, 15 U.S.C. Section 1673(b).

98.40(1) The amount of income subject to withholding shall be limited to 50 percent of the nonexempt disposable income of the obligor unless there is more than one support order for which the

obligor is obligated and the criteria of 15 U.S.C. Section 1673(b) are met, or the obligor agrees to a greater amount within these limits.

98.40(2) Disposable income shall mean the nonexempt income of the obligor minus lawful deductions as prescribed by 42 U.S.C. Section 662(G).

441—98.41(252D) Multiple obligations. In the event that an obligor has more than one support obligation that is being enforced by the child support recovery unit, the unit may enter an income withholding order to enforce each obligation. The amount specified to be withheld on the arrearage under the income withholding order or notice shall be determined in accordance with rule 441—98.24(252D).

441—98.42(252D) Notice to employer and obligor. The child support recovery unit shall send the obligor and the employer or other income provider a notice of income withholding as follows:

98.42(1) Notice to employer. The unit may send notice to the employer or other income provider by regular mail or by electronic means in accordance with Iowa Code chapter 252D. If the unit is sending notice by regular mail, it shall send Form 470-3272, Order/Notice to Withhold Income for Child Support, or a notice in the standard format prescribed by 42 U.S.C. §666(b)(6)(A). If the unit is sending the notice by electronic means, it may include notice of more than one obligor's order and need only state once provisions which are applicable to all obligors, such as the information in paragraphs "d," "f," "g," and "i," of this subrule. The statement of provisions applicable to all obligors may be sent by regular mail or electronic means. The notice of income withholding shall contain information such as the following:

- a. The obligor's name and social security number.
- b. The amount of current support to withhold.
- c. The amount of support to withhold for payment of delinquent support, if any.
- d. The amount an income provider may deduct for costs of processing each support payment.
- e. The child support case number.
- f. The location to which payments are sent.
- g. The maximum amount that can be withheld for payment of support as specified in rule 441—98.40(252D,252E).
- h. The method to calculate net income.
- i. Responsibilities of the income provider as specified in Iowa Code section 252D.17.
- j. Responsibility, if any, of the income provider to enroll the obligor's dependent for coverage under a health benefit plan.

98.42(2) Notice to obligor. Form 470-2624, Initiation of Income Withholding, shall be sent to the last-known address of the obligor by regular mail. The notice shall contain the following information:

- a. A statement of the obligor's right to an informal conference.
- b. The process to request an informal conference.
- c. The obligor's right to claim hardship criteria and the process for a claim.
- d. The obligor's right to file a motion to quash the income withholding order or notice with the district court.
- e. The information provided to the employer or other income provider, or a copy of the notice sent to the employer or other income provider.
- f. The amount of any delinquency.

98.42(3) Standard format. As provided in Iowa Code section 252D.17 as amended by 1997 Iowa Acts, House File 612, section 61, an order or notice of an order for income withholding shall be in a standard format prescribed by the child support recovery unit. Form 470-3272, Order/Notice to Withhold Income for Child Support, is the standard format prescribed by the child support recovery unit, and the unit shall make a copy available to the state court administrator and the Iowa state bar association.

441—98.43(252D) Contesting the withholding. The obligor may contest the income withholding by means of an informal conference with the child support recovery unit or by filing a motion to quash.

98.43(1) Motion to quash. Procedures for filing a motion to quash the order or the notice of income withholding are specified in Iowa Code chapter 252D.

98.43(2) Informal conference.

a. The obligor shall be entitled to only one informal conference for each new or modified income withholding order or notice issued by the child support recovery unit that specifies a new or modified total amount to withhold.

b. Procedures for the informal conference are as follows:

(1) The child support recovery unit shall inform the obligor in writing of the right to request an informal conference.

(2) The obligor may request an informal conference with the child support recovery unit if the obligor believes the withholding is in error or meets the hardship criteria defined by subrule 98.24(1).

(3) The obligor shall request an informal conference in writing, within 15 calendar days from the date of the notice of the right to an informal conference, or at any time, if a mistake of fact regarding the identity of the obligor or the amount of the delinquency is believed to have been made.

(4) The child support recovery unit shall schedule an informal conference within 15 calendar days of the receipt of a written request from the obligor or the obligor's representative.

(5) The child support recovery unit may conduct the conference in person or by telephone.

(6) If the obligor fails to attend the conference, only one alternative time shall be scheduled by the child support recovery unit.

(7) The child support recovery unit shall issue a written decision to the obligor within ten calendar days of the conference.

(8) If the child support recovery unit has not complied with subrule 98.24(1), it shall then adjust the income withholding amount.

c. The issues to be reviewed at the conference shall be as follows:

(1) For all income withholding orders or notices, whether:

1. The identity of the obligor is in error.

2. The amount of the current support obligation is in error.

(2) For orders or notices resulting from the existence of a delinquency, whether:

1. The amount of delinquent support is in error.

2. The hardship criteria are met.

3. For income withholding orders or notices issued after November 1, 1990, whether the guidelines described at rule 441—98.24(252D) were followed.

(3) For immediate income withholding orders or notices, whether the criteria of rules 441—98.32(252D) and 441—98.34(252D) were appropriately applied.

d. The results of an informal conference shall in no way affect the right of the obligor to file a motion to quash the income withholding order or notice with the court.

e. Notwithstanding paragraph 98.43(2) "a" and subparagraph 98.43(2) "b"(3), an obligor who has been awarded social security disability benefits or supplemental security income disability benefits under the federal Social Security Act may request an informal conference in writing at any time.

98.43(3) Income withholding issued from another state. The child support recovery unit shall follow procedures for a motion to quash or conduct an informal conference based on an income withholding order or notice issued in another state only if the unit is providing services under 441—Chapter 95.

441—98.44(252D) Termination of order. The child support recovery unit may, by ex parte order, terminate an income withholding order under the following conditions:

98.44(1) Order entered in error. The child support recovery unit shall terminate an income withholding order upon determination that the order was entered in error as follows:

a. The person named as the obligor in the income withholding order is not the person required to provide support under the support order being enforced.

b. For orders resulting from the existence of a delinquency, the required minimum delinquency did not exist at the time the income withholding order was entered.

98.44(2) No support due. In cases for which services are being provided by the child support recovery unit, the child support recovery unit shall terminate an income withholding order previously entered by the unit when the current support obligation has terminated and when the delinquent support

obligation has been fully satisfied as applicable to all of the children covered by the income withholding order. In no case shall payment of overdue support be the sole basis for termination of withholding.

a. to d. Rescinded IAB 9/1/93, effective 11/1/93.

98.44(3) Other circumstances. The child support recovery unit may revoke an income withholding order under other circumstances provided the conditions of Iowa Code chapter 252D are met.

441—98.45(252D) Modification of income withholding. The child support recovery unit may modify a previously issued income withholding order or notice according to the guidelines established under rule 441—98.24(252D) if it is determined that:

98.45(1) Current support obligation changed. There has been a change in the amount of the current support obligation.

98.45(2) Amount in error. The amount required to be withheld under the income withholding order or notice is in error as follows:

a. The amount required to be withheld as current support is not the amount specified in the order for support being enforced.

b. The guidelines established in rule 441—98.24(252D) were not followed.

98.45(3) Past-due support paid. Any past-due support debt has been paid in full. The withholding order or notice shall be modified to require that only the current support obligation be withheld from the income of the obligor. Should a delinquency later accrue, the withholding order or notice may again be modified to secure an additional payment toward the delinquency. The amount of the arrears payment shall be set at 20 percent of the current support amount.

98.45(4) Income withholding and determination of controlling orders. An obligation amount different than what the child support recovery unit has been enforcing is established upon the determination of controlling order as allowed in Iowa Code section 252K.207. Upon the change to the new obligation amount, the amount withheld to be applied toward the liquidation of any delinquency shall be 20 percent.

98.45(5) Income withholding and review and adjustment of orders. The child support recovery unit has conducted a review of the obligation pursuant to 441—Chapter 99, Division IV. The unit shall modify the amount withheld to be applied toward the liquidation of any delinquency to 20 percent upon completion of the review and adjustment process.

98.45(6) Disability ends. The amount required to be withheld was based on the hardship criteria on or after September 1, 2006, and the child support recovery unit has verified that the obligor is no longer receiving social security disability benefits or supplemental security income disability benefits, unless the benefits have been changed to social security retirement benefits.

441—98.46(252D) Refunds of amounts improperly withheld. The child support recovery unit shall refund to the obligor any amounts improperly withheld and received by the department under an income withholding order or notice issued by the unit, subject to the following:

98.46(1) Services provided by the department. Only those amounts received by the department during the period enforcement services are being provided are subject to refund.

98.46(2) Satisfaction of amount to withhold. No refund shall be made unless amounts have been collected which fully satisfy the amount specified in the mandatory income withholding order or notice for the withholding period during which income has been generated.

98.46(3) When issued. Any amounts received in excess of the amounts specified in the order or notice to withhold shall be issued to the obligor within 30 days of discovery by the child support recovery unit, unless the obligor requests in writing that these amounts be credited toward the arrearage or future child support. If there is a dispute regarding whether there is an overpayment, the obligor may request an informal conference by following the procedures set out in subparagraphs 98.43(2) “a”(3) through (7). This procedure shall not preclude the obligor from utilizing other civil remedies.

98.46(4) Recovery by department. The department may recover payments from the obligee in excess of those described in subrule 98.46(2) which have been received by the department and improperly forwarded to the obligee.

441—98.47(252D) Additional information about hardship. The child support recovery unit shall make reasonable efforts within 13 months of September 1, 2006, to identify and incrementally send information to obligors who may meet the requirements for hardship in paragraph 98.43(2)“e.”

These rules are intended to implement Iowa Code Supplement chapters 252D and 252E.

441—98.48 to 98.50 Reserved.

DIVISION III
REVIEW AND ADJUSTMENT OF CHILD SUPPORT OBLIGATIONS

441—98.51 to 98.60 Renumbered as 99.61 to 99.70, IAB 9/1/93, effective 11/1/93.

DIVISION IV
PUBLICATION OF NAMES

441—98.61(252B) List for publication. The department may compile and make available for publication a list of cases in which no payment has been credited to an accrued or accruing support obligation during a previous three-month period, subject to the following:

98.61(1) *Support order entered in Iowa.* The list shall include cases with a support order entered in Iowa which is being enforced by the child support recovery unit.

98.61(2) *Support order entered in another state.* The list may include cases with a support order entered in another state, if another state has requested this service, has demonstrated that the provision of this service is not in conflict with the laws of the state where the support order is entered, and the order is being enforced by the child support recovery unit.

98.61(3) *When compiled.* The department shall determine when to compile the list, but shall not be required to do so.

98.61(4) *Case selection.* Case selection shall be based on the records of the department at the time the list is compiled. The three-month period of nonpayment shall end no earlier than one month prior to the date the list is compiled. When an obligor has multiple orders on a case, all orders contained in the child support recovery unit record may be listed.

98.61(5) *Good cause.* The name of the obligor shall not be included when there has been a finding of good cause for noncooperation with the child support recovery unit in a public assistance case pursuant to 441—subrule 41.2(8) or 441—subrule 75.14(1) and a determination has been made that enforcement may not proceed without risk of harm to the child or caretaker.

441—98.62(252B) Releasing the list. The department may release the information, no more than twice annually, as follows:

98.62(1) *Release to media.* The department shall issue a press release to the weekly and daily newspapers in Iowa describing the manner in which a copy of the list may be obtained. Cost of producing the list shall be borne by the department. Costs of producing and transmitting a copy of the list shall be borne by the recipient of the copy.

98.62(2) *Availability of list.* Once released, the list shall be provided to other persons upon payment of an amount to cover the cost of producing a copy as specified in 441—subrule 9.3(7). Requests shall be directed to the Bureau of Collections, Fifth Floor, Hoover State Office Building, Des Moines, Iowa 50319-0114.

These rules are intended to implement Iowa Code section 252B.9.

441—98.63 to 98.70 Reserved.

DIVISION V
ADMINISTRATIVE SEEK EMPLOYMENT ORDERS

441—98.71(252B) Seek employment order. The child support recovery unit (CSRU) may enter an ex parte order requiring the obligor to seek employment if employment of the obligor cannot be verified

and if the obligor has failed to make support payments. Any obligor who has failed to make support payments and for whom employment cannot be verified is subject to issuance of an administrative order to seek employment.

441—98.72(252B) Effective date of order. The seek employment order shall be effective 15 days after issuance of the order to the obligor. This 15-day period shall serve as advance notice to the obligor.

441—98.73(252B) Method and requirements of reporting. The obligor shall complete Form 470-3155, Report of Seek Employment Activity, which shall be submitted to the unit on a weekly basis throughout the duration of the order unless the obligor has a valid reason for not complying with the order. The obligor shall document at least five new attempts to find employment on the form each week. The same employer may not be reported more than once per week.

The obligor shall include the names, addresses, and the telephone numbers of each of the five employers or businesses with whom the obligor attempted to seek employment and the name of the individual contact to whom the obligor made application for employment or to whom the inquiry was directed.

441—98.74(252B) Reasons for noncompliance. Upon verification, certain conditions shall be considered valid reasons for noncompliance. At the request of the child support recovery unit (CSRU), the obligor shall provide verification of any reason for noncompliance with the order when the information is not available to CSRU through on-line sources. Valid reasons for noncompliance and acceptable verification are:

98.74(1) Receipt of social security, supplemental security income (SSI), or the family investment program (FIP). Receipt of social security, SSI, or FIP is considered a valid reason for noncompliance when verified by information contained in on-line sources available to CSRU or written verification from the agency providing the benefits.

98.74(2) Temporary illness or disability. Temporary illness or disability of the obligor or other household member is considered a valid reason upon receipt of completed Form 470-3158, Physician's Statement, verifying the obligor's inability to seek or accept employment.

98.74(3) High school student. Attending high school is considered a valid reason upon verification from the high school.

98.74(4) Incarceration. Incarceration is considered a valid reason when verified through on-line information available to CSRU or on receipt of verification from the institution.

98.74(5) Substance abuse treatment. Participating in a supervised substance abuse treatment program that is associated with a treatment center is considered a valid reason upon verification from the treatment center.

98.74(6) Job training. Participation in a job training or job seeking program through the department of employment services as a result of receiving food stamps is considered a valid reason upon receipt of verification from the department of employment services.

98.74(7) Employment or self-employment. Employment or self-employment is considered a valid reason upon verification through the employer for those employed or through tax documents or business records for those self-employed.

98.74(8) Payment of support. Payment on the account equal to the amounts prescribed for income withholding in accordance with rule 441—98.24(252D) throughout the duration of the seek employment order is considered a valid reason upon verification of payments posted to the Iowa collection and reporting (ICAR) system.

441—98.75(252B) Method of service. The seek employment order shall be served on the obligor by regular mail. Proof of service shall be completed in accordance with Iowa Rules of Civil Procedure, Number 82.

441—98.76(252B) Duration of order. The seek employment order shall remain in effect for three months from the date of issuance unless CSRU determines the obligor has a valid reason for noncompliance as specified at rule 441—98.74(252B), at which time the order becomes unenforceable.

Upon acceptance of the reason for noncompliance, CSRU shall notify the obligor that the obligor is no longer required to comply with the seek employment order. Upon denial of the reason for noncompliance, CSRU shall notify the obligor that the obligor shall comply with the existing seek employment order. The notice shall be filed with the clerk of the district court. If the obligor disputes this decision, the obligor shall have recourse through the district court.

These rules are intended to implement Iowa Code section 252B.21.

441—98.77 to 98.80 Reserved.

DIVISION VI
DEBTOR OFFSET

441—98.81(252B) Offset against payment owed to a person by a state agency. The department will make a claim against a payment owed to an obligor by a state agency when support payments are delinquent as set forth in rule 11—40.1(8A). A claim against a payment owed to an obligor shall be applied to court-ordered support which the department is attempting to collect pursuant to Iowa Code chapter 252B.

98.81(1) Case selection. The department shall submit to the department of administrative services, at least monthly, a list of obligors who are delinquent at least \$50 in support payments.

98.81(2) Notification of offset. The department shall mail a preoffset notice to an obligor and the department of administrative services within ten days of receiving notification from the department of administrative services that the obligor is entitled to a payment. The preoffset notice shall inform the obligor of the amount the department intends to claim and apply to the support obligation and shall contain all information required by Iowa Code subsection 8A.504(2) and 11—subrule 40.4(4).

98.81(3) Appeal process. An obligor may contest the department's claim by submitting a written request to the department. A hearing shall be granted pursuant to rules in 441—Chapter 7 if the obligor's request is submitted within 15 days of the date of the preoffset notice.

98.81(4) Final disposition of offset. The department shall notify an obligor of the final decision regarding the claim against the offset by mailing a final disposition of support recovery claim notice to the obligor.

98.81(5) Distribution of offset amount. Offsets shall be applied in accordance with rules 441—95.3(252B) and 441—95.4(252B).

98.81(6) Percentage of payment offset. The amount of offset shall be 50 percent of the total payment due the obligor, unless the payment results from lottery winnings, in which case the amount of offset shall be 100 percent of the payment. The amount taken shall not exceed the amount due on the case.

This rule is intended to implement Iowa Code sections 252B.3 and 252B.4 and Iowa Code subsection 8A.504(2).

441—98.82 to 98.90 Reserved.

DIVISION VII
ADMINISTRATIVE LEVY

441—98.91(252I) Administrative levy. When there is a delinquency in an amount equal to the ordered support payable for one month, the child support recovery unit may issue an administrative levy to the obligor's financial institution.

441—98.92 Reserved.

¹ Pursuant to Iowa Code section 17A.6(3), rule 441—98.92 nullified by 2005 Iowa Acts, Senate File 350, section 20, effective July 1, 2005, was removed IAC Supplement 6/8/05.

441—98.93(252I) Verification of accounts. The unit may contact a financial institution to obtain verification of the account number, the names and social security numbers listed on the account, and the account balance for an obligor's account. This contact may be by telephone or written communication on Form 470-3170, Asset Verification Form, or by computer printout.

441—98.94(252I) Notice to financial institution. The unit may send a notice to the financial institution with which the account is placed, directing that the financial institution forward to the collection services center all or a portion of the moneys in the obligor's account or accounts on the date the notice is received. The notice shall be sent by first-class mail, with proof of service completed according to rule of civil procedure 82. The notice to the financial institution shall contain all of the information specified in Iowa Code chapter 252I.

441—98.95(252I) Notice to support obligor. The unit shall notify an obligor, and any other party known to have an interest in the account, of the action. The notice shall contain all of the information specified in Iowa Code chapter 252I. The unit shall forward the notice by first-class mail within two working days of sending the notice to the financial institution. Proof of service shall be completed according to Iowa Rules of Civil Procedure 82.

441—98.96(252I) Responsibilities of financial institution. Upon receipt of the notice of administrative levy, the financial institution shall follow procedures specified in Iowa Code section 252I.7 for encumbering and forwarding funds to collection services center. The financial institution shall encumber only the funds in the obligor's account on the day the notice is received. Any deposits made by the obligor after notice is received by the financial institution are not subject to the administrative levy process unless another notice is issued to the financial institution.

441—98.97(252I) Challenging the administrative levy. An obligor or an account holder of interest may challenge the administrative levy by submitting a written challenge to the person identified as the contact for the unit in the notice, within ten working days of the date of the notice to the obligor as specified in rule 441—98.95(252I). Upon receipt of a challenge, the unit shall follow criteria and procedures specified in Iowa Code section 252I.8 for resolving the challenge.

98.97(1) Review of facts. The unit shall, upon receipt of a written challenge, review the facts of the case with the challenging party. Only a mistake of fact including, but not limited to, a mistake in the identity of the obligor or a mistake in the amount of delinquent support due shall be considered as a reason to dismiss or modify the proceeding. If the unit determines that a mistake of fact has occurred, the unit shall proceed as follows:

a. If a mistake in identity has occurred or the obligor is not delinquent in an amount equal to the payment for one month, the unit shall notify the financial institution and the obligor that the administrative levy has been released.

b. If the amount of support due was incorrectly overstated, the unit shall notify the financial institution to release the excess moneys to the obligor and remit the remaining moneys.

98.97(2) Refunds of amounts improperly held. If a mistake of fact has occurred and money has already been forwarded from the financial institution, the unit shall proceed as follows:

a. If a mistake in identity has occurred or the obligor is not delinquent in an amount equal to the payment for one month, the unit shall refund the funds to the account and reimburse the account for any fees assessed by the financial institution.

b. If the amount of support due was incorrectly overstated, the unit shall refund a portion to the account. The unit is not required to reimburse the account for fees.

98.97(3) Request for district court hearing. If no mistake of fact is found, the unit shall send a notice to the challenging party by first-class mail. An obligor or an account holder may submit a second written challenge to the person identified as the contact for the unit in the notice, within ten working days of

the date of the notice. The unit shall request a hearing before the district court in the county the support order is filed. Procedures for filing a hearing are specified in Iowa Code chapter 252I.

98.97(4) *Request for withdrawal.* The challenging party may withdraw the challenge by submitting a written withdrawal to the person identified as the contact person for the unit in the notice at any time prior to the court hearing. The unit may withdraw the administrative levy at any time prior to the court hearing. The unit shall provide notice of the withdrawal to the financial institution and any account holder of interest by first-class mail.

These rules are intended to implement Iowa Code chapter 252I.

441—98.98 to 98.100 Reserved.

DIVISION VIII
LICENSE SANCTION

441—98.101(252J) Referral for license sanction. In the process referred to as license sanction, the child support recovery unit (CSRU) may refer an individual to a licensing agency for the suspension, revocation, nonissuance, or nonrenewal of a variety of licenses including, but not limited to, motor vehicle registrations, driver's licenses, business and professional licenses, and licenses for hunting, fishing, boating, or other recreational activity. In order to be referred to a licensing agency for license sanction, one of the following must apply:

98.101(1) *Delinquent support payments.* An obligor's support payments must be delinquent in an amount equal to the support payment for three months. CSRU may first refer for license sanction those obligors having the greatest number of months of support delinquency. CSRU shall not refer obligors whose support payments are being made under an income withholding order.

98.101(2) *Subpoena or warrant.* An individual must have failed to comply with a subpoena or warrant, as defined in Iowa Code chapter 252J, relating to a paternity or support proceeding. If a subpoena was issued, the individual must have failed to comply with either Form 470-3413, Child Support Recovery Unit Subpoena, or an Interstate Subpoena as provided in paragraph 96.2(1) "a" within 15 days of the issuance of the subpoena, and proof of service of the subpoena was completed according to Rule of Civil Procedure 82.

441—98.102(252J) Reasons for exemption. Certain conditions shall be considered valid reasons for exemption from the license sanction process. Upon verification of these conditions, CSRU shall bypass, exempt, or withdraw the individual's name from referral to licensing agencies for the purpose of applying a license sanction. When the information to verify the exemption is not available to CSRU through on-line sources, CSRU shall request, and the individual shall provide, verification of the reason for exemption. Valid reasons for exemption for failure to comply with a subpoena or warrant and acceptable verification are those listed in subrules 98.102(2), 98.102(3), 98.102(5), and 98.102(6). Valid reasons for exemption for delinquent support payments and acceptable verification are any of the following:

98.102(1) *Receipt of social security, supplemental security income (SSI) or the family investment program (FIP).* Receipt of social security, SSI, FIP, or county assistance (general relief, general assistance, community services, veteran's assistance), based upon the eligibility of the obligor, is considered a valid reason for exemption when verified by information contained in on-line sources available to CSRU or written verification from the agency providing the benefits.

98.102(2) *Temporary illness or disability.* Temporary illness or disability of the individual or illness or disability of another household member which requires the presence of the individual in the home as caretaker is considered a valid reason for exemption upon receipt of a completed Form 470-3158, Physician's Statement, verifying the individual's or household member's inability to work.

98.102(3) *Incarceration.* Incarceration is considered a valid reason for exemption when verified through on-line information available to CSRU or upon receipt of verification from the institution.

98.102(4) *Job training.* Participation in a job-training or job-seeking program through the department of employment services as a result of receiving food stamps is considered a valid reason for exemption upon receipt of verification from the department of employment services or verification

through on-line information available to CSRU or upon receipt of a written statement from an income maintenance worker.

98.102(5) *Chemical dependency treatment.* Participation in a chemical dependency treatment program that is licensed by the department of public health or the joint commission on the accreditation of hospitals (JCAH) is considered a valid reason for exemption upon receipt of written verification from the professional staff of the program that participation in the program precludes the individual from working.

98.102(6) *Contempt process.* Involvement in a contempt action dealing with support issues is considered a valid reason for exemption from the license sanction process during the pendency of the contempt action.

441—98.103(252J) Notice of potential sanction of license. When an individual meets the criteria for selection, CSRU may issue a notice to the individual of the potential sanction of any license held by the individual, using Form 470-3278, Official Notice of Potential License Sanction.

98.103(1) *Delinquent support payments.* CSRU shall inform the obligor that the obligor may make immediate payment of all current and past due child support, schedule a conference to review the action of CSRU, or request to enter into a payment agreement with the unit. CSRU shall follow the procedures and requirements of Iowa Code chapter 252J regarding the issuance of the notice and the holding of a conference.

98.103(2) *Subpoena or warrant.* CSRU shall inform the individual that the individual may comply with the subpoena or warrant, or schedule a conference to review the action of CSRU. CSRU shall follow the procedures and requirements of Iowa Code chapter 252J regarding the issuance of the notice and the holding of a conference.

98.103(3) *Certificate of noncompliance.* If an individual fails to respond in writing to the notice within 20 days, or if the individual requests a conference and fails to appear, the unit shall issue a Certificate of Noncompliance, Form 470-3274, to applicable licensing authorities in accordance with Iowa Code section 252J.3.

441—98.104(252J) Conference.

98.104(1) *Scheduling of conference.* Upon receipt from an individual of a written request for a conference, CSRU shall schedule a conference not more than 30 days in the future. At the request of either CSRU or the individual, the conference may be rescheduled one time. When setting the date and time of the conference, if notice was sent to an obligor under subrule 98.103(1), CSRU shall request the completion of Form 470-0204, Financial Statement, and other financial information from both the obligor and the obligee as may be necessary to determine the obligor's ability to comply with the support obligation.

98.104(2) *Payment calculation.* If notice was sent to an obligor under subrule 98.103(1) during the conference held in compliance with the provisions of Iowa Code section 252J.4, CSRU shall determine if the obligor's ability to pay varies from the current support order by applying the mandatory supreme court guidelines as contained in 441—Chapter 99, Division I, with the exception of subrules 99.4(3) and 99.5(5). If further information from the obligor is necessary for the calculation, CSRU may schedule an additional conference no less than ten days in the future in order to allow the obligor to present additional information as may be necessary to calculate the amount of the payment. If, at that time, the obligor fails to provide the required information, CSRU shall issue a Certificate of Noncompliance, Form 470-3274, to applicable licensing authorities. If the obligee fails to provide the necessary information to complete the calculation, CSRU shall use whatever information is available. If no income information is available for the obligee, CSRU shall determine the obligee's income in accordance with 441—subrules 99.1(2) and 99.1(4). This calculation is for determining the amount of payment for the license sanction process only, and does not modify the amount of support obligation contained in the underlying court order.

98.104(3) *Referral for review and adjustment.* If the amount calculated in subrule 98.104(2) meets the criteria for review and adjustment as specified in rule 441—99.62 (252B,252H), or administrative modification as specified in rule 441—99.82(252H) and 441—subrules 99.83(1), 99.83(2) and 99.83(6)

at the time CSRU provides the payment agreement to the obligor, CSRU shall also provide the obligor with any necessary forms to request a review and adjustment or administrative modification of the support obligation. The payment agreement remains in effect during the review and adjustment or administrative modification process.

441—98.105 (252J) Payment agreement. The License Sanction Payment Agreement, Form 470-3273, shall require the obligor to pay the lower of the amount calculated in subrule 98.104(2) or the maximum amount payable under an income withholding order as specified in rule 98.24(252D).

98.105(1) Duration of payment agreement. The License Sanction Payment Agreement signed under this division shall remain in effect for at least one year from the date of issuance unless CSRU determines the obligor has a valid reason for exemption as specified in rule 98.102 (252J). Except in those cases in which review and adjustment are in process, CSRU may, at the end of the year, begin the process of reviewing the case to ensure that the payment amount continues to accurately reflect the obligor's ability to pay as calculated in subrule 98.104(1).

98.105(2) Failure to comply. If at any time following the signing of a payment agreement the obligor fails to comply with all the terms of the agreement, CSRU shall issue a Certificate of Noncompliance, Form 470-3274, to applicable licensing authorities in accordance with the provisions of Iowa Code chapter 252J.

441—98.106(252J) Staying the process due to full payment of support. If the obligor, at any time, pays the total support owed, both current and past due, or an individual complies with the subpoena or warrant, CSRU shall stay the process, and any Certificate of Noncompliance, Form 470-3274, which has been issued shall be withdrawn by CSRU.

441—98.107(252J) Duration of license sanction. The Certificate of Noncompliance, Form 470-3274, shall remain in effect until the obligor pays all support owed, both arrears and current; or the obligor enters into a payment agreement with CSRU; or the obligor meets one of the criteria for exemption specified at subrules 98.102(1), 98.102(2), and 98.102(4); or the individual complies with the subpoena or warrant.

These rules are intended to implement Iowa Code chapter 252J as amended by 1997 Iowa Acts, House File 612, division X.

441—98.108 to 98.120 Reserved.

DIVISION IX
EXTERNAL ENFORCEMENT

PREAMBLE

This division implements provisions of 1997 Iowa Acts, House File 612, sections 35 and 244, which provide for enforcement of child support arrearages by external sources. These sources are entities under contract to collect difficult-to-collect arrearages and private attorneys acting independently of the unit but with the unit's consent. The rules provide criteria and procedures for referral of delinquent support to collection contractors, assessment of the statutory surcharge, and opportunity for the delinquent parent to contest. The rules also provide a procedure to allow state payment to private attorneys enforcing child support recovery unit (CSRU) cases and provide criteria to exempt cases from the procedure.

441—98.121(252B) Difficult-to-collect arrearages. The child support recovery unit may refer difficult-to-collect arrearages to a collection entity under contract with the unit or with another state entity. Upon referral, a surcharge, in addition to the support, shall be due and payable by the obligor as provided in 1997 Iowa Acts, House File 612, section 244.

98.121(1) Difficult-to-collect arrearage. A difficult-to-collect arrearage is one based upon a court or administrative order which meets all the following criteria:

- a. There is no order for current support and only an arrearage is owing.
- b. There has been no payment, except for federal or state tax refund offset payments, in the past three months.
- c. There is no valid reason for exemption from the referral and surcharge process. Valid reasons for exemption and acceptable verification are those listed in subrules 98.102(1), 98.102(3), and 98.102(6). Upon verification of those conditions, the child support recovery unit shall bypass or exempt the obligor's arrearages from the referral and surcharge process. When the information to verify the exemption is not available to the child support recovery unit through on-line sources, the child support recovery unit shall request, and the obligor shall provide, verification of the reason for exemption.

98.121(2) *Notice of the possibility of referral and surcharge.* The child support recovery unit shall provide notice of the possibility of a referral and surcharge to the obligor as required by 1997 Iowa Acts, House File 612, section 244. The notice shall be provided at least 15 days before the unit sends the notice of referral and surcharge to the obligor, subject to the following:

a. *Notification contained in order.* When the support order under which the arrearage has accrued contains language advising of statutory provisions for referral and surcharge, no other preliminary notice shall be required.

b. *Notification issued by the child support recovery unit.* When the support order under which the arrearage has accrued does not contain language regarding the statutory provisions for referral and surcharge, or was entered under a foreign jurisdiction and notification was not included in the support order or provided as a separate written notice, the child support recovery unit shall issue Form 470-3412, Legal Notice of Referral and Surcharge, to the obligor. The notice shall be sent by regular mail to the obligor's last-known address.

98.121(3) *Notice of referral and surcharge.* The child support recovery unit shall send notice of a referral and surcharge to the obligor by regular mail to the obligor's last-known address, with proof of service completed according to Rule of Civil Procedure 82. The notice shall contain all the information required by 1997 Iowa Acts, House File 612, section 244. The notice shall be sent at least 30 days before the unit refers the arrearage to the collection entity.

98.121(4) *Contesting the referral and surcharge.* An obligor may contest the referral and surcharge. The right to contest is limited to a mistake of fact including but not limited to a mistake in the identity of the obligor, a mistake as to whether there was a payment in the three months before the date of the notice specified in subrule 98.121(3), a mistake as to whether an exemption in paragraph 98.121(1) "c" applies, or a mistake in the amount of arrearages.

a. An obligor may contest the referral and surcharge by submitting a written request for a review to the unit within 20 days of the date on the notice of referral and surcharge specified in subrule 98.121(3). Upon receipt of a written request for review, the unit shall follow the criteria and procedures specified in 1997 Iowa Acts, House File 612, section 244, for resolving the request.

(1) If the unit determines there is a mistake in the identity of the obligor, if there was a payment, other than a federal or state income tax offset, within the three months before the date of the notice specified in subrule 98.121(3), or if there is another mistake of fact and the arrearage does not meet the criteria for referral, the unit shall issue a written notice to the contestant or obligor of the determination and not refer the arrearages. If the unit later determines an arrearage may be subject to referral, it shall issue a new notice as provided in subrule 98.121(3).

(2) If the unit determines there was a mistake in the amount of arrearages, but the corrected amount of arrearages will still be referred, or if the unit determines there is no mistake of fact, the unit shall issue a written notice of the determination of the review to the obligor by regular mail to the last-known address of the obligor. The notice shall include the amount of the arrearages that will be referred and the surcharge which will be assessed. The notice shall also include information on requesting an additional review by the bureau chief, and on requesting a judicial hearing. For purposes of this rule, bureau chief shall mean "bureau chief" as defined in rule 441—95.1(252B).

b. An obligor may contest the notice of determination of review by submitting a written request for an additional review by the bureau chief within 20 days of the date of the notice of determination

of the review issued under paragraph “a.” Upon receipt of the written request for additional review, the bureau chief shall review the facts of the case.

(1) If the bureau chief determines a mistake in the identity of the obligor has occurred, if there was a payment, other than a federal or state income tax offset, within the three months before the date of the notice specified in subrule 98.121(3), or if there is another mistake of fact and the arrearage does not meet the criteria for referral, the bureau chief shall issue a written notice to the contestant or obligor of the determination and the arrearages shall not be referred. If the unit later determines an arrearage may be subject to referral, it shall issue a new notice as provided in subrule 98.121(3).

(2) If the bureau chief determines that there was a mistake in the amount of the arrearage but the corrected amount of arrearages will still be referred, or if there is no mistake of fact, the bureau chief shall send a written notice of the additional review determination to the obligor by regular mail to the last-known address of the obligor. The notice shall include the amount of the arrearage that will be referred and the surcharge which will be assessed. The notice shall also include information on requesting a judicial hearing.

c. Following the issuance of a notice of determination of a review under paragraph “a,” or issuance of a notice of determination of an additional review under paragraph “b,” the obligor may request a district court hearing. The obligor shall make a request by sending a written request for a hearing to the unit within ten days of the date of the unit’s written determination of the review, or within ten days of the date of the bureau chief’s written determination of an additional review, whichever is later. Procedures for a district court hearing are specified in 1997 Iowa Acts, House File 612, section 244.

d. The unit shall not refer arrearages and assess a surcharge until after completion of any review, additional review or judicial hearing process.

98.121(5) Referral and surcharge.

a. If the obligor has not paid the arrearage, has not contested the referral, or if, following the unit’s review, the bureau chief’s additional review, and any judicial hearing, the unit, bureau chief, or court does not find a mistake of fact, the arrearage shall be referred to the collection entity.

b. The amount of the arrearage referred shall be the amount that is unpaid as of the date of the referral. The amount of the surcharge shall be an amount equal to the amount of the arrearage unpaid as of the date of the referral, multiplied by the percentage specified in the contract with the collection entity.

c. The child support recovery unit shall file Form 470-3411, Notice of Surcharge, with the clerk of the district court in the county in which the underlying support order is filed.

This rule is intended to implement 1997 Iowa Acts, House File 612, section 244.

441—98.122(252B) Enforcement services by private attorney entitled to state compensation. An attorney licensed to practice law in Iowa may utilize judicial proceedings to collect support, at least a portion of which is assigned support, and be entitled to compensation by the state as provided in 1997 Iowa Acts, House File 612, section 35.

98.122(1) Eligible cases. To be eligible for attorney services with compensation under this rule, a case must meet all of the following:

a. The child support recovery unit is providing services under Iowa Code chapter 252B.

b. The current support obligation is terminated and only arrearages are due under the administrative or court order.

c. There has been no payment under any order in the case for at least a 12-month period prior to the provision of the notice from the attorney to the unit under paragraph “f.”

d. At least a portion of the arrearages due under any order in the case is assigned to the state because cash assistance was paid under 1997 Iowa Acts, Senate File 516, sections 2 through 24 and 35.

e. The case does not have any of the following characteristics:

(1) There has been a finding of good cause or other exception pursuant to Iowa Code section 252B.3 as amended by 1997 Iowa Acts, House File 612, section 26.

(2) A portion of the arrears is assigned to another state because of public assistance provided by that state.

(3) Another attorney has already notified the unit of the intent to initiate a judicial proceeding to collect support due under any order in the same case under this rule, and either the time to receive the collection has not expired or the unit has not received a notice from the other attorney that the judicial proceeding has concluded prior to the expiration of the time period.

(4) If the notice from the attorney under paragraph “f” specifies contempt of court as the judicial proceeding, and the unit has generated a seek employment order to the obligor under Iowa Code section 252B.21 less than nine months prior to the date on the notice from the attorney.

(5) The case or arrearages have been referred by the child support recovery unit to a collection entity under Iowa Code section 252B.5, subsection 3, as amended by 1997 Iowa Acts, House File 612, section 30, or 1997 Iowa Acts, House File 612, section 244, less than nine months prior to the date on the notice from the attorney.

(6) The obligor has filed for bankruptcy and collection activities are stayed.

(7) The notice from the attorney under paragraph “f” lists a specific judicial proceeding and the unit has already initiated the same type of proceeding in court.

(8) The case has been referred to the U.S. Attorney’s office and is still pending at that office.

f. The attorney has provided written notice to the central office of the child support recovery unit in Des Moines, as specified in subrule 98.122(2), and to the last-known address of the obligee of the intent to initiate a specified judicial proceeding to collect support on any identified court or administrative order involving the obligor and obligee in the case.

g. The attorney has provided documentation of insurance to the unit as required by 1997 Iowa Acts, House File 612, section 35.

h. The collection must be received by the collection services center within 90 days of the notice from the attorney in paragraph “f,” or within a subsequent 90-day extension period.

98.122(2) Procedure.

a. To begin the process under this rule, the attorney shall submit the following to the External Services Process Specialist, Bureau of Collections, Iowa Department of Human Services, Hoover Building, Fifth Floor, Des Moines, Iowa 50319-0114 at least 30 days prior to initiating the specified judicial proceeding:

(1) A dated, written statement which lists the specific judicial proceeding which the attorney intends to initiate, any court or administrative order under which the arrearages accrued identified by the order number, and the names of the obligor and obligee.

(2) Documentation that the attorney is insured as required by the statute. Documentation shall be either a copy of the attorney’s policy from the insurer, or a letter from the insurer verifying insurance coverage as required by the statute.

(3) Documentation that the attorney is licensed to practice law in Iowa.

b. The unit shall mail a response to the attorney within ten days of receipt of the notice from the attorney. All of the following shall apply to the unit’s response:

(1) If the case meets the requirements of this rule, the notice shall list the case number, any order numbers, the judicial proceeding specified by the attorney, the balance due the state of Iowa, the balance due an obligee, and the date that is 90 days from the date of the notice from the attorney. The notice shall also contain a statement that any compensation due the attorney as a result of application of this rule will be calculated on the amount of support credited to arrearages due the state at the time the support paid as a result of the judicial proceeding is received by the collection services center. The notice shall also contain a statement that any support collected shall be disbursed in accordance with federal requirements, and any support due the obligee shall be disbursed to the obligee prior to disbursement to the attorney as compensation.

(2) If the case does not meet the requirements of this rule, the notice shall list the case number, any order number, and the reason the case does not meet the requirements.

c. If the case is eligible under this rule, the attorney may initiate judicial proceedings after 30 days after providing the notice to child support recovery unit in paragraph “a.” Section 35 of 1997 Iowa Acts, House File 612, defines “judicial proceedings.”

d. The attorney may extend the time to complete the judicial proceeding or to allow for receipt of the collection by the collection services center by submitting a notice requesting a 90-day extension to the address in paragraph "a." This or any subsequent notice must be received by the unit before expiration of the current 90-day time frame. The child support recovery unit shall acknowledge receipt of the subsequent notice and list on the acknowledgment the date that is 90 days from the date of the attorney's subsequent notice.

98.122(3) Collection and payment to attorney.

a. Upon compliance with the requirements of 1997 Iowa Acts, House File 612, section 35, and this rule, the attorney shall be entitled to compensation from the state as provided for in this rule.

b. Upon receipt of a file-stamped copy of a court order which identifies the amount of support collected as a result of the judicial proceeding and which does not order the payment of attorney fees by the obligor, and the receipt of the collection by the collection services center, all the following apply:

(1) Section 35 of 1997 Iowa Acts, House File 612, specifies the formula to calculate the compensation due the attorney from the state. The child support recovery unit shall calculate the compensation due the attorney based upon the amount of support which is credited to arrearages due the state at the time the collection is received by the collection services center. After calculating the amount due the attorney, the unit shall reduce the amount due the attorney by the amount of any penalty or sanction imposed upon the state as a result of any other judicial proceeding initiated by that attorney under 1997 Iowa Acts, House File 612, section 35. The child support recovery unit shall send the attorney a notice of the amount of the compensation due from the state.

(2) The collection services center shall disburse any support due an obligee prior to payment of compensation to the attorney.

(3) The child support recovery unit shall not authorize disbursement of compensation to the attorney until the later of 30 days after receipt of the collection and the file-stamped copy of the order, or resolution of any timely appeal by the obligor or obligee.

(4) The amount of compensation due the attorney is subject to judicial review upon application to the court by the attorney.

This rule is intended to implement 1997 Iowa Acts, House File 612, section 35.

CHAPTER 99
SUPPORT ESTABLISHMENT AND ADJUSTMENT SERVICES

PREAMBLE

This chapter contains rules governing the provision of services by the child support recovery unit regarding: the establishment of paternity; the establishment of support obligations in accordance with the mandatory guidelines set by the Iowa Supreme Court; the review and adjustment of support obligations; the modification of support obligations; and the suspension and reinstatement of support obligations. The rules in this chapter pertain only to administrative actions or procedures used by the unit in providing the services identified. This chapter shall not be interpreted to limit the unit's authority to use other means as provided for by state or federal statute, including, but not limited to, judicial procedures in providing these services.

DIVISION I
CHILD SUPPORT GUIDELINES

441—99.1(234,252B,252H) Income considered. The child support recovery unit shall consider all regularly recurring income of both legal parents to determine the amount of the support award in accordance with the child support guidelines prescribed by the Iowa Supreme Court. These rules on child support guidelines shall not apply if the child support recovery unit is determining the support amount by a cost-of-living alteration as provided in Iowa Code chapter 252H, subchapter IV.

99.1(1) Exempt income. The following income of the parent is exempt in the establishment or modification of support:

- a. Income received by the parent under the family investment program (FIP).
- b. Income or other benefits derived from public assistance programs funded by a federal, state, or local governmental agency or entity that are listed in rule 441—41.27(239B) as exempt from consideration in determining eligibility under FIP.
- c. Income such as child support, social security dependent benefits received by a parent for a child because of the other parent's disability, and veteran's dependent benefits received by a parent on behalf of a child.
- d. Stepparent's income.
- e. Income of a guardian who is not the child's parent.
- f. Income of the child's siblings.
- g. Earned income tax credit.

99.1(2) Determining income. Any of the following may be used in determining a parent's income for establishing or modifying a support obligation:

- a. Income reported by the parent in a financial statement.
- b. Income established by any of the following:
 - (1) Income verified by an employer or other source of income.
 - (2) Income reported to the department of workforce development.
 - (3) For a public assistance recipient, income reported to the department of human services caseworker assigned to the public assistance case.
 - (4) Other written documentation that identifies income.
- c. Income as determined through occupational wage rate information published by the Iowa workforce development department or other state or federal agencies.
- d. The median income for parents on the CSRU caseload, calculated annually.
- e. Social security dependent benefits. Social security dependent benefits paid for a child because of a parent's disability shall be included in the disabled parent's income. Social security dependent benefits paid for a parent due to the other parent's disability shall be included in the receiving parent's income.

99.1(3) Verification of income. Verification of income and allowable deductions from each parent shall be requested.

a. Verification of income may include, but is not limited to, the following:

- (1) Federal and state income tax returns.
- (2) W-2 statements.
- (3) Pay stubs.
- (4) Signed statements from an employer or other source of income.
- (5) Self-employment bookkeeping records.
- (6) Award letters confirming entitlement to benefits under a program administered by a government or private agency such as social security, veterans' or unemployment benefits, military or civil service retirement or pension plans, or workers' compensation.

b. Cases in which the information or verification provided by a parent is questionable or inconsistent with other circumstances of the case may be investigated. If the investigation does not reveal any inconsistencies, the financial statement and other documentation provided by the parent shall be used to establish income.

c. If discrepancies exist in the financial statement provided by the parent and additional income information is not available, the child support recovery unit may:

- (1) Request a hearing before the court if attempting to establish a support order through administrative process.

- (2) Conduct discovery if a parent places the matter before the court by answering a petition or requesting a hearing before the court.

- (3) When attempting to establish a default order, provide the court with a copy of the parent's financial information and the reasons the information may be questionable.

d. If the child support recovery unit is unable to obtain verification of a parent's income, the financial statement provided by the parent may be used to establish support.

99.1(4) *Use of occupational wage rate information or median income for parents on the CSRU caseload.* Occupational wage rate information or median income for parents on the CSRU caseload shall be used to determine a parent's income when the parent has failed to return a completed financial statement when requested, and when complete and accurate income information from other readily available sources cannot be secured.

a. *Occupation known.* When the last-known occupation of a parent can be determined through a documented source including, but not limited to, Iowa workforce development or the National Directory of New Hires, occupational wage rate information shall be used to determine income. When the last-known occupation of a parent cannot be determined through a documented source, information may be gathered from the other parent and occupational wage rate information applied. Wage rate information shall be converted to a monthly amount in accordance with subrule 99.3(1).

b. *Occupation unknown.* When the occupation of a parent is unknown, CSRU shall estimate the income of a parent using the median income amount for parents on the CSRU caseload.

99.1(5) *Self-employment income.* A self-employed parent's adjusted gross income, rather than the net taxable income, shall be used in determining net income. The adjusted gross income shall be computed by deducting business expenses involving actual cash expenditures that affect the actual dollar income of the parent.

a. A person is self-employed when the person:

- (1) Is not required to report to the office regularly except for specific purposes such as sales training meetings, administrative meetings, or evaluation sessions.

- (2) Establishes the person's own working hours, territory, and methods of work.

- (3) Files quarterly reports of earnings, withholding payments, and FICA payments to the Internal Revenue Service (IRS).

b. In calculating net income from self-employment, the child support recovery unit shall deduct only those items allowed by the child support guidelines. Amounts from a prior period claimed as net losses shall not be allowed as deductions.

c. Net profits from self-employment may be determined through a review of self-employment bookkeeping records, sales and expenditure records, quarterly reports filed with the IRS, previous year's federal or state income tax returns, or other documentation. The parent shall provide records of

bookkeeping, sales, and expenditures for the most recent 12-month period or, if the self-employment is less than 12 months old, for the period since the self-employment began.

99.1(6) *Fluctuating income.* A person has a fluctuating income when the calculated gross income or the adjusted gross income, as defined in subrule 99.1(5), for the current year varies from the gross or adjusted gross income of the previous year by more than 20 percent.

a. If requested, the child support recovery unit shall average the income of a person whose income fluctuated because the nature of the person's occupation is of a type that normally experiences fluctuations in income.

b. In determining a person's average income, the following procedures shall be used:

(1) For non-self-employed persons, the child support recovery unit shall estimate the gross income for the current year and add the amount to the gross income from relevant years that would accurately depict fluctuations in the person's income. The unit shall divide this sum by the number of years added, prior and current, to arrive at an average gross annual income. The unit shall divide the average gross annual income by 12 to arrive at the person's average gross monthly income.

(2) For income from self-employment, the child support recovery unit shall compute the adjusted gross annual income as defined in subrule 99.1(5) for the relevant years that would accurately depict fluctuations in the person's income. The unit shall use the adjusted gross annual income to compute the average adjusted gross monthly income in the same manner as the computation of average gross monthly income in 99.1(6) "b"(1).

441—99.2(234,252B) Allowable deductions. The deductions specified in the supreme court child support guidelines shall be allowed when determining the amount of income subject to application of the guidelines. The parent claiming the deduction shall provide the documentation necessary for computing allowable deductions. Allowable deductions are:

99.2(1) Federal and state income tax.

a. The child support recovery unit shall calculate the amount of the deduction for federal and state income tax as specified in the Iowa Supreme Court guidelines.

b. The unit shall calculate the amount of the deduction for self-employed persons with fluctuating incomes, as defined in subrule 99.1(6), by computing the person's averaged income and applying the method of calculating a tax deduction as required by Iowa Supreme Court guidelines.

99.2(2) Social security, mandatory pensions, and union dues.

99.2(3) Full cost of health insurance premiums either deducted from wages or paid by a parent or a stepparent, provided the health insurance coverage includes the dependents for whom support is being sought. The parent claiming the deduction shall verify the health insurance premium before the deduction is allowed. Any expected health insurance premiums shall be allowed as a deduction if the parent provides verification of this anticipated expense.

99.2(4) Actual payments of child and spousal support pursuant to a prior court or administrative order. The date of the original court or administrative order, rather than the date of any modifications, shall establish a prior order under this subrule. Support paid under an order established subsequent to the order being modified shall not be deducted. All support payments shall be verified before being allowed as a deduction. The child support recovery unit shall calculate deductions for support as follows:

a. In establishing prior support payments, the child support recovery unit shall verify payments made for the 12 months preceding the month in which the amount of support for the new order is determined. If the support obligation is less than one year old, the child support recovery unit shall verify each monthly payment since the beginning of the obligation.

b. If the obligation is one year old or older, the child support recovery unit shall add together all verified amounts paid during the past 12 months up to the total of the current support obligation that accrued during this 12-month period, and divide by 12. All amounts collected shall be included, regardless of the source.

c. If the support obligation is less than one year old, the child support recovery unit shall add together the verified amounts paid since the obligation began up to the total of the current support

obligation that accrued during this period, and divide by the number of months that the obligation has existed.

d. When a parent has more than one prior support order, the child support recovery unit shall calculate the allowable deduction for each obligation separately, and then add the amounts together to determine the parent's total allowable deduction.

99.2(5) Actual payments of medical support pursuant to a court or administrative order. All medical support payments shall be verified before being allowed as a deduction and shall be calculated in the same manner as the deductions for support in subrule 99.2(4).

99.2(6) Parent's unreimbursed medical expenses, not to exceed \$25 per month.

99.2(7) Actual child care expenses during the custodial parent's employment, less the applicable federal income tax credit. The child support recovery unit shall determine the amount of the child care deduction as follows:

a. Actual child care expenses related to the custodial parent's employment shall be verified by a copy of the custodial parent's federal or state income tax return or by a signed statement from the person or agency providing the child care.

b. Only the amount of reported child care expenses in excess of the amount allowed as "credit for child and dependent care expenses" for federal income tax purposes shall be allowed as a deduction in determining the custodial parent's net income.

c. In determining the deduction allowed to the custodial parent for child care expenses due to employment, the following procedures shall be used:

(1) If the custodial parent provides a copy of a federal income tax return for the current tax processing year and the amount is consistent with the current financial circumstances of the parent, the child support recovery unit shall use the amount reported as "credit for child and dependent care expenses."

(2) If income tax information is not available, or if the parent indicates or there is reason to believe that the amount stated in the return is no longer representative of the parent's financial conditions or child care expenses, the child support recovery unit shall determine the allowable deduction for child care expenses for federal income tax purposes using the custodial parent's income only.

d. The child support recovery unit shall compute the child care deduction as follows:

(1) Divide the amount of child care expense the parent may claim as a deduction for federal income tax purposes by 12 to arrive at a monthly amount.

(2) If the child care expense reported on the financial statement is not a monthly amount, convert the reported amount to an equivalent monthly figure and round the figure to two decimal places.

(3) Subtract the amount the parent may claim as "credit for child and dependent care expenses" for federal income tax from the amount of child care expenses reported on the financial statement. The difference, rounded to the nearest dollar, is the amount allowed for a deduction in determining income for child support.

99.2(8) Qualified additional dependent deduction (QADD). The qualified additional dependent deduction is the amount specified in the supreme court guidelines as a deduction for any child for whom parental responsibility has been legally established as defined by the child support guidelines. However, this deduction may not be used for a child for whom the parent may be eligible to take a deduction under subrule 99.2(4).

a. The deduction for qualified additional dependents may be used:

(1) For dependents of the custodial or noncustodial father or mother, whether in or out of the parent's home. The father may establish the deduction by providing written verification of a legal obligation to the children through one of the actions enumerated in the guidelines. The mother may establish the deduction by providing written verification of a legal obligation to the children, including the mother's statement.

(2) In the establishment of original orders.

(3) In the modification of existing orders. The deduction may be used in an upward modification. The deduction cannot be used to affect the threshold determination of eligibility for a downward modification, but may be used after the threshold determination is met.

b. Reserved.

441—99.3(234,252B) Determining net income.

99.3(1) *Calculating net income.* All includable income and allowable deductions shall be expressed in monthly amounts. Income and corresponding deductions received at a frequency other than monthly shall be converted to equivalent monthly amounts by multiplying the income and corresponding deductions received on a weekly basis by 4.33, on a biweekly basis by 2.17, and on a semimonthly basis by 2. All converted figures shall be rounded to the nearest dollar.

99.3(2) *Estimating net income.*

a. The estimated net income of a parent shall be 80 percent of the reported income or the estimated income as determined from occupational wage rate information or derived from the median income of parents on the CSRU caseload, as appropriate, minus the deductions enumerated in subrules 99.2(3) to 99.2(8) when the information to calculate these deductions is readily available through automated or other sources.

b. The net income of a parent shall be estimated under the following conditions:

(1) Gross earned income information was obtained from a source that did not provide itemized deductions allowed by the mandatory support guidelines.

(2) Occupational wage rate information or median income of parents on the CSRU caseload was used to determine a parent's income.

441—99.4(234,252B) Applying the guidelines.

99.4(1) *Selecting guidelines chart.* The child support recovery unit shall use the guidelines chart only for the number of children for whom support is being sought sharing the same two legal parents.

EXCEPTION: For foster care recovery cases the guidelines chart shall be used as set forth in paragraph 99.5(4) "c."

99.4(2) *Establishing current support.*

a. *Calculation.* The child support recovery unit shall calculate the amount of support required under the Iowa Supreme Court guidelines as follows:

(1) Determine the net monthly income of the custodial parent.

(2) Determine the net monthly income of the noncustodial parent.

(3) Use the chart for the appropriate number of children and the respective incomes of the parents to determine the appropriate percentage to apply.

(4) Multiply the noncustodial parent's net monthly income by the percentage determined appropriate. Round this amount to the nearest whole dollar.

b. *Additional factors.*

(1) In all cases other than foster care, CSRU shall establish current support payable in monthly frequencies.

(2) In foster care cases, CSRU may establish current support payable in monthly or weekly frequencies. To establish a weekly amount, CSRU shall divide the figure in subparagraph 99.4(2) "a"(4) by 4.33 and round to the nearest whole dollar.

(3) If the court orders joint (equally shared) physical care of a child or split or divided physical care of multiple children, the unit shall calculate current support according to the Iowa Supreme Court guidelines for each parent assuming the other is the custodial parent. If a child begins receiving family investment program (FIP) benefits or if foster care funds are expended, an offset of the two amounts as a method of payment shall be disallowed.

(4) The amount of support shall be zero if the noncustodial parent's only income is Supplemental Security Income paid pursuant to 42 U.S.C. 1381a.

99.4(3) *Establishing accrued support debt amount.*

a. *Support debt created.* The payment of public assistance to or for the benefit of a dependent child or a dependent child's caretaker creates an accrued support debt due and owing by the child's parent to the department. The amount of the accrued support debt is based on the period of time public

assistance payment or foster care funds were expended, but is not created for the period of receipt of public assistance on the parent's own behalf for the benefit of the dependent child or the child's caretaker.

b. Calculating accrued support debt. CSRU shall calculate the accrued support debt as follows:

(1) For Family Investment Program (FIP) benefits, CSRU shall use the period for which FIP was paid during the 36 months preceding the date the notice of support debt is prepared or the date the petition is filed. For foster care assistance, CSRU shall use the three-month period for which foster care assistance was paid prior to the date the initial notice to the noncustodial parent of the amount of support obligation is prepared, or the date a written request for a court hearing is received, whichever is earlier.

(2) CSRU shall exclude periods the noncustodial parent received public assistance as a part of this eligible group.

(3) CSRU may extend the period to include any additional periods public assistance is expended prior to the entry of the order.

(4) CSRU shall calculate the amount of the obligation by using the current net income of both parents, the guidelines in effect at the time the order is entered, and the number of children of the noncustodial parent who were receiving public assistance for each month for which accrued support is sought.

(5) CSRU shall calculate the total amount of the FIP support debt by multiplying the number of months for which assistance was paid times the determined guidelines amount.

(6) CSRU may calculate the total amount of the foster care support debt by multiplying the number of months for which assistance was paid times the determined guidelines amount and shall adjust this amount for weeks in which no foster care benefits were paid.

c. Establishing the accrued support repayment amount.

(1) In cases other than foster care, CSRU shall establish the repayment amount as follows:

1. When there is an ongoing obligation, the monthly repayment amount shall be 10 percent of the ongoing amount unless the noncustodial parent agrees to a higher amount.

2. When the order does not include ongoing support, the monthly repayment amount shall be the same as the amount for ongoing support which would have been due if such an obligation had been established. However, when all of the children for whom accrued support debt is sought are residing with the noncustodial parent, the monthly repayment amount shall be set at 10 percent of this amount.

(2) In foster care cases, CSRU shall establish the repayment amount in the same manner as subparagraph (1), but may establish weekly amounts and if the order does not include ongoing support, the repayment amount shall be set at 10 percent of the amount for ongoing support which would have been due if such an obligation had been established.

99.4(4) *Children in nonparental homes or foster care.* The parents of a child in a nonparental home or in foster care are severally liable for the support of the child. A support obligation shall be established separately for each parent.

a. Parents' location known. When the location is known for both parents having a legal obligation to provide support for their children, the income of both parents shall be used to determine the amount of ongoing support in accordance with the child support guidelines.

(1) Calculating support amount. There shall be a separate calculation of each parent's child support amount, regardless of whether the parents are married and living together, or living separately. Each calculation shall assume that the parent for whom support is being calculated is the noncustodial parent and the other parent is the custodial parent.

(2) Prior orders. If only one parent is paying support under a prior order for the children for whom support is being calculated, the amount of support paid shall not be deducted from that parent's net monthly income in computing the support amount for the other parent.

b. One parent's location unknown. When the location of one parent is not known, procedures shall be initiated to establish a support order against the parent whose location is known in accordance with the mandatory support guidelines as follows:

(1) The parent whose location is known shall be considered the noncustodial parent and that parent's income shall be used to calculate child support.

(2) The income of the parent whose location is unknown shall be determined by using the estimated median income for parents on the CSRU caseload and that parent shall be considered the custodial parent in calculating child support.

c. When one parent is deceased or has had parental rights terminated, the method used to calculate support when one parent's location is not known shall be used. The parent who is deceased or has had parental rights terminated shall be considered the custodial parent with zero income.

99.4(5) *Extraordinary visitation adjustment.* The extraordinary visitation adjustment is a credit to the guideline amount of child support as specified in the supreme court guidelines. The credit shall not reduce the child support amount below the minimum support amount required by the supreme court guidelines.

The extraordinary visitation adjustment credit shall be given if all of the following apply:

a. There is an existing order for the noncustodial parent that meets the criteria for extraordinary visitation in excess of 127 overnights per year on an annual basis for the child for whom support is sought. The order granting visitation can be a different order than the child support order. If a controlling order is determined pursuant to Iowa Code chapter 252K and that controlling support order does not meet the criteria for extraordinary visitation, there is another order that meets the criteria.

b. The noncustodial parent has provided CSRU with a file-stamped or certified copy of the order.

c. The court has not ordered equally shared physical care.

441—99.5(234,252B) Deviation from guidelines.

99.5(1) *Criteria for deviation.* Variation from the child support guidelines shall not be considered without a record or written finding, based on stated reasons, that the guidelines would be unjust or inappropriate under the following criteria:

a. Substantial injustice would result to the obligor, the obligee, or the child.

b. Adjustments are necessary to provide for the needs of the child and to do justice between the parties under the special circumstances of the case.

c. In certain foster care cases, adjustments are necessary due to expenses related to the goals and objectives of the case permanency plan or other circumstances contemplated in Iowa Code section 234.39.

99.5(2) *Supporting financial and legal documentation.*

a. The party requesting a deviation from the guidelines shall provide supporting documentation. The supporting documentation shall include an itemized list identifying the amount and nature of each adjustment requested. Failure to provide supporting documentation for a request for deviation shall result in a denial of the request.

b. Legal documents prepared for the court's approval, such as stipulations and orders for support, shall include language to identify the following:

(1) The amount of support calculated under the guidelines without allowance for deviations.

(2) The reasons for deviating from the guidelines.

(3) The amount of support calculated after allowing for the deviation.

99.5(3) *Depreciation.* A parent may request a deduction for depreciation of machinery, equipment, or other property used to earn income. Straight-line depreciation shall be the only type of depreciation that shall be allowed as a deduction. The child support recovery unit shall allow the straight-line depreciation amount as a deduction if the parent provides documentation from a tax preparer verifying the amount of straight-line depreciation being claimed. Straight-line depreciation is computed by deducting the property's estimated salvage value from the cost of the property, and deducting that figure in equal yearly amounts over the period of the property's remaining estimated useful life.

99.5(4) *Foster care case.* In a foster care case, the child support recovery unit may deviate from the guidelines by applying a 30 percent flat rate deduction for parents who provide financial documentation. The flat rate deduction represents expenses under the case permanency plan and financial hardship allowances.

a. and b. Rescinded IAB 5/5/99, effective 7/1/99.

c. CSRU shall calculate the support obligation of the parents of children in foster care when the parents have a legal obligation for additional dependents in the home, as follows: The support obligation of each parent shall be calculated by allowing all deductions the parent is eligible for under the child support guidelines as provided in rule 441—99.2(234,252B) and by using the guidelines chart corresponding to the sum of the children in the home for whom the parent has a legal obligation and the children in foster care. The calculated support amount shall be divided by the total number of children in foster care and in the home to compute the support obligation of the parent for each child in foster care.

99.5(5) *Negotiation of accrued support debt.* The child support recovery unit may negotiate with a parent to establish the amount of accrued support debt owed to the department. In negotiating accrued support, the state does not represent the custodial parent. The custodial parent may intervene at any time prior to the filing of the order to contest the amount of the debt or request the entry of a judgment in the parent's behalf which may otherwise be relinquished through negotiation or entry of a judgment.

These rules are intended to implement Iowa Code sections 234.39, 252B.3, 252B.5, 252B.7A, and 598.21(4).

441—99.6 to 99.9 Reserved.

DIVISION II
PATERNITY ESTABLISHMENT

Part A
Judicial Paternity Establishment

441—99.10(252A) Temporary support. If a court ordered a putative father to pay temporary support before entering an order making a final determination of paternity under Iowa Code section 252A.6A, but then the court determines that the putative father is not the legal father and enters an order terminating the temporary support, all the following apply.

99.10(1) *Satisfaction of accrued support.* Upon receipt of a file-stamped copy of the order terminating the support order, the child support recovery unit shall take the following action concerning unpaid support assigned to the department:

a. The child support recovery unit shall satisfy only unpaid support assigned to the department.

b. The child support recovery unit shall ask the obligee to sign the satisfaction acknowledging the obligee has no right to support owed the department and waive notice of hearing on a subsequent satisfaction order. If the obligee does not sign the satisfaction and waiver or notice, the child support recovery unit is not prevented from satisfying amounts due the department.

c. The child support recovery unit shall prepare the required documents to satisfy any amounts owed the department and shall file them with the appropriate district court.

99.10(2) *Previously collected moneys.* The child support recovery unit shall not return any moneys previously paid on the temporary support judgment.

This rule is intended to implement Iowa Code section 252A.6A.

441—99.11 to 99.20 Reserved.

Part B
Administrative Paternity Establishment

441—99.21(252F) When paternity may be established administratively. The child support recovery unit may seek to administratively establish paternity and accrued or accruing child support and medical support obligations against an alleged father when the conditions specified in Iowa Code chapter 252F are met.

441—99.22(252F) Mother's certified statement. Before initiating an action under Iowa Code chapter 252F, the unit may obtain a signed Paternity Questionnaire, Form 470-0172, or a similar document from the child's caretaker. The unit shall obtain the Mother's Written Statement Alleging Paternity, Form 470-3293, from the child's mother certifying, in accordance with Iowa Code section 622.1, that the man named is or may be the child's biological father. A similar document which substantially meets the requirements of Iowa Code section 622.1 may also be used. In signing Form 470-3293 or similar document, the mother acknowledges that the unit may initiate a paternity action against the alleged father, and she agrees to accept service of all notices and other documents related to that action by first-class mail. The mother shall sign and return Form 470-3293 or a similar document to the unit within ten days of the date of the unit's request.

441—99.23(252F) Notice of alleged paternity and support debt. Following receipt of the Mother's Written Statement Alleging Paternity, Form 470-3293, or a similar document which substantially meets the requirements of Iowa Code section 622.1, the unit shall serve a notice of alleged paternity and support debt as provided in Iowa Code section 252F.3.

441—99.24(252F) Conference to discuss paternity and support issues. The alleged father may request a conference as provided in Iowa Code section 252F.3, subsection (1), with the office that issued the notice to discuss paternity establishment and the amount of support he may be required to pay.

441—99.25(252F) Amount of support obligation. The unit shall determine the amount of the child support obligation accrued and accruing using the child support guidelines established by the Iowa Supreme Court, and pursuant to the provisions of Iowa Code section 252B.7A.

441—99.26(252F) Court hearing. If the alleged father requests a court hearing within the time frames specified in Iowa Code section 252F.3, or as extended by the unit, and paternity testing has not been conducted, the unit shall issue ex parte administrative orders requiring the alleged father, the mother and the child to submit to paternity testing.

441—99.27(252F) Paternity contested. The alleged father may contest the paternity establishment by submitting, within 20 calendar days after service of the notice upon him, as provided in rule 441—99.23(252F), a written statement contesting paternity to the address of the unit as set forth in the notice. The mother may contest paternity establishment by submitting, within 20 calendar days after the unit mailed her notice of the action or within 20 calendar days after the alleged father is served with the original notice, whichever is later, a written statement contesting paternity to the address of the unit as set forth in the notice. When paternity is contested, or at the unit's initiative, the unit shall issue ex parte administrative orders requiring the alleged father, the mother and the child to submit to paternity testing.

441—99.28(252F) Paternity test results challenge. Either party or the unit may challenge the results of the paternity test by filing a written notice with the district court within 20 calendar days after the unit issues or mails the paternity test results to the parties. When a party challenges the paternity test results, and requests an additional paternity test, the unit shall order an additional blood or genetic test, if the party requesting the additional test pays for the additional testing in advance. If the party challenges the first paternity test results, but does not request additional tests, the unit may order additional blood or genetic tests.

441—99.29(252F) Agreement to entry of paternity and support order. If the alleged father admits paternity and reaches agreement with the unit on the entry of an order for support, the father shall acknowledge his consent on the Administrative Paternity Order, Form 470-3294. If the mother does not contest paternity within the allowed time period or if the mother waives the time period for contesting paternity, the unit shall file the Administrative Paternity Order with the court in accordance with Iowa Code section 252F.6.

441—99.30(252F) Entry of order establishing paternity only. If the alleged father requests a court hearing on support issues and paternity is not contested, or if paternity was contested but neither party filed a timely challenge of the paternity test results, the unit shall prepare an order establishing paternity and reserving the support issues for determination by the court. The unit shall present the order and other documents supporting the entry of the ex parte paternity-only order to the court for review and approval prior to the hearing on the support issues.

441—99.31(252F) Exception to time limit. The unit may accept and respond to written requests for court hearings beyond the time limits allowed in this part.

441—99.32(252F) Genetic test costs assessed.

99.32(1) Paternity established. If genetic testing of an alleged father is conducted and that man is established as the child's father, the unit shall assess the costs of the genetic testing to the father who denied paternity and enter an order for repayment of these costs.

99.32(2) Paternity not established. If genetic testing of an alleged father is conducted and that man is not established as the child's father, the costs of the genetic testing shall not be assessed to any of the parties.

99.32(3) Results contested. If the results of the genetic testing are timely challenged and the challenging party requests additional testing, the party contesting the results shall advance the cost of the additional testing. If the challenging party does not advance payment for the additional testing, the unit shall certify the case to district court.

These rules are intended to implement Iowa Code chapter 252F.

441—99.33 to 99.35 Reserved.

Part C
Paternity Disestablishment

441—99.36(598,600B) Definitions.

"Disestablishment" means paternity which is legally overcome under the conditions specified in Iowa Code section 600B.41A or section 598.21, subsection 4A.

"Nonrequesting parent" means a parent who is not filing a petition to overcome paternity.

"Requesting parent" means a parent who files a petition to overcome paternity.

441—99.37(598,600B) Communication between parents. When a parent who has filed a petition to disestablish paternity requests assistance from the child support recovery unit in contacting the other parent, the child support recovery unit shall take the following actions if services are being provided by the child support recovery unit, the location of the nonrequesting party is known, and the child support recovery unit has been provided a copy of the petition to disestablish paternity.

99.37(1) Written contact. The child support recovery unit shall send written notification to the nonrequesting parent of the requesting parent's desire to disestablish paternity and of the requesting parent's whereabouts. The notice shall state that the nonrequesting parent may cooperate in this action by filing a statement of the nonrequesting parent's current address or the name and address of the nonrequesting parent's attorney in the court file, or may contact the requesting parent with this information.

99.37(2) Notification of requesting parent. The child support recovery unit shall provide notification to the requesting party that contact was made with the nonrequesting party and that the nonrequesting parent may file a statement in the court file or may contact the requesting parent directly.

441—99.38(598,600B) Continuation of enforcement. The child support recovery unit shall continue all enforcement actions to collect current and accrued support as ordered until the unit receives a file-stamped copy of the order disestablishing paternity.

441—99.39(598,600B) Satisfaction of accrued support.

99.39(1) *Disestablishment orders entered before May 21, 1997.* Upon receipt of a file-stamped copy of an order disestablishing paternity which was entered before May 21, 1997, the child support recovery unit shall take the following action concerning unpaid support assigned to the department.

a. The child support recovery unit shall satisfy only unpaid support assigned to the department and only if:

(1) For actions under Iowa Code section 600B.41A, blood or genetic testing was done and a guardian ad litem was appointed for the child.

(2) For actions under Iowa Code section 598.21, the written statement was filed and a guardian ad litem was appointed for the child.

b. The child support recovery unit shall ask the obligee to sign the satisfaction acknowledging the obligee has no right to support owed the department and waive notice of hearing on a subsequent satisfaction order. If the obligee does not sign the satisfaction and waiver of notice, the child support recovery unit is not prevented from satisfying amounts due the department.

c. The child support recovery unit shall prepare the required documents to satisfy any amounts owed the department and shall file them with the appropriate district court. If the court later determines that paternity was incorrectly disestablished, the child support recovery unit may attempt to reinstate and enforce the prior judgment.

99.39(2) *Disestablishment orders entered on or after May 21, 1997.* Upon receipt of a file-stamped copy of an order disestablishing paternity which was entered on or after May 21, 1997, the child support recovery unit shall take the following action concerning unpaid support:

a. If the order also contains a provision satisfying unpaid support, the unit shall adjust its records to show unpaid support is paid.

b. If the order does not contain a provision satisfying unpaid support, the unit shall satisfy only unpaid support assigned to the department. The unit shall notify the party who petitioned the court for disestablishment that this is the only support the unit can satisfy.

(1) The child support recovery unit shall ask the obligee to sign the satisfaction acknowledging the obligee has no right to support owed the department and waive notice of hearing on a subsequent satisfaction order. If the obligee does not sign the satisfaction and waiver notice, the child support recovery unit is not prevented from satisfying amounts due the department.

(2) The child support recovery unit shall prepare the required documents to satisfy any amounts owed the department and shall file them with the appropriate court. If the court later determines that paternity was incorrectly disestablished, the child support recovery unit may attempt to reinstate and enforce the prior judgment.

99.39(3) *Termination of paternity.* If the court entered an order dismissing a disestablishment of paternity action on or before May 21, 1997, this subrule applies. Upon receipt of a file-stamped copy of an order terminating paternity under the requirements of Iowa Code section 600B.41A, the child support recovery unit shall take the following action concerning unpaid support assigned to the department:

a. The child support recovery unit shall satisfy only unpaid support assigned to the department.

b. The child support recovery unit shall ask the obligee to sign the satisfaction acknowledging the obligee has no right to support owed the department and waive notice of hearing on a subsequent satisfaction order. If the obligee does not sign the satisfaction and waiver of notice, the child support recovery unit is not prevented from satisfying amounts due the department.

c. The child support recovery unit shall prepare the required documents to satisfy any amounts owed the department and shall file them with the appropriate district court. If the court later determines that paternity was incorrectly terminated, the child support recovery unit may attempt to reinstate and enforce the prior judgment.

99.39(4) *Previously collected moneys.* The child support recovery unit shall not return any moneys previously paid on the judgment.

These rules are intended to implement Iowa Code section 598.21, subsection 4A, and Iowa Code section 600B.41A.

441—99.40 Reserved.

DIVISION III
ADMINISTRATIVE ESTABLISHMENT OF SUPPORT
[Prior to 9/1/93, see 441—95.11(252C)]

441—99.41(252C) Establishment of an administrative order.

99.41(1) *When order may be established.* The bureau chief may establish a child or medical support obligation against a responsible person through the administrative process. This does not preclude the child support recovery unit from pursuing the establishment of an ongoing support obligation through other available legal proceedings. When gathering information to establish a support order, the unit may obtain a signed Form 470-3929, Establishment Questionnaire, or a similar document from the child's caretaker.

a. to d. Rescinded IAB 11/6/96, effective 1/1/97.

99.41(2) *Support debt.* When public assistance is paid to or Medicaid is received by a child of the responsible person, or the dependent child's caretaker, a support debt is created and owed to the department. When no public assistance is paid or Medicaid is received, the debt is owed to the individual caretaker.

99.41(3) *Notice to responsible person.* When the bureau chief establishes a support debt against a responsible person, a notice of child support debt shall be served in accordance with the Iowa Rules of Civil Procedure. The notice shall include all of the rights and responsibilities shown in Iowa Code section 252C.3. The notice shall also inform the responsible person which of these rights may be waived pursuant to Iowa Code section 252C.12, and the procedures for and effect of waiving these rights. The notice shall include a statement that failure to respond within the time limits given and to provide information and verification of financial circumstances shall result in the entry of a default judgment for support.

99.41(4) *Negotiation conference.* The responsible person may, within ten calendar days after being served the notice of child support debt, request a negotiation conference with the office of the child support recovery unit which sent the notice.

99.41(5) *Amount of support obligation.* The child support recovery unit shall determine the amount of the child support obligation accrued and accruing using the child support guidelines established by the Iowa Supreme Court, and pursuant to the provisions of Iowa Code section 252B.7A.

a. Any deviation from the guidelines shall require a written finding by the bureau chief.

b. Reserved.

99.41(6) Reserved.

99.41(7) *Court hearing.* Either the responsible person or the child support recovery unit may request a court hearing regarding the establishment of a support obligation through the administrative process.

a. The request for a hearing by the responsible person shall be in writing and sent to the office of the child support recovery unit which sent the original notice of the support debt by the latest of the following:

(1) Thirty days from the date of service of the first notice of support debt.

(2) Ten days from the date of the negotiation conference.

(3) Thirty days from the date the second notice and finding of financial responsibility is issued.

(4) Ten days from the date of issuance of the conference report if the bureau chief does not issue a second notice and finding of financial responsibility after a conference was requested.

b. When a request for a court hearing is received from the responsible person, within the time limits allowed, or is made by the child support recovery unit, the bureau chief shall schedule or request that the hearing be scheduled in the district court in the county:

(1) Where the dependent child resides if the child resides in Iowa.

(2) Where the responsible person resides if the child for whom support is sought resides in another state or the sole purpose of the administrative order is to secure a judgment for the time period that public assistance was expended by the state on behalf of the family or child.

99.41(8) *Exception to time limit.* The bureau chief may accept and respond to written requests for a court hearing beyond the time limits allowed in this rule.

99.41(9) *Entry of order.* If no request for a hearing is received from the responsible person at the local office of the child support recovery unit, or made by the unit, the bureau chief may prepare an order for support and have it presented ex parte to the court for approval.

a. The attorney for the child support recovery unit shall present the order and other documents supporting the entry of the ex parte order to the court for review and approval. Pursuant to Iowa Code chapter 252C, the court shall approve the order unless defects appear in the order or supporting documents.

b. The bureau chief shall file a copy of the approved order with the clerk of the district court, as stated in 441—paragraph 95.11(7) “*b.*”

c. The bureau chief shall send a copy of the filed order by regular mail, to the caretaker’s last-known address, to the responsible person’s last-known address or the caretaker’s or the responsible person’s attorney pursuant to the provisions of Iowa Code chapter 252C within 14 days after approval and issuance of the order by the court.

99.41(10) *Force and effect.* Once the order has been signed by the judge and filed, it shall have all the force and effect of an order or decree entered by the court. Unless otherwise specified, the effective date of the support obligation shall be the twentieth day following the date the order is prepared by the unit.

99.41(11) *Modification by bureau chief.* The bureau chief may petition an appropriate court for modification of a court order on the same grounds as a party to the court order can petition the court for modification.

This rule is intended to implement Iowa Code chapter 252C.

441—99.42 to 99.60 Reserved.

DIVISION IV
REVIEW AND ADJUSTMENT OF CHILD SUPPORT OBLIGATIONS
[Prior to 9/1/93, see 441—98.51(73GA,ch1244) to 98.60(73GA,ch1244)]

441—99.61(252B,252H) Definitions.

“*Guidelines*” means the most current guidelines and criteria prescribed by the Iowa Supreme Court for determining the amount of child support to be awarded.

“*Parent*” means a person who is a responsible person or a caretaker, as those terms are defined in rule 441—95.1(252B).

“*Recipient of service*” means a person receiving foster care services, or a recipient of family investment program assistance or Medicaid benefits whose child support or medical support is assigned, or a person who is not receiving public assistance but who is entitled to child support enforcement services pursuant to Iowa Code section 252B.4.

441—99.62(252B,252H) Review of permanent child support obligations. Permanent child support obligations that are ongoing and being enforced by the child support recovery unit or the child support agency of another state shall be reviewed by the unit to determine whether or not to adjust the obligation. The unit shall determine the appropriate obligation amount using the child support guidelines. Iowa must have continuing, exclusive jurisdiction to modify the order under Iowa Code chapter 252K.

99.62(1) *Periodic review.* A permanent child support obligation being enforced by the child support recovery unit and meeting the conditions in Iowa Code section 252H.12 may be reviewed upon the initiative of the unit if:

a. The right to any ongoing child support obligation is currently assigned to the state due to the receipt of public assistance.

b. The right to any ongoing medical support obligation is currently assigned to the state and the support order does not already contain medical provisions.

c. A review is otherwise necessary to comply with state or federal law.

99.62(2) *Review by request.* A review shall be conducted upon the request of the child support recovery agency of another state or upon the written request of either parent subject to the order submitted

on Form 470-2749, Request to Modify a Child Support Order. One review may be conducted every two years when the review is being conducted at the request of either parent. The request for review may be no earlier than two years from the filing date of the support order or most recent modification or the last completed review, whichever is later.

99.62(3) Review outcome.

a. Procedures to adjust the support obligation shall be initiated only when the financial and other information available to the child support recovery unit indicates that the:

(1) Present child support obligation varies from the Iowa Supreme Court mandatory child support guidelines by more than 20 percent, and

(2) Variation is due to a change in financial circumstances which has lasted at least three months and can reasonably be expected to last for an additional three months.

b. Procedures to modify a support order may be initiated when all of the following conditions are met:

(1) The order does not include provisions for health insurance coverage or other medical support.

(2) Health insurance coverage for the children affected by the support order is available at a reasonable cost to the parent required to pay support.

(3) The children are not otherwise adequately covered under a health benefit plan by the custodial parent or spouse of the custodial parent, excluding coverage under Medicaid.

For the purpose of this rule, health insurance is considered reasonable in cost if it is employment-related or other group health insurance as specified in Iowa Code section 598.21(4) "a."

441—99.63(252B,252H) Notice requirements. The child support recovery unit shall provide written notification to each parent affected by a permanent child support obligation being enforced by the child support recovery unit as follows:

99.63(1) Notice of right to request review. The child support recovery unit shall notify each parent of the right to request review of the order and the appropriate place and manner in which the request should be made. Notification shall be provided on Form 470-0188, Application For Nonassistance Support Services, Form 470-1981, Notice of Continued Support Services, Form 470-3078, Availability of Review and Adjustment Services, or through another printed or electronic format.

99.63(2) Notice of intent to review. At least 30 days before the review is conducted, the child support recovery unit shall serve notice of its intent to review the order on each parent affected by the child support obligation. This notice shall include a request that the parties complete a financial statement and provide verification of income. The notice shall be served in accordance with Iowa Code section 252H.15.

99.63(3) Notice of review outcome. After the child support recovery unit completes the review of the child support obligation in accordance with rule 441—99.62(252B,252H), the unit shall send notice to the last-known address of each parent stating whether or not an adjustment is appropriate and, if so, the unit's intent to enter an administrative order for adjustment.

a. and b. Rescinded IAB 2/5/03, effective 4/1/03.

99.63(4) Challenges to outcome of review. Each parent shall be allowed 10 days from the date of the notice of decision to submit a written request for a second review challenging this determination to the child support recovery unit. The procedure for challenging the determination is as follows:

a. The parent challenging the determination shall submit the request for a second review in writing to the child support recovery unit stating the reasons for the request and providing written evidence necessary to support the challenge.

b. The child support recovery unit shall review the written evidence submitted with the request and all financial information available to the unit and make a determination of one of the following:

(1) Rescinded IAB 2/5/03, effective 4/1/03.

(2) To enter an administrative order for adjustment of the obligation.

(3) That adjustment of the child support obligation is inappropriate.

c. The unit shall send written notice of the outcome of the second review to each parent affected by the child support obligation at the parent's last-known mailing address.

d. If either parent disputes the second decision, the objecting parent may request a court hearing within 30 days from the date the notice of decision is issued or within 10 days of the date the second notice of decision is issued, whichever is later. If the unit receives a timely written request or the unit determines that a court hearing is necessary, the unit shall certify the matter to the district court. An objecting parent may seek recourse by filing a private petition for modification through the district court.

441—99.64(252B,252H) Financial information. The child support recovery unit shall attempt to obtain and verify information concerning the financial circumstances of the parents subject to the order to be reviewed necessary to conduct the review.

99.64(1) *Financial statements.* Both parents subject to the order to be reviewed shall provide a financial statement and verification of income within ten days of service of the notice of the unit's intent to review the obligation.

a. Verification of income shall include, but not be limited to, the following: copies of state and federal income tax returns, W-2 statements, pay stubs, or a signed statement from an employer or other source of income.

b. The child support recovery unit may also request that the parent requesting review provide an affidavit regarding the financial circumstances of the nonrequesting parent when the unit is otherwise unable to obtain financial information concerning the nonrequesting parent. The requesting parent shall complete the affidavit if the parent possesses sufficient information to do so.

99.64(2) *Independent sources.* The child support recovery unit may utilize other resources to obtain or confirm information concerning the financial circumstances of the parents subject to the order to be reviewed. These resources include, but are not limited to, the following: the Iowa workforce development department, the Iowa department of revenue, the Internal Revenue Service, the employment, revenue, and child support recovery agencies of other states, and the Social Security Administration.

In the absence of other verification of income and deductions allowed under the mandatory support guidelines, the child support recovery unit may estimate the net earned income of a parent for the purpose of determining the amount of support that would be due under the guidelines by deducting 20 percent from the gross earned income confirmed by an independent source.

A parent may challenge this estimate by providing verification of actual earned income deductions.

99.64(3) *Availability of medical insurance.* Both parents subject to the order to be reviewed shall provide documentation regarding the availability of health insurance coverage for the children covered under the order, and the cost of the coverage, within ten days of a written request by the child support recovery unit. Verification may include, but not be limited to: a copy of the health benefit plan including the effective date of the plan, a letter from the employer detailing the availability of health insurance, or any other source that will serve to verify health insurance information and the cost of the coverage.

441—99.65(252B,252H) Review and adjustment of a child support obligation.

99.65(1) *Conducting the review.* The child support recovery unit or its attorney shall review the case for administrative adjustment of a child support obligation unless it is determined that any of the following exist:

a. The location of one or both of the parents is unknown.

b. The variation from the Iowa Supreme Court mandatory child support guidelines is based on any material misrepresentation of fact concerning any financial information submitted to the child support recovery unit.

c. The variation from the Iowa Supreme Court mandatory child support guidelines is due to a voluntary reduction in net monthly income attributable to the actions of the parent. The unit may request and the parent shall supply verification that a loss of employment was not voluntary or that all facts concerning financial information are true. Verification may include, but is not limited to, a statement from the employer, a doctor, or other person with knowledge of the situation.

d. The criteria of rule 441—99.62(252B,252H) are not met.

e. The end date of the order is less than 12 months in the future or the youngest child is 17½ years of age.

99.65(2) Civil action. The review and adjustment action that is certified to court for hearing shall proceed as an ordinary civil action in equity, and the child support recovery unit attorney shall represent the state of Iowa in those proceedings.

99.65(3) Private counsel. After the notice of intent to review and adjust has been served, any party may choose to be represented personally by private counsel. Any party who retains private counsel shall notify the child support recovery unit of this fact in writing.

441—99.66(252B,252H) Medical support. The child support recovery unit, or its attorney, shall review the medical support provisions contained in any permanent child support order which is subject to review under rule 441—99.65(252B,252H) and shall include in any adjustment order a provision for an employment-related or other group health benefit plan as defined in Iowa Code chapter 252E, and as set forth in 441—Chapter 98, Division I, or other appropriate provisions pertaining to medical support for all children affected directly by the child support order under review.

441—99.67(252B,252H) Confidentiality of financial information. Financial information provided to the child support recovery unit by either parent for the purpose of facilitating the review and adjustment process may be disclosed to the other parties to the case, or to the district court, as follows:

99.67(1) Financial statements. Statements of financial status may be disclosed to either party.

99.67(2) Other documentation. Supporting financial documentation such as state and federal income tax returns, paycheck stubs, IRS Form W-2, bank statements, and other written evidence of financial status may be disclosed to the court after the notice of intent to review and adjust has been served, unless otherwise prohibited by state or federal law.

441—99.68(252B,252H) Payment of service fees and other court costs. Payment of fees for administrative review or service of process and other court costs associated with the review and adjustment process is the responsibility of the party requesting review unless the court orders otherwise or the requesting party, as a condition of eligibility for receiving public assistance benefits, has assigned the rights to child or medical support for the order to be modified.

A requesting party who is indigent or receiving public assistance may request deferral of fees and costs. For the purposes of the division, “indigent” means that the requesting party’s income is 200 percent or less than the poverty level for one person as defined by the United States Office of Management and Budget and revised annually in accordance with Section 673(2) of the Omnibus Budget Reconciliation Act of 1981.

441—99.69(252B,252H) Denying requests. A request for review by a parent subject to the order may be denied for the following reasons:

99.69(1) Rescinded IAB 8/2/95, effective 10/1/95.

99.69(2) It has been less than two years since the support order was filed with the court, last modified, or last reviewed for the purpose of adjustment.

99.69(3) The child support recovery unit or a child support agency of another state is not providing enforcement services for an ongoing support obligation under the order for which the review has been requested.

99.69(4) The request is based entirely on issues such as custody or visitation rights, which are not directly related to child support.

99.69(5) The request is for the sole purpose of modifying the amount of delinquent support that has accrued under a support order.

99.69(6) The request is for the review of a temporary support order.

441—99.70(252B,252H) Withdrawing requests. If the requesting party contacts the child support recovery unit to withdraw the request, the child support recovery unit shall proceed as follows:

99.70(1) Best interests of the child. Rescinded IAB 2/5/03, effective 4/1/03.

99.70(2) Consent of both parties. The child support recovery unit shall notify the nonrequesting party of the requesting party's desire to withdraw the request.

a. If the nonrequesting party indicates a desire to continue the review, the unit shall proceed with the review and adjust the obligation, if appropriate.

b. If the nonrequestor indicates a desire to stop the process or fails to respond within ten days to the notification of the request to withdraw, the unit shall notify all parties that the review and adjustment process has been terminated.

99.70(3) Effect of withdrawal. If a request is successfully withdrawn pursuant to subrule 99.70(2), a later request by either party shall be subject to the limitations of subrule 99.62(2).

441—99.71(252H) Effective date of adjustment. Unless subject to court action or reconciliation of multiple Iowa orders, the new obligation amount shall be effective on the first date that the periodic payment is due under the order being modified after the unit files the adjustment order with the court.

These rules are intended to implement Iowa Code sections 252B.5 to 252B.7 and 598.21(9) and Iowa Code chapter 252H.

441—99.72 to 99.80 Reserved.

DIVISION V
ADMINISTRATIVE MODIFICATION

PREAMBLE

This division implements those provisions of Iowa Code chapter 252H which provide for administrative modification of support obligations when there is a substantial change in the financial circumstances of a party and when both parties agree to a change in an obligation through a cost-of-living alteration. These rules also provide for use of the administrative procedure to modify orders to add children, correct errors, set support which had previously been reserved or set at zero dollars, and increase support for minor obligors who do not comply with statutory educational or parenting class requirements or who are no longer minors.

441—99.81(252H) Definitions.

"Additional child" means a child to be added to an existing support order covering another child of the same parents.

"Born of a marriage" means a child was born of a woman who was married at the time of conception, birth, or at any time during the period between conception and birth of the child pursuant to Iowa Code chapter 252A and Iowa Code section 144.13.

"Cost-of-living alteration" means a change in an existing child support order that equals an amount which is the amount of the support obligation following application of the percentage change of the consumer price index for all urban consumers, United States city average, as published in the Federal Register by the federal Department of Labor, Bureau of Labor Statistics, pursuant to Iowa Code section 252H.2.

"Guidelines" means the most current guidelines and criteria prescribed by the Iowa Supreme Court for determining the amount of child support to be awarded.

"Parent" means a person who is a responsible person or a caretaker, as those terms are defined in rule 441—95.1(252B).

"Substantial change of circumstances," for the purposes of this division, means:

1. There has been a change of 50 percent or more in the net income of a parent, as determined by comparing the new net income with the net income upon which the current child support obligation was based, and

2. The change is due to financial circumstances which have existed for a minimum period of three months and can reasonably be expected to exist for an additional three months, pursuant to Iowa Code section 252H.18A.

441—99.82(252H) Availability of service. The child support recovery unit shall provide the services described in this division for a support order originally entered or a foreign order registered in the state of Iowa. The order must be one which:

1. Involves at least one child born of a marriage or one child for whom paternity has been legally established.
2. Is being enforced by the unit in accordance with Iowa Code chapter 252B.
3. Is subject to the jurisdiction of this state for the purposes of modification.
4. Is not subject to or is not appropriate for review and adjustment.
5. Provides for support of at least one child under the age of 18 or a child between the ages of 18 and 19 years who is engaged full-time in completing high school graduation or equivalency requirements in a manner which is reasonably expected to result in completion of the requirements prior to the person's reaching 19 years of age.
6. Has an obligation ending more than 12 months in the future.
7. Involves parents for whom the location of both parents is known.

441—99.83(252H) Modification of child support obligations. Permanent child support obligations meeting the criteria set forth in rule 441—99.82(252H) may be modified at the initiative of the unit, or upon written request of either parent subject to the order submitted on Form 470-2749, Request to Modify a Child Support Order. Any action shall be limited to adjustment, modification, or alteration of the child support or medical provisions of the support order. The duration of the underlying order shall not be modified. The procedures used by the child support recovery unit to determine if a modification is appropriate are as follows:

99.83(1) Substantial change of circumstances. Procedures to modify the support obligation may be initiated outside the minimum time frame described in subrule 99.62(2) if a request is received from either parent and if the parent has submitted verified documentation of a substantial change in circumstances which indicates both of the following:

- a. A change of at least 50 percent in the net income of a parent as defined by guidelines. The new net income will be compared to the net income upon which the current child support obligation was based.
- b. The change is due to financial circumstances which have existed for a minimum period of three months and can reasonably be expected to exist for an additional three months.

The unit shall review the request and documentation and, if appropriate, issue a notice of intent to modify as described in subrule 99.84(1).

99.83(2) Adding provisions for additional children. Procedures to modify the support obligation may be initiated if:

- a. A parent requests, in writing, or the unit determines that it is appropriate to add an additional child to the support order and modify the obligation amount according to the guidelines pursuant to Iowa Code section 598.21(4) and Iowa Code section 252B.7A; and
- b. Paternity has been legally established.

When adding a child to an order through administrative modification, medical support provisions shall apply to the additional child.

99.83(3) Reserved, zero-dollar-amount, or medical-provisions-only orders. Procedures to modify the support obligation may be initiated if:

- a. A parent requests a modification in writing or the unit determines that it is appropriate to include a support amount based on the guidelines; and
- b. The original order:

- (1) Reserved establishment of an ongoing, dollar-amount support obligation giving a specific reason other than lack of personal jurisdiction over the obligor, or

- (2) Set the amount at zero, or
- (3) Was for medical provisions only.

99.83(4) Corrections. Procedures to modify the support obligation may be initiated if:

- a. An error or omission pertaining to child support or medical provisions was made during preparation or filing of a support order; and
- b. A necessary party requests a modification or the unit determines that a modification to correct an error or omission is appropriate.

99.83(5) Noncompliance by minor obligors. The unit may initiate procedures to modify a support order if a parent requests modification in writing or the unit determines that it is appropriate when:

- a. An obligor who is under 18 years of age fails to comply with the requirement to attend parenting classes pursuant to Iowa Code section 598.21A; or
- b. An obligor who is 19 years of age or younger fails to provide proof of compliance with education requirements described in Iowa Code section 598.21(4)“e”; or
- c. The obligor no longer meets the age requirements as defined in Iowa Code section 598.21A or 598.21(4)“e.”

99.83(6) Cost-of-living alteration. A support order may be modified to provide a cost-of-living alteration if all the following criteria are met:

- a. A parent requests a cost-of-living alteration in writing.
- b. At least two years have passed since the order was filed with the court or last reviewed, modified, or altered.
- c. The nonrequesting parent signs a statement agreeing to the cost-of-living alteration of the support order.
- d. Each parent signs a waiver of personal service accepting service by regular mail.
- e. The current support order addresses medical support for the children.
- f. A copy of each affected order is provided, if the unit does not already have copies in its files.

441—99.84(252H) Notice requirements. The child support recovery unit shall provide written notification to parents affected by a permanent child support obligation being enforced by the unit as follows:

99.84(1) Notice of intent to modify. When a request for administrative modification is received or the unit initiates an administrative modification, the unit shall provide written notice to each parent of its intent to modify.

a. The notice shall include the legal basis and purpose for the action; a request for income or other information necessary for the application of guidelines (if applicable); an explanation of the legal rights and responsibilities of the affected parties, including time frames; and procedures for contesting the action.

b. The unit shall take the following actions to notify parents:

- (1) Rescinded IAB 2/5/03, effective 4/1/03.
- (2) If the modification is based on subrules 99.83(1) through 99.83(5), notice shall be provided to each parent. The notice shall be served in accordance with the Iowa Rules of Civil Procedure.
- (3) If the modification is based on provision of a cost-of-living alteration as established at subrule 99.83(6) and the required documentation is included, the child support recovery unit shall notify each parent of the amount of the cost-of-living alteration by regular mail to the last-known address of each parent or, if applicable, each parent’s attorney. The notice shall include:
 1. The method of determining the amount of the alteration pursuant to Iowa Code section 252H.21.
 2. The procedure for contesting a cost-of-living alteration by making a request for review of a support order as provided in Iowa Code section 252H.24.
 3. A statement that either parent may waive the 30-day notice waiting period. If both parents waive the notice waiting period, the unit may prepare an administrative order altering the support obligation.

99.84(2) Notice of decision to modify. The unit shall issue a notice of its decision to modify the support order to each parent affected by the support obligation at each parent’s (or attorney’s) last-known address. The notice shall contain information about whether the unit will continue or terminate the action

and the procedures and time frames for contesting the action by requesting a court hearing pursuant to 441—subrule 99.86(2).

441—99.85(252H) Financial information. The child support recovery unit may attempt to obtain and verify information concerning the financial circumstances of the parents subject to the order to be modified that is necessary to conduct an analysis and determine support. The unit does not require financial information if the request is for a cost-of-living alteration.

99.85(1) Financial statements. Parents subject to the order shall provide a financial statement and verification of income within ten days of a written request by the unit.

a. If the modification action is based on a substantial change of circumstances, the requesting party must provide Form 470-2749, Request to Modify a Child Support Order, and documentation that proves the amount of change in net income and the date the change took place, such as:

- (1) Copies of state and federal income tax returns, W-2 statements, or pay stubs, or
- (2) A signed statement from an employer or other source of income.

The unit shall review the request and documentation. If appropriate, the unit shall issue to each parent a notice of intent to modify the order as stated in subrule 99.84(1) and a financial statement. Each parent shall complete and sign the financial statement and return it to the unit with verification of income and deductions as described in subrule 99.1(3).

b. If the modification action is based on addition of a child; changing reserved, zero-dollar-amount, or medical-provisions-only obligations; making a correction (if financial information is needed); or noncompliance by a minor obligor, as defined in Iowa Code section 598.21A or 598.21(4) “e,” the unit may require a completed and signed financial statement and verification of income from each parent as described in subrule 99.1(3).

(1) The unit may also request that a parent requesting a modification provide an affidavit regarding the financial circumstances of the nonrequesting parent when the unit is otherwise unable to obtain financial information concerning the nonrequesting parent. The requesting parent shall complete the affidavit if the parent possesses sufficient information to do so.

(2) The unit may also use the most recent wage rate information published by the department of workforce development or the median income for parents on the unit caseload to estimate the net earned income of a parent when a parent has failed to return a completed financial statement when requested and complete and accurate information is not readily available from other sources.

(3) Self-employment income will be determined as described in subrule 99.1(5).

99.85(2) Independent sources. The child support recovery unit may use other resources to obtain or confirm information concerning the financial circumstances of the parents subject to the order to be modified as described in rule 441—99.1(234,252B).

99.85(3) Guidelines calculations. The unit shall determine the appropriate amount of the child support obligation (excluding cost-of-living alteration amounts) as described in rules 441—99.1(234,252B) through 441—99.5(234,252B) and shall determine medical support provisions as described in rules 441—98.1(252E) through 441—98.7(252E).

If the modification action is due to noncompliance by a minor obligor, as defined in Iowa Code section 598.21A or 598.21(4) “e,” the unit will impute an income to the obligor equal to a 40-hour workweek at the state minimum wage, unless the parent’s education, experience, or actual earnings justify a higher income.

441—99.86(252H) Challenges to the proposed modification action. For modification actions based on subrules 99.83(1) through 99.83(5), each parent shall have the right to request a conference to contest the proposed modification. Either parent, or the unit, may also request a court hearing. For requests made based on subrule 99.83(6), either parent may contest the cost-of-living alteration by making a request for a review and adjustment of the support order.

99.86(1) Conference. Either parent may contest the proposed modification based on subrules 99.83(1) through 99.83(5) by means of a conference with the office of the unit that issued the notice of intent to modify.

- a. Only one conference shall be held per parent.
- b. The request must be made within ten days of the date of service of the notice of intent to modify.
- c. The office that issued the notice of intent to modify shall schedule a conference with the parent and advise the parent of the date, time, place, and procedural aspects of the conference.
- d. Reasons for contesting the modification include, but are not limited to, mistake of fact regarding the identity of one of the parties or the amount or terms of the modification.
- e. The child support recovery unit may conduct the conference in person or by telephone.
- f. If the party who requested the conference fails to attend the conference, only one alternative time shall be scheduled by the child support recovery unit.
- g. The results of a conference shall in no way affect the right of either party to request a court hearing pursuant to subrule 99.86(2).
- h. Upon completion of the conference, the unit shall issue a notice of decision to modify as described in subrule 99.84(2).

99.86(2) Court hearing.

- a. Either parent, or the unit, may contest the proposed modification, based on subrules 99.83(1) through 99.83(5), by requesting a court hearing within the latest of any of the following time periods:
 - (1) Twenty days from the date of successful service of the notice of intent to modify,
 - (2) Ten days from the date scheduled for a conference, or
 - (3) Ten days from the date of issuance of a notice of decision to modify.
- b. If the unit receives a timely written request, the unit shall certify the matter to the district court as described in Iowa Code section 252H.8.
- c. If a timely request is not received, if waiting periods have been waived, or if the notice periods have expired, the unit shall prepare an administrative order as provided in Iowa Code section 252H.9.

99.86(3) Contesting a proposed cost-of-living alteration. Either parent may contest a cost-of-living alteration within 30 days of the date of the notice of intent to modify by making a request for a review of the support order as provided in Iowa Code section 252H.13.

- a. If the unit receives a timely written request for review, the unit shall terminate the cost-of-living alteration process and proceed with the review and adjustment process.
- b. If a timely request is not made, or the notice waiting period has been waived by both parties, or the notice period has expired, the unit shall prepare an administrative order as provided in Iowa Code section 252H.24.

441—99.87(252H) Voluntary reduction of income. The unit shall not modify the support order based on a substantial change of circumstances if a change in income is due to a voluntary reduction in net monthly income attributable to the actions of the party or is due to any material misrepresentation of fact concerning any financial information submitted to the child support recovery unit.

The unit may request verification that a loss of employment was not voluntary or that all facts concerning financial information are true. Verification may include, but is not limited to, a statement from the employer, a doctor, or other person with knowledge of the situation.

441—99.88(252H) Effective date of modification. Unless subject to court action or reconciliation of multiple Iowa orders, the new obligation shall be effective on the first date that the periodic payment is due under the order being modified after the unit files the modification order with the court. If the modification is based on a reserved, zero-dollar-amount, or medical-provisions-only obligation, the new obligation shall be effective 20 days after generation of the administrative modification order.

441—99.89(252H) Confidentiality of financial information. Financial information provided to the child support recovery unit by either parent for the purpose of facilitating the modification process may be disclosed to the other parties to the case, or the district court, as follows:

99.89(1) Financial statements. The financial statement or affidavit may be disclosed to either party.

99.89(2) Other documentation. Supporting financial documentation such as state and federal income tax returns, paycheck stubs, IRS Form W-2, bank statements, and other written evidence of financial status may be disclosed to the court unless otherwise prohibited by state or federal law.

441—99.90(252H) Payment of fees. Payment of service of process and other costs associated with the modification process is the responsibility of the party requesting modification unless the court orders otherwise or the requesting party, as a condition of eligibility for receiving public assistance benefits, has assigned the rights to child or medical support for the order to be modified.

A requesting party who is indigent or receiving public assistance may request deferral of fees and costs. For the purposes of this division, “indigent” means that the requesting party’s income is 200 percent or less than the poverty level for one person as defined by the United State Office of Management and Budget and revised annually in accordance with Section 673(2) of the Omnibus Budget Reconciliation Act of 1981.

441—99.91(252H) Denying requests. A request for modification by a parent subject to the order may be denied if the criteria in rule 441—99.82(252H) are not met or the following conditions exist:

99.91(1) Nonsupport issues. The request is based entirely on issues such as custody or visitation rights.

99.91(2) Request only for delinquent support. The request is for the sole purpose of modifying the amount of delinquent support that has accrued under a support order.

99.91(3) Temporary order. The request is for the modification of a temporary support order.

99.91(4) Two-year time frame. The request is for a cost-of-living alteration and it has been less than two years since the order was filed with the court or last reviewed, modified, or altered.

99.91(5) Change of circumstances. The request is based on a substantial change in circumstances and:

a. The requestor’s net income has not changed by at least 50 percent, as required in paragraph 99.83(1) “*a*,” or

b. The requestor has not provided adequate documentation of the change in income, as required in subrule 99.85(1), or

c. The change in income has not yet lasted for three months, as required in paragraph 99.83(1) “*b*,” or

d. The change in income is not expected to last another three months, as required in paragraph 99.83(1) “*b*,” or

e. The change in income is a voluntary reduction attributable to the actions of the party, as explained in rule 441—99.87(252H), or

f. The change in income is due to material misrepresentation of fact, as explained in rule 441—99.87(252H).

441—99.92(252H) Withdrawing requests. If the requesting party contacts the child support recovery unit to withdraw the request, the child support recovery unit shall notify the nonrequesting party of the requesting party’s desire to withdraw the modification request. If the nonrequesting party indicates, in writing, a desire to continue with the modification process, the child support recovery unit shall proceed, and if appropriate, modify the support order. If there is no response from the nonrequesting party or if the nonrequesting party also wants the process to end, the unit shall end the modification process. If the unit initiated the modification action, the unit may terminate the process if, after notifying both parents, neither parent indicates a desire to continue with the modification.

These rules are intended to implement Iowa Code chapter 252H.

441—99.93 to 99.100 Reserved.

DIVISION VI
SUSPENSION AND REINSTATEMENT OF SUPPORT

441—99.101(252B) Definitions. As used in this division, unless the context otherwise requires:

“*Child*” shall mean the same as defined in Iowa Code section 252E.1.

“*Child support recovery unit*” or “*unit*” shall mean the same as defined in rule 441—95.1(252B) and Iowa Code section 252B.1.

“*Obligee*” shall mean the same as defined in rule 441—98.1(73GA,ch1224).

“*Obligor*” shall mean the same as defined in rule 441—98.1(73GA,ch1224).

“*Public assistance*” shall mean the same as defined in Iowa Code section 252H.2.

“*Spousal support*” shall mean either a set amount of monetary support, or medical support as defined in Iowa Code section 252E.1, for the benefit of a spouse or former spouse, including alimony, maintenance, or any other term used to describe these obligations.

“*Step change*” shall mean a change designated in a support order that specifies the amount of the child support obligation as the number of children entitled to support under the order changes.

“*Support*” shall mean the same as defined in Iowa Code section 252D.16, and shall include spousal support and support for a child.

“*Support for a child*” shall mean either a set amount of monetary support (child support), or medical support as defined in Iowa Code section 252E.1, for the benefit of a child. This term does not include spousal support as defined in this rule.

“*Support order*” shall mean the same as a “court order” as defined in Iowa Code section 252C.1.

441—99.102(252B) Availability of service. The child support recovery unit shall provide the services described in this division only with respect to support orders entered or registered in this state for which the unit is providing enforcement services in accordance with Iowa Code chapter 252B to collect current or accrued support.

99.102(1) Services described in this division shall only be provided if a court in this state would have continuing, exclusive jurisdiction to suspend and reinstate the order under Iowa Code chapter 252K.

99.102(2) Services described in this division shall be provided only if no prior request for suspension of all or part of a support order has been filed with the unit during the two-year period preceding the request. However, if the request was filed during the two-year period preceding July 1, 2005, and the unit denied the request because the suspension did not apply to all children for whom support is ordered, the unit shall provide suspension services if the parents jointly file a request on or after July 1, 2005.

441—99.103(252B) Basis for suspension of support.

99.103(1) Reconciliation. The child support recovery unit shall assist an obligor and obligee in suspending support for a child and, if contained in a child support order, spousal support, when the obligor and obligee are reconciled and are residing together, with at least one child entitled to support under the order, in the same household.

99.103(2) Change in residency. The unit shall assist an obligor and obligee in suspending support for a child when the child is residing with the obligor; however, the unit shall not assist in suspending any spousal support provisions of a support order on this basis.

99.103(3) Affected children. The unit shall assist an obligor and obligee in suspending all or part of a support order as provided in this division if the basis for suspension as described in this rule applies to the children entitled to support under the order to be suspended as follows:

a. If the basis for suspension applies to all of the children, the unit shall assist in suspending support obligations for all of the children.

b. If the basis for suspension applies to at least one but not all of the children and if the support order includes a step change, the unit shall assist in suspending the support obligations for children for whom the basis for suspension applies.

99.103(4) Limited to current support. The provisions in this division for suspending support apply only toward ongoing or current support. Any support that has accrued prior to the entry of an order suspending support, including judgments for past periods of time, is unaffected by the suspension.

99.103(5) Duration of conditions. The basis for suspension of support as provided in subrule 99.103(2) and subrule 99.103(3) must reasonably be expected to continue for not less than six months from the date a request for assistance to suspend is received by the child support recovery unit.

441—99.104(252B) Request for assistance to suspend.

99.104(1) Submitting a request. The obligor and obligee subject to a support order being enforced by the unit may request that the unit assist in having the ongoing support provisions suspended as follows:

a. A request for suspension shall be submitted to the local child support unit providing services using Form 470-3033, Request to Suspend Support, and Form 470-3032, Affidavit Regarding Suspension of Support.

b. The unit shall provide Forms 470-3032 and 470-3033 to the obligor or obligee upon request.

c. Both forms must be signed by both the obligor and the obligee affected by the order to be suspended. In the event that current support payments are assigned to an individual or entity other than the obligee named in the original order, but may revert to the original obligee at a future date without court action, both the original obligee and the current assignee must sign both forms.

d. Form 470-3032 must be notarized.

e. The request shall contain sufficient information to allow the local unit to identify the court order and parties involved, and a statement that the obligor and obligee expect the basis for suspension to continue for not less than six months.

f. If the obligor and obligee are requesting suspension of more than one order at the same time, the obligor and obligee shall be required to submit only one copy of Form 470-3033, identifying each order the request involves; however, the obligor and obligee shall be required to submit a separate, signed and notarized affidavit, Form 470-3032, for each order.

99.104(2) Acknowledging requests. The local unit providing services shall issue a written notice to the obligor and obligee indicating whether a properly completed request is accepted or denied.

a. This notice shall be sent by first-class regular mail to the last known address of the obligor and obligee, or, if applicable, to the last known address of the obligor's or obligee's attorney.

b. If the basis for suspension is reconciliation, one notice shall be sent to the address shared by the obligor and obligee. If the basis for suspension is a change in residency of the children entitled to support, a separate notice shall be issued to the obligor and obligee at their respective last known addresses.

c. A notice denying a request shall indicate the reason for denial.

99.104(3) Denying requests. A request for suspension shall be denied when:

a. The conditions specified in Iowa Code section 252B.20, rule 441—99.102(252B), or rule 441—99.103(252B) are not met.

b. and *c.* Rescinded IAB 12/7/05, effective 2/1/06.

d. Denial of a request is not subject to appeal or review under Iowa Code chapter 17A.

441—99.105(252B) Order suspending support. After approving a request to suspend support, the unit shall prepare and present to the district court an order suspending support as provided in Iowa Code section 252B.20.

99.105(1) When the basis for suspension is reconciliation, the suspension shall apply to any ongoing support provisions of the order, including medical support, with respect to any child residing with the parents and with respect to any spouse or former spouse entitled to support under the order to be suspended.

99.105(2) When the basis for suspension is a change in residency of one or more of the children entitled to support, the suspension shall apply to ongoing support provisions, including medical support, with respect to only the children entitled to support under the order who are residing with the obligor. Any spousal support also ordered in the same support order shall remain unaffected by this action.

99.105(3) A copy of the filed order shall be sent by first-class regular mail to the last known address of the obligor and obligee, or, if applicable, to the last known address of the obligor's or obligee's attorney.

441—99.106(252B) Suspension of enforcement of current support. The child support recovery unit shall suspend enforcement actions intended to collect or enforce any current support obligation that would have accrued during the time the support obligation is suspended. The unit shall continue to provide all appropriate enforcement services to collect any support not suspended and any arrearages that accrued before the effective date of the suspension.

441—99.107(252B) Request for reinstatement. The unit may request that the court reinstate the suspended support obligation in accordance with the procedures found in Iowa Code section 252B.20.

99.107(1) Either the obligor or the obligee affected by the suspended order may request reinstatement by submitting a written request for reinstatement to the child support recovery unit. The request must indicate that reinstatement is being requested, the reason for reinstatement, and contain sufficient information to identify the court order and parties involved. The request must also be signed by the requesting party.

99.107(2) The unit may, at its own initiative, request that the court reinstate a support obligation when it is determined that a child for whom the obligation was suspended is receiving public assistance benefits.

99.107(3) The unit shall issue a written notice to any obligor or obligee requesting reinstatement, approving or denying the request. This notice shall be sent to the last known address of the requesting party by first-class regular mail and shall indicate any reason for denial.

99.107(4) A properly completed request for reinstatement shall be denied when any of the following conditions exist:

- a.* The request is made by someone other than the obligor, the obligee, or the obligor's or obligee's attorney.
- b.* Rescinded IAB 12/7/05, effective 2/1/06.
- c.* The unit is no longer providing enforcement services for the suspended order.
- d.* The request is received more than six months since the date of the filing of the order suspending support.
- e.* The request is for partial reinstatement of the suspended support order for some but not all of the children and the order does not contain a step change.
- f.* A court in this state would not have continuing, exclusive jurisdiction to reinstate the order under Iowa Code chapter 252K.

441—99.108(252B) Reinstatement. The child support recovery unit shall follow the procedures in Iowa Code section 252B.20, in seeking to have the court reinstate a support order.

99.108(1) The unit shall request that the court reinstate a spousal support provision previously suspended if the provision was included in the suspension in accordance with subrule 99.105(1) and if the unit receives a properly completed request from the obligor or the obligee.

99.108(2) The unit shall seek to have the previously suspended support for a child reinstated under this division when the conditions in paragraph "a" or "b" are met. This provision shall not prohibit any party, including the child support recovery unit, from taking other action to establish support as provided for by law.

- a.* The basis for suspension no longer applies to any of the children for whom support was suspended; or
- b.* The basis for suspension continues to apply to some but not all of the children for whom support was suspended, and there is a step change in the order.

441—99.109(252B) Reinstatement of enforcement of support. If a suspended support obligation is reinstated, the unit shall also reinstate all appropriate enforcement measures to enforce all reinstated ongoing support provisions of the support order.

441—99.110(252B) Temporary suspension becomes final. The temporary suspension of a support order under this division shall become final if not reinstated in accordance with Iowa Code section 252B.20.

These rules are intended to implement Iowa Code section 252B.20.

CHAPTER 100
CHILD SUPPORT PARENTAL OBLIGATION PILOT PROJECTS

PREAMBLE

This chapter describes the parental obligation pilot projects participated in or developed by the department of human services child support recovery unit (CSRU). The purpose of these pilot projects is to develop new ways to assist parents in overcoming the barriers which interfere with their fulfilling their obligations to their children. For the purpose of these rules, parental obligations include emotional and personal involvement of the parents, beyond simply meeting their financial obligations. In order to encourage participation by parents, CSRU may offer various incentives for participation. These incentives may be offered through projects whose plans have been approved by the bureau chief or through projects in which CSRU participates and for which the bureau chief approves of CSRU's offering any or all of the incentives.

441—100.1(17A,80GA,HF667) Definitions.

“Assigned support arrearages” means support arrearages for which all rights have been and shall remain assigned to the state of Iowa.

“Bureau chief” means the chief of the bureau of collections of the department of human services or the bureau chief's designee.

“Child support recovery unit (CSRU)” means any person, unit, or other agency which is charged with responsibility for providing or assisting in the provision of child support enforcement services pursuant to Title IV-D of the Social Security Act.

“Director” means the director of the department of human services or designee.

“Funded pilot project” means any of the pilot projects funded in whole or in part by CSRU and approved by the bureau chief to assist parents in overcoming the barriers which interfere with their fulfilling obligations to their children. Each funded pilot project shall have a project plan approved by the bureau chief.

“Guidelines” means the mandatory child support guidelines established by the Iowa Supreme Court pursuant to Iowa Code section 598.21(4).

“Incentives” means, but is not limited to, establishment or modification of support obligations that deviate from guidelines and other encouragements to participate in pilot projects.

“Obligor” means a noncustodial parent or other natural person legally responsible for the support of a dependent.

“Participant” means a person who receives services or incentives through a pilot project.

“Periodic support payment” means the total support payment due in each time period in accordance with the established support obligation. If no current support is due, the periodic support payment is equivalent to the last current support amount as would be ordered under 441—Chapter 98, Division II.

“Project plan” means the written policies, procedures, eligibility criteria and other components, as described at subrule 100.3(2).

“Services” means, but is not limited to, mediation services, job skills training, neutral drop-off and pick-up sites, except as “services” is used in subparagraph 100.2(1)“a”(3), and does not include incentives.

“Unfunded pilot project” means any project in which CSRU participates which is funded totally by an entity or entities other than CSRU. The bureau chief may approve CSRU's participation in an unfunded pilot project in order to use the incentives offered through this chapter. Unfunded pilot projects are not required to submit a project plan, as described in subrule 100.3(2), for approval of the bureau chief.

441—100.2(17A,80GA,HF667) Incentives. CSRU may offer incentives to participants in funded and unfunded pilot projects to encourage their involvement in the projects. No obligation established or

modified under this rule may be less than the minimum amount allowed under guidelines. The available incentives include, but are not limited to, the following:

100.2(1) Deviation from guidelines.

a. CSRU may establish or modify a child support order which deviates from the guidelines amount when all of the following conditions exist:

- (1) Both parents consent to the deviation.
- (2) The child resides with either parent.
- (3) Either parent is a participant receiving services from CSRU under Iowa Code chapter 252B and Title IV-D of the Social Security Act.

(4) The percentage of the deviation from the guideline amount of support does not change from any percentage of deviation that is currently ordered.

(5) Neither parent has previously withdrawn consent to a deviated order entered under this subrule.

b. The child support order may not deviate from the guidelines amount by more than 25 percent. This order is not effective until approved by and filed with the court.

100.2(2) Modification of support obligations. CSRU may modify a support obligation of a participant through the procedures described in 441—Chapter 99, Division IV, without regard to the two-year criteria as specified in 441—subrule 99.62(2).

a. Initial modifications. CSRU shall perform an initial, informal calculation of the support obligation for each participant. If the initial, informal calculation indicates that the present child support obligation is at least 10 percent higher than the Iowa Supreme Court mandatory child support guidelines, CSRU may proceed to modify the support order, upon application of the participant, through proceedings established by 441—Chapter 99, Division IV, or through any other procedure allowed by law, notwithstanding the provisions of 441—subrule 99.62(3). If beginning new employment, the obligor may waive the application of the rule requiring that the obligor's income has lasted for three months and will be expected to last an additional three months.

b. Subsequent modifications.

(1) Subsequent modifications may be initiated only by CSRU without regard to the requirement that the variance from the guidelines amount be more than 20 percent when any of the following occurs:

1. Both parents give consent to deviate from the guidelines as provided in subrule 100.2(1).
2. Either parent withdraws consent to deviate from guidelines in setting an obligation.
3. Participant involvement in the pilot project terminates.

(2) Subsequent modifications may also be initiated by CSRU when the participant's income changes.

c. This subrule does not limit the ability or right of a parent or caretaker or CSRU to file or request a modification under any other statute or available proceeding.

100.2(3) Income withholding orders. CSRU may direct an employer or other income provider to withhold no more than 25 percent of the nonexempt disposable income of the participant for a period of time not to exceed 12 consecutive months from the date of the direction to the first employer under this subrule.

100.2(4) Satisfaction of the assigned support.

a. A participant shall be granted a partial satisfaction of the support arrearages which are and which will remain owed by that participant to the state when that participant pays the entire amount of all that participant's periodic support payments. Satisfaction granted under this subrule shall apply only to those cases for which the entire periodic support payment is credited.

b. Each satisfaction shall be an amount equal to a percentage of that participant's support arrearages, which are and which will remain owed to the state, according to the following schedule:

(1) A one-time satisfaction of 15 percent of the amount when a participant pays the entire periodic support payment due in each of 6 consecutive calendar months.

(2) A one-time satisfaction of 35 percent of the amount when a participant pays the entire periodic support payment due in each of 12 consecutive calendar months.

(3) A one-time satisfaction of 80 percent of the amount when a participant pays the entire periodic support payment due in each of 24 consecutive calendar months.

c. A participant subject to an income withholding order shall be eligible for the satisfaction in this subrule if the sole reason for ineligibility is a disparity between the schedules of the participant's pay date and the scheduled date the payment is due.

d. A participant shall be eligible for a satisfaction under this subrule if the participant is no longer a participant, but has continued to pay the entire amount of that participant's periodic support payment without interruption.

441—100.3(17A,80GA,HF667) Application to be a funded pilot project. CSRU shall publish a request for project plans when it decides to initiate a pilot project and requests for grants exceed available funding. All applicants must be empowerment or decategorization groups.

100.3(1) Contents of request for project plans. The request for project plans shall contain the requirements for contents of the project plan, the stated goals of the project, the number of projects for which funding exists and any other parameter for the specific pilot project being advertised. The request shall also contain a deadline by which project plans must be submitted to the bureau chief.

100.3(2) Contents of project plans. Each funded pilot project shall have and maintain a project plan. At a minimum, the project plan shall contain or address the following:

a. Applicant's experience and success at establishing collaborations that include partners essential to the project.

b. The geographic area to be served and community need for projected services.

c. The population targeted to participate and the criteria to be used for the selection and termination of participants.

d. The means by which potential participants will be notified about project information including, but not limited to, the project services and incentives.

e. The types of services or incentives to be provided and the strategies directed to securing the emotional and financial support of children.

f. A clear statement of outcomes expected for project participants, benchmarks to indicate these outcomes are being attained and performance measures and reporting requirements.

g. The cost of the proposal, the significant level of community resources directed to the pilot, plans for continued funding after the end of the grant period and costs, if any, for project participants.

h. Strategies to increase public awareness of fatherhood issues.

i. Project duration, not to extend beyond October 1, 2006.

100.3(3) Amendments to project plan. Projects may submit proposed amendments to their project plan in writing to the bureau chief. The bureau chief shall have the option, after review, of approving or disapproving all proposed amendments to the project plan.

441—100.4(17A,80GA,HF667) Selection of projects.

100.4(1) Funded pilot projects. The bureau chief shall have sole authority to select funded pilot projects. The bureau chief shall also have sole authority to grant exceptions to allow participation by individuals outside the geographical area specified in the contents of project plan.

When funds are not available for all interested parties, the bureau chief shall select which of the project plans received on or before the deadline date shall be granted the status of funded pilot project. This selection of pilot projects shall be based upon the following criteria:

a. Demonstrated experience with establishing effective collaborations.

b. Geographic area selected and community need for the project.

c. Population to be targeted and criteria to be used to select and terminate participants.

d. Types of services and incentives to be offered and participant requirements to receive them.

e. Statement of project goals, outcomes for participants, benchmarks and performance measures.

f. Project monitoring and evaluation plan.

g. Public awareness campaign directed to community and potential participants.

h. Project budget and community financial participation.

100.4(2) Unfunded pilot projects. The bureau chief shall have sole authority to determine the extent of CSRU involvement in unfunded pilot projects based upon current needs and resources of CSRU.

Unfunded pilot projects shall submit periodic reports for the purpose of monitoring and evaluating the project.

441—100.5(17A,80GA,HF667) Termination of pilot projects. The bureau chief may immediately terminate CSRU's participation in a funded pilot project or an unfunded pilot project if:

1. The funded pilot project is not fulfilling the terms of its project plan or the unfunded pilot project is not fulfilling the terms for CSRU's participation in the pilot project; or
2. Funding is reduced, exhausted, eliminated or otherwise made unavailable.

441—100.6(17A,80GA,HF667) Reports and records.

100.6(1) Reports.

a. Funded pilot projects established under these rules shall report to CSRU at least quarterly, unless otherwise required by the project plan. The first report shall be due in the office of CSRU 30 days after the end of the first complete calendar quarter after the plan is approved. These reports shall include, but not be limited to, the following:

- (1) Number of participants served.
- (2) Services provided.
- (3) Funds expended.
- (4) Progress toward meeting individual participant outcomes.
- (5) Progress toward meeting project outcomes.
- (6) Progress toward meeting funding goals.
- (7) Other information as specified in the project plan.

b. Unfunded pilot projects may vary from the requirements in paragraph "a" in their reporting and shall report as agreed upon by the project managers and the bureau chief.

100.6(2) Records retention. Funded and unfunded pilot projects established under these rules shall retain all records as necessary to meet the audit requirements of the sources of the project's funding.

441—100.7(17A,80GA,HF667) Appeals. Applicants dissatisfied with the grant selection decision of the bureau chief may file an appeal with the director. The letter of appeal must be received within ten working days of the date of the notice of decision and must include a request for the director to review the decision and the reasons for dissatisfaction. Within ten working days of the receipt of the appeal, the director shall review the appeal request and issue a final decision.

No disbursements shall be made to any applicant for a period of ten calendar days following the notice of decision. If an appeal is filed within the ten days, all disbursements shall be held pending a final decision on the appeal. All applicants involved shall be notified if an appeal is filed.

441—100.8(17A,80GA,HF667) Continued application of rules and sunset provisions. Except as provided in subrule 100.8(2), these rules shall terminate the earlier of October 1, 2006, or when legislative authority is discontinued.

100.8(1) CSRU's participation in pilot projects. If CSRU's participation has not terminated earlier, CSRU's participation in funded and unfunded pilot projects terminates at the same time as the termination of these rules.

100.8(2) Receipt of incentives. Participants receiving incentives under these rules may continue to receive the incentives after the termination of these rules or after they are no longer participants only as follows:

a. For subrule 100.2(1), deviation from guidelines. If service of process has been accomplished upon all parties before the earlier of termination of these rules or termination of participation, but an order disposing of the establishment or modification action has not been entered before that date, then the process may continue until entry of an order or other disposition.

b. For subrule 100.2(2), modification of support obligations. If service of process has been accomplished upon all parties before the earlier of termination of these rules or termination of

participation, but an order disposing of the modification action has not been entered before that date, then the process may continue until entry of an order or other disposition.

c. For subrule 100.2(2)“b”(1)“2,” either parent withdraws consent to deviate from the guidelines. If a parent withdraws consent to deviate from the guidelines in setting an obligation, CSRU may initiate a subsequent modification as provided in 100.2(2)“b”(1)“2.”

d. For subrule 100.2(2)“b”(1)“3,” modification of support obligations. Any obligations set at an amount which deviates from the guidelines under this chapter shall continue only until the obligation is modified or reviewed under existing rules, at which time consent of the parents is not a sufficient basis for continuing the deviation.

e. For subrule 100.2(3), income withholding orders. This subrule shall apply to a participant or former participant for the full time period allowed in the subrule.

f. For subrule 100.2(4), satisfaction of the assigned support. This subrule shall apply to a participant or former participant for the full time period allowed in the subrule.

These rules are intended to implement 2003 Iowa Acts, House File 667, section 8, subsection 4b(3).

[Filed 7/13/00, Notice 5/17/00—published 8/9/00, effective 10/1/00]

TITLE XI
CHILDREN'S INSTITUTIONS
CHAPTER 101
IOWA STATE JUVENILE HOME
[Prior to 7/1/83, Social Services [770] Ch 101]
[Prior to 2/11/87, Human Services[498]]

441—101.1(218) Definitions.

“*Contraband*” shall mean weapons, alcohol, drugs, obscene materials as defined in Iowa Code section 728.1, paragraph (5), or materials advocating disruption of or injury to residents, employees, programs, or physical facilities. It shall also include anything which is illegal to possess under the law, materials which are used in the production of drugs or alcohol or used in conjunction with the taking of illicit drugs.

“*Immediate family*” shall mean spouse, child, parent, brother, sister, or grandparent.

“*Resident*” shall mean a child committed to the state director and admitted to the state juvenile home.

441—101.2(218) Visiting.

101.2(1) Visiting hours are from 10 a.m. to 4:30 p.m. Saturday and Sunday. The superintendent may designate certain weekdays or holidays for visiting. The resident shall be responsible for informing the visitor of the days. Visitation by the family will be encouraged and necessary flexibility in these hours and days will be allowed.

101.2(2) All visiting during times other than described in 101.2(1) shall have approval from the superintendent or designee prior to the day of visit.

101.2(3) Visitors shall check in with security staff upon arrival. The counselor on duty may request identification of the visitor. Failure to produce identification may result in denial of the visit.

101.2(4) Residents are permitted to visit with their parents or members of the immediate family. Family members under 12 years of age may visit only with adult supervision. Friends may visit when approved by the administrative officer. Friends under 18 years of age may visit only with adult supervision.

101.2(5) Any visitor arriving on the grounds who is under the influence of or has been partaking of drugs or alcoholic beverages shall not be permitted a visit.

101.2(6) Residents shall have written authorization of the administrative officer in charge before accompanying parents of another student out on a visit.

101.2(7) Persons other than immediate family or legal counsel who wish to visit a resident must obtain prior approval from the superintendent or designee before visiting.

101.2(8) The superintendent reserves the right to limit or terminate visiting in all cases where doing so is in the best interests of the resident’s personal and therapeutic needs. When limitations or termination of visiting rights occur, the superintendent or administrator in charge shall immediately notify persons involved why the action was taken, and a written report will be placed in the resident’s file.

This rule is intended to implement Iowa Code section 218.4.

441—101.3(218) Interviews and statements.

101.3(1) All residents will be informed of their right to remain silent.

101.3(2) When the resident agrees, interviews will be granted at the discretion of the superintendent. Whenever an interview is granted, at least one staff person shall be present for the entirety of the interview and shall have the authority to terminate the interview anytime the staff person feels the best interests of the resident are not being served.

101.3(3) The resident shall be represented by legal counsel during any interview being conducted to obtain information that will be or may be used in court against the resident.

101.3(4) Exceptions to 101.3(2) will be made only for the resident’s own attorney or state officials acting in their official capacity.

101.3(5) The superintendent may deny an interview in situations deemed detrimental to the resident. The person requesting the interview shall be referred to the director, division of community programs, Iowa department of human services for approval.

101.3(6) Permission for written deposition may be granted by the superintendent following the aforementioned rules for granting interviews. One copy of the depositions shall be submitted to the superintendent. Voice recording of the interviews will not be permitted. This rule shall in no way restrict depositions ordered by the court.

This rule is intended to implement Iowa Code section 218.4.

441—101.4(218) Mail and packages.

101.4(1) Outgoing or incoming letters or packages shall not be opened, read, censored, or tampered with in any manner, except that institutional staff, in order to search for and seize contraband, may open, but not read, incoming mail or packages in the presence of the resident to whom the mail is directed or require that the resident open the letter or package in the staff's presence and disclose the contents.

101.4(2) Letters or packages found to contain contraband may be withheld, but both the sender and the intended receiver of the withheld mail shall be notified and given reasons for the action in writing within 48 hours of the action.

101.4(3) When correspondence between a resident and another person is not considered to be in the best interest of and detrimental to the treatment plan of the resident, the superintendent or designee may terminate that correspondence. Just cause shall be shown and written notice provided to both correspondents.

101.4(4) When correspondence has been terminated as described in 101.4(3), either of the correspondents may request a review of the termination at any time.

101.4(5) Terminations under 101.4(3) shall be based on individual cases and not on groups or agencies.

This rule is intended to implement Iowa Code section 218.4.

441—101.5(218) Use of buildings and grounds.

101.5(1) When the residents are not using space or a facility, the space or facility may be available for public use at the discretion of the superintendent.

101.5(2) A deposit of \$15 may be required 24 hours in advance of reserving the canteen. The full deposit shall be refunded when the canteen is left in satisfactory condition.

101.5(3) Requests for use of the staff conference room, lounge, and chapel building shall be directed to the superintendent's secretary.

101.5(4) A \$25 deposit may be required for use of the recreation center facilities. The full deposit shall be refunded when the facilities are left in satisfactory condition.

a. An employee of the state juvenile home shall be present to supervise the group.

b. The group supervisor shall sign a release form and a form accepting responsibility for the group's supervision prior to the use of the facility.

c. Only facilities specifically requested and approved shall be used by the group.

101.5(5) The state juvenile home reserves the right to cancel an agreement to use facilities in the event of emergency or schedule changes where resident use takes priority.

This rule is intended to implement Iowa Code section 218.4.

441—101.6(218) Incoming telephone calls. All incoming telephone calls for residents shall have approval of the superintendent or designee prior to the conversation. The identity of the caller shall be verified before approval is given. Telephone calls shall not be monitored.

This rule is intended to implement Iowa Code section 218.4.

441—101.7(218) Resident employment.

101.7(1) Employers, individuals, or organizations wishing to hire a resident of the institution shall receive approval from the superintendent or designee.

101.7(2) Child labor laws shall be adhered to.

101.7(3) The employer's legal and institutional responsibilities shall be documented by the superintendent or designee and communicated, including salary, supervision, transportation, and hours, to the residents' employer so as to clarify and document the resident-employer employment agreement.

101.7(4) The employer or superintendent or designee or resident has the right to terminate the employment at any time.

101.7(5) Residents shall be paid in accordance with minimum wage laws in effect for off-campus employment. Work of a more skilled nature shall be compensated accordingly.

101.7(6) All checks or money shall be turned into the business office for deposit in the resident's account, not given directly to the resident.

101.7(7) Behavior unacceptable to the employer shall be reported to the institution. Behavior unacceptable to an employer shall not subject the resident to any sanctions, punishment or punitive restriction of privileges, unless it constitutes a public offense or violates institutional rules and, in that case, it shall follow the normal discipline procedure or referral to court for prosecution. Runaway residents shall be reported to the institution immediately.

This rule is intended to implement Iowa Code section 218.4.

441—101.8(218) Tours. Tours of the facilities may be scheduled on weekdays from 8 a.m. to 4 p.m. by appointment through the superintendent or designee.

This rule is intended to implement Iowa Code section 218.4.

441—101.9(218) Acceptance.

101.9(1) Children shall be accepted for evaluation as diagnostic beds are available on a first-come-first-served basis.

101.9(2) Children shall be accepted into the regular program as treatment beds are available on a first-come-first-served basis.

101.9(3) No children adjudicated to have committed a delinquent act shall be admitted to the state juvenile home.

101.9(4) A certified copy of the court order which complies with Iowa Code chapter 232 and the relevant petitions must accompany the child to the institution.

This rule is intended to implement Iowa Code section 218.4.

441—101.10(218) Admission procedures. When a youth is to be admitted to the state juvenile home, arrangements shall be made for the actual admission between 8 a.m. and 4:30 p.m., Monday through Friday. The youth being admitted shall be accompanied by such youth's parents, when available. Whenever possible, a preadmission visit by the youth to the institution shall be arranged by the local office service worker.

This rule is intended to implement Iowa Code section 218.4.

441—101.11(218) Program assignment. Residents will be assigned to specific cottage programs, educational and vocational programs and special services, such as drug counseling, family therapy, or similar services, to meet the needs of each individual resident, taking into consideration the limitation of the availability of space and specific programs. It is the responsibility of the superintendent to notify the court when appropriate space or program is not available and to deny admission until these needs can be met.

This rule is intended to implement Iowa Code section 218.4.

441—101.12(218) Individual care plan.

101.12(1) Whenever a resident is placed in a treatment program in the institution, an individual care plan shall be developed within 30 days.

101.12(2) The institution shall notify the resident, the resident's parents, the child's legal counsel, the court and the assigned service worker in writing of the time, date and nature of the individual care plan staffing at least ten working days prior to the staffing.

101.12(3) The institution counselor shall ensure that the institution has completed an assessment of the resident prior to the individual care plan staffing.

This rule is intended to implement Iowa Code section 218.4.

441—101.13(218) Special staffing. Whenever special concerns and needs arise in the program of a resident, a meeting of institutional staff, assigned service worker and other relevant parties shall convene to evaluate and formulate appropriate changes in the care plan.

This rule is intended to implement Iowa Code section 218.4.

441—101.14 Rescinded IAB 5/18/88, effective 7/1/88.

441—101.15(218) Grievance procedure.

101.15(1) A resident shall have the right to file a grievance against a policy, program, or procedure.

101.15(2) The institution shall have a clearly written grievance procedure with at least one appeal level.

101.15(3) All grievances filed shall be heard.

This rule is intended to implement Iowa Code section 218.4.

441—101.16(218) Alleged child abuse. The department shall arrange for the investigation of any reported case of child abuse in which the alleged perpetrator is an employee of the institution or some other department of human services employee to be conducted by an agency other than the department of human services.

This rule is intended to implement Iowa Code section 218.4.

441—101.17(218) Temporary home visits.

101.17(1) Residents may be granted a temporary home visit for up to five days for such reasons as to attend funerals, weddings, holiday functions, or job seeking; or for the primary purpose of exploring and improving family and community relations; or for the purpose of preplacement visits to foster or group homes to test the appropriateness of such a placement.

101.17(2) The court, the child's legal counsel, the resident's parents, the temporary placement, if different than the parents' home, and the assigned service worker shall be notified in writing five working days in advance of a visit except in cases of emergency when telephone calls to the previously discussed people followed by a written notice explaining the special circumstance shall be sufficient.

101.17(3) In all cases, the institutional superintendent or designee and the assigned service worker shall approve all temporary home visits in advance.

101.17(4) All temporary visit placements shall be investigated and approved as appropriate by the assigned service worker or probation officer in writing and in advance of any visit being scheduled.

101.17(5) In special cases which involve the treatment needs of the child, a temporary home visit may be extended when both the institutional superintendent or designee and the assigned service worker's supervisor agree that the proposed extension is appropriate and the bureau of children's services approves the special extension request. Approval of exceptions shall be made on the basis of the treatment needs of the child.

This rule is intended to implement Iowa Code section 218.4.

441—101.18(218) Prerelease staffing.

101.18(1) Thirty days prior to any anticipated release from the regular program, a release staffing shall be held.

101.18(2) The institution shall supply written notice of the time, date, and intent of the release staffing at least five working days prior to the staffing to the resident, the resident's parents, the court, the child's legal counsel, and the assigned service worker.

This rule is intended to implement Iowa Code section 218.4.

441—101.19(218) Attorney contacts. The resident shall have the right to contact the resident's attorney during normal business hours and at other times with prior approval of the attorney. The cost of the contacts shall be arranged prior to the contact being made. Children who do not have an attorney should be referred to the appropriate legal aide.

This rule is intended to implement Iowa Code section 218.4.

441—101.20(244) Standards. The state juvenile home shall comply with standards required for comprehensive residential facilities for children in 441—Chapter 115. In addition, the state juvenile home shall comply with standards related to mandatory reporting of child abuse found in 441—Chapter 112 and all of 441—Chapter 114 except for rules 441—114.6(237), 441—114.9(237), and the following waivers:

101.20(1) *Sleeping rooms.* Sleeping rooms currently in use are acceptable; but any new building or renovations after January 1, 1988, must meet the requirements found in 441—paragraph 114.3(2) “b.”

101.20(2) *Job descriptions.* Staff job descriptions will be identified by the department of personnel.

101.20(3) *Staff ratios.* The requirements for staff ratios contained in 441—subrule 115.4(1), paragraph “a,” apply at any time the authorized funds are adequate to maintain a 1 to 5 staff ratio during prime programming time. This requirement is waived when there is inadequate funding.

This rule is intended to implement Iowa Code section 244.15.

CHAPTER 103
ELDORA TRAINING SCHOOL
[Prior to 7/1/83, Social Services[770] Ch 103]
[Prior to 2/11/87, Human Services[498]]

DIVISION I
GENERAL POLICIES AND PROCEDURES

441—103.1(218) Definitions.

“*Contraband*” shall mean weapons, alcohol, drugs, obscene materials as defined in Iowa Code section 728.1, paragraph (5), or material advocating disruption of or injury to residents, employees, programs, or physical facilities. It shall also include anything which is illegal to possess under the law, materials which are used in the production of drugs or alcohol, or used in conjunction with the taking of illicit drugs.

“*Immediate family*” shall mean spouse, child, parent, brother, sister or grandparent.

“*Resident*” shall mean a child committed to the state director and admitted to the Eldora training school.

This rule is intended to implement Iowa Code section 218.4.

441—103.2(218) Visiting.

103.2(1) Visiting hours are from 10 a.m. to 4:30 p.m. on Saturdays and Sundays. The superintendent may designate certain weekdays or holidays for visiting. The resident shall be responsible for informing the visitor of the days. Visitation by the family will be encouraged and necessary flexibility in these hours and days will be allowed.

103.2(2) All visiting during times other than described in 103.2(1) shall have approval from the superintendent or designee prior to the day of visit.

103.2(3) Visitors shall check in with security staff upon arrival. The counselor on duty may request identification of the visitor. Failure to produce identification may result in denial of the visit.

103.2(4) Residents are permitted to visit with their parents or members of the immediate family. Family members under 12 years of age may visit only with adult supervision. Friends may visit when approved by the counselor. Friends under 18 years of age may visit only with adult supervision.

103.2(5) Any visitor arriving on the grounds who is under the influence of or has been partaking of drugs or alcoholic beverages shall not be permitted a visit.

103.2(6) Residents must have written authorization of the cottage director concerned before accompanying parents of another student out on a visit.

103.2(7) Persons other than immediate family or legal counsel who wish to visit a resident must obtain prior approval from the superintendent or designee before visiting.

103.2(8) The superintendent reserves the right to limit or terminate visiting in all cases where doing so is in the best interests of the resident’s personal and therapeutic needs. When limitations or termination of visiting rights occur, the superintendent or administrator in charge shall immediately notify persons involved why the action was taken and a written report will be placed in the resident’s file.

This rule is intended to implement Iowa Code section 218.4.

441—103.3(218) Interviews and statements.

103.3(1) All residents will be informed of their right to remain silent.

103.3(2) When the resident agrees, interviews shall be granted at the discretion of the superintendent. Whenever an interview is granted, at least one staff person shall be present for the entirety of the interview and shall have the authority to terminate the interview anytime such person feels the best interests of the resident are not being served.

103.3(3) The resident shall be represented by legal counsel during any interview being conducted to obtain information that will be or may be used in court against the resident.

103.3(4) Exceptions to 103.3(2) will be made only for the resident’s own attorney or state officials acting in their official capacity.

103.3(5) The superintendent may deny an interview in situations deemed detrimental to the resident. The person requesting the interview shall be referred to the director, division of community programs, Iowa department of human services for approval.

103.3(6) Permission for written depositions may be granted by the superintendent following the aforementioned rules for granting interviews. One copy of such depositions shall be submitted to the superintendent. Voice recording of such interviews will not be permitted. This shall in no way restrict depositions ordered by the court.

This rule is intended to implement Iowa Code section 218.4.

441—103.4(218) Mail and packages.

103.4(1) Outgoing or incoming packages shall not be opened, read, censored, or tampered with in any manner, except that institutional staff, in order to search for and seize contraband, may open, but not read, incoming mail or packages in the presence of the resident to whom the mail is directed or require that the resident open the letter or package in the staff's presence and disclose the contents.

103.4(2) Letters or packages found to contain contraband may be withheld, but both the sender and the intended receiver of the withheld mail shall be notified and given reasons for the action in writing within 48 hours of the action.

103.4(3) When correspondence between a resident and another person is not considered to be in the best interest of and detrimental to the treatment plan of the resident, the superintendent or designee may terminate that correspondence. Just cause shall be shown and written notice provided to both correspondents.

103.4(4) When correspondence has been terminated as described in 103.4(3), either of the correspondents may request a review of the termination at any time.

103.4(5) Termination under 103.4(3) shall be based on individual cases and not on groups or agencies.

This rule is intended to implement Iowa Code section 218.4.

441—103.5(218) Use of buildings and grounds.

103.5(1) When the residents are not using space or a facility, the space or facility may be available for public use at the discretion of the superintendent.

103.5(2) A deposit of \$15 may be required 24 hours in advance of reserving the canteen. The full deposit shall be refunded when the canteen is left in satisfactory condition.

103.5(3) Requests for use of the staff conference room, lounge, and chapel building shall be directed to the superintendent's secretary.

103.5(4) A \$25 deposit may be required for use of the recreation center facilities. The full deposit shall be refunded when the facilities are left in satisfactory condition.

a. An employee of the training school must be present to supervise the group.

b. The group supervisor must sign a release form and a form accepting responsibility for the group's supervision prior to the use of the facility.

c. Only facilities specifically requested and approved shall be used by the group.

103.5(5) The training school reserves the right to cancel an agreement to use facilities in the event of emergency or schedule changes where resident use takes priority.

This rule is intended to implement Iowa Code section 218.4.

441—103.6(218) Incoming telephone calls. All incoming telephone calls for residents shall have approval of the superintendent or designee prior to the conversation. The identity of the caller shall be verified before approval is given. Telephone calls shall not be monitored.

This rule is intended to implement Iowa Code section 218.4.

441—103.7(218) Resident employment.

103.7(1) Employers, individuals, or organizations wishing to hire a resident of the institution shall receive approval from the superintendent or designee.

103.7(2) Child labor laws shall be adhered to.

103.7(3) The employer's legal and institutional responsibilities shall be documented by the superintendent or designee and communicated, including salary, supervision, transportation, and hours, to the resident's employer so as to clarify and document the resident-employer employment agreement.

103.7(4) The employer or superintendent or designee or resident has the right to terminate the employment at any time.

103.7(5) Residents shall be paid in accordance with the minimum wage laws in effect for off-campus employment; work of a more skilled nature shall be compensated accordingly.

103.7(6) All checks or money shall be turned into the business office for deposit in the resident's account, not given directly to the resident.

103.7(7) Behavior unacceptable to the employer shall be reported to the institution. Behavior unacceptable to an employer shall not subject the resident to any sanctions, punishment or punitive restriction of privileges, unless it constitutes a public offense or violates institutional rules and, in that case, it shall follow the normal discipline procedure or referral to court for prosecution. Runaway residents shall be reported to the institution immediately.

This rule is intended to implement Iowa Code section 218.4.

441—103.8(218) Tours. Tours of the facilities may be scheduled on weekdays from 8 a.m. to 4 p.m. by appointment through the superintendent or designee.

This rule is intended to implement Iowa Code section 218.4.

441—103.9(218) Acceptance.

103.9(1) Children shall be accepted for evaluation as diagnostic beds are available on a first-come-first-served basis.

103.9(2) Children shall be accepted into the regular program as treatment beds are available on a first-come-first-served basis.

103.9(3) No child adjudicated a child in need of assistance shall be admitted to the Eldora training school except for diagnosis and evaluation and then only when a current petition is on file that alleges the child to have committed a delinquent act.

103.9(4) A certified copy of the court order which complies with Iowa Code chapter 232 and the relevant petitions must accompany the child to the institution.

This rule is intended to implement Iowa Code section 218.4.

441—103.10(218) Admission procedures. When a youth is to be admitted to the Eldora training school, arrangements shall be made for the actual admission between 8 a.m. and 4:30 p.m., Monday through Friday. The youth being admitted shall be accompanied by the youth's parents, when available. Whenever possible, a preadmission visit by the youth to the institution shall be arranged by the local office service worker.

This rule is intended to implement Iowa Code section 218.4.

441—103.11(218) Program assignment. Residents will be assigned to specific cottage programs, educational and vocational programs and special services, such as drug counseling, family therapy, or similar services, to meet the needs of each individual resident, taking into consideration the limitation of the availability of space and specific programs. It is the responsibility of the superintendent to notify the court when appropriate space or program is not available and to deny admission until these needs can be met.

This rule is intended to implement Iowa Code section 218.4.

441—103.12(218) Individual care plan.

103.12(1) Whenever a resident is placed in a treatment program in the institution, an individual care plan shall be developed within 30 days.

103.12(2) The institution shall notify the resident, the resident's parents, the child's legal counsel, the court and the assigned service worker in writing of the time, date and nature of the individual care plan staffing at least ten working days prior to the staffing.

103.12(3) The institution counselor shall ensure that the institution has completed an assessment of the resident prior to the individual care plan staffing.

This rule is intended to implement Iowa Code section 218.4.

441—103.13(218) Special staffing. Whenever special concerns and needs arise in the program of a resident, a meeting of institutional staff, assigned service worker and other relevant parties shall convene to evaluate and formulate appropriate changes in the care plan.

This rule is intended to implement Iowa Code section 218.4.

441—103.14(218) Detention.

103.14(1) When a student is placed in detention for inappropriate behavior, the client's situation shall be reviewed by a panel composed of two staff members, one from clinical and one from another department, within 24 hours to determine if the child should remain there, if so for how long and what the privileges will be during the stay. At no time shall detention be used for more than five days for a single incident.

103.14(2) Within five working days of a detention review, the service worker and the court shall receive a written report of the review which summarizes the incident as related by the resident and the staff, the review decision and the rationale behind the decision.

This rule is intended to implement Iowa Code section 218.4.

441—103.15(218) Grievance procedure.

103.15(1) A resident shall have the right to file a grievance against a policy, program or procedure.

103.15(2) The institution shall have a clearly written grievance procedure with at least one appeal level.

103.15(3) All grievances filed shall be heard.

This rule is intended to implement Iowa Code section 218.4.

441—103.16(218) Alleged child abuse. The department shall arrange for the investigation of any reported case of child abuse in which the alleged perpetrator is an employee of the institution or some other department of human services employee to be conducted by an agency other than the department of human services.

This rule is intended to implement Iowa Code section 218.4.

441—103.17(218) Temporary home visits.

103.17(1) Residents may be granted a temporary home visit for up to five days for such reasons as to attend funerals, weddings, holiday functions, or job seeking; or for the primary purpose of exploring and improving family and community relations; or for the purpose of preplacement visits to foster or group homes to test the appropriateness of such a placement.

103.17(2) The court, the child's legal counsel, the resident's parents, the temporary placement, if different than the parents' home, and the assigned service worker shall be notified in writing five working days in advance of a visit except in cases of emergency when telephone calls to the previously discussed people followed by a written notice explaining the special circumstance shall be sufficient.

103.17(3) In all cases, the institutional superintendent or designee and the assigned service worker shall approve all temporary home visits in advance.

103.17(4) All temporary visit placements shall be investigated and approved as appropriate by the assigned service worker or probation officer in writing and in advance of any visit being scheduled.

103.17(5) In special cases which involve the treatment needs of the child, a temporary visit may be extended when both the institutional superintendent or designee and the assigned service worker's supervisor agree that the proposed extension is appropriate and the bureau of adult, children, and family

services approves the special extension request. Approval of exceptions shall be made on the basis of the treatment needs of the child.

This rule is intended to implement Iowa Code section 218.4.

441—103.18(218) Prerelease staffing.

103.18(1) Thirty days prior to any anticipated release from the regular program, a release staffing shall be held.

103.18(2) The institution shall supply written notice of the time, date, and intent of the release staffing at least five working days prior to the staffing to the resident, the resident's parents, the court, the child's legal counsel, and the assigned service worker.

This rule is intended to implement Iowa Code section 218.4.

441—103.19(218) Attorney contacts. The resident shall have the right to contact the resident's attorney during normal business hours and at other times with prior approval of the attorney. The cost of the contacts shall be arranged prior to the contact being made. Children who do not have an attorney shall be referred to the appropriate legal aide.

This rule is intended to implement Iowa Code section 218.4.

441—103.20(218,233A) Standards. The training school shall comply with the Standards for Juvenile Training Schools, 2nd Edition, January, 1983 (Supplement January, 1986), as promulgated by the Commission on Accreditation for Corrections. Copies of the standards may be obtained upon request at no more than the actual cost of reproduction from the Superintendent, State Training School, Eldora, Iowa 50627, (515)858-5402.

This rule is intended to implement Iowa Code section 218.4 and chapter 233A.

441—103.21(218,233A) Advisory committee. The department shall establish an advisory committee consisting of 15 persons appointed by the commissioner to review and make recommendations to the department regarding the programming and policies of the state training school.

103.21(1) Membership. Membership shall include representatives of the local community, the juvenile court, providers of juvenile services, state agencies concerned with juvenile services, and persons with expertise in the treatment of youth. No more than five members of the advisory committee shall be state employees.

103.21(2) Committee action.

a. A quorum shall consist of two-thirds of the members eligible to vote.

b. Where a quorum is present, a position is carried by a majority of the members eligible to vote.

103.21(3) Committee minutes. Copies of minutes are kept on file in the office of the Superintendent, State Training School, Eldora, Iowa 50627, (515)858-5402.

103.21(4) Committee meetings. The committee will meet at least three times a year. Dates will be determined by the chair. Special meetings may be called by the chair or upon the written request of a majority of committee members. Any person wishing to make a presentation at a committee meeting shall notify the superintendent at least 15 calendar days prior to the council meeting.

103.21(5) Robert's Rules of Order. In cases not covered by these rules, Robert's Rules of Order shall govern.

This rule is intended to implement Iowa Code section 218.4 and chapter 233A.

441—103.22 to 103.30 Reserved.

DIVISION II
SEX OFFENDERS

PREAMBLE

These amendments establish procedures governing the department's responsibilities to notify juvenile sex offenders of their duty to register with the Iowa sex offender registry under Iowa Code chapter 692A and to complete risk assessments used to determine the risk that offenders required to register pose of reoffending. The level of risk assigned to the offender is the basis for determining whether affirmative public notification (community notification) by a criminal or juvenile justice agency may take place as well as for determining the extent of the community notification.

441—103.31(692A) Definitions.

"Affirmative public notification" means any form of communication or release undertaken by the department of public safety, department of human services, or other Iowa criminal or juvenile justice agency regarding the identity or characteristics of an individual registrant or registrants. "Affirmative public notification" does not mean release of information to a criminal or juvenile justice agency or agencies nor does it mean release of information about an individual registrant in response to an inquiry about that individual based upon the name and address of the individual, as provided in Iowa Code subsection 692A.13(6).

"Aggravated offense" means a conviction for any of the following offenses:

1. Sexual abuse in the first degree in violation of Iowa Code section 709.2.
2. Sexual abuse in the second degree in violation of Iowa Code section 709.3.
3. Sexual abuse in the third degree in violation of Iowa Code subsection 709.4(1).
4. Lascivious acts with a child in violation of Iowa Code subsection 709.8(1).
5. Assault with intent to commit sexual abuse in violation of Iowa Code section 709.11.
6. Burglary in the first degree in violation of Iowa Code section 713.3(1) "d."
7. Kidnapping, if sexual abuse as defined in Iowa Code section 709.1 is committed during the offense.
8. Murder, if sexual abuse as defined in Iowa Code section 709.1 is committed during the offense.
9. Criminal transmission of human immunodeficiency virus in violation of Iowa Code section 709C.1, subsection 1, paragraph "a."

"Criminal offense against a minor" means any of the following criminal offenses or conduct:

1. Kidnapping of a minor, except for the kidnapping of a minor in the third degree committed by a parent.
2. False imprisonment of a minor, except if committed by a parent.
3. Any indictable offense involving sexual conduct directed toward a minor.
4. Solicitation of a minor to engage in an illegal sex act.
5. Use of a minor in a sexual performance.
6. Solicitation of a minor to practice prostitution.
7. Any indictable offense against a minor involving sexual contact with the minor.
8. An attempt to commit an offense enumerated in this rule.
9. Incest committed against a minor.
10. Dissemination and exhibition of obscene material to minors in violation of Iowa Code section 728.2.
11. Admitting minors to premises where obscene material is exhibited in violation of Iowa Code section 728.3.
12. Stalking in violation of Iowa Code subsection 708.11(3) "b"(3), if the fact finder determines by clear and convincing evidence that the offense was sexually motivated.
13. Sexual exploitation of a minor in violation of Iowa Code subsection 728.12(2) or (3).
14. An indictable offense committed in another jurisdiction which would constitute an indictable offense under numbered paragraphs "1" through "13" of this definition.

"Department" means the Iowa department of human services.

“*Iowa sex offender registry*” means a central registry of sex offenders established by law in 1995 that is maintained by the department of public safety.

“*Offender*” means a person, including a juvenile, who is required to be registered with the Iowa sex offender registry and the sheriff of the person’s county of residence.

“*Other relevant offense*” means any of the following offenses:

1. Telephone dissemination of obscene materials in violation of Iowa Code section 728.15.
2. Rental or sale of hard-core pornography in violation of Iowa Code section 728.4.
3. Indecent exposure in violation of Iowa Code section 709.9.
4. A criminal offense committed in another jurisdiction which would constitute an indictable offense under numbered paragraphs “1” through “3” of this definition if committed in this state.

“*Registration*” means the submission of registration forms to the Iowa sex offender registry and to the sheriff of the person’s county of residence.

“*Risk assessment*” means the method and procedures for the assessment of the risk that offenders, required to register, pose of reoffending.

“*Sexual exploitation*” means sexual exploitation by a counselor or therapist under Iowa Code section 709.15.

“*Sexually violent offense*” means any of the following indictable offenses:

1. Sexual abuse as defined under Iowa Code section 709.1.
2. Assault with intent to commit sexual abuse in violation of Iowa Code section 709.11.
3. Sexual misconduct with offenders in violation of Iowa Code section 709.16.
4. Any of the following offenses, if the offense involves sexual abuse or attempted sexual abuse: murder, attempted murder, kidnapping, burglary, or manslaughter.
5. A criminal offense committed in another jurisdiction which would constitute an indictable offense under numbered paragraphs “1” through “4” of this definition if committed in this state.

441—103.32(692A) Department responsibilities. The state training schools’ risk assessment committees are located at the state training schools at Eldora, Iowa, and Toledo, Iowa. In accordance with the requirements of Iowa Code section 692A.13A, the director of each risk assessment committee shall notify juveniles under the control or supervision of the department who have been convicted of a qualifying criminal offense and who have not previously registered of their duty to register with the Iowa sex offender registry and the sheriff of the juvenile’s county of residence. In addition, the director of each risk assessment committee shall provide the forms for registration, and, with the risk assessment committee, shall conduct level of risk assessments or reassessments for those juveniles convicted of an offense which requires registration.

103.32(1) Procedures for notification of registration requirement and level of risk determination. The registration requirement and the determination of level of risk are two separate procedures. The director of the risk assessment committee may submit the documents for registration and the documents for determination of level of risk to the division of criminal investigation at the same time or may submit the level of risk assessment documents at a later time when the juvenile appeals the level of risk determination and has exhausted the administrative or judicial appeal process.

a. The director of the risk assessment committee shall submit the registration form to the division of criminal investigation, department of public safety, when the juvenile is released from the state training school unless the juvenile court finds that the person should not be required to register as allowed by Iowa Code subsection 692A.2(4).

b. The director of the risk assessment committee shall submit the risk assessment documents when the juvenile is released from the state training school and following the final results of any administrative or judicial appeal.

103.32(2) Exemption from registration.

a. The juvenile has the obligation to seek an exemption from the registration requirement and to prove that the juvenile deserves the exemption. To the extent a court order of adjudication or disposition is silent, the registration requirement applies.

b. The language in the order must clearly state that the juvenile is exempt from the registration requirement. If the language is not clear, the juvenile must seek a clarifying order to be exempt from the registration process.

103.32(3) Exemption from registration deferred.

a. When the judicial decision is deferred, registration shall be assumed required until the court orders otherwise.

b. If the court order defers the decision to grant an exemption from registration until treatment is completed, the language in the order should specify who tracks the case until the new court order is issued. If it is not clear who tracks the case, the juvenile must seek a clarifying order to be exempt from the registration process.

441—103.33(692A) Juveniles required to register. All juveniles who have been convicted of a criminal offense against a minor, an aggravated offense, sexual exploitation, an other relevant offense, or a sexually violent offense in Iowa or in another state, or in a federal, military, tribal, or foreign court, and juveniles required to register in another state under the state's sex offender registry shall be required to register unless the juvenile court finds that the juvenile shall not be required to register. The director of the risk assessment committee shall facilitate registration as required by Iowa Code sections 692A.5 and 692A.14 as follows:

103.33(1) Notification. The director of the risk assessment committee shall provide Form DCI-144, Notification of Registration Requirement, which notifies offenders of their duty to register with the Iowa sex offender registry. Failure to provide offenders with Form DCI-144 does not relieve offenders of their duty to register with the Iowa sex offender registry.

103.33(2) Registration.

a. Form DCI-145, Sex Offender Registration, shall be completed by or on behalf of each offender. Registration is required when the juvenile is released from the state training school and the court has not granted an exemption from registration or still has not ruled on a deferred decision to grant an exemption from registration. The director of the risk assessment committee shall submit Form DCI-145 to the sheriff of the county in which the offender is or will be residing and to the division of criminal investigation, in order to satisfy the registration requirements of the Iowa sex offender registry.

b. Form DCI-145 shall also be used to report changes of residence, telephone number, or name of registrants. A completed copy of Form DCI-145 shall be submitted by the registrant to the sheriff of the county of residence each time the registrant's place of residence, telephone number, or name changes within five days of the change of residence, telephone number, or name, whether within or outside the state of Iowa.

If a registrant moves from one county to another, the registrant shall submit copies of completed Form DCI-145 reporting the change of residence to the sheriff of the prior county of residence and the sheriff of the new county of residence. The sheriff of the new county of residence shall be responsible for transmitting a copy of completed Form DCI-145 to the Iowa sex offender registry.

c. Upon initial submission of Form DCI-145, the form shall be accompanied by current photographs and fingerprints of the offender. Current photographs of the registrant shall accompany submission of Form DCI-145 upon each subsequent submission of Form DCI-145 unless the registrant's appearance has not changed significantly in the judgment of the submitting agency.

441—103.34(692A) Completion of risk assessment. All required risk assessments shall be conducted using the "Iowa Sex Offender Risk Assessment, Risk Assessment Guidelines and Commentary, and Risk Assessment Companion Guide" as adopted by the department of corrections and developed in consultation with the department of human services, the department of public safety, and the attorney general. These instruments are available upon request from the department of corrections.

The risk assessment score shall be determined following a review of appropriate documents which may include: presentence investigation report, court documents, clinical assessments, treatment records, polygraph reports, plethysmograph reports, employee records, school records, military records, child protection services records, victim's reports, hospital reports, and self-reports.

The risk assessment shall be completed within 45 days before the juvenile's release from custody or placement on probation, parole, or work release and following the completion or last day of participation in a treatment program unless it is impractical to do so as determined by the director of the risk assessment committee. The risk assessment may be completed 20 days or less before the juvenile's release when the director of the risk assessment committee determines it is impractical to complete the risk assessment following the completion or last day of participation in a treatment program.

103.34(1) *Use of risk assessment score.* The division of criminal investigation shall use the risk assessment score to determine the level of risk that persons required to register under Iowa Code chapter 692A pose of reoffending. Each offender shall be classified as a low, moderate, or high risk to reoffend. The level of risk assigned to the offender is the basis for determining whether affirmative public notification (community notification) by a criminal or juvenile justice agency may take place as well as for determining the extent of the community notification. The department of public safety shall proceed with affirmative public notification as provided by statute based on the level of risk.

103.34(2) *Notification of right to appeal.* When the risk assessment committee has completed the risk assessment for a juvenile, the director of the risk assessment committee shall notify the juvenile of the finding and of the juvenile's right to appeal by providing the juvenile a copy of the risk assessment and Form 470-3690, Notice of Sex Offender Risk Assessment Findings/Public Notification.

103.34(3) *Delivery of notice.* The director of the risk assessment committee shall give notice of the results of the assessment to the registrant by personal service before the juvenile's release from custody or placement on probation, parole, or work release, unless it is impracticable to give notice. No additional notice is required. Notice is deemed provided if the registrant refuses delivery of the notice. The notice shall contain the following information:

- a. The result of the risk assessment;
- b. A description of the scope of affirmative public notification which may result from the risk assessment;
- c. An explanation of the juvenile's right to appeal in accordance with procedures set forth in 441—Chapter 7;
- d. The allowable grounds for filing an appeal. The appeal request must allege one of the following:
 - (1) The risk assessment factors were not properly applied.
 - (2) The information relied upon to support the assessment findings is inaccurate.
 - (3) The assessment procedures were not correctly followed.

103.34(4) *Appeal forms available.* Form 470-0487, Appeal and Request for Hearing, shall be available to the juvenile from the superintendent's office. To file an appeal, the juvenile may either complete Form 470-0487 or a written statement requesting to appeal. The juvenile may submit the form or statement to the Appeals Section, 5th Floor, Iowa Department of Human Services, 1305 E. Walnut, Des Moines, Iowa 50319-0114, to the superintendent or, in the superintendent's absence, to the clinical director.

441—103.35(692A) *Affirmative public notification pending the exhaustion of administrative or judicial appeal.* When the juvenile is released from the state training school and the director of the risk assessment committee has not received timely notice of any pending administrative or judicial appeal, the director of the risk assessment committee shall submit the original of the risk assessment and copies of related documents, including Form 470-3690, Notice of Sex Offender Risk Assessment Findings/Public Notification, to the division of criminal investigation. When the director of the risk assessment committee has not received timely notice of any pending administrative or judicial appeal, the director shall submit the risk assessment documents to the division of criminal investigation as follows:

1. Fifteen days or later following notification of right to appeal.
2. Forty-four days or later following the final decision of an administrative appeal and request for hearing.
3. In the event of judicial review, anytime following exhaustion of court appeal rights.

Copies of the sex offender registration and risk assessment documents, including any appeals, and documentation of the results of any appeal or court action, shall be maintained in the offender's file maintained by the department.

These rules are intended to implement Iowa Code chapter 692A.

LICENSING AND APPROVED STANDARDS

CHAPTER 105
COUNTY AND MULTICOUNTY JUVENILE DETENTION HOMES AND COUNTY
AND MULTICOUNTY JUVENILE SHELTER CARE HOMES

[Prior to 7/1/83, Social Services[770] Ch 105]

[Prior to 2/11/87, Human Services[498]]

441—105.1(232) Definitions.

“Administer medication” means to remove medication from its storage place; to ensure to the extent possible that the child ingests, applies, or uses the appropriate dosage at the appropriate time of day; and to document the dosage and the time and date that the child ingested, applied, or used the medication.

“Authorized prescriber” means those persons identified in Iowa Code section 147.107 and Iowa Code chapter 154.

“Chemical restraint” means the use of chemical agents including psychotropic drugs as a form of restraint. The therapeutic use of psychotropic medications as a component of a service plan for a particular child is not considered chemical restraint.

“Child care worker or house parent” shall mean an individual employed by a facility whose primary responsibility is the direct care of the children in the facility.

“Coed facility” shall mean a facility which has both sexes in residence.

“Control room” shall mean a locked room in a juvenile detention home, used for the purpose of isolation or seclusion of a child. A control room shall not be allowed in a juvenile shelter care home.

“Controlled substances” means those substances identified in Iowa Code chapter 124.

“County or multicounty” shall mean that the governing body is a county board of supervisors or a combination of representatives from county boards of supervisors.

“Facility” shall mean a county or multicounty “juvenile detention home” or county or multicounty “juvenile shelter care home” as those terms are defined in Iowa Code section 232.2.

“Family shelter home” means a family home providing temporary care for a child in a physically unrestricting home at any time between the child’s initial contact with the juvenile authorities and the disposition of the case.

“Mechanical restraint” means restriction by the use of a mechanical device of a child’s mobility or ability to use the hands, arms or legs.

“Nonprescription medication” means any drug or device that is not a prescription medication as defined in this chapter.

“Prescription medication” means a prescription drug as defined in Iowa Code section 155A.3(30).

“Prime programming time” is any period of the day when special attention or supervision is necessary, for example, upon awakening in the morning, during meals, later afternoon play, transitions between activities, evenings, and bedtime, weekends and holidays, in order to maintain continuity of programs and care. Prime programming time shall be defined by the facility and approved by the department of human services.

441—105.2(232) Buildings and grounds.

105.2(1) Grounds.

- a. An outdoor play area of 75 square feet per child shall be provided.
- b. The play area shall be identified and kept free from hazards that could cause injury to a child.
- c. Rubbish and trash shall be kept separated from the play area.
- d. The grounds shall be adequately drained.

105.2(2) Buildings.

- a. All living areas shall:
 - (1) Have screens on windows used for ventilation.

(2) Be maintained in clean, sanitary conditions, free from vermin, rodents, dampness, noxious gases, and objectionable odors.

(3) Be in safe repair.

(4) Provide for adequate lighting when natural sunlight is inadequate.

(5) Have heating and storage areas separated from sleeping or play areas.

(6) Have walls and ceilings surfaced with materials that are asbestos free.

b. All sleeping rooms shall be of finished construction and provide a minimum of 60 square feet per child for multiple occupancy, 80 square feet per child for single occupancy, and not sleep more than four children per room.

(1) Facilities licensed prior to July 1, 1981, having a square foot area less than that required shall be considered to meet these standards.

(2) There shall be not more than four youths per room in shelter and two youths per room in detention. Sleeping areas shall be assigned on the basis of the individual child's needs for privacy and independence of group support. For detention facilities built prior to July 1, 1979, four youths per room in detention may be allowed provided the minimum square feet per child requirement is met. When a detention facility licensed prior to July 1, 1979, remodels or makes an addition after July 1, 1979, only two youths per room shall be allowed.

c. All rooms aboveground shall:

(1) Have a ceiling height of at least 7 feet, 6 inches.

(2) Have a window area of at least 8 percent of the floor area unless mechanical ventilation is provided that is capable of removing dampness and odors.

d. All rooms belowground shall:

(1) Have a ceiling height of at least 6 feet, 8 inches.

(2) Have a window area of at least 2 percent of the floor area unless mechanical ventilation is provided that is capable of removing dampness and odors.

(3) Have floor and walls constructed of concrete or other materials with an impervious finish and free from groundwater leakage.

105.2(3) Bedrooms.

a. Each child in care shall have a solidly constructed bed.

b. Sheets, pillowcases and blankets shall be provided for each child and shall be kept clean and in good repair.

c. Each child in care shall have adequate storage space for private belongings.

d. No child over the age of five years shall occupy a bedroom with a member of the opposite sex.

105.2(4) Heating.

a. The heating unit shall be so located and operated as to maintain the temperature in the living quarters at a minimum of 65 degrees Fahrenheit during the day and 55 degrees Fahrenheit during the night. Variances may be made in case of health problems. Temperature is measured at 24 inches above the floor in the middle of the room.

b. All space heaters involving the combustion of fuel, such as gas, oil or similar fuel, shall be properly vented to the outside atmosphere.

c. Neither rubber nor plastic tubing shall be used as supply lines for gas or oil heaters.

d. The heating and cooling plant shall be checked yearly and kept in a safe working condition at all times.

105.2(5) Bathroom facilities.

a. Bathrooms shall have an adequate supply of hot and cold running water.

b. Each bathroom shall be properly equipped with toilet tissue, towels, soap, and other items required for personal hygiene unless children are individually given such items. Paper towels, when used, and toilet tissue shall be in dispensers. Detention facilities shall provide items required for personal hygiene but shall not be required to keep items in the bathrooms.

c. Toilets and baths or showers shall provide for individual privacy.

d. There shall be a shower or tub for each ten children or portion thereof.

e. Tubs and showers shall have slip-proof surfaces.

- f. At least one toilet and one lavatory shall be provided for each six children or portion thereof.
- g. Toilet facilities shall be provided with natural or artificial ventilation capable of removing odors and moisture.
- h. Toilet facilities adjacent to a food preparation area shall be separated completely by a windowless door that completely fills the doorframe.
- i. All toilet facilities shall be kept clean.
- j. When more than one stool is used in one bathroom, partitions providing privacy shall be used.
- k. Toilets, wash basins, and other plumbing or sanitary facilities shall be maintained in good operating condition.

105.2(6) Food preparation and storage.

- a. Cracked dishes and utensils shall not be used in the preparation, serving, or storage of food.
- b. Storage areas for perishable foods shall be kept at 45 degrees Fahrenheit or below.
- c. Storage areas for frozen food shall be kept at zero degrees Fahrenheit or below.
- d. Food that is to be served hot shall be maintained at 140 degrees Fahrenheit or above.
- e. Food that is to be served cold shall be maintained at 45 degrees Fahrenheit or less.
- f. The kitchen and food storage areas shall be kept clean and neat. Food shall not be stored on the floor.
- g. The floor and walls shall be of smooth construction and in good repair.

105.2(7) Personnel handling food.

- a. Shall be free of infection that might be transferred while preparing or handling food.
- b. Shall be clean and neatly groomed.
- c. Shall wear clean clothes.
- d. Shall not use tobacco in any form while preparing or serving food.

105.2(8) Dishwashing facilities.

- a. Manual dishwashing will be allowed in facilities that normally serve 15 or less people at one meal.
- b. Automatic or commercial dishwashers shall be used in facilities normally serving more than 15 people at one meal, as long as the following conditions are met:
 - (1) When chemicals are added for sanitation purposes, they shall be automatically dispensed.
 - (2) Machines using hot water for sanitizing must maintain the wash water at least 150 degrees Fahrenheit and rinse water at a temperature of at least 180 degrees Fahrenheit or a single temperature machine at 165 degrees Fahrenheit for both wash and rinse.
 - (3) All machines shall be thoroughly cleaned and sanitized at least once each day or more often if necessary to maintain satisfactory operating condition.
- c. Soiled and clean dish table areas shall be of adequate size to accommodate the dishes for one meal.
- d. All hand-held food preparation and serving equipment shall be cleaned and sanitized following each meal. Dispensers, urns and similar equipment shall be cleaned and sanitized daily.

105.2(9) Foods not prepared at site of serving.

- a. The place where food is prepared for off-site serving shall conform with all requirements for on-site food preparation.
- b. Food shall be transported in covered containers or completely wrapped or packaged so as to be protected from contamination.
- c. During transportation, and until served, hot foods shall be maintained at 140 degrees Fahrenheit or above and cold food maintained at 45 degrees Fahrenheit or below.

105.2(10) Milk supply. When fluid milk is used, it shall be pasteurized Grade "A."

105.2(11) Public water supply. The water supply is approved when the water is obtained from a public water supply system.

105.2(12) Private water supplies.

- a. Each privately operated water supply shall be annually checked and evaluated for obvious deficiencies such as open or loose well tops or platforms and poor drainage around the wells.

b. As part of the evaluation, water samples must be collected and submitted by the department of human services worker or local health sanitarian to the state hygienic laboratory or other laboratory certified by the hygienic laboratory and analyzed for coliform bacteria and nitrate (NO₃) content.

c. When the water supply is obtained from more than one well, proof of the quality of the water from each well is required.

d. When no apparent deficiencies exist in the well and the water sample is approved, water safety requirements have been met.

e. When the water sample is not approved, the facility shall provide a written statement as to how the water supply will be upgraded.

f. A facility with unsafe water can meet water safety requirements by utilizing an alternative safe water source for children until the facility's own water supply is tested as safe. The facility must complete Form 470-0699, Provisions for Alternate Water Supply, and obtain approval from the department.

105.2(13) Heating or storage of hot water. Each tank used for the heating or storage of hot water shall be provided with a pressure and temperature relief valve.

105.2(14) Sewage treatment.

a. Facilities shall be connected to public sewer systems where available.

b. Private disposal systems shall be designed, constructed, and maintained so that no unsanitary or nuisance conditions exist, such as surface discharge of raw or partially treated sewage or failure of the sewer lines to convey sewage properly.

105.2(15) Garbage storage and disposal.

a. A sufficient number of garbage and rubbish containers shall be provided to properly store all material between collections.

b. Containers shall be fly-tight, leakproof, and rodent proof and shall be maintained in a sanitary condition.

105.2(16) General.

a. Facilities shall take sufficient measures to ensure the safety of the children in care.

b. Stairways, halls and aisles shall be of substantial nonslippery material, shall be maintained in a good state of repair, shall be adequately lighted and shall be kept free from obstructions at all times. All stairways shall have handrails.

c. Radiators, registers and steam and hot water pipes shall have protective covering or insulation. Electrical outlets and switches shall have wall plates.

d. Fuse boxes shall be inaccessible to children.

e. Facilities shall have written procedures for the handling and storage of hazardous materials.

f. Firearms are prohibited in shelter care and detention facilities.

g. All swimming pools shall conform to state and local health and safety regulations. Adult supervision shall be provided at all times when children are using the pool.

h. The facility shall have policies regarding fishing ponds, lakes or any bodies of water located on or near the institution grounds and accessible to the children.

105.2(17) Emergency evacuation. All living units utilized by children shall have a posted plan for evacuation in case of fire or disaster with practice drills held at least every six months.

105.2(18) Fire inspection. Each facility shall procure an annual fire inspection approved by the state fire marshal and shall meet the recommendations thereof.

105.2(19) Local codes. Each facility shall meet local building, zoning, sanitation and fire safety ordinances. Where no local standards exist, state standards shall be met.

441—105.3(232) Personnel policies.

105.3(1) Policies in writing. The following personnel policies and practices of the agency relating to a specific facility shall be described in writing and accessible to staff upon request:

a. Affirmative action and equal employment opportunity policies and procedures covering the hiring, assignment and promotion of employees.

b. Job descriptions for all positions.

c. Provisions for vacations, holidays and sick leave.

d. Effective, time-limited grievance procedures allowing the aggrieved party to bring the grievance to at least one level above that party's supervisor.

e. Authorized procedures, consistent with due process for the suspension and dismissal of an employee for just cause.

f. Written procedures for annual employee evaluation shall be in place for each facility and available to all staff upon request.

105.3(2) *Health of employees.* Staff who have direct client contact or are involved in food preparation shall be medically determined to be free of serious infectious communicable diseases and able to perform their duties. A statement by a physician (as defined in Iowa Code section 135.1) attesting to these facts shall be secured at the time of employment and whenever necessary thereafter and filed in the personnel records of that staff. A new statement shall be secured at least every three years.

105.3(3) *Personnel records.* A record shall be maintained by the facility which contains at least the following:

a. Name, address, and social security number of employee.
b. A job application containing sufficient information to justify the initial and current employment.
c. Education and experience requirements. Applicants for positions having educational requirements shall be permanently employed only after the facility has obtained a certified copy of the transcript, diploma, or verification from the school or supervising agency. Applicants for positions having experience requirements shall be permanently employed only after the facility has obtained verification from the agency supervising the experience.

d. License requirements. Applicants for positions requiring licenses shall be permanently employed only after the facility has obtained written verification of their licenses. Evidence of renewal of licenses as required by the licensing agency shall be maintained in the personnel record.

e. References. At least two written references or documentation of oral references shall be contained in the employee's personnel record. In case of unfavorable references, there shall be documentation of further checking to ensure that the person will be a reliable employee.

f. After July 1, 1983, a written, signed and dated statement which discloses any substantiated instances of child abuse, neglect or sexual abuse committed by the applicant is required.

g. Documentation of the submission of Form 470-0643, Request for Child Abuse Information, to the central abuse registry, the registry response, the department's evaluation of any abuse record discovered, and a copy of Form 470-2310, Record Check Evaluation, if the staff person has completed and submitted it.

h. A written, signed and dated statement furnished by the new applicant for employment which discloses any convictions of crimes involving the mistreatment or exploitation of a child.

i. Documentation of a check with the Iowa department of public safety on all new applicants for employment using Form 595-1396, DHS Criminal History Record Check, Form B; a copy of the department's evaluation of any criminal record discovered; and a copy of Form 470-2310, Record Check Evaluation, if the applicant has completed and submitted it.

j. Documentation of any checks with the Iowa department of public safety for persons hired before July 1, 1983, for whom the agency has reason to suspect a criminal record.

k. Current information relative to work performance evaluation.

l. Records of preemployment health examination or a record of a health report as required in 105.3(2) as well as a written record of subsequent health services rendered to an employee as necessary to ensure that all facility employees are physically able to perform their duties.

m. Information on written current reprimands or commendations.

n. Position in the agency, and date of employment.

o. Information covered in paragraphs "g," "i," "j," is confidential and may not be disseminated to that particular applicant or employee.

441—105.4(232) Procedures manual. The facility shall have written policies and procedures specifying the manner in which the program of the facility is to be carried out.

441—105.5(232) Staff.**105.5(1) Number of staff.**

a. Generally. A sufficient number of child care or house parent staff shall be on duty at all times so as to provide adequate coverage. The number of staff required will vary depending on the size and complexity of the program. All facilities shall have at least one staff person on duty. Facilities having six or more residents shall have at least two staff persons on duty at all times that children are usually awake and present in the facility. Coed facilities having more than five residents should have both male and female staff on duty at all times. All child care or house parent staff shall be at least 18 years of age.

b. On-call system. There shall be an on-call system for coed facilities to provide that staff of the same sex as the resident shall perform the following:

- (1) All personal body searches.
- (2) Supervision of personal care.

c. Prime programming time. A minimum staff-child ratio of one child care worker or house parent to five children shall be maintained during prime programming times.

d. Night hours. At night, there shall be a staff person awake in each living unit and making regular visual checks throughout the night. The visual checks shall be made at least every hour in shelter care and every half hour in detention. A log shall be kept of all checks, including the time of the check and any significant observations. There shall be an on-call system which allows backup within minutes for both child care staff and casework personnel.

105.5(2) Staff composition. The composition of the program staff shall be determined by the facility, based on an assessment of the needs of the children being served, the facility's goals, the programs provided, and all applicable federal, state and local laws and regulations.

105.5(3) Staff development. Staff development shall be appropriate to the size and nature of the facility. There shall be a written plan for staff training that includes:

a. Orientation for all new employees, to acquaint them with the philosophy, organization, program practices, and goals of the facility.

b. Training of new employees in areas related to their job assignments.

c. Provisions in writing for all staff members to improve their competency through such means as:

- (1) Attending staff meetings;
- (2) Attending seminars, conferences, workshops, and institutes;
- (3) Visiting other facilities;
- (4) Access to consultants;
- (5) Access to current literature, including books, monographs, and journals relevant to the facility's services.

d. There shall be an individual designated responsible for staff development and training, who will complete a written staff development plan which shall be updated annually.

105.5(4) Organization and administration. Whenever there is a change in the name of the facility, the address of the facility, the executive, or the capacity, the information shall be reported to the licensing manager. A table of organization including the identification of lines of responsibility and authority from policymaking to service to clients shall be available to the licensing staff. An executive director shall have full administrative responsibility for carrying out the policies, procedures and programs.

105.5(5) Record checks. The facility shall not employ any person who has been convicted of a crime involving the mistreatment or exploitation of a child. The facility shall not employ a person who has a record of a criminal conviction or founded child abuse report unless the department has made an evaluation of the crime or founded child abuse which concludes that the crime or founded child abuse does not merit prohibition of employment.

a. If a record of criminal conviction or founded child abuse exists, the person shall be offered the opportunity to complete and submit Form 470-2310, Record Check Evaluation.

b. In its evaluation, the department shall consider:

- (1) The nature and seriousness of the crime or founded abuse in relation to the position sought;
- (2) The time elapsed since the commission of the crime or founded abuse;

- (3) The circumstances under which the crime or founded abuse was committed;
- (4) The degree of rehabilitation; and
- (5) The number of crimes or founded abuses committed by the person involved.

441—105.6(232) Intake procedures.

105.6(1) Admissions. Admission to shelter care or detention shall be in accordance with Iowa Code sections 232.20, 232.21 and 232.22. In no case shall a youth be admitted to detention or shelter care when the resulting admission would exceed the facility's approved client capacity. The facility and referring agency shall agree upon service responsibilities at the time of admission.

105.6(2) Agency or court order placement. Each agency or court placing a child in a facility shall make available to the facility the following:

- a. A placement agreement should accompany the child.

When this is not possible, a copy of the placement agreement shall be provided the facility within 24 hours.

- b. For court-ordered placements, a copy of the court order authorizing placement shall be provided to the facility within 48 hours.

- c. When the child is in the facility more than four days, the following information shall be made available to the facility.

- (1) All available psychological and psychiatric tests and reports concerning the child.
- (2) Any available family social history.
- (3) Any available school information.

105.6(3) Self-referrals. Any child admitting self to a facility shall be provided appropriate services. The facility shall notify the child's parents, guardian or the juvenile court as soon as possible concerning the child's admission to the facility but in any event the notification shall take place within 48 hours after the child's admission. Self-referrals shall not be accepted for placement in detention.

105.6(4) Person responsible. Each agency shall designate who has the authority to do intake. This may include anyone trained in intake procedures and who is designated to do intake.

105.6(5) Intake sheet. An intake sheet shall be completed on each child containing at least the information specified in 105.17(2).

441—105.7(232) Assessments.

105.7(1) Personal. At the time of intake and throughout a child's stay, individual needs will be identified by staff. The initial and ongoing determination of each child's needs will be based on written and verbal information from referral sources, observable behavior at intake, initial interview with the youth or family, school contacts, physical examination, and other relevant materials. The individual assessment shall provide the basis for development of a care plan for each youth.

105.7(2) Educational. An educational assessment shall be developed by the staff and referring worker for each child. When appropriate, other agencies such as the public schools and the area education agency shall be involved.

441—105.8(232) Program services.

105.8(1) Care plan. There shall be a written care plan developed for each resident remaining in the facility over four days. The care plan will be based on individual needs determined through the assessment of each youth. The care plan shall be developed in consultation with child care services, probation services, social services and educational, medical, psychiatric and psychological personnel as appropriate. The plan shall include:

- a. Identification of specific needs;
- b. Description of planned service;
- c. Which staff person(s) will be responsible for each element of the plan;
- d. Where services are to occur;
- e. Frequency of activities or services.

105.8(2) Educational programs. All children currently enrolled in a school shall continue in that school when possible, or in an appropriate alternative. Where educational assessments indicate an educational need for a child not currently enrolled in public schools, an alternative shall be developed in cooperation with public schools, area education agency, and the referring worker. When an educational program is established within the facility it shall meet the educational and teaching standards established by the state department of public instruction. A child should be compelled to participate in an educational program only in compliance with the compulsory education law, Iowa Code chapter 299.

105.8(3) Daily program. The daily program shall be planned to provide a consistent, well structured, yet flexible framework for daily living, and shall be periodically reviewed and revised as the needs of the individual child or the living group change.

Attention shall be given to the special nature of the facility population and its resulting stresses, for example, rapid turnover in population and minimal screening at intake.

105.8(4) Optional services. When a facility provides services in addition to those required by these rules, they shall be clearly defined in writing.

105.8(5) Recreation program. The facility shall provide adequately designed and maintained indoor and outdoor activity areas, equipment, and equipment storage facilities appropriate for the age group which it serves. There shall be a variety of activity areas and equipment so that all children can be active participants in different types of individual and group sports and other motor activity.

a. Games, toys, equipment, and arts and crafts materials shall be selected according to age, number of children, and with consideration of the needs of children to engage in both active and quiet play. All materials shall be of a quality to ensure safety and shall be of a type which allows imaginative play and creativeness.

b. The facility shall plan and carry out efforts to establish and maintain workable relationships with the community recreational resources. The facility staff shall enlist the support of these resources to provide opportunities for children to participate in community recreational activities.

105.8(6) Health care.

a. Health assessment at intake. Facility staff shall review each child's health status at intake. The purpose of this preliminary review is to identify medication needs and problems that need immediate medical attention. Within seven days of intake, all reasonable efforts shall be made to perform a more comprehensive health assessment on each child who has not had a comprehensive health assessment within the past year. If the assessment cannot be performed within seven days, it shall be arranged for the earliest possible time, and the reasons for the delay shall be documented. A registered nurse, an advanced registered nurse practitioner, a physician assistant, or a physician shall perform the comprehensive health assessment.

b. Existing health needs. Facilities shall provide or secure medical treatment for a child's illnesses and injuries that come to the facility's attention during the child's stay.

c. Monitoring side effects of medications. Facilities shall monitor each child's use of medications and shall inform the authorized prescriber if adverse reactions are noted.

d. Sharing medical information. Facilities shall share information about significant changes in medical status with the child's caseworker and parents or guardian. Discharge information shall include information about significant medical changes that occurred while the child was at the facility.

105.8(7) Counseling program. Counseling services shall be related to the immediate problem, daily living skills, peer relationships, educational opportunities, vocational opportunities, future planning and preparation for placement, family counseling, and any other factors identified in the individual care plan. Counseling shall be done by appropriate staff personnel.

105.8(8) Dietary program. The facility shall provide properly planned, nutritious and inviting food and take into consideration the special food needs and tastes of children.

441—105.9(232) Medication management and administration.

105.9(1) Obtaining prescription medications. Facilities shall permit prescription medications to be brought into the facility for a child.

a. Prescription medication in its original container, clearly labeled and prescribed for the child, may be accepted as legitimate prescription medication for the child. The label serves as verification that the medication was ordered by an authorized prescriber.

b. Facilities shall review size, shape, color, and dosages and contact the identified pharmacy or authorized prescriber to confirm legitimacy if contraband is suspected.

105.9(2) *Obtaining nonprescription medications.* Shelter and detention facilities shall maintain a supply of standard nonprescription medications for use for children residing at the facility. Examples of standard nonprescription medications include cough drops and cough syrups, aspirin substitutes and other pain control medication, poison antidote, and diarrhea control medication.

a. All nonprescription medications kept on the premises for the use of residents shall be preapproved annually by a licensed pharmacist or an authorized prescriber.

b. Facilities shall maintain a list of all preapproved nonprescription medications. The list shall indicate standard uses, standard dosages, contraindications, side effects, and common drug interaction warnings. The facility administrator or the administrator's designee shall be responsible for determining the scope of the list and brands and types of medications included.

c. Only nonprescription medications on the preapproved list shall be available for use. However, the facility administrator or the administrator's designee, in consultation with an authorized prescriber or licensed pharmacist, may approve use of a nonprescription medication that is not on the preapproved list for a specific child.

105.9(3) *Storing medications.* Prescription and nonprescription medications shall be stored in a locked cabinet, a locked refrigerator, or a locked box within an unlocked refrigerator.

a. Controlled substances shall be stored in a locked box within a locked cabinet. Nothing other than controlled substances shall be stored in the locked box. Controlled substances requiring refrigeration also shall be maintained within a double-locked container separate from food and other items.

b. The facility administrator shall determine distribution and maintenance of keys to the medication storage cabinets and boxes.

c. A shelter facility administrator or the administrator's designee may preapprove shelter staff to carry prescription or nonprescription medications with them temporarily for use while on day trips or at sites away from the facility.

105.9(4) *Labeling medications.* Controlled substances and prescription medications shall be maintained in their original containers, clearly labeled by an authorized prescriber and prescribed for the child. Sample prescription medications shall be accompanied by a written prescription. Nonprescription medications shall be maintained as purchased in their original containers.

105.9(5) *Administering controlled medications.* Only staff who have completed a medication administration course shall be allowed to administer controlled substances.

105.9(6) *Administering prescription and nonprescription medications.* The facility administrator shall determine and provide written authority as to which staff may administer prescription and nonprescription medications.

a. Prescription medications shall be administered only in accordance with the orders of the authorized prescriber. Nonprescription medications shall be administered following the directions on the label.

b. The facility administrator or the administrator's designee may allow a child to self-administer prescription and nonprescription medication in appropriate situations. The facility shall require documentation if the child self-administers a medication.

105.9(7) *Documenting errors in administering medications.* All errors in administering prescription and nonprescription medications shall be documented. Facilities shall review and take appropriate action to ensure that similar errors do not recur.

105.9(8) *Medication for discharged residents.* When a child is discharged or leaves the facility, the facility shall turn over to a responsible agent controlled substances and prescription medications currently being administered. The facility may send nonprescription medications with the child as needed. The facility shall document in the child's file:

a. The name, strength, dosage form, and quantity of each medication.

- b. The signature of the facility staff person turning over the medications to the responsible agent.
- c. The signature of the responsible agent receiving the medications.

105.9(9) *Destroying outdated and unused medications.* Unused controlled and prescription medications kept at the facility for more than six months after the child has left the facility shall be destroyed by the administrator or the administrator's designee in the presence of at least one witness. Outdated, discontinued, or unusable nonprescription medications shall also be destroyed in a similar manner. The person destroying the medication shall document:

- a. The child's name.
- b. The name, strength, dosage form, and quantity of each medication.
- c. The date the medication was destroyed.
- d. The names and signatures of the witness and staff person who destroyed the medication.

441—105.10(232) Control room—juvenile detention home only.

105.10(1) *Written policies.* When a juvenile detention facility uses a control room as part of its service, the facility shall have written policies regarding its use and the facility director shall complete Form 470-0700, Evaluation and Recommendation to Operate a Control Room. The policy shall:

- a. Specify the behaviors resulting in control room placement.
- b. Delineate the staff members who may authorize its use as well as procedures for notification of supervisory personnel.
- c. Document in writing behaviors leading to control room placement and the nature of the agreement reached with the child that will allow the child to return to the living unit.

105.10(2) *Physical requirements.* The control room shall be designed to ensure a physically safe environment that:

- a. Has all switches controlling lights and ventilation outside of the room.
- b. Allows for total observation of the child at all times.
- c. Has protected recessed ceiling light.
- d. Has no electrical outlets in the room.
- e. Is properly heated, cooled and ventilated.
- f. Has all doors, ceilings and walls constructed of strength and materials as to prevent damage to the extent that no harm could come to the child.
- g. When a window is present, it is secured and protected in such a manner as to prevent harm to the child.
- h. Is a minimum of 6 feet by 9 feet in size with at least a 7½ foot ceiling.

105.10(3) *Use.* A control room shall be used only when a less restrictive alternative to quiet or allow the child to gain control has failed. Utilization of the control room shall be in accordance with the following policies:

- a. No more than one child shall be in the control room at any time.
- b. There shall be provision for visual observation of the child at all times, regardless of the child's position in the room.
- c. The control room should be checked thoroughly for safety and the absence of contraband prior to placing a child in the room.
- d. The child shall be thoroughly checked before placement in the control room and all potentially injurious objects removed from such child including shoes, belts, pocket items, and similar items. The staff member placing the child in the control room shall document such check.
- e. In no case shall all clothing or underwear be removed and the child shall be provided sufficient clothing to meet seasonal needs.
- f. A staff member shall always be within hearing distance of the control room and the child shall be visually checked by the staff at least every 15 minutes and each check shall be recorded.
- g. The child shall not remain in the control room longer than 1 hour except in consultation with and approval from the supervisor. Documentation in the child's case record shall include the time in the control room, the reasons for the control, and the reasons for the extension of time. Use of the control

room for a total of more than 12 hours in any 24-hour period shall occur only in consultation with the referring agency or court. In no case shall a child be in a control room for a period longer than 24 hours.

h. The child's parents, referring worker, and the child's attorney shall be notified when the control room is used for more than a total of 30 minutes in any 24-hour period.

441—105.11(232) Clothing. All children shall have clothing that is suited to existing climate and seasonal conditions and is clean, dry and in good repair.

441—105.12(232) Staffings. The staff shall be available to participate in staffings or upon request to provide a written summary of the child's progress and behavior while in the facility program. Written recommendations regarding future planning and placement shall be provided to the referring agency or court upon request. Staff shall be available to discuss recommendations with the child's parent or guardian.

441—105.13(232) Child abuse. Written policies shall prohibit mistreatment, neglect or abuse of children and specify reporting and enforcement procedures for the facility. Alleged violations shall be reported immediately to the director of the facility and appropriate department of human services personnel. Any employee for whom there is a substantiated instance of child abuse or failure to report child abuse shall be subject to the agency's policies concerning dismissal.

441—105.14(232) Daily log. The facility shall maintain a daily log. The log shall be used to note general progress in regard to the care plan and any problem areas or unusual behavior for each child.

441—105.15(232) Children's rights.

105.15(1) Policies in writing. All policies and procedures covered in this rule shall be in writing and provided to the child upon admission and made available to the child's parent or guardian upon request. If the child remains in care over four days, the policies and procedures shall be provided to the parent or guardian. The rationale and circumstances of any deviation from these policies shall be discussed with the child's parents or guardian and the referring worker, documented, and placed in the child's case record.

105.15(2) Confidentiality. Information regarding children and their families shall be kept confidential and released only with proper written authorization.

105.15(3) Communication.

a. Unless specifically regulated by the court, visitation shall be allowed with members of the child's immediate family.

b. Family visits shall be monitored only to the extent necessary to ensure the child's safety and facility security. Rationale for monitoring shall be documented in the child's record.

c. The child shall be permitted to communicate privately with legal counsel and the referring worker.

d. The child shall be allowed to conduct telephone conversations with family members. Telephone calls shall be monitored only to the extent necessary to ensure the child's well-being and facility security. Rationale for monitoring a child's conversation shall be documented in the child's record. Incoming calls may be screened by staff to verify the identity of the caller before approval is given.

e. The staff shall not open or read residents' mail. The child shall be allowed to send and receive mail. The facility may require the child to open incoming mail in the presence of a staff member when the mail is suspected to contain contraband articles, or to contain money that should be receipted and deposited.

f. When limitations on visitation or other communications are indicated, they shall be determined with the participation or knowledge of the child, family or guardian, and the referring worker. All restrictions shall have specific bases which shall be made explicit to the child and family and documented in the child's case record.

105.15(4) Privacy. Reasonable provisions shall be made for the privacy of residents.

441—105.16(232) Discipline.

105.16(1) *Generally.* A facility shall have written policies regarding methods used for control and discipline of children which shall be available to all staff and to the child's family. Discipline shall not include withholding of basic necessities such as food, clothing, or sleep. Agency staff shall be in control of and responsible for discipline at all times.

105.16(2) *Corporal punishment prohibited.* The facility shall have a policy that clearly prohibits staff or the children from utilizing corporal punishment as a method of disciplining or correcting children. This policy shall be communicated in writing to all staff of the facility.

105.16(3) *Physical restraint.* The use of physical restraint shall be employed only to prevent the child from injury to self, to others, or to property. The rationale and authorization for the use of physical restraint, and staff action and procedures carried out to protect the children's rights and to ensure their safety, shall be clearly set forth in the child's record by the responsible staff.

105.16(4) *Room confinement.* Facilities shall provide sufficient programming and staff coverage to enable children to be involved in group activities during the day and evening hours. A child shall only be confined to the child's room for illness, at the child's own request, or for disciplinary reasons. A juvenile detention home may confine a child to the child's room during normal sleeping hours if the facility has written policies and procedures which are approved by the department regarding this confinement.

105.16(5) *Written policies.* The facility shall provide to the child written policies specifying inappropriate behaviors, reasonable consequences for misconduct, and due process procedures available to the child. Upon request, the above information shall be provided to the child's parent or guardian and referring worker.

441—105.17(232) Case files.

105.17(1) *Generally.* For the purpose of promoting a uniformity of program for all facilities and as an aid to the department of human services in determining its approval of a facility all facilities shall establish and maintain for inspection case files on each child.

105.17(2) *Face sheet.* For all children, a face sheet containing the following information shall be completed.

- a. Full name, current address, and date of birth.
- b. Parent's(s') full name(s).
- c. Parent's(s') address and telephone number.
- d. Religious preference of the child and also parent, if available.
- e. Statement of who has legal custody and guardianship.
- f. Name of referring worker and agency making the referral.
- g. Telephone number and address of referring agency or court.
- h. Name, address, and telephone number of the child's attorney.

105.17(3) *Written summary.* When a written summary has been requested under 441—105.12(232), a copy shall be placed in the child's record.

105.17(4) *Documentation.* The following information shall be documented in each child's record:

- a. Appropriate notes on all significant contacts by staff with parents, referral person and other collateral contacts.
- b. A summary related to discharge including name, address, and relationship of person to whom discharged.

105.17(5) *Other information.* The following information shall be requested when the child remains in the facility more than four days and, when available, placed in the child's record.

- a. Current family history or social history.
- b. Case plans submitted by the referring agency or orders of the court.
- c. Psychological and psychiatric records; copies of all available testing performed plus notes and records of contact with the child.
- d. Medical.
 - (1) A record of all illnesses, immunizations, communicable diseases and follow-up treatment.
 - (2) Medical and surgical authorization signed by the parent, guardian, custodian or court.

- (3) A record of all medical and dental examinations including findings.
- (4) Date of last physical examination prior to placement.
- e.* School.
 - (1) Name and address of school attended.
 - (2) Grade placement.
 - (3) Current school in which child is enrolled.
 - (4) Specific educational problems.
 - (5) Remedial action.
- f.* Placement agreement, court order, releases.
 - (1) Agreement shall authorize the facility to accept the child.
 - (2) The agreement shall set forth the terms of payment for care.
 - (3) Medical release authorizing emergency medical and surgical treatment, including the administration of anesthesia.
 - (4) All releases and authorizations shall be signed by the parent or legal guardian.
 - (5) All court orders affecting the custody or guardianship of the child.

441—105.18(232) Discharge.

105.18(1) Children in shelter care shall be discharged to a permanent placement at the earliest possible time, and in any event within 30 days from the date of admission. Extension requests shall be made, substantiated, and approved by both the referral agency and the shelter care agency by the twenty-fifth day of care. Maximum length of stay should not exceed 45 days. Maximum length of stay in detention should not exceed 21 days.

105.18(2) Rescinded IAB 3/31/04, effective 5/5/04.

441—105.19(232) Approval. The department will issue a Certificate of Approval, Form 470-0620, annually without cost to any juvenile detention home or juvenile shelter care home which meets the standards. The department may offer consultation to assist homes in meeting the standards.

105.19(1) Applications. An application shall be submitted on Form 470-0723, Application for License or Certificate of Approval. The application shall be signed by the operator of the home, chairman of the county board of supervisors, or chairman of the multicounty board of directors and shall indicate the type of home for which the application is made.

- a.* The withdrawal of an application shall be reported promptly to the department.
- b.* Each application will be evaluated by the department to ensure that all standards are met.
- c.* Reports and information shall be furnished to the department as requested.

105.19(2) Rejection.

- a.* Applications will be rejected when the minimum standards set forth in the rules in this chapter are not met.
- b.* Fraudulent applications will be rejected. A fraudulent application is one which contains false statements knowingly made by the applicant or one in which the applicant knowingly conceals information.
- c.* Applications will be rejected when the director of the facility has been convicted of a crime indicating an inability to operate a children's facility or care for children.
- d.* Applications will be rejected for just cause.

105.19(3) Approval. Approvals will be given for one year.

105.19(4) Notification. Homes should be notified of approval or rejection within 120 days of application unless the applicant requests and is granted an extension by the department. Form 470-0728, Notice of Action, will be used to inform applicants of approval, and a restricted certified letter will be used to inform applicants of rejection.

105.19(5) Renewals.

- a.* Applications for renewal shall be made on forms provided by the department and shall be made at least 30 days, but no more than 90 days, prior to expiration of the approval.

b. Each application for renewal will be evaluated by the department to ensure that standards continue to be met.

c. The application for renewal will be rejected or approved in the same manner as an application.

d. Decisions on renewals should be made within 60 days from the application for renewal.

Notification of renewal decisions shall be the same as for new applications.

105.19(6) Revocations.

a. Approval shall be revoked by the state director for the following reasons:

(1) When the facility violates laws governing the provision of services or rules contained in this chapter.

(2) When the facility is misusing funds furnished by the department.

(3) When the facility is operating without due regard to the health, sanitation, hygiene, comfort, or well-being of the children in the facility.

(4) When the director has been convicted of a crime indicating an inability to operate a children's facility or care for children.

b. The following may be causes for revocation:

(1) Substantiated child abuse.

(2) When the facility staff has been convicted of a crime indicating an inability to operate a children's facility or care for children.

105.19(7) Certificate of approval. Upon approval, the home will be issued a certificate of approval containing the name of the home, address, capacity, and the date of expiration. Renewals will be shown by a seal bearing the new date of expiration, unless a change requires a new certificate to be issued.

441—105.20(232) Provisional approval.

105.20(1) Required conditions. A provisional approval may be issued at the time of application or reapplication for approval or as a result of a complaint investigation when all of the following conditions exist:

a. The shelter care or detention facility fails to meet the approval requirements.

b. A provisional approval has not previously been issued to the facility for the same deficiencies during the past year.

c. The deficiencies do not present an immediate danger to the child's physical or mental health.

d. The director of the facility, chairman of the county board of supervisors, or chairman of the multicounty board of directors provides the department with the following:

(1) A plan for correcting the deficiencies.

(2) The date by which the standards will be met.

If conditions "b," "c," or "d" are not met, then the application for approval shall be rejected or the approval revoked.

105.20(2) Time limited. Provisional approvals shall not be issued for longer than one year.

105.20(3) Completed corrective action. When the corrective action is completed on or before the date specified on the provisional approval, a full approval shall be issued for the remainder of the year.

105.20(4) Uncompleted corrective action. When the corrective action is not completed by the date specified on a provisional approval, the department shall not grant a full approval and has the option of rejecting or extending the provisional approval. An extension of a provisional approval shall not cause the effective period of a provisional approval to exceed 18 months. If the corrective action plan is not completed within 18 months, the approval shall be rejected.

441—105.21(232) Mechanical restraint—juvenile detention only. When a juvenile detention facility uses mechanical restraints as part of its program, the facility shall have written policies regarding their use. These policies shall be approved by the department before use of mechanical restraints. The policies shall be available to clients, parents or guardians, and referral sources at the time of admission. Policies shall also be available to staff. The executive director of the detention home shall sign the commitment contained in Form 470-0703, Evaluation and Recommendation for Approval to Use Mechanical Restraint, before the facility shall be approved to use a mechanical restraint.

105.21(1) Restrictions on mechanical restraints.

- a. Mechanical restraints shall not inflict physical injury.
- b. Each use of mechanical restraint shall be authorized by the executive director of the facility, as discussed in 105.5(4), or other staff designated by the executive director if those staff meet one of the following requirements:
 - (1) Have a bachelor's degree in social work, psychology or a related behavioral science and one year of supervised experience in a juvenile shelter care, detention or foster group care facility.
 - (2) Have five years of supervised experience in a juvenile shelter care, detention or foster group care facility.
 - (3) Have some combination of advanced education in related behavioral sciences and supervised experience in a juvenile shelter care, detention or foster group care facility equal to five years. The facility shall have a written listing of all staff designated and qualified to authorize the use of mechanical restraint.
- c. When immediate restraint is necessary to protect the safety of the child, other residents of the facility, staff or others, mechanical restraint may be utilized without prior authorization but in each case a person designated to provide authorization shall be contacted as soon as the child is restrained. The designated person shall visit the resident before determining if continued use of the mechanical restraint is necessary. If not viewed as necessary, the child shall be immediately released from restraint.
- d. Each authorization of mechanical restraint shall not exceed one hour in duration without a visit by and written authorization from a licensed psychologist, psychiatrist or physician or psychologist employed by a local mental health center.
- e. No child shall be kept in mechanical restraint for more than 1 hour in a 12-hour period without a visit by and written authorization from a licensed psychologist, psychiatrist or physician or psychologist employed by a local mental health center.
- f. Anytime that a child is placed in mechanical restraint, a staff person shall be assigned to monitor the child with no duties other than to ensure that the child's physical needs are properly met. The staff person shall remain in continuous auditory and visual contact with the child.
- g. Each child shall be released from mechanical restraint as soon as the restraints are no longer needed.

105.21(2) Documentation.

- a. Each use of mechanical restraints shall be documented in the client's record and shall include at least the following:
 - (1) The date and time the child was placed in mechanical restraint.
 - (2) The type of mechanical restraint utilized.
 - (3) The reason for the restraint.
 - (4) The signature of the person authorizing the restraint and the time of authorization.
 - (5) The signature of the person placing the child in restraint.
 - (6) The signature of the person providing the continuous auditory and visual contact with the child.
 - (7) The signature of the person releasing the child and the time of release.
- b. Each use of mechanical restraint shall be documented in a separate file which is used only for the recording of uses of mechanical restraints and shall contain the name of the child restrained and the information discussed in 105.21(2) "a."
- c. Each facility authorized to use mechanical restraint shall submit a quarterly report to the bureau of adult, children and family services of the department which shall include all the information required in 105.21(2) "b."

105.21(3) Continued use of mechanical restraints. When a child requires mechanical restraint on more than four occasions during any 30-day period, the facility shall hold an immediate emergency meeting within 3 days of the fifth incident and shall have a licensed psychologist or psychiatrist or psychologist employed by a local mental health center present at the staffing to discuss the appropriateness of the child's continued placement at the facility.

105.21(4) In transporting children. Notwithstanding 105.21(1) "d," mechanical restraint of a child by the staff of a juvenile detention facility while that child is being transported to a point outside the

facility is permitted when there is a serious risk of the child exiting the vehicle while the vehicle is in motion. The facility shall place a written report on each use in the child's case record and the mechanical restraint file. This report shall document the necessity for the use of restraint.

Seat belts are not considered mechanical restraints. Agency policies should encourage the use of seat belts while transporting children.

441—105.22(232) Chemical restraint. Chemical restraint shall not be utilized in juvenile shelter care or detention facilities. Each juvenile shelter care or detention facility shall have written policies which clearly prohibit the use of chemical restraints.

These rules are intended to implement Iowa Code section 232.142.

CHAPTER 106
Reserved

CHAPTER 107
CERTIFICATION OF ADOPTION INVESTIGATORS
[Prior to 2/11/87, Human Services[498]]

441—107.1(600) Introduction. Persons with academic qualifications and adoption work experience may be certified by the department to provide adoption preplacement investigations, postplacement supervision, and reports to the court.

441—107.2(600) Definitions.

“Adoption work experience” means supervised employment in adoption services. Included is direct provision of adoption services, developing adoption policies, conducting training related to adoption services, oversight and review of adoption documents and activities, and direct supervision of adoption workers. For employment, of which only a portion of time was spent on adoptions, only the percent of time related to provision of adoption services shall be included as adoption work experience.

“Certified adoption investigator” means a person authorized by the department to provide background reports on birth parents, adoption preplacement investigations, postplacement supervision, and reports to the court within the state of Iowa.

“Department” means the department of human services.

441—107.3(600) Application.

107.3(1) Application form. Application for certification as an adoption investigator shall be made on Form SS-6105-0, Application for Certification of Adoption Investigator. This form may be obtained from the Division of Adult, Children, and Family Services, Department of Human Services, Hoover State Office Building, Des Moines, Iowa 50319-0114.

107.3(2) Employees of licensed child placing agencies and the department of human services. Persons employed as social workers in licensed child placing agencies who meet the requirements for certification in rule 441—107.4(600) are eligible to apply for certification as adoption investigators unless the agency employing them objects in writing. The applicant shall furnish a letter of approval from the agency as part of the certification process.

Persons employed as social workers for the department of human services who meet the requirements for certification in rule 441—107.4(600) are eligible to apply for certification as adoption investigators for services provided outside of their current job duties, unless their current job duties include any of the following:

- a. Any of the activities described in rule 441—107.8(600).
- b. Immediate supervision of employees engaged in activities described in rule 441—107.8(600).
- c. Certification of adoption investigators.
- d. Placement of children for adoption.
- e. Development of adoption policies used in administration of the adoption program.

441—107.4(600) Requirements for certification.

107.4(1) Office location. The applicant shall retain an office in Iowa where all Iowa adoption reports and records of fees are maintained and are available for inspection.

107.4(2) Education and experience.

a. If the applicant was initially certified as an adoption investigator before October 1, 1991, the applicant shall have one of the following combinations of education and experience:

(1) Graduation from an accredited four-year college or university and adoption work experience equivalent to a total of three years, full-time experience.

(2) A bachelor’s degree in social work from an accredited four-year college or university in a program accredited by the council on social work education and adoption work experience equivalent to a total of two years, full-time experience.

(3) A master’s degree in social work from an accredited college or university in a program accredited by the council on social work education and adoption work experience equivalent to a total of one year, full-time experience.

b. If the applicant is initially certified as an adoption investigator on or after October 1, 1991, the applicant shall have one of the following combinations of education and experience:

(1) Graduation from an accredited four-year college or university with a bachelor's degree in social work, psychology, counseling, family therapy, family living, or other family-oriented degree and postgraduation adoption work experience equivalent to a total of three years, full-time experience.

(2) Graduate education in a master's program in social work, psychology, counseling, family therapy, family living, or other family-oriented program from an accredited four-year college or university may be substituted for required adoption work experience on the basis of 30 semester hours for one year of full-time experience, for up to two full years of the required three years of adoption work experience.

(3) A master's degree in social work, psychology, counseling, family therapy, family living, or other family-oriented degree from an accredited college or university and postgraduation adoption work experience equivalent to a total of one year, full-time experience.

107.4(3) Verification of qualifications.

a. The applicant shall provide a certified transcript of college credits, and

b. The applicant shall provide a record of all adoption work experience including dates and location, and

c. The applicant shall provide the name(s) of employer(s) and supervisor(s) to enable the department to verify the applicant's adoption work experience, and

d. The applicant shall give names of at least two additional persons as character references who shall be contacted by the certifier.

107.4(4) Statement of activities and duties. Prior to certification, the applicant shall prepare a written statement identifying the proposed activities, duties and fees of the applicant as a certified adoption investigator.

a. The statement shall indicate that the services described in rule 441—107.8(600) are being provided by the individual investigator, not a child placing agency, and are not provided in the course of the individual investigator's employment with a child placing agency or the department of human services.

b. The activities and duties identified in the statement cannot exceed the scope of an investigator's services as defined in rule 441—107.8(600).

c. The statement shall include the fee schedule to be used in the determination of a charge for investigative services.

d. A copy of the statement shall be provided to the department to be maintained as a public record.

e. Upon request, this statement shall be provided by the investigator to persons requesting services from the investigator.

107.4(5) Record checks. The department of inspections and appeals shall submit record checks for each new applicant and those applying for recertification to determine whether they have any founded child abuse reports or convictions or have been placed on the sex offender registry. The department of inspections and appeals shall use Form 470-0643, Request for Child Abuse Information, and Form 595-1396, DHS Criminal History Record Check, Form B for this purpose. The department shall not certify the applicant with a record of founded child abuse, a criminal conviction, or placement on the sex offender registry as an adoption investigator unless evaluation of the founded abuse or crime indicates approval for certification.

The applicant shall complete and return Form 470-2310, Record Check Evaluation, within ten calendar days of the date on the form to be used by the department to assist in the evaluation. Failure of the applicant to complete and return Form 470-2310 within the specified time frame shall result in denial of certification.

The department shall evaluate the nature and seriousness of the founded abuse or crimes, the time elapsed since the commission of the founded abuse or crimes, the circumstances under which the founded abuse or crime was committed, the degree of rehabilitation, the likelihood that the person will commit the abuse or crime again, and the number of founded abuses or crimes committed by the applicant. The department shall notify the applicant of the results of the evaluation using Form 470-2386, Record

Check Decision. The department shall also issue Form 470-2386 when the applicant fails to complete the evaluation form.

Investigators applying for recertification are subject to the same record checks as new applicants. The department shall evaluate only abuses, convictions of crimes, and placement on the sex offender registry since the last record check using the same process.

107.4(6) Certification actions for nonpayment of child support. The department shall revoke or deny the issuance or renewal of a certification of an adoption investigator upon the receipt of a certificate of noncompliance from the child support recovery unit of the department according to the procedures in Iowa Code chapter 252J. In addition to the procedures set forth in Iowa Code chapter 252J, the rules in this chapter shall apply.

a. The notice required by Iowa Code section 252J.8 shall be served upon the applicant or certified investigator by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rules of Civil Procedure 56.1. Alternatively, the applicant or certified investigator may accept service personally or through authorized counsel.

b. The effective date of the revocation or denial of the certification as specified in the notice required by Iowa Code section 252J.8 shall be 60 days following service of the notice upon the applicant or certified investigator.

c. The department director or designee of the director is authorized to prepare and serve the notice as required by Iowa Code section 252J.8 upon the applicant or certified investigator.

d. Applicants and certified investigators shall keep the department informed of all court actions, and all child support recovery unit actions taken under or in connection with Iowa Code chapter 252J, and shall provide the department copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in these actions, and withdrawals of certificates of noncompliance by the child support recovery unit.

e. An applicant or certified investigator may file an application with the district court within 30 days of service of a department notice pursuant to Iowa Code sections 252J.8 and 252J.9.

(1) The filing of the application shall stay the department action until the department receives a court order lifting the stay, dismissing the action, or otherwise directing the department to proceed.

(2) For purposes of determining the effective date of the revocation, or denial of the issuance or renewal of a certification, the department shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

f. The department shall notify the applicant or certified investigator in writing through regular first-class mail, or such other means as the department deems appropriate in the circumstances, within ten days of the effective date of the revocation of certification or the denial of the issuance or renewal of a certificate of adoption investigator, and shall similarly notify the applicant or certified investigator when the certificate is issued, renewed, or reinstated following the department's receipt of a withdrawal of the certificate of noncompliance.

g. Notwithstanding Iowa Code section 17A.18, the registrant does not have the right to a hearing regarding this issue, but may request a court hearing pursuant to Iowa Code section 252J.9.

441—107.5(600) Granting, denial, or revocation of certification.

107.5(1) Granting of certification. When all of the requirements of this chapter are met, certification shall be granted.

107.5(2) Denial or revocation of certification.

a. Certification or recertification shall be denied or revoked when one or more of the following conditions exist:

(1) The applicant does not comply with the requirements listed in subrules 107.4(1), 107.4(2), and 107.4(4), and rules 441—107.9(600) and 441—107.10(600).

(2) The applicant does not provide information required in subrule 107.4(3).

(3) The applicant has willfully or knowingly misrepresented information regarding qualifications for certification.

(4) When information about the certified investigator is received and verified by the department of inspections and appeals such as, but not limited to, failure to carry out the activities and duties as stated in this chapter, charging fees in excess of those specified in subrule 107.8(5) and breaches of confidentiality, and the effect of the investigator's actions would be detrimental to any of the parties to the adoption. Complaints involving the reasonable exercise of professional judgment in the denial or approval of a preplacement investigation are not grounds for decertification.

(5) The investigator, after being warned in writing by the licenser, provided incomplete or inadequate information or inaccurate information in required reports as described in rule 441—107.8(600).

(6) The applicant has a founded child abuse or criminal record conviction unless an evaluation of the founded abuse or criminal conviction is conducted by the department of inspections and appeals which concludes that the abuse or crime does not merit prohibition of certification.

(7) The investigator aids or participates in an illegal placement or violates the statutes of Iowa Code chapter 600.

b. If an applicant is denied certification or recertification based on an inability to meet the requirements of subrule 107.4(1), 107.4(2), 107.4(3), 107.4(4), 107.4(5), or 107.4(6), the applicant may reapply when the requirements for certification have been met.

c. Rescinded IAB 8/12/98, effective 10/1/98.

441—107.6(600) Certificate.

107.6(1) Contents. Form SS-1204-0, Certificate of Adoption Investigator, shall contain the name of the investigator and the expiration date of the certificate and be signed by a person designated by the director of the department.

107.6(2) Time limit. The investigator shall be certified for two years. Certification shall expire at the end of two years unless the investigator has made timely application for recertification. No provisional certificates shall be issued.

107.6(3) Records of certifications.

a. The department shall keep records of certifications including the application and verifications.

b. The department shall keep an alphabetical list of certified adoption investigators by districts and shall update the list at least semiannually. Lists of certified adoption investigators shall be furnished to all district offices of the department and to any person who requests a list.

441—107.7(600) Renewal of certification.

107.7(1) Request for renewal. A currently certified investigator who wishes to be recertified shall notify the department in writing at least 30 days but no more than 60 days prior to the expiration of the certificate. To be recertified, the person shall submit a new application on Form SS-6105-0, Application for Certification of Adoption Investigator. If no application is submitted, the certification shall expire.

107.7(2) Evaluation of investigator. Upon receipt of the request for recertification, the department investigators' records shall be reviewed and evaluated by the licenser to determine whether the requirements of these rules have been met. This evaluation shall include the review of 20 percent, or no fewer than four, of the adoption records opened since the last review for certification and the fees assessed clients. Reports of investigations shall be available to the licenser during the review for recertification, or at any other time upon request by the licenser.

When deficiencies are noted at the time of review, the investigator shall be given 7 to 30 days to meet the standards set forth in 441—Chapter 107. The deficiencies shall be noted in writing and the investigator shall sign a statement that includes agreement to the following:

a. The deficiencies noted by the licenser, including the areas of 441—Chapter 107 which are not met.

b. A plan for correcting the deficiencies.

c. The date by which the deficiencies will be corrected.

When the deficiencies are corrected within the time frame granted, the certificate will be renewed. Deficiencies not corrected within the allowed time frame are grounds for revocation of the investigator's certificate.

107.7(3) Notification. The department shall notify the investigator of the decision regarding the initial application, and any applications for recertification, within 60 days of receipt of the application. When the request for recertification is not received prior to the date of expiration, the department shall notify the investigator that the certification has expired.

441—107.8(600) Investigative services.

107.8(1) Preplacement investigations. When an adoption investigator provides a preplacement investigation of a prospective adoptive family, the investigation shall meet the requirements of Iowa Code section 600.8(1) "a," including an assessment of the family's ability to parent a child.

a. The preplacement investigation shall include at a minimum two contacts, one face-to-face interview with the applicants and each member of the household and at least one home visit.

b. The investigator shall have on file a written assessment of the family which shall be used to approve or deny a prospective adoptive family. The written assessment (home study) shall include the date the home study was completed, shall be signed by the investigator and the signature notarized. The assessment shall include the following:

- (1) Motivation for adoption and whether the family has biological, adopted, or foster children;
- (2) Family and extended family's attitude toward accepting an adopted child, and plans for discussing adoption with the child;
- (3) The attitude towards adoption of significant other people involved with the family;
- (4) Emotional stability, marital history and assessment of marital relationship, including verification of marriages and divorces, and compatibility of adoptive parent(s);
- (5) Ability to cope with problems, stress, frustrations, crises, separation, and loss;
- (6) Medical conditions which would affect the applicant's ability to parent a child;
- (7) Ability to provide for the child's physical and emotional needs;
- (8) Adjustment of biological children and previously adopted children, if any, including their attitudes towards adoption, adjustments in the family and in school;
- (9) Capacity to give and receive affection;
- (10) Statements from at least three references provided by the family and other unsolicited references;
- (11) Attitudes of the adoptive applicants towards the birth parent(s) and the reason(s) the child is available for adoption;
- (12) Income information;
- (13) Disciplinary practices that will be used;
- (14) History of abuse by family members and treatment;
- (15) Assessment of commitment to and capacity to maintain other significant relationships;
- (16) Substance use or abuse by family members and treatment; and
- (17) Recommendations for type of child, number, age, sex, characteristics, and special needs of children best served by this family.

c. Record checks. The certified adoption investigator shall submit record checks for each applicant and for any other adult living in the home of the applicant to determine whether they have founded child abuse reports or criminal convictions. Form 470-0643, Request for Child Abuse Information, and Form 595-1396, Request for Non-Law Enforcement Record Check, shall be used for this purpose.

If there is a record of founded child abuse or a criminal conviction for the applicant, or any other adult living in the home of the applicant, the applicant shall not be approved as an adoptive family, unless an evaluation determines that the abuse or criminal conviction does not warrant prohibition of approval.

EXCEPTION: The person making the investigation shall not approve a prospective applicant and shall not perform an evaluation if the applicant or any other adult living in the home of the applicant has been convicted of a felony offense as set forth in Iowa Code section 600.8(2) "b." The person making the investigation shall not approve a prospective applicant and shall not perform an evaluation if the

applicant or any other adult living in the home of the applicant has committed a crime in another state that would be a forcible felony if the crime would have been committed in Iowa, as set forth in Iowa Code section 600.8(2)“b.”

The evaluation shall consider the nature and seriousness of the abuse or crime, the time elapsed since the commission of the founded abuse or crime, the circumstances under which the abuse or crime was committed, the degree of rehabilitation, the likelihood that the person will commit the abuse or crime again, and the number of abuses or crimes committed by the person. The person with the founded child abuse or criminal conviction report shall complete and return Form 470-2310, Record Check Evaluation, within ten calendar days of the date on the form to be used to assist in the evaluation. Failure of the person to complete and return Form 470-2310 within the specified time frame shall result in denial of approval for adoption.

(1) If the applicant or any other adult living in the home of the applicant has been convicted of a simple misdemeanor or a serious misdemeanor that occurred five or more years prior to application, the evaluation and decision may be made by the certified adoption investigator. The certified adoption investigator shall notify the applicant of the results of the evaluation using Form 470-2386, Record Check Decision.

(2) If the applicant or any other adult living in the home of the applicant has a founded child abuse report, has been convicted of an aggravated misdemeanor or felony at any time, or has been convicted of a simple or serious misdemeanor that occurred within five years prior to application, the evaluation shall be initially conducted by the certified adoption investigator.

1. If the certified adoption investigator determines that the abuse or crime does warrant prohibition of approval, the certified adoption investigator shall notify the applicant of the results of the evaluation using Form 470-2386, Record Check Decision.

2. If the certified adoption investigator believes that the applicant should be approved despite the abuse or criminal conviction, the certified adoption investigator shall provide copies of the child abuse report or criminal history record, Form 470-2310, Record Check Evaluation, and Form 470-2386, Record Check Decision, to the Department of Human Services, Administrator, Division of Adult, Children and Family Services, Hoover State Office Building, Des Moines, Iowa 50319-0114. Within 30 days the administrator shall determine whether the abuse or crime merits prohibition of approval and shall notify the certified adoption investigator in writing of that decision. The certified adoption investigator shall mail the applicant Form 470-2386, Record Check Decision, when a decision is reached regarding the evaluation of an abuse or crime, or when an applicant fails to complete the evaluation form.

(3) The child abuse and criminal record checks shall be repeated and any founded abuses or convictions of crimes since the last record check shall be evaluated using the same process during the home study update required by Iowa Code section 600.8.

d. Home study updates are required if the home study was written more than one year previously, in accordance with Iowa Code section 600.8. The home study update shall consist of completing the following:

(1) The child abuse and criminal record checks shall be repeated and if there are new founded abuses or conviction of crimes that were not evaluated in the previous home study they shall be evaluated using the process set forth in 107.8(1)“c.”

(2) One face-to-face visit shall be conducted with the approved family.

(3) The information in the approved home study shall be reassessed.

(4) An updated report of the reassessment and adoptive home study shall be written, dated, signed and notarized and a copy provided to the family.

107.8(2) Background information investigation. When an adoption investigator completes a background information investigation on the child to be adopted at the request of the placer, the investigation shall include a complete family medical and mental health history and developmental history of the child to be adopted. A personal interview with each parent of the child must be completed unless a parent’s identity or whereabouts is unknown.

107.8(3) *Postplacement investigation.* When an adoption investigator completes postplacement supervision, at least three visits to the adoptive family's home and personal observation of the child are required.

a. Postplacement reports are to be written after each postplacement visit and copies kept in the permanent family file retained by the investigator.

b. Postplacement supervision should assess the placement in the following areas:

- (1) Integration and interaction of the child with the family.
- (2) Changes in the family functioning which may be due to the child's placement.
- (3) Social, emotional and school adjustment of the child.
- (4) Changes that have occurred in the family since placement of the child.
- (5) The family's method of dealing with testing behaviors and discipline.

c. Home visits shall be completed at a minimum as follows:

- (1) One no later than 30 days after placement.
- (2) One no later than 90 days after placement.
- (3) A final visit prior to requesting a consent to adopt. Home visits shall be completed as often as necessary if the adoptive family is experiencing problems.

d. A report based on the postplacement visits with recommendations regarding the finalization of the adoption shall be submitted to the court.

107.8(4) *Reports of investigations.* The adoption investigator is authorized to provide reports to the courts concerning the above investigations and reports to the guardian or custodian of the child and the attorney for the adoptive family.

107.8(5) *Fees for services.* Certified investigators may charge a fee for the services described in subrules 107.8(1), 107.8(2), and 107.8(3). The licensor shall review the amount of fees for services charged to families at the time that the investigator's records are reviewed for recertification. Information shall also be retained regarding fees charged to a family by another party and collected by the investigator.

441—107.9(600) *Retention of adoption records.* The adoption investigator shall maintain a record of each family or child when one or more of the required reports have been completed. The record shall contain copies of all completed reports and a statement of fees charged by the investigator.

107.9(1) *Access to records.* The provisions regarding sealing of and access to adoption records in Iowa Code section 600.16 shall be followed, except that access under subrule 107.9(3) for recertification is permitted.

107.9(2) *Disposition of records.* Upon revocation, denial of renewal, or expiration of certification, all sealed records held by investigators shall be forwarded to the department.

107.9(3) *Access for recertification.* Authorized representatives of the department shall have access to all records of reports completed within a two-year period prior to recertification for purposes of recertification. Authorized representatives shall respect the confidential nature of these records.

441—107.10(600) *Reporting of violations.* All violations or suspected violations under Iowa Code chapter 600 or 600A which come to the attention of the investigator shall be reported in writing to the district court having jurisdiction of the matter and to the department of human services. The investigator shall maintain copies of these written reports to the court and the department.

441—107.11(600) *Appeals.* Certified investigators or applicants may appeal decisions of the department according to rules in 441—Chapter 7.

These rules are intended to implement Iowa Code chapter 600.

CHAPTER 108
LICENSING AND REGULATION OF CHILD-PLACING AGENCIES

[Prior to 7/1/83, Social Services [770] Ch 108]

[Prior to 2/11/87, Human Services [498]]

PREAMBLE

This chapter establishes licensing procedures for all child-placing agencies authorized by Iowa Code chapter 238. Included in this chapter are rules relating to: the licensing process; administration and organization; foster care services; adoption services; and supervised apartment living services.

441—108.1(238) Definitions.

“Administrator” means the person who is designated to have day-to-day responsibility for the administration of a child-placing agency, and who ensures that the mission of the agency and laws relating to the welfare and protection of children are carried out.

“Adoptive applicant” means the person who has requested approval for placement of a child for adoption from a licensed child-placing agency.

“Adoptive family” means an approved person or persons who have a child placed in their home for the purpose of adoption and are being supervised by the agency or who have a child in their home who has been legally adopted and is entitled to the same benefits as a child born to the parents.

“Approved living arrangement” means that the living situation shall be located so as to provide reasonably convenient access to schools, places of employment, or services required by the youth, comply with applicable state and local zoning, fire, and sanitary regulations, and be reasonably priced so as to fit within the youth’s budget.

“Caseworker” means the person who works directly with children, their families, and other relevant individuals and who has primary responsibility for the development, implementation, and review of the agency’s service plans for the child and parents; or who completes foster care or adoptive family home studies or supervises foster family or adoptive placements; or who supervises children placed in approved supervised apartment living arrangements.

“Child” shall mean the same as defined by Iowa Code section 234.1.

“Child-placing agency” means an agency organized within the state of Iowa for the purpose of receiving minor children for placement, supervision, or both in private family homes for foster care; or for adoption; or the placement, supervision, or both of children who are 16 years of age and older living in approved supervised apartment living placements.

“Department” means the department of human services.

“Parent” means custodial and noncustodial parent.

“Safety-related information” means information that indicates whether the child has behaved in a manner that threatened the safety of another person, has committed a violent act causing bodily injury to another person, or has been a victim or perpetrator of sexual abuse.

“Sibling” means two or more persons having at least one common parent.

“Supervised apartment living placement” means the placement of a child who is at least 16 years of age in an approved living arrangement which provides an environment in which the child can experience living in the community with minimum supervision.

“Volunteer” means any nonpaid person who donates time to an agency, either in working with an individual or groups of clients. A volunteer may also be a student intern.

441—108.2(238) Licensing procedure.

108.2(1) Right to apply. Any person or agency has the right to make application for a child-placing license. When applying for a child-placing license, the applicant shall indicate the services for which licensure is being requested.

108.2(2) Application. An agency or person applying for a license shall complete Form 470-0723, Application for License or Certificate of Approval. The application shall be completed and signed by the administrator or the appropriate officer and submitted to the department.

a. The applicant shall report withdrawal of an application to the department within 30 days of the withdrawal decision.

b. Each application shall be evaluated by the department to ensure that all requirements are met.

c. The applicant shall provide requested reports and information relevant to the licensing determination to the department.

108.2(3) *Applications for renewal.* Applications for renewal shall be made to the department at least 30 but no more than 90 days before expiration of the license.

108.2(4) *Notification.* Agencies shall be notified of approval or denial within 90 days of application or reapplication.

108.2(5) *Certificate of license.* The department shall issue or renew Form 470-3623, Certificate of License, every three years, without cost, to any child-placing agency which meets the minimum requirements applicable to child-placing agencies as defined by Iowa Code chapter 238 and this chapter. The license shall be posted in a conspicuous place on the licensed premises.

108.2(6) *Provisional license.* A provisional license may be issued to an agency which does not meet all licensing requirements when the failure to meet all licensing requirements does not pose a danger to the health, safety, or well-being of the children being served. It is issued until the agency meets all requirements, up to a maximum time period of one year. A provisional license is issued when the applicant has signed a written statement which includes the following:

a. The deficiencies necessitating the provisional license, including the specific requirements which are not met.

b. A plan for correcting the deficiencies.

c. The date by which the requirements will be met.

108.2(7) *Suspension of a license.* The suspension of a child-placing license prohibits the agency from engaging in any child-placing activities during the period of the suspension. The department shall suspend a license when the agency's failure to meet the requirements poses a danger to the health, safety, or well-being of the children being served. The suspension of a license shall not extend beyond 12 months, and the existence of the condition requiring suspension shall be corrected within a year and documented in the agency's record.

The agency shall submit a written statement for approval by the department. The statement shall include the following:

a. The deficiencies necessitating the suspended license, including the specific requirements which are not met.

b. A plan for correcting the deficiencies.

c. The date by which the requirements will be met.

108.2(8) *Completed corrective action.* When the corrective action plan is completed on or before the date specified on the provisional license or notice of suspension, a full license shall be issued for the remainder of the licensing period.

108.2(9) *Denial or revocation of a license.* The department shall deny an application or reapplication for a license or revoke a license when the applicant fails to meet the licensing requirements or when any of the following conditions exist:

a. The agency is operating without due regard to the health, safety, and well-being of the children being served.

b. A provisional license is not approved.

c. The recipient of a provisional license fails to complete the corrective action plan within the time allowed.

d. An agency with a suspended license fails to complete the corrective action plan on time and a provisional license is not appropriate.

e. The agency misuses public funds.

f. The agency refuses to cooperate with child protective investigations involving children placed by the agency.

g. The agency continuously and significantly violates licensing requirements.

108.2(10) Method and content of notice. The notice of denial, revocation, or suspension shall be sent by restricted certified mail and shall include the following:

- a. A specific description of the condition requiring the suspension, denial or revocation.
- b. The specific laws or rules violated.
- c. The effective date of denial, revocation or suspension.

108.2(11) Right to appeal. Any agency which disagrees with the department's licensing decision may appeal to the department. The appeal shall be filed within 30 days of receipt of the licensing decision.

441—108.3(238) Administration and organization.

108.3(1) Statement of purpose. The agency shall have a written statement of its child-placing philosophy, purpose, and program. The statement shall contain a description of services and methods for service delivery and a description of the persons for whom the services will be provided. The statement shall be available to the public.

108.3(2) Governing board. The agency shall have a governing board which, together with the executive, shall be responsible for making policy and for financing and general management of the agency. The governing board may be either the board of directors or the owners of the agency. If the governing board is a board of directors, the following rules shall apply:

- a. The agency shall provide for continuity of board membership.
- b. The board shall meet regularly for the purpose of ensuring the proper operation of the agency and fulfilling its responsibilities.
- c. The minutes of each meeting of the board shall be kept and made a part of the permanent record of the agency.

108.3(3) Annual report. A child-placing agency shall require the administrator to submit a written annual report of the agency's activities. The report shall include fiscal and statistical sections indicating receipts and disbursements, number of clients served, and programs. The annual report shall be available to the department.

108.3(4) Table of organization. A table of organization, including the identification of lines of responsibility and authority for policy making and service to clients, shall be available to agency staff and to the department.

108.3(5) Finances. The licensee shall:

- a. Annually develop and implement a plan of financing which is necessary for the operation of the agency in carrying out its programs, ensuring proper care for children, and meeting requirements for licensing.
- b. Annually provide either an audit or a detailed financial statement prepared by an independent fiscal agency that provides a review of receipts and disbursements and a statement of fund balances.
- c. Retain fiscal records for five years.

108.3(6) Employment of administrator. The agency shall employ a qualified administrator and shall delegate to the administrator the responsibility for the administration of the agency. The administrator shall ensure that the mission of the agency and laws relating to the welfare and protection of children are carried out.

108.3(7) Office space, equipment and supplies. The agency shall provide and maintain sufficient office space, equipment, and supplies to ensure delivery of services.

441—108.4(238) Staff qualifications. An agency employee or volunteer shall be a person of good character, emotional stability, and have necessary ability, experience, and education to perform the duties assigned. An employee or volunteer shall not have a criminal record or founded child abuse report, unless the department has evaluated the crime or founded report and concluded that the crime or report does not merit prohibition of employment or licensure.

108.4(1) Contracted employees. A child-placing agency which contracts for services shall ensure that contracted employees meet the same qualifications, training, and evaluation requirements as those of workers in employed positions. A child-placing agency is responsible for the services provided by contracted providers as well as volunteers and agency employees.

108.4(2) *Qualifications of administrator.* An agency administrator shall possess one of the following:

a. A master's degree in social work, sociology, psychology, guidance and counseling, a related area of human services, education, business administration, or public administration and two years of experience in a public or private social services agency.

b. A bachelor's degree in social work, sociology, psychology, guidance and counseling, a related area of human services, education, business administration, or public administration and four years of experience in a public or private social services agency.

108.4(3) *Caseworker qualifications.* Therapy and counseling services, psychosocial evaluation and assessment and care plan development shall be provided by staff who meet one of the following minimum education and experience criteria:

a. Graduation from an accredited four-year college or university and the equivalent of three years of full-time experience in social work or experience in the delivery of human services in a public or private agency. In addition, these individuals shall have been employed by the agency prior to September 1, 1993. Persons meeting this criterion will not be qualified to provide therapy and counseling if they change place of employment.

b. Graduation from an accredited four-year college, institute or university with a bachelor's degree in social work from a program accredited by the council on social work education.

c. Graduation from an accredited four-year college or university with a bachelor's degree in a human service field related to social work and the equivalent of two years of full-time experience in social work or experience in the delivery of human services in a public or private agency.

d. Graduation from an accredited four-year college or university with a master's degree in social work or related human service field.

e. Any equivalent combination of graduate education in the social or behavioral sciences from an accredited four-year college or university and qualifying experience up to a maximum of 30 semester hours for one year of the required experience.

108.4(4) *Person filling more than one position.* A person functioning in more than one position specified by these rules shall meet the requirements for each of the positions the person fills.

441—108.5(238) Staffing requirements.

108.5(1) *Number of staff.* The agency shall employ a sufficient number of competent staff to perform duties as required by licensing rules for those programs operated by the agency. This shall include the following:

- a.* Administration of services offered by the agency.
- b.* Selection and appointment of qualified staff.
- c.* Provision for staff training.

108.5(2) *Staffing caseload.* The agency shall develop a written policy regarding a staffing ratio based on the workload necessary to provide services in accordance with the agency's program statements. The staffing ratio shall take into consideration all of the following:

- a.* Qualifications of the caseworkers.
- b.* Types of children served and their special needs.
- c.* Types and intensity of services to be provided.
- d.* Distances involved in provision of services.
- e.* Other functions or responsibilities of the caseworkers.

441—108.6(238) Personnel administration.

108.6(1) *Personnel policies.* An agency shall develop personnel policies in writing that identify responsibilities of the organization and staff. The policies shall specify hours of work, grievance procedures, sick leave, vacation and all other benefits. A copy of the policies shall be made available to the employee at time of hire.

108.6(2) *Job description and evaluation.* There shall be a written job description for each employee, volunteer, and contracted position identifying duties, qualifications, education, training requirements,

and lines of authority. A copy shall be made available to the employees, volunteers, and contracted workers. There shall be a written evaluation of an employee's or contracted worker's performance within six months of being hired or contracted, and annually thereafter.

108.6(3) Staff training. An agency shall provide orientation training on the agency's purpose, policies and procedures within one month of hire and 24 hours of training in the first year of employment for all employed and contracted casework staff. The 24 hours of training shall include: training on family foster care services, adoption services, supervised apartment living services, or children and families' mental health topics, and 2 hours of training related to the identification and reporting of child abuse for all employed or contracted casework staff in accordance with Iowa Code section 232.69. An agency shall provide 12 hours of training per year after the first year of employment for all employed or contracted casework staff. The 12 hours of training shall include: training on family foster care services, adoption services, supervised apartment living services, or children and families' mental health topics and child abuse training every five years in accordance with Iowa Code section 232.69.

The training formats that shall qualify as training are as follows: in-service training, seminars, conferences, workshops, institutes, visiting other facilities, and meeting with consultants.

The training provided shall be documented. The documentation shall include the training topic, format, date and number of hours.

108.6(4) Volunteers. An agency which utilizes volunteer or student intern staff to work directly with a particular child or group of children shall have a written plan for using these volunteers. This plan shall be given to all volunteer staff and shall indicate that all volunteers are:

- a. To be supervised directly by a paid staff member.
- b. To be trained and oriented in the philosophy of the agency, the needs of the clients being served, and the methods of meeting these needs.
- c. To be subject to the character and reference disclosure and checks required of employed and contracted applicants and employees.
- d. To be subject to the same confidentiality rules as paid or contracted staff.
- e. To assist and supplement paid staff only, and not replace them.

108.6(5) Personnel records. A confidential personnel record shall be maintained for each employee, contracted agent, and volunteer. The record shall contain all of the following information:

- a. Name and address.
- b. Record of training sessions attended, including dates and content of training.
- c. Record of criminal convictions and the department's evaluation of same.
- d. Record of founded child abuse reports and the department's evaluation of same.

441—108.7(238) Foster care services.

108.7(1) Program statement. An agency authorized to place children in foster care shall have a current written program statement. This statement shall be made available to all agency foster parents, foster children, their parents, referring agencies, and all persons making formal inquiry regarding foster care. The program statement shall include all of the following:

- a. Types of foster care provided.
- b. Types of children accepted for foster care.
- c. Types of services provided to the children, their families, and their foster families.
- d. Fees and application costs, if any.
- e. A statement informing applicants of the right to appeal the agency's decision regarding nonapproval of the family for placement of a child for foster care.

108.7(2) Agency's authorization to place. The agency shall obtain a signed placement agreement from the child's custodial parent or legal custodian within 48 hours of placement.

108.7(3) Preplacement documentation. Except for emergency placements, a child shall be placed in the agency's foster care program only after the agency determines that its foster care program is an appropriate resource.

108.7(4) *Placement of siblings.* Preference shall be given to placing children from the same family together. If this is not in the best interest of the child, the reasons shall be documented in the child's record.

108.7(5) *Consideration of racial and cultural identity.* Race, color, or national origin may not be routinely considered in placement selections. Placement decisions shall be made consistent with the best interests and special needs of the child.

108.7(6) *Placement preparation.* An agency shall document the preparation for each child placed in foster care. Preparation shall be appropriate to the child's age, individual needs, the circumstances requiring placement, and the special problems presented. Preparation activities shall, when possible, include:

- a. Face-to-face visits.
- b. A description provided to the child of the foster family.
- c. A description of the child's strengths and needs and safety-related information provided to the foster family. Safety-related information shall be withheld only if:
 - (1) Withholding the information is ordered by the court; or
 - (2) The department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.
- d. Any other activities deemed significant.

108.7(7) *Initial placement outline.* If a placement outline is not in the child's case permanency plan, a brief outline documenting all of the following shall be entered in the child's case record within five working days after placement:

- a. Name, birthdate, sex, race, and other significant identifying information.
- b. Date of placement.
- c. Name and address of parents or legal guardian.
- d. Names and whereabouts of siblings.
- e. Religious preference.
- f. Immediate and significant health needs including the child's physical and emotional state at the time of placement.
- g. The circumstances leading to the need for foster care.
- h. Known previous out-of-home placements.
- i. The immediate needs of the child and parents and services to be provided to meet these needs.
- j. The name, address, and telephone number of the referring agent or worker.

108.7(8) *Education.* Within ten school days of placement, provisions shall be made by the agency for enrollment of each child of school age into a school program.

108.7(9) *Clothing.* An agency shall make provisions for adequate and individualized clothing for each child admitted into foster care.

108.7(10) *Monthly visit.* Each child in care shall be personally visited by the assigned caseworker at least once a month.

108.7(11) *Parent and child contact.* Provisions for contact between parents and children shall be made except where the parental rights have been terminated or where the court has determined that visits or contact are detrimental to the child.

- a. If the mother is breastfeeding the child:
 - (1) An assessment shall be made whether continuation of breastfeeding is in the best interest of the child; and
 - (2) A plan shall be developed to support the mother's breastfeeding efforts, if appropriate.
- b. The parents and child shall be informed of the contact plan in a manner consistent with their capacity to understand.

108.7(12) *Health and dental program.* An agency shall provide for a complete health and dental program for each child. An agency shall have a written procedure for handling medical emergencies on a 24-hour basis. A copy of the procedure shall be given to each foster home.

- a. The agency shall obtain written authorization from the parent or legal guardian to provide medical, psychiatric, dental, anesthesia, immunization, substance abuse evaluation, and emergency

surgical treatment. Only the parent or legal guardian shall consent to nonemergency surgery, unless ordered by court. If the child's parent prohibits medical examination, immunization, or treatment based on religious grounds, the agency shall obtain a signed statement from the parent that specifies the prohibitions. In potentially life-threatening situations, the agency shall refer the child's care to appropriate medical and legal authorities.

b. A child shall have a physical examination at least annually. This shall be performed by a licensed physician, physician's assistant or licensed nurse practitioner.

c. A child shall have current immunizations as required by the department of public health. If documentation of prior immunization is unavailable, immunizations shall begin within 30 days of placement, unless contraindicated and unless a statement from a physician to that effect is included in the child's medical record. A statement from physician, referring agency, parent, or guardian indicating immunizations are current is sufficient documentation of immunizations.

d. An agency shall provide for dental examinations and treatment; the initial referral at 12 months of age, the next at 24 months of age, then every 6 months.

e. A health record shall be maintained for each child and shall include all of the following:

(1) Authorization for medical care.

(2) A medical history and copies of required physical examinations.

(3) A record of medical and dental care, treatment and prescribed medication, immunizations, accidents requiring medical treatment, and hospitalizations. At the time of discharge from agency foster care, a summary of this record shall be provided to the legal custodian. Information about drug evaluation or treatment, venereal disease tests, HIV tests, and pregnancy tests shall be excluded.

108.7(13) *Service plan development and review.* The provider shall develop and revise service plans for each child in placement. An initial service plan shall be developed within 30 calendar days of placement in foster care. The provider shall identify qualified persons to monitor the services identified in the service plan to ensure that the plan continues to be necessary, appropriate, and addresses the permanency goal. Service plans shall be developed and reviewed as follows:

a. The service plan shall be developed and revised in collaboration with the referral worker, child, family, and the foster parents unless the service plan contains documentation for the treatment rationale for the lack of involvement of one of these parties. The provider shall document the dates and content of the collaboration on the initial and revised service plans. The provider shall provide a copy of the initial and revised service plans to the child's parent and the referring agency, unless otherwise ordered by the court. The initial and revised service plan shall identify the following:

(1) Strengths and needs of the child and parents.

(2) Goals, which are statements of outcomes to be achieved in meeting the needs of the child including the child's permanency needs.

(3) Objectives, which are specific, measurable and time-limited statements of indicators, levels of competence, or accomplishments which are necessary for progress toward each goal.

(4) Specific treatment service activities to be provided to achieve the objectives.

(5) Designation of the persons responsible for providing the services.

(6) Date of initiation and service plan development.

(7) Anticipated duration of services.

b. All service plans shall be reviewed 90 calendar days from the initiation of services and every 90 calendar days thereafter for the duration of the services or when the needs of the child or the services necessary for the parents to meet the needs of the child have changed and these changes significantly affect goals, objectives and service activities. The review shall determine if the services continue to be necessary, appropriate and consistent with the child's permanency goal. The reviewer shall revise the service plan to reflect the services that are necessary, appropriate, and consistent with the child's permanency goal.

108.7(14) *Information for foster parents.* At the time of placement, an agency shall provide foster parents with all of the following if known:

a. Name of the child, agency caseworker, and referring agency.

b. Information about the child's known behavioral characteristics including safety-related information, needs, and plans for the child and family. Safety-related information shall be withheld only if:

- (1) Withholding the information is ordered by the court, or
- (2) The department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.

c. Written consent to obtain routine, nonsurgical medical care and to authorize emergency medical and surgical treatment, anesthesia, and immunizations for each child placed in the foster home.

d. A copy of the child's current physical examination and medical history when completed.

As this information becomes available to the agency, foster parents shall be informed immediately.

108.7(15) Religious policy. The agency shall have a written policy on religious participation and training for foster children. The agency shall provide the policy to parents and foster parents and shall ensure that the policy is adhered to in each foster home.

108.7(16) Mail. There shall be a written policy which ensures that foster children are permitted to send and receive mail, unless documented that this practice is contraindicated.

108.7(17) Allowance policy. An agency shall have a written policy addressing payment of and accounting for personal allowances for foster children.

108.7(18) Reporting hospitalization or death of child. Any serious injury or illness requiring hospitalization of a child in care shall be reported to the parent and the responsible agency as soon as possible. Efforts to notify parents and responsible agency staff shall be documented in the child's record. The death of a child shall be reported immediately to the parent or next of kin and to the referring agency.

108.7(19) Foster care records. The agency shall maintain confidential individual records for each child placed in a foster home. The record shall include:

- a. The initial placement outline. (Refer to subrule 108.7(7).)
- b. All legal documents pertaining to the child.
- c. The child's health record, including psychological and psychiatric reports.
- d. The summary narrative which reflects the dates and content of the caseworker's contact regarding the child.
- e. Educational records and reports.
- f. All service plans developed by the agency.
- g. Case permanency plans developed by the referring agency.
- h. A record of foster placements made by the agency including foster parents' names and addresses and dates of placements.

108.7(20) Termination of foster care. When a foster care placement is terminated, all of the following information shall be documented in the child's record within 30 days:

- a. Reason for termination.
- b. Current location of the child, unless the child was placed for adoption. In that case the record shall state only that the child was placed for adoption and shall not disclose the identity of the adoptive family unless the adoptive family agrees to disclosure of identity prior to finalizing of adoption.
- c. Steps remaining to achieve permanency plan goal.
- d. Provisions for follow-up, if any.
- e. For unplanned terminations, a summary explaining the circumstances.

441—108.8(238) Foster home studies. The agency shall provide information to prospective foster parents about foster care, agency policies, licensing requirements for foster care, the children needing foster care, the licensing process and the reimbursement rates.

108.8(1) Licensing procedures.

a. Availability of applications. The agency may provide Form 470-0689, Foster Family Home License Application, to anyone requesting to be licensed.

b. Licensing study. The agency may complete a licensing study of the family.

c. New applications. If the child-placing agency decides to complete the initial licensing study, the agency shall submit to the department all documents and information required by 441—Chapter 113 pertaining to the licensing and regulation of foster family homes. This shall include a narrative evaluation of the foster family home which reflects a thorough study of each foster family. The narrative shall document at least two face-to-face interviews with the prospective foster family and at least one face-to-face interview with each member of the household before the placement of a child. At least one interview shall take place in the applicant's home. The narrative summary of the family study shall assess all of the following:

- (1) Motivation for foster care.
- (2) Family's and extended family's attitude toward accepting foster children.
- (3) Family's attitude toward foster children's parents.
- (4) Emotional stability, physical health, and compatibility of foster parents, and ways they cope with change and stress.
- (5) Adjustment of own children, if any.
- (6) Assessment of the child-caring skills, including disciplinary techniques used.
- (7) Strengths and weaknesses of each member of the household.
- (8) Types of children desired.
- (9) Type of children, if any, for whom placement with the family would be appropriate.
- (10) Recommendation as to the number, age, sex, characteristics, and special needs of children best served by this family.
- (11) Assessment of the need for training and a plan for providing the needed training.
- (12) Any other pertinent information that might assist the agency in making the licensing recommendation.

(13) Record checks. The licensed child-placing agency shall submit record checks for each applicant and for anyone who is 14 years of age or older living in the home of the applicant to determine whether they have any founded child abuse reports or criminal convictions or have been placed on the sex offender registry. The licensed child-placing agency shall use Form 470-0643, Request for Child Abuse Information, and Form 595-1396, DHS Criminal History Record Check, Form B, for this purpose. Each person subject to record checks shall also be fingerprinted for a national criminal history check. The department's contractor for the recruitment and retention of resource families shall assist applicants in completing required record checks, including fingerprinting. Any criminal or abuse records discovered shall be evaluated according to the procedures in rule 441—113.13(237).

- (14) Health of foster parents and impact of medical conditions on their ability to foster a child.
- (15) Income information.
- (16) Documentation that at least three references have been received and the responses reviewed.

108.8(2) Licensing decision. The department shall make the licensing decision and notify the applicant and the child-placing agency within 30 days of the licensing decision. In no case shall a child be placed in a foster home before licensing approval.

a. A full license shall be issued to foster families meeting all necessary criteria for a full licensure.

b. A provisional license may be issued for up to one year if the foster family fails to meet all requirements for licensure. When an agency recommends, because of rule violation, that a foster home receive a provisional license at the time the license is issued or renewed, the agency shall document the violation in the foster home file, and shall send the following to the department:

- (1) A copy of the assessment of the rule violation and recommendation.
- (2) A copy of the foster home's plan to achieve rule compliance within stipulated time frames.

c. When an agency recommends that a foster home license be denied or revoked, the agency shall send the following documents to the department:

- (1) A copy of the assessment of rule compliance and the foster family's reaction to the assessment.
- (2) The agency's recommendation and supporting rationale.
- (3) Other appropriate documents supporting the findings.

108.8(3) Reapplications. At least 30 days before the expiration of the license, the agency shall submit all documents and information required by 441—Chapter 113 pertaining to the licensing and

regulation of foster family homes. This shall include an update of the narrative noting any changes that may have occurred in the foster family's living arrangement or life style and any other pertinent information that might assist in making the licensing decision, including an assessment of the foster family's ability to provide foster care.

108.8(4) *Unannounced visits.* The agency shall conduct at least one annual unannounced visit to each licensed foster family home the agency inspects to meet the requirements of Iowa Code section 237.7.

108.8(5) *Complaints.* When an agency receives a complaint which may indicate possible violation of the foster care licensing rules, the agency shall, within five working days of receiving the complaint, either conduct an investigation to assess compliance with applicable rules or refer the complaint to the department for investigation. If the agency conducts the investigation, the agency shall submit a written report of the investigation to the department within ten working days of receiving the complaint with a statement of rule violation and a recommendation regarding the license of the foster family home. The written report shall be filed in the foster parents' file.

108.8(6) *Foster family training.* The agency shall ensure that each foster home recommended for foster family license has complied with the training requirements in 441—113.8(237).

Within six months of licensure and every five years thereafter, each foster parent shall obtain mandatory reporter training relating to identification and reporting of child abuse.

108.8(7) *Placement agreement.* When a child is placed with a foster family, the agency shall have a signed agreement with each foster family home including the expectations and responsibilities of both the agency and the foster family, the services to be provided, and the financial arrangements for children placed in the home.

108.8(8) *Foster family home records.* The agency shall keep separate records for each foster family home. The agency shall begin the record at the time of application. Foster family home records shall contain:

- a. The application.
- b. Family assessment.
- c. Most recent medical reports on foster family members.
- d. Summary of dates and content of worker's contacts relating to licensing or relicensing.
- e. Reference letters.
- f. Annual assessment of strengths and weaknesses of the foster family relative to the care of individual children placed with them.

441—108.9(238) Adoption services.

108.9(1) *Program statement.* An agency licensed to place children for adoption shall have a current written program statement which shall include all of the following:

- a. Types of children to be placed.
- b. Eligibility requirements for adoptive families.
- c. Services provided during the adoption process.
- d. Services to the birth parents upon relinquishment.
- e. Postadoption services to adoptive families, if offered.
- f. Fees and application costs.
- g. A statement that payment of fees does not ensure adoption approval.
- h. A statement informing applicants of the right to appeal the agency's decision regarding nonapproval of the family for placement of a child for adoption, or other adverse decisions.

The program statement shall be made available to referring agencies and to all persons making formal inquiry regarding adoption.

108.9(2) *Services to birth families.* An agency which offers services to birth parents who are considering relinquishing a child for adoption shall provide a minimum of three hours of counseling, or any additional hours of counseling necessary to assist the parents in making an informed decision regarding their child's adoption, consistent with the child's best interest. The counseling of the birth

parents shall begin when the birth parents begin the intake process. This shall be documented in the service plan format.

a. Intake process. When an agency agrees to provide services to the birth parents, intake interviews shall be conducted, including provision of information to the birth parents regarding the adoption process and their rights and role.

b. Background information. A collection of information about the birth parents and the child shall include, but need not be limited to:

- (1) The child's legal status, or due date if unborn.
- (2) The child's physical description, medical and mental health history, developmental information, and other pertinent information necessary for a child study.
- (3) Identification of any specific needs of the child and the type of family to be considered for adoptive placement.
- (4) The birth parents' strengths and needs.
- (5) The involvement of the birth parents and significant others in the child's care.
- (6) The birth family's physical description, medical and mental health history, educational level, any problematic areas including substance and alcohol abuse.
- (7) An affidavit signed by the birth parents regarding wishes for the court to reveal, or not reveal, their names to the child pursuant to Iowa Code chapter 600.
- (8) Any additional information the birth family wishes to have included in the child's adoption record.

108.9(3) *Preparation of child for adoptive placement.* Preparing a child, especially an older child, includes activities designed to enable a child to make a transition to an adoptive placement. The activities shall include, but are not limited to:

- a.* Counseling regarding issues of separation, loss, grief, guilt, anger and adjustment to an adoptive family.
- b.* Preparation of a life book.
- c.* Provision of age-appropriate information regarding community resources available, such as children's support group to assist the child in the transition and integration into the adoptive family.

108.9(4) *Services to adoptive applicants.*

a. Application process. Before proceeding with an adoptive home study, the agency shall have received an application for adoption from the person or persons wishing to adopt a child. The application form shall include information about the applicant's intent to become an adoptive parent, and the basic data about the applicant's family, home, financial status, health, and references.

b. Explanation of the adoption process. The agency shall provide the applicant an explanation of the entire adoption process, including the legal procedures, the agency policies and procedures regarding placement of children, and the children available for adoption.

c. Adoptive home study. The home study consists of a family assessment which shall include at least two face-to-face interviews with the applicant and at least one face-to-face interview with each member of the household. At least one interview shall take place in the applicant's home. The assessment shall include, but need not be limited to, the following:

- (1) Motivation for adoption and whether the family has biological, adopted or foster children.
- (2) Family and extended family's attitude toward accepting an adopted child, and plans for discussing adoption with the child.
- (3) The attitude toward adoption of the significant other people involved with the family.
- (4) Emotional stability; marital history, including verification of marriages and divorces; assessment of marital relationship; and compatibility of the adoptive parents.
- (5) Ability to cope with problems, stress, frustrations, crises, separation and loss.
- (6) Medical, mental, or emotional conditions which may affect the applicant's ability to parent a child.
- (7) Ability to provide for the child's physical and emotional needs and respect the child's cultural and religious identity.

(8) Adjustment of biological and previously adopted children, if any, including their attitudes toward adoption, relationship with others, and school performance.

(9) Capacity to give and receive affection.

(10) Statements from at least three references provided by the family and other unsolicited references that the agency may wish to contact.

(11) Attitudes of the adoptive applicants toward the birth parents and the reasons the child is available for adoption.

(12) Income information, ability to provide for a child, and a statement as to the need for adoption subsidy for a special needs child, or children.

(13) Disciplinary practices that will be used.

(14) History of abuse by family members and treatment.

(15) Assessment of, commitment to, and capacity to maintain other significant relationships.

(16) Substance use or abuse by members of the family and treatment.

(17) Recommendations for type of child, number, age, sex, characteristics, and special needs of children best parented by this family.

d. Record checks. The licensed child-placing agency shall submit record checks for each applicant and for anyone who is 14 years of age or older living in the home of the applicant to determine whether they have any founded child abuse reports or criminal convictions or have been placed on the sex offender registry. The licensed child-placing agency shall use Form 470-0643, Request for Child Abuse Information, and Form 595-1396, DHS Criminal History Record Check, Form B, for this purpose.

If there is a record of founded child abuse or a criminal conviction for the applicant, or anyone living in the home of the applicant, the licensed child-placing agency shall not approve the applicant as an adoptive family, unless an evaluation determines that the abuse or criminal conviction does not warrant prohibition of approval.

EXCEPTION: The person making the investigation shall not approve a prospective applicant and the department shall not perform an evaluation if the applicant or anyone living in the home of the applicant has been convicted of a felony offense as set forth in Iowa Code section 600.8(2) "b." The person making the investigation shall not approve a prospective applicant and shall not perform an evaluation if the applicant or anyone living in the home of the applicant has committed a crime in another state that would be a forcible felony if the crime would have been committed in Iowa, as set forth in Iowa Code section 600.8(2) "b."

The evaluation shall consider the nature and seriousness of the abuse or crime, the time elapsed since the commission of the founded abuse or crime, the circumstances under which the abuse or crime was committed, the degree of rehabilitation, the likelihood that the person will commit the abuse or crime again, and the number of abuses or crimes committed by the person. The person with the criminal conviction or founded child abuse report shall complete and return Form 470-2310, Record Check Evaluation, within ten calendar days of the date on the form to be used to assist in the evaluation. Failure of the person to complete and return Form 470-2310 within the specified time frame shall result in denial of approval for adoption.

(1) If the applicant, or anyone living in the home of the applicant, has been convicted of a simple misdemeanor or a serious misdemeanor that occurred five or more years prior to application, the evaluation and decision may be made by the licensed child-placing agency. The licensed child-placing agency shall notify the applicant of the results of the evaluation.

(2) If the applicant, or anyone living in the home of the applicant, has a founded child abuse report, has been convicted of an aggravated misdemeanor or felony at any time, or has been convicted of a simple or serious misdemeanor that occurred within five years prior to application, the licensed child-placing agency shall initially conduct the evaluation.

1. If the licensed child-placing agency determines that the abuse or crime does warrant prohibition of approval, the licensed child-placing agency shall notify the applicant of the results of the evaluation.

2. If the child-placing agency believes that the applicant should be approved despite the abuse or criminal conviction, the agency shall provide copies of Form 470-2310, Record Check Evaluation,

and Form 470-2386, Record Check Decision, to the Department of Human Services, Administrator, Division of Behavioral, Developmental, and Protective Services, 1305 East Walnut Street, Des Moines, Iowa 50319-0114. Within 30 days, the administrator shall determine whether the abuse or crime merits prohibition of approval and shall notify the child-placing agency in writing of that decision.

The licensed child-placing agency shall also notify the family in writing no later than 30 days after completion of the home study of the agency's decision regarding approval for placement of a child. If the family is denied, the agency shall state the reasons for denial. The agency worker and supervisor shall date and sign the adoptive home study. The agency shall provide a copy of the home study to the family. An agency shall not place a child in an adoptive home before the family is approved, or before a placement agreement is signed by the family and the agency.

e. A home study update is required if the adoptive home study was written more than one year previously, in accordance with Iowa Code section 600.8. The preplacement assessment update shall be conducted by completing the following:

- (1) The child abuse and criminal record checks shall be repeated and any abuses or convictions of crimes since the last record check shall be evaluated using the same process.
- (2) A minimum of one home visit shall be conducted with the approved adoptive family.
- (3) The information in the approved adoptive home study shall be reassessed.
- (4) A written report of the assessment and updated adoptive home study shall be completed, dated, signed by the worker and the supervisor, and provided to the adoptive family.

108.9(5) Services to adoptive families.

a. Preparation of the family includes activities designed to prepare the adoptive family for the placement of a particular child. These activities shall assist the adoptive family in expanding its knowledge and understanding of the child and enhance the family's readiness to accept the child into their family and encourage their commitment. The activities shall include, but not be limited to:

- (1) Providing background information on the child and the birth family, including a child study that includes past experiences such as foster and adoptive placements.
- (2) Providing information regarding the special needs and characteristics of the child.
- (3) Providing information regarding an older child's anticipated behavior.
- (4) Discussing the impact that adding a new member to their family may have on all current family members.

(5) Discussing the issues of separation, loss, grief, anger, and guilt that adoptive children experience at various developmental stages.

- (6) Providing the family with community resources that are available, such as support groups.

b. Preplacement services include the preplacement visits of the child and approved family and any activities necessary to plan, conduct, and assess these transitional visits before the placement of the child in the adoptive family's home for the purpose of adoption.

c. Postplacement services include postplacement supervision, support, crisis intervention, and required reports to the court. The postplacement services are provided from the time the child is placed with an approved adoptive family until finalization of the adoption occurs.

A minimum of three face-to-face postplacement visits are required, or if the family is experiencing problems, as many as are necessary to support the placement. At least two of the visits shall be in the adoptive home. At a minimum the first visit shall be completed within 30 days after placement; the second visit within 90 days after placement; and the final visit before granting consent to adopt.

Observations made during the home visits shall be recorded in the family's adoption file and used by the agency in making written recommendations to the court regarding finalization of the adoption.

Postplacement supervision should focus on the following:

- (1) Integration and interaction of the child with the family.
- (2) Changes in the family functioning which may be due to the placement.
- (3) Social, emotional adjustment of the child and school adjustment of a child who is attending a school.
- (4) Child's growth and development since placement with the adoptive family.
- (5) Changes that have occurred in the family since the placement.

(6) Family's method of dealing with testing behaviors and discipline.

(7) Behavioral evidence of the degree of bonding that is taking place and the degree to which the child is becoming a permanent member of the adoptive family.

d. Postadoption services. The agency shall provide postadoption services to adoptive parents and adoptees, or shall refer adoptive parents and adoptees to other community resources for the services.

108.9(6) *Placement of siblings.* Preference shall be given to placing children from the same family together. If this is not possible, or is not in the best interest of the children, the reasons shall be documented in the record. Efforts shall be made to provide continued contact between siblings after finalized adoptions if the siblings are not placed together.

108.9(7) *Racial and cultural background.* Race, color, or national origin may not be routinely considered in placement selections. Placement decisions shall be made consistent with the best interests and special needs of the child.

108.9(8) *Religious policy.* There shall be a written policy on religious participation for prospective placing parents, adoptive parents, and adoptees. The policy shall be made available to referral sources as well.

108.9(9) *Adoption records.* The agency shall keep separate records for each prospective, approved, or active adoptive family. Contents of these records shall be as follows:

a. The application.

b. The adoptive home study.

c. Current medical records.

d. All references.

e. All legal documents pertaining to the adoption.

f. Birth family information and background report, including physical descriptions, medical and mental health history, educational level, developmental history, problem areas such as substance or alcohol abuse.

g. Summary narrative on the placement decision and the preplacement and postplacement contacts with the adoptive family and child.

h. Information pertaining to the child including, but not limited to: physical, medical, and mental health; problem areas, including verification of the child's special needs; and whether or not a referral was made to the department for adoption subsidy.

i. In the event a family is not approved for placement of a child, the narrative shall clearly indicate the reason.

j. In the event a family is approved, but no child is placed with them, the narrative shall clearly indicate the reason.

108.9(10) *Right to appeal.* An adoptive applicant or an adoptive family may appeal an adverse decision made by a licensed agency. The appeal shall be filed with the department within 30 days of the notice of decision to the applicant or family by the licensed agency.

108.9(11) *Disposition of records.* When an adoption has occurred, the agency must maintain all records regarding the child, the birth family, and the adoptive family or families, forever. Any subsequent information received following the adoption finalization shall be placed in the adoption record. If the agency closes, all adoption records shall be forwarded to the department.

441—108.10(238) Supervised apartment living placement services. An agency seeking to obtain a child-placing license which authorizes the agency to place or supervise children in supervised apartment living placements shall meet the standards in rules 108.2(238) to 108.6(238).

108.10(1) *Program statement.* An agency authorized to place or supervise children in supervised apartment living placements shall have a current written program statement which includes all of the following:

a. A description of the types of living arrangements approved by the agency.

b. The eligibility requirements for the children who may be placed in a supervised apartment living placement.

c. The means of financial support for the children.

d. The expectations the agency has for children while placed in a supervised apartment living placement.

e. Services provided to the children.

f. Provisions for emergency medical care.

This program statement shall be provided to all children placed in supervised apartment living.

108.10(2) Basis for placement. Before placing a child in supervised apartment living, an agency shall document all of the following:

a. The child is at least 16 years of age.

b. An initial assessment has been made that identifies the child's strengths and needs as these pertain to the child's ability to live independently.

c. The child has the capacity to function outside the structure of a foster family or group care setting.

d. The selection of a supervised apartment living placement is the most appropriate placement for the child.

e. The child shall be involved in school or other educational or vocational program, work, or a combination thereof on a full-time basis, as indicated in the child's individual care plan.

f. The child has entered into a mutually agreed-upon written contract with the agency which specifies the responsibilities of the agency and the child. This contract shall be reviewed quarterly.

g. It has been determined, through a visit to the living arrangement, that the minimum standards for approval have been met.

108.10(3) Services provided. The following services are required:

a. Ongoing assessment that identifies child's strengths and needs as these pertain to the child's ability to live independently.

b. The development of an individual service plan within 30 days of placement. The service plan shall be developed in consultation with the child and referring agent. The individual service plan shall include projection of the expected length of stay in supervised apartment living and shall address the activities necessary to achieve independence and the services needed to be provided to the child. The individual service plan shall be updated quarterly.

c. At least weekly face-to-face contacts with the child for the first 60 days of placement and at least twice a month face-to-face contact thereafter. Frequency of visits shall be based on the needs of the individual child.

d. Personal observation by the agency worker that the living situation provides safe and suitable social, emotional, and physical care.

e. Maintenance of a means by which the youth can contact agency personnel 24 hours a day, seven days a week.

108.10(4) Record. An agency shall maintain a record for each child in a supervised apartment living placement. The record shall contain all of the following:

a. The name, date of birth, sex, and address of the child and information on how the child can be contacted.

b. Documentation of financial support sufficient to meet the child's housing, clothing, food, and miscellaneous expenses.

c. Name, address, and phone number of guardian, if applicable, and referring agent.

d. Medical records.

e. Educational and employment records.

f. All of the individual service plans and updated reviews.

g. Documentation of visits.

108.10(5) Staffing requirements. Each child in a supervised apartment living placement shall receive an agreed-upon number of hours of casework services per month. This shall be recorded in the child's individual service plan.

These rules are intended to implement Iowa Code chapter 238.

CHAPTER 109
CHILD CARE CENTERS

[Filed as Chapter 108, 2/14/75 and renumbered 7/1/75]

[Prior to 7/1/83, Social Services[770] Ch 109]

[Prior to 2/11/87, Human Services[498]]

PREAMBLE

The intent of this chapter is to specify minimum requirements for licensed child care centers and preschools and to define those child-caring environments that are governed by the licensing standards. The licensing standards govern licensing procedures, administration, parental participation, personnel, records, health and safety policies, physical facilities, activity programs, and food services.

441—109.1(237A) Definitions.

“*Adult*” means a person 18 years of age or older.

“*Child*” means either of the following:

1. A person 12 years of age or younger.
2. A person 13 years of age or older but younger than 19 years of age who has a developmental disability, as defined under the federal Developmental Disabilities Assistance and Bill of Rights Act of 2000, Public Law No.106-402, codified in 42 U.S.C. 15002(8).

“*Child care*” means the care, supervision, or guidance of a child by a person other than the parent, guardian, or custodian for periods of less than 24 hours per day per child on a regular basis in a place other than the child’s home, but does not include care, supervision, or guidance of a child by any of the following:

1. An instructional program administered by a public or nonpublic school system accredited by the department of education or the state board of regents or a program provided under Iowa Code sections 279.49 and 280.3A.
2. Any of the following church-related programs:
 - An instructional program.
 - A youth program other than a preschool, before or after school child care program, or other child care program.
 - A program providing care to children on church premises while the children’s parents are attending church-related or church-sponsored activities on the church premises.
3. Short-term classes of less than two weeks’ duration held between school terms or during a break within a school term.
4. A child care center for sick children operated as part of a pediatrics unit in a hospital licensed by the department of inspections and appeals pursuant to Iowa Code chapter 135B.
5. A program operated not more than one day per week by volunteers that meets all the following conditions:
 - Not more than 11 children are served per volunteer.
 - The program operates for less than 4 hours during any 24-hour period.
 - The program is provided at no cost to the children’s parent, guardian, or custodian.
6. A nationally accredited camp.
7. A program administered by a political subdivision of the state which is primarily for recreational or social purposes and is limited to children who are five years of age or older and attending school.
8. An instructional program for children at least four years of age who are attending prekindergarten, as defined by the state board of education, or a higher grade level, administered by a nonpublic school system which is not accredited by the department of education or the state board of regents.
9. An after-school program continuously offered throughout the school year to children who are at least five years of age and enrolled in school and attend the program intermittently, or a summer-only program for such children. The program must be provided through a nominal membership fee or at no cost.

10. A special activity program which meets less than four hours per day for the sole purpose of the special activity. Special activity programs include but are not limited to music or dance classes, organized athletic or sports programs, recreational classes, scouting programs, and hobby or craft clubs or classes.

11. A structured program for the purpose of providing therapeutic, rehabilitative, or supervisory services to children under any of the following:

- A purchase of service or managed care contract with the department.
- A contract approved by a local decategorization governance board.
- An arrangement approved by a juvenile court order.

12. Care provided on site to children of parents residing in an emergency, homeless, or domestic violence shelter.

13. A child care facility providing respite care to a licensed foster family home for a period of 24 hours or more to a child who is placed with that licensed foster family home.

14. A program offered to a child whose parent, guardian, or custodian is engaged solely in a recreational or social activity, remains immediately available and accessible on the physical premises on which the child's care is provided, and does not engage in employment while the care is provided.

"Child care center" or *"center"* means a facility providing child day care for seven or more children, except when the facility is registered as a child development home. For the purposes of this chapter, the word *"center"* shall apply to a child care center or preschool, unless otherwise specified.

"Child care facility" or *"facility"* means a child care center, a preschool, or a registered child development home.

"Department" means the department of human services.

"Extended evening care" means child care provided by a child care center between the hours of 9 p.m. and 5 a.m.

"Facility" means a building or physical plant established for the purpose of providing child day care.

"Get-well center" means a facility that cares for a child with an acute illness of short duration for short enrollment periods.

"Involvement with child care" means licensed or registered as a child care facility, employed in a child care facility, residing in a child care facility, receiving public funding for providing child care, providing child care as a child care home provider, or residing in a child care home.

"National Health and Safety Performance Standards" means the National Health and Safety Performance Standards: Guidelines for Out-of-Home Child Care Programs produced by the American Public Health Association and the American Academy of Pediatrics with the support of the Maternal and Child Health Bureau, Department of Health and Human Services.

"Parent" means parent or legal guardian.

"Person subject to an evaluation" means a person who has committed a transgression and who is described by any of the following:

1. The person is being considered for licensure or is licensed.
2. The person is being considered by a child care facility for employment involving direct responsibility for a child or with access to a child when the child is alone, or the person is employed with such responsibilities.
3. The person will reside or resides in a child care facility.
4. The person has applied for or receives public funding for providing child care.

"Preschool" means a child day care facility which provides care to children aged three through five, for periods of time not exceeding three hours per day. The preschool's program is designed to help the children develop intellectual, social and motor skills, and to extend their interest in and understanding of the world about them.

"Transgression" means the existence of any of the following in a person's record:

1. Conviction of a crime.
2. A record of having committed founded child or dependent adult abuse.
3. Listing in the sex offender registry established under Iowa Code chapter 692A.
4. A record of having committed a public or civil offense.

5. Department revocation or denial of a child care facility registration or license due to the person's continued or repeated failure to operate the child care facility in compliance with licensing and registration laws and rules.

"Unrestricted access" means that a person has contact with a child alone; has access in providing care, education, guidance, or discipline to a child; or has access to the facility beyond the passage area and room in which the person's child is in care.

441—109.2(237A) Licensure procedures.

109.2(1) Application for license.

a. Any adult or agency has the right to apply for a license. The application for a license shall be made to the department on Form 470-0722, Application for a License to Operate a Child Care Center, provided by the department.

b. Requested reports including the fire marshal's report and other information relevant to the licensing determination shall be furnished to the department upon application and renewal. A building owned or leased by a school district or accredited nonpublic school that complies with rules adopted by the state fire marshal for school buildings under 661—Chapter 5 is considered appropriate for use by a child care facility.

c. When a center makes a sufficient application for an initial or renewal license, it may operate for a period of up to 120 days, pending a final licensing decision. A center has made a sufficient application when it has submitted the following to the department:

- (1) An application for a license.
- (2) An approved fire marshal's report.
- (3) A floor plan indicating room descriptions and dimensions, including location of windows and doors.
- (4) Information sufficient to determine that the center director meets minimum personnel qualifications.

d. Applicants shall be notified of approval or denial within 120 days from the date the application is submitted.

e. The department shall not act on a licensing application for 12 months after an applicant's child care center license has been denied or revoked.

f. When the department has denied or revoked a license, the applicant or person shall be prohibited from involvement with child care unless the department specifically permits involvement through a record check decision.

109.2(2) License.

a. An applicant showing full compliance with center licensing laws and these rules, including department approval of center plans and procedures, shall be issued a license for 24 months. In determining whether or not a center is in compliance with the intent of a licensing standard outlined in this chapter, the department shall make the final decision.

b. A new license shall be applied for when the center moves, expands, or the facility is remodeled to change licensed capacity.

c. A new license shall be applied for when another adult or agency assumes ownership or legal responsibility for the center.

109.2(3) Provisional license.

a. A provisional license may be issued or a previously issued license may be reduced to a provisional license for a period up to one year when the center does not meet all standards imposed by law and these rules.

b. A provisional license shall be renewable when written plans giving specific dates for completion to bring the center up to standards are submitted to and approved by the department. A provisional license shall not be reissued for more than two consecutive years when the lack of compliance with the same standards has not been corrected within two years.

c. When the center submits documentation or it can otherwise be verified that the center fully complies with all standards imposed by law or these rules, the license shall be upgraded to a full license.

109.2(4) Denial. Initial applications or renewals shall be denied when:

- a. The center does not comply with center licensing laws and these rules in order to qualify for a full or provisional license.
- b. The center is operating in a manner which the department determines impairs the safety, health, or well-being of children in care.
- c. A person subject to an evaluation has transgressions that merit prohibition of involvement with child care and of licensure, as determined by the department.
- d. Information provided either orally or in writing to the department or contained in the center's files is shown to have been falsified by the provider or with the provider's knowledge.
- e. The center is not able to obtain an approved fire marshal's certificate as prescribed by the state fire marshal in 661—Chapter 5 or Iowa Code chapter 100 or fails to comply in correcting or repairing any deficiencies in the time determined by the fire marshal or the fire marshal determines the facility is not safe for occupancy.

109.2(5) Revocation and suspension. A license shall be revoked or suspended if corrective action has not been taken when:

- a. The center does not comply with center licensing laws or these rules.
- b. The center is operating in a manner which the department determines impairs the safety, health, or well-being of the children in care.
- c. A person subject to an evaluation has transgressions that merit prohibition of involvement with child care and of licensure, as determined by the department.
- d. Information provided to the department or contained in the center's files is shown to have been falsified by the provider or with the provider's knowledge.
- e. The facility is not able to obtain an approved fire marshal's certificate as prescribed by the state fire marshal in 661—Chapter 5 or Iowa Code chapter 100 or fails to comply in correcting or repairing any deficiencies in the time determined by the fire marshal or the fire marshal determines the facility is not safe for occupancy.

109.2(6) Adverse actions.

- a. Notice of adverse actions for a denial, revocation, or suspension and the right to appeal the licensing decision shall be given to applicants and licensees in accordance with 441—Chapter 7.
- b. An applicant or licensee affected by an adverse action may request a hearing by means of a written request directed to the county office or central office of the department. The request shall be submitted within 30 days after the date the department mailed the official notice containing the nature of the denial, revocation, or suspension.
- c. A letter received by an owner or director of a licensed center initiating action to deny, suspend, or revoke the facility's license shall be conspicuously posted at the main entrance to the facility where it can be read by parents or any member of the public. The letter shall remain posted until resolution of the action to deny, suspend or revoke the license. If the action to deny, suspend, or revoke is upheld, the center shall return the license to the department.
- d. If the center's license is denied, suspended or revoked, the department shall notify the parent, guardian, or legal custodian of each child for whom the facility provides child care. The center shall cooperate with the department in providing the names and address of the parent, guardian, or legal custodian of each child for whom the facility provides child care.

441—109.3(237A) Inspection and evaluation. The department shall conduct an on-site visit in order to make a licensing recommendation for all initial and renewal applications for licensure and shall determine compliance with licensing standards imposed by licensing laws and these rules when a complaint is received.

109.3(1) At least one unannounced on-site visit shall be conducted each calendar year.

109.3(2) After each visit and complaint, the department shall document whether a center was in compliance with center licensing standards imposed by licensing laws and these rules.

109.3(3) The written documentation of the department's conclusion as to whether a center was in compliance with licensing standards for all licensing visits and complaints shall be available to the public. However, the identity of the complainant shall be withheld unless expressly waived by the complainant.

441—109.4(237A) Administration.

109.4(1) Purpose and objectives. Incorporated and unincorporated centers shall submit a written statement of purpose and objectives. The plan and practices of operation shall be consistent with this statement.

109.4(2) Required written policies. The child care center owner, board or director shall:

- a. Develop fee policies and financial agreements for the children served.
- b. Develop and implement policies for enrollment and discharge of children, field trips and non-center activities, transportation, discipline, nutrition, and health and safety policies.
- c. Develop a curriculum or program structure that uses developmentally appropriate practices and an activity program appropriate to the developmental level and needs of the children.
- d. Develop and implement a written plan for staff orientation to the center's policies and to the provisions of 441—Chapter 109 where applicable to staff.
- e. Develop and implement a written plan for ongoing training and staff development in compliance with professional growth and development requirements established by the department in rule 441—109.7(237A).
- f. Make available for review a copy of the center policies and program to all staff at the time of employment and each parent at the time a child is admitted to the center. A copy of the fee policies and financial agreements shall be provided to each parent at the time a child is admitted to the center.

109.4(3) Required postings.

a. Postings are required for the certificate of license, notice of exposure of children to a communicable disease, and notice of actions to deny, suspend, or revoke the center's license and shall be conspicuously placed at the main entrance to the center. If the center is located in a building used for additional purposes and shares the main entrance to the building, the required postings shall be conspicuously placed in the center in an area that is frequented daily by parents or the public.

b. Postings are required for mandatory reporter requirements, the notice of availability of the handbook required in subrule 109.4(5), and the program activities and shall be placed in an area that is frequented daily by parents or the public.

109.4(4) Mandatory reporters. Requirements and procedures for mandatory reporting of suspected child abuse as defined in Iowa Code section 232.69 shall be posted where they can be read by staff and parents. Methods of identifying and reporting suspected child abuse and neglect shall be discussed with all staff within 30 days of employment.

109.4(5) Handbook. A copy of Form SS-0711, Child Care Centers and Preschools Licensing Standards and Procedures, shall be available in the center, and a notice stating that a copy is available for review upon request from the center director shall be conspicuously posted. The name, office mailing address and telephone number of the child care consultant shall be included in the notice.

109.4(6) Certificate of license. The child care license shall be posted in a conspicuous place and shall state the particular premises in which child care may be offered and the number of children who may be cared for at any one time. Notwithstanding the requirements in rule 441—109.8(237A), no greater number of children than is authorized by the license shall be cared for at any one time.

441—109.5(237A) Parental participation.

109.5(1) Unlimited access. Parents shall be afforded unlimited access to their children and to the provider caring for their children during the center's hours of operation or whenever their children are in the care of a provider, unless parental contact is prohibited by court order. The provider shall inform all parents of this policy in writing at the time the child is admitted to the center.

109.5(2) Parental evaluation. If requested by the department, centers shall assist the department in conducting an annual survey of parents being served by their center by providing to parents Form 470-3409, Parent Survey: Child Care Centers. The department shall notify centers of the time frames for

distribution and completion of the survey and the procedures for returning the survey to the department. The purpose of the survey shall be to increase parents' understanding of developmentally appropriate and safe practice, solicit statewide information regarding parental satisfaction with the quality of care being provided to children and obtain the parents' perspective regarding the center's compliance with licensing requirements.

441—109.6(237A) Personnel. The board or director of the center shall develop policies for hiring and maintaining staff that demonstrate competence in working with children and that meet the following minimum requirements:

109.6(1) Center director requirements. Centers that have multiple sites shall have a center director or on-site supervisor in each center. The center director is responsible for the overall functions of the center, including supervising staff, designing curriculum and administering programs. The director shall ensure services are provided for the children within the framework of the licensing requirements and the center's statement of purpose and objectives. The center director shall have overall responsibility for carrying out the program and ensuring the safety and protection of the children. Information shall be submitted in writing to the child care consultant prior to the start of employment. Final determination shall be made by the department. Information shall be submitted sufficient to determine that the director meets the following minimum qualifications:

- a. Is at least 21 years of age.
- b. Has obtained a high school diploma or passed a general education development test.
- c. Has completed at least one course in business administration or 12 contact hours in administrative-related training related to personnel, supervision, record keeping, or budgeting or has one year of administrative-related experience.
- d. Has certification in infant, child, and adult cardiopulmonary resuscitation (CPR), first aid, and Iowa's training for the mandatory reporting of child abuse.
- e. Has achieved a total of 100 points obtained through a combination of education, experience, and child development-related training as outlined in the following chart:

EDUCATION		EXPERIENCE (Points multiplied by years of experience)		CHILD DEVELOPMENT- RELATED TRAINING
Bachelor's or higher degree in early childhood, child development, or elementary education	75	Full-time (20 hours or more per week) in a child care center or preschool setting	20	One point per contact hour of training
Associate's degree in child development or bachelor's degree in a child-related field	50	Part-time (less than 20 hours per week) in a child care center or preschool setting	10	
Child development associate (CDA) or one-year diploma in child development from a community college or technical school	40	Full-time (20 hours or more per week) child development-related experience	10	
Bachelor's degree in a non-child-related field	40	Part-time (less than 20 hours per week) child development-related experience	5	
Associate's degree in a non-child-related field or completion of at least two years of a four-year degree	20	Registered child development home provider	10	
		Nonregistered family home provider	5	

(1) In obtaining the total of 100 points, a minimum of two categories must be used, no more than 75 points may be achieved in any one category, and at least 20 points shall be obtained from the experience category.

(2) Points obtained in the child development-related training category shall have been taken within the past five years.

(3) For directors in centers predominantly serving children with special needs, the directors may substitute a disabilities-related or nursing degree for the bachelor’s degree in early childhood, child development or elementary education in determining point totals. In addition, experience in working with children with special needs in an administrative or direct care capacity shall be equivalent to full-time experience in a child care center or preschool in determining point totals.

(4) For directors in centers serving predominantly school-age children, the directors may substitute a degree in secondary education, physical education, recreation or related fields for the bachelor’s degree in early childhood, child development or elementary education in determining point totals. In addition, child-related experience working with school-age children shall be equivalent to full-time experience in a child care center or preschool in determining point totals.

109.6(2) On-site supervisor. The on-site supervisor is responsible for the daily supervision of the center and must be on site daily either during the hours of operation that children are present or a minimum of eight hours of the center’s hours of operation. Information shall be submitted in writing to the child care consultant prior to the start of employment. Final determination shall be made by the department. Information shall be submitted sufficient to determine that the on-site supervisor meets the following minimum qualifications:

- a. Is an adult.
- b. Has obtained a high school diploma or passed a general education development test.
- c. Has certification in infant, child, and adult cardiopulmonary resuscitation (CPR), first aid, and Iowa’s mandatory reporting of child abuse.
- d. Has achieved a total of 75 points obtained through a combination of education, experience, and child development-related training as outlined in the following chart:

EDUCATION		EXPERIENCE (Points multiplied by years of experience)		CHILD DEVELOPMENT-RELATED TRAINING
Bachelor’s or higher degree in early childhood, child development, or elementary education	75	Full-time (20 hours or more per week) in a child care center or preschool setting	20	One point per contact hour of training
Associate’s degree in child development or bachelor’s degree in a child-related field	50	Part-time (less than 20 hours per week) in a child care center or preschool setting	10	
Child development associate (CDA) or one-year diploma in child development from a community college or technical school	40	Full-time (20 hours or more per week) child development-related experience	10	
Bachelor’s degree in a non-child-related field	40	Part-time (less than 20 hours per week) child development-related experience	5	
Associate’s degree in a non-child-related field or completion of at least two years of a four-year degree	20	Registered child development home provider	10	
		Nonregistered family home provider	5	

(1) In obtaining the total of 75 points, a minimum of two categories must be used, no more than 50 points may be achieved in any one category, and at least 10 points shall be obtained from the experience category.

(2) Points obtained in the child development-related training category shall have been taken within the past five years.

(3) For on-site supervisors in centers predominantly serving children with special needs, the on-site supervisor may substitute a disabilities-related or nursing degree for the bachelor’s degree in

early childhood, child development or elementary education in determining point totals. In addition, experience in working with children with special needs in an administrative or direct care capacity shall be equivalent to full-time experience in a child care center or preschool in determining point totals.

(4) For on-site supervisors in centers serving predominantly school-age children, the on-site supervisor may substitute a degree in secondary education, physical education, recreation or related fields for the bachelor's degree in early childhood, child development or elementary education in determining point totals. In addition, child-related experience working with school-age children shall be equivalent to full-time experience in a child care center or preschool in determining point totals.

109.6(3) *Director and on-site supervisor functions combined.* In a center where the functions of the center director and the on-site supervisor are accomplished by the same person, the educational and experience requirements for a center director shall apply. If the center director is serving in the role of the on-site supervisor, the director shall be on site daily either during the hours of operation or a minimum of at least eight hours of the center's hours of operation. If the staff person designated as the on-site supervisor is temporarily absent from the center, another responsible adult staff shall be designated as the interim on-site supervisor.

109.6(4) *Transition period for staff.* In achieving the qualifications outlined in rule 441—109.6(237A), staff hired prior to April 1, 1998, shall obtain the education, experience or child-developmental training sufficient to meet the required point totals by April 1, 1999.

109.6(5) *Volunteers and substitutes.*

a. All volunteers and substitutes shall sign a statement indicating whether or not they have one of the following:

(1) A conviction of any law in any state or any record of founded child abuse or dependent adult abuse in any state.

(2) A communicable disease or other health concern that could pose a threat to the health, safety, or well-being of the children.

b. The center shall have the volunteer or substitute:

(1) Complete Form 595-1396, DHS Criminal History Record Check, Form B.

(2) Complete Form 470-0643, Request for Child Abuse Information.

(3) Sign a statement indicating the volunteer or substitute has been informed of the volunteer's or substitute's responsibilities as a mandatory reporter.

109.6(6) *Record checks.* The department shall conduct criminal and child abuse record checks in Iowa for each owner, director, staff member, or subcontracted staff person with direct responsibility for child care or with access to a child when the child is alone and for anyone living in the child care facility who is 14 years of age or older. The department may use Form 470-0643, Request for Child Abuse Information, and Form 595-1396, DHS Criminal History Record Check Form B, or any other form required for criminal and child abuse record checks. The department may also conduct criminal and child abuse record checks in other states and may conduct dependent adult abuse, sex offender, and other public or civil offense record checks in Iowa or in other states.

a. Mandatory prohibition. A person with the following convictions or founded abuse reports is prohibited from involvement with child care:

(1) Founded child or dependent adult abuse that was determined to be sexual abuse.

(2) Placement on the sex offender registry.

(3) Felony child endangerment or neglect or abandonment of a dependent person.

(4) Felony domestic abuse.

(5) Felony crime against a child including, but not limited to, sexual exploitation of a minor.

(6) Forcible felony.

b. Mandatory time-limited prohibition.

(1) A person with the following convictions or founded abuse reports is prohibited from involvement with child care for five years from the date of the conviction or founded abuse report:

1. Conviction of a controlled substance offense under Iowa Code chapter 124.

2. Founded child abuse that was determined to be physical abuse.

(2) After the five-year prohibition period from the date of the conviction or the founded abuse report as defined in subparagraph 109.6(6) "b"(1), the person may request the department to perform an evaluation under paragraph 109.6(6) "c" to determine whether prohibition of the person's involvement with child care continues to be warranted.

c. Evaluation required. For all other transgressions, and as requested under subparagraph 109.6(6) "b"(2), the department shall notify the affected person and the licensee that an evaluation shall be conducted to determine whether prohibition of the person's involvement with child care is warranted.

(1) The person with the transgression shall complete and return Form 470-2310, Record Check Evaluation, within ten calendar days of the date on the form. The department shall use the information the person with the transgression provides on this form to assist in the evaluation. Failure of the person with the transgression to complete and return this form by the specified date shall result in denial or revocation of the license or denial of employment.

(2) The department may use information from the department's case records in performing the evaluation.

(3) In an evaluation, the department shall consider all of the following factors:

1. The nature and seriousness of the transgression in relation to the position sought or held.
2. The time elapsed since the commission of the transgression.
3. The circumstances under which the transgression was committed.
4. The degree of rehabilitation.
5. The likelihood that the person will commit the transgression again.
6. The number of transgressions committed by the person.

d. Evaluation decision. Within 30 days of receipt of a completed Form 470-2310, Record Check Evaluation, the department shall make a decision on the person's involvement with child care. The department has final authority in determining whether prohibition of the person's involvement with child care is warranted and in developing any conditional requirements and corrective action plan under this paragraph.

(1) The department shall mail to the individual on whom the evaluation was completed Form 470-2386, Record Check Decision, that explains the decision reached regarding the evaluation of the transgression and Form 470-0602, Notice of Decision.

(2) If the department determines through an evaluation of a person's transgressions that the person's prohibition of involvement with child care is warranted, the person shall be prohibited from involvement with child care. The department may identify a period of time after which the person may request that another record check and evaluation be performed.

(3) The department may permit a person who is evaluated to maintain involvement with child care if the person complies with the department's conditions and corrective action plan relating to the person's involvement with child care.

(4) The department shall send a letter to the employer that informs the employer whether the person subject to an evaluation has been approved or denied involvement with child care. If the person has been approved, the letter shall inform the employer of any conditions and corrective action plan relating to the person's involvement with child care.

e. Notice to parents. The department shall notify the parent, guardian, or legal custodian of each child for whom the person provides child care if there has been a founded child abuse record against an owner, director, or staff member of the child care center. The center shall cooperate with the department in providing the names and addresses of the parent, guardian, or legal custodian of each child for whom the facility provides child care.

f. Repeat of record checks. The child abuse and criminal record checks shall be repeated at a minimum of every two years and when the department or the center becomes aware of any transgressions. Any new transgressions discovered shall be handled in accordance with this subrule.

109.6(7) Use of controlled substances and medications. All owners, personnel, and volunteers shall be free of the use of illegal drugs and shall not be under the influence of alcohol or of any prescription or nonprescription drug that could impair their ability to function.

441—109.7(237A) Professional growth and development. The center director, on-site supervisor, and staff counted as part of the staff ratio shall meet the following minimum staff training requirements:

109.7(1) Required training within the first six months of employment. During their first six months of employment, all staff shall receive the following training:

- a. Two hours of Iowa's training for mandatory reporting of child abuse.
- b. At least one hour of training regarding universal precautions and infectious disease control.

109.7(2) Staff employed 20 hours or more per week.

a. During their first year of employment, all staff employed 20 hours or more per week shall receive the following training:

(1) Certification in American Red Cross or American Heart Association infant, child, and adult cardiopulmonary resuscitation (CPR) or equivalent certification approved by the department. A valid certificate indicating the date of training and expiration date shall be maintained.

(2) Certification in infant, child, and adult first aid that uses a nationally recognized curriculum or is received from a nationally recognized training organization including the American Red Cross, American Heart Association, the National Safety Council, and Emergency Medical Planning (Medic First Aid) or an equivalent certification approved by the department. A valid certificate indicating the date of training and expiration date shall be maintained.

(3) Ten contact hours of training from one or more of the following topical areas: child development, guidance and discipline, developmentally appropriate practices, nutrition, health and safety, communication skills, professionalism, business practices, and cross-cultural competence. Training received for cardiopulmonary resuscitation (CPR), first aid, mandatory reporting of child abuse, and universal precautions shall not count toward the ten contact hours.

(4) At least four hours of the ten contact hours of training shall be received in a sponsored group setting. Six hours may be received in self-study using a training package approved by the department.

(5) Center directors and on-site supervisors shall receive all ten hours of training in a sponsored group setting.

(6) Staff who have completed a comprehensive training package of at least ten contact hours offered through a child care resource and referral agency or community college within six months prior to initial employment shall have the first year's ten contact hours of training waived.

b. Following their first year of employment, all staff who are employed 20 hours or more a week shall:

(1) Maintain current certification for Iowa's training for the mandatory reporting of child abuse; infant, child and adult CPR; and infant, child and adult first aid.

(2) Receive six contact hours of training annually from one or more of the following topical areas: child development, guidance and discipline, developmentally appropriate practices, nutrition, health and safety, communication skills, professionalism, business practices, and cross-cultural competence. At least two of the six contact hours shall be in a sponsored group setting.

(3) Center directors and on-site supervisors shall receive eight contact hours of training annually from the topical areas. At least four of the eight contact hours shall be in a sponsored group setting.

109.7(3) Staff employed less than 20 hours per week.

a. During their first year of employment, all staff who are employed less than 20 hours a week shall receive the following training:

(1) Five contact hours of training from one or more of the following topical areas: child development, guidance and discipline, developmentally appropriate practices, nutrition, health and safety, communication skills, professionalism, business practices, and cross-cultural competence.

(2) At least two of the five contact hours shall be in a sponsored group setting.

(3) Staff who have completed a comprehensive training package of at least ten contact hours offered through a child care resource and referral agency or community college within six months prior to initial employment shall have the five contact hours required in the first year waived.

b. Following their first year of employment, all staff who are employed less than 20 hours a week shall:

(1) Maintain current certification for Iowa's training for mandatory reporting of child abuse.

(2) Receive four contact hours of training annually from one or more of the following topical areas: child development, guidance and discipline, developmentally appropriate practices, nutrition, health and safety, communication skills, professionalism, business practices, and cross-cultural competence. At least two of the four contact hours shall be in a sponsored group setting.

109.7(4) Staff employed in centers that operate summer-only programs. Staff who are employed in centers that operate only in the summer months when school is not in session shall receive the following training:

- a. Two hours of Iowa's training for mandatory reporting of child abuse.
- b. At least one hour of training regarding universal precautions and infectious disease control.
- c. At least one staff person on duty in the center and outdoor play area when children are present and on field trips shall have certification in American Red Cross or American Heart Association infant, child, and adult cardiopulmonary resuscitation (CPR) or equivalent certification approved by the department. A valid certificate indicating the date of training and expiration date shall be maintained.
- d. At least one staff person on duty in the center and outdoor play area when children are present and on field trips shall receive certification in infant, child and adult first aid that uses a nationally recognized curriculum or is received from a nationally recognized training organization including the American Red Cross, American Heart Association, the National Safety Council, and Emergency Medical Planning (Medic First Aid) or an equivalent certification approved by the department. A valid certificate indicating the date of training and expiration date shall be maintained.

109.7(5) Training plans. Training shall supplement educational and experience requirements in rule 441—109.6(237A) and shall enhance the staff's skill in working with the developmental and cultural characteristics of the children served.

441—109.8(237A) Staff ratio requirements.

109.8(1) Staff requirements. Persons counted as part of the staff ratio shall meet the following requirements:

- a. Be at least 16 years of age. If less than 18 years of age, the staff shall be under the direct supervision of an adult.
- b. Be involved with children in programming activities.
- c. At least one staff person on duty in the center and outdoor play area when children are present and present on field trips shall be over the age of 18 and hold current certification in first aid and cardiopulmonary resuscitation (CPR) as required in rule 441—109.7(237A).

109.8(2) Staff ratio. The staff-to-child ratio shall be as follows:

<u>Age of children</u>	<u>Minimum ratio of staff to children</u>
Two weeks to two years	One to every four children
Two years	One to every six children
Three years	One to every eight children
Four years	One to every twelve children
Five years to ten years	One to every fifteen children
Ten years and over	One to every twenty children

a. Combinations of age groupings for children four years of age and older may be allowed and may have staff ratio determined on the age of the majority of the children in the group. If children three years of age and under are included in the combined age group, the staff ratio for children aged three and under shall be maintained for these children. Preschools shall have staff ratios determined on the age of the majority of the children, including children who are three years of age.

b. If a child between the ages of 18 and 24 months is placed outside the infant area, as defined at subrule 109.11(2), the staff ratio of 1 to 4 shall be maintained as would otherwise be required for the group until the child reaches the age of two.

c. Every child-occupied program room shall have adult supervision present in the room.

d. During nap time, at least one staff shall be present in every room where children are resting. Staff ratio requirements may be reduced to one staff per room where children are resting for a period of time not to exceed one hour provided staff ratio coverage can be maintained in the center. The staff ratio shall always be maintained in the infant area.

e. The minimum staff ratio shall be maintained at mealtimes and for any outdoor activities at the center.

f. When seven or more children over the age of three are present on the licensed premises or are being transported in one vehicle, at least two adult staff shall be present. Only one adult is required when a center is transporting children in a center-owned vehicle with parent authorization for the sole purpose of transporting children to and from school. When a center contracts with another entity to provide transportation other than for the purpose of transporting school-age children to or from school, at least one adult staff in addition to the driver shall be present if at least seven children provided care by the center are transported.

g. Any child care center-sponsored program activity involving five or more children conducted away from the licensed facility shall provide a minimum of one additional staff over the required staff ratio for the protection of the children.

h. For a period of two hours or less at the beginning or end of the center's hours of operation, one staff may care for six children or less, provided no more than two of the children are under the age of two years.

i. For centers or preschools serving school-age children, the ratio for school-age children may be exceeded for a period of no more than four hours during a day when school classes start late or are dismissed early due to inclement weather or structural damage provided the children are already enrolled at the center and the center does not exceed the licensed capacity.

441—109.9(237A) Records.

109.9(1) *Personnel records.* The center shall maintain personnel information sufficient to ensure that persons employed in the center meet minimum staff and training requirements and do not pose any threat to the health, safety, or well-being of the children. Each employee's file shall contain, at a minimum, the following:

a. A statement signed by each individual indicating whether or not the individual has any conviction by any law of any state or if the individual has any record of founded child abuse or dependent adult abuse.

b. A copy of Form 595-1396, DHS Criminal History Record Check, Form B. The center shall complete the form and forward it to the department before the start of employment.

c. A copy of Form 470-0643, Request for Child Abuse Information.

d. A physical examination report. Personnel shall have good health as evidenced by a preemployment examination, including testing for communicable diseases which shall include testing for tuberculosis, performed within six months prior to beginning employment by a licensed medical doctor, doctor of osteopathy, physician's assistant or advanced registered nurse practitioner and repeated at least every three years after initial employment.

e. Documentation showing the minimum staff training requirements as outlined at rule 441—109.7(237A) are met, including current certifications in first aid and cardiopulmonary resuscitation (CPR) and Iowa's training for the mandatory reporting of child abuse.

f. A photocopy of a valid driver's license if the staff will be involved in the transportation of children.

109.9(2) *Child's file.* Centers shall maintain sufficient information in a file for each child, which shall be updated at least annually or when the parent notifies the center of a change or the center becomes aware of a change, to ensure that:

a. A parent or an emergency contact authorized by the parent can be contacted at any time the child is in the care of the center.

b. Appropriate emergency medical and dental services can be secured for the child while in the center's care.

c. Information is available in the center regarding the specific health and medical needs of a child, including information regarding any professionally prescribed treatment. Information shall include a physical examination report as required at subrule 109.10(1). For a center serving school-age children that operates in the same school facility in which the child attends school, documentation shall include a statement signed by the parent that the immunization information is available in the school file.

d. A child is released only to authorized persons.

e. Documentation of injuries, accidents, or other incidents involving the child is maintained.

f. Parent authorization is obtained for a child to attend center-sponsored field trips and non-center activities. If parental authorization is obtained on an authorization form inclusive of all children participating in the activity, the authorization form shall be kept on file at the center.

109.9(3) *Immunization certificates.* Signed and dated Iowa immunization certificates, provided by the state department of public health, shall be on file for each child enrolled as prescribed by the department of public health at 641—Chapter 7.

109.9(4) *Daily activities.* For each child under two years of age, the center shall make a daily written record. At the end of the child's day at the center, the daily written record shall be provided verbally or in writing to the parent or the person who removes the child from the center. The record shall contain information on each of these areas:

a. The time periods in which the child has slept.

b. The amount of food consumed and the times at which the child has eaten.

c. The time of and any irregularities in the child's elimination patterns.

d. The general disposition of the child.

e. A general summary of the activities in which the child participated.

441—109.10(237A) Health and safety policies. The child care center shall establish definite health policies, including the criteria for excluding a sick child from the center. The policies shall be consistent with the recommendations of the National Health and Safety Performance Standards and shall include, but are not limited to:

109.10(1) *Physical examination report.*

a. *Preschool-age children.* For each child five years of age and younger not enrolled in kindergarten, the child care center shall require an admission physical examination report, submitted within 30 days from the date of admission, signed by a licensed medical doctor, doctor of osteopathy, physician's assistant or advanced registered nurse practitioner. The date of the physical examination shall be no more than 12 months prior to the first day of attendance at the center. The written report shall include past health history, status of present health including allergies, medications, and acute or chronic conditions, and recommendations for continued care when necessary. Annually thereafter, a statement of health condition, signed by a licensed medical doctor, doctor of osteopathy, physician's assistant or advanced registered nurse practitioner, shall be submitted that includes any change in functioning, allergies, medications, or acute or chronic conditions.

b. *School-age children.* For each child five years of age and older and enrolled in school, the child care center shall require, prior to admission, a statement of health status signed by the parent or legal guardian that certifies that the child is free of communicable disease and that specifies any allergies, medications, or acute or chronic conditions. The statement from the parent shall be submitted annually thereafter.

c. *Religious exemption.* Nothing in this rule shall be construed to require medical treatment or immunization for staff or the child of any person who is a member of a church or religious organization which has guidelines governing medical treatment for disease that are contrary to these rules. In these instances, an official statement from the organization shall be incorporated in the personnel or child's file.

109.10(2) *Medical and dental emergencies.* The center shall have sufficient information and authorization to meet the medical and dental emergencies of children. The center shall have written procedures for medical and dental emergencies and shall ensure, through orientation and training, that all staff are knowledgeable of and able to implement the procedures.

109.10(3) Medications. The center shall have written procedures for the dispensing, storage, authorization, and recording of all prescription and nonprescription medications, including the following:

a. All medications shall be stored in their original containers, with accompanying physician or pharmacist's directions and label intact and stored so they are inaccessible to children and the public. Nonprescription medications shall be labeled with the child's name.

b. For every day an authorization for medication is in effect and the child is in attendance, there shall be a notation of administration including the name of the medicine, date, time, dosage given or applied, and the initials of the person administering the medication or the reason the medication was not given.

c. In the case of medications that are administered on an ongoing, long-term basis, authorization shall be obtained for a period not to exceed the duration of the prescription.

109.10(4) Daily contact. Each child shall have direct contact with a staff person upon arrival for early detection of apparent illness, communicable disease, or unusual condition or behavior which may adversely affect the child or the group. The center shall post notice at the main entrance to the center where it is visible to parents and the public of exposure of a child receiving care by the center to a communicable disease, the symptoms, and the period of communicability. If the center is located in a building used for other purposes and shares the main entrance to the building, the notice shall be conspicuously posted in the center in an area that is frequented daily by parents or the public.

109.10(5) Infectious disease control. Centers shall establish policies and procedures related to infectious disease control and the use of universal precautions with the handling of any bodily excrement or discharge, including blood and breast milk. Soiled diapers shall be stored in containers separate from other waste.

109.10(6) Quiet area for ill or injured. The center shall provide a quiet area under supervision for a child who appears to be ill or injured. The parents or a designated person shall be notified of the child's status in the event of a serious illness or emergency.

109.10(7) Staff hand washing. The center shall ensure that staff demonstrate clean personal hygiene sufficient to prevent or minimize the transmission of illness or disease. All staff shall wash their hands at the following times:

- a.* Upon arrival at the center.
- b.* Immediately before eating or participating in any food service activity.
- c.* After diapering a child.
- d.* Before leaving the rest room either with a child or by themselves.
- e.* Before and after administering nonemergency first aid to a child if gloves are not worn.
- f.* After handling animals and cleaning cages.

109.10(8) Children's hand washing. The center shall ensure that staff assist children in personal hygiene sufficient to prevent or minimize the transmission of illness or disease. For each infant or child with a disability, a separate cloth for washing and one for rinsing may be used in place of running water. Children's hands shall be washed at the following times:

- a.* Immediately before eating or participating in any food service activity.
- b.* After using the rest room or being diapered.
- c.* After handling animals.

109.10(9) First-aid kit. The center shall ensure that a clearly labeled first-aid kit is available and easily accessible to staff at all times whenever children are in the center, in the outdoor play area, and on field trips. The kit shall be sufficient to address first aid related to minor injury or trauma and shall be stored in an area inaccessible to children.

109.10(10) Recording incidents. Incidents involving a child, including minor injuries, minor changes in health status, or behavioral concerns, shall be reported to the parent on the day of the incident. Incidents resulting in an injury to a child shall be reported to the parent on the day of the incident. Incidents resulting in a serious injury to a child or significant change in health status shall be reported immediately to the parent. A written report shall be provided to the parent or person authorized

to remove the child from the center. The written report shall be prepared by the staff member who observed the incident and a copy shall be retained in the child's file.

109.10(11) Smoking. Smoking and the use of tobacco products shall be prohibited in the center, outdoor play area and in the center-operated vehicle during hours of operation of the center.

109.10(12) Transportation. As outlined in Iowa Code section 321.446, all children transported in a motor vehicle subject to registration, except a bus, shall be individually secured by a safety belt, safety seat, or harness in accordance with federal motor vehicle safety standards and the manufacturer's instructions.

a. Children under the age of 6 shall be secured during transit in a federally approved child restraint system. Children under 1 year of age and weighing less than 20 pounds shall be secured during transit in a rear-facing child restraint system.

b. Children under the age of 12 shall not be located in the front seating section of the vehicle.

c. Drivers of vehicles shall possess a valid driver's license and shall not operate a vehicle while under the influence of alcohol, illegal drugs, prescription or nonprescription drugs that could impair the drivers' ability to operate a motor vehicle.

d. Vehicles that are owned or leased by the center shall receive regular maintenance and inspection according to manufacturer-recommended guidelines for vehicle and tire maintenance and inspection.

109.10(13) Field trip emergency numbers. Emergency telephone numbers for each child shall be taken by staff when transporting children to and from school and on field trips and non-center-sponsored activities away from the premises.

109.10(14) Pets. Animals kept on site shall be in good health with no evidence of disease, be of such disposition as to not pose a safety threat to children, and be maintained in a clean and sanitary manner. Documentation of current vaccinations shall be available for all cats and dogs. No ferrets, reptiles, including turtles, or birds of the parrot family shall be kept on site. Pets shall not be allowed in kitchen or food preparation areas.

109.10(15) Emergency plans.

a. The center shall have written emergency plans for responding to fire, tornado, flood (if area is susceptible to flood), intruders within the center, intoxicated parents and lost or abducted children. In addition, the center shall have guidelines for responding or evacuating in case of blizzards, power failures, bomb threats, chemical spills, earthquakes, or other disasters that could create structural damage to the center or pose health hazards. If the center is located within a ten-mile radius of a nuclear power plant or research facility, the center shall also have plans for nuclear evacuations. Emergency plans shall include written procedures including plans for transporting children and notifying parents, emergency telephone numbers, diagrams, and specific considerations for immobile children.

b. Emergency instructions, telephone numbers, and diagrams for fire, tornado, and flood (if area is susceptible to floods) shall be visibly posted by all program and outdoor exits. Emergency plan procedures shall be practiced and documented at least once a month for fire and for tornado. Records on the practice of fire and tornado drills shall be maintained for the current and previous year.

c. The center shall develop procedures for annual staff training on these emergency plans and shall include information on responding to fire, tornadoes, intruders, intoxicated parents and lost or abducted children in the orientation provided to new employees.

d. The center shall conduct a daily check to ensure that all exits are unobstructed.

109.10(16) Supervision. The center director and on-site supervisor shall ensure that each staff member, substitute, or volunteer knows the number and names of children assigned to that staff member, substitute, or volunteer for care. Assigned staff, substitutes, and volunteers shall provide careful supervision. Any person in the center who is not an owner, staff member, substitute, or volunteer who has a record check and department approval to be involved with child care shall not have unrestricted access to children for whom that person is not the parent, guardian, or custodian.

441—109.11(237A) Physical facilities.

109.11(1) Room size. The program room size shall be a minimum of 80 square feet of useable floor space or sufficient floor space to provide 35 square feet of useable floor space per child. In rooms where

floor space occupied by cribs is counted as useable floor space, there shall be 40 square feet of floor space per child. Kitchens, bathrooms, halls, lobby areas, storage areas and other areas of the center not designed as activity space for children shall not be used as regular program space or counted as useable floor space.

109.11(2) *Infants' area.* An area shall be provided properly and safely equipped for the use of infants and free from the intrusion of children two years of age and older. Children over 18 months of age may be grouped outside this area if appropriate to the developmental needs of the child. Upon the recommendation of a child's physician or the area education agency serving the child, a child who is two years of age or older with a disability that results in significant developmental delays in physical and cognitive functioning who does not pose a threat to the safety of the infants may, if appropriate and for a limited time approved by the department, remain in the infant area.

109.11(3) *Facility requirements.*

a. The center shall ensure that:

(1) The facility and premises are sanitary, safe and hazard-free.

(2) Adequate indoor and outdoor program space that is adjacent to the center is provided. Centers shall have a safe outdoor program area with at least sufficient square footage to accommodate 30 percent of the enrollment capacity at any one time at 75 square feet per child. The outdoor area shall include safe play equipment and an area of shade.

(3) Sufficient program space is provided for dining to allow ease of movement and participation by children and to allow staff sufficient space to attend to the needs of the children during routine care and emergency procedures.

(4) Sufficient lighting shall be provided to allow children to adequately perform developmental tasks without eye strain.

(5) Sufficient ventilation is provided to maintain adequate indoor air quality.

(6) Sufficient heating is provided to allow children to perform tasks comfortably without excessive clothing.

(7) Sufficient cooling is provided to allow children to perform tasks without being excessively warm or subject to heat exposure.

(8) Sufficient bathroom and diapering facilities are provided to attend immediately to children's toileting needs and maintained to reduce the transmission of disease.

(9) Equipment, including kitchen appliances, placed in a program area is maintained so as not to result in burns, shock or injury to children.

(10) Sanitation and safety procedures for the center are developed and implemented to reduce the risk of injury or harm to children and reduce the transmission of disease.

b. Approval may be given by the department to waive the outdoor space requirement for programs of three hours or less, provided there is suitable substitute space and equipment available.

c. Approval may be given by the department for centers operating in a densely developed area to use alternative outdoor play areas in lieu of adjacent outdoor play areas.

d. The director or designated person shall complete and keep a record of at least monthly inspections of the outdoor recreation area and equipment for the purpose of assessing and rectifying potential safety hazards. If the outdoor play area is not used for a period of time due to inclement weather conditions, the center shall document the reasons why the monthly inspection did not occur and shall complete and document an inspection prior to resuming use of the area.

e. Centers that operate in a public school building, including before and after school programs and summer programs serving school-age children, may receive limited exemption from a facility requirement at subrule 109.11(3), particularly relating to ventilation and bathroom facilities, if complying with the requirement would require a structural or mechanical change to the school building. Centers shall ensure that the space occupied by the center is sanitary, safe, and hazard-free and shall conduct monthly playground inspections or provide documentation that one has been completed by the public school personnel.

109.11(4) *Bathroom facilities.* At least one functioning toilet and one sink for each 15 children shall be provided in a room with natural or artificial ventilation. Training seats or chairs may be used for

children under two years of age. New construction after November 1, 1995, shall provide for at least one sink in the same area as the toilet and, for centers serving children two weeks to two years of age, shall provide for at least one sink in the central diapering area. At least one sink shall be provided in program rooms for infants and toddlers or in an adjacent area other than the kitchen. New construction after April 1, 1998, shall have at least one sink provided in the program rooms for infants and toddlers.

109.11(5) Telephone. A working nonpay telephone shall be available in the center with emergency telephone numbers for police or 911, fire, ambulance, and poison information center posted adjacent to the telephone. The street address and telephone number of the center shall be included in the posting. A separate file or listing of emergency telephone numbers for each child shall be maintained near the telephone.

109.11(6) Kitchen appliances and microwaves. Gas or electric ranges or ovens shall not be placed in the program area. If kitchen appliances are maintained in the program area for food preparation activities, the area shall be sectioned off and shall not be counted as useable floor space for room size. Centers using microwave ovens for warming infant bottles or infant food shall ensure that the formula or food item is not served immediately to the child after being removed from the microwave. The infant bottle shall be shaken or food stirred and the formula or food item tested by the caregiver before being fed to the infant. Breast milk shall not be warmed in a microwave.

109.11(7) Environmental hazards.

a. Within one year of being issued an initial or renewal license, centers operating in facilities built prior to 1960 shall conduct a visual assessment for lead hazards that exist in the form of peeling or chipping paint. If the presence of peeling or chipping paint is found, the paint shall be presumed to be lead-based paint unless a certified inspector as defined in department of public health rules at 641—Chapter 70 determines that it is not lead-based paint. If the presence of peeling or chipping paint is found, interim controls using safe work methods as defined by the state department of public health shall be accomplished prior to a full license being issued.

b. Within one year of being issued an initial or renewal license, centers operating in facilities that are at ground level, use a basement area as program space, or have a basement beneath the program area shall have radon testing performed as prescribed by the state department of public health at 641—Chapter 43. Testing shall be required if test kits are available from the local health department or the Iowa Radon Coalition. Retesting shall be accomplished at least every two years from the date of the initial measurement if test kits are available from the local health department or the Iowa Radon Coalition. If testing determines confirmed radon gas levels in excess of 4.0 picocurie per liter, a plan using radon mitigation procedures established by the state department of public health shall be developed with and approved by the state department of public health prior to a full license being issued.

c. To reduce the risk of carbon monoxide poisoning, all centers shall, on an annual basis prior to the heating season, have a professional inspect all fuel-burning appliances, including oil and gas furnaces, gas water heaters, gas ranges and ovens, and gas dryers, to ensure the appliances are in good working order with proper ventilation. All centers shall install one carbon monoxide detector on each floor of the center that is listed with Underwriters Laboratory (UL) as conforming to UL Standard 2034.

d. Centers that operate before and after school programs and summer-only programs that serve only school-age children and that operate in a public school building are exempted from testing for lead, radon, and carbon monoxide.

441—109.12(237A) Activity program requirements.

109.12(1) Activities. The center shall have a written curriculum or program structure that uses developmentally appropriate practices and a written program of activities planned according to the developmental level of the children. The center shall post a schedule of the program in a visible place. The child care program shall complement but not duplicate the school curriculum. The program shall be designed to provide children with:

a. A curriculum or program of activities that promotes self-esteem and positive self-image; social interaction; self-expression and communication skills; creative expression; and problem-solving skills.

- b. A balance of active and quiet activities; individual and group activities; indoor and outdoor activities; and staff-initiated and child-initiated activities.
- c. Activities which promote both gross and fine motor development.
- d. Experiences in harmony with the ethnic and cultural backgrounds of the children.
- e. A supervised nap or quiet time for all children under the age of six not enrolled in school who are present at the center for five or more hours.

109.12(2) Discipline. The center shall have a written policy on the discipline of children which provides for positive guidance, with direction for resolving conflict and the setting of well-defined limits. The written policy shall be provided to staff at the start of employment and to parents at time of admission. The center shall not use as a form of discipline:

- a. Corporal punishment including spanking, shaking, and slapping.
- b. Punishment which is humiliating or frightening or which causes pain or discomfort to the child. Children shall never be locked in a room, closet, box or other device. Mechanical restraints shall never be used as a form of discipline. When restraints are part of a treatment plan for a child with a disability authorized by the parent and a psychologist or psychiatrist, staff shall receive training on the safe and appropriate use of the restraint.
- c. Punishment or threat of punishment associated with a child's illness, lack of progress in toilet training, or in connection with food or rest.
- d. No child shall be subjected to verbal abuse, threats, or derogatory remarks about the child or the child's family.

109.12(3) Policies for children requiring special accommodations. Reasonable accommodations, based on the special needs of the child, shall be made in providing care to a child with a disability. Accommodation can be a specific treatment prescribed by a professional or a parent, or a modification of equipment, or removal of physical barriers. The accommodation shall be recorded in the child's file.

109.12(4) Play equipment, materials and furniture. The center shall provide sufficient and safe indoor play equipment, materials, and furniture that conform with the standards or recommendations of the Consumer Product Safety Commission or the American Society for Testing and Materials for juvenile products. Play equipment, materials, and furniture shall meet the developmental, activity, and special needs of the children.

Rooms shall be arranged so as not to obstruct the direct observation of children by staff. Individual covered mats, beds, or cots and appropriate bedding shall be provided for all children who nap. The center shall develop procedures to ensure that all equipment and materials are maintained in a sanitary manner. Sufficient spacing shall be maintained between equipment to reduce the transmission of disease, to allow ease of movement and participation by children and to allow staff sufficient space to attend to the needs of the children during routine care and emergency procedures. The center shall provide sufficient toilet articles for each child for hand washing. Parents may provide items for oral hygiene (if appropriate to the developmental age and needs of the child). The center shall ensure that sanitary procedures are followed for use and storage of the articles.

109.12(5) Infant environment. A child care center serving children two weeks to two years old must provide an environment which protects the children from physical harm, but is not so restrictive as to inhibit physical, intellectual, emotional, and social development.

- a. Stimulation shall be provided to each child through being held, rocked, played with and talked with throughout the time care is provided. Insofar as possible, the same adult should provide complete care for the same child.
- b. Each infant and toddler shall be diapered in a sanitary manner as frequently as needed at a central diapering area. Diapering, sanitation, and hand-washing procedures shall be posted and implemented in every diapering area. There shall be at least one changing table for every 15 infants.
- c. Highchairs or hook-on seats shall be equipped with a safety strap which shall be engaged when the chair is in use and shall be constructed so the chair will not topple.
- d. Safe, washable toys, large enough so they cannot be swallowed and with no removable parts, shall be provided. All hard-surface toys used by children shall be sanitized daily.

e. Children under the age of one year shall be placed on their backs when sleeping unless otherwise authorized by a parent or physician. A crib or criblike furniture which has a waterproof mattress covering and sufficient bedding to enable a child to rest comfortably and which meets the current standards or recommendations from the Consumer Product Safety Commission or the American Society for Testing and Materials for juvenile products shall be provided for each child under two years of age if developmentally appropriate. Crib railings shall be fully raised and secured when the child is in the crib. A crib or criblike furniture shall be provided for the number of children present at any one time. The center shall develop procedures for maintaining all cribs or criblike furniture and bedding in a clean and sanitary manner. There shall be no restraining devices of any type used in cribs.

f. When playpens are provided, no more than one child shall be placed in one at any time.

g. Infant walkers shall not be used.

h. For programs operating five hours or less on a daily basis, the center shall have a sufficient number of cribs or criblike furniture which has a waterproof mattress covering and sufficient bedding to enable a child to rest comfortably and which meets the current standards from the Consumer Product Safety Commission or the American Society for Testing and Materials for juvenile products for children who may nap during the time in attendance. Cribs or criblike furniture shall be used by only one child at a time and shall be maintained in a clean and sanitary manner.

441—109.13(237A) Extended evening care. A center providing extended evening care shall comply with the licensing requirements for centers contained in Iowa Code chapter 237A and this chapter, with the additional requirements set forth below.

109.13(1) Facility requirements.

a. The center shall ensure that sufficient cribs, beds, cots and bedding are provided appropriate to the child's age and that sufficient furniture, lighting, and activity materials are available for the children. Equipment and materials shall be maintained in a safe and sanitary manner.

b. The center shall ensure that a separate space is maintained for school-age boys and girls to provide privacy during bathroom and bedtime activities. Bathroom doors used by children shall be nonlockable.

c. The center shall ensure that parents have provided the personal effects needed to meet their child's personal hygiene and prepare for sleep. The center shall supplement those items needed for personal hygiene which the parent does not provide. The center shall obtain written information from the parent regarding the child's snacking, toileting, personal hygiene and bedtime routines.

109.13(2) Activities.

a. Evening activities shall be primarily self-selected by the child.

b. Every child-occupied room except those rooms used only by school-age children for sleeping shall have adult supervision present in the room. Staff counted for purposes of meeting child-to-staff ratios shall be present and awake at all times. In rooms where only school-age children are sleeping, visual monitoring equipment may be used. If a visual monitor is used, the monitoring must allow for all children to be visible at all times. Staff shall be present in the room with the monitor and shall enter the room used for sleeping to conduct a check of the children every 15 minutes.

441—109.14(237A) Get-well center. A get-well center shall comply with the licensing requirements for centers contained in Iowa Code chapter 237A and this chapter with the additional requirements and exceptions set forth below.

109.14(1) Staff requirements.

a. The center shall have a medical advisor for the center's health policy. The medical advisor shall be a medical doctor or a doctor of osteopathy currently in pediatrics or family practice.

b. A center shall have a licensed LPN or RN on duty at all times that children are present. If the nurse on duty is an LPN, the medical advisor or an RN shall be available in the proximate area as defined in state board of nursing rules at 655—6.1(152).

109.14(2) Health policies.

a. The center shall have a written health policy, consistent with the National Health and Safety Performance Standards, approved and signed by the owner or the chair of the board and by the medical advisor before the center can begin operations. Changes in the health policy shall be approved by the medical advisor and submitted in writing to the department. A written summary of the health policy shall be given to the parent when a child is enrolled in the center. The center's health policy at a minimum shall address procedures in the following areas:

(1) Medical consultation, medical emergencies, triage policies, storage and administration of medications, dietary considerations, sanitation and infection control, categorization of illness, length of enrollment periods, exclusion policy, and employee health policy.

(2) Reportable disease policies as required by the state department of public health.

b. The child shall be given a brief evaluation by an LPN or RN upon each arrival at the center.

c. The parent shall receive a brief written summary when the child is picked up at the end of the day. The summary must include:

(1) Admitting symptoms.

(2) Medications administered and time they were administered.

(3) Nutritional intake.

(4) Rest periods.

(5) Output.

(6) Temperature.

109.14(3) Exceptions. The following exceptions to 441—Chapter 109 shall be applied to get-well centers:

a. A center shall maintain a minimum staff ratio of one-to-four for infants and one-to-five for children over the age of two.

b. All staff that have contact with children shall have a minimum of 17 clock hours of special training in caring for mildly ill children. Current certification of the training shall be contained in the personnel files. Special training shall be department-approved and include the following:

(1) Four hours' training in infant and child cardiopulmonary resuscitation (CPR), four hours' training in pediatric first aid, and one hour of training in infection control within the first month of employment.

(2) Six hours' training in care of ill children, and two hours' training in child abuse identification and reporting within the first six months of employment and every five years thereafter.

c. There shall be 40 square feet of program space per child.

d. There shall be a sink with hot and cold running water in every child-occupied room.

e. Outdoor space may be waived with the approval of the department if the program is in an area adjacent to the pediatrics unit of a hospital.

f. Grouping of children shall be allowed by categorization of illness or by transmission route without regard to age, and shall be in separate rooms with full walls and doors.

441—109.15(237A) Food services. Centers participating in the USDA Child and Adult Care Food Program (CACFP) may have requirements that differ from those outlined in this rule in obtaining CACFP reimbursement and shall consult with a state CACFP consultant.

109.15(1) Nutritionally balanced meals or snacks. The center shall serve each child a full, nutritionally balanced meal or snack as defined by the USDA Child and Adult Care Food Program (CACFP) guidelines and shall ensure that staff provide supervision at the table during snacks and meals. Children remaining at the center two hours or longer shall be offered food at intervals of not less than two hours or more than three hours apart unless the child is asleep.

109.15(2) Menu planning. The center shall follow the minimum CACFP menu patterns for meals and snacks and serving sizes for children aged infant to 13 years. Menus shall be planned at least one week in advance, made available to parents, and kept on file at the center. Substitutions in the menu, including substitutions made for infants, shall be noted and kept on file. Foods with a high incident rate of causing choking in young children shall be avoided or modified. Provisions of this subrule

notwithstanding, exceptions shall be allowed for special diets because of medical reasons in accordance with the child's needs and written instructions of a licensed physician or health care provider.

109.15(3) Feeding of children under two years of age.

a. All children under 12 months of age shall be fed on demand, unless the parent provides other written instructions. Meals and snacks provided by the center shall follow the CACFP infant menu patterns. Foods shall be appropriate for the infant's nutritional requirements and eating abilities. Menu patterns may be modified according to written instructions from the parent, physician or health care provider. Special formulas prescribed by a physician or health care provider shall be given to a child who has a feeding problem.

b. All children under six months of age shall be held or placed in a sitting-up position sufficient to prevent aspiration during feeding. No bottles shall be propped for children of any age. A child shall not be placed in a crib with a bottle or left sleeping with a bottle. Spoon feeding shall be adapted to the developmental capabilities of the child.

c. Single-service, ready-to-feed formulas, concentrated or powdered formula following the manufacturer's instructions or breast milk shall be used for children 12 months of age and younger unless otherwise ordered by a parent or physician.

d. Whole milk for children under age two who are not on formula or breast milk unless otherwise directed by a physician.

e. Cleaned and sanitized bottles and nipples shall be used for bottles prepared on site. Prepared bottles shall be kept under refrigeration when not in use.

109.15(4) Food brought from home.

a. The center shall establish policies regarding food brought from home for children under five years of age who are not enrolled in school. A copy of the written policy shall be given to the parent at admission. Food brought from home for children under five years of age who are not enrolled in school shall be monitored and supplemented if necessary to ensure CACFP guidelines are maintained.

b. The center may not restrict a parent from providing meals brought from home for school-age children or apply nutritional standards to the meals.

c. Perishable foods brought from home shall be maintained to avoid contamination or spoilage.

d. Snacks that may not meet CACFP nutrition guidelines may be provided by parents for special occasions such as birthdays or holidays.

109.15(5) Food preparation, storage, and sanitation. Centers shall ensure that food preparation and storage procedures are consistent with the recommendations of the National Health and Safety Performance Standards and provide:

a. Sufficient refrigeration appropriate to the perishable food to prevent spoilage or the growth of bacteria.

b. Sanitary and safe methods in food preparation, serving, and storage sufficient to prevent the transmission of disease, infestation of insects and rodents, and the spoilage of food. Staff preparing food who have injuries on their hands shall wear protective gloves. Staff serving food shall have clean hands or wear protective gloves and use clean serving utensils.

c. Sanitary methods for dish-washing techniques sufficient to prevent the transmission of disease.

d. Sanitary methods for garbage disposal sufficient to prevent the transmission of disease and infestation of insects and rodents.

109.15(6) Water supply. The center shall ensure that suitable water and sanitary drinking facilities are available and accessible to children. Centers that serve infants and toddlers shall provide individual cups for drinking in addition to drinking fountains that may be available in the center.

a. Private water supplies shall be of satisfactory bacteriological quality as shown by an annual laboratory analysis. Water for the analysis shall be drawn between May 1 and June 30 of each year. When the center provides care for children under two years of age, a nitrate analysis shall also be obtained.

b. When public or private water supplies are determined unsuitable for drinking, commercially bottled water certified as chemically and bacteriologically potable or water treated through a process approved by the health department or designee shall be provided.

These rules are intended to implement Iowa Code section 232.69 and chapter 237A.

CHAPTER 110
CHILD DEVELOPMENT HOMES

[Prior to 7/1/83, Social Services[770] Ch 110]

[Prior to 2/11/87, Human Services[498]]

PREAMBLE

This chapter establishes registration procedures for child development homes. Included are application and renewal procedures, standards for providers, and procedures for compliance checks and complaint investigation.

441—110.1(237A) Definitions.

“Adult” means a person aged 18 or older.

“Assistant” means a responsible person aged 14 or older. The assistant may never be left alone with children. Ultimate responsibility for supervision is with the child care provider.

“Child” means either of the following:

1. A person 12 years of age or younger.
2. A person 13 years of age or older but younger than 19 years of age who has a developmental disability, as defined under the federal Developmental Disabilities Assistance and Bill of Rights Act of 2000, Public Law No.106-402, codified in 42 U.S.C. 15002(8).

“Child care” means the care, supervision, or guidance of a child by a person other than the child’s parent, guardian, or custodian for periods of less than 24 hours per day per child on a regular basis. Child care shall not mean special activity programs that meet on a regular basis such as music or dance classes, organized athletics or sports programs, scouting programs, or hobby or craft classes or clubs.

“Child care facility” or *“facility”* means a child care center, a preschool, or a registered child development home.

“Child care home” means a person or program providing child care to five or fewer children at any one time that is not registered to provide child care under this chapter, as authorized under Iowa Code section 237A.3.

“Child development home” means a person or program registered under this chapter that may provide child care to six or more children at any one time.

“Department” means the department of human services.

“Involvement with child care” means licensed or registered as a child care facility, employed in a child care facility, residing in a child care facility, receiving public funding for providing child care, providing child care as a child care home provider, or residing in a child care home.

“Parent” means parent or legal guardian.

“Part-time hours” means the hours that child development homes in categories B and C are allowed to exceed their maximum preschool or school-age capacity. A provider may use a total of up to 180 hours per month as part-time hours. No more than two children using part-time hours may be in the child development home at any one time.

“Person subject to an evaluation” means a person who has committed a transgression and who is described by any of the following:

1. The person is being considered for registration or is registered.
2. The person is being considered by a child care facility for employment involving direct responsibility for a child or with access to a child when the child is alone, or the person is employed with such responsibilities.
3. The person will reside or resides in a child care facility.
4. The person has applied for or receives public funding for providing child care.
5. The person will reside or resides in a child care home that is not registered but that receives public funding for providing child care.

“Provider” means the person or program that applies for registration to provide child care and is approved as a child development home.

“*Registration*” means the process by which child care providers certify that they comply with rules adopted by the department.

“*Registration certificate*” means the written document issued by the department to publicly state that the provider has certified in writing compliance with the minimum requirements for registration of a child development home.

“*School*” means kindergarten or a higher grade level.

“*Transgression*” means the existence of any of the following in a person’s record:

1. Conviction of a crime.
2. A record of having committed founded child or dependent adult abuse.
3. Listing in the sex offender registry established under Iowa Code chapter 692A.
4. A record of having committed a public or civil offense.
5. Department revocation or denial of a child care facility registration or license due to the person’s continued or repeated failure to operate the child care facility in compliance with licensing and registration laws and rules.

441—110.2(237A) Application for registration. A provider shall apply for registration on Form 470-3384, Application for Child Development Home Registration, provided by the department’s local office or, if available, on the department’s Web site. The provider shall also use Form 470-3384 to inform the department of any changes in circumstances that would affect the registration.

441—110.3(237A) Renewal. Renewal of registration shall be completed every 24 months. To request renewal, a provider shall submit Form 470-3384, Application for Child Development Home Registration, and copies of certificates of training, to be retained in the registration file. The renewal process shall include completion of child abuse, sex offender, and criminal record checks.

441—110.4(237A) Number of children. The number of children shall conform to the following standards:

110.4(1) Limit. Except as provided in subrule 110.4(3), no greater number of children shall be received for care at any one time than the number authorized on the registration certificate.

110.4(2) Children counted. In determining the number of children cared for at any one time in a child development home, each child present in the child development home shall be considered to be receiving care unless the child is described by one of the following exceptions:

a. The child’s parent, guardian, or custodian established or operates the child development home and either the child is attending school or the child receives child care full-time on a regular basis from another person.

b. The child has been present in the child development home for more than 72 consecutive hours and meets the requirements of the exception in paragraph “*a*” as though the person who established or operates the child development home is the child’s parent, guardian, or custodian.

110.4(3) Exception for emergency school closing. On days when schools are closed due to emergencies such as inclement weather or physical plant failure, a child development home may have additional children present in accordance with the authorization for the registration category of the home and subject to all of the following conditions:

a. The child development home has prior written approval from the parent or guardian of each child present in the home concerning the presence of additional children in the home.

b. The child development home has a department-approved assistant, aged 14 or older, on duty to assist the care provider, as required for the registration category of the home.

c. One or more of the following conditions are applicable to each of the additional children present in the child development home:

- (1) The home provides care to the child on a regular basis for periods of less than two hours.
- (2) If the child were not present in the child development home, the child would be unattended.
- (3) The home regularly provides care to a sibling of the child.

d. The provider shall maintain a written record including the date of the emergency school closing, the reason for the closing, and the number of children in care on that date.

441—110.5(237A) Standards. The provider shall certify that the child development home meets the following standards and also the standards in either rule 110.8(237A), 110.9(237A), or 110.10(237A), specific to the category of home for which the provider requests registration.

110.5(1) Health and safety. Conditions in the home shall be safe, sanitary, and free of hazards.

a. The home shall have a non-pay, working telephone with emergency numbers posted for police, fire, ambulance, and the poison information center. A cell phone shall not be used as the primary phone. The number for each child's parent, for a responsible person who can be reached when the parent cannot, and for the child's physician shall be readily accessible by the telephone.

b. All medicines and poisonous, toxic, or otherwise unsafe materials shall be secured from access by a child.

c. A first-aid kit shall be available and easily accessible whenever children are in the child development home, in the outdoor play area, in vehicles used to transport children, and on field trips. The kit shall be sufficient to address first aid related to minor injury or trauma and shall be stored in an area inaccessible to children.

d. Medications shall be given only with the parent's or doctor's written authorization. Each prescribed medication shall be accompanied by a physician's or pharmacist's direction. Both nonprescription and prescription medications shall be in the original container with directions intact and labeled with the child's name. All medications shall be stored properly and, when refrigeration is required, shall be stored in a separate, covered container so as to prevent contamination of food or other medications. All medications shall be stored so they are inaccessible to children.

e. Electrical wiring shall be maintained with all accessible electrical outlets safely capped and electrical cords properly used. Improper use includes running cords under rugs, over hooks, through door openings, or other use that has been known to be hazardous.

f. Combustible materials shall be kept away from furnaces, stoves, water heaters, and gas dryers.

g. Approved safety gates at stairways and doors shall be provided and used as needed.

h. A safe outdoor play area shall be maintained in good condition throughout the year. The play area shall be fenced off when located on a busy thoroughfare or near a hazard which may be injurious to a child, and shall have both sunshine and shade areas. The play area shall be kept free from litter, rubbish, and flammable materials and shall be free from contamination by drainage or ponding of sewage, household waste, or storm water.

i. Annual laboratory analysis of a private water supply shall be conducted to show satisfactory bacteriological quality. When children under the age of two are to be cared for, the analysis shall include a nitrate analysis. When private water supplies are determined unsuitable for drinking, commercially bottled water or water treated through a process approved by the health department or designee shall be provided.

j. Emergency plans in case of man-made or natural disaster shall be written and posted by the primary and secondary exits. The plans shall clearly map building evacuation routes and tornado and flood shelter areas.

k. Fire and tornado drills shall be practiced monthly and the provider shall keep documentation evidencing compliance with monthly practice on file.

l. A safety barrier shall surround any heating stove or heating element, in order to prevent burns.

m. The home shall have at least one 2A 10BC rated fire extinguisher located in a visible and readily accessible place on each child-occupied floor.

n. The home shall have at least one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway. Each smoke detector shall be installed according to manufacturer's recommendations. The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes.

o. Smoking and the use of tobacco products shall be prohibited in areas that may be used by children receiving care in the home, in the outdoor play area, and in any vehicle in which children receiving care in the home are transported during the home's hours of operation.

p. Children under the age of one year shall be placed on their backs when sleeping unless otherwise authorized in writing by a physician.

q. Providers shall inform parents of the presence of any pet in the home.

(1) Each dog or cat in the household shall undergo an annual health examination by a licensed veterinarian and be issued a veterinary health certificate. This certificate shall verify that the animal's routine immunizations, particularly rabies, are current and that the animal is free of endoparasites (e.g., roundworms, hookworms, whipworms) and ectoparasites (e.g., fleas, mites, ticks, lice).

(2) Each pet bird in the household shall be purchased from a dealer licensed by the Iowa department of agriculture and land stewardship and shall be examined by a veterinarian to verify that it is free of infectious diseases. Children shall not handle pet birds.

(3) Aquariums shall be well maintained and installed in a manner that prevents children from accessing the water or pulling over a tank.

(4) All animal waste shall be immediately removed from the children's areas and properly disposed of. Children shall not perform any feeding or care of pets or cleanup of pet waste.

(5) No animals shall be allowed in the food preparation, food storage, or serving areas during food preparation and serving times.

r. When there is a swimming or wading pool on the premises:

(1) A wading pool shall be drained daily and shall be inaccessible to children when it is not in use.

(2) An aboveground or in-ground swimming pool that is not fenced shall be covered whenever the pool is not in use. The cover shall meet or exceed the standards of the American Society for Testing and Materials.

(3) An uncovered aboveground swimming pool shall be enclosed with an approved fence that is four feet above the side walls.

(4) An uncovered in-ground swimming pool shall be enclosed with a fence that is at least four feet high and flush with the ground.

s. If children are allowed to use an aboveground or in-ground swimming pool:

(1) Written permission from parents shall be available for review.

(2) Equipment needed to rescue a child or adult shall be readily accessible.

(3) The child care provider shall accompany the children and provide constant supervision while the children use the pool.

(4) The child care provider shall complete training in cardiopulmonary resuscitation for infants, toddlers, and children, according to the criteria of the American Red Cross or the American Heart Association.

t. Homes served by private sewer systems shall be compliant with environmental protection commission rules on wastewater treatment and disposal systems at 567—Chapter 69. Compliance shall be verified by the local board of health within 12 months of renewal or new registration.

u. The provider shall have written policies regarding the care of mildly ill children and exclusion of children due to illness and shall inform parents of these policies.

v. The provider shall have written policy and procedures for responding to health-related emergencies.

w. The provider shall document all injuries that require first aid or medical care using an injury report form. The form shall be completed on the date of occurrence, shared with the parent, and maintained in the child's file.

110.5(2) Provider files. A provider file shall be maintained and shall contain the following:

a. A physician's signed statement that the provider and members of the provider's household are free of diseases or disabilities that would prevent good child care. This statement shall:

(1) Be obtained at the time of the first registration and at least every two years thereafter on all members of the provider's household that may be present when children are in the home.

(2) Include immunization or immune status for measles, mumps, rubella, diphtheria, tetanus, and polio. Providers may consult with their physician regarding recommendations for varicella, influenza, pneumonia, hepatitis A, and hepatitis B immunizations.

b. Certificates or other documentation verifying the following required training:

(1) The provider shall receive two hours of approved child abuse and neglect mandatory reporter training during the first three months of registration as a child development home and every five years thereafter.

(2) The provider shall maintain a valid certificate indicating the date of first-aid training and expiration date. The provider shall obtain first-aid training within the first three months of registration as a child development home. This training shall be provided by a nationally recognized training organization, such as the American Red Cross, the American Heart Association, the National Safety Council, or Emergency Medical Planning (Medic First Aid) or an equivalent trainer and curriculum approved by the department.

Effective January 1, 2004, the provider shall receive certification in infant and child first aid that includes management of a blocked airway and mouth-to-mouth resuscitation. Until January 1, 2004, a provider who is unable to obtain first-aid training that includes management of a blocked airway and mouth-to-mouth resuscitation shall also obtain certification in cardiopulmonary resuscitation.

(3) During the first year of registration, the provider shall receive a minimum of 12 hours of training. Two hours of the training must be in the area of health and safety.

(4) During the second year of registration and each succeeding year as a child development home, the provider shall receive a minimum of 12 hours of training chosen from the following categories:

1. Health, safety, and nutrition.
2. Child growth and development.
3. Child observation and assessment.
4. Interactions with children.
5. Learning experiences and environment.
6. Families and communities.
7. Program management.
8. Professional development.

The provider shall receive at least six of the hours of training in a sponsored group setting. The provider may receive the remaining hours in self-study using a training package approved by the department.

(5) A provider who submits documentation from a child care resource and referral agency that the provider has completed the ChildNet training series may use those hours to fulfill a maximum of two years' training requirements, not including first-aid and mandatory reporter training.

c. An individual file for each staff assistant that contains:

- (1) A completed Form 595-1396, DHS Criminal History Record Check.
- (2) A completed Form 470-0643, Request for Child Abuse Information.
- (3) A physician's signed statement that meets the requirements of paragraph 110.5(2) "a."
- (4) Certification of a minimum of two hours of approved training relating to the identification and reporting of child abuse completed within six months of employment and every five years thereafter, as required by Iowa Code section 232.69.

reporting of child abuse completed within six months of employment and every five years thereafter, as required by Iowa Code section 232.69.

d. An individual file for each substitute that contains:

- (1) A completed Form 595-1396, DHS Criminal History Record Check.
- (2) A completed Form 470-0643, Request for Child Abuse Information.
- (3) A physician's signed statement that meets the requirements of paragraph 110.5(2) "a."
- (4) Certification of a minimum of two hours of approved training relating to the identification and reporting of child abuse completed within six months of employment and every five years thereafter, as required by Iowa Code section 232.69.

reporting of child abuse completed within six months of employment and every five years thereafter, as required by Iowa Code section 232.69.

(5) Certification in first aid that meets the requirements of subparagraph 110.5(2) "b"(2).

110.5(3) Activity program. There shall be an activity program which promotes self-esteem and exploration and includes:

- a. Active play.
- b. Quiet play.
- c. Activities for large muscle development.
- d. Activities for small muscle development.
- e. Play equipment and materials in a safe condition, for both indoor and outdoor activities which are developmentally appropriate for the ages and number of children present.

110.5(4) The certificate of registration shall be displayed in a conspicuous place.

110.5(5) Parental access. Parents shall be afforded unlimited access to their children and to the people caring for their children during the normal hours of operation or whenever their children are in the care of the child development home, unless parental contact is prohibited by court order.

110.5(6) Discipline. Discipline shall conform to the following standards:

- a. Corporal punishment including spanking, shaking and slapping shall not be used.
- b. Punishment which is humiliating or frightening or which causes pain or discomfort to the child shall not be used.
- c. Punishment shall not be administered because of a child's illness, or progress or lack of progress in toilet training, nor shall punishment or threat of punishment be associated with food or rest.
- d. No child shall be subjected to verbal abuse, threats, or derogatory remarks about the child or the child's family.
- e. Discipline shall be designed to help the child develop self-control, self-esteem, and respect for the rights of others.

110.5(7) Meals. Regular meals and midmorning and midafternoon snacks shall be provided which are well-balanced, nourishing, and in appropriate amounts as defined by the USDA Child and Adult Care Food Program. Children may bring food to the child development home for their own consumption, but shall not be required to provide their own food.

110.5(8) Children's files. An individual file shall be maintained for each child and updated annually or when the provider becomes aware of changes. The file shall contain:

- a. Identifying information including, at a minimum, the child's name, birth date, parent's name, address, telephone number, special needs of the child, and the parent's work address and telephone number.
- b. Emergency information including, at a minimum, where the parent can be reached, the name, street address, city and telephone number of the child's regular source of health care, and the name, telephone number, and relationship to the child of another adult available in case of emergency.
- c. A signed medical consent from the parent authorizing emergency treatment.
- d. An admission physical examination report signed by a licensed physician or designee in a clinic supervised by a licensed physician.
 - (1) The date of the physical examination shall not be more than 12 months before the child's first day of attendance at the child development home.
 - (2) The written report shall include past health history, status of present health, allergies and restrictive conditions, and recommendations for continued care when necessary.
 - (3) For a child who is five years of age or older and enrolled in school, a statement of health status signed by the parent or legal guardian may be substituted for the physical examination report.
 - (4) The examination report or statement of health status shall be on file before the child's first day of care.
- e. A statement of health condition signed by a physician or designee submitted annually from the date of the admission physical. For a child who is five years of age or older and enrolled in school, a statement of health status signed by the parent or legal guardian may be substituted for the physician statement.
- f. A list signed by the parent which names persons authorized to pick up the child. The authorization shall include the name, telephone number, and relationship of the authorized person to the child.
- g. A signed and dated immunization certificate provided by the state department of public health. For the school-age child, a copy of the most recent immunization record shall be acceptable.

h. For each school-age child, on the first day of attendance, documentation of a physical examination that was completed at the time of school enrollment or since.

i. Written permission from the parent for the child to attend activities away from the child development home. The permission shall include:

- (1) Times of departure and arrival.
- (2) Destination.
- (3) Persons who will be responsible for the child.

j. Injury report forms documenting injuries requiring first aid or medical care.

110.5(9) Provider. The provider shall meet the following requirements:

- a.* Give careful supervision at all times.
- b.* Exchange information with the parent of each child frequently to enhance the quality of care.
- c.* Give consistent, dependable care and be capable of handling emergencies.
- d.* Be present at all times except when emergencies occur or an absence is planned, at which time care shall be provided by a department-approved substitute. When an absence is planned, the provider shall give parents at least 24 hours' prior notice.

110.5(10) Substitutes. The provider shall assume responsibility for providing adequate and appropriate supervision at all times when children are in attendance. Any designated substitute shall have the same responsibility for providing adequate and appropriate supervision. Ultimate responsibility for supervision shall be with the provider.

- a.* All standards in this chapter regarding supervision and care of children shall apply to substitutes.
- b.* Except in emergency situations, the provider shall inform parents in advance of the planned use of a substitute.

c. The substitute must be 18 years of age or older.

d. Use of a substitute shall be limited to:

- (1) No more than 25 hours per month.
- (2) An additional period of up to two weeks in a 12-month period.

e. The provider shall maintain a written record of the number of hours substitute care is provided, including the date and the name of the substitute.

110.5(11) to 110.5(13) Rescinded IAB 10/30/02, effective 12/1/02.

441—110.6(237A) Compliance checks. During a calendar year, the department shall check 20 percent or more of all child development homes in each county for compliance with registration requirements. Completed evaluation checklists shall be placed in the registration files.

441—110.7(234) Registration decision. The department shall issue Form 470-3498, Certificate of Registration, when an applicant meets all requirements for registration. Each local office of the department shall maintain a current list of registered child development homes as a referral service to the community.

110.7(1) Registration shall be denied or revoked if the department finds a hazard to the safety and well-being of a child and the provider cannot correct or refuses to correct the hazard, even though the hazard may not have been specifically listed under the health and safety rules. Registration may also be denied or revoked if the department determines that the provider has failed to comply with standards imposed by law and these rules.

110.7(2) Record shall be kept in an open file of all denials or revocations of registration and the documentation of reasons for denying or revoking the registration.

110.7(3) Record checks. The department shall submit record checks in Iowa for each registrant, substitute, and staff member, and for anyone living in the home who is 14 years of age or older and anyone having access to a child when the child is alone. The purpose of these record checks is to determine whether the person has committed a transgression. The department may use Form 470-0643, Request for Child Abuse Information, and Form 595-1396, DHS Criminal History Record Check, Form B, or any other form required for criminal and child abuse record checks. The department may also

conduct criminal and child abuse record checks in other states and may conduct dependent adult abuse, sex offender registry, and other public or civil offense record checks in Iowa or in other states.

a. Mandatory prohibition. A person with the following convictions or founded abuse reports is prohibited from involvement with child care:

- (1) Founded child or dependent adult abuse that was determined to be sexual abuse.
- (2) Placement on the sex offender registry.
- (3) Felony child endangerment or neglect or abandonment of a dependent person.
- (4) Felony domestic abuse.
- (5) Felony crime against a child including, but not limited to, sexual exploitation of a minor.
- (6) Forcible felony.

b. Mandatory time-limited prohibition.

(1) A person with the following convictions or founded abuse reports is prohibited from involvement with child care for five years from the date of the conviction or founded abuse report:

1. Conviction of a controlled substance offense under Iowa Code chapter 124.
2. Founded child abuse that was determined to be physical abuse.

(2) After the five-year prohibition period from the date of the conviction or the founded abuse report as defined in subparagraph 110.7(3)“b”(1), the person may request the department to perform an evaluation under paragraph 110.7(3)“c” to determine whether prohibition of the person’s involvement with child care continues to be warranted.

c. Evaluation required. For all other transgressions, the department shall deny or revoke the registration, unless an evaluation of the transgression determines that the transgression does not warrant prohibition of involvement with child care.

(1) In an evaluation, the department shall consider all of the following factors:

1. The nature and seriousness of the transgression.
2. The time elapsed since the transgression.
3. The circumstances under which the transgression was committed.
4. The degree of rehabilitation.
5. The likelihood that the person will commit the transgression again.
6. The number of transgressions committed by the person.

(2) The person with the transgression shall complete and return Form 470-2310, Record Check Evaluation, to be used to assist in the evaluation. Failure of the person to complete and return the form within ten calendar days of the date on the form shall result in denial or revocation of the registration certificate.

(3) The department may use information from the department’s case records in performing the evaluation.

d. Evaluation decision. The department has final authority in determining whether prohibition of the person’s involvement with child care is warranted and in developing any conditional requirements and a corrective action plan. The evaluation and decision shall be made by the service area manager or designee.

(1) Within 30 days of receipt of the completed Form 470-2310, the department shall mail to the person subject to an evaluation and to the registrant for an employee of the registrant Form 470-2386, Record Check Decision, that explains the decision reached regarding the evaluation of the transgression. The department shall also issue Form 470-2386 when the person subject to an evaluation fails to complete the evaluation form within the ten-calendar-day time frame.

(2) If the department determines, through the record check evaluation, that the person’s prohibition of involvement with child care is warranted, the person shall be prohibited from involvement with child care.

(3) The department may permit a person who is evaluated to be involved with child care if the person complies with the department’s conditions relating to the person’s involvement with child care, which may include completion of additional training. For an employee of a registrant, these conditional requirements shall be developed with the registrant.

110.7(4) Letter of revocation. A letter received by an owner or operator of a child development home initiating action to deny or revoke the home's registration shall be conspicuously posted where it can be read by parents or any member of the public. The letter shall remain posted until resolution of the action to deny or revoke an owner's or operator's certificate of registration.

110.7(5) If the department has denied or revoked a registration because the provider has continually or repeatedly failed to operate in compliance with Iowa Code chapter 237A and 441—Chapter 110, the person shall not own or operate a registered facility for a period of 12 months from the date of denial or revocation. The department shall not act on an application for registration submitted by the applicant or provider during the 12-month period. The applicant shall be prohibited from involvement with child care unless the department specifically permits the involvement.

441—110.8(237A) Additional requirements for child development home category A. In addition to the requirements in rule 441—110.5(237A), a provider requesting registration in child development home category A shall meet the following standards:

110.8(1) *Limits on number of children in care.*

a. No more than six children not attending kindergarten or a higher grade level shall be present at any one time.

b. Of these six children, not more than four children who are 24 months of age or younger shall be present at any one time. Of these four children, no more than three may be 18 months of age or younger.

c. In addition to the six children not in school, no more than two children who attend school may be present for a period of less than two hours at a time.

d. No more than eight children shall be present at any one time when an emergency school closing is in effect.

110.8(2) *Provider qualifications.*

a. The provider shall be at least 18 years old.

b. The provider shall have three written references which attest to character and ability to provide child care.

441—110.9(237A) Additional requirements for child development home category B. In addition to the requirements in rule 441—110.5(237A), a provider requesting registration in child development home category B shall meet the following standards:

110.9(1) *Limits on number of children in care.*

a. No more than six children not attending kindergarten or a higher grade level shall be present at any one time.

b. Of these six children, not more than four children who are 24 months of age or younger shall be present at any one time. Of these four children, no more than three may be 18 months of age or younger.

c. In addition to the six children not in school, no more than four children who attend school may be present.

d. In addition to these ten children, no more than two children who are receiving care on a part-time basis may be present.

e. No more than 12 children shall be present at any one time when an emergency school closing is in effect.

f. If more than eight children are present at any one time for a period of more than two hours, the provider shall be assisted by a department-approved assistant who is at least 14 years old.

110.9(2) *Provider qualifications.*

a. The provider shall be at least 20 years old.

b. The provider shall have a high school diploma or GED.

c. The provider shall either:

(1) Have two years of experience as a registered or nonregistered child care provider, or

(2) Have a child development associate credential or any two-year or four-year degree in a child-care-related field and one year of experience as a registered or nonregistered child care home provider.

110.9(3) Facility requirements.

- a. The home shall have a minimum of 35 square feet of child-use floor space for each child in care indoors, and a minimum of 50 square feet per child in care outdoors.
- b. The home shall have a separate quiet area for sick children.
- c. The home shall have a minimum of two direct exits to the outside from the main floor.
 - (1) If the second level or the basement of the home is used for the provision of child care, other than the use of a restroom, each additional child-occupied floor shall have at least one direct exit to the outside in addition to one inside stairway.
 - (2) All exits shall terminate at grade level with permanent steps.
 - (3) A basement window may be used as an exit if the window can be opened from the inside without the use of tools and it provides a clear opening of not less than 20 inches in width, 24 inches in height, and 5.7 square feet in area. The bottom of the opening shall be not more than 44 inches above the floor, with permanent steps inside leading up to the window.
 - (4) Occupancy above the second floor shall not be permitted for child care.

441—110.10(237A) Additional requirements for child development home category C. In addition to the requirements in rule 441—110.5(237A), a provider requesting registration in child development home category C shall meet the following standards:

110.10(1) Limits on number of children in care.

- a. No more than 12 children not attending kindergarten or a higher grade level shall be present at any one time.
- b. Of these 12 children, not more than 4 children who are 24 months of age or younger shall be present at any one time. Whenever 4 children who are under the age of 18 months are in care, both providers shall be present.
- c. In addition to the 12 children not in school, no more than 2 children who attend school may be present for a period of less than two hours at any one time.
- d. In addition to these 14 children, no more than 2 children who are receiving care on a part-time basis may be present.
- e. No more than 16 children shall be present at any one time when an emergency school closing is in effect. If more than 8 children are present at any one time due to an emergency school closing exception, the provider shall be assisted by a department-approved assistant who is at least 18 years of age.
- f. If more than eight children are present, both providers shall be present. Each provider shall meet the provider qualifications for child development home category C.

110.10(2) Provider qualifications.

- a. One provider who meets the following qualifications must always be present:
 - (1) The provider shall be at least 21 years old.
 - (2) The provider shall have a high school diploma or GED.
 - (3) The provider shall either:
 - 1. Have five years of experience as a registered or nonregistered child care provider, or
 - 2. Have a child development associate credential or any two-year or four-year degree in a child care-related field and four years of experience as a registered or nonregistered child care home provider.
- b. The coprovider shall meet the requirements of subrule 110.9(2).

110.10(3) Facility requirements.

- a. The home shall have a minimum of 35 square feet of child-use floor space for each child in care indoors, and a minimum of 50 square feet per child in care outdoors.
- b. The home shall have a separate quiet area for sick children.
- c. The home shall have a minimum of two direct exits to the outside from the main floor.
 - (1) If the second level or the basement of the home is used for the provision of child care, other than the use of a restroom, each additional child-occupied floor shall have at least one direct exit to the outside in addition to one inside stairway.
 - (2) All exits shall terminate at grade level with permanent steps.

(3) A basement window may be used as an exit if the window can be opened from the inside without the use of tools and it provides a clear opening of not less than 20 inches in width, 24 inches in height, and 5.7 square feet in area. The bottom of the opening shall be not more than 44 inches above the floor, with permanent steps inside leading up to the window.

(4) Occupancy above the second floor shall not be permitted for child care.

441—110.11(237A) Complaints. The department shall conduct an on-site visit when a complaint is received.

110.11(1) After each complaint visit, the department shall document whether the child development home was in compliance with registration requirements.

110.11(2) The written documentation of the department's conclusion as to whether the child development home was in compliance with requirements shall be available to the public. However, the identity of all complainants shall be confidential, unless expressly waived by the complainant.

441—110.12(237A) Registration actions for nonpayment of child support. The department shall revoke or deny the issuance or renewal of a child development home registration upon the receipt of a certificate of noncompliance from the child support recovery unit of the department according to the procedures in Iowa Code chapter 252J. In addition to the procedures set forth in Iowa Code chapter 252J, the rules in this chapter shall apply.

110.12(1) *Service of notice.* The notice required by Iowa Code section 252J.8 shall be served upon the applicant or registrant by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rules of Civil Procedure 56.1. Alternatively, the applicant or registrant may accept service personally or through authorized counsel.

110.12(2) *Effective date.* The effective date of the revocation or denial of the registration as specified in the notice required by Iowa Code section 252J.8 shall be 60 days following service of the notice upon the applicant or licensee.

110.12(3) *Preparation of notice.* The department director or designee of the director is authorized to prepare and serve the notice as required by Iowa Code section 252J.8 upon the applicant or registrant.

110.12(4) *Responsibilities of registrants and applicants.* Registrants and registrant applicants shall keep the department informed of all court actions, and all child support recovery unit actions taken under or in connection with Iowa Code chapter 252J, and shall provide the department copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in the actions, and withdrawals of certificates of noncompliance by the child support recovery unit.

110.12(5) *District court.* A registrant or applicant may file an application with the district court within 30 days of service of a department notice pursuant to Iowa Code sections 252J.8 and 252J.9.

a. The filing of the application shall stay the department action until the department receives a court order lifting the stay, dismissing the action, or otherwise directing the department to proceed.

b. For purposes of determining the effective date of the revocation, or denial of the issuance or renewal of a registration, the department shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

110.12(6) *Procedure for notification.* The department shall notify the applicant or registrant in writing through regular first-class mail, or such other means as the department deems appropriate in the circumstances, within ten days of the effective date of the revocation of a registration or the denial of the issuance or renewal of a registration, and shall similarly notify the applicant or registrant when the registration is issued, renewed, or reinstated following the department's receipt of a withdrawal of the certificate of noncompliance.

110.12(7) *Appeal rights.* Notwithstanding Iowa Code section 17A.18, the registrant does not have the right to a hearing regarding this issue, but may request a court hearing pursuant to Iowa Code section 252J.9.

441—110.13(237A) Transition exception. The following transition exceptions shall apply to providers renewing a valid previously issued child care home registration on or after December 1, 2002:

110.13(1) If the provider is providing child care to four infants at the time of renewal, the provider may continue to provide child care to those four infants. However, when the provider no longer provides child care to one or more of the four infants, or one or more of the four infants reaches the age of 24 months, this exception shall no longer apply. This exception does not affect the overall limit on the number of children in care under the child development home category within which the provider is registered.

110.13(2) If the provider is providing child care to school-age children in excess of the number allowable for the provider's registration category at the time of renewal, the provider may continue to provide care to those children and may exceed the total number of children authorized for that category by the excess number of school-age children. This exception is subject to the following conditions:

- a. The maximum number of children attributable to this exception is five.
- b. The provider must comply with the other requirements limiting the number of children under that registration category.
- c. If more than eight children are present at any one time for more than two hours, the provider shall be assisted by a department-approved assistant who is at least 14 years of age.
- d. When the provider no longer provides child care to one or more of the school-age children who was receiving child care at the time of registration, the excess number of children allowed under this exception shall be reduced accordingly.

441—110.14(237A) Prohibition from involvement with child care. If the department has prohibited a person or program from involvement with child care, that person or program shall not provide child care as a nonregistered child care home provider.

These rules are intended to implement Iowa Code section 234.6 and chapter 237A.

CHAPTER 111

FAMILY-LIFE HOMES

[Prior to 7/1/83, Social Services[770] Ch 111]

[Prior to 2/11/87, Human Services[498]]

441—111.1(249) Definitions.

“Department” means the Iowa department of human services.

“Eligible adult” means a person 18 years of age or older who meets the eligibility requirements for services or is a recipient of protective services, and who is considering or needs a living arrangement in a family-life home.

“Encouragement to share in the interests and activities of the household” means that the family members welcome and encourage the person to participate with them in their general family conversations and in their social, recreational, educational, and religious activities; that they invite and encourage use of the general facilities of their home; and they expect the person to care for assigned living quarters and participate within reason in the chores of the household.

“Essentially capable of self-care” means the person is ambulatory or can move from place to place; can manage the activities of daily living including personal hygiene and grooming, toileting, dressing and undressing, feeding, and medicating; and can attend to the care of personal property adequately with minimal support or occasional assistance.

“Family” means a person or persons, either related or unrelated to the client, who constitute the members of the household and are related to one another by kinship of blood, marriage, or adoption.

“Family-life home” means a private household offering a protective social living arrangement for one or two eligible adults who are not able or willing to adequately maintain themselves in an independent living arrangement, but who are essentially capable of physical self-care. In this living arrangement, the family provides the client room, board, laundry, encouragement to share in the interests and activities of the household, and opportunities for participation in the social, cultural, educational, religious, and other activities of the community.

“Not able or willing to adequately maintain themselves in an independent living arrangement” means that the person requires some assistance, encouragement, or social stimulation for adequate self-care or to maintain physical or mental health or personal safety.

“Private household” means a dwelling unit occupied exclusively by a family and furnished by and belonging to them by reason of ownership, rental, or by a contract for purchase of life estate.

441—111.2(249) Application for certification.

111.2(1) The department shall issue a certificate of approval for the operation of a family-life home upon the recommendation of a local office of the department.

111.2(2) Any person has the right to make application for a family-life home certificate.

111.2(3) Persons wishing to care for adults shall make application to the local office of the department.

111.2(4) When an applicant has reached a decision to operate a family-life home, the applicant shall complete Form 470-0606, Application for Certification.

111.2(5) Each applicant shall supply two references who may be contacted by the local office.

441—111.3(249) Provisions pertaining to the certificate.

111.3(1) No family-life home shall be certified to provide a living arrangement for more than two eligible adults.

111.3(2) At least one responsible adult member of the family shall be at the family dwelling or be reasonably available to the client, most of the daytime and nighttime hours, based on the service worker’s assessment of the individual’s need for supervision.

111.3(3) The certificate shall be effective for one year from date issued subject to continued compliance with rules governing the program.

111.3(4) The certificate shall not be transferred to another person nor be valid for an address other than that shown on the certificate issued.

111.3(5) A current certificate shall be in the possession of the certified family-life home, and be available for inspection.

111.3(6) There shall be no fee nor charge for certificate issued.

111.3(7) A certified family-life home shall not be concurrently licensed as a residential care facility, intermediate care facility, child care center or a foster family home. An exception may be made for a home to be concurrently licensed as a foster family home and certified as a family-life home in order to provide continued care for a person who was placed in the home as a foster child.

441—111.4(249) Physical standards.

111.4(1) The family-life home shall be safe, clean, well ventilated, properly lighted and heated. The family's dwelling shall comply with all local health ordinances.

111.4(2) The family's dwelling shall not be a dwelling unit furnished by or belonging to a client.

111.4(3) Sleeping rooms shall be suitably and comfortably furnished.

111.4(4) Each resident shall have a single bedroom unless there is agreement among the family and the residents that a room may be shared.

111.4(5) The family shall provide nutritional food, in sufficient quantity to meet the needs of the client.

441—111.5(249) Personal characteristics of family-life home family.

111.5(1) The adult head of the household shall be a mature, responsible individual who is physically able to maintain a household, and who shall exercise good judgment in caring for adults.

111.5(2) The family shall have an appreciation of and respect for the client's relationship with the client's own relatives, neighbors and friends.

111.5(3) The family shall respect the client's religious background and affiliation.

111.5(4) The family shall have sufficient income and resources to provide adequately for the family's own needs.

441—111.6(249) Health of family.

111.6(1) Prior to certification the family shall furnish the local department with a medical report on each member of the household. The report shall be on Form 470-0672, Provider Health Assessment Form.

111.6(2) The medical report shall provide significant findings of a physician, such as the presence or absence of any communicable disease.

111.6(3) Medical reexaminations may be required at the discretion of a physician or the local department.

441—111.7(249) Planned activities and personal effects.

111.7(1) The daily routine shall be to promote and provide an opportunity for normal activity with time for rest and recreation compatible with the needs of the client.

111.7(2) Every client shall be encouraged to develop social relationships through participation in neighborhood and other community and group activities.

111.7(3) The family shall not require a client to do general housecleaning, cooking, or child care for the family. A client may voluntarily share in these responsibilities.

111.7(4) Space shall be provided where a client may keep personal belongings.

441—111.8(249) Client eligibility.

111.8(1) The client shall be 18 years of age or older, as proven by birth or school records, personal records, or by records of the department or another agency.

111.8(2) The client shall be willing to live in a certified family-life home by the client's own declaration or the declaration of a person legally responsible for such client.

111.8(3) The client shall be willing to accept the terms and requirements of the family-life home program.

111.8(4) The client shall be capable of personal physical self-care.

441—111.9(249) Medical examinations, records, and care of a client.

111.9(1) A physician shall certify that the client is free from any communicable disease and does not require a higher level of care than that provided by a family-life home. The certification shall be given prior to placement and following an annual medical review thereafter. The certification shall be given on Form 470-0673, Physician's Report.

111.9(2) The family shall have available at all times, the name, address and telephone number of the client's physician.

111.9(3) The family shall keep the department informed of any health problems. The family shall immediately notify the department in case of an accident, illness, or emergency that may affect the placement.

441—111.10(249) Placement agreement. The head of the family-life home and the resident shall enter into a placement agreement by signing Form 470-0634, Placement Agreement Family-Life Home, provided by the department.

441—111.11(249) Legal liabilities. The worker shall advise the family to seek counsel regarding the family's needs for insurance to cover personal injury, property damage, and other legal contingencies.

441—111.12(249) Emergency care and release of client.

111.12(1) In case of an emergency, vacation, or overnight trip, requiring the family's temporary absence from the home, the local department shall be notified and arrangements shall be made with a designated, responsible person for the care of a client during the period of absence.

111.12(2) The department shall be notified when the client leaves or the client or family expresses a desire for the client to leave the family-life home.

441—111.13(249) Information about client to be confidential. Information concerning a client, the client's family, and the client's background shall be regarded and handled as confidential by all persons involved in the client's care.

These rules are intended to implement Iowa Code sections 234.6(6) "e" and 249.3(2) "a"(1).

CHAPTER 112
LICENSING AND REGULATION OF CHILD FOSTER CARE FACILITIES

[Prior to 7/1/83, Social Services[770] Ch 112]

[Prior to 2/11/87, Human Services[498]]

441—112.1(237) Applicability. This chapter relates to licensing procedures for all child foster care facilities authorized by Iowa Code chapter 237. Rules relating to specific types of facilities are located in 441—Chapter 113, “Licensing and Regulation of Foster Family Care Homes,” 441—Chapter 114, “Licensing and Regulation of All Group Living Foster Care Facilities for Children,” 441—Chapter 115, “Licensing and Regulation of Comprehensive Residential Facilities for Children,” and 441—Chapter 116, “Licensing and Regulation of Residential Facilities for Mentally Retarded Children.”

This rule is intended to implement Iowa Code chapter 237.

441—112.2(237) Definitions.

“Applicant:”

1. The applicant for a foster family home license is the foster parent or parents.
2. For a proprietary child caring facility, the applicant is the owner of the facility.
3. For facilities having a board of directors, the applicant may be the president of the board or the board’s designee.

“Community residential facility” means a facility which provides care for children who are considered unable to live in a family situation due to social, emotional or physical disabilities but are capable of interacting in a community environment with a minimum amount of supervision. The facility provides 24-hour care including board and room. Community resources are used for education, recreation, medical, social and rehabilitation services. The facility is responsible for planning the daily activities of the children, discipline, guidance, peer relationships, and recreational programs.

“Comprehensive residential facility” means a facility which provides care and treatment for children who are unable to live in a family situation due to social, emotional, or physical disabilities and who require varying degrees of supervision as indicated in the individual treatment plan. Care includes room and board. Services include the internal capacity for individual, family, and group treatment. These services and others provided to the child shall be under the administrative control of the facility. Community resources may be used for medical, recreational, and educational needs. Comprehensive residential facilities have higher staff to client ratios than community residential facilities and may use control rooms, locked cottages, mechanical restraints, and chemical restraints when these controls meet licensing requirements.

“Director’s designee:”

1. For group facilities, the director’s designee is the chief of the bureau of protective services.
2. For foster family homes, the designee is the department of human services’ service area manager.

“Foster family home” means a home in which an individual person or married couple who wishes to provide or is providing, for a period exceeding 24 consecutive hours, board, room, and care for a child in a single family living unit.

“Group facility” means a community residential facility, a comprehensive residential facility, or a residential facility for mentally retarded children.

“Residential facility for mentally retarded children” means any residential facility which serves children who meet the definition of mentally retarded as defined in Iowa Code chapter 222.

This rule is intended to implement Iowa Code sections 237.3 and 237.5.

441—112.3(237) Application for license.

112.3(1) Right to apply. Any adult individual or agency has the right to make application for a license.

- a. Persons wishing to care for children through a public or private agency shall make application through that agency.

b. Persons wishing to care for children directly placed by parents, guardians, or other relatives shall make application to the department of human services.

112.3(2) *Decision to operate a facility.* When an applicant has reached a decision to operate a facility for child foster care, the applicant shall complete Form 470-0689, Foster Family Home License Application or Form 470-0723, Application for License or Certificate of Approval. Requests for renewal shall be made on the same form.

112.3(3) *Withdrawal of an application.* The applicant shall report the withdrawal of an application promptly to the department.

112.3(4) *Evaluation of the application.* Each application will be evaluated by the department to ensure that all standards are met.

a. Before it results in adverse action, a founded abuse report on a director, a sole proprietor involved in the facility's operation, or any facility staff shall be evaluated by the department to determine if the abuse merits prohibition of employment or licensure.

b. The department shall evaluate all founded child abuse on a case-by-case basis. Considerations shall include, but not be limited to:

- (1) The facility's response (e.g., immediate termination of involved staff).
- (2) Whether the abuse was an isolated incident or is symptomatic of a broader, systemic problem.

112.3(5) *Reports and information.* Requested reports and information relevant to the licensing determination shall be furnished to the department by the applicant.

112.3(6) *Applications for renewal.* Applications for renewal shall be made to the department at least 30 but no more than 90 days before the license expires. The department shall approve or deny an application for license renewal through the same process as that used for the original application.

112.3(7) *Notification.* Facilities shall be notified of approval or denial within 90 days of application or reapplication.

This rule is intended to implement Iowa Code section 237.5.

441—112.4(237) License.

112.4(1) A new license shall be obtained when the licensee moves or the facility is remodeled.

112.4(2) A new license shall be requested when the facility wishes to be licensed for a different number of children.

112.4(3) When corrective action is completed on or before the date specified on a provisional license, a full license shall be issued for the remainder of the licensure term.

112.4(4) When the corrective action is not completed by the date specified on a provisional license, a full license shall be denied.

112.4(5) The department shall issue Form 470-0727, Certificate of License, without cost to any foster family that meets the standards. The department shall issue Form 470-3623, Certificate of License, without cost to any group facility that meets the standards. The department may offer consultation to assist applicants in meeting the standards.

112.4(6) A foster family license shall be approved for a term of one year. A group facility license shall be approved for a term of one to three years according to the following criteria:

- a.* A one-year license may be approved for all new agencies that meet licensure standards.
- b.* A two-year license may be approved upon completion of a survey for a renewal license when:
 - (1) Some health or safety concerns have been identified, but they are determined to be minor or easily corrected;
 - (2) Some complaints against a facility have been substantiated, but they are determined to be minor; and
 - (3) Deficiencies that have been identified are determined to be minor or easily corrected.
- c.* A three-year license may be approved upon completion of a survey for a renewal license when:
 - (1) No health or safety deficiencies have been identified;
 - (2) There have either been no substantiated complaints against the facility or, if substantiated, complaints have been determined not to be serious or severe; and

- (3) A facility has no founded incidents of child abuse by facility staff.
This rule is intended to implement Iowa Code sections 237.3 and 237.5.

441—112.5(237) Denial.

112.5(1) The department shall deny the license application when:

- a. The minimum standards set forth in these rules are not met and a provisional license is inappropriate or disapproved by the director's designee.
- b. For just cause.
- c. The applicant, as a sole proprietor or a foster family home parent, or any person residing in the foster family home other than a foster child, or any facility staff, has been convicted of a crime unless an evaluation of the crime has been made by the department which concludes that the crime does not merit prohibition of employment or licensure.
- d. The applicant, as a sole proprietor or foster family home parent, or any person residing in the foster family home other than a foster child, or any facility staff, has a record of founded child abuse unless an evaluation of the founded abuse has been made by the department which concludes that the abuse does not merit prohibition of employment or licensure.
- e. The application is fraudulent, which means that the applicant has knowingly made fraudulent statements or has knowingly concealed information.

112.5(2) Reapplications will be denied:

- a. For the same reasons as original applications.
- b. For the same reasons as listed in the grounds for revocation.

This rule is intended to implement Iowa Code section 237.5.

441—112.6(237) Revocation.

112.6(1) *Mandatory.* The department shall revoke the license for the following reasons unless subrule 112.6(3) applies:

- a. When the facility is misusing funds furnished by the department.
- b. When the facility is operating without due regard to the health, sanitation, hygiene, comfort, or well-being of the children in the facility.
- c. When the director or sole proprietor involved in the operation of the facility, or foster parent, or any person residing in the foster home other than a foster child, or any facility staff has been convicted of a crime unless an evaluation of the crime has been made by the department which concludes that the crime does not merit prohibition of employment or licensure.
- d. When there is a founded abuse report on a foster family home parent, any person residing in a foster family home other than a foster child, a director or sole proprietor who is involved in the facility's operation, or any facility staff, unless an evaluation of the founded abuse has been made by the department which concludes that the abuse does not merit prohibition of employment or licensure.
- e. Rescinded, effective November 1, 1987.

112.6(2) *Optional.* Licenses may be revoked for any of the following reasons unless subrule 112.6(3) applies:

- a. The foster family fails to notify the licensing worker when moving to a new home within 30 days after the date of moving.
- b. Rescinded, effective July 1, 1987.
- c. The foster family or facility fails to meet any or all requirements of the placement agreement.
- d. Rescinded, effective July 1, 1987.
- e. Rescinded, effective July 1, 1987.
- f. The child foster care facility fails to continue to comply with all of the licensing requirements in both law and regulation.
- g. The foster family or the staff of a licensed group facility refuses to cooperate with an unannounced visit.

112.6(3) *Exceptions.* The license for a foster family home shall not be revoked when there are 30 or fewer days until the date the license expires.

The foster family home shall be advised in writing that a reapplication may be denied and the reasons for the possible denial. The foster family home license may be suspended immediately pursuant to rule 441—112.9(237).

This rule is intended to implement Iowa Code sections 237.3 and 237.5.

441—112.7(237) Provisional license.

112.7(1) *Statement of reasons for provisional licenses.* Provisional licenses shall be accompanied by a statement of the reasons for the provisional license, the standards that have not been met, the date that the facility must make required changes to meet standards.

112.7(2) *Corrective action.* The facility shall furnish the licensing agency with a plan of action to correct deficiencies listed that resulted in the provisional license. The plan shall give specific dates upon which the corrective action will be completed.

This rule is intended to implement Iowa Code section 237.5.

441—112.8(237) Adverse actions. Notice of adverse actions and the right to appeal the licensing decision shall be given to applicants and licensees in accordance with 441—Chapter 7. Any issues of placement or payment are independent of the licensing decision and right of appeal.

This rule is intended to implement Iowa Code section 237.5.

441—112.9(237) Suspension.

112.9(1) *Types of suspension.* There are two types of suspension of a license.

a. Emergency suspensions are to prevent persons from providing foster care by suspending their license until it is revoked or denied.

b. Time-limited suspensions are to prevent persons from providing foster care by suspending their license until a deficiency in the home or facility is corrected.

112.9(2) *Requirements for emergency suspension.* The emergency suspension of a license by the commissioner or designee shall occur only when all of the following conditions exist:

a. The licensee fails to meet licensing requirements.

b. There are sufficient grounds for revocation on denial of the license.

c. The health, safety, and welfare of any child placed in the home or facility requires immediate action.

d. The existence of the condition requiring suspension is documented in the licensee's record.

112.9(3) *Requirements for time-limited suspensions.* The time-limited suspension of a license by the commissioner or designee shall occur only when all of the following conditions exist:

a. The licensee fails to meet licensing requirements.

b. The health, safety, and welfare of any child placed in the home or facility requires immediate action.

c. The existence of the condition requiring suspension is documented in the licensee's record.

d. The condition requiring the suspension can be corrected by the licensee to meet licensing requirements.

e. If the condition were corrected, a full license would be issued.

f. The licensee signs a written statement acknowledging the existence of the condition, citing the law or rule violated, and making a commitment to correct the condition within a specific time period, not to exceed the period of the license.

112.9(4) *Effective period of suspensions.* A suspension shall be effective on the date the notice is received by the licensee and shall remain in effect until one of the following occurs:

a. The department withdraws the suspension due to a change in conditions in the home or facility.

b. The court orders the license reinstated.

c. The action is reversed by a final decision in accordance with 441—Chapter 7.

d. For emergency suspensions, a revocation or denial becomes effective and the license is rescinded.

e. The licensing period expires.

f. For time-limited suspensions, the period of suspension ends.

112.9(5) Method and content of notice. The notice of suspension shall be sent by restricted certified mail or personal service and shall include the following:

- a.* The condition requiring the suspension.
- b.* The specific law or rule violated.
- c.* The type of suspension.
- d.* For an emergency suspension, the adverse action being sought by the department.
- e.* For a time-limited suspension, the duration of the suspension.

112.9(6) Right to appeal suspension. The licensee has the right to appeal the suspension of the license, but initiation of an appeal does not alter the suspension.

This rule is intended to implement Iowa Code sections 237.3 and 237.5.

441—112.10(232) Mandatory reporting of child abuse.

112.10(1) Mandatory reports. The following foster care providers shall make a report, in accordance with Iowa Code section 232.69, whenever they reasonably believe a child for whom they are providing foster care has suffered abuse:

a. Any social worker who is employed by a licensed child foster care facility and who works with foster children.

b. Any licensed foster parent providing child foster care.

112.10(2) Required training. Within one year of becoming a mandatory reporter, and every five years thereafter, any person required to make a report under subrule 112.10(1) shall complete two hours of training relating to the identification and reporting of child abuse.

112.10(3) Training provider.

a. If the foster care provider is a social worker employed by a licensed child foster care facility, the employer shall be responsible for providing the required training in child abuse identification and reporting.

b. If the foster care provider is a licensed foster parent, the foster parent shall be responsible for obtaining the required training in child abuse identification and reporting as part of a continuing education program required under Iowa Code chapter 258A, or from any of the following: the department of human services, the department of education, an area education agency, a school district, the Iowa law enforcement academy, or a similar public agency.

112.10(4) Training content.

a. Training in child abuse identification shall include physical and behavioral signs of physical abuse, denial of critical care and sexual abuse.

b. Training in child abuse reporting shall include reporting requirements and procedures.

112.10(5) Training documentation.

a. If the foster care provider is a social worker employed by a licensed child foster care facility, the employer shall document in the employee's personnel record the content and amount of training.

b. If the foster care provider is a licensed foster parent, the foster parent shall be responsible for securing documentation of the training content, amount, and provider, and shall forward the documentation to the department's district office for inclusion in the licensing file.

This rule is intended to implement Iowa Code section 232.69.

CHAPTER 113
LICENSING AND REGULATION OF FOSTER FAMILY HOMES

[Prior to 7/1/83, Social Services [770] Ch 113]

[Prior to 2/11/87, Human Services[498]]

441—113.1(237) Applicability. This chapter specifically relates to the licensing and regulation of foster family homes. Refer to 441—Chapter 112 for general licensing rules and regulations which apply to all foster care facilities, including foster family homes.

This rule is intended to implement Iowa Code chapter 237.

441—113.2(237) Definitions.

“Foster family home” means an individual person or married couple who wishes to provide or is providing, for a period exceeding 24 consecutive hours, board, room, and care for a child in a single family living unit.

“Relative” means brothers, sisters, aunts, uncles, grandparents, half brothers, half sisters, and first cousins of the child.

This rule is intended to implement Iowa Code chapter 237.

441—113.3(237) Application for license.

113.3(1) Where to apply. Persons wishing to care for children through a public or private agency shall make application through that agency.

113.3(2) Relative applications. A relative, as defined in this chapter, may apply for a license as a foster parent to qualify for aid to dependent children-foster care or to continue foster care payments.

113.3(3) Children placed by parents, relatives or guardian. Persons wishing to care for children being placed directly by parents, guardian or another relative shall make application to the department of human services prior to placement.

113.3(4) Application form. A person who has reached a decision to operate a foster family home shall make application on Form 470-0689, Foster Family Home License Application. A request for renewal of the license shall be made on the same form.

113.3(5) Notification. The department shall notify a foster family home applicant of the approval or denial of a license within 120 days of the date that the applicant begins the preservice training required under subrule 113.8(1), notwithstanding the time limit in 441—subrule 112.3(7).

This rule is intended to implement Iowa Code section 237.5.

441—113.4(237) Provisions pertaining to the license.

113.4(1) Number of children. A foster family home shall be licensed for the care of up to five children including the foster family’s biological and adoptive children and any relative placements. Any variance to this rule must:

- a. Be approved by the service area manager or designee.
- b. Be documented in the licensing record with reasons given for granting the variance.
- c. Meet one of the following criteria:
 - (1) A variance is necessary to keep a sibling group together. No variance shall be granted if the foster home is at licensed capacity and there are no members of the sibling group in the foster home.
 - (2) The foster parents have three or more biological and adoptive children and relative placements in the home and have shown the ability to parent a large number of children. A variance may be approved to allow the placement of up to three foster children as set forth in the chart below:

No. of birth/relative/adoptive placements	Maximum License Capacity:	
	Without variance	With variance
0 children	5	Not applicable
1 child	4	Not applicable
2 children	3	Not applicable

No. of birth/relative/adoptive placements	Maximum License Capacity:	
	Without variance	With variance
3 children	2	3
4 children	1	3
5 or more children	0	3

(3) An emergency placement must be made in a foster family home that causes the home to exceed its licensed capacity. These emergency placements shall be made according to a preapproved service area plan as outlined below and are limited to a maximum of 30 days.

Before the start of each fiscal year, each service area shall submit to the central office for approval a plan for when an emergency occurs which necessitates the placement of a child in a foster family home that would exceed the licensing capacity. The plan shall define emergencies and identify a specific pool of preapproved homes which shall provide for placement of up to three additional foster children above the number that is allowed by the variances in the chart in subparagraph (2).

(4) A variance beyond the maximum capacity of the foster home license is needed for the placement of a specific child. A child-specific variance shall end when that child leaves the placement or any other change brings the family into licensed capacity.

d. All other licensing requirements including, but not limited to, parenting ability and available bedroom space must be met before a foster home can be approved for a variance.

113.4(2) *Employees of the department as foster parents.* Employees of the department may be licensed as foster family home parents unless they are engaged in the administration or provision of foster care services. Employees engaged in the administration or provision of foster care services include:

a. Child care staff, social workers, youth service workers or their supervisors involved in programs for children in state institutions.

b. Foster care service workers, foster care licensing staff, and their supervisors employed in county or central offices of the department.

c. Other staff engaged in foster care placements, such as child protective staff or adoption workers.

d. Department staff responsible for the development of policies and procedures relating to foster care licensing and placement.

113.4(3) *Limits on foster family home licensure.* A licensed foster family home shall not be permitted to be a licensed comprehensive residential facility, community residential facility, or licensed child care center.

This rule is intended to implement Iowa Code sections 237.3 and 237.5.

441—113.5(237) Physical standards.

113.5(1) *General standards.* The foster home shall be safe, clean, well ventilated, properly lighted, properly heated, and free from vermin and rodents to ensure the well-being of the foster children residing in the home.

113.5(2) *Grounds.*

a. There shall be safe outdoor space provided according to the age and developmental needs of the foster child for active play. The area available shall be documented in the case record.

b. The foster child shall be protected against such hazards as traffic, pools, railroads, waste material, and contaminated water.

113.5(3) *Sleeping rooms for foster children.*

a. Sleeping rooms shall either have been constructed for the purpose of providing sleeping accommodation or remodeled for sleeping to provide proper heat and ventilation.

b. For multiple occupancy the minimum area per child shall be 40 square feet.

c. When sleeping rooms meet only minimum requirements, the home shall provide additional room in other parts of the home for study and play.

113.5(4) All rooms aboveground.

- a. All rooms aboveground shall have adequate window area or mechanical artificial ventilation.
- b. The ceiling height for rooms aboveground shall be seven feet or more.

113.5(5) Rooms belowground.

- a. Rooms belowground shall be free from excessive dampness, noxious gases, and objectionable odors.
- b. Sleeping rooms for foster children located belowground shall conform to standards listed in 113.5(3) and 113.7(1) "a."

113.5(6) Physical care standards for foster children.

- a. Grouping children in sleeping rooms shall take into consideration the age and sex of children. Children over six years of age shall not share a room with a child of the opposite sex.
- b. Children two years or older shall be provided bedroom space other than in the foster parents' bedroom.
- c. There shall be provisions for isolating from other children, a child who is ill or suspected of having a contagious disease.
- d. The foster home shall provide food with good nutritional content and in sufficient quantity to meet the individual needs of the children.
- e. Linens shall be changed at least weekly and more frequently for children with bladder or bowel control problems.
- f. Waterproof mattress covers shall be provided for children under three years of age and for any child who lacks bowel or bladder control.
- g. Individual space shall be provided for the child's clothes and personal possessions.
- h. Foster parents shall follow universal precautions to reduce exposure to bloodborne pathogens and other infectious materials when providing care to all children placed in their physical custody.

113.5(7) Household pets. Household pets which have access to the outdoors shall be inoculated for rabies.

113.5(8) Artificial lighting. Adequate artificial lighting fixtures shall be provided for study in areas where children will be studying.

113.5(9) Toilet facilities.

- a. Toilet facilities shall have natural or artificial ventilation.
- b. All toilet facilities, including privies, shall be maintained in a clean condition.

113.5(10) Heating plant. The heating plant shall have a capacity to maintain a temperature of approximately 65 degrees Fahrenheit at a point 24 inches from the floor during the day in severe weather. Gas-fired space heaters, other stoves, fireplaces and water heaters shall be vented to the outside atmosphere.

113.5(11) Ventilation. Ventilation shall be provided in all rooms where foster children eat, sleep, and play either by windows which can be opened or by mechanical venting systems. Windows and doors used for ventilation shall be screened.

This rule is intended to implement Iowa Code section 237.3.

441—113.6(237) Sanitation, water, and waste disposal.

113.6(1) Food preparation and storage. Food preparation areas shall be clean and there shall be facilities to store perishable food at cold temperatures and storage areas for other food supplies.

113.6(2) Milk supply. Fluid or powdered milk sufficient to meet the needs of the foster child shall be provided.

113.6(3) Public water supply. The water supply is approved when the water is obtained from a public water supply system.

113.6(4) Private water supply.

a. Each privately operated water supply shall be annually checked and evaluated for obvious deficiencies such as open or loose well tops or platforms and poor drainage around the wells.

b. As part of the evaluation, water samples must be collected and submitted by the licensing worker or health sanitarian to the university hygienic laboratory or other laboratory certified by the

hygienic laboratory and analyzed for coliform bacteria. In order to be licensed for the care of children under two years of age the nitrate (NO³) content must be analyzed.

c. When the water supply is obtained from more than one well, proof of the quality of the water from each well is required.

d. When the water sample result shows the water is potable, the license can be granted.

e. When the water sample is not approved, no license shall be issued until the foster parents provide a written statement that foster children will be provided potable water, where it will be obtained, and how it will be transported and stored.

113.6(5) Sewage treatment.

a. Foster homes, wherever possible, shall be connected to public sewer systems.

b. Private disposal systems shall be designed, constructed and maintained so that no unsanitary or nuisance conditions exist, such as surface discharge of raw or partially treated sewage or failure of the sewer lines to convey sewage properly.

113.6(6) Garbage storage and disposal.

a. A sufficient number of covered garbage and rubbish containers shall be provided to properly store all material between collections.

b. Containers shall be fly tight, watertight, and rodent proof and shall be maintained in a sanitary condition.

This rule is intended to implement Iowa Code section 237.3.

441—113.7(237) Fire safety.

113.7(1) Fire protection. Any floor of a house, including the basement, used for the sleeping of foster children shall be equipped with at least one of the following:

a. A smoke detector.

b. A window exit providing the window exit meets all of the following criteria:

(1) The window is large enough to allow the foster child to pass easily through it.

(2) Provisions are made to ensure that the foster child can easily reach and climb through the window.

(3) Provisions are made to ensure that the foster child can safely reach the ground from the window.

This may include the need for secure steps or stairs.

(4) The foster child is aware of the window exit and how to utilize it.

c. A path of exit to the outside from the sleeping room which does not require the passage through more than one additional room, excluding hallways, stairs, and entryways.

113.7(2) Combustible materials. Combustible materials shall be kept away from furnaces, stoves, or water heaters.

113.7(3) Safety plan. The family shall have a safety plan to be used in case of fire, tornado, or blizzard.

This rule is intended to implement Iowa Code section 237.3.

441—113.8(237) Foster parent training.

113.8(1) Required preservice training. Each individual foster parent shall complete an entire 30 hours of the “Partnering for Safety and Permanence: Model Approach to Partnership in Parenting” (PS-MAPP) which is approved pursuant to rule 441—117.5(237).

a. Applicants shall complete PS-MAPP training before receiving a license for the first time.

b. Applicants shall retake PS-MAPP if the licensing process is not completed within 24 months after PS-MAPP is initially completed.

c. The department may waive the PS-MAPP training requirement in whole or in part when the department finds that:

(1) The applicant has completed relevant training or has a combination of relevant training and experience that is an acceptable equivalent to all or a portion of the required preservice training; or

(2) There is good cause for the waiver based upon the circumstances of the child and the applicant.

113.8(2) Required preplacement orientation. All foster parents shall have orientation pursuant to rule 441—117.2(237) prior to the placement of a child in foster care in their home. Orientation may be provided prior to licensure, but it shall not count towards the required 12 hours of preservice training.

113.8(3) Required in-service training.

a. Amount of training. Each individual foster parent shall complete six credit hours of approved in-service training. The training shall meet the requirements of rule 441—117.7(237) and this rule and shall be based on an assessment by the foster parent and the licensing worker of the foster parent's training needs. At least three credit hours of the training shall be group training. The training shall be completed prior to each renewal of a license.

b. Rescinded IAB 8/9/89, effective 10/1/89.

c. Documentation. Each individual foster parent shall submit the following to the family's licensing worker within 30 days of the completion of the training and prior to the expiration date of the license:

- (1) Title of training, or description of content.
- (2) Name of training provider.
- (3) Date(s) of training.
- (4) Number of hours.
- (5) Form 470-2540, Foster Parent Training Report, or its equivalent.

113.8(4) Required training in universal precautions. Before licensure, each individual foster parent shall complete one hour of training related to the use and practice of universal precautions. Training shall be completed through the approved individual self-study course, "Universal Precautions in Foster and Adoptive Family Homes."

This rule is intended to implement Iowa Code section 237.5A.

441—113.9(237) Policy for involvement of biological or adoptive parents.

113.9(1) Acceptance by foster parents. Foster parents shall accept the involvement of biological or adoptive parents and other relatives of the child unless this involvement is evaluated and documented by the department or supervising agency to be detrimental to the child's well-being.

113.9(2) Nature of involvement. The extent and nature of the involvement of the biological or adoptive parents and other relatives shall be determined by the caseworker in consultation with the foster parents, biological or adoptive parents, and others involved with the child and family.

This rule is intended to implement Iowa Code section 237.3.

441—113.10(237) Information on the foster child.

113.10(1) Initial information. The following information shall be provided to the foster family at the time of a child's placement.

a. The child's full name, birth date, and date of acceptance for care.

b. Name and addresses of significant relatives of the child, including parents, grandparents, brothers and sisters, aunts and uncles, and any other significant persons. In case of adoption, these shall be adoptive parents and adoptive relatives.

c. The name, address, and telephone number of the child's physician, parents or guardian, and the supervising agency.

d. Information about immunizations received by children under their care, physical limitations, medical recommendations, including specific information about the child's opportunistic infections and HIV care needs, and any allergies. Prior to releasing specific information about HIV, the department shall use Form 470-3225, Authorization to Release HIV-Related Information, to obtain a release from the child or the child's parent or guardian, or a court order permitting the release of the information. Form 470-3227, Receipt of HIV-Related Information, shall be completed by the person receiving this information to document understanding of the confidentiality of this knowledge.

e. A medical authorization.

f. A placement agreement signed by the child's parent(s) or guardian and the foster parent(s) when the child's parent(s) or guardian have placed the child privately; or a placement agreement for the specific child in placement signed by the foster parent(s) and the agency when placement is made by an agency.

113.10(2) Additional information. The following information shall be maintained on foster children placed in the foster home:

a. Names and addresses of doctors who have treated the child and the type of treatment received while in the foster home.

b. School reports including report cards and pictures.

c. Date of discharge.

d. Name and address of the person to whom the child is discharged.

113.10(3) Maintenance of records. All of the information listed in 113.10(1) and 113.10(2) shall be kept in a notebook or folder and be provided to the supervising agency when the child leaves the foster care placement.

This rule is intended to implement Iowa Code section 237.7.

441—113.11(237) Health of foster family.

113.11(1) Prior to initial licensure. The foster parents shall furnish the licensing agency with a health report on the family completed no more than six months prior to the application for licensure. The report shall include information on all family members.

113.11(2) Contents of report. This report shall include a statement from the health practitioner that there are no health problems which would be a hazard to foster children placed in the home, and a statement that the foster parents' health would not prevent needed care from being furnished to the foster child.

113.11(3) Capability for caring for the child. If there is evidence that the foster parent is unable to provide necessary care for the child, the worker or the physician may require additional medical reports.

This rule is intended to implement Iowa Code section 237.7.

441—113.12(237) Characteristics of foster parents.

113.12(1) Age.

a. Foster parents shall be at least 18 years of age.

b. The age of foster parents shall be considered as it affects their ability to care for a specific child and function in a parental role.

113.12(2) Income and resources. The foster family shall have sufficient income and resources to provide adequately for the family's own needs.

113.12(3) Religious considerations. The foster parent shall respect the foster child's religious background and affiliation.

113.12(4) Requirements of foster parents. Foster parents shall be stable, responsible, physically able to care for the type of child placed, mature individuals who are not unsuited by reason of substance abuse, lewd or lascivious behavior or other conduct likely to be detrimental to the physical or mental health or morals of the child. They shall exercise good judgment in caring for children and have a capacity to accept agency supervision.

113.12(5) Personal characteristics. The foster parents shall:

a. Provide evidence of marital adjustment and stability.

b. Have realistic expectations of foster children.

c. Have time available to parent foster children.

d. Be able to accept and deal with acting out behavior.

e. Treat foster children in a manner similar to natural or adoptive children in the home as far as participation in normal family life is concerned.

f. Have the ability to be accepting and loving toward a foster child entering the home.

g. Be able to separate from the foster child and not hamper return to the natural home.

h. Ensure that all family members are aware of and in agreement with having foster children in the home.

113.12(6) *Determination of characteristics.* The areas discussed in 113.12(4) and 113.12(5) shall be explored through observation of the family and interviews with family members and documented in a foster home study, using the PS-MAPP family profile format. The home study shall be maintained in the foster family record. Any additional areas that the family or worker identifies as a possibility for creating problems shall also be documented in the foster family record.

This rule is intended to implement Iowa Code section 237.3.

441—113.13(237) Record checks. The department shall submit record checks for each applicant and for anyone who is 14 years of age or older living in the home of the applicant to determine whether they have founded child abuse reports or criminal convictions or have been placed on the sex offender registry. The department shall use Form 470-0643, Request for Child Abuse Information, and Form 595-1396, DHS Criminal History Record Check, Form B, for this purpose. Each person subject to record checks shall also be fingerprinted for a national criminal history check. The department's contractor for the recruitment and retention of resource families shall assist applicants in completing required record checks, including fingerprinting.

113.13(1) *Evaluation of record.* If the applicant or anyone living in the home has a record of founded child abuse, a criminal conviction, or placement on the sex offender registry, the department shall not license the applicant as a foster family, unless an evaluation determines that the abuse or criminal conviction does not warrant prohibition of license.

EXCEPTION: An individual applying to be a foster parent shall not be granted a license and an evaluation shall not be performed if the applicant or anyone living in the home of the applicant has been convicted of a felony offense as set forth in Iowa Code section 237.8(2) "a." The person making the investigation shall not approve a prospective applicant and shall not perform an evaluation if the applicant or anyone living in the home of the applicant has committed a crime in another state that would be a forcible felony if the crime would have been committed in Iowa, as set forth in Iowa Code section 237.8(2) "a."

The evaluation shall consider the nature and seriousness of the founded child abuse or crime in relation to the position sought or held, the time elapsed since the circumstances under which the abuse or crime was committed, the degree of rehabilitation, the likelihood that the person will commit the abuse or crime again, and the number of abuses or crimes committed by the person.

The person with the founded child abuse or criminal conviction report shall complete and return Form 470-2310, Record Check Evaluation, within ten calendar days of the date on the form to be used to assist in the evaluation. Failure of the person to complete and return Form 470-2310 within the specified time frame shall result in denial of licensure.

113.13(2) *Evaluation process.* The service area manager or designee shall make the evaluation and decision. Within 30 days of receipt of the completed Form 470-2310, the department shall mail to the individual on whom the evaluation was completed and to the registrant for an employee of the registrant Form 470-2386, Record Check Decision, that explains the decision reached regarding the evaluation of an abuse or a crime. The department shall also issue Form 470-2386 when an applicant fails to complete the evaluation form within the specified time frame.

113.13(3) *License renewal.* Foster parents applying for renewal of a license may be subject to the same checks as new applicants when there is reason to believe that a founded abuse or conviction of a crime has occurred. The department shall evaluate only abuses and convictions of crimes since the last record check using the same process.

This rule is intended to implement Iowa Code section 237.8(2).

441—113.14(237) Reference checks.

113.14(1) At least three additional references shall be checked for all foster family home applicants in addition to the three references provided by the applicant.

113.14(2) Responses of references shall be documented in the applicant's record.

113.14(3) Information received from references may be discussed with the applicant at the discretion of the worker. The reference shall be so informed.

113.14(4) Reference checks shall include only those areas related to the applicant's ability to care for children and should include discussion of the following areas:

- a.* How long and in what capacity the reference has known the applicant.
- b.* Personal qualities of the applicant including the general character, ability to get along with others, ability to deal with children's problem behavior, ability to give affection and care, discussion of use of drugs and alcohol, questions regarding personal difficulties that could be detrimental to a foster child.
- c.* Marital adjustment and stability.
- d.* How the applicant handles anger, problems, crisis situations, discipline, and disappointments.
- e.* Any areas of general concern not previously mentioned.
- f.* Would the reference feel comfortable leaving a child in this home for a period of time?
- g.* Recommendations regarding licensing.

This rule is intended to implement Iowa Code section 237.3.

441—113.15(237) Unannounced visits.

113.15(1) The unannounced visit shall occur during periods of the day when the child and foster parents would normally be at home and awake, unless there has been a specific complaint about the family and care of the child.

113.15(2) The unannounced visit may include, but is not limited to, assessment of the following areas:

- a.* Cleanliness of the home.
- b.* Cleanliness and appropriateness of the child's clothing.
- c.* Interaction between the foster child and foster family.
- d.* The foster child's perception of the foster parents, other children and adults in the home, behavioral expectations of foster parents, discipline used by foster parents, religious training, school, contact with natural parents, and purpose of placement in foster care.
- e.* The foster parents' view of the child, the child's problem, placement worker's involvement, plan for the child, involvement of natural parents, and additional services that either the foster child or foster parents need.
- f.* Any previously cited deficiencies.
- g.* Recommended action.

113.15(3) Impressions of the unannounced visit shall be shared with foster parents.

113.15(4) A written report summarizing the visit shall be sent to the licensing worker within two weeks after the visit. A copy of the report shall be retained in the foster parents' record.

113.15(5) Actions after the unannounced visit.

a. When deficiencies are cited that do not appear likely to cause immediate physical or mental harm to the child, an additional visit may be scheduled.

b. When the reported deficiencies raise questions of concern as to the quality of care provided, the licensing worker shall report to the placement worker, suggesting a meeting with foster parents to discuss deficiencies and suggestions for improving the deficiencies, and following the discussion obtaining written commitments from the foster parents as to how the foster parents intend to correct the deficiencies.

c. When the reported deficiencies appear likely to cause immediate physical or mental harm to the child, the service area manager immediately shall:

- (1) Direct the placement worker to determine if the child should be removed, and
- (2) Direct the licensing worker to complete a review of the foster home to determine if the family should continue to be licensed, should receive a provisional license, or should have the license revoked according to 441—112.6(237).

113.15(6) When the foster parents refuse to make a written commitment to improve the deficiencies, the licensing worker shall do a complete review of the foster home to determine if the license should be revoked according to rule 441—112.6(237).

This rule is intended to implement Iowa Code section 237.7.

441—113.16(237) Planned activities and personal effects.

113.16(1) *Daily routine.* The daily routine shall promote good health and provide an opportunity for activity suitable for the foster child with time for rest and play.

113.16(2) *Clothing.*

- a. All children should have their own clothing.
- b. Children shall have training and help in selection and proper care of clothing.
- c. Clothing shall be suited to the existing climate and seasonal conditions.
- d. Clothing shall be becoming, of proper size, and of the character usually worn by children in the community.
- e. There shall be an adequate supply of clothing to permit laundering, cleaning and repair.
- f. There shall be adequate closet and drawer space for children to permit access to their clothing.

113.16(3) *Educational opportunity.* Every child shall be given the opportunity to complete high school or vocational training in accordance with the child's aptitude.

113.16(4) *Religious training.* Each child shall be given an opportunity for religious training. Whenever practicable, the child shall be placed with foster parents of the child's own religious faith, or in accordance with the wishes of the biological or adoptive parents. Children shall not be required to participate in religious training or observances contrary to the wishes of the biological, adoptive family, or religious beliefs of the child.

113.16(5) *Community participation.* Every child shall be given the opportunity to develop healthy social relationships through participation in neighborhood, school and other community and group activities. The child shall have the opportunity to invite friends to the foster home and to visit the home of friends.

113.16(6) *Work assignments.* Work assignments shall be in keeping with the total healthy development of the child. Exploitation of the child is prohibited. No child shall be permitted to do any hazardous tasks or to engage in any work which is in violation of the child labor laws of the state. Each child shall have the opportunity to learn to assume some responsibility for self and for household duties in accordance with the child's age, health and ability. However, assigned tasks shall not deprive the child of school, sleep, play or study periods.

This rule is intended to implement Iowa Code section 237.3.

441—113.17(237) Medical examinations and health care of the child.

113.17(1) *Physical examinations.* Each child should have a physical examination by a physician prior to placement in the foster home to determine the child is free from contagious or infectious diseases. When this physical examination cannot be given prior to admission, an examination shall be scheduled within seven days after placement. An annual medical review of treatment received during the year shall be obtained from the health practitioner or practitioners. When a child is in continuous foster care, a new physical examination shall not be required when the child transfers from one foster family home to another unless there is some indication that an examination is necessary.

113.17(2) *Medical and dental supervision.* Each child shall be under regular medical and dental supervision. Foster parents shall keep the supervising agency informed of any health problems. In case of sickness or accident, immediate medical care shall be secured for the child in accordance with the supervising agency's directions given at the time of placement.

113.17(3) *Exemption from medical care.* Nothing in this rule shall be construed to require medical treatment or immunization for a minor child of any person who is a member of a church or religious organization which is against medical treatment for disease. In such instance, an official statement from the organization and a notarized statement from the parents shall be incorporated in the record. In potentially life-threatening situations, the child's care shall be referred to appropriate medical and legal authorities.

This rule is intended to implement Iowa Code section 237.3.

441—113.18(237) Training and discipline of foster children.

113.18(1) *Foster parents' methods of training and discipline.* The evaluation of the foster parent shall include a discussion and written report of the foster parents' methods of training and discipline.

113.18(2) *Restrictions on training and discipline.* Child training and discipline shall be handled with kindness and understanding. No child shall be deprived of food as punishment. No child shall be subjected to verbal abuse, threats or derogatory remarks about the child or the child's family. Use of corporal punishment is prohibited. Reasonable physical force may be used to restrain a child in order to prevent injury to the child, injury to others, the destruction of property, or extremely disruptive behavior.

113.18(3) *Reports of mistreatment.* Reports of mistreatment coming to the attention of the supervising agency shall be investigated promptly and referred to the proper authorities when necessary. This rule is intended to implement Iowa Code sections 234.40 and 237.3.

441—113.19(237) Emergency care and release of children.

113.19(1) *Supervision and arrangements for emergency care.* Foster parents shall provide supervision of foster children as dictated by the individual child's specific needs and in agreement with the supervising agency. In case of emergency requiring the foster parents' temporary absence from the home, arrangements shall be made with designated, responsible persons for the care of the children during the period of absence.

113.19(2) *Release of foster child.* The foster parents shall release the foster child only to the agency, parent or guardian from whom the child was received for care, or the person specifically designated by the agency, parent or guardian.

441—113.20(237) Changes in foster family home. Foster parents shall notify the department within 30 days of any change in the number of persons living in the home or of a move to a new home.

This rule is intended to implement Iowa Code section 237.3.

CHAPTER 114
LICENSING AND REGULATION OF ALL
GROUP LIVING FOSTER CARE FACILITIES FOR CHILDREN

[Prior to 7/1/83, Social Services[770] Ch 114]

[Prior to 2/11/87, Human Services[498]]

441—114.1(237) Applicability. This chapter outlines the basic standards for all group living foster care facilities and contains the basic standards applicable to community residential facilities for children. Additional standards applicable to specific levels of group living are discussed in 441—Chapter 115, “Licensing and Regulation of Comprehensive Residential Facilities for Children,” and 441—Chapter 116, “Licensing and Regulation of Residential Facilities for Mentally Retarded Children.”

This rule is intended to implement Iowa Code chapter 237.

441—114.2(237) Definitions.

“*Adequate lighting*” means a light intensity of 20 foot-candles (approximately equivalent to a 60 watt bulb at a clear distance of 5 feet).

“*Caseworker*” means any staff of the facility who is primarily responsible for planning for individual children, a family, or groups, as well as coordination with referral sources and coordination of services to the individual.

“*Casework supervisor*” means any staff of the facility who provides supervision of the caseworker(s) by regularly scheduled face-to-face case specific discussions with the caseworker.

“*Chemical restraint*” means the use of chemical agents including psychotropic drugs as a form of restraint. The therapeutic use of psychotropic medications as a component of a service plan for a particular child is not considered chemical restraint.

“*Child care worker*” means any staff of the facility whose primary responsibility is the direct care of children in the facility.

“*Community residential facility*” means a facility which provides care for children who are considered unable to live in a family situation due to social, emotional or physical disabilities but are capable of interacting in a community environment with a minimum amount of supervision. The facility provides 24-hour care including board and room. Community resources are used for education, recreation, medical, social and rehabilitation services. The facility is responsible for planning the daily activities of the children, discipline, guidance, peer relationships, and recreational programs.

“*Control room*” means a locked room used for treatment purposes in a comprehensive residential facility.

“*Educational degrees*” means formally approved certificates from accredited schools.

“*Highly structured juvenile program*” means a short-term treatment program lasting 90 days and having a high degree of structure that stresses discipline, physical activity, and education. The program must be licensed either as a community residential facility under this chapter or as a comprehensive residential facility under 441—Chapter 115. The program shall have the ability to use a physically secure setting dependent upon the level of the license.

“*Locked cottage*” means an occupied comprehensive residential facility or an occupied unit of a comprehensive residential facility which is physically restrictive because of the continual locking of doors to prevent the children in care from leaving the facility.

“*Mechanical restraint*” means restriction by the use of a mechanical device of a child’s mobility or ability to use the hands, arms, or legs.

“*Physical restraint*” means direct physical contact required on the part of a staff member to prevent a child from hurting self, others, or property.

“*Prime programming time*” means any period of the day when special attention or supervision is necessary, for example, upon awakening in the morning until departure for school, during meals, after school, transition between activities, evenings and bedtime, or weekends and holidays, in order to maintain continuity of program and care. Prime programming time shall be defined by the facility.

“*Private juvenile detention home*” means a juvenile detention home as defined in Iowa Code section 232.2, which does not meet the requirements of being “county or multicounty” as defined in 441—subrule 105.1(2).

“*Private juvenile shelter care home*” means a juvenile shelter care home as defined in Iowa Code section 232.2, which does not meet the requirements of being “county or multicounty” as defined in 441—subrule 105.1(2).

“*Staff*” means any person providing care or services to or on behalf of the facility whether the person is an employee of the facility, an independent contractor or any other person who contracts with the facility, an employee of an independent contractor or any other person who contracts with the facility, or a volunteer.

441—114.3(237) Physical standards. Local building and zoning ordinances shall be met.

114.3(1) Grounds.

- a. An outdoor play area of 75 square feet per child shall be provided.
- b. The play area shall be identified and kept free from hazards that could cause injury to a child.
- c. Rubbish and trash shall be kept separated from the play area.
- d. The grounds shall be adequately drained.

114.3(2) Buildings.

a. All living areas shall:

- (1) Have screens on windows used for ventilation.
- (2) Be maintained in clean, sanitary conditions, free from vermin, rodents, dampness, noxious gases and objectionable odors.
- (3) Be in safe repair.
- (4) Provide for adequate lighting when natural sunlight is inadequate.
- (5) Have heating and storage areas separated from sleeping or play areas.
- (6) Have walls and ceiling surfaced with materials that are asbestos free.

b. *All sleeping rooms shall:*

- (1) Provide a minimum of 60 square feet per child for multiple occupancy.
- (2) Provide a minimum of 80 square feet per child for single occupancy.
- (3) Not sleep more than four children per room. Facilities licensed prior to July 1, 1981, meeting current square footage requirements shall be allowed to house five children per room.
- (4) Be of finished construction.

Facilities licensed prior to July 1, 1981, having a square foot area less than that required in subparagraphs (1) and (2) shall be considered to meet those standards.

c. *All rooms aboveground shall:*

- (1) Have a ceiling height of at least 7 feet, 6 inches.
- (2) Have a window area of at least 8 percent of the floor area unless mechanical ventilation is provided that is capable of removing dampness and odors.

d. *All rooms belowground shall:*

- (1) Have a ceiling height of at least 6 feet, 8 inches.
- (2) Have a window area of at least 2 percent of the floor area unless mechanical ventilation is provided that is capable of removing dampness and odors.
- (3) Have floor and walls constructed of concrete or other materials with an impervious finish and free from groundwater leakage.

114.3(3) Bedrooms.

- a. Each child in care shall have a solidly constructed bed.
- b. Sheets, pillowcases, and blankets shall be provided for each child and shall be kept clean and in good repair.
- c. Each child in care shall have adequate storage space for private use, and a designated space for hanging clothing in proximity to the bedroom occupied by the child.
- d. No child over the age of five years shall occupy a bedroom with a member of the opposite sex.

114.3(4) Heating.

a. The heating unit shall be located and operated to maintain the temperature in the living quarters at a minimum of 65 degrees Fahrenheit during the day and 55 degrees Fahrenheit during the night. Variances may be made in case of health problems. Temperature is measured at 24 inches above the floor in the middle of the room.

b. All space heaters and water heaters involving the combustion of fuel, such as gas, oil or similar fuel, shall be vented to the outside atmosphere.

c. Neither rubber nor plastic tubing shall be used as supply lines for gas heaters.

d. The heating or cooling plant shall be checked at least annually and kept in safe working condition at all times.

This rule is intended to implement Iowa Code section 237.3.

441—114.4(237) Sanitation, water, and waste disposal.**114.4(1) Bathroom facilities.**

a. Bathrooms shall have an adequate supply of hot and cold running water.

b. Each bathroom shall be properly equipped with toilet tissue, towels, soap, and other items required for personal hygiene unless children are individually given these items. Paper towels, when used, and toilet tissue shall be in dispensers.

c. Toilets and baths or showers shall provide for individual privacy.

d. There shall be a shower or tub for each ten children or portion thereof.

e. Tubs and showers shall have slip-proof surfaces.

f. At least one toilet and one lavatory shall be provided for each six children or portion thereof.

g. Toilet facilities shall be provided with natural or artificial ventilation capable of removing odors and moisture.

h. Toilet facilities adjacent to a food preparation area shall be separated completely by an enclosed solid door.

i. All toilet facilities shall be kept clean.

j. When more than one stool is used in one bathroom, partitions providing privacy shall be used.

k. Toilets, wash basins, and other plumbing or sanitary facilities shall be maintained in good operating condition.

114.4(2) Food preparation and storage.

a. Cracked dishes and utensils shall not be used in the preparation, serving, or storage of food.

b. Storage areas for perishable foods shall be kept at 45 degrees Fahrenheit or below.

c. Storage areas for frozen foods shall be kept at zero degrees Fahrenheit or below.

d. Food that is to be served hot shall be maintained at 140 degrees Fahrenheit or above.

e. Food that is to be served cold shall be maintained at 45 degrees Fahrenheit or below.

f. The kitchen and food storage areas shall be kept clean and neat. Foods shall not be stored on the floor.

g. The floor and walls shall be of smooth construction and in good repair.

114.4(3) Personnel handling food. Personnel who handle food shall:

a. Be free of infection.

b. Be clean and neatly groomed.

c. Wear clean clothes.

d. Not use tobacco in any form while preparing or serving food.

114.4(4) Dishwashing facilities.

a. Manual dishwashing will be allowed in facilities that normally serve 15 or less people at one meal.

b. Commercial dishwashers shall be used in facilities serving more than 15 people at one meal, and shall meet the following criteria:

(1) When chemicals are added for sanitation purposes, they shall be automatically dispensed.

(2) Machines using hot water for sanitizing must maintain wash water at least 150 degrees Fahrenheit and rinse water at a temperature of at least 180 degrees Fahrenheit or a single temperature machine at 165 degrees Fahrenheit for both wash and rinse.

(3) All machines shall be thoroughly cleaned and sanitized at least once each day or more often if necessary to maintain satisfactory operating condition.

c. Soiled and clean dish table areas shall be of adequate size to accommodate the dishes for one meal.

d. All hand-held food preparation and serving equipment shall be cleaned and sanitized following each meal. Dispensers, urns, and similar equipment shall be cleaned and sanitized daily.

114.4(5) *Foods not prepared at site of serving.*

a. The place where food is prepared for off-site serving shall conform with all requirements for on-site food preparation.

b. Food shall be transported in covered containers or completely wrapped or packaged so as to be protected from contamination.

c. During transportation, and until served, hot foods shall be maintained at 140 degrees Fahrenheit or above and cold food maintained at 45 degrees Fahrenheit or below.

114.4(6) *Milk supply.* When fluid milk is used, it shall be pasteurized Grade A.

114.4(7) *Public water supply.* The water supply is approved when the water is obtained from a public water supply system.

114.4(8) *Private water supplies.*

a. Each privately operated water supply shall be annually checked and evaluated for obvious deficiencies such as open or loose well tops or platforms and poor drainage around the wells.

b. As part of the evaluation, water samples shall be collected and submitted by the department of human service worker or local health sanitarian to the state hygienic laboratory or other laboratory certified by the hygienic laboratory and analyzed for coliform bacteria and nitrate (NO³) content.

c. When the water supply is obtained from more than one well, proof of the quality of the water from each well is required.

d. When no apparent deficiencies exist in the well and the water sample is approved, water safety requirements have been met.

e. When the water sample is not approved, the facility shall provide a written statement as to how the water supply will be upgraded.

f. A facility can obtain potable water from another source when a written statement is provided on where the water will be obtained and the manner of transportation and storage until the water supply is tested as safe. This shall be considered as meeting the water safety requirements.

114.4(9) *Heating or storage of hot water.* Each tank used for the heating or storage of hot water shall be provided with a pressure and temperature relief valve.

114.4(10) *Sewage treatment.*

a. Facilities shall be connected to public sewer systems where available.

b. Private disposal systems shall be designed, constructed, and maintained so that no unsanitary or nuisance conditions exist, such as surface discharge of raw or partially treated sewage or failure of the sewer lines to convey sewage properly.

114.4(11) *Garbage storage and disposal.*

a. A sufficient number of garbage and rubbish containers shall be provided to properly store all material between collections.

b. Containers shall be fly tight, leakproof, and rodent proof and shall be maintained in a sanitary condition.

This rule is intended to implement Iowa Code section 237.3.

441—114.5(237) Safety.

114.5(1) *General.*

a. Facilities shall take sufficient measures to ensure the safety of the children in care.

b. Stairways, halls and aisles shall be of substantial nonslippery material, shall be maintained in a good state of repair, shall be adequately lighted and shall be kept free from obstructions at all times. All stairways shall have handrails.

c. Radiators, registers, and steam and hot water pipes shall have protective covering or insulation. Electrical outlets and switches shall have wall plates.

d. Fuse boxes shall be inaccessible to children.

e. Facilities shall have written procedures for the handling and storage of hazardous materials.

f. Firearms and ammunition shall be kept under lock and key and inaccessible to children. When firearms are used, the facility shall have written policies regarding their purpose, use, and storage.

g. All swimming pools shall conform to state and local health and safety regulations. Adult supervision shall be provided at all times when children are using the pool.

h. The facility shall have policies regarding fishing ponds, lakes, or any bodies of water located on or near the institution grounds and accessible to the children.

114.5(2) Emergency evacuation. All living units utilized by children shall have a posted plan for evacuation in case of fire or disaster with practice drills held at least every six months.

This rule is intended to implement Iowa Code section 237.3.

441—114.6(237) Organization and administration. Any change in the name of the facility, the address of the facility, the executive, or the capacity shall be reported to the licensing manager.

114.6(1) Table of organization. A table of organization including the identification of lines of responsibility and authority from policymaking to service to clients shall be available to the licensing staff.

114.6(2) Purpose of agency. The purpose or function of the organization shall be clearly defined in writing and shall include a description of the children to be accepted for care and the services offered.

114.6(3) Governing bodies or individuals. All group living foster care facilities shall:

a. Have a governing board or individuals who are accountable for and have authority over the policies and activities of the organization. In the case of an organization owned by a proprietor or partnership, the proprietor or partner shall be regarded as the governing body.

b. Provide the department with a list of names, addresses, telephone numbers and titles of the members of the governing body.

c. Have adequate insurance covering fire and liability as a protection to children in care.

d. For organizations with the home base located outside Iowa, have duly authorized representatives with decision-making abilities designated within the state of Iowa.

114.6(4) Executive director. The governing body shall select and appoint an executive director with full administrative responsibility for carrying out the policies, procedures and programs established by the governing body.

114.6(5) Financial solvency of facilities. Profit and nonprofit institutions shall maintain financial solvency to ensure adequate care of children and youth for whom responsibility is assumed. It shall have sufficient financial resources, predictable income, or both, and not be totally dependent upon current fees, for a three-month operating period. The facility shall have written policies and procedures describing the program of the facility and specifying how it will be carried out.

This rule is intended to implement Iowa Code section 237.2.

441—114.7(237) Policies and record-keeping requirements.

114.7(1) Policies in writing. The following current personnel policies and practices of the agency and relating to the specific facility shall be described in writing and accessible to staff upon request:

a. Affirmative action and equal employment opportunity policies and procedures covering the hiring, assignment, and promotion of employees.

b. Job descriptions for all positions.

c. Provisions for vacations, holidays, and sick leave.

d. Effective, time-limited grievance procedures allowing the aggrieved party to bring the grievance to at least one level above that party's supervisor.

e. Authorized procedures, consistent with due process, for the suspension and dismissal of an employee for just cause.

f. Written procedures for annual employee evaluations.

114.7(2) *Health of staff.* Staff who have direct client contact or are involved in food preparation shall be medically determined to be free of serious infectious communicable diseases and able to perform their duties. A statement by a physician (as defined in Iowa Code section 135.1(5)) attesting to these facts shall be secured at the time of employment and whenever necessary thereafter and filed in the staff record of the staff person. A new statement shall be secured at least every three years.

114.7(3) *Staff records.*

a. The facility shall maintain the following information with respect to each staff person:

(1) Name and current address of each staff person.

(2) At least two written references or documentation of oral references. In case of unfavorable references, there shall be documentation of further checking to ensure that the person will be reliable.

(3) Documentation that a criminal records check with the Iowa division of criminal investigation has been completed on the staff person prior to providing any care or service directly or indirectly to children under the care of the agency. A copy of the department's evaluation of the criminal record check shall be kept in the staff record.

(4) A written, signed and dated statement furnished by the staff person prior to providing any care or services to or on behalf of the facility which discloses any founded reports of child abuse on the person that may exist.

(5) Documentation that a check of the staff person has been completed with the Iowa central abuse registry for any founded reports of child abuse prior to the person's providing any care or services directly or indirectly to children under the care of the agency. A copy of the department's evaluation of this child abuse record check shall be kept in the staff record.

(6) Records of a health examination or a record of a health report, as required in subrule 114.7(2), plus a written record of subsequent health services rendered to staff necessary to ensure that each individual is physically able to perform the job duties or functions.

(7) If the staff person has completed and submitted Form 470-2310, Record Check Evaluation, to the agency, a copy shall be kept in the staff record.

(8) Records of training sessions attended, including dates and content of the training.

(9) When otherwise required in situations that apply, a certified copy of a school transcript, diploma, or written statement from the school or supervising agency for positions having educational requirements.

b. In addition, with respect to staff who are employed by the facility, the facility shall maintain the following records:

(1) Social security number of each employee.

(2) A job application containing sufficient information to justify the initial and current employment.

(3) A certified copy of a school transcript, diploma, or written statement from the school or supervising agency before permanent employment of applicants for positions having educational requirements.

(4) Written verification of licensure before permanent employment of applicants for positions requiring licenses. Evidence of renewal of licenses as required by the licensing agency.

(5) Current information relative to work performance evaluation.

(6) Information on written reprimands or commendations.

(7) Information on position in the agency and date of employment.

(8) If the applicant, probationary or temporary employee has completed and submitted Form 470-2310, Record Check Evaluation, to the agency, a copy shall be kept in the staff record.

441—114.8(237) Staff.

114.8(1) *Qualifications of staff.*

a. A caseworker shall have a bachelor of arts or bachelor of science degree in social work, psychology or a related behavioral science, plus two years of supervised experience; or a bachelor's

degree in social work with one year of supervised experience; or six years of supervised child welfare experience in residential care or a combination of advanced education in the behavioral sciences and experience equal to six years.

b. A casework supervisor shall have either a master's degree in social work with one year of supervised experience after the master's degree or a master's degree in psychology or counseling with two years of experience beyond the master's degree, one of which was under supervision. The experience shall be in the area of child welfare services.

c. Child care workers shall be at least 18 years of age.

d. Any licensed facility having persons in employment in positions for which present rules require higher qualifications will be considered to meet rules with the present staff. New staff will need to meet the requirements of these rules.

e. A person who has a record of a criminal conviction or founded child abuse report shall not be employed, unless an evaluation of the crime or founded child abuse has been made by the department which concludes that the crime or founded child abuse does not merit prohibition of employment. If a record of criminal conviction or founded child abuse exists, the person shall be offered the opportunity to complete and submit Form 470-2310, "Record Check Evaluation." In its evaluation, the department shall consider the nature and seriousness of the crime or founded abuse in relation to the position sought, the time elapsed since the commission of the crime or founded abuse, the circumstances under which the crime or founded abuse was committed, the degree of rehabilitation, and the number of crimes or founded abuses committed by the person involved.

114.8(2) *Number of staff.*

a. There shall be at least one readily accessible staff person on duty for each currently occupied living unit.

b. Each facility shall have the services of a casework supervisor and a caseworker adequate to fulfill the staff duties.

c. There shall be an on-call system operational 24 hours a day to provide supervisory consultation. There shall be a written plan documenting this system.

d. The number and qualifications of the staff will vary depending on the needs of the children. There shall be at least a one to eight staff to client ratio during prime programming time.

114.8(3) *Staff duties.*

a. The casework supervisor shall provide in-person case specific supervision at the site of the facility for one hour per month per caseworker and be available for consultation in case of emergency.

b. Caseworkers shall:

(1) Develop a care plan for each child containing goals and objectives with projected dates of accomplishment and shall involve the client, referral agency, and family whenever possible.

(2) Develop a specific plan relating to the involvement of the child's parents unless documented by the caseworker that their involvement would be counterproductive.

c. The facility shall define in writing who shall be responsible for the following staff duties:

(1) Documenting case reassessments quarterly, involving the same personnel as previously involved in care plan development.

(2) Documenting the implementation of the care plan.

(3) Providing for scheduled in-person conferences with each resident.

(4) Providing a supportive atmosphere for the child.

(5) Providing for coordination of internal and external activities of the child.

(6) Providing for liaison with the referring agency.

(7) Providing leadership and guidance to the children.

(8) Providing a mechanism for dealing with day-to-day program operations.

(9) Being responsible for overseeing and maintaining general health and well-being of children.

(10) Supervising the living activities of the children.

(11) Monitoring and recording behavior on a daily basis.

(12) At all times, knowing where the children are supposed to be.

114.8(4) Staff development. Staff development shall be appropriate to the size and nature of the facility. There shall be a written format for staff training that includes:

a. Orientation for all new employees to acquaint them with the philosophy, organization, program practices, and goals of the facility.

b. Training of new employees in areas related to their job assignments.

c. Provisions for all staff members to improve their competency. This may be accomplished through such means as:

(1) Attending staff meetings.

(2) Attending seminars, conferences, workshops and institutes.

(3) Visiting other facilities.

(4) Access to consultants.

(5) Access to current literature, including books, monographs, and journals relevant to the facility's services.

d. An individual designated responsible for staff development and training, who will complete a written staff development plan which shall be updated annually.

This rule is intended to implement Iowa Code section 237.3.

441—114.9(237) Intake procedures.

114.9(1) Intake policies. The agency shall have written intake policies specific to the licensed facility.

114.9(2) Basis of acceptance. Children shall be accepted for care only after the following criteria have been met:

a. An assessment of the child's need for service and supervision has been agreed upon by the staff of the facility and the referring agency worker. The child, the child's family, and any other significant people shall be invited to participate in this process to the fullest extent possible.

b. The assessment indicates that the child requires the care offered by this type of facility and is likely to benefit from the program the facility offers.

114.9(3) Referral requirements. The following information shall be available prior to any decision being made regarding the acceptance of a child:

a. A current social history.

b. A copy of the child's physical assessment including immunization history completed within one year prior to application, when available.

c. Where indicated, or when available, psychological testing completed no more than one year prior to referral.

d. Current educational data.

e. When indicated or available, psychiatric report completed no more than one year prior to referral.

f. Referring agency's case plan which includes goals and objectives to be achieved during placement with a time frame for the achievement of these goals and objectives.

g. Documentation of the legal status of the child which includes any court orders or statements of custody and guardianship.

114.9(4) Admission requirements.

a. The following items shall be secured upon admission of the child to the facility.

(1) A placement agreement for the child signed by the person having legal responsibility for the child and the agency where the child is being placed. When this is not available at the time of placement, it shall be furnished within 48 hours of placement in the facility.

(2) Emergency medical authorization from the court, the parents, the guardian, or custodian.

b. The following items shall be provided to the child, the child's family or guardian, and the referring worker at the time of placement:

(1) A description of the services provided.

(2) Written policies regarding children's rights as in 114.13(2).

(3) Written policies regarding religion, work or vocational experiences, family involvement, grievance procedures and discipline as in 441—114.13(237) to 114.18(237) and 114.20(237).

114.9(5) *Personal assessment.* At the time of intake, individual needs will be identified by staff based on written and verbal information from referral sources, observable behavior at intake and the initial interview with youth or family, school contacts, physical examinations, and other relevant material. The individual assessment shall provide the basis for development of a care plan for each child.

114.9(6) *Educational assessment.* An educational assessment shall be developed by the staff and the referring worker. Involvement of the parents or guardian, area education agency, and public schools may be appropriate.

114.9(7) *Person responsible.* Each agency shall designate a person or persons who have the authority to do intake.

114.9(8) *Intake sheet.* An intake sheet shall be completed on each child containing at least the information specified in 114.11(2).

This rule is intended to implement Iowa Code section 237.3.

441—114.10(237) Program services.

114.10(1) *Evaluation services.*

a. When evaluation services are provided by staff of the facility, the services shall be clearly defined so that referral sources are clear about the components of the service.

b. Evaluations shall be based on behavioral observations, social history, educational assessments and shall include an assessment of vocational needs, recreational skills, and physical therapy, speech, language, vision and hearing needs to assist in planning and placement for the child. The need for providing all of these evaluative services will be determined on the basis of the specific child being referred.

114.10(2) *Care plan.* There shall be a written care plan for each child. The care plan shall be based on the individual needs determined through the assessment of each resident, provide for consultation with the family, and shall include the following:

a. Identification of special needs.

b. Description of planned services which indicate which staff person will be responsible for the specific services in the plan.

c. Indication of where the services are to occur and note the frequency of activities or services.

114.10(3) *Daily routine.* Each facility shall provide a daily routine for the children in residence which is directed toward developing healthful habits in eating, sleeping, exercising, personal care, hygiene, and grooming according to the needs of the individual child and the living group.

114.10(4) *Daily log.* The facility shall maintain a daily log. The log shall be used to note general progress in regard to the care plan and any problem areas or unusual behavior for each child.

114.10(5) *Educational services.* An educational program shall be available for each child in accordance with abilities and needs. The educational and teaching standards established by the state department of education shall be met when an educational program is provided within an institution.

114.10(6) *Health care.*

a. There shall be 24-hour emergency and routine medical and dental services available and provided when prescribed. Provisions for these services shall be documented.

b. The facility shall arrange a physical assessment including vision and hearing tests for each child in care within one week of admission unless the child has received an examination within the past year and the results of this examination are available to the facility.

c. A facility shall not require medical treatment when the parent(s) or guardian of the child or the child objects to treatment on the grounds that it conflicts with the tenets and practices of a recognized church or religious denomination of which the parent(s), guardian or child is an adherent. In potentially life-threatening situations, the facility shall refer the child's care to appropriate medical and legal authorities.

d. A facility shall have written procedures for staff members to follow in case of medical emergency.

e. A facility shall schedule a dental examination for each child within 14 days of admission unless the child has been examined within six months prior to admission and the facility has the results of that examination.

114.10(7) Dietary program. The facility shall provide properly planned, nutritious and inviting food and take into consideration the special food needs and tastes of children.

114.10(8) Recreation and leisure activities.

a. A facility shall provide the opportunity for recreation and leisure activities for children in care.

b. Opportunities shall be based on both the individual interests and needs of the children in care and the composition of the living group.

c. A facility shall utilize the recreational resources of the community whenever appropriate.

114.10(9) Casework services. A facility shall provide or obtain casework services in the form of counseling in accordance with the needs of each child's individual care plan. Casework services include crisis intervention, daily living skills, interpersonal relationships, future planning and preparation for placement as required by the child.

114.10(10) Psychiatric and psychological services —(Optional service).

a. When the diagnostic evaluation of a child indicates need for care by a psychiatrist and under psychiatric guidance, the specialized treatment or consultation shall be provided or arranged by the facility.

b. Psychologists, whose services are used in behalf of children, shall be licensed as a psychologist in the state of Iowa, or be certified by the department of education.

114.10(11) Volunteers —(Optional service). A facility which utilizes volunteers to work directly with a particular child or group of children, shall have a written plan for using volunteers. This plan shall be given to all volunteers. The plan shall indicate that all volunteers shall:

a. Be directly supervised by a paid staff member.

b. Be oriented and trained in the philosophy of the facility and the needs of children in care, and methods of meeting those needs.

c. Be subject to character and reference checks required of employment applicants.

This rule is intended to implement Iowa Code section 237.3.

441—114.11(237) Case files.

114.11(1) Generally. All facilities shall establish and maintain case files on each child. The case files shall include the following:

114.11(2) Face sheet. The face sheet shall contain the following information:

a. Full name, birth place and date of birth.

b. Parents' full name.

c. Parents' address and telephone number.

d. Religious preference of parents and child.

e. Statement of who has legal custody and guardianship.

f. Name of the referring worker and agency making the referral.

g. Telephone number and address of the agency or court making the referral.

114.11(3) Referral packet. All of the information required in the referral packet shall be contained in the case record including a social history on the child, a copy of the child's physical assessment and immunization history, psychological testing, when available, current educational information, psychiatric report, when available, and the referring agency's case plan.

114.11(4) Legal documents.

a. Placement agreement signed by parent(s) or custodian of the child.

b. Petitions and orders of the court regarding adjudication, custody, or guardianship.

114.11(5) Psychiatric and psychological. Psychiatric and psychological reports, when available.

114.11(6) Correspondence. Correspondence regarding the child.

114.11(7) Medical.

a. Medical and surgical authorizations signed by the parent(s), guardian, or contained in the court order.

b. Record of medical care received while in the facility.

c. Information on past medical history.

114.11(8) School.

a. Name of school currently attended.

b. Grade placement.

c. Any specific educational problem.

d. Remedial action recommended.

114.11(9) Care plan. Individual child care plan and semiannual review and revision of care plan.**114.11(10) Dictation.**

a. Appropriate notes, all significant contacts with parents, referring worker and other collateral contracts, as well as staff counseling with child and notations on behavior.

b. Information on release of the child from the facility including the name, address and relationship of the person or agency to whom the child was released.

This rule is intended to implement Iowa Code section 237.3.

441—114.12(237) Drug utilization and control. The agency shall have written policies and procedures governing the methods of handling prescription drugs and over-the-counter drugs within the facility. No prescription or narcotic drugs are to be allowed in the facility without the authorization of a licensed physician.

114.12(1) Approved drugs. Only drugs which have been approved by the federal Food and Drug Administration for use in the United States may be used. No experimental drugs may be used.

114.12(2) Prescribed by physician. Drugs shall be prescribed by a physician licensed to practice in the state of Iowa or the state in which the physician is currently practicing and may be prescribed only for use in accordance with dosage ranges and indications approved by the federal Food and Drug Administration.

114.12(3) Dispensed from a licensed pharmacy. Drugs provided to residents shall be dispensed only from a licensed pharmacy in the state of Iowa in accordance with the pharmacy laws in the Code of Iowa, or from a licensed pharmacy in another state according to the laws of that state, or by a licensed physician.

114.12(4) Locked cabinet. All drugs shall be maintained in a locked cabinet. Controlled substances shall be maintained in a locked box within the locked cabinet. The cabinet key shall be in the possession of a staff person. A bathroom shall not be used for drug storage. A documented exception can be made by a physician for self-administered drugs as discussed in 114.12(17).

114.12(5) Medications requiring refrigeration. Medications requiring refrigeration shall be kept in a locked box in the refrigerator and separated from food and other items.

114.12(6) Poisonous or caustic drugs. All potent poisonous or caustic drugs shall be plainly labeled, stored separately from other drugs in a specific well-illuminated cabinet, closet, or storeroom, and made accessible only to authorized persons.

114.12(7) Prescribed medications. All prescribed medications shall be clearly labeled indicating the resident's full name, physician's name, prescription number, name and strength of the drug, dosage, directions for use and, date of issuing the drug. Medications shall be packaged and labeled according to state and federal guidelines.

114.12(8) Medication containers. Medication containers having soiled, damaged, illegible or makeshift labels shall be returned to the issuing pharmacist.

114.12(9) Medication for discharged residents. When a resident is discharged or leaves the facility, medications currently being administered shall be sent, in the original container, with the resident or with a responsible agent, and with the approval of the physician.

114.12(10) Unused prescription drugs. Unused controlled prescription drugs prescribed for residents shall be returned to the issuing pharmacist or physician for credit or destruction according

to state law. Other unused prescription drugs shall be destroyed by facility staff in the presence of a witness and this destruction shall be documented.

114.12(11) Refills. Prescriptions shall be refilled only with the permission of the attending physician.

114.12(12) Use of medications. No prescription medications prescribed for one resident may be administered to or allowed in the possession of another resident.

114.12(13) Order of physician. No prescription medication may be administered to a resident without the order of a licensed physician.

114.12(14) Patient reaction. Any unusual patient reaction to a drug shall be reported to the attending physician immediately.

114.12(15) Dilution or reconstitution of drugs. Dilution or reconstitution of drugs and their labeling shall be done only by a licensed pharmacist.

114.12(16) Administration of drugs. Medications shall be administered only in accordance with the instructions of the attending physician. Controlled substances shall be administered only by qualified personnel. The type and amount of the medication, the time and date, and the staff member administering the medication shall be documented in the child's record. (See IAC 620—8.16(204).)

114.12(17) Self-administration of drugs. There shall be written policy and procedures relative to self-administration of prescription medications by residents and only when:

- a. Medications are prescribed by a physician.
- b. The physician agrees that the patient can self-administer the drug.
- c. What is taken and when is documented in the record of the child.

This rule is intended to implement Iowa Code section 237.3.

441—114.13(237) Children's rights.

114.13(1) Policies in writing. All policies and procedures covered in this rule shall be in writing and provided to the child and parents or guardian upon the child's admission to the facility. The rationale and circumstances of any deviation from these policies shall be discussed with the child's parents or guardian and the referring worker, documented, and placed in the child's case record.

114.13(2) Confidentiality. Information regarding children and their families shall be kept confidential and released only with proper written authority.

114.13(3) Communication.

a. Visitation shall be allowed with members of the child's immediate family unless otherwise regulated by the court.

b. Visits shall be allowed with other significant persons.

c. Consideration shall be given to privacy for family visits.

d. The child shall be permitted to communicate with legal counsel and the referring worker.

e. The child shall be allowed to conduct private telephone conversations with family members. Incoming calls may be screened by staff to verify the identity of the caller before approval is given.

f. The child shall be allowed to send and receive mail. The facility may require the child to open incoming mail in the presence of a staff member when it is suspected to contain contraband articles, or when there is money that should be receipted and deposited.

g. When limitations on visitation, calls or other communications are indicated, they shall be determined with the participation or knowledge of the child, family or guardian, and the referring worker. All restrictions shall have specific bases which shall be made explicit to the child and family and documented in the child's case record.

114.13(4) Privacy. Reasonable provisions shall be made for the privacy of residents.

This rule is intended to implement Iowa Code section 237.2.

441—114.14(237) Personal possessions.

114.14(1) Belongings. A facility shall allow a child in care to bring personal belongings and to acquire belongings in accordance with the child's service plan. However, the facility shall, as necessary, limit or supervise the use of these items while the child is in care.

114.14(2) *Clothing.* A facility shall ensure that each child in care has adequate, clean, well-fitting, attractive, and seasonable clothing as required for health, comfort, and physical well-being. The clothes should be appropriate to age, sex and individual needs.

This rule is intended to implement Iowa Code section 237.2.

441—114.15(237) Religion—culture.

114.15(1) *Facility orientation.* A facility shall have a written description of its religious orientation, particular religious practices that are observed, and any religious restrictions. This description shall be provided to the child, the parent(s) or guardian, and the placing agency at the time of admission.

114.15(2) *Child participation.* When a facility accepts a child, the child shall have the opportunity to participate in religious activities and services in accordance with the child's own faith or that of the child's parent(s) or guardian. The facility shall, when necessary and reasonable, arrange transportation for religious activities. Wherever feasible, the child shall be permitted to attend religious activities and services in the community.

This rule is intended to implement Iowa Code section 237.2.

441—114.16(237) Work or vocational experiences.

114.16(1) *Written description.* The facility shall have a written statement of any work and vocational experiences available to children.

114.16(2) *Program component.* Work as part of the program shall be identified in the child's case plan.

114.16(3) *Self-care.* Ordinary self-care and self-sufficiency tasks are not considered work.

114.16(4) *Purpose.* Work shall be in the child's interest, within the child's ability, with payment where appropriate, and never solely in the interest of the facility's goals or needs.

This rule is intended to implement Iowa Code section 237.2.

441—114.17(237) Family involvement. There shall be written policies and procedures for family involvement that shall encourage continued involvement of the family with the child.

This rule is intended to implement Iowa Code section 237.2.

441—114.18(237) Children's money.

114.18(1) *Treatment of funds.* Money earned, received as a gift, or as an allowance by a child in care shall be deemed to be that child's personal property.

114.18(2) *Limitations.* The facility shall have a written policy on limitations on the child's use of funds.

114.18(3) *Records.* The facility shall maintain a separate accounting system for children's money.

This rule is intended to implement Iowa Code section 237.2.

441—114.19(237) Child abuse. Written policies shall prohibit mistreatment, neglect, or abuse of children and specify reporting and enforcement procedures for the facility. Alleged violations shall be reported immediately to the director of the facility and appropriate department of human services personnel. Any employee found to be in violation of Iowa Code chapter 232, division III, part 2, as substantiated by the department of human services' investigation shall be subject to the agency's policies concerning dismissal.

This rule is intended to implement Iowa Code section 237.2.

441—114.20(237) Discipline.

114.20(1) *Generally.* The facility shall have written policies regarding methods used for control and discipline of children which shall be available to all staff and to the child's family. Agency staff shall be in control of and responsible for discipline at all times. Discipline shall not include the withholding of basic necessities such as food, clothing, or sleep.

114.20(2) Corporal punishment prohibited. The facility shall have a policy that clearly prohibits staff or the children from utilizing corporal punishment as a method of disciplining or correcting children. This policy is to be communicated, in writing, to all staff of the facility.

114.20(3) Physical restraint. The use of physical restraint shall be employed only to prevent behavior extremely disruptive to others or to prevent the child from injury to self, to others, or to property. The rationale and authorization for the use of restraint and staff action and procedures carried out to protect the child's rights and to ensure safety shall be set forth clearly in the child's record by responsible professional staff.

114.20(4) Other restraints. Only comprehensive residential facilities may use a control room, locked cottages, mechanical restraints or chemical restraint.

114.20(5) Behavior expectations. The facility shall make available to the child and the child's parents or guardian written policies regarding the following areas:

- a. The general expectation of behavior including the facility's rules and practices.
- b. The range of reasonable consequences that may be used to deal with inappropriate behavior.

This rule is intended to implement Iowa Code section 237.3.

441—114.21(237) Illness, accident, death, or absence from the facility.

114.21(1) Notification of illness. A facility shall notify the child's parent(s), guardian and responsible agency of any serious illness, incident involving serious bodily injury, or circumstances causing removal of the child from the facility.

114.21(2) Notification of death. In the event of the death of a child, a facility shall notify immediately the physician, the child's parent(s) or guardian, the placing agency, and the appropriate state authority. The agency shall cooperate in arrangements made for examination, autopsy, and burial.

This rule is intended to implement Iowa Code section 237.2.

441—114.22(237) Records. In the event of closure of a facility, children's records shall be sent to the department of human services for retention according to the records retention policy.

This rule is intended to implement Iowa Code section 237.2.

441—114.23(237) Unannounced visits.

114.23(1) Time. The unannounced visit shall occur during periods of the day when the child would normally be in the facility and awake. Visits at other times may occur only as a result of a specific complaint.

114.23(2) Observations. The visit shall include an assessment of the following areas:

- a. Interaction between the staff and child.
- b. Interaction between the children.
- c. Discussion with the child about experiences in the facility.
- d. A check on any previously sighted deficiencies.
- e. Overall impression of the facility.

114.23(3) Recommendation. The licensing staff shall recommend follow-up, when needed.

This rule is intended to implement Iowa Code section 237.7.

441—114.24(237) Standards for private juvenile shelter care and detention homes. The standards of 441—Chapter 105 shall be used as the basis for licensing private juvenile shelter care and detention homes. These homes are not required to meet other standards of 441—Chapter 114.

This rule is intended to implement Iowa Code section 237.3.

CHAPTER 115
LICENSING AND REGULATION OF
COMPREHENSIVE RESIDENTIAL FACILITIES FOR CHILDREN

[Prior to 7/1/83, Social Services[770] Ch 115]

[Prior to 2/11/87, Human Services[498]]

441—115.1(237) Applicability. This chapter relates specifically to the licensing and regulation of comprehensive residential care facilities. Refer to 441—Chapter 112 for the basic licensing and regulation of all foster care facilities and 441—Chapter 114 for definitions and minimum standards for all group living foster care facilities.

This rule is intended to implement Iowa Code chapter 237.

441—115.2(237) Definitions.

“Comprehensive residential facility” means a facility which provides care and treatment for children who are unable to live in a family situation due to social, emotional, or physical disabilities and who require varying degrees of supervision as indicated in the individual treatment plan. Care includes room and board. Services include the internal capacity for individual, family, and group treatment. These services and others provided to the child shall be under the administrative control of the facility. Community resources may be used for medical, recreational, and educational needs. Comprehensive residential facilities have higher staff to client ratios than community residential facilities and may use control rooms, locked cottages, mechanical restraints, and chemical restraints when these controls meet licensing requirements.

“Nonsecure facility” means any facility which does not meet the definition of a secure facility.

“Secure facility” means any comprehensive residential facility which employs, on a regular basis, locked doors or other physical means to prevent children in care from leaving the facility. Secure facilities may only be used for children who have been adjudicated delinquent or placed pursuant to provisions of Iowa Code chapter 229.

This rule is intended to implement Iowa Code chapter 237.

441—115.3(237) Information upon admission. In addition to the requirements in 114.9(4) “b,” parents or guardians shall be provided with information on conditions for the use of restraints.

This rule is intended to implement Iowa Code section 237.3.

441—115.4(237) Staff.

115.4(1) Number of staff.

a. The number and qualifications of the staff will vary depending on the needs of the children. There shall be at least a one to five staff to child ratio during prime programming time.

b. A staff person shall be in each living unit at all times when children are in residence and there shall be a minimum of three nighttime checks between the hours of 12 midnight and 6 a.m. These checks shall be logged. Policies for nighttime checks shall be in writing.

115.4(2) Staff duties.

a. A casework supervisor shall provide:

(1) One hour per week per caseworker of in-person case specific supervision.

(2) On-site supervision at least monthly.

(3) At least one additional hour per week per caseworker in other related duties including case intake discussions, staffings of cases, evaluations of caseworker, teaching, and administrative duties.

b. Casework staff shall:

(1) Provide at least weekly group or individually scheduled in-person conferences with each resident for whom the caseworker is responsible. More frequent in-person contact shall be provided if required in the care plan.

(2) Provide a supportive and therapeutic atmosphere for the child.

(3) Select and employ appropriate treatment approaches to different types of children.

This rule is intended to implement Iowa Code section 237.3.

441—115.5(237) Program services.**115.5(1) Recreation program.**

a. The facility shall provide adequately designed and maintained indoor and outdoor activity areas, equipment, and equipment storage facilities appropriate for the age group it serves. There shall be a variety of activity areas and equipment so that all children can be active participants in different types of individual and group sports and other motor activities.

b. Games, toys, equipment, and arts and crafts material shall be selected according to the age and number of children with consideration to the needs of the children to engage in active and quiet play.

c. The facility shall plan and carry out efforts to establish and maintain workable relationships with community recreational resources so these resources may provide opportunities for children to participate in community recreational activities.

115.5(2) Casework services. The facility shall have the internal capacity to provide individual, family and group counseling and shall include, but not be limited to, casework dealing with crisis intervention, daily living skills, peer relationships, future planning and preparation for discharge.

This rule is intended to implement Iowa Code section 237.3.

441—115.6(237) Restraints.

115.6(1) Nonsecure facilities. Physical restraints and a control room are permitted in nonsecure facilities.

115.6(2) Secure facilities. Secure facilities may use physical restraints, a control room, locked cottages, mechanical restraints, and chemical restraints.

115.6(3) Written policies. A facility which uses restraints shall have a written policy on their use. This policy shall include:

a. A statement specifically identifying each form of restraint in use at the facility.

b. Criteria for use of each form of restraint.

c. Identification of staff authorized to approve and use each form of restraint.

d. Requirement for documentation in the child's individual case file.

e. Procedures for application or administration of each form of restraint.

f. Maximum time limit for use of restraints.

115.6(4) Use of restraint.

a. A facility shall not use, apply, or administer restraint in any manner which causes physical injury.

b. A facility shall not use restraint as a disciplinary or punitive measure, for staff convenience, or as a substitute for programming.

c. A secure facility which uses any form of restraint other than physical restraint shall ensure that all direct service staff are adequately trained in the following areas:

(1) The appropriate use and application or administration of each approved form of restraint.

(2) The facility's policies and procedures related to restraint.

(3) Crisis management techniques.

d. A secure facility shall continually review any placement of a child in any form of restraint other than physical restraint. The facility shall release the child from restraint immediately when the situation precipitating restraint no longer exists.

This rule is intended to implement Iowa Code section 237.4.

441—115.7(237) Control room.

115.7(1) Purpose. The control room shall be used for treatment purposes only. A facility shall be approved by the licensing authority as meeting the requirements of this chapter regarding control rooms before control rooms can be utilized.

115.7(2) Written policies. When a residential treatment facility uses a control room as part of its treatment program, the facility shall have written policies regarding its use. The policy shall:

a. Specify the types of behavior which may result in control room placement.

b. Delineate the staff members who may authorize its use as well as procedures for notification of supervisory personnel.

c. Require documentation in writing of the types of behaviors leading to control room placement and the conditions that will allow the child to return to the living unit. The child shall be informed of these conditions.

d. Limit the utilization of the control room to one of the following two circumstances:

(1) The child's care plan includes and explains how this use of the control room fits into the treatment plan for the child.

(2) A one time placement in an emergency without a care plan outlining the rationale for its use. This treatment shall be included in the care plan for a second placement of a child in the control room.

115.7(3) Physical requirements. The control room shall be designed to ensure a physically safe environment with:

a. All switches controlling lights and ventilation outside the room.

b. Allowance for observation of the child at all times.

c. Protected recessed ceiling light.

d. No electrical outlets in the room.

e. Proper heating, cooling, and ventilation.

f. Any window secured and protected in a manner to prevent harm to the child.

g. A minimum of 54 square feet in floor space with at least a 7-foot ceiling.

115.7(4) Use of control room. The control room shall be used only when a less restrictive alternative to quiet or allow the child to gain control has failed and when it is in the care plan. The following policies shall apply to the use of the control room:

a. No more than one child shall be in a control room at any time.

b. There shall be provisions for visual observation of the child at all times, regardless of the child's position in the room.

c. The control room shall be checked thoroughly for safety and the absence of contraband prior to placing the child in the room.

d. The child shall be thoroughly checked before placement in the control room and all potentially injurious objects removed including shoes, belts, and pocket items. The staff member placing the child in the control room shall document each check.

e. In no case shall all clothing or underwear be removed and the child shall be provided sufficient clothing to meet seasonal needs.

f. A staff member shall always be within hearing distance of the control room, the child shall be visually checked by the staff at least every 15 minutes, and each check shall be recorded.

g. The child shall remain in the control room longer than one hour only with consultation and approval from the supervisor. Documentation in the child's case record shall include the time in the control room, the reasons for the control, and the reasons for the extension of time. Use of the control room for a total of more than 12 hours in any 24-hour period shall occur only after authorization of the psychiatrist or upon court order. In no case shall a child be in a control room for a period longer than 24 hours.

h. The child's parents or guardian and the referring worker shall be aware of the control room as a part of the treatment program.

This rule is intended to implement Iowa Code section 237.4.

441—115.8(237) Locked cottages.

115.8(1) Approval. A facility shall be approved by the licensing authority as meeting the requirements of this chapter regarding locked cottages before locked cottages can be operated.

115.8(2) Nighttime staff. Awake nighttime staff is required in each locked cottage.

115.8(3) As one unit of treatment program. When a facility utilizes a locked cottage as one unit of its treatment program, it shall have written policies. The policies shall be provided to the child, the child's parents or guardian and, when the child has an attorney, the child's attorney at the time of admission. The policies shall include:

- a. The type of behavior which may result in locked cottage placement.
- b. The staff members who may authorize placement in the locked cottage as well as procedures for notification of supervisory personnel.
- c. Requirement for documentation in writing of particular behaviors of a particular child that led to the locked cottage placement.
- d. Requirement for documentation of the conditions that will allow the child to return to an unlocked cottage. These conditions shall be shared with the child.
- e. Requirement for documentation of the use of the locked cottage as a part of the treatment plan for a specific child.
- f. Specific policies as to the length of stay in the locked cottage.
- g. Requirements for notification of the child's parents or guardian, the court, and the referring agency of a child's placement in the locked cottage.
- h. Requirement for written documentation of placements in the locked cottage in the child's case record.

This rule is intended to implement Iowa Code section 237.4.

441—115.9(237) Mechanical restraint. When a facility uses mechanical restraints as a part of its treatment program, the facility shall have written policies regarding their use. These policies shall be approved by the licensor prior to their use. The policies shall be available to clients, parents or guardians, and referral sources at the time of admission. Policies shall also be available to staff.

115.9(1) Restrictions on mechanical restraints.

- a. Mechanical restraints shall not inflict physical injury.
- b. Each use of mechanical restraint shall be authorized by the administrator or case supervisor.
- c. Each authorization of mechanical restraint shall not exceed one hour in duration.
- d. No child shall be kept in mechanical restraint for more than two hours in a 12-hour period.
- e. Any time that a child is placed in mechanical restraint a staff person shall be assigned to monitor the placement with no duties other than to ensure that the child's physical needs are properly met. The staff person shall remain in continuous auditory and visual contact with the child.
- f. Each child shall be released from mechanical restraint as soon as the restraints are no longer needed.

115.9(2) Continued use of mechanical restraints. When a child requires mechanical restraint on more than four occasions during any 30-day period, the facility shall hold an immediate emergency meeting to discuss the appropriateness of the child's continued placement at the facility.

115.9(3) In transporting children. Notwithstanding 115.9(1) "d," mechanical restraint of a child in case of a secure facility while that child is being transported to a point outside the facility is permitted when there is a serious risk of the child exiting the vehicle while the vehicle is in motion. The facility shall place a written report on each use in the child's case record. This report shall document the necessity for the use of restraint.

This rule is intended to implement Iowa Code section 237.4.

441—115.10(237) Chemical restraint. When a secure facility uses chemical restraints, the facility shall have written policies regarding their use. These policies shall be approved by the licensor prior to the use of this type of restraint. These policies shall be posted in the facility, understood by all staff, explained to all parents or guardians, children, and referring agencies at the time of admission.

115.10(1) Physicians orders. Each administration of chemical restraint shall be specifically ordered by a physician who has personally examined the child. There shall not be standing orders for the use of chemical restraint.

115.10(2) Monitoring. The child shall be monitored continuously by a person trained and qualified to observe potentially adverse side effects.

115.10(3) Authorization. The administrator of a residential facility or a person designated by that officer shall authorize the request for the use of chemical restraint.

115.10(4) *Continual use of chemical restraint.* When a child in care requires chemical restraint on more than four occasions during any 30-day period, a secure facility shall hold an immediate meeting to discuss the appropriateness of the child's continued placement at the facility.

This rule is intended to implement Iowa Code section 237.4.

[Filed 8/27/81, Notice 7/8/81—published 9/16/81, effective 11/1/81]

[Filed emergency 2/10/84—published 2/29/84, effective 2/10/84]

[Filed emergency 1/15/87—published 2/11/87, effective 1/15/87]

CHAPTER 116
LICENSING AND REGULATION OF RESIDENTIAL FACILITIES
FOR MENTALLY RETARDED CHILDREN

[Prior to 7/1/83, Social Services[770] Ch 116]

[Prior to 2/11/87, Human Services[498]]

441—116.1(237) Applicability. This chapter relates specifically to the licensing and regulation of residential facilities serving mentally retarded children. Refer to 441—Chapter 112 for basic licensing and regulation of all foster care facilities, 441—Chapter 114 for definitions and minimum standards for all group living foster care facilities, including community care facilities, and 441—Chapter 115 for definitions and standards for comprehensive residential facilities for children. Chapters 112 and 114 apply to community residential facilities for mentally retarded children and Chapters 112, 114 and 115 apply to comprehensive residential facilities for mentally retarded children with the exception of the areas discussed specifically in this chapter.

This rule is intended to implement Iowa Code chapter 237.

441—116.2(237) Definitions.

“Community residential facility for mentally retarded children” means a community residential facility as defined in rule 441—114.2(237) which serves children who meet the definition of mentally retarded as defined in Iowa Code chapter 222.

“Comprehensive residential facility for mentally retarded children” means a comprehensive residential facility as defined in rule 441—115.2(237) which serves children who meet the definition of mentally retarded as defined in Iowa Code chapter 222.

“Direct-service provider” means any employee of an agency whose primary responsibility is the care and programming of the children through direct interactions. The definition of “child care worker” in rule 441—114.2(237) and all other references to child care workers shall be replaced by this definition and the term “direct-service providers” when reading the other applicable rule chapters.

“Indirect-service provider” means an employee of an agency who supervises, coordinates and administers employees and program components. The definitions of “caseworker” and “casework supervisor” in rule 441—114.2(237) and all other references to caseworkers or casework supervisors shall be replaced by this definition and the term “indirect-service providers” when reading the other applicable rule chapters.

This rule is intended to implement Iowa Code section 237.1.

441—116.3(237) Qualifications of staff.

116.3(1) Direct-service providers. Direct-service providers shall be paraprofessionals or professionals meeting all of the following criteria:

a. Paraprofessionals shall:

- (1) Be at least 18 years of age.
- (2) Have graduated from high school or earned a high school equivalency degree.
- (3) Have completed the prescribed agency training program.
- (4) Be appropriate to the specific job description of the employing agency.

b. Professionals in the direct-service provider category shall:

- (1) Be at least 18 years of age.
- (2) Have a bachelor of arts degree in a related field; or an associate of arts degree in a related field and two years experience specific to the job responsibilities; or two years of higher education in a related field and two years’ experience specific to job responsibilities; or four years’ experience in programming specific to job responsibilities.

- (3) Have completed the prescribed agency training program.

- (4) Be appropriate to the specific job description of the employing agency.

116.3(2) Indirect-service providers. Indirect-service providers shall meet one of the following education and experience criteria:

- a.* Have a master's in social work or a master of arts degree in a related field and one year of experience specific to job responsibilities.
 - b.* Have a bachelor of arts degree in a related field and two years' experience specific to job responsibilities.
 - c.* Have an associate of arts degree in a related field and four years' experience specific to job responsibilities.
 - d.* Have five years' specific treatment program experience relating to the job responsibilities.
- This rule is intended to implement Iowa Code section 237.3.

441—116.4(237) Staff to client ratio. The number and qualifications of the staff will vary depending on the needs of the children. There shall be at least a one to four staff to client ratio during prime programming time.

This rule is intended to implement Iowa Code section 237.3.

441—116.5(237) Program components. In addition to the requirements of 441—subrule 114.8(3), the facility shall define in writing who is responsible for overseeing personal hygiene of children and maintaining general orderliness of the facility.

This rule is intended to implement Iowa Code section 237.3.

441—116.6(237) Restraint. In addition to the provisions of 441—Chapters 114 and 115, a restraint may be used as stated in the child's individual care plan as approved by the parent or guardian, caseworker, and facility as long as that facility meets the standards for utilizing that particular type of restraint.

This rule is intended to implement Iowa Code section 237.4.

[Filed 8/27/81, Notice 7/8/81—published 9/16/81, effective 11/1/81]

[Filed emergency 2/10/84—published 2/29/84, effective 2/10/84]

[Filed emergency 2/21/86, after Notice 1/1/86—published 3/12/86, effective 3/1/86]

[Filed emergency 1/15/87—published 2/11/87, effective 1/15/87]

CHAPTER 117
FOSTER PARENT TRAINING
[Prior to 2/11/87, Human Services[498]]

PREAMBLE

These rules describe required foster parent preservice training and preplacement orientation. Their purpose is to ensure that the training and orientation is effective in preparing foster parents for their role.

These rules also describe the standards for training and orientation and the procedure to be approved as a training provider.

441—117.1(237) Required preservice training.

117.1(1) Providers of preservice training. The required foster parent preservice training program shall be offered by the department or by a licensed child-placing agency with a training program that has been approved by the department.

117.1(2) Preservice training program approval requirements:

a. Content. The program shall be designed to assist prospective foster parents in understanding the philosophy and goals of foster care and the skills required of a foster parent. The program shall address the following topics:

- (1) Children in foster care, their needs and rights.
- (2) Families of children in foster care, their rights and responsibilities.
- (3) Caseworkers and their role.
- (4) Foster parents, their motivation and role.
- (5) Self-assessment of foster parent's strengths.
- (6) The team effort of foster parents and caseworkers.
- (7) The impact of foster care placement on the child, the child's family and the foster family.
- (8) The purpose and importance of the child's contact with the child's family.
- (9) Training in communication and behavior management.
- (10) Permanency planning.
- (11) The reasons for placement termination and feelings involved.

The curriculum developed by the Child Welfare Institute "Partnering for Safety and Permanence: Model Approach to Partnership in Parenting" (PS-MAPP) shall be considered as meeting this requirement.

b. Length. The entire PS-MAPP program shall total at least 30 hours of contact between leaders and participants.

The department and each licensed child-placing agency offering the mandatory 30 hours of PS-MAPP training shall devise a procedure for parents to make up any portions of training which are missed.

c. Instructors. The program shall be team taught by at least one foster or adoptive parent and one casework staff person. All instructors shall be certified PS-MAPP leaders.

d. Group method. The program shall be provided in groups. The training shall be offered to a foster family individually only when the foster family is unable to attend group training.

e. Training certificate. A certificate of completion shall be provided to each foster parent who completes the training.

f. Training evaluation. A means for participants in the training to evaluate the instructors and the content shall be provided.

g. Training records. A record of the foster parents who begin and complete the training and of the training program evaluations shall be submitted to the department office for the location in which the training was provided at the end of each 30-hour PS-MAPP session.

441—117.2(237) Required preplacement orientation.

117.2(1) Method of provision. The orientation may be provided in an individual meeting of the worker with one set of foster parents or in a group setting.

117.2(2) Provider. Orientation shall be provided by the department or licensed child-placing agency completing the licensing study. The agency intending to place children in foster care in the home shall review the orientation with the foster parent prior to placement.

117.2(3) Content. Orientation shall be designed to acquaint the foster parent with the policies and procedures of the foster care program, and shall include the following:

- a. Process and procedures for placement and termination of placement.
- b. Medical assistance program information.
- c. Reimbursement information.
- d. Child abuse law and child abuse investigation procedures.
- e. Confidentiality.

441—117.3(237) Application materials. Applications shall be submitted on Form 470—2541, Foster Parent Training Application, with the following materials:

117.3(1) A detailed program description, including objectives, agenda, content, participant materials and time frames or a statement that the Child Welfare Institute “Partnering for Safety and Permanence: Model Approach to Partnership in Parenting” (PS-MAPP), as described in paragraph 117.1(2) “a,” will be the preservice program taught.

117.3(2) Names of program instructors and their qualifications.

117.3(3) Rescinded IAB 8/9/89, effective 10/1/89.

117.3(4) Rescinded IAB 8/9/89, effective 10/1/89.

117.3(5) A sample of the evaluation tool to be used (for preservice training only).

441—117.4(237) Application process.

117.4(1) Group training. Applications to provide group foster parent training shall be submitted to the department office for the service area in which the training will be conducted.

117.4(2) Individual training. Applications for approval for individual training, college credit, written materials, or movies or videotapes shall be submitted to the department office for the service area in which the foster family resides.

441—117.5(237) Application decisions. The department shall notify the applicant of its decision regarding the application within 30 days of receipt of the training materials described in rule 441—117.3(237). This notification shall include the reason for not giving approval if approval is denied.

117.5(1) Approval. Foster parent training programs which meet the criteria in rule 441—117.1(237) or in rule 441—117.7(237), and which are submitted pursuant to rules 441—117.3(237) and 441—117.4(237) shall be approved by the department.

117.5(2) Rescinded IAB 8/9/89, effective 10/1/89.

117.5(3) Denial. Preservice training programs which do not meet the requirements in rules 441—117.1(237), 117.3(237), and 117.4(237) and in-service training programs which do not meet the criteria in rules 441—117.3(237), 117.4(237) and 117.7(237) shall be denied approval. The applicant may submit a revised program for approval at a later date.

117.5(4) Revocation. Approval shall be revoked when any of the following exist and corrective action is not taken to correct the deficiencies within 45 days.

a. The training provider fails to provide the training as described in the approved application materials.

b. Over 25 percent of the participant evaluations of the training program rate the training program as not helpful.

If approval is revoked, the training provider may submit a revised program at a later date.

441—117.6(237) Application conference available. If an applicant or provider of training objects in writing within seven days after the notification of the department's decision to deny or revoke approval, the service area manager shall review the decision to determine if the original decision shall stand.

The decision of the service area manager is final and is not subject to an appeal.

441—117.7(237) Required in-service training.

117.7(1) Providers of in-service training. Foster parent in-service training may be provided by the department, a licensed child-placing or child-caring agency, or an agency, institution, or association with expertise in any of the content areas in subrule 117.7(2), paragraph "a." Agencies, institutions, or associations wishing to have a foster parent in-service training program or workshop approved shall submit application materials pursuant to rules 441—117.3(237) and 441—117.4(237).

117.7(2) In-service training program approval requirements:

a. Content. The program shall relate to the foster parent's role in providing foster care and the skills needed by a foster parent. Training shall address one or more of the following topics:

Adolescence.

Adoption issues.

Cardiopulmonary resuscitation (CPR) or first aid.

Child abuse dynamics and effects.

Child abuse identification and reporting.

Child development.

Communication.

Confidentiality.

Conflict resolution in the family.

Crisis intervention.

Discipline and behavior management.

Educational needs of all children in foster care and working with the educational system.

Emotional and mental health needs of children and working with the mental health system.

Family dynamics.

Health needs of children in foster care and working with the medical system.

Identification, utilization and role of support systems.

Impact of physical abuse, neglect and sexual abuse.

Independent living skill training.

Juvenile court process.

Lifebooks.

Medical management for children.

Mental retardation and developmental disabilities in childhood.

Parenting.

Participation in juvenile court hearings.

Participation in foster care reviews.

Passive restraint of children.

Permanency planning.

Physical disabilities in children.

Physical therapy with children.

Record keeping for foster care.

Role of guardian ad litem and court appointed special advocate (CASA).

Self-care skill training with children.

Separation and attachment.

Sexuality of children.

Sign language.

Stress and foster parenting.

Substance abuse in children.

Suicide prevention with children.

Teamwork and team approach to foster care case planning.
Understanding, supporting, and working with the child's birth family.
Use of community resources for children and families.
Other topics related to foster parenting or the needs of a child in placement.

b. Method. The training shall be provided through one or more of the following methods:

- (1) Face-to-face training to a group.
- (2) Face-to-face training to an individual foster family.
- (3) Written materials.
- (4) Movies or videotapes.

c. Credit hours. Credit hours for approved training shall be as follows:

- (1) Group training shall receive one credit hour for each face-to-face contact hour.
- (2) Written materials shall receive one credit hour for each 100 pages.
- (3) Movies or videotapes shall receive one credit hour for each two program hours.
- (4) College courses shall receive one credit hour for each college credit hour.
- (5) Self Instructional Pieces shall receive one credit hour per piece.

d. Approved training. The following training programs shall be considered as meeting the in-service training requirements:

- (1) Workshops offered at the Iowa Association of Foster and Adoptive Parents' annual state conference.
- (2) Workshops offered at the National Foster Parent Association's annual conference.
- (3) Rescinded IAB 8/9/89, effective 10/1/89.
- (4) Self Instructional Piece Series (SIPS) published by American Foster Care Resources, Inc.

CHAPTER 118
CHILD CARE QUALITY RATING SYSTEM

PREAMBLE

This chapter establishes rules for the child care quality rating system. Participation in the quality rating system is voluntary. The chapter includes application and renewal procedures and standards and criteria for the quality rating system.

441—118.1(237A) Definitions.

“Apprenticeship certificate” means a nationally recognized Child Care Development Specialist Registered Apprenticeship Certificate awarded by the U.S. Department of Labor. The certificate requires two years of full-time employment with on-the-job training and 288 hours (at least 19 credits) of approved, related college education or training.

“Child care facility” means a licensed child care center, a preschool, or a registered child development home.

“Child care nurse consultant” means a registered nurse licensed in the state of Iowa who has completed training using a nationally approved curriculum for health and safety in child care and early education. The child care nurse consultant provides on-site consultation, technical assistance, and training to child care and early education providers regarding health and safety. The child care nurse consultant is employed by or has a written agreement with the local Title V maternal and child health agency or contracts for service delivery directly through the state-level Title V maternal and child health program administered by the Iowa department of public health, bureau of family health.

“Child development associate credential (CDA)” means a credential awarded by the Council for Professional Recognition to individuals working in child care settings who demonstrate proficiency in specific competency standards. The credential requires 120 hours of approved training over the past five years.

“ChildNet certification” means verified completion of the 25-hour ChildNet training series in areas specifically designed for child development home providers and completion of the certification process.

“Eligible applicants” means programs meeting the definition of “child care facility” or programs operating under the authority of an accredited school district or nonpublic school.

“Environment rating scale” means a series of child care program assessment instruments (scales) developed through the auspices of the Frank Porter Graham Child Development Center of the University of North Carolina at Chapel Hill. The scale is the measurement tool used by an assessor during an on-site observation of a child care classroom to evaluate and provide a score to a child care program. Scales must be administered by entities approved by the department of human services or the department’s designee.

“Head Start program performance standards” means the standards that define the services that Head Start programs are required to provide to the children and families they serve. The standards constitute the expectations and requirements that Head Start grantees must meet.

“Iowa quality preschool program standards” means standards developed by the Iowa department of education, based on the ten standards of the National Association for the Education of Young Children accreditation.

“National administrator credential (NAC)” means the 40-hour comprehensive training for child care and education administrators and successful completion of the certification process.

“Staff in the classroom” means staff responsible for care of children in the classroom.

441—118.2(237A) Application for quality rating. Eligible applicants shall apply to the department of human services or the department’s designee for a quality rating on Form 470-4229, Application for Quality Rating. Any required supporting documentation must be included as part of the application.

118.2(1) Change in location of facility. Participants must notify the department of human services or the department’s designee and complete a new Form 470-4229, Application for Quality Rating, if

the location of the facility changes. The department or the department's designee shall make a new determination of the appropriate rating.

118.2(2) *Renewal.* Participants shall renew participation in the quality rating system every 24 months. To request renewal, eligible applicants shall submit Form 470-4229, Application for Quality Rating, and any required supporting documentation.

441—118.3(237A) Rating standards for child care centers and preschools. To participate in the quality rating system, a child care center or preschool shall certify that its facility meets the applicable criteria as defined in subrule 118.3(1).

118.3(1) *Criteria.* Criteria for each rating level are defined as follows.

a. Level 1. To be rated at Level 1, a facility must either:

(1) Have a full or provisional license from the department of human services with no action pending to revoke or deny the license; or

(2) Operate under the authority of an accredited school district or nonpublic school.

b. Level 2. To be rated at Level 2, a facility must meet the following criteria:

(1) The facility must have a full license from the department of human services with no action pending to revoke or deny the license, or operate under the authority of an accredited school district or nonpublic school.

(2) The facility must complete the Iowa department of public health's Form HCCI-BPA2006, Child Care Business—Partnership Agreement.

(3) The facility must complete the Iowa department of public health's provider health and safety questionnaire, Form HCCI-CDOS2006, Child Care Center Director/Owner Survey.

(4) If eligible, the facility must participate in the child and adult care food program (CACFP), unless children are in attendance less than four hours per day and the program does not serve meals.

(5) The facility must have on duty in each room at all times at least one staff member who has completed training in mandatory reporting of child abuse, universal precautions and infectious disease control, cardiopulmonary resuscitation, and first aid as specified in 441—subrule 109.7(1) and subparagraphs 109.7(2)“a”(1) and (2).

(6) The facility must provide basic orientation for all staff before they begin work.

(7) All staff, including the facility's director, must complete Form 470-4234, Child Care Center Staff Self-Assessment, no more than 12 months before application for quality rating. The director must also complete Form 470-4233, Child Care Center Self-Assessment.

c. Level 3. To be rated at Level 3, a facility must meet the following criteria in addition to meeting the criteria for Level 2:

(1) The facility must earn a minimum of 10 points from the categories listed in subrules 118.3(2) through 118.3(6).

(2) The facility must earn at least one point from each category.

d. Level 4. To be rated at Level 4, a facility must meet the following criteria in addition to meeting the criteria for Level 2:

(1) The facility must earn a minimum of 18 points from the categories listed in subrules 118.3(2) through 118.3(6).

(2) The facility must earn at least one point from each category.

e. Level 5. To be rated at Level 5, a facility must meet the following criteria in addition to meeting the criteria for Level 2:

(1) The facility must earn a minimum of 26 points from the categories listed in subrules 118.13(2) through 118.13(6).

(2) The facility must earn at least one point from each category.

118.3(2) *Professional development.* A child care center or preschool may earn a maximum of 12 points in the professional development category. Points are awarded as follows:

a. Credential. Two points are awarded if the facility director:

(1) Has a current national administrator credential; or

(2) Is a school principal licensed by the Iowa board of educational examiners.

b. Related degree. One point is awarded if at least one staff member at the facility has at least a bachelor's degree in education specific to the age group for whom the person provides care.

c. Education and experience. A facility may earn a maximum of nine points for staff education and experience. Programs may select up to two of the following options:

(1) Five points are awarded if at least 50 percent of staff in each classroom have a minimum of a bachelor's degree in education specific to the age group for whom they provide care.

(2) Four points are awarded if at least 50 percent of staff in each classroom have a minimum of an associate's degree in education specific to the age group for whom they provide care.

(3) Three points are awarded if at least 50 percent of staff in each classroom have a minimum of a child development associate credential or apprenticeship certificate.

(4) Two points are awarded if at least 50 percent of staff in each classroom have a minimum of either six college credit hours in education specific to the age group for whom they provide care or have a paraeducator certificate from the Iowa board of educational examiners.

(5) Two points are awarded if at least 50 percent of staff in each classroom have received a minimum of 30 hours of training beyond regulatory requirements in the last 12 months and have at least five years of experience working in a child care facility or a program operating under the authority of an accredited school district or nonpublic school.

(6) One point is awarded if at least 50 percent of staff in each classroom have received a minimum of 15 hours of training beyond regulatory requirements in the last 12 months.

118.3(3) Health and safety. A child care center or preschool may earn a maximum of eight points in the health and safety category. Points are awarded as follows:

a. Injury prevention. A facility may earn a maximum of three points for injury prevention. Points are awarded as follows:

(1) One point is awarded if the facility completes the Iowa department of public health's Form HCCI-IP2006, Injury Prevention Summary Report, during a visit with a child care nurse consultant.

(2) Two points are awarded if the child care nurse consultant verifies that the facility has started the process of making recommended corrections.

(3) Three points are awarded if the child care nurse consultant verifies that the facility has completed all corrections.

b. Child record review. A facility may earn a maximum of two points for child record review. Points are awarded as follows:

(1) One point is awarded if the facility completes the Iowa department of public health's Form HCCI-CRR2006, Child Record Review, during a visit with a child care nurse consultant.

(2) Two points are awarded if the child care nurse consultant verifies that the facility has worked with the child care nurse consultant to refer families to health care providers.

c. Health and safety assessment. A facility may earn a maximum of three points for health and safety assessment. Points are awarded as follows:

(1) One point is awarded if the facility completes the Iowa department of public health's Form HCCI-HSA2006, Health and Safety Assessment, during a visit with the child care nurse consultant.

(2) Two points are awarded if the child care nurse consultant verifies that the facility has developed a plan of action to correct deficiencies.

(3) Three points are awarded if the child care nurse consultant verifies that the facility has completed all corrections.

118.3(4) Environment. A child care center or preschool may earn a maximum of 11 points in the environment category. Points are awarded as follows:

a. Environment rating scale training and self-assessment.

(1) One point is awarded if the facility director or assistant director completes approved training on using the infant/toddler environment rating scale, the early childhood environment rating scale, or the school-age care environment rating scale to evaluate and improve the facility before outside evaluation.

(2) One point is awarded if, after completing training on how to use the infant/toddler environment rating scale, the early childhood environment rating scale, or the school-age care environment rating scale, the facility director or assistant director completes a self-assessment of at least one-third of the

facility's classrooms, including at least one classroom in each age group served by the facility using the appropriate environment rating scale.

(3) One point is awarded if, after completing training on how to use the infant/toddler environment rating scale, the early childhood environment rating scale, or the school-age care environment rating scale, the facility director or assistant director completes Form 470-4288, Child Care Center Improvement Plan, based on the environment rating scale self-assessment. Form 470-4288 must be completed for each room for which a self-assessment was completed.

b. Environment rating scale. A facility may earn a maximum of three points on the environment rating scale. The facility director or assistant director must complete training on the use of one of the environment rating scales before requesting assessment. An assessor approved by the department of human services or the department's designee must perform the environment rating assessment. At least one-third of the facility's classrooms must be assessed, including at least one classroom in each age group served by the facility. Points are awarded as follows:

(1) One point is awarded if the facility receives an average score of 3 on a scale of 7 (with no subscale scores lower than 2) on the infant/toddler environment rating scale, the early childhood environment rating scale, or the school-age care environment rating scale.

(2) Two points are awarded if the facility receives an average score of 4 on a scale of 7 (with no subscale scores lower than 2) on the infant/toddler environment rating scale, the early childhood environment rating scale, or the school-age care environment rating scale.

(3) Three points are awarded if the facility receives an average score of 5 on a scale of 7 (with no subscale scores lower than 2) on the infant/toddler environment rating scale, the early childhood environment rating scale, or the school-age care environment rating scale.

c. Iowa quality preschool program standards. A facility may earn a maximum of two points on the Iowa quality preschool program standards. Points are awarded as follows:

(1) One point is awarded if the facility completes training on Iowa quality preschool program standards.

(2) One point is awarded if the facility completes the Iowa quality preschool program standards self-assessment and develops a quality improvement plan.

d. Accreditation. A facility may earn a maximum of three points for accreditation. Points are awarded as follows:

(1) One point is awarded if the facility meets accreditation standards for group or class size from an accrediting body identified in subparagraph (2) that is appropriate to the child care setting.

(2) Three points are awarded if the facility is accredited by the National Association for the Education of Young Children, the National Afterschool Association, or another accrediting body approved by the department of human services or if a Head Start program demonstrates compliance with Head Start program performance standards.

118.3(5) Family and community partnerships. A child care center or preschool may earn a maximum of two points in the family and community partnerships category. Points are awarded as follows:

a. One point is awarded if the facility or the facility director is a member of a professional organization specific to the age group for whom care is provided.

b. One point is awarded if the facility provides orientation for new parents and holds annual conferences with parents.

118.3(6) Leadership and administration. A child care center or preschool may earn a maximum of four points in the leadership and administration category. Points are awarded as follows:

a. One point is awarded if the facility completes yearly written evaluations for all staff.

b. One point is awarded if the facility develops and updates Form 470-4235, Child Care Center Improvement Plan, annually.

c. One point is awarded if all staff complete Form 470-4236, Professional Development Plan.

d. One point is awarded if all staff who have direct contact with children have a full, facility-based orientation within four months of beginning employment with the facility.

441—118.4(237A) Rating criteria for child development homes. To participate in the quality rating system, a child development home provider shall certify that the home meets the applicable criteria as defined in subrule 118.4(1).

118.4(1) Criteria for each rating level.

a. To be rated at Level 1, the home must be a registered child development home.

b. To be rated at Level 2, the home must meet the following criteria in addition to meeting the criterion for Level 1:

(1) The provider completes and maintains ChildNet certification.

(2) The provider participates in the child and adult care food program (CACFP).

(3) The provider completes the Iowa department of public health's Form HCCI-BPA2006, Child Care Business—Partnership Agreement.

(4) The provider completes the Iowa department of public health's provider health and safety questionnaire, Form HCCI-HDOS2006, Home Child Care Center Director/Owner Survey.

(5) The provider completes Form 470-4231, Child Development Home Professional Development Self-Assessment.

(6) The provider completes Form 470-4236, Professional Development Plan.

c. To be rated at Level 3, the home must meet the following criteria in addition to meeting the criteria for Levels 1 and 2:

(1) The home must earn a minimum of seven points from the categories listed in subrules 118.4(2) through 118.4(5).

(2) The home must earn at least one point from each category.

d. To be rated at Level 4, the home must meet the following criteria in addition to meeting the criteria for Levels 1 and 2:

(1) The home must earn a minimum of 12 points from the categories listed in subrules 118.4(2) through 118.4(5).

(2) The home must earn at least one point from each category.

e. To be rated at Level 5, the home must meet the following criteria in addition to meeting the criteria for Levels 1 and 2:

(1) The home must earn a minimum of 16 points from the categories listed in subrules 118.4(2) through 118.4(5).

(2) The home must earn at least one point from each category.

118.4(2) Professional development. A child development home may earn a maximum of six points in the professional development category. Points are awarded as follows:

a. *Experience and training.* A home may earn a maximum of two points for experience and training. Points are awarded as follows:

(1) One point is awarded if the provider has at least two years of experience working in a child care facility or a program operating under the authority of an accredited school district or nonpublic school and 10 hours of additional training per year beyond regulatory requirements.

(2) Two points are awarded if the provider has at least five years of experience working in a child care facility or a program operating under the authority of an accredited school district or nonpublic school and 20 hours of additional training per year beyond regulatory requirements.

b. *Education.* A home may earn a maximum of four points for education. Points are awarded as follows:

(1) Two points are awarded if the provider has completed an apprenticeship certificate, child development associate credential, or at least nine college credit hours in education specific to the age group for whom care is provided.

(2) Three points are awarded if the provider has completed an associate's degree in education specific to the age group for whom care is provided.

(3) Four points are awarded if the provider has completed a bachelor's degree or higher in education specific to the age group for whom care is provided.

118.4(3) Health and safety. A child development home may earn a maximum of eight points in the health and safety category. Points are awarded as follows:

a. Injury prevention. A home may earn a maximum of three points for injury prevention. Points are awarded as follows:

(1) One point is awarded if the provider completes the Iowa department of public health's Form HCCI-IP2006, Injury Prevention Summary Report, during a visit with a child care nurse consultant.

(2) Two points are awarded if the child care nurse consultant verifies that the provider has started the process of making recommended corrections.

(3) Three points are awarded if the child care nurse consultant verifies that the provider has completed all corrections.

b. Child record review. A home may earn a maximum of two points for child record review. Points are awarded as follows:

(1) One point is awarded if the provider completes the Iowa department of public health's Form HCCI-CRR2006, Child Record Review, during a visit with a child care nurse consultant.

(2) Two points are awarded if the child care nurse consultant verifies that the provider has worked with the child care nurse consultant to refer families to health care providers.

c. Health and safety assessment. A home may earn a maximum of three points in the health and safety assessment category. Points are awarded as follows:

(1) One point is awarded if the provider completes the Iowa department of public health's Form HCCI-HSA2006, Health and Safety Assessment, during a visit with the child care nurse consultant.

(2) Two points are awarded if the child care nurse consultant verifies that the provider has developed a plan of action to correct deficiencies.

(3) Three points are awarded if the child care nurse consultant verifies that the provider has completed all corrections.

118.4(4) Environment. A child development home may earn a maximum of eight points in the environment category. Points are awarded as follows:

a. Environment rating scale training and self-assessment. A home may earn a maximum of three points for environment rating scale training and self-assessment. Points are awarded as follows:

(1) One point is awarded if the provider completes approved training on how to use the family day care rating scale to assess the child development home environment.

(2) One point is awarded if, after completing training on how to use the family day care rating scale, the provider completes a self-assessment using the family day care rating scale.

(3) One point is awarded if, after completing training on how to use the family day care rating scale, the provider completes Form 470-4232, Child Development Home Improvement Plan, based on the family day care rating scale self-assessment.

b. Environment rating scale. A home may earn a maximum of two points on the environment rating scale. An assessor approved by the department of human services or the department's designee must perform the environment rating assessment. The provider must complete training on the family day care rating scale before requesting assessment. Points are awarded as follows:

(1) One point is awarded if the home receives an average score of 4 on a scale of 7, with no subscale scores lower than 2.

(2) Two points are awarded if the home receives an average score of 5 on a scale of 7, with no subscale scores lower than 2.

c. Accreditation. Three points are awarded if the home is accredited by the National Association for Family Child Care or another accrediting body approved by the department of human services.

118.4(5) Family and community partnerships. A child development home may earn a maximum of two points in the family and community partnerships category. Points are awarded as follows:

a. One point is awarded if the provider is a member of a professional organization specific to the age group for whom care is provided.

b. One point is awarded if the provider offers an orientation for new parents and holds annual conferences with parents.

441—118.5(237A) Award of quality rating.

118.5(1) The facility shall display Form 470-4230, Quality Rating Certificate, in a conspicuous place.

118.5(2) Achievement bonuses may be awarded as funds are available.

118.5(3) Participants may request another quality rating no sooner than 12 months after issuance of a quality rating certificate.

441—118.6(237A) Adverse actions.

118.6(1) An eligible applicant must be notified of the right to appeal the rating decision in accordance with 441—Chapter 7.

118.6(2) A participant's quality rating shall be revoked if the facility no longer meets the definition of "eligible applicants."

118.6(3) Form 470-4230, Quality Rating Certificate, shall be returned to the department of human services if:

- a.* The certificate is revoked;
- b.* The certificate is not renewed; or
- c.* The provider voluntarily withdraws from the program.

These rules are intended to implement Iowa Code section 237A.30 as amended by 2005 Iowa Acts, House File 761, section 20.

[Filed 11/16/05, Notice 9/14/05—published 12/7/05, effective 2/1/06]

CHAPTER 119
RECORD CHECK EVALUATIONS FOR HEALTH CARE PROGRAMS

PREAMBLE

These rules establish procedures for the performance of record check evaluations by the department of human services for personnel employed by health care facilities and other health care programs listed in Iowa Code section 135C.33. Record check evaluations are performed, at the request of a prospective employer, on persons who have been found to have been convicted of a crime under a law of any state or have a record of founded child or dependent adult abuse, to determine whether the crimes or founded abuses warrant prohibition of employment.

441—119.1(135C) Definitions.

“*Department*” means the department of human services.

“*Health care program*” means any of the facilities and programs listed in Iowa Code chapter 135C that are subject to record check evaluations.

441—119.2(135C) When record check evaluations are requested.

119.2(1) *Record check evaluations on prospective employees.* Health care programs shall request a record check evaluation when they decide to consider for employment a person whose background check indicates a criminal or dependent adult abuse or child abuse record. Criminal and dependent adult abuse background checks are required on all prospective employees, including employees who have terminated employment for any reason or any length of time and wish to return to the same health care program.

119.2(2) *Record check evaluations on current employees.* Employers may request a record check evaluation on current employees when a current employee’s background check indicates a criminal or dependent adult or child abuse record. An employer may request a current criminal or dependent adult or child abuse record check when the employer learns from any source that a current employee has a criminal or dependent adult or child abuse record that has not been previously evaluated at the health care program.

119.2(3) *Transfer of employment.* If a person owns or operates more than one facility, and an employee of one of the facilities is transferred to another facility without a lapse in employment, the facility is not required to request additional criminal or abuse record checks of the employee or obtain a new record check evaluation.

441—119.3(135C) Request for evaluation.

119.3(1) *Required documentation.* The employer and the prospective employee shall complete and the employer shall submit Form 470-2310, Record Check Evaluation, to the department to request an evaluation. The employer shall submit the form and required documentation to the Department of Human Services, Central Abuse Registry, 1305 East Walnut, Des Moines, Iowa 50319-0114. The department shall not process evaluations that are not signed by the prospective employee. The position sought or held must be clearly written on the first page of Form 470-2310, Record Check Evaluation. Form 470-2310 shall be accompanied by the following documents:

- a. A copy of the documentation of the applicant’s status on the DCI criminal history database generated within 30 days of the time that the request for evaluation is submitted to the department.
- b. A copy of the Iowa Criminal History, if there is a history, as provided to the employer by the division of criminal investigations.
- c. A copy of the documentation of the applicant’s status on the dependent adult abuse registry generated within 30 days of the time that the request for evaluation is submitted to the department.

119.3(2) Additional documentation.

a. The employer may provide or the department may request from the prospective employee or employer information to assist in performance of the evaluation that includes, but is not limited to, the following:

- (1) Documentation of criminal justice proceedings.
- (2) Documentation of rehabilitation.
- (3) Written employment references or applications.
- (4) Documentation of substance abuse education or treatment.
- (5) Criminal history records, child abuse information, and dependent adult abuse information from other states.
- (6) Documentation of the applicant's prior residences.

b. Any person or agency that might have pertinent information regarding the criminal or abuse history and rehabilitation of a prospective employee may be contacted.

c. The department may check the child abuse registry during a record check evaluation. If there is a record of child abuse, the department shall consider the information in the child abuse record in reaching a decision regarding employability.

441—119.4(135C) Completion of evaluation.

119.4(1) Considerations. The department shall consider the following when conducting a record check evaluation:

- a.* The nature and seriousness of the crime or founded child or dependent adult abuse in relation to the position sought or held.
- b.* The time elapsed since the commission of the crime or founded child or dependent adult abuse.
- c.* The circumstances under which the crime or founded abuse was committed.
- d.* The degree of rehabilitation.
- e.* The likelihood that the person will commit a crime or founded child or dependent adult abuse again.
- f.* The number of crimes or instances of founded child or dependent adult abuse committed by the person involved.

119.4(2) Notice of decision. The department shall issue a notice of decision in writing to the employer that requested the record check evaluation. The department shall send a copy of the notice of decision to the person who has applied for employment, if the person's address is available. If the address is not available, the department shall send the prospective employee's copy of the notice to the employer.

- a.* The notice shall be valid only for employment with the employer that requested the record check evaluation.
- b.* The notice shall not be valid for employment with any other prospective employer.
- c.* Record check evaluations are valid for employment that commences within 30 days from the date of notice of decision.
- d.* The notice of decision shall contain the notice of right to appeal.

441—119.5(135C) Appeal rights. Any person or the person's attorney may file a written statement with the department requesting an appeal of the record check evaluation decision within 30 days of the date of the notice of the results of the record check evaluation in accordance with 441—Chapter 7.

These rules are intended to implement Iowa Code section 135C.33.

[Filed 6/13/01, Notice 4/18/01—published 7/11/01, effective 9/1/01]

CHAPTERS 120 to 129
Reserved

TITLE XIII
SERVICE ADMINISTRATION
CHAPTER 130
GENERAL PROVISIONS
[Prior to 7/1/83, Social Services[770] Ch 130]
[Prior to 2/11/87, Human Services[498]]

441—130.1(234) Definitions.

“*Family*” includes the following members:

1. Legal spouses (including common law) who reside in the same household.
2. Natural, adoptive, or step mother or father, and children who reside in the same household.
3. An individual or a child who lives alone or who resides with a person, or persons, not legally responsible for the child’s support.

This rule is intended to implement Iowa Code section 234.6.

441—130.2(234) Application.

130.2(1) Application for social services shall be made at any county office of the department of human services on forms available at the county office.

Application for services shall be made on Form 470-0615, Application for All Social Services.

130.2(2) The application may be filed by the applicant, the applicant’s authorized representative, or where the applicant is incompetent or incapacitated, someone acting responsibly for the applicant.

130.2(3) The date of application is the date a signed application form is received in the county office.

130.2(4) The application shall be approved or denied within 30 days from the date of application and the applicant notified of the decision. The decision shall be mailed or given to the applicant on the date the determination is made except that for services ordered by the court, the court order provided by the court and the case permanency plan provided by the department shall serve as notification. When individual case management services are being provided under 441—Chapter 24 for persons with mental retardation, a developmental disability, or chronic mental illness, the application shall be approved or denied no later than the date that the department service manager, who is part of the interdisciplinary team, signs the individual program plan.

130.2(5) Eligibility shall be redetermined in the same manner as an application at least every 6 months for family-centered services. For all other services, eligibility shall be redetermined in the same manner as an application at least every 12 months.

130.2(6) Rescinded IAB 6/9/04, effective 7/1/04.

130.2(7) Rescinded IAB 6/9/04, effective 7/1/04.

130.2(8) Rescinded IAB 4/11/07, effective 7/1/07.

This rule is intended to implement Iowa Code section 234.6.

441—130.3(234) Eligibility.

130.3(1) Eligibility factors for services available through the department are individual need for a service and family income except when services are provided without regard to income or when services are directed in a court order.

a. Individual need is established when the service to be provided is directed at and will facilitate an individual in reaching or maintaining one of the goals and objectives in 130.7(1). Except when the court establishes need, the department shall do so in accordance with individual service chapters. The department shall determine the number of units to be provided.

b. The block grant service to be provided shall be contained in the pre-expenditure report and listed for the specific district and county. Service available through the department and funded by resources other than the social service block grant is identified in rules for that specific service.

c. Service shall be provided only when funds are available for service delivery.

d. Persons are financially eligible for services when they are in one of the following categories:

(1) Income maintenance status. They are recipients of the family investment program, or those whose income was taken into account in determining the needs of family investment program recipients,

or recipients of supplemental security income or state supplementary assistance, or those in the 300 percent group as defined in 441—subrule 75.1(7).

(2) Income eligible status. The monthly gross income according to family size is no more than the following amounts:

Monthly Gross Income Limits	
Family Size	
1 Member	\$ 583
2 Members	762
3 Members	942
4 Members	1,121
5 Members	1,299
6 Members	1,478
7 Members	1,510
8 Members	1,546
9 Members	1,581
10 Members	1,612
11 Members	1,645
12 Members	1,678
13 Members	1,711
14 Members	1,744
15 Members	1,777
16 Members	1,810
17 Members	1,843
18 Members	1,876
19 Members	1,909
20 Members	1,942

(3) to (5) Rescinded IAB 6/9/04, effective 7/1/04.

e. Certain services are provided without regard to income which means family income is not considered in determining eligibility. The services provided without regard to income are information and referral, child abuse investigation, child abuse treatment, child abuse prevention services, including protective child care services, family-centered services, dependent adult abuse evaluation, dependent adult abuse treatment, dependent adult abuse prevention services, and purchased adoption services to individuals and families referred by the department.

f. In certain cases the department will provide services directed in a court order.

130.3(2) To be eligible for services the person must be living in the state of Iowa. Living in the state shall include those persons living in Iowa for a temporary period, other than for the purpose of vacation.

130.3(3) In determining gross income, all income received by an individual from sources identified by the U.S. Census Bureau in computing median income is considered and includes money wages or salary, net income from nonfarm self-employment, net income from farm self-employment, social security, dividends, interest, income from estates or trusts, net rental income and royalties, public assistance or welfare payments, pensions and annuities, unemployment compensation, worker's compensation, alimony, child support; and veterans pensions. Excluded from the computation of monthly gross income are the following:

a. Per capita payments to or funds held in trust for any individual in satisfaction of a judgment of the Indian claims commission or the court of claims.

b. Payments made pursuant to the Alaska Claims Settlement Act to the extent such payments are exempt from taxation under section 21(a) of the Act.

- c. Money received from the sale of property, unless the person was engaged in the business of selling such property.
- d. Withdrawals of bank deposits.
- e. Money borrowed.
- f. Tax refunds.
- g. Gifts.
- h. Lump sum inheritances or insurance payments or settlements.
- i. Capital gains.
- j. The value of the coupon allotment under the Food Stamp Act of 1964, as amended, in excess of the amount paid for the coupons.
- k. The value of USDA donated foods.
- l. The value of supplemental food assistance under the Child Nutrition Act of 1966 and the special food program for children under the National School Lunch Act, as amended.
- m. Earnings of a child 14 years of age or under.
- n. Loans and grants obtained and used under conditions that preclude their use for current living expenses.
- o. Any grant or loan to any undergraduate student for educational purposes made or insured under the Higher Education Act.
- p. Home produce utilized for household consumption.
- q. Earnings received by any youth under Title III, Part C—Youth Employment Demonstration Program of the Comprehensive Employment and Training Act of 1973.
- r. Stipends received by persons for participating in the foster grandparent program.
- s. The first \$65 plus 50 percent of the remainder of income earned in a sheltered workshop or work activity setting.
- t. Payments from the low-income home energy assistance program.
- u. In determining eligibility for purchase of local services, one-third of the income of a disabled survivor who is a recipient of child's insurance benefits under the federal old-age, survivors, and disability insurance program established under Title II of the Federal Social Security Act.
- v. In determining eligibility for purchase of local services, one-third of the income of a person who receives social security permanent disability benefits.
- w. Agent Orange settlement payments.
- x. Rescinded IAB 6/9/04, effective 7/1/04.
- y. Rescinded IAB 6/9/04, effective 7/1/04.
- z. Moneys received under the federal Social Security Persons Achieving Self-Sufficiency (PASS) program or the Income-Related Work Expense (IRWE) program.
- aa. Rescinded IAB 6/9/04, effective 7/1/04.
- ab. Rescinded IAB 6/9/04, effective 7/1/04.

130.3(4) Rescinded IAB 8/9/89, effective 10/1/89.

130.3(5) Temporary absence. The composition of the family group does not change when one, or more, of the group members is temporarily absent from the household.

“Temporary absence” means:

- a. A medical absence anticipated to be less than three months.
- b. An absence for the purpose of education or employment.
- c. When a family member is absent and intends to return home within three months.

130.3(6) Rescinded IAB 6/9/04, effective 7/1/04.

This rule is intended to implement Iowa Code section 234.6.

441—130.4(234) Fees. The department may set fees to be charged to clients for services received. The fees will be charged to those clients eligible under rule 130.3(234), but not those receiving services without regard to income due to a protective service situation. Nothing in these rules shall preclude a client from voluntarily contributing toward the costs of service.

130.4(1) Collection. The provider shall collect fees from clients. The provider shall maintain records of fees collected, and such records shall be available for audit by the department or its representative. When a client does not pay the fee, the provider shall demonstrate that a reasonable effort has been made to collect the fee. Reasonable effort to collect means an original billing and two follow-up notices of nonpayment.

130.4(2) Monthly income. Rescinded IAB 1/8/92, effective 3/1/92.

130.4(3) Child care services. Rescinded IAB 6/9/04, effective 7/1/04.

130.4(4) Rescinded, effective 7/1/81.

This rule is intended to implement Iowa Code section 234.6.

441—130.5(234) Adverse service actions.

130.5(1) Denial. Services shall be denied when it is determined by the department that:

- a. The client is not in need of service, or
- b. The client is not financially eligible, or
- c. The service to be provided is not in the Social Services Block Grant Pre-Expenditure Report, or
- d. There is another community resource available to provide the service or a similar service free of charge to the client that will meet the client's needs, or
- e. In cases other than protective service investigation, the client, parent, or representative refuses to sign the application form, or
- f. The service for which the client is eligible is currently not available; a list of these services will be posted in each local office, or
- g. Funding is not available to provide the service. A list of services not available due to lack of funding shall be posted in each local office.
- h. Rescinded IAB 8/9/89, effective 10/1/89.
- i. Rescinded IAB 6/9/04, effective 7/1/04.

130.5(2) Termination. A particular service may be terminated when the department determines that:

- a. The specific need to attain the goals and objectives to which the service was directed has been achieved, or
- b. After repeated assessment, it is evident that the family or individual is unable to achieve or maintain the goals set forth in the individual client service plan, or
- c. After repeated efforts, it is evident that the family or individual is unwilling to accept further service, or
- d. The client's income or resources exceed the financial guidelines, or the client no longer meets other eligibility criteria established by the department for the service, or
- e. The service is no longer offered or available from the department, or
- f. No payment or partial payment of client fees has been received within 30 days following the issuance of the last billing, or
- g. Another community resource is available to provide the service or a similar service free of charge to the client that will meet the client's needs, or
- h. The client refuses to allow documentation of eligibility as to need, income, and resources, or
- i. Funding is not available to provide the service. A list of services not available due to lack of funding shall be posted in each local office.
- j. The fee for case management services has not been paid within 30 days of the date on the second invoice sent by the department case management unit to the client. The second invoice shall be sent 30 days after the date of the first invoice if full payment of the fee has not been received.

130.5(3) Reduction. A particular service may be reduced when the department determines that:

- a. Continued provision of service at its current level is not necessary. The department shall determine the level to which the service may be reduced without jeopardizing the client's continued progress toward achieving or maintaining the goal. The client shall be notified of the decision.
- b. Another community resource is available to provide the same or similar service to the client at no financial cost to the client, that will meet the client's needs.

c. Funding is not available to continue the service at the current level. The client shall be reassessed to determine the level of service to be provided.

d. Rescinded IAB 6/9/04, effective 7/1/04.

130.5(4) Rescinded, effective 6/1/84.

130.5(5) Pending changes. Workers shall endeavor to make clients aware of pending changes in services to be provided by social services block grant from one program year to the next, particularly for those services that will no longer be available. This requirement also applies to time-limited services.

130.5(6) Inability of eligible cases to pay fees. After billing or notification of termination and when the client reports in writing the inability to pay the fee due to the existence of one or more of the conditions set forth in the paragraphs below, and the worker assesses and verifies the condition, service shall be continued without fee until the condition no longer exists and the client is able to participate in the current fee for service. The worker shall assess all inability to pay cases to determine whether any case can be charged a reduced fee. The reduced fee shall then be charged until full participation in fees is possible.

a. Extensive medical bills for which there is neither payment through the medical assistance program, Title XVIII of the Social Security Act, nor other insurance coverage.

b. Shelter costs in excess of 30 percent of the household income.

c. Utility costs not including the cost of a telephone, in excess of 15 percent of the household income.

d. Rescinded 10/30/91, effective 11/1/91.

e. Additional expenses for food resulting from diets prescribed by a physician.

This rule is intended to implement Iowa Code section 234.6.

441—130.6(234) Social casework. For each active service case, when service is provided directly, purchased, or by a combination of methods, a department social worker shall:

130.6(1) Determine eligibility.

130.6(2) Ensure that there is a department case plan for each individual or family based on assessment of strengths and needs. Furnish appropriate sections of the initial plan and of all updated department case plans to the provider agency when services are purchased for an individual. When individual case management services are being provided under 441—Chapter 24 for persons with mental retardation, a developmental disability, or chronic mental illness, the individual case management services provider shall distribute the case plans.

130.6(3) Refer the client to other workers or agencies through proper channels, and coordinate all workers involved in the case.

When individual case management services are being provided under 441—Chapter 24 for persons with mental retardation, a developmental disability, or chronic mental illness, the individual case management services provider shall be responsible for making referrals and coordinating workers as specified in the individual program plan.

130.6(4) Enter information to the service reporting system.

130.6(5) Monitor the case to ensure that eligibility continues, services are received, plans are adjusted as needed, services reporting system reporting is correct, and the case is canceled when appropriate, according to these rules.

130.6(6) Ensure that services are unavailable elsewhere without cost to the client.

This rule is intended to implement Iowa Code section 234.6.

441—130.7(234) Case plan. The department worker shall develop a case plan with or on behalf of persons approved to receive services. However, a case plan is not required (1) for child or adult protective investigation, (2) for foster care cases in which the department does not have custody, guardianship or a voluntary placement agreement, or (3) when child care is the only service. A case plan shall be developed with or on behalf of every other person approved to receive services unless the person has a case manager as specified in 441—Chapter 24. When department services are provided before an

individual program plan in compliance with 441—Chapter 24 is approved, a department case plan must be developed according to the requirements of this rule.

When individual case management services are being provided under 441—Chapter 24 for persons with mental retardation, a developmental disability, or chronic mental illness, the rules in 441—Chapter 24 on time limits, plan format and on who develops the plan shall apply for adults and for children whose services are not under court jurisdiction. The department worker shall determine eligibility for those services provided by the department; however, a separate department case plan need not be developed. If the individual program plan does not include sufficient information to meet department service requirements or the requirements in this chapter, the person providing department social casework shall complete either a case plan or addendum and coordinate distribution to the persons who receive the individual program plan with the case manager.

The case plan shall become part of the client's case record. The client shall participate in the development of this plan to the extent possible. The case plan shall be consistent with other service or program plans. A copy of the case plan shall be provided to the client or, when indicated, to the parent or representative of the client. For adult services, the case plan shall be recorded using Form 470-0583, Individual Client Case Plan. For children's services, the case plan shall be known as the case permanency plan and shall be prepared using Form 470-3453, Family Case Plan.

130.7(1) Services shall be directed toward the social services block grant goals of:

- a. Achieving or maintaining self-support to prevent, reduce or eliminate dependency.
- b. Achieving or maintaining self-sufficiency, including reduction or prevention of dependency.
- c. Preventing or remedying neglect, abuse or exploitation of children or adults unable to protect their own interest, or preserving, rehabilitating or reuniting families.
- d. Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care.
- e. Securing referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions.

130.7(2) The recorded case plan shall contain, but not be limited to, the following:

- a. The goal and objective to which the plan is directed, stated in a clear manner indicating the specific services required to achieve or maintain the goals to meet the needs of the particular client.
- b. Activities of clients, workers, and others involved in the plan related to specific services. These shall be measurable and have time frames for completion.
- c. A summary of all pertinent information relating to the client and the client's situation relative to need, and containing, but not limited to, the following:
 - (1) Emotional behavior.
 - (2) Social aspects.
 - (3) Historical perspective.
 - (4) Reasons for success or lack of success.
 - (5) Safety-related information indicating whether a child has behaved in a manner that threatened the safety of another person, has committed a violent act causing bodily injury to another person, or has been a victim or perpetrator of sexual abuse. The safety-related information shall be withheld only if ordered by the court or the department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.
- (6) An assessment of whether continued breastfeeding by a child's mother is in the best interest of the child, and a plan to support the mother's breastfeeding efforts, if appropriate.
- d. Information on case entries that will substantiate the client's eligibility for service.
- e. A target date for reevaluation of the case plan based on assessment of need, which shall not exceed six months.
- f. A review of financial eligibility in accordance with 130.2(5).
- g. The reason for termination or reduction of any or all services.
- h. Rescinded IAB 8/9/89, effective 10/1/89.

130.7(3) The case plan shall be developed and filed in the case record as follows:

a. In child welfare cases, the case plan shall be developed in partnership with the child, the family, and the caregiver.

(1) The recommendations from the child protective services assessment summary and the safety plan developed with the family shall be considered an initial case plan.

(2) A case plan that meets the requirements of Iowa Code section 232.2 shall be filed within 60 days from the date the child enters foster care or the date the department opens a child welfare service case, whichever occurs first.

b. For all other cases, the case plan shall be developed before services begin unless there is an unanticipated provision of service for the protection and well-being of a client. In that case, the case plan shall be filed within 45 days from the date that services begin.

130.7(4) The reevaluation of the case plan shall include all components listed under 130.7(2) and shall be filed at least every six months, or more often when there are significant changes, when required by the court, or when required according to the rules of the service.

130.7(5) The case plan may be amended between evaluation periods. Participants in the plan shall receive a copy of the amendment.

This rule is intended to implement Iowa Code section 234.6.

441—130.8 Monitoring and evaluation. Rescinded IAB 12/13/89, effective 2/1/90.

441—130.9(234) Entitlement. There is no automatic right to ongoing service in any service category from one fiscal year to the next.

This rule is intended to implement Iowa Code section 234.6.

⁰ Two or more ARCs

¹ Effective date of 130.3(3) “ab” delayed 70 days by the Administrative Rules Review Committee at its meeting held November 10, 2003; at its meeting held March 8, 2004, the Committee delayed the effective date until adjournment of the 2004 Session of the General Assembly.

CHAPTER 131
SOCIAL CASEWORK

[Prior to 7/1/83, Social Services[770] Ch 159]
[Previously appeared as Ch 159—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services[498]]

441—131.1(234) Definitions.

“*Evaluate*” means to periodically assess the appropriateness of services provided under the case plan (including social casework services) and to continue or terminate them as appropriate according to 441—Chapter 130 and the specific service chapters.

“*Implement*” means to arrange for the activities described in the case plan to begin and to advocate for the client when necessary so that services can begin.

“*Social casework*” means working with the client to:

1. Assess and identify individual and family strengths and needs,
2. Develop a case plan to provide appropriate supports and services,
3. Implement the case plan using community resources,
4. Coordinate and monitor the provision of services, and
5. Evaluate client progress and the case plan to determine continued need for services.

441—131.2(234) Eligibility. Social casework is provided to persons who meet the eligibility requirements for services as specified in rule 441—130.3(234).

441—131.3(234) Service provision. Social casework is provided directly by departmental staff.

441—131.4 Rescinded IAB 5/31/89, effective 8/1/89.

441—131.5(234) Adverse actions. Services shall be denied or terminated and appropriate notice given to clients as specified in rule 441—130.5(234).

These rules are intended to implement Iowa Code section 234.6.

[Filed 5/12/89, Notice 2/8/89—published 5/31/89, effective 8/1/89]

CHAPTER 132
STATE PAYMENT PROGRAM FOR SERVICES TO ADULTS

Rescinded IAB 7/8/92, effective 7/1/92

CHAPTER 133
IV-A EMERGENCY ASSISTANCE PROGRAM

PREAMBLE

This chapter defines and structures the department of human services' IV-A emergency assistance program. This program is designed to extend a menu of services to children who are victims or at risk of abuse or neglect, at risk of out-of-home placement, or in need of care or treatment. These rules define emergency assistance services as family-centered services, family preservation services, foster care, protective day care and wrap-around services. The rules further outline an application process, eligibility criteria, methods of service provision, and duration of service.

441—133.1(235) Definitions.

“Adolescent monitoring and outreach services” are activities undertaken to provide intensive one-to-one guidance and monitoring of a child with the goal of maintaining the child's accountability and establishing positive behavior patterns for the child in a nonresidential, community-based setting.

“Child” means a person under 18 years of age.

“Department worker” means the worker who is responsible for providing social casework as described in 441—Chapter 131.

“Emergency assistance” means any one or more of the following services provided in response to a IV-A emergency assistance application:

1. Family-centered services as set forth in 441—Chapters 182 and 185.
2. Family preservation services as set forth in 441—Chapters 181 and 185.
3. Foster care as set forth in 441—Chapters 185 and 202.
4. Protective day care as set forth in 441—Chapter 170.
5. Wrap-around services as set forth in 441—Chapter 179.
6. Adolescent monitoring and evaluation as set forth in 441—Chapter 151, Division II.

“Family” includes the following members:

1. Legal spouses (including common law) who reside in the same household.
2. Natural, adoptive, or stepmother or stepfather, and children who reside in the same household.
3. An individual or child who lives alone or who resides with a person, or persons, not legally responsible for the child's support.

“Family assistance fund” means a fund allocated to the department's regional offices which can be used by family preservation program service providers to purchase goods or services for families receiving family preservation treatment services. The family assistance fund provides assistance in meeting basic needs of a child and a child's family such as housing, which may be needed to prevent homelessness, transportation, clothing and food.

“Family-centered services” means services which utilize a comprehensive approach to address the problems of individual family members within the context of the family. These services are adapted to the individual needs of a family in the intensity and duration of service delivery and are intended to improve overall family functioning. Family-centered services may consist of both rehabilitative treatment and supportive services.

“Family-centered supportive services” means supervision services and respite care services as defined at rule 441—182.1(234).

“Family preservation services” means treatment services and supportive services provided in the family preservation program that have duration limited to 60 calendar days, but are expected to last an average of 45 calendar days.

“Foster care” shall mean substitute care furnished on a 24-hour-a-day basis to an eligible child, in a licensed foster care facility or approved shelter care facility, by a person or agency other than the child's parent or guardian, but does not include care provided in a family home through an informal agreement for a period of less than 30 days. Child foster care shall include, but is not limited to, the provision of food, lodging, training, education, supervision, and health care.

“Protective day care” means day care provided to children to prevent or alleviate child abuse or neglect.

“Wrap-around services or support funds” means individualized and community-based services or support funds which enable group foster care placement to be prevented or the length of stay reduced. Wrap-around services include concrete supports, such as housing, which may be needed to prevent homelessness, transportation, clothing and food for eligible clients.

441—133.2(235) Application. An application for emergency assistance shall be made according to 441—Chapter 130 on Form SS-1120-0, Application for Social Services/IV-A Emergency Assistance. An application shall be completed anytime a decision is made to provide emergency assistance or when an adult family member requests emergency assistance on behalf of a child.

The application shall be filed by a parent, except where both parents are absent or unwilling to apply on behalf of a child who meets all other eligibility conditions, in which case another adult member of the family with whom the child resides or has resided within the past six months acting on behalf of the child may file the application.

If the application is made on behalf of a child for whom the department has legal custody, the department worker may sign the application on behalf of the child.

441—133.3(235) Eligibility. To be eligible for emergency assistance, the family shall meet all of the following criteria:

133.3(1) Existence of an emergency. An emergency situation shall exist. An emergency exists when one of the following situations exists:

- a. Abuse, neglect, or abandonment of a child exists, or risk of same.
- b. Children are in imminent danger where continued presence in the home is not in the best interests of the child.
- c. Children have been removed from the home or are at risk of removal from the home because of abuse, neglect, which may include homelessness, or inability of parents to provide needed care or treatment or to control the behavior of the child.

133.3(2) No refusal to accept employment or training. The emergency situation did not arise out of an applicant's or applicant's family's refusal without good cause to accept employment or training for employment within 30 days of the date of the application.

133.3(3) Residence. The child is living, or within six months prior to the month in which assistance is requested has been living, with one or both parents, or a grandparent, adoptive parent, stepparent, sibling, aunt, uncle or cousin in a place of residence maintained as the child's own home.

133.3(4) Service need. The applicant must demonstrate a need for one or more of the emergency assistance services as follows:

- a. Family-centered services as established at rules 441—182.2(234) and 441—185.2(234).
- b. Family preservation services as established at rules 441—181.2(234) and 441—185.2(234).
- c. Foster care as established at rules 441—202.2(234) and 441—185.2(234).
- d. Protective day care as established at rule 441—170.2(234).
- e. Wrap-around funding as established at rule 441—179.2(234).
- f. Adolescent monitoring and evaluation as established at rule 441—151.22(235).

133.3(5) Receipt of assistance. An application for IV-A emergency assistance was not previously approved within 12 months of the current application for IV-A emergency assistance.

133.3(6) Financial eligibility. The applicant family is receiving FIP, SSI, food stamp benefits, or Medicaid in the month of the application, or does not have cash to provide needed emergency care or services as evidenced by the applicant family having an income which does not exceed 800 percent of the poverty guidelines established by the Office of Management and Budget.

441—133.4(235) Method of service provision. Except for wrap-around services, services shall be provided through department workers or through purchase of service agreements with providers approved by the department as qualified to provide specified services and who have a current contract

with the department of human services to provide services. Organizations or persons selected by the department to provide services and support pursuant to an approved application for wrap-around funding shall be considered eligible providers.

441—133.5(235) Duration of services. Services to families and children provided through the emergency assistance program as a result of a single application may be provided for either a period not to exceed 12 months, or until there is no longer a need for services according to eligibility criteria for the specified services, whichever occurs first. Family-centered supportive services, family assistance fund services, and wrap-around services shall be discontinued when the funds allocated to those services are obligated or expended as set forth at rules 441—182.3(234), 441—181.3(234), and 441—179.11(234).

441—133.6(235) Discontinuance of the program. The program shall be discontinued when federal funds have been exhausted.

These rules are intended to implement Iowa Code section 235.2.

CHAPTER 142
INTERSTATE COMPACT ON THE PLACEMENT OF CHILDREN
[Prior to 7/1/83, Social Services[770] Ch 142]
[Prior to 2/11/87, Human Services[498]]

441—142.1(238) Compact agreement. As a member of the interstate compact on placement of children, the department of human services shall cooperate on interstate aspects of placements preliminary to possible adoptions, placements in foster care where no adoption is contemplated, placements with any parent or relative, and institutional placements of adjudicated children in need of assistance needing special services or programs not available within the state. Any public or private agency instrumental in placement of a child in Iowa or from Iowa and in such public or private agency's custody shall go through the interstate compact on placement of children.

441—142.2(238) Compact administrator.

142.2(1) The compact administrator may appoint up to three deputy compact administrators to serve as active members of the association of the interstate compact on the placement of children and who shall be responsible for day-to-day operation of the interstate compact.

142.2(2) The compact administrator shall be responsible for the administration of the compact between the compact administrator's state and other contracting states.

Rules 142.1(238) and 142.2(238) are intended to implement Iowa Code section 238.33.

441—142.3(238) Article II(d). For the purposes of article II(d), a child caring agency or institution shall not include any institution caring for the mentally ill, mentally defective or epileptic; or any institution primarily educational in character; or any hospital or other medical facility.

441—142.4(238) Article III(a). For the purposes of article III(a), "sending state" shall mean "sending agency".

441—142.5(238) Article III(a) procedures.

142.5(1) All intended placements in Iowa or from Iowa coming under the purview of this compact shall be referred to the interstate compact unit, bureau of adult, children and family services, department of human services.

142.5(2) All persons involved in the placement of a child into Iowa or from Iowa into another state shall meet all the placement requirements of the receiving state prior to the actual placement.

142.5(3) Supervision of placements made by persons or agencies outside of Iowa shall be provided by a licensed Iowa agency, the department of human services, or an Iowa certified adoption investigator. Exempted from this provision are:

a. Any agency licensed as a child-placing agency in another state which has its principal place of business in a county directly adjacent to an Iowa border may practice in the Iowa counties contiguous to the out-of-state county.

b. Placement in a facility for treatment that is licensed by the department unless the department specifies that the supervision must be provided by the department for all placements in any particular facility.

441—142.6(238) Article III(c). A child may be placed in Iowa preliminary to adoption only when:

142.6(1) Rescinded by Governor's Administrative Rules Executive Order No. 3, 11/6/79.

142.6(2) There has been a preplacement investigation by an authorized person or agency in Iowa, such investigation has been made available to the Iowa interstate compact unit, the investigation has been made within the past year, and the sending state intending to place the child has been notified that the home has been approved for an adoptive placement in Iowa.

441—142.7(238) Article VIII(a). For the purpose of article VIII(a), relative shall mean stepparent, grandparent, adult brother or sister, or adult uncle or aunt, and guardian shall mean any guardian other than that appointed as preliminary to adoption.

441—142.8(238) Applicability. The requirements of this compact shall be in effect for all placements into Iowa from any state or from Iowa to any state within the United States and the District of Columbia.

[Filed 9/6/79, Notice 6/27/79—published 10/3/79, effective 11/7/79]¹

[Subrule 142.6(1) rescinded by Governor's Administrative Rules Executive Order No. 3,
11/6/79—published 11/28/79]

[Filed emergency 2/10/84—published 2/29/84, effective 2/10/84]

[Filed emergency 1/15/87—published 2/11/87, effective 1/15/87]

¹ Effective date of subrule 770—142.6(1) delayed by the Administrative Rules Review Committee 70 days.

CHAPTER 143
INTERSTATE COMPACT ON JUVENILES

[Prior to 7/1/83, Social Services[770] Ch 143]

[Prior to 2/11/87, Human Services[498]]

PREAMBLE

Iowa Code section 232.171 authorizes the state of Iowa to enter into the interstate compact on juveniles and incorporates into the Iowa Code the 15 basic articles and optional amendments that govern the interstate compact for all participating parties. The department implements the interstate compact on juveniles and participates in the contractual agreement with the other 49 states, the District of Columbia, the Virgin Islands, and Guam. The contractual agreement allows the parties to cooperate on the interstate aspects of juvenile delinquency as well as the return from one state to another of nondelinquent children who have run away from home.

441—143.1(232) Compact agreement. As a member of the interstate compact on juveniles, Iowa is in a contractual agreement with the other 49 states, the District of Columbia, Puerto Rico and Guam, in which the department of human services shall cooperate on interstate aspects of juvenile delinquency, and the return from one state to another of nondelinquent children who have run away from home.

441—143.2(232) Compact administrator.

143.2(1) The compact administrator may appoint a deputy compact administrator to serve as an active member of the association of juvenile compact administrators and who shall be responsible for day-to-day operation of the interstate compact.

143.2(2) The compact administrator shall be responsible for the administration of the compact between the compact administrator's state and other contracting states.

441—143.3(232) Sending a juvenile out of Iowa under the compact.

143.3(1) Local officials requesting to transfer a juvenile to another state shall work through the office of the interstate compact administrator. All persons using the compact shall comply with the official rule and regulations promulgated by the compact administrator under authority of the compact.

143.3(2) Interstate Compact Form IA, Application for Compact Services; and Interstate Compact Form VI, Memorandum of Understanding and Waiver shall be signed by the juvenile and parents or guardian, the Iowa juvenile court judge consenting to the placement in the receiving state, and the juvenile compact deputy.

143.3(3) The Memorandum of Understanding and Waiver shall have the conditions of the probation or parole as granted by the court of jurisdiction attached.

143.3(4) Whenever a juvenile is accepted in another state for supervision, the Iowa sending agency shall send medical release and financial statements signed by the parents or guardian.

441—143.4(232) Receiving cases in Iowa under the interstate compact.

143.4(1) The department of human services shall accept supervision of out-of-state cases when a juvenile meets the requirements of the interstate compact.

143.4(2) The department of human services shall exercise the same care and treatment that is given to Iowa cases, to notify the sending state promptly of any violations or antisocial behavior that may occur.

143.4(3) No interstate juvenile shall be given permission to return to the sending state without obtaining permission from that state.

143.4(4) The receiving state shall promptly upon parole or probation violation notify the sending state. Prior to making a recommendation for revocation of parole or probation, a preliminary hearing shall be held to determine if there is probable cause for revocation of parole or probation.

143.4(5) A parolee or probationer from another state held or placed in Iowa under the provisions of article VII and who commits a felony while in Iowa shall be:

- a. Returned to the sending state per mutual agreement; or
- b. Processed according to the Iowa statutes and not returned to the sending state for violation.

441—143.5(232) Runaways.

143.5(1) A runaway from Iowa or to Iowa shall be returned to the state of residence only after article VI setting forth the voluntary procedures or article IV setting forth the involuntary procedures has been completed by the asylum court of jurisdiction. Denial of these procedures by the asylum court as set forth in articles IV and VI abdicates the demanding jurisdiction of any responsibility for the return under the provisions of the compact.

143.5(2) Any nondelinquent runaway from another state found in Iowa shall be held only in a nonrestrictive shelter facility until returned to the state of legal residence.

143.5(3) Any nondelinquent runaway from another state found in Iowa may be held in a nonrestrictive shelter facility beyond 48 hours on issuance of a court order to permit arrangements for return to the home state or to permit the demanding state opportunity for issuance of a requisition under article IV.

143.5(4) Any runaway from another state who is charged with a felony under Iowa Code chapter 232 may either be held in a secure setting until return to the state of legal residence or be adjudicated delinquent under Iowa Code chapter 232, placed on probation, and returned to the state of legal residence under article VII of the compact.

143.5(5) Any adjudicated delinquent who has escaped or absconded from another state and has been apprehended as a nondelinquent runaway in Iowa may be held in a secure setting awaiting return to the demanding state under article V.

143.5(6) The interstate unit shall pay for the return to Iowa of any runaway, escapee, or absconder for whom the department has, at the time the juvenile left the state, legal custody or guardianship responsibility. The interstate unit shall also pay upon request for the return of any runaway who is an Iowa resident and whose parent is unable or unwilling to pay for the juvenile's return. The responsibility for the payment for the return of a runaway, escapee, or absconder not under custody or guardianship of the department shall be that of the juvenile court having legal jurisdiction of the juvenile.

These rules are intended to implement Iowa Code section 232.171.

CHAPTER 150
PURCHASE OF SERVICE

[Prior to 7/1/83, Social Services[770] Ch 145]
[Previously appeared as Ch 145—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services[498]]

DIVISION I
CATEGORIES OF CONTRACTS, TERMS AND CONDITIONS FOR
IOWA PURCHASE OF SOCIAL SERVICES AGENCY AND INDIVIDUAL CONTRACTS,
IOWA PURCHASE OF ADMINISTRATIVE SUPPORT, AND IOWA DONATIONS OF FUNDS CONTRACT AND
PROVISIONS FOR PROVIDER ADVISORY COMMITTEE AND PUBLIC ACCESS TO CONTRACTS

441—150.1(234) Definitions.

“Accounting year” means a 12 consecutive month period for which accounting records are maintained. It can be either a calendar year or another designated fiscal year.

“Accrual basis accounting” means the accounting basis which shows all expenses incurred and income earned for a given time even though the expenses may not have been paid or income received in cash during the period.

“Administrative support” means technical assistance, studies, surveys, or securing volunteers to assist the department in fulfilling its administrative responsibilities.

“Agency” means an organization or organizational unit that provides social services.

1. Public agency means a general or special-purpose unit of government and organizations administered by that unit to deliver social services, for example, county boards of supervisors, community colleges, and state agencies.

2. Private nonprofit agency means a voluntary agency operated under the authority of a board of directors for purposes other than generating profit and incorporated under Iowa Code chapter 504A. An out-of-state agency must meet requirements of similar laws governing nonprofit organizations in its state.

3. Private proprietary agency means a for-profit agency operated by an owner or board for the operator’s financial benefit.

“Bureau of purchased services” means a bureau of the division of fiscal management, which is responsible for administering the purchase of service system.

“Cash basis accounting” means the accounting basis which records expenses when bills are paid and income when money is received.

“Ceiling” means the maximum limit for payment for a service which has been established by an administrative rule or by the Iowa Code specifically for that service.

“Client” means an individual or family group who has applied for and been found to be eligible for social services from the Iowa department of human services.

“Common ownership” means that relationship existing when an individual or individuals possess significant ownership or equity in the provider and the institution or organization serving the provider.

“Components of service” means the elements or activities that make up a specific service.

“Contract” means formal written agreement between the Iowa department of human services and another legal entity, except for those government agencies whose services are covered under provision of Iowa Code chapter 28E.

“Contractor” means an institution, organization, facility or individual who is a legal entity and has entered into a contract with the department of human services.

“Control” means that relationship existing where an individual or an organization has the power, directly or indirectly, significantly to influence or direct the actions or policies of an organization or institution.

“Department” means the Iowa department of human services.

“Direct cost” means those expenses which can be identified specifically and solely to a particular program.

“*Donor*” means a local source of funding (public or private) that enters into an Iowa donation of funds contract.

“*Effective date.*”

1. Contract effective date for agency contracts means the first day of a month on which the contract shall become in force.

2. Effective date of rate means the date specified in a purchase of service contract on which the specified rate of payment for service provided begins.

“*Field staff*” means department employees outside of central office reporting to the deputy director of field operations.

“*Grant*” means an award of funds to develop specific programs or achieve specific outcomes.

“*Indirect cost*” means those expenses which cannot be related directly to a specific program and are, therefore, allocated to more than one program.

“*Project manager*” means a department employee who is assigned to assist in developing, monitoring and evaluating a contract and to provide related technical assistance.

“*Provider*” means an institution, organization, facility, or individual who is a legal entity and has entered into a contract with the department to provide social services to clients of the department.

“*Purchase of service system*” means the system within the department for contracting and payment for services, including contracts for funding and contracts for technical assistance.

“*Related to provider*” means that the provider to a significant extent is associated or affiliated with or has control of, or is controlled by, the organization furnishing the services, facilities, or supplies.

“*Relatives*” include the following persons: husband and wife, natural parent and child, sibling, adopted child and adoptive parent, stepparent, stepchild, stepbrother, stepsister, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, grandparent and grandchild.

“*Social services*” means a set of actions purposefully directed toward human needs which are socially identified as requiring assistance from others for their resolution.

“*Unit of service*” means a specified quantity of service or a specific outcome as a result of the service provided.

441—150.2(234) Categories of contracts.

150.2(1) *Iowa purchase of social services contract.* An Iowa purchase of social services contract is a legal contract between the department and a provider for a specified service or services to clients referred by the department. This contract establishes the components of service to be provided, the rate per unit of service, a maximum number of units to be available, and other negotiated conditions. The department has three types of contracts for purchasing social services.

a. An agency contract is a contract written with an agency. Iowa Purchase of Social Services Agency Contract, Form 470-0628, shall be completed prior to services being purchased from the agency.

b. A child care certificate is an agreement written with a licensed child care center, a family day care home, a group day care home, an in-home care provider, or a relative care provider. Policies governing child care certificates may be found in 441—Chapter 170.

c. An individual in-home health-related provider agreement is an agreement written with an individual provider of in-home health services. Policies governing individual in-home health-related provider agreements may be found in 441—Chapter 177.

150.2(2) *Iowa purchase of administrative support contract.* An Iowa purchase of administrative support contract is between the department and a contractor for the provision of administrative support. This contract establishes the support services to be provided, the rate and the method of payment, and other negotiated conditions. A contractor or the division of a contractor who is a multiservice organization holding an administrative support contract may not provide direct client services during the period of the contract.

a. A volunteer contract is the administrative support contract between an individual or agency and the department to secure volunteers to assist the department in service delivery.

b. A general use administrative support contract is between the department and a contractor for the provision of administrative support.

150.2(3) *County board of supervisors' participation contract.* Rescinded IAB 7/8/92, effective 7/1/92.

150.2(4) *Iowa donation of funds contract.* The Iowa donation of funds contract establishes the conditions under which a donor makes funds available to the department. This is generally for the purpose of matching state or federal funds for services or administrative support. The contract shall contain specifications concerning amendment, termination, transmittal of funds, accounting, and reversion of unspent funds. The donor may specify the geographic area to be served and the specific service to be provided. The Iowa Donation of Funds Contract, Form 470-0629, shall be completed prior to the department's acceptance of the funds.

441—150.3(234) Iowa purchase of social services agency contract.

150.3(1) *Initiation of contract proposal.* When the department issues a request for proposal to select providers, the process and conditions for approving contract proposals shall be as specified in the request, and the department shall not be required to contract with a provider that is not selected. Otherwise, the following procedures for initiation of contract proposals shall apply.

a. Right to request a contract. All potential provider agencies have a right to request a contract.

b. Initial contact. The initial contact should be between the potential provider and the service area manager for the service area in which the provider's headquarters is located. In the case of out-of-state providers, this contact can be with the service area manager for either the closest service area or the service area initiating the contact. At the beginning of the process of developing a contract, the bureau of purchased services shall give the provider:

- (1) Information about the contracting process; and
- (2) Instructions on how to access the Purchase of Service Provider Handbook electronically.

c. Contract proposal development. When the service area manager determines that a contract is to be developed, a project manager will be assigned who will assist in contract development and processing. The project manager will assist the contractor in completing the contract proposal and fiscal information appropriate to the contract. This information shall include documentation that the conditions of participation are met. Form 470-0663, Iowa Purchase of Social Services Agency Contract Face Sheet, shall be completed at the same time as Form 470-0628, Iowa Purchase of Social Services Agency Contract, or Form 470-0630, Amendment or Renewal of the Iowa Purchase of Social Services Agency Contract, is prepared.

d. Contract proposal approval or rejection. Before a contract can be effective, it shall be signed by the following persons within the time frames provided:

- (1) Authorized representative of the provider agency.
- (2) Service area manager, within one week from receipt.
- (3) Rescinded IAB 5/11/05, effective 5/1/05.
- (4) Chief of the bureau of purchased services, within 30 days from receipt.

The provider shall be given a notice and explanation in writing of delays in the process or of rejection of the proposal. Payment cannot be made until the contract is signed by the provider's authorized representative and the chief of the bureau of purchased services.

e. Criteria for rejection. The following criteria may cause a proposed contract to be rejected:

- (1) The service is not needed by department clients.
- (2) The service is not in the social services block grant plan for the counties to be served by the program.
- (3) No funds are available for the service being proposed.
- (4) The proposed contract does not meet applicable rules, regulations, or guidelines, including service definition.

f. Contract effective date. When the agreed-upon contract conditions have been met, the effective date of the contract is the first day of an agreed-upon month following signature by the chief of the bureau of purchased services.

150.3(2) Contract administration.

a. Contract management. During the contract period the assigned project manager shall be the contract liaison between the department and the provider. The project manager shall be contacted on all interpretations and problems relating to the contract and shall follow the issues through to their resolution. The project manager shall also monitor performance under the contract and shall provide or arrange for technical assistance to improve the provider's performance, if needed. Report of On-Site Visit, Form 470-0670, may be used to monitor performance under the contract.

b. Contract amendment. The contract shall be amended only upon agreement of both parties. Amendments which affect the cost of services shall include reestablishment of applicable rates. Amendment or Renewal of Iowa Purchase of Social Services Agency Contract, Form 470-0630, shall be used to amend or renew the contract.

c. Contract renewal. A joint decision to pursue renewal of the contract must be made at least 60 days before the expiration date.

(1) Each contract shall be evaluated. The department shall take the results of the evaluation into consideration in making the decision on renewal. This evaluation may involve use of the Monitoring and Evaluation Review Guide, Form 470-2571, or other evaluation tools specified in the contract.

(2) Desk Audit for Civil Rights Contract Compliance, Form 470-2215, shall be completed by the provider.

d. Contract termination. Causes for termination during the period of the contract are:

- (1) Mutual agreement of the parties involved.
- (2) Demonstration that sufficient funds are unavailable to continue the services involved.
- (3) Failure to make required reporting.
- (4) Failure to make financial and statistical records available for review.
- (5) Failure to abide by the provisions of the contract.

150.3(3) Conditions of participation. The provider shall meet the following standards:

a. Licensure, approval, or accreditation. The provider shall have any license, approval, and accreditation required by law, regulation or administrative rules, or standards of operation required by the state or the federal government before the contract can be effective. Out-of-state providers shall meet Iowa licensing standards related to treatment, professional staff to client ratio, and staff qualifications.

b. Signed contract. A contract can be effective only when signed by all parties required in 150.3(1) "d."

c. Civil rights laws. The providers shall be in compliance with all federal, state and local civil rights laws and regulations with respect to equal employment opportunity, or have a written work plan approved by the diversity programs unit to come into compliance. Equal Opportunity Review, Form 470-0148, shall be completed by the provider. Equal Opportunity Review Status Report, Form 470-2194, shall be completed by the diversity programs unit.

d. Title VI compliance. The provider shall be in compliance with Title VI of the 1964 Civil Rights Act and all other federal, state, and local laws and regulations regarding the provision of services, or have a written plan approved by the diversity programs unit to come into compliance. Equal Opportunity Review, Form 470-0148, shall be completed by the provider. Equal Opportunity Review Status Report, Form 470-2194, shall be completed by the diversity programs unit.

e. Section 504 compliance. The provider shall be in compliance with Section 504 of the Rehabilitation Act of 1973 and with all federal, state, and local Section 504 laws and regulations, or have a written work plan approved by the diversity programs unit to come into compliance. Equal Opportunity Review, Form 470-0148, Plan Review Accessibility Checklist, Form 470-0149, and Section 504 Transition Plan: Structural Accessibility, Form 470-0150, shall be completed by the provider. Equal Opportunity Review Status Report, Form 470-2194, shall be completed by the diversity programs unit.

f. Affirmative action. The provider shall be in compliance with all federal, state, and local laws and regulations regarding affirmative action, or have a written work plan approved by the diversity programs unit to come into compliance. Equal Opportunity Review, Form 470-0148, shall be completed by the

provider. Equal Opportunity Review Status Report, Form 470-2194, shall be completed by the diversity programs unit.

g. Abuse reporting. The provider shall have a written policy and procedure approved by the service area manager or designee for reporting abuse or denial of critical care of children or dependent adults.

h. Confidentiality. The provider shall comply with all applicable federal and state laws and regulations on confidentiality including rules on confidentiality contained in 441—Chapter 9. The provider shall have a written policy and procedure approved by the service area manager or designee for maintaining individual client confidentiality including client record destruction.

i. Client appeals and grievances. Clients receiving service through a purchase of service contract have the right to appeal adverse decisions made by the department or the provider. The provider shall have a written policy and procedure approved by the service area manager or designee for handling client appeals and grievances and shall provide information to clients about their rights to appeal.

j. Client reports. The provider shall maintain the following client records, except when providing services as described in 441—Chapter 182, for which the requirements in 441—subrules 185.10(4), 185.10(5) and 185.10(6) shall apply, as specified in rule 441—182.7(234):

(1) Provider service plan or individual program plan. Providers shall develop a written service plan or individual program plan for each client within 30 days of service initiation. The plan shall include a concise description of the situation or area which will be the focus of the service; statement of the goals to be achieved through the delivery of services; time limited and measurable objectives which will lead to the attainment of the goal to be achieved; specific service components, frequency, and the assignment of responsibility for the provision of the components; and the month and year when it is estimated the client will be able to achieve the current goals and objectives. The provider service plan shall be updated upon receipt of a new departmental case plan, but at least once every six months.

(2) Quarterly progress reports. Quarterly progress reports shall be sent to the department service worker responsible for the client. The first report shall be submitted to the department three months after service is initiated. Reports shall be submitted quarterly thereafter, unless provided for otherwise in rules for a specific service.

The progress report shall include a description of the specific service components provided, their frequency, and who provided them; the client's progress with respect to the goals and service objectives; and any recommended changes in the service plan or individual program plan. For all placement cases the report shall include interpretation of the client's reaction to placement, a summary of medical or dental services that were provided, a summary of educational or vocational progress and participation, and a summary of the involvement of the family with the client and the services.

Reports for the supervised apartment living service shall also include supporting documentation for service provision. The documentation shall list dates of client and collateral contacts, type of contact, persons contacted, and a brief explanation of the focus of each contact. Each unit of service for which payment is sought should be the subject of a written progress note.

(3) Termination of service summary. A termination of service summary shall be sent to the department service worker responsible for the client within two weeks of service termination. The summary shall include the rationale for service termination and the impact of the service components on the client in relationship to the established goals and objectives.

k. Financial and statistical records. Each provider of service must maintain sufficient financial and statistical records, including program and census data, to document the validity of the reports submitted to the department.

(1) The records shall be available for review at any time during normal business hours by department personnel, the purchase of service fiscal consultant, and state or federal audit personnel.

(2) These records shall be retained for a period of five years after final payment.

l. Reports on financial and statistical records. Reports on financial and statistical records shall be submitted as required. Failure to do so within the required time limits is grounds for termination of the contract.

m. Maintenance of client records. Records for clients served through a purchase of service contract must be retained by the provider for a period of three years after service to the client terminates, except for services described in 441—Chapter 182, for which the requirements of rule 441—182.7(234) shall apply.

n. Provider charges. A provider shall not charge department clients more than it receives for the same services provided to nondepartmental clients.

o. Special-purpose organizations. A provider may establish a separate, special-purpose organization to conduct certain of the provider's client-related or nonclient-related activities. For example, a development foundation assumes the provider's fund-raising activity. Often, the provider does not own the special-purpose organization (e.g., a nonprofit, nonstock-issuing corporation), and has no common governing body membership. However, a special-purpose organization is considered to be related to a provider if:

(1) The provider controls the organization through contracts or other legal documents that give the provider the authority to direct the organization's activities, management, and policies; or

(2) The provider is, for all practical purposes, the primary beneficiary of the organization's activities. The provider should be considered the special-purpose organization's primary beneficiary if one or more of the following circumstances exist:

The organization has solicited funds on the provider's behalf with provider approval, and substantially all funds so solicited were contributed with intent of benefiting the provider.

The provider has transferred some of its resources to the organization, substantially all of whose resources are held for the benefit of the provider; or

The provider has assigned certain of its functions to a special-purpose organization that is operating primarily for the benefit of the provider.

p. Certification by department of transportation.

(1) If the provider furnishes public transit service as defined in 761—910.1(324A), the provider shall annually submit to the project manager information regarding compliance with or exemption from public transit coordination requirements as found in Iowa Code chapter 324A and department of transportation rules in 761—Chapter 910. This information shall include:

1. Form 020107, Certification Application for Coordination of Public Transit Services, which the project manager shall submit to the department of transportation; and

2. A copy of an ACORD Certificate of Insurance or similar self-insurance documentation, as applicable.

(2) If a provider believes it does not furnish public transit service as defined in 761—910.1(324A) and therefore is exempt from the requirements in subparagraph (1), the provider shall submit Form 020107 with only Section 1 completed when the provider enters into a new contract.

(3) If a provider that has furnished public transit service as defined in 761—910.1(324A) ceases to do so, the provider becomes exempt from the requirements in subparagraph (1).

(4) If an exempt provider begins to furnish public transit service as defined in 761—910.1(324A), the provider shall inform the project manager within 30 days of the change and shall adhere to the procedures in subparagraph (1).

(5) Failure of the provider to cooperate in obtaining or providing the required documentation for compliance or exemption is grounds for denial or termination of the contract.

q. Services provided. Services provided, as described in Form 470-0663, Iowa Purchase of Social Services Agency Contract Face Sheet, and attachments, shall at a minimum meet the rules found in the Iowa Administrative Code for a particular service or the contract may be terminated.

r. Bonding, indemnity and insurance clauses.

(1) Rescinded IAB 2/3/93, effective 4/1/93.

(2) Indemnity. The provider agrees that it will at all times during the existence of this contract indemnify and hold harmless the department and county against any and all liability, loss, damages, costs or expenses which the provider may hereafter sustain, incur or be required to pay:

1. By reason of any client's suffering personal injury, death or property loss or damages either while participating in or receiving from the provider the care and services to be furnished by the provider

under this contract, or while on premises owned, leased, or operated by the provider, or while being transported in any vehicle owned, operated, leased, chartered, or otherwise contracted for by the provider or any officer, agency, or employee thereof.

2. By reason of any client's causing injury to or damage to another person or property during any time when the provider or any officer, agency or employee thereof has undertaken or is furnishing the care and service called for under this contract.

(3) Insurance. The provider agrees that in order to protect itself as well as the department and county under the indemnity agreement above, it will at all times during the term of the contract have and keep in force a liability insurance policy, verification of which shall accompany Form 470-0663, Iowa Purchase of Social Services Agency Contract Face Sheet. The provider agrees that all employees, volunteers, or any other person, other than employees of the department acting within the scope of their employment in the department, authorized to transport clients in privately owned vehicles, have liability insurance in force.

s. Renegotiation clause. In the event there is a revision of federal or state laws or regulations and this contract no longer conforms to those laws or regulations, both parties will review the contract and renegotiate those items necessary to conform with the new federal or state laws or regulations.

t. Performance measures. The department may require performance measures.

150.3(4) Establishment of rates. The Financial and Statistical Report for Purchase of Service Contracts, Form 470-0664, is the basis for establishing the rates to be paid to all providers under an Iowa Purchase of Social Services Agency Contract, Form 470-0628, except as provided below.

a. Injectable contraceptive unit. Rescinded IAB 8/1/07, effective 9/5/07.

b. Out-of-state providers.

(1) Rescinded IAB 9/1/93, effective 11/1/93.

(2) Out-of-state providers of other services shall have rates established using the applicable portions of the Financial and Statistical Report for Purchase of Service Contracts, Form 470-0664.

c. Family-centered flexible supportive services. Rates for community resource procurement, family team meeting facilitation, and relative home study services, as described in rule 441—182.2(234), shall be:

(1) Established in accordance with 441—subrule 185.112(14); and

(2) Subject to the provisions of 441—subrules 152.2(23) and 152.2(25).

150.3(5) Financial and statistical report. The Financial and Statistical Report for Purchase of Service Contracts, Form 470-0664, shall be completed by those providers as required in 150.3(4). The reports shall be based on the following rules.

a. Accounting procedures. Financial information shall be based on the agency's financial records. When the records are not kept on an accrual basis of accounting, the provider shall make the adjustments necessary to convert the information to an accrual basis for reporting. Providers who are multiple program agencies shall submit a cost allocation schedule prepared in accordance with recognized methods and procedures.

(1) Direct program expense shall include all direct client contact personnel involved in a program including the time of a supervisor of a program, or the apportioned share of the supervisor's time when the supervisor supervises more than one program.

(2) Expenses other than salary and fringe benefits shall be charged as direct program expenses when the expenses are identifiable to a program. They may also be charged as direct program expenses when a method of distribution acceptable to the department is maintained on a consistent basis.

(3) Occupancy expenses shall be allocated to programs on a space utilization formula. The space utilization formula may be used for salaries and fringes of building maintenance and janitorial type personnel.

(4) All expenses which relate jointly to two or more programs shall be allocated to program service costs by utilizing a cost allocation method which fairly distributes costs to the related programs. Any expenses which relate directly to a particular program shall be reflected as such. All maintenance costs shall be charged directly or allocated proportionately to the related programs affected.

(5) Indirect program service costs shall be distributed over all applicable services.

(6) Expenses such as supplies, conferences, and similar expenses that cannot be directly related to a program shall be charged to indirect program service costs.

(7) A multiservice agency shall establish a method acceptable to the department of distributing indirect program service costs.

(8) Income received from fund-raising efforts or donations shall be reported as revenue on the financial and statistical report and used to offset fund-raising costs. Fund-raising costs remaining after the offset shall be an unallowable cost.

All contributions shall be accompanied by a schedule showing the contribution and anticipated designation by the agency. No private moneys contributed to the agency shall be included by the department in its reimbursement rate determination unless these moneys are contributed for services provided to specific individuals for whom the reimbursement rate is established by the department.

If a shelter care provider's actual and allowable costs for a child's shelter care placement exceed the amount the department is authorized to pay and the provider is reimbursed by the child's county of legal settlement for the difference between actual and allowable costs and the amount reimbursed by the department, the amount paid by the county shall not be included by the department in its reimbursement rate determination, as long as the amount paid is not greater than the provider's actual and allowable costs, or the statewide average of actual and allowable costs in May of the preceding year for juvenile shelter care homes, whichever is less.

(9) When an agency has a certified public accounting firm perform an audit of its financial statements, the resulting audit report shall follow one of the uniform audit report formats recommended by the American Institute of Certified Public Accountants. These formats are specified in the industry audit guide series, "Audits of Voluntary Health and Welfare Organizations," prepared by the Committee on Voluntary Health and Welfare Organizations, American Institute of Certified Public Accountants, New York, 1974. A copy of the certified audit report shall be submitted to the department within 60 days of receipt.

(10) All expenses reported on Form 470-0664 shall be supported by an agency's general ledger and documentation on file in the agency's office.

b. Failure to maintain records. Failure to maintain records adequate to support the Financial and Statistical Report for Purchase of Service Contracts, Form 470-0664, may result in termination of the contract. These records include, but are not limited to:

- (1) Reviewable, legible census reports.
- (2) Payroll information.
- (3) Capital asset schedules.
- (4) All canceled checks, deposit slips, invoices (paid and unpaid).
- (5) Audit reports (if any).
- (6) Board of directors' minutes.

c. Submission of reports. The financial and statistical report shall be submitted to the department no later than three months after the close of the provider's established fiscal year. At least one week must be allowed prior to this deadline for the project manager to review the report and transmit it to the bureau of purchased services in central office. Failure to submit the report in time without written approval from the chief of the bureau of purchased services may reduce payment to 75 percent of the current rate. Failure to submit the report within six months of the end of the fiscal year shall be cause for terminating the contract.

d. Rate modification. Modification of rates shall be made when required by changes in licensing requirements, changes in the law, or amendments to the contract. Requests for modification of a rate may be made when changes are because of program expansion or modification and have the approval of the service area where services are provided. Even if there is a modification of the rate, the modified rate is still subject to any maximum established in any law or rule.

e. Payment of new rate. New rates shall be effective for services provided beginning the first day of the second calendar month after receipt by the bureau of purchased services of a report sufficient to establish rates or, by mutual agreement, new rates shall be effective the first day of the month following completion of the fiscal review. Failure to submit a report sufficient to establish a rate will result in the

effective date's being delayed. At least one week must be allowed prior to the deadline in paragraph "c" above for the project manager to review the report and transmit it to central office.

f. Exceptions to costs. Exceptions to costs identified by the bureau of purchased services or its fiscal consultant will be communicated to the provider in writing.

g. Accrual basis. Providers not using the accrual basis of accounting shall adjust amounts to the accrual basis when the financial and statistical report is completed. Records of cash receipts and disbursements shall be adjusted to reflect accruals of income and expenses.

h. Census data. Documentation of units of service provided which identifies the individual client shall be available on a daily basis and summarized on a monthly report. The documentation and reports shall be retained by the provider for review at the time the expenditure report is prepared and reviewed by the department's fiscal consultant.

i. Opinion of accountant. The department may require that an opinion of a certified public accountant or public accountant accompany the report when adjustments made to prior reports indicate noncompliance with reporting instructions.

j. Revenues. When the Financial and Statistical Report is completed, revenues shall be reported as recorded in the general books and records adjusted for accruals. Expense recoveries shall be reflected as revenues.

k. Capital asset use allowance (depreciation) schedule. The Capital Asset Use Allowance Schedule shall be prepared using the guidelines for provider reimbursement in the Medicare and Medicaid Guide, December 1981.

l. The following expenses shall not be allowed:

- (1) Fees paid directors and nonworking officers' salaries.
- (2) Bad debts.
- (3) Entertainment expenses.
- (4) Memberships in recreational clubs, paid for by an agency (country clubs, dinner clubs, health clubs, or similar places) which are primarily for the benefit of the employees of the agency.
- (5) Legal assistance on behalf of clients.
- (6) Costs eligible for reimbursement through the medical assistance program.
- (7) Food and lodging expenses for personnel incurred in the city or immediate area surrounding the personnel's residence or office of employment, except when the specific expense is required by the agency and documentation is maintained for audit purposes. Food and lodging expenses incurred as part of programmed activities on behalf of clients, their parents, guardians, or consultants are allowable expenses when documentation is available for audit purposes.
- (8) Business conferences and conventions. Meeting costs of an agency which are not required in licensure.
- (9) Awards and grants to recognize board members and community citizens for achievement. Awards and grants to clients as part of treatment program are reimbursable.
- (10) Survey costs when required certification is not attained.
- (11) Federal and state income taxes.

m. Limited service—without a ceiling. The following expenses are limited for service without a ceiling established by administrative rule or law for that service. This includes services with maximum rates, with the exception of shelter care.

(1) Moving and recruitment are allowed as a reimbursable cost only to the extent allowed for state employees. Expenses incurred for placing advertising for purposes of locating qualified individuals for staff positions are allowed for reimbursement purposes.

(2) and (3) Rescinded IAB 5/18/88, effective May 1, 1988.

(4) Costs for participation in educational conferences are limited to 3 percent of the agency's actual salary costs, less excluded or limited salary costs as recorded on the financial and statistical report.

(5) Costs of reference publications and subscriptions for program-related materials are limited to \$500 per year.

(6) Memberships in professional service organizations are allowed to the extent they do not exceed one-half of 1 percent of the total salary costs less excluded salary costs.

(7) In-state travel costs for mileage and per diem expenses are allowable to the extent they do not exceed the maximum mileage and per diem rates for state employees for travel in the state.

(8) Reimbursement for air travel shall not exceed the lesser of the minimum commercial rate or the rate allowed for mileage in subparagraph (7) above.

(9) The maximum reimbursable salary for the agency administrator or executive director charged to purchase of service is \$40,000 annually.

(10) Annual meeting costs of an agency which are required in licensure are allowed to the extent required by licensure.

n. Limited service—with a ceiling. The following expenses are limited for services with a ceiling established by administrative rule or law for that service. This includes shelter care.

(1) The maximum reimbursable compensation for the agency administrator or executive director charged to purchase of service annually is \$40,000.

(2) Annual meeting costs of an agency which are required for licensure are allowed to the extent required by licensure.

o. Establishment of ceiling and reimbursement rate.

(1) The maximum allowable rate ceiling applicable to each service is found in the rules for that particular service.

(2) When a ceiling exists, the reimbursement rate shall be established by determining on a per unit basis the allowable cost plus the current cost adjustment subject to the maximum allowable cost ceiling.

p. Rate limits. Interruptions in service programs will not affect the rate. If an agency assumes the delivery of service from another agency, the rate shall remain the same as for the former agency.

(1) The combined service and maintenance reimbursement rate paid to a shelter care provider shall be based on the financial and statistical report submitted to the department. For the fiscal year beginning July 1, 2008, the maximum reimbursement rate shall be \$92.36 per day, based on a 365-day year. If the department reimburses the provider at less than the maximum rate, the department shall adjust the provider's reimbursement rate to the provider's actual and allowable cost plus the inflation factor or to the maximum reimbursement rate, whichever is less.

(2) For the fiscal year beginning July 1, 2008, the maximum reimbursement rates for services provided under a purchase of social service agency contract (shelter care and supervised apartment living) shall be increased to 1 percent over the rates in effect on June 30, 2008, or increased to the provider's actual and allowable cost plus inflation, whichever is less.

(3) The rates may be adjusted if a new service is added after June 30, 2008. The initial reimbursement rate for the new service shall be based upon actual and allowable costs. A new service does not include a new building or location or other changes in method of service delivery for a service currently provided under the contract.

1. For shelter care, if the provider is currently offering shelter care under social services contract, the only time the provider shall be considered to be offering a new service is if the provider adds a service other than shelter care.

2. For supervised apartment living, the only time a provider shall be considered to be offering a new service is when the agency adds a cluster site or a scattered site for the first time. If, for example, the agency has a supervised apartment living cluster site, the addition of a new site does not constitute a new service.

3. If the department defines, in administrative rule, a new service as a social service that may be purchased, this shall constitute a new service for purposes of establishment of a rate. Once the rate for the new service is established for a provider, the rate will be subject to any limitations established by administrative rule or law.

(4) If a social service provider loses a source of income used to determine the reimbursement rate for the provider, the provider's reimbursement rate may be adjusted to reflect the loss of income, provided that the lost income was used to support actual and allowable costs of a service purchased under a purchase of service contract.

q. Related party costs. Direct and indirect costs applicable to services, facilities, equipment, and supplies furnished to the provider by organizations related to the provider are includable in the allowable

cost of the provider at the cost to the related organization. All costs allowable at the provider level are also allowable at the related organization level, unless these related organization costs are duplicative of provider costs already subject to reimbursement.

(1) Allowable costs shall be all actual direct and indirect costs applying to any service or item interchanged between related parties, such as capital use allowance (depreciation), interest on borrowed money, insurance, taxes, and maintenance costs.

(2) When the related party's costs are used as the basis for allowable rental or supply costs, the related party shall supply documentation of these costs to the provider. The provider shall complete a schedule displaying amount paid to related parties, related party cost, and total amount allowable. The resulting costs shall be allocated according to policies in 150.3(5) "a" (3) to (7).

Financial and statistical records shall be maintained by the related party under the provisions in 150.3(3) "k."

(3) Tests for relatedness shall be those specified in rule 441—150.1(234) and 150.3(3) "o." The department or the purchase of service fiscal consultant shall have access to the records of the provider and landlord or supplier to determine if relatedness exists. Applicable records may include financial and accounting records, board minutes, articles of incorporation, and list of board members.

r. Day care increase. Rescinded IAB 7/7/93, effective 7/1/93.

s. Interest on unpaid invoices. Any invoice that remains unpaid after 60 days following the receipt of a valid claim is subject to the payment of interest. The rate of interest is 1 percent per month beyond the 60-day period, on a simple interest basis. A separate claim for the interest is to be generated by the agency. If the original claim was paid with both federal and state funds, only that portion of the original claim paid with state funds will be subject to interest charges.

t. Interest as an allowable cost. Necessary and proper interest on both current and capital indebtedness is an allowable cost.

(1) "Interest" is the cost incurred for the use of borrowed funds. Interest on current indebtedness is the cost incurred for funds borrowed for a relatively short term. Interest on capital indebtedness is the cost incurred for funds borrowed for capital purposes.

(2) "Necessary" requires that the interest be incurred on a loan made to satisfy a financial need of the provider, be incurred on a loan made for a purpose reasonably required to operate a program, and be reduced by investment income except where the income is from gifts and grants whether restricted or unrestricted, and which are held separate and not commingled with other funds.

(3) "Proper" requires that interest be incurred at a rate not in excess of what a prudent borrower would have had to pay in the money market on the date the loan was made, and be paid to a lender not related through control or ownership to the borrowing organization.

u. Rate formula. Paragraph 150.3(5) "p" notwithstanding, when rates are determined based on cost of providing the service involved, they will be calculated according to the following mathematical formula:

$$\frac{\text{Net allowable expenditures}}{\text{Effective utilization level}} \times \text{Reimbursement factor} = \text{Base Rate}$$

(1) Net allowable expenditures are those expenditures attributable to service to clients which are allowable as set forth in subrule 150.3(5), paragraphs "a" to "t."

(2) Effective utilization level shall be 80 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program.

(3) Inflation factor is the percentage which will be applied to develop payment rates consistent with current policy and funding of the department. The inflation factor is intended to overcome the time lag between the time period for which costs were reported and the time period during which the rates will be in effect. The inflation factor shall be the amount by which the Consumer Price Index for all urban consumers increased during the preceding calendar year ending December 31.

(4) Base rate is the rate which is developed independent of any limits which are in effect. Actual rates paid are subject to applicable limits or maximums.

v. Rescinded IAB 5/13/92, effective 4/16/92.

150.3(6) Client eligibility and referral.

a. Program eligibility. To receive services through the purchase of service system, clients shall be determined eligible and be formally referred by the department.

(1) The department shall not make payment for services provided before the client's application, eligibility determination, and referral. See "b" below for an exception to this requirement.

(2) Except as provided in paragraph "c," the department shall use the following forms to authorize services:

1. Form 470-0622, Referral of Client for Purchase of Social Services.

2. Form 470-0719, Placement Agreement: Child Placing or Child Caring Agency (Provider).

b. When a court orders foster care and the department has no responsibility for supervision or placement of the client, the department will pay the rate established by these rules for maintenance and service provided by the facility.

c. Family-centered services. For family-centered services, the provisions in rules 441—182.3(234) and 441—182.4(234) relating to approval, authorization, and referral shall apply.

150.3(7) Client fees. The provider shall agree not to require any fee for service from departmental clients unless a fee is required by the department and is consistent with federal regulation and state policy. Rules governing client fees are found in 441—130.4(234).

The provider shall collect fees due from clients. The provider shall maintain records of fees collected, and these records shall be available for audit by the department or its representative. When a client does not pay the fee, the provider shall demonstrate that a reasonable effort has been made to collect the fee. Reasonable effort to collect means an original billing and two follow-up notices of nonpayment. When the second notice of nonpayment is sent, the provider shall send a copy of the notice to the department worker.

150.3(8) Billing procedures. At the end of each month the provider agency shall prepare Form 470-0020, Purchase of Service Provider Invoice, for contractual services provided by the agency during the month.

Separate invoices shall be prepared for each county from which clients were referred, each service, and each funding source involved in payment. Complete invoices shall be sent to the departmental county office responsible for the client for approval and forwarding for payment.

More frequent billings may be permitted on an exception basis with the written approval of the service area and the chief of the bureau of purchased services.

a. Time limit for submitting vouchers, invoices, or claims. The time limit for submission of original vouchers, invoices, or claims shall be three months from the date of service.

b. Resubmittals of rejected claims. Valid claims which were originally submitted within the time limit specified in paragraph "a" but were rejected because of an error shall be resubmitted without regard to time frames.

150.3(9) Reviews of departmental actions. A provider who is adversely affected by a departmental decision may request a review. A review request may cause the action to be stopped pending the outcome of the review, except in cases where it can be documented that to do so would be detrimental to the health and welfare of clients. The procedure for review is:

a. The provider shall send a written request for review to the project manager responsible for the contract within ten days of receipt of the decision in question. This request shall document the specific area in question and the remedy desired. The project manager shall provide a written response within ten days.

b. When dissatisfied with the response, the provider shall submit to the service area manager within ten days the original request, the response received, and any additional information desired. The service area manager shall study the concerns and the action taken, and render a decision in writing within 14 days. A meeting with the provider may be held to clarify the situation.

c. If still dissatisfied, the provider may within ten days request a review by the chief of the bureau of purchased services. The request for review should include copies of material from paragraphs "a" and "b" above. The bureau chief shall review the issues and positions of the parties involved and provide a

written decision within 14 days. A meeting may be held with the provider, project manager, and service area manager or designee.

d. The provider may appeal this decision within ten days to the director of the department, who will issue the final department decision within 14 days.

150.3(10) *Review of financial and statistical reports.* Authorized representatives of the department or state or federal audit personnel shall have the right to review the general financial records of a provider. The purpose of the review is to determine if expenses reported to the department have been handled as required under 150.3(5). Representatives shall provide proper identification and shall use generally accepted auditing principles. The reviews may include an on-site visit to the provider, the provider's central accounting office, the offices of the provider's agents, a combination of these, or, by mutual decision, to other locations.

150.3(11) Rescinded, effective 3/1/87.

This rule is intended to implement Iowa Code section 234.6.

441—150.4(234) Iowa purchase of social services contract—individual providers.

150.4(1) *Individual child day care provider agreement.* Rules governing individual child day care provider agreements may be found in 441—Chapter 170.

150.4(2) *Individual in-home health-related provider agreement.* Rules governing individual in-home health-related provider agreements may be found in 441—Chapter 177.

441—150.5(234) Iowa purchase of administrative support.

150.5(1) *Initiation of contract proposal.*

a. Right to request a contract. All potential contractors have a right to request a contract.

b. Initial contact.

(1) Volunteer contract. The initial contact for a volunteer contract may be between the potential contractor and the service area manager of the service area in which the individual or the contractor agency's headquarters is located or the contract may be between the potential contractor and the director of the state volunteer program in the central office of the department. If so, the director will communicate with the service area.

(2) General use administrative support contract. The initial contact for a general use administrative support contract may be between the potential contractor and the service area manager of the service area in which the individual or contractor organization's headquarters is located or the contract may be between the potential contractor and the chief of the bureau of purchased services, who will communicate with the service area.

c. Contract proposal development. When the service area manager determines that a contract is to be developed, a project manager will be assigned who will assist in contract development and processing. The project manager will assist the contractor in completing the contract proposal and fiscal information appropriate to the contract. This includes documentation that the conditions of participation required below are met.

d. Contract proposal approval or rejection. Before a contract can be effective it shall be signed by the following persons within the time frames provided:

(1) Volunteer contract.

Individual contractor or authorized representative of the contractor agency.

Service area manager within one week from receipt.

Director of the state volunteer program within 30 days from receipt.

(2) General use administrative support contract.

Individual contractor or authorized representative of the contractor agency.

Service area manager within one week from receipt.

Chief of the bureau of purchased services within two weeks from receipt.

Administrator of the division of fiscal management within two weeks from receipt.

The contractor shall be notified of delays in the process or of rejection of the proposal. This notification along with an explanation shall be in writing. The applicant has a right to have the decision reviewed by the director of the state volunteer program, or chief of the bureau of purchased services.

e. Criteria for rejection. The following criteria may cause a proposed contract to be rejected.

- (1) The proposed activity is not needed by the department.
- (2) No funds are available for the activity being proposed.
- (3) The proposed contract does not meet applicable rules, regulations, or guidelines.

f. Contract effective date. If the agreed-upon contract conditions have been met, the effective date of the contract is the first day of an agreed-upon month following signature by the director of the state volunteer program, or the chief of the bureau of purchased services.

150.5(2) Contract administration.

a. Contract management. During the contract period, the assigned project manager shall be the liaison between the department and the contractor. The project manager shall be contacted on all interpretations and problems related to the contract and shall follow issues through to their resolution. The project manager shall also monitor performance under the contract and will provide or arrange for technical assistance to improve the contractor's performance, if needed.

b. Contract amendments. The contract shall be amended only upon agreement of both parties. Amendments which affect the cost of providing the volunteer services must include reestablishment of amounts to be paid.

c. Contract renewal. A joint decision to pursue renewal of the contract must be made at least 60 days prior to the expiration date. Each contract shall be evaluated. The results of the evaluation shall be taken into consideration in the decision on renewal. This evaluation may involve use of evaluation tools specified in the contract.

d. Contract termination. Causes for termination during the period of the contract are:

- (1) Mutual agreement of the parties involved.
- (2) Demonstration that sufficient funds are unavailable to continue the service(s) involved.
- (3) Failure to make reports required by the contract.
- (4) Failure to make financial, statistical, and program records available.
- (5) Failure to abide by the provisions of the contract.

150.5(3) Conditions of participation. The contractor shall meet the following standards:

a. Licensure, approval, or accreditation. The contractor shall have any license, approval, and third-party accreditation required by law, regulation, or administrative rules, or shall meet standards of operation required by state or federal regulation. This requirement must be met before the contract can be effective.

b. Signed contract. A contract can be effective only when signed by all parties required in 150.5(1) "d."

c. Civil rights laws. The contractors shall be in compliance with all federal, state, and local civil rights laws and regulations with respect to equal employment opportunity, or have a written work plan approved by the diversity programs unit to come into compliance.

d. Title VI compliance. The contractors shall be in compliance with Title VI of the 1964 Civil Rights Act and all other federal, state, and local laws and regulations regarding the provision of services, or have a written plan approved by the diversity programs unit to come into compliance.

e. Section 504 compliance. The contractors shall be in compliance with Section 504 of the Rehabilitation Act of 1973 and with all federal, state, and local Section 504 laws and regulations, or have a written work plan approved by the diversity programs unit to come into compliance.

f. Affirmative action. The contractors shall be in compliance with all federal, state, and local laws and regulations regarding affirmative action, or have a written work plan approved by the diversity programs unit to come into compliance.

g. Abuse reporting. The contractor shall have an approved policy and procedure for reporting abuse or denial of critical care of children or dependent adults.

h. Confidentiality. The contractor shall comply with all applicable federal and state laws and regulations on confidentiality.

i. Financial and statistical records. Each contractor of service shall maintain sufficient financial and statistical records, including program and census data, to document the validity of the reports submitted to the department.

(1) The records shall be available for review at any time during normal business hours by department personnel, the purchase of service fiscal consultant, or state or federal audit personnel.

(2) These records shall be retained for a period of five years after final payment.

j. Certification by department of transportation. Each contractor who supplies transportation services shall submit Form 020107, Certification Application for Coordination of Public Transit Services, and a copy of "Certificate of Insurance" (an ACORD form or similar or self-insurance documentation) to the applicable project manager annually showing information regarding compliance with, or exemption from, public transit coordination requirements as found in Iowa Code chapter 324A and department of transportation rules 761—Chapter 910.

Failure to provide the required documentation for compliance or exemption is grounds for denial or termination of the contract.

150.5(4) Establishing amounts to be paid. The amounts to be paid under purchase of administrative support contracts are actual approved expenses as negotiated in the contract. Approved items of cost are based on submission of a proposed budget listing those items necessary for provision of the volunteer coordination or technical assistance to be delivered. At the termination of the contract a statement of actual expenses incurred shall be submitted by the contractor.

150.5(5) Billing procedures. At the end of each month, or as otherwise provided in the contract, the contractor shall prepare a claim on Form GAX, General Accounting Expenditure, for expenses for which reimbursement is permitted in the contract. The claim shall be sent to the office of the department that administers the contract for approval and forwarding for payment.

a. Time limit for submitting claims. The time limit for submission of original claims shall be within 90 days of the provision of service.

b. Resubmittals of rejected claims. Valid claims which were originally submitted within this time limit but were rejected because of an error must be resubmitted, but without regard to time frames.

150.5(6) Reviews of department actions. A contractor who is adversely affected by a department decision may request a review. A review request may cause the action to be stopped pending the outcome of the review process, except in cases where it can be documented that to do so would be detrimental to the health and welfare of clients. The procedure for review is:

a. Within ten days of receipt of the decision in question the contractor shall send a written request for review to the project manager responsible for the contract. This request shall document the specific area in question and the remedy desired. A written response from the project manager shall be provided within ten days.

b. When dissatisfied with the response, the contractor shall submit the original request, the response received, and any additional information desired to the service area manager within ten days. The service area manager shall study the concerns, the action taken and render a decision in writing within 14 days. A meeting with the contractor may be held to clarify the situation.

c. If still dissatisfied, the contractor may within ten days request a review by the chief of the bureau of purchased services. The request for review should include copies of material from paragraphs "a" and "b" above. The bureau chief shall review the issues and positions of the parties involved and provide a written decision within 14 days. A meeting with the contractor, project manager, and service area manager or designee may be held.

d. The contractor may appeal this decision within ten days to the director of the department, who will issue the final department decision within 14 days.

150.5(7) Reviews. Authorized representatives of the department or state or federal audit personnel have the right to review the general financial records of a contractor. The purpose of the review is to determine if expenses reported to the department have been handled as required under 150.5(4). Representatives shall provide proper identification and shall use generally accepted auditing principles. The reviews may be on the basis of an on-site visit to the contractor, the contractor's central accounting

office, the offices of the contractor's agents, a combination of these, or, by mutual decision, to other locations.

This rule is intended to implement Iowa Code sections 234.6 and 324A.5, subsection 3, paragraph "c."

441—150.6(234) County board of supervisors participation contract. Rescinded IAB 7/8/92, effective 7/1/92.

441—150.7(234) Iowa donation of funds contract.

150.7(1) Contract development. The service area manager or designee shall assist the donor in completion of the contract document.

a. Contract approval or rejection. Before a contract can be effective it shall be signed by the following persons within the time frames provided:

- (1) Donor or the donor's authorized representative.
- (2) Service area manager, within one week from receipt.
- (3) Rescinded IAB 5/11/05, effective 5/1/05.
- (4) Chief of the bureau of purchased services, within two weeks from receipt.

b. Contract effective date. The contract is effective upon signature of the chief of the bureau of purchased services.

c. Contract ending date. The contract ending date shall be specified in the contract, but shall not be later than June 30 following the effective date of the contract.

150.7(2) Contract administration.

a. Contract management. During the contract period the service area manager or designee shall be the liaison between the department and the donor. The liaison shall be contacted on all interpretations and problems relating to the contract. When a problem involves a particular service or administrative support contract, the project manager for that contract shall be notified by the liaison for the donor, if the project manager is not also the liaison.

b. Contract amendment. The contract shall be amended if:

(1) The donor or department is unable to comply with the existing terms of the contract and contract termination is not being sought.

(2) The donor decides to provide additional funds and the department agrees to accept them.

c. Contract termination. The contract may be terminated early if any of the following conditions exist:

- (1) The donor and the department agree to terminate the contract early.
- (2) The donor or the department fails to comply with contract terms.

d. Contract renewal. A donation of funds contract cannot be renewed. A new contract shall be negotiated when the donor wishes to provide funds in subsequent periods.

150.7(3) Conditions of participation.

a. Signed contract. A contract shall be effective only when signed by all parties required in 150.7(1) "a."

b. Civil rights laws. The donors shall be in compliance with all federal, state, and local civil rights laws and regulations with respect to equal employment opportunity, or have a written work plan approved by the diversity programs unit to come into compliance.

c. Title VI compliance. The donors shall be in compliance with Title VI of the 1964 Civil Rights Act and all other federal, state, and local laws and regulations regarding the provision of services, or have a written plan approved by the diversity programs unit to come into compliance.

d. Section 504 compliance. The donors shall be in compliance with Section 504 of the Rehabilitation Act of 1973 and with all federal, state, and local Section 504 laws and regulations, or have a written work plan approved by the diversity programs unit to come into compliance.

e. Affirmative action. The donors shall be in compliance with all federal, state, and local laws and regulations regarding affirmative action, or have a written work plan approved by the diversity programs unit to come into compliance.

f. Confidentiality. The donor shall comply with all applicable federal and state laws and regulations on confidentiality.

g. Eligibility of clients for programs. Clients for whom services are purchased using funds donated through this contract must be determined eligible by the department using 441—Chapters 130 and 153.

h. Purchase of service system. The donor shall follow the policies of the purchase of service system established by the department.

i. Restrictions on donated funds. The donor may specify the geographical area to be served and the service to be provided.

j. Transmittal of funds. Any funds available under this contract shall be transmitted to the department at least quarterly. When funds are for match purposes, they shall be transmitted in amounts sufficient to cover the anticipated quarterly expenditures.

k. Accounting. The department shall supply a monthly report which provides an accounting of the use of the funds to the donor.

150.7(4) Administrative control of funds. Except for restrictions permitted by subrule 150.7(3) “i,” all donated funds shall be donated on an unrestricted basis for use as if they were appropriated funds and shall be under the administrative control of the department.

150.7(5) Reversion of unspent funds. No funds donated and transmitted to the department will be returned to the donor unless the donor is a public agency. Unspent funds will be returned to the public agency donor after the contract period upon submittal of a written request to the chief of the bureau of purchased services.

441—150.8(234) Provider advisory committee. The provider advisory committee serves in an advisory capacity to the department, specifically to the bureau of purchased services. The provider advisory committee is composed of representatives from member provider associations as appointed by the respective associations. Individual representatives from provider agencies having a purchase of service contract but not belonging to an association may become members of the provider advisory committee upon simple majority vote of the committee members at a meeting. A representative of the purchase of service fiscal consultant is a nonvoting member. Departmental representatives from the bureau of purchased services, the office of the deputy director of field operations, the division of adult, children and families services, and the division of mental health and developmental disabilities are also nonvoting members.

441—150.9(234) Public access to contracts. Subject to applicable federal and state laws and regulations on confidentiality including 441—Chapter 9, all material submitted to the department of human services pursuant to this chapter shall be considered public information.

These rules are intended to implement Iowa Code section 234.6 and 2001 Iowa Acts, House File 732, section 31, subsection 6, and Senate File 537, section 1, subsection 1, paragraph “d.”

441—150.10 to 150.20 Reserved.

DIVISION II
PURCHASE OF SOCIAL SERVICES CONTRACTING ON BEHALF OF COUNTIES FOR
LOCAL PURCHASE SERVICES FOR ADULTS WITH MENTAL ILLNESS,
MENTAL RETARDATION, AND DEVELOPMENTAL DISABILITIES

CHAPTER 151
JUVENILE COURT SERVICES DIRECTED PROGRAMS

[Prior to 7/1/83, Social Services[770] Ch 141]
[770—Ch 141 renumbered as 498—Ch 209, IAB 2/29/84]
[Agency number changed from [498] to [441] IAB 2/11/87]
[Prior to 7/26/89, 441—Ch 209]

PREAMBLE

These rules prescribe services for children eligible for reimbursement from funds appropriated specifically for juvenile court services directed programs. The state court administrator and chief juvenile court officers have primary responsibility for the administration of court-ordered services and graduated sanction services for children. The graduated sanction services are also known as “early intervention and follow-up services” or “community-based delinquency programs.”

The juvenile court services directed programs addressed in this chapter include court-ordered services and four graduated sanction programs: life skills; school-based supervision; supervised community treatment; and tracking, monitoring, and outreach. The rules establish the criteria for the allocation of funds and the procedures for administration, application, eligibility, appeals, service delivery, and billing and payment.

DIVISION I
GENERAL PROVISIONS

PREAMBLE

These rules, pursuant to the authority granted in the Iowa Code and annual appropriations Acts, prescribe the relationship between the state court administrator (the judicial branch), the chief juvenile court officer from each judicial district, and the department of human services (the executive branch) in the administration of the funds for the juvenile court services directed programs. These rules also prescribe the joint responsibilities of the chief juvenile court officers and the department’s service area managers for the planning and implementation of an annual child welfare and juvenile justice plan for each department service area.

441—151.1(232) Definitions.

“*At risk*” or “*high risk*” means that a child has been referred to juvenile court services for a delinquency violation or has exhibited behaviors likely to result in a juvenile delinquency referral.

“*Case file*” means a file that includes referral information, information generated during assessment, documentation of court proceedings, other eligibility determinations, case plans, and case reports, including quarterly progress reports. Case files of providers also include records of provider-child contact that document provision of services.

“*Case record*” means a minimal record that identifies the child and the service provided and documents the child’s eligibility. A case record is maintained when a case file is not required.

“*Certification of the court*” means that the chief juvenile court officer has determined that (1) the court-ordered services fall within the defined services pursuant to Iowa Code section 232.141, subsections (4) and (5), and (2) there are sufficient funds in the district’s fiscal year fund allocation to pay for all court-ordered services.

“*Child*” means a person under 18 years of age. “Child” also includes a person up to 19½ years of age when (1) the person is adjudicated delinquent and the dispositional order is entered while the person is 17 years of age (in which case, the order terminates 18 months after the date of disposition), or (2) the person, as an adult, has been transferred to the jurisdiction of the juvenile court and is adjudicated

as having committed a delinquent act before becoming an adult (in which case, the dispositional order automatically terminates 18 months after the last date upon which jurisdiction could attach).

“*Child welfare and juvenile justice plan*” means the annual plan for using decategorized funds within each department service area.

“*Court-ordered services*” means the defined or specific care and treatment that are ordered by the court for an eligible child and for which no other payment source is available to cover the cost.

“*Department*” means the department of human services.

“*Eligible child*” means a child who has been adjudicated delinquent, is at risk, or has been certified by the chief juvenile court officer as eligible for court-ordered services.

“*Graduated sanction services*” means life skills; school-based supervision; supervised community treatment; and tracking, monitoring, and outreach. Graduated sanction services are provided in community-based settings to children who are adjudicated delinquent or who are at risk of adjudication. Services are directed to help children transition into productive adulthood and to prevent or reduce criminal charges, out-of-home placement, and recidivism. Graduated sanction services are also known as “early intervention and follow-up services” or “community-based delinquency programs.”

“*Juvenile court officer*” means a person appointed as a juvenile court officer or a chief juvenile court officer under Iowa Code chapter 602.

“*Provider*” means a public agency, including a school district or government unit, or a private agency, organization or eligible individual authorized to do business in the state. The provider is also known as the claimant.

441—151.2(232) Administration of funds for court-ordered services and graduated sanction services. Pursuant to the authority granted in Iowa Code chapters 232, 602, 7E, and 8 and the annual appropriations Acts, the executive branch, represented by the department, and the judicial branch, represented by the state court administrator and the chief juvenile court officers, are each charged with specific responsibilities for funding, administering, and providing graduated sanction services and court-ordered services.

151.2(1) Allocations for court-ordered services. Court-ordered services are funded by an appropriation made to the department for allocation by the state court administrator.

a. The state court administrator shall allocate the funds, minus the administrative set-aside specified in the appropriations bill, to the eight judicial districts for the payment of the expenses of court-ordered services provided to juveniles that are a charge upon the state pursuant to Iowa Code section 232.141, subsection (4), and also as allowed by subsection 5.

b. The state court administrator may use not more than the administrative set-aside, specified in the appropriations bill, for the costs of administering the court-ordered services program, including the costs of travel associated with court-ordered placements, that are a charge to the state pursuant to Iowa Code section 232.141, subsection (4).

c. The state court administrator shall allocate the funds, minus the administrative set-aside, among the judicial districts on or before the date directed by the legislature.

(1) The state court administrator shall base the allocation on each district’s respective portion of the statewide population of children as reported in current census data.

(2) The source of the census data shall be determined and agreed upon by the state court administrator and the chief juvenile court officers.

151.2(2) Allocations for graduated sanction services. Graduated sanction services are funded by an appropriation to the department. The department allocates the funds to the state court administrator and to the chief juvenile court officers for administration. The funds are allocated and administered as follows:

a. The department shall allocate a set-aside amount up to, but not to exceed, 10 percent of the total allocation for graduated sanction services for the state court administrator to pay the administrative costs of the graduated sanction services, including the costs of a court accountant auditor position established in each judicial district.

b. The state court administrator shall:

(1) Establish and implement a written job classification and pay schedule for the court accountant auditor positions; and

(2) Administer the set-aside for the eight judicial districts.

c. The department shall allocate the funds for each of the four graduated sanction programs, minus the administrative set-aside, among the eight judicial districts based on each district's respective portion of the statewide population of children as reported in current census data. The source of the census data shall be determined and agreed upon by the department and the chief juvenile court officers.

151.2(3) *Transfer of funds to a decategorization governance board for administration.* Funds allocated to a district for court-ordered services or graduated sanction services, less the administrative set-asides, may be transferred to a decategorization governance board for administration.

a. To initiate a transfer of funds to a decategorization governance board:

(1) The chief juvenile court officer shall submit to the chair of the decategorization governance board a written notice of intent to transfer the funds to the board. The chief shall include in the notice a statement identifying any special conditions or limitations to which the funds would be subject. If no statement identifying any special conditions or limitations to which the funds would be subject is included, then no special conditions or limitations apply.

(2) The chair of the decategorization governance board shall provide the chief juvenile court officer with a written statement of acceptance of the funds; otherwise the chief juvenile court officer shall not transfer the funds. When the chief juvenile court officer has identified special conditions or limitations that apply to the funds, the decategorization governance board chair's signature on the written statement of acceptance of the funds indicates agreement with the special conditions or limitations.

(3) The chief juvenile court officer shall submit the written request to transfer the funds and the written statement of acceptance to the department.

b. The department must receive a signed agreement transferring the funds before the department signs any contract using the funds.

c. The decategorization governance board may authorize the chief juvenile court officer to act on behalf of the decategorization governance board in the administration of the funds, but is not required to do so. An authorization from the decategorization governance board granting authority to the chief juvenile court officer to act on behalf of the decategorization governance board in the administration of the funds must be in writing and must be received by the department before the department representative signs any contract using the funds. The request and authorization to administer the funds may be included in the request and agreement to transfer the funds.

d. Funds transferred to a decategorization governance board for administration are subject to the same audit requirements as specified in 151.6(1).

151.2(4) *Availability of funds.* The chief juvenile court officers, the state court administrator, and the department shall monitor the availability of the court-ordered services funds to ensure that funds are available within each district throughout the state fiscal year. The chief juvenile court officers and the department shall monitor the availability of the graduated sanction services funds to ensure that the funds are available within each district throughout the state fiscal year.

a. The department shall provide to each court accountant auditor at the start of each state fiscal year a blank electronic report, known as the "Y" form, as well as a spreadsheet showing the amount of the district's allocations for graduated sanction services.

b. The state court administrator shall determine and provide to each district at the start of each state fiscal year the amount of the district's allocation for court-ordered services.

c. Each court accountant auditor shall:

(1) Enter the beginning annual allocation on the "Y" form for court-ordered services and for each graduated sanction service;

(2) Enter on the "Y" form each month the monthly expenditures and transfers of funds to and from each service; and

(3) Submit each month to the department's division of fiscal management the "Y" form showing the monthly balance of service funds, as well as the cumulative expenditures and fund transfers for each service for the district.

d. The department shall:

(1) Use the information provided by each court accountant auditor to prepare each month an electronic report, known as the Form Y Summary, showing the statewide balance of service funds, as well as the cumulative expenditures and fund transfers for each service for each district; and

(2) Distribute the Form Y Summary monthly to the state court administrator and to department and juvenile court services management.

e. The chief juvenile court officers, in consultation with the department or the state court administrator, shall reallocate funds as needed to ensure the availability of graduated sanction services and court-ordered services on a statewide basis throughout the state fiscal year.

f. If funding for either graduated sanction services or court-ordered services is exhausted in any district, the respective services within that district shall be discontinued.

441—151.3(232) Administration of juvenile court services programs within each judicial district. Each chief juvenile court officer is responsible for the administration of the court-ordered services and graduated sanction services within the judicial district. The chief juvenile court officer shall purchase court-ordered services and graduated sanction services on behalf of eligible children within the judicial district.

151.3(1) Planning for service needs.

a. Each chief juvenile court officer shall develop a process for determining:

(1) The service needs of the children within the district; and

(2) The mix of services to be provided to best meet the identified needs within the district.

b. Each chief juvenile court officer and service area manager shall develop, sign, and implement an annual plan for prioritizing and allocating decategorized funds within each department service area. The plan shall be known as the child welfare and juvenile justice plan.

c. Each chief juvenile court officer shall develop procedures to evaluate and improve the quality and effectiveness of the services being provided. The chief juvenile court officer shall make recommendations concerning changes in the child welfare system that are needed to ensure that children and families receive the services necessary to meet their unique needs. These recommendations may be incorporated into the annual child welfare and juvenile justice plan.

151.3(2) Eligible providers. The chief juvenile court officer shall purchase court-ordered services or graduated sanction services from public or private agencies, organizations, or eligible individuals. To be eligible to provide services, an individual shall meet one of the following criteria:

a. Have a federal identification number; or

b. Have a social security number for which the state accounting enterprise has determined that an employee/employer relationship with the state does not exist; or

c. Be paid an amount during a state fiscal year that does not exceed \$1,000 plus allowable expenses such as meals, lodging, and mileage per state fiscal year as determined according to state accounting enterprise procedure 240.102.

151.3(3) Allowable costs. The administrative and program requirements of this chapter include those costs specified below:

a. Reimbursement for mileage, meals, and lodging expenses involved in the transportation of the child shall not exceed the lower of the rates set by the state executive council or the provider's customary rate, unless the transportation is provided by a public officer or employee. A public officer or employee, other than a state officer or employee, is entitled to be paid for expenses as specified in the Iowa Code in an amount as determined:

(1) By the public officer's or employee's local governing board when the court order specifies that the public officer or employee is to provide the transportation. The allowable expenses for which sheriffs may be reimbursed are found at Iowa Code sections 70A.9 and 331.655.

(2) By the chief juvenile court officer when the court order does not specify that the public officer or employee is to provide the transportation.

b. For Medicaid-covered services, the provider shall be reimbursed at the same rate and duration as Medicaid reimburses under the fee schedule provided in 441—subrule 79.1(2) unless the chief juvenile court officer determines that a rate negotiated with the provider may be paid.

c. A provider with a purchase of service contract for a similar service shall be reimbursed at the rate of the purchase of service contract. A provider that does not have a purchase of service contract shall be reimbursed at a rate comparable to the rate reimbursed to providers that have purchase of service contracts.

d. Private insurance allowances may be supplemented up to, but shall not exceed, the amounts allowed in this subrule. Funds for court-ordered care and treatment or graduated sanction services shall not be used in lieu of private insurance.

e. A provider shall not be reimbursed at a rate that is greater than that allowed by administrative rules. Reimbursement paid to a provider shall be considered paid in full unless the county voluntarily agrees to pay the difference between the reimbursement rate and the actual costs of the service. When there are specific program regulations prohibiting supplementation, such as the prohibition of supplementation of Medicaid reimbursement, those regulations shall be applied to providers requesting supplemental payments.

151.3(4) Record keeping. The provider and juvenile court services shall maintain financial and service records for a period of five years following termination of services. The records are subject to audit.

a. Each provider shall maintain all the financial and service records used to submit or substantiate claims for reimbursement, including court orders as required and lists of the children served. The provider bears ultimate responsibility for the completeness and accuracy of the claim submitted as set forth in these rules.

b. Each provider shall maintain all the corresponding service and financial information necessary to document the provision of the service as agreed upon in the contract. When the contract identifies units of service to be provided, each provider shall maintain a case record or case file that documents the provision of the units of the contracted service for each individual child for whom a claim is made.

c. Each juvenile court officer shall maintain a case record for each child referred for graduated sanction service. Each juvenile court officer shall maintain a case file for each child who receives an ongoing service. The case record or case file shall include all the corresponding service information necessary to document that the contracted service was provided.

d. Each chief juvenile court officer shall ensure that an original court order supports the payment of any claim paid for court-ordered services.

e. Each chief juvenile court officer shall ensure that the district is accountable for payments, receipts, and retention of records as described in subrule 151.4(7).

151.3(5) Access to records. Each provider of court-ordered services or graduated sanction services shall make available upon request to juvenile court services, the department, the department of inspections and appeals, or the state auditor the service and financial records used to support or substantiate claims for reimbursement, including court orders and lists of children. The records shall be subject to audit by juvenile court services, the department, the department of inspections and appeals, or the state auditor.

441—151.4(232) Billing and payment. The chief juvenile court officer shall ensure that billing and payment are in compliance with department requirements and the requirements of the accounting policies and procedures manual of the department of administrative services, state accounting enterprise. A claim that meets the requirements of this chapter becomes a state liability on the date of a claim's accrual. The date of a claim's accrual is the date the service was provided, the end of the agreed-upon billing interval specified in the contract, or the date of a determination of liability for the claim.

151.4(1) Claim forms and instructions. The instructions and forms used for billing shall be available to the provider from each chief's juvenile court services office. Electronic versions of all forms are available.

a. *Court-ordered services.*

(1) The provider shall prepare a claim for court-ordered services on Form GAX, General Accounting Expenditure, and Form 470-1691, Claim for Juvenile Court Services Programs, or a facsimile thereof. An original, itemized invoice may be substituted for Form 470-1691.

(2) The provider shall attach a copy of the applicable court order with each initial claim for court-ordered services. Each subsequent claim shall include the first page of the applicable court order, or the case number of the applicable court order shall be entered on Form GAX or Form 470-1691.

b. Life skills, supervised community treatment, and tracking, monitoring, and outreach.

(1) The provider shall prepare a claim for life skills, supervised community treatment, and tracking, monitoring, and outreach on Form GAX, General Accounting Expenditure.

(2) The provider shall also submit Form 470-1691, Claim for Juvenile Court Services Programs, a facsimile thereof, an original, itemized invoice, or a copy of the provider's list of the children for whom the claim is made. The document submitted shall include the name of each child and the number of units of service provided to that child each month.

c. School-based supervision. The provider shall prepare a claim for school-based supervision on Form GAX, General Accounting Expenditure.

151.4(2) Preparation of claim. Form GAX, General Accounting Expenditure, shall be submitted with all claims. The Form GAX submitted shall not include claims for more than one fiscal year. The provider, as vendor, must enter on Form GAX:

- a.* The vendor code,
- b.* The vendor's name and mailing address,
- c.* The vendor's invoice date and number,
- d.* A short description of the item or service that was purchased,
- e.* Either the provider's social security number, federal identification number, or tax identification number, and
- f.* An original signature of the provider unless an original invoice is submitted.

151.4(3) Support of claim. The provider bears ultimate responsibility for the completeness and accuracy of each claim submitted. The provider must maintain a record of the days and times during which each service was provided for each child. The provider's record must correspond to the units billed.

151.4(4) Submittal of claims to juvenile court services. Providers shall submit claims to the chief juvenile court officer in the judicial district in which the service was provided. The provider shall submit the original Form GAX and any required supporting documents to the chief juvenile court officer for each claim.

a. Claims shall be submitted timely to allow the chief juvenile court officer to submit the claim to the department within 90 calendar days of the date of the claim's accrual.

b. To ensure payment from funds appropriated for the fiscal year, claims shall be submitted timely to allow the chief juvenile court officer to submit the claim to the department within 45 calendar days of fiscal year end, June 30.

151.4(5) Review and approval of claims. The chief juvenile court officer is responsible for accuracy and disposition of claims. The chief juvenile court officer shall verify the accuracy of the provider's billings and approve the claims.

a. Juvenile court services may complete Form GAX when the provider submits an original invoice or may enter the following information on Form GAX when the provider has omitted it from the form:

- (1) The name and mailing address of the agency or individual providing the services.
- (2) A short description identifying the specific services or item purchased. The description will be entered on the warrant sent to the provider.

b. To approve the claim, the chief juvenile court officer or designee shall sign Form GAX in the space titled, "order approved by." The signature shall be deemed as certification that the billed expenses were incurred, that the amounts are correct, and that payment should be made by the department.

151.4(6) Juvenile court services submittal of claims to department. The chief juvenile court officer shall prepare and submit claims to the department. Juvenile court services shall make the required number of copies for submittal and shall submit the required documents to the Department of Human

Services, Division of Fiscal Management, Bureau of Purchasing, Payments and Receipts, 1305 East Walnut Street, Des Moines, Iowa 50319-0114. The documents required to be submitted are as follows:

a. New contract. For the first claim submitted for a new contract, juvenile court services must submit:

- (1) Two copies of the signed contract.
- (2) Three copies of Form 470-0022, Pre-Contract Questionnaire.
- (3) The original and two copies of Form GAX, showing the contract number.

b. Ongoing contract. For subsequent claims for contract payment, juvenile court services shall submit the original and two copies of Form GAX, which shall include the following information:

- (1) The contract number.
- (2) The warrant number.
- (3) The paid date, which is the date the first claim was processed through the I-3 system and is stamped on the first warrant the provider receives through the contract.
- (4) The reference document number of the initial voucher of the series to which the contract is attached (the reference document number is the 11-digit number listed under “Departmental Reference Numbers” on the warrant, starting with “413-”).

(5) The payment number of the total contracted sequence, if known, such as “payment 7 of 12 payments.”

c. Contract amendment. For each contract amendment, juvenile court services must submit:

- (1) The original and two copies of Form GAX;
- (2) Two copies of the signed amendment; and
- (3) Three copies of Form 470-0022, Pre-Contract Questionnaire.

151.4(7) Claim records. The chief juvenile court officer shall have responsibility for retention of records, maintenance of records, and authorized access to records.

a. Juvenile court services shall retain one copy of the claim and supporting documentation as submitted to the department as well as any additional required supporting documentation submitted to juvenile court services by the provider. The copy of Form GAX and supporting documentation, as submitted to the department, as well as any additional required supporting documentation submitted to juvenile court services by the provider, are subject to audit.

b. Each chief juvenile court officer shall establish a system for retention of the records in an organized, audit-friendly manner. During the required retention period, the records and knowledgeable personnel must be accessible and available for the audit. All documents related to each other must be appropriately attached and organized in a manner that provides easy access.

151.4(8) Claim payment. The department shall reimburse providers for contract costs when claims are submitted according to the required procedures.

a. The bureau of purchasing, payments and receipts of the division of fiscal management shall process a claim through the state appeal board’s administrative process for approving outdated invoices when the department receives the claim:

- (1) More than 90 calendar days after the date of its accrual; or
- (2) More than 45 calendar days after the date of its accrual at fiscal year end, June 30.

b. If the claim cannot be processed through the state appeal board’s administrative process for approving outdated invoices, the claim must be submitted to the state appeal board for approval.

441—151.5(232) Appeals. If services are court-ordered, children who have been adversely affected by decisions made by juvenile court and their parents or guardians may appeal through procedures established pursuant to Iowa Code section 232.133.

441—151.6(232) District program reviews and audits. Each chief juvenile court officer shall establish procedures to review and audit the provision of the graduated sanction services to ensure that the requirements of this chapter and the contracts are met. The court accountant auditor as established according to subrule 151.2(2) shall conduct the reviews and audits.

151.6(1) Schedule. The department shall notify each chief juvenile court officer or designee of the providers for which a review and audit must be conducted. The department shall identify in the notice all other judicial districts that have a contract with the provider.

a. Annual on-site reviews and audits are required for any provider having one or more contracts with one or more judicial districts when the total annual value of the contracts is \$100,000 or more.

b. An on-site review and audit are required for each provider new to the district during the first year of the provider's contract with the district when the total annual value of the provider's contracts with the judicial district is \$50,000 or more.

c. Additional on-site reviews and audits are optional but may be considered appropriate by the chief juvenile court officer for providers, other than those described in paragraphs "*a*" and "*b*," based on factors such as:

- (1) Length of time provider has been in business.
- (2) Amount of time provider has offered the services being purchased.
- (3) Type of service or program being purchased.
- (4) Amount of money involved in the contract.
- (5) Whether other governmental entities contract with this provider.
- (6) Findings from previous audits by the district, the department, or other entities such as the state auditor's office.

151.6(2) Location. The reviews and audits shall take place at the sites where the program is operated and where necessary program and fiscal records are maintained.

151.6(3) Scope. The court accountant auditor shall review and audit the provider's service and financial records, including the client case records and case files, to ensure that the records contain the required documentation of the provision of the contracted service for each individual child for whom a claim is made. The reviews and audits shall include:

- a.* Contact with the client.
- b.* Review and audit of service billings and delivery of service.
- c.* Review and audit of provider standards, staff qualifications, case files and case records, progress reports, and billing and payment records.

151.6(4) Repayment. The chief juvenile court officer may seek repayment of claims paid for noncovered services or for services for which documentation is not established.

a. The chief juvenile court officer shall notify the provider in writing that a repayment is due. The written notice shall identify:

- (1) The claims;
- (2) The amounts of the claims that are not documented or substantiated; and
- (3) The amount of the repayment requested.

b. The provider shall repay the department the difference between the amount received and the amount established through the audit, not to exceed the amount paid by the state, when:

(1) The provider, upon audit, fails to verify or document the provision of covered services or costs in the amount for which a claim was paid or when the audit confirms claims paid for noncovered services; and

(2) Juvenile court services or the department makes a request for repayment.

c. The provider shall repay the department for the amount of any claims not supported by audit when:

(1) The provider fails to maintain adequate records for auditing purposes or fails to make records available for audit or when the records, upon audit, fail to support the claims submitted; and

(2) Juvenile court services or the department makes a request for repayment.

d. A provider that is adversely affected by the request for repayment may appeal using procedures established in 441—Chapter 7.

e. If the provider does not make payment within 45 days, the chief juvenile court officer shall submit to the department a copy of the notice to the provider for the department's review and further action if necessary.

151.6(5) Report. Each chief juvenile court officer shall submit to the department an annual report of the district's review and audit activities for each state fiscal year.

a. The annual report shall be submitted by December 31 following the end of the state fiscal year. This date may be extended upon the written request of the chief juvenile court officer to the department.

b. The annual report shall include a report of the results of the review and audit for each required audit as well as a summary of the findings of the reviews and audits conducted on any other providers receiving state or federal funds in the state fiscal year.

These rules are intended to implement Iowa Code section 232.141.

441—151.7 to 151.19 Reserved.

DIVISION II
COURT-ORDERED SERVICES

PREAMBLE

These rules prescribe the responsibilities of the chief juvenile court officers and the department of human services for the administration of court-ordered services. In addition, these rules prescribe a list of expenses that are eligible for reimbursement and a list of expenses that are ineligible for reimbursement. The lists are intended to be exhaustive.

441—151.20(232) Juvenile court services responsibilities. The chief juvenile court officer shall purchase court-ordered services for eligible children pursuant to the authority of a court order and the certification of the court.

151.20(1) The chief juvenile court officer shall have the opportunity to establish the availability of funds before a request for court-ordered services is presented to the court.

151.20(2) Any services that are provided without the signed approval of the chief juvenile court officer or the chief juvenile court officer's designee may be denied payment, unless there is an emergency or after-hours situation and no other provision exists for handling emergency or after-hours situations or transports.

151.20(3) A district or juvenile court shall not order any service that is a charge upon the state pursuant to Iowa Code section 232.141 if there are insufficient court-ordered services funds available in the district court distribution amount to pay for the service.

151.20(4) The chief juvenile court officer shall encourage use of the funds in the district's fiscal year fund allocation such that there are sufficient funds during the entire year to pay for all court-ordered services.

a. The chief juvenile court officer shall establish service priorities for spending the court-ordered services funds allocated to the district.

b. The chief juvenile court officer shall inform the state court administrator of potential shortfalls in the district's distribution amount and shall request the state court administrator to transfer funds between the districts' distribution amounts as prudent.

c. The chief juvenile court officer shall notify the state court administrator and the chief judge of the district in the event that the court-ordered services funds for the judicial district are exhausted.

441—151.21(232) Certification process. The chief juvenile court officer shall determine the certification of the court for each ordered service.

151.21(1) Application for court-ordered services. Any party intending to request court-ordered services funds shall complete an application and receive approval for the funding request from the chief juvenile court officer before making the request to the court.

a. The application form with instructions shall be available upon request from the office of each chief juvenile court officer.

b. The applicant shall have verified that there are no other alternative funding sources for the service.

c. The chief juvenile court officer may establish procedures for handling emergency or after-hours situations and for the handling of transports.

151.21(2) Determination. The chief juvenile court officer shall determine whether the requested service is eligible for reimbursement and shall certify that there are sufficient funds available to pay for the service. The chief juvenile court officer shall determine whether:

a. The requested service falls within the court-ordered services expenses defined in Iowa Code section 232.141, subsections (4) and (5), and subrule 151.22(1); and

b. There are sufficient funds in the district's fiscal year fund allocation to pay for the requested service.

151.21(3) Use of other funding sources. The department, in cooperation with the chief juvenile court officers, shall ensure that the funds allocated for court-ordered services are spent only after all other reasonable actions have been taken to use other funding sources. Services are not eligible for reimbursement when another payment source is available.

a. Medicaid. The department shall maximize the use of funds that may be available from the Medicaid program, including coverage for early and periodic screening, diagnosis, and treatment and for psychiatric medical institutions for children (PMIC), before requesting assistance through the court-ordered services fund. However, medical cost sharing for the one-time payment per court order of a deductible amount or a coinsurance amount for treatment specified in a court order is an allowable expense that may be paid through the court-ordered services fund when insurance or Medicaid is then available to pay the remainder of the cost.

b. Other third-party payments. The department shall recover payments from any third-party insurance carrier that is liable for coverage of the services, including health insurance coverage. The department shall submit claims to third-party insurance carriers liable for coverage of the services before the claims are submitted for payment through the court-ordered services fund.

c. The date of a medical claim's accrual for reimbursement through court-ordered services is the date the claim becomes a state liability. For example, a claim becomes a state liability on:

(1) The date of a court order for a contested claim; or

(2) The date of a determination by Medicaid or private insurance that Medicaid or private insurance denies partial or full payment for care and treatment for which an application has been made.

d. If eligible for reimbursement through the court-ordered services fund, medical claims that are submitted to, but are denied by, Medicaid or private insurance shall be paid at a rate not to exceed the rate set by Medicaid.

151.21(4) Certification. The chief juvenile court officer or designee shall approve or disapprove the request for funds and shall sign and return the application to the applicant.

a. If the request is disapproved, the applicant must approach another service.

b. If the request is approved, the service plan may be presented to the court for a court order to be issued for the services.

151.21(5) Allowable rates not available. When the department has been unable to establish an allowable rate of reimbursement for a service or a provider, the chief juvenile court officer shall negotiate a reimbursement rate with the provider to obtain the service at a reasonable cost based on available community or statewide rates.

441—151.22(232) Expenses. The following lists of expenses that are either eligible or ineligible for reimbursement from the court-ordered services fund are intended to be exhaustive. Billings for services not listed in subrule 151.22(1) shall not be paid except as provided in subrule 151.22(3).

151.22(1) Expenses to be reimbursed. The expenses for which reimbursement shall be made include:

a. Expenses, other than salary, incurred by a person ordered by the court, other than a juvenile court officer, in transporting a child to or from a place designated by the court, including mileage, lodging and meals.

b. The expense of care or treatment ordered by the court whenever the minor is placed by the court with someone other than the parents; or a minor is given a physical or mental examination or treatment under order of the court; or, upon certification by the department, a minor is given physical or mental examinations or treatment with the consent of the parent, guardian or legal custodian relating to a child abuse investigation and no provision is otherwise made by the law for payment for the care, examination, or treatment of the minor. Care and treatment expenses for which no other provision for payment is made by law that shall be reimbursable include court-ordered:

- (1) Individual services for the child separate from a family's treatment plan.
- (2) Diagnosis and evaluation on an outpatient basis unless the diagnosis and evaluation is provided by a person or agency with a contract with the department for that service for which the child is eligible.
- (3) An evaluation of a child in a residential facility.
- (4) Inpatient (hospital) evaluation of a child previous to disposition.
- (5) Medical treatment for a child. This includes medical treatment while in detention in a facility used for detention when the medical treatment is court-ordered.
- (6) Drug treatment, testing and care for a child.
- (7) Intensive in-home supervision and monitoring and alternatives to shelter care unless a person or agency that has a contract with the department provides the service for which the child is eligible.
- (8) Evaluation of parents pursuant to a CINA adjudication unless the diagnosis and evaluation is provided by a person or agency with a contract with the department for that service for which the child is eligible.
- (9) One-to-one supervision of a child not in a detention facility unless the service is provided by a person or agency with a contract with the department for that service for which the child is eligible.
- (10) Physical or mental examinations ordered pursuant to Iowa Code section 232.49 or 232.98 except those set forth in paragraph 151.22(2) "c" or those eligible for payment pursuant to Iowa Code chapter 249A.

(11) Services ordered under family in need of assistance proceedings unless a person or agency with a contract with the department provides the service for which the child is eligible.

(12) Expenses for all educational testing or programming for children, not weighted as special education students, who attend an on-campus school in an out-of-state facility.

(13) Expenses for educational testing or programs related to a general equivalency diploma (GED) or for credit hours, when the expenses are not required to be paid by the state.

c. Medical cost sharing for payment of one deductible amount or a coinsurance amount when Medicaid or private insurance is then available to pay the remainder of the cost.

151.22(2) Expenses not reimbursed. Expenses that are excluded from reimbursement from court-ordered services funds because another source is available to pay for the service include:

- a. Foster care (including shelter care). Payment provision is Iowa Code section 234.35.
- b. All charges for which the county is obligated by statute to pay including:
 - (1) Care and treatment of patients by any state mental health institute. Payment provision is Iowa Code section 230.20(5).
 - (2) Care and treatment of patients by either of the state resource centers or by any other facility established under Iowa Code chapter 222. Payment provision is Iowa Code section 222.60.
 - (3) Care and treatment of patients by the psychiatric hospital at Iowa City. Payment provision is Iowa Code chapter 225.
 - (4) Care and treatment of persons at the alcoholic treatment center at Oakdale or any other facility as provided in Iowa Code chapter 125. Payment provision is Iowa Code section 125.44.
 - (5) Care of children admitted or committed to the Iowa juvenile home at Toledo. Payment provision is Iowa Code section 233B.14.
 - (6) Clothing, transportation, and medical or other service provided to persons attending the Iowa Braille and Sight-Saving School, the Iowa School for the Deaf, or the state hospital-school for severely handicapped children at Iowa City for which the county becomes obligated to pay pursuant to Iowa Code sections 263.12, 269.2, and 270.4 to 270.7.

(7) Expenses for detention in a facility used for detention. The payment provision is Iowa Code section 232.142.

(8) Care and treatment of persons placed in the county hospital, county care facility, a health care facility as defined in Iowa Code section 135C.1, subsection 6, or any other public or private facility in lieu of admission or commitment to a state mental health institute, resource center, or other facility established pursuant to Iowa Code chapter 222. Payment provisions are Iowa Code sections 222.50, 230.1 and 233B.14.

c. Child-abuse photos and X-rays. Payment provision is Iowa Code section 232.77.

d. Any expenses set forth in subrule 151.22(1) above, which qualify for payment pursuant to Iowa Code chapter 249A.

e. Expense of a child sexual abuse examination. Payment provision is Iowa Code section 915.41.

f. Expense of child day care. Payment provision is Iowa Code section 234.6.

g. Expense of in-home treatment services. Payment provision is 441—Chapters 78, 79, and 83.

h. Expense of homemaker-home health aide services. Payment provision is department of public health rules 641—Chapter 80.

i. Expenses for all educational testing or programming required to be paid by the state, except for juveniles who attend an on-campus school in an out-of-state facility and who are not weighted as special education students. The payment provision is Iowa Code chapter 256.

j. Expenses, except for the allowable medical cost sharing, for all court-ordered counseling and treatment for adults, including individual, marital, mental health, substance abuse and group therapy. The payment provision is private insurance, Medicare, Medicaid, or other resources consistent with Medicaid and social services eligibility and Iowa Code chapter 249A.

k. Expenses, except for the allowable medical cost sharing, for psychiatric medical institutions for children (PMIC). The payment provision is private insurance, Medicare, Medicaid, or other resources consistent with Medicaid and social services eligibility and Iowa Code chapter 249A.

151.22(3) Services not listed. If a court orders a service not currently listed in subrule 151.22(1), the chief juvenile court officer shall review the order and shall consult with the department. If reimbursement for the service expense is not in conflict with current law or administrative rules and meets the criteria for certification of the court, the chief juvenile court officer shall authorize reimbursement to the provider.

These rules are intended to implement Iowa Code section 232.141.

441—151.23 to 151.29 Reserved.

DIVISION III
GRADUATED SANCTION SERVICES

PREAMBLE

The graduated sanction services are early intervention and follow-up services to be provided to children adjudicated delinquent and to children who have been referred to juvenile court services for a delinquency violation or who have exhibited behaviors likely to result in a juvenile delinquency referral. The services are directed to enhance personal adjustment to help the children transition into productive adulthood and to prevent or reduce criminal charges, out-of-home placement, and recidivism. The services are provided in the child's home community.

The graduated sanction services are life skills, school-based supervision, supervised community treatment, and tracking, monitoring, and outreach. Together this mix of services and the flexibility allowed in tailoring the services to meet specific needs offer a choice of treatment to meet the specific needs of the child.

441—151.30(232) Life skills. “Life skills” means individual or group instruction which includes, but is not limited to, specific training to develop and enhance personal skills, problem solving, accountability, acceptance of responsibility, victim empathy, activities of daily living, and job skills.

151.30(1) Service eligibility. Children shall be eligible for life skills services without regard to individual or family income when they are adjudicated delinquent or are determined by a juvenile court officer to be at risk and to be in need of the service provided by a life skills program. Juvenile court services shall maintain in the child’s case record or case file documentation of the child’s adjudication or at-risk status as well as the child’s need for services.

a. The chief juvenile court officer shall establish written procedures for screening and approving referrals for life skills services and make the procedures available to the district’s juvenile court officers.

b. The juvenile court officer shall determine the child’s need for individual or group instruction in any of the life skills service components and shall refer the child for the service.

c. The chief juvenile court officer may approve life skills services for up to six consecutive months at a time, except that service approval shall not extend beyond the current fiscal year unless a contract is in effect to assume the cost for the services provided in the next fiscal year. The officer shall reevaluate the child’s eligibility and need for these services in accordance with procedures established by the respective juvenile court services district.

d. Referrals shall not be made or accepted when funds for the program are not available.

151.30(2) Service components.

a. Life skills components include specific training to develop and enhance:

(1) Personal skills, including anger management, stress reduction, and self-esteem.

(2) Rescinded IAB 11/9/05, effective 1/1/06.

(3) Problem solving.

(4) Accountability and acceptance of responsibility.

(5) Victim empathy.

(6) Activities of daily living.

(7) Job skills including job-seeking skills as well as training for specific jobs and on-the-job training experiences.

b. The contract must specify what is required of the provider.

151.30(3) Service referral and follow-up. The juvenile court officer shall:

a. Determine which service provider can best meet the child’s needs.

b. Refer the child to the provider.

c. Assist in the child’s transition to receive the service.

d. Follow up after the service has been provided.

151.30(4) Monitoring of service delivery. The juvenile court officer shall monitor the delivery of life skills services to children for whom the officer is responsible.

a. The juvenile court officer shall review provider progress reports and maintain contact with the child, the child’s family, the provider, and other community agencies to adequately assess the child’s progress and need for service.

b. The juvenile court officer shall report problems in service delivery to the chief juvenile court officer.

c. The provider, the child, or the child’s representatives may report problems in service delivery to the chief juvenile court officer.

151.30(5) Billable unit and rate setting. Rates for life skills services shall be established through an agreement between the provider and the chief juvenile court officer based on the provider’s proposed budget. Rates may vary among providers for various types of life skills services. The billable unit and unit costs shall be specified in the contract.

a. Life skills service shall be billed on the basis of units of instruction provided to eligible children during specified time frames.

b. The life skills instruction may be provided on an individual or group basis. See paragraph 151.35(2) “c” for rate-setting requirements when more than one child is served at a time.

c. The provider may incorporate the expenses for instructional materials into the service unit cost or may identify the expenses for instructional materials in an attachment to the contract to be billed separately from the unit cost.

d. Rescinded IAB 11/9/05, effective 1/1/06.

151.30(6) Provider standards. Providers shall have a contract with juvenile court services and the department for life skills services and agree to abide by all required instructional, reporting, rate-setting, and billing and payment procedures for life skills services. The chief juvenile court officer shall review provider staff qualifications and training activities. Providers of life skills services shall meet all of the following conditions. Providers shall:

a. Be selected and approved by the chief juvenile court officer or designee within each judicial district to provide life skills services.

b. Use staff who, in the opinion of the chief juvenile court officer, have the necessary training and experience to provide quality services on the topic about which they will be delivering instruction.

c. Use a curriculum approved by the chief juvenile court officer for life skills.

d. Have the educational and instructional ability, as determined by the chief juvenile court officer, to deliver life skills services to eligible children in the settings most suited to each child's needs.

151.30(7) Provider progress reports.

a. Providers of life skills shall submit progress reports on each child receiving services to the assigned juvenile court officer at intervals specified in the contract. The contract shall specify progress reports not more than one month after services are initiated and at the termination of service. Progress reports shall describe the specific instruction provided, the child's attendance, response to instruction, and progress toward achieving desired goals and objectives identified by the provider and referral source.

b. The juvenile court officer shall file the provider progress report in the child's case file.

c. Rescinded IAB 11/9/05, effective 1/1/06.

151.30(8) Outcome measures. Each contract for purchase of life skills services shall contain a section to inform the provider that juvenile court services and the department shall track the outcome of the service provision following each child's discharge from the service received through the contract.

a. Juvenile court services and the department shall collaborate to determine the criteria and data needed to track and record the outcomes.

b. The provider shall report data as requested by juvenile court services.

c. Juvenile court services shall determine whether the child has reoffended within the 12-month period following the date of discharge from life skills. Service to a child shall be considered successful if the child has not been referred to juvenile court services for a law violation during the 12-month period following discharge from life skills.

d. Data collected on the children served and discharged shall be used to establish or modify a baseline for the provider and for the service. The data shall be used to develop information to make decisions regarding service provision and contracting.

441—151.31(232) School-based supervision. "School-based supervision" means a program that provides for salaried staff, known as juvenile court school liaisons, to be hired by providers. The juvenile court school liaisons provide on-site services at middle and high schools to children experiencing truancy or other behavior problems at school and at home or in the community.

151.31(1) Service eligibility.

a. Children shall be eligible for school-based supervision services without regard to individual or family income when they are adjudicated delinquent or adjudicated a child in need of assistance or are determined by a juvenile court officer or school official to be at risk and in need of school-based supervision services. Documentation of the adjudication or at-risk status as well as the need for services shall be maintained by the juvenile court school liaison in the child's case record or case file.

b. The chief juvenile court officer shall establish written procedures for screening and approving referrals for school-based supervision services. The written procedures for screening and approving referrals shall be made available to the juvenile court school liaisons and to the district's juvenile court officers.

c. Referrals shall not be made or accepted when funds for the program are not available.

151.31(2) Service components.

a. Juvenile court school liaisons assist with behavior and classroom management, conflict resolution, school attendance, and violence prevention. Services provided may include, but are not limited to, dealing with misbehavior and truancy on an immediate basis, providing family support services such as outreach and education, performing juvenile court intake functions under the supervision of the chief juvenile court officer, and promoting resource development to meet most effectively the needs of at-risk youth.

b. Each school-based supervision program shall have established procedures for communication and for maintaining records on individual children receiving assistance. The procedure shall include methods for the timely communication of critical information between juvenile court school liaisons and juvenile court services, the department, and school officials; assurances that child abuse allegations shall be reported promptly in accordance with applicable Iowa statutes; and systems to safeguard the confidentiality of the child's records.

151.31(3) Service referral and follow-up. The juvenile court officer, department staff, or school personnel shall:

a. Determine when a service referral should be made to best meet the child's needs.

b. Refer the child to the provider.

c. Assist in the child's transition to receive the service.

d. Follow up after the service has been provided.

151.31(4) Monitoring of service delivery.

a. The juvenile court officer and school personnel shall monitor the delivery of school-based supervision services to children for whom the officer is responsible.

b. The juvenile court officer and school personnel shall report problems in service delivery to the chief juvenile court officer.

c. The juvenile court school liaison, the child, or the child's representatives may report problems in service delivery to the chief juvenile court officer.

151.31(5) Billable unit and rate setting. The school-based supervision program is used to hire salaried staff, through a contract with a provider, to provide school-based supervision. The cost of the service is the cost of the salary and administrative expenses identified in the contract for which the department is billed, generally monthly or quarterly.

a. The contract shall define the rate and schedule to be used for submitting a claim for salary and related administrative expenses.

b. School-based supervision provides short-term or long-term service to children. The juvenile court school liaison shall maintain a list (roster), by month, of the individual children to whom service is provided. The juvenile court school liaison shall have face-to-face or verbal contact with each child whose name appears on the roster. The list shall include the name of the child and the referral source.

(1) The school shall maintain a copy of the list and the claim. Each claim is validated by the list of children served during each month the school is in session. The list and the claim are subject to audit.

(2) The juvenile court school liaison is not required to list the names of children receiving group services.

(3) The juvenile court school liaison and school are not required to maintain or submit lists of children served for those months covered by a school employee contract for which the salary is prorated when school is not in session and no service is provided. The prorated salary arrangement shall be described in the contract.

c. School-based supervision rates are based on directives in annual legislation for the school-based appropriation as well as budget and rate-setting procedures within each school district. Funds allocated to the department and administered by juvenile court services shall be matched with funds committed from the local school district where the program is established. The chief juvenile court officer shall negotiate the match rate with the school board's authorized designee.

(1) The amount of dollars each chief juvenile court officer may use for school-based supervision is equal to the judicial district's current school-based supervision allocation plus an amount from the

court-ordered services allocation. The total amount available from the court-ordered services allocation is equal to 50 percent of the school-based supervision allocation available for state fiscal year 1998 or \$580,000. The state court administrator shall determine the amount from the court-ordered services allocation available to each district each year based on each district's respective portion of the statewide population of children as reported in current census data.

(2) The chief juvenile court officer shall transfer an amount, as necessary and allowable, to the school-based supervision allocation from the court-ordered services allocation so that the school-based supervision share of the program cost of each contract equals the agreed-upon match amount for each contract.

(3) The contract shall specify the maximum percentage of the program cost that shall be paid from the school-based supervision funds as well as the minimum percentage of the program cost that shall be paid by the school district.

151.31(6) *Selecting schools for programs.* The chief juvenile court officer of each judicial district shall be responsible for selecting school-based programs for funding and for managing the judicial district's school-based supervision allocation to ensure that resources are targeted effectively among schools within the district. All applications for funding and subsequent contracts shall contain funding commitments from the local school district for the local school district's share of program costs.

a. The chief juvenile court officer may elect to develop an intergovernmental 28E agreement with the school district, or the school district may request that a contract be developed with an independent provider pursuant to a competitive bid.

b. The funding arrangements shall be described in the contract.

c. Each contract shall contain:

(1) A description of the school district and specific schools in which the supervision program shall be implemented, including a description of why these schools were targeted as needing the program.

(2) A description of the proposed school-based supervision program to be implemented, including the referral process for the child, eligibility determination, service denial, reduction, or termination, and appeal procedures. This description may be included in the contract or may be included as an attachment.

(3) A description of the number of staff to be employed in the program, including the job description, staff qualifications, procedures for training and supervising staff, and methods for monitoring the program. A minimum of a bachelor of arts or a bachelor of science degree in the behavioral sciences or related field is required unless the chief juvenile court officer and the school agree that an associate degree is acceptable.

(4) A description of the record-keeping and statistical reporting procedures to be used by the program.

151.31(7) *Provider progress reports.*

a. School-based supervision programs shall maintain information and statistics that shall include, at a minimum, the service and financial records used to support or substantiate claims for reimbursement and, for the individual children referred for service, the total number of children served as well as educational and behavioral outcomes including attendance, grades, and student conduct.

b. Each school with a school-based supervision program shall prepare a progress report summarizing information about the program and shall submit the report to the chief juvenile court officer. The format and time for submitting these reports shall be specified in the contract.

151.31(8) *Outcome measures.* Each contract shall contain a section to inform the provider that juvenile court services and the department shall track the outcome of the service provision for each child who is served through the contract and meets predetermined contact criteria.

a. Juvenile court services and the department shall collaborate to determine preservice and postservice measures needed to track and record outcomes such as attendance, truancy, tardiness, suspensions, law violations, and grade-point average.

b. The juvenile court school liaison shall report data as requested by juvenile court services.

c. Data collected on the children shall be used to establish or modify a baseline for the provider and for the service. The data shall be used to develop information to make decisions regarding service provision and contracting.

441—151.32(232) Supervised community treatment. “Supervised community treatment” means a program that provides supervised educational support and treatment during the day to children who are experiencing social, behavioral, or emotional problems that place them at risk of group care or state institutional placement. A supervised community treatment program for a child may be funded from multiple sources, but the funding sources for components of the service may not duplicate or overlap payment or service activities so as to pay for the same or parts of the same service twice or pay for overlapping services. A program whose components and activities are funded from multiple sources must be capable of tracking the receipt and expenditure of funds for the components and activities, and these funding streams must be described in the contract.

151.32(1) Service eligibility. Children shall be eligible for supervised community treatment services without regard to individual or family income when they are adjudicated delinquent or are determined by a chief juvenile court officer to be at risk and to be in need of service provided by a supervised community treatment program. Juvenile court services shall maintain documentation in the child’s case file of the adjudication or at-risk status as well as of the need for services.

a. The chief juvenile court officer shall establish written procedures for screening and approving referrals for supervised community treatment services and shall make the procedures available to the district’s juvenile court officers.

b. The juvenile court officer shall determine the child’s need for supervised community treatment and shall refer the child for service.

c. The child shall not require more extensive treatment than is provided in the supervised community treatment program.

d. The chief juvenile court officer may approve supervised community treatment services for up to six consecutive months at a time, except that service approval shall not extend beyond the current fiscal year unless a contract is in effect to assume the cost for the services provided in the next fiscal year. The officer shall reevaluate the child’s eligibility and need for these services in accordance with the procedures established by the chief juvenile court officer.

e. Referrals shall not be made or accepted when funds for the program are not available.

151.32(2) Service components. Supervised community treatment programs provide treatment to children as well as an opportunity for children to participate in state-funded educational programming. Supportive therapy or counseling and skill development services may be provided through this program to the child’s family.

a. Supervised community treatment programs may be co-located with school programs. Although the costs of the state-funded educational programming shall not be funded through the supervised community treatment appropriation, programs shall be developed so that there is close coordination between the treatment and the state-funded educational components.

b. Supervised community treatment programs shall include one or more of the following components:

(1) Skill-building services focusing on social skills, recreational activities, employment readiness, independent living, and other areas related to a child’s treatment needs.

(2) Individual, group, and family therapy and counseling as determined appropriate by the program director and referral source. Staff that provide individual, group, or family therapy shall meet applicable state licensing standards.

(3) Snacks and meals as necessary during the non-state-funded educational portion of the program day.

(4) Supervision and support services, such as transportation to the non-state-funded educational program, family outreach, telephone contact, and electronic monitoring of children.

(5) Aftercare service planning upon admission, so that timely aftercare services are available upon discharge, if needed.

(6) Supervision and support services when necessary to help children transition out of the program.

c. The contract must specify the responsibilities of the provider.

151.32(3) Service referral and follow-up. The juvenile court officer shall:

a. Determine which service provider can best meet the child’s needs.

- b. Refer the child to the provider.
- c. Assist in the child's transition to receive the service.
- d. Follow up after the service has been provided.

151.32(4) *Monitoring of service delivery.* The juvenile court officer shall monitor the delivery of supervised community treatment services to children for whom the officer is responsible.

a. The juvenile court officer shall review provider progress reports and maintain contact with the child, the child's family, the provider, and other community agencies to adequately assess the child's progress and need for service.

b. The juvenile court officer shall report problems in service delivery to the chief juvenile court officer.

c. The provider, the child, or the child's representatives may report problems in service delivery to the chief juvenile court officer.

151.32(5) *Billable unit and rate setting.* Rates for supervised community treatment shall be established through an agreement between the provider and the chief juvenile court officer, based on the provider's proposed budget. The billable unit and costs shall be specified in the contract.

a. Supervised community treatment shall be billed on the basis of units of service provided to eligible children during specified time frames.

b. The supervised community treatment service may be provided on an individual or group basis. See paragraph 151.35(2) "c" for rate-setting requirements when more than one child is served at a time.

c. Rates shall be established and reimbursed based on delivery of one-half hour, one hour, or per diem of specified supervised community treatment service.

d. The rate for any supervised community treatment service delivered in the same room by staff with the same qualifications as any other comparable treatment or supportive service program shall be the applicable rate established for the other comparable treatment or supportive services program.

e. Different rates may be established for the different components of the supervised community treatment program, and different sources of payment may be used for the different components.

(1) Provision may be made in the contract for the billing and payment of telephone or transportation costs to be included in the unit cost, or the provider may, in an attachment to the contract, identify the expenses to be billed separately from the unit cost.

(2) Telephone calls may be reimbursed according to receipts or at a set rate per call.

151.32(6) *Provider standards.* Providers of supervised community treatment shall meet all of the following conditions. Agencies or organizations shall:

a. Have a current purchase of services or rehabilitative treatment and supportive services contract with the department.

b. Be selected by the chief juvenile court officer of the judicial district within the geographic area where the program is located to provide supervised community treatment services within all or a portion of the judicial district.

c. Agree to provide services in compliance with the programmatic standards established by the rules of this division.

d. Enter into a contract with juvenile court services and the department that establishes expectations, rates, and billing and payment procedures for the supervised community treatment program.

e. Agree to report supervised community treatment program costs separately on all cost reports.

f. Agree to comply with higher staff qualifications for specific components of these programs when the chief juvenile court officer outlines the expected qualifications in the request for proposal and program contract. In addition:

(1) The minimum standard for staff qualifications for staff employed to deliver services in a supervised community treatment program shall be graduation from high school or possession of a GED certificate and the equivalent of one year of full-time experience in the delivery of human services in a public or private agency.

(2) Providers shall ensure that staff has experience in working with the target population of children and shall provide planned opportunities for ongoing staff development and in-service training.

(3) Staff qualifications shall be monitored by juvenile court services as part of monitoring the contract.

151.32(7) Provider progress reports. Providers of supervised community treatment services shall prepare an initial treatment plan in consultation with the referral source within 30 days of the child's admission and shall prepare a minimum of quarterly progress reports on each child receiving services.

a. Additional reports may be prepared when requested by the juvenile judge or the child's juvenile court officer.

b. All reports shall be submitted to the juvenile court officer responsible for monitoring the child's progress. All reports shall, at a minimum, describe the child's attendance, adjustment, and progress in achieving the desired goals and objectives established in the treatment plan.

c. Rescinded IAB 11/9/05, effective 1/1/06.

151.32(8) Outcome measures. Each contract shall contain a section to inform the provider that juvenile court services and the department shall track the outcome of the service provision following each child's discharge from the service received through the contract.

a. Juvenile court services and the department shall collaborate to determine the criteria and data needed to track and record the outcomes.

b. The provider shall report data as requested by juvenile court services.

c. The department shall make a determination six months following each child's discharge as to whether the child is in foster family care, group care, or institutional placement. Service to a child shall be considered successful if:

(1) The child is living at home even when less intensive services are provided; or

(2) The child is in supervised apartment living.

d. Data collected on the children served and discharged shall be used to establish or modify a baseline for the provider and for the service. The data shall be used to develop information to make decisions regarding service provision and contracting.

441—151.33(232) Tracking, monitoring, and outreach. Tracking, monitoring, and outreach are undertaken to provide individualized and intensive one-to-one intervention to a child to help the child establish positive behavior patterns and to help the child maintain accountability in a community-based setting.

151.33(1) Service eligibility. Children shall be eligible for tracking, monitoring, and outreach services without regard to individual or family income when they are adjudicated delinquent or are determined by a chief juvenile court officer to be at risk and to be in need of assistance in maintaining accountability in a community-based setting. Juvenile court services shall maintain in the child's case record or case file documentation of the child's adjudication or at-risk status and need for services.

a. The chief juvenile court officer shall establish written procedures for screening and approving referrals for tracking, monitoring, and outreach services and shall make the procedures available to the district's juvenile court officers.

b. The juvenile court officer determines the child is in need of services as evidenced by one of the following situations:

(1) Schools, parents or community organizations, due to concerns or reports of delinquent activities, have completed reports that indicate the need for monitoring and guidance of a child.

(2) A petition has been filed alleging delinquent behavior.

(3) Juvenile court services action has been taken including, but not limited to, informal adjustment agreements, adjudication and disposition proceedings.

c. The chief juvenile court officer may approve tracking, monitoring, and outreach services for up to six consecutive months at a time, except that service approval shall not extend beyond the current fiscal year unless a contract is in effect to assume the cost for the services provided in the next fiscal year. The officer shall reevaluate the child's eligibility and need for these services in accordance with procedures established by the respective juvenile court services district.

d. Referrals shall not be made or accepted when funds for the program are not available.

151.33(2) Service components. Tracking, monitoring, and outreach services may be provided seven days a week, up to 24 hours a day, and may include multiple daily contacts with the child.

a. The service may include any one component or combination of tracking, monitoring, or outreach components as needed

(1) "Tracking" means observing and following a child's actions.

(2) "Monitoring" means using data from tracking activity to determine that the child's actions include preselected or approved destinations.

(3) "Outreach" means guidance and advocacy.

b. Tracking and monitoring activities are directed toward the child's maintaining accountability and may include multiple daily contacts with the child through direct personal contact, telephone, or electronic monitoring devices.

c. Outreach activities provide guidance and advocacy for the child and may include individualized interventions with the child's family as well as assistance in accessing the following types of resources:

(1) Referral to community organizations.

(2) Health services (physical and mental).

(3) Education.

(4) Employment.

(5) Legal.

(6) Case conferences and services planning.

(7) Diagnostic assessment services.

(8) Family competency-building services.

d. Outreach activities may also include recreation and transportation when guidance and advocacy are a part of the service component.

e. The provider may provide tracking, monitoring, and outreach activities or may provide tracking and monitoring information to the juvenile court officer, who then determines the need for outreach. The contract must specify what is required of the provider.

151.33(3) Service referral and follow-up. The juvenile court officer shall:

a. Determine which service provider can best meet the child's needs.

b. Refer the child to the provider.

c. Assist in the child's transition to receive the service.

d. Follow up after the service has been provided.

151.33(4) Monitoring of service delivery. The juvenile court officer shall monitor the delivery of tracking, monitoring, and outreach services to children for whom the officer is responsible.

a. The juvenile court officer shall review provider progress reports and maintain contact with the child, the child's family, the provider, and other community agencies to adequately assess the child's progress and need for service.

b. The juvenile court officer shall report problems in service delivery to the chief juvenile court officer.

c. The provider, the child, or the child's representatives may report problems in service delivery to the chief juvenile court officer.

151.33(5) Billable unit and rate setting. The unit of service shall be defined as a quarter-hour, half-hour, hour, or day of service to the child, as specified in the contract.

a. The reimbursement rate shall represent actual costs.

b. For telephone contact monitoring, juvenile court services may choose to reimburse providers according to receipts or at a set rate per call.

151.33(6) Provider standards. Providers of tracking, monitoring, and outreach shall meet all of the following conditions. Providers shall:

a. Have a current contract with juvenile court services and the department in which they agree to accept the unit rate and agree to provide services in compliance with the programmatic requirements for tracking, monitoring, and outreach services.

b. Be selected by the chief juvenile court officer of the judicial district within the geographic area where the program is located to provide tracking, monitoring, and outreach services within all or a portion of the judicial district.

c. Enter into a contract with juvenile court services and the department that establishes expectations, rates, and billing and payment procedures for the tracking, monitoring, and outreach services.

d. Agree to report tracking, monitoring, and outreach costs separately on all cost reports.

151.33(7) Provider progress reports.

a. Providers of tracking, monitoring, and outreach services shall prepare and provide written progress reports at least monthly for each child receiving services for three months or less.

b. Providers of tracking, monitoring, and outreach services shall:

(1) Prepare and provide an initial treatment plan in consultation with the referral source within 30 days of each child's admission for ongoing service activities; and

(2) Prepare and provide written progress reports at least quarterly.

c. Additional reports shall be prepared when requested by the juvenile judge or the child's juvenile court officer. All reports shall be submitted to the juvenile court officer responsible for monitoring the child's progress.

d. All reports for children who receive ongoing service activities shall, at a minimum, describe the child's compliance, adjustment, and progress in achieving the desired goals and objectives established in the treatment plan.

e. Rescinded IAB 11/9/05, effective 1/1/06.

151.33(8) Outcome measures. Each contract shall contain a section to inform the provider that juvenile court services and the department shall track the outcome of the service provision following each child's discharge from the service received through the contract.

a. Juvenile court services and the department shall collaborate to determine the criteria and data needed to track and record the outcomes.

b. The provider shall report data as requested by juvenile court services.

c. Juvenile court services shall determine whether the child has reoffended within the 12-month period following the date of discharge from tracking, monitoring and outreach. The service to a child shall be considered successful if the child has not been referred to juvenile court services for a law violation during the 12-month period following the child's discharge from tracking, monitoring and outreach.

d. Data collected on the children served and discharged shall be used to establish or modify a baseline for the provider and for the service. The data shall be used to develop information to make decisions regarding service provision and contracting.

441—151.34(232) Administration of graduated sanction services. The chief juvenile court officer shall purchase graduated sanction services for eligible children pursuant to a contract with juvenile court services and the department.

151.34(1) Requirements. Each chief juvenile court officer shall:

a. Establish minimum qualifications for providers of graduated sanction services;

b. Establish criteria and procedures for determining when and where to develop contracts with providers to best meet the service needs of the children in the judicial district; and

c. Require providers to comply with applicable professional standards.

151.34(2) Referrals. Each chief juvenile court officer shall develop procedures for eligible children to receive graduated sanction services.

a. Children who are adjudicated delinquent or who are at risk shall apply or be referred for graduated sanction services through the juvenile court services office.

b. School officials may refer adjudicated or at-risk children for school-based supervision services in schools where school-based supervision programs are established.

151.34(3) Adverse actions. Graduated sanction services shall be reduced or terminated when:

a. The court orders discontinuation of services; or

- b. The juvenile court officer determines that there is no longer a need for service; or
- c. The juvenile court officer determines that maximum benefit of service provision has been achieved; or
- d. The funds allocated or appropriated for these services are exhausted.

441—151.35(232) Contract development for graduated sanction services. The chief juvenile court officer shall have the responsibility to purchase graduated sanction services (life skills; school-based supervision; supervised community treatment; or tracking, monitoring, and outreach).

151.35(1) Contracting process.

a. The chief juvenile court officer for each judicial district shall develop the process for contracting for graduated sanction services. The process shall include:

- (1) The rationale for selecting which services to provide;
- (2) The provider selection process, including bid solicitations;
- (3) Vendor evaluation criteria; and
- (4) A procedure for resolving appeals.

b. The chief juvenile court officer shall develop selection criteria for choosing providers to ensure that resources are targeted effectively within the district. Multiple providers may be selected to address the needs within the district.

c. The chief juvenile court officer shall develop a contract with each provider selected through the process.

(1) The chief juvenile court officer or designee shall prepare Form 470-0022, Pre-Contract Questionnaire, for each new contract.

(2) The chief juvenile court officer, the provider, and the department shall sign the contract.

(3) The chief juvenile court officer is responsible for distributing a copy of the signed contract or amendment to the provider.

d. The chief juvenile court officer shall have the authority to resolve provider appeals in accordance with procedures approved by the department.

e. Contract amendments shall be prepared whenever there is a change in the amount of contracted dollars, contract duration, program description, or any other terms of the contract.

(1) Any party to the contract may request an amendment to the contract. The provider may request a contract amendment through the chief juvenile court officer.

(2) The chief juvenile court officer, the provider, and the department shall sign a contract amendment.

(3) The chief juvenile court officer or designee shall prepare Form 470-0022, Pre-Contract Questionnaire, for each contract amendment.

f. The chief juvenile court officer may submit a claim for payment of juvenile court services' costs of printing, copying, distributing and advertising associated with the contracting process. The claim shall be submitted on Form GAX, General Accounting Expenditure. The cost shall be charged first to the administrative set-aside funds and second to the program fund, as funds are available.

151.35(2) Contract content. Contracts for purchasing graduated sanction services shall be developed using contract forms approved as to legal form by the assistant attorney general assigned to work with juvenile court services contracts. Contracts with providers shall incorporate all applicable requirements in Iowa Code section 8.47 as well as the administrative and program requirements of this chapter.

a. The contract shall:

- (1) Note the unit cost or payment rate;
- (2) State the interval for which the cost will be billed;
- (3) Describe the process the provider shall follow to complete and submit claims for payment; and
- (4) Specify any approved charges for curriculum materials or other expenses that are involved in the delivery of services but not included in the unit cost or payment rate.

b. Contracts with providers of life skills, supervised community treatment, or tracking, monitoring, and outreach services shall establish and define the unit of service and the cost of the unit of service to be provided and billed per child. The contract shall specify the payment amount for the unit

of service and may specify a maximum number of units but shall not ensure a provider reimbursement for a specific rate of utilization. Payment shall be made only for units of service provided to and billed for specific children.

c. Contracts with providers of life skills, supervised community treatment, or tracking, monitoring, and outreach services may establish individual or group rates. The contract shall establish a group rate when the service is provided to more than one child at a time. A minimum and a maximum number of participants shall be established when a group rate is set.

(1) The group rate may be a set amount to be charged for each child who attends the group. The provider will receive payment for each child served.

(2) The group rate may be a set amount to be charged for the group. The provider will receive the same payment amount each time the provider serves the group. The provider must identify all attendees of each group for which payment is claimed.

d. Contracts with providers of supervised community treatment, or tracking, monitoring, and outreach may establish per diem rates when the intensity of service provision per child is variable but the total cost of the provision of the service is known. The range of coverage of the intensity of service provision shall be described in the contract.

These rules are intended to implement Iowa Code section 232.191.

CHAPTER 152
CONTRACTING

PREAMBLE

The rehabilitative treatment and supportive services contract will encompass group care child welfare services, supportive services provided in family-centered and family foster care, and group care maintenance.

Refer to 441—Chapters 156 and 182 for requirements for supportive services.

DIVISION I
GENERAL PROVISIONS

PREAMBLE

This division sets forth the requirements for the content of the contract for rehabilitative treatment and supportive services and the conditions of participation. The term of the contract is limited to no more than two years.

441—152.1(234) Definitions.

“*Agency*” means any agency, public or private, which provides or represents itself as providing rehabilitative treatment or supportive services.

“*Amount*” means the number of units of a service core or level of care within a rehabilitative treatment service.

“*Applicable services*” means those services identified on the face sheet to be provided under the conditions of the contract.

“*Certification*” means the decision made by the department that the provider has met the applicable standards for rehabilitative treatment services.

“*Child*” means a person under 21 years of age.

“*Client*” means an individual or family group who has applied for and been found to be eligible for rehabilitative treatment or supportive services from the Iowa department of human services.

“*Contract*” means formal written agreement between the Iowa department of human services and a provider of rehabilitative treatment or supportive services.

“*Department*” means the Iowa department of human services.

“*Duration*” means the maximum period of time for which the service core or level of care within a rehabilitative treatment service is authorized.

“*Family*” includes the following members:

1. Legal spouses (including common law) who reside in the same household.
2. Natural, adoptive or step mother or father, and children who reside in the same household.
3. A child who lives alone or who resides with a person, or persons, not legally responsible for the child’s support.

“*Grant*” means an award of funds to develop specific programs or achieve specific outcomes.

“*Juvenile court officer*” means a person appointed as a juvenile court officer under Iowa Code chapter 602 and a chief juvenile court officer appointed under Iowa Code chapter 602.

“*Nonrehabilitative treatment services*,” for the purpose of this chapter, means rehabilitative services designed to address a child’s nonrehabilitative treatment needs as defined in rule 441—185.1(234) in one of the following programs:

1. Family-centered program.
2. Family preservation program.

“*Project manager*” means a department employee who is assigned to assist in developing, monitoring and evaluating a contract and to provide related technical assistance.

“*Provider*” means any natural person, company, firm, association, or other legal entity under contract with the department pursuant to this chapter.

“*Purchase of service system*” means the system within the department for contracting and payment for services.

“*Referral worker*” means the department worker or juvenile court officer who refers the case to the review organization and who is responsible for carrying out the follow-up activities after the review organization service necessity determination and service authorization process is completed.

“*Rehabilitative treatment services*,” for the purpose of this chapter, means services designed to address the rehabilitative treatment needs of a child in one of the following programs:

1. Family-centered program.
2. Family preservation program.
3. Family foster care.
4. Group care program.

“*Review organization*” means the entity designated by the department to make rehabilitative treatment service authorization determination.

“*Scope*” means the rehabilitative treatment service selected and the service core or level of care within the program that is selected.

“*Service authorization*” means the process of service necessity determination and service authorization of scope, amount and duration by the review organization.

“*Service core*” means a set of rehabilitative treatment services delivered to an individual or family that addresses the needs of the individual or family as set forth in the treatment plan.

“*Social services*” means a set of actions purposefully directed toward human needs which are identified as requiring assistance from others for their resolution.

“*Supportive services*” for purposes of contracting and financial and statistical reports means family-centered supportive services as defined in rule 441—182.1(234), supervision and home studies provided in family foster care and group care maintenance as defined in rule 441—156.1(234).

“*Unit of service*” means a specified quantity of service.

441—152.2(234) Conditions of participation relevant to all contracts.

152.2(1) *Service descriptions.* The provider shall comply with the requirements for applicable services as described in the appendix to the contract.

152.2(2) *Signed contract.* A contract can be effective only when signed by all parties required in subrule 152.22(4).

152.2(3) *Provider certification.* The provider shall be certified to provide the applicable rehabilitative treatment services before the contract can be effective. Out-of-state providers shall meet Iowa certification requirements.

152.2(4) *Civil rights laws.* The provider shall be in compliance with all state civil rights laws and regulations and with all applicable federal civil rights laws and regulations with respect to equal employment opportunity.

152.2(5) *Title VI compliance.* The provider shall be in compliance with Title VI of the 1964 Civil Rights Act and all other federal, state, and local laws and regulations regarding the provision of services.

152.2(6) *Section 504 compliance.* The provider shall be in compliance with Section 504 of the Rehabilitation Act of 1973 and with all federal, state, and local Section 504 laws and regulations.

152.2(7) *Americans with Disabilities Act compliance.* The provider shall be in compliance with the Americans with Disabilities Act of 1990 and with all federal, state and local laws and regulations regarding the Americans with Disabilities Act.

152.2(8) *Affirmative action.* The provider shall apply affirmative action measures appropriate to correct deficiencies or to overcome the effects of past or present practices, policies, or other barriers to equal employment opportunity.

152.2(9) *Equal opportunity.* The provider shall exclude no person from the participation in or receipt of programs, activities or benefits on the grounds of race, color, creed, national origin, sex, age, religion, political belief, or physical or mental disability. Nor shall the provider discriminate against any person in employment or applying for employment on the grounds of race, color, creed, national origin, sex, age, religion, political belief, or physical or mental disability.

152.2(10) *Nondiscrimination.* The provider shall carry out all activities under the terms of any rehabilitative treatment and supportive services contract in a manner that does not discriminate against any person because of the person's race, color, creed, national origin, sex, age, religion, political belief, or physical or mental disability.

152.2(11) *Abuse reporting.* The provider shall have written policy and procedure that complies with applicable state and local laws for the reporting of child abuse.

152.2(12) *Confidentiality.* The provider shall comply with all applicable federal and state laws and regulations on confidentiality including rules on confidentiality contained in 441—Chapter 9. The provider shall have a written policy and procedure for maintaining individual client confidentiality, including client record destruction.

152.2(13) *Client appeals and grievances.* The provider shall have a written policy and procedure for handling client appeals and grievances, and shall provide information to clients about their rights to appeal.

152.2(14) *Financial and statistical records.* The provider shall maintain sufficient financial and statistical records, including program and census data, to document the validity of the reports submitted to the department. (See 441—subrule 185.102(3).)

a. The records shall be available for review at any time during normal business hours by department personnel, the purchase of rehabilitative treatment and supportive services fiscal consultant, and state or federal audit personnel.

b. These records shall be retained for a period of five years after final payment.

152.2(15) *Reports on financial and statistical records.* Financial and statistical reports shall be submitted as required in rules 441—185.102(234) and 441—185.103(234). Failure to do so within the required time limits is grounds for termination of the contract. This subrule is held in abeyance for purposes of establishing rates effective during the time period beginning July 1, 1996, through June 30, 1998.

152.2(16) *Maintenance of client records.* Records for clients served through a Rehabilitative Treatment and Supportive Services Contract, Form 470-3052, shall be retained by the provider for a period of five years after service to the client terminates. Client records for rehabilitative treatment and supportive services shall comply with the requirements set forth at 441—subrule 185.10(6), 441—subrule 156.7(2) and rule 441—182.7(234), as applicable to the specific services provided.

152.2(17) *Provider charges.* A provider shall not charge departmental clients more than it receives for the same rehabilitative treatment and supportive services provided to nondepartmental clients.

152.2(18) *Special purpose organizations.* A provider may establish a separate, special-purpose organization to conduct certain of the provider's client-related or non-client-related activities. For example, a development foundation assumes the provider's fund-raising activity. Often, the provider does not own the special-purpose organization (e.g., a nonprofit, non-stock-issuing corporation), and has no common governing body membership. A separate special-purpose organization shall be considered to be a related party for purposes of 441—subrule 185.105(11) when one of the following applies:

a. The provider controls the organization through contracts or other legal documents that give the provider the authority to direct the organization's activities, management, and policies.

b. The provider is, for all practical purposes, the primary beneficiary of the organization's activities. The provider should be considered the special-purpose organization's primary beneficiary if one or more of the following circumstances exist:

(1) The organization has solicited funds on the provider's behalf with provider approval and substantially all funds so solicited were contributed with the intent of benefiting the provider.

(2) The provider has transferred some of its resources to the organization, substantially all of whose resources are held for the benefit of the provider.

(3) The provider has assigned certain of its functions to a special-purpose organization that is operating primarily for the benefit of the provider.

152.2(19) Certification by department of transportation.

a. If the provider furnishes public transit service as defined in 761—910.1(324A), the provider shall annually submit to the project manager information regarding compliance with or exemption from public transit coordination requirements as found in Iowa Code chapter 324A and department of transportation rules in 761—Chapter 910. This information shall include:

(1) Form 020107, Certification Application for Coordination of Public Transit Services, which the project manager shall submit to the department of transportation; and

(2) A copy of an ACORD Certificate of Insurance or similar self-insurance documentation, as applicable.

b. If a provider believes it does not furnish public transit service as defined in 761—910.1(324A) and therefore is exempt from the requirements in paragraph “*a.*,” the provider shall submit Form 020107 with only Section 1 completed when the provider enters into a new contract.

c. If a provider that has furnished public transit service as defined in 761—910.1(324A) ceases to do so, the provider becomes exempt from the requirements in paragraph “*a.*”

d. If an exempt provider begins to furnish public transit service as defined in 761—910.1(324A), the provider shall inform the project manager within 30 days of the change and shall adhere to the procedures in paragraph “*a.*”

e. Failure of the provider to cooperate in obtaining or providing the required documentation of compliance or exemption is grounds for denial or termination of the contract.

152.2(20) Services provided. Services provided, as described on Form 470-3051, Rehabilitative Treatment and Supportive Services Contract Face Sheet, and appendices, shall at a minimum meet the rules found in the Iowa Administrative Code for a particular rehabilitative treatment or supportive service or the contract may be terminated.

152.2(21) Indemnity and insurance clauses.

a. The provider agrees that it will indemnify, hold harmless and defend the state, the department, and its officers and employees from and against all suits, actions, or claims for personal injury or death, or damage to property because of any act, omission or neglect of the provider, its officers, agents or employees in the provision of care or services as provided for by administrative rule and this contract, including, but not limited to:

(1) Personal injury, death or property damage of a client receiving care or services, or while on a premises owned, leased or operated by the provider, or while being transported by the provider, either directly or by arrangement.

(2) Personal injury, death or property damage of another caused by a client while receiving care or service from the provider.

This provision does not create any right or cause of action in the public or a third party to bring a claim or suit under or pursuant to its terms.

b. The provider agrees that it shall have in force and effect a liability insurance policy covering all its operations in providing the care and services required by the administrative rules and by contract, including the indemnity provision above. A “Certificate of Insurance” identifying the insurance company, the policy period, the type of policy and the limits of coverage shall be filed with the department. The insurance policy and the certificate of insurance shall show the state of Iowa and the department of human services as additional insureds. The provider further agrees that anyone transporting, or authorized to transport, clients in privately owned vehicles shall have liability insurance in force and effect covering any claim which may arise from this transport.

152.2(22) Renegotiation clause. In the event there is a revision of federal or state laws or regulations and this contract no longer conforms to those laws or regulations, both parties will review the contract and renegotiate those items necessary to conform with the new federal or state laws or regulations.

152.2(23) Subcontracting or assignability. The provider shall have no right to assign the contract. When a provider of services pursuant to this chapter delivers service through a subcontract, the provider is responsible for the subcontractor’s meeting the requirements found in this division. A copy of all

subcontracts for any rehabilitative treatment or supportive services, as described in the contract, or any changes to that subcontract shall be provided to the project manager at least one month prior to implementation of the subcontract. The department shall have the right to reject all or part of the subcontract. All subcontractors shall meet these requirements:

- a. All conditions of the contract shall be incorporated into any subcontract.
- b. All subcontractors shall meet certification requirements for rehabilitative treatment services.
- c. All subcontractors shall meet requirements for supportive services.
- d. A subcontract or other written agreement will not relieve the provider of responsibility or accountability to the department for the conditions of the contract.
- e. The provider has the responsibility for billing for the service and for reimbursing the subcontractor. However, the provider shall not bill for rehabilitative treatment and supportive services provided by the subcontractor unless a copy of the subcontract or any changes to the subcontract has been submitted to the project manager as required. When a subcontract or a portion of a subcontract has been rejected by the department, the provider shall not bill for services provided totally or in part through that rejected subcontract or through the part of a subcontract which was rejected. The department shall not be liable for payment for services provided through a subcontract or that portion of a subcontract which has been rejected.

f. The costs of all subcontracted services are subject to the requirements and limits set forth in rules 441—185.101(234) to 441—185.108(234). This paragraph is held in abeyance for purposes of establishing rates effective during the time period beginning July 1, 1996, through June 30, 1998.

152.2(24) *Nonemployment.* The provider shall be an independent contractor in the performance of contract obligations under Iowa Code chapter 669. There is no duty created for the department to defend or indemnify the provider.

152.2(25) *Across-the-board cuts.* Payment under the contract may be subject to across-the-board cuts pursuant to Iowa Code section 8.31.

152.2(26) *Monitoring equal opportunity and affirmative action compliance.*

a. Providers shall submit to the project manager the following forms at the time of submission of the initial contract for monitoring of compliance with the requirements set forth at 152.2(4), 152.2(5), 152.2(6) and 152.2(8): Equal Opportunity Review, Form 470-0148, and, as applicable, Accessibility Checklist, Form 470-0149, and Section 504 Transition Plan: Structural Accessibility, Form 470-0150.

(1) The provider shall submit the Desk Audit for Civil Rights Contract Compliance, Form 470-2215, to the project manager annually thereafter.

(2) The project manager shall submit the required forms to the diversity programs unit.

b. The diversity programs unit shall review the forms. If the unit finds areas of noncompliance, the unit shall notify the provider. The provider shall develop a plan of corrective action addressing each area of noncompliance. The corrective action plan shall include time lines for implementation and shall be submitted to the department for approval.

c. Failure to develop and implement an acceptable plan of corrective action within the timelines specified in the plan shall be grounds for termination of the contract.

152.2(27) *Age Discrimination Act compliance.* The provider shall be in compliance with the Age Discrimination Act of 1975 and with all federal, state, and local laws and regulations regarding the Age Discrimination Act.

441—152.3(234) Appeals of departmental actions. Departmental actions other than rate determinations may be appealed pursuant to 441—Chapter 7. Requests for review of rate determinations may be submitted in writing to the chief of the bureau of purchased services. The request shall explain the rates in question and the reasons for dissatisfaction. The chief of the bureau of purchased services shall respond to the request in writing or request additional information within ten working days.

441—152.4(234) Review of financial and statistical reports. Authorized representatives of the department or state or federal audit personnel shall have the right to review the general financial records of a provider. The purpose of the review is to determine if expenses reported to the department

have been handled as required under rule 441—185.102(234). Representatives shall provide proper identification and shall use generally accepted auditing principles. The review may include an on-site visit to the provider, the provider's central accounting office, the offices of the provider's agents, a combination of these, or, by mutual decision, to other locations.

441—152.5(234) Copyright and patents. The activities and results of contract activity may be published subject to confidentiality requirements. The provider shall furnish a copy of the published material free of charge to the department within ten days of publication.

The department reserves the right to use and duplicate the publication for internal state purposes. In no event shall the department be charged for the use of the copyrighted materials.

441—152.6(234) Drug-free workplace. The provider shall operate a drug-free workplace. Owners, employees, subcontractors, and volunteers shall not report to work while under the influence of alcohol or illegal drugs. The unauthorized use, possession, sale, purchase, manufacture, distribution, or transfer of any illegal drug or alcoholic beverage while a person is engaged in state-funded business is prohibited. The provider shall take disciplinary action on any person who does not comply with this policy, up to and including discharge. Violation of this rule may be grounds for termination of the contract.

441—152.7(234) Restriction of use of funds. The provider shall agree that federally appropriated funds shall not be paid on behalf of the department or provider to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the award of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan or cooperative agreement.

The provider shall ensure that no funds received or expended will be used in any way to promote or oppose unionization.

441—152.8(234) Term of contract. The term of the contract shall be for not more than two years, effective the day following the signature of the director of the department or the director's designee, unless the provider and department agree to a later specified date.

These rules are intended to implement Iowa Code section 234.6.

441—152.9 to 152.20 Reserved.

DIVISION II
PURCHASE OF REHABILITATIVE TREATMENT AND
SUPPORTIVE SERVICES CONTRACT

PREAMBLE

This division sets forth the contracting process for providers of rehabilitative treatment and supportive services.

This division addresses how existing family-centered, family preservation, family foster care, and group care providers enter into new contracts to provide rehabilitative treatment and supportive services on or after November 1, 1993; describes how new family-centered, family preservation, family foster care, and group care providers enter into a contract to provide rehabilitative treatment services, nonrehabilitative treatment services, and supportive services on or after January 1, 1994; explains how contracts are administered by department project managers; presents the fiscal records standards; and sets forth the requirements for client eligibility and review organization referral and authorization process as a condition of reimbursement.

441—152.21(234) Contract. All providers of rehabilitative treatment and supportive services shall enter into a contract with the department. Providers may enter into a contract for rehabilitative treatment and supportive services when full certification as described in 441—subrule 185.11(2) is achieved. Certification is not required if the provider is contracting only for supportive services.

441—152.22(234) Initiation of contract proposal.

152.22(1) *Right to request a contract.* All potential providers have a right to request a contract.

152.22(2) *Initial contact.* The initial contact shall be between the potential provider and the bureau of purchased services.

a. At the beginning of the contract development process, the bureau shall give the potential provider:

(1) Information about the contracting process; and

(2) Instructions on how to access the Rehabilitative Treatment and Supportive Services Provider Handbook electronically.

b. The provider shall sign Form 470-3057, Verification of Receipt, at the end of the contract development process to verify receipt of information on how to access the Handbook.

152.22(3) *Contract proposal development.* When the bureau of purchased services determines that a new contract is to be developed, a project manager shall be assigned to assist in contract development and processing.

a. The project manager shall assist the provider in the completion of the contract proposal and required fiscal information.

b. Form 470-3051, Rehabilitative Treatment and Supportive Services Contract Face Sheet, and Form 470-3404, Rehabilitative Treatment and Supportive Services Negotiated Rate Establishment Amendment, shall be completed at the same time as Form 470-3052, Rehabilitative Treatment and Supportive Services Contract, or Form 470-3053, Amendment to Rehabilitative Treatment and Supportive Services Contract, is prepared.

152.22(4) *Contract proposal approval.* A proposed contract shall be submitted to the assigned project manager 60 calendar days in advance of the desired effective date of the contract. The Rehabilitative Treatment and Supportive Services Negotiated Rate Establishment Attachment, Form 470-3404, need not be completed until the completion of the rate negotiation process. Contract proposals will not be acted upon until this form is completed and attached to the contract proposal. Submission within the time frame does not ensure the desired effective date of the contract. The applicant shall be given a notice and explanation in writing of delays in the approval process by the department.

The applicant shall submit four copies of the contract proposal to the assigned project manager. The project manager shall forward four signed copies of the contract proposal to the bureau of purchased services within four weeks of receipt.

All complete proposed contracts shall be reviewed for compliance with state and federal requirements by the department. Before the Rehabilitative Treatment and Supportive Services Contract, Form 470-3052, can be effective, it shall be acted upon and signed, if approved, by the following persons within the time frames specified:

a. Authorized representative of the provider agency.

b. Service area manager, within one week of receipt.

c. Rescinded IAB 5/11/05, effective 5/1/05.

d. Director of the department of human services or designee, within 15 days of receipt.

Payment cannot be made for services provided prior to the contract effective date.

152.22(5) *Criteria for rejection of contract proposal.* The following criteria may cause a proposed contract or proposed contract amendment to be rejected:

a. The proposed contract does not meet applicable rules, regulations, or guidelines.

b. The applicant has falsified any information required as a condition of participation.

c. Licenses or certification submitted as a condition of participation in the contract process has never been approved, or has been revoked or suspended.

d. The provider fails to provide notification, within seven days, of any changes that may significantly affect the licenses or certification submitted as a condition of contracting.

e. The department and the provider fail to reach agreement on negotiated rates.

The provider shall be given a notice and explanation in writing of the reasons for rejection of the contract proposal by the department within ten working days of the department decision.

152.22(6) *Contract effective date.* When the agreed-upon contract conditions have been met, the effective date of a new contract, a renewed contract or an amendment to add a new service code to the contract is the day following signature of the director of the department or the director's designee, unless the provider and the department agree to a later specified date. A contract can only be effective if signed by all parties as required in subrule 152.22(4).

152.22(7) *Contract expiration date.* The effective date of the contract expiration shall be no more than two years from the effective date of the contract.

441—152.23(234) Contract administration.

152.23(1) *Contract management.* During the contract period, the assigned project manager designated in the contract shall be the contract liaison between the department and the provider. The project manager shall be contacted on all interpretations and problems relating to the contract and shall follow the issues through to their resolution. The project manager shall also monitor performance under the contract and shall provide or arrange for technical assistance to improve the provider's performance if needed. Report of On-Site Visit, Form 470-0670, shall be used to monitor performance under the contract. The project manager shall make at least one on-site visit to each provider of rehabilitative treatment or supportive services during the term of the contract. The on-site visit shall be coordinated with on-site visits scheduled to fulfill requirements for provider audit, licensing, and certification or other on-site visits required by the department. Site visits to out-of-state providers shall be made at the discretion of the service area responsible for administration of the contract.

152.23(2) *Contract amendment.*

a. The contract shall be amended only upon agreement of both parties except as provided for in paragraphs 152.23(2) "b," "c," and "d." Amendment of the Rehabilitative Treatment and Supportive Services Contract, Form 470-3053, shall be completed by the provider to amend the services being provided, unless the amendment is being processed with a contract renewal. If the amendment is being processed with a contract renewal, the amendment can be indicated on the contract face sheet as a "contract renewal and amendment" and Form 470-3053 does not need to be submitted, as the signature page of the contract renewal can serve as the approval mechanism with authorized signatures. A written explanation of the nature of the amendment shall be attached. Amendments to add a new service must meet the requirements of any licensing or certification required as indicated by issuance of a current certificate of approval. Effective January 1, 1998, the department shall only approve amendments to add a service to an existing contract for which a negotiated rate has been established.

b. Effective August 1, 1998, a contract may be unilaterally amended by the department to delete an existing service if agreement upon a negotiated rate is not reached in accordance with rule 441—185.112(234), except as provided for at 441—subrule 185.112(12). The department shall give the provider 30 days' notice of its intent to amend the rehabilitative treatment and supportive services contract between the provider and the department.

c. A contract may be unilaterally amended by the department to delete an existing service if certification or a required license for that service is revoked, denied or has been voluntarily withdrawn by the provider. The department shall give the provider ten days' notice of its intent to amend the rehabilitative treatment and supportive services contract between the provider and the department.

152.23(3) *Contract renewal.* A joint decision to pursue renewal of the contract shall be made at least 60 days prior to the expiration date. Each contract renewal requires one on-site visit by the project manager and documentation of an evaluation process through the use of Form 470-3054, Contract Renewal Evaluation Guide. The evaluation shall also include the use of other evaluation tools specified in the contract. The results of the evaluation shall be taken into consideration in the department's

decision to renew the contract. Site visits to out-of-state providers shall be made at the discretion of the service area responsible for administration of the contract.

152.23(4) Contract termination.

a. The department may terminate the contract upon ten days' notice for cause except in the event of revocation of licensure, certification or imminent danger to clients, in which case the contract shall be terminated immediately upon notice. The provider or the department may terminate this contract without cause upon 30 days' notice. Notice of termination shall be provided by certified mail.

b. Causes for termination during the period of the contract are:

(1) Determination by the department that insufficient funds are available to continue the services involved.

(2) Failure of the provider to complete or submit required reports.

(3) Failure of the provider to make financial and statistical records available for review by the department or authorized party.

(4) Failure of either party to abide by the provisions of the contract.

(5) Failure to reach agreement on negotiated rates within 130 days of initiating rate negotiations in accordance with rule 441—185.112(234).

c. Within 20 days of any termination made under this clause, the provider shall supply the department with financial statements detailing all costs up to the effective date of termination. The sole and complete remedy of the provider shall be payment for services completed prior to the effective date of termination.

441—152.24(234) Client eligibility and referral.

152.24(1) Determination of eligibility. For the department to make payment for rehabilitative treatment services, clients shall be determined eligible by the review organization. Eligibility for nonrehabilitative treatment services shall be determined pursuant to 441—subrule 185.2(4). Eligibility for supportive services shall be determined by the referral worker pursuant to the rules established for the service. The department shall not make payment for rehabilitative treatment or supportive services provided prior to the client's eligibility determination.

152.24(2) Court order. If a child and family have been referred to the review organization and the review organization has not authorized rehabilitative treatment services, but the services have been ordered by the juvenile court, the referral worker shall refer the case back to the review organization for reconsideration of eligibility in light of the juvenile court's determination. If the review organization continues not to authorize the services ordered by the juvenile court, the department shall make payment subject to availability of authorized funds.

441—152.25(234) Amount, scope, and duration of services. Any change in the scope, or increase in the amount or duration of rehabilitative treatment services, shall be authorized by the review organization.

441—152.26(234) Client fees. The provider shall agree not to require any fee from departmental clients unless a fee is required by the department and is consistent with federal regulation and state policy.

These rules are intended to implement Iowa Code section 234.6.

CHAPTER 153
FUNDING FOR LOCAL SERVICES
[Prior to 7/1/83, see Social Services[770] Ch 131]
[Previously appeared as Ch 131—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services[498]]

DIVISION I
SOCIAL SERVICES BLOCK GRANT

PREAMBLE

This division sets forth the requirements for reporting required for receipt of federal social services block grant (SSBG) funds and service availability and allocation methodology related to those funds.

441—153.1(234) Definitions.

“*Direct services*” means services provided by staff of the department of human services to clients. This includes the administrative support necessary to maintain and oversee services. Direct services are funded with state and federal dollars.

“*State purchase services*” means those services the department purchases in every county statewide. State purchase services are funded with state and federal funds.

441—153.2(234) Development of preexpenditure report.

153.2(1) The department of human services shall develop the social services block grant preexpenditure report on an annual basis. The report shall be developed in accordance with the Code of Federal Regulations, Title 45, Part 96, Subpart G, as amended to July 20, 2000. The report shall describe the services to be funded, in what areas services are available and the amount of funding available. The plan shall also indicate the source of funding.

153.2(2) The department shall issue a proposed preexpenditure report before publication of the final report. The proposed report shall be available for public review and comment:

a. In each local office where a service area manager is based during regular business hours for a two-week period; and

b. On the department’s Internet Web site, www.dhs.iowa.gov.

153.2(3) The time and scope of public review will be announced each year. The announcement will indicate the time the proposed report can be viewed. The department:

a. Shall make this information available on the department’s Internet Web site, www.dhs.iowa.gov, and post signs in each local human services office; and

b. May publish advertisements in each service area listing the time of review.

153.2(4) The department shall accept comments about the preexpenditure report during the specified public review and comment period. Individuals or groups may submit written comments to the service area manager or to the Division of Fiscal Management, Iowa Department of Human Services, Hoover State Office Building, 1305 E. Walnut Street, Des Moines, Iowa 50319-0114. The service area manager may arrange public hearings where testimony will be accepted.

153.2(5) The department shall consider the public comment when developing the final preexpenditure report.

153.2(6) A copy of the final preexpenditure report will be available:

a. In each local office where a service area manager is based; and

b. On the department’s Internet Web site, www.dhs.iowa.gov.

441—153.3(234) Amendment to preexpenditure report.

153.3(1) The preexpenditure report may be amended throughout the year. The department may file an amendment changing the kind, scope or duration of a service. Decisions to change a direct service or state purchase service will be made by the department.

Prior to filing an amendment the department and the county boards of supervisors will evaluate available funds and the effect any change will have on clients.

153.3(2) An amendment in the preexpenditure report will be posted in the local offices affected by the amendment at least 30 days prior to the effective date of the change. However, in the event funding for the service has been exhausted, an amendment shall be posted immediately notifying the public that the service will no longer be available. The service area manager will, whenever possible, give advance notice of a service termination made necessary because funds have been exhausted. When a service is added or extended, an amendment may be posted immediately and a 30-day posting period is not required.

153.3(3) Individuals or groups may submit written comments to the service area manager or to the Division of Fiscal Management, Iowa Department of Human Services, Hoover State Office Building, 1305 E. Walnut Street, Des Moines, Iowa 50319-0114.

153.3(4) Nothing in this rule will supersede the requirement for notifying clients of adverse action as provided in 441—130.5(234).

441—153.4(234) Service availability.

153.4(1) A client shall apply for services in the appropriate office of the Iowa department of human services.

a. The department shall determine eligibility according to 441—130.3(234).

b. The department shall develop a case plan to monitor the client's progress toward achieving goals as identified in 441—130.7(234).

153.4(2) An eligible client shall receive a service for which the client is eligible, subject to the provisions of 441—Chapter 130, when the service is listed in the geographic area in which the client resides. The geographic area for direct and state purchase is the state.

153.4(3) To the extent federal law prohibits use of federal funds for provision of social service block grant services to persons the department has defined as eligible, state funds shall be used to pay for these services.

441—153.5(234) Allocation of block grant funds.

153.5(1) The department shall follow a cost allocation plan for determining the appropriate administrative costs to be funded with block grant money.

153.5(2) Funding for services shall be allocated in accordance with the annual budgeting process. The department's annual budget is available for review on the department's Internet Web site at www.dhs.iowa.gov. Costs may be shifted in and between service areas to ensure continued statewide availability of services.

441—153.6(234) Local purchase planning process. Rescinded IAB 7/8/92, effective 7/1/92.

441—153.7(234) Advisory committees. Rescinded IAB 3/6/02, effective 7/1/02.

441—153.8(234) Federal flood relief supplemental social services block grant funds for emergency social services. Rescinded IAB 3/6/02, effective 7/1/02.

441—153.9 and 153.10 Reserved.

These rules are intended to implement Iowa Code section 234.6.

DIVISION II
DECATEGORIZATION OF CHILD WELFARE AND JUVENILE JUSTICE FUNDING

PREAMBLE

Decategorization of child welfare and juvenile justice funding is an initiative intended to establish systems of delivering human services based upon client needs that replace systems based upon a multitude of categorical funding programs and funding sources, each with different service definitions and eligibility requirements. Decategorization is designed to redirect child welfare and juvenile justice

funding to services that are more preventive, family-centered, and community-based in order to reduce use of restrictive approaches that rely on institutional, out-of-home, and out-of-community care.

441—153.11(232) Definitions. For the purposes of this division, the following definitions apply:

“Budget accountability” means that expenditures for decategorization services from a decategorization project’s funding pool during the state fiscal year do not exceed the total amount of funding available in the funding pool for the state fiscal year.

“Carryover funding” means moneys designated for a project’s decategorization services funding pool that remain unencumbered or unobligated at the close of the state fiscal year.

“Chief juvenile court officer” mean the judicial department official responsible for managing and supervising juvenile court services operations within one of the eight judicial districts.

“Decategorization” means an initiative established pursuant to Iowa Code section 232.188 that is designed to redirect child welfare and juvenile justice funding to services that are more preventive, family-centered, and community-based in order to reduce use of more restrictive approaches.

“Decategorization agreement” means the agreement entered into among representatives of the department of human services, juvenile court services, and the county government in one or more counties to implement a decategorization project in accordance with the requirements of Iowa Code Supplement section 232.188 and this division.

“Decategorization project” means the county or counties that have entered into a decategorization agreement to implement the decategorization initiative in the county or multicounty area covered by the agreement.

“Decategorization services funding pool” or *“funding pool”* means the funding designated for a decategorization project from all sources.

“Department” means the department of human services.

“Governance board” means a decategorization governance board, which is the group that enters into and implements a decategorization agreement.

“Service area manager” means the department official responsible for managing the department’s programs, operations, and child welfare budget within one of the eight department service areas.

“Unencumbered or unobligated” means funding within a decategorization services funding pool that is not spent by the project’s governance board for a specific program or purpose by the close of the state fiscal year.

441—153.12(232) Implementation requirements. The decategorization initiative shall be implemented through the creation and operation of decategorization projects. One or more counties may jointly agree to form a decategorization project to implement the initiative. The decategorization initiative shall be implemented in accordance with the following requirements:

153.12(1) Decategorization agreement. Representatives from the department, juvenile court services, and county government within the county or counties interested in forming a decategorization project shall develop a written agreement to work together to implement decategorization.

153.12(2) Department approval. A decategorization project must request and receive approval from the department director.

153.12(3) Governance board. A decategorization project shall be implemented by a decategorization governance board.

a. The department director shall ensure that each decategorization project has an operating governance board that includes:

(1) Representatives designated by administrators of the department and of juvenile court services; and

(2) Officials with the authority to represent county government in the affected county or counties.

b. Decategorization projects may choose to expand their governance boards to include representatives from other entities.

153.12(4) Department information. The service area manager shall provide the governance board with:

a. Information concerning the department service area's funding allocation for department-administered child welfare service programs; and

b. A copy of the service area's child welfare and juvenile justice annual plan.

153.12(5) *Juvenile justice information.* The chief juvenile court officer shall provide the governance board with information on the judicial district's allocation of funding for juvenile justice service programs.

153.12(6) *Support and coordination.* The department service area manager and the chief juvenile court officer shall:

a. Work with the governance board throughout each state fiscal year to coordinate planning and to target resources most effectively.

b. Regularly provide the governance board with available data concerning child welfare and juvenile justice needs, service trends and expenditures, child welfare and juvenile justice outcomes, and other relevant issues.

c. Work with the governance board to:

(1) Support board planning and service development; and

(2) Promote effective alignment of available financial resources to enhance preventive, family-centered, and community-based services.

441—153.13(232) Role and responsibilities of decategorization project governance boards. The governance board of a decategorization project shall have the following authority and responsibilities:

153.13(1) *Rules of operation.* The governance board shall establish and adopt written rules of operation that are available to the public.

153.13(2) *Open meetings and records.* The governance board shall adhere to statutory requirements for government bodies concerning open meetings and open records procedures as specified in Iowa Code chapters 21 and 22.

153.13(3) *Coordination.* The governance board shall coordinate project planning, decategorization service decisions, and budget planning activities with the service area manager and the chief juvenile court officer for the county or counties comprising the project.

153.13(4) *Right to services.* The governance board shall implement the decategorization initiative in a manner that does not limit the legal rights of children and families to receive services.

153.13(5) *Community service planning.* The governance board shall undertake community planning activities within the county or counties comprising the project. These activities shall be designed to develop services that are more preventive, family-centered, and community-based.

a. As part of decategorization community planning, the governance board shall partner with other community stakeholders to develop service alternatives that provide less restrictive levels of care for children and families within the project area. The governance board shall involve community representatives, including representatives for families and youth and for county organizations, in the development of specific and quantifiable short-term and long-term plans for:

(1) Enhancing preventive, family-centered, and community-based services; and

(2) Reducing reliance on out-of-community care and restrictive interventions.

b. In community planning, the governance board may use information from federal reviews of Iowa's child welfare system and indicators and outcomes from other community planning efforts. The governance board shall coordinate its community planning efforts as much as possible with those of other planning entities in the community, such as but not limited to:

(1) Communities of promise;

(2) Community empowerment;

(3) United Way;

(4) Community partnerships for protecting children;

(5) Comprehensive school improvement planning;

(6) Comprehensive substance abuse agency planning; and

(7) Substance-abuse-free environment (SAFE) program planning.

153.13(6) Annual service plan. The governance board shall oversee the development and submission of an annual child welfare and juvenile justice services plan that meets the requirements of rule 441—153.18(232). The governance board shall involve community representatives and county organizations in the development of the plan for the use of the decategorization services funding pool.

153.13(7) Fiscal management. The governance board shall manage and have authority over the project's decategorization services funding pool.

a. The governance board shall develop a plan to maintain budget accountability by ensuring during each state fiscal year that there is ongoing accountability for results, fiscal monitoring, and oversight of expenditures from the decategorization services funding pool.

b. Budget planning and decategorization services funding decisions shall be coordinated with the affected service area managers and chief juvenile court officers or their designees throughout each state fiscal year.

c. The governance board shall ensure that expenditures do not exceed the amount of funding available within the funding pool.

d. If necessary, the governance board shall approve actions to reduce expenditures, discontinue programs, or take other action to manage expenditures within the available decategorization services funding pool during each state fiscal year.

153.13(8) Annual report. The governance board shall oversee the development and submission of an annual progress report for the decategorization project that meets the requirements of rule 441—153.19(232).

441—153.14(232) Realignment of decategorization project boundaries. If a governance board votes to change the composition of counties participating in the project, the governance board shall send a letter to the department director that describes the nature of the proposed project realignment and is signed by each board member who supports the proposed realignment.

153.14(1) If the realignment request involves the move of one or more counties from one decategorization project to another, the governance board of the project receiving the county or counties shall send a letter to the department director expressing support for the realignment.

153.14(2) The department director shall review the request and within 30 days shall provide a written decision to the project governance boards involved.

a. In evaluating the request, the department director shall consider the reasons expressed for the proposed realignment and the community and budgetary impacts of the realignment.

b. The director may consult with governance board representatives and others before making a decision.

441—153.15(232) Decategorization services funding pool.

153.15(1) Creation and composition of pool. The department shall create the decategorization services funding pool for a project by combining funding resources that may be made available to the project from one or more of the following funding sources:

a. The project's allocation of any funding designated for decategorization in a state appropriation. When the general assembly designates a portion of the department's child welfare appropriation specifically for decategorization services, the designated funds shall be allocated to decategorization project services funding pools. Unless otherwise specified by legislation, the designated funds shall be allocated among decategorization projects based solely on each project's share of the population of children under the age of 18.

b. Child welfare and juvenile justice services funds that are:

(1) Specifically designated and committed in writing to the project by the service area manager; and

(2) Accepted by the project's governance board.

c. Any juvenile justice program funds that are:

(1) Specifically designated and committed in writing to the decategorization project by a chief juvenile court officer; and

(2) Accepted by the project's governance board.

d. Any carryover funds available to the project from funding transfers and from operation of decategorization services during the previous state fiscal year.

e. Funds made available to the project from any other funding source, such as another state agency or a grant awarded to the project. Funds awarded to the project under this provision may be subject to specific conditions, reporting requirements, and expenditure limits specified by the entity that awards funding.

153.15(2) Use of funding pool. A governance board shall use the funding pool in accordance with the following requirements:

a. The funding pool shall be used to provide services that meet at least one of the following criteria:

- (1) Services are flexible;
- (2) Services are individualized;
- (3) Services are family-centered;
- (4) Services are preventive;
- (5) Services are community-based;
- (6) Services are comprehensive; or
- (7) Services promote coordinated service systems for children and families in order to reduce the use of restrictive approaches that rely on institutional, out-of-home, and out-of-community care.

b. The governance board may use the funding pool for enhancements to the child welfare and juvenile justice service systems within the project.

c. The funding pool shall not be used for any of the following services:

- (1) Institutional services;
- (2) Out-of-home services; or
- (3) Out-of-community services.

d. The funding pool shall be expended in accordance with statutes and rules regarding vendor solicitation and service contracting, including Iowa Code chapter 8 and department of administrative services rules at 11—Chapters 106 and 107, Iowa Administrative Code.

153.15(3) Designation and transfer of department funds. A service area manager may choose during each state fiscal year to designate and transfer a portion of the service area's child welfare and juvenile justice service allocation to a decategorization project's funding pool. When designating funds, the service area manager and the governance board shall follow these procedures:

a. The service area manager shall provide written notification of any funding designations to the governance boards within the service area by June 1 of the state fiscal year. The service area manager shall specify any special terms and conditions of the funding designation in the written notification to the governance board.

b. The governance board shall consider the offer of designated funding and provide written notification of acceptance or rejection to the service area manager by June 30 of the state fiscal year.

c. If the governance board accepts the designated funding, the funds shall:

- (1) Be transferred to the project's decategorization services funding pool; and
- (2) Be under the sole management authority of the governance board, subject to any special terms and conditions agreed to by the governance board.

d. Any funding from such transfers that remains unencumbered or unobligated at the close of the state fiscal year shall be carryover funding in accordance with subrule 153.15(5).

153.15(4) Designation and transfer of juvenile justice funds. A chief juvenile court officer may choose to designate and transfer a portion of the judicial district's juvenile justice program funding to a decategorization project's services funding pool. When designating funds, the chief juvenile court officer and the governance board shall follow these procedures:

a. The chief juvenile court officer shall provide written notification of any funding designations to the governance boards within the judicial district by June 1 of the state fiscal year. The chief juvenile court officer shall specify any special terms and conditions of the funding designation in the written notification to the governance board.

b. The governance board shall consider the offer of funding and shall provide the chief juvenile court officer with written notification of acceptance or rejection of the funding by June 30 of the state fiscal year.

c. If the governance board accepts the designated funding, the funds shall:

(1) Be transferred to the project's decategorization services funding pool; and

(2) Be under the sole management authority of the governance board, subject to any special terms and conditions agreed to by the governance board.

d. Any funding from such transfers that remains unencumbered or unobligated at the close of the state fiscal year shall be carryover funding in accordance with subrule 153.15(5).

153.15(5) Carryover funding. Funds allocated to a decategorization project from a legislative appropriation for decategorization services and funds designated and transferred to a decategorization project's funding pool that remain unencumbered or unobligated at the close of a state fiscal year are referred to as "carryover funding." The following procedures shall apply to the determination and use of decategorization carryover funding:

a. Upon the close of a state fiscal year, the department shall determine the exact amount of funding that is unencumbered or unobligated in each project's decategorization services funding pool. The department shall collaborate with governance boards to reconcile expenditure records and determine the amount of carryover funding for each decategorization project.

b. Before December 15 of each state fiscal year, the department shall provide each governance board with written notification of the official amount of carryover funding available from the previous state fiscal year.

c. Carryover funding shall not revert to the state general fund but shall remain available to the governance board until the close of the succeeding state fiscal year.

d. Carryover funding shall be under the authority of the project's governance board. These funds shall be available for expenditure for child welfare and juvenile justice systems enhancements and other purposes of the project as determined by the governance board.

e. Any carryover funding not expended by a decategorization project by the close of the succeeding state fiscal year shall revert to the fiscal authority of the department. The department shall return these funds to the state general fund.

441—153.16(232) Relationship of decategorization funding pool to other department child welfare funding. With the exception of any portion of the service area's child welfare allocation that is allocated by law for decategorization services, each service area's child welfare allocation shall be managed under the authority of the respective service area manager as follows:

153.16(1) Allocation. Each service area manager receives an allocation from the state appropriation for child welfare and juvenile justice services funding to meet child welfare and juvenile justice needs within all counties comprising the service area. The service area manager is responsible for meeting service needs throughout the service area within that allocation.

153.16(2) Budgeting. The service area manager may establish internal child welfare and juvenile justice services budget targets for the counties comprising the service area. Based on budget monitoring and changes in circumstances, the service area manager may revise the child welfare and juvenile justice budget targets within the service area to provide for the safety, permanency, and well-being of children served in the child welfare and juvenile justice systems.

153.16(3) Transfer to project. A service area manager may choose to designate and to transfer a portion of the service area's child welfare allocation to the funding pool of a decategorization project. The service area manager may ask a governance board to accept specific terms and conditions concerning use of this funding. Once funding is transferred to a governance board, the funding is under the management authority of the governance board, subject to any special terms and conditions agreed to by the governance board.

153.16(4) Communication with the governance board. The service area manager shall regularly communicate with the governance boards within the service area to provide updated data and other

information on child welfare and juvenile justice funding amounts, service expenditures and trends, and other issues in order to assist the governance board in service and budget planning.

441—153.17(232) Relationship of decategorization funding pool to juvenile court services funding streams. Funds allocated by the department among the eight judicial districts for the court-ordered services and graduated sanctions programs shall be managed under the authority of the chief juvenile court officer for each judicial district as follows:

153.17(1) Allocation. Each chief juvenile court officer receives an allocation from the state appropriation for the court-ordered services and graduated sanction programs. The chief juvenile court officer is responsible for managing needs for these programs throughout the judicial district within that allocation.

153.17(2) Budgeting. The chief juvenile court officer may establish internal budget targets for expenditures from the court-ordered services and graduated sanction programs for the counties comprising the judicial district. Based on budget monitoring and changes in circumstances, a chief juvenile court officer may revise the budget targets established within the judicial district to provide programs most effectively for children within the district.

153.17(3) Transfer to project. A chief juvenile court officer may choose to designate and to transfer a portion of the judicial district's allocation for court-ordered services and graduated sanction programs to the funding pool of a decategorization project. The chief juvenile court officer may ask a governance board to accept specific terms and conditions concerning use of this funding. Once funding is transferred to a governance board, the funding is under the management authority of the governance board, subject to any special terms and conditions agreed to by the governance board.

153.17(4) Communication with the governance board. The chief juvenile court officer shall regularly communicate with the governance boards within the judicial district to provide data and other information on juvenile justice program allocation amounts, service expenditures and trends, and other issues that may assist the governance boards in service and budget planning.

441—153.18(232) Requirements for annual services plan. Each decategorization project shall annually develop and submit a child welfare and juvenile justice decategorization services plan.

153.18(1) Content of plan. The decategorization services plan shall describe:

a. The project's proposed use of funding from the decategorization services funding pool during the state fiscal year.

b. The community planning and needs assessment process that was used in developing the annual decategorization services plan, including information on:

- (1) The community members and organizations that participated in developing the plan; and
- (2) Efforts to coordinate with other community planning initiatives affecting children and families.

c. The project's specific and quantifiable short-term plans and desired results for the state fiscal year and how these plans align with the project's long-term plans to improve outcomes for vulnerable children and families by enhancing service systems.

d. The methods that the project will use to track results and outcomes during the year.

e. The project's plans for monitoring and maintaining fiscal accountability, which shall include monitoring:

- (1) The performance and results achieved by contractors that receive funding; and
- (2) Expenditures from the decategorization services funding pool throughout the state fiscal year.

f. The project's plans to expend projected carryover funds by the conclusion of the state fiscal year.

153.18(2) Submission of plan. The decategorization services plan shall be submitted to the department's child welfare administrator and to the Iowa empowerment board by October 1 of each state fiscal year.

441—153.19(232) Requirements for annual progress report. Each decategorization project shall develop and submit an annual progress report.

153.19(1) Content of report. At a minimum, the progress report shall:

- a. Summarize the project's key activities and the progress toward reaching the project's desired outcomes during the previous state fiscal year.
- b. Describe key activities, outcomes, and expenditures for programs and services that received funding from the governance board during the previous state fiscal year.
- c. Describe any lessons learned and planning adjustments made by the governance board during the previous state fiscal year.

153.19(2) Submission of report. The progress report shall be submitted to the department's child welfare administrator and to the Iowa empowerment board by December 1 of each state fiscal year.

These rules are intended to implement Iowa Code Supplement section 232.188.

441—153.20 to 153.30 Reserved.

DIVISION III
MENTAL ILLNESS, MENTAL RETARDATION, AND
DEVELOPMENTAL DISABILITIES—LOCAL SERVICES
[Rescinded IAB 3/6/02, effective 5/1/02]

441—153.31 to 153.50 Reserved.

DIVISION IV
STATE PAYMENT PROGRAM FOR LOCAL MENTAL HEALTH, MENTAL RETARDATION, AND
DEVELOPMENTAL DISABILITIES SERVICES TO ADULTS WITHOUT LEGAL SETTLEMENT

PREAMBLE

The state payment program provides 100 percent state funds to pay for local mental health, mental retardation, and developmental disabilities services for eligible adults who have no legal settlement in Iowa. The state payment program is intended to enable all eligible residents to receive services from the county mental health, mental retardation and developmental disabilities services fund through the county central point of coordination, regardless of the resident's legal settlement status.

Three basic principles underlie the state payment program.

First, duration of residency, including legal settlement, is not an eligibility factor for local mental health, mental retardation, and developmental disabilities service programs. The state payment program ensures that each of the local mental health, mental retardation, and developmental disabilities services provided by an Iowa county to residents who have legal settlement is also available to residents of that county who do not have legal settlement.

Second, each state is responsible to provide care and services for its own residents. Iowa provides for residents of Iowa.

Third, one's own family is of primary importance to one's well-being. Thus, the state payment program emphasizes that care and services for a person be provided near the person's own family, unless this is contraindicated or impossible to provide.

441—153.51(331) Definitions.

"Adult" means a person who is 18 years of age or older and is a United States citizen or a qualified alien as defined in 8 U.S.C. §1641.

"Applicant" means a person for whom payment is requested from the state payment program.

"Approved county management plan" means the county plan for mental health, mental retardation, and developmental disabilities services developed pursuant to Iowa Code section 331.439 that has been approved by the department's director.

"Central point of coordination" or *"CPC"* means the administrative entity designated by a county board of supervisors or by the boards of supervisors of a consortium of counties to act as the single entry point to the service system established under an approved county management plan.

"County of residence" means the county in Iowa where, at the time an adult applies for or receives services, the adult is living and has established an ongoing presence with the declared, good-faith

intention of living permanently or for an indefinite period. The county of residence of an adult who is a homeless person is the county where the adult usually sleeps. "County of residence" does not mean the county where the adult is present for the purpose of:

1. Attending a college or university; or
2. Receiving services in a hospital, a correctional facility, a nursing facility, an intermediate care facility for persons with mental retardation, or a residential care facility.

The county of residence may be transferred using procedures set forth in subrule 153.53(5).

"*Department*" means the Iowa department of human services.

"*Division*" means the division of mental health and disability services of the department of human services.

"*Homeless person*" means a person who lacks a fixed, regular, and adequate nighttime residence and who has a primary nighttime residence that is one of the following:

1. A supervised publicly or privately operated shelter designed to provide temporary living accommodations.
2. An institution that provides a temporary residence for persons intended to be institutionalized.
3. A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

"*Legal representative*" means a person recognized by law as standing in the place or representing the interests of another; for example, a guardian, conservator, custodian, parent of a minor, or the executor, administrator or next of kin of a deceased person.

"*Legal settlement*" is a legal status as defined in Iowa Code sections 252.16 and 252.17.

"*Member*" means a person authorized by the division to receive benefits from the state payment program.

"*Provider*" means a provider of mental health, mental retardation, or developmental disabilities services that has a valid contract for the service with a county to provide services under a county management plan.

"*Resident,*" for purposes of division IV of this chapter, means a person who is present in the state and who has established an ongoing presence with the declared, good-faith intention of living in Iowa permanently or for an indefinite period.

441—153.52(331) Eligibility requirements. To be eligible for the state payment program, an applicant must meet all of the following conditions.

153.52(1) *Adult status.* The applicant shall be an adult as defined in 441—153.51(331).

153.52(2) *Residency.* The applicant shall be a resident of Iowa, present in the state and without legal settlement in an Iowa county. The applicant shall not be in Iowa for purposes of a visit or vacation nor be traveling through the state to another destination at the time of application for services.

153.52(3) *Eligibility under county management plan.* The applicant shall meet the eligibility criteria established in the approved county management plan for the applicant's county of residence.

153.52(4) *Payment source.* The applicant shall have no other political entity, organization, or other source responsible for provision of or payment for the needed services nor be eligible to have the service funded or provided at no additional cost to the state by another state-funded or federally funded facility or program. The department may, on a case-by-case basis, attempt collection from a legally responsible entity.

441—153.53(331) Application procedure.

153.53(1) *Initiation of application.* The county CPC or the CPC's designee shall be responsible for applying for state payment program funding for any person who may be eligible and whose county of residence is that county.

a. When an applicant is awaiting discharge from a state mental health institute or state resource center, the facility's social worker shall initiate the application and forward it to the CPC of the applicant's county of residence for completion. If the applicant has no clear county of residence, the application

shall be forwarded to the county where the applicant intends to establish residency upon discharge. This county may be designated by the applicant's declaration.

b. Applications shall be made only with the knowledge and consent of the applicant or the applicant's legal representative.

153.53(2) Application requirements. The CPC or the CPC's designee shall complete the application, preferably in electronic format. A complete application shall include:

a. A funding request for the applicant showing the total monthly dollar amount needed for services;

b. A copy of a legal settlement worksheet that is completed in accordance with provisions of Iowa Code chapter 252 and other applicable laws and rulings of courts; and

c. The client profile report (or equivalent) from a CPC application that contains information necessary for the division to enter the member into the data system used for payment processing.

153.53(3) Application submission. The CPC or the CPC's designee shall submit the complete application as defined in subrule 153.53(2) to the division within 15 business days of the date the CPC or designee receives a completed and signed CPC application form containing a properly completed legal settlement worksheet.

153.53(4) Application date. The date of application is the date of the CPC application form, the date on court documents, or October 1, 2006, whichever is later. This date may be used as the effective date of eligibility when the complete application is received in the division within 60 business days of the CPC application date or the date on court documents.

153.53(5) Transfer of county of residence. The designated county of residence for an adult may be transferred when it seems more reasonable for the county in which the person is receiving services to assume management of the services.

a. Examples of situations where transfer may be reasonable include, but are not limited to:

(1) The person receiving services has been in a facility for more than a year; and the person no longer has any connection to the county of residence, such as relatives who live there, and, so far as anyone can tell, has no desire to return to the county of residence.

(2) The person receiving services was in the state and county of residence for such a short time before needing services that no real attachment was established in the county of residence.

(3) The person is a student attending a college or university but lives and works in the community 12 months per year.

b. If the county of residence desires a transfer and the county in which the person is receiving services agrees, the county accepting the transfer shall notify the department's state payment program manager. The new county of residence shall complete the application procedures, if necessary, and maintain responsibility for the person's case.

c. If the county of residence desires a transfer and the county in which the services are being received does not agree, the county of residence may appeal for resolution to the residency team established by the mental health, mental retardation, developmental disabilities, and brain injury commission. Either county may appeal the decision of the residency team using the procedures in 441—Chapter 7.

441—153.54(331) Eligibility determination.

153.54(1) Approval by county.

a. The CPC or the CPC's designee shall determine whether an applicant is eligible for services based on the eligibility guidelines contained in the approved county management plan for the applicant's county of residence.

b. The county shall apply any policies and procedures regarding waiting lists to state payment program applicants in the same manner as it applies them to persons who have legal settlement in that county.

153.54(2) Certification by the department. Within 15 business days after receipt of a complete application as specified in subrule 153.53(2), division staff shall certify the applicant's eligibility for the state payment program to the central point of coordination.

a. The applicant's legal settlement status shall be ascertained in accordance with Iowa Code sections 252.16 and 252.17 and with other applicable laws, rulings of courts and opinions of the Iowa attorney general.

b. The division shall institute a waiting list for state payment program clients if the appropriation becomes fully encumbered. The division shall promptly notify all counties if a waiting list is to be instituted because of a lack of state funding.

153.54(3) Effective date of eligibility.

a. An applicant's eligibility for state payment program funding shall be effective from the date of application.

b. A member shall remain eligible until:

(1) The member has not received services for 12 months; or

(2) The CPC in the county of residence notifies the state payment program manager that the member is no longer eligible.

153.54(4) Notification of eligibility decisions. The CPC or the CPC's designee shall notify the applicant or member of the following decisions in accordance with CPC requirements and procedures:

a. Certification of the applicant's eligibility.

b. A change in a member's services, including termination of service.

441—153.55(331) Eligible services. Services eligible for reimbursement under the state payment program are the services defined in the approved county management plan of the applicant's county of residence.

153.55(1) Purchased services.

a. Service management may be provided through a county CPC process during the period for which services are paid.

b. The county may pay for services as long as the member is eligible and the following criteria are met:

(1) The member is receiving a service that requires funding from the state payment program.

(2) The service is provided under the approved county management plan of the member's county of residence.

(3) The member's county of residence provides or pays for the service from the county mental health, mental retardation, and developmental disabilities services fund for persons who have legal settlement in the county.

(4) Service providers bill the other payment systems for which the member is eligible before billing the county of residence.

153.55(2) Excluded costs. The following costs are excluded from payment by the state payment program:

a. Services received before the effective date of eligibility.

b. The cost of local services that the member is eligible to have funded by private sources or by other state or federal programs or funds such as medical assistance program services or services provided in a state institution.

441—153.56(331) Program administration.

153.56(1) CPC responsibilities.

a. Financial participation on the part of the member shall be governed by the financial participation provisions of the approved county management plan of the member's county of residence.

b. The CPC or the CPC's designee shall submit to the division's state payment program manager by the fifth business day of each month a report on the eligible services paid for during the previous month. The report shall be submitted electronically and shall include the following data in each record:

(1) The calendar month and year in which the county made the payment.

(2) The name of the county submitting the information.

(3) The member's name.

(4) The member's state identification number.

- (5) The member's identification number as assigned under subparagraph 153.56(2) "a"(2).
- (6) The member's diagnostic group code.
- (7) The provider's name.
- (8) The chart of accounts code for each service paid.
- (9) The number of units paid (if applicable).
- (10) The beginning date of each service for which the county paid.
- (11) The ending date of each service for which the county paid.
- (12) The dollar amount paid.

c. The CPC or the CPC's designee shall include payments made on behalf of members in the data warehouse annual reports required by 441—Chapter 25, Division IV.

153.56(2) Department responsibilities. As the sponsoring agency, the department shall be responsible for:

- a. Enrolling members as necessary to produce payment to the counties, including:
 - (1) Maintaining member information in the data system for payment;
 - (2) Notifying counties of the member identification number required for billing; and
 - (3) Closing data system files on members as directed by the counties, or when the member has not had any payments processed for a 12-month period.
- b. Verifying receipt of monthly payment report files. Within 15 business days of receipt of each county's monthly payment report file, the department shall:
 - (1) Identify the county's payment amount for that month and the number of clients included in the payment; and
 - (2) Notify the county of any clients whose costs were denied and the reason for the denial.
- c. Generating and reconciling payments to the counties.
- d. Receiving and auditing reports of member activity and expenditures from the counties.

153.56(3) Payment to counties. The following policies shall govern payment to counties for services furnished to members:

- a. *Monthly payment.* Beginning in May 2007, the department shall make a monthly payment to each county based on the expense report for the previous month that was submitted by the county pursuant to paragraph 153.56(1) "b." The department shall process monthly payments by the twentieth day of each month.
- b. *Prospective payment.* The department may make a prospective payment to the county for cash flow purposes by July 10 of each year.
 - (1) The prospective payment shall be based on the sum of the expense reports that the department received from the county in April, May, and June of that year.
 - (2) For the state fiscal year ending June 30, 2007, the payments made to the county on or before April 1, 2007, shall be considered the prospective payment.
- c. *Payment reconciliation.* The department and counties shall reconcile the total of the prospective payment and monthly payments made to a county with the total actual expenses paid by the county for that same period.
- d. *Payment adjustment.* Beginning in April of each year, the department may adjust the monthly payment to the county to:
 - (1) Spend down the balance of the prospective payments previously made; or
 - (2) Make additional payment to ensure that the county has sufficient moneys for cash flow purposes.
- e. *Deductions.* For the state fiscal year ending June 30, 2007, moneys that the county received but did not expend, according to the report required by paragraph 153.56(1) "b," shall be deducted from the county's subsequent payment.

441—153.57(331) Reduction, denial, or termination of benefits. The member's state payment program benefits may be denied, terminated or reduced according to the provisions of the approved county management plan of the member's county of residence.

441—153.58(331) Appeals.

153.58(1) Decisions regarding eligibility of any applicant, decisions regarding instituting a waiting list because the appropriation has been fully encumbered, and decisions adversely affecting applicants or members who are not eligible may be appealed pursuant to 441—Chapter 7.

153.58(2) Decisions (other than eligibility) adversely affecting applicants or members shall be appealed pursuant to the county CPC's appeal provisions.

These rules are intended to implement Iowa Code section 331.440 as amended by 2006 Iowa Acts, chapter 1115, division III.

CHAPTER 154

Rescinded IAB 9/6/89, effective 11/1/89

[See 441—Chapter 168]

CHAPTER 155
CHILD ABUSE PREVENTION PROGRAM

[Prior to 7/1/83, Social Services[770] Ch 146]
[Previously appeared as Ch 146—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services[498]]

441—155.1(235A) Definitions.

“*Advisory council*” or “*council*” means the child abuse prevention program advisory council created by 1982 Iowa Acts, chapter 1259.

“*Child abuse prevention program*” or “*program*” means that program established by 1982 Iowa Acts, chapter 1259. Use of either term in the context of this chapter refers to the program as a whole rather than individual projects funded under the program.

“*Commissioner*” means the commissioner of the department of human services.

“*Community based volunteer coalition or council*” or “*community council*” means that group of persons who, by consensus of a community’s human service providers, represent that community’s interests in the area of prevention of child abuse and neglect and who serve in the representational capacity without compensation. The consensus of the community’s human service providers may be demonstrated through letters of support or similar documentation.

“*Contractor*” means the single agency or organization with which the department contracts for administration of the child abuse prevention program funds.

“*Department*” means the Iowa department of human services.

“*Fiscal year*” means the 12-month period for which child abuse prevention program funds are appropriated.

“*Grantees*” or “*projects*” are terms used in this chapter to refer to the individual projects funded under the child abuse prevention program as approved by the advisory council.

441—155.2(235A) Child abuse prevention program administration. In any year in which the legislature appropriates funds for the child abuse prevention program, the department shall contract with a single agency or organization to administer the appropriated funds and to study and evaluate community based prevention projects and educational programs for the problems of families and children in accordance with the provisions of 1982 Iowa Acts, chapter 1259, and of these rules. Any grants, gifts or bequests to the department which are specifically designated by their source for use in the child abuse prevention program shall be administered in the same manner as funds appropriated for use in the program.

155.2(1) Eligibility for the program administration contract is limited to nonprofit statewide agencies or organizations which make maximum use of voluntary administrative services.

155.2(2) Agencies or organizations wishing to apply for the program administration contract shall submit a proposal to the department two months prior to the commencement of the fiscal year. Contract proposals shall contain the following information:

a. A description of the organization or agency requesting the contract including a table of organization and articles of incorporation and a description of other services provided by the organization or agency.

b. A list of the amount and source of current funding and other funding applied for, including the current status of the applications, and the fiscal year budget, for the agency or organization.

c. A description of the proposed plan for administration of the program including:

(1) An action plan which details the use of paid and volunteer staff.

(2) A fiscal year budget showing proposed use of child abuse prevention program funds.

(3) A timetable for implementing the program.

(4) A description of the method to be used to determine whether the goals of the program, as defined by these rules, are being met.

(5) A description of methods to be used to evaluate the success of prevention projects.

(6) A description of proposed methods of coordinating the child abuse prevention program with services of other existing agencies and organizations.

d. Letters of support, especially from relevant professionals.

155.2(3) The commissioner or the commissioner's designee shall rank all proposals submitted for the program administration contract based upon the three factors listed below in this subrule. The contract shall be awarded to the agency or organization whose proposal receives the highest total ranking when the rankings for all three factors are added together. The factors which shall be considered in selecting the contractor are:

a. The general structure of the applicant agency or organization including but not limited to how well the program goals as established by the advisory council can be met, the stability of the applicant, the overall quality in comparison to other proposals offered.

b. The plan for using the funds and the ability of the applicant to administer the program.

c. The ability of the department to coordinate with other existing services.

155.2(4) The department shall execute a contract with the contractor for the amount of funds to be used by the contractor for program administration. The contract period shall not extend beyond the fiscal year for which the funds were appropriated. Contractor expenditures will be reimbursed monthly by the state following submission of a Voucher 1 which details expenditures. The contractor shall submit with the Voucher 1 receipts for all expenditures other than salary expenses.

155.2(5) The contractor shall keep statistical records of services provided, clients served, grants awarded, funds expended, and any other records required by the department as specified in the contract.

155.2(6) The contractor shall supply the department with quarterly progress reports that include but are not limited to the following information:

a. Grants awarded, funds expended, and progress of projects.

b. A compilation of the status of activities shown in the timetable for implementing the program.

c. Reasons for any delay in completion of planned activities.

d. Specific action plan for the following quarter.

e. A compilation of statistical records that the contractor is required to keep by subrule 155.2(5).

f. Any general comments on the progress of the program.

155.2(7) With the assistance of the advisory council, the department shall evaluate the contractor's program administration at least two months prior to the end of the contract year to determine how well the goals of the program are being met.

155.2(8) The contractor may terminate the contract at any time during the contract period by giving 30 days' notice to the department. The department may terminate the contract upon 10 days' notice when the contractor fails to comply with the contract stipulations, standards, or conditions. The department may terminate the contract at any time during the contract period by giving 30 days' notice to the contractor.

441—155.3(235A) Project eligibility. In any year in which the department contracts with an agency or organization for the administration of child abuse prevention program funds, the contractor shall award the amount of funds specified in the contract for the purposes of matching federal funds to purchase services relating to community based programs for the prevention of child abuse and neglect and of funding the establishment or expansion of community based prevention projects or educational programs for the prevention of child abuse and neglect. Funds for the program or projects shall be applied for and received by community based volunteer coalition or councils.

441—155.4(235A) Proposals. The contractor shall widely disseminate a request for project proposals which fully describes the child abuse prevention program and procedures for applying for program funds. Community councils wishing to apply for funding shall submit a project proposal to the contractor within 30 days of the date of the request for proposals. Project proposals shall contain the following information:

155.4(1) A brief narrative describing the community council requesting funding.

155.4(2) A brief description of other services provided by the community council.

155.4(3) A statement of the unmet needs to be addressed by the services, including supporting statistics when available.

155.4(4) A description of the prevention services for which funding is being requested which includes but is not limited to the following:

- a. The target population to be served.
- b. Any service eligibility requirements which will be established by the council.
- c. The anticipated source of referrals for the services.
- d. The anticipated number of clients to be served.
- e. A statement of the anticipated measurable outcomes of the service provision and the means of determining these outcomes.
- f. Job descriptions and requirements for any new positions.

155.4(5) The proposal fiscal year budget for the services, other sources of income, plans for future funding of the service, including written commitments when possible, and any anticipated request for funding beyond the first year.

155.4(6) The applicant's statement of cooperation and coordination with existing service programs to avoid duplications and share resources. Similar statements from the existing service programs.

155.4(7) Letters of local support, especially from relevant professionals.

441—155.5(235A) Selection of project proposals.

155.5(1) All proposals for funding shall be reviewed by the contractor who shall make recommendations to the advisory council on project selection.

155.5(2) The advisory council shall make the final decision with respect to the approval of project grants.

155.5(3) The following factors will be considered in the contractor's recommendations and in the selection of proposals:

- a. The demonstrated need for the service in the geographical area served.
- b. The community support demonstrated and the cooperation and coordination with existing agencies.
- c. The efforts of the project to secure other funding.
- d. The general project structure including but not limited to, how well goals can be met, how realistic the objectives are, the administration of funds, stability of the organization, the overall quality in comparison to other proposals and services offered.
- e. The plan for using the funds. The funds may be used only for purposes set forth in 441—155.3(235A).

155.5(4) The applicant may be requested to modify the proposal through the contracting process.

441—155.6(235A) Project contracts. The contractor shall execute a contract with each grantee for the amount of funds awarded to each project. The total amount of funds awarded shall not exceed the amount appropriated for the program less the administrative costs of the contractor. The contract period shall not extend beyond the fiscal year for which the funds were appropriated. The grantee shall submit a Voucher 1 to the contractor by the fifteenth day of the month following the month in which grantee expenses have been incurred. On the Voucher 1, the grantee shall enter the total monthly expenditures for each approved line item established in the project contract. With the Voucher 1 the grantee shall submit receipts for all expenses other than salary expenses. The contractor shall approve reimbursement of all expenses appropriately incurred by the grantee pursuant to the grantee's contract. Approved expenditures of the grantee will be reimbursed by the state monthly.

441—155.7(235A) Project records. Grantees shall keep statistical records of services provided and any other records as required by the contractor and specified in the project contract.

441—155.8(235A) Quarterly project progress reports. All grantees shall supply the contractor with quarterly progress reports that include but are not limited to the following information.

155.8(1) The grant dollars expended as they relate to each line item in the budget.

155.8(2) A list of activities completed on schedule.

155.8(3) Any activities not completed on schedule and the reason for the delay.

155.8(4) The number of clients served and the services provided.

155.8(5) The major goals for the next quarter.

155.8(6) Any general comments on the progress of the project.

441—155.9(235A) Evaluation. The contractor and department shall evaluate the grantee's project at least once per year at least two months prior to the end of the contract year to determine how well the purposes and goals of the project are being met. Funds are to be spent to meet project goals as provided in the contract.

441—155.10(235A) Termination. The project contract may be terminated by the grantee at any time during the contract period by giving 30 days' notice to the contractor. The contractor may terminate a project contract upon 10 days' notice when the grantee or any of its subcontractors fails to comply with the grant award stipulations, standards, or conditions. Within 45 days of the termination, the grantee shall supply the contractor with a financial statement detailing all costs up to the effective date of the termination.

441—155.11(235A) Advisory council. The advisory council shall establish specific program goals each fiscal year in which program funds are appropriated. The department shall consult with the advisory council in evaluating the contractor's program administration. The contractor shall obtain approval of the advisory council, pursuant to 441—155.5(235A) prior to awarding project grants. The contractor shall consult with the advisory council in evaluating the effectiveness of funded projects in meeting project goals.

155.11(1) The advisory council shall report at least once each fiscal year to the council on human services as to the operation of the child abuse prevention program. The report shall include all pertinent information regarding the effectiveness of the program projects, the competence of program administration and any recommendations regarding changes in administrative rules governing the program.

155.11(2) Reserved.

These rules are intended to implement Iowa Code chapter 235A.

CHAPTER 156
PAYMENTS FOR FOSTER CARE
AND FOSTER PARENT TRAINING

[Prior to 7/1/83, Social Services[770] Ch 137]
[Previously appeared as Ch 137—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services[498]]

441—156.1(234) Definitions.

“Basic family foster care” means the 24-hour care and supervision of a child provided by a licensed foster family. It includes the provision of food, lodging, clothing, shelter, support, ordinary transportation, recreation, and training which is appropriate for the child’s age, mental, and physical capacity. It also includes assisting and contributing to the creation and updating of a child’s lifebook and personal history, as well as assisting the child in maintaining cultural and ethnic connections.

“Basic maintenance payment” means the monthly reimbursement paid to foster parents for providing basic family foster care. The payment is based on the schedule found in subrule 156.6(1).

“Child welfare services” means age-appropriate activities to maintain a child’s connection to the child’s family and community, to promote reunification or other permanent placement, and to facilitate a child’s transition to adulthood.

“Cost of foster care” means the maintenance and supervision costs of foster family care, the maintenance costs of group care, and the maintenance and service costs of supervised apartment living and shelter care. The cost for foster family care supervision and supervised apartment living services, when provided directly by the department caseworker rather than purchased from a provider, shall be \$250 per month. When using this average monthly charge results in unearned income or parental liability being collected in excess of the cost of foster care, the excess funds shall be placed in the child’s escrow account. The cost for foster family supervision and supervised apartment living services purchased from a private provider shall be the actual costs paid by the department.

“Department” means the Iowa department of human services.

“Difficulty of care maintenance payment” means a monthly payment made, in addition to the basic maintenance payment, to foster parents providing care to a special needs child to cover the extra expenses, care and supervision, associated with the child’s special needs.

“Director” means the director of the child support recovery unit of the department or the director’s designee.

“Earned income” means income in the form of a salary, wages, tips, bonuses, commissions earned as an employee, income from job corps or profit from self-employment.

“Emergency foster family care” means a foster care placement in a licensed foster home in which the family is willing to accept children with less than 24-hour notice. These placements are intended to be limited to 30 days or less, although some placements may extend longer. The emergency maintenance payment is based on the schedule found in rule 441—156.11(234).

“Escrow account” means an interest bearing account in a bank or savings and loan association which is maintained by the department in the name of a particular child.

“Family foster care supervision” means the support, assistance, and oversight provided by department or private agency caseworkers to children in family foster care which is directed toward achievement of the child’s permanency plan goals.

“Foster care” means substitute care furnished on a 24-hour-a-day basis to an eligible child, in a licensed or approved facility, by a person or agency other than the child’s parent or guardian, but does not include care provided in a family home through an informal arrangement for a period of less than 20 days. Child foster care shall include but is not limited to the provision of food, lodging, training, education, supervision and health care.

“Foster family care” means foster care provided in a single family living unit licensed by the department according to 441—Chapter 113 or licensed or approved by the state in which it is located.

“Foster family home study” means the initial written report and the annual update containing documentation of the family’s compliance with 441—Chapter 113, an assessment of the family’s ability to provide foster care, and a licensing recommendation.

“*Group care maintenance*” means food, clothing, shelter, school supplies, personal incidentals, daily care, general parenting, discipline, and supervision of children to ensure their well-being and safety, and administration of maintenance items provided in a group care facility.

“*Income*” means earned and unearned income.

“*Mental health professional*” means the same as defined in rule 441—24.61(225C,230A).

“*Mentally retarded*” means a child meeting the definition in Iowa Code section 222.2(5).

“*Mental retardation professional*” means the same as defined in the department of inspections and appeals subrule 481—57.1(15).

“*Parent*” means the biological or adoptive parent of the child.

“*Parental liability*” means a parent’s liability for the support of a child during the period of foster care placement. Liability shall be determined pursuant to 441—Chapter 99, Division I.

“*Personal allowance*” means the family investment program schedule of living costs for the areas of food, clothing, personal care and supplies, medicine chest items and communications as defined in 441—subrules 41.8(2) and 41.28(2).

“*Physician*” means a licensed medical or osteopathic doctor as defined in rule 441—77.1(249A).

“*Required school fees*” means fees required for the participation in school or extracurricular activities and fees related to enrolling a child in preschool when a mental health or mental retardation professional has recommended school attendance.

“*Service area manager*” means the department employee or designee responsible for managing department offices within a department service area and for implementing policies and procedures of the department.

“*Special needs child*” means a child with one or more of the following conditions:

1. The child has been diagnosed by a physician to have a disability which substantially limits one or more major life activities; and requires professional treatment, assistance in self-care, or the purchase of special adaptive equipment.

2. The child has been determined by a qualified mental retardation professional to have mental retardation.

3. The child has been diagnosed by a qualified mental health professional to have a psychiatric condition which impairs the child’s mental, intellectual, or social functioning.

4. The child has been diagnosed by a qualified mental health professional to have a behavioral or emotional disorder characterized by situationally inappropriate behavior, which deviates substantially from behavior appropriate to the child’s age or which significantly interferes with the child’s intellectual, social, or personal adjustment.

5. The child has been diagnosed by a qualified medical professional, mental health professional, or substance abuse treatment supervisor as having a substance abuse problem.

6. The child is an unaccompanied refugee minor.

7. The child has been adjudicated delinquent.

8. The child has been diagnosed as HIV-infected or has had an HIV-positive test result by a qualified medical professional.

“*Substance abuse treatment supervisor*” means the same as defined in the substance abuse commission rule 643—3.1(125) as treatment supervisor.

“*Unearned income*” means any income which is not earned income and includes supplemental security income (SSI) and other funds available to a child residing in a foster care placement.

This rule is intended to implement Iowa Code section 234.39.

441—156.2(234) Foster care recovery. The department shall recover the cost of foster care provided by the department pursuant to the rules in this chapter and the rules in 441—Chapter 99, Division I, which establishes policies and procedures for the computation and collection of parental liability.

156.2(1) Funds shall be applied to the cost of foster care in the following order and each source exhausted before utilizing the next funding source:

- a. Unearned income of the child.

- b. Parental liability of the noncustodial parent.

c. Parental liability of custodial parent(s).

156.2(2) The department shall serve as payee to receive the child's unearned income. When a parent or guardian is not available or is unwilling to do so, the department shall be responsible for applying for benefits on behalf of a child placed in the care of the department. Until the department becomes payee, the payee shall forward benefits to the department. For voluntary foster care placements of children aged 18 and over, the child is the payee for the unearned income. The child shall forward these benefits, up to the actual cost of foster care, to the department.

156.2(3) The custodial parent shall assign child support payments to the department.

156.2(4) Unearned income of a child and parental liability of the noncustodial parent shall be placed in an account from whence it shall be applied toward the cost of the child's current foster care and the remainder placed in an escrow account.

156.2(5) When a child has funds in escrow these funds may be used by the department to meet the current needs of the child not covered by the foster care payments and not prohibited by the source of the funds.

156.2(6) When the child leaves foster care, funds in escrow shall be paid to the custodial parent(s) or guardian or to the child when the child has attained the age of majority, unless a guardian has been appointed.

156.2(7) When a child who has unearned income returns home after the first day of a month, the remaining portion of the unearned income (based on the number of days in the particular month) shall be made available to the child and the child's parents, guardian or custodian, if the child is eligible for the unearned income while in the home of a parent, guardian or custodian.

This rule is intended to implement Iowa Code section 234.39.

441—156.3(252C) Computation and assessment of parental liability. Rescinded IAB 3/13/96, effective 5/1/96.

441—156.4(252C) Redetermination of liability. Rescinded IAB 3/13/96, effective 5/1/96.

441—156.5(252C) Voluntary payment. Rescinded IAB 3/13/96, effective 5/1/96.

441—156.6(234) Rate of maintenance payment for foster family care.

156.6(1) Basic rate. A monthly payment for care in a foster family home licensed in Iowa shall be made to the foster family based on the following schedule:

<u>Age of child</u>	<u>Daily rate</u>
0 through 5	\$16.36
6 through 11	\$17.01
12 through 15	\$18.62
16 or over	\$18.87

156.6(2) Out-of-state rate. A monthly payment for care in a foster family home licensed or approved in another state shall be made to the foster family based on the rate schedule in effect in Iowa, except that the service area manager or designee may authorize a payment to the foster family at the rate in effect in the other state if the child's family lives in that state and the goal is to reunite the child with the family.

156.6(3) Mother and child in foster care. When the child in foster care is a mother whose young child is in placement with her, the rate paid to the foster family shall be based on the daily rate for the mother according to the rate schedule in subrules 156.6(1) and 156.6(4) and for the child according to the rate schedule in subrule 156.6(1). The foster parents shall provide a portion of the young child's rate to the mother to meet the partial maintenance needs of the young child as defined in the case permanency plan.

156.6(4) Difficulty of care payment.

a. For placements made before January 1, 2007, when foster parents provide care to a special needs child, the foster family shall be paid the basic maintenance rate plus \$5 per day for extra expenses associated with the child's special needs. This rate shall continue for the duration of the placement.

b. When a foster family provides care to a sibling group of three or more children, an additional payment of \$1 per day per child may be authorized for each nonspecial needs child in the sibling group.

c. When the foster family's responsibilities in the case permanency plan include providing transportation related to family or preplacement visits outside the community in which the foster family lives, the department worker may authorize an additional maintenance payment of \$1 per day. Expenses over the monthly amount may be reimbursed with prior approval by the worker. Eligible expenses shall include the actual cost of the most reasonable passenger fare or gas.

d. Effective January 1, 2007, when a foster family provides care to a child who was receiving behavioral management services for children in therapeutic foster care in that placement as of October 31, 2006, the foster family shall be paid the basic maintenance rate plus \$15 per day for that child. This rate shall continue for the duration of the placement.

e. Effective January 1, 2007, when a service area manager determines that as of October 31, 2006, a foster family was providing care for a child comparable to behavioral management services for children in therapeutic foster care, except that the placement is supervised by the department and the child's treatment plan is supervised by a physician, mental health professional, or mental retardation professional, the foster family shall be paid the basic maintenance rate plus \$15 per day for that child. This rate shall continue for the duration of the placement.

f. For placements made on or after January 1, 2007, the supervisor may approve an additional maintenance payment above the basic rate in subrule 156.6(1) to meet the child's special needs as identified by the child's score on Form 470-4401, Foster Child Behavioral Assessment. The placement worker shall complete Form 470-4401 within 30 days of the child's initial entry into foster care.

(1) Additional maintenance payments made under this paragraph shall begin no earlier than the first day of the month following the month in which Form 470-4401 is completed and shall be awarded as follows:

1. Behavioral needs rated at level 1 qualify for a payment of \$5 per day.
2. Behavioral needs rated at level 2 qualify for a payment of \$10 per day.
3. Behavioral needs rated at level 3 qualify for a payment of \$15 per day.

(2) The department shall review the child's need for this difficulty of care maintenance payment using Form 470-4401:

1. Whenever the child's behavior changes significantly;
2. When the child's placement changes;
3. After termination of parental rights, in preparation for negotiating an adoption subsidy or pre-subsidy payment; and
4. Before a court hearing on guardianship subsidy.

g. All maintenance payments, including difficulty of care payments, shall be documented on Form 470-0716, Foster Family Placement Contract.

h. Rescinded IAB 1/3/07, effective 1/1/07.

156.6(5) Payment method. All maintenance payments to foster families supervised by the department or a licensed private child caring agency shall be made directly to the foster family by the department.

156.6(6) Compliance transition period. Rescinded IAB 6/9/93, effective 8/1/93.

This rule is intended to implement Iowa Code section 234.38.

441—156.7(234) Purchase of family foster care services.

156.7(1) Types of services. Rescinded IAB 4/11/07, effective 7/1/07.

156.7(2) Family foster care supervision. Purchased family foster care supervision shall meet the following requirements:

a. Services shall be provided in accordance with rule 441—108.7(234) and shall include visits with the child and foster family at a minimum frequency of not less than one visit every 35 days.

b. Services shall:

(1) Occur on a face-to-face basis.

(2) Be directed toward the child and shall include the child or the foster family.

(3) Be delivered in whatever locations the referral worker's social casework findings indicate are appropriate to ensure that all reasonable efforts are being made to meet the child's needs.

c. The department shall determine when to refer a child to a private agency for family foster care supervision and shall specify the maximum number of units and the duration of services authorized on Form 470-3055, Referral and Authorization for Child Welfare Services.

d. Units of service shall be provided in one-half hour increments.

e. Services shall be reimbursed for each billable unit of family foster care supervision authorized and delivered. The unit rate shall be determined according to the policies in rules 441—185.101(234) to 441—185.108(234).

f. The provider shall develop a service plan which meets the following requirements:

(1) The provider shall develop a service plan for each child receiving supervision services. The service plan shall be developed in collaboration with the referral worker, family, child, and foster parents unless the service plan contains documentation of the rationale for not involving one of these parties.

(2) Service plans shall be developed within 30 calendar days of initiating services. The provider shall document the dates and content of any collaboration on the service plan.

(3) Service plans shall describe the supervision service goals and objectives, the supervision services to be provided, and persons responsible for providing the supervision services.

(4) Each service plan shall identify the individual who will monitor the supervision services being provided to ensure that they continue to be necessary and consistent with the case permanency plan developed or modified by the referral worker.

(5) Each service plan shall be reviewed 90 calendar days from the initiation of services and every 90 calendar days thereafter for the duration of supervision services or when any changes to the case permanency plan are made. The person reviewing the plan shall sign and date each review. If the review determines that the service plan is inconsistent with the case permanency plan, the provider's service plan shall be revised to reflect case permanency plan expectations.

(6) The provider shall provide a copy of all service plans and plan reviews to the family and referral worker, unless otherwise ordered by the court.

g. The provider shall receive approval from the referral worker on Form 470-3055, Referral and Authorization for Child Welfare Services, before increasing the amount or duration of services beyond what was previously approved. Based on their ongoing assessment activities, providers may communicate family service needs they believe are not adequately addressed in the department case permanency plan at any time during their provision of services.

h. The provider shall prepare a written report of termination activities which identifies the reason for termination, date of termination, and the recommended action or referrals upon termination.

i. The provider shall maintain a confidential individual record for each child receiving supervision services. The record shall include the following:

(1) Case permanency plan as supplied by the referral worker.

(2) Documentation of billed services which shall include: the specific services rendered, the date and amount of time services were rendered, who rendered the services, the setting in which services were rendered, and updates describing the client's progress.

(3) All service plans and service plan reviews developed by the agency.

(4) Correspondence with the referral worker regarding changes in the case permanency plan or service plan or requests for approval of additional services and any relevant evaluation activities.

(5) Progress reports 90 calendar days after initiating services and every 90 calendar days thereafter which summarize progress and problems in achieving the goals and objectives of the service plan. The progress report shall be written in conjunction with the service plan review and shall be completed no more than 15 calendar days before the report is due or 15 calendar days after the report is due. The

provider shall provide a copy of all detailed progress reports to the family and referral worker, unless otherwise ordered by the court.

(6) Termination reports.

(7) Additional reports if requested by the referral worker.

(8) Form 470-3055, Referral and Authorization for Child Welfare Services.

156.7(3) *Family foster care treatment services.* Rescinded IAB 11/8/06, effective 11/1/06.

156.7(4) *Foster family home studies.* Rescinded IAB 4/11/07, effective 7/1/07.

156.7(5) *Purchasing services for individual children.* Rescinded IAB 4/11/07, effective 7/1/07.

156.7(6) *Billing procedures.* Billings shall be prepared and submitted pursuant to rule 441—185.121(234).

441—156.8(234) Special needs.

156.8(1) *Clothing allowance.* When in the judgment of the worker clothing is needed at the time the child is removed from the child's home and placed in foster care, an allowance may be authorized, not to exceed \$250, to purchase clothing.

A second clothing allowance, not to exceed \$200 for family foster care and \$100 for all other levels, may be approved, not more than once within a calendar year, by the worker when a child in foster care needs clothing to replace lost clothing or because of unusual growth or weight change, and the child does not have escrow funds.

156.8(2) *Supervised apartment living.* When a youth is initially placed in supervised apartment living, the service area manager or designee may authorize an allowance not to exceed \$400 if the youth does not have sufficient resources to cover initial costs.

156.8(3) *Medical care.* When a child in foster care needs medical care or examinations which are not covered by the Medicaid program and no other source of payment is available, the cost may be paid from foster care funds with the approval of the service area manager or designee. Eligible costs shall include emergency room care, medical treatment by out-of-state providers who refuse to participate in the Iowa Medicaid program, and excessive expenses for nonprescription drugs or supplies. Requests for payment for out-of-state medical treatment and for nonprescription drugs or supplies shall be approved prior to the care being provided or the drugs or supplies purchased. Claims shall be submitted to the department on Form GAX, General Accounting Expenditure, within 90 days after the service is provided. The rate of payment shall be the same as allowed under the Iowa Medicaid program.

156.8(4) *Transportation for medical care.* When a child in foster family care has expenses for transportation to receive medical care which cannot be covered by the Medicaid program, the expenses may be paid from foster care funds, with the approval of the service area manager. The claim for all the expenses shall be submitted to the department on Form GAX, General Accounting Expenditure, within 90 days after the trip. This payment shall not duplicate or supplement payment through the Medicaid program. The expenses may include the actual cost of meals, parking, child care, lodging, passenger fare, or mileage at the rate granted state employees.

156.8(5) *Funeral expense.* When a child under the guardianship of the department dies, the department will pay funeral expenses not covered by the child's resources, insurance or other death benefits, the child's legal parents, or the child's county of legal settlement, not to exceed \$650.

The total cost of the funeral and the goods and services included in the total cost shall be the same as defined in rule 441—56.3(239,249).

The claim shall be submitted by the funeral director to the department on Form GAX, General Accounting Expenditure, and shall be approved by the service area manager. Claims shall be submitted within 90 days after the child's death.

156.8(6) *School fees.* Payment for required school fees of a child in foster family care or supervised apartment living exceeding \$5 may be authorized by the worker in an amount not to exceed \$50 per calendar year if the child does not have escrow funds.

156.8(7) *Respite care.* The service area manager may authorize respite for a child in family foster care for up to 24 days per calendar year per placement. Respite shall be provided by a licensed

foster family. The payment rate to the respite foster family shall be the rate authorized under rule 441—156.6(234) to meet the needs of the child, with the exception of paragraphs 156.6(4) “b” and “c.”

a. to c. Rescinded IAB 11/8/06, effective 11/1/06.

156.8(8) Tangible goods, child care, and ancillary services. To the extent that a child’s escrow funds are not available, the service area manager may authorize reimbursement to foster parents for the following:

a. Tangible goods for a special needs child including, but not limited to, building modifications, medical equipment not covered by Medicaid, specialized educational materials not covered by educational funds, and communication devices not covered by Medicaid.

b. Child care services when the foster parents are working, the child is not in school, and the provision of child care is identified in the child’s case permanency plan.

Child care services shall be provided by a licensed foster parent or a licensed or registered child care provider when available.

c. Ancillary services needed by the foster parent to meet the needs of a special needs child including, but not limited to, specialized classes when directed by the case permanency plan.

d. Ancillary services needed by the special needs child including, but not limited to, recreation fees, in-home tutoring and specialized classes not covered by education funds.

e. Requests for tangible goods, child care, and ancillary services shall be submitted to the service area manager for approval on Form 470-3056, Request for Tangible Goods, Child Care, and Ancillary Services. Payment rates for tangible goods and ancillary services shall be comparable to prevailing community standards. Payment rates for child care shall be established pursuant to 441—subrule 170.4(7).

f. Prior payment authorization shall be issued by the service area manager before tangible goods, child care, and ancillary services are purchased by or for foster parents.

441—156.9(234) Rate of payment for foster group care.

156.9(1) In-state reimbursement. Effective November 1, 2006, public and private foster group care facilities licensed or approved in the state of Iowa shall be paid for group care maintenance and child welfare services in accordance with the rate-setting methodology in this subrule.

a. A provider of group care services shall maintain at least the minimum staff-to-child ratio during prime programming time as established in the contract. Staff shall meet minimum qualifications as established in 441—Chapters 114 and 115. The actual number and qualifications of the staff will vary depending on the needs of the children.

b. Additional payment for group care maintenance may be authorized if a facility provides care for a mother and her young child according to subrule 156.9(4).

c. Reimbursement rates shall be adjusted based on the provider’s rate in effect on October 31, 2006, to reflect an estimate that group care providers will provide an average of one hour per day of group remedial services and one hour per week of individual remedial services. The reimbursement rate shall be calculated as follows:

(1) Step 1. Annualize the provider’s combined daily reimbursement rate for maintenance and service in effect on October 31, 2006, by multiplying that combined rate by 365 days.

(2) Step 2. Annualize the provider’s remedial services reimbursement rate for one hour per day of remedial services code 96153 (health and behavioral interventions - group), as established by the Iowa Medicaid enterprise, by multiplying that rate by 365 days.

(3) Step 3. Annualize the provider’s remedial services reimbursement rate for one hour per week of remedial services code 96152 (health and behavioral interventions - individual), as established by the Iowa Medicaid enterprise, by multiplying that rate by 52 weeks.

(4) Step 4. Add the amounts determined in Steps 2 and 3.

(5) Step 5. Subtract the amount determined in Step 4 from the amount determined in Step 1.

(6) Step 6. Divide the amount determined in Step 5 by 365 to compute the new combined maintenance and child welfare service per diem rate.

(7) Step 7. Determine the maintenance portion of the per diem rate by multiplying the new combined per diem rate determined in Step 6 by 85.62 percent.

(8) Step 8. Determine the child welfare service portion of the per diem rate by multiplying the new combined per diem rate determined in Step 6 by 14.38 percent.

EXAMPLE: Provider A has the following rates as of October 31, 2006:

- A combined daily maintenance and service rate of \$121.45;
- A Medicaid rate for service code 96153 of \$5.10 per 15 minutes, or \$20.40 per hour;
- A Medicaid rate for service code 96152 of \$19.92 per 15 minutes, or \$79.68 per hour.

Step 1. $\$121.45 \times 365 \text{ days} = \$44,329.25$

Step 2. $\$20.40 \times 365 \text{ days} = \$7,446.00$

Step 3. $\$79.68 \times 52 \text{ weeks} = \$4,143.36$

Step 4. $\$7,446.00 + \$4,143.36 = \$11,589.36$

Step 5. $\$44,329.25 - \$11,589.36 = \$32,739.89$

Step 6. $\$32,739.89 \div 365 \text{ days} = \89.70

Step 7. $\$89.70 \times 0.8562 = \76.80 maintenance rate

Step 8. $\$89.70 \times 0.1438 = \12.90 child welfare service rate

Provider A's rates are \$76.80 for maintenance and \$12.90 for child welfare services.

d. If the Iowa Medicaid enterprise has not made a determination by October 31, 2006, on the need for remedial services for a child who is in group care placement as of that date, the department service area manager may approve a payment from state funds for the estimated daily reimbursement rate for remedial services that was used in the calculation of the provider's reimbursement rate under paragraph 156.9(1) "c." The service area manager shall document the reason for the delay in the decision on the child's need for remedial services.

(1) The service area manager may approve such payment only until the time that the Iowa Medicaid enterprise is anticipated to issue the decision regarding the child's need for remedial services. The service area manager shall not authorize payment from state funds if the Iowa Medicaid enterprise has determined that the child does not need remedial services.

(2) The payment that the service area manager may authorize shall be based on a reimbursement rate calculated as follows:

Step 1. Annualize the provider's reimbursement rate for one hour per day of remedial services code 96153 (health and behavioral interventions - group), as established by the Iowa Medicaid enterprise, by multiplying that rate by 365 days.

Step 2. Annualize the provider's remedial services reimbursement rate for one hour per week of remedial services code 96152 (health and behavioral interventions - individual), as established by the Iowa Medicaid enterprise, by multiplying that rate by 52 weeks.

Step 3. Add the amounts determined in Steps 1 and 2.

Step 4. Determine the provider's estimated daily rate for reimbursement of remedial services by dividing the amount in Step 3 by 365 days.

EXAMPLE: Provider B has the following rates as of October 31, 2006:

- A Medicaid rate for service code 96153 of \$5.10 per 15 minutes, or \$20.40 per hour;
- A Medicaid rate for service code 96152 of \$19.92 per 15 minutes, or \$79.68 per hour.

Step 1. $\$20.40 \times 365 \text{ days} = \$7,446.00$

Step 2. $\$79.68 \times 52 \text{ weeks} = \$4,143.36$

Step 3. $\$7,446.00 + \$4,143.36 = \$11,589.36$

Step 4. $\$11,589.36 \div 365 \text{ days} = \31.75 estimated daily rate for remedial services

156.9(2) Out-of-state group care payment rate. The payment rate for maintenance and child welfare services provided by public or private agency group care licensed or approved in another state shall be established using the same rate-setting methodology as that in subrule 156.9(1), unless the director determines that appropriate care is not available within the state pursuant to the following criteria and procedures.

a. Criteria. When determining whether appropriate care is available within the state, the director shall consider each of the following:

- (1) Whether the child's treatment needs are exceptional.
- (2) Whether appropriate in-state alternatives are available.
- (3) Whether an appropriate in-state alternative could be developed by using juvenile court-ordered service fund or wrap-around funds.
- (4) Whether the placement and additional payment are expected to be time-limited with anticipated outcomes identified.

(5) If the placement has been approved by the service area manager or chief juvenile court officer.

b. Procedure. The service area manager or chief juvenile court officer shall submit the request for director's exception to the Bureau of Policy Analysis, Department of Human Services, Fifth Floor, Hoover State Office Building, Des Moines, Iowa 50319-0114. This request shall be made in advance of placing the child and should allow a minimum of two weeks for a response. The request shall contain documentation addressing the criteria for director's approval listed in 156.9(2) "a."

c. Appeals. The decision of the director regarding approval of an exception to the cost principles in rules 441—185.101(234) to 441—185.108(234) is not appealable.

156.9(3) *Supplemental payments for in-state facilities.* Rescinded IAB 9/1/93, effective 8/12/93.

156.9(4) *Mother-young child rate.* When a group foster care facility provides foster care for a mother and her young child, the maintenance rate for the mother shall include an additional amount to cover the actual and allowable maintenance needs of the young child. No additional amount shall be allowed for service needs of the child.

a. The rate shall be determined according to the policies in rules 441—185.101(234) to 441—185.108(234) and added to the maintenance rate for the mother. The young child portion of the maintenance rate shall be limited to the costs associated with food, clothing, shelter, personal incidentals, and supervision for each young child and shall not exceed the maintenance rate for the mother. Costs for day care shall not be included in the maintenance rate.

b. Rescinded IAB 6/8/94, effective 6/1/94.

c. Unless the court has transferred custody from the mother, the mother shall have primary responsibility for providing supervision and parenting for the young child. The facility shall provide services to the mother to assist her to meet her parenting responsibilities and shall monitor her care of the young child.

d. The facility shall provide services to the mother to assist her to:

- (1) Obtain a high school diploma or general education equivalent (GED).
- (2) Develop preemployment skills.
- (3) Establish paternity for her young child whenever appropriate.
- (4) Obtain child support for the young child whenever paternity is established.

e. The agency shall maintain information in the mother's file on:

- (1) The involvement of the mother's parents or of other adults.
- (2) The involvement of the father of the minor's child, including steps taken to establish paternity, if appropriate.

(3) A decision of the minor to keep and raise her young child.

(4) Plan for the minor's completion of high school or a GED program.

(5) The parenting skills of the minor parent.

(6) Child care and transportation plans for education, training or employment.

(7) Ongoing health care of the mother and child.

(8) Other services as needed to address personal or family problems or to facilitate the personal growth and development toward economic self-sufficiency of the minor parent and young child.

f. The agency shall designate \$35 of the young child rate as an allowance to the mother to meet the maintenance needs of her young child, as defined in her case permanency plan.

This rule is intended to implement Iowa Code sections 234.6 and 234.38.

441—156.10(234) Payment for reserve bed days.

156.10(1) *Group care facilities.* The department shall provide payment for group care maintenance and child welfare services according to the following policies.

a. Family visits. Reserve bed payment shall be made for days a child is absent from the facility for family visits when the absence is in accord with the following:

- (1) The visits shall be consistent with the child's case permanency plan.
- (2) The facility shall notify the worker of each visit and its planned length prior to the visit.
- (3) The intent of the department and the facility shall be for the child to return to the facility after the visit.
- (4) Staff from the facility shall be available to provide support to the child and family during the visit.
- (5) Payment shall be canceled and payments returned if the facility refuses to accept the child back.
- (6) If the department and the facility agree that the return would not be in the child's best interest, payment shall be canceled effective the day after the joint decision not to return the child.
- (7) Payment shall be canceled effective the day after a decision is made by the court or parent in a voluntary placement not to return the child.
- (8) Payment shall not exceed 14 consecutive days, except upon prior written approval of the service area manager. In no case shall payment exceed 30 consecutive days.
- (9) The provider shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

b. Hospitalization. Reserve bed payment shall be made for days a child is absent from the facility for hospitalization when the absence is in accord with the following:

- (1) The facility shall contact the worker at least 48 hours in advance of a planned hospitalization and within 24 hours after an unplanned hospitalization.
- (2) The intent of the department and the facility shall be for the child to return to the facility after the hospitalization.
- (3) Staff from the facility shall be available to provide support to the child and family during the hospitalization.
- (4) Payment shall be canceled and payments returned if the facility refuses to accept the child back.
- (5) If the department and the facility agree that the return would not be in the child's best interest, payment shall be canceled effective the day after the joint decision not to return the child.
- (6) Payment shall be canceled effective the day after a decision is made by the court or parent in a voluntary placement not to return the child.
- (7) Payment shall not exceed 14 consecutive days, except upon prior written approval of the service area manager. In no case shall payment exceed 30 consecutive days.
- (8) The provider shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

c. Runaways. Reserve bed payment shall be made for days a child is absent from the facility after the child has run away when the absence is in accord with the following:

- (1) The facility shall notify the worker within 24 hours after the child runs away.
- (2) The intent of the department and the facility shall be for the child to return to the facility once the child is found.
- (3) Payment shall be canceled and payments returned if the facility refuses to accept the child back.
- (4) If the department and the facility agree that the return would not be in the child's best interest, payment shall be canceled effective the day after the joint decision not to return the child.
- (5) Payment shall be canceled effective the day after a decision is made by the court or parent in a voluntary placement not to return the child.
- (6) Payment shall not exceed 14 consecutive days, except upon prior written approval of the service area manager. In no case shall payment exceed 30 consecutive days.
- (7) The provider shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

d. Preplacement visits. Reserve bed payment shall be made when a child is making a planned preplacement visit to another foster care placement or an adoptive placement when the absence is in accord with the following:

- (1) The visits shall be consistent with the child's case permanency plan.

- (2) The intent of the department and the facility shall be for the child to return to the facility.
- (3) Staff from the facility shall be available to provide support to the child and provider during the visit.
- (4) Payment shall be canceled and payment returned if the facility refuses to accept the child back.
- (5) Payment shall not exceed two consecutive days.
- (6) The provider shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

156.10(2) Foster family care.

a. Family visits. Reserve bed payment shall be made for days a child is absent from the foster family home for family visits when the absence is in accord with the following:

- (1) The visits shall be consistent with the child's case permanency plan.
- (2) The intent of the department and the foster family shall be for the child to return to the foster family home after the visit.
- (3) In cases supervised by a private agency, the agency shall notify the worker of each visit and its planned length prior to the visit.
- (4) Payment shall be canceled and payments returned if the foster family refuses to accept the child back.
- (5) If the department and the foster family agree that the return would not be in the child's best interest, payment shall be canceled effective the day after the joint decision not to return the child.
- (6) Payment shall be canceled effective the day after a decision is made by the court or parent in a voluntary placement not to return the child.

(7) Payment shall not exceed 14 consecutive days, except upon prior written approval of the service area manager. In no case shall payment exceed 30 consecutive days.

(8) In cases supervised by a private agency, the agency shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

b. Hospitalization. Reserve bed payment shall be made for days a child is absent from the foster family home for hospitalization when the absence is in accord with the following:

- (1) In cases supervised by a private agency, the agency shall notify the worker at least 48 hours in advance of a planned hospitalization and within 24 hours after an unplanned hospitalization.
- (2) The intent of the department and the foster family shall be for the child to return to the foster family home after the hospitalization.
- (3) Payment shall be canceled and payments returned if the foster family refuses to accept the child back.
- (4) If the department and the foster family agree that the return would not be in the child's best interest, payment shall be canceled effective the day after the joint decision not to return the child.
- (5) Payment shall be canceled effective the day after a decision is made by the court or parent in a voluntary placement not to return the child.

(6) Payment shall not exceed 14 consecutive days, except upon prior written approval of the service area manager. In no case shall payment exceed 30 consecutive days.

(7) In cases supervised by a private agency, the agency shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

c. Runaways. Reserve bed payment shall be made for days a child is absent from the foster family home after the child has run away when the absence is in accord with the following:

- (1) In cases supervised directly by the department, the foster family shall notify the worker within 24 hours after the child runs away. In cases supervised by a private agency, the agency shall notify the worker within 24 hours after the child runs away.
- (2) The intent of the department and the foster family shall be for the child to return to the foster family home once the child is found.
- (3) Payment shall be canceled and payments returned if the foster family refuses to accept the child back.
- (4) If the department and the foster family agree that the return would not be in the child's best interest, payment shall be canceled effective the day after the joint decision not to return the child.

(5) Payment shall be canceled effective the day after a decision is made by the court or parent in a voluntary placement not to return the child.

(6) Payment shall not exceed 14 consecutive days, except upon prior written approval of the service area manager. In no case shall payment exceed 30 consecutive days.

(7) In cases supervised by a private agency, the agency shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

d. Preplacement visits. Reserve bed payment shall be made when a child is making a planned preplacement visit to another foster care placement or an adoptive placement when the absence is in accord with the following:

(1) The visits shall be consistent with the child's case permanency plan.

(2) The intent of the department and the foster family home shall be for the child to return to the foster family home.

(3) Staff from the foster family home shall be available to provide support to the child and provider during the visit.

(4) Payment shall be canceled and payment returned if the foster family home refuses to accept the child back.

(5) Payment shall not exceed two consecutive days.

(6) If services are purchased, the provider shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

156.10(3) Shelter care facilities.

a. Hospitalization. Reserve bed payment shall be made for days a child is absent from the facility for hospitalization when the absence is in accord with the following:

(1) The facility shall contact the worker at least 48 hours in advance of a planned hospitalization and within 24 hours after an unplanned hospitalization.

(2) The intent of the department and the facility shall be for the child to return to the facility after the hospitalization.

(3) Staff from the facility shall be available to provide support to the child and family during the hospitalization.

(4) Payment shall be canceled and payments returned if the facility refuses to accept the child back.

(5) If the department and the facility agree that the return would not be in the child's best interest, payment shall be canceled effective the day after the joint decision not to return the child.

(6) Payment shall be canceled effective the day after a decision is made by the court or parent in a voluntary placement not to return the child.

(7) Payment shall not exceed 14 consecutive days, except upon prior written approval of the service area manager. In no case shall payment exceed 30 consecutive days.

(8) The provider shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

b. Preplacement visits. Reserve bed payment shall be made when a child is making a planned preplacement visit to another foster care placement or an adoptive placement when the absence is in accord with the following:

(1) The visits shall be consistent with the child's case permanency plan.

(2) The intent of the department and the facility shall be for the child to return to the facility.

(3) Staff from the facility shall be available to provide support to the child and provider during the visit.

(4) Payment shall be canceled and payment returned if the facility refuses to accept the child back.

(5) Payment shall not exceed two consecutive days.

(6) The provider shall document the use of reserve bed days in the daily log and report the number of reserve bed days claimed in the quarterly report.

This rule is intended to implement Iowa Code sections 234.6 and 234.35.

441—156.11(234) Emergency care. Each service area shall have facilities to provide 24-hour emergency foster care. Emergency care shall not exceed 30 days in one six-month period, and the

facility's policy may limit placement to less than 30 days. The following options shall be available for funding emergency care for each service area:

156.11(1) Foster family homes designated to maintain beds for emergency care shall be paid according to rule 156.6(234). In order to assure that there are adequate emergency beds available, designated homes may be paid a subsidy of \$50 per month per bed. No emergency care facility shall be approved for more than five beds under subsidy.

156.11(2) Foster family home payment. Foster family homes may be designated to provide emergency care and may be paid on a daily rate per child when a child is placed. Rates for children shall be:

Age of Child	Rate
Age 0-11	\$20.09 per day
Age 12 and over	\$21.84 per day

156.11(3) Shelter care payment. Public and private juvenile shelter care facilities approved or licensed in Iowa shall be paid according to the rate-setting methodology in 441—paragraph 150.3(5) "p."

a. Facilities shall bill for actual units of service provided in accordance with 441—subrule 150.3(8). In addition, facilities may be guaranteed a minimum level of payment to the extent determined by the department through a request-for-proposal process.

(1) Guaranteed payment shall be calculated monthly.

(2) The guaranteed level of payment shall be calculated by multiplying the number of beds for which payment is guaranteed by the number of days in the month.

(3) When the actual unit billings for a facility do not equal the guaranteed level of payment for the month, the facility may submit a supplemental billing for the deficiency.

(4) The amount of the supplemental billing shall be determined by multiplying the facility's unit cost for shelter care by the number of units below the guaranteed level for the month for which the facility was not reimbursed.

b. The total reimbursement to the agency shall not exceed the agency's allowable costs as defined in 441—subrule 150.3(5). Agencies shall refund any payments which have been made in excess of the agencies' allowable costs.

c. Shelter contracts for the state fiscal year beginning July 1, 2007, shall provide for the statewide availability of a daily average of 273 guaranteed emergency juvenile shelter care beds during the fiscal year.

This rule is intended to implement Iowa Code section 234.35.

441—156.12(234) Supervised apartment living.

156.12(1) Maintenance. When a youth at least aged 16 but under the age of 20 is living in a supervised apartment living situation, the maximum monthly maintenance payment for the youth shall be made pursuant to the basic daily maintenance rate for a child aged 16 and over in subrule 156.6(1). The maximum monthly payment shall be computed by multiplying the daily rate in subrule 156.6(1) by 365 and dividing by 12. This payment may be paid to the youth or another payee, other than a department employee, for the youth's care.

156.12(2) Service. When services for a youth in supervised apartment living are purchased, the service components and number of hours purchased shall be specified by the service worker in the youth's case permanency plan.

This rule is intended to implement Iowa Code section 234.35.

441—156.13(234) Excessive rates. Rescinded IAB 6/9/93, effective 8/1/93.

441—156.14(234,252C) Voluntary placements. When placement is made on a voluntary basis, the parent or guardian shall complete and sign Form 470-0715, Voluntary Placement Agreement.

441—156.15(234) Child's earnings. Earned income of a child who is not in a supervised apartment living arrangement and who is a full-time student or engaged in an educational or training program shall be reported to the department and its use shall be a part of a plan for service, but the income shall not be used towards the cost of the child's care as established by the department. When the earned income of children in supervised apartment living arrangements or of other children exceeds the foster care standard, the income in excess of the standard shall be applied to meet the cost of the child's care. When the income of the child exceeds twice the cost of maintenance, the child shall be discontinued from foster care.

441—156.16(234) Trust funds and investments.

156.16(1) When the child is a beneficiary of a trust and the proceeds therefrom are not currently available, or are not sufficient to meet the child's needs, the worker shall assist the child in having a petition presented to the court requesting release of funds to help meet current requirements. When the child and responsible adult cooperate in necessary action to obtain a ruling of the court, income shall not be considered available until the decision of the court has been rendered and implemented. When the child and responsible adult do not cooperate in the action necessary to obtain a ruling of the court, the trust fund or investments shall be considered as available to meet the child's needs immediately. When the child or responsible adult does not cooperate within 90 days in making the income available the maintenance payment shall be terminated.

156.16(2) The Iowa department of human services shall be payee for income from any trust funds or investments unless limited by the trust.

156.16(3) Savings accounts from any income and proceeds from the liquidation of securities shall be placed in the child's account maintained by the department and any amount in excess of \$1,500 shall be applied towards cost of the child's maintenance.

This rule is intended to implement Iowa Code section 234.39.

441—156.17(234) Adoptive homes. Payment for foster care for a child placed in an adoptive home will only be made when the placement is made in anticipation of a subsidized adoption. The payment shall be limited to the amount anticipated for subsidy, and shall terminate when the adoption decree is granted.

This rule is intended to implement Iowa Code section 234.38.

441—156.18(237) Foster parent training expenses.

156.18(1) *Preservice training and orientation.* Each prospective foster family and provisionally licensed foster family who completes the required preservice training program and is issued a foster home license shall receive a \$100 stipend from the department. The stipend shall be issued on or after the date that the license is issued. No expense stipend is provided for orientation.

156.18(2) *Required orientation.* Rescinded IAB 1/5/94, effective 3/1/94.

156.18(3) *Foster parent and social worker trainers.* Foster parents and social workers who serve as trainers for approved preservice training programs shall each be paid a contract fee per class hour appropriate to community standards based on the education and experience of each trainer. These rates shall be negotiated between the entity that contracts with the department and the trainer.

156.18(4) *In-service training.* Each licensed foster family who completes the in-service training requirement shall receive a \$100 stipend from the department when the family's license is renewed, for per diem expenses related to meeting the in-service training requirement.

156.18(5) *Funds to association.* The department may provide funds to the Iowa foster and adoptive parent association for the following purposes:

a. Publication of educational articles in the association newsletter.

b. Financial assistance for foster parents who attend the National Foster Parent Association's annual conference.

c. Financial assistance for foster parents who attend the state association's annual conference.

156.18(6) *Foster parent training enhancement.* Rescinded IAB 12/11/02, effective 2/1/03.

156.18(7) Transition. Rescinded IAB 10/31/90, effective 1/1/91.

This rule is intended to implement Iowa Code section 237.5A.

441—156.19(237) Rate of payment for care in a residential care facility. When a child is receiving group care maintenance and child welfare services in a licensed residential care facility and is not eligible for supplemental security income or state supplementary assistance, the department will pay for the group care maintenance and child welfare services in accordance with subrule 156.9(1). When a child receives group care maintenance and child welfare services in a licensed residential care facility and is eligible for supplemental security income or state supplementary assistance, the department will pay for child welfare services in accordance with subrule 156.9(1).

This rule is intended to implement Iowa Code section 237.1(3)“e.”

441—156.20(234) Eligibility for foster care payment.

156.20(1) Client eligibility. Foster care payment shall be limited to the following populations.

a. Youth under the age of 18 shall be eligible based on legal status, subject to certain limitations.

(1) Legal status. The youth’s placement shall be based on one of the following legal statuses:

1. The court has ordered foster care placement pursuant to Iowa Code section 232.52, subsection 2, paragraph “d,” Iowa Code section 232.102, subsection 1, Iowa Code section 232.117, or Iowa Code section 232.182, subsection 5.

2. The child is placed in shelter care pursuant to Iowa Code section 232.20, subsection 1, or Iowa Code section 232.21.

3. The department has agreed to provide foster care pursuant to rule 441—202.3(234).

(2) Limitations. Department payment for group care shall be limited to placements which have been authorized by the department and which conform to the service area group care plan developed pursuant to rule 441—202.17(232). Payment for an out-of-state group care placement shall be limited to placements approved pursuant to 441—subrule 202.8(2).

b. Youth aged 18 and older who meet the definition of child in rule 441—202.1(234) shall be eligible based on age, a voluntary placement agreement pursuant to 441—subrule 202.3(3), and type of placement.

(1) Except as provided in subparagraph 156.20(1)“b”(3), payment for a child who is 18 years of age shall be limited to family foster care or supervised apartment living.

(2) Except as provided in subparagraph 156.20(1)“b”(3), payment for a child who is 19 years of age shall be limited to supervised apartment living.

(3) Exceptions. An exception to subparagraphs (1) and (2) shall be granted for all unaccompanied refugee minors. The service area manager or designee shall grant an exception for other children when the child meets all of the following criteria. The child’s eligibility for the exception shall be documented in the case record.

1. The child does not have mental retardation. Funding for services for persons with mental retardation is the responsibility of the county or state pursuant to Iowa Code section 222.60.

2. The child is at imminent risk of becoming homeless or of failing to graduate from high school or obtain a general equivalency diploma. “At imminent risk of becoming homeless” shall mean that a less restrictive living arrangement is not available.

3. The placement is in the child’s best interests.

4. Funds are available in the service area’s allocation. When the service area manager has approved payment for foster care pursuant to this subparagraph, funds which may be necessary to provide payment for the time period of the exception, not to exceed the current fiscal year, shall be considered encumbered and no longer available. Each service area’s funding allocation shall be based on the service area’s portion of the total number of children in foster care on March 31 preceding the beginning of the fiscal year, who would no longer be eligible for foster care during the fiscal year due to age, excluding unaccompanied refugee minors.

c. A young mother shall be eligible for the extra payment for her young child living with her in care as set forth in subrule 156.6(4), paragraph “a,” and subrule 156.9(4) if all of the following apply:

- (1) The mother is placed in foster care.
- (2) The mother's custodian determines, as documented in the mother's case permanency plan, that it is in her best interest and the best interest of the young child that the child remain with her.
- (3) A placement is available.
- (4) The mother agrees to refund to the department any child support payments she receives on behalf of the child and to allow the department to be made payee for any other unearned income for the child.

156.20(2) Provider eligibility for payment. Except for payments for foster parents or youth in supervised apartment living, payment shall be limited to providers with a purchase of service contract in force. Providers of group care services shall have a purchase of rehabilitative treatment and supportive services contract under 441—Chapter 152 in force.

This rule is intended to implement Iowa Code sections 232.143, 234.35 and 234.38.

CHAPTER 157
PURCHASE OF ADOPTION SERVICES
[Prior to 2/11/87, Human Services[498]]

PREAMBLE

These rules define the children, individuals, and families who are eligible for purchase of adoption services; service components which may be purchased; minimum service requirements; contracting requirements; and management and payment provisions.

441—157.1(600) Definitions.

“*Adoptive home study*” includes an assessment of the family’s parental attributes and a written report stating approval or nonapproval of the family for adoptive placement of a child or children.

“*Contract*” refers to a purchase of service contract or agreement between a provider and the department.

“*Department*” means the department of human services.

“*Placement services*” includes the activities and travel necessary to place the child in the adoptive family.

“*Postplacement services*” includes the supervision, support and intervention necessary to assist the adoptive placement.

“*Preparation of child*” includes activities necessary to ready the child for placement into an adoptive family.

“*Preparation of family*” includes activities necessary to assist the family in adding a child as a new member of their family.

“*Preplacement visits*” means contacts, activities, and visits between the child and adoptive family prior to permanent adoptive placement.

“*Provider*” means a child-placing agency licensed in Iowa or another state or a certified adoption investigator which has a purchase of service contract with the department.

“*Recruitment*” includes activities designed to identify individuals or families who may be prospective adoptive families for a special needs child or children.

“*Screening*” includes an initial contact and interview with an individual or family to determine if the individual or family wishes to adopt a special needs child or children and whether or not to proceed with a preplacement assessment and adoptive home study.

441—157.2(600) Eligibility. Individuals and families and special needs children are eligible for purchased adoption services as follows:

157.2(1) *Individuals and families.* Individuals and families are eligible without regard to income when referred by the department and one of the following exists:

a. An individual or family has applied to the department to adopt a special needs child or children and the department worker is unable to begin the preplacement assessment and adoptive study process within 90 days of the application date.

b. An individual or family applies to a provider to adopt a special needs child or children and department staff determines the family eligible and makes the referral for purchased adoption services.

c. An individual or family who has a current approved adoptive home study applies to adopt a special needs child or children and the department wishes to purchase some components of adoption services in order to facilitate an adoptive placement of a special needs child or children in the family.

157.2(2) *Special needs children.* Special needs children as defined in 441—subrule 201.3(1), who are legally available for adoption and who are under the guardianship of the department, are eligible for purchased adoption services.

441—157.3(600) Components of adoption service. Any or all of the following components of adoption service may be purchased: adoptive home study, preparation of child, preparation of family,

preplacement visits, placement services and postplacement services. The decision as to whether to purchase adoption services is based on the availability of funding, the availability of department staff to provide adoption services to individuals and families, and the needs of the special needs child or children.

157.3(1) *Adoptive home study.* This component includes the following activities:

a. Family assessment. The family assessment shall include a minimum of two face-to-face interviews with the applicant(s) and at least one face-to-face interview with each member of the household. At least one of the interviews shall take place at the applicant's home. The assessment of the prospective adoptive family shall include an evaluation of the family's ability to parent a special needs child or children including the following:

- (1) Motivation for adoption and whether the family has biological, adopted or foster children.
- (2) Family and extended family's attitude toward accepting an adopted child and plans for discussing adoption with the child.
- (3) The attitude toward adoption of the significant other people involved with the family.
- (4) Emotional stability, marital history, family relationships and compatibility of the adoptive parents.
- (5) Ability to cope with problems, stress, frustrations, crises, separation, and loss.
- (6) Medical, mental and emotional conditions that may affect the applicant's ability to parent a child, treatment history, and current status of treatment.
- (7) Ability to provide for the child's physical and emotional needs.
- (8) Adjustment of any children in the home, including their attitudes toward adoption, relationships with others, and school performance.
- (9) Disciplinary practices that will be used.
- (10) Capacity to give and receive affection.
- (11) Statements from three references provided by the family and a minimum of three additional references selected by the adoption worker.
- (12) Financial information, ability to provide for a child and whether there is a need for adoption subsidy for a special needs child or children.
- (13) Attitudes of the adoptive applicants toward the birth parents and the reasons the child is available for adoption.
- (14) Commitment to and capacity to maintain significant relationships.
- (15) Substance use or abuse, if any, by family members or members of the household, treatment history and current status of treatment.
- (16) History of abuse, if any, by family members or members of the household, treatment history, current status of treatment and the provider agency's evaluation of the abuse.
- (17) Criminal convictions, if any, by family members or members of the household, and the provider agency's evaluation of the criminal record.
- (18) Recommendations for number, age, sex, characteristics, and special needs of a child or children the family can best parent.

b. Record checks. The licensed child-placing agency shall submit record checks for each applicant and for anyone who is 14 years of age or older living in the home of the applicant to determine whether they have founded child abuse reports, criminal convictions or have been placed on the sex offender registry. The licensed child-placing agency shall use Form 470-0643, Request for Child Abuse Information, and Form 595-1396, DHS Criminal History Record Check, Form B, for this purpose.

If the applicant or anyone living in the home of the applicant has a record of founded child abuse, a criminal conviction, or placement on the sex offender registry, the licensed child-placing agency shall not approve the applicant as an adoptive family unless an evaluation determines that the abuse or criminal conviction does not warrant prohibition of approval.

EXCEPTION: The person making the investigation shall not approve a prospective applicant and the department shall not perform an evaluation if the applicant or anyone living in the home of the applicant has been convicted of a felony offense as set forth in Iowa Code section 600.8(2) "b." The person making the investigation shall not approve a prospective applicant and the department shall not perform an

evaluation if the applicant or anyone living in the home of the applicant has committed a crime in another state that would be a forcible felony if the crime would have been committed in Iowa, as set forth in Iowa Code section 600.8(2)“b.”

The evaluation shall consider the nature and seriousness of the abuse or crime, the time elapsed since the commission of the founded abuse or crime, the circumstances under which the abuse or crime was committed, the degree of rehabilitation, the likelihood that the person will commit the abuse or crime again, and the number of abuses or crimes committed by the person.

The person with the founded child abuse or criminal conviction report shall complete and return Form 470-2310, Record Check Evaluation, within ten calendar days of the date on the form to be used to assist in the evaluation. Failure of the person to complete and return Form 470-2310 within the specified time frame shall result in denial of approval for adoption.

(1) If the applicant, or anyone living in the home of the applicant, has been convicted of a simple misdemeanor or a serious misdemeanor that occurred five or more years prior to application, the evaluation and decision may be made by the licensed child-placing agency. The licensed child-placing agency shall notify the applicant of the results of the evaluation using Form 470-2386, Record Check Decision.

(2) If the applicant, or anyone living in the home of the applicant, has a founded child abuse report, has been convicted of an aggravated misdemeanor or felony at any time, or has been convicted of a simple or serious misdemeanor that occurred within five years prior to application, the evaluation shall be initially conducted by the licensed child-placing agency.

1. If the licensed child-placing agency determines that the abuse or crime does warrant prohibition of approval, the licensed child-placing agency shall notify the applicant of the results of the evaluation using Form 470-2386, Record Check Decision.

2. If the child-placing agency believes that the applicant should be approved despite the abuse or criminal conviction, the agency shall provide copies of the child abuse report or criminal history record, Form 470-2310, Record Check Evaluation, and Form 470-2386, Record Check Decision, to the Department of Human Services, Administrator, Division of Behavioral, Developmental, and Protective Services, Hoover State Office Building, 1305 East Walnut Street, Des Moines, Iowa 50319-0114. Within 30 days the administrator shall determine whether the abuse or crime merits prohibition of approval and shall notify the child-placing agency in writing of that decision.

The licensed child-placing agency shall notify the applicant of the results of the evaluation using Form 470-2386, Record Check Decision.

(3) The child abuse and criminal record checks shall be repeated and any founded abuses or convictions of crimes since the last record check shall be evaluated using the same process during the home study update required by Iowa Code section 600.8.

c. Written report. The provider shall prepare a written report of the family assessment, known as the adoptive home study, using the PS-MAPP family profile format.

(1) The home study shall be used to approve or deny a prospective family as an appropriate placement for a special needs child or children. The family shall be notified by the provider agency in writing of the decision, and if denied, reasons for denial shall be stated.

(2) The adoptive home study shall be dated and signed by the provider adoption worker. A copy of the adoptive home study shall be provided to the family and to the department with the notification of approval or denial.

d. Home study updates are required if the home study was written more than one year previously, in accordance with Iowa Code section 600.8. The home study update shall consist of completing the following:

(1) The child abuse and criminal record checks shall be repeated and if there are new founded abuses or conviction of crimes that were not evaluated in the previous home study they shall be evaluated using the process set forth in 157.3(1)“b.”

(2) One face-to-face visit shall be conducted with the approved family.

(3) The information in the approved home study shall be reassessed.

(4) An updated report of the reassessment and adoptive home study shall be written, dated, signed and notarized and a copy provided to the family.

157.3(2) Preparation of child. This component includes specific activities designed to enable a child to make the transition to an adoptive placement. The activities shall include, but are not limited to:

a. Counseling regarding issues of separation, loss, grief, guilt, anger and adjustment to an adoptive family.

b. Preparation or update of a life book.

c. Provision of age-appropriate information regarding community resources available, such as children's support groups, to assist the child in the transition and integration into the adoptive family.

157.3(3) Preparation of family. This component includes activities designed to assist the adoptive family in expanding its knowledge and understanding of the child or children. This component should enhance the family's readiness to accept the child or children into their family and encourage their commitment. The activities shall include, but are not limited to:

a. Counseling with the family members.

b. Providing background information on the child.

c. Providing information regarding the child's special needs.

d. Providing information regarding the child's anticipated behavior.

e. Discussing the impact that adding a new member or members to the family may have on all current family members.

f. Informing the family of the community resources that are available to assist the family, such as parent support groups.

157.3(4) Preplacement visits. This component includes activities necessary to plan, conduct and assess the transitional visits between the adoptive family and the special needs child or children prior to the adoptive placement of the child in the home.

157.3(5) Placement services. Placement services include activities necessary to plan and carry out the placement of a child or children into the adoptive home.

157.3(6) Postplacement services. Postplacement services include supervision, support, crisis intervention and required reports. Postplacement services are provided from the time a child is placed with an adoptive family until finalization of the adoption occurs.

a. Postplacement supervision should focus on the following areas:

(1) Integration and interaction of the child or children with the family.

(2) Changes in the family functioning which may be due to the placement.

(3) Social, emotional and school adjustment of the child or children.

(4) Changes that have occurred in the family since the placement.

(5) Family's method of dealing with testing behaviors and discipline.

(6) Behavioral evidence of the degree of bonding that is taking place and the degree to which the child is becoming a permanent member of the adoptive family.

b. A minimum of three adoptive home visits are required or, if the family is experiencing problems, as many as are necessary to assess and support the placement. The number shall be determined by mutual agreement between the provider and the department.

Home visits shall be completed at a minimum as follows: one no later than 30 days after placement; one between 60 and 90 days after placement; and a final visit prior to requesting a consent to adopt.

c. A written report based on the postplacement visits with recommendations regarding the finalization of the adoption shall be submitted to the department. Other reporting requirements are addressed in 441—157.6(600).

441—157.4(600) Contract requirements and management. The department and the provider agency shall enter into a purchase of adoption services contract using Form 470-0628, Iowa Purchase of Social Services Agency Contract. The development and management of the contract including contract amendments, contract renewal and contract termination shall comply with 441—paragraph 150.2(1) "a" and rule 441—150.3(234).

157.4(1) Units of service and unit rates.

a. A single child or all members of a sibling group or any or all members of an adoptive family shall be considered one recipient of any unit of purchased adoption service.

b. The unit rate for group services shall represent a total per hour cost of providing the group session. For billing purposes, it shall be prorated to the recipient families in attendance. The need for and use of cofacilitators must be addressed in the contract.

c. One hour of service to a single child, a sibling group or family members shall be considered a unit of service for the following components: preparation of family, preparation of child, preplacement visits, placement services, and postplacement services. Billings shall be based on any quarter or half portion of one hour of service. Monthly cumulative units shall be rounded up if a half hour or over or down if a quarter hour to the nearest whole unit for billing purposes. Service billings for purchase of adoption service shall be based on direct face-to-face contacts between the provider agency and the family members, child, or children. Recruitment and screening, travel, administrative activities, update of adoptive home studies and preparation time shall be considered indirect costs and shall be included in the unit costs, but not counted as billable units.

d. The unit for the adoptive home study component shall be the completion of the home study and shall be billed as one unit.

e. Unit rates shall be established according to 441—150.3(234).

157.4(2) Referral for purchased adoption service. To receive purchased adoption services, the child or children or the individual or family must be determined eligible and referred by the department. The department shall not make payment for purchased adoption service until eligibility is determined, and a referral is made authorizing services on Form 470-0622, Referral of Client for Purchase of Social Services.

157.4(3) Billing procedures. Billings shall be prepared and submitted at the end of the month to the department by the provider agency on Form 470-0020, Purchase of Service Provider Invoice, for contractual services provided by the agency during the month, according to 441—subrule 150.3(8).

441—157.5(600) Case permanency plan requirements. The department worker shall submit to the provider a copy of the department case permanency plan when adoption services are purchased for a specific special needs child. The case plan shall include, but not be limited to, specific components to be purchased and the maximum number of units, the costs determined for each component, and the goals and objectives of the service components. The department worker shall update the plan as necessary to reflect current needs and services, according to case permanency plan guidelines.

441—157.6(600) Progress reports. The provider shall complete written monthly progress reports whenever any of the following components are purchased: preplacement visits, preparation of a child, preparation of a family, or placement services. Postplacement services shall be reported in writing after the 30-day, 90-day, and final home visit at a minimum, or on a monthly basis if the family is experiencing difficulties. The progress reports shall include a brief description of the services provided and the progress with respect to the goals and objectives identified in the case permanency plan. The first report shall be submitted to the department worker no later than one month after service is initiated. The final report shall be submitted within one week after the purchased services are terminated.

These rules are intended to implement Iowa Code chapter 600.

CHAPTER 158
FOSTER HOME INSURANCE FUND

PREAMBLE

These rules implement the provisions of the foster home insurance fund. These rules define eligible claims, the payment limits for claims, the procedure for filing claims, and the time frames for filing claims.

441—158.1(237) Payments from the foster home insurance fund.

158.1(1) *Eligible foster family claims.* The foster home insurance fund shall pay the following within the limits defined in Iowa Code section 237.13, subsections 3 and 4:

a. Valid and approved claims of family foster care children, their parents, guardians or guardians ad litem.

b. Compensation to licensed foster families for property damage, at replacement cost, or for bodily injury, as a result of the activities of the family foster care child.

c. Reasonable and necessary legal fees incurred by licensed foster families in defense of civil claims filed pursuant to Iowa Code section 237.13, subsection 7, paragraph “d,” and any judgments awarded as a result of these claims. The reasonableness and necessity of legal fees shall be determined by the department or its contract agent.

158.1(2) *Eligible guardian and conservator claims.* The foster home insurance fund shall pay the reasonable and necessary legal costs incurred by a guardian or conservator in defending against a suit filed by an eligible ward or the ward’s representative and the damages awarded as a result of the suit within the limits defined in Iowa Code section 237.13, subsection 5. The reasonableness and necessity of legal fees shall be determined by the department or its contract agent. To be eligible a ward must meet the following conditions:

a. The ward’s income at the time covered by the suit determined in accordance with 441—subrule 130.3(3) must not exceed \$920.

b. The ward’s resources shall be treated in accordance with Supplemental Security Income policies except that one residence which shall be the homestead if exempt under SSI and one vehicle shall be excluded. Resources shall not exceed \$2,000.

441—158.2(237) Payment limits. The fund is not liable for the first \$100 for all claims arising out of one or more occurrences during a fiscal year related to a single foster home. The fund is not liable for claims in excess of \$300,000 for all claims based on one or more occurrences during a fiscal year related to a single home.

441—158.3(237) Claim procedures. Claims against the fund shall be filed with the department’s contractor. If the department does not have a contractor, claims shall be filed on Form 470-2470, Foster Home Insurance Fund Claim. The decision to approve or deny the claim shall be made by the department or its contractor and the notice mailed or given to the claimant within 180 days of the date the claim is received.

441—158.4(237) Time frames for filing claims.

1. Claims by children who were under the age of 18 at the time of the occurrence shall be submitted within two years of the date of the occurrence, or after the child’s eighteenth birthday, but before the child’s nineteenth birthday.

2. Claims by persons who were aged 18 or older at the time of the occurrence, parents, foster parents, guardians, or guardians ad litem shall be submitted within two years of the occurrence.

3. Claims by foster parents and by guardians or conservators pursuant to subrules 158.1(1)“c” and 158.1(2) for legal fees or court-ordered judgments shall be submitted within two years of the date of the judgment.

441—158.5(237) Appeals. Claimants dissatisfied with the decision may request a fair hearing under the provisions of 441—Chapter 7.

These rules are intended to implement Iowa Code section 237.13.

[Filed emergency 6/9/88—published 6/29/88, effective 7/1/88]

[Filed 9/2/88, Notice 6/29/88—published 9/21/88, effective 11/1/88]

[Filed 11/9/94, Notice 9/28/94—published 12/7/94, effective 2/1/95]

[Filed 8/12/99, Notice 6/16/99—published 9/8/99, effective 11/1/99]

CHAPTER 159
CHILD CARE RESOURCE AND REFERRAL GRANTS PROGRAM

PREAMBLE

These rules define and structure the resource and referral grants program. This program shall make grants available for the development and operation of resource and referral services for child care.

441—159.1(237A) Definitions.

“Applicant” means a resource and referral agency which makes application for a grant.

“Department” means the Iowa department of human services.

“Grantee” means an applicant who has received a grant.

“Grant review committee” means a five-member body designated by the chief of the bureau of individual and family support and protective services, to review and rate submitted applications and make its recommendations for grant funding to the department.

“Resource and referral agency” means a community-based nonprofit incorporated agency or public agency that has all the service capabilities listed under subrule 159.3(1).

441—159.2(237A) Availability of grants. In any year in which funds are available for resource and referral grants, the department shall administer grants to eligible applicants. The amount of each grant shall be contingent upon the funds available and shall not exceed \$50,000. The department shall work with all new and existing resource and referral agencies to extend these services to all regions of the state.

The department reserves the right to grant less than the amount of appropriated funds if there is an insufficient number of acceptable applications submitted to adequately achieve the purpose of the resource and referral grants program.

441—159.3(237A) Project eligibility.

159.3(1) Grants will be awarded to community-based nonprofit incorporated agencies and public agencies that have the capacity to provide the following services:

- a. Assist families in selecting quality child care. The agency shall provide referrals to registered and licensed child day care facilities and may provide referrals to unregistered providers.
- b. Assist child day care providers in adopting appropriate program and business practices to provide quality child care services.
- c. Provide information to the public regarding the availability of child day care services in the communities within the agency’s region.
- d. Actively encourage the development of new and expansion of existing child day care facilities in response to identified community needs.
- e. Provide specialized services to employers, including the provision of resource and referral services to employee groups identified by the employer and the provision of technical assistance to develop employer-supported child day care programs operated on or near the work site.
- f. Refer eligible child day care facilities to the federal child care food programs.
- g. Loan toys, other equipment, and resource materials to child day care facilities.
- h. Inform child day care facilities regarding technical assistance available from the department in obtaining insurance coverage at a reasonable cost.
- i. Assist the department in providing child day care facilities with opportunities for group purchasing of equipment and supplies.
- j. Administer funding designated within the grant to provide a substitute caregiver program for registered family and group day care homes.

159.3(2) Grants will be awarded to eligible agencies for the establishment of new child care resource and referral agencies and ongoing operation of existing child care resource and referral agencies.

159.3(3) Grant funds must be matched with at least 25 percent local resources. Eligible match includes in-kind contributions, private donations and public funding sources, except child care grant funds from the department of economic development.

159.3(4) Only one grant will be awarded per county to the agency which best meets the criteria outlined in subrule 159.3(1).

159.3(5) There shall be an advisory or incorporated board specifically for the child care resource and referral services representative of the child care community, parent consumers of services, public education, adult education, private sector organizations, business and industry.

441—159.4(237A) Request for proposals for project grants.

159.4(1) The director will announce through public notice the opening of an application period. Applicants for grants shall request Form 470-2474, “Child Care Resource and Referral Grant Application,” and shall submit a grant proposal using this form by the deadlines specified in the announcement.

159.4(2) Requirements for project proposals are specified on the “Child Care Resource and Referral Grant Application.” If a proposal does not contain the information specified in the application package or if it is late, it shall be disapproved. Proposals shall contain the following information:

- a. General agency information.
- b. A list of project advisory committee members.
- c. Specific project information, including population and geographic area to be served.
- d. A summary of the project.
- e. An introductory section outlining agency background information.
- f. A problem statement outlining the need or problem to be addressed and assurance of nonduplication of other services in the community.
- g. Project goals and objectives.
- h. Project methodology.
- i. An evaluation plan.
- j. A plan for future project funding.
- k. A line item budget.
- l. Letters of support.

441—159.5(237A) Selection of proposals.

159.5(1) All proposals received shall be reviewed by the grant review committee which shall make funding recommendations to the director. The director shall make the final funding decisions.

159.5(2) Applicants who have demonstrated the ability to effectively operate programs shall be given first consideration for funds. The following factors shall be considered in selecting proposals:

- a. The demonstrated need for the service in the program areas selected and assurance that the proposed project does not duplicate other services in the community.
- b. The community support demonstrated and the coordination with other existing agencies and organizations providing services to the targeted population.
- c. The general program structure including, but not limited to, how well goals are met, how realistic the objectives are, services offered and likelihood of anticipated impact on the problem, the administration of funds, stability of the organization and the overall quality of the proposal in comparison to other proposals.
- d. The plan for using the funds. The funds may be used only for salaries, fringe benefits, contract services, job-related in-state travel, materials, and operational expenses. Funds may not be used for construction, capital improvement, or purchase of real estate.

441—159.6(237A) Project contracts. The funds for approved applications shall be awarded through a contract entered into by the director and the applicant. The contract period shall not exceed the state fiscal year in which the contract is awarded. The state fiscal year is from July 1 to June 30. Expenditures shall be reimbursed monthly pursuant to regular reimbursement procedures of the state of Iowa.

441—159.7(237A) Records. Grantees shall provide the department with the following information on a quarterly basis which shall be shared with the commission on children, youth and families:

1. Unmet gaps in child care needs including services, types of care, hours of service, and subsidies.
2. Number of clients served.
3. Number of licensed centers, registered group homes, registered family day care homes, and nonregulated homes listed with the referral file.
4. Operational fiscal data of the agency.
5. Repetition of return of clients to the resource and referral agency.
6. Other reports requested by the department.

441—159.8(237A) Evaluation. The department shall evaluate the provider at least once prior to the end of the contract year to determine how well the purposes and goals are being met. Funds are to be spent to meet program goals as provided in the contract. The provider will receive a written report of the evaluation.

441—159.9(237A) Termination of contract. The contract may be terminated by either party at any time during the contract period by giving 30 days' notice to the other party.

159.9(1) The department may terminate a contract upon 10 days' notice when the provider or any of its subcontractors fail to comply with the grant award stipulations, standards, or conditions.

159.9(2) Within 45 days of the termination, the provider shall supply the department with a financial statement detailing all costs up to the effective date of the termination.

159.9(3) The department shall administer the funds for this program contingent upon their availability. If the department lacks the funds necessary to fulfill its fiscal responsibility under this program, the contracts shall be terminated or renegotiated. The department may terminate any agreement to distribute program funds by giving the provider 30 days' notice of its intent to terminate.

441—159.10(237A) Appeals. Applicants dissatisfied with the director's decision may file an appeal with the director. The letter of appeal must be submitted within ten working days of the notice of decision and must include a request for the director to review the decision and the reasons for dissatisfaction. The amount of the grant award cannot be appealed. Within ten working days of the receipt of the appeal the director will review the appeal request and issue a final decision.

No disbursements shall be made to any applicant for a period of ten calendar days following the notice of decision. If an appeal is filed within the ten days, all disbursements will be held pending a final decision on the appeal. All applicants involved will be notified if an appeal is filed and given the opportunity to be included as a party in the appeal.

These rules are intended to implement Iowa Code section 237A.26.

CHAPTER 160
ADOPTION OPPORTUNITY GRANT PROGRAM

PREAMBLE

These rules define and structure the adoption opportunity grant program. The services under the grant program are to be provided to special needs children, prospective adoptive families and adoptive families in an effort to place children in adoptive families and to prevent disruptions and dissolutions.

441—160.1(234) Definitions.

“Adoptive family” means an approved family who has a special needs child placed in their family for the purpose of adopting the child, or a family with a special needs child in their family whose adoption has been finalized by the court.

“Applicant” means a private agency licensed in Iowa as a child-placing agency that offers a continuum of child welfare services to families and special needs children, or an individual provider involved in providing services to adoptive families and special needs children which makes application for a grant.

“Department” means the Iowa department of human services.

“Director” means the director of the department of human services.

“Grant review committee” means a five-member committee composed of two departmental employees and two private child-placing agency employees or supervisors who work with children and adoptive families, but are not currently applying for a grant, and one member with a fiscal background, responsible for reviewing and designating grant awards.

“Grantee” means an applicant who has been awarded a grant.

“Prospective adoptive family” means a family with an approved home study waiting placement of a special needs child into their family for the purpose of adoption.

“Special needs child” means a child as defined in 441—subrule 201.3(1).

441—160.2(234) Availability of grant funds. The amount of money granted shall be contingent upon the amount of federal grant funds available to Iowa in a given year. The allocation of funds shall be in compliance with legislation and approved by the grant review committee.

441—160.3(234) Project eligibility.

160.3(1) Grant awards. Grants will be awarded to eligible applicants for specifically designed adoption projects with the duration of the projects based on the time frames specified in the relevant federal grant.

160.3(2) Residence of clients. A grantee may not use grant funds to serve residents of states other than Iowa.

160.3(3) Services. Grants will be awarded to provide one or more of the following services:

- a. Preplacement assessment and adoptive home studies of families wishing to adopt a special needs child.
- b. Training and preparation of families for adoption.
- c. Preparation of children for adoption.
- d. Postplacement services.
- e. Postadoption services.
- f. Other specified services as stated in the federal grant award to Iowa.

441—160.4(234) Request for proposals for project grants.

160.4(1) Application. The department will announce through a request for proposals the opening of an application period. The request shall state the purpose for which grant funds shall be spent. A grant application shall be included in the request for proposals. Applicants shall submit their grant proposal

using Form 470-2910, Application for Adoption Opportunity Grant Funding, by the deadline specified in the announcement.

160.4(2) Project proposal requirements. Requirements for project proposals shall be specified in the “Adoption Opportunity Grant Application Packet.” If a proposal does not contain the information specified in the application packet, or if it is late, it will be disapproved. Proposals accepted for review shall contain the following information:

- a. Application for Adoption Opportunity Grant Funding, Form 470-2910.
- b. Proposal summary.
- c. Reason for grant request, including statement of problems and needs.
- d. Agency background information and demonstrated effectiveness.
- e. Project goals, objectives and methods.
- f. Project monitoring and evaluation.
- g. Project budget and budget forms.
- h. Plans for future funding.
- i. Assurances and certification.
- j. Letters of support.
- k. Explanation of grantee share of matching funds, when applicable.
- l. Project checklist.

Projects will demonstrate that they can be replicated for use with families and special needs children in other parts of the state.

Projects will be coordinated with other local agencies or groups.

441—160.5(234) Selection of proposals.

160.5(1) Evaluation of proposals. All proposals completed as directed and submitted within the time frames allowed will be evaluated by the grant review committee to determine which applicants will be awarded grants.

160.5(2) Factors in selection. The following factors will be considered in selecting proposals for grant awards:

- a. The demonstrated need for the service in the program area selected and assurance that the proposed project does not duplicate other services offered in the community.
- b. The support of and coordination with other existing agencies providing services to the targeted population.
- c. The program structure, including how realistic goals and objectives are, likelihood of the anticipated impact on the problem addressed, experience serving similar populations or providing similar services, administration of funds, stability of the organization and the overall quality of the proposal in comparison to other proposals submitted.
- d. Plans for use of funds. Grant funds may not be used for construction, capital improvements, or purchase of real estate.
- e. Potential of replicating the project in other parts of the state.

160.5(3) Scoring criteria. A weighted criteria will be used to determine grant awards. A maximum of 110 points is possible. Determination of final point awards will be based on the following:

- a. Proposal summary—10 points.
- b. Statement of problems and need—20 points.
- c. Agency background information and demonstrated effectiveness—15 points.
- d. Project goals, objectives and methods of attainment—25 points.
- e. Project monitoring and evaluation—10 points.
- f. Budget information points—15 points.
- g. Future funding and applicant assurances and certification—5 points.
- h. Overall quality and impact of program—10 points.

441—160.6(234) Project contracts. The funds for approved applicants will be awarded through a contract entered into by the director and the applicant. The contract period shall not exceed the time

frames of the federal grant awarded to the department. Expenditures shall be reimbursed monthly pursuant to the regular reimbursement procedures of the state of Iowa.

441—160.7(234) Records. Grantees shall keep client and fiscal records of services provided and any other records required by the department and specified in the contract.

441—160.8(234) Evaluation of projects. The department or a designee shall evaluate the grantee at least once prior to the end of the contract period to determine whether or not the goals are being met and shall provide feedback to the grantee. Funding is to be spent to meet the program goals stated in the contract. Grantees may request and receive copies of the department's evaluation of their grant project.

441—160.9(234) Termination. The contract may be terminated by either party at any time during the contract period by giving 30 days' notice to the other party.

160.9(1) Notice of termination. The department may terminate a contract upon 10 days' notice when a grantee fails to comply with the award stipulation, standards or conditions.

160.9(2) Financial statement. Within 45 days of termination of a contract, the grantee shall supply the department with a financial statement detailing all costs up to the effective date of the termination.

160.9(3) Availability of funding. The department shall administer the funds for the adoption grants contingent upon their availability. If the department lacks the funding necessary to fulfill its fiscal responsibility under the adoption grant program, the contracts shall be terminated or renegotiated.

441—160.10(234) Appeals. Applicants dissatisfied with the grant review committee's decision may file an appeal with the director. The written appeal must be received within ten working days of the date of the notice of decision; must be based on a contention that the process was conducted outside of statutory authority, violated state or federal law, policy or rules, did not provide adequate public notice, was altered without adequate public notice, or involved conflict of interest by staff or committee members; and must include a request for the director to review the decision and the reasons for dissatisfaction. Within ten working days of receipt of the appeal the director will review the appeal request and issue a final decision. No disbursements will be made to any applicant for a period of ten calendar days following the notice of decision. If an appeal is filed within ten days, all disbursements will be held pending a final decision on the appeal. All applicants involved will be notified if an appeal is filed and given the opportunity to be included as a party in the appeal.

These rules are intended to implement Iowa Code section 234.6.

[Filed emergency 11/14/91—published 12/11/91, effective 11/14/91]

[Filed 1/15/92, Notice 12/11/91—published 2/5/92, effective 4/1/92]

CHAPTER 161
IOWA SENIOR LIVING TRUST FUND

PREAMBLE

These rules describe the Iowa senior living trust fund created by 2000 Iowa Acts, Senate File 2193, and explain how public nursing facilities can participate in a program for funding of the senior living trust fund.

441—161.1(249H) Definitions.

“*Department*” means the Iowa department of human services.

“*Senior living coordinating unit*” means the senior living coordinating unit created within the Iowa department of elder affairs pursuant to Iowa Code section 231.58 as amended by 2000 Iowa Acts, Senate File 2193, section 13.

“*Senior living program*” means the Iowa senior living program established by 2000 Iowa Acts, Senate File 2193.

“*Senior living trust fund*” or “*trust fund*” means the Iowa senior living trust fund created by 2000 Iowa Acts, Senate File 2193, section 4, in the state treasury under the authority of the department.

441—161.2(249H) Funding and operation of trust fund.

161.2(1) *Moneys from intergovernmental agreements and other sources.* Moneys received by the department through intergovernmental agreements for the senior living program and moneys received by the department from other sources for the senior living trust fund, including grants, contributions, and participant payments, shall be deposited in the senior living trust fund.

161.2(2) *Use of moneys.* Moneys deposited in the trust fund shall be used only for the purposes of the senior living program as specified in 2000 Iowa Acts, Senate File 2193, and in rule 441—161.3(249H).

441—161.3(249H) Allocations from the senior living trust fund. Moneys deposited in the senior living trust fund shall be used only as provided in appropriations from the trust fund to the department of human services and the department of elder affairs and for purposes, including the awarding of grants, as specified in 2000 Iowa Acts, Senate File 2193, section 6, and in 441—Chapter 162.

441—161.4(249H) Participation by government-owned nursing facilities.

161.4(1) *Participation agreement.* Iowa government-owned nursing facilities participating in the Iowa Medicaid program and wishing to participate in the funding of the senior living trust fund shall contact the Department of Human Services, Office of Deputy Director for Policy, Fifth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319-0114, for information regarding the conditions of participation. Upon acceptance of the conditions of participation, the facility shall sign Form 470-3763, Participation Agreement.

161.4(2) *Reimbursement.* Upon acceptance of the participation agreement, the department shall authorize increased reimbursement to the participating facility for nursing facilities services provided under the Medicaid program. The facility shall retain \$5,000 of the additional reimbursement received during each state fiscal year as an administration fee. The facility shall refund the remainder of the additional reimbursement through intergovernmental transfer to the department for deposit of the federal share (less the \$5,000 retained by the facility) in the Iowa senior living trust fund and the nonfederal share in the medical assistance appropriation.

These rules are intended to implement Iowa Code chapter 249H.

CHAPTER 162
NURSING FACILITY CONVERSION
AND LONG-TERM CARE SERVICES
DEVELOPMENT GRANTS

PREAMBLE

These rules define and structure grants to be made from the Iowa senior living trust fund, hereafter referred to as the trust fund.

Grants are available to nursing facilities for capital or other one-time expenditure costs incurred for conversion of all or a portion of the facility to an assisted living facility or other alternatives to nursing facility care, and to noninstitutional providers of long-term care for development of other needed long-term care alternatives.

These rules implement provisions of Iowa Code chapter 249H, which establishes an overall goal of moving toward a balanced, comprehensive, affordable, high quality long-term care system.

441—162.1(249H) Definitions.

“Adult day care” means structured social, habilitation, and health activities provided in a congregate setting to alleviate deteriorating effects of isolation; to aid in transition from one living arrangement to another; to provide a supervised environment while the regular caregiver is working or otherwise unavailable; or to provide a setting for receipt of multiple health services in a coordinated setting.

“Affordable” means rates for payment of services that do not exceed the rates established for providers of medical and health services under the medical assistance program. In relation to services provided by a home- and community-based waiver services provider, “affordable” means that the total monthly cost of the home- and community-based waiver services provided do not exceed the maximum cost for that level of care as established by rule by the department.

In relation to assisted living, “affordable” means rates for the costs not paid by medical assistance are less than or equal to 110 percent of the maximum prevailing fair market rent for the same size apartment under guidelines of the applicable United States Department of Housing and Urban Development (HUD) low-rent housing program in the area where the assisted living program is located, plus 185 percent of the maximum federal supplemental security income benefit for an individual or couple (as applicable). Rates for the costs paid by medical assistance may not exceed the rates established for payment under the medical assistance home- and community-based services (HCBS) elderly waiver program.

“Assisted living program” means an assisted living program certified or voluntarily accredited by the Iowa department of elder affairs under Iowa Code chapter 231C.

“Child care for children with special needs” means physical, emotional, and social care delivered up to ten hours a day to children under the age of 18 by a service provider approved for participation in the medical assistance waivers in lieu of care by the parent or legal guardian.

“Department” means the Iowa department of human services.

“Director” means the director of the Iowa department of human services.

“Distinct portion of a nursing facility” means a clearly identifiable area or section within a nursing facility, consisting of at least a living unit, wing, floor, or building containing contiguous rooms.

“Efficient and economical care” means services provided within the reimbursement limits for the services under 441—subrule 79.1(2) for Medicaid home- and community-based services (HCBS) waivers and for less than the cost of comparable services provided in a nursing facility.

“Grantee” means the recipient of a grant.

“HCBS waivers” means Medicaid home- and community-based services waivers under 441—Chapter 83, which provide service funding for specific eligible consumer populations in Iowa.

“Long-term care alternatives” means those services specified under HCBS waivers as available services for elderly persons or adults with disabilities; elder group homes certified under Iowa Code chapter 231B; assisted living programs certified or voluntarily accredited under Iowa Code chapter 231C;

and the PACE program. These are services other than nursing facility care provided to the elderly and persons with disabilities.

“Long-term care service development” means either of the following:

1. The remodeling of existing space and, if necessary, the construction of additional space required to accommodate development of long-term care alternatives, excluding the development of assisted living programs or elder group home alternatives.

2. New construction for long-term care alternatives, excluding new construction of assisted living programs or elder group homes, if the senior living coordinating unit determines that new construction is more cost-effective for the grant program than the conversion of existing space.

“Medical assistance program” means the program established in Iowa Code chapter 249A and otherwise referred to as Medicaid or Title XIX.

“Nursing facility” means a licensed nursing facility as defined in Iowa Code section 135C.1 or a licensed hospital as defined in Iowa Code section 135B.1, a distinct part of which provides long-term care nursing facility beds.

“Nursing facility conversion” means either of the following:

1. The remodeling of nursing facility space existing on July 1, 1999, and certified for medical assistance nursing facility reimbursement and, if necessary, the construction of additional space required to accommodate an assisted living program.

2. New construction of an assisted living program if existing nursing facility beds are no longer licensed and the senior living coordinating unit determines that new construction is more cost-effective for the grant program than the conversion of existing space.

“PACE program” means a program of all-inclusive care for the elderly established pursuant to 42 U.S.C. Section 1396u-4 that provides delivery of comprehensive health and social services to seniors by integrating acute and long-term care services, and that is operated by a public, private, nonprofit, or proprietary entity. *“Pre-PACE program”* means a PACE program in the initial start-up phase that provides the same scope of services as a PACE program.

“Persons with disabilities” means persons 18 years of age or older with disabilities as disability is defined in Iowa Code section 225B.2.

“Respite care” means temporary care of an aged adult, or an adult or child with disabilities, to relieve the usual caregiver from continuous support and care responsibilities. Components of respite care services are supervision, tasks related to the individual’s physical needs, tasks related to the individual’s psychological needs, and social and recreational activities. A facility providing respite care must provide some respite care in the facility, but may also provide in-home respite.

“Safe shelter for victims of dependent adult abuse” means board, room, and services provided to persons identified by a department dependent adult abuse investigator as victims of dependent adult abuse.

“Senior” means elder as defined in Iowa Code section 231.4.

“Senior living coordinating unit” means the planning group established in Iowa Code section 231.58, or its designee.

“Senior living program” means the senior living program created by 2000 Iowa Acts, Senate File 2193, to provide for long-term care alternatives, long-term care service development, and nursing facility conversion.

“Trust fund” means the Iowa long-term care trust fund established by Iowa Code section 249H.4.

“Underserved area” means a county in which the number of currently licensed nursing facility beds and certified or accredited assisted living units is less than or equal to 4.4 percent of the number of individuals 65 years of age or older according to the most current census data. In addition, the department, in determining if a county is underserved, may consider additional information gathered through its own research or submitted by an applicant including, but not limited to, any of the following:

1. Availability of and access to long-term care alternatives relative to individuals eligible for medical assistance.

2. The current number of seniors and persons with disabilities and the projected number of these individuals.

3. The current number of seniors and persons with disabilities requiring professional nursing care and the projected number of these individuals.

4. The current availability of long-term care alternatives and any anticipated changes in the availability of these alternatives.

441—162.2(249H) Availability of grants. In any year in which funds are available for new nursing facility conversion or long-term care services development grants, the department shall issue a request for applications for grants. The amount of money granted shall be contingent upon the funds available. The use of funds appropriated to award grants shall be in compliance with legislation and at the direction of the senior living coordinating unit.

There is no entitlement to any funds available for grants awarded pursuant to this chapter. The department may award grants to the extent funds are available and, within its discretion, to the extent that applications are approved.

441—162.3(249H) Grant eligibility.

162.3(1) Eligible applicants. A grant applicant shall be:

a. A licensed nursing facility that has been an approved provider under the medical assistance program under the same ownership for the two-year period prior to application for the grant.

b. A provider of long-term care services, including one not covered by the medical assistance program, that has been in business for at least two years under the same owner.

162.3(2) Types and amounts of grants.

a. *Architectural and financial feasibility study allowance.* An architectural and financial feasibility study allowance may be awarded solely for costs directly attributable to development of the architectural and financial review documentation associated with conversion or service development. Architectural and financial feasibility study allowances for conversion or service development grants are limited to \$15,000, not to exceed actual costs for each project.

b. *Conversion grants.* A conversion grant may be awarded to convert all or a portion of a licensed nursing facility to affordable certified assisted living units (limited to \$45,000 per unit) and for capital or one-time expenditures including, but not limited to, start-up expenses, training expenses, and operating losses for the first year of operation following conversion.

Conversion grants are limited to a total of \$1,000,000 per facility, with an additional \$100,000 if the provider agrees to also provide adult day care, child care for children with special needs, safe shelter for victims of dependent adult abuse, or respite care.

A grant application which expands resident capacity of an existing nursing facility shall not be considered. A grant that requires additional space to accommodate supportive services related to the functioning of the long-term care alternative, such as dining rooms, kitchen and recreation areas, or other community-use areas, may be considered.

c. *Long-term care services development grant.* A long-term care services development grant may be awarded for capital or one-time expenditures to develop needed long-term care services covered under a Medicaid HCBS waiver or to develop a PACE program. Expenditures may include, but are not limited to, start-up expenses, training expenses, and operating losses for the first year of operation. Service development grants are limited to \$1,000,000 per PACE program, and \$150,000 for HCBS waiver services.

162.3(3) Criteria for grant applicants. A grant shall be awarded only to an applicant meeting all of the following criteria:

a. The applicant is located in an area determined by the senior living coordinating unit to be underserved with respect to a particular long-term care alternative service.

b. The applicant is able to provide a minimum matching contribution of 20 percent of the total cost of any conversion, remodeling, or construction. Costs used by grantees to match grant funds shall be directly attributable to the costs of conversion or service development.

c. Grant applications from nursing facilities shall be considered only from facilities with an established history of providing quality long-term care services. Facilities shall be in substantial

compliance with federal Medicaid participation requirements as evidenced at a minimum by all of the following:

(1) No identified deficiencies which pose a significant risk to resident health and safety at the time of application.

(2) No more than one isolated event resulting in actual harm to residents during the current Medicaid certification period.

(3) No citations for a pattern of events resulting in actual harm to residents for three years prior to application.

d. Grants to applicants other than nursing facilities shall be considered from applicants only when:

(1) There is substantial compliance with Medicare and Medicaid participation requirements or other applicable provider certification requirements at the time of application.

(2) Compliance exists with Medicare and Medicaid requirements, if applicable, for a three-year period prior to application.

(3) Compliance exists with the criminal background check system, if applicable.

e. The applicant agrees to do all of the following as applicable to the type of grant:

(1) Participate in the medical assistance program and maintain a medical assistance client participation rate of at least 40 percent, subject to the demand for participation by persons eligible for medical assistance. Applicants shall also agree that persons able to pay the costs of assisted living shall not be discharged from their living unit due to a change in payment source.

(2) Provide a service delivery package that is affordable for those persons eligible for services under the medical assistance home- and community-based services waiver program.

(3) Provide a refund of the grant to the senior living trust fund on a prorated basis if the applicant or the applicant's successor in interest: ceases to operate an affordable long-term care alternative within the first ten-year period of operation following the awarding of the grant; fails to maintain a participation rate of 40 percent in accordance with subparagraph (1) within the first ten-year period of operation following the awarding of the grant; or discharges persons able to pay the costs of assisted living from their living unit due to a change in payment source.

f. The applicant must demonstrate that the proposed method of construction, whether new or remodeling, is the most cost-effective for the grant program and, when developing assisted living units, must agree that a specified number of existing nursing facility beds will not continue to be licensed.

162.3(4) Allowable and nonallowable costs.

a. Examples of allowable costs include:

(1) Professional fees incurred specifically for conversion of facility or service development, including architectural, financial, legal, human resources, research, and marketing fees.

(2) Construction costs for the remodeling of existing space and, if necessary, the construction of additional space required to accommodate assisted living program services or other alternatives to nursing facility care or new construction of an assisted living facility or other alternative to nursing facility care if existing nursing facility beds are no longer licensed and the department determines that new construction is more cost-effective for the grant program than the conversion of existing space.

(3) Start-up and training expenses and operating losses for the first year.

b. Examples of nonallowable costs include:

(1) Costs of travel, personal benefits, and other facility programs or investments.

(2) Construction costs to remodel nursing facility space that will remain in use for nursing facility care.

(3) Any costs associated with operation and maintenance of a non-grant-related facility or service.

(4) Any costs incurred above per-unit grant amounts.

441—162.4(249H) Grant application process.

162.4(1) Public notice of grant availability. When funds are available for new grants, the department shall announce through public notice the opening of a competitive application period. The announcement shall include information on how agencies may obtain an application package and the deadlines for submitting an application.

162.4(2) Request for applications. The department shall distribute grant application packages for nursing facility conversion and long-term care service development grants upon request. Applicants desiring to apply for a grant shall submit Form 470-3759, Application for Nursing Facility Conversion Grant, or Form 470-3760, Application for Long-Term Care Service Development Grant, with accompanying documentation to the department by the date established in the application package. If an application does not include the information specified in the grant application package or if it is late, it will be disapproved.

The application must be submitted by the legal owner of the nursing facility or long-term care provider. In cases in which the provider licensee does not hold title to the real property in which the service is operated, both the licensee and the owner of the real property must submit a joint application. Form 470-3759 or Form 470-3760 must be signed by an individual authorized to bind the applicant to perform legal obligations. The title of the individual must be stated.

162.4(3) Application requirements.

a. Prior to submission of an application, the applicant must arrange and conduct a community assessment and solicit public comment on the plans proposed in the grant application. In soliciting public comment the applicant must at a minimum:

(1) Publish an announcement in a local or regional newspaper of the date, time, and location of a public meeting regarding the proposed project, with a brief description of the proposed project.

(2) Post notice of the meeting at the nursing facility or applicant's offices and at other prominent civic locations.

(3) Notify potentially affected clients and their families of the proposed project, of the potential impact on them, and of the public meeting at least two weeks prior to the public meeting.

(4) Advise the department of the public meeting date at least two weeks before the scheduled meeting.

(5) Address the following topics at the public meeting: a summary of the proposed project, the rationale for the project, and resident retention and relocation issues.

(6) Receive written and oral comments at the meeting and provide for a seven-day written comment period following the meeting.

(7) Summarize all comments received at the meeting or within the seven-day written comment period and submit the summary to the department as part of the application package.

b. Grant applications shall contain, at a minimum, the following information:

(1) Applicant identification and a description of the agency and its resources, which will demonstrate the ability of the applicant to carry out the proposed plan.

(2) Information to indicate the nursing facility applicant's extent of conversion of all or a portion of its facility to an assisted living program or development of other long-term care alternatives. Current and proposed bed capacity shall be given as well as the number of beds to be used for special services. Nursing facility and noninstitutional providers shall describe outpatient services they wish to develop.

(3) A request for an architectural and financial feasibility study allowance, if desired.

(4) Demonstration at a minimum of the following:

1. Public support for the proposal exists. Evidence of public support shall include, but not be limited to, the following: the summary of all comments received at the public meeting or within the seven-day written comment period and letters of support from the area agency on aging; the local board of health; local provider or consumer organizations such as the local case management program for frail elders, resident advocate committee or Alzheimer's chapter; and consumers eligible to receive services from the developed long-term care alternative.

2. The proposed conversion or service development will have a positive impact on the overall goal of moving toward a balanced, comprehensive, high-quality long-term care system.

3. Conversion of the nursing facility or a distinct portion of the nursing facility to an assisted living program or development of an alternative service will offer efficient and economical long-term care services in the service area described by the applicant.

4. The assisted living program or other alternative services are otherwise not likely to be available in the service area described by the applicant for individuals eligible for services under the medical assistance program.

5. If applicable, a resulting reduction in the availability of nursing facility services will not cause undue hardship to those individuals requiring nursing facility services for a period of at least ten years.

6. Conversion to an assisted living program or development of other alternative services will result in a lower per-client reimbursement to the grant applicant under the medical assistance program.

7. The service delivery package will be affordable for individuals eligible for services under the medical assistance home- and community-based services waiver program.

8. Long-term care alternatives will be available and accessible to individuals eligible for medical assistance and other individuals with low or moderate income.

9. Long-term care alternative services are needed based on the current and projected numbers of seniors and persons with disabilities, including those requiring assistance with activities of daily living in the service area described by the applicant.

10. Long-term care alternatives in the service area are needed based on the community needs assessment and upon current availability and any anticipated changes in availability.

162.4(4) Selection of grantees. All applications received by the department within the designated time frames and meeting the criteria set forth in rule 441—162.3(249H) and subrule 162.4(3) shall be reviewed by the department under the direction of the senior living coordinating unit.

If grant applications that meet the minimum criteria exceed the amount of available funds, scoring criteria shall be used to determine which applicants shall receive a grant. Scoring shall be based on the following:

1. The degree to which the county or counties in the service area described by the grant applicant are underserved - up to 20 points. If more than one county is in the service area, a weighted average shall be used.

2. The level of community support as identified by the community-based assessment, public meeting comments, and letters of support and the degree of collaboration among local service providers - up to 20 points.

3. For conversion grants, the number of licensed beds eliminated or converted to special needs beds, with evidence that the resulting reduction in licensed beds will not cause a hardship for persons requiring nursing services - up to 20 points.

4. The number of added services to fill a service need gap - up to 20 points.

5. Evidence of an adequate plan to carry out the requirements of this chapter and regulations pertaining to the long-term care alternative service - up to 20 points.

6. Costs of long-term care alternative services to consumers - up to 30 points.

7. Evidence of the ability and commitment to make proposed alternatives accessible to low- and moderate-income persons - up to 20 points.

162.4(5) Notification of applicants. Applicants shall be notified whether the grant proposal is approved or denied. Denial of an application in one year does not preclude submission of an application in a subsequent year.

441—162.5(249H) Grant dispersal stages. Following approval of an applicant's grant proposal by the department, the grant process shall proceed through the following stages:

162.5(1) Completion of architectural and financial feasibility study.

a. An architectural and financial feasibility study shall be completed pursuant to the guidelines included in the applicable grant application package and applicable service regulations.

(1) For facility conversion, construction, or remodeling, the architectural plan shall provide schematic drawings at a minimum of one-eighth scale consisting of the building site plan, foundation plan, floor plan, cross section, wall sections, and exterior elevations.

(2) The grantee shall comply with all local, state and national codes pertaining to construction; and certification, licensure, or accreditation requirements applicable to the long-term care alternative.

(3) Construction documents, budget cost estimates, and related services must be rendered by a professional architect or engineer registered in Iowa.

b. Payment of up to \$15,000 may be issued to each approved applicant to proceed with the architectural and financial feasibility study if requested in the original application. By making a request for an architectural and financial feasibility study allowance, the applicant agrees that the funds will be used solely for costs directly attributable to development of the architectural and financial review documentation associated with conversion or service development.

c. All grantees must submit the completed study documents within the time frame identified in the request for application together with an itemized accounting of the expenditure of any allowance funds. Any unexpended architectural and financial review allowance funds shall be returned to the department.

162.5(2) *Review of architectural and financial feasibility study.* The department shall review the architectural and financial feasibility study materials and shall grant or deny approval to develop or obtain final budget estimates for the proposed project. Approval to proceed shall be granted only if the architectural and financial feasibility study supports the ability of the grantee to meet the minimum grant criteria and to complete the proposed project as set forth in the original application.

162.5(3) *Completion of final budget estimate.* Grantees approved to proceed with the final budget estimate shall submit the final budget estimates, any revisions to previously submitted materials, and a request for a grant in a specific amount. The matching fund amount to be paid by the grantee must be stated in the request.

162.5(4) *Review of final budget estimate.* The department shall review the final budget estimate and issue a notice of award for a grant in a specific amount if the final budget estimate supports the ability of the grantee to meet the minimum grant criteria and to complete the proposed project as set forth in the original application.

441—162.6(249H) Project contracts. The funds for approved applications shall be awarded through a contract entered into by the department and the applicant.

441—162.7(249H) Grantee responsibilities.

162.7(1) *Records and reports.*

a. The grantee shall maintain the following records:

(1) Consumer participation records that identify persons by payment source.

(2) Complete and separate records regarding the expenditure of senior living trust funds for the grant amounts received.

b. Recipients of grants shall submit a bimonthly progress report to the department and senior living coordinating unit beginning the second month following project approval through project completion.

c. Recipients shall submit annual cost reports to the department, in conformance with policies and procedures established by the department, regarding the project for a period of ten years after the date the grantee begins operation of its facility as an assisted living facility or other long-term care alternative.

162.7(2) *Reasonable access.* The grantee shall allow access to records at reasonable times by duly authorized representatives of the department for the purpose of conducting audits and examinations and for preparing excerpts and transcripts. This access to records shall continue for a period of ten years from the date the grantee begins operation as an assisted living facility or other long-term care alternative.

162.7(3) *Relinquishment of license.* The grantee shall relinquish the nursing facility bed license for any facility space converted to assisted living or alternatives to nursing facility care for a ten-year period.

162.7(4) *Acceptance of financial responsibility.* The grantee shall accept financial responsibility for all costs over and above the grant amount which are related to project completion.

162.7(5) *Participation in the medical assistance program.* The grantee shall participate in the medical assistance program as a provider of nursing facility services if the grantee continues to provide any nursing facility services.

162.7(6) *Segregation of medical assistance residents forbidden.* The grantee shall not segregate medical assistance residents in an area, section, or portion of an assisted living program or long-term care alternative service. Grantees shall allow a resident who is converting from private-pay to medical

assistance to remain in the resident's living unit if the resident is able to pay the rate and shall not relocate the resident solely due to a change in payment source.

441—162.8(249H) Offset. The department may deduct the amount of any refund due from a grantee from any money owed by the department to the grantee or the grantee's successor in interest.

441—162.9(249H) Appeals. Applicants dissatisfied with the department's actions regarding applications for grants and grantees dissatisfied with actions regarding a grant may file an appeal with the director. The letter of appeal must be received by the director within five working days of the date of the notice and must include a request for the director to review the action and the reasons for dissatisfaction. Within ten working days of the receipt of the appeal, the director shall review the appeal request and issue a final decision.

No disbursements shall be made to any applicant for a period of five working days following the notice awarding the original grants. If an appeal is filed within the five days, all disbursements shall be held pending a final decision on the appeal.

These rules are intended to implement Iowa Code section 249H.6 as amended by 2001 Iowa Acts, House File 740, section 7.

CHAPTER 163
ADOLESCENT PREGNANCY PREVENTION AND SERVICES
TO PREGNANT AND PARENTING ADOLESCENTS
PROGRAMS

PREAMBLE

These rules define and structure the grant programs for adolescent pregnancy prevention statewide campaign, adolescent pregnancy evaluation, adolescent pregnancy state coalition, and community adolescent pregnancy prevention and services programs. The services are to be provided to adolescents and their parents for the purpose of preventing adolescent pregnancy; to adolescents who are either pregnant or parenting to prevent subsequent pregnancies, promote self-sufficiency and physical and emotional well-being; and to communities to assist them in addressing issues of adolescent pregnancy.

441—163.1(234) Definitions.

“Adolescent” means a person under 18 years of age or a person 18 years of age or older who is attending an accredited high school or pursuing a course of study which will lead to a high school diploma or its equivalent.

“Community” means a defined service area no smaller than a neighborhood and no larger than a region of the state.

“Department” means the Iowa department of human services.

“Director” means the director of the department of human services or successor agency.

“Grant designation committee” means the body which is responsible for designating and awarding grants.

“Grantee” or *“provider”* means an applicant who has received a grant.

“Percentage of pregnancies” means the total number of births to mothers aged 13 years of age and older but younger than 18 years of age in the service area for the most recent year for which data is available divided by the total number of births statewide for the same age group and the same year.

“Pregnancy prevention” means activities to avoid initial pregnancies.

“Prevention of subsequent pregnancy” means activities to avoid additional pregnancies during the adolescent years.

“Region” means one of the five department regions in the state.

441—163.2(234) Availability of grants for projects. In any year in which funds are available for adolescent pregnancy prevention statewide campaign, evaluation, coalition or community teen pregnancy prevention and services programs, the department shall administer grants to eligible applicants for projects that serve residents of Iowa. The amount of money granted shall be contingent upon the funds available and shall be made on an annual basis. The allocation of funds shall be in compliance with legislation and approved by the grant designation committee and the administrator of the division of adult, children, and family services.

441—163.3(234) Project eligibility.

163.3(1) Grants will be awarded to eligible applicants for specifically designed projects. Preference in awarding grants shall be given to projects which use a variety of community resources and agencies. Priority in awarding of points for community grants shall be given to programs that serve areas of the state which demonstrate the highest percentage of pregnancies of females aged 13 years of age or older but younger than the age of 18 within the geographic area to be served by the grant. Projects selected for the adolescent pregnancy prevention statewide campaign, adolescent pregnancy evaluation grant, and state coalition grants will be eligible for noncompetitive funding for up to three years, pending availability of funds and based upon satisfactory progress toward program goals. Projects which do not make satisfactory progress toward program goals shall be required to competitively bid for refunding. After three years, all projects must competitively bid for refunding.

Projects funded prior to July 2000 under the community adolescent pregnancy prevention and services grants are eligible for funding for up to nine years, pending availability of funds if the programs are comprehensive in scope and have demonstrated positive outcomes. Grants awarded after July 2000 must be comprehensive in scope and be based on existing models that have demonstrated positive outcomes.

An increasing grantee match will be required. A 5 percent grantee match will be required in year one. The match will increase by 5 percent each subsequent year a project receives funding. In-kind matches may be applied toward the grantee match. Projects which do not make satisfactory progress toward program goals shall be required to competitively bid for refunding.

163.3(2) A grantee may not use grant funds to serve residents of states other than Iowa. An exception to this would be a media campaign in which radio or television messages may “reach” audiences outside of Iowa.

163.3(3) Rescinded IAB 7/6/94, effective 7/1/94.

163.3(4) Projects must serve adolescents. Persons who were served prior to age 18 may continue to be served even though they are not currently pursuing a high school diploma.

163.3(5) Rescinded IAB 7/6/94, effective 7/1/94.

163.3(6) Eligible applicants for the statewide campaign are public or private agencies or individuals. Eligible applicants for the evaluation program are organizations or individuals affiliated with institutions under the authority of the state board of regents or other organizations or individuals experienced in evaluation techniques. Applications for the state coalition program will be accepted from groups or networks with statewide representation focusing on issues of adolescent pregnancy prevention, parenting and community collaboration. Applications for the community adolescent pregnancy prevention and services program will be accepted from community or regional boards or committees with broad-based representation or a single agency representing a broad-based group.

163.3(7) Rescinded IAB 11/4/98, effective 1/1/99.

163.3(8) Rescinded IAB 11/4/98, effective 1/1/99.

163.3(9) An adolescent pregnancy prevention statewide campaign grant will be awarded for a project providing a statewide campaign which encourages abstinence and provides information which will emphasize prevention of adolescent pregnancies.

163.3(10) An adolescent pregnancy prevention evaluation grant will be awarded to provide technical assistance to grantees in assessing their project and developing an evaluation tool for ongoing use. The evaluation grantee will provide an annual written report to the department.

163.3(11) A state coalition grant will be awarded to provide assistance to an existing coalition or network focusing on the issues of adolescent pregnancy prevention and services and coalition building in the state.

163.3(12) Community adolescent pregnancy prevention grants will be awarded to projects providing:

a. Broad-based representation from community or regional representatives including, but not limited to, schools, churches, human service-related organizations, and businesses.

b. Comprehensive programming focusing on the prevention of initial pregnancies during the adolescent years. Projects may provide one or more of the following services:

(1) Workshops and informational programs for adolescents and parents of adolescents to improve communication between children and parents regarding human sexuality issues.

(2) Programs that focus on the prevention of initial pregnancies through responsible decision making in relationships. These programs should be comprehensive with emphasis on, but not limited to, abstinence, risks associated with drug and alcohol use, contraceptives and associated failure rates, sexually transmitted diseases, and AIDS.

(3) Programs which use peer counseling or peer education techniques for the prevention of adolescent pregnancies.

(4) Development and distribution of informational material designed to discourage adolescent sexual activity, to provide information regarding acquired immune deficiency syndrome and sexually

transmitted diseases, and to encourage male and female adolescents to assume responsibility for their sexual activity and parenting.

c. Services to pregnant and parenting adolescents. Not more than 25 percent of a community grant may be used for these services. Projects may provide one or more of the following services:

(1) Programs intended to prevent an additional pregnancy by a parent who is less than 19 years of age. Preference in grant awards will be given to programs providing incentives to clients for their program participation and success in avoiding a subsequent pregnancy.

(2) Programs for pregnant or parenting teens intended to educate adolescents concerning the risks associated with alcohol and other drug use during pregnancy, improve parenting skills, and plan for the future.

(3) Programs for young fathers.

(4) Development and distribution of informational material designed to encourage male and female adolescents to assume responsibility for their sexual activity and parenting.

441—163.4(234) Request for proposals for pilot project grants.

163.4(1) The department will announce through public notice the opening of an application period for each of the grant programs. Applicants for grants shall request an Adolescent Pregnancy Prevention Application Kit for any or all of the open categories and shall submit grant proposals by the deadline specified in the announcement.

163.4(2) Requirements for project proposals are specified in the “Adolescent Pregnancy Prevention Grant Application Kit.” If a proposal does not contain the information specified in the application package or if it is late, it will be disapproved. Proposals shall contain the following information:

- a.* General information.
- b.* Proposal checklist.
- c.* Proposal summary.
- d.* Statement of problem and need, including information demonstrating the percentage of pregnancies of females aged 13 years of age or older but younger than the age of 18 within the geographic area to be served.
- e.* Community or regional background information and demonstrated effectiveness at collaboration.
- f.* Project goals, objectives and methods.
- g.* Project monitoring and evaluation.
- h.* Budget information.
- i.* Explanation of grantee share of budget.
- j.* Future funding.
- k.* Cooperative agencies agreement.
- l.* Applicant assurances and certification.
- m.* Letters of support.
- n.* Project advisory committee.

441—163.5(234) Selection of proposals.

163.5(1) All proposals received will be evaluated by the grant designation committee to determine which applicants will be awarded grants.

163.5(2) The following factors will be considered in selecting proposals:

a. The demonstrated need for the service in the program area(s) selected and assurance that the proposed project does not duplicate other services in the community.

b. The community support demonstrated and the coordination with other existing agencies and organizations providing services to the targeted population.

c. The general program structure including, but not limited to, how well goals can be met, how realistic the objectives are, services offered and likelihood of anticipated impact on the problem, experience serving similar populations, the administration of funds, stability of the requesting entity and the overall quality of the proposal in comparison to other proposals.

d. The plan for using the funds. Funds may not be used for construction, capital improvement or purchase of real estate.

e. Rescinded IAB 11/4/98, effective 1/1/99.

163.5(3) Weighted scoring criteria will be used to determine grant awards. The maximum number of points possible is 125. Determination of final point awards will be based on the following:

a. Proposal summary—10 points.

b. Statement of problem and need—15 points.

c. Community or regional background information and demonstrated effectiveness with coalition building—10 points.

d. Project goals, objectives and methods—15 points.

e. Project monitoring and evaluation—10 points.

f. Budget information, explanation of grantee share of budget, and cooperative agencies agreement—15 points.

g. Future funding and applicant assurances and certification—5 points.

h. Project advisory committee—10 points.

i. Overall quality and impact of program—10 points.

j. Letters of support—10 points.

k. Consideration of legislative priority area—15 points.

441—163.6(234) Project contracts. The funds for approved applications will be awarded through a contract entered into by the director and the applicant. The contract period shall not exceed the state fiscal year in which the contract is awarded. The state fiscal year is from July 1 to June 30. Expenditures shall be reimbursed monthly pursuant to regular reimbursement procedures of the state of Iowa. Grantees will submit a projected yearly expenditure on April 15. Those projects expecting to spend more than 10 percent less than their granted amount shall free the excess for the purpose of providing supplemental funding to those grantees who wish to apply.

441—163.7(234) Records. Providers shall keep client and specific fiscal records of services provided and any other records as required by the department and specified in the contract.

441—163.8(234) Evaluation. The department shall evaluate the provider at least once prior to the end of the contract year to determine how well the purposes and goals are being met and shall provide ongoing feedback to the provider. Funds are to be spent to meet program goals as provided in the contract.

Grantees shall be required to submit quarterly reports. All grantees shall cooperate with the statewide evaluation grantee and provide all requested information. The evaluation grantee shall provide a written yearly report to the department.

441—163.9(234) Termination of contract. The contract may be terminated by either party at any time during the contract period by giving 30 days' notice to the other party.

163.9(1) The department may terminate a contract upon ten days' notice when the provider or any of its subcontractors fail to comply with the grant award stipulations, standards, or conditions.

163.9(2) Within 45 days of the termination, the provider shall supply the department with a financial statement detailing all costs up to the effective date of the termination.

163.9(3) The department shall administer the funds for this program contingent upon their availability. If the department lacks the funds necessary to fulfill its fiscal responsibility under this program, the contracts shall be terminated or renegotiated.

441—163.10(234) Appeals. Applicants dissatisfied with the grant designation committee's decision may file an appeal with the director. The letter of appeal must be received within ten working days of the date of the notice of decision; must be based on a contention that the process was conducted outside of statutory authority, violated state or federal law, policy or rule, did not provide adequate public notice, was altered without adequate public notice, or involved conflict of interest by staff or committee members; and must include a request for the director to review the decision and the reasons

for dissatisfaction. Within ten working days of the receipt of the appeal the director will review the appeal request and issue a final decision.

No disbursements will be made to any applicant for a period of ten calendar days following the notice of decision. If an appeal is filed within the ten days, all disbursements will be held pending a final decision on the appeal. All applicants involved will be notified if an appeal is filed and given the opportunity to be included as a party in the appeal.

These rules are intended to implement Iowa Code section 234.6.

CHAPTER 164
IOWA HOSPITAL TRUST FUND

PREAMBLE

These rules describe the Iowa hospital trust fund created by the Second Extraordinary Session of the Seventy-ninth General Assembly in 2001 Iowa Acts, House File 763, and explain how public hospitals can participate in a program for funding of the Iowa hospital trust fund.

441—164.1(249I) Definitions.

“Department” means the Iowa department of human services.

“Hospital” means hospital as defined in Iowa Code section 135B.1.

“Hospital trust fund” or *“trust fund”* means the Iowa hospital trust fund created by Iowa Code Supplement section 249I.4, in the state treasury under the authority of the department.

“Public hospital” means a hospital licensed pursuant to Iowa Code chapter 135B and governed pursuant to Iowa Code chapter 145A, 347, 347A, or 392.

441—164.2(249I) Funding and operation of trust fund. Net funds received by the department through intergovernmental agreements for the hospital trust fund and moneys received by the department from other sources for the hospital trust fund, including grants, contributions, and participant payments, shall be deposited in the hospital trust fund. Annual expenses that are incurred to operate the hospital trust fund shall be deducted from funds received as a result of intergovernmental agreements and other sources, before their deposit in the hospital trust fund.

441—164.3(249I) Allocations from the hospital trust fund. Moneys deposited in the hospital trust fund shall be used only for the purposes of the hospital trust fund as specified in Iowa Code Supplement section 249I.2 and as provided in appropriations from the trust fund to the department of human services as specified in Iowa Code Supplement section 249I.4.

441—164.4(249I) Participation by public hospitals.

164.4(1) Participation agreement. Iowa public hospitals that participate in the Iowa Medicaid program and wish to participate in the funding of the hospital trust fund shall contact the Department of Human Services, Office of the Deputy Director for Policy, Hoover State Office Building, Fifth Floor, 1305 E. Walnut Street, Des Moines, Iowa 50319-0114, for information regarding the conditions of participation. Upon acceptance of the conditions of participation, the hospital shall sign Form 470-3932, Participation Agreement for Intergovernmental Transfer.

164.4(2) Administration fee. Upon acceptance of the participation agreement, the department shall authorize increased reimbursement to the participating facility for hospital services provided under the Medicaid program. Once every state fiscal year, the hospital shall retain \$5,000 of the additional reimbursement received, as an administration fee. The hospital shall refund the remainder of the additional reimbursement through intergovernmental transfer to the department for deposit of the federal share (less the \$5,000 retained by the hospital) in the Iowa hospital trust fund and the nonfederal share in the medical assistance budget.

164.4(3) Limit on participation. The department may limit participation by public hospitals to no more than the number needed to maximize the fund.

These rules are intended to implement Iowa Code Supplement section 249I.4.

[Filed 9/12/02, Notice 7/24/02—published 10/2/02, effective 12/1/02]

CHAPTER 165
FAMILY DEVELOPMENT AND SELF-SUFFICIENCY PROGRAM

PREAMBLE

These rules define and structure the family development and self-sufficiency council within the department of human services and the family development and self-sufficiency grant program administered, under contractual agreement, by the department of human rights. The grant program is designed to make services available to families who are at risk of long-term welfare dependency.

The purpose of the program is to fund, evaluate, and provide recommendations on programs that provide services to families at risk of long-term welfare dependency.

These rules establish the framework regarding eligibility criteria, application procedures, and provisions for the termination of contractual agreements.

441—165.1(217) Definitions.

“*Applicant*” means a public or private organization which makes application for a grant through the request for proposal process.

“*Council*” means the family development and self-sufficiency council.

“*Department*” means the Iowa department of human services.

“*Grant*” means an award to fund a project approved by the council.

“*Grantee*” means the recipient of a grant approved by the council.

441—165.2(217) Council. The family development and self-sufficiency council is established within the department pursuant to Iowa Code section 217.11. The council’s powers and duties are policy-making and advisory with respect to the family development and self-sufficiency grants administered, under contractual agreement, by the department of human rights. Council responsibilities are further delineated in subrule 165.2(3).

165.2(1) Membership. The council membership is established by Iowa Code section 217.11 as follows:

- a. The director of the Iowa department of human services or the director’s designee.
- b. The director of the Iowa department of public health or the director’s designee.
- c. The administrator of the division of community action agencies in the department of human rights or the administrator’s designee.
- d. The administrator of the division of adult, children and family services of the department of human services or the administrator’s designee.
- e. The dean of the college of family and consumer sciences at Iowa State University or the dean’s designee.
- f. The director of the department of education or the director’s designee.
- g. The director of the public policy center at the University of Iowa or the director’s designee.
- h. The head of the department of design, family and consumer sciences at the University of Northern Iowa or that person’s designee.
- i. Two recipients or former recipients of the family investment (FIP) program, selected by the other members of the council.

165.2(2) Procedures.

- a. A quorum shall consist of two-thirds of the members.
- b. Where a quorum is present in person or by telephone, a position is carried by a majority of the members, or members’ designees, eligible to vote.
- c. Copies of the minutes are kept on file in the office of the administrator of the Division of Economic Assistance in the Department of Human Services, Hoover State Office Building, Des Moines, Iowa 50319-0114.

d. At each meeting the council shall determine the date and location of the next meeting. Special meetings may be called by the chair or upon the written request of a majority of council members.

e. Council meetings are considered public and require timely notice to the communications media as defined in Iowa Code section 21.4.

f. In cases not covered by these rules, Robert's Rules of Order shall govern.

165.2(3) Council duties. Council duties as established by Iowa Code section 217.11 are as follows:

a. Identify the factors and conditions that place Iowa families at risk of long-term dependency upon the FIP program. The council shall seek to use relevant research findings and national and Iowa-specific data on the ADC program.

b. Identify the factors and conditions that place Iowa families at risk of family instability and foster care placement. The council shall seek to use relevant research findings and national and Iowa-specific data on the foster care system.

c. Subject to availability of funds for this purpose, award grants to public or private organizations to provide family development services to families at risk of long-term welfare dependency.

d. In cooperation with the legislative services agency, develop measures to independently evaluate the effectiveness of programs, including measurement of the program's effectiveness in meeting its goals through reduction in length of stay on welfare or a reduced need for other state child and family welfare services.

e. Seek the support of the Iowa research community to carry out research and evaluation responsibilities.

f. Seek additional support for the funding of grants. Any funding received will be administered by the department subject to Iowa Code section 234.14.

g. Make recommendations to the governor and the general assembly on the effectiveness of early intervention programs in Iowa and throughout the country that provide family development services to families at risk of long-term welfare dependency.

h. Evaluate and make recommendations regarding the costs and benefits of the expansion of the services provided under the special needs program of the FIP program to include tuition for parenting skills programs, family support and counseling services, child development services and transportation and child care expenses associated with the programs and services.

441—165.3(217) Funding of grants.

165.3(1) Availability of funds. In any year in which funds are available for the family development and self-sufficiency grant program, the council shall award grants, subject to annual renewal, to selected applicants. The amount of money granted shall be contingent upon the amount of funds available and shall be determined on an annual basis.

165.3(2) Grants not renewed. Upon the council's determination that a grantee's project funding will not be renewed, the balance of funds to that grantee shall be awarded by the council to other previously approved grantees for which funding is renewed or to fund new grantees selected by the council as a result of the grant application process. These funds shall be awarded on the basis of how well the grantees exhibit the ability to effectively utilize additional funds. The allocation of these funds shall be in compliance with legislation.

165.3(3) Funding allocations. The allocation of funds shall be in compliance with legislation and contingent on available funds. The council shall endeavor to allocate funds in a manner which allows participation of a variety of projects across Iowa. Federal funds generated through grantee match shall be used for program expansion.

165.3(4) Matching funds. Grantees may generate funds to be used by the department (Title IV-F of the Social Security Act agency) to access federal matching funds. The local funds used for federal match must have been expended on the program, and new federal funds generated should be used for program expansion and not result in a decrease in annual local funding commitments.

441—165.4(217) Families at risk.

165.4(1) Identification of conditions and criteria. The following conditions and criteria which may place families at risk of long-term welfare dependency have been identified by the council:

- a. Educational level of head of household.
 - (1) Less than a high school education.
 - (2) Lacks basic literacy skills.
- b. Work experience of head of household.
 - (1) Never employed.
 - (2) Multiple episodes of employment lasting less than one year.
 - (3) Currently unemployed.
- c. Household composition.
 - (1) Members are homeless or near homeless.
 - (2) Members outside of the nuclear family in residence.
 - (3) Three or more children.
 - (4) One or more children born while on public assistance.
 - (5) One or more children identified as having special needs.
 - (6) Includes alcohol or substance abusers.
 - (7) Includes past or current perpetrator of child abuse or domestic violence.
 - (8) Includes members with a record of incarceration.
- d. Background of head of household.
 - (1) Was a teenager at first birth.
 - (2) Has a disability or chronic illness (mental or physical).
 - (3) Past or current victim of child abuse or domestic violence.
 - (4) Grew up in a household with alcohol or substance abuse.
- e. Welfare history.
 - (1) Grew up in a household receiving public assistance.
 - (2) Multiple episodes on public assistance.
 - (3) Family on public assistance for three or more years.
- f. Other conditions which may contribute to long-term dependency.
 - (1) Geographic location.
 - (2) Lack of employment opportunity.
 - (3) Lack of available services.
 - (4) Lack of transportation.

165.4(2) Identification of families. The department shall identify those families receiving family investment program benefits who meet the council's criteria.

165.4(3) Designation of criteria. The grantees shall designate, in the application for funds, the criteria for families to be served by the program. Grantees shall serve families meeting one or more criteria established by the council. The grantee may further delineate the criteria identified by the council.

165.4(4) Selection of families. A selection of families from the population meeting the council's criteria shall be made by the department. Selections may be made using the Statistical Package for Social Services or through local levels under a plan of referral approved by the council.

a. From these families, a selection will be made of those families that meet grantee specific criteria which is available through the department and those names will be forwarded to the grantee.

b. The grantee shall be responsible for marketing its services to the families identified by the department. All marketing plans, procedures, and materials used by the grantee must be approved in writing by the department of human rights prior to use.

c. Of the identified families who voluntarily agree to participate in a family development and self-sufficiency program, assignment of families will be made to grant projects by the department. The department of human rights shall receive timely notification of assignment.

d. Families referred shall be identified in the database of the department as receiving grantee services.

165.4(5) *Monitoring of families.* Referred families shall be monitored by the department to determine the effect of the programs in changing the status of the families selected.

441—165.5(217) Grant application process.

165.5(1) *Public notice of grant availability.* The council will announce through public notice the opening of a competitive application period. The announcement will include information on how public and private organizations may obtain a request for proposal and the deadlines for submitting requests.

165.5(2) *Request for proposals.* Applications for family development and self-sufficiency grants shall be distributed by the department of human rights. Applicants shall submit Form 379-4200, Request for Proposal, to the department of human rights. If a proposal does not include the information specified in the application package or if it is late, it will be disapproved. Proposals shall contain, at a minimum, the following information:

- a. Applicant identification, including general agency information.
- b. Project summary, including a statement of need, the issues the project will address, and the geographic area to be served.
- c. Project objectives.
- d. Specific project information which includes but is not limited to the following:
 - (1) Criteria for families to be served.
 - (2) The number of families to be served.
 - (3) Description of the services to be provided by the project and methodology for provision. Services may include, but are not limited to, assistance regarding job-seeking skills, family budgeting, nutrition, self-esteem, health and hygiene, child rearing, child care education preparation, and goal setting. Support systems that will be developed shall be described.
 - (4) Description of the manner in which other needs of the families will be provided. These services may include, but are not limited to, day care assistance, transportation, substance abuse treatment, support group counseling, food, clothing, and housing.
 - (5) Description of community support for the program, which may include letters of support.
 - (6) Description of the manner in which community resources will be made available to families being served and to meet their subsequent needs.
- e. Description of the training and recruitment of the staff providing services and the appropriateness of same.
- f. Designation of the evaluation and audit mechanisms.
- g. Assurances that families referred by the department will be served.
- h. Project budget.
- i. Plan for evaluation of project.

165.5(3) *Submission process.* All applicants shall submit proposals in accordance with instructions in the request for proposal distributed by the department of human rights. The minimum number of copies of the completed application form, as defined in the request for proposal, shall be submitted to the Bureau of Community Services, Iowa Department of Human Rights, First Floor, Lucas State Office Building, Des Moines, Iowa 50319.

In order to be included in the review process and considered for possible funding, applications shall be postmarked by midnight the date applications are due or delivered to the bureau of community services during regular business hours anytime prior to the deadline.

441—165.6(217) Selection of grantees. All applications received within the time frames designated by the council and meeting the criteria, shall be reviewed by the department of human rights, which shall make funding recommendations to the council. The council shall make the final decision with respect to which organizations will receive grant funds.

165.6(1) *Selection criteria.* The council will review the projects recommended by the department of human rights. Criteria for selection of projects include, but are not limited to, the following:

- a. The statement of need which will demonstrate the need for the service in the geographical area to be served.

- b. The issues the project will address.
- c. The criteria for families to be served, including the number to be served.
- d. The services to be provided and how the services address the needs. This includes direct and indirect services.
- e. The community support systems available to the families to be served.
- f. Description of how the project objectives are to be measured in both quantitative and qualitative terms.
- g. General program structure including, but not limited to, how well goals can be met, how realistic the objectives are, stability of the organization, and the overall quality and utility of the proposal in comparison to other proposals and in relationship to funding limits.
- h. The project budget, including administration of the funds. Note, the funds may be used for salaries, fringe benefits, job-related in-state travel, contract services, materials, and operational expenses. The funds may not be used for construction, capital improvement or purchase of real estate.

165.6(2) Notification of applicants. Applicants shall be notified no later than 45 days following the due date for receipt of proposals whether the proposal is denied or accepted.

The grantee may be requested to modify the proposal through the contracting process.

441—165.7(217) Contract with grantee. Funds for grants approved by the council shall be awarded through a contract entered into by the department of human rights and the applicant.

165.7(1) Negotiation. The department of human rights shall conduct contract negotiation with the applicant. The applicant may be requested to modify a project proposal in the negotiation process. The applicant or the department of human rights may request an amendment to the contract.

165.7(2) Withdrawal of contract offer. If the applicant and the department of human rights are unable to successfully negotiate a contract, the council may withdraw the award offer.

165.7(3) Duration. The contract period shall not exceed 36 months.

441—165.8(217) Grantee responsibilities.

165.8(1) Records. The grantee shall maintain records which include, but are not limited to:

- a. Specific client information.
- b. Specific services provided.
- c. Fiscal records of expenditures.
- d. Any other specific records as may be determined necessary by the department of human rights, to the overall evaluation of the project.
- e. In lieu of disposition of family records, such records shall be transferred to the department of human rights.

165.8(2) Reports.

a. Grantees shall complete Form 379-4103, Monthly Funding Request and Expenditure Report, that includes, but is not limited to, the state grant dollars expended as they relate to each line item in the budget.

b. Grantees shall complete Form 379-4201, Quarterly Activities Report, that includes, but is not limited to:

- (1) The number of clients served and the services provided.
- (2) A list of planned goals and activities and progress toward goals completed on schedule.
- (3) Any general comments on the progress of the program.

441—165.9(217) Evaluation. The grantee shall be evaluated by the department of human rights at least once prior to the end of each 12-month period that the project is funded. The purpose of the evaluation is to determine the progress of the grantee in relation to the stated goals and objectives of the project, as well as other matters relating to contractual obligations. The grantee shall receive a written report of the evaluation.

441—165.10(217) Contract revision and termination.

165.10(1) *Contract revisions.* The department of human rights and the grantee may negotiate a revision to the contract to allow for expansion or modification of services but shall not increase the total amount of the grant. The council shall have authority to approve revised contracts involving realignment in funding of plus or minus 10 percent or any change in work scope.

165.10(2) *Termination for convenience.* The contract may be terminated in whole, or in part, by the department of human rights when the department of human rights, with council approval, determines that the termination is in the best interest of the state. The department of human rights shall notify the grantee of termination in writing at least 30 days prior to the effective date of termination. The grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. Payments to the grantee will be only for services and activities provided up to the date of termination.

165.10(3) *Termination for cause.* The contract may be terminated in whole, or in part, at any time before the date of completion, whenever it is determined that the grantee has failed to comply with the conditions of the contract. The grantee shall be notified in writing by the department of human rights of the reasons for the termination and the effective date. The grantee shall have ten days after the notice is received to correct the problem or otherwise outline a corrective action plan. The department of human rights shall then issue a notice of termination if the problems are not corrected to the satisfaction of the department of human rights. Payments to the grantee will be only for services and activities provided up to the date of termination.

The department of human rights shall administer the funds for this program contingent upon their availability. If there is a lack of funds necessary to fulfill the fiscal responsibility of this program, the contracts shall be terminated or renegotiated. The council may terminate or renegotiate a contract upon 30 days' notice when there is a reduction of funds by executive order.

165.10(4) *Responsibility of grantee at termination.* Within 45 days of the termination, the grantee shall supply the department of human rights with a financial statement detailing all costs up to the effective date of the termination. All records (family and financial) shall be forwarded to the department of human rights.

441—165.11(217) Reconsideration. Applicants dissatisfied with the council's actions regarding proposals for funds and grantees dissatisfied with termination of a contract may request a reconsideration. The letter requesting reconsideration must be submitted to the department of human rights within ten working days of the date of the notice of decision. The request must include the reasons for dissatisfaction and evidence of the reasons for dissatisfaction. Reasons for reconsideration must be based on a contention that the process violated state or federal law, policy, or rule, did not provide adequate public notice or was altered without adequate public notice, involved conflict of interest, or was biased or unfair. Within 15 working days of the receipt of the request for reconsideration, the director of the department of human services, or designee, who has not personally participated in the issues under reconsideration, will review the request and evidence provided by the applicant or grantee as well as the evidence provided by the department of human rights and will issue a final decision.

No disbursements will be made to any applicant for a period of ten calendar days following the notice of decision. If a request is filed within the ten days, all disbursements will be held pending a final decision on the appeal. All applicants will be notified if a reconsideration request is filed.

These rules are intended to implement Iowa Code sections 217.11 and 217.12.

CHAPTER 166
JUVENILE COMMUNITY-BASED GRANTS
Rescinded IAB 2/5/92, effective 4/1/92

CHAPTER 167
JUVENILE DETENTION REIMBURSEMENT
[Prior to 2/11/87, Human Services [498]]

DIVISION I
ANNUAL REIMBURSEMENT PROGRAM

441—167.1(232) Definitions.

“*Allowable costs*” means those expenses of the county or multicounty related to the establishment, improvements, operation, and maintenance of county or multicounty juvenile detention homes.

“*County or multicounty*” means that the governing body is a county board of supervisors or a combination of members of participating county boards of supervisors.

441—167.2(232) Availability of funds. Any year that the Iowa legislature makes funds available for this program, the department shall accept requests for reimbursement from eligible facilities.

441—167.3(232) Eligible facilities. County and multicounty juvenile detention homes shall be eligible for reimbursement under this program when:

167.3(1) The home is approved by the department under the standards of Iowa Code chapter 232 and IAC 441—Chapter 105.

167.3(2) The home submits Form 07-350, Purchase Order/Payment Voucher, within the time frames of 441—167.5(232).

167.3(3) Rescinded IAB 9/30/92, effective 10/1/92.

441—167.4(232) Available reimbursement. The reimbursement for the participating facilities shall be the percentage of the allowable costs authorized in the appropriation language for the current fiscal year.

441—167.5(232) Submission of voucher. Eligible facilities shall submit Form 07-350, Purchase Order/Payment Voucher, for the legislatively authorized percentage of their allowable costs for the year ending June 30 to the Department of Human Services, Division of Fiscal Management, First Floor, Hoover State Office Building, Des Moines, Iowa 50319-0114, by August 10. Only facilities which submit Form 07-350, Purchase Order/Payment Voucher, by August 10 shall receive reimbursement.

441—167.6(232) Reimbursement by the department. Reimbursement shall be made by August 31 to those participating facilities which have complied with these rules.

These rules are intended to implement Iowa Code section 232.142.

441—167.7 to 167.10 Reserved.

CHAPTER 168
CHILD CARE EXPANSION PROGRAMS

[Prior to 6/28/89, see 441—Chapter 154]

PREAMBLE

These rules define and structure funding for wrap-around child care programs and expansion of school-age child care programs. The purpose of wrap-around funding is to provide continuity of services for children through programs that support core programs by expanding the day and continuing the services through breaks in the core program schedule. School-age expansion funding is intended to increase access to child care for school-age children before and after school.

441—168.1(234) Definitions.

“Administrator” means the administrator of the department’s division of children and family services.

“Applicant” means any eligible entity that submits a proposal.

“Child care facility,” for the purposes of this chapter, means a facility that is licensed or that has a license in process under Iowa Code chapter 237A or a child care program established by a school pursuant to Iowa Code section 279.49.

“Contractor” means the entity with which the department contracts for administration of child care expansion program funds.

“Core program” means a Head Start program, an Early Head Start program, a department of education at-risk program, a Title I preschool, an Even Start program, or an early childhood special education program.

“Department” means the Iowa department of human services.

“Director” means the director of the department of human services.

“Proposal review committee” means a committee appointed by the chief of the department’s bureau of child care and community services to review proposals and make recommendations to the department.

“School-age child care program” means a program that provides child care to children who are between five years of age and 13 years of age by September 15 and who are enrolled in a public or approved nonpublic school program.

“School-age expansion funding” means funding that assists in meeting expansion needs for school-age child care programs. School-age expansion funds shall increase access to school-age child care for children before and after school and during the summer and other breaks in the regular school schedule.

“Wrap-around child care program” means a program that provides child care for children before and after a core program and during the summer and other breaks in the core program schedule. Wrap-around child care programs shall provide continuity of services for children who attend an eligible core program and whose families meet the eligibility guidelines for child care assistance as set forth in rule 441—170.2(237A,239B).

441—168.2(234) Availability of funds.

168.2(1) In any year in which funds are available for wrap-around child care programs or for both wrap-around child care programs and school-age child care expansion, the department shall administer awards to eligible applicants based on:

- a. The availability of funds;
- b. The applicant’s history and demonstration of quality of services provided; and
- c. The applicant’s compliance with department requirements.

168.2(2) If sufficient eligible proposals are not received or available, the department reserves the right not to allocate all funds.

441—168.3(234) Eligibility requirements.

168.3(1) *Wrap-around child care funding.* Funds shall be awarded to entities administering child care programs that provide continuity of services with a core program as defined in this chapter. Collaborative proposals within communities are encouraged.

a. All wrap-around program slots shall be reserved for children:

- (1) Who attend a core program; and
- (2) Whose families meet the eligibility guidelines for child care assistance as set forth in rule 441—170.2(237A,239B) at the time of enrollment for each contract year.

b. Wrap-around child care funds shall be used to support costs of the child care provided before and after the core program, including summer and other breaks in the core program schedule, for one service period as specified in the contract.

c. Child care assistance funds shall not be used for a child during the time the child is attending a wrap-around child care program.

168.3(2) *School-age expansion funding.* Funds may be awarded to entities that administer a school-age child care program as defined in this chapter if the applicant shows that the funds will increase the number of school-age children served or will expand participation of school-age children with special needs.

441—168.4(234) Request for proposals. The department shall announce the request for proposal period through public notice.

168.4(1) *Proposal submittal.* All applicants shall submit proposals to: Iowa Department of Human Services, Bureau of Child Care and Community Services, Hoover State Office Building, Fifth Floor, 1305 E. Walnut St., Des Moines, Iowa 50319-0114.

a. Proposals shall be in the form prescribed by the department.

b. To be eligible for review, the proposals shall be received by the due date specified in the request for proposals.

168.4(2) *Proposal requirements.* Requirements for proposals shall be specified in each request for proposals. A proposal that does not contain the information specified may be disqualified at the discretion of the department. Proposals shall describe how the program will improve services to children and shall include but not be limited to the following information:

a. Program description, including but not limited to:

- (1) Stated goals and objectives of the program.
- (2) Impact of proposal on children, families, and core program.
- (3) Facility plan.
- (4) Curriculum plan.
- (5) Positive guidance plan.
- (6) Health and safety plan.
- (7) Food and nutrition plan.
- (8) Evidence of an inclusive environment.
- (9) Continuity of services plan.
- (10) Staff plan.
- (11) Professional development plan.
- (12) Parental involvement plan.

b. Needs assessment:

- (1) Geographical area to be served, including population density.
- (2) Demographics of the service population.
- (3) Socioeconomic data for the area served, such as indicators of poverty and teen pregnancy.

c. Description of community linkages and community collaboration.

d. Evidence of program quality and sustainability.

e. Proposed budget for the requested contract funds.

f. Evidence of required insurance coverage.

g. Other information identified in the request for proposals.

441—168.5(234) Selection of proposals. The administrator shall make the funding decisions.

168.5(1) Review. The department shall conduct a preliminary review of each proposal to ensure that the proposal is eligible for review by the proposal review committee. All eligible proposals received by the department shall be evaluated by the proposal review committee, which shall make funding recommendations to the administrator.

168.5(2) Criteria. The selection criteria shall be set forth in the request for proposals.

168.5(3) Notice of decision. Each applicant shall be notified within 60 days after the proposal due date whether the proposal has been denied or approved for funding and the amount of funds approved for the contract.

441—168.6(234) Appeals. Applicants dissatisfied with the department's decision may file a written appeal with the director. An appeal of a decision shall not stay contract negotiations with the apparent successful bidders.

168.6(1) The appeal must:

- a.* Be received within five working days of the date of the notice of decision;
- b.* Be based on a contention that the process:
 - (1) Was conducted outside of statutory authority;
 - (2) Violated state or federal law, policy, or rules;
 - (3) Did not provide adequate public notice;
 - (4) Was altered without adequate public notice; or
 - (5) Involved a conflict of interest by staff or committee members.
- c.* Include a request for the director to review the decision.
- d.* Include the reasons for the applicant's dissatisfaction.

168.6(2) Within ten working days of receipt of the appeal, the director shall review the appeal request and issue a final decision. An evidentiary hearing will not be conducted.

441—168.7(234) Contracts.

168.7(1) Before entering into a contract, the department may require modification of the program or budget, submission of further information or documents, or other stipulation of the applicant. The required modification, information, document, or stipulation shall be specified in the notification of contract award.

168.7(2) The department shall pay the contractor semiannually. The first payment shall be made after all parties have signed the contract. The second payment shall be made after the department has received, reviewed and approved the contractor's semiannual expenditure and performance report, as required in the contract. The contractor shall spend the funds only in accordance with the proposal approved by the department and as set forth in the contract.

168.7(3) The contractor shall keep records to document all services provided, as set forth in the contract. All records pertaining to programs funded by the contract shall be made available to the department upon request.

168.7(4) As specified in the contract, the contractor shall return unspent funds to the department with the submission of the final reports. Following the department review of the reports and contract delivery assessment, the department will determine if additional funds shall be returned.

168.7(5) Nothing in these rules shall be construed as limiting the remedies available to the state or the department for improper use of contract funds or other breach of the contractor's duties under the contract and applicable law.

441—168.8(234) Reporting requirements. Each contractor shall provide specified documents and information to the department to enable the department to evaluate the contractor, to monitor fiscal activity, and to ensure that the program goals are met.

168.8(1) The contractor shall submit expenditure reports at such times and in a format prescribed by the department as described in the contract.

168.8(2) The contractor shall submit performance reports at such times and in a format prescribed by the department as described in the contract.

168.8(3) Failure to submit a report by the due date shall result in suspension of department payment to the contractor until the report is received and approved. Delinquent or inadequate reports may negatively affect contracts or renewals for the following year.

168.8(4) The department may make monitoring visits to evaluate program management, fiscal accountability, and service delivery. The contractor shall receive a written report of the monitoring visit.

441—168.9(234) Termination of contract. Either party may terminate the contract at any time during the contract period by giving 60 days' notice to the other party.

168.9(1) The department may terminate a contract upon ten days' notice when the contractor fails to comply with the contract award stipulations, standards, or conditions.

168.9(2) Within 45 days of the termination of the contract, the contractor shall supply the department with a financial statement detailing all expenditures up to the effective date of the termination.

These rules are intended to implement Iowa Code section 234.6.

CHAPTER 169
FUNDING FOR EMPOWERMENT AREAS

PREAMBLE

These rules define and structure the department of human services' child care funding for designated empowerment areas. Funds are provided to community empowerment areas pursuant to Iowa Code section 71.8(3) as amended by 1999 Iowa Acts, Senate File 439, section 14, to develop and improve local child care capacity to better enable low-income parents to obtain or retain employment. These rules establish conditions and procedures for the disbursement, use, and administration of these funds. This grants program is administered by the department in conjunction with the Iowa empowerment board, according to conditions set forth in Iowa Code chapter 71 as amended by 1999 Iowa Acts, Senate File 439.

441—169.1(7I) Definitions.

"Applicant" means an entity seeking funding under these rules.

"Community empowerment area" or *"area"* means an entity as defined in Iowa Code section 71.5 as amended by 1999 Iowa Acts, Senate File 439, sections 10 and 11, and as further defined by any administrative rules implemented by the Iowa empowerment board pursuant to Iowa Code chapter 71.

"Department" means the department of human services.

"Iowa empowerment board" or *"board"* means the entity as defined in Iowa Code section 71.2 as amended by 1999 Iowa Acts, Senate File 439, sections 3 to 7.

"Low-income families" means families at or below 185 percent of the federal poverty level.

"Temporary Assistance for Needy Families (TANF)" means a federal funding stream, for which the state is eligible under Public Law 104-193, for use in welfare reform and related activities.

441—169.2(7I) Use of funds. Funds shall be used in compliance with federal law and shall be used only for enhancing quality child care capacity in support of parent capability to obtain or retain employment. The funds shall be used with a primary emphasis on low-income families with children from birth to age five.

169.2(1) Eligible activities. Funds shall be used to implement strategies identified by communities that may include, but are not limited to:

a. Developing capacity for regular child care, sick child care, night shift child care, and emergency child care.

b. Enhancing linkages between the Head Start program, the Early Head Start program, early childhood development programs, and child care assistance programs.

c. Implementing other strategies that enhance access to child care.

d. Supporting ongoing activities related to paragraphs "a" through "c."

169.2(2) Limitations on using funds. Funds shall not be used for any purposes precluded by federal law. The Iowa empowerment board may establish additional limitations on the use of funds.

169.2(3) Administrative costs. Community empowerment areas may use up to 5 percent of funding for administrative costs in administering the grant, provided those expenditures are directly related to the project. Administrative costs shall be as defined in 45 CFR 98.52 as amended to October 1, 1997.

441—169.3(7I) Eligibility for funding.

169.3(1) Eligible entities. Eligible entities are those designated as a community empowerment area by the Iowa empowerment board.

169.3(2) Applications. The community empowerment area shall submit an application for funding to the Iowa empowerment board. Actions on the application will be made by the board based on criteria set forth by the board.

441—169.4(7I) Funding availability. The availability of funds is subject to the following parameters:

169.4(1) Total funding available. Total funding available in each state fiscal year shall be the amount set pursuant to enacted legislative appropriations, less any other obligations that the legislation creates. Funding shall be further subject to federal funding actions which reduce or eliminate the availability of this funding and to changes in Iowa law.

169.4(2) Administration of funds. These funds do not reside in the Iowa empowerment fund but are administered by the department. Upon the award of funding by the Iowa empowerment board, funds shall be disbursed to the community empowerment area by the department pursuant to a negotiated payment schedule that complies with state and federal law. Funds received by a community empowerment area shall be administered through a fiscal agent.

169.4(3) Obligated funds. Funds that have been applied for by and awarded to a community empowerment area prior to June 30 of each state fiscal year shall be considered obligated. These funds do not revert, but shall remain available to the area, regardless of whether the funding has yet been spent, if paid to the area by August 31 following the close of the state fiscal year in which the funds were obligated.

169.4(4) Unobligated funds. Funds that have not been obligated or paid pursuant to the preceding subrule shall revert and do not remain available to the area in a subsequent state fiscal year.

169.4(5) Eligible funding for area. In determining a designated community empowerment area's eligible funding, total funds available for the state fiscal year shall be prorated according to the following:

a. A designated community empowerment area's maximum eligible funding is the percentage of the total available funding which is equal to the area's percentage of average monthly statewide family investment program cases in the preceding state fiscal year, as reported to the Iowa empowerment board by the department.

b. If a community empowerment board's request for official designation is received by the Iowa empowerment board on or after September 1, 1999, upon designation, the maximum funding amount shall be prorated for the fiscal year and rounded up to the nearest full month. The community empowerment areas that received designation in January 1999 and those areas requesting designation on or before August 31, 1999, are eligible to receive upon designation the maximum funding for the fiscal year beginning July 1, 1999, upon submission and approval of an application.

c. The Iowa empowerment board may award a lesser amount than calculated pursuant to this subrule based on the nature of the community empowerment area's request.

441—169.5(7I) Community empowerment areas' responsibilities.

169.5(1) Fiscal agent. The community empowerment area shall designate a public agency, a community action agency as defined in Iowa Code section 216A.91, or a nonprofit corporation as a fiscal agent and ensure that appropriate and adequate accounting mechanisms are in place through the fiscal agent to deposit, disburse and account for funds received, including tracking of the timing and purpose of any financial transaction.

169.5(2) Grant agreement. A grant agreement shall be entered into by the community empowerment area, the department, and the Iowa empowerment board.

169.5(3) Spending funds. The community empowerment area shall spend funds according to its application as approved by the Iowa empowerment board and grant agreement.

169.5(4) Reporting and audit requirements. The community empowerment area shall meet federal reporting and audit requirements. The Iowa empowerment board may establish other audit and reporting requirements.

441—169.6(7I) Iowa empowerment board's responsibilities.

169.6(1) Application review. The Iowa empowerment board shall review applications and act upon them in a timely manner.

169.6(2) Amount of funding. The Iowa empowerment board shall determine the amount of funding to be awarded, up to the eligible amount as defined in subrule 169.4(5).

169.6(3) Notification. The Iowa empowerment board shall notify the community empowerment area and the department of its decision.

169.6(4) *Negotiating grant agreements.* The Iowa empowerment board shall participate in negotiation of a grant agreement that includes:

- a. The amount awarded.
- b. How the funds will be used and the timing of disbursements from the department to the community empowerment area.
- c. Expected results and reports on progress toward those results, including results for children from birth to age five.
- d. An agreement by the community empowerment area to comply with federal reporting and audit requirements.
- e. Other conditions mutually agreed to by the community empowerment area and the Iowa empowerment board.

169.6(5) *Review.* The Iowa empowerment board shall review the status and progress of grantees.

441—169.7(7I) Department of human services' responsibilities.

169.7(1) *Disbursement of funds.* The department shall disburse funds to community empowerment areas under grant agreements.

169.7(2) *Technical assistance.* The department shall, upon request of the board, provide technical assistance and other support to the Iowa empowerment board and community empowerment areas.

169.7(3) *Negotiations and review.* The department shall assist the Iowa empowerment board in negotiating grant agreements and, upon request, assist the Iowa empowerment board in reviewing the status and progress of grantees.

441—169.8(7I) Revocation of funding. Notwithstanding other portions of these rules, funding may be revoked under the following conditions.

169.8(1) *Failure to comply.*

a. Either the Iowa empowerment board or the department may revoke funds if the community empowerment area is failing to comply with federal reporting or audit requirements or is using funds for other than an allowable purpose. The revocation shall be prospective, and may also be retroactive if the failure to comply or use of funding is such that the federal funds already expended are in jeopardy of being recovered by the federal government.

b. The Iowa empowerment board may revoke funds if the community empowerment area is not complying with other conditions agreed to by the board and the area, or if the board determines that the area is not performing pursuant to their approved application or grant agreement or is not making satisfactory progress toward results. The revocation shall be prospective only and may include unexpended funds already obligated to the area.

169.8(2) *Corrective action plan.* Prior to notice of revocation, either the department or the Iowa empowerment board may first work with the community empowerment area to develop and implement a corrective action plan if in the discretion of the department or the Iowa empowerment board such a plan has a reasonable chance of success.

169.8(3) *Subsequent application.* A community empowerment area which has had its funding revoked may submit a subsequent application, which shall be considered a new application and eligible for prospective funding only. Applications submitted subsequent to a revocation of funding must also address how the matters leading to a previous revocation have been addressed in order to prevent problems from occurring again.

441—169.9(7I) Appeals. A designated community empowerment area may file an appeal with the director of the department of human services as follows:

169.9(1) *Appealable actions.* Issues that can be appealed include disbursement of funds and revocation of funding if initiated by the department.

169.9(2) *Nonappealable actions.* The denial or rejection of a grant application, the amount of a grant award, and other actions taken by the Iowa empowerment board are not appealable to the director of the

department of human services. These actions are subject to appeal procedures set forth by the Iowa empowerment board.

169.9(3) *Letter of appeal.* The letter of appeal must be submitted within five working days of the action of the department and must clearly and fully identify all issues being contested.

The director of the department shall review the appeal request and issue a decision within ten days of the request or within ten days of receipt by the department of any follow-up information requested from the appellant.

These rules are intended to implement 1999 Iowa Acts, Senate File 439, section 17, and Iowa Code section 71.8(3) as amended by 1999 Iowa Acts, Senate File 439, section 14.

TITLE XV
INDIVIDUAL AND FAMILY SUPPORT
AND PROTECTIVE SERVICES
CHAPTER 170
CHILD CARE SERVICES
[Prior to 7/1/83, Social Services[770] Ch 132]
[Previously appeared as Ch 132—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services[498]]

PREAMBLE

The intent of this chapter is to establish requirements for the payment of child care services. Child care services are for children of low-income parents who are in academic or vocational training; or employed or looking for employment; or for a limited period of time, unable to care for children due to physical or mental illness; or needing protective services to prevent or alleviate child abuse or neglect. Services may be provided in a licensed child care center, a registered child development home, the home of a relative, the child's own home, a nonregistered family child care home, or in a facility exempt from licensing or registration.

441—170.1(237A) Definitions.

“Agency error” means child care assistance incorrectly paid for the client because of action attributed to the department as the result of one or more of the following circumstances:

1. Loss or misfiling of forms or documents.
2. Errors in typing or copying.
3. Computer input errors.
4. Mathematical errors.
5. Failure to determine eligibility correctly or to certify assistance in the correct amount when all essential information was available to the department.
6. Failure to make timely changes in assistance following amendments of policies that require the changes by a specific date.

“Child care” means a service that provides child care in the absence of parents for a portion of the day, but less than 24 hours. Child care supplements parental care by providing care and protection for children who need care in or outside their homes for part of the day. Child care provides experiences for each child's social, emotional, intellectual, and physical development. Child care may involve comprehensive child development care or it may include special services for a child with special needs. Components of this service shall include supervision, food services, program and activities, and may include transportation.

“Child with protective needs” means a child who has a case plan that identifies protective child care as a required service and who is a member of a family with one of the following:

1. A confirmed case of child abuse.
2. Episodes of family or domestic violence or substance abuse which place the child at risk of abuse or neglect and have resulted in a service referral to family preservation or family-centered services.

“Child with special needs” means a child with one or more of the following conditions:

1. The child has been diagnosed by a physician or by a person endorsed for service as a school psychologist by the Iowa department of education to have a developmental disability which substantially limits one or more major life activities, and the child requires professional treatment, assistance in self-care, or the purchase of special adaptive equipment.
2. The child has been determined by a qualified mental retardation professional to have a condition which impairs the child's intellectual and social functioning.
3. The child has been diagnosed by a mental health professional to have a behavioral or emotional disorder characterized by situationally inappropriate behavior which deviates substantially from behavior appropriate to the child's age, or which significantly interferes with the child's intellectual, social, or personal adjustment.

“*Client*” means a current or former recipient of the child care assistance program.

“*Client error*” means and may result from:

1. False or misleading statements, oral or written, regarding the client’s income, resources, or other circumstances which affect eligibility or the amount of assistance received;
2. Failure to timely report changes in income, resources, or other circumstances which affect eligibility or the amount of assistance received;
3. Failure to timely report the receipt of child care units in excess of the number approved by the department;
4. Failure to comply with the need for service requirements.

“*Department*” means the Iowa department of human services.

“*Food services*” means the preparation and serving of nutritionally balanced meals and snacks.

“*Fraudulent means*” means knowingly making or causing to be made a false statement or a misrepresentation of a material fact, knowingly failing to disclose a material fact, or committing a fraudulent practice.

“*In-home*” means care which is provided within the child’s own home.

“*Migrant seasonal farm worker*” means a person to whom all of the following conditions apply:

1. The person performs seasonal agricultural work which requires travel so that the person is unable to return to the person’s permanent residence within the same day.
2. Most of the person’s income is derived from seasonal agricultural work performed during the months of July through October. Most shall mean the simple majority of the income.
3. The person generally performs seasonal agricultural work in Iowa during the months of July through October.

“*Overpayment*” means any benefit or payment received in an amount greater than the amount the client or provider is entitled to receive.

“*Parent*” means the parent or the person who serves in the capacity of the parent of the child receiving child care assistance services.

“*Program and activities*” means the daily schedule of experiences in a child care setting.

“*PROMISE JOBS*” means the department’s training program, promoting independence and self-sufficiency through employment job opportunities and basic skills, as described in 441—Chapter 93, Division II.

“*Provider*” means a licensed child care center, a registered child development home, a relative who provides care in the relative’s own home solely for a related child, a caretaker who provides care for a child in the child’s home, a nonregistered child care home, or a child care facility which is exempt from licensing or registration.

“*Provider error*” means and may result from:

1. Presentation for payment of any false or fraudulent claim for services or merchandise;
2. Submittal of false information for the purpose of obtaining greater compensation than that to which the provider is legally entitled;
3. Failure to report the receipt of a child care assistance payment in excess of that approved by the department;
4. Charging the department an amount for services rendered over and above what is charged private pay clients for the same services.

“*Recoupment*” means the repayment of an overpayment by a payment from the client or provider or both.

“*Relative*” means an adult aged 18 or older who is a grandparent, aunt or uncle to the child being provided child care.

“*Supervision*” means the care, protection, and guidance of a child.

“*Transportation*” means the movement of children in a four or more wheeled vehicle designed to carry passengers, such as a car, van, or bus, between home and facility.

“*Unit of service*” means a half day which shall be up to 5 hours of service per 24-hour period.

“*Vocational training or education*” means a training plan which includes a specific goal, that is, high school completion, improved English skills, or development of specific academic or vocational skills.

1. Training may be approved for high school completion activities, adult basic education, GED, English as a second language, or postsecondary education, up to and including an associate or a baccalaureate degree program.

2. Training shall be on a full-time basis. The training facility shall define what is considered as full-time. Part-time plans may be approved only if the number of credit hours to complete training is less than full-time status, the required prerequisite credits or remedial course work is less than full-time status, or training is not offered on a full-time basis.

441—170.2(237A,239B) Eligibility requirements. A person deemed eligible for benefits under this chapter is subject to all other state child care assistance requirements including, but not limited to, provider requirements under Iowa Code chapter 237A and provider reimbursement methodology. The department shall determine the number of units of service to be approved.

170.2(1) Financial eligibility. Financial eligibility for child care assistance shall be based on federal poverty levels as determined by the Office of Management and Budget and on Iowa's median family income as determined by the U.S. Census Bureau. Poverty guidelines and median family income amounts are updated annually. Changes shall go into effect for the child care assistance program on July 1 of each year.

a. Income limits. For initial and ongoing eligibility, a family's nonexempt gross monthly income as established in paragraph 170.2(1)"c" cannot exceed:

- (1) 145 percent of the federal poverty level applicable to the family size for children needing basic care, or
- (2) 200 percent of the federal poverty level applicable to the family size for children needing special-needs care, or
- (3) 85 percent of Iowa's median family income, if that figure is lower than the standard in subparagraph (1) or (2).

b. Exceptions to income limits.

- (1) A person who is participating in activities approved under the PROMISE JOBS program is eligible for child care assistance without regard to income if there is a need for child care services.
- (2) A person who is part of the family investment program or whose earned income was taken into account in determining the needs of a family investment program recipient is eligible for child care assistance without regard to income if there is a need for child care services.
- (3) Protective child care services are provided without regard to income.
- (4) In certain cases, the department will provide child care services directed in a court order.

c. Determining gross income. In determining a family's gross monthly income, the department shall consider all income received by a family member from sources identified by the U.S. Census Bureau in computing median income, unless excluded under paragraph 170.2(1)"d."

(1) Income considered shall include wages or salary, net profit from farm or nonfarm self-employment, social security, dividends, interest, income from estates or trusts, net rental income and royalties, public assistance or welfare payments, pensions and annuities, unemployment compensation, workers' compensation, alimony, child support, and veterans pensions. "Net profit from self-employment" means gross income less the costs of producing the income other than depreciation. A net loss in self-employment income cannot be offset from other earned or unearned income.

(2) For migrant seasonal farm workers, the monthly gross income shall be determined by calculating the total amount of income earned in a 12-month period preceding the date of application and dividing the total amount by 12.

d. Income exclusions. The following sources are excluded from the computation of monthly gross income:

- (1) Per capita payments from or funds held in trust in satisfaction of a judgment of the Indian Claims Commission or the court of claims.
- (2) Payments made pursuant to the Alaska Claims Settlement Act, to the extent the payments are exempt from taxation under Section 21(a) of the Act.

- (3) Money received from the sale of property, unless the person was engaged in the business of selling property.
 - (4) Withdrawals of bank deposits.
 - (5) Money borrowed.
 - (6) Tax refunds.
 - (7) Gifts.
 - (8) Lump-sum inheritances or insurance payments or settlements.
 - (9) Capital gains.
 - (10) The value of the food assistance allotment under the Food Stamp Act of 1964.
 - (11) The value of USDA donated foods.
 - (12) The value of supplemental food assistance under the Child Nutrition Act of 1966 and the special food program for children under the National School Lunch Act.
 - (13) Earnings of a child 14 years of age or younger.
 - (14) Loans and grants obtained and used under conditions that preclude their use for current living expenses.
 - (15) Any grant or loan to any undergraduate student for educational purposes made or insured under the Higher Education Act.
 - (16) Home produce used for household consumption.
 - (17) Earnings received by any youth under Title III, Part C—Youth Employment Demonstration Program of the Comprehensive Employment and Training Act of 1973.
 - (18) Stipends received for participating in the foster grandparent program.
 - (19) The first \$65 plus 50 percent of the remainder of income earned in a sheltered workshop or work activity setting.
 - (20) Payments from the Low-Income Home Energy Assistance Program.
 - (21) Agent Orange settlement payments.
 - (22) The income of the parents with whom a teen parent resides.
 - (23) For children with special needs, income spent on any regular ongoing cost that is specific to that child's disability.
 - (24) Moneys received under the federal Social Security Persons Achieving Self-Sufficiency (PASS) program or the Income-Related Work Expense (IRWE) program.
 - (25) Income received by a Supplemental Security Income recipient if the recipient's earned income was considered in determining the needs of a family investment program recipient.
 - (26) The income of a child who would be in the family investment program eligible group except for the receipt of Supplemental Security Income.
 - (27) Any adoption subsidy payments received from the department.
 - (28) Federal or state earned income tax credit.
 - (29) Payments from the Iowa individual assistance grant program (IIAGP).
 - (30) Payments from the transition to independence program (TIP).
 - (31) Payments to volunteers participating in the Volunteers in Service to America (VISTA) program. EXCEPTION: This exemption will not be applied when the director of ACTION determines that the value of all VISTA payments, adjusted to reflect the number of hours the volunteer is serving, is equivalent to or greater than the minimum wage then in effect under the Fair Labor Standards Act of 1938 or the minimum wage under the laws of the state where the volunteer is serving, whichever is greater.
 - (32) Reimbursement from the employer for job-related expenses.
 - (33) Stipends from the preparation for adult living (PAL) program.
 - (34) Payments from the subsidized guardianship waiver program.
- e. Family size.* The following people shall be included in the family size for the determination of eligibility:
- (1) Legal spouses (including common law) who reside in the same household.
 - (2) Natural mother or father, adoptive mother or father, or stepmother or stepfather, and children who reside in the same household.

(3) A child or children who live with a person or persons not legally responsible for the child's support.

f. Effect of temporary absence. The composition of the family does not change when a family member is temporarily absent from the household. "Temporary absence" means:

- (1) An absence for the purpose of education or employment.
- (2) An absence due to medical reasons that is anticipated to last less than three months.
- (3) Any absence when the person intends to return home within three months.

170.2(2) General eligibility requirements. In addition to meeting financial requirements, the child needing services must meet age, citizenship, and residency requirements. Each parent in the household must have at least one need for service and shall cooperate with the department's quality control review and with investigations conducted by the department of inspections and appeals.

a. Age. Child care shall be provided only to children up to age 13, unless they are children with special needs, in which case child care shall be provided up to age 19.

b. Need for service. Each parent in the household shall meet one or more of the following requirements:

(1) The parent is in academic or vocational training. Child care provided while the parent participates in postsecondary education leading up to and including a baccalaureate degree program or vocational training shall be limited to a 24-month lifetime limit. A month is defined as a fiscal month or part thereof and shall generally have starting and ending dates that fall within two calendar months but shall only count as one month. Time spent in high school completion, adult basic education, GED, or English as a second language does not count toward the 24-month limit.

Payment shall not be approved for the following:

1. When labor market statistics for a local area indicate low employment potential. Exceptions may be made when the client has a job offer prior to entering the training or if a client is willing to relocate after training to an area where there is employment potential. Clients willing to relocate must provide documentation from the department of workforce development, private employment agencies, or employers that jobs paying at least minimum wage for which training is being requested are available in the locale specified by the client.

2. Jobs paying less than minimum wage.

3. College coursework for a client who possesses a baccalaureate degree unless the coursework is to obtain a teaching certificate or complete continuing education units.

4. The course or training is one that the client has previously completed.

5. When the client was previously unable to maintain the cumulative grade point average required by the training or academic facility in the same training for which application is now being made. This does not apply to parents under the age of 18 who are enrolled in high school completion activities.

PROMISE JOBS child care allowances provided while the parent is a recipient of the family investment program and participating in PROMISE JOBS components in postsecondary education or training shall count toward the 24-month lifetime limit.

(2) The parent is employed 28 or more hours per week or an average of 28 or more hours per week during the month. Child care services may be provided for the hours of employment of a single parent or the coinciding hours of employment of both parents in a two-parent home and for actual travel time between home, child care facility, and place of employment. If the parent works a shift consisting of at least six hours of employment between the hours of 8 p.m. and 6 a.m. and needs to sleep during daytime hours, child care services may also be provided to allow the parent to sleep during daytime hours.

(3) The parent needs child care as part of a protective service plan to prevent or alleviate child abuse or neglect.

(4) The person who normally cares for the child is absent from the home due to inpatient hospitalization or outpatient treatment because of physical or mental illness, or is present but is unable to care for the child, as verified by a physician. Care under this paragraph is limited to a maximum of one month, unless extenuating circumstances are justified and approved after case review by the service area manager or designee.

(5) The parent is looking for employment. Child care for job search shall be limited to only those hours the parent is actually looking for employment including travel time. A job search plan shall be approved by the department and limited to a maximum of 30 working days in a 12-month period. Child care in two-parent families may be provided only during the coinciding hours of both parents' looking for employment, or during one parent's employment and one parent's looking for employment. Documentation of job search contacts shall be furnished to the department. The department may enter into a nonfinancial coordination agreement for information exchange concerning job search documentation.

EXCEPTION: Additional hours may be paid for job search for PROMISE JOBS recipients if approved by the PROMISE JOBS worker.

(6) The person is participating in activities approved under the PROMISE JOBS program and there is a need for child care services.

(7) The family is part of the family investment program and there is a need for child care.

If a parent in a family investment program household remains in the home, child care assistance can be paid if that parent receives Supplemental Security Income.

c. Residency. To be eligible for child care services, the person must be living in the state of Iowa. "Living in the state" shall include those persons living in Iowa for a temporary period, other than for the purpose of vacation.

d. Citizenship. As a condition of eligibility, the applicant shall attest to the child's citizenship or alien status by signing Form 470-3624 or 470-3624(S), Child Care Assistance Application, or Form 470-0462 or 470-0466, Health and Financial Support Application. Child care assistance payments may be made only for a child who:

(1) Is a citizen or national of the United States; or

(2) Is a qualified alien as defined at 8 U.S.C. Section 1641. The applicant shall furnish documentation of the alien status of any child declared to be a qualified alien. A child who is a qualified alien is not eligible for child care assistance for a period of five years beginning on the date of the child's entry into the United States with qualified alien status.

EXCEPTION: The five-year prohibition from receiving assistance does not apply to:

1. Qualified aliens described at 8 U.S.C. Section 1613; or

2. Qualified aliens as defined at 8 U.S.C. Section 1641 who entered the United States before August 22, 1996.

e. Cooperation. Parents shall cooperate with the department when the department selects the family's case for quality control review to verify eligibility. Parents shall also cooperate with investigations conducted by the department of inspections and appeals to determine whether information supplied by the parent regarding eligibility for child care assistance is complete and correct. (See 481—Chapter 72.)

(1) Failure to cooperate shall serve as a basis for cancellation or denial of the family's child care assistance.

(2) Once denied or canceled for failure to cooperate, the family may reapply but shall not be considered for approval until cooperation occurs.

170.2(3) Priority for assistance. Child care services shall be provided only when funds are available. Funds available for child care assistance shall first be used to continue assistance to families currently receiving child care assistance and to families with protective child care needs. When funds are insufficient, families applying for services must meet the specific requirements in this subrule.

a. Priority groups. As funds are determined available, families shall be served on a statewide basis from a service-area-wide waiting list as specified in subrule 170.3(4) based on the following schedule in descending order of prioritization.

(1) Families with an income at or below 100 percent of the federal poverty level whose members are employed at least 28 hours per week, and parents with a family income at or below 100 percent of the federal poverty level who are under the age of 21 and are participating in an educational program leading to a high school diploma or equivalent.

(2) Parents under the age of 21 with a family income at or below 100 percent of the federal poverty guidelines who are participating, at a satisfactory level, in an approved training program or in an education program.

(3) Families with an income of more than 100 percent but not more than 145 percent of the federal poverty guidelines whose members are employed at least 28 hours per week.

(4) Families with an income at or below 200 percent of the federal poverty guidelines whose members are employed at least 28 hours per week with a special-needs child as a member of the family.

b. Exceptions to priority groups. The following are eligible for child care assistance notwithstanding waiting lists for child care services:

(1) Families with protective child care needs.

(2) Recipients of the family investment program or those whose earned income was taken into account in determining the needs of family investment program recipients.

(3) Families that receive a state adoption subsidy for a child.

c. Effect on need for service. Families approved under a priority group are not required to meet the requirements in paragraph 170.2(2) "b" except at review or redetermination.

170.2(4) Reporting changes. The parent must report any changes in circumstances affecting these eligibility requirements and changes in the choice of provider to the department worker or the PROMISE JOBS worker within ten calendar days of the change.

a. If the change is timely reported within ten calendar days, the effective date of the change shall be the date when the change occurred.

b. If the change is not timely reported, the effective date of the change shall be the date when the change is reported to the department office or PROMISE JOBS office.

441—170.3(237A,239B) Application and determination of eligibility.

170.3(1) Application process.

a. Application for child care assistance may be made at any local office of the department on:

(1) Form 470-3624 or 470-3624(S), Child Care Assistance Application, or

(2) Form 470-0462 or 470-0466, Health and Financial Support Application.

b. The application may be filed by the applicant, by the applicant's authorized representative or, when the applicant is incompetent or incapacitated, by a responsible person acting on behalf of the applicant.

c. The date of application is the date a signed application form is received in the county office.

d. Families who are determined eligible for child care assistance shall be approved for a certification period of no longer than six months. Families who fail to complete the review and redetermination process as described at subrule 170.3(5) will lose eligibility at the end of the certification period.

170.3(2) Exceptions to application requirement. Applications are not required for:

a. A person who is participating in activities approved under the PROMISE JOBS program.

b. Recipients of the family investment program or those whose earned income was taken into account in determining the needs of family investment program recipients.

c. Families with protective service needs.

d. Child care services provided under a court order.

170.3(3) Application processing. The department shall approve or deny an application as soon as possible, but no later than 30 days following the date the application was received.

a. The department worker or PROMISE JOBS worker shall determine the number of units of service authorized for each eligible family and inform the family and the family's provider through the notice of decision.

b. The department shall issue a written notice of decision to the applicant by the next working day following a determination of eligibility. EXCEPTION: When the court orders services, the court order provided by the court and the case plan provided by the department shall serve as written notification.

170.3(4) *Waiting lists for child care services.* When the department has determined that there may be insufficient funding, applications for child care assistance shall be taken only for the priority groups for which funds have been determined available according to subrule 170.2(3).

a. The department shall maintain a log of families applying for child care services that meet the requirements within the priority groups for which funds may be available.

(1) Each family shall be entered on the logs according to their eligibility priority group and in sequence of their date of application.

(2) If more than one application is received on the same day for the same priority group, families shall be entered on the log based on the day of the month of the birthday of the oldest eligible child. The lowest numbered day shall be first on the log. Any subsequent tie shall be decided by the month of birth, January being month one and the lowest number.

b. When the department determines that there is adequate funding, the department shall notify the public regarding the availability of funds.

170.3(5) *Review and redetermination.* The department shall redetermine a family's financial and general eligibility for child care assistance at least every six months. **EXCEPTION:** The department shall redetermine only general eligibility for recipients of the family investment program (FIP) and for those whose earned income was taken into account in determining the needs of FIP recipients, because these people are deemed financially eligible so long as the FIP eligibility continues.

a. If FIP eligibility ends, the department shall redetermine financial and general eligibility for child care assistance according to the requirements in rule 441—170.2(237A,239B). The redetermination of eligibility shall be completed within 30 days.

b. The department shall use information gathered on Form 470-4377 or 470-4377(S), Child Care Assistance Review, to redetermine eligibility. The department shall issue a notice of expiration for the child care assistance certification period in Form 470-4377 or 470-4377(S). If the family does not return the review form to the department by the end of the certification period, the family must reapply for benefits.

441—170.4(237A) Elements of service provision.

170.4(1) *Case plan.* The case plan shall be developed by the department service worker and contain information described in 441—subrule 130.7(2), when the child meets the need for service under 170.2(2)“b”(3).

170.4(2) *Fees.* Fees for services received shall be charged to clients according to the schedules in this subrule, except that fees shall not be charged to clients receiving services without regard to income. The fee is a per-unit charge that is applied to the child in the family who receives the largest number of units of service. The fee shall be charged for only one child in the family, regardless of how many children receive assistance.

*a. *Sliding fee schedule.** The fee schedule shown in the following table is effective for eligibility determinations made on or after July 1, 2008:

Level	Monthly Income According to Family Size										Unit Fee Based on Number of Children in Care		
	1	2	3	4	5	6	7	8	9	10	1	2	3 or more
A	\$824	\$1,109	\$1,394	\$1,679	\$1,964	\$2,249	\$2,534	\$2,819	\$3,104	\$3,389	\$0.00	\$0.00	\$0.00
B	\$867	\$1,167	\$1,467	\$1,767	\$2,067	\$2,367	\$2,667	\$2,967	\$3,267	\$3,567	\$0.20	\$0.45	\$0.70

To use the chart:

- (1) Find the family size used in determining income eligibility for service.
- (2) Move across the monthly income table to the column headed by that number. (See subparagraph (5) if the family has more than ten members.)
- (3) Move down the column for the applicable family size to the highest figure that is equal to or less than the family's gross monthly income. Income at or above that amount (but less than the amount in the next row) corresponds to the fees in the last three columns of that row.
- (4) Choose the fee that corresponds to the number of children in the family who receive child care assistance.
- (5) When a family has more than ten members, determine the income level by multiplying the figures in the four-member column for the rows closest to the family's income level by 0.03. Round the numbers to the nearest dollar and multiply by the number of family members in excess of ten. Add the results to the amounts in the ten-member column to determine the threshold amounts.

EXAMPLES:

1. Family 1 has two members, monthly income of \$1,100, and one child in care. Since the income is at or above the Level A amount but less than the Level B amount, Family 1 pays \$0.00 for each unit of child care service that the child receives.
2. Family 2 has three members, monthly income of \$1,450, and one child in care. Since the income is at or above the Level B amount but less than the Level C amount, Family 2 pays \$0.20 for each unit of child care service that the child receives.
3. Family 3 has three members, monthly income of \$1,450, and two children in care. The younger child receives ten units of child care service per week. The older child is school-aged and receives only five units of service per week. Since the income is at or above the Level B amount but less than the Level C amount, Family 3 pays \$0.45 for each unit of child care service that the younger child receives.
 - b. *Collection.* The provider shall collect fees from clients.

(1) The provider shall maintain records of fees collected. These records shall be available for audit by the department or its representative.

(2) When a client does not pay the fee, the provider shall demonstrate that a reasonable effort has been made to collect the fee. "Reasonable effort to collect" means an original billing and two follow-up notices of nonpayment.

c. Inability of client to pay fees. Child care assistance may be continued without a fee, or with a reduced fee, when a client reports in writing the inability to pay the assessed fee due to the existence of one or more of the conditions set forth below. Before reducing the fee, the worker shall assess the case to verify that the condition exists and to determine whether a reduced fee can be charged. The reduced fee shall then be charged until the condition justifying the reduced fee no longer exists. Reduced fees may be justified by:

(1) Extensive medical bills for which there is no payment through insurance coverage or other assistance.

(2) Shelter costs that exceed 30 percent of the household income.

(3) Utility costs not including the cost of a telephone that exceed 15 percent of the household income.

(4) Additional expenses for food resulting from diets prescribed by a physician.

170.4(3) Method of provision. Parents shall be allowed to exercise their choice for in-home care, except when the parent meets the need for service under subparagraph 170.2(2)"b"(3), as long as the conditions in paragraph 170.4(7)"d" are met. When the child meets the need for service under 170.2(2)"b"(3), parents shall be allowed to exercise their choice of licensed, registered, or nonregistered child care provider except when the department service worker determines it is not in the best interest of the child.

The provider must meet one of the applicable requirements set forth below.

a. Licensed child care center. A child care center shall be licensed by the department to meet the requirements set forth in 441—Chapter 109 and shall have a current Certificate of License, Form 470-0618.

b. Registered child development home. A child development home shall meet the requirements for registration set forth in 441—Chapter 110 and shall have a current Certificate of Registration, Form 470-3498.

c. Registered family child care home. Rescinded IAB 1/7/04, effective 3/1/04.

d. Relative care. Rescinded IAB 2/6/02, effective 4/1/02.

e. In-home care. The adult caretaker selected by the parent to provide care in the child's own home shall be sent the pamphlet Comm. 95 or Comm. 95(S), Minimum Health and Safety Requirements for Nonregistered Child Care Home Providers, and Form 470-2890 or 470-2890(S), Payment Application for Nonregistered Providers. The provider shall sign Form 470-2890 or 470-2890(S) and return the form to the department before payment may be made. Signature on the form certifies the provider's understanding of and compliance with the conditions and requirements for nonregistered providers that include:

(1) Minimum health and safety requirements;

(2) Limits on the number of children for whom care may be provided;

(3) Unlimited parental access to the child or children during hours when care is provided, unless prohibited by court order; and

(4) Conditions that warrant nonpayment.

f. Nonregistered family child care home. The adult caretaker selected by the parent to provide care in a nonregistered family child care home shall be sent the pamphlet Comm. 95 or Comm. 95(S), Minimum Health and Safety Requirements for Nonregistered Child Care Home Providers, and Form 470-2890 or 470-2890(S), Payment Application for Nonregistered Providers. The provider shall sign Form 470-2890 or 470-2890(S) and return the form to the department before payment may be made. Signature on the form certifies the provider's understanding of and compliance with the conditions and requirements for nonregistered providers that include:

(1) Minimum health and safety requirements;

- (2) Limits on the number of children for whom care may be provided;
- (3) Unlimited parental access to the child or children during hours when care is provided, unless prohibited by court order; and
- (4) Conditions that warrant nonpayment.

g. Exempt facilities. Child care facilities operated by or under contract to a public or nonpublic school accredited by the department of education that are exempt from licensing or registration may receive payment for child care services when selected by a parent.

h. Record checks for nonregistered family child care homes. If a nonregistered child care provider wishes to receive public funds as reimbursement for providing child care for eligible clients, the provider shall complete Form 470-0643, Request for Child Abuse Information, and Form 595-1489 or 595-1489(S), Non-Law Enforcement Record Check Request, Form A, for the provider, for anyone having access to a child when the child is alone, and for anyone 14 years of age or older living in the home. The department worker or the PROMISE JOBS worker shall provide the necessary forms. The provider shall return the forms to the department worker or PROMISE JOBS worker.

(1) If any of these individuals has a record of founded child abuse, a criminal conviction, or placement on the sex offender registry, the department shall perform an evaluation following the process defined at 441—subrule 110.7(3).

(2) If any of the individuals would be prohibited from registration, employment, or residence, the person shall not provide child care and is not eligible to receive public funds to do so. The department's designee shall notify the applicant, and shall forward a copy of that notification to the county attorney, the department worker, and the PROMISE JOBS worker, if applicable.

(3) A person who continues to provide child care in violation of this law is subject to penalty and injunction under Iowa Code chapter 237A.

170.4(4) Components of service program. Every child eligible for child care services shall receive supervision, food services, and program and activities, and may receive transportation.

170.4(5) Levels of service according to age. Rescinded IAB 9/30/92, effective 10/1/92.

170.4(6) Provider's individual program plan. An individual program plan shall be developed by the child care provider for each child within 30 days after placement when the need for service was established under 170.2(2)“b”(3). The program plan shall be supportive of the service worker's case plan. The program plan shall contain goals, objectives, services to be provided, and time frames for review.

170.4(7) Payment. The department shall make payment for child care provided to eligible families when the provider has a completed Form 470-3871, Child Care Assistance Provider Agreement, on file with the department. Both the child care provider and the department worker or PROMISE JOBS worker shall sign this form.

a. Rate of payment. The rate of payment for child care services, except for in-home care which shall be paid in accordance with 170.4(7)“d,” shall be the actual rate charged by the provider for a private individual, not to exceed the maximum rates shown below. When a provider does not have a half-day rate in effect, a rate is established by dividing the provider's declared full-day rate by 2. When a provider has neither a half-day nor a full-day rate, a rate is established by multiplying the provider's declared hourly rate by 4.5. Payment shall not exceed the rate applicable to the provider and age group in Table I, except for special needs care which shall not exceed the rate applicable to the provider and age group in Table II. To be eligible for the special needs rate, the provider must submit documentation to the child's service worker that the child needing services has been assessed by a qualified professional and meets the definition for “child with special needs,” and a description of the child's special needs, including, but not limited to, adaptive equipment, more careful supervision, or special staff training.

Age Group	Child Care Center	Child Development Home Category A or B	Child Development Home Category C	Nonregistered Family Home
Infant and Toddler	\$15.50	\$12.00	\$11.50	\$8.19
Preschool	\$12.50	\$11.25	\$11.25	\$7.19
School Age	\$11.25	\$10.00	\$10.00	\$7.36

Age Group	Child Care Center	Child Development Home Category A or B	Child Development Home Category C	Nonregistered Family Home
Infant and Toddler	\$48.00	\$15.75	\$12.38	\$10.24
Preschool	\$28.13	\$14.63	\$12.38	\$ 8.99
School Age	\$28.04	\$13.50	\$11.25	\$ 9.20

The following definitions apply in the use of the rate tables:

(1) "Child care center" shall mean those providers as defined in 170.4(3) "a" and "g." "Registered child development home" shall mean those providers as defined in 170.4(3) "b." "Nonregistered family child care home" shall mean those providers as defined in 170.4(3) "f."

(2) Under age group, "infant and toddler" shall mean age two weeks to two years; "preschool" shall mean two years to school age; "school age" shall mean a child in attendance in full-day or half-day classes.

b. Payment for days of absence. Payment may be made to a child care provider defined in subrule 170.4(3) for an individual child not in attendance at a child care facility not to exceed four days per calendar month providing that the child is regularly scheduled on those days and the provider also charges a private individual for days of absence.

c. Payment for multiple children in a family. When a provider reduces the charges for the second and any subsequent children in a family with multiple children whose care is unsubsidized, the rate of payment made by the department for a family with multiple children shall be similarly reduced.

d. Payment for in-home care. Payment may be made for in-home care when there are three or more children in a family who require child care services. The rate of payment for in-home care shall be the minimum wage amount.

e. Limitations on payment. Payment shall not be made for therapeutic services that are provided in the care setting and include, but are not limited to, services such as speech, hearing, physical and other therapies, individual or group counseling, therapeutic recreation, and crisis intervention.

f. Review of the calculation of the rate of payment. Maximum rate ceilings are not appealable. A provider who is in disagreement with the calculation of the half-day rate as set forth in 170.4(7) "a" may request a review. The procedure for review is as follows:

(1) Within 15 calendar days of notification of the rate in question, the provider shall send a written request for review to the service area manager. The request shall identify the specific rate in question and the methodology used to calculate the rate. The service manager shall provide a written response within 15 calendar days of receipt of the request for review.

(2) When dissatisfied with the response, the provider may, within 15 calendar days of the response, request a review by the chief of the bureau of financial support. The provider shall submit to the bureau chief the original request, the response received, and any additional information desired. The bureau chief shall render a decision in writing within 15 calendar days of receipt of the request.

(3) The provider may appeal the decision to the director of the department or the director's designee within 15 calendar days of the decision. The director or director's designee shall issue the final department decision within 15 calendar days of receipt of the request.

g. Submission of claims. The department shall issue payment when the provider submits correctly completed documentation of attendance and charges. The department shall pay only for the number of units of service authorized in the notice of decision issued pursuant to subrule 170.3(3). Providers shall submit either:

(1) Form 470-0020, Purchase of Services Provider Invoice, or Form 470-4466 or 470-4466(S), Child Care Provider Claim, accompanied by Form 470-3872, Child Care Assistance Attendance Sheet, signed by the parent; or

(2) Form 470-3896, PROMISE JOBS Child Care Attendance and Invoice.

441—170.5(237A) Adverse actions.

170.5(1) Provider agreement. The department may refuse to enter into or may revoke the Child Care Assistance Provider Agreement, Form 470-3871, if:

a. The department finds a hazard to the safety and well-being of a child, and the provider cannot or refuses to correct the hazards; or

b. The provider has submitted claims for payment for which the provider is not entitled; or

c. The provider fails to cooperate with an investigation conducted by the department of inspections and appeals to determine whether information the provider supplied to the department regarding payment for child care services is complete and correct. Once the agreement is revoked for failure to cooperate, the department shall not enter into a new agreement with the provider until cooperation occurs.

170.5(2) Denial. Child care assistance shall be denied when the department determines that:

a. The client is not in need of service; or

b. The client is not financially eligible; or

c. There is another community resource available to provide the service or a similar service free of charge; or

d. An application is required and the client or representative refuses or fails to sign the application form; or

e. Funding is not available; or

f. The client refuses or fails to supply documentation of eligibility as to need or income; or

g. The client fails to cooperate with a quality control review or with an investigation conducted by the department of inspections and appeals.

170.5(3) Termination. Child care assistance may be terminated when the department determines that:

a. The client no longer meets the eligibility criteria in subrule 170.2(2); or

b. The client's income exceeds the financial guidelines; or

c. The client refuses or fails to supply documentation of eligibility as to need and income; or

d. No payment or only partial payment of client fees has been received within 30 days following the issuance of the last billing; or

e. Another community resource is available to provide the service or a similar service free of charge; or

f. Funding is not available; or

g. The client fails to cooperate with a quality control review or with an investigation conducted by the department of inspections and appeals.

170.5(4) Reduction. Authorized units of service may be reduced when the department determines that:

a. Continued provision of service at the current level is not necessary to meet the client's service needs; or

b. Another community resource is available to provide the same or similar service free of charge that will meet the client's needs; or

c. Funding is not available to continue the service at the current level. When funding is not available, the department may limit on a statewide basis the number of units of child care services for which payment will be made.

441—170.6(237A) Appeals. Notice of adverse actions and the right of appeal shall be given in accordance with 441—Chapter 7.

441—170.7(237A) Provider fraud.

170.7(1) *Fraud.* The department shall consider a child care provider to have committed fraud when:

a. The department of inspections and appeals, in an administrative or judicial proceeding, has found the provider to have obtained by fraudulent means child care assistance payment in an amount in excess of \$1,000; or

b. The provider has agreed to entry of a civil judgment or judgment by confession that includes a conclusion of law that the provider has obtained by fraudulent means child care assistance payment in an amount in excess of \$1,000.

170.7(2) *Potential sanctions.* Providers found to have committed fraud shall be subject to one or more of the following sanctions, as determined by the department:

a. Special review of the provider's claims for child care assistance.

b. Suspension from receipt of child care assistance payment for six months.

c. Ineligibility to receive payment under child care assistance.

170.7(3) *Factors considered in determining level of sanction.* The department shall evaluate the following factors in determining the sanction to be imposed:

a. *History of prior violations.*

(1) If the provider has no prior violations, the sanction imposed shall be a special review of provider claims.

(2) If the provider has one prior violation, the sanction imposed shall be a suspension from receipt of child care assistance payment for six months as well as a special review of provider claims.

(3) If the provider has more than one prior violation, the sanction imposed shall be ineligibility to receive payment under child care assistance.

b. *Prior imposition of sanctions.*

(1) If the provider has not been sanctioned before, the sanction imposed shall be a special review of the provider's claims for child care assistance.

(2) If the provider has been sanctioned once before, the sanction imposed shall be a suspension from receipt of child care assistance payment for six months as well as a special review of provider claims.

(3) If the provider has been sanctioned more than once before, the sanction imposed shall be ineligibility to receive payment under child care assistance.

c. *Seriousness of the violation.*

(1) If the amount fraudulently received is less than \$5,000, the sanction level shall be determined according to paragraphs "a" and "b."

(2) If the amount fraudulently received is \$5,000 or more, and the sanction determined according to paragraphs "a" and "b" is review of provider claims, the sanction imposed shall be suspension from receipt of child care assistance payment.

(3) If the amount fraudulently received is \$5,000 or more, and the sanction determined according to paragraphs "a" and "b" is suspension from receipt of child care assistance payment, the sanction imposed shall be ineligibility to receive payment under child care assistance.

d. *Extent of the violation.*

(1) If the fraudulent claims involve five invoices or less or five months or less, the sanction level shall be determined according to paragraphs "a" and "b."

(2) If the fraudulent claims involve at least six invoices or six months, and the sanction determined according to paragraphs "a" and "b" is review of provider claims, the sanction imposed shall be suspension from receipt of child care assistance payment.

(3) If the fraudulent claims involve at least six invoices or six months, and the sanction determined according to paragraphs “a” and “b” is suspension from receipt of child care assistance payment, the sanction imposed shall be ineligibility to receive payment under child care assistance.

170.7(4) *Mitigating factors.*

a. If the sanction determined according to subrule 170.7(3) is suspension from or ineligibility for receipt of child care assistance payment, the department shall determine whether it is appropriate to reduce the level of a sanction for the particular case, considering:

- (1) Prior provision of provider education.
- (2) Provider willingness to obey program rules.

b. If the sanction determined according to subrule 170.7(3) is ineligibility for receipt of child care assistance payment, but consideration of the two factors in paragraph “a” indicates that a lesser sanction will resolve the violation, the sanction imposed shall be:

- (1) Suspension from receipt of child care assistance payment for six months; and
- (2) A special review of provider claims.

c. If the sanction determined according to subrule 170.7(3) is suspension from receipt of child care assistance payment, but consideration of the two factors in paragraph “a” indicates that a lesser sanction will resolve the violation, the sanction imposed shall be a special review of provider claims.

441—170.8(234) Allocation of funds. Rescinded IAB 2/6/02, effective 4/1/02.

441—170.9(237A) Child care assistance overpayments. All child care assistance overpayments shall be subject to recoupment.

170.9(1) *Notification and appeals.* All clients or providers shall be notified as described at subrule 170.9(6), when it is determined that an overpayment exists. Notification shall include the amount, date and reason for the overpayment. The department shall provide additional information regarding the computation of the overpayment upon the client’s or provider’s request. The client or provider may appeal the computation of the overpayment and any action to recover the overpayment in accordance with 441—subrule 7.5(9).

170.9(2) *Determination of overpayments.* All overpayments due to client, provider, or agency error or due to benefits or payments issued pending an appeal decision shall be recouped. Overpayments shall be computed as if the information had been acted upon timely.

170.9(3) *Benefits or payments issued pending appeal decision.* Recoupment of overpayments resulting from benefits or payments issued pending a decision on an appeal hearing shall not occur until after a final appeal decision is issued affirming the department.

170.9(4) *Failure to cooperate.* Failure by the client to cooperate in the investigation of alleged overpayments shall result in ineligibility for the months in question and the overpayment shall be the total amount of assistance received during those months. Failure by the provider to cooperate in the investigation of alleged overpayments shall result in payments being recouped for the months in question.

170.9(5) *Payment agreement.* The client or provider may choose to make a lump-sum payment or make periodic installment payments as agreed to on the notification form issued pursuant to subrule 170.9(6). Failure to negotiate an approved payment agreement may result in further collection action as outlined in 441—Chapter 11.

170.9(6) *Procedures for recoupment.*

a. When the department determines that an overpayment exists, the department shall refer the case to the department of inspections and appeals for investigation, recoupment, or referral for possible prosecution.

b. The department of inspections and appeals shall initiate recoupment by notifying the debtor of the overpayment using one of the following forms:

- (1) Form 470-3627, Demand Letter for Child Care Assistance Provider Error Overissuance; or
- (2) Form 470-3628, Demand Letter for Child Care Assistance Agency Error Overissuance;

(3) Form 470-3807, Demand Letter for Child Care Assistance Client Error Benefit Overissuance;
or

(4) Form 470-4530, Notice of Child Care Assistance Overpayment.

c. When financial circumstances change, the department of inspections and appeals has the authority to revise the recoupment plan.

d. Recoupment for overpayments due to client error or due to an agency error that affected eligibility shall be made from the parent who received child care assistance at the time the overpayment occurred. When two parents were in the home at the time the overpayment occurred, both parents are equally responsible for repayment of the overpayment.

e. Recoupment for overpayments due to provider error or due to an agency error that affected benefits shall be made from the provider.

170.9(7) Suspension and waiver. Recoupment will be suspended on nonfraud overpayments when the amount of the overpayment is less than \$35. Recoupment will be waived on nonfraud overpayments of less than \$35 which have been held in suspense for three years.

These rules are intended to implement Iowa Code sections 237A.13 and 237A.29.

CHAPTER 171
ADULT DAY CARE

Rescinded IAB 3/6/02, effective 5/1/02

CHAPTER 172
FAMILY-CENTERED CHILD WELFARE SERVICES

PREAMBLE

These rules define and describe procedures for delivery of family-centered child welfare services. The rules describe the service definitions and eligibility criteria, provider selection and contracting processes, performance measures, billing and payment methods, procedures for client appeals, and service review and audit procedures.

DIVISION I
GENERAL PROVISIONS

441—172.1(234) Definitions.

“*Child*” means a person who meets the definition of a child in Iowa Code section 234.1(2).

“*Conditionally safe child*” means that a safety concern is identified on Form 470-4132, Safety Assessment/Plan, for which a safety plan is required.

“*Department*” means the Iowa department of human services.

“*Family*” means persons who have a blood or legal relationship with the child and persons who have an interest in the child, such as godparents, clan or tribal members, and other persons who have a significant relationship with the child.

“*Family safety, risk, and permanency service*” means a service that uses strategies and interventions designed to achieve safety and permanency for a child with an open department child welfare case, regardless of the setting in which the child resides.

“*Permanency*” means a child has a safe, stable, custodial environment in which to grow up and a lifelong relationship with a nurturing caregiver.

“*Protective capacities*” means the family strengths or resources that reduce, control, or prevent risks from arising or from having an unsafe impact on a child.

“*Provider*” means a public or private agency or organization authorized to do business in Iowa that has entered into a contract with the department to provide one or more of the services defined in this chapter. The provider is also known as the claimant.

“*Risk*” means the probability or likelihood that a child will experience maltreatment.

“*Safe child*” means that there are no present or impending dangers to the child, or that existing dangers are controlled by the caregiver’s protective capacities.

“*Safety plan service*” means a service that is designed to monitor the safety of a child during the department’s child protective assessment or child in need of assistance assessment process.

“*Service area manager*” means the department official responsible for managing the department’s programs, operations, and budget within one of the eight department service areas.

441—172.2(234) Purpose and scope. Family-centered child welfare services are designed to achieve safety, permanency, and well-being for children.

172.2(1) Family-centered child welfare services provide interventions and supports for children who have come to the department’s attention because of:

- a. Allegations of child abuse; or
- b. Juvenile court action to adjudicate the child as a child in need of assistance.

172.2(2) Family-centered child welfare services shall be designed to:

- a. Identify and build on the family’s strengths and enhance the family’s protective capacities;
- b. Address the risk factors that affect the child’s safety, permanency, and well-being; and
- c. Help the family become connected with community support systems in order to promote greater self-reliance.

172.2(3) Family-centered child welfare services shall utilize evidence-based interventions to the greatest possible extent.

441—172.3(234) Authorization. When the department has approved provision of family-centered child welfare services for a child and family, the department worker shall notify the provider by issuing Form 470-3055, Referral and Authorization for Child Welfare Services. The referral form shall indicate:

1. The specific service category authorized (safety plan; family safety, risk, and permanency; drug testing; family team meeting facilitation; or legal services for permanency); and
2. The duration of the authorization.

441—172.4(234) Reimbursement. Billed services that meet the requirements of this chapter and the contract between the department and the provider shall become a liability of the state. The format and process for submitting billings to the department and for receiving department payments shall be specified in all provider contracts with the department. The department shall process claims for payment promptly upon submission by the provider.

172.4(1) The provider shall bear ultimate responsibility for the completeness and accuracy of all billings submitted.

172.4(2) The provider shall maintain all financial and service records that are necessary to substantiate the provider's claims submitted for reimbursement for services provided to department clients as specified in the provider's contract with the department.

441—172.5(234) Client appeals. Clients may appeal the department's decision pursuant to 441—Chapter 7 when:

1. The client's application for services as described in this chapter is denied, or
2. The services are terminated.

441—172.6(234) Reviews and audits. Providers of the services described in this chapter shall be subject to review and audit procedures established by the department. Information on these procedures shall be included in the request for proposals and in contracts resulting from the procurement process.

441—172.7 to 172.9 Reserved.

DIVISION II
SAFETY PLAN SERVICES

PREAMBLE

Family-centered safety plan services are designed to maintain children safely in their own families whenever possible. These services use strategies and interventions to monitor and evaluate the safety of children who, during a child protective assessment or during the department's child in need of assistance assessment process, are assessed to be conditionally safe.

441—172.10(234) Service requirements. A provider of a safety plan service shall meet the following requirements:

172.10(1) The service shall meet the minimum expectations defined in the provider's contract with the department.

172.10(2) The provider shall provide interventions and supports based on the particular service needs identified for each child and family.

172.10(3) The provider shall design interventions that:

- a. Promote identification and enhancement of family strengths and protective capacities;
- b. Address the factors that have placed the child in "conditionally safe" status;
- c. Strengthen family connections to community resources and informal supports; and

d. Are culturally competent and respectful of the family's cultural, ethnic, and racial identity and values.

441—172.11(234) Provider selection. Family-centered safety plan services shall be available on a statewide basis and shall be purchased through a formal competitive selection process according to the requirements of 11—Chapters 106 and 107.

172.11(1) The department shall issue a request for proposals at the state level to seek applications from organizations interested in providing family-centered safety plan services within specific geographic areas.

172.11(2) The request for proposals shall specify:

- a. The minimum qualifications and requirements for consideration as a provider;
- b. The scope of services to be purchased; and
- c. The duration of contracts to be awarded.

172.11(3) The department shall select one or more providers within each department service area based on service needs and the number and quality of provider proposals.

172.11(4) When multiple providers are selected to serve the same geographic area, the department shall implement a fair and equitable case referral process.

441—172.12(234) Service eligibility. Family-centered safety plan services may be provided to a child who, during a child protective assessment or child in need of assistance assessment process, has been assessed by department staff to be conditionally safe.

441—172.13(234) Service components.

172.13(1) *Strategies and interventions.* Safety plan services shall provide a flexible array of strategies and interventions to:

- a. Monitor, evaluate, and intervene to ensure the child's safety; and
- b. Evaluate and supplement the protective capacities of the child's caregivers.

172.13(2) *Service activities.* The activities to be provided by safety plan services shall be as described in the scope of services section of the request for proposals. At a minimum, a provider of safety plan services shall do all of the following:

- a. Be available 24 hours a day, seven days per week.
- b. Respond to the department worker within one hour after the provider receives a referral call.
- c. Initiate face-to-face contact with the family within 24 hours of the referral from the department worker.
- d. Make daily face-to-face contact with the referred family unless the department worker identifies a different frequency in the safety plan.
- e. Provide an E-mail contact to update the department worker within 24 hours after each contact with the child or family.
- f. Attend all family team meetings held on behalf of the family during the service delivery period.
- g. Respond within two hours to any family crisis during the service delivery period, and update the department worker with an oral or E-mail contact.
- h. Attend court hearings about the child upon request of the court or the department worker.

172.13(3) *Additional services available.* Based on child and family needs and subject to approval by the department worker, a child and family who are receiving safety plan services may also receive the following services, which shall be purchased and funded separately, in addition to the activities listed in subrule 172.13(2):

- a. Drug testing as provided in subrule 172.30(1).
- b. Family team meeting facilitation as provided in subrule 172.30(2).
- c. Legal services for permanency as provided in subrule 172.30(3).
- d. Payment of foster family care maintenance costs under rule 441—156.6(234) if the child is placed in foster family care.

e. Shelter care payment as provided in 441—subrule 156.11(3) if the child is placed in shelter care.

441—172.14(234) Monitoring of service delivery.

172.14(1) Case management. During the time a child and the child's family are approved to receive safety plan services, the department worker shall be responsible for providing case management. The department worker shall maintain contact with the family and the family's provider to ensure that factors that present risks to the safety and well-being of children in the family are being adequately addressed.

172.14(2) Provider progress reports. A provider of safety plan services shall submit client reports in accordance with the requirements concerning format, content, and frequency that are specified in the provider's contract with the department.

172.14(3) Outcome measures. The department shall establish outcome-based performance measures for safety plan services. These performance measures shall:

- a. Be specified in each provider's contract with the department; and
- b. Be aligned with the measures defined by the federal government as part of the child and family services review process.

441—172.15(234) Billing and payment.

172.15(1) Unit of service. Safety plan services shall be delivered based on a 15-calendar-day unit of service with an established per-unit payment rate that shall be specified in each provider's contract. The department worker may purchase up to two units of service for a child and family.

172.15(2) Performance-based payments. Contracts for safety plan services may contain provisions under which a portion of the payment to the provider is connected to the provider's level of achievement on specified outcome-based performance measures. Any provisions for performance-based payments shall be described in the department's request for proposals and in provider contracts with the department.

441—172.16 to 172.19 Reserved.

DIVISION III
FAMILY SAFETY, RISK, AND PERMANENCY SERVICES

PREAMBLE

Family safety, risk, and permanency services provide family-focused interventions and supports to improve parents' capacity to keep their children safe. The purpose of these services is to achieve safety and permanency for children, regardless of the setting in which the children reside. The outcome may be to maintain children safely within their own families or with relatives, to reunite children safely with their parents or other relatives, or to achieve alternative permanent family connections for the child.

441—172.20(234) Service requirements. Family safety, risk, and permanency services shall meet the following requirements:

172.20(1) The service shall meet the minimum expectations defined in the provider's contract with the department.

172.20(2) The provider shall have flexibility to select interventions and supports based on the particular service needs identified for each child and family.

172.20(3) The provider shall:

- a. Identify family strengths and protective capacities;
- b. Build on these strengths in the provider's interventions with children and families;
- c. Participate in family team meetings and court hearings;
- d. Be culturally competent and respectful of the family's cultural, ethnic, and racial identity and values;

- e. Work to connect children and families with community resources and informal support systems to promote family self-reliance;
- f. Use evidence-based models of intervention to the greatest extent possible;
- g. Address risk factors and needs that are barriers to the child's safety, permanency, and well-being.

441—172.21(234) Provider selection. Family safety, risk, and permanency services shall be available on a statewide basis and shall be purchased through a formal competitive selection process according to the requirements of 11—Chapters 106 and 107.

172.21(1) The department shall issue a request for proposals at the state level to seek applications from organizations interested in providing family safety, risk, and permanency services within specific geographic areas.

172.21(2) The request for proposals shall specify:

- a. The minimum qualifications and requirements for consideration as a provider;
- b. The scope of services to be purchased; and
- c. The duration of contracts to be awarded.

172.21(3) The department shall select one or more providers within each department service area based on service needs and the number and quality of provider proposals.

172.21(4) When multiple providers are selected to serve the same geographic area, the department shall implement a fair and equitable case referral process.

441—172.22(234) Service eligibility. Family safety, risk, and permanency services may be provided to a child and to the child's family when the child meets the following criteria:

172.22(1) The child is eligible for department child welfare services based on:

- a. The child's adjudication as a child in need of assistance; or
- b. The child's placement out of home under the care and supervision of the department; or
- c. Evaluation of the child's age, the findings of a child abuse assessment report, and the family's risk assessment score.

172.22(2) The child is in need of services:

- a. To maintain the child's placement safely within the child's own family or in the home of a relative or other suitable person; or
- b. To reunify the child safely with the child's birth family or with another relative following placement with a relative or in a foster family, shelter care facility, group care facility, or other placement setting; or
- c. To move the child toward an alternative permanent family connection.

441—172.23(234) Service components.

172.23(1) *Strategies and interventions.* Family safety, risk, and permanency services shall be designed to deliver a flexible array of strategies and interventions to promote achievement of the goals of child and family safety, risk reduction, and permanency for children. It is expected that:

- a. The specific interventions and supports delivered and service intensity will vary depending on child and family needs identified during the course of the family's child welfare involvement with the department; and
- b. The provider will use evidence-based models of intervention when possible as well as develop creative and innovative service models.

172.23(2) *Service activities.* Specific minimum service standards and expectations for family safety, risk, and permanency services shall be as described in the request for proposals issued by the department. The provider shall be responsible for meeting identified needs of referred children and families through interventions that may include, but are not limited to, the following:

- a. Assistance and instruction for parents in life skills and household management.
- b. Family functioning assessment.
- c. Crisis intervention response.

- d. Support for a plan of family visits when children are placed out of home, and supervision of visits, if necessary.
- e. Safety checks and supervision to ensure that children are safe within their environments.
- f. Transportation assistance for children and families to access needed services and supports.
- g. Interventions to enhance family functioning skills, which may include interventions and instruction in one or more of the following areas:
 - (1) Communication and social interaction skills.
 - (2) Family relationship enhancement.
 - (3) Parenting education and behavior management of children.
 - (4) Consumer education instruction.
 - (5) Advocacy skill enhancement.
 - (6) Transitional life skills for adolescents.
- h. Activities to help connect the child and family with mental health and substance abuse services and with community resources and informal supports to promote self-reliance.
- i. Activities to support the families' participation in services related to mental health, domestic violence, and substance abuse.
- j. Family reunification interventions.
- k. Permanency planning activities, including help in identifying and achieving alternative permanent family connections for the child.
- l. Provision of tangible supports for children and families.

172.23(3) Additional services available. Based on child and family needs and subject to approval by the department worker, a child and family who are receiving family safety, risk, and permanency interventions may also be approved to receive the following services, which shall be purchased and funded separately:

- a. Drug testing as provided in subrule 172.30(1).
- b. Family team meeting facilitation as provided in subrule 172.30(2).
- c. Legal services for permanency as provided in subrule 172.30(3).
- d. Foster care maintenance payments under rule 441—156.6(234) if the child is placed in foster family care.
- e. Shelter care payment as provided in 441—subrule 156.11(3) if the child is placed in shelter care.
- f. Group care maintenance and group care child welfare services under rule 441—156.9(234) if the child is placed in group care.
- g. Supervised apartment living maintenance and services under rule 441—156.12(234) if the child is placed in supervised apartment living placement.

441—172.24(234) Monitoring of service delivery.

172.24(1) Case management. During the time that a child and the child's family are approved to receive family safety, risk, and permanency services, the department worker shall be responsible for maintaining contact with the child and family to ensure that:

- a. The factors that present risks of harm to the safety and well-being of all children in the family are being adequately addressed; and
- b. Services and supports are in place to achieve the child's permanency goal.

172.24(2) Provider progress reports. A provider of family safety, risk, and permanency services shall submit reports on clients receiving services in accordance with the format, content, and frequency requirements as specified in the department's request for proposals and in the provider's contract with the department.

172.24(3) Outcome measures. The department shall establish outcome-based performance measures for family safety, risk, and permanency services. These performance measures shall:

- a. Be specified in department contracts with providers; and
- b. Be aligned with the measures defined by the federal government as part of the child and family services review process.

441—172.25(234) Billing and payment.

172.25(1) Unit of service. Family safety, risk, and permanency services shall be purchased based on a calendar month as one unit of service.

a. A monthly payment rate shall be established for each contract.

b. When services are opened or closed with department worker approval during a calendar month, payment shall be prorated based on the number of days the case was approved for services during the month, including both the beginning and ending dates of service. The amount paid for each day of service shall be the provider's monthly rate divided by 30.

172.25(2) Performance-based payments. Contracts for family safety, risk, and permanency services may contain provisions under which a portion of the provider's payment is connected to the provider's level of outcome-based performance achievement. Any performance-based payment provisions and procedures shall be described in the department's request for proposals and in provider contracts with the department.

441—172.26 to 172.29 Reserved.

DIVISION IV
FAMILY-CENTERED SUPPORTIVE SERVICES

PREAMBLE

Family-centered supportive child welfare services are specific services that department workers may approve and deliver at various points during the course of a child's and family's involvement with the department's child welfare system to address the children's safety, permanency, and well-being.

441—172.30(234) Service components. Family-centered supportive services include the following components:

172.30(1) Drug testing. At a minimum, drug testing contractors shall be responsible for the costs associated with all of the following activities:

a. Collection of samples from adults or children or installation of sweat patches or other drug-testing devices;

b. Purchasing of collection supplies and devices;

c. Preservation and documentation of the chain of evidence for collected samples;

d. Laboratory testing and analysis fees;

e. Reporting of test results to the referring worker; and

f. Provision of court testimony, if requested, concerning testing results.

172.30(2) Family team meeting facilitation. Meeting facilitation shall:

a. Be provided in accordance with the department's family team meeting model of practice and family team meeting standards; and

b. Include activities involved in:

(1) Planning, preparing for, arranging, facilitating, and reporting on a family team meeting for a child welfare case; and

(2) Coaching and mentoring new facilitators.

172.30(3) Legal services for permanency. Payment for legal services shall include:

a. Providing funding to an attorney for legal services associated with achieving greater permanency for children through either:

(1) Modification of a child custody order; or

(2) Creation of a guardianship or adoptive relationship for a child who is residing with a relative or another suitable caretaker; and

b. Payment of related legal fees, such as filing costs and reporting fees.

172.30(4) *Service-area-specific services.* A service area manager shall have the authority to use a portion of the child welfare funds allocated to that service area to fund family-centered services specific to that department service area. Service-area-specific services shall be designed to:

- a. Address unique child welfare needs within the service area;
- b. Allow flexibility and innovation in intervention approach; and
- c. Promote safety, permanency, and well-being for children.

441—172.31(234) *Provider selection.* With the exception of legal services for permanency, family-centered supportive services shall be purchased through a formal competitive selection process according to the requirements of 11—Chapters 106 and 107. With the exception of service-area-specific services, family-centered supportive services shall be available on a statewide basis.

172.31(1) The department shall procure family-centered supportive services within specific geographic areas.

172.31(2) The request for proposals shall specify:

- a. The minimum qualifications and requirements for consideration as a provider;
- b. The scope of services to be purchased;
- c. The specific geographic areas to be covered; and
- d. The duration of contracts to be awarded.

172.31(3) The department shall select one or more providers within each geographic area based on service needs and the number and quality of provider proposals.

172.31(4) When multiple providers are selected to serve the same geographic area, the department shall implement a fair and equitable case referral process.

441—172.32(234) *Service eligibility.* Supportive child welfare services are designed to provide services for children when:

1. The department has initiated a child protective assessment in response to receipt of a report of child maltreatment concerning the child or another child within the same family; or
2. The department has assumed care and supervision of a child placed in out-of-home care; or
3. The department has opened a child welfare service case on the child or family following a child abuse assessment or juvenile court action; or
4. A child in need of assistance petition has been filed on behalf of the child and the court has set a date for the prehearing conference or adjudication hearing.

441—172.33(234) *Monitoring of service delivery.*

172.33(1) *Case management.* When the department approves a child and family to receive one or more family-centered supportive service components, the child's department worker shall be responsible for providing case management. Case management shall include maintaining contact with the child, the family, and the provider to ensure that approved services:

- a. Are delivered in a manner that will be most effective; and
- b. Are helping to achieve identified goals and objectives.

172.33(2) *Provider progress reports.* The department shall establish and define mandated provider reporting requirements for each family-centered supportive service component and include these requirements in the department's request for proposals and contracts developed as a result of the procurement process.

441—172.34(234) *Billing and payment.* The units of service for family-centered supportive service components shall be as follows:

172.34(1) *Drug testing.* The unit of service for drug testing shall be completion of one drug testing procedure, as defined in the department's request for proposals.

172.34(2) *Family team meeting facilitation.*

- a. Family team meeting facilitation shall be purchased based on either:
 - (1) A payment rate for each facilitated family team meeting; or

- (2) A monthly payment to a provider to facilitate family team meetings.
- b.* Regardless of the purchasing method, facilitation services shall include:
 - (1) Completion of necessary premeeting planning activities;
 - (2) Facilitation of the meeting; and
 - (3) Completion of a written report of meeting results.

172.34(3) *Legal services for permanency.* The unit of service for legal services shall be a variable amount per client, based on the actual costs of legal services and related court costs necessary to achieve the desired legal result, up to the limits applicable to nonrecurring expenses for adoption subsidy as described in 441—subparagraph 201.6(1) “a”(7).

172.34(4) *Service-area-specific services.* The unit of services and unit cost for service-area-specific services shall be defined in the request for proposals and provider contracts resulting from the procurement process.

These rules are intended to implement Iowa Code section 234.6.

CHILD ABUSE

[Rescinded IAB 5/6/98, effective 9/1/98]

441—175.1 to 175.20 Reserved.

DIVISION II
CHILD ABUSE ASSESSMENT

PREAMBLE

The purpose of this division is to implement requirements established in the Iowa Code which charge the department of human services with accepting reports of child abuse, assessing those reports and taking necessary steps to ensure a reported child's safety. Protection is provided through encouraging the reporting of suspected cases of abuse, conducting a thorough and prompt assessment of the reports, and providing rehabilitative services to abused children and their families. This response to reports of child abuse emphasizes child safety and engagement of a family in services, where necessary. The assessment-based approach recognizes that child protection and strong families are the responsibility not only of the family itself, but also of the larger community (including formal and informal service networks). It is the department's legal mandate to respond to reports of child abuse. The assessment approach shall allow the department to develop divergent strategies when responding to reports of child abuse, adjusting its response according to the severity of abuse, to the functioning of the family, and to the resources available within the child and family's community.

441—175.21(232,235A) Definitions.

"Adequate food, shelter, clothing or other care" means that food, shelter, clothing or other care which, if not provided, would constitute a denial of critical care.

"Allegation" means a statement setting forth a condition or circumstance yet to be proven.

"Assessment" means the process by which the department carries out its legal mandate to ascertain if child abuse has occurred, to record findings, to develop conclusions based upon evidence, to address the safety of the child and family functioning, engage the family in services if needed, enhance family strengths and address needs in a culturally sensitive manner.

"Assessment intake" means the process by which the department receives and records reports of child abuse.

"Caretaker" means a person responsible for the care of a child as defined in Iowa Code section 232.68.

"Case" means a report of child abuse that has been accepted for assessment services.

"Community care," as provided in rule 441—186.1(234), means child- and family-focused services and supports provided to families referred from the department. Services shall be geared toward keeping the children in the family safe from abuse and neglect; keeping the family intact; preventing the need for further intervention by the department, including removal of the child from the home; and building ongoing linkages to community-based resources that improve the safety, health, stability, and well-being of families served.

"Denial of critical care" is the failure on the part of a person responsible for the care of a child to provide for the adequate food, shelter, clothing or other care necessary for the child's health and welfare when financially able to do so, or when offered financial or other reasonable means to do so, and shall mean any of the following:

1. Failure to provide adequate food and nutrition to the extent that there is danger of the child suffering injury or death.
2. Failure to provide adequate shelter to the extent that there is danger of the child suffering injury or death.
3. Failure to provide adequate clothing to the extent that there is danger of the child suffering injury or death.
4. Failure to provide adequate health care to the extent that there is danger of the child suffering injury or death. A parent or guardian legitimately practicing religious beliefs who does not provide specified medical treatment for a child for that reason alone shall not be considered abusing the child and shall not be placed on the child abuse registry. However, a court may order that medical service be provided where the child's health requires it.
5. Failure to provide the mental health care necessary to adequately treat an observable and substantial impairment in the child's ability to function.
6. Gross failure to meet the emotional needs of the child necessary for normal development.
7. Failure to provide for the proper supervision of the child to the extent that there is danger of the child suffering injury or death, and which a reasonable and prudent person would exercise under similar facts and circumstances.
8. Failure to respond to the infant's life-threatening conditions (also known as withholding medically indicated treatment) by providing treatment (including appropriate nutrition, hydration and medication) which in the treating physician's reasonable medical judgment will be most likely to be effective in ameliorating or correcting all conditions, except that the term does not include the failure to provide treatment (other than appropriate nutrition, hydration, or medication) to an infant when, in the treating physician's reasonable medical judgment any of the following circumstances apply: the infant is chronically and irreversibly comatose; the provision of the treatment would merely prolong dying, not be effective in ameliorating or correcting all of the infant's life-threatening conditions, or otherwise be futile in terms of the survival of the infant; the provision of the treatment would be virtually futile in terms of the survival of the infant and the treatment itself under the circumstances would be inhumane.

"Department" means the department of human services.

"Facility providing care to a child" means any public or private facility, including an institution, hospital, health care facility, intermediate care facility for mentally retarded, residential care facility for mentally retarded, or skilled nursing facility, group home, mental health facility, residential treatment facility, shelter care facility, detention facility, or child care facility which includes licensed day care centers, all registered family and group day care homes and licensed family foster homes. A public or private school is not a facility providing care to a child, unless it provides overnight care. Public facilities which are operated by the department of human services are assessed by the department of inspections and appeals.

"Illegal drug" means cocaine, heroin, amphetamine, methamphetamine or other illegal drugs, including marijuana, or combinations or derivatives of illegal drugs which were not prescribed by a health practitioner.

"Immediate threat" means conditions which, if no response were made, would be more likely than not to result in sexual abuse, injury or death to a child.

"Infant," as used in the definition of "Denial of critical care," numbered paragraph "8," means an infant less than one year of age or an infant older than one year of age who has been hospitalized continuously since birth, who was born extremely prematurely, or who has a long-term disability.

"Nonaccidental physical injury" means an injury which was the natural and probable result of a caretaker's actions which the caretaker could have reasonably foreseen, or which a reasonable person could have foreseen in similar circumstances, or which resulted from an act administered for the specific purpose of causing an injury.

"Physical injury" means damage to any bodily tissue to the extent that the tissue must undergo a healing process in order to be restored to a sound and healthy condition or damage to any bodily tissue which results in the death of the person who has sustained the damage.

“Preponderance of evidence” means evidence which is of greater weight or more convincing than the evidence which is offered in opposition to it.

“Proper supervision” means that supervision which a reasonable and prudent person would exercise under similar facts and circumstances, but in no event shall the person place a child in a situation that may endanger the child’s life or health, or cruelly or unduly confine the child. Dangerous operation of a motor vehicle is a failure to provide proper supervision when the person responsible for the care of a child is driving recklessly, or driving while intoxicated with the child in the motor vehicle. The failure to restrain a child in a motor vehicle does not, by itself, constitute a cause to assess a child abuse report.

“Rejected intake” means a report of child abuse that has not been accepted for assessment.

“Reporter” means the person making a verbal or written statement to the department, alleging child abuse.

“Report of child abuse” means a verbal or written statement made to the department by a person who suspects that child abuse has occurred.

“Subject of a report of child abuse” means any of the following:

1. A child named in a report as having been abused, or the child’s attorney or guardian ad litem.
2. A parent or the attorney for the parent of a child named in a child abuse assessment summary as having been abused.
3. A guardian or legal custodian, or that person’s attorney, of a child named in a child abuse assessment summary as having been abused.
4. A person or the attorney for the person named in a child abuse assessment summary as having abused a child.

“Unduly” shall mean improper or unjust, or excessive.

441—175.22(232) Receipt of a report of child abuse. Reports of child abuse shall be received by local department offices, the central abuse registry, or the Child Abuse Hotline.

175.22(1) Any report made to the department which alleges child abuse as defined in Iowa Code section 232.68 shall be accepted for assessment.

175.22(2) Reports of child abuse which do not meet the legal definition of child abuse shall become rejected intakes.

a. If a report does not meet the legal definition of child abuse, but a criminal act harming a child is alleged, the department shall immediately refer the matter to the appropriate law enforcement agency.

b. If a report constitutes an allegation of child sexual abuse as defined under Iowa Code section 232.68, paragraph “c” or “e,” except that the suspected abuse resulted from the acts or omissions of a person who was not a caretaker, the department shall refer the report to law enforcement orally and, as soon as practicable, follow up in writing within 72 hours of receiving the report.

441—175.23(232) Sources of report of child abuse.

175.23(1) Mandatory reporters. Any person meeting the criteria of a mandatory reporter is required to make an oral report of the child abuse to the department within 24 hours of becoming aware of the abusive incident and make a written report to the department within 48 hours following the oral report. If the person making the report has reason to believe that immediate protection for the child is advisable, that person shall also make an oral report to an appropriate law enforcement agency.

175.23(2) Others required to report. In addition to mandatory reporters which are so designated by the Iowa Code, there are other classifications of persons who are required, either by administrative rule or department policy, to report child abuse when this is a duty identified through the person’s employment. Others required to report include:

- a.* Income maintenance workers.
- b.* Certified adoption investigators.

175.23(3) Permissive reporters. Any person who suspects child abuse may make an oral or written report, or both, to the department. Mandatory reporters may report as permissive reporters when they suspect abuse of a child outside the scope of their professions. A permissive reporter may remain anonymous and is not required by law to report abuse.

441—175.24(232) Child abuse assessment intake process. The primary purpose of intake is to obtain available and pertinent information regarding an allegation of child abuse and determine whether a report of child abuse becomes a case or a rejected intake. To result in a case, the report of child abuse must include some information to indicate all of the following. The alleged:

1. Victim of child abuse is a child.
2. Perpetrator of child abuse is a caretaker.
3. Incident falls within the definition of child abuse.

Only mandatory reporters or the person making the report may be contacted during the intake process to expand upon or to clarify information in the report. Any contact with subjects of the report or with nonmandatory reporters, other than the original reporter, automatically causes the report of child abuse to be accepted for assessment. When it is determined that the report of child abuse fails to constitute an allegation of child abuse, the report of child abuse shall become a rejected intake. Rejected intake information shall be maintained by the department for six months and then destroyed. The county attorney shall be notified of all reports of child abuse. When a report of child abuse is received which does not meet the requirements to become a case, but has information about illegal activity, the department shall notify law enforcement of the report.

441—175.25(232) Child abuse assessment process. An assessment shall be initiated within 24 hours following the report of child abuse becoming a case. The primary purpose in conducting an assessment is to protect the safety of the child named in the report. The secondary purpose of the assessment is to engage the child's family in services to enhance family strengths and to address needs, where this is necessary and desired. There are eight tasks associated with completion of the assessment. These are:

175.25(1) *Observing and evaluating the child's safety.* In instances when there is an immediate threat to the child's safety, reasonable efforts shall be made to observe the alleged child victim named in the report within one hour of receipt of the report. Otherwise, reasonable efforts shall be made to observe the alleged child victim within 24 hours of the report of child abuse becoming a case. When the alleged perpetrator clearly does not have access to the alleged child victim, reasonable efforts shall be made to observe the alleged child victim within 96 hours of receipt of the report. When reasonable efforts have been made to observe the alleged child victim within the specified time frames and the worker has established that there is no risk to the alleged child victim, the observation of the alleged child victim may be waived with supervisory approval.

175.25(2) *Interviewing the alleged child victim.* The primary purpose of an interview with the child is to gather information regarding the abuse allegation, the child's immediate safety, and risk of abuse.

175.25(3) *Interviewing subjects of the report and other sources.* Attempts shall be made to conduct interviews with subjects of the report and persons who have relevant information to share regarding the allegations. This may include contact with physicians to assess the child's condition. The child's custodial parents or guardians and the alleged perpetrator (if different) shall be interviewed, or offered the opportunity to be interviewed. The court may waive the requirement of the interview for good cause.

175.25(4) *Gathering of physical and documentary evidence.* Evidence shall be gathered from, but not be limited to, interviews, observations, photographs, medical and psychological reports and records, reports from child protection centers, written reports, audiotapes and their transcripts or summaries, videotapes and their transcripts or summaries, or other electronic forms.

175.25(5) *Evaluating the home environment and relationships of household members.* The evaluation may, with the consent of the parent or guardian, include a visit to the home where the child resides. If permission is refused, the juvenile court may authorize the worker to enter the home to observe or interview the child. An evaluation of the home environment shall be conducted during the course of the child abuse assessment. If protective concerns are identified, the child protection worker shall evaluate the child named in the report and any other children in the same home as the parents or other persons responsible for their care. Each case shall include a full description of information gathered during the assessment process. This description shall provide information which evaluates the safety of the child named in the report. If the child protection worker has concerns about a child's safety or a family's functioning, the worker shall conduct a more intensive assessment until those

concerns are addressed. When an assessment is conducted at an out-of-home setting, an evaluation of the environment and relationships where the abuse allegedly occurred shall be conducted.

175.25(6) *Evaluating the information.* Evaluation of information shall include an analysis, which considers the credibility of the physical evidence, observations, and interviews, and shall result in a conclusion of whether or not to confirm the report of child abuse.

175.25(7) *Determining placement on central abuse registry.* A determination of whether the report data and disposition data of a confirmed case of child abuse is subject to placement on the central abuse registry pursuant to Iowa Code Supplement subsection 232.71D(3) shall be made on each assessment.

175.25(8) *Service recommendations and referrals.* During or at the conclusion of a child abuse assessment, the department may recommend information, information and referral, community care referral, or services provided by the department. If it is believed that treatment services are necessary for the protection of the abused child or other children in the home, juvenile court intervention shall be sought.

a. Information or information and referral. Families with children of any age that have confirmed or not confirmed abuse and low risk of abuse shall be provided either information or information and referral when:

- (1) No service needs are identified, and the worker recommends no service; or
- (2) Service needs are identified, and the worker recommends new or continuing services to the family to be provided through informal supports; or
- (3) Service needs are identified, and the worker recommends new or continuing services to the family to be provided through community agencies.

b. Referral to community care. With the exception of families of children with an open department service case, court action pending, or abuse in an out-of-home setting, a referral to community care shall be offered to:

- (1) Families with children whose abuse is not confirmed when there is moderate to high risk of abuse, service needs are identified, and the worker recommends community care.
- (2) Families with children that have confirmed but not founded abuse and moderate or high risk of abuse when service needs are identified and the worker recommends community care.
- (3) Families with children with founded abuse, a victim child six years of age or older, and a low risk of repeat abuse when service needs are identified and the worker recommends community care.

c. Referral for department services. Families with children that have founded abuse and moderate to high risk of abuse and families with victim children under age six that have founded abuse and low risk of abuse shall be offered department services on a voluntary basis.

(1) The worker shall recommend new or continuing treatment services to the family to be provided by the department, either directly or through contracted agencies.

(2) Families that refuse voluntary services shall be referred for a child in need of assistance action through juvenile court.

441—175.26(232) Completion of a child protective assessment summary. The child protection worker shall complete a child protective assessment summary within 20 business days from the date of the report of child abuse becoming a case. In most instances, the child protective assessment summary shall be developed in conjunction with the child and family being assessed. A child protective assessment summary shall consist of two parts as follows:

175.26(1) *Report and disposition data.* Form 470-3240, Child Protective Services Assessment Summary, shall include report and dispositional data as follows:

a. Allegations: the report of child abuse which caused the assessment to be initiated and additional allegations raised after the report of child abuse becomes a case that have not been previously investigated or assessed.

b. Evaluation of the child's safety: evaluation of the child's safety and the risk for occurrence or reoccurrence of abuse. Criteria to be used in the evaluation of the child's safety include, but are not limited to, the severity of the incident or condition, chronicity of the incident or condition, age of the child, attitude of the person responsible, current treatment services or supports, access of the person

responsible for the abuse to the child, and protectiveness of the parent or caretaker who is not responsible for the abuse.

c. Findings and contacts: a description of the child's condition including identification of the nature, extent, and cause of the injuries, if any, to the child named in the report; identification of the injury or risk to which the child was exposed; the circumstances which led to the injury or risk to the child; the identity of the person alleged to be responsible for the injury or risk to the child; the name and condition of other children in the same home as the child named in the report if protective concerns are identified; a list of collateral contacts; and a history of confirmed or founded abuse.

d. Determination regarding the allegations of child abuse: a statement of determination of whether the allegation of child abuse was founded, confirmed but not placed on the central abuse registry, or not confirmed. The statement shall include a rationale for placing or not placing the case on the central abuse registry.

e. Recommendation for treatment services as specified in 175.25(8) and a statement describing whether treatment services are necessary to ensure the safety of the child or to prevent or remedy other identified problems.

(1) The statement shall include the type of treatment services recommended, if any, and whether these treatment services are to be provided by the department, community agencies, informal supports, or another treatment source.

(2) If treatment services are already being provided, the statement shall include a recommendation whether these treatment services should continue.

f. Juvenile court recommendation: a statement describing whether juvenile court action is necessary to ensure the safety of the child; the type of action needed, if any; and the rationale for the recommendation.

g. Criminal court recommendation: a statement describing whether criminal court action is necessary and the rationale for the recommendation.

h. Addendum: An addendum to an assessment summary shall be completed within 20 business days when any of the following occur:

(1) New information becomes available that would alter the finding, conclusion, or recommendation of the summary.

(2) Substantive information that supports the finding becomes available.

(3) A subject who was not previously interviewed requests an interview to address the allegations of the case.

(4) A review or a final appeal decision modifies the summary.

175.26(2) *Assessment data.* Form 470-4133, Family Risk Assessment, Form 470-4132, Safety Assessment, and Form 470-4461, Safety Plan, if applicable, may be used as part of the child's initial case plan, referenced at 441—subrule 130.7(3), for cases in which the department will provide treatment services.

441—175.27(232) *Contact with juvenile court or the county attorney.* The child protection worker may orally contact juvenile court or the county attorney, or both, as circumstances warrant.

175.27(1) *Report of intake.* When a report of child abuse is accepted or rejected for assessment, the county attorney shall be provided Form 470-0607, Child Protective Service Intake, with information about the allegation of child abuse and with identifying information about the subjects of the report.

175.27(2) *Report of disposition.* The child protection worker shall provide the juvenile court and the county attorney with a copy of Form 470-3240, Child Protective Services Assessment Summary, which pertains to the findings, determinations, and recommendations regarding the report of child abuse.

175.27(3) *Report of assessment.* The child protection worker shall provide the county attorney and the juvenile court with a copy of Form 470-4133, Family Risk Assessment, and Form 470-4132, Safety Assessment/Plan, when any of the following occur:

a. *County attorney's or juvenile court's assistance necessary.* The worker requires the court's or the county attorney's assistance to complete the assessment process.

b. *Court's protection needed.* The worker believes that the child requires the court's protection.

c. Child adjudicated. The child is currently adjudicated or pending adjudication under a child in need of assistance petition or a delinquency petition.

d. County attorney or juvenile court requests copy. The county attorney or juvenile court requests a copy of the assessment data. The child protection worker shall document when the assessment data is provided to the county attorney or juvenile court and the rationale provided for the request.

441—175.28(232) Consultation with health practitioners or mental health professionals. The child protection worker may contact a health practitioner or a mental health professional as circumstances warrant and shall contact a health practitioner or a mental health professional when the worker requires the assistance of the health practitioner or mental health professional in order to complete the assessment process or when the worker requires the opinion or advice of the health practitioner or mental health professional in order to determine if the child requires or should have required medical, health or mental health care as a result of abuse.

441—175.29(232) Consultation with law enforcement. The child protection worker may contact law enforcement as warranted and shall contact law enforcement when the worker believes that:

1. The abuse reported may require a criminal investigation and subsequent prosecution.
2. The child must be separated from the person responsible for the abuse.
3. Contact by the child protection worker with the family will result in a volatile and dangerous response by the child or family members.

441—175.30(232) Information shared with law enforcement. When the department is jointly conducting a child abuse assessment with law enforcement personnel, the department may share information gathered during the assessment process when an assessment is conducted in conjunction with a criminal investigation or the reported abuse has been referred to law enforcement.

441—175.31(232) Completion of required correspondence.

175.31(1) Notification to parents that a child abuse assessment is being conducted. Written notice shall be provided to the parents of a child who is the subject of an assessment within five working days of commencing an assessment unless the assessment is completed within the five working days. Both custodial and noncustodial parents shall be notified, if their whereabouts are known. If it is believed that notification will result in danger to the child or others, an emergency order to prohibit parental notification shall be sought from juvenile court.

175.31(2) Notification of completion of assessment and right to request correction. Written notice shall be provided to all subjects of a child abuse assessment and to the mandatory reporter who made the report of child abuse which indicates that the child abuse assessment is completed. Both custodial and noncustodial parents shall be notified if their whereabouts are known.

a. The notice shall contain information concerning the subject's rights to request correction and appeal rights. The subject may request correction of the information contained within the child protective assessment summary if the subject disagrees with the information.

b. If the child protective assessment results in a determination that abuse is confirmed, the notice shall indicate the type of abuse, name of the child and name of the person responsible for the abuse and whether the report has been placed on the registry.

441—175.32(232,235A) Case records. The assessment case record shall contain the child protective assessment summary as described in 441—175.26(232) and any related correspondence or information which pertains to the assessment or to the child and family. The name of the person who made the report of child abuse shall not be disclosed to the subjects of the report. The child protective assessment summary has two parts.

1. Report and disposition data as described in 175.26(1). Subjects of the report have access to report and disposition data, including, where applicable, confirmation of placement on the central abuse registry for abuse reports meeting the criteria pursuant to Iowa Code subsection 232.71D(3). Form 470-3240, Child Protective Services Assessment Summary, shall be submitted to the central

abuse registry only if the abuse is confirmed and determined to meet the criteria pursuant to Iowa Code subsection 232.71D(3).

2. Assessment data as described in 175.26(2). Assessment data shall be available to subjects. Release of assessment data shall be accomplished only when the parent or guardian approves the release as provided through Iowa Code chapter 217, or as specified in Iowa Code section 235A.15. Assessment data shall not be submitted to the central abuse registry.

175.32(1) *Assessments where abuse was confirmed but not placed on the central abuse registry.* The following conditions apply to case records for assessments in which abuse was confirmed but not placed on the central registry.

a. Access to the report data and disposition data is authorized only to the subjects of the report, the child protection worker, law enforcement officer responsible for assisting in the assessment or for the temporary emergency removal of a child from the child's home, the multidisciplinary team assisting the department in the assessment of the abuse, county attorney, juvenile court, a person or agency responsible for the care of the child if the department or juvenile court determines that access is necessary, the department or contract personnel necessary for official duties, the department of justice, and the attorney for the department.

b. The child protective assessment summary is retained five years from date of intake or five years from the date of closure of the service record, whichever occurs later.

c. The child protective assessment summary is subject to confidentiality provisions of Iowa Code chapter 217 and 441—Chapter 9. No confidential information shall be released without consent except where there is otherwise authorized access to information as specified in the provisions of Iowa Code section 235A.15.

175.32(2) *Assessments not placed on the central abuse registry where abuse was not confirmed.* The following conditions apply to case records for assessments in which abuse was not confirmed and not placed on the central registry:

a. Access to the report data on a child abuse assessment summary where abuse was not determined to have occurred and, therefore, the assessment was not placed on the central abuse registry is authorized only to the subjects of the assessment, the child protection worker, county attorney, juvenile court, a person or agency responsible for the care of the child if the department or juvenile court determines that access is necessary, the department of justice, and department or contract personnel necessary for official duties.

b. Records are retained five years from date of intake or five years from the date of closure of the service record, whichever occurs later.

c. The child protective assessment summary is subject to confidentiality provisions of Iowa Code chapter 217 and 441—Chapter 9. No confidential information shall be released without consent except where there is otherwise authorized access to information as specified in the provisions of Iowa Code section 235A.15.

441—175.33(232,235A) Child protection centers. The department may contract with designated child protection centers for assistance in conducting child abuse assessments. When a child who is the subject of an assessment is interviewed by staff at a child protection center, that interview may be used in conjunction with an interview conducted by the child protection worker. Written reports developed by the child protection center shall be provided to the child protection worker and may be included in the assessment case record. Video or audio records are considered to be part of the assessment process and shall be maintained by the child protection center under the same confidentiality provisions of Iowa Code chapter 217 and 441—Chapter 9.

441—175.34(232) Department-operated facilities. When an allegation of child abuse occurs at a department-operated facility, the allegation shall be referred to the department of inspections and appeals for investigation or assessment.

441—175.35(232,235A) Jurisdiction of assessments. Child protection workers serving the county in which the child's home is located have primary responsibility for completing the child abuse assessment except when the abuse occurs in an out-of-home placement. Circumstances in which the department shall conduct an assessment when another state is involved include the following:

175.35(1) *Child resides in Iowa but incident occurred in another state.* When the child who is the subject of a report of abuse physically resides in Iowa, but has allegedly been abused in another state, the worker shall do all of the following:

- a. Obtain available information from the reporter.
- b. Make an oral report to the office of the other state's protective services agency and request assistance from the other state in completing the assessment.
- c. Complete the assessment with assistance, as available, of the other state.

175.35(2) *Child resides in another state, but is present within Iowa.* When the child who is the subject of a report of abuse is a legal resident of another state, but is present within Iowa, the worker receiving the report shall do all of the following:

- a. Act to ensure the safety of the child.
- b. Contact the child's state of legal residency to coordinate the assessment of the report.
- c. Commence an assessment if the state of legal residency declines to conduct an investigation.

175.35(3) *Child resides in another state and perpetrator resides in Iowa.* When the child who is the subject of a report of abuse resides in another state and the perpetrator resides in Iowa, the worker receiving the report shall do all of the following:

- a. Contact the state where the child resides and offer assistance to that state in its completion of a child abuse assessment. This assistance shall include an offer to interview the person allegedly responsible for the abuse and any other relevant source of information.
- b. Commence an assessment if the child's state of legal residency declines to conduct an investigation.

441—175.36(235A) Multidisciplinary teams. Multidisciplinary teams shall be developed in county or multicounty areas in which more than 50 child abuse cases are received annually. These teams may be used as an advisory group to assist the department in conducting assessments. Multidisciplinary teams consist of professionals practicing in the disciplines of medicine, public health, mental health, social work, child development, education, law, juvenile probation, law enforcement, nursing, and substance abuse counseling. Members of multidisciplinary teams shall maintain confidentiality of cases in which they provide consultation. Rejected intakes shall not be shared with multidisciplinary teams since they are not considered to be child abuse information. During the course of an assessment, information regarding the initial report of child abuse and information related to the child and family functioning may be shared with the multidisciplinary team. After a conclusion is made, only report data and disposition data on confirmed cases of child abuse may be shared with the team members. When the multidisciplinary team is created, all team members shall execute an agreement, filed with the central abuse registry, which specifies:

175.36(1) *Consultation.* The team shall be consulted solely for the purpose of assisting the department in the assessment, diagnosis and treatment of child abuse cases.

175.36(2) *Redissemination.* No team member shall redisseminate child abuse information obtained through the multidisciplinary team. This shall not preclude redissemination of information as authorized by Iowa Code section 235A.17 when an individual team member has received information as a result of another authorized access provision of the Iowa Code.

175.36(3) *Department not bound.* The department shall consider the recommendation of the team in a specific child abuse case but shall not, in any way, be bound by the recommendation.

175.36(4) *Confidentiality provisions.* Any written report or document produced by the team pertaining to an assessment case shall be made a part of the file for the case and shall be subject to all confidentiality provisions of 441—Chapter 9, unless the assessment results in placement on the central abuse registry in which case the written report or document shall be subject to all confidentiality provisions of Iowa Code chapter 235A.

175.36(5) *Written records.* Any written records maintained by the team which identify an individual assessment case shall be destroyed when the agreement lapses.

175.36(6) *Compensation.* Consultation team members shall serve without compensation.

175.36(7) *Withdrawal from contract.* Any party to the agreement may withdraw with or without cause upon the giving of 30 days' notice.

175.36(8) *Expiration date.* The date on which the agreement will expire shall be included.

441—175.37(232) *Community education.* The department shall conduct a continuing publicity and educational program for the personnel of the department, mandatory reporters, and the general public to encourage recognition and reporting of child abuse, to improve the quality of reports of child abuse made to the department, and to inform the community about the assessment-based approach to child abuse cases.

441—175.38(235) *Written authorizations.* Requests for information from members of the general public as to whether a person is named on the central abuse registry as having abused a child shall be submitted on Form 470-3301, Authorization for Release of Child Abuse Information, to the county office of the department or the central abuse registry. The form shall be completed and signed by the person requesting the information and the person authorizing the check for the release of child abuse information.

441—175.39(232) *Founded child abuse.* Reports of child abuse where abuse has been confirmed shall be placed on the central abuse registry as founded child abuse for ten years under any of the circumstances specified by Iowa Code Supplement subsection 232.71D(3). Reports of denial of critical care by failure to provide adequate clothing or failure to provide adequate supervision and physical abuse where abuse has been confirmed and determined to be minor, isolated, and unlikely to reoccur shall not be placed in the central abuse registry as a case of founded child abuse as specified by Iowa Code Supplement subsections 232.71D(2) and (3). The confirmed abuse shall be placed on the registry unless all three conditions are met. Minor abuse shall be placed on the registry if there is a prior confirmed abuse.

441—175.40(235A) *Retroactive reviews.* Review of child abuse information which is on the central abuse registry as of July 1, 1997, shall be performed using the requirements for child abuse cases to be placed on the central abuse registry as founded child abuse pursuant to Iowa Code Supplement subsections 232.71D(2) and (3). If the review indicates the information should not be placed on the central abuse registry, the information shall be expunged from the registry. The information shall be retained as a service record for five years from the date of intake. The time the report has been placed on the central abuse registry shall count toward the five years' total.

175.40(1) *Eligibility for retroactive reviews.* Eligibility for retroactive reviews is limited to reports which do not meet the criteria for placement in the central abuse registry as a case of founded child abuse specified in Iowa Code Supplement subsection 232.71D(3). The reports eligible for review are reports where the confirmed abuse involved one of the following circumstances:

- a. Physical abuse where the injury was minor and isolated and is unlikely to reoccur.
- b. Denial of critical care by failure to provide adequate clothing or failure to provide adequate supervision, where the risk to the child's health and welfare was minor and isolated and is unlikely to reoccur.

175.40(2) *Reviews initiated by subject.* Rescinded IAB 5/6/98, effective 7/1/98.

175.40(3) *Reviews initiated by department.* Reviews shall be performed when the department is reviewing a case for the purpose of one of the following:

- a. A record check evaluation is being completed for licensing, registration, or employment or residence in a child care facility. If the department worker completing the record check evaluation determines the case does not meet the criteria specified in Iowa Code subsection 232.71D(3) and, therefore, should be expunged from the central abuse registry, the department worker shall provide

copies of the written report and Form 470-2310, Record Check Evaluation, to the bureau of protective services.

(1) Within 30 days the bureau chief shall determine if the report is to be expunged from the central abuse registry and shall notify the service area manager or designee in writing of that decision and the time frame for retention or expungement of the report. The bureau chief or designee shall notify the person on whom the review was completed of the decision to expunge the case from the central abuse registry.

(2) If the department determines that the case is to be expunged from the central abuse registry, no record check evaluation is necessary and the department shall notify the requester.

(3) If the department determines that the case does meet the criteria for placement on the central abuse registry, the department shall proceed with the record check evaluation.

b. Rescinded IAB 8/4/04, effective 7/9/04.

441—175.41(235A) Access to child abuse information. Requests for child abuse information shall include sufficient information to demonstrate that the requesting party has authorized access to the information.

175.41(1) Written requests. Requests for child abuse information shall be submitted on Form 470-0643, Request for Child Abuse Information, to the county office of the department, except requests made for the purpose of determining employability of a person in a department-operated facility shall be submitted to the central abuse registry. Subjects of a report may submit a request for child abuse information to the county office of the department on Form 470-0643, Request for Child Abuse Information, or on Form 470-3243, Notice of Child Abuse Assessment: Founded; Form 470-3575, Notice of Child Abuse Assessment: Confirmed Not Registered; or on Form 470-3242, Notice of Child Abuse Assessment: Not Confirmed. The county office is granted permission to release child abuse information to the subject of a report immediately upon verification of the identity and subject status.

175.41(2) Oral requests. Oral requests for child abuse information may be made when a person making the request believes that the information is needed immediately and if the person is authorized to access the information. When an oral request to obtain child abuse information is granted, the person approving the request shall document the approval to the central abuse registry through use of Form 470-0643, Request for Child Abuse Information, or Form 470-3243, Notice of Child Abuse Assessment: Founded.

Upon approval of any request for child abuse information authorized by this rule, the department shall withhold the name of the person who made the report of child abuse unless ordered by a juvenile court or district court after a finding that the person's name is needed to resolve an issue in any phase of a case involving child abuse. Written requests and oral requests do not apply to child abuse information that is disseminated to an employee of the department, to a juvenile court, or to the attorney representing the department as authorized by Iowa Code section 235A.15.

175.41(3) Written authorizations. Requests for information from members of the general public as to whether a person is named on the central abuse registry as having abused a child shall be submitted on Form 470-3301, Authorization for Release of Child Abuse Information, to the county office of the department or the central abuse registry. The form shall be completed and signed by the person requesting the information and the person authorizing the check for the release of child abuse information.

The department shall not provide requested information when the authorization form is incomplete. Incomplete authorization forms shall be returned to the requester.

441—175.42(235A) Person conducting research. The supervisor of the central abuse registry shall be responsible for determining whether a person requesting child abuse information is conducting bona fide research, whether the research will further the official duties and functions of the central abuse registry, and whether identified information is essential to the research design. A bona fide research design is one which shows evidence of a good-faith, academically objective and sincere intent to add to the body of knowledge about child abuse. To make this determination, the central abuse registry shall require the person to submit credentials and the research design. Additional criteria for approval of a research project

may include whether the research involves contact with subjects of child abuse information, and whether contact with department personnel is required to complete the research design. If it is determined that the research will involve use of identified information, the central abuse registry shall also determine under what circumstances and in what format the information is to be used and shall execute an agreement with the researcher which will enable the researcher to obtain access to identified information on subjects of child abuse investigations, as an agent of the central abuse registry. The department will require the researcher to assume costs incurred by the department in obtaining or providing information for research purposes. The department shall keep a public record of persons conducting this research.

175.42(1) *Child abuse factors.* For purposes of conducting research pursuant to Iowa Code sections 235A.15 and 235A.23, official duties and functions of the central abuse registry shall include analysis or identification of child abuse factors in at least one of the following areas:

a. Causes of abuse—victim, parent and perpetrator characteristics, types of abuse, and correlations to family and environmental factors.

b. Effects of abuse—immediate and long-term effects of abuse on the individual child victim, the child's family and the perpetrator, in areas such as family functioning, foster placement, emotional and medical problems, and criminal activity; and effects of abuse on the community and society in general.

c. Prevention of abuse—intervention, prevention and treatment strategies.

d. Treatment of abuse—impact of service delivery upon recidivism and maintenance of the family unit.

e. Reporting of abuse—mandatory and permissive reporter characteristics, training needs, and perception of the department's protective services to children and families.

f. Identification of strengths and weaknesses in statute, policy or practice concerning child abuse services.

175.42(2) *Guidelines.* To be accepted by the central abuse registry, a research proposal originating outside the department shall meet the following guidelines:

a. The proposal shall meet the criteria listed above as "official duties and functions" of the central abuse registry.

b. The research shall be conducted by a competent researcher, evidenced by affiliation with a recognized human services agency, government body, or academic, social work or medical facility. The researcher shall demonstrate an ability to conduct nonbiased research and present findings in a professional and responsible manner which will benefit the department in providing protective services to children and families.

c. The proposed research shall not unduly interfere with the ongoing duties and responsibilities of department staff.

d. When the proposed research includes contact with subjects of child abuse information, the research design shall reflect a plan for initial subject contact by the department, which includes the following:

(1) Subjects shall be informed in writing of their right to refuse to participate in the research.

(2) Subjects shall receive written assurance that their participation in the research will not affect eligibility for services.

(3) Department staff shall be advised of research goals and procedures prior to contact with subjects, in order to answer questions which may arise.

(4) Subjects shall receive written assurance that when identifying information is released by the central abuse registry to research staff, the information will remain confidential and that all child abuse information will be deidentified prior to publication of the research findings.

175.42(3) *Approval procedures.* Procedures for approval of a research proposal are conducted as follows:

a. The supervisor of the central abuse registry shall designate a person to be the single point of contact (SPOC) for all research proposals requesting child abuse information or involving department staff who provide child protective services. All proposals shall be routed to the SPOC at the Division of Adult, Children and Family Services, Department of Human Services, 1305 E. Walnut Street, Des Moines, Iowa 50319-0114.

b. Having received a research proposal, the SPOC shall log the date the proposal was received and other identifying information about the researcher and the research design and shall convene a research advisory committee to review the proposal. This committee may consist of:

- (1) The unit supervisor of the child and dependent adult abuse registry, when applicable.
- (2) The unit managers for the programs addressed by the research proposal.
- (3) The research specialist.
- (4) Representatives from the field, including a service area manager or designee and one representative from a service area, appointed by the service area manager, if a specific service area is involved.
- (5) A representative from the department's division of data management, when the proposal involves use of one of the department's computerized data systems.
- (6) A representative of the attorney general's office, when the proposal involves legal questions or issues.
- (7) Other persons whom the SPOC may designate to assist in the review.

c. The SPOC is responsible for ensuring that advisory committee members receive copies of the research proposal.

d. The advisory committee may meet in person or by teleconference.

e. The researcher may, at the discretion of the SPOC, be provided an opportunity to address the advisory committee concerning the research proposal and answer questions about the research design.

f. The committee shall determine the value of the proposed research and formulate recommendations for acceptance of the proposal (with conditions as necessary) or rejection of the proposal (with rationale for the rejection). These recommendations shall be submitted to the SPOC.

g. The SPOC shall transmit the committee's recommendations, with additional comments and recommendations, as needed, to the division administrators for the divisions involved.

h. The division administrators shall review committee recommendations and submit the research proposal to the director or designee for final approval.

i. After review by the director, the proposal shall be returned to the SPOC, who shall notify the researcher of the director's decision, which decision shall be final.

j. If the research proposal is approved, the SPOC shall prepare a written research agreement with the researcher which provides:

- (1) The purpose of the research.
- (2) The research design or methodology.
- (3) The control of research findings and publication rights of all parties, including the deidentification of child abuse information prior to publication.
- (4) The duties of all parties in conducting the research.
- (5) The transfer of funds, if applicable.

k. The SPOC shall be responsible for securing written approval of the research agreement from the attorney general's office, applicable division administrators, and the researcher.

l. The SPOC shall be responsible for maintaining the research agreement throughout the research project and renewing or modifying the agreement when necessary.

441—175.43(235A) Child protection services citizen review panels. The purposes of the child protection services citizen review panels established in this rule are to comply with requirements set forth by the Child Abuse Prevention and Treatment Act and to take advantage of this process to identify strengths and weaknesses of the child protective service system as a whole, including community-based services and agencies. The specific objectives are to clarify expectations for child protective services with current policy; to review consistency of practice with current policy; to analyze trends and recommend policy to address them; and to provide feedback on what is or is not working, and why, and to suggest corrective action if needed.

175.43(1) Establishment of panels. The department shall establish at least three panels, with at least one panel each at the state level, multicounty level, and county level. The department may designate as panels one or more existing entities established under state or federal law, such as multidisciplinary

teams, if the entities have the capacity to satisfy the requirements of the function of a citizen review panel set forth in the Child Abuse Prevention and Treatment Act and the department ensures that the entities will satisfy the requirements. The department shall establish procedures to be used for selecting the panels.

175.43(2) *Membership of panels.* Each panel established shall be composed of a multidisciplinary team of volunteer members who are broadly representative of the community in which the panel is established, including members who possess knowledge and skills related to the diagnosis, assessments, and disposition of child abuse cases, and who have expertise in the prevention and treatment of child abuse. The membership of each panel shall include professionals practicing in the disciplines of medicine, nursing, public health, substance abuse, domestic violence, mental health, social work, child development, education, law, juvenile probation, law enforcement; or representatives from organizations that advocate for the protection of children. The panel shall function under the leadership of a chairperson and vice-chairperson who are elected annually by the membership. Members shall enter into a contract with the department by signing Form 470-3602, Iowa Child Protection System Citizens' Review Panel Contract.

175.43(3) *Meetings.* Each panel established pursuant to this rule shall meet not less than once every three months.

175.43(4) *Functions.* Each panel established pursuant to this rule shall:

a. Evaluate the extent to which the department effectively discharges the child protection responsibilities in accordance with: the state plan and the child protection standards under subsection (b) of the Child Abuse Prevention and Treatment Act of 1996; the child protection duties of the department set forth in Iowa Code chapters 232 and 235A; and any other criteria that the panel considers important to ensure the protection of children, including:

(1) A review of the extent to which the child protective services system is coordinated with the foster care and adoption programs established under Part E of Title IV of the Social Security Act (42 USCS 670 et seq.); and

(2) A review of child fatalities and near fatalities.

b. Provide for public outreach and comment in order to:

(1) Assess the impact of current procedures and practices upon children and families in the community; and

(2) Make recommendations to the state and the public on improving the child protective services system at the state and local levels.

175.43(5) *Redissemination.* No panel member shall redisseminate child abuse information obtained through the citizen review panel. This shall not preclude redissemination of information as authorized by Iowa Code section 235A.17 when an individual panel member has received information as a result of another authorized access provision of the Iowa Code.

175.43(6) *Department not bound.* The department shall consider the recommendations of the panel but shall not, in any way, be bound by the recommendations.

175.43(7) *Confidentiality.* Members and staff of a panel may not disclose child abuse information about any specific child abuse case to any person or government official and may not make public any information unless authorized by the Iowa Code to do so.

175.43(8) *Reports.* Each panel established under this rule shall prepare and make available to the public, on an annual basis, a report containing a summary of the activities of the panel.

175.43(9) *Staff assistance.* The department shall provide staff assistance to citizen review panels for the performance of their duties, upon request of the panel.

175.43(10) *Access to child abuse information.* Citizen review panels shall be under contract to carry out official duties and functions of the department and have access to child abuse information according to Iowa Code section 235A.15 [2"e"(2)].

These rules are intended to implement Iowa Code sections 232.67 to 232.77 and Iowa Code chapter 235A.

CHAPTER 176
DEPENDENT ADULT ABUSE
[Prior to 7/1/83, Social Services[770] Ch 156]
[Previously appeared as Ch 156—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services[498]]

441—176.1(235B) Definitions.

“*Adult abuse*” means any of the following as a result of the willful or negligent acts or omissions of a caretaker:

1. Physical injury to, or injury which is at variance with the history given of the injury, or unreasonable confinement, unreasonable punishment, or assault of a dependent adult.

2. The commission of a sexual offense under Iowa Code chapter 709 or Iowa Code section 726.2 with or against a dependent adult.

3. Exploitation of a dependent adult which means the act or process of taking unfair advantage of a dependent adult or the adult’s physical or financial resources for one’s own personal or pecuniary profit, without the informed consent of the dependent adult, including theft, by the use of undue influence, harassment, duress, deception, false representation, or false pretenses.

4. The deprivation of the minimum food, shelter, clothing, supervision, physical or mental health care, and other care necessary to maintain a dependent adult’s life or health.

The deprivation of the minimum food, shelter, clothing, supervision, physical or mental health care, and other care necessary to maintain a dependent adult’s life or health as a result of the acts or omissions of the dependent adult.

“*Appropriate evaluation or assessment*” means that evaluation or assessment reasonably believed by the department to be warranted by the facts and circumstances of the case as reported.

“*Assault*” means “assault” as defined in Iowa Code section 708.1.

“*Caretaker*” means a related or nonrelated person who has the responsibility for the protection, care, or custody of a dependent adult as a result of assuming the responsibility voluntarily, by contract, through employment, or by order of the court.

“*Collateral sources*” means any person or agency who is presently providing, either in a professional or paraprofessional capacity, service to the dependent adult, including, but not limited to, doctors, counselors, and public health nurses.

“*Confidentiality*” means the withholding of information from any manner of communication, public or private.

“*Denial of critical care*” exists when the dependent adult’s basic needs are denied or ignored to such an extent that there is immediate or potential danger of the dependent adult suffering injury or death, or is a denial of, or a failure to provide the mental health care necessary to adequately treat the dependent adult’s serious social maladjustment, or is a gross failure of the caretaker to meet the emotional needs of the dependent adult necessary for normal functioning, or is a failure of the caretaker to provide for the proper supervision of the dependent adult.

“*Department*” means the department of human services and includes the county and central offices of the department, unless otherwise specified.

“*Dependent adult*” means a person 18 years of age or older who is unable to protect the person’s own interests or unable to adequately perform or obtain services necessary to meet essential human needs, as a result of a physical or mental condition which requires assistance from another.

“*Expungement*” means the process of destroying dependent adult abuse information.

“*Immediate danger to health or safety*” means a situation in which death or severe bodily injury could reasonably be expected to occur without intervention.

“*Immediately*” means within 24 hours when referring to mandatory reporters reporting suspected abuse of a dependent adult.

“*Individual employed as an outreach person*” means a person who, in the course of employment, makes regular contacts with dependent adults regarding available community resources.

“Informed consent” (as used in Iowa Code paragraph 235B.2(5) “c”) means a dependent adult’s agreement to allow something to happen that is based on a full disclosure of known facts and circumstances needed to make the decision intelligently, i.e., knowledge of risks involved or alternatives.

“Minimum food, shelter, clothing, supervision, physical and mental health care, and other care” means that food, shelter, clothing, supervision, physical and mental health care, and other care which, if not provided, would constitute denial of critical care.

“Multidisciplinary team” shall mean a membership of individuals who possess knowledge and skills related to the diagnosis, assessment, and disposition of dependent adult abuse cases and who are professionals practicing in the disciplines of medicine, public health, social work, law, law enforcement and other disciplines relative to dependent adults. Members of the team shall include, but are not limited to, persons representing the area agencies on aging, county attorneys, health care providers, and others involved in advocating or providing services for dependent adults.

“Physical injury” means damage to any bodily tissue to the extent that the tissue must undergo a healing process in order to be restored to a sound and healthy condition, or damage to any bodily tissue to the extent that the tissue cannot be restored to a sound and healthy condition, or damage to any bodily tissue which results in the death of the person who has sustained the damage, or physical injury which is at variance with the history given of it.

“Preponderance of evidence” shall mean evidence which is of greater weight or more convincing than the evidence which is offered in opposition to it.

“Proper supervision” means that supervision which a reasonable and prudent person would exercise under similar facts and circumstances, but in no event shall a person place a dependent adult in a situation that may endanger the dependent adult’s life or health or cruelly punish or unreasonably confine the dependent adult.

“Registry” means the central registry for dependent adult abuse information established in Iowa Code Supplement section 235B.5.

“Report” means a verbal or written statement, made to the department, which alleges that dependent adult abuse has occurred.

441—176.2(235B) Denial of critical care. The failure on the part of the caretaker or dependent adult to provide for minimum food, shelter, clothing, supervision, physical or mental care, and other care necessary for the dependent adult’s health and welfare when financially able to do so or when offered financial and other reasonable means to do so shall constitute denial of critical care to that dependent adult.

441—176.3(235B) Appropriate evaluation. Immediately upon receipt of a dependent adult abuse report the worker shall conduct an intake sufficient to determine whether the allegation constitutes a report of dependent adult abuse.

176.3(1) Dependent adult abuse reports shall be evaluated when all of the following criteria are alleged to be met:

- a. The person is a dependent adult.
- b. Dependent adult abuse exists as defined in Iowa Code section 235B.2.
- c. A caretaker exists in reports of physical injury to or unreasonable confinement or cruel punishment of a dependent adult; commission of a sexual offense; exploitation; and deprivation by another person of food, shelter, clothing, supervision, physical and mental health care and other care necessary to maintain life or health.

176.3(2) Nondependent adult abuse situations. The following are not dependent adult abuse situations:

- a. A report of domestic abuse under Iowa Code chapter 236, Domestic Abuse, does not in and of itself constitute a report of dependent adult abuse.
- b. Circumstances in which the dependent adult declines medical treatment if the dependent adult holds a belief or is an adherent of a religion whose tenets and practices call for reliance on spiritual means in place of reliance on medical treatment.

c. Circumstances in which the dependent adult's caretaker, acting in accordance with the dependent adult's stated or implied consent, declines medical treatment if the dependent adult holds a belief or is an adherent of a religion whose tenets and practices call for reliance on spiritual means in place of reliance on medical treatment.

d. Withholding and withdrawing of health care from a dependent adult who is terminally ill in the opinion of a licensed physician when the withholding and withdrawing of health care is done at the request of the dependent adult or at the request of the dependent adult's next-of-kin or guardian pursuant to the applicable procedures under Iowa Code chapter 125, 144A, 222, 229, or 633.

e. All persons legally incarcerated in a penal setting, either in a local jail or confined to the custody of the director of the department of corrections.

176.3(3) Reports of dependent adult abuse which are the result of the acts or omissions of the dependent adult shall be collected and maintained in the files of the dependent adult as assessments only and shall not be included on the central registry. The central registry shall be notified as to the disposition of the assessment.

176.3(4) Confirmed, not registered. Reports of physical abuse or denial of critical care by a caretaker that would otherwise be founded reports shall be considered confirmed, not registered reports if the abuse is determined to be minor, isolated, and unlikely to reoccur. These reports shall be assessments and shall not be included on the central abuse registry. The assessment shall be maintained in the local office as directed in subrule 176.13(4).

441—176.4(235B) Reporters. The central registry and county office shall accept reports from mandatory reporters or any other person who believes dependent adult abuse has occurred.

176.4(1) Mandatory reporters shall:

a. Report suspected abuse of a dependent adult within 24 hours of becoming aware of an abusive incident.

b. Make a written report within 48 hours after an oral report.

176.4(2) The reporter may use the department's Form 470-2441, Suspected Dependent Adult Abuse Report, or may use a form developed by the reporter that meets the requirements of Iowa Code section 235B.3.

441—176.5(235B) Reporting procedure.

176.5(1) Each report made by someone other than a mandatory reporter may be oral or written.

176.5(2) The report shall be made by telephone or otherwise to the department of human services. When the person making the report has reason to believe that immediate protection for the dependent adult is advisable, that person shall also make an oral report to an appropriate law enforcement agency.

176.5(3) The department of human services shall:

a. Immediately, upon receipt of a report, make an oral report to the registry;

b. Forward a copy of the report to the registry; and

c. Promptly notify the appropriate county attorney of the receipt of any report.

176.5(4) The report shall contain the following information, or as much thereof as the person making the report is able to furnish:

a. The names and home addresses of the dependent adult, appropriate relatives, caretakers, and other persons believed to be responsible for the care of the dependent adult.

b. The dependent adult's present whereabouts if not the same as the address given.

c. The reason the adult is believed to be dependent. Dependency is the first criterion to be considered before beginning an evaluation.

d. The dependent adult's age.

e. The nature and extent of the adult abuse, including evidence of previous adult abuse. The existence of alleged adult abuse is the second criterion to be considered before beginning an evaluation.

f. Information concerning the suspected adult abuse of other dependent adults in the same residence.

g. Other information which the person making the report believes might be helpful in establishing the cause of the abuse or the identity of the person or persons responsible for the abuse, or helpful in providing assistance to the dependent adult.

h. The name and address of the person making the report.

176.5(5) A report shall be accepted whether or not it contains all of the information requested in 176.5(4), and may be made to the department, county attorney, or law enforcement agency. When the report is made to any agency other than the department of human services, that agency shall promptly refer the report to the department.

441—176.6(235B) Duties of the department upon receipt of report.

176.6(1) When a report is received, the department shall promptly commence an appropriate evaluation or assessment, except that the department of inspections and appeals is responsible for the evaluation and disposition of a case of adult abuse in a health care facility, including hospitals as defined in Iowa Code section 135B.1 and facilities as defined in Iowa Code section 135C.1. The department shall forward all reports and other information concerning adult abuse in a health care facility to the department of inspections and appeals on the first working day following the submitting of the report. The department of inspections and appeals shall inform the registry of all actions taken or contemplated concerning the evaluation or disposition of a case of adult abuse in a health care facility. The primary purpose of the evaluation or assessment by the department shall be the protection of the dependent adult named in the report.

176.6(2) The evaluation or assessment shall include all of the following:

a. Identification of the nature, extent, and cause of the adult abuse, if any, to the dependent adult named in the report.

b. The identification of the person or persons responsible for the adult abuse.

c. A determination of whether other dependent adults in the same residence have been subjected to adult abuse.

d. A critical examination of the residential environment of the dependent adult named in the report, and the dependent adult's relationship with caretakers and other adults in the same residence.

e. A critical explanation of all other pertinent matters.

176.6(3) The evaluation or assessment, with the consent of the dependent adult or caretaker, when appropriate, may include a visit to the residence of the dependent adult named in the report and an examination of the dependent adult. If permission to enter the residence and to examine the dependent adult is refused, the district court, upon a showing of probable cause that a dependent adult has been abused, may authorize a person, authorized by the department, to make an evaluation or assessment, to enter the residence of, and to examine the dependent adult.

Upon a showing of probable cause that a dependent adult has been financially exploited, a court may authorize a person, also authorized by the department, to gain access to the financial records of the dependent adult.

176.6(4) County attorneys, law enforcement agencies, multidisciplinary teams as defined in Iowa Code section 235B.1, subsection 1, and social services agencies in the state shall cooperate and assist in the evaluation or assessment upon the request of the department. County attorneys and appropriate law enforcement agencies shall also take any other lawful action necessary or advisable for the protection of the dependent adult.

176.6(5) The department, upon completion of its evaluation, shall transmit a copy of its report, including actions taken or contemplated, to the registry within 20 working days of the receipt of the abuse report, unless the worker's supervisor grants an extension of time for good cause shown. The worker's supervisor may grant an extension for a maximum of 30 working days. No more than three extensions shall be granted.

The department, upon completion of its assessment in reports when the abuse is the result of the acts or omissions of the dependent adult, shall place the report, including actions taken or contemplated, in the case file of the dependent adult. The central registry shall be notified as to the disposition of the assessment.

176.6(6) The department shall also transmit a copy of the report of its evaluation or assessment to the appropriate county attorney. The county attorney shall notify the county office of the department of any actions or contemplated actions with respect to a suspected case of adult abuse.

176.6(7) Based on the evaluation, the department shall complete an assessment of services needed by a dependent adult believed to be the victim of abuse, the dependent adult's family, or a caretaker. The department shall explain that the department does not have independent legal authority to compel the acceptance of protective services. Upon voluntary acceptance of the offer of services, the department shall make referrals or may provide necessary protective services to eligible dependent adults, their family members, and caretakers.

176.6(8) Court action. When, upon completion of the evaluation or assessment or upon referral from the state department of inspections and appeals, the department determines that the best interests of the dependent adult require court action, the department shall initiate action for the appointment of a guardian or conservator, or for admission or commitment to an appropriate institution or facility, pursuant to the applicable procedures under Iowa Code chapter 125, 222, 229, or 633. The department may pursue other remedies provided by law pursuant to the applicable procedures under Iowa Code sections 235B.17, 235B.18, 235B.19, and 235B.20 or any other legal remedy which provides protection to a dependent adult. The appropriate county attorney shall assist the department in the preparation of the necessary papers to initiate the action, and shall appear and represent the department at all district court proceedings.

176.6(9) The department shall assist the district court during all stages of court proceedings involving a suspected case of adult abuse.

176.6(10) In every case involving adult abuse which is substantiated by the department and which results in a judicial proceeding on behalf of the dependent adult, legal counsel shall be appointed by the court to represent the dependent adult in the proceedings. The court may also appoint a guardian ad litem to represent the dependent adult when necessary to protect the dependent adult's best interests. The same attorney may be appointed to serve both as legal counsel and as guardian ad litem. Before legal counsel or a guardian ad litem is appointed pursuant to Iowa Code section 235B.3, subsection 7, paragraph "c," the court shall require the dependent adult and any person legally responsible for the support of the dependent adult to complete under oath a detailed financial statement. If, on the basis of that financial statement, the court deems that the dependent adult or the legally responsible person is able to bear all or a portion of the cost of the legal counsel or guardian ad litem, the court shall so order. In cases where the dependent adult or the legally responsible person is unable to bear the cost of the legal counsel or guardian ad litem, the expense shall be paid by the county.

176.6(11) Notification of licensing authority. Based on information discovered during an evaluation of dependent adult abuse in a program providing care to a dependent adult, the department shall notify the licensing or accrediting authority for the program, the governing body of the program, and the administrator in charge of the program of any of the following:

- a. A violation of program policy noted in the evaluation.
- b. An instance in which program policy or lack of program policy may have contributed to the dependent adult abuse.
- c. An instance in which general practice in the program appears to differ from the program's policy.

The licensing or accrediting authority, the governing body, and the administrator in charge of the program shall take any lawful action which may be necessary or advisable to protect dependent adults receiving care in the program.

176.6(12) Assessments by other agencies. The department may approve agencies considered capable and appropriate to complete assessments of dependent adults who are suspected of being abused.

- a. The department may make a referral to an approved agency to complete an assessment of a dependent adult who is suspected of being abused, in conjunction with a department abuse evaluation or assessment on the dependent adult.

b. The department may use information obtained from the assessment completed by the approved agency in the abuse evaluation or assessment. The department has complete authority in determining the conclusions of the abuse evaluation or assessment.

441—176.7(235B) Appropriate evaluation or assessment.

176.7(1) After receipt of the report alleging dependent adult abuse, the field worker shall make an evaluation or assessment to determine whether the information as reported, other known information, and any information gathered as a result of the worker's contact with collateral sources would tend to corroborate the alleged abuse.

176.7(2) When the information gathered in the evaluation or assessment tends to corroborate, or the worker is uncertain as to whether it repudiates the allegations of the report, the worker shall immediately continue the evaluation or assessment by making a reasonable effort to ensure the safety of the adult. The worker and the worker's supervisor shall determine whether an immediate threat to the physical safety of the adult is believed to exist.

a. If an immediate threat to the physical safety of the adult is believed to exist, the field worker shall make every reasonable effort to examine the adult, as authorized by 176.6(3), within one hour after receipt of the report and shall take any lawful action necessary or advisable for the protection of the adult.

b. When physical safety of the adult is not endangered, the worker shall make every reasonable effort to examine the adult within 24 hours after receipt of the report.

176.7(3) In the event the information gathered in the evaluation or assessment fails to corroborate the allegation of adult abuse, the worker, with approval of the supervisor, may terminate the evaluation or assessment and submit the report required by subrule 176.6(5).

441—176.8(235B) Immunity from liability for reporters. A person participating in good faith in making a report or cooperating or assisting the department in evaluating or assessing a case of dependent adult abuse has immunity from liability, civil or criminal, which might otherwise be incurred or imposed based upon the act of making the report or giving the assistance. The person has the same immunity with respect to participation in good faith in a judicial proceeding resulting from the report or assistance or relating to the subject matter of the report or assistance.

441—176.9(235B) Registry records. Central registry records shall be kept in the name of the dependent adult and cross-referenced in the name of the caretaker.

441—176.10(235B) Adult abuse information disseminated.

176.10(1) Requests for information. Written requests for adult abuse information by the subject of a report as defined in subrule 176.10(3), paragraph "a," may be submitted to the county office of the department on Form 470-0612, Request for Dependent Adult Abuse Registry Information.

Oral requests for dependent adult abuse information may be made to the county office or the central registry when the person making the request believes that the information is needed immediately and the person is authorized to access the information, pursuant to the requirements of Iowa Code section 235B.7, subsection 2. If a request is made orally by telephone, a written request shall be filed within 72 hours of the oral request using Form 470-0612, Request for Dependent Adult Abuse Registry Information. When an oral request to the county office to obtain dependent adult abuse information is granted by the central registry, the county shall document the approval to the central registry through use of Form 470-0612.

All other requests for information shall be made to the central registry by mail or fax pursuant to the requirements of Iowa Code section 235B.7.

176.10(2) Verification of identity. The county office shall verify the identity of the person making the request on Form 470-0612, Request for Dependent Adult Abuse Registry Information. Upon verification of the identity of the person making the request, the county office shall transmit the request to the central registry. The central registry shall verify the identity of persons making requests for information directly to the central registry by telephone, mail, fax, or in person, on Form 470-0612, Request for Dependent Adult Abuse Registry Information.

176.10(3) Approval of requests. The department shall grant access to dependent adult abuse information as authorized by Iowa Code section 235B.6. Upon approval of any request for dependent adult abuse information authorized by this rule, the department may withhold the name of the person who made the report of dependent adult abuse when the department finds that the disclosure of the person's identity would be detrimental to the person's interest.

176.10(4) Requests concerning applicants for employment and employees of health care programs. A health care program making a request for dependent adult abuse information for the purpose of determining employability, as authorized by Iowa Code section 235B.6, subsection 2, paragraph "e," subparagraphs (6) and (7), and section 135C.33, subsection 6, shall request the information directly from the central registry or obtain the information from the Internet electronic information system maintained by the health facilities division of the department of inspections and appeals.

Requests made directly to the central registry shall be made on Form 470-0612, Request for Dependent Adult Abuse Registry Information.

Health care programs requesting dependent adult abuse background checks on employee applicants and employees by use of the Internet electronic information system shall complete Form 470-3767, Non-Redissemination Agreement. The form shall be signed by the administrator of the health care program and be sent to the central registry before receipt of the information from the department. The administrator shall agree not to redisseminate dependent adult abuse information obtained through the Internet electronic information system, except as authorized in Iowa Code sections 235B.6 and 235B.8.

176.10(5) Dissemination of undetermined reports. Rescinded IAB 8/6/03, effective 7/10/03.

176.10(6) Access to unfounded dependent adult abuse information. Access to unfounded dependent adult abuse information is authorized only to:

- a. Persons identified as subjects of a report, including the dependent adult named in a report as a victim, a guardian of a dependent adult named in a report as a victim, a person named in a report as having abused a dependent adult, or an attorney representing any of the above;
- b. An employee or agency of the department of human services responsible for the evaluation or assessment of a dependent adult abuse report;
- c. Registry or department personnel, when necessary to the performance of their official duties, or a person or agency under contract with the department to carry out official duties and functions of the registry;
- d. The mandatory reporter who reported dependent adult abuse in an individual case;
- e. The long-term care resident advocate, if the victim resides in a long-term care facility or the alleged perpetrator is an employee of a long-term care facility; and
- f. A multidisciplinary team, if the department approves the composition of the team and determines that access to the team is necessary to assist in the evaluation, diagnosis, assessment, and disposition of a dependent adult abuse case.

176.10(7) Requests concerning employees of department facilities. When a request is made by the hiring authority of a department operated facility which provides direct client care and the request is made for the purpose of determining continued employability of a person employed, with or without compensation, by the facility, the information shall be requested directly from the central registry. The information requested shall be disseminated to the personnel office of the department. The personnel office shall redisseminate the information to the hiring authority for the person involved only upon a finding that the information has a direct bearing on employability of the person involved.

When the personnel office determines that the information has no direct bearing on employability, the hiring authority shall be notified that no job-related dependent adult abuse information is available. If the central registry and local office files contain no information, the hiring authority shall be so informed.

176.10(8) Dependent adult abuse information disseminated and redisseminated. Notwithstanding subrule 176.10(1), written requests and oral requests are not required for dependent adult abuse information that is disseminated to an employee of the department of human services, a district court, or the attorney representing the department as authorized by Iowa Code section 235B.6.

176.10(9) Required notification. The department shall notify orally the subject of a report of the results of the evaluation or assessment. The department shall subsequently transmit a written notice to the subject which will include information regarding the results, the confidentiality provisions of Iowa Code sections 235B.6 and 235B.12, and the procedures for correction or expungement and appeal of dependent adult abuse information as provided in Iowa Code section 235B.10.

176.10(10) Mandatory reporter notification. The department shall attempt to notify orally the mandatory reporter who made the report in a dependent adult abuse case of the results of the evaluation or assessment and of the confidentiality provisions of Iowa Code sections 235B.6 and 235B.12. The department shall subsequently transmit a written notice on Form 470-2444, Adult Protective Notification, to the mandatory reporter who made the report. The form shall include information regarding the results of the evaluation or assessment and confidentiality provisions. A copy of the written notice shall be transmitted to the registry and shall be maintained by the registry as provided in Iowa Code section 235B.8.

176.10(11) Subjects informed of abuse history. The department may inform a subject of a dependent adult abuse report of a person's abuse history if the department determines at any time that disclosure is necessary for the protection of the dependent adult. A subject may be informed that a person is listed on the child or dependent adult abuse registry as having a founded abuse report or is listed on the sex offender registry.

441—176.11(235B) Person conducting research. The person in charge of the central registry shall be responsible for determining whether a person requesting dependent adult abuse information is conducting bona fide research. To make this determination, the central registry may require these persons to submit credentials and the research design. If the registry determines that identified information is essential to the research design, the registry shall also determine the method by which written permission is to be secured from the dependent adult or guardians of the dependent adult who could be identified by the information to be researched. Any costs incurred in the dissemination of the information shall be assumed by the researcher. The department will keep a public record of persons conducting research.

441—176.12(235B) Examination of information. Examination of information contained in the central registry can be made at the site of the central registry between the hours of 8 a.m. and 12 p.m. or 1 p.m. and 4 p.m., Monday through Friday, except state authorized holidays.

The person, or that person's attorney, requesting to examine the information in the registry which refers to that person, shall be allowed to inspect the information after providing appropriate identification.

441—176.13(235B) Dependent adult abuse information registry. The department shall create a central abuse registry for dependent adult abuse information. The registry shall collect, maintain, and disseminate dependent adult abuse information as follows:

176.13(1) Founded reports. A report of dependent adult abuse determined to be founded shall be retained and sealed by the registry in accordance with Iowa Code section 235B.9.

176.13(2) Unfounded reports. A report of dependent adult abuse determined to be unfounded shall be expunged one year from the date it is determined to be unfounded, in accordance with Iowa Code section 235B.9, subsection 2.

176.13(3) Undetermined reports. Rescinded IAB 8/6/03, effective 7/10/03.

176.13(4) Assessments. Reports classified as assessments shall not be included in the central registry but shall be maintained in the local office. The central registry shall be notified of the disposition of the assessment report.

a. Self-denial of critical care. Reports involving abuse as a result of the acts or omissions of the dependent adult will be assessments. These reports shall be retained in the dependent adult's case file in the local office for five years and then destroyed.

b. Confirmed, not registered. Reports of dependent adult abuse where physical abuse or denial of critical care committed by a caretaker is confirmed but is determined to be minor, isolated, and unlikely to reoccur shall be assessments. These reports shall be maintained in the local office for five years and

then destroyed unless a subsequent report of dependent adult abuse on the same caretaker is founded. If a subsequent report on the same caretaker is founded within the five-year period, the confirmed, not registered report shall be maintained in the local office for ten years from the date of the subsequent report and then sealed.

441—176.14(235B) Central registry. Rescinded IAB 10/30/91, effective 1/1/92.

441—176.15(235B) Multidisciplinary teams.

176.15(1) Purpose of multidisciplinary teams. The service area shall establish multidisciplinary teams for the purpose of assisting the department in assessment, diagnosis, and disposition of reported dependent adult abuse cases. The disposition of a case may include the provision for treatment recommendations and services.

176.15(2) Execution of team agreement. When the team is established, the service area manager or designee and all team members shall execute an agreement on Form 470-2328, Dependent Adult Abuse Multidisciplinary Team Agreement. This agreement specifies:

a. That the team shall be consulted solely for the purpose of assisting the department in the assessment, diagnosis and treatment of dependent adult abuse cases.

b. That any team member may cause a dependent adult abuse case to be reviewed if approved by the department through use of the process of requesting adult abuse information specified in rule 176.10(235B).

c. That no team members shall disseminate adult abuse information obtained solely through the multidisciplinary team. This shall not preclude dissemination of information as authorized by Iowa Code section 235B.6 when an individual team member has received information as a result of another authorized access provision of the Code.

d. That the department may consider the recommendation of the team in a specific dependent adult abuse case but shall not, in any way, be bound by the recommendations.

e. That any written report or document produced by the team pertaining to an individual case shall be made a part of the file for the case and shall be subject to all confidentiality provisions of Iowa Code sections 235B.6 and 235B.8 and of 441—Chapter 176.

f. That any written records maintained by the team which identify an individual dependent adult abuse case shall be destroyed when the agreement lapses.

g. That consultation team members shall serve without compensation.

h. That any party to the contract may withdraw with or without cause upon the giving of 30 days' notice.

i. The date on which the agreement will expire.

176.15(3) Filing of agreement. Whenever a team is created, a copy of the executed contract shall be filed with the central registry in addition to any other requirement placed upon execution of agreements by the department.

441—176.16(235B) Medical and mental health examinations. In any year in which the legislature appropriates funds, the department shall administer a payment program for mental health or medical health examinations for subjects of dependent adult abuse reports.

176.16(1) Conditions for payment. The following conditions must be met before payment can be made:

a. Local resources to pay these costs must be exhausted.

b. The examination must be scheduled during the evaluation or assessment process.

c. Department staff must be involved in the decision to request the examination.

176.16(2) Payment limits. Payment for mental health examinations shall not exceed \$250. Payment for a complete medical examination shall not exceed \$160.

176.16(3) Billing procedures. Claims for payment shall be submitted to the division of behavioral, developmental, and protective services on Form GAX, General Accounting Expenditure, accompanied by a letter from department staff certifying that the necessary conditions for payment have been met.

441—176.17(235B) Request for correction or expungement. The department of human services is responsible for correction or expungement of reports prepared by department staff. The department of inspections and appeals is responsible for correction or expungement of reports prepared by that department's staff and that determination shall be binding on the registry.

176.17(1) Within six months of the date of the notice of evaluation results, a person may file with the registry a written statement to the effect that the dependent adult abuse information referring to the person is partially or entirely erroneous. The person may also request a correction of that information or of the findings of the report. The registry will record all requests and immediately forward the requests to the division of health facilities, department of inspections and appeals, when the reports were prepared by the department of inspections and appeals. The registry will notify the person requesting a correction that the report has been sent to the department of inspections and appeals.

176.17(2) Unless the designated department corrects the information or findings as requested, the designated department shall provide the person with an opportunity for a hearing as provided by 441—Chapter 7 to correct the information or the findings. The department may defer the hearing until the conclusion of a pending district court case relating to the information or findings.

These rules are intended to implement Iowa Code chapter 235B.

CHAPTER 177
IN-HOME HEALTH RELATED CARE
[Prior to 7/1/83, Social Services[770] Ch 148]
[Previously appeared as Ch 148—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services [498]]

441—177.1(249) In-home health related care. In-home health related care is a program of nursing care in an individual's own home to provide personal services to an individual because such individual's state of physical or mental health prevents independent self-care.

441—177.2(249) Own home. Own home means an individual's house, apartment, or other living arrangement intended for single or family residential use.

441—177.3(249) Service criteria. The client shall require health care services that would require the supervision of a professional registered nurse working under the certification of a physician.

177.3(1) Skilled services may include but not be limited to:

- a. Gavage feedings of individuals unable to eat solid foods.
- b. Intravenous therapy administered only by a registered nurse.
- c. Intramuscular injections required more than once or twice a week, excluding diabetes.
- d. Catheterizations, continuing care of indwelling catheters with supervision of irrigations and changing of Foley catheter when required.
- e. Inhalation therapy.
- f. Care of decubiti and other ulcerated areas, noting and reporting to physician.
- g. Rehabilitation services including, but not limited to: bowel and bladder training, range of motion exercises, ambulation training, restorative nursing services, reteaching the activity of daily living, respiratory care and breathing programs, reality orientation, reminiscing therapy, remotivation and behavior modification.
- h. Tracheotomy care.
- i. Colostomy care until the individual is capable of maintaining the colostomy personally.
- j. Care of medical conditions out of control which includes brittle diabetes and terminal conditions.
- k. Postsurgical nursing care, but only for short time periods, and primarily for individuals with complications following surgery, or with the need for frequent dressing changes.
- l. Monitoring medications needed for close supervision of medications because of fluctuating physical or psychological conditions, i.e., hypertensives, digitalis preparations, narcotics.
- m. Diets which are therapeutic and require evaluation at frequent intervals.
- n. Vital signs which is the recording and reporting of change in vital signs to the attending physician.

177.3(2) Personal care services may include but not be limited to:

- a. Supervision on a 24-hour basis for physical or emotional needs.
- b. Helping client with bath, shampoo, oral hygiene.
- c. Helping client with toileting.
- d. Helping client in and out of bed and with ambulation.
- e. Helping client to reestablish activities of daily living.
- f. Assisting with oral medications ordinarily self-administered and ordered by the physician.
- g. Performing incidental household services which are essential to the client's health care at home and are necessary to prevent or postpone institutionalization.

441—177.4(249) Eligibility.

177.4(1) Eligible individual.

- a. The individual shall be eligible for supplemental security income in every respect except for income.

b. The physician's certification shall include a statement of the specific health care services and that the services can be provided in the individual's own home. The certification shall be given on Form 470-0673, Physician's Report, or on a similar plan of care form presently used by public health agencies.

c. The individual shall live in the individual's own home.

d. The client shall require and be receiving qualified health care services. Qualified health care services are health care services supervised by a registered nurse and approved by a physician.

177.4(2) Relationship to other programs. In-home health related care shall be provided only when other existing programs cannot meet the client's need.

177.4(3) Maximum costs. The maximum cost of service shall be \$480.55. The provider shall accept the payment made and shall make no additional charges to the recipient or others.

177.4(4) Service plan. A complete service plan shall be prepared which includes the services needed, the plan for providing these services, and the health care plan defined in rule 177.6(249).

177.4(5) Certification procedure. The approval by the area office of the department of human services of the case plan shall constitute certification and approval for payment.

177.4(6) Temporary absence from home. The client will remain eligible and payment will be made for services for a period not to exceed 15 days in any calendar month when the client is absent from the home for a temporary period. Payment will not be authorized for over 15 days for any continuous absence whether or not the absence extends into a succeeding month or months.

177.4(7) Income for adults. The countable income of the individual and spouse living in the home shall be limited to \$480.55 per month if one needs care or \$961.10 if both need care, after the following disregards from gross income:

a. The amount of the basic supplemental security income standard for an individual or a couple, as applicable.

b. When income is earned, \$65.00 plus one-half of any remaining income.

c. The amount of the supplemental security income standard for a dependent plus any established unmet medical needs, for each dependent living in the home. Any income of the dependent shall be applied to the dependent's needs before making this disregard.

d. The amount of the established medical needs of the ineligible spouse which are not otherwise met.

e. The amount of the established medical needs of the applicant or recipient which are not otherwise met and would not be met if the individual were eligible for the medical assistance program.

f. Rescinded, effective 7/1/84.

177.4(8) Income for children.

a. All income received by the parents in the home shall be deemed to the child with the following disregards:

(1) The amount of the basic supplemental security income standard for an individual when there is one parent in the home or for a couple when there are two parents in the home.

(2) The amount of the basic supplemental security income standard for a dependent for each ineligible child in the home.

(3) The amount of the unmet medical needs of the parents and ineligible dependents.

(4) When all income is earned, an additional basic supplemental security income standard for an individual in a one-parent home or for a couple in a two-parent home.

(5) When the income is both earned and unearned, \$65.00 plus one-half of the remainder of the earned income.

b. The countable income of the child shall be limited to \$480.55 per month after the following disregards from gross income:

(1) The amount of the basic supplemental security income standard for an individual.

(2) The amount of the established medical needs of the child which are not otherwise met and would not be met if the child were eligible for the medical assistance program.

(3) One-third of the child support payments received from an absent parent.

c. Rescinded, effective 7/1/84.

177.4(9) Payment. The client or the person legally designated to handle the client's finances shall be the sole payee for payments made under the program and shall be responsible for making payment to the provider except when the client payee becomes incapacitated or dies while receiving service.

a. The department shall have the authority to issue one payment to a provider on behalf of a client payee who becomes incapacitated or dies while receiving service.

b. When continuation of an incapacitated client payee in the program is appropriate, the department shall assist the client and the client's family to legally designate a person to handle the client's finances. Guardians, conservators, protective or representative payees, or persons holding power of attorney are considered to be legally designated.

c. Payment for the program shall be approved effective as of the date of application or the date all eligibility requirements are met and qualified health care services are provided, whichever is later, notwithstanding 42 U.S.C. 1382(c)(7).

177.4(10) Application. Application for in-home health-related care shall be made on Form 470-2927 or 470-2927(S), Health Services Application. An eligibility determination shall be completed within 30 days from the date of the application, unless one or more of the following conditions exist:

a. An application has been filed and is pending for federal supplemental security income benefits.

b. The application is pending because the department has not received information, which is beyond the control of the client or the department.

c. The application is pending due to the disability determination process performed through the department.

d. The application is pending because Form 470-0636, Provider Agreement, has not been completed and completion is beyond control of the client. When Form 470-0636 cannot be completed due to the client's failure to locate a provider, applications shall not be held pending beyond 60 days from the date of application.

441—177.5(249) Providers of health care services.

177.5(1) Age. The provider shall be at least 18 years of age.

177.5(2) Physician's report. The provider shall obtain a physician's report at the time service is initiated and annually thereafter. The report shall be on Form 470-0672, Provider Health Assessment.

177.5(3) Qualifications. The provider shall be qualified by training and experience to carry out the health care plan as specified in rule 177.4(4).

177.5(4) Relative. The provider may be related to the client, so long as the provider is not a member of the family as defined in rule 441—130.1(234).

441—177.6(249) Health care plan. The nurse shall complete the health care plan with the physician's approval. The health care plan shall include the specific types of services required, the method of providing those services, and the expected duration of services.

177.6(1) Transfer from medical facility. When the client is being transferred from a medical hospital or long-term care facility, the service worker shall obtain a transfer document describing the client's current care plan, to be provided to the nurse supervising the in-home care plan.

177.6(2) Medical records.

a. Medical records shall include, whenever appropriate, transfer forms, physician's certification and orders, interdisciplinary case plan, interdisciplinary progress notes, drug administration records, treatment records, and incident reports. The nurse shall be responsible for ensuring that record requirements are met.

b. Medical records shall be located in the nurse's case file, with a copy of the interdisciplinary plan of care and physician's plan of service in the service worker's file, and all other records available to the service worker. Upon termination of the in-home care plan, the records shall be maintained in the county office of the department of human services, or in the office of the public health nurse and available to the service worker, for five years or until completion of an audit.

c. The client or legal representative shall have the right to view the client's medical records.

177.6(3) Review. The continuing need for in-home health care services shall be reviewed:

a. At a minimum of every 60 days by the physician, including a written recertification of continuing appropriateness of the plan;

b. At a minimum of every three months by the service worker, including a review of the total care plan; and

c. At a minimum of every 60 days by the nurse who shall review the nursing plan.

More frequent reviews may be required by the physician, the service worker, or the nurse.

177.6(4) Annual physical. The client shall obtain a physical examination report annually and shall be under the regular supervision of a physician.

441—177.7(249) Client participation.

177.7(1) All income remaining after the disregards in 177.4(7) and 177.4(8) shall be considered income available for services and shall be used for service costs before payment for in-home health care begins.

177.7(2) First month. When the first month of service is less than a full month, there is no client participation for that month. Payment will be made for the actual days of service provided according to the agreed-upon rate.

441—177.8(249) Determination of reasonable charges. Payment will be made only for reasonable charges for in-home health care services as determined by the service worker. Reasonableness shall be determined by:

177.8(1) Community standards. The prevailing community standards for cost of care for similar services.

177.8(2) Services at no charge. The availability of service providers at no cost to the department.

441—177.9(249) Written agreements.

177.9(1) Independent contractor. The provider shall be an independent contractor and shall in no sense be an agent, employee or servant of the state of Iowa, the Iowa department of human services, any of its employees, or of its clients.

177.9(2) Liability coverage. All professional health care providers shall have adequate liability coverage consistent with their responsibilities, as the department of human services assumes no responsibility for, or liability for, individuals providing care.

177.9(3) Provider agreement. The client and the provider shall enter into an agreement, using Form 470-0636, Provider Agreement, prior to the provision of service. Any reduction to the state supplemental assistance program shall be applied to the maximum amount paid by the department of human services as stated in the Provider Agreement by using Form 470-1999, Amendment to Provider Agreement.

441—177.10(249) Emergency services. Written instructions for dealing with emergency situations shall be completed by the nurse and maintained in the client's home and in the county department of human services office. The instructions shall include:

177.10(1) Persons to notify. The name and telephone number of the client's physician, the nurse, responsible family members or other significant persons, and the service worker.

177.10(2) Hospital. Information as to which hospital to utilize.

177.10(3) Ambulance. Information as to which ambulance service or other emergency transportation to utilize.

441—177.11(249) Termination. Termination of in-home health related care shall occur under the following conditions.

177.11(1) Request. Upon the request of the client or legal representative. When termination of the program would result in an individual being unable to protect the individual's own interests, arrangements for guardianship, commitment, or protective placements shall be provided.

177.11(2) Care unnecessary. When the client becomes sufficiently self-sustaining to remain in the client's own home with services that can be provided by existing community agencies as determined by the service worker.

177.11(3) *Additional care necessary.* When the physical or mental condition of the client requires more care than can be provided in the client's own home as determined by the service worker.

177.11(4) *Excessive costs.* When the cost of care exceeds the maximum established in 177.4(3).

177.11(5) *Other services utilized.* When the service worker determines that other services can be utilized to better meet the client's needs.

177.11(6) *Terms of provider agreement not met.* When it has been determined by the service worker that the terms of the provider agreement have not been met by the client or the provider, the state supplementary assistance payment may be terminated.

These rules are intended to implement Iowa Code section 249.3(2) "a"(2).

CHAPTER 182
FAMILY-CENTERED SERVICES
[Prior to 2/11/87, Human Services[498]]

PREAMBLE

Family-centered services are designed to treat child abuse, neglect, and delinquency; to promote the safety, permanency, and well-being of children who have been abused or neglected; to prevent out-of-home placements of children; to reunite families whose children have been placed outside the home; or to help children who cannot return to their own homes work toward achieving another planned permanent living arrangement.

The family-centered service program recognizes the wide variety of family needs and allows for varying scope, frequency, and intensity of services to provide the least restrictive response to each child and family receiving services. Service approaches are designed in collaboration with families, build on existing strengths of children and families, and are tailored to meet the identified concerns of families and children.

This chapter defines and structures supportive services in the family-centered service program. These rules set the eligibility criteria, application and approval procedures, requirements for service provision, reimbursement methodology, provider qualifications, and service termination and appeal procedures for the program.

441—182.1(234) Definitions.

“*Case permanency plan*” means the written service plan document. Department case permanency plans shall be developed pursuant to rule 441—130.7(234).

“*Child*” means a person under 18 years of age.

“*Department*” means the Iowa department of human services.

“*Department worker*” means the worker who is responsible for opening a service case.

“*Family members*,” for purposes of child welfare service delivery, may include the following:

1. The natural or adoptive parents, stepparents, and children who reside in the same household.
2. A child who lives with an adult related to the child within the fourth degree of consanguinity and the adult relatives within the fourth degree of consanguinity in the child’s household who are responsible for the child’s supervision. Relatives within the fourth degree of consanguinity include: full or half siblings, aunts, uncles, great-aunts, great-uncles, nieces, great-nieces, nephews, great-nephews, grandparents, great-grandparents, great-great-grandparents, and first cousins.
3. A child who lives alone or resides with a person or persons not legally responsible for the child’s support.

“*Family team*” means people identified by the child or family as collectively possessing the technical skills, knowledge of the family, authority, and access to resources necessary to organize effective services that build on the strengths and meet the needs of the child or family.

“*Family team meeting*” means a gathering of family members and extended family, friends, providers, the department worker, community professionals, and other interested people who plan for the safety, permanency, and well-being of a child or family through development and review of an individualized case permanency plan. Family team meetings are intended to enhance the core casework functions of family engagement, assessment, service planning, monitoring, and coordination.

“*Provider*” means any natural person, company, firm, association, or other legal entity under contract with the department pursuant to 11—Chapters 106 and 107 or 441—Chapters 150 or 152 to provide the services described in this chapter.

“*Referral worker*” means the department worker or juvenile court officer who is responsible for providing case management, including:

1. Assessing and identifying individual and family strengths and needs.
2. Developing a case permanency plan to provide appropriate supports and services.
3. Implementing the case permanency plan.

4. Coordinating and monitoring the provision of services.
5. Evaluating client progress and the case permanency plan to determine continued need for services.

“*Service authorization*” means the process of service need determination and authorization of scope, amount, and duration of services.

“*Supportive services*” in the family-centered program means the following service components:

1. Community resource procurement.
2. Family team meeting facilitation.
3. Flexible family support fund.
4. Parental counseling and education.
5. Relative home studies and home study updates.
6. Supervision.

“*Treatment plan*” means a written, goal-directed plan of service developed for a child and family by the provider.

441—182.2(234) Available services. Family-centered services use a flexible and comprehensive approach to address the needs of individual family members within the context of the entire family. Services are adapted to the individual needs of children and families in terms of scope, intensity, and duration and are intended to improve the child’s safety, permanency, and well-being. The department may approve eligible children and families for one or more of the following service components:

182.2(1) Supervision. Supervision services are activities undertaken to provide the structured monitoring and behavioral oversight needed by a child or the child’s family to achieve or maintain the child’s safety, permanency, and well-being.

a. Service activities may include the following:

- (1) Behavioral monitoring;
- (2) Inspection and monitoring of the home environment of a child’s parent or other relative to evaluate the home’s safety and suitability;
- (3) Oversight of a family’s participation in services;
- (4) Monitoring of a child’s ability to adjust within the community;
- (5) Guidance for family members on how to improve their adjustment;
- (6) Monitoring of a child’s or parent’s behavior during sibling or parent-child visits; and
- (7) Monitoring of a child’s behavior during transportation to and from juvenile court hearings, to and from sibling visits, or to and from parent-child visits, if specifically requested by the child’s worker on Form 470-3055, Referral and Authorization for Child Welfare Services, and approved by the service area manager or designee.

b. Supervision services may include a combination of:

- (1) Direct contact with the child or an adult family member responsible for the child; and
- (2) Indirect behavioral monitoring through contacts by telephone with the child or adult family members who have caretaking responsibility for the child. With the approval of the referring worker, telephone contacts may be used to monitor the child’s whereabouts and adjustment or to respond to family crises. Telephone contacts are limited to 60 minutes per calendar month of service.

182.2(2) Family team meeting facilitation. Family team meeting facilitation includes activities undertaken to conduct a family team meeting for a family with a child welfare service case. A person who meets department requirements to be an approved facilitator shall provide the service. Expected activities include:

- a.* Responding to a referral for facilitation;
- b.* Working with the family and others to identify participants in the family team meeting and prepare them for the meeting;
- c.* Arranging the meeting location;
- d.* Sending meeting invitations;
- e.* Conducting the family team meeting;
- f.* Recording key issues, discussion topics, and decisions developed during the meeting; and

g. Timely preparation and submission to the department of postmeeting notes that can be used in the development of the case permanency plan, using Form 470-4126, Family Team Meeting Facilitation Notes.

182.2(3) *Rehabilitative treatment.* Rescinded IAB 4/11/07, effective 7/1/07.

182.2(4) *Nonrehabilitative treatment.* Rescinded IAB 4/11/07, effective 7/1/07.

182.2(5) *Parental counseling and education.* Parental counseling and education services are directed to addressing behavioral and emotional issues of a child's parent or of the adult relative with whom a child resides that are identified by the department worker as presenting significant barriers to the safety, stability, permanency, or well-being of the child.

a. Services represent a blend of counseling and educational intervention techniques. Service activities may include providing instruction or education on appropriate parenting, family structure, social relationships, and household management techniques to enhance a child's safety, stability, permanency, and well-being.

b. Services may be provided in an individual or group setting.

c. Unless a similar rehabilitative service has been authorized under rule 441—185.3(234), services may include:

(1) Performing a psychosocial evaluation of the family's strengths and needs as they relate to the child's safety, permanency and well-being; and

(2) Identifying resources available to promote and support the family's ability to maintain the child's safety, permanency and well-being.

182.2(6) *Relative home study and home study update.* Rescinded IAB 6/6/07, effective 10/1/07.

182.2(7) *Community resource procurement.* Community resource procurement services are focused on arranging or coordinating the delivery of community supports or tangible goods identified as necessary for a family to achieve the outcomes of the family's case permanency plan. At the department's direction, the service provider undertakes activities to identify and secure tangible goods, community resources, or informal supports for the child and family.

182.2(8) *Flexible family support fund.* Rescinded IAB 6/6/07, effective 10/1/07.

441—182.3(234) Eligibility for services. Effective October 1, 2007, new referrals for family-centered services shall be evaluated, processed, and served under 441—Chapter 172. No new applications or referrals shall be accepted for services under 441—Chapter 182.

182.3(1) *Transition.* The following procedures apply to children and families from the Council Bluffs service area who are approved to receive family-centered services as described in this chapter before January 1, 2008, and who require services after January 1, 2008:

a. The department shall make every effort to transition each case to family-centered safety plan services or family safety, risk, and permanency services as described in 441—Chapter 172.

b. If the case cannot be transferred to a contractor for services under 441—Chapter 172 by January 1, 2008, the department worker may request continued authorization of services under 441—Chapter 182 for a limited period until the case can be transferred.

c. The department worker may also request continued authorization of services under 441—Chapter 182 if:

(1) The child and family are receiving services from a provider that will not be a contractor or subcontractor for services under 441—Chapter 172;

(2) The child and family have a strong and positive relationship with that provider; and

(3) The department worker expects that the child's and family's need for services will end by March 31, 2008.

d. Services that may be continued include supervision, parental counseling and education, community resource procurement, and family team meeting facilitation only.

e. The service area manager or the manager's designee must authorize any continued services by January 1, 2008. The authorization period shall not extend beyond March 31, 2008.

f. Any continued need for family-centered services after March 31, 2008, shall be assessed and served in accordance with the procedures in 441—Chapter 172.

182.3(2) *Need for service.* The department has approved the child's and family's need for service in accordance with rule 441—182.4(234).

182.3(3) *Income.* Children may be eligible for service components of the family-centered services program without regard to income and at no cost to themselves when other eligibility requirements are met.

182.3(4) *Limits on eligibility.*

a. Children placed in a psychiatric medical institution for children are not eligible for family-centered services.

b. Children placed in either emergency shelter care or foster group care are not eligible for family-centered supervision services. The shelter care or group care setting is responsible for meeting the supervision needs of these children.

c. The amount and duration of services to children placed in emergency shelter care are limited as follows:

(1) Children in shelter care may receive a maximum of 20 service units of parental counseling and education services for purposes of family reunification.

(2) The maximum length of time that parental counseling and education services may be provided to a child placed in shelter care is 30 days from the start date of these services, without regard to the length of the child's shelter care stay.

441—182.4(234) *Approval and referral for services.* The referral worker shall assess a child's eligibility for services in accordance with rule 441—182.3(234) and shall determine if services under the family-centered program are necessary to help achieve the goals and outcomes of the case permanency plan. Department case permanency plan development, provision of social casework, and activities for the delivery of family-centered services shall adhere to the provisions of rules 441—130.6(234) and 441—130.7(234).

182.4(1) *Application for services.* Application for family-centered services shall be made according to rule 441—130.2(234).

182.4(2) *Service plan development.* The department caseworker shall, whenever appropriate, use a family team meeting to design the most effective and responsive service plan for the child and family.

182.4(3) *Supervisory approval.*

a. Cases managed by department. Once the department worker has determined there is a need for family-centered services, the worker shall request supervisory approval of any services to be provided to the child or family.

b. Rescinded IAB 4/11/07, effective 7/1/07.

182.4(4) *Referral.* The referral worker shall assist the family in selecting an appropriate provider and shall notify the provider that family-centered services are approved.

a. The referral worker shall complete Form 470-3055, Referral and Authorization for Child Welfare Services, indicating:

(1) The amount (number of units) of services approved. For the flexible family support fund, the referral shall include sufficient detail to describe specific items and the maximum funding amounts that the provider is approved to purchase and obtain for the client under the fund.

(2) The duration of services approved. The duration of services approved shall not exceed six months, except for the flexible family support fund, which shall not extend beyond four consecutive months.

b. The referral worker shall forward a copy of Form 470-3055 to the provider, and a copy to the department when the referral worker is with juvenile court services, before services are provided to the child and family.

182.4(5) *Case permanency plan.* Approved family-centered services shall be specified in the case permanency plan for the child or family. Department case permanency plan development shall adhere to the provisions of rule 441—130.7(234).

a. The current department case permanency plan, if one is available at the time of referral, shall be transmitted to any provider to which the family is referred.

(1) Unless the need for immediate services dictates otherwise, the case permanency plan shall be submitted before the delivery of any services.

(2) For referrals to provide family team meeting facilitation services, a case permanency plan is not required at the time of referral. However, the department worker shall provide the facilitator with as much information about the family as possible.

b. When a case permanency plan is not available to the provider before initial service provision, the referral worker shall provide referral information orally, electronically, or in writing. The referral information shall:

(1) Include a description of the child's or family's needs, the goals for the service, and the services being requested.

(2) Be confirmed or amended through the transmission of a case permanency plan to the provider no later than 30 days after the date of the family's referral for services.

182.4(6) Review. The department worker shall review the need for family-centered services no less frequently than every six months from the date of initial family-centered service provision.

182.4(7) Time limits for rehabilitative and nonrehabilitative treatment services. Rescinded IAB 4/11/07, effective 7/1/07.

441—182.5(234) Service provider qualifications. To be considered for service provision, all providers must have a contract with the department as specified in subrule 182.5(1). To obtain a contract, a provider must meet the requirements applicable to each service to be provided, as stated in subrules 182.5(2) through 182.5(6).

182.5(1) Contract. All providers shall have a current contract with the department that includes the specific service component to be purchased, as follows:

a. A contract for the delivery of supportive services pursuant to 441—Chapter 152. A provider with a contract for any supportive service shall amend that contract to include any family-centered service component the provider wishes to offer. A contract pursuant to 441—Chapter 152 is the only contracting method available to providers of the following family-centered service components:

- (1) Supervision.
- (2) Parental counseling and education.

b. A contract for the purchase of social services pursuant to 441—Chapter 150. Providers that have a purchase of social services contract and do not have a rehabilitative treatment and supportive service contract shall amend the purchase of social service contract to include any of the following service components that they wish to offer:

- (1) Family team meeting facilitation.
- (2) Community resource procurement.

c. An individual service contract pursuant to 11—Chapters 106 and 107. The individual service contract is available only to individuals (or their employing entities) that do not have a contract pursuant to 441—Chapter 152 or 150 but wish to offer one or more of the following service components:

- (1) Family team meeting facilitation.
- (2) Community resource procurement.

182.5(2) Supervision.

a. Persons providing supervision services to department clients shall meet the following minimum education and experience requirements:

(1) The person shall have two years of college coursework in a program with a social work concentration or shall have satisfactorily completed a relevant, concentrated, certified curriculum, such as a human services specialist program as offered in an Iowa area community college; or

(2) The person shall have the equivalent of two years of full-time work experience involving direct contact with people in overcoming their social, emotional, or behavioral problems. College coursework with an emphasis in the social or behavioral sciences, education, or child development may be substituted for the required experience, based on 30 semester hours being equivalent to one year.

b. Provider service management activities for department clients receiving supervision services shall be conducted by persons who meet or are under the direct supervision of persons who meet the

minimum education and experience requirements for skill development services as specified in rule 441—185.10(234).

182.5(3) *Family team meeting facilitation.* Providers delivering family team meeting facilitation services under this chapter shall:

- a. Have completed at least 18 hours of department-approved family team meeting facilitator training to meet department standards for approved facilitators;
- b. Be approved by the department as a family team meeting facilitator and be currently listed on the department-approved facilitator list; and
- c. Maintain written documentation that facilitator staff have fulfilled all necessary requirements to be department-approved facilitators.

182.5(4) *Parental counseling and education.*

- a. Rescinded IAB 4/11/07, effective 7/1/07.
- b. Persons delivering parental counseling and education shall meet the minimum education and experience requirements for therapy and counseling services as specified in rule 441—185.10(234).
- c. Rescinded IAB 4/11/07, effective 7/1/07.

182.5(5) *Relative home study.* Rescinded IAB 6/6/07, effective 10/1/07.

182.5(6) *Community resource procurement.* Persons delivering community resource procurement services shall have, at a minimum, a high school diploma or a high school equivalency diploma (GED).

441—182.6(234) Requirements for service delivery. All providers of family-centered services shall meet the referral requirements in subrule 182.6(1), the documentation requirements in rule 441—182.7(234), and the service delivery requirements specific to the particular service, as specified in subrules 182.6(4) through 182.6(9).

182.6(1) *Referral.* All providers of family-centered services shall:

- a. Receive written approval for these services from the referral worker on Form 470-3055, Referral and Authorization for Child Welfare Services, before providing services; and
- b. Receive approval from the referral worker before increasing the amount or duration of these services beyond what was previously authorized.

182.6(2) *Service location.* The department worker shall ensure that family-centered services are delivered in whatever locations are determined to be appropriate to ensure that reasonable efforts are being made to meet the child's and family's needs. The department worker shall consult with the family and providers throughout the period of service delivery to ensure that the service delivery locations are meeting needs.

182.6(3) *Service management activities.* Providers of supervision or parental counseling and education components shall undertake nonbillable activities to structure and facilitate the delivery of the service they are providing in response to the directions and goals of the case permanency plan. These activities shall include the following:

- a. Intake activities to collect information about the family necessary to begin service delivery.
- b. Assessment activities to review all available information on the family to identify the strengths and resources of the family and its individual members as well as obstacles impeding the family. Strengths, resources, and obstacles shall be analyzed with the family throughout the service delivery period to facilitate the service provider's response to the case permanency plan directions and goals.
- c. Planning activities to develop or revise a written service plan in collaboration with the family. The written service plan shall reflect the assessment findings and describe the service provider's implementation of the directions in the case permanency plan.
- d. Implementation activities to facilitate and deliver the services identified in the written service plan. These activities include documentation of service provision and the family's progress toward meeting the identified goals and objectives.
- e. Termination activities to review information with the family before the discontinuation of one or more services. These activities shall result in a written summary of service delivery and service outcome.

182.6(4) *Supervision.* Providers of family-centered supervision services shall:

a. Provide supervision services to the child referred by the department worker or juvenile court officer.

(1) Supervision services may be provided as the only service to a child or in combination with other department or community services.

(2) In order for indirect behavioral monitoring contacts to be provided, indirect contacts must be included on Form 470-3055, Referral and Authorization for Child Welfare Services, and approved in the case permanency plan.

(3) Service management activities as described in subrule 182.6(3) shall be provided as part of service delivery.

b. Maintain communication with the referral worker throughout the service delivery period. The provider shall promptly notify the referral worker of any protective or safety concerns about the child or family. Upon request, the provider shall submit to the referral worker a written summary of concerns based on observations about the child and family situation made during service delivery.

c. Document service delivery in the child's individual treatment record in accordance with the requirements of this subrule, 441—subrule 152.2(16), and rule 441—182.7(234).

182.6(5) Family team meeting facilitation. Providers of family team meeting facilitation services shall:

a. Deliver family team meeting facilitator services that meet the requirements as outlined in subrule 182.2(2). The provider shall ensure to the extent possible the continuity of facilitators for subsequent family team meetings involving the child and family.

b. Within seven calendar days from the delivery of facilitation services, provide the referral worker with an electronic copy of information needed for applicable sections of the case permanency plan, as specified in Form 470-4126, Family Team Meeting Facilitation Notes. These sections shall include, at a minimum, the following:

- (1) The date and location of the meeting;
- (2) A list of persons attending the meeting;
- (3) Information identifying the family;
- (4) Information on family functioning areas;
- (5) Information and recommended goals and action steps on the family functioning domains of the home environment, parental capabilities, family interactions, family safety, and child well-being.

c. Maintain a copy of Form 470-4126, Family Team Meeting Facilitation Notes, and the date that these notes were provided to the department referral worker in the child's individual treatment record.

182.6(6) Parental counseling and education. Providers of parental counseling and education shall:

a. Develop a treatment plan in accordance with 441—subrules 185.10(4) and 185.10(5).

b. Deliver services that reflect the protective treatment needs of the child and the child's parents or adult family members, including intervention to treat abuse or neglect, prevent the placement of the child outside the family home, promote or maintain family reunification, or help achieve another planned permanent living arrangement for the child.

(1) Parental counseling and education shall be directed toward issues that help the parent or adult family members address the child's safety, permanency, and well-being needs more effectively.

(2) Rescinded IAB 4/11/07, effective 7/1/07.

(3) The services provided shall include service management activities as described in subrule 182.6(3).

c. Document service delivery in the child's individual treatment record in accordance with the requirements of this subrule, 441—subrules 152.2(16) and 185.10(6), and rule 441—182.7(234).

182.6(7) Relative home study. Rescinded IAB 6/6/07, effective 10/1/07.

182.6(8) Community resource procurement. Providers of community resource procurement services shall:

a. Maintain telephonic, electronic, or in-person communication with the department referral worker as necessary during the period of service delivery to best coordinate the securing of necessary supports for children and families. Time spent maintaining this communication shall be billable service activity.

b. Maintain a record that supports billings submitted to the department. This record shall contain Form 470-3055, Referral and Authorization for Child Welfare Services, which authorized the service and shall identify:

- (1) The name of the person who provided the service;
- (2) The name of the client;
- (3) The date and beginning and ending time of all billed service activity;
- (4) The type of activity (e.g., coordinating with referral worker, researching prices, obtaining bids if required, shopping for items);
- (5) The type of contact (e.g., telephone, computer search, driving time, face-to-face); and
- (6) The items sought or procured.

182.6(9) *Flexible family support fund.* Rescinded IAB 6/6/07, effective 10/1/07.

441—182.7(234) Provider service record requirements.

182.7(1) *Treatment plans.* The provider shall develop a treatment plan for each child receiving services, except as specified below. The treatment plan shall comply with 441—subrules 185.10(4) and 185.10(5). Only one treatment plan is needed for all services the provider is contracted to provide on behalf of the child.

a. Provider treatment plans are not required for:

- (1) Family team meeting facilitation.
- (2) Community resource procurement.

b. Provider treatment plans are not required for supervision if supervision is the only service the provider is delivering to the child or family. A treatment plan is required for supervision services when delivered in combination with other services for which a treatment plan is required.

182.7(2) *Progress reports.* For family-centered supervision and parental counseling and education, providers shall complete progress reports that comply with 441—paragraph 185.10(6) “*f.*” Provider progress reports are not required for family team meeting facilitation or community resource procurement.

182.7(3) *Discharge summary.* For family-centered supervision and parental counseling and education, providers shall prepare a written report for the referral worker in accordance with 441—paragraph 185.10(6) “*e.*” within 30 days of the termination of services. Discharge summaries are not required for family team meeting facilitation or community resource procurement.

182.7(4) *Provider individual client case records.* Providers shall maintain a confidential individual record for each individual or family receiving family-centered services for a period of five years after terminating services to the client. The record shall include the following:

a. The case permanency plan if supplied by the referral worker, or written documentation to the referral worker requesting a copy of the case permanency plan.

b. Form 470-3055, Referral and Authorization for Child Welfare Services, from the referral worker.

c. Any treatment plans, treatment plan reviews, progress reports, additional reports requested by the referral worker, and discharge summaries developed by the provider.

d. For family team meeting facilitation, a copy of Form 470-4126, Family Team Meeting Facilitation Notes, submitted to the department worker.

e. and *f.* Rescinded IAB 6/6/07, effective 10/1/07.

g. For community resource procurement, the documentation described in paragraph 182.6(8) “*b.*”

h. For parental counseling and education and supervision, documentation to substantiate each unit of service billed to the department. This documentation shall include:

- (1) A description of the specific service rendered;
- (2) Clear identification of the person or persons who rendered the service;
- (3) Identification of the person or persons who received the service;
- (4) The dates and amount of time service was rendered; and
- (5) The type of contact (face-to-face or by telephone).

i. Any correspondence with the referral worker regarding changes in services or requests for additional services.

441—182.8(234) Unit of service and service unit rates.

182.8(1) Billable units. All members of a family shall collectively be considered one recipient of any unit of family-centered services. The billable units of service for family-centered supportive service components shall be as follows:

a. For supervision:

(1) One-half hour of direct face-to-face contact between the service provider and the family or one or more of its members constitutes one unit of service.

(2) One-half hour of indirect monitoring through contacts by telephone with the child or a caretaking adult family member constitutes one unit of service. Indirect monitoring is billable only when specifically authorized by the referral worker.

(3) Monthly cumulative time for both direct and indirect services shall be totaled and rounded up or down to the nearest whole unit.

b. For family team meeting facilitation, a facilitated family team meeting including all premeeting preparation, meeting place arrangement, service management activities, meeting facilitation activities, postmeeting note preparation and timely submission of an acceptably completed Form 470-4126, Family Team Meeting Facilitation Notes, constitutes one unit of service.

c. Rescinded IAB 4/11/07, effective 7/1/07.

d. For parental counseling and education:

(1) One-half hour of direct face-to-face contact between the service provider and either or both of the parents or a caretaking adult family member constitutes one unit of service.

(2) Monthly cumulative time shall be totaled and rounded up or down to the nearest whole unit.

e. Rescinded IAB 6/6/07, effective 10/1/07.

f. For community resource procurement:

(1) One-half hour of service activity on behalf of the child or child's family, either through direct contact with the family or through activities carried out in person or by telephone or electronic means, constitutes one unit of service.

(2) Monthly cumulative time shall be totaled and rounded up or down to the nearest whole unit.

182.8(2) Payment rates.

a. Unit rates for supervision shall be established in accordance with 441—Chapter 185, Division VI.

b. Unit rates for the following services shall be established in accordance with 441—subrule 185.112(14):

(1) Family team meeting facilitation.

(2) Parental counseling and education.

(3) Community resource procurement.

c. Rescinded IAB 6/6/07, effective 10/1/07.

182.8(3) Indirect costs. Expenses of transporting clients, service management activities, and other administrative functions shall be allowable indirect costs for parental counseling and education, community resource procurement, and supervision services, subject to the restrictions set forth in 441—Chapters 152 and 185. Such costs and activities are not directly billable costs or activities.

182.8(4) Group services. When more than one family receives services in a group setting, all members of each family participating in the group service activity are to be considered as one participant for billing purposes. Contracts shall specify a unit rate for group services separate from other services described in the contract.

182.8(5) Team approach to service delivery. When two or more individuals from a service provider agency jointly deliver a unit of supervision services, billings for that unit of service shall be reimbursable in an amount equal to the cost of two or more units of service if the following criteria are met:

a. The case permanency plan requests a team approach to supervision service delivery and specifies the number of individuals who will be working together on the team, and the provider's contract identifies the service provider's ability to deliver such a team approach.

b. The specific number of provider staff requested in the case permanency plan are physically present to deliver services to the family, and these same individuals undertake the service management activities in relation to service provision.

441—182.9(234) Termination and adverse service actions. Services shall be denied, terminated, or reduced and appropriate notice given the client as specified in rule 441—130.5(234) unless otherwise provided for in this chapter. Services shall be terminated no later than the end of the service period approved by the department in Form 470-3055, Referral and Authorization for Child Welfare Services.

441—182.10(234) Appeals.

182.10(1) Decisions concerning family-centered services made by the department or its designee that adversely affect clients may be appealed pursuant to 441—Chapter 7.

182.10(2) Decisions made by the department that adversely affect service providers concerning services provided through a contract established pursuant to 441—Chapter 152 may be reviewed in accordance with rule 441—152.3(234).

182.10(3) Decisions made by the department that adversely affect service providers concerning services provided through a contract established pursuant to 441—Chapter 150 may be reviewed in accordance with 441—subrule 150.3(9).

182.10(4) Decisions made by the department that adversely affect service providers concerning services provided through a contract established pursuant to 11—Chapters 106 and 107 may be addressed through the provisions contained in that contract.

These rules are intended to implement Iowa Code section 234.6.

CHAPTER 183
ADULT SUPPORT PROGRAM

[Prior to 9/23/87, see Human Services Department [441] Chs 178 and 179]

PREAMBLE

These rules define and structure the department of human services' adult support program. The program is designed to make services available to adults to prevent or eliminate conditions that are barriers to functioning in the least restrictive environment. These services encourage and assist adults to obtain or more fully utilize services available in their community which promote all aspects of health and well-being, including a positive orientation to their living arrangement.

Included within this program are community assistance services, individual treatment services, social contact services and supervisory services.

These rules also document eligibility criteria, application procedures, methods and locations of provision, and provisions for units of service and adverse service actions.

441—183.1(234) Definitions.

“Adult” means any person who has attained majority through arriving at the age of 18 or through marriage, even though the marriage is terminated by divorce.

“Community assistance services” are activities undertaken to support the identification, development and provision of services within the community on behalf of the adult. The activities include helping the adult identify ways to utilize and benefit from available community resources. The activities also include consultation and collaborating with other community resources to develop and implement service approaches responsive to a particular adult's needs. When possible, the adult takes part in any consulting or collaborating.

“Department” means the Iowa department of human services.

“Individual treatment services” are activities undertaken to halt, control or reverse undue stress and severe social, emotional or behavioral problems that threaten, or have negatively affected the adult's functioning or stability. Activities undertaken through this service may include therapy, counseling and treatment to adults.

“Service management activities” are undertaken by the service provider to structure and facilitate the delivery of the service or services they are providing in response to the directions and goals of the department case plan. These activities include the following:

1. Intake activities to collect information about the adult necessary to begin service delivery.
2. Assessment activities to review all available information on the adult to identify the strengths and resources of the adult as well as obstacles impeding the adult. The strengths, resources and obstacles are analyzed throughout the service period to facilitate the service provider's response to the department's case plan directions and goals.
3. Planning activities to develop or revise a written service plan which reflects the assessment findings and describes the service provider's implementation of the department's case plan directions.
4. Termination activities to review information prior to the discontinuation of one or more services to develop a summary of service delivery and service outcome. The summary shall include recommendations to the department regarding the adult's needs for future services.

“Social contact services” are activities undertaken to provide reassurance to otherwise isolated adults through one-to-one contact as a means of maintaining them in the least restrictive environment.

“Supervisory services” are activities undertaken to provide necessary oversight or guidance to an adult in the performance of required activities to facilitate the receipt of necessary service not otherwise available.

441—183.2(234) Eligibility. The adult support service program shall be available to any adult who meets the eligibility requirements for services specified in rule 441—130.3(234).

441—183.3(234) Application. Application for adult support services shall be made in the same manner and form as specified in 441—subrules 130.2(1) to 130.2(5).

441—183.4(234) Method of provision. All services may be provided directly by department staff. Individual treatment services only may also be locally purchased from a provider agency which is accredited for the provision of mental health services by the mental health and mental retardation commission and which holds a valid purchase of service contract under 441—Chapter 150.

Individual treatment services may be purchased from a nonaccredited agency if the agency complies with all other requirements in this chapter and provided community support services to the department during fiscal year 1987. Agencies accredited during fiscal year 1987 must remain accredited to be eligible to provide individual treatment services.

441—183.5(234) Social casework responsibilities.

183.5(1) Department social casework responsibilities. Social casework and case plan development shall adhere to the provisions of rules 441—130.6(234), 441—130.7(234) and the following guidelines:

a. The case plan shall be submitted to any service provider or allied service provider to whom the adult is referred. Unless service needs dictate otherwise, the case plan shall be submitted prior to the delivery of any service.

b. When the case plan is not submitted prior to initial service provision, referral information shall be provided that includes a description of the adult's needs, the department's goals and the services being requested. This information shall be confirmed or amended through the submission of a case plan no later than 30 days after the date of the adult's application for services.

c. Upon receipt of a service plan, progress report, other communication described in subrule 183.5(2) or other pertinent information, the case plan shall be reviewed with the service provider and may be altered to reflect the service provider's initial or ongoing assessment findings or other case developments.

183.5(2) Service provider responsibilities. Each service provider delivering services shall undertake the service management activities defined in rule 441—183.1(234) and shall adhere to the requirements of 441—subrule 150.3(3).

441—183.6(234) Unit of service. A unit of service for individual treatment services shall be one hour of service to the adult. This unit may consist of collateral contacts.

441—183.7(234) Location of service delivery. Services shall be delivered in that location which is deemed appropriate by the adult, the social worker and, if purchased, the provider.

441—183.8(234) Adverse service actions. Denial, termination or reduction of adult support service programs shall be conducted in accordance with rule 441—130.5(234).

441—183.9(234) Appeals. Decisions made by the department or its designee adversely affecting clients may be appealed pursuant to 441—Chapter 7. Decisions made by the department adversely affecting service providers may be reviewed pursuant to 441—subrule 150.5(6).

These rules are intended to implement Iowa Code section 234.6.

CHAPTER 184
INDIVIDUAL AND FAMILY DIRECT SUPPORT

DIVISION I
FAMILY SUPPORT SUBSIDY PROGRAM

PREAMBLE

The purpose of this division is to define and structure the family support subsidy program. This program is designed to assist families in staying together by defraying some of the costs of caring for a child with special needs living at home.

441—184.1(225C) Definitions.

“Department” means the department of human services.

“Family” means a family member and the parent or legal guardian of the family member.

“Family member” means a person less than 18 years of age who by educational determination has a moderate, severe, or profound educational handicap or special health care needs or who otherwise meets the definition of developmental disability in the federal Developmental Disabilities Act, Section 102(5), as codified in 42 U.S.C. 6001(5).

“Home” means the home of the parent or legal guardian of the family member.

“Legal guardian” means a person appointed by a court to exercise powers over a family member.

“Parent” means a biological or adoptive parent.

“Supplemental Security Income (SSI)” means financial assistance provided to individuals pursuant to Title XVI of the federal Social Security Act, 42 U.S.C. Sections 1381 to 1383c.

441—184.2(225C) Eligibility requirements. A child shall be eligible for the family support subsidy program if funds are available and all of the following requirements are met:

184.2(1) The child meets the definition of family member.

184.2(2) Rescinded IAB 6/27/90, effective 7/1/90.

184.2(3) The child is currently residing in the applicant’s home, or there is a discharge plan for the child to return home in the next 60 calendar days.

184.2(4) The family resides in the state of Iowa.

184.2(5) The family’s net taxable income for the calendar year immediately preceding the date of application did not exceed \$40,000 unless it can be verified that their estimated taxable income for the year in which the application is made will be less than \$40,000.

184.2(6) The applicant agrees that, if the child receives Medicaid, the subsidy shall only be used for the cost of services that are not covered by Medicaid. This subsidy is intended to complement but not supplant public assistance or social service benefits that are based on economic need and are available to the family through governmental programs or other means.

184.2(7) Exclusions. Unless a family requests and receives approval from the department for an exception to policy according to rule 441—1.8(17A,217), a family is not eligible to receive the family support subsidy if any of the following are applicable to the family or the family member for whom the application is submitted:

a. The family member is a special needs child who was adopted by the family, and the family is receiving financial assistance under Iowa Code section 600.17.

b. Medicaid home- and community-based waiver services are provided for the family member, and the family lives in a county in which comprehensive family support program services are available.

c. Medicaid home- and community-based waiver services are available to the family member under a consumer choices option.

441—184.3(225C) Application process. Applications for the family support subsidy program may be obtained at the local office of the department in the county in which the family resides. Arrangements shall be made through the local office for the parent or legal guardian to meet with a trained volunteer or staff person to respond to questions.

184.3(1) A parent or legal guardian who wishes to apply shall complete Form 470-2526, Application for Family Support Subsidy, and provide the following verification for each family member for whom application is being made:

a. Verification of the family's net taxable income for the previous calendar year, or estimated income for the current year.

b. Verification of educational or health care needs.

(1) If the child has undergone an educational evaluation and by educational determination has a moderate, severe, or profound educational handicap or special health care needs, either the child's school principal, local superintendent of schools or the director of special education for the area education association, or any person so designated by the above individuals, shall complete the educational sign-off portion of Form 470-2526, Application for Family Support Subsidy.

(2) If the child has not undergone an educational evaluation and, therefore, the parents or guardians are unable to obtain signatures on the educational sign-off portion of Form 470-2526, then the medical sign-off portion of Form 470-2526 shall be utilized. When using the medical sign-off portion of Form 470-2526, the doctor completing the form shall be familiar with the child and the definition of developmental disability as defined in the federal Developmental Disabilities Act, Section 102(5), as codified in 42 U.S.C. 6001(5), which is contained on the form itself. In addition, the doctor shall be a doctor of medicine (M.D.) or a doctor of osteopathic medicine and surgery (D.O.) and licensed to practice in the doctor's state of residence.

(3) The application shall identify the age at which the family member's eligibility shall end. The age identified is subject to approval by the department.

184.3(2) The date of application is the date that Form 470-2526 and all verifications specified in subrule 184.3(1) are received in the local office of the department. Application materials shall be processed in the office within two working days of receipt. Obtaining verifications is the responsibility of the applicant.

184.3(3) A determination of eligibility shall be made within 15 working days after the completed application and required verification are received by the department.

184.3(4) After funds appropriated for this purpose are obligated, pending applications will be denied.

a. A denial shall require a notice of decision to be mailed within ten calendar days following the determination that funds have been obligated. The notice shall state that the applicant meets eligibility requirements but no funds are available and that the applicant will be placed on the waiting list, or that the applicant does not meet eligibility requirements.

b. Applicants not awarded funding who meet the eligibility requirements will be placed on a statewide waiting list according to the order in which the completed applications and verification were received by the local office. In the event that more than one application is received at one time, families shall be entered on the waiting list on the basis of the day of the month of the child's birthday, the lowest number being first on the waiting list. Any subsequent tie shall be decided by the month of birth, January being month one and the lowest number.

441—184.4(225C) Family support services plan.

184.4(1) The special needs of the child and the family for the subsidy, and the resources available to meet those needs shall be identified on the application form.

184.4(2) The applicant shall agree that the subsidy will be used to meet the special needs identified in the plan or other special needs of the child and family.

184.4(3) Families shall retain the greatest possible flexibility in determining use of the subsidy, except a parent or legal guardian who receives family investment program benefits shall not use the subsidy to meet the basic needs of the family as defined in 441—subrule 41.28(2) or the special needs

as defined in 441—subrule 41.28(3). In addition, if the child receives Medicaid, the subsidy shall only be used for the cost of services which are not covered by Medicaid.

441—184.5(225C) Approval. Rescinded IAB 6/27/90, effective 7/1/90. Subrule 184.5(3) transferred to 184.3(4).

441—184.6(225C) Amount of subsidy payment.

184.6(1) Monthly payment. Families approved for payment shall receive an ongoing monthly payment that is determined by dividing the amount appropriated by the legislature by the number of available subsidy slots designated by the legislature for each state fiscal year. The number of slots and amount requested by the department shall be determined after consultation with the comprehensive family support council.

184.6(2) Advance payment. In addition, a one-time lump-sum advance payment of twice the monthly amount may be paid to the parent or legal guardian whose family member will be returning home for the purpose of preparing for in-home care.

184.6(3) Effective date. An approved subsidy shall be payable as of the first of the month following approval. A notice of decision stating that the application is approved shall be sent within two working days of the approval. The notice shall state the date payments will begin, the amount of monthly payments, and, if different, the amount of the first payment.

441—184.7(225C) Redetermination of eligibility.

184.7(1) The department shall send an application packet, which shall include instructions and necessary forms for verification of continuing eligibility, to all recipients of subsidy payments at least 30 calendar days prior to the deadline date for annual redetermination of eligibility. The completed Form 470-2526, Application for Family Support Subsidy, and required verification materials shall be submitted annually to the Department of Human Services, Division of MH/MR/DD, Hoover State Office Building, Des Moines, Iowa 50319-0114. If the signed application and verification of continuing eligibility are not received by the division by the last working day of the renewal month, the family's subsidy shall be terminated.

184.7(2) When funding allows additional individuals to be added to the subsidy program, they shall be taken from the statewide waiting list, and their eligibility shall be redetermined at that time. An application packet, which includes instructions and necessary forms for verification of continuing eligibility, shall be sent to these families for completion and returned to the Department of Human Services, Division of MH/MR/DD, Hoover State Office Building, Des Moines, Iowa 50319-0114, within timelines specified by the department. If the signed application and verification of continuing eligibility are not received by the timeline specified by the department, the family's name shall be dropped from consideration for receipt of the subsidy payments.

441—184.8(225C) Termination of subsidy payments.

184.8(1) The family support subsidy shall terminate at the end of the month in which any of the following occur and a notice shall be sent which states the reason for the termination:

- a. The family member dies.
- b. The family no longer meets one or more of the eligibility criteria outlined in rule 441—184.2(225C).
- c. The parent or legal guardian has failed to provide information required for redetermination of eligibility as outlined in rule 441—184.7(225C).
- d. No funds appropriated for this purpose are available.

184.8(2) The parent or legal guardian is required to report to the local office within ten working days any changes which may affect eligibility. Failure to do so may result in responsibility for repayment of funds and termination of the subsidy.

184.8(3) If funds are not sufficient to cover payments for all persons on the subsidy, persons will be terminated from the subsidy in inverse order to the dates they began receiving payments, i.e., the last

person to be added on to the subsidy being the first person to be removed. The person terminated will move back to the waiting list with the person's original application date dictating the person's position as stated in subrule 184.3(4). The division of MH/MR/DD is responsible for notifying the persons who will be removed from the subsidy for this reason.

441—184.9(225C) Appeals. The parent or legal guardian of the child may appeal a denial of an application or termination of the subsidy payment pursuant to 441—Chapter 7.

These rules are intended to implement Iowa Code sections 225C.35 to 225C.42.

441—184.10 to 184.20 Reserved.

DIVISION II
COMPREHENSIVE FAMILY SUPPORT PROGRAM

PREAMBLE

The purpose of this division is to define and structure the comprehensive family support program, known as “children at home.” This program is designed to assist families raising a child with a disability in obtaining needed services and supports. This program provides families with assistance in locating resources and with funding when other sources of support are not available. It is the intent of the legislature that families maintain control over decision making regarding what is best for their children. Services and support provided under the children at home program shall not be used to supplant other services and supports available to the family of an individual with disabilities but shall be used to meet family needs that would not be met without the program.

441—184.21(225C) Definitions.

“*Comprehensive family support*” means the array of services and supports that assist families who are caring for a family member with a disability. Services and supports include, but are not limited to, programs, services, parent-to-parent support, assistive devices, and various adaptations that allow children with disabilities to participate more fully in family and community life.

“*Family*” means a group of interdependent persons living in the same household. A family may consist of an individual with a disability and any of the following:

1. The individual's parent.
2. The individual's sibling.
3. The individual's grandparent, aunt, or uncle.
4. The individual's legal custodian.

5. A person who is providing short-term foster care to the individual subject to a case permanency plan that provides for reunification between the individual and the individual's parent.

“*Family*” does not include a person who is employed to provide services to an individual with a disability in an out-of-home setting, including but not limited to a hospital, nursing facility, personal care home, board and care home, group foster care home, or other institutional setting.

“*Individual with a disability*” means a person who is less than 22 years of age and meets the definition of developmental disability in 42 U.S.C. § 6001.

“*Services and support*” means services or other assistance intended to enable an individual with a disability to control the individual's environment, to remain living with the individual's family, to function more independently, and to integrate into the individual's community. Services and support may include, but are not limited to, funding for:

1. Purchase of equipment, respite care, supplies, or assistive technology; and
2. Payment of other costs attributable to the individual's disability that are identified by the individual's family.

441—184.22(225C) Eligibility. Eligibility for the children at home program is limited to families who meet all the following conditions:

184.22(1) The family resides in the state of Iowa.

184.22(2) The family includes an individual with a disability.

184.22(3) The family expresses an intent for the individual with a disability to remain living in the family's home.

184.22(4) The family's net taxable income in the most recently completed tax year is less than \$60,000.

441—184.23(225C) Application. A family may apply to the department or to a local children at home contractor for assistance using Form 470-4399, Application for Children at Home Services. The local children at home contractor shall determine eligibility for services in accordance with the provisions of this division.

441—184.24(225C) Contractor selection and duties. Whenever possible, the department shall contract with local agencies to implement the children at home program.

184.24(1) Selection. Contractors shall be selected through competitive bidding and a demonstrated ability to provide disability-related services and supports.

184.24(2) Duties. The local children at home contractor shall agree to perform the following activities:

a. Provide a single entry point for applicants to learn about and connect with a variety of needed services and supports.

b. Assist families in identifying and applying for services they believe will help meet the needs of their family.

c. Develop and disseminate a brochure describing the services available.

d. Provide services and support in a timely manner.

e. Inform families of emergency access to needed services and support, as needed.

f. Survey parents annually to determine how the program is helping parents meet the needs of individuals with disabilities and include the survey results in the annual report to the department.

g. Submit quarterly and annual reports to the department. The reports shall contain:

(1) A summary of the number of applications and services provided;

(2) An unduplicated count of children and families served; and

(3) Any other items listed in the contract with the department.

441—184.25(225C) Direct assistance. Each local children at home contractor shall, with the advice and assistance of the parent advisory council described in rule 441—184.27(225C), develop procedures for providing direct financial assistance for supports and services that cannot be funded through other programs or means. Local policies shall be submitted to and approved by the department.

441—184.26(225C) Appeals. A process is available to appeal the department's or the local children at home contractor's decisions involving families that apply for the children at home program and are denied services and support under the program. Families, contractors, and the department shall follow the appeal procedures outlined in 441—Chapter 7.

441—184.27(225C) Parent advisory council. Each local children at home contractor shall establish a local advisory council of at least five members to advise the children at home program coordinator in developing local policies and procedures.

184.27(1) Membership. A majority of the advisory council members shall be parents of an individual with a disability. Other members shall be recruited from agencies and organizations that have expertise in serving families and children with special needs.

184.27(2) Role. The role of the council is to ensure that the views and best interests of individuals with disabilities and their families are represented in the policy discussions with the program coordinator. Council members may attend meetings of the comprehensive family support council established in Iowa

Code section 225C.48 as amended by 2006 Iowa Acts, Senate File 2217, section 22. Final decisions regarding funding of specific requests are the responsibility of the contracting agency that is responsible for the children at home program.

These rules are intended to implement Iowa Code section 225C.47 as amended by 2006 Iowa Acts, Senate File 2217, division VI.

CHAPTER 185
REHABILITATIVE TREATMENT SERVICES

DIVISION I
GENERAL PROVISIONS

PREAMBLE

These rules define and structure the department of human services' rehabilitative treatment services program. Rehabilitative treatment services are designed to address the treatment needs of children and their families in the following four programs: family-centered services, family preservation, family foster care and group care.

These rules outline the application process, eligibility, service necessity determination and service authorization process, documentation requirements, service termination and appeal procedures, and establish service provision, rate-setting and payment mechanisms associated with rehabilitative treatment services. These rules also establish standards for provider certification, audits, and sanctions for providers. The provisions for rate setting are also applicable to supportive services as defined in this chapter.

441—185.1(234) Definitions.

“Adverse authorization action” means an authorization determination decreasing the requested scope, amount, or duration of services, or denying rehabilitative treatment services.

“Affiliates” means persons having an overt or covert relationship such that any one of them directly or indirectly controls or has the power to control another.

“Agency” means any entity, public or private, which provides or represents itself as providing rehabilitative treatment or supportive services.

“Amount” means the number of units of a service core or level of care within a rehabilitative treatment service.

“Authorization action” means an authorization determination approving rehabilitative treatment services.

“Authorized representative” within the context of rule 441—185.13(234) means that person appointed to carry out audit procedures, including assigned auditors, fiscal consultants, or agents contracted for specific audits or audit procedures.

“Behavioral management for children in therapeutic foster care” means services to design, assess, or revise therapeutic treatment strategies in therapeutic treatment family foster homes in order to meet the specific medical-behavioral health needs of children identified by a licensed practitioner of the healing arts. The focus of the service is to develop an intervention plan with the therapeutic treatment foster family to address the specific medical-behavioral health needs of the child, assess the effectiveness of the treatment strategies and interventions in measurable terms on an ongoing basis, and revise the treatment strategies when they are found not to be addressing the specific medical-behavioral condition of the child.

“Care plan” means the plan developed by the provider and treatment foster family for the interventions to be provided by the treatment foster family in accordance with the provider's treatment plan.

“Case permanency plan” shall mean the plan identifying goals, needs, strengths, problems, services, time frames for meeting goals and for delivery of the services to the child and parents, objectives, desired outcomes, and responsibilities of all parties involved; and reviewing progress.

“Certification” means the decision made by the department that the provider has met the applicable standards.

“Certified psychiatric mental health nurse practitioner” means a person who meets the requirements of a certified psychiatric mental health nurse and is eligible for certification by the American Nursing Association and is licensed by the state of Iowa to practice nursing as defined in Iowa Code chapter 152.

“*Child*” means a person under 21 years of age.

“*Claim*” means each record received by the department or the Iowa Medicaid enterprise that tells the amount of requested payment and the service rendered by a provider to a child and family.

“*Clinical record*” means a tangible and legible record which meets the criteria established for clinical records set forth in rule 441—185.10(234).

“*Community residential setting*” means a group care residential setting licensed as a community residential facility under 441—Chapter 114.

“*Community residential setting for mentally retarded children*” means a group care residential setting licensed as a community residential facility for children with mental retardation licensed under 441—Chapter 116.

“*Comprehensive residential setting*” means a group care residential setting licensed as a comprehensive residential facility under 441—Chapter 115.

“*Comprehensive residential setting for mentally retarded children*” means a facility licensed as a comprehensive residential facility for children with mental retardation under 441—Chapter 116.

“*Confidence level*” means the probability that an overpayment or underpayment rate determined from a random sample of charges is less than or equal to the rate that exists in the universe from which the sample was drawn.

“*Deemed status*” means an acceptance of an outside body’s review, assessment, and accreditation of a rehabilitative treatment services provider’s functioning and services in lieu of certification based on review and evaluation by the department.

“*Department*” means the Iowa department of human services.

“*Department worker*” means the worker who is responsible for providing social casework as described in 441—Chapter 131.

“*Duration*” means the maximum period of time for which the service core or level of care within rehabilitative treatment service is authorized.

“*Enhanced residential treatment*” means a treatment program in a facility licensed under 441—Chapter 115.

“*Experience in the delivery of child welfare and juvenile justice services*” means experience working with families at risk of child abuse, children at risk of delinquency, children who have been abused, children adjudicated CINA or delinquent, and children with emotional or behavioral disorders.

“*Experience in the delivery of human services*” means paid or volunteer experience providing social casework, therapy, or skill development services to children or families; supervision of children; as well as other experiences providing direct care to children and families. It does not include activities engaged in as part of a practicum or internship for academic credit.

“*Extrapolation*” means that the total amount of overpayment or underpayment will be estimated by using sample data meeting the confidence level requirement.

“*Family*” includes the following members:

1. Legal spouses (including common law) who reside in the same household.
2. Natural, adoptive, or step mother or father, and children who reside in the same household.
3. A child who lives alone or who resides with a person, or persons, not legally responsible for the child’s support.

“*Family preservation*” means treatment services provided in the family preservation program that have duration limited to 60 calendar days, but are expected to last an average of 45 calendar days.

“*Family skill development*” means services to train or educate parents on specific therapeutic interventions to enable them to meet the specific medical-behavioral health treatment needs of the child including guidance and interventions that address the specific medical-behavioral health needs of the child, techniques for caring for a child with special needs, and guidance and intervention to alleviate a pattern of impaired interactions associated with a specific medical-behavioral need of a child.

“*Fiscal record*” means a tangible and legible history which documents the criteria established for fiscal records as set forth in subrule 185.102(3).

“Generally accepted auditing procedures” means those procedures published in Standards for Audit of Governmental Organizations, Programs, Activities & Functions, 1988 Edition, by the Comptroller General of the United States.

“Highly structured juvenile program” means a treatment program for adjudicated delinquent youth, aged 15 to 17, licensed as either community residential facilities under 441—Chapter 114 or as comprehensive residential facilities under 441—Chapter 115.

“Imminent risk of placement” means that the family at issue includes one or more children considered by the referral worker to be either at high risk or immediate risk of placement. Cases considered at immediate or high risk of placement are defined as follows:

1. Immediate. Immediate-risk cases are those in which the referral worker has determined that a child needs to be placed out of home, at least one family member’s safety is in immediate jeopardy, and either emergency placement procedures or emergency and intensive preventive services need to commence immediately.

2. High. High-risk cases are those in which the referral worker has determined that a child needs an out-of-home placement, but the family’s condition is such that the immediate safety of any family member is not jeopardized. Nonemergency placement procedures would commence if some type of preventive services were not provided. These cases may include families already receiving preventive services but for whom the referral worker has determined client progress is such that a continuation of the nonfamily preservation services would not ensure family unity and self-sufficiency upon termination of the services.

“Individual provider” means a person who seeks certification pursuant to rule 441—185.10(234) or who is under contract pursuant to 441—Chapter 152 and who delivers rehabilitative treatment and supportive services independent of a partnership, corporation, agency, governmental unit or any other legal entity.

“Juvenile court officer (JCO)” means a person appointed as a juvenile court officer under Iowa Code chapter 602 and a chief juvenile court officer appointed under Iowa Code chapter 602.

“Level of care” means a level of treatment services within the group care program that is differentiated by the intensity of skill development and therapy services provided, the hours of awake supervision, and the ratio of skill development staff to child. There are four levels of rehabilitative treatment in the group care program:

1. Community residential.
2. Comprehensive residential.
3. Enhanced comprehensive residential.
4. Highly structured juvenile program.

“Licensed independent social worker” for purposes of this chapter means a person who is licensed as an independent social worker under Iowa Code chapter 154C in activities which are directed at enhancing or restoring people’s capacity for social functioning, whether impaired by environmental, emotional, or physical factors, with particular attention to the person-in-situation configuration.

“Licensed practitioner of the healing arts” means one of the following who is licensed to practice in the state of Iowa as:

1. A psychologist.
2. A certified psychiatric mental health nurse practitioner.
3. A licensed independent social worker.
4. A marital and family therapist.
5. A mental health counselor.

“Marital and family therapist” means a person who is licensed to practice marital and family therapy in the state of Iowa pursuant to Iowa Code chapter 154D.

“Mental health counselor” means a person who is licensed to practice mental health counseling in the state of Iowa pursuant to Iowa Code chapter 154D.

“Nonprime programming time” means any period of the day in a group care program other than prime programming time and sleeping time.

“Nonrehabilitative treatment need” means the child and family have a protective, supportive or preventative need for which the child has no identified rehabilitative behavioral health treatment need. Services to address a nonrehabilitative treatment need may be directed at a family member to meet the child’s safety, treatment, or permanency need.

“Nonrehabilitative treatment service” means a service to address the nonrehabilitative treatment need of a child. Nonrehabilitative treatment services are designed either to restore a skill or function or teach a new skill or function to achieve maximum independence and functioning. These services may also be directed toward family members to help them meet the treatment, safety, or permanency needs of a child. Nonrehabilitative treatment services are designed to meet treatment needs in one of the following programs:

1. Family-centered program.
2. Family preservation program.

“Other adult caretaker” for purposes of the family foster care program means any adult other than a foster parent living in the foster family home who provides care to the foster child on a routine basis in the absence of the foster parent.

“Overpayment” means any payment or portion of a payment made to a provider which is incorrect according to the laws and rules applicable to rehabilitative treatment and supportive services which results in a payment greater than that to which the provider is entitled.

“Physician” means an individual who is a doctor of medicine or osteopathy and is licensed to practice in the state of Iowa pursuant to Iowa Code chapter 148.

“Prime programming time” means any period of the day in a group care program when special attention, supervision, or treatment is necessary; for example, upon awakening in the morning until departure for school, during meals, after school, transition between activities, evenings and bedtime, and on nonschool days such as weekends, holidays, and school vacations.

“Probation” means a specified period of conditional participation in the provision of rehabilitative and supportive services.

“Provider” means any natural person, company, firm, association, or other legal entity seeking certification pursuant to rule 441—185.10(234) or under contract with the department pursuant to this chapter or 441—Chapter 152.

“Psychologist” for the purposes of this chapter means a person who is licensed to practice psychology in the state of Iowa pursuant to Iowa Code chapter 154B.

“Psychosocial evaluation” means services to evaluate the basic strengths of the child and family; assess the emotional needs, health and safety of the child and family; identify the goals and treatment services needed to obtain these goals and expected outcomes; identify the resources available to promote and support these goals; and identify the general functioning of the child.

“Random sample” means a systematic (or every nth unit) sample for which each item in the universe has an equal probability of being selected.

“Referral worker” means the department worker or juvenile court officer who refers the case to the review organization and who is responsible for carrying out the follow-up activities after the service necessity determination and service authorization process is completed.

“Rehabilitative treatment need” means a medical-behavioral health need of a child with a deficit in function or skill that the child lost or never gained as a result of interference in the normal maturational and learning process due to the child or parental dysfunction. The child must have the capability to benefit from the rehabilitative treatment services.

“Rehabilitative treatment services” involves services designed to restore a function or skill that an individual lost or never gained as a result of interference in the normal maturational and learning process due to individual or parental dysfunction. The individual must have the capability to learn the function or skill. Rehabilitative treatment services are designed to address the specific medical-behavioral health needs of the child. Rehabilitative treatment services are designed to address the treatment needs of a child in one of the following programs:

1. Family-centered.
2. Family preservation.

3. Family foster care.
4. Group care.

“Related human service field” means psychology; mental health counseling; family therapy; child and family services; family services; child, parent, and community services; human services; sociology; family studies; human relations; criminal justice; chemical dependency counselor program; or nursing. It also includes other degrees in which the student receives educational preparation in the following: therapy and counseling techniques; the development of interview, relationship building, and assessment skills; group dynamics; crisis intervention techniques; social change theories; social system theories; abnormal psychology; sociological concepts and theories as they relate to individuals, families, and groups; and sociological and psychological methods to analyze social problems. Special education, law enforcement administration, political science, and elementary education are not considered related human service fields.

“Restorative living skills development” means rehabilitative services to restore the child’s and family’s ability to function independently in the community on a daily basis. Skills training and supervision include, but are not limited to: food planning and preparation, maintenance of living environment, time and money management, personal hygiene and self-care.

“Review organization” means the entity designated by the department to make rehabilitative treatment services authorization determination.

“Scope” means the rehabilitative treatment service selected and the service cores or level of care within the program that is selected.

“Service authorization” means the process of service necessity determination and service authorization of scope, amount and duration by the review organization.

“Service code” means the identifier which describes services provided.

“Service core” means a set of treatment services within a rehabilitative treatment service delivered to a child and family that addresses the needs of the child and family.

“Site” means a location from which services are delivered, staff report, and records are kept. In the family foster care and group care programs each separately licensed location would be a site.

“Sleeping time” means any period of the day in a group care program in which children are normally sleeping.

“Social skills development” means services to restore a child’s and family’s communication and socialization skills. Interventions would restore a child’s and family’s ability to solve problems, resolve conflicts, develop appropriate relationships with others and develop techniques for controlling behavior.

“Supportive services” means family-centered supportive services as defined in 441—Chapter 182, supervision and home studies in family foster care provided pursuant to 441—Chapter 156, and group care maintenance pursuant to 441—Chapter 156.

“Suspension of payments” means the withholding of all payments due a provider until the resolution of the matter in dispute between the provider and the department.

“Termination from participation” means a permanent exclusion from participation in the provision of rehabilitative treatment and supportive services.

“Therapy and counseling services” means services to halt, control or reverse undue stress and severe social, emotional or behavioral problems that threaten, or have negatively affected the child’s and the child’s family’s stability. Activities under this service can include counseling and therapy to children, groups and families, including interventions to ameliorate difficult behaviors.

“Treatment plan” means a written, goal-oriented plan of service developed for a child and family by the provider.

“Treatment services” means the individual service types included in the services cores or levels of care. These include:

1. Restorative living skills development.
2. Family skill development.
3. Social skills development.
4. Therapy and counseling services.
5. Psychosocial evaluation.

6. Behavioral management for children in therapeutic foster care.

“*Underpayment*” means any payment or portion of a payment not made to a provider for services delivered to eligible recipients according to the laws and rules applicable to the rehabilitative treatment and supportive services program and to which the provider is entitled.

“*Universe*” means all items (claims), submitted by a specific provider for payment during a specific time period, from which a random sample will be drawn.

“*Withholding of payments*” means a reduction or adjustment of the amounts paid to a provider on pending and subsequently submitted claims for purposes of offsetting overpayments previously made to the provider.

441—185.2(234) Eligibility. Rescinded IAB 4/11/07, effective 7/1/07.

441—185.3(234) Referral for service authorization. Rescinded IAB 4/11/07, effective 7/1/07.

441—185.4(234) Review organization. Rescinded IAB 4/11/07, effective 7/1/07.

441—185.5(234) Adverse authorization actions by the review organization. Rescinded IAB 4/11/07, effective 7/1/07.

441—185.6(234) Appeals. Rescinded IAB 4/11/07, effective 7/1/07.

441—185.7(234) Transition to the review organization. Rescinded 4/11/07, effective 7/1/07.

441—185.8(234) Appeals. Rescinded IAB 7/1/98, effective 8/15/98.

441—185.9(234) Interim provider certification standards. Rescinded IAB 11/5/97, effective 1/1/98.

441—185.10(234) Provider certification standards. Certification is the process by which the department shall ensure that providers meet the requirements for provision of rehabilitative treatment services.

Each provider of rehabilitative treatment services shall meet the following criteria for certification:

185.10(1) Staff qualifications. The provider of the following services shall document the credentials and experience of the individuals providing services under the rehabilitative treatment program.

a. Therapy and counseling services, psychosocial evaluation and behavioral management services for children in therapeutic foster care shall be provided by staff who meet one of the following minimum education and experience or professional licensing criteria:

(1) Graduation from an accredited four-year college, institute or university and the equivalent of three years of full-time experience in social work or experience in the delivery of human services in a public or private agency. These individuals shall have been employed prior to September 1, 1993, by an agency with interim certification under rule 441—185.9(234) published on January 5, 1994, and subrule 185.11(1) published on January 5, 1994, or be an individual with interim certification under rule 441—185.9(234) published on January 5, 1994, and subrule 185.11(1) published on January 5, 1994. Persons meeting this criterion shall not be qualified to provide therapy and counseling, psychosocial evaluation, or behavioral management services for children in therapeutic foster care if they change place of employment.

(2) Graduation from an accredited four-year college, institute or university with a bachelor’s degree in social work from a program accredited by the council on social work education.

(3) Graduation from an accredited four-year college, institute or university with a bachelor’s degree in a human service field related to social work and the equivalent of two years of full-time experience in social work or experience in the delivery of human services in a public or private agency.

(4) A master’s degree in social work or related human service field from an accredited college, institute or university.

(5) Graduate education in the social work or related human services field from an accredited college, institute or university may be substituted for up to a maximum of 30 semester hours for one year of the required experience.

(6) Graduation from an accredited four-year college, institute or university with a bachelor's degree in social work or related human service field. These individuals shall have had continuous employment in the same agency since August 31, 1993, and the agency shall have received interim certification under rule 441—185.9(234) published on January 5, 1994, and subrule 185.11(1) published on January 5, 1994, or be an individual who received interim certification under rule 441—185.9(234) published on January 5, 1994, and subrule 185.11(1) published on January 5, 1994. Persons meeting this criterion shall not be qualified to provide therapy and counseling, psychosocial evaluation, or behavioral management services for children in therapeutic foster care if they change place of employment before they have two years of experience.

(7) Licensed in Iowa as an independent social worker, master social worker, psychologist, psychiatric mental health nurse practitioner, marital and family therapist or mental health counselor.

b. Skill development services shall be provided by staff who meet one of the following minimum education and experience or professional licensing criteria:

(1) Graduation from an accredited four-year college, institute or university with a bachelor's degree in social work, or related human service field.

(2) Graduation from an accredited four-year college, institute or university and the equivalent of one year of full-time experience in social work or in the delivery of human services in a public or private agency. Individuals with this level of education who provided skill development services prior to September 1, 1993, can provide skill development services without the one year of experience, if they have maintained continuous employment since August 31, 1993, with an agency that received interim certification under rule 441—185.9(234) published on January 5, 1994, and subrule 185.11(1) published on January 5, 1994, or if they had a family-centered contract with the department prior to September 1, 1993, and were granted interim certification under rule 441—185.9(234) published on January 5, 1994, and subrule 185.11(1) published on January 5, 1994. Persons meeting this criterion shall not be qualified to provide skill development if they change place of employment before they have one year of experience.

(3) Graduate education in social work, or a related human service field from an accredited college, institute or university may be substituted for up to a maximum of 30 semester hours for one year of required experience.

(4) A high school diploma or GED and the equivalent of one year of full-time experience in social work, or experience in the delivery of human services in a public or private agency. Individuals with this level of education who provided skill development services prior to September 1, 1993, can provide skill development services without the one year of experience if they have maintained continuous employment since August 31, 1993, with an agency that received interim certification under rule 441—185.9(234) published on January 5, 1994, and subrule 185.11(1) published on January 5, 1994, or had a family-centered contract with the department prior to September 1, 1993, and received interim certification under rule 441—185.9(234) published on January 5, 1994, and subrule 185.11(1) published on January 5, 1994. Persons meeting this criterion shall not be qualified to provide skill development if they change place of employment before they have one year of experience.

(5) Graduation from an accredited community college with a two-year associate degree in a related human service field or an associate of science career option degree, or graduation from a certified two-year nursing program.

(6) Sixty college credit hours toward a degree in social work or a related human service field from an accredited four-year college, institute or university may be substituted for the one year of required experience when at least 12 of the 60 hours are in the field of social work or a related human service field.

(7) Licensed in Iowa as an independent social worker, master social worker, bachelor social worker, psychologist, psychiatric mental health nurse practitioner, marital and family therapist or mental health counselor.

185.10(2) Staffing requirements. The agency or individual shall certify that they meet the staffing ratios set forth in this chapter. The agency or individual shall maintain records to demonstrate that qualified staff responsible for direct provision or supervision of rehabilitative treatment services are present in sufficient number to meet the requirements.

185.10(3) Supervision requirements. Provider staff who provide skill development services and who do not meet the qualifications for provision of therapy and counseling pursuant to 185.10(1)“a” shall receive supervision by an employee or consultant with those qualifications. Supervision shall occur on a face-to-face basis, and may be conducted on an individual or group basis. The provider shall document the date of supervision meetings, who was present, and the general focus of discussion. Supervision requirements may be waived for staff who are absent due to vacation or sick leave.

a. For individuals who meet the qualifications in 185.10(1)“b”(4) and who work full-time, supervision shall occur no less than once per week. For individuals who meet the qualifications in 185.10(1)“b”(4) and who work part-time, supervision shall occur no less than once every two weeks.

b. For individuals who meet the qualifications in 185.10(1)“b”(1), 185.10(1)“b”(2), 185.10(1)“b”(3), 185.10(1)“b”(5), or 185.10(1)“b”(6) and who work full-time, supervision shall occur at least two times per month. For individuals who meet the qualifications in 185.10(1)“b”(1), 185.10(1)“b”(2), 185.10(1)“b”(3), 185.10(1)“b”(5), or 185.10(1)“b”(6) and who work part-time, supervision shall occur no less than once a month.

185.10(4) Treatment plan development. The provider shall develop a treatment plan for each individual and family receiving treatment services except for the psychosocial evaluation services core. Treatment plans shall meet the following conditions:

a. The treatment plan shall be developed in collaboration with the referral worker, child, family, and, if applicable, the foster parents unless the treatment plan contains documentation for the treatment rationale for the lack of involvement of one of these parties. The provider shall document the dates and content of the collaboration on the treatment plan. The provider shall provide a copy of the treatment plan to the family and the referral worker, unless otherwise ordered by the court.

b. Initial treatment plans shall be developed after services have been authorized and within 30 calendar days of initiating services, except in the case of the family preservation program the treatment plan shall be developed within 10 calendar days of initiating services.

c. The treatment plan shall identify the following:

(1) Strengths and needs of the child and family.

(2) Goals, which are statements of outcomes to be achieved to meet the medical-behavioral health care needs of the child identified on Form 470-3055, Referral of Client for Rehabilitative Treatment and Supportive Services.

(3) Objectives, which are specific, measurable, and time-limited statements of indicators, levels of competence or accomplishments of the child which are necessary for progress toward each goal.

(4) Specific treatment service activities to be provided to achieve the objectives.

(5) Designation of the persons responsible for providing the services. When providing restorative living and social skill development in a group care setting, designation may be by job title.

(6) Date of service initiation and date of treatment plan development.

185.10(5) Treatment plan review and revision. Individuals qualified to provide therapy and counseling services pursuant to paragraph 185.10(1)“a” shall review the services identified in the treatment plan to ensure that the services are necessary, appropriate, and consistent with the identified medical-behavioral health care needs of the child listed on Form 470-3055, Referral of Client for Rehabilitative Treatment and Supportive Services.

a. All treatment plans shall be reviewed as follows:

(1) Ninety calendar days from the initiation of services and every 90 calendar days thereafter for the duration of the services.

(2) When any changes are made by the review organization to the identified medical-behavioral health care need of the child listed on Form 470-3055, Referral of Client for Rehabilitative Treatment and Supportive Services.

(3) Five working days after a skill development qualified staff has developed an initial or revised treatment plan for skill development services.

b. All treatment plans shall be revised when any of the following occur:

(1) Treatment goals or objectives have been achieved.

(2) Progress is not being made.

(3) Changes have occurred in the identified medical-behavioral treatment needs of the child listed on Form 470-3055, Referral of Client for Rehabilitative Treatment and Supportive Services.

(4) The treatment plan is not consistent with the identified medical-behavioral treatment needs of the child listed on Form 470-3055, Referral of Client for Rehabilitative Treatment and Supportive Services.

c. The treatment plan shall be signed and dated by qualified staff after each review and revision. The treatment plan shall be revised in collaboration with the child, family, referral worker and, if applicable, the foster parents. The revision of the treatment plan must reflect the services authorized and the identified medical-behavioral health care needs of the child. The revised treatment plan must meet the requirements for a treatment plan in paragraph 185.10(4) "c." The provider shall provide a copy of all the revised treatment plans to the family and referral worker, unless otherwise ordered by the court.

185.10(6) Treatment records. The agency or individual shall maintain confidential individual records for each individual or family receiving treatment services. The record shall include the following:

a. Case permanency plan as supplied by the referral worker.

b. Documentation of billed services. Documentation shall include: the date and amount of time services were delivered except when delivering restorative living and social skill development services in a group care setting only the date and shift hours shall be identified, who rendered the services, the setting in which the services were rendered, the specific services rendered and the relationship of the services to the services described in the treatment plan, and updates describing the client's progress. For the family preservation program this documentation shall be provided every ten days on Form 470-2413, Family Preservation Service Report.

c. All initial and revised treatment plans developed by the agency.

d. Correspondence with the referral worker regarding change in the case permanency plan or treatment plan or requests for authorization for additional services and any relevant evaluation activities including procedures and tests completed.

e. Discharge summary which identifies the reason for discharge, date of discharge, the recommended action or referrals upon discharge, treatment progress, and outcomes.

f. Progress reports 90 calendar days after initiating services and every 90 calendar days thereafter which summarize progress and problems in achieving the goals and objectives of the treatment plan. The progress report shall be written in conjunction with the treatment plan review and shall be completed no more than 15 calendar days before the report is due or 15 calendar days after the report is due. This report may serve as either a discharge summary or a recommendation for continued rehabilitative treatment service. If the report serves as a discharge summary, the report shall meet the requirements for a discharge summary. The provider shall provide a copy of all progress reports to the family and referral worker, unless otherwise ordered by the court.

g. For psychosocial evaluation services, evaluation reports.

h. Additional reports if requested by the referral worker.

i. Form 470-3055, Referral of Client for Rehabilitative Treatment and Supportive Services.

185.10(7) Staff training. An agency shall provide orientation training on the agency's purpose, policies and procedures within one month of hire and 24 hours of training in the first year of employment for all employed and contracted treatment staff. The 24 hours of training shall include: training on children and families' mental health service topics, and two hours of training related to the identification and reporting of child abuse for all employed or contracted treatment staff in accordance with Iowa Code section 232.69. An agency shall provide 12 hours of training per year after the first year of employment for all employed and contracted treatment staff. The 12 hours of training shall include: training on children and families' mental health service topics and child abuse training every five years

in accordance with Iowa Code section 232.69. The training formats that shall qualify as training are as follows: in-service training, seminars, conferences, workshops, institutes, visiting other facilities, and meeting with consultants.

The training provided shall be documented. The documentation shall include the training topic, format, date and number of hours.

185.10(8) Other conditions of certification. To receive full certification providers shall meet the following conditions if applicable:

- a. Rescinded IAB 4/11/07, effective 7/1/07.
- b. Rescinded IAB 4/11/07, effective 7/1/07.
- c. Rescinded IAB 4/11/07, effective 7/1/07.
- d. Providers of family-centered psychosocial evaluation shall prepare within 14 calendar days following termination of services evaluation reports which summarize the results and recommendations of the psychosocial evaluation services provided to a child and family. The provider shall provide a copy of this evaluation report to the family and referral worker, unless otherwise ordered by the court. The evaluation report shall contain the following information:

- (1) Sources of information and methods of assessing and observing the child and family used to complete the evaluation.

- (2) Answers to any specific questions from the referral worker.

- (3) Child and family safety and risk factors.

- (4) Child and family strengths, including how these strengths may be used in further service delivery.

- (5) Recommendations for further services including suggested goals, objectives, and methods of service delivery.

- e. Rescinded IAB 4/11/07, effective 7/1/07.

441—185.11(234) Provider certification. Rescinded IAB 4/11/07, effective 7/1/07.

441—185.12(234) Sanctions against providers of rehabilitative treatment and supportive services. Failure to meet the requirements relevant to provider certification, contracting, cost reporting, billing and payment, and documentation may subject providers to sanctions.

185.12(1) Grounds for sanctioning providers. Sanctions may be imposed by the department against a provider for any one or more of the following reasons:

- a. Presenting or causing to be presented for payment any false or fraudulent claim for services or merchandise.

- b. Submitting or causing to be submitted false information for the purpose of obtaining greater compensations than that to which the provider is legally entitled.

- c. Submitting or causing to be submitted false information for the purpose of meeting service authorization requirements.

- d. Failing to disclose or make available to the department or its authorized agent, records of services provided to a child and family and records of payments made for those services.

- e. Failing to provide and maintain the quality of the services to children and families within established standards.

- f. Engaging in a course of conduct or performing an act which is in violation of state or federal regulations, or continuing that conduct following notification that it should cease.

- g. Overutilizing rehabilitative treatment services by inducing, furnishing or otherwise causing the child or family to receive services or merchandise not authorized.

- h. Rebating or accepting a fee or portion of a fee or a charge for referrals of a child or family.

- i. Submitting a false or fraudulent application for provider status for rehabilitative treatment services.

- j. Violating any laws, regulations, or code of ethics governing the conduct of occupations or professionals subject to this chapter.

- k.* Being convicted of a criminal offense relating to negligent practice resulting in death or injury to clients.
- l.* Failing to meet standards required by state or federal law for certification, for example, licensure.
- m.* Failing to correct deficiencies in provider operations after receiving notice of these deficiencies from the department.
- n.* Receiving a formal reprimand or censure by an association of the provider's peers for unethical practices.
- o.* Being suspended or terminated from participation in another governmental medical program such as workers' compensation, crippled children's services, rehabilitation services or Medicaid.
- p.* Committing fraudulent billing practices.
- q.* Committing negligent practice resulting in death or injury to the provider's clients.
- r.* Failing to repay or make arrangement for the repayment of identified overpayments or other erroneous payments.

185.12(2) Sanctions. The following sanctions may be imposed on providers based on the grounds specified in subrule 185.12(1).

- a.* A term of probation for provision of rehabilitative treatment services.
- b.* Termination from participation in the provision of rehabilitative treatment services.
- c.* Suspension from provision of rehabilitative treatment services.
- d.* Suspension or withholding of payments to provider.
- e.* One hundred percent review of the provider's claims prior to payment.
- f.* Referral to the state licensing board for investigation.
- g.* Referral to appropriate federal or state legal authorities for investigation and prosecution under applicable federal or state laws.
- h.* Suspension of rehabilitative treatment services certification.
- i.* Termination of rehabilitative treatment services certification.

185.12(3) Imposition and extent of sanction. The decision on the sanction to be imposed shall be the department's. The following factors shall be considered in determining the sanction or sanctions to be imposed:

- a.* Seriousness of the offense.
- b.* Extent of violations.
- c.* History of prior violations.
- d.* Prior imposition of sanctions.
- e.* Prior provision of technical assistance.
- f.* Provider pattern of failure to follow program rules.
- g.* Whether a lesser sanction will be sufficient to remedy the problem.
- h.* Actions taken or recommended by peer review groups or licensing bodies.

185.12(4) Scope of sanction.

a. The sanction may be applied to all known affiliates of a provider, provided that each decision to include an affiliate is made on a case-by-case basis after giving due regard to all relevant factors and circumstances. The violation, failure, or inadequacy of performance may be imputed to a person with whom the violator is affiliated where the conduct was accomplished in the course of official duty or was effectuated with the knowledge or approval of that person.

b. Suspension or termination from provision of rehabilitative treatment services shall preclude the provider from submitting claims for payment whether personally or through claims submitted by a clinic, group, corporation, or other association to the department for any services provided after suspension or termination.

c. No clinic, group, corporation, or other association which is the provider of services shall submit claims for payments to the department for any services or supplies provided by a person within the association who has been suspended or terminated from provision of rehabilitative treatment services except for those services provided prior to the suspension or termination.

d. When there are grounds for sanction pursuant to subrule 185.12(1) against a clinic, group, corporation, or other association, the department may suspend or terminate the organization, or any other individual person within the organization who is responsible for the violation.

185.12(5) Notice of sanction. When a provider has been sanctioned, the department shall notify as appropriate the applicable professional society, board of registration or licensure, and federal or state agencies of the findings made and the sanctions imposed.

185.12(6) Notice of violation. Should the department have information that indicates that a provider may have submitted bills or been practicing in a manner inconsistent with the program requirements, or may have received payment for which the provider may not be properly entitled, the department shall notify the provider of the discrepancies noted. Notification shall set forth:

- a. The nature of the discrepancies or violations.
- b. The known dollar value of the discrepancies or violations.
- c. The method of computing the dollar value.
- d. Notification of further actions to be taken or sanctions to be imposed by the department.
- e. Notification of any actions required of the provider. The provider shall have 15 days subsequent to the date of the notice prior to the department action to show cause why the action should not be taken.

185.12(7) Suspension or withholding of payments pending a final determination. When the department has notified a provider of a violation pursuant to 185.12(6) or an overpayment, the department may withhold payments on pending and subsequently received claims in an amount reasonably calculated to approximate the amounts in question or may suspend payment pending a final determination. When the department intends to withhold or suspend payments, it shall notify the provider in writing.

441—185.13(234) Provider audits.

185.13(1) Provider monitoring. The department shall have the authority to conduct a scheduled or an unannounced site visit to evaluate the adequacy of documentation in compliance with the policies and procedures for rehabilitative treatment and supportive services. The provider shall maintain the following documentation for each program.

- a. List of all staff and supervisors providing services and their qualifications.
- b. Number of staff hired and terminated in the year to date.
- c. to g. Rescinded IAB 1/4/95, effective 2/1/95.

185.13(2) Audit of clinical and fiscal records by the department.

a. Authorized representatives of the department shall have the right, upon proper identification, and using generally accepted auditing procedures, to review the clinical and fiscal records of the provider to determine whether:

- (1) The department has accurately paid claims for goods or services.
- (2) The provider has furnished the services.
- (3) The provider has retained clinical and fiscal records which substantiate claims submitted for payment during the audit period as described at 441—Chapters 156 and 182, subrules 185.10(6) and 185.102(3), and rule 441—79.3(249A).

b. Records generated and maintained by the department or its fiscal agent may be used by auditors and in all proceedings of the department.

c. Any service provider may be audited at any time at the discretion of the department.

d. The department shall select the appropriate method of conducting an audit and shall protect the confidential nature of the records being reviewed. The provider may be required to furnish records to the department. The provider may select the method of delivering any requested records to the department. Audit procedures may include, but are not limited to, the following:

- (1) Comparing clinical and fiscal records with each claim.
- (2) Interviewing recipients of services and employees of providers.

e. The department's procedures for auditing rehabilitative treatment services providers may include the use of random sampling and extrapolation. When these procedures are used, all sampling

will be performed within acceptable statistical methods, yielding not less than a 95 percent confidence level. Findings of the sample will be extrapolated to the universe for the audit period.

(1) The audit findings generated through the audit procedure shall constitute prima facie evidence in all department proceedings of the number and amount of requests for payment as submitted by the provider.

(2) When the department's audit findings have been generated through the use of sampling and extrapolation, and the provider disagrees with the findings, the burden of proof of compliance rests with the provider. The provider may present evidence to show that the sample was invalid. The evidence may include a 100 percent audit of the universe of provider records used by the department in the drawing of the department's sample. This audit shall:

1. Be arranged and paid for by the provider.
2. Be conducted by a certified public accountant.
3. Demonstrate that bills and records not reviewed in the department's sample were in compliance with program regulations.
4. Be submitted to the department with all supporting documentation.

(3) The total of the payments determined to be in error in the audit sample shall be divided by the total payments in the reviewed audit sample to calculate the percentage of dollars paid in error. This sample error payment rate shall then be multiplied by the total dollars in the audit universe from which the audit sample was selected to determine the extrapolated overpayment.

f. Actions based on audit findings.

(1) The department shall report the results of an audit of provider records to concerned parties consistent with the provisions of 441—Chapter 9.

(2) When an overpayment is found, the department may proceed with one or more of the following:

1. Request repayment in writing.
2. Impose sanctions provided for in rule 441—185.12(234).
3. Investigate and refer to an agency empowered to prosecute.

g. Appeal by provider. Providers may appeal decisions of the department according to rules in 441—Chapter 7.

These rules are intended to implement Iowa Code sections 234.6 and 234.38.

441—185.81 to 185.100 Reserved.

DIVISION VI
ESTABLISHMENT OF RATES

441—185.101(234) Definitions. These definitions shall apply to this division of 441—Chapter 185 only.

“Accrual basis accounting” means the generally accepted accounting principle which requires that revenue be recognized as earned and expenses be recognized as incurred.

“Across-the-board increase” means a uniform percentage or fixed dollar increase of those rates established by nonexceptional means.

“Benefits” means compensation in the form of access to services made available by the employer.

“Common ownership” means that relationship existing when an individual or individuals possess significant ownership or equity in the provider and the institution or organization serving the provider.

“Control” means that relationship existing where an individual or an organization has the power, directly or indirectly, to significantly influence or direct the actions or policies of an organization or institution.

“Co-therapy” means the use of two qualified therapists for group therapy and counseling services.

“Department” means the Iowa department of human services.

“Group service” refers to a service in which two or more nonrelated persons participate. For purposes of this definition, one or more persons from a family represent one person.

“Host area” means the department service area that is responsible for administering the provider’s contract with the department to provide rehabilitative treatment and supportive services.

“Indirect cost” means those expenses which cannot be related directly to a specific program and are, therefore, allocated to more than one program.

“Individual provider” means a person under contract pursuant to 441—Chapter 152 who delivers rehabilitative treatment and supportive services independent of a partnership, corporation, agency, governmental unit or any other legal entity.

“Individual service” refers to a service in which one person participates in a service. For purposes of this definition, one or more persons from a family represent one person.

“Interest” means the cost incurred for the use of borrowed funds. Interest on current indebtedness is the cost incurred for funds borrowed for a relatively short term. Interest on capital indebtedness is the cost incurred for funds borrowed for capital purposes.

“Multiple program provider” means a provider which delivers more than one program under a contract with the department pursuant to 441—Chapter 152.

“Necessary costs” means costs essential to the provision of rehabilitative treatment and supportive services and to the achievement of service requirements and outcomes up to the extent required by standards established for the services.

“Negotiated rate” means the rate of payment established by the department as a result of negotiations between the provider and the department based upon the allowable reasonable and necessary costs of service provision.

“Occupancy costs” means expenses related to the acquisition, maintenance, and financing of a property, or rental of property necessary for service.

“Program” means the specific support service, core, level of care, or in the case of group care, maintenance.

“Provider” means any natural person, company, firm, association, or other legal entity seeking certification pursuant to rule 441—185.9(234) or 441—185.10(234) or under contract with the department pursuant to 441—Chapter 152.

“Rate resolution process” means a time-limited structured process involving an independent mediator to facilitate discussions with the goal of producing mutual agreement when the department and the provider have been unable to reach agreement on a rate during the rate negotiation process.

“Reasonable costs” means the level of costs which will be recognized for reimbursement purposes.

“Related to provider” means that the provider to a significant extent is associated or affiliated with or has control of, or is controlled by, the organization furnishing the services, facilities, or supplies.

“*Similar or same services*” means services which have the same first three digits in their service code.

441—185.102(234) Financial and statistical report. The Rehabilitative Treatment and Supportive Services Financial and Statistical Report, Form 470-3049, shall be the basis for establishing the rates to be paid to all providers, both in-state and out-of-state. The Rehabilitative Treatment and Supportive Services Financial and Statistical Report, Form 470-3049, shall be completed by providers according to the following requirements:

185.102(1) Accounting procedures. Financial information shall be based on the agency’s financial records. Providers are required to comply with the following specific requirements:

a. Providers shall report on an accrual basis of accounting. Providers not using the accrual basis of accounting shall adjust amounts to the accrual basis when the financial and statistical report is completed. Records of cash receipts and disbursements shall be adjusted to reflect accruals of income and expenses.

b. Revenues shall be reported as recorded in the general ledger and adjusted for accruals. Allowance and expense recoveries shall be reflected as revenues.

c. Income received from fund-raising efforts or donations shall be reported as revenue on the financial and statistical report and used to offset fund-raising costs. Fund-raising costs remaining after the offset shall be an unallowable cost.

All contributions shall be accompanied by a schedule showing the contribution and anticipated designation by the provider. No private moneys contributed to the provider shall be included by the department in its reimbursement rate determination unless these moneys are contributed for services provided to specific individuals for whom the reimbursement rate is established by the department.

d. Depreciation expense reported on the Capital Asset Use Allowance Schedule shall be computed according to 42 CFR 413.130 as amended to September 23, 1992, and the method (straight line depreciation) used as described at 42 CFR 413.134(a)(3)(i) as amended to September 23, 1992. For assets acquired on or after November 1, 1993, useful lives may be based on the 1988 American Hospital Association publication “Estimated Useful Lives of Depreciable Hospital Assets.” The 1981 edition of the AHA Guide shall continue to be used to compute useful lives of assets acquired prior to November 1993.

e. Assets shall be depreciated when the asset has a useful life of more than one year and a cost in excess of \$500.

185.102(2) Cost allocation. The cost allocation schedule shall be prepared in accordance with recognized methods and procedures, including the following:

a. Direct program expense shall include all direct client contact personnel involved in a program including the time of a supervisor of a program, or the apportioned share of the supervisor’s time when the supervisor has supervised more than one program.

b. Expenses other than salary and fringe benefits shall be charged as direct program expenses when the expenses are identifiable to a program.

c. A multiple program provider shall establish a method of cost allocation acceptable to the department. All expenses which relate jointly to two or more programs shall be allocated to programs by utilizing a documented cost allocation method consistently applied. The allocation method shall equitably distribute indirect program costs to reflect the benefit of the cost incurred to all applicable programs.

d. Occupancy expenses shall be allocated on a space utilization formula.

e. Family-centered, family foster care or group treatment optional therapy and counseling services may have a rate determined in common.

Family-centered, family foster care or group treatment optional skill development services may have a rate determined in common.

All services with rates determined in common shall have their maximum occupancy costs established pursuant to subrule 185.105(5) for family-centered, family preservation, or family foster care.

All services with rates determined in common shall have their maximum administrative costs established pursuant to subrule 185.105(7) for family-centered, family preservation, or family foster care.

185.102(3) *Records retention.* All revenue and expenses reported on Form 470-3049 shall be supported by a provider's general ledger and documentation on file in the provider's office. Failure to maintain records adequate to support the Rehabilitative Treatment and Supportive Services Financial and Statistical Report, Form 470-3049, may result in sanction or termination of the contract or other sanctions pursuant to rule 441—185.12(234). These records include, but are not limited to:

- a. Payroll information.
- b. Capital asset schedules.
- c. All canceled checks, deposit slips, invoices (paid and unpaid).
- d. Audit reports (if any).
- e. Board of directors' minutes (if applicable).
- f. Loan agreements and other contracts.
- g. Reviewable, legible census reports and documentation of units of service provided to department clients which identify the individual client shall be available on a daily basis and summarized on a monthly report. For nondepartment clients, sufficient documentation of utilization shall be maintained and made available to establish a complete unit of service count. The documentation prepared shall be retained by the provider for use at the time the financial and statistical report is prepared and for review by the department's fiscal consultant.
- h. Financial records must be retained for five years from the date of report submission as specified in 441—subrule 152.2(14).

185.102(4) *Independent audits.* When a provider has an independent audit conducted, the provider shall submit a copy of the independent audit report to the department within 30 days of receipt. A firm not related to the provider shall conduct the independent audit. The bureau of purchased services shall receive and maintain the report and provide a copy of the report to the bureau's fiscal consultant.

a. The department requires independent audits on an annual basis when a provider receives from the department \$500,000 or more from funds paid under contracts for rehabilitative treatment and supportive services and purchase of services for services provided in any state fiscal year.

(1) The legal entity that has contracted with the department must be the subject of this independent audit.

1. When the legal entity that has contracted with the department is a subsidiary of another legal entity and a separate independent audit of the contracting entity is not performed because a consolidated or combined audit of the larger entity is required by American Institute of Certified Public Accountants (AICPA) standards, the department will accept the consolidated or combined audit if supplemental schedules that separately identify the financial statements of the contracting legal entity are provided.

2. When contract services are provided by a subsidiary entity of the contracting entity and a consolidated or combined audit is performed, the department may require supplemental schedules to separately identify the financial statements of the subsidiary entity and the contracting entity. If a consolidated or combined audit is not performed, the department may require that the subsidiary entity also be the subject of an independent audit.

(2) Required audits shall be completed within six months of the end of a provider's established fiscal year end for the provider's established fiscal year that ends during the state fiscal year in question. The bureau of purchased services may approve an extension of this time period upon written request from the provider.

(3) Not-for-profit providers shall ensure that the audit of their financial statements follows one of the uniform audit report formats recommended by the American Institute of Certified Public Accountants in the most recent version of the AICPA Audit and Accounting Guide for Not-for-Profit Organizations.

(4) Other types of providers shall ensure that the audit of their financial statements follows the formats prescribed by the AICPA for their specific industry.

b. Providers receiving less than \$500,000 from funds paid under contracts for rehabilitative treatment and supportive services and purchase of services for services provided in any state fiscal year

annually are not required to have an independent audit. They shall submit a copy, as set forth in this rule, of any independent audit report they receive as a result of conducting an independent audit.

441—185.103(234) Submission of reports.

185.103(1) *New providers or current providers adding a new program.* New providers or current providers adding a program not currently under a contract developed pursuant to 441—Chapter 152 shall:

a. Submit a projected budget using the Rehabilitative Treatment and Supportive Services Financial and Statistical Report, Form 470-3049, 60 days prior to the desired contract effective date. The projected budget shall not duplicate direct or indirect costs paid by established program rates. New costs to be incurred as a result of the new program shall be included in the initial program budget.

b. Submit Form 470-3049 for the first six months of service (first actual report). The report shall be submitted within two months of the close of the reporting period. The first actual report shall not duplicate direct or indirect costs paid by established program rates. New costs incurred in the delivery of the new program shall be included in the first actual report. When the first actual report is contained in the year-end fiscal report, direct and indirect costs shall be allocated across all programs according to existing practice rules for cost allocations pursuant to 185.102(2)“c” and these costs shall be prorated according to the length of time each program was in operation during the fiscal year.

185.103(2) *Ongoing providers.* All providers shall submit Form 470-3049 no later than three months after the close of the provider’s established fiscal year. The year-end fiscal report shall allocate direct and indirect costs across all programs according to existing practice rules for cost allocation pursuant to 185.102(2)“c” and shall prorate these costs according to the length of time each program was in operation during the fiscal year.

185.103(3) *Review by project manager.* The project manager shall review Form 470-3049, and transmit it to the bureau of purchased services within two weeks of receipt.

185.103(4) *Untimely submission of financial report.*

a. Failure by providers to submit the report in time without written approval from the chief, bureau of purchased services or designee may be cause to reduce payment to 75 percent of the current rate.

b. Failure to submit a complete and correctly prepared report within six months of the date the report is due shall be cause for terminating the contract.

185.103(5) *Periodic review and audit.* Providers may be subject to periodic financial reviews and audits. Exceptions to costs identified by the department or its fiscal consultant shall be communicated to the provider in writing.

185.103(6) *Noncompliance.* When adjustments to prior financial and statistical reports indicate noncompliance with reporting instructions, the department may require the provider to submit an audited financial and statistical report and the certified public accountant’s or public accountant’s opinion.

185.103(7) *Reimbursement of individual providers.* A provider who is an individual shall have the option of obtaining a rate by completing the Rehabilitative Treatment and Supportive Services Financial and Statistical Report, Form 470-3049, or accepting a rate established by adding the following. Costs not specified below, including transportation costs, shall not be allowed.

1. The maximum salary established for skill development or therapy and counseling pursuant to 185.105(1)“c” or “f,” as applicable to the service provider.

2. The maximum level established for benefits pursuant to subrule 185.105(2).

3. The maximum occupancy established pursuant to subrule 185.105(5) for family-centered, family preservation, or treatment in foster family care.

4. The maximum administrative costs allowed pursuant to subrule 185.105(7) for family-centered, family preservation, or treatment services in foster family care.

Rates shall be established upon initial submission and recalculated annually on the anniversary of the effective date of the contract.

441—185.104(234) Expenses not allowed. The following expenses are not reimbursable to rehabilitative treatment providers and shall be excluded from rehabilitative treatment service costs.

1. Fees paid to directors and nonworking officers' salaries.
2. Bad debts.
3. Entertainment expenses.
4. Memberships in recreational clubs paid for by a provider (country clubs, dinner clubs, health clubs, or similar places) which are primarily for the benefit of the provider's employees, owners, executives, board members, and related parties.
5. Legal assistance on behalf of clients.
6. Costs for health care services other than the rehabilitative treatment services.
7. Food and lodging expenses for personnel incurred in the county of the personnel's residence or office of employment. Exceptions will be allowed for food and lodging expenses incurred as part of programmed activities on behalf of clients, their parents, or guardians when documentation to support the expense, those benefiting from the expense and the specific therapeutic necessity is available for audit purposes.
8. Business conferences, conventions, and meetings of a provider not required for licensure, contracting for or certification of rehabilitative treatment or supportive services. Expenses associated with meetings called by the department will be reimbursable.
9. Awards and grants to recognize board members, employees, and community citizens for achievement. Awards and grants to clients as part of rehabilitative treatment or supportive services are reimbursable.
10. Survey costs other than those specifically required for certification of rehabilitative treatment and supportive services.
11. Federal and state income taxes.
12. Contributions to a contingency reserve or any similar provision for unseen events are unallowable. Contributions to a reserve for a self-insurance program are allowable to the extent that the type of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks.
13. Outlays of cash with no prospective benefit to the facility or program, such as deposits, down payments and retainers.
14. Only assets acquired at a cost to a provider shall be depreciated. The depreciation level is limited to the amount expended to acquire the asset and place the asset in service.
15. Cost of fines and penalties resulting from failure to comply with federal, state and local laws or court rulings.
16. Costs of organized fund-raising in excess of revenues and donations received from fund-raising.
17. Costs of investment counsel and staff and similar expenses incurred solely to enhance income from investments and any investment losses.
18. Costs of prohibited activities for Internal Revenue Code Section 501(c)(3) organizations.
19. Organizational costs such as incorporation, fees to accountants, lawyers, brokers, for example, in connection with establishment or reorganization.
20. Advertising for client solicitation and all public relations expense are not reimbursable.
21. Imputed rental costs or other estimates of occupancy costs.
22. Costs for payments to foster parents or on behalf of a foster child, the 12 hours of preservice training, or the six hours of in-service training required for foster parent licensure and foster family insurance. The cost of foster family recruitment and foster family home studies are allowable only when the service for which the rate is being determined is the foster family home study within the conditions set forth at 441—156.7(4).
23. Costs resulting from staffing levels in excess of the minimum required by licensing or certification, whichever is higher and costs specifically limited or not allowed in the rules for a particular service. Group treatment prime programming time costs or costs resulting from staffing levels in excess of the minimum level required by licensing or certification may be allowed only to the extent that it has been determined by the certification process that the hours of prime time and a higher staff-to-client ratio

are required to appropriately meet the needs of the children being served during prime programming time, nonprime programming time and sleeping time.

24. All interest expenses. This rule applies to rates established on or after March 1, 1994.

441—185.105(234) Costs subject to limits. The department intends to reimburse providers for their reasonable and necessary costs of providing rehabilitative treatment and supportive services. For purposes of establishing payment rates for rehabilitative treatment and supportive services, the following necessary costs and categories of cost are limited to the stated reasonable levels:

185.105(1) Salaries. Reimbursable salaries per full-time equivalent administrative staff may not exceed the salary range established by the Iowa department of personnel for the comparable positions during the fiscal year. Reimbursable salaries for direct care and clerical staff may not exceed the percents specified in 185.105(1)“b” to 185.105(1)“g” of salary ranges established by the Iowa department of personnel for the comparable positions. The comparable positions are listed below:

a. Administrative staff described in account 2110 - Step 1, Human Service Area Administrator III.
b. Direct care supervisors. Effective November 1, 1993, the average salary shall not exceed 85 percent of the midpoint for a Social Worker III Supervisor. Effective July 1, 1994, the average salary shall not exceed 87 percent of the midpoint for a Social Worker III Supervisor. Effective July 1, 1995, the average salary shall not exceed 88 percent of the midpoint for a Social Worker III Supervisor. Effective July 1, 1996, the average salary shall not exceed 90 percent of the midpoint for a Social Worker III Supervisor.

c. Professional skill development staff for family-centered, family foster care, family preservation services, and group care optional services. Effective November 1, 1993, the average salary shall not exceed \$25,053. Effective July 1, 1995, the average salary shall not exceed 90 percent of the midpoint for a Social Worker II. Effective July 1, 1996, the average salary shall not exceed 90 percent of the midpoint for a Social Worker II.

d. Professional skill development staff in group homes and staff providing family-centered respite care and family-centered supervision services. Effective November 1, 1993, the average salary shall not exceed 70 percent of the midpoint for a Residential Treatment Worker. Effective July 1, 1994, the average salary shall not exceed 77 percent of the midpoint for a Residential Treatment Worker. Effective July 1, 1995, the average salary shall not exceed 84 percent of the midpoint for a Residential Treatment Worker. Effective July 1, 1996, the average salary shall not exceed 90 percent of the midpoint for a Residential Treatment Worker.

e. Direct care staff working during the hours children would normally be asleep. The average salary shall not exceed 90 percent of the salary level established at 185.105(1)“d.”

f. Therapy and counseling staff, psychosocial evaluation and behavioral management for children in therapeutic foster care staff. Effective November 1, 1993, the average salary shall not exceed 85 percent of the midpoint for a Social Worker III. Effective July 1, 1994, the average salary shall not exceed 87 percent of the midpoint for a Social Worker III. Effective July 1, 1995, the average salary shall not exceed 88 percent of the midpoint for a Social Worker III. Effective July 1, 1996, the average salary shall not exceed 90 percent of the midpoint for a Social Worker III.

g. Clerical and secretarial staff. Effective November 1, 1993, the average salary shall not exceed 80 percent of the midpoint for a Clerk Typist III. Effective July 1, 1994, the average salary shall not exceed 83 percent of the midpoint for a Clerk Typist III. Effective July 1, 1995, the average salary shall not exceed 87 percent of the midpoint for a Clerk Typist III. Effective July 1, 1996, the average salary shall not exceed 90 percent of the midpoint for a Clerk Typist III.

h. Fees paid to subcontractors providing or supervising the provision of rehabilitative or supportive services shall be subject to the applicable limitations described in 185.105(1)“a” to “g” or the maximum flat rate per full-time equivalent position established by the department by adding the following:

(1) The maximum salary established for therapy and counseling or direct care supervision pursuant to 185.105(1)“b,” “c,” or “f,” as applicable to the provider.

(2) The maximum level established for benefits pursuant to subrule 185.105(2).

(3) The maximum occupancy established pursuant to subrule 185.105(5) for family-centered, family preservation, or treatment in foster family care.

(4) The maximum administrative costs allowed pursuant to subrule 185.105(7).

The costs of subcontractors providing program consultation shall be reported as training costs.

185.105(2) Employee benefit costs. Employee benefits costs shall be limited to the percentage of salaries and wages budgeted for benefits by the department for the state fiscal year in which the agency's fiscal year begins. The percentage shall be applied to adjusted salaries. The actual budgeted percentage rate shall be rounded to the nearest one-half percent. The only exception that may be granted to this percentage is when a provider's health care premium increases substantially because the provider's health care group size is small and within the past year employee utilization of health care is the rationale for the increased premium. In order for this exception to be considered by the chief of the bureau of purchased services, the provider shall document that the increase is related to the employee utilization and that bids from three other comparable health care coverage sources have been received and these bids are similar to the provider's current health care rate.

185.105(3) Food cost. Food cost per day in group care shall not exceed the weighted average of food costs by child age range published in the U.S. Department of Agriculture, Family Economics Group survey. The published indices for low- and middle-income rural and Midwestern urban families shall be weighted by the percentage of children by age range in group care and shall be updated for inflation using the Consumer Price Index for Food at Home.

185.105(4) Clothing cost. Clothing cost per day in group care shall not exceed 65 percent of the weighted average of clothing costs by child age range published in the U.S. Department of Agriculture, Family Economics Group survey. The published indices for low- and middle-income rural and Midwestern urban families shall be weighted by the percentage of children by age range in group care and updated for inflation using the Consumer Price Index - Urban.

185.105(5) Occupancy costs. After all other limitations, reimbursable occupancy costs will be limited to the lower of actual provider costs or the applicable limit under "a" or "b" below:

a. Group care services - 16.7 percent of total group care costs.

b. Family-centered, family foster care and family preservation services - 6.4 percent of the total costs of these services.

185.105(6) Transportation costs.

a. All travel mileage by provider employees in personal or provider vehicles other than vans owned or leased by group care providers shall be reimbursed at the average of the state employee and Internal Revenue Service rates per mile. Travel mileage for transportation of group care clients in a van owned or leased by the group care provider shall be reimbursed at the rate for minivans established by the department of management's budget pricing information for vehicle rates. Per diem costs shall be reimbursed according to applicable state employee policies. All transportation and related costs including, but not limited to, depreciation of vehicles, automobile insurance and maintenance, are included in the per mile rate.

b. Reimbursement for air and other commercial travel shall not exceed the lesser of the minimum commercial rate or the rate for mileage in 185.105(6) "a" above.

185.105(7) Administrative costs. After all other limitations, administrative costs shall be limited to the lower of actual costs or the applicable limit under "a," "b," or "c" below:

a. Group care services - 18.9 percent of total group care costs.

b. Family-centered, family foster care and family preservation services - 15.4 percent of the total costs of rehabilitative treatment and supportive services.

c. For rates established for all rehabilitative treatment and supportive services on or after June 1, 1994, administrative costs shall be limited to the lower of the actual costs or 15.4 percent of the total costs of rehabilitative treatment and supportive services.

185.105(8) Training costs. Costs for participation in educational conferences and subscriptions for reference publications and program-related materials are limited to 1.4 percent of the agency's actual salary costs, less excluded or limited salary costs as recorded on the financial and statistical report. The

index for training costs will be the Annual American Society of Training and Development survey of U.S. employers.

185.105(9) *Annual meeting costs.* Reasonable annual meeting costs which are required by licensure are allowed.

185.105(10) *Moving and recruitment costs.* Moving and recruitment are allowed as a reimbursable cost only to the extent allowed for state employees. Expenses incurred for placing advertising for purposes of recruiting qualified individuals for staff positions are allowed for reimbursement purposes.

185.105(11) *Related party costs.* Costs applicable to services, facilities, equipment, and supplies furnished to the provider by organizations related to the provider through control, from ownership, capital investment, directorship or other means shall be included in the allowable cost of the provider at the cost to the related organization. Only costs which are determined to be necessary and reasonable at the provider level are allowable at the related organization level, unless these related organization costs are duplicative of provider costs already subject to reimbursement.

a. Allowable costs shall be all actual direct and indirect costs applying to any program or item interchanged between related parties, such as capital use allowance (depreciation), interest on borrowed money, insurance, taxes, and maintenance costs.

b. When the related party's costs are used as the basis for allowable rental or supply costs, the related party shall supply documentation of these costs to the provider. The provider shall complete a schedule displaying the amount paid to related parties, related party cost, and total amount allowable. The resulting costs shall be allocated according to policies in 185.102(2) "a" to "c."

Financial and statistical records shall be maintained by the related party under the provisions in subrule 185.102(3).

c. Tests for relatedness shall be those specified in paragraph "a" and 441—subrule 152.2(18). The department or the department's fiscal consultant shall have access to the records of the provider and landlord or supplier to determine if relatedness exists. Applicable records may include financial and accounting records, board minutes, articles of incorporation, and lists of board members.

185.105(12) *Foster parent training costs.* Costs for foster parent preservice and in-service training are limited to the hours required in 185.9(2) "b"(2) and 185.10(8) "b"(2).

185.105(13) *Volunteer recognition.* The amount of awards and grants to recognize volunteers whose activities relate to direct client rehabilitative treatment or supportive services shall not exceed \$3 per volunteer.

441—185.106(234) Establishment of reimbursement rates. Rates shall be established on the basis of net reasonable and necessary cost per unit of service as reported on the financial and statistical report and adjusted by the department's fiscal consultant.

185.106(1) *Calculation of cost per unit.* Costs per unit of service will be calculated as follows:

a. Aggregate, reasonable and necessary costs as defined in subrules 185.105(1) to 185.105(13).

b. Less non fee-for-service revenues, and certain contributions for services provided to certain individuals.

c. Divided by effective utilization described in 185.106(2) "a."

d. Multiplied by the inflation factor as described in 185.106(2) "b," as applicable to costs and cost categories which are not limited or subject to a prospective index.

185.106(2) *Adjusting factors.* Cost-based rates shall be established by applying the following adjusting factors.

a. The effective utilization level shall be 80 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program except for group care, which shall be as follows. The following effective utilization applies to all rates established on or after July 1, 1995, and shall be used to adjust rates established prior to July 1, 1995, for payment of services provided on or after July 1, 1995.

The effective utilization for group care facilities certified to provide community residential treatment and licensed pursuant to 441—Chapter 116 or 481—Chapter 57 or 63 shall be 95 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program.

EXCEPTION: The effective utilization for the service portion of the per diem rate for group care facilities certified to provide community residential treatment and licensed pursuant to 441—Chapter 116 or 481—Chapter 57 or 63 shall be 85 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program.

The effective utilization for all other group care facilities certified to provide community residential treatment and group care facilities certified to provide comprehensive residential treatment or enhanced residential treatment shall be 90 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program.

EXCEPTION: The effective utilization for the service portion of the per diem rate for all other group care facilities certified to provide community residential treatment and group care facilities certified to provide comprehensive residential treatment or enhanced residential treatment shall be 85 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program.

The effective utilization for all services provided by group care facilities certified to provide a highly structured juvenile program, including both the service and maintenance portion of the per diem rate, shall be 90 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program.

However, subsequent to the report submitted pursuant to 185.103(1)“b,” when the provider has failed to achieve a utilization rate of 70 percent during a cost report period, the subsequent rate shall be calculated on the basis of 100 percent of licensed or staffed capacity, whichever is less. This penalty shall be applied to cost reports due on or after December 1, 1994.

b. The applicable inflation factor is the percentage which shall be applied to costs for which prospective indices or other limits have not been established. The inflation factor is intended to overcome the time lag between the time period during which the rates will be in effect. The inflation factor shall be the amount by which the Consumer Price Index for all urban consumers increased during the preceding calendar year ending December 31.

(1) The inflation factor shall not be applied to prospective, budgeted costs or when the rate is established based on the report of costs incurred for less than 12 months.

(2) In no event shall the inflation factor cause the occupancy or administrative caps to be exceeded.

c. Rates established at reasonable and necessary cost per unit of service, net of related revenue, shall be subject to 185.106(4).

d. When a ceiling has been authorized by the legislature, the reimbursement rate shall be established by determining on a per unit basis the necessary and reasonable cost plus the current inflation factor subject to the maximum allowable cost ceiling.

e. The indices cited in subrules 185.105(1) to 185.105(4), 185.105(6), and 185.105(8) shall be reviewed and adjusted at the beginning of the state fiscal year and shall be applied to the first actual or the annual cost report due on or after that date. Adjustments shall be based on the most current data available on July 1.

185.106(3) Rate limits. Providers will be subject to the following rate limits:

a. Group care floor. For fiscal year 1994, combined service and maintenance components of the reimbursement rate paid to a group care provider shall not be below the rate in effect for that provider on October 31, 1993, or \$76.61 per day when a 360-day year is used, whichever is less. The floor shall be \$75.56 per day or the rate in effect for that provider on October 31, 1993, when a 365-day year is used.

b. Rates for new providers and for providers adding a new program to an existing contract under 441—Chapter 152. Payment rates for new providers and for providers adding a new program to an existing contract under 441—Chapter 152 shall be established according to the methodology described at 185.106(1)“a” to “d,” not to exceed the lower of:

(1) Budgeted cost per unit of service as computed under 185.106(1)“a” to “d.”

(2) The seventy-fifth percentile of rates for similar programs as computed at the beginning of the calendar year, beginning January 1, 1995. Rates established pursuant to projected budgets shall not be included in the percentile ranking.

c. Interruptions in a program will not affect the rate. If a provider assumes the delivery of program from another provider, the rate shall remain the same as for the former provider. If a provider ceases

to contract for and provide a service or program and later decides to again contract for and provide that program or service and has a contract for that service in effect within two years, the rate shall remain the same as previously paid unless this rate would be in excess of a ceiling authorized by the legislature. However, while those providers who resume contracting for and providing a service within two years will not submit a projected budget to reactivate their rate, they will be required to submit a first actual cost report in accordance with 185.103(1)“b.” Providers who resume contracting for and providing a service with an interruption of more than two fiscal years shall submit a projected budget in accordance with 185.103(1)“a.”

d. Rates for public agencies shall not knowingly be established in excess of their actual costs. Public agencies whose rates do exceed their actual costs are required to notify the department within one month of becoming aware of the situation. Once the department or a public provider becomes aware of a situation that will cause a public provider to receive reimbursement in excess of their actual costs, the provider shall request or the department shall cause the provider’s reimbursement rates to be lowered so as to avoid the necessity of a recoupment situation. Recoupment of overpayments, if necessary, will be handled in accordance with 185.122(1).

185.106(4) Unit of service and unit rates. For family-centered services, all members of a family shall collectively be considered one recipient of any unit of family-centered service. Service to the family or one or more of its members shall be considered one unit of service. For family foster care and group care, the child shall be considered the recipient of any unit of service.

a. The unit of service for family-centered and family foster care services shall be one-half hour of service provided on a face-to-face basis and directed toward the child. Monthly cumulative units shall be rounded up or down to the nearest whole unit.

b. The unit of service for family preservation shall be the family.

c. The unit of service for the required services provided in group care shall be one day based on a 365-day year. Rates in effect prior to July 1, 1995, shall be adjusted by multiplying them by 360 and dividing the result by 365 to establish the new rates effective July 1, 1995. Rates established on or after July 1, 1995, based on statistical information using a 360-day year shall be similarly adjusted. The unit of service for additional and optional services shall be one-half hour of service provided on a face-to-face basis and directed toward the child.

d. When co-therapy is provided, the provider shall bill at the rate for the unit of service for one therapist except as provided for as follows:

(1) When co-therapy is provided, the payment rates shall be determined by dividing the reasonable and necessary cost for the service by the average number of unrelated persons in attendance in the group.

(2) The co-therapy rate may be billed when the group consists of two or more families and four or more children. The rate for co-therapy shall be no more than 150 percent of the rate for group therapy and counseling services using one therapist. When the provider does not have a rate established for group therapy and counseling services using one therapist, 150 percent of the median rate for group therapy and counseling services using one therapist as determined by the department shall be used as the ceiling.

e. When therapy and counseling, restorative living skill development, and social or family skill development services are provided as a group service, the payment rates shall be determined by dividing the reasonable and necessary cost for that service by the average number of children or families in attendance at the group service.

441—185.107(234) Payment of new rates. New rates shall become effective according to the following four provider and service conditions.

185.107(1) Rates based on reports of costs for the provider’s fiscal year. Providers shall submit the Rehabilitative Treatment and Supportive Services Financial and Statistical Report, Form 470-3049, within three months of the close of the provider’s fiscal year. This form shall be used to report all reasonable and necessary costs for the entire fiscal year. Rates shall be adjusted based on the reported costs and a new rate established effective for programs provided beginning no later than the first day of the second month after receipt by the project manager of a complete financial and statistical report. However, no rate shall be effective prior to the effective date of the contract for a program.

185.107(2) Rates for new providers and current providers adding a new program. Rates based on a projected budget or the first actual report shall be effective no later than the first day of the second month after receipt by the project manager of a complete financial and statistical report. The provider handbook shall specify the information to be completed for the projected budget. However, no rate shall be effective prior to the effective date of the contract for a program.

185.107(3) Liability for payment. The department shall not be liable for payment for any programs prior to the contract effective date.

185.107(4) Utilization. Utilization for new family-centered, family preservation and family foster care programs shall not be budgeted at less than 80 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program. Utilization for new group care programs shall not be budgeted at less than the following: Utilization for group care facilities certified to provide community residential treatment and licensed pursuant to 441—Chapter 116 or 481—Chapter 57 or 63 shall be 95 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program. Utilization for all other group care facilities certified to provide community residential treatment and group care facilities certified to provide comprehensive residential treatment or enhanced residential treatment shall be 90 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program. The new provider or current provider adding a new program shall specify on the financial and statistical report the licensed capacity, when applicable, and the staffed capacity for each new program. Any changes in licensed or staffed capacity shall be reported on any subsequently submitted cost reports.

441—185.108(234) Conversion to fixed fee schedule. Rescinded IAB 11/5/97, effective 1/1/98.

441—185.109(234) Fiscal years 1997 and 1998 determination of rates. Rules 441—185.102(234) to 441—185.107(234) are held in abeyance for purposes of establishing rates effective during the time period beginning July 1, 1996, to June 30, 1998. The subrules set forth below shall be considered to comply with rule 441—185.108(234) for the time period they are in effect. Rates to be effective July 1, 1996, shall be established based on the rate in effect as of June 30, 1996, plus an index factor of 2 percent. Rates to be effective July 1, 1997, shall be established based on the rates in effect as of June 30, 1997. Any increases in rates to be effective July 1, 1997, shall be subject to availability of funding.

185.109(1) New services. When a new provider contracts to provide rehabilitative treatment or supportive services or an existing provider adds a new service, the rate for the new services shall be established based on the weighted average rate.

a. The weighted average rate to be effective for new services provided from July 1, 1996, to June 30, 1997, shall be calculated as specified in paragraph 185.109(1) “*b*” based on the rates in effect on July 1, 1996. The weighted average rate to be effective for new services provided on or after July 1, 1997, shall be the weighted average rate in effect for the previous year plus any index factor which has been applied for the establishment of rates for the time period July 1, 1997, to June 30, 1998.

b. The formula for calculation of the weighted average rate shall be as follows:

The weighted average shall be computed by multiplying the rate for each similar service in effect as of July 1, 1996, by the number of units of each service provided to department clients. The products shall be totaled and divided by the total number of units provided to department clients as reported on the most recently submitted financial and statistical reports on which rates were established. All financial and statistical report data shall be annualized to provide equitable treatment of all provider rates. Rates not established through the use of the Rehabilitative Treatment and Supportive Services Financial and Statistical Report, Form 470-3049, shall not be considered when establishing the weighted average rate.

c. New rates shall only be established for services that a provider is not already providing. If a provider already has a rate for a similar service, the provider shall be required to use that rate for all similar services. If a provider has more than one rate for a similar service, the rate shall be the simple average of the rates in effect.

d. If there are less than four rates for a specific service, the department shall determine the rate for that service code by requiring financial and statistical reports reflecting the projected costs for the

new service to be submitted in accordance with rules 441—185.102(234) to 441—185.107(234). When the costs are being submitted for a current provider adding a program not currently under a contract developed pursuant to 441—Chapter 152, the provider shall report the projected costs for the new service on a copy of the most recently submitted Financial and Statistical Report, Form 470-3049, on which rates have been established. This report shall show any adjustments to the Certification Page. The salary schedule, Schedule B, is to be adjusted on the correct line item for that position. Adjustments shall also be made to any line item on Schedule D-1 so that the dollar volume increase because of the new services is reflected on Schedule D-1.

The report of actual costs pursuant to paragraph 185.103(1) “b” shall be a report of costs only for the new service.

185.109(2) Transition provisions.

a. If a provider has submitted an annual financial and statistical report but no rate has been established based on that report, the rate to be in effect July 1, 1996, shall be the rate in effect June 30, 1996, plus the 2 percent index factor.

b. If a provider has submitted a first actual financial and statistical report, but no rate has been established based on that report, the rate to be in effect July 1, 1996, shall be the projected rate in effect June 30, 1996, plus the 2 percent index factor.

c. If a provider has submitted a projected budget but no rate has been established based on that budget, the rate to be effective July 1, 1996, shall be the weighted average rate.

d. If a provider has had a rate of zero due to lack of utilization, the rate shall be established using the weighted average rate for that service upon request from the provider and to be effective the first of the month following receipt of the request.

185.109(3) Public agencies. Public agencies shall comply with paragraph 185.106(3) “d.”

185.109(4) Interruptions in a program. Interruptions in a program shall not affect the rate. If a provider assumes the delivery of a program from another provider, the rate shall remain the same as for the former provider. If a provider ceases to contract for and provide a service or program and later decides to again contract for and provide that program or service and has a contract for that service in effect within two years, the rate shall be established at the rate in effect when service was interrupted unless otherwise specified below. If the service was interrupted prior to July 1, 1996, and reinstated between July 1, 1996, and June 30, 1997, the rate shall be the rate in effect at the time of interruption plus 2 percent. If the service was interrupted prior to July 1, 1996, and the service is reinstated between July 1, 1997, and June 30, 1998, the rate shall be the rate in effect when the interruption occurred plus 2 percent and any index factor applied for rates effective July 1, 1997. If the service was interrupted after July 1, 1996, and is reinstated after July 1, 1997, the rate shall be the rate in effect when the interruption occurred and any index factor applied for rates effective July 1, 1997.

185.109(5) Maintenance of fiscal records. Subrules 185.102(1) to 185.102(3), rule 441—185.104(234), subrules 185.105(11) and 185.106(1), paragraph 185.106(3) “d,” and subrule 185.106(4) shall be used as the basis for maintenance of fiscal records.

185.109(6) Certified audits. Certified audits shall be conducted and the reports submitted to the department as set forth in subrule 185.102(4).

185.109(7) Billing. For billing purposes, subrule 185.106(4) remains in effect.

185.109(8) Rates for services provided on or after July 1, 1998. In absence of an alternative rate-setting methodology effective July 1, 1997, rules 441—185.102(234) to 441—185.107(234) shall be the basis of establishing rates to be effective for services provided on or after July 1, 1998.

a. In absence of a fixed fee schedule pursuant to rule 441—185.108(234) or other new rate-setting methodology set forth in rule, all providers, regardless of when their fiscal year ends, shall submit a Financial and Statistical Report, Form 470-3049, for the time period July 1, 1997, to December 31, 1997, based on the cost principles set forth in rule 441—185.101(234) to 441—185.107(234). This report shall be submitted no later than March 31, 1998. Rates based on reports submitted pursuant to this paragraph shall be effective no earlier than July 1, 1998, and no later than August 1, 1998, when the report is sufficient for the establishment of rates. However, if a provider with a contract in effect as of June 30, 1996, has a fiscal year which ends at the end of January, February, or March 1998, the provider

shall submit the financial and statistical report for the time period July 1, 1997, through the end of the provider's fiscal year, 1998. The report shall be submitted no later than three months after the close of the provider's established 1998 fiscal year. Rates shall be effective no later than the first day of the second full month after receipt by the project manager of a complete financial and statistical report.

b. Failure by providers to submit the report within the established time frames without written approval from the chief of the bureau of purchased services or the chief's designee shall be cause to reduce the payment to 75 percent of the rate in effect June 30, 1998, or the weighted average rate as of July 1, 1997, whichever is less. Approval for an extension for the submission shall be granted only when the provider can demonstrate that there have been catastrophic circumstances prohibiting timely submission.

c. If an extension is granted, the rate in effect as of June 30, 1998, shall be continued until the new rate is established. If a new rate is not established by the date set forth by the chief of the bureau of purchased services or the chief's designee in the notice of approval of the request to extend the time frame for submission of the Financial and Statistical Report, Form 470-3049, the provider's rate in effect as of June 30, 1998, shall be reduced to 75 percent of the rate in effect June 30, 1998, or the weighted average rate as of July 1, 1997, whichever is less, until such time as the new rate can be established.

d. If a provider has submitted the report on time, but a rate cannot be established within four months of the original due date due to incomplete or erroneous information, payment shall be reduced to 75 percent of the rate in effect June 30, 1998, or the weighted average rate as of July 1, 1997, whichever is less, until such time as the new rate can be established.

e. All subsequent financial and statistical reports shall be submitted within the time frames established pursuant to subrule 185.103(1).

f. Rates for individual providers shall be established pursuant to subrule 185.103(7) with the exception of rates to be in effect July 1, 1998. Individual providers shall submit to the department the information required by subrule 185.103(7) no later than March 31, 1998, to establish rates to be effective July 1, 1998. Rates shall be recalculated annually on the anniversary of the effective date of the contract from that point forward.

185.109(9) *Audit adjustments.* If the department or its authorized representatives conduct an audit and the audit findings result in exceptions to costs and adjustment to the rate in effect June 30, 1996, and the June 30, 1996, rate was the basis of the rate established effective July 1, 1996, the July 1, 1996, rate shall be adjusted in accordance with the audit findings.

185.109(10) *Liability for payment.* The department shall not be liable for payment for any programs or services prior to the contract effective date or the effective date for the rate for the program or service.

441—185.110(234) *Providers under an exception to policy for establishing rates.* When a provider has been granted an exception to rules 441—185.102(234) to 441—185.107(234) by the director prior to June 30, 1996, and the rate was established based on that exception by June 30, 1996, the exception shall continue in effect as written.

The rate in effect June 30, 1996, shall be frozen. The rate to be effective July 1, 1996, shall be the frozen rate plus a 2 percent index factor. If the rate based on the exception to policy was not established by June 30, 1996, the rate in effect as of June 30, 1996, shall be frozen and the rate to be effective July 1, 1996, shall be the frozen rate plus a 2 percent index factor. If the provider has a zero rate or no rate has been established for the service, the rate shall be established pursuant to subrule 185.109(1). However, for out-of-state providers with an exception to policy to establish rates based on the rates established by the state in which the provider is located, rates shall continue to be established in accordance with the existing exception to policy.

441—185.111(234) *Data.* The data to be used in calculating the fiscal impact of any proposed rules for a cost-based rate-setting methodology to become effective July 1, 1997, and to be used for the establishment of rates to be effective July 1, 1998, shall be the data from financial and statistical reports on which rates were established as of June 30, 1996.

These rules are intended to implement Iowa Code sections 234.6 and 234.38.

441—185.112(234) Determination of rates. Rules 441—185.102(234) to 441—185.107(234), 185.109(234) and 185.110(234) shall be held in abeyance for purposes of establishing rates effective January 1, 1998, unless otherwise provided for in these rules. Rates for a service to be effective on or after February 1, 1998, shall be established based on the payment rate negotiated between the provider and the department. This negotiated rate shall be based upon the historical and future reasonable and necessary cost of providing that service, other payment-related factors and availability of funding. Negotiated rates may be increased without negotiation if funds are appropriated for an across-the-board increase. A rate in effect as of December 31, 1997, shall continue in effect until a negotiated rate is established in accordance with the requirements of subrules 185.112(1) to 185.112(3), 185.112(6), or 185.112(12), or a rate is established in accordance with subrule 185.112(14), or until the service is terminated in accordance with subrule 185.112(4).

185.112(1) Negotiation of rates. Rates for services to be made effective on or after February 1, 1998, must be established in accordance with this subrule except as provided for at subrule 185.112(12) or 185.112(14).

a. On or after January 1, 1998, the department shall begin negotiating payment rates with providers of rehabilitative treatment and supportive services to be effective for services provided on or after February 1, 1998.

b. The scope of these negotiations is limited solely to the rate to be paid for each service.

(1) No other items, such as, but not limited to, changes in staff qualifications, service definition, required components, allowable costs or any licensing, certification or any contract requirement can be the subject of negotiations or used as a basis for changing rates except as provided for at subparagraph 185.112(1)“f”(7).

(2) The initial negotiation of rates pursuant to rule 441—185.112(234) shall encompass all of the services in the existing rehabilitative treatment and supportive services contract.

c. The service area manager of the host area is responsible for the negotiation of rates for each provider whose contract for rehabilitative treatment and supportive services is administered by the host area, regardless of where services are provided.

(1) The host area shall take into consideration the other service areas served by a provider when negotiating a rate for a service provided in multiple service areas.

(2) When a service is provided only in a nonhost area, the two service area managers shall determine which service area will negotiate the rate for that service.

d. The service area manager of the host area and the provider are mutually responsible for initiating the rate negotiation process. Negotiations should begin no later than May 1, 1998. Negotiations may be conducted in a manner acceptable to both parties but shall be conducted face to face upon the request of either party.

e. The provider must disclose any and all relevant subcontractual and related party relationships related to the provision of rehabilitative treatment or supportive services at the initiation of the rate negotiation process.

(1) This disclosure shall include all current and any proposed subcontracts that relate to the direct provision of rehabilitative treatment or supportive services for which rates are being negotiated. The provider shall make a written statement disclosing any current or proposed subcontracts that may relate to the rehabilitative treatment and supportive services for which rates are being negotiated.

(2) This disclosure shall include all transactions with related parties as defined at paragraph 185.105(11)“c” or 441—subrule 152.2(18) that may relate to the rehabilitative treatment and supportive services for which rates are being negotiated. The provider shall make a written statement disclosing any current related party transactions that may relate to the rehabilitative treatment and supportive services for which rates are being negotiated. This disclosure is only required when either the department or the provider seeks to establish a rate different than the rate used as the starting point for rate negotiations.

(3) Failure by a provider to comply with these requirements shall be considered a violation in accordance with subrule 185.12(6) and may result in sanctions being imposed or the withholding of payments.

f. For those services with a nonzero payment rate in effect on December 31, 1997, the rate in effect on December 31, 1997, shall be used as the starting point for rate negotiations. For rates to be effective on or after February 1, 1998, the department and the provider by mutual written agreement may either leave the rate in effect as of December 31, 1997, at its current level or they may raise or lower the rate in effect as of December 31, 1997. Adjustment of the rate in effect as of December 31, 1997, shall be based on the following factors:

(1) Changes in the Consumer Price Index for all Urban Consumers (CPI-U). Any adjustment based on changes in the CPI-U shall not exceed the amount by which the CPI-U increased during the previous calendar year.

(2) Changes in a provider's allowable costs based on current actual cost data or documented projections of cost. Allowable costs are those costs not excluded pursuant to rule 441—185.104(234).

(3) Changes in program utilization that impact the per unit cost of a program. Rates shall not be adjusted based on utilization levels that are below the minimum effective utilization of 80 percent or actual (whichever is higher) of the licensed or staffed capacity (whichever is less) of the program. If actual utilization is used as a basis for adjusting a rate, the actual effective utilization for the 12-month period immediately preceding the initiation of rate negotiations shall be used.

(4) Changes in the department's expectations of where a service must be delivered.

(5) Changes proposed by a provider and agreed to by the department of where a service must be delivered.

(6) Loss of a grant by a provider when the grant amount had previously been used to offset expenses which had resulted in a lower rate for rehabilitative treatment and supportive services.

(7) Changes in state or federal laws, rules or regulations that result in a change in the costs attributable to the services in question, including minimum wage adjustments.

(8) Competitive factors between providers.

(9) Department funding availability.

g. Existing providers who currently have a contract to provide a service where the payment rate has been established at zero prior to January 1, 1998, may use the weighted average rate established pursuant to paragraph 185.112(2)“c” for that service in lieu of their existing rate as the starting point for negotiations unless they have a nonzero rate for a similar service. If a provider has a nonzero rate for a similar service, the starting point for rate negotiations shall be established pursuant to paragraph 185.112(2)“a” or “b.”

h. Negotiated rates are subject to the following additional limitations.

(1) For public agencies, profit or other increment above cost is not allowed (see subrule 185.112(5)). For private entities there is no provision for or prohibition of profit in these rules.

(2) Rates for cotherapy services continue to be subject to the limitations specified at subparagraph 185.106(4)“c”(2).

(3) Rates shall not exceed any rate ceiling established or authorized by the legislature.

(4) Rates to be paid may not exceed the limits established by 441—subrule 152.2(17).

i. The basis for any and all changes from the rate used as the starting point for negotiations shall be documented. A copy of all documentation shall be attached to the Rehabilitative Treatment and Supportive Services Negotiated Rate Establishment Amendment, Form 470-3404, when it is submitted to the bureau of purchased services for implementation.

j. Only the service area manager of the host area may approve the rates negotiated for a provider.

(1) This approval shall be based upon the historical cost basis used for establishing those rates and the documented factors justifying variation from those historical costs.

1. Payment rates in effect as of December 31, 1997, shall be considered to be sufficiently documented and no justification is required for continuing a rate in effect as of December 31, 1997.

2. Payment rates set at the weighted average rate for a service shall be considered to be sufficiently documented and no justification is required for establishing or maintaining a rate at the weighted average level.

(2) After both the provider and the service area manager of the host area have signed the Rehabilitative Treatment and Supportive Services Negotiated Rate Establishment Amendment, Form

470-3404, it shall be submitted to the bureau of purchased services along with the written disclosure required at paragraph 185.112(1)“e” and any necessary documentation to support changes in the rate from the historical cost base as required by paragraph 185.112(1)“h.”

(3) The effective date of the rate for a new service shall be the effective date of a new contract or the effective date of the contract amendment adding that new service to an existing contract unless a later effective date is agreed to by both parties.

(4) The effective date of the rate for an existing service shall be the first of the month following the month in which the Rehabilitative Treatment and Supportive Services Negotiated Rate Establishment Amendment, Form 470-3404, and all necessary supportive documentation and disclosures are received by the bureau of purchased services by the fifteenth of the month.

k. Once a negotiated rate is established based on the provisions of this subrule, it shall not be changed or renegotiated during the period of this rule except in the following circumstances:

(1) By mutual consent of the provider and the service area manager of the host area based upon the factors delineated at paragraph 185.112(1)“f,” except that rates shall not be changed or renegotiated for the period of July 1, 2000, through June 30, 2009.

(2) In accordance with paragraph 185.112(6)“b,” except that rates shall not be changed or renegotiated for services not assumed by a new provider for the period of July 1, 2000, through June 30, 2009.

(3) Rates may be changed when funds are appropriated for an across-the-board increase. A 1 percent cost-of-living adjustment will be applied to those rates in effect as of June 30, 2008.

185.112(2) *New services.* When a new provider contracts to provide a rehabilitative treatment or supportive service or an existing provider adds a new rehabilitative treatment or supportive service on or after January 1, 1998, the rate for the new service shall be established based on a payment rate negotiated in accordance with subrule 185.112(1) using the weighted average rate for that service in lieu of an existing rate as the starting point for negotiations.

a. If an existing provider already has a rate for a similar service and wishes to establish a second rate for that service, the starting point for rate negotiations for the second rate shall be the starting point used in negotiations for the provider’s already established rate for that similar service.

b. If an existing provider has more than one rate for a similar service and wishes to establish an additional rate for that service, the starting point for rate negotiations shall be established by the service area manager of the host area and shall be one of the following: the starting point of that provider’s established rate for the similar service most closely resembling the proposed service, or the simple average of the starting points of all of the provider’s established rates for similar services.

c. The weighted average rate is the weighted average rate for each service as of July 1, 1997, as previously established in accordance with subrule 185.109(1).

d. For those services where no weighted average rate has been established because there are less than four rates existing for that service or for newly developed rehabilitative treatment and supportive services, the department shall determine the cost of that service by requiring financial and statistical reports reflecting the costs for the new service to be submitted in accordance with rules 441—185.102(234) to 441—185.107(234). Initial projected rates established in accordance with this subrule shall become effective in accordance with subrule 185.107(2).

The report of actual costs pursuant to paragraph 185.103(1)“b” shall be used only to establish the historical costs of the new service which shall be used as the starting point in the rate negotiation process. The negotiated rate established in accordance with subrule 185.112(1) based upon the actual cost report shall become effective in accordance with paragraph 185.112(1)“j.”

185.112(3) *Rate resolution process.* The rate resolution process may be used when the department and a provider are unable to agree upon a rate for a service within 60 days of initiating rate negotiations.

a. This process involves obtaining an independent mediator who is agreeable to both parties.

b. The cost of the mediator shall be borne equally by the provider and the department. Neither party to the mediation shall be liable for paying for more than that party’s share of the cost for eight hours of mediation unless this is mutually agreed upon prior to initiation of the mediation process.

c. The rate resolution process must be concluded within 60 days of its initiation.

d. The mediator shall not make rate-setting decisions. The role of the mediator is to facilitate discussions between the parties in an effort to help the parties reach a mutual agreement.

185.112(4) Failure to reach agreement on rates. In the event the department and the provider are unable to reach agreement on a rate, the following procedures apply:

a. If the department and an existing provider are unable to reach agreement on a negotiated rate for an existing service with a published rate within 60 days of initiating negotiations or by June 30, 1998, whichever comes first, the rate resolution process may be used.

(1) Whether or not the rate resolution process is used, if agreement is not reached by September 30, 1998, the service shall be deleted from the provider's rehabilitative treatment and supportive services contract no later than November 30, 1998.

(2) If agreement is reached, the rate shall become effective in accordance with the provisions of paragraph 185.112(1) "i."

b. In the event the department and an existing provider are unable to reach agreement on a rate for a new service or an existing service without a published rate within 60 days of initiating rate negotiations, the rate resolution process may be used.

(1) If the rate resolution process is not used, and agreement is not reached within 120 days of initiating negotiations, no rate shall be established.

1. For new services, any contract amendment associated with that rate shall be denied.

2. For existing services without a rate, the contract shall be amended to delete this service from the contract.

(2) If the rate resolution process is used and no rate is agreed upon within 60 days of referral to the rate resolution process, no rate shall be established.

1. For new services, any contract amendment associated with that rate shall be denied.

2. For existing services without a rate, the contract shall be amended to delete this service from the contract.

3. If agreement is reached within the required time frames in either of the above situations, the rate shall become effective in accordance with the provisions of paragraph 185.112(1) "i."

c. In the event the department and a new provider are unable to reach agreement on a rate for a service within 60 days of initiating rate negotiations, the rate resolution process may be used. If no rate is agreed upon within 60 days of initiation of the rate resolution process, no rate shall be established and the services in question shall not be a part of any approved contract for rehabilitative treatment and supportive services. In the event that the department and a new provider cannot reach agreement on any rates, the contract shall be denied.

d. In all cases, a service for which a negotiated rate has not been established in accordance with subrule 185.112(1), except as provided for at subrule 185.112(12), on or before September 30, 1998, shall be terminated from the provider's contract for rehabilitative treatment and supportive services no later than November 30, 1998.

e. The department shall not be liable for payment for any rehabilitative treatment or supportive service that does not have a rate established in accordance with subrule 185.112(1), except as provided for at subrule 185.112(12), that is provided after November 30, 1998.

185.112(5) Public agencies. Public agencies shall be required to demonstrate their compliance with paragraph 185.106(3) "d."

185.112(6) Interruptions in a program.

a. If a provider assumes the delivery of a program from a related party provider as defined at paragraph 185.105(11) "c" or 441—subrule 152.2(18), the rate for the new provider shall remain the same as the rate established for the former provider. The rate for the new provider shall also remain the same as for the former provider if the difference between the former and the new provider is a change in name or a change in the legal form of ownership (i.e., a change from sole proprietorship to corporation).

b. Except as provided in paragraph "a" above, when a new provider assumes the delivery of a program from another provider, all rates for the services previously provided by either provider shall need to be reviewed and may be renegotiated at the request of either party.

c. If a provider ceases to contract for and provide a service or program on or after July 1, 1996, and prior to establishing a negotiated rate in accordance with subrule 185.112(1), decides to again contract for and provide that program or service, the nonzero rate in effect when the contract ceased shall be used as a starting point in negotiating a new rate in accordance with subrule 185.112(1) for that service.

d. If an existing provider ceases to contract for and provide a service or program for which a zero rate has been established, and decides to again contract for and provide that program or service, the rate shall be established in accordance with subrule 185.112(2) and the starting point for negotiations shall be the weighted average rate.

e. If a provider ceases to contract for and provide a service or program after a rate has been established in accordance with subrule 185.112(1) and decides to again contract for and provide that program or service, the rate shall be established at the rate in effect when service was interrupted.

f. Rates for services interrupted prior to July 1, 1996, shall be treated as a new service in accordance with subrule 185.112(2).

185.112(7) Maintenance of fiscal records. Subrules 185.102(1) to 185.102(3), rule 441—185.104(234), subrules 185.105(11) and 185.106(1), paragraph 185.106(3)“d,” and subrule 185.106(4) shall be used as the basis for maintenance of fiscal records.

185.112(8) Certified audits. Certified audits shall be conducted and the reports submitted to the department as set forth in subrule 185.102(4).

185.112(9) Billing. Subrule 185.106(4) remains in effect for billing purposes.

185.112(10) Rates for services provided on or after July 1, 2000. Rescinded IAB 12/1/99, effective 2/1/00.

185.112(11) Liability for payment. The department shall not be liable for payment for any programs or services prior to the contract effective date or the effective date for the rate for the program or service.

185.112(12) Providers under an exception to policy for establishing rates. When a provider has been granted an exception to rules 441—185.102(234) to 441—185.107(234) or 441—185.109(234) by the director of the department prior to January 1, 1998, the exception shall continue in effect as written for any provider not located in the state of Iowa and for which the exception was based upon another state’s requirement that providers be paid the same rate they are paid for clients from the provider’s home state. The exceptions for all other providers shall terminate and the conditions leading to the exceptions being approved shall be considered in the rate establishment negotiations.

185.112(13) Review of rate negotiations. Rate negotiations are considered rate determinations and shall be handled in accordance with the provisions for rate determinations at rule 441—152.3(234). Requests for review of rate determinations shall be granted only if the rate resolution process as defined at subrule 185.112(3) has been used.

185.112(14) Establishment of statewide fixed rates. Rescinded IAB 7/2/08, effective 7/1/08.

441—185.113 to 185.120 Reserved.

DIVISION VII
BILLING AND PAYMENT PROCEDURES

441—185.121(234) Billing procedures. At the end of each month, the provider agency shall prepare Form 470-0020, Purchase of Service Provider Invoice, for contractual services provided by the agency during the month.

Separate invoices shall be prepared for each county from which clients were referred and each program. Complete invoices shall be sent to the department county office responsible for the client for approval and forwarding for payment.

Providers shall never bill for more than one month of service. A separate invoice is required for each separate month of service, even if the service span overlaps one month.

185.121(1) Time limit for submitting invoices. The time limit for submission of original invoices shall be 90 days from the date of service, except at the end of the state fiscal year when claims for services through June 30 are to be submitted by August 10.

185.121(2) Resubmittals of rejected claims. Valid claims which were originally submitted within the time limit specified in 185.121(1) but were rejected because of an error shall be resubmitted as soon as corrections can be made.

185.121(3) Payment. Within 60 days of the date of receipt of a valid invoice, the department shall make payment in full of all invoices concerning rehabilitative treatment and supportive services rendered to clients, provided the invoices shall be subject to audit and adjustment by the department.

441—185.122(234) Recoupment procedures. Public agencies that are reimbursed more than their actual costs are required to refund any excess to the department within four months of the end of their fiscal year. No provision for profit or other increment above cost is intended in OMB Circular A-87 for public agencies. Those public providers subject to this provision who fail to comply with this requirement shall be considered to be in violation of 185.12(1) "r" and subject to sanctions. Providers who do not refund any excess payments within six months of the end of their fiscal year shall be given notice in accordance with 185.12(6) and have any and all payments suspended or withheld in accordance with 185.12(7).

441—185.123 to 185.125 Reserved.

DIVISION VIII
OVERPAYMENT PROVISIONS

441—185.126(234) Calculation of overpayments. Overpayment amounts shall be calculated by multiplying the unit rate by the number of units of the service for which the provider received payment in error.

185.126(1) Random sampling and extrapolation. When random sampling and extrapolation are used, the overpayment shall be calculated in accordance with paragraph 185.13(2) "e."

185.126(2) Special provisions for group care. The procedures in this subrule shall be applied to any billing audits initiated on or after December 1, 2003.

a. Determining the amount of overpayment for each child. When the department identifies an overpayment in a community, comprehensive, or enhanced group care service as a result of a provider's failure to meet the requirements for group care therapy and counseling established in subrule 185.83(5) or failure to meet the requirements for group care skill development as established in subrule 185.83(1), 185.83(2), or 185.83(3), the amount of overpayment for that service for a child during a calendar month shall be calculated as follows:

(1) Multiply the number of days for which the skill development requirement for the client was not met (deficient skill development days) by the unit rate. This is the skill development overpayment amount.

(2) Subtract the number of deficient skill development days from the number of days for which the provider received payment. The number of days remaining, if any, shall be used to determine the number of hours of acceptable therapy and counseling required pursuant to subrule 185.83(5). Any acceptable therapy and counseling provided during deficient skill development days shall be counted toward the therapy and counseling minimum requirement.

(3) Determine whether the amount of acceptable therapy and counseling provided and documented for the client during the calendar month is less than the number of hours of therapy and counseling required for the number of days of group care paid for during the calendar month that remains after adjusting for skill development deficiencies. If so, subtract the amount of acceptable therapy and counseling provided and documented for the client during the calendar month from the number of hours of therapy and counseling required for the remaining number of days of group care paid for the client during the calendar month. Divide this remainder by the required number of hours of therapy and counseling for the remaining number of days of group care paid for the client during the calendar month. The result of this division, expressed as a percentage, is the therapy and counseling deficiency percentage.

(4) Subtract the skill development overpayment amount from the total payment for this service code for this child for this month.

(5) Multiply the remaining payment, if any, by the therapy and counseling deficiency percentage. The result is the therapy and counseling overpayment amount.

(6) Add the skill development overpayment amount to the therapy and counseling overpayment amount. The result is the total overpayment amount for the child for the service code for the calendar month.

b. Determining the total overpayment amount. Add the overpayment amounts for all clients for the service code for each calendar month together to determine the total overpayment amount.

(1) If extrapolation is not used, this amount is the total overpayment amount.

(2) If random sampling and extrapolation are used, then this amount is used to calculate the sample error payment rate in accordance with subparagraph 185.13(2) "e"(3). The sample error payment rate is then used to calculate the extrapolated overpayment.

c. Examples. The examples set forth below are designed to address only the overpayment calculation with respect to per diem service, and do not address overpayment calculations with respect to per diem maintenance, additional services or optional service. The following examples illustrate the calculation of the overpayment amount for per diem service on rehabilitative and supportive services group foster care audits:

EXAMPLE 1. The provider furnishes comprehensive residential treatment to Child A for the month of July. Child A was discharged on July 27, so the provider may bill for only 26 days of service for July. The provider has mistakenly billed for 31 days of service for July. The provider has billed a per diem rate of \$90 for each day of service, representing a total billing for July of \$2,790 ($\90×31).

Upon audit, it is determined that the provider has properly documented skill development services for each of the days the child was present in the facility and has furnished five hours of therapy and counseling to Child A during July. The overpayment calculation with respect to Child A is as follows:

The erroneous billing for five days of service during the month results in an audit adjustment of \$450 ($\90×5). The requirement for therapy and counseling for the number of days of service for which the provider may bill (26) is six hours, but only five hours of therapy and counseling were provided, resulting in an error rate of 16.67 percent ($((6 - 5) \div 6 = 16.67 \text{ percent})$).

This error rate is then multiplied by the difference between the total amount the provider billed for the month (\$2,790) less the overpayment for the erroneous billing (\$450). There is no audit adjustment for skill development since the required skill development was properly documented. Thus, the overpayment for therapy and counseling is \$390 ($(\$2,790 - \$450) \times 16.67 \text{ percent} = \390).

The total overpayment amount is \$840, the sum of the overpayment for the erroneous billing (\$450) and the overpayment for therapy and counseling (\$390).

EXAMPLE 2. The provider furnishes community residential group treatment to Child B for the month of August. A provider may bill for the day of admittance to the program if service provision requirements for that day are otherwise satisfied. Since Child B was admitted to the program on August 14, Child B was present in the program for 18 days during the month. The provider has billed a per diem rate of \$75 for each day of service, representing a total billing for August of \$1,350 ($\75×18).

Upon audit, it is determined that the provider failed to document the provision of skill development for two of the days during the service period during the month and that the provider has furnished 1.5 hours of therapy and counseling to Child B during August. The overpayment calculation with respect to Child B is as follows:

The failure to document the provision of skill development for two days of service during the month results in an audit adjustment for skill development of \$150 ($\75×2).

The requirement for therapy and counseling for the number of days of service for which the provider may bill (16) is two hours, but only 1.5 hours of therapy and counseling were provided, resulting in an error rate of 25 percent ($((2 - 1.5) \div 2 = 25 \text{ percent})$). This error rate is then multiplied by the difference between the total amount billed by the provider for the month (\$1,350) less the overpayment determined for skill development (\$150). Thus, the overpayment for therapy and counseling is \$300 ($(\$1,350 - \$150) \times 25 \text{ percent} = \300).

The total overpayment amount is \$450, the sum of the overpayment for skill development (\$150) and the overpayment for therapy and counseling (\$300).

EXAMPLE 3. The provider furnishes enhanced residential treatment to Child C for the month of September. Child C is present in the program from the beginning of the month until discharged from the program on September 16. Since a provider may not bill for the day of discharge, the provider bills for 15 days of service for the month. The provider has billed a per diem rate of \$100 for each day of service, representing a total billing for September of \$1,500 (\$100 x 15).

Upon audit, it is determined that the provider has documented the required skill development for the month and has furnished four hours of therapy and counseling to Child C during September. The overpayment calculation with respect to Child C is as follows:

There is no audit adjustment for skill development since the required skill development was properly documented.

The requirement for therapy and counseling for the number of days of service for which the provider may bill (15) is six hours, but only four hours of therapy and counseling were provided, resulting in an error rate of 33.33 percent $((6 - 4) \div 6 = 33.33 \text{ percent})$. This error rate is then multiplied by the difference between the total amount the provider billed for the month (\$1,500) less the overpayment determined for skill development (\$0). Thus, the overpayment for therapy and counseling is \$500 $((\$1,500 - \$0) \times 33.33 \text{ percent} = \$500)$.

The total overpayment amount is \$500, the sum of the overpayment for skill development (\$0) and the overpayment for therapy and counseling (\$500).

These rules are intended to implement Iowa Code sections 234.6 and 234.38.

[◇] Two or more ARCs

¹ Rule 185.4(234), subrule 185.8(4) and rule 185.9(234), effective 8/12/93.

² Effective date of 185.22(1) “d,” (2) “d,” and (3) “d,” 185.42(3), 185.62(1) “d,” (2) “d,” and (3) “d,” and 441—185.82(234) delayed 70 days by the Administrative Rules Review Committee at its meeting held July 11, 1995.

CHAPTER 186
COMMUNITY CARE

PREAMBLE

These rules define and structure community care services. Services are provided through a single statewide performance-based contract for the development and delivery of community care in all rural and urban areas of the state.

441—186.1(234) Definitions.

“*At risk*” means that potential exists within the family for some level of child abuse or neglect.

“*Child*” means a person who is under 18 years of age.

“*Child abuse assessment*” means the process by which the department carries out its legal mandate to ascertain if child abuse has occurred, record findings, develop conclusions based upon evidence, address the safety of the child and family functioning, engage the family in services if needed, enhance family strengths, and address needs in a culturally sensitive manner.

“*Community care*” means child- and family-focused services and supports provided to families referred from the department. Services shall be geared toward keeping the children in the family safe from abuse and neglect; keeping the family intact; preventing the need for further intervention by the department, including removal of the child from the home; and building ongoing linkages to community-based resources that improve the safety, health, stability, and well-being of families served.

“*Confirmed*” means the department has determined that a preponderance of credible evidence (greater than 50 percent) indicates that child abuse has occurred.

“*Department*” means the Iowa department of human services.

“*Family*” means the persons comprising the household where the alleged victim of child abuse resides.

“*Founded*” means the department has determined that a preponderance of credible evidence (greater than 50 percent) indicates that child abuse occurred and the circumstances meet the criteria for placement on the central abuse registry.

“*Not confirmed*” or “*unconfirmed*” means the department has determined that there is not a preponderance of credible evidence (greater than 50 percent) indicating that child abuse has occurred.

441—186.2(234) Eligibility. A family’s eligibility for community care is established by department referral to the community care contractor.

186.2(1) Referral indicated. The department will refer a family for community care when all of the following conditions exist:

- a. A child abuse assessment has identified a need for community care.
- b. The child abuse assessment findings are one of the following:
 - (1) Abuse is not confirmed, but the child is believed to be at moderate to high risk of future abuse or neglect; or
 - (2) Abuse is confirmed but not founded, and the child is believed to be at moderate or high risk of future abuse or neglect; or
 - (3) Abuse is founded, the child is six years of age or older, and the child is believed to be at low risk of repeat abuse.
- c. The family has voluntarily agreed to be referred to community care.

186.2(2) Referral not indicated. The department will not refer a family for community care when:

- a. A child has been adjudicated a child in need of assistance. Court orders are not used as a mechanism for families to receive community care.
- b. Any child in the household has an open child welfare service case with the department.

441—186.3(234) Services provided. The department has a single contract for development and delivery of community care in all rural and urban areas of the state. The contractor shall meet the following expectations, either directly, through subcontract, or through a provider network or consortium.

186.3(1) The community care contractor shall serve families at risk of child abuse or neglect referred through the contract, including families from a wide range of cultural, racial, and ethnic groups and those with limited English proficiency.

186.3(2) The community care contractor shall assess individual child needs, family functioning, and potential child and family risk factors.

186.3(3) The community care contractor shall respond to the needs of community care families in crisis.

186.3(4) The community care contractor shall connect families to a wide range of community resources and services that are responsive to the families' presenting needs at the time of referral, in keeping with community standards of care and evidence-based research.

186.3(5) The community care contractor shall connect families to community resources and services that are responsive to the identified needs of the family.

186.3(6) The community care contractor shall have a service referral network that is readily accessible, available, and convenient to families in all areas served by the contract.

186.3(7) The community care contractor shall provide ongoing assessment of the services provided.

186.3(8) The community care contractor shall ensure coordination of referrals from the department's offices statewide.

186.3(9) The community care contractor shall monitor and document service utilization.

186.3(10) The community care contractor shall achieve minimum performance targets as specified in the contract.

441—186.4(234) Appeals. A person or family may appeal the decisions of a community care contractor only after exhausting the contractor's dispute resolution process, as outlined in the contract with the department for provision of community care. If it is verified that the contractor's dispute resolution process has been exhausted, a person or family who wants to appeal the decisions of a community care contractor may do so under the provisions of 441—Chapter 7.

These rules are intended to implement Iowa Code section 234.6 and 2003 Iowa Acts, chapter 178, section 44.

[Filed emergency 2/10/05 after Notice 12/22/04—published 3/2/05, effective 3/1/05]

CHAPTER 187
AFTERCARE SERVICES AND SUPPORTS

PREAMBLE

These rules define and structure the aftercare services program, which assists youth leaving foster care in their successful transition to adulthood. The aftercare program, including the preparation for adult living (PAL) component, helps former foster care youth to continue preparing for the challenges and opportunities presented by adulthood while receiving services and supports. The program also offers financial benefits to eligible youth up to the age of 21. All services and supports are voluntary.

DIVISION I
AFTERCARE SERVICES

441—187.1(234) Purpose. The purpose of aftercare services is to provide services and supports to youth aged 18, 19 or 20 who were formerly in foster care. The primary goal of the program is for participants to achieve self-sufficiency and to recognize and accept their personal responsibility for the transition from adolescence to adulthood.

441—187.2(234) Eligibility. To be eligible for aftercare services, a youth must meet the following requirements:

187.2(1) Residence. The youth must reside in Iowa.

187.2(2) Age. The youth must be at least 18 years of age but less than 21 years of age.

187.2(3) Foster care experience.

a. The youth must leave foster care either:

- (1) On or after the youth's eighteenth birthday; or
- (2) Between the ages of 17 ½ and 18 after being in foster care continuously for at least six months.

b. For purposes of this division, "foster care" is defined as 24-hour substitute care for a child who is placed away from the child's parents or guardians and for whom the department or juvenile court services has placement and care responsibility through either court order or voluntary agreement.

c. A placement may meet the definition of foster care regardless of whether:

- (1) The placement is licensed and the state or a local agency makes payments for the child's care;
- (2) Adoption subsidy payments are being made before the finalization of adoption; or
- (3) There is federal matching of any payments made.

d. Foster care may include, but is not limited to, placement in:

- (1) A foster family home;
- (2) A foster home of relatives;
- (3) A group home;
- (4) An emergency shelter;
- (5) A preadoptive home;
- (6) A residential facility; or
- (7) The home of an unlicensed relative or suitable person.

e. Foster care does not include placement in:

- (1) A detention facility;
- (2) A forestry camp;
- (3) A training school; or
- (4) Any other facility operated primarily for the detention of children who are determined to be delinquent.

187.2(4) Responsibility. The youth must:

- a.* Actively take part in developing and participating in a self-sufficiency plan; and

b. Indicate recognition and acceptance of personal responsibility in the transition toward self-sufficiency.

441—187.3(234) Services and supports provided. The aftercare program shall provide the following services and supports to eligible youth:

187.3(1) Individual self-sufficiency plan. Each youth shall have an individual self-sufficiency plan based on an assessment of the youth's strengths and needs. The plan shall identify:

- a. The youth's goals for achieving self-sufficiency;
- b. The target date for reaching the goals; and
- c. The tasks, responsible parties, time frames, and desired outcomes needed to reach the goals.

187.3(2) Life skills services. The program shall provide life skills services to enable youth to maintain a safe, healthy, and stable home.

187.3(3) Vendor payments. The program shall make vendor payments to meet direct expenses of the participant that are necessary in order to meet goals of the participant's self-sufficiency plan.

a. *Need.* To receive a vendor payment, the youth must demonstrate that there are no other means to meet these needs. Youth receiving a PAL stipend are not eligible for a vendor payment.

b. *Scope.* Vendor payments may include but are not limited to:

- (1) Life skills training;
- (2) Transportation assistance;
- (3) Employment and education assistance;
- (4) Clothing; and
- (5) Room and board.

c. *Maximum payment.* The amount available for a 12-month period of service shall not exceed \$1200 per youth.

187.3(4) Follow-up. The program shall maintain individual face-to-face contact with the youth at a frequency as defined in the youth's self-sufficiency plan to ensure that the youth is meeting the goals of the plan.

187.3(5) Ongoing assessment. Ongoing assessment activities shall be directed toward:

a. Monitoring the progress being made in the youth's ability to achieve self-sufficiency; and
b. Coordination and evaluation of the services and supports being provided to reach the self-sufficiency goal.

187.3(6) Case management. Case management activities shall include, but not be limited to:

a. Community involvement services to enable the youth to access community resources; and
b. Development of support systems, including services to assist the youth in establishing or reestablishing relationships with significant adults.

441—187.4(234) Termination. Aftercare services and supports shall be terminated when any of the following conditions apply:

187.4(1) The youth fails to follow self-sufficiency plan components and expectations as determined by the program administrator.

187.4(2) The youth voluntarily withdraws from aftercare services.

187.4(3) The youth is no longer residing in Iowa.

187.4(4) The youth reaches 21 years of age.

187.4(5) There are insufficient funds to continue the services.

441—187.5(234) Waiting list. The program administrator or designee shall create a waiting list when all funds for the aftercare services program are committed for the fiscal year. Names shall be entered on the waiting list on a first-come, first-served basis once the youth is determined eligible.

441—187.6(234) Administration. The department may contract with another state agency or a private organization to perform the administrative and case management functions necessary to administer this program.

187.6(1) The contractor and any subcontractors shall meet the standards in 441—subrule 150.5(3) and paragraph 150.3(3) “i.”

187.6(2) Agencies providing services or supports shall meet the standards in rules 441—108.2(238) through 441—108.6(238).

441—187.7 to 187.9 Reserved.

These rules are intended to implement Iowa Code section 234.6 and Public Law 106-169, the Foster Care Independence Act of 1999.

DIVISION II
PREPARATION FOR ADULT LIVING (PAL) PROGRAM

441—187.10(234) Purpose. The purpose of the PAL program is to provide financial support to eligible youth who are receiving aftercare services. Youth receiving a PAL stipend are not eligible to receive aftercare vendor payments.

441—187.11(234) Eligibility. A monthly stipend may be provided to a youth receiving aftercare services who left foster care after May 1, 2006, and who meets all of the following criteria:

187.11(1) *Ineligibility for foster care.* The youth must be ineligible for voluntary foster care placement under 441—Chapter 202.

187.11(2) *Foster care experience.* The youth must:

a. Leave foster care paid for by the state under Iowa Code section 234.35 on or after the youth’s eighteenth birthday; and

b. Have been in foster care paid for by the state under Iowa Code section 234.35 in at least 6 of the last 12 months before the youth left foster care.

187.11(3) *Living arrangement.* The youth must have a living arrangement other than a parent’s home, which may include a former foster family, an apartment, a college dormitory, or another approved arrangement. The program administrator or designee is responsible for approving the living arrangement.

187.11(4) *Activity.* The youth must be engaged in or actively pursuing full-time activity comprised of one or more of the following:

a. Enrollment in a postsecondary educational training program or work training;

b. Employment for an average of 25 hours or more per week; or

c. School or program attendance leading to a high school diploma or GED.

187.11(5) *Financial need.* Initial and ongoing eligibility shall be based on the youth’s income and need as determined according to rule 441—187.12(234).

441—187.12(234) Payment. The program administrator or designee shall issue payment to each participant according to the following guidelines:

187.12(1) *Need.* The amount of the PAL stipend shall be based on the needs of the youth as documented in the youth’s self-sufficiency plan. Eligibility and the stipend amount shall be based on the best estimate of the youth’s income, as determined at least quarterly.

a. All earned and unearned income received by the youth during the 30 days before the determination shall be used to project future income. If the 30-day period is not indicative of future income, income from a longer period or verification of anticipated income from the income source may be used to project future income.

b. The youth shall timely report the beginning or ending of earned or unearned income. A report shall be considered timely when made within ten days from the receipt of income or the date income ended.

c. When the youth timely reports a change in income, prospective eligibility and stipend amount for the following month shall be determined based on the change.

d. Recoupment shall be made for any overpayment due to failure to timely report a change in income.

e. Recoupment shall not be made when a youth timely reports a change in income and the change is timely acted upon, but the timely notice policy in rule 441—7.7(17A) requires that the action be delayed until the second calendar month following the month of change.

187.12(2) Amount of monthly stipend. The monthly stipend shall be based on the foster family basic daily maintenance rate for a child aged 16 or older. The maximum monthly stipend shall be calculated by multiplying the daily rate in 441—subrule 156.6(1) by 365 and dividing by 12.

a. The stipend shall be prorated based on the date of entry.

b. Effect of income.

(1) When the monthly unearned income of the youth exceeds the maximum monthly stipend, the youth is not eligible for a stipend.

(2) When the net earnings of the youth exceed the maximum monthly stipend, the stipend shall be reduced the following month by 50 cents for every dollar earned over the maximum monthly stipend.

187.12(3) Payee. The PAL stipend may be paid to the youth, the foster family, or another payee other than a department employee. The payee shall be agreed upon by the parties involved and specified in the self-sufficiency plan under 187.3(1).

187.12(4) Start-up allowance. When a youth is approved for the PAL program, the program administrator or designee may authorize a one-time start-up allowance in addition to the monthly stipend. The start-up allowance:

a. Is intended to assist in covering the initial costs of establishing the youth's living arrangement, such as rental and utility deposits, purchase of food, and purchase of necessary household items.

b. Shall be based on the youth's income and need as determined according to subrule 187.12(1).

c. Shall not exceed the maximum monthly stipend amount.

441—187.13(234) Termination of stipend. The PAL stipend shall be terminated when any of the following conditions apply:

187.13(1) The youth reaches the age of 21.

187.13(2) The youth fails to meet work or education eligibility requirements for 30 consecutive days without good cause as determined by the program administrator or designee.

187.13(3) The youth fails to follow self-sufficiency plan components and expectations as determined by the program administrator or designee.

187.13(4) The youth fails to maintain satisfactory progress as defined by the education or training program in which the youth is enrolled. A youth who is not making satisfactory progress may stay in the PAL program by choosing the work option.

187.13(5) The youth chooses to live in a nonapproved setting.

187.13(6) The youth no longer resides in Iowa.

187.13(7) The youth lives with a parent.

187.13(8) There are insufficient funds to continue the stipend.

441—187.14(234) Waiting list. The program administrator or designee shall create a waiting list when all funds for the PAL program are committed for the fiscal year. Names shall be entered on the waiting list on a first-come, first-served basis once the youth is determined eligible.

441—187.15(234) Administration. The department may contract with another state agency or a private organization to perform the administrative functions necessary to administer the PAL program.

187.15(1) The contractor and any subcontractors shall meet the standards in 441—subrule 150.5(3) and paragraph 150.3(3)“i.”

187.15(2) Agencies providing support or services shall meet the standards in rules 441—108.2(238) through 441—108.6(238).

These rules are intended to implement Iowa Code section 234.46.

PREAMBLE

These rules define and structure the adoption services to be provided to birth families, children legally available for adoption, prospective adoptive families and adoptive families. These rules also establish policy regarding requests for access to sealed records.

441—200.1(600) Definitions.

“Adoption” means a legal and social process through which a child becomes a member of a family into which the child was not born. Adoption provides the child the same rights, privileges and duties as a birth child.

“Adoption service” means a service directed towards children who are legally available for adoption, the birth family, prospective adoptive family and adoptive family.

“Adoption work experience” means supervised employment in adoption services which includes direct provision of adoption services, development of adoption policies, provision of training related to adoption services, oversight and review of adoption documents and activities, and direct supervision of adoption workers. Only the percent of time related to provision of adoption services shall be considered as adoption work experience for employment of which only a portion of time was spent on adoptions.

“Adoptive family” means an approved person or persons who have a child placed in their home and are being supervised prior to finalizing the adoption; or who have a child in their home who is legally adopted and entitled to the same benefits as a child born into the family.

“Adoptive home study” includes an assessment of the family’s parental attributes and a written report stating approval or nonapproval of the family for adoptive placement of a child or children.

“Certified adoption investigator” means a person as defined at rule 441—107.2(600).

“Child study or social history” includes a written description of the child including strengths and needs; medical, mental, social, educational, placement and court history; a description of the child’s relationships with the birth family, foster family, and significant others; a summary of the child’s understanding and feeling about adoption and recommendations as to the type of family that can best meet the child’s needs.

“Court-ordered studies” means home studies ordered by a judge for the purpose of determining custody of a child or placement of a child for the purpose of adoption.

“Department” means the department of human services.

“Easy-to-place child” means a healthy child who does not meet one or more of the criteria of a child with special needs.

“Foster family adoption” means the adoption of a child by a licensed foster family who has cared for the child.

“Guardianship record” means a case record regarding a child, established and retained by the department, when the department is named guardian of the child by court order. The purpose of the guardianship record is to collect and maintain information about the child and the birth family, legal documents, and other information that will assist in fulfilling the responsibility of guardian.

“Life book” means a compilation of information about the child, including birth information, photographs of the child; placement history, including dates of placement, names of caretakers, reasons for leaving the placement; relationships; school reports; social, medical, mental health developmental history; awards received, important events, letters from significant persons, and other information that

the child wishes to include. The life book will assist the child in dealing with separation and loss issues and provide background and genealogy data.

“Mental health professional” means a psychiatrist, psychologist, social worker, psychiatric nurse or mental health counselor who holds a current license as required by law.

“Placement services” includes the activities and travel necessary to place the child in the adoptive family.

“Postadoption services” includes those services that an adoptive family may access after the adoption is finalized. These services may be obtained through community resources, the department, or support groups, to assist the family in coping with and resolving problems within the family.

“Postplacement services” includes the supervision, support and intervention necessary prior to finalization to assist in maintaining the adoptive placement.

“Preadoptive family” means an adoptive family with a child placed in the home whose adoption has not been finalized.

“Preparation of child” includes activities necessary to ready the child for placement into an adoptive family.

“Preparation of family” includes the activities necessary to assist the family in adding an adoptive child as a new member of their family.

“Preplacement visits” means contacts, activities, and visits between the child and adoptive family prior to the adoptive placement.

“Procedendo” means an order issued by the supreme court returning jurisdiction to the district court after a final appellate decision regarding an appeal.

“Release of custody services” includes providing information regarding options to assist the parents in making permanent plans for their child and counseling regarding resulting personal and emotional issues.

“Selection of family” means reviewing approved home studies to match a family’s strengths with a specific child’s needs.

“Special needs child” means a child who meets one or more of the criteria set forth at 441—subrule 201.3(1).

441—200.2(600) Release of custody services. This rule applies to all terminations filed under Iowa Code chapter 600A. The parents shall be offered a minimum of three hours of counseling by a person authorized to provide counseling under the provisions of this rule. If accepted, the counseling shall be provided after the birth of the child and prior to the signing of a release of custody that meets the requirements of Iowa Code chapter 600A or prior to the filing of a petition for termination of parental rights.

200.2(1) Purpose of counseling. The purpose of the counseling is to:

a. Provide information about options to assist parents in making an informed decision regarding release of custody.

b. Assist parents in resolving emotional issues related to separation and loss.

200.2(2) Requirements for counseling providers. Counseling to parents shall be provided only by the following persons:

a. Certified adoption investigators.

b. Mental health professionals who have the equivalent of two years of adoption work experience in the direct provision of adoption services.

c. Private agency staff with two years of adoption work experience in the direct provision of adoption services.

d. Department staff with two years of adoption work experience in the direct provision of adoption services.

200.2(3) Forms. Forms 470-3615, Background Report Part 1, and 470-3698, Background Report Part 2, shall be completed for all children who are adopted under Iowa Code chapter 600. All forms used to execute a release of custody shall comply with the requirements of Iowa Code chapters 600 and 600A.

200.2(4) Affidavit and documentation. The person providing the counseling shall complete Form 470-3164, Counseling Affidavit, certifying that the counselor has provided the biological parent with the requested counseling or that the biological parent has refused counseling. Form 470-3164 and documentation that the person providing the counseling is qualified to provide the requested counseling shall be attached to the release of custody. Documentation shall include one of the following:

- a. A copy of a professional license, when applicable.
- b. A record of all adoption work experience including dates and location. In addition, the person providing counseling shall provide the names of employers and supervisors to enable the court to verify the counselor's adoption work experience.

441—200.3(600) Application. Persons wishing to apply to adopt a child through the department shall use Form 470-0771, Application for Adoption. An application for adoption shall only be accepted for children who are under the guardianship of the department.

200.3(1) Limitations. No applications shall be accepted or approved in any department office for the adoption of an easy-to-place child. Those applicants shall be referred to private child-placing agencies. Exceptions to this rule may be made for relatives of a child under the guardianship of the department or foster parents applying to adopt a child with whom the child has a significant relationship.

a. Foster parents. Foster parents shall be given consideration for selection as the adoptive family for a child in the foster parent's care who is legally available for adoption if the child has been in the foster parent's care for one year or longer, or the child has a significant relationship with the family.

b. Relatives. A relative who is within the fourth degree of consanguinity shall be given consideration for selection as the adoptive placement for a child who is legally available for adoption if the child has a significant relationship with the relative, or the child is aged 14 or over and elects adoption by the relative.

200.3(2) Procedures. An application for a special needs child shall be accepted by any department office. If a family assessment and home study cannot be begun by a department worker within 90 days, a referral shall be made to purchase a home study from a provider with whom the department has a purchase of service contract within available funding. Prior to completion of a home study, applicants shall complete Form 470-0771, Foster Care and Adoption Home Study Packet, and ensure that Form 470-0720, Physician's Report for Foster and Adoptive Parents, is completed by their family physician.

441—200.4(600) Components of adoption services. The components of adoption services are as follows: adoptive home study, preparation of child, selection of family, preparation of family, preplacement visits, placement services, and postplacement services.

200.4(1) Adoptive home study. This component includes the following activities:

a. Family assessment. The family assessment shall include a minimum of two face-to-face interviews with the applicants and at least one face-to-face interview with each member of the household. At least one of the interviews shall take place at the applicant's home. The assessment of the prospective adoptive family shall include an evaluation of the family's ability to parent a special needs child or children including the following:

- (1) Motivation for adoption and whether the family has biological, adopted or foster children.
- (2) Family's and extended family's attitude toward accepting an adopted child and plans for discussing adoption with the child.
- (3) The attitude toward adoption of the significant other people involved with the family.
- (4) Emotional stability, marital history, including verification of marriages and divorces, family relationships and compatibility of the adoptive parents.
- (5) Ability to cope with problems, stress, frustrations, crises, separation, and loss.
- (6) Medical, mental and emotional conditions that may affect the applicant's ability to parent a child, treatment history, and current status of treatment.
- (7) Willingness to accept a child who has medical problems (such as a child who is at risk of, or is HIV positive), mental retardation, or emotional or behavioral problems. Ability to provide for the child's physical, medical and emotional needs and respect the child's ethnic and religious identity.

- (8) Adjustment of any children in the home, including their attitudes toward adoption, relationships with others, and school performance.
- (9) Disciplinary practices that will be used.
- (10) Capacity to give and receive affection.
- (11) Statements from three references provided by the family and additional references the worker may wish to contact.
- (12) Financial information, ability to provide for a child and whether there is a need for adoption subsidy for a special needs child or children.
- (13) Attitudes of the adoptive applicants toward the birth parents and the reasons the child is available for adoption.
- (14) Commitment to and capacity to maintain significant relationships.
- (15) Substance use or abuse, if any, by family members, or members of the household, treatment history and current status of treatment.
- (16) History of abuse, if any, by family members, or members of the household, treatment history, current status of treatment and the evaluation of the abuse.
- (17) Criminal convictions, if any, by family members, or adults in the household, and the evaluation of the criminal record.
- (18) Recommendations for number, age, sex, characteristics, and special needs of a child or children the family can best parent.

b. Record checks. The department shall submit record checks for each applicant and for anyone who is 14 years of age or older living in the home of the applicant to determine whether they have founded child abuse reports or criminal convictions or have been placed on the sex offender registry. The department shall use Form 470-0643, Request for Child Abuse Information, and Form 595-1396, DHS Criminal History Record Check, Form B, for this purpose. Each person subject to record checks shall also be fingerprinted for a national criminal history check. The department's contractor for the recruitment and retention of resource families shall assist applicants in completing required record checks, including fingerprinting.

If the applicant, or anyone living in the home of the applicant, has a record of founded child abuse, a criminal conviction, or placement on the sex offender registry, the department shall not approve the applicant as an adoptive family, unless an evaluation determines that the abuse or criminal conviction does not warrant prohibition of approval.

EXCEPTION: The person making the investigation shall not approve a prospective applicant and shall not perform an evaluation if the applicant or anyone living in the home of the applicant has been convicted of a felony offense as set forth in Iowa Code section 600.8(2) "b." The person making the investigation shall not approve a prospective applicant and shall not perform an evaluation if the applicant or anyone living in the home of the applicant has committed a crime in another state that would be a forcible felony if the crime would have been committed in Iowa, as set forth in Iowa Code section 600.8(2) "b."

The evaluation shall consider the nature and seriousness of the abuse or crime, the time elapsed since the commission of the founded or confirmed abuse or crime, the circumstances under which the abuse or crime was committed, the degree of rehabilitation, the likelihood that the person will commit the abuse or crime again, and the number of abuses or crimes committed by the person.

The person with the founded child abuse or criminal conviction report shall complete and return Form 470-2310, Record Check Evaluation, within ten calendar days of the date on the form to be used to assist in the evaluation. Failure of the person to complete and return Form 470-2310 within the specified time frame shall result in denial of approval for adoption.

The evaluation and decision shall be made by the service area manager or designee. Within 30 days of receipt of the completed Form 470-2310, the department shall mail to the individual on whom the evaluation was completed Form 470-2386, Record Check Decision, which explains the decision reached regarding the evaluation of an abuse or crime. Form 470-2386 shall also be issued when an applicant fails to complete the evaluation form within the specified time frame.

The department shall assess fees associated with the record checks to the adoptive applicant unless the family is being studied to adopt a child with special needs.

c. Written report. The worker shall prepare a written report of the family assessment, known as the adoptive home study, using the PS-MAPP family profile format. The worker shall use the home study to approve or deny a prospective family as an appropriate placement for a child or children. The department adoption worker and supervisor shall date and sign the adoptive home study.

The worker shall notify the family of the decision using Form 470-0745, Adoption Notice of Decision, and, if the worker does not approve the home study, shall state the reasons on the notice. The worker shall provide the family a copy of the adoptive home study with the notification of approval or denial.

d. Preplacement assessment and home study update. A preplacement assessment and home study update is required if the adoptive home study was written more than one year previously, in accordance with Iowa Code section 600.8, and placement of the child is imminent. The preplacement assessment and home study update shall be conducted by completing the following:

(1) The child abuse and criminal record checks shall be repeated. If there are any founded abuses or convictions of crimes that were not evaluated in the previous home study, they shall be evaluated using the process set forth in 200.4(1)“b.”

(2) One face-to-face visit shall be conducted with the approved adoptive family.

(3) The information in the approved adoptive home study shall be reassessed.

(4) An updated written report of the reassessment and adoptive home study shall be written, dated, signed by the worker and the supervisor; and a copy provided to the adoptive family.

200.4(2) Preparation of child. This component includes specific activities designed to enable a child to make the transition to an adoptive placement. The activities shall include, but are not limited to:

a. Counseling regarding issues of separation, loss, grief, guilt, anger and adjustment to an adoptive family.

b. Preparation or update of a life book.

c. Provision of age-appropriate information regarding community resources available, such as children’s support groups, to assist the child in the transition and integration into the adoptive family.

d. Any appropriate evaluations or testing.

e. HIV testing of a child by the University of Iowa Hospital or a local physician when any of the following conditions exist:

(1) The child was, or may have been, sexually abused by a person who participated in high-risk behavior such as sharing of needles with an infected person or sex participation with an infected person.

(2) The child’s birth mother participated in high-risk behavior, or is HIV positive.

(3) The child participated in, or has participated in, high-risk behavior.

(4) The child is symptomatic or at high risk of infections.

(5) The child received blood products prior to 1986 or the birth parents received blood products prior to 1986, before or during pregnancy.

(6) There is a lack of medical information regarding the birth parents or the child.

200.4(3) Selection of family. This component includes the activities necessary to select the family which can best meet the needs of the adoptive child.

Prior to preplacement visits a staffing of the child shall be held to select an approved family. A minimum of two social workers and a supervisor shall be included in the staffing. The child’s special needs, characteristics, and anticipated behaviors shall be reviewed in the staffing to determine a family that can best meet the needs of the child. Approved families shall also be reviewed in an effort to match the specific family’s parenting strengths with a particular child’s needs.

The following selection criteria shall be observed:

a. Preference shall be given to placing children from the same birth family together. If placement together is not possible, or is not in the best interest of the children, the reasons shall be identified and documented in each child’s case record. Efforts shall be made to ensure continuous contact between siblings when the siblings are not placed together.

b. Race, color, or national origin may not be routinely considered in placement selections. Placement decisions shall be made consistent with the best interests and special needs of the child.

c. A child who is sexually active and at risk of or is HIV positive shall not be placed in a family where other children reside due to the risk of transmission.

200.4(4) Preparation of family. This component includes activities designed to assist the adoptive family in expanding its knowledge and understanding of the child or children. This component should enhance the family's readiness to accept the child or children into their family and encourage their commitment. The activities shall include, but are not limited to:

a. Completion of at least 30 hours of "Partnering for Safety and Permanence: Model Approach to Partnership in Parenting" (PS-MAPP) and the self-study course, "Universal Precautions in Foster and Adoptive Family Homes," before placement of a child. These training requirements apply to families who are adopting special needs children who are under the guardianship of the department.

(1) Foster parents licensed before December 31, 2002, who have been caring for a foster child in their home for at least six months and who have been selected to adopt that child may have their participation in adoption training waived by the service area manager or designee.

(2) Relatives who have cared for a related child for at least six months and who have been selected to adopt that related child may have their participation in the PS-MAPP preservice training waived by the service area manager or designee.

(3) The department may waive the PS-MAPP training requirement in whole or in part when the department finds that:

1. The applicant has completed relevant training or has a combination of relevant training and experience that is an acceptable equivalent to all or a portion of the required preservice training; or

2. There is good cause for the waiver based upon the circumstances of the child and the applicant.

(4) If the adoptive parents are accepting placement of a child who is at high risk of becoming or is HIV positive, they shall also complete the "Caring for Children With HIV" course.

(5) Applicants must retake PS-MAPP if the adoption approval process is not completed within 24 months after PS-MAPP is initially completed.

b. Discussion with family members regarding problems resulting from a child's separation, loss, grief, and anger due to the loss of the birth parents.

c. Provision of background information on the child and birth family, including a child study that includes experiences such as foster and adoption placements and other pertinent information and the child's life book.

d. Provision of information regarding the child's special needs and behavior patterns.

e. Provision of a description of the child's medical needs, including whether or not the child is at risk of or is HIV positive.

f. Discussion of the impact that adding a new member or members to the family may have on all current family members.

g. Explanation of the subsidized adoption program.

h. Provision of information regarding the community resources that are available to assist the family, such as parent support groups.

200.4(5) Preplacement visits. This component includes activities necessary to plan, conduct and assess the transitional visits between the adoptive family and the child or children prior to the adoptive placement of the child in the home.

200.4(6) Placement services. Placement services include the activities necessary to plan and carry out the placement of a child or children into the adoptive family.

Before placement of a child, the Agreement of Placement for Adoption, Form 470-0761, shall be signed by all parties.

200.4(7) Postplacement services. Postplacement services include supervision, support, crisis intervention and required reports. Postplacement supervision is provided from the time a child is placed with an adoptive family until finalization of the adoption occurs.

a. Postplacement supervision shall focus on the following areas:

(1) Integration and interaction of the child or children with the family.

(2) Changes in the family functioning which may be due to the placement.

(3) Social and emotional adjustment of the child or children.

- (4) School adjustment of the child or children who are attending school.
- (5) Changes and adjustments that have been made in the family since the placement.
- (6) Family's method of dealing with testing behaviors and discipline.
- (7) Child's growth and development since placement in the family.
- (8) Behavioral evidence of the degree of bonding that is taking place and the degree to which the child is becoming a permanent member of the adoptive family.

b. A minimum of three adoptive home visits are required or, if the family is experiencing problems, as many as are necessary to assess and support the placement.

Home visits shall be completed at a minimum as follows: one no later than 30 days after placement, one no later than 90 days after placement, and a final visit before requesting a consent to adopt. Supervisory reports based on observations shall be completed after the home visits using Form 470-0773, Supervisory Report.

c. A written report based on the postplacement visits with recommendations regarding the finalization of the adoption shall be submitted to the court prior to the hearing to consider granting a decree of adoption.

441—200.5(600) Termination of parental rights. The department shall not place a child in an approved adoptive home until parental rights of the child's birth parents have been terminated and guardianship assigned to the department. If one or both birth parents are deceased, the worker shall provide the court with verification of the birth parents' death and the death shall be stated in the guardianship order. When the termination of parental rights is appealed by a birth parent, an adoptive placement may be made if the adoptive parents sign an adoptive placement agreement that includes an acknowledgment of the conditions of the placement should termination be overturned. However, the adoption may not be finalized until the appeal is withdrawn or a final decision regarding the appeal is reached and a procedendo issued.

441—200.6(600) Service provision. Services to a child, a prospective adoptive family or an adoptive family may be provided by the following methods:

200.6(1) Direct. All components of adoption service may be provided directly by department adoption workers.

200.6(2) Purchase. Components of adoption service may be purchased by the department from a licensed child-placing agency or a certified adoption investigator with a purchase of service contract with the department.

441—200.7(600) Department fees.

200.7(1) Cost of service. When the court orders the department to provide services to an individual or family, a fee for the cost of service based on a sliding fee schedule shall be used. The fee assessed shall be based on a reasonable fee for providing the service, median income as determined by the U.S. Department of Health and Human Services, Office of Family Assistance, and the family's gross income and household size. Fee schedules shall be revised whenever the median income is redetermined. Fee schedules shall be compiled by the department for:

- a.* Preplacement assessment and adoptive home studies.
- b.* Postplacement supervision and reports.
- c.* Reassessment and adoptive home study updates.
- d.* Any supplemental reports including court-ordered home studies for adoption or custody.

200.7(2) Fee schedule. The fee schedule to be used in determining the cost of service is as follows:

SCHEDULE RATE
FEE SCHEDULE

Percent of Median Income	1 Member Income Range	2 Member Income Range	3 Member Income Range	4 Member Income Range	5 Member Income Range	6 Member Income Range	7 Member Income Range	8 Member Income Range	Preplacement Assessment Home Study	Home Study Update	Postplacement Supervision/ Reports	Court-Ordered Preplacement Assessment or Custody Home Study
0-50%	\$0- \$,564	\$0- 12,650	\$0- 15,928	\$0- 19,045	\$0- 22,092	\$0- 25,211	\$0- 28,711	\$0- 26,282	\$100	\$ 50	\$100	\$100
51-70%	\$8,805- 13,865	\$12,951- 18,151	\$15,889- 23,397	\$19,046- 26,663	\$22,583- 30,828	\$25,212- 33,195	\$28,712- 35,085	\$26,289- 36,874	\$200	\$100	\$100	\$250
71-80%	\$13,866- 17,826	\$18,132- 23,311	\$22,388- 28,795	\$26,664- 34,281	\$30,830- 39,765	\$35,189- 43,351	\$39,906- 46,288	\$36,273- 47,308	\$300	\$150	\$150	\$300
81-100%	\$17,827- 19,807	\$23,312- 25,001	\$28,797- 37,896	\$34,282- 38,090	\$39,766- 44,184	\$45,252- 59,279	\$46,281- 51,452	\$47,309- 52,584	\$500	\$150	\$150	\$500
101% or more	\$19,808 and over	\$25,802 and over	\$31,887 and over	\$36,091 and over	\$44,185 and over	\$50,280 and over	\$51,423 and over	\$52,565 and over	\$650	\$200	\$202	\$650
	Per person: additional \$1,143.											

Checks or money orders for fees for adoption services shall be made payable to the department of human services. Fees shall be collected by the worker prior to provision and delivery of a study or report.

200.7(3) Determination of income and household size. Income of families requesting adoptive services shall be verified in order to determine the appropriate fee. Income and family composition shall be defined as set forth in 441—Chapter 130.

200.7(4) Waiver of fees. The fees for adoption services shall be waived for the following:

- a. A family wishing to adopt a special needs child.
- b. A relative within the fourth degree of consanguinity wishing to adopt an easy-to-place child for whom the department has guardianship.
- c. A current or former foster family wishing to adopt a special needs child.

441—200.8(600) Interstate placements. Interstate placement of a child into Iowa, or out of Iowa, shall follow interstate placement of child procedures according to Iowa Code section 238.33.

441—200.9(600) International adoptions.

200.9(1) Procedures. International adoptions involving child-placing agencies located outside Iowa shall follow the procedures outlined in the interstate compact on the placement of children, Iowa Code section 238.33. The compact is only applicable in instances when the child is placed through a child-placing agency. When a child is placed by an entity other than a child-placing agency, a child shall only be placed after the department has been furnished a preplacement assessment and adoptive home study as required by Iowa Code section 600.8; legal documents from the child's country of origin which demonstrate the child is legally available for adoption; and all available medical, mental health, social, and background information regarding the child.

200.9(2) Services provided and fees. The family wishing approval for placement of a child from a country other than the United States into their home for the purpose of adoption shall be assessed a fee of \$75 regardless of their income for service provided by the department. The fee shall accompany the request for service. Checks shall be made to the department of human services.

The services shall include: reviewing and processing the family's adoptive home study; reviewing the child's background and legal information and birth verification to ensure that both are in compliance with requirements in Iowa Code chapter 600; submitting documents to Immigration and Naturalization Services approving the Iowa family for adoptive placement of a child; and submitting a certification letter to the attorney, agency, or family, after the child has resided with the adoptive family 180 days, and the family has had postplacement supervision by an agency or certified adoption investigator. The department's certification letter shall indicate that the family has met the requirements in the Iowa Code and that there are no impediments to finalizing the adoption.

441—200.10(600) Requests for home studies.

200.10(1) Court-ordered. Court-ordered home studies for adoption or custody of a child or children shall be completed by department workers. When a department worker completes the court-ordered home study, a fee shall be assessed the family based on subrule 200.7(2).

200.10(2) Interstate compact. Requests for an adoptive home study through the interstate compact process shall be completed by a department worker and the family assessed a fee based on the department's current fee schedule. No fee shall be charged the family if they are a relative of the child within the fourth degree of consanguinity, or the family is the child's foster family.

200.10(3) Referrals. Families wishing to adopt an easy-to-place child shall be referred to a child-placing agency or a certified adoption investigator for completion of the home study. Payment of a fee for completion of the home study shall be the family's responsibility.

441—200.11(600) Reasons for denial. An individual or family shall be denied approval of an adoptive home study for one or more of the following reasons:

200.11(1) Founded child abuse report. A founded child abuse report shall mean denial of approval unless an evaluation determines that it does not merit denial.

200.11(2) Criminal conviction. A criminal conviction shall mean denial of approval unless an evaluation determines that it does not merit denial.

200.11(3) Documented concerns. Concerns may be documented in one or more of the following areas:

- a. Motivation to adopt.
- b. Child-rearing ability and practices.
- c. Emotional stability.
- d. Physical or mental health.
- e. Interpersonal relationships.
- f. Finances.
- g. Marital relationship.

200.11(4) Substance abuse. Verified substance use or abuse that prevents the family from adequately caring for the child shall mean denial of approval.

200.11(5) Lack of cooperation. If the individual or family fails to cooperate in providing the information needed to complete the preplacement assessment or home study, the application shall be denied.

441—200.12(600) Removal of child from preadoptive family. When the department determines that it is in the best interest of a child to be removed from a preadoptive family, a Letter of Removal, Form 470-3018, shall be mailed to the family prior to the removal. Removal of a child from a preadoptive family is not an appealable issue, as a child continues to be under the guardianship of the department until an adoption is finalized.

441—200.13(600) Consents. A request for consent to the adoption shall be submitted to the guardian for a child who is under the guardianship of the department and for whom finalizing an adoption is recommended. If the adoption is in the best interest of the child, the director or designee shall sign a Consent to Adoption, Form 470-0775, prior to a court hearing to finalize the adoption.

A consent to adopt may be rescinded by the department, by signing Rescinding the Consent to Adoption, Form 470-2990, for any of the following reasons:

1. At the request of the adoptive family.
2. A founded child abuse report, or accusation of child abuse, pending determination of the report.
3. Conviction of a crime, or accusation of a crime, pending a court decision regarding the crime.
4. At the request of a child who is aged 14 or over and has reversed the decision regarding the adoption.
5. Other verified indications that the adoption is not in the best interest of the child.

441—200.14(600) Requests for access to information for research or treatment.

200.14(1) Requests. Any person seeking access to the department's sealed adoption records for the purpose or purposes set forth in Iowa Code paragraph 600.16(1) "c" or Iowa Code subsection 600.24(2) shall submit a request in writing to the director. Each request shall contain sufficient facts to establish that the information sought is necessary for conducting a legitimate medical research project, or for treating a patient in a medical facility.

200.14(2) Process. Upon receipt of a request for information sought in conducting a research project, the director or a designee shall review the request for information and make a decision to approve, or deny, the request based on the research to be conducted, the benefits of the research, the methodology, and the confidentiality measures to be followed. Upon a request for information for treating a patient in a medical facility, a decision regarding approval or denial shall be made by the director or designee based on the written information provided by a physician or the medical facility, making the request. Requesters shall be notified in writing of approval or denial and if denied, reasons for denial given.

441—200.15(600) Requests for information for other than research or treatment. Requests for information from department adoption records for other than research or treatment shall be made to the Department of Human Services, Division of Behavioral, Developmental, and Protective Services, Adoption Program, Hoover State Office Building, 1305 East Walnut Street, Des Moines, Iowa 50319-0114.

The department shall not release identifying information from sealed adoption records. Adult adoptees, adoptive parents, birth parents, siblings or descendants of an adopted person, or legal representatives of any of the above shall be provided an adoption packet containing a sample affidavit for filing with the court, directions for filing the affidavit, a list of county clerks of court and the address of the bureau of vital statistics which retains the name of the county where their adoption was finalized in Iowa.

An adopted person who was a resident of the Annie Wittenmeyer Home (Iowa Soldier's and Sailor's Home) may receive nonidentifying information from Annie Wittenmeyer records if the information is available.

441—200.16(600) Appeals. Prospective adoptive families may appeal denial of approval of their home study based on rule 441—200.11(600), pursuant to 441—Chapter 7.

These rules are intended to implement Iowa Code chapter 600.

CHAPTER 201
SUBSIDIZED ADOPTIONS
[Prior to 7/1/83, Social Services(770), Ch 138]
[Previously appeared as Ch 138—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services(498)]

441—201.1(600) Administration. The Iowa department of human services, through the administrator of the division of child and family services, shall administer the subsidized adoption program, in conformance with the legal requirements for adoption as defined in Iowa Code chapter 600.

441—201.2(600) Definitions.

“*Child*” means a person who has not attained age 18, or a person with a physical or mental disability who has not attained age 21.

“*Escrow account*” means an interest-bearing account in a bank or savings and loan association which is maintained by the department in the name of a particular child.

“*Maintenance subsidy*” means a monthly payment to assist in covering the cost of room, board, clothing, and spending money. The child will also be eligible for medical assistance pursuant to 441—Chapter 75.

“*Mental health professional*” means the same as defined in rule 441—24.1(225C).

“*Mental retardation professional*” means a person who has at least one year of experience working directly with persons with mental retardation or other developmental disabilities and who is one of the following:

1. A doctor of medicine or osteopathy.
2. A registered nurse.
3. A person who holds at least a bachelor’s degree in a human services field including, but not limited to: social work, sociology, special education, rehabilitation counseling, and psychology.

“*Nonrecurring expenses*” means reasonable and necessary adoption fees, court costs, attorney fees and other expenses which are directly related to the legal adoption of a child with special needs. These shall be limited to attorney fees, court filing fees and other court costs.

“*Physician*” means a licensed medical or osteopathic doctor as defined in rule 441—77.1(249A).

“*Presubsidy*” means payment for maintenance or special services for a special needs child who is placed in an adoptive home but whose adoption is not finalized.

“*Special services subsidy*” means payment to a provider or the parent for medical, dental, therapeutic, or other services, equipment or appliances required by a child because of a handicapping condition.

441—201.3(600) Conditions of eligibility or ineligibility.

201.3(1) The child is eligible for subsidy when the department or a private agency has documented that it has been unable to place the child in an appropriate adoptive home without a subsidy and the child is determined to be a child with “special needs” based on one or more of the following reasons:

- a. The child has a medically diagnosed disability which substantially limits one or more major life activities, requires professional treatment, assistance in self-care, or the purchase of special equipment.
- b. The child has been determined by a qualified mental retardation professional to be mentally retarded.
- c. Effective April 20, 2004, or later, the child has been determined by a qualified professional to be at high risk of developing a qualifying medical, mental, or emotional condition as defined in this subrule. A child in this group is eligible for subsidy of nonrecurring expenses only.
- d. The child has been diagnosed by a qualified mental health professional to have a psychiatric condition which impairs the child’s mental, intellectual, or social functioning, and for which the child requires professional services.
- e. The child has been diagnosed by a qualified mental health professional to have a behavioral or emotional disorder characterized by situationally inappropriate behavior which deviates substantially

from behavior appropriate to the child's age or significantly interferes with the child's intellectual, social and personal adjustment.

- f.* The child is aged eight or over and Caucasian.
- g.* The child is aged two or older and is a member of a minority race or ethnic group or the child's biological parents are of different races.
- h.* The child is a member of a sibling group of three or more who are placed in the same adoptive home.

201.3(2) A child who enters the United States from another country on the basis of a visa classifying the child as an orphan, in accordance with the Immigration and Naturalization Act, for the purpose of adoption by a specific United States family is not eligible for subsidized adoption maintenance payments, medical assistance, or special services except for nonrecurring expenses. A child entering the country for adoption may be eligible for subsidy for nonrecurring expenses, not to exceed \$500, in the following situations:

- a.* Rescinded IAB 8/11/99, effective 10/1/99.
- b.* The child from another country who meets the criteria in subrule 201.3(1) and whose adoption is finalized after June 14, 1989, must file an application on Form 470-0744, Application for Adoption Subsidy, and complete Form 470-0749, Adoption Subsidy Agreement, before or at the time of a final decree of adoption. The claim for reimbursement must be filed on Form GAX, General Accounting Expenditure, within two years of the date of the adoption decree and must include receipts.
- c.* If the adoptive placement disrupts prior to finalization or if the parental rights of the adoptive parents are terminated after the adoption is finalized and the department is named guardian of the child, the child may be eligible for subsidy in another adoptive placement.

201.3(3) Maintenance and child care subsidies for children who were determined to be eligible before January 1, 2004, shall continue unless one of the conditions for termination defined in 441—201.7(600) is present. The child care subsidy payment shall not exceed the applicable reimbursement rate under the child care assistance program as specified in 441—subrule 170.4(7).

201.3(4) The determination of whether a child meets eligibility requirements is made by the Iowa department of human services. An adverse determination may be appealed according to rules in 441—Chapter 7.

201.3(5) The department shall review the subsidy agreement when the child reaches the age of 17½ to determine whether the child is eligible to receive a subsidy through the age of 21 due to the child's physical or mental disability.

- a.* The disability shall be diagnosed by a physician, a qualified mental health professional, or a qualified mental retardation professional.
- b.* The diagnosis shall be current within one year of the child's eighteenth birthday.

441—201.4(600) Application. Application for presubsidy or subsidy shall be made on Form 470-0744, Application for Subsidy, at the time of the adoptive placement of the child, or at any time in the adoptive process before finalization of the adoption.

201.4(1) The prospective adoptive family residing in Iowa who has been studied and approved for adoptive placement or a family residing outside of the state of Iowa studied and approved by a governmental child-placing agency or a licensed child-placing agency in that state, may apply for subsidy for an eligible Iowa child.

201.4(2) Withdrawal of the application for the subsidy shall be reported to the department immediately.

201.4(3) The effective date for the Adoption Subsidy Agreement will be the date the agreement is signed by all parties, which may be the date the child is placed in the adoptive home or any date up to and including the date the adoption is finalized. The agreement shall state the amount of the presubsidy or subsidy, and the frequency and duration of payments.

201.4(4) An application for subsidy cannot be taken after the child is adopted except when there are facts relevant to a child's eligibility that were not presented before the finalizing of the adoption.

a. Upon receiving verification that the child was eligible before the child's adoption, the department may conduct an administrative review of the facts and may determine the child an eligible special needs child. Eligibility will be effective after Form 470-0744, Application for Subsidy, is completed and Form 470-0749, Adoption Subsidy Agreement, is signed by all parties.

b. Requests for determining a child an eligible special needs child after the adoption is finalized shall be forwarded with verification of eligibility to the division of child and family services, adoption program. The division shall conduct an administrative review of eligibility factors and render a written decision regarding the child's eligibility as a special needs child within 30 days of receipt of request and verification materials unless additional verification is requested. If additional verification is requested, a decision shall be reached within 30 days of receipt of additional verification materials.

441—201.5(600) Negotiation of amount of presubsidy or subsidy.

201.5(1) The amount of presubsidy or subsidy shall be negotiated between the department and the adoptive parents and shall be based upon the needs of the child and the circumstances of the family.

a. Each time negotiations are completed, the Adoption Subsidy Agreement, Form 470-0749, shall be completed.

b. Form 470-0762, Agreement to Future Adoption Subsidy, shall be completed and retained in an inactive case record for future reference when:

(1) A child is eligible for subsidy but the child or family does not currently need assistance; or

(2) The child is at risk of being determined a child with special needs according to paragraph 201.3(1) "a," "b," "d," or "e" in the future.

201.5(2) Other services available to the family free of charge to meet the needs of the child, such as other federal, state, and local governmental and private assistance programs, shall be explored and used before the expenditure of subsidy funds.

a. and *b.* Rescinded IAB 5/11/05, effective 5/1/05.

c. Unearned income of the child shall be verified by documentation provided to the department worker by the family from the source of the income.

201.5(3) to 201.5(5) Rescinded IAB 5/3/89, effective 7/1/89.

201.5(6) A maintenance subsidy may be no less than \$10 per month.

201.5(7) An adoptive family may request a review of the subsidy agreement when there is a change in the family's circumstances or the needs of the child.

201.5(8) Maintenance subsidy shall continue under the same rules if the adoptive family moves outside of the state of Iowa.

201.5(9) The maximum monthly maintenance payment for a child in subsidized adoption shall be made pursuant to the foster family care maintenance rates according to the age and special needs of the child as found at 441—subrule 156.6(1) and 441—paragraph 156.6(4) "f."

441—201.6(600) Types of subsidy.

201.6(1) *Special services only.*

a. Reimbursement to the adoptive family or direct payment made to a provider is limited to the following services:

(1) Outpatient counseling or therapy services. Reimbursement for outpatient individual or family services may be provided from a non-Medicaid provider only with approval from the service area manager or designee and when one of the following applies:

1. The services are not available from a Medicaid provider within a reasonable distance from the family.

2. The child and the family were already receiving therapy or counseling from a non-Medicaid provider and it would not be in the child's best interest to disrupt the services.

3. Available Medicaid providers lack experience in working with foster, adoptive, or blended families.

Reimbursement to non-Medicaid providers shall be limited to the Medicaid rate.

(2) Expenses for transportation, lodging, or per diem related to preplacement visits, not to exceed \$2000 per family.

(3) Medical services not covered by the Medicaid program shall be limited to an additional premium amount due to the child's special needs to include the child in the family's health insurance coverage group. An adoption subsidy payment shall not supplement the Medicaid payment rate to a Medicaid provider or a non-Medicaid provider.

(4) Child care, if the family has entered into a presubsidy or subsidy agreement on or before June 30, 2004, that contains a provision for child care reimbursement. Child care subsidy payments shall not exceed the maximum rates established in 441—paragraph 170.4(7) "a" for the child's age and type of care, unless the department grants a waiver under rule 441—1.8(17A,217). Child care services are available through the child care assistance program to families that meet the requirements of 441—Chapter 170.

(5) Medical transportation not covered by Medicaid and the family's lodging and meals, if necessary, when the child is receiving specialized care or the child and family are required to stay overnight as part of a treatment plan.

(6) Supplies and equipment as required by the child's special needs and unavailable through other resources. When a sibling group of three or more are placed together, a one-time-only payment can be made, not to exceed \$500 per child. When home modifications have been authorized to accommodate a child's special needs and the family later sells the house, the family shall repay the department an amount equal to the increase in the equity value of the home attributable to the modifications.

(7) Nonrecurring expenses. Payment for nonrecurring expenses is generally limited to \$500 per child. An additional \$200 may be allowed for reasonable court costs and other related legal expenses. Nonrecurring expenses may be paid when the adoptive family has negotiated an Adoption Subsidy Agreement, Form 470-0747, or an Agreement to Future Adoption Subsidy, Form 470-0762.

(8) Funeral benefits at the amount allowed for a foster child in accordance with 441—subrule 156.8(5).

b. The need for special services shall be established by a report in the child's record from the private or public agency which had guardianship of the child, and substantiating information from specialists as defined in rule 441—201.2(600).

c. Any single special service and any special service delivered over a 12-month period costing \$500 or more shall have prior approval from the central office adoption program manager prior to expending program funds.

d. For all Medicaid covered services the department shall reimburse at the same rate and duration as Medicaid as set forth in rule 441—79.1(249A).

201.6(2) Maintenance only. A monthly payment to assist with room, board, clothing and spending money may be provided, as determined under 201.5(600). The child will also be eligible for medical assistance pursuant to 441—Chapter 75.

201.6(3) Maintenance and special services. For special needs children, a special services subsidy may also be included when a maintenance subsidy is provided.

441—201.7(600) Termination of subsidy. Subsidy will terminate when any of the following occur:

201.7(1) The adoptive child no longer meets the definition of child in rule 441—201.1(600).

201.7(2) The child marries.

201.7(3) The adoptive parents are no longer using the maintenance payments to support the child.

201.7(4) Death of the child, or death of the parents of the child (one in a single-parent family and both in a two-parent family).

201.7(5) Upon conclusion of the terms of the agreement.

201.7(6) Upon request of the adoptive parents.

201.7(7) The adoptive parents are no longer legally responsible for the child.

201.7(8) Rescinded IAB 3/12/08, effective 4/16/08.

441—201.8(600) Reinstatement of subsidy. Reinstatement of subsidy will be made when the subsidy was terminated because of reasons in 201.7(3), 201.7(6), or 201.7(7) and the reason for termination no longer exists.

441—201.9(600) New application. New applications will be taken at any time, but processed only so long as funds are available. Maintenance and special services already approved will continue.

441—201.10(600) Medical assistance based on residency. Special needs children eligible for any type of subsidy are entitled to medical assistance as defined in 441—Chapter 75. The funding source for medical assistance is based on the following criteria:

201.10(1) IV-E-eligible children:

a. IV-E-eligible children residing in Iowa from Iowa and from other states shall receive medical assistance from Iowa.

b. IV-E-eligible children from Iowa residing in another state shall receive medical assistance from the family's state of residence, even though medical assistance available in the family's state of residence may vary from Iowa's medical assistance.

201.10(2) Non-IV-E-eligible children:

a. Non-IV-E-eligible children from Iowa residing in Iowa shall be covered by Iowa's medical assistance.

b. Non-IV-E-eligible children from Iowa residing in another state shall be covered by Iowa's medical assistance unless eligible for benefits from the other state pursuant to a program funded under Title XIX of the federal Social Security Act.

c. Non-IV-E-eligible children from another state residing in Iowa shall be covered by Iowa's medical assistance if all of the following conditions are met:

(1) The child is under the age of 21.

(2) The child is residing in Iowa in a private home with the child's adoptive parent or parents.

(3) Another state is currently paying an adoption subsidy for the child pursuant to an adoption assistance agreement in effect for the child with that state.

(4) The state paying the adoption subsidy is a member of the interstate compact on adoption and medical assistance (ICAMA).

(5) The state paying the adoption subsidy provides medical assistance benefits pursuant to a program funded under Title XIX of the Social Security Act, under the optional group at Section 1902(a)(10)(A)(ii)(VIII) of the Act, to children residing in that state (at least until age 18) for whom there is a state adoption assistance agreement in effect with the state of Iowa other than under Title IV-E of the Social Security Act.

201.10(3) When an Iowa child receives medical assistance from another state, Iowa shall discontinue paying any medical costs the month following the move unless additional time is necessary for a timely notice of decision to be provided to the family. An exception shall be made when the initial Iowa subsidy agreement provides for services not covered by the other states.

441—201.11(600) Presubsidy recovery. The department shall recover the cost of presubsidy maintenance and special services provided by the department as follows:

201.11(1) Funds shall be applied to the cost of presubsidy maintenance and special services from the unearned income of the child.

201.11(2) The department shall serve as payee to receive the child's unearned income. The income shall be placed in an account from whence it shall be applied toward the cost of the child's current care and the remainder placed in an escrow account.

201.11(3) When a child has funds in escrow these funds may be used by the department to meet the current needs of the child not covered by the presubsidy payments and not prohibited by the source of the funds.

201.11(4) When the child leaves presubsidy care, funds in the escrow shall be paid to the adoptive parents, or to the child if the child has attained the age of majority.

These rules are intended to implement Iowa Code sections 600.17 to 600.23.

¹ Effective date of amendments published as ARC 2900B delayed 70 days by the Administrative Rules Review Committee at its meeting held November 10, 2003; at its meeting held March 8, 2004, the Committee delayed the effective date until adjournment of the 2004 Session of the General Assembly.

CHAPTER 202
FOSTER CARE SERVICES
[Prior to 7/1/83, Social Services[770] Ch 136]
[Previously appeared as Ch 136—renumbered IAB 2/29/84]
[Prior to 2/11/87, Human Services[498]]

441—202.1(234) Definitions.

“*Case permanency plan*” shall mean the plan identifying goals, needs, strengths, problems, services, time frames for meeting goals and for delivery of the services to the child and parents, objectives, desired outcomes, and responsibilities of all parties involved and reviewing progress.

“*Child*” shall mean the same as defined by Iowa Code section 234.1.

“*Department*” shall mean the Iowa department of human services and includes the local offices of the department.

“*Eligible child*” shall mean a child for whom the court has given guardianship to the department or has transferred legal custody to the department or for whom the department has agreed to provide foster care services on the basis of a signed placement agreement or who has been placed in emergency care for a period of not more than 30 days upon the approval of the director or the director’s designee.

“*Facility*” means the personnel, program, plant and equipment of a person or agency providing child foster care.

“*Foster care*” shall mean substitute care furnished on a 24-hour a day basis to an eligible child, in a licensed foster care facility or approved shelter care facility, by a person or agency other than the child’s parent or guardian, but does not include care provided in a family home through an informal arrangement for a period of less than 30 days. Child foster care shall include but is not limited to the provision of food, lodging, training, education, supervision, and health care.

“*Natural parent*” shall mean a parent by blood, marriage, or adoption.

“*Person*” or “*agency*” shall mean individuals, institutions, partnerships, voluntary associations, and corporations, other than institutions under the management or control of the department, who are licensed by the department as a foster family home, child caring agency or child placing agency, or approved as a shelter care facility.

“*Safety-related information*” means information that indicates whether the child has behaved in a manner that threatened the safety of another person, has committed a violent act causing bodily injury to another person, or has been a victim or perpetrator of sexual abuse.

“*Service area manager*” shall mean the department employee responsible for managing department offices and personnel within the service area and for implementing policies and procedures of the department.

This rule is intended to implement Iowa Code section 234.6(6) “*b.*”

441—202.2(234) Eligibility.

202.2(1) Only an eligible child as defined in these rules shall be considered for foster care services supervised by the department.

202.2(2) The need for foster care placement and social and other related services including, but not limited to, medical, psychiatric, psychological, and educational services shall be determined by an assessment of the child and family to determine their needs and appropriateness of services. Assessments include the educational, physical, psychological, social, family living, and recreational needs of the child and the family’s ability to meet those needs. The assessment is a continual process to identify needed changes in service or placement for the child.

202.2(3) With the exception of emergency care, a social history shall be completed on each child prior to a department recommendation for foster care placement. For voluntary emergency placements a social history shall be completed before a decision is made to extend the placement beyond 30 days. For court-ordered emergency placements a social history shall be completed before the disposition hearing.

202.2(4) Foster care placement shall be recommended by the department only after efforts have been made to prevent or eliminate the need for removal of the child from the family unless the child is in immediate danger at home.

202.2(5) The need for foster care and the efforts to prevent placement shall be evaluated by a review committee prior to placement or, for emergency placements only, within 30 days after the date of placement. For children who are mentally retarded or developmentally disabled and receive case management services, this requirement may be met by the interdisciplinary staffing described in 441—Chapter 90, as long as the service area manager approves, the department worker attends the staffing, and the staffing meets the requirements of paragraphs “b” to “h” below.

The review shall meet the following requirements:

a. Department staff on the review committee shall be the child’s service worker, a supervisor knowledgeable in child welfare, and one or more additional persons appointed by the service area manager.

b. The review shall be open to the participation of the parents or guardian of the child, local and area education staff, juvenile court staff, the guardian ad litem, current service providers and previous service providers who have maintained a license.

c. The present foster care provider, if any, shall be notified of the review and have the opportunity to participate.

d. Written notice of the review shall be sent to the child’s parents or guardian at least five working days prior to the date of the review.

e. Other persons may be invited to the review with the consent of the parents or guardian.

f. A written summary of the review recommendations shall be sent to the child’s parents or guardian following the review.

g. Review committee recommendations shall be advisory to the service worker and supervisor, who are responsible for development of the department case plan and for reports and recommendations to the juvenile court.

h. At least one of the persons on the review committee shall be someone without responsibility for the case management or the delivery of services to either the child or the parents or guardian who are the subject of the review.

202.2(6) The citizenship or alien status of a child who enters foster care must be verified.

a. When the child will remain in foster care for no more than 60 days, Form 470-4500, Statement of Citizenship Status: Foster Care, signed by the parent or guardian of the child is sufficient.

b. When the child will remain in foster care for more than 60 days, one of the documents listed in this paragraph is required. Any one of the following documents shall be accepted as satisfactory documentation of citizenship or nationality:

(1) A certificate of birth in the United States.

(2) Form FS-240 (Report of Birth Abroad of a Citizen of the United States) issued by the U.S. Citizenship and Immigration Services.

(3) Form FS-545 or Form DS-1350 (Certification of Birth Abroad) issued by the U.S. Citizenship and Immigration Services.

(4) A United States passport.

(5) Form I-97 (United States Citizen Identification Card) issued by the U.S. Citizenship and Immigration Services.

(6) Form N-560 or N-561 (Certificate of United States Citizenship) issued by the U.S. Citizenship and Immigration Services.

(7) Form N-550 or N-570 (Certificate of Naturalization) issued by the U.S. Citizenship and Immigration Services.

(8) A valid state-issued driver’s license or other identity document described in Section 274A(b)(1)(D) of the United States Immigration and Nationality Act, but only if the state issuing the license or document either:

1. Requires proof of United States citizenship before issuance of the license or document; or

2. Obtains a social security number from the applicant and verifies before certification that the number is valid and is assigned to the applicant who is a citizen.

(9) Another document that provides proof of United States citizenship or nationality as the Secretary of the U.S. Department of Health and Human Services may specify by regulation pursuant to 42 U.S.C. Section 1396b(x)(3)(B)(v) or 1396b(x)(3)(C)(v).

c. A child entering foster care is exempt from these requirements when the family has previously presented satisfactory documentary evidence of citizenship, as specified by the Secretary of the U.S. Department of Health and Human Services.

d. The parent or guardian of the child shall have a reasonable period to obtain and provide proof of citizenship. For the purposes of this requirement, the “reasonable period” begins on the date when the child is placed in foster care and continues to the date when the proof is provided or when the department establishes that the parent or guardian is no longer making a good-faith effort to obtain the proof.

This rule is intended to implement Iowa Code sections 234.6(1) and 234.6(6) “b.”

441—202.3(234) Voluntary placements.

202.3(1) All voluntary placement agreements initiated after July 1, 2003, for children under the age of 18 shall terminate after 90 days.

202.3(2) When the voluntary placement is of a child who is under the age of 18, a Voluntary Foster Care Placement Agreement, Form 470-0715, shall be completed and signed by the parent(s) or guardian and the county office where the parent or guardian resides. Voluntary Foster Care Placement Agreements shall not be used to place children outside Iowa and shall not be signed with parents or guardians who reside outside Iowa. Voluntary Foster Care Placement Agreements shall terminate if the child’s parent or guardian moves outside Iowa after the placement.

202.3(3) Voluntary placement of a child aged 18 or older may be granted for six months at a time only when the child meets the definition of “child” in subrule 202.1(3), was in foster care or a state institution immediately prior to reaching the age of 18, has continued in foster care or a state institution since reaching the age of 18, and has demonstrated a willingness to participate in case planning and to fulfill responsibilities as defined in the case plan. Payment shall be limited pursuant to 441—paragraph 156.20(1) “b.”

a. When the voluntary placement is of a child who is aged 18 or older and who has a court-ordered guardian, the Voluntary Foster Care Placement Agreement, Form 470-0715, shall be completed and signed by the guardian and the county office where the guardian resides. Voluntary Foster Care Placement Agreements shall not be used to place children outside Iowa and shall not be signed with guardians who reside outside Iowa. Voluntary Foster Care Placement Agreements shall terminate if the child’s guardian moves outside Iowa after the placement.

b. When the voluntary placement is of a child who is aged 18 or older and who does not have a court-appointed guardian, the Voluntary Foster Care Placement Agreement, Form 470-0715, shall be completed and signed by the child and the county office where the child resides.

c. An exception to the requirement for continuous placement may be made for a youth who leaves foster care at age 18 and voluntarily returns to supervised apartment living foster care before the youth’s twentieth birthday in order to complete high school or obtain a general equivalency diploma (GED).

202.3(4) All voluntary placements shall be approved by the service area manager or designee.

This rule is intended to implement Iowa Code sections 234.6(6) “b” and 234.35(1) “c.”

441—202.4(234) Selection of facility.

202.4(1) Placement consistent with the best interests and special needs of the child shall be made in the least restrictive, most family-like facility available and in close proximity to the child’s home. Race, color, or national origin may not be routinely considered in placement selections.

202.4(2) Efforts shall be made to place siblings together unless to do so would be detrimental to any of the children’s physical, emotional or mental well-being. Efforts to prevent separating siblings, reasons for separating siblings, and plans to maintain sibling contact shall be documented in the child’s case permanency plan.

202.4(3) Staff shall consider placing the child in a relative’s home unless to do so would interfere with the permanency plan for the child, no relatives are available or willing to accept placement, or to

do so would be detrimental to the child's physical, emotional or mental well-being. Efforts to place the child in a relative's home and reasons for using a nonrelative placement shall be documented in the child's case permanency plan.

202.4(4) If the child cannot be placed with a relative, foster family care shall be used for a child unless the child has problems requiring specialized service which cannot be provided in a family setting. Reasons for using a more restrictive placement shall be documented in the child's case permanency plan.

202.4(5) A foster family shall be selected on the basis of compatibility with the child, taking into consideration:

- a. The extent to which interests, strengths, abilities and needs of the foster family enable the foster family members to understand, accept and provide for the individual needs of the child.
- b. The child's individual problems, medical needs, and plans for future care.
- c. The capacity of the foster family to understand and accept the child's case permanency plan, the needs and attitudes of the child's parents, and the relationship of the child to the parents.
- d. The characteristics of the foster family that offer a positive experience for the child who has specific problems as a consequence of past relationships.
- e. An environment that will cause minimum disruption of the child including few changes in placement for the child.
- f. Rescinded IAB 4/11/07, effective 7/1/07.

202.4(6) A foster group care facility shall be selected on the basis of its ability to meet the needs of the child, promote the child's growth and development, and ensure physical, intellectual and emotional progress during the stay in the facility. The department shall place a child only in a licensed or approved facility which has a current purchase of service contract with the department.

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.5(234) Preplacement.

202.5(1) Except for emergency foster care, a child placed in a facility shall have a preplacement visit involving the child, the foster parents or agency staff if the child is placed in a public or private agency, and the service worker. The parents shall be included in the preplacement visit unless their presence would be disruptive to the child's placement.

202.5(2) Before placement, the worker shall provide the facility with general information regarding the child, including a description of the child's medical needs, behavioral patterns including safety-related information, educational plans, and permanency goal. Safety-related information shall be withheld only if:

- a. Withholding the information is ordered by the court; or
- b. The department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.6(234) Placement.

202.6(1) At the time of placement, the worker shall provide the facility with specific information regarding the child including the case permanency plan; the results of a physical examination; the child's medical needs including special needs of HIV, behavioral patterns including safety-related information, and educational arrangements; the placement contract or agreement; and medical authorizations, service authorizations, and other releases as needed.

a. Before releasing specific information about HIV, the department shall use Form 470-3225, Authorization to Release HIV-Related Information, to obtain a release from the child or the child's parent or guardian, or a court order permitting the release of the information.

(1) The person receiving this information shall complete Form 470-3227, Receipt of HIV-Related Information, to document understanding of the confidentiality of this knowledge.

(2) Form 470-3226, HIV General Agreement, shall be completed by foster parents who have agreed to care for children who have AIDS, test HIV positive, or are at risk for HIV infection.

b. Safety-related information shall be withheld only if:

- (1) Withholding the information is ordered by the court; or
- (2) The department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.

202.6(2) For placement in a foster family home supervised directly by department staff, Form 470-0716, Foster Family Placement Contract, shall be completed by the provider and department representatives. A new foster family placement contract shall be completed when the rate of payment or special provisions change.

202.6(3) A follow-up visit shall be made to the child at the foster family home within two weeks of the initial placement for placements supervised directly by the department.

202.6(4) The case permanency plan shall be reviewed at least every six months to ensure appropriateness of the child's placement. A copy of the subsequent case plan shall be submitted to the court every six months unless the court orders a different frequency for reports.

202.6(5) In conjunction with the case plan review, the case shall be presented every six months to a review committee which conforms to the requirements in subrule 202.2(5). The service area manager may also approve a review by a local foster care review board authorized in Iowa Code section 237.19 or the court as meeting this requirement as long as the review conforms to subrule 202.2(5), paragraphs "b" to "h," and to subrule 202.6(5), paragraphs "a" to "e." The review committee shall:

- a. Evaluate the continuing necessity for foster care placement.
- b. Evaluate the continuing appropriateness of the foster care placement.
- c. Evaluate the extent of compliance with the case plan.
- d. Evaluate the extent of progress made toward lessening the causes for foster care placement.
- e. Project a likely date by which the child will leave foster care.

This rule is intended to implement Iowa Code sections 234.6(6) "b," and 237.19.

441—202.7(234) Out-of-area placements.

202.7(1) When the department makes a placement of a child in the foster care system out of the service area in which the child resides, this placement shall occur only when there is no appropriate placement within the service area, when the placement is necessary to facilitate reunification of the child with the parents, or when an out-of-area agency is closer to the community where the child resides than an in-area agency offering the same services.

202.7(2) The authority for approving out-of-area placements rests with both the placing and receiving service area managers.

202.7(3) Transfer of responsibility for supervision, planning, and visitation shall be approved by the placing and receiving service area managers and, when appropriate, by the court.

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.8(234) Out-of-state placements.

202.8(1) The department shall make an out-of-state foster family care placement only with the approval of the service area manager. Approval shall be granted only when the placement will not interfere with the goals of the child's case plan and when one of the following conditions exists:

- a. The foster family with whom the child is placed is moving out of state.
- b. An out-of-state family having previous knowledge of the child desires to provide foster care to the child.
- c. An out-of-state family is approved to adopt the child under subsidy and is eligible to receive maintenance payments until the adoption is final.
- d. An out-of-state placement is necessary to facilitate reunification of the child with the parents.

202.8(2) Placements shall be made in an out-of-state group care facility only with the approval of the service area manager or designee.

202.8(3) All out-of-state placements shall be made pursuant to interstate compact procedures.

202.8(4) The reasons for selecting an out-of-state placement shall be documented in the child's case permanency plan.

202.8(5) Regional out-of-state placement committees. Rescinded IAB 7/6/94, effective 7/1/94.
This rule is intended to implement Iowa Code section 234.6(6) “b.”

441—202.9(234) Supervised apartment living. A supervised apartment living arrangement shall provide a youth with an environment in which the youth can experience living in the community with supervision. This arrangement shall prepare the youth for self-sufficiency. It is an arrangement where the youth lives in an apartment unit, shops for food, prepares individual meals, and manages time for cleaning and laundry. It is not a structured living arrangement where life skills are learned through simulated activities.

202.9(1) Eligibility. To be eligible for supervised apartment living placement, a youth shall meet all of the following conditions:

a. Be at least 16 years old. If aged 18 or older, the youth shall:

- (1) Meet the definition of a child in Iowa Code section 234.1; and
- (2) Have been in foster care or state institutional placement immediately before reaching the age of 18, and have continued in foster care or a state institution since reaching the age of 18. The service area manager or designee may waive the requirement for continuous placement for a youth who leaves foster care at age 18 and voluntarily returns before the youth’s twentieth birthday in order to complete high school or obtain a general equivalency diploma (GED), consistent with Iowa Code sections 234.35(1) “f” and 234.35(3) “c.”

b. If under the age of 18, either be working (or in work training) full-time or be attending high school, GED classes, or postsecondary classes and working (or in work training) part-time. If aged 18 or older, the youth shall be attending high school or GED classes and making satisfactory progress toward completion of the high school or GED program and working (or in work training) part-time. “Work training” includes individualized programs developed specifically to meet the youth’s employment needs. Waiver of the work or work training requirement may be allowed with the prior approval of the service area manager or designee if:

- (1) The youth can demonstrate involvement in some alternative daily activity that promotes self-sufficiency; and

- (2) The waiver is in the youth’s best interest.

c. Need foster care placement and services, based on an assessment completed according to rule 441—202.2(234) and subrule 202.6(5).

d. Participate in activities and services to achieve self-sufficiency.

e. Have capacity to live in the community with less supervision than that provided by a foster family or group care setting, as determined by an assessment that reviews available information on the youth to identify the needs, strengths, and resources of the youth, especially as they pertain to the youth’s ability to function in the community.

f. Have an approved living situation that meets the following minimum standards:

- (1) Be located so as to provide reasonably convenient access to schools, places of employment, or services required by the youth.

- (2) Comply with applicable state and local zoning, fire, sanitary and safety regulations.

- (3) Be reasonably priced so as to fit within the youth’s budget.

g. Have the approval of the service area manager or designee.

h. If under age 18, have the approval of the juvenile court.

202.9(2) Services to be provided.

a. Required services. The following activities are required:

- (1) Through visits with the youth and to the living situation, determination that:

1. There is no reasonable cause for believing that the youth’s living situation presents any unacceptable risks to the youth’s health or safety;

2. The living situation is maintained in a reasonably safe condition;

3. The youth is receiving any necessary medical care; and

4. The current program plan provides appropriate and sufficient services and supports.

(2) Supervision to assist the youth in developing the needed structure to live in this setting and in locating and using other needed services. If the youth is under age 18, supervision shall include a minimum of weekly face-to-face contacts. For youth aged 18 or older, supervision shall include a minimum of biweekly face-to-face contacts. Supervision may include guidance, oversight, and behavior monitoring.

(3) Ongoing assessment activities directed toward monitoring the progress being made in the youth's ability to achieve self-sufficiency and coordination and evaluation at least every 90 days to monitor the services and supports being provided to reach this goal.

(4) If services are purchased, visits by the department to the youth according to subrule 202.11(2).

(5) If services are purchased, compliance by the provider with all reporting requirements in 441—paragraph 150.3(3)“j,” including requirements for the individual service plan, quarterly reports, and a termination summary.

(6) A review of the case and case plan every six months, in accordance with subrules 202.6(4) and 202.6(5).

b. Optional services. The following services may be provided to a youth depending on the needs described in the youth's case permanency plan.

(1) Counseling services to reduce stress and severe social, emotional, or behavioral problems that affect the youth's stability or ability to achieve self-sufficiency.

(2) Leisure time and recreational services to enhance the youth's ability to develop recreational, social, leisure time or hobby, and cultural skills.

(3) Parent skill development services to train or educate youth who are parents or prospective parents to enable them to meet the needs of their children.

(4) Basic living skills services to enable or train the youth to maintain a safe, healthy, and stable home.

(5) Educational tutoring and vocational services to enable the youth to secure and maintain paid employment.

(6) Community involvement services to enable the youth to access community resources and to develop support systems, including services to assist the youth in establishing or reestablishing relationships with significant adults.

202.9(3) Living arrangements.

a. There are two types of supervised apartment living arrangements as follows:

(1) Scattered site arrangements have no specific site or building which houses the program. Youth are assisted by staff people in locating apartments scattered throughout the community. Up to three youths supervised by one agency may reside in apartments located in one building. Youths living in such an arrangement shall be able to contact supervising agency staff 24 hours a day, seven days a week.

(2) Cluster arrangements are those in which four to six youths reside in apartments located in one building and are supervised by one agency. Cluster arrangements shall have an adult employed by the agency on-site at any time that more than one youth is present in the cluster arrangement.

b. There shall be no provision of a meal or meals, either individually or as congregate dining, by the landlord as an inherent part of the living arrangement. This provision does not apply to youth under the age of 18 who are living in a postsecondary dormitory setting when that living arrangement best meets their needs.

c. If an agency rents an apartment to the youth, there shall be a signed lease between both parties that includes, but is not limited to:

(1) Amount to be paid for rental unit.

(2) Term of lease with both a beginning and ending date.

(3) Rights and responsibilities of tenant.

(4) Rights and responsibilities of landlord.

(5) Conditions under which lease can be terminated.

202.9(4) Method of service provision.

a. Supervised apartment living services may be provided directly by the department or may be purchased from a licensed child-placing agency. If services are purchased, department staff shall be

responsible to determine the specific service components and the number of hours to be provided. The department case permanency plan shall specify the goals of the services that are being purchased.

b. If services are purchased, service billings shall be based on one hour, or any portion thereof (with monthly cumulative units rounded up or down to the nearest whole unit), of:

(1) Direct face-to-face contact between the service provider and the youth.

(2) Activities undertaken to assist the youth with the use of community resources and to consult and collaborate on service directions with schools, employers, landlords, volunteers, extended family members, peer support groups, training resources, or other community resources on behalf of the youth.

c. If services are purchased, expenses of transporting youth, service management activities, and other administrative functions shall be allowable indirect costs subject to the restrictions set forth in rule 441—150.3(234).

d. When youth receive services in a group rather than individually, the purchase of service contract shall specify the unit rate for group services separate from other services defined in the contract.

(1) The unit of service for group services shall be based on one hour, or any quarter portion thereof, of direct face-to-face contact between the service provider and each group member. Monthly cumulative units shall be rounded up or down to the nearest whole unit. The contract shall specify the average number of group participants.

(2) The unit rate shall be based upon the cost of the service when provided by a single caseworker. Reimbursement for a team approach to service delivery will not be made except in accordance with subparagraph (3) below.

(3) When two or more individuals from a service provider agency jointly deliver a unit of service, billings for that unit of service shall be reimbursable in an amount equal to the cost of two or more units of service if the following criteria are met:

1. The department case plan requests a team approach to service delivery and specifies the number of individuals that will be working together on the team, and a purchase of service contract identifies the service provider's ability to provide a team approach.

2. The specific number of individuals requested in the case plan who are representing the service provider are physically present to deliver the service to the youth.

202.9(5) Reserved.

202.9(6) *Termination of services.*

a. Mandatory termination. Supervised apartment living services shall be terminated when any of the following occurs:

(1) The youth no longer meets the definition of a child in Iowa Code section 234.1.

(2) The youth fails to meet the work (or work training) requirement for 30 consecutive days.

(3) The youth no longer needs foster care placement and services.

(4) The youth needs a more restrictive level of placement.

(5) The youth chooses to live in a nonapproved setting.

(6) The youth refuses to follow the provisions of the case plan, after having been given the opportunity to correct the behavior.

(7) to (10) Rescinded IAB 3/31/04, effective 6/1/04.

(11) The youth is aged 18 or over and fails to make satisfactory progress towards completion of the high school GED program, after having been given the opportunity to correct the behavior.

b. Notice of adverse action. When services are denied or terminated, adequate and timely notice shall be provided the youth as defined in rule 441—130.5(234).

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.10(234) Services to foster parents. Foster parents shall be provided necessary supportive services for the purpose of aiding them in the care and supervision of the child. These services shall include, but not be limited to:

202.10(1) Availability of social service staff on a 24-hour basis in case of emergency.

202.10(2) Conferences to develop in-depth planning regarding family visits, expectations of the department, future objectives and time frames, use of resources, and termination of placements.

202.10(3) Visitation by the service worker at least monthly regardless of the duration of the placements.

202.10(4) Making available all known pertinent information needed for the care of the child including HIV status, safety-related information, and special confidentiality requirements.

a. Before releasing specific information about HIV, the department shall use Form 470-3225, Authorization to Release HIV-Related Information, to obtain a release from the child or the child's parent or guardian, or a court order permitting the release of the information. The person receiving this information shall complete Form 470-3227, Receipt of HIV-Related Information, to document understanding of the confidentiality of this knowledge.

b. Safety-related information shall be withheld only if:

(1) Withholding the information is ordered by the court; or
(2) The department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.

c. When continued breastfeeding of the child is determined to be in the best interest of the child, the service worker and the foster parents shall make reasonable efforts to support the continued breastfeeding of the child by the mother.

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.11(234) Services to the child. The service worker shall maintain a continuous relationship with the child and help the child plan for the future, evaluate the child's needs and progress, supervise the living arrangement, arrange for social and other related services including, but not limited to, medical, psychiatric, psychological, and educational services from other resources as needed, and counsel the child in adjusting to the placement.

202.11(1) When the child is placed in a foster family home, the service worker shall visit the child regularly to fulfill responsibilities set forth in the case permanency plan and to review the child's progress. The frequency of visits shall be based on the needs of the child. At a minimum, visits to the child shall be monthly, not to exceed 35 days.

202.11(2) When the child is placed in group foster care, purchased foster family care, or purchased supervised apartment living, the service worker shall visit the child regularly to fulfill responsibilities set forth in the case plan and to review the progress of the child.

a. If the permanency goal for the child is long-term foster care, visits shall be at least quarterly, not to exceed 90 days.

b. For all other cases, visits shall be at least every 45 days. When the funded full-time equivalency (FTE) workload exceeds 150, as established in the department's budget allocation, minimum visits for group care shall be at least quarterly, not to exceed 90 days; for purchased foster family care visits shall be at least every other month, not to exceed 60 days.

202.11(3) When placement of a breastfeeding child is made, the service worker shall:

a. Assess in consultation with the worker's supervisor whether continued breastfeeding by the mother is in the best interest of the child;

b. Make every reasonable effort to support the mother's continued breastfeeding for the child if determined appropriate; and

c. Document the assessment and efforts in the child's case plan and case notes.

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.12(234) Services to parents.

202.12(1) Social services and treatment services shall be made available to the parents throughout the period of placement for the purpose of reuniting the family in an agreed upon time frame.

202.12(2) The parents shall be notified of the location and nature of the child's placement, unless it is documented in the child's case record that to do so would be disruptive to the placement.

202.12(3) The case plan and treatment plan shall specify the services to be provided and the time frame for reuniting the family. These plans shall be developed in cooperation with the parents.

202.12(4) Personal contact shall be made regularly with the parents and the progress towards goal attainment reviewed and documented in the case record. The frequency of the personal contact shall be specified in the child's case plan.

202.12(5) When placement of a breastfeeding child is made, the service worker shall:

- a. Assess in consultation with the worker's supervisor whether continued breastfeeding by the mother is in the best interest of the child;
- b. Make every reasonable effort to support the mother's continued breastfeeding of the child if determined appropriate; and
- c. Document the assessment and efforts in the child's case plan and case notes.

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.13(234) Removal of the child.

202.13(1) When the department plans to remove a child from a facility, the facility shall be informed in writing of the date of the removal, the reason for the removal, the recourse available to the facility, if any, and that the chapter 17A contested case proceeding is not applicable to the removal. The department shall inform the facility ten days in advance of the removal, except that the facility may be informed less than ten days prior to the removal in the following instances:

- a. When the parent or guardian removes the child from voluntary placement.
- b. When the court orders removal of a child from placement.
- c. When there is evidence of neglect or physical or sexual abuse.

202.13(2) The department may remove a child from a facility when any of the following conditions exist:

- a. There is evidence of abuse, neglect, or exploitation of the child.
- b. The child needs a specialized service that the facility does not offer.
- c. The child is unable to benefit from the placement as evidenced by lack of progress of the child.
- d. There is evidence the facility is unable to provide the care needed by the child and fulfill its responsibilities under the case plan.
- e. There is lack of cooperation of the facility with the department.

202.13(3) If a foster family objects in writing within seven days from the date that the information of plans to remove the child is mailed, the service area manager shall grant a conference to the foster family to determine that the removal is in the child's best interest.

This conference shall not be construed to be a contested case under the Iowa administrative procedure Act, Iowa Code chapter 17A.

The conference shall be provided before the child is removed except in instances listed in 202.13(1) "a" to "c." The service area manager shall review the propriety of the removal and explain the decision to the foster family.

The service area manager, on finding that the removal is not in the child's best interests, may overrule the removal decision unless a court order or parental decision prevents the department from doing so.

202.13(4) When the facility requests a child be removed from its care, it shall give a minimum of ten days' notice to the department so planning may be made on behalf of the child.

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.14(234) Termination. The foster care services shall be terminated when the child is no longer an eligible child, or when the attainment of goals in the case plan has been achieved, or when the goals for whatever reasons cannot be achieved, or when it is evident that the family or individual is unable to benefit from the service or unwilling to accept further services.

This rule is intended to implement Iowa Code section 234.6(6) "b."

441—202.15(234) Case permanency plan.

202.15(1) The department worker shall ensure that a case permanency plan is developed for each child who is placed in foster care if the department has agreed to provide foster care through a voluntary placement agreement, if a court has transferred custody or guardianship to the department for the purpose

of foster care, or if a court has placed the child in foster care and ordered the department to supervise the placement.

202.15(2) The department worker shall develop the case permanency plan with the child's parents, unless the child's parents are unwilling to participate in the plan's development, and with the child, unless the child is unable or unwilling to participate.

202.15(3) The department worker shall be responsible for ensuring the development of the case permanency plan within the time frames specified in rule 441—130.7(234). In all cases, the case permanency plan shall be completed within 60 days of the date the child entered foster care.

202.15(4) Copies of the initial and subsequent case permanency plans shall be provided to the child, the child's parents, and the foster care provider. Copies shall also be provided to the following, if involved in services to the child: the juvenile court officer, the judge, the child's attorney, the child's guardian ad litem, the child's guardian, the child's custodian, the child's court-appointed special advocate, the parents' attorneys, the county attorney, the state foster care review board, and any other interested parties identified in the plan.

202.15(5) The initial and subsequent case permanency plans shall be completed on the forms specified in rule 441—130.7(234).

202.15(6) Rescinded IAB 4/28/04, effective 6/2/04.

441—202.16(135H) Department approval of need for a psychiatric medical institution for children.

202.16(1) Applicants for departmental approval of need shall submit the following to the division of child and family services:

a. A description of the population to be served, including age, sex, and types of disorders, and an estimate of the number of these youth in need of psychiatric care in the area of the state in which the applicant is located.

b. A statement of the number of beds requested and a description of the treatment program to be provided, the outcomes to be achieved and the techniques for measuring outcomes.

c. A proposed date of operation as a psychiatric medical institution for children.

d. A description of the applicant's experience with providing similar services to youth, especially the target population.

e. A description of the applicant's plan, including the timeline for achieving accreditation to provide psychiatric services from a federally recognized accrediting organization under the organization's standards for residential settings and licensure as a psychiatric medical institution for children, or a copy of the organization's report if already accredited.

f. References from the service area manager for the department service area in which the proposed psychiatric medical institution for children would be located, the chief juvenile court officer of the judicial district in which the proposed psychiatric medical institution for children would be located and the applicant's licenser from the department of inspections and appeals or department of public health.

202.16(2) The department shall evaluate proposals and issue a decision based on the following criteria:

a. The number of psychiatric medical institutions for children beds for the proposed population which are needed in the area of the state in which the facility would be located, based on the department's most recent needs assessment.

b. The steps the facility has taken towards achieving accreditation from a federally recognized accrediting organization and licensure as a psychiatric medical institution for children.

c. The applicant's ability to provide services and support consistent with the requirements under Iowa Code chapter 232 including, but not limited to, evidence that:

(1) Children will be served in a setting which is in close proximity to their parents' home.

(2) Each child will receive services consistent with the child's best interests and special psychiatric needs as identified in the child's case permanency plan.

(3) Children and their families will receive services to facilitate the children's return home or other permanent placement.

d. The applicant's ability to provide children with a non-hospital-type living environment if the applicant is not freestanding from a hospital or health care facility.

e. The limits on the number of beds found in Iowa Code section 135H.6, subsection 5.

202.16(3) If a facility has not been licensed as a psychiatric medical institution for children within one year after the date of the department's approval of need, the department's approval shall expire unless the department has approved an extension. An extension may be approved up to a maximum of six months if the agency has documented extenuating circumstances which prevented completion of the licensing process.

This rule is intended to implement Iowa Code section 135H.6.

441—202.17(232) Area group care targets.

202.17(1) Area target. A group care budget target shall be established for each departmental service area, which shall be based on the annual statewide group care appropriation established by the general assembly.

a. The department and the judicial branch shall jointly develop a formula for allocating the group care appropriation among the departmental service areas. The formula shall be based on:

- (1) Proportional child population.
- (2) Proportional group foster care usage in the previous five completed fiscal years.
- (3) Other indicators of need.

b. Any portion of the group care appropriation allocated for 50 highly structured juvenile program beds and not used may be used for group care.

c. Upon written agreement of the affected service area managers and chief juvenile court officers, service areas may transfer part of their group care budget from one service area to another. A service area may exceed its budget target figure up to 5 percent during the fiscal year, providing that the overall funding allocation by the department for all child welfare services in the service area is not exceeded.

d. Notwithstanding the statewide appropriation established in this subrule, a budget established in a service area's group care plan pursuant to Iowa Code section 232.143 may be exceeded, a group care placement may be ordered, and state payment may be made if the review organization finds that the placement is necessary to meet the child's service needs and if the service area has additional funds transferred from another service area or if the service area is within 5 percent of its group care budget target figure pursuant to 441—paragraph 202.17(1)“c.”

The department and juvenile court services shall work together to ensure that a service area's group care expenditures shall not exceed the funds allocated to the service area for group care in the fiscal year.

e. If at any time after September 30, 1998, annualization of a service area's current expenditures indicates a service area is at risk of exceeding its group foster care expenditure target under Iowa Code section 232.143 by more than 5 percent, the department and juvenile court services shall examine all group foster care placements in that service area in order to identify those which might be appropriate for termination. In addition, any aftercare services believed to be needed for the children whose placements may be terminated shall be identified.

The department and juvenile court services shall initiate action to set dispositional review hearings for the placements identified. In the dispositional review hearing, the juvenile court shall determine whether needed aftercare services are available and whether termination of the placement is in the best interest of the child and the community.

202.17(2) Plan for achieving target. For each of the departmental service areas, representatives appointed by the department and juvenile court services shall establish a plan for containing the expenditure for children placed in group care within the budget target allocated to that service area. The plan shall include monthly targets and strategies for developing alternatives to group care placements.

The plans shall also ensure potential group care referrals are reviewed by the review organization prior to submission of a recommendation for group care placement to the court.

Each area plan shall be established in advance of the fiscal year to which the plan applies. To the extent possible, the department and the juvenile court shall coordinate the planning required under this subrule with planning for services paid under Iowa Code section 232.141, subsection 4. The department's

service area manager shall communicate regularly, as specified in the area plan, with the juvenile courts within the service area concerning the current status of the plan's implementation.

This rule is intended to implement Iowa Code section 232.143.

441—202.18(235) Local transition committees. Local transition committees shall be established in each of the department service areas. The service area manager or designee shall determine the number of local transition committees needed within the service area, set operating policies and procedures, and appoint committee membership.

202.18(1) Purpose. The purpose of local transition committees, as established by Iowa Code Supplement section 235.7, is to ensure that the transition needs of youth in foster care who are 16 years of age or older have been addressed in order to assist the youth in preparing for the transition from foster care to adulthood.

202.18(2) Membership. Each committee shall have a designated number of members.

a. The standing committee membership may include, but is not limited to:

- (1) Department staff involved with child welfare, adult services, or transition planning.
- (2) Juvenile court services staff.
- (3) Adult service system staff.
- (4) Education staff.
- (5) Service care provider representation.
- (6) Others knowledgeable about community resources.

b. Additionally, nonstanding membership may include those knowledgeable about the youth, including the child's court-appointed special advocate, guardian ad litem, and service or care providers.

c. In areas where teams or boards already in existence are involved in review and planning for youth needs, such as the foster care review board or child welfare funding decategorization boards, such teams or boards may serve as local transition committees.

202.18(3) Duties. Local transition committees shall address the transition needs of youth in foster care who are 16 years of age or older and who have a case permanency plan as defined in Iowa Code Supplement section 232.2. Each committee shall have operating policies and procedures to carry out the duties below.

a. Each committee shall establish a process for review and approval of written transition plans for youth for whom the committee has placement responsibility that meets a continuum of case needs and coordinates with local transition planning protocol. The process may include a paper review or an in-person review, or both, according to case need.

b. The committee may be involved when the youth is at least 16 years of age, but shall be involved in reviewing and approving a youth's transition plan before the youth reaches age 17½. When a youth enters foster care at age 17½ or older, the committee shall be involved in reviewing and approving the youth's transition plan within 30 days of completion.

c. In reviewing a youth's transition plan, the committee shall identify and act to address gaps existing in services or supports available that would assist the youth in the transition from foster care to adulthood.

d. For those youth expected to need services as adults, the committee shall ensure that the transition plan was developed with the participation of any person reasonably expected to be a service provider when the youth becomes an adult or to become responsible for the costs of services at that time.

e. The committee shall ensure that transition planning and review is coordinated with overall case planning and review. Committee review and approval shall be indicated in the youth's case permanency plan.

f. With respect to meetings involving a specific youth receiving foster care and the youth's family, the local transition committees are not subject to Iowa Code chapter 21.

g. The information and records of or provided to a local transition committee regarding a youth receiving foster care and the youth's family are not public records pursuant to Iowa Code chapter 22 when the records relate to the foster care placement and transition needs of the youth.

h. Members of the committees are subject to the standards of confidentiality set forth in Iowa Code sections 600.16, 217.30 and 235A.15.

202.18(4) Report. The service area manager or designee shall submit a report on transition planning committees to the department's division of child and family services. The report shall be submitted annually by October 1 for the immediately preceding fiscal year. The report shall include, but not be limited to, the following:

- a.* The geographical area covered for each committee within the service area.
- b.* Standing committee membership for each committee.
- c.* The number of cases reviewed by each committee.
- d.* Identification of barriers to successful transition and gaps in community services or supports.
- e.* Suggestions for ways to transition youth from foster care to adulthood more effectively.

This rule is intended to implement Iowa Code Supplement section 235.7.

CHAPTER 203
IOWA ADOPTION EXCHANGE

PREAMBLE

The purpose of the Iowa adoption exchange as mandated by Iowa Code section 232.119, is to facilitate the placement of Iowa children who are legally available for adoption.

This chapter requires that children with special needs under state guardianship be registered on the Iowa adoption exchange within 60 days after termination of parental rights unless a deferral is granted according to Iowa Code section 232.119 and that all children under state guardianship for whom an adoptive home is not available within 90 days after termination be registered, not just children with special needs. Child-placing agencies may also register children under their guardianship whose parental rights have been terminated.

Department workers, child-placing agencies and certified adoption investigators shall register approved adoptive families, if the families wish to adopt a child with special needs or a sibling group.

441—203.1(232) Definitions.

“*Certified adoption investigator*” means a person as defined in Iowa Code chapter 600 and certified by the department under 441—Chapter 107.

“*Child-placing agency*” means an agency as defined in Iowa Code chapter 238 and licensed under 441—Chapter 108.

“*Children with special needs*” means children as defined in 441—subrule 201.3(1).

“*Department*” means the Iowa department of human services.

“*Exchange*” means the Iowa adoption exchange system.

“*Iowa adoption exchange system*” is a computerized system established to facilitate the adoptive placement of children by matching children legally available for adoption and approved families desiring to adopt a child with special needs or a sibling group and referring the families to the child’s adoption worker.

“*Prospective adoptive family*” means a family residing in Iowa approved to provide an adoptive home for a child.

441—203.2(232) Children to be registered on the exchange system. All children with special needs under state guardianship shall be registered on the Iowa adoption exchange system within 60 days of receipt of the termination of parental rights court order, unless a deferral is granted by the adoption program manager. In addition to the children with special needs being placed on the exchange system, those children under state guardianship for whom an adoptive home is not available within 90 days after termination shall be placed on the exchange system by department staff. Department workers shall forward the child’s photograph to the Division of Adult, Children and Family Services, Adoption Program, for photolisting in the Iowa’s Waiting Children Book at the time that the child is registered on the Iowa adoption exchange system.

Licensed child-placing agencies may register a child whose parental rights have been terminated and who is under their guardianship using one of the following methods:

a. The agency shall submit Form 470-0751, Exchange Referral of Child/Sibling Group to the department for entry of the child’s name and data if the agency is registering less than four children a calendar year.

b. The agency shall access the Iowa adoption exchange system and directly enter the child’s name and data when the agency registers four or more children in a calendar year.

441—203.3(232) Families to be registered on the exchange system. Approved families wishing to adopt a child with special needs or a sibling group shall be registered on the exchange system by department staff.

Licensed child-placing agencies and certified adoption investigators shall register an approved family wishing to adopt a child with special needs or a sibling group on the exchange using one of the following methods:

a. Licensed child-placing agencies shall:

(1) Submit Form 470-0752, Exchange Referral of Family, to the department for entry of the family's name and data if the agency is registering less than four families a calendar year.

(2) Access the Iowa adoption exchange system and directly enter the family's name and data when the agency registers four or more families in a calendar year.

b. Certified adoption investigators shall submit Form 470-0752, Exchange Referral of Family, to the department for entry of the family's name and data.

Only families wishing to adopt a child with special needs or a child for whom no adoptive placement can be found within 90 days after termination will be placed on the exchange.

441—203.4(232) Matching process. Using the computerized Iowa adoption exchange system, department workers and licensed child-placing agencies shall search for approved families to meet the needs of the available children. The child's and family's workers shall be contacted for additional information needed to make an informed decision concerning possible adoptive placements.

These rules are intended to implement Iowa Code section 232.119.

CHAPTER 204
SUBSIDIZED GUARDIANSHIP PROGRAM

PREAMBLE

This chapter implements a five-year demonstration waiver project for a subsidized guardianship program to provide financial assistance to guardians of eligible children who are not able to be adopted and who are not able to return home. The purpose of the project is to test new approaches to service delivery for improving outcomes for children and families and to allow children a more permanent placement than they have in foster care.

Eligible children will be randomly assigned to a control group or to an experimental group. Children assigned to the control group will not be eligible to receive subsidized guardianship. Children assigned to the experimental group will be eligible to receive subsidized guardianship if all other conditions are met. This waiver project may be extended or renewed after the five years through reauthorization by the federal government.

441—204.1(234) Definitions.

“*Child*” means a person who has not attained the age of 18.

“*Department*” means the Iowa department of human services.

“*Guardianship subsidy*” means a monthly payment to assist in covering the cost of room, board, clothing, and spending money for the child.

“*Nonrecurring expenses*” means reasonable and necessary guardianship fees, court costs, attorney fees, and other expenses that are directly related to finalizing the legal guardianship of a child. These expenses shall be limited to attorney fees, court filing fees and other court costs.

“*Sibling group*” means at least two children who are whole or half-siblings. A sibling group may include adopted children who have a common parent. Stepsiblings are not included as part of the sibling group.

441—204.2(234) Eligibility.

204.2(1) *General conditions of eligibility.* The guardian named in a permanency order under Iowa Code section 232.104(2) “*d*”(1) or Iowa Code chapter 633 for a child who was previously in the custody of the department is eligible for subsidy when all of the following conditions exist:

- a. The child has a documented permanency goal of:
 - (1) Long-term foster care;
 - (2) Guardianship; or
 - (3) Another planned permanent living arrangement.
- b. The child has been in a licensed foster care placement and has lived in foster care for at least 6 of the last 12 months.
- c. The child is either:
 - (1) 14 years of age or older and consents to the guardianship; or
 - (2) 12 years of age or older and guardianship has been determined to be in the child’s best interest;or
- (3) Under 12 years of age and part of a sibling group with a child aged 12 or older.
- d. The child has lived in continuous placement with the prospective guardian for the six months before initiation of the guardianship subsidy.
- e. The guardian is a person who has a significant relationship with the child and demonstrates a willingness to make a long-term commitment to the child’s care.
 - (1) The guardian may be a relative or nonrelative,
 - (2) Placement with that guardian must be in the best interest of the child. The best-interest determination must be documented in the case file.
- f. The child has been randomly selected to participate in the waiver demonstration project.

204.2(2) *Residency.* The subsidized guardianship applicant or recipient need not reside in Iowa.

204.2(3) Unearned income. The family or the guardian shall provide to the department worker documentation from the source of the child's unearned income.

204.2(4) Other services. Rescinded IAB 10/11/06, effective 11/1/06.

441—204.3(234) Application. Applications for the subsidized guardianship program may be made at any county office of the department.

204.3(1) Application forms. Application for guardianship subsidy shall be made on Form 470-3632, Application for Guardianship Subsidy.

204.3(2) Eligibility determination. The determination of whether a child meets eligibility requirements shall be made by the department.

204.3(3) Effective date. The effective date of the subsidy payment shall be the date the guardianship order is signed if all other conditions of eligibility are met.

204.3(4) Redetermination. Rescinded IAB 10/11/06, effective 11/1/06.

441—204.4(234) Negotiation of amount of subsidy.

204.4(1) Subsidy agreement. The amount of subsidy shall be negotiated between the department and the guardian, and shall be based upon the needs of the child, and the circumstances of the family. Each time negotiations are completed, the Guardianship Subsidy Agreement, Form 470-3631, shall be completed and signed by the guardian and the department worker.

204.4(2) Amount of subsidy. The department shall enter into the agreement based upon available funds. Each time negotiations are completed, the department worker and guardian shall complete Form 470-3631, Guardianship Subsidy Agreement.

a. The guardianship subsidy shall be based on a flat daily foster care rate adjusted according to the needs of the child and the circumstances of the family.

(1) The rate for the guardianship subsidy shall not exceed the state's current daily basic foster care rate plus any daily level 1 or 2 special needs allowance or sibling allowance for which the child is eligible, as found at 441—subrule 156.6(1) and 441—paragraphs 156.6(4)“*b*” and “*f*.”

(2) Rescinded IAB 1/3/07, effective 1/1/07.

b. If the payment is less than the maximum amount allowed, the guardian may request an increase if the child's or family's needs and circumstances require additional resources.

204.4(3) Placement outside of home. If a child needs to be placed out of the guardian's home and the plan is for the child to return to the guardian within six months, a partial subsidy amount may be negotiated.

204.4(4) Nonrecurring expenses. The nonrecurring expenses necessary to finalize a guardianship shall be limited to the amount found in 441—subparagraph 201.6(1)“*a*”(7).

441—204.5(234) Parental liability. These subsidy payments are considered foster care payments for purposes of child support recovery and as such create a support debt for the parents.

441—204.6(234) Termination of subsidy. The subsidy shall terminate when any of the following occur, and a notice shall be sent which states the reason for the termination:

1. The child reaches the age of 18, unless the department determines that the subsidy may continue until the child reaches the age of 19 to facilitate the child's completion of high school or a high school equivalency diploma.

2. The child marries or enlists in the military.

3. The child no longer lives with the guardian, except for placement outside the home as limited by subrule 204.4(3).

4. The relationship ends due to the death of the child or the death of the guardian of the child (one in a single-parent family or both in a two-parent family).

5. The terms of Form 470-3631, Guardianship Subsidy Agreement, are concluded.

6. The guardian requests that the guardianship payment cease.

7. Due to incapacity, the guardian can no longer discharge the responsibilities necessary to protect and care for the child, and the guardianship has been or will be vacated.
8. The guardian fails to abide by the terms of Form 470-3631, Guardianship Subsidy Agreement.
9. The guardianship case is terminated by court order.
10. The department funds for subsidized guardianship are no longer available.

441—204.7(234) Reinstatement of subsidy. Reinstatement of the subsidy shall be made when the subsidy was terminated because of the guardian's request, and the guardian has requested reinstatement.

441—204.8(234) Appeals. The guardian may appeal adverse determination pursuant to 441—Chapter 7.

441—204.9(234) Medical assistance. Children eligible for subsidy are entitled to medical assistance as defined in 441—Chapter 75. When an Iowa child receives medical assistance from another state, Iowa shall discontinue paying any medical costs the month following the move unless additional time is necessary for a timely notice of decision to be provided to the guardian.

The funding source for medical assistance is based on the following criteria:

1. Children from Iowa residing in Iowa shall be covered by Iowa's medical assistance.
2. Children from Iowa residing in another state shall receive medical assistance from the state of residence if eligible. Iowa shall provide medical assistance for children not eligible in their state of residence. Medical assistance available in the family's state of residence may vary from Iowa's medical assistance.
3. Children from another state residing in Iowa shall continue to be covered by the other state's medical assistance unless the state has adopted the adoption assistance interstate compact and a contract between Iowa and the other state exists.

These rules are intended to implement Iowa Code section 234.6 and 2006 Iowa Acts, House File 2734, section 17, subsection 10.
