(1) Enable law violators to avoid detection;

(2) Facilitate disregard of requirements imposed by law; or

(3) Give a clearly improper advantage to persons who are in an adverse position to the agency. (See Iowa Code sections 17A.2, 17A.3)

The department may have discretion to disclose some confidential records which are exempt from disclosure under Iowa Code section 22.7 or other law. Any person may request permission to inspect records withheld from inspection under a statute which authorizes limited or discretionary disclosure as provided in rule 5.4(17A,22). 481—5.15(17A,22) Personnel files. The agency maintains files containing information about employees, families and dependents, and applicants for positions with the agency. Some of this information is confidential under Iowa Code section 22.7(11).

481—5.16(17A,22) Personally identifiable information. The department maintains systems of records which contain personally identifiable information.

5.16(1) Rule making. Rule-making records may contain information about people who make written or oral comments about proposed rules. Iowa Code section 17A.4 requires collection and retention of this information. It cannot be retrieved by an individual identifier. It is not stored in a computer system.

During the rule-writing process, committees are occasionally used to gather basic information. Minutes of committee meetings are available for public inspection. The minutes are retained. Minutes of meetings are not retrievable by personal identifier. Minutes collected and stored in the health facilities division are available from the Health Facilities Division, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319, in compliance with Iowa Code section 135C.14.

By authority of Iowa Code section 910A.13, the appellate defender shall not disclose the names of child victims. Presentence investigation reports in the possession of the appellate defender are confidential records pursuant to Iowa Code section 901.4.

The records include briefs, depositions, docket sheets, documents, correspondence, attorney's notes, memoranda, research materials, witness information, investigation materials, information compiled under the direction of the attorney, and case management records. The files contain material which is confidential as attorney work product and attorney-client communications. Some materials are confidential under other applicable provisions of law or because of a court order. Persons wishing copies of pleadings and other documents filed in litigation should obtain them from the clerk of the appropriate court which maintains the official copy.

5.16(4) Audits division. Paper files stored according to a person's or company's name are collected for purposes of auditing gaming, beer, wine, liquor, or real estate licenses. In each case the name of the

- Gaming licenses, 99B.2(2)
- Beer permits, 123.138
- Liquor control licenses, 123.33

All of these records are used to conduct audits according to Iowa Code section 10A.302.

5.16(5) *Investigations division.* Paper and data processing files are stored and are retrievable using a name, social security number, or state identification number. CHAPTER 6
UNIFORM WAIVER AND VARIANCE RULES

481—6.1(10A,17A,ExecOrd11) Applicability. This chapter outlines a uniform process for the granting of waivers or variances from rules adopted by the department. The intent of this chapter is to allow persons to seek exceptions to the application of rules issued by the department.

481—6.2(10A,17A,ExecOrd11) Definitions.

“Attached units” means units attached to the department and includes the employment appeal board, hospital licensing board, state citizen foster care review board, racing and gaming commission, and state public defender’s office.

“Department” means the department of inspections and appeals authorized by Iowa Code chapter 10A, which is comprised of the administrative division, administrative hearings division, audits division, health facilities division, inspections division and investigations division. Pursuant to Iowa Code section 7E.2(5), five attached units are included in the department.

“Director” means the director of the department of inspections and appeals or the director’s designee.

“Director/board” means the director, board, commission or state public defender depending on which one has the decision-making authority pursuant to Iowa Code chapter 10A or 7E.

“Person” means an individual, corporation, limited liability company, government or governmental subdivision or association, or any legal entity.

481—6.3(10A,17A,ExecOrd11) Interpretive rules. This chapter shall not apply to rules that merely define the meaning of a statute or other provision of law or precedent if the department does not possess delegated authority to bind the courts to any extent with its definition.

481—6.4(10A,17A,ExecOrd11) Compliance with statute. The department shall not grant a petition for waiver or a variance from a rule unless a statute or other provision of law has delegated authority to the department sufficient to justify that action and the waiver or variance is consistent with the statute or other provision of law. No waiver or variance may be granted from a requirement that is imposed by statute, unless the statute itself specifically authorizes that action. Any waiver or variance must be consistent with statute.

481—6.5(10A,17A,ExecOrd11) Criteria for waiver or variance. At the sole discretion of the director/board, the director/board may issue an order, in response to a completed petition or on the department’s own motion, granting a waiver or variance from a rule adopted by the department, in whole or in part, as applied to the circumstances of a specified person or a specific and narrowly drawn class of persons if the director/board finds based on clear and convincing evidence that:

1. The application of the rule to the petitioner would pose an undue hardship on the person or class of persons for whom the waiver or variance is requested;
2. The waiver or variance from the requirements of a rule in the specific case would not prejudice the substantial legal rights of any person;
3. The provisions of a rule subject to a petition for a waiver or variance are not specifically mandated by statute or another provision of law; and
4. Substantially equal protection of public health, safety, and welfare will be afforded by a means other than that prescribed in the particular rule for which the waiver or variance is requested.

481—6.6(10A,17A,ExecOrd11) Filing of petition. A petition for a waiver or variance must be submitted in writing to the Department of Inspections and Appeals, Office of the Director, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319. If the petition relates to a pending contested case, the petition shall also be filed in the contested case proceeding.

481—6.7(10A,17A,ExecOrd11) Content of petition. A petition for waiver or variance shall include the following information where applicable and known to the requester:

1. The name, address, and telephone number of the entity or person for whom a waiver or variance is being requested and the case number of any related contested case.
2. A description and citation of the specific rule from which a waiver or variance is requested.
3. The specific waiver or variance requested, including the precise scope and operative period that the waiver or variance will extend.
4. The relevant facts that the petitioner believes would justify a waiver or variance. This statement shall include a signed statement from the petitioner attesting to the accuracy of the facts provided in the petition and a statement of reasons that the petitioner believes will justify a waiver or variance.
5. A history of any prior contacts between the department and the petitioner relating to the regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department that would be affected by the proposed waiver or variance, including a description of each regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department, any notices of violation, contested case hearings, or investigative reports relating to the regulated activity, license, appeal, hearing, audit, investigation, inspection, representation or other assigned function of the department within the last five years.
6. Any information known to the requester regarding the department's treatment of similar cases.
7. The name, address, and telephone number of any public agency or political subdivision which also regulates the activity in question or which might be affected by the granting of a waiver or variance.
8. The name, address, and telephone number of any person or entity that would be adversely affected by the granting of a petition.
9. The name, address, and telephone number of any person with knowledge of the relevant facts relating to the proposed waiver or variance.
10. Signed releases of information authorizing persons with knowledge regarding the request to furnish the department with information relevant to the waiver or variance.

481—6.8(10A,17A,ExecOrd11) Additional information. Prior to issuing an order granting or denying a waiver or variance, the department may request additional information from the petitioner relative to the petition and surrounding circumstances. If the petition was not filed in a contested case, the department may, on its own motion or at the petitioner's request, schedule a telephonic or in-person meeting between the petitioner and the department or department's designee.

481—6.9(10A,17A,ExecOrd11) Notice. The department shall acknowledge a petition upon receipt. The department shall ensure that notice of the pendency of the petition and a concise summary of its contents have been provided to all persons to whom notice is required by any provision of law within 30 days of the receipt of the petition. In addition, the department may give notice to other persons. To accomplish this notice provision, the department may require the petitioner to serve the notice on all persons to whom notice is required by any provision of law and provide a written statement to the department attesting that notice has been provided.

481—6.10(10A,17A,ExecOrd11) Hearing procedures. The provisions of Iowa Code sections 17A.10 to 17A.18A regarding contested case hearings shall apply to any petition for a waiver or variance of rule filed within a contested case and shall otherwise apply to agency proceedings for a waiver or variance only when the department so provides by rule or order or is required to do so by statute.

481—6.11(10A,17A,ExecOrd11) Ruling. An order granting or denying a waiver or variance shall be in writing and shall contain a reference to the particular person and rule or portion thereof to which the order pertains, a statement of the relevant facts and reasons upon which the action is based, and a description of the precise scope and operative period of the waiver if one is issued.

6.11(1) Director/board discretion. The decision on whether the circumstances justify the granting of a waiver or variance shall be made at the discretion of the director upon consideration of all relevant factors, except for the below-listed programs, for which the applicable board, commission or state public defender shall make the decision, upon consideration of all relevant factors:

- a. Employment appeal board, 486—Chapter 1.
- b. Hospital licensing board, 481—Chapter 51.
- c. State citizen foster care review board, 489—Chapter 1.
- d. Racing and gaming commission, 491—Chapter 1.
- e. State public defender's office, 493—Chapter 1.

6.11(2) Burden of persuasion. The petitioner has the burden of persuasion when a petition is filed for a waiver or variance from a department rule. The standard of proof is clear and convincing evidence.

6.11(3) Special waiver or variance rules not precluded. This chapter shall not preclude the department from granting waivers or variances in other contexts or on the basis of other standards if a statute authorizes the department to do so and the department deems it appropriate to do so.

6.11(4) Administrative deadlines. When the rule from which a waiver or variance is sought establishes administrative deadlines, the director/board shall balance the special individual circumstances of the petitioner with the overall goal of uniform treatment of all persons similarly situated.

6.11(5) Conditions. The director/board may condition the granting of the waiver or variance on such reasonable conditions as appropriate to achieve the objectives of the particular rule in question through alternative means and in compliance with the following provisions:

- a. Each petition for a waiver or variance shall be evaluated by the department based on the unique, individual circumstances set out in the petition;
- b. A waiver or variance, if granted, shall be drafted by the department so as to provide the narrowest exception possible to the provisions of the rule;
- c. The department may place on a waiver or variance a condition that the department finds desirable to protect the public health, safety, and welfare;
- d. A waiver or variance shall not be permanent, unless the petitioner can show that a temporary waiver or variance would be impracticable; and
- e. If a temporary waiver or variance is granted, there is no automatic right to renewal. At the sole discretion of the department, a waiver or variance may be renewed if the department finds that all of the factors set out in rule 6.5(10A,17A,ExecOrd11) remain valid.

6.11(6) Time for ruling. The director/board shall grant or deny a petition for a waiver or variance as soon as practicable but, in any event, shall do so within 120 days of its receipt, unless the petitioner agrees to a later date. However, if a petition is filed in a contested case, the director/board has the discretion to wait until the contested case is resolved before entering an order on the petition for waiver or variance.

6.11(7) When deemed denied. Failure of the director/board to grant or deny a petition within the required time period shall be deemed a denial of that petition by the director/board.

6.11(8) Service of order. Within seven days of its issuance, any order issued under this chapter shall be transmitted to the petitioner or the person to whom the order pertains and to any other person entitled to such notice by any provision of law.

481—6.12(10A,17A,ExecOrd11) Public availability. Subject to the provisions of Iowa Code section 17A.3(1)“e,” the department shall maintain a record of all orders granting or denying waivers and variances under this chapter. All final rulings in response to requests for waivers or variances shall be indexed and available to members of the public at the director's office.

Twice each year the department must prepare a report that:

1. Identifies the rules for which a waiver or variance has been granted or denied;
2. The number of times a waiver or variance was granted or denied for each rule;
3. A citation to the statutory provisions implemented by these rules; and
4. A general summary of the reasons justifying the department's actions.

481—6.13(10A,17A,ExecOrd11) Voiding or cancellation. A waiver or variance is void if the material facts upon which the request is based are not true or if material facts have been withheld. The director/board may at any time cancel a waiver or variance upon appropriate notice and hearing if the director/board finds that the facts as stated in the request are not true, material facts have been withheld, the alternative means of compliance provided in the waiver or variance have failed to achieve the objectives of the statute, or the requester has failed to comply with the conditions of the order.

481—6.14(10A,17A,ExecOrd11) Violations. Violation of conditions in the waiver or variance approval is the equivalent of violation of the particular rule for which the waiver or variance is granted and is subject to the same remedies or penalties.

481—6.15(10A,17A,ExecOrd11) Defense. After the director/board issues an order granting a waiver or variance, the order is a defense within its terms and the specific facts indicated therein for the person to whom the order pertains in any proceeding in which the rule in question is sought to be invoked.

481—6.16(10A,17A,ExecOrd11) Appeals. Any request for an appeal from a decision granting or denying a waiver or variance shall be in accordance with the procedures provided in Iowa Code chapter 17A and departmental rules. An appeal shall be taken within 30 days of the issuance of the ruling in response to the request unless a contrary time is provided by rule or statute.

481—6.17(10A,17A,ExecOrd11) Sample petition for waiver or variance.

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—9.2(10A,17A) Initiation of a contested case proceeding. If the department decides to initiate a contested case proceeding upon request or its own initiative, the department shall transmit the proceeding to the administrative hearings division, which shall issue a notice of hearing and assign the proceeding to an administrative law judge to serve as the presiding officer. All contested case proceedings shall be conducted pursuant to 481—Chapter 10 and any other administrative rule applicable to the specific type of proceeding.
[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—9.3(10A,17A) Director review.

Requests shall be mailed or delivered by either party to the Director, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083. Failure to request review will preclude judicial review unless the department reviews on its own motion as follows. The department may review a proposed decision upon its own motion within 15 days of issuance of the proposed decision.

9.3(2) A review shall be based on the record and limited to issues raised in the hearing. The issues shall be specified in the party's request for review.

9.3(3) Each party shall have opportunity to file exceptions and present briefs. The director or a designee of the director may set a deadline for submission of briefs. 9.3(5) Final decisions shall be issued by the director or the director's designee.

481—9.4(10A,17A) Rehearing. Requests for rehearing shall be made to the director of the department within 20 days of issuance of a final decision. A rehearing may be granted when new legal issues are raised, new evidence is available or an obvious mistake is corrected or when the decision failed to include adequate findings or conclusions on all issues. A request for rehearing is not necessary to exhaust administrative remedies.
[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—9.5(10A,17A) Judicial review. Judicial review of department final decisions may be sought in accordance with Iowa Code section 17A.19.

10.11(1) Petition. When an action of the agency is appealed and pleadings are required under this rule, the aggrieved party shall file the petition.

a. Any required petition shall be filed within 20 days of delivery of the notice of hearing, unless otherwise ordered.

b. The petition shall state in separately numbered paragraphs the following:

(1) The relief demanded and the facts and law relied upon for relief;

- (2) The particular provisions of the statutes and rules involved;
- (3) On whose behalf the petition is filed; and
- (4) The name, address and telephone number of the petitioner and the petitioner's attorney, if any.

10.11(2) Answer. If pleadings are required, the answer shall be filed within 20 days of service of the petition or notice of hearing, unless otherwise ordered.

a. Any party may move to dismiss or apply for a more definite, detailed statement when appropriate.

b. The answer shall show on whose behalf it is filed and specifically admit, deny or otherwise answer all material allegations of the pleading to which it responds. It shall state any facts deemed to show an affirmative defense and may contain as many defenses as the pleader may claim.

c. The answer shall state the name, address and telephone number of the person filing the answer and of the attorney representing that person, if any.

481—10.12(17A) Service and filing of documents.

10.12(1) When service is required. Except where otherwise specifically authorized by law, every pleading, motion, or other document filed in the contested case proceeding and every document relating to discovery in the proceeding shall be served upon each of the parties to the proceeding, including the originating agency. Except for the notice of the hearing and an application for rehearing as provided in Iowa Code subsection 17A.16(2), the party filing a document is responsible for service on all parties.

10.12(2) Methods of performing service. Service upon a party represented in the contested case proceeding by an attorney shall be made upon the attorney unless otherwise ordered. Service is made by delivering, mailing, or transmitting by facsimile (fax) or by electronic mail (email) a copy to the party or attorney at the party's or attorney's last-known mailing address, fax number, or email address. Service by first-class mail is complete upon mailing, except where otherwise specifically provided by statute, rule or order. Service by fax or electronic mail is complete upon transmission unless the party making service learns that the attempted service did not reach the person to be served.

10.12(3) Filing with the division. After a matter has been assigned to the division, and until a proposed decision is issued, every pleading, motion, or other document shall be filed with the division, rather than the originating agency. All documents that are required to be served upon a party shall be filed simultaneously with the division.

a. Except where otherwise provided by law, a document is deemed filed with the division at the time it is:

- (1) Delivered to the division at the Wallace State Office Building, Third Floor, 502 East Ninth Street, Des Moines, Iowa, and date-stamped received;
- (2) Delivered to an established courier service for immediate delivery to the division;
- (3) Mailed to the division by first-class mail or by state interoffice mail so long as there is adequate proof of mailing; or

b. All documents filed with the division pursuant to these rules, except a person's request or demand for a contested case proceeding (see Iowa Code subsection 17A.12(9)), may be filed by facsimile (fax), electronic mail (email), or other electronic means approved by the division. A document filed by

fax, email, or other approved electronic means is presumed to be an accurate reproduction of the original. If a document filed by fax, email, or other approved electronic means is illegible, a legible copy may be substituted and the date of filing shall be the date the illegible copy was received. The date of filing by fax, email, or other approved electronic means shall be the date the document is received by the division. The division will not provide a mailed file-stamped copy of documents filed by fax, email, or other approved electronic means.

10.12(4) Proof of mailing. Adequate proof of mailing includes the following:

- a. A legible United States postal service postmark on the envelope;

481—10.13(17A) Discovery.

10.13(1) Pursuant to Iowa Code section 17A.13, discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by rules of the agency or by a ruling by the ALJ, time periods for compliance with discovery shall be as provided in the Iowa Rules of Civil Procedure.

10.13(2) Any motion relating to discovery shall allege that the moving party has made a good faith attempt to resolve the issues raised by the motion with the opposing party. Motions in regard to discovery shall be ruled on by the ALJ. Opposing parties shall be afforded the opportunity to respond within ten days of the filing of the motion unless the time is shortened as provided in subrule 10.13(1). The ALJ may rule on the basis of the written motion and any response or may order argument on the motion.

This rule is intended to implement Iowa Code section 17A.13.

481—10.14(10A,17A) Subpoenas.

10.14(1) Issuance.

a. Pursuant to Iowa Code subsection 17A.13(1), the division shall issue an agency subpoena to a party on request unless otherwise excluded pursuant to this rule. A request for a subpoena shall be in writing. The request may be made in person or by mail, facsimile (fax), electronic mail (email), or other electronic means approved by the division. The request shall include the names of the parties, the case number, the name and address of the requested witness, and a description or list of any documents or other items requested. The request shall also note the nature of the proceeding at which the witness is requested to testify (e.g., deposition, telephone hearing, or in-person hearing), the date and time of the proceeding, whether the witness is requested to appear in person or by telephone, the location of the proceeding if it is being conducted in a location other than the Wallace State Office Building, and the method of recording any deposition. A request for a subpoena shall be received by the division at least seven calendar days before the scheduled hearing. The request shall include the name, address, email address, and telephone number of the requesting party.

b. The division shall provide the subpoena to the requesting party by regular mail, fax, email, or other electronic means or allow for pickup during the department's regular business hours.

c. When authorized by law, an administrative law judge (ALJ) may issue a subpoena on the ALJ's own motion.

d. When there is reasonable ground to believe a subpoena is requested for the purpose of harassment, or that the subpoena requests irrelevant evidence or is untimely, the division may refuse to issue the subpoena. If the division refuses to issue a subpoena, the division shall provide a written statement of the ground for refusal. A party to whom a refusal is issued may obtain a prompt hearing before an ALJ regarding the refusal by filing with the division and serving on all parties a written request for a hearing, including a statement of testimony, documents, or other items expected to be elicited from the subpoenaed witness and a showing of relevancy to the proceeding.

e. The issuance of a subpoena by the division does not constitute a ruling by the ALJ that the subpoenaed witness may testify at the hearing or that a subpoenaed document may be admitted into evidence. A party seeking to call a subpoenaed witness to testify or seeking to introduce a subpoenaed document at a hearing must comply with any applicable requirement in statute, administrative rule, or ALJ order regarding the submission of witness or exhibit lists and the disclosure of proposed exhibits to opposing parties.

10.14(2) Form and contents.

a. *Requirements.* Any subpoena issued after the commencement of a contested case or other proceeding conducted by the division shall be issued on a form approved by the division and must:

(1) State that the subpoena is issued by the administrative hearings division of the department of inspections and appeals;

(2) State the title of the proceeding and its case number;

(3) Command each person to whom it is directed to do the following at a specified time and place: attend and testify; produce designated documents, electronically stored information, or tangible things in that person's possession, custody or control; or permit the inspection of premises; and

(4) Include a guidance document for subpoenaed persons that has been approved by the division and that shall include the text of subrules 10.14(4) and 10.14(5).

b. *Command to attend a deposition; notice of the recording method.* A subpoena commanding attendance at a deposition must state the method for recording the testimony.

c. *Combining or separating a command to produce or to permit inspection; specifying the form for electronically stored information.* A command to produce documents, electronically stored information, or tangible things or to permit the inspection of premises may be included in a subpoena commanding attendance at a deposition, hearing, or trial or may be set out in a separate subpoena. A subpoena may specify the form or forms in which electronically stored information is to be produced.

d. *Command to produce; included obligations.* A command in a subpoena to produce documents, electronically stored information, or tangible things requires the responding party to permit inspection, copying, testing, or sampling of the materials.

10.14(3) Service of subpoenas.

a. The requesting party is responsible for arranging service of a subpoena prior to the hearing or deposition at which the testimony is commanded or the time at which the requested documents must be produced. The party is responsible for any cost associated with serving a subpoena and for the payment of witness fees and mileage expenses. If requested, pursuant to Iowa Code section 622.69, the witness fee is \$10 for a full day's attendance and is \$5 for attendance less than a full day, and mileage shall be paid for each mile actually traveled to participate in an in-person hearing or deposition at the rate established by the supreme court for witnesses in court proceedings, except that:

(1) No peace officer who receives a regular salary, or any other public official shall in any case receive fees as a witness for testifying in regard to any matter coming to the officer's or official's knowledge in the discharge of the officer's or official's official duties in a telephone hearing or an in-person hearing held in the county of the officer's or official's residence, except police officers who are called as witnesses when not on duty. An officer is on duty when paid by the officer's employing agency regardless whether the officer would regularly be on duty at the time of the hearing.

(2) A volunteer fire fighter, as defined in Iowa Code section 85.61, who is subpoenaed to appear as a witness in connection with a matter regarding an event or transaction which the fire fighter perceived or investigated in the course of duty as a volunteer fire fighter shall receive a fee only as provided for under Iowa Code section 622.71A.

b. Any person who is at least 18 years old and not a party may serve a subpoena. Serving a subpoena requires delivering a copy to the named person and, if the subpoena requires that person's attendance and, if demanded, tendering the fees for one day's attendance and traveling fees to and from the proceeding. If the subpoena commands the production of documents, electronically stored information, or tangible things, then before it is served, a notice must be served on each party. For purposes of this rule, an employee of a state or local governmental agency is not a party merely because the agency is a party and may serve a subpoena unless the employee is also a named party in the proceeding or otherwise ineligible to serve a subpoena.

c. Permissible place of service. A subpoena may be served any place within the state of Iowa.

d. Proof of service. Proving service, when necessary, requires filing with the division a statement showing the date and manner of service and the names of persons served. The server must certify the statement in accordance with Iowa Code section 622.1.

10.14(4) Protecting a person subject to a subpoena.

a. *Avoiding undue burden or expense; sanctions.* A party or attorney responsible for serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The administrative law judge must enforce this duty and impose an appropriate sanction, which may include lost earnings and reasonable attorney's fees, on a party or attorney who fails to comply.

b. *Command to produce materials or permit inspection.*

(1) Appearance not required. A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition or hearing.

(2) Objections. A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing or sampling any or all of the materials or to inspecting the premises, or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

1. At any time, on notice to the commanded person, the serving party may move for an order compelling production or inspection.

2. These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

c. *Attendance.* Any party shall be permitted to attend at the same time and place and for the same purposes specified in the subpoena. No prior notice of intent to attend is required.

d. *Quashing or modifying a subpoena.*

(1) When required. On timely motion, the administrative law judge must quash or modify a subpoena that:

1. Fails to allow a reasonable time to comply;

2. Requires a person who is neither a party nor a party's officer to travel more than 50 miles from where that person resides, is employed, or regularly transacts business in person, except that a person may be ordered to attend a hearing anywhere within the state in which the person is served with a subpoena;

3. Requires disclosure of privileged or other protected matter, if no exception or waiver applies; or

4. Subjects a person to undue burden.

(2) When permitted. To protect a person subject to or affected by a subpoena, the administrative law judge may, on motion, quash or modify the subpoena if it requires:

1. Disclosing a trade secret or other confidential research, development, or commercial information;

2. Disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party; or

3. A person who is neither a party nor a party's officer to incur substantial expense to travel more than 50 miles to attend a hearing.

(3) Specifying conditions as an alternative. In the circumstances described in subparagraph 10.14(4)“d”(2), the administrative law judge, instead of quashing or modifying a subpoena, may order appearance or production under specified conditions if the serving party:

1. Shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and
2. Ensures that the subpoenaed person will be reasonably compensated.

(4) A motion to quash or modify a subpoena shall be filed with the division and served on all parties of record pursuant to rule 481—10.12(17A), except that a motion filed by or on behalf of a person who is neither a party nor a party’s officer may be filed with the division and served only on the agency with a request for the division to provide a copy of the motion to all non-agency parties. The division may require a person requesting the division to provide the motion to a non-agency party to provide an additional paper copy of the motion and any attached exhibits for the division to provide to the non-agency party.

(5) The motion may be set for argument at the discretion of the administrative law judge. The administrative law judge may limit the participation of a person who is not a party, or the representative of such a person, to the extent necessary to protect any confidential information related to the proceeding.

10.14(5) Duties in responding to a subpoena.

a. Producing documents or electronically stored information. These procedures apply to producing documents or electronically stored information:

(1) Documents. A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(2) Form for producing electronically stored information not specified. If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(3) Electronically stored information produced in only one form. The person responding need not produce the same electronically stored information in more than one form.

(4) Inaccessible electronically stored information. The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the administrative law judge may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Iowa Rule of Civil Procedure 1.504(1)(b). The administrative law judge may specify conditions for the discovery.

b. Claiming privilege or protection.

(1) Information withheld. A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

1. Expressly make the claim; and
2. Describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(2) Information produced. If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information to the court under seal for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

This rule is intended to implement Iowa Code sections 10A.104(6) and 17A.13.

481—10.15(10A,17A) Motions.

10.15(1) No technical form is required for motions. Prehearing motions, however, must be written, state the grounds for relief and state the relief sought. Any motion for summary judgment shall be filed in compliance with the requirements of Iowa Rules of Civil Procedure.

10.15(2) Any party may file a written resistance or response to a motion within 14 days after the motion is served, unless the time period is extended or shortened by rules of the agency or the administrative law judge. The ALJ may consider a failure to respond within the required time period in ruling on a motion.

10.15(3) The administrative law judge may schedule oral argument on any motion on the request of any party or the ALJ's own motion.

10.15(4) Except for good cause, all motions pertaining to the hearing must be filed and served at least ten days prior to the hearing date unless the time period is shortened or lengthened by rules of the agency or the administrative law judge.

481—10.16(10A,17A) Prehearing conference.

10.16(1) *Set by division.* The division may commence a contested case proceeding by issuing a notice of hearing that sets a prehearing conference to provide parties an opportunity to be heard on the selection of a date and time for the hearing on the merits and any other matters set forth in the notice or raised by the parties.

10.16(2) *Requested by party.* Any party may request a prehearing conference by filing and serving a written motion at least ten days prior to the date of the hearing. The motion must state any matters that the party seeks to address at the prehearing conference. If the administrative law judge grants the motion, the administrative law judge shall issue an order providing notice of the date and time of the prehearing conference to all parties.

10.16(3) *Ordered by administrative law judge.* The administrative law judge may order a prehearing conference if the administrative law judge determines on the administrative law judge's own motion that a prehearing conference should be held.

10.16(4) *Default.* If a party fails to appear or participate in a prehearing conference after proper service of notice, the administrative law judge may enter a default decision or proceed with the prehearing conference in the absence of the party.

This rule is intended to implement Iowa Code sections 10A.801(7) and 17A.12.
[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.17(10A) Continuances. Unless otherwise provided, application for continuance shall be made to the ALJ or to the division if an ALJ has not been assigned.

10.17(1) A written application for continuance shall:

- a. Be made before the hearing;
- b. State the specific reasons for the request; and
- c. Be signed by the requesting party or their representative.

10.17(2) If the ALJ waives the requirement for a written motion, an oral application for continuance may be made. A written application shall be submitted no later than five days after the oral request. The ALJ may waive this requirement. No application for continuance will be made or granted ex parte without notice except in an emergency where notice is not feasible. The agency may waive notice of requests for a case or a class of cases.

10.17(3) Except where otherwise provided, a continuance may be granted at the discretion of the ALJ. The administrative law judge shall consider, in addition to the grounds stated in the motion:

- a. Any prior continuances;
- b. The interests of all parties;
- c. The likelihood of informal settlement;
- d. Existence of emergency;
- e. Objection to the continuance;
- f. Any applicable state or federal statutes or regulations;

- g. The existence of a conflict in the schedules of counsel or parties or witnesses; and
- h. The timeliness of the request.

The ALJ may require documentation of any ground for continuance.

This rule is intended to implement Iowa Code section 10A.801(7).

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.18(10A,17A) Withdrawals. The party which requested an evidentiary hearing regarding agency action may withdraw prior to the hearing only in accordance with agency rules. Requests for withdrawal may be oral or written. If oral, the ALJ may require the party to submit a written request after the oral request. Unless otherwise provided, a withdrawal shall be with prejudice.

This rule is intended to implement Iowa Code sections 10A.801(7) and 17A.22.

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.19(10A,17A) Intervention.

10.19(1) Motion. A motion for leave to intervene shall be served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding. A proposed answer or petition in intervention shall be attached to the motion. Any party may file a response within ten days of service of the motion to intervene unless the time period is extended or shortened by the ALJ.

10.19(2) When filed. Motion for leave to intervene shall be filed as early in the proceeding as possible to avoid adverse impact on existing parties or the disposition of the proceeding. Unless otherwise ordered, a motion for leave to intervene shall be filed before the prehearing conference, if one is held, or at least 20 days before the date scheduled for hearing. Any later motion must contain a statement of good cause for the failure to file in a timely manner. The intervenor shall be bound by any agreement, arrangement or other matter previously raised in the case. Requests by untimely intervenors for continuances which would delay the hearing will be denied.

10.19(3) Grounds for intervention. The movant shall demonstrate that:

- a. Intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties;
- b. The movant will be aggrieved or adversely affected by a final order; and
- c. The interests of the movant are not being adequately represented by existing parties; or that it is otherwise entitled to intervene.

10.19(4) Effect of intervention. If appropriate, the ALJ may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings. A person granted leave to intervene is a party to the proceeding. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding.

This rule is intended to implement Iowa Code sections 10A.801(7) and 17A.22.

[ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—10.20(17A) Hearing procedures.

10.20(1) When an ALJ has been appointed as the presiding officer in a contested case, the ALJ may:

- a. Rule on motions;
- b. Preside at the hearing;
- c. Require the parties to submit briefs;
- d. Issue a proposed decision; and
- e. Issue orders and rulings to ensure the orderly conduct of the proceedings.

10.20(2) All objections to procedures, admission of evidence or any other matter shall be timely made and stated on the record.

10.20(3) Parties in a contested case have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Partnerships, corporations or associations may be represented by any member, officer, director or duly authorized agent. Any party may be represented by an attorney or as otherwise authorized by law.

10.20(4) Parties in a contested case have the right to introduce evidence on points at issue, to cross-examine witnesses present at the hearing as necessary for a full and true disclosure of the facts, to present evidence in rebuttal and to submit briefs.

10.20(5) The ALJ shall maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly or disruptive.

10.20(6) Witnesses may be sequestered during the hearing.

10.20(7) The ALJ shall conduct the hearing in the following manner:

- a.* The ALJ shall give an opening statement briefly describing the nature of the proceeding;
- b.* The parties shall be given an opportunity to present opening statements;
- c.* Parties shall present their cases in the sequence determined by the ALJ;
- d.* Each witness shall be sworn or affirmed by the ALJ or the court reporter, and be subject to examination. The ALJ may limit questioning consistent with Iowa Code section 17A.14;
- e.* The ALJ has the authority to fully and fairly develop the record and may inquire into the matters at issue and shall receive in evidence the testimony of witnesses and any documents which are relevant and material; and
- f.* When all parties and witnesses have been heard, parties shall be given the opportunity to present final arguments.

This rule is intended to implement Iowa Code sections 17A.11 to 17A.14.

481—10.21(17A) Evidence.

10.21(1) The ALJ shall rule on admissibility of evidence in accordance with Iowa Code section 17A.14 and may take official notice of facts pursuant to Iowa Code subsection 17A.14(4).

10.21(2) Stipulation of facts is encouraged. The ALJ may make a decision based on stipulated facts.

10.21(3) Evidence shall be confined to the issues on which there has been fair notice prior to the hearing. The ALJ may take testimony on a new issue if the parties waive the right to notice and no other objection is made. If there is objection, the ALJ may refuse to hear the new issue and may make a decision on the original issue in the notice, or may grant a continuance to allow the parties adequate time to amend pleadings and prepare their cases on the additional issue.

10.21(4) The party seeking admission of an exhibit must provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents should be provided to opposing parties.

All exhibits admitted into evidence shall be appropriately marked and be made part of the record.

10.21(5) Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. The party objecting shall briefly state the grounds for the objection. The objection, the ruling on the objection and the reasons for the ruling shall be noted in the record. The ALJ may rule on the objection at the time it is made or may reserve a ruling until the written decision.

10.21(6) Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony shall briefly summarize the testimony. If the evidence excluded consists of a document or exhibits, it shall be marked as part of an offer of proof and inserted in the record.

This rule is intended to implement Iowa Code sections 17A.11 to 17A.14.

481—10.22(17A) Default.

10.22(1) If a party fails to appear in a contested case proceeding after proper service of notice, the ALJ may, if no adjournment is granted, proceed with the hearing and make a decision in the absence of the party.

10.22(2) Where appropriate and not contrary to law, any party may move for default against a party who has requested an evidentiary hearing to contest adverse agency action which has already occurred, but has failed to file a required pleading or has failed to appear after proper service.

10.22(3) Where authorized by law, an ALJ may issue a default order.

481—10.23(17A) Ex parte communication.

10.23(1) Ex parte communication is prohibited as provided in Iowa Code section 17A.17. Parties or their representatives and ALJs shall not communicate directly or indirectly in connection with any issue of fact or law in a contested case except upon notice and an opportunity for all parties to participate. The ALJ may communicate with persons who are not parties as provided in subrule 10.23(2).

10.23(2) However, the ALJ may communicate with members of the agency and may have the aid and advice of persons other than those with a personal interest in, or those prosecuting or advocating in the case under consideration or a factually related case involving the same parties.

10.23(3) Any party or ALJ who receives prohibited communication shall submit the written communication or a summary of the oral communication for inclusion in the record. Copies shall be sent to all parties. There shall be opportunity to respond.

10.23(4) Prohibited communications may result in sanctions as provided in agency rule. In addition, the department, through the ALJ, may censure the person or may prohibit further appearance before the department.

This rule is intended to implement Iowa Code sections 17A.14 and 17A.17.

481—10.24(10A,17A) Decisions.

10.24(1) *Proposed decisions.* The ALJ shall issue a proposed decision which includes findings of fact and conclusions of law stated separately. The decision shall be based on the record of the contested case.

The record in a contested case shall include all materials specified in Iowa Code subsection 17A.12(6). This shall include any request for a contested case hearing and other relevant procedural documents regardless of their form.

A ruling dismissing all of a party's claims or a voluntary dismissal is a proposed decision under Iowa Code section 17A.15.

10.24(2) *Review of proposed decisions.* Request for review of a proposed decision shall be made to the agency in which the contested case originated in the manner and within the time specified by that agency's rules. In contested cases in which the director of the department of inspections and appeals has final decision-making authority, request for review shall be made as provided in rule 481—9.3(10A,17A).

10.24(3) *Final decisions.* If there is no appeal from or review of the proposed decision, the ALJ's proposed decision becomes the final decision of the agency.

10.24(4) *Agency reports.* The agency shall send a copy of any request for review of a proposed decision to the division. The agency shall notify the division of the results of the review, the final decision and any judicial decision issued.

10.26(1) The ALJ may rule on preliminary matters, including motions, and conduct prehearing conferences referred by the board.

10.26(2) The ALJ may conduct the hearing for the board, and may, when delegated by the board, perform duties including, but not limited to, the following:

- a. Open the record and receive appearances;
- b. Administer oaths and issue subpoenas;
- c. Enter the notice of hearing into the record;
- d. Enter the statement of charges into the record;
- e. Receive testimony and exhibits presented by the parties;

481—11.6(17A) Service and filing of documents.

11.6(1) *When service is required.* Every pleading, motion, or other document filed in the contested case proceeding shall be served on each of the parties to the proceeding, including the agency. Except for an application for rehearing as provided in rule 481—11.14(17A) and Iowa Code subsection 17A.16(2), the party filing a document is responsible for service on all parties.

11.6(2) *Methods of performing service.* Service upon a party represented in the contested case proceeding by an attorney shall be made upon the attorney unless otherwise ordered. Service is made by delivering, mailing, or transmitting by facsimile (fax) or by electronic mail (e-mail) a copy to the party or attorney at the party's or attorney's last-known mailing address, fax number, or e-mail address. [ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 1993C, IAB 5/27/15, effective 7/1/15]

481—11.7(17A) Witness lists and exhibits. No later than five days before the hearing, a party shall serve on all parties and shall file with the division a witness list and a copy of any exhibit(s) the party intends to introduce into evidence during the contested case proceeding. If a party fails to serve on all parties and file with the division a witness list or any exhibit five days before the hearing, the party may be precluded from calling the witness at hearing or introducing the exhibit(s) into the record at hearing.

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 1993C, IAB 5/27/15, effective 7/1/15]

481—11.8(17A) Evidence. The administrative law judge shall rule on the admissibility of evidence and may take official notice of facts in accordance with applicable requirements of law. Evidence in the proceeding shall be confined to the issues for which the parties received notice prior to the hearing.

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11]

481—11.9(17A) Withdrawals and dismissals. A request for withdrawal or dismissal of the appeal may be made with the division prior to the hearing. Either request must be in writing or secured on the record.

11.9(1) Withdrawals. An applicant or permittee who requested a contested case proceeding may request a withdrawal of the appeal. Upon receipt of a request for withdrawal of the appeal, the administrative law judge shall issue an order dismissing the appeal and addressing the award of attorney fees pursuant to rule 481—11.11(10A).

11.9(2) Dismissals. An agency may request a dismissal of the appeal by agreeing to grant the entire relief sought by the applicant or permittee. The administrative law judge shall review a request for dismissal to determine whether it grants all relief requested in the appeal. If the request grants all relief requested in the appeal, the administrative law judge shall issue an order dismissing the appeal, ordering the agency to grant the relief requested, determining that no attorney fees are to be awarded, and closing the case.

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 3217C, IAB 7/19/17, effective 8/23/17]

481—11.10(17A) Default. If a party fails to appear after proper service of notice, the administrative law judge may enter a default order against the party or may proceed with the hearing and make a decision in the absence of the party. The default order or decision made in the absence of the party shall address the award of attorney fees pursuant to rule 481—11.11(10A).

[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 3217C, IAB 7/19/17, effective 8/23/17]

481—11.11(10A) Attorney fees, court costs, and contested case costs.

11.11(1) Attorney fees. In a decision rescinding or sustaining the agency's denial, suspension, or revocation of the permit or otherwise granting a request to withdraw or dismiss the appeal, the administrative law judge shall determine whether a party is entitled to an award of attorney fees consistent with paragraph 11.11(1) "a" or "b." If a party is entitled to an award, the decision shall inform the parties of the applicable procedure provided in paragraph 11.11(1) "c" for determining the amount of such an award unless the administrative law judge determines the amount of an award in the decision as provided for in paragraph 11.11(1) "f."

a. If the administrative law judge rescinds the agency's denial, suspension, or revocation of the permit and determines the applicant or permittee is eligible to be issued or to possess the permit, the applicant or permittee shall be awarded any reasonable attorney fees. A dismissal of the appeal at the

request of the agency under subrule 11.9(2) is not a determination that the applicant or permittee is eligible to be issued or to possess the permit and does not entitle the applicant or permittee to an award of attorney fees. An applicant or permittee who is not represented by an attorney in the contested case proceeding is not entitled to an award of attorney fees.

b. If the administrative law judge affirms the agency's denial, suspension, or revocation of the permit or grants the applicant's or permittee's request to withdraw or dismiss the appeal, the agency shall be awarded any reasonable attorney fees. Such an award to the agency shall be made to the political subdivision of the state representing the sheriff or to the state department representing the commissioner as applicable. An agency is not entitled to an award of attorney fees if the agency requests dismissal of the appeal under subrule 11.9(2) or if the agency is not represented by an attorney in the contested case proceeding.

c. Within 14 days of the date of a decision in which the administrative law judge determines that a party is entitled to an award of attorney fees, the party shall file a request for attorney fees and documentation supporting the request or a joint statement with the other party agreeing to the amount of reasonable attorney fees. Within 7 days of the filing of a request for attorney fees, the other party may file a resistance, including any relevant evidence, or a statement agreeing to the requested attorney fees. Upon request of either party or on the administrative law judge's own motion, a hearing may be scheduled on the issue of the attorney fee award.

d. If the party fails to file a request for attorney fees or a joint statement within 14 days, the administrative law judge shall issue an order determining that no attorney fees are awarded in the case. If the parties agree to the amount of reasonable attorney fees to be awarded, the administrative law judge shall issue an order awarding attorney fees consistent with the agreement. In all other cases, the administrative law judge shall issue a written order determining the reasonable attorney fees in the case.

e. The administrative law judge's decision is not final for purposes of rehearing under rule 481—11.14(17A) or judicial review under Iowa Code chapter 17A until the administrative law judge has issued a written decision determining the amount of any attorney fees to be awarded under this subrule or determining that no attorney fees are to be awarded.

f. If an application for rehearing under rule 481—11.14(17A) is denied, no additional attorney fees shall be awarded to either party. If an application for rehearing is granted, all the provisions of this subrule apply to the rehearing proceedings unless the only relief sought on rehearing relates to the attorney fee award. If the only relief sought relates to the attorney fee award, the order granting the application for rehearing shall provide that a party opposing the requested relief may file a resistance, including any relevant evidence, within 7 days of the date of the order and shall schedule a hearing or provide that a hearing may be scheduled upon the request of either party. In such a case, the administrative law judge shall issue a single final decision regarding the attorney fee award.

g. Any attorney fees awarded under this subrule shall be paid to the awarded party within 30 days of the issuance of an order determining the amount of attorney fees awarded unless an interested party seeks rehearing under rule 481—11.14(17A) or judicial review under Iowa Code chapter 17A or the parties agree to an alternative payment schedule. If a party seeks rehearing under rule 481—11.14(17A), the attorney fees shall be paid within 30 days of the denial of the application for rehearing or of any final decision awarding attorney fees after the grant of an application for rehearing. If a party seeks judicial review under Iowa Code chapter 17A, the attorney fee award shall be stayed pending resolution of the judicial review action. A party awarded attorney fees is responsible for taking any necessary action to enforce the award if payment is not made.

11.11(2) *Court costs and attorney fees on judicial review.* Any request for the award of court costs or for attorney fees incurred after the entry of an order determining reasonable attorney fees may only be made to the court in a judicial review action under Iowa Code chapter 17A, unless a party requests rehearing under rule 481—11.14(17A), in which case reasonable attorney fees may be awarded by the administrative law judge related to the request for rehearing consistent with paragraph 11.11(1) "*f.*"

11.11(3) *Contested case costs.* Costs of the division in conducting a contested case proceeding arising out of a decision of the commissioner of public safety shall be charged to the department of public safety pursuant to Iowa Code section 10A.801(9).

This rule is intended to implement Iowa Code section 10A.801 as amended by 2017 Iowa Acts, House File 640, and section 724.21A as amended by 2017 Iowa Acts, House File 517.
[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11; ARC 3217C, IAB 7/19/17, effective 8/23/17]

481—11.12(724) Probable cause. Probable cause to deny an initial or renewal application for a permit to carry weapons or acquire firearms or to suspend or revoke a permit to carry weapons or acquire firearms means a reasonable ground exists for supposing that the basis for the denial, suspension or revocation is well-founded.
[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11]

481—11.13(724) Clear and convincing evidence. Clear and convincing evidence means there is no serious or substantial doubt about the correctness of the conclusion drawn from the evidence.
[ARC 9299B, IAB 12/29/10, effective 1/1/11; ARC 9400B, IAB 3/9/11, effective 4/13/11]

481—11.14(17A) Rehearing. An applicant, permittee, or agency aggrieved by an administrative law judge's final decision rescinding or sustaining the agency's denial, suspension, or revocation may request rehearing. A request for rehearing shall be made by filing an application for rehearing with the division within 20 days of the date of the administrative law judge's final decision and must state the specific grounds for the rehearing and the relief sought. If the only relief sought relates to the award of attorney fees, the application must include any argument and relevant evidence to be considered on rehearing. An application for rehearing shall be deemed to have been denied unless the administrative law judge grants the application within 20 days after its filing. A request for rehearing is not necessary to exhaust administrative remedies.

This rule is intended to implement Iowa Code section 724.21A as amended by 2017 Iowa Acts, House File 517, and section 17A.16.

c. A presiding officer shall require lawyers and party representatives in proceedings before the presiding officer to refrain from manifesting bias or prejudice or engaging in harassment, based upon attributes including but not limited to race, sex, gender, religion, national origin, ethnicity, disability, age, sexual orientation, marital status, socioeconomic status, or political affiliation, against parties, witnesses, lawyers, party representatives, or others.

d. The restrictions of paragraphs 15.2(3) “*b*” and “*c*” do not preclude presiding officers, lawyers, or party representatives from making legitimate reference to the listed factors, or similar factors, when they are relevant to an issue in a proceeding.

15.2(4) *External influences on administrative judicial conduct.*

a. A presiding officer shall not be swayed by public clamor or fear of criticism.

b. A presiding officer shall not permit family, social, political, financial, or other interests or relationships to influence the presiding officer’s administrative judicial conduct or judgment.

c. A presiding officer shall not convey or permit others to convey the impression that any person or organization is in a position to influence the presiding officer.

15.2(5) *Competence, diligence, and cooperation.*

a. A presiding officer shall perform administrative judicial and other duties competently and diligently.

b. A presiding officer shall cooperate with other presiding officers and other executive branch employees in the administration of agency business.

15.2(6) *Ensuring the right to be heard.*

a. A presiding officer shall accord to every person who has a legal interest in a proceeding, or that person's lawyer or authorized representative, the right to be heard according to law.

b. A presiding officer may encourage parties to a proceeding and their lawyers or authorized representatives to settle matters in dispute but shall not act in a manner that coerces any party into settlement.

15.2(7) Responsibility to decide. A presiding officer shall hear and decide matters assigned to the presiding officer, except when disqualification is required by subrule 15.2(11) or other law.

15.2(8) Decorum and demeanor.

a. A presiding officer shall require order and decorum in proceedings before the presiding officer.

b. A presiding officer shall be patient, dignified, and courteous to parties, board members, witnesses, lawyers, party representatives, agency staff, agency officials, and others with whom the presiding officer deals in an official capacity, and shall require similar conduct of lawyers, party representatives, and others subject to the presiding officer's direction and control.

15.2(9) Ex parte communications.

a. A presiding officer shall not initiate, permit, or consider ex parte communications, or consider other communications made to the presiding officer outside the presence of the parties or their lawyers, concerning a pending matter or impending matter, except as permitted by Iowa Code section 17A.17.

15.2(10) Statements on pending and impending cases.

a. A presiding officer shall not make any public statement that might reasonably be expected to affect the outcome or impair the fairness of a pending matter or impending matter before the presiding officer or another presiding officer in the same agency, or make any nonpublic statement that might substantially interfere with a fair hearing.

b. A presiding officer shall not, in connection with cases, controversies, or issues that are likely to come before the presiding officer, make pledges, promises, or commitments that are inconsistent with the impartial performance of the presiding officer's adjudicative duties.

c. A presiding officer shall require others subject to the presiding officer's direction and control to refrain from making statements that the presiding officer would be prohibited from making by paragraphs 15.2(10) "a" and "b."

d. Notwithstanding the restrictions in paragraph 15.2(10) "a," a presiding officer may explain agency procedures and may comment on any proceeding in which the presiding officer is a party in a personal capacity.

e. Subject to the requirements of paragraph 15.2(10) "a," a presiding officer may respond directly or through a third party to allegations in the media or elsewhere concerning the presiding officer's conduct in a matter.

15.2(11) Disqualification.

a. A presiding officer shall disqualify himself or herself in any proceeding in which the presiding officer's impartiality might reasonably be questioned, including but not limited to the following circumstances:

(1) The presiding officer has a personal bias or prejudice concerning a party or a party's lawyer or other representative, or has personal knowledge of facts that are in dispute in the proceeding.

(2) The presiding officer knows that the presiding officer, the presiding officer's spouse or domestic partner, or a person within the third degree of relationship to either of them, or the spouse or domestic partner of such a person is:

1. A party to the proceeding, or an officer, director, general partner, managing member, or trustee of a party;

2. Acting as a lawyer or party representative in the proceeding;

3. A person who has more than a de minimis interest that could be substantially affected by the proceeding; or

4. Likely to be a material witness in the proceeding.

(3) The presiding officer knows that he or she, individually or as a fiduciary, or the presiding officer's spouse, domestic partner, parent, or child, or any other member of the presiding officer's family residing in the presiding officer's household, has an economic interest in the subject matter in controversy or in a party to the proceeding.

(4) The presiding officer, while a presiding officer, has made a public statement, other than in an agency proceeding, decision, opinion, or order, that commits or appears to commit the presiding officer to reach a particular result or rule in a particular way in the proceeding or controversy.

(5) The presiding officer:

1. Served as a lawyer in the matter in controversy or was associated with a lawyer who participated substantially as a lawyer in the matter during such association;

3. Was a material witness concerning the matter.

(6) The presiding officer personally investigated, prosecuted, or advocated in connection with the matter, the specific controversy underlying the matter, or another pending factually related matter, or pending factually related controversy that may culminate in a contested case, involving the same parties, or is subject to the authority, direction, or discretion of any person who has personally investigated, prosecuted, or advocated in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy, involving the same parties. But the presiding officer is not required to disqualify himself or herself solely because the presiding officer determined there was probable cause to initiate the proceeding.

b. A presiding officer shall keep informed about the presiding officer's personal and fiduciary economic interests and make a reasonable effort to keep informed about the personal economic interests of the presiding officer's spouse or domestic partner and minor children residing in the presiding officer's household.

c. A presiding officer subject to disqualification under this rule, other than for bias or prejudice under subparagraph 15.2(11) "a"(1), may disclose on the record the basis of the presiding officer's disqualification and may ask the parties and their lawyers or representatives to consider, outside the presence of the presiding officer, whether to waive disqualification. If, following the disclosure, the parties and lawyers or party representatives agree, without participation by the presiding officer, that the presiding officer should not be disqualified, the presiding officer may participate in the proceeding. The agreement shall be incorporated into the record of the proceeding.

15.2(12) Supervisory duties.

a. A presiding officer shall require others subject to the presiding officer's direction and control to act in a manner consistent with the presiding officer's obligations under this Code.

b. A presiding officer with supervisory authority for the performance of other presiding officers shall take reasonable measures to ensure that those presiding officers properly discharge their administrative judicial responsibilities, including the prompt disposition of matters before them.

15.2(13) Reserved.

15.2(14) Disability and impairment. A presiding officer having a reasonable belief that the performance of a lawyer, party representative, or another presiding officer is impaired by drugs or alcohol, or by a mental, emotional, or physical condition, shall take appropriate action, which may include a confidential referral to a lawyer or employee assistance program.

15.3(3) Testifying as a character witness. An administrative law judge shall not testify as a character witness in a judicial, administrative, or other adjudicatory proceeding or otherwise vouch for the character of a person in a legal proceeding, except when duly subpoenaed.

15.3(4) Appointments to governmental positions. An administrative law judge shall not accept appointment to a governmental committee, board, commission, or other governmental position that would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality or would lead to frequent disqualification of the administrative law judge.

15.3(5) Use of nonpublic information. An administrative law judge shall not intentionally disclose or use nonpublic information acquired in an administrative judicial capacity for any purpose unrelated to the administrative law judge's administrative judicial or other duties.

15.3(6) Affiliation with discriminatory organizations.

a. An administrative law judge shall not hold membership in any organization that practices invidious discrimination on the basis of race, sex, gender, religion, national origin, ethnicity, or sexual orientation. An administrative law judge's membership in a religious organization as a lawful exercise of the freedom of religion is not prohibited.

b. An administrative law judge shall not use the benefits or facilities of an organization if the administrative law judge knows or should know that the organization practices invidious discrimination on one or more of the bases identified in paragraph 15.3(6) "a." An administrative law judge's attendance at an event in a facility of an organization that the administrative law judge is not permitted to join is not

a violation of this rule when the administrative law judge's attendance is an isolated event that could not reasonably be perceived as an endorsement of the organization's practices.

15.3(7) *Participation in educational, religious, charitable, fraternal, or civic organizations and activities.*

a. Subject to the requirements of subrule 15.3(1), an administrative law judge may participate in activities sponsored by organizations or governmental entities concerned with the law, the legal system, the provision of legal services, or the administration of justice, and those sponsored by or on behalf of educational, religious, charitable, fraternal, or civic organizations not conducted for profit, including but not limited to the following activities:

(1) Assisting such an organization or entity in planning related to fund-raising, volunteering goods or services at fund-raising events, and participating in the management and investment of the organization's or entity's funds;

(2) Soliciting contributions for such an organization or entity, but only from members of the administrative law judge's family, or from other administrative law judges or coworkers in the administrative law judge's immediate office over whom the administrative law judge does not exercise supervisory authority;

(3) Appearing or speaking at, receiving an award or other recognition at, being featured on the program of, and permitting his or her title to be used in connection with an event of such an organization or entity, but if the event serves a fund-raising purpose, the administrative law judge may participate only if the event concerns the law, the legal system, the provision of legal services, or the administration of justice;

(4) Making recommendations to such a public or private fund-granting organization or entity in connection with its programs and activities, but only if the organization or entity is concerned with the law, the legal system, the provision of legal services, or the administration of justice; and

(5) Serving as an officer, director, trustee, or nonlegal advisor of such an organization or entity, unless it is likely that the organization or entity:

1. Will be engaged in proceedings that would ordinarily come before the administrative law judge;

or

2. Will frequently be engaged in adversary proceedings before the agency in which the administrative law judge serves.

b. An administrative law judge may encourage lawyers to provide pro bono publico legal services.

c. Subject to the requirements of subrule 15.3(1), an administrative law judge may:

(1) Provide leadership in identifying and addressing issues involving equal access to the justice system; developing public education programs; engaging in activities to promote the fair administration of justice and convening, participating or assisting in advisory committees and community collaborations devoted to the improvement of the law, the legal system, the provision of legal services, or the administration of justice.

(2) Endorse projects and programs directly related to the law, the legal system, the provision of legal services, and the administration of justice to those coming before the courts or the administrative judiciary.

(3) Participate in programs concerning the law or which promote the administration of justice.

15.3(8) *Appointments to fiduciary positions.*

a. An administrative law judge shall not accept appointment to serve in a fiduciary position, such as executor, administrator, trustee, guardian, attorney in fact, or other personal representative, except for the estate, trust, or person of a member of the administrative law judge's family, and then only if such service will not interfere with the proper performance of administrative judicial duties.

b. An administrative law judge shall not serve in a fiduciary position if the administrative law judge as fiduciary will likely be engaged in proceedings that would ordinarily come before the administrative law judge, or if the estate, trust, or ward becomes involved in adversary proceedings before the agency in which the administrative law judge serves.

c. An administrative law judge acting in a fiduciary capacity shall be subject to the same restrictions on engaging in financial activities that apply to an administrative law judge personally.

d. If a person who is serving in a fiduciary position becomes an administrative law judge, he or she must comply with this subrule as soon as reasonably practicable, but in no event later than six months after becoming an administrative law judge.

15.3(9) *Services as arbitrator or mediator.* An administrative law judge shall not act as an arbitrator or a mediator or perform other judicial functions apart from the administrative law judge's official duties unless expressly authorized by law.

15.3(10) *Practice of law.* An administrative law judge shall not engage in the private practice of law. An administrative law judge may act pro se and may, without compensation, give legal advice to and draft or review documents for a member of the administrative law judge's family, but is prohibited from serving as the family member's lawyer before the agency in which the administrative law judge serves. An administrative law judge serving in the administrative hearings division of the department of inspections and appeals is prohibited from serving as the family member's lawyer in any proceeding in which another administrative law judge serving in the division is the presiding officer, regardless of whether the proceeding is being conducted on behalf of the department of inspections and appeals or another state agency.

15.3(11) *Financial, business, or remunerative activities.*

a. An administrative law judge may hold and manage investments of the administrative law judge and members of the administrative law judge's family.

b. An administrative law judge shall not serve as an officer, director, manager, general partner, advisor, or employee of any business entity except that an administrative law judge may manage or participate in:

(1) A business closely held by the administrative law judge or members of the administrative law judge's family; or

(2) A business entity primarily engaged in investment of the financial resources of the administrative law judge or members of the administrative law judge's family.

c. An administrative law judge shall not engage in financial activities permitted under paragraphs 15.3(11) "a" and "b" if they will:

(1) Interfere with the proper performance of administrative judicial duties;

(2) Lead to frequent disqualification of the administrative law judge;

(3) Involve the administrative law judge in frequent transactions or continuing business relationships with lawyers or other persons likely to come before the agency in which the administrative law judge serves; or

(4) Result in violation of other provisions of this Code.

15.3(12) *Compensation for extrajudicial activities.* An administrative law judge may accept reasonable compensation for extrajudicial activities permitted by this Code and other law unless such acceptance would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality.

15.3(13) *Acceptance of gifts, loans, bequests, benefits, or other things of value.* An administrative law judge, an administrative law judge's spouse, and an administrative law judge's dependent child shall not accept or receive any gift, loan, bequest, benefit, or other thing of value, if acceptance or receipt is prohibited by Iowa Code chapter 68B or any other law or if acceptance or receipt would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality.

15.3(14) *Reimbursement of expenses and waivers of fees or charges.*

a. Unless otherwise prohibited by subrules 15.3(1) and 15.3(13), Iowa Code chapter 68B, or other law, an administrative law judge may accept reimbursement of necessary and reasonable expenses for travel, food, lodging, or other incidental expenses, or a waiver or partial waiver of fees or charges for registration, tuition, and similar items, from sources other than the administrative law judge's employing entity, if the expenses or charges are associated with the administrative law judge's participation in extrajudicial activities permitted by this Code.

b. Reimbursement of expenses for necessary travel, food, lodging, or other incidental expenses shall be limited to the actual costs reasonably incurred by the administrative law judge and, when appropriate to the occasion, by the administrative law judge's spouse, domestic partner, or guest.

15.4(1) *Political and campaign activities of administrative law judges.*

a. Except as permitted by law, an administrative law judge shall not:

- (1) Act as a leader in, or hold an office in, a political organization;
- (2) Make speeches on behalf of a political organization;
- (3) Publicly endorse or oppose a candidate for any public office;
- (4) Solicit funds for, pay an assessment to, or make a contribution to a political organization, a candidate for judicial retention, or a candidate for public office;
- (5) Attend or purchase tickets for dinners or other events sponsored by a political organization or a candidate for public office; or
- (6) Participate in a precinct caucus, except as provided for in paragraph 15.4(1) "b."

b. Paragraph 15.4(1) "a" does not prohibit an administrative law judge from participating in a precinct caucus merely to vote for, or support in the delegate selection process, a candidate for the office of President of the United States, provided that the administrative law judge does not speak publicly on behalf of or against a candidate, encourage other caucus participants to support or oppose a candidate, or otherwise engage in conduct that is inconsistent with the independence, integrity, or impartiality of the administrative judiciary.

c. An administrative law judge shall take reasonable measures to ensure that other persons do not undertake, on behalf of the administrative law judge, any activities prohibited under paragraph 15.4(1) "a."

15.4(2) to 15.4(4) Reserved.

a. Upon becoming a candidate for nonjudicial elective office, an administrative law judge shall resign from the administrative law judge position unless permitted by law to continue to hold the administrative law judge position.

b. Upon becoming a candidate for nonjudicial appointive office, an administrative law judge is not required to resign from the administrative law judge position, provided that the administrative law judge complies with the other provisions of this Code.

[ARC 3524C, IAB 12/20/17, effective 1/24/18]

481—15.5(10A) Scope, definitions, and application.

15.5(1) *Scope.*

a. The Iowa Code of Administrative Judicial Conduct consists of four canons, each of which is codified as the introductory paragraph of an administrative rule, and numbered rules under each canon, which are codified as subrules. Subrule 15.5(3) establishes when the various rules apply to a presiding officer or an administrative law judge.

b. The canons state overarching principles of judicial ethics that all administrative law judges and presiding officers, as applicable, must observe. Although an administrative law judge or presiding officer may be disciplined only for violating an applicable rule, the canons provide important guidance in interpreting the rules. Where a rule contains a permissive term, such as "may" or "should," the conduct being addressed is committed to the personal and professional discretion of the administrative law judge or presiding officer in question, and no disciplinary action should be taken for action or inaction within the bounds of such discretion.

c. Consistent with the requirement of Iowa Code section 10A.801(7)(d), this Code is similar in function and substantially equivalent to the Iowa Code of Judicial Conduct adopted by the Iowa Supreme Court and contained in Chapter 51 of the Iowa Court Rules. The Iowa Code of Judicial Conduct includes accompanying comments to the rules that may provide useful guidance regarding the

purpose, meaning, and proper application of the corresponding rule in this Code. The comments contain explanatory material and, in some instances, provide examples of permitted or prohibited conduct. The comments may also identify aspirational goals for administrative law judges and presiding officers. To implement fully the principles of this Code as articulated in the canons, administrative law judges and presiding officers should strive to exceed the standards of conduct established by the rules, holding themselves to the highest ethical standards and seeking to achieve those aspirational goals, thereby enhancing the dignity of the administrative judicial position.

d. The rules of this Code are rules of reason that should be applied consistent with constitutional requirements, statutes, administrative rules, and decisional law, and with due regard for all relevant circumstances. The rules should not be interpreted to impinge upon the essential independence of administrative law judges and presiding officers in making administrative judicial decisions.

e. Although the black letter of the rules is binding and enforceable, it is not contemplated that every transgression will result in the imposition of discipline. Whether discipline should be imposed should be determined by the presiding officer's appointing authority through a reasonable and reasoned application of the rules, and should depend upon factors such as the seriousness of the transgression, the facts and circumstances that existed at the time of the transgression, the extent of any pattern of improper activity, whether there have been previous violations, and the effect of the improper activity upon the administrative judicial system or others.

f. This Code is not designed or intended as a basis for civil or criminal liability. Neither is it intended to be the basis for parties to seek collateral remedies against each other or to obtain tactical advantages in proceedings before a presiding officer.

15.5(2) Definitions. For purposes of this chapter, the following definitions apply:

"Administrative law judge" means a person who acts as a presiding officer under the authority of Iowa Code section 17A.11(1) who is not an agency head or a member of a multimembered agency head. This includes, but is not limited to, administrative law judges employed by the administrative hearings division of the department of inspections and appeals, the unemployment insurance appeals bureau of Iowa workforce development, the public employment relations board, and the board of parole, as well as deputy workers' compensation commissioners in the division of workers' compensation of Iowa workforce development.

"Affiliate" and *"affiliated"* mean any person, domestic or foreign, that controls, is controlled by, or is under common control with any other person.

"Appropriate authority" means the authority having responsibility for the initiation of disciplinary process in connection with the violation to be reported.

"Associate" and *"associated"* means any person who employs, is employed by, or is under common employment with another person; any person who acts in cooperation, consultation, or concert with, or at the request of, another person; and any spouse, domestic partner, or person within the third degree of relationship of any of the foregoing.

"Contribution" means both financial and in-kind contributions, such as goods, professional or volunteer services, advertising, and other types of assistance which, if obtained by the recipient otherwise, would require a financial expenditure.

"Control" and *"controlled"* each refers to the power of one person to exercise, directly or indirectly or through one or more persons, a dominating, governing, or controlling influence over another person, whether by contractual relationship (including without limitation a debtor-creditor relationship), by family relationship, by ownership, dominion over, or power to vote any category or voting interest (including without limitation shares of common stock, shares of voting preferred stock, and partnership interests), or by exercising (or wielding the power to exercise) in any manner dominion over a majority of directors, partners, trustees, or other persons performing similar functions. See definition of *"affiliate"* and *"affiliated."*

"De minimis," in the context of interests pertaining to disqualification of an administrative law judge, means an insignificant interest that could not raise a reasonable question regarding the administrative law judge's impartiality.

“Domestic partner” means a person with whom another person maintains a household and an intimate relationship, other than a person to whom he or she is legally married.

“Economic interest” means ownership of more than a de minimis legal or equitable interest. Except for situations in which the presiding officer participates in the management of such a legal or equitable interest, or the interest could be substantially affected by the outcome of a proceeding before a presiding officer, it does not include:

1. An interest in the individual holdings within a mutual or common investment fund;
2. An interest in securities held by an educational, religious, charitable, fraternal, or civic organization in which the presiding officer or the presiding officer’s spouse, domestic partner, parent, or child serves as a director, an officer, an advisor, or other participant;
3. A deposit in a financial institution or deposits or proprietary interests the presiding officer may maintain as a member of a mutual savings association or credit union, or similar proprietary interests; or
4. An interest in the issuer of government securities held by the presiding officer.

“Fiduciary” includes relationships such as executor, administrator, trustee, or guardian.

“Impartial,” “impartiality,” and *“impartially”* mean absence of bias or prejudice in favor of, or against, particular parties or classes of parties, as well as maintenance of an open mind in considering issues that may come before a presiding officer or administrative law judge.

“Impending matter” is a matter that is imminent or expected to occur in the near future.

“Impropriety” includes conduct that violates the law, court rules, or provisions of the Iowa Code of Administrative Judicial Conduct, and conduct that undermines a presiding officer’s or administrative law judge’s independence, integrity, or impartiality.

“Independence” means a presiding officer’s or administrative law judge’s freedom from influence or controls other than those established by law.

“Integrity” means probity, fairness, honesty, uprightness, and soundness of character.

“Knowingly,” “knowledge,” “known,” and *“knows”* mean actual knowledge of the fact in question. A person’s knowledge may be inferred from circumstances.

“Law” encompasses administrative rules and regulations, court rules, ordinances, statutes, constitutional provisions, and decisional law.

“Member of the administrative law judge’s family” means a spouse, domestic partner, child, grandchild, parent, grandparent, or other relative or person with whom the administrative law judge maintains a close familial relationship.

“Member of the presiding officer’s family” means a spouse, domestic partner, child, grandchild, parent, grandparent, or other relative or person with whom the presiding officer maintains a close familial relationship.

“Member of a presiding officer’s family residing in the presiding officer’s household” means any relative of a presiding officer by blood or marriage, or a person treated by a presiding officer as a member of the presiding officer’s family, who resides in the presiding officer’s household.

“Nonpublic information” means information that is not available to the public. “Nonpublic information” may include, but is not limited to, information that is confidential or sealed by statute or court or administrative order or impounded or communicated in camera.

“Pending matter” is a matter that has commenced. A matter continues to be pending through any appellate process, including director review and judicial review, until final disposition.

“Person” means any natural or juridical person, including without limitation any corporation, limited liability company, partnership, trust, union, or other labor organization; any branch, division, department, or local unit of any of the foregoing; any political committee, party, or organization; or any other organization or group of persons.

“Political organization” means a political party or other group sponsored by or affiliated with a political party or candidate, the principal purpose of which is to further the election or appointment of candidates for political office.

“Presiding officer” means a person who acts as a presiding officer of a contested case proceeding under the authority of Iowa Code section 17A.11(1).

“*Third degree of relationship*” includes the following persons: great-grandparent, grandparent, parent, uncle, aunt, brother, sister, child, grandchild, great-grandchild, nephew, and niece.

15.5(3) Application.

a. The provisions of the Iowa Code of Administrative Judicial Conduct apply to all persons who act as presiding officers under the authority of Iowa Code section 17A.11(1), except as specified in paragraph 15.5(3) “b” for agency heads or members of multimembered agency heads. Canons and rules that apply to all presiding officers use the terminology “presiding officer” in their text. This Code only applies to an agency head or a member of a multimembered agency head who actually acts as a presiding officer and does not apply merely because the agency head or member of a multimembered agency head is authorized to serve as the presiding officer when another person serves as the presiding officer.

b. The provisions of rules 481—15.3(10A) and 481—15.4(10A) of this Code do not apply to agency heads or members of multimembered agency heads. These provisions apply only to administrative law judges and thus the terminology “administrative law judge” is used in their text.

c. This Code does not apply to persons who participate only in the making of a final decision in a contested case without serving as a presiding officer pursuant to Iowa Code section 17A.11(1) in that contested case unless a statute or administrative rule requires such a person to abide by this Code or a particular provision of this Code. This Code may nevertheless provide useful ethical guidance for a person participating in the making of a final decision in a contested case.

Separate chapters have been established for the administration of social and charitable gambling (481—Chapters 100 to 103, 106, and 107) and amusement devices (481—Chapters 104 and 105).

“*Food service establishment*” means a food establishment where food is prepared or served for individual portion service intended for consumption on the premises or is subject to Iowa sales tax as provided in Iowa Code section 423.3.

“*Home bakery*” means a business on the premises of a residence that is operating as a home-based bakery where baked goods are prepared for consumption elsewhere. Annual gross sales of these products cannot exceed \$35,000. “Home bakery” does not include:

1. A food establishment;

2. A food processing plant;

3. A residence where food is prepared to be used or sold by churches, fraternal societies, or charitable, civic or nonprofit organizations;

4. A residence that prepares or distributes honey;

5. A residence that distributes shell eggs;

6. A residence that prepares foods that are not time/temperature control for safety foods for sale at a farmers market; or

7. A residence that prepares baked goods that are not time/temperature control for safety foods sold directly from the residence. This exception does not apply to resale goods. This exception applies only to sales made from the residence in person and does not include mail order or Internet sales.

“*Personal chef*” or “*hired cook*” means a person who provides food preparation services in a private home or at a private party for a client and the client’s nonpaying guests. “Personal chef” or “hired cook” does not include a person who provides the ingredients intended to be used in food preparation.

“*Revoke*” means to void or annul by recalling or withdrawing a license issued under Iowa Code chapter 137C, 137D or 137F. The entire application process, including the payment of applicable license fees, must be repeated to regain a valid license following a revocation.

“*Suspend*” means to render a license issued under Iowa Code chapter 137C, 137D, or 137F invalid for a period of time, with the intent of resuming the validity of a license at the end of that period.

Vending machines that dispense only prepackaged foods that are not time/temperature control for safety foods, panned candies, gumballs or nuts are exempt from licensing but may be inspected by the department upon receipt of a written complaint. “Panned candies” are those with a fine, hard coating on the outside and a soft candy filling on the inside. Panned candies are easily dispensed by a gumball-type machine.

481—30.3(137C,137D,137F) Licensing and postings. A license to operate any food establishment or food processing plant defined in rule 481—30.2(10A,137C,137D,137F) must be granted by the department of inspections and appeals. Application for a license is made on a form furnished by the department which contains the names of the business, owner, and manager; locations of buildings; and other data relative to the license requested. Applications are available from the Department of Inspections and Appeals, Food and Consumer Safety Bureau, Lucas State Office Building, Des Moines, Iowa 50319-0083, or from contractors. An application for licensure shall be submitted 30 days in advance of the opening of the food establishment or food processing plant. Temporary food establishment license applications shall be submitted a minimum of 3 business days prior to opening.

30.3(1) Transferability. A license is not transferable to a new owner or location. Any change in business ownership or business location requires a new license. Vending machines, mobile food units and pushcarts may be moved without obtaining a new license. A farmers market time/temperature control for safety food license may be used in the same county at different individual locations without obtaining a new license. However, if the different individual locations are operated simultaneously, a separate license is required for each location. Nutrition sites for the elderly licensed under Iowa Code chapter 137F may change locations in the same city without obtaining a new license.

30.3(2) Refunds. License fees are refundable only if the license is surrendered to the department prior to the effective date of the license and only as follows:

- a. License fees of \$67.50 or less are an application processing fee and are not refundable.

b. If an on-site visit has not occurred, license fees of more than \$67.50 will be refunded less the \$67.50.

c. If an on-site visit has occurred, the entire license fee is nonrefundable.

30.3(3) License expiration. A license is renewable and expires after one year, with the exception of a temporary food establishment license issued in conjunction with a single event at a specific location, which is valid for a period not to exceed 14 consecutive days.

30.3(4) Posting of inspection reports, licenses, and registration tags. A valid license and the most recent inspection report, along with any current complaint or reinspection reports, shall be posted no higher than eye level where the public can see them. The report shall not be posted in such a manner that the public cannot reasonably read the report. For example, the posting of a report behind a service area where the report can be seen but not easily read is not allowed. Vending machines shall bear a tag to affirm the license. For the purpose of this subrule, only founded complaint reports shall be considered complaints. Founded complaints shall be posted until either the mail-in recheck form has been submitted to the regulatory authority or a recheck inspection has been conducted to verify that the violations have been corrected.

30.3(5) Documentation of gross sales. The regulatory authority shall require from a license holder documentation of the annual gross sales of food and drink sold by a licensed food establishment or a licensed food processing plant unless the establishment is paying the highest license fee required by rule 481—30.4(137C,137D,137F). The documentation submitted by the license holder will be kept confidential and will be used to verify that the license holder is paying the appropriate license fee based on annual gross sales of food and drink. For food processing plants that are food storage facilities and food establishments whose sales are included in a single rate with lodging or other services, the value of the food handled should be used. Documentation shall include at least one of the following:

- a. A copy of the firm's business tax return;
- b. Quarterly sales tax data;
- c. A letter from an independent tax preparer;
- d. Other appropriate records.

30.3(6) License eligibility for renewal limited to 60 days after expiration. A delinquent license shall only be renewed if application for renewal is made within 60 days of expiration of the license. If a delinquent license is not renewed within 60 days, an establishment must apply for a new license and meet all the requirements for licensure. Establishments that have not renewed the license within 60 days of the expiration of the license shall be closed by the department or a contractor. The establishment shall not be reopened until a new license application has been submitted and approved.

This rule is intended to implement Iowa Code sections 10A.104, 137C.8, and 137D.2 and chapter 137F.

[ARC 1190C, IAB 11/27/13, effective 1/1/14; ARC 4139C, IAB 11/21/18, effective 1/1/19]

481—30.4(137C,137D,137F) License fees. The license fee is the same for an initial license and a renewal license. License applications are available from the Department of Inspections and Appeals, Food and Consumer Safety Bureau, Lucas State Office Building, Des Moines, Iowa 50319-0083, or from a contractor. License fees are set by the Iowa Code sections listed below and are charged as follows:

30.4(1) Retail food establishments. Temporary food establishments that operate simultaneously at more than one location within a county are required to have a separate license for each location.

30.4(8) *Food processing plants including food storage facilities (warehouses).* For food processing plants, the annual license fee is based on the annual gross sales of food and food products handled at that plant or food storage facility (warehouse) (Iowa Code section 137F.6 as amended by 2018 Iowa Acts, Senate File 2390) as follows:

a. For annual gross sales of less than \$200,000—\$150.

b. For annual gross sales of \$200,000 to \$2 million—\$300.

c. For annual gross sales of more than \$2 million—\$500.

30.4(9) *Farmers market.* A person selling time/temperature control for safety food at a farmers market must pay an annual license fee of \$150 for each county of operation. Persons who operate simultaneously at more than one location within a county are required to have a separate license for each location.

30.4(10) *Certificate of free sale or sanitation.* The fee for a certificate of free sale or sanitation is \$35 for the first certificate and \$10 for each additional identical certificate requested at the same time.

30.4(12) *Events.* The license fee for an event is \$50, which shall be submitted with a license application to the appropriate regulatory authority at least 60 days in advance of the event. An “event” for purposes of this subrule does not include a function with ten or fewer temporary food establishments, a fair as defined in Iowa Code section 174.1, or a farmers market.

30.4(13) *Voluntary inspection fee.* The department shall charge a voluntary inspection fee of \$100 when a premises that is not a food establishment requests a voluntary inspection.

This rule is intended to implement Iowa Code sections 137C.9, 137D.2(1), and 137F.6 and 2018 Iowa Acts, Senate File 2390.

481—30.5(137F) Penalty and delinquent fees.

30.5(1) *Late penalty.* Food establishment licenses and food processing plant licenses that are renewed by the licensee after the license expiration date shall be subject to a penalty of 10 percent of the license fee per month. A license shall be renewed only if the license holder has provided documentation pursuant to subrule 30.3(5).

481—30.6(137C,137D,137F) *Returned checks.* If a check intended to pay for any license provided for under Iowa Code chapter 137C, 137D, or 137F is not honored for payment by the bank on which it is drafted, the department will attempt to redeem the check. The department will notify the applicant of the need to provide sufficient payment. An additional fee of \$25 shall be assessed for each dishonored check. If the department does not receive cash to replace the check, the establishment will be operating without a valid license. Furthermore, any late penalties assessed pursuant to rule 481—30.5(137F) will accrue and must be paid.

This rule is intended to implement Iowa Code sections 137C.9, 137D.2(1), and 137F.6.

The food establishment pays a license fee of \$400 for its retail food establishment license (paragraph 30.4(1) “c”) and \$150 for its food service establishment license (rule 481—30.7(137F)).

This rule is intended to implement Iowa Code sections 10A.104 and 137F.6.

[Prior to 8/26/87, see Inspections and Appeals Department[481]—Chs 21 and 22]

481—31.1(137F) Inspection standards for food establishments.² The department adopts, with the following exceptions, the 2013 Food Code with Supplement of the Food and Drug Administration as the state's "food code," which is the inspection standard for food establishments other than food processing plants.

31.1(1) Unattended food establishments—assignment of responsibility. For the purposes of section 2-101.11 of the 2013 Food Code with Supplement, unattended food establishments are not required to have a designated person in charge present during all hours of operation provided that the permit holder ensures the following requirements are met.

a. Unattended food establishment location. The unattended food establishment shall be located in the interior of a building that is not accessible by the general public. Access to the unattended food establishment shall be limited to a defined population (e.g., employees or occupants of the building where the establishment is located).

b. Nature and source of food and beverages offered for sale.

(1) Only commercially packaged foods properly labeled for individual retail sale, pursuant to Food Code section 3-201.11(C), shall be offered.

(2) No unpackaged food is permitted except as provided by section 3-302.11(B)(1) of the Food Code.

(3) Food preparation by consumers is limited to heating/reheating food in a microwave oven.

(4) No dispensing of bulk food is permitted.

c. Refrigerated display equipment. An unattended food establishment shall be equipped with refrigeration or freezer units that have the following features:

(1) Self-closing doors that allow food to be viewed without opening the door to the refrigerated cooler or freezer; and

(2) An automatic self-locking mechanism that prevents the consumer from accessing the food upon the occurrence of any condition that results in the failure of the refrigeration unit to maintain the internal product temperature specified under section 3-501.16(A)(2) or of the freezer unit to maintain the product as frozen.

d. Food service equipment limitations.

(1) Beverages are dispensed by individual serving only. Beverage dispensers connected to the building water supply must be properly equipped with backflow prevention pursuant to section 5-203.14 of the Food Code.

(2) Food-contact surfaces.

1. Multiuse food-contact surfaces shall be cleaned on a frequency consistent with the service pursuant to section 4-202.11 of the Food Code or can be and are easily removed and replaced with cleaned surfaces.

2. No multiuse food-contact surfaces intended for use with time/temperature control for safety foods are permitted.

e. Security.

(1) An unattended food establishment shall provide continuous video surveillance of areas where consumers view, select, handle and purchase products. The continuous video surveillance shall provide sufficient resolution to identify situations that may compromise food safety or food defense.

1. Video surveillance recordings shall be maintained and, upon request by a representative of a regulatory agency, made available for inspection within 24 hours of the request.

2. Video surveillance recordings shall be held by the establishment for a minimum of 14 days after the date of the surveillance.

(2) The permit holder shall take reasonable steps necessary to discourage individuals from returning food, beverages, or both that have not been selected for purchase.

f. Routine maintenance at an unattended food establishment.

(1) The permit holder shall service the unattended food establishment at least weekly. Service may include, but is not limited to, the following:

1. Checking food supplies and equipment for signs of product damage, tampering, or both.
2. Verifying that refrigeration equipment is operating properly, including the temperature display and self-locking mechanism.
3. Rotating foods to better ensure first in/first out of food items.
4. Cleaning food service equipment and food display areas.
5. Stocking food and disposable single-use and single-service supplies.
6. Checking inventory for recalled foods.

(2) The permit holder shall ensure that:

1. Food is from an approved source.
2. Packaged food is provided in tamper-evident packaging.
3. Food is protected from potential sources of cross contamination.
4. Food is maintained at safe temperatures during transport and display.

g. Unattended food establishment oversight. Each unattended food establishment shall have a sign readily visible at the automated payment station stating:

(1) The name and mailing address of the business entity responsible for the establishment and to whom complaints and comments should be addressed.

(2) The telephone number, email address or Web information for the responsible business entity, when applicable.

h. Designation of responsibilities. The permit holder bears all responsibilities for the operation of the food establishment. When the permit holder is not the owner or operator of the building where the food establishment is located, a mutual agreement that outlines the responsibilities for cleaning and maintenance of all surfaces and equipment and for provision of supportive facilities/services, such as janitorial services and restroom facilities, pest control and removal of solid waste, may be approved by the regulatory agency. This agreement should also outline actions that must be taken by both parties to maintain the establishment in compliance with all requirements including responding to imminent health hazards.

i. Inspections—on-site person in charge. When requested by the regulatory authority for the purposes of conducting an inspection, the permit holder shall provide an on-site person in charge within a reasonable time frame not to exceed four hours.

31.1(2) Certified food protection manager required—exceptions and time frames for employment.

41.4(3) The distinct part must be operationally and financially feasible.

41.4(4) A separate personal care staff with qualifications appropriate to the care and services offered must be regularly assigned and working in the distinct part under responsible management.

41.4(5) Separately licensed distinct parts may have some services such as management, building maintenance, laundry and dietary in common with each other.

481—41.5(135H) Variances. Variances from these rules may be granted by the director of the department:

1. When the need for a variance has been established; and
2. When there is no danger to the health, safety, welfare or rights of any child.

The variance will apply only to a specific PMIC.

Variances shall be reviewed at the time of each licensure survey by the department to determine continuing need.

41.5(1) To request a variance, the licensee must:

- a.* Apply in writing on a form provided by the department;
- b.* Cite the rule or rules from which a variance is desired;
- c.* State why compliance with the rule or rules cannot be accomplished;
- d.* Explain how the variance is consistent with the individual program plans; and
- e.* Demonstrate that the requested variance will not endanger the health, safety, welfare or rights of any child.

41.5(2) Upon receipt of a request for variance, the director shall:

- a.* Examine the rule from which the variance is requested;
- b.* Evaluate the requested variance against the requirement of the rule to determine whether the request is necessary to meet the needs of the children; and
- c.* Examine the effect of the requested variance on the health, safety or welfare of the children.

481—41.6(135H) Notice to the department.

41.6(1) The department shall be notified at the times stated when the following events are expected to occur:

481—41.7(135H) Inspection of complaints. The department shall conduct a preliminary review of all complaints filed against a PMIC. Unless a complaint is determined to be intended as harassment or to be without reasonable basis, the department shall inspect the PMIC within 20 working days of receipt of the complaint.

This rule is intended to implement Iowa Code section 135H.12.

481—41.8(135H) General requirement. Inpatient psychiatric services for recipients under age 21 must be provided under the direction of a physician.

When a resident has received services immediately before reaching age 21, services must be complete before the earlier of the following:

1. The date the recipient no longer requires services; or
2. The date the recipient reaches age 22.

481—41.9(135H) Certification of need for services. All recipients of services shall have written certification which ensures the following:

1. Ambulatory care resources available in the community do not meet the treatment needs of the recipient;
2. Proper treatment of the recipient's psychiatric condition requires services on an inpatient basis under the direction of a physician; and
3. The services can reasonably be expected to improve the recipient's condition or prevent further regression so services will no longer be needed.

Certification of need shall be completed by the team described in subrules 41.13(2) and 41.13(3). Certification must be made at the time of admission by an independent team for Medicaid recipients. For emergency admissions, the certification must be made by the team described in 41.13(135H) within 14 days after admission. If an individual applies for Medicaid while in a PMIC, certification of need must be made by the team described in 41.13(135H) before a Medicaid agency authorizes payment.

481—41.10(135H) Active treatment. Inpatient psychiatric services must involve "active treatment," which means implementation of a professionally developed and supervised individual plan of care as described in rule 41.12(135H). The plan of care shall be:

1. Developed and implemented no later than 14 days after admission; and
2. Designed to achieve discharge from inpatient status at the earliest possible time.

481—41.11(135H) Individual plan of care. "Individual plan of care" means a written plan developed for each child. The plan of care shall be designed to improve the condition of each child to the extent that inpatient care is no longer necessary.

41.11(1) The plan of care must be based on a diagnostic evaluation that includes examination of the:

- a. Medical,
- b. Psychological,
- c. Social,
- d. Behavioral, and
- e. Developmental aspects of the child's situation.

The plan of care shall reflect the need for inpatient psychiatric care.

41.11(2) The plan of care shall be developed by the team of professionals specified in rule 41.13(135H) in consultation with the recipient, the parents, legal guardian or other person into whose care the child will be released after discharge. The plan of care shall include:

- a.* Diagnoses, symptoms, complaints and complications indicating the need for admission;
- b.* Treatment objectives;
- c.* An integrated program of therapies, activities and experiences designed to meet the objectives;
- d.* A description of the functional level of the individual;
- e.* Any orders for:
 - (1) Medications,
 - (2) Treatments,
 - (3) Restorative and rehabilitative services,
 - (4) Activities,
 - (5) Therapies,
 - (6) Social services,
 - (7) Diet, and
 - (8) Special procedures recommended for the health and safety of the patient; and
- f.* At an appropriate time, postdischarge plans and coordination of inpatient services with partial discharge plans and related community services to ensure continuity of care with the recipient's family, school and community upon discharge.

41.11(3) The plan of care shall be reviewed every 30 days by the team referred to in rule 41.13(135H) to:

- a.* Determine that services being provided are or were required on an inpatient basis; and
- b.* Recommend changes in the plan as indicated by the recipient's overall adjustment as an inpatient.

This rule is intended to implement Iowa Code section 135H.3.

481—41.12(135H) Individual written plan of care. Before admission to a PMIC and before authorization for payment, the attending physician or staff physician must establish written plans for continuing care including review and modification of the plan of care.

481—41.13(135H) Plan of care team. The individual plan of care shall be developed by an interdisciplinary team of physicians and other personnel who are employed by the facility or provide services to patients.

41.13(1) Based on education and experience, the team must be capable of:

- a.* Assessing the recipient's immediate and long-range therapeutic needs, developmental priorities, and personal strengths and liabilities;
- b.* Assessing the potential resources of the recipient's family;
- c.* Setting treatment objectives; and
- d.* Prescribing therapeutic modalities to achieve the plan's objectives.

41.13(2) The team shall include at least one member who is experienced in child psychiatry or child psychology and must include, as a minimum, either:

- a.* A board-eligible or board-certified psychiatrist; or
- b.* A clinical psychologist who has a doctoral degree and a physician licensed to practice medicine or osteopathy; or
- c.* A physician licensed to practice medicine or osteopathy with specialized training and experience in the diagnoses and treatment of mental diseases, and a psychologist who has a master's degree in clinical psychology or who has been certified by the state psychological association.

41.13(3) The team must also include one of the following:

- a.* A psychiatric social worker;
- b.* A registered nurse with specialized training or one year of experience in treating mentally ill individuals;

c. A licensed occupational therapist who has specialized training in treating mentally ill individuals; or

d. A psychologist who has a master's degree in clinical psychology or who has been certified by the state psychological association.

This rule is intended to implement Iowa Code section 135H.3.

481—41.14(135H) Required discharge. The licensee shall not refuse to discharge a child when directed by the physician, parent or legal guardian unless so directed by the court.

481—41.15(135H) Criminal behavior involving children. A person who has a record of a criminal conviction or a founded child abuse or dependent adult abuse shall not be licensed to operate, be employed by, or reside in a PMIC unless an evaluation of the crime or founded child or dependent adult abuse has been made by the department of human services which concludes that the crime or founded child or dependent adult abuse does not merit prohibition of employment.

41.15(1) A PMIC shall request that the department of human services (DHS) conduct a criminal and child abuse record check, when a person is being considered for licensure or for employment if the person will:

- a.* Have direct responsibility for a child;
- b.* Have access to a child when the child is alone; or
- c.* Reside in the facility.

41.15(2) A PMIC shall inform all new applicants for employment of the requirement for the criminal and child abuse record checks and the possibility of a dependent adult abuse record check. The PMIC shall obtain, from the applicant, a signed acknowledgment of the receipt of this information.

41.15(3) A PMIC shall include the following inquiry in an application for employment: "Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime, in this state or any other state?"

41.15(4) DHS will inform the PMIC of the results of the criminal, child abuse, and dependent adult abuse record checks. If a record of a criminal conviction or founded child or dependent adult abuse exists, the PMIC will be informed on Form 470-2310, "Record Check Evaluation." The subject of the report shall complete that form and it shall be returned to DHS to request evaluation of the record to determine whether prohibition of the person's licensure, employment, or residence is warranted.

41.15(5) If the evaluation is not requested or if the DHS determines that the person has committed a crime or has a record of founded child abuse or dependent adult abuse which warrants prohibition of licensure, employment, or residence, the person shall not be licensed to operate, be employed by, or reside in a PMIC.

This rule is intended to implement Iowa Code section 135H.7.

481—41.16(22,135H) Confidential or open information. The department maintains files for psychiatric medical institutions for children. These files are organized by facility name and contain both open and confidential information.

41.16(1) Open information includes:

- a.* License application and status;
- b.* Variance requests and responses;
- c.* Final findings of state license survey investigations;
- d.* Records of complaints;
- e.* Plans of correction submitted by the facility;
- f.* Medicaid status; and
- g.* Official notices of license sanctions.

41.16(2) Confidential information includes:

a. Inspection or investigation information which does not comprise a final finding. This information may be made public in a proceeding concerning the denial, suspension or revocation of a license, under Iowa Code section 135H.8;

- b. Names of all complainants; and
- c. Names of children in all facilities, identifying information and the address of anyone other than an owner.

This rule is intended to implement Iowa Code sections 22.11, 135H.11 and 135H.13.

481—41.17(135H) Additional provisions concerning physical restraint. If a PMIC uses a physical restraint, the following provisions shall apply:

41.17(1) No employee shall use any prone restraints. For the purposes of this rule, “prone restraints” means those in which an individual is held face down on the floor. Employees who find themselves involved in the use of a prone restraint as the result of responding to an emergency must take immediate steps to end the prone restraint.

41.17(2) No employee shall use any restraint that obstructs the airway of any resident.

41.17(3) If an employee physically restrains a resident who uses sign language or an augmentative mode of communication as the resident’s primary mode of communication, the resident shall be permitted to have the resident’s hands free of restraint for brief periods, unless an employee determines that such freedom appears likely to result in harm to self or others.

This rule is intended to implement Iowa Code sections 135H.4 and 135H.5.

481—50.9(135C) Criminal, dependent adult abuse, and child abuse record checks.

50.9(1) *Definitions.* The following definitions apply for the purposes of this rule.

“Background check” or *“record check”* means criminal history, child abuse and dependent adult abuse record checks.

“Certified nurse aide training program” means a program approved in accordance with the rules for such programs adopted by the department of human services for the training of persons seeking to be a certified nurse aide for employment in a facility as defined by this rule or in a hospital as defined in Iowa Code section 135B.1.

“Direct services” means services provided through person-to-person contact. “Direct services” excludes services provided by individuals such as building contractors, repair workers, or others who are in a facility for a very limited purpose, are not in the facility on a regular basis, and who do not provide any treatment or services for residents, patients, tenants, or participants of the provider.

“Employed in a facility” or *“employment within a facility”* means all of the following if the provider is regulated by the state or receives any federal or state funding:

1. An employee of a health care facility licensed under Iowa Code chapter 135C if the employee provides direct or indirect services to residents;
2. An employee of a home health agency if the employee provides direct services to consumers;
3. An employee of a hospice if the employee provides direct services to consumers.

“Employee” means any individual who is paid either by the facility or any other entity (i.e., temporary agency, private duty, Medicare/Medicaid or independent contractors).

“Evaluation” means review by the department of human services to determine whether a founded child abuse, dependent adult abuse or criminal conviction warrants prohibition of the person’s employment in a facility; or whether a founded child abuse, dependent adult abuse or criminal conviction warrants prohibition of a student’s involvement in a clinical education component of the certified nurse aide training program involving children or dependent adults.

“Facility,” for purposes of this rule, means all of the following if the provider is regulated by the state or receives any federal or state funding:

1. A health care facility licensed under Iowa Code chapter 135C;
2. A home health agency;
3. A hospice.

“Indirect services” means services provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance.

“*Student*” means a person applying for, enrolled in, or returning to a certified nurse aide training program.

50.9(2) *Explanation of “crime.”* For purposes of this rule, the term “crime” does not include offenses under Iowa Code chapter 321 classified as simple misdemeanor or equivalent simple misdemeanor offenses from another jurisdiction.

50.9(3) *Requirements for employer prior to employing an individual.* Prior to employment of a person in a facility, the facility shall request that the department of public safety perform a criminal history check and the department of human services perform child and dependent adult abuse record checks of the person in this state.

a. Informing the prospective employee. A facility shall ask each person seeking employment by the facility, “Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime other than a simple misdemeanor offense relating to motor vehicles and laws of the road under Iowa Code chapter 321 or equivalent provisions, in this state or any other state?” In addition, the person shall be informed that a background check will be conducted. The person shall indicate, by signature, that the person has been informed that the background check will be conducted. (I, II, III)

b. Conducting a background check. The facility may access the single contact repository (SING) to perform the required background check. If the SING is used, the facility shall submit the person’s maiden name, if applicable, with the background check request. If the SING is not used, the facility must obtain a criminal history check from the department of public safety and a check of the child and dependent adult abuse registries from the department of human services. (I, II, III)

c. If a person being considered for employment has been convicted of a crime. If a person being considered for employment in a facility has been convicted of a crime under a law of any state, the department of public safety shall notify the facility that upon the request of the facility the department of human services will perform an evaluation to determine whether the crime warrants prohibition of the person’s employment in the facility. (I, II, III)

d. If a person being considered for employment has a record of founded child or dependent adult abuse. If a department of human services child or dependent adult abuse record check shows that a person being considered for employment in a facility has a record of founded child or dependent adult abuse, the department of human services shall notify the facility that upon the request of the facility the department of human services will perform an evaluation to determine whether the founded child or dependent adult abuse warrants prohibition of the person’s employment in the facility. (I, II, III)

e. Employment pending evaluation. The facility may employ a person for not more than 60 calendar days pending the completion of the evaluation by the department of human services if all of the following apply. The 60-day period begins on the first day of the person’s employment.

(1) The person is being considered for employment other than employment involving the operation of a motor vehicle;

(2) The person does not have a record of founded child or dependent adult abuse;

(3) The person has been convicted of a crime that is a simple misdemeanor offense under Iowa Code section 123.47 or a first offense of operating a motor vehicle while intoxicated under Iowa Code section 321J.2(1); and

(4) The facility has requested that the department of human services perform an evaluation to determine whether the crime warrants prohibition of the person’s employment. (I, II, III)

50.9(4) *Validity of background check results.* The results of a background check conducted pursuant to this rule shall be valid for a period of 30 calendar days from the date the results of the background check are received by the facility. (I, II, III)

50.9(5) *Employment prohibition.* A person who has committed a crime or has a record of founded child or dependent adult abuse shall not be employed in a facility unless an evaluation has been performed by the department of human services. (I, II, III)

50.9(6) *Transfer of an employee to another facility owned or operated by the same person.* If an employee transfers from one facility to another facility owned or operated by the same person, without a lapse in employment, the facility is not required to request additional criminal and child and dependent adult abuse record checks of that employee. (I, II, III)

50.9(7) *Transfer of ownership of a facility.* If the ownership of a facility is transferred, at the time of transfer the background check required by this rule shall be performed for each employee for whom there is no documentation that such background check has been performed. The facility may continue to employ such employee pending the performance of the background check and any related evaluation. (I, II, III)

50.9(8) *Change of employment—person with criminal or abuse record—exception to record check evaluation requirements.* A person with a criminal or abuse record who is or was employed by a facility and is hired by another facility shall be subject to the background check.

a. A reevaluation of the latest record check is not required, and the person may commence employment with the other facility if the following requirements are met:

(1) The department of human services previously performed an evaluation concerning the person's criminal or abuse record and concluded the record did not warrant prohibition of the person's employment;

(2) The latest background check does not indicate a crime was committed or founded abuse record was entered subsequent to the previous evaluation;

(3) The position with the subsequent employer is substantially the same or has the same job responsibilities as the position for which the previous evaluation was performed;

(4) Any restrictions placed on the person's employment in the previous evaluation by the department of human services and still applicable shall remain applicable in the person's subsequent employment; and

(5) The person subject to the background check has maintained a copy of the previous evaluation and provided it to the subsequent employer, or the previous employer provides the previous evaluation from the person's personnel file pursuant to the person's authorization. If a physical copy of the previous evaluation is not provided to the subsequent employer, a current record check evaluation shall be performed. (I, II, III)

b. For purposes of this subrule, a position is "substantially the same or has the same job responsibilities" if the position requires the same certification, licensure, or advanced training. For example, a licensed nurse has substantially the same or the same job responsibilities as a director of nursing; a certified nurse aide does not have substantially the same or the same job responsibilities as a licensed nurse.

c. The subsequent employer must maintain the previous evaluation in the employee's personnel file for verification of the exception to the requirement for a record check evaluation. (I, II, III)

d. The subsequent employer may request a reevaluation of the background check and may employ the person while the reevaluation is being performed, even though an exemption under paragraph 50.9(8) "*a*" may be authorized.

50.9(9) *Employee notification of criminal conviction or founded abuse after employment.* If a person employed by a facility employer that is subject to this rule is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the person's employment application date, the person shall inform the employer of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

a. The employer shall act to verify the information within seven calendar days of notification. "Verify," for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the facility shall follow the requirements of paragraphs 50.9(3) "*c*" and "*d*." (I, II, III)

c. The employer may continue to employ the person pending the performance of an evaluation by the department of human services.

d. A person who is required by this subrule to inform the person's employer of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

e. The employer may notify the county attorney for the county where the employer is located of any violation or failure by an employee to notify the employer of a criminal conviction or entry of an abuse record within the period required under this subrule.

50.9(10) Facility receipt of credible information that an employee has been convicted of a crime or has a record of founded abuse. If the facility receives credible information, as determined by the facility, from someone other than the employee, that the employee has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after employment, and the employee has not informed the employer of the information within the time required by subrule 50.9(9), the facility shall take the following actions:

a. The facility shall act to verify credible information within seven calendar days of receipt. "Verify," for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the facility shall follow the requirements of paragraphs 50.9(3) "c" and "d." (I, II, III)

50.9(11) Proof of background checks for temporary employment agencies and contractors. Proof of background checks may be kept in the files maintained by temporary employment agencies and contractors. Facilities may require temporary employment agencies and contractors to provide a copy of the result of the background checks. Copies of such results shall be made available to the department upon request. (I, II, III)

50.9(12) Certified nurse aide training program students. Prior to a student's beginning or returning to a certified nurse aide training program, the program shall request that the department of public safety perform a criminal history check and the department of human services perform child and dependent adult abuse record checks, in this state, of the student.

a. *Prohibition of involvement in clinical education.* If a student has a criminal record or a record of founded child or dependent adult abuse, the student shall not be involved in a clinical education component of the certified nurse aide training program involving children or dependent adults unless an evaluation has been performed by the department of human services. The evaluation shall be performed upon request of the certified nurse aide training program.

b. *Involvement in clinical education component pending evaluation.* The training program may allow the student's participation in the clinical education component for not more than 60 calendar days pending the completion of the evaluation by the department of human services if all of the following apply. The 60-day period begins on the first day of the student's participation in the clinical education component.

(1) The student's clinical education component of the training program involves children or dependent adults but does not involve the operation of a motor vehicle;

(2) The student does not have a record of founded child or dependent adult abuse;

(3) The student has been convicted of a crime that is a simple misdemeanor offense under Iowa Code section 123.47 or a first offense of operating a motor vehicle while intoxicated under Iowa Code section 321J.2(1); and

(4) The training program has requested that the department of human services perform an evaluation to determine whether the crime warrants prohibition of the student's involvement in the clinical education component.

c. *Student notification of criminal conviction or founded abuse after performance of record checks and evaluation.* If a student is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the record checks and any evaluation have been performed, the

student shall inform the certified nurse aide training program of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

(1) The program shall act to verify the information within seven calendar days of notification. “Verify,” for purposes of this paragraph, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents. If the information is verified, the program shall follow the requirements of paragraph 50.9(12) “a” to determine whether or not the student’s involvement in a clinical education component may continue.

(2) The program may allow the student involvement to continue pending the performance of an evaluation by the department of human services.

(3) A student who is required to inform the program of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

(4) The program may notify the county attorney for the county where the program is located of any violation or failure by a student to notify the program of a criminal conviction or entry of an abuse record within the period required by this paragraph.

d. Program receipt of credible information that a student has been convicted of a crime or has a record of founded abuse. If a program receives credible information, as determined by the program, that a student has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after the record checks and any evaluation have been performed, from a person other than the student, and the student has not informed the program of such information within 48 hours, the program shall act to verify the credible information within seven calendar days of receipt of the credible information. “Verify,” for purposes of this paragraph, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents. If the information is verified, the requirements of paragraph 50.9(12) “a” shall be applied to determine whether or not the student’s involvement in a clinical education component may continue.

e. Completion of a certified nurse aide training program conducted by the health care facility. If a certified nurse aide training program is conducted by the facility and a student of that program accepts and begins employment with the facility within 30 days of completing the program, the background check of the student performed prior to beginning the training program shall fulfill the criminal and abuse background check requirements. The facility shall maintain the proof required in subrule 50.9(11). (I, II, III)

This rule is intended to implement Iowa Code section 135C.14 and section 135C.33 as amended by 2013 Iowa Acts, Senate File 347.

481—50.10(135C) Inspections, exit interviews, plans of correction, and revisits.

50.10(1) Frequency of inspection. The department shall inspect a licensed health care facility at least once within a 30-month period. Facilities participating in the Medicare or Medicaid programs may be inspected more frequently as a part of a joint state and federal inspection.

50.10(2) Accessibility of records, the facility, and persons. An inspector of the department may enter any licensed health care facility without a warrant and may examine all records pertaining to the care provided to residents of the facility. An inspector of the department may contact or interview any resident, employee, or any other person who might have knowledge about the operation of a health care facility. The inspector may duplicate records and take photographs as part of the inspection.

50.10(3) Exit interviews. The health care facility shall be provided an exit interview at the conclusion of an inspection, and the facility representative shall be informed of all issues and areas of concern related to the deficiencies.

a. Methods of conducting exit interview. The department may conduct the exit interview either in person or by telephone.

b. Second exit interviews. The department shall conduct a second exit interview if any additional areas of concern are identified.

50.10(4) Submission of additional or rebuttal information. The facility shall be provided two working days from the date of the exit interview to submit additional or rebuttal information to the department.

a. Receipt of additional information. Additional or rebuttal information must be received by the department within two working days in order to be considered.

b. Methods to submit additional information. The additional or rebuttal information may be submitted via email, facsimile, or overnight courier to the department.

c. Inform of the opportunity to submit additional or rebuttal information. During the inspection, the facility shall be informed of the opportunity to submit additional or rebuttal information and of the contact information for the department.

50.10(5) Standards for determining whether a deficiency exists. The department shall use a preponderance of the evidence standard when determining whether a regulatory deficiency exists. For purposes of this rule and rule 481—50.11(135C), “preponderance of the evidence standard” means that the evidence, considered and compared with the evidence opposed to it, produces the belief in a reasonable mind that the allegations or deficiency is more likely true than not true. This standard does not require that the inspector personally witnessed the alleged violation.

50.10(6) Statement of deficiencies. When one or more deficiencies are found, a statement of deficiencies detailing each deficiency shall be sent by the department to the health care facility within ten working days of the exit interview.

50.10(7) Plan of correction. Within ten calendar days following receipt of the statement of deficiencies, the health care facility shall submit a plan of correction to the department.

a. Contents of plan. The plan of correction shall contain the following information:

- (1) How the facility will correct the deficient practice;
- (2) How the facility will act to protect residents;
- (3) The measures the facility will take or the systems it will alter to ensure that the problem does not recur;

- (4) How the facility plans to monitor its performance to make sure that solutions are sustained; and
- (5) Date(s) when corrective action will be completed.

b. Review of plan. The department shall review the plan of correction within ten working days of receipt. The department may request additional information or revisions to the plan, which shall be provided as requested.

50.10(8) Revisits. If a facility licensed under this chapter is subject to or will be subject to denial of payment including payment for Medicare or medical assistance (Medicaid) under Iowa Code chapter 249A, or denial of payment for all new admissions pursuant to 42 CFR Section 488.417, and submits a plan of correction relating to the deficiencies or a response to a citation issued under 481—Chapter 56 and the department elects to conduct an on-site revisit inspection, the department shall commence the revisit inspection within the shortest time feasible of the date that the plan of correction is received or the date specified within the plan of correction alleging compliance, whichever is later.

50.10(9) Appeals of statement of deficiencies. The facility may appeal the statement of deficiencies by filing an appeal request with the department within 20 working days after receipt of the statement of deficiencies. The procedures defined in rule 481—50.6(10A) shall be followed for the appeal.

481—50.11(135C) Complaint and self-reported incident investigation procedure.

50.11(1) Complaint. The process for filing a complaint is as follows:

a. Any person with concerns regarding a facility may file a complaint with the Department of Inspections and Appeals, Complaint/Incident Bureau, Lucas State Office Building, Third Floor, 321 E. 12th Street, Des Moines, Iowa 50319-0083; by use of the complaint hotline, 1-877-686-0027; by facsimile sent to (515)281-7106; or through the website address dia-hfd.iowa.gov/DIA_HFD/Home.do.

b. When the nature of the complaint is outside the department's authority, the department shall forward the complaint or refer the complainant to the appropriate investigatory entity.

c. The complainant shall include as much of the following information as possible in the complaint: the complainant's name, address and telephone number; the complainant's relationship to the facility or resident; and the reason for the complaint.

d. The complainant's name shall be confidential information and shall not be released by the department.

e. The department shall act on anonymous complaints unless the department determines that the complaint is intended to harass the facility.

f. If the department, upon preliminary review, determines that the complaint is intended as harassment or is without a reasonable basis, the department may dismiss the complaint.

50.11(2) Self-reported incident. When the facility is required pursuant to rule 481—50.7(10A,135C) or other requirements to report an incident, the facility shall make the report to the department via:

a. The web-based reporting tool accessible from the following Internet site, dia-hfd.iowa.gov/DIA_HFD/Home.do, under the "Login" tab and then access "Add self report";

b. Mail by sending the self-report to the Department of Inspections and Appeals, Complaint/Incident Bureau, Lucas State Office Building, Third Floor, 321 E. 12th Street, Des Moines, Iowa 50319-0083;

c. The complaint/incident hotline, 1-877-686-0027; or

d. Facsimile sent to (515)281-7106.

50.11(3) Time frames for investigation of complaint or self-reported incident. The following guidelines shall be used for determining the time frame in which an on-site inspection of the facility shall be initiated:

a. *Immediate jeopardy situation.* Within 2 working days for a complaint or self-reported incident determined by the department to be an alleged immediate jeopardy situation. For purposes of this rule, "immediate jeopardy situation" means a situation in which the facility's alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, has caused or is likely to cause, serious injury, harm, impairment, or death to a resident.

b. *High-level nonimmediate jeopardy situation.* Within 10 days for nursing facilities and within 20 working days for intermediate care facilities and residential care facilities for a complaint or self-reported incident determined by the department to be an alleged high-level nonimmediate jeopardy situation. For purposes of this rule, "high-level nonimmediate jeopardy situation" means the alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, may have caused harm that negatively impacts the resident's mental, physical, or psychosocial status and is of such consequence to the resident's well-being that a rapid response is warranted.

c. *Other nonimmediate jeopardy situation.* Within 45 calendar days for a complaint or self-reported incident determined by the department to be an alleged nonimmediate jeopardy situation, other than a high-level nonimmediate jeopardy situation. For purposes of this rule, "other nonimmediate jeopardy situation" means a situation that is not a high-level nonimmediate jeopardy situation where the alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, may cause harm of limited consequence and does not significantly impair the individual's mental, physical, or psychosocial status or function.

d. *No inspection of facility-reported incidents.* The department may determine not to institute an inspection of a self-reported incident using criteria including, but not limited to, the following:

(1) There is no evident deficiency on the part of the facility, and the facility has taken appropriate measures to address the situation; or

(2) There is a potential deficiency but:

1. The facility has taken appropriate measures to address the situation;
2. The facility does not have a recent history of identified deficiency similar to or related to the incident being reported;
3. A complaint has not been filed regarding the incident being reported; and
4. The resulting injury does not cause a significant negative impact to the resident's quality of life.

50.11(4) *Standard for determining whether a complaint or self-reported incident is substantiated.* The department shall apply a preponderance of the evidence standard in determining whether a complaint or self-reported incident is substantiated.

50.11(5) *Notification of program and complainant.* The department shall notify the facility and, if known, the complainant of the findings of the complaint investigation. The department shall also notify the complainant, if known, if the department does not investigate a complaint, and the reasons for not investigating the complaint shall be included in the notification.

50.11(6) *Process for complaint and self-reported incident.* The department and facility shall follow the process outlined in rule 481—50.10(135C), as applicable, when conducting or responding to a complaint or self-reported incident investigation.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—50.12(135C) Requirements for service. At each inspection, the facility shall provide the most current contact information for the purpose of service of departmental notices. A statement of deficiencies or citation shall be served upon a facility using one of the following methods.

50.12(1) *Electronic mail.* If a facility has electronic mail, electronic mail shall be used for service of statements of deficiencies and citations. If electronic mail is used, the following shall be complied with:

a. The department shall send the electronic message return receipt requested. The response from the return receipt shall officially document receipt of the service and the date of receipt.

b. A facility shall allow the electronic return receipt to be returned to the department and shall not delay the sending of the return receipt.

c. If the department has not received the return receipt within three business days of sending the service via electronic mail, the department shall contact the facility to verify the receipt of the service.

50.12(2) *Certified mail.* If a facility does not have access to electronic mail, the service shall be sent via certified mail, return receipt requested.

50.12(3) *Personal service.* The department may choose to personally serve the notice upon the health care facility by delivering a copy of the statement of deficiencies or citation to the health care facility and presenting the copy to the facility.

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—50.13(135C) Inspectors' conflicts of interest.

50.13(1) *Conflicts.* Any of the following circumstances disqualifies an inspector from inspecting a particular health care facility licensed under Iowa Code chapter 135C:

a. The inspector currently works or, within the past two years, has worked as an employee or employment agency staff at the health care facility, or as an officer, consultant, or agent for the health care facility to be inspected.

b. The inspector has any financial interest or any ownership interest in the facility. For purposes of this paragraph, indirect ownership, such as through a broad-based mutual fund, does not constitute a financial or ownership interest.

c. The inspector has an immediate family member who has a relationship with the facility as described in subrule 50.13(1), paragraphs "a" and "b."

50.13(2) *Immediate family member.* For purposes of this rule, "immediate family member" means the same as set forth in 42 CFR 488.301, and includes a husband or wife; natural or adoptive parent, child, or sibling; stepparent, stepchild, or stepsibling; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law; or grandparent or grandchild.

[Prior to 8/8/90, see Public Health[641] Ch 51]

481—51.1(135B) Definitions. As used in this chapter, unless the context otherwise requires, the following definitions apply:

“Critical access hospital” means any hospital located in a rural area and certified by the Iowa department of public health as being a necessary provider of health care services to residents of the area. A “critical access hospital” makes available 24-hour emergency care, is a designated provider in a rural health network, and meets the criteria specified pursuant to 481—51.53(135B). If swing-bed approval has been granted, all 25 beds may be used interchangeably for acute or skilled nursing facility level of care services.

“Department” means the Iowa department of inspections and appeals.

“Governing board” means the board of trustees, the owner or the person or persons designated by the owner as the governing authority who shall have supreme authority in the hospital and be responsible for the management, control, and appointment of the medical staff.

“Governmental unit” means the state, or any county, municipality, or other political subdivision, or any department, division, board or other agency of any of the foregoing.

“Hospital” or *“general hospital”* means an institution, place, building, or agency represented and held out to the general public as ready, willing and able to furnish care, accommodations, facilities and equipment for the diagnosis or treatment, over a period exceeding 24 hours, of two or more nonrelated individuals suffering from illness, injury, infirmity or deformity, or other physical or mental condition for which medical, surgical and obstetrical care services are provided. The term “hospital” does not include the following:

1. Any institution for well children, day nursery and child care center, foster boarding homes or houses, and homes for disabled children. However, such institutions that have a dual function, including nursing and medical care, and care of the sick are required to be licensed.

2. Homes, houses or institutions for aged persons which limit their functions to room and board and provide no medical or nursing care and house no bedridden person.

3. Dispensary or first-aid stations maintained for the care of employees, students, customers, and members of any commercial or industrial plant, educational institution, or convent.

“Long-term acute care hospital” means any hospital that has an average inpatient length of stay greater than 25 days, and that provides extended medical and rehabilitative care for patients who are clinically complex and who may suffer from multiple acute or chronic conditions. Services provided by a long-term acute care hospital include but are not limited to comprehensive rehabilitation, respiratory therapy, head trauma treatment, and pain management. A long-term acute care hospital shall meet the requirements for a general hospital including emergency services, except that obstetrical facilities are not required, and, if the long-term acute care hospital is located within a separately licensed hospital and does not provide its own emergency services, the long-term acute care hospital shall contract for emergency services with the host general hospital.

“Medical staff” means an organized body that is composed of individuals appointed by the hospital governing board, that operates under bylaws approved by the governing board and that is responsible for the quality of medical care provided to patients by the hospital. All members of the medical staff, one of whom shall be a licensed physician, shall be licensed to practice in the state of Iowa.

“Premises” means any or all designated portions of a building or structure, enclosures or places in the building, or real estate when the distinct and clearly identifiable parts provide separate care and services. The definition of “premises” shall not be construed to permit the existence of a separately licensed specialty hospital within the physical structure of a general hospital. A specialty hospital shall be defined pursuant to 42 CFR Section 411.351 and any amendments thereto, or pursuant to any regulations promulgated by the Secretary of Health and Human Services.

“*Specialized hospital*” means any hospital devoted primarily to the specialized care and treatment of persons with chronic or long-term illness, injury, or infirmity. The diagnosis, treatment or care shall be administered by or performed under the direction of persons especially qualified in the diagnosis and treatment of the particular illness, injury, or infirmity. A specialized hospital shall meet the requirements for a general hospital. “Specialized hospital” as defined in this rule does not include a specialty hospital defined pursuant to 42 CFR Section 411.351.

481—51.2(135B) Classification, compliance and license.

51.2(1) Classification. For the purpose of administering the hospital licensing law, all institutions subject to licensure shall be classified as a critical access hospital, general hospital, long-term acute care hospital, or specialized hospital. The license issued by the department shall clearly identify the classification of the hospital.

51.2(2) Compliance requirements for each classification. A hospital shall comply with all of the general regulations for hospitals and shall comply with regulations pertaining to specialized services, if specialized services are provided in the hospital.

51.2(3) Separate license required. A separate license shall be required for each hospital even though more than one is operated under the same management. A separate license is not required for separate buildings of a hospital located on separate parcels of land, which are not adjoining but provide elements of the hospital’s full range of services for the diagnosis, care, and treatment of human illness, including convalescence and rehabilitation, and which are organized under a single owner or governing board with a single designated administrator and medical staff.

51.2(4) Posting of license. The license shall be conspicuously posted on the main premises of the hospital.

51.2(5) The department shall recognize, in lieu of its own licensure inspection, the comparable inspections and inspection findings of The Joint Commission (TJC), the American Osteopathic Association (AOA), DNV GL – Healthcare (DNV GL), or the Center for Improvement in Healthcare Quality (CIHQ) if the department is provided with copies of all requested materials relating to the inspection process. In cases of the initial licensure, the department may require its own inspection when needed in addition to comparable accreditations to allow the hospital to begin operations. The department may also initiate its own inspection when it is determined that the inspection findings of TJC, AOA, DNV GL, or CIHQ are insufficient to address concerns identified as possible licensure issues.

51.2(6) Hospitals not accredited by TJC, AOA, DNV GL, or CIHQ shall be inspected by the department utilizing the current Medicare conditions of participation found in Title XVIII of the federal Social Security Act and 42 CFR Part 482, Subparts A, B, C, D, and E, or 42 CFR Part 485, Subpart F. Licensed-only hospitals shall be inspected utilizing the requirements of this chapter. The department may promulgate additional standards. The department may recognize, in lieu of its own licensure inspection, the comparable inspection and inspection findings of a Medicare conditions of participation survey.

This rule is intended to implement Iowa Code chapter 135B.

481—51.3(135B) Quality improvement program.

51.3(1) There shall be an ongoing hospitalwide quality improvement program. This program is to be designed to improve, as needed, the quality of patient care by:

- a. Assessing clinical patient care;
- b. Assessing nonclinical and patient-related services within the hospital;
- c. Developing remedial action as needed; and
- d. Ongoing monitoring and evaluating of the progress of remedial action taken.

51.3(2) The governing body shall ensure there is an effective hospitalwide patient-oriented quality improvement program.

51.3(3) The quality improvement program shall involve active participation of physician members of the hospital's medical staff and other health care professionals, as appropriate. Evidence of this participation will include ongoing case review and assessment of other patient care problems which have been identified through the quality improvement process.

51.3(4) The quality improvement plan may include external, state, local, federal, and regional benchmarking activities designed to improve the quality of patient care. The quality improvement plan shall be written and may address the following:

- a.* The program's objectives, organization, scope, and mechanisms for overseeing the effectiveness of monitoring, evaluation, and problem-solving activities;
- b.* The participation from all departments, services (including services provided both directly and under contract), and disciplines;
- c.* An assessment of participation through a quality improvement committee meeting on an established periodic basis;
- d.* The coordination of quality improvement activities;
- e.* The communication, reporting and documentation of all quality improvement activities on a regular basis to the governing board, the medical staff, and the hospital administrator;
- f.* An annual evaluation by the governing board of the effectiveness of the quality improvement program; and

51.4(2) If a long-term acute care hospital occupies the same building, premises or physical location of a general hospital, each hospital shall have its own entrance. The separate entrance shall have appropriate signs and shall be clearly identifiable as belonging to a particular hospital. Nothing shall prohibit a long-term acute care hospital that is occupying the same building, premises or physical location as a general hospital from utilizing the entrance, hallway, stairs, elevators or escalators of the general hospital to provide access to the long-term acute care hospital's separate entrance.

51.4(3) A long-term acute care hospital located within a general hospital shall have sufficient staff to meet the patients' needs. No nursing services staff of either the long-term acute care hospital or the host general hospital shall be simultaneously assigned patient duties in both licensed hospitals.

51.4(4) Each long-term acute care hospital located within a general hospital and the host general hospital shall have a separate and distinct governing board, which shall be in control of the respective hospital. No more than one board member shall serve in a common capacity on the governing board of each licensed hospital. For the purposes of this rule, control exists if an individual or an organization has the power, directly or indirectly, to significantly influence or direct the actions or policies of an organization or institution.

51.4(5) A long-term acute care hospital located within a general hospital may contract with the host general hospital for the provision of services, including but not limited to pharmaceutical, radiological, laboratory, food and dietetic, surgical, anesthesia, emergency, housekeeping, laundry and environmental, or other services necessary to maintain a clean and safe physical environment. The contract shall be executed by the governing boards of the long-term acute care hospital and the host general hospital. All contracts shall clearly delineate the responsibilities of and services provided by the long-term acute care hospital and the host general hospital.

51.4(6) Any life safety code violation identified by the state fire marshal during an inspection of a licensee may be a life safety code violation for both the long-term acute care hospital and the general hospital.

51.5(4) A hospital shall establish and implement written criteria for the granting of clinical privileges. The written criteria shall include, but not be limited to, consideration of the:

a. Ability of the applicant to provide patient care services independently or appropriately in the hospital;

b. License held by the applicant to practice;

c. Training, experience, and competence of applicant;

d. Relationship between the applicant's request for privileges and the hospital's current scope of patient care services;

e. Applicant's ability to provide comprehensive, appropriate and cost-effective services.

51.41(2) Requirements for employer prior to employing an individual. The person shall indicate, by signature, that the person has been informed that the background check will be conducted.

b. Conducting a background check. The hospital may access the single contact repository (SING) to perform the required background check. If the SING is used, the hospital shall submit the person’s maiden name, if applicable, with the background check request. If SING is not used, the hospital must obtain a criminal history check from the department of public safety and a check of the child and dependent adult abuse registries from the department of human services.

c. If a person considered for employment has been convicted of a crime. If a person being considered for employment in a hospital has been convicted of a crime under a law of any state, the department of public safety shall notify the hospital that upon the request of the hospital the department of human services will perform an evaluation to determine whether the crime warrants prohibition of the person’s employment in the hospital.

d. If a person considered for employment has a record of founded child abuse or dependent adult abuse. If a department of human services child or dependent adult abuse record check shows that a person being considered for employment in a hospital has a record of founded child or dependent adult abuse, the department of human services shall notify the hospital that upon the request of the hospital the department of human services will perform an evaluation to determine whether the founded child or dependent adult abuse warrants prohibition of employment in the hospital.

e. Employment pending evaluation. The hospital may employ a person for not more than 60 calendar days pending the completion of the evaluation by the department of human services if all of the following apply. The 60-day period begins on the first day of the person’s employment.

(1) The person is being considered for employment other than employment involving the operation of a motor vehicle;

(2) The person does not have a record of founded child or dependent adult abuse;

(3) The person has been convicted of a crime that is a simple misdemeanor offense under Iowa Code section 123.47 or a first offense of operating a motor vehicle while intoxicated under Iowa Code section 321J.2, subsection 1; and

51.41(5) *Transfer of ownership of a hospital.* If the ownership of a hospital is transferred, at the time of transfer the background check required by this rule shall be performed for each employee for whom there is no documentation that such background check has been performed. The hospital may continue to employ such employee pending the performance of the background check and any related evaluation.

51.41(6) *Change of employment—person with criminal or abuse record—exception to record check evaluation requirements.* A person with a criminal or abuse record who is or was employed by a certified hospital and is hired by another certified hospital shall be subject to the background check.

a. A reevaluation of the latest record check is not required, and the person may commence employment with the other hospital if the following requirements are met:

(1) The department of human services previously performed an evaluation concerning the person's criminal or abuse record and concluded the record did not warrant prohibition of the person's employment;

(2) The latest background check does not indicate a crime was committed or founded abuse record was entered subsequent to the prior evaluation;

(3) The position with the subsequent employer is substantially the same or has the same job responsibilities as the position for which the previous evaluation was performed;

(4) Any restrictions placed on the person's employment in the previous evaluation by the department of human services and still applicable shall remain applicable in the person's subsequent employment; and

(5) The person subject to the background check has maintained a copy of the previous evaluation and provided it to the subsequent employer, or the previous employer provides the previous evaluation from the person's personnel file pursuant to the person's authorization. If a physical copy of the previous evaluation is not provided to the subsequent employer, a current record check evaluation shall be performed.

b. For purposes of this subrule, a position is "substantially the same or has the same job responsibilities" if the position requires the same certification, licensure, or advanced training. For example, a licensed nurse has substantially the same or the same job responsibilities as a director of nursing; a certified nurse aide does not have substantially the same or the same job responsibilities as a licensed nurse.

c. The subsequent employer must maintain the previous evaluation in the employee's personnel file for verification of the exception to the requirement for a record check evaluation.

d. The subsequent employer may request a reevaluation of the background check and may employ the person while the reevaluation is being performed, even though an exemption under paragraph 51.41(6) "a" may be authorized.

51.41(7) *Employee notification of criminal convictions or founded abuse after employment.* If a person employed by an employer that is subject to this rule is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the person's employment application date, the person shall inform the employer of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the hospital shall follow the requirements of paragraphs 51.41(2) “*c*” and “*d*.”

c. The employer may continue to employ the person pending the performance of an evaluation by the department of human services.

d. A person who is required by this subrule to inform the person’s employer of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

e. The employer may notify the county attorney for the county where the employer is located of any violation or failure by an employee to notify the employer of a criminal conviction or entry of an abuse record within the period required under this subrule.

51.41(8) *Hospital receipt of credible information that an employee has been convicted of a crime or founded for abuse.* If the hospital receives credible information, as determined by the hospital, from someone other than the employee, that the employee has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after employment, and the employee has not informed the employer of the information within the time required by subrule 51.41(7), the hospital shall take the following actions:

a. The hospital shall act to verify credible information within seven calendar days of receipt. “Verify,” for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the hospital shall follow the requirements of paragraphs 51.41(2) “*c*” and “*d*.”

51.41(9) *Proof of background checks for temporary employment agencies and contractors.* Proof of background checks may be kept in the files maintained by temporary employment agencies and contractors. Facilities may require temporary employment agencies and contractors to provide a copy of the result of the background checks. Copies of such results shall be made available to the department upon request.

program, local building code enforcement must include both the adoption and enforcement of a local building code through plan reviews and inspections.

e. In any case in which an applicable requirement of 661—Chapter 205 is inconsistent with an applicable requirement of the state building code, the hospital or off-site premises shall be deemed to be in compliance with the state building code requirement if the requirement of 661—Chapter 205 is met.

51.50(2) *Submission of construction documents.*

a. Submissions of architectural technical documents, engineering documents, and plans and specifications to the building code commissioner are the responsibility of the owner of the building or facility, although the actual submission may be completed by an authorized agent of the owner or the responsible design professional.

b. Submissions shall comply with the provisions of rule 661—300.4(103A).

c. The responsible design professional shall certify that the building plans meet the requirements specified in subrule 51.50(1), unless a variance has been granted pursuant to subrule 51.50(3).

51.50(3) *Variations.* The director of the department may grant variances to building and construction guidelines as contained in the Guidelines for Design and Construction of Hospitals, 2018 edition. The hospital or off-site premises must submit a variance request in writing to the director. The request must demonstrate how patient safety and the quality of care offered will not be compromised by the variance. The facility must demonstrate its ability to completely fulfill all other requirements of the service. The director shall make a written determination of the request. In determining whether a variance request shall be granted, the director shall give consideration to the following conditions and to any other conditions the director deems relevant:

a. The design and planning for the specific property shall offer improved or compensating features which provide equivalent desirability and utility;

b. Alternate or special construction methods, techniques, and mechanical equipment shall offer equivalent durability; utility; safety; structural strength and rigidity; sanitation; odor control; protection from corrosion, decay and insect attack; and quality of workmanship;

c. The health, safety or welfare of any patient shall not be endangered;

d. The variance shall be limited to the specific project under consideration and shall not be construed as establishing a precedent for similar acceptance in other cases;

e. Occupancy and function of the building shall be considered; and

f. The type of licensing shall be considered.

CHAPTER 52
DEPENDENT ADULT ABUSE IN FACILITIES AND PROGRAMS

481—52.1(235E) Definitions. For purposes of this chapter, the following definitions apply:

“Assault of a dependent adult” means the commission of any act which is generally intended to cause pain or injury to a dependent adult, or which is generally intended to result in physical contact which would be considered by a reasonable person to be insulting or offensive or any act which is intended to place another in fear of immediate physical contact which will be painful, injurious, insulting, or offensive, coupled with the apparent ability to execute the act.

“Caretaker” means a person who is a staff member of a facility or program who provides care, protection, or services to a dependent adult voluntarily, by contract, through employment, or by order of the court. For the purpose of an allegation of exploitation, if the caretaker-dependent adult relationship started when a staff member was employed in the facility, the staff member may be considered a caretaker after employment is terminated.

“Confidentiality” means the withholding of information from any manner of communication, public or private.

“Court” means the district court.

“Department” means the department of inspections and appeals.

“Dependent adult” means a person 18 years of age or older whose ability to perform the normal activities of daily living or to provide for the person’s own care or protection is impaired, either temporarily or permanently.

“Dependent adult abuse” means any of the following as a result of the willful misconduct or gross negligence or reckless act or omission of a caretaker, taking into account the totality of the circumstances: physical injury, unreasonable confinement, unreasonable punishment, assault, sexual offense, sexual exploitation, exploitation, neglect, or personal degradation. “Dependent adult abuse” does not include any of the following:

1. Circumstances in which the dependent adult declines medical treatment if the dependent adult holds a belief or is an adherent of a religion whose tenets and practices call for reliance on spiritual means in place of reliance on medical treatment.
2. Circumstances in which the dependent adult’s caretaker, acting in accordance with the dependent adult’s stated or implied consent, declines medical treatment or care.
3. The withholding or withdrawing of health care from a dependent adult who is terminally ill in the opinion of a licensed physician, when the withholding or withdrawing of health care is done at the request of the dependent adult or at the request of the dependent adult’s next of kin, attorney in fact, or guardian pursuant to the applicable procedures under Iowa Code chapter 125, 144A, 144B, 222, 229, or 633.

“Exploitation” means a caretaker who knowingly obtains, uses, endeavors to obtain to use, or who misappropriates, a dependent adult’s funds, assets, medications, or property with the intent to temporarily or permanently deprive a dependent adult of the use, benefit, or possession of the funds, assets, medication, or property for the benefit of someone other than the dependent adult.

“Facility” means a health care facility as defined in Iowa Code section 135C.1 or a hospital as defined in Iowa Code section 135B.1.

“Gross negligence” means an act or omission that signifies more than ordinary inadvertence or inattention, but less than conscious indifference to consequences; and, in other words, means an extreme departure from the ordinary standard of care.

“Immediately,” for purposes of mandatory reporters’ reporting of suspected dependent adult abuse, means within 24 hours.

“Inspector” means a surveyor, monitor or investigator with the department or any department designee.

“Intimate relationship” means a significant romantic involvement between two persons that need not include sexual involvement, but does not include a casual social relationship or association in a business

or professional capacity. In determining whether persons are in an intimate relationship, the following nonexclusive list of factors may be considered:

1. The duration of the relationship,
2. The frequency of interaction,
3. Whether the relationship has been terminated, and
4. The nature of the relationship, characterized by either person's expectation of sexual or romantic involvement.

"Misappropriates" means taking unfair advantage of or wrongfully or dishonestly exercising control over property.

"Neglect of a dependent adult" means the deprivation of the minimum food, shelter, clothing, supervision, physical or mental health care, or other care necessary to maintain a dependent adult's life or physical or mental health.

"Person" means person as defined in Iowa Code section 4.1.

"Personal degradation" means a willful act or statement by a caretaker intended to shame, degrade, humiliate, or otherwise harm the personal dignity of a dependent adult, or where the caretaker knew or reasonably should have known the act or statement would cause shame, degradation, humiliation, or harm to the personal dignity of a reasonable person. "Personal degradation" includes the taking, transmission, or display of an electronic image of a dependent adult by a caretaker, where the caretaker's actions constitute a willful act or statement intended to shame, degrade, humiliate, or otherwise harm the personal dignity of the dependent adult, or where the caretaker knew or reasonably should have known the act would cause shame, degradation, humiliation, or harm to the personal dignity of a reasonable person. "Personal degradation" does not include the taking, transmission, or display of an electronic image of a dependent adult for the purpose of reporting dependent adult abuse to law enforcement, the department, or other regulatory agency that oversees caretakers or enforces abuse or neglect provisions, or for the purpose of treatment or diagnosis or as part of an ongoing investigation. "Personal degradation" also does not include the taking, transmission, or display of an electronic image by a caretaker in accordance with the facility's or program's confidentiality policy and release of information or consent policies.

"Physical injury" means a physical injury, or injury which is at a variance with the history given of the injury, which involves a breach of skill or care or learning ordinarily exercised by a caretaker in similar circumstances. "Physical injury" includes damage to any bodily tissue to the extent that the tissue must undergo a healing process in order to be restored to a sound and healthy condition, damage to any bodily tissue to the extent that the tissue cannot be restored to a sound and healthy condition, or damage to any bodily tissue which results in the death of the person who has sustained the damage.

"Program" means an elder group home as defined in Iowa Code section 231B.1, an assisted living program certified under Iowa Code section 231C.3, or an adult day services program as defined in Iowa Code section 231D.1.

"Recklessly" means that a person acts or fails to act with respect to a material element of a public offense, when the person is aware of and consciously disregards a substantial and unjustifiable risk that the material element exists or will result from the act or omission. The risk must be of such a nature and degree that disregard of the risk constitutes a gross deviation from the standard conduct that a reasonable person would observe in the situation.

"Registry" means the central registry for dependent adult abuse information established in Iowa Code section 235B.5.

"Report" means a verbal or written statement, made to the department, which alleges that dependent adult abuse has occurred.

"Resident" means a resident of a health care facility as defined in Iowa Code chapter 135C, a patient in a hospital as defined in Iowa Code chapter 135B, a tenant of an assisted living program as defined in Iowa Code chapter 231C, a tenant in an elder group home as defined in Iowa Code chapter 231B, or a participant in an adult day services program as defined in Iowa Code chapter 231D.

"Sexual exploitation" means any consensual or nonconsensual sexual conduct with a dependent adult by a caretaker whether within a facility or program or at a location outside of a facility or program. "Sexual exploitation" includes but is not limited to:

1. Kissing;
2. Touching of the clothed or unclothed breast, groin, buttock, anus, pubes, or genitals;
3. A sex act as defined in Iowa Code section 702.17;
4. The transmission, display or taking of electronic images of the unclothed breast, groin, buttock, anus, pubes, or genitals of a dependent adult by a caretaker for a purpose not related to treatment, care, monitoring, assessment or diagnosis or as part of an ongoing investigation.

“Sexual exploitation” does not include touching which is part of a necessary examination, treatment, or care by a caretaker acting within the scope of the practice or employment of the caretaker; the exchange of a brief touch or hug between the dependent adult and a caretaker for the purpose of reassurance, comfort, or casual friendship; or touching between spouses or domestic partners in an intimate relationship.

“*Sexual offense*” means the commission of a sexual offense under Iowa Code chapter 709 or Iowa Code section 726.2 with or against a dependent adult.

“*Staff member*” means an individual who provides direct or indirect treatment or services to residents in a facility or program. Direct treatment or services include those provided through person-to-person contact. Indirect treatment or services include those provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance. Specifically excluded from the definition of “staff member” are individuals such as part-time volunteers, building contractors, repair workers or others who are in a facility or program for a very limited purpose, are not in the facility or program on a regular basis, or do not provide any treatment or services to the residents of the facility or program.

“*Unreasonable confinement*” means confinement that includes but is not limited to the use of restraints, either physical or chemical, for the convenience of staff. “Unreasonable confinement” does not include the use of confinement and restraints if the methods are employed in conformance with state and federal standards governing confinement and restraint or as authorized by a physician or physician extender.

“*Unreasonable punishment*” means a willful act or statement intended by the caretaker to punish, agitate, confuse, frighten, or cause emotional distress to the dependent adult. Such willful act or statement includes but is not limited to intimidating behavior, threats, harassment, deceptive acts, or false or misleading statements.

“*Willful misconduct*” means an intentional act of unreasonable character committed with disregard for a known or obvious risk that is so great as to make it highly probable that harm will follow.

A physical condition or one or more practices within a facility, including either physical abuse of any resident or failure to treat any resident with consideration, respect, and full recognition of the resident's dignity and individuality, in violation of a specific rule adopted by the department, may constitute a class II violation;

56.2(3) Class III. A class III violation is one which is not classifiable in the department's rules nor classifiable under the criteria stated in those rules as a class I or class II violation.

481—56.3(135C) Fines. Citations which are issued by the director of the department of inspections and appeals for violations of the statutes or rules relating to health care facilities will subject the facility to the following penalties.

56.3(1) Citation for a class I violation. The penalty shall not be less than \$2,000 nor more than \$10,000. The penalty for a class I violation shall be doubled when the violation is due to an intentional act by the facility in violation of a provision of Iowa Code chapter 135C or a rule adopted pursuant thereto.

56.3(2) Citation for a class II violation. The penalty shall not be less than \$100 nor more than \$500. Using the criteria established in paragraph 56.3(2) "a," the director of the department of inspections and appeals may, upon written request, waive the penalty if the class II violation is corrected within the time specified in the citation. The director shall not waive penalties related to the items listed in subrule 56.3(4).

a. Criteria for waiving the penalty for a class II violation. The director shall consider the following criteria, among others, when deciding whether to grant a waiver of a class II penalty.

(1) The past history of the facility within the last 24 months of the violation as it relates to the nature of the violation;

(2) The rights of residents to make informed decisions with their doctor(s) and family/legal representative(s); and

(3) The financial hardship the fine will cause the facility.

b. Process for requesting a waiver of the penalty for a class II violation.

(1) A facility shall submit documentation that supports the waiver request.

(2) If the facility has requested a waiver based on financial hardship, the facility must provide proof of the hardship for the individual facility, along with the parent corporation, if any. Supporting documentation shall, at minimum, include the facility's, and the parent corporation's, if any, most recent profit and loss statement and balance sheet.

(3) Requests for a waiver shall be submitted within ten working days of receipt by the facility of the notice that the violation has been corrected.

(4) The department shall make a decision on the waiver request or request additional information, if necessary, within ten working days of receipt of a waiver request and shall notify the facility in writing of the department's determination by personal service, by electronic mail, or by certified mail. If additional information is requested, such information shall be provided by the facility within five working days. If additional information is necessary, the department shall make a decision on the waiver request within ten working days of receipt of the additional information requested by the department.

(5) If the waiver request is granted and the facility has paid the penalty, the facility shall be refunded the amount of the penalty paid that was subject to the approved waiver request.

c. Denial of penalty waiver request for a class II violation. The director's decision to deny a waiver request is not subject to appeal. The underlying citation or state statement of deficiencies is eligible for appeal.

56.3(3) *Citation for a class III violation.* No penalty shall be assessed for a class III violation except as provided in rule 481—56.5(135C).

56.3(4) *Self-identification and correction of a class II or class III violation prior to the on-site inspection.* If a facility self-identifies a deficient practice prior to the on-site visit inspection, there has been no complaint filed with the department related to that specific deficient practice, and the facility corrects such practice prior to an inspection, no citation shall be issued or fine assessed for class II or III violations except for those penalties arising pursuant to paragraphs "a" to "f":

g. Process for documenting self-identification. If, during the inspection, an area of concern is identified to the facility that was self-identified and corrected by the facility prior to the inspection, no complaint has been filed, and the violation does not fall in the exemptions listed in 481—paragraphs 56.3(4) “a” to “f,” the facility shall complete a “Self-Identification and Correction Form” and submit it to the inspector(s) prior to the conclusion of the inspection, or to the department within two working days of the exit interview via E-mail, facsimile, or overnight courier. a. If the federal deficiency is dismissed or removed during the federal informal dispute resolution process, the department shall remove any corresponding state fine, citation or deficiency within 20 working days of issuance of the decision.

b. If the federal deficiency is dismissed or removed at the conclusion of the federal administrative hearing process, the facility shall submit to the department a copy of the decision, along with a written request for the removal of the corresponding state fine, citation, or deficiency.

c. Any state penalty, including a fine or citation, shall be retained or reinstated if the federal deficiency is retained or reinstated.

481—56.4(135C) Time for compliance. Citations which are issued by the director of the department of inspections and appeals for violations of the statutes or rules related to health care facilities shall specify the length of time permitted for the violation to be abated or eliminated, as follows:

56.4(1) *Citation for a class I violation:* The violation shall be abated or eliminated immediately, unless the department determines that a stated period of time, specified in the citation, is required to correct the violation;

56.4(2) *Citation for a class II violation:* The violation shall be corrected within a stated period of time determined by the department and specified in the citation. The stated period of time specified in the citation may subsequently be modified by the department for good cause shown;

481—56.5(135C) Failure to correct a violation within the time specified—penalty. Failure to correct any class of violation within the time specified in the citation, unless the licensee shows that the failure was due to circumstances beyond the licensee’s control, shall subject the facility to a further penalty of \$50 for each day that the violation continues after the time specified for correction.

481—56.6(135C) Treble and double fines.

56.6(1) *Treble fines for repeated violations.* The director of the department of inspections and appeals shall treble the penalties specified in rule 481—56.3(135C) for any second or subsequent class I or class II violation occurring within any 12-month period, if a citation was issued for the same class I or class II violation occurring within that period and a penalty was assessed therefor.

56.6(2) *Double fines for intentional class I violations.* The director of the department of inspections and appeals shall double the penalties specified in subrule 56.3(1) when the violation is due to an intentional act by the facility in violation of a provision of Iowa Code chapter 135C or rule adopted pursuant thereto.

c. It is assumed that a person intends the natural results of the person’s act(s).

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.7(135C) Notation of classes of violations. All rules relating to health care facilities, other than those which are informational in character, shall be followed by a notation at the end of each rule, or pertinent part thereof. This notation shall consist of a Roman numeral or numerals in parentheses. These Roman numerals refer to the class (either class I, class II, or class III) of violation which may be cited by the director of the department of inspections and appeals when that rule or a part of that rule carrying the notation is violated by the facility.

[ARC 3390C, IAB 10/11/17, effective 11/15/17]

481—56.8(135C) Notation for more than one class of violation. In those instances where a particular rule, or part of a rule is followed by a notation consisting of more than one Roman numeral in parentheses, at the discretion of the director of the department of inspections and appeals, the director may issue a citation for a violation of that rule, or part thereof, designating any one of the multiple classes of violations specified in the notation.

481—56.9(135C) Factors determining selection of class of violation. In determining which class of violation will be designated in the citation, where more than one class is specified in the notation following the rule, the director of the department of inspections and appeals shall consider evidence of the circumstances surrounding the violation, including, but not limited to, the following factors:

56.9(1) The frequency and length of time the violation occurred, i.e., whether the violation was an isolated or a widespread occurrence, practice, or condition;

56.9(2) The past history of the facility within 24 months of the violation as it relates to the nature of the violation;

56.9(3) The culpability of the facility as it relates to the reasons the violation occurred;

56.9(4) The extent of any harm to the residents or the effect on the health, safety, or security of the residents which resulted from the violation;

56.9(5) The relationship of the violation to any other types of violations which have occurred in the facility;

56.9(6) The actions of the facility after the occurrence of the violation, including when corrective measures, if any, were implemented and whether the facility notified the director as required;

56.9(7) The accuracy and extent of records kept by the facility which relate to the violation, and the availability of such records to the department;

56.9(8) The rights of residents to make informed decisions with their doctor(s) and family/legal representative(s); and

56.9(9) Whether the facility made a good-faith effort to address a high-risk resident’s specific needs, and whether the evidence substantiates this effort.

481—56.10(135C) Factors determining imposition of citation and fine.

56.10(1) The director of the department of inspections and appeals may consider evidence of the circumstances surrounding the violation including, but not limited to, those factors set out in rule 481—56.9(135C) when:

- a. Determining whether a violation will be subject to a fine or citation; and
- b. Determining the monetary amount of the penalty to be specified in the citation, when such a fine is authorized to be levied for a particular class of violation.

56.10(2) If it is determined that a violation shall be cited as a class I violation, the following chart shall be used by the department when calculating the fine amount. The amount of the fine shall be the sum total of the calculated fine amounts for each factor to be considered. With the exception of fines trebled pursuant to Iowa Code section 135C.44 or doubled pursuant to Iowa Code section 135C.44A, the total fine imposed for a single class I violation shall not be less than \$2,000 nor more than \$10,000.

¹ For example, the culpability of a facility may range from acts or omissions that are inadvertent or negligent to acts or omissions that intentionally disregard known or obvious risks and make it highly probable that the outcome would cause harm to a resident.

² For example, a violation related to pressure sores could be correlated to a violation related to the use of restraints or failure to provide incontinent care.

[ARC 3390C, IAB 10/11/17, effective 11/15/17]

481—56.11(135C) Class I violation not specified in the rules. The director of the department of inspections and appeals may issue a citation for a class I violation when a physical condition or one or more practices exist in a facility which are not in violation of a specific statute or rule, but which constitute an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility.

481—56.12(135C) Class I violation as a result of multiple lesser violations. The director of the department of inspections and appeals may issue a citation for a class I violation when a physical condition or one or more practices exist in a facility which are a result of multiple lesser violations of the statutes or rules, but which taken as a whole constitute an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility.

481—56.13(135C) Form of citations. Each citation issued by the director of the department of inspections and appeals shall contain the following information:

56.13(1) A description of the nature of the violation;

56.13(2) A statement of the Code section or subsection or the rule or standard violated. (In the case of class I violations as described in 481—56.11(135C), a statement of the specific physical condition or one or more practices may be made in lieu of this statement.);

56.13(3) A statement of the classification of the violation, as specified in 481—56.2(135C);

56.13(4) When appropriate, a statement of the period of time allowed for correction of the violation, which shall in each case be the shortest period of time the department deems feasible; and

56.13(5) A statement that the fine may be reduced by 35 percent pursuant to Iowa Code section 135C.43A and subrule 56.3(6).

[ARC 8433B, IAB 12/30/09, effective 2/3/10]

481—56.14(135C) Licensee's response to a citation. Within 20 business days after service of a citation, the facility shall respond in the following manner, according to the type of citation issued.

56.14(1) If the facility does not desire to seek an informal conference or contest the citation, the facility shall remit to the department of inspections and appeals the amount specified by the department of inspections and appeals in the citation unless:

a. The violation was issued in conjunction with a federal civil money penalty, and the department holds the fine issued pursuant to this chapter in abeyance pursuant to Iowa Code section 249A.57, or

b. The class II violation for which the penalty was imposed has been waived pursuant to subrule 56.3(2).

56.14(2) For each class II or class III violation, the facility shall send a written response to the department of inspections and appeals, acknowledging that the citation has been received and stating that the violation will be corrected within the specified period of time allowed by the citation.

56.14(3) If the facility desires to contest a citation for a class I, class II or class III violation, the facility shall notify the department of inspections and appeals in writing that the facility desires to contest such citation and shall do one of the following:

a. Request an informal conference with an independent reviewer pursuant to rule 481—56.15(135C); or

b. Request a contested case hearing in the manner provided by Iowa Code chapter 17A for contested cases.

[ARC 8433B, IAB 12/30/09, effective 2/3/10; ARC 1047C, IAB 10/2/13, effective 1/1/14; ARC 2158C, IAB 9/30/15, effective 11/4/15]

481—56.15(135C) Informal conference. An informal conference will be held concurrently with any informal dispute resolution held pursuant to 42 CFR Section 488.331 for those health care facilities certified under Medicare or the medical assistance program.

56.15(1) Definition. For purposes of these rules, “independent reviewer” means an attorney licensed in the state of Iowa who is not currently employed by the department, has not been employed by the department in the past eight years, and has not appeared in front of the department on behalf of a health care facility in the past eight years. Preference shall be given to an attorney with background knowledge, experience or training in long-term care.

56.15(2) Request for informal conference. The request for an informal conference must be in writing, addressed to the compliance officer and include the following:

- a. Identification of the citation(s) being disputed;
- b. The type of informal conference requested: face-to-face or telephone conference; and
- c. A request for surveyor worksheets for the citation(s) being disputed, if desired.

56.15(3) Submission of documentation. Within the same ten-day period required for submission of a plan of correction pursuant to 481—subrule 50.10(7), the facility shall submit the following:

- a. The names of those who will be attending the informal conference, including legal counsel; and
- b. Documentation supporting the facility’s position. The facility must highlight or use some other means to identify written information pertinent to the disputed deficiency(ies). Supporting documentation that is not submitted within the required time frame will not be considered, except as otherwise permitted by the independent reviewer upon good cause shown. “Good cause” means substantial or adequate grounds for failing to submit documentation in a timely manner. In determining whether the facility has shown good cause, the independent reviewer shall consider what circumstances kept the facility from submitting the supporting documentation within the required time frame.

56.15(4) Face-to-face or telephone conference. A face-to-face or telephone conference, if requested, will be scheduled to occur within ten business days of the receipt by the department of the written request, all supporting documentation, and the plan of correction required by 481—subrule 50.10(7).

- a. Failure to submit supporting documentation will not delay scheduling.
- b. The conference will be scheduled for one hour to allow the facility to informally present information and explanation concerning the contested deficiencies. Due to the confidential nature of the conference, attendance may be limited.
- c. If additional information is requested during the informal conference, the facility will have two business days to deliver the additional materials to the department.
- d. When extenuating circumstances preclude a face-to-face conference, a telephone conference will be held or the facility may be given one opportunity to reschedule the face-to-face conference.

56.15(5) Results. The results of the informal conference will generally be sent to the facility within ten business days after the date of the informal conference or, if additional information is requested, within ten business days after the department’s receipt of the additional information.

a. The independent reviewer may affirm or may modify or dismiss the citation. The independent reviewer shall state in writing the specific reasons for the affirmation, modification or dismissal of the citation.

b. The department will issue an amended (changes in factual content) or corrected (correction of typographical/data errors) citation if changes result from the informal conference.

c. The facility must submit to the department a new plan of correction for the amended or corrected citation within ten calendar days from the date of the letter conveying the results of the informal conference.

481—56.16(135C) Procedure for facility after informal conference. After the conclusion of an informal conference requested by the licensee and provided pursuant to 56.14(3):

56.16(1) If the facility does not desire to further contest an affirmed or modified citation for a class I, class II or class III violation, the facility shall, within five business days after the informal conference,

or within five business days after receipt of the written decision and explanation of the independent reviewer, whichever occurs later, comply with the provisions of subrule 56.14(1).

56.16(2) If the facility does desire to further contest an affirmed or modified citation for a class I, class II or class III violation, the facility shall, within five business days after receipt of the written explanation of the independent reviewer, notify the department of inspections and appeals in writing of the facility's intent to formally contest the citation.

[ARC 8433B, IAB 12/30/09, effective 2/3/10; ARC 1047C, IAB 10/2/13, effective 1/1/14; ARC 2158C, IAB 9/30/15, effective 11/4/15]

481—56.17(135C) Formal contest. The procedures for contested cases, as set out in Iowa Code chapter 17A, and the rules adopted by the department of inspections and appeals shall be followed in all cases where proper notice has been made to the department of inspections and appeals of the intent to formally contest any citation.

These rules are intended to implement Iowa Code chapters 10A and 135C.

- (5) Adjustment to care facility residency by the CCDI unit or facility residents and their families; (II, III)
- (6) Inappropriate and problem behavior of CCDI unit or facility residents and how to deal with it; (II, III)
- (7) Activities of daily living for CCDI residents; (II, III)
- (8) Handling combative behavior; (II, III) and

(9) Stress reduction for staff and residents. (II, III)

b. Licensed nurses, certified aides, certified medication aides, social services personnel, housekeeping and activity personnel shall have a minimum of six hours of in-service training annually. This training shall be related to the needs of CCDI residents. The six-hour training shall count toward the required annual in-service training. (II, III)

58.54(7) There shall be at least one nursing staff person on a CCDI unit at all times. (I, II, III)

58.54(8) The CCDI unit or facility license may be revoked, suspended or denied pursuant to Iowa Code chapter 135C and Iowa Administrative Code 481—Chapter 50.

This rule is intended to implement 1990 Iowa Acts, chapter 1016.

481—58.55(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the physical structure of the facility, if the other business or activity meets the requirements of applicable state and federal laws, administrative rules, and federal regulations.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs “*a*” through “*f*” of subrule 58.55(1). (I, II, III)

58.55(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

- a.* Health and safety risks for residents;
- b.* Noise created by the proposed business or activity;
- c.* Odors created by the proposed business or activity;
- d.* Use of the facility’s corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- e.* Proposed staffing for the business or activity; and
- f.* Sharing of services and staff between the proposed business or activity and the facility.

58.55(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

58.55(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules and 481—Chapter 61. (I, II, III)

481—58.56(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A nursing facility which chooses to provide respite care services must meet the following requirements related to respite services and must be licensed as a nursing facility.

58.56(1) A nursing facility certified as a Medicaid nursing facility or Medicare skilled nursing facility must meet all Medicaid and Medicare requirements including CFR 483.12, admission, transfer and discharge rights.

58.56(2) A nursing facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

58.56(3) Rule 481—58.40(135C) regarding involuntary discharge or transfer rights, does not apply to residents who are being cared for under a respite care contract.

58.56(4) Pursuant to rule 481—58.13(135C), the facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements under 481—58.13(135C), except the requirements under subrule 58.13(7).

58.56(5) Respite care services shall not be provided by a health care facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

481—58.57(135C) Training of inspectors.

58.57(1) Subject to the availability of funding, all nursing facility inspectors shall receive 12 hours of annual continuing education in gerontology, wound care, dementia, falls, or a combination of these subjects.

58.57(2) An inspector shall not be personally liable for financing the training required under subrule 58.57(1).

58.57(3) The department shall consult with the collective bargaining representative of the inspector in regard to the training required under this rule.

OBJECTION

At its February 13 meeting the Administrative Rules Review Committee voted the following objection: [Subrules 57.23(2) "b," 58.26(2) "b," 59.31(2) "b," 63.21(3) "b," published IAB 12/13/78]

The committee objects to the amendments to 470* IAC 57.23(2) "b," 58.26(2) "b," 59.31(2) "b" and 63.21(3) "b," which strike the phrase "Twenty-five percent of the staffing may be provided by qualified volunteers. The time shall be spent in working with the organized program activity.", on the grounds these provisions are unreasonable. It is the understanding of the committee these deletions in effect require facilities to employ a person to coordinate recreation activities. It is the feeling of the committee this would result in higher per bed costs without demonstrably improving the services rendered to the patient. Volunteers have always played a major role in health care institutions, and no evidence has been submitted indicating a decline in that role or in public interest in donating time and energy.

These amendments appear in the 12-13-78 IAB, and have been filed under the emergency provisions of chapter 17A, 1979 Code.

CHAPTER 59
TUBERCULOSIS (TB) SCREENING

481—59.1(135B,135C) Purpose. The intent of this chapter is to outline requirements and procedures to conduct tuberculosis screening for health care workers in health care facilities and hospitals and for residents of health care facilities regulated by the department.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.2(135B,135C) Definitions. For purposes of this chapter, the following definitions apply:

“Bacille Calmette-Guérin vaccination” or *“BCG vaccination”* means a vaccine for TB. BCG vaccination is used in many countries with a high prevalence of TB to prevent childhood tuberculosis meningitis and miliary disease. BCG vaccination is not generally recommended for use in the United States because of the low risk of infection with *Mycobacterium tuberculosis*, the variable effectiveness of the vaccine against adult pulmonary TB, and the vaccine’s potential interference with tuberculin skin test reactivity.

“Baseline TB screening” means the screening of health care workers (HCWs) of health care facilities or hospitals at the beginning of employment in a facility or hospital and of residents of health care facilities upon admission to a facility for latent tuberculosis infection (LTBI) and TB disease. Baseline TB screening includes a symptom screen for all HCWs and residents, and two-step tuberculin skin test (two-step TST) or single interferon-gamma release assay (IGRA) for *M. tuberculosis* for those persons with previous negative test results for *M. tuberculosis* infection.

“Baseline TST” or *“baseline IGRA”* means the two-step TST or IGRA, respectively, which is administered at the beginning of employment to newly hired HCWs or upon admission of residents to health care facilities.

“Boosting” means a phenomenon in which a person has a negative TST (i.e., false-negative) result years after infection with *M. tuberculosis* and then a positive subsequent TST result. The positive TST result is caused by a boosted immune response of previous sensitivity rather than by a new infection (false-positive TST conversion). Two-step testing reduces the likelihood of mistaking a boosted reaction for a new infection.

“Department” means the department of inspections and appeals.

“Employment” or *“employed”* means to be hired or retained for paid or unpaid work in a facility or hospital.

“Extrapulmonary TB” means TB disease in any part of the body other than the lungs (e.g., kidney, spine, or lymph nodes).

“Health care facility” or *“facility”* means a health care facility as defined in Iowa Code section 135C.1 or a long-term care service of a hospital as defined in rule 481—51.38(135B).

“Health care worker” or *“HCW”* means any paid or unpaid person (including health care students) working in a health care facility or hospital, including any person who is paid either by the health care facility or hospital or paid by any other entity (i.e., temporary agency, private duty, Medicaid/Medicare or independent contractors), or any volunteer who volunteers in a health care facility or hospital on a consistent and regularly scheduled basis for five or more hours per week. Specifically excluded from the definition of “health care worker” are individuals such as visitors, building contractors, repair workers or others who are in the facility or hospital for a very limited purpose and are not in the facility or hospital on a regular basis.

“Hospital” means a hospital as defined in Iowa Code section 135B.1.

“Interferon-gamma release assay” or *“IGRA”* means a whole-blood test that can aid in diagnosing *M. tuberculosis* infection.

“Laryngeal TB” means a form of TB disease that involves the larynx and may be highly infectious.

“Latent TB infection” or *“LTBI”* means infection with *M. tuberculosis* without symptoms or signs of disease having manifested.

“Mantoux method” means a skin test performed by intradermally injecting 0.1 mL of purified protein derivative (PPD) tuberculin solution into the volar or dorsal surface of the forearm.

“*Patient*” means a person admitted to a hospital.

“*Pulmonary TB*” means TB disease that occurs in the lung parenchyma, usually producing a cough that lasts greater than three weeks. Pulmonary TB is usually infectious.

“*Purified protein derivative tuberculin*” or “*PPD tuberculin*” means a material used in diagnostic tests for detecting infection with *M. tuberculosis*.

“*Resident*” means a person admitted to a health care facility or a long-term care service of a hospital as defined in rule 481—51.38(135B). For purposes of this chapter, “resident” does not include a patient admitted to a hospital.

“*Risk classification*” means the category that the infection control team, or designated other staff, determines is appropriate for the facility or hospital as a result of the TB risk assessment.

“*Serial TB screening*” means TB screening performed at regular intervals following baseline TB screening. Serial TB screening, also called annual or ongoing TB testing, consists of two components: (1) assessing for current symptoms of active TB disease, and (2) testing for the presence of infection with *M. tuberculosis* by administering either a TST or single IGRA.

“*Symptom screen*” means a procedure used during a clinical evaluation in which persons are asked if they have experienced any departure from normal in function, appearance, or sensation related to TB disease (e.g., cough).

“*TB patient*” means a person who had undiagnosed infectious pulmonary or laryngeal TB while in a health care facility or hospital during the preceding year. “TB patient” does not include persons with LTBI (treated or untreated), extrapulmonary TB disease, pulmonary TB, or laryngeal TB who have met criteria for noninfectiousness.

“*TB risk assessment*” means an initial and ongoing annual evaluation of the risk for transmission of *M. tuberculosis* in a particular health care setting.

“*TB screening*” means an administrative control measure in which evaluation for LTBI and TB disease is performed through baseline and serial screening of HCWs in hospitals and health care facilities and residents of health care facilities.

“*Transfer*” means an HCW changes employment from one health care facility or hospital to another health care facility or hospital where the time frame between employment does not exceed 90 days.

“*Treatment for LTBI*” means treatment that prevents the progression of *M. tuberculosis* infection into TB disease.

“*Tuberculin skin test*” or “*TST*” means a diagnostic aid for finding *M. tuberculosis* infection. The Mantoux method is the recommended method to be used for TST.

“*Tuberculosis*” or “*TB*” means the namesake member organism of *M. tuberculosis* complex and the most common causative infectious agent of TB disease in humans. In certain instances, the species name refers to the entire *M. tuberculosis* complex, which includes *M. bovis*, *M. african*, *M. microti*, *M. canetti*, *M. caprae*, and *M. pinnipedii*.

“*Tuberculosis disease*” or “*TB disease*” means a condition caused by infection with a member of the *M. tuberculosis* complex that has progressed to causing clinical (manifesting signs or symptoms) or subclinical (early stage of disease in which signs or symptoms are not present, but other indications of disease activity are present) illness.

“*Two-step tuberculin skin test*” or “*two-step TST*” means the procedure used for the baseline skin testing of persons who may receive serial TSTs.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.3(135B,135C) TB risk assessment.

59.3(1) Annually, a health care facility or hospital shall conduct a TB risk assessment to evaluate the risk for transmission of *M. tuberculosis*, regardless of whether a person with suspected or confirmed TB disease is expected to be encountered in the facility or hospital. The TB risk assessment shall be utilized to determine the types of administrative, environmental, and respiratory protection controls needed and serves as an ongoing evaluation tool of the quality of TB infection control and for the identification of needed improvements in infection control measures.

59.3(2) The TB risk assessment shall include the number of persons with infectious TB encountered in the facility or hospital that resulted in the facility's or hospital's conducting a contact investigation of exposed HCWs or patients during the previous 12 months.

59.3(3) TB cases include persons who had undiagnosed infectious pulmonary or laryngeal TB while in the facility or hospital during the preceding year. This does not include persons with LTBI (treated or untreated), persons with extrapulmonary TB disease, or persons with pulmonary and laryngeal TB who have met criteria for noninfectiousness.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.4(135B,135C) Health care facility or hospital risk classification. The infection control team or designated staff in a health care facility or hospital is responsible for determining the type of risk classification. The facility's or hospital's risk classification is used to determine frequency of serial TB screening. The facility or hospital risk classification may change due to an increase or decrease in the number of TB cases during the preceding year. The following criteria are consistent with those of the Centers for Disease Control and Prevention (CDC), TB Elimination Division, as outlined in the MMWR December 30, 2005/Vol.54/No.RR-17, "Guidelines for Preventing the Transmission of *Mycobacterium tuberculosis* in Health-Care Settings, 2005."

59.4(1) Types of risk classifications.

a. "Low risk" means that a facility or hospital is one in which persons with active TB disease are not expected to be encountered and in which exposure to TB is unlikely.

b. "Medium risk" means that a facility or hospital is one in which health care workers will or might be exposed to persons with active TB disease or to clinical specimens that might contain *M. tuberculosis*.

c. "Potential ongoing transmission" means that a facility or hospital is one in which there is evidence of person-to-person transmission of *M. tuberculosis*. This classification is a temporary classification. If it is determined that this classification applies to a facility or hospital, the facility or hospital shall consult with the department of public health's TB control program.

59.4(2) Classification criteria—low risk.

a. Inpatient settings with 200 beds or more. If a facility or hospital has fewer than six TB patients for the preceding year, the facility or hospital shall be classified as low risk.

b. Inpatient settings with fewer than 200 beds. If a facility or hospital has fewer than three TB patients for the preceding year, the facility or hospital shall be classified as low risk.

59.4(3) Classification criteria—medium risk.

a. Inpatient settings with 200 beds or more. If a facility or hospital has six or more TB patients for the preceding year, the facility or hospital shall be classified as medium risk.

b. Inpatient settings with fewer than 200 beds. If a facility or hospital has three or more TB patients for the preceding year, the facility or hospital shall be classified as medium risk.

59.4(4) Classification criteria—potential ongoing transmission. If evidence of ongoing *M. tuberculosis* transmission exists at a facility or hospital, the facility or hospital shall be classified as potential ongoing transmission, regardless of the facility's or hospital's previous classification.

[ARC 3930C, IAB 8/1/18, effective 9/5/18]

481—59.5(135B,135C) Baseline TB screening procedures for health care facilities and hospitals.

59.5(1) All HCWs shall receive baseline TB screening upon employment. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) testing using the two-step TST procedure or a single IGRA to screen for infection with *M. tuberculosis*. If the first-step TST result is negative, the second stage of the two-step TST is recommended one to three weeks after the first TST result was read. Administration of the second stage of the two-step TST shall not exceed 12 months after the first TST result was read. If initiation of the second stage of the two-step TST is greater than 12 months from when the first TST result was read, the two-step procedure must be restarted. If the first-step TST result is positive, it is not necessary to perform the second stage of the two-step TST.

59.5(2) An HCW may begin working with patients or residents after a negative TB symptom screen (i.e., no symptoms of active TB disease) and a negative TST (i.e., first step) or negative IGRA. The second TST may be performed after the HCW starts working with patients or residents.

59.5(3) An HCW with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless signs or symptoms of TB disease develop or unless a repeat radiograph is recommended by a clinician. Treatment for LTBI should be considered in accordance with CDC guidelines.

59.5(4) An HCW with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, does not need another chest radiograph at the time of hire.

59.5(5) TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for HCWs with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. A TB symptom screen and documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result. All other HCWs should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

59.5(6) Previous BCG vaccination is not a contraindication to having an IGRA, a TST or a two-step skin testing administered. HCWs with previous BCG vaccination should receive baseline and serial testing in the same manner as those without BCG vaccination. Evaluation of TST reactions in persons BCG-vaccinated should be interpreted using the same criteria for those not BCG-vaccinated. An HCW's history of BCG vaccination should be disregarded when administering and interpreting TST results. Prior BCG vaccination does not cause a false-positive IGRA test result.

481—59.6(135B,135C) Serial TB screening procedures for health care facilities and hospitals.

59.6(1) *Health care facilities or hospitals classified as low risk.* After establishing baseline TB screening of HCWs, serial TB screening of HCWs is not necessary for health care facilities or hospitals classified as low risk.

59.6(2) *Health care facilities or hospitals classified as medium risk.*

a. After establishing baseline TB screening, HCWs in health care facilities or hospitals classified as medium risk shall receive serial TB screening annually. However, an HCW with a previous positive TB test result shall only receive annual TB symptom screening in accordance with 59.5(5).

b. An HCW with a baseline positive or new positive test result for *M. tuberculosis* infection or documentation of previous treatment for LTBI or TB disease shall receive one chest radiograph result to exclude TB disease. Instead of participating in serial testing, HCWs should receive a symptom screen annually. This screen should be accomplished by educating HCWs about symptoms of TB disease and instructing HCWs to report any such symptoms immediately to the occupational health unit. Treatment for LTBI should be considered in accordance with CDC guidelines.

59.6(3) *Health care facilities or hospitals classified as potential ongoing transmission.* HCWs in facilities or hospitals classified as potential ongoing transmission shall receive serial TB screening every eight to ten weeks until lapses in infection control have been corrected and no additional evidence of ongoing transmission is apparent. However, an HCW with a previous positive TB test result shall only receive TB symptom screening in accordance with 59.5(5). The potential ongoing transmission classification should be used only as a temporary classification. This classification warrants immediate investigation and corrective steps. After a determination that ongoing transmission has ceased, the setting shall be reclassified as medium risk for a minimum of one year.

481—59.7(135B,135C) Screening of HCWs who transfer to other health care facilities or hospitals.

59.7(1) *HCWs transferring from a low-risk health care facility or hospital to another low-risk health care facility or hospital.* HCWs with documentation of baseline TB screening who are transferring from a low-risk health care facility or hospital to another low-risk health care facility or hospital do not need

to repeat baseline TB screening if the time frame between employment from one facility or hospital to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test result and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(2) *HCWs transferring from a low-risk health care facility or hospital to a medium-risk health care facility or hospital.* HCWs with documentation of baseline TB screening who are transferring from a low-risk health care facility or hospital to a medium-risk health care facility or hospital do not need to repeat baseline TB screening if the time frame between employment from one facility or hospital to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test result and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(3) *HCWs transferring from a low- or medium-risk health care facility or hospital to a health care facility or hospital classified as potential ongoing transmission.* HCWs with documentation of baseline TB screening who are transferring to a potential ongoing risk health care facility or hospital do not need to repeat baseline TB screening if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test result and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(4) *HCWs transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital.*

a. An HCW who is transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital and whose previous TB test result was negative shall receive a symptom screen and a single TST or IGRA upon employment if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted.

b. An HCW who is transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital and whose previous TB test result was positive shall receive a symptom screen upon employment in accordance with 59.5(5).

59.7(5) *HCWs transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital.*

a. An HCW who is transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital and whose previous TB test result was negative shall receive a symptom screen and a single TST or IGRA upon employment if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted.

b. An HCW who is transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital and whose previous TB test result was positive shall receive a symptom screen upon employment in accordance with 59.5(5).

481—59.8(135B,135C) Baseline TB screening procedures for residents of health care facilities.

59.8(1) Baseline TB screening is a formal procedure to evaluate residents for LTBI and TB disease. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease, and (2) using the two-step TST procedure or a single IGRA to screen for infection with *M. tuberculosis*. If the first-step TST result is negative, the second stage of the two-step TST is recommended one to three weeks after the first TST result was read. Administration of the second stage of the two-step TST shall not exceed 12 months after the first TST result was read. If the second stage of the two-step TST is greater than 12 months from when the first TST result was read, the two-step

procedure must be restarted. If the first-step TST result is positive, it is not necessary to perform the second stage of the two-step TST.

59.8(2) All residents shall be assessed for current symptoms of active TB disease upon admission. Within 72 hours of a resident's admission, baseline TB screening for infection shall be initiated unless baseline TB screening occurred within 90 days prior to the resident's admission.

59.8(3) A resident with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless signs or symptoms of TB disease develop or unless a repeat radiograph is recommended by a clinician.

59.8(4) Residents with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, do not need another chest radiograph at the time of admission.

59.8(5) TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for residents with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., IFN-g). All other residents should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

CHAPTER 60
MINIMUM PHYSICAL STANDARDS
FOR RESIDENTIAL CARE FACILITIES
[Prior to 7/15/87, Health Department[470] Ch 60]

481—60.1(135C) Definitions. Definitions in 481—57.1(135C) and 481—63.1(135C) of the rules of this department are hereby incorporated by reference as part of this chapter.

481—60.2(135C) Variances. Procedures for variances in 481—57.2(135C) or 481—63.2(135C) of the rules of this department are hereby incorporated by reference as part of this chapter. Certain occupancies, conditions in the area, or the site may make compliance with the rules impractical or impossible. Certain conditions may justify minor modification of the rules. In specific cases, variances to the rules may be permitted by the reviewing authority.

481—60.3(135C) General requirements.

60.3(1) Residential care facilities shall contain the elements described herein and shall be built in accordance with construction requirements outlined. (III)

60.3(2) This chapter covers both new and existing construction. In various sections of the rules specific provisions for existing structures, differing from those for new construction, are provided by a notation at the end of the rule as follows:

a. Exception 1: Rule does not pertain to facilities licensed for less than 16 beds; or units housing fewer than 16 beds which are in distinctly separate buildings, located on a contiguous parcel of land, separated only by a public or private street. (Refer to Iowa Code chapter 414, municipal zoning, section 22, zoning for family homes, for additional information.)

b. Exception 2: Rule does not pertain to facilities licensed before May 1, 1972.

c. Exception 3: Rule does not pertain to facilities with construction plans approved by the department before May 1, 1977.

d. Exception 4: Rule does not pertain to facilities licensed before March 30, 1988.

e. Exception 5: Rule does not pertain to facilities licensed as residential care facilities for eight or fewer beds.

f. Exception 6: Rule does not pertain to facilities built according to plans approved by the department prior to May 6, 1992.

60.3(3) The rules and regulations apply to all residential care facilities and the renovations, additions, functional alterations, or change of space utilization to existing residential care facilities construction after the effective date of these rules. Conversion of a building or any of the parts not currently licensed as a residential care facility must meet the rules governing construction of new residential care facilities. (III)

60.3(4) Building site is subject to departmental approval as based upon the following criteria:

a. Submit a vicinity map indicating the site location and address on an 8½- by 11-inch sheet. If possible, include a city map. (III)

b. Neighborhood environment shall be free from excessive noise, dirt, polluted or odorous air. (III)

c. There shall be an area available for outdoor activities calculated at 40 square feet per licensed bed. (III) (Exception 4) Open air porches may be included in meeting requirements.

d. Each facility shall have on-site parking space to satisfy the needs of residents, employees, staff, and visitors. (III)

The following shall be provided:

(1) In facilities of 16 beds or greater, provide one space for each five beds, plus one space for each shift staff member and employee. (Exception 4)

(2) In facilities of 15 beds or fewer, provide one space for each three beds, plus one space for each shift staff member and employee. (Exception 4)

(3) Handicapped parking as appropriate, or a minimum of one space. (Exception 4)

e. Accessibility shall be provided for emergency and delivery vehicles. (III)

60.3(5) When construction is contemplated, whether for a new building, an addition to an existing building, functional alteration to an existing building, or conversion of an existing building, the licensee or applicant for license shall:

a. File a detailed and comprehensive program of care as set forth in rules 481—57.3(135C) or 481—63.3(135C), for departmental review and approval, including a description of the specific needs of the residents to be served and any other information the department may require. (III)

b. Submit a preliminary site plan and floor plan for departmental review. The design must meet the requirements of all applicable state statutes, state fire codes, federal standards, and local ordinances. The most stringent rules of the above regulations apply in resolving conflicts. (III)

c. Submit legible working drawings and specifications showing all elements of construction, fixed equipment, and mechanical and electrical systems to the department and to the state fire marshal for review. Such construction documents shall be prepared by or under the direct supervision of a registered architect or engineer, working within the appropriate field of registration, licensed to practice in Iowa. All construction documents shall be certified by and bear the seal of the architect or engineer responsible for the project. Each project shall be evaluated for its impact on the facility. Projects not affecting primary structural elements may, at the discretion of the department, be excluded from this rule. (III)

d. Receive written approval from the department and the state fire marshal's office before start of construction. If on-site construction above the foundation is not started within 12 months of the date of final approval of the working drawings and specifications, this approval shall be void and the plans and specifications shall be resubmitted for reconsideration of approval. (III)

e. All changes to the approved plans and specifications shall be approved in writing by the department and the state fire marshal's office prior to making the change. Applicant is responsible for ensuring that construction proceeds as per approved plans and specifications. (III)

f. For new construction, an addition, functional alteration or conversion of an existing building, it shall be the responsibility of the owner or agent to notify the department at all of the following intervals and wait for inspection by the department before proceeding:

- (1) At least 30 days before commencement of construction on the premises; (III)
- (2) At least 30 days before the pouring of the concrete floor slab; (III)
- (3) After completion of the mechanical or electrical rough-in and 30 days before enclosing walls; (III)
- (4) Thirty days before the completion of the project. (III)

g. Certain occupancies, conditions in the area, or the site may make compliance with the rules impractical or impossible. Certain conditions may justify minor modifications of the rules. In specific cases, variations to the rules may be permitted by the reviewing authority after the following conditions are considered:

- (1) The design and planning for the specific property offer improved or compensating features providing equivalent desirability and utility;
- (2) Alternate or special construction methods, techniques, and mechanical equipment, if proposed, offer equivalent durability, utility, safety, structural strength and rigidity, sanitation, odor control, protection from corrosion, decay and insect attack, and quality of workmanship;
- (3) Variations permitted by the department do not individually or in combination with other variations endanger the health, safety, or welfare of any resident;
- (4) Variations are limited to the specific project under consideration and are not construed as establishing a precedent for similar acceptance in other cases;
- (5) Occupancy and function of the building shall be considered;
- (6) Type of licensing shall be considered.

60.3(6) Except as provided in subrule 60.3(8), the facility shall be made accessible to and usable by the physically handicapped in accordance with the requirements of division 7 of the state building code, 661—16.704(103A) and 661—16.705(103A). (III) (Exception 3)

60.3(7) Facilities licensed as residential care facilities for eight or fewer beds shall be accessible to and functional for the physically handicapped. An appropriate number (at least one) of the bathrooms and bedrooms shall be accessible to and usable by the physically handicapped. (III)

60.3(8) No room in a basement shall be occupied for living purposes unless the room meets all the requirements of the department and receives approval of the department as fit for human habitation. (III)

60.3(9) Foundation drainage.

a. A foundation drainage system shall be installed around any portion of a building containing a basement. (III) (Exception 4)

b. The foundation drainage system should be installed at a slope so the water will run to a low point and then run into a sump pit in the basement, to a storm sewer system, or out to surface drainage. (III) (Exception 4)

c. The foundation drainage system shall not be connected to the sanitary sewer system. (III) (Exception 4)

d. The highpoint of the flow line shall be 4 inches below the elevation of the basement floor slab. (III) (Exception 4)

60.3(10) Projects involving alterations of and additions to existing buildings shall be programmed and phased so that on-site construction will minimize disruptions of existing functions. Access, exitways, and fire protection shall be maintained so the safety of the occupants will not be jeopardized during construction. (III)

60.3(11) Record drawings. Upon completion of the contract, the department shall be provided a complete set of approved legible plans and specifications showing all construction, fixed equipment, mechanical, and electrical systems and addendums as installed or built. (III)

60.3(12) The installation of any equipment found to be hazardous, or which fails to meet the purposes for which it is intended, shall be removed or replaced, or a substitute of suitable equipment shall be required. (III) (Exception 4)

481—60.4(135C) Typical construction. This rule contains construction requirements that are typical in all areas of the building.

60.4(1) Details and finishes shall be designed to provide a high degree of safety for the occupants by minimizing the opportunity for accidents. Hazards such as sharp corners shall be avoided. (III)

60.4(2) Minimum exit corridor widths.

a. Minimum exit corridor widths shall be 6 feet, except that corridors in adjunct areas not intended for the housing or use of residents may be a minimum of 4 feet in width. (III) Handrails may project into corridors. (Exceptions 1 and 3)

b. In facilities of 15 beds or less, the minimum exit corridor widths shall be 5 feet. (III) (Exception 4)

60.4(3) Drinking fountains, telephone booths, and vending machines shall be located so they do not project into the required width of any corridor. (III)

60.4(4) Minimum width of all side-hinged doors to all rooms shall be 3 feet. (III) (Exceptions 3, 4, and 5) Doors to resident toilet rooms and other rooms needing access for wheelchairs shall have a minimum clear opening width of 32 inches. (III)

60.4(5) Approved handrails shall be provided on both sides of corridors used by residents with a clear distance of 1½ inches between handrail and wall. (III) (Exception 4) This rule does not apply to residential care facilities for the mentally retarded licensed for eight or fewer beds.

a. Handrails shall be mounted with their top surfaces 31 to 34 inches above the finished floor. (III) (Exception 3)

b. Handrails shall have the ends rounded and returned to the wall. (III) (Exceptions 2 and 4)

60.4(15) Fire escape porch railings and protected barrier enclosures shall be designed to resist a horizontal thrust of 50 pounds per running foot of railing applied to the top of the railing. (III)

60.4(16) Exposed heating pipes, hot water pipes, or radiators in rooms and areas used by residents and within reach of residents shall be covered or protected to prevent injury or burns to residents. (II, III)

60.4(17) All fans located within 7 feet of the floor shall be protected by screen guards of not more than ¼-inch mesh. On fans with U.L. approved safety guards netting shall not be required. (III)

60.4(19) Partition, floor, and ceiling construction in resident areas shall comply with noise reduction criteria in the following table. The requirements set forth in this table assume installation methods which will not appreciably reduce the efficiency of the assembly as tested. Location of electrical receptacles, grills, ductwork, and other mechanical items, and blocking and sealing of partitions at floors and ceilings shall not compromise the sound isolation required. (III)

Table No. 1
(Exception 2)

	Airborne Sound Transmission Class (STC)*	
	<u>Partitions</u>	<u>Floors</u>
Resident's room to resident's room	35	35

[Prior to 7/15/87, Health Department[470] Ch 61]

481—61.1(135C) Definitions. Definitions in rule 481—58.1(135C) are incorporated by reference as part of this chapter. In addition, the following definition shall apply:

“Responsible design professional” means a registered architect or licensed professional engineer who signs the documents submitted pursuant to rule 481—61.3(135C).
[ARC 0763C, IAB 5/29/13, effective 7/3/13]

481—61.2(135C) General requirements. Nursing facilities licensed under this chapter shall be built in accordance with the following construction standards:

61.2(1) Construction shall be in conformance with 661—Chapter 205, Fire Safety Requirements for Hospitals and Health Care Facilities. Projects required to meet the provisions of the state building code shall be deemed to be in compliance with the fire safety requirements of the state building code if the project is in compliance with the provisions of 661—Chapter 205.

61.2(2) Construction shall be in conformance with 661—Chapter 301, State Building Code—General Provisions. Projects meeting the local building code shall be deemed to be in compliance with the state building code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system which includes both plan review and inspection.

61.2(3) Construction shall be in accordance with the standards set forth in the Guidelines for Design and Construction of Residential Health, Care, and Support Facilities, 2018 edition, published by the Facility Guidelines Institute.

61.2(4) Nothing in these rules shall relieve a nursing facility from compliance with fire and building codes, ordinances and regulations which are enforced by city, county, state or federal jurisdictions.

61.2(5) New equipment. Any alteration or installation of new equipment shall be accomplished as nearly as practical in conformance with all applicable codes, ordinances, regulations and standards required for new construction. Alteration or installation of new equipment shall not diminish the level of compliance with any codes, ordinances, regulations or standards below that which existed prior to the alteration. Any feature that does not meet the requirement for new buildings but exceeds the requirement for existing buildings shall not be further diminished. Features that exceed requirements for new construction need not be maintained. In no case shall any feature be less than that required for existing buildings. (III)

61.2(6) Existing nursing facilities built in compliance with prior versions of this chapter will be deemed in compliance, with the exception of any renovations, additions, functional alterations, changes of space utilization, or conversions to existing facilities for which construction documents are submitted pursuant to rule 481—61.3(135C) on or after July 1, 2013, which shall meet the standards specified in this chapter. Conversion of a building or any of the parts not currently licensed as a nursing facility must meet the rules governing construction of new facilities, except as provided in Life Safety Code, 2000 edition, sections 18.1.1.4.4 and 19.1.1.4.4.

61.2(7) Final plan approval and final occupancy shall be given by the state fire marshal’s office.

61.3(1) Submissions of architectural technical documents, engineering documents, and plans and specifications to the state fire marshal’s office shall be as required by rule 661—300.4(103A) and are the responsibility of the owner of the building or facility, although the actual submission may be completed by an authorized agent of the owner or the responsible design professional.

61.3(2) Plans, specifications and other supporting information shall be sufficiently clear and complete to show in detail that the proposed work will comply with the construction standards required by rule 481—61.2(135C).

61.3(3) Submittals to the state fire marshal's office shall be certified or stamped and signed as required by Iowa Code chapters 542B and 544A unless the applicant has certified on the submittal to the applicability of a specific exception under Iowa Code section 544A.18 and the submittal does not constitute the practice of engineering as defined by Iowa Code section 542B.2.

61.3(4) The responsible design professional shall certify that the building plans meet the requirements specified in this chapter, unless a variance has been granted pursuant to rule 481—61.4(135C).

[ARC 0763C, IAB 5/29/13, effective 7/3/13]

61.4(1) Procedures in rule 481—58.2(135C) for requesting a variance are incorporated by reference as part of this chapter.

61.4(2) Certain resident populations, conditions in the area, or the site may justify variances. In specific cases, variances to the rules may be granted by the director after the following conditions are met:

a. The design and planning for the specific property shall offer improved or compensating features which provide equivalent desirability and utility;

b. Alternate or special construction methods, techniques, and mechanical equipment shall offer equivalent durability, utility, safety, structural strength and rigidity, sanitation, odor control, protection from corrosion, decay and insect attack, and quality of workmanship;

c. The health, safety or welfare of any resident shall not be endangered;

b. Receive written approval from the state fire marshal's office before starting construction. The applicant is responsible for ensuring that construction proceeds according to approved plans and specifications. If construction is not started within 12 months of the date of final approval of the working drawings and specifications, the approval shall be void and the plans and specifications shall be resubmitted. Multiphase projects shall be completed within a time period approved by the state fire marshal's office.

c. Meet requirements for new construction if the project includes changes to structural and life safety components of the building or changes for accessibility of persons with disabilities. Only that portion of the building that is part of the project must meet requirements for new construction.

a. For new construction or renovations, additions, functional alterations, change of space utilization or conversion of an existing building, it is the responsibility of the owner or an agent to notify the state fire marshal's office at all of the following intervals and wait for inspection before proceeding. Inspections shall be conducted in accordance with the following schedule:

(3) For medical, nursing or psychosocial reasons, as judged by the primary care provider, nurse or social worker in the case of a facility which groups residents by medical, nursing or psychosocial needs.

(4) To allow a new admission to the facility that would otherwise not be possible due to separation of roommates by sex.

(5) In the case of a resident whose source of payment was previously private, but who now is eligible for Title XIX (Medicaid) assistance, the resident may be transferred from a private room to a semiprivate room or from one semiprivate room to another.

(6) Reasonable and necessary administrative decisions regarding the use and functioning of the building.

b. Unreasonable and unjustified reasons for changing a resident's room without the concurrence of the resident or responsible party include:

(1) Change from private pay status to Title XIX, except as outlined in subparagraph 64.36(12) "a"(5). (II)

(2) As punishment or behavior modification, except as specified in subparagraph 64.36(12) "a"(1). (II)

(3) Discrimination on the basis of race or religion. (II)

c. If intrafacility relocation is necessary for reasons outlined in paragraph 64.36(12) "a," the resident shall be notified at least 48 hours prior to the transfer and the reason therefor shall be explained. The responsible party shall be notified as soon as possible. The notification shall be documented in the resident's record and signed by the resident or responsible party. (II)

d. If emergency relocation is required in order to protect the safety or health of the resident or other residents, the notification requirements may be waived. The conditions of the emergency shall be

documented. The family or responsible party shall be notified immediately or as soon as possible of the condition that necessitates emergency relocation, and such notification shall be documented. (II)

e. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility and not as an intrafacility transfer. (II, III)

481—64.61(135C) Federal regulations adopted—rights. This rule is intended to implement Iowa Code section 135C.14(8).

481—64.62(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the same physical structure of the facility, if the other business or activity is under the control of and is directly related to and incidental to the operation of the health care facility, or the business or activity is approved by the department and the state fire marshal.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs “a” through “j” of this rule. (I, II, III)

64.62(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

- a.* Health and safety risks for residents;
- b.* Compatibility of the proposed business or activity with the facility program;
- c.* Noise created by the proposed business or activity;
- d.* Odors created by the proposed business or activity;
- e.* Use of entrances and exits for the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- f.* Use of the facility’s corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;
- g.* Proposed staffing for the business or activity;
- h.* Sharing of services and staff between the proposed business or activity and the facility;
- i.* Facility layout and design; and
- j.* Parking area utilized by the business or activity.

64.62(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

64.62(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules. (I, II, III)

481—64.63(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A facility which chooses to provide respite care services must meet the following requirements related to respite care services and must be licensed as a health care facility.

64.63(1) A facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

64.63(2) Rules regarding involuntary discharge or transfer rights do not apply to residents who are being cared for under a respite care contract.

64.63(3) The facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements for contracts between a health care facility and resident, except the requirements concerning the holding and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons.

64.63(4) Respite care services shall not be provided by a facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

These rules are intended to implement Iowa Code sections 10A.202, 10A.402, 135C.2(6), 135C.6(1), 135C.14, 135C.14(8), 135C.25, 135C.25(3), 135C.32, 135C.36, 227.4, 235B.1(6), and 235B.3(11).

§483.410(a)(1) The governing body must exercise general policy, budget, and operating direction over the facility.

Guidance §483.410(a)(1)

The governing body develops, monitors, and revises, as necessary, policies and operating directions which ensure the necessary staffing, training resources, equipment and environment to provide clients with active treatment and to provide for their health and safety.

Direction by the Governing Body includes areas such as health, safety, sanitation, maintenance and repair, and utilization and management of staff.

Condition level operational deficiencies may be associated with a failure by the Governing Body to exercise general direction of the facility.

W111

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(1) that documents the client's health care, active treatment, social information, and protection of the client's rights.

Guidance §483.410(c)(1)

The structure and content of a client's record must be an accurate, functional representation of the actual experience of the client in the facility.

The record should contain an accurate account of all information relevant to the client's health care, active treatment, social information and protection of the client's rights, such as communications, correspondence, program plans (to include both in-house and outside service programs), progress summaries, activity plans and activity participation, incidents, consent forms and all medical information.

If the records are maintained electronically, the facility staff should be able to access various parts of the record without difficulty. If they are unable to access components of the record upon request, then this may indicate a lack of training by the facility.

W112

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(2) The facility must keep confidential all information contained in the clients' records, regardless of the form or storage method of the records.

Guidance §483.410(c)(2)

"Keep confidential" means safeguarding the content of information including video, audio, and/or computer stored information from unauthorized disclosure without the specific informed consent of the client, parent of a minor child, or legal guardian, and consistent with the advocate's right of access. Facility staff and consultants, hired to provide services to the client, sign confidentiality agreements before having access to client records and should have access to only that portion of information that is necessary to provide effective responsive services to the client.

These agreements should be renewed according to the policies of the facility. The agreement may stipulate that the agreements are in place until either the facility or member terminates the agreement. The facility has in place safeguards to ensure that access to all information regarding clients is limited to those clients designated by Health Insurance Portability and Accountability Act (HIPAA) requirements, the Developmental Disabilities Act, State law and facility policy.

The facility should prevent any instances of unauthorized access or dissemination. For example, the staff is observed to leave the client record (hard copy or electronic version) in the living room of the house when visitors or persons not authorized to access client records are present. Client records must be secured when staff is not present.

The facility must develop and follow procedures for maintaining the confidentiality of client information during transport to medical appointments or to other locations outside the facility.

Confidentiality applies to both central records and information kept at dispersed locations. If there is information considered too confidential to place in the record used by all staff (e.g., identification of the family's financial assets, sensitive medical data), it may be retained in a companion record located in a secure location in the facility with a notation made in the primary record as to the location of confidential information. The facility must ensure that any client information provided to day services programs is maintained confidential.

The sharing of client specific information with members of the "specially constituted committee" required by §483.440(f)(3), who are not affiliated with the agency, does not violate a client's right to have information about him or her kept confidential. The committee must have relevant information to function properly.

Facility confidentiality safeguards include the development and implementation of written policies to assure that members of the specially constituted team maintain confidentiality. Such processes may include signed confidentiality agreements. These agreements should be renewed according to the policies of the facility. The agreement may stipulate that the agreements are in place until either the facility or member terminates the agreement.

W113

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(3) The facility must develop and implement policies and procedures governing the release of any client information, including consents necessary from the client, or parents (if the client is a minor) or legal guardian.

Guidance §483.410(c)(3)

The facility develops and follows written policies governing the release of client information.

Release of any personally identifiable information does not occur unless consent(s) is obtained prior to the release.

These policies must address at a minimum who must give consent for the release of information from records. The policy and procedures should account for other situations involving the release of client information, such as:

- who should be notified when records have been released;
- procedures to be followed with subpoenas;
- time frames for providing requested information; and
- information regarding a client's HIV status may not be released without specific consent and may not be in the record if that consent has not been given.

§483.410(c)(4) Any individual who makes an entry in a client's record must make it legibly, date it, and sign it.

Guidance §483.410(c)(4)

Illegible writing in hard copy records can contribute to communication deficits among staff. Illegible writing which cannot be easily interpreted by facility staff upon surveyor request may constitute a safety issue.

Electronic signatures are acceptable in the electronic record system.

W115

§483.410(c)(5) The facility must provide a legend to explain any symbol or abbreviation used in a client's record.

W116

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(6) The facility must provide each identified residential living unit with appropriate aspects of each client's record.

Guidance §483.410(c)(6)

“Appropriate” means those parts of each client's record are most likely (or known) to be needed by the residential staff to carry out the client's active treatment program in the unit; to alert staff to health risks and other aspects of medical treatment; to support the psychosocial needs of the client; to contact family or emergency contacts, and to provide anything else necessary to the staff's ability to work on behalf of the client.

The staff of the residential living unit has, and can access, all information which is relevant to implementing client program plans, appropriate care of, interaction with, and provision of services for the client.

(d) Standard: Services provided under agreements with outside sources**W117**

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(1) If a service required under this subpart is not provided directly, the facility must have a written agreement with an outside program, resource, or service to furnish the necessary service, including emergency and other health care.

Guidance §483.410(d)(1)

If a service is not provided directly, there must be a written agreement for such services.

Written agreements are required for emergency services such as dentists and pharmacies. For those services that require a visit to a hospital, the Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) typically utilizes services from an emergency department of the hospital, thus no written contract is required.

Federal statute (P.L. 94-142) requires all school-aged children to receive a free and appropriate school education. Therefore, a written agreement between ICF/IIDs and public schools is not necessary.

W120

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(3) The facility must assure that outside services meet the needs of each client.

Guidance §483.410(d)(3)

Outside services are any services needed by the clients and not provided directly by the facility (hospital visits, dental visits, day program services, etc.).

Programs and services must be coordinated between the facility and the outside service, and foster consistency of implementation across settings of teaching strategies and behavior management.

The facility monitors outside services on an ongoing basis to ensure that services provided are consistent with the needs of each client as identified in the Individual Program Plan (IPP). For example, if the facility is implementing a behavior management or a communication program for the client, it is shared with the outside program and implemented by the outside program (workshop, day program, etc.) and the outside program agrees to incorporate it into their day program. At periodic intervals, the facility staff visit or communicate with the outside program to verify consistency across the two settings.

With outside resources, it is the responsibility of the facility to assure that the services are provided in a safe clean environment, by appropriately qualified professions, and any untoward outcome of services are promptly addressed. If, in spite of attempts by the facility to assure compliance, the outside program does not implement the program for the client, then the facility remains responsible for the lack of active treatment.

W121

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(4) If living quarters are not provided in a facility owned by the ICF/IID, the ICF/IID remains directly responsible for the standards relating to physical environment that are specified in §483.470(a) through (g), (j) and (k).

Guidance §483.410(d)(4)

Even though the facility's premises may be rented from a landlord, the facility must ensure that the requirements for physical environment are met, either through arrangement with the landlord or through the facility's own services.

(e) Standard: Licensure

§483.420(a) Standard: Protection of Clients' Rights

The facility must ensure the rights of all clients. Therefore, the facility must

Guidelines §483.420(a)

"Ensure" means that the facility actively asserts the individual's rights and does not wait for him or her to claim a right. This obligation exists even when the individual is less than fully competent and requires that the facility is actively engaged in activities which result in the pro-active assertion of the individual's rights, e.g., guardianship, advocacy, training programs, use of specially constituted committee, etc.

§483.420 Condition of participation: Client protections

(a) Standard: Protection of clients' rights

§483.420(a) The facility must ensure the rights of all clients. Therefore the facility must

Guidance §483.420(a)

The facility must ensure the client's rights and does not wait for him or her to claim a right. This obligation exists even when the client is less than fully competent and requires that the facility is actively engaged in activities which result in the protection of the client's rights, advocacy for individual clients who have no family or an inactive family, and training programs for clients and staff on the understanding and protection of client rights.

§483.420(a)(1) Inform each client, parent (if the client is a minor), or legal guardian, of the client's rights and the rules of the facility;

Guidance §483.420(a)(1)

The obligation to inform requires that the facility presents information on rights to the client, his or her family or his or her legal guardian in a manner and form which they can understand. In most instances, family means parent. However, in those instances where parents are deceased or choose not to be active in the client's life and there is another family member who does wish to be active, but is not the legal guardian, this family member should be informed of the client's rights. Printed materials should be provided in understandable terms and provided in the language necessary to ensure understanding. Specialized methods, as indicated, should be provided for communication with clients, families or legal guardians with hearing or vision impairment.

Pro-active assertion of client rights includes, but is not limited to:

- Signed evidence that the client, his or her family and/or his or her legal guardian have been informed of the client's rights, and
- Evidence that the communication of these rights were provided at the client's level of comprehension, and in the language understandable to the client.

The obligation to inform also requires that the facility make some determination of whether the client and his or her family, or legal guardian understood the rights presented and made additional efforts to communicate the rights if the rights were not understood.

If the facility has written "rules of the facility", these rules must be communicated to the client, their family and or legal guardians at the time of admission and must not be in conflict with any of the rights listed in 42 CFR 483.420 (a) (1-13).

§483.420(a)(2) Inform each client, parent (if the client is a minor), or legal guardian, of the client's medical condition, developmental and behavioral status, attendant risks of treatment, and of the right to refuse treatment;

Guidance §483.420(a)(2)

Clients, their families or legal guardians are promptly informed of any change in the client's medical or behavioral needs that requires immediate alteration to programmatic or medical intervention. Promptly is defined by the level of severity of the alteration. In each case, they must also be informed of the attendant risks of any recommended treatments or interventions and of their right to refuse treatment, training or services.

If parents or legal guardians wish for other members of the client's family to be informed of such changes, they must put this permission in writing.

The communication of this information must be provided in the manner and language understood by the client or their family or legal guardian (language boards, sign language, etc.).

The term "attendant risks of treatment" describes the risk vs. risk and risk vs. benefit associated with the treatment. These risks include possible side effects, other complications from treatments including medical and drug therapy, unintended consequences of treatment, other behavioral or psychological ramifications arising from treatment, etc.

The facility actively attempts to engage clients who refuse to participate in active treatment. While the regulation recognizes the client's right to refuse treatment, persistent refusal that impacts the health and safety of the client and/or others, or the ability to provide overall active treatment, may result in facility's consideration of alternative placements for the client. It is expected, however, that the facility has assessed the reason for refusal, and developed and implemented all possible interventions to engage the client in active treatment programs prior to referring the client to another therapeutic setting.

A client, his or her family member, or legal guardian who refuses a particular treatment (e.g., a behavior control, seizure control medication or a particular intervention strategy) must be offered information about acceptable alternatives to the treatment, if acceptable alternatives are available. The client's preference about alternatives should be elicited and considered in deciding on the course of treatment. If the client, family member, or legal guardian also refuses the alternative treatment, or if no alternative exists to the treatment refused, the facility must consider the effect this refusal may have on other clients, the client himself or herself, and if they can continue to provide services to the client consistent with these regulations.

If the facility is unable to provide services to a client due to consistent refusal to participate, they must weigh all options including an involuntary discharge. Involuntary discharge must be for good cause (see 483.440(b)(4)(i)).

When a client is considered for participation in experimental research the client, his/her family and/or legal guardian must be fully informed of the nature of the experiment (e.g., what medications or physical interventions will be utilized, the length of the research, any possible side effects and how the information from the research will be utilized). Information regarding the possible consequences of participating or not participating must be provided to the client, family member or legal guardian. The written consent

of the client, his/her family or legal guardian must be received prior to participation. For a client who is a minor or who has been adjudicated as incompetent, the written informed consent of the parents of the minor or the legal guardian is required. The signed, informed consent documentation must be in compliance with HHS Guidelines for Research Involving Human Subjects. The signed consent must also include a clear discussion of what treatments will be included in the research, the time limits for the research and should clearly inform the client, family member or legal guardian that the client may end participation at any time without fear of recrimination. If the research protocol indicates that clients receive compensation, then clients are compensated per the protocol.

Any research must be reviewed and approved by the Specially Constituted Committee. See W263.

§483.420(a)(3) Allow and encourage individual clients to exercise their rights as clients of the facility, and as citizens of the United States, including the right to file complaints, and the right to due process;

Guidance §483.420(a)(3)

To the extent that a client is able, choices are made on his/her own. Each client has autonomy of decision making and choice.

They are free to move about without limitations imposed due to staff preferences or staff convenience.

Clients are not restricted without due cause or due process.

To the extent that the client is able to make decisions for him or herself, it is inappropriate to delegate the person's right to others (e.g. parents, family members, etc.).

The facility has an obligation to assure client health and safety and must balance that obligation with the rights of clients.

If the facility has implemented a restriction, the following should be in place:

- An assessment supporting the need for the restriction;
- An individualized behavior plan to reduce the need for the restriction has been developed and implemented;
- A written informed consent for the behavior plan which includes the restriction;
- Approval of the Specially Constituted Committee; and
- Monitoring by the Committee of the progress of the training program, designed to reduce and eventually eliminate the restriction.

Clients, families, and legal guardians have the right to register a complaint with the facility and the State Survey Agency. If so, the facility must respond promptly and appropriately. The facility must ensure protection of the client from any form of reprisal or intimidation as a result of a complaint or grievance reported by the client, family, or legal guardian.

Issues involving the exercise of constitutional rights such as voting should be addressed as a component of the IPP when the Interdisciplinary Team (IDT) determines a need for training. Clients who have been adjudged to need guardianship or have been assessed as needing assistance to advocate for themselves should receive assistance or support so they may exercise their rights as citizens of the United States.

§483.420(a)(4) Allow individual clients to manage their financial affairs and teach them to do so to the extent of their capabilities;

Guidance §483.420(a)(4)

The regulation is clear that in those cases where a client already possesses the skills necessary to independently manage their own financial affairs, the facility will allow the client to continue to do so. Formal training in financial management must be provided for all other clients in the facility to the extent of their capabilities. The regulation places the responsibility for determining the extent of the client's capabilities in this matter upon an assessment and interdisciplinary process within the facility.

To reach a determination as to whether a money management program is appropriate, the facility IDT uses the comprehensive functional assessment (CFA) to evaluate the ability of each client to participate in such a program. Under 42 C.F.R. 483.440(c)(3), the team evaluation must establish, through

documentation, that the IDT considers all of the objective data within the assessment in reaching their determination, especially the identification of client skills which can be used across training programs. Examples of assessment findings that may be considered by the IDT include skills that can be cross-utilized in training programs such as:

1. Fine motor coordination;
2. The ability to make choices;
3. The ability to identify preferences; and
4. Cognitive abilities including tracking, attention span, communication, and the client's ability to understand the cause and effect. (The client understands of cause and effect is significant in the determination.)

Money management includes a broad spectrum of programs with varying levels of participation by the client ranging from the use of choice in money expenditures, to an understanding of the concept of money, and ultimately to actual money handling and budgeting. The IDT must not conclude that a money management program is inappropriate based solely upon the level of intellectual or physical disability of the client.

The CFA must be reviewed at least annually per 42 C.F.R.483.440(f)(2). As a part of this annual review, a client's ability to participate in money management will also be reviewed. The annual review should always include an update to the CFA and take into consideration any changes in the client's circumstances since the last IPP. The need for a formal money management program must be addressed in every client's IPP by the IDT on an annual basis.

The determination of the appropriateness of a formal money management program is made by the IDT and must be based upon a CFA. The IDT discussions resulting in that determination must be established through documentation in the client's IPP.

§483.420(a)(5) Ensure that clients are not subjected to physical, verbal, sexual or psychological abuse or punishment;

Guidance §483.420(a)(5)

Identification of patterns or isolated instances of physical, verbal, sexual or psychological abuse or punishment without prompt identification and corrective action by the facility would result in a non-compliance determination for this Standard and Condition level non-compliance.

The facility must develop and implement systems that protect clients from all forms of abuse, neglect, or mistreatment, including client to client abuse, neglect, or mistreatment.

a. The facility is expected to ensure that staff possess and demonstrate needed competencies to effectively and appropriately interact with clients.

b. The facility must monitor to assure that systems are effectively implemented and the facility takes immediate actions to address circumstances where abuse, neglect, or mistreatment have occurred and prevent reoccurrence.

c. The facility must be organized in such a manner as to proactively assure clients are free from any threat to their physical and psychological health and safety.

d. The facility must act to prevent physical, verbal, sexual or psychological abuse. If the facility fails to implement appropriate corrective action, the potential of additional threats to the clients remain at the facility.

“Threat”, for the purposes of this guideline, is considered any condition/situation which could cause or result in severe, temporary or permanent injury or harm to the mental or physical condition of clients, or in their death.

“Abuse”, for the purposes of this guideline, is the willful infliction of injury, unreasonable confinement, intimidation or punishment with the resulting physical harm, pain or personal anguish.

Physical abuse refers to any action intended to cause physical harm or pain, trauma or bodily harm (e.g., hitting, slapping, punching, kicking, pinching, etc.). It includes the use of corporal punishment as well as the use of any restrictive, intrusive procedure to control inappropriate behavior for purposes of punishment.

Verbal abuse refers to any use of insulting, demeaning, disrespectful, oral, written or gestured language directed towards and in the presence of the client. Psychological abuse includes, but is not limited to, humiliation, harassment, and threats of punishment or deprivation, sexual coercion and intimidation (e.g. living in fear in one's own home). Since many clients residing in ICF/IIDs are unable to communicate feelings of fear, humiliation, etc. associated with abusive episodes, the assumption is made that any actions that would usually be viewed as psychologically or verbally abusive by a member of the general public, would also be viewed as abusive by the client residing in the ICF/IID, regardless of that client's perceived ability to comprehend the nature of the incident.

Sexual abuse includes any incident where a client is coerced or manipulated to participate in any form of sexual activity for which the client did not give affirmative permission (or gave affirmative permission without the attendant understanding required to give permission) or sexual assault against a client who is unable to defend him/herself.

The facility must implement, through policies, oversight and training, safeguards to ensure that clients are not subjected to abuse by anyone including, but not limited to, facility staff, consultants or volunteers, staff of other agencies serving the client, family members or legal guardians, friends, other clients, or the general public.

The facility must take whatever action is necessary to protect the clients residing there. For example, if a facility is forced by court order or arbitration rulings to retain or reinstate an employee found to be abusive, the facility must take measures to protect the clients of the facility (such as assigning the employee to an area where there is no contact with clients).

§483.420(a)(6) Ensure that clients are free from unnecessary drugs and physical restraints and are provided active treatment to reduce dependency on drugs and physical restraints;

Guidance §483.420(a)(6)

The facility must implement an aggressive active treatment program, which includes appropriate replacement behaviors, to address the reduction/elimination of physical restraints and drugs to manage behaviors.

For purposes of this Guideline drugs to manage behavior are "unnecessary" if there is evidence the drugs are being used:

- In excessive dose (duplicate therapy);
- For excessive duration;
- Not monitored adequately;
- Without adequate indications for its use;
- With adverse consequences which indicate the dose should be reduced or discontinued; or
- Any combination of the reasons listed above.

The long term use of a drug/physical restraint to manage behavior combined with one or more of the following may indicate unnecessary use:

- The client's developmental and/or behavioral needs are not being met and the appropriateness of less restrictive approaches to manage inappropriate behaviors should be questioned;
- Staff behavior may be prompting behaviors in clients which result in the chronic use of physical restraints and drugs to control behavior;
- Staff may have inadequate training and/or experience to provide active treatment and employ preventive measures;

Restraints applied for behaviors when less restrictive measures have not been tried or have been tried and found to be just as effective.

§483.420(a)(7) Provide each client with the opportunity for personal privacy and

Guidance §483.420(a)(7)

The facility must provide areas within the living area in which the client can have time to be alone, when appropriate, and to have privacy (their conversations cannot be overheard) for personal

interactions/activities. There should be a location where the client can meet privately with family and/or friends and a telephone available where he/she can hold private telephone conversations.

Personal privacy for clients also includes the right to have certain personal information about them kept confidential. Staff should not discuss one client in front of others (clients, parents, legal guardians, visitors, etc.) and should not post personal information about clients in areas where other clients, families and the public can read the information.

Video/audio taping or live feed must not be used in place of or for the convenience of staff. The facility may install video/audio equipment for purposes of observing client/staff interactions. Video/audio equipment may only be installed in common areas (in no case may videotaping or live feed be done in bathrooms or areas where private visits are conducted). The clients, families and/or legal guardians of the clients residing in the areas where videotaping or live feed will occur must give informed consent for the installation and must be assured that no personal privacy will be jeopardized. The use of the equipment must be presented at and approved by the specially constituted committee for the facility prior to the installation of video or audio devices.

Motion sensors should not be considered cameras.

Guidance §483.420(a)(8)

§483.420(a)(8) ensure that clients who do work for the facility are compensated for their efforts at prevailing wages and commensurate with their abilities;

Guidance §483.420(a)(8)

“Work”, as used in the regulation, means any directed activity, or series of related activities which results in a benefit to the economy of the facility or in a contribution to its maintenance, or in the production of a salable product. In deciding whether a particular activity constitutes “work” as defined above, the key determinant is whether the facility would be required to hire additional full or part-time staff (or pay overtime to existing staff) to perform the service the client is asked to perform.

Clients volunteering to do real work that benefits the facility should give informed consent for such practices and understand that by providing employable services they are able to be compensated. This does not preclude a client from helping out a friend or being kind to others. Self-care activities related to the care of one's own person or property are not considered “work” for purposes of compensation.

In general, participation in any household task which promotes greater independent functioning and assists the client to prepare for less restrictive setting (and which the client has not yet learned) is permitted as long as tasks are included in the IPP in written behavioral and measurable terms. This participation must be supervised, and indices of performance should be available. No task may be performed for the convenience of staff (e.g., supervising clients, running personal errands).

“Compensated” means the client is provided with money or other forms of negotiable compensation for work (including work performed in an occupational training program) and such compensation is to be used at the client’s discretion.

Prevailing wage refers to the wage paid to non-disabled workers in nearby industry or the surrounding community for essentially the same type, quality and quantity of work or work requiring comparable skills. A client who works in the facility must be paid at least the prevailing minimum wage, unless an appropriate certificate has been obtained by the facility in accordance with current regulations and guidelines issued under the Fair Labor Standards Act, as amended.

Any client performing “work”, as defined above, must be compensated in direct proportion to his or her output. The facility should utilize Department of Labor and/or Department of Vocational Rehabilitation formulas and techniques for determining rate of pay. A client’s pay is not dependent on the production of other clients when he or she works in a group.

When the client’s active treatment program includes assignment to occupational or vocational training or work, specific work objectives of anticipated progress should be included in the IPP along with reasons for the assignments. If the training of clients on particular occupational activities or functions involves “real work” to be accomplished for the facility, the clients must be compensated based on ability. For example, if in the process of work training activities which involve learning to clean a floor, the floor for a particular building is cleaned and does not require further janitorial cleanup, then the client must be compensated for this activity at the prevailing wage.

The facility must provide opportunities for the client to communicate, through regular mail, telephone and/or electronic mail and meet in private with persons of their choice (e.g., friends from the community, family members, and advocates). There may be instances where legal guardians override the wishes of the client. In these instances, the facility should be actively working with the legal guardian and the client to reach the maximum agreeable level of interaction for the client.

Space must be provided for clients to receive visitors in reasonable comfort and privacy.

Clients who have their own electronic equipment must be provided the opportunity to send, receive, and read electronic mail with privacy.

Guidance §483.420(a)(10)

Any restriction of telephone access must be explained in the IPP with a plan to advance the client’s access. For persons with hearing loss who could benefit, Text Telephone (TTY) services or other accommodations should be provided.

As with any other rights restriction, the restriction must be addressed in the IPP, written informed consent obtained, and the plan must be reviewed and approved by the specially constituted committee.

§483.420(a)(11) Ensure clients the opportunity to participate in social, religious, and community group activities;

Guidance §483.420(a)(11)

Clients should be offered the opportunity to participate in various types of activities in the community (e.g., going to grocery stores, hair salons, restaurants, places of worship, pharmacies, community meetings and events) based on their interests and choices. The facility must make accommodations for physical issues such as hearing impairment and mobility limitations. In addition, clients should be taught the applicable skills to participate in their choice of activities to the fullest extent of their abilities. It is not acceptable for all client activities to be provided in the facility.

When a client is identified to be on restriction from community integration opportunities, interview clients, families, legal guardians and staff to determine if due process was afforded for this restriction and whether the restriction is included in the IPP.

In the event of a court placement that restricts community access, due process does not apply.

There should be evidence that the facility assists and encourages all clients, regardless of functioning levels, to have input into the decisions on community integration activities.

It is not acceptable to require clients to attend unwanted activities due to staffing considerations.

§483.420(a)(12) Ensure that clients have the right to retain and use appropriate personal possessions and clothing, and

Guidance §483.420(a)(12)

Clients should have personal possessions and clothing which meet their needs, interests and choices.

Clients should have free access to their own possessions and clothing. When considering whether a client has free access to their personal possessions and clothing, ensure that physical limitations have been addressed.

Clients who are unable to access and use personal possessions and clothing appropriately are involved in programs to learn the necessary skills to do so.

In situations where the behavior of one or more clients in a living area prevents free access to personal possessions for each client, the facility must develop IPPs for the client with disruptive behavior. The facility must also ensure that during the implementation of this program plan that none of the other clients have their rights infringed upon. Clients should not be without personal possessions because of the behavior of others with whom they live.

All client possessions, regardless of their apparent value to others are treated with respect for what they may represent to the client. Where those choices include socially stigmatizing materials, the facility should provide learning opportunities to make more socially appropriate choices. The facility should encourage clients to use or display possessions of his or her choice in a culturally normative manner.

If a method for identifying personal effects is used, it should be inconspicuous and in a manner that will assist the client to identify them.

“Appropriate” clothing means a supply of clothing that is sufficient, in good repair, accounts for a variety of occasions and seasons, and appropriate to age, size, gender, and level of activity. Modification or adaptation of clothing fasteners should be considered based on the needs of a client with a physical disability to become more independent.

As appropriate, each client’s active treatment program maximizes opportunities for choice and self-direction with regard to choosing and shopping for clothing which enhances his or her appearance, and selecting daily clothing in accordance with age, sex and cultural norms.

Clients are permitted to keep personal clothing and possessions for their use while in the facility. Determine how the facility both ensures the safety of personal possessions while at the same time providing client access to them when the client chooses.

Clients are provided the opportunity, encouraged, and trained to use age-appropriate materials. The term “age-appropriate” refers to anything that reinforces recognition of the client as a person of a certain chronological age. Clients who choose to keep items traditionally used by children such as dolls or

model cars are not an automatic citation. There must be evidence the facility is encouraging the client to use these possessions in a socially appropriate, non-stigmatizing manner. The facility's environment must be furnished with materials and activities that will enhance opportunities for growth.

Pocket money should be considered a nominal amount of five dollars or less at a time. Funds provided by the facility and dispensed to a client as part of a program to train the client in money management, and funds that are not entrusted to the facility (e.g., funds paid directly to the client's representative payee) do not require accounting.

Guidance §483.420(c)(1)

The facility must maintain an on-going effort to communicate with parents, family members and/or legal guardians regarding the implementation of active treatment programs for the client. The facility encourages and engages parents, family members and legal guardians in the continued implementation of active treatment programs even while spending time outside of the facility setting.

“Unobtainable”, for the purposes of this guideline, means that the facility has made a good faith effort to seek parental or legal guardian participation in the process, even though the effort may ultimately be unsuccessful (for example, the parent may be impossible to locate or may prove unwilling or unable to participate).

“Inappropriate”, for the purposes of this guideline, means that behavior of the parent or legal guardian could be disruptive or detrimental to the client’s program outcome. In this case, determine what the facility has done to bring effective resolution to the problem.

§483.420(c)(2) Answer communications from clients’ families and friends promptly and appropriately;

§483.420(c)(3) Promote visits by individuals with a relationship to the client (such as family, close friends, legal guardians and advocates) at any reasonable hour, without prior notice, consistent with the right of that client’s and other clients’ privacy, unless the interdisciplinary team determines that the visit would not be appropriate;

Guidance §483.420(c)(3)

Any limitations on visitors must be implemented as a result of IDT evaluation and discussion and be documented. This documentation should include evidence of approval from the specially constituted committee. Decisions to restrict a visitor for an individual client must be reviewed and re-evaluated each time the IPP is reviewed or at the client’s request. Broad restrictions on visitors such as times of the day or certain days of the week are a violation of this requirement.

Guidance §483.420(c)(5)

The facility should assist and encourage the client to communicate with their families or legal guardians concerning possible outside visits and vacations as frequently as possible. When the client does schedule a trip or vacation, the facility must ensure that all necessary preparation is completed to facilitate the departure.

The facility should not sponsor or allow clients to take a particular type of trip that would jeopardize their safety or health without consultation with parents/legal guardians and/or the IDT.

§483.420(c)(6) Notify promptly the client's parents or guardian of any significant incidents, or changes in the client's condition including, but not limited to, serious illness, accident, death, abuse, or unauthorized absence.

Guidance §483.420(c)(6)

“Significant” incidents or changes in the client's condition include serious injury, unusual seizure activity, hospitalization, serious illness, accident, death, allegations of abuse, neglect, or mistreatment, unauthorized absence, or any notifications the parent or legal guardian's requests.

It is reasonable to expect the facility to contact the family or legal guardian of a client as soon as possible after an incident occurs, but no later than 24 hours after the incident. If notification is done via electronic mail, the facility must request a response from the e-mail recipient to confirm notification. Telephone notification must be accomplished by talking to the person directly. If a message is left, the facility must request a call back to confirm receipt of the notification.

Contact by letter may be utilized as follow up confirmation, but not be the initial, primary or sole mode of communication with the family or legal guardian.

If unable to contact the family or legal guardian, there should be evidence that the facility attempted to reach alternate emergency contacts.

Requests from clients who are their own guardian to limit notifications to their families must be honored.

§483.420(d)(1) The facility must develop and implement written policies and procedures that prohibit mistreatment, neglect or abuse of the client.

Guidance §483.420(d)(1)

The facility, through implementation of its policies, must set up a structure that screens and trains employees, protects clients and prevents, identifies, investigates and reports abuse, neglect and mistreatment of clients.

The policies must designate who (either by name or title) has the authority to act in the Administrator's absence and take any immediate corrective actions necessary to assure a client's safety such as removing a staff person from direct client contact.

“Mistreatment”, for the purposes of this guideline, includes behavior or facility practices that result in any type of client exploitation such as financial, physical, sexual, or criminal. Mistreatment also refers to the use of behavioral management techniques outside of their use as approved by the specially constituted committee and facility policies and procedures.

“Neglect” means failure to provide goods and services necessary to avoid physical harm, mental anguish or mental illness. Staff failure to intervene appropriately to prevent self- injurious behavior may constitute neglect. Staff failure to implement facility safeguards, once client to client aggression is identified, may also constitute neglect.

Refer to W127 for definitions of abuse.

§483.420(d)(1)(iii) The facility must prohibit the employment of individuals with a conviction or prior employment history of child or client abuse, neglect or mistreatment.

Guidance §483.420(d)(1)(iii)

The facility is required to screen potential employees for a prior employment history of child or client abuse, neglect or mistreatment, as well as for any conviction based on those offenses. The abuse, neglect or mistreatment must have been directed toward a child or a client/resident/patient of a health care facility in order for the prohibition of employment to apply.

No one with a conviction or substantiated allegation of child or client abuse, neglect or mistreatment regardless of employment date, is employed by the facility. This requirement also applies to acts of abuse, neglect or mistreatment committed by a current ICF/IID employee outside the jurisdiction of the ICF/IID (e.g., in the community or in another health care facility). The facility must follow state guidelines or requirements for background checks to assure that they make every effort to check new employee's background.

Where the facility has terminated an employee based upon confirmation that abuse, neglect or mistreatment occurred during the employee's performance, and the termination decision was overturned by either arbitration finding or a court finding, the employee must be returned to a position which does not involve direct contact between that employee and clients of the facility.

A person who abused a resident in a nursing facility, and as a result, is barred from employment in the nursing home setting would also be prohibited from employment in the ICF/IID. While facilities are not required to periodically screen existing employees, if the facility becomes aware that such action has been taken against an employee, the facility is required to prohibit continued employment. This is also true of any conviction in a court of law for child, elder, or client (resident, patient) abuse, neglect or mistreatment. Therefore, conviction for abusing one's own child is also a reason employment would be prohibited.

§483.420(d)(2) The facility must ensure that all allegations of mistreatment, neglect or abuse, as well as injuries of unknown source, are reported immediately to the administrator or to other officials in accordance with State law through established procedures.

Guidance §483.420(d)(2)

Injuries of unknown source that give rise to a suspicion that they may be the result of abuse or neglect, should be reported immediately.

An injury should be reported as an "injury of unknown source" when:

- The source of the injury was not witnessed by any person and the source of the injury could not be explained by the client; and
- The injury raises suspicions of possible abuse or neglect because of the extent of the injury or the location of the injury (e.g., the injury is located in an area not generally vulnerable to trauma) or the number of injuries observed at one particular point in time or the incidence of injuries over time.

It is important to note that members of the ICF/IID population are a mobile population and lead active lives. Therefore, they experience normal day-to-day bumps and minor abrasions as they go about their lives. These minor occurrences which are not of serious consequence to the individual and do not present as a suspicious or repetitive injury (as discussed above) should be recorded by the facility staff once they are aware of them and follow-up should be conducted as indicated. For injuries that do not rise to the level of reportable "injuries of unknown source", the facility should follow its policies and procedures for incident recording, investigation, and tracking.

The facility must immediately report any suspicious injuries of unknown source and all allegations of mistreatment, neglect or abuse to a client residing in the facility regardless of who is the alleged perpetrator (e.g., facility staff, parents, legal guardians, volunteer staff from outside agencies serving the client, neighbors, or other clients, etc.).

If state law requires reporting to an agency or entity other than the administrator, the Centers for Medicare & Medicaid Services (CMS) expects the administrator to be notified as well, in order to ensure facility response to promptly safeguard the client(s).

For the purposes of this regulation "immediately" means there should be no delay between staff awareness of the occurrence and reporting to the administrator or other officials in accordance with

State law unless the situation is unstable in which case reporting should occur as soon as the safety of all clients is assured.

Guidance §483.420(d)(3)

In the absence of any pre-survey information that would indicate the need for a more thorough review of reports of investigation, review 5 percent of the total client investigations for the last three (3) months (but no less than 10).

A thorough investigation includes at a minimum:

- The collection of all interviews, statements, physical evidence and any pertinent maps, pictures or diagrams;
- Review of all information;
- Resolution of any discrepancies;
- Summary of conclusions; and
- Recommendations for action both to safeguard all the clients during the investigation and after the completion of the report.

If patterns of possible abuse, mistreatment or neglect are identified, or the incident report logs for the past three (3) months indicate an extremely high incident rate, then a full review of the incidents for the past three (3) months should be completed.

Guidance §483.420(d)(4)

Some states require that allegations of abuse must be reported to the police. A police investigation may take longer than five (5) working days. Their investigation does not change the requirement that the facility must complete an internal investigation report of findings within the five day timeframe. When outside authorities are involved, the facility will still be required to complete their investigation within five days to the extent authorized by such entities. "Working days" means Monday through Friday, excluding state and Federal holidays.

W157

§483.420(d)(4) if the alleged violation is verified, appropriate corrective action must be taken.

Guidance §483.420(d)(4)

The facility is required to ensure that clients residing in the facility are not subjected to physical, verbal, sexual or psychological abuse or punishment.

Appropriate corrective action is required for findings of abuse, neglect or mistreatment by other clients residing in the facility, staff of outside agencies, parents or any other person, and for injuries to clients resulting from controllable environmental factors.

If the facility receives allegations of abuse, neglect, or mistreatment of a client during out of facility visits with their family, they must report these allegations to the appropriate state authority for investigation. The facility does not have to conduct an internal investigation regarding the alleged violation.

Appropriate corrective action is defined as that action which is reasonably likely to prevent the abuse, neglect, mistreatment or injury from recurring.

This regulation does not require staff termination as the only appropriate corrective action.

The corrective action imposed by the facility is commensurate with the violation.

When a facility is forced to re-hire a staff person, determined by the facility investigation to have been responsible for abuse, neglect, or mistreatment, the facility continues to be responsible for ensuring the health and safety of the clients, and ensures that those staff members do not work directly with clients.

W159

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(a) Each client's active treatment program must be integrated, coordinated and monitored by a qualified intellectual disability professional who –

Guidance §483.430(a)

The position of qualified intellectual disability professional (QIDP) is unique to the ICF/IID program. This position can be central to the overall responsiveness and effectiveness of an active treatment program. Whether a supervisory or non-supervisory position, the QIDP is responsible to:

- Orchestrate all facets of the active treatment effort, including the IDT creation of relevant IPPs tailored to meet individual client needs;
- Effectively coordinate internal and external program services and supports to facilitate the acquisition of client skills and adaptive behaviors; and
- Promote competent interactions of residential staff with clients in program implementation and behavior management.

Breakdowns in the provision of needed services does not automatically equate with deficient practice with QIDP regulations. Non-compliance with QIDP regulations exist where the facility has failed to provide a QIDP or sufficient numbers of QIDPs to effectively perform these required functions or the QIDP(s) has failed to assertively attempt to integrate, coordinate and/or monitor each client's active treatment program.

Elements of integrating, coordinating and monitoring active treatment programs include:

- Routinely observing clients across settings in program areas to assess effectiveness of program implementation and consistency of training effort to determine effectiveness of IPPs and making timely modifications to facilitate achieving desired skills or goals.
- Routinely interacting with program staff across settings to assist in determining the effectiveness and continued relevance of program plans in meeting identified client needs.
- Determining the need for program revision based on client performance.
- Identifying inconsistencies in training approaches or programs not being implemented as written and facilitating the resolution of these inconsistencies.
- Assures follow-up occurs for any recommendation for services, equipment or programs so that needed services and supplies are provided in a timely manner to meet the client's needs.

The number of QIDPs will vary depending on such factors as the number of clients the facility serves, the complexity of needs manifested by these clients, the number, qualifications and competencies of additional professional staff members, and whether or not other duties are assigned to the QIDP function. The QIDP function may not be delegated to other employees even though the QIDP co-signs their work.

§483.430 (b)(1) Each client must receive the professional program services needed to implement the active treatment program defined by each client's individual program plan.

Guidance §483.430 (b)(1)

The effectiveness of the active treatment effort is dependent on a facility's assembly of a competent team of professional program staff, with knowledge of contemporary care practices in intellectual disabilities specific to their field of expertise, that work cooperatively as members of an IDT. The facility is responsible for the acquisition of professional staff necessary to provide direct and indirect professional services to meet client needs.

Professional program services are those services that meet the needs identified by a client's CFA that must be provided by a member of a vocation founded upon specialized education/training.

Professional staff services also include on-going monitoring of the effectiveness of programs and plans developed by professional staff but implemented by non -professional staff.

Indirect professional staff services also include on-going, technical support to staff implementing these programs as well as timely assessment of the need for modification of the program with appropriate communication to the QIDP and IDT.

The needs identified in the initial CFA, as required in §483.440(c)(3)(v), should guide the team in deciding if a particular professional's involvement is necessary and, if so, to what extent professional involvement must continue on a direct or indirect basis.

Since such needed professional expertise may fall within the purview of multiple professional disciplines, based on overlapping training and experience, determine if the facility's delivery of professional services is adequate by the extent to which clients' needs are aggressively and competently addressed. Some examples in which professional expertise may overlap include, but are not limited to:

- Physical development and health: nurse, dietitian, pharmacist.
- Nutritional status: nurse, nutritionist or dietitian.
- Sensorimotor development: educators, recreation therapists, and occupational therapist, physical therapist.
- Affective (emotional) development: special educators, social workers, psychologists, psychiatrists, mental health counselors, rehabilitation counselors, behavior therapists, behavior management specialists, behavior analyst, and medical staff.
- Speech and language (communication) development: speech-language pathologists, special educators for people who are deaf or hearing impaired, and medical staff.
- Auditory functioning: audiologists (basic or comprehensive audiologic assessment and use of amplification equipment); speech-language pathologists (like audiologists, may perform aural rehabilitation); special educators for clients who are hearing impaired and medical staff.

- Cognitive development: teachers (if required by law, e.g., school aged children, or if pursuit of GED is indicated), behavior analysts, psychologists, speech-language pathologists.
- Vocational development: occupational therapists, vocational rehabilitation counselors, or other work specialists (if development of specific vocational skills or work placement is indicated).
- Social Development: teachers, professional recreation staff, social workers, behavior analysts, psychologists (specialized training needs for social skill development).
- Adaptive behaviors or independent living skills: special educators, occupational therapists, behavior analysts, and medical staff.

§483.430(b)(1) Professional program staff must work directly with clients

Guidance §483.430(b)(1)

Examples of professional staff working directly with clients include: performing professional assessments of clients, provision of direct support and services and periodic monitoring by the professional of the client working on the program. The amount and degree of direct care that professionals must provide will depend on the needs of the client and the ability of other staff to effectively work with clients on a day-to-day basis.

For those services that must be provided by a professional due to either law, licensure or registration, the client receives the services directly from the professional. Professionals may deliver services through the supervision and direction of subordinates where provided by law.

Guidance §483.430(b)(1)

Paraprofessionals are persons in various occupational fields who are trained to assist professionals but are themselves not licensed at the professional level.

Examples of “working with” these other staff may include, but not be limited to:

- Modeling the correct technique for interacting with clients or implementing a specific program objective.
- Designing residential activity programs and teaching staff how to implement them.
- Conducting classes on discipline specific topics.
- Answering questions of staff related to program implementation or specific behavioral management issues.
- Monitoring active treatment areas to identify program implementation or staff-client interaction issues.

§483.430(b)(2) The facility must have available enough qualified professional staff to carry out and monitor the various professional interventions in accordance with the stated goals and objectives of every individual program plan.

Guidance §483.430(b)(2)

There should be sufficient professional staff in the facility to ensure that:

- needed assessments by professionals are completed timely;
- direct professional services are provided when indicated;
- clients are receiving interventions as specified in the IPP;
- client outcomes are being monitored by the professional;
- assessments and outcomes are being communicated to the IDT; and

Guidance §483.430(b)(3)

This participation may be through written reports or verbally while attending the IPP meeting or participating via telephone or other electronic means, to provide team members with the opportunity to review and discuss information and recommendations relevant to the client's needs, and to reach decisions as a team, rather than individually, on how best to address those needs.

§483.430(b)(4) Professional program staff must participate in on-going staff development and training in both formal and informal settings with other professional, paraprofessional, and nonprofessional staff members.

Guidance §483.430(b)(4)

Professional program staff provides various types of training to staff as indicated by the IPP and IDT. Formal training: a specific training done at the time a program is implemented or updated by the professional, with all staff who works with the client.

Informal training: when the professional observes the staff not correctly implementing a program, the professional provides informal guidance on correct implementation.

Training on programs that apply to multiple clients: when a particular program applies to several clients in a facility, a professional may provide training to several staff on a particular topic that applies to multiple clients (such as safe transfer techniques).

Professional staff of the facility should participate in ongoing training such as conferences and workshops to maintain current standards of practice in the field of intellectual and developmental disabilities as required by their professional licensure or certification.

Guidance §483.430(b)(5)(x)

Human Services is a diverse field focused on improving the quality of life of clients in communities in which the professional serves. A human services professional works directly with the population being served. Surveyors should see evidence that a human service professional has a bachelor's degree at a minimum.

(B) Except for the requirements of paragraph (b)(2) of this section concerning the facility's provision of enough qualified professional program staff; and

(C) Unless otherwise specified by State licensure and certification requirements.

Guidance §483.430(b)(5)(xi)

An individual client program may not require that professional staff perform all of the services as outlined by the IPP (e.g. the direct support staff may be trained by the professional to safely and effectively carry out the designed program), however, any specialized therapy must involve evaluation, program development, and re-assessment by the appropriate professional at periodic intervals.

Guidance §483.430(c)(1)

The facility must have sufficient staff to provide needed care and services without the use of volunteers or enlisting the help of clients residing in the facility to perform the duties normally performed by facility staff.

The facility may not rely on volunteers in lieu of paid staff to fill required staff positions and perform direct care services. Volunteers are permissible, but must be in addition to the number of paid staff required to carry out a function. Volunteers should have an orientation to the policies and procedures of the facility and oversight is required by facility staff.

(i) Clients for whom a physician has ordered a medical care plan;

(ii) Clients who are aggressive, assaultive or security risks;

(iii) More than 16 clients; or

(iv) Fewer than 16 clients within a multi-unit building.

Guidance §483.430(c)(2)

Indicators of staff not being awake in relation to the occurrence of incidents, accidents, and injuries may include, but are not limited to:

- incidents of unplanned client absences;
- untimely reaction to a medical emergency;
- injuries from client to client aggression; or
- a pattern of injuries of unknown origin.

If even one client meets 483.430(c)(2)(i-ii) then staff must be awake on a 24-hour basis.

A client has a medical care plan when an acute or chronic occurrence requires clinical assessment and monitoring on a scheduled basis.

(i) Clients for whom a physician has not ordered a medical care plan;

(ii) Clients who are not aggressive, assaultive or security risks; and

(iii) Sixteen or fewer clients.

Guidance §483.430(c)(3)

At all times, there must be at least one staff person on-duty in the facility if even one client is present. For purposes of this provision, “on duty” staff need not be awake during normal sleeping hours, but do need to respond to injuries, illness, and emergencies promptly.

§483.430(c)(4) The facility must provide sufficient support staff so that direct care staff are not required to perform support services to the extent that these duties interfere with the exercise of their primary direct client care duties.

Guidance §483.430(c)(4)

Direct care staff should not be performing support services (e.g., making beds, cooking, cleaning, etc.) independently which takes them away from client interaction and teaching. If support services in the house cannot be done jointly as chores between clients, as part of their training program, and the support staff, additional staff should be added to perform the chores. This does not include any staff chores done during client’s sleeping hours.

“Support staff” include all personnel hired by the facility that are not either direct care staff or professional staff. For example, support staff includes, but are not limited to, secretaries, clerks, housekeepers, maintenance and laundry personnel.

W186

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(d)(1) The facility must provide sufficient direct care staff to manage and supervise clients in accordance with their individual program plans.

Guidance §483.430(d)(1)

“Sufficient” means enough direct care staff to effectively implement the active treatment programs as defined in the IPP, to meet client needs, and to respond to emergencies, illness, or injuries.

Even though minimum ratios are defined at §483.430(d)(3), active treatment may require more staff than the minimums required ratios, therefore compliance should not be based on staffing ratios alone.

§483.430(d)(2) Direct care staff are defined as the present on-duty staff calculated over all shifts in a 24-hour period for each defined residential living unit.

Guidance §483.430(d)(2)

“Direct care staff” are those personnel who are assigned to work directly with the clients providing support during activities of daily living and active treatment programs.

Professional staff who work with clients in a living unit on a periodic basis are not included in direct care staff ratios.

Supervisors of direct care staff can be counted only if they share in the actual work of the direct care of clients on a continuous basis (e.g. take client assignment).

Direct care supervisors whose principle assigned function is to supervise direct care staff may not be included in direct care staff ratios although they may occasionally provide direct services to clients.

Non-direct care staff supervisors whose principle assigned function is to supervise non- direct care staff may not be included in direct care staff ratios.

W187

(Rev. 144, Issued: 08-14-15, Effective: 08-14-15, Implementation: 08-14-15)

§483.430(d)(3) Direct care staff must be provided by the facility in the following minimum ratios of direct care staff to clients:

(i) For each defined residential living unit serving children under the age of 12, severely and profoundly retarded clients, clients with severe physical disabilities, or clients who are aggressive, assaultive, or security risks, or who manifest severely hyperactive or psychotic-like behavior, the staff to client ratio is 1 to 3.2.

(ii) For each defined residential living unit serving moderately retarded clients, the staff to client ratio is 1 to 4.

(iii) For each defined residential living unit serving clients who function within the range of mild retardation, the staff to client ratio is 1 to 6.4.

Guidance §483.430(d)(3)

*The minimum ratios in this standard indicate the **minimum** number of direct-care staff that must be present and on duty, 24 hours a day, 365 days a year, for each discrete living unit. For example, to calculate the minimum number of living unit staff that must be present and on duty in a discrete living unit serving 16 individuals with multiple disabilities: divide the number of individuals "16," by the number corresponding to the regulation "3.2," the result equals "5." Therefore, the facility must determine how many staff it must hire to ensure that at least 5 staff will be able to be present and on duty during the 24 hour period in which those individuals are present.*

Using the living unit described above, "calculated over all shifts in a 24-hour period" means that there are present and on duty every day of the year: one direct care staff for each eight individuals on the first shift (1:8), one direct care staff for each eight individuals on the second shift (1:8), and one direct care staff for each 16 individuals on the third shift (1:16). Therefore, there are five (5) direct care staff present and on duty for each twenty-four hour day, for 16 individuals. The same calculations are made for the other ratios, whichever applies. Determine if absences of staff for breaks and meals results in a pattern of prolonged periods in which present and on-duty staff do not meet the ratios.

§483.440 Condition of participation: Active treatment services

(a) Standard: Active treatment

W196

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(a)(1) Each client must receive a continuous active treatment program, which includes aggressive, consistent implementation of a program of specialized and generic training, treatment, health services and related services described in this subpart, that is directed toward-

(i) The acquisition of the behaviors necessary for the client to function with as much self-determination and independence as possible; and

(ii) The prevention or deceleration of regression or loss of current optimal functional status.

Active treatment embodies an individually- tailored series of daily life and living experiences that serve as the primary opportunity for the acquisition, development and expression of functional skills and adaptive behaviors necessary for the client to experience optimal independence and promote purposeful “self-expression”.

The uniqueness of each client is a core consideration in the design of active treatment programs. It is expected that individual clients are given the opportunity to provide input into the content of their day-to-day living experiences.

An active treatment program includes the following elements as substantiated through observation, interview and record review:

a) Each client’s needs and strengths have been accurately assessed and relevant input has been obtained from team members; (Observations and interviews with the client by the surveyor should be consistent with the current assessment information. Interview the QIDP regarding any needs observed but not addressed through assessment/programming by the facility).

b) Each client’s IPP is based on assessed needs and strengths, and addresses major life areas such as personal skills, home living skills, community living skills, employment skills, etc., essential to increasing independence and ensuring rights;

c) Needs identified as a priority are addressed formally and through activities which are relevant and responsive to client need, interest and choice;

d) Active treatment is consistently implemented in all relevant settings both formally and informally as the need arises or opportunities present themselves. It should not be limited to specific periods of time during the day or environments. Each client should receive aggressive and consistent training, treatments and supports in accordance with their needs and IPP. New skills and appropriate behaviors are encouraged and reinforced across environments and times of day. Each client has the adaptive equipment and environmental adaptations necessary for him/her to progress toward heightened independence as recommended and contained in their IPP. Active treatment means taking advantage of opportunities for the practice of new skills and the use of other skills during the normal rhythm of each client’s day.

e) Each client’s performance related to IPP objectives is accurately and consistently measured and documented and programs are modified on an ongoing basis based on data and major life changes; and
i. Clients with degenerative conditions receive training, treatment and services designed to retain skills and functioning and to prevent further regression to the extent possible.

ii. Clients may need adjustments to their active treatment programs as functional or endurance limitations are identified associated with the aging process. In such cases, there may be more of an emphasis on the retention of skills already attained and reducing the rate of loss of skills, than on the acquisition of new skills.

In large part, it is this pervasive and continuous reinforcement of “formal” training through “informal” routine daily living experiences and interactions with staff and others that makes active treatment programs effective. Formal settings are those that are planned and specifically structured for training on objectives and interventions. Informal settings are times that are not anticipated or planned but that offer the opportunity for training.

Active treatment programs mirror normal living experiences such as leisure activities and social conversation at the dinner table. It must be clear that active treatment programs are far more than

implementation of discreet formal training sessions or programs that are conducted at prescribed times by defined personnel. Learning occurs in the process of the normal rhythm of life and life experiences.

W197

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(a)(2) Active treatment does not include services to maintain generally independent clients who are able to function with little supervision or in the absence of a continuous active treatment program.

Guidance §483.440(a)(2)

All active treatment programs must be based upon assessed developmental needs which are prohibiting the client from living in a more independent setting.

Active treatment moves clients to a more independent setting.

- When a client is in the facility simply for protective oversight and is not in need of training for developmental deficits, this does not constitute active treatment (e.g. a court placement to protect the community or the client from the client's behavior).

- Programs that are simply being provided to maintain a client's independence would not be considered active treatment since the client is not actively being trained to live in a more independent setting. If a client already possesses the skills that enables them to live in a less restrictive environment, and does not require the structure, support and resources that services that only an ICF/IID can provide, they can be considered generally independent.

For example, a client is admitted to the ICF/IID for the primary purpose of competency determination for a court hearing. This client lived independently prior to admission. The active treatment programs they are receiving are focused on maintaining that independence and do not address specific developmental deficits that inhibit independent living. This would not be considered active treatment.

§483.440(b)(1) Clients who are admitted by the facility must be in need of and receiving active treatment services.

Guidance §483.440(b)(1)

All client admissions must be based upon assessed developmental deficits which are prohibiting the client from living in a more independent setting and which require those intensive specialized supports, services, and supervision that only an ICF/IID can provide.

The individual components of the provision of active treatment include CFA, IPP, program implementation, program documentation, and program monitoring and change. When any of these individual components of active treatment are not in place, resulting in the clients not receiving active treatment, this regulation this not met.

§483.440(b)(2) Admission decisions must be based on a preliminary evaluation of the client that is conducted or updated by the facility or by outside sources.

Guidance §483.440(b)(2)

Preliminary evaluations should support the need for an admission to an ICF/IID (e.g., deficits in functional skills or adaptive behaviors). The information from the preliminary evaluation must be used by the facility to make an admission decision.

Occasionally, emergency admissions of clients may occur without benefit of a preliminary evaluation having been conducted prior to admission. When situational emergencies necessitate admission before a preliminary evaluation can be conducted, or when pre-admission information is incomplete, the completion of the preliminary admission evaluation within seven (7) calendar days after admission will satisfy compliance with this requirement.

W200

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(3) A preliminary evaluation must contain background information as well as currently valid assessments of functional developmental, behavioral, social, health and nutritional status to determine if the facility can provide for the client's needs and if the client is likely to benefit from placement in the facility.

Guidance §483.440(b)(3)

The preliminary evaluation contains specific information useful to determine if the facility can meet the client's needs and if the client can benefit from placement.

The facility makes every reasonable effort to gather all available data to assist in their determination.

Background information would include information that gives insight into the clients' previous living environments and programming efforts.

The assessment must include a consideration as to whether reasonable accommodation as required by the Americans with Disabilities Act would enable the client to benefit from placement in facility.

§483.440(b)(4) If a client is to be either transferred or discharged, the facility must –

§483.440(b)(4)(i) Have documentation in the client's record that the client was transferred or discharged for good cause; and

Guidance §483.440(b)(4)(i)

Transfer or discharge occurs only when the facility cannot meet the client's needs, the client no longer requires an active treatment program in an ICF/IID setting; the individual/guardian chooses to reside elsewhere, or when a determination is made that another level of service or living situation would be more beneficial to the client.

"Transfer" means the temporary movement of a client to another facility (e.g. another ICF/IID, psychiatric hospital, medical hospital) with the intention of return to the original site.

"Discharge" means the permanent movement of a client to another facility or setting which operates independently from the ICF/IID (e.g. the facility is not under the jurisdiction of the facility's governing body).

Documentation includes evidence of an assessment that evaluated the pros and cons of the transfer or discharge and the rationale for the final decision.

W202

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(4)(ii) Provide a reasonable time to prepare the client and his or her parents or guardian for the transfer or discharge (except in emergencies).

Guidance §483.440(b)(4)(ii)

The client and their family or the client and their legal guardian are involved in planning for any transfer or discharge and receive the services necessary to assist in preparing for movement, unless an emergency (medical) situation prevents that involvement. If the client has an advocate, the advocate should participate in the decision-making process.

Orderly, planned transfers and discharges usually take place over an extended period of time. The IPP should reflect objectives or interventions which prepare the client for transfer or discharge. Transfers or discharges executed on short timeframes (e.g. less than 30 days) without "good cause" would not comply with the "reasonable" intent of the regulations.

"Reasonable" time is the time required to provide clients and their families with planned steps and established timeframes to facilitate the successful transition. Time frames are modified based on client needs and emergent situations.

Preparation of the client for transfer may include orientation or trial visits to the new location. Staff should take steps to minimize potential anxiety or any behavioral reactions which could result from the client's transfer.

§483.440(b)(5) At the time of the discharge, the facility must-

The final summary should be useful for continued services in the client's new setting. The final discharge summary should be entered into the client's record, provide a summary of the client's course of stay in the ICF/IID, provide a final summary of the client's developmental, behavioral, social, health and nutritional status, and include the current status of the objectives listed in the client's IPP.

The status should address whether or not a clients' skills have been maintained, deteriorated, or improved during their stay.

When the client is discharged, the receiving entity (another ICF/IID, waiver home, family home, nursing home, etc.) is provided a copy of the discharge summary. The ICF/IID should obtain written consent to share this information with the persons who will be providing services to the client in the future and their parents/or legal guardians. Sharing the discharge summary with State Agencies as applicable is determined by state requirements.

§483.440(b)(5)(ii) Provide a post-discharge plan of care that will assist the client to adjust to the new living environment.**Guidance §483.440(b)(5)(ii)**

The post discharge plan of care is a component of the discharge summary.

The facility utilizes the information from the discharge summary to prepare the discharge plan of care. The post-discharge plan of care identifies the essential supports and services necessary for the client to successfully adjust to the new living environment and describe necessary coordination of services. It should incorporate the client's preferences. It should identify specific client needs after discharge such as personal care, physical therapy, client/caregiver education needs, and the ability of the client or caregiver to meet those needs after discharge.

i) Identifying the client's needs, as described by the comprehensive functional assessments required in paragraph (c)(3) of this section; and

ii) Designing programs that meet the client's needs.

Guidance §483.440(c)(1)

If a need is identified in the CFA, the professional associated with that need will conduct an initial evaluation for the development of the IPP.

The needs identified in the CFA determine the professional, paraprofessional, direct support staff, disciplines or service areas that must participate in the development of the IPP.

§483.440(c)(2) Appropriate facility staff must participate in interdisciplinary team meetings.**Guidance §483.440(c)(2)**

While there is no correct number of individuals that comprise the IDT, the team should include appropriate facility staff (professional and paraprofessional staff), that are responsible for designing, developing, and/or implementing the client's IPP and direct support staff who work closely with the clients.

For any prioritized objective, the paraprofessional or professional personnel responsible for the development and monitoring of that program should participate on the team, either through actual attendance or written or verbal input.

Members of the IDT may change as the assessed needs of the client change (e.g. medical issues, nutritional issues, communication needs, fine motor skill needs, gross motor skill needs, social issues or behavioral concerns).

§483.440(c)(2) Participation by other agencies serving the client is encouraged.

Guidance §483.440(c)(2)

The facility must make every effort to coordinate the Individual Education Plan (IEP) from the school or the client's program plan from outside program, work site or workshop with the IPP. This may result in a single document, but there is no requirement for a single combined document. There must be evidence that all applicable plans were coordinated (evidence of discussion across the plans and observation would confirm integration of the IPP across the various settings). The QIDP is responsible for the coordination of the plans.

The facility should communicate changes in the IPP or in the clients' life situation with teachers and workplace representatives either directly or through written communication.

§483.440(c)(2) Participation by the client, his or her parent (if the client is a minor), or the client's legal guardian is required unless the participation is unobtainable or inappropriate.

Guidance §483.440(c)(2)

The facility should make every effort to schedule team meetings at a time that enables the client parent or legal guardian, to attend without having to forfeit work time or pay.

The facility should make every effort to schedule team meetings at a time that enables the client parent or legal guardian, to attend without having to forfeit work time or pay.

It is expected that the client will routinely attend team meetings unless their participation is unobtainable. Examples of when client participation is not available include, but are not limited to: 1) the client is away from the facility for medical reasons or hospitalization; or 2) although the facility has documented repeated attempts to engage the client, the client refuses to participate.

If families/legal guardians are unable to attend a program planning meeting, the facility provides them information regarding the meeting outcome and gives them an opportunity to discuss the plan with the facility staff.

“Unobtainable”, for the purposes of this guideline, means that the facility has made a good faith effort to seek parental or legal guardian participation in the process, even though the effort may ultimately be unsuccessful (for example, the parent may be impossible to locate or may prove unwilling or unable to participate).

“Inappropriate”, for the purposes of this guideline, means that the parent or legal guardian's behavior is so disruptive or uncooperative that others cannot effectively participate; the client does not wish his or her parent to participate, and the client is competent to make this decision; or there is strong and documented evidence that the parent or legal guardian is not acting on the client's behalf or in the client's best interest. In the case of the latter, determine what the facility has done to bring effective resolution to the problem.

Instances when it is not appropriate for the client, parent or legal guardian, to attend the team discussion are rare. If the client does not attend the meeting, the facility must document the reason for his/her non-participation.

There may also be instances where a parent or legal guardian is considered unobtainable for a team meeting, such as being out of the country. In these instances, the parent or legal guardian should still be notified of the meeting, provided with information concerning the outcome of the meeting and documentation in the client record should describe why the parent or legal guardian could not attend and what information was provided to them.

If the client is an adult who is competent to make decisions and who is not adjudicated, parents may not participate in the process if their participation is opposed by the client.

In the event that a non-adjudicated adult chooses not to have their family involved in the active treatment process, the surveyor should see evidence in the record of efforts made by the facility to understand why the client has declined family participation. If the client continues to decline family involvement after the facility has held discussions with him/her about the importance of this issue, the facility should honor the wishes of the client.

In general, the more involvement and communication among the team members, the client and the parent or legal guardian the more likely the plan will be successful. The facility goal should be to routinely include these parties unless rare circumstances exist.

§483.440(c)(3) Within 30 days after admission, the interdisciplinary team must perform accurate assessments or reassessments as needed to supplement the preliminary evaluation conducted prior to admission.

Guidance §483.440(c)(3)

For new admissions, the CFA is completed within 30 days after admission and is utilized as the basis for the IPP.

New, revised or updated assessments completed within the first 30 days of admission, accurately identify the functional abilities of the client.

“Accurate” assessments refer to assessment data that are current, relevant and valid, and the skills, abilities, and training needs identified by the assessment correspond to the client’s actual, observed status. Assessments must be administered with appropriate adaptations such as specialized equipment, use of an interpreter, use of manual communication and tests designed to measure performance in the presence of visual disability.

The content of or format of the assessments or the particular assessment tools which are to be used for the CFA are not specified. Assessments must include identification of those functional life skills in which the client needs to be more independent and those services needed for the client to become more community integrated.

§483.440(c)(3)(iii) Identify the client's specific developmental and behavioral management needs; Guidance §483.440(c)(3)(iii)

The CFA must address and identify those skill deficits/needed supports that may be amenable to training, those that must be treated by therapy and/or provision of assistive technology, and those that require adapting the environment and/or providing personal support. Assessment of needed supports should be done within the context of the client's age, gender, and culture.

"Behavioral management needs" include those behaviors that interfere with progress, prevent assimilation into the community, decrease freedom or increase the need for restriction of activities (e.g. spitting, pica, self-injurious behavior, aggressive behavior toward others or self-injurious behavior).

A functional behavioral assessment is a problem-solving process for evaluating client inappropriate behavior. It relies on a variety of techniques and strategies to identify the purpose of the specific behavior(s) and to help the IDT select interventions to directly address the behavior(s). A functional behavior assessment looks beyond the behavior itself. The focus when conducting a functional behavioral assessment is on identifying significant client-specific social, affective, cognitive, and/or environmental factors associated with the occurrence (and non-occurrence) of specific behaviors.

The CFA must identify the specific accommodations that address the client's needs to ensure better opportunity for the client's success. The identified accommodations may be assistive technology which can help a person learn, play, complete tasks, get around, communicate, hear or see better, control their own environment and take care of their personal needs (e.g. door levers instead of knobs, plate switches, audio books, etc.).

§483.440(c)(3)(iv) Identify the client's needs for services without regard to the actual availability of the services needed; and

Guidance §483.440(c)(3)(iv)

Identification of needed services is based on the CFA.

In the presence of significant developmental deficits, it is not acceptable for the facility to say that a particular professional therapy or treatment is not needed or not available if the CFA identifies a deficit. The assessment must identify the course of specific interventions recommended to meet the client's needs, both through direct professional services and non-professional services. For example, a client's communication skill development may not require the intensive services of a speech-language pathologist however, the direct care staff will need to work with the client and use a pre-determined communication system.

§483.440(c)(3)(v) Include

Guidance §483.440(c)(3)(v)

The CFA should include an assessment of each of the areas listed below. Assessments should include specific information about the person's ability to function in different environments, specific skills or lack of skills, and how function can be improved, either through training, environmental adaptations, or provision of adaptive, assistive, supportive, orthotic, or prosthetic equipment.

If assessments are done separately by professional disciplines, there should be evidence that the assessments are brought together in an interdisciplinary approach to address the client's various developmental areas.

The CFA must be completed upon admission and annually as indicated. While the assessment may not have the specific titles of the areas listed below, the surveyor must be able to identify information within assessments from each of the areas below.

Guidance §483.440(c)(3)(v)

Sensorimotor development: Sensorimotor development includes the development of perceptual skills that are involved in observing the environment and making sense of it. Identified sensory deficits should be evaluated in conjunction with the impact they will have on the client's life. A sensory deficit in eye contact may not have a detrimental effect on the client's life if it will not hold the client back from further accomplishments or skill acquisitions. Motor development includes those behaviors that primarily involve: muscular, neuromuscular, or physical skills and varying degrees of physical dexterity. Because sensory and motor development are intimately related and because activities in these areas are functionally inseparable, attention to these two aspects of bodily activity is often combined in the concept of sensorimotor development. For those motor areas that are identified by the assessment as limited, the assessment should specify the extent to which corrective, orthotic, prosthetic, or support devices would impact on functional status and the extent of time the device is to be used throughout the day.

§483.440(c)(3)(v) speech and language development

Guidance §483.440(c)(3)(v)

Speech and language (communication) development: One of the most contributable causes of behaviors, frustration by the clients, etc. is lack of effective communication. It is imperative that the CFA identifies how the client communicates, what barriers are present, what services are available and what programs and services will be provided to assist the client to go out into and participate fully in the world. Observed client communication skills match the evaluation results and that training programs are in place to address needs.

Communication development refers to the development of both verbal and nonverbal and receptive and expressive communication skills. Assessment data identify the appropriate intervention strategy to be applied, and which, if any, augmentative or assistive devices will improve communication and functional status. These intervention strategies should provide the client with a viable means of communication which is appropriate to their sensory, cognitive and physical abilities.

Adaptive behaviors are those behaviors that are developed to cope with deficits in order to be able to perform every day skills as independently as possible. Independent living skills include, but are not limited to, such things as food shopping, meal preparation, housekeeping and kitchen chores, laundry, bed making, and budgeting. Assessment may be performed by anyone trained to do so. Standardized tests are not required. Standardized adaptive behavior scales which identify all or predominantly all “developmental needs” are not sufficient to meet this requirement, but can serve as a basis for screening.

§483.440(c)(3)(v) and as applicable, vocational skills.**Guidance §483.440(c)(3)(v)**

Vocational development, “as applicable”: Vocational development refers to work interests, work skills, work attitudes, work-related behaviors, and present and future employment options. The determination of whether or not a vocational assessment is “applicable” is typically based on age (adolescents or adults more than likely require this type of assessment). The vocational assessment for each client may address

job sampling, job development, on-site job training and long term follow-up, as appropriate to the client and determined by the IDT.

Vocational assessments should describe, for all domains, what clients can and cannot do in terms of skills needed within the context of their daily lives and jobs.

Assessments should be individualized and based on:

- Actual performance of the client against objective criteria;
- Reports by staff/parents/legal guardians; and
- Observed performance in a variety of settings.

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(4) that states the specific objectives necessary to meet the client's needs, as identified by the comprehensive assessment required by paragraph (c)(3) of this section,

Guidance §483.440(c)(4)

Objectives are developed for those needs that are identified by the CFA and which are considered to be most likely to improve the client's ability to independently function in his/her daily life, as determined by the IDT.

There is a clear link between the specific objectives and the functional assessment data and recommendations.

Objectives are developed for those needs that are observed to most likely impact the client's ability to function in daily life. Training objectives should be developed to address client needs rather than staff oriented objectives.

Clients are expected to have training objectives in the areas of activities of daily living, based on the client's assessed needs and as prioritized by the IDT. If clients have eyeglasses, dentures and/or other assistive devices it is expected that the team considers objectives, based upon the assessment of client needs, addressing the care and use of such devices. However, in the area of programs to teach the clients' money management it is not expected that every client will automatically have a formal training objective to participate in such a program. The decision to prioritize such a program and to what level the program is developed is decided by the IDT based upon the results of the CFA and in consideration of such factors as, transferable skills, the ability to make choices, the ability to identify preferences and cognitive abilities such as attention span and an understanding of the principle of cause and effect.

Similarly, the decision to prioritize and develop a training objective for a client to participate in a self-administration program for medications must be made by the IDT and be based upon information from the CFA. Formal self administration programs should not be confused with informal efforts to include the client in the administration process such as allowing them to hold a glass of water, identify the box where his/her medications are stored or put a pill into their own mouth themselves under the supervision of a person who is qualified to administer medications.

§483.440(c)(4) and the planned sequence for dealing with those objectives.

Guidance §483.440(c)(4)

The objectives identified in W227 are organized in a logical sequence, determined by the team that will assist the client toward the attainment of skills resulting in greater self- choice, independence, and community integration. The logical sequencing of objectives means there is a completion of one objective that serves as the building block for the next with relevance to the client's functional status. Where objectives are logically ordered but do not have relevance to the client's functional status, refer to 483.440(c)(4).

If the IPP is organized in a logical sequence, this requirement is met. For example, if the long term goal is to travel independently in the community, the objective sequencing may involve training the client to

recognize traffic signs, cross the street safely, and to obtain help when needed if lost or an emergency arises.

§483.440(c)(4)(i) Be stated separately, in terms of a single behavioral outcome;

Guidance §483.440(c)(4)(i)

Each objective clearly states one expected learning result.

“Single” behavioral outcome means that there is a separate objective assigned for each discrete behavior that the team intends the client to learn. For example, “Mary will bake a cake and clean the oven” are two separate behaviors and, therefore, should be stated in two separate objectives. Completion of the morning hygiene routine includes programs for performance of face washing, tooth brushing and hair combing which are three separate objectives; however, the behavioral outcome for each would be the same (e.g. completion of the morning hygiene routine).

§483.440(c)(4)(ii) Be assigned projected completion dates;

Guidance §483.440(c)(4)(ii)

Completion dates are based on the client’s rate of learning.

Completion dates are assigned to each objective on which the client is currently working. Completion dates are individualized (e.g. not all the same for all clients and all objectives).

The “projected date of completion” for an IPP objective is not the same as a “review” date. For each objective assigned a priority, the team should assign a projected date (month and year) by which it believes the client will have learned the new skill, based on all of the assessment data. This date triggers the team to evaluate continuously whether or not the client’s progress or learning curve is sufficient to warrant a revision to the training program.

§483.440(c)(4)(iii) Be expressed in behavioral terms that provide measurable indices of performance;

Guidance §483.440(c)(4)(iii)

The desired learning outcome is stated in a manner which enables all staff working with the client to consistently identify the target behavior and to clearly identify when it is being displayed.

The objective is stated in a manner which permits it to be measured with quantifiable data.

“Behavioral” terms include only those behaviors which are “client” rather than staff oriented and those that any person would agree can be seen or heard. Determine if all staff who work with the client can define the exact same outcome on which to measure the client’s performance.

“Measurable indices of performance” are the quantifiable criteria to use in determining successful achievement of the objective. Quantifiable criteria include various measurements of intensity and duration. For example, “Client X will walk ten feet, with the use of her tripod walker, on each of five (5) consecutive days.”

§483.440(c)(4)(v) Be assigned priorities.

Guidance §483.440(c)(4)(v)

Priorities are established based on the needs and in consideration of the desires of the client and emphasize the development of greater independence, self-choice, and community integration.

The team determines which objectives are the highest priority to be addressed, either because the client has an immediate need or the priority objectives must be accomplished before other priorities are addressed.

§483.440(c)(5) Each written training program designed to implement the objectives in the individual program plan must specify:**Guidance §483.440(c)(5)**

§483.440(c)(5)(i) The methods to be used;**Guidance §483.440(c)(5)(i)**

The training program provides clear directions to any staff person working with the client on how to implement the teaching strategies. To comply with this requirement the methodologies must be written in a clear enough manner that a substitute staff person will be able to read the methodologies and implement them without substantial differences from a regularly assigned staff person. Methodologies should be consistent across settings, such as when the client is in the day program.

§483.440(c)(5)(ii) The schedule for use of the method;**Guidance §483.440(c)(5)(ii)**

Active treatment (the implementation of training programs pursuant to objectives) should be provided in formal and informal settings throughout the rhythm of the client's day. While there may be structured episodes when the client works intensively and singularly on one or more objectives (schedule), the provision of active treatment is not adequate when confined solely to these types of formal settings but should be incorporated into all activities when appropriate (client's routine). For example, objectives on grasping may be as effectively carried out during the client's use of a toothbrush and a spoon as in an isolated session.

§483.440(c)(5)(iii) The person responsible for the program;**Guidance §483.440(c)(4)(v)**

The IPP should include the actual name of the staff person who is responsible for the ongoing monitoring of the client's program to ensure it is being implemented appropriately, as well as the designated position which will implement the program.

The QIDP should be familiar with the assessment and recording requirements for each client for each formal objective, including who is responsible for making these observations and completing the recording, and demonstrate a familiarity with the current data recorded for each client.

§483.440(c)(5)(iv) The type of data and frequency of data collection necessary to be able to assess progress toward the desired objectives;**Guidance §483.440(c)(5)(iv)**

The IDT must determine the type of data necessary to judge a client's progress on an objective, and describe the data collection method in the written training program. The facility determines what data to collect, but whatever system is chosen for collection must yield accurate measurement of the criteria stated in the client's IPP objectives. For example, if the criteria in the client's IPP objective specified a behavior to be measured by "accuracy," or "successes out of opportunities," then it would not be acceptable for the prescribed data collection method to record "level of prompt".

Examples of a few data collection systems include, but are not limited to:

- level of prompt;
- successful trials completed out of opportunities given;
- frequency counts; and
- frequency sampling.

The IDT must consider and select the type and frequency of data collection for each objective based upon the need to measure appropriately the client's performance toward the targeted IPP skill development. The facility should collect data with enough frequency and content to be able to appropriately measure the client's performance toward the targeted IPP skill development. The frequency of data collection may vary with the objective but must be made at sufficient intervals to allow analysis of the progress of the client.

§483.440(c)(5)(vi) Provision for the appropriate expression of behavior and the replacement of inappropriate behavior, if applicable, with behavior that is adaptive or appropriate.

Guidance §483.440(c)(5)(vi)

The training program provides specific information as to how to elicit or strengthen appropriate behavior and what behaviors to teach reinforce or encourage which would reduce or replace the inappropriate behavior.

If a client is exhibiting an inappropriate behavior, the CFA should discover why the behavior is occurring and the team should develop associated training objectives to help the client develop more appropriate behaviors. The objective for decelerating targeted inappropriate behaviors is not solely the reduction of these behaviors. The objective should also include the positive functional replacement behavior (adaptive behavior).

A replacement behavior allows a client to substitute an unconstructive or disruptive behavior with something more constructive and functionally equivalent. For example, instead of throwing work materials as a way to get a break from vocational task demands, teach the client to say or sign for 'break'.

Guidance §483.440(c)(6)(iii)

All clients who lack the skills listed within this standard have associated training programs developed to meet their needs according to prioritization. These programs are consistently implemented in both formal and informal settings.

“Developmentally incapable” is a decision made by the IDT that means a client does not have the capacity to acquire certain skill sets. The decision must be based on an assessment of the client’s strengths, needs, and functional limitations.

The determination of developmental incapability must be accompanied by written evidence supporting this determination.

Such evidence may include training programs which failed after many different strategies were tried, or physical limitations that preclude the acquisition of the skill. Examples are:

- 1) Eye contact program was attempted using seven different methods over a two year period;
- 2) An client has two frozen elbow joints which do not allow her to get her hands to her mouth and consequently she will not be trained on any hand to mouth skills; and
- 3) Some clients may have insufficient neuromuscular and sensory control to ever be totally independent in toileting skills.

Toilet scheduling alone without any plan to progress would not be considered a toilet training program. The components of functional skills “training” as used in this regulation means aggressive implementation of a systematic program of formal and informal techniques, which are:

- targeted toward assisting the client achieving the measurable behavioral level of skill competency specified in IPP objectives;
- implemented at natural occurrences of activity and training programs; (e.g.: an objective for a client to increase grasping may be implemented as easily in the workshop with a built up tool as in the bathroom with a toothbrush);
- conducted by all personnel involved with the client including those outside the home such as in day programs; and
- carried out in conversation and interaction with the client appropriate to the situation.

§483.440(c)(6)(iv) Identify mechanical supports, if needed, to achieve proper body position, balance, or alignment. The plan must specify

Guidance §483.440(c)(6)(iv)

The use of mechanical supports are based upon an individual assessment and fitting. Mechanical devices are used to support a client’s proper body position or alignment and may be essential to prevent contractures or deformities. However, mechanical supports restrict movement and the client should be released from the support periodically for exercise and free movement. Mechanical supports may not be used as a substitute for programs or therapy. For example, the use of a bolster to position a client upright in a sitting position without any indication there has been an assessment for the need for muscle re-training may be an indication of a mechanical device in lieu of programming. Some supports allow movement and provide opportunity for more increased functioning. Some examples of devices used as mechanical supports include splints, wedges, bolsters, lap trays, etc.

Wheelchairs are not generally used to position or align the body and would not alone constitute a mechanical support. However, adaptations to a wheelchair which facilitate correct body alignment by inhibiting reflexive, involuntary motor activity are mechanical supports and should be included in the plan for the client.

Clients with sensory or physical difficulties should be given the same opportunities to move around in their environments as clients who do not have those difficulties. Even clients who use specialized wheelchairs should be given the opportunity to utilize other devices such as walkers, wagons and scooters to move about and/or change their positions.

With the exception of those clients who are acutely ill (such as those who are hospitalized or incapacitated by a “short term” illness), all clients should be out of bed and outside their bedroom area as long as possible each day, and in proper body alignment at all times. This is a necessity in order to prevent regression, contractures, and deformities and to provide sensory stimulation.

Bed rest is a temporary situation associated most usually with a medical condition and must be ordered by the medical staff of the facility. The term implies that the client will remain in his/her bed for most of any 24-hour period. Although active treatment programs may be carried out to some extent while the client is on bed rest, the client’s program cannot be completed in its entirety. While there may be situations where continuous bed rest may be necessary, these situations are rare.

For those rare instances where out-of-bed activity is a threat to a client’s health and safety (e.g., blood clot in the leg), active treatment adapted to the medical capacity of the client must be continued.

Choice and self-management are integral components of becoming independent. Clients should be given opportunities for choice and self-management in both formal and informal settings through the IPP process, leisure activities, and other life choices.

The ICF/IID must incorporate opportunities into daily life experiences that promote choice making and decision making by clients. Examples of some activities leading toward responsibility for one’s own self-management include, but are not limited to:

- 1) choosing housing or roommates;
- 2) choosing clothing to purchase or wear;
- 3) choosing what, where, and how to eat (e.g., the use of family style dining, access to condiments and second helpings).

Choices can be made by all clients. The type of choices the person makes may vary from simple to complex, dependent upon client abilities.

Clients are provided opportunities for choice and self-management and the facility does not limit choices by making decisions for the people being served without their input. Clients are provided the opportunity to demonstrate skills to the degree they are capable and only assisted by staff as indicated in their IPP. A lack of facility staffing or staff convenience must not result in a limitation of choices of self-management for the clients.

W249

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(d)(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.

Guidance §483.440(d)(1)

There should be no delay in the development and implementation of the IPP. To promote a team process and meaningful discussion, IPP development should take place during IDT meetings. Any IPP objective or modification that is critical to the health and safety of any client should be implemented immediately following IDT discussion.”

Each individual receives training and services consistent with the current IPP.

The time period between admission and the 30 day IDT meeting is primarily to assist the client to become adjusted and acclimated to his or her new living environment and to enable the facility to complete the CFA. During this time period the facility should also be providing those services and activities determined during the pre-admission assessment as essential to the client's daily functioning.

The active treatment program for the client is consistently implemented in all relevant settings both formally and informally as opportunities present themselves. It should not be limited to specific periods of time during the day or specific environments.

Each client should receive aggressive and continuous training, treatments and supports in accordance with their needs and IPP. New skills and appropriate behaviors are encouraged and reinforced across environments and times of day.

- During observations confirm that the client activities relate directly to the strengths, needs and objectives in the IPP for each client and are not “busy work,” generalized or non-developmental time fillers. For example, screwing nuts on bolts and then unscrewing them repeatedly with no goal or transferable skills is “busy work.” Screwing nuts on bolts that will be part of a product is functional reinforcement of skill acquisition.

- Clients use adaptive equipment, assistive devices, environmental supports, materials, supplies, etc., as specified in each client's IPP to assist the client to accomplish stated objectives.

There is no specific number or frequency of interventions that meets this requirement. The surveyors should see that the facility capitalizes on all opportunities throughout the course of the day that promote progress toward the achievement of goals and objectives.

Informal opportunities (“teachable moments”) should be utilized to reinforce learning or appropriate skill development and needs are addressed as they present.

Although a client may not be able to reach complete independence in a functional skill, it is crucial that retention of their current skills be supported.

Clients may have defined periods of time where they may engage in leisure activities of their choice which are not necessarily directly associated with their IPP goals and objectives.

§483.440(d)(2) The facility must develop an active treatment schedule that outlines the current active treatment program and that is readily available for review by relevant staff.

Guidance §483.440(d)(2)

The schedule is individualized, consistent with the client's objectives, and reflects normal daily routines.

The staff working with individual clients are familiar with their daily schedules and can produce the schedule upon request.

The active treatment schedule allows flexibility and is adjusted to the needs and preferences of the client, as necessary. It's a schedule of the client's general daily plans, but can be changed.

The active treatment schedule is a functional schedule which enables client and staff to be in the right location in order to participate in the training as scheduled by the IPP.

Data are those performance measurements collected at the time the treatment, procedure, intervention or interaction occurs with the client and recorded as soon as possible. The data should be located in a place accessible to staff who conduct training.

The review of the CFA applies to all evaluations conducted for a client. It is not required that each assessment be completely redone each year, except the physical examination. §483.440(f)(3) The facility must designate and use a specially constituted committee or committees consisting of members of facility staff, parents, legal guardians, clients (as appropriate), qualified persons who have either experience or training in contemporary practices to change inappropriate client behavior, and persons with no ownership or controlling interest in the facility to-

Guidance §483.440(f)(3)

The facility must have a specially constituted committee whose primary function is to proactively protect client rights by monitoring facility practices and programs. The purpose of the committee is to assure that each client's rights are protected utilizing a group of both internal staff and *external participants who have no vested interest in the facility as well as clients as appropriate*. There should be evidence that the committee members have been trained annually on the rights of the clients, what constitutes a restriction of a right and the difference between punishment and training.

Depending on size, complexity and available resources, the ICF/IID may establish more than one specially constituted committee. However, each committee must contain the required membership and participate regularly and perform the functions of the committee according to the requirements. Participation on the specially constituted committee(s) must be in real time allowing all membership to speak and discuss in an interactive mode.

The regulation does not specify the professional credentials of the "qualified persons" (who have either experience or training in contemporary practices to change inappropriate client behavior). There is no requirement that any specific discipline, such as nurse, physician or pharmacist be a member of the committee.

The intent of including "persons with no ownership or controlling interest" on the committee is to assure that, in addition to having no financial interest in the facility, at least one member of each constituted committee is an impartial outsider in that he/she would not have an "interest" represented by any other of the required members or the facility itself. Staff and consultants employed by the facility or at another facility under the same governing body, cannot fulfill the role of person with no ownership or controlling interest.

Although occasional absences from committee meetings are understandable, patterns of absence by the required membership of the committee is not acceptable. At least a quorum of committee members (as defined by the facility) must review, approve and monitor the programs which involve risk to client rights and protections and that quorum must include one person from each of the required categories.

§483.440(f)(3)(i) Review, approve, and monitor individual programs designed to manage inappropriate behavior and other programs that, in the opinion of the committee, involve risks to client protection and rights;

Guidance §483.440(f)(3)(i)

Any program that utilizes restrictive or intrusive techniques must be reviewed and approved by the specially constituted committee prior to implementation. This includes, but is not limited to:

- restraints;
- drugs to manage behavior;
- restrictions on community access;
- contingent denial of any right; or
- restrictions of materials or locations in the home.

The committee should ensure that consequences within a written behavior management program do not violate the client's rights.

There is no requirement for the committee to evaluate whether the proposed program is consistent with current practices in the field. Documentation should verify that the specially constituted committee considered factors, such as whether less intrusive methods have been attempted, whether the severity of behavior outweighs the risks of the proposed program and whether replacement behaviors are included within the plan.

Any revision to a behavior plan that increases the level of intrusiveness must be re-reviewed by the specially constituted committee. The committee need not reapprove a program when revisions are made in accordance with the approved plan. For example, if the physician changes the dosage of a medication in accordance with the drug treatment component of the active treatment plan to which the legally authorized person has given consent and which has already been approved by the committee, then there is no need for the committee or the legally authorized person to reapprove the plan. Generally, this would also apply if the medication was changed to another within the same therapeutic class or family.

The committee must ensure that written informed consent must be obtained prior to implementation of any restrictive or intrusive program. In the event of an emergency, the facility may obtain a verbal consent, which must be authenticated in writing as soon as possible and subsequently submitted to the committee as verification.

The consent is required for the entire behavior management program not just the specific restrictive technique.

Consent is informed when the person giving consent is fully aware of the:

- specific treatment;
- reason for treatment or procedure;;
- the attendant risks vs. benefits;
- alternatives;
- right to refuse; and
- the consequences associated with consent or refusal of the program.

Informed consent must be in writing and must be specific to the program and restrictive practice and reflect a specific time frame. Blanket consents are not allowed. In the case of unplanned events such as assault and property destruction requiring immediate action, verbal consent may be obtained. However, it should be authenticated in writing as soon as reasonably possible (within 30 days).

For clients up to the age of 18, their parent or legally appointed guardian must give consent for him or her. At the age of 18, however, clients become adults and are assumed to be competent unless otherwise determined by a court.

For clients who are adults and have not been adjudicated incompetent and have not been assigned a legal guardian who may not fully understand the consequences of the program, informed consent for use of restrictive programs, practices or procedures should be obtained from a person or an entity in accordance with state law, to act as the representative or advocate of the client's interests.

The specially constituted committee must ensure that the informed and voluntary consent of the client, parent of a minor, legal guardian, or the person or organization designated by the state is obtained prior to each of the following circumstances:

- The involvement of the client in research activities; or
- Implementation of programs or practices that could abridge or involve risks to client protections or rights.

The committee has been made aware of and reviewed:

- facility policies and procedures;
- facility services;
- programs; and
- practices which may restrict or violate the rights of client.

The committee has established and uses a mechanism for monitoring clients' rights issues and informs the governing body of any issues of concern in a timely manner. This process is at the discretion of the committee. There is no requirement for periodic review of the policies by the committee.

The function of the committee is not limited to the review, approval and monitoring of restrictive behavior management practices. Examples of issues involving client rights that might be reviewed by the committee, in addition to behavior management, include, but are not limited to:

- 1) Research proposals involving clients;
- 2) Abuse, neglect and mistreatment of clients;
- 3) Allegations dealing with theft of a client's personal property or funds;

§483.450(b)(1)(i) Specify all facility approved interventions to manage inappropriate client behavior;

Guidance §483.450(b)(1)(i)

All interventions for the management of inappropriate client behaviors which are approved for use in the facility are clearly stated and described in its policy. Examples of positive interventions include, but are not limited to, verbal praise reward systems, and prompting. Examples of negative interventions include, but are not limited to, removal of a privilege, implementation of restraint, and/or the use of exclusionary time out.

§483.450(b)(1)(ii) Designate these interventions on a hierarchy to be implemented, ranging from most positive or least intrusive, to least positive or most intrusive;

Guidance §483.450(b)(1)(ii)

Policies and procedures must include a clear progression as to how staff implement interventions to manage inappropriate client behavior.

Facility policy and procedures must define the entire hierarchy of possible interventions from the most positive, functionally appropriate approaches to most intrusive approaches authorized. The facility determines at what level in the hierarchy the IPP will begin for each client based on their individual assessment. The plan must still begin at the least intrusive technique shown effective for that client. Individual plans should specify the specific techniques that have been determined through assessment to be least restrictive for each client.

The facility policy for unexpected behavioral incidents must provide direction for the staff in the utilization of the hierarchy. For clients not on a behavior plan, staff must apply the appropriate level of intervention per the established hierarchy, including emergency measures to prevent harm to self or others.

§483.450(b)(1)(iii) Insure prior to the use of more restrictive techniques, that the client's record documents that programs incorporating the use of less intrusive or more positive techniques have been tried systematically and demonstrated to be ineffective; and

Guidance §483.450(b)(1)(iii)

Policies must be implemented to ensure that all restrictive procedures begin at the lowest level of the hierarchy unless there is documented evidence that less intrusive interventions have been tried and have been found to be ineffective.

The facility is not required to justify discontinuing the use of a more restrictive technique before initiating a less restrictive technique, since the intent of the regulation is to use the most positive, least intrusive technique possible.

In emergency situations where an unanticipated behavior requires immediate protection of the client or others, the technique chosen is the least restrictive appropriate technique possible.

§483.450(b)(1)(iv)(A) The use of time-out rooms;

Guidance §483.450(b)(1)(iv)(A)

“Time-out room” is defined as a separate room that is used to remove a client from stimulation that may be triggering and reinforcing maladaptive behavior. The facility must have written policies and procedures for the use of time out rooms which address all the requirements of 483.450 (c) (1-4) standard: time out room.

§483.450(b)(1)(iv)(B) The use of physical restraints;

Guidance §483.450(b)(1)(iv)(B)

“Physical restraint” is defined as any manual hold or mechanical device that the client cannot remove easily, and which restricts the free movement of, normal functioning of, or normal access to a portion or portions of a client’s body. Examples of mechanical devices may include arm splints and mittens.

Policies and Procedures must address:

- the types of physical restraint that are allowed in the facility;
- the persons who apply such restraints;
- the parameters for duration of application;
- the methods that assure the health and safety of clients while in restraints; and
- the specific training required for staff allowed to apply such restraints.

§483.450(b)(1)(iv)(C) The use of drugs to manage inappropriate behavior;

Guidance §483.450(b)(1)(iv)(C)

Applicable policies may include a discussion of:

- When a drug can be used to manage inappropriate behavior;
- Consistency with diagnosis;
- Alternatives tried before a drug is used;
- Precautions that must be followed prior to and during the use (lab values, monitoring of side effects);
- Implementation of a plan to address the behaviors for which the drug was prescribed; and
- Plan to reduce the medication as appropriate.

Drugs to manage inappropriate behavior are defined as any medication prescribed and administered for purposes of modifying the maladaptive behavior of a client.

§483.450(b)(1)(iv)(D) The application of painful or noxious stimuli;

Guidance §483.450(b)(1)(iv)(D)

“Application of painful or noxious stimuli” is defined as any procedure by which staff apply, contingent upon the exhibition of maladaptive behavior, startling, unpleasant, or painful stimuli, or stimuli that have a potentially noxious effect.

While the regulation permits the use of painful or noxious stimuli these techniques are the last resort and can only be utilized for behaviors that are causing significant harm and have not responded to competently administered interventions of less intrusive nature.

Facility policies must state that:

- The use of noxious stimuli is only permitted when the client exhibits behaviors so severe that they present a potential risk for significant or even life-threatening circumstances;
- the IDT and facility must weigh the potential risk of the behavior against the risk involved in the use of the painful or noxious techniques to manage behavior;

- that safeguards and strict oversight must be in place for consideration to use techniques that may be painful or even unpleasant;
- techniques that may be painful or noxious must be time limited;
- the proposed use of these techniques requires scrutiny of clinical effectiveness and specially constituted committee review; and
- on-going monitoring and safeguards must be in place during implementation of the technique.

Guidance §483.450(b)(1)(iv)(F)

Procedures should also address what retrospective analysis is done on each intervention to ensure that procedures are being consistently followed.

§483.450(b)(3) for disciplinary purposes,

Guidance §483.450(b)(3)

No intervention, whether as a part of a formal program or in emergency situations (see W289) may be used as punishment, retaliation or retribution. A staff member cannot employ a behavior management technique simply because a client refuses to follow a staff request.

The implementation of all interventions, except in emergency situations, must be administered consistent with the IPP and the specific behaviors identified in the IPP requiring the intervention. Instances where an intervention is done as a punishment because the client did not comply with staff instructions and not associated with the IPP include:

- Personal property confiscated for behavior at staff discretion;
- Rights restricted without approved plans; and
- Punitive house rules, such as prohibiting reentry into the kitchen for snacks if a meal is not eaten completely.

Guidance §483.450(b)(3)

Inadequate numbers of staff, inefficient deployment of staff, and insufficient training of staff can lead to restrictive practices used for staff convenience.

Examples of techniques used to manage client behavior for staff convenience including, but are not limited to:

- Clients allowed to discipline other clients;
- Clients restricted to one area of the home; and
- Unauthorized use of restraints (e.g., lap trays, bean bags, gait belt, and merry walkers for the purpose of restricting movement)

§483.450(b)(3) or as a substitute for an active treatment program.

Guidance §483.450(b)(3)

Substitutions for active treatment programming occur when the staff utilizes interventions and restrictive techniques on their own, either because there is not a formal behavioral program to address the client's behaviors or because the staff do not follow the plan as written.

W289

§483.450(b)(4) The use of systematic interventions to manage inappropriate client behavior must be incorporated into the client's individual program plan, in accordance with §483.440(c)(4) and (5) of this subpart.

Guidance §483.450(b)(4)

The use of behavior interventions are expected to be incorporated into the IPP and be based upon the results of the functional behavioral assessment.

However, there may be isolated and rare instances when a client exhibits unexpected behavior that requires immediate intervention on the part of the staff. In these instances, the least restrictive intervention must be employed and removed as soon as the client is no longer an immediate threat to self or others. The IPP team must then discuss the need for adding a behavioral plan into the clients program.

W290

§483.450(b)(5) Standing or as needed programs to control inappropriate behavior are not permitted.

Guidance §483.450(b)(5)

The staff of the facility may not maintain or use, outside of the IPPs, any list of "as needed" interventions that can be used with any client at any time. With the exception of isolated and rare emergency situations, all restrictive behavior interventions must be incorporated into the formal IPP and individualized for the client.

(c) Standard: Time-out rooms

W291

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(c)(1) A client may be placed in a room from which egress is prevented only if the following conditions are met:

(i) The placement is a part of an approved systematic time-out program as required by paragraph (b) of this section. (Thus, emergency placement of a client into a time-out room is not allowed.)

(ii) The client is under the direct constant visual supervision of designated staff.

(iii) The door to the room is held shut by staff or by a mechanism requiring constant physical pressure from a staff member to keep the mechanism engaged.

Guidance §483.450(c)(1)

Seclusion, defined as the placement of a client alone in a locked room, is never allowed.

Time out procedures allows a client to be alone in a room, but do not allow that room to be locked. During a time out procedure, egress can only be prevented by a person standing in the door way, or holding the door closed, but as soon as the staff move from the door way or let go of the door the client can come out.

Use of the timeout room or procedure must be part of an approved behavioral plan and may involve the separation of a client from a group or a particular situation, in a non- locked setting for the purpose of calming or removing the client from the reinforcing stimuli that are sustaining an identified maladaptive behavior.

Designated time out rooms must be set up so that the staff has continuous, direct observation of the client at all times. Because of the danger that staff can get distracted by other events or duties, this cannot be accomplished by a camera in lieu of the staff having direct visual of the client.

Key locks, latch locks, and doors that open inward without an inside doorknob are not permitted by the regulations for use in time out rooms as they do not require constant physical pressure from a staff member to keep the door shut. In each instance where a time out room is used, the client's IPP must include:

- The functional behavioral assessment which resulted in a recommendation for the use of time out procedures; and
- Instructions on how often data is to be collected during the time out period and the criteria for release from time out.

The use of a time out room must be approved by the Specially constituted committee as part of an approved program.

W292

§483.450(c)(2) Placement of a client in a time-out room must not exceed one hour.

§483.450(c)(3) Clients placed in time-out rooms must be protected from hazardous conditions including, but not limited to, presence of sharp corners and objects, uncovered light fixtures, unprotected electrical outlets.

Guidance §483.450(c)(3)

Because placement in the time out room is typically secondary to extreme behaviors, it is acceptable that there be no furniture in this room.

A door that opens inward can potentially be held closed, either intentionally or inadvertently, by the client in the room, thereby denying staff immediate access to the room.

W294

§483.450(c)(4) A record of time-out activities must be kept.

Guidance §483.450(c)(4)

The documentation in the client's record accurately reflects planned (e.g. part of the IPP) usage and presents a picture of events prior to, during, and following the use of time-out. The IPP should include direction as to how often data must be collected during each use of time out for each individual client.

(d) Standard: Physical restraints

§483.450(d)(1) The facility may employ physical restraint only- -

§483.450(d)(1)(i) As an integral part of an individual program plan that is intended to lead to less restrictive means of managing and eliminating the behavior for which the restraint is applied;

Guidance §483.450(d)(1)(i)

The use of physical restraint is specified within the IPP. The plan must address:

- 1) The specific type of client behavior to be managed by this plan;
- 2) The less restrictive behavioral approaches which were previously used, but were unsuccessful;
- 3) The hierarchy of measures that must be utilized prior to the application of physical restraint;
- 4) The type of physical restraint;
- 5) The type of client behavior that would indicate that the patient is calm and can be released from the restraint; and
- 6) The replacement behavior being taught to the client to reduce the need for future restraints.

W296

§483.450(d)(1)(ii) As an emergency measure, but only if absolutely necessary to protect client or others from injury; or

Guidance §483.450(d)(1)(ii)

Physical restraint may be used as an emergency intervention only in situations where the client is exhibiting behaviors which:

- 1) the client has not exhibited before;
- 2) were not identified in the functional analysis of behavior; or
- 3) are harming other people or themselves.

When there are repeated episodes of the use of physical restraint as an emergency safety measure, these episodes should be assessed for their predictability by the IDT, and revisions to the IPP considered addressing the behaviors through a formal behavior plan in order to reduce/eliminate the use of physical restraint.

W297

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(1)(iii) As a health-related protection prescribed by a physician, but only if absolutely necessary during the conduct of a specific medical or surgical procedure, or only if absolutely necessary for client protection during the time that a medical condition exists.

Guidance §483.450(d)(1)(iii)

Physical restraint during medical procedures must be utilized only when absolutely necessary and be used as a last resort in order for the facility or practitioners to deliver needed medical care to the client. The restraint must be released as soon as the medical procedure is completed unless it is necessary to continue restraint for a longer period of time to continue to deliver care or to prevent the client from displacing tubes or dressings. These restraints may only be used as long as the physician indicates them to be necessary.

For instances where physical restraint are used by the facility or a practitioner during a medical procedure, the client record and interviews should verify that less restrictive measures were attempted before using physical restraint and verify whether any injuries occurred during the use of the physical restraint. Written orders by medical personnel for the application of a physical restraint should include the reason that the restraint is necessary, the type of restraint to be used and the length of time the restraint will be applied.

A restraint device used to prevent a client engaging in self-injurious behavior is not considered a restraint for medical condition.

§483.450(d)(2) Authorizations to use or extend restraints as an emergency measure must be:

Guidance §483.450(d)(2)

Facility policies should list who in the facility is allowed to authorize the emergency use of restraints or to extend the use of an emergency restraint, and the training that is required for those persons who may authorize. Documentation in the client record in those instances should confirm that the facility follows that policy.

W298

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(2)(i) In effect no longer than 12 consecutive hours; and

Guidance §483.450(d)(2)(i)

This regulation does not mean that restraints may be authorized to be applied for up to a 12 hour period. The client must be released from the physical restraint as soon as the client is no longer a risk to self or others. Once the behavior has ceased, the emergency has ended, and the client has been released, another authorization would be required for any new emergency situation.

The 12 consecutive hour period is the absolute maximum period of time that emergency physical restraint may be utilized for a client during an individual behavioral incident. It is reasonable to expect that the facility will reassess the emergency situation for any client who remains in physical restraint for longer than one hour and reassess the situation at least every 30 minutes thereafter up to 12 hours when the physical restraint must be removed.

§483.450(d)(2)(ii) Obtained as soon as the client is restrained or stable.

Guidance §483.450(d)(2)(ii)

There may be instances where the maladaptive behaviors of a client or clients escalate into a serious and immediate event that must be de-escalated quickly in order to prevent harm to clients, staff, other

clients, or by standers when incidents occur in the community. In these instances, the staff should contact the appropriate person to obtain authorization for the use of physical restraint as soon as the situation is stable. Retrospective documentation of the incident should confirm the need for authorization after application.

§483.450(d)(3) The facility must not issue orders for restraint on a standing or as needed basis.

Guidance §483.450(d)(3)

§483.450(d)(4) A client placed in restraint must be checked at least every 30 minutes by staff trained in the use of restraints,

Guidance §483.450(d)(4)

The frequency of monitoring will vary according to the type and design of the device and the psychological and physical well-being of the client. The facility should be checking the client often enough to adequately assess the physical status of the client (e.g., circulation, respiration and vital signs) of the client and the need to continued restraint. The more restrictive the intervention, the greater the risk to the client and the more often the client must be assessed. Frequent assessment will assure that the client will be released as soon as possible, however, in no instance may the staff go longer than 30 minutes without checking the client.

§483.450(d)(6) for a period of not less than 10 minutes during each two hour period in which restraint is employed,

Guidance §483.450(d)(6)

This requirement does not apply to cases of medical restraints that are specifically ordered for the immobilization of bones and joints during the physical healing process involved with fractures, sprains, etc. (e.g. a broken bone immobilized by a cast or splint).

See 331 483.460(c) regarding surveillance of skin integrity during the use of medical restraints. However, if a mechanical physical restraint is applied to an extremity to prevent a client from removing post-operative sutures, the restraint must be released every two (2) hours for a period of not less than ten (10) minutes in order to maintain adequate circulation.

Mechanical restraints placed on the client during sleeping hours must be medically based and specifically ordered by a physician. There should be evidence in the client's record why the mechanical physical restraint is necessary during sleeping hours. While it is not necessary to wake the client every two (2) hours to release the restraint and provide opportunity for exercise, the staff must check the restraint frequently during the night to ensure that the restraint is still properly applied and the client appears comfortable.

§483.450(d)(7) Barred enclosures

Guidance §483.450(d)(7)

A bed or play equipment with bars that prevent the client from leaving the bed or voluntarily climbing out of the bed are barred enclosures. The use of such enclosures must be a part of the written IPP and behavioral assessments must clearly state why such an enclosure is necessary, the risks of using the enclosure versus not using it and what less restrictive measures have been tried prior to the implementation of the barred enclosures.

Such devices may not be used in lieu of adequate staffing.

§483.450(e)(1) The facility must not use drugs in doses that interfere with the individual client's daily living activities.

Guidance §483.450(e)(1)

Clients are alert and available for participation in daily living activities.

Some medications administered for medical reasons or to manage behavior may cause drowsiness as a side effect or due to an accumulation of the drug in the client's system. For clients who are observed to be sleeping in chairs during their work day, their programs or recreational times, there should be evidence that the facility staff notified the medical staff and an assessment was performed of the client including their medication regimen. Medical staff should make adjustments to address the issue if indicated.

§483.450(e)(2) Drugs used for control of inappropriate behavior must

§483.450(e)(2) be approved by the interdisciplinary team and

Guidance §483.450(e)(2)

The physician and other team members discuss the risks and benefits of the medication to address the target behavior/symptoms, and approve the use of the drug as being consistent with the active treatment program. Decisions about the necessity of the use of drugs to manage inappropriate behavior should be made by the IDT. It is the responsibility of the IDT members to provide the physician with sufficient information regarding the need for a client to receive a drug for inappropriate behavior. The physician will make the ultimate decision to order the use of the drug. The IDT should document any disagreement with the physician's order.

In those instances where a client returns from a physician's visit with an order for an unsolicited drug to manage client's inappropriate behaviors, there must be evidence (e.g. IDT meeting notes or clients record) that the team concurred with the necessity for the order without trying less restrictive measures first and discussed any concerns with the physician.

§483.450(e)(2) be used only as an integral part of the client's individual program plan that is directed specifically towards the reduction of and eventual elimination of the behaviors for which the drugs are employed.

Guidance §483.450(e)(2)

All medications to manage behavior must be integrated into the IPP and the IPP must specify how the specific target behavior for which the medication is prescribed will be reduced or eliminated. This includes medications which are typically used for medical conditions that may be used to manage behavior (e.g. 1. propranolol (Inderal), an antihypertensive used for self-injurious behavior, and 2. carbamazepine (Tegretol), an anticonvulsant, used for aggression).

Drugs for behavior management must not be ordered on a PRN basis for a client. The facility staff must contact the physician to obtain a one-time order if the situation necessitates the use of medication. The facility policy must address the maximum number of times a medication can be used as an emergency prior to being incorporated in the IPP, side effects of such medications, and the frequency of re-evaluation of ongoing behavior and its treatment.

Clients or their legal guardian have the right to choose sedation for medical and dental procedures. However, the facility cannot do routine administration of medication for sedation for medical and dental procedures without the agreement/consent of the client or their parent/legal guardian and they must follow the specific orders of the healthcare practitioner who will be providing services to the client. Decisions to order medications prior to medical and dental procedures must be made on an individual basis. Clients who demonstrate severe anxiety around these procedures should be considered for desensitization programs.

The risk(s) associated with the drug being used is consistent with the type and severity of the behavior/symptoms it is intended to affect.

At the time the drug was started and incorporated into the IPP, the behaviors were discussed and presented to team members. It was the documented decision of the team that the behaviors were of such a severity that pharmacological intervention was required and the physician was provided with the team information to assist him in his decision to prescribe the medication.

Progress or regression of the client is monitored and taken into consideration in determining the rate of withdrawal and whether to continue withdrawal.

In determining whether there is clinical contraindication to the annual drug withdrawal, the physician and IDT should consider the client's clinical history, diagnostic/behavioral status, previous reduction/discontinuation attempts, and current regimen effectiveness.

If a client also has a diagnosis of a psychiatric condition that requires a stable level of a psychiatric medication in order to control the symptoms associated with the psychiatric diagnosis, the annual evaluation for reduction of that particular medication for the symptoms of the psychiatric diagnosis would not apply. Documentation in the client's record from their psychiatrist or physician that medication reduction would be contraindicated or that the current level of medications is therapeutic meets the intent of this regulation.

A designated physician must be available via telephone, pager, e-mail or on-site in the facility on a 24 hour per day basis for consultation regarding both emergency and non-emergency medical issues. If the facility employs a fulltime physician, there must be procedures in place for coverage in the absence of the physician from the facility.

If the facility contracts with a community-based physician for 24 hour per day coverage, there must be written arrangements in place to detail the responsibilities of the contract physician regarding direct services to the clients, interactions with the direct support staff and the interactions between the nursing staff of the facility and the contract physician. The contract with the contract physician must delineate the process for coverage when he/she is not available.

Upon interview, the staff should be aware of the procedures they are to follow to contact a physician in the event of an illness or injury. Routinely sending clients to emergent care or the emergency room of a hospital because there are no facility physicians available for consultation is not consistent with the regulations.

Interview and record review verify that the physician is available and responsive 24 hours a day.

§483.460(a)(2) The physician must develop, in coordination with licensed nursing personnel, a medical care plan of treatment for a client if the physician determines that an individual client requires 24-hour licensed nursing care.

Guidance §483.460(a)(2)

A medical care plan of treatment is developed for those clients who are either acutely ill and require licensed nursing care and monitoring temporarily on a 24 hour basis or clients whose chronic medical conditions require or indicate 24 hour licensed nursing care and monitoring. The physician determines when 24 hour nursing care is required.

The medical care plan is based upon the orders from the physician for treatments and care and nursing standards of practice. There is evidence in the client's record that the physician and the nursing staff at the facility work together to ensure that the medical care plan is current and appropriate (e.g. changes in physician written orders for care pursuant to observations from the nursing staff and/or direct observations and interactions with the client, and nursing documentation of care).

The fact that a client has a medical care plan in place should not preclude him/her from an active treatment program, except in instances of acute illness where the active treatment program is temporarily suspended. For clients with chronic medical conditions, it may be necessary for their active treatment program to be modified due to the tolerance level of the client or adapted to accommodate medical limitations. However, active treatment must be provided on a continuous basis.

Guidance §483.460(a)(3)

The facility has procedures in place to ensure that the clients receive general health care services to assure optimal levels of wellness. General health care services include assessment and treatment of acute and chronic complaints or situations; teaching relevant health care principles to staff and clients; and periodic surveillance of the health status of the clients.

As a result of clinical assessment, referrals are made for specialized assessment and tests. Facility health care staff follow-up to ensure the assessments are done and the findings incorporated into the medical care plan and/or the IPP.

The facility must have arrangements in place to provide routine or episodic laboratory, and radiology services for the clients if not provided in-house or through the clients physician. There must be a written agreement that specifies the responsibilities of the facility and outside provider. (See §483.410(a)).

Preventive health care services include screening procedures designed to identify health concerns and initiate treatment as early as possible. The facility should have a health prevention program in place and follow the plan to address those screenings that the facility will perform periodically that are relevant to all clients, and those screenings associated with a particular gender or age or vulnerability.

Physician refusal to perform a test, such as a pap smear, must be consistent with guidelines for clients, per the local standard in the community.

If the facility has a physician that refuses to provide preventative healthcare based on the client's level of functioning, medical staff at the facility should meet with and consult with this physician in order to ensure that clients receive the same health services as persons living in the local community.

§483.460(a)(3)(i) Evaluation of vision and hearing;

Guidance §483.460(a)(3)(i)

Information relevant to the client's ability to see and hear is a critical component in the development of appropriate active treatment strategies.

All clients, including clients who are non-verbal, should have evidence in his/her record that they receive an annual evaluation of their vision and hearing which includes a screening as a minimum, follow-up examination as indicated by the screen and timely referrals as indicated by the examination. Screening is a gross assessment of the client's vision and hearing and usually does not include a measurement of acuity. Examinations are conducted to follow-up on issues noted in the screening and are conducted by qualified professionals.

Clients who appear to have vision or hearing problems or the staff indicate that they have vision or hearing problems and no accommodations have been made. The annual vision and hearing evaluation verifies that clients appearing to have vision/hearing issues or if staff indicate that a client has vision/hearing issues that these issues have been/are being addressed.

If a client's vision or hearing can only be assessed through examinations conducted by specialists (e.g., comprehensive ophthalmological examinations and evoked response audiometry (ERA)), these tests need not be conducted yearly, but rather upon the specialist's expressed recommendations. During discussions at the annual IPP review the team reviews information from the health professional, speech and hearing professional, and direct support staff and makes referrals back to the specialist if indicated.

- 5) Policies and procedures for treatment and precautions to be used with clients who display TB symptoms, as substantiated by positive skin testing or x-ray results; and
- 6) Policies and procedures for the evaluation of the effectiveness of the surveillance system.

When one or more clients or staff display TB symptoms, as substantiated by positive skin testing or x-ray results, they do not return to work until a physician has cleared them to return to work.

The physician's input may be by means of written reports, evaluations, and recommendations.

The physician (consistent with Medicaid Utilization Control regulations at §456.380) must evaluate the client at the time of admission to identify all diagnoses and complaints, provide orders for all medications and treatments and provide recommendations for restorative and rehabilitative services.

§456.380 requires that a physician conduct this initial assessment therefore, it may not be done by a physician extender (e.g., Physician assistant or Advanced Practice Registered Nurse).

Guidance §483.460(b)(2)

The need for physician participation on an individual client's IPP team is determined by the medical needs of the client. How the physician participates (whether through written report, telephone consultation, attendance at the meeting, etc.) is to be left to the discretion of the facility. In instances where a client has no overriding medical issues, the nurse of the facility can represent the medical component on the IDT process or consult with the appropriate physician and share the information with the team. However, in situations where a client's medical condition is unstable/fragile to the extent that it impacts the training/work that may be planned, the physician must participate in providing guidance on the types and extent of programs that would be appropriate considering the client's physical/medical limitations. If a client is noted to be having difficulty participating in the objectives set forth in his/her IPP due to serious medical concerns, review the input that was provided by the physician into the development of the plan and whether the IPP team requested such input.

An eventful year medically would include a year which required unplanned hospital admissions or in which medical issues necessitated treatment for a prolonged or continuing period. However when a client has had an eventful year medically or current medical/health concerns, this could have an impact on their objectives and accordingly the nurse should participate in the IDT discussion directly.

§483.460(e)(1) The facility must provide or make arrangements for comprehensive diagnostic and treatment services for each client from qualified personnel, including licensed dentists and dental hygienists either through organized dental services in-house or through arrangement.

Guidance §483.460(e)(1)

It is expected that the clients will obtain dental services (both diagnostic and treatment) from community dentists whenever possible. In some instances, there may be clients residing in the facility who are physically unable to travel to the community for services. The facility must secure dental services (both diagnostic and treatment) for these clients either through an in-house program, which is part of the organizational and administrative structure of the facility, or through a written agreement with an outside dental service to come into the facility to provide such services.

§483.460(e)(2) If appropriate, dental professionals must participate, in the development, review and update of an individual program plan as part of the interdisciplinary process either in person or through written report to the interdisciplinary team.

Guidance §483.460(e)(2)

Reports of dental care may be submitted to the IDT for inclusion in their discussions surrounding either development of the plan or update to the plan. This includes procedures a client may have had or be having during the plan development period, such as root canal or singular extractions. Actual attendance at the IDT meeting by the dentist may be left to the request of the IDT.

§483.460(e)(3) The facility must provide education and training in the maintenance of oral health.

Guidance §483.460(e)(3)

Formal or informal training in the maintenance of oral hygiene is provided to clients who require it, and to those staff who are responsible for carrying out such activities. The IPP should include an assessment of the client's ability to perform oral hygiene independently and an associated program if the client is not independent.

Guidance §483.460(f)(1)

A "month" is defined as the interval between the date of admission and close of business of the corresponding day in the following month.

A complete intraoral examination includes an oral cancer screen.

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(i) The facility must provide or make arrangements for the provision of routine and emergency drugs and biologicals to its clients. Drugs and biologicals may be obtained from community or contract pharmacists or the facility may maintain a licensed pharmacy.

Guidance §483.460(i)

The facility either has an onsite pharmacy or has formal arrangements in place for the provision of routine, unanticipated, or emergency drugs. There are no instances where a client does not receive needed medications due to the unavailability of drugs.

(j) Standard: Drug regimen review

W362

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(j)(1) A pharmacist with input from the interdisciplinary team must review the drug regimen of each client at least quarterly.

Guidance §483.460(j)(1)

The primary function of the pharmacist during the quarterly drug review is to identify possible drug interactions, check for evidence of any side effects associated with the drug usage, determine if laboratory results associated with the drug are within normal limits and verify that the facility is administering the medication appropriately and to comment upon the efficacy of the drug use (e.g. blood sugar controlled, blood pressure within normal limits). In the case of drugs used to manage behavior, the pharmacist may need information from the IDT to determine efficacy. See Appendix PP, Indicators for Surveyor Assessment of the Performance of Drug Regimen Reviews, to the State Operations Manual (Pharmaceutical Service Requirements in Long Term Care Facilities).

W363

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(j)(2) The pharmacist must report any irregularities in clients' drug regimens to the prescribing physician and interdisciplinary team.

Guidance §483.460(j)(2)

The physician and IDT members must discuss, document and take necessary follow-up action for any irregularities noted.

W364

§483.460(j)(3) The pharmacist must prepare a record of each client's drug regimen reviews and the facility must maintain that record.

W365

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(j)(4) An individual medication administration record must be maintained for each client.

W366

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(j)(5) As appropriate the pharmacist must participate in the development, implementation, and review of each client's individual program plan either in person or through written report to the interdisciplinary team.

Guidance §483.460(j)(5)

Pharmacist participation on the IDT is at the request of the team. It would not be necessary for the pharmacist to routinely attend all team meetings when the client is on a stable drug regimen that does not appear to be influencing his/her active treatment programs. Pharmacist participation may be appropriate, in situations such as assisting the IDT develop the most effective training programs for when the client is in an evolving situation with their medication.

For example:

- A client begins a new or more complex drug regimen;
- The physician orders off-label use of a medication;
- Frequent changes in the drug regimen are affecting IPP implementation.

A medication error is an observed discrepancy during the medication pass between what is ordered and what is administered.

This also applies to self-administered medications.

For small facilities (16 beds or less), the medication administration pass will encompass a total of eight (8) drug doses. The observations should be split between two separate drug passes 4/4 (one in the morning and one in the late afternoon or early evening). The medications observed during the observations may or may not be for clients in the survey sample. Any concerns regarding a medication that is about to be administered should be brought to the attention of the person administering the medication. The record of observation should be reconciled with the most current signed physician's orders.

For large facilities (17 or more beds) with either single or multiple buildings, the medication administration pass will encompass a total of 12 doses. The observations should be split between two separate passes 6/6 (one in the morning and one in late afternoon or early evening). Any concerns regarding a medication that is about to be administered should be brought to the attention of the person administering the medication. The record of observation should be reconciled with the most current signed physician's orders.

Unlicensed personnel administer only those forms of medication which state law permits. Licensed nurse(s) in the facility oversee any administration of medications by unlicensed persons and periodically evaluate their performance.

The IDT decision that a self-administration program is appropriate, as is the case for all formal training objectives, must be based upon accurate, current, valid assessment of the client's skills and potential. The determination as to the appropriateness of a self-administration program must never be made singularly on the client's diagnosis or current functional abilities.

For clients assessed to be inappropriate for a self-administration program, but determined by the IDT to possess the capacity to functionally, cognitively, emotionally or developmentally benefit from participation in the drug administration process, it is expected that the facility will provide opportunities for the client to participate in the medication administration process under direct supervision. This participation can include but is not limited to, identifying the medication taken, reaching/grasping a cup of water during the process and placing oral medications in the mouth, etc.

While the IDT may set an objective of self administration of medication for a client, they are required to notify the client's physician of this proposed objective. If the client's physician objects on medical grounds, the team must not proceed with the objective until such time as a discussion is held with the physician and he/she agrees to proceed after receiving additional information.

The written self-administration program for a client must detail the criteria that will be employed by the facility staff to verify that the client successfully completes all phases of the program and continues to comply with all necessary requirements for self administration. Clients who self-administer medications must secure all medications in such a manner as to protect access by other clients or visitors.

Guidance §483.460(l)(2)

Drugs that are self-administered do not have to be double locked. The purpose for the double locking is to limit access to scheduled drugs. Since the client is generally the only one who has access to his/her drug supply (with perhaps the exception of a licensed nurse or whoever has overall responsibility for medication administration at the facility and a facility’s Director of Nursing Services, who may have access to all of the facility’s drug supplies), there is no need to further limit access.

If the facility performs laboratory services, it must have a current, valid Clinical Laboratory Improvement Amendment (CLIA) certificate for the types of tests it is performing.

For the purposes of this regulation, a “laboratory service or test” is defined as any examination or analysis of materials derived from the human body for purposes of providing information for the diagnosis, prevention, or treatment of any disease or impairment of, or the assessment of the health of human beings.

W394**(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)****§483.460(n)(1) If the laboratory chooses to refer specimens for testing to another laboratory, the referral laboratory must be certified in the appropriate specialties and subspecialties of service in accordance with the requirements of part 493 of this chapter.****Guidance §483.460(n)(1)**

A facility performing any laboratory service or test must have applied to CMS, and received a Certificate of Waiver, Certificate of Compliance, or Certificate of Accreditation. An application for a Certificate of Waiver may be made if the facility performs only those tests on the waived list. A complete list of waived tests can be found at: <http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfClia/analyteswaived.cfm>.

If the facility performs any test, not appearing on the waived list, a Certificate of Compliance or Certificate of Accreditation is required. An appropriate CLIA certificate is required regardless of the frequency with which the laboratory services or tests are conducted. When no tests are performed, a CLIA certificate is not needed. Facilities only collecting specimens and not performing testing do not need a certificate.

A not-for-profit, a state, or local government organization may have one certificate covering all the facilities it operates (e.g., all the separately certified residences which fall under its governing body), if no more than a total of 15 types of waived or moderately complex laboratory tests are used. This exception applies only to laboratories performing limited public health testing. See State Operations Manual (SOM) 6008. Each location where a laboratory tests are performed must file a separate application to be separately certified unless the laboratory meets one of the exceptions outlined at 42CFR493.35(b), 493.443(b), or 493.55(b).

Any laboratory located in a state that has a CMS-approved laboratory program is exempt from CLIA certification. Currently there are two states with approved programs: Washington and New York. New York has a partial exemption; therefore, if the laboratory is located in New York, contact the New York State Agency to determine if the exemption applies.

Guidance §483.470(b)(2)

The intent of the regulation is to prohibit the housing of clients in basements that are entirely below grade. Clients may be housed on the lower level of housing (e.g. a bi-level house), provided the window height requirements are met and the window is of sufficient size to be used as a means of escape.

(ii) Documents the reason why housing in a room of only four or fewer persons would not be medically feasible.

Guidance §483.470(b)(3)

The medical care plan for each client housed in a room with more than four clients should indicate the need for continuous monitoring. The medical care plan will include:

and individual closet space in the client's bedroom with clothes racks and shelves accessible to the client.

Guidance §483.470(b)(4)(iv)

Closets should have enough space for a reasonable amount of the current season's clothing.

Clients who use wheelchairs or have other physical challenges can reach the racks and shelves in their closets.

The facility is permitted either to provide the client with an individualized closet or with a designated area in a shared closet. The use of central clothing bins in a facility clothing room, in the absence of required client closet space in the bedroom, is not an acceptable practice.

(c) Standard: Storage space in bedrooms.

The facility must provide—

W422

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Space for equipment for daily out-of-bed activity for all clients who are not yet mobile, except those who have a short-term illness or those few clients for whom out-of-bed activity is a threat to health and safety; and

Guidance §483.470(c)(1)

Sufficient space that permits the use of wheelchairs, walkers and other adaptive equipment should be provided within the bedroom.

W423

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) Suitable storage space, accessible to clients, for personal possessions, such as TVs, radios, prosthetic equipment and clothing.

Guidance §483.470(c)(2)

Each client should have storage in their bedroom for their personal belongings. Clients should have free access to this storage without the assistance of staff. If it is necessary for clients' personal belongings

to be locked due to the behavior of other clients, the client must still be provided free access to his own possessions (See W137 for requirements for locked areas).

(d) Standard: Client bathrooms

The facility must—

W424

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Provide toilet and bathing facilities appropriate in number, size, and design to meet the needs of the clients;

Guidance §483.470(d)(1)

In a home setting, the toilet facilities need to be of sufficient number to meet the needs of the client without prolonged delay. There must be enough toilets in the living units to meet the program needs of the clients at any given time, as well as provide for intermediate toileting needs of the clients living in the unit.

In a home setting, it may be unrealistic to say a client would never have to wait for a shower or bath or to brush his/her teeth.

Bathrooms and fixtures must be adapted to accommodate clients with physical disabilities.

W425

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) Provide for individual privacy in toilets, bathtubs, and showers; and

Guidance §483.470(d)(2)

A bathroom containing multiple toilets, showers or bathtubs, must have doors, curtains, or some other means of protecting the client from view when fully or partially unclothed.

Clients should not be able to be seen through the door or window by passersby when they are using the bathrooms.

Client privacy does not preclude the assistance provided by facility staff when necessitated by the client's condition.

W426

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) In areas of the facility where clients who have not been trained to regulate water temperature are exposed to hot water, ensure that the temperature of the water does not exceed 110° Fahrenheit.

(e) Standard: Heating and ventilation.

(1) Each client bedroom in the facility must have—

W427

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) At least one window to the outside; and

(See also W415)

W428

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(ii) Direct outside ventilation by means of windows, air conditioning, or mechanical ventilation.

(2) The facility must—

W429

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) Maintain the temperature and humidity within a normal comfort range by heating, air conditioning or other means; and

Guidance §483.470(e)(2)(i)

A "normal comfort range" in most instances is defined as not going below a temperature of 68 degrees Fahrenheit or exceeding a temperature of 80 degrees Fahrenheit in facilities in most geographic areas of the country.

In extremely hot or extremely cold weather, precautions are taken by the facility to protect the clients, particularly those who are medically compromised, from ill effects of the temperature.

W430

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(ii) Ensure that the heating apparatus does not constitute a burn or smoke hazard to clients.

Guidance §483.470(e)(2)(ii)

Refer to Life Safety Code Chapters 32 and 33

Unvented fuel fired heaters are prohibited. NFPA 101 2000 Edition.

32/33.2.5.23

(f) Standard: Floors.

The facility must have—

W431

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Floors that have a resilient, nonabrasive, and slip-resistant surface.

W432

§483.470(f) (2) Nonabrasive carpeting, if the area used by clients is carpeted and serves clients who lie on the floor or ambulate with parts of their bodies, other than feet, touching the floor; and

§483.470(f) (3) Exposed floor surfaces and floor coverings that

W433

promote mobility in areas used by clients,

W434

and promote maintenance of sanitary conditions.

§483.470(g) Standard: Space and Equipment

The facility must—

W435

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Provide sufficient space and equipment in dining, living, health services, recreation, and program areas (including adequately equipped and sound treated areas for hearing and other evaluations if they are conducted in the facility) to enable staff to provide clients with needed services, as required by this subpart and as identified in each client's individual program plan.

Guidance §483.470(g)(1)

Staff and clients must have the space, materials and equipment needed to implement formal and informal active treatment programs.

There must be sufficient space to accommodate group activities, including groups with clients who use wheelchairs.

Recreational supplies, equipment, and materials are available and reflect the interests, physical abilities and chronological age of the clients.

W436

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) Furnish, maintain in good repair, and teach clients to use and to make informed choices about the use of dentures, eyeglasses, hearing and other communications aids, braces, and other devices identified by the interdisciplinary team as needed by the client.

Guidance §483.470(g)(2)

The term “furnish” means that the facility is responsible for obtaining or purchasing these items once an assessment has identified the need and is responsible for making any necessary arrangements for the client to receive them. Clients’ personal funds should not be used for these items since this is a covered service under the ICF/IID benefit.

The term “maintain in good repair” means that the facility is responsible for ensuring that these items are kept in good working order, and is responsible for any resulting expense that may be incurred.

Programs must be in place, when identified by assessment and determined by the ID team, to teach clients about the use and care for their equipment to the extent of their capabilities.

W437

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) Provide adequate clean linen and dirty linen storage areas.

Guidance §483.470(g)(3)

Clean linen must be separated from dirty linen and stored in a manner which prevents contamination. Linen soiled with bodily fluids must be stored separately and in a manner which protects clients from exposure to possible infectious sources.

A bedroom hamper can be an acceptable dirty linen storage “area” if kept odor free and consistent with the infection control requirements at §483.470(1).

(h) Standard: Emergency plan and procedures.

W438

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) The facility must develop and implement detailed written plans and procedures to meet all potential emergencies and disasters such as fire, severe weather, and missing clients.

Guidance §483.470(h)(1)

These plans may include identification of transportation and alternative shelter needs in cases when the facility must be evacuated and may incorporate state-specific emergency preparedness requirements as applicable.

W439

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) The facility must communicate, periodically review, make the plan available, and provide training to the staff.

Guidance §483.470(h)(2)

“Periodic review” is a judgment made by the facility based on the circumstances of the facility. If the facility changes its physical plant or if changes external to the facility necessitates a review of the disaster plan, then the facility is responsible for carrying out the review.

Interview staff about where emergency plans and procedures are located and what the facility policy is regarding how often, and under what circumstances the plans and procedures are reviewed and updated.

(i) Standard: Evacuation drills.

(1) The facility must hold evacuation drills

W440

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

at least quarterly for each shift of personnel

Guidance §483.470(i)(1)

Life Safety Code NFPA 101, 2000 Edition (LSC):

Chapter 32/33 code: Clients have to participate in an evacuation drill each shift at least quarterly.

Chapter 18/19 code: There must be an evacuation drill on each shift at least quarterly. This drill is designed to train staff on evacuation procedures.

Review facility records to verify that evacuations drills are held each shift at least once in each 3-month period.

Refer to (S&C 10-26-LSC)

and under varied conditions to—

Guidance §483.470(i)(1)

Life Safety Code NFPA 101, 2000 Edition (LSC):

Chapter 32/33: Expects that all clients living in that unit are capable of self-evacuation during an emergency. This self evacuation should be practiced under varying conditions including various times of the day or night and in various weather conditions.

Chapter 18/19: Requires drills which simulate emergency situations which familiarize facility staff with emergency actions they may be required to perform. The general emphasis of these sections of the code is upon training of the staff and not upon providing practice for the client. Drills should be practiced under varying conditions including various times of the day or night and in various weather conditions.

W442

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) Ensure that all personnel on all shifts are trained to perform assigned tasks;

Guidance §483.470(i)(1)(i)

For facilities under Chapter 18/19 of the LSC

Staff should be able to verbalize the proper procedures to be followed during emergency drills. Staff training records should document that all staff have received training on emergency drills and evacuations.

W443

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(ii) Ensure that all personnel on all shifts are familiar with the use of the facility's fire protection features; and

Guidance §483.470(i)(1)(ii)

Staff on all shifts are able to express familiarity with the use of fire extinguisher, alarms, and any other safety features in the facility.

W444

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(iii) Evaluate the effectiveness of emergency and disaster plans and procedures.

Guidance §483.470(i)(1)(iii)

See also W448. The plan(s) must be revised as needed and must be based upon analysis completed under W448.

The facility must–

W445

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) Actually evacuate clients during at least one drill each year on each shift;

Guidance §483.470(i)(2)(i)

All clients totally evacuate the building at least once per year per shift, regardless of the occupancy chapter under which the building falls.

All facilities, regardless of their size require actual evacuation. "Actually evacuate", as used in this standard, applies to all clients. The drills are conducted not only to rehearse the clients and staff for a fire emergency (see §483.470(i)(2)(v)), but for other disasters such as hurricanes, tornadoes, floods, etc. Such disasters would require the entire occupancy to be evacuated, and, therefore, the actual evacuation must be practiced, as required.

W446

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(ii) Make special provisions for the evacuation of clients with physical disabilities;

Guidance §483.470(i)(2)(ii)

Clients with physical or medical disabilities may require special procedures for evacuation, taking into account equipment or staff that must be maintained for the client's care at all times. The facility's evacuation plan should:

- identify such clients;
- clearly delineate any special evacuation procedures for those clients.

Staff should be familiar with the facility's special evacuation procedures when working with clients who are in need of unique provisions.

W447

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(iii) File a report and evaluation on each evacuation drill;

There is a written report of each evacuation drill held.

W448

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(iv) Investigate all problems with evacuation drills, including accidents,

Guidance §483.470(i)(2)(iv)

The documentation for each evacuation drill includes an analysis of:

- The timeliness of the evacuation;

- Any difficulties observed during the drill;
- Investigates the cause of the difficulties; and
- Develops a plan to ensure the difficulties will not reoccur.

W449

and take corrective action; and**

Guidance §483.470(i)(2)(iv)

When a problem is identified during the evacuation drill and the facility develops a plan to prevent reoccurrence, there is evidence the facility implemented corrective action and follow-up completed to ensure corrective action was successful.

W450

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(v) During fire drills, clients may be evacuated to a safe area in facilities certified under the Health Care Occupancies Chapter of the Life Safety Code.

Guidance §483.470(i)(2)(v)

The Life Safety Code NFPA 101, 2000 Edition at 3.3.167 defines safe location as “a location remote or separated from the effects of a fire so that such effects no longer pose a threat.”

W451

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) Facilities must meet the requirements of paragraph (i)(1) and (2) of this section for any live-in and relief staff they utilize.

Guidance §483.470(i)(3)

In the case of live-in staff, drills must occur quarterly. Typically, live-in staff can be found in facilities that fall under Chapter 32/33 of the LSC code. Drills should be held at varying times of the day and night for clients to practice evacuation including morning, afternoon, evening and the middle of the night.

(j) Standard: Fire protection.

Guidance §483.470(j)

These standards are covered by the Life Safety Code (LSC) survey. The facility must meet the appropriate chapter of the Life Safety Code, 2000 edition.

When surveying an ICF/IID for compliance with the LSC, it is first necessary to determine whether the facility will be surveyed under Health Care (HC) or Board and Care (BC) occupancy.

- If clients receive nursing services, or if the provider elects to use Health Care, the facility should be surveyed as a Health Care Facility under Chapter 18 or 19 of the LSC, as appropriate.

- If clients receive personal care and protective oversight but not continuing nursing services, the facility is to be surveyed under Board and Care and the following three steps should be followed:

- 1) Determine the size (16 or less = small; 17 or more = large);

- 2) Determine the Evacuation Difficulty (PROMPT, SLOW, or IMPRACTICAL) using Appendix F of the fire safety evaluation system for board and care facilities (FSES/BC); and

- 3) Survey the building using one of two methods:

- a. The prescriptive requirements of Chapters 32 or 33; or

- b. The FSES/BC, Appendix G.

(1) General. Except as otherwise provided in this section—

(i) The facility must meet the applicable provisions of either the Health Care Occupancies Chapters or the Residential Board and Care Occupancies Chapter of the 2000 edition of the Life Safety Code of the National Fire Protection Association. The Director of the Office of the Federal Register has approved the NFPA101®2000 edition of the Life Safety Code, issued January 14, 2000, for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. A copy of the Code is available for inspection at the CMS Information Resource Center, 7500 Security Boulevard, Baltimore, MD or at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030, or go to:

http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html. Copies may be obtained from the National Fire Protection Association, 1 Batterymarch Park, Quincy, MA 02269. If any changes in this edition of the Code are incorporated by reference, CMS will publish notice in the Federal Register to announce the changes.

(ii) Chapter 19.3.6.3.2, exception number 2 of the adopted LSC does not apply to a facility.

Guidance §483.470(j)(1)(ii)

Roller latches are prohibited on corridor doors as a latching device.

(2) The State survey agency may apply a single chapter of the LSC to the entire facility or may apply different chapters to different buildings or parts of buildings as permitted by the LSC.

(3) A facility that meets the LSC definition of a residential board and care occupancy must have its evacuation capability evaluated in accordance with the Evacuation Difficulty Index of the Fire Safety Evaluation System for Board and Care facilities (FSES/BC).

Guidance §483.470(j)(3)

The evacuation capability of residents is determined using Chapter 6 of NFPA 101A, 2001 edition.

4) If CMS finds that the State has a fire and safety code imposed by State law that adequately protects a facility's clients, CMS may allow the State survey agency to apply the State's fire and safety code instead of the LSC.

5) Beginning March 13, 2006, a facility must be in compliance with Chapter 19.2.9, Emergency Lighting.

Guidance §483.470(j)(5)

Battery powered emergency lighting must last at least 90 minutes.

6) Beginning March 13, 2006, Chapter 19.3.6.3.2, exception number 2 does not apply to a facility.

Guidance §483.470(j)(6)

Roller latches are prohibited on corridor doors as a latching device.

(7) Facilities that meet the LSC definition of a health care occupancy.

(i) After consideration of State survey agency recommendations, CMS may waive, for appropriate periods, specific provisions of the Life Safety Code if the following requirements are met:

Guidance §483.470(j)(7)(i)

Waivers may be granted only to facilities that meet the Life Safety Code definition of a Health Care Occupancy. Waivers are not granted to facilities that met the requirements of a Residential Board and Care Occupancy.

Waivers are recommended by the State Survey Agency and approved by the Regional Office.

(A) The waiver would not adversely affect the health and safety of the clients.

B) Rigid application of specific provisions would result in an unreasonable hardship for the facility.

ii) Notwithstanding any provisions of the 2000 edition of the Life Safety Code to the contrary, a facility may install alcohol-based hand rub dispensers if—

(A) Use of alcohol-based hand rub dispensers does not conflict with any State or local codes that prohibit or otherwise restrict the placement of alcohol-based hand rub dispensers in health care facilities;

(B) The dispensers are installed in a manner that minimizes leaks and spills that could lead to falls;

(C) The dispensers are installed in a manner that adequately protects against inappropriate access;

D) The dispensers are installed in accordance with chapter 18.3.2.7 or chapter 19.3.2.7 of the 2000 edition of the Life Safety Code, as amended by NFPA Temporary Interim Amendment 00–1(101), issued by the Standards Council of the National Fire Protection Association on April 15, 2004. The Director of the Office of the Federal Register has approved NFPA Temporary Interim Amendment 00–1(101) for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. A copy of the amendment is available for inspection at the CMS Information Resource Center, 7500 Security Boulevard, Baltimore, MD and at the Office of the Federal Register, 800 North Capitol Street NW., Suite 700, Washington, DC. Copies may be obtained from the National Fire Protection Association, 1 Batterymarch Park, Quincy, MA 02269; and

(E) The dispensers are maintained in accordance with dispenser manufacturer guidelines

(k) Standard: Paint.

The facility must—

W452

§483.470(k)(1) Use lead-free paint inside the facility; and

W453

§483.470(k)(2) Remove or cover interior paint or plaster containing lead so that it is not accessible to clients.

§483.470(l) Standard: Infection Control

W454

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) The facility must provide a sanitary environment to avoid sources and transmission of infections.

Guidance §483.470(l)(1)

The facility is clean and staff have eliminated opportunities for cross-contamination of infections. Food is stored, prepared, distributed, and served in a sanitary manner to prevent food borne illness.

W455

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

There must be an active program for the prevention, control, and investigation of infection and communicable diseases.

Guidance §483.470(l)(1)

Facilities maintain an ongoing surveillance program of communicable disease control and investigation of infections and an active training program that ensures the clients served receive adequate prevention of transmission information and skills, according to needs.

The facility's infection control program should include procedures for:

- identification of the extent of infestation or infection;
- protection of clients;
- treatment of clients;
- notification of family or legal guardian;
- reporting to the health department as indicated; and
- continued follow-up to resolution.

Both the Occupational Safety and Health Administration (OSHA) and the CDC have specific requirements regarding human immuno-deficiency virus (HIV), TB, and hepatitis precautions. These requirements should be incorporated into the facility's practices when relevant to the clients residing in the facility. Concerns about OSHA violations should be referred to OSHA.

W456

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) The facility must implement successful corrective action in affected problem areas.

W457

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) The facility must maintain a record of incidents and corrective actions related to infections.

W458

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(4) The facility must prohibit employees with symptoms or signs of a communicable disease from direct contact with clients and their food.

Guidance §483.470(l)(4)

The facility should have and implement a policy that clearly delineates those signs and symptoms for which they will restrict staff access to clients or to clients' food.

§483.480 Condition of participation: Dietetic services

(a) Standard: Food and nutrition services

W460

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(1) Each client must receive a nourishing, well balanced, diet including modified and specially prescribed diets.

Guidance §483.480(a)(1)

“Well balanced diets” are defined as diets that contain a variety of foods from the food groups currently recommended by the Academy of Nutrition and Dietetics (AND).

“Modified and specially-prescribed” diets are defined as diets that are altered in any way to enable the client to eat (e.g. food that is chopped, pureed) or diets that are intended to correct or prevent a nutritional deficiency or health problem.

Refer to W463 and W474 regarding modified and specially prescribed diets.

The following may be indicators of or may lead to compromised nutritional status:

- Unplanned significant weight gain or loss;
- Fever/infection;
- Diarrhea;
- Chronic disease;
- Chewing and Swallowing problems;
- Teeth and gum diseases;
- Excessive use of laxatives;
- Abnormal laboratory values;
- Brittle, dry hair;
- Ridged or spoon shaped nails;
- Dry flaky skin; and
- Unexplained changed in mood such as general fatigue, apathy, irritability, lack of concentration.

If one or more of these indicators are present, determine the facility’s response through observation, interview, and record review.

Surveyors should assure the facility is responsive to client food allergies and the potential for adverse food/drug interactions. If surveyors suspects these may exist, investigate further.

Examples of facility responsiveness to allergies and food/drug interactions include, but are not limited to:

- Clients on long term anticonvulsant drug regimens (e.g., phenobarbital, phenytoin, primidone) are periodically monitored per facility policy for decreased serum levels of folic acid and vitamin D;
- Therapeutic doses of nutrients are provided to decrease the likelihood of anemia and prevent decreased bone density, etc.; and
- Fiber and fluids are increased in the diet of clients to decrease the likelihood of constipation.

Guidance §483.470(a)(1)

Clients of grossly different ages, functional levels, and/or social needs should not be housed together unless all of the following documentation support the placement:

- Assessment;
- Client program plan;
- Staff documentation of client response to training programs; and
- QIDP notes.

§483.480(a)(2) A qualified dietitian must be employed either full-time, part-time, or on a consultant basis at the facility’s discretion.

Guidance §483.480(a)(2)

The facility employs a registered dietitian either on a part-time, full-time or on a consultant basis.

W462

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(3) If a qualified dietitian is not employed full-time, the facility must designate a person to serve as the director of food services.

Guidance §483.480(a)(3)

Where the facility does not have a full-time qualified dietitian, verify that the director of food services coordinates with a dietitian to assure the nutritional adequacy of meals and snacks.

The food service director coordinates with the part-time or consultant dietitian to develop client meal plans and monitor client nutritional status.

The qualifications of the food service director may be dictated by facility policy or by state law, if applicable.

In small group home settings where the staff and clients plan and prepare meals cooperatively, there may not be a designated food services director. In these cases, the consultant or part-time dietitian would meet with the available home staff to ensure adequacy of menus and diets.

§483.480(a)(4) The client's interdisciplinary team, including a qualified dietitian and physician must prescribe

§483.480(a)(5) Foods proposed for use as a primary reinforcement of adaptive behavior are evaluated in light of the client's nutritional status and needs.

Guidance §483.480(a)(5)

This regulation addresses the use of food in shaping positive adaptive behavior. Where clients have specialized nutritional needs, these needs must be taken into consideration.

When food is used as a primary reinforcement of behavior for a client who has a dietary restriction, these foods should be consistent with the foods allowed by the prescribed diet.

Food used as a reinforcement must be part of a behavior plan approved by the IDT and consistent with nutritional parameters for that client. For example, a client with diabetes does not receive concentrated sweets as a reinforcement.

§483.480(b)(1) Each client must receive at least three meals daily,

Guidance §483.480(b)(1)

Meal times may be flexible and accommodate a variety of activities (e.g. holiday and weekend activities).

Clients should be offered the opportunity of three meals every day, but may be given the choice of not participating in a meal due to their schedule or preference.

For example, a client wakes up late on a Saturday morning and decides to have brunch.

Generally, meal times conform to the norms of the community, however the clients' schedules and preferences may result in slight variations. Slight variations are acceptable, but gross variations such as breakfast at 3 am would not be acceptable.

W470**(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)****§483.480(b)(1)(i) except on weekends and holidays when a nourishing snack is provided at bedtime, 16 hours may lapse between a substantial evening meal and breakfast; and****Guidance §483.480(b)(1)(i)**

A "nourishing snack" is an offering of items, single or in combination, from the basic food groups. Snack supplies are available in the facility and are accessible to clients. Interview staff and clients about their access to snacks.

The term "form", as used in this requirement, refers to food consistency (e.g., pureed, chopped, ground, etc.). Food that is ground, chopped or pureed is based on assessed client need, and only to the extent required.

Food consistency modifications due to an acute medical or dental condition are temporary and; client's food consistency is upgraded at the soonest possible time. Clients with chronic medical or dental conditions are periodically reviewed and at least annually for the possibility of an upgrade in food consistency.

When a client is not eating in a designated dining area, there must be either a medical rationale or this must be an isolated instance when the client has a personal reason to eat in another area, such as a television area to watch his or her favorite program.

Interview with the client should confirm that this is not routine, but is for a particular isolated reason.

If a client eats in any position other than an upright position, the physician should document the medical necessity for the position, and/or the IPP should include the program plan to teach the client the physical skill necessary for eating upright.

This applies to all clients, including those fed by nasogastric tube or gastrostomy tube. The IPP should identify the most appropriate position for the client to be positioned during mealtime, in relation to the placement of the food contents.

b. The department may seek additional information during the period to determine if a waiver should be granted.

67.7(5) *Appeals.* The denial of a waiver request may be appealed by the program pursuant to Iowa Code chapter 17A.

67.11(6) Notification of accrediting entity. In addition, for any credible report of alleged improper or inappropriate conduct or conditions within an accredited program, the department shall notify the accrediting entity by the most expeditious means possible of any actions taken by the department with respect to certification enforcement.

67.11(7) Notification of complainant when complaint not investigated. The department shall notify the complainant, if known, if the department does not investigate a complaint. The reasons for not investigating the complaint shall be included in the notification.

481—67.13(17A,231B,231C,231D,85GA,HF2365) Exit interview, final report, plan of correction.

67.13(1) Exit interview. The department shall provide an exit interview in person or by telephone at the conclusion of a monitoring, during which the department shall inform the program's representative of all issues and areas of concern related to insufficient practices. A second exit interview shall be provided if the department identifies additional issues or areas of concern. The program shall have 2 working days from the date of the exit interview to submit additional or rebuttal information to the department.

67.13(2) Final report. The department shall issue the final report of a monitoring within 10 working days after completion of the on-site monitoring or the receipt by the department of additional or rebuttal information, by personal service, electronically or by certified mail. The department shall issue a final report regarding a monitoring whether or not any regulatory insufficiency is found.

67.13(3) *Plan of correction.* Within 10 working days following receipt of the final report, the program shall submit a plan of correction to the department.

a. Contents of plan. The plan of correction shall include:

- (1) Elements detailing how the program will correct each regulatory insufficiency;
- (2) The date by which the regulatory insufficiency will be corrected;
- (3) What measures will be taken to ensure the problem does not recur;
- (4) How the program plans to monitor performance to ensure compliance; and
- (5) Any other required information.

The date by which the regulatory insufficiency will be corrected shall not exceed 30 days from receipt of the final report pursuant to subrule 67.13(2) without approval of the department.

b. Review of plan. The department shall review the plan of correction within 10 working days. The department may request additional information or suggest revisions to the plan.

67.13(4) *Monitoring revisit.* The department may conduct a monitoring revisit to ensure that the plan of correction has been implemented and the regulatory insufficiency has been corrected. The department may issue a regulatory insufficiency for failure to implement the plan of correction. A monitoring revisit by the department shall review the program prospectively from the date of the plan of correction to determine compliance.

481—67.14(17A,231B,231C,231D,85GA,HF2365) Response to final report. Within 20 working days after the issuance of the final report and assessment of civil penalty, if any, the program shall respond in the following manner.

67.14(1) *If not contesting final report.* If the program does not desire to seek an informal conference or contest the final report and civil penalty, if assessed, the program shall remit to the department of inspections and appeals the amount of the civil penalty, if assessed. If a program has been assessed a civil penalty, the civil penalty shall be reduced by 35 percent if the requirements of subrule 67.17(5) are met.

67.14(2) *If contesting the final report.* If the program desires to contest the final report and civil penalty, if assessed, the program shall notify the department of inspections and appeals in writing that it desires to contest the final report and civil penalty and shall do one of the following:

- a.* Request an informal conference with an independent reviewer pursuant to subrule 67.14(3); or
- b.* Request a contested case hearing in the manner provided by Iowa Code chapter 17A for contested cases.

67.14(3) *Informal conference.*

a. Request for informal conference. The request for an informal conference must be in writing and include the following:

- (1) Identification of the regulatory insufficiency(ies) being disputed;
- (2) The type of informal conference requested: face-to-face or telephone conference; and
- (3) A request for monitor's notes for the regulatory insufficiencies being disputed, if desired.

b. Submission of documentation. The program shall submit the following within 10 working days from the date of the program's written request for an informal conference:

- (1) The names of those who will be attending the informal conference, including legal counsel; and
- (2) Documentation supporting the program's position. The program must highlight or use some other means to identify written information pertinent to the disputed regulatory insufficiency(ies). Supporting documentation that is not submitted with the request for an informal conference will not be considered, except as otherwise permitted by the independent reviewer upon good cause shown. "Good cause" means substantial or adequate grounds for failing to submit documentation in a timely manner. In determining whether the program has shown good cause, the independent reviewer shall consider what circumstances kept the program from submitting the supporting documentation within the required time frame.

c. Face-to-face or telephone conference. A face-to-face or telephone conference, if requested, will be scheduled to occur within 10 working days of the receipt of the written request, all supporting documentation and the plan of correction required by subrule 67.13(3).

(1) Failure to submit supporting documentation will not delay scheduling.

(2) The conference will be scheduled for one hour. The program will informally present information and explanation concerning the contested regulatory insufficiency(ies). The department will have time to respond to the program's presentation. Due to the confidential nature of the conference, attendance may be limited.

(3) If additional information is requested by the independent reviewer during the informal conference, the program will have 2 working days to deliver the additional materials to the independent reviewer.

(4) When extenuating circumstances preclude a face-to-face conference, a telephone conference will be held or the program may be given one opportunity to reschedule the face-to-face conference.

d. Results. The results of the informal conference will generally be sent within 10 working days after the date of the informal conference, or within 10 working days after the receipt of additional information, if requested.

(1) The independent reviewer may affirm or may modify or dismiss the regulatory insufficiency and civil penalty. The independent reviewer shall state in writing the specific reasons for the affirmation, modification or dismissal of the regulatory insufficiency.

(2) The department will issue an amended (changes in factual content) or corrected (changes in typographical/data errors) final report if changes result from the informal conference.

(3) The program must submit to the department a new plan of correction for the amended or corrected report within 10 calendar days from the date of the letter conveying the results of the conference.

(4) If the informal conference results in dismissal of a regulatory insufficiency for which a civil penalty was assessed, the corresponding civil penalty will be rescinded.

67.14(4) Procedure after informal conference. After the conclusion of an informal conference:

a. If the program does not desire to further contest an affirmed or modified final report, the program shall, within 5 working days after receipt of the written decision of the independent reviewer, remit to the department of inspections and appeals the civil penalty, if assessed.

b. If the program does desire to further contest an affirmed or modified final report, the program shall, within 5 working days after receipt of the written decision of the independent reviewer, notify the department of inspections and appeals in writing that it desires to formally contest the final report.

67.14(5) Contested case hearings. Contested case hearings shall be conducted by the department's administrative hearings division pursuant to Iowa Code chapter 17A and 481—Chapter 9.

[ARC 8174B, IAB 9/23/09, effective 1/1/10; ARC 1055C, IAB 10/2/13, effective 1/1/14; ARC 1701C, IAB 10/29/14, effective 1/1/15; ARC 2142C, IAB 9/16/15, effective 10/21/15; ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—67.15(17A,231B,231C,231D) Denial, suspension or revocation of a certificate.

67.15(1) Notice and request for hearing. The denial, suspension or revocation of a certificate shall be effected by delivering to the applicant or certificate holder by restricted certified mail or by personal service a notice setting forth the particular reasons for such actions. A denial, suspension or revocation shall be effective 30 days after certified mailing or personal service of the notice, unless the applicant or certificate holder gives the department written notice requesting a hearing within the 30-day period. If a timely request for hearing is made, the notice shall be deemed suspended pending the outcome of the hearing, unless subrule 67.15(3) or 67.15(4) applies. If an enforcement action has been implemented immediately in accordance with subrule 67.15(3) or 67.15(4), the enforcement action remains in effect regardless of a request for hearing.

67.15(2) Hearings. Hearings shall be conducted by the administrative hearings division of the department of inspections and appeals pursuant to Iowa Code chapter 17A and 481—Chapter 9.

67.15(3) Immediate suspension of a certificate. When the department finds that an imminent danger to the health or safety of tenants of a program exists which requires action on an emergency basis, the

department may direct removal of all tenants from the program and suspend the certificate or require additional remedies to ensure the ongoing safety of the program's tenants prior to a hearing.

67.15(4) Immediate imposition of enforcement action. When the department finds that an imminent danger to the health or safety of tenants exists which requires action on an emergency basis, the department may immediately impose a conditional certificate and accompanying conditions upon the program in lieu of immediate suspension of the certificate and removal of the tenants from the program if the department finds that tenants' health and safety would still be protected. The program may request a hearing, but the immediate enforcement action remains in effect regardless of the request for hearing. [ARC 1055C, IAB 10/2/13, effective 1/1/14; ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—67.16(17A,231B,231C,231D) Conditional certification.

67.16(1) Conditional certification. In lieu of denial, suspension or revocation of a certificate, the department may issue a conditional certificate for a period of up to one year. Notwithstanding subrule 67.15(4), a conditional certificate shall be issued only when regulatory insufficiencies pose no greater risk to tenant health or safety than the potential for causing minimal harm.

a. The department shall specify the reasons for the conditional certificate in the notice issuing the conditional certificate.

b. The department may place conditions upon a certificate, such as requiring additional training; restriction of the program from accepting additional tenants for a period of time; or any other action or combination of actions deemed appropriate by the department.

c. Failure by the program to adhere to the plan of correction or conditions placed on the certificate may result in suspension or revocation of the conditional certification and may result in further enforcement action as available under applicable requirements.

d. A program must be in substantial compliance with applicable requirements before the removal of a conditional certificate by the department. Prior to lifting a conditional certificate, the department may conduct a monitoring to verify substantial compliance. Once the program is in substantial compliance with applicable requirements, the department shall lift the conditional certificate.

67.16(2) Appeal of conditional certificate. A written request for hearing must be received by the department within 30 days after the mailing or service of notice. The conditional certificate shall not be suspended pending the hearing. Hearings shall be conducted by the administrative hearings division of the department of inspections and appeals pursuant to Iowa Code chapter 17A and 481—Chapter 9. [ARC 1055C, IAB 10/2/13, effective 1/1/14; ARC 3523C, IAB 12/20/17, effective 1/24/18]

481—67.17(17A,231B,231C,231D) Civil penalties.

67.17(1) When civil penalties may be issued. Civil penalties may be issued when the director finds that any of the following has occurred:

a. A program that does not comply with applicable requirements and the noncompliance results in imminent danger or a substantial probability of resultant death or physical harm to a tenant may be assessed a civil penalty of not more than \$10,000.

b. A program that continues to fail or refuses to comply with applicable requirements within prescribed time frames established by the department or approved by the department in the program's plan of correction and the noncompliance has a direct relationship to the health, safety, or security of tenants may be assessed a civil penalty of not more than \$5,000.

c. A program that prevents, interferes with or attempts to impede in any way any duly authorized representative of the department in the lawful enforcement of applicable requirements may be assessed a civil penalty of not more than \$1,000.

d. A program that discriminates or retaliates in any way against a tenant, tenant's family, or an employee of the program who has initiated or participated in any proceeding authorized by Iowa Code chapter 231B, 231C or 231D and the corresponding administrative rules may be assessed a civil penalty of not more than \$5,000.

67.17(2) Duplicate civil penalties prohibited. The department shall not impose duplicate civil penalties on a program for the same set of facts and circumstances.

67.17(3) Factors in determining the amount of a civil penalty. The department shall consider the following factors when determining the amount of a civil penalty:

- a. The frequency and length of time the regulatory insufficiency occurred (i.e., whether the regulatory insufficiency was an isolated or a widespread occurrence, practice, or condition);
- b. The past history of the program as it relates to the nature of the regulatory insufficiency (the department shall not consider more than the current certification period and the immediately previous certification period);
- c. The culpability of the program as it relates to the reasons the regulatory insufficiency occurred;
- d. The extent of any harm to the tenants or the effect on the health, safety, or security of the tenants which resulted from the regulatory insufficiency;
- e. The relationship of the regulatory insufficiency to any other types of regulatory insufficiencies which have occurred in the program;
- f. The actions of the program after the occurrence of the regulatory insufficiency, including when corrective measures, if any, were implemented and whether the program notified the director as required;
- g. The accuracy and extent of records kept by the program which relate to the regulatory insufficiency, and the availability of such records to the department;
- h. The rights of tenants to make informed decisions;
- i. Whether the program made a good-faith effort to address a high-risk tenant's specific needs and whether the evidence substantiates this effort.

67.17(4) Civil penalties due. The civil penalty shall be paid to the department within 30 days following the program's receipt of the final report and demand letter. The program may appeal in accordance with rule 481—67.12(17A,231B,231D) or 481—67.14(17A,231C,85GA,SF394). If the program appeals, the civil penalty shall be deemed suspended until the appeal is resolved.

67.17(5) Reduction of civil penalty amount by 35 percent. If an assisted living program has been assessed a civil penalty, the civil penalty shall be reduced by 35 percent if both of the following requirements are met:

- a. The program does not request a formal hearing pursuant to rule 481—67.12(17A,231B,231D) or 481—67.14(17A,231C,85GA,SF394), or withdraws its request for formal hearing within 30 calendar days of the date that the civil penalty was assessed; and
- b. The civil penalty is paid and payment is received by the department within 30 calendar days of receipt of the final report.

481—67.19(135C,231B,231C,231D) Criminal, dependent adult abuse, and child abuse record checks.

67.19(1) Definitions. The following definitions apply for the purposes of this rule.

“*Background check*” or “*record check*” means criminal history, child abuse and dependent adult abuse record checks.

“*Direct services*” means services provided through person-to-person contact. “Direct services” excludes services provided by individuals such as building contractors, repair workers, or others who are in a program for a very limited purpose, who are not in the program on a regular basis, and who do not provide any treatment or services for residents, patients, tenants, or participants of the provider.

“*Employed in a program*” or “*employment within a program*” means all of the following, if the provider is regulated by the state or receives any federal or state funding:

1. An employee of an assisted living program certified under Iowa Code chapter 231C, if the employee provides direct services to consumers;
2. An employee of an elder group home certified under Iowa Code chapter 231B, if the employee provides direct services to consumers;

3. An employee of an adult day services program certified under Iowa Code chapter 231D, if the employee provides direct services to consumers.

“*Employee*” means any individual who is paid, either by the program or any other entity (i.e., temporary agency, private duty, Medicare/Medicaid or independent contractors).

“*Evaluation*” means review by the department of human services to determine whether a founded child abuse, dependent adult abuse or criminal conviction warrants the person’s being prohibited from employment in a program.

“*Indirect services*” means services provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance.

“*Program,*” for purposes of this rule, means all of the following, if the provider is regulated by the state or receives any federal or state funding:

1. An assisted living program certified under Iowa Code chapter 231C;
2. An elder group home certified under Iowa Code chapter 231B; and
3. An adult day services program certified under Iowa Code chapter 231D.

67.19(2) *Explanation of “crime.”* For purposes of this rule, the term “crime” does not include offenses under Iowa Code chapter 321 classified as simple misdemeanor or equivalent simple misdemeanor offenses from another jurisdiction.

67.19(3) *Requirements for employer prior to employing an individual.* Prior to employment of a person in a program, the program shall request that the department of public safety perform a criminal history check and the department of human services perform child and dependent adult abuse record checks of the person in this state.

a. Informing the prospective employee. A program shall ask each person seeking employment by the program, “Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime other than a simple misdemeanor offense relating to motor vehicles and laws of the road under Iowa Code chapter 321 or equivalent provisions in this state or any other state?” The person shall also be informed that a background check will be conducted. The person shall indicate, by signature, that the person has been informed that the background check will be conducted.

b. Conducting a background check. The program may access the single contact repository (SING) to perform the required background check. If the SING is used, the program shall submit the person’s maiden name, if applicable, with the background check request. If SING is not used, the program must obtain a criminal history check from the department of public safety and a check of the child and dependent adult abuse registries from the department of human services.

c. If a person considered for employment has been convicted of a crime. If a person being considered for employment in a program has been convicted of a crime under a law of any state, the department of public safety shall notify the program that upon the request of the program the department of human services will perform an evaluation to determine whether the crime warrants prohibition of the person’s employment in the program.

d. If a person considered for employment has a record of founded child abuse or dependent adult abuse. If a department of human services child or dependent adult abuse record check shows that a person being considered for employment in a program has a record of founded child or dependent adult abuse, the department of human services shall notify the program that upon the request of the program the department of human services will perform an evaluation to determine whether the founded child or dependent adult abuse warrants prohibition of employment in the program.

e. Employment pending evaluation. The program may employ a person for not more than 60 calendar days pending the completion of the evaluation by the department of human services if all of the following apply. The 60-day period begins on the first day of the person’s employment.

- (1) The person is being considered for employment other than employment involving the operation of a motor vehicle;
- (2) The person does not have a record of founded child or dependent adult abuse;
- (3) The person has been convicted of a crime that is a simple misdemeanor offense under Iowa Code section 123.47 or a first offense of operating a motor vehicle while intoxicated under Iowa Code section 321J.2, subsection 1; and

(4) The program has requested an evaluation to determine whether the crime warrants prohibition of the person's employment.

67.19(4) *Validity of background check results.* The results of a background check conducted pursuant to this rule shall be valid for a period of 30 calendar days from the date the results of the background check are received by the program.

67.19(5) *Employment prohibition.* A person who has committed a crime or has a record of founded child or dependent adult abuse shall not be employed in a program unless an evaluation has been performed by the department of human services.

67.19(6) *Transfer of an employee to another program owned or operated by the same person.* If an employee transfers from one program to another program owned or operated by the same person, without a lapse in employment, the program is not required to request additional criminal and child and dependent adult abuse record checks of that employee.

67.19(7) *Transfer of ownership of a program.* If the ownership of a program is transferred, at the time of transfer the background check required by this rule shall be performed for each employee for whom there is no documentation that such background check has been performed. The program may continue to employ such employee pending the performance of the background check and any related evaluation.

67.19(8) *Change of employment—person with criminal or abuse record—exception to record check evaluation requirements.* A person with a criminal or abuse record who is or was employed by a certified program and is hired by another certified program shall be subject to the background check.

a. A reevaluation of the latest record check is not required, and the person may commence employment with the other certified program if the following requirements are met:

(1) The department of human services previously performed an evaluation concerning the person's criminal or abuse record and concluded the record did not warrant prohibition of the person's employment;

(2) The latest background check does not indicate a crime was committed or founded abuse record was entered subsequent to the prior evaluation;

(3) The position with the subsequent employer is substantially the same or has the same job responsibilities as the position for which the previous evaluation was performed;

(4) Any restrictions placed on the person's employment in the previous evaluation by the department of human services and still applicable shall remain applicable in the person's subsequent employment; and

(5) The person subject to the background check has maintained a copy of the previous evaluation and provided it to the subsequent employer, or the previous employer provides the previous evaluation from the person's personnel file pursuant to the person's authorization. If a physical copy of the previous evaluation is not provided to the subsequent employer, a current record check evaluation shall be performed.

b. For purposes of this subrule, a position is "substantially the same or has the same job responsibilities" if the position requires the same certification, licensure, or advanced training. For example, a licensed nurse has substantially the same or the same job responsibilities as a director of nursing; a certified nurse aide does not have substantially the same or the same job responsibilities as a licensed nurse.

c. The subsequent employer must maintain the previous evaluation in the employee's personnel file for verification of the exception to the requirement for a record check evaluation.

d. The subsequent employer may request a reevaluation of the background check and may employ the person while the reevaluation is being performed, even though an exemption under paragraph 67.19(8) "a" may be authorized.

67.19(9) *Employee notification of criminal convictions or founded abuse after employment.* If a person employed by an employer that is subject to this rule is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the person's employment application date, the person shall inform the employer of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

a. The employer shall act to verify the information within seven calendar days of notification. “Verify,” for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the program shall follow the requirements of paragraphs 67.19(3) “*c*” and “*d*.”

c. The employer may continue to employ the person pending the performance of an evaluation by the department of human services.

d. A person who is required by this subrule to inform the person’s employer of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

e. The employer may notify the county attorney for the county where the employer is located of any violation or failure by an employee to notify the employer of a criminal conviction or entry of an abuse record within the period required under this subrule.

67.19(10) *Program receipt of credible information that an employee has been convicted of a crime or founded for abuse.* If the program receives credible information, as determined by the program, from someone other than the employee, that the employee has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after employment, and the employee has not informed the employer of the information within the time required by subrule 67.19(9), the program shall take the following actions:

a. The program shall act to verify credible information within seven calendar days of receipt. “Verify,” for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the program shall follow the requirements of paragraphs 67.19(3) “*c*” and “*d*.”

67.19(11) *Proof of background checks for temporary employment agencies and contractors.* Proof of background checks may be kept in the files maintained by temporary employment agencies and contractors. Facilities may require temporary employment agencies and contractors to provide a copy of the result of the background checks. Copies of such results shall be made available to the department upon request.

This rule is intended to implement Iowa Code sections 231B.2(1), 231C.3(1), 231D.2(2), and 135C.33 and 2013 Iowa Acts, Senate File 347.

67.20(1) The department shall notify the department of human services, the tenant advocate, the appropriate area agency on aging, and other agencies as necessary and appropriate:

- a.* To alert them to the need to transfer tenants from a program;
- b.* To request assistance in identifying alternative programs or other appropriate settings; and
- c.* To contact the tenants and their legal representatives or family members, if applicable, and others as appropriate, including health care professionals.

68.15(2) *Transfer pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more tenants are identified as exceeding the admission and retention criteria for tenants and need to be transferred as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply:

The program's response shall be submitted to the department within 10 working days of the receipt of the notice. Submission of a response does not eliminate the applicable requirements including submission of a plan of correction under 481—subrule 67.10(5). Other persons may also submit information directly to the department.

(1) Consideration of response. Within 10 working days of receipt of the program's response for each identified tenant, the department shall consider the response and make a final finding regarding the continued retention of a tenant.

(2) Amending the regulatory insufficiency. If the department's determination is to amend the regulatory insufficiency based on the response, the department shall modify the report of findings.

(3) Retaining regulatory insufficiency. If the department retains the regulatory insufficiency, the department shall review the plan of correction in accordance with this chapter and 481—Chapter 67. The department shall notify the program of the opportunity to appeal the report findings as they relate to the admission and retention decision. In addition, the department shall provide to the tenant or the tenant's legal representative the contact information for the tenant advocate. A copy of the final report shall also be sent to the tenant advocate.

(4) Effect of the filing of an appeal. If an appeal is filed, the tenant who exceeds admission and retention criteria shall be allowed to continue living in the EGH until all administrative appeals have been exhausted. 481—68.17(231B) Service plans.

68.17(1) A service plan shall be developed for each tenant based on the evaluations conducted in accordance with subrules 68.13(1) and 68.13(2) and shall be designed to meet the specific service needs of the individual tenant. For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

CHAPTER 69
ASSISTED LIVING PROGRAMS

481—69.1(231C) Definitions. In addition to the definitions in 481—Chapter 67 and Iowa Code chapter 231C, the following definitions apply.

“Accredited” means that the program has received accreditation from an accreditation entity recognized in subrule 69.14(1).

“Applicable requirements” means Iowa Code chapter 231C, this chapter, and 481—Chapter 67 and includes any other applicable administrative rules and provisions of the Iowa Code.

“Assisted living” or *“program”* means provision of housing with services, which may include but are not limited to health-related care, personal care, and assistance with instrumental activities of daily living, to three or more tenants in a physical structure which provides a homelike environment. “Assisted living” also includes encouragement of family involvement, tenant self-direction, and tenant participation in decisions that emphasize choice, dignity, privacy, individuality, shared risk, and independence. “Assisted living” includes the provision of housing and assistance with instrumental activities of daily living only if personal care or health-related care is also included. “Assisted living” includes 24 hours per day response staff to meet scheduled and unscheduled or unpredictable needs in a manner that promotes maximum dignity and independence and provides supervision, safety, and security.

“CARF” means the Commission on Accreditation of Rehabilitation Facilities.

“Change of ownership” means the purchase, transfer, assignment or lease of a certified assisted living program and includes a change in the management company responsible for the day-to-day operation of the program, if the management company is ultimately responsible for any enforcement action taken by the department.

“Cognitive disorder” means a disorder characterized by cognitive dysfunction presumed to be the result of illness that does not meet the criteria for dementia, delirium, or amnesic disorder.

“Dementia-specific assisted living program” means an assisted living program certified under this chapter that:

1. Serves fewer than 55 tenants and has 5 or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale, or
2. Serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the Global Deterioration Scale, or
3. Holds itself out as providing specialized care for persons with dementia, such as Alzheimer’s disease, in a dedicated setting.

“Dwelling unit” means a single unit which provides complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping and sanitation, and which may include permanent provisions for eating and cooking. “Sanitation” for purposes of this definition means bathroom fixtures as required by this chapter.

“In the proximate area” means located within a five minutes or less response time.

“Maximal assistance with activities of daily living” means routine total dependence on staff for the performance of a minimum of four activities of daily living for a period that exceeds 21 days.

“Medically unstable” means that a tenant has a condition or conditions:

2. Resulting in three or more significant hospitalizations within a consecutive three-month period for more than observation; and
3. Requiring frequent supervision of the tenant for more than 21 days by a registered nurse.

For example, a tenant who has a condition such as congestive heart failure which results in three or more significant hospitalizations during a quarter and which requires that the tenant receive frequent supervision may be considered medically unstable.

“Nonaccredited” means that the program has been certified under the provisions of this chapter but has not received accreditation from an accreditation entity recognized in subrule 69.14(1).

“*Unmanageable incontinence*” means a condition that requires staff provision of total care for an incontinent tenant who lacks the ability to assist in bladder or bowel continence care.

“*Unmanageable verbal abuse*” means repeated verbalizations against tenants or staff that persist despite all interventions and that negatively affect the program. “Unmanageable verbal abuse” includes but is not limited to threats, frequent use of profane language, or unwelcome sexually oriented remarks. [ARC 8176B, IAB 9/23/09, effective 1/1/10; ARC 1927C, IAB 4/1/15, effective 5/6/15; ARC 2463C, IAB 3/16/16, effective 4/20/16]

481—69.2(231C) Program certification. A program may obtain certification by meeting all applicable requirements. In addition, a program may be voluntarily accredited by a recognized accreditation entity. For the purpose of these rules, certification is equivalent to licensure.

In addition, the latest monitoring report, state fire marshal report, and food establishment inspections report issued pursuant to Iowa Code chapter 137F shall be made available to the public by the program upon request.

69.2(3) Dementia-specific program by definition. If a program meets the definition of a dementia-specific assisted living program during two sequential certification monitorings based on the number of tenants served who have dementia between Stages 4 and 7 on the Global Deterioration Scale, the program shall be deemed a dementia-specific program by definition. If the number of tenants served who have dementia between Stages 4 and 7 on the Global Deterioration Scale goes below that which is required by the definition of dementia-specific program at any time after the program has been deemed dementia-specific by definition and the program is not holding itself out as providing dementia care in a specialized setting, the program will no longer be considered dementia-specific.

69.24(2) Transfer pursuant to results of monitoring or complaint or program-reported incident investigation by the department. c. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained. For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

d. The service plan updated within 30 days of the tenant's occupancy shall be signed and dated by all parties.

69.26(4) The service plan shall be individualized and shall indicate, at a minimum:

a. The tenant's identified needs and preferences for assistance;

a. To monitor, at least every 90 days, or after a significant change in the tenant's condition, any tenant who receives program-administered prescription medications for adverse reactions to the medications and to make appropriate interventions or referrals, and to ensure that the prescription medication orders are current and that the prescription medications are administered consistent with such orders; and

b. To ensure that health care professionals' orders are current for tenants who receive health care professional-directed care from the program; and

c. To assess and document the health status of each tenant, to make recommendations and referrals as appropriate, and to monitor progress relating to previous recommendations at least every 90 days and whenever there are changes in the tenant's health status; and

In the program's response, the program shall identify the participant, list the known responses from others, and note the program's agreement or disagreement with the responses from others. The program's response shall be submitted to the department within 10 working days of the receipt of the notice. Submission of a response does not eliminate the applicable requirements, including submission of a plan of correction under 481—subrule 67.10(5). Other persons may also submit information directly to the department.

(1) Consideration of response. Within 10 working days of receipt of the program's response for each identified participant, the department shall consider the response and make a final finding regarding the continued retention of a participant.

(2) Amending the regulatory insufficiency. If the department's determination is to amend the regulatory insufficiency based on the response, the department shall modify the report of findings.

(3) Retaining regulatory insufficiency. If the department retains the regulatory insufficiency, the department shall review the plan of correction in accordance with this chapter and 481—Chapter 67. The department shall notify the program of the opportunity to appeal the report findings as they relate to the admission and retention decision.

(4) Effect of the filing of an appeal. If an appeal is filed, the participant who exceeds admission and retention criteria shall be allowed to continue to participate in the program until all administrative appeals have been exhausted. Appeals filed that relate to the participant's exceeding admission and retention criteria shall be heard within 30 days of receipt, and appropriate services to meet the participant's needs shall be provided during that period of time.

(5) Request for waiver of criteria for retention of a participant in a program. To allow a participant to continue to participate in the program, the program may request a waiver of criteria for retention of a participant pursuant to rule 481—67.7(231B,231C,231D) from the department within 10 working days of the receipt of the report.

For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

PREAMBLE

These rules define the department's policies regarding the recovery of public assistance debts. See also Iowa Administrative Code 441—Chapter 11, "Collection of Public Assistance Debts."

"Allotment reduction" means an amount withheld from a financial or food assistance benefit. More specifically, "grant reduction" refers to the family investment program (FIP) and to refugee cash assistance (RCA), and "benefit reduction" refers to the food assistance (FA) program.

"Debt" means the dollar amount of public assistance, by program, received by or on behalf of a person or provider in excess of that allowed by law, rules, or regulations for any given month(s); or the dollar amount of public assistance unlawfully transferred or obtained in violation of program rules; or the dollar amount of unpaid IowaCare personal financial responsibility obligations.

"Debtor" means any person who has been determined by DHS or by the department to be responsible for the repayment of a particular public assistance debt.

"FIP" means the family investment program described in 441—Chapters 40 to 46.

"Notice of debt" means a notice that informs the debtor that a debt in a public assistance program has occurred. The notice identifies the debt amount, the dates on which the debt was incurred, the cause of the debt, and the options the debtor has to repay the debt. (See 441—Chapter 11.)

The repayment agreement, whether Form 470-0495 or a notice of debt, tells the amount and program(s) overpaid and gives the debtor a choice of repayment methods. Failure to return the repayment agreement may result in further collection actions.

"Title XIX divestiture" means a debt against a person who receives transferred assets from a Medicaid applicant or recipient within five years prior to an application for medical assistance if the applicant is approved for medical assistance (Medicaid) or a transfer impacting the recovery or payment of a medical assistance (Medicaid) debt.

[ARC 8656B, IAB 4/7/10, effective 5/12/10]

481—90.2(10A) Recovery process. The recovery process begins when data is successfully entered on the DHS overpayment recovery system and a notice of debt is issued to the debtor. The data specifies which public assistance program(s) is owed a debt.

[ARC 8656B, IAB 4/7/10, effective 5/12/10]

481—90.3(10A) Records. The recovery unit maintains an account for each debt that has occurred for a debtor. The account is filed under the debtor's name and includes information maintained pursuant to rule 441—11.2(217).

[ARC 8656B, IAB 4/7/10, effective 5/12/10]

481—90.4(10A) Review. The recovery unit reviews the record and additional information provided in the DHS overpayment recovery system to determine whether a referral for suspected fraud will be made to the economic assistance fraud bureau. The referral criteria include client errors that are over \$1,000 per claim.

[ARC 8656B, IAB 4/7/10, effective 5/12/10]

481—90.5(10A) Debt repayment. A notice of debt or Form 470-0495, Agreement to Pay a Debt, is used to initiate payments of a debt. The minimum rate of payment is determined by each program (unless set by a court order) and is negotiated by the debtor and recovery unit. All recoveries are transmitted to the DHS cashier. Payments are made directly in cash by the debtor except as otherwise provided in this rule. The amount of allotment reduction for an agency error shall be different from the amount of allotment reduction for a client error.

90.5(1) Active cases—PROMISE JOBS program. For payment reduction for the PROMISE JOBS program, the debtor must provide written permission to effectuate a FIP reduction.

90.5(2) Active cases—FIP, RCA, FA. Allotment reduction shall be used, except that cash payment pursuant to a repayment agreement may be used when the repayment amount exceeds the amount that may be collected by allotment reduction. For the food assistance program, debt repayment may also be made in accordance with subrule 90.5(3).

90.5(3) Food assistance program with electronic benefit balances. Food assistance payments may be made by returning electronic benefits to pay the debt.

[ARC 8656B, IAB 4/7/10, effective 5/12/10]

[ARC 8656B, IAB 4/7/10, effective 5/12/10]

481—90.7(10A) Appeal rights. If a notice of debt or other notice of adverse action is received by the debtor and the debtor wishes to contest the debt, an appeal is submitted to the recovery unit or to DHS. If an appeal is submitted, the recovery process is suspended until conclusion of the appeal process outlined in 481—Chapter 9 and 441—Chapter 7.

[ARC 8656B, IAB 4/7/10, effective 5/12/10; ARC 3523C, IAB 12/20/17, effective 1/24/18]

[Prior to 9/5/90, this chapter was entitled "Qualified Organization"]

481—103.1(99B) Definitions. In addition to definitions found in Iowa Code chapter 99B and in rule 481—100.1(99B), the following definitions apply to all qualified organizations where bingo is played.

“*Cash*” means any legal tender of the United States.

“*Category*” means the name given to a particular type of playing face to distinguish one from another.

“*Limited license*” means a 14-day license issued only to a qualified organization. There are no limits on the number of games played or occasions held, except that only two bingo occasions may be held during the period of 14 days, with no limit on the number of bingo games or the number of hours played during each designated bingo day.

“*Playing face*” means the grid on which a player marks numbers and letters called as the game progresses.

[ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.2(99B) License.

103.2(1) License required—exception. A license is required in order to conduct a bingo occasion unless all of the following requirements are met:

a. Participants in the bingo occasion are not charged to enter the premises where bingo is conducted.

b. Participants in the bingo occasion are not charged to play.

c. Any prize awarded at the bingo occasion is donated.

d. The bingo occasion is conducted as an activity and not for fundraising purposes.

103.2(2) Location. Bingo occasions are restricted to the location for which application is made by the qualified organization and approved by the department. For good cause, a license may be transferred to a different location only after written notice by the licensee and approval by the department. “Good cause,” for purposes of this subrule, may include flood, fire or other natural disasters; sale of the building; or nonrenewal of lease.

103.2(3) Application. Before any organization may conduct bingo, a license application must be approved by the department. Application and license requirements are found in rules 481—100.3(99B), 481—100.4(99B), and 481—100.5(99B).

103.2(4) Examples. The following are examples of circumstances affecting whether a license is granted.

a. Qualified organization X applies for and is issued a two-year license to conduct bingo occasions at 313 Cherry Street, Des Moines, Iowa. The license is effective from August 1, 2017, to July 31, 2019. On October 1, 2017, qualified organization Y applies for a 14-day limited license to conduct bingo at the same location. The license is approved and issued because a limited license can be issued for the same location used for a two-year bingo license.

b. Qualified organization ABC applies for and is issued a two-year qualified organization license to conduct bingo at 1002 West 2nd Avenue in Jones Town, Iowa. The license is effective from October 1, 2017, to September 30, 2019. On November 15, 2017, qualified organization EFG applies for a two-year qualified organization license for the same location. A license may be issued to organization EFG for the same location during the same period to conduct any games of chance, games of skill or raffles. Organization EFG shall not conduct bingo at the location.

c. Hometown Community School applies for and is issued a two-year qualified organization license to conduct games of skill, games of chance and raffles at the grade school building. The license is effective from September 1, 2017, to August 31, 2019. During the time that the Hometown Community School license is in effect, the school-sponsored pep club applies for a 14-day limited license to conduct

games of skill at the grade school building. The school-sponsored pep club may be issued a limited license for the same location during the same time. Under this example, the school-sponsored pep club would not be required to obtain a separate license, because school-affiliated organizations may operate separate events under a school's two-year license.

[ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.3(99B) Bingo occasion. A qualified organization may conduct only 3 bingo occasions per week, but not more than 15 occasions per month, under a two-year qualified organization license. A week starts on Sunday and ends on Saturday. At the end of each occasion, the person conducting the games shall announce both the gross receipts and the use to which the net receipts will be dedicated and distributed.

[ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.4(99B) Game of bingo. Each game shall meet all of the requirements of the definition of "bingo" in Iowa Code section 99B.1(4) to be a legal game of bingo. Games ordinarily considered bingo may be played.

103.4(1) A fair and legal game shall meet at least all of the following criteria:

- a. Concealed numbers on a playing face are not allowed.
- b. The game requires an announcer or caller.
- c. Numbers shall be announced so all players can hear clearly.
- d. A free space or spaces are allowed.
- e. The game proceeds as the caller selects and announces the numbers. If a caller miscalls a number or misreads a ball, only the number on the ball may be used. Miscalled numbers are invalid.
- f. Rules established by the licensee may require that a player have the last number called for a bingo. If not posted in the rules established by the licensee, the player is not required to have the last number called.
- g. Each game ends when it is determined that a player has covered the announced pattern of spaces. The caller or another worker shall verify the numbers on winning cards. The caller checks for additional bingos and officially closes the game.

h. Wild numbers are allowed, but must be chosen using a random selection method.

103.4(2) Any player may request that all numbers drawn and all numbers not drawn be verified when the winning card or cards are verified. Numbers shall be verified in the presence of the member in charge and the caller. The player who requested verification may observe the count.

103.4(3) The cost to play each game shall not exceed \$5. Cards or games may be sold only within the premises of the bingo occasion. The cost for each packet, playing face, or tear sheet shall be the same for each participant, i.e., the cost for an opportunity to play shall be equal. Players may pay for games with cash, personal check, money order, bank check, cashier's check, electronic check, or debit card.

- a. All cards or games shall be assigned a price.
- b. The price shall be posted. Cards may be sold only for the posted price.
- c. Free games shall not be given. Free games include gift cards redeemable for games. This paragraph does not prohibit giving free concession items such as food, beverages or daubers.

103.4(4) Cards for each category shall be distinctly marked. Each shall be easy to distinguish from all others.

a. Bingo games or cards may be printed on only one side.

b. In each game, the bingo operator must ensure that duplicate playing faces are not sold.

[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.5(99B) State rules and rules established by the licensee. Iowa administrative rules and rules established by the licensee must be readily available to every bingo player.

103.5(1) A copy of these rules, 481—Chapter 103, "Bingo," shall be maintained at every bingo location during every bingo occasion. Bingo players who request it shall have the opportunity to read the administrative rules.

103.5(2) Rules established by the licensee shall be posted on a sign near the front of the playing area.

- a. Rules shall be in large, easily readable print and shall include:
 - (1) The name and mailing address of the licensee;
 - (2) Prices to play; and
 - (3) Rules established by the licensee for the game.
- b. Rules established by the licensee shall include how to indicate “bingo” to halt the game, how to collect a prize, and how the licensee will verify winners’ names and addresses.
- c. Rules established by the licensee may include rules related to reserved seating and age restrictions for children to play.

103.5(3) The following information shall be correctly posted before the beginning of each bingo occasion and shall not be changed after the bingo occasion begins:

- a. Description of each game to be played;
- b. Price of each game;
- c. Prize for each game or method for determining the prize for each game; and
- d. Jackpot rules, if any.

EXAMPLE: Single bingo \$1 per game, \$50 payout.

[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.6(99B) Prizes. Cash or merchandise prizes awarded for each game shall not exceed \$250 in value. Jackpot games are excepted and are governed by standards in subrule 103.6(5). The exact amount of the prize shall be announced before the beginning of each game.

103.6(1) Prizes shall be recorded each occasion on the daily bingo summary (see Table A¹) as they are paid by listing the number of the game; the pattern required to win; the type, color, and series of cards used in the game; and the amount of the prize. The name, address, and social security number of each jackpot winner is required.

NOTE: Prizes of more than \$600 require the deduction of 5 percent withholding taxes. See paragraph 103.6(5) “g.”

103.6(2) Prizes awarded in games with more than one winner shall be shared equally. It is permissible to round up or down, provided doing so does not exceed the maximum payout for that particular game.

Examples of prizes awarded in games with more than one winner:

1. Two winners with a total of three bingos: Player 1 has two bingos in separate squares, and Player 2 has one bingo in one square. Player 1 receives 2/3 of the prize, and Player 2 receives 1/3 of the prize.

2. Multiple winners equally splitting a prize with rounding to the nearest dollar: Six players all win the single \$250 prize. The appropriate payout is \$41.66 each, but rounding to the nearest dollar (\$42) for each winner would result in a payout of \$252, in violation of the maximum payout for a nonjackpot bingo game.

103.6(3) An animal shall not be awarded as a prize for persons participating in a game or fair event.

103.6(4) A player shall not be required to return cash or a merchandise prize won in one game in order to play a subsequent game.

103.6(5) No more than two jackpot games may be played during a 24-hour period as follows:

- a. An organization is limited to two jackpot games.
- b. The jackpot starting prize shall not exceed \$500 in cash or actual retail value of merchandise.
- c. The jackpot prize shall not increase more than \$200 after each jackpot game. The maximum prize shall not be greater than \$1,000 for the first jackpot game and shall not be greater than \$2,500 for the second jackpot game.
- d. The jackpot prize shall not decrease until it is won.
- e. If a jackpot is not won in the specified number of calls, the game reverts to a regular game with a prize of \$250 or less.
- f. Each jackpot game shall begin again at no more than \$500.

g. Cash prizes over \$600 require the deduction of 5 percent withholding taxes. This tax is to be withheld by the organization conducting the game. The amount deducted shall be remitted to the Iowa department of revenue on behalf of the prize winner.

This rule is intended to implement Iowa Code sections 99B.21, 422.16 and 717D.2.
[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

103.7(2) Volunteers must be actively participating members of the licensed organization or must participate in an organization to which money will be dedicated.

103.7(3) Paid workers shall not play during a bingo occasion in which they work. Persons conducting bingo shall not play during any bingo occasion conducted by the qualified organization for which they work. A person conducting bingo includes: persons overseeing the bingo games, persons controlling and accounting for the bingo occasion's net receipts, persons directing the work of bingo workers, and any persons having management or oversight responsibilities.

103.7(4) A person receiving rent for a bingo location, either directly or indirectly, shall not be involved in, participate in, or be associated with the operation of bingo games.

103.7(5) Anyone who sells bingo equipment or supplies to a bingo licensee shall not work for that licensee during a bingo occasion.

[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.8(99B) Expenses. Expenses incurred exclusively and directly as a result of bingo shall not exceed 40 percent of net receipts. Reasonable expenses within the 40 percent limit are:

1. The license fee;
2. Withholding, unemployment or social security taxes;
3. Promotion cost;
4. Equipment and supply purchases;
5. Rent for bingo occasion;
6. Utilities for bingo occasion; and
7. Wages paid for bingo workers.

Expense items are allowed only when receipts or a paid invoice and canceled check are available for review by the department.

103.8(1) When the annual gross exceeds \$10,000, expenses shall be paid from a bingo checking account. The licensee shall prove that all expenses were incurred exclusively and directly as a result of bingo.

103.8(2) Expenses are not reasonable if the amount charged substantially exceeds the current rate or average retail cost of items or services purchased.

[ARC 4014C, IAB 9/26/18, effective 10/31/18]

2. The name of the licensee shall be posted on the sign of each building or location where bingo occasions are held.

3. A name which is closely associated with the licensee and which clearly identifies the lawful uses of the proceeds may also be used. Generic-type names, such as "Nelson Street Bingo" or "Uncle Bob's Bingo," shall not be used.

4. The rent shall not be related to nor be a percentage of the receipts.

5. The licensee may terminate any lease or rental agreement without paying a penalty or forfeiting money or a deposit. Damage deposit money is excepted.

6. Alcoholic beverages may be served in a bingo location if that location possesses a beer permit or liquor license.

7. The lessor of the building shall not participate in conducting bingo.

8. During a bingo occasion, the lessor shall not sell any beverage, food or any other merchandise in the room in which bingo is played.

9. Only one licensed qualified organization may conduct bingo occasions within the same structure or building.

[ARC 1929C, IAB 4/1/15, effective 5/6/15; ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.10(10A,99B) Concessions. Rescinded IAB 7/24/02, effective 7/5/02.

103.12(1) A licensed organization shall conduct bingo games only with equipment it owns or borrows from another qualified organization. Use of equipment for which the licensed organization pays consideration directly or indirectly under the guise of a service charge is prohibited. No licensed organization may loan or borrow equipment, goods, or services in exchange for supplies. Equipment may not be rented or leased. This does not prohibit the purchase of equipment on contract.

No one who sells bingo equipment or supplies may participate in conducting bingo directly or indirectly.

103.12(2) Equipment used to conduct bingo must be maintained in good repair and sound working condition. No equipment shall be altered to create an advantage for anyone. Play shall progress so all players have an equal opportunity to win. Balls drawn must be the same size, shape, weight and balance. The container in which balls are held shall promote fair play. Balls shall tumble and circulate freely within the container during bingo games. All 75 balls must be in the container before each game begins. Verification of all 75 balls is required when requested by a participant.

[ARC 4014C, IAB 9/26/18, effective 10/31/18]

481—103.13(99B) Records. Each qualified organization which conducts bingo occasions shall record specific information. Records shall be current so the department may review them at any time. The following records are required for each bingo occasion:

- b. The social security number of paid workers;
- c. Compensation of any worker;
- d. The number of players present; and
- e. A list of all games played including a description of each game, the cost to play each game, the number and category of bingo cards used for each game and the prize or prizes paid in each game. The summary shall also include the totals for the occasion of the gross receipts, prizes awarded and the jackpot prize amounts.

c. Records shall be maintained for three years for review by the department.

103.13(3) Records of expenses and dedicated and distributed money are required.

a. The following information shall be retained for all payments:

(1) Date of payment.

(2) Payee.

(3) Amount of payment.

(4) Purpose of payment.

d. Wages paid;

f. Check number.

The records must specifically identify for which bingo occasion an employee was compensated. Compensation is anything of value given to a person in exchange for services rendered in connection with a gambling occasion. Table F¹ is an example.

Records shall be maintained for three years for review by the department.

103.13(5) An inventory list of the number of playing faces owned by the licensed organization is required.

The inventory shall be updated each month.

103.14(1) Bingo receipts, less the amount awarded as cash prizes, shall be deposited in the bingo checking account on the same or the next business day after the occasion. Other funds shall not be deposited in the bingo account. Interest earned on deposits in a bingo checking or savings account shall be treated the same as proceeds of bingo occasions.

EXCEPTION: Limited funds of the organization may be deposited to pay initial or unexpected emergency expenses. The amount of nonbingo funds deposited in the bingo account shall not exceed \$7,500. Records shall be kept which identify this money.

103.14(2) Payments shall be paid from the bingo account in accordance with the requirements of Iowa Code section 99B.21. Wages shall not be paid by cash.

103.14(3) The bingo account shall be used for both of the following events:

b. Each player must notify the game operator or caller of the winning pattern of bingo by means other than use of the electronic bingo device.

c. Each player is limited to playing a maximum of 54 card faces per game.

d. The cost per bingo game must be the same as it would be if the individual were to purchase the same amount of paper or hard cards.

e. Players of electronic bingo shall not be required to play more cards than they would be required to play if using paper or hard cards.

j. If a player’s call of a bingo is disputed by another player, or if a department representative makes a request, one or more cards stored on an electronic bingo device shall be printed by the organization.

The following definitions apply to the possession and use of amusement devices.

“Amusement device” means an electrical or mechanical device possessed and used in accordance with Iowa Code chapter 99B. An amusement device is not a game of skill or chance as defined in Iowa Code section 99B.1, a gambling device, or a device that plays poker, blackjack, or keno. Roulette wheels, slot machines, and other devices specified in Iowa Code section 725.9 as gambling devices are not amusement devices.

“Gambling device” means a device possessed or used or designed to be used for gambling and includes, but is not limited to, roulette wheels, klondike tables, punchboards, faro layouts, keno layouts, numbers tickets, slot machines, pachislo skill-stop machine or any other similar machine or device, push cards, jar tickets, pull-tabs, and video machines or other devices that do not comply with Iowa Code chapter 99B.

“Knock-off switch” means a mechanism or other method that releases free games or credits accumulated toward the award of merchandise.

“Prize” means a ticket(s) or token(s) that is dispensed by an amusement device as an award for use and that is worth up to \$50 in merchandise.

“Progressive games” means games in which the value of the prizes increases an incremental amount with each game.

“Slot machine” means a mechanical, electronic, or video gambling device into which a player deposits coins, tokens or currency and from which certain credits, tickets, tokens or coins are paid out when a particular, random configuration of symbols appears on the reels, simulated reels, or screen of the device. The slot machine may have a lever, buttons, or other means to activate or stop the play.

481—104.2(99B) Device restrictions. An amusement device, except for an amusement device which shall be registered pursuant to Iowa Code section 99B.53, may be owned, possessed, or offered for use by any person at any location. All amusement devices shall comply with all of the following:

1. The device must be electrical, which includes both electronic and video, or mechanical, or a combination of both.
2. The device shall not be designed or adapted to issue or pay coins or currency.
3. The device may be designed or adapted to award free games without additional consideration.
4. The device may be designed or adapted to award merchandise or tickets or tokens redeemable for merchandise not to exceed a retail value of more than \$50 per play or game.
5. The device may be designed or adapted to issue tickets or tokens, but not coins or currency. However, the device shall not be designed or adapted to issue tickets or tokens that may be used to play any device or game.
6. The device shall not have a “knock-off” switch to release either free games or credits awarded by the device. However, credits may be released by the insertion of coins, currency, or tokens to activate a new game. Free games may only be utilized for playing the device and may not be released in any other manner.
7. The device shall not be capable of being altered to enable a person using the device to increase or decrease the chances to win a game or other prize by paying more than is ordinarily required to play the game.
8. The device must be designed or adapted to accept only coins, currency, or tokens to play the game. However, the device shall not be designed or adapted to accept tokens that have been awarded as a prize.
9. The device must be registered if it meets the registration requirements set forth in Iowa Code section 99B.53 and rule 481—104.5(99B).

[ARC 1930C, IAB 4/1/15, effective 5/6/15; ARC 4015C, IAB 9/26/18, effective 10/31/18]

481—104.3(99B) Prohibited games/devices. The following games or devices are not permitted:

1. Devices that pay coins or currency.
2. Gambling games permitted in Iowa Code chapter 99F, such as slot machines and roulette wheels, or any similar device.
3. Any machine that does not conform to the requirements in these rules or Iowa Code chapter 99B.
4. Any machine designed or resembling a machine which is normally used for casino-type gambling.
5. Amusement devices designed or adapted to facilitate gambling.

[ARC 4015C, IAB 9/26/18, effective 10/31/18]

481—104.4(99B) Prizes. Prizes may be awarded for use of an amusement device.

104.4(1) Merchandise with a retail value of no more than \$50 per transaction may be awarded.

- d. Tickets or tokens may be accumulated to purchase merchandise not greater than \$50 per transaction in retail value.
- e. Tickets or tokens may be redeemed for food and beverage if the combined value of the food and beverage does not exceed \$50 per transaction.
- f. If the entire amount of the ticket or token issued by the amusement device is not redeemed for merchandise, the balance shall not be redeemed for cash.
- g. Tickets or tokens shall only be redeemed on the premises where the amusement device is located and only for merchandise sold in the normal course of business on the premises.

104.4(4) Merchandise prizes shall not be repurchased.

[ARC 1930C, IAB 4/1/15, effective 5/6/15]

481—104.5(99B) Registration. An amusement device must be registered if it meets the registration requirements set forth in Iowa Code section 99B.53. The outcome of the game is not primarily determined by the skill or knowledge of the operator, and registration is required if chance plays a role equal to or greater than the players' skill or knowledge in determining the outcome of the game. Additional licenses or registrations under Iowa Code chapter 99B are not required.

[ARC 1930C, IAB 4/1/15, effective 5/6/15; ARC 4015C, IAB 9/26/18, effective 10/31/18]

481—104.6(99B) Violations. Failure to comply with the limitations imposed on the use and possession of amusement devices in Iowa Code chapter 99B constitutes unlawful gambling, which may result in the following consequences. Additional consequences apply for registered amusement devices pursuant to 481—Chapter 105 and Iowa Code chapter 99B.

1. Conviction for illegal gambling under the provisions of Iowa Code chapter 725.
2. Forfeiture of property under the provisions of Iowa Code chapter 809.

481—104.7(99B,17A) Declaratory orders. In addition to the requirements for declaratory orders found in 481—Chapter 3, parties seeking a declaratory order shall file with their petition a written evaluation of the game by an independent gaming laboratory approved by the department.

104.7(1) *Approved by the department.* “Approved by the department,” for purposes of this rule, means that the gaming laboratory has submitted its qualifications in writing to the director for review and approval in writing by the director or the director’s designee.

104.7(2) *Written evaluation—requirements.* The independent gaming laboratory’s evaluation must analyze whether chance plays a role equal to or greater than the players’ skill or knowledge in determining the outcome of the game. “Outcome of the game” includes both whether the player correctly solves the puzzle and what prize is awarded.

[ARC 4015C, IAB 9/26/18, effective 10/31/18]

These rules are intended to implement Iowa Code sections 99B.1, 99B.2 and 99B.51 to 99B.60.

CHAPTER 105
REGISTERED AMUSEMENT DEVICES

481—105.1(10A,99B) Definitions. The definitions in rule 481—104.1(10A,99B) are incorporated by reference in this chapter. In addition, the following definitions apply to the possession and use of registered amusement devices.

“Amusement device registration availability” means a registration position which becomes available:

1. When a distributor or owner:
 - Is going out of business,
 - Fails to renew a registration by the renewal due date, or
 - Has an electrical or mechanical device seized by law enforcement and the seizure is upheld through a forfeiture hearing; or
2. When any other legal order has been issued which pertains to violations of Iowa Code chapter 99B, 123, or 123A.

“Counting mechanism” means an appliance that tallies the volume of business of an individual amusement device.

“Distributes” means to deliver, to provide or to otherwise make available in Iowa amusement devices required to be registered in accordance with these rules.

“Distributor” is as defined in Iowa Code section 99B.51.

“Manufacturer” is as defined in Iowa Code section 99B.51.

“Operation” means that a registered amusement device is made available for use by the public or made available for use on the premises of a charitable organization.

“Owner” is as defined in Iowa Code section 99B.51.

“Person” means a person as defined by Iowa Code section 4.1.

“Premises” means a location where one or more registered amusement devices are available for public use.

“Prize” means a ticket(s) or token(s) that is dispensed by a registered amusement device as an award for use and that is worth up to \$50 in merchandise.

“Registered amusement device” means an electrical or mechanical amusement device in operation subject to registration by the department pursuant to Iowa Code section 99B.53 and includes both the external and internal components. Any change in the registered amusement device, including the external and internal components of the registered amusement device, constitutes a new registered amusement device for which registration by the owner is required. The word “change” as used herein does not include repairs or replacement of parts that do not change or alter the operation of the device as originally registered by the owner. If the repairs or replacement parts alter the operation of the device as originally registered, then the device must be reregistered before it is made available for operation.

“Responsible party,” as listed on the amusement device registration, means the owner of the amusement device.

“Security mechanism” means an appliance which prevents a person from operating an electrical or mechanical amusement device by not allowing the acceptance of money until action is taken by the owner or owner’s designee to allow the person to operate the device.

[ARC 1930C, IAB 4/1/15, effective 5/6/15; ARC 4015C, IAB 9/26/18, effective 10/31/18]

481—105.2(99B) Registered amusement device restrictions. Each registered amusement device shall only be located on premises for which a Class “A,” Class “B,” Class “C,” special Class “C,” or Class “D” liquor control license or a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123.

105.2(1) The number of electrical or mechanical amusement devices registered by the department shall not exceed 6,928, the total number of devices registered by the department as of April 28, 2004.

105.2(2) The department shall not initially register an electrical or mechanical amusement device that is required to be registered to an owner for a location for which only a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123 on or after April 28, 2004.

105.2(3) An owner or distributor at a location for which only a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123 shall not relocate an amusement device registered as provided in this chapter to a location other than the location of the device on April 28, 2004, and shall not transfer, assign, sell, or lease an amusement device as provided in this chapter to another person for which only a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123 after April 28, 2004.

EXAMPLE 1: An electrical or mechanical amusement device is registered with the department and is located at a convenience store that has a Class “C” beer permit.

1. If the amusement device needs to be repaired, the owner may repair it without losing the registration position or buying a new registration tag. A repair constitutes any changes to a device as long as the type of game and the number of devices in a location is not changed.

2. If the amusement device needs to be replaced because it is defective, it must be replaced with the same game in order to keep the registration position.

3. The amusement device cannot be moved from one location to another under a Class “B” or a Class “C” beer permit, even if the number of registered devices at a location does not change.

4. If a location with a Class “B” or a Class “C” beer permit had only one amusement device registered on April 28, 2004, the maximum number of devices allowed at that location shall be one.

105.2(4) Rescinded IAB 8/29/07, effective 9/1/07.

105.2(5) Each registered amusement device at a location for which only a Class “B” or a Class “C” beer permit has been issued pursuant to Iowa Code chapter 123 shall include on the amusement device a security mechanism which prevents a person from operating the amusement device by not allowing the acceptance of money until the machine is activated by the owner or owner’s designee. A sign shall be posted stating that a person must be 21 years of age or older to operate the registered amusement device.

EXAMPLE 2: A patron in a convenience store tries to put money in an amusement device, but the amusement device will not take the money. The patron approaches the person working behind the counter, who then asks the patron for an ID. If the patron is 21 years of age or older, the amusement device is activated, thereby allowing the patron to play the amusement device. The security mechanism shall be immediately reactivated once the patron has finished playing the amusement device.

105.2(6) The registered amusement device shall be registered in accordance with these rules and shall comply with all of the requirements of Iowa Code section 99B.53, this chapter, 481—Chapter 104, and any other applicable laws or rules.

105.2(7) The registered amusement device shall not be designed or adapted to facilitate gambling, nor shall the device be capable of playing poker, blackjack, or keno.

105.2(8) If the department, or the department’s designee, determines that a registered amusement device is not in compliance with the requirements of this chapter or any other provision of Iowa law, the device may be subject to seizure, and any registration associated with the device, including the registration of the manufacturer, distributor, or owner, may be revoked or suspended.

105.2(9) A person owning or leasing a registered amusement device shall not advertise or promote the availability of the amusement device to the public as anything other than an electrical and mechanical amusement device. Situations that constitute advertising and promoting include, but are not limited to, posted signs, newspaper/magazine advertisements, radio and television advertisements, word of mouth and Internet posting.

105.2(10) If there is no amusement device registration availability, a person may be included on a waiting list for an amusement device registration position.

a. A person shall appear on the waiting list only once for a single registration position.

b. A person may be added to the waiting list by using the web-based amusement device registration system located at dia.iowa.gov/gmms/.

c. A person may request to be added to the waiting list by calling or writing the department at Department of Inspections and Appeals, Social and Charitable Gambling Unit, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0083; (515)281-6840.

d. The department shall maintain the waiting list in chronological order with the person requesting addition to the waiting list first being first on the list.

e. When a registration position becomes available, the department shall notify the first person on the waiting list of the amusement device registration availability. If multiple positions become available, the department may notify as many persons on the waiting list as there are available positions.

f. The department shall notify the person on the waiting list of the amusement device registration availability by mail or by email if the person has provided an email address.

g. The person on the waiting list shall have ten days from the time the notification was sent to submit a registered amusement device application and the fee.

h. If the person does not submit the registration application, fee and proof of purchase within ten days, the person shall forfeit the position on the waiting list and shall be removed from the waiting list.

105.2(11) An initial amusement device registration shall only be allowed at a location that has a Class “A,” Class “B,” Class “C,” special Class “C,” or Class “D” liquor control license issued pursuant to Iowa Code chapter 123.

EXAMPLE 3: An amusement device is located in a bar that has the appropriate liquor license. On April 28, 2004, this location had only one amusement device. An additional amusement device may be added to this location.

1. If the amusement device needs to be repaired, it may be repaired without the loss of the device’s registration position.

2. If the amusement device is defective and needs to be replaced, it can be replaced with the same game under the original registration without the incurring of additional charges.

3. If the amusement device is replaced with a new amusement device that has a different game, before the device is moved to the premises, the process for initial registration shall be followed pursuant to this chapter and Iowa Code chapter 99B. The replacement of the amusement device creates an amusement device registration availability, and the position will be offered to the next person on the waiting list pursuant to this rule.

105.2(12) If a person purchases an amusement device that is registered with the department, the registration tag, if available, must be removed from the purchased amusement device and returned to the department. The department shall be notified in writing within ten calendar days of the change in ownership of any amusement device. The purchased device shall be removed from the inventory of the original owner, thus creating a registration position on the waiting list. The purchaser must apply for a registration position on the waiting list for the device.

105.2(13) An amusement device that is registered with the department and located in a warehouse may be placed in a location that has a Class “A,” Class “B,” Class “C,” special Class “C,” or Class “D” liquor license issued pursuant to Iowa Code chapter 123. Such a device may also be used as a replacement device.

105.2(14) The registration application for all new amusement devices must be accompanied by the receipt, invoice, or bill of sale containing the seller’s name, company name, and address, transaction date, motherboard serial number, and name of the game.

105.2(15) Devices shall not allow for more than one player. Each playing position constitutes one amusement device.

[ARC 1930C, IAB 4/1/15, effective 5/6/15; ARC 4015C, IAB 9/26/18, effective 10/31/18]

481—105.3(99B) Prohibited registered amusement devices. The following devices are prohibited:

1. Amusement devices registered in violation of statutory or regulatory requirements governing such devices.

2. Registered amusement devices that are prohibited by 481—104.3(99B).

3. Any registered amusement device that does not conform to the requirements in these rules or Iowa Code chapter 99B.

4. Any registered amusement device designed or adapted to facilitate gambling.

481—105.4(99B) Prizes. Prizes may be awarded for use of a registered amusement device, but only in conformance with 481—104.4(99B). All prizes awarded must be in conformance with each of the requirements imposed by 481—104.4(99B).

481—105.5(99B) Registration by a manufacturer, distributor, or an owner that operates for profit. A person engaged in business in Iowa as a manufacturer, a distributor, or an owner that operates for profit shall be registered with the department prior to engaging in business in Iowa. A person shall register under each of the categories that apply to the business to be conducted in Iowa and shall pay the designated fee for each category of registration.

105.5(1) Each person that registers with the department shall pay an annual registration fee as follows:

- a. For a manufacturer, \$2,500.
- b. For a distributor, \$5,000.
- c. For an owner of no more than four registered amusement devices at a single location or premises that is not a qualified organization, \$2,500.

105.5(2) Registration forms are available from the Department of Inspections and Appeals, Social and Charitable Gambling Unit, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0083, or by telephone at (515)281-6840.

[ARC 1930C, IAB 4/1/15, effective 5/6/15; ARC 4015C, IAB 9/26/18, effective 10/31/18]

481—105.6(99B) Registration of registered amusement devices. Each owner of an amusement device subject to registration by the department pursuant to Iowa Code section 99B.53 shall obtain a registration. A registration issued pursuant to Iowa Code chapter 99B is required to offer a registered amusement device for use.

105.6(1) Each owner of an amusement device subject to the registration requirements imposed by this chapter shall register the device before it is made available for operation.

105.6(2) In the event a registration position is not open, the distributor's or owner's name may be placed on the department's waiting list. The distributor or owner will be notified by the department when a position is available and the distributor's name or owner's name reaches the top of the waiting list. Upon the distributor's or owner's completion of the application form and payment of the required fee, the department shall issue a registration tag valid for one year from the date of issuance.

a. Application forms are available from the Department of Inspections and Appeals, Amusement Devices, Lucas State Office Building, 321 East 12th Street, Des Moines, Iowa 50319-0083. The application form shall contain all information required by the department.

b. Prior to placement of the amusement device for public use, the registration tag shall be prominently displayed on the front of the registered amusement device in such a manner as to be clearly visible to the general public.

c. Any changes to the information provided on the application, including but not limited to changes in ownership, registered amusement device location, and the cessation of business in this state, shall be reported to the department in writing or electronically within ten calendar days of the occurrence of any of the above events.

d. Registration fees are nonrefundable.

105.6(3) A new registered amusement device must be obtained from a manufacturer that is registered with the department pursuant to Iowa Code section 99B.56. A registered amusement device that has been placed on location and used may be obtained from a manufacturer, distributor or owner that is registered with the department pursuant to Iowa Code section 99B.56. A distributor or owner that ceases, for any reason, to be registered pursuant to Iowa Code section 99B.56 may sell any registered amusement

devices in the distributor's or owner's possession within 12 months from the date registration ceases. For all amusement devices new to the purchaser, proof of purchase, which includes the seller's name, company name, and address, must accompany the application for registration of the machine.

105.6(4) No more than four registered amusement devices shall be permitted or offered for use at any single premises.

a. A registered amusement device may be located on premises for which a class "A," class "B," class "C," special class "C," or class "D" liquor control license has been issued pursuant to Iowa Code chapter 123.

b. A registered amusement device may be located on the premises for which a class "B" or class "C" beer permit has been issued pursuant to Iowa Code chapter 123, but new registrations shall not be issued to devices to be located at premises with class "B" or class "C" beer permits.

(1) A registered amusement device at a location for which only a class "B" or class "C" beer permit has been issued pursuant to Iowa Code chapter 123 may only be relocated to a location for which a class "A," class "B," class "C," special class "C," or class "D" liquor license has been issued and shall not be transferred, assigned, sold or leased to another person for which only a class "B" or class "C" beer permit has been issued pursuant to Iowa Code chapter 123.

105.6(5) Each electrical or mechanical amusement device required to be registered pursuant to Iowa Code section 99B.53 shall include on the amusement device a counting mechanism.

a. The department of inspections and appeals and the department of public safety shall notify the distributor, owner, or qualified organization in advance to have access to the information provided by the counting mechanism.

b. The counting mechanism shall be at least six digits in length and shall cumulatively count the total amounts inserted in the device during game play. If the mechanism being used tallies in dollars and cents, at least six digits must be used for the dollar amount. The counting mechanism shall not be able to be reset.

c. The counting mechanism shall be equipped with a battery backup, or an equivalent, and shall be capable of accurately maintaining all required information for 30 days after power is discontinued from the device.

105.6(6) The owner of the registered amusement device shall exercise due diligence in ensuring that the amusement device is in compliance with these rules and all laws governing such devices. Upon request by the department or the department's designee, any manufacturer or distributor registered with the department, or any owner of a registered device, shall permit the inspection of any amusement device and shall make available for inspection all records, documents, and agreements pertaining to the amusement device.

2. Suspension or revocation of a wine or beer permit or of a liquor license may result under the provisions of Iowa Code chapter 123.
3. Property may be forfeited under the provisions of Iowa Code chapter 809.
4. Violation of any laws pertaining to gambling may result in suspension or revocation of a registration as prescribed in Iowa Code section 99B.55.
5. Unless otherwise prescribed in Iowa Code section 99B.55, a registration may be revoked upon the violation of any gambling law, rule or regulation, including Iowa Code chapter 99B, 481—Chapter 104, or this chapter.

6. A registration may be revoked if the registrant or an agent of the registrant engages in any act or omission that would have permitted the department to refuse to issue a registration under Iowa Code chapter 99B.

7. A person under the age of 21 shall not participate in the operation of an electrical or mechanical amusement device that is required to be registered. A person who violates the provisions of Iowa Code section 99B.57 commits a scheduled violation under Iowa Code section 805.8C(4).
