5.11(3) *Obtaining information from a third party.* The department of inspections and appeals occasionally requests personally identifiable information from third parties during the course of its authorized audits, investigations, hearings or inspections. 481—5.12(17A,22) Release to subject.

5.12(1) A written request to review confidential records may be filed by the subject of the record as provided in rule 5.6(17A,22). The department need not release the following records to the subject:

(1) Enable law violators to avoid detection;

481—5.15(17A,22) Personnel files. The agency maintains files containing information about employees, families and dependents, and applicants for positions with the agency. Some of this information is confidential under Iowa Code section 22.7(11).

5.16(1) Rule making. Rule-making records may contain information about people who make written or oral comments about proposed rules. Iowa Code section 17A.4 requires collection and retention of this information. It cannot be retrieved by an individual identifier. It is not stored in a computer system.

During the rule-writing process, committees are occasionally used to gather basic information. Minutes of committee meetings are available for public inspection. The minutes are retained. Minutes of meetings are not retrievable by personal identifier. Minutes collected and stored in the health facilities division are available from the Health Facilities Division, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319, in compliance with Iowa Code section 135C.14.

Presentence investigation reports in the possession of the appellate defender are confidential records pursuant to Iowa Code section 901.4.

The records include briefs, depositions, docket sheets, documents, correspondence, attorney's notes, memoranda, research materials, witness information, investigation materials, information compiled under the direction of the attorney, and case management records. The files contain material which is confidential as attorney work product and attorney-client communications. Some materials are confidential under other applicable provisions of law or because of a court order. Persons wishing copies of pleadings and other documents filed in litigation should obtain them from the clerk of the appropriate court which maintains the official copy.

5.16(4) Audits division. Paper files stored according to a person's or company's name are collected for purposes of auditing gaming, beer, wine, liquor, or real estate licenses. In each case the name of the

- Gaming licenses, 99B.2(2)
- Beer permits, 123.138
- Liquor control licenses, 123.33

All of these records are used to conduct audits according to Iowa Code section 10A.302.

5.16(5) *Investigations division.* Paper and data processing files are stored and are retrievable using a name, social security number, or state identification number. All records are collected and stored by the investigations division pursuant to Iowa Code section 10A.402. All records are collected to decrease mispayments in human services programs or to help collect funds paid in error.

Comparisons between record systems are explained in rule 481—71.8(10A).

5.16(6) *Inspections division.*

CHAPTER 6
UNIFORM WAIVER AND VARIANCE RULES

481—6.1(10A,17A,ExecOrd11) Applicability. This chapter outlines a uniform process for the granting of waivers or variances from rules adopted by the department. The intent of this chapter is to allow persons to seek exceptions to the application of rules issued by the department.

481—6.2(10A,17A,ExecOrd11) Definitions.

“Attached units” means units attached to the department and includes the employment appeal board, hospital licensing board, state citizen foster care review board, racing and gaming commission, and state public defender’s office.

“Department” means the department of inspections and appeals authorized by Iowa Code chapter 10A, which is comprised of the administrative division, administrative hearings division, audits division, health facilities division, inspections division and investigations division. Pursuant to Iowa Code section 7E.2(5), five attached units are included in the department.

“Director” means the director of the department of inspections and appeals or the director’s designee.

“Director/board” means the director, board, commission or state public defender depending on which one has the decision-making authority pursuant to Iowa Code chapter 10A or 7E.

“Person” means an individual, corporation, limited liability company, government or governmental subdivision or association, or any legal entity.

481—6.3(10A,17A,ExecOrd11) Interpretive rules. This chapter shall not apply to rules that merely define the meaning of a statute or other provision of law or precedent if the department does not possess delegated authority to bind the courts to any extent with its definition.

481—6.4(10A,17A,ExecOrd11) Compliance with statute. The department shall not grant a petition for waiver or a variance from a rule unless a statute or other provision of law has delegated authority to the department sufficient to justify that action and the waiver or variance is consistent with the statute or other provision of law. No waiver or variance may be granted from a requirement that is imposed by statute, unless the statute itself specifically authorizes that action. Any waiver or variance must be consistent with statute.

481—6.5(10A,17A,ExecOrd11) Criteria for waiver or variance. At the sole discretion of the director/board, the director/board may issue an order, in response to a completed petition or on the department’s own motion, granting a waiver or variance from a rule adopted by the department, in whole or in part, as applied to the circumstances of a specified person or a specific and narrowly drawn class of persons if the director/board finds based on clear and convincing evidence that:

1. The application of the rule to the petitioner would pose an undue hardship on the person or class of persons for whom the waiver or variance is requested;
2. The waiver or variance from the requirements of a rule in the specific case would not prejudice the substantial legal rights of any person;
3. The provisions of a rule subject to a petition for a waiver or variance are not specifically mandated by statute or another provision of law; and
4. Substantially equal protection of public health, safety, and welfare will be afforded by a means other than that prescribed in the particular rule for which the waiver or variance is requested.

481—6.6(10A,17A,ExecOrd11) Filing of petition. A petition for a waiver or variance must be submitted in writing to the Department of Inspections and Appeals, Office of the Director, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319. If the petition relates to a pending contested case, the petition shall also be filed in the contested case proceeding.

481—6.7(10A,17A,ExecOrd11) Content of petition. A petition for waiver or variance shall include the following information where applicable and known to the requester:

1. The name, address, and telephone number of the entity or person for whom a waiver or variance is being requested and the case number of any related contested case.
2. A description and citation of the specific rule from which a waiver or variance is requested.
3. The specific waiver or variance requested, including the precise scope and operative period that the waiver or variance will extend.
4. The relevant facts that the petitioner believes would justify a waiver or variance. This statement shall include a signed statement from the petitioner attesting to the accuracy of the facts provided in the petition and a statement of reasons that the petitioner believes will justify a waiver or variance.
5. A history of any prior contacts between the department and the petitioner relating to the regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department that would be affected by the proposed waiver or variance, including a description of each regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department, any notices of violation, contested case hearings, or investigative reports relating to the regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department within the last five years.
6. Any information known to the requester regarding the department's treatment of similar cases.
7. The name, address, and telephone number of any public agency or political subdivision which also regulates the activity in question or which might be affected by the granting of a waiver or variance.
8. The name, address, and telephone number of any person or entity that would be adversely affected by the granting of a petition.
9. The name, address, and telephone number of any person with knowledge of the relevant facts relating to the proposed waiver or variance.
10. Signed releases of information authorizing persons with knowledge regarding the request to furnish the department with information relevant to the waiver or variance.

481—6.8(10A,17A,ExecOrd11) Additional information. Prior to issuing an order granting or denying a waiver or variance, the department may request additional information from the petitioner relative to the petition and surrounding circumstances. If the petition was not filed in a contested case, the department may, on its own motion or at the petitioner's request, schedule a telephonic or in-person meeting between the petitioner and the department or department's designee.

481—6.9(10A,17A,ExecOrd11) Notice. The department shall acknowledge a petition upon receipt. The department shall ensure that notice of the pendency of the petition and a concise summary of its contents have been provided to all persons to whom notice is required by any provision of law within 30 days of the receipt of the petition. In addition, the department may give notice to other persons. To accomplish this notice provision, the department may require the petitioner to serve the notice on all persons to whom notice is required by any provision of law and provide a written statement to the department attesting that notice has been provided.

481—6.10(10A,17A,ExecOrd11) Hearing procedures. The provisions of Iowa Code sections 17A.10 to 17A.18A regarding contested case hearings shall apply to any petition for a waiver or variance of rule filed within a contested case and shall otherwise apply to agency proceedings for a waiver or variance only when the department so provides by rule or order or is required to do so by statute.

481—6.11(10A,17A,ExecOrd11) Ruling. An order granting or denying a waiver or variance shall be in writing and shall contain a reference to the particular person and rule or portion thereof to which the order pertains, a statement of the relevant facts and reasons upon which the action is based, and a description of the precise scope and operative period of the waiver if one is issued.

6.11(1) Director/board discretion. The decision on whether the circumstances justify the granting of a waiver or variance shall be made at the discretion of the director upon consideration of all relevant factors, except for the below-listed programs, for which the applicable board, commission or state public defender shall make the decision, upon consideration of all relevant factors:

- a. Employment appeal board, 486—Chapter 1.
- b. Hospital licensing board, 481—Chapter 51.
- c. State citizen foster care review board, 489—Chapter 1.
- d. Racing and gaming commission, 491—Chapter 1.
- e. State public defender's office, 493—Chapter 1.

6.11(2) Burden of persuasion. The petitioner has the burden of persuasion when a petition is filed for a waiver or variance from a department rule. The standard of proof is clear and convincing evidence.

6.11(3) Special waiver or variance rules not precluded. This chapter shall not preclude the department from granting waivers or variances in other contexts or on the basis of other standards if a statute authorizes the department to do so and the department deems it appropriate to do so.

6.11(4) Administrative deadlines. When the rule from which a waiver or variance is sought establishes administrative deadlines, the director/board shall balance the special individual circumstances of the petitioner with the overall goal of uniform treatment of all persons similarly situated.

6.11(5) Conditions. The director/board may condition the granting of the waiver or variance on such reasonable conditions as appropriate to achieve the objectives of the particular rule in question through alternative means and in compliance with the following provisions:

- a. Each petition for a waiver or variance shall be evaluated by the department based on the unique, individual circumstances set out in the petition;
- b. A waiver or variance, if granted, shall be drafted by the department so as to provide the narrowest exception possible to the provisions of the rule;
- c. The department may place on a waiver or variance a condition that the department finds desirable to protect the public health, safety, and welfare;
- d. A waiver or variance shall not be permanent, unless the petitioner can show that a temporary waiver or variance would be impracticable; and
- e. If a temporary waiver or variance is granted, there is no automatic right to renewal. At the sole discretion of the department, a waiver or variance may be renewed if the department finds that all of the factors set out in rule 6.5(10A,17A,ExecOrd11) remain valid.

6.11(6) Time for ruling. The director/board shall grant or deny a petition for a waiver or variance as soon as practicable but, in any event, shall do so within 120 days of its receipt, unless the petitioner agrees to a later date. However, if a petition is filed in a contested case, the director/board has the discretion to wait until the contested case is resolved before entering an order on the petition for waiver or variance.

6.11(7) When deemed denied. Failure of the director/board to grant or deny a petition within the required time period shall be deemed a denial of that petition by the director/board.

6.11(8) Service of order. Within seven days of its issuance, any order issued under this chapter shall be transmitted to the petitioner or the person to whom the order pertains and to any other person entitled to such notice by any provision of law.

481—6.12(10A,17A,ExecOrd11) Public availability. Subject to the provisions of Iowa Code section 17A.3(1)“e,” the department shall maintain a record of all orders granting or denying waivers and variances under this chapter. All final rulings in response to requests for waivers or variances shall be indexed and available to members of the public at the director's office.

Twice each year the department must prepare a report that:

1. Identifies the rules for which a waiver or variance has been granted or denied;
2. The number of times a waiver or variance was granted or denied for each rule;
3. A citation to the statutory provisions implemented by these rules; and
4. A general summary of the reasons justifying the department's actions.

481—6.13(10A,17A,ExecOrd11) Voiding or cancellation. A waiver or variance is void if the material facts upon which the request is based are not true or if material facts have been withheld. The director/board may at any time cancel a waiver or variance upon appropriate notice and hearing if the director/board finds that the facts as stated in the request are not true, material facts have been withheld, the alternative means of compliance provided in the waiver or variance have failed to achieve the objectives of the statute, or the requester has failed to comply with the conditions of the order.

481—6.14(10A,17A,ExecOrd11) Violations. Violation of conditions in the waiver or variance approval is the equivalent of violation of the particular rule for which the waiver or variance is granted and is subject to the same remedies or penalties.

481—6.15(10A,17A,ExecOrd11) Defense. After the director/board issues an order granting a waiver or variance, the order is a defense within its terms and the specific facts indicated therein for the person to whom the order pertains in any proceeding in which the rule in question is sought to be invoked.

481—6.16(10A,17A,ExecOrd11) Appeals. Any request for an appeal from a decision granting or denying a waiver or variance shall be in accordance with the procedures provided in Iowa Code chapter 17A and departmental rules. An appeal shall be taken within 30 days of the issuance of the ruling in response to the request unless a contrary time is provided by rule or statute.

481—6.17(10A,17A,ExecOrd11) Sample petition for waiver or variance.

10.4(2) The agency and the department determine by agreement whether the agency or the department shall issue the notice of hearing.

a. If agreed by the agency and the department, the agency shall attach a notice of hearing to the transmittal form.

b. If the division by agreement issues the notice of hearing, the agency must provide the information required by Iowa Code section 17A.12(2) (except for the date, time and place of the hearing) for inclusion in the notice.

c. The agency, and not the division, shall prepare:

- (1) The citation to the jurisdictional authority of the agency regarding the matter in controversy;
- (2) A statement of the issues involved;
- (3) A reference to statutes and rules involved; and
- (4) The remaining information required by the transmittal form as stated in subrule 10.4(1).

10.4(3) The following documents shall be attached to the completed transmittal form when it is sent to the division:

a. A copy of the document showing the agency action in controversy; and

b. A copy of any document requesting a contested case hearing.

10.4(4) When a properly transmitted case is received, it is marked with the date of receipt by the division. An identifying number shall be assigned to each contested case upon receipt.

This rule is intended to implement Iowa Code section 10A.202(1).

481—10.5(17A) Notices of hearing.

10.5(1) Responsibility for issuance of notice of hearing and the manner of service shall be resolved by agreement between the division and the transmitting agency.

10.5(2) Notices of hearing shall contain the information required by Iowa Code subsection 17A.12(2) and any additional information required by statute or rule. Notices shall be served by first-class mail, unless otherwise required by statute or rule, or agreed pursuant to subrule 10.5(1).

This rule is intended to implement Iowa Code sections 17A.12(1) and 17A.12(2).

481—10.6(10A) Waiver of procedures. Unless otherwise precluded, the parties in a contested case may waive any provision of this chapter pursuant to Iowa Code section 17A.10.

This rule is intended to implement Iowa Code section 10A.202(2).

481—10.7(10A,17A) Telephone proceedings. A prehearing conference or a hearing may be held by telephone conference call pursuant to a notice of hearing or an order of the ALJ. The division shall determine the location of the parties and witnesses in telephone hearings. The convenience of the witnesses or parties, as well as the nature of the case, shall be considered when location is chosen.

481—10.8(10A,17A) Scheduling. Contested case hearings are scheduled according to the following criteria:

10.8(1) Agency hearings. The division shall promptly schedule hearings. The availability of an administrative law judge and any special circumstances shall be considered.

10.8(2) Board hearings. Boards are requested to consult with the division prior to scheduling hearings to determine the availability of an administrative law judge. The board shall determine the time and place of hearing.

481—10.9(17A) Disqualification.

10.9(1) An administrative law judge shall withdraw from contested cases for lack of impartiality or other legally sufficient cause including, but not limited to, cases where:

a. The ALJ has a personal bias or prejudice concerning a party, or personal knowledge of disputed evidentiary facts concerning the case;

b. The ALJ has prosecuted or advocated in connection with the case, the specific controversy underlying the case, or another pending factually related contested case or pending factually related controversy that may culminate in a contested case involving the same parties;

c. A private party is a client or has been a client of the ALJ within the past two years;

d. The ALJ has a financial interest in the case or any other interest that could be substantially affected by the outcome of the case; or

e. The ALJ, the ALJ's spouse, or relative within the third degree of relationship:

(1) Is a party to the case or an officer, director or trustee of a party;

(2) Is a lawyer in the case;

(3) Is known by the ALJ to have an interest that could be substantially affected by the outcome of the case; or

(4) Is to the ALJ's knowledge likely to be a material witness in the case.

10.9(2) If an ALJ does not withdraw, the ALJ shall disclose on the record any information relevant to the grounds listed in subrule 10.9(1).

10.9(3) If a party asserts disqualification on any appropriate ground, including those listed in subrule 10.9(1), the party shall file an affidavit pursuant to Iowa Code subsection 17A.17(4). The affidavit must be filed with the division within 15 days of the date of the notice of hearing, or as soon as the reason alleged in the affidavit becomes known to the party, but in any case shall be filed prior to the hearing.

This rule is intended to implement Iowa Code section 17A.17.

481—10.10(10A,17A) Consolidation—severance.

10.10(1) Consolidation. The administrative law judge may, upon motion by any party or the ALJ's own motion, consolidate any or all matters at issue in two or more proceedings docketed under these rules where:

a. There exist common parties or common questions of fact or law;

b. Consolidation would expedite and simplify consideration of the issues; and

c. Consolidation would not adversely affect the rights of parties engaged in otherwise separate proceedings.

At any time prior to the hearing, any party may on motion request that the matters not be consolidated, and the motion shall be granted for good cause shown.

10.10(2) Severance. The administrative law judge may, upon motion by any party or upon the ALJ's own motion, for good cause shown, order any proceeding or portion thereof severed.

This rule is intended to implement Iowa Code sections 10A.202(1) and 17A.22.

481—10.11(10A,17A) Pleadings. Pleadings may be required by the notice of hearing or by order of the administrative law judge. If pleadings are required, they shall be filed as follows:

10.11(1) Petition. When an action of the agency is appealed and pleadings are required under subrule 10.10(1), the aggrieved party shall file the petition.

a. Any required petition shall be filed within 20 days of delivery of the notice of hearing, unless otherwise ordered.

b. The petition shall state in separately numbered paragraphs the following:

(1) The relief demanded and the facts and law relied upon for relief;

(2) The particular provisions of the statutes and rules involved;

- (3) On whose behalf the petition is filed; and
- (4) The name, address and telephone number of the petitioner and the petitioner's attorney, if any.

10.11(2) Answer. If pleadings are required, the answer shall be filed within 20 days of service of the petition or notice of hearing, unless otherwise ordered.

a. Any party may move to dismiss or apply for a more definite, detailed statement when appropriate.

b. The answer shall show on whose behalf it is filed and specifically admit, deny or otherwise answer all material allegations of the pleading to which it responds. It shall state any facts deemed to show an affirmative defense and may contain as many defenses as the pleader may claim.

c. The answer shall state the name, address and telephone number of the person filing the answer and of the attorney representing that person, if any.

d. Any allegation in the petition not denied in the answer is considered admitted. Any defense not raised which could have been raised on the basis of facts known when the answer was written may be waived unless manifest injustice would result.

10.11(3) Amendment. Any petition, notice of hearing or other charging document may be amended before a responsive pleading has been filed. Amendments to pleadings after a responsive pleading has been filed may be allowed at the discretion of the ALJ or board if applicable. The presiding ALJ or board may impose terms or grant a continuance without terms, as a condition of allowing late amendments.

This rule is intended to implement Iowa Code sections 10A.202(1) and 17A.12(6) "a."

481—10.12(17A) Service and filing of pleadings and other papers.

10.12(1) When service is required. Except where otherwise specifically authorized by law, every pleading, motion, document or other paper filed in the contested case proceeding and every paper relating to discovery in the proceeding shall be served upon each of the parties to the proceeding, including the originating agency. Except for the notice of the hearing and an application for rehearing as provided in Iowa Code subsection 17A.16(2), the party filing a document is responsible for service on all parties.

10.12(2) Methods of performing service. Service upon a party represented by an attorney shall be made upon the attorney unless otherwise ordered. Service is made by delivery or by mailing a copy to the person's last-known address. Service by first-class mail is rebuttably presumed to be complete upon mailing, except where otherwise specifically provided by statute, rule or order.

10.12(3) Filing. After a matter has been assigned to the division, and until a proposed decision is issued, documents shall be filed with the division, rather than the originating agency. All papers filed after the notice is issued that are required to be served upon a party shall be filed simultaneously with the division.

a. Except where otherwise provided by law, a document is deemed filed at the time it is:

(1) Delivered to the division of appeals and fair hearings, department of inspections and appeals and date-stamped received;

(2) Delivered to an established courier service for immediate delivery;

(3) Mailed by first-class mail or by state interoffice mail so long as there is adequate proof of mailing; or

(4) Sent by facsimile transmission (fax) as provided in subrule 10.12(3), paragraph "b."

b. All documents filed with the division pursuant to these rules, except a person's request or demand for a contested case proceeding, (see Iowa Code subsection 17A.12(9)) may be filed by facsimile transmission (fax). A copy shall be filed for each case involved. A document filed by fax is presumed to be an accurate reproduction of the original. If a document filed by fax is illegible, a legible copy may be substituted and the date of filing shall be the date the illegible copy was received. The date of filing by fax shall be the date the document is received by the division. The division will not provide a mailed file-stamped copy of documents filed by fax.

10.12(4) Proof of mailing. Adequate proof of mailing includes the following:

a. A legible United States postal service postmark on the envelope;

b. A certificate of service;

c. A notarized affidavit; or

d. A certification in substantially the following form:

481—10.13(17A) Discovery.

10.13(1) Pursuant to Iowa Code section 17A.13, discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by rules of the agency or by a ruling by the ALJ, time periods for compliance with discovery shall be as provided in the Iowa Rules of Civil Procedure.

10.13(2) Any motion relating to discovery shall allege that the moving party has made a good faith attempt to resolve the issues raised by the motion with the opposing party. Motions in regard to discovery shall be ruled on by the ALJ. Opposing parties shall be afforded the opportunity to respond within ten days of the filing of the motion unless the time is shortened as provided in subrule 10.13(1). The ALJ may rule on the basis of the written motion and any response or may order argument on the motion.

This rule is intended to implement Iowa Code section 17A.13.

481—10.14(10A,17A) Subpoenas.

10.14(1) Issuance.

a. Pursuant to Iowa Code subsection 17A.13(1), the division shall issue an agency subpoena to a party on request unless otherwise excluded pursuant to this rule. A request for a subpoena shall be in writing. The request may be made in person, or by mail, fax, or electronic mail. The request shall include the names of the parties, the case number, the name and address of the requested witness, and a description or list of any documents or other items requested. A request for a subpoena shall be received by the division at least seven calendar days before the scheduled hearing. The request shall include the name, address and telephone number of the requesting party.

b. The division shall provide the subpoena to the requesting party by regular mail, fax, or electronic mail or allow for pickup during the department's regular business hours. Parties are responsible for service of their own subpoenas and payment of witness fees and mileage expenses.

c. When authorized by law, an administrative law judge (ALJ) may issue a subpoena on the ALJ's own motion.

d. When there is reasonable ground to believe a subpoena is requested for the purpose of harassment, or that the subpoena requests irrelevant evidence or is untimely, the ALJ may refuse to issue the subpoena. The ALJ may require the requesting party to provide a statement of testimony expected to be elicited from the subpoenaed witness and a showing of relevancy. If the ALJ refuses to issue a subpoena, the ALJ shall provide a written statement of the ground for refusal. A party to whom a refusal is issued may obtain a prompt hearing regarding the refusal by filing a written request with the division.

10.14(2) Motion to quash or modify.

a. A subpoena may be quashed or modified upon motion for any lawful ground in accordance with the Iowa Rules of Civil Procedure.

b. A motion to quash or modify a subpoena shall be served on all parties of record.

c. The motion may be set for argument at the discretion of the ALJ.

This rule is intended to implement Iowa Code sections 10A.104(6) and 17A.13.

[ARC 9616B, IAB 7/13/11, effective 8/17/11]

481—10.15(10A,17A) Motions.

10.15(1) No technical form is required for motions. Prehearing motions, however, must be written, state the grounds for relief and state the relief sought. Any motion for summary judgment shall be filed in compliance with the requirements of Iowa Rules of Civil Procedure.

10.15(2) Any party may file a written resistance or response to a motion within 14 days after the motion is served, unless the time period is extended or shortened by rules of the agency or the administrative law judge. The ALJ may consider a failure to respond within the required time period in ruling on a motion.

10.15(3) The administrative law judge may schedule oral argument on any motion on the request of any party or the ALJ's own motion.

10.15(4) Except for good cause, all motions pertaining to the hearing must be filed and served at least ten days prior to the hearing date unless the time period is shortened or lengthened by rules of the agency or the administrative law judge.

481—10.16(17A) Prehearing conference.

10.16(1) Any party may request a prehearing conference. A request for prehearing conference or an order for prehearing conference on the ALJ's own motion shall be filed in writing and served on all parties of record not less than ten days prior to the hearing date. A prehearing conference shall be scheduled not less than three business days prior to the hearing date.

Notice of the prehearing conference shall be given by the division to all parties. For good cause the ALJ may permit variances from this rule.

10.16(2) Each party shall bring to the prehearing conference:

a. A final list of witnesses who the party reasonably anticipates will testify at the hearing. Witnesses not listed may be excluded from testifying.

b. A final list of exhibits which the party reasonably anticipates will be introduced at the hearing. Exhibits not listed, except rebuttal exhibits, may be excluded from admission into evidence.

10.16(3) In addition to the requirements of subrule 10.16(2), the parties at a prehearing conference may:

- a.* Enter into stipulations of law;
- b.* Enter into stipulations of fact;
- c.* Enter into stipulations on the admissibility of exhibits;
- d.* Identify matters which the parties intend to request be officially noticed;
- e.* Unless precluded by statute, enter into stipulations for waiver of the provisions of Iowa Code chapter 17A allowed by Iowa Code section 17A.10(2) or waiver of agency rules; and
- f.* Consider any additional matters which will expedite the hearing.

10.16(4) A prehearing conference shall be conducted by telephone conference call unless otherwise ordered. Parties shall exchange and receive witness and exhibit lists prior to a telephone prehearing conference.

This rule is intended to implement Iowa Code section 17A.10.

481—10.17(10A) Continuances. Unless otherwise provided, application for continuance shall be made to the ALJ or to the division if an ALJ has not been assigned.

10.17(1) A written application for continuance shall:

- a.* Be made before the hearing;
- b.* State the specific reasons for the request; and
- c.* Be signed by the requesting party or their representative.

10.17(2) If the ALJ waives the requirement for a written motion, an oral application for continuance may be made. A written application shall be submitted no later than five days after the oral request. The ALJ may waive this requirement. No application for continuance will be made or granted ex parte without notice except in an emergency where notice is not feasible. The agency may waive notice of requests for a case or a class of cases.

10.17(3) Except where otherwise provided, a continuance may be granted at the discretion of the ALJ. The administrative law judge shall consider, in addition to the grounds stated in the motion:

- a.* Any prior continuances;
- b.* The interests of all parties;
- c.* The likelihood of informal settlement;

- d. Existence of emergency;
- e. Objection to the continuance;
- f. Any applicable state or federal statutes or regulations;
- g. The existence of a conflict in the schedules of counsel or parties or witnesses; and
- h. The timeliness of the request.

The ALJ may require documentation of any ground for continuance.

This rule is intended to implement Iowa Code section 10A.202(1).

481—10.18(10A,17A) Withdrawals. The party which requested an evidentiary hearing regarding agency action may withdraw prior to the hearing only in accordance with agency rules. Requests for withdrawal may be oral or written. If oral, the ALJ may require the party to submit a written request after the oral request. Unless otherwise provided, a withdrawal shall be with prejudice.

This rule is intended to implement Iowa Code sections 10A.202(1) and 17A.22.

481—10.19(10A,17A) Intervention.

10.19(1) Motion. A motion for leave to intervene shall be served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding. A proposed answer or petition in intervention shall be attached to the motion. Any party may file a response within ten days of service of the motion to intervene unless the time period is extended or shortened by the ALJ.

10.19(2) When filed. Motion for leave to intervene shall be filed as early in the proceeding as possible to avoid adverse impact on existing parties or the disposition of the proceeding. Unless otherwise ordered, a motion for leave to intervene shall be filed before the prehearing conference, if one is held, or at least 20 days before the date scheduled for hearing. Any later motion must contain a statement of good cause for the failure to file in a timely manner. The intervenor shall be bound by any agreement, arrangement or other matter previously raised in the case. Requests by untimely intervenors for continuances which would delay the hearing will be denied.

10.19(3) Grounds for intervention. The movant shall demonstrate that:

- a. Intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties;
- b. The movant will be aggrieved or adversely affected by a final order; and
- c. The interests of the movant are not being adequately represented by existing parties; or that it is otherwise entitled to intervene.

10.19(4) Effect of intervention. If appropriate, the ALJ may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings. A person granted leave to intervene is a party to the proceeding. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding.

This rule is intended to implement Iowa Code sections 10A.202(1) and 17A.22.

481—10.20(17A) Hearing procedures.

10.20(1) When an ALJ has been appointed as the presiding officer in a contested case, the ALJ may:

- a. Rule on motions;
- b. Preside at the hearing;
- c. Require the parties to submit briefs;
- d. Issue a proposed decision; and
- e. Issue orders and rulings to ensure the orderly conduct of the proceedings.

10.20(2) All objections to procedures, admission of evidence or any other matter shall be timely made and stated on the record.

10.20(3) Parties in a contested case have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Partnerships, corporations or associations may be represented by any member, officer, director or duly authorized agent. Any party may be represented by an attorney or as otherwise authorized by law.

10.20(4) Parties in a contested case have the right to introduce evidence on points at issue, to cross-examine witnesses present at the hearing as necessary for a full and true disclosure of the facts, to present evidence in rebuttal and to submit briefs.

10.20(5) The ALJ shall maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly or disruptive.

10.20(6) Witnesses may be sequestered during the hearing.

10.20(7) The ALJ shall conduct the hearing in the following manner:

- a. The ALJ shall give an opening statement briefly describing the nature of the proceeding;
- b. The parties shall be given an opportunity to present opening statements;
- c. Parties shall present their cases in the sequence determined by the ALJ;
- d. Each witness shall be sworn or affirmed by the ALJ or the court reporter, and be subject to examination. The ALJ may limit questioning consistent with Iowa Code section 17A.14;
- e. The ALJ has the authority to fully and fairly develop the record and may inquire into the matters at issue and shall receive in evidence the testimony of witnesses and any documents which are relevant and material; and
- f. When all parties and witnesses have been heard, parties shall be given the opportunity to present final arguments.

This rule is intended to implement Iowa Code sections 17A.11 to 17A.14.

481—10.21(17A) Evidence.

10.21(1) The ALJ shall rule on admissibility of evidence in accordance with Iowa Code section 17A.14 and may take official notice of facts pursuant to Iowa Code subsection 17A.14(4).

10.21(2) Stipulation of facts is encouraged. The ALJ may make a decision based on stipulated facts.

10.21(3) Evidence shall be confined to the issues on which there has been fair notice prior to the hearing. The ALJ may take testimony on a new issue if the parties waive the right to notice and no other objection is made. If there is objection, the ALJ may refuse to hear the new issue and may make a decision on the original issue in the notice, or may grant a continuance to allow the parties adequate time to amend pleadings and prepare their cases on the additional issue.

10.21(4) The party seeking admission of an exhibit must provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents should be provided to opposing parties.

All exhibits admitted into evidence shall be appropriately marked and be made part of the record.

10.21(5) Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. The party objecting shall briefly state the grounds for the objection. The objection, the ruling on the objection and the reasons for the ruling shall be noted in the record. The ALJ may rule on the objection at the time it is made or may reserve a ruling until the written decision.

10.21(6) Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony shall briefly summarize the testimony. If the evidence excluded consists of a document or exhibits, it shall be marked as part of an offer of proof and inserted in the record.

This rule is intended to implement Iowa Code sections 17A.11 to 17A.14.

481—10.22(17A) Default.

10.22(1) If a party fails to appear in a contested case proceeding after proper service of notice, the ALJ may, if no adjournment is granted, proceed with the hearing and make a decision in the absence of the party.

10.22(2) Where appropriate and not contrary to law, any party may move for default against a party who has requested an evidentiary hearing to contest adverse agency action which has already occurred, but has failed to file a required pleading or has failed to appear after proper service.

10.22(3) Where authorized by law, an ALJ may issue a default order.

481—10.23(17A) Ex parte communication.

10.23(1) Ex parte communication is prohibited as provided in Iowa Code section 17A.17. Parties or their representatives and ALJs shall not communicate directly or indirectly in connection with any issue of fact or law in a contested case except upon notice and an opportunity for all parties to participate. The ALJ may communicate with persons who are not parties as provided in subrule 10.23(2).

10.23(2) However, the ALJ may communicate with members of the agency and may have the aid and advice of persons other than those with a personal interest in, or those prosecuting or advocating in the case under consideration or a factually related case involving the same parties.

10.23(3) Any party or ALJ who receives prohibited communication shall submit the written communication or a summary of the oral communication for inclusion in the record. Copies shall be sent to all parties. There shall be opportunity to respond.

10.23(4) Prohibited communications may result in sanctions as provided in agency rule. In addition, the department, through the ALJ, may censure the person or may prohibit further appearance before the department.

This rule is intended to implement Iowa Code sections 17A.14 and 17A.17.

481—10.24(10A,17A) Decisions.

10.24(1) *Proposed decisions.* The ALJ shall issue a proposed decision which includes findings of fact and conclusions of law stated separately. The decision shall be based on the record of the contested case.

The record in a contested case shall include all materials specified in Iowa Code subsection 17A.12(6). This shall include any request for a contested case hearing and other relevant procedural documents regardless of their form.

A ruling dismissing all of a party's claims or a voluntary dismissal is a proposed decision under Iowa Code section 17A.15.

10.24(2) *Review of proposed decisions.* Request for review of a proposed decision shall be made to the agency in which the contested case originated in the manner and within the time specified by that agency's rules. In contested cases in which the director of DIA has final decision-making authority, request for review shall be made as provided in rule 481—10.25(10A,17A).

10.24(3) *Final decisions.* If there is no appeal from or review of the proposed decision, the ALJ's proposed decision becomes the final decision of the agency.

10.24(4) *Agency reports.* The agency shall send a copy of any request for review of a proposed decision to the division. The agency shall notify the division of the results of the review, the final decision and any judicial decision issued.

481—10.25(10A,17A) DIA appeals.

10.25(1) A request for review of a proposed decision in which DIA is the final decision maker shall be made within 15 days of issuing the proposed decision, unless otherwise provided by statute. Requests shall be mailed or delivered by either party to the Director, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083. Failure to request review will preclude judicial review unless the department reviews on its own motion as follows. The department may review a proposed decision upon its own motion within 15 days of its issuance.

10.25(2) A review shall be based on the record and limited to issues raised in the hearing. The issues shall be specified in the party's request for review.

10.25(3) Each party shall have opportunity to file exceptions and present briefs. The director or a designee may set a deadline for submission of briefs. When the director or designee consents, oral arguments may be presented. A party wishing to make an oral argument shall specifically request it. All parties shall be notified in advance of the scheduled time and place.

10.25(4) The director or designee shall not take any further evidence with respect to issues of fact heard in the hearing except as set forth below. Application may be filed for leave to present evidence in addition to that found in the record of the case. If it is shown to the satisfaction of the director or designee that the additional evidence is material and that there were good reasons for failure to present it in the

hearing, the director or designee may order the additional evidence taken upon conditions determined by the director or designee.

10.25(5) Final decisions shall be issued by the director or the director's designee.

10.25(6) Requests for rehearing shall be made to the director of the department within 20 days of issuing a final decision. A rehearing may be granted when new legal issues are raised, new evidence is available, an obvious mistake is corrected, or when the decision failed to include adequate findings or conclusions on all issues.

A request for rehearing is not necessary to exhaust administrative remedies.

10.25(7) Judicial review of department final decisions may be sought in accordance with Iowa Code section 17A.19.

This rule is intended to implement Iowa Code sections 17A.15 and 17A.19.

481—10.26(10A,17A,272C) Board hearings. In scheduling hearings, boards should consult with the division to determine the availability of an ALJ. The board shall determine the time and place of hearing. At the request of the board, an ALJ shall assist in the conduct of a contested case.

10.26(1) The ALJ may rule on preliminary matters, including motions, and conduct prehearing conferences referred by the board.

10.26(2) The ALJ may conduct the hearing for the board, and may, when delegated by the board, perform duties including, but not limited to, the following:

- a. Open the record and receive appearances;
- b. Administer oaths and issue subpoenas;
- c. Enter the notice of hearing into the record;
- d. Enter the statement of charges into the record;
- e. Receive testimony and exhibits presented by the parties;
- f. Rule on objections and motions;
- g. Close the hearing; and
- h. Prepare findings of fact, conclusions of law and decision and order.

This rule is intended to implement Iowa Code sections 10A.202, 17A.11 and 272C.6.

481—10.27(10A) Transportation hearing fees. Any hearing on an application required by Iowa Code Supplement chapter 325A shall require:

10.27(1) The applicant and any persons objecting to the granting of a certificate to submit a hearing fee of \$350 to be shared equally to cover payment of all costs and expenses of the hearing. The department may require additional amounts as necessary and shall provide a written itemized account of all additional expenses to the parties. The hearing fee shall be made by check payable to the Iowa Department of Inspections and Appeals.

10.27(2) The hearing fee to be received no later than 14 days after the notice of hearing, unless otherwise ordered. Failure to timely submit the hearing fee may result in cancellation of the hearing and denial of the application.

10.27(3) If a scheduled hearing is canceled, that the hearing fee, less expenses incurred by the department, be refunded to the payers. This shall not be interpreted to authorize a refund to an applicant who fails to appear at a scheduled hearing.

10.27(4) The applicant and any persons objecting to the granting of a certificate to submit a hearing fee of \$150 to be shared equally if the hearing is held by a summary proceeding conducted without a personal appearance before the ALJ and where pleadings, affidavits, records, or other documents are submitted to the division for a decision by an ALJ.

¹ Hearing fees under jurisdiction of Department of Transportation [761] prior to 5/16/90. See IAB 6/26/91 for rescission of 761—525.5(3) and 528.4(3).

Parties who request that a hearing be recorded by certified shorthand reporters shall bear the cost, unless otherwise provided by law.

481—10.29(10A) Code of administrative judicial conduct. The code of administrative judicial conduct is designed to govern the conduct, in relation to their adjudicative functions in contested cases, of all persons who act as presiding officers under the authority of Iowa Code section 17A.11(1). The canons are rules of reason. The canons shall be applied consistent with constitutional requirements, statutes, administrative rules, and decisional law and in the context of all relevant circumstances. The canons must be harmonized with the dictates of the administrative process as established by the legislature. While Canons 1, 2, and 3 are generally applicable to both administrative law judges and agency heads or members of multimember agency heads when these persons act as presiding officers, these canons shall be applied to agency heads and members of multimember agency heads only as expressly mandated by statute and as reasonably practicable when taking into account the fact that agency heads and members of multimember agency heads, unlike administrative law judges, have multiple duties imposed upon them by law. The provisions of Canon 4 concerning the regulation of extrajudicial activities are not applicable to agency heads or members of multimember agency heads. This code is to be construed so as to promote the essential independence of presiding officers in making judicial decisions.

Whether disciplinary action is appropriate, and the degree of discipline to be imposed, shall be determined by the appointing authority through a reasonable and reasoned application of the text and shall depend on such factors as the seriousness of the transgression, whether there is a pattern of improper activity, and the effect of improper activity on others or on the administrative system. This code is not designed or intended as a basis for civil liability or criminal prosecution.

10.29(1) Canon 1. A presiding officer shall uphold the integrity and independence of the administrative judiciary.

- a. An independent and honorable administrative judiciary is indispensable to justice in society.
- b. A presiding officer shall participate in establishing, maintaining, and enforcing high standards of conduct and shall personally observe those standards so that the integrity and independence of the administrative judiciary will be preserved.
- c. The provisions of this code are to be construed and applied to further that objective.

10.29(2) Canon 2. A presiding officer shall avoid impropriety and the appearance of impropriety in all adjudicative functions in contested cases.

- a. A presiding officer shall respect and comply with the law and at all times shall act in a manner that promotes public confidence in the integrity and impartiality of the administrative judiciary.
- b. A presiding officer shall not allow family, social, political, or other relationships to influence the presiding officer's judicial conduct or judgment. This provision shall not be construed as prohibiting the development of public policy by contested case adjudication. A presiding officer shall not lend the prestige of the office to advance the private interests of the presiding officer or others; nor shall a presiding officer convey or permit others to convey the impression that they are in a special position to influence the presiding officer.
- c. A presiding officer shall not hold membership in any organization that the presiding officer knows practices invidious discrimination on the basis of race, sex, religion or national origin.

10.29(3) Canon 3. A presiding officer shall perform the duties of the office impartially and diligently.

a. *Adjudicative responsibilities.* A presiding officer in the performance of adjudicative duties in contested case proceedings shall follow these standards:

- (1) A presiding officer shall be faithful to the law, unswayed by partisan interests, public clamor, or fear of criticism.
- (2) A presiding officer shall maintain order and decorum in proceedings before the presiding officer.
- (3) A presiding officer shall be patient, dignified, and courteous to litigants, witnesses, attorneys, representatives, and others with whom the presiding officer deals in an official capacity, and shall require similar conduct of attorneys, representatives, staff members and others subject to the presiding officer's direction and control.

(4) A presiding officer shall not, in the performance of adjudicative duties by words or conduct, manifest bias or prejudice, including but not limited to bias or prejudice based upon sex, race, national origin or ethnicity and shall not permit staff and others subject to the presiding officer's direction and control to do so.

(5) A presiding officer shall accord to all persons who are legally interested in a proceeding, or their representatives, full right to be heard according to law, and neither initiate nor consider ex parte communications prohibited by Iowa Code section 17A.17.

(6) A presiding officer shall dispose of all adjudicative matters promptly, efficiently and fairly.

(7) A presiding officer shall abstain from public comment about a pending or impending contested case proceeding that might reasonably be expected to affect the outcome or impair the fairness of the proceeding, and shall require similar abstention by agency personnel subject to the presiding officer's direction and control. This subparagraph does not prohibit a presiding officer from making public statements in the course of official duties or from explaining for public information the hearing procedures of agencies.

(8) A presiding officer shall not disclose or use, for any purpose unrelated to adjudicative duties, nonpublic information acquired in an adjudicative capacity except as lawfully permissible in the performance of official duties by an agency head or member of a multimember agency head.

(9) A presiding officer shall report any violation of this code to the appropriate authority for any disciplinary proceedings provided by law.

b. Disqualification. A presiding officer or other person shall withdraw from participation in the making of any proposed or final decision in a contested case if that person:

(1) Has a personal bias or prejudice concerning a party or a representative of a party;

(2) Has personally investigated, prosecuted or advocated, in connection with that case, the specific controversy underlying that case, or another pending factually related contested case, or a pending factually related controversy that may culminate in a contested case involving the same parties;

(3) Is subject to the authority, direction or discretion of any person who has personally investigated, prosecuted or advocated in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy involving the same parties;

(4) Has acted as counsel to any person who is a private party to that proceeding within the past two years;

(5) Has a personal financial interest in the outcome of the case or any other significant personal interest that could be substantially affected by the outcome of the case;

(6) Has a spouse or relative within the third degree of relationship that:

1. Is a party to the case, or an officer, director or trustee of a party;

2. Is an attorney in the case;

3. Is known to have an interest that could be substantially affected by the outcome of the case; or

4. Is likely to be a material witness in the case; or

(7) Has any other legally sufficient cause to withdraw from participation in the decision making in that case.

c. Disclosure on record. In a situation where a presiding officer knows of information which might reasonably be deemed to be a basis for disqualification and decides voluntary withdrawal is unnecessary, the presiding officer shall disclose the relevant information on the record and shall state reasons why voluntary withdrawal is unnecessary.

10.29(4) Canon 4. An administrative law judge shall regulate extrajudicial activities to minimize the risk of conflict with judicial duties.

In general, an administrative law judge shall conduct all of the administrative law judge's extrajudicial activities so that the administrative law judge does not:

1. Cast reasonable doubt on the administrative law judge's capacity to act impartially as a judge;

2. Create the appearance of impropriety or demean the adjudicative office; or

3. Interfere with the proper performance of adjudicative duties.

These rules are intended to implement Iowa Code sections 10A.104, 10A.202, 17A.10 to 17A.17, 17A.19, 17A.22, 272C.1 and 272C.6.

A new application shall be filed showing the change and must be accompanied by sufficient documentation to determine whether the business continues to be eligible to participate in the TSB program.

25.2(7) An applicant for certification as an Iowa targeted small business may indicate in writing that a similar application is pending with an agency other than the department. When the department considers another certification process equal to or more stringent than the process described in these rules, an applicant may submit the information required for the other process.

The department may certify a business as a TSB based on copies of the information provided to another agency. The Iowa application for certification as a TSB may still be required. Certification as a targeted small business in Iowa is granted only by the department of inspections and appeals. Certification by any other entity does not ensure certification as a targeted small business in Iowa.

481—25.3(17A) Description of application. The TSB application requires information about the people who own, control, and manage the applicant business. Names, current addresses, verification of targeted group status and the employer's federal identification number, if applicable, are required. The proportion of ownership of the business and the names of stockholders or owners must be included. Documents which establish financial responsibility may be required.

Specific questions are asked regarding the applicant's contracts, credit, income, inventory, loans, personnel, payroll, taxes, and volume of business.

25.3(1) The information contained in the application may be reviewed by the applicant upon request to the Audits Division, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083. Material to be added to a file may be sent to the department.

25.3(2) Information collected by the department is considered investigative and is confidential pursuant to Iowa Code sections 10A.105, 22.7(6) and 22.7(18). State and federal tax returns are confidential and will be released only at a hearing or to the applicant or the applicant's designee.

25.3(3) Information about targeted small businesses and their owners is stored in a data processing system. This information is not matched with any other data processing system. Paper files are stored by the department in the audits division in alphabetical order by business name.

This rule is intended to implement Iowa Code sections 17A.3(1), 22.11, and 422.20.

481—25.4(10A) Eligibility standards. Pursuant to the authority of Iowa Code section 10A.104(8), the department has established standards to certify targeted small businesses. These standards are intended to indicate whether a business is owned, operated and actively managed by targeted group persons.

25.4(1) The applicant shall be an independent business. The following list describes elements of a business which indicate independent status.

a. The targeted group person owner(s) shall enjoy the customary incidents and profits of ownership and shall share in the risks commensurate with their ownership interest. This shall be demonstrated by the substance rather than the form of the arrangements. Title and authority shall be commensurate with ownership and control.

b. The business shall be owned, operated and actively managed by the same people, a single management.

c. A board of directors and stockholders shall each have a membership comprised of at least 51 percent targeted group persons.

d. The applicant business shall be compensated for facilities, inventory, equipment, labor, or other items which it owns and shares with any other business. Compensation shall not vary from common industry practice.

e. The targeted group person owner(s) shall have independent authority and ability to incur liability and to decide financial and policy questions. The business arrangements of owners, directors, officers or key employees with businesses which are not minority-, woman-, or persons with disabilities-owned shall not vary from common industry practice. Each industry has practices which differ from other industries.

f. Independent authority and ability to hire and to fire all personnel shall be vested in the targeted group person owner(s).

g. Recognition of the business as a separate entity for tax or corporate purposes is not solely sufficient for certification as a targeted small business.

25.4(2) The targeted group person owner(s) shall make the business decisions for the business without any restrictions, either formal or informal. This includes, but is not limited to, bylaw provisions, partnership agreements, charter requirements for cumulative voting rights, or employment agreements.

25.4(3) The targeted group person owner(s) shall direct or cause the direction of the business. The owner(s) shall make day-to-day decisions as well as major decisions on management policy and operation of the business.

The department will consider particular positions to determine who has major responsibility in a company. These people include, but are not limited to, those who:

- a.* Hold any applicable license;
- b.* Devote substantial time to the business;
- c.* Supervise management and field operations;
- d.* Manage financial affairs;
- e.* Prepare or approve bids or estimates;
- f.* Participate in price and bidding negotiations;
- g.* Make final decisions about staff and personnel;
- h.* Sign contracts and checks or authorize their signature.

25.4(4) Any relationship between a TSB and a business which is not a TSB, but which has an interest in the TSB, shall be carefully reviewed to determine if the interest of the non-TSB conflicts with the ownership and control requirements of this rule.

25.4(5) The contributions of capital and expertise by the targeted group person owner(s) to acquire interest in the business shall be real and substantial. The following list includes acceptable elements of ownership.

a. Company documents, such as stock certificates, articles of incorporation, minutes of board meetings, partnership agreements or income tax returns reflect targeted group person ownership;

b. Independent contributions of capital are made by the targeted group person owner(s). Proof of this independent contribution of capital made by the targeted group person owner(s) to acquire interest in the business must accompany the certification application;

c. Independent contributions of expertise are made by the targeted group person owner(s). The targeted group person owner(s) must have an overall understanding of, managerial and technical competence in, and expertise directly related to the type of business in which the firm is engaged

and in the firm's operations. Generally, expertise limited to office management, administration, or bookkeeping functions unrelated to the activities of the business is insufficient to demonstrate control of the business;

d. Independent risk of loss and share of profit by the targeted group person owner(s) are commensurate with their proportion of ownership.

Fifty-one percent or more of securities which constitute ownership or control of a corporation for purposes of establishing it as a TSB shall be held directly by targeted group persons.

An inherited business may be eligible for targeted small business status. Capital contribution, expertise and experience in the inherited business are not required. All other standards apply.

Documentation may be required to prove compliance with all standards.

481—25.5(10A) Special consideration. In addition to the above standards, the department may give consideration to other circumstances to determine eligibility. These are to ensure that only bona fide targeted group person-owned businesses are certified.

25.5(1) A previous or continuing employer-employee relationship between present owners will be carefully reviewed to ensure that the employee-owner has substantial management and decision-making responsibilities.

25.5(2) At the discretion of the department, on-site audits may be conducted to determine eligibility.

481—25.6(10A) Family-owned business. Businesses which are owned and operated by one or more members of the same family will be closely scrutinized to determine whether the targeted group person identified as the owner of 51 percent or more of the business does in fact set policy and make day-to-day and long-term decisions for the operation and management of the business.

25.6(1) Any characteristic listed below may be cause to deny targeted small business status. This list is not to be construed as complete.

a. If a nontargeted group person family member:

(1) Is chief executive officer or president;

(2) Provides the expertise to conduct the business;

(3) Transfers ownership to the targeted group person owner for less than fair market value;

(4) Receives compensation equal to or greater than the targeted group person owner, not commensurate with their ownership;

(5) Provides occupational services for the business for less than fair market value;

(6) Possesses powers equal to or greater than the targeted group person owner to direct management and operations.

b. If the targeted group person owner:

(1) Is represented to those outside the business as not possessing the final authority to direct the operations and management of the business;

(2) Cannot document the date upon which the nontargeted group person family member was hired.

c. A recent transfer of ownership by a nontargeted group person family member to a targeted group person will be reviewed to determine if the previous owner is still the principal decision maker on policy or actually manages the existing business. Transfers in the past two years are considered recent, and these businesses shall not be certified, unless evidence substantiating the transfer is received and approved.

If any of the above circumstances prevail, the business shall be considered a family-owned business. Nontargeted group person family-owned businesses are not eligible for certification as targeted small businesses in Iowa.

25.6(2) If a lending institution requires a signature other than the TSB owner's, another person may sign. When this happens, the owner must have the experience and expertise to own and operate the business. If a nontargeted group person family member has the expertise and has cosigned for business loans, the business is not eligible.

481—25.7(10A) Cottage industry. A cottage industry may be eligible for certification as a TSB. Characteristics of these businesses include, but are not limited to:

1. At least 51 percent of business equipment shall be owned by targeted group persons.
2. Business risks and profits shall be borne by the targeted group person owner(s) proportionate to their ownership.

The intent of targeting some small businesses is to identify those businesses which have been traditionally excluded from economic growth. Therefore, the following exception is made for cottage industries:

EXCEPTION: The residence and any adjacent outbuildings used by the cottage industry may be owned jointly with other family members.

All other TSB eligibility standards apply.

481—25.8(10A) Decertification. A business shall be decertified by the department if it is determined the business no longer complies with the requirements of the TSB program or its owners cannot be located by the department.

25.8(1) Written notice of the intent to revoke certification shall be provided when the department determines there is reasonable cause to believe a business does not comply. Notice shall be sent by United States mail at least 20 days before decertification is effective.

25.8(2) If the department sends a letter by first-class mail to the last-known address provided to the department by the TSB and it is returned as undeliverable, this is considered to be grounds for decertification.

25.8(3) Decertification procedures may be initiated by the department or after the investigation of a complaint filed by the general public. A request for an investigation from the public must be written and shall specify the reason(s) why the certified targeted small business no longer complies with these rules. Supporting documentation may be attached to the request. The identity of a complainant is confidential pursuant to Iowa Code section 22.7(18).

25.8(4) Eligibility to participate in the TSB program continues until the final decision is issued by the department.

481—25.9(12) Request for bond waiver. A targeted small business seeking a performance, surety, or bid bond waiver shall submit a sworn statement that it is unable to secure a performance, surety, or bid bond because of lack of experience, lack of net worth, or lack of capital.

Documentation will be requested from surety companies that the TSB is unable to obtain performance, surety, or bid bonding because of the lack of experience, lack of net worth, or lack of capital.

25.9(1) A waiver shall be applied only to a prime contract where the project or individual transaction does not exceed \$50,000, notwithstanding Iowa Code section 573.2.

25.9(2) Granting a waiver shall not relieve any business from its contractual obligations. The state agency or department may pursue any remedy under law upon default or breach of contract.

25.9(3) The department reviews all bond waiver documents. Information to assist the review process may be requested from the state department or agency involved.

An applicant for a performance, surety, or bid bond waiver and the department or agency involved will be notified of the decision by United States mail.

25.9(4) Bond waivers will be reviewed and renewed at the time of TSB recertification.

481—25.10(714) Fraudulent practices in connection with targeted small business programs. A violation under this rule is grounds for decertification of the TSB connected with the violation. Decertification shall be in addition to any penalty otherwise authorized by this chapter.

A person is considered to be guilty of a fraudulent practice if the person:

1. Knowingly transfers or assigns assets, ownership, or equitable interest in property of a business to a targeted group person primarily for the purpose of obtaining benefits under TSB programs if the transferor would otherwise not be qualified for such programs.

2. Solicits and is awarded a state contract on behalf of a TSB for the purpose of transferring the contract to another for a percentage if the person transferring or intending to transfer the work had no intention of performing the work.

3. Knowingly falsifies information on an application for the purpose of obtaining benefits under TSB programs.

The department may investigate allegations or complaints of fraudulent practices and will take action to decertify a TSB upon concluding that a violation has occurred. A decertification by this action may be appealed.

481—25.11(17A) Appeal procedure. Department decisions regarding targeted small businesses may be contested by an adversely affected party. Requests for a hearing must be made in writing to the department within 30 days of mailing or serving a decision. Appeals and hearings are controlled by 481—Chapter 10, “Contested Case Hearings,” Iowa Administrative Code.

25.11(1) The proposed decision of the administrative law judge becomes final ten days after it is mailed.

25.11(2) Any request for administrative review of a proposed decision must:

- a. Be made in writing;
- b. Be filed with the director within ten days after the proposed decision was mailed to the aggrieved party; and
- c. State the reason(s) for the request.

Date of receipt by personal service or the postmarked date is the time of filing.

25.11(3) The decision of the director shall be based upon the record and become final agency action upon mailing.

These rules are intended to implement Iowa Code sections 10A.104, 10A.105, 12.44, 15.102(5), 17A.3, 17A.12, 73.15 to 73.21, and 714.8.

CHAPTER 30

FOOD AND CONSUMER SAFETY

481—30.1(10A) Food and consumer safety bureau. The food and consumer safety bureau inspects food establishments, egg handlers, food processing plants, home food establishments, food and beverage vending machines, and hotels and motels.

481—30.2(10A) Definitions. If both the 2005 Food and Drug Administration Food Code with Supplement and rule 481—30.2(10A) define a term, the definition in rule 481—30.2(10A) is adopted.

“Baked goods” means breads, cakes, doughnuts, pastries, buns, rolls, cookies, biscuits and pies (except meat pies).

“Bed and breakfast home” means a private residence which provides lodging and meals for guests, in which the host or hostess resides and in which no more than four guest families are lodged at the same time. The facility may advertise as a bed and breakfast home, but not as a hotel, motel or restaurant. The facility is exempt from licensing and inspection as a hotel or as a food establishment. A bed and breakfast home may serve food only to overnight guests, unless a food establishment license is secured.

“Bed and breakfast inn” means a hotel which has nine or fewer guest rooms.

“Boarder” means a person who rents a room, rooms or apartment for at least a week. A boarder is considered permanent and is not a transient guest.

“Boarding house” means a house in which lodging is rented and meals are served to permanent guests. A boarding house is not a food service establishment or hotel unless it rents or caters to transient guests.

“Commissary” means a food establishment used for preparing, fabricating, packaging and storage of food or food products for distribution and sale through the food establishment’s own outlets.

“Contractor” means a municipal corporation, county or other political subdivision that contracts with the department to license and inspect under Iowa Code chapter 137C, 137D or 137F.

“Criminal offense” means a public offense, as defined in Iowa Code section 701.2, that is prohibited by statute and is punishable by fine or imprisonment.

“Department” means the department of inspections and appeals.

“Egg handler” or *“handler”* means any person who engages in any business in commerce which involves buying or selling any eggs (as a poultry producer or otherwise), or processing any egg products, or otherwise using any eggs in the preparation of human food. An egg handler does not include a food establishment or home food establishment if either establishment obtains eggs from a licensed egg handler or supplier which meets standards referred to in rule 481—31.2(137F). Producers who sell eggs produced exclusively from their own flocks directly to egg handlers or to consumer customers are exempt from regulation as egg handlers.

“Farmers market” means a marketplace which operates seasonally as a common market for fresh fruits and vegetables on a retail basis for consumption elsewhere. A person who sells potentially hazardous food (food that is capable of supporting the rapid and progressive growth of toxins) at a farmers market must obtain a license for each county in which the person operates. A license is not required to sell wholesome, fresh shell eggs to consumer customers.

“Farmers market potentially hazardous food license” means a license for a temporary food establishment that sells potentially hazardous foods at farmers markets. A separate seasonal farmers market potentially hazardous food license is required for each county in which the licensee sells potentially hazardous foods at farmers markets. The license is only applicable at farmers markets, and is not required to sell wholesome, fresh shell eggs to consumer customers.

“Food establishment” means an operation that stores, prepares, packages, serves, vends or otherwise provides food for human consumption and includes a salvage or distressed food operation, nutrition site as defined in 321—7.1(231), school, summer camp, residential service substance abuse treatment facility, halfway house substance abuse treatment facility, correctional facility operated by the department of

corrections, the state training school or the Iowa juvenile home. "Food establishment" does not include the following:

1. A food processing plant.
2. An establishment that offers only prepackaged foods that are not potentially hazardous.
3. A produce stand or facility which sells only whole, uncut fresh fruits and vegetables.
4. Premises which are a home food establishment pursuant to Iowa Code chapter 137D.
5. Premises which operate as a farmers market.
6. Premises of a residence in which food that is not potentially hazardous is sold for consumption off the premises to a consumer customer, if the food is labeled to identify the name and address of the person preparing the food and the common name of the food. This exception does not apply to resale goods.
7. A kitchen in a private home where food is prepared or stored for family consumption or in a bed and breakfast home.
8. A private home that receives catered or home-delivered food.
9. Child day care facilities and other food establishments located in hospitals or health care facilities that serve only patients and staff and are subject to inspection by other state agencies or divisions of the department.
10. Supply vehicles, vending machine locations or boarding houses for permanent guests.
11. Establishments exclusively engaged in the processing of meat and poultry which are licensed pursuant to Iowa Code section 189A.3.
12. Premises covered by a current Class "A" beer permit as provided in Iowa Code chapter 123.
13. Premises covered or regulated by Iowa Code section 192.107 with a milk or milk products permit issued by the department of agriculture and land stewardship.
14. Premises or operations which are regulated by or subject to Iowa Code section 196.3 and which have an egg handler's license.
15. The premises of a residence in which honey is stored; prepared; packaged, including by placement in a container; labeled; or from which honey is distributed.
16. Premises regularly used by a nonprofit organization which engages in the serving of food on the premises as long as the nonprofit organization does not exceed the following restrictions:
 - a. The nonprofit organization serves food no more than one day per calendar week and not on two or more consecutive days;
 - b. Twice per year, the nonprofit organization may serve food to the public for up to three consecutive days; and
 - c. The nonprofit organization may use the premises of another nonprofit organization not more than twice per year for one day to serve food.

"*Food processing plant*" means a commercial operation that manufactures, packages, labels or stores food for human consumption and does not provide food directly to a consumer. "Food processing plant" does not include any of the following:

1. A premises covered by a Class "A" beer permit as provided in Iowa Code chapter 123.
2. A premises of a residence in which honey is stored; prepared; packaged, including by placement in a container; labeled; or from which honey is distributed.

"*Food service establishment*" means a food establishment where food is prepared or served for individual portion service intended for consumption on the premises or subject to Iowa sales tax as provided in Iowa Code section 422.45.

"*Home food establishment*" means a business on the premises of a residence where potentially hazardous bakery goods are prepared for consumption elsewhere. Annual gross sales of these products cannot exceed \$20,000. This term does not include a residence where food is prepared to be used or sold by churches, fraternal societies, or charitable, civic or nonprofit organizations. Residences which prepare or distribute honey, shell eggs or nonhazardous baked goods are not required to be licensed as home food establishments. Home food establishments with annual gross sales of \$1,000 or less in sales of potentially hazardous bakery products are exempt from licensing under Iowa Code section 137D.2, if

the food is labeled and the label states that the food comes from a kitchen not under state inspection or licensure and that labeling complies with rule 481—34.3(137D).

“Hotel” means any building equipped, used or advertised to the public as a place where sleeping accommodations are rented to temporary or transient guests.

“License holder” means an individual, corporation, partnership, governmental unit, association or any other entity to whom a license was issued under Iowa Code chapter 137C, 137D or 137F.

“Mobile food unit” means a food establishment that is self-contained, with the exception of grills and smokers, and readily movable, which either operates up to three consecutive days at one location or returns to a home base of operation at the end of each day.

“Panned candies” are those with a fine hard coating on the outside and a soft candy filling on the inside. Panned candies are easily dispensed by a gumball-type machine.

“Pushcart” means a non-self-propelled vehicle food establishment limited to serving nonpotentially hazardous foods or commissary-wrapped foods maintained at proper temperatures, or precooked foods that require limited assembly such as frankfurters.

“Retail food establishment” means a food establishment that sells food or food products to consumer customers intended for preparation or consumption off the premises.

“Revoke” means to void or annul by recalling or withdrawing a license issued under Iowa Code chapter 137C, 137D or 137F. The entire application process, including the payment of applicable license fees, must be repeated to regain a valid license following a revocation.

“Salvage food” means food from truck wrecks, fires, tornadoes or other disasters which involve food products.

“Suspend” means to render a license issued under Iowa Code chapter 137C, 137D, 137F or 196 invalid for a period of time, with the intent of resuming the validity of a license at the end of that period.

“Temporary food establishment” means a food establishment that operates for a period of no more than 14 consecutive days in conjunction with a single event or celebration.

“Transient guest” means an overnight lodging guest who does not intend to stay for any permanent length of time. Any guest who rents a room for more than 31 consecutive days is not classified as a transient guest.

“Vending machine” means a food establishment which is a self-service device that, upon insertion of a coin, paper currency, token, card or key, dispenses unit servings of food in bulk or in packages without the necessity of replenishing the device between each vending operation. Vending machines that dispense only prepackaged, nonpotentially hazardous foods, panned candies, gumballs or nuts are exempt from licensing, but may be inspected by the department upon receipt of a written complaint.

481—30.3(137C,137D,137F,196) Licensing and postings. A license to operate any of the above must be granted by the department of inspections and appeals. Application for a license is made on a form furnished by the department which contains the names of the business, owner, and manager; location of buildings; and other data relative to the license requested. Applications are available from the Department of Inspections and Appeals, Food and Consumer Safety Bureau, Lucas State Office Building, Des Moines, Iowa 50319-0083, or from contractors.

30.3(1) A license is not transferable. Licenses are not refundable unless the license is surrendered to the department prior to the effective date of the license.

30.3(2) A license is renewable and expires after one year.

30.3(3) A valid license and the most recent inspection report, along with any current complaint or reinspections reports shall be posted no higher than eye level where the public can see them. Vending machines shall bear a tag to affirm the license. For the purpose of this subrule, only founded complaint reports shall be considered a complaint. Founded complaints shall be posted until either the mail-in recheck form has been submitted to the regulatory authority or a recheck inspection has been conducted to verify that the violations have been corrected.

30.3(4) Any change in business ownership or business location requires a new license. Vending machines, mobile food units and pushcarts may be moved without obtaining a new license. A farmers market potentially hazardous food license may be used in the same county at different individual

locations without obtaining a new license. Multiple locations operated simultaneously each require a separate license. Nutrition sites for the elderly licensed under Iowa Code chapter 137F may change locations in the same city without obtaining a new license.

30.3(5) The regulatory authority may require documentation from a license holder of the annual gross sales of food and drink sold by a licensed food establishment or a licensed food processing establishment. The documentation submitted by the license holder will be kept confidential and will be used to verify that the license holder is paying the appropriate license fee based on annual gross sales of food and drink. Documentation shall include at least one of the following:

- a. A copy of the firm's business tax return;
- b. Quarterly sales tax data;
- c. A letter from an independent tax preparer;
- d. Other appropriate records.

30.3(6) A delinquent license shall only be renewed if it is renewed within 60 days of its expiration. If a delinquent license is not renewed within 60 days, an establishment must apply for a new license and meet all the requirements for licensure. Establishments that have not renewed the license within 60 days of the expiration of the license shall be closed by the department or a contractor. The establishment shall not be reopened until a new license application has been submitted and approved.

This rule is intended to implement Iowa Code sections 10A.502(2), 137C.8, and 137D.2 and chapter 137F as amended by 2007 Iowa Acts, chapter 215.

¹ Objection imposed by the Administrative Rules Review Committee at its meeting held September 10, 2002; objection filed September 23, 2002. See text of Objection at the end of this chapter.

481—30.4(137C,137D,196) License fees. The license fee is the same for an initial license and a renewal license. Licenses expire one year from the date of issuance, except for temporary food establishments. OBJECTION

At its September 10, 2002, meeting the Administrative Rules Review Committee voted to object to the provisions of ARC 1760B, items three and four, on the grounds those items exceed the authority of the Department of Inspections and Appeals. The committee also objects to the “emergency” adoption and implementation of these provisions. Committee members felt that a notice of intended action would have provided an opportunity to discuss and resolve these issues before the licensing provisions were implemented.

These provisions implement 2002 Iowa Acts, House File 2620, creating a special license for vendors at farmers markets. Section two of the Act states:

For a farmers market where potentially hazardous food is sold or distributed, one seasonal license fee of one hundred dollars for each vendor on a countywide basis.

It is the opinion of the committee this provision means that a vendor may simultaneously operate a number of stands at a number of locations within a single county for a single fee. Members felt the phrase “countywide basis” evidenced a legislative intent that the vendor could operate anywhere within that county at any time. The interpretation set out in ARC 1760B would require a separate license for each separate farmers market where the vendor simultaneously operates.

This action is taken pursuant to the authority of Iowa Code §17A.4. The effect of this objection is to terminate the emergency filing 180 days after this objection is filed.

Objection filed September 23, 2002.

HOME FOOD ESTABLISHMENTS

481—34.1(137D) Inspection standards.

34.1(1) All ingredients must come from a licensed or approved source except for fresh fruits and vegetables, nonhazardous baked goods and honey or eggs. The use of food in hermetically sealed containers not prepared in a licensed food processing plant is prohibited.

34.1(2) All food products and ingredients shall be stored in original containers. If removed from the original container, food and ingredients must be stored in labeled and closed containers. Container must be of a material that will not cause the food to become adulterated.

34.1(3) All food shall be in sound condition, free from spoilage, filth or other contamination and shall be safe for human consumption. Food products shall not be stored on the floor.

34.1(4) All potentially hazardous food must be refrigerated at 41°F or less, or held at 135°F or higher, to control bacterial growth. Potentially hazardous foods that have been cooked and then refrigerated shall be reheated rapidly to an internal temperature of 165°F or higher before being placed in hot food storage holding units. Food warmers and other hot food holding units shall not be used for the reheating of potentially hazardous foods.

34.1(5) Food storage facilities must be kept clean and located to protect food from unsanitary conditions or contamination from any source at all times.

34.1(6) The floors, walls, ceilings, utensils, machinery, equipment and supplies in the food preparation area and all vehicles used in the transportation of food must be kept thoroughly clean. All food contact surfaces shall be easy to clean, smooth, nonabsorbent, and free of cracks or open seams.

34.1(7) All food must be protected against insects and rodents at all times. Outside doors, windows, and other openings must be fitted with screens and self-closing doors, if not otherwise protected. No dogs, cats, or other pets are allowed in the room where food is prepared or stored.

34.1(8) All garbage and refuse must be kept in containers and removed from the premises regularly to eliminate insects and rodents, offensive odors, or health or fire hazards. Garbage and refuse containers must be durable, easy to clean, insect- and rodent-resistant and of material that neither leaks, nor absorbs liquid.

34.1(10) All food handlers must keep themselves and their clothing clean. Hands must be washed as frequently as necessary to maintain good sanitation.

34.1(11) Smoking is not permitted while handling or preparing food or in food preparation or storage areas.

34.1(12) All establishments must have an adequate supply of hot and cold potable water under pressure from an approved source. Facilities must ensure that equipment, utensils, and containers used in the preparation of food shall be washed, rinsed and sanitized. If the residence is not served by a public water system, the water must be tested annually for nitrites and coliform. Records of water tests must be maintained by license holders who are not served by a public system. These records must be available to the regulatory authority upon request.

34.1(13) All establishments must have proper toilet facilities, equipped with a hand-washing lavatory, complete with hot and cold potable water under pressure and hand soap. A supply of sanitary towels or a hand-drying device providing heated air shall be conveniently located near the hand-washing facility.

Each refrigerated unit shall be provided with an accurate numerically scaled indicating thermometer which is located at a place that is representative of the air temperature in the unit. This ambient temperature requirement applies to any place or room where eggs are stored, except in a vehicle during transportation.

36.6(2) Eggs in transport vehicles may be stored at an ambient temperature above 45°F or 7°C, provided the vehicle is equipped with refrigeration units capable of delivering air at that temperature and capable of cooling the vehicle to that temperature.

36.9(2) Except for the producer exemption as provided in subrule 36.9(3), checks and dirties may be used for human food provided they are processed and pasteurized in an official plant.

36.9(3) Checks and dirties shall be sold direct or indirect only to an official plant. However, a producer may sell checks and dirties on the producer's own premises where eggs are produced directly to household consumers for the personal use of the consumer and the consumer's nonpaying guests.

36.9(4) Producer-dealers, packers, handlers, distributors, or retailers shall not sell on or off the premises within the state any restricted eggs to any person, including consumers, institutional consumers or employees.

36.9(5) Restricted eggs shall not be given free to any person, including but not limited to institutional consumers, charitable organizations, or any employee whereby they may be used for human food.

If the liquid is removed from the shells, approved denaturant must be placed in the receptacle provided before the liquid is added. If loss eggs are placed on filler-flats or in flats and fillers, or in any other manner, each layer of eggs must be denatured before another one is started. However, inedible and loss eggs under USDA inspection and control shall be handled in accordance with USDA recommendations.

481—41.8(135H) General requirement. Inpatient psychiatric services for recipients under age 21 must be provided under the direction of a physician.

When a resident has received services immediately before reaching age 21, services must be complete before the earlier of the following:

1. The date the recipient no longer requires services; or
2. The date the recipient reaches age 22.

481—41.9(135H) Certification of need for services. All recipients of services shall have written certification which ensures the following:

1. Ambulatory care resources available in the community do not meet the treatment needs of the recipient;
2. Proper treatment of the recipient's psychiatric condition requires services on an inpatient basis under the direction of a physician; and
3. The services can reasonably be expected to improve the recipient's condition or prevent further regression so services will no longer be needed.

Certification of need shall be completed by the team described in subrules 41.13(2) and 41.13(3). Certification must be made at the time of admission by an independent team for Medicaid recipients. For emergency admissions, the certification must be made by the team described in 41.13(135H) within 14 days after admission. If an individual applies for Medicaid while in a PMIC, certification of need must be made by the team described in 41.13(135H) before a Medicaid agency authorizes payment.

481—41.10(135H) Active treatment. Inpatient psychiatric services must involve "active treatment," which means implementation of a professionally developed and supervised individual plan of care as described in rule 41.12(135H). The plan of care shall be:

1. Developed and implemented no later than 14 days after admission; and
2. Designed to achieve discharge from inpatient status at the earliest possible time.

481—41.11(135H) Individual plan of care. "Individual plan of care" means a written plan developed for each child. The plan of care shall be designed to improve the condition of each child to the extent that inpatient care is no longer necessary.

41.11(1) The plan of care must be based on a diagnostic evaluation that includes examination of the:

- a. Medical,
- b. Psychological,
- c. Social,
- d. Behavioral, and
- e. Developmental aspects of the child's situation.

The plan of care shall reflect the need for inpatient psychiatric care.

41.11(2) The plan of care shall be developed by the team of professionals specified in rule 41.13(135H) in consultation with the recipient, the parents, legal guardian or other person into whose care the child will be released after discharge. The plan of care shall include:

- a. Diagnoses, symptoms, complaints and complications indicating the need for admission;
- b. Treatment objectives;
- c. An integrated program of therapies, activities and experiences designed to meet the objectives;
- d. A description of the functional level of the individual;
- e. Any orders for:
 - (1) Medications,
 - (2) Treatments,
 - (3) Restorative and rehabilitative services,
 - (4) Activities,
 - (5) Therapies,
 - (6) Social services,
 - (7) Diet, and
 - (8) Special procedures recommended for the health and safety of the patient; and
- f. At an appropriate time, postdischarge plans and coordination of inpatient services with partial discharge plans and related community services to ensure continuity of care with the recipient's family, school and community upon discharge.

41.11(3) The plan of care shall be reviewed every 30 days by the team referred to in rule 41.13(135H) to:

- a. Determine that services being provided are or were required on an inpatient basis; and
- b. Recommend changes in the plan as indicated by the recipient's overall adjustment as an inpatient.

This rule is intended to implement Iowa Code section 135H.3.

481—41.12(135H) Individual written plan of care. Before admission to a PMIC and before authorization for payment, the attending physician or staff physician must establish written plans for continuing care including review and modification of the plan of care.

481—41.13(135H) Plan of care team. The individual plan of care shall be developed by an interdisciplinary team of physicians and other personnel who are employed by the facility or provide services to patients.

41.13(1) Based on education and experience, the team must be capable of:

- a. Assessing the recipient's immediate and long-range therapeutic needs, developmental priorities, and personal strengths and liabilities;
- b. Assessing the potential resources of the recipient's family;
- c. Setting treatment objectives; and
- d. Prescribing therapeutic modalities to achieve the plan's objectives.

41.13(2) The team shall include at least one member who is experienced in child psychiatry or child psychology and must include, as a minimum, either:

- a. A board-eligible or board-certified psychiatrist; or
- b. A clinical psychologist who has a doctoral degree and a physician licensed to practice medicine or osteopathy; or
- c. A physician licensed to practice medicine or osteopathy with specialized training and experience in the diagnoses and treatment of mental diseases, and a psychologist who has a master's degree in clinical psychology or who has been certified by the state psychological association.

41.13(3) The team must also include one of the following:

- a. A psychiatric social worker;
- b. A registered nurse with specialized training or one year of experience in treating mentally ill individuals;

c. A licensed occupational therapist who has specialized training in treating mentally ill individuals; or

d. A psychologist who has a master's degree in clinical psychology or who has been certified by the state psychological association.

This rule is intended to implement Iowa Code section 135H.3.

481—41.14(135H) Required discharge. The licensee shall not refuse to discharge a child when directed by the physician, parent or legal guardian unless so directed by the court.

481—41.15(135H) Criminal behavior involving children. A person who has a record of a criminal conviction or a founded child abuse or dependent adult abuse shall not be licensed to operate, be employed by, or reside in a PMIC unless an evaluation of the crime or founded child or dependent adult abuse has been made by the department of human services which concludes that the crime or founded child or dependent adult abuse does not merit prohibition of employment.

41.15(1) A PMIC shall request that the department of human services (DHS) conduct a criminal and child abuse record check, when a person is being considered for licensure or for employment if the person will:

- a. Have direct responsibility for a child;
- b. Have access to a child when the child is alone; or
- c. Reside in the facility.

41.15(2) A PMIC shall inform all new applicants for employment of the requirement for the criminal and child abuse record checks and the possibility of a dependent adult abuse record check. The PMIC shall obtain, from the applicant, a signed acknowledgment of the receipt of this information.

41.15(3) A PMIC shall include the following inquiry in an application for employment: "Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime, in this state or any other state?"

41.15(4) DHS will inform the PMIC of the results of the criminal, child abuse, and dependent adult abuse record checks. If a record of a criminal conviction or founded child or dependent adult abuse exists, the PMIC will be informed on Form 470-2310, "Record Check Evaluation." The subject of the report shall complete that form and it shall be returned to DHS to request evaluation of the record to determine whether prohibition of the person's licensure, employment, or residence is warranted.

41.15(5) If the evaluation is not requested or if the DHS determines that the person has committed a crime or has a record of founded child abuse or dependent adult abuse which warrants prohibition of licensure, employment, or residence, the person shall not be licensed to operate, be employed by, or reside in a PMIC.

This rule is intended to implement Iowa Code section 135H.7.

481—41.16(22,135H) Confidential or open information. The department maintains files for psychiatric medical institutions for children. These files are organized by facility name and contain both open and confidential information.

41.16(1) Open information includes:

- b. Variance requests and responses;
- c. Final findings of state license survey investigations;
- d. Records of complaints;
- e. Plans of correction submitted by the facility;
- f. Medicaid status; and
- g. Official notices of license sanctions.

41.16(2) Confidential information includes:

- b. Names of all complainants; and
- c. Names of children in all facilities, identifying information and the address of anyone other than an owner.

This rule is intended to implement Iowa Code sections 22.11, 135H.11 and 135H.13.

481—41.17(135H) Additional provisions concerning physical restraint. If a PMIC uses a physical restraint, the following provisions shall apply:

41.17(1) No employee shall use any prone restraints. For the purposes of this rule, “prone restraints” means those in which an individual is held face down on the floor. Employees who find themselves involved in the use of a prone restraint as the result of responding to an emergency must take immediate steps to end the prone restraint.

41.17(2) No employee shall use any restraint that obstructs the airway of any resident.

41.17(3) If an employee physically restrains a resident who uses sign language or an augmentative mode of communication as the resident’s primary mode of communication, the resident shall be permitted to have the resident’s hands free of restraint for brief periods, unless an employee determines that such freedom appears likely to result in harm to self or others.

This rule is intended to implement Iowa Code sections 135H.4 and 135H.5.

481—50.9(135C) Criminal, dependent adult abuse, and child abuse record checks.

50.9(1) *Definitions.* The following definitions apply for the purposes of this rule.

“Background check” or *“record check”* means criminal history, child abuse and dependent adult abuse record checks.

“Certified nurse aide training program” means a program approved in accordance with the rules for such programs adopted by the department of human services for the training of persons seeking to be a certified nurse aide for employment in a facility as defined by this rule or in a hospital as defined in Iowa Code section 135B.1.

“Direct services” means services provided through person-to-person contact. “Direct services” excludes services provided by individuals such as building contractors, repair workers, or others who are in a facility for a very limited purpose, are not in the facility on a regular basis, and who do not provide any treatment or services for residents, patients, tenants, or participants of the provider.

“Employed in a facility” or *“employment within a facility”* means all of the following if the provider is regulated by the state or receives any federal or state funding:

1. An employee of a health care facility licensed under Iowa Code chapter 135C if the employee provides direct or indirect services to residents;
2. An employee of a home health agency if the employee provides direct services to consumers;
3. An employee of a hospice if the employee provides direct services to consumers.

“Employee” means any individual who is paid either by the facility or any other entity (i.e., temporary agency, private duty, Medicare/Medicaid or independent contractors).

“Evaluation” means review by the department of human services to determine whether a founded child abuse, dependent adult abuse or criminal conviction warrants prohibition of the person’s employment in a facility; or whether a founded child abuse, dependent adult abuse or criminal conviction warrants prohibition of a student’s involvement in a clinical education component of the certified nurse aide training program involving children or dependent adults.

“Facility,” for purposes of this rule, means all of the following if the provider is regulated by the state or receives any federal or state funding:

1. A health care facility licensed under Iowa Code chapter 135C;
2. A home health agency;
3. A hospice.

“Indirect services” means services provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance.

“*Student*” means a person applying for, enrolled in, or returning to a certified nurse aide training program.

50.9(2) *Explanation of “crime.”* For purposes of this rule, the term “crime” does not include offenses under Iowa Code chapter 321 classified as simple misdemeanor or equivalent simple misdemeanor offenses from another jurisdiction.

50.9(3) *Requirements for employer prior to employing an individual.* Prior to employment of a person in a facility, the facility shall request that the department of public safety perform a criminal history check and the department of human services perform child and dependent adult abuse record checks of the person in this state.

a. Informing the prospective employee. A facility shall ask each person seeking employment by the facility, “Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime other than a simple misdemeanor offense relating to motor vehicles and laws of the road under Iowa Code chapter 321 or equivalent provisions, in this state or any other state?” In addition, the person shall be informed that a background check will be conducted. The person shall indicate, by signature, that the person has been informed that the background check will be conducted. (I, II, III)

b. Conducting a background check. The facility may access the single contact repository (SING) to perform the required background check. If the SING is used, the facility shall submit the person’s maiden name, if applicable, with the background check request. If the SING is not used, the facility must obtain a criminal history check from the department of public safety and a check of the child and dependent adult abuse registries from the department of human services. (I, II, III)

c. If a person being considered for employment has been convicted of a crime. If a person being considered for employment in a facility has been convicted of a crime under a law of any state, the department of public safety shall notify the facility that upon the request of the facility the department of human services will perform an evaluation to determine whether the crime warrants prohibition of the person’s employment in the facility. (I, II, III)

d. If a person being considered for employment has a record of founded child or dependent adult abuse. If a department of human services child or dependent adult abuse record check shows that a person being considered for employment in a facility has a record of founded child or dependent adult abuse, the department of human services shall notify the facility that upon the request of the facility the department of human services will perform an evaluation to determine whether the founded child or dependent adult abuse warrants prohibition of the person’s employment in the facility. (I, II, III)

e. Employment pending evaluation. The facility may employ a person for not more than 60 calendar days pending the completion of the evaluation by the department of human services if all of the following apply. The 60-day period begins on the first day of the person’s employment.

(1) The person is being considered for employment other than employment involving the operation of a motor vehicle;

(2) The person does not have a record of founded child or dependent adult abuse;

(3) The person has been convicted of a crime that is a simple misdemeanor offense under Iowa Code section 123.47 or a first offense of operating a motor vehicle while intoxicated under Iowa Code section 321J.2(1); and

(4) The facility has requested that the department of human services perform an evaluation to determine whether the crime warrants prohibition of the person’s employment. (I, II, III)

50.9(4) *Validity of background check results.* The results of a background check conducted pursuant to this rule shall be valid for a period of 30 calendar days from the date the results of the background check are received by the facility. (I, II, III)

50.9(5) *Employment prohibition.* A person who has committed a crime or has a record of founded child or dependent adult abuse shall not be employed in a facility unless an evaluation has been performed by the department of human services. (I, II, III)

50.9(6) *Transfer of an employee to another facility owned or operated by the same person.* If an employee transfers from one facility to another facility owned or operated by the same person, without a lapse in employment, the facility is not required to request additional criminal and child and dependent adult abuse record checks of that employee. (I, II, III)

50.9(7) *Transfer of ownership of a facility.* If the ownership of a facility is transferred, at the time of transfer the background check required by this rule shall be performed for each employee for whom there is no documentation that such background check has been performed. The facility may continue to employ such employee pending the performance of the background check and any related evaluation. (I, II, III)

50.9(8) *Change of employment—person with criminal or abuse record—exception to record check evaluation requirements.* A person with a criminal or abuse record who is or was employed by a facility and is hired by another facility shall be subject to the background check.

a. A reevaluation of the latest record check is not required, and the person may commence employment with the other facility if the following requirements are met:

(1) The department of human services previously performed an evaluation concerning the person's criminal or abuse record and concluded the record did not warrant prohibition of the person's employment;

(2) The latest background check does not indicate a crime was committed or founded abuse record was entered subsequent to the previous evaluation;

(3) The position with the subsequent employer is substantially the same or has the same job responsibilities as the position for which the previous evaluation was performed;

(4) Any restrictions placed on the person's employment in the previous evaluation by the department of human services and still applicable shall remain applicable in the person's subsequent employment; and

(5) The person subject to the background check has maintained a copy of the previous evaluation and provided it to the subsequent employer, or the previous employer provides the previous evaluation from the person's personnel file pursuant to the person's authorization. If a physical copy of the previous evaluation is not provided to the subsequent employer, a current record check evaluation shall be performed. (I, II, III)

b. For purposes of this subrule, a position is "substantially the same or has the same job responsibilities" if the position requires the same certification, licensure, or advanced training. For example, a licensed nurse has substantially the same or the same job responsibilities as a director of nursing; a certified nurse aide does not have substantially the same or the same job responsibilities as a licensed nurse.

c. The subsequent employer must maintain the previous evaluation in the employee's personnel file for verification of the exception to the requirement for a record check evaluation. (I, II, III)

d. The subsequent employer may request a reevaluation of the background check and may employ the person while the reevaluation is being performed, even though an exemption under paragraph 50.9(8) "*a*" may be authorized.

50.9(9) *Employee notification of criminal conviction or founded abuse after employment.* If a person employed by a facility employer that is subject to this rule is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the person's employment application date, the person shall inform the employer of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

a. The employer shall act to verify the information within 48 hours of notification. "Verify," for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online Web site, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the facility shall follow the requirements of paragraphs 50.9(3) "*c*" and "*d*." (I, II, III)

c. The employer may continue to employ the person pending the performance of an evaluation by the department of human services.

d. A person who is required by this subrule to inform the person's employer of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

e. The employer may notify the county attorney for the county where the employer is located of any violation or failure by an employee to notify the employer of a criminal conviction or entry of an abuse record within the period required under this subrule.

50.9(10) Facility receipt of credible information that an employee has been convicted of a crime or has a record of founded abuse. If the facility receives credible information, as determined by the facility, from someone other than the employee, that the employee has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after employment, and the employee has not informed the employer of the information within the time required by subrule 50.9(9), the facility shall take the following actions:

a. The facility shall act to verify credible information within 48 hours of receipt. "Verify," for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online Web site, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the facility shall follow the requirements of paragraphs 50.9(3) "c" and "d." (I, II, III)

50.9(11) Proof of background checks for temporary employment agencies and contractors. Proof of background checks may be kept in the files maintained by temporary employment agencies and contractors. Facilities may require temporary employment agencies and contractors to provide a copy of the result of the background checks. Copies of such results shall be made available to the department upon request. (I, II, III)

50.9(12) Certified nurse aide training program students. Prior to a student's beginning or returning to a certified nurse aide training program, the program shall request that the department of public safety perform a criminal history check and the department of human services perform child and dependent adult abuse record checks, in this state, of the student.

a. *Prohibition of involvement in clinical education.* If a student has a criminal record or a record of founded child or dependent adult abuse, the student shall not be involved in a clinical education component of the certified nurse aide training program involving children or dependent adults unless an evaluation has been performed by the department of human services. The evaluation shall be performed upon request of the certified nurse aide training program.

b. *Involvement in clinical education component pending evaluation.* The training program may allow the student's participation in the clinical education component for not more than 60 calendar days pending the completion of the evaluation by the department of human services if all of the following apply. The 60-day period begins on the first day of the student's participation in the clinical education component.

(1) The student's clinical education component of the training program involves children or dependent adults but does not involve the operation of a motor vehicle;

(2) The student does not have a record of founded child or dependent adult abuse;

(3) The student has been convicted of a crime that is a simple misdemeanor offense under Iowa Code section 123.47 or a first offense of operating a motor vehicle while intoxicated under Iowa Code section 321J.2(1); and

(4) The training program has requested that the department of human services perform an evaluation to determine whether the crime warrants prohibition of the student's involvement in the clinical education component.

c. *Student notification of criminal conviction or founded abuse after performance of record checks and evaluation.* If a student is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the record checks and any evaluation have been performed, the

student shall inform the certified nurse aide training program of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

(1) The program shall act to verify the information within 48 hours of notification. “Verify,” for purposes of this paragraph, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online Web site, or to contact the county clerk of court office and obtain a copy of relevant court documents. If the information is verified, the program shall follow the requirements of paragraph 50.9(12)“a” to determine whether or not the student’s involvement in a clinical education component may continue.

(2) The program may allow the student involvement to continue pending the performance of an evaluation by the department of human services.

(3) A student who is required to inform the program of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

(4) The program may notify the county attorney for the county where the program is located of any violation or failure by a student to notify the program of a criminal conviction or entry of an abuse record within the period required by this paragraph.

d. Program receipt of credible information that a student has been convicted of a crime or has a record of founded abuse. If a program receives credible information, as determined by the program, that a student has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after the record checks and any evaluation have been performed, from a person other than the student, and the student has not informed the program of such information within 48 hours, the program shall act to verify the credible information within 48 hours of receipt of the credible information. “Verify,” for purposes of this paragraph, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online Web site, or to contact the county clerk of court office and obtain a copy of relevant court documents. If the information is verified, the requirements of paragraph 50.9(12)“a” shall be applied to determine whether or not the student’s involvement in a clinical education component may continue.

e. Completion of a certified nurse aide training program conducted by the health care facility. If a certified nurse aide training program is conducted by the facility and a student of that program accepts and begins employment with the facility within 30 days of completing the program, the background check of the student performed prior to beginning the training program shall fulfill the criminal and abuse background check requirements. The facility shall maintain the proof required in subrule 50.9(11). (I, II, III)

This rule is intended to implement Iowa Code section 135C.14 and section 135C.33 as amended by 2013 Iowa Acts, Senate File 347.

481—50.10(135C) Inspections, exit interviews, plans of correction, and revisits.

50.10(1) Frequency of inspection. The department shall inspect a licensed health care facility at least once within a 30-month period. Facilities participating in the Medicare or Medicaid programs may be inspected more frequently as a part of a joint state and federal inspection.

50.10(2) Accessibility of records, the facility, and persons. An inspector of the department may enter any licensed health care facility without a warrant and may examine all records pertaining to the care provided to residents of the facility. An inspector of the department may contact or interview any resident, employee, or any other person who might have knowledge about the operation of a health care facility. The inspector may duplicate records and take photographs as part of the inspection.

50.10(3) Exit interviews. The health care facility shall be provided an exit interview at the conclusion of an inspection, and the facility representative shall be informed of all issues and areas of concern related to the deficiencies.

a. Methods of conducting exit interview. The department may conduct the exit interview either in person or by telephone.

b. Second exit interviews. The department shall conduct a second exit interview if any additional areas of concern are identified.

50.10(4) Submission of additional or rebuttal information. The facility shall be provided two working days from the date of the exit interview to submit additional or rebuttal information to the department.

a. Receipt of additional information. Additional or rebuttal information must be received by the department within two working days in order to be considered.

b. Methods to submit additional information. The additional or rebuttal information may be submitted via E-mail, facsimile, or overnight courier to the department.

c. Inform of the opportunity to submit additional or rebuttal information. During the inspection, the facility shall be informed of the opportunity to submit additional or rebuttal information and of the contact information for the department.

50.10(5) Standards for determining whether a deficiency exists. The department shall use a preponderance of the evidence standard when determining whether a regulatory deficiency exists. For purposes of this rule and rule 481—50.11(135C), “preponderance of the evidence standard” means that the evidence, considered and compared with the evidence opposed to it, produces the belief in a reasonable mind that the allegations or deficiency is more likely true than not true. This standard does not require that the inspector personally witnessed the alleged violation.

50.10(6) Statement of deficiencies. When one or more deficiencies are found, a statement of deficiencies detailing each deficiency shall be sent by the department to the health care facility within ten working days of the exit interview.

50.10(7) Plan of correction. Within ten working days following receipt of the statement of deficiencies, the health care facility shall submit a plan of correction to the department.

a. Contents of plan. The plan of correction shall contain the following information:

- (1) How the facility will correct the deficient practice;
- (2) How the facility will act to protect residents;
- (3) The measures the facility will take or the systems it will alter to ensure that the problem does not recur;
- (4) How the facility plans to monitor its performance to make sure that solutions are sustained; and
- (5) Date(s) when corrective action will be completed.

b. Review of plan. The department shall review the plan of correction within ten working days of receipt. The department may request additional information or revisions to the plan, which shall be provided as requested.

50.10(8) Revisits. If a facility licensed under this chapter is subject to or will be subject to denial of payment including payment for Medicare or medical assistance (Medicaid) under Iowa Code chapter 249A, or denial of payment for all new admissions pursuant to 42 CFR Section 488.417, and submits a plan of correction relating to the deficiencies or a response to a citation issued under 481—Chapter 56 and the department elects to conduct an on-site revisit inspection, the department shall commence the revisit inspection within the shortest time feasible of the date that the plan of correction is received or the date specified within the plan of correction alleging compliance, whichever is later.

50.10(9) Appeals of statement of deficiencies. The facility may appeal the statement of deficiencies by filing an appeal request with the department within 20 working days after receipt of the statement of deficiencies. The procedures defined in rule 481—50.6(10A) shall be followed for the appeal.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—50.11(135C) Complaint and self-reported incident investigation procedure.

50.11(1) Complaint. The process for filing a complaint is as follows:

a. Any person with concerns regarding a facility may file a complaint with the Department of Inspections and Appeals, Complaint/Incident Bureau, Lucas State Office Building, Third Floor, 321 E. 12th Street, Des Moines, Iowa 50319-0083; by use of the complaint hotline, 1-877-686-0027; by facsimile sent to (515)281-7106; or through the Web site address https://dia-hfd.iowa.gov/DIA_HFD/Home.do.

b. When the nature of the complaint is outside the department's authority, the department shall forward the complaint or refer the complainant to the appropriate investigatory entity.

c. The complainant shall include as much of the following information as possible in the complaint: the complainant's name, address and telephone number; the complainant's relationship to the facility or resident; and the reason for the complaint.

d. The complainant's name shall be confidential information and shall not be released by the department.

e. The department shall act on anonymous complaints unless the department determines that the complaint is intended to harass the facility.

f. If the department, upon preliminary review, determines that the complaint is intended as harassment or is without a reasonable basis, the department may dismiss the complaint.

50.11(2) Self-reported incident. When the facility is required pursuant to rule 481—50.7(10A,135C) or other requirements to report an incident, the facility shall make the report to the department via:

a. The Web-based reporting tool accessible from the following Internet site, https://dia-hfd.iowa.gov/DIA_HFD/Home.do, under the "Login" tab and then access "Add self report";

b. Mail by sending the self-report to the Department of Inspections and Appeals, Complaint/Incident Bureau, Lucas State Office Building, Third Floor, 321 E. 12th Street, Des Moines, Iowa 50319-0083;

c. The complaint/incident hotline, 1-877-686-0027; or

d. Facsimile sent to (515)281-7106.

50.11(3) Time frames for investigation of complaint or self-reported incident. The following guidelines shall be used for determining the time frame in which an on-site inspection of the facility shall be initiated:

a. *Immediate jeopardy situation.* Within 2 working days for a complaint or self-reported incident determined by the department to be an alleged immediate jeopardy situation. For purposes of this rule, "immediate jeopardy situation" means a situation in which the facility's alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, has caused or is likely to cause, serious injury, harm, impairment, or death to a resident.

b. *High-level nonimmediate jeopardy situation.* Within 10 days for nursing facilities and within 20 working days for intermediate care facilities and residential care facilities for a complaint or self-reported incident determined by the department to be an alleged high-level nonimmediate jeopardy situation. For purposes of this rule, "high-level nonimmediate jeopardy situation" means the alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, may have caused harm that negatively impacts the resident's mental, physical, or psychosocial status and is of such consequence to the resident's well-being that a rapid response is warranted.

c. *Other nonimmediate jeopardy situation.* Within 45 calendar days for a complaint or self-reported incident determined by the department to be an alleged nonimmediate jeopardy situation, other than a high-level nonimmediate jeopardy situation. For purposes of this rule, "other nonimmediate jeopardy situation" means a situation that is not a high-level nonimmediate jeopardy situation where the alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, may cause harm of limited consequence and does not significantly impair the individual's mental, physical, or psychosocial status or function.

d. *No inspection of facility-reported incidents.* The department may determine not to institute an inspection of a self-reported incident using criteria including, but not limited to, the following:

(1) There is no evident deficiency on the part of the facility, and the facility has taken appropriate measures to address the situation; or

- (2) There is a potential deficiency but:
1. The facility has taken appropriate measures to address the situation;
 2. The facility does not have a recent history of identified deficiency similar to or related to the incident being reported;
 3. A complaint has not been filed regarding the incident being reported; and
 4. The resulting injury does not cause a significant negative impact to the resident's quality of life.

50.11(4) *Standard for determining whether a complaint or self-reported incident is substantiated.* The department shall apply a preponderance of the evidence standard in determining whether a complaint or self-reported incident is substantiated.

50.11(5) *Notification of program and complainant.* The department shall notify the facility and, if known, the complainant of the findings of the complaint investigation. The department shall also notify the complainant, if known, if the department does not investigate a complaint, and the reasons for not investigating the complaint shall be included in the notification.

50.11(6) *Process for complaint and self-reported incident.* The department and facility shall follow the process outlined in rule 481—50.10(135C), as applicable, when conducting or responding to a complaint or self-reported incident investigation.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—50.12(135C) Requirements for service. At each inspection, the facility shall provide the most current contact information for the purpose of service of departmental notices. A statement of deficiencies or citation shall be served upon a facility using one of the following methods.

50.12(1) *Electronic mail.* If a facility has electronic mail, electronic mail shall be used for service of statements of deficiencies and citations. If electronic mail is used, the following shall be complied with:

- a. The department shall send the electronic message return receipt requested. The response from the return receipt shall officially document receipt of the service and the date of receipt.
- b. A facility shall allow the electronic return receipt to be returned to the department and shall not delay the sending of the return receipt.
- c. If the department has not received the return receipt within three business days of sending the service via electronic mail, the department shall contact the facility to verify the receipt of the service.

50.12(2) *Certified mail.* If a facility does not have access to electronic mail, the service shall be sent via certified mail, return receipt requested.

50.12(3) *Personal service.* The department may choose to personally serve the notice upon the health care facility by delivering a copy of the statement of deficiencies or citation to the health care facility and presenting the copy to the facility.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—50.13(135C) Inspectors' conflicts of interest.

50.13(1) *Conflicts.* Any of the following circumstances disqualifies an inspector from inspecting a particular health care facility licensed under Iowa Code chapter 135C:

a. The inspector currently works or, within the past two years, has worked as an employee or employment agency staff at the health care facility, or as an officer, consultant, or agent for the health care facility to be inspected.

b. The inspector has any financial interest or any ownership interest in the facility. For purposes of this paragraph, indirect ownership, such as through a broad-based mutual fund, does not constitute a financial or ownership interest.

c. The inspector has an immediate family member who has a relationship with the facility as described in subrule 50.13(1), paragraphs "a" and "b."

50.13(2) *Immediate family member.* For purposes of this rule, "immediate family member" means the same as set forth in 42 CFR 488.301, and includes a husband or wife; natural or adoptive

parent, child, or sibling; stepparent, stepchild, or stepsibling; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law; or grandparent or grandchild.

CHAPTER 51 HOSPITALS

[Prior to 12/14/88, see Health Department[470] Ch 51]

[Prior to 8/8/90, see Public Health[641] Ch 51]

481—51.1(135B) Definitions. As used in this chapter, unless the context otherwise requires, the following definitions apply:

“Critical access hospital” means any hospital located in a rural area and certified by the Iowa department of public health as being a necessary provider of health care services to residents of the area. A “critical access hospital” makes available 24-hour emergency care, is a designated provider in a rural health network, and meets the criteria specified pursuant to 481—51.53(135B). If swing-bed approval has been granted, all 25 beds may be used interchangeably for acute or skilled nursing facility level of care services.

“Department” means the Iowa department of inspections and appeals.

“Governing board” means the board of trustees, the owner or the person or persons designated by the owner as the governing authority who shall have supreme authority in the hospital and be responsible for the management, control, and appointment of the medical staff.

“Governmental unit” means the state, or any county, municipality, or other political subdivision, or any department, division, board or other agency of any of the foregoing.

“Hospital” or *“general hospital”* means an institution, place, building, or agency represented and held out to the general public as ready, willing and able to furnish care, accommodations, facilities and equipment for the diagnosis or treatment, over a period exceeding 24 hours, of two or more nonrelated individuals suffering from illness, injury, infirmity or deformity, or other physical or mental condition for which medical, surgical and obstetrical care services are provided. The term “hospital” does not include the following:

1. Any institution for well children, day nursery and child care center, foster boarding homes or houses, and homes for disabled children. However, such institutions that have a dual function, including nursing and medical care, and care of the sick are required to be licensed.
2. Homes, houses or institutions for aged persons which limit their functions to room and board and provide no medical or nursing care and house no bedridden person.
3. Dispensary or first-aid stations maintained for the care of employees, students, customers, and members of any commercial or industrial plant, educational institution, or convent.

“Long-term acute care hospital” means any hospital that has an average inpatient length of stay greater than 25 days, and that provides extended medical and rehabilitative care for patients who are clinically complex and who may suffer from multiple acute or chronic conditions. Services provided by a long-term acute care hospital include but are not limited to comprehensive rehabilitation, respiratory therapy, head trauma treatment, and pain management. A long-term acute care hospital shall meet the requirements for a general hospital including emergency services, except that obstetrical facilities are not required, and, if the long-term acute care hospital is located within a separately licensed hospital and does not provide its own emergency services, the long-term acute care hospital shall contract for emergency services with the host general hospital.

“Medical staff” means an organized body that is composed of individuals appointed by the hospital governing board, that operates under bylaws approved by the governing board and that is responsible for the quality of medical care provided to patients by the hospital. All members of the medical staff, one of whom shall be a licensed physician, shall be licensed to practice in the state of Iowa.

“Person” means any individual, firm, partnership, corporation, company, association, or joint stock association and includes any trustee, receiver, assignee, or other similar representative.

“Premises” means any or all designated portions of a building or structure, enclosures or places in the building, or real estate when the distinct and clearly identifiable parts provide separate care and services. The definition of “premises” shall not be construed to permit the existence of a separately licensed specialty hospital within the physical structure of a general hospital. A specialty hospital shall be

defined pursuant to 42 CFR Section 411.351 and any amendments thereto, or pursuant to any regulations promulgated by the Secretary of Health and Human Services.

“Registered nurse” means a person who has graduated from an accredited school of nursing and who is registered in the state of Iowa.

“Specialized hospital” means any hospital devoted primarily to the specialized care and treatment of persons with chronic or long-term illness, injury, or infirmity. The diagnosis, treatment or care shall be administered by or performed under the direction of persons especially qualified in the diagnosis and treatment of the particular illness, injury, or infirmity. A specialized hospital shall meet the requirements for a general hospital. “Specialized hospital” as defined in this rule does not include a specialty hospital defined pursuant to 42 CFR Section 411.351.

481—51.2(135B) Classification, compliance and license.

51.2(1) Classification. For the purpose of administering the hospital licensing law, all institutions subject to licensure shall be classified as a critical access hospital, general hospital, long-term acute care hospital, or specialized hospital. The license issued by the department shall clearly identify the classification of the hospital.

51.2(2) Compliance requirements for each classification. A hospital shall comply with all of the general regulations for hospitals and shall comply with regulations pertaining to specialized services, if specialized services are provided in the hospital.

51.2(3) Separate license required. A separate license shall be required for each hospital even though more than one is operated under the same management. A separate license is not required for separate buildings of a hospital located on separate parcels of land, which are not adjoining but provide elements of the hospital’s full range of services for the diagnosis, care, and treatment of human illness, including convalescence and rehabilitation, and which are organized under a single owner or governing board with a single designated administrator and medical staff.

51.2(4) Posting of license. The license shall be conspicuously posted on the premises.

51.2(5) The department shall recognize, in lieu of its own licensure inspection, the comparable inspections and inspection findings of The Joint Commission (JC), the American Osteopathic Association (AOA), or Det Norske Veritas (DNV), if the department is provided with copies of all requested materials relating to the inspection process. In cases of the initial licensure, the department may require its own inspection when needed in addition to comparable accreditations to allow the hospital to begin operations. The department may also initiate its own inspection when it is determined that the inspection findings of the JC, AOA, or DNV are insufficient to address concerns identified as possible licensure issues.

51.2(6) Hospitals not accredited by the JC, AOA, or DNV shall be inspected by the department utilizing the current Medicare conditions of participation found in Title XVIII of the federal Social Security Act and 42 CFR Part 482, Subparts A, B, C, D, and E, or 42 CFR Part 485, Subpart F, as of October 1, 2006. Licensed-only hospitals shall be inspected utilizing the requirements of this chapter. The department may promulgate additional standards. The department may recognize, in lieu of its own licensure inspection, the comparable inspection and inspection findings of a Medicare conditions of participation survey.

This rule is intended to implement Iowa Code chapter 135B.
[ARC 9253B, IAB 12/1/10, effective 1/5/11]

481—51.3(135B) Quality improvement program. There shall be an ongoing hospitalwide quality improvement program. This program is to be designed to improve, as needed, the quality of patient care by:

1. Assessing clinical patient care;
2. Assessing nonclinical and patient-related services within the hospital;
3. Developing remedial action as needed;
4. Ongoing monitoring and evaluating of the progress of remedial action taken.

51.3(1) The governing body shall ensure there is an effective hospitalwide patient-oriented quality improvement program.

51.3(2) The quality improvement program shall involve active participation of physician members of the hospital's medical staff and other health care professionals, as appropriate. Evidence of this participation will include ongoing case review and assessment of other patient care problems which have been identified through the quality improvement process.

51.3(3) There shall be a written plan for the quality improvement program that:

- a. Describes the program's objectives, organization, scope, and mechanisms for overseeing the effectiveness of monitoring, evaluation, and problem-solving activities;
- b. Ensures participation from all departments, services (including services provided both directly and under contract), and disciplines;
- c. Provides for assessment of participation through a quality improvement committee meeting on an established periodic basis;
- d. Provides for coordination of quality improvement activities;
- e. Ensures communication, reporting and documentation of all quality improvement activities on a regular basis to the governing board, the medical staff, and the hospital administrator;
- f. Provides for an annual evaluation by the governing board of the effectiveness of the quality improvement program; and
- g. Addresses accessibility and confidentiality of materials relating to, generated by or part of the quality improvement process.

This rule is intended to implement Iowa Code chapter 135B.

481—51.4(135B) Long-term acute care hospital located within a general hospital.

51.4(1) If a long-term acute care hospital occupies the same building, premises or physical location of a general hospital, all treatment facilities and administrative offices for each hospital shall be clearly marked and separated from each other, and located within the licensed premises of each licensee.

- a. Treatment facilities shall be sufficient to meet the medical needs of the patients.
- b. Administrative offices shall include, but not be limited to, record rooms and personnel offices.
- c. There shall be clearly identifiable and distinguishable signs for each hospital.

51.4(2) If a long-term acute care hospital occupies the same building, premises or physical location of a general hospital, each hospital shall have its own entrance. The separate entrance shall have appropriate signs and shall be clearly identifiable as belonging to a particular hospital. Nothing shall prohibit a long-term acute care hospital that is occupying the same building, premises or physical location as a general hospital from utilizing the entrance, hallway, stairs, elevators or escalators of the general hospital to provide access to the long-term acute care hospital's separate entrance.

51.4(3) A long-term acute care hospital located within a general hospital shall have sufficient staff to meet the patients' needs. No nursing services staff of either the long-term acute care hospital or the host general hospital shall be simultaneously assigned patient duties in both licensed hospitals.

51.4(4) Each long-term acute care hospital located within a general hospital and the host general hospital shall have a separate and distinct governing board, which shall be in control of the respective hospital. No more than one board member shall serve in a common capacity on the governing board of each licensed hospital. For the purposes of this rule, control exists if an individual or an organization has the power, directly or indirectly, to significantly influence or direct the actions or policies of an organization or institution.

51.4(5) A long-term acute care hospital located within a general hospital may contract with the host general hospital for the provision of services, including but not limited to pharmaceutical, radiological, laboratory, food and dietetic, surgical, anesthesia, emergency, housekeeping, laundry and environmental, or other services necessary to maintain a clean and safe physical environment. The contract shall be executed by the governing boards of the long-term acute care hospital and the host general hospital. All contracts shall clearly delineate the responsibilities of and services provided by the long-term acute care hospital and the host general hospital.

51.4(6) Any life safety code violation identified by the state fire marshal during an inspection of a licensee may be a life safety code violation for both the long-term acute care hospital and the general hospital.

481—51.5(135B) Medical staff.

51.5(1) A roster of medical staff members shall be kept.

51.5(2) All hospitals shall have one or more licensed physicians designated for emergency call service at all times.

51.5(3) A hospital shall not deny clinical privileges to physicians and surgeons, podiatrists, osteopaths or osteopathic surgeons, dentists, certified health service providers in psychology, physician assistants or advanced registered nurse practitioners licensed under Iowa Code chapter 148, 148C, 149, 150, 150A, 152, or 153 or section 154B.7 solely by reason of the license held by the practitioner or solely by reasons of the school or institution in which the practitioner received medical schooling or postgraduate training if the medical schooling or postgraduate training was accredited by an organization recognized by the council on postsecondary accreditation or an accrediting group recognized by the United States Department of Education.

51.5(4) A hospital shall establish and implement written criteria for the granting of clinical privileges. The written criteria shall include, but not be limited to, consideration of the:

- a. Ability of the applicant to provide patient care services independently or appropriately in the hospital;
- b. License held by the applicant to practice;
- c. Training, experience, and competence of applicant;
- d. Relationship between the applicant's request for privileges and the hospital's current scope of patient care services;
- e. Applicant's ability to provide comprehensive, appropriate and cost-effective services.

481—51.6(135B) Patient rights and responsibilities. The hospital governing board shall adopt a statement of principles relating to patient rights and responsibilities. In developing a statement of principles, the hospital may use reference statements of patient rights and responsibilities developed by the American Hospital Association, The Joint Commission (JC), the American Osteopathic Association (AOA), Det Norske Veritas (DNV), and other appropriate sources.

51.6(1) The statement of principles shall be made available to patients of the hospital.

51.6(2) The statement of principles regarding patient rights shall, at a minimum, address:

- a. Access to treatment regardless of race, creed, sex, national origin, diagnosis, or source of payment for care;
- b. Preservation of individual dignity and protection of personal privacy in receipt of care;
- c. Confidentiality of medical and other appropriate information;
- d. Assurance of reasonable safety within the hospital;
- e. Knowledge of the identity of the physician or other practitioner primarily responsible for the patient's care as well as identity and professional status of others providing services to the patient while in the hospital;
- f. Nature of patient's right to information regarding the patient's medical condition unless medically contraindicated, to consult with a specialist at the patient's request and expense, and to refuse treatment to the extent authorized by law;
- g. Access to and explanation of patient billings; and
- h. Process for patient pursuit of grievances.

51.6(3) The statement of principles regarding patient responsibilities shall, at a minimum, address:

- a. Need of patient to provide accurate and complete information regarding the patient's health status;
- b. Need of patient to follow recommended treatment plans;
- c. Requirement that patient abide by hospital rules and regulations affecting patient care and conduct and be considerate of the rights of other patients and hospital personnel; and

d. Obligation to fulfill the patient's financial obligations as soon as possible following discharge.

This rule is intended to implement Iowa Code chapter 135B.

Each hospital shall provide that the treatment records of victims of child abuse or dependent adult abuse include a statement that the department of human services protective services was contacted.

481—51.8(135B) Organ and tissue—requests and procurement.

51.8(1) Each hospital licensed in accordance with Iowa Code chapter 135B shall have in place written policies and protocols for organ and tissue donation. Hospital policies and protocols for organ and tissue donation shall require that the patient, or appropriate person able to consent on behalf of the patient, be made aware of the option to donate as well as the option to refuse donation and the ability, if any, to revoke consent once given.

a. Hospitals shall be familiar with the uniform anatomical gift law, Iowa Code chapter 142C, and shall develop policies and protocols for consent to organ and tissue donation by either the patient or an appropriate person to consent on the patient's behalf consistent with that law's provisions.

b. Hospital policies and protocols for organ and tissue donation shall set forth the responsibilities of the attending physician or physicians, nursing staff, and other appropriate hospital staff persons in the organ and tissue donation process. At a minimum, the policies shall set forth who in particular is authorized to make an organ or tissue donor request and that all such requests shall be made only in accordance with clearly delineated written protocol approved by the hospital's medical staff and governing board.

c. Hospital policies and protocols for organ and tissue donation shall provide that the attending physician inform appropriate family members or others of impending death or that death has occurred prior to an organ or tissue donor request.

d. Hospital policies and protocols for organ and tissue donation shall set forth those situations in which donation shall not be made including, but not necessarily limited to, the following:

(1) Where the patient is not medically suitable, as determined by the organ or tissue procurement organization;

(2) Where the hospital lacks the appropriate facilities or equipment for maintaining the patient or the organs for the time and in the manner necessary to facilitate appropriate procurement of the organ(s);

(3) Where the medical examiner has refused to release the body, except a donor request may be made where the medical examiner indicates that the body will be available at a time where the patient remains medically suitable for organ or tissue donation;

(4) Where the hospital has appropriate documentation that the patient or the appropriate person to consent on behalf of the patient does not want to consider the donation option;

(5) Rescinded IAB 8/6/03, effective 9/10/03.

e. Hospital policies and protocols for organ and tissue donation shall require documentation in the patient's medical record of the fact that a donor request was made and either accepted or refused, stating to whom the request was made and who accepted or refused; or that a donor request was not made, stating the reason why no request was made; or that a consent previously given was subsequently revoked.

f. Method and manner of consent, where consent to organ or tissue donation has been given, shall be noted in the patient's medical record. Where revocation of consent, if applicable, occurs, the manner and method of revocation shall also be noted in the patient's medical record.

g. Where the patient has validly executed a donation prior to death, attempt will be made to notify appropriate family members, if reasonably available, of the donation before the procurement process begins.

h. Hospital policies and protocols for organ and tissue donation shall provide for ongoing communication with the patient's family or other appropriate representatives regarding the donation process, the present status of that process and unexpected delays in the process, and family rights and responsibilities following organ or tissue donation.

51.8(2) Determination of death.

a. No organ or tissue shall be removed from a donor until death has been determined according to the requirements of Iowa law and generally acceptable standards of medical practice.

b. Death is defined by Iowa Code section 702.8 as a condition determined by the following standards:

A person will be considered dead if in the announced opinion of a physician licensed pursuant to Iowa Code chapter 148, 150, or 150A, a physician assistant licensed pursuant to Iowa Code chapter 148C, or a registered nurse or a licensed practical nurse licensed pursuant to Iowa Code chapter 152, based on ordinary standards of medical practice, that person has experienced an irreversible cessation of spontaneous respiratory and circulatory functions. In the event that artificial means of support preclude a determination that these functions have ceased, a person will be considered dead if in the announced opinion of two physicians, based on ordinary standards of medical practice, that person has experienced an irreversible cessation of spontaneous brain functions. Death will have occurred at the time when the relevant functions ceased.

c. The surgeon performing the organ removal shall not participate in the determination of brain death.

d. The patient's medical record shall include documentation of the date and time of death and identification of the practitioner or practitioners who determined death, as provided in 51.8(2) "b."

51.8(3) Determination of medical suitability.

a. At or near the time of the patient's death or when death has occurred, no organ and tissue donor request shall be made until the patient has been determined by the designated organ or tissue procurement organization to be medically suitable for organ or tissue donation.

b. Each hospital shall consult with a recognized organ and tissue procurement program or programs in establishing medical requirements for organ and tissue donation and in evaluating a particular patient's suitability for donation. Where required by federal law, hospitals shall work only with organ or tissue procurement organizations designated by the Department of Health and Human Services (DHHS). Organ and tissue procurement programs maintain guidelines for determining medical suitability and generally will provide a hospital with a copy of those guidelines which may be incorporated into the hospital's own policies and protocol for organ and tissue donation.

51.8(4) Organ and tissue procurement.

a. Hospital policies and protocol for organ and tissue donation shall set forth the process to be used for contacting an organ procurement organization (OPO).

b. Hospitals with an agreement with the designated OPO shall take into account the terms and conditions of the agreement in developing their policies and protocols. Hospitals shall contact only the OPO designated by the federal Department of Health and Human Services.

c. Generally an OPO will assume the costs of procuring medically suitable organs and tissues, including costs borne by the donating hospital in maintaining the patient until organ retrieval can occur as well as in the retrieval process itself. A hospital shall be familiar with its financial obligations, if any, in the procurement process and with cost accounting/reporting responsibilities it bears, if any, under Medicare and Medicaid. In situations, if any, where the patient or the patient's family may be liable for certain costs associated with organ donation or procurement, the patient or person able to consent for the patient shall be fully informed of the potential financial obligations at the time of request and before consent is either given or refused.

d. When an organ or tissue is retrieved for transplantation purposes, the hospital shall ensure that the medical records of the donor and, if applicable, the recipient fulfill the requirements for any surgical inpatient medical record. Medical record documentation shall include the method of maintenance of the patient while awaiting organ or tissue retrieval and operative report documentation (including an autopsy if an autopsy has been performed) regarding the removal of the organ or tissue.

e. The procurement process shall not occur until necessary consent by the patient or appropriate person to consent on behalf of the patient is received and documented. Also, in cases requiring the involvement of the medical examiner, release of the body must be authorized by the medical examiner and documented.

f. Where a donor specifies to whom the organ or tissue donation is to be made, the hospital shall first contact the named donee to determine whether the donee accepts the donation. Where the donee refuses the donation or is unable for other reasons to accept, then the hospital shall document in the

medical record the fact that the donation was not accepted. The hospital shall then notify the appropriate consenting party that the donation was not accepted and determine whether the consenting party desires to make further donation. A hospital shall make good faith effort to cooperate in the donation/procurement process where a specific donee has been named but shall not be required to participate in the donation process where procurement for a specific donee would result in undue burden or unreasonable cost to the hospital; in such situations, the hospital shall notify the appropriate consenting party and determine whether the consenting party desires to make further donation.

g. Where consent has been given for organ or tissue donation, revocation of prior consent, if applicable, shall not be effective once surgical procedures have begun on either the donor or the recipient.

51.8(5) Informed consent. Hospital policies and protocols for organ and tissue donation shall be consistent with informed consent provisions provided by the organ or tissue procurement organization.

51.8(6) Confidentiality. Hospital policies and protocols for organ and tissue donation shall provide that donor and recipient patient-identifying information shall be kept confidential except and only to the extent necessary to assist and complete the procurement and transplant process.

51.8(7) Training of hospital personnel. Hospital policies and protocols for organ and tissue donation shall include provisions for initial and ongoing training of hospital medical, nursing, and other appropriate staff persons regarding the various aspects of the organ and tissue donation and procurement process. The type and extent of training will vary from hospital to hospital, based on factors such as likelihood of medically suitable donors, capabilities for maintaining organ donors/patients, referral sources for potential organ and tissue donor candidates, and overall participation in organ and tissue procurement and transplants.

This rule is intended to implement Iowa Code section 135B.7.

51.38(1) Long-term care service definition. Long-term care service means any building or distinct part of a building utilized by the hospital for the provision of a service (except as provided by 51.38(2) below) that falls within the definition of a health care facility as specified in Iowa Code chapter 135C and Iowa Code section 135C.1(12), nursing facility, as it would be applied were it not operating as part of a hospital licensed under Iowa Code chapter 135B.

51.38(2) Long-term care service general requirements. The general requirements for the hospital's long-term care service shall be the same as required by Iowa Code chapter 135C and the rules promulgated under its authority for the category of health care facility involved. Exceptions to those rules requiring distinct parts to be established may be waived where it is found to be in the best interest of the long-term care resident and of no detriment to the patients in the hospital.

Requests for variances to other rules for which equivalent health, safety and welfare provisions are provided may be made in accordance with the appropriate health care facility rules. In any case where a distinct part has been established for long-term residents or where the department has given approval for the intermingling of such residents with acute care patients, the same provisions and rules

promulgated under Iowa Code chapter 135C shall be applicable. These rules include, but are not limited to, the same restrictions, obligations, programs of care, personal and rehabilitative services and all of the conveniences and considerations which the residents would normally have received in a licensed health care facility.

51.38(3) Long-term care service staff. The staffing requirements for the hospital's long-term care service shall be the same as required by Iowa Code chapter 135C and the rules promulgated under its authority for the category of health care facility involved. Where a hospital operates a freestanding nursing care facility, it shall be under the administrative authority of a licensed nursing home administrator who will be responsible to the hospital's administrator. Where a hospital operates a distinct part long-term care unit under the auspices of the hospital license, a licensed nursing home administrator is not required.

51.38(4) Long-term care service equipment and supplies. The equipment and supplies required for the hospital's long-term care service shall be the same as required by Iowa Code chapter 135C and the rules promulgated under its authority for the category of health care facility involved.

51.38(5) Long-term care service space. The space requirements for the various areas and resident rooms of the hospital's long-term care service shall be the same as required by Iowa Code chapter 135C and the rules promulgated under its authority for the category of health care facility involved.

481—51.39(135B) Penalty and enforcement. See Iowa Code sections 135B.14 to 135B.16.

481—51.40(135B) Validity of rules. If any provision of these rules or the application thereof to any person or circumstances shall be held invalid, such validity shall not affect the provisions or application of these rules which can be given effect without the invalid provision or application, and to this end the provisions of these rules are declared to be severable.

481—51.41 to 51.49 Reserved.

b. A critical access hospital as defined in rule 481—51.1(135B) shall meet the standards for construction for small primary care hospitals set forth in Part 2.3 of the Guidelines for Design and Construction of Health Care Facilities, 2010 edition, produced by the Facility Guidelines Institute, with the following exceptions:

(1) The patient room capacity requirements contained in section 2.3-2.2.2.1(1) shall not apply. The maximum number of beds per room shall be two.

(2) The first paragraph of section 2.3-2.2.4.6 is amended to read as follows: "The small primary care hospital shall include the following:".

(3) Section 2.3-3.4.1, which limits the types of surgical procedures, shall not apply.

c. Existing hospitals, critical access hospitals, and off-site premises built in compliance with prior editions of the hospital construction guidelines will be deemed in compliance with subsequent regulations, with the exception of any new structural renovations, additions, functional alterations, or changes in utilization to existing facilities, which shall meet the standards specified in this subrule.

d. In jurisdictions without a local building code enforcement program, the construction shall be in conformance with the state building code, as authorized by Iowa Code section 103A.7, in effect at the time of plan submittal for review and approval. In jurisdictions with a local building code enforcement program, local building code enforcement must include both the adoption and enforcement of a local building code through plan reviews and inspections.

A hospital or off-site premises that is required to meet the provisions of the state building code shall be deemed to be in compliance with the fire safety requirements of the state building code if the hospital or off-site premises is in compliance with the provisions of rule 661—205.5(100). In any case in which an applicable requirement of the Life Safety Code, 2000 edition, is inconsistent with an applicable requirement of the state building code, the hospital shall be deemed to be in compliance with the state building code requirement if the Life Safety Code requirement is met.

Rule 661—301.5(103A) shall not be applicable to hospitals and other structures required under this chapter to meet the provisions of the state building code.

51.50(2) *Submission of construction documents.*

a. Submissions of architectural technical documents, engineering documents, and plans and specifications to the building code commissioner are the responsibility of the owner of the building or facility, although the actual submission may be completed by an authorized agent of the owner or the responsible design professional.

b. “Responsible design professional” means a registered architect or licensed professional engineer who signs the documents submitted.

c. Plans, specifications and other supporting information shall be sufficiently clear and complete to show in detail that the proposed work will comply with the requirements of the applicable provisions of the state building code.

d. In section 107.2.5 of the International Building Code, 2009 edition, the word “permit” shall be replaced by the words “plan review.”

e. Submittals to the commissioner shall be certified or stamped and signed as required by Iowa Code chapters 542B and 544A unless the applicant has certified on the submittal to the applicability of a specific exception under Iowa Code section 544A.18 and the submittal does not constitute the practice of professional engineering as defined by Iowa Code section 542B.2.

f. The responsible design professional shall certify that the building plans meet the requirements specified in subrule 51.50(1), unless a variance has been granted pursuant to subrule 51.50(3).

51.50(3) *Variations.* The director of the department may grant variances to building and construction guidelines as contained in the 2010 edition of the Guidelines for Design and Construction of Health Care Facilities. The hospital or off-site premises must submit a variance request in writing to the director. The request must demonstrate how patient safety and the quality of care offered will not be compromised by the variance. The facility must demonstrate its ability to completely fulfill all other requirements of the service. The director shall make a written determination of the request. In determining whether a variance request shall be granted, the director shall give consideration to the following conditions and to any other conditions the director deems relevant:

a. The design and planning for the specific property shall offer improved or compensating features which provide equivalent desirability and utility;

b. Alternate or special construction methods, techniques, and mechanical equipment shall offer equivalent durability; utility; safety; structural strength and rigidity; sanitation; odor control; protection from corrosion, decay and insect attack; and quality of workmanship;

c. The health, safety or welfare of any patient shall not be endangered;

d. The variance shall be limited to the specific project under consideration and shall not be construed as establishing a precedent for similar acceptance in other cases;

e. Occupancy and function of the building shall be considered; and

f. The type of licensing shall be considered.

CHAPTER 52
DEPENDENT ADULT ABUSE IN FACILITIES AND PROGRAMS

481—52.1(235E) Definitions. For purposes of this chapter, the following definitions apply:

“Assault of a dependent adult” means the commission of any act which is generally intended to cause pain or injury to a dependent adult, or which is generally intended to result in physical contact which would be considered by a reasonable person to be insulting or offensive or any act which is intended to place another in fear of immediate physical contact which will be painful, injurious, insulting, or offensive, coupled with the apparent ability to execute the act.

“Caretaker” means a person who is a staff member of a facility or program who provides care, protection, or services to a dependent adult voluntarily, by contract, through employment, or by order of the court. For the purpose of an allegation of exploitation, if the caretaker-dependent adult relationship started when a staff member was employed in the facility, the staff member may be considered a caretaker after employment is terminated.

“Confidentiality” means the withholding of information from any manner of communication, public or private.

“Court” means the district court.

“Department” means the department of inspections and appeals.

“Dependent adult” means a person 18 years of age or older whose ability to perform the normal activities of daily living or to provide for the person’s own care or protection is impaired, either temporarily or permanently.

“Dependent adult abuse” means any of the following as a result of the willful misconduct or gross negligence or reckless act or omission of a caretaker, taking into account the totality of the circumstances: physical injury, unreasonable confinement, unreasonable punishment, assault, sexual offense, sexual exploitation, exploitation, or neglect. “Dependent adult abuse” does not include any of the following:

1. Circumstances in which the dependent adult declines medical treatment if the dependent adult holds a belief or is an adherent of a religion whose tenets and practices call for reliance on spiritual means in place of reliance on medical treatment.
2. Circumstances in which the dependent adult’s caretaker, acting in accordance with the dependent adult’s stated or implied consent, declines medical treatment or care.
3. The withholding or withdrawing of health care from a dependent adult who is terminally ill in the opinion of a licensed physician, when the withholding or withdrawing of health care is done at the request of the dependent adult or at the request of the dependent adult’s next of kin, attorney in fact, or guardian pursuant to the applicable procedures under Iowa Code chapter 125, 144A, 144B, 222, 229, or 633.

“Exploitation” means a caretaker who knowingly obtains, uses, endeavors to obtain to use, or who misappropriates, a dependent adult’s funds, assets, medications, or property with the intent to temporarily or permanently deprive a dependent adult of the use, benefit, or possession of the funds, assets, medication, or property for the benefit of someone other than the dependent adult.

“Facility” means a health care facility as defined in Iowa Code section 135C.1 or a hospital as defined in Iowa Code section 135B.1.

“Gross negligence” means an act or omission that signifies more than ordinary inadvertence or inattention, but less than conscious indifference to consequences; and, in other words, means an extreme departure from the ordinary standard of care.

“Immediately,” for purposes of mandatory reporters’ reporting of suspected dependent adult abuse, means within 24 hours.

“Inspector” means a surveyor, monitor or investigator with the department or any department designee.

“Intimate relationship” means a significant romantic involvement between two persons that need not include sexual involvement, but does not include a casual social relationship or association in a business or professional capacity. In determining whether persons are in an intimate relationship, the following nonexclusive list of factors may be considered:

1. The duration of the relationship,
2. The frequency of interaction,
3. Whether the relationship has been terminated, and
4. The nature of the relationship, characterized by either person's expectation of sexual or romantic involvement.

"Misappropriates" means taking unfair advantage of or wrongfully or dishonestly exercising control over property.

"Neglect of a dependent adult" means the deprivation of the minimum food, shelter, clothing, supervision, physical or mental health care, or other care necessary to maintain a dependent adult's life or physical or mental health.

"Person" means person as defined in Iowa Code section 4.1.

"Physical injury" means a physical injury, or injury which is at a variance with the history given of the injury, which involves a breach of skill or care or learning ordinarily exercised by a caretaker in similar circumstances. "Physical injury" includes damage to any bodily tissue to the extent that the tissue must undergo a healing process in order to be restored to a sound and healthy condition, damage to any bodily tissue to the extent that the tissue cannot be restored to a sound and healthy condition, or damage to any bodily tissue which results in the death of the person who has sustained the damage.

"Program" means an elder group home as defined in Iowa Code section 231B.1, an assisted living program certified under Iowa Code section 231C.3, or an adult day services program as defined in Iowa Code section 231D.1.

"Recklessly" means that a person acts or fails to act with respect to a material element of a public offense, when the person is aware of and consciously disregards a substantial and unjustifiable risk that the material element exists or will result from the act or omission. The risk must be of such a nature and degree that disregard of the risk constitutes a gross deviation from the standard conduct that a reasonable person would observe in the situation.

"Registry" means the central registry for dependent adult abuse information established in Iowa Code section 235B.5.

"Report" means a verbal or written statement, made to the department, which alleges that dependent adult abuse has occurred.

"Resident" means a resident of a health care facility as defined in Iowa Code chapter 135C, a patient in a hospital as defined in Iowa Code chapter 135B, a tenant of an assisted living program as defined in Iowa Code chapter 231C, a tenant in an elder group home as defined in Iowa Code chapter 231B, or a participant in an adult day services program as defined in Iowa Code chapter 231D.

"Sexual exploitation" means any consensual or nonconsensual sexual conduct with a dependent adult by a caretaker whether within a facility or program or at a location outside of a facility or program. "Sexual exploitation" includes but is not limited to:

1. Kissing;
2. Touching of the clothed or unclothed breast, groin, buttock, anus, pubes, or genitals;
3. A sex act as defined in Iowa Code section 702.17;
4. The transmission, display or taking of electronic images of the unclothed breast, groin, buttock, anus, pubes, or genitals of a dependent adult by a caretaker for a purpose not related to treatment, care, monitoring, assessment or diagnosis or as part of an ongoing investigation.

"Sexual exploitation" does not include touching which is part of a necessary examination, treatment, or care by a caretaker acting within the scope of the practice or employment of the caretaker; the exchange of a brief touch or hug between the dependent adult and a caretaker for the purpose of reassurance, comfort, or casual friendship; or touching between spouses or domestic partners in an intimate relationship.

"Sexual offense" means the commission of a sexual offense under Iowa Code chapter 709 or Iowa Code section 726.2 with or against a dependent adult.

"Staff member" means an individual who provides direct or indirect treatment or services to residents in a facility or program. CHAPTER 56
FINING AND CITATIONS
[Prior to 7/15/87, Health Department[470] Ch 56]

481—56.1(135C) Authority for citations. Pursuant to the authority vested in the director of the department of inspections and appeals to issue citations and assess penalties for violations of the statutes or departmental rules relating to the health care facilities, the following rules indicate the method by which citations may be issued when a particular statute or departmental rule is violated by a facility.

481—56.2(135C) Classification of violations—classes. There are three classifications for violations of statutes or departmental rules which may result in the issuance of a citation by the director of inspections and appeals and the assessment of a penalty therefor.

56.2(1) Class I. A class I violation is one which presents an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility in which the violation occurs. A physical condition or one or more practices in a facility may constitute a class I violation;

56.2(2) Class II. A class II violation is one that has a direct or immediate relationship to the health, safety, or security of residents of a health care facility, but which presents no imminent danger nor substantial probability of death or physical harm to them. A physical condition or one or more practices within a facility, including either physical abuse of any resident or failure to treat any resident with consideration, respect, and full recognition of the resident's dignity and individuality, in violation of a specific rule adopted by the department, may constitute a class II violation;

56.2(3) Class III. A class III violation is one which is not classifiable in the department's rules nor classifiable under the criteria stated in those rules as a class I or class II violation.

481—56.3(135C) Fines. Citations which are issued by the director of the department of inspections and appeals for violations of the statutes or rules relating to health care facilities will subject the facility to the following penalties.

56.3(1) Citation for a class I violation. The penalty shall not be less than \$2,000 nor more than \$10,000. The penalty for a class I violation shall be doubled when the violation is due to an intentional act by the facility in violation of a provision of Iowa Code chapter 135C or a rule adopted pursuant thereto.

56.3(2) Citation for a class II violation. The penalty shall not be less than \$100 nor more than \$500. Using the criteria established in paragraph 56.3(2) "a," the director of the department of inspections and appeals may, upon written request, waive the penalty if the class II violation is corrected within the time specified in the citation. The director shall not waive penalties related to the items listed in subrule 56.3(4).

a. Criteria for waiving the penalty for a class II violation. The director shall consider the following criteria, among others, when deciding whether to grant a waiver of a class II penalty.

(1) The past history of the facility within the last 24 months of the violation as it relates to the nature of the violation;

(2) The rights of residents to make informed decisions with their doctor(s) and family/legal representative(s); and

(3) The financial hardship the fine will cause the facility.

b. Process for requesting a waiver of the penalty for a class II violation.

(1) A facility shall submit documentation that supports the waiver request.

(2) If the facility has requested a waiver based on financial hardship, the facility must provide proof of the hardship for the individual facility, along with the parent corporation, if any. Supporting documentation shall, at minimum, include the facility's, and the parent corporation's, if any, most recent profit and loss statement and balance sheet.

(3) Requests for a waiver shall be submitted within ten working days of receipt by the facility of the notice that the violation has been corrected.

(4) The department shall make a decision on the waiver request or request additional information, if necessary, within ten working days of receipt of a waiver request and shall notify the facility in writing of the department's determination by personal service, by electronic mail, or by certified mail. If additional information is requested, such information shall be provided by the facility within five working days. If additional information is necessary, the department shall make a decision on the waiver request within ten working days of receipt of the additional information requested by the department.

(5) If the waiver request is granted and the facility has paid the penalty, the facility shall be refunded the amount of the penalty paid that was subject to the approved waiver request.

c. Denial of penalty waiver request for a class II violation. The director's decision to deny a waiver request is not subject to appeal. The underlying citation or state statement of deficiencies is eligible for appeal.

56.3(3) *Citation for a class III violation.* No penalty shall be assessed for a class III violation except as provided in rule 481—56.5(135C).

56.3(4) *Self-identification and correction of a class II or class III violation prior to the on-site inspection.* If a facility self-identifies a deficient practice prior to the on-site visit inspection, there has been no complaint filed with the department related to that specific deficient practice, and the facility corrects such practice prior to an inspection, no citation shall be issued or fine assessed for class II or III violations except for those penalties arising pursuant to paragraphs "a" to "f":

g. Process for documenting self-identification. If, during the inspection, an area of concern is identified to the facility that was self-identified and corrected by the facility prior to the inspection, no complaint has been filed, and the violation does not fall in the exemptions listed in 481—paragraphs 56.3(4) “a” to “f,” the facility shall complete a “Self-Identification and Correction Form” and submit it to the inspector(s) prior to the conclusion of the inspection, or to the department within two working days of the exit interview via E-mail, facsimile, or overnight courier. The documentation shall include:

- (1) The nature of the problem;
- (2) The date the problem was identified;

a. If the federal deficiency is dismissed or removed during the federal informal dispute resolution process, the department shall remove any corresponding state fine, citation or deficiency within 20 working days of issuance of the decision.

b. If the federal deficiency is dismissed or removed at the conclusion of the federal administrative hearing process, the facility shall submit to the department a copy of the decision, along with a written request for the removal of the corresponding state fine, citation, or deficiency.

56.3(6) *Reduction of fine amount by 35 percent.* If a facility has been assessed a penalty, does not request a formal hearing pursuant to Iowa Code section 135C.43 and rule 481—56.17(135C), or withdraws its request for a formal hearing within 30 days of the date that the penalty was assessed, and the penalty is paid within 30 days of receipt of notice or service, the amount of the civil penalty shall be reduced by 35 percent.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.4(135C) Time for compliance. Citations which are issued by the director of the department of inspections and appeals for violations of the statutes or rules related to health care facilities shall specify the length of time permitted for the violation to be abated or eliminated, as follows:

56.4(1) *Citation for a class I violation:* The violation shall be abated or eliminated immediately, unless the department determines that a stated period of time, specified in the citation, is required to correct the violation;

56.4(2) *Citation for a class II violation:* The violation shall be corrected within a stated period of time determined by the department and specified in the citation. The stated period of time specified in the citation may subsequently be modified by the department for good cause shown;

481—56.5(135C) Failure to correct a violation within the time specified—penalty. 481—56.6(135C) Treble and double fines.

56.6(1) *Treble fines for repeated violations.* The director of the department of inspections and appeals shall treble the penalties specified in rule 481—56.3(135C) for any second or subsequent class I or class II violation occurring within any 12-month period, if a citation was issued for the same class I or class II violation occurring within that period and a penalty was assessed therefor.

56.6(2) *Double fines for intentional class I violations.* The director of the department of inspections and appeals shall double the penalties specified in subrule 56.3(1) when the violation is due to an intentional act by the facility in violation of a provision of Iowa Code chapter 135C or rule adopted pursuant thereto.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.7(135C) Notation of classes of violations. All rules relating to health care facilities, other than those which are informational in character, shall be followed by a notation at the end of each rule, or pertinent part thereof. This notation shall consist of a Roman numeral or numerals in parentheses. These Roman numerals refer to the class (either class I, class II, or class III) of violation which may be cited by the commissioner when that rule, or part of a rule carrying the notation is violated by the facility.

481—56.8(135C) Notation for more than one class of violation. In those instances where a particular rule, or part of a rule is followed by a notation consisting of more than one Roman numeral in parentheses, at the discretion of the director of the department of inspections and appeals, the director may issue a citation for a violation of that rule, or part thereof, designating any one of the multiple classes of violations specified in the notation.

481—56.9(135C) Factors determining selection of class of violation. In determining which class of violation will be designated in the citation, where more than one class is specified in the notation following the rule, the director of the department of inspections and appeals shall consider evidence of the circumstances surrounding the violation, including, but not limited to, the following factors:

56.9(1) The frequency and length of time the violation occurred, i.e., whether the violation was an isolated or a widespread occurrence, practice, or condition;

56.9(2) The past history of the facility within 24 months of the violation as it relates to the nature of the violation;

56.9(3) The culpability of the facility as it relates to the reasons the violation occurred;

56.9(4) The extent of any harm to the residents or the effect on the health, safety, or security of the residents which resulted from the violation;

56.9(5) The relationship of the violation to any other types of violations which have occurred in the facility;

56.9(6) The actions of the facility after the occurrence of the violation, including when corrective measures, if any, were implemented and whether the facility notified the director as required;

56.9(7) The accuracy and extent of records kept by the facility which relate to the violation, and the availability of such records to the department;

56.9(8) The rights of residents to make informed decisions with their doctor(s) and family/legal representative(s); and

56.9(9) Whether the facility made a good-faith effort to address a high-risk resident’s specific needs, and whether the evidence substantiates this effort.

481—56.10(135C) Factors determining imposition of citation and fine. The director of the department of inspections and appeals may consider evidence of the circumstances surrounding the violation including, but not limited to, those factors set out in rule 481—56.9(135C) when:

1. Determining whether a violation will be subject to a fine or citation; and
2. Determining the monetary amount of the penalty to be specified in the citation, when such a fine is authorized to be levied for a particular class of violation.

481—56.11(135C) Class I violation not specified in the rules. The director of the department of inspections and appeals may issue a citation for a class I violation when a physical condition or one or more practices exist in a facility which are not in violation of a specific statute or rule, but which constitute an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility.

481—56.12(135C) Class I violation as a result of multiple lesser violations. The director of the department of inspections and appeals may issue a citation for a class I violation when a physical condition or one or more practices exist in a facility which are a result of multiple lesser violations of the statutes or rules, but which taken as a whole constitute an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility.

481—56.13(135C) Form of citations. Each citation issued by the director of the department of inspections and appeals shall contain the following information:

56.13(1) A description of the nature of the violation;

56.13(2) A statement of the Code section or subsection or the rule or standard violated. (In the case of class I violations as described in 481—56.11(135C), a statement of the specific physical condition or one or more practices may be made in lieu of this statement.);

56.13(3) A statement of the classification of the violation, as specified in 481—56.2(135C);

56.13(4) When appropriate, a statement of the period of time allowed for correction of the violation, which shall in each case be the shortest period of time the department deems feasible; and

56.13(5) A statement that the fine may be reduced by 35 percent pursuant to Iowa Code section 135C.43A and subrule 56.3(6).

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.14(135C) Licensee's response to a citation. Within 20 business days after service of a citation, the facility shall respond in the following manner, according to the type of citation issued.

56.14(1) If the facility does not desire to seek an informal conference or contest the citation, the facility shall remit to the department of inspections and appeals the amount specified by the department of inspections and appeals in the citation unless:

a. The violation was issued in conjunction with a federal civil money penalty, and the department holds the fine issued pursuant to this chapter in abeyance pursuant to Iowa Code section 249A.19, or

b. The class II violation for which the penalty was imposed has been waived pursuant to subrule 56.3(2).

56.14(2) For each class II or class III violation, the facility shall send a written response to the department of inspections and appeals, acknowledging that the citation has been received and stating that the violation will be corrected within the specified period of time allowed by the citation.

56.14(3) If the facility desires to contest a citation for a class I, class II or class III violation, the facility shall notify the director of the department of inspections and appeals in writing that it desires to contest such citation and request in writing an informal conference with a representative of the department of inspections and appeals.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.15(135C) Procedure for facility after informal conference. After the conclusion of an informal conference requested by the licensee and provided pursuant to 56.14(3):

56.15(1) If the facility does not desire to further contest an affirmed or modified citation for a class I, class II or class III violation, the facility shall, within five working days after the informal conference, or within five working days after receipt of the written decision and explanation of the department of

inspections and appeals' representative at the informal conference, whichever occurs later, comply with the provisions of subrule 56.14(1).

56.15(2) If the facility does desire to further contest an affirmed or modified citation for a class I, class II or class III violation, the facility shall, within five working days after the informal conference, or within five working days after receipt of the written decision and explanation of the department of inspections and appeals' representative at the informal conference, as the case may be, notify the department of inspections and appeals in writing of the facility's intent to formally contest the citation.
[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.16(135C) Contesting a citation for a class I violation. Rescinded IAB 12/30/09, effective 2/3/10.

481—56.17(135C) Formal contest. The procedures for contested cases, as set out in Iowa Code chapter 17A, and the rules adopted by the department of inspections and appeals shall be followed in all cases where proper notice has been made to the department of inspections and appeals of the intent to formally contest any citation.

These rules are intended to implement Iowa Code chapters 10A and 135C.

you may request a hearing in writing or verbally with the Iowa state department of inspections and appeals (hereinafter referred to as “department”) within seven days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. Provision may be made for extension of the 14-day requirement upon request to the department of inspections and appeals designee in emergency circumstances. If you lose the hearing, you will not be transferred before the expiration of 30 days following receipt of the original notice of the discharge or transfer, or no sooner than 5 days following final decision of such hearing. To request a hearing or receive further information, call the department at (515)281-4115 or you may write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.” (II)

g. The hearing shall be heard by a department of inspections and appeals designee pursuant to Iowa Code chapter 17A. (The hearing shall be public unless the resident or representative requests in writing that it be closed.) The licensee or designee shall have the opportunity to present to the representative of the department any oral testimony or written materials to show by a preponderance of the evidence just cause why a transfer or discharge may be made. The resident and responsible party shall also have an opportunity to present to the representative of the department any oral testimony or written material to show just cause why a transfer or discharge should not be made. In a determination as to whether a transfer or discharge is authorized, the burden of proof rests on the party requesting the transfer or discharge.

h. Based upon all testimony and material submitted to the representative of the department, the representative shall issue, in accordance with Iowa Code chapter 17A, written findings of fact and conclusions of law and issue a decision and order in respect to the adverse action. This decision shall be mailed by certified mail to the licensee, resident, responsible party, and department on aging long-term care ombudsman within 10 working days after the hearing has been concluded. The representative shall have the power to issue fines and citations against the facility in appropriate circumstances.

A copy shall also be transmitted to the department, the resident’s responsible party, physician, the person or agency responsible for the resident’s placement, maintenance, and care in the facility, and the department on aging long-term care ombudsman.

k. The involuntary transfer or discharge shall be discussed with the resident, the resident’s responsible party, and the person or agency responsible for the resident’s placement, maintenance, and

care in the facility within 48 hours after notice of discharge has been received. The content of the discussion and explanation shall be summarized in writing and shall include the names of the individuals involved in the discussions and made a part of the resident's record. (II)

57.46(1) The facility shall provide for needed privacy in visits between spouses. (II)

57.46(2) Spouses who are residents in the same facility shall be permitted to share a room, if available, unless one of their attending physicians documents in the medical record those specific reasons why such an arrangement would have an adverse effect on the health of the resident. (II)

This subrule is not intended to limit the authority of any individual acting pursuant to Iowa Code chapter 144A. (II)

57.48(2) The fact that a resident has been adjudicated incompetent does not absolve the facility from advising the resident of these rights to the extent the resident is able to understand them. The facility shall also advise the responsible party, if any, and acquire a statement indicating an understanding of residents' rights. (II)

481—57.49(135C) County care facilities. In addition to Chapter 57 licensing rules, county care facilities licensed as residential care facilities must also comply with department of human services rules, 441—Chapter 37. 481—57.50(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the same physical structure of the facility, if the other business or activity is under the control of and is directly related to and incidental to the operation of the health care facility, or the business or activity is approved by the department and the state fire marshal.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs "a" through "j" of this rule. (I, II, III)

57.50(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

- i. Facility layout and design; and
- j. Parking area utilized by the business or activity.

57.50(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

57.50(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules and 481—Chapter 60. (I, II, III)

57.51(1) A residential care facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements under 481—57.14(135C), except the requirements under subrule 57.14(7).

57.51(4) Respite care services shall not be provided by a health care facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

¹ Effective date of 470—57.15(2) “a” and “b” delayed until the expiration of 45 calendar days into the 1987 session of the General Assembly pursuant to Iowa Code section 17A.8(9), IAB 6/4/86.

² See IAB, Inspections and Appeals Department.

³ Effective date of 481—57.12(2) “a,” last paragraph, delayed 70 days by the Administrative Rules Review Committee at its meeting held July 8, 1993.

OBJECTION

At its February 13 meeting the Administrative Rules Review Committee voted the following objection: [Subrules 57.23(2)“b,” 58.26(2)“b,” 59.31(2)“b,” 63.21(3)“b,” published IAB 12/13/78]

The committee objects to the amendments to 470* IAC 57.23(2)“b,” 58.26(2)“b,” 59.31(2)“b” and 63.21(3)“b,” which strike the phrase “Twenty-five percent of the staffing may be provided by qualified volunteers. The time shall be spent in working with the organized program activity.”, on the grounds these provisions are unreasonable. It is the understanding of the committee these deletions in effect require facilities to employ a person to coordinate recreation activities. It is the feeling of the committee this would result in higher per bed costs without demonstrably improving the services rendered to the patient. Volunteers have always played a major role in health care institutions, and no evidence has been submitted indicating a decline in that role or in public interest in donating time and energy.

These amendments appear in the 12-13-78 IAB, and have been filed under the emergency provisions of chapter 17A, 1979 Code.

481—58.40(135C) Involuntary discharge or transfer.

58.40(1) A facility shall not involuntarily discharge or transfer a resident from a facility except: for medical reasons; for the resident's welfare or that of other residents; for nonpayment for the resident's stay (as contained in the contract for the resident's stay), except as prohibited by Title XIX of the Social Security Act, 42 U.S.C. 1396 to 1396k by reason of action pursuant to Iowa Code chapter 229; by reason of negative action by the Iowa department of social services; and by reason of negative action by the professional standards review organization. A resident shall not be transferred or discharged solely because the cost of the resident's care is being paid under Iowa Code chapter 249A, or because the resident's source of payment is changing from private support to payment under chapter 249A. (I, II)

a. "Medical reasons" for transfer or discharge are based on the resident's needs and are determined and documented in the resident's record by the attending physician. Transfer or discharge may be required to provide a different level of care. In the case of transfer or discharge for the reason that the resident's condition has improved such that the resident no longer needs the level of care being provided by the facility, the determination that such medical reason exists is the exclusive province of the professional standards review organization or utilization review process in effect for residents whose care is paid in full or in part by Title XIX. (II)

b. "Welfare" of a resident or that of other residents refers to their social, emotional, or physical well-being. A resident might be transferred or discharged because the resident's behavior poses a continuing threat to the resident (e.g., suicidal) or to the well-being of other residents or staff (e.g., the resident's behavior is incompatible with the resident's needs and rights). Evidence that the resident's continued presence in the facility would adversely affect the resident's own welfare or that of other residents shall be made by the administrator or designee and shall be in writing and shall include specific information to support this determination.

c. Involuntary transfer or discharge of a resident from a facility shall be preceded by a written notice to the resident or responsible party at least 30 days in advance of the proposed transfer or discharge. The 30-day requirement shall not apply in any of the following instances:

(1) If an emergency transfer or discharge is mandated by the resident's health care needs and is in accord with the written orders and medical justification of the attending physician. Emergency transfers or discharges may also be mandated to protect the health, safety, or well-being of other residents and staff from the resident being transferred. (II)

(2) If the transfer or discharge is subsequently agreed to by the resident or the resident's responsible party, and notification is given to the responsible party, physician, and the person or agency responsible for the resident's placement, maintenance, and care in the facility.

(3) If the discharge or transfer is the result of a final, nonappealable decision by the department of social services or the professional standards review organization.

d. The notice required by paragraph “c” shall contain all of the following information:

(1) The stated reason for the proposed transfer or discharge. (II)

(2) The effective date of the proposed transfer or discharge. (II)

(3) A statement in not less than 12-point type (elite), which reads: “You have a right to appeal the facility’s decision to transfer or discharge you. If you think you should not have to leave this facility, you may request a hearing in writing or verbally with the Iowa state department of inspections and appeals (hereinafter referred to as “department”) within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department and you will not be transferred prior to a final decision. Provision may be made for extension of the 14-day requirement upon request to the department of inspections and appeals designee in emergency circumstances. If you lose the hearing, you will not be transferred before the expiration of 30 days following receipt of the original notice of the discharge or transfer, or no sooner than 5 days following final decision of such hearing. To request a hearing or receive further information, call the department at (515)281-4115 or you may write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.” (II)

b. Safety policies and procedures which state the actions to be taken by staff in the event of a fire, natural disaster, emergency medical or catastrophic event. Safety procedures shall also explain steps to be taken when a resident is discovered to be missing from the unit or facility and when hazardous cleaning materials or potentially dangerous mechanical equipment is being used in the unit or facility. The facility shall identify its method for security of the unit or facility and the manner in which the effectiveness of the security system will be monitored. (II, III)

c. Program and service policies and procedures which explain programs and services offered in the unit or facility including the rationale. (III)

d. Policies and procedures concerning staff which state minimum numbers, types and qualifications of staff in the unit or facility. (II, III)

e. Policies about visiting which suggest times and ensure the residents' rights to free access to visitors. (II, III)

f. Quality assurance policies and procedures which list the process and criteria which will be used to monitor and to respond to risks specific to the residents. This shall include, but not be limited to, drug use, restraint use, infections, incidents and acute behavioral events. (II, III)

58.54(5) Preadmission assessment of physical, mental, social and behavioral status shall be completed to determine whether the applicant meets admission criteria. This assessment shall be completed by a registered nurse and a staff social worker or social work consultant and shall become part of the permanent record upon admission of the resident. (II, III)

58.54(6) All staff working in a CCDI unit or facility shall have training appropriate to the needs of the residents. (II, III)

a. Upon assignment to the unit or facility, everyone working in the unit or facility shall be oriented to the needs of people with chronic confusion or dementing illnesses. They shall have special training

appropriate to their job description within 30 days of assignment to the unit or facility. (II, III) The orientation shall be at least six hours. The following topics shall be covered:

- (1) Explanation of the disease or disorder; (II, III)
- (2) Symptoms and behaviors of memory-impaired people; (II, III)
- (3) Progression of the disease; (II, III)
- (4) Communication with CCDI residents; (II, III)
- (5) Adjustment to care facility residency by the CCDI unit or facility residents and their families; (II, III)
- (6) Inappropriate and problem behavior of CCDI unit or facility residents and how to deal with it; (II, III)
- (7) Activities of daily living for CCDI residents; (II, III)
- (8) Handling combative behavior; (II, III) and
- (9) Stress reduction for staff and residents. (II, III)

b. Licensed nurses, certified aides, certified medication aides, social services personnel, housekeeping and activity personnel shall have a minimum of six hours of in-service training annually. This training shall be related to the needs of CCDI residents. The six-hour training shall count toward the required annual in-service training. (II, III)

58.54(7) There shall be at least one nursing staff person on a CCDI unit at all times. (I, II, III)

58.54(8) The CCDI unit or facility license may be revoked, suspended or denied pursuant to Iowa Code chapter 135C and Iowa Administrative Code 481—Chapter 50.

This rule is intended to implement 1990 Iowa Acts, chapter 1016.

481—58.55(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the physical structure of the facility, if the other business or activity meets the requirements of applicable state and federal laws, administrative rules, and federal regulations.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs “a” through “f” of subrule 58.55(1). (I, II, III)

58.55(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

- a. Health and safety risks for residents;
- b. Noise created by the proposed business or activity;
- c. Odors created by the proposed business or activity;
- d. Use of the facility’s corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- e. Proposed staffing for the business or activity; and
- f. Sharing of services and staff between the proposed business or activity and the facility.

58.55(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

58.55(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules and 481—Chapter 61. (I, II, III)

481—58.56(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A nursing facility which chooses to provide respite care services must meet the following requirements related to respite services and must be licensed as a nursing facility.

58.56(1) A nursing facility certified as a Medicaid nursing facility or Medicare skilled nursing facility must meet all Medicaid and Medicare requirements including CFR 483.12, admission, transfer and discharge rights.

58.56(2) A nursing facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

58.56(3) Rule 481—58.40(135C) regarding involuntary discharge or transfer rights, does not apply to residents who are being cared for under a respite care contract.

58.56(4) Pursuant to rule 481—58.13(135C), the facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements under 481—58.13(135C), except the requirements under subrule 58.13(7).

58.56(5) Respite care services shall not be provided by a health care facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

481—58.57(135C) Training of inspectors.

58.57(1) Subject to the availability of funding, all nursing facility inspectors shall receive 12 hours of annual continuing education in gerontology, wound care, dementia, falls, or a combination of these subjects.

58.57(2) An inspector shall not be personally liable for financing the training required under subrule 58.57(1).

58.57(3) The department shall consult with the collective bargaining representative of the inspector in regard to the training required under this rule.

CHAPTER 59
TUBERCULOSIS (TB) SCREENING

481—59.1(135B,135C) Purpose. The intent of this chapter is to outline requirements and procedures to conduct tuberculosis screening for health care workers in health care facilities and hospitals and for residents of health care facilities regulated by the department.

[ARC 0484C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

481—59.2(135B,135C) Definitions. For purposes of this chapter, the following definitions apply:

“*Bacille Calmette-Guérin (BCG) vaccination*” means a vaccine for TB. BCG is used in many countries with a high prevalence of TB to prevent childhood tuberculosis meningitis and military disease. BCG is not generally recommended for use in the United States because of the low risk of infection with *Mycobacterium tuberculosis*, the variable effectiveness of the vaccine against adult pulmonary TB, and the vaccine’s potential interference with tuberculin skin test reactivity.

“*Baseline TB screening*” means the screening of health care workers (HCWs) of health care facilities or hospitals and residents of health care facilities for latent tuberculosis infection (LTBI) and TB disease at the beginning of employment in a facility or hospital, or upon admission to a facility. Baseline TB screening includes a symptom screen for all HCWs and residents, and tuberculin skin tests (TSTs) or interferon-gamma release assay (IGRA) for *Mycobacterium tuberculosis* for those persons with previous negative test results for *M. tuberculosis* infection.

“*Baseline TST*” or “*baseline IGRA*” means the TST or IGRA, respectively, that is administered at the beginning of employment to newly hired HCWs or upon admission to residents of health care facilities.

“*Boosting*” means a phenomenon in which a person has a negative TST (i.e., false-negative) result years after infection with *M. tuberculosis* and then a positive subsequent TST result. The positive TST result is caused by a boosted immune response of previous sensitivity rather than by a new infection (false-positive TST conversion). Two-step testing reduces the likelihood of mistaking a boosted reaction for a new infection.

“*Department*” means the department of inspections and appeals.

“*Employment*” or “*employed*” means hired or retained for paid or unpaid work in a facility or hospital.

“*Extrapulmonary TB*” means TB disease in any part of the body other than the lungs (e.g., kidney, spine, or lymph nodes).

“*Health care facility*” or “*facility*” means a health care facility as defined in Iowa Code section 135C.1 or a long-term care service of a hospital as defined in rule 481—51.38(135B).

“*Health care worker*” or “*HCW*” means any paid or unpaid person working in a health care facility or hospital, including any person who is paid either by the health care facility or hospital, or paid by any other entity (i.e., temporary agency, private duty, Medicaid/Medicare or independent contractors), or any volunteer who volunteers in a health care facility or hospital on a consistent and regularly scheduled basis for five or more hours per week. Specifically excluded from the definition of “health care worker” are individuals such as visitors, building contractors, repair workers or others who are in the facility or hospital for a very limited purpose and are not in the facility or hospital on a regular basis.

“*Hospital*” means a hospital as defined in Iowa Code section 135B.1.

“*Interferon-gamma release assay*” or “*IGRA*” means whole-blood tests that can aid in diagnosing *Mycobacterium tuberculosis* infection.

“*Laryngeal TB*” means a form of TB disease that involves the larynx and may be highly infectious.

“*Latent TB infection*” or “*LTBI*” means infection with *M. tuberculosis* without symptoms or signs of disease having manifested.

“*Mantoux method*” means a skin test performed by intradermally injecting 0.1 mL of purified protein derivative (PPD) tuberculin solution into the volar or dorsal surface of the forearm.

“*Patient*” means a person admitted to a hospital.

“*Pulmonary TB*” means TB disease that occurs in the lung parenchyma, usually producing a cough that lasts greater than three weeks. Pulmonary TB is usually infectious.

“*Purified protein derivative (PPD) tuberculin*” means a material used in diagnostic tests for detecting infection with *M. tuberculosis*.

“*Resident*” means a person admitted to a health care facility or a long-term care service of a hospital as defined in rule 481—51.38(135B). For purposes of this chapter, “resident” does not include a patient admitted to a hospital.

“*Risk classification*” means the category the infection control team, or designated other staff, determines is appropriate for the facility or hospital as a result of the TB risk assessment.

“*Serial screening*” refers to TB screening performed at regular intervals following baseline TB screening. Serial TB screening, also called annual or ongoing TB testing, consists of two components: (1) assessing for current symptoms of active TB disease, and (2) testing for the presence of infection with *M. tuberculosis* by administering either a TST or single IGRA.

“*Symptom screen*” means a procedure used during a clinical evaluation in which persons are asked if they have experienced any departure from normal in function, appearance, or sensation related to TB disease (e.g., cough).

“*TB patient*” means a person who had undiagnosed infectious pulmonary or laryngeal TB while in a health care facility or hospital during the preceding year. “TB patient” does not include persons with LTBI (treated or untreated), extrapulmonary TB disease, pulmonary, or laryngeal TB that have met criteria for noninfectiousness.

“*TB risk assessment*” means an initial and ongoing evaluation of the risk for transmission of *M. tuberculosis* in a particular health care setting.

“*TB screening*” means an administrative control measure in which evaluation for LTBI and TB disease is performed through baseline and serial screening of HCWs in hospitals and health care facilities and residents of health care facilities.

“*TB screening plan*” means a plan that health care facilities and hospitals develop and implement that comprises four major components: (1) baseline testing for *M. tuberculosis* infection, (2) serial testing for *M. tuberculosis* infection, (3) serial screening for signs or symptoms of TB disease, and (4) TB training and education.

“*Treatment for LTBI*” means treatment that prevents the progression of *M. tuberculosis* infection into TB disease.

“*Tuberculin skin test*” or “*TST*” means a diagnostic aid for finding *M. tuberculosis* infection. The Mantoux method is the recommended method to be used for TST.

“*Tuberculosis*” or “*TB*” means the namesake member organism of *M. tuberculosis* complex and the most common causative infectious agent of TB disease in humans. In certain instances, the species name refers to the entire *M. tuberculosis* complex, which includes *M. bovis* and *M. african*, *M. microti*, *M. canetti*, *M. caprae*, and *M. pinnipedii*.

“*Tuberculosis disease*” or “*TB disease*” means a condition caused by infection with a member of the *M. tuberculosis* complex that has progressed to causing clinical (manifesting symptoms or signs) or subclinical (early stage of disease in which signs or symptoms are not present, but other indications of disease activity are present) illness.

“*Two-step tuberculin skin test*” or “*two-step TST*” means the procedure used for the baseline skin testing of persons who will receive serial TSTs to reduce the likelihood of mistaking a boosted reaction for a new infection.

[ARC 0484C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter; ARC 0674C, IAB 4/3/13, effective 3/26/13; ARC 0761C, IAB 5/29/13, effective 7/3/13]

481—59.3(135B,135C) TB risk assessment.

59.3(1) Annually, a health care facility or hospital shall conduct a TB risk assessment to evaluate the risk for transmission of *M. tuberculosis*, regardless of whether a person with suspected or confirmed TB disease is expected to be encountered in the facility or hospital. The TB risk assessment shall be utilized to determine the types of administrative, environmental, and respiratory protection controls needed and

serves as an ongoing evaluation tool of the quality of TB infection control and for the identification of needed improvements in infection control measures.

59.3(2) The TB risk assessment shall include:

- a. The community rate of TB,
- b. The number of persons with infectious TB encountered in the facility or hospital, and
- c. The speed with which persons with infectious TB disease are suspected, isolated, and evaluated to determine if persons with infectious TB exposed staff or others in the facility or hospital. TB cases include persons who had undiagnosed infectious pulmonary or laryngeal TB while in the facility or hospital during the preceding year. This does not include persons with LTBI (treated or untreated), persons with extrapulmonary TB disease, or persons with pulmonary and laryngeal TB that have met criteria for noninfectiousness.

[ARC 0484C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

481—59.4(135B,135C) Health care facility or hospital risk classification. The infection control team or designated staff in a health care facility or hospital is responsible for determining the type of risk classification. The facility or hospital risk classification is used to determine frequency of TB screening. The facility or hospital risk classification may change due to an increase or decrease in the number of TB cases during the preceding year. The following criteria are consistent with those of the Centers for Disease Control and Prevention (CDC), TB Elimination Division, as outlined in the MMWR December 30, 2005/Vol.54/No.RR-17, “Guidelines for Preventing the Transmission of *Mycobacterium tuberculosis* in Health-Care Settings, 2005.”

59.4(1) *Types of risk classifications.*

- a. “Low risk” means that a facility or hospital is one in which persons with active TB disease are not expected to be encountered and in which exposure to TB is unlikely.
- b. “Medium risk” means that a facility or hospital is one in which health care workers will or might be exposed to persons with active TB disease or to clinical specimens that might contain *M. tuberculosis*.
- c. “Potential ongoing transmission” means that a facility or hospital is one in which there is evidence of person-to-person transmission of *M. tuberculosis*. This classification is a temporary classification. If it is determined that this classification applies to a facility or hospital, the facility or hospital shall consult with the department of public health’s TB control program.

59.4(2) *Classification criteria—low risk.*

- a. Inpatient settings with 200 beds or more: If a facility or hospital has fewer than six TB patients for the preceding year, the facility or hospital shall be classified as low risk.
- b. Inpatient settings with fewer than 200 beds: If a facility or hospital has fewer than three TB patients for the preceding year, the facility or hospital shall be classified as low risk.

59.4(3) *Classification criteria—medium risk.*

- a. Inpatient settings with 200 beds or more: If a facility or hospital has six or more TB patients for the preceding year, the facility or hospital shall be classified as medium risk.
- b. Inpatient settings with fewer than 200 beds: If a facility or hospital has three or more TB patients for the preceding year, the facility or hospital shall be classified as medium risk.

59.4(4) *Classification criteria—potential ongoing transmission.* If evidence of ongoing *M. tuberculosis* transmission exists at a facility or hospital, the facility or hospital shall be classified as potential ongoing transmission, regardless of the facility’s or hospital’s previous classification.

[ARC 0484C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

481—59.5(135B,135C) Baseline TB screening procedures for health care facilities and hospitals.

59.5(1) All HCWs shall receive baseline TB screening upon hire. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) using a two-step TST or a single IGRA to test for infection with *M. tuberculosis*.

59.5(2) An HCW may begin working with patients or residents after a negative TB symptom screen (i.e., no symptoms of active TB disease) and a negative TST (i.e., first step) or negative IGRA. The second TST may be performed after the HCW starts working with patients or residents.

59.5(3) An HCW with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless symptoms or signs of TB disease develop or unless recommended by a clinician. Treatment for LTBI should be considered in accordance with CDC guidelines.

59.5(4) An HCW with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, does not need another chest radiograph at the time of hire.

59.5(5) TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for HCWs with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., interferon-gamma (IFN-g)). All other HCWs should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

59.5(6) A second TST is not needed if the HCW has a documented TST result from any time during the previous 12 months. If a newly employed HCW has had a documented negative TST result within the previous 12 months, a single TST can be administered in the new setting. This additional TST represents the second stage of two-step testing. The second test decreases the possibility that boosting on later testing will lead to incorrect suspicion of transmission of *M. tuberculosis* in the setting.

59.5(7) Previous BCG vaccination is not a contraindication to having an IGRA, a TST or two-step skin testing administered. HCWs with previous BCG vaccination should receive baseline and serial testing in the same manner as those without BCG vaccination. Evaluation of TST reactions in persons vaccinated with BCG should be interpreted using the same criteria for those not BCG-vaccinated. An HCW's history of BCG vaccination should be disregarded when administering and interpreting TST results. Prior BCG vaccination does not cause a false-positive IGRA test result.

481—59.6(135B,135C) Serial TB screening procedures for health care facilities and hospitals.

59.6(1) *Health care facilities or hospitals classified as low risk.* After baseline testing of HCWs for infection with *M. tuberculosis*, additional TB screening of HCWs is not necessary unless an exposure to *M. tuberculosis* occurs.

59.6(2) *Health care facilities or hospitals classified as medium risk.*

a. After undergoing baseline testing for infection with *M. tuberculosis*, HCWs should receive TB screening annually (i.e., symptom screen for all HCWs and testing for infection with *M. tuberculosis* for HCWs with baseline negative test results).

b. HCWs with a baseline positive or new positive test result for *M. tuberculosis* infection or documentation of previous treatment for LTBI or TB disease shall receive one chest radiograph result to exclude TB disease. Instead of participating in serial testing, HCWs should receive a symptom screen annually. This screen should be accomplished by educating HCWs about symptoms of TB disease and instructing HCWs to report any such symptoms immediately to the occupational health unit. Treatment for LTBI should be considered in accordance with CDC guidelines.

59.6(3) *Health care facilities or hospitals classified as potential ongoing transmission.* Testing for infection with *M. tuberculosis* may need to be performed every eight to ten weeks until lapses in infection control have been corrected and no additional evidence of ongoing transmission is apparent. The potential ongoing transmission classification should be used only as a temporary classification. This classification warrants immediate investigation and corrective steps. After a determination that ongoing transmission has ceased, the setting shall be reclassified as medium risk for a minimum of one year.

[ARC 0484C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

481—59.7(135B,135C) Screening of HCWs who transfer to other health care facilities or hospitals.

59.7(1) *HCWs transferring from a low-risk health care facility or hospital to another low-risk health care facility or hospital.* After a baseline result for infection with *M. tuberculosis* is established and

documented, serial testing for *M. tuberculosis* infection is not necessary for HCWs transferring from a low-risk health care facility or hospital to another low-risk health care facility or hospital.

59.7(2) *HCWs transferring from a low-risk health care facility or hospital to a medium-risk health care facility or hospital.* After a baseline result for infection with *M. tuberculosis* is established and documented, annual TB screening, including a symptom screen and TST or IGRA for persons with previously negative test results, should be performed for HCWs transferring from a low-risk health care facility or hospital to a medium-risk health care facility or hospital.

[ARC 0484C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

481—59.8(135B,135C) Baseline TB screening procedures for residents of health care facilities.

59.8(1) TB screening is a formal procedure to evaluate residents for LTBI and TB disease. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) using two-step TST or a single IGRA to test for infection with *M. tuberculosis*.

59.8(2) All residents shall be assessed for current symptoms of active TB disease upon admission. Within 72 hours of a resident's admission, baseline TB testing for infection shall be initiated unless baseline TB testing occurred within three months prior to the resident's admission.

59.8(3) Residents with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless symptoms or signs of TB disease develop or unless recommended by a clinician.

59.8(4) Residents with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, do not need another chest radiograph at the time of admission.

59.8(5) TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for residents with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., IFN-g). All other residents should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

59.8(6) A second TST is not needed if the resident has a documented TST result from any time during the previous 12 months. If a new resident has had a documented negative TST result within the previous 12 months, a single TST can be administered in the new setting. This additional TST represents the second stage of two-step testing. The second test decreases the possibility that boosting on later testing will lead to incorrect suspicion of transmission of *M. tuberculosis* in the health care facility.

481—59.9(135B,135C) Serial TB screening procedures for residents of health care facilities. After baseline TB screening is accomplished, serial TB screening of residents is not recommended.

[ARC 0484C, IAB 12/12/12, effective 1/16/13; see Delay note at end of chapter]

481—59.10(135B,135C) Performance of screening and testing. Any nurse licensed in Iowa and properly trained to screen for TB and perform TB testing may screen for TB and perform TB testing.

CHAPTER 60
MINIMUM PHYSICAL STANDARDS
FOR RESIDENTIAL CARE FACILITIES
[Prior to 7/15/87, Health Department[470] Ch 60]

481—60.1(135C) Definitions. Definitions in 481—57.1(135C) and 481—63.1(135C) of the rules of this department are hereby incorporated by reference as part of this chapter.

481—60.2(135C) Variances. Procedures for variances in 481—57.2(135C) or 481—63.2(135C) of the rules of this department are hereby incorporated by reference as part of this chapter. Certain occupancies, conditions in the area, or the site may make compliance with the rules impractical or impossible. Certain conditions may justify minor modification of the rules. In specific cases, variances to the rules may be permitted by the reviewing authority.

481—60.3(135C) General requirements.

60.3(1) Residential care facilities shall contain the elements described herein and shall be built in accordance with construction requirements outlined. (III)

60.3(2) This chapter covers both new and existing construction. In various sections of the rules specific provisions for existing structures, differing from those for new construction, are provided by a notation at the end of the rule as follows:

a. Exception 1: Rule does not pertain to facilities licensed for less than 16 beds; or units housing fewer than 16 beds which are in distinctly separate buildings, located on a contiguous parcel of land, separated only by a public or private street. (Refer to Iowa Code chapter 414, municipal zoning, section 22, zoning for family homes, for additional information.)

b. Exception 2: Rule does not pertain to facilities licensed before May 1, 1972.

c. Exception 3: Rule does not pertain to facilities with construction plans approved by the department before May 1, 1977.

d. Exception 4: Rule does not pertain to facilities licensed before March 30, 1988.

e. Exception 5: Rule does not pertain to facilities licensed as residential care facilities for eight or fewer beds.

f. Exception 6: Rule does not pertain to facilities built according to plans approved by the department prior to May 6, 1992.

60.3(3) The rules and regulations apply to all residential care facilities and the renovations, additions, functional alterations, or change of space utilization to existing residential care facilities construction after the effective date of these rules. Conversion of a building or any of the parts not currently licensed as a residential care facility must meet the rules governing construction of new residential care facilities. (III)

60.3(4) Building site is subject to departmental approval as based upon the following criteria:

a. Submit a vicinity map indicating the site location and address on an 8½- by 11-inch sheet. If possible, include a city map. (III)

b. Neighborhood environment shall be free from excessive noise, dirt, polluted or odorous air. (III)

c. There shall be an area available for outdoor activities calculated at 40 square feet per licensed bed. (III) (Exception 4) Open air porches may be included in meeting requirements.

d. Each facility shall have on-site parking space to satisfy the needs of residents, employees, staff, and visitors. (III)

The following shall be provided:

(1) In facilities of 16 beds or greater, provide one space for each five beds, plus one space for each shift staff member and employee. (Exception 4)

(2) In facilities of 15 beds or fewer, provide one space for each three beds, plus one space for each shift staff member and employee. (Exception 4)

(3) Handicapped parking as appropriate, or a minimum of one space. (Exception 4)

e. Accessibility shall be provided for emergency and delivery vehicles. (III)

60.3(5) When construction is contemplated, whether for a new building, an addition to an existing building, functional alteration to an existing building, or conversion of an existing building, the licensee or applicant for license shall:

a. File a detailed and comprehensive program of care as set forth in rules 481—57.3(135C) or 481—63.3(135C), for departmental review and approval, including a description of the specific needs of the residents to be served and any other information the department may require. (III)

b. Submit a preliminary site plan and floor plan for departmental review. The design must meet the requirements of all applicable state statutes, state fire codes, federal standards, and local ordinances. The most stringent rules of the above regulations apply in resolving conflicts. (III)

c. Submit legible working drawings and specifications showing all elements of construction, fixed equipment, and mechanical and electrical systems to the department and to the state fire marshal for review. Such construction documents shall be prepared by or under the direct supervision of a registered architect or engineer, working within the appropriate field of registration, licensed to practice in Iowa. All construction documents shall be certified by and bear the seal of the architect or engineer responsible for the project. Each project shall be evaluated for its impact on the facility. Projects not affecting primary structural elements may, at the discretion of the department, be excluded from this rule. (III)

d. Receive written approval from the department and the state fire marshal's office before start of construction. If on-site construction above the foundation is not started within 12 months of the date of final approval of the working drawings and specifications, this approval shall be void and the plans and specifications shall be resubmitted for reconsideration of approval. (III)

e. All changes to the approved plans and specifications shall be approved in writing by the department and the state fire marshal's office prior to making the change. Applicant is responsible for ensuring that construction proceeds as per approved plans and specifications. (III)

f. For new construction, an addition, functional alteration or conversion of an existing building, it shall be the responsibility of the owner or agent to notify the department at all of the following intervals and wait for inspection by the department before proceeding:

- (1) At least 30 days before commencement of construction on the premises; (III)
- (2) At least 30 days before the pouring of the concrete floor slab; (III)
- (3) After completion of the mechanical or electrical rough-in and 30 days before enclosing walls; (III)
- (4) Thirty days before the completion of the project. (III)

g. Certain occupancies, conditions in the area, or the site may make compliance with the rules impractical or impossible. Certain conditions may justify minor modifications of the rules. In specific cases, variations to the rules may be permitted by the reviewing authority after the following conditions are considered:

- (1) The design and planning for the specific property offer improved or compensating features providing equivalent desirability and utility;
- (2) Alternate or special construction methods, techniques, and mechanical equipment, if proposed, offer equivalent durability, utility, safety, structural strength and rigidity, sanitation, odor control, protection from corrosion, decay and insect attack, and quality of workmanship;
- (3) Variations permitted by the department do not individually or in combination with other variations endanger the health, safety, or welfare of any resident;
- (4) Variations are limited to the specific project under consideration and are not construed as establishing a precedent for similar acceptance in other cases;
- (5) Occupancy and function of the building shall be considered;
- (6) Type of licensing shall be considered.

60.3(6) Except as provided in subrule 60.3(8), the facility shall be made accessible to and usable by the physically handicapped in accordance with the requirements of division 7 of the state building code, 661—16.704(103A) and 661—16.705(103A). (III) (Exception 3)

60.3(7) Facilities licensed as residential care facilities for eight or fewer beds shall be accessible to and functional for the physically handicapped. An appropriate number (at least one) of the bathrooms and bedrooms shall be accessible to and usable by the physically handicapped. (III)

60.3(8) No room in a basement shall be occupied for living purposes unless the room meets all the requirements of the department and receives approval of the department as fit for human habitation. (III)

60.3(9) Foundation drainage.

a. A foundation drainage system shall be installed around any portion of a building containing a basement. (III) (Exception 4)

b. The foundation drainage system should be installed at a slope so the water will run to a low point and then run into a sump pit in the basement, to a storm sewer system, or out to surface drainage. (III) (Exception 4)

c. The foundation drainage system shall not be connected to the sanitary sewer system. (III) (Exception 4)

d. The highpoint of the flow line shall be 4 inches below the elevation of the basement floor slab. (III) (Exception 4)

60.3(10) Projects involving alterations of and additions to existing buildings shall be programmed and phased so that on-site construction will minimize disruptions of existing functions. Access, exitways, and fire protection shall be maintained so the safety of the occupants will not be jeopardized during construction. (III)

60.3(11) Record drawings. Upon completion of the contract, the department shall be provided a complete set of approved legible plans and specifications showing all construction, fixed equipment, mechanical, and electrical systems and addendums as installed or built. (III)

60.4(3) Drinking fountains, telephone booths, and vending machines shall be located so they do not project into the required width of any corridor. (III)

60.4(4) Minimum width of all side-hinged doors to all rooms shall be 3 feet. (III) (Exceptions 3, 4, and 5) Doors to resident toilet rooms and other rooms needing access for wheelchairs shall have a minimum clear opening width of 32 inches. (III)

60.4(5) Approved handrails shall be provided on both sides of corridors used by residents with a clear distance of 1½ inches between handrail and wall. (III) (Exception 4) This rule does not apply to residential care facilities for the mentally retarded licensed for eight or fewer beds.

a. Handrails shall be mounted with their top surfaces 31 to 34 inches above the finished floor. (III) (Exception 3)

b. Handrails shall have the ends rounded and returned to the wall. (III) (Exceptions 2 and 4)

e. Wall assemblies shall be constructed to present cleanable and continuous surfaces to the interior of resident rooms and resident corridors. (III) (Exception 4)

60.4(19) Partition, floor, and ceiling construction in resident areas shall comply with noise reduction criteria in the following table. The requirements set forth in this table assume installation methods which will not appreciably reduce the efficiency of the assembly as tested. Location of electrical receptacles, grills, ductwork, and other mechanical items, and blocking and sealing of partitions at floors and ceilings shall not compromise the sound isolation required. (III)

[Prior to 7/15/87, Health Department[470] Ch 61]

481—61.1(135C) Definitions. Definitions in rule 481—58.1(135C) are incorporated by reference as part of this chapter. In addition, the following definition shall apply:

“Responsible design professional” means a registered architect or licensed professional engineer who signs the documents submitted pursuant to rule 481—61.3(135C).
[ARC 0763C, IAB 5/29/13, effective 7/3/13]

481—61.2(135C) General requirements. Nursing facilities licensed under this chapter shall be built in accordance with the following construction standards:

61.2(1) Construction shall be in conformance with 661—Chapter 205, Fire Safety Requirements for Hospitals and Health Care Facilities. Projects required to meet the provisions of the state building code shall be deemed to be in compliance with the fire safety requirements of the state building code if the project is in compliance with the provisions of 661—Chapter 205.

61.2(2) Construction shall be in conformance with 661—Chapter 301, State Building Code—General Provisions. Projects meeting the local building code shall be deemed to be in compliance with the state building code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system which includes both plan review and inspection.

61.2(3) Construction shall be in accordance with the standards set forth in Part 4.2 and other applicable provisions of the Guidelines for Design and Construction of Health Care Facilities, 2010 edition, published by the Facility Guidelines Institute.

61.2(4) Nothing in these rules shall relieve a nursing facility from compliance with fire and building codes, ordinances and regulations which are enforced by city, county, state or federal jurisdictions.

61.2(5) New equipment. Any alteration or installation of new equipment shall be accomplished as nearly as practical in conformance with all applicable codes, ordinances, regulations and standards required for new construction. Alteration or installation of new equipment shall not diminish the level of compliance with any codes, ordinances, regulations or standards below that which existed prior to the alteration. Any feature that does not meet the requirement for new buildings but exceeds the requirement for existing buildings shall not be further diminished. Features that exceed requirements for new construction need not be maintained. In no case shall any feature be less than that required for existing buildings. (III)

61.2(6) Existing nursing facilities built in compliance with prior versions of this chapter will be deemed in compliance, with the exception of any renovations, additions, functional alterations, changes of space utilization, or conversions to existing facilities for which construction documents are submitted pursuant to rule 481—61.3(135C) on or after July 1, 2013, which shall meet the standards specified in this chapter. Conversion of a building or any of the parts not currently licensed as a nursing facility must meet the rules governing construction of new facilities, except as provided in Life Safety Code, 2000 edition, sections 18.1.1.4.4 and 19.1.1.4.4.

61.2(7) Final plan approval and final occupancy shall be given by the state fire marshal’s office.

The applicant is responsible for ensuring that construction proceeds according to approved plans and specifications. If construction is not started within 12 months of the date of final approval of the working drawings and specifications, the approval shall be void and the plans and specifications shall be resubmitted. Multiphase projects shall be completed within a time period approved by the state fire marshal's office.

c. Meet requirements for new construction if the project includes changes to structural and life safety components of the building or changes for accessibility of persons with disabilities. Only that portion of the building that is part of the project must meet requirements for new construction.

The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department and you will not be transferred prior to a final decision. Provision may be made for extension of the 14-day requirement upon request to the department of inspections and appeals designee in emergency circumstances. g. The hearing shall be heard by a department of inspections and appeals designee pursuant to Iowa Code chapter 17A. (The hearing shall be public unless the resident or the resident's representative requests in writing that it be closed.) The licensee or designee shall have the opportunity to present to the representative of the department any oral testimony or written materials to show by a preponderance of the evidence just cause why a transfer or discharge may be made. The resident and responsible party shall also have an opportunity to present to the representative of the department any oral testimony or written material to show just cause why a transfer or discharge should not be made. In a determination as to whether a transfer or discharge is authorized, the burden of proof rests on the party requesting the transfer or discharge.

If you think you should not have to leave this facility, you may request a hearing in writing or verbally with the Iowa state department of inspections and appeals within 7 days after receiving this notice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department. business or activity is under the control of and is directly related to and incidental to the operation of the health care facility, or the business or activity is approved by the department and the state fire marshal.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs “a” through “j” of this rule. (I, II, III)

63.49(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

- b. Compatibility of the proposed business or activity with the facility program;
- c. Noise created by the proposed business or activity;
- d. Odors created by the proposed business or activity;
- e. Use of entrances and exits for the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- f. Use of the facility’s corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- g. Proposed staffing for the business or activity;
- h. Sharing of services and staff between the proposed business or activity and the facility;
- i. Facility layout and design; and
- j. Parking area utilized by the business or activity.

63.49(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

63.49(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules and 481—Chapter 60. (I, II, III)

481—63.50(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A facility which chooses to provide respite care services must meet the following requirements related to respite care services and must be licensed as a health care facility.

63.50(1) A facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

63.50(2) Rules regarding involuntary discharge or transfer rights do not apply to residents who are being cared for under a respite care contract.

63.50(3) The facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements for contracts between a health care facility and resident, except the requirements concerning the holding and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons.

63.50(4) Respite care services shall not be provided by a facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

The resident's or the resident's legal guardian's written informed consent shall be required for the release of information to persons not otherwise authorized under law to receive it. (II)

A release of information form shall be used which includes to whom the information shall be released, the reason for the release of the information, how the information is to be used, and the period of time for which the release is in effect. A third party not requesting the release shall witness the signing of the release of information form. (II)

a. The facility shall limit access to any resident records to staff and consultants providing professional service to the resident. Information shall be made available to staff only to the extent that the information is relevant to the staff person's responsibilities and duties. (II)

Only those personnel concerned with financial affairs of the residents may have access to the financial information. This paragraph is not meant to preclude access by representatives of state or federal regulatory agencies. (II)

b. The resident, or the resident's legal guardian, shall be entitled to examine all information and shall have the right to secure full copies of the record at reasonable cost upon request, unless the physician or qualified mental health professional determines the disclosure of the record or certain information contained in the record is contraindicated in which case the information will be deleted before the record is made available to the resident. This determination and the reasons for it must be documented in the resident's record by the physician or qualified mental health professional in collaboration with the resident's interdisciplinary team. (II)

64.18(3) Incident records. Each facility shall maintain an incident record report and shall have available incident report forms. (II, III)

- a. The report of every incident shall be in detail on a printed incident report form. (II, III)
- b. The person in charge at the time of the incident shall oversee the preparation of the report and sign the report. (III)
- c. The facility shall maintain a copy of the incident report as part of the facility's administrative records and shall make the record available for review. (III)

64.18(4) Retention of records. A resident's records shall be retained in the facility for five years following termination of services to the resident even when there is a change of ownership of the facility. (III)

When the facility ceases to operate, the resident's records shall be released to the receiving facility. If no transfer occurs, the records shall be released to the resident's physician. (III)

481—64.19 to 64.32 Reserved.

481—64.33(235B) Separation of accused abuser and victim. Upon a claim of dependent adult abuse of a resident being reported, the administrator of the facility shall separate the victim and accused abuser immediately and maintain the separation until the abuse investigation is completed. (I, II)

481—64.34(135C) Employee criminal record checks, child abuse checks and dependent adult abuse checks and employment of individuals who have committed a crime or have a founded abuse. The facility shall comply with the requirements found in Iowa Code section 135C.33 as amended by 2013 Iowa Acts, Senate File 347, and rule 481—50.9(135C) related to completion of criminal record checks, child abuse checks, and dependent adult abuse checks and to employment of individuals who have committed a crime or have a founded abuse. (I, II, III)
[ARC 0903C, IAB 8/7/13, effective 9/11/13]

481—64.35(135C) Care review committee. Each facility shall have a care review committee in accordance with Iowa Code section 135C.25, which shall operate within the scope of the rules for care review committees promulgated by the department of elder affairs. (II)

64.35(1) Role of committee in complaint investigations.

a. The department shall notify the facility's care review committee of a complaint from the public. The department shall not disclose the name of a complainant.

b. The department may refer complaints to the care review committee for initial evaluation or investigation by the committee pursuant to rules promulgated by the department of elder affairs. Within ten days of completion of the investigation, the committee shall report to the department in writing the results of the evaluation of the investigation.

c. When the department investigates a complaint, upon conclusion of its investigation, it shall notify the care review committee and the department of elder affairs of its findings, including any citations and fines issued.

d. Results of all complaint investigations addressed by the care review committee shall be forwarded to the department within ten days of completion of the investigation.

64.35(2) The care review committee shall, upon department request, be responsible for monitoring correction of substantiated complaints.

64.35(3) When requested, names, addresses and telephone numbers of family members shall be given to the care review committee, unless the family refuses. The facility shall provide a form on which a family member may refuse to have the member's name, address or telephone number given to the care review committee.

This rule is intended to implement Iowa Code section 135C.25.

481—64.36(135C) Involuntary discharge or transfer.

64.36(1) A facility shall not involuntarily discharge or transfer a resident from a facility except: for medical reasons; for the resident's welfare or that of other residents; for nonpayment for the resident's stay (as contained in the contract for the resident's stay), except as prohibited by Title XIX of the Social Security Act, 42 U.S.C. 1396 to 1396k by reason of action pursuant to Iowa Code chapter 229; by reason of negative action by the Iowa department of human services; and by reason of negative action by the professional review organization. A resident shall not be transferred or discharged solely because the cost of the resident's care is being paid under Iowa Code chapter 249A, or because the resident's source of payment is changing from private support to payment under chapter 249A. (I, II)

a. “Medical reasons” for transfer or discharge are based on the resident’s needs and are determined and documented in the resident’s record by the attending physician. Transfer or discharge may be required to provide a different level of care. In the case of transfer or discharge for the reason that the resident’s condition has improved so that the resident no longer needs the level of care being provided by the facility, the determination that medical reason exists is the exclusive province of the professional review organization or utilization review process in effect for residents whose care is paid in full or in part by Title XIX. (II)

b. “Welfare” of a resident or that of other residents refers to their social, emotional, or physical well-being. A resident might be transferred or discharged because the resident’s behavior poses a continuing threat to the resident (e.g., suicidal) or to the well-being of other residents or staff (e.g., the resident’s behavior is incompatible with their needs and rights). Evidence that the resident’s continued presence in the facility would adversely affect the welfare of the resident or that of other residents shall be made by the administrator or designee and shall be in writing and shall include specific information to support this determination. (II)

c. Involuntary transfer or discharge of a resident from a facility shall be preceded by a written notice to the resident or responsible party at least 30 days in advance of the proposed transfer or discharge. The 30-day requirement shall not apply in any of the following instances:

(1) If an emergency transfer or discharge is mandated by the resident’s health care needs and is in accord with the written orders and medical justification of the attending physician. Emergency transfers or discharges may also be mandated to protect the health, safety, or well-being of other residents and staff from the resident being transferred. (II)

(2) If the transfer or discharge is subsequently agreed to by the resident or the resident’s responsible party, and notification is given to the responsible party, physician, and the person or agency responsible for the resident’s placement, maintenance, and care in the facility. (II)

(3) If the discharge or transfer is the result of a final, nonappealable decision by the department of human services or the professional review organization.

d. The notice required by 64.36(1) “c” shall contain all of the following information:

(1) The stated reason for the proposed transfer or discharge. (II)

(2) The effective date of the proposed transfer or discharge. (II)

(3) A statement in not less than 12-point type (elite), which reads: “You have a right to appeal the facility’s decision to transfer or discharge you. If you think you should not have to leave this facility, you may request a hearing in writing or verbally with the Iowa state department of inspections and appeals (hereinafter referred to as “department”) within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department and you will not be transferred prior to a final decision. Provision may be made for extension of the 14-day requirement upon request to the department of inspections and appeals designee in emergency circumstances. If you lose the hearing, you will not be transferred before the expiration of 30 days following receipt of the original notice of the discharge or transfer, or no sooner than 5 days following final decision of such hearing. To request a hearing or receive further information, call the department at (515)281-4115 or you may write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319.” (II)

e. A request for a hearing made under 64.36(1) “d”(3) shall stay a transfer or discharge pending a hearing or appeal decision. (II)

f. The type of hearing shall be determined by a representative of the department. Notice of the date, time, and place of the hearing shall be sent by certified mail or delivered in person to the licensee, resident, responsible party, and Iowa department of elder affairs long-term care ombudsman of record not later than five full business days after receipt of the request. This notice shall also inform the licensee, resident or responsible party that they have a right to appear at the hearing in person or be represented by their attorneys or other individual. The hearing shall be dismissed if neither party is present or represented at the hearing. If only one party appears or is represented, the hearing shall proceed with one party

present. The Iowa department of elder affairs long-term care ombudsman shall have the right to appear at the hearing.

g. The hearing shall be heard by a department of inspections and appeals designee pursuant to Iowa Code chapter 17A. (The hearing shall be public unless the resident or the resident's representative requests in writing that it be closed.) The licensee or a designee shall have the opportunity to present to the representative of the department any oral testimony or written materials to show by a preponderance of the evidence just cause why a transfer or discharge may be made. The resident and responsible party shall also have an opportunity to present to the representative of the department any oral testimony or written material to show just cause why a transfer or discharge should not be made. In a determination as to whether a transfer or discharge is authorized, the burden of proof rests on the party requesting the transfer or discharge.

h. Based upon all testimony and material submitted to the representative of the department, the representative shall issue, in accordance with Iowa Code chapter 17A, written findings of fact and conclusions of law and issue a decision and order in respect to the adverse action. This decision shall be mailed by certified mail to the licensee, resident, responsible party, and department of elder affairs long-term care ombudsman within 10 working days after the hearing has been concluded. The representative shall have the power to issue fines and citations against the facility in appropriate circumstances.

A request for review of a proposed decision in which the department is the final decision maker shall be made within 15 days of issuance of the proposed decision, unless otherwise provided by statute. Requests shall be mailed or delivered by either party to the Director, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083. Failure to request review will preclude judicial review unless the department reviews a proposed decision upon its own motion within 15 days of the issuance of the decision.

i. A copy of the notice required by 64.36(1)“c” shall be personally delivered to the resident and a copy placed in the resident's record. A copy shall also be transmitted to the department, the resident's responsible party, physician, the person or agency responsible for the resident's placement, maintenance, and care in the facility, and the department of elder affairs long-term care ombudsman.

j. If the basis for an involuntary transfer or discharge is the result of a negative action by the Iowa department of human services or the professional review organization (Iowa Foundation for Medical Care), appeals shall be filed with those agencies as appropriate. Continued payment shall be consistent with rules of those agencies.

k. If nonpayment is the basis for involuntary transfer or discharge, the resident shall have the right to make full payment up to the date that the discharge or transfer is to be made and then shall have the right to remain in the facility. (II)

l. The involuntary transfer or discharge shall be discussed with the resident, the resident's responsible party, and the person or agency responsible for the resident's placement, maintenance, and care in the facility within 48 hours after notice of discharge has been received. The explanation and discussion of the reasons for involuntary transfer or discharge shall be given by the facility administrator or other appropriate facility representative as the administrator's designee. The content of the discussion and explanation shall be summarized in writing and shall include the names of the individuals involved in the discussions and made a part of the resident's record. (II)

m. The resident shall receive counseling services before (by the sending facility) and after (by the receiving facility) the involuntary transfer to minimize the possible adverse effects of the involuntary transfer. Counseling shall be documented in the resident's record. (II)

(1) Counseling shall be provided by a qualified individual who meets one of the following criteria:

1. Has a bachelor's or master's degree in social work from an accredited college. (II)
2. Is a graduate of an accredited four-year college and has had at least one year of full-time paid employment in a social work capacity with a public or private agency. (II)
3. Has been employed in a social work capacity for a minimum of four years in a public or private agency. (II)
4. Is a licensed psychologist or psychiatrist. (II)

5. Is any other person of the resident's choice. (II)

(2) The facility shall develop a plan to provide for the orderly and safe transfer or discharge of each resident to be discharged or transferred. (II)

(3) The receiving health care facility of a resident involuntarily discharged or transferred shall immediately formulate and implement a plan of care which takes into account possible adverse effects the transfer may cause. (II)

n. In the case of an emergency transfer or discharge as outlined in 64.36(1) "c"(1), the resident must still be given a written notice prior to or within 48 hours following transfer or discharge. A copy of this notice must be placed in the resident's file and it must contain all the information required by 64.36(1) "d"(1) and (2). In addition, the notice must contain a statement in not less than 12-point type (elite), which reads: "You have a right to appeal the facility's decision to transfer or discharge you on an emergency basis. If you think you should not have to leave this facility, you may request a hearing in writing or verbally with the Iowa state department of inspections and appeals within 7 days after receiving this notice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department. You may be transferred or discharged before the hearing is held or before a final decision is rendered. If you win the hearing, you have the right to be transferred back into the facility. To request a hearing or receive further information, call the department at (515)281-4115 or you may write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319." A hearing requested pursuant to this subrule shall be held in accordance with 64.36(1) "f," "g," and "h." (II)

o. Residents shall not have the right to a hearing to contest an involuntary discharge or transfer resulting from the revocation of the facility's license by the department of inspections and appeals. In the case of a facility voluntarily closing, a period of 30 days must be allowed for an orderly transfer of residents to other facilities.

64.36(2) Intrafacility transfer.

a. Residents shall not be relocated from room to room within a licensed health care facility arbitrarily. (I, II) Involuntary relocation may occur only in the following situations and such situation shall be documented in the resident's record.

(1) Incompatibility with or disturbing to other roommates, as documented in the resident's record.

(2) For the welfare of the resident or other residents of the facility.

(3) For medical, nursing or psychosocial reasons, as documented in the resident's record, as judged by the attending physician, nurse or social worker in the case of a facility which groups residents by medical, nursing or psychosocial needs.

(4) To allow a new admission to the facility which would otherwise not be possible due to separation of roommates by sex.

(5) In the case of a resident whose source of payment was previously private, but who now is eligible for Title XIX assistance, the resident may be transferred from a private room to a semiprivate room or from one semiprivate room to another.

(6) Reasonable and necessary administrative decisions regarding the use and functioning of the building.

b. Unreasonable and unjustified reasons for changing a resident's room without the concurrence of the resident, or responsible party include:

(1) Change from private pay status to Title XIX, except as outlined in 64.36(2) "a"(5). (II)

(2) As punishment or behavior modification (except as specified in 64.36(2) "a"(1). (II)

(3) Discrimination on the basis of race or religion. (II)

c. If intrafacility relocation is necessary for reasons outlined in 64.36(2) "a," the resident shall be notified at least 48 hours prior to the transfer and the reason therefor shall be explained. The responsible party shall be notified as soon as possible. The notification shall be documented in the resident's record and signed by the resident or responsible party. (II)

d. If emergency relocation is required to protect the safety or health of the resident or other residents, the notification requirements may be waived. The conditions of the emergency shall be

documented. The family or responsible party shall be notified immediately or as soon as possible of the condition requiring emergency relocation and notification shall be documented. (II)

481—64.62(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the same physical structure of the facility, if the other business or activity is under the control of and is directly related to and incidental to the operation of the health care facility, or the business or activity is approved by the department and the state fire marshal.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs “a” through “j” of this rule. (I, II, III)

64.62(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

- a. Health and safety risks for residents;
- b. Compatibility of the proposed business or activity with the facility program;
- c. Noise created by the proposed business or activity;
- d. Odors created by the proposed business or activity;
- e. Use of entrances and exits for the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- f. Use of the facility’s corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- g. Proposed staffing for the business or activity;
- h. Sharing of services and staff between the proposed business or activity and the facility;
- i. Facility layout and design; and
- j. Parking area utilized by the business or activity.

64.62(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

64.62(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules. (I, II, III)

481—64.63(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A facility which chooses to provide respite care services must meet the following requirements related to respite care services and must be licensed as a health care facility.

64.63(1) A facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

64.63(2) Rules regarding involuntary discharge or transfer rights do not apply to residents who are being cared for under a respite care contract.

64.63(3) The facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements for contracts between a health care facility and resident, except the requirements concerning the holding and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons.

64.63(4) Respite care services shall not be provided by a facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

INTERPRETIVE GUIDELINES*

These guidelines are included in the Iowa Administrative Code pursuant to Iowa Code section 135C.2(3) “d” and are not subject to the rule-making provisions in Iowa Code sections 17A.4 and 17A.5.

440.150(c) The statutory and regulatory use of the word “institution” includes settings that serve four or more people with mental retardation and/or related conditions.

See §435.1009 for definition of “persons with related conditions.”

The presence or absence of an individual requiring a medical care plan, as defined at W320, is not salient in the determination of whether a facility is eligible to participate in the ICF/MR program.

483.410(a)(1) The responsibility for direction includes areas such as health, safety, sanitation, maintenance and repair, and utilization and management of staff, especially when problems in these areas are of a serious or recurrent nature. Condition level deficiencies (other than the Governing Body Condition) or repeat, pervasive patterns of deficiencies at the Standard level may be an indication that the governing body is not providing sufficient operating direction over the facility. When a pattern of serious or repeated deficiencies is identified during the survey, interview the administrator or review the minutes of governing body meetings, if available, to determine whether or not the governing body has identified and addressed the problem.

Staff who have been trained, but are not implementing programs or are inappropriately deployed (e.g., there are enough staff but they are assigned to duties like record keeping which prevents them from delivering needed services), may indicate a failure of the governing body to adequately direct the staff’s activities.

483.410(b) Licenses, permits, and approvals of the facility must be available to you upon request. Current reports of inspections by State and/or local health authorities are on file, and notations are made of action taken by the facility to correct deficiencies.

Some State or local laws are more stringent or prescriptive than the Federal Medicaid requirement on the same issue. Failure of the facility to meet a Federal (i.e., non-Medicare or Medicaid), State or local law may be cited only when the authority having jurisdiction (AHJ) has both made a determination of non-compliance and has taken a final adverse action.

An adverse action is defined as any procedure that goes beyond the approval of a plan of correction, such as a civil money penalty, ban on admissions, denial of payment, or loss of license, and is not under appeal by the provider. The AHJ is the public official(s) having authority to make a determination of noncompliance, and is responsible for signing correspondence notifying the facility of the adverse action.

If you believe you have identified a situation indicating the provider may not be in compliance with a Federal, State or local law, refer that information to the AHJ for follow-up action. If a final adverse action results, then the facility could be found to not meet §483.410(b).

483.410(c)(1) The structure and content of the individual’s record must be an accurate, functional representation of the actual experience of the individual in the facility. This should be identified through interviews with staff and, when possible, with individuals being served, as well as through observations.

The regulations do not specify that all information about an individual be located in the individual program plan (IPP) document, only that information explicitly identified in the regulations. The regulations do not prescribe the manner, form or where in the individual’s record this information is to be recorded.

483.410(c)(2) “Keep confidential” means safeguarding the content of information including video, audio, and/or computer stored information from unauthorized disclosure without the specific informed consent of the individual, parent of a minor child, or legal guardian, and consistent with the advocate’s right of access, as required in the Developmental Disabilities Act. Facility staff and consultants, hired to provide services to the individual, should have access to only that portion of information that is necessary to provide effective responsive services to the individual.

*Editor’s Note: Verbatim from federal regulations—neither the Department nor the Administrative Code Editors have attempted to correct inconsistencies in numbering, spelling or grammar.

Confidentiality applies to both central records and information kept at dispersed locations. If there is information considered too confidential to place in the record used by all staff (e.g., identification of the family's financial assets, sensitive medical data), it may be retained in a secure place in the facility (e.g., social worker's locked desk). A notation must be made in the record of the location of confidential information (e.g., "Family information is available from the social worker").

The sharing of individual specific information with members of the "specially constituted committee" required by §483.450(f)(3), who are not affiliated with the agency, does not violate an individual's right to have information about him or her kept confidential. The committee needs to know relevant information to function properly.

The facility is allowed the flexibility to work out arrangements with its members to maintain confidentiality.

483.410(c)(3) Although one facet of the requirement is that the facility must decide how this is to be accomplished (i.e., policies and procedures), the surveyor's primary focus should be on the second part of the requirement, i.e., the facility's implementation or "outcome" that consent is obtained prior to the release of any individual information (e.g., records, photographs, interviews, or other means of exposure to public view or identification).

The following guidance is provided to assist in determining whether informed consent for release of information is adequate:

1. Was the confidential information to be released specifically identified?
2. Was the person or agency to whom the information was to be released identified to the consenting party?
3. Was the consent time-limited (i.e., include the date the consent was given, and the date which the specific consent would be invalid)?
4. Was the person giving consent legally able to give consent?

Information regarding an individual's HIV status may not be released without specific consent and may not be in the record if that consent has not been given. Staff are expected to use universal precautions when dealing with all individuals, therefore, it is unnecessary to routinely share information about HIV status with all staff. Under some conditions, knowledge may be shared with those directly involved in the care of infected persons. Surveyors should be familiar with State law requirements.

483.410(c)(4) In cases in which facilities have created the option for an individual's record to be maintained by computer, rather than hard copy, electronic signatures are acceptable.

Given the large number of entries that are made in individual's records, this requirement is cited only when a systemic problem is identified.

483.410(c)(6) "Appropriate" means those parts of each individual's record most likely (or known) to be needed by the residential staff to carry out the individual's active treatment program in the unit, to alert staff to health risks and other aspects of medical treatment, to support the psychosocial needs of the individual, and anything else necessary to the staff's ability to work on behalf of the individual.

483.410(d)(1) Federal statute (P.L. 94-142) requires all school-aged children to receive a free and appropriate school education. Therefore, a written agreement between ICFs/MR and public schools is not necessary.

483.410(d)(2)(ii) Outside providers of day services would not have to meet certain requirements relating to physical environment under §§483.470 (a)-(g), (j), and (k) unless that source also provides living quarters for ICF/MR individuals. Outside sources must, of course, meet any applicable State and local requirements.

The facility's responsibility includes assuring that any restrictive techniques proposed for use by outside service providers are used only when warranted and with the required safeguards and approvals.

483.410(d)(3) "Assure" means that the facility's staff actively participate with staff in outside programs in the assessment process and in development of objectives and intervention strategies. For example, if a public school is implementing a manual communication system with an individual, the direct care staff in the individual's living unit should have instructions to implement the program in the residential environment. Likewise, if the facility is implementing a behavior management program

for the individual, it should be shared with and implemented as needed by the outside program. This communication is often difficult, but nevertheless essential to the provision of active treatment.

483.410(d)(4) Even though the facility's premises may be rented from a landlord, the facility must ensure that the requirements for physical environment are met, either through arrangement with the landlord or through the facility's own services.

483.420 A citation of W127 or W150, which require that individuals are not subjected to verbal, sexual, or psychological abuse or punishment, is sufficient justification that the facility has failed to comply with the most fundamental of protections and, therefore, does not comply with this Condition of Participation.

483.420(a) "Ensure" means that the facility actively asserts the individual's rights and does not wait for him or her to claim a right. This obligation exists even when the individual is less than fully competent and requires that the facility is actively engaged in activities which result in the pro-active assertion of the individual's rights, e.g., guardianship, advocacy, training programs, use of specially constituted committee, etc.

483.420(a)(1) The obligation to inform requires that the facility present information in a manner and form which can be understood, e.g., use of print materials, specialized programs to inform individuals who are deaf or blind, use of interpreters, etc.

483.420(a)(2) The term "attendant risks of treatment" refers to all treatment, including medical treatment. An individual who refuses a particular treatment (e.g., a behavior control, seizure control medication or a particular intervention strategy) must be offered information about acceptable alternatives to the treatment being refused, if acceptable alternatives are available. The individual's preference about alternatives should be elicited and considered in deciding on the course of treatment. If the individual also refuses the alternative treatment, or if no alternative exists to the treatment refused, the facility must consider the effect this refusal may have on other individuals, the individual himself or herself and the facility, and if it can continue to treat the individual consistent with these regulations. Thus, every effort must be made to assist the individual to understand and cooperate in the legitimate exercise of the IPP.

An individual being considered for participation in experimental research must be fully informed of the nature of the experiment (e.g., medication, treatment) and understand the possible consequences of participating or not participating. The individual's written consent must be received prior to participation. For an individual who is a minor or who has been adjudicated as incompetent, the written informed consent of parents of the minor or the legal guardian is required.

The determination as to whether the individual was sufficiently "informed" is based on the following:

1. Was the individual aware of the proposed program or treatment, the procedures to be followed, and the identification of the person who will perform the treatment activity?

2. Was the individual aware of the intended outcome or benefits of the proposed program or treatment?

3. Was the individual aware of the possible risks, including side effects and attendant discomfort of the proposed program or treatment, and the steps to be taken to minimize risk?

4. Was the individual aware of the ramifications if he or she decided not to participate, and of the alternatives to the proposed activity, particularly alternatives offering less risk or adverse effects?

5. Did the individual participate voluntarily? Did the individual have the opportunity to have questions about the activity answered?

6. Was the information about the activity presented in language that could be readily understood by the individual?

Additionally, for experimental, invasive or potentially harmful treatment, activities or procedures for which written informed consent is recommended, if not otherwise required by State or Federal law:

1. Was the consent time-limited (i.e., include the date the consent was signed and the date it becomes invalid)?

2. Did the individual realize that consent to participate could be withdrawn at any time without risk of punitive action?

3. Was the person who gave consent the legally appropriate party to do so for the individual?

483.420(a)(3) The facility must ensure protection of the individual from any form of reprisal or intimidation as a result of a complaint or grievance reported by an individual.

As long as there are no decisions or circumstances which require action by a legally-appointed surrogate, a spokesperson or advocate could assist the individual in exercising his or her rights as a citizen of the United States and as a person residing in the facility. Some examples might include assisting the individual to express his/her needs, wants and interests, to utilize community resources or to file a complaint. A spokesperson might also express opinions regarding situations in which consent by the beneficiary, parent of a minor, or legal guardian is required in order to bring to the attention of the facility potential concerns or problems.

The extent to which any person can act on behalf of another individual who has been assessed as needing a guardian, however, is entirely dependent upon the needs of the individual client and upon the laws and regulations of the State in which that individual resides. The facility and surveyor must be familiar with the laws and regulations of the State in which the facility is located. It is inappropriate for the facility to unofficially delegate the individual's rights to others (e.g., parents, family, advocacy groups, etc.). To the extent that the individual is able to make decisions for himself or herself, it is inappropriate to delegate the person's rights to others.

Individuals who need guardianship or advocacy, and do not have this need addressed, are not prepared to exercise their rights as citizens of the United States. The facility's failure to ensure guardianship or advocacy for those who need it should be cited. Further deficiencies may also be cited under W123, W124, W143, and W263, depending upon the survey findings.

483.420(a)(4) Since the use of money is a right, determine if the facility demonstrated, based on objective data, that the individual was unable to be taught how to use money before the decision was made to restrict that right.

483.420(a)(5) The facility is responsible to organize itself in such a manner that it proactively assures individuals are free from serious and immediate threat to their physical and psychological health and safety. Citing of this requirement indicates that there is a high probability that abuse to individuals could occur at any time, or already has occurred and may well occur again, if the individuals are not effectively protected from the serious physical or psychological harm or injury, or if the threat is not removed. A citation of this requirement, therefore, must result in a determination of Condition level non-compliance due to immediate and serious threat. Cross reference W122 for additional guidance.

"Threat," as used in this guideline, is any condition/situation which could cause or result in severe, temporary or permanent injury or harm to the mental or physical condition of individuals, or in their death.

"Abuse" refers to the ill-treatment, violation, revilement, malignment, exploitation and/or otherwise disregard of an individual, whether purposeful, or due to carelessness, inattentiveness, or omission of the perpetrator.

"Physical abuse" refers to any physical motion or action, (e.g., hitting, slapping, punching, kicking, pinching, etc.) by which bodily harm or trauma occurs. It includes use of corporal punishment as well as the use of any restrictive, intrusive procedure to control inappropriate behavior for purposes of punishment. Observe individuals to see if they are bruised, cut, burned (cigarettes, etc.).

"Verbal abuse" refers to any use of oral, written or gestured language by which abuse occurs. This includes pejorative and derogatory terms to describe persons with disabilities.

"Psychological abuse" includes, but is not limited to, humiliation, harassment, and threats of punishment or deprivation, sexual coercion, intimidation, whereby individuals suffer psychological harm or trauma.

Individuals must not be subjected to abuse by anyone (including, but not limited to, facility staff, consultants or volunteers, staff of other agencies serving the individual, family members or legal guardians, friends, other individuals, or themselves).

Since many individuals residing in ICFs/MR are unable to communicate feelings of fear, humiliation, etc., the assumption must be made that any actions that would usually be viewed as psychologically or verbally abusive by a member of the general public, is also viewed as abusive by the individual residing in the ICF/MR, regardless of that individual's perceived ability to comprehend the nature of the incident.

The facility must take whatever action is necessary to protect the individuals residing there. For example, if a facility is forced by court order or arbitration rulings to retain or reinstate an employee believed to be abusive, the facility may need to take other measures (such as assigning the employee to an area where there is no contact with beneficiaries, providing increased supervision and additional training for the employee, appealing the arbitration or court decision or pursuing formal criminal charges) in order to ensure beneficiary safety.

483.420(a)(6) The chronic use of restraints may indicate one or more of the following: the individual's developmental and/or behavioral needs are not being met and the appropriateness of placement should be questioned; staff behavior may be prompting behaviors in individuals which result in the chronic use of physical restraints and drugs to control behavior; staff may have inadequate training and/or experience to provide active treatment and employ preventive measures that reduce the levels of behaviors judged to require physical restraints and drugs to control behavior; and restraints may be applied to behaviors which are, in fact, not threatening to the health and welfare of the individual or other individuals and staff.

483.420(a)(7) The facility must have a method of arranging for privacy of visits between individuals with significant relationships, if they do not both reside at the facility.

483.420(a)(7) The facility must examine and treat individuals in a manner that maintains the privacy of their bodies. Only employees directly involved in the treatment are present when treatments are given. Some method or mechanism which ensures privacy (such as a closed door, a drawn curtain or systematically implemented training for an individual to use their own methods) must be employed to shield the individual from passers-by. People not involved in the care of the individual should not be present without their consent while they are being examined or treated.

If an individual requires assistance during toileting, bathing, and other personal hygiene activities, staff should assist, giving utmost attention to the individual's need for privacy. There is no prohibition, however, on staff to work with individuals of the opposite sex.

Exercise special attention to ensure that your behavior, during onsite observations in the individual's home, does not violate an individual's right to privacy during treatment and care of personal needs.

483.420(a)(8) "Work," as used in the regulation, means any directed activity, or series of related activities which results in benefit to the economy of the facility or in a contribution to its maintenance, or in the production of a salable product. In deciding whether a particular activity constitutes "work" as defined above, the key determinant is if an individual was unavailable to perform the particular activity or function, would the facility be required to hire additional full or part-time staff (or pay overtime to existing staff) in order to properly maintain the facility or to provide necessary care services to individuals, in order to carry out its assigned mission?

Individuals are not to be used to provide a source of labor for a facility against their will or in opposition to the objectives of the IPP.

Seriously question any situation in which an individual is observed or reported to be "volunteering" to do real work that benefits the facility, or its maintenance without compensation. Interview such individuals to determine if they have given informed consent to such practices and understand that by providing employable services they are able to be compensated. This does not preclude an individual from helping out a friend or being kind to others. Self-care activities related to the care of one's own person are not considered "work" for purposes of compensation.

Regular participation in the domiciliary activities of maintaining one's own immediate household or residential living unit which can lead to the individual's greater functional ability to perform independent household tasks is also not considered "work" for the facility. Shared duties are common and appropriate. Included in, but not limited to, these domiciliary tasks are:

- Meal planning, food purchasing, food preparation, table setting, serving, dishwashing, etc.;
- Household cleaning, laundry;
- Clothes repair;
- Light yard and house maintenance (painting, simple carpentry, etc.); and
- General household shopping, including clothing.

In general, participation in any household task which promotes greater independent functioning (and which the individual has not yet learned) is permitted as long as tasks are included in the IPP in written behavioral and measurable terms. This participation must be supervised, and indices of performance should be available. No task may be performed for the convenience of staff (e.g., supervising individuals, running personal errands) or which has no relationship to the individual's IPP.

As individuals become widely competent and independent in household tasks, they must not be used in those capacities and represented as "in training" and serious consideration should be given to the individual's potential for even less restrictive residential environments. (See also §§483.440(a)(2) and (b)(1).) However, it is acceptable for individuals to engage in household tasks which are in common with other individuals, all sharing the total household tasks commonly shared in nuclear family units. The test in this regard is:

The expectation is that tasks are the general responsibility of the individual, and that the duties rotate to the maximum extent possible; and/or

The individual can assume control in performing the responsibility given (e.g., John has until Thursday at 8 p.m. to clean the living and dining rooms), thereby adding to the development of internal controls and assumption of responsibility by individuals.

Work performed by the individual which no other individual is required or expected to do, or is not a regular part of running the household, must be compensated.

"Compensated" means the receipt of money or other forms of negotiable compensation for work (including work performed in an occupational training program) which is available to the individual, to be used at his or her discretion in determining the benefits to be derived therefrom.

"Prevailing wage" refers to the wage paid to non-disabled workers in nearby industry or the surrounding community for essentially the same type, quality and quantity of work or work requiring comparable skills.

A working individual must be paid at least the prevailing minimum wage except when an appropriate certificate has been obtained by the facility in accordance with current regulations and guidelines issued under the Fair Labor Standards Act, as amended.

Any individual performing work, as defined above, must be compensated in direct proportion to his or her productivity as measured in work equivalents of a regular employee's output. For example, if an individual's productivity for a particular work activity or function is determined to be 30 percent of normal output for an average non-disabled worker, and the prevailing wage is \$4.00 an hour, then the individual should be compensated in money at a rate of one dollar and twenty cents per hour ($.30 \times \$4.00 = \1.20). If a piece rate can be determined for a particular job, an individual is paid based on the number of pieces he or she produces. An individual's pay is not dependent on the production of other individuals when he or she works in a group.

When the individual's active treatment program includes assignment to occupational or vocational training or work, specific work objectives of anticipated progress should be included in the IPP along with reasons for the assignments. If the training of individuals on particular occupational activities or functions involves "real work" to be accomplished for the facility, the individuals must be compensated based on ability. For example, if in the process of work training activities involved with learning to clean a floor, the floor for a particular building is cleaned and does not require further janitorial cleanup, then the individual must be compensated for this activity.

483.420(a)(9) Space must be provided for individuals to receive visitors in reasonable comfort and privacy.

483.420(a)(9) Assistance must be provided to individuals who require help in reading or sending mail. Refer to W145.

483.420(a)(11) Outdoor and out of home activities are planned for all individuals on a regular basis.

483.420(a)(12) All individual possessions regardless of their apparent value to others must be treated with respect, for what they are and for what they may represent to the individual. The facility should encourage individuals to use or display possessions of his or her choice in a culturally normative manner. Appropriate personal possessions includes personal care and hygiene items. Individuals should not be without personal possessions because of the behavior of others with whom they live. If a method

for identifying personal effects is used, it should be inconspicuous and in a manner that will assist the individual to identify them.

“Appropriate” clothing means a supply of clothing that is sufficient, in good repair, accounts for a variety of occasions and seasons, and appropriate to age, size, gender, and level of activity. Modification or adaptation of clothing fasteners should be considered based on the needs of an individual with a physical disability to be independent.

As appropriate, each individual’s active treatment program maximizes opportunities for choice and self-direction with regard to choosing and shopping for clothing which enhances his or her appearance, and selecting daily clothing in accordance with age, sex and cultural norms. Individuals are permitted to keep personal clothing and possessions for their use while in the facility. Determine how the facility both ensures the safety of personal possessions while at the same time providing individual access to them when the individual chooses.

Individuals are provided the opportunity, encouraged, and trained to use age-appropriate materials. The term “age-appropriate” refers to anything that reinforces recognition of the individual as a person of a certain chronological age. The facility’s environment must be furnished with materials and activities that will enhance opportunities for growth. Determine whether the failure of an individual to achieve functional, adaptive skills, or to have opportunities to make informed choices, or to achieve any positive outcomes is a result of the constant use of materials or participation in activities that are age-inappropriate.

483.420(b)(1)(i) A “full and complete accounting for personal funds” does not need to document accounting for incidental expenses or “pocket money,” funds a capable individual handles without assistance, funds dispensed to an individual under a program to train the individual in money management, and funds that are not entrusted to the facility (e.g., funds paid directly to the individual’s representative payee).

483.420(b)(1)(ii) Although prudent to do so, there is no Federal requirement to maintain individuals’ personal funds in financial institutions in interest bearing accounts, or in accounts separate from other individual accounts. However, if the facility elects to pool individuals’ funds in an interest bearing account, including common trust accounts, it is expected to know the interest separately accrued by each individual, as part of its required accounting of funds. Interest accumulated to an individual’s account belongs to the individual, not the facility.

483.420(b)(2) Parents or other family members should not have automatic access to the financial records of adult individuals. It is not necessary that a facility be required to furnish an annual financial statement to the individual or the individual’s family, since the facility is already required to make the financial record available at any time upon request. The individual, in turn, is free to choose to make his or her financial record available to anyone else.

483.420(c)(1) “Unobtainable,” as used in this standard, means that the facility has made a bonafide effort to seek parental or guardian participation in the process, even though the effort may ultimately be unsuccessful (for example, the parent may be impossible to locate or may prove unwilling or unable to participate).

“Inappropriate” as used in this standard means that the parent or legal guardian’s behavior is so disruptive or uncooperative that others cannot effectively participate; the individual does not wish his or her parent to participate, and the individual is competent to make this decision; or there is strong evidence that the parent or guardian is not acting on the individual’s behalf or in the individual’s best interest. In the case of the latter, determine what the facility has done to bring effective resolution to the problem.

483.420(c)(2) Where possible, randomly select a family or guardian to validate the quality, nature and frequency of the communications between the facility and families or guardians (but only with their consent). There is no requirement that each contact with family and friends be documented.

483.420(c)(3) Any limitations of visitors are recorded by the interdisciplinary team with reason and time limits given. Decisions to restrict a visitor must be reviewed and re-evaluated each time the IPP is reviewed or at the individual’s request. If you find broad restrictions, review general facility access policies.

The facility should have arrangements available to provide privacy for families and others when visiting with individuals.

483.420(c)(5) It is not acceptable for a facility to sponsor or allow individuals to take a particular type of trip that is contraindicated. For example, in the situation of an individual subject to abuse by a parent, the facility obviously is not required to permit such a trip. However, as with any right that may need to be modified or limited, the individual should be provided with the least restrictive and most appropriate alternative available.

483.420(c)(6) “Significant” incidents or changes in the individual’s condition refers to any type of occurrence or event, that is perceived to have some level of importance to the individual, family or guardian. Examples include, but are not limited to, allegations of mistreatment, psychological trauma experienced by the individual, loss or change of a program service or staff person, entry or placement in new programs or agencies, day-to-day events on which family members express interest to be informed, etc.

483.420(d)(1) “Mistreatment” as used in this standard, includes behavior or facility practices that result in any type of individual exploitation such as financial, sexual, or criminal.

“Neglect” means failure to provide goods or services necessary to avoid physical or psychological harm.

See W127 for definitions related to “abuse.”

483.420(d)(1)(i) See W127, Facility Practices, as related specifically to staff of the facility.

A citation of this requirement indicates that abuse to an individual by staff of the facility is highly likely to occur or has already occurred and may well occur again if the individual is not effectively protected. A citation of this requirement, therefore, must result in Condition-level non-compliance due to immediate and serious threat. Cross reference W122 and W127.

483.420(d)(1)(ii) Cross-reference W465.

483.420(d)(1)(iii) This regulation applies to the hiring of new employees on or after October 3, 1988. The facility is required to screen potential employees for a prior employment history of child or client abuse, neglect or mistreatment, as well as for any conviction based on those offenses. The abuse, neglect or mistreatment must be directed toward a child or an individual who is a client (resident, patient) in order for the prohibition of employment to apply.

This requirement also applies to acts of abuse, neglect or mistreatment committed by a current ICF/MR employee outside the jurisdiction of the ICF/MR (e.g., in the community or in another health care facility). A substantiated allegation of abuse, neglect or mistreatment which occurred after October 3, 1988, (regardless of the date of the person’s employment in the ICF/MR), and which resulted in the termination of that person’s employment from another health care facility, becomes a part of the person’s employment history and the ICF/MR is prohibited from continuing to employ the individual. For example, an individual who abused a resident in a nursing facility and as a result, is barred from employment in the nursing home setting would also be prohibited from employment in the ICF/MR. While facilities are not required to periodically screen existing employees, if the facility becomes aware that such action has been taken against an employee, the facility is required to prohibit continued employment. This is also true of any conviction in a court of law for child or client (resident, patient) abuse, neglect or mistreatment. Therefore, conviction for abusing one’s own child is also a reason employment would be prohibited.

The definition of “mistreatment” under the guideline at W153 includes financial exploitation. Therefore, if an employee was convicted or had a prior employment history of theft of an individual’s funds, that would also be a reason employment would be prohibited.

Access other information, as appropriate, including information contained in “closed” records, in order to adequately evaluate compliance.

483.420(d)(2) The facility is responsible for reporting any injuries of unknown origin and any allegations of mistreatment to an individual residing in the facility regardless of who is the perpetrator (e.g., facility staff, parents, legal guardians, volunteer staff from outside agencies serving the individual, neighbors, or other individuals, etc.).

483.420(d)(3) The facility is responsible for investigating all injuries of unknown origin and must prevent further potential abuse while the investigation is in progress.

483.420(d)(4) Some States require that allegations of abuse must be reported to the police. CMS cannot regulate the activities of the police. However, if the police take longer than five working days for their investigation, the facility is still required to complete an internal investigation report of findings within the five day timeframe. “Working days” means Monday through Friday, excluding State and Federal holidays.

483.420(d)(4) This requirement refers to corrective action taken based upon findings of investigations of incidents which have occurred within the jurisdiction of the facility. It requires that the seriousness of infractions be weighed in the determination of what action is necessary by the facility to correct the situation appropriately. In cases of abuse, neglect or mistreatment by staff, where extenuating circumstances exist and dependent on the nature of the infraction, a remedy that is consistent with appropriate progressive disciplinary measures may be acceptable. When the intentional action or inaction of a staff person has resulted in abuse, neglect or mistreatment which poses a serious and immediate threat to individuals’ health and safety, termination of employment is the only acceptable corrective action.

Appropriate corrective action is also required for findings of abuse, neglect or mistreatment by other individuals residing in the facility, staff of outside agencies, parents or any other person, and for injuries to individuals resulting from controllable environmental factors.

Appropriate corrective action is defined as that action which is reasonably likely to prevent the abuse, neglect, mistreatment or injury from recurring.

When an employee appeals a finding of abuse by the facility, whether through arbitration or in a court of law, the decision of the arbitrator or the court of law is then considered the final finding. If the arbitrator found that the charges lacked substance, the allegation would be considered unsubstantiated. The facility, however, is still required to ensure that individuals residing in the facility are not subjected to physical, verbal, sexual or psychological abuse or punishment by W127.

An arbitrator may find that the allegation of abuse is substantiated, but impose a lesser penalty than that which was sought by the facility. For example, the facility may seek termination of employment as the appropriate corrective action but the arbitrator determines that a 10 day suspension is more appropriate. The facts of the situation will have to be evaluated by the surveyor and a judgment made regarding appropriateness. Therefore, while the facility is permitted by the regulation to exercise judgment regarding appropriate corrective action, the surveyor must also exercise judgment and may determine that the corrective action is NOT reasonably likely to prevent the abuse from recurring.

483.430(a) View the person serving in the QMRP role as pivotal to the adequacy of the program the individual receives, since it is this role that is intended to ensure that the individual receives those services and interventions necessary by competent persons capable of delivering them. The paramount importance of having persons competent to judge and supervise active treatment issues cannot be overstated.

An individual’s IPP may be coordinated and monitored by more than one QMRP or by other staff persons who perform the QMRP duties. There must, however, be one QMRP who is assigned primary responsibility and accountability for the individual’s IPP and the QMRP function.

The regulations do not specify if the person designated as QMRP must do the duties of a QMRP exclusively, or is allowed to perform other professional staff duties in addition. The facility has the flexibility to allocate staff resources in whatever manner it believes is necessary as long as it ensures that the QMRP function is performed effectively for each individual.

The test of whether the number of QMRPs is adequate rests with the ability of the facility to provide the services described in §483.430(a) in an effective manner. The number will vary depending on such factors as the number of individuals the facility serves, the complexity of needs manifested by these individuals, the number, qualifications and competencies of additional professional staff members, and whether or not other duties are assigned to the QMRP function.

483.430(b)(1) For an active treatment program to be responsive to the individual’s unique needs, there must be a foundation of competent professional knowledge that can be drawn upon in the implementation

of the interdisciplinary team process. Individuals with developmental deficits will require initial, temporary, or ongoing services from professional staff, knowledgeable about contemporary care practices associated with these areas. A special mention needs to be made that individuals should not be provided with services that are not needed (e.g., if an individual is basically healthy and not on medication, then the individual should not be provided extensive health and health-related services).

The needs identified in the initial comprehensive functional assessment, as required in §483.440(c)(3)(v), should guide the team in deciding if a particular professional's further involvement is necessary and, if so, to what extent professional involvement must continue on a direct or indirect basis.

Since such needed professional expertise may fall within the purview of multiple professional disciplines, based on overlapping training and experience, determine if the facility's delivery of professional services is adequate by the extent to which individuals' needs are aggressively and competently addressed. Some examples in which professional expertise may overlap include:

- Physical development and health: nurse (routine medical or nursing care needs that do not interfere with participation in other programs); physician, physician assistant, nurse practitioner (acute major medical intervention, or the treatment of chronic medical needs which will be dependent upon an individual's success or failure in other treatment programs).

- Nutritional status: nurse (routine nutritional needs that do not affect participation in other programs); nutritionist or dietitian (chronic health problems related to nutritional deficiencies, modified or special diets).

- Sensorimotor development: physical educators, adaptive physical educators, recreation therapists, (routine motor needs involving varying degrees of physical fitness or dexterity); special educators or other visual impairment specialists (specialized mobility training and orientation needs); occupational therapist, physical therapist, physiatrist (specialized fine and gross motor needs caused by muscular, neuromuscular, or physical limitations, and which may require the therapeutic use of adaptive equipment or adapted augmentative communication devices to increase functional independence); dietitians to increase specialized fine and gross motor skills in eating.

- Affective (emotional) development: special educators, social workers, psychologists, psychiatrists, mental health counselors, rehabilitation counselors, behavior therapists, behavior management specialists.

- Speech and language (communication) development: speech-language pathologists, special educators for people who are deaf or hearing impaired.

- Auditory functioning: audiologists (basic or comprehensive audiologic assessment and use of amplification equipment); speech-language pathologists (like audiologists, may perform aural rehabilitation); special educators for individuals who are hearing impaired.

- Cognitive development: teacher (if required by law, i.e., school aged children, or if pursuit of GED is indicated), psychologist, speech-language pathologist.

- Vocational development: vocational educators, occupational educators, occupational therapists, vocational rehabilitation counselors, or other work specialists (if development of specific vocational skills or work placement is indicated).

- Social Development: teachers, professional recreation staff, social workers, psychologists (specialized training needs for social skill development).

- Adaptive behaviors or independent living skills: Special educators, occupational therapists.

483.430(b)(1) There are some individuals in ICFs/MR who can often have their needs effectively met without having direct contact with professional staff on a daily basis. The intent of the requirement is not to require that professionals work directly with individuals on a daily basis, but only as often as an individual's needs indicate that professional contact is necessary. The amount and degree of direct care that professionals must provide will depend on the needs of the individual and the ability of other staff to train and direct individuals on a day-to-day basis.

483.430(b)(2) If there is sufficient evidence that para- and non-professional staff demonstrate the needed competencies to carry through with intervention strategies, you may be satisfied there is sufficient professional staff to carry out the active treatment program. However, if the professional's expertise is

not demonstrable at the para- and non-professional staff level, question both the numbers of professional staff and the effectiveness of the transdisciplinary training of para- and non-professional staff.

483.430(b)(3) “Participate” means providing input through whatever means is necessary to ensure that the individual’s IPP is responsive to the individual’s needs. The purpose of the interdisciplinary team process is to provide team members with the opportunity to review and discuss information and recommendations relevant to the individual’s needs, and to reach decisions as a team, rather than individually, on how best to address those needs. Therefore, determine whether or not there is a pattern of active treatment based on professional participation in the process.

Without a negative outcome to demonstrate that professional involvement in any aspect of the active treatment process (e.g., comprehensive functional assessment, IPP development, program implementation, etc.) was insufficient or inaccurate, the facility is allowed the flexibility to use its resources in a manner that works in behalf of the client, in accordance with the regulations.

483.430(b)(4) “Participate” means both seeking out self-training and provision of training to others.

483.430(b)(5)(i)-(ix) The introductory phrase “to be designated as...” means that a provider is allowed to represent him or herself as a professional provider in that discipline, only if the provider meets State licensing requirements, or if the particular discipline does not fall under State licensure requirements, the provider meets the qualifications specified in §§483.430(b)(5)(i)-(ix). A person who is not qualified, for example, as a social worker, may not be referred to as a social worker per se. Nevertheless, such a person may be able to provide social services in an ICF/MR if there is no conflict with State law, and as long as the individuals’ needs are met.

483.430(b)(5)(ix) The Commission on Dietetic Accreditation of the American Dietetic Association is the organization to whom the American Dietetic Association delegates this responsibility.

483.430(b)(5)(x) The intent for including a “human services professional” category is to expand the number and types of persons who could qualify as QMRPs, while still maintaining acceptable professional standards.

“Human services field” includes all the professional disciplines stipulated in §§483.430(a)(3)(i)(ii) and §§483.430(b)(5)(i)-(ix), as well as any related academic disciplines associated with the study of: human behavior (e.g., psychology, sociology, speech communication, gerontology etc.), human skill development (e.g., education, counseling, human development), humans and their cultural behavior (e.g., anthropology), or any other study of services related to basic human care needs (e.g., rehabilitation counseling), or the human condition (e.g., literature, the arts).

An individual with a “bachelors degree in a human services field” means an individual who has received: at least a bachelor’s degree from a college or university (master and doctorate degrees are also acceptable) and has received academic credit for a major or minor coursework concentration in a human services field, as defined above. Although a variety of degrees may satisfy the requirements, majors such as geology and chemical engineering are not acceptable.

Taking into consideration a facility’s needs, the types of training and coursework that a person has completed, and the intent of the regulation, the facility and you can exercise wide latitude of judgment to determine what constitutes an acceptable “human services” professional. Again, the key concern is the demonstrated competency to do the job.

483.430(c)(1) Volunteers may provide supplementary services. The facility may not rely on volunteers to fill required staff positions and perform direct care services.

Examine closely the adequacy of staffing when individuals served are engaged in the care, training, treatment or supervision of other individuals, either as part of training, “volunteer work,” or normal daily routines. (See W131-W132 for additional interpretation of productive work done as a “volunteer” or as part of the individual’s active treatment program.) The test of adequacy is whether or not there is sufficient staff to accomplish the job in the absence of the individual’s work. Work done as part of an active treatment training program requires that the staff are monitoring and teaching new skills as part of the IPP.

483.430(c)(2) The test of adequacy about “awake” staffing is how well the facility has organized itself to detect and react to potential emergencies, such as fire, injuries, health emergencies described in the

medical care plan (e.g., aspiration, cardiac or respiratory failure, uncontrolled seizures) and behavioral crises described in the IPP.

483.430(c)(3) The intent of the regulation is that at all times a staff person is in a position to help if individual needs arise. For purposes of this provision, “on duty” staff need not be awake during normal bedtime hours.

Facilities sending some or all of the individuals to out of home or off grounds active treatment programs for a majority of the day need not provide a full complement of direct care staff in the residence during their absence. However, a minimum of one staff person must be on duty, if even one individual is present.

483.430(c)(4) “Support staff” include all personnel hired by the facility that are not either direct care staff or professional staff. For example, support staff include, but are not limited to, secretaries, clerks, housekeepers, maintenance and laundry personnel.

Direct care staff should be utilized at their highest level of competence, but they may assume other roles as long as their ability to exercise their primary direct care duties is not diluted. For example, direct care staff may serve as aides in a training program during the hours individuals are away from the living unit.

483.430(d)(1) “Sufficient” direct care staff means the number of staff, over and above the ratios specified in §483.430(d)(3), necessary to implement active treatment, as dictated by the individual’s active treatment needs.

Do not look at numbers alone. The facility is responsible for organizing and evaluating its individual appointments, programming schedules, activities, materials, equipment, grouping assignments and available staff in such a way that maximizes benefit to the individual. During the course of the onsite survey, you should be able to observe behavioral evidence of such organization. Evaluate this data in light of the success or failure observed relevant to providing active treatment, and come to a judgment about the adequacy of the facility’s staffing.

483.430(d)(2) “Direct care staff” are those personnel whose daily responsibility it is to manage, supervise and provide direct care to individuals in their residential living units. This staff could include professional staff (e.g., registered nurses, social workers) or other support staff, if their primary assigned daily shift function is to provide management, supervision and direct care of individuals’ daily needs (e.g., bathing, dressing, feeding, toileting, recreation and reinforcement of active treatment objectives) in their living units. However, professional staff who simply work with individuals in a living unit on a periodic basis cannot be included. Also, supervisors of direct care staff can be counted only if they share in the actual work of the direct care of individuals. Supervisors whose principal assigned function is to supervise other staff cannot be included.

483.430(d)(3) The minimum ratios in this standard indicate the minimum number of direct-care staff that must be present and on duty, 24 hours a day, 365 days a year, for each discrete living unit. It does not include anyone functioning as direct care staff. For example, to calculate the minimum number of living unit staff that must be present and on duty in a discrete living unit serving 16 individuals with multiple disabilities: divide the number of individuals “16,” by the number corresponding to the regulation “3.2,” the result equals “5.” Therefore, the facility must determine how many staff it must hire to ensure that at least 5 staff will be able to be present and on duty during the 24 hour period in which those individuals are present.

Using the living unit described above, “calculated over all shifts in a 24-hour period” means that there are present and on duty every day of the year: one direct care staff for each eight individuals on the first shift (1:8), one direct care staff for each eight individuals on the second shift (1:8), and one direct care staff for each 16 individuals on the third shift (1:16). Therefore, there are five (5) direct care staff present and on duty for each twenty-four hour day, for 16 individuals. The same calculations are made for the other ratios, whichever applies. Determine if absences of staff for breaks and meals results in a pattern of prolonged periods in which present and on-duty staff do not meet the ratios.

483.430(e)(2) View in-service training as a dynamic growth process. It is predicated on the view that all levels of staff can share competencies which enable the individual to benefit from the consistent, wide-spread application of the interventions required by the individual’s particular needs.

In the final analysis, the adequacy of the in-service training program is measured in the demonstrated competencies of all levels of staff relevant to the individual's unique needs as well as in terms of the "affective" characteristics of the caregivers and the personal quality of their relationships with the individuals. Observe the staff's knowledge by observing the outcomes of good transdisciplinary staff development (i.e., in the principles of active treatment) in such recommended competencies as:

- Respect, dignity, and positive regard for individuals (e.g., how staff refers to individuals, refer to W150);
- Use of behavioral principles in training interactions between staff and individuals;
- Use of developmental programming principles and techniques, e.g., functional training techniques, task analysis, and effective data keeping procedures;
- Use of accurate procedures regarding abuse detection and prevention, restraints, medications, individual safety, emergencies, etc.;
- Use of adaptive mobility and augmentative communication devices and systems to help individuals achieve independence in basic self-help skills; and
- Use of positive behavior intervention programming.

483.430(e)(3) Observe staff interactions with individuals to see if the specific interventions, techniques and strategies to change inappropriate behavior outlined in the sampled individual's program plans are correctly implemented. In the absence of implementation, investigate further to determine if there was a justifiable reason for not implementing an intervention (e.g., the plan was revised, the specific situation demanded a different approach, the conditions for use of a particular technique were not present, etc.). When staff are unable to demonstrate how to correctly implement an intervention, or are unable to explain when and how the intervention is to be implemented, inadequate training is evident.

483.430(e)(4) Observe whether or not staff are competent and knowledgeable about the needs, programs and progress of each sampled individual with whom they are assigned to work. Staff should be able to demonstrate in practice the results of training for the individuals for whom they are responsible. See guidelines at §483.430(e)(3).

483.440(a)(1) "Continuous" is defined to mean the competent interaction of staff with individuals served at all times, whenever the need arises or opportunities present, in both formal and informal settings.

Verify that active treatment is identifiable during formal and informal interactions between staff and individuals served. The performance of the individual should reflect the success, if any, of interventions being applied or the need to alter the intervention procedures.

The ICF/MR ensures that each individual receives active treatment daily regardless of whether or not an outside resource(s) is used for programming (e.g., public school, day habilitation center, senior day services program, sheltered workshop, supported employment).

Those "active" interventions necessary to prevent or decelerate regression are considered to be part of the overall active treatment program. For example, if the application of a specific stimulation technique to the area of the mouth of an individual with severe physical and medical disabilities, decelerates the individual's rate of reliance on tube feedings, and helps the individual retain ability to take food by mouth, then this intervention is considered to be a component of active treatment for the individual.

Active treatment for elderly individuals may increasingly need to focus on interventions and activities which promote physical wellness and fitness, socialization and tasks that stress maintaining coordination skills and reducing the rate of loss of skills that accompanies the physical aspects of the aging process. Attending a senior center may be a justifiable part of an active treatment program for an elderly person.

Active treatment is the sum total of the major components of the active treatment process or loop which make up the requirements under this Condition of Participation (i.e., assessment, individual program planning, implementation, program documentation, program monitoring and change). It defines the primary nature of the services which must be provided by a facility (and received by its clients) in order to make it eligible under the law to be "certified" as an ICF/MR. Active treatment results in the positive outcomes identified by the Condition-level compliance principles. Surveyors must examine and evaluate all negative findings related to active treatment, and if determined to be significant, those findings should be cited at the salient tag numbers related to each of the components

of the active treatment process. When review of those deficiencies leads to the conclusion that active treatment is not being received, then this standard and the explicit statutory requirement for active treatment at §1905(d)(2) of the Social Security Act are not met. A determination of noncompliance with this requirement, therefore, must also result in a determination of noncompliance at the Condition of Participation level for Active Treatment Services and at §440.150(c), tag number W100.

Although the active treatment process must be identifiable in documentation, it must be observable in daily practice. Determine how the ICF/MR accomplishes (or fails to accomplish) an environment of competence that enables active treatment to occur.

483.440(a)(2) The regulations define the target population eligible for the ICF/MR benefit, by defining the services that are required for a facility to provide in order for it to qualify as an ICF/MR and receive Federal Financial Participation (FFP). At the front end, one of the “required services” is training in basic fundamental skills. The type of skills described in W242, by their very nature, target a population who have significant deficits in growth and development.

The presence of any group of individuals (court-ordered or not), could call into question the overall nature of the services provided by the ICF/MR. Individuals displaying some or all of the characteristics described in the Interpretive Guideline at §483.440(b)(1), do not “need active treatment services” or ICF/MR level of care, and are not appropriately placed. Agencies which provide residential services to persons with mental retardation do not qualify automatically for participation in Medicaid as ICFs/MR. Although the facility may be providing services to meet the needs of these types of individuals, the services provided by the facility do not meet the regulatory definition of “active treatment.”

Furthermore, if the primary purpose of the facility is no longer to provide services to persons with mental retardation or related conditions who are in need of active treatment, then the facility does not meet the statutory requirement at §1905(d) of the Social Security Act and the regulatory definition of an ICF/MR, and therefore cannot be certified. A determination of noncompliance with this requirement, therefore, must result in a determination of noncompliance at the Condition of Participation level and at §440.150(c).

Conversely, if the overall facility meets the definition of an ICF/MR, the law does tolerate the presence of a few individuals for whom payment cannot be claimed. If an entity must serve both people who are generally independent and people who are in need of active treatment, then the entity may need to consider establishing a distinct part ICF/MR to serve those individuals who are in need of active treatment.

Negative findings about active treatment with regard to generally independent clients may be in conflict with level of care determinations made by State inspection of care (IOC) teams. Bring these negative active treatment findings to the attention of the IOC agency within the State for appropriate disposition of Medicaid ICF/MR certification. (See also W198, if the negative findings involve newly admitted individuals.)

There are some individuals who need the help of an ICF/MR to continue to function independently because they have learned to depend upon the programmatic structure it provides. The fact that they are not yet independent, even though they can be, makes it appropriate for them to receive active treatment services directed at achieving needed and possible independence.

483.440(b)(1) Individuals with the following characteristics do not necessarily require a continuous active treatment program in order to function or to achieve optimal independence. Review closely to what extent the ICF/MR serves individuals, who in the aggregate:

- Are independent without aggressive and consistent training;
- Are usually able to apply skills learned in training situations to other settings and environments;
- Are generally able to take care of most of their personal care needs, make known to others their basic needs and wants, and understand simple commands;
- Are capable of working at a competitive wage level without support, and to some extent, are able to engage appropriately in social interactions;
- Are engaged in productive work within the facility which is done at an acceptable level of independence (i.e., not done as part of a training program to teach the individual new skills);

- Are able usually, to conduct themselves appropriately when allowed to have time away from the facility's premises; and
- Do not require the range of professional services or interventions in order to make progress.

Based on the order of a court, the ICF/MR may be required to admit individuals who do not need active treatment. Although CMS has no jurisdiction to prevent the courts from ordering the placements of such individuals into institutions certified as ICFs/MR, the individuals, by definition, would be ineligible to be classified by Medicaid for the ICF/MR benefit. To the extent that the placement of these court-ordered individuals does not interfere with the ability of the ICF/MR to provide active treatment for its individuals, the facility's overall certification is not affected.

483.440(b)(2) No admission should be regarded as permanent. Readmission of an individual to the ICF/MR falls under the same requirements as initial admission.

In the absence of State regulations designating the person(s) authorized to approve admission (e.g., State or Regional Admissions Committees), the decision to admit an individual to the ICF/MR is based on the findings of an interdisciplinary team, including a QMRP.

Occasionally, emergency admissions of individuals may occur without benefit of a preliminary evaluation having been conducted prior to admission. For purposes of §483.440(b)(2) and consistent with §456.370(a), this requirement will be considered as "met" at such time that an evaluation is conducted which supports the need for an individual's placement in the ICF/MR. Refer to W210.

483.440(b)(3) The facility must decide, based on objective data, whether or not needs can be met. In some cases, the facility may be required to meet the "reasonable accommodation" requirement of the Americans with Disabilities Act. Failure to admit individuals merely because they have a particular medical condition may constitute a civil rights violation. All such instances should be reported to the Office of Civil Rights for investigation.

483.440(b)(4)(i) "Transfer" means the temporary movement of an individual between facilities, the temporary movement from the ICF/MR to a psychiatric or medical hospital for medical reasons, the permanent movement of an individual between living units of the same facility, or the permanent movement of an entire facility (including individuals served, staff and records) to a new location. "Discharge" means the permanent movement of an individual to another facility or setting which operates independently from the ICF/MR. Moving an individual for "good cause" means for any reason that is in the best interest of the individual.

483.440(b)(4)(ii) The family and the individual should be involved in any decision to move an individual, since this decision generally, should be part of a team process that includes the individual or guardian. If an individual has an advocate, the advocate should participate in the decision-making process.

483.440(b)(5)(ii) The discharge plan required by 42 CFR 456.380 and the post-discharge plan of care are the same. The regulations require only one discharge plan which meets the requirements.

483.440(c)(1) There is no "correct" number of individuals who comprise the interdisciplinary team. The regulation also does not specify the professional disciplines which make up the interdisciplinary team. Based upon outcomes, assess whether the expertise available to the team was appropriate to meet the needs of the individual.

The facility must make every effort to coordinate the IEP or program plan from an outside day program with the IPP process. This may result in a single IEP/IPP document, but there is no requirement for the IPP to be one document. The "collective" IPP must contain the information required under the regulations, and observation should confirm integration of the IPP across the various settings.

Negative answers to the following probes may indicate a lack of input from appropriate team members. Evaluate findings for systemic lack of input by a particular team member, lack of communication among team members, or lack of team effort and cooperation.

483.440(c)(2) Meetings should be scheduled and conducted to facilitate the participation of all members of the team, but especially the individual, unless he or she is clearly unable or unwilling, the individual's parents (except in the case of a competent adult who does not desire them to do so) or the individual's guardian or legal representative. The ICF/MR is expected to pursue aggressively the attendance of all relevant participants at the team meeting, (e.g., a conference call with a consultant during deliberations meets this requirement). Question routine "unscheduled" absences by individuals, guardians and

particular disciplines or consultants, and determine the impact on effectiveness and responsiveness of the IPP to meet the individual's needs.

483.440(c)(3) "Accurate" assessments refer to assessment data that are current, relevant and valid, and that the skills, abilities, and training needs identified by the assessment correspond to the individual's actual status. Additionally, for assessment data to be accurate, the cultural background and experience of the individual must be reflected in the choice, administration and interpretation of the evaluation(s) used. A few examples of appropriate adaptations might be: specialized equipment, use of an interpreter, use of manual communication, tests designed to measure performance in the presence of visual disability, etc.

The contents of assessments or the particular assessment which must be used are not specified. A nursing assessment, for example, would not need to reference all domains, or a psychiatric or psychological evaluation would not necessarily have to be based on a particular "tool." Similarly, the results of the comprehensive assessment are not required to be written into a narrative report(s). Verify that the tests, evaluations, etc. that comprise the comprehensive functional assessment, yield data that are accurate, reflect the current status and needs of the individual, and can serve as a functional basis for an IPP to be developed.

483.440(c)(3) The active treatment assessment process should be sensitive to the behaviors of individuals throughout their life span. For example, infants and toddlers are expected to engage in more play-related, exploratory activities, adolescents are expected to engage in activities of increasingly greater responsibility in preparation for adulthood, adults are expected to support themselves or at least be engaged in training or education activities toward that end, and elderly citizens, are expected to choose whichever form of productive activity meets their needs and interests (employment, handiwork, pursuit of leisure, etc.) for as long as they are able.

483.440(c)(3)(i) In the presence of a diagnoses (medical or otherwise), evaluation data must be available to support the determination.

483.440(c)(3)(ii-iii) The comprehensive functional assessment (CFA) may be a report synthesizing the results of salient assessments or a series of reports. If individual reports are utilized, the complete diagnostic work-up or problem list identified by others is not required to be repeated unless it is relevant to the particular assessment. Findings are recorded in terms that facilitate clear communication across disciplines. Diagnoses or imprecise terms and phrases (including, but not limited to, "grade level," "age level," "developmental level," "good attending skills," and "poor motor ability") in the absence of specific terms, are not acceptable.

Assessment of the behavior assumed to be maladaptive should include analyses of the potential causes, such as lack of exposure to positive models and teaching strategies, lack of ability to communicate needs and desires, lack of success experiences, a history of punishing experiences, presence of a physiological condition, or other environmental or social conditions which may elicit or sustain the behavior.

Specific "developmental" strengths and needs describe what the individual "can" and cannot do.

483.440(c)(3)(iv) In the presence of significant developmental deficits, it is not acceptable for the comprehensive evaluation to identify that a particular professional therapy or treatment is not needed. To meet the requirement for "need for service," the assessment must identify the course of specific interventions recommended to meet the individual's needs in lieu of direct professional therapy or treatment.

483.440(c)(3)(v) The facility must assess in developmental areas, but not by professional disciplines unless the functional assessment shows a need for a full professional evaluation. Findings relative to the domains required under §483.440(c)(3)(v) include, but are not limited to:

483.440(c)(3)(v) 1. Physical development and health. Physical development includes the individual's developmental history, results of the physical examination conducted by a licensed physician, physician assistant, or nurse practitioner, health assessment data (including a medication and immunization history), which may be compiled by a nurse, and skills normally associated with the monitoring and supervision of one's own health status, and administration and or scheduling of one's own medical treatments. When indicated by physical examination results, consultations by specialists are provided

or obtained. The need for advance directives or do not resuscitate (DNR) orders may be assessed on a case-by-case basis, as part of this area by individuals qualified to do so.

483.440(c)(3)(v) 2. Nutritional status. Nutritional status includes determination of appropriateness of diet, adequacy of total food intake, and the skills associated with eating, (including chewing, sucking and swallowing disorders), food service practices, and monitoring and supervision of one's own nutritional status.

483.440(c)(3)(v) 3. Sensorimotor development. Sensory development includes the development of perceptual skills that are involved in observing the environment and making sense of it. Motor development includes those behaviors that primarily involve: muscular, neuromuscular, or physical skills and varying degrees of physical dexterity. Because sensory and motor development are intimately related, and because activities in these areas are functionally inseparable, attention to these two aspects of bodily activity is often combined in the concept of sensorimotor development. Assessment data identify the extent to which corrective, orthotic, prosthetic, or support devices would impact on functional status.

483.440(c)(3)(v) 4. Affective (Emotional) development. Affective or emotional development includes the development of behaviors that relate to one's interests, attitudes, values, and emotional expressions.

483.440(c)(3)(v) 5. Speech and language (communication) development. Communication development refers to the development of both verbal and nonverbal and receptive and expressive communication skills. Assessment data identify the appropriate intervention strategy to be applied, and which, if any, augmentative or assistive devices will improve communication and functional status.

483.440(c)(3)(v) 6. Auditory functioning. Auditory functioning refers to the extent to which a person can hear and to the maximum use of residual hearing if a hearing loss exists and whether or not the individual will benefit from the use of amplification, including a hearing aid or a program of amplification. An individual's treatment might need to include being desensitized to tolerate the use of a hearing aid or assistive listening device to prevent the device from being rejected or destroyed. Assessment may include teaching techniques for conducting the assessment or the use of electrophysiologic techniques.

483.440(c)(3)(v) 7. Cognitive development. Cognitive development refers to the development of those processes by which information received by the senses is stored, recovered, and used. It includes the development of the processes and abilities involved in memory, reasoning and problem solving.

483.440(c)(3)(v) 8. Social Development. Social development refers to the formation of those self-help, recreation and leisure, and interpersonal skills that enable an individual to establish and maintain appropriate roles and fulfilling relationships with others.

483.440(c)(3)(v) 9. Adaptive behaviors or independent living skills. Adaptive behavior refers to the effectiveness or degree with which individuals meet the standards of personal independence and social responsibility expected of their age and cultural group. Independent living skills include, but are not limited to, such things as meal preparation, doing laundry, bed-making, and budgeting. Assessment may be performed by anyone trained to do so. Standardized tests are not required. Standardized adaptive behavior scales which identify all or predominantly all "developmental needs" are not sufficient enough to meet this requirement, but can serve as a basis for screening.

483.440(c)(3)(v) 10. Vocational (prevocational) development, "as applicable." Vocational development refers to work interests, work skills, work attitudes, work-related behaviors, and present and future employment options. The determination of whether or not a vocational assessment is "applicable" is typically based on age (adolescents or adults more than likely require this type of assessment).

483.440(c)(4) The presence of a comprehensive list of behaviorally stated needs is acceptable for this portion of the requirement. "Comprehensive" means that objectives are stated for the needs identified in each domain included in the comprehensive functional assessment.

Objectives may address services to be provided, learning/treatment needs, adaptive equipment, etc., §§483.440(c)(4)(i)-(v) regulate requirements for current IPP training objectives (as opposed to staff, service, or long term objectives).

Validate that the needs identified by the team are appropriate for the individual based upon review of the comprehensive functional assessment data, observations, and interviews with the individual and staff.

483.440(c)(4) To organize objectives into a planned sequence the ICF/MR must consider the outcomes it projects for the individual in the long term. For example, if the long term objective is for the individual to travel independently in the community, the planned sequence may involve training the individual to recognize traffic signs, cross a street safely, and to obtain help when needed if lost or an emergency arises. Interview staff to discover the purpose to be achieved upon completion of the objective. For example, does staff know why an individual is taught to stack rings?

483.440(c)(4)(i) “Single” behavioral outcome means that for each discrete behavior that the team intends the individual to learn a separate objective is assigned. (For example, “Mary will bake a cake and clean the oven” are two separate behaviors and, therefore, should be stated in two separate objectives.) Performance of a series of separate behaviors could constitute a single behavioral outcome when appropriate for the individual. For example, completing a hygiene routine of face washing, tooth-brushing and hair-combing is one behavioral outcome when the individual is able to perform each of those skills, but needs to learn to complete the entire routine each morning.

483.440(c)(4)(ii) The “projected date of completion” for an IPP objective is not the same as a “review” date. For each objective assigned priority, the team should assign a projected date (month and year) by which it believes the individual will have learned the new skill, based on all of the assessment data. This date triggers the team to evaluate continuously whether or not the individual’s progress or learning curve is sufficient to warrant a revision to the training program. There is no requirement to identify an implementation date for each objective in the plan.

483.440(c)(4)(iii) “Behavioral” terms include only those behaviors which are “individual” rather than “staff” oriented and those that any person would agree can be seen or heard. Determine if all staff who work with the individual can define the exact same outcome on which to measure the individual’s performance. “Measurable indices of performance” are the quantifiable criteria to use in determining successful achievement of the objective. Criteria include various measurements of intensity and duration. For example, “M. will walk ten feet, with her tripod walker, for 5 consecutive days.”

483.440(c)(4)(iv) To organize an objective in an appropriate progression, the ICF/MR must consider the person’s current functional abilities and project what steps, methods and strategies are likely to be effective in achieving the objective. Baseline data are one means of establishing an appropriate starting point for an objective. Objectives must be adapted based upon the person’s functional abilities. For example, if the objective is to learn to put on shoes independently and the person does not have the manual dexterity to tie shoe laces, then the objective could include the use of slip-on shoes or shoes with velcro closures in order to facilitate the person learning this skill.

483.440(c)(4)(v) After all the training objectives have been established as required by W227, the IPP identifies those objectives which the team considers to be most important, or which need to be implemented before others can be accomplished, and then assigns them priority. Some examples of assigning priority include, but are not limited to, rank ordering (most important to least important), assignment of “priority” or “non-priority,” etc.

483.440(c)(5) The written training program refers only to those objectives to which the team has assigned priority status for formal implementation.

483.440(c)(5)(iii) This may or may not be the same person who implements the program. There is no requirement to identify who implements the program.

483.440(c)(5)(iv) The facility must determine the type of data necessary to judge an individual’s progress on an objective, and describe that data collection method in the written training program. The facility determines what data to collect, but the system chosen must yield accurate measurement of the criteria stated in the individual’s IPP objectives. For example, if the criteria in the individual’s IPP objective specified some behavior to be measured by “accuracy,” or “successes out of opportunities,” then it would not be acceptable for the prescribed data collection method to record “level of prompt.”

Methods of data collection on IPP training programs should be based on the total (including direct care) facility’s staff analysis and observations of an individual’s behavior. Examples of a few data

collection systems include, but are not limited to, level of prompt, successful trials completed out of opportunities given, frequency counts, frequency sampling, etc. The facility should collect data with enough frequency and enough content that it can measure appropriately the individual's performance toward the targeted IPP objective.

483.440(c)(6)(iii) The receipt of training targeted toward amelioration of these most basic skill deficit areas is a critical component of the active treatment program needed by individuals who are eligible for the ICF/MR benefit, and therefore, is a required ICF/MR service. Some ADL skills overlap with each other (e.g., personal hygiene, oral hygiene, grooming and bathing). It is acceptable for the interdisciplinary team to set priorities within these overlapping skills. It must be clear, however, that the facility has organized its services to emphasize training in these areas. This will be seen not only in the IPP, but also in the competent interaction of staff with individuals, in both formal and informal settings. This basic skill training defines the nature of ICF/MR services. To the extent that individuals demonstrate that they increasingly do not need the types of services described in this requirement, and increasingly correspond to the characteristics of clients described at W197 such that the "overall" nature of the facility services would not be required to provide the type of emphasis described at W242, question the appropriateness of the individual's placement in an ICF/MR and/or the certification of the facility as an ICF/MR (see W197 and W198).

"Training" as used in this regulation means:

Aggressive implementation of a systematic program of formal and informal techniques (competent interactions);

Continuously targeted toward the individual achieving the measurable behavioral level of skill competency specified in IPP objectives;

Conducted in all applicable settings; and

Conducted by all personnel involved with the client.

"Developmental incapability" is a decision to be made by the interdisciplinary team based on its assessment of the individual's developmental strengths and needs. For example, there is ample evidence that even individuals with the most severe physical and mental disabilities can be toilet trained. Recognition is given to the fact that some individuals, however, have insufficient sensory and neuromuscular control ever to be totally independent in toileting skills. For most of this group, there are intermediate steps which can be achieved, including toilet scheduling, in which the individual is able to be trained to a schedule of elimination with needed assistance from staff. The intent of the toileting part of this regulation is met if there is evidence that the individual has been provided an aggressive, well organized, and well executed toilet training program in the past and that the team determines the individual's "developmental incapability."

483.440(c)(6)(iv) Mechanical devices used to support an individual's proper body position or alignment may be essential to prevent contractures and deformities, but the staff should be sensitive to the fact that mechanical supports may restrict movement and the individual should not be in the supports all the time or as a substitute for programs or therapy which may reduce the dependency on the support. Some supports allow movement and provide opportunity for more increased functioning. Some examples of devices used as mechanical supports include splints, wedges, bolsters, lap trays, etc.

Wheelchairs are not generally used to position or align the body and would not alone constitute a mechanical support. However, adaptations to wheelchairs which do position or align the body would have to be specified according to this requirement. Adaptations to a wheelchair which facilitate correct body alignment by inhibiting reflexive, involuntary motor activity are also mechanical supports.

483.440(c)(6)(v) With the exception of those individuals who are acutely ill (such as those who are hospitalized or incapacitated by a short term illness), all individuals should be out of bed and outside their bedroom area as long as possible each day, and in proper body alignment at all times. This is a necessity in order to prevent regression, contractures, and deformities and to provide sensory stimulation.

Question patterns of bed rest "orders" or "scheduled" bed rest as a routine part of an individual's program. A nap period of an hour, for example, is not "bed rest." However, if the ICF/MR, as a general pattern of scheduling, expects an individual to be one - two hours in bed in the morning, one - two hours in bed in the afternoon, and an 8:00 p.m. bedtime in the evening, for example, then the practice becomes

“bed rest,” and the intent of the regulation will more than likely not be met. Question seriously large amounts of time during which a resident is confined to bed.

483.440(c)(6)(vi) Due to the basic underlying importance “choice” plays in the quality of one’s life, the ICF/MR should maximize daily activities for its individuals in such a way that varying degrees of decision-making can be practiced as skills are acquired. Examples of some activities leading toward responsibility for one’s own self-management include, but are not limited to, choosing housing or roommates, choosing clothing to purchase or wear, choosing what to eat, making and keeping appointments, and choosing from an array of appropriate activities. Interview staff to determine how attitudes and activities of the team and consultants facilitate or impede individual choice.

Choices can be made by all individuals. The type of choices the person makes may vary from very simple to more complex, depending upon individual abilities. Look at choices in the context of the individuals served by the facility.

483.440(d)(1) For an individual newly admitted to the ICF/MR, the time period between admission and the 30 day interdisciplinary team meeting should be primarily for purposes of assisting the individual to become adjusted and acclimated to his or her new living environment and completing the functional assessment. During this time period the facility should also be providing those services and activities determined during the pre-admission assessment as essential to the individual’s daily functioning. In order to be able to produce the comprehensive assessment, the facility must evaluate the individual’s status in as many naturally occurring, functional environments as possible.

It must be clear that the active treatment program received by the individual is internally consistent and not simply a series of disconnected formal intervention applications within certain scheduled intervals.

The criteria of what constitutes a “sufficient number and frequency of interventions” are based on the individual’s assessment and the progress the individual makes toward achieving IPP objectives.

Whether “structure” must be imposed by staff or whether the individual can direct his or her own activities for a period of time (without direct staff observation) is based on the individual’s ability to engage in constructive, age-appropriate, adaptive behavior (without engaging in maladaptive behavior to self or others). Be certain that an individual’s time in the home or living unit is maximized toward the further development and refinement (including self-initiation) of appropriate skills, including, but not limited to, leisure and recreation.

For the active treatment process to be effective, the overall pattern of interaction between staff and individuals must be accountable to the comprehensive functional assessment and the IPP process. During the overall observation of individuals, you should be able to track that: the individual’s comprehensive assessment identified the specific developmental need or strength justifying the activity, technique or interaction; in the case of a “need,” the team projected a measurable objective or target to address it; and the technique, interaction, or activity which is observed, produced the desired target, produced a close approximation of the target, or was modified based on the individual’s response.

483.440(d)(2) The active treatment schedule directs the intensity of the daily work of the staff and the individuals in implementation of the IPP in both informal and formal training activities. To the extent possible, the schedule provides a range of options, rather than a fixed regimen. Individuals should have opportunities to choose activities and to engage in them as independently and freely as possible. Staff routines and schedules should be supportive of this goal and result in the presence of reasonable choices by individuals. Investigate any pattern of staff action or scheduling which results routinely in all or the majority of individuals engaging in the same activity or routine at the same time. For example, everyone is out of bed, awake and dressed before staff on the third shift go home, or everyone goes to bed before the third shift arrives.

The active treatment schedule is not required to be posted.

While the facility should have the individual’s schedule from the day program, there is no requirement that this schedule and the residential schedule be merged into one document.

483.440(d)(3) The facility is responsible for ensuring that during staff time spent with individuals, the staff member is able to provide needed interventions or reinforce acquired skills in accordance with the

IPP. This is one of the ways the ICF/MR implements continuous active treatment. “All” staff includes direct care staff.

The activities of the ICF/MR are coordinated with other rehabilitative and training activities in which the individual may participate outside of the ICF/MR, and vice versa.

483.440(e)(1) Data collection is evidence of individual performance and should not be taken constantly as evidence for surveyors that “treatments” occurred. “Data” are defined to be performance information collected and reported in numerical or quantifiable form on training objectives assigned priority in the IPP.

Data are those performance measurements recorded at the time the treatment, procedure, intervention or interaction occurs with the individual. They should be located in a place accessible to staff who conduct training.

483.440(e)(2) See also §483.410(c) Client Records.

483.440(f)(1)(i) - (iv) The interval within which IPP reviews are conducted is determined by the facility. However, the facility’s review system must be sufficiently responsive to ensure that the IPP is reviewed whenever the conditions specified in §§483.440(f)(1)(i-iv) occur. Information relevant to IPP changes should be recorded as changes occur.

483.440(f)(2) For the “annual” review to meet the requirement, it must be completed by at least the 365th day after the last review. The ICF/MR may be required to conduct reviews at more frequent intervals by other, more stringent regulations (e.g., 90 day reviews required by §456.380(6)(c), State regulation, etc.). The facility’s failure to comply with these other, more stringent regulations would NOT be cited under this requirement. Refer cases of suspected non-compliance to the authority having jurisdiction for the regulations in question.

483.440(f)(2) The review of the CFA applies to all evaluations conducted for an individual, unless otherwise specified in the regulation (e.g., annual physical examination). It is not required that each assessment be completely redone each year. It is required that at least annually the assessment(s) be updated when changes occur so as to accurately reflect the individual’s current status. Systematic behaviorally stated data become part of the comprehensive functional evaluation of the individual.

483.440(f)(2) Look for IPPs that are unchanged from one year to the next, for priority skills and behaviors that are deferred or ignored for one reason or the other, and for informal, vague, and programmatically worthless statements in the review (such as “John did better this year - he wasn’t as upset most of the time like he used to be”). If the ICF/MR has not been providing the individual with a systematic, behaviorally-oriented active treatment program during the year, the review will be incapable of making systematic, behaviorally-oriented statements about progress and change. If you find problem behaviors which do not decrease significantly, relatively frequent usage of restraint or other intrusive restrictive procedures, a “plateauing” (e.g., reaches partial desired performance, but does not improve over time and staff does not reassess) of skills development, or any other signs of “sameness” year after year, questions should be raised about the extent to which the ICF/MR is providing active treatment, the adequacy of IPPs, staff training, etc., particularly, if many individuals’ annual reviews reveal these characteristics.

483.440(f)(3) Depending on its size, complexity and available resources, the ICF/MR may establish one multi-purpose committee to serve it for all advisory functions, or it may establish separate single-purpose committees. The facility’s human rights committee may be shared among other agencies or the ICF/MR may utilize a human rights committee established by another governing body, e.g., a county or a statewide group, as long as all pertinent regulatory requirements are met.

The regulation does not specify the professional credentials of the “qualified persons who have either experience or training in contemporary practices to change inappropriate client behavior.” There is no requirement that any specific disciplines, such as nurse, physician or pharmacist be members of the committee.

The intent of including “persons with no ownership or controlling interest” on the committee is to assure that, in addition to having no financial interest in the facility, at least one member is an impartial outsider in that he/she would not have an “interest” represented by any other of the required members or the facility itself. Staff and consultants employed by the facility or at another facility under the same governing body cannot fulfill this role.

Although occasional absences from committee meetings are understandable, patterns of absence by the required membership of the committee is not acceptable. At least a quorum of committee members must review, approve and monitor the programs which involve risk to client rights and protections. Depending upon the size of the facility and the number of individuals who need intrusive or restrictive techniques as a part of active treatment programs, more than one specially constituted committee may be needed to effectively meet the intent of the regulation. The facility is responsible to organize itself in a manner which permits the timely review of proposed programs.

483.440(f)(3)(i) Each individual program developed to decrease inappropriate behavior and which involves potential risk to rights and protections must be reviewed and approved by the committee prior to the program's implementation. Some examples of programs requiring review include, but are not limited to, programs incorporating usage of restraints, aversive conditioning, any medication used to modify behavior, contingent denial of any right or "earning" of a right as part of a behavior shaping strategy, and behavioral consequences involving issues of client dignity. There is no requirement for the committee to function as a peer review for technical or clinical adequacy of plans submitted for approval. The purpose is to assure that each individual's rights are protected through use of a group of outside individuals who are not invested in the maintenance of facility practices. The committee reviews the context by which each program is recommended, and then evaluates whether the program's level of intrusiveness is warranted. The committee should consider factors such as whether less intrusive methods have been attempted and whether the severity of behavior outweighs the risks of the proposed program.

The committee need not reapprove a program when revisions are made, as long as those revisions are in accordance with the approved plan. For example, if the physician changes the dosage of a medication in accordance with the drug treatment component of the active treatment plan to which the legally authorized person has given consent and which has already been approved by the committee, then there is no need for the committee or the legally authorized person to reapprove the plan. (See also W263.) Generally, this would also apply if the medication was changed to another within the same therapeutic class or family. Reapproval would be needed, however, if the reason for the change was the individual's strong untoward response to the original medication. Due to the differences in side effects and potential adverse response between drugs of a different class, reapproval would also be required if the new medication was from a different therapeutic class or family of drugs.

483.440(f)(3)(ii) Informed consent consists of permission by the legally responsible party after having been informed of the specific issue, treatment or procedure; the individual's specific status with regard to the issue, treatment or procedure; the attendant risks and benefits; alternative forms of treatment; the right to refuse treatment and the consequences of that refusal. Informed consent implies that the person who is to give consent is competent to evaluate the decision requiring consent.

For children up to the age of 18 the parent (natural guardian) or legally appointed guardian must give consent for him or her. At the age of 18, however, children become adults and are assumed to be competent unless otherwise determined by a court.

For individuals who are minors or who are clearly incompetent, but have no appointed legal guardian, informed consent for use of restrictive programs, practices or procedures must be obtained from the legal guardian, parent or someone or some agency designated by the State, in accordance with State law, to act as the representative of the individual's interests. Become familiar with the statutes of the State in which the ICF/MR is located to determine who or what mechanism is designated to give informed consent in such circumstances. Verify whether or not consent was obtained in accordance with law. Additionally, under these circumstances, the facility is required to identify those individuals, and expected to advocate for them by demonstrating continuing efforts to obtain timely adjudication of the individual's legal status.

The committee must ensure that the informed and voluntary consent of the individual, parent of a minor, legal guardian, or the person or organization designated by the State is obtained prior to each of the following circumstances: the involvement of the individual in research activities, or implementation of programs or practices that could abridge or involve risks to individual protections or rights.

Informed consent should be specific, separate (“blanket” consents are not allowed), and in writing. In case of unplanned events requiring immediate action, verbal consent may be obtained, however, it should be authenticated in writing as soon as reasonably possible.

483.440(f)(3)(iii) The function of the committee is not limited to the review, approval and monitoring of restrictive behavior management practices. Examples of individual rights issues that might be reviewed by the committee, in addition to behavior management, include, but are not limited to, research proposals involving individuals, abuse, neglect and mistreatment of individuals, allegations dealing with theft of an individual’s personal property or funds, damage to an individual’s goods or denial of other individual rights, individual grievances, visitation procedures, guardianship/advocacy issues, rights training programs, confidentiality issues, advance directives/DNR orders, etc.

483.450(a)(1) “Conduct between staff and clients” refers to the language, actions, discipline, rules, order, and other types of interactions exchanged between staff and individuals or imposed upon individuals by staff during an individual’s daily experiences and which affect the quality of an individual’s life.

While the regulation requires the development of written policies and procedures, the primary survey emphasis should be placed on the latter aspect of the regulation, i.e., implementation of those policies and procedures. Observations of interactions between staff and individuals should confirm that, to the maximum extent possible, individuals are provided with opportunities for growth and self-determination.

Individual’s dignity is respected by staff and their behavior is within the context of any rules of conduct which have been established.

483.450(a)(1)(iii) “Client conduct” refers to any behavior, choice, action, or activity in which an individual may choose to engage alone or with others. The policy or “house rules” include(s), for example: allowable individual conduct (e.g., swearing or cursing, freedom of choice in religion, consumption of alcohol, smoking, sexual relations), reasonable locations where this conduct may or may not occur, and parameters for decision-making when an individual’s choice conflicts with the group’s choice (e.g., consensus, voting, taking turns, negotiation of differences).

“House rules” on the other hand, may not authorize staff or other individuals served to use a “laundry list” of discipline techniques to control an individual’s inappropriate behavior, without regard to individualized need. If it is determined that staff must use a technique or intervention, then its use must be incorporated into an individual program plan that meets all applicable requirements specified in §483.450(b)-(e). Refer to W123.

483.450(b)(1) Use of items, procedures, or systems which are potentially stigmatizing to the individual or otherwise would represent a substantial departure from the behavior of comparable peers without disabilities, to control or prevent inappropriate behavior, falls under this requirement as well. (For example, requiring an individual to live in a locked residence and not providing the individual with a key, using a high crib with bedrails for an adult who gets out of bed at night and wanders or upsets other individuals, requiring an individual who strips off his clothes at inappropriate times to wear a jumpsuit turned backwards, or other odd usages of fashion.)

483.450(b)(1)(iii) You should see clear evidence to justify the use of a more restrictive technique. This requirement does not take away the team’s discretion to use technology which represents reasonable standards of good practice, but it does require that there be evidence that justifies any decision not to use a positive or less restrictive technique first. Based on extraordinary circumstances resulting in an emergency, a facility may need to use a more restrictive method of intervention to protect the individual and others from harm than is consistent with the hierarchy it has established. This regulation does not prohibit a facility from using good judgment in this situation.

The surveyor should assess the use of emergency restrictive interventions to assure that the facility could not have reasonably anticipated the behavior, and verify that the team has reviewed the individual program plan for its adequate attention to the problem precipitating the emergency measure.

The facility is not required to justify discontinuing the use of a more restrictive technique before initiating a less restrictive technique, since the intent of the regulation is to use the most positive, least intrusive technique possible.

483.450(b)(5) Ongoing authorization for “programs” or “programmatic usages” of restrictive techniques, in the absence of evidence to justify such usage, constitutes a “standing” or “as needed program” to control inappropriate behavior, and are therefore not permitted.

483.450(c)(1) The use of time-out rooms is effective only if the individual does not like to be removed from an activity or from people. Look for patterns of frequent, lengthy time-out usage which often indicates that the environment is not reinforcing to the individual (i.e., the activities in and of themselves are not engaging, and/or the scheduled activities are potentially engaging yet the schedule is not implemented). If the individual who is in a time-out room engages in self-abuse, becomes incontinent or shows other signs of illness, staff should immediately discontinue the procedure and intervene.

Verify whether or not anyone standing or lying in any position, in any part of the time-out room can be seen.

Key locks, latch locks, and doors that open inward without an inside doorknob are not devices or mechanisms which require constant physical pressure from a staff member to keep a door shut, and, therefore, are not permitted by the regulations.

Pressure sensitive mechanisms must allow staff to enter the room at the moment the need arises.

483.450(c)(3) A door that opens inward can potentially be held closed, either intentionally or inadvertently, by the individual in the room, thereby denying staff immediate access to the room.

483.450(d)(1)(ii) “Emergency measure” is defined as use of the least restrictive procedures and for the briefest time necessary to control severely aggressive or destructive behaviors that place the individual or others in imminent danger when those behaviors reasonably could not have been anticipated, and only as they are necessary within the context of positive behavioral programming. Examine closely how frequently “emergency measures” are employed. Repeated applications of such measures within short intervals of time, without subsequent incorporation into a written active treatment program, as required by §483.440(c), raises serious questions about the individual’s receipt of active treatment and the individual’s right to be free from unnecessary restraint.

483.450(d)(2) The facility determines who may authorize use of emergency restraints.

483.450(d)(2)(i) The specific 12-hour authorization and re-authorization to use or extend usage of physical restraints does not apply to restraints used as an integral part of the individual program plan or to those that qualify as a health-related protection, as defined in the regulation.

483.450(d)(2)(ii) This refers to the reporting and retrospective authorization of the emergency measure when no prior use authorization could be obtained due to the seriousness and immediacy of the event.

483.450(d)(4) The frequency of monitoring will vary according to the type and design of the device and the psychological and physical well-being of the individual. For example, an individual in four-point restraints might require constant monitoring while someone in soft mittens may require less frequent monitoring. It is also true that for some individuals, constant visual supervision would serve to reinforce the inappropriate behavior and thereby reduce the clinical effectiveness of using the restraint. However, in no case may the 30 minute time limit be extended.

“As quickly as possible” means as soon as the individual is calm or no longer a danger to self or others.

483.450(D)(6) “Motion and exercise” includes an opportunity for liquid intake and toileting, if needed by the individual.

483.450(d)(6) In the presence of a restraint being worn during sleeping hours, surveyors must determine whether it is truly the nature of the individual’s behavior which warrants this significant level of intrusion, or whether it in fact is a substitute for lower staffing during night time hours. The “motion and exercise” requirement applies to all restraints which restrict the range of motion of a limb or joint. Therefore, for example, if a helmet is applied to protect a head wound during sleeping hours, and the individual’s range of motion in the neck has not been affected, then this requirement does not apply.

This requirement also does not apply to cases of medical restraints that are specifically ordered for the immobilization of bones and joints during the physical healing process involved with fractures, sprains, etc. (e.g., a broken bone immobilized by a cast or splint). However, if a physical restraint was applied to an extremity to prevent an individual from removing post-operative sutures, the restraint would be required to be released every two hours for a period of not less than 10 minutes.

Even though usage of mechanical supports, defined at §483.440(c)(6)(vi), may confine the movement of an individual, W306 does not apply to such usage.

483.450(e)(1) Section 483.450(e)(1) applies to all medications, including medications prescribed to control inappropriate behavior.

Overmedication occurs for many reasons. For medications prescribed to control maladaptive behavior, the most common reasons are: the individual's maladaptive behavior may not be responsive to drugs (e.g., if an individual has a non-drug-responsive form of self injury, then use of psychotropics may simply lead up to maximum drug doses without suppressing the behavior), drug therapy may be exacerbating the behavior (e.g., if a drug-induced side effect is mistaken for agitation, then the physician may mistakenly believe that the individual is undermedicated and increase the dose), presence of polypharmacy within the same drug class may result in a drug dose that would exceed the maximum daily limit for any one drug, the individual may be receiving too frequent injections which may result in significant drug accumulation over time, and the use of daily medication plus PRN or stat (one time) doses may result in greater than the recommended daily doses being prescribed (especially since intramuscular administration may be up to four times as potent). Overmedication may also occur as a result of the interaction between drugs, whether these drugs were prescribed for control of inappropriate behavior, or for a physical or medical condition.

Administration of PRN or stat doses for periods greater than a few weeks may indicate that the individual's daily dose is sub-therapeutic, the problem will not respond to the prescribed drug or the drug is exacerbating the problem. In such instances, the surveyor should verify whether or not the drug regimen has been reassessed.

483.450(e)(2) For drugs to be an effective therapeutic tool, they must be prescribed only to the extent that they are necessary for normal medical management of the individual.

In an emergency, a physician may authorize the use of a drug to control an inappropriate behavior. However, orders for continued emergency drug usage cannot continue until the team gives approval and the drug's usage has been included in the plan. Psychotropic drug therapy may not be used outside of an active treatment program targeted to eliminate the specific behaviors which are thought to be drug responsive.

Although only a physician can prescribe medication, the decision to use medication for control of behavior must be based on input from other team members. W329 and W330 address the physician's participation in the person's individual program plan as part of the interdisciplinary team. The interdisciplinary team involvement in this decision-making process is inextricably linked to an obligation to develop and implement effective non-drug interventions that address the targeted behavior. This obligation requires constant monitoring of the non-drug interventions to determine its efficacy, and to determine whether the judicious use of drug therapy may at times be appropriate.

Individuals who receive psychoactive drugs for behaviors associated with a diagnosed mental disorder, require an active treatment program designed to reduce, ameliorate, compensate or eliminate the psychiatric symptoms. The psychiatric diagnosis must be based on a comprehensive psychiatric evaluation in which the evidence supports the conclusion of a psychiatric diagnosis as required by W212. The focus of active treatment, in this instance, would be on the mental health of the individual.

Drugs from categories other than the principle drug classes that have behavior controlling properties (e.g., antipsychotic, antianxiety, and antidepressants) are sometimes used to control inappropriate behavior. Examples include the use of propranolol (Inderal), which is classified as an antihypertensive and antianginal drug, for self-injurious behavior, and carbamazepine (Tegretol), which is an anticonvulsant, for aggression. The regulation was written to encompass any drug when its use is for purposes of controlling inappropriate behavior. This requirement does not apply to drugs, such as propranolol, when they are used to treat medical conditions. However, if their use (e.g. dose, duration, etc.) indicates that they are being used to control inappropriate behavior, the interdisciplinary team must be involved in the decision to use them, and they must be incorporated into the active treatment program plan.

In order for an individual to receive dental or medical treatment, the physician may need to prescribe a sedative as part of the normal medical management for that individual. This situation, occurring rarely,

would not require an active treatment program targeted toward elimination of the behavior. The decision to use sedation for medical appointments must be made on an individual basis, and with input from the interdisciplinary team. When the individual is regularly exhibiting behaviors that are interfering with the ability to receive routine medical and dental treatment, then use of the sedative is required to be incorporated into a specific active treatment program.

483.450(e)(4)(i) Unless the physician regularly evaluates the individual and meets with those who work most closely with the individual to review treatment progress, it will be difficult to assess whether the individual responded positively to the treatment.

Since each drug has a specific profile of side effects, potential reactions should be looked for by direct examination and questioning. It is important that everyone who works with the individual be aware of the conclusion drawn from these drug reviews.

In addition to monitoring at regular intervals, the individual should be assessed at the time the medication is changed, as well. Individuals receiving long term antipsychotic drug therapy should be examined regularly for motor restlessness, such as Parkinsonian symptoms or tardive dyskinesia.

483.450(e)(4)(ii) Planned drug withdrawals must be carefully instituted. For example, usage of antipsychotic drug therapy may not only cause tardive dyskinesia but may mask the clinical manifestations of tardive dyskinesia during treatment. This requirement applies only to drugs prescribed to modify behavior; therefore, if Thorazine is prescribed to decrease aggressive behavior, the annual drug withdrawal requirement applies. However, if Phenobarbital is prescribed to prevent seizures, or Insulin is prescribed to control diabetes, then this requirement does not apply.

In determining whether there is clinical contraindication to the annual drug withdrawal, the physician and interdisciplinary team should consider the individual's clinical history, diagnostic/behavioral status, previous reduction/discontinuation attempts, and current regimen effectiveness. The individual's current clinical status or the nature of a psychiatric illness may indicate that gradual withdrawal of the drug is unwise at this time. It is not acceptable, however, to preclude a gradual drug withdrawal for a person, including a person with a psychiatric impairment, merely because of the possibility that his or her behavior may be exacerbated. Data which shows a direct relationship between past attempts at withdrawal, and an increase in the targeted behavior or symptoms should be available to support the decision not to attempt a gradual withdrawal. This data should reflect the programmatic interventions utilized to respond to the behavior prior to determining that gradual withdrawal is contraindicated. The team should periodically re-evaluate the decision not to attempt a gradual withdrawal based on the individual's progress or other changes in clinical status.

483.460(a)(2) The use of a medical care plan is intended only for those who are so ill or so at medical risk that 24-hour licensed nursing care is essential. A medical care plan need not be developed unless the individual requires licensed nursing care around the clock. Thus, individuals with chronic, but stable health problems such as controlled epilepsy, diabetes, etc. do not require a medical care plan.

It is not required that an individual have a health deficit and/or a medical care plan in order to receive ICF/MR services. The regulation is sufficiently flexible that the entire range of individuals, from those in good physical health to those who are very medically fragile, may be served.

A medical care plan may be temporary, in that it may be established to address acute health problems and then discontinued when those problems are resolved.

483.460(a)(3) Medical services are provided as necessary to maintain an optimum level of health for each individual and to prevent disability. Medical services include evaluation, diagnosis and treatment, as needed, by individuals.

Medical services, including sources for laboratory, radiology, and other medical and remedial services available to the individual must be provided if not provided in-house. There must be a written agreement that specifies the responsibilities of the facility and outside provider. (See §483.410(a).)

483.460(a)(3)(i) This standard is intended to be an annual screening so that individuals who need further in-depth examination can be identified. If hearing screens are conducted annually by speech-language pathologists or audiologists the physical exam does not need to repeat this information.

Information relevant to knowing if the individual can see or hear, and how well, is tantamount for designing an appropriate active treatment strategy responsive to need.

If an individual's vision or hearing can only be assessed through examinations conducted by specialists (e.g., comprehensive ophthalmological examinations and evoked response audiometry (ERA)), these tests need not be conducted yearly, but rather upon specialist's recommendations. In such situations determine if yearly, the team evaluates the individual's vision and hearing response behaviors for change, and makes referrals, if necessary.

483.460(a)(3)(ii) These immunization guides can be obtained from the American Academy of Pediatrics, Elk Grove, IL, telephone: (708) 228-5005, or from the Centers for Disease Control, Division of Immunization Center for Preventive Services, telephone: (404) 639-8215.

483.460(a)(3)(iii) This does not preclude screening tests available to the general public such as tests for urine sugar.

483.460(a)(3)(iv) These recommendations can be obtained from the American Academy of Pediatrics, Elk Grove Village, IL, telephone: (708) 228-5005, or the American College of Chest Physicians, Northbrook, IL, telephone: (708) 498-1400.

The American College of Chest Physicians and the American Academy of Pediatrics endorse the recommendations of the Center for Disease Control and Prevention, Guidelines for Preventing the Transmission of Tuberculosis in Health Care Facilities, (most recent edition). The facility should have in place a system appropriate to its population for the identification, reporting, investigation, and control of TB in order to prevent its transmission within the facility. This system should include policies and procedures for screening new employees, new clients, and other people who interact on a consistent basis with individuals residing in the facility; for reporting positive TB test results to the appropriate State authorities; for the investigative procedures that would be put in place should an individual or staff person test positive for TB; and for the evaluation of the effectiveness of the entire system. There should be arrangements with outside service providers, when needed, to ensure that any individual who tests positive for TB will receive appropriate medical treatment. Also, the system should address the issue of any staff member who tests positive for TB. The Occupational Health and Safety Administration (OSHA) requirements regarding exposure control plans and activities may also apply.

483.460(b)(1) During the admission process, which extends from the time the individual is admitted to the time the initial IPP is completed, a physician is required to ensure that an assessment of the individual's medical status is thoroughly considered and addressed by the team as it develops the IPP. The physician's input may be by means of written reports, evaluations, and recommendations.

42 CFR 456.380 requires that a physician must establish a written plan of care for each applicant or recipient before admission to an ICF. This is done in conjunction with the interdisciplinary team. (See §483.440(c).) The written plan of care required by §456.380 and the IPP required by §483.440(c) may be the same document, which can fulfill both requirements.

483.460(b)(2) The need for physician participation is determined by the medical needs of the individual. How the participation (whether through written report, telephone consultation, attendance at the meeting, etc.) is to be accomplished is left to the discretion of the facility.

483.460(c)(1) Unless the individual is on a medical care plan, this participation may be through a written report.

483.460(c)(2) See also W416.

483.460(c)(3)(i) A direct physical examination means a visual review of the body as well as examination of body systems that might be necessary. This includes observing for any clues (including visual, tactile, nonverbal gestures, grimaces, etc.) to detect if there is a potential for needed follow-up and monitoring. A paper review of the individual's medical record and health statistics is not a direct physical examination.

If an individual is on a medical care plan, it is not necessary to perform the quarterly direct nursing physical examination.

483.460(c)(3)(ii) The term "licensed nurse" for purposes of this requirement means a registered nurse, a licensed practical nurse or a licensed vocational nurse. A facility is allowed to use a physician, in place of a licensed nurse, although this is certainly not required.

483.460(c)(3)(iii) "On a quarterly basis" means that the examination must be performed within the month in which the end of the quarter falls. If during the course of a year, there were three examinations

conducted by a licensed nurse and one annual examination performed by a physician, each of which is performed within the month in which the end of the quarter or year falls, the intent of this requirement is met.

483.460(c)(3)(iv) The record includes the date of the exam.

483.460(c)(3)(v) Some physical findings discovered by the nurse while conducting the physical exam will not necessarily result in referral to the physician. This practice is acceptable if the nurse is acting within the scope of the Nurse Practice Act of the State in which he or she is licensed.

483.460(c)(4) This includes nursing care for individuals without a medical care plan.

483.460(c)(5)(i) Facility staff need to know what the limits of their responsibilities are with medically involved individuals, and how to teach individuals on a continuing basis how to take care of minor accidents until further care can be provided.

483.460(d)(2) In evaluating whether or not there is sufficient licensed nursing staff, evaluate the need for licensed nursing care represented by the health characteristics of the individuals served (as described in physical exam results, IPPs, and medical care plans) in relation to the competency and qualifications represented by the staff who provide care (through the onsite survey). Make a judgment about the sufficiency of nursing staff to care for this particular population.

483.460(f)(1) A “month” is defined as the interval between the date of admission and close of business of the corresponding day in the following month.

483.460(f)(2) The requirement applies to all individuals (including those without teeth), and more frequently as dictated by the individual’s needs.

483.460(g) Comprehensive dental treatment might include, but is not limited to:

1. Periodic examination and diagnosis, including radiographs, when indicated and detection of all manifestations of systemic disease;
2. Elimination of infection or life hazardous oral conditions, oral cancer, or cellulitis;
3. Treatment of injuries;
4. Restoration of decayed or fractured teeth;
5. Retention or recovery of space between teeth in children, when indicated;
6. Replacement of missing permanent teeth, when indicated; and
7. Appropriate pain control procedures for optimal care of the patient.

483.460(h)(1) A “dental summary” means a brief written report of each visit to the dentist and includes any care instructions to be followed-up by facility staff as a result of treatment.

483.460(i) Emphasis is placed on the provision of the service, and not on its method of delivery. Whether the facility utilizes the unit dose, individual prescription or a combination of these systems, or whether the facility has its own pharmacy or provides the service through arrangement with a community pharmacy, the emphasis is on the accuracy of the drug distribution system and the effectiveness of the drug therapy.

483.460(j)(1) The pharmacist should review on a more frequent basis the drug regimen of individuals whose response indicates problems with drug therapy. Refer to the “Indicators for Surveyor Assessment of the Performance of Drug Regimen Reviews” as stated in Appendix N to the State Operations Manual (Pharmaceutical Service Requirements in Long Term Care Facilities) to evaluate the drug regimen review done by the pharmacist.

483.460(j)(2) The physician and interdisciplinary team must consider the report of the pharmacist and determine whether to accept or reject the recommendations in the report. The pharmacist is not required to repeatedly report the same minor irregularities which have already been considered by the physician and the interdisciplinary team, but were rejected based upon the individual’s specific condition.

483.460(j)(4) Each dose of medication, whether self-administered or not, shall be properly recorded in the individual’s record. The intent of this requirement is to maintain a record of drugs administered.

483.460(j)(5) This regulation does not exclude the pharmacist from the evaluation process, but the pharmacist can best determine how to expend his/her efforts most productively in service to individuals at the facility.

483.460(k)(2) A medication “error” is a discrepancy between what the physician has ordered, and what you observe during the drug pass observation. The regulation does not allow for any medication errors.

“Self administered” means administration of medications by the individual, independent of a staff person obtaining, selecting, and preparing the medications for the individual. This includes all usage forms (oral, injections and suppositories).

The individual should be trained until he/she can perform this function without error.

483.460(k)(3) “Unlicensed personnel” of the facility does not refer to the situation of individuals administering their own medication. Unlicensed personnel administer only those forms of medication which State law permits.

483.460(k)(6) Do not expect individuals served to be more knowledgeable than members of the general public in order to self-administer medication. There is no requirement for the individual to be able to state both the generic and brand names of the medication being taken, nor is it expected that the individual be able to list all potential side effects of the medication. The test of competency to self-administer is whether the individual can take the correct medication, in the correct dosage, at the correct time.

483.460(k)(7) When individuals go out of a facility for home visits, or to attend workshops or school, drugs they are taking must be packaged and labeled in accordance with State law by a responsible person approved to administer medications. Be aware whether or not there are applicable State laws which may allow packaging by someone other than the pharmacist.

The test of adequacy of packaging and labeling is whether or not other persons administering medications are able to identify the individual’s medication, method of administration, contraindications, if appropriate, and administration schedule.

483.460(l)(2) “Authorized persons” must be restricted to those who administer the drugs and nursing supervisors (if any). No other personnel should have access to these keys.

483.460(l)(2) Drugs that are self-administered do not have to be double locked. The purpose for the double locking is to limit access to scheduled drugs. Since the individual is generally the only one who has access to his/her drug supply (with perhaps the exception of a facility’s Director of Nursing Services, who may have access to all of the facility’s drug supplies), there is no need to further limit access.

483.460(l)(3) The facility may also use the medication administration record for purposes of documenting receipt and disposition of controlled drugs. By recording the amount received, a record of the receipt and disposition, can be realized.

483.460(l)(4) Reconciliation of receipt and disposition of controlled drugs need not be done on each shift. If periodic (e.g., weekly or monthly) reconciliations indicate losses, more frequent reconciliation (daily or by shift) may need to be performed to identify and stop losses.

483.460(m)(3) If a physician discontinues a drug for a particular individual, that particular drug supply should be removed from its usual storage area. This precludes that drug from being administered to the individual in error.

483.460(n) A “laboratory service or test” is defined as any examination or analysis of materials derived from the human body for purposes of providing information for the diagnosis, prevention, or treatment of any disease or impairment of, or the assessment of the health of human beings.

483.460(n)(2) A facility performing any laboratory service or test must have applied to CMS, and received either a certificate of waiver or a certificate of registration. An application for a certificate of waiver may be made if the facility performs only those tests on the waiver list. Those tests are:

- Dipstick or Tablet Reagent Urinalysis (non-automated) for the following:
 - Bilirubin;
 - Glucose;
 - Hemoglobin;
 - Ketone;
 - Leukocytes;
 - Nitrite;
 - pH;
 - Protein;
 - Specific gravity; and
 - Urobilinogen.
- Fecal Occult blood;

- Ovulation tests - visual color comparison tests for human luteinizing hormone;
- Urine pregnancy tests - visual color comparison tests;
- Erythrocyte sedimentation rate (non-automated);
- Hemoglobin - copper sulfate (non-automated);
- Blood glucose by glucose monitoring devices cleared by the FDA specifically for home use;
- Spun microhematocrit; and
- Hemoglobin by single analyte instruments with self-contained or component features to perform specimen/reagent interaction, providing direct measurement and readout.

If the facility performs tests, other than those on the waiver list, a certificate of registration is required. These certificates are required regardless of the frequency with which the laboratory services or tests are conducted. When no tests are performed, a certificate is not needed. Facilities only collecting specimens and not performing testing do not need a certificate.

A not-for-profit or a State or local government organization may have one certificate covering all the facilities it operates (i.e., all the separately certified residences which fall under its governing body), if no more than a total of 15 types of waived or moderately complex laboratory tests are used.

483.470(a)(1) Individuals should live in the least restrictive grouping in keeping with their level of functioning. Prime consideration in the grouping of individuals is made according to social and intellectual development, friendship patterns, and commonality of interests.

The use of “grossly different ages” is intended to ensure, for example, that very young children are not inappropriately housed together with much older individuals. Extreme differences may in some instances actually impede appropriate training and may pose a threat to the safety of younger, more vulnerable individuals.

483.470(a)(2) The surveyor should determine if the individuals’ skill level, rather than the individuals’ physical, sensory or medical disability, justifies the housing pattern.

483.470(b)(1)(v) An “initially certified” facility includes any facility or portion thereof that is certified for participation in Medicaid after a period of non-participation (e.g., if its certification has been terminated or voluntarily withdrawn).

Each of the three criteria specified below must exist in order for a facility to qualify as undergoing “major renovations or conversions”:

- Individuals must vacate the building during the period of renovation or construction;
- No Medicaid billing takes place during the period of renovation or construction; and
- A resurvey of the building is required before individuals may return to live in the building.

Facilities with buildings which were undergoing major renovations and were not reoccupied prior to October 3, 1988, are expected to meet the floor to ceiling wall requirements. This also applies to those facilities with buildings that had plans for renovation approved prior to October 3. There is no provision in the regulation for granting waivers of this requirement.

In a facility certified prior to October 3, 1988, if the conditions which define “major renovation or conversion” are avoided during installation of walls to divide “open bay sleeping areas,” it is allowable for the walls not to extend from floor to ceiling.

483.470(b)(2) The intent of the regulation is to prohibit the housing of individuals in basements that are entirely below grade. Individuals may be housed on the lower level of housing (e.g., a bi-level house), provided the window height requirements are met.

483.470(b)(3) The only acceptable reason for individuals to be housed in bedrooms serving more than four people is because the individual is in very fragile health and needs extensive life support services, such as posturing for clearing the airways, or monitoring for uncontrolled seizures. If more than four people are housed together in the same room, the number should remain small, and each individual placed in the grouping must have a high level of medical monitoring need.

Most extensive life support services, by their very nature are able to be provided by licensed personnel alone, or only under the direct visual supervision of licensed personnel. The presence of a medical care plan is not required because all such life threatening possibilities are difficult to predict. However, the greatest majority of individuals who might qualify for this variance will be on a medical care plan.

See §2140 for the documentation required for a medical variance.

483.470(b)(4)(iii) A single bedspread may be used year round, if it is appropriate for all seasons.

483.470(b)(4)(iv) “Furniture” is to be distinguished from “furnishings” (such as plants, pictures, etc.), which though encouraged as being an appropriate and desirable aspect of a normalized living environment, cannot serve as a substitute for appropriate individual furniture that can be used by the individual alone.

The facility is permitted either to provide the individual with an individualized closet or with a designated area in a shared closet. The use of central clothing bins in a facility clothing room, in the absence of required individual closet space in the bedroom, is not an acceptable practice.

483.470(c)(2) For a storage space to be determined as “suitable,” it must assure the safekeeping of the individual’s possessions among other things being stored.

Use of the term “accessible” does not require unrestricted access in situations where this is precluded by an active treatment program designed to eliminate inappropriate behavior, or in which the individual’s interdisciplinary team determines that unrestricted access would endanger the individual or others. The surveyor should determine whether or not there is a pattern of restricted access not because of the behavior of the individual, but because of the behavior of others with whom the individual lives. This could also raise the question of inappropriate grouping of individuals due to different functioning abilities.

483.470(d)(1) “Bathing facilities appropriate in . . . design” must include provisions for a mirror and sink/tooth-brushing area.

483.470(d)(2) Gang showers and open toilets are inappropriate to the quality of life, privacy, and personal dignity of the individuals served in the facility.

Individual privacy does not preclude the assistance provided by facility staff, when necessitated by the individual’s condition.

483.470(d)(3) Individuals must be under the direct supervision of staff while being trained to operate hot water temperature controls.

483.470(e)(1)(i) Since a door serves primarily to provide egress rather than to perform the ventilation and aesthetic functions of an outside window, it may not be used for room ventilation in place of a window.

483.470(e)(2)(i) A “normal comfort range” in most instances is defined as not going below a temperature of 68 degrees Fahrenheit or exceeding a temperature of 81 degrees Fahrenheit for facilities in most geographic areas of the country (primarily at the Northernmost latitudes) where that temperature is exceeded only during rare, brief episodes of unseasonably hot weather.

483.470(f)(1) “Slip-resistant” is to be distinguished from “slip-free.” There is a presumption made that floors will ordinarily be dry, and when wet, appropriate precautions will be taken.

483.470(g)(2) The term “furnish” means that the facility is responsible for obtaining or purchasing these items and is responsible for making any necessary arrangements to enable the individual actually to receive them. However, if an item is available free of charge the facility would satisfy the requirement simply by making the necessary arrangements for the individual to receive them. Individuals’ personal funds should not be used for these items since this is a covered service under the ICF/MR benefit.

The term “maintain in good repair” means that the facility is responsible for ensuring that these items are kept in good working order.

483.470(g)(3) A bedroom hamper can be an acceptable dirty linen storage “area” if kept odor free, consistent with the infection control requirements at §483.470(l).

483.470(i)(2)(i) All facilities, regardless of their size require actual evacuation. “Actually evacuate,” as used in this standard, applies to all individuals. The drills are conducted not only to rehearse the individuals and staff for fire (see §483.470(i)(2)(v)), but for other disasters such as hurricanes, tornadoes, floods, etc. Such disasters would require the entire occupancy to be evacuated, and, therefore, the actual evacuation must be practiced, as required.

483.470(i)(3) Since live-in staff and their relief personnel are generally the same staff who work with the individuals on a round-the-clock basis, they must conduct a minimum of 4 drills a year, each of which must occur at different times within the day (24-hour period) (i.e., morning, afternoon, and night (sleep

time)), and generally when individuals are at different locations within the house. If the facility has large numbers of relief personnel, more drills may be needed to meet the intent of this requirement.

483.470(j) These standards are covered by the Life Safety Code (LSC) survey. The facility must meet the appropriate chapter of the Life Safety Code, 1985 edition.

483.470(l)(1) An “active program” includes such observable practices as: the direct care staff routinely washing their hands or changing gloves after working with an individual who has an infectious disease or working with each individual during mealtimes; the use of aseptic technique, when appropriate; an ongoing program of communicable disease control and investigation of infections; and an active training program that ensures the individuals served receive adequate prevention of transmission information and skills, according to needs.

Procedures must be followed to prevent cross-contamination, including hand washing or changing gloves at mealtimes, after providing personal care to more than one individual, or when performing other tasks among individuals which provide the opportunity for cross-contamination to occur. Facilities for hand washing must exist and be available to staff. Toothbrushes and other personal hygiene items must be stored and used in such a manner to prevent cross-contamination.

Both the OSHA and the CDC have specific requirements regarding human immunodeficiency virus (HIV), TB, and hepatitis precautions. These requirements should be incorporated into the facility’s practices when relevant to the individuals residing in the facility. Concerns about OSHA violations should be referred to OSHA.

483.470(l)(3) This regulation does not require the recording or tracking of specific groups of symptoms, if a record of incidents and corrective actions related to infections is maintained. This regulation does not address the form or location of this record or direct that it be separate from the documentation required by CFR 483.410(c)(1).

483.470(l)(4) The facility should use the Recommendations for Prevention of Communicable Disease Transmission in Health Care Settings (such as preventing HIV) issued by the Centers for Disease Control, Atlanta, Georgia 30333, as well as OSHA guidelines in these areas.

A facility participating in the Medicaid program may not discriminate against individuals who are HIV-infected so long as these individuals do not (on a case-by-case basis) pose a substantial health and safety risk to others, or pose a performance problem, and are “otherwise qualified.”

483.480(a)(1) “Modified and specially-prescribed” diets are defined as diets that are altered in any way to enable the individual to eat (for example, food that is chopped, pureed, etc.) or diets that are intended to correct or prevent a nutritional deficiency or health problem.

483.480(a)(5) Since the main purpose of food is to support and maintain the health of an individual, it is important that the use of food as a behavior reinforcing device (primary reinforcement) not be abused. Foods are selected to provide essential nutrients. When these foods are routinely removed and denied during the meals, without comparable replacements, the individual is at risk of consuming a diet that is not adequate to meet nutritional needs, and in violation of §483.420(d)(1)(ii), which does not allow food contributing to a nutritionally adequate diet to be used as “punishment.” Likewise, the addition of high caloric reinforcers must be coordinated into the total daily diet intake.

483.480(a)(6) For suggested guidelines write to:

1. U.S. Department of Agriculture
Human Nutrition Information Services
Washington, D.C. 20250
2. The National Dairy Council
Rosemont, Illinois 60028-42334

483.480(b)(l)(i) A “substantial evening meal” is defined as offering of three or more menu items at one time, one of which includes a high-quality protein such as meat, fish, eggs, or cheese. The meal represents no less than 20 percent of the day’s total nutritional requirements.

483.480(b)(1)(i) A “nourishing snack” is an offering of items, single or in combination, from the daily food guide.

483.480(b)(2)(iii) The term “form,” as used in this requirement, refers to food consistency (i.e., pureed, chopped, ground, etc.).

483.480(b)(3) This standard does not apply to food served in family-style dishes, unless the length of time the food is on the table or other considerations (such as individuals fingering or drooling in the food) compromise the safety and nutritive value for reuse of the food.

483.480(d)(1) For purposes of this standard, “dining areas” mean discrete eating areas located outside of bedrooms, established, furnished, and equipped for the purpose of eating meals. For purposes of this standard, provision of meals in dining areas outside of the home (such as restaurants, food vendors, etc.) may also be included.

To the maximum extent possible, individuals should be afforded the opportunity to eat routine meals (like breakfast and dinner) in dining areas that approximate those afforded to their peers without disabilities (e.g., dining areas that are a part of the living unit, rather than eating all meals in buildings exclusively established for eating purposes).

483.480(d)(2) The intent of this regulation is to afford individuals the opportunity to participate in the social experience of dining with their companions. Observe whether or not facility staff model and reinforce appropriate communication and social behavior between dining companions seated at the same table.

483.480(d)(3) Single service eating devices must be discarded after each use.

Determine if the following types of adaptive devices are made available when needed:

- Double suction cups or other devices to anchor dishes on a table or tray for individuals with major coordination problems;
- Rocking one-handed knife-fork or knife-spoon for an individual with the use of only one hand;
- Built up or extended handles or silverware for those with problems of grasp or range of motion;
- Plate guards or plates with raised rims to provide a surface against which the individual with a physical disability can push food onto a fork or a spoon;
- Flexible drinking straws;
- Spoon bent to a 90 degree angle at the bowl or a swivel spoon to assist an individual without normal wrist motions.
- Any other adaptive device deemed by the team as needed by the individual to eat more independently.

483.480(d)(4) To the maximum extent possible, staff should model appropriate mealtime behavior and conversation by sitting at the table with individuals, and, when possible, eating meals with individuals.

Mastery of the social skills involved in eating in a variety of dining areas and settings is another step to the individual’s independence beyond the health aspects of nutrition and the basic skills involved in eating independently. Achieving independence will further help the individual to live in less restrictive environments. Determine to what extent individuals are exposed to out-of-the-home dining environments available to the general public (e.g., restaurants, fast-food establishments, picnics, parties, cafeterias, etc.).

Depending on the needs of the individuals and the available space it may be more effective for meals to be conducted in two different seatings or groupings.

483.480(d)(5) This applies to all individuals, including those fed by nasogastric tube or gastrostomy tube. The IPP should identify the most appropriate position for the individual to be positioned during mealtime, in relation to the placement of the food contents.

CHAPTER 65
INTERMEDIATE CARE FACILITIES
FOR PERSONS WITH MENTAL ILLNESS (ICF/PMI)

481—65.1(135C) Definitions. For the purposes of these rules, the following terms shall have the meaning indicated in this chapter. The definitions set out in Iowa Code section 135C.1 shall be considered incorporated verbatim in the rules. The use of the words “shall” and “must” indicate these standards are mandatory.

“*Abuse*” means any of the following as a result of the willful or negligent acts or omissions of a caretaker:

1. Physical abuse;
2. Physical injury to or unreasonable confinement or cruel punishment of a resident;
3. Sexual abuse;
4. Mental abuse;
5. Verbal abuse;
6. Exploitation of a resident; or
7. The deprivation of the minimum food, shelter, clothing, supervision, physical and mental health care, and other care necessary to maintain a resident’s life or health as a result of the acts or omissions of the caretaker.

“*Academic services*” means those activities provided to assist a person to acquire general information and skills which establish the basis for subsequent acquisition and application of knowledge.

“*Activity coordinator*” means a person who has completed the state-approved activity coordinator’s course.

“*Age appropriate*” means those activities, settings, and personal appearance and possessions commensurate with the person’s chronological age.

“*Chronic mental illness*” (see the definition of “Mental illness”).

“*Commission*” means the mental health and disability services commission.

“*Community living training services*” are those activities provided to assist a person to acquire or sustain the knowledge and skills essential to independent functioning to the person’s maximum potential in the physical and social environment. These services may focus on the following areas:

1. Independent living skills which include those skills necessary to sustain oneself in the physical environment and are essential to the management of one’s personal property and business. This includes self-advocacy skills.
2. Socialization skills which include self-awareness and self-control, social responsiveness, group participation, social amenities and interpersonal skills.
3. Communication skills which include expressive and receptive skills in verbal and nonverbal language, including reading and writing.
4. Leisure time and recreational skills which include the skills necessary for a person to use leisure time in a manner which is satisfying and constructive to the person.
5. Parenting skills which include those skills necessary to meet the needs of the person’s child. This service is designed to assist the person with mental illness to acquire or sustain the skills necessary for parenting.

“*Department*” means the Iowa department of inspections and appeals.

“*Diagnosis*” means the investigation and analysis of the cause or nature of a person’s condition, situation or problem.

“*Direct care staff*” means those staff persons who provide a homelike environment for the residents and assist or supervise the resident in meeting the goals in the resident’s program plan.

“*Evaluation services*” means those activities designed to identify a person’s current functioning level and those factors which are barriers to maintaining the current level or achieving a higher level of functioning.

“Exploitation” means the act or process of taking unfair advantage of a resident, or the resident’s physical or financial resources for one’s own personal or pecuniary profit by the use of undue influence, harassment, duress, deception, false representation or false pretenses.

“Goals” means general statements of attainable expected accomplishments to be achieved in meeting identified needs.

“Incident” means all accidental, purposeful, or other occurrences within the facility or on the premises affecting residents, visitors, or employees whether there is apparent injury or where hidden injury may have occurred.

“Individual program plan (IPP)” means a written plan for the provision of services to the resident that is developed and implemented using an interdisciplinary process that is based on the resident’s functional status, strengths, and needs and that identifies service activities designed to enable a person to maintain or move toward independent functioning. The plan identifies a continuum of development and outlines progressive steps and anticipated outcomes of services.

“Informed consent” means an agreement by a person, or by the person’s legally authorized representative, based upon an understanding of:

b. The program is able to provide the staff necessary to meet the tenant's service needs in addition to the service needs of the other tenants;

c. The department shall only issue a waiver if the waiver will not jeopardize the health, safety, security or welfare of the tenant, program staff, or other tenants; and

d. The tenant has been diagnosed with a terminal illness and has been admitted to hospice, and the tenant exceeds the criteria for retention and admission for a temporary period of less than six months. A terminal diagnosis means the tenant is within six months of the end of life.

67.7(4) Conditional waiver. A conditional waiver may be granted contingent upon the department's receipt of additional information or performance of monitoring.

a. If a waiver has been in effect for six months, a monitoring shall be conducted to determine whether the tenant meets the criteria to continue on a waiver.

b. The department may seek additional information during the period to determine if a waiver should be granted.

67.10(3) Standard for determining whether a regulatory insufficiency exists. The department shall use a preponderance-of-the-evidence standard when determining whether a regulatory insufficiency exists. A preponderance-of-the-evidence standard does not require that the monitor shall have personally witnessed the alleged violation.

67.10(4) Preliminary report. When a regulatory insufficiency is found, a preliminary report detailing the insufficiency shall be sent by the department to the program within 20 working days. The department shall send the report by certified mail.

b. Review of plan. The department shall review the plan of correction within 10 working days. The department may request additional information or suggest revisions to the plan. Once an acceptable plan of correction has been received, the department shall issue a final report within 10 working days and shall determine whether any enforcement action related to the program's continued certification is necessary.

67.10(6) Request for reconsideration. Within 10 working days of receiving the preliminary report, the program may submit a request for reconsideration in response to a regulatory insufficiency. Regardless of whether a request for reconsideration is submitted, a plan of correction must be submitted.

a. The request may include additional information to support the request for reconsideration.

b. The department shall review the request for reconsideration and additional information and determine whether to withdraw or modify the regulatory insufficiency.

c. The department shall accept a request for reconsideration if the additional information submitted by the program shows by a preponderance of the evidence that the regulatory insufficiency did not exist at the time of the monitoring.

d. The department's decision regarding a request for reconsideration shall be reflected in the final report.

67.10(7) Final report. The final report issued after the plan of correction and request for reconsideration have been considered may be appealed in accordance with the department's appeal procedures in rule 481—67.13(17A,231B,231C,231D). The department shall issue a final report regarding a monitoring whether or not any regulatory insufficiency is found.

67.10(8) Monitoring revisit. The department may conduct a monitoring revisit to ensure that the plan of correction has been implemented and the regulatory insufficiency has been corrected. 67.11(2) *Program-reported incident reports.* When the program is required pursuant to applicable requirements to report an incident, the program shall make the report to the department via:

a. The Web-based reporting tool accessible from the following Internet site, https://dia-hfd.iowa.gov/DIA_HFD/Home.do, under the “Complaints” tab;

67.11(4) *Standard for determining whether a complaint is substantiated.* The department shall apply a preponderance-of-the-evidence standard in determining whether or not a complaint or program-reported incident report is substantiated.

67.11(5) *Notification of program and complainant.* The department shall notify the program and, if known, the complainant of the final report regarding the complaint investigation. The department and the program shall follow the procedures outlined in subrules 67.10(2) through 67.10(7).

481—67.12(17A,231B,231C,231D) Enforcement action. In all cases, if a regulatory insufficiency has been identified, the program shall comply with the plan of correction requirements in subrule 67.10(5). In addition, the department may take enforcement actions pursuant to this rule as a result of the program’s noncompliance with applicable requirements.

67.12(1) *Types of enforcement action.* The department’s enforcement action may include: denial, suspension, or revocation of a certification; issuance of a conditional certification and the placement of conditions upon a certificate such as requiring additional training; restriction of the program from accepting additional tenants for a period of time; or any other action or combination of actions deemed appropriate by the department.

67.12(2) *Conditional certification.* In lieu of denial, suspension or revocation of a certificate, the department may issue a conditional certification for a period of up to one year. A conditional certificate shall be issued only when regulatory insufficiencies pose no greater risk to tenant health or safety than the potential for causing minimal harm.

a. The department shall specify the regulatory insufficiency in the notice of enforcement action.

b. The department shall notify the tenant advocate when a conditional certificate is issued and when a conditional certification is lifted.

c. During the period of a conditional certification, the department shall conduct a monitoring to verify compliance prior to making the final certification decision.

- d. The department shall issue reports pursuant to rule 481—67.10(17A,231B,231C,231D).
- e. Failure by the program to adhere to the plan of correction may result in suspension or revocation of the conditional certification and may result in further enforcement action as available under applicable requirements.
- f. A program must be in substantial compliance with applicable requirements before the removal of a conditional certificate by the department. Once the program is in substantial compliance with applicable requirements, the department shall lift the conditional certificate.

67.12(3) Civil penalties.

a. *When civil penalties may be issued.* Civil penalties may be issued when the director finds that any of the following has occurred:

(1) Noncompliance results in imminent danger or substantial probability of resultant death or physical harm. A program that is in noncompliance with applicable requirements and the noncompliance results in imminent danger or a substantial probability of resultant death or physical harm to a tenant may be assessed a civil penalty of not more than \$10,000.

(2) A program has failed to comply, and the noncompliance has a direct relationship to the health, safety, or security of tenants. Following receipt of a final report from the department, a program which continues to fail or refuses to comply with applicable requirements within prescribed time frames established by the department or approved by the department in the program's plan of correction and the noncompliance has a direct relationship to the health, safety, or security of tenants may be assessed a civil penalty of not more than \$5,000.

(3) The program prevents or interferes with enforcement. A program that prevents, interferes with or attempts to impede in any way any duly authorized representative of the department in the lawful enforcement of applicable requirements may be assessed a civil penalty of not more than \$1,000.

b. *Factors in determining the amount of a civil penalty.* The department shall consider the following factors when determining the amount of a civil penalty:

(1) The frequency and length of time the regulatory insufficiency occurred (i.e., whether the regulatory insufficiency was an isolated or a widespread occurrence, practice, or condition);

(2) The past history of the program as it relates to the nature of the regulatory insufficiency (the department shall not consider more than the current certification period and the immediate previous certification period);

(3) The culpability of the program as it relates to the reasons the regulatory insufficiency occurred;

(4) The extent of any harm to the tenants or the effect on the health, safety, or security of the tenants which resulted from the regulatory insufficiency;

(5) The relationship of the regulatory insufficiency to any other types of regulatory insufficiencies which have occurred in the program;

(6) The actions of the program after the occurrence of the regulatory insufficiency, including when corrective measures, if any, were implemented and whether the program notified the director as required;

(7) The accuracy and extent of records kept by the program which relate to the regulatory insufficiency, and the availability of such records to the department;

(8) The rights of tenants to make informed decisions;

(9) Whether the program made a good-faith effort to address a high-risk tenant's specific needs and whether the evidence substantiates this effort.

c. *Civil penalties due.* The department may assess a civil penalty, which shall be paid to the department within 30 days following the program's receipt of the final notice of the enforcement action. The program may appeal the decision in accordance with rule 481—67.13(17A,231B,231C,231D).

d. *Automatic reduction of civil penalty if paid timely and no hearing is requested or request for hearing is withdrawn.* If a program has been assessed a civil penalty, does not request a formal hearing pursuant to rule 481—67.13(17A,231B,231C,231D) or has withdrawn the request for a formal hearing within 30 days of the notice or service, and the civil penalty is paid within 30 days of receipt of notice or service, the amount of the civil penalty shall be reduced by 35 percent. The notice of civil penalty shall include a statement to this effect.

e. Suspension of civil penalty pending hearing. If the program appeals the civil penalty, the civil penalty shall be deemed suspended until a final agency decision is reached in accordance with rule 481—67.13(17A,231B,231C,231D) and 481—Chapter 10.

f. Duplicate penalties prohibited. The department shall not impose duplicate civil penalties on a program for the same set of facts and circumstances.

67.12(4) Immediate suspension of certificate. When the department finds that an imminent danger to the health or safety of tenants of a program exists which requires action on an emergency basis, the department may direct removal of all tenants from the program and suspend the certificate or require additional remedies to ensure the ongoing safety of the program's tenants prior to a hearing.

67.12(5) Immediate imposition of enforcement action. When the department finds that an imminent danger to the health or safety of tenants exists which requires action on an emergency basis, the department may immediately impose a conditional certificate and accompanying conditions upon the program in lieu of immediate suspension of the certificate and removal of the tenants from the program if the department finds that tenants' health and safety would still be protected. The program may request a hearing pursuant to rule 481—67.13(17A,231B,231C,231D) on the immediate enforcement action, but the immediate enforcement action remains in effect regardless of the request for hearing.

The enforcement action shall become effective 30 days after the mailing or service of the notice unless the applicant or certificate holder, within such 30-day period, gives the department written notice requesting a hearing, in which case the notice shall be deemed to be suspended. If, however, an enforcement action has been implemented immediately in accordance with subrule 67.12(4) or 67.12(5), the enforcement action remains in effect regardless of a request for hearing.

67.13(2) Final report containing a finding of a regulatory insufficiency. A final report issued pursuant to rule 481—67.10(17A,231B,231C,231D) shall be delivered to the applicant or certificate holder by restricted certified mail, return receipt requested, or by personal service. 68.13(1) *Evaluation prior to occupancy.* A program shall evaluate each prospective tenant's functional, cognitive and health status prior to the tenant's signing the occupancy agreement and becoming a household occupant to determine the tenant's eligibility for the program, including whether the services needed are available. The cognitive evaluation shall utilize a scored, objective tool. When the score from the cognitive evaluation indicates moderate cognitive decline and risk, the Global Deterioration Scale shall be used at all subsequent intervals, if applicable. [ARC 8175B, IAB 9/23/09, effective 1/1/10]

481—68.15(231B) Involuntary transfer from the program.

68.15(1) *Program initiation of transfer.* If a program initiates the involuntary transfer of a tenant and the action is not the result of a monitoring, including a complaint investigation or program-reported incident investigation, by the department and if the tenant or tenant's legal representative contests the transfer, the following procedures shall apply:

a. The program shall notify the tenant or tenant's legal representative, in accordance with the occupancy agreement, of the need to transfer the tenant and of the reason for the transfer and shall include the contact information for the tenant advocate.

b. The program shall immediately provide to the tenant advocate, by certified mail, a copy of the notification and notify the tenant's treating physician, if any.

c. Pursuant to statute, the tenant advocate shall offer the notified tenant or tenant's legal representative assistance with the program's internal appeal process. The tenant or tenant's legal representative is not required to accept the assistance of the tenant advocate.

d. If, following the internal appeal process, the program upholds the transfer decision, the tenant or tenant's legal representative may utilize other remedies authorized by law to contest the transfer.

68.15(2) *Transfer pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more tenants are identified as exceeding the admission and retention criteria for tenants and need to be transferred as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply:

b. *Notification of others.* Each identified tenant, the tenant's legal representative, if applicable, and other providers of services to the tenant shall be notified of their opportunity to provide responses including: specific input, written comment, information, and documentation directly addressing any agreement or disagreement with the identification. All responses shall be provided to the department within 10 days of receipt of the notice.

c. *Program agreement with the department's finding.* If the program agrees with the department's finding and the program begins involuntary transfer proceedings, the program's internal appeal process in subrule 68.15(1) shall be utilized for appeals.

d. Program disagreement with the department's finding. If the program does not agree with the department's finding that the tenant exceeds admission and retention criteria, the program may collect and submit all responses to the department, including those from other interested parties. In the program's response, the program shall identify the tenant, list the known responses from others, and note the program's agreement or disagreement with the responses from others. The program's response shall be submitted to the department within 10 working days of the receipt of the notice. Submission of a response does not eliminate the applicable requirements including submission of a plan of correction under 481—subrule 67.10(5). Other persons may also submit information directly to the department.

(1) Consideration of response. Within 10 working days of receipt of the program's response for each identified tenant, the department shall consider the response and make a final finding regarding the continued retention of a tenant.

(2) Amending the regulatory insufficiency. If the department's determination is to amend the regulatory insufficiency based on the response, the department shall modify the report of findings.

(3) Retaining regulatory insufficiency. If the department retains the regulatory insufficiency, the department shall review the plan of correction in accordance with this chapter and 481—Chapter 67. The department shall notify the program of the opportunity to appeal the report findings as they relate to the admission and retention decision. In addition, the department shall provide to the tenant or the tenant's legal representative the contact information for the tenant advocate. A copy of the final report shall also be sent to the tenant advocate.

(4) Effect of the filing of an appeal. If an appeal is filed, the tenant who exceeds admission and retention criteria shall be allowed to continue living in the EGH until all administrative appeals have been exhausted. Appeals filed that relate to the tenant's exceeding admission and retention criteria shall be heard within 30 days of receipt, and appropriate services to meet the tenant's needs shall be provided during that period of time.

(5) Request for waiver of criteria for retention of a tenant in a program. To allow a tenant to remain in the program, the program may request a waiver of criteria for retention of a tenant pursuant to rule 481—67.7(231B,231C,231D) from the department within 10 working days of the receipt of the report. 68.17(3) When a tenant needs personal care or health-related care, the service plan shall be updated within 30 days of the tenant's occupancy and as needed with significant change, but not less than annually.

a. If a significant change triggers the review and update of the service plan, the updated service plan shall be signed and dated by all parties.

b. If a significant change does not exist, the program may, after nurse review, add minor discretionary changes to the service plan without a comprehensive evaluation and without obtaining signatures on the service plan.

c. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained. For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

68.17(4) The service plan shall be individualized and shall indicate, at a minimum:

a. The tenant's identified needs and preferences for assistance;

b. Any services and care to be provided pursuant to the occupancy agreement;

69.22(1) *Evaluation prior to occupancy.* A program shall evaluate each prospective tenant's functional, cognitive and health status prior to the tenant's signing the occupancy agreement and taking occupancy of a dwelling unit in order to determine the tenant's eligibility for the program, including whether the services needed are available. 481—69.24(231C) Involuntary transfer from the program.

69.24(1) *Program initiation of transfer.* If a program initiates the involuntary transfer of a tenant and the action is not the result of a monitoring, including a complaint investigation or program-reported incident investigation, by the department and if the tenant or tenant's legal representative contests the transfer, the following procedures shall apply:

- a. The program shall notify the tenant or tenant's legal representative, in accordance with the occupancy agreement, of the need to transfer the tenant and of the reason for the transfer and shall include the contact information for the tenant advocate.
- b. The program shall immediately provide to the tenant advocate, by certified mail, a copy of the notification and notify the tenant's treating physician, if any.

69.24(2) *Transfer pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more tenants are identified as exceeding the admission and retention criteria for tenants and need to be transferred as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply:

d. Program disagreement with the department's finding. If the program does not agree with the department's finding that the tenant exceeds admission and retention criteria, the program may collect and submit all responses to the department, including those from other interested parties. In the program's response, the program shall identify the tenant, list the known responses from others, and note the program's agreement or disagreement with the responses from others. The program's response shall be submitted to the department within 10 working days of the receipt of the notice. Submission of a response does not eliminate the applicable requirements, including submission of a plan of correction under 481—subrule 67.10(5). Other persons may also submit information directly to the department.

(1) *Consideration of response.* Within 10 working days of receipt of the program's response for each identified tenant, the department shall consider the response and make a final finding regarding the continued retention of a tenant.

(2) *Amending the regulatory insufficiency.* If the department's determination is to amend the regulatory insufficiency based on the response, the department shall modify the report of findings.

(3) *Retaining regulatory insufficiency.* If the department retains the regulatory insufficiency, the department shall review the plan of correction in accordance with this chapter and 481—Chapter 67. The department shall notify the program of the opportunity to appeal the report findings as they relate to the admission and retention decision. In addition, the department shall provide to the tenant or the tenant's legal representative the contact information for the tenant advocate. A copy of the final report shall also be sent to the tenant advocate.

(4) *Effect of the filing of an appeal.* If an appeal is filed, the tenant who exceeds admission and retention criteria shall be allowed to continue living at the program until all administrative appeals have been exhausted. Appeals filed that relate to the tenant's exceeding admission and retention criteria shall be heard within 30 days of receipt, and appropriate services to meet the tenant's needs shall be provided during that period of time.

(5) *Request for waiver of criteria for retention of a tenant in a program.* To allow a tenant to remain in the program, the program may request a waiver of criteria for retention of a tenant pursuant to rule 481—67.7(231B,231C,231D) from the department within 10 working days of the receipt of the report. b. If a significant change does not exist, the program may, after nurse review, add minor discretionary changes to the service plan without a comprehensive evaluation and without obtaining signatures on the service plan.

c. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained. For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

481—70.24(231D) Involuntary discharge from the program.

70.24(1) *Program initiation of discharge.* If a program initiates the involuntary discharge of a participant and the action is not the result of a monitoring, including a complaint investigation or program-reported incident investigation, by the department and if the participant or participant's legal representative contests the discharge, the following procedures shall apply:

- a. The program shall notify the participant or participant's legal representative, in accordance with the contractual agreement, of the need to discharge the participant and of the reason for the discharge.
- b. If, following the internal appeal process, the program upholds the discharge decision, the participant or participant's legal representative may utilize other remedies authorized by law to contest the discharge.

70.24(2) *Discharge pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more participants are identified as exceeding the admission and retention criteria for participants and need to be discharged as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply:

If the program does not agree with the department's finding that the participant exceeds admission and retention criteria, the program may collect and submit all responses to the department, including those from other interested parties. In the program's response, the program shall identify the participant, list the known responses from others, and note the program's agreement or disagreement with the responses from others. The program's response shall be submitted to the department within 10 working days of the receipt of the notice. Submission of a response does not eliminate the applicable requirements, including submission of a plan of correction under 481—subrule 67.10(5). The department shall notify the program of the opportunity to appeal the report findings as they relate to the admission and retention decision.

(4) *Effect of the filing of an appeal.* If an appeal is filed, the participant who exceeds admission and retention criteria shall be allowed to continue to participate in the program until all administrative appeals have been exhausted. “*Public assistance*” means the family investment program, food stamps, medical assistance, state supplementary assistance and refugee cash assistance.

“*Referral*” means a request to investigate pertinent public assistance case factors on error-prone cases. The request shall be made by DHS for help from the department on the referral for front end investigation form.

“*Refusal to cooperate*” by client means the client has failed to attend a scheduled interview without prior notification to the investigator, or to provide information, or to assist in the gathering of information about pertinent public assistance case factors with the department investigator.

481—72.2(10A) Referrals. Client-caused errors in public assistance benefits arise primarily from three areas: household composition, income and assets. A flexible list of error-prone indicators in those three areas has been identified. One or more indicators must be present for a referral to the department investigator. A current copy is available from the Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

The department investigator is responsible for investigating referrals to:

1. Determine whether information supplied to DHS by the client is complete and correct regarding pertinent public assistance case factors;
2. Serve as a deterrent against benefit issuance resultant from fraudulent applications submitted by DHS clients;
3. Identify client-caused overpayments for recovery;
4. Assist in reducing public assistance program error rates.

481—72.3(10A) Investigation procedures. Procedures for investigations may include, but are not limited to, the following steps:

72.3(1) The department investigators shall inform the client of their involvement in the client’s case by sending an introductory letter.

72.3(2) Client information may be verified by using:

- a. Property verification to identify possible property ownership.
- b. Postmaster statement to verify current address.
- c. Motor vehicle information to identify possible vehicle ownership.

72.3(3) If a face-to-face interview is necessary, an appointment letter is sent to the client.

a. Prior to the interview, the client will be informed of the purpose of the investigation, the types of information being investigated, what their responsibilities are in terms of cooperating in the investigation, and the consequences of refusal to cooperate in the investigation.

b. During the interview with the department investigator, the client may be asked to sign a form authorizing the department to contact collateral sources to verify pertinent public assistance case factors. At least one of the following forms will be attached to the authorization:

- (1) Landlord questionnaire,

- (2) Mortgage questionnaire,
- (3) Earned income questionnaire,
- (4) Financial institution questionnaire,
- (5) General questionnaire.

c. The client shall be provided a copy of the signed authorization form and any other forms identified as necessary at the time of the interview. The authorization form and attached form(s) will be explained during the interview and are offered as a courtesy to the client. The client-signed authorization is not required for a department investigator to secure collateral information related to pertinent public assistance case factors.

d. The director of the department or the director's designee may issue subpoenas in order to secure data that is deemed pertinent public assistance case factor information.

72.3(4) The DHS client file may be reviewed by the department investigator.

72.3(5) Collateral contacts will be used to collect information by the department investigator. The information supplied by the client may be subject to further verification by the department investigator.

72.3(6) The director of the department or the director's designee shall determine that all investigations conducted by the department investigator are related to pertinent public assistance case factors.

72.3(7) If the client has previously received public assistance benefits and a discrepancy(s) is present, the investigation may continue to determine whether an overissuance of benefits has been made. However, clients who have never received benefits and withdraw their application or are denied benefits will not be subject to continued investigation.

481—72.4(10A) Findings. The department investigator shall report and provide documentation of the findings of the investigation, including client noncooperation, to DHS using the transmittal A form. The department's investigation is closed upon submission of the transmittal A form to the referral source and cannot be reopened prior to the receipt of a new or updated referral for front end investigation form.

DHS shall report the case action taken and any determination of overpayment or intentional program violation referral to the department using the transmittal B form. All decisions about DHS public assistance eligibility will be made by DHS. The client will need to clarify any discovered discrepancies with DHS. Refusal to cooperate will result in DHS taking action to deny or cancel public assistance benefits. Future public assistance application(s) will not be considered for approval until cooperation with the department investigator is completed. The department investigator shall comply with all laws, rules and regulations with respect to confidentiality.

These rules are intended to implement Iowa Code sections 10A.104(5), 10A.104(6), 10A.105, 10A.402(7), 17A.3(1) "b," and 22.11.

3. Referral source,
4. Date complaint received,

When the department's audit or investigative findings have been generated through the use of sampling and extrapolation, and the provider disagrees with the findings, the burden of proof of compliance rests with the provider. The provider may present evidence to show that the sample was invalid. [ARC 8656B, IAB 4/7/10, effective 5/12/10]

481—90.2(10A) Recovery process. The recovery process begins when data is successfully entered on the DHS overpayment recovery system and a notice of debt is issued to the debtor. The data specifies which public assistance program(s) is owed a debt.

481—100.1(10A,99B) Definitions. Definitions in this chapter apply to all gambling rules.

“Active in Iowa” means that the primary place for conducting legal activities or transactions is the state of Iowa. Maintaining a checking account, listing a telephone number or conducting minor business in Iowa is not considered being active in Iowa.

“Bingo distributor” means an individual or entity supplying either equipment or supplies to users licensed to conduct bingo in the state of Iowa.

“Bingo manufacturer” means any entity which originally produces bingo equipment and supplies for use by organizations or individuals licensed to conduct bingo in the state of Iowa. The process of collating and assembling bingo packets from previously manufactured goods is not considered manufacturing.

“Bingo supplies and equipment” means a machine, display board, monitor, card, bingo paper, or any other implement or provision used in the conduct of the game of bingo licensed pursuant to Iowa Code chapter 99B.

“Calendar raffle” means a grid which denotes the days, weeks and months of a year and from which prizes are awarded on different dates.

“Casino gambling” means the house provides a banker, dealer, croupier or a specially designed table; and gamblers play against the house.

“Dedicated” means that the net receipts shall be used to benefit citizens of Iowa. An educational scholarship granted to a citizen of this state may be used in a college or university outside of Iowa when a citizen of Iowa benefits. When funds are spent outside of Iowa, the purpose must qualify and the funds must benefit an indefinite number of Iowans.

“Department” means the department of inspections and appeals.

“Director” means the director of the department of inspections and appeals or authorized assistants and employees.

“Educational, civic, public, charitable, patriotic, or religious use” is defined in Iowa Code section 99B.7(3), paragraph “b.”

“Fair” means an annual fair or exposition held by the Iowa state fair board or any fair held by a county or district fair or agricultural society under the provisions of Iowa Code chapter 174.

“Location” means the space, building, or room which is used by a licensee to conduct gambling. All spaces, buildings or rooms which the licensee uses, owns, rents or controls which are adjacent to the gambling space are included. Any area accessible through a common doorway is part of the gambling location, no matter who uses, owns, rents or controls the area.

“Merchandise” means a tangible, usable product which has its own value. A merchandise gift certificate exchangeable only for merchandise is acceptable. The merchandise prize cannot be purchased by the person conducting the game. Iowa lottery tickets or shares sold pursuant to Iowa Code chapter 99E are merchandise.

“Place of business” means the primary office, warehouse, store, building or structure where goods, wares, merchandise or services are offered for sale, or where any taxable amusement is conducted.

“Political party organization” means a group affiliated with and authorized by a political party. This includes a state, county or district central committee or an auxiliary group or committee appointed for a special purpose such as fund-raising. Political action committees are not eligible for gambling licenses.

“Premises” means location.

“Pyramid” or *“build up”* means a game in which a prize must be returned in order to play another game or to be eligible for another bigger prize, or a game in which a prize must be forfeited if a later game is lost.

“*Responsible party*” means the person identified on the license application as the contact person. The responsible person is expected to have a general knowledge of Iowa gambling laws and rules. This person is deemed to be an agent of the organization until the department is notified otherwise in writing.

This rule is intended to implement Iowa Code chapter 99B.

481—100.2(99B) Licensing. Before the sale of any bingo equipment or supplies to a licensee by a bingo manufacturer or bingo distributor, or before any gambling may occur, a gambling license application must be approved by the department.

Gambling is restricted to the location applied for by the qualified organization and approved by the department. A license may be transferred to a different location only after application by the licensee and approval by the department. Permission for temporary off-site use of a license may be granted upon request to the department.

Application forms are available from the Social and Charitable Gambling Unit, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083, or by calling (515)281-6848. A short-form application for school district boards of directors is also available from the department.

100.32(6) A ticket, coupon, or card shall not be used as a door prize or given to a participant of a raffle, game of bingo, or game of chance if the use of the ticket, coupon, or card would change the odds of winning for participants of the raffle, game of bingo, or game of chance.

This rule is intended to implement Iowa Code sections 99B.1(21), 99B.1(22) and 99B.7(1).

481—100.33(99B) Expenses. Reasonable expenses shall not exceed 25 percent of the net receipts.

The burden of proof is on the licensee to show that all expenses were incurred exclusively and directly as a result of the gambling activity. EXAMPLE 1

When sales tax is not included in gross receipts, it need not be deducted to arrive at net receipts.

Gross receipts for quarter (excluding sales tax)	\$100,000
Amount awarded as prizes	<u>\$ 20,000</u>
Net receipts	\$ 80,000
Minimum dedicated and distributed (75 percent of net receipts)	\$ 60,000
Maximum expenses (25 percent of net receipts)	\$ 20,000

EXAMPLE 2

Net receipts	\$ 80,000

At least 75 percent of the net receipts received during the quarter shall be distributed no later than 30 days following the end of each calendar quarter unless permission to do otherwise is requested in writing and granted by the department.

100.34(2) If a licensee receives at least 90 percent of its total income in a calendar year from charitable gambling activities, at least 75 percent of the licensee's net receipts must be distributed to an unrelated entity by March 31 of the following year for educational, civic, public, charitable, patriotic, or religious uses. An unrelated entity is one having a separate state charter and tax identification number. Membership dues	<u>\$ 1,000</u>
Total other income	\$ 15,000
Total income:	\$100,000
Percentage of total income derived from charitable gambling	85%

This licensee is required to distribute at least 75 percent of its net receipts to either a related or unrelated entity.

EXAMPLE 4

Gross income from raffles	\$ 30,000
Gross income from bingo	\$ 60,000

481—100.35(99B) Extension of time to dedicate net receipts. The department may grant a qualified organization an extension of time to dedicate net receipts. The following conditions must be met for an extension of time to be granted:

1. The request must be in writing and be received by the department no later than the due date of the quarterly return;
2. The request must provide a reason to hold the net receipts and state for what purpose the funds will be used;
3. The request must contain an estimated date of use;
4. The request must state that the fund will be kept separate from all other funds; and
5. The request must include:
 - The financial institution in which the fund is located,

100.35(1) If a request for an extension of time to dedicate net receipts is granted by the department, a detailed analysis of all transactions affecting the fund during the extension shall be recorded on each quarterly report affected.

100.35(2) Failure to provide the required information shall cause termination of the extension. All proceeds shall then be dedicated within 72 hours.

100.35(3) A licensee who is granted an extension and thereafter loses the license shall expend the fund immediately and notify the department in writing.

This rule is intended to implement Iowa Code section 99B.2(4).

BINGO

[Prior to 12/17/86, Revenue Department[730], Ch 94]

[Prior to 11/18/87, Racing and Gaming Division[195]]

[Prior to 6/14/89, Racing and Gaming Division[491], Ch 23]

[Prior to 9/5/90, this chapter was entitled "Qualified Organization"]

481—103.1(10A,99B) Definitions. Definitions in rule 100.1(10A,99B) are incorporated by reference in this chapter.

The following definitions apply to all qualified organizations where bingo is played.

"Bingo occasion" is a single gathering or a single session during which successive bingo games are played. A bingo occasion shall not last longer than four hours.

"Cash" is any legal tender of the United States.

"Category" means the name given to a particular type of playing face to distinguish one from another.

"Limited license" is a 14-day license issued only to a qualified organization. There are no limits on the number of games played or occasions held, except that a bingo occasion may be conducted only once per each seven consecutive calendar days under this license.

"Merchandise" prizes are tangible goods, scholarships, antique coins, airline tickets or similar items. Iowa lottery tickets are merchandise. Animals are not merchandise and shall not be awarded as prizes.

"Playing face" means the grid on which a player marks numbers and letters called as the game progresses.

"Qualified organization" is a licensed, tax-exempt body which dedicates 75 percent of the receipts of bingo games for purposes listed in Iowa Code section 99B.7(3) "b."

This rule is intended to implement Iowa Code section 99B.7.

481—103.2(10A,99B) License. Licenses are issued for two years or 14 days. Licenses issued for 14 days are called limited licenses. Under a 14-day license, a bingo occasion may be conducted only once per each seven consecutive calendar days during the period specified in the license. Before any organization may conduct bingo games or occasions, an application must be approved by the department. The license shall be prominently displayed and is valid only at the gambling location named.

Bingo occasions are restricted to the location applied for by the qualified organization and approved by the department. A license may be transferred to a different location only after application by the licensee and approval by the department.

Application forms are available from the Social and Charitable Gambling Unit, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083, or by calling (515)281-6848. A short-form application for school district boards of directors is available from the department.

Examples of various circumstances that affect whether a license is granted are:

1. Qualified organization X applies for and is issued a two-year license to conduct bingo occasions at 313 Cherry Street, Des Moines, Iowa. The license is effective from August 1, 1981, to July 31, 1983. On October 1, 1981, qualified organization Y applies for a 14-day limited license to conduct bingo at the same location. The license is approved and issued because a limited license can be issued for the same location used for a two-year bingo license.

2. ABC qualified organization applies for and is issued a two-year qualified organization license to conduct bingo at 1002 West 2nd Avenue in Jones Town, Iowa. The license is effective from October 1, 1981, to September 30, 1983. On November 15, 1981, EFG qualified organization applies for a two-year qualified organization license for the same location. A license may be issued to EFG organization for the same location during the same period to conduct any games of chance, games of skill or raffles. EFG organization shall not conduct bingo at the location.

3. Hometown community school district applies for and is issued a two-year qualified organization license to conduct games of skill, games of chance and raffles at the grade school building. The license is effective from September 1, 1981, to August 31, 1983. During the time that the Hometown school

license is in effect, the school-sponsored pep club applies for a 14-day limited license to conduct games of skill at the grade school building. The school-sponsored pep club may be issued a limited license for the same location during the same time. Under this example, the school-sponsored pep club would not be required to obtain a separate license, because school-affiliated organizations may operate separate events under a school district's two-year license.

This rule is intended to implement Iowa Code section 99B.7.

481—103.3(99B) Bingo occasion. A qualified organization may conduct only three bingo occasions per week, but not more than 14 occasions per month, under a two-year qualified organization license. A week starts on Sunday and ends on Saturday. An occasion begins when the first ball is called and shall end no more than four hours later.

103.3(1) No admission fee may be charged. However, a person may be required to purchase one game for \$1 or less to enter the room where bingo is being played.

103.3(2) At the end of each occasion, the person conducting the games shall announce both the gross receipts and the use to which the net receipts will be dedicated and distributed.

103.3(3) Senior citizen organizations named and defined in this subrule may request the following exceptions:

- More than 14 occasions may be held in one month.
- More than three occasions may be held in one week.
- Occasions may last longer than four hours.

a. A senior citizen is a person who is 60 years of age or older.

b. A senior citizen center is a facility which maintains a contract with the local area agency on aging. It is a multipurpose or activity center, provides a broad range of services designed for senior citizens and is open to all senior citizens without financial restrictions. A qualified organization which is a senior citizen center shall be controlled by the senior citizens served by the center.

c. A senior citizen housing project is a facility of at least ten residential units acquired or constructed by a governmental entity or a charitable organization to provide housing to senior citizens. A qualified organization which is a senior citizen housing project shall be controlled by a resident council which consists of at least five members selected in a democratic manner by the residents.

d. A senior citizen group home is a facility built or acquired by a governmental entity or a charitable organization. It must be exempt under Section 501(c) of the Internal Revenue Code, have one or more buildings, consist of at least ten private rooms or apartments, and be 75 percent occupied by senior citizens. Other units may be occupied by handicapped persons without respect to age. A qualified organization which is a senior citizen group home shall be controlled by a residents council which has at least five members selected in a democratic manner by the residents.

e. To conduct bingo occasions under the exceptions allowed to senior citizen organizations, a qualified organization must satisfy the department that it qualifies for the exception. The organization must:

(1) Be recognized as a senior citizens' center, a senior citizens' housing project, or a senior citizens' group home;

(2) Conduct bingo occasions for at least one month within the limitations on hours and number of occasions required by this rule and Iowa Code section 99B.7(1) "c" prior to requesting the exception;

(3) Submit, upon request, records of daily activities referred to in paragraphs "f" and "g"; and

(4) Verify that the majority of patrons at the organization's bingo occasions also participate in other activities of the senior citizens' center or are residents of the housing project or group home.

f. A qualified organization which is a senior citizens' center shall maintain, for each bingo occasion conducted, a record showing:

(1) The total number of players; and

(2) A list of all senior citizen players who participate in activities of the senior citizens' center other than bingo, including specific activities and dates of participation.

g. A qualified organization which is a senior citizens' housing project or group home shall maintain, for each bingo occasion conducted, a record showing:

- (1) The total number of players; and
- (2) A list of all players who are residents of the housing project or group home.

h. An organization qualifying for the exception shall review its daily records of participation on a monthly basis. If the majority of the patrons during the previous calendar month do not meet the participation or residence requirement, the organization shall no longer qualify for the exception.

i. A senior citizen organization which no longer qualifies for the exception shall adhere to the limits on hours and number of occasions required of other organizations until it can reestablish eligibility for the exception. Within seven days after becoming aware of its disqualification, the organization shall notify the department in writing that it no longer qualifies for the exception.

103.3(4) Bingo exceptions. An organization that is exempt from federal income taxes under Section 501(c)(3), 501(c)(4), 501(c)(5), 501(c)(6), 501(c)(7), 501(c)(8), 501(c)(10), or 501(c)(19) of the Internal Revenue Code as defined in Iowa Code section 422.3 shall be authorized to conduct a bingo occasion without a license as otherwise required by this chapter if all of the following requirements are met:

a. Participants in the bingo occasion are not charged to enter the premises where bingo is conducted.

b. Participants in the bingo occasion are not charged to play.

c. Any prize awarded at the bingo occasion shall be donated.

d. The bingo occasion is conducted as an activity and not for fundraising purposes.

This rule is intended to implement Iowa Code section 99B.7(1) "c."

481—103.4(99B) Game of bingo. Each game shall meet all the elements of the definition in Iowa Code section 99B.1(4) to be a legal game of bingo. Games ordinarily considered bingo may be played.

103.4(1) A fair and legal game shall meet at least all of the following criteria:

a. No player may be required to buy a packet or to play one game in order to play another game;

b. The game requires an announcer or caller;

c. Numbers shall be announced so all players can hear clearly;

d. A free space is allowed;

e. The game proceeds as the caller selects and announces the numbers. If a caller miscalls a number or misreads a ball, only the number on the ball may be used. Miscalled numbers are invalid;

f. House rules may require that a player have the last number called for a bingo. If not posted in the house rules, the player is not required to have the last number called.

g. Each game ends when it is determined that a player has covered the announced pattern of spaces.

The caller or another worker shall verify the numbers on winning cards. The caller checks for additional bingos and officially closes the game.

103.4(2) Activities on the following list are not allowed:

a. Video bingo and games of chance such as barnyard bingo;

b. Free numbers. A free space may be given;

c. Concealed numbers on a playing face; or

d. Rescinded IAB 9/29/04, effective 11/3/04.

103.4(3) Any player may request that all numbers drawn and all numbers not drawn be verified when the winning card or cards are verified. Numbers shall be verified in the presence of the member in charge and the caller. The player who requested verification may observe the count.

103.4(4) The cost to play each game shall not exceed \$1. Cards or games may be sold only within the premises of the bingo occasion. The cost for each packet, playing face, or tear sheet shall be the same for each participant, i.e., the cost for an opportunity to play shall be equal. Players may pay for games with cash or, at the option of the licensee, checks.

a. All cards or games shall be assigned a price.

b. The price shall be posted. Cards may be sold only for the posted price.

c. Rescinded IAB 5/1/91, effective 6/5/91.

d. Free games shall not be given.

e. Bingo games allowing for a trade-in of a bingo card during a bingo game for not more than fifty cents per trade-in may be allowed.

103.4(5) Cards for each category shall be distinctly marked. Each shall be easy to distinguish from all others.

- a. Bingo games or cards may be printed on only one side.
- b. In each game, the bingo operator must ensure that duplicate playing faces are not sold.

This rule is intended to implement Iowa Code sections 99B.1(5), 99B.3(1) and 99B.7(1).

481—103.5(99B) State and house rules. Iowa administrative rules and specific house rules must be readily available to every bingo player. The house has discretion regarding reserved seating and age restrictions for children to play, but must post such restrictions in the house rules.

103.5(1) A copy of these rules, 481—Chapter 103, “Bingo,” shall be maintained at every bingo location during every bingo occasion. Bingo players who request it shall have the opportunity to read the administrative rules.

103.5(2) House rules shall be posted on a sign near the front of the playing area.

- a. The sign shall be at least 30 inches by 30 inches.

- c. Rules shall be in large, easily readable print and shall include:
 - (1) The name and mailing address of the licensee;
 - (2) Prices to play; and
 - (3) House rules for the game.

1. House rules shall include how to indicate “bingo” to halt the game, collect a prize, and verify winners’ names and addresses.

2. Reserved seating may be observed if the house so chooses and posts the information.

3. People of any age are allowed to play bingo. The house may choose to restrict children of certain ages, as long as the restriction is posted in the house rules.

103.5(3) The following information shall be correctly posted before the beginning of each occasion:

- a. Description of each game to be played;
- b. Price of each game;
- c. Prize for each game; and
- d. Jackpot rules, if any.

EXAMPLE: Single bingo \$1 per game, \$50 payout.

This rule is intended to implement Iowa Code section 99B.1(20).

481—103.6(99B) Prizes. Cash or merchandise prizes awarded for each game shall not exceed \$100 in value. Jackpot games are excepted and are governed by standards in subrule 103.6(6). The amount of the prize shall be announced before the beginning of each game.

103.6(1) Prizes shall be recorded each occasion on the daily bingo summary (see Table A¹) as they are paid by listing the number of the game; the pattern required to win; the type, color, and series of cards used in the game; and the amount of the prize. The name, address, and social security number of each jackpot winner is required.

NOTE: Prizes of more than \$600 require the deduction of 5 percent withholding taxes, plus any applicable local option or school taxes, for the state of Iowa. See 103.6(6), paragraph “g.”

103.6(2) A ticket, coupon, or card shall not be used as a door prize or given to a participant of a raffle, game of bingo, or game of chance if the use of the ticket, coupon, or card would change the odds of winning for participants of the raffle, game of bingo, or game of chance.

103.6(3) Prizes awarded in games with more than one winner shall be shared equally. It is permissible to round to the nearest dollar.

103.6(4) Merchandise such as scholarships, airline tickets and other similar items awarded as prizes shall not be converted to cash by the donor or provider. Winning lottery tickets or shares awarded as prizes may be converted to cash pursuant to lottery rules and statutes. An animal shall not be awarded as a prize for persons participating in a game or fair event.

103.6(5) A player shall not be required to return cash or a merchandise prize won in one game in order to play a subsequent game. Players shall not be required to play in one game in order to play in a subsequent game.

103.6(6) No more than two jackpot games may be played during a 24-hour period as follows:

a. An organization is limited to two jackpot games.
b. The jackpot starting prize shall not exceed \$300 in cash or actual retail value of merchandise.
c. The jackpot prize shall not increase more than \$200 after each jackpot game. The maximum prize shall not be greater than \$1,000 for the first jackpot game and shall not be greater than \$2,500 for the second jackpot game.

d. The jackpot prize shall not decrease until it is won.

e. If a jackpot is not won in the specified number of calls, the game reverts to a regular game with a prize of \$100 or less.

f. Each jackpot game shall begin again at no more than \$300.

g. Cash prizes over \$600 require the deduction of 5 percent withholding tax, plus any applicable local option or school tax. This tax is to be withheld by the organization conducting the game. The amount deducted shall be remitted to the Iowa department of revenue on behalf of the prize winner.

This rule is intended to implement Iowa Code sections 99B.7(1), 99B.21, 422.16 and 717D.2.

103.7(3) Rescinded IAB 7/24/02, effective 7/5/02.

103.7(4) Persons conducting bingo and paid workers shall not play during an occasion in which they work. A person conducting bingo includes: persons overseeing the bingo games, persons controlling and accounting for the occasion's net receipts, persons directing the work of bingo workers, and any persons having management or oversight responsibilities.

103.7(5) The following people shall not work during a bingo occasion:

- a.* The lessor of the building; or
- b.* Anyone who sells bingo equipment or supplies to that licensee.

This rule is intended to implement Iowa Code section 99B.7(1) "b."

103.8(2) Expenses are not reasonable if the amount charged substantially exceeds the current rate or average retail cost of items or services purchased.

This rule is intended to implement Iowa Code section 99B.7.

481—103.9(99B) Location. Bingo may be conducted on premises either owned or leased by the qualified organization. All buildings in which bingo is conducted must meet state or local standards for occupancy and safety. The name of the licensee shall be posted on the sign of each building or location where bingo occasions are held. A name which is closely associated with the licensee and which clearly identifies the lawful uses of the proceeds may also be used. Generic-type names, such as “Nelson Street Bingo” or “Uncle Bob’s Bingo,” shall not be used.

1. The rent shall not be related to nor be a percentage of the receipts.
2. The licensee may terminate any lease or rental agreement without paying a penalty or forfeiting money or a deposit. Damage deposit money is excepted.
3. Alcoholic beverages may be served in a bingo location if that location possesses a beer permit or liquor license.
4. The lessor of the building shall not participate in conducting bingo.
5. During a bingo occasion, the lessor shall not sell any beverage, food or any other merchandise in the area in which bingo is played.
6. Only one licensed organization may hold bingo occasions at a location. However, the following exception applies: A 14-day limited licensee may hold bingo occasions at the same location.

This rule is intended to implement Iowa Code section 99B.7.

103.12(1) A licensed organization shall conduct bingo games only with equipment it owns or borrows from another qualified organization. Use of equipment for which the licensed organization pays consideration directly or indirectly under the guise of a service charge is prohibited. No licensed organization may loan or borrow equipment, goods, or services in exchange for supplies. Equipment may not be rented or leased. This does not prohibit the purchase of equipment on contract.

No one who sells bingo equipment or supplies may participate in conducting bingo directly or indirectly.

103.12(2) Equipment used to conduct bingo must be maintained in good repair and sound working condition. No equipment shall be altered to create an advantage for anyone. Play shall progress so all players have an equal opportunity to win. Balls drawn must be the same size, shape, weight and balance. The container in which balls are held shall promote fair play. Balls shall tumble and circulate freely within the container during bingo games. All 75 balls must be in the container before each game begins. Verification of all 75 balls is required when requested by a participant.

This rule is intended to implement Iowa Code section 99B.13.

481—103.13(99B) Records. Each qualified organization which conducts bingo occasions shall record specific information. Records shall be current so the department may review them at any time. The following records are required for each bingo occasion:

The daily bingo summary must be signed by a caller and another member of the organization.

Records shall be maintained for three years for review by the department.

Each ticket on a roll shall represent the same specific amount of money. If another method is used in receipting hard cards, all information and controls provided by the roll-ticket method must be maintained.

(2) A log shall be maintained listing the date each roll of tickets is purchased by the licensee, the color, the dollar value of the tickets, the beginning ticket number and the number of tickets on that roll. The log shall also show the date and number of tickets used and value of each ticket for each occasion.

(3) The licensee shall record in its daily or occasion records, the color, the value, and the number of tickets issued as a receipt from each separate roll of tickets used.

Records shall be maintained for three years for review by the department.

103.13(3) Records of expenses and dedicated and distributed money are required. A disbursements journal (Table E¹) may be maintained which contains both. If this method is chosen, expense information required by rule 103.8(99B) shall be separate and distinct from information about dedicated and distributed money. Each subject must be in a clearly labeled section.

a. The name, address, date, check number and amounts dedicated to another person or organization shall be available for review.

b. Receipts used by the licensed organization shall be recorded. The record must show:

- (1) The date,
- (2) The amount,

Records shall be maintained for three years for review by the department.

The format in Table E¹ is suggested for expenses and for dedicated and distributed bingo receipts.

- b. Dates of employment;
- c. Times and number of hours worked;
- d. Wages paid;

Records shall be maintained for three years for review by the department.

103.13(5) An inventory list of the number of playing faces owned by the licensed organization is required.

The inventory shall be updated each month.

Records shall be maintained for three years for review by the department.

This rule is intended to implement Iowa Code sections 99B.2 and 99B.16.

¹ See forms at end of this chapter.

481—103.14(10A,99B) Bingo checking account. A qualified organization whose bingo occasions exceed \$10,000 in annual gross receipts shall maintain a separate bingo checking account. The checking account shall be established within one day of attaining \$10,000.

103.14(1) Bingo receipts, less the amount awarded as cash prizes, shall be deposited in the bingo checking account on the same or the next business day after the occasion. Other funds shall not be deposited in the bingo account. Interest earned on deposits in a bingo checking or savings account shall be treated the same as proceeds of bingo occasions.

EXCEPTION: Limited funds of the organization may be deposited to pay initial or unexpected emergency expenses. The amount of nonbingo funds deposited in the bingo account shall not exceed \$750. Records shall be kept which identify this money.

103.14(2) Funds from bingo accounts shall be withdrawn by check. Checks shall be preprinted.

- a. The following information shall be printed on the face of the check:
 - (1) Organization name,
 - (2) Consecutive numbers,

 - (4) The organization’s gambling license number.

The nature of the payment is to be written on the face of each check or share draft as it is drawn. Each check shall be made payable to a person or an organization and be signed by an authorized representative of the licensee. A check shall not be made payable to “cash,” “bearer,” or any fictitious payee. Table G¹ shows a sample check.

- b. All checks, including void and voided checks, shall be kept and accounted for.

103.14(3) Checks may be drawn on the bingo account for only the following purposes:

- a. To pay necessary and reasonable expenses incurred in connection with bingo. Wages must be paid by check.
- b. To disburse net proceeds of bingo for qualified purposes as required by law.
- c. To transfer proceeds from bingo to a bingo savings account pending disbursement for a qualified purpose.
- d. To withdraw initial or emergency funds deposited in the account.
- e. To pay prizes.

103.14(4) A check shall be drawn on the bingo account in both of the following events:

- a. One qualified organization satisfies the dedication requirement by donating funds to another organization over which the licensed organization has no control; or

b. A qualified organization licensee is satisfying the dedication requirement by spending funds to further the charitable, educational, religious, public, patriotic or civic purposes of its own organization.

103.14(5) A qualified organization licensee shall not transfer funds from the bingo checking account to any other checking account of the organization.

A flowchart for a bingo checking account is shown on Table H¹.

This rule is intended to implement Iowa Code sections 99B.2(3) and 99B.7(1)“*p.*”

¹ See forms at end of this chapter.

481—103.15(10A,99B) Bingo savings account. When an organization places bingo receipts in any savings account, bingo funds shall be separate and recognizable from all other funds of the same organization. All funds in a bingo savings account shall be transferred into that account from a bingo checking account. Funds shall be transferred back to the bingo checking account before they are spent.

CHAPTER 104
GENERAL PROVISIONS FOR ALL AMUSEMENT DEVICES

481—104.1(10A,99B) Definitions. Definitions in rule 481—100.1(10A,99B) and 481—105.1(10A,99B) are incorporated by reference in this chapter.

The following definitions apply to the possession and use of amusement devices.

“Amusement device” means an electrical and mechanical device possessed and used in accordance with Iowa Code section 99B.10. An amusement device is not a game of skill or chance as defined in Iowa Code section 99B.1, a gambling device, or a device that plays poker, blackjack, or keno. Roulette wheels, slot machines, and other devices specified in Iowa Code section 725.9 as gambling devices are not amusement devices.

“Gambling device” means a device possessed or used or designed to be used for gambling and includes, but is not limited to: roulette wheels, klondike tables, punchboards, faro layouts, keno layouts, numbers tickets, slot machines, push cards, jar tickets, pull-tabs, and video machines or other devices that do not comply with Iowa Code section 99B.10.

“Knock-off switch” means a mechanism or other method that releases free games or credits accumulated toward the award of merchandise.

“Prize” means a ticket(s) or token(s) that is dispensed by an amusement device as an award for use and that is worth up to \$5 in merchandise.

“Slot machine” means a mechanical, electronic, or video gambling device into which a player deposits coins, tokens or currency and from which certain credits, tickets, tokens or coins are paid out when a particular, random configuration of symbols appears on the reels, simulated reels, or screen of the device. The slot machine may have a lever, buttons, or other means to activate or stop the play.

481—104.2(99B) Device restrictions. An amusement device, except for an amusement device which shall be registered pursuant to 2007 Iowa Acts, Senate File 510, section 2(1)“f,” may be owned, possessed, or offered for use by any person at any location. All amusement devices shall comply with all of the following:

1. The device must be electrical, which includes both electronic and video, or mechanical, or a combination of both.
2. The device shall not be designed or adapted to issue or pay coins or currency.
3. The device may be designed or adapted to award free games without additional consideration.
4. The device may be designed or adapted to award merchandise or tickets or tokens redeemable for merchandise not to exceed a retail value of more than \$5 per play or game.
5. The device may be designed or adapted to issue tickets or tokens, but not coins or currency. However, the device shall not be designed or adapted to issue tickets or tokens that may be used to play any device or game.
6. The device shall not have a “knock-off” switch to release either free games or credits awarded by the device. However, credits may be released by the insertion of coins, currency, or tokens to activate a new game. Free games may only be utilized for playing the device and may not be released in any other manner.
7. The device shall not be capable of being altered to enable a person using the device to increase or decrease the chances to win a game or other prize by paying more than is ordinarily required to play the game.
8. The device must be designed or adapted to accept only coins, currency, or tokens to play the game. However, the device shall not be designed or adapted to accept tokens that have been awarded as a prize.
9. The device must be registered if it meets the registration requirements set forth in rule 481—104.5(99B).

481—104.3(99B) Prohibited games/devices. The following games or devices are not permitted:

1. Devices that pay coins or currency.

2. Gambling games permitted in Iowa Code chapter 99F, such as slot machines and roulette wheels, or any similar device.
3. Any machine that does not conform to the requirements in these rules or Iowa Code section 99B.10.
4. Any machine designed or resembling a machine which is normally used for casino-type gambling.
5. Amusement devices designed or adapted to facilitate gambling.

NOTE: This rule does not prohibit the possession of antique slot machines when possessed pursuant to Iowa Code chapter 725.

481—104.4(99B) Prizes. Prizes may be awarded for use of an amusement device.

104.4(1) Merchandise with a retail value of no more than \$5 per transaction may be awarded.

104.4(2) One or more free games may be awarded by the device.

104.4(3) If the device is designed or adapted to issue tickets or tokens, the following apply:

- a. Tickets or tokens awarded by an amusement device shall not be used to purchase or play a game.

- d. Tickets or tokens may be accumulated to purchase merchandise not greater than \$5 per transaction in retail value.
- e. Tickets or tokens may be redeemed for food and beverage if the combined value of the food and beverage does not exceed \$5 per transaction.
- f. If the entire amount of the ticket or token issued by the amusement device is not redeemed for merchandise, the balance shall not be redeemed for cash.
- g. Tickets or tokens shall only be redeemed on the premises where the amusement device is located and only for merchandise sold in the normal course of business on the premises.

104.4(4) Merchandise prizes shall not be repurchased.

481—104.5(99B) Registration. An amusement device must be registered if it meets the registration requirements set forth in 2007 Iowa Acts, Senate File 510, section 2(1)“f.” Additional licenses under Iowa Code chapter 99B are not required.

481—104.6(99B) Violations. Failure to comply with the limitations imposed on the use and possession of amusement devices in Iowa Code section 99B.10 as amended by 2007 Iowa Acts, Senate File 510, section 2, constitutes unlawful gambling, which may result in the following consequences. Additional consequences apply for registered amusement devices pursuant to 481—Chapter 105 and Iowa Code section 99B.10 as amended by 2007 Iowa Acts, Senate File 510, section 2.

1. Conviction for illegal gambling under the provisions of Iowa Code chapter 725.

CHAPTER 105
REGISTERED AMUSEMENT DEVICES

481—105.1(10A,99B) Definitions. The definitions in rule 481—104.1(10A,99B) are incorporated by reference in this chapter. In addition, the following definitions apply to the possession and use of registered amusement devices.

“Amusement device registration availability” means a registration position which becomes available when a distributor or owner is going out of business, fails to renew a registration by the renewal due date, has an electrical and mechanical device seized by law enforcement and the seizure is upheld through a forfeiture hearing or when any other legal order has been issued which pertains to violations of Iowa Code chapter 99B, 123, or 123A.

“Counting mechanism” means an appliance that tallies the volume of business of an individual amusement device.

“Distributes” means to deliver, to provide or to otherwise make available in Iowa amusement devices required to be registered in accordance with these rules.

“Distributor” means, for the purposes of Iowa Code sections 99B.10, 99B.10A, and 99B.10B, any person who owns electrical and mechanical amusement devices that are registered as provided in Iowa Code section 99B.10(4) and that are offered for use at more than a single location or premises.

“Manufacturer” means, for the purposes of Iowa Code sections 99B.10, 99B.10A, and 99B.10B, any person engaged in business in this state that originally produces an electrical and mechanical amusement device required to be registered under Iowa Code section 99B.10(4) or produces individual components for use in such a device.

“Manufacturer’s representative” means, for the purposes of Iowa Code sections 99B.10, 99B.10A, and 99B.10B, any person engaged in business in this state that promotes or sells electrical and mechanical amusement devices required to be registered under Iowa Code section 99B.10(4) or promotes or sells individual components for use in such devices on behalf of a manufacturer of such devices or components. An agreement between the manufacturer’s representative and the manufacturer may be in place, but is not necessary.

“Operation” means that a registered amusement device is made available for use by the public or made available for use on the premises of a charitable organization.

“Organization” means an entity that meets the requirements of Iowa Code section 99B.7(1) “m.”

“Owner” means, for the purposes of Iowa Code sections 99B.10A and 99B.10B, any person that owns an operable electrical and mechanical amusement device required to be registered under 2007 Iowa Acts, Senate File 510, section 2(1) “f.” An owner that operates for profit is allowed up to two machines at a single location. An owner that meets the requirements of Iowa Code section 99B.7(1) “m” is allowed up to four machines at a single location.

“Person” means a person as defined by Iowa Code section 4.1.

“Premises” means a location where one or more registered amusement devices are available for public use.

“Prize” means a ticket(s) or token(s) that is dispensed by a registered amusement device as an award for use and that is worth up to \$5 in merchandise.

“Registered amusement device” means an electrical and mechanical amusement device in operation subject to registration by the department pursuant to 2007 Iowa Acts, Senate File 510, section 2(1) “f,” and includes both the external and internal components. Any change in the registered amusement device, including the external and internal components of the registered amusement device, constitutes a new registered amusement device for which registration by the owner is required. The word “change” as used herein does not include repairs or replacement of parts that do not change or alter the operation of the device as originally registered by the owner. If the repairs or replacement parts alter the operation of the device as originally registered, then the device must be reregistered before it is made available for operation.

“Responsible party,” as listed on the amusement device registration, means the owner of the amusement device(s).

“*Security mechanism*” means an appliance which prevents a person from operating an electrical and mechanical amusement device by not allowing the acceptance of money until action is taken by the owner or owner’s designee to allow the person to operate the device.

481—105.2(99B) Registered amusement device restrictions. Each registered amusement device shall only be located on premises for which a Class “A,” Class “B,” Class “C,” special Class “C,” or Class “D” liquor control license or a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123.

105.2(1) The number of electrical and mechanical amusement devices registered by the department shall not exceed 6,928, the total number of devices registered by the department as of April 28, 2004.

105.2(2) The department shall not initially register an electrical and mechanical amusement device that is required to be registered pursuant to 2007 Iowa Acts, Senate File 510, section 2(1) “f,” to an owner for a location for which only a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123 on or after April 28, 2004.

105.2(3) An owner or distributor at a location for which only a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123 shall not relocate an amusement device registered as provided in this chapter to a location other than the location of the device on April 28, 2004, and shall not transfer, assign, sell, or lease an amusement device as provided in this chapter to another person for which only a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123 after April 28, 2004.

EXAMPLE 1: An electrical and mechanical amusement device is registered with the department and is located at a convenience store that has a Class “C” beer permit.

1. If the amusement device needs to be repaired, the owner may repair it without losing the registration position or buying a new registration tag. A repair constitutes any changes to a device as long as the type of game and the number of devices in a location is not changed.

2. If the amusement device needs to be replaced because it is defective, it must be replaced with the same game in order to keep the registration position.

3. The amusement device cannot be moved from one location to another under a Class “B” or a Class “C” beer permit, even if the number of registered devices at a location does not change.

4. If a location with a Class “B” or a Class “C” beer permit had only one amusement device registered on April 28, 2004, the maximum number of devices allowed at that location shall be one.

105.2(4) Rescinded IAB 8/29/07, effective 9/1/07.

105.2(5) Each registered amusement device at a location for which only a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123 shall include on the amusement device a security mechanism which prevents a person from operating the amusement device by not allowing the acceptance of money until the machine is activated by the owner or owner’s designee. A sign shall be posted stating that a person must be 21 years of age or older to operate the registered amusement device.

EXAMPLE 2: A patron in a convenience store tries to put money in an amusement device, but the amusement device will not take the money. The patron approaches the person working behind the counter, who then asks the patron for an ID. If the patron is 21 years of age or older, the amusement device is activated, thereby allowing the patron to play the amusement device. The security mechanism shall be immediately reactivated once the patron has finished playing the amusement device.

105.2(6) The registered amusement device shall be registered in accordance with these rules and shall comply with all of the requirements of Iowa Code section 99B.10 as amended by 2007 Iowa Acts, Senate File 510, section 2, this chapter, 481—Chapter 104, and any other applicable laws or rules.

105.2(7) The registered amusement device shall not be designed or adapted to facilitate gambling, nor shall the device be capable of playing poker, blackjack, or keno.

105.2(8) If the department, or the department’s designee, determines that a registered amusement device is not in compliance with the requirements of this chapter or any other provision of Iowa law, the device may be subject to seizure, and any registration associated with the device, including the registration of the manufacturer, manufacturer’s representative, distributor, or owner, may be revoked.

105.2(9) A person owning or leasing a registered amusement device shall not advertise or promote the availability of the amusement device to the public as anything other than an electrical and mechanical amusement device. Situations that constitute advertising and promoting include, but are not limited to, posted signs, newspaper/magazine advertisements, radio and television advertisements, word of mouth and Internet posting.

105.2(10) If there is no amusement device registration availability, a person may be included on a waiting list for an amusement device registration position.

a. A person shall appear on the waiting list only once for a single registration position.

b. A person may be added to the waiting list by using the Web-based amusement device registration system located at <https://dia.iowa.gov/gmms/>.

c. A person may request to be added to the waiting list by calling or writing the department at Department of Inspections and Appeals, Social and Charitable Gaming Unit, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0083; (515)281-6848.

d. The department shall maintain the waiting list in chronological order with the person requesting addition to the waiting list first being first on the list.

e. When a registration position becomes available, the department shall notify the first person on the waiting list of the amusement device registration availability. If multiple positions become available, the department may notify as many persons on the waiting list as there are available positions.

f. The department shall notify the person on the waiting list of the amusement device registration availability by mail or by E-mail if the person has provided an E-mail address.

g. The person on the waiting list shall have ten days from the time the notification was sent to submit a registered amusement device application and the fee.

h. If the person does not submit the registration application, fee and proof of purchase within ten days, the person shall forfeit the position on the waiting list and shall be removed from the waiting list.

105.2(11) An initial amusement device registration shall only be allowed at a location that has a Class "A," Class "B," Class "C," special Class "C," or Class "D" liquor control license issued pursuant to Iowa Code chapter 123.

EXAMPLE 3: An amusement device is located in a bar that has the appropriate liquor license. On April 28, 2004, this location had only one amusement device. An additional amusement device may be added to this location.

1. If the amusement device needs to be repaired, it may be repaired without the loss of the device's registration position.

2. If the amusement device is defective and needs to be replaced, it can be replaced with the same game under the original registration without the incurring of additional charges.

3. If the amusement device is replaced with a new amusement device that has a different game, before the device is moved to the premises, the process for initial registration shall be followed pursuant to this chapter and Iowa Code chapter 99B as amended by 2007 Iowa Acts, Senate File 510. The replacement of the amusement device creates an amusement device registration availability, and the position will be offered to the next person on the waiting list pursuant to this rule.

105.2(12) If a person purchases an amusement device that is registered with the department, the registration tag, if available, must be removed from the purchased amusement device and returned to the department. The department shall be notified in writing within ten calendar days of the change in ownership of any amusement device. The purchased device shall be removed from the inventory of the original owner, thus creating a registration position on the waiting list. The purchaser must apply for a registration position on the waiting list for the device.

105.2(13) An amusement device that is registered with the department and located in a warehouse may be placed in a location that has a Class "A," Class "B," Class "C," special Class "C," or Class "D" liquor license issued pursuant to Iowa Code chapter 123. Such a device may also be used as a replacement device.

105.2(14) The registration application for all new amusement devices must be accompanied by the receipt, invoice, or bill of sale containing the seller's name, company name, and address, transaction date, and motherboard serial number.

481—105.3(99B) Prohibited registered amusement devices. The following devices are prohibited:

1. Amusement devices registered in violation of statutory or regulatory requirements governing such devices.
2. Registered amusement devices that are prohibited by 481—104.3(99B).
3. Any registered amusement device that does not conform to the requirements in these rules or Iowa Code chapter 99B.
4. Any registered amusement device designed or adapted to facilitate gambling.

481—105.4(99B) Prizes. Prizes may be awarded for use of a registered amusement device, but only in conformance with 481—104.4(99B). All prizes awarded must be in conformance with each of the requirements imposed by 481—104.4(99B).

481—105.5(99B) Registration by a manufacturer, manufacturer's representative, distributor, or an owner that operates for profit. A person engaged in business in Iowa as a manufacturer, a manufacturer's representative, a distributor, or an owner that operates for profit shall be registered with the department prior to engaging in business in Iowa. A person shall register under each of the categories that apply to the business to be conducted in Iowa and shall pay the designated fee for each category of registration.

105.5(1) Each person that registers with the department shall pay an annual registration fee as follows:

- a. For a manufacturer or manufacturer's representative, \$2,500, effective upon renewal.
- b. For a distributor, \$5,000, effective upon renewal.
- c. For an owner of no more than two electrical and mechanical amusement devices registered as provided in Iowa Code section 99B.10(4) at a single location or premises that is not an organization that meets the requirements of Iowa Code section 99B.7(1) "m," \$2,500. The registration fee shall be effective immediately.

105.5(2) Registration forms are available from the Department of Inspections and Appeals, Social and Charitable Gaming Unit, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0083, or by telephone at (515)281-6848.

105.5(3) If registration information changes, the person shall notify the department in writing of the changes within ten calendar days.

105.5(4) Registration fees are nonrefundable.

481—105.6(99B) Registration of registered amusement devices. Each owner of an amusement device subject to registration by the department pursuant to Iowa Code section 99B.10(4) shall obtain a registration. A registration issued pursuant to Iowa Code chapter 99B is required to offer a registered amusement device for use.

105.6(1) Each owner of an amusement device subject to the registration requirements imposed by this chapter shall register the device before it is made available for operation.

105.6(2) In the event a registration position is not open, the distributor's or owner's name may be placed on the department's waiting list. The distributor or owner will be notified by the department when a position is available and the distributor's name or owner's name reaches the top of the waiting list. Upon the distributor's or owner's completion of the application form and payment of the required fee, the department shall issue a registration tag valid for one year from the date of issuance.
