UNIFORM RULES ON AGENCY PROCEDURE

CHAPTER 2500
DEFINITIONS

CHAPTER 1
ADMINISTRATION

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/4/30

481—1.1(10A) Definitions. For purposes of this chapter, the definitions set forth in Iowa Code section 10A.101 are incorporated herein.
[**ARC 9151C**, IAB 4/30/25, effective 6/4/25]

481—1.2(10A) Organization.

1.2(1) *Overview of the department.* The department of inspections, appeals, and licensing is established by Iowa Code section 10A.102 and was created for the purpose of coordinating and conducting various audits, appeals, hearings, inspections, investigations, and licensing activities related to the operations of the executive branch of state government and administering the laws relating to employment safety, labor standards, and workers' compensation. The department's mission is to achieve compliance through education, regulation, and due process for a safe and healthy Iowa.

1.2(2) *Director and delegation of director authority.* The director of the department is appointed in accordance with Iowa Code section 10A.102. The director may designate employee(s) to administer the department in the director's absence. The director may also delegate the director's authority to administer the department to other employees as determined necessary for efficient and effective department operations. Delegations of the director's authority will be documented by the department.

1.2(3) *Divisions.* The department is comprised of divisions as described in Iowa Code section 10A.106 and on the department's website. The director may, from time to time, reorganize the department into administrative divisions to most efficiently and effectively carry out the department's responsibilities, as permitted by law. Reorganization may include creating new divisions, eliminating existing divisions, or combining divisions as the director deems necessary. Nothing herein prevents flexibility in interdepartmental operations or forbids divisional allocations of duties in the discretion of the director.

1.2(4) *Attached units.* The state public defender, racing and gaming commission, Iowa office of civil rights, and employment appeal board operate as attached units to the department for administrative support in accordance with Iowa Code chapter 10A and their authorizing statutes.
[**ARC 9151C**, IAB 4/30/25, effective 6/4/25]

481—1.3(10A) Information. The general public may obtain information about the department by contacting the department at its offices located at 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321; by telephone at 515.281.3425; or through its website at dial.iowa.gov. The department maintains additional contact information for divisions and programs on its website.
[**ARC 9151C**, IAB 4/30/25, effective 6/4/25]

481—1.4(10A,17A) Subpoenas.

1.4(1) *Issuance of subpoenas.* The director, or designee of the director, is authorized to issue subpoenas in accordance with the provisions of Iowa Code sections 10A.104(6), 10A.209, and 17A.13. In connection with audits, appeals, investigations, inspections, hearings, and any other permissible matters conducted by the department, the director, or designee of the director, may, upon written request or the director's own initiative, issue the following:

a. Subpoenas duces tecum for the production and delivery of books, papers, records, and other real evidence; and

b. Subpoenas for the appearance of persons to provide statements, statements under oath, and depositions.

1.4(2) *Contents of subpoenas.* Each subpoena shall contain the following:

a. The name and address of the person to whom the subpoena is directed;

b. The date, time, and location for the appearance of the person;

c. A description of the books, papers, records, or other real evidence requested;

d. The date, time, and location for production, inspections, or copying of the books, papers, records, or other real evidence;

e. The signature and address of the director or designee;

f. The name, address, and telephone number of a department employee who can be contacted for purposes of providing clarification or assistance in compliance with the subpoena;

g. The date of issuance; and

h. A return of service.

1.4(3) *Motions to quash or modify subpoena.* A person who desires to challenge a subpoena directed to that person must, within ten days after service of the subpoena, or before the time specified for compliance, if such time is less than ten days, file with the director a motion to quash or modify the subpoena. Upon receipt of a timely motion to quash or modify a subpoena, the director or the director's designee may issue a decision or request an administrative law judge to issue a decision. Oral argument may be scheduled and conducted at the discretion of the director, the director's designee, or the administrative law judge. The director, the director's designee, or the administrative law judge may quash or modify the subpoena, deny the motion, or issue other appropriate orders. A person who is aggrieved by a ruling of an administrative law judge and who desires to challenge that ruling must appeal the ruling to the director by serving the director, either in person or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge. The decision of the director or the director's designee is final for purposes of judicial review.

1.4(4) *Failure to comply with subpoena.* If the person to whom the subpoena is directed refuses or fails to obey the subpoena, the director, or the director's designee, may cause a petition to be filed in the Iowa district court seeking an order for the person's compliance.

[**ARC 9151C**, IAB 4/30/25, effective 6/4/25]

481—1.5(10A,68B) Consent for the sale of goods and services. An official or employee of the department shall not directly or indirectly sell or lease any goods, real estate, or services to individuals, associations, or corporations subject to the regulatory authority of the official's or employee's agency except as provided by Iowa Code section 68B.4 and rule 351—6.11(68B).

[**ARC 9151C**, IAB 4/30/25, effective 6/4/25]

These rules are intended to implement Iowa Code chapters 10A, 17A, and 68B.

CHAPTER 2
PETITIONS FOR RULEMAKING

Rescinded by 2026 Iowa Acts, Senate File 2463, section 4, effective July 1, 2026. See Uniform Rules on Agency Procedure at 7—Chapters 2500 through 2506 and any corresponding rules adopted by this agency.

CHAPTER 3
DECLARATORY ORDERS

Rescinded by 2026 Iowa Acts, Senate File 2463, section 4, effective July 1, 2026. See Uniform Rules on Agency Procedure at 7—Chapters 2500 through 2506 and any corresponding rules adopted by this agency.

CHAPTER 4
AGENCY PROCEDURE FOR RULEMAKING

[481—Chapter 4 renumbered as 481—Chapter 10, effective 3/16/88.]

Rescinded by 2026 Iowa Acts, Senate File 2463, section 4, effective July 1, 2026. See Uniform Rules on Agency Procedure at 7—Chapters 2500 through 2506 and any corresponding rules adopted by this agency.

CHAPTER 5
PUBLIC RECORDS AND FAIR INFORMATION PRACTICES

[481—Chapter 5 renumbered as 481—Chapter 11, IAB 2/10/88, effective 3/16/88]

Chapter rescission date pursuant to Iowa Code section 17A.7: 9/9/31

The department of inspections, appeals, and licensing hereby adopts, with the following additions, 7—Chapter 2505, "Fair Information Practices." These rules are applicable to any division, board, or commission under the administrative authority of the department pursuant to Iowa Code chapter 10A unless a division, board, or commission has separate rulemaking authority and has adopted rules governing public records and fair information practices.

[**ARC 0461D**, IAB 8/5/26, effective 9/9/26]

481—5.1(10A,17A,22) Definitions. As used in this chapter:

"Agency" means the department of inspections, appeals, and licensing (department) or any division, board, or commission under the administrative authority of the department pursuant to Iowa Code chapter 10A, as applicable.

"Custodian" means an agency that owns and exercises control over public records. The originating agency, if any, is the custodian of records that are used to perform work or a service for the originating agency.

"Originating agency" means any government agency that has requested the department to perform work or a service on its behalf. An originating agency retains custody of all records provided by the originating agency to the department pursuant to Iowa Code section 10A.105.

[**ARC 0461D**, IAB 8/5/26, effective 9/9/26]

481—5.9(17A,22) Personally identifiable information, storage, and data processing systems. The department maintains systems of records that contain personally identifiable information. Records are collected in accordance with the agency's duties set forth in Iowa Code chapters 10A and 272C and other state and federal law governing programs administered by the agency. Specific personally identifiable information collected and the agency's authority to collect said information is contained in pertinent Iowa Code sections and Iowa Administrative Code rules governing such programs. The department stores information in paper and on a cloud-based system and other electronic data management and storage systems. All data processing systems that have common data elements can potentially match, collate, and compare personally identifiable information as appropriate and legally authorized.

[**ARC 0461D**, IAB 8/5/26, effective 9/9/26]

These rules are intended to implement Iowa Code chapters 10A, 22, and 272C.

[Filed 4/28/88, Notice 3/23/88—published 5/18/88, effective 6/22/88]
[Filed emergency 11/30/95—published 12/20/95, effective 11/30/95]
[Filed ARC 6802C (Notice ARC 6609C, IAB 11/2/22), IAB 1/11/23, effective 2/15/23]
[Filed ARC 6862C (Notice ARC 6741C, IAB 12/14/22), IAB 2/8/23, effective 3/15/23]
[Content rescinded by 2026 Iowa Acts, Senate File 2463, section 4—editorially removed in IAC Supplement 7/8/26, effective 7/1/26]
[Filed ARC 0461D (Notice ARC 9887C, IAB 1/7/26), IAB 8/5/26, effective 9/9/26]

CHAPTER 6
UNIFORM WAIVER STANDARDS

Rescinded by 2026 Iowa Acts, Senate File 2463, section 4, effective July 1, 2026. See Uniform Rules on Agency Procedure at 7—Chapters 2500 through 2506 and any corresponding rules adopted by this agency.

CHAPTER 7
MILITARY SERVICE, VETERAN RECIPROCITY, AND SPOUSES OF ACTIVE-DUTY SERVICE MEMBERS

Chapter rescission date pursuant to Iowa Code section 17A.7: 7/3/29

481—7.1(272C) Applicability and definitions. These rules are applicable to any licensing authority under the administrative authority of the department pursuant to Iowa Code chapter 10A unless that licensing authority has separate rulemaking authority and has adopted governing rules. As used in this chapter:

"Department" means the department of inspections, appeals, and licensing.

"License" means a license, certification, registration, permit, approval, renewal, or other similar authorization issued by a licensing authority authorizing a person to engage in a profession, occupation, or business.

"Licensing authority" means a board, a commission, or any other division or entity of the department that has the authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession pursuant to Iowa Code chapter 272C.

"Military service" means honorably serving on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1; in the military services of other states, as provided in 10 U.S.C. Section 101(c)(2021); or in the organized reserves of the United States, as provided in 10 U.S.C. Section 10101(2006).

"Military service applicant" means an individual requesting credit toward licensure for military education, training, or service obtained or completed in military service.

"Spouse" means the spouse of an active-duty member of the military forces of the United States.

"Veteran" means an individual who meets the definition of "veteran" in Iowa Code section 35.1(2).

[**ARC 8036C**, IAB 5/29/24, effective 7/3/24]

481—7.2(272C) Military education, training, and service credit. A military service applicant may apply for credit for verified military education, training, or service toward any experience or educational requirement for licensure in accordance with Iowa Code chapter 272C by submitting a military service application form to the licensing authority.

7.2(1) The application may be submitted with an application for licensure or examination, or prior to applying for licensure or to take an examination. No fee is required with submission of an application for military service credit.

7.2(2) The applicant shall identify the experience or educational licensure requirement to which the credit would be applied if granted. Credit will not be applied to an examination requirement.

7.2(3) The applicant shall provide documents, military transcripts, a certified affidavit, or forms that verify completion of the relevant military education, training, or service, which may include, when applicable, the applicant's Certificate of Release or Discharge from Active Duty (DD Form 214) or Verification of Military Experience and Training (VMET) (DD Form 2586).

7.2(4) Upon receipt of a completed military service application, the licensing authority will promptly determine whether the verified military education, training, or service will satisfy all or any part of the identified experience or educational qualifications for licensure.

7.2(5) The licensing authority will grant credit requested in the application in whole or in part if the licensing authority determines that the verified military education, training, or service satisfies all or part of the experience or educational qualifications for licensure.

7.2(6) The licensing authority will inform the military service applicant in writing of the credit, if any, given toward an experience or educational qualification for licensure or explain why no credit was granted. The applicant may request reconsideration upon submission of additional documentation or information.

7.2(7) An applicant who is aggrieved by the licensing authority's decision may request a contested case hearing. A request for a contested case shall be made within 30 days of issuance of the licensing authority's decision. Unless the licensing authority has adopted rules governing contested case hearings under the jurisdiction of that licensing authority, the provisions of 7—Chapter 2506 apply, except that no

fees or costs will be assessed against the applicant in connection with a contested case conducted pursuant to this subrule.

7.2(8) The licensing authority will grant or deny the military service application prior to ruling on the application for licensure. The applicant will not be required to submit any fees in connection with the licensure application unless the licensing authority grants the military service application. If the licensing authority does not grant the military service application, the applicant may withdraw the licensure application or request that the application be placed in pending status for up to one year or as mutually agreed. The withdrawal of a licensure application does not preclude subsequent applications supported by additional documentation or information.

[**ARC 8036C**, IAB 5/29/24, effective 7/3/24; Editorial change: IAC Supplement 8/5/26]

481—7.3(272C) Veteran and active-duty military spouse reciprocity.

7.3(1) A veteran or spouse with an unrestricted professional license in another jurisdiction may apply for licensure in Iowa through reciprocity in accordance with Iowa Code chapter 272C. A veteran or spouse must pass any examinations required for licensure to be eligible for licensure through reciprocity and will be given credit for examinations previously passed when consistent with the licensing authority's laws and rules on examination requirements. A fully completed application for licensure submitted by a veteran or spouse under this subrule will be given priority and will be expedited.

7.3(2) Such an application shall contain all of the information required of all applicants for licensure who hold unrestricted licenses in other jurisdictions and who are applying for licensure by reciprocity, including but not limited to completion of all required forms, payment of applicable fees, disclosure of criminal or disciplinary history, and, if applicable, a criminal history background check. The applicant will use the same forms as any other applicant for licensure by reciprocity and shall additionally provide such documentation as is reasonably needed to verify the applicant's status as a veteran under Iowa Code section 35.1(2) or as a spouse.

7.3(3) Upon receipt of a fully completed licensure application, the licensing authority will promptly determine if the scope of practice of the jurisdiction where the veteran or spouse is licensed is substantially equivalent to the scope of practice in Iowa. The licensing authority shall make this determination based on information supplied by the applicant and such additional information as the licensing authority may acquire from the applicable jurisdiction.

7.3(4) The licensing authority will promptly grant a license to the applicant if the applicant is licensed in the same or similar profession in another jurisdiction whose scope of practice is substantially equivalent to the scope required in Iowa unless the applicant is ineligible for licensure based on other grounds, including, for example, the applicant's disciplinary history or criminal background.

7.3(5) If the licensing authority determines that the scope of practice in the jurisdiction in which the applicant is licensed is not substantially equivalent to the scope of practice in Iowa, the licensing authority will promptly inform the applicant of the additional education or training required for licensure in Iowa. Unless the applicant is ineligible for licensure based on other grounds, such as disciplinary history or criminal background, the following will apply:

a. If the applicant has not passed the required examination(s) for licensure, the applicant may not be issued a temporary license but may request that the licensure application be placed in pending status for up to one year or as mutually agreed to provide the applicant with the opportunity to satisfy the examination requirements.

b. If additional education or training is required, the applicant may request that the licensing authority issue a temporary license for a specified period of time during which the applicant will successfully complete the necessary education or training. The licensing authority will issue a temporary license for a specified period of time upon such conditions as the licensing authority deems reasonably necessary to protect the health, welfare, or safety of the public unless the licensing authority determines that the deficiency is of a character by which public health, welfare, or safety will be adversely affected if a temporary license is granted.

c. If a request for a temporary license is denied, the licensing authority shall issue an order fully explaining the decision and shall inform the applicant of the steps the applicant may take to receive a temporary license.

d. If a temporary license is issued, the application for full licensure will be placed in pending status until the necessary education or training has been successfully completed or the temporary license expires, whichever occurs first. The licensing authority may extend a temporary license on a case-by-case basis for good cause.

7.3(6) An applicant who is aggrieved by the licensing authority's decision to deny an application for a reciprocal license or a temporary license or is aggrieved by the terms under which a temporary license will be granted may request a contested case hearing as set forth in subrule 7.2(7).

[**ARC 8036C**, IAB 5/29/24, effective 7/3/24]

These rules are intended to implement Iowa Code sections 272C.4, 272C.12, and 272C.12A.

[Filed ARC 8036C (Notice ARC 7754C, IAB 4/3/24), IAB 5/29/24, effective 7/3/24]

[Editorial change: IAC Supplement 8/5/26]

CHAPTER 8
LICENSING AND CHILD SUPPORT NONCOMPLIANCE, STUDENT LOAN REPAYMENT NONCOMPLIANCE, AND NONPAYMENT OF STATE DEBT

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—8.1(252J,272D) Definitions. For the purpose of this chapter, the following definitions apply:

"Applicant" means a person seeking the issuance of a license.

"Department" means the department of inspections, appeals, and licensing.

"License" means the same as defined in Iowa Code sections 252J.1 and 272D.1.

[**ARC 7809C**, IAB 4/17/24, effective 5/22/24]

CHILD SUPPORT NONCOMPLIANCE

481—8.2(252J) Definitions. For the purpose of this division, the following definitions apply:

"Certificate of noncompliance" means the same as defined in Iowa Code section 252J.1.

"Licensing authority" means the same as defined in Iowa Code section 252J.1 and includes the department and any board, commission, or other entity of the department having authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

[**ARC 7809C**, IAB 4/17/24, effective 5/22/24]

481—8.3(252J) Child support certificates of noncompliance. The licensing authority will suspend, revoke, or deny the issuance or renewal of a license upon the receipt of a certificate of noncompliance from the child support recovery unit in accordance with Iowa Code chapter 252J. In addition to the procedures set forth in Iowa Code chapter 252J, the rules in this chapter apply.

8.3(1) Notice required by Iowa Code section 252J.8 will be served upon the applicant or licensee by restricted certified mail, return receipt requested; personal service in accordance with Iowa Rule of Civil Procedure 1.305; or the acceptance of service by the applicant or licensee personally or through authorized counsel.

8.3(2) The effective date of the denial, revocation, or suspension is 60 days following service of the notice upon the applicant or licensee.

8.3(3) The licensing authority is authorized to prepare and serve the notice mandated by Iowa Code section 252J.8 upon the applicant or licensee.

8.3(4) Applicants and licensees are responsible for keeping the licensing authority informed of all court actions and all child support recovery unit actions taken under or in connection with Iowa Code chapter 252J, including providing the licensing authority copies, within seven days of filing or issuance, of applications filed with the district court pursuant to Iowa Code section 252J.9, court orders entered in such actions, and withdrawals of certificates of noncompliance by the child support recovery unit.

8.3(5) All licensing authority fees required for license application, renewal or reinstatement must be paid before a license will be issued, renewed or reinstated after proceedings under Iowa Code chapter 252J.

8.3(6) A licensee or applicant may file an application with the district court within 30 days of service of a licensing authority notice pursuant to Iowa Code sections 252J.8 and 252J.9. The filing of the application stays the licensing authority's action until the licensing authority receives a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the denial, revocation, or suspension, the licensing authority will count the number of days before the action was filed and the number of days after the action was disposed of by the court.

8.3(7) The licensing authority will notify the applicant or licensee in writing within ten days of the effective date of the denial, suspension, or revocation of a license, and will similarly notify the applicant or licensee when the license is issued, renewed, or reinstated following the licensing authority's receipt of a withdrawal of the certificate of noncompliance.

[**ARC 7809C**, IAB 4/17/24, effective 5/22/24]

These rules are intended to implement Iowa Code chapter 252J.

STUDENT LOAN REPAYMENT NONCOMPLIANCE

481—8.4(272C) Student loan repayment noncompliance. Pursuant to Iowa Code section 272C.10(4), a person who is in default or delinquent on student loan payments will not be denied a license or have a license suspended or revoked solely on the basis of such default or delinquency.

This rule is intended to implement Iowa Code section 272C.4.

[**ARC 7809C**, IAB 4/17/24, effective 5/22/24]

NONPAYMENT OF STATE DEBT

481—8.5(272D) Definitions. For the purpose of this division, the following definitions apply:

"Certificate of noncompliance" means the same as defined in Iowa Code section 272D.1.

"Licensing authority" means the same as defined in Iowa Code section 272D.1 and includes the department and any board, commission, or other entity of the department having authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

[**ARC 7809C**, IAB 4/17/24, effective 5/22/24]

481—8.6(272D) State debt certificates of noncompliance. The licensing authority will suspend, revoke, or deny the issuance or renewal of a license upon the receipt of a certificate of noncompliance from the centralized collection unit of the department of revenue in accordance with Iowa Code chapter 272D. In addition to the procedures set forth in Iowa Code chapter 272D, the rules in this chapter apply.

8.6(1) Notice required by Iowa Code section 272D.8 will be served upon the applicant or licensee by restricted certified mail, return receipt requested; personal service in accordance with Iowa Rule of Civil Procedure 1.305; or the acceptance of service by the applicant or licensee personally or through authorized counsel.

8.6(2) The effective date of the denial, revocation, or suspension is 60 days following service of the notice upon the applicant or licensee.

8.6(3) The licensing authority is authorized to prepare and serve the notice mandated by Iowa Code section 272D.8 upon the applicant or licensee.

8.6(4) Applicants and licensees are responsible for keeping the licensing authority informed of all court actions and all actions of the department of revenue taken under or in connection with Iowa Code chapter 272D, including providing the licensing authority copies, within seven days of filing or issuance, of applications filed with the district court pursuant to Iowa Code section 272D.9, court orders entered in such actions, and withdrawals of certificates of noncompliance by the centralized collection unit.

8.6(5) All licensing authority fees required for license application, renewal or reinstatement must be paid before a license will be issued, renewed or reinstated after proceedings under Iowa Code chapter 272D.

8.6(6) A licensee or applicant may file an application with the district court within 30 days of service of a licensing authority notice pursuant to Iowa Code sections 272D.8 and 272D.9. The filing of the application stays the licensing authority's action until the licensing authority receives a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the denial, revocation, or suspension, the licensing authority will count the number of days before the action was filed and the number of days after the action was disposed of by the court.

8.6(7) The licensing authority will notify the applicant or licensee in writing within ten days of the effective date of the denial, suspension, or revocation of a license, and will similarly notify the applicant or licensee when the license is issued, renewed, or reinstated following the licensing authority's receipt of a withdrawal of the certificate of noncompliance.

[**ARC 7809C**, IAB 4/17/24, effective 5/22/24]

These rules are intended to implement Iowa Code chapter 272D.

[Filed emergency 11/30/95—published 12/20/95, effective 11/30/95]

[Filed 8/4/00, Notice 6/28/00—published 8/23/00, effective 9/29/00]
[Filed ARC 5187C (Notice ARC 5106C, IAB 7/29/20), IAB 9/23/20, effective 10/28/20]
[Filed ARC 6862C (Notice ARC 6741C, IAB 12/14/22), IAB 2/8/23, effective 3/15/23]
[Filed ARC 7809C (Notice ARC 7649C, IAB 2/21/24), IAB 4/17/24, effective 5/22/24]

CHAPTER 9
CONTESTED CASES

[Prior to 12/20/17, see 481—Ch 10]

Rescinded by 2026 Iowa Acts, Senate File 2463, section 4, effective July 1, 2026. See Uniform Rules on Agency Procedure at 7—Chapters 2500 through 2506 and any corresponding rules adopted by this agency.

CHAPTER 10
RULES OF PROCEDURE AND PRACTICE BEFORE THE ADMINISTRATIVE HEARINGS DIVISION

[Prior to 2/10/88, see Inspections and Appeals Department[481],Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 10/1/31

481—10.1(10A) Scope and application. To the extent not otherwise provided by law of the transmitting agency or licensing board, this chapter applies to all contested case proceedings before the division or for which an ALJ is assisting another agency or board.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.2(10A) Definitions.

"AEDMS" means the administrative electronic document management system, which is the division's electronic filing and case management system.

"Agency" means the same as defined in Iowa Code section 17A.2(1) or a governmental entity pursuant to Iowa Code section 10A.801(5), which has original subject matter jurisdiction in the contested case.

"ALJ" means the administrative law judge, who is the person who presides over or assists with contested cases and other proceedings.

"Board" means a licensing board as defined in Iowa Code section 272C.1(6).

"Division" means the division of administrative hearings in the department of inspections, appeals, and licensing (DIAL).

"Issuance" means the date of a decision or order, mailing of a decision or order, or date of delivery if service is by other means.

"Presiding officer" means any person or body who acts as a presiding officer of a contested case proceeding under the authority of Iowa Code section 17A.11(1).

"Proposed decision" means the ALJ's recommended findings of fact, conclusions of law, and decision and order in contested cases where the agency did not preside.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.3(10A,17A) Time requirements. Time shall be computed as provided in Iowa Code section 4.1(34). For good cause, the presiding officer may extend or shorten the time to take any action, except as provided otherwise by rule or law.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.4(10A) Requests for a contested case hearing. Requests for a contested case hearing are made to the agency with subject matter jurisdiction. That agency shall determine whether to initiate a contested case proceeding.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.5(10A) Transmission of contested cases.

10.5(1) The agency shall transmit the matter either by creating a new case in AEDMS or by submitting a transmittal form. The following information is required:

a. The name of the transmitting agency;

b. The name, address, email address, and telephone number of the contact person in the transmitting agency;

c. The name or title of the proceeding;

d. Any agency docket or reference number;

e. A citation to the jurisdictional authority of the agency regarding the matter in controversy;

f. Any anticipated special features or requirements that may affect the hearing;

g. Whether the hearing should be held in person, by telephone, or by video conference call;

h. Any special legal or technical expertise needed to resolve the issues in the case;

i. The names, phone numbers, email addresses, and addresses of all parties and their attorneys or other representatives;

j. The date the request for a contested case hearing was received by the agency;
k. A statement of the issues involved and a reference to statutes and rules involved;
l. Any mandatory time limits that apply to the processing of the case;
m. Earliest appropriate hearing date; and
n. Whether a petition or answer is required.

10.5(2) The following documents shall be attached to the completed transmittal form or uploaded into AEDMS upon filing of a new case:

a. A copy of the document showing the agency action in controversy; and
b. A copy of any document requesting a contested case hearing.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.6(17A) Notices of hearing and prehearing conference.

10.6(1) A contested case is commenced when the division or board issues a notice of hearing or notice of prehearing conference. Responsibility for issuance of the notice and the manner of service shall be resolved by agreement between the division and the transmitting agency or board.

10.6(2) Notices shall contain the information required by Iowa Code section 17A.12(2) and any additional information required by statute or rule. Notices shall be served by first-class mail or by AEDMS to all parties who are registered users unless otherwise required or permitted by statute or rule or agreed to pursuant to subrule 10.6(1).

10.6(3) Any party may request a prehearing conference, or it may be set upon the presiding officer's own motion. Prehearing conferences may provide an opportunity to be heard on the selection of date, time, manner of hearing, and any other matter set forth in the notice or raised by the parties or presiding officer.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.7(10A,17A) Manner of proceedings. Unless otherwise provided by statute or rule, the presiding officer holds the discretion to conduct hearings by telephone conference, video conference, or in person. Upon request, the presiding officer may allow witnesses to testify remotely, either via phone or video, in an in-person hearing.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.8(10A,17A) Scheduling. Contested case hearings are scheduled according to the following criteria.

10.8(1) *Agency hearings.* The division will promptly schedule hearings, with consideration of the availability of an ALJ, the requests of the parties or transmitting agency, and any special circumstances.

10.8(2) *Board hearings.* When a board requests an ALJ to assist with a contested case proceeding, the board shall consult with the division prior to scheduling hearings to determine the availability of an ALJ.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.9(17A) Disqualification. An ALJ shall withdraw from a contested case under the circumstances listed in 481—subrule 15.2(11) or as otherwise required by law.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.10(10A,17A) Consolidation—severance.

10.10(1) *Consolidation.* The presiding officer may, upon motion by any party or upon the presiding officer's own motion, consolidate any or all matters at issue in two or more proceedings docketed under these rules when:

a. There exist common parties or common questions of fact or law;
b. Consolidation would expedite and simplify consideration of the issues; and
c. Consolidation would not adversely affect the rights of parties engaged in otherwise separate proceedings.

10.10(2) *Severance.* The presiding officer may, upon motion by any party or upon the presiding officer's own motion, for good cause shown, order any proceeding or portion of the proceeding severed.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.11(10A,17A) Pleadings. Pleadings may be required by the notice of hearing or by order of the presiding officer.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.12(17A) Service and filing of documents.

10.12(1) *When service is required.* Except where otherwise specifically authorized by law, every pleading, motion, or other document filed in the contested case proceeding and every document relating to discovery in the proceeding shall be served upon each of the parties to the proceeding, including the originating agency. The party filing a document is responsible for service on all parties.

10.12(2) *Methods of performing service.* Service upon a party represented in the contested case proceeding by an attorney shall be made upon the attorney unless otherwise ordered. Service is made by electronically filing in AEDMS or delivering, mailing, or transmitting by fax or by email a copy to the party or attorney at the party's or attorney's last-known mailing address, fax number, or email address. Service by first-class mail is complete upon mailing, except where otherwise specifically provided by statute, rule, or order.

10.12(3) *Filing with the division.* After a matter has been assigned to the division, and until a decision is issued, every pleading, motion, or other document shall be filed with the division, rather than the originating agency. All documents that are required to be served upon a party shall be filed simultaneously with the division.

Except where otherwise provided by law, a document is deemed filed with the division at the time it is:

a. Delivered to the division at 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321, and date-stamped received;

b. Mailed to the division by first-class mail or by state interoffice mail so long as there is adequate proof of mailing;

c. Transmitted by fax to 515.281.4477 or by email to adminhearings@dia.iowa.gov; or

d. File stamped in AEDMS.

10.12(4) *Proof of mailing.* Adequate proof of mailing includes the following:

a. A legible United States postal service postmark on the envelope;

b. A certificate of service;

c. A notarized affidavit; or

d. A certification in substantially the following form:

> I certify under penalty of perjury and pursuant to the laws of Iowa that, on (date of mailing), I mailed copies of (describe document) addressed to the Department of Inspections, Appeals, and Licensing, Administrative Hearings Division, 6200 Park Avenue, Des Moines, Iowa 50321, and to the names and addresses of the parties listed below by depositing the same in (a United States post office mailbox with correct postage properly affixed) or (state interoffice mail).
>
> (date) (signature)

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.13(17A) Discovery.

10.13(1) Discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by rules of the agency or by order of the presiding officer, time periods for compliance with discovery shall be as provided in the Iowa Rules of Civil Procedure.

10.13(2) Any motion relating to discovery shall allege that the moving party has made a good-faith attempt to resolve the issues raised by the motion with the opposing party.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.14(10A,17A) Subpoenas.

10.14(1) *Form and contents.*

a. *Requirements.* Every subpoena must:

(1) State that the subpoena is issued by the division;

(2) State the title of the proceeding and its case number;

(3) Command each person to whom it is directed to do the following at a specified time and place: attend and testify; produce designated documents, electronically stored information, or tangible things in that person's possession, custody, or control; or permit the inspection of premises; and

(4) Set out the text of subrules 10.14(4) and 10.14(5).

b. Command to attend a deposition; notice of the recording method. A subpoena commanding attendance at a deposition must state the method for recording the testimony.

c. Combining or separating a command to produce or to permit inspection; specifying the form for electronically stored information. A command to produce documents, electronically stored information, or tangible things or to permit the inspection of premises may be included in a subpoena commanding attendance at a deposition, hearing, or trial, or may be set out in a separate subpoena. A subpoena may specify the form or forms in which electronically stored information is to be produced.

d. Command to produce; included obligations. A command in a subpoena to produce documents, electronically stored information, or tangible things requires the responding party to permit inspection, copying, testing, or sampling of the materials.

10.14(2) *Issuance.* The division will issue a subpoena, signed but otherwise in blank, to a party who requests it in writing. That party must complete it before service. An attorney licensed or otherwise authorized to practice law in Iowa also may issue and sign a subpoena as an officer of the court.

10.14(3) *Service.*

a. By whom; tendering fees; serving a copy of certain subpoenas. Any person who is at least 18 years old and not a party may serve a subpoena. Serving a subpoena requires delivering a copy to the named person and, if the subpoena requires that person's attendance and, if demanded, tendering the fees for one day's attendance and traveling fees to and from the court. If the subpoena commands the production of documents, electronically stored information, or tangible things or the inspection of premises before trial, then before it is served, a notice must be served on each party.

b. Permissible place of service. A subpoena may be served at any place within the state of Iowa.

c. Proof of service. Proving service, when necessary, requires filing with the division a statement showing the date and manner of service and the names of persons served. The server must certify the statement in accordance with Iowa Code section 622.1.

10.14(4) *Protecting a person subject to a subpoena.*

a. Avoiding undue burden or expense. A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena.

b. Command to produce materials or permit inspection.

(1) *Appearance not required.* A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

(2) *Objections.* A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing or sampling any or all of the materials or to inspecting the premises, or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

1. At any time, on notice to the commanded person, the serving party may move the division for an order compelling production or inspection.

2. These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

c. Attendance. Any party shall be permitted to attend at the same time and place and for the same purposes specified in the subpoena. No prior notice of intent to attend is required.

d. Quashing or modifying a subpoena.

(1) *When required.* On timely motion, the division must quash or modify a subpoena that:

1. Fails to allow a reasonable time to comply;

2. Requires a person who is neither a party nor a party's officer to travel more than 50 miles from where that person resides, is employed, or regularly transacts business in person, except that a person may be ordered to attend trial anywhere within the state in which the person is served with a subpoena;

3. Requires disclosure of privileged or other protected matter, if no exception or waiver applies; or

4. Subjects a person to undue burden.

(2) *When permitted.* To protect a person subject to or affected by a subpoena, the division may, on motion, quash or modify the subpoena if it requires:

1. Disclosing a trade secret or other confidential research, development, or commercial information; or

2. Disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party.

3. A person who is neither a party nor a party's officer to incur substantial expense to travel more than 50 miles to attend a hearing.

(3) *Specifying conditions as an alternative.* In the circumstances described in subparagraph 10.14(4) *"d"*(2), the division may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

1. Shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and

2. Ensures that the subpoenaed person will be reasonably compensated.

10.14(5) *Duties in responding to a subpoena.*

a. Producing documents or electronically stored information. These procedures apply to producing documents or electronically stored information:

(1) *Documents.* A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(2) *Form for producing electronically stored information not specified.* If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(3) *Electronically stored information produced in only one form.* The person responding need not produce the same electronically stored information in more than one form.

(4) *Inaccessible electronically stored information.* The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the division may nonetheless order discovery from such sources if the requesting party shows good cause. The division may specify conditions for the discovery.

b. Claiming privilege or protection.

(1) *Information withheld.* A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

1. Expressly make the claim; and

2. Describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(2) *Information produced.* If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for the claim. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information to the court under seal for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

10.14(6) *Duties of issuer of subpoena; producing copies of materials obtained by subpoena.* When a party on whose behalf a subpoena has been issued thereby creates or obtains copies of designated

electronically stored information, books, papers, documents or tangible things, that party shall make available a duplicate of such copies at the request of any other party, who shall be responsible for payment of the reasonable cost of making the copies.
[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.15(10A,17A) Motions.

10.15(1) No technical form is required for motions. Any motion for summary judgment shall be filed in compliance with the requirements of Iowa Rules of Civil Procedure.

10.15(2) Any party may file a written resistance or response to a motion within 14 days after the motion is served unless the time period is extended or shortened by rules of the agency or by order of the division or the presiding officer.

10.15(3) The presiding officer may schedule oral argument on any motion upon the request of any party or upon the presiding officer's own motion.

10.15(4) Except for good cause, all motions pertaining to the hearing must be filed and served at least ten days prior to the hearing date, unless the time period is shortened or lengthened by order of the presiding officer, or the rules of the agency provide otherwise.
[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.16(10A) Continuances.

10.16(1) A request for continuance shall be made at the earliest opportunity and state the specific reasons for the request.

10.16(2) No application for continuance will be made or granted ex parte except in an emergency where notice is not feasible. The agency may waive notice of requests for a case or a class of cases.

10.16(3) Except where otherwise provided, a continuance may be granted at the discretion of the presiding officer. Factors to consider include:

a. Any prior continuances;
b. The interests of all parties;
c. The likelihood of informal settlement;
d. Existence of emergency;
e. Objection to the continuance;
f. Any applicable state or federal statutes or regulations;
g. The existence of a conflict in the schedules of counsel or parties or witnesses;
h. The timeliness of the request; and
i. Other grounds stated in the motion or resistance.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.17(10A,17A) Withdrawals. The party that requested the contested case may move to withdraw the party's request for a hearing at any time prior to the hearing. The ALJ may require the party to submit a written request after an oral request. Unless otherwise provided, a withdrawal shall be with prejudice.
[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.18(10A,17A) Intervention.

10.18(1) *Motion.* A motion for leave to intervene must be filed as early in the proceeding as possible and must state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding.

10.18(2) *When filed.* Motion for leave to intervene shall be filed at least 20 days before the hearing. Any later motion must contain a statement of good cause for the failure to file in a timely manner.

10.18(3) *Grounds for intervention.* The movant must demonstrate that:

a. Intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties;

b. The movant will be aggrieved or adversely affected by a final order; and

c. The interests of the movant are not being adequately represented by existing parties; or that it is otherwise entitled to intervene.

10.18(4) *Effect of intervention.* A person granted leave to intervene is a party to the proceeding. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding.
[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.19(17A) Hearing procedures.

10.19(1) When an ALJ has been appointed as the presiding officer in a contested case, the ALJ may:

a. Rule on motions;

b. Preside at the hearing;

c. Require the parties to submit briefs;

d. Ensure that the record is fully and fairly developed by inquiring into matters at issue; and

e. Issue orders and rulings to ensure the orderly conduct of the proceedings.

10.19(2) All objections to procedures, admission of evidence, or any other matter shall be timely made and stated on the record.

10.19(3) Parties in a contested case have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Agencies or partnerships, corporations or associations may be represented by any member, officer, director, or duly authorized agent. Any party may be represented by an attorney or as otherwise authorized by law.

10.19(4) Parties in a contested case have the right to introduce evidence on points at issue, to cross-examine witnesses, and to present evidence in rebuttal.

10.19(5) The ALJ shall maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly or disruptive.

10.19(6) Witnesses may be sequestered during the hearing.

10.19(7) The ALJ may allow the parties to make opening statements and closing arguments and may determine the order of presentation of evidence. Each witness shall be sworn or affirmed by the ALJ and be subject to examination.
[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.20(17A) Evidence.

10.20(1) The presiding officer shall rule on admissibility of evidence and may take official notice of facts.

10.20(2) Stipulation of facts is encouraged.

10.20(3) Evidence shall be confined to the issues on which there has been fair notice prior to the hearing. The presiding officer may take testimony on a new issue if the parties waive the right to notice and no other objection is made. If there is objection, the presiding officer may refuse to hear the new issue and may make a decision on the original issue in the notice or may grant a continuance to allow the parties adequate time to amend pleadings and prepare their cases on the additional issue.

10.20(4) Exhibits and a list of witnesses must be submitted to all parties and the presiding officer prior to the hearing as set forth in the notice of hearing or other order.

10.20(5) Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony shall briefly summarize the testimony on the record but need not actually examine that witness. If the evidence excluded consists of a document or exhibits, it shall be marked as part of an offer of proof and inserted in the record.
[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.21(17A) Default.

10.21(1) If a party fails to appear in a contested case proceeding or prehearing conference after proper service of notice, the presiding officer may either find the party to be in default or, if no adjournment is granted, proceed with the hearing and render a decision in the absence of the party.

10.21(2) Where appropriate and not contrary to law, any party may move for default against a party who has requested an evidentiary hearing to contest adverse agency action that has already occurred but has failed to file a required pleading after proper service.

10.21(3) A party against whom a default has been entered may move to vacate the default decision within 14 days following the issuance of the order. Good cause to vacate a default decision means mistake, inadvertence, surprise, excusable neglect, or unavoidable casualty as provided in Iowa Rule of Civil Procedure 1.977.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.22(17A) Ex parte communication.

10.22(1) Ex parte communications are those communications, oral or written, to an ALJ or other decision-maker in a contested case without notice and an opportunity for all parties to be heard. Ex parte communication is prohibited except as provided in Iowa Code section 17A.17 or as otherwise provided by law.

10.22(2) Any presiding officer who receives prohibited communication shall submit the written communication or a summary of the oral communication for inclusion in the record.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.23(10A,17A) ALJ decisions.

10.23(1) *Proposed decisions.* Except as otherwise provided by law, when the agency did not preside at the reception of evidence, the ALJ shall issue a proposed decision based on the record of the contested case that includes findings of fact and conclusions of law stated separately. A ruling dismissing all of a party's claims or a voluntary agency dismissal is a proposed decision.

10.23(2) *Record.* The record in a contested case shall include all materials specified in Iowa Code section 17A.12(6), any request for a contested case hearing, and other relevant procedural documents.

10.23(3) *Review of proposed decisions.* Request for review of a proposed decision shall be made to the agency in which the contested case originated in the manner and within the time specified by that agency's rules. In contested cases in which the director of DIAL has final decision-making authority, request for review shall be made as provided in rule 7—2506.27(17A).

10.23(4) *Final decisions.* If there is no appeal from or review of the proposed decision, the ALJ's proposed decision becomes the final decision of the agency.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.24(10A,17A,272C) Board hearings. Boards may request an ALJ from the division to assist in conducting contested case hearings and other related prehearing matters.

10.24(1) In scheduling hearings, boards will consult with the division to determine the availability of an ALJ. The board will determine the time and place of hearing.

10.24(2) *Review of proposed decisions.* Request for review of a proposed decision shall be made to the agency in which the contested case originated in the manner and within the time specified by that agency's rules. In contested cases in which the director of the department of inspections and appeals has final decision-making authority, request for review shall be made as provided in rule 7—2506.27(17A).

10.24(3) The ALJ may assist in conducting the hearing for the board and may, when delegated by the board:

a. Open the record and receive appearances;
b. Administer oaths;
c. Issue subpoenas;
d. Receive testimony and exhibits presented by the parties;
e. Rule on objections and motions;
f. Close the hearing; and
g. Prepare decisions and orders as directed by the board.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.25(10A) Recordings. The division shall record each hearing or other formal proceeding by any mechanized means. The division may provide a copy of the audio recording to any party to a pending proceeding upon request. Parties may arrange for a hearing to be recorded by certified shorthand reporters but shall bear the cost unless otherwise provided by law. Parties are to alert the division prior to the hearing if a reporter has been engaged.

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.26(10A) Agency reporting requirements. Agencies and boards shall notify and provide copies to the division of any final agency decision, petition for judicial review, and ruling on judicial review.
[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

481—10.27(724) Appeals in cases involving permits to carry weapons and acquire firearms. An applicant or permittee may appeal a decision to deny an application for a permit to carry weapons or acquire firearms or to suspend or revoke a permit to carry weapons or acquire firearms pursuant to Iowa Code section 724.21A and this chapter. To the extent this rule is inconsistent with the other provisions of this chapter, this rule will govern such appeals.

10.27(1) *Definitions.* For purposes of this rule:

"Agency" means the commissioner of public safety or the sheriff of the county in which the aggrieved party resides.

"Applicant" means a person who has applied for a permit to carry weapons or acquire firearms.

"Permittee" means a person who has received a permit to carry weapons or acquire firearms.

10.27(2) *Filing of appeal.* Within 30 days of the applicant's or permittee's receipt of the agency's decision, the applicant or permittee shall file the written appeal, a copy of the agency's written decision, and a fee of $10 with the Iowa Department of Inspections, Appeals, and Licensing, Division of Administrative Hearings, 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321, or electronically pursuant to 481—Chapter 16.

10.27(3) *Service on the agency.* At the time the appeal is filed with the division, the applicant or permittee shall serve a copy of the appeal on the agency that made the decision on the permit to carry weapons or acquire firearms.

10.27(4) *Denial of appeal.* The division may deny any appeal that does not meet the requirements in subrules 10.27(2) and 10.27(3).

10.27(5) *Agency record.* Upon receipt of a copy of the notice of hearing, the agency shall file with the division and send to the applicant or permittee:

a. A copy of all documents used by the agency in reaching the decision; and

b. A form identifying the name, address, email address, and telephone number of the agency's contact person or attorney representative.

10.27(6) *Notice of hearing.* In addition to the information set forth in Iowa Code section 17A.12(2) and rule 481—10.6(17A), the notice of hearing shall contain the following information:

a. Notification that failure to appear and participate in the contested case proceeding may result in the entry of a default judgment; and

b. Notification that court costs and reasonable attorney fees will be awarded pursuant to Iowa Code section 724.21A(8).

10.27(7) *Attorney fees, court costs, and contested case costs.* An applicant or permittee or an agency may be eligible for an award of reasonable attorney fees pursuant to Iowa Code section 724.21A(8).

a. Within 14 days of the date of the ALJ's decision, a party may seek an award of attorney fees by filing with the division a request and documentation supporting the request. A resistance to the request for attorney fees must be filed within seven days of the filing of the request. Upon request of either party or on the ALJ's own motion, a hearing may be scheduled on the request.

b. An award of attorney fees shall be paid within 30 days of the issuance of the order unless an interested party seeks rehearing or judicial review or the parties agree to an alternative payment schedule.

c. The ALJ's decision is not final for purposes of judicial review under Iowa Code chapter 17A until the ALJ has issued a written decision determining the amount of any attorney fees to be awarded under this subrule or determining that no attorney fees are to be awarded.

d. Costs of the division in conducting a contested case proceeding arising out of a decision of the commissioner of public safety shall be charged to the department of public safety pursuant to Iowa Code section 10A.801(9).

[**ARC 0462D**, IAB 8/5/26, effective 10/1/26]

CHAPTER 15
IOWA CODE OF ADMINISTRATIVE JUDICIAL CONDUCT
[Prior to 12/20/17, see rule 481—10.29(10A)]

Chapter rescission date pursuant to Iowa Code section 17A.7: 10/1/31

481—15.1(10A) Canon 1. A presiding officer shall uphold and promote the independence, integrity, and impartiality of the administrative judiciary and shall avoid impropriety and the appearance of impropriety.

15.1(1) *Compliance with the law.* A presiding officer shall comply with the law, including the Iowa Code of Administrative Judicial Conduct, hereafter referred to as "this Code."

15.1(2) *Promoting confidence in the administrative judiciary.* A presiding officer shall act at all times in a manner that promotes public confidence in the independence, integrity, and impartiality of the administrative judiciary and shall avoid impropriety and the appearance of impropriety.

15.1(3) *Avoiding abuse of the prestige of an administrative judicial position.* A presiding officer shall not abuse the prestige of the administrative judicial position to advance the personal or economic interests of the presiding officer or others or allow others to do so.

[**ARC 0463D**, IAB 8/5/26, effective 10/1/26]

481—15.2(10A) Canon 2. A presiding officer shall perform administrative judicial duties impartially, competently, and diligently.

15.2(1) *Giving precedence to administrative judicial duties.* The administrative judicial duties, as prescribed by law, shall take precedence over all of a presiding officer's personal and extrajudicial activities.

15.2(2) *Impartiality and fairness.* A presiding officer shall uphold and apply the law and shall perform all administrative judicial duties fairly and impartially.

15.2(3) *Bias, prejudice, and harassment.*

a. A presiding officer shall perform all administrative judicial and other duties without bias or prejudice.

b. A presiding officer shall not, in the performance of administrative judicial duties, by words or conduct manifest bias or prejudice or engage in harassment, including but not limited to bias, prejudice, or harassment based upon race, sex, gender, religion, national origin, ethnicity, disability, age, sexual orientation, marital status, socioeconomic status, or political affiliation, and shall not permit others subject to the presiding officer's direction and control to do so.

c. A presiding officer shall require lawyers and party representatives in proceedings before the presiding officer to refrain from manifesting bias or prejudice or engaging in harassment, based upon attributes including but not limited to race, sex, gender, religion, national origin, ethnicity, disability, age, sexual orientation, marital status, socioeconomic status, or political affiliation against parties, witnesses, lawyers, party representatives, or others.

d. The restrictions of paragraphs 15.2(3)*"b"* and *"c"* do not preclude presiding officers, lawyers, or party representatives from making legitimate reference to the listed factors, or similar factors, when they are relevant to an issue in a proceeding.

15.2(4) *External influences on administrative judicial conduct.*

a. A presiding officer shall not be swayed by public clamor or fear of criticism.

b. A presiding officer shall not permit family, social, political, financial, or other interests or relationships to influence the presiding officer's administrative judicial conduct or judgment.

c. A presiding officer shall not convey or permit others to convey the impression that any person or organization is in a position to influence the presiding officer.

15.2(5) *Competence, diligence, and cooperation.*

a. A presiding officer shall perform administrative judicial and other duties competently and diligently.

b. A presiding officer shall cooperate with other presiding officers and other executive branch employees in the administration of agency business.

15.2(6) *Ensuring the right to be heard.*

a. A presiding officer shall accord to every person who has a legal interest in a proceeding, or that person's lawyer or authorized representative, the right to be heard according to law.

b. A presiding officer may encourage parties to a proceeding and their lawyers or authorized representatives to settle matters in dispute but shall not act in a manner that coerces any party into settlement.

15.2(7) *Responsibility to decide.* A presiding officer shall hear and decide matters assigned to the presiding officer, except when disqualification is required by subrule 15.2(11) or other law.

15.2(8) *Decorum and demeanor.*

a. A presiding officer shall require order and decorum in proceedings before the presiding officer.

b. A presiding officer shall be patient, dignified, and courteous to parties, board members, witnesses, lawyers, party representatives, agency staff, agency officials, and others with whom the presiding officer deals in an official capacity and shall require similar conduct of lawyers, party representatives, and others subject to the presiding officer's direction and control.

15.2(9) *Ex parte communications.*

a. A presiding officer shall not initiate, permit, or consider ex parte communications or consider other communications made to the presiding officer outside the presence of the parties or their lawyers, concerning a pending matter or impending matter, except as permitted by Iowa Code section 17A.17.

b. A presiding officer shall not investigate facts in a matter independently and shall consider only the evidence presented and any facts that may be officially noticed pursuant to Iowa Code section 17A.14.

15.2(10) *Statements on pending and impending cases.*

a. A presiding officer shall not make any public statement that might reasonably be expected to affect the outcome or impair the fairness of a pending matter or impending matter before the presiding officer or another presiding officer in the same agency or make any nonpublic statement that might substantially interfere with a fair hearing.

b. A presiding officer shall not, in connection with cases, controversies, or issues that are likely to come before the presiding officer, make pledges, promises, or commitments that are inconsistent with the impartial performance of the presiding officer's adjudicative duties.

c. A presiding officer shall require others subject to the presiding officer's direction and control to refrain from making statements that the presiding officer would be prohibited from making by paragraphs 15.2(10)*"a"* and *"b."*

d. Notwithstanding the restrictions in paragraph 15.2(10)*"a,"* a presiding officer may explain agency procedures and may comment on any proceeding in which the presiding officer is a party in a personal capacity.

e. Subject to the requirements of paragraph 15.2(10)*"a,"* a presiding officer may respond directly or through a third party to allegations in the media or elsewhere concerning the presiding officer's conduct in a matter.

15.2(11) *Disqualification.*

a. A presiding officer shall disqualify the presiding officer in any proceeding in which the presiding officer's impartiality might reasonably be questioned, including but not limited to the following circumstances:

(1) The presiding officer has a personal bias or prejudice concerning a party or a party's lawyer or other representative or has personal knowledge of facts that are in dispute in the proceeding.

(2) The presiding officer knows that the presiding officer, the presiding officer's spouse or domestic partner, or a person within the third degree of relationship to either of them, or the spouse or domestic partner of such a person is:

1. A party to the proceeding, or an officer, director, general partner, managing member, or trustee of a party;
2. Acting as a lawyer or party representative in the proceeding;
3. A person who has more than a de minimis interest that could be substantially affected by the proceeding; or
4. Likely to be a material witness in the proceeding.

(3) The presiding officer knows that the presiding officer, individually or as a fiduciary, or the presiding officer's spouse, domestic partner, parent, or child, or any other member of the presiding officer's family residing in the presiding officer's household has an economic interest in the subject matter in controversy or in a party to the proceeding.

(4) The presiding officer, while a presiding officer, has made a public statement, other than in an agency proceeding, decision, opinion, or order, that commits or appears to commit the presiding officer to reach a particular result or rule in a particular way in the proceeding or controversy.

(5) The presiding officer:

1. Served as a lawyer in the matter in controversy or was associated with a lawyer who participated substantially as a lawyer in the matter during such association;

2. Served in governmental employment and in such capacity participated personally and substantially as a lawyer or public official concerning the proceeding or has publicly expressed in such capacity an opinion concerning the merits of the particular matter in controversy; or

3. Was a material witness concerning the matter.

(6) The presiding officer personally investigated, prosecuted, or advocated in connection with the matter, the specific controversy underlying the matter, or another pending factually related matter, or pending factually related controversy that may culminate in a contested case, involving the same parties, or is subject to the authority, direction, or discretion of any person who has personally investigated, prosecuted, or advocated in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy, involving the same parties. But the presiding officer is not required to disqualify the presiding officer solely because the presiding officer determined there was probable cause to initiate the proceeding.

b. A presiding officer shall keep informed about the presiding officer's personal and fiduciary economic interests and make a reasonable effort to keep informed about the personal economic interests of the presiding officer's spouse or domestic partner and minor children residing in the presiding officer's household.

c. A presiding officer subject to disqualification under this rule, other than for bias or prejudice under subparagraph 15.2(11)*"a"*(1), may disclose on the record the basis of the presiding officer's disqualification and may ask the parties and their lawyers or representatives to consider, outside the presence of the presiding officer, whether to waive disqualification. If, following the disclosure, the parties and lawyers or party representatives agree, without participation by the presiding officer, that the presiding officer should not be disqualified, the presiding officer may participate in the proceeding. The agreement shall be incorporated into the record of the proceeding.

15.2(12) *Supervisory duties.*

a. A presiding officer shall require others subject to the presiding officer's direction and control to act in a manner consistent with the presiding officer's obligations under this Code.

b. A presiding officer with supervisory authority for the performance of other presiding officers shall take reasonable measures to ensure that those presiding officers properly discharge their administrative judicial responsibilities, including the prompt disposition of matters before them.

15.2(13) *Disability and impairment.* A presiding officer having a reasonable belief that the performance of a lawyer, party representative, or another presiding officer is impaired by drugs or alcohol, or by a mental, emotional, or physical condition, shall take appropriate action, which may include a confidential referral to a lawyer or employee assistance program.

15.2(14) *Responding to administrative judicial and lawyer misconduct.*

a. A presiding officer having knowledge that another presiding officer has committed a violation of this Code that raises a substantial question regarding the presiding officer's honesty, trustworthiness, or fitness as a presiding officer in other respects shall inform the appropriate authority.

b. A presiding officer having knowledge that a lawyer has committed a violation of the Iowa Rules of Professional Conduct that raises a substantial question regarding the lawyer's honesty, trustworthiness, or fitness as a lawyer in other respects shall inform the appropriate authority.

c. A presiding officer who receives information indicating a substantial likelihood that another presiding officer has committed a violation of this Code shall take appropriate action.

d. A presiding officer who receives information indicating a substantial likelihood a lawyer has committed a violation of the Iowa Rules of Professional Conduct shall take appropriate action.

e. This rule does not require disclosure of information gained by a presiding officer while participating in an approved lawyers assistance program.

15.2(15) *Cooperation with disciplinary authorities.*

a. A presiding officer shall cooperate and be candid and honest with a lawyer disciplinary agency or other appropriate authority investigating a violation of this Code or the Iowa Rules of Professional Conduct.

b. A presiding officer shall not retaliate, directly or indirectly, against a person known or suspected to have assisted or cooperated with an investigation of a presiding officer or a lawyer.

[**ARC 0463D**, IAB 8/5/26, effective 10/1/26]

481—15.3(10A) Canon 3. An administrative law judge shall conduct the administrative law judge's personal and extrajudicial activities to minimize the risk of conflict with administrative judicial obligations.

15.3(1) *Extrajudicial activities in general.* An administrative law judge may engage in extrajudicial activities, except as prohibited by law or this Code. However, when engaging in extrajudicial activities, an administrative law judge shall not:

a. Participate in activities that will interfere with the proper performance of the administrative law judge's administrative judicial duties;

b. Participate in activities that will lead to frequent disqualification of the administrative law judge;

c. Participate in activities that would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality;

d. Engage in conduct that would appear to a reasonable person to be coercive; or

e. Make use of agency premises, staff, stationery, equipment, or other resources, except for incidental use for activities that concern the law, the legal system, the provision of legal services, or the administration of justice, or unless such additional use is permitted by law.

15.3(2) *Testifying as a character witness.* An administrative law judge shall not testify as a character witness in a judicial, administrative, or other adjudicatory proceeding or otherwise vouch for the character of a person in a legal proceeding, except when duly subpoenaed.

15.3(3) *Appointments to governmental positions.* An administrative law judge shall not accept appointment to a governmental committee, board, commission, or other governmental position that would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality or would lead to frequent disqualification of the administrative law judge.

15.3(4) *Use of nonpublic information.* An administrative law judge shall not intentionally disclose or use nonpublic information acquired in an administrative judicial capacity for any purpose unrelated to the administrative law judge's administrative judicial or other duties.

15.3(5) *Affiliation with discriminatory organizations.*

a. An administrative law judge shall not hold membership in any organization that practices invidious discrimination on the basis of race, sex, gender, religion, national origin, ethnicity, or sexual orientation. An administrative law judge's membership in a religious organization as a lawful exercise of the freedom of religion is not prohibited.

b. An administrative law judge shall not use the benefits or facilities of an organization if the administrative law judge knows or should know that the organization practices invidious discrimination on one or more of the bases identified in paragraph 15.3(5)*"a."* An administrative law judge's attendance at an event in a facility of an organization that the administrative law judge is not permitted to join is not a violation of this rule when the administrative law judge's attendance is an isolated event that could not reasonably be perceived as an endorsement of the organization's practices.

15.3(6) *Participation in educational, religious, charitable, fraternal, or civic organizations and activities.*

a. Subject to the requirements of subrule 15.3(1), an administrative law judge may participate in activities sponsored by organizations or governmental entities concerned with the law, the legal system, the provision of legal services, or the administration of justice, and those sponsored by or on behalf of

educational, religious, charitable, fraternal, or civic organizations not conducted for profit, including but not limited to the following activities:

(1) Assisting such an organization or entity in planning related to fundraising, volunteering goods or services at fundraising events, and participating in the management and investment of the organization's or entity's funds;

(2) Soliciting contributions for such an organization or entity but only from members of the administrative law judge's family or from other administrative law judges or coworkers in the administrative law judge's immediate office over whom the administrative law judge does not exercise supervisory authority;

(3) Appearing or speaking at, receiving an award or other recognition at, being featured on the program of, and permitting an administrative law judge's title to be used in connection with an event of such an organization or entity, but if the event serves a fundraising purpose, the administrative law judge may participate only if the event concerns the law, the legal system, the provision of legal services, or the administration of justice;

(4) Making recommendations to such a public or private fund-granting organization or entity in connection with its programs and activities but only if the organization or entity is concerned with the law, the legal system, the provision of legal services, or the administration of justice; and

(5) Serving as an officer, director, trustee, or nonlegal advisor of such an organization or entity unless it is likely that the organization or entity:

1. Will be engaged in proceedings that would ordinarily come before the administrative law judge; or

2. Will frequently be engaged in adversary proceedings before the agency in which the administrative law judge serves.

b. An administrative law judge may encourage lawyers to provide pro bono publico legal services.

c. Subject to the requirements of subrule 15.3(1), an administrative law judge may:

(1) Provide leadership in identifying and addressing issues involving equal access to the justice system; developing public education programs; engaging in activities to promote the fair administration of justice and convening, participating or assisting in advisory committees and community collaborations devoted to the improvement of the law, the legal system, the provision of legal services, or the administration of justice.

(2) Endorse projects and programs directly related to the law, the legal system, the provision of legal services, and the administration of justice to those coming before the courts or the administrative judiciary.

(3) Participate in programs that concern the law or that promote the administration of justice.

15.3(7) *Appointments to fiduciary positions.*

a. An administrative law judge shall not accept an appointment to serve in a fiduciary position, such as executor, administrator, trustee, guardian, attorney-in-fact, or other personal representative, except for the estate, trust, or person of a member of the administrative law judge's family, and then only if such service will not interfere with the proper performance of administrative judicial duties.

b. An administrative law judge shall not serve in a fiduciary position if the administrative law judge as fiduciary will likely be engaged in proceedings that would ordinarily come before the administrative law judge or if the estate, trust, or ward becomes involved in adversary proceedings before the agency in which the administrative law judge serves.

c. An administrative law judge acting in a fiduciary capacity shall be subject to the same restrictions on engaging in financial activities that apply to an administrative law judge personally.

d. If a person who is serving in a fiduciary position becomes an administrative law judge, the administrative law judge must comply with this subrule as soon as reasonably practicable but in no event later than six months after becoming an administrative law judge.

15.3(8) *Services as arbitrator or mediator.* An administrative law judge shall not act as an arbitrator or a mediator or perform other judicial functions apart from the administrative law judge's official duties unless expressly authorized by law.

15.3(9) *Practice of law.* An administrative law judge shall not engage in the private practice of law. An administrative law judge may act pro se and may, without compensation, give legal advice to and draft or review documents for a member of the administrative law judge's family but is prohibited from

serving as the family member's lawyer before the agency in which the administrative law judge serves. An administrative law judge serving in the administrative hearings division of the department is prohibited from serving as the family member's lawyer in any proceeding in which another administrative law judge serving in the division is the presiding officer, regardless of whether the proceeding is being conducted on behalf of the department or another state agency.

15.3(10) *Financial, business, or remunerative activities.*

a. An administrative law judge may hold and manage investments of the administrative law judge and members of the administrative law judge's family.

b. An administrative law judge shall not serve as an officer, director, manager, general partner, advisor, or employee of any business entity, except that an administrative law judge may manage or participate in:

(1) A business closely held by the administrative law judge or members of the administrative law judge's family; or

(2) A business entity primarily engaged in investment of the financial resources of the administrative law judge or members of the administrative law judge's family.

c. An administrative law judge shall not engage in financial activities permitted under paragraphs 15.3(10)*"a"* and *"b"* if the financial activities will:

(1) Interfere with the proper performance of administrative judicial duties;

(2) Lead to frequent disqualification of the administrative law judge;

(3) Involve the administrative law judge in frequent transactions or continuing business relationships with lawyers or other persons likely to come before the agency in which the administrative law judge serves; or

(4) Result in violation of other provisions of this Code.

15.3(11) *Compensation for extrajudicial activities.* An administrative law judge may accept reasonable compensation for extrajudicial activities permitted by this Code and other law unless such acceptance would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality.

15.3(12) *Acceptance of gifts, loans, bequests, benefits, or other things of value.* An administrative law judge, an administrative law judge's spouse, and an administrative law judge's dependent child shall not accept or receive any gift, loan, bequest, benefit, or other thing of value if acceptance or receipt is prohibited by Iowa Code chapter 68B or any other law or if acceptance or receipt would appear to a reasonable person to undermine the administrative law judge's independence, integrity, or impartiality.

15.3(13) *Reimbursement of expenses and waivers of fees or charges.*

a. Unless otherwise prohibited by subrules 15.3(1) and 15.3(12), Iowa Code chapter 68B, or other law, an administrative law judge may accept reimbursement of necessary and reasonable expenses for travel, food, lodging, or other incidental expenses, or a waiver or partial waiver of fees or charges for registration, tuition, and similar items, from sources other than the administrative law judge's employing entity, if the expenses or charges are associated with the administrative law judge's participation in extrajudicial activities permitted by this Code.

b. Reimbursement of expenses for necessary travel, food, lodging, or other incidental expenses shall be limited to the actual costs reasonably incurred by the administrative law judge and, when appropriate to the occasion, by the administrative law judge's spouse, domestic partner, or guest.

[**ARC 0463D**, IAB 8/5/26, effective 10/1/26]

481—15.4(10A) Canon 4. An administrative law judge shall not engage in political or campaign activity that is inconsistent with the independence, integrity, or impartiality of the administrative judiciary.

15.4(1) *Political and campaign activities of administrative law judges.*

a. Except as permitted by law, an administrative law judge shall not:

(1) Act as a leader in, or hold an office in, a political organization;

(2) Make speeches on behalf of a political organization;

(3) Publicly endorse or oppose a candidate for any public office;

(4) Solicit funds for, pay an assessment to, or make a contribution to a political organization, a candidate for judicial retention, or a candidate for public office;

(5) Attend or purchase tickets for dinners or other events sponsored by a political organization or a candidate for public office; or

(6) Participate in a precinct caucus, except as provided for in paragraph 15.4(1)*"b."*

b. Paragraph 15.4(1)*"a"* does not prohibit an administrative law judge from participating in a precinct caucus merely to vote for, or support in the delegate selection process, a candidate for the office of President of the United States, provided that the administrative law judge does not speak publicly on behalf of or against a candidate, encourage other caucus participants to support or oppose a candidate, or otherwise engage in conduct that is inconsistent with the independence, integrity, or impartiality of the administrative judiciary.

c. An administrative law judge shall take reasonable measures to ensure that other persons do not undertake, on behalf of the administrative law judge, any activities prohibited under paragraph 15.4(1)*"a."*

15.4(2) *Activities of administrative law judges who become candidates for nonjudicial office.*

a. Upon becoming a candidate for nonjudicial elective office, an administrative law judge shall resign from the administrative law judge position unless permitted by law to continue to hold the administrative law judge position.

b. Upon becoming a candidate for nonjudicial appointive office, an administrative law judge is not required to resign from the administrative law judge position provided that the administrative law judge complies with the other provisions of this Code.

[**ARC 0463D**, IAB 8/5/26, effective 10/1/26]

481—15.5(10A) Scope, definitions, and application.

15.5(1) *Scope.*

a. This Code consists of four canons, each of which is codified as the introductory paragraph of an administrative rule, and numbered rules under each canon, which are codified as subrules. Subrule 15.5(3) establishes when the various rules apply to a presiding officer or an administrative law judge.

b. The canons state overarching principles of judicial ethics that all administrative law judges and presiding officers, as applicable, must observe. Although an administrative law judge or presiding officer may be disciplined only for violating an applicable rule, the canons provide important guidance in interpreting the rules. Where a rule contains a permissive term, such as "may" or "should," the conduct being addressed is committed to the personal and professional discretion of the administrative law judge or presiding officer in question, and no disciplinary action should be taken for action or inaction within the bounds of such discretion.

c. Consistent with the requirement of Iowa Code section 10A.801(7)*"d,"* this Code is similar in function and substantially equivalent to the Iowa Code of Judicial Conduct adopted by the Iowa Supreme Court and contained in Chapter 51 of the Iowa Court Rules. The Iowa Code of Judicial Conduct includes accompanying comments to the rules that may provide useful guidance regarding the purpose, meaning, and proper application of the corresponding rule in this Code. The comments contain explanatory material and, in some instances, provide examples of permitted or prohibited conduct. The comments may also identify aspirational goals for administrative law judges and presiding officers. To implement fully the principles of this Code as articulated in the canons, administrative law judges and presiding officers should strive to exceed the standards of conduct established by the rules, holding themselves to the highest ethical standards and seeking to achieve those aspirational goals, thereby enhancing the dignity of the administrative judicial position.

d. The rules of this Code are rules of reason that should be applied consistent with constitutional requirements, statutes, administrative rules, and decisional law, and with due regard for all relevant circumstances. The rules should not be interpreted to impinge upon the essential independence of administrative law judges and presiding officers in making administrative judicial decisions.

e. Although the black letter of the rules is binding and enforceable, it is not contemplated that every transgression will result in the imposition of discipline. Whether discipline should be imposed should be determined by the presiding officer's appointing authority through a reasonable and reasoned application of the rules and should depend upon factors such as the seriousness of the transgression, the facts and circumstances that existed at the time of the transgression, the extent of any pattern of improper activity,

whether there have been previous violations, and the effect of the improper activity upon the administrative judicial system or others.

f. This Code is not designed or intended as a basis for civil or criminal liability. Neither is it intended to be the basis for parties to seek collateral remedies against each other or to obtain tactical advantages in proceedings before a presiding officer.

15.5(2) *Definitions.* For purposes of this chapter, the following definitions apply:

"Administrative law judge" means a person who acts as a presiding officer under the authority of Iowa Code section 17A.11(1) who is not an agency head or a member of a multimembered agency head. This includes but is not limited to administrative law judges employed by the administrative hearings division of the department, the board of parole, and deputy workers' compensation commissioners.

"Affiliate" or *"affiliated"* mean any person, domestic or foreign, that controls, is controlled by, or is under common control with any other person.

"Appropriate authority" means the authority having responsibility for the initiation of a disciplinary process in connection with the violation to be reported.

"Associate" or *"associated"* means any person who employs, is employed by, or is under common employment with another person; any person who acts in cooperation, consultation, or concert with, or at the request of, another person; and any spouse, domestic partner, or person within the third degree of relationship of any of the foregoing.

"Contribution" means both financial and in-kind contributions, such as goods, professional or volunteer services, advertising, and other types of assistance, which, if obtained by the recipient otherwise, would require a financial expenditure.

"Control" or *"controlled"* each refers to the power of one person to exercise, directly or indirectly or through one or more persons, a dominating, governing, or controlling influence over another person, whether by contractual relationship (including without limitation a debtor-creditor relationship), by family relationship, by ownership, by dominion over, or by power to vote any category or voting interest (including without limitation shares of common stock, shares of voting preferred stock, and partnership interests), or by exercising (or wielding the power to exercise) in any manner dominion over a majority of directors, partners, trustees, or other persons performing similar functions. For more information, see definition of "affiliate" and "affiliated."

"De minimis," in the context of interests pertaining to disqualification of an administrative law judge, means an insignificant interest that could not raise a reasonable question regarding the administrative law judge's impartiality.

"Domestic partner" means a person with whom another person maintains a household and an intimate relationship, other than a person to whom he or she is legally married.

"Economic interest" means ownership of more than a de minimis legal or equitable interest. Except for situations in which the presiding officer participates in the management of such a legal or equitable interest, or the interest could be substantially affected by the outcome of a proceeding before a presiding officer, economic interest does not include:

1. An interest in the individual holdings within a mutual or common investment fund;
2. An interest in securities held by an educational, religious, charitable, fraternal, or civic organization in which the presiding officer or the presiding officer's spouse, domestic partner, parent, or child serves as a director, an officer, an advisor, or other participant;
3. A deposit in a financial institution or deposits or proprietary interests the presiding officer may maintain as a member of a mutual savings association or credit union, or similar proprietary interests; or
4. An interest in the issuer of government securities held by the presiding officer.

"Fiduciary" includes relationships such as executor, administrator, trustee, or guardian.

"Impartial," "impartiality," and *"impartially"* mean absence of bias or prejudice in favor of, or against, particular parties or classes of parties, as well as maintenance of an open mind in considering issues that may come before a presiding officer or administrative law judge.

"Impending matter" is a matter that is imminent or expected to occur in the near future.

"Impropriety" includes conduct that violates the law, court rules, or provisions of this Code and conduct that undermines a presiding officer's or administrative law judge's independence, integrity, or impartiality.

"Independence" means a presiding officer's or administrative law judge's freedom from influence or controls other than those established by law.

"Integrity" means probity, fairness, honesty, uprightness, and soundness of character.

"Knowingly," "knowledge," "known," and *"knows"* mean actual knowledge of the fact in question. A person's knowledge may be inferred from circumstances.

"Law" encompasses administrative rules and regulations, court rules, ordinances, statutes, constitutional provisions, and decisional law.

"Member of a presiding officer's family residing in the presiding officer's household" means any relative of a presiding officer by blood or marriage, or a person treated by a presiding officer as a member of the presiding officer's family, who resides in the presiding officer's household.

"Member of the administrative law judge's family" means a spouse, domestic partner, child, grandchild, parent, grandparent, or other relative or person with whom the administrative law judge maintains a close familial relationship.

"Member of the presiding officer's family" means a spouse, domestic partner, child, grandchild, parent, grandparent, or other relative or person with whom the presiding officer maintains a close familial relationship.

"Nonpublic information" means information that is not available to the public. "Nonpublic information" may include but is not limited to information that is confidential or sealed by statute or court or administrative order or impounded or communicated in camera.

"Pending matter" is a matter that has commenced. A matter continues to be pending through any appellate process, including director review and judicial review, until final disposition.

"Person" means any natural or juridical person, including without limitation any corporation, limited liability company, partnership, trust, union, or other labor organization; any branch, division, department, or local unit of any of the foregoing; any political committee, party, or organization; or any other organization or group of persons.

"Political organization" means a political party or other group sponsored by or affiliated with a political party or candidate, the principal purpose of which is to further the election or appointment of candidates for political office.

"Presiding officer" means a person who acts as a presiding officer of a contested case proceeding under the authority of Iowa Code section 17A.11(1).

"Third degree of relationship" includes the following persons: great-grandparent, grandparent, parent, uncle, aunt, brother, sister, child, grandchild, great-grandchild, nephew, and niece.

15.5(3) *Application.*

a. The provisions of this Code apply to all persons who act as presiding officers under the authority of Iowa Code section 17A.11(1), except as specified in paragraph 15.5(3)*"b"* for agency heads or members of multimembered agency heads. Canons and rules that apply to all presiding officers use the terminology "presiding officer" in their text. This Code only applies to an agency head or a member of a multimembered agency head who actually acts as a presiding officer and does not apply merely because the agency head or member of a multimembered agency head is authorized to serve as the presiding officer when another person serves as the presiding officer.

b. The provisions of rules 481—15.3(10A) and 481—15.4(10A) of this Code do not apply to agency heads or members of multimembered agency heads. These provisions apply only to administrative law judges and thus the terminology "administrative law judge" is used in their text.

c. This Code does not apply to persons who participate only in the making of a final decision in a contested case without serving as a presiding officer pursuant to Iowa Code section 17A.11(1) in that contested case unless a statute or administrative rule requires such a person to abide by this Code or a particular provision of this Code. This Code may nevertheless provide useful ethical guidance for a person participating in the making of a final decision in a contested case.

[**ARC 0463D**, IAB 8/5/26, effective 10/1/26]

These rules are intended to implement Iowa Code section 10A.801.

[Filed ARC 3524C (Notice ARC 3408C, IAB 10/25/17), IAB 12/20/17, effective 1/24/18]

CHAPTER 16
ADMINISTRATIVE ELECTRONIC DOCUMENT MANAGEMENT SYSTEM

Chapter rescission date pursuant to Iowa Code section 17A.7: 10/1/31

481—16.1(10A) Scope. This chapter governs the filing of documents through the division's AEDMS. To the extent the rules in this chapter are inconsistent with any other administrative rule of the division, the rules in this chapter will govern. Pursuant to Iowa Code section 10A.802, these rules prevail over any other law, including Iowa Code chapter 17A, or agency rule that specifies the method, manner, or format for sending, receiving, serving, retaining, or creating paper records or other documents related to a contested case proceeding, including but not limited to a request or demand for a contested case proceeding, a notice of hearing, and a proposed or final decision.
[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.2(10A) Definitions.

"AEDMS" means the administrative electronic document management system, the division's electronic filing and case management system.

"Agency record" means, for all cases, the electronic files maintained in AEDMS, filings the division maintains in paper form, and exhibits and other materials filed with or delivered in relation to a contested case hearing.

"Confidential" means agency files, documents, or information excluded from public access by federal or state law or administrative rule, court rule, court order, or case law.

"Division" means the division of administrative hearings in the department.

"Electronic filing" means the receipt of a document submitted to AEDMS for filing as confirmed by the transmission of the notice of electronic filing.

"Electronic record" means a record, file, or document created, generated, sent, communicated, received, or stored by electronic means.

"Electronic service" means the AEDMS electronic transmission of a link where registered users of AEDMS who are entitled to receive notice of the filing may view and download filed documents.

"File stamp" means the date and time that is affixed at the top of the first page of a document when it is filed in AEDMS.

"Nonelectronic filing" means a process by which a paper document or other nonelectronic item is filed with the division.

"Notice of electronic filing" means a document generated by AEDMS when a document is electronically filed.

"PDF" means an electronic document filed in a portable document format that is readable by the free Adobe® Acrobat® Reader.

"Protected information" means personal information, the nature of which warrants protection from unlimited public access, including but not limited to:

1. Social security numbers.
2. Financial account numbers.
3. Dates of birth.
4. Names of minor children.
5. Individual taxpayer identification numbers.
6. Personal identification numbers.
7. Other unique identifying numbers.
8. Confidential information.

"Public" refers to agency files, documents, or information that is not confidential or protected.

"Registered user" means an individual who has registered for an electronic filing account through AEDMS. A registered user can electronically file documents and electronically view and download files through the use of a username and password.

"Signature" means the following:

1. For a registered user electronically filing a document in AEDMS, "signature" means the registered user's username and password accompanied by one of the following approved signature representations:

- "Digitized signature" means an electronically embeddable image of a person's handwritten signature;
- "Electronic signature" means an electronic symbol ("/s/" or "/registered user's name/") executed or adopted by a person with the intent to sign the document; or
- "Nonelectronic signature" means a handwritten signature applied to an original document that is then scanned and electronically filed.

2. For a party signing a document that another registered user will electronically file, "signature" means the signatory's name affixed to the document as a digitized or nonelectronic signature.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.3(10A) Registration, username, and passwords.

16.3(1) *Registration.*

a. Registration. Every individual filing documents or viewing or downloading filed documents in the AEDMS must register as a registered user of AEDMS.

b. Changes in registered user's contact information. If a registered user's email address, mailing address, or telephone number changes, the user must promptly make the necessary changes to the registered user's information contained in AEDMS. The registered user shall promptly give notice of changes in contact information to any nonregistered party in every active proceeding in which the registered user is a party.

c. Duties of registered user. Each registered user shall ensure that the user's email account information is current, that the account is monitored regularly, and that email notices sent to the account are timely opened.

d. Division-initiated registration. The division may complete the registration process on behalf of an individual in certain instances and email the username and password to the user. When the division completes the registration process, the user is required to promptly log in and change the password. Following initial notification regarding account registration, the user is required to promptly update and maintain accurate contact information for the AEDMS account.

16.3(2) *Use of username and password.* A registered user is responsible for all documents filed with the user's username and password unless proven by clear and convincing evidence that the registered user did not make or authorize the filing.

16.3(3) *Username and password security.* If a username or password is lost, misappropriated, misused, or compromised, the registered user of that username or password shall notify the division promptly.

16.3(4) *Denial of access.* The agency may refuse to allow an individual to electronically file or download information in AEDMS due to misuse, fraud, or other good cause.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.4(10A) Electronic filing not mandatory.

16.4(1) *Electronic filing not mandatory.* Registration and filing through AEDMS, although encouraged, is not mandatory, and the division will still accept the traditional filing of paper or other electronic documents as set forth in 481—paragraph 10.12(3)*"a."*

16.4(2) *What constitutes filing.* The electronic transmission of a document to AEDMS consistent with the procedures specified in these rules, together with the production and transmission of a notice of electronic filing, constitutes filing of the document.

16.4(3) *Electronic file stamp.* Documents filed through AEDMS are officially filed when affixed with an electronic file stamp. Filings so endorsed have the same force and effect as documents time-stamped in a nonelectronic manner.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.5(10A) Filing of paper documents.

16.5(1) *Conversion of paper or other electronic documents filed.* When a party files a document other than through AEDMS, the division will convert the filed documents to an electronic format viewable to registered users of AEDMS. The original of converted documents need not be retained by the division.

16.5(2) *Form of paper documents.* Each document must be printed on only one side and be delivered to the division with no tabs, staples, or permanent clips but may be organized with paperclips, clamps, or some other type of temporary fastener or may be delivered to the division in an appropriate file folder.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.6(10A) Date and time of filing.

16.6(1) *Date of filing.* An electronic filing may be made any day of the week, including holidays and weekends, and any time of the day AEDMS is available.

16.6(2) *Time of filing.* A document is timely filed if it is filed before midnight on the date the filing is due.

16.6(3) *Rejected filing.* The division may reject electronic filings that do not meet the requirements of this chapter. A rejected electronic filing is not filed. When an electronic filing is rejected, the filer will be electronically notified of the rejection and the reason for the rejection. In such instances, the date and time of filing will be when the filer submits a corrected document and it is approved.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.7(10A) Signatures.

16.7(1) *Registered user.* A username and password accompanied by a digitized, electronic, or nonelectronic signature serves as the registered user's signature on all electronically filed documents.

16.7(2) *Format.* Any AEDMS filing requiring a signature must be signed with either a nonelectronic signature, an electronic signature, or a digitized signature. The following information about the person shall be included under the person's signature:

a. Name;

b. Name of firm or governmental agency;

c. Mailing address;

d. Telephone number; and

e. Email address.

16.7(3) *Multiple signatures.* By filing a document containing multiple signatures, the registered user confirms that the content of the document is acceptable to all persons signing the document and that all such persons consent to having their signatures appear on the document.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.8(10A) Confidentiality and redaction of electronic documents.

16.8(1) *Confidential system.* AEDMS is a closed system, and filed documents are only accessible to a registered user who is attached to the case and division staff. Filed documents are not publicly accessible. There are two internal levels of enhanced filing confidentiality.

a. A filing certified by the filer as "confidential" is only accessible to the parties, the administrative law judge (ALJ), and division staff.

b. A filing certified by the filer as "sealed" is only accessible by the ALJ and division staff and is not accessible by any other party or user. This filing designation may only be made pursuant to prior order of the ALJ, and a sealed filing will be rejected if not authorized by order.

c. The responsibility for proper filing is on the filer.

16.8(2) *Omission and redaction requirements.* It is the responsibility of the filer to ensure that protected information is omitted or redacted from documents before the documents are filed.

a. Protected information that is not material to the proceedings. A filer may redact protected information from documents filed with the division when the information is not material to the proceedings.

b. Protected information that is material to the proceedings. When protected information is material to the proceedings, a filer must certify the document as confidential when submitting the filing to the division.

16.8(3) *Information that may be redacted.* A filer may redact the following information unless the information is material to the proceedings:

a. Driver's license numbers.
b. Information concerning medical treatment or diagnosis.
c. Employment history.
d. Personal financial information.
e. Proprietary or trade secret information.
f. Information concerning crime victims.
g. Sensitive security information.
h. Home addresses.

16.8(4) *Improperly included protected information.* A party may ask the division to restrict access to improperly included protected information from a filed document. The division may order a properly redacted document to be filed.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.9(10A) General requirements when filing documents.

16.9(1) *Format.* All documents must be converted to a PDF before they are filed in AEDMS. Documents submitted must be properly scanned, which includes having the pages in the correct order and orientation and having the scanned content of the document be legible.

16.9(2) *Separating documents.* Each document must be separated and uploaded with the correct document type selection on the document upload page. Any attachments to a document shall be uploaded as such and linked to the correct document prior to submission.

16.9(3) *Selecting document types.* For each electronically filed document, a filer must choose an accurate document type from the options listed on the document upload page. Once a document is submitted into AEDMS, only the division may make corrections to the document type the filer has chosen.

16.9(4) *Correcting errors.* If a filer discovers an error in the electronic filing or docketing of a document, the filer must contact the division as soon as possible. If the division discovers an error in the filing or docketing of a document, the division may notify the filer of the error and advise the filer of what further action the filer must take, if any, to address the error.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

481—16.10(10A) Case initiation and service.

16.10(1) *Case initiation.* A case may be initiated by an agency or governmental entity via AEDMS by the electronic filing of a transmittal form pursuant to rule 481—10.5(10A).

16.10(2) *Filings by registered user.* To the extent another party to the case is not a registered user, the registered user shall serve those filings upon the nonregistered user pursuant to the applicable rules of contested case procedure and any other controlling law.

16.10(3) *Electronic service and distribution of electronic filings.*

a. When a document is electronically filed, that document will be served automatically through AEDMS to all parties to the proceeding who are registered users. No other service to those registered users is required unless ordered by the division or unless the registered user has filed a document indicating an express withdrawal from use of the AEDMS, either entirely or for a specific case.

b. Notices of electronic filing will continue to be sent to registered users appearing or intervening in a proceeding until the registered users have filed a withdrawal of appearance or document indicating an express withdrawal from use of the AEDMS, either entirely or for a specific case.

16.10(4) *Division-generated documents.* All documents issued by the division will be electronically filed and served upon registered users. Division-generated documents will be served upon nonregistered users pursuant to the applicable rules of contested case procedure and any other controlling law.

[**ARC 0464D**, IAB 8/5/26, effective 10/1/26]

CHAPTER 30
FOOD AND CONSUMER SAFETY

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—30.1(10A,137C,137F) Food and consumer safety bureau. The food and consumer safety bureau inspects food establishments and food processing plants, including food storage facilities (warehouses) and food and beverage vending machines, and hotels and motels. It is also responsible for social and charitable gambling and amusement devices.
[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.2(10A,137C,137F) Definitions. The following definitions are applicable to 481—Chapters 30 and 31. If a term is defined herein and by the Food Code adopted in rule 481—31.1(137F), the definition set forth herein applies.

"Bed and breakfast home" means the same as defined in Iowa Code chapter 137F.

"Bed and breakfast inn" means the same as defined in Iowa Code section 137C.2.

"Catering" means the preparation of food for distribution to an individual, business, institution or organization for exclusive service to the individual's, business's or organization's nonpaying guests, employees or members or an institution's residents, students or employees.

"Certified wild-harvested mushroom identification expert" means an individual who has within the last three years successfully completed a wild-harvested mushroom identification training program provided by an accredited college, university, or state mycological society, as evidenced by a document issued therefrom specifying the species of wild mushrooms the individual is qualified to certify. The training program must include a component of actual identification of physical specimens or simulations of mushroom species.

"Commissary" means the same as defined in Iowa Code section 137F.1.

"Contractor" means a municipal corporation, county or other political subdivision that contracts with the department to license and inspect under Iowa Code chapter 137C or 137F.

"Cottage food" means the same as defined in Iowa Code section 137F.1.

"Criminal offense" means a public offense as defined in Iowa Code section 701.2 that is prohibited by statute and is punishable by fine or imprisonment.

"Cultivated mushroom" means a mushroom grown through a process in which the grower inoculates a substrate (logs, beds, straw, etc.) with a known strain or species of mushroom spawn in a dedicated space, whether outdoors or indoors, that is under the control of the grower, for the purpose of fruiting mushrooms.

"Department" means the same as defined in Iowa Code section 137F.1.

"Event" means the same as defined in Iowa Code section 137F.1. For example, an event does not include a single store's grand opening or sale.

"Farmers market" means the same as defined in Iowa Code section 137F.1.

"Farmers market time/temperature control for safety food license" means a license for a temporary food establishment that sells unpackaged time/temperature control for safety foods at farmers markets. The license is only applicable at farmers markets and is not required in order to sell wholesome, fresh shell eggs to consumer customers.

"Food establishment" means an operation that stores, prepares, packages, serves, vends or otherwise provides food for human consumption and includes a food service operation in a salvage or distressed food operation, nutrition program operated pursuant to Title III-C of the Older Americans Act, school, summer camp, residential service substance abuse treatment facility, halfway house substance abuse treatment facility, correctional facility operated by the department of corrections, or the state training school. Assisted living programs and adult day services are included in the definition of food establishment to the extent required by 481—subrules 69.28(6) and 70.28(6). "Food establishment" does not include the following:

1. A food processing plant.
2. An establishment that offers only prepackaged foods that are not time/temperature control for safety foods.

3. A produce stand or facility that sells only whole, uncut fresh fruits and vegetables.

4. Premises that are a home food processing establishment pursuant to Iowa Code chapter 137D.

5. Premises that operate as a farmers market if unpackaged time/temperature control for safety foods are not sold or distributed from the premises.

6. Premises of a residence in which food is produced pursuant to Iowa Code section 137F.20.

7. A kitchen in a private home where food is prepared or stored for family consumption or in a bed and breakfast home.

8. A private home or private party where a personal chef or hired cook is providing food preparation services to a client and the client's nonpaying guests.

9. A private home that receives catered or home-delivered food.

10. Child day care facilities and other food establishments located in hospitals or health care facilities that serve only patients and staff and are subject to inspection by other state agencies or divisions of the department.

11. Supply vehicles or vending machine locations.

12. Establishments that are exclusively engaged in the processing of meat and poultry and are licensed pursuant to Iowa Code section 189A.3.

13. A beer, wine or distilled spirits manufacturer, distributor or wholesaler under Iowa Code chapter 123, provided it is exclusively engaged in the sale of alcoholic beverages in prepackaged form.

14. Premises or operations that are exclusively engaged in the processing of milk and milk products, are regulated by Iowa Code sections 192.107 and 194.1, and have a milk or milk products permit issued by the department of agriculture and land stewardship.

15. Premises or operations that are exclusively engaged in the production of shell eggs, are regulated by Iowa Code section 196.3, and have an egg handler's license.

16. Premises of a residence in which honey is stored; prepared; packaged, including by placement in a container; or labeled or from which honey is distributed.

17. Premises regularly used by a nonprofit organization that engages in the serving of food on the premises as long as the nonprofit organization does not exceed the following:

- The nonprofit organization serves food no more than one day per calendar week and not on two or more consecutive days;
- Twice per year, the nonprofit organization may serve food to the public for up to three consecutive days;
- The nonprofit organization may use the premises of another nonprofit organization not more than twice per year for one day to serve food.

18. A stand operated by a minor.

"Food processing plant" means a commercial operation that manufactures, packages, labels or stores food for human consumption and does not provide food directly to a consumer. "Food processing plant" does not include any of the following:

1. A beer, wine or distilled spirits manufacturer, distributor or wholesaler under Iowa Code chapter 123, provided it is exclusively engaged in the sale of alcoholic beverages in a prepackaged form.

2. The premises of a residence in which honey is stored; prepared; packaged, including by placement in a container; or labeled or from which honey is distributed.

3. Premises or operations that are exclusively engaged in the processing of meat and poultry and are licensed pursuant to Iowa Code section 189A.3.

4. Premises or operations that are exclusively engaged in the processing of milk or milk products, are regulated by Iowa Code sections 192.107 and 194.1, and have a milk or milk products permit issued by the department of agriculture and land stewardship.

5. Premises or operations that are exclusively engaged in the production of shell eggs, are regulated by Iowa Code section 196.3, and have an egg handler's license.

6. Premises or operations that are exclusively engaged in the preparation or processing of Siluriformes, including catfish, and are regulated and inspected by the United States Department of Agriculture under a federal grant of inspection.

7. Premises that are a home food processing establishment pursuant to Iowa Code chapter 137D.

8. Premises or operations that are exclusively engaged in the production or processing of egg products, as defined in 9 CFR Part 590 as amended to March 11, 2026, including egg substitutes and freeze-dried egg products, and are regulated and inspected by the United States Department of Agriculture under a federal grant of inspection.

"Food service establishment" means a food establishment where food is prepared or served for individual portion service intended for consumption on the premises or is subject to Iowa sales tax as provided in Iowa Code section 423.3.

"Hotel" means the same as defined in Iowa Code section 137C.2.

"Mobile food unit" means a food establishment that is self-contained, with the exception of grills and smokers, and readily movable, which either operates up to three consecutive days at one location or returns to a home base of operation at the end of each day.

"Patrol dog" means a dog that is accompanying a law enforcement officer or security officer.

"Personal chef" or *"hired cook"* means a person who provides food preparation services in a private home or at a private party for a client and the client's nonpaying guests. "Personal chef" or "hired cook" does not include a person who provides the ingredients intended to be used in food preparation.

"Pet dog" means a dog that does not meet the definition of a patrol dog or a service animal as defined in 28 CFR Part 36 as amended to March 11, 2026.

"Processed food" means the same as defined in 21 U.S.C. 321 as amended to March 11, 2026.

"Pushcart" means a non-self-propelled vehicle food establishment limited to serving foods that are not time/temperature control for safety foods or commissary-wrapped foods maintained at proper temperatures or precooked foods that require limited assembly, such as frankfurters.

"Raw agricultural commodity" means the same as defined in 21 U.S.C. 321 as amended to March 11, 2026.

"Retail food establishment" means a food establishment that sells to consumer customers food or food products intended for preparation or consumption off the premises.

"Stand operated by a minor" means the same as defined in Iowa Code section 137F.1.

"Temporary food establishment" means the same as defined in Iowa Code section 137F.1.

"Time/temperature control for safety food" means the same as defined in Iowa Code section 137F.1.

"Transient guest" means an overnight lodging guest who does not intend to stay for any permanent length of time. Any guest who rents a room for more than 31 consecutive days is presumed not to be a transient guest.

"Unattended food establishment" means an operation that provides packaged foods or whole fruit using an automated payment system and has controlled entry not accessible by the general public. "Controlled entry," for the purposes of the definition of "unattended food establishment," means selective restriction or limitation of access to a place or location.

"Unprocessed commodity" means a raw agricultural commodity.

"Vending" means selling or dispensing food to an individual consumer customer. Vending does not include catering.

"Vending machine" means the same as defined in Iowa Code section 137F.1. Vending machines that dispense only prepackaged foods that are not time/temperature control for safety foods, panned candies, gumballs or nuts are exempt from licensing but may be inspected by the department upon receipt of a written complaint. "Panned candies" are those with a fine, hard coating on the outside and a soft candy filling on the inside. Panned candies are easily dispensed by a gumball-type machine.

"Vending machine location" means the same as defined in Iowa Code section 137F.1.

"Wild-harvested mushroom" means a fresh mushroom that has been found or foraged in the natural environment and has not been processed (e.g., dried or frozen). "Wild-harvested mushroom" does not include cultivated mushrooms or mushrooms that have been packaged in an approved food processing plant.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.3(137C,137F) Licensing and postings. Applications for a license shall be completed using the department's online application system at least 30 days prior to the anticipated opening of the hotel, food establishment or food processing plant. If extenuating circumstances exist that prevent the applicant from

completing the online application, paper applications are available from the department or its contractors. Temporary food establishment license applications shall be submitted a minimum of three business days prior to opening.

30.3(1) *Transferability.* A license is not transferable to a new owner or location. Any change in business ownership or business location requires a new license. Vending machines, mobile food units and pushcarts may be moved without obtaining a new license. A farmers market time/temperature control for safety food license or an annual temporary event food establishment license may be used at different locations without obtaining a new license. If the different locations are operated simultaneously, a separate license is required for each location. Nutrition sites for the elderly licensed under Iowa Code chapter 137F may change locations in the same city without obtaining a new license.

30.3(2) *Refunds.* License fees are refundable only if the license is surrendered to the department prior to the effective date of the license and only as follows:

a. License fees of $67.50 or less are an application processing fee and are not refundable.

b. If an inspection has not occurred, license fees of more than $67.50 will be refunded less the $67.50.

c. If an inspection has occurred, the entire license fee is nonrefundable.

30.3(3) *License expiration.* A license is renewable and expires after one year, with the exception of a temporary food establishment license issued in conjunction with a single event at a specific location, which is valid for a period not to exceed 14 consecutive days.

30.3(4) *Posting of inspection reports, licenses, and registration tags.* A valid license and the most recent inspection report, along with any current complaint or reinspection reports, shall be posted no higher than eye level where the public can see them and not be posted in such a manner that the public cannot reasonably read the report. Reports may be posted in paper form or through a QR code provided on the license. A paper report must be available upon request. The posting of a report behind a service area where the report can be seen but not easily read is not allowed. Vending machines shall bear a tag to affirm the license. For the purpose of this subrule, only founded complaint reports are considered complaints and shall be posted until either the mail-in recheck form has been submitted to the regulatory authority or a recheck inspection has been conducted to verify that the violations have been corrected.

30.3(5) *Documentation of gross sales.* Documentation of the annual gross sales of food and drink sold by a licensed food establishment or a licensed food processing plant is required unless the establishment is paying the highest license fee required by rule 481—30.4(137C,137F). Documentation will be kept confidential and will be used to verify that the license holder is paying the appropriate license fee based on annual gross sales of food and drink. For food processing plants that are food storage facilities and food establishments whose sales are included in a single rate with lodging or other services, the value of the food handled should be used. Documentation includes:

a. A copy of the firm's business tax return;

b. Quarterly sales tax data;

c. A letter from an independent tax preparer;

d. Other appropriate records.

30.3(6) *License eligibility for renewal limited to 60 days after expiration.* A delinquent license will only be renewed if application for renewal is made within 60 days of expiration. If a delinquent license is not renewed within 60 days, an establishment must apply for a new license and meet all the requirements for licensure. Establishments that have not renewed the license within 60 days will be closed by the department or a contractor.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.4(137C,137F) License fees. License fees are set by Iowa Code chapters 137F and 137C. The license fee is the same for an initial license and a renewal license. The department will charge a voluntary inspection fee of $100 when a premises that is not a food establishment requests a voluntary inspection.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.5(137F) Penalty and delinquent fees.

30.5(1) *Late penalty.* Renewals submitted after the license expiration are subject to a penalty of 10 percent of the license fee per month in accordance with Iowa Code section 137F.4. A license will only be renewed if the license holder has provided documentation pursuant to subrule 30.3(5).

30.5(2) *Penalty for opening or operating without a license.* Operating without a license is subject to a penalty of up to twice the amount of the annual license fee in accordance with Iowa Code section 137F.9.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.6(137C,137F) Returned checks. If a check intended to pay for any license provided for under Iowa Code chapter 137C or 137F is not honored for payment, the department will attempt to redeem the check and notify the applicant of the need to provide sufficient payment. An additional fee of $25 will be assessed for each dishonored check. If the department does not receive payment, the establishment will be operating without a valid license. Late penalties assessed pursuant to rule 481—30.5(137F) will accrue and must be paid.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.7(137F) Double licenses.

30.7(1) Any establishment that holds a food service establishment license and has gross sales over $20,000 annually in packaged food items intended for consumption off the premises is also required to obtain a retail food establishment license. The license holder shall keep a record of these food sales and make it available to the department upon request.

30.7(2) Licensed retail food establishments serving only coffee, soft drinks, popcorn, prepackaged sandwiches or other food items manufactured and packaged by a licensed establishment only need a retail food establishment license.

30.7(3) A food establishment that holds both a food service establishment license and a retail food establishment license shall pay a license fee based on the annual gross sales for the dominant form of business plus $150.

EXAMPLE: A food establishment holds a food service establishment license and a retail food establishment license. It has annual gross sales of more than $750,000 for its retail food establishment and $120,000 for its food service establishment. The food establishment pays a license fee of $400 for its retail food establishment license (Iowa Code section 137F.6) and $150 for its food service establishment license.

30.7(4) The business with higher annual gross sales determines the type of license for establishments that engage in operations covered under both the definition of a food establishment and of a food processing plant. Food establishments that process low-acid food in hermetically sealed containers or process acidified foods are required to have a food processing plant license in addition to the food establishment license. Regardless of the type of license, food processing plants will be inspected pursuant to food processing inspection standards and food establishments will be inspected pursuant to the Food Code.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.8(137C,137F) Inspection frequency. Inspections are based on risk assessment.

30.8(1) *Food establishments.* Food establishments will have routine inspections at least once every 60 months. Very low risk food establishments will not have a routine inspection frequency.

30.8(2) *Food processing plants.* Food processing plants that process foods will have routine inspections at least once every 60 months. If the United States Food and Drug Administration completes an inspection in a facility, the inspection satisfies the state inspection frequency.

30.8(3) *Food processing plants that store foods.* Food processing plants that store foods will be inspected at least once every 84 months. If the United States Food and Drug Administration completes an inspection in a facility, the inspection satisfies the state inspection frequency. Very low risk food processing plants that store food will not have a routine inspection frequency.

30.8(4) *Hotels.* Hotels will be inspected in accordance with Iowa Code chapter 137C.

30.8(5) *Farmers market time/temperature control for safety food.* Farmers market time/temperature control for safety food licensees will be inspected based on risk.

30.8(6) *Temporary food establishments.* Temporary food establishments issued an annual license will be inspected based on risk.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.9(22) Examination of records.

30.9(1) *Public information.* Information collected by the food and consumer safety bureau and contractors is generally considered public information pursuant to Iowa Code chapter 22. Records are stored in computer files and are not matched with any other data system. Inspection reports are available at dial.iowa.gov. Requests for records of other state or federal agencies will be referred to the appropriate agency.

30.9(2) *Confidential records.* Certain records are confidential, including:

a. Trade secrets and proprietary information, including items such as formulations, processes, policies and procedures, and customer lists;

b. Health information related to foodborne illness complaints and outbreaks;

c. The name or any identifying information of a person who files a complaint.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.10(17A,137C,137F) Denial, suspension, or revocation of a license to operate. A license denial, suspension or revocation is effective 30 days after mailing or personal service of the notice.

30.10(1) *Immediate suspension of license.* To the extent not inconsistent with Iowa Code chapters 17A, 137C, and 137F and rules adopted pursuant to those chapters, chapter 8 of the Food Code is adopted for food establishments. A license may be immediately suspended in cases of an imminent health hazard. Iowa Code section 17A.18A and Food Code chapter 8 will be followed in cases of an imminent health hazard. The appeal process in rule 481—30.11(10A,137C,137F) is available following an immediate suspension.

30.10(2) *Criminal offense—conviction of license holder.* The department may revoke the license of a license holder who conducts an activity constituting a criminal offense in the licensed food establishment resulting in a felony, serious misdemeanor or aggravated misdemeanor conviction. A certified copy of the final order or judgment of conviction or plea of guilty is conclusive evidence of the conviction.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.11(10A,137C,137F) Formal hearing.

30.11(1) An establishment may contest adverse action taken pursuant to this chapter by submitting a request for hearing to the department within 30 days of the mailing or service of the department's action. Appeals and hearings are governed by 7—Chapter 2506.

30.11(2) For contractors, license holders shall have the opportunity for a hearing before the local board of health. If the hearing is conducted before the local board of health, the license holder may appeal to the department and shall follow the process for review in rule 481—9.3(10A,17A).

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 8/5/26]

481—30.12(137F) Primary servicing laboratory. The primary servicing laboratory for the food and consumer safety bureau is the State Hygienic Laboratory at the University of Iowa created under Iowa Code section 263.7. If the laboratory is unable to perform laboratory services, the laboratory will assist in finding another laboratory with a preference toward laboratories that are in the Food Emergency Response Network (FERN) and have achieved ISO 17025 accreditation.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

481—30.13(10A,137F) Cottage food.

30.13(1) Cottage food is exempt from all licensing, permitting, inspection, packaging, and labeling laws of the state if the food complies with all of the following:

a. The food does not require time/temperature control for safety. When it is not obvious whether a food requires time/temperature control for safety, the food producer will provide documentation that a food does not require time/temperature control for safety to the regulatory authority upon request.

b. The food is not a milk or milk product regulated under Iowa Code chapters 192 and 194.

c. The food is not a meat, meat food product, poultry, or poultry food product regulated under Iowa Code chapter 189A.

d. The food is not unpasteurized fruit or vegetable juice.

e. The food is produced in a private residence.

f. The food is sold and delivered by the producer directly to the consumer.

g. The cottage food is labeled or affixed with the following information:

(1) Information to identify the name and address, phone number, or email address of the person preparing the food.

(2) The common name of the food.

(3) The ingredients of the cottage food in descending order of predominance.

(4) The following statement: "This product was produced at a residential property that is exempt from state licensing and inspection."

(5) If the cottage food contains one or more major food allergens, an additional allergen statement identifying each major allergen contained in the food by the common name of the allergen.

(6) If the food is home-processed and contains home-canned pickles, vegetables, or fruits permitted under this rule, the date that the food was processed and canned.

h. Home-processed and home-canned pickles, vegetables, or fruits sold under this rule must comply with the following:

(1) Each batch must be measured by a pH meter or a water activity meter and shall have a finished equilibrium pH value of 4.60 or lower or a water activity value of 0.85 or less.

(2) Each container that is sold or offered for sale must contain the date the food was processed and canned.

i. The cottage food producer must provide batch testing records to the regulatory authority upon request, including at the point of sale.

j. Cottage food shall not be offered for sale in a food establishment except in a temporary food establishment, provided that the temporary food establishment is operated by the cottage food producer and the cottage food is offered for sale in a packaged form and labeled in accordance with paragraph 30.13(1)*"g."*

30.13(2) Reserved.

[**ARC 0058D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapter 137F.

CHAPTER 31
FOOD ESTABLISHMENT AND FOOD PROCESSING PLANT INSPECTIONS

[Prior to 8/26/87, see Inspections and Appeals Department[481]—Chs 21 and 22]

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—31.1(137F) Inspection standards for food establishments. The department adopts, with the following exceptions, the 2017 Food Code with Supplement of the Food and Drug Administration as the state's "food code," which is the inspection standard for food establishments.

31.1(1) *Unattended food establishments—assignment of responsibility.* For the purposes of section 2-101.11(C) of the 2017 Food Code with Supplement, unattended food establishments are not required to have a designated person in charge present during all hours of operation provided that the permit holder ensures the following requirements are met.

a. Unattended food establishment location. The unattended food establishment is located in the interior of a building, has controlled entry, and is not accessible by the general public. Access to the unattended food establishment will be limited to a defined population (e.g., employees, registered guests or occupants of the building where the establishment is located). For the purposes of this paragraph, registered guests are individuals whose names are officially recorded with a business by reservation or by appointment. The term ensures a secure and traceable record of who is occupying a space.

b. Nature and source of food and beverages offered for sale.

(1) Only commercially packaged foods properly labeled for individual retail sale, pursuant to Food Code section 3-201.11(C), will be offered.

(2) No unpackaged food is permitted except as provided by section 3-302.11(B)(1) of the Food Code.

(3) Food preparation by consumers is limited to heating/reheating food in a microwave oven.

(4) No dispensing of bulk food is permitted.

c. Refrigerated display equipment. An unattended food establishment will be equipped with refrigeration or freezer units that have the following features:

(1) Self-closing doors that allow food to be viewed without opening the door to the refrigerated cooler or freezer;

(2) An automatic self-locking mechanism that prevents the consumer from accessing the food upon the occurrence of any condition that results in the failure of the refrigeration unit to maintain the internal product temperature specified under section 3-501.16(A)(2) or of the freezer unit to maintain the product as frozen.

d. Food service equipment limitations.

(1) Beverages are dispensed by individual serving only. Beverage dispensers connected to the building water supply will be properly equipped with backflow prevention pursuant to section 5-203.14 of the Food Code.

(2) Food-contact surfaces.

1. Multiuse food-contact surfaces will be cleaned on a frequency consistent with the service pursuant to section 4-202.11 of the Food Code or are easily removed and replaced with cleaned surfaces.

2. No multiuse food-contact surfaces intended for use with time/temperature control for safety foods are permitted.

e. Security.

(1) An unattended food establishment will provide continuous video surveillance of areas where consumers view, select, handle and purchase products that will provide sufficient resolution to identify situations that may compromise food safety or food defense.

1. Video surveillance recordings will be maintained and made available for inspection by a representative of a regulatory agency within 24 hours of request.

2. Video surveillance recordings will be held by the establishment for a minimum of 14 days after the date of the surveillance.

(2) The permit holder will take reasonable steps necessary to discourage individuals from returning food, beverages, or both that have not been selected for purchase.

f. Routine maintenance at an unattended food establishment.

(1) The permit holder will service the unattended food establishment at least weekly, which may include:

1. Checking food supplies and equipment for signs of product damage, tampering, or both.
2. Verifying that refrigeration equipment is operating properly, including the temperature display and self-locking mechanism.
3. Rotating foods to better ensure first in/first out of food items.
4. Cleaning food service equipment and food display areas.
5. Stocking food and disposable single-use and single-service supplies.
6. Checking inventory for recalled foods.

(2) The permit holder will ensure that:

1. Food is from an approved source.
2. Packaged food is provided in tamper-evident packaging.
3. Food is protected from potential sources of cross contamination.
4. Food is maintained at safe temperatures during transport and display.

g. Unattended food establishment oversight. Each unattended food establishment will have a sign readily visible at the automated payment station stating the name, mailing address, telephone number, email address and web information, if any, of the business entity responsible for the establishment and to whom complaints and comments should be addressed.

h. Designation of responsibilities. The permit holder bears all responsibilities for the operation of the food establishment. When the permit holder is not the owner or operator of the building where the food establishment is located, a mutual agreement that outlines the responsibilities for cleaning and maintenance of all surfaces and equipment and for provision of supportive facilities/services, such as janitorial services and restroom facilities, pest control and removal of solid waste, may be approved by the regulatory agency. This agreement should outline actions that must be taken by both parties to maintain the establishment in compliance with all requirements including responding to imminent health hazards.

i. Inspections—on-site person in charge. When requested by the regulatory authority for the purposes of conducting an inspection, the permit holder will provide an on-site person in charge within a reasonable time frame not to exceed four hours.

31.1(2) *Certified food protection manager requirements, exceptions, and time frames for compliance.*

a. For the purposes of section 2-102.12(A) of the 2017 Food Code with Supplement, the food establishment may employ a single certified food protection manager who is not present at the food establishment during all hours of operation, as long as the following requirements are met:

(1) The individual who is a certified food protection manager has supervisory and management responsibility and the authority to direct and control food preparation and service at the food establishment;

(2) The person in charge demonstrates knowledge as prescribed in section 2-102.11 of the 2017 Food Code with Supplement;

(3) The person in charge demonstrates active managerial control of food safety by complying with section 2-103.11 of the 2017 Food Code with Supplement.

b. A food establishment that, upon inspection, is found to be in violation of section 2-102.11 or 2-103.11 of the 2017 Food Code with Supplement will have six months to ensure that any individual designated as the person in charge is a certified food protection manager.

c. For the purposes of section 2-102.12(B), the following food establishments are not required to employ a certified food protection manager:

(1) Temporary or farmers market food establishments.

(2) Food establishments at which food is not prepared, where customers may purchase beverages and where the service of food is limited to the service of ice, beverages, prepackaged snack foods, popcorn or peanuts and to the reheating of commercially prepared foods for immediate service that do not require assembly, such as frozen pizza or prepackaged sandwiches.

(3) Food establishments at which food is not prepared, where customers may purchase only commercially prepared non-time/temperature control for safety foods that are dispensed either unpackaged or packaged and that are intended for off-premises consumption.

d. Time frames for compliance with section 2-102.12 of the 2017 Food Code with Supplement, as amended by paragraphs 31.1(2)*"a"* and *"b,"* are as follows:

(1) Newly licensed facilities will comply with section 2-102.12 of the 2017 Food Code with Supplement, as amended by paragraphs 31.1(2)*"a"* and *"b,"* within six months of licensure.

(2) If an individual meeting the requirement of paragraph 31.1(2)*"a"* leaves employment, the establishment will comply with section 2-102.12 of the 2017 Food Code with Supplement, as amended by paragraphs 31.1(2)*"a"* and *"b,"* within six months of the individual's departure.

31.1(3) *Honey prepared in a residence.* Section 3-201.11 is amended to allow honey that is stored; prepared, including by placement in a container; or labeled at or distributed from the premises of a residence to be sold in a food establishment.

31.1(4) *Homemade food items prepared in a licensed home food processing establishment.* Section 3-201.11 is amended to allow homemade food items that are eligible for resale and are prepared, packaged, and labeled pursuant to 481—Chapter 34 to be offered for human consumption in a food establishment.

31.1(5) *Wild-harvested mushrooms.* Section 3-201.16, paragraph (A), is amended by adding the following:

"A food establishment or farmers market time/temperature control for safety food licensee may sell or serve wild-harvested mushrooms provided:

"a. All wild-harvested mushrooms sold or served are varieties classified as one of the following:

Common name	Scientific name
Morel	*Morchella* spp. (*M. americana, M. angusticeps, M. punctipes*)
Oyster	*Pleurotus citrinopileatus, Pleurotus ostreatus, Pleurotus populinus,* or *Pleurotus pulmonarious*
Chicken of the woods	*Laetiporus (L. cincinnatus, L. sulphureus*)
Hen of the woods	*Grifola frondosa*
Chanterelle	*Cantharellus cibarius* group
Bear's head tooth, Lion's mane	*Hericium* spp. *(H. erinaceus, H. americanum)*
Pheasant back	*Polyporus squamosus*
Black trumpet	*Craterellus cornucopoides*

"b. All wild-harvested mushrooms sold or served in a food establishment must be obtained from sources where each mushroom is individually inspected and found to be safe by a certified wild-harvested mushroom identification expert.

"c. All wild-harvested mushroom species sold or served in a food establishment must have a written buyer specification. The buyer shall retain the written buyer specification for 90 days from the date of sale or service that must include:

"1. Identification of each mushroom species by the scientific and common name;

"2. Date of purchase;

"3. Quantity by weight of each species received;

"4. A statement indicating that each mushroom was identified in its fresh state and was not mixed or in contact with other mushroom species;

"5. The name, address, and telephone number of the certified wild-harvested mushroom identification expert;

"6. A copy of the certified wild-harvested mushroom identification expert's certificate of successful completion of the program, including the date of completion.

"d. A consumer advisory shall inform consumers by brochures, deli case, menu advisories, label statements, table tents, placards, or other effective written means that 'wild-harvested mushrooms should be thoroughly cooked and may cause allergic reactions or other effects.'

"e. This section does not apply to cultivated mushrooms or mushrooms that have been packaged in an approved food processing plant."

31.1(6) *Field-dressed wild game prohibition.* Subparagraph 3-201.17(A)(4) is amended to state that field-dressed wild game shall not be permitted in food establishments unless:

a. The food establishment is also licensed and inspected by the Iowa department of agriculture and land stewardship (IDALS) meat and poultry inspection bureau pursuant to Iowa Code chapter 189A;

b. All field-dressed wild game is adequately separated from food, equipment, utensils, clean linens, and single-service and single-use articles;

c. Any equipment used in the processing of field-dressed wild game is adequately cleaned and sanitized before use with other foods.

31.1(7) *Reduced oxygen packaging in meat and poultry processing plants.* Meat and poultry processing plants that are licensed and inspected by the IDALS meat and poultry inspection bureau pursuant to Iowa Code chapter 189A and that are also licensed as a food establishment are exempt from section 3-502.11, paragraphs (A), (B), (D) and (F), and section 3-502.12 if these criteria are met:

a. Each food product formulation has been approved by the IDALS meat and poultry inspection bureau;

b. A copy of the approved formulation (T40/45) is maintained on file at the establishment and made available to the regulatory authority upon request;

c. Cooked products that do not include a curing agent or an antimicrobial agent that will control *Clostridium botulinum* and *Listeria monocytogenes* that are in a reduced oxygen package are stored and sold frozen and are labeled "Keep Frozen";

d. The food products are properly labeled.

31.1(8) *Warewashing sinks in establishments serving alcoholic beverages.* Section 4-301.12 is amended by adding the following: "When alcoholic beverages are served in a food service establishment, a sink with at least three compartments shall be used in the bar area for manual washing, rinsing and sanitizing of bar utensils and glasses. When food is served in a bar, a separate three-compartment sink for washing, rinsing and sanitizing food-related dishes shall be used in the kitchen area, unless a dishwasher is used to wash utensils."

31.1(9) *Prohibiting animals.* Section 6-501.115, paragraph (B), is amended by adding the following:

"(6) Pet dogs may be allowed on exterior premises of a food establishment, including outdoor patio and outdoor dining areas, provided the food establishment meets these requirements:

"a. A separate entrance is present so that pet dogs do not enter the food establishment to access the outdoor area;

"b. No food preparation is allowed in the outdoor area, including mixing or dispensing drinks and ice;

"c. Customer multiservice or reusable utensils such as plates, silverware, glasses, and bowls are not stored, displayed, or preset in the outdoor area;

"d. Food or water provided to pet dogs shall be in single-use disposable containers provided by the food establishment or a container provided by the pet owner that is filled without any contact between the container and any dispensing item of the food establishment;

"e. Employees are prohibited from direct contact with pet dogs while on duty;

"f. The outdoor area is maintained clean;

"g. In cases where excrement or bodily fluids (urine, saliva, vomit, or the like) are deposited, an employee shall immediately ensure the area is cleaned and sanitized;

"h. The outdoor area shall not be fully enclosed (an enclosed area is considered part of the interior of the facility);

"i. Disruptive pet dogs must be controlled or removed from the premises;

"j. Rules governing pet dogs shall be posted at each entrance of the food establishment and shall contain the following:

"i. Pet dogs shall be leashed at all times;

"ii. Pet dogs shall not enter any interior area of the food establishment at any time;

"iii. Pet dogs must be controlled at all times by the dog's owner or designee;

"iv. Pet dogs are not permitted on chairs, tables, benches or seats;

"v. Pet dog owners must immediately notify the food establishment's staff in the event that excrement or bodily fluids (urine, saliva, vomit, or the like) are deposited.

"(7) Pet dogs may be allowed on the interior premises of a food establishment that only stores, sells, distributes, or otherwise handles packaged food under these conditions:

"a. The food establishment is maintained clean;

"b. In cases where excrement or bodily fluids (urine, saliva, vomit, or the like) are deposited, an employee shall immediately ensure the area is cleaned and sanitized;

"c. Disruptive pet dogs must be controlled or removed from the premises;

"d. Rules governing pet dogs shall be displayed at or near the entrances of the food establishment and shall, at a minimum, contain the following:

"i. Pet dogs shall be leashed at all times;

"ii. Pet dogs must be controlled at all times by the dog's owner or designee;

"iii. Pet dogs are not permitted on chairs, tables, benches, seats or in shopping carts;

"iv. Pet dog owners must immediately notify the food establishment's staff in the event that excrement or bodily fluids (urine, saliva, vomit, or the like) are deposited."

31.1(10) *Inspection standards for elder group homes.* Elder group homes as defined by Iowa Code section 231B.1 will be inspected by the department, but chapters 4 and 6 of the Food Code will not apply. Elder group homes will pay the lowest license fee set forth in 481—subrule 30.4(2).

31.1(11) *Nonprofit exception for temporary events.* Nonprofit organizations that are licensed as temporary food establishments may serve non-time/temperature control for safety food from an unapproved source for the duration of the event but cannot serve home-canned pickles, vegetables, or fruits produced in accordance with Iowa Code chapter 137F.

31.1(12) *Variance approval by department and submission of hazard analysis and critical control point (HACCP) plans.* Any variances or HACCP plans that require approval by the "regulatory authority" must be approved by the department. HACCP plans pursuant to paragraphs 3-502.12(B) and 8-201.13(B) shall be filed with the department prior to implementation, regardless of whether or not the plan requires approval.

[**ARC 0059D**, IAB 2/4/26, effective 3/11/26]

481—31.2(137F) Inspection standards for food processing plants. The following are the inspection standards for food processing plants including food storage facilities.

31.2(1) *Definitions.* For the purposes of this rule, the definitions of "food," "label," "labeling," and "dietary supplement" are as defined in 21 U.S.C. Section 321.

31.2(2) *Prohibited acts.* The prohibited acts identified in 21 U.S.C. Section 331(a) to (f), (k), and (v) are prohibited acts in Iowa.

31.2(3) *Stop sale.* Any article of food that is adulterated or misbranded when introduced into commerce may be embargoed until such a time as the adulteration or misbranding is remedied or the product is destroyed. The action is immediate, but the licensee may appeal the decision following the process outlined in rule 481—30.11(10A,137C,137F).

31.2(4) *Standards for food.* If a standard that has been adopted for a food is adopted pursuant to 21 U.S.C. Section 341, the standard shall be met.

31.2(5) *Misbranded food.* A food is misbranded if it is found in violation of 21 U.S.C. Section 343.

31.2(6) *New dietary ingredients.* New dietary ingredients shall comply with the process in 21 U.S.C. Section 350(b) or will be deemed adulterated.

31.2(7) *Records.* Records shall be made available as required under 21 U.S.C. Section 373 for all interstate and intrastate food.

31.2(8) *Adoption of Code of Federal Regulations.* The following parts of the Code of Federal Regulations are adopted:

a. 21 CFR Part 1, Sections 1.20 to 1.24 and Subpart O, Sections 1.900 to 1.934 (labeling).

b. 21 CFR Part 7, Sections 7.1 to 7.13 and 7.40 to 7.59 (guaranty and recalls).

c. 21 CFR Part 70, Sections 70.20 to 70.25 (labeling requirements for colors).

d. 21 CFR Part 73, Sections 73.1 to 73.615 (color additives exempt from certification).

e. 21 CFR Part 74.101 to 74.706 (listing of color additives subject to certification).

f. 21 CFR Part 81, general specifications and general restrictions for provisional color additives for use in foods, drugs, and cosmetics.

g. 21 CFR Part 82, Sections 82.3 to 82.706 (certified provisionally listed colors and specifications).

h. 21 CFR Part 100, Section 100.155 (specific provisions for salt and iodized salt).

i. 21 CFR Part 101, except Sections 101.69 and 101.108 (food labeling).

j. 21 CFR Part 102, except Section 102.19 (common or usual name for nonstandard food).

k. 21 CFR Part 104, nutritional quality guidelines for foods.

l. 21 CFR Part 105, food for special dietary use.

m. 21 CFR Part 106, except Section 106.120 (infant formula quality control procedures).

n. 21 CFR Part 107, except Sections 107.200 to 107.280 (infant formula labeling).

o. 21 CFR Part 108, Sections 108.25 to 108.35 (exceptions for when a permit is not required, acidified and thermal processing of low-acid foods packaged in hermetically sealed containers).

p. 21 CFR Part 109, unavoidable contaminants in food for human consumption and food-packaging material.

q. 21 CFR Part 110, current good manufacturing practice in manufacturing, packing or holding human food.

r. 21 CFR Part 111, current good manufacturing practice in manufacturing, packaging, labeling, or holding operations for dietary supplements.

s. 21 CFR Part 113, thermally processed low-acid food packaged in hermetically sealed containers.

t. 21 CFR Part 114, acidified foods.

u. 21 CFR Part 115, shell eggs.

v. 21 CFR Part 117, current good manufacturing practice and hazard analysis and risk-based preventive controls for human food shall apply, with the exception that warehousing operations located on the premises of residences that store unexposed, packaged frozen food for sale directly to a consumer customer or at a farmers market shall comply with subpart B of 21 CFR 117.

w. 21 CFR Part 118, production, storage and transportation of shell eggs.

x. 21 CFR Part 120, hazard analysis and critical control point (HACCP) systems (juice).

y. 21 CFR Part 123, fish and fisheries products (seafood).

z. 21 CFR Part 129, processing and bottling of bottled drinking water.

aa. 21 CFR Part 130, except Sections 130.5, 130.6 and 130.17, food standards: general.

ab. 21 CFR Part 131, milk and cream.

ac. 21 CFR Part 133, cheeses and related cheese products.

ad. 21 CFR Part 135, frozen desserts.

ae. 21 CFR Part 136, bakery products.

af. 21 CFR Part 137, cereal flours and related products.

ag. 21 CFR Part 139, macaroni and noodle products.

ah. 21 CFR Part 145, canned fruits.

ai. 21 CFR Part 146, canned fruit juices.

aj. 21 CFR Part 150, fruit butters, jellies, preserves, and related products.

ak. 21 CFR Part 152, fruit pies.

al. 21 CFR Part 155, canned vegetables.

am. 21 CFR Part 156, vegetable juices.

an. 21 CFR Part 158, frozen vegetables.

ao. 21 CFR Part 160, egg and egg products.

ap. 21 CFR Part 161, fish and shellfish.

aq. 21 CFR Part 163, cacao products.

ar. 21 CFR Part 164, tree nut and peanut products.

as. 21 CFR Part 165, beverages.

at. 21 CFR Part 166, margarine.

au. 21 CFR Part 168, sweeteners and table syrups.

av. 21 CFR Part 169, food dressings and flavorings.

aw. 21 CFR Part 170, except Sections 170.6, 170.15, and 170.17, food additives.

ax. 21 CFR Part 172, food additives permitted for direct addition to food for human consumption.

ay. 21 CFR Part 173, secondary direct food additives permitted in food for human consumption.

az. 21 CFR Part 174, indirect food additives: general.

ba. 21 CFR Part 175, indirect food additives: adhesives and components of coatings.

bb. 21 CFR Part 176, indirect food additives: paper and paperboard components.

bc. 21 CFR Part 177, indirect food additives: polymers.

bd. 21 CFR Part 178, indirect food additives: adjuvants, production aids, and sanitizers.

be. 21 CFR Part 180, food additives permitted in food or in contact with food on an interim basis pending additional study.

bf. 21 CFR Part 181, prior-sanctioned food ingredients.

bg. 21 CFR Part 182, substances generally recognized as safe.

bh. 21 CFR Part 184, direct food substances affirmed as generally recognized as safe.

bi. 21 CFR Part 186, indirect food substances affirmed as generally recognized as safe.

bj. 21 CFR Part 189, substances prohibited from use in human food.

bk. 21 CFR Part 190, dietary supplements.

31.2(9) *Egg products processing plants.* The department will use the good manufacturing practices adopted in paragraph 31.2(8)*"b,"* unless such practices are inconsistent with standards set by the United States Department of Agriculture, Food Safety and Inspection Service, in 9 CFR Parts 590-592. If the standards are inconsistent, the standards adopted in 9 CFR Parts 590-592 apply.

31.2(10) *References.* All references to federal statutes and regulations in this rule are to those versions in effect on March 11, 2026.

[**ARC 0059D**, IAB 2/4/26, effective 3/11/26]

481—31.3(137F) Adulterated food and disposal. No one may produce, distribute, offer for sale or sell adulterated food. "Adulterated" is defined in the federal Food, Drug, and Cosmetic Act, Section 402, as amended to March 11, 2026. Adulterated food shall be disposed of in a reasonable manner as determined by the department. The destruction of adulterated food may be watched by a person approved by the department.

[**ARC 0059D**, IAB 2/4/26, effective 3/11/26]

481—31.4(137F) False label or defacement. Labels required by Iowa Code chapter 137F and this chapter shall be legibly printed and not be deceptive as to the true nature of the article or place of production.

[**ARC 0059D**, IAB 2/4/26, effective 3/11/26]

481—31.5(137F) Temporary food establishments and farmers market time/temperature control for safety food licensees. While the retail food code adopted in rule 481—31.1(137F) applies to temporary food establishments, the following subrules provide a simplified version of requirements for temporary food establishments. If the two rules are inconsistent, the standards in this rule apply.

31.5(1) *Personnel.* For the purposes of this rule, employees include volunteers.

a. Employees will keep their hands and exposed portions of their arms clean.

b. Employees will have clean garments and aprons and effective hair restraints. Smoking, eating or drinking in food booths is not allowed. All nonworking, unauthorized persons are to be kept out of the food booth.

c. All employees will be under the direction of the person in charge, who will ensure that the workers are effectively cleaning their hands; that time/temperature control for safety food is adequately cooked, held or cooled; and that all multiuse equipment or utensils are adequately washed, rinsed and sanitized.

d. Employees will not work at a temporary food establishment or farmers market time/temperature control for safety food establishment if they have open cuts, sores or communicable diseases. The person in charge will take appropriate action to ensure that employees and volunteers who have a disease or medical condition transmissible by food are excluded from the food operation.

e. Every employee will sign a logbook with the employee's name, address, and telephone number or email address and the date and hours worked. The logbook will be maintained for 30 days by the person in charge and made available to the department upon request.

31.5(2) *Food handling and service.*

a. Dry storage. All food, equipment, utensils and single-service items will be stored off the ground and above the floor on pallets, tables or shelving.

b. Cold storage. Refrigeration units will be provided to keep time/temperature control for safety foods at 41°F or below. The inspector may approve an effectively insulated, hard-sided container with sufficient coolant for storage of time/temperature control for safety food at events of short duration if the container maintains food temperatures at 41°F or below.

c. Hot storage. Hot food storage units will be used to keep time/temperature control for safety food at 135°F or above. Electrical equipment is required for hot holding, unless the use of propane stoves and grills capable of holding the temperature at 135°F or above is approved by the department. Sterno cans are allowed for hot holding if adequate temperatures can be maintained. Steam tables or other hot holding devices are not allowed to heat foods and are to be used only for hot holding after foods have been adequately cooked or heated.

d. Cooking temperatures. As specified in the following chart, the minimum cooking temperatures for food products are:

165°F	• Poultry and game animals that are not commercially raised • Products stuffed or in a stuffing that contains fish, meat, pasta, poultry or ratite • All products cooked in a microwave oven
155°F	• Rabbits, ratite and game meats that are commercially raised • Ground or comminuted (such as hamburgers) meat/fish products • Raw shell eggs not prepared for immediate consumption
145°F	• Pork and raw shell eggs prepared for immediate consumption • Fish and other meat products not requiring a 155°F or 165°F cooking temperature as listed above

e. Consumer advisory requirement. If raw or undercooked animal food such as beef, eggs, fish, lamb, poultry or shellfish is offered in ready-to-eat form, the license holder (person in charge) will post the consumer advisory as required by the food code.

f. Thermometers. Each refrigeration unit will have a numerically scaled thermometer to measure the air temperature of the unit accurately. An appropriate thermometer will be provided where necessary to check the internal temperature of both hot and cold food. Thermometers must be accurate and have a range from 0°F to 220°F.

g. Food display. Foods on display will be covered. The public is not allowed to serve itself from opened containers of food or uncovered food items. Condiments such as ketchup, mustard, coffee creamer and sugar will be served in individual packets or from squeeze containers or pump bottles. Milk will be dispensed from the original container or from an approved dispenser. All fruits and vegetables will be washed before being used or sold. Food will be stored at least six inches off the ground. All cooking and serving areas will be adequately protected from contamination. Barbeque areas will be roped off or otherwise protected from the public. All food will be protected from customer handling, coughing or sneezing by wrapping, sneeze guards or other effective means.

h. Food preparation. Unless otherwise approved by a variance from the department, no bare-hand contact of ready-to-eat food will occur.

i. Approved food source. All food supplies will come from a commercial manufacturer or an approved source. The use of food in hermetically sealed containers that is not prepared in an approved food processing plant or home food processing establishment is prohibited. Transport vehicles used to supply food products are subject to inspection and will protect food from physical, chemical and microbial contamination. Cottage foods may be offered for sale in a temporary food establishment if the temporary food establishment is operated by the cottage food producer and the cottage food is offered for sale in a packaged form and labeled pursuant to rule 481—30.13(10A,137F).

j. Leftovers. Hot-held foods that are not used by the end of the day will be discarded.

31.5(3) *Utensil storage and warewashing.*

a. Single-service utensils. The use of single-service plates, cups and tableware is required.

b. Dishwashing. An adequate means to heat the water and a minimum of three basins large enough for complete immersion of the utensils are required to wash, rinse and sanitize utensils or food-contact equipment. Alternative dishwashing methods may be used if approved in advance by the regulatory authority.

c. Sanitizers. Chlorine bleach or another approved sanitizer will be provided for warewashing sanitization and wiping cloths. An appropriate test kit will be provided to check the concentration of the sanitizer used. The person in charge will demonstrate knowledge in the determination of the correct concentration of sanitizer to be used.

d. Wiping cloths. Wiping cloths will be stored in a clean, 100 ppm chlorine sanitizing solution or equivalent. Sanitizing solution will be changed as needed to maintain the solution in a clean condition.

31.5(4) *Water.*

a. Water supply. An adequate supply of clean water will be provided from an approved source. Water storage units and hoses will be food grade and approved for use in storage of water. If not permanently attached, hoses used to convey drinking water will be clearly and indelibly identified as to their use. Water supply systems will be protected against backflow or contamination of the water supply. Backflow prevention devices, if required, will be maintained and adequate for their intended purpose.

b. Wastewater disposal. Wastewater will be disposed of in an approved wastewater disposal system sized, constructed, maintained and operated according to law.

31.5(5) *Premises.*

a. Hand-washing container. An insulated container with at least a two-gallon capacity filled with hot water and with a spigot, basin, soap and dispensed paper towels will be provided for hand washing.

b. Floors, walls and ceilings. If required, walls and ceilings will be of tight design and weather-resistant materials to protect against the elements and flying insects. If required, floors will be constructed of tight wood, asphalt, rubber or plastic matting or other cleanable material to control dust or mud.

c. Lighting. Adequate lighting shall be provided. Lights above exposed food preparation areas shall be shatter-resistant or shielded.

d. Food preparation surfaces. All food preparation or food contact surfaces shall be of a safe design, smooth, easily cleanable and durable.

e. Garbage containers. An adequate number of cleanable containers with tight-fitting covers shall be provided both inside and outside the establishment.

f. Toilet rooms. An adequate number of approved toilet and hand-washing facilities shall be provided at each event.

g. Clothing. Personal clothing and belongings shall be stored at a designated place in the establishment, adequately separated from food preparation, food service and dishwashing areas.

[**ARC 0059D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapter 137F.

[1] Rules 30—33.1(159) to 30—33.4(159) and 30—34.1(159) to 30—34.4(159) transferred to Inspections and Appeals Department[481] and rescinded.

[2] Rule 481—31.1(137F) published in the July 5, 2017, IAB as ARC 3188C has a January 1, 2018, effective date. For the rule in effect immediately prior to January 1, 2018, see 481—Chapter 31 as of June 21, 2017.

CHAPTER 32
CONSUMABLE HEMP PRODUCTS
Transferred to 641—Chapter 156, IAC Supplement 6/14/23

CHAPTER 33
FOOD AND BEVERAGE VENDING MACHINES INSPECTIONS
[Prior to 8/26/87, see Inspections and Appeals Department[481]—Ch 24]
Rescinded IAB 2/10/99, effective 3/17/99

CHAPTER 34
HOME FOOD PROCESSING ESTABLISHMENTS

Chapter rescission date pursuant to Iowa Code section 17A.7: 5/22/29

481—34.1(137D) Definitions. As used in this chapter, unless the context otherwise requires:

"Acidified foods" means low-acid foods to which an acid or high-acid food is added. Acidified foods have a water activity (a_w) greater than 0.85 and have a finished equilibrium pH of 4.60 or below. These foods may be called or may purport to be "pickles" or "pickled."

"Active water" or *"water activity"* or *"(a_w)"* means the measured free moisture in a food. The quotient of the water vapor pressure of the food divided by the vapor pressure of pure water at the same temperature provides the measured free moisture in the food.

"Adulterated" means the same as stated 21 U.S.C. Section 342 as amended to January 3, 2022.

"Allergen cross contact" means the unintentional incorporation of a food allergen into a food.

"Contractor" means a municipal corporation, county, or other political subdivision that contracts with the department to license and inspect under Iowa Code chapter 137D.

"Cross contamination" means the inadvertent transfer of bacteria or other contaminants from one surface, substance, etc., to another, especially because of unsanitary handling procedures.

"Demonstrate control" means the ability to provide clear and convincing evidence that a home food processing establishment has implemented written standard processes and practices that are intended to control food safety hazards including but not limited to standardized recipes, standard operating procedures, personal hygiene standards, temperature monitoring records, equipment calibration records, production or batch records, sanitation records, predefined corrective actions, training documents, distribution records, and receiving records.

"Department" means the same as defined in Iowa Code section 137D.1.

"Equilibrium pH" means the final pH measured in a food after all the components of the food have achieved the same acidity.

"Fermentation" means a metabolic process in which an organism converts a carbohydrate, such as starch or a sugar, into an alcohol or an acid. For example, yeast performs fermentation by converting sugar into alcohol. Bacteria perform fermentation by converting carbohydrates into lactic acid.

"Fish" means fresh or saltwater finfish, crustaceans, and other forms of aquatic life (including alligator, frog, aquatic turtle, jellyfish, sea cucumber, and sea urchin and the roe of such animals) other than birds or mammals, and all mollusks, if such animal life is intended for human consumption.

"Food" means the same as defined in Iowa Code section 137D.1.

"Food contact surface" means a surface of equipment or utensil with which food normally comes into contact; or a surface of equipment or utensil from which food may drip, drain, or splash into a food or onto a surface normally in contact with food.

"Game animal" means an animal, the products of which are food, that is not classified as livestock, sheep, swine, goat, horse, mule, or other equine in 9 CFR 301.2 or as poultry or fish.

1. "Game animal" includes mammals, such as reindeer, elk, deer, antelope, water buffalo, bison, rabbit, squirrel, opossum, raccoon, nutria, or muskrat, and nonaquatic reptiles, such as land snakes.
2. "Game animal" does not include ratites.

"HACCP plan" means a written document that delineates the formal procedures for following the hazard analysis and critical control point principles developed by the National Advisory Committee on Microbiological Criteria for Foods.

"High-acid food" means a food that has an equilibrium pH of 4.60 or lower without the addition of an acid.

"Home food processing establishment" or *"establishment"* means the same as "home food processing establishment" as defined in Iowa Code section 137D.1.

"Homemade food item" means the same as defined in Iowa Code section 137D.1. Homemade food items do not include the following:

1. Unpasteurized fruit or vegetable juice;

2. Raw sprout seeds;
3. Foods containing game animals;
4. Fish or shellfish;
5. Alcoholic beverages;
6. Bottled water;
7. Packaged ice;
8. Consumable hemp products;
9. Food that will be further processed by a food processing plant or another home food processing establishment;
10. Time/temperature control for safety food packaged using a reduced oxygen packaging method;
11. Milk or milk products regulated under Iowa Code chapters 192 and 194;
12. Meat or meat food products, and poultry or poultry products regulated under Iowa Code chapter 189A, except for any of the following products when sold directly to the end consumer:

- Poultry, poultry byproduct, or poultry food product if the producer raised the poultry pursuant to the exemption set forth in 9 CFR 381.10(c)(1) limiting the producer to slaughtering not more than one thousand poultry during the calendar year;
- Poultry, poultry byproduct, or poultry food product if the poultry is from an inspected source exempted pursuant to 9 CFR 381.10(d); or
- Meat, meat byproduct, or meat food product if the meat is from an inspected source exempted pursuant to 9 CFR 303.1(d); or

13. A raw agricultural commodity. Other than raw bean or seed sprouts, raw agricultural commodities do not require a license issued by the department to sell and may be sold by home food processing establishments, although they are not homemade food items.

"Low-acid canned food" means a thermally processed low-acid food packaged in a hermetically sealed container.

"Low-acid food" means any food, other than alcoholic beverages, with a pH greater than 4.60 and (a_w) greater than 0.85.

"Major food allergen" means milk, egg, fish, crustacean shellfish (such as crab, lobster, or shrimp), tree nuts (such as almonds, pecans, or walnuts), wheat, peanuts, soybeans, and sesame; or a food ingredient that contains protein derived from these foods.

"Packaged" means bottled, canned, cartoned, bagged, or wrapped. "Packaged" does not include wrapped or placed in a carry-out container to protect the food during service or delivery to the consumer, by a food employee, upon consumer request.

"pH" means the symbol for the negative logarithm of the hydrogen ion concentration, which is a measure of the degree of acidity or alkalinity of a solution. Values between 0 and 7 indicate acidity, and values between 7 and 14 indicate alkalinity. The value for pure distilled water is 7, which is considered neutral.

"Produce" means the same as defined in Iowa Code section 137D.1.

"Raw agricultural commodity" means the same as defined in 21 U.S.C. Section 321 as amended to April 1, 2023.

"Ready-to-eat food" means any food that is normally eaten in its raw state or any other food, including a processed food, for which it is reasonably foreseeable that the food will be eaten without further processing that would significantly minimize biological hazards.

"Recall" means an action taken when a food producer takes a product off the market because there is reason to believe the product may cause consumers to become ill.

"Reduced oxygen packaging" means reducing the amount of oxygen in a package by removing oxygen, displacing oxygen and replacing it with another gas or combination of gases, or otherwise controlling the oxygen content to a level below that normally found in the atmosphere (approximately 21 percent at sea level). Reduced oxygen packaging includes vacuum packaging, modified atmosphere packaging, controlled atmosphere packaging, cook chill packaging, and sous vide packaging.

"Shellfish"

1. "Crustacean shellfish" means crab, lobster and shrimp.

2. "Molluscan shellfish" means any edible species of oysters, clams, mussels, or scallops.

"Special dietary use food" includes a food that contains an artificial sweetener, except when specifically and solely used for achieving a physical characteristic in the food that cannot be achieved with sugar or other nutritive sweetener or a food that is used for the following:

1. Supplying particular dietary needs that exist by reason of a physical, physiological, pathological, or other condition including but not limited to the conditions of diseases, convalescence, pregnancy, lactation, allergic hypersensitivity to food, underweight, and overweight;

2. Supplying particular dietary needs that exist by reason of age including but not limited to infancy and childhood; or

3. Supplementing or fortifying the ordinary or usual diet with any vitamin, mineral, or other dietary property. Any such particular use of a food is a special dietary use, regardless of whether such food also purports to be or is represented for general use.

"Sprouts" means seeds or beans used to grow sprouts that are harvested with their seed or root intact.

"Standardized recipe" means a recipe that has been tried, adapted, and retried several times for use by a given food service operation and has been found to produce the same good results and yield every time when the exact procedures are followed with the same type of equipment and same quantity and quality of ingredients. At a minimum, a standardized recipe includes the recipe name, listing of each ingredient, a measurement of each ingredient, equipment and utensils used, preparation instructions, and procedures to ensure the safety of the food.

"Time/temperature control for safety" or *"TCS"* means a food that requires time and temperature control for safety to limit pathogenic microorganism growth or toxin formation. TCS food does not include foods that have an equilibrium pH less than 4.60 or (a_w) content below 0.85. Examples of TCS foods include:

1. Animal food that is raw or heat-treated.

2. Plant food that is heat-treated or consists of raw seed sprouts, cut melons, cut leafy greens, cut tomatoes, or garlic-in-oil mixtures.

"Traceback" means to determine and document the distribution and production chain and the source(s) of a product that has been implicated in a foodborne illness investigation.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.2(137D) Licensing.

34.2(1) *Application for license.* A person shall not operate a home food processing establishment until a license has been obtained from the department or a contractor. Application for a license shall be made on a form furnished by the department containing the name of the business, name of the owner, physical address of the business, and list of all homemade food items the home food processing establishment intends to prepare. Applications for a license shall be completed using the department's online application system at least 30 days prior to the anticipated opening of the home food processing establishment. If extenuating circumstances exist that prevent the applicant from completing the online application, paper applications are available from the department or a contractor.

34.2(2) *Homemade food item disclosure.* Homemade food items not listed on the application shall not be sold or distributed. New homemade food items may be added to an application at any time using the online application system or by submission of a paper form to the department or a contractor.

34.2(3) *Transferability.* A license is not transferable to a new owner or location. Any change in business ownership or business location requires a new license.

34.2(4) *Refunds.* License fees are refundable only if the license is surrendered to the department or a contractor prior to the effective date of the license. License fees are not refundable for a new home food processing establishment if a record review has occurred.

34.2(5) *Expiration and renewal.* A home food processing establishment license, unless sooner suspended or revoked, expires one year after the application for license is approved by the department or a contractor. A renewal should be submitted through the department's online registration system with the required fee prior to expiration.

34.2(6) *Renewal 60 days or more after expiration.* A delinquent license will only be renewed if application for renewal is made within 60 days of expiration. If a delinquent license is not renewed within

60 days, an establishment shall apply for a new license and meet all of the requirements for an initial license. An establishment that has not renewed the license within 60 days of expiration will be closed by the department or a contractor.

34.2(7) *Documentation of gross sales.* The license holder shall maintain documentation of annual gross sales of homemade food items and provide it to the regulatory authority upon request. Documentation of gross sales includes at least one of the following and will be kept confidential:

a. A copy of the establishment's business tax return;

b. Four quarters of gross sales of homemade food items;

c. A letter from an independent tax preparer; or

d. Other records documenting annual gross sales of homemade food items.

34.2(8) *Returned payments.* The department or a contractor will attempt to redeem a payment submitted for an establishment that is not honored by the bank on which it is drafted and will notify the applicant of the need to provide sufficient payment. An additional fee of $25 will be assessed for each dishonored payment. If the department or a contractor does not receive payment, the establishment will be operating without a valid license.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.3(137D) Physical facilities and equipment.

34.3(1) The floors, walls, ceilings, utensils, equipment, and supplies in the food processing and storage areas, and all vehicles used in the transportation of homemade food items, shall be maintained clean and in good repair.

34.3(2) Outer openings shall be protected by tight-fitting doors, windows, or screens.

34.3(3) Dogs, cats, or other pets and animals shall be excluded from entering food preparation areas when food is being processed or packaged.

34.3(4) Persons unnecessary to the production of homemade food items are not allowed in food processing areas while homemade food items are exposed or being produced.

34.3(5) Adequate lighting and ventilation shall be available in all areas where food is processed or stored.

34.3(6) An establishment shall have an adequate supply of hot and cold potable water under pressure from an approved and safe source. In addition:

a. There shall be no direct or indirect connection of safe and unsafe water;

b. If the residence is not served by a public water system, the water shall be tested at least annually for nitrates and coliforms;

c. In the event a water test shows coliforms are present or nitrates are at an unsafe level, the establishment shall cease operations and notify the regulatory authority. The establishment will not resume operations until approved by the regulatory authority; and

d. If the establishment's water source is under a water advisory indicating the water may be unsafe to consume, it shall not produce homemade food items until the advisory is lifted.

34.3(7) There shall be a conveniently located sink in each food processing area that is maintained clean and accessible for handwashing during production and packaging and supplied with hot and cold running water, hand soap, and sanitary towels.

34.3(8) An establishment shall have adequate equipment, such as a sink or dishwasher, to wash, rinse, and sanitize utensils.

34.3(9) There shall be conveniently located toilet facilities, equipped with a handwashing sink supplied with hot and cold running water, hand soap and sanitary towels or a hand-drying device.

34.3(10) All waste and wastewater produced by the establishment shall be disposed of in a sanitary manner in compliance with applicable laws. If the home food processing establishment has a waste backup, it shall cease operation and notify the regulatory authority. It will not resume preparation of homemade food items until approved by the regulatory authority.

34.3(11) All garbage and refuse shall be kept in containers and removed from the premises regularly to eliminate insects and rodents, offensive odors, or other health hazards. Garbage and refuse containers shall be durable, easy to clean, insect- and rodent-resistant, and of material that neither leaks nor absorbs liquid.

34.3(12) Food processing and storage areas shall be free of pests. Pesticides, if used, shall be approved for use in commercial food establishments, clearly labeled, and used as directed by the manufacturer.

34.3(13) Hazardous chemicals or other toxic materials shall be stored, applied and used as directed by the manufacturer in a manner that protects food, equipment, and food contact surfaces from contamination.

34.3(14) Refrigeration and hot holding equipment design and capacity shall be adequate to maintain safe temperature control, including safe cooling temperatures, to prevent cross contamination and allergen cross contact and protect food from other sources of contamination. Dedicated refrigeration or hot holding equipment may be required if shared equipment is inadequate to maintain food safety.

34.3(15) All refrigeration and hot holding units shall be equipped with an accurate thermometer.

34.3(16) Appropriate thermometers shall be used to accurately measure the internal temperature of food during processing, holding, and storage.

34.3(17) All food contact surfaces shall be intended for use with food, made of safe materials, easy to clean, smooth, durable, nonabsorbent, and noncorrosive.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.4(137D) Management and personnel.

34.4(1) *Person in charge.* There shall be a person in charge of operations during all hours of food processing who has a thorough understanding of food safety principles and is able to demonstrate control over food safety hazards, including:

a. Time/temperature controls for cooking, hot holding, cooling, cold holding, and reheating foods;

b. Cross contamination during storage and preparation;

c. Major food allergens and allergen cross contact;

d. Sanitation of food contact surfaces;

e. Food handling, hygienic practices, and communicable diseases;

f. Receiving and distribution; and

g. If applicable, pH and (a_w).

34.4(2) *Food safety training.* The person in charge shall attend a food safety training course approved by the department and provide proof of attendance prior to the issuance of a home food processing establishment license.

34.4(3) *Exclusions from handling food.* A food handler shall be excluded from handling food, utensils, or packaging materials if the food handler:

a. Is diagnosed with a communicable or contagious disease that can be transmitted through food;

b. Has experienced diarrhea or vomiting in the past 24 hours;

c. Is jaundiced;

d. Has a sore throat with a fever; or

e. Has exposed sores or infected wounds on the food handler's hands or arms.

34.4(4) *Hygienic practices.*

a. A food handler must keep the food handler's person and clothing clean and hair effectively restrained and wash the food handler's hands as often as necessary to protect food and food contact surfaces from contamination.

b. Ready-to-eat foods must not be handled with bare hands.

c. Eating, drinking, and use of tobacco is not permitted in food processing areas while homemade food items are exposed or being produced.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.5(137D) Receiving, storage, and distribution.

34.5(1) *Receiving.* All foods and ingredients shall be obtained from an approved source and have been produced in compliance with applicable law. Honey from an unlicensed establishment and eggs from the establishment's own flock may be used in the preparation of homemade food items. All food shall be received in sound condition; at safe temperatures; free from spoilage, filth, or other contamination; unadulterated; and safe for human consumption.

34.5(2) *Storage.* Food storage areas shall be clean and located in an area that protects the food from contamination at all times. All food products shall be stored off of the floor. If removed from the original container, foods shall be stored in labeled and closed containers that are of a material that will not cause the food to become adulterated.

34.5(3) *Distribution.*

a. Foods containing raw or undercooked foods of animal origin will not be sold or distributed in a ready-to-eat form.

b. Foods produced in a home food processing establishment shall not be distributed for further processing by a food processing plant or another home food processing establishment.

c. Time/temperature control for safety homemade food items shall be maintained at safe temperatures during shipping and transportation to an end consumer, a mobile food unit, a farmers market food establishment, or a temporary food establishment operated by the same owner as the home food processing establishment.

d. Time/temperature control for safety homemade food items sold or distributed to other businesses for resale shall be maintained at or below 41°F during shipping and transportation.

e. No one may produce, distribute, offer for sale, or provide adulterated food to the public. Adulterated food shall be disposed of in a reasonable manner approved by the department.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.6(137D) Food preparation and protection.

34.6(1) *Food protection.* Foods shall be processed, stored, and distributed in a manner that protects food from contamination, including cross contamination from the environment, and allergen cross contact.

34.6(2) *Cooking.* All animal foods or foods containing animal products, if cooked, shall be cooked to an internal temperature sufficient to destroy organisms that are injurious to health. Homemade food items shall not contain raw or undercooked animal foods except for packaged raw meat or poultry items labeled with safe handling instructions informing the consumer how to safely store, prepare, and handle raw meat and poultry products in the home.

34.6(3) *Holding.* All time/temperature control for safety foods shall be held at an internal temperature of 41°F or less or 135°F or higher to control bacterial growth or toxin formation.

34.6(4) *Cooling.*

a. Time/temperature control for safety foods that have been heat-treated shall be cooled from 135°F to 70°F within two hours and from 70°F to 41°F within an additional four hours. Total cooling time shall not exceed six hours.

b. Time/temperature control for safety foods prepared with ingredients above 41°F shall be cooled to 41°F or below within four hours from the beginning of preparation.

34.6(5) *Reheating.*

a. Homemade food items that are time/temperature control for safety and have been previously heated and cooled shall be reheated to an internal temperature of 165°F within two hours or less.

b. Commercially processed time/temperature control for safety foods shall be reheated to 135°F within two hours or less.

34.6(6) *Preparation methods.*

a. High-acid foods that are produced and sold by the establishment and that are controlled by pH, such as barbeque sauce, condiments, and dressings, may be produced as homemade food items if:

(1) The product has been produced following a standardized recipe;

(2) The product does not contain more than 10 percent low-acid food ingredients by weight;

(3) The product recipe, including the name and weight of each ingredient, is submitted and approved by the regulatory authority;

(4) The product's equilibrium pH of each batch is tested with a calibrated pH tester designed for use with food. The pH shall be below 4.60, and the pH value shall be recorded on a production or batch record; and

(5) The product is adequately heated to destroy spoilage organisms.

b. Dried foods that are produced and sold under the home food processing establishment license that are controlled by (a_w), such as dehydrated or freeze-dried food may be produced as a homemade food item if:

(1) The products have been produced following a standardized recipe;

(2) The homemade food items do not contain raw or undercooked foods of animal origin; and

(3) Each batch is tested for (a_w) or the standardized written procedure for each homemade food item has been validated to ensure the final product is at or below 0.85 (a_w).

c. Jams, jellies, preserves, and fruit butters that are produced and sold under the home food processing establishment license shall meet the standard of identity specified in 21 CFR Part 150 as amended to April 1, 2023, and be produced following a standardized recipe. The home food processing establishment shall provide documentation, such as an analysis from an accredited food laboratory, that a product meets the standard of identity when requested by the regulatory authority.

d. Nonstandardized fruit jellies shall be produced following a standardized recipe and made with 45 parts of fruit to 55 parts of sugar and concentrated to 65 percent soluble solids. The home food processing establishment shall provide documentation, such as an analysis from an accredited food laboratory, that a product meets this requirement when requested by the regulatory authority.

e. Nonstandardized nonfruit jellies shall be produced following a standardized recipe and shall have a soluble solids content of 65 percent. The home food processing establishment shall provide documentation, such as an analysis from an accredited food laboratory, that a product meets this requirement when requested by the regulatory authority.

f. Standardized sweeteners and table syrups shall meet the standard of identity specified in 21 CFR Part 168 as amended to April 1, 2023. The home food processing establishment shall provide documentation that a product meets this requirement when requested by the regulatory authority.

g. A home food processing establishment that wishes to prepare foods using fermentation shall submit an HACCP plan to the department that has been validated by a recognized process authority, such as those provided on the department's website. A home food processing establishment shall not ferment food until the department has approved the HACCP plan.

h. A home food processing establishment shall not engage in the following processes to produce homemade food items:

(1) Low-acid canning (e.g., canned vegetables);

(2) Acidification to produce shelf-stable acidified foods (e.g., salsa, pickled vegetables, hot sauce);

(3) Curing (e.g., bacon, jerky, meat sticks); or

(4) Smoking food for preservation rather than flavor enhancement.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.7(137D) Packaging and labeling requirements.

34.7(1) *Legible labels.* All required labeling information shall be legible and in a location that is easily identifiable by the consumer.

34.7(2) *Labels and packaging on homemade food items, exception.* A homemade food item shall be packaged in the home food processing establishment, and all required labeling shall be affixed to the homemade food item before it is delivered to the consumer, with the exception of a homemade food item picked up by the consumer in person at the home food processing establishment. In the case of the exception, the homemade food item shall still be protected from contamination and all required labeling information shall be provided to the consumer.

34.7(3) *Raw meat and poultry products.* Packaged homemade food items that contain raw meat or poultry shall be labeled with safe handling instructions informing the consumer how to safely store, prepare, and handle raw meat and poultry products in the home.

34.7(4) *Expiration date.* Refrigerated time/temperature control for safety homemade food items that are ready-to-eat foods shall be labeled with an expiration date not to exceed seven days from the date of preparation, and the date of preparation is counted as day one. Time/temperature control for safety homemade food items may be labeled with an expiration date that exceeds seven days if the expiration date has been determined to be safe by an accredited food science institution and documentation is provided to the regulatory authority upon request.

34.7(5) *Contents.*

a. Homemade food items will be identified as required by Iowa Code section 137D.2(7).

b. Labels or other marketing materials associated with homemade food items must be truthful and not misleading.

c. Claims on labels or other marketing materials associated with homemade food items that are related to the following must conform to the United States Food and Drug Administration's (FDA's) Food Labeling Guide (January 2013). A link to the labeling guide may be found on the department's website or on the FDA's website.

(1) Health claims;

(2) Qualified health claims;

(3) Nutrient content claims (e.g., low sodium, high fiber, low fat, sugar free); or

(4) Structure/function claims.

d. Homemade food items labeled or marketed as a special dietary use food will conform to 21 CFR Part 105 as amended to April 1, 2023. The home food processing establishment shall provide documentation, such as a nutritional analysis by an accredited food laboratory, to the regulatory authority upon request.

e. Labels or other marketing materials shall not contain any claims that the homemade food item can be used in the diagnosis, cure, mitigation, treatment, or prevention of disease.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.8(137D) Sanitation.

34.8(1) There shall be sufficient means to clean, rinse, and sanitize all multi-use food contact surfaces. Cleaners and sanitizers used for these purposes shall be intended and approved for use in a commercial food establishment.

34.8(2) All food contact surfaces shall be clean to sight and touch when not in use.

34.8(3) All food contact surfaces shall be cleaned and sanitized:

a. Between each use;

b. At least every four hours if under continuous use to control microbial growth;

c. At a frequency necessary to prevent cross contamination; and

d. At a frequency necessary to prevent allergen cross contact.

34.8(4) If chemical sanitizers are used, they shall be used according to the manufacturer directions for use, and a means shall be provided for testing the proper level of chemical concentration, such as test strips designed specifically for the chemical being used.

34.8(5) Food processing, handling, and storage areas shall be neat; clean; and free from excessive accumulation of product, dust, trash, and unnecessary articles.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.9(137D) Maintenance of records by licensee.

34.9(1) An establishment shall maintain standardized recipes for each homemade food item.

34.9(2) An establishment shall maintain production or batch records, including, at a minimum, product name, date of production, and date of packaging, with the exception of made-to-order food.

34.9(3) An establishment shall maintain records of foods received as ingredients, including, at a minimum, the name and address of the supplier, name of the ingredient, and date received. A receipt of purchase is a sufficient record if it contains all of the required information.

34.9(4) An establishment shall maintain distribution records of all homemade food items that are distributed for resale, including the product name, the name and address of the business where the homemade food items were distributed, the date distributed, the quantity distributed, and the date the homemade food item was produced.

34.9(5) An establishment not served by a public water system shall maintain records of annual water tests.

34.9(6) An establishment, if it produces homemade food items that require food safety parameters to be monitored throughout production, such as temperature, pH, or (a_w), shall use testing instruments

as directed by the manufacturer and calibrated for accuracy according to the manufacturer's instructions. Monitoring results shall be documented as part of the batch record.

34.9(7) An establishment shall maintain all required records for a minimum of six months. All required records shall be made available for official review or copying upon request by the regulatory authority.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.10(137D) Violations and enforcement.

34.10(1) All violations shall be corrected within a time frame not to exceed 90 days. The license holder shall make a written report to the regulatory authority, stating the action taken to correct the violation, within five days of correction.

34.10(2) An establishment that violates this chapter or Iowa Code chapter 137D is subject to a civil penalty as set forth in Iowa Code chapter 137D.

34.10(3) The department may employ various remedies in response to violations, including but not limited to civil penalty; suspending or revoking the license; injunction; or embargo, stop-sale, or recall orders.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.11(137D) Denial, suspension, or revocation of license.

34.11(1) *Denial, suspension, or revocation of a license.* Denial, suspension, or revocation of a license is effective 30 days after mailing or personal service of the notice. The department may suspend or revoke a license as set forth in Iowa Code section 137D.8. A certified copy of a final order or judgment of conviction or plea of guilty is conclusive evidence of a conviction.

A deferred judgment, until discharged, is a conviction for purposes of this rule.

34.11(2) *Immediate suspension of license.* To the extent not inconsistent with Iowa Code chapters 17A and 137D and rules adopted pursuant to those chapters, the department or a contractor may immediately suspend a license in cases of an imminent health hazard, as defined by chapter 8 of the 2017 FDA Food Code (the "food code"). The procedures of Iowa Code section 17A.18A and chapter 8 of the food code shall be followed in cases of an imminent health hazard.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.12(137D) Inspection and access to records.

34.12(1) Home food processing establishments will be periodically inspected based on a risk assessment basis, either in person or virtually using video technology.

34.12(2) The regulatory authority may enter a food processing establishment at any reasonable hour to make an inspection. The regulatory authority will inspect only those areas related to preparing or storing food for sale. The manager or person in charge of the establishment shall afford free access to records and every part of the premises where homemade food items and ingredients are stored or prepared and render all aid and assistance necessary to enable the regulatory authority to make a thorough and complete inspection.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.13(137D) Public examination of records.

34.13(1) *Public information.* Information collected by the department and contractors is public information unless otherwise provided for by law. Records are stored in computer files and are not matched with any other data system. Inspection reports are available for public viewing at iowa.safefoodinspection.com.

34.13(2) *Confidential information.*

a. The following are examples of confidential records:

(1) Trade secrets and proprietary information, including items such as formulations, standardized recipes, processes, policies and procedures, and customer lists;

(2) Health information related to foodborne illness complaints and outbreaks;

(3) The name or any identifying information of a person who files a complaint with the department; and

(4) Other state or federal agencies' records.

b. A party claiming that information submitted to the department contains trade secrets or proprietary information should clearly mark those portions of the submission as confidential/trade secret.

34.13(3) *Other agencies' records.* Requests for records of other state or federal agencies will be referred to the appropriate agency.

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24]

481—34.14(137D) Appeals. An establishment may contest adverse action taken pursuant to this chapter by submitting a request for hearing to the department within 30 days of the mailing or service of the department's action. Appeals and hearings are governed by 7—Chapter 2506. For contractors, license holders shall have the opportunity for a hearing before the local board of health. If the hearing is conducted before the local board of health, the license holder may appeal to the department and shall follow the process for review in rule 7—2506.27(17A).

[**ARC 7810C**, IAB 4/17/24, effective 5/22/24; Editorial change: IAC Supplement 8/5/26]

These rules are intended to implement Iowa Code chapter 137D.

CHAPTER 35
CONTRACTOR REQUIREMENTS

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—35.1(137C,137D,137F) Definitions. The definitions in rule 481—30.2(10A,137C,137F) and Iowa Code sections 137C.2, 137D.1 and 137F.1 are hereby incorporated by reference as part of this chapter.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.2(137C,137D,137F) Contracts. A municipal corporation or county may enter into an agreement with the department to license, inspect and enforce under Iowa Code chapters 137C, 137D and 137F.

35.2(1) The department will investigate the municipal corporation or county to determine if it possesses adequate resources to fulfill the requirements of the contract.

35.2(2) A copy of the contract is available from the Department of Inspections, Appeals, and Licensing, Food and Consumer Safety Bureau, 6200 Park Avenue, Des Moines, Iowa 50321.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.3(137C,137D,137F) Contractor.

35.3(1) The contractor will:

a. Furnish the personnel, materials, services and facilities necessary to perform the required functions of the contract;

b. Cooperate with the department's monitoring activities in areas under the scope of this agreement;

c. Provide 24-hour-per-day, seven-day-per-week coverage of the facilities under contract;

d. Ensure that personnel are available at all times to respond to complaints, investigations, emergencies and other situations;

e. Supply trained personnel who are prepared and have the capability to perform inspections; and

f. Provide other information as requested by the department in regard to inspections and licenses issued under the contract.

35.3(2) The contractor is not an authorized agent of the state of Iowa.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.4(137C,137D,137F) Contractor inspection personnel.

35.4(1) Contractor inspection personnel will possess experience and education qualifications equal to those required for state food inspectors, including application of the food code. Municipal corporations or counties that wish to contract with the department to perform food inspections under Iowa Code chapters 137C, 137D and 137F but do not have trained personnel to perform these services will reimburse the department for the cost of providing the required training.

35.4(2) The salary received by contractor inspection personnel should be comparable to state inspection personnel.

35.4(3) Contractor inspection personnel will participate in state-sponsored training activities.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.5(137C,137D,137F) Investigation. The contractor will investigate all alleged food-borne illnesses in areas licensed and inspected under the agreement. The contractor will notify the department immediately of the existence of any food-borne or other illness caused by, or suspected to have been caused by, unsanitary conditions existing within the jurisdiction of the contractor.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.6(137C,137D,137F) Inspection standards. Inspections will be completed using forms prescribed by the department for those inspections. The contractor will follow applicable standards for inspections found in Iowa Code chapters 137C, 137D and 137F and 481—Chapters 30, 31, 34, 35, and 37. Copies of inspection standards are available from the Department of Inspections, Appeals, and Licensing, Food and Consumer Safety Bureau, 6200 Park Avenue, Des Moines, Iowa 50321.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.7(137C,137D,137F) Enforcement. The contractor will enforce state laws and rules, including regulations adopted by reference. These regulations are the legal basis of authority in licensing and inspection of establishments under this contract.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.8(137C,137D,137F) Licensing. The contractor will issue licenses and collect license fees.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.9(137C,137D,137F) Records. The contractor will maintain records of all inspections, license applications and fees for a minimum of three years and provide the records to the department upon its request.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

481—35.10(137C,137D,137F) Contract rescinded. If the department determines that Iowa Code chapters 137C, 137D and 137F are not being enforced by the contractor, the department may rescind the agreement. Notification will be provided to the contractor at least 30 days in advance of the action. The contractor has the right to request a hearing with the department to contest the action.
[**ARC 0060D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapters 137C, 137D and 137F.

CHAPTER 36
EGG HANDLERS

Rescinded **ARC 0989C**, IAB 9/4/13, effective 10/9/13; see 21—Chapter 36

CHAPTER 37
HOTEL AND MOTEL INSPECTIONS

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—37.1(137C) Building and grounds. Owners or managers are expected to keep hotels clean, meaning no litter nor accumulation of refuse anywhere on the premises. The floors, walls, and ceilings shall be kept clean and in good repair.

37.1(1) Screens, self-closing doors or other effective methods shall be used to keep flies, mosquitoes and other pests out of hotel lobbies, kitchens or any other indoor area.

37.1(2) All garbage must be kept in metal or plastic containers with tight-fitting lids and removed regularly to avoid offensive odors, a problem with insects or rodents, or health or fire hazards.

37.1(3) Any room or article that becomes infested with insects or vermin shall be cleaned or chemically treated until there are no more insects or vermin.

[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

481—37.2(137C) Guest rooms. Hotels built or extensively remodeled, as determined by the department, shall provide ventilation in guest rooms with windows or mechanical devices. The furniture, drapes and accessories shall be kept clean and in good repair.

[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

481—37.3(137C) Bedding. All materials used on a bed or any sleeping place shall be kept clean and in good repair.

37.3(1) There shall be an under sheet and top sheet that are large enough to cover the mattress for every bed. Pillows shall have pillow slips.

37.3(2) Each guest shall be furnished clean sheets and pillow slips.

37.3(3) All other bedding shall be aired between guests and kept clean.

[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

481—37.4(137C) Lavatory facilities. Hotels built or remodeled shall have lavatory facilities in each guest room, except for bed and breakfast inns.

37.4(1) Each guest room shall be equipped with hot and cold running water fixtures. The floors shall be nonabsorbent and impermeable so they can be washed with water.

37.4(2) Lavatory rooms shall be well-lighted and vented to the outside of the building, which may be done with electric units.

37.4(3) Each guest shall have a clean towel each day.

37.4(4) Bed and breakfast inns shall provide at least one restroom that is available to overnight guests that is equipped as provided in subrules 37.4(1) through 37.4(3).

[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

481—37.5(137C) Glasses and ice.

37.5(1) Each guest shall have clean glasses to use. All cups, glasses or utensils usable more than once shall be sanitized by:

a. A sanitizing solution used in accordance with the manufacturer's use instructions; or

b. A mechanical dishwasher that sanitizes and is operated in accordance with the manufacturer's instructions.

37.5(2) Sanitizing temperature or solution concentration measuring devices are readily available to frequently measure sanitizing temperatures and sanitizing solution concentrations.

37.5(3) Ice kept for guests to use shall be protected from contamination with tight lids on ice machines or storage bins. Containers used to store ice shall be continuously drained and have no direct waste connection. Ice containers and utensils shall be designed so that the surfaces are made of a material that is safe for use as a food contact surface and so that the surface can be adequately cleaned.

[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

481—37.6 Reserved.

481—37.7(137C) Room rates. Room rates will be posted in accordance with Iowa Code chapter 137C.
[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

481—37.8(137C) Inspections. Hotels will be inspected in accordance with Iowa Code chapter 137C.
[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

481—37.9(137C) Enforcement. Violation of these rules or any provision of Iowa Code chapter 137C is a simple misdemeanor. The department may employ various remedies if violations are discovered, including suspension or revocation of licenses (Iowa Code section 137C.10) or injunction (Iowa Code section 137C.29).
[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

481—37.10(137C) Criminal offense—conviction of license holder.

37.10(1) The department may suspend or revoke the license of a license holder who conducts an activity constituting a criminal offense as set forth in Iowa Code section 137C.10(3).

37.10(2) A certified copy of the final order or judgment of conviction or plea of guilty is conclusive evidence of the conviction of the license holder.
[**ARC 0061D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapter 137C.

CHAPTER 40
FOSTER CARE FACILITY INSPECTIONS
Rescinded **ARC 6802C**, IAB 1/11/23, effective 2/15/23

CHAPTER 41
PSYCHIATRIC MEDICAL INSTITUTIONS FOR CHILDREN (PMIC)

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—41.1(135H) Definitions. The definitions set forth in Iowa Code section 135H.1 are incorporated herein. As used in this chapter:

"Nurse practitioner" means a registered professional nurse who is currently licensed to practice in the state, who meets state requirements and is currently licensed to practice nursing under the nursing board[655] rules in the Iowa Administrative Code.

"Physician associate" means a person licensed to practice under Iowa Code chapter 148C.

[**ARC 6973C**, IAB 4/5/23, effective 5/10/23; Editorial change: IAC Supplement 6/10/26]

481—41.2(135H) Application for license. In order to obtain an initial license for a PMIC, the applicant must comply with Iowa Code chapter 135H and the rules in this chapter. Each applicant must submit the following documents to the department:

1. A completed Psychiatric Medical Institutions for Children application;
2. A copy of a department of human services license as a comprehensive residential care facility issued pursuant to Iowa Code section 237.3(2)*"a,"* or a copy of a license granted by the department of public health pursuant to Iowa Code section 125.13, as a facility which provides substance abuse treatment;
3. A floor plan of each floor of the facility on 8½″ by 11″ paper showing:

- Room areas in proportion;
- Room dimensions;
- Numbers for all rooms including bathrooms;
- A designation of use for each room; and
- Window and door locations;

4. A photograph of the front and side elevation of the facility;
5. The fee set forth in Iowa Code section 135H.5; and
6. Evidence of:

- Accreditation in accordance with Iowa Code section 135H.6(1)*"b"*;
- Department of public health certificate of need;
- Approval of the department of human services in accordance with Iowa Code section 135H.6(1)*"e"*; and
- Compliance with the requirements of Iowa Code section 135H.6(1)*"f."*

This rule is intended to implement Iowa Code sections 135H.4, 135H.5, and 135H.6.

[**ARC 6973C**, IAB 4/5/23, effective 5/10/23]

481—41.3(135H) Renewal application or change of ownership. In order to renew a license or change ownership of the psychiatric medical institution for children, the applicant must submit to the department:

1. A completed application form 30 days before the renewal date or before the date of the ownership change; and
2. The PMIC license fee.

41.3(1) *Denial, suspension or revocation of a license.* The department may deny, suspend or revoke a PMIC license for any of the reasons set forth in Iowa Code section 135H.8.

The department will issue notice of denial, suspension or revocation by certified mail or by personal service.

41.3(2) *Appeal process.* When a license is denied, revoked or suspended, a hearing may be requested pursuant to 481—subrule 50.5(2) and shall be conducted pursuant to rule 481—50.6(10A). During the appeal process, the status of a license shall remain as it was on the date the hearing was requested. The status shall not change until a final decision is rendered by the department.

This rule is intended to implement Iowa Code sections 135H.8 and 135H.9.

[**ARC 6973C**, IAB 4/5/23, effective 5/10/23]

481—41.4(135H) Licenses for distinct parts. Separate licenses may be issued for distinct parts of a health care facility which are clearly identifiable, containing contiguous rooms in a separate wing or building or on a separate floor of the facility, and which provide care and services of separate categories. The following requirements shall be met for licensing a distinct part:

41.4(1) The distinct part shall serve only children who require the category of care and services immediately available within that part.

41.4(2) The distinct part shall meet all the standards, rules and regulations which pertain to the category for which a license is sought.

41.4(3) The distinct part must be operationally and financially feasible.

41.4(4) A separate personal care staff with qualifications appropriate to the care and services offered must be regularly assigned and working in the distinct part under responsible management.

41.4(5) Separately licensed distinct parts may have some services such as management, building maintenance, laundry and dietary in common with each other.

[**ARC 6973C**, IAB 4/5/23, effective 5/10/23]

481—41.5(135H) Waivers. Waivers from these rules may be granted by the director of the department:

1. When the need for a waiver has been established; and
2. When there is no danger to the health, safety, welfare or rights of any child.

The waiver will apply only to a specific PMIC.

Waivers shall be reviewed at the time of each licensure survey by the department to determine continuing need.

41.5(1) To request a waiver, the licensee must:

a. Apply in writing on a form provided by the department;

b. Cite the rule or rules from which a waiver is desired;

c. State why compliance with the rule or rules cannot be accomplished;

d. Explain how the waiver is consistent with the individual program plans; and

e. Demonstrate that the requested waiver will not endanger the health, safety, welfare or rights of any child.

41.5(2) Upon receipt of a request for waiver, the director shall:

a. Examine the rule from which the waiver is requested;

b. Evaluate the requested waiver against the requirement of the rule to determine whether the request is necessary to meet the needs of the children; and

c. Examine the effect of the requested waiver on the health, safety or welfare of the children.

[**ARC 5719C**, IAB 6/16/21, effective 7/21/21]

481—41.6(135H) Notice to the department.

41.6(1) The department shall be notified at the times stated when the following events are expected to occur:

a. Thirty days before addition, alteration or new construction is begun in the PMIC or on the premises;

b. Thirty days in advance of closure of the PMIC or change in the category of license sought; and

c. Within two weeks of any change of administrator.

41.6(2) Prior to the purchase, transfer, assignment or lease of a PMIC, the licensee shall:

a. Inform the department in writing of the pending sale, transfer, assignment or lease of the facility; and

b. Inform the department in writing of the name and address of the prospective purchaser, transferee, assignee or lessee at least 30 days before the sale, transfer, assignment or lease is complete.

[**ARC 6973C**, IAB 4/5/23, effective 5/10/23]

481—41.7(135H) Inspection of complaints. The department shall conduct a preliminary review of all complaints filed against a PMIC. Unless a complaint is determined to be intended as harassment or to be without reasonable basis, the department shall inspect the PMIC within 20 working days of receipt of the complaint.

This rule is intended to implement Iowa Code section 135H.12.

481—41.8(135H) General requirement. Inpatient psychiatric services for recipients under age 21 must be provided under the direction of a physician.

When a resident has received services immediately before reaching age 21, services must be complete before the earlier of the following:

1. The date the recipient no longer requires services; or
2. The date the recipient reaches age 22.

481—41.9(135H) Certification of need for services. All recipients of services shall have written certification which ensures the following:

1. Ambulatory care resources available in the community do not meet the treatment needs of the recipient;
2. Proper treatment of the recipient's psychiatric condition requires services on an inpatient basis under the direction of a physician; and
3. The services can reasonably be expected to improve the recipient's condition or prevent further regression so services will no longer be needed.

Certification of need shall be completed in accordance with 42 CFR Sections 441.152 and 441.153.

[**ARC 6973C**, IAB 4/5/23, effective 5/10/23]

481—41.10(135H) Active treatment. Inpatient psychiatric services must involve "active treatment," which means implementation of a professionally developed and supervised individual plan of care as described in rule 481—41.12(135H). The plan of care shall be:

1. Developed and implemented no later than 14 days after admission; and
2. Designed to achieve discharge from inpatient status at the earliest possible time.

481—41.11(135H) Individual plan of care. "Individual plan of care" means a written plan developed for each child. The plan of care shall be designed to improve the condition of each child to the extent that inpatient care is no longer necessary.

41.11(1) The plan of care must be based on a diagnostic evaluation that includes examination of the:

a. Medical,
b. Psychological,
c. Social,
d. Behavioral, and
e. Developmental aspects of the child's situation.

The plan of care shall reflect the need for inpatient psychiatric care.

41.11(2) The plan of care shall be developed by the team of professionals specified in rule 481—41.13(135H) in consultation with the recipient, the parents, legal guardian or other person into whose care the child will be released after discharge. The plan of care shall include:

a. Diagnoses, symptoms, complaints and complications indicating the need for admission;
b. Treatment objectives;
c. An integrated program of therapies, activities and experiences designed to meet the objectives;
d. A description of the functional level of the individual;
e. Any orders for:
(1) Medications,
(2) Treatments,
(3) Restorative and rehabilitative services,
(4) Activities,
(5) Therapies,
(6) Social services,
(7) Diet, and
(8) Special procedures recommended for the health and safety of the patient; and

f. At an appropriate time, postdischarge plans and coordination of inpatient services with partial discharge plans and related community services to ensure continuity of care with the recipient's family, school and community upon discharge.

41.11(3) The plan of care shall be reviewed every 30 days by the team referred to in rule 481—41.13(135H) to:

a. Determine that services being provided are or were required on an inpatient basis; and

b. Recommend changes in the plan as indicated by the recipient's overall adjustment as an inpatient.

This rule is intended to implement Iowa Code section 135H.3.

481—41.12(135H) Individual written plan of care. Before admission to a PMIC and before authorization for payment, the attending physician or staff physician must establish written plans for continuing care including review and modification of the plan of care.

481—41.13(135H) Plan of care team. The individual plan of care shall be developed by an interdisciplinary team of physicians and other personnel who are employed by the facility or provide services to patients.

41.13(1) Based on education and experience, the team must be capable of:

a. Assessing the recipient's immediate and long-range therapeutic needs, developmental priorities, and personal strengths and liabilities;

b. Assessing the potential resources of the recipient's family;

c. Setting treatment objectives; and

d. Prescribing therapeutic modalities to achieve the plan's objectives.

41.13(2) The team shall include at least one member who is experienced in child psychiatry or child psychology and must include, as a minimum, either:

a. A board-eligible or board-certified psychiatrist; or

b. A clinical psychologist who has a doctoral degree and a physician licensed to practice medicine or osteopathy; or

c. A physician licensed to practice medicine or osteopathy with specialized training and experience in the diagnoses and treatment of mental diseases, and a psychologist who has a master's degree in clinical psychology or who has been certified by the state psychological association.

41.13(3) The team must also include one of the following:

a. A psychiatric social worker;

b. A registered nurse with specialized training or one year of experience in treating mentally ill individuals;

c. A licensed occupational therapist who has specialized training in treating mentally ill individuals; or

d. A psychologist who has a master's degree in clinical psychology or who has been certified by the state psychological association.

This rule is intended to implement Iowa Code section 135H.3.

481—41.14(135H) Required discharge. The licensee shall not refuse to discharge a child when directed by the physician, parent or legal guardian unless so directed by the court.

481—41.15(135H) Criminal behavior involving children. A person who has a record of a criminal conviction or a founded child abuse or dependent adult abuse shall not be licensed to operate, be employed by, or reside in a PMIC unless an evaluation of the crime or founded child or dependent adult abuse has been made by the department of human services which concludes that the crime or founded child or dependent adult abuse does not merit prohibition of employment.

41.15(1) A PMIC shall request that the department of human services (DHS) conduct a criminal and child abuse record check, when a person is being considered for licensure or for employment if the person will:

a. Have direct responsibility for a child;

b. Have access to a child when the child is alone; or

c. Reside in the facility.

41.15(2) A PMIC shall inform all new applicants for employment of the requirement for the criminal and child abuse record checks and the possibility of a dependent adult abuse record check. The PMIC shall obtain, from the applicant, a signed acknowledgment of the receipt of this information.

41.15(3) A PMIC shall include the following inquiry in an application for employment: "Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime, in this state or any other state?"

41.15(4) DHS will inform the PMIC of the results of the criminal, child abuse, and dependent adult abuse record checks. If a record of a criminal conviction or founded child or dependent adult abuse exists, the PMIC will be informed on Form 470-2310, "Record Check Evaluation." The subject of the report shall complete that form and it shall be returned to DHS to request evaluation of the record to determine whether prohibition of the person's licensure, employment, or residence is warranted.

41.15(5) If the evaluation is not requested or if the DHS determines that the person has committed a crime or has a record of founded child abuse or dependent adult abuse which warrants prohibition of licensure, employment, or residence, the person shall not be licensed to operate, be employed by, or reside in a PMIC.

This rule is intended to implement Iowa Code section 135H.7.

481—41.16(22,135H) Confidential or open information. The department maintains files for psychiatric medical institutions for children. These files are organized by facility name and contain both open and confidential information.

41.16(1) Open information includes:

a. License application and status;

b. Waiver requests and responses;

c. Final findings of state license survey investigations;

d. Records of complaints;

e. Plans of correction submitted by the facility;

f. Medicaid status; and

g. Official notices of license sanctions.

41.16(2) Confidential information includes:

a. Inspection or investigation information which does not comprise a final finding. This information may be made public in a proceeding concerning the denial, suspension or revocation of a license, under Iowa Code section 135H.8;

b. Names and identities of all complainants; and

c. Names of children in all facilities, identifying information and the address of anyone other than an owner.

This rule is intended to implement Iowa Code sections 22.11, 135H.11 and 135H.13.

[**ARC 5719C**, IAB 6/16/21, effective 7/21/21; **ARC 6973C**, IAB 4/5/23, effective 5/10/23]

481—41.17(135H) Additional provisions concerning physical restraint. If a PMIC uses a physical restraint, the following provisions shall apply:

41.17(1) No employee shall use any prone restraints. For the purposes of this rule, "prone restraints" means those in which an individual is held face down on the floor. Employees who find themselves involved in the use of a prone restraint as the result of responding to an emergency must take immediate steps to end the prone restraint.

41.17(2) No employee shall use any restraint that obstructs the airway of any resident.

41.17(3) If an employee physically restrains a resident who uses sign language or an augmentative mode of communication as the resident's primary mode of communication, the resident shall be permitted to have the resident's hands free of restraint for brief periods, unless an employee determines that such freedom appears likely to result in harm to self or others.

This rule is intended to implement Iowa Code sections 135H.4 and 135H.5.

[**ARC 8857B**, IAB 6/16/10, effective 7/21/10]

This chapter is intended to implement Iowa Code chapters 17A, 22 and 135H.

CHAPTER 49
AMBULATORY SURGICAL CENTERS

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/5/29

481—49.1(135R) Definitions.

"Ambulatory surgical center" means the same as defined by Iowa Code section 135R.1.

"Department" means the department of inspections, appeals, and licensing.

[**ARC 7886C**, IAB 5/1/24, effective 6/5/24]

481—49.2(135R,10A) Application and licensing.

49.2(1) *Application and licensing.* An ambulatory surgical center shall obtain a license from the department in accordance with Iowa Code section 135R.2.

a. An ambulatory surgical center seeking licensure will make application on forms provided by the department or through the department's online application system. Upon receipt of a completed application, including completion of the building and plan review set forth in paragraph 49.2(1)*"b,"* and receipt of the $50 fee set forth in Iowa Code section 135R.3(3), the application will be considered.

b. An ambulatory surgical center applicant shall submit architectural technical documents, engineering documents, and plans and specifications to the department's building and construction division in accordance with rule 481—300.4(103A) that demonstrate the applicant's compliance with the construction and physical environment requirements of subrule 49.4(2). The submission may be completed by an authorized agent of the applicant or the responsible design professional, who shall certify that the building or building plans meet the construction and physical environment standards within subrule 49.4(2) or that a waiver has been granted by the department for any noncompliant standard. If the applicant was operating prior to and continuously since July 1, 2023, the applicant is permitted up to six months after submission of its license application to submit plans demonstrating compliance with subrule 49.4(1) or obtaining waivers for the construction and physical environment standards in accordance with subrule 49.4(2).

49.2(2) *Certificate of need.* An ambulatory surgical center will be granted an initial license and is not required to obtain a new certificate of need solely because licensure is mandated by Iowa Code chapter 135R if the ambulatory surgical center was operating prior to and continuously since July 1, 2023. If an ambulatory surgical center beginning or modifying its operations on or after July 1, 2023, would be required to obtain a certificate of need from the health facilities council pursuant to Iowa Code chapter 10A, subchapter VII, part 2, it shall obtain a certificate of need from the health facilities council prior to submitting its license application to the department.

49.2(3) *Renewal, changes of ownership, and changes of information.* A license issued pursuant to this chapter expires one year after the date of issuance or as indicated on the license.

a. Renewal. To renew a license, a completed application form shall be submitted to the department 30 days prior to license expiration.

b. Change of ownership. To request a change of ownership, a completed application form shall be submitted to the department for the new owner at least 30 days prior to the proposed effective date of the change of ownership. A change of ownership includes the purchase, transfer, assignment, or lease of the licensed ambulatory surgical center and includes a change in the management company responsible for the day-to-day operation of the ambulatory surgical center if the management company is ultimately responsible for any enforcement action taken by the department. For purposes of determining ownership and whether such changes constitute a change of ownership, the department adopts the Centers for Medicare and Medicaid Services (CMS) State Operations Manual sections 3210.1A and 3210.1D (Rev. 1, 05-21-04).

c. Change of information. The department should be notified of any changes to an applicant's or licensee's application information within 30 days of the date the change occurs, including the cessation of operation.

49.2(4) *Public display.* The license shall be displayed in a conspicuous place in the ambulatory surgical center viewed by the public.

[**ARC 7886C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 8/5/26]

481—49.3(135R,10A) Inspections.

49.3(1) *Frequency.* Inspections may be initiated because of a complaint or other information received by the department or upon referral from other agencies. The department will perform inspections at the same frequency and utilize any priority tier structure for survey and certification activities required for inspections of Medicare-certified ambulatory surgical centers. The department will recognize, in lieu of its own licensure inspection, the comparable inspection and findings of a Medicare survey or an accrediting organization survey from an accrediting organization approved by CMS for federal certification. An ambulatory surgical center utilizing an accrediting organization survey to satisfy the requirements of this subrule shall submit an accreditation certificate to the department within 30 days of completion of each accrediting organization survey.

49.3(2) *Access to records.* An inspector with the department may enter an ambulatory surgical center without a warrant and may examine and copy all records and items pertaining to the inspection unless the record or item is protected by some other legal privilege.

49.3(3) *Evaluation of allegations and referral to other agencies.* If an inspection is initiated, the department will evaluate the allegations to determine whether the allegations should also be referred to other local, state, or federal agencies. If the department believes a criminal or regulatory violation has occurred or is occurring, the department shall notify the appropriate law enforcement or regulatory agencies.

49.3(4) *Final findings.* The department will notify the ambulatory surgical center and any complainant, in writing, of the final findings of an inspection.

49.3(5) *Inspector conflict of interest.* An employee of the department will be excluded from participating in the inspection of an ambulatory surgical facility described by Iowa Code section 135R.5(3).

[**ARC 7886C**, IAB 5/1/24, effective 6/5/24]

481—49.4(135R) General licensing standards.

49.4(1) *Federal specific conditions of coverage.* A state-licensed ambulatory surgical center shall comply with the specific conditions for coverage in the federal Medicare program for ambulatory surgical centers under 42 CFR Part 416, Subpart C, as amended to July 1, 2023, and federal interpretive guidelines for such regulations, including Appendix L of the State Operations Manual published by CMS, Rev. 215, as amended to July 21, 2023, or an accreditation standard of The Joint Commission, the American Association for Accreditation of Ambulatory Surgical Facilities, the Accreditation Association for Ambulatory Health Care, or an accrediting organization approved by CMS for federal certification if the state-licensed ambulatory surgical center is inspected by an accrediting organization pursuant to subrule 49.3(1).

49.4(2) *Construction and physical environment standards.* In accordance with subrule 49.4(1), the construction and physical environment standards of 42 CFR 416.44 as amended to July 1, 2023, are adopted. Ambulatory surgical centers built in compliance with construction and environment standards applicable at the time of building approval or building plan approval under subrule 49.2(1) are deemed in compliance with subsequent regulations, with the exception of any structural renovations, additions, functional alterations, or changes in space utilization after the date of approval. Any such structural renovations, additions, functional alterations, or changes in space utilization that will occur after the licensee's initial approval shall be reviewed and approved in accordance with paragraph 49.2(3)*"b"* prior to such changes being made.

49.4(3) *External reporting.* An ambulatory surgical center shall report quality data to the Iowa department of health and human services consistent with the data required to be reported to CMS in accordance with rules promulgated by the Iowa department of health and human services.

[**ARC 7886C**, IAB 5/1/24, effective 6/5/24]

481—49.5(135R) Enforcement and penalties.

49.5(1) *Denial, suspension, or revocation.* The license for an ambulatory surgical center may be denied, suspended, or revoked for failure to comply with Iowa Code chapter 135R or this chapter, including any reason for which an ambulatory surgical center could be denied, suspended, or terminated from the

federal Medicare program for ambulatory surgical centers under 42 CFR Part 416 as amended to July 1, 2023, and federal interpretive guidelines, including Appendix L of the State Operations Manual published by CMS, Rev. 215, as amended to July 21, 2023.

49.5(2) *Effective date and contested case appeals.* Unless otherwise stated, a denial, suspension or revocation of license is effective 30 days after certified mailing or personal service of the notice upon the licensee. The licensee may request a contested case hearing by submitting a request, in writing, to the department within 30 days of the mailing or service. Contested case appeals and hearings are governed by 7—Chapter 2506, 481—Chapter 10, and 481—Chapter 16.

49.5(3) *Enjoining an unlicensed ambulatory surgical center.* An injunction or other process against any person to restrain or prevent the establishment, operation, or maintenance of an ambulatory surgical center without a license may be pursued by the department in accordance with Iowa Code section 135R.7.

49.5(4) *Operation of unlicensed ambulatory surgical center—serious misdemeanor.* A person establishing, operating, or maintaining an ambulatory surgical center without a license commits a serious misdemeanor as set forth in Iowa Code section 135R.9.

[**ARC 7886C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 8/5/26]

481—49.6(135R,10A) Public and confidential information. The department's final findings with respect to compliance by an ambulatory surgical center with requirements for licensing will be made available to the public on the department's website. Other information relating to an ambulatory surgical center obtained by the department that does not constitute the department's final findings from an inspection, including the name and identifying information about a complainant, are confidential in accordance with Iowa Code section 135R.6. This rule does not inhibit the referral of otherwise confidential information to other law enforcement or regulatory agencies pursuant to Iowa Code section 10A.105(5).

49.6(1) *Public disclosure.* The following records are open and available for inspection:

a. License application forms and accompanying materials;

b. Final findings of the department's inspections;

c. Official notices of any enforcement action.

49.6(2) *Confidential information.* Confidential information includes the following:

a. Information obtained by the department that does not comprise a final finding resulting from an inspection. Inspection information that does not comprise a final finding may be made public in a contested case proceeding concerning the department's final findings, including the denial or revocation of registration.

b. Names and identifying information of all complainants.

49.6(3) *Redaction of confidential information.* If a record normally open for inspection contains confidential information, the confidential information will be redacted prior to providing the record for inspection.

[**ARC 7886C**, IAB 5/1/24, effective 6/5/24]

481—49.7(135R,10A) Waivers. Requests for waiver may be submitted to the department in accordance with 7—Chapter 2504. Waivers may be granted by the director of the department when, in the director's discretion, good and sufficient reasons underlying the need for a waiver have been established; no substantial risk to the health, safety, or welfare of patients is presented by approving the waiver; and alternate means are employed or compensating circumstances exist to justify the waiver. Any waiver granted is limited to the specific project under consideration and does not establish a precedent for similar acceptance in other cases.

[**ARC 7886C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 8/5/26]

These rules are intended to implement Iowa Code chapters 135R and 10A.

[Filed ARC 7886C (Notice ARC 7650C, IAB 2/21/24), IAB 5/1/24, effective 6/5/24]

[Editorial change: IAC Supplement 8/5/26]

CHAPTER 50
HEALTH CARE FACILITIES ADMINISTRATION

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—50.1(10A) Inspections. The health facilities division inspects health care facilities, hospitals, and providers and suppliers of medical services in Iowa. Standards to obtain a license are explained in this chapter.

481—50.2(10A) Definitions.

"Administrator" means the person coordinating the administration of the division.

"Department" means the department of inspections and appeals.

"Director" means the director of inspections and appeals.

"Division" means the health facilities division.

481—50.3(135B,135C) Licensing. All hospitals and health care facilities shall be licensed by the department. Applications are available from the Health Facilities Division, Lucas State Office Building, Des Moines, Iowa 50319-0083. Completed applications are returned to the division with the fee.

50.3(1) Initial fees for hospitals are:

a. Fifty beds or less, $15;

b. More than 50 and not more than 100 beds, $25;

c. Any greater number of beds, $50.

A fee of $10 is charged to renew a hospital license each year.

50.3(2) Initial and renewal fees for health care facilities are:

a. Ten beds or less, $20;

b. More than 10 and not more than 25 beds, $40;

c. More than 26 and not more than 75 beds, $60;

d. More than 76 and not more than 150 beds, $80;

e. Any greater number of beds, $100.

50.3(3) Standards used to determine whether a license is granted or retained are found in the rules of the department of inspections and appeals in the Iowa Administrative Code as follows:

a. Hospitals, 481—Chapter 51;

b. Hospices, 481—Chapter 53;

c. Residential care facilities, 481—Chapters 57 and 60;

d. Nursing facilities, 481—Chapters 58 and 61;

e. Residential care facilities for persons with mental illness, 481—Chapters 60 and 62;

f. Residential care facilities, three- to five-bed license, 481—Chapter 63;

g. Intermediate care facilities for the intellectually disabled, 481—Chapter 64; and

h. Intermediate care facilities for persons with mental illness, 481—Chapter 65.

50.3(4) Posting of license. The license shall be posted in each facility so the public can see it easily.

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13; **ARC 7035C**, IAB 5/31/23, effective 7/5/23]

481—50.4(135C) Fines and citations. A fine or citation will be issued and may be contested according to the rules in 481—Chapter 56.

481—50.5(135C) Denial, suspension or revocation.

50.5(1) A denial, suspension or revocation shall be effective 30 days after certified mailing or personal service of the notice.

50.5(2) A hearing may be requested and the request must be made in writing to the department within 30 days of the mailing or service.

481—50.6(10A) Formal hearing. All decisions of the division may be contested. Appeals and hearings are controlled by 7—Chapter 2506, "Contested Cases," and 481—Chapter 10, "Rules of Procedure and Practice Before the Administrative Hearings Division."

50.6(1) The proposed decision of the hearing officer becomes final 15 days after it is mailed.

50.6(2) Any request for administrative review of a proposed decision must:

1. Be made in writing,
2. Be mailed by certified mail to the director, within 15 days after the proposed decision was mailed to the aggrieved party,
3. State the reason(s) for the request.

A copy shall also be sent to the hearing officer at the Department of Inspections, Appeals, and Licensing, 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321.

50.6(3) The decision of the director shall be based upon the record and becomes final agency action upon mailing by certified mail.

50.6(4) The fees of witnesses for attendance and travel shall be the same as the fees for witnesses before the district court and shall be paid by the party to the proceeding at whose request the subpoena is issued.

[**ARC 3523C**, IAB 12/20/17, effective 1/24/18; **ARC 7035C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 8/5/26]

481—50.7(10A,135C) Additional notification. A health care facility shall notify the department within 24 hours, or the next business day, by the most expeditious means available (I,II,III):

50.7(1) Of any accident causing major injury.

a. "Major injury" shall be defined as any injury which:

(1) Results in death; or

(2) Requires admission to a higher level of care for treatment, other than for observation; or

(3) Requires consultation with the attending physician, designee of the physician, or physician extender who determines, in writing on a form designated by the department, that an injury is a "major injury" based upon the circumstances of the accident, the previous functional ability of the resident, and the resident's prognosis.

b. The following are not reportable accidents:

(1) An ambulatory resident, as defined in rules 481—57.1(135C), 481—58.1(135C), and 481—63.1(135C), who falls when neither the facility nor its employees have culpability related to the fall, even if the resident sustains a major injury; or

(2) Spontaneous fractures; or

(3) Hairline fractures.

50.7(2) When damage to the facility is caused by a natural or other disaster, including physical impairments affecting operations (e.g., failure of a heating or cooling system, water heater failure).

50.7(3) When there is an act that causes major injury to a resident or when a facility has knowledge of a pattern of acts committed by the same resident on another resident that results in any physical injury. For the purposes of this subrule, "pattern" means two or more times within a 30-day period.

50.7(4) When a resident elopes from a facility. For the purposes of this subrule, "elopes" means when a resident who has impaired decision-making ability leaves the facility without the knowledge or authorization of staff.

50.7(5) When a resident attempts suicide, regardless of injury.

50.7(6) When a fire occurs in a facility and the fire requires the notification of emergency services, require full or partial evacuation of the facility, or causes physical injury to a resident.

50.7(7) When a defect or failure occurs in the fire sprinkler or fire alarm system for more than 4 hours in a 24-hour period. (This reporting requirement is in addition to the requirement to notify the state fire marshal.)

NOTE: Additional reporting requirements are created by other rules and statutes, including but not limited to Iowa Code chapter 235E, which requires reporting of dependent adult abuse.

[**ARC 7035C**, IAB 5/31/23, effective 7/5/23]

481—50.8(22,135B,135C) Records. The division collects and stores a variety of records in the course of licensing and inspecting hospitals and health care facilities, as described in 7—Chapter 2505. The records contain both public and confidential information.

50.8(1) *Public information.* The following are general categories of public information:

a. The department's final findings or the final findings of an accreditation organization with respect to compliance by a hospital or health care facility with requirements for licensing or accreditation, including any plan of correction;

b. Applications for licensing or certification, accompanying materials, and status of any application;

c. Reports from the state fire marshal;

d. Information regarding complaints, unless otherwise confidential pursuant to subrule 50.8(2) or Iowa Code section 22.7;

e. Waiver requests and responses;

f. Official notices of licensing or certification sanctions.

50.8(2) *Confidential information.* The following are general categories of confidential information:

a. Information that does not comprise a final report resulting from a survey, investigation, or entity-reported incident investigation, except as set forth in Iowa Code section 135B.12 or 135C.19(1);

b. Names of complainants;

c. Names of patients or residents and any identifying medical information;

d. The address of anyone other than an owner.

50.8(3) *Redaction of confidential information.* If a record normally open for inspection contains confidential information, the confidential information shall be redacted before the records are provided for inspection.

[**ARC 7035C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 8/5/26]

481—50.9(135C) Criminal, dependent adult abuse, and child abuse record checks.

50.9(1) *Definitions.* The following definitions apply for the purposes of this rule.

"Background check" or *"record check"* means criminal history, child abuse and dependent adult abuse record checks.

"Certified nurse aide training program" means a program approved in accordance with the rules for such programs adopted by the department of human services for the training of persons seeking to be a certified nurse aide for employment in a facility as defined by this rule or in a hospital as defined in Iowa Code section 135B.1.

"Comprehensive preliminary background check" means a criminal history check of all states in which the applicant has worked or resided over the seven-year period immediately prior to submitting an application for employment or participation in a certified nurse aide training program that is conducted by an approved third-party vendor.

"Direct services" means services provided through person-to-person contact. "Direct services" excludes services provided by individuals such as building contractors, repair workers, or others who are in a facility for a very limited purpose, are not in the facility on a regular basis, and who do not provide any treatment or services for residents, patients, tenants, or participants of the provider.

"Employed in a facility" or *"employment within a facility"* means all of the following if the provider is regulated by the state or receives any federal or state funding:

1. An employee of a health care facility licensed under Iowa Code chapter 135C if the employee provides direct or indirect services to residents;
2. An employee of a home health agency if the employee provides direct services to consumers;
3. An employee of a hospice if the employee provides direct services to consumers;
4. A health care employment agency worker as defined by Iowa Code section 135Q.1.

"Employee" means any individual who is paid either by the facility or any other entity (i.e., health care employment agency, private duty, Medicare/Medicaid or independent contractors).

"Evaluation" means review by the department of human services to determine whether a founded child abuse, dependent adult abuse or criminal conviction warrants prohibition of the person's employment in a facility; or whether a founded child abuse, dependent adult abuse or criminal conviction warrants

prohibition of a student's involvement in a clinical education component of the certified nurse aide training program involving children or dependent adults.

"Facility," for purposes of this rule, means all of the following if the provider is regulated by the state or receives any federal or state funding:

1. A health care facility licensed under Iowa Code chapter 135C;
2. A home health agency;
3. A hospice.

"Indirect services" means services provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance.

"Student" means a person applying for, enrolled in, or returning to a certified nurse aide training program.

50.9(2) *Explanation of "crime."* For purposes of this rule, the term "crime" does not include offenses under Iowa Code chapter 321 classified as simple misdemeanor or equivalent simple misdemeanor offenses from another jurisdiction.

50.9(3) *Requirements for employer prior to employing an individual.* Prior to employment of a person in a facility, the facility shall complete the background check requirements set forth below.

a. Informing the prospective employee. A facility shall ask each person seeking employment by the facility, "Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime other than a simple misdemeanor offense relating to motor vehicles and laws of the road under Iowa Code chapter 321 or equivalent provisions, in this state or any other state?" In addition, the person shall be informed that a background check will be conducted. The person shall indicate, by signature, that the person has been informed that the background check will be conducted. (I, II, III)

b. Conducting a background check. The facility shall either request that the department of public safety perform a criminal history check and that the department of human services perform child and dependent adult abuse record checks of the person in this state, or access the single contact repository (SING) to perform the required background check. If the SING is used, the facility shall submit the person's prior name(s), if applicable, with the background check request. (I, II, III)

c. If a person being considered for employment has been convicted of a crime. If a person being considered for employment in a facility has been convicted of a crime under a law of any state, the facility shall request that the department of human services perform an evaluation to determine whether the crime warrants prohibition of the person's employment in the facility. (I, II, III)

d. If a person being considered for employment has a record of founded child or dependent adult abuse. If a person being considered for employment in a facility has a record of founded child or dependent adult abuse under a law of any state, the facility shall request that the department of human services perform an evaluation to determine whether the founded child or dependent adult abuse warrants prohibition of the person's employment in the facility. (I, II, III)

e. Employment pending evaluation. The facility may provisionally employ a person prior to completion of the required record check and evaluation by the department of human services, as applicable, subject to all of the following:

(1) The facility shall have accessed SING to perform the required record check and be awaiting results from SING or awaiting evaluation by the department of human services, as applicable;

(2) If applicable, the facility shall request an evaluation by the department of human services in accordance with paragraph 50.9(3)*"c"* or *"d"* within 30 days of receipt of the SING record check results;

(3) The facility shall have utilized an approved third-party vendor to perform a comprehensive preliminary background check;

(4) If the comprehensive preliminary background check determines that the person being considered for employment has been convicted of a crime, the crime does not constitute a felony as defined in Iowa Code section 701.7 and is not a crime specified pursuant to Iowa Code chapter 708, 708A, 709, 709A, 710, 710A, 711, or 712 or pursuant to Iowa Code section 726.3, 726.7, or 726.8;

(5) The comprehensive preliminary background check shall have determined that the person being considered for employment does not have a record of founded child abuse or dependent adult abuse, or, if

the person being considered for employment does have a record of founded child abuse or dependent adult abuse, subrule 50.9(8) is applicable; and

(6) The provisional employment may continue until such time as the required record check through SING and evaluation by the department of human services, as applicable, are completed. (I, II, III)

50.9(4) *Validity of background check results.* The results of a background check conducted pursuant to this rule shall be valid for a period of 30 calendar days from the date the results of the background check are received by the facility. (I, II, III)

50.9(5) *Employment prohibition.* Except as provided in paragraph 50.9(3)*"e,"* a person who has committed a crime or has a record of founded child or dependent adult abuse shall not be employed in a facility unless an evaluation has been performed by the department of human services. (I, II, III)

50.9(6) *Transfer of an employee to another facility owned or operated by the same person.* If an employee transfers from one facility to another facility owned or operated by the same person, without a lapse in employment, the facility is not required to request additional criminal and child and dependent adult abuse record checks of that employee. (I, II, III)

50.9(7) *Transfer of ownership of a facility.* If the ownership of a facility is transferred, at the time of transfer the background check required by this rule shall be performed for each employee for whom there is no documentation that such background check has been performed. The facility may continue to employ such employee pending the performance of the background check and any related evaluation. (I, II, III)

50.9(8) *Change of employment—person with criminal or abuse record—exception to record check evaluation requirements.* A person with a criminal or abuse record who is or was employed by a facility and is hired by another facility shall be subject to the background check.

a. A reevaluation of the latest record check is not required, and the person may commence employment with the other facility if the following requirements are met:

(1) The department of human services previously performed an evaluation concerning the person's criminal or abuse record and concluded the record did not warrant prohibition of the person's employment;

(2) The latest background check does not indicate a crime was committed or founded abuse record was entered subsequent to the previous evaluation;

(3) The position with the subsequent employer is substantially the same or has the same job responsibilities as the position for which the previous evaluation was performed;

(4) Any restrictions placed on the person's employment in the previous evaluation by the department of human services and still applicable shall remain applicable in the person's subsequent employment; and

(5) The person subject to the background check has maintained a copy of the previous evaluation and provided it to the subsequent employer, or the previous employer provides the previous evaluation from the person's personnel file pursuant to the person's authorization. If a physical copy of the previous evaluation is not provided to the subsequent employer, a current record check evaluation shall be performed. (I, II, III)

b. For purposes of this subrule, a position is "substantially the same or has the same job responsibilities" if the position requires the same certification, licensure, or advanced training. For example, a licensed nurse has substantially the same or the same job responsibilities as a director of nursing; a certified nurse aide does not have substantially the same or the same job responsibilities as a licensed nurse.

c. The subsequent employer must maintain the previous evaluation in the employee's personnel file for verification of the exception to the requirement for a record check evaluation. (I, II, III)

d. The subsequent employer may request a reevaluation of the background check and may employ the person while the reevaluation is being performed, even though an exemption under paragraph 50.9(8)*"a"* may be authorized.

50.9(9) *Employee notification of criminal conviction or founded abuse after employment.* If a person employed by a facility employer that is subject to this rule is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the person's employment application date, the person shall inform the employer of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

a. The employer shall act to verify the information within seven calendar days of notification. "Verify," for purposes of this subrule, means to access the single contact repository (SING) to perform a

background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the facility shall follow the requirements of paragraphs 50.9(3)*"c"* and *"d."* (I, II, III)

c. The employer may continue to employ the person pending the performance of an evaluation by the department of human services.

d. A person who is required by this subrule to inform the person's employer of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

e. The employer may notify the county attorney for the county where the employer is located of any violation or failure by an employee to notify the employer of a criminal conviction or entry of an abuse record within the period required under this subrule.

50.9(10) *Facility receipt of credible information that an employee has been convicted of a crime or has a record of founded abuse.* If the facility receives credible information, as determined by the facility, from someone other than the employee, that the employee has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after employment, and the employee has not informed the employer of the information within the time required by subrule 50.9(9), the facility shall take the following actions:

a. The facility shall act to verify credible information within seven calendar days of receipt. "Verify," for purposes of this subrule, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the facility shall follow the requirements of paragraphs 50.9(3)*"c"* and *"d."* (I, II, III)

50.9(11) *Proof of background checks for health care employment agencies and contractors.* Proof of background checks may be kept in the files maintained by health care employment agencies and contractors. Health care employment agencies and contractors shall provide a copy of the result of the background checks to the facility or department upon request. (I, II, III)

50.9(12) *Certified nurse aide training program students.* Prior to a student's beginning or returning to a certified nurse aide training program, the program shall either request that the department of public safety perform a criminal history check and that the department of human services perform child and dependent adult abuse record checks of the person in this state, or access the SING to perform the required background check.

a. Prohibition of involvement in clinical education. Except as provided in paragraph 50.9(1)*"b,"* if a student has a criminal record or a record of founded child or dependent adult abuse, the student shall not be involved in a clinical education component of the certified nurse aide training program involving children or dependent adults unless an evaluation has been performed by the department of human services. The evaluation shall be performed upon request of the certified nurse aide training program.

b. Involvement in clinical education component pending evaluation. The training program may provisionally allow the student's participation in the clinical education component of the certified nurse aide training program pending completion of the required record check and evaluation by the department of human services, as applicable, subject to all of the following:

(1) The training program shall have accessed SING to perform the required record check and be awaiting results from SING or awaiting evaluation by the department of human services, as applicable;

(2) If applicable, the training program shall request an evaluation by the department of human services in accordance with paragraph 50.9(12)*"a"* within 30 days of receipt of the SING record check results;

(3) The training program shall have utilized an approved third-party vendor to perform a comprehensive preliminary background check;

(4) If the comprehensive preliminary background check determines that the student being considered for participation has been convicted of a crime, the crime does not constitute a felony as defined in Iowa Code section 701.7 and is not a crime specified pursuant to Iowa Code chapter 708, 708A, 709, 709A, 710, 710A, 711, or 712 or pursuant to Iowa Code section 726.3, 726.7, or 726.8;

(5) The comprehensive preliminary background check shall have determined that the student does not have a record of founded child abuse or dependent adult abuse, or, if the student does have a record of founded child abuse or dependent adult abuse, subrule 50.9(8) is applicable; and

(6) The provisional participation may continue until such time as the required record check through SING and evaluation by the department of human services, as applicable, are completed.

c. Student notification of criminal conviction or founded abuse after performance of record checks and evaluation. If a student is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the record checks and any evaluation have been performed, the student shall inform the certified nurse aide training program of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

(1) The program shall act to verify the information within seven calendar days of notification. "Verify," for purposes of this paragraph, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents. If the information is verified, the program shall follow the requirements of paragraph 50.9(12)*"a"* to determine whether or not the student's involvement in a clinical education component may continue.

(2) The program may allow the student involvement to continue pending the performance of an evaluation by the department of human services.

(3) A student who is required to inform the program of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

(4) The program may notify the county attorney for the county where the program is located of any violation or failure by a student to notify the program of a criminal conviction or entry of an abuse record within the period required by this paragraph.

d. Program receipt of credible information that a student has been convicted of a crime or has a record of founded abuse. If a program receives credible information, as determined by the program, that a student has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after the record checks and any evaluation have been performed, from a person other than the student, and the student has not informed the program of such information within 48 hours, the program shall act to verify the credible information within seven calendar days of receipt of the credible information. "Verify," for purposes of this paragraph, means to access the single contact repository (SING) to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from the department of human services, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents. If the information is verified, the requirements of paragraph 50.9(12)*"a"* shall be applied to determine whether or not the student's involvement in a clinical education component may continue.

e. Completion of a certified nurse aide training program conducted by the health care facility. If a certified nurse aide training program is conducted by the facility and a student of that program accepts and begins employment with the facility within 30 days of completing the program, the background check of the student performed prior to beginning the training program shall fulfill the criminal and abuse background check requirements. The facility shall maintain the proof required in subrule 50.9(11). (I, II, III)

This rule is intended to implement Iowa Code sections 135C.14 and 135C.33.

481—50.10(135C) Inspections, exit interviews, plans of correction, and revisits.

50.10(1) *Frequency of inspection.* The department shall inspect a licensed health care facility at least once within a 30-month period. Facilities participating in the Medicare or Medicaid programs may be inspected more frequently as a part of a joint state and federal inspection.

50.10(2) *Accessibility of records, the facility, and persons.* An inspector of the department may enter any licensed health care facility without a warrant and may examine all records pertaining to the care provided to residents of the facility. An inspector of the department may contact or interview any resident, employee, or any other person who might have knowledge about the operation of a health care facility. The inspector may duplicate records and take photographs as part of the inspection.

50.10(3) *Exit interviews.* The health care facility shall be provided an exit interview at the conclusion of an inspection, and the facility representative shall be informed of all issues and areas of concern related to the deficiencies.

a. Methods of conducting exit interview. The department may conduct the exit interview either in person or by telephone.

b. Second exit interviews. The department shall conduct a second exit interview if any additional areas of concern are identified.

50.10(4) *Submission of additional or rebuttal information.* The facility shall be provided two working days from the date of the exit interview to submit additional or rebuttal information to the department.

a. Receipt of additional information. Additional or rebuttal information must be received by the department within two working days in order to be considered.

b. Methods to submit additional information. The additional or rebuttal information may be submitted via email, facsimile, or overnight courier to the department.

c. Inform of the opportunity to submit additional or rebuttal information. During the inspection, the facility shall be informed of the opportunity to submit additional or rebuttal information and of the contact information for the department.

50.10(5) *Standards for determining whether a deficiency exists.* The department shall use a preponderance of the evidence standard when determining whether a regulatory deficiency exists. For purposes of this rule and rule 481—50.11(135C), "preponderance of the evidence standard" means that the evidence, considered and compared with the evidence opposed to it, produces the belief in a reasonable mind that the allegations or deficiency is more likely true than not true. This standard does not require that the inspector personally witnessed the alleged violation.

50.10(6) *Statement of deficiencies.* When one or more deficiencies are found, a statement of deficiencies detailing each deficiency shall be sent by the department to the health care facility within ten working days of the exit interview.

50.10(7) *Plan of correction.* Within ten calendar days following receipt of the statement of deficiencies, the health care facility shall submit a plan of correction to the department.

a. Contents of plan. The plan of correction shall contain the following information:

(1) How the facility will correct the deficient practice;

(2) How the facility will act to protect residents;

(3) The measures the facility will take or the systems it will alter to ensure that the problem does not recur;

(4) How the facility plans to monitor its performance to make sure that solutions are sustained; and

(5) Date(s) when corrective action will be completed.

b. Review of plan. The department shall review the plan of correction within ten working days of receipt. The department may request additional information or revisions to the plan, which shall be provided as requested.

50.10(8) *Revisits.* If a facility licensed under this chapter is subject to or will be subject to denial of payment including payment for Medicare or medical assistance (Medicaid) under Iowa Code chapter 249A, or denial of payment for all new admissions pursuant to 42 CFR Section 488.417, and submits a plan of correction relating to the deficiencies or a response to a citation issued under 481—Chapter 56 and the department elects to conduct an on-site revisit inspection, the department shall commence the revisit

inspection within the shortest time feasible of the date that the plan of correction is received or the date specified within the plan of correction alleging compliance, whichever is later.

50.10(9) *Appeals of statement of deficiencies.* The facility may appeal the statement of deficiencies by filing an appeal request with the department within 20 working days after receipt of the statement of deficiencies. The procedures defined in rule 481—50.6(10A) shall be followed for the appeal.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10; **ARC 1566C**, IAB 8/6/14, effective 9/10/14]

481—50.11(135C) Complaint and self-reported incident investigation procedure.

50.11(1) *Complaint.* The process for filing a complaint is as follows:

a. Any person with concerns regarding a facility may file a complaint with the Department of Inspections and Appeals, Complaint/Incident Bureau, Lucas State Office Building, Third Floor, 321 E. 12th Street, Des Moines, Iowa 50319-0083; by use of the complaint hotline, 1-877-686-0027; by facsimile sent to (515)281-7106; or through the website address dia-hfd.iowa.gov.

b. When the nature of the complaint is outside the department's authority, the department shall forward the complaint or refer the complainant to the appropriate investigatory entity.

c. The complainant shall include as much of the following information as possible in the complaint: the complainant's name, address and telephone number; the complainant's relationship to the facility or resident; and the reason for the complaint.

d. The complainant's name shall be confidential information and shall not be released by the department.

e. The department shall act on anonymous complaints unless the department determines that the complaint is intended to harass the facility.

f. If the department, upon preliminary review, determines that the complaint is intended as harassment or is without a reasonable basis, the department may dismiss the complaint.

50.11(2) *Self-reported incident.* When the facility is required pursuant to rule 481— 50.7(10A,135C) or other requirements to report an incident, the facility shall make the report to the department via:

a. The web-based reporting tool accessible from the following Internet site, dia-hfd.iowa.gov, under the "Login" tab and then access "Add self report";

b. Mail by sending the self-report to the Department of Inspections and Appeals, Complaint/Incident Bureau, Lucas State Office Building, Third Floor, 321 E. 12th Street, Des Moines, Iowa 50319-0083;

c. The complaint/incident hotline, 1-877-686-0027; or

d. Facsimile sent to (515)281-7106.

50.11(3) *Time frames for investigation of complaint or self-reported incident.* The following guidelines shall be used for determining the time frame in which an on-site inspection of the facility shall be initiated:

a. Immediate jeopardy situation. Within 2 working days for a complaint or self-reported incident determined by the department to be an alleged immediate jeopardy situation. For purposes of this rule, "immediate jeopardy situation" means a situation in which the facility's alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, has caused or is likely to cause, serious injury, harm, impairment, or death to a resident.

b. High-level nonimmediate jeopardy situation. Within 10 days for nursing facilities and within 20 working days for intermediate care facilities and residential care facilities for a complaint or self-reported incident determined by the department to be an alleged high-level nonimmediate jeopardy situation. For purposes of this rule, "high-level nonimmediate jeopardy situation" means the alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, may have caused harm that negatively impacts the resident's mental, physical, or psychosocial status and is of such consequence to the resident's well-being that a rapid response is warranted.

c. Other nonimmediate jeopardy situation. Within 45 calendar days for a complaint or self-reported incident determined by the department to be an alleged nonimmediate jeopardy situation, other than a high-level nonimmediate jeopardy situation. For purposes of this rule, "other nonimmediate jeopardy situation" means a situation that is not a high-level nonimmediate jeopardy situation where the alleged noncompliance with Iowa Code chapter 135C, or rules adopted pursuant thereto, may cause harm of

limited consequence and does not significantly impair the individual's mental, physical, or psychosocial status or function.

d. No inspection of facility-reported incidents. The department may determine not to institute an inspection of a self-reported incident using criteria including, but not limited to, the following:

(1) There is no evident deficiency on the part of the facility, and the facility has taken appropriate measures to address the situation; or

(2) There is a potential deficiency but:

1. The facility has taken appropriate measures to address the situation;

2. The facility does not have a recent history of identified deficiency similar to or related to the incident being reported;

3. A complaint has not been filed regarding the incident being reported; and

4. The resulting injury does not cause a significant negative impact to the resident's quality of life.

50.11(4) *Standard for determining whether a complaint or self-reported incident is substantiated.* The department shall apply a preponderance of the evidence standard in determining whether a complaint or self-reported incident is substantiated.

50.11(5) *Notification of program and complainant.* The department shall notify the facility and, if known, the complainant of the findings of the complaint investigation. The department shall also notify the complainant, if known, if the department does not investigate a complaint, and the reasons for not investigating the complaint shall be included in the notification.

50.11(6) *Process for complaint and self-reported incident.* The department and facility shall follow the process outlined in rule 481—50.10(135C), as applicable, when conducting or responding to a complaint or self-reported incident investigation.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10; **ARC 7035C**, IAB 5/31/23, effective 7/5/23]

481—50.12(135C) Requirements for service. At each inspection, the facility shall provide the most current contact information for the purpose of service of departmental notices. A statement of deficiencies or citation shall be served upon a facility using one of the following methods.

50.12(1) *Electronic mail.* If a facility has electronic mail, electronic mail shall be used for service of statements of deficiencies and citations. If electronic mail is used, the following shall be complied with:

a. The department shall send the electronic message return receipt requested. The response from the return receipt shall officially document receipt of the service and the date of receipt.

b. A facility shall allow the electronic return receipt to be returned to the department and shall not delay the sending of the return receipt.

c. If the department has not received the return receipt within three business days of sending the service via electronic mail, the department shall contact the facility to verify the receipt of the service.

50.12(2) *Certified mail.* If a facility does not have access to electronic mail, the service shall be sent via certified mail, return receipt requested.

50.12(3) *Personal service.* The department may choose to personally serve the notice upon the health care facility by delivering a copy of the statement of deficiencies or citation to the health care facility and presenting the copy to the facility.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10]

481—50.13(135C) Inspectors' conflicts of interest.

50.13(1) *Conflicts.* Any of the following circumstances disqualifies an inspector from inspecting a particular health care facility licensed under Iowa Code chapter 135C:

a. The inspector currently works or, within the past two years, has worked as an employee or employment agency staff at the health care facility, or as an officer, consultant, or agent for the health care facility to be inspected.

b. The inspector has any financial interest or any ownership interest in the facility. For purposes of this paragraph, indirect ownership, such as through a broad-based mutual fund, does not constitute a financial or ownership interest.

c. The inspector has an immediate family member who has a relationship with the facility as described in subrule 50.13(1), paragraphs *"a"* and *"b."*

50.13(2) *Immediate family member.* For purposes of this rule, "immediate family member" means the same as set forth in 42 CFR 488.301, and includes a husband or wife; natural or adoptive parent, child, or sibling; stepparent, stepchild, or stepsibling; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law; or grandparent or grandchild.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10]

These rules are intended to implement Iowa Code sections 22.11 and 135B.3 to 135B.7 and Iowa Code chapters 10A and 135C.

CHAPTER 51
HOSPITALS

[Prior to 12/14/88, see Health Department[470] Ch 51]
[Prior to 8/8/90, see Public Health[641] Ch 51]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/5/29

481—51.1(135B) Definitions. As used in this chapter, unless the context otherwise requires, the following definitions apply:

"Critical access hospital" means any hospital located in a rural area and certified by the Iowa department of health and human services as being a necessary provider of health care services to residents of the area. A "critical access hospital" makes available 24-hour emergency care, is a designated provider in a rural health network, and meets the criteria specified pursuant to rule 481—51.27(135B).

"Governing board" means the board of trustees, the owner, or person(s) designated by the owner as the governing authority. The governing board has supreme authority in the hospital and is responsible for the management, control, and appointment of the medical staff.

"Hospital" or *"general hospital"* means an institution, place, building, or agency represented and held out to the general public as ready, willing and able to furnish care, accommodations, facilities and equipment for the diagnosis or treatment, over a period exceeding 24 hours, of two or more nonrelated individuals suffering from illness, injury, infirmity or deformity, or other physical or mental condition for which medical, surgical and obstetrical care services are provided.

"Long-term acute care hospital" means any hospital that has an average inpatient length of stay greater than 25 days and that provides extended medical and rehabilitative care for patients who are clinically complex and who may suffer from multiple acute or chronic conditions. Services provided by a long-term acute care hospital include but are not limited to comprehensive rehabilitation, respiratory therapy, head trauma treatment, and pain management.

"Medical staff" means an organized body that is composed of individuals appointed by the hospital governing board, that operates under bylaws approved by the governing board and that is responsible for the quality of medical care provided to patients by the hospital. All members of the medical staff, one of whom shall be a licensed physician, shall be licensed to practice in the state of Iowa.

"Premises" means any or all designated portions of a building or structure, enclosures or places in the building, or real estate when the distinct and clearly identifiable parts provide separate care and services. "Premises" is not to be construed to permit the existence of a separately licensed specialty hospital within the physical structure of a general hospital.

"Rural emergency hospital" means the same as defined by Iowa Code section 135B.1.

"Specialized hospital" means any hospital devoted primarily to the specialized care and treatment of persons with chronic or long-term illness, injury, or infirmity. "Specialized hospital" does not include a specialty hospital.

"Specialty hospital" means the same as defined by 42 CFR Section 411.351 as amended to November 7, 2023.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.2(135B) Classification, compliance and license.

51.2(1) All hospitals subject to licensure under this chapter will be classified as a critical access hospital, general hospital, long-term acute care hospital, rural emergency hospital, or specialized hospital. The license issued by the department will clearly identify the classification of the hospital, and such designation will be set forth on the hospital's license.

51.2(2) A hospital shall comply with all of the general regulations for hospitals and any rules pertaining to specialized services, if specialized services are provided in the hospital.

51.2(3) A separate license is required for each hospital even though more than one is operated under the same management. A separate license is not required for separate buildings of a hospital located on separate parcels of land, which are not adjoining but provide elements of the hospital's full range of services for the diagnosis, care, and treatment of human illness, including convalescence and rehabilitation,

and which are organized under a single owner or governing board with a single designated administrator and medical staff.

51.2(4) The license shall be conspicuously posted on the main premises of the hospital.

51.2(5) The department shall recognize, in lieu of its own licensure inspection, the comparable inspections and findings of an accrediting organization approved by the Centers for Medicare and Medicaid Services (CMS) for federal certification if the department is provided with copies of all requested materials relating to the inspection process. In cases of the initial licensure, the department may require its own inspection when needed in addition to comparable accreditations to allow the hospital to begin operations. The department may also initiate its own inspection when it is determined that the inspection findings of the accrediting organization are insufficient to address concerns identified as possible licensure issues.

51.2(6) The department may recognize, in lieu of its own licensure inspection, the comparable inspection and inspection findings of a Medicare conditions of participation survey of a hospital certified by CMS. Hospitals that are not federally certified will be inspected utilizing the requirements of this chapter.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.3(135B) Quality improvement program.

51.3(1) There shall be an ongoing hospitalwide quality improvement program. This program is to be designed to improve, as needed, the quality of patient care by:

a. Assessing clinical patient care;

b. Assessing nonclinical and patient-related services within the hospital;

c. Developing remedial action as needed; and

d. Ongoing monitoring and evaluating of the progress of remedial action taken.

51.3(2) The governing body shall ensure there is an effective hospitalwide patient-oriented quality improvement program.

51.3(3) The quality improvement program shall involve active participation of physician members of the hospital's medical staff and other health care professionals, as appropriate. Evidence of this participation will include ongoing case review and assessment of other patient care problems, which have been identified through the quality improvement process.

51.3(4) The quality improvement plan may include external, state, local, federal, and regional benchmarking activities designed to improve the quality of patient care. The quality improvement plan shall be written and may address the following:

a. The program's objectives, organization, scope, and mechanisms for overseeing the effectiveness of monitoring, evaluation, and problem-solving activities;

b. The participation from all departments, services (including services provided both directly and under contract), and disciplines;

c. An assessment of participation through a quality improvement committee meeting on an established periodic basis;

d. The coordination of quality improvement activities;

e. The communication, reporting and documentation of all quality improvement activities on a regular basis to the governing board, the medical staff, and the hospital administrator;

f. An annual evaluation by the governing board of the effectiveness of the quality improvement program; and

g. The accessibility and confidentiality of materials relating to, generated by or part of the quality improvement process.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.4(135B) Long-term acute care hospital located within a general hospital.

51.4(1) A long-term acute care hospital shall meet the requirements for a general hospital, including emergency services, except that obstetrical facilities are not required, and, if the long-term acute care hospital is located within a separately licensed hospital and does not provide its own emergency services, the long-term acute care hospital shall contract for emergency services with the host general hospital.

51.4(2) If a long-term acute care hospital occupies the same premises of a general hospital, all treatment facilities and administrative offices for each hospital shall be clearly marked and separated from each other and located within the licensed premises of each licensee. Treatment facilities shall be sufficient to meet the medical needs of the patients. Administrative offices include, but are not limited to, record rooms and personnel offices. Nothing prohibits a long-term acute care hospital that is occupying the same premises as a general hospital from utilizing the entrance, hallway, stairs, elevators or escalators of the general hospital to provide access to the long-term acute care hospital's separate entrance, but there should be clearly identifiable and distinguishable signs for each hospital.

51.4(3) A long-term acute care hospital located within a general hospital shall have sufficient staff to meet the patients' needs. No nursing services staff can be simultaneously assigned patient duties in both licensed hospitals.

51.4(4) Each long-term acute care hospital located within a general hospital and the general hospital shall have a separate and distinct governing board in control of the respective hospital. No more than one board member shall serve in a common capacity on the governing board of each licensed hospital. For the purposes of this rule, control exists if an individual or an organization has the power, directly or indirectly, to significantly influence or direct the actions or policies of an organization or institution.

51.4(5) A long-term acute care hospital located within a general hospital may contract with the host general hospital for the provision of services. All contracts shall clearly delineate the responsibilities of and services provided by the long-term acute care hospital and the general hospital and be executed by the respective governing boards.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.5(135B) Medical staff.

51.5(1) A roster of medical staff members shall be kept.

51.5(2) All hospitals shall have one or more licensed physicians designated for emergency call service at all times.

51.5(3) A hospital shall not deny clinical privileges as set forth in Iowa Code section 135B.7(2).

51.5(4) A hospital shall establish and implement written criteria for the granting of clinical privileges that include but are not limited to consideration of the:

a. Ability of the applicant to provide patient care services independently or appropriately in the hospital;

b. License held by the applicant to practice;

c. Training, experience, and competence of the applicant;

d. Relationship between the applicant's request for privileges and the hospital's current scope of patient care services;

e. Applicant's ability to provide comprehensive, appropriate and cost-effective services.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.6(135B) Patient rights and responsibilities. The hospital governing board shall adopt a statement of principles relating to patient rights and responsibilities that is made available to patients of the hospital and addresses, at a minimum:

51.6(1) Access to treatment regardless of age, race, creed, ethnicity, religion, culture, language, physical or mental disability, socioeconomic status, sex, sexual orientation, gender identity or expression, diagnosis, or source of payment for care;

51.6(2) Preservation of individual dignity and protection of personal privacy in receipt of care;

51.6(3) Confidentiality of medical and other appropriate information;

51.6(4) Assurance of reasonable safety within the hospital;

51.6(5) Knowledge of the identity of the physician or other practitioner primarily responsible for the patient's care as well as identity and professional status of others providing services to the patient while in the hospital;

51.6(6) Nature of patient's right to information regarding the patient's medical condition unless medically contraindicated, to consult with a specialist at the patient's request and expense, and to refuse treatment to the extent authorized by law;

51.6(7) Access to and explanation of patient billings;

51.6(8) Process for patient pursuit of grievances; and

51.6(9) Patient responsibilities, including to provide accurate and complete information regarding the patient's health status; to follow recommended treatment plans; to abide by hospital rules and regulations affecting patient care and conduct and be considerate of the rights of other patients and hospital personnel; and to fulfill the patient's financial obligations as soon as possible following discharge.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.7(135B) Abuse.

51.7(1) *Definitions.*

"Abuse" means the willful infliction of injury, unreasonable confinement, intimidation, or punishment, with resulting physical harm, pain or mental anguish. Neglect is a form of abuse and is defined as the failure to provide goods and services necessary to avoid physical harm, mental anguish, or mental illness.

"Child abuse" means the same as defined in Iowa Code section 232.68.

"Dependent adult abuse" means the same as defined in Iowa Code section 235E.1 and 481—Chapter 52.

"Domestic abuse" means the same as defined in Iowa Code section 236.2.

"Elder abuse" means the same as defined in Iowa Code section 235F.1.

"Family or household members" means the same as defined in Iowa Code section 236.2.

51.7(2) *Abuse prohibited.* Each patient shall receive kind and considerate care at all times and shall be free from all forms of abuse or harassment.

a. Restraints shall be applied only when they are necessary to prevent injury to the patient or to others and shall be used only when alternative measures are not sufficient to accomplish their purposes.

b. There must be a written order signed by the attending physician approving the use of restraints either at the time they are applied or as soon thereafter as possible.

c. Careful consideration shall be given to the methods by which the restraints can be speedily removed in case of fire or other emergency.

51.7(3) *Hospital response to elder abuse.*

a. Each hospital shall establish and implement policies and procedures with respect to victims of elder abuse that, at a minimum, provide for:

(1) An interview with the victim in a place that ensures privacy;

(2) Confidentiality of the person's treatment and information; and

(3) Education of appropriate emergency department staff to assist in the identification of victims of elder abuse.

b. The treatment records of victims of elder abuse shall include:

(1) An assessment of the extent of abuse to the victim specifically describing the location and extent of the injury and reported pain;

(2) A record of the treatment and intervention by health care provider personnel;

(3) A record of the need for follow-up care and specification of the follow-up care to be given (e.g., X-rays, surgery, consultation, similar care); and

(4) The victim's statement of how the injury occurred.

51.7(4) *Hospital response to domestic abuse.* Each hospital shall establish and implement policies and procedures with respect to victims of domestic abuse that, at a minimum, meet the requirements of paragraph 51.7(3)*"a,"* and also provide for sharing information regarding the domestic abuse hotline and programs. The treatment records of victims of domestic abuse shall meet the requirements of paragraph 51.7(3)*"b"* and also include evidence that the victim was informed of the telephone numbers for the domestic abuse hotline and domestic abuse programs and the victim's response.

51.7(5) *Mandatory reporting of child abuse and dependent adult abuse.* Each hospital shall establish and implement policies and procedures with respect to the mandatory reporting of abuse pursuant to the Iowa Code. The treatment records of victims of child abuse or dependent adult abuse shall indicate that the department of health and human services' protective services was contacted.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.8(135B) Organ, tissue and eye procurement. Each hospital shall have written policies and protocols for organ, tissue and eye donation consistent with Iowa Code chapter 142C and 42 CFR 482.45 as amended to November 7, 2023, or 42 CFR 485.643 as amended to November 7, 2023.
[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.9(135B) Nursing services.

51.9(1) The hospital shall have an organized nursing service that provides complete and efficient nursing care to each patient. The authority, responsibility and function of each nurse shall be clearly defined.

51.9(2) Registered nurses shall utilize the nursing process in the practice of nursing, consistent with accepted and prevailing practice. The nursing process is ongoing and includes:

a. Nursing assessments about the health status of an individual or group.

b. Formulation of a nursing diagnosis based on analysis of the data from the nursing assessment.

c. Planning of nursing care, which includes determining goals and priorities for actions that are based on the nursing diagnosis.

d. Nursing interventions implementing the plan of care.

e. Evaluation of the individual's or group's status in relation to established goals and the plan of care.

51.9(3) A licensed practical nurse(s) may participate in the nursing process as described in subrule 51.9(2) consistent with accepted practice by assisting the registered nurse or physician.

51.9(4) All nurses employed in a hospital who practice nursing as a registered nurse or licensed practical nurse shall hold an active Iowa license or hold an active license in another state and be recognized for licensure in this state pursuant to the nurse licensure compact in Iowa Code section 152E.1.

51.9(5) There shall be a director of nursing service with administrative and executive competency who holds an active Iowa license or holds an active license in another state and is recognized for licensure in this state pursuant to the nurse licensure compact in Iowa Code section 152E.1.

51.9(6) Nursing management shall have had preparation courses and experience in accordance with hospital policy commensurate with the responsibility of the specific assignment.

51.9(7) All unlicensed personnel performing patient-care service shall be under the supervision of a registered nurse, have duties defined in writing by the hospital, and be instructed in all duties assigned to them.

51.9(8) The nursing service shall have adequate numbers of licensed registered nurses, licensed practical nurses, and other personnel to provide nursing care essential for the proper treatment, well-being, and recovery of the patient.

51.9(9) Written policies and procedures shall be established for the administrative and technical guidance of the personnel in the hospital. Each employee shall be familiar with these policies and procedures.

51.9(10) Each hospital shall have a minimum of one registered nurse on duty at all times.
[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.10(135B) Records and reports.

51.10(1) *Medical records.* Accurate and complete medical records shall be maintained for all patients and signed by the appropriate provider. These records shall be filed and stored in an accessible manner and in accordance with the statute of limitations as specified in Iowa Code chapter 614.

51.10(2) *Hospital records.* A hospital shall maintain the following records:

a. Admission records. A register of all admissions to the hospital.

b. Death records. A record of all deaths in the hospital, including all information on a standard death certificate as specified in Iowa Code chapter 144.

c. Birth records. A record of all births in the hospital, including all information on a standard birth certificate as specified in Iowa Code chapter 144.

d. Controlled substance records. Controlled substance records in accordance with state and federal laws, rules and regulations.

51.10(3) *Electronic records.* In addition to the access provided in 481—subrule 50.10(2), an authorized representative of the department shall be provided unrestricted access to electronic records pertaining to the care provided to the patients of the hospital.

a. If access to an electronic record is requested by the authorized representative of the department, the hospital may provide a tutorial on how to use its particular electronic system or may designate an individual who will, when requested, access the system, respond to any questions or assist the authorized representative as needed in accessing electronic information in a timely fashion.

b. The hospital shall provide a terminal where the authorized representative may access records.

c. If the hospital is unable to provide direct print capability to the authorized representative, the hospital shall make available a printout of any record or part of a record on request in a time frame that does not intentionally prevent or interfere with the department's survey or investigation.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.11(135B) Pharmaceutical service.

51.11(1) *General requirements.* Hospital pharmaceutical services shall be licensed in accordance with Iowa board of pharmacy rules.

51.11(2) *Medication administration.* All drugs and biologicals must be administered by, or under the supervision of, nursing or other trained personnel in accordance with hospital policies and procedures. The person assigned the responsibility of medication administration must complete the entire procedure by personally preparing the dose from a multiple-dose container or using a prepackaged unit dose, personally administering it to the patient, and observing the act of the medication being taken.

51.11(3) *Standing orders.* Standing orders for drugs may be used for specified patients when authorized by the prescribing practitioner. These standing orders shall be in accordance with policies and procedures established by the appropriate committee within each hospital. At a minimum, the standing orders shall:

a. Specify the clinical situations under which the drug is to be administered;

b. Specify the types of medical conditions of the patients for whom the standing orders are intended;

c. Be reviewed and revised by the hospital's pharmacy and therapeutics or similar committee on a regular basis as specified by hospital policies and procedures;

d. Be specific as to the drug, dosage, route, and frequency of administration; and

e. Be dated, authorized by signature or other secure electronic method by the prescribing practitioner within a period not to exceed 30 days following a patient's discharge, and included in the patient's medical record.

51.11(4) *Self-administration of medications.* Patients shall only be permitted to self-administer medications when specifically ordered by the prescribing practitioner and the prescribing practitioner has determined this practice is safe for the specific patient. The hospital shall develop policies and procedures regarding storage and documentation of the administration of drugs.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.12(135B) Verbal orders. All verbal orders must be authenticated by the prescribing or ordering practitioner within a period not to exceed 30 days following a patient's discharge. When verbal or electronic mechanisms are used to transmit orders, the orders must be accepted only by personnel who are authorized to do so by hospital policies and procedures in a manner consistent with federal and state law.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.13(135B) Radiological services.

51.13(1) The hospital must maintain, or have available, radiological services to meet the needs of the patients.

51.13(2) All radiological services shall be furnished in compliance with any applicable state law or state rules, including 641—Chapters 38 through 42.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.14(135B) Laboratory service.

51.14(1) The hospital must maintain, or have available, adequate laboratory and pathology services and facilities to meet the needs of its patients. The medical staff determine which laboratory tests are necessary to be performed on site to meet the needs of the patients.

51.14(2) Emergency laboratory services must be available 24 hours a day.

51.14(3) Laboratory services must be performed in a laboratory certified and operating in accordance with 42 CFR Part 493 as amended to November 7, 2023.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.15(135B) Food and nutrition service.

51.15(1) *Food and nutrition service definitions.* "Food service" means providing safe, satisfying, and nutritionally adequate food for patients through the provision of appropriate staff, space, equipment, and supplies. "Nutrition service" means providing assessment and education to ensure that the nutritional needs of the patients are met.

51.15(2) *General requirements.*

a. All food will be handled, prepared, served, and stored in accordance with the Food Code adopted under provisions of Iowa Code section 137F.2.

b. The food and dietetic services shall be of a quality and quantity to meet the patient's needs in accordance with any qualified health practitioner's orders and meet the standards set forth in 42 CFR 482.28 as amended to November 7, 2023. Patient food preferences should be respected as much as possible, and substitutes offered through use of appropriate food groups.

c. Policies and procedures shall be developed and maintained.

d. Not less than three meals will be served daily unless contraindicated, and not more than 14 hours will elapse between the evening meal and breakfast of the following day. Nourishment between meals will be available to all patients unless contraindicated by the qualified health care practitioner.

e. The hospital will maintain adequate space, equipment, and staple food supplies to provide patient food service in emergencies.

f. Menus for regular and therapeutic diets will be available and standardized recipes with nutritional analysis adjusted to number of portions will be maintained and used in food preparation.

g. Food shall be prepared by methods that conserve nutritive value, flavor, and appearance. Food shall be served attractively at appropriate and safe temperatures and in a form to meet individual needs.

h. Nutrition screening will be conducted by qualified hospital staff to determine the patient's need for a comprehensive nutrition assessment by the licensed dietitian. Nutritional care will be integrated in the patient care plan, as appropriate, based upon the patient's diagnosis and length of stay. The licensed dietitian will record in the patient's medical record any observations and information pertinent to medical nutrition therapy, and any pertinent dietary records will be included in the patient's transfer discharge record to ensure continuity of nutritional care. Upon discharge, nutrition counseling and education will be provided to the patient and family as ordered by the qualified health care practitioner, requested by the patient or deemed appropriate by the licensed dietitian.

i. In-service training, in accordance with hospital policies, will be provided for all food and nutrition service personnel.

j. On the nursing units, a separate patient food storage area will be maintained that ensures proper temperature control.

51.15(3) *Food and nutrition service staff.*

a. A licensed dietitian will be employed on a full-time, part-time or consulting basis, with any part-time or consultant services provided on the premises at appropriate times on a regularly scheduled basis. These services shall be of sufficient duration and frequency to provide continuing liaison with medical and nursing staff, advice to the administrator, patient counseling, guidance to the supervisor and staff of the food and nutrition service, approval of all menus, and participation in the development or revision of departmental policies and procedures and in planning and conducting in-service education programs.

b. If a licensed dietitian is not employed full-time, then one must be employed on a part-time or consultation basis with an additional full-time person who has completed a certified dietary manager course and is employed to be responsible for the operation of the food service.

c. Sufficient food service personnel will be employed, oriented, trained, and their working hours scheduled to provide for the nutritional needs of the patients and to maintain the food service areas.

51.15(4) *Food service equipment and supplies.* Equipment necessary for preparation and maintenance of menus, records, and references will be provided. At least one week's supply of staple foods and a reasonable supply of perishable foods shall be maintained on the premises. Supplies will be appropriate to meet the requirements of the menu.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.16(135B) Equipment for patient care. Hospital equipment shall be selected, maintained and utilized in accordance with the manufacturer's specifications and the needs of the patients.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.17(135B) Infection control. There shall be proper policies and procedures for the prevention and control of communicable diseases, including compliance with the current rules for the control of communicable disease as provided by the Iowa department of health and human services and current Centers for Disease Control and Prevention (CDC) guidelines for isolation precautions.

51.17(1) *Segregation.* There shall be proper arrangement of areas, rooms and patients' beds to provide for the prevention of cross-infections and the control of communicable diseases. There shall also be proper cleansing of rooms and surgeries immediately following the care of a communicable case and utilization of proper isolation techniques for patients and staff to prevent cross-infection.

51.17(2) *Visitors.* The hospital shall establish proper policies and procedures for the control of visitors to all services in the hospital.

51.17(3) *Health assessments.* Health assessments for all contracted or employed personnel who provide direct services shall be required at the commencement of employment and thereafter at least every four years.

a. "Direct services" means services provided through person-to-person contact. "Direct services" excludes services provided by individuals such as building contractors, repair workers, or others who are in the hospital for a very limited purpose, who are not in the hospital on a regular basis, and who do not provide any treatment or services for the patients of the hospital.

b. The health assessment may be performed by the person's primary care provider.

c. The health assessment shall include, at a minimum, vital signs and an assessment for infectious or communicable diseases.

d. Screening and testing for tuberculosis shall be conducted pursuant to 481—Chapter 59.

51.17(4) *Notification.* Prior to removal of a deceased resident/patient from a facility, the funeral director or person responsible for transporting the body shall be notified by the facility staff of any special precautions that were followed by the facility having to do with the mode of transmission of a known or suspected communicable disease.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.18(135B) Surgical services. All hospitals providing surgical services shall be properly organized and equipped to provide for the safe and aseptic treatment of surgical patients.

51.18(1) Written policies and procedures governing surgical services shall be developed and implemented in consultation with the hospital's medical staff and, at a minimum, provide for:

a. Surgical services under the direction of a qualified doctor of medicine or osteopathy.

b. Delineation of the privileges and qualifications of individuals authorized to provide surgical services as set forth in the hospital's medical staff bylaws and in accordance with subrule 51.5(4), including a periodic review and update of surgical privileges not to exceed every three years or other term permitted by an accrediting organization approved by CMS for federal certification, whichever is longer. The surgical service must maintain a roster of these individuals specifying the surgical privileges of each.

c. Immediate availability of at least one registered nurse for the operating room suites to respond to emergencies.

d. The qualifications and job descriptions of nursing personnel, surgical technicians, and other support personnel and continuing education required.

e. Appropriate staffing for surgical services, including physician and anesthesia coverage and other support personnel.

f. Availability of ancillary services for surgical patients, including but not limited to blood banking, laboratory, radiology, and anesthesia.

g. Infection control and disease prevention, including aseptic surveillance and practice, identification of infected and noninfected cases, sterilization and disinfection procedures, and ongoing monitoring of infections and infection rates.

h. Housekeeping requirements.

i. Safety practices.

j. Ongoing quality assessment, performance improvement, and process improvement.

k. The pathological examination of tissue specimens either directly or through contractual arrangements.

l. Appropriate preoperative teaching and discharge planning.

51.18(2) Policies and procedures may be adjusted as appropriate to reflect the provision of surgical services in inpatient, outpatient or one-day surgical settings.

51.18(3) There must be an appropriate history and physical workup documented and a properly executed consent form in the chart of each patient prior to surgery, except in the event of an emergency.

51.18(4) A full operative report must be written or dictated within 24 hours following surgery and signed by the individual conducting the surgery.

51.18(5) Equipment available in the operating room, recovery room, outpatient surgical areas, and for postsurgical care must be consistent with the needs of the patient.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.19(135B) Anesthesia services.

51.19(1) There shall be written policies and procedures governing anesthesia services that are consistent with the needs and resources of the hospital. Written policies and procedures governing anesthesia services shall be developed and implemented in consultation with and with the approval of the hospital's medical staff and, at a minimum, provide for:

a. Anesthesia services under the direction of a qualified doctor of medicine or osteopathy.

b. The qualifications of individuals authorized to administer anesthesia as set out in the hospital's medical staff bylaws or medical staff rules and regulations.

c. Preanesthesia evaluation, appraisal of a patient's current condition, preparation of an intraoperative anesthesia record, and discharge criteria for patients.

d. Equipment functioning and safety, including ensuring that a qualified medical doctor, osteopathic physician and surgeon or anesthetist checks, prior to the administration of anesthesia, the readiness, availability, cleanliness, and working condition of all equipment to be used in the administration of anesthetic agents and minimizing electrical hazard in anesthesia areas.

e. Quality assurance, including infection control procedures; integration of anesthesia services into various areas of the hospital; and ongoing monitoring, review, and evaluation of anesthesia services, processes, and procedures.

51.19(2) Policies and procedures may be adjusted as appropriate to reflect provision of anesthesia services in inpatient or outpatient settings.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.20(135B) Emergency services.

51.20(1) All hospitals shall provide for emergency services that offers reasonable care within the medical capabilities of the facility in determining whether an emergency exists, renders care appropriate to the facility and, at a minimum, renders lifesaving first aid and makes appropriate referral to a facility that is capable of providing needed services.

51.20(2) The hospital shall have written policies and procedures specifying the scope and conduct of patient care to be provided in the emergency service. The policies shall:

a. Provide for training of all personnel providing patient care in the emergency service.

b. Require that a medical record be kept on every patient given treatment in the emergency service and establish the medical record documentation. The documentation should include, at a minimum, appropriate information regarding the medical screening provided, except where the person refuses, then notation of patient refusal; physician documentation of the presence or absence of an emergency medical condition or active labor; physician documentation of transfer or discharge, stating the basis for transfer or discharge; and, where transfer occurs, identity of the facility of transfer, acceptance of the patient by the facility of transfer, and means of transfer of the patient.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.21(135B) Obstetric and neonatal services. All hospitals providing obstetrical care shall be properly organized and equipped to provide accommodations for mothers and newborn infants. The supervision of the maternity area shall be under the direction of a qualified registered nurse.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.22(135B) Pediatric services. All hospitals providing pediatric care shall be properly organized and equipped to provide appropriate accommodations for children. The supervision of the pediatric area shall be under the direction of a qualified registered nurse.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.23(135B) Psychiatric services.

51.23(1) *General requirements.* Any hospital operating as a psychiatric hospital or operating a psychiatric unit shall:

a. Be a hospital or unit primarily engaged in providing, by or under the supervision of a doctor of medicine or osteopathy, psychiatric services for the diagnosis and treatment of persons with psychiatric illnesses/disorders;

b. Comply with the requirements of this chapter applicable to hospitals. If medical and surgical diagnostic and treatment services are not available within the hospital, the hospital shall have an agreement with an outside source of these services to ensure they are immediately available;

c. Have policies and procedures for informing patients of their rights and responsibilities and for ensuring the availability of a patient advocate; and

d. Have sufficient numbers of qualified professionals and support staff to evaluate patients, formulate written individualized comprehensive treatment plans, provide active treatment measures, and engage in discharge planning.

51.23(2) *Personnel.*

a. Director of inpatient psychiatric services. The director of inpatient psychiatric services shall be a doctor of medicine or osteopathy qualified to meet the training and experience requirements for examination by the American Board of Psychiatry and Neurology or the American Osteopathic Board of Neurology and Psychiatry.

b. Director of psychiatric nursing services. The director of psychiatric nursing services shall:

(1) Be a registered nurse who has a master's degree in psychiatric or mental health nursing;

(2) Be an advanced registered nurse practitioner certified in psychiatric or mental health nursing; or

(3) Be qualified by education and two years' experience in the care of persons with mental disorders.

c. Psychological services. Psychological services shall be provided or available that are in compliance with Iowa Code chapter 154B.

d. Social services. Social services shall provide, or have available by contract, at least one staff member who has:

(1) A master's degree from an accredited school of social work; or

(2) A bachelor's degree in social work with two years' experience in the care of persons with mental disorders.

e. *Therapeutic services.* Therapeutic activities shall be provided by qualified therapists. The activities shall be appropriate to the needs and interests of the patients.

51.23(3) *Individual written plan of care.* An individual written plan of care shall be developed by an interdisciplinary team of a physician and other personnel who are employed by, or who provide service under contract to patients in, the facility. The plan of care shall:

a. Be based on a diagnostic and psychiatric evaluation that includes examination of the medical, psychological, social, behavioral, and developmental aspects of the patient. The initial diagnostic and psychiatric evaluation shall be completed within 60 hours of admission;

b. Be developed by an interdisciplinary team in consultation with the patient, the patient's legal guardian, and others who are currently providing services or who will provide care upon discharge;

c. State treatment objectives through measurable and obtainable outcomes;

d. Prescribe an integrated program of therapies, activities, and experiences designed to meet those objectives;

e. Include an appropriate postdischarge plan with coordination of services to provide continuity of care following discharge; and

f. Be reviewed as needed by the interdisciplinary team for the continued appropriateness of the plan and for a determination of needed changes.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.24(135B) Long-term care service.

51.24(1) *Long-term care service definition.* Long-term care service means any building or distinct part of a building utilized by the hospital for the provision of a service that would fall within the definition of a health care facility in Iowa Code chapter 135C if it was not operating as part of a hospital licensed under Iowa Code chapter 135B.

51.24(2) *Long-term care service general requirements.* The general requirements for the hospital's long-term care service are the same as required by Iowa Code chapter 135C or rules promulgated thereunder for the category of health care facility involved. Exceptions to those rules requiring distinct parts to be established may be waived where it is found to be in the best interest of the long-term care resident and of no detriment to the patients in the hospital. Requests for waivers to other applicable rules may be made in accordance with the appropriate health care facility rules.

51.24(3) *Long-term care service staff.* Where a hospital operates a freestanding nursing care facility, it shall be under the administrative authority of a licensed nursing home administrator who will be responsible to the hospital's administrator. Where a hospital operates a distinct part long-term care unit under the hospital license, a licensed nursing home administrator is not required. Other staffing requirements for the hospital's long-term care service are the same as required by Iowa Code chapter 135C or rules promulgated thereunder.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.25(135B) Criminal, dependent adult abuse, and child abuse record checks. The requirements for criminal, dependent adult abuse, and child abuse records checks applicable to health care facilities set forth in rule 481—50.9(135C) are applicable to hospitals.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.26(135B) Minimum standards for construction.

51.26(1) *Minimum standards.* The following construction standards are applicable to hospitals and off-site premises licensed under this chapter:

a. Construction shall be in accordance with the standards set forth in the Guidelines for Design and Construction of Hospitals, 2018 edition, published by the Facility Guidelines Institute.

b. Existing hospitals and off-site premises built in compliance with prior editions of the hospital construction guidelines will be deemed in compliance with subsequent regulations, with the exception of any new structural renovations, additions, functional alterations, or changes in utilization to existing facilities, which shall meet the standards specified in this subrule.

c. The design and construction of a hospital or off-site premises shall be in conformance with 661—Chapter 205.

d. In jurisdictions without a local building code enforcement program, the construction shall be in conformance with the state building code, as authorized by Iowa Code section 103A.7, in effect at the time of plan submittal for review and approval. In jurisdictions with a local building code enforcement program, local building code enforcement must include both the adoption and enforcement of a local building code through plan reviews and inspections.

e. If an applicable requirement of 661—Chapter 205 is inconsistent with an applicable requirement of the state building code, the hospital or off-site premises is deemed to be in compliance with the state building code requirement if the requirement of 661—Chapter 205 is met.

51.26(2) *Submission of construction documents.* Submissions shall comply with rule 661—300.4(103A). The responsible design professional shall certify that the building plans meet the requirements specified in subrule 51.26(1), unless a waiver has been granted pursuant to subrule 51.26(3).

51.26(3) *Waivers.* Requests for waiver may be submitted to the department in accordance with 7—Chapter 2504. Any waiver granted is limited to the specific project under consideration and does not establish a precedent for similar acceptance in other cases. The request must demonstrate how patient safety and the quality of care offered will not be compromised by the waiver. In determining whether a waiver request will be granted, the director will consider the following:

a. Whether the design and planning for the specific property offers improved or compensating features to provide equivalent desirability and utility;

b. Whether alternate or special construction methods, techniques, and mechanical equipment offer equivalent durability, utility, health, and safety;

c. Whether the health, safety or welfare of any patient is endangered;

d. Occupancy and function of the building; and

e. The type of licensing.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24; Editorial change: IAC Supplement 8/5/26]

481—51.27(135B) Critical access hospitals. Critical access hospitals shall meet the federal conditions of participation as a critical access hospital as described in 42 CFR Part 485, Subpart F, as amended to November 7, 2023, and any federal interpretive guidelines. The requirements of this chapter applicable to hospitals are generally applicable to critical access hospitals unless compliance would be inconsistent with 42 CFR Part 485, Subpart F, as amended to November 7, 2023, and any interpretive guidelines. If swing-bed approval has been granted, all 25 beds may be used interchangeably for acute or skilled nursing facility level of care services.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.28(135B) Rural emergency hospitals. Rural emergency hospitals shall meet the federal conditions of participation for rural emergency hospitals, as set forth in 42 CFR Part 485, Subpart E, as amended to January 1, 2023, and any federal interpretive guidelines. The requirements of this chapter applicable to hospitals are generally applicable to rural emergency hospitals unless compliance would be inconsistent with 42 CFR Part 485, Subpart E, as amended to January 1, 2023, and any federal interpretive guidelines.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

481—51.29(135B) Specialized hospitals. A specialized hospital shall meet the requirements for a general hospital. The diagnosis, treatment or care at a specialized hospital shall be administered by or performed under the direction of persons especially qualified in the diagnosis and treatment of the particular illness, injury, or infirmity.

[**ARC 7887C**, IAB 5/1/24, effective 6/5/24]

These rules are intended to implement Iowa Code sections 135B.3A, 135B.7 and 135B.7A.

CHAPTER 52
DEPENDENT ADULT ABUSE IN FACILITIES AND PROGRAMS

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/18/30

481—52.1(235E) Definitions. The definitions set forth in Iowa Code section 235E.1 are incorporated herein by reference. For purposes of this chapter, unless the context otherwise requires, the following definitions apply:

"Caretaker" means a person who is a staff member of a facility or program who provides care, protection, or services to a dependent adult voluntarily, by contract, through employment, or by order of the court. For the purpose of an allegation of exploitation, if the caretaker-dependent adult relationship started when a staff member was employed in the facility, the staff member may be considered a caretaker after employment is terminated.

"Dependent adult abuse" means any of the following as a result of the willful misconduct or gross negligence or reckless act or omission of a caretaker, taking into account the totality of the circumstances: physical injury, unreasonable confinement, unreasonable punishment, assault, sexual offense, sexual exploitation, exploitation, neglect, or personal degradation.

"Gross negligence" means an act or omission that signifies more than ordinary inadvertence or inattention, but less than conscious indifference to consequences; and, in other words, means an extreme departure from the ordinary standard of care.

"Immediately," for purposes of mandatory reporters' reporting of suspected dependent adult abuse, means within 24 hours.

"Inspector" means a surveyor or investigator with the department or any department designee.

"Misappropriates" means taking unfair advantage of or wrongfully or dishonestly exercising control over property.

"Physical injury" means a physical injury, or injury that is at a variance with the history given of the injury, which involves a breach of skill or care or learning ordinarily exercised by a caretaker in similar circumstances. "Physical injury" includes damage to any bodily tissue to the extent that the tissue must undergo a healing process in order to be restored to a sound and healthy condition, damage to any bodily tissue to the extent that the tissue cannot be restored to a sound and healthy condition, or damage to any bodily tissue that results in the death of the person who has sustained the damage.

"Registry" means the central registry for dependent adult abuse information established in Iowa Code section 235B.5.

"Report" means a verbal or written statement, made to the department, that alleges that dependent adult abuse has occurred.

"Resident" means a resident of a health care facility as defined in Iowa Code chapter 135C, a patient in a hospital as defined in Iowa Code chapter 135B, a tenant of an assisted living program as defined in Iowa Code chapter 231C, a tenant in an elder group home as defined in Iowa Code chapter 231B, or a participant in an adult day services program as defined in Iowa Code chapter 231D.

"Sexual exploitation" means any consensual or nonconsensual sexual conduct with a dependent adult by a caretaker whether within a facility or program or at a location outside of a facility or program. "Sexual exploitation" includes but is not limited to:

1. Kissing;
2. Touching of the clothed or unclothed breast, groin, buttock, anus, pubes, or genitals;
3. A sex act as defined in Iowa Code section 702.17;
4. The transmission, display or taking of electronic images of the unclothed breast, groin, buttock, anus, pubes, or genitals of a dependent adult by a caretaker for a purpose not related to treatment, care, monitoring, assessment or diagnosis or as part of an ongoing evaluation or investigation.

"Sexual exploitation" does not include touching that is part of a necessary examination, treatment, or care by a caretaker acting within the scope of the practice or employment of the caretaker; the exchange of a brief touch or hug between the dependent adult and a caretaker for the purpose of reassurance, comfort, or casual friendship; or touching between spouses or domestic partners in an intimate relationship.

"Sexual offense" means the commission of a sexual offense under Iowa Code chapter 709 or Iowa Code section 726.2 with or against a dependent adult.

"Staff member" means an individual who provides direct or indirect treatment or services to residents in a facility or program. Specifically included in the definition of "staff member" is an employee, health care employment agency worker, or other independent contractor who otherwise meets the definition. Direct treatment or services include those provided through person-to-person contact. Indirect treatment or services include those provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance. Specifically excluded from the definition of "staff member" are individuals such as part-time volunteers, building contractors, repair workers or others who are in a facility or program for a very limited purpose, are not in the facility or program on a regular basis, or do not provide any treatment or services to the residents of the facility or program.

"Unreasonable confinement" means confinement that includes but is not limited to the use of restraints, either physical or chemical, for the convenience of staff. "Unreasonable confinement" does not include the use of confinement and restraints if the methods are employed in conformance with state and federal standards governing confinement and restraint or as authorized by a physician or physician extender.

"Unreasonable punishment" means a willful act or statement intended by the caretaker to punish, agitate, confuse, frighten, or cause emotional distress to the dependent adult. Such willful act or statement includes but is not limited to intimidating behavior, threats, harassment, deceptive acts, or false or misleading statements.

"Willful misconduct" means an intentional act of unreasonable character committed with disregard for a known or obvious risk that is so great as to make it highly probable that harm will follow.

[**ARC 9270C**, IAB 5/14/25, effective 6/18/25]

481—52.2(235E) Reporting.

52.2(1) The following persons shall report suspected dependent adult abuse in accordance with subrule 52.2(2):

a. A staff member. Specifically excluded from the definition of "staff member" only for purposes of the requirements set forth in this subrule are individuals who have no contact or de minimis contact with residents in a facility or program.

b. Entities as set forth in 481—Chapter 55.

52.2(2) Reporting procedures include the following:

a. If a staff member or employee is required to make a report pursuant to this rule, the staff member or employee shall immediately notify the person in charge or the person's designated agent, who shall then notify the department within 24 hours of such notification or the next business day.

b. If the person in charge is the alleged perpetrator of dependent adult abuse, the staff member shall directly report the abuse to the department within 24 hours or the next business day.

c. Nothing prevents any person from notifying the department directly of suspected abuse.

d. The employer or supervisor of a person who is required to or may make a report pursuant to this rule shall not apply a policy, work rule, or other requirement that interferes with the person making a report of dependent adult abuse or that results in the failure of another person to make the report.

e. When the person making the report has reason to believe that immediate protection for the dependent adult is advisable, that person should also immediately make an oral report to an appropriate law enforcement agency.

f. A report of suspected dependent adult abuse should contain as much of the following information as possible:

(1) The date and time of the incident;

(2) The name, date of birth and diagnoses of the dependent adult;

(3) Whether the dependent adult sustained an injury and, if yes, whether photographs of the injury were taken;

(4) The nature and extent of the dependent adult abuse, including evidence of previous dependent adult abuse allegations;

(5) A list of the staff members working at the time of the incident, including each staff member's full name, title, date of birth, address and telephone number;

(6) The full name, title, date of birth, social security number, address, and telephone number of the alleged perpetrator of dependent adult abuse;

(7) Other information that might be helpful in establishing the cause of the abuse, establishing the identity of the person or persons responsible for the abuse, or providing assistance to the dependent adult; and

(8) The name, address, and telephone number of the person making the report.

52.2(3) A report will be accepted whether or not it contains all of the information requested. When the report is made to any agency other than the department, that agency will promptly refer the report to the department.

52.2(4) A person required to report abuse who knowingly and willfully fails to do so within 24 hours may be subject to criminal penalties and civil liability as provided for by statute.

52.2(5) Interference with a person required to report.

a. It is unlawful for any person or employer to discharge, suspend, or otherwise discipline a person for any of the following:

(1) Reporting suspected dependent adult abuse;

(2) Cooperating with or assisting the department in evaluating a report or investigating a case of dependent adult abuse; or

(3) Participating in judicial proceedings relating to dependent adult abuse.

b. A person in violation of this subrule may be guilty of a simple misdemeanor.

[**ARC 9270C**, IAB 5/14/25, effective 6/18/25]

481—52.3(235E) Reports and central registry.

52.3(1) *Receipt and evaluation of reports.* The department receives and evaluates reports of dependent adult abuse in facilities and programs. Upon receipt of a report, the department will conduct an intake sufficient to determine whether the allegation constitutes dependent adult abuse.

52.3(2) *Central registry.* The department will inform the department of health and human services of such evaluations and dispositions for inclusion in the central registry for dependent adult abuse information pursuant to Iowa Code section 235B.5.

52.3(3) *Reports to and from the department of health and human services.* The department will transfer any reports received of dependent adult abuse in the community to the department of health and human services.

52.3(4) *Reports that are minor, isolated, and unlikely to reoccur.*

a. First instance. A report of dependent adult abuse that meets the definition of "dependent adult abuse" as defined in Iowa Code section 235E.1(5)*"a"*(1)(a) or (d), or section 235E.1(5)*"a"*(3), which the department determines is minor, isolated, and unlikely to reoccur shall be collected and maintained by the department of health and human services for a five-year period, shall not be included in the central registry, and shall not be considered founded dependent adult abuse.

b. Subsequent instance(s). A subsequent report of dependent adult abuse that meets the definition of "dependent adult abuse" as defined in Iowa Code section 235E.1(5)*"a"*(1)(a) or (d), or section 235E.1(5)*"a"*(3), that occurs within the five-year period, and that is committed by the same caretaker may also be considered minor, isolated, and unlikely to reoccur, depending on the totality of circumstances.

c. Retention. All initial and subsequent reports are collected and maintained by the department of health and human services until a five-year period has expired, so long as no additional reports have been filed.

[**ARC 9270C**, IAB 5/14/25, effective 6/18/25]

481—52.4(235E) Separation mandatory. Upon receipt of a report of alleged dependent adult abuse in a facility or program, the facility or program shall separate the victim and the alleged perpetrator of dependent adult abuse immediately and maintain that separation until the department's abuse investigation is completed and the abuse determination is made.

NOTE: Facilities that participate in the federal Medicare or Medicaid program may be subject to additional federal requirements regarding separation.

[**ARC 9270C**, IAB 5/14/25, effective 6/18/25]

481—52.5(235E) Interviews, examination of evidence, and investigation.

52.5(1) *Entering and examination of evidence.* An inspector of the department may enter any facility or program without a warrant and may examine all records and items pertaining to residents, employees, former employees, and the alleged perpetrator of dependent adult abuse and any other records and items necessary to ensure the integrity of the investigation unless the record or item is protected by some other legal privilege.

52.5(2) *Interviews.*

a. An inspector of the department may contact or interview any resident, employee, former employee, or any other person who may have knowledge about the alleged dependent adult abuse.

b. An alleged perpetrator of dependent adult abuse may request to have an attorney present at the alleged perpetrator's own expense at any time during the interview, but the request may not unreasonably delay the investigation. An employee organization representative or union representative may observe an investigative interview conducted by the department of an alleged perpetrator of dependent adult abuse if all of the conditions set forth in Iowa Code section 235E.2(13)*"a"* are met.

The purpose of the interview is a civil administrative dependent adult abuse investigation under applicable law.

52.5(3) *Photographs.* An inspector may take or cause to be taken photographs of the dependent adult abuse victim and the vicinity involved in accordance with Iowa Code section 235E.2(12).

52.5(4) *Evaluating information.* The department will consider the information as reported, other known or discovered information, and any information gathered as a result of the inspector's contact with collateral sources, including prior abuse allegations and disciplinary actions.

[**ARC 9270C**, IAB 5/14/25, effective 6/18/25]

481—52.6(235E) Notification to subsequent employers. The department will notify a facility or program that subsequently employs a founded dependent adult abuser in accordance with Iowa Code section 235E.2(11).

[**ARC 9270C**, IAB 5/14/25, effective 6/18/25]

These rules are intended to implement Iowa Code chapter 235E.

CHAPTER 53
HOSPICE LICENSE STANDARDS

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—53.1(135J) Definitions. The use of the word "shall" indicates mandatory standards. The definitions set out in Iowa Code section 135J.1 shall be considered to be incorporated verbatim in the rules. As used in this chapter:

"Bereavement service" is emotional, psychosocial, and spiritual support and services provided before and after the death of the patient to assist with issues related to grief, loss, and adjustment.

"Care setting" means the place in which care is being given, for example, patient's home, a hospital, a care facility or another place of residence.

"Family" means the immediate kin of the patient, including a spouse, parent, stepparent, brother, sister, stepbrother, stepsister, child, or stepchild. Additional relatives or individuals with significant personal ties to the hospice patient may be included in the hospice patient's family.

"Home care provider" means a care agency that contracts with the hospice to provide services in the home of the hospice patient. The providers may include, but are not limited to, hospice aides, homemakers, nurses, occupational therapists or physical therapists.

"Primary caregiver" means the person with major responsibility for providing care to a hospice patient.

"Protocols" are defined as written sets of directions to be followed in performing procedures. These may be routine or may describe specific actions staff must follow when particular events occur.

"Psychosocial needs" involve a person's mental and emotional life related to behavior to other people.

"Social services" are services provided by someone who has a bachelor's or higher degree in social work.

"Spiritual counselor" may be clergy, a hospice employee, a volunteer or someone chosen by the patient.

"Utilization review" means a program to assess the kind of care delivered and to identify needs which may not have been met.

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.2(135J) License. Application for an initial or renewal license may be obtained from the Department of Inspections and Appeals, Division of Health Facilities, Lucas State Office Building, Des Moines, Iowa 50319.

53.2(1) Prior to the issuance of a license each hospice must meet all the requirements set forth in this chapter.

53.2(2) The applicant shall submit a nonrefundable biennial license fee of $500. If a license lapses for failure to make timely application for renewal, an additional 25 percent is required.

53.2(3) Each hospice seeking licensure is surveyed before the initial license is issued and at least every 36 months thereafter.

53.2(4) Home care provider and inpatient facilities used by the hospice shall be inspected by the department to determine whether hospice regulations are met.

53.2(5) Hospices certified as Medicare providers by the department or accredited by an organization approved by the Centers for Medicare and Medicaid Services for federal certification will be licensed without inspection.

53.2(6) The department may not prohibit any entity from establishing or maintaining a hospice without a license.

53.2(7) The department may deny, suspend or revoke a license if the department finds that a hospice does not comply with these rules.

53.2(8) A license is issued only for the premises, person, hospital or facility named on the application. The license may not be transferred or assigned to another person or entity.

53.2(9) A license expires two years after the date issued unless it is suspended or revoked before that date.

This rule is intended to implement Iowa Code sections 135J.2 and 135J.4 to 135J.6.
[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.3(135J) Patient rights. Each hospice program shall have written policies and procedures that support, enhance and protect the human, civil, constitutional and statutory rights of all patients.

53.3(1) Patient rights include, but are not limited to, the right to:

a. Be treated with dignity and respect;

b. Be informed of the type of care and the services provided by the hospice program;

c. Information regarding diagnosis and prognosis and any change in either;

d. Review and participate in their plan of care; and

e. Privacy.

53.3(2) A copy of these rights shall be provided to all individuals admitted to a hospice.

This rule is intended to implement Iowa Code section 135J.3(3).

481—53.4(135J) Governing body. The hospice shall have a local governing body which consists of people who represent the geographic area for which the hospice intends to provide service.

53.4(1) The governing body shall:

a. Develop a written mission statement, goals and objectives for the hospice and meet with sufficient regularity to ensure accomplishment of those goals and objectives;

b. Develop, amend and implement bylaws;

c. Assume responsibility for the total operation of the hospice;

d. Appoint an administrator whose qualifications and duties are defined in writing and who has authority to manage the business affairs and to direct all programs of the hospice;

e. Provide for medical direction by a licensed physician, including naming a qualified physician to be available in the medical director's absence;

f. Provide appropriate, qualified personnel in sufficient quantity to ensure availability of hospice services listed below. Physician and nursing services and the provision of appropriate drugs shall be available 24 hours a day, seven days a week;

g. Develop and implement written policies and procedures relating to:

(1) Admission and discharge criteria,

(2) Response to referrals,

(3) Medical direction,

(4) Physician services,

(5) Nursing services,

(6) Nutritional services,

(7) Pharmacy services,

(8) Social services,

(9) Volunteer services,

(10) Spiritual services,

(11) Patient and family education,

(12) Bereavement services,

(13) Staff response to death at home and in institutions,

(14) Coordination and communication between all agencies serving the patient and family,

(15) Communication with community agencies, and

(16) Community education efforts;

h. Develop and implement written personnel policies; and

i. Develop and implement a written plan for review of the services delivered.

53.4(2) The governing body shall ensure that someone is responsible to:

a. Organize and direct the ongoing functions of the hospice program;

b. Meet the requirements of the written job descriptions;

c. Maintain liaison with the governing body and staff to ensure administrative control and professional supervision over all patient and family services furnished;

d. Provide orientation and in-service training for all staff which covers the physical, emotional, spiritual and social needs of hospice patients and their families during the final stages of illness, at death and during grief;

e. Plan, organize, implement, guide and evaluate the program;

f. Formulate and conduct a review of policies and procedures, including quality assurance; and

g. Ensure that all required reports and records are completed, submitted and maintained. This includes personnel, administrative and clinical records.

This rule is intended to implement Iowa Code section 135J.3.

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.5(135J) Quality assurance and utilization review. The hospice must have a written procedure for individual assessment of care provided, a process for identifying problems and a system to report findings and recommendations for improving the quality of care delivered to the governing body.

53.5(1) The medical director, patient coordinator and social worker used by the hospice program shall review a minimum of a 10 percent sample of combined active and inactive clinical records of care delivered to hospice patients on a periodic and ongoing basis. A written summary shall be prepared for each individual assessment, commenting on the amount and kind of care delivered and including statements addressing any unmet needs.

53.5(2) All summaries of individual assessments shall be reviewed by the people responsible for coordinating quality assurance on a periodic and ongoing basis. A written report will be prepared addressing any identified problems with care, treatment services, availability of services and methods of care delivery.

53.5(3) The quality assurance reports shall be made available to the hospice administrator and governing body. The reports shall be reviewed by the governing body at least annually, and the review recorded in the governing body's meeting minutes.

This rule is intended to implement Iowa Code section 135J.3(8).

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.6(135J) Attending physician services. The patient or family shall designate an attending physician or physician associate who is responsible for managing necessary medical care. The attending physician shall:

1. Have an active Iowa license pursuant to Iowa Code chapter 148 or 148C;
2. Certify in conjunction with the medical director that each person requesting admittance is eligible as required by Iowa Code section 135J.1(3) for hospice care;
3. Be responsible for the medical component of the plan of care;
4. Participate in developing and revising the plan of care;
5. Arrange for continuity of the medical management in the attending physician's absence; and
6. Monitor the condition of the patient and family by direct contact, or communication with the interdisciplinary team (IDT) and others.

This rule is intended to implement Iowa Code section 135J.3(4).

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23; Editorial change: IAC Supplement 6/10/26]

481—53.7(135J) Medical director. Each hospice shall have a medical director who is a physician licensed to practice medicine pursuant to Iowa Code chapter 148. The medical director shall:

1. Be a member of the interdisciplinary team;
2. Monitor the quality of care provided;
3. Assist in providing assurance of the quality of care provided to the patient and family;
4. Maintain liaison with the attending physician;
5. Review clinical material from the patient's attending physician to certify the prognosis as anticipated by that physician;
6. Participate in providing direction for the medical component of care;
7. Participate in resolving conflicts regarding care to be provided; and
8. Participate in the development and review of patient care policies, procedures and protocols.

This rule is intended to implement Iowa Code section 135J.3(1).
[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.8(135J) Interdisciplinary team (IDT). The IDT shall establish a plan of care for each patient based on assessments performed by team members.

53.8(1) The interdisciplinary team shall include, but is not limited to, the:

a. Patient, to the extent the patient is able and willing to participate;

b. Hospice patient's family, to the extent the family is able and willing to participate;

c. A doctor of medicine or osteopathy who is an employee of or under contract with the hospice;

d. Patient care coordinator;

e. Registered nurse;

f. Social worker; and may include

g. A pastoral or other counselor and others deemed appropriate by the hospice.

53.8(2) Within 48 hours of admission, the attending physician or registered nurse and at least one IDT team member shall develop an initial plan based on a preliminary assessment of the patient needs.

53.8(3) Within five calendar days of admission, the interdisciplinary team shall assess the needs of the patient and family. A care plan shall be based on these findings.

53.8(4) Within five calendar days of admission, the interdisciplinary team shall meet to develop a comprehensive written plan of care. The plan of care shall:

a. Identify the primary caregiver or an alternate arrangement for care;

b. List the needs of the patient and family;

c. List any intervention planned to meet the needs of the patient and family and the results expected from each intervention;

d. Indicate which team member(s) is responsible for each intervention;

e. Indicate the anticipated frequency of each intervention; and

f. Indicate the prognosis and expected disease process.

53.8(5) The IDT shall monitor and revise the plan of care on a regular basis. The team shall meet at least every 15 days and exchange information regarding the needs of the patient and family. Changes in the care plan shall be made when the needs of the patient or family change or when interventions do not result in the expected or intended response.

This rule is intended to implement Iowa Code section 135J.3(5).
[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.9(135J) Nursing services. Nursing services shall be planned and provided or supervised by a registered nurse who has a current Iowa license to practice nursing. The service shall be available 24 hours a day, seven days a week.

53.9(1) A registered nurse shall assess patient and family nursing needs and develop a nursing plan of care to meet these needs.

53.9(2) The nursing service staff shall:

a. Participate in IDT meetings to develop and amend the plan of care;

b. Provide nursing service in accordance with the overall plan of care developed by the IDT;

c. Consult with the patient and family regarding how to meet nursing and nursing-related needs of the patient;

d. Document nursing care given and observations made regarding patient, family reactions and status;

e. Consult with other care providers and the family to enhance continuity of care;

f. Develop and implement nursing service objectives, policies and procedures; and

g. Assign duties to nurses and hospice aides consistent with their education and experience.

53.9(3) Persons who are employed by, volunteer with or work under contract to a licensed hospice organization may administer medications only if they are also a licensed nurse, a licensed physician or a certified medication aide.

This rule is intended to implement Iowa Code section 135J.3(2).
[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.10 Reserved.

481—53.11(135J) Coordinator of patient care.

53.11(1) A registered nurse, social worker or health care administrator shall be designated to coordinate implementation of the plan of care for each patient.

53.11(2) The coordinator of patient care shall at least:

a. Coordinate all aspects of patient care to ensure continuity, including care by all service disciplines in all care settings;

b. Facilitate exchange of information among all personnel who provide services to ensure complementary efforts and support for objectives outlined in the plan of care;

c. Facilitate communication between caregivers, patient and family;

d. Maintain a roster of patients;

e. Maintain a schedule for IDT review of care plans;

f. Chair IDT conferences;

g. Develop job descriptions for all nursing personnel;

h. Establish staff schedules to meet patient needs and ensure 24-hour service;

i. Develop and implement orientation and training programs;

j. Develop and implement performance evaluation for the nursing staff; and

k. Facilitate periodic meetings of the professional nursing staff to evaluate the nursing care provided by hospice personnel.

This rule is intended to implement Iowa Code section 135J.3(2).

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.12(135J) Social services. Medical social services must be provided by a qualified social worker, under the direction of a physician. Social work services must be based on the patient's psychosocial assessment and the patient's and family's needs and acceptance of these services.

53.12(1) Education and experience. A qualified social worker is a person who:

a. Has a master of social work (MSW) degree from a school of social work accredited by the Council on Social Work Education; or

b. Has a baccalaureate degree in social work from an institution accredited by the Council on Social Work Education; or

c. Has a baccalaureate degree in psychology, sociology, or other field related to social work and is supervised by an MSW as described in paragraph 53.12(1)*"a"*; and

d. Has one year of social work experience in a health care setting; or

e. Has a baccalaureate degree from a school of social work accredited by the Council on Social Work Education, was employed by the hospice before December 2, 2008, and is not required to be supervised by an MSW.

53.12(2) The social worker shall at least:

a. Consider the emotions and social support system of the patient;

b. Identify patient social service needs;

c. Participate on the IDT to develop and amend the plan of care;

d. Provide services in accordance with the plans of care developed by the IDT;

e. Document services provided and observations made regarding patient and family response and status; and

f. Cooperate and communicate with other providers and the family to enhance the continuity of care.

This rule is intended to implement Iowa Code section 135J.3(2).

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.13(135J) Counseling services. Counseling is the process of helping people adjust to the grief of illness, dying and loss. Counseling shall be provided in accordance with the plan of care. When the interdisciplinary team identifies the need for additional counseling services, a team member shall be designated to make an appropriate referral. No referrals may be made without the agreement of the patient and the family.

This rule is intended to implement Iowa Code section 135J.3(2).

481—53.14(135J) Volunteer services. Each hospice shall provide volunteer services to meet patient and family needs. A coordinator of volunteer services shall be designated to implement written policies and procedures. Volunteers must be used in defined roles and under the supervision of a designated hospice employee. The hospice must maintain, document and provide volunteer orientation and training that is consistent with hospice industry standards.

This rule is intended to implement Iowa Code section 135J.3(2).

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.15(135J) Spiritual counseling. Spiritual counseling shall be available to all patients and their families.

53.15(1) Spiritual counseling shall:

a. Be based on the beliefs and values of the patient and family; and

b. Be provided in accordance with the interdisciplinary plan of care.

53.15(2) If spiritual counseling is provided through a working relationship with clergy or other spiritual counselors in the community, there shall be ongoing communication between that counselor and the interdisciplinary care team.

53.15(3) There shall be written and implemented policies and procedures regarding spiritual counseling.

This rule is intended to implement Iowa Code section 135J.3(2).

481—53.16(135J) Optional services. Optional services are services provided by the hospice which are not required. Examples are hospice aide, therapy and respite. The following apply to the provision of all optional services provided by a hospice:

53.16(1) All service providers shall be oriented to the hospice concept and philosophy.

53.16(2) All services shall be provided in accordance with the interdisciplinary plan of care.

53.16(3) Written and implemented policies and procedures shall:

a. Identify service providers;

b. Identify the person who will supervise the provision of services;

c. Require documentation of services provided and patient and family response; and

d. Describe a mechanism for evaluating quality of care provided.

This rule is intended to implement Iowa Code section 135J.1(7).

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

481—53.17(135J) Contracted services. A hospice may contract with other health care providers for the provision of all services.

53.17(1) Contracts shall be written and clearly delineate the authority and responsibility of each party to the contract.

53.17(2) The hospice shall maintain responsibility for coordinating and administering the hospice program.

53.17(3) Contracting for a service does not absolve the hospice of legal responsibility for provision of that service.

53.17(4) The hospice shall inform the patient whether the hospice is paying for the contracted services.

This rule is intended to implement Iowa Code section 135J.3(2).

481—53.18(135J) Short-term hospital services. Each hospice shall have a written agreement with a local or area hospital which promotes continuation of the hospice plan of care and training for hospital staff who care for hospice patients.

This rule is intended to implement Iowa Code section 135J.3(2).

481—53.19(135J) Bereavement services. Bereavement services shall be available to each family after the death of a patient and shall be provided in accordance with family needs.

53.19(1) Bereavement services shall include:

a. Exchange of information between people who provide bereavement services and team members who provided care before death;

b. Consideration of the family's situation, including risk factors, used to develop a plan for services;

c. Identification of types of help or intervention to be available and provided;

d. Contact with the family after the death as required by their needs as documented in the plan of care; and

e. A process to assess family reactions and hospice referrals for intervention deemed appropriate by the IDT.

53.19(2) There shall be written and implemented policies and procedures governing the delivery of bereavement services.

This rule is intended to implement Iowa Code section 135J.3(6).

481—53.20(135J) Records. In accordance with accepted principles of medical record practice, each hospice shall maintain a centralized complete record on every individual receiving services. This record shall be preserved for at least six years following termination of services.

53.20(1) Each entry shall be dated and signed, including the name and title of the person who makes the entry.

53.20(2) The record shall include documentation of all services provided, whether furnished by the hospice or by contractual agreement. Each record shall include, but not be limited to:

a. Patient identification and demographic data;

b. Initial and subsequent assessments;

c. The plan of care;

d. Medical history;

e. Documentation of all services provided;

f. Consent and authorization forms;

g. Physicians' orders;

h. Medication records;

i. Discharge summary; and

j. Discharge and transfer records.

53.20(3) The hospice shall have written and implemented policies to safeguard destruction or unauthorized use of patient records. Written procedures shall govern use and removal of records, conditions for release of information and identification by title of the person who may release records.

[**ARC 6975C**, IAB 4/5/23, effective 5/10/23]

These rules are intended to implement Iowa Code sections 135J.1 to 135J.6.

[Filed 4/12/90, Notice 12/27/89—published 5/2/90, effective 6/6/90]

[Filed ARC 6975C (Notice ARC 6878C, IAB 2/8/23), IAB 4/5/23, effective 5/10/23]

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 54
GOVERNOR'S AWARD FOR QUALITY CARE

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—54.1(135C) Purpose. A governor's award for quality care is established to recognize health care facilities in Iowa that demonstrate provision of the highest quality care to residents. Health care facilities eligible for nomination and selection must be licensed pursuant to Iowa Code chapter 135C.

481—54.2(135C) Definitions.

"Community living training services" means those activities provided to assist a person to acquire or sustain the knowledge and skills essential to independent functioning to the person's maximum potential in the physical and social environment.

"Department" means the department of inspections and appeals.

"Director" means the director of the department of inspections and appeals or the director's designee.

"Health care facility" or *"facility"* means residential care facilities, nursing facilities, intermediate care facilities for persons with mental illness, and intermediate care facilities for persons with an intellectual disability licensed pursuant to Iowa Code chapter 135C.

"Nursing care" means those services that can be provided only under the direction of a registered nurse or licensed practical nurse.

"Personal care" means assistance with those activities of daily living that the recipient can perform only with difficulty. Examples are help in getting in and out of bed, assistance with personal hygiene and bathing, help with dressing and feeding, and supervision of medications that can be self-administered.

"Rehabilitative services" means services to encourage and assist restoration of optimum mental and physical capabilities of the individual resident of a health care facility.

"Social services" means services relating to the psychological and social needs of the individual in adjusting to living in a health care facility and minimizing stress arising from that circumstance.

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13]

481—54.3(135C) Nomination. The department shall make available a nomination application no later than January 1 of each year. The department shall accept nominations until March 1 of each year.

481—54.4(135C) Applicant eligibility. Eligible nominations shall be made by a resident, family member of a resident or another health care facility. A health care facility cannot nominate itself for the award; however, this prohibition shall not apply to facilities with common ownership.

[**ARC 1205C**, IAB 12/11/13, effective 1/15/14]

481—54.5(135C) Nomination information. Applications for the governor's quality care award shall contain but not be limited to the following information:

54.5(1) The reasons that the nominated facility should be considered.

54.5(2) Any unique or special care or services provided by the facility to its residents. Care or services include any unique or special nursing care, personal care, rehabilitative services, social services, or community living training services provided by the facility for its residents or involvement with the local community.

54.5(3) Activities conducted by the facility to enhance the quality of life for its residents.

481—54.6(135C) Evaluation. The department shall review all nominations and select finalists based upon the material(s) provided in the nomination forms. The department shall also consider the following factors in making its selections:

54.6(1) The facility report card completed pursuant to Iowa Code section 135C.20A.

54.6(2) Any unique services provided by a facility to its residents to improve the quality of care in the facility.

54.6(3) Any information submitted by resident advocacy committee members, residents, a resident's family members, or facility staff with regard to the quality of care provided by the facility to its residents.

54.6(4) Whether the facility accepts residents for whom costs are paid under Iowa Code chapter 249A.

54.6(5) Whether there are any outstanding complaints against the facility, as well as the resolution of any complaint already investigated by the department.

54.6(6) Whether the annual fiscal review conducted by the department indicated any irregularities in the residents' accounts.

481—54.7(135C) Selection of finalists. When reviewing the nominations, the department shall rank all facilities according to the above criteria. The ranked list of facilities shall be provided to the director for further review and consideration. When the final selection is made, no more than two facilities from each congressional district shall be recognized as award winners.

481—54.8(135C) Certificate of recognition. Prior to the final selection of facilities, representatives from the department will tour all facilities still in contention to determine the winners. Each winning facility will receive a certificate in recognition of its designation as a quality health care provider. The winning facilities shall be announced and recognized annually.

[**ARC 6860C**, IAB 2/8/23, effective 3/15/23]

These rules are intended to implement Iowa Code sections 10A.104(5), 135C.14 and 135C.20B.

[Filed 6/9/00, Notice 1/12/00—published 6/28/00, effective 8/2/00]
[Filed 1/12/05, Notice 12/8/04—published 2/2/05, effective 3/9/05]

CHAPTER 55
HEALTH CARE EMPLOYMENT AGENCIES AND HEALTH CARE TECHNOLOGY PLATFORMS

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/4/28

481—55.1(135Q) Definitions. The definitions set forth in Iowa Code section 135Q.1 are incorporated herein by reference. As used in this chapter, unless the context otherwise requires, the following also apply:

"Health care employment agency" does not include a recruitment firm that contracts with a health care entity to identify and screen potential candidates for hire and does not provide agency workers for temporary or temporary-to-hire employee placements in this state.

"Health care entity" includes but is not limited to any entities licensed or certified pursuant to Iowa Code chapter 135B (hospitals), 135C (health care facilities), 135G (subacute mental health care facilities), 135H (psychiatric medical institutions for children), 135J (licensed hospice programs), 231C (assisted living programs), 231D (adult day services), or 135R (ambulatory surgical centers) or any home health agency, hospice, end-stage renal disease center, rural health clinic, or federally qualified health care center certified by the Centers for Medicare and Medicaid Services.

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

481—55.2(135Q) Registration.

55.2(1) A health care employment agency or health care technology platform operating in the state shall register annually with the department and pay an annual registration fee of $500. A health care employment agency with multiple locations may complete one registration for all locations and may remit one payment for the total registration fee required. A health care employment agency or health care technology platform shall register with the department 30 days prior to operation. A health care technology platform in operation prior to April 23, 2025, shall register with the department within 30 days of April 23, 2025.

55.2(2) The statement of registration may be submitted electronically via an Internet-based system provided by the department for such purpose; by mail to the Department of Inspections, Appeals, and Licensing, Health and Safety Division, 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321; or by fax to 515.242.5022.

55.2(3) The registrant shall include, at a minimum, the following information on the statement of registration:

a. Name(s) of the owner(s) and managing entity(ies);

b. Location of the health care employment agency, including street address, city, and ZIP code; and

c. Contact information for the owner(s) and managing entity(ies), including telephone number, mailing address, and email address.

55.2(4) The health care employment agency or health care technology platform shall notify the department of any changes to the information on the annual statement of registration within 30 days of the date the change occurs, including cessation of operation.

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

481—55.3(135Q) General requirements. A health care employment agency or health care technology platform shall adhere to all requirements under Iowa Code section 135Q.2(2) or 135Q.3(2), as applicable, and do all of the following.

55.3(1) *Verification of employment standards.* A health care employment agency shall ensure that its agency workers comply with all applicable state and federal requirements and qualifications for personnel in health care entity settings pursuant to Iowa Code section 135Q.2(2)*"a"* through *"c."* A health care technology platform shall verify that independent nursing services professionals supply documentation demonstrating compliance with all applicable state and federal requirements and qualifications for personnel in health care entity settings pursuant to Iowa Code section 135Q.3(2)*"a"* through *"c."* These include but are not limited to a health care employment agency ensuring or a health care technology platform verifying the following:

a. Completion of all requirements regarding criminal, dependent adult abuse, and child abuse record checks that would otherwise be the responsibility of the health care entity if the health care entity employed the agency worker or contracted with the independent nursing services professional directly;

b. Completion of the physical examination and screening and testing for tuberculosis procedures that would otherwise be the responsibility of the health care entity if the health care entity employed the agency worker or contracted with the independent nursing services professional directly; and

c. That an agency worker or independent nursing services professional has completed all education, training, and continuing education requirements for the agency worker's or independent nursing services professional's occupation and that the agency worker or independent nursing services professional is in good standing with any minimum licensing or certification standards to appropriately engage in the worker's or professional's profession.

55.3(2) *Allegations of dependent adult abuse.*

a. If an allegation of dependent adult abuse is received by a health care employment agency against an agency worker or is received by a health care technology platform against an independent nursing services professional, the health care employment agency or health care technology platform shall immediately notify the facility in which the alleged abuse occurred so that the facility may immediately separate the victim and alleged dependent adult abuser. The health care employment agency or health care technology platform shall also notify the department within 24 hours or the next business day. If the health care employment agency or health care technology platform has reason to believe that immediate protection for the dependent adult is advisable, it should also make an oral report to an appropriate law enforcement agency. After receiving notice of an allegation of dependent adult abuse against an agency worker or independent nursing services professional and before the department's dependent adult abuse investigation is completed and the abuse determination is made, the health care employment agency or health care technology platform shall disclose such investigation to any prospective health care entity with which the agency worker will be placed or the independent nursing services professional will provide services.

b. In addition to any other requirement under state or federal law with respect to the receipt of an allegation of dependent adult abuse, if a health care entity receives an allegation of dependent adult abuse against an agency worker or independent nursing services professional, the health care entity shall immediately notify the health care employment agency or health care technology platform of the allegation. This does not exempt the health care entity from any of its duties with respect to alleged dependent adult abuse under state or federal law.

c. If the health care employment agency or health care technology platform terminates the alleged dependent adult abuser or deactivates the alleged abuser's account as a result of the investigation or the alleged dependent adult abuser resigns, the alleged dependent adult abuser shall disclose such termination, deactivation, or investigation to any prospective facility or program employer.

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

481—55.4(135Q) Prohibitions.

55.4(1) A health care employment agency or health care technology platform shall not restrict the employment opportunities of an agency worker or independent nursing services professional in accordance with Iowa Code section 135Q.2(3) or 135Q.3(3), as applicable.

55.4(2) Subrule 55.4(1) does not apply to a contract that meets all of the criteria set forth in Iowa Code section 135Q.2(3)*"b."*

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

481—55.5(135Q) Record retention and reporting.

55.5(1) *Document retention.* A health care employment agency or health care technology platform shall maintain documentation in its files regarding each agency worker's or independent nursing services professional's compliance, as applicable, with minimum licensing, certification, training, health requirements, and continuing education standards as described in subrule 55.3(1). A health care employment agency or health care technology platform shall provide copies of this documentation to

the department or a health care entity for a contracted agency worker or independent nursing services professional upon request.

55.5(2) *External reporting.* A health care employment agency shall report, file, or otherwise provide any required documentation pursuant to Iowa Code section 135Q.2(2)*"c,"* including but not limited to:

a. For any agency workers who are certified nurse aides, the health care employment agency shall report to the direct care worker registry completed work assignments of the agency worker sufficient to maintain an active status on the registry pursuant to requirements set forth in 441—subparagraph 81.16(5)*"c"*(2), 441—paragraph 81.16(5)*"e,"* and 42 CFR 483.35(d)(6) and 483.156(c)(2).

b. The health care employment agency shall report allegations of dependent adult abuse as set forth in subrule 55.3(2).

55.5(3) *Quarterly reporting to the department.*

a. The quarterly report required to be submitted by a health care employment agency pursuant to Iowa Code section 135Q.2(4) shall provide the following:

(1) A detailed list of each health care entity participating in Medicare or Medicaid with whom the agency has contracted over the prior quarter;

(2) A detailed list of the average amount charged by the health care employment agency to the health care entity participating in Medicare or Medicaid over the prior quarter, broken down by provider type (e.g., hospital, nursing facility) and each individual agency worker category (e.g., certified nurse aide, registered nurse, licensed practical nurse) within that provider type; and

(3) A detailed list of the average amount paid by the health care employment agency participating in Medicare or Medicaid to agency workers over the prior quarter, broken down by provider type (e.g., hospital, nursing facility) and each individual agency worker category (e.g., certified nurse aide, registered nurse, licensed practical nurse) within that provider type.

b. The report data and submission dates shall be as follows:

(1) The quarterly report containing data from January 1 through March 31 is due no later than April 15;

(2) The quarterly report containing data from April 1 through June 30 is due no later than July 15;

(3) The quarterly report containing data from July 1 through September 30 is due no later than October 15; and

(4) The quarterly report containing data from October 1 through December 31 is due no later than January 15.

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

481—55.6(135Q) Complaints.

55.6(1) *Complaints.*

a. The process for filing a complaint is as follows:

(1) Any person with a concern regarding the operation of a health care employment agency may file a complaint at the department's physical location, complaint hotline, or website, as follows:

Physical address:	Department of Inspections, Appeals, and Licensing Health and Safety Division, Complaint/Incident Unit 6200 Park Avenue, Suite 100 Des Moines, Iowa 50321
Complaint hotline:	1.877.686.0027
Website address:	dial.iowa.gov

(2) When the nature of the complaint is outside the department's authority, the department will forward the complaint to the appropriate investigatory entity.

b. The department will act on anonymous complaints unless the department determines that the complaint is intended to harass the health care employment agency or health care technology platform or is without a reasonable basis. If the department, upon preliminary investigation, determines that the complaint is intended to harass or is without a reasonable basis, the department may dismiss the complaint.

55.6(2) *Content of complaint reports.* The complaint should include as much of the following information as possible: the complainant's name, address, and telephone number; the complainant's relationship to the health care employment agency or health care technology platform; and the reason for the complaint. The complainant's name shall be confidential information and will not be released by the department.

55.6(3) *Time frames for investigation of complaints.* Upon receipt of a complaint made in accordance with this rule, the department will make a preliminary investigation of the complaint to determine if probable cause exists to further investigate the complaint. If probable cause exists, an investigation of the health care employment agency or health care technology platform will be initiated within 45 working days.

55.6(4) *Standard for determining whether a complaint is substantiated.* The department will apply a preponderance of the evidence standard in determining whether a complaint is substantiated.

55.6(5) *Notification of the health care employment agency or health care technology platform of results of investigation.* The department will notify the subject health care employment agency or health care technology platform, in writing, of the final report of the complaint investigation.

55.6(6) *Notification of the complainant of results of investigation.* The complainant, if known, will be notified of the final findings of a complaint investigation as well as if the department determines not to further investigate after the preliminary investigation, including an explanation of the department's decision.

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

481—55.7(135Q) Investigations.

55.7(1) *Initiation of investigations.* Investigations may be initiated because of a complaint or other information received by the department or upon referral from other agencies. If the department determines there is probable cause to believe that a health care employment agency or health care technology platform is unregistered or that a registered health care employment agency or health care technology platform is not in compliance with state, federal, or local statutes or rules, an investigation may be initiated.

55.7(2) *Evaluation of allegations and referral to other agencies.* If an investigation is initiated, the department will evaluate the allegations to determine whether the allegations should also be referred to other local, state, or federal agencies. If the department believes a criminal violation has occurred or is occurring, it will notify the appropriate law enforcement entities.

55.7(3) *Access to records.* An inspector of the department may enter a health care employment agency without a warrant and may examine and copy all records and items pertaining to the investigation, or may require the health care employment agency or health care technology platform to provide copies of all records and items pertaining to the investigation, unless the record or item is protected by some other legal privilege.

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

481—55.8(135Q) Penalties. A health care employment agency or health care technology platform that violates Iowa Code chapter 135Q will be subject to monetary penalties, denial or revocation of registration, and other penalties as described in Iowa Code section 135Q.4.

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

481—55.9(135Q) Public and confidential information.

55.9(1) *Public disclosure.* The following records are open and available for inspection:

a. Registration forms and accompanying materials;

b. Final findings of the department's investigations;

c. Official notices of penalties; and

d. Any records required to be submitted to the department by the health care employment agency pursuant to Iowa Code section 135Q.2(4) and subrule 55.5(3) (quarterly reporting to the department).

55.9(2) *Confidential information.* Confidential information includes the following:

a. Information obtained by the department that does not comprise a final finding resulting from a complaint investigation. Investigation information which does not comprise a final finding may be made

public in a contested case proceeding concerning the department's final findings, including the imposition of a monetary penalty or the denial or revocation of registration.

b. Names and identifying information of all complainants.

[**ARC 6711C**, IAB 11/30/22, effective 1/4/23; **ARC 9022C**, IAB 3/19/25, effective 4/23/25]

These rules are intended to implement Iowa Code chapter 135Q.

[Filed ARC 6711C (Notice ARC 6571C, IAB 10/5/22), IAB 11/30/22, effective 1/4/23]
[Filed ARC 9022C (Notice ARC 7784C, IAB 4/17/24; Amended Notice ARC 8214C, IAB 9/18/24), IAB 3/19/25, effective 4/23/25]

CHAPTER 56
FINING AND CITATIONS
[Prior to 7/15/87, Health Department[470] Ch 56]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—56.1(135C) Authority for citations. Pursuant to the authority vested in the director of the department of inspections and appeals to issue citations and assess penalties for violations of the statutes or departmental rules relating to the health care facilities, the following rules indicate the method by which citations may be issued when a particular statute or departmental rule is violated by a facility.

481—56.2(135C) Classification of violations—classes. There are three classifications for violations of statutes or departmental rules which may result in the issuance of a citation by the director of inspections and appeals and the assessment of a penalty therefor.

56.2(1) *Class I.* A class I violation is one which presents an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility in which the violation occurs. A physical condition or one or more practices in a facility may constitute a class I violation;

56.2(2) *Class II.* A class II violation is one that has a direct or immediate relationship to the health, safety, or security of residents of a health care facility, but which presents no imminent danger nor substantial probability of death or physical harm to them. A physical condition or one or more practices within a facility, including either physical abuse of any resident or failure to treat any resident with consideration, respect, and full recognition of the resident's dignity and individuality, in violation of a specific rule adopted by the department, may constitute a class II violation;

56.2(3) *Class III.* A class III violation is one which is not classifiable in the department's rules nor classifiable under the criteria stated in those rules as a class I or class II violation.

481—56.3(135C) Fines. Citations which are issued by the director of the department of inspections and appeals for violations of the statutes or rules relating to health care facilities will subject the facility to the following penalties.

56.3(1) *Citation for a class I violation.* The penalty shall not be less than $2,000 nor more than $10,000. The penalty for a class I violation shall be doubled when the violation is due to an intentional act by the facility in violation of a provision of Iowa Code chapter 135C or a rule adopted pursuant thereto.

56.3(2) *Citation for a class II violation.* The penalty shall not be less than $100 nor more than $500. Using the criteria established in paragraph 56.3(2)*"a,"* the director of the department of inspections and appeals may, upon written request, waive the penalty if the class II violation is corrected within the time specified in the citation. The director shall not waive penalties related to the items listed in subrule 56.3(4).

a. Criteria for waiving the penalty for a class II violation. The director shall consider the following criteria, among others, when deciding whether to grant a waiver of a class II penalty.

(1) The past history of the facility within the last 24 months of the violation as it relates to the nature of the violation;

(2) The rights of residents to make informed decisions with their doctor(s) and family/legal representative(s); and

(3) The financial hardship the fine will cause the facility.

b. Process for requesting a waiver of the penalty for a class II violation.

(1) A facility shall submit documentation that supports the waiver request.

(2) If the facility has requested a waiver based on financial hardship, the facility must provide proof of the hardship for the individual facility, along with the parent corporation, if any. Supporting documentation shall, at minimum, include the facility's, and the parent corporation's, if any, most recent profit and loss statement and balance sheet.

(3) Requests for a waiver shall be submitted within ten working days of receipt by the facility of the notice that the violation has been corrected.

(4) The department shall make a decision on the waiver request or request additional information, if necessary, within ten working days of receipt of a waiver request and shall notify the facility in writing of

the department's determination by personal service, by electronic mail, or by certified mail. If additional information is requested, such information shall be provided by the facility within five working days. If additional information is necessary, the department shall make a decision on the waiver request within ten working days of receipt of the additional information requested by the department.

(5) If the waiver request is granted and the facility has paid the penalty, the facility shall be refunded the amount of the penalty paid that was subject to the approved waiver request.

c. Denial of penalty waiver request for a class II violation. The director's decision to deny a waiver request is not subject to appeal. The underlying citation or state statement of deficiencies is eligible for appeal.

56.3(3) *Citation for a class III violation.* No penalty shall be assessed for a class III violation except as provided in rule 481—56.5(135C).

56.3(4) *Self-identification and correction of a class II or class III violation prior to the on-site inspection.*

a. Self-identification and correction. If a facility self-identifies a deficient practice prior to the on-site visit inspection, there has been no complaint filed with the department related to that specific deficient practice, and the facility corrects such practice prior to an inspection, no citation shall be issued or fine assessed for class II or III violations except as identified in Iowa Code section 135C.36(5).

b. Process for documenting self-identification. If, during the inspection, an area of concern is identified to the facility that was self-identified and corrected by the facility prior to the inspection, no complaint has been filed, and the violation does not fall in the exemptions listed in Iowa Code section 135C.36(5), the facility shall complete a "Self-Identification and Correction Form" and submit it to the inspector(s) prior to the conclusion of the inspection, or to the department within two working days of the exit interview via email, facsimile, or overnight courier. The documentation shall include:

(1) The nature of the problem;
(2) The date the problem was identified;
(3) Who identified the problem, i.e., family, resident, staff, physician, pharmacist;
(4) Action steps taken to correct the problem;
(5) The date the facility determined correction was completed; and
(6) All documentation that substantiates the above information.

56.3(5) *State penalty dismissed if the corresponding federal deficiency or citation is dismissed or removed.* Any state penalty, including a fine or citation, issued as a result of a joint state and federal survey and certification process shall be dismissed if the corresponding federal deficiency or citation is dismissed or removed.

a. If the federal deficiency is dismissed or removed during the federal informal dispute resolution process, the department shall remove any corresponding state fine, citation or deficiency within 20 working days of issuance of the decision.

b. If the federal deficiency is dismissed or removed at the conclusion of the federal administrative hearing process, the facility shall submit to the department a copy of the decision, along with a written request for the removal of the corresponding state fine, citation, or deficiency.

c. Any state penalty, including a fine or citation, shall be retained or reinstated if the federal deficiency is retained or reinstated.

56.3(6) *Reduction of fine amount by 35 percent.* If a facility has been assessed a penalty, does not request a formal hearing pursuant to Iowa Code section 135C.43 and rule 481—56.17(135C), or withdraws its request for a formal hearing within 30 days of the date that the penalty was assessed, and the penalty is paid within 30 days of receipt of notice or service, the amount of the civil penalty shall be reduced by 35 percent.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10; **ARC 2158C**, IAB 9/30/15, effective 11/4/15; **ARC 7005C**, IAB 5/3/23, effective 6/7/23]

481—56.4(135C) Time for compliance. Citations which are issued by the director of the department of inspections and appeals for violations of the statutes or rules related to health care facilities shall specify the length of time permitted for the violation to be abated or eliminated, as follows:

56.4(1) *Citation for a class I violation:* The violation shall be abated or eliminated immediately, unless the department determines that a stated period of time, specified in the citation, is required to correct the violation;

56.4(2) *Citation for a class II violation:* The violation shall be corrected within a stated period of time determined by the department and specified in the citation. The stated period of time specified in the citation may subsequently be modified by the department for good cause shown;

56.4(3) *Citation for a class III violation:* The violation shall be corrected within a reasonable time specified by the department in the citation.

481—56.5(135C) Failure to correct a violation within the time specified—penalty. Failure to correct any class of violation within the time specified in the citation, unless the licensee shows that the failure was due to circumstances beyond the licensee's control, shall subject the facility to a further penalty of $50 for each day that the violation continues after the time specified for correction.

481—56.6(135C) Treble and double fines.

56.6(1) *Treble fines for repeated violations.* The director of the department of inspections and appeals shall treble the penalties specified in rule 481—56.3(135C) for any second or subsequent class I or class II violation occurring within any 12-month period, if a citation was issued for the same class I or class II violation occurring within that period and a penalty was assessed therefor.

56.6(2) *Double fines for intentional class I violations.* The director of the department of inspections and appeals shall double the penalties specified in subrule 56.3(1) when the violation is due to an intentional act by the facility in violation of a provision of Iowa Code chapter 135C or rule adopted pursuant thereto.

a. For purposes of this subrule, "intentional" means doing an act voluntarily, not by mistake or accident, and doing the act with a specific purpose in mind.

b. The facts and circumstances surrounding the act shall be considered when determining whether the act was done intentionally.

c. It is assumed that a person intends the natural results of the person's act(s).

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10]

481—56.7(135C) Notation of classes of violations. All rules relating to health care facilities, other than those which are informational in character, shall be followed by a notation at the end of each rule, or pertinent part thereof. This notation shall consist of a Roman numeral or numerals in parentheses. These Roman numerals refer to the class (either class I, class II, or class III) of violation which may be cited by the director of the department of inspections and appeals when that rule or a part of that rule carrying the notation is violated by the facility.

[**ARC 3390C**, IAB 10/11/17, effective 11/15/17]

481—56.8(135C) Notation for more than one class of violation. In those instances where a particular rule, or part of a rule is followed by a notation consisting of more than one Roman numeral in parentheses, at the discretion of the director of the department of inspections and appeals, the director may issue a citation for a violation of that rule, or part thereof, designating any one of the multiple classes of violations specified in the notation.

481—56.9(135C) Factors determining selection of class of violation. In determining which class of violation will be designated in the citation, where more than one class is specified in the notation following the rule, the director of the department of inspections and appeals shall consider evidence of the circumstances surrounding the violation, including, but not limited to, the following factors:

56.9(1) The frequency and length of time the violation occurred, i.e., whether the violation was an isolated or a widespread occurrence, practice, or condition;

56.9(2) The past history of the facility within 24 months of the violation as it relates to the nature of the violation;

56.9(3) The culpability of the facility as it relates to the reasons the violation occurred;

56.9(4) The extent of any harm to the residents or the effect on the health, safety, or security of the residents which resulted from the violation;

56.9(5) The relationship of the violation to any other types of violations which have occurred in the facility;

56.9(6) The actions of the facility after the occurrence of the violation, including when corrective measures, if any, were implemented and whether the facility notified the director as required;

56.9(7) The accuracy and extent of records kept by the facility which relate to the violation, and the availability of such records to the department;

56.9(8) The rights of residents to make informed decisions with their doctor(s) and family/legal representative(s); and

56.9(9) Whether the facility made a good-faith effort to address a high-risk resident's specific needs, and whether the evidence substantiates this effort.

481—56.10(135C) Factors determining imposition of citation and fine.

56.10(1) The director of the department of inspections and appeals may consider evidence of the circumstances surrounding the violation including, but not limited to, those factors set out in rule 481—56.9(135C) when:

a. Determining whether a violation will be subject to a fine or citation; and

b. Determining the monetary amount of the penalty to be specified in the citation, when such a fine is authorized to be levied for a particular class of violation.

56.10(2) If it is determined that a violation shall be cited as a class I violation, the following chart shall be used by the department when calculating the fine amount. The amount of the fine shall be the sum total of the calculated fine amounts for each factor to be considered. With the exception of fines trebled pursuant to Iowa Code section 135C.44 or doubled pursuant to Iowa Code section 135C.44A, the total fine imposed for a single class I violation shall not be less than $2,000 nor more than $10,000.

Class I Fine Calculation

Factors to Be Considered	Associated Fine and Related Explanation	Calculated Fine
Frequency and length of time the violation occurred, as specified in subrule 56.9(1)	Duration of violation: • If 30 days or less, add $250. • If more than 30 days, add $500. Breadth of violation: • One resident impacted, add $250. • More than one resident impacted, add $500.	$
Past history of the facility, as specified in subrule 56.9(2)	Same violation of rule or related rule cited within the past 24 months, add $500.	$
Culpability of the facility, as specified in subrule 56.9(3)	Degree of culpability of facility as it relates to the reason the violation occurred, add $0 to $500.[1]	$
Extent of any harm to a resident, as specified in subrule 56.9(4)	• Death, imminent danger or substantial probability of death, add $6,000 to $8,500. • Moderate to severe physical harm, imminent danger or substantial probability of moderate to severe physical harm, add $3,000 to $7,500. • Minor to moderate physical harm, imminent danger or substantial probability of minor to moderate physical harm, add $1,000 to $3,000.	$
Relationship of the violation to any other types of violations, as specified in subrule 56.9(5)	• One or more related class II or class III violations cited, add $250. • One or more related class I violations cited, add $500.[2]	$
Actions of the facility after the occurrence of the violation, as specified in subrule 56.9(6)	• Good-faith corrective actions taken although violation not appropriately corrected, add $250. • Corrective actions not taken or the facility failed to notify the director as required, add $500.	$
Accuracy and extent of records kept by the facility, as specified in subrule 56.9(7)	Records maintained by the facility contain pertinent inaccuracies or omissions or were unavailable to the department, add $500.	$

Rights of the residents to make informed decisions, as specified in subrule 56.9(8)	Residents' rights to make informed decisions were not respected, add $500.	$
Whether the facility made a good-faith effort to address a high-risk resident's needs, as specified in subrule 56.9(9)	Evidence indicates the facility did not make a good-faith effort to address a high-risk resident's specific needs, add $500.	$
Additional circumstances surrounding the violation, as specified in rule 481—56.9(135C)	Cite any additional circumstances considered and any associated fine amount.	$
	Total Calculated Class I Fine Amount	$

[1] For example, the culpability of a facility may range from acts or omissions that are inadvertent or negligent to acts or omissions that intentionally disregard known or obvious risks and make it highly probable that the outcome would cause harm to a resident.

[2] For example, a violation related to pressure sores could be correlated to a violation related to the use of restraints or failure to provide incontinent care.

[**ARC 3390C**, IAB 10/11/17, effective 11/15/17]

481—56.11(135C) Class I violation not specified in the rules. The director of the department of inspections and appeals may issue a citation for a class I violation when a physical condition or one or more practices exist in a facility which are not in violation of a specific statute or rule, but which constitute an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility.

481—56.12(135C) Class I violation as a result of multiple lesser violations. The director of the department of inspections and appeals may issue a citation for a class I violation when a physical condition or one or more practices exist in a facility which are a result of multiple lesser violations of the statutes or rules, but which taken as a whole constitute an imminent danger or a substantial probability of resultant death or physical harm to the residents of the facility.

481—56.13(135C) Form of citations. Each citation issued by the director of the department of inspections and appeals shall contain the following information:

56.13(1) A description of the nature of the violation;

56.13(2) A statement of the Code section or subsection or the rule or standard violated. (In the case of class I violations as described in 481—56.11(135C), a statement of the specific physical condition or one or more practices may be made in lieu of this statement.);

56.13(3) A statement of the classification of the violation, as specified in 481—56.2(135C);

56.13(4) When appropriate, a statement of the period of time allowed for correction of the violation, which shall in each case be the shortest period of time the department deems feasible; and

56.13(5) A statement that the fine may be reduced by 35 percent pursuant to Iowa Code section 135C.43A and subrule 56.3(6).

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10]

481—56.14(135C) Licensee's response to a citation. Within 20 business days after service of a citation, the facility shall respond in the following manner, according to the type of citation issued.

56.14(1) If the facility does not desire to seek an informal conference or contest the citation, the facility shall remit to the department of inspections and appeals the amount specified by the department of inspections and appeals in the citation unless:

a. The violation was issued in conjunction with a federal civil money penalty, and the department holds the fine issued pursuant to this chapter in abeyance pursuant to Iowa Code section 249A.57, or

b. The class II violation for which the penalty was imposed has been waived pursuant to subrule 56.3(2).

56.14(2) For each class II or class III violation, the facility shall send a written response to the department of inspections and appeals, acknowledging that the citation has been received and stating that the violation will be corrected within the specified period of time allowed by the citation.

56.14(3) If the facility desires to contest a citation for a class I, class II or class III violation, the facility shall notify the department of inspections and appeals in writing that the facility desires to contest such citation and shall do one of the following:

a. Request an informal conference with an independent reviewer pursuant to rule 481—56.15(135C); or

b. Request a contested case hearing in the manner provided by Iowa Code chapter 17A for contested cases.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10; **ARC 1047C**, IAB 10/2/13, effective 1/1/14; **ARC 2158C**, IAB 9/30/15, effective 11/4/15]

481—56.15(135C) Informal conference. An informal conference will be held concurrently with any informal dispute resolution held pursuant to 42 CFR Section 488.331 for those health care facilities certified under Medicare or the medical assistance program.

56.15(1) *Definition.* For purposes of these rules, "independent reviewer" means an attorney licensed in the state of Iowa who is not currently employed by the department, has not been employed by the department in the past eight years, and has not appeared in front of the department on behalf of a health care facility in the past eight years. Preference shall be given to an attorney with background knowledge, experience or training in long-term care.

56.15(2) *Request for informal conference.* The request for an informal conference must be in writing, addressed to the compliance officer and include the following:

a. Identification of the citation(s) being disputed;

b. The type of informal conference requested: face-to-face or telephone conference; and

c. A request for surveyor worksheets for the citation(s) being disputed, if desired.

56.15(3) *Submission of documentation.* Within the same ten-day period required for submission of a plan of correction pursuant to 481—subrule 50.10(7), the facility shall submit the following:

a. The names of those who will be attending the informal conference, including legal counsel; and

b. Documentation supporting the facility's position. The facility must highlight or use some other means to identify written information pertinent to the disputed deficiency(ies). Supporting documentation that is not submitted within the required time frame will not be considered, except as otherwise permitted by the independent reviewer upon good cause shown. "Good cause" means substantial or adequate grounds for failing to submit documentation in a timely manner. In determining whether the facility has shown good cause, the independent reviewer shall consider what circumstances kept the facility from submitting the supporting documentation within the required time frame.

56.15(4) *Face-to-face or telephone conference.* A face-to-face or telephone conference, if requested, will be scheduled to occur within ten business days of the receipt by the department of the written request, all supporting documentation, and the plan of correction required by 481—subrule 50.10(7).

a. Failure to submit supporting documentation will not delay scheduling.

b. The conference will be scheduled for one hour to allow the facility to informally present information and explanation concerning the contested deficiencies. Due to the confidential nature of the conference, attendance may be limited.

c. If additional information is requested during the informal conference, the facility will have two business days to deliver the additional materials to the department.

d. When extenuating circumstances preclude a face-to-face conference, a telephone conference will be held or the facility may be given one opportunity to reschedule the face-to-face conference.

56.15(5) *Results.* The results of the informal conference will generally be sent to the facility within ten business days after the date of the informal conference or, if additional information is requested, within ten business days after the department's receipt of the additional information.

a. The independent reviewer may affirm or may modify or dismiss the citation. The independent reviewer shall state in writing the specific reasons for the affirmation, modification or dismissal of the citation.

b. The department will issue an amended (changes in factual content) or corrected (correction of typographical/data errors) citation if changes result from the informal conference.

c. The facility must submit to the department a new plan of correction for the amended or corrected citation within ten calendar days from the date of the letter conveying the results of the informal conference.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10; **ARC 1047C**, IAB 10/2/13, effective 1/1/14; **ARC 2158C**, IAB 9/30/15, effective 11/4/15]

481—56.16(135C) Procedure for facility after informal conference. After the conclusion of an informal conference requested by the licensee and provided pursuant to 56.14(3):

56.16(1) If the facility does not desire to further contest an affirmed or modified citation for a class I, class II or class III violation, the facility shall, within five business days after the informal conference, or within five business days after receipt of the written decision and explanation of the independent reviewer, whichever occurs later, comply with the provisions of subrule 56.14(1).

56.16(2) If the facility does desire to further contest an affirmed or modified citation for a class I, class II or class III violation, the facility shall, within five business days after receipt of the written explanation of the independent reviewer, notify the department of inspections and appeals in writing of the facility's intent to formally contest the citation.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10; **ARC 1047C**, IAB 10/2/13, effective 1/1/14; **ARC 2158C**, IAB 9/30/15, effective 11/4/15]

481—56.17(135C) Formal contest. The procedures for contested cases, as set out in Iowa Code chapter 17A, and the rules adopted by the department of inspections and appeals shall be followed in all cases where proper notice has been made to the department of inspections and appeals of the intent to formally contest any citation.

These rules are intended to implement Iowa Code chapters 10A and 135C.

CHAPTER 57
RESIDENTIAL CARE FACILITIES
[Prior to 7/15/87, Health Department[470] Ch 57]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—57.1(135C) Definitions. The following definitions apply to this chapter and to 481—Chapter 62. The definitions set out in Iowa Code section 135C.1 shall be considered to be incorporated verbatim in these rules.

"Accommodation" means the provision of lodging, including sleeping, dining, and living areas.

"Activities of daily living" means the following self-care tasks: bathing, dressing, grooming, eating, transferring, toileting and ambulation.

"Administrator" means a person approved by the department who administers, manages, supervises, and is in general administrative charge of a residential care facility, whether or not such person has an ownership interest in the facility, and whether or not the functions and duties are shared with one or more other persons.

"Ambulatory" means the condition of a person who immediately and without the aid of another person is physically and mentally capable of traveling a normal path to safety, including the ascent and descent of stairs.

"Basement" means that part of a building where the finish floor is more than 30 inches below the finish grade of the building.

"Board" means the regular provision of meals.

"Change of ownership" means the purchase, transfer, assignment, or lease of a licensed residential care facility.

"Communicable disease" means a disease caused by the presence within a person's body of a virus or microbial agent which may be transmitted either directly or indirectly to other persons.

"Department" means the department of inspections and appeals.

"Distinct part" means a clearly identifiable area or section containing contiguous rooms within a health care facility.

"Interdisciplinary team" means the group of persons who develop a single, integrated, individual program plan to meet a resident's needs for services. The interdisciplinary team consists of, at a minimum, the resident, the resident's legal guardian if applicable, the resident's advocate if desired by the resident, a referral agency representative, other appropriate staff members, other providers of services, and other persons relevant to the resident's needs.

"Legal representative" means the resident's guardian or conservator if one has been appointed or the resident's power of attorney.

"Mechanical restraint" means restriction by the use of a mechanical device of a resident's mobility or ability to use the hands, arms or legs.

"Medication" means any drug, including over-the-counter substances, ordered and administered under the direction of the primary care provider.

"Nonambulatory" means the condition of a person who immediately and without the aid of another person is not physically or mentally capable of traveling a normal path to safety, including the ascent and descent of stairs.

"Personal care" means assistance with the activities of daily living which the recipient can perform only with difficulty. Examples are help in getting in and out of bed, assistance with personal hygiene and bathing, help with dressing and eating, and supervision over medications which can be self-administered.

"Physical restraint" means direct physical contact on the part of a staff person to control a resident's physical activity for the resident's own protection or for the protection of others.

"Primary care provider" means any of the following who provide primary care and meet licensure standards:

1. A physician who is a family or general practitioner or an internist.
2. An advanced registered nurse practitioner.

3. A physician associate.

"Program of care" means all services being provided for a resident in a health care facility.

"Prone restraint" means a restraint in which a resident is in a face-down position against the floor or another surface.

"Rate" means the daily fee that is charged for all residents equally and that includes the cost of all minimum services required in these rules and regulations.

"Records" includes electronic records.

"Responsible party" means the person who signs or cosigns the residency agreement required in rule 481—57.15(135C) or the resident's legal representative. In the event that a resident has neither a legal representative nor a person who signed or cosigned the resident's residency agreement, the term "responsible party" shall include the resident's sponsoring agency, e.g., the department of human services, the U.S. Department of Veterans Affairs, a religious group, fraternal organization, or foundation that assumes responsibility and advocates for its client patients and pays for their health care.

"Restraints" means the measures taken to control a resident's physical activity for the resident's own protection or for the protection of others.

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 3737C**, IAB 4/11/18, effective 5/16/18; **ARC 3738C**, IAB 4/11/18, effective 5/16/18; Editorial change: IAC Supplement 6/10/26]

481—57.2(135C,17A) Waiver. A waiver from these rules may be granted by the director of the department in accordance with 7—Chapter 2504. A request for waiver will be granted or denied by the director within 120 calendar days of receipt.

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 5719C**, IAB 6/16/21, effective 7/21/21; Editorial change: IAC Supplement 8/5/26]

481—57.3(135C) Application for licensure.

57.3(1) *Application and licensing—new facility or change of ownership.* In order to obtain an initial residential care facility license for a facility not currently licensed as a residential care facility or for a residential care facility when a change of ownership is contemplated, the applicant must:

a. Make application at least 30 days prior to the proposed opening date of the facility. Application shall be made on forms provided by the department.

b. Meet all of the rules, regulations, and standards contained in 481—Chapters 50, 57 and 60. Exceptions noted in 481—subrule 60.3(2) shall not apply.

c. Submit a letter of intent and a written résumé of care. The résumé of care shall meet the requirements of subrule 57.3(2).

d. Submit a floor plan of each floor of the residential care facility. The floor plan of each floor shall be drawn on 8½" × 11" paper, show room areas in proportion, room dimensions, window and door locations, designation of the use of each room, and the room numbers for all rooms, including bathrooms.

e. Submit a photograph of the front and side of the residential care facility.

f. Submit the statutory fee for a residential care facility license.

g. Comply with all other local statutes and ordinances in existence at the time of licensure.

h. Submit a certificate signed by the state or local fire inspection authority as to compliance with fire safety rules and regulations.

57.3(2) *Résumé of care.* The résumé of care shall describe the following:

a. Purpose of the facility;

b. Criteria for admission to the facility;

c. Ownership of the facility;

d. Composition and responsibilities of the governing board;

e. Qualifications and responsibilities of the administrator;

f. Medical services provided to residents, to include the availability of emergency medical services in the area and the designation of a primary care provider to be responsible for residents in an emergency;

g. Dental services provided to residents and available in the area;

h. Nursing services provided to residents, if applicable;

i. Personal services provided to residents, including supervision of or assistance with activities of daily living;

j. Activity program;

k. Dietary services, including qualifications of the person in charge, consultation service (if applicable) and meal service;

l. Other services available as applicable, including social services, physical therapy, occupational therapy, and recreational therapy;

m. Housekeeping;

n. Laundry;

o. Physical plant; and

p. Staffing provided to meet residents' needs.

57.3(3) *Renewal application.* In order to obtain a renewal of the residential care facility license, the applicant must submit the following:

a. The completed application form 30 days prior to the annual license renewal date of the residential care facility license;

b. The statutory license fee for a residential care facility;

c. An approved current certificate signed by the state or local fire inspection authority as to compliance with fire safety rules and regulations;

d. Changes to the résumé of care, if any; and

e. Changes to the current residency agreement, if any.

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.4(135C) Issuance of license. Licenses are issued to the person, entity or governmental unit with responsibility for the operation of the facility and for compliance with all applicable statutes, rules and regulations.

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.5(135C) Licenses for distinct parts.

57.5(1) Separate licenses may be issued for distinct parts of a health care facility which are clearly identifiable, contain contiguous rooms, and provide separate categories of care and services.

57.5(2) The following requirements shall be met for separate licensing of a distinct part:

a. The distinct part shall serve only residents who require the category of care and services immediately available to them within that part. (III)

b. The distinct part shall meet all the standards, rules, and regulations pertaining to the category for which a license is being sought.

c. The distinct part must be operationally and financially feasible.

d. Personal care staff with qualifications appropriate to the care and services being rendered must be regularly assigned and working in the distinct part under responsible management. (III)

e. Separately licensed distinct parts may have certain services such as management, building maintenance, laundry and dietary in common with each other.

This rule is intended to implement Iowa Code sections 135C.6(2) and 135C.14.

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.6(135C) Special classifications.

57.6(1) *Memory care.*

a. Designation and application. A residential care facility may choose to care for residents who require memory care in a distinct part of the facility or designate the entire residential care facility as one that provides memory care. Residents in the memory care unit or facility shall meet the level of care requirements for a residential care facility. "Memory care" in a residential care facility means the care of persons with early Alzheimer's-type dementia or other disorders causing dementia. (I, II, III)

(1) Application for approval to provide this category of care shall be submitted by the licensee on a form provided by the department. (III)

(2) Plans to modify the physical environment shall be submitted to the department for review based on the requirements of 481—Chapter 60. (III)

(3) If the unit or facility is to be a locked unit or facility, all locking devices shall meet the Life Safety Code and any requirements of the state fire marshal. If the unit or facility is to be unlocked, a system of security monitoring is required. (I, II, III)

b. Résumé of care. A résumé of care shall be submitted to the department for approval at least 30 days before a separate memory care unit or facility is opened. For facilities with a memory care unit, this résumé of care is in addition to the résumé of care required by subrule 57.3(2). A new résumé of care shall be submitted when services are substantially changed. The résumé of care shall:

(1) Describe the population to be served;

(2) State the philosophy and objectives;

(3) List criteria for transfer to and from the memory care unit or facility;

(4) Include a copy of the floor plan;

(5) List the titles of policies and procedures developed for the unit or facility;

(6) Propose a staffing pattern;

(7) Set out a plan for specialized staff training;

(8) State visitor, volunteer, and safety policies;

(9) Describe programs for activities, social services and families; and

(10) Describe the interdisciplinary team and the role of each team member.

c. Policies and procedures. Separate written policies and procedures shall be implemented in the memory care unit or facility and shall address the following:

(1) Criteria for admission and the preadmission evaluation process. The policy shall require a statement from the primary care provider approving the placement before a resident may be moved into a memory care unit or facility. (II, III)

(2) Safety, including a description of the actions required of staff in the event of a fire, natural disaster, emergency medical event or catastrophic event. Safety procedures shall also explain steps to be taken when a resident is discovered to be missing from the unit or facility and when hazardous cleaning materials or potentially dangerous mechanical equipment is being used in the unit or facility and explain the manner in which the effectiveness of the security system will be monitored. (II, III)

(3) Staffing requirements, including the minimum number, types and qualifications of staff in the unit or facility in accordance with resident needs. (II, III)

(4) Visitation policies, including suggested times for visitation and ensuring the residents' rights to free access to visitors unless visits are contraindicated by the interdisciplinary team. (II, III)

(5) The process and criteria which will be used to monitor and to respond to risks specific to the residents, including but not limited to drug use, restraint use, infections, incidents and acute behavioral events. (II, III)

d. Assessment prior to transfer or admission. Prior to the transfer or admission of a resident applicant to the memory care unit or facility, a complete assessment of the resident applicant's physical, mental, social and behavioral status shall be completed to determine whether the applicant meets admission criteria. This assessment shall be completed by facility staff and shall become part of the resident's permanent record upon admission. (II, III)

e. Staff training. All staff working in a memory care unit or facility shall have training appropriate to the needs of the residents. (I, II, III)

(1) Upon assignment to the unit or facility, all staff working in the unit or facility shall be oriented to the needs of residents requiring memory care. Staff members shall have at least six hours of special training appropriate to their job descriptions within 30 days of assignment to the unit or facility. (I, II, III)

(2) Training shall include the following topics: (II, III)

1. An explanation of Alzheimer's disease and related disorders, including symptoms, behavior and disease progression;

2. Skills for communicating with persons with dementia;

3. Skills for communicating with family and friends of persons with dementia;

4. An explanation of family issues such as role reversal, grief and loss, guilt, relinquishing the caregiving role, and family dynamics;

5. The importance of planned and spontaneous activities;

6. Skills in providing assistance with activities of daily living;

7. Skills in working with challenging residents;

8. Techniques for cueing, simplifying, and redirecting;

9. Staff support and stress reduction;

10. Medication management and nonpharmacological interventions.

(3) Nursing staff, certified medication aides, medication managers, social services personnel, housekeeping and activity personnel shall have a minimum of six hours of in-service training annually. This training shall be related to the needs of memory care residents. The six-hour initial training required in subparagraph 57.6(1)*"e"*(1) shall count toward the required annual in-service training. (II, III)

f. Staffing. There shall be at least one staff person on a memory care unit at all times. (I, II, III)

g. Others living in the memory care unit. A resident not requiring memory care services may live in the memory care unit if the resident's spouse requiring memory care services lives in the unit or if no other beds are available in the facility and the resident or the resident's legal representative consents in writing to the placement. (II, III)

h. Revocation, suspension or denial. The memory care unit license or facility license may be revoked, suspended or denied pursuant to Iowa Code chapter 135C and 481—Chapter 50.

57.6(2) *Residential care facility for persons with an intellectual disability (RCF/ID).*

a. Definition. For purposes of this rule, the following term shall have the meaning indicated.

"Qualified intellectual disability professional" means a psychologist, physician, physician associate, registered nurse, educator, social worker, physical or occupational therapist, speech therapist or audiologist who meets the educational requirements for the profession, as required in the state of Iowa, and has one year's experience working with persons with an intellectual disability.

b. Designation and application. A residential care facility may choose to care for persons with an intellectual disability in a distinct part of the facility or designate the entire residential care facility as a residential care facility for persons with an intellectual disability. Residents shall meet the level of care requirements for a residential care facility. (I, II, III)

(1) Application for approval to provide this category of care shall be submitted by the licensee on a form provided by the department. (III)

(2) Plans to modify the physical environment shall be submitted to the department for review based on the requirements of 481—Chapter 60. (III)

c. Résumé of care. A résumé of care shall be submitted to the department for approval at least 30 days before a residential care facility for persons with an intellectual disability is opened. A new résumé of care shall be submitted when services are substantially changed. The résumé of care shall:

(1) Describe the population to be served;

(2) Include a copy of the floor plan;

(3) List the titles of policies and procedures developed for the unit or facility;

(4) Set out a plan for specialized staff training;

(5) State visitor, volunteer, and safety policies;

(6) Describe programs for activities, social services and families; and

(7) Describe the interdisciplinary team and the role of each team member.

d. Policies and procedures. Separate written policies and procedures shall be implemented in the residential care facility for persons with an intellectual disability and shall address the following:

(1) Criteria for admission and the preadmission evaluation process. The policy shall require a statement from the primary care provider approving the placement before a resident may be moved into a residential care facility for persons with an intellectual disability. The policy shall require a primary diagnosis of an intellectual disability for admission. (II, III)

(2) Safety, including a description of the actions required of staff in the event of a fire, natural disaster, emergency medical event or catastrophic event. (II, III)

(3) Staffing requirements, including the minimum number, types and qualifications of staff in the facility in accordance with resident needs. (II, III)

(4) Visitation policies, including suggested times for visitation and ensuring the residents' rights to free access to visitors unless visits are contraindicated by the interdisciplinary team. (II, III)

(5) The process and criteria which will be used to monitor and to respond to risks specific to the residents, including but not limited to drug use, restraint use, infections, incidents and acute behavioral events. (II, III)

e. Assessment prior to transfer or admission. Prior to the transfer or admission of a resident applicant to the facility, a complete assessment of the resident applicant's physical, mental, social and behavioral status shall be completed to determine whether the applicant meets admission criteria. This assessment shall be completed by facility staff and shall become part of the resident's permanent record upon admission. (II, III)

f. Administrator qualifications. In addition to meeting the requirements of subrule 57.10(1), the administrator of a residential care facility for persons with an intellectual disability shall have at least one year's documented experience in direct care or supervision of persons with an intellectual disability. An individual employed as an administrator on May 16, 2018, will be deemed to meet the requirements of this subrule.

g. In-service educational programming. The in-service educational programming required by paragraph 57.10(2)*"c"* shall include educational programming specific to serving persons with an intellectual disability.

h. Revocation, suspension or denial. The facility license may be revoked, suspended or denied pursuant to Iowa Code chapter 135C and 481—Chapter 50.

This rule is intended to implement Iowa Code sections 135C.2(3)*"b"* and 135C.14.

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 3737C**, IAB 4/11/18, effective 5/16/18; **ARC 6974C**, IAB 4/5/23, effective 5/10/23; Editorial change: IAC Supplement 6/10/26]

481—57.7(135C) General requirements.

57.7(1) The license shall be displayed in the facility in a conspicuous place which is accessible to the public. (III)

57.7(2) The license shall be valid only in the possession of the licensee to whom it is issued.

57.7(3) The posted license shall accurately reflect the current status of the residential care facility. (III)

57.7(4) The license shall expire one year after the date of issuance or as indicated on the license.

57.7(5) The licensee shall:

a. Assume the responsibility for the overall operation of the residential care facility. (I, II, III)

b. Be responsible for compliance with all applicable laws and with the rules of the department. (I, II, III)

c. Provide an organized continuous 24-hour program of care commensurate with the needs of the residents. (I, II, III)

57.7(6) Each citation or a copy of each citation issued by the department for a class I or class II violation shall be prominently posted by the facility in plain view of the residents, visitors, and persons inquiring about placement in the facility. The citation or copy of the citation shall remain posted until the violation is corrected to the satisfaction of the department. (I, II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.8(135C) Certified volunteer long-term care ombudsman program. A certified volunteer long-term care ombudsman appointed in accordance with Iowa Code section 231.45 shall operate within the scope of the rules for volunteer ombudsmen promulgated by the office of the long-term care ombudsman and the Iowa department on aging.

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.9(135C) Required notifications to the department. The department shall be notified:

57.9(1) Thirty days before any proposed change in the residential care facility's functional operation or addition or deletion of required services; (III)

57.9(2) Thirty days before the beginning of the renovation, addition, functional alteration, change of space utilization, or conversion in the residential care facility or on the premises; (III)

57.9(3) Thirty days before closure of the residential care facility; (III)

57.9(4) Within two weeks of any change in administrator; (III)

57.9(5) Ninety days before a change in the category of license; (III)

57.9(6) Thirty days before a change of ownership, the licensee shall:

a. Inform the department of the pending change of ownership; (III)

b. Inform the department of the name and address of the prospective purchaser, transferee, assignee, or lessee; (III)

c. Submit a written authorization to the department permitting the department to release all information of whatever kind from the department's files concerning the licensee's residential care facility to the named prospective purchaser, transferee, assignee, or lessee. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.10(135C) Administrator. Each residential care facility shall have one person in charge, duly approved by the department or acting in a provisional capacity in accordance with these rules. (III)

57.10(1) *Qualifications of an administrator.*

a. The administrator shall be at least 21 years of age and shall have a high school diploma or equivalent. (III) In addition, this person shall meet at least one of the following conditions:

(1) Have a two-year degree in human services, psychology, sociology, nursing, health care administration, public administration, or a related field and have a minimum of two years' experience in the field; or (III)

(2) Have a four-year degree in human services, psychology, sociology, nursing, health care administration, public administration, or a related field and have a minimum of one year experience in the field; or (III)

(3) Have a master's degree in human services, psychology, sociology, nursing, health care administration, public administration, or a related field and have a minimum of one year experience in the field; or (III)

(4) Be a licensed nursing home administrator; or (III)

(5) Have completed a one-year educational training program approved by the department for residential care facility administrators; or (III)

(6) Have passed the National Association of Long Term Care Administrator Boards (NAB) RC/AL administrator licensure examination; or

(7) Have two years of direct care experience and at least six months of administrative experience in a residential care facility. (III)

b. An individual employed as an administrator on January 14, 2015, will be deemed to meet the requirements of this subrule.

57.10(2) *Duties of an administrator.* The administrator shall:

a. Select and direct competent personnel who provide services for the residential care program. (III)

b. Arrange for the heads of nursing, social services, dietary and activities to attend a minimum of ten contact hours of educational programs per year to increase skills and knowledge needed for their positions. The ten hours is in addition to the in-service requirements in paragraph 57.10(2)*"c."* (III)

c. Provide in-service educational programming for all employees with direct resident contact and maintain records of programs and participants. (III) In-service educational programming offered during each calendar year shall include, at minimum, the following topics: (I, II, III)

(1) Infection control.

(2) Emergency preparedness (fire, tornado, flood, 911, etc.).

(3) Meal time procedures/dietary.

(4) Resident activities.

(5) Mental illness/behavior modification/crisis intervention.

(6) Resident safety/supervision.

(7) Resident rights.

(8) Medication education, to include administration, storage and drug interactions.

(9) Resident service plans/programming/goals.

57.10(3) *Administrator serving at more than one residential care facility.* The administrator may be responsible for no more than 150 beds in total if the administrator is an administrator of more than one facility. (II)

a. An administrator of more than one facility shall designate in writing an administrative staff person in each facility who shall be responsible for directing programs in the facility.

b. The administrative staff person designated by the administrator shall:

(1) Have at least one year of experience in a supervisory or direct care position in a residential care facility or in a facility for the intellectually disabled, mentally ill or developmentally disabled; (II, III)

(2) Be knowledgeable of the operation of the facility; (II, III)

(3) Have access to records concerned with the operation of the facility; (II, III)

(4) Be capable of carrying out administrative duties and of assuming administrative responsibilities; (II, III)

(5) Be at least 21 years of age; (III)

(6) Be empowered to act on behalf of the licensee concerning the health, safety and welfare of the residents; and (II, III)

(7) Have training in emergency response, including how to respond to residents' sudden illnesses. (II, III)

c. If an administrator serves more than one facility, the administrator must designate in writing regular and specific times during which the administrator will be available to consult with staff and residents to provide direction and supervision of resident care and services. (II, III)

57.10(4) *Provisional administrator.* A provisional administrator may be appointed on a temporary basis by the residential care facility licensee to assume the administrative responsibilities for a residential care facility for a period not to exceed one year when the facility has lost its administrator and has not been able to replace the administrator, provided that the department has been notified and approved the provisional administrator prior to the date of the provisional administrator's appointment. (III) The provisional administrator must meet the requirements of paragraph 57.10(3)*"b."*

57.10(5) *Temporary absence of administrator.*

a. In the temporary absence of the administrator, a responsible person shall be designated in writing to the department to be in charge of the facility. (III) The person designated shall:

(1) Be knowledgeable of the operation of the facility; (III)

(2) Have access to records concerned with the operation of the facility; (III)

(3) Be capable of carrying out administrative duties and of assuming administrative responsibilities; (III)

(4) Be at least 21 years of age; (III)

(5) Be empowered to act on behalf of the licensee during the administrator's absence concerning the health, safety, and welfare of the residents; (III)

(6) Have training in emergency response, including how to respond to residents' sudden illnesses. (II, III)

b. If the administrator is absent for more than six weeks, a provisional administrator must be appointed pursuant to subrule 57.10(4).

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.11(135C) Personnel.

57.11(1) *Alcohol and drug use prohibited.* No person under the influence of intoxicating drugs or alcoholic beverages shall be permitted to provide services in a residential care facility. (I, II)

57.11(2) *Job description.* There shall be a written job description developed for each category of worker. The job description shall include the job title, responsibilities and qualifications. (III)

57.11(3) *Employee criminal record checks, child abuse checks and dependent adult abuse checks and employment of individuals who have committed a crime or have a founded abuse.* The facility shall comply with the requirements found in Iowa Code section 135C.33 as amended by 2014 Iowa Acts, chapter 1040, and rule 481—50.9(135C) related to completion of criminal record checks, child abuse checks, and

dependent adult abuse checks and to employment of individuals who have committed a crime or have a founded abuse. (I, II, III)

57.11(4) *Personnel record.* A personnel record shall be kept for each employee and shall include but not be limited to the following information about the employee: name and address, social security number, date of birth, date of employment, position, experience and education, references, results of criminal record checks, child abuse checks and dependent adult abuse checks, and date of discharge or resignation. (III)

57.11(5) *Supervision and staffing.*

a. The facility shall provide sufficient staff to meet the needs of the residents served. (I, II, III)

b. Personnel in a residential care facility shall provide 24-hour coverage for residential care services. Personnel shall be awake at all times while on duty. (I, II, III)

c. Direct care staff shall be present in the facility unless all residents are involved in activities away from the facility. (I, II, III)

d. Staff shall be aware of and provide supervision levels based on the present needs of the residents in the staff's care. The facility shall document the supervision of residents who require more than general supervision, as defined by facility policy. (I, II, III)

e. The facility shall maintain an accurate record of actual hours worked by employees. (III)

57.11(6) *Physical examination and screening.* Employees shall have a physical examination no longer than 12 months prior to beginning employment and every four years thereafter. Screening and testing for tuberculosis shall be conducted pursuant to 481—Chapter 59. (I, II, III)

57.11(7) *Orders for medications and treatments.* Orders for medications and treatments shall be correctly implemented by qualified personnel. (I, II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 2273C**, IAB 12/9/15, effective 1/13/16]

481—57.12(135C) General policies. The licensee shall establish and implement written policies and procedures as set forth in this rule. The policies and procedures shall be available for review by the department, other agencies designated by Iowa Code section 135C.16(3), staff, residents, residents' families or legal representatives, and the public and shall be reviewed by the licensee annually. (II)

57.12(1) *Facility operation.* The licensee shall establish written policies for the operation of the facility, including, but not limited to the following: (III)

a. Personnel; (III)

b. Admission; (III)

c. Evaluation services; (II, III)

d. Programming and individual program plans; (II, III)

e. Registered sex offender management; (II, III)

f. Crisis intervention; (II, III)

g. Discharge or transfer; (III)

h. Medication management, including self-administration of medications and chemical restraints; (III)

i. Resident property; (II, III)

j. Resident finances; (II, III)

k. Records; (III)

l. Health and safety; (II, III)

m. Nutrition; (III)

n. Physical facilities and maintenance; (III)

o. Resident rights; (II, III)

p. Investigation and reporting of alleged dependent adult abuse; (II, III)

q. Investigation and reporting of accidents or incidents; (II, III)

r. Transportation of residents; (II, III)

s. Resident supervision; (II, III)

t. Smoking; (III)

u. Visitors; (III)

v. Disaster/emergency planning; (III) and

w. Infection control. (III)

57.12(2) *Personnel policies.* Written personnel policies shall include the hours of work and attendance at educational programs. (III)

57.12(3) *Infection control.* The facility shall have a written and implemented infection control program, which shall include policies and procedures based on guidelines issued by the Centers for Disease Control and Prevention, U.S. Department of Health and Human Services. The infection control program shall address the following:

a. Techniques for hand washing; (I, II, III)

b. Techniques for handling of blood, body fluids, and body wastes; (I, II, III)

c. Dressings, soaks or packs; (I, II, III)

d. Infection identification; (I, II, III)

e. Resident care procedures to be used when there is an infection present; (I, II, III)

f. Sanitation techniques for resident care equipment; (I, II, III)

g. Techniques for sanitary use and reuse of feeding syringes and single-resident use and reuse of urine collection bags; (I, II, III) and

h. Techniques for use and disposal of needles, syringes, and other sharp instruments. (I, II, III)

57.12(4) *Resident care techniques.* The facility shall have written and implemented procedures to be followed if a resident needs any of the following treatment or devices:

a. Intravenous or central line catheter; (I, II, III)

b. Urinary catheter; (I, II, III)

c. Respiratory suction, oxygen or humidification; (I, II, III)

d. Decubitus care; (I, II, III)

e. Tracheostomy; (I, II, III)

f. Nasogastric or gastrostomy tubes; (I, II, III)

g. Sanitary use and reuse of feeding syringes and single-resident use and reuse of urine collection bags. (I, II, III)

57.12(5) *Emergency care.* The facility shall establish written policies for the provision of emergency medical care to residents and employees in case of sudden illness or accident. The policies shall include a list of those individuals to be contacted in case of an emergency. (I, II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.13(135C) Admission, transfer and discharge.

57.13(1) *General admission policies.*

a. Residents shall be admitted to a residential care facility only on a written order signed by a primary care provider, specifying the level of care, and certifying that the individual being admitted requires no more than personal care and supervision and does not require routine nursing care. (II, III)

b. No residential care facility shall admit or retain a resident who is in need of greater services than the facility can provide. (I, II, III)

c. No residential care facility shall admit more residents than the number of beds for which the facility is licensed. (II, III)

d. A residential care facility is not required to admit an individual through court order, referral or other means without the express prior approval of the administrator. (III)

e. The admission of a resident shall not grant the residential care facility the authority or responsibility to manage the personal affairs of the resident except as may be necessary for the safety of the resident and the safe and orderly management of the residential care facility as required by these rules. (III)

f. Individuals under the age of 18 shall not be admitted to a residential care facility without prior written approval by the department. A distinct part of a residential care facility, segregated from the adult section, may be established based on a résumé of care that is submitted by the licensee or applicant and is commensurate with the needs of the residents of the residential care facility and that has received the department's review and approval. (III)

g. No health care facility and no owner, administrator, employee or representative thereof shall act as guardian, trustee, or conservator for any resident's property unless such resident is related within the third degree of consanguinity to the person acting as guardian. (III)

57.13(2) *Discharge or transfer.*

a. Notification shall be made to the legal representative, primary care provider, and sponsoring agency, if any, prior to the transfer or discharge of any resident. (III)

b. The licensee shall not refuse to discharge or transfer a resident when the primary care provider, family, resident, or legal representative requests such transfer or discharge. (II, III)

c. Advance notification will be made to the receiving facility prior to the transfer of any resident. (III)

d. When a resident is transferred or discharged, the appropriate record will accompany the resident to ensure continuity of care. "Appropriate record" includes the resident's face sheet, service plan, most recent orders of the primary care provider and any notifications of upcoming scheduled appointments. (II, III)

e. When a resident is transferred or discharged, the resident's unused prescriptions shall be sent with the resident or with a legal representative only upon the written order of a primary care provider. (II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.14(135C) Involuntary discharge or transfer.

57.14(1) *Involuntary discharge or transfer permitted.* A facility may involuntarily discharge or transfer a resident for only one of the following reasons:

a. Medical reasons;

b. The resident's welfare or that of other residents;

c. Repeated refusal by the resident to participate in the resident's service plan;

d. Due to action pursuant to Iowa Code chapter 229; or

e. Nonpayment for the resident's stay, as described in the residency agreement for the resident's stay.

57.14(2) *Medical reasons.* Medical reasons for transfer or discharge shall be based on the resident's needs and shall be determined and documented in the resident's record by the primary care provider. Transfer or discharge may be required in order to provide a different level of care to the resident. (II)

57.14(3) *Welfare of a resident.* Welfare of a resident or that of other residents refers to a resident's social, emotional, or physical well-being. A resident may be transferred or discharged because the resident's behavior poses a continuing threat to the resident (e.g., suicidal) or to the well-being of other residents or staff (e.g., the resident's behavior is incompatible with other residents' needs and rights). Written documentation that the resident's continued presence in the facility would adversely affect the resident's own welfare or that of other residents shall be made by the administrator or designee and shall include specific information to support this determination. (II)

57.14(4) *Notice.* Involuntary transfer or discharge of a resident from a facility shall be preceded by a written notice to the resident and the responsible party. (II, III)

a. The notice shall contain all of the following information:

(1) The stated reason for the proposed transfer or discharge. (II)

(2) The effective date of the proposed transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads as follows:

> You have a right to appeal the facility's decision to transfer or discharge you. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as "department") within seven days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department and you will not be transferred prior to a final decision. In emergency circumstances, extension of the 14-day requirement may be permitted upon request to the department's designee. If you lose the hearing, you will not be transferred before the expiration of (1) 30 days following receipt of the original notice of the discharge or transfer, or (2) 5 days following final decision of such hearing, including exhaustion of all appeals, whichever occurs later. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator,

Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083. (II)

b. The notice shall be personally delivered to the resident and a copy placed in the resident's record. A copy shall also be transmitted to the department; the resident's responsible party; the resident's primary care provider; the person or agency responsible for the resident's placement, maintenance, and care in the facility; and the department on aging's long-term care ombudsman. The notice shall indicate that a copy has been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent. (II)

c. The notice required by paragraph 57.14(4)*"a"* shall be provided at least 30 days in advance of the proposed transfer or discharge unless one of the following occurs: (II)

(1) An emergency transfer or discharge is mandated by the resident's health care needs and is in accordance with the written orders and medical justification of the primary care provider. Emergency transfers or discharges may also be mandated in order to protect the health, safety, or well-being of other residents and staff from the resident being transferred. (II)

(2) The transfer or discharge is subsequently agreed to by the resident or the resident's responsible party, and notification is given to the responsible party, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility.

d. A hearing requested pursuant to this subrule shall be held in accordance with subrule 57.14(6).

57.14(5) *Emergency transfer or discharge.* In the case of an emergency transfer or discharge, the resident must be given a written notice prior to or within 48 hours following transfer or discharge. (II, III)

a. A copy of this notice must be placed in the resident's file. The notice must contain all of the following information:

(1) The stated reason for the transfer or discharge. (II)

(2) The effective date of the transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads:

You have a right to appeal the facility's decision to transfer or discharge you on an emergency basis. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals within 7 days after receiving this notice. You have the right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department. You may be transferred or discharged before the hearing is held or before a final decision is rendered. If you win the hearing, you have the right to be transferred back into the facility. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083. (II)

b. The notice shall be personally delivered to the resident and a copy placed in the resident's record. A copy shall also be transmitted to the department; the resident's responsible party; the resident's primary care provider; the person or agency responsible for the resident's placement, maintenance, and care in the facility; and the department on aging's long-term care ombudsman. The notice shall indicate that a copy has been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent. (II)

c. A hearing requested pursuant to this subrule shall be held in accordance with subrule 57.14(6).

57.14(6) *Hearing.*

a. Request for hearing.

(1) The resident must request a hearing within 7 days of receiving the written notice.

(2) The request must be made to the department, either in writing or verbally.

b. The hearing shall be held no later than 14 days after receipt of the request by the department unless the resident requests an extension due to emergency circumstances.

c. Except in the case of an emergency discharge or transfer, a request for a hearing shall stay a transfer or discharge pending a final decision, including the exhaustion of all appeals. (II)

d. The hearing shall be heard by a department of inspections and appeals administrative law judge pursuant to Iowa Code chapter 17A and 7—Chapter 2506. The hearing shall be public unless the resident or the resident's legal representative requests in writing that the hearing be closed. In a determination as to whether a transfer or discharge is authorized, the burden of proof by a preponderance of evidence rests on the party requesting the transfer or discharge.

e. Notice of the date, time, and place of the hearing shall be sent by certified mail or delivered in person to the facility, the resident, the responsible party, and the office of the long-term care ombudsman not later than 5 full business days after receipt of the request. The notice shall also inform the facility and the resident or the responsible party that they have a right to appear at the hearing in person or be represented by an attorney or other individual. The appeal shall be dismissed if neither party is present or represented at the hearing. If only one party appears or is represented, the hearing shall proceed with one party present. A representative of the office of the long-term care ombudsman shall have the right to appear at the hearing.

f. The administrative law judge's written decision shall be mailed by certified mail to the licensee, resident, responsible party, and the office of the long-term care ombudsman within 10 working days after the hearing has been concluded.

57.14(7) *Nonpayment.* If nonpayment is the basis for involuntary transfer or discharge, the resident shall have the right to make full payment up to the date that the discharge or transfer is to be made and then shall have the right to remain in the facility. (II)

57.14(8) *Discussion of involuntary transfer or discharge.* Within 48 hours after notice of involuntary transfer or discharge has been received by the resident, the facility shall discuss the involuntary transfer or discharge with the resident, the resident's responsible party, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. (II)

a. The facility administrator or other appropriate facility representative serving as the administrator's designee shall provide an explanation and discussion of the reasons for the resident's involuntary transfer or discharge. (II)

b. The content of the explanation and discussion shall be summarized in writing, shall include the names of the individuals involved in the discussion, and shall be made part of the resident's record. (II)

c. The provisions of this subrule do not apply if the involuntary transfer or discharge has already occurred pursuant to subrule 57.14(5) and emergency notice is provided within 48 hours.

57.14(9) *Transfer or discharge planning.*

a. The facility shall develop a plan to provide for the orderly and safe transfer or discharge of each resident to be transferred or discharged. (II)

b. To minimize the possible adverse effects of the involuntary transfer, the resident shall receive counseling services by the sending facility before the involuntary transfer and by the receiving facility after the involuntary transfer. Counseling shall be documented in the resident's record. (II)

c. The counseling requirement in paragraph 57.14(9)*"b"* does not apply if the discharge has already occurred pursuant to subrule 57.14(5) and emergency notice is provided within 48 hours.

d. Counseling, if required, shall be provided by a licensed mental health professional as defined in Iowa Code section 228.1(6).

e. The receiving health care facility of a resident involuntarily transferred shall immediately formulate and implement a plan of care which takes into account possible adverse effects the transfer may cause. (II)

57.14(10) *Transfer upon revocation of license or voluntary closure.* Residents shall not have the right to a hearing to contest an involuntary discharge or transfer resulting from the revocation of the facility's license by the department of inspections and appeals. In the case of the voluntary closure of a facility, a period of 30 days must be allowed for an orderly transfer of residents to other facilities.

57.14(11) *Intrafacility transfer.*

a. Residents shall not be arbitrarily relocated from room to room within a licensed health care facility. (I, II) Involuntary relocation may occur only in the following situations, which shall be documented in the resident's record: (II)

(1) Incompatibility with or disturbing to other roommates.

(2) For the welfare of the resident or other residents of the facility.

(3) To allow a new admission to the facility that would otherwise not be possible due to separation of roommates by sex.

(4) In the case of a resident whose source of payment was previously private, but who now is eligible for Title XIX (Medicaid) assistance, the resident may be transferred from a private room to a semiprivate room or from one semiprivate room to another.

(5) Reasonable and necessary administrative decisions regarding the use and functioning of the building.

b. Unreasonable and unjustified reasons for changing a resident's room without the concurrence of the resident or responsible party include:

(1) Change from private pay status to Title XIX, except as outlined in subparagraph 57.14(11)*"a"*(4). (II)

(2) As punishment or behavior modification, except as specified in subparagraph 57.14(11)*"a"*(1). (II)

(3) Discrimination on the basis of race or religion. (II)

c. If intrafacility relocation is necessary for reasons outlined in paragraph 57.14(11)*"a,"* the resident shall be notified at least 48 hours prior to the transfer and the reason therefor shall be explained. The responsible party shall be notified as soon as possible. The notification shall be documented in the resident's record and signed by the resident or responsible party. (II, III)

d. If emergency relocation is required in order to protect the safety or health of the resident or other residents, the notification requirements may be waived. The conditions of the emergency shall be documented. The family or responsible party shall be notified immediately or as soon as possible of the condition that necessitates emergency relocation, and such notification shall be documented. (II, III)

e. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility, and not as an intrafacility transfer. (II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 3523C**, IAB 12/20/17, effective 1/24/18; Editorial change: IAC Supplement 8/5/26]

481—57.15(135C) Residency agreement.

57.15(1) Each residency agreement shall:

a. State the base rate or scale per day or per month, the services included, and the method of payment. (III)

b. Contain a complete schedule of all offered services for which a fee may be charged in addition to the base rate. (III) Furthermore, the agreement shall:

(1) Stipulate that no further additional fees shall be charged for items not contained in the complete schedule of services; (III)

(2) State the method of payment for additional charges; (III)

(3) Contain an explanation of the method of assessment of such additional charges and an explanation of the method of periodic reassessment, if any, resulting in changing such additional charges; (III)

(4) State that additional fees may be charged to the resident for nonprescription drugs, other personal supplies, and services provided by a barber, beautician, and such. (III)

c. Contain an itemized list of services to be provided to the resident based on an assessment at the time of the resident's admission and in consultation with the administrator and including the specific fee the resident will be charged for each service and the method of payment. (III)

d. Include the total fee to be charged initially to the resident. (III)

e. State the conditions whereby the facility may make adjustments to its overall fees for resident care as a result of changing costs. (II, III) Furthermore, the agreement shall provide that the facility shall give:

(1) Written notification to the resident, or the responsible party when appropriate, of changes in the overall rates of both base and additional charges at least 30 days prior to the effective date of such changes; (II, III)

(2) Notification to the resident, or the responsible party when appropriate, of changes in additional charges, based on a change in the resident's condition. Notification must occur prior to the date such revised additional charges begin. If notification is given orally, subsequent written notification must also be given within a reasonable time, not to exceed one week, listing specifically the adjustments made. (II, III)

f. State the terms of agreement in regard to a refund of all advance payments in the event of the transfer, death, or voluntary or involuntary discharge of the resident. (II, III)

g. State the terms of agreement concerning the holding of and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons. The terms shall contain a provision that the bed will be held at the request of the resident or the resident's responsible party. (II, III)

(1) The facility shall ask the resident or responsible party whether the resident's bed should be held. This request shall be made before the resident leaves or within 48 hours after the resident leaves. The inquiry and the response shall be documented. (II, III)

(2) The facility shall inform the resident or responsible party that, when requested, the bed may be held beyond the number of days designated by the funding source, as long as payments are made in accordance with the agreement. (II, III)

h. State the conditions under which the involuntary discharge or transfer of a resident would be effected. (II, III)

i. Set forth any other matters deemed appropriate by the parties to the agreement. No agreement or any provision thereof shall be drawn or construed so as to relieve any health care facility of any requirement or obligation imposed upon it by this chapter or any standards or rules in force pursuant to this chapter. (II, III)

57.15(2) Each party to the residency agreement shall receive a copy of the signed agreement. (II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.16(135C) Medical examinations.

57.16(1) Each resident in a residential care facility shall have a designated primary care provider who may be contacted when needed. (II, III)

57.16(2) Each resident admitted to a residential care facility shall have a physical examination prior to admission. (II, III)

a. If the resident is admitted directly from a hospital, a copy of the hospital admission physical and discharge summary may be a part of the record in lieu of an additional physical examination. A record of the examination, signed by the primary care provider, shall be a part of the resident's record. (II, III)

b. The record of the admission physical examination and medical history shall portray the current medical status of the resident and shall include the resident's name, sex, age, medical history, physical examination, diagnosis, statement of medical concerns, diet, and results of any diagnostic procedures. (II, III)

c. Screening and testing for tuberculosis shall be conducted pursuant to 481—Chapter 59. (I, II, III)

57.16(3) The person in charge shall immediately notify the primary care provider of any accident, injury or adverse change in the resident's condition that has the potential for requiring physician intervention. (I, II, III)

57.16(4) Each resident shall be visited by or shall visit the resident's primary care provider at least once each year. The one-year period shall be measured from the date of admission and does not include the resident's preadmission physical. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.17(135C) Records.

57.17(1) *Resident record.* The licensee shall keep a permanent record on every resident admitted to the residential care facility, and all entries in the permanent record shall be current, dated, and signed. (III) The record shall include:

a. Name and previous address of resident; (III)

b. Birth date, sex, and marital status of resident; (III)

c. Church affiliation, if designated; (III)

d. Primary care provider's name, telephone number, and address; (III)

e. Dentist's name, telephone number, and address; (III)

f. Name, address, and telephone number of next of kin or legal representative; (III)

g. Name, address, and telephone number of person to be notified in case of emergency; (III)

h. Pharmacy name, telephone number, and address; (III)

i. Mortuary name, telephone number, and address, if designated; (III)

j. Physical examination and medical history; (III)

k. Primary care provider's orders for the resident's level of care, medication, treatments, and diet. The orders shall be in writing and signed by the primary care provider quarterly; (III)

l. A notation of visits to primary care provider and other professional services; (III)

m. Documentation regarding services provided by other providers, including but not limited to home health agencies, hospice, day treatment and those providing medical, mental health and Medicaid waiver services; (III)

n. Documentation of any adverse change in the resident's condition; (II, III)

o. A notation describing the resident's condition on admission, transfer and discharge; (III)

p. A copy of instructions given to the resident, legal representative or facility in the event of discharge or transfer; (III)

q. In the event of a resident's death, notations of the date and time of the resident's death, the circumstances of the resident's death, the disposition of the resident's body, and the date and time the resident's family and primary care provider were notified of the resident's death; and (III)

r. A notation of disposition of personal property and medications upon the resident's transfer, discharge or death. (III)

57.17(2) *Confidentiality of resident records.* Each resident shall be ensured confidential treatment of all information contained in the resident's records. The resident's written consent shall be required for the release of information to persons not otherwise authorized under law to receive the information. (II)

a. The facility shall limit access to any medical records to staff and professionals providing services to the resident. (II)

b. The facility shall limit access to the resident's personal records, e.g., financial records and social services records, to staff and professionals providing the service to the resident. Only those personnel concerned with the financial affairs of the resident may have access to the financial records. (II)

c. The resident, or the resident's responsible party, shall be entitled to examine all information contained in the resident's record and shall have the right to secure full copies of the record at reasonable cost upon request, unless the primary care provider determines that the disclosure of the record or section thereof is contraindicated, in which case this information will be deleted prior to making the record available to the resident or responsible party. This determination and the reasons for it must be documented in the resident's record. (II)

d. This subrule is not meant to preclude access to resident records by representatives of state and federal regulatory agencies.

57.17(3) *Incident record.*

a. Each residential care facility shall maintain an incident record report and shall have available incident report forms. (II, III)

b. Report of incidents shall be in detail on an incident report form. (III)

c. The person in charge at the time of the incident shall oversee the preparation of and sign the incident report. The administrator or designee shall review, sign and date the incident report within 72 hours of the accident, incident or unusual occurrence. (II, III)

d. An incident report shall be completed for every accident or incident where there is apparent injury or where an injury of unknown origin may have occurred. (II)

e. An incident report shall be completed for every accident, incident or unusual occurrence within the facility or on the premises that affects a resident, visitor, or employee. (II, III)

f. A copy of the incident report shall be kept on file in the facility. (II, III)

57.17(4) *Retention of records.*

a. Records shall be retained in the facility for five years following the termination of services to a resident. (III)

b. Records shall be retained within the facility upon change of ownership. (III)

c. When the facility ceases to operate, a copy of the resident's record shall be released to the facility to which the resident is transferred. (III)

d. When the facility ceases to operate, records shall be maintained for five years in a clean, dry secured storage area. (III)

57.17(5) *Electronic records.* In addition to the access provided in 481—subrule 50.10(2), an authorized representative of the department shall be provided unrestricted access to electronic records pertaining to the care provided to the residents of the facility. (II, III)

a. If access to an electronic record is requested by the authorized representative of the department, the facility may provide a tutorial on how to use its particular electronic system or may designate an individual who will, when requested, access the system, respond to any questions or assist the authorized representative as needed in accessing electronic information in a timely fashion. (II, III)

b. The facility shall provide a terminal where the authorized representative may access records. (II, III)

c. If the facility is unable to provide direct print capability to the authorized representative, the facility shall make available a printout of any record or part of a record on request in a time frame that does not intentionally prevent or interfere with the department's survey or investigation. (II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.18(135C) Resident care and personal services.

57.18(1) A complete change of bed linen shall be provided at least once a week and more often if necessary. (III)

57.18(2) Residents shall receive sufficient supervision to promote personal cleanliness. (II, III)

57.18(3) Residents shall have clean clothing as needed. Clothing shall be appropriate to residents' activities and to the weather. (III)

57.18(4) Residents shall be encouraged to bathe at least twice a week. (II, III)

57.18(5) All nonambulatory residents shall be housed on the grade level floor unless the facility has a suitably sized elevator. (II)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.19(135C) Drugs.

57.19(1) *Drug storage.*

a. Residents who have been certified in writing by their primary care provider as capable of taking their own medications may retain these medications in their bedroom, but locked storage must be provided, with staff and the resident having access. Monitoring of the storage, administration and documentation by the resident shall be carried out by a person who meets the requirements of subrule 57.19(3) and is responsible for administering medications. (II, III)

b. Drug storage for residents who are unable to take their own medications and require supervision shall meet the following requirements:

(1) Locked storage for drugs, solutions, and prescriptions shall be provided. (III)

(2) A bathroom shall not be used for drug storage. (III)

(3) The drug storage shall be kept locked when not in use. (III)

(4) The drug storage key shall be secured and available only to those employees charged with the responsibility of administering medications. (II, III)

(5) Schedule II drugs, as defined by Iowa Code chapter 124, shall be kept in a locked box within the locked drug storage. (II, III)

(6) Medications requiring refrigeration shall be kept locked in a refrigerator and separated from food and other items. (II, III)

(7) Drugs for external use shall be stored separately from drugs for internal use. (II, III)

(8) All potent, poisonous, or caustic materials shall be stored separately from drugs, shall be plainly labeled and stored in a specific, well-illuminated cabinet, closet, or storeroom, and shall be made accessible only to authorized persons. (I, II)

(9) Inspection of drug storage shall be made by the administrator or designee and a registered pharmacist not less than once every three months. The inspection shall be verified by a report signed by the administrator and the pharmacist and filed with the administrator. The report shall include, but not be limited to, certification of the absence of the following: expired drugs, deteriorated drugs, improper labeling, drugs for which there is no current primary care provider's order, and drugs improperly stored. (III)

(10) Bulk supplies of prescription drugs for multiresident use shall not be kept in a residential care facility. (III)

57.19(2) *Drug safeguards.*

a. All prescribed medications shall be clearly labeled indicating the resident's full name, primary care provider's name, prescription number, name and strength of drug, dosage, directions for use, date of issue, and name and address and telephone number of pharmacy or primary care provider issuing the drug. Where unit dose is used, prescribed medications shall, at a minimum, indicate the resident's full name, primary care provider's name, name and strength of drug, and directions for use. Standard containers shall be utilized for dispensing drugs. (III)

b. Sample medications provided by the resident's primary care provider shall clearly identify to whom the medications belong. (III)

c. Medication containers having soiled, damaged, illegible, or makeshift labels shall be returned to the issuing pharmacist, pharmacy, or primary care provider for relabeling or disposal. (III)

d. The medication for each resident shall be kept or stored in the original containers unless the resident is participating in an individualized medication program. (II, III)

e. Unused prescription drugs shall be destroyed by the person in charge, in the presence of a witness, and with a notation made on the resident's record or shall be returned to the supplying pharmacist. (III)

f. Prescriptions shall be refilled only with the permission of the resident's primary care provider. (II, III)

g. No medications prescribed for one resident may be administered to or allowed in the possession of another resident. (I, II)

h. Instructions shall be requested from the Iowa board of pharmacy concerning disposal of unused Schedule II drugs prescribed for a resident who has died or for whom the Schedule II drug was discontinued. (III)

i. Discontinued medications shall be destroyed within a specified time by a responsible person, in the presence of a witness, and with a notation made to that effect or shall be returned to the pharmacist for destruction. Drugs listed under the Schedule II drugs shall be destroyed in accordance with the requirements established by the Iowa board of pharmacy. (II, III)

j. All medication orders which do not specifically indicate the number of doses to be administered or the length of time the drug is to be administered shall be stopped automatically after a given time period. The automatic-stop order may vary for different types of drugs. The resident's primary care provider, in conjunction with the pharmacist, shall institute these policies and provide procedures for review and endorsement. (II, III)

k. No resident shall be allowed to possess any medications unless the primary care provider has certified in writing on the resident's medical record that the resident is mentally and physically capable of doing so. (II)

l. No medications or prescription drugs shall be administered to a resident without a written order signed by the primary care provider. (II)

m. The facility shall establish a policy to govern the distribution of prescribed medications to residents who are on leave from the facility. (II, III)

(1) Medications may be issued to residents who will be on leave from a facility for less than 24 hours. Only those medications needed for the time period the resident will be on leave from the facility may be issued. Non-child-resistant containers may be used. Instructions shall be provided and include the date, the

resident's name, the name of the facility, and the name of the medication, its strength, dose and time of administration. (II, III)

(2) Medication for residents on leave from a facility for longer than 24 hours shall be obtained in accordance with requirements established by the Iowa board of pharmacy. (II, III)

(3) Medication for residents on leave from a facility may be issued only by facility personnel responsible for administering medication. (II, III)

57.19(3) *Drug administration—authorized personnel.*

a. A properly trained person shall be charged with the responsibility of administering medications as ordered by a primary care provider. (II, III)

b. The person shall have knowledge of the purpose of the drugs and their dangers and contraindications. (II, III)

c. The person shall be a licensed nurse or primary care provider or shall have successfully completed a department-approved medication aide course and passed a department-approved medication aide challenge examination administered by an area community college. (II, III)

d. Prior to taking a department-approved medication aide course, the person shall have a letter of recommendation for admission to the medication aide course from the employing facility. (III)

e. A person who is a nursing student or a graduate nurse may take the challenge examination in place of taking a medication aide course. The person shall do all of the following before taking the medication aide challenge examination:

(1) Complete a clinical or nursing theory course within six months before taking the challenge examination; (III)

(2) Successfully complete a nursing program pharmacology course within one year before taking the challenge examination; (III)

(3) Provide to the community college a written statement from the nursing program's pharmacology or clinical instructor indicating that the person is competent in medication administration. (III)

f. A person who has written documentation of certification as a medication aide in another state may become a medication aide in Iowa by successfully completing a department-approved nurse aide competency examination and a medication aide challenge examination. The requirements of paragraph 57.19(3)*"d"* do not apply to this person. (III)

g. In a freestanding residential care facility licensed for 15 or fewer beds, a person who has successfully completed a state-approved medication manager course may administer medications.

57.19(4) *Drug administration.*

a. Unless the unit dose system is used, the person assigned the responsibility of medication administration must complete the procedure by personally preparing the dose, observing the actual act of swallowing the oral medication, and charting the medication. In facilities where the unit dose system is used, the person assigned the responsibility of medication administration must complete the procedure by observing the actual act of swallowing the oral medication and by charting the medication. Medications shall be prepared on the same shift of the same day that they are administered unless the unit dose system is used. (II)

b. Injectable medications shall be administered as permitted by Iowa law by a registered nurse, licensed practical nurse, primary care provider or pharmacist. For purposes of this subrule, "injectable medications" does not include an epinephrine autoinjector, e.g., an EpiPen. (II, III)

c. A resident certified by the resident's primary care provider as capable of injecting the resident's own insulin may do so. Insulin may be administered pursuant to paragraph 57.19(4)*"b"* or as otherwise authorized by the resident's primary care provider. (II, III) Authorization shall:

(1) Be in writing,

(2) Be maintained in the resident's record,

(3) Be renewed quarterly,

(4) Include the name of the person authorized to administer the insulin,

(5) Include documentation by the primary care provider that the authorized person is qualified to administer insulin to that resident. (II, III)

d. A resident may participate in the administration of the resident's own medication if the primary care provider has certified in writing in the resident's medical record that the resident is mentally and physically capable of participating and has explained in writing in the resident's medical record what the resident's participation may include.

e. An individual inventory record shall be maintained for each Schedule II drug prescribed for each resident, with an accurate count and authorized signatures at every shift. (II)

f. The facility may use a unit dose system.

g. Medication aides and medication managers may administer PRN medications without contacting a licensed nurse or primary care provider if all of the following apply: (I, II, III)

(1) A written order from the resident's primary care provider specifies the purpose of the PRN medication and the frequency, dosage and strength of the PRN medication.

(2) The resident's primary care provider provides in writing specific criteria for administering PRN medications.

(3) The pharmacist assesses the resident's use of PRN medications when conducting the inspection of drug storage as required by subparagraph 57.19(1)*"b"*(9).

h. The pharmacist shall assess the use of PRN medications when conducting the inspection of drug storage as required by subparagraph 57.19(1)*"b"*(9). (II, III)

i. Medications administered by an employee of the facility shall be recorded on a medication record by the individual who administers the medication. (I, II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 2643C**, IAB 8/3/16, effective 9/7/16; see Delay note at end of chapter]

481—57.20(135C) Dental services.

57.20(1) The residential care facility personnel shall assist residents in obtaining annual and emergency dental services and shall arrange transportation for such services. (III)

57.20(2) Dental services shall be performed only on the request of the resident, responsible party, legal representative, or primary care provider. The resident's primary care provider shall be advised of the resident's dental problems. (III)

57.20(3) All dental reports or progress notes shall be included in the resident record as available. The facility shall make reasonable efforts to obtain the records following the provision of services. (III)

57.20(4) Personal care staff shall assist the resident in carrying out the dentist's recommendations. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.21(135C) Dietary.

57.21(1) *Dietary staffing.*

a. A minimum of one person directly responsible for food preparation shall successfully complete a course meeting the requirements for a food protection program included in the Food Code adopted pursuant to Iowa Code chapter 137F. Another course may be substituted if the course's curriculum includes substantially similar competencies to a course that meets the requirements of the Food Code and the provider of the course files with the department a statement indicating that the course provides substantially similar instruction as it relates to sanitation and safe food handling. (III)

b. If the person is in the process of completing the food protection program in paragraph 57.21(1)*"a,"* the requirement relating to the completion of a state-approved food protection program shall be considered to have been met.

c. In addition to the requirement of paragraph 57.21(1)*"a,"* personnel who are responsible for food preparation or service, or both food preparation and service, shall have an orientation on sanitation and safe food handling prior to handling food and shall have annual in-service training on food protection. (III)

57.21(2) *Nutrition and menu planning.*

a. Menus shall be planned and followed to meet the nutritional needs of residents in accordance with the primary care provider's orders. Diet orders should be reviewed as necessary, but at least quarterly, by the primary care provider. (II, III)

b. Menus shall be planned and served to include foods and amounts necessary to meet federal dietary guidelines. (II, III)

c. At least three meals or their equivalent shall be served daily, at regular hours. (II, III)

(1) There shall be no more than a 14-hour span between offering a substantial evening meal and breakfast. (II, III)

(2) Unless contraindicated, evening snacks shall be offered routinely to all residents. Special nourishments shall be available when ordered by the primary care provider. (II, III)

d. Menus shall include a variety of foods prepared in various ways. (III)

e. Menus shall be written at least one week in advance. The current menu shall be located in an accessible place for easy use by persons purchasing, preparing, and serving food. (III)

f. Records of menus as served shall be filed and maintained for 30 days and shall be available for review by departmental personnel. When substitutions are necessary or requested, they shall be of similar nutritive value and recorded on the menu or in a notebook. (III)

g. The facility shall provide an alternative choice at scheduled meal times. (III)

57.21(3) *Dietary storage, food preparation, and service.*

a. All food shall be handled, prepared, served and stored in compliance with the Food Code adopted pursuant to Iowa Code section 137F.2. (I, II, III)

b. Supplies of staple foods for a minimum of a one-week period and of perishable foods for a minimum of a two-day period shall be maintained on the premises. Minimum food portion requirements for a low-cost plan shall conform to information supplied by the bureau of nutrition and health promotion of the department of public health. (II, III)

c. Dishes shall be free of cracks, chips, and stains. (III)

d. If family-style service is used, all leftover prepared food that has been on the table shall be properly handled. (III)

57.21(4) *Sanitation in food preparation area.*

a. In facilities licensed for more than 15 beds, the kitchen shall not be used for serving meals to residents, food service personnel, or other staff. (III)

b. There shall be written procedures established for cleaning all work and serving areas in facilities with more than 15 beds. (III)

c. A schedule for duties to be performed daily shall be posted in each food area. (III)

d. All cooking equipment in facilities of 15 or more beds shall be provided with a properly sized exhaust system and hood to eliminate excess heat, moisture, and odors from the kitchen. (II, III)

e. The food service area shall be located so it will not be used as a passageway by residents, guests, or non-food service staff. (III)

f. There shall be no washing, ironing, sorting or folding of laundry in the food service area. Dirty linen shall not be carried through the food service area unless the linen is in sealed, leakproof containers. (III)

g. In facilities with more than 15 beds, a mechanical dishwasher is required. (III)

h. A three-compartment pot and pan sink with 110°F (43°C) to 115°F (46°C) water for washing, a compartment for rinsing with water at 170°F (76°C) to 180°F (82°C) for sanitizing with space for air drying, or a two-compartment sink with access to a mechanical dishwasher for sanitizing all utensils shall be provided. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.22(135C) Orientation and service plan.

57.22(1) *Orientation.* Within 24 hours of admission, each resident shall receive orientation to the facility. The orientation program shall be documented in the resident's file and shall include, but shall not be limited to, a review of the resident's rights, the daily schedule, house rules and the facility's evacuation plan. (II, III)

57.22(2) *Initial service plan.* Within 48 hours of admission, the administrator or the administrator's designee shall develop an initial service plan to address any immediate health and safety needs. The plan shall be based on information gathered from the resident, family, referring party, primary care provider, and other significant persons. The plan shall be followed until the service plan required in subrule 57.22(3) is complete. (I, II, III)

57.22(3) *Service plan.* Within 30 days of admission, the administrator or the administrator's designee, in conjunction with the resident, the resident's responsible party, the interdisciplinary team, and any organization that works with or serves the resident, shall develop a written, individualized, and integrated service plan for the resident. The service plan shall be developed and implemented to address the resident's priorities and assessed needs, such as activities of daily living, rehabilitation, activity, and social, behavioral, emotional, physical and mental health. (I, II, III)

a. The service plan shall include measurable goals and objectives and the specific service(s) to be provided to achieve the goals. Each goal shall include the date of initiation and anticipated duration of service(s). Any restriction of rights shall be included in the service plan. (I, II, III)

b. The service plan shall include the documentation procedure for each goal and objective. (II, III)

c. The service plan should be modified to add or delete goals and objectives as the resident's needs change. Communications related to service plan changes or changes in the resident's condition shall occur within five working days of the change and shall be conveyed to all individuals inside and outside the residential care facility who work with the resident, as well as to the resident's responsible party. (I, II, III)

d. The service plan shall be reviewed at least quarterly by relevant staff, the resident and appropriate others, such as the resident's family, case manager and responsible party. The review shall include a written report which addresses a summary of the resident's progress toward goals and objectives and the need for continued services. (I, II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.23(135C) Resident activities program.

57.23(1) *Activities program.* Each residential care facility shall provide an organized resident activities program for the group and for the individual resident which shall include suitable activities. The facility shall offer at least two organized evening group activities per week and two organized weekend group activities per month. (III)

a. The activities program shall be designed to meet the needs and interests of each resident and to assist residents in continuing normal activities within limitations set by the resident's primary care provider. This shall include helping residents continue in their individual interests or hobbies. (III)

b. The activities program shall include measureable goals for each resident. (III)

c. The activities program shall include both group and individual activities. (III)

d. Residents shall be encouraged, but not required, to participate in activities. (III)

57.23(2) *Coordination of activities program.*

a. Each residential care facility with 15 or fewer beds shall designate a person to oversee the activities program, develop goals and monitor progress. (III)

b. Each residential care facility with more than 15 beds shall employ a person to direct the activities program. (III)

c. Staffing for the activities program shall be provided on the minimum basis of 45 minutes per resident per week. (II, III)

d. The activities coordinator shall have completed the activities coordinator orientation course approved by the department within six months of employment or have comparable training and experience as approved by the department. (III)

e. There shall be a written plan for personnel coverage when the activities coordinator is absent during scheduled working hours. (III)

57.23(3) *Duties of activities coordinator.* The activities coordinator shall:

a. Have access to all residents' records. (III)

b. Coordinate all activities, including volunteer or auxiliary activities and religious services. (III)

c. Keep all necessary records including:

(1) Attendance records; (III)

(2) Individual resident progress notes, recorded at least every three months; (III)

(3) Monthly calendars, prepared in advance, updated as necessary and maintained for one year. (III)

d. Coordinate the activities program with all other services in the facility. (III)

57.23(4) *Supplies, equipment, and storage.*

a. Each facility shall provide a variety of supplies and equipment of a nature calculated to fit the needs and interests of the residents. (III)

b. Storage shall be provided for recreational equipment and supplies. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.24(135C) Residents' rights.

57.24(1) Each facility shall ensure that policies and procedures are written and implemented which include, at a minimum, the provisions of this rule and which govern all areas of service provided by the facility. These policies and procedures shall be available to staff, residents, residents' families or legal representatives and the public and shall be reviewed annually. (II, III)

57.24(2) Policies and procedures shall include a method for submitting complaints and recommendations by residents or their responsible parties and for ensuring a response and disposition by the facility. (II, III) The written procedures shall:

a. Ensure the provision of assistance to residents as necessary to complete and submit complaints and recommendations; (II, III)

b. Ensure protection of the resident from any form of reprisal or intimidation; (II, III)

c. Include designation of an employee responsible for handling grievances and recommendations; (II, III)

d. Include a method of investigating and assessing the validity of a grievance or recommendation; (II, III) and

e. Include methods of recording grievances and actions taken. (II, III)

57.24(3) Policies and procedures shall include provisions governing access to, duplication of, and dissemination of information from the residents' records. (II, III)

57.24(4) Policies and procedures shall include a provision that each resident shall be fully informed of the resident's rights and responsibilities as a resident and of all rules governing resident conduct and responsibilities. This information must be provided upon the resident's admission, or in the case of residents already in the facility, upon the facility's adoption or amendment of residents' rights policies. (II, III)

a. The facility shall communicate to residents prior to or within five days after admission what residents may expect from the facility and its staff, and what is expected from residents. The communication shall be in writing, e.g., in a separate handout or brochure describing the facility, and interpreted verbally, e.g., as part of a preadmission interview, resident counseling, or in individual or group orientation sessions following the resident's admission. (II, III)

b. Residents' rights and responsibilities shall be presented in language understandable to the resident. If the facility serves residents who are non-English-speaking or deaf or hard of hearing, steps shall be taken to translate the information into a foreign or sign language. In the case of blind residents, either Braille or a recording shall be provided. Residents shall be encouraged to ask questions about their rights and responsibilities and these questions shall be answered. (II, III)

c. A statement shall be signed by the resident, or the resident's responsible party, if applicable, indicating an understanding of these rights and responsibilities and shall be maintained in the resident's record. The statement shall be signed no later than five days after admission, and a copy of the signed statement shall be given to the resident or responsible party. (II, III)

d. In order to ensure that residents continue to be aware of these rights and responsibilities during their stay, a written copy shall be prominently posted in a location that is available to all residents. (II, III)

e. All residents shall be advised within 30 days following changes made in the statement of residents' rights and responsibilities. Appropriate means shall be utilized to inform non-English-speaking, deaf or hard-of-hearing, or blind residents of changes. (II, III)

57.24(5) Choice of primary care provider. Each resident shall be permitted free choice of a primary care provider, and pharmacy, if accessible. The facility may require the selected pharmacy to utilize a drug distribution system compatible with the system currently used by the facility. (II)

57.24(6) Each resident shall be afforded the opportunity to participate in the planning of the resident's total care and treatment, which may include, but shall not be limited to, medical care, nutritional needs, activities, and social work services. Each resident has the right to refuse treatment except as provided by

Iowa Code chapter 229. In the case of a resident with impaired decision-making skills, the responsible party shall be afforded the opportunity to participate in the planning of the resident's total care and medical treatment and to be informed of the resident's medical condition. (II, III)

57.24(7) Each resident shall be encouraged and assisted throughout the resident's period of stay to exercise the resident's rights as a resident and as a citizen and may voice grievances and recommend changes in policies and services to administrative staff or to outside representatives of the resident's choice, free from interference, coercion, discrimination, or reprisal. (II)

57.24(8) The facility shall provide ongoing opportunities for residents to be aware of and to exercise their rights as residents. Residents shall be kept informed of changes in policies and services that are more restrictive, and their views shall be solicited prior to action. (II)

57.24(9) The facility shall post in a prominent area the text of Iowa Code section 135C.46 (Retaliation Prohibited) and the name, telephone number, and address of the long-term care ombudsman, the department, and the local law enforcement agency to provide residents a further course of redress. (II)

57.24(10) All rights and responsibilities of the resident devolve to the resident's responsible party or any legal surrogate designated in accordance with state law, to the extent permitted by state law. This subrule is not intended to limit the authority of any individual acting pursuant to Iowa Code chapter 144A. (II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 5711C**, IAB 6/16/21, effective 7/21/21]

481—57.25(135C) Dignity preserved. The resident shall be treated with consideration, respect, and full recognition of dignity and individuality, including privacy in treatment and in care for personal needs. (I, II)

57.25(1) Staff shall display respect for residents when speaking with, caring for, or talking about them, as constant affirmation of their individuality and dignity as human beings. (I, II)

57.25(2) Schedules of daily activities shall allow maximum flexibility for residents to exercise choice about what they will do and when they will do it. Residents' individual preferences regarding such things as menus, clothing, religious activities, friendships, activity programs, entertainment, sleeping and eating, also times to retire at night and arise in the morning shall be elicited and considered by the facility. (II)

57.25(3) Residents shall be examined and treated in a manner that maintains the privacy of their bodies. A closed door or a drawn curtain shall shield the resident from passersby. People not involved in the care of the residents shall not be present without the resident's consent while the resident is being examined or treated. (II)

57.25(4) Privacy of a resident's body also shall be maintained during toileting, bathing, and other activities of personal hygiene, except as needed for resident safety or assistance. (II)

57.25(5) Staff shall knock and be acknowledged before entering a resident's room unless the resident is not capable of a response. This shall not apply under emergency conditions. (II)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.26(135C) Communications. Each resident may communicate, associate, and meet privately with persons of the resident's choice, unless to do so would infringe upon the rights of other residents, and may send and receive personal mail unopened. (II)

57.26(1) Subject to reasonable scheduling restrictions, visiting policies and procedures shall permit residents to receive visits from anyone they wish. Visiting hours shall be posted. (II)

57.26(2) Reasonable, regular visiting hours shall not be less than 12 hours per day and shall take into consideration the special circumstances of each visitor. A particular visitor(s) may be restricted by the facility for one of the following reasons:

a. The resident refuses to see the visitor(s). (II)

b. The resident's primary care provider documents specific reasons why such a visit would be harmful to the resident's health. (II)

c. The visitor's behavior is unreasonably disruptive to the functioning of the facility. This judgment must be made by the administrator, and the reasons shall be documented and kept on file. (II)

57.26(3) Decisions to restrict a visitor are reviewed and reevaluated:

a. Each time the medical orders are reviewed by the primary care provider;

b. At least quarterly by the facility's staff; or

c. At the resident's request. (II)

57.26(4) Space shall be provided for residents to receive visitors in reasonable comfort and privacy. (II)

57.26(5) Telephones shall be available and accessible for residents to make and receive calls with privacy. Residents who need help shall be assisted in using the telephone. (II)

57.26(6) Arrangements shall be made to provide assistance to residents who require help in reading or sending mail. (II)

57.26(7) Residents, including residents court-ordered to the facility, shall be permitted to leave the facility at reasonable times unless there are justifiable reasons established in writing by court order, the primary care provider, the interdisciplinary team, or facility administrator for refusing permission. (II)

57.26(8) Residents shall not have their personal lives regulated beyond reasonable adherence to meal schedules, bedtime hours, and other written policies which may be necessary for the orderly management of the facility and as required by these rules. However, residents shall be encouraged to participate in recreational programs. (II)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.27(135C) Resident activities.

57.27(1) Each resident may participate in activities of social, religious, and community groups at the resident's discretion unless contraindicated for reasons documented by the primary care provider or interdisciplinary team as appropriate in the resident's record. (II)

57.27(2) Residents who wish to meet with or participate in activities of social, religious, or other community groups in or outside of the facility shall be informed, encouraged, and assisted to do so. (II)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.28(135C) Resident property.

57.28(1) Residents shall be permitted to keep reasonable amounts of personal clothing and possessions for their use while in the facility. The facility shall offer the resident the opportunity to have personal property itemized and documented on an inventory sheet upon the resident's admission. The inventory sheet shall be kept in a safe location which is convenient to the resident and shall be updated at least annually. At discharge, residents may sign off on a list of the personal property they are taking with them. (II, III)

57.28(2) The facility shall provide for the safekeeping of personal effects, funds and other property of its residents. The facility may require that items of exceptional value or that would convey unreasonable responsibilities to the licensee be removed from the premises of the facility for safekeeping. (III)

57.28(3) Funds or properties received by the facility, belonging or due a resident, expendable for the resident's account, shall be trust funds. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.29(135C) Financial affairs—management. Each resident who has not been assigned a guardian or conservator by the court may manage the resident's own personal financial affairs. To the extent the facility assists in management, under written authorization by the resident, the management shall be carried out in accordance with Iowa Code section 135C.24. (II)

57.29(1) The facility shall maintain a written account of all residents' funds received by or deposited with the facility. (II)

57.29(2) An employee shall be designated in writing to be responsible for resident accounts. (II)

57.29(3) The facility shall keep on deposit personal funds over which the resident has control in accordance with Iowa Code section 135C.24. Should the resident request these funds, they shall be given to the resident on request with receipts maintained by the facility and a copy to the resident. In the case of a resident with impaired decision-making skills, the resident's legal representative shall designate a method of disbursing the resident's funds. (II)

57.29(4) If the facility makes financial transactions on a resident's behalf, the facility must document that it has prepared and sent an itemized accounting of disbursements and current balances at least quarterly. A copy of this statement shall be maintained in the resident's financial or business record. (II)

57.29(5) A resident's personal funds shall not be used without the written consent of the resident or the resident's legal representative. (I, II)

57.29(6) A resident's personal funds shall be returned to the resident when the funds have been used without the written consent of the resident or the resident's legal representative. The department may report findings that resident funds have been used without written consent to the department's investigations division or the local law enforcement agency, as appropriate. (II)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.30(135C) Resident work. No resident may be required to perform services for the facility, except as provided by Iowa Code section 347B.5. (II)

57.30(1) Residents may not be used to provide a source of labor for the facility against their will. Approval by the primary care provider is required for all work programs. (I, II)

57.30(2) Residents who perform work for the facility must receive compensation unless the work is part of their approved training program. Persons on the resident census who perform work shall not be used to replace paid employees in fulfilling staffing requirements. (II)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.31(135C) Family—shared rooms. Family members or spouses shall be permitted to share a room, if available, if requested by both parties, unless the primary care provider of one of the parties documents in the medical record specific reasons why such an agreement would have an adverse effect on the health of the resident. (II)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.32(135C) Resident abuse prohibited. Each resident shall receive kind and considerate care at all times and shall be free from mental, physical, sexual, and verbal abuse, exploitation, neglect, and physical injury. (I, II)

57.32(1) Mental abuse includes, but is not limited to, humiliation, harassment, and threats of punishment or deprivation. (I, II)

57.32(2) Physical abuse includes, but is not limited to, corporal punishment and the use of restraints as punishment. (I, II)

57.32(3) Drugs such as tranquilizers shall only be used in accordance with orders of the primary care provider. (I, II)

57.32(4) Allegations of dependent adult abuse. Allegations of dependent adult abuse shall be reported and investigated pursuant to Iowa Code chapter 235E and 481—Chapter 52. (I, II, III)

57.32(5) Staff shall receive training relating to the identification and reporting of dependent adult abuse as required by Iowa Code section 235B.16. (I, II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 3737C**, IAB 4/11/18, effective 5/16/18]

481—57.33(135C) Crisis intervention. If a facility utilizes physical restraints, the facility shall have written policies that define the uses of physical restraints, designate the administrator or designee as the person who may authorize their use, establish a mechanism for monitoring and controlling their use, and provide staff with proper training. (I, II, III)

57.33(1) Temporary physical restraint of residents shall be used only under the following conditions: (I, II)

a. An emergency to prevent injury to the resident or to others; or (I, II)

b. For crisis intervention, but shall not be used for punishment, for the convenience of staff or as a substitution for supervision or programming; (I, II) and

c. No staff person shall use any restraint that obstructs the airway of the resident. (I, II)

57.33(2) Authorization for the use of physical restraints must be prior to or immediately after application of the restraint. (I, II)

57.33(3) Prone restraint is prohibited. Staff persons who find themselves involved in the use of a prone restraint when responding to an emergency must take immediate steps to end the prone restraint. (I, II)

57.33(4) The rationale and authorization for the use of physical restraint and staff action and procedures carried out to protect the resident's rights and to ensure safety shall be clearly set forth in the resident's record by the responsible staff persons. (I, II)

57.33(5) The primary care provider, the interdisciplinary team and the resident's responsible party shall be notified of any restraints administered. (I, II, III)

57.33(6) The facility shall provide to the staff a department-approved training program by qualified professionals on physical restraint techniques. (I, II)

a. The facility shall keep a record of training for review by the department and shall include attendance. (II, III)

b. Only staff with documented training in physical restraint and techniques shall be authorized to assist with physical restraint of a resident. (I, II)

c. Under no circumstances shall a resident be allowed to actively or passively assist in the restraint of another resident. (I, II)

57.33(7) Residents shall not be kept behind locked doors. (I, II)

57.33(8) Mechanical restraint is prohibited. Staff persons who find themselves involved in the use of a mechanical restraint when responding to an emergency must take immediate steps to end the mechanical restraint. (I, II)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15; **ARC 3738C**, IAB 4/11/18, effective 5/16/18]

481—57.34(135C) Safety. The licensee of a residential care facility shall be responsible for the provision and maintenance of a safe environment for residents and personnel. (I, II, III)

57.34(1) *Fire safety.*

a. All residential care facilities shall meet the fire safety rules and regulations as promulgated by the state fire marshal. (I, II)

b. The size of the facility and needs of the residents shall be taken into consideration in evaluating safety precautions and practices.

57.34(2) *Safety duties of administrator.* The administrator shall have a written emergency plan to be followed in the event of fire, tornado, explosion, or other emergency. (III)

a. The plan shall be prominently posted in a common area of the building. (III)

b. In-service shall be provided to ensure that all employees are knowledgeable of the emergency plan. (II, III)

57.34(3) *Resident safety.*

a. Smoking shall be prohibited, except as allowed by Iowa Code chapter 142D, the smokefree air Act. (II, III)

b. Whenever full or empty tanks of oxygen are being used or stored, they shall be securely supported in an upright position. (II, III)

c. Residents shall receive adequate supervision to ensure against hazard from themselves, others, or elements in the environment. (I, II, III)

d. Storage areas for cleaning agents, bleaches, insecticides, or any other poisonous, dangerous, or flammable materials shall be locked. Residents permitted to access these materials shall be supervised by staff as identified in the resident's service plan. (I, II, III)

e. Sufficient numbers of noncombustible trash containers with covers shall be available. (III)

f. Residents' personal possessions that may constitute a hazard to residents or others shall be removed and stored. (III)

57.34(4) *First-aid kit.* A first-aid emergency kit shall be available on each floor in every facility. (II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.35(135C) Housekeeping.

57.35(1) Written procedures shall be established and implemented for daily and weekly cleaning schedules. (III)

57.35(2) Each resident room shall be cleaned on a routine schedule. (III)

57.35(3) All rooms, corridors, storage areas, linen closets, attics, and basements shall be kept in a clean, orderly condition, free of unserviceable furniture and equipment and accumulations of refuse. (II, III)

57.35(4) A hallway or corridor shall not be used for storage of equipment. (II, III)

57.35(5) All odors shall be kept under control by cleanliness and proper ventilation. (III)

57.35(6) Clothing worn by personnel shall be clean and washable. (III)

57.35(7) Housekeeping and maintenance personnel shall be provided with well-constructed and properly maintained equipment appropriate to the function for which it is to be used. (III)

57.35(8) All furniture, bedding, linens, and equipment shall be cleaned periodically and before use by another resident. (II, III)

57.35(9) Polishes used on floors shall provide a nonslip finish. (II, III)

57.35(10) Throw or scatter rugs shall have nonskid backing. (II, III)

57.35(11) Entrances, exits, steps, and outside walkways shall be kept free from ice, snow, and other hazards. (II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.36(135C) Maintenance.

57.36(1) Each facility shall establish a maintenance program to ensure the continued maintenance of the facility, to promote good housekeeping procedures, and to ensure sanitary practices throughout the facility. In facilities with more than 15 beds, the maintenance program shall be established in writing and available for review by the department. (II, III)

57.36(2) The building, grounds, and other buildings shall be maintained in a clean, orderly condition and in good repair. (II, III)

57.36(3) Window treatments and furniture shall be clean and in good repair. (II, III)

57.36(4) Cracks in plaster, peeling wallpaper or paint, and tears or splits in floor coverings shall be promptly repaired or replaced in a professional manner. (II, III)

57.36(5) The electrical systems, including appliances, cords, and switches, shall be maintained to guarantee safe functioning and comply with the National Electric Code. (II, III)

57.36(6) All plumbing fixtures shall function properly and comply with the state plumbing code. (II, III)

57.36(7) Yearly inspections of the heating and cooling systems shall be made to guarantee safe operation. (II, III)

57.36(8) The building, grounds, and other buildings shall be kept free of breeding areas for flies, other insects, and rodents. (II, III)

57.36(9) The facility shall be kept free of flies, other insects, and rodents. (II, III)

57.36(10) Janitor's closet.

a. Facilities shall be provided with storage for cleaning equipment and supplies. (III)

b. Mops, scrub pails, and other cleaning equipment used in the resident areas shall not be stored or used in the dietary area. (III)

c. In facilities licensed for more than 15 beds, a janitor's closet shall be provided. It shall be equipped with water for filling scrub pails and a janitor's sink for emptying scrub pails. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.37(135C) Laundry.

57.37(1) All soiled linens shall be collected and transported to the laundry room in closed, leakproof laundry bags or covered, impermeable containers. (III)

57.37(2) Except for related activities, the laundry room shall not be used for other purposes. (III)

57.37(3) Procedures shall be written for the proper handling of wet, soiled, and contaminated linens. (III)

57.37(4) Residents' personal laundry shall be marked with an identification if comingled with other residents' personal laundry. (III)

57.37(5) Bed linens, towels, and washcloths shall be clean and stain-free. (III)

57.37(6) If laundry is done in the facility, the following shall be provided:

a. A clean, dry, well-lit area to accommodate a washer and dryer of adequate size to serve the needs of the facility. (III)

b. In facilities with more than 15 beds, the laundry room shall be divided into separate areas, one for sorting soiled linen and one for sorting and folding clean linen. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.38(135C) Garbage and waste disposal.

57.38(1) All garbage shall be gathered, stored, and disposed of in a manner that will not permit transmission of disease, create a nuisance, or provide a breeding or feeding place for vermin or insects. (III)

57.38(2) All containers for refuse shall be watertight and rodent-proof and have tight-fitting covers. (III)

57.38(3) All unlined containers shall be thoroughly cleaned each time the containers are emptied. (III)

57.38(4) All waste shall be properly disposed of in compliance with local ordinances and state codes. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.39(135C) Supplies.

57.39(1) *Linen supplies.*

a. There shall be an adequate supply of linen so that each resident shall have at least three washcloths, hand towels, and bath towels per week. (III)

b. A complete change of bed linens shall be available in the linen storage area for each bed. (III)

c. Sufficient lightweight, clean, serviceable blankets shall be available. All blankets shall be laundered as often as necessary for cleanliness and freedom from odors. (III)

d. Each bed shall be provided with clean, washable bedspreads. There shall be a supply available when changes are necessary. (III)

e. Adequate storage shall be provided for linens, pillows, and bedding. (III)

57.39(2) *Supplies, equipment and storage.*

a. All equipment shall be properly cleaned and sanitized before use by another resident. (III)

b. Clean and sanitary storage shall be provided for equipment and supplies. (III)

c. Each facility shall provide a variety of supplies and equipment of a nature calculated to fit the needs and interests of the residents. (III)

d. Locked storage should be available for potentially dangerous items such as scissors, knives, and toxic materials. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.40(135C) Buildings, furnishings, and equipment.

57.40(1) *Buildings—general requirements.*

a. All windows shall be supplied with window treatments that are kept clean and in good repair. (III)

b. Whenever glass sliding doors or transparent panels are used, they shall be marked conspicuously. (III)

c. The facility shall meet the equivalent requirements of the appropriate group occupancy of the state building code. (III)

57.40(2) *Furnishings and equipment.*

a. All furnishings and equipment shall be durable, cleanable, and appropriate to their function. (III)

b. All resident areas shall be decorated, painted, and furnished to provide a homelike atmosphere. (III)

c. Upholstery materials shall be moisture- and soil-resistant as needed, except on furniture provided by the resident and the property of the resident. (III)

57.40(3) *Dining and living rooms.*

a. Every facility shall have a dining room and a living room easily accessible to all residents. (III)

b. Living rooms shall be maintained for the use of residents and their visitors and may be used for recreational activities. Living rooms shall be suitably furnished. (III)

c. Dining rooms shall be furnished with dining tables and chairs appropriate to the size and function of the facility. Dining rooms and furnishings shall be kept clean and sanitary. (III)

57.40(4) *Bedrooms.*

a. Each resident shall be provided with a standard, single, or twin bed, substantially constructed and in good repair. Rollaway beds, metal cots, or folding beds are not acceptable. (III)

b. Each bed shall be equipped with the following: casters or glides; clean springs in good repair; a clean, comfortable, well-constructed mattress approximately five inches thick and standard in size for the bed; and clean, comfortable pillows of average bed size. (III)

c. Each resident shall have a bedside table with a drawer to accommodate personal possessions. (III)

d. There shall be a comfortable chair, either a rocking chair or armchair, per resident bed. The resident's personal wishes shall be considered. (III)

e. There shall be drawer space for each resident's clothing. In a bedroom in which more than one resident resides, drawer space shall be assigned to each resident. (III)

f. Beds and other furnishings shall not obstruct free passage to and through doorways. (III)

g. Beds shall not be placed in such a manner that the side of the bed is against the radiator or in close proximity to it unless the radiator is covered so as to protect the resident from contact with it or from excessive heat. (III)

h. There shall be no more than four residents per room. (III)

57.40(5) *Bath and toilet facilities.*

a. All sinks shall have paper towel dispensers and an available supply of soap. (III)

b. Toilet paper shall be readily available to residents. (III)

57.40(6) *Heating.* A centralized heating system shall be maintained in good working order and capable of maintaining a comfortable temperature for residents of the facility. Portable units or space heaters are prohibited from being used in the facility except in an emergency. (II, III)

57.40(7) *Water supply.*

a. Private sources of water supply shall be tested annually and the report made available for review by the department upon request. (III)

b. A bacterially unsafe source of water supply shall be grounds for denial, suspension, or revocation of license. (III)

c. The department may require testing of private sources of water supply at its discretion in addition to the annual test. The facility shall supply reports of such tests as directed by the department. (III)

d. Hot and cold running water under pressure shall be available in the facility. (II, III)

e. Prior to construction of a new facility or new water source, private sources of water supply shall be surveyed and shall comply with the requirements of the department. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.41(135C) Family and employee accommodations.

57.41(1) In facilities where the total occupancy of family, employees, and residents is more than five, separate bathing and toilet facilities shall be required for the family or employees distinct from such areas provided for the residents. (III)

57.41(2) In all facilities, if the family or employees live within the facility, separate living quarters and recreation facilities shall be required for the family or employees distinct from such areas provided for the residents. (III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.42(135C) Animals. No animals shall be allowed to reside in the facility except with written approval of the department and under controlled conditions. (II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.43(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the same physical structure of the facility, if the other business or activity is under the control of and is directly related to and incidental to the operation of the health care facility, or the business or activity is approved by the department and the state fire marshal. (I, II, III)

57.43(1) To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs 57.43(2)*"a"* through *"j."* (I, II, III)

57.43(2) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

a. Health and safety risks for residents;

b. Compatibility of the proposed business or activity with the facility program;

c. Noise created by the proposed business or activity;

d. Odors created by the proposed business or activity;

e. Use of entrances and exits for the business or activity in regard to safety and disturbance of residents and interference with delivery of services;

f. Use of the facility's corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;

g. Proposed staffing for the business or activity;

h. Sharing of services and staff between the proposed business or activity and the facility;

i. Facility layout and design; and

j. Parking area utilized by the business or activity.

57.43(3) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

57.43(4) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules and 481—Chapter 60. (I, II, III)

[**ARC 1753C**, IAB 12/10/14, effective 1/14/15]

481—57.44(135C) Respite care services. "Respite care services" means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. "Respite care services" does not include crisis stabilization services provided pursuant to 2014 Iowa Acts, chapter 1044 (to be codified at Iowa Code section 225C.19A). "Respite care individual" means a person receiving respite care services. A residential care facility which chooses to provide respite care services must meet the following requirements related to respite services and must be licensed as a residential care facility. (II, III)

57.44(1) *Length of stay.* Respite care may be provided for no more than 30 consecutive days and for a total of no more than 60 days in a consecutive 12-month period. The 12-month period begins on the first day of the respite care individual's stay at the facility. (II, III)

57.44(2) *No separate license.* A residential care facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

57.44(3) *Involuntary termination of respite services.* The facility may terminate the respite services for a respite care individual. Rule 481—57.14(135C) shall not apply. The facility shall make proper arrangements for the welfare of the respite care individual prior to involuntary termination of respite services, including notification of the respite care individual's family or legal representative. (II, III)

57.44(4) *Contract.* Pursuant to rule 481—57.15(135C), the facility shall have a contract with each resident in the facility. When an individual is there for respite care services, the contract shall specify the time period during which the individual will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state that respite care services may be involuntarily terminated. The contract shall meet other requirements under rule 481—57.15(135C), except the requirements under subrule 57.15(7). (II, III)

57.44(5) *Admission as a resident.*

a. An individual being cared for under a respite care contract shall not be considered an admission to the facility.

b. A respite care individual shall be included in the facility's census.

c. The facility shall not enter into multiple 30-day contracts with an individual being cared for under a respite care contract in order to lengthen the individual's stay at the facility. (II, III)

d. If an individual being cared for under a respite care contract remains in the facility beyond 30 consecutive days and is eligible for admission, the department shall consider the individual a resident in the facility. The facility shall follow all requirements for the individual's admission to the facility. (II, III)

57.44(6) *Level of care.* Respite care services shall not be provided by a health care facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide. (I, II, III)

57.44(7) *Reporting requirements.* The reporting requirements of rule 481—50.7(135C) shall apply to residents being cared for under a respite care contract. (I, II, III)

CHAPTER 58
NURSING FACILITIES
[Prior to 7/15/87, Health Department[470] Ch 58]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—58.1(135C) Definitions. For the purpose of these rules, the following terms shall have the meaning indicated in this chapter. The definitions set out in Iowa Code section 135C.1 shall be considered to be incorporated verbatim in the rules. The use of the words "shall" and "must" indicates those standards are mandatory. The use of the words "should" and "could" indicates those standards are recommended.

"Accommodation" means the provision of lodging, including sleeping, dining, and living areas.

"Administrator" means a person licensed pursuant to Iowa Code chapter 147 who administers, manages, supervises, and is in general administrative charge of a nursing facility, whether or not such individual has an ownership interest in such facility, and whether or not the functions and duties are shared with one or more individuals.

"Ambulatory" means the condition of a person who immediately and without aid of another is physically or mentally capable of traveling a normal path to safety, including the ascent and descent of stairs if applicable to the facility.

"Basement" means that part of a building where the finish floor is more than 30 inches below the finish grade.

"Board" means the regular provision of meals.

"Communicable disease" means a disease caused by the presence of viruses or microbial agents within a person's body, which agents may be transmitted either directly or indirectly to other persons.

"Department" means the state department of inspections and appeals.

"Distinct part" means a clearly identifiable area or section within a health care facility, consisting of at least a residential unit, wing, floor, or building containing contiguous rooms.

"Medication" means any drug including over-the-counter substances ordered and administered under the direction of the physician.

"Nonambulatory" means the condition of a person who immediately and without aid of another is not physically or mentally capable of traveling a normal path to safety, including the ascent and descent of stairs.

"Nourishing snack" is defined as a verbal offering of items, single or in combination, from the basic food groups. Adequacy of the "nourishing snack" will be determined both by resident interviews and by evaluation of the overall nutritional status of residents in the facility.

"Person directed care environment" means the provision of care and services provided in a facility that promotes decision making and choices by the resident, enhances the primary caregiver's capacity to respond to each resident's needs, and promotes a homelike environment. Examples of a person directed care environment include, but are not limited to, the Green House concept, the Eden alternative, service houses and neighborhoods.

"Personal care" means assistance with the activities of daily living which the recipient can perform only with difficulty. Examples are assistance in getting in and out of bed, assistance with personal hygiene and bathing, assistance with dressing, meal assistance, and supervision over medications which can be self-administered.

"Potentially hazardous food" means a food that is natural or synthetic and that requires temperature control because it is in a form capable of supporting the rapid and progressive growth of infectious or toxigenic microorganisms, the growth and toxin production of clostridium botulinum, or in raw shell eggs, the growth of salmonella enteritidis. Potentially hazardous food includes an animal food (a food of animal origin) that is raw or heat-treated; a food of plant origin that is heat-treated or consists of raw seed sprouts; cut melons; and garlic and oil mixtures that are not acidified or otherwise modified at a food processing plant in a way that results in mixtures that do not support growth of bacteria.

"Primary care provider" means any of the following who provide primary care and meet certification standards:

1. A physician who is a family or general practitioner or an internist.
2. An advanced registered nurse practitioner.
3. A physician associate.

"Program of care" means all services being provided for a resident in a health care facility.

"Qualified intellectual disabilities professional" means a psychologist, physician, physician associate, registered nurse, educator, social worker, physical or occupational therapist, speech therapist or audiologist who meets the educational requirements for the profession, as required in the state of Iowa, and having one year's experience working with persons with an intellectual disability.

"Qualified nurse" means a registered nurse or a licensed practical nurse, as defined in Iowa Code chapter 152.

"Rate" means that daily fee charged for all residents equally and shall include the cost of all minimum services required in these rules and regulations.

"Responsible party" means the person who signs or cosigns the admission agreement required in 481—58.13(135C) or the resident's guardian or conservator if one has been appointed. In the event that a resident does not have a guardian, conservator or other person signing the admission agreement, the term "responsible party" shall include the resident's sponsoring agency, e.g., the department of human services, the U.S. Department of Veterans Affairs, religious groups, fraternal organizations, or foundations that assume responsibility and advocate for their client patients and pay for their health care.

"Restraints" means any chemical, manual method or physical or mechanical device, material, or equipment attached to the resident's body that the individual cannot remove easily which restricts freedom of movement or normal access to one's body.

"Substantial evening meal" is defined as an offering of three or more menu items at one time, one of which includes a high protein such as meat, fish, eggs or cheese. The meal would represent no less than 20 percent of the day's total nutritional requirements.

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13; **ARC 1398C**, IAB 4/2/14, effective 5/7/14; **ARC 1752C**, IAB 12/10/14, effective 1/14/15; **ARC 7033C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 6/10/26]

481—58.2(135C) Waivers. Waivers from these rules may be granted by the director of the department of inspections and appeals for good and sufficient reason when the need for a waiver has been established; no danger to the health, safety, or welfare of any resident results; alternate means are employed or compensating circumstances exist and the waiver will apply only to an individual nursing facility. Waivers will be reviewed at the discretion of the director of the department of inspections and appeals.

58.2(1) To request a waiver, the licensee must:

a. Apply for a waiver in writing on a form provided by the department;

b. Cite the rule or rules from which a waiver is desired;

c. State why compliance with the rule or rules cannot be accomplished;

d. Explain alternate arrangements or compensating circumstances which justify the waiver;

e. Demonstrate that the requested waiver will not endanger the health, safety, or welfare of any resident.

58.2(2) Upon receipt of a request for a waiver, the director of inspections and appeals will:

a. Examine the rule from which a waiver is requested to determine that the request is necessary and reasonable;

b. If the request meets the above criteria, evaluate the alternate arrangements or compensating circumstances against the requirement of the rules;

c. Examine the effect of the requested waiver on the health, safety, or welfare of the residents;

d. Consult with the applicant if additional information is required.

58.2(3) Based upon these studies, approval of the waiver will be either granted or denied within 120 days of receipt.

[**ARC 5719C**, IAB 6/16/21, effective 7/21/21]

481—58.3(135C) Application for licensure.

58.3(1) Initial application and licensing. In order to obtain an initial nursing facility license, for a nursing facility which is currently licensed, the applicant must:

a. Meet all of the rules, regulations, and standards contained in 481—Chapters 58 and 61. Applicable exceptions found in rule 481—61.2(135C) shall apply based on the construction date of the facility.

b. Submit a letter of intent and a written résumé of the resident care program and other services provided for departmental review and approval;

c. Make application at least 60 days prior to the change of ownership of the facility on forms provided by the department;

d. Submit a floor plan of each floor of the nursing facility, drawn on 8½- × 11-inch paper showing room areas in proportion, room dimensions, room numbers for all rooms, including bathrooms, and designation of the use to which room will be put and window and door location;

e. Submit a photograph of the front and side elevation of the nursing facility;

f. Submit the statutory fee for a nursing facility license;

g. Meet the requirements of a nursing facility for which licensure application is made;

h. Comply with all other local statutes and ordinances in existence at the time of licensure;

i. Have a certificate signed by the state fire marshal or deputy state fire marshal as to compliance with fire safety rules and regulations.

58.3(2) In order to obtain an initial nursing facility license for a facility not currently licensed as a nursing facility, the applicant must:

a. Meet all of the rules, regulations, and standards contained in 481—Chapters 58 and 61. Exceptions noted in 481—subrule 61.1(2) shall not apply;

b. Submit a letter of intent and a written résumé of the resident care program and other services provided for departmental review and approval;

c. Make application at least 60 days prior to the change of ownership of the facility on forms provided by the department;

d. Submit a floor plan of each floor of the nursing facility, drawn on 8½- × 11-inch paper showing room areas in proportion, room dimensions, room numbers for all rooms, including bathrooms, and designation of the use to which room will be put and window and door locations;

e. Submit a photograph of the front and side elevation of the nursing facility;

f. Submit the statutory fee for a nursing facility license;

g. Comply with all other local statutes and ordinances in existence at the time of licensure;

h. Have a certificate signed by the state fire marshal or deputy state fire marshal as to compliance with fire safety rules and regulations.

58.3(3) *Renewal application.* In order to obtain a renewal of the nursing facility license, the applicant must:

a. Submit the completed application form 30 days prior to annual license renewal date of nursing facility license;

b. Submit the statutory license fee for a nursing facility with the application for renewal;

c. Have an approved current certificate signed by the state fire marshal or deputy state fire marshal as to compliance with fire safety rules and regulations;

d. Submit appropriate changes in the résumé to reflect any changes in the resident care program or other services.

58.3(4) Licenses are issued to the person or governmental unit which has responsibility for the operation of the facility and authority to comply with all applicable statutes, rules or regulations.

The person or governmental unit must be the owner of the facility or, if the facility is leased, the lessee.

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.4(135C) General requirements.

58.4(1) The license shall be displayed in a conspicuous place in the facility which is viewed by the public. (III)

58.4(2) The license shall be valid only in the possession of the licensee to whom it is issued.

58.4(3) The posted license shall accurately reflect the current status of the nursing facility. (III)

58.4(4) Licenses expire one year after the date of issuance or as indicated on the license.

58.4(5) A nursing facility shall not be licensed for more beds than have been approved by the health facilities council pursuant to Iowa Code chapter 135 or than the facility can accommodate pursuant to the minimum physical standards for nursing facilities as set forth in 481—Chapter 61.

58.4(6) The facility shall post in a place readily accessible to residents, visitors, and persons inquiring about placement in the facility the results of the most recent survey of the facility. The facility shall maintain any surveys, certifications, and complaint investigations made respecting the facility during the three preceding years, and any plan of correction in effect with respect to the facility, available for any individual to review upon request. (III)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.5(135C) Notifications required by the department. The department shall be notified:

58.5(1) Within 48 hours of any reduction or loss of nursing or dietary staff lasting more than seven days which places the staffing requirements below those required for licensing. No additional residents shall be admitted until the minimum staffing requirements are achieved; (III)

58.5(2) Thirty days before any proposed change in the nursing facility's functional operation or addition or deletion of required services; (III)

58.5(3) Thirty days before addition, alteration, or new construction is begun in the nursing facility or on the premises; (III)

58.5(4) Thirty days in advance of closure of the nursing facility; (III)

58.5(5) Within two weeks of any change in administrator; (III)

58.5(6) When any change in the category of license is sought; (III)

58.5(7) Prior to the purchase, transfer, assignment, or lease of a nursing facility, the licensee shall:

a. Inform the department of the pending sale, transfer, assignment, or lease of the facility; (III)

b. Inform the department of the name and address of the prospective purchaser, transferee, assignee, or lessee at least 60 days before the sale, transfer, assignment, or lease is completed. (III)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.6(135C) Witness fees. Rescinded IAB 3/30/94, effective 5/4/94. See 481—subrule 50.6(4).

481—58.7(135C) Licenses for distinct parts.

58.7(1) Separate licenses may be issued for distinct parts of a health care facility which are clearly identifiable, containing contiguous rooms in a separate wing or building or on a separate floor of the facility and which provide care and services of separate categories.

58.7(2) The following requirements shall be met for a separate licensing of a distinct part:

a. The distinct part shall serve only residents who require the category of care and services immediately available to them within that part; (III)

b. The distinct part shall meet all the standards, rules, and regulations pertaining to the category for which a license is being sought;

c. A distinct part must be operationally and financially feasible;

d. A separate staff with qualifications appropriate to the care and services being rendered must be regularly assigned and working in the distinct part under responsible management; (III)

e. Separately licensed distinct parts may have certain services such as management, building maintenance, laundry, and dietary in common with each other.

481—58.8(135C) Administrator.

58.8(1) Each nursing facility shall have one person in charge, duly licensed as a nursing home administrator or acting in a provisional capacity. (III)

58.8(2) A licensed administrator may act as an administrator for not more than two nursing facilities.

a. The distance between the two facilities shall be no greater than 75 miles. (II)

b. The administrator shall spend the equivalent of three full eight-hour days per week in each facility. (II)

c. The administrator may be responsible for no more than 150 beds in total if the administrator is an administrator of more than one facility. (II)

58.8(3) The licensee may be the licensed nursing home administrator providing the licensee meets the requirements as set forth in these regulations and devotes the required time to administrative duties. Residency in the facility does not in itself meet the requirement. (III)

58.8(4) A provisional administrator may be appointed on a temporary basis by the nursing facility licensee to assume the administrative duties when the facility, through no fault of its own, has lost its administrator and has been unable to replace the administrator.

a. No facility licensed under Iowa Code chapter 135C shall be permitted to have a provisional administrator for more than 12 consecutive months.

b. The facility shall notify the department in writing within 14 days of the administrator's appointment. The written notice shall include the estimated time frame for the appointment of the provisional administrator and the reason for the appointment of a provisional administrator. (III)

c. The provisional administrator's appointment must be approved by the board of examiners for nursing home administrators. The approval shall be confirmed in writing to the department. (III)

58.8(5) In the absence of the administrator, a responsible person shall be designated in writing to the department to be in charge of the facility. The administrator shall not be absent from the facility for more than 3 months without approval of the department. (III)

The person designated shall:

a. Be knowledgeable of the operation of the facility; (III)

b. Have access to records concerned with the operation of the facility; (III)

c. Be capable of carrying out administrative duties and of assuming administrative responsibilities; (III)

d. Be at least 21 years of age; (III)

e. Be empowered to act on behalf of the licensee during the administrator's absence concerning the health, safety, and welfare of the residents; (III)

f. Have had training to carry out assignments and take care of emergencies and sudden illness of residents. (III)

58.8(6) A licensed administrator in charge of two facilities shall employ an individual designated as a full-time assistant administrator for each facility. (III)

58.8(7) An administrator of only one facility shall be considered as a full-time employee. Full-time employment is defined as 40 hours per week. (III)

[**ARC 1398C**, IAB 4/2/14, effective 5/7/14; **ARC 2020C**, IAB 6/10/15, effective 7/15/15; **ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.9(135C) Administration.

58.9(1) The licensee shall:

a. Assume the responsibility for the overall operation of the nursing facility; (III)

b. Be responsible for compliance with all applicable laws and with the rules of the department; (III)

c. Establish written policies, which shall be available for review, for the operation of the nursing facility. (III)

58.9(2) The administrator shall:

a. Be responsible for the selection and direction of competent personnel to provide services for the resident care program; (III)

b. Be responsible for the arrangement for all department heads to annually attend a minimum of ten contact hours of educational programs to increase skills and knowledge needed for the position; (III)

c. Be responsible for a monthly in-service educational program for all employees and to maintain records of programs and participants; (III)

d. Make available the nursing facility payroll records for departmental review as needed; (III)

e. Be required to maintain a staffing pattern of all departments. These records must be maintained for six months and are to be made available for departmental review. (III)

481—58.10(135C) General policies.

58.10(1) There shall be written personnel policies in facilities of more than 15 beds to include hours of work, and attendance at educational programs. (III)

58.10(2) There shall be a written job description developed for each category of worker. The job description shall include title of job, job summary, qualifications (formal education and experience), skills needed, physical requirements, and responsibilities. (III)

58.10(3) There shall be written personnel policies for each facility. Personnel policies shall include the following requirements:

a. Employees shall have a physical examination before employment. (I, II, III)

b. Employees shall have a physical examination at least every four years. (I, II, III)

c. Screening and testing for tuberculosis shall be conducted pursuant to 481—Chapter 59. (I, II, III)

58.10(4) Health certificates for all employees shall be available for review. (III)

58.10(5) Rescinded IAB 10/19/88, effective 11/23/88.

58.10(6) There shall be written policies for emergency medical care for employees and residents in case of sudden illness or accident which includes the individual to be contacted in case of emergency. (III)

58.10(7) The facility shall have a written agreement with a hospital for the timely admission of a resident who, in the opinion of the attending physician, requires hospitalization. (III)

58.10(8) Infection control program. Each facility shall have a written and implemented infection control and exposure control program with policies and procedures based on the guidelines issued by the Centers for Disease Control and Prevention (CDC), U.S. Department of Health and Human Services. (I, II, III) CDC guidelines are available at www.cdc.gov.

58.10(9) Infection control committee. Each facility shall establish an infection control committee of representative professional staff responsible for overall infection control in the facility. The infection control committee may be part of or the same as another quality assurance committee as long as the following standards are met: (III)

a. The committee shall annually review and revise the infection control policies and procedures to monitor effectiveness and suggest improvement. (III)

b. The committee shall meet at least quarterly, submit reports to the administrator, and maintain minutes in sufficient detail to document its proceedings and actions. (III)

c. The committee shall monitor the health aspect and the environment of the facility. (III)

58.10(10) There shall be written policies for resident care programs and services as outlined in these rules. (III)

58.10(11) Prior to the removal of a deceased resident/patient from a facility, the funeral director or person responsible for transporting the body shall be notified by the facility staff of any special precautions that were followed by the facility having to do with the mode of transmission of a known or suspected communicable disease. (III)

[**ARC 0663C**, IAB 4/3/13, effective 5/8/13; **ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.11(135C) Personnel.

58.11(1) *General qualifications.*

a. No person with a current record of habitual alcohol intoxication or addiction to the use of drugs shall serve in a managerial role of a nursing facility. (II)

b. No person under the influence of alcohol or intoxicating drugs shall be permitted to provide services in a nursing facility. (II)

c. No person shall be allowed to provide services in a facility if the person has a disease:

(1) Which is transmissible through required workplace contact, (I, II, III)

(2) Which presents a significant risk of infecting others, (I, II, III)

(3) Which presents a substantial possibility of harming others, and (I, II, III)

(4) For which no reasonable accommodation can eliminate the risk. (I, II, III)

Refer to guidelines issued by the Centers for Disease Control and Prevention, U.S. Department of Health and Human Services, to determine (1), (2), (3) and (4).

d. Individuals with either physical or mental disabilities may be employed for specific duties, but only if that disability is unrelated to that individual's ability to perform the duties of the job. (III)

e. Persons employed in all departments, except the nursing department of a nursing facility, shall be qualified through formal training or through prior experience to perform the type of work for which they have been employed. Prior experience means at least 240 hours of full-time employment in a field

related to their duties. Persons may be hired in laundry, housekeeping, activities and dietary without experience or training if the facility institutes a formal in-service training program to fit the job description in question and documents such as having taken place within 30 days after the initial hiring of such untrained employees. (III)

f. The health services supervisor shall be a qualified nurse as defined in these regulations. (II)

g. There shall be an organized ongoing in-service educational and training program planned in advance for all personnel in all departments. (II, III)

h. Nurse aides may be utilized in accordance with the requirements in 441—subrule 81.13(19) and rule 441—81.16(249A). Nurse aides who have received training other than the Iowa state-approved program must pass a competency evaluation approved by the department of inspections and appeals in accordance with 441—subrule 81.13(19) and rule 441—81.16(249A). Evidence of prior formal training must be presented to the facility or institution conducting the challenge examination before the examination is given. The approved facility or institution, following department of inspections and appeals guidelines, shall make the determination of who is qualified to take the examination. Documentation of the challenge examinations administered shall be maintained.

58.11(2) *Nursing supervision and staffing.*

a. Where only part-time nurses are employed, one nurse shall be designated health service supervisor. (III)

b. A qualified nurse shall be employed to relieve the supervising nurses, including charge nurses, on holidays, vacation, sick leave, days off, absences or emergencies. Pertinent information for contacting such relief person shall be readily available to nurses. (III)

c. When the health service supervisor serves as the administrator of a facility 50 beds and over, a qualified nurse must be employed to relieve the health service supervisor of nursing responsibilities. (III)

d. The department may establish on an individual facility basis the numbers and qualifications of the staff required in the facility using as its criteria the services being offered and the needs of the residents. (III)

e. A nursing facility of 75 beds or more shall have a qualified nurse on duty 24 hours per day, seven days a week. (II, III)

f. In facilities under 75 beds, if the health service supervisor is a licensed practical nurse, the facility shall employ a registered nurse, for at least four hours each week for consultation, who must be on duty at the same time as the health service supervisor. (II, III)

(1) This shall be an on-site consultation and documentation shall be made of the visit. (III)

(2) The registered nurse-consultant shall have responsibilities clearly outlined in a written agreement with the facility. (III)

(3) Consultation shall include but not be limited to the following: counseling the health service supervisor in the management of the health services; (III) reviewing and evaluating the health services in determining that the needs of the residents are met; (II, III) conducting a review of medications at least monthly if the facility does not employ a registered nurse part-time. (II, III)

g. Facilities with 75 or more beds must employ a health service supervisor who is a registered nurse. (II)

h. There shall be at least two people who shall be capable of rendering nursing service, awake, dressed, and on duty at all times. (II)

i. Physician's and other qualified health care practitioner's orders shall be implemented by qualified personnel. (II, III)

58.11(3) *Employee criminal record checks, child abuse checks and dependent adult abuse checks and employment of individuals who have committed a crime or have a founded abuse.* The facility shall comply with the requirements found in Iowa Code section 135C.33 and rule 481—50.9(135C) related to completion of criminal record checks, child abuse checks, and dependent adult abuse checks and to employment of individuals who have committed a crime or have a founded abuse. (I, II, III)

[**ARC 0903C**, IAB 8/7/13, effective 9/11/13; **ARC 5421C**, IAB 2/10/21, effective 3/17/21; **ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.12(135C) Admission, transfer, and discharge.

58.12(1) *General admission policies.*

a. No resident shall be admitted or retained in a nursing facility who is in need of greater services than the facility can provide. (II, III)

b. No nursing facility shall admit more residents than the number of beds for which it is licensed, except guest rooms for visitors. (II, III)

c. There shall be no more beds erected than is stipulated on the license. (II, III)

d. There shall be no more beds erected in a room than its size and other characteristics will permit. (II, III)

e. The admission of a resident to a nursing facility shall not give the facility or any employee of the facility the right to manage, use, or dispose of any property of the resident except with the written authorization of the resident or the resident's legal representative. (III)

f. The admission of a resident shall not grant the nursing facility the authority or responsibility to manage the personal affairs of the resident except as may be necessary for the safety of the resident and safe and orderly management of the facility as required by these rules. (III)

g. Residents have a right to retain and use personal possessions, including furnishings and clothing, as space permits, unless to do so would infringe upon the rights or health and safety of other residents. (III)

h. Rescinded, effective 7/14/82.

i. Funds or properties received by the nursing facility belonging to or due a resident, expendable for the resident's account, shall be trust funds. (III)

j. Infants and children under the age of 16 shall not be admitted to health care facilities for adults unless given prior written approval by the department. A distinct part of a health care facility, segregated from the adult section, may be established based on a program of care submitted by the licensee or applicant which is commensurate with the needs of the residents of the health care facility and has received the department's review and approval. (III)

k. No health care facility, and no owner, administrator, employee or representative thereof shall act as guardian, trustee, or conservator for any resident's property, unless such resident is related to the person acting as guardian within the third degree of consanguinity.

l. Within 30 days of a resident's admission to a health care facility receiving reimbursement through the medical assistance program under Iowa Code chapter 249A, the facility shall ask the resident or the resident's personal representative whether the resident is a veteran and shall document the response. If the facility determines that the resident is a potential veteran, the facility shall report the resident's name along with the names of the resident's spouse and any dependent children, as well as the name of the contact person for this information, to the Iowa department of veterans affairs. Where appropriate, the facility may also report such information to the Iowa department of human services.

If a resident is eligible for benefits through the United States Department of Veterans Affairs or other third-party payor, the facility first shall seek reimbursement from the identified payor source before seeking reimbursement from the medical assistance program established under Iowa Code chapter 249A.

The provisions of this paragraph shall not apply to the admission of an individual as a resident to a state mental health institute for acute psychiatric care or to the admission of an individual to the Iowa Veterans Home. (II, III)

58.12(2) *Discharge or transfer.*

a. Prior notification shall be made to the resident, as well as the resident's next of kin, legal representative, attending physician, and sponsoring agency, if any, prior to transfer or discharge of any resident. (III)

b. Proper arrangements shall be made by the nursing facility for the welfare of the resident prior to transfer or discharge in the event of an emergency or inability to reach the next of kin or legal representative. (III)

c. The licensee shall not refuse to discharge or transfer a resident when the physician, family, resident, or legal representative requests such a discharge or transfer. (II, III)

d. Advance notification will be made to the receiving facility prior to the transfer of any resident. (III)

e. When a resident is transferred or discharged, the appropriate record as set forth in 58.15(2)*"k"* of these rules will accompany the resident. (II, III)

f. Prior to the transfer or discharge of a resident to another health care facility, arrangements to provide for continuity of care shall be made with the facility to which the resident is being sent. (II, III)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.13(135C) Contracts. Each contract shall:

58.13(1) State the base rate or scale per day or per month, the services included, and the method of payment; (III)

58.13(2) Contain a complete schedule of all offered services for which a fee may be charged in addition to the base rate. Furthermore, the contract shall: (III)

a. Stipulate that no further additional fees shall be charged for items not contained in complete schedule of services as set forth in 58.13(3); (III)

b. State the method of payment of additional charges; (III)

c. Contain an explanation of the method of assessment of such additional charges and an explanation of the method of periodic reassessment, if any, resulting in changing such additional charges; (III)

d. State that additional fees may be charged to the resident for nonprescription drugs, other personal supplies, and services by a barber, beautician, etc.; (III)

58.13(3) Contain an itemized list of those services, with the specific fee the resident will be charged and method of payment, as related to the resident's current condition, based on the nursing assessment at the time of admission, which is determined in consultation with the administrator; (III)

58.13(4) Include the total fee to be charged initially to the specific resident; (III)

58.13(5) State the conditions whereby the facility may make adjustments to the facility's overall fees for resident care as a result of changing costs. (III) Furthermore, the contract shall provide that the facility shall give:

a. Written notification to the resident, or responsible party when appropriate, of changes in the overall rates of both base and additional charges at least 30 days prior to effective date of such changes; (III)

b. Notification to the resident, or responsible party when appropriate, of changes in additional charges, based on a change in the resident's condition. Notification must occur prior to the date such revised additional charges begin. If notification is given orally, subsequent written notification must also be given within a reasonable time, not to exceed one week, listing specifically the adjustments made; (III)

58.13(6) State the terms of agreement in regard to refund of all advance payments in the event of transfer, death, voluntary or involuntary discharge; (III)

58.13(7) State the terms of agreement concerning the holding and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons. The terms shall contain a provision that the bed will be held at the request of the resident or the resident's responsible party.

a. The facility shall ask the resident or responsible party if the resident wants the bed held. This request shall be made before the resident leaves or within 48 hours after the resident leaves. The inquiry and the response shall be documented. (II)

b. The facility shall reserve the bed when requested for as long as payments are made in accordance with the contract. (II)

58.13(8) State the conditions under which the involuntary discharge or transfer of a resident would be effected; (III)

58.13(9) State the conditions of voluntary discharge or transfer; (III)

58.13(10) Set forth any other matters deemed appropriate by the parties to the contract. No contract or any provision thereof shall be drawn or construed so as to relieve any health care facility of any requirement or obligation imposed upon it by this chapter or any standards or rules in force pursuant to this chapter; (III)

58.13(11) Each party shall receive a copy of the signed contract. (III)

481—58.14(135C) Medical services.

58.14(1) Each resident in a nursing facility shall designate a licensed physician who may be called when needed. Professional management of a resident's care shall be the responsibility of the hospice program when:

a. The resident is terminally ill, and

b. The resident has elected to receive hospice services under the federal Medicare program from a Medicare-certified hospice program, and

c. The facility and the hospice program have entered into a written agreement under which the hospice program takes full responsibility for the professional management of hospice care.

58.14(2) Each resident admitted to a nursing facility shall have had a physical examination prior to admission. If the resident is admitted directly from a hospital, a copy of the hospital admission physical and discharge summary may be made part of the record in lieu of an additional physical examination. A record of the examination, signed by the physician or other qualifying health care practitioner, shall be a part of the resident's record. (III)

58.14(3) Arrangements shall be made to have a physician available to furnish medical care in case of emergency. (II, III)

58.14(4) Rescinded, effective 7/14/82.

58.14(5) The person in charge shall immediately notify the physician of any accident, injury, or adverse change in the resident's condition. (I, II, III)

58.14(6) A schedule listing the names and telephone numbers of the physicians shall be readily available to nursing staff. (III)

58.14(7) Residents shall be admitted to a nursing facility only on a written order signed by a physician certifying that the individual being admitted requires no greater degree of nursing care than the facility is licensed to provide. (III)

58.14(8) Physician delegation of tasks. Each resident, including private pay residents, shall be visited by or shall visit the resident's physician at least twice a year. The year period shall be measured from the date of admission and is not to include preadmission physicals.

a. For a skilled nursing patient, the resident must be seen by a physician for the initial comprehensive visit. Additional visits are required at least once every 30 days for 90 days after admission and at least once every 60 days thereafter. After the initial comprehensive visit, alternate required visits may be performed by an advanced registered nurse practitioner, clinical nurse specialist or physician associate who is working in collaboration with a physician, as outlined in Table 1. (III)

b. Notwithstanding the provisions of 42 CFR 483.40, any required physician task or visit in a nursing facility may also be performed by an advanced registered nurse practitioner, clinical nurse specialist, or physician associate who is working in collaboration with a physician, as outlined in Table 1. (III)

c. In dually certified skilled nursing/nursing facilities, the advanced registered nurse practitioner, clinical nurse specialist, and physician associate must follow the skilled nursing facility requirements for services for skilled nursing facility stays. For nursing facility stays in skilled nursing/nursing facilities, any required physician task or visit may be performed by an advanced registered nurse practitioner, clinical nurse specialist, or physician associate working in collaboration with the physician. (III)

d. Nurse practitioners, clinical nurse specialists, and physician associates may perform other tasks that are not reserved to the physician such as visits outside the normal schedule needed to address new symptoms or other changes in medical status. (III)

Table 1: Authority for non-physician practitioners to perform visits, sign orders, and sign certifications/recertifications when permitted by state law*

	Initial Comprehensive Visit/Orders	Other Required Visits[1]	Other Medically Necessary Visits and Orders[2]	Certification/ Recertification
Skilled Nursing Facilities				
Physician associate, nurse practitioner and clinical nurse specialist employed by the facility	May not perform/May not sign	May perform alternate visits	May perform and sign	May not sign

	Initial Comprehensive Visit/Orders	Other Required Visits[1]	Other Medically Necessary Visits and Orders[2]	Certification/ Recertification
Physician associate, nurse practitioner and clinical nurse specialist not a facility employee	May not perform/May not sign	May perform alternate visits	May perform and sign	May sign subject to state requirements
Nursing Facilities				
Nurse practitioner, clinical nurse specialist, and physician associate employed by the facility	May not perform/May not sign	May not perform	May perform and sign	Not applicable+
Nurse practitioner, clinical nurse specialist, and physician associate not a facility employee	May perform/May sign	May perform	May perform and sign	Not applicable+

*As permitted by state law governing the scope and practice of nurse practitioners, clinical nurse specialists, and physician associates.

1 Other required visits include the skilled nursing resident monthly visits that may be alternated between physician and advanced registered nurse practitioners, clinical nurse specialists, or physician associates after the initial comprehensive visit is completed.

2 Medically necessary visits may be performed prior to the initial comprehensive visit.

+ This requirement relates specifically to coverage of Part A Medicare stays, which can take place only in a Medicare-certified skilled nursing facility.

[**ARC 1048C**, IAB 10/2/13, effective 11/6/13; **ARC 1398C**, IAB 4/2/14, effective 5/7/14; **ARC 7033C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 6/10/26]

481—58.15(135C) Records.

58.15(1) *Resident admission record.* The licensee shall keep a permanent record on all residents admitted to a nursing facility with all entries current, dated, and signed. This shall be a part of the resident clinical record. (III) The admission record form shall include:

a. Name and previous address of resident; (III)

b. Birth date, sex, and marital status of resident; (III)

c. Church affiliation; (III)

d. Physician's name, telephone number, and address; (III)

e. Dentist's name, telephone number, and address; (III)

f. Name, address, and telephone number of next of kin or legal representative; (III)

g. Name, address, and telephone number of person to be notified in case of emergency; (III)

h. Mortician's name, telephone number, and address; (III)

i. Pharmacist's name, telephone number, and address. (III)

58.15(2) *Resident clinical record.* There shall be a separate clinical record for each resident admitted to a nursing facility with all entries current, dated, and signed. (III) The resident clinical record shall include:

a. Admission record; (III)

b. Admission diagnosis; (III)

c. The record of the admission physical examination described in subrule 58.14(2). It shall include the resident's name, sex, age, pertinent medical history, current medical status, tuberculosis status, and any other information required to adequately assess the resident and whether the facility is able to meet the resident's needs; (III)

d. Physician's certification that the resident requires no greater degree of nursing care than the facility is licensed to provide; (III)

e. Orders for medication, treatment, and diet in writing and signed by an appropriate qualifying health care practitioner quarterly; (III)

f. Progress notes.

(1) Physician shall enter a progress note at the time of each visit; (III)

(2) Other professionals, i.e., dentists, social workers, physical therapists, pharmacists, and others shall enter a progress note at the time of each visit; (III)

g. All laboratory, X-ray, and other diagnostic reports; (III)

h. Nurse's record including:

(1) Admitting notes including time and mode of transportation; room assignment; disposition of valuables; symptoms and complaints; general condition; vital signs; and weight; (II, III)

(2) Routine notes including physician's visits; telephone calls to and from the physician; unusual incidents and accidents; change of condition; social interaction; and P.R.N. medications administered including time and reason administered, and resident's reaction; (II, III)

(3) Discharge or transfer notes including time and mode of transportation; resident's general condition; instructions given to resident or legal representative; list of medications and disposition; and completion of transfer form for continuity of care; (II, III)

(4) Death notes including notification of physician and family to include time, disposition of body, resident's personal possessions and medications; and complete and accurate notes of resident's vital signs and symptoms preceding death; (III)

i. Medication record.

(1) An accurate record of all medications administered shall be maintained for each resident. (II, III)

(2) Schedule II drug records shall be kept in accordance with state and federal laws; (II, III)

j. Death record. In the event of a resident's death, notations in the resident's record shall include the date and time of the resident's death, the circumstances of the resident's death, the disposition of the resident's body, and the date and time that the resident's family and physician were notified of the resident's death; (III)

k. Transfer form.

(1) The transfer form shall include identification data from the admission record, name of transferring institution, name of receiving institution, and date of transfer; (III)

(2) The nurse's report shall include resident attitudes, behavior, interests, functional abilities (activities of daily living), unusual treatments, nursing care, problems, likes and dislikes, nutrition, current medications (when last given), and condition on transfer; (III)

(3) The physician's report shall include reason for transfer, medications, treatment, diet, activities, significant laboratory and X-ray findings, and diagnosis and prognosis; (III)

l. Consultation reports shall indicate services rendered by allied health professionals in the facility or in health-centered agencies such as dentists, physical therapists, podiatrists, oculists, and others. (III)

58.15(3) *Resident personal record.* Personal records may be kept as a separate file by the facility.

a. Personal records may include factual information regarding personal statistics, family and responsible relative resources, financial status, and other confidential information.

b. Personal records shall be accessible to professional staff involved in planning for services to meet the needs of the resident. (III)

c. When the resident's records are closed, the information shall become a part of the final record. (III)

d. Personal records shall include a duplicate copy of the contract(s). (III)

58.15(4) *Incident record.*

a. Each nursing facility shall maintain an incident record report and shall have available incident report forms. (III)

b. Report of incidents shall be in detail on a printed incident report form or electronic form. (III)

c. The person in charge at the time of the incident shall prepare and sign the report. (III)

d. The report shall cover all accidents where there is apparent injury or where hidden injury may have occurred. (III)

e. The report shall cover all accidents or unusual occurrences within the facility or on the premises affecting residents, visitors, or employees. (III)

f. A copy of the incident report shall be kept on file in the facility. (III)

58.15(5) *Retention of records.*

a. Records shall be retained in the facility for five years following termination of services. (III)

b. Records shall be retained within the facility upon change of ownership. (III)

c. Rescinded, effective 7/14/82.

d. When the facility ceases to operate, the resident's record shall be released to the facility to which the resident is transferred. If no transfer occurs, the record shall be released to the individual's physician. (III)

58.15(6) *Reports to the department.* The licensee shall furnish statistical information concerning the operation of the facility to the department on request. (III)

58.15(7) *Personnel record.*

a. An employment record shall be kept for each employee, consisting of the following information: name and address of employee, social security number of employee, date of birth of employee, date of employment, experience and education, references, position in the home, criminal history and dependent adult abuse background checks, and date and reason for discharge or resignation. (III)

b. The personnel records shall be made available for review upon request by the department. (III)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.16(135C) Resident care and personal services.

58.16(1) Beds shall be made daily and adjusted as necessary. A complete change of linen shall be made at least once a week and more often if necessary. (III)

58.16(2) Residents shall receive sufficient supervision so that their personal cleanliness is maintained. (II, III)

58.16(3) Residents shall have clean clothing as needed to present a neat appearance, to be free of odors, and to be comfortable. Clothing shall be based on resident choice and shall be appropriate to residents' activities and to the weather. (III)

58.16(4) Rescinded, effective 7/14/82.

58.16(5) Residents shall be encouraged to leave their rooms and make use of the recreational room or living room of the facility. (III)

58.16(6) Residents shall not be required to pass through another's bedroom to reach a bathroom, living room, dining room, corridor, or other common areas of the facility. (III)

58.16(7) Rescinded, effective 7/14/82.

58.16(8) Uncontrollable residents shall be transferred or discharged from the facility in accordance with contract arrangements and requirements of Iowa Code chapter 135C. (II, III)

58.16(9) Except for those who request differently, residents who are not bedfast shall be fully dressed each day to maintain self-esteem and promote the residents' normal lifestyles. (III)

58.16(10) Residents shall receive a bath of their choice, based on the facility's accommodations, as needed to maintain proper hygiene. (II, III)

481—58.17 Rescinded, effective 7/14/82.

481—58.18(135C) Nursing care.

58.18(1) Individual health care plans shall be based on resident treatment decisions, the nature of the illness or disability, treatment, and care prescribed. Goals shall be developed by each discipline providing service, treatment, and care. These plans shall be in writing, revised as necessary, and kept current. They shall be made available to all those rendering the services and for review by the department. (III)

58.18(2) Rescinded IAB 4/2/14, effective 5/7/14.

58.18(3) The facility shall provide resident and family education as an integral part of restorative and supportive care. (III)

58.18(4) The facility shall provide prompt response from qualified staff for the resident's use of the nurse call system. (II, III) (Prompt response being considered as no longer than 15 minutes.)

[**ARC 1398C**, IAB 4/2/14, effective 5/7/14]

481—58.19(135C) Required nursing services for residents. The resident shall receive and the facility shall provide, as appropriate, the following required nursing services under the 24-hour direction of qualified nurses with ancillary coverage as set forth in these rules:

58.19(1) *Activities of daily living.*

a. Bathing; (II, III)

b. Daily oral hygiene (denture care); (II, III)

c. Routine shampoo; (II, III)

d. Nail care; (III)

e. Shaving; (III)

f. Daily care and application of prostheses (glasses, hearing aids, glass eyes, limb prosthetics, braces, or other assistive devices); (II, III)

g. Ambulation with equipment if applicable, or transferring, or positioning; (I, II, III)

h. Daily routine range of motion; (II, III)

i. Mobility (assistance with wheelchair, mechanical lift, or other means of locomotion); (I, II, III)

j. Elimination.

(1) Assistance to and from the bathroom and perineal care; (II, III)

(2) Bedpan assistance; (II, III)

(3) Care for incontinent residents; (II, III)

(4) Bowel and bladder training programs including in-dwelling catheter care (i.e., insertion and irrigation), enema and suppository administration, and monitoring and recording of intake and output, including solid waste; (I, II, III)

k. Colostomy care (to be performed only by a registered nurse or licensed practical nurse or by a qualified aide under the direction of a registered nurse or licensed practical nurse); (I, II, III)

l. Ileostomy care (to be performed only by a registered nurse or licensed practical nurse or by a qualified aide under the direction of a registered nurse or licensed practical nurse); (I, II, III)

m. All linens necessary; (III)

n. Nutrition and meal service.

(1) Regular, therapeutic, modified diets, and snacks; (I, II, III)

(2) Mealtime preparation of resident; (II, III)

(3) Assistance to and from meals; (II, III)

(4) In-room meal service or tray service; (II, III)

(5) Assistance with food preparation and meal assistance including total assistance if needed; (II, III)

(6) Assistance with adaptive devices; (II, III)

(7) Enteral nutrition (to be performed by a registered nurse or licensed practical nurse only); (I, II, III)

(8) Sufficient fluid intake to maintain proper hydration and health; (I, II, III)

o. Promote initiation of self-care for elements of resident care; (II, III)

p. Oral suctioning (to be performed only by a registered nurse or licensed practical nurse or by a qualified aide under the direction of a registered nurse or licensed practical nurse). (I, II)

58.19(2) *Medication and treatment.*

a. Administration of all medications as ordered by the physician including oral, instillations, topical, injectable (to be injected by a registered nurse or licensed practical nurse only); (I, II)

b. Provision of the appropriate care and treatment of wounds, including pressure sores, to promote healing, prevent infection, and prevent new sores from developing; (I, II)

c. Blood glucose monitoring; (I, II)

d. Vital signs, blood pressure, and weights; (I, II)

e. Ambulation and transfer; (II, III)

f. Provision of restraints; (I, II)

g. Administration of oxygen (to be performed only by a registered nurse or licensed practical nurse or by a qualified aide under the direction of a registered nurse or licensed practical nurse); (I, II)

h. Provision of all treatments; (I, II, III)

i. Provision of emergency medical care, including arranging for transportation, in accordance with written policies and procedures of the facility; (I, II, III)

j. Provision of accurate assessment and timely intervention for all residents who have an onset of adverse symptoms which represent a change in mental, emotional, or physical condition. (I, II, III)

[**ARC 1398C**, IAB 4/2/14, effective 5/7/14; **ARC 2560C**, IAB 6/8/16, effective 7/13/16]

481—58.20(135C) Duties of health service supervisor. Every nursing facility shall have a health service supervisor who shall:

58.20(1) Direct the implementation of the physician's orders; (I, II)

58.20(2) Plan for and direct the nursing care, services, treatments, procedures, and other services in order that each resident's needs and choices, where practicable, are met; (II, III)

58.20(3) Review the health care needs and choices, where practicable, of each resident admitted to the facility and assist the attending physician in planning for the resident's care; (II, III)

58.20(4) Develop and implement a written health care plan in cooperation with, to the extent practicable, the resident, the resident's family or the resident's legal representative, and others in accordance with instructions of the attending physician as follows:

a. The written health care plan, based on the assessment and reassessment of the resident's health needs and choices, where practicable, is personalized for the individual resident and indicates care to be given, goals to be accomplished, and methods, approaches, and modifications necessary to achieve best results; (III)

b. The health service supervisor is responsible for preparing, reviewing, supervising the implementation, and revising the written health care plan; (III)

c. The health care plan is readily available for use by all personnel caring for the resident; (III)

58.20(5) Initiate preventative and restorative nursing procedures for each resident so as to achieve and maintain the highest possible degree of function, self-care, and independence based on resident choice, where practicable; (II, III)

58.20(6) Supervise health services personnel to ensure they perform the following restorative measures in their daily care of residents:

a. Maintaining good bodily alignment and proper positioning; (II, III)

b. Making every effort to keep the resident active except when contraindicated by physician's orders, and encouraging residents to achieve independence in activities of daily living by teaching self-care, transfer, and ambulation activities; (III)

c. Assisting residents to adjust to their disabilities, to use their prosthetic devices, and to redirect their interests as necessary; (III)

d. Assisting residents to carry out prescribed therapy exercises between visits of the therapist; (III)

e. Assisting residents with routine range of motion exercises; (III)

58.20(7) Plan and conduct nursing staff orientation and in-service programs and provide for training of nurse's aides; (III)

58.20(8) Plan with the resident and the resident's physician and family and health-related agencies for the care of the resident upon discharge; (III)

58.20(9) Designate a responsible person to be in charge during absences; (III)

58.20(10) Be responsible for all assignments and work schedules for all health services personnel to ensure that the health needs of the residents are met; (III)

58.20(11) Ensure that all nurse's notes are descriptive of the care rendered including the resident's response; (III)

58.20(12) Visit each resident routinely to be knowledgeable of the resident's current condition; (III)

58.20(13) Evaluate in writing the performance of each individual on the health care staff on at least an annual basis. This evaluation shall be available for review in the facility to the department; (III)

58.20(14) Keep the administrator informed of the resident's status; (III)

58.20(15) Teach and coordinate rehabilitative health care including activities of daily living, promotion and maintenance of optimal physical and mental functioning; (III)

58.20(16) Supervise serving of meals to ensure that individuals unable to assist themselves are promptly fed and that special eating adaptive devices are available as needed; (II, III)

58.20(17) Make available a nursing procedure manual which shall include all procedures practiced in the facility; (III)

58.20(18) Participate with the administrator in the formulation of written policies and procedures for resident services; (III)

58.20(19) The person in charge shall immediately notify the family of any accident, injury, or adverse change in the resident's condition requiring physician's notification. (III)

481—58.21(135C) Drugs, storage, and handling.

58.21(1) Drug storage for residents who are unable to take their own medications and require supervision shall meet the following requirements:

a. A cabinet with a lock, convenient to nursing service, shall be provided and used for storage of all drugs, solutions, and prescriptions; (III)

b. The drug storage cabinet shall be kept locked when not in use; (III)

c. The medication cabinet key shall be in the possession of the person directly responsible for issuing medications; (II, III)

d. Double-locked storage of Schedule II drugs shall not be required under single unit package drug distribution systems in which the quantity stored does not exceed a three-day supply and a missing dose can be readily detected. (II)

58.21(2) Drugs for external use shall be stored separately from drugs for internal use. (III)

58.21(3) Medications requiring refrigeration shall be kept in a refrigerator and separated from food and other items. A method for locking these medications shall be provided. (III)

58.21(4) All potent, poisonous, or caustic materials shall be stored separately from drugs. They shall be plainly labeled and stored in a specific, well-illuminated cabinet, closet, or storeroom and made accessible only to authorized persons. (I, II)

58.21(5) All flammable materials shall be specially stored and handled in accordance with applicable local and state fire regulations. (II)

58.21(6) A properly trained person shall be charged with the responsibility of administering nonparenteral medications.

a. The individual shall have knowledge of the purpose of the drugs, their dangers, and contraindications.

b. This person shall be a licensed nurse or physician or shall have successfully completed a department-approved medication aide course or passed a department-approved medication aide challenge examination administered by an area community college.

c. Prior to taking a department-approved medication aide course, the individual shall:

(1) Successfully complete an approved nurse aide course, nurse aide training and testing program or nurse aide competency examination.

(2) Be employed in the same facility and work at least 480 hours prior to the start of the medication aide course.

(3) Have a letter of recommendation for admission to the medication aide course from the employing facility.

d. A person who is a nursing student may take the challenge examination in place of taking a medication aide course. This individual shall do all of the following before taking the medication aide challenge examination:

(1) Complete a clinical or nursing theory course within six months before taking the challenge examination;

(2) Successfully complete a nursing program pharmacology course within one year before taking the challenge examination;

(3) Provide to the community college a written statement from the nursing program's pharmacology or clinical instructor indicating the individual is competent in medication administration.

(4) Successfully complete a department-approved nurse aide competency evaluation.

e. A person who has written documentation of certification as a medication aide in another state may become a medication aide in Iowa by successfully completing a department-approved nurse aide competency examination and a medication aide challenge examination.

The requirements of paragraph *"c"* of this subrule do not apply to this individual.

58.21(7) Unless the unit dose system is used, the person assigned the responsibility of medication administration must complete the procedure by personally preparing the dose, observing the actual act of swallowing the oral medication, and charting the medication. (II) In facilities where the unit dose system is used, the person assigned the responsibility must complete the procedure by observing the actual act of

swallowing the medication and charting the medication. Medications shall be prepared on the same shift of the same day that they are administered, (II) unless the unit dose system is used.

58.21(8) An accurate written record of medications administered shall be made by the individual administering the medication. (III)

58.21(9) Records shall be kept of all medications received and dispensed in accordance with 42 CFR 483.45(b)(2) and federal interpretive guidelines. (III)

58.21(10) Any unusual resident reaction shall be reported to the physician at once. (II)

58.21(11) A policy shall be established by the facility in conjunction with a licensed pharmacist to govern the distribution of prescribed medications to residents who are on leave from the facility. (III)

a. Medication may be issued to residents who will be on leave from a facility for less than 24 hours. Notwithstanding the prohibition against paper envelopes in 58.21(14)*"a,"* non-child-resistant containers may be used. Each container may hold only one medication. A label on each container shall indicate the date, the resident's name, the facility, the medication, its strength, dose, and time of administration.

b. Medication for residents on leave from a facility longer than 24 hours shall be obtained in accordance with requirements established by the Iowa board of pharmacy.

c. Medication distributed as above may be issued only by a nurse responsible for administering medication. (I, II, III)

58.21(12) Emergency medications. A nursing facility shall provide emergency medications pursuant to the following requirements: (III)

a. Prescription drugs as well as nonprescription items must be prescribed or approved by the physician, in consultation with the pharmacist, who provides emergency service to the facility; (III)

b. The emergency medications shall be stored in an accessible place; (III)

c. A list of the emergency medications and quantities of each item shall be maintained by the facility; (III)

d. The container holding the emergency medications shall be closed with a seal which may be broken when drugs are required in an emergency or for inspection; (III)

e. Any item removed from the emergency medications shall be replaced within 48 hours; (III)

f. A permanent record shall be kept of each time the emergency medications are used; (III)

g. The emergency medications shall be inspected by a pharmacist at least once every three months to determine the stability of items. (III)

58.21(13) Drug handling.

a. Bulk supplies of prescription drugs shall not be kept in a nursing facility unless a licensed pharmacy is established in the facility under the direct supervision and control of a pharmacist or the prescription drugs are stored in an automated medication distribution system (AMDS) in compliance with standards established by the Iowa board of pharmacy. (III)

b. Inspection of drug storage condition shall be made by the health service supervisor and a registered pharmacist not less than once every three months. The inspection shall be verified by a report signed by the nurse and pharmacist and filed with the administrator. The report shall include, but not be limited to, certifying absence of the following: expired drugs, deteriorated drugs, improper labeling, drugs for which there is no current physician's order, and drugs improperly stored. (III)

c. If the facility permits licensed nurses to dilute or reconstitute drugs at the nursing station, distinctive supplementary labels shall be available for the purpose. The notation on the label shall be so made as to be indelible. (III)

d. Dilution and reconstitution of drugs and their labeling shall be done by the pharmacist whenever possible. If not possible, the following shall be carried out only by the licensed nurse:

(1) Specific directions for dilution or reconstitution and expiration date should accompany the drug; (III)

(2) A distinctive supplementary label shall be affixed to the drug container when diluted or reconstituted by the nurse for other than immediate use. (III) The label shall bear the following: resident's name, dosage and strength per unit/volume, nurse's name, expiration date, and date and time of dilution. (III)

58.21(14) Drug safeguards.

a. All prescribed medications shall be clearly labeled indicating the resident's full name, physician's name, prescription number, name and strength of drug, dosage, directions for use, date of issue, and name and address and telephone number of pharmacy or physician issuing the drug. Where unit dose is used, prescribed medications shall, as a minimum, indicate the resident's full name, physician's name, name and strength of drug, and directions for use. Standard containers shall be utilized for dispensing drugs. Paper envelopes shall not be considered standard containers. Prescription medications distributed from an AMDS shall follow any labeling standards established by the Iowa board of pharmacy. (III)

b. Medication containers having soiled, damaged, illegible or makeshift labels, or medication samples shall be returned to the issuing pharmacist, pharmacy, or physician for relabeling or disposal. (III)

c. There shall be no medications or any solution in unlabeled containers. (II, III)

d. The medications of each resident shall be kept or stored in the originally received containers. (II, III)

e. Labels on containers shall be clearly legible and firmly affixed. No label shall be superimposed on another label of a drug container. (II, III)

f. When a resident is discharged or leaves the facility, the unused prescription shall be sent with the resident or with a legal representative only upon the written order of a physician. (III)

g. Unused prescription drugs prescribed for residents who are deceased shall be returned to the supplying pharmacist. (III)

h. Prescriptions shall be refilled only with the permission of the attending physician. (II, III)

i. No medications prescribed for one resident may be administered to or allowed in the possession of another resident. (II)

j. Instructions shall be requested of the Iowa board of pharmacy concerning disposal of unused Schedule II drugs prescribed for residents who have died or for whom the Schedule II drug was discontinued. (III)

k. There shall be a formal routine for the proper disposal of discontinued medications within a reasonable but specified time. These medications shall not be retained with the resident's current medications. Discontinued drugs shall be destroyed by the responsible nurse with a witness and a notation made to that effect or returned to the pharmacist for destruction or resident credit. Drugs listed under the Schedule II drugs shall be disposed of in accordance with the provisions of the Iowa board of pharmacy. (II, III)

l. All medication orders which do not specifically indicate the number of doses to be administered or the length of time the drug is to be administered shall be stopped automatically after a given time period. The automatic stop order may vary for different types of drugs. The physician, in consultation with the pharmacist serving the home, shall institute policies and provide procedures for review and endorsement of stop orders on drugs. This policy shall be conveniently located for personnel administering medications. (II, III)

m. No resident shall be allowed to keep possession of any medications unless the attending physician has certified in writing on the resident's medical record that the resident is mentally and physically capable of doing so. (II)

n. Residents who have been certified in writing by the physician as capable of taking their own medications may retain these medications in their bedroom, but locked storage must be provided. (II)

o. No medications or prescription drugs shall be administered to a resident without a written order signed by the attending physician. (II)

p. A qualified nurse shall:

(1) Establish a medication schedule system which identifies the time and dosage of each medication prescribed for each resident, is based on the resident's desired routine, and is approved by the resident's physician. (II, III)

(2) Establish a medication record containing the information specified above needed to monitor each resident's drug regimen. (II, III)

q. Telephone orders shall be taken by a qualified nurse. Orders shall be written into the resident's record and signed by the person receiving the order. Telephone orders shall be submitted to the physician for signature within 48 hours. (III)

r. A pharmacy operating in connection with a nursing facility shall comply with the provisions of the pharmacy law requiring registration of pharmacies and the regulations of the Iowa board of pharmacy. (III)

s. In a nursing facility with a pharmacy or drug supply, service shall be under the personal supervision of a pharmacist licensed to practice in the state of Iowa. (III)

58.21(15) Drug administration.

a. Injectable medications shall be administered as permitted by Iowa law by a qualified nurse, physician, pharmacist, or physician associate (PA). In the case of a resident who has been certified by the resident's physician or physician associate (PA) as capable of taking the resident's own insulin, the resident may inject the resident's own insulin. (II)

b. An individual inventory record shall be maintained for each Schedule II drug prescribed for each resident. (II)

c. The health service supervisor shall be responsible for the supervision and direction of all personnel administering medications. (II)

[**ARC 1050C**, IAB 10/2/13, effective 11/6/13; **ARC 7033C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 6/10/26]

481—58.22(135C) Rehabilitative services. Rehabilitative services shall be provided to maintain function or improve the resident's ability to carry out the activities of daily living.

58.22(1) *Physical therapy services.*

a. Each facility shall have a written agreement with a licensed physical therapist to provide physical therapy services. (III)

b. Physical therapy shall be rendered only by a physical therapist licensed to practice in the state of Iowa. All personnel assisting with the physical therapy of residents must be under the direction of a licensed physical therapist. (II, III)

c. The licensed physical therapist shall:

(1) Evaluate the resident and prepare a physical therapy treatment plan conforming to the medical orders and goals; (III)

(2) Consult with other personnel in the facility who are providing resident care and plan with them for the integration of a physical therapy treatment program into the overall health care plan; (III)

(3) Instruct the nursing personnel responsible for administering selected restorative procedures between treatments; (III)

(4) Present programs in the facility's in-service education programs. (III)

d. Treatment records in the resident's medical chart shall include:

(1) The prescription for treatment; (III)

(2) An initial evaluation note by the physical therapist; (III)

(3) The physical therapy care plan defining clearly the long-term and short-term goals and outlining the current treatment program; (III)

(4) Notes of the treatments given and changes in the resident's condition; (III)

(5) A complete discharge summary to include recommendations for nursing staff and family. (III)

e. There shall be adequate facilities, space, appropriate equipment, and storage areas as are essential to the treatment or examinations of residents. (III)

58.22(2) *Other rehabilitative services.*

a. The facility shall arrange for specialized and supportive rehabilitative services when such services are ordered by a physician. (III) These may include audiology and occupational therapy.

b. Audiology services shall be under the direction of a person licensed in the state of Iowa by the board of speech pathology and audiology. (II, III)

c. Occupational therapy services shall be under the direction of a qualified occupational therapist who is currently registered by the American Occupational Therapy Association. (II, III)

d. The appropriate professional shall:

(1) Develop the treatment plan and administer or direct treatment in accordance with the prescription and rehabilitation goals; (III)

(2) Consult with other personnel within the facility who are providing resident care and plan with them for the integration of a treatment program into the overall health care plan. (III)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.23(135C) Dental, diagnostic, and other services.

58.23(1) *Dental services.*

a. The nursing facility personnel shall assist residents to obtain regular and emergency dental services. (III)

b. Transportation arrangements shall be made when necessary for the resident to be transported to the dentist's office. (III)

c. Dental services shall be performed only on the request of the resident, responsible relative, or legal representative. The resident's physician shall be advised of the resident's dental problems. (III)

d. All dental reports or progress notes shall be included in the clinical record. (III)

e. Nursing personnel shall assist the resident in carrying out dentist's recommendations. (III)

f. Dentists shall be asked to participate in the in-service program of the facility. (III)

58.23(2) *Diagnostic services.*

a. The nursing facility shall make provisions for promptly securing required clinical laboratory, X-ray, and other diagnostic services. (III)

b. All diagnostic services shall be provided only on the written, signed order of a physician. (III)

c. Agreements shall be made with the local hospital laboratory or independent laboratory to perform specific diagnostic tests when they are required. (III)

d. Transportation arrangements for residents shall be made, when necessary, to and from the source of service. (III)

e. Copies of all diagnostic reports shall be requested by the facility and included in the resident's clinical record. (III)

f. The physician ordering the specific diagnostic service shall be promptly notified of the results. (III)

g. Simple tests such as customarily done by nursing personnel for diabetic residents may be performed in the facility. (III)

58.23(3) *Other services.*

a. The nursing facility shall assist residents to obtain such supportive services as requested by the physician. (III)

b. Transportation arrangements shall be made when necessary. (III)

c. Services could include the need for prosthetic devices, glasses, hearing aids, and other necessary items. (III)

481—58.24(135C) Dietary.

58.24(1) *Organization of dietetic services.* The facility shall meet the needs of the residents and provide the services listed in this standard. If a service is contracted out, the contractor shall meet the same standard. A written agreement shall be formulated between the facility and the contractor and shall convey to the department the right to inspect the food service facilities of the contractor. (III)

a. There shall be written policies and procedures for dietetic services that include staffing, nutrition, menu planning, therapeutic diets, preparation, food service, ordering, receiving, storage, sanitation, and staff hygiene. The policies and procedures shall be made available for use by dietetic services. (III)

b. There shall be written job descriptions for each position in dietetic services. The job descriptions shall be made available for use by dietetic services. (III)

58.24(2) *Dietary staffing.* The facility shall employ dietary staff in accordance with 42 CFR 483.60(a).

a. Reserved.

b. The supervisor shall have overall supervisory responsibility for dietetic services and shall be employed for a sufficient number of hours to complete management responsibilities that include:

(1) Participating in regular conferences with the consultant dietitian, the administrator and other department heads; (III)

(2) Writing menus with consultation from the dietitian and seeing that current menus are posted and followed and that menu changes are recorded; (III)

(3) Establishing and maintaining standards for food preparation and service; (II, III)

(4) Participating in selection, orientation, and in-service training of dietary personnel; (II, III)

(5) Supervising activities of dietary personnel; (II, III)

(6) Maintaining up-to-date records of residents identified by name, location and diet order; (III)

(7) Visiting residents to learn individual needs and communicating with other members of the health care team regarding nutritional needs of residents when necessary; (II, III)

(8) Keeping records of repairs of equipment in dietetic services. (III)

c. A minimum of one person with supervisory and management responsibility and the authority to direct and control food preparation and service shall be a certified food protection manager who has received training from and passed a test that is part of an American National Standards Institute (ANSI)-accredited Certified Food Protection Manager Program.

d. The facility shall employ sufficient supportive personnel to carry out the following functions:

(1) Preparing and serving adequate amounts of food that are handled in a manner to be bacteriologically safe; (II, III)

(2) Washing and sanitizing dishes, pots, pans and equipment at temperatures required by procedures described in the Food Code as defined in Iowa Code section 137F.2; (II, III)

(3) Serving therapeutic diets as prescribed by the physician or other qualified health care practitioner, including a licensed dietitian if delegated by the physician and within the dietician's scope of practice, and following the planned menu. (II, III)

e. The facility may assign simultaneous duties in the kitchen and laundry, housekeeping, or nursing service to appropriately trained personnel. Proper sanitary and personal hygiene procedures shall be followed in compliance with the Food and Drug Administration Food Code adopted pursuant to Iowa Code section 137F.2 and 481—Chapter 31. (II, III)

f. If the dietetic service supervisor is not a licensed dietitian, a consultant dietitian is required. The consultant dietitian shall be licensed by the state of Iowa pursuant to Iowa Code chapter 152A.

g. Consultants' visits shall be scheduled to be of sufficient duration and at a time convenient to:

(1) Record, in the resident's medical record, any observations, assessments and information pertinent to medical nutrition therapy; (I, II, III)

(2) Work with residents and staff on resident care plans; (III)

(3) Consult with the administrator and others on developing and implementing policies and procedures; (III)

(4) Write or approve general and therapeutic menus; (III)

(5) Work with the dietetic supervisor on developing procedures, recipes and other management tools; (III)

(6) Present planned in-service training and staff development for food service employees and others. Documentation of consultation shall be available for review in the facility by the department. (III)

h. In facilities licensed for more than 15 beds, dietetic services shall be available for a minimum of a 12-hour span extending from the time of preparation of breakfast through supper. (III)

58.24(3) *Nutrition and menu planning.*

a. Menus shall be planned and followed to meet the nutritional needs of each resident in accordance with a qualified health care practitioner's orders and in consideration of the resident's allergies, intolerances, choices, and preferences. (II, III)

b. Menus shall be planned to provide 100 percent of the daily recommended dietary allowances as established by the Food and Nutrition Board of the National Research Council of the National Academy of Sciences. A current copy of the Simplified Diet Manual or other suitable diet manual shall be available and used in the planning and serving of all meals. (II)

c. At least three meals or their equivalent shall be served daily at regular hours. (II)

(1) There shall be no more than a 14-hour span between a substantial evening meal and breakfast except as provided in subparagraph (3) below. (II, III)

(2) Suitable, nourishing alternative meals and snacks must be provided to residents who want to eat at nontraditional times or outside of scheduled meal service times, consistent with the resident plan of care and 42 CFR 483.60(f) and federal interpretive guidelines. (II, III)

(3) When a nourishing snack is provided at bedtime, up to 16 hours may elapse between a substantial evening meal and breakfast of the following day. The current resident group must agree to this meal span and a nourishing snack must be served. (II)

d. Menus shall include a variety of foods prepared in various ways. (III)

e. Menus shall be written at least one week in advance. The current menu shall be located in an accessible place in the dietetic services department for easy use by persons purchasing, preparing and serving food. (III)

f. Records of menus as served shall be filed and maintained for 30 days and shall be available for review by department personnel. When substitutions are necessary, they shall be of similar nutritive value and recorded. (III)

g. A file of tested recipes adjusted to the number of people to be served in the facility shall be maintained. (III)

h. Alternate foods of similar nutritional value shall be offered to residents who refuse the food served. (II, III)

58.24(4) *Therapeutic diets and nutritional status.*

a. The facility shall ensure that each resident has a nutritional assessment completed by the licensed dietitian within 14 days of admission or after the facility determines there has been a significant change in the resident's physical or mental condition that addresses the residents' medical condition and therapeutic dietary needs, desires and rights in regard to their nutritional plan. (I, II, III)

b. Therapeutic diets shall be prescribed by the resident's physician or other qualified health care practitioner. A current edition of the Simplified Diet Manual or other suitable diet manual shall be readily available to physicians, nurses and dietetic services personnel. A current diet manual shall be used as a guide for writing menus for therapeutic diets. A licensed dietitian shall be responsible for writing and approving the therapeutic menu and reviewing procedures for preparation and service of food. (II, III)

c. Personnel responsible for planning, preparing and serving therapeutic diets shall receive instructions on those diets. (II, III)

d. The facility shall ensure that each resident maintains acceptable parameters of nutritional status, such as body weight, unless the resident's clinical condition demonstrates that this is not possible. (I, II, III)

58.24(5) *Food handling, preparation and service.* All food shall be handled, prepared and served in compliance with the requirements of the Food and Drug Administration Food Code adopted under provisions of Iowa Code section 137F.2. (I, II, III) In addition, the following shall apply.

a. Methods used to prepare foods shall be those which conserve nutritive value and flavor and meet the taste preferences of the residents. (III)

b. Foods shall be attractively served. (III)

c. Foods shall be cut up, chopped, ground or blended to meet individual needs. (I, II, III)

d. Self-help devices shall be provided as needed. (II, III)

e. Disposables shall not be used routinely. Plasticware, china and glassware that are unsightly, unsanitary or hazardous because of chips, cracks or loss of glaze shall be discarded. (II, III)

f. All food that is transported through public corridors shall be covered. (III)

g. Residents may be allowed in the food preparation area. (III)

h. The food preparation area may be used as a dining area for residents, staff or food service personnel if the facility engages in person-directed care. (III)

i. There shall be effective written procedures established for cleaning all work and serving areas. (III)

j. A schedule of cleaning duties to be performed daily shall be posted. (III)

k. An exhaust system and hood shall be clean, operational and maintained in good repair. (III)

l. The food service area shall be located so it will not be used as a passageway by residents, guests or non-food service staff. (III)

58.24(6) *Paid nutritional assistants.* A paid nutritional assistant means an individual who meets the requirements of this subrule and who is an employee of the facility or an employee of a temporary employment agency employed by the facility. A facility may use an individual working in the facility as a paid nutritional assistant only if that individual has successfully completed a state-approved training program for paid nutritional assistants. (I, II, III)

a. Training program requirements.

(1) A state-approved training program for paid nutritional assistants must include, at a minimum, eight hours of training in the following areas:

1. Feeding techniques.
2. Assistance with feeding and hydration.
3. Communication and interpersonal skills.
4. Appropriate responses to resident behavior.
5. Safety and emergency procedures, including the Heimlich maneuver.
6. Infection control.
7. Resident rights.
8. Recognizing changes in residents that are inconsistent with their normal behavior and reporting these changes to the supervisory nurse.

(2) In addition to the training program requirements specified in subparagraph (1), the training program must include at least four hours of classroom study, two hours of supervised laboratory work, and two hours of supervised clinical experience.

(3) A facility that offers a paid nutritional assistant training program must provide sufficient supplies in order to teach the objectives of the course.

(4) All paid nutritional assistant training program instructors shall be registered nurses. Other qualified health care professionals may assist the instructor in teaching the classroom portion and clinical or laboratory experience. The ratio of students to instructor shall not exceed ten students per instructor in the clinical setting.

(5) Each individual enrolled in a paid nutritional assistant training program shall complete a 50-question multiple choice written test and must obtain a score of 80 percent or higher. In addition, the individual must successfully perform the feeding of a resident in a clinical setting. A registered nurse shall conduct the final competency determination.

(6) If an individual does not pass either the written test or competency demonstration, the individual may retest the failed portion a second time. If the individual does not pass either the written test or competency demonstration portion the second time, the individual shall not be allowed to retest.

b. Program approval. A facility or other entity may not offer or teach a paid nutritional assistant training program until the department has approved the program. Individuals trained in a program not approved by the department will not be allowed to function as paid nutritional assistants.

(1) A facility or other institution offering a paid nutritional assistant training program must provide the following information about the training program to the department before offering the program or teaching paid nutritional assistants:

1. Policies and procedures for program administration.
2. Qualifications of the instructors.
3. Maintenance of program records, including attendance records.
4. Criteria for determining competency.
5. Program costs and refund policies.
6. Lesson plans, including the objectives to be taught, skills demonstrations, assignments, quizzes, and classroom, laboratory and clinical hours.

(2) The facility or other institution offering a paid nutritional assistant training program must submit the materials specified in subparagraph (1) for department review. The department shall, within ten days of receipt of the material, advise the facility or institution whether the program is approved, or request additional information to assist the department in determining whether the curriculum meets

the requirements for a paid nutritional assistant training program. Before approving any paid nutritional assistant training program, the department shall determine whether the curriculum meets the requirements specified in this subrule. The department shall maintain a list of facilities and institutions eligible to provide paid nutritional assistant training. (I, II, III)

(3) A facility shall maintain a record of all individuals who have successfully completed the required training program and are used by the facility as paid nutritional assistants. The individual shall complete the training program with a demonstration of knowledge and competency skills necessary to serve as a paid nutritional assistant. (I, II, III)

(4) The facility or other institution providing the training shall, within ten calendar days of an individual's successful completion of the training program, provide the individual with a signed and dated certificate of completion. A facility that employs paid nutritional assistants shall maintain on file copies of the completed certificate and skills checklist for each individual who has successfully completed the training program. (I, II, III)

c. Working restrictions.

(1) A paid nutritional assistant must work under the supervision of a registered nurse or a licensed practical nurse. In an emergency, a paid nutritional assistant must call a supervisory nurse on the resident call system for help. (I, II, III)

(2) A facility must ensure that a paid nutritional assistant feeds only residents who have no complicated feeding problems. Complicated feeding problems include, but are not limited to, difficulty swallowing, recurrent lung aspirations, and tube, parenteral or intravenous feedings. The facility must base resident selection on the charge nurse's assessment and the resident's latest assessment and plan of care. (I, II, III)

[**ARC 2560C**, IAB 6/8/16, effective 7/13/16; **ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.25(135C) Social services program.

58.25(1) The administrator or designee shall be responsible for developing a written, organized orientation program for all residents. (III)

58.25(2) The program shall be planned and implemented to resolve or reduce personal, family, business, and emotional problems that may interfere with the medical or health care, recovery, and rehabilitation of the individual. (III)

58.25(3) The social services plan, including specific goals and regular evaluation of progress, shall be incorporated into the overall plan of care. (III)

481—58.26(135C) Resident activities program.

58.26(1) *Organized activities.* Each nursing facility shall provide an organized resident activity program for the group and for the individual resident which shall include suitable activities for evenings and weekends. (III)

a. The activity program shall be designed to meet the needs and interests of each resident and to assist residents in continuing normal activities within limitations set by the resident's physician. This shall include helping residents continue in their individual interests or hobbies. (III)

b. The program shall include individual goals for each resident. (III)

c. The program shall include both group and individual activities. (III)

d. No resident shall be forced to participate in the activity program. (III)

e. The activity program shall include suitable activities for those residents unable to leave their rooms. (III)

f. The program shall be incorporated into the overall health plan and shall be designed to meet the goals as written in the plan.

58.26(2) *Coordination of activities program.*

a. Each nursing facility shall employ a person to direct the activities program. (III)

b. Staffing for the activity program shall be sufficient to meet the residents' activity needs. (II, III)

c. The activity coordinator shall attend workshops or educational programs which relate to activity programming. These shall total a minimum of ten contact hours per year. These programs shall be approved by the department. (III)

d. There shall be a written plan for personnel coverage when the activity coordinator is absent during scheduled working hours. (III)

58.26(3) *Duties of activity coordinator.* The activity coordinator shall:

a. Have access to all residents' records excluding financial records; (III)

b. Coordinate all activities, including volunteer or auxiliary activities and religious services; (III)

c. Keep all necessary records including:

(1) Attendance; (III)

(2) Individual resident progress notes recorded at regular intervals (at least quarterly). A copy of these notes shall be placed in the resident's clinical record; (III)

(3) Monthly calendars, prepared in advance. (III)

d. Coordinate the activity program with all other services in the facility; (III)

e. Participate in the in-service training program in the facility. This shall include attending as well as presenting sessions. (III)

58.26(4) *Supplies, equipment, and storage.*

a. Each facility shall provide a variety of supplies and equipment of a nature calculated to fit the needs and interests of the residents. (III) These may include: books (standard and large print), magazines, newspapers, radio, television, and bulletin boards. Also appropriate would be box games, game equipment, songbooks, cards, craft supplies, record player, movie projector, piano, outdoor equipment, etc.

b. Storage shall be provided for recreational equipment and supplies. (III)

c. Locked storage should be available for potentially dangerous items such as scissors, knives, and toxic materials. (III)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 6/28/23]

481—58.27(135C) Certified volunteer long-term care ombudsman program. Rescinded **ARC 7033C**, IAB 5/31/23, effective 7/5/23.

481—58.28(135C) Safety. The licensee of a nursing facility shall be responsible for the provision and maintenance of a safe environment for residents and personnel. (III)

58.28(1) *Fire safety.*

a. All nursing facilities shall meet the fire safety rules and regulations as promulgated by the state fire marshal. (I, II)

b. The size of the facility and needs of the residents shall be taken into consideration in evaluating safety precautions and practices.

58.28(2) *Safety duties of administrator.* The administrator shall have a written emergency plan to be followed in the event of fire, tornado, explosion, or other emergency. (III)

a. The plan shall be posted. (III)

b. In-service shall be provided to ensure that all employees are knowledgeable of the emergency plan. (III)

58.28(3) *Resident safety.*

a. Residents shall be permitted to smoke only where proper facilities are provided. Smoking shall not be permitted in bedrooms. Smoking by residents considered to be careless shall be prohibited except when the resident is under direct supervision. (II, III)

b. Smoking is prohibited in all rooms where oxygen is being administered or in rooms where oxygen is stored. (II, III)

c. Whenever full or empty tanks of oxygen are being used or stored, they shall be securely supported in an upright position. (II, III)

d. Smoking shall be permitted only in posted areas. (II, III)

e. Each resident shall receive adequate supervision to protect against hazards from self, others, or elements in the environment. (I, II, III)

f. Residents shall be protected against physical or environmental hazards to themselves. (I, II, III)

[**ARC 1398C**, IAB 4/2/14, effective 5/7/14]

481—58.29(135C) Resident care.

58.29(1) There shall be a readily available supply of self-help and ambulation devices such as wheelchairs, walkers, and such other devices maintained in good repair that will meet the current needs of all residents. (III)

58.29(2) The facility shall ensure that each ambulatory resident has well-fitting shoes to provide support and prevent slipping. (III)

58.29(3) Equipment for personal care shall be maintained in a safe and sanitary condition. (II, III)

58.29(4) The expiration date for sterile equipment shall be exhibited on its wrappings. (III)

58.29(5) Residents who have been known to wander shall be provided with appropriate means of identification. (II, III)

58.29(6) Electric heating pads, blankets, or sheets shall be used only on the written order of a physician, when allowed by the Life Safety Code or applicable state or local fire regulations. (II, III)

481—58.30 Rescinded, effective 7/14/82.

481—58.31(135C) Housekeeping.

58.31(1) Written procedures shall be established and implemented for daily and weekly cleaning schedules. (III)

58.31(2) Each resident unit shall be cleaned on a routine schedule. (III)

58.31(3) All rooms, corridors, storage areas, linen closets, attics, and basements shall be kept in a clean, orderly condition, free of unserviceable furniture and equipment and accumulations of refuse. (III)

58.31(4) A hallway or corridor shall not be used for storage of equipment. (III)

58.31(5) All odors shall be kept under control by cleanliness and proper ventilation. (III)

58.31(6) Clothing worn by personnel shall be clean and washable. (III)

58.31(7) Housekeeping and maintenance personnel shall be provided with well-constructed and properly maintained equipment appropriate to the function for which it is to be used. (III)

58.31(8) All furniture, bedding, linens, and equipment shall be cleaned periodically and before use by another resident. (III)

58.31(9) Polishes used on floors shall provide a nonslip finish. (III)

58.31(10) [*]Throw or scatter rugs shall not be permitted. (III)

58.31(11) Entrances, exits, steps, and outside walkways shall be kept free from ice, snow, and other hazards. (II, III)

58.31(12) Residents shall not have access to storage areas for all cleaning agents, bleaches, insecticides, or any other poisonous, dangerous, or flammable materials. (II, III)

58.31(13) Sufficient numbers of noncombustible trash containers, which have covers, shall be available. (III)

58.31(14) Definite procedures shall be established for training housekeeping personnel. (III)

58.31(15) Rescinded IAB 12/6/06, effective 1/10/07.

58.31(16) There shall be provisions for the cleaning and storage of housekeeping equipment and supplies for each nursing unit. (III)

58.31(17) Bathtubs, shower stalls, or lavatories shall not be used for laundering, cleaning of utensils and mops, or for storage. (III)

58.31(18) Bedside utensils shall be stored in enclosed cabinets. (III)

58.31(19) Kitchen sinks shall not be used for the cleaning of mops, soaking of laundry, cleaning of bedside utensils, nursing utensils, or dumping of wastewater. (III)

58.31(20) Personal possessions of residents which may constitute hazards to themselves or others shall be removed and stored. (III)

[*] Objection. For text of Objection, see IAC Supp., Part I, 9/7/77. For text of Filed rules, 470—Chapter 58, see IAC Supp. 10/5/77.

481—58.32(135C) Maintenance.

58.32(1) Each facility shall establish a maintenance program in writing to ensure the continued maintenance of the facility, to promote good housekeeping procedures, and to ensure sanitary practices throughout the facility. (III)

58.32(2) The building, grounds, and other buildings shall be maintained in a clean, orderly condition and in good repair. (III)

58.32(3) Draperies and furniture shall be clean and in good repair. (III)

58.32(4) Cracks in plaster, peeling wallpaper or paint, and tears or splits in floor coverings shall be promptly repaired or replaced in a professional manner. (III)

58.32(5) The electrical systems, including appliances, cords, and switches, shall be maintained to guarantee safe functioning and comply with the national electrical code. (III)

58.32(6) All plumbing fixtures shall function properly and comply with the state plumbing code. (III)

58.32(7) Yearly inspections of the heating and cooling systems shall be made to guarantee safe operation. Documentation of these inspections shall be available for review. (III)

58.32(8) The building, grounds, and other buildings shall be kept free of breeding areas for flies, other insects, and rodents. (III)

58.32(9) The facility shall be kept free of flies, other insects, and rodents. (III)

58.32(10) Maintenance personnel.

a. A written program shall be established for the orientation of maintenance personnel. (III)

b. Maintenance personnel shall:

(1) Follow established written maintenance programs; (III)

(2) Be provided with appropriate, well-constructed, and properly maintained equipment. (III)

481—58.33(135C) Laundry.

58.33(1) All soiled linens shall be collected in and transported to the laundry room in closed, leakproof laundry bags or covered, impermeable containers. (III)

58.33(2) Except for related activities, the laundry room shall not be used for other purposes. (III)

58.33(3) Procedures shall be written for the proper handling of wet, soiled, and contaminated linens. (III)

58.33(4) Residents' personal laundry shall be marked with an identification. (III)

58.33(5) Bed linens, towels, and washcloths shall be clean and stain-free. (III)

481—58.34(135C) Garbage and waste disposal.

58.34(1) All garbage shall be gathered, stored, and disposed of in a manner that will not permit transmission of disease, create a nuisance, or provide a breeding or feeding place for vermin or insects. (III)

58.34(2) All containers for refuse shall be watertight, rodent-proof, and have tight-fitting covers. (III)

58.34(3) All containers shall be thoroughly cleaned each time the containers are emptied. (III)

58.34(4) All wastes shall be properly disposed of in compliance with local ordinances and state codes. (III)

58.34(5) Special provision shall be made for the disposal of soiled dressings and similar items in a safe, sanitary manner. (III)

481—58.35(135C) Buildings, furnishings, and equipment.

58.35(1) *Buildings—general requirements.*

a. For purposes of computation of usable floor space in bedrooms and other living areas of the facility, that part of the room having no less than seven feet of ceiling height shall be used. Usable floor space may include irregularities in the rooms such as alcoves and offsets with approval of the department. Usable floor space shall not include space needed for corridor door swings or wardrobes being used as a substitute for closet space. (III)

b. Portable emergency lights in good working condition shall be available at all times, at a ratio of one light per one employee on duty from 6 p.m. to 6 a.m. (III)

c. All windows shall be supplied with curtains and shades or drapes which are kept clean and in good repair. (III)

d. Light fixtures shall be so equipped to prevent glare and to prevent hazards to the residents. (III)

e. Exposed heating pipes, hot water pipes, or radiators in rooms and areas used by residents and within reach of residents shall be covered or protected to prevent injury or burns to residents. (II, III)

f. All fans located within seven feet of the floor shall be protected by screen guards of not more than one-half-inch mesh. (III)

g. Whenever glass sliding doors or transparent panels are used, they shall be marked conspicuously. (III)

h. The facility shall meet the equivalent requirements of the appropriate group occupancy of the state building code. (III)

i. No part of any room shall be enclosed, subdivided, or partitioned unless such part is separately lighted and ventilated and meets such other requirements as its usage and occupancy dictates, except closets used for the storage of residents' clothing. (III)

58.35(2) *Furnishings and equipment.*

a. All furnishings and equipment shall be durable, cleanable, and appropriate to its function and in accordance with the department's approved program of care. (III)

b. All resident areas shall be decorated, painted, and furnished to provide a home-like atmosphere. (III)

c. Upholstery materials shall be moisture- and soil-resistant, except on furniture provided by the resident and the property of the resident. (III)

58.35(3) *Dining and living rooms.*

a. Every facility shall have a dining room and a living room easily accessible to all residents. (III)

b. Dining rooms and living rooms shall at no time be used as bedrooms. (III)

c. Dining rooms and living rooms shall be available for use by residents at appropriate times to provide periods of social and diversional individual and group activities. (III)

d. A combination dining room and living room may be permitted if the space requirements of a multipurpose room as provided in 58.35(3)*"e"* are met. (III)

e. Multipurpose rooms. When space is provided for multipurpose dining and activities and recreational purposes, the area shall total at least 30 square feet per licensed bed for the first 100 beds and 27 square feet per licensed bed for all beds in excess of 100. An open area of sufficient size shall be provided to permit group activities such as religious meetings or presentation of demonstrations or entertainment. (III)

f. Living rooms.

(1) Living rooms shall be maintained for the use of residents and their visitors and may be used for recreational activities. (III)

(2) Living rooms shall be suitably provided with parlor furniture, television and radio receivers in good working order, recreational material such as games, puzzles, and cards, and reading material such as current newspapers and magazines. Furnishings and equipment of the room should be such as to allow group activities. (III)

(3) Card tables or game tables shall be made available. The tables should be of a height to allow a person seated in a wheelchair to partake in the games or card playing. (III)

(4) Chairs of proper height and appropriate to their use shall be provided for seating residents at game tables and card tables. (III)

g. Dining rooms.

(1) Dining rooms shall be furnished with dining tables and chairs appropriate to the size and function of the facility. These rooms and furnishings shall be kept clean and sanitary. (III)

(2) Dining tables and chairs shall be provided. (III)

(3) Dining tables should be so constructed that a person seated in a wheelchair can dine comfortably. (III)

(4) Tables shall be of sturdy construction with smooth, durable, nonpermeable tops that can be cleaned with a detergent sanitizing solution. (III)

(5) Dining chairs shall be sturdy and comfortable. Some arm chairs should be provided for ease of movement for some residents. (III)

(6) Residents shall be encouraged to eat in the dining room. (III)

58.35(4) *Bedrooms.*

a. Each resident shall be provided with a standard, single, or twin bed that is substantially constructed and in good repair. Rollaway beds, metal cots, or folding beds are not acceptable. Seventy-five percent of the beds shall have a spring with an adjustable head and foot section. A resident shall have the right to sleep in a chair per the resident's request and to have the bed removed from the room to allow for additional space. (III)

b. Each bed shall be equipped with the following: casters or glides unless a low bed and mattress are being used for fall precautions; a clean, comfortable, well-constructed mattress approximately five inches thick and standard in size for the bed; clean, comfortable pillows of average size; and moisture-proof covers and sheets as necessary to keep the mattress and pillows dry and clean. (III)

c. Each resident shall have a bedside table with a drawer to accommodate personal possessions. (III)

d. There shall be a comfortable chair, either a rocking chair or armchair, per resident bed. The resident's personal wishes shall be considered. (III)

e. There shall be drawer space for each resident's clothing. In a multiple bedroom, drawer space shall be assigned each resident. (III)

f. Walls, ceilings, and floors shall have easily cleanable surfaces and shall be kept clean and in good repair. (III)

g. Beds and other furnishings shall not obstruct free passage to and through doorways. (III)

h. Clothing shall be hung in closets or wardrobes available in each room. (III)

i. Beds shall not be placed with the head of the bed in front of a window or radiator. (III)

j. Beds shall not be placed in such a manner that the side of the bed is against the radiator or in close proximity to it unless it is covered so as to protect the resident from contact with it or from excessive heat. (III)

k. Reading lamps shall be provided each resident in the resident's room. (III)

l. Each room shall have sufficient accessible mirrors to serve the resident's needs. Mirrors are not required if the room is located in a CCDI unit and the mirrors cause concern for the resident. (III)

m. Sturdy, adjustable overbed tables shall be provided for each resident who is unable to eat in the dining room. (III)

n. Each resident bedroom shall have a door. The door shall be the swing type and shall not swing into the corridor. (III)

58.35(5) *Heating.* A centralized heating system capable of maintaining a minimum temperature of 78°F (26°C) shall be provided. Portable units or space heaters are prohibited from being used in the facility except as permitted in the governing Life Safety Code or in an emergency. In the event of emergency use, the facility shall provide notice to the state fire marshal's office within 24 hours. (III)

58.35(6) *Water supply.*

a. Every facility shall have an adequate water supply from an approved source. A municipal source of supply shall be considered as meeting this requirement. (III)

b. Private sources of supply shall be tested annually and the report submitted with the annual application for license. (III)

c. A bacterially unsafe source of supply shall be grounds for denial, suspension, or revocation of license. (III)

d. The department may require testing of private sources of supply at its discretion in addition to the annual test. The facility shall supply reports of such tests as directed by the department. (III)

e. Hot and cold running water under pressure shall be available in the facility. (III)

f. Prior to construction of a new facility or new water source, private sources of supply shall be surveyed and shall comply with the requirements of the department of health. (III)

58.35(7) *Nonambulatory residents.*

a. All nonambulatory residents shall be housed on the grade level floor. (II, III)

b. These provisions in *"a"* above relating to nonambulatory residents are not applicable if the facility has a suitably sized elevator.

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.36(135C) Family and employee accommodations.

58.36(1) Children under 14 years of age shall not be allowed into the service areas. (III)

58.36(2) The residents' bedrooms shall not be occupied by employees or family members of the licensee. (III)

58.36(3) In facilities where the total occupancy of family, employees, and residents is five or less, one toilet and one tub or shower shall be the minimum requirement. (III)

58.36(4) In facilities where the total occupancy of family, employees, and residents is more than five, separate bathing and toilet facilities shall be required for the family or employees distinct from such areas provided for residents. (III)

58.36(5) In all health care facilities, if the family or employees live within the facility, separate living quarters and recreation facilities shall be required for the family or employees distinct from such areas provided for residents. (III)

481—58.37(135C) Animals. Animals may be permitted within the facility with prior approval of the department and under controlled conditions. (III)

481—58.38(135C) Supplies.

58.38(1) *Linen supplies.*

a. There shall be an adequate supply of linen so that each resident shall have at least three washcloths, hand towels, and bath towels per week. (III)

b. A complete change of bed linens shall be available in the linen storage area for each bed. (III)

c. Sufficient lightweight, clean, serviceable blankets shall be available. All blankets shall be laundered as often as necessary for cleanliness and freedom from odors. (III)

d. Each bed shall be provided with clean, washable bedspreads. There shall be a supply available when changes are necessary. (III)

e. Uncrowded and convenient storage shall be provided for linens, pillows, and bedding. (III)

58.38(2) *First-aid kit.* A first-aid emergency kit shall be available on each floor in every facility. (II, III)

58.38(3) *Supplies and equipment for nursing services.*

a. All nursing care equipment shall be properly sanitized or sterilized before use by another resident. (II)

b. There shall be disposable or one-time use items available with provisions for proper disposal to prevent reuse except as allowed by generally accepted infection control standards. (I, II, III)

c. Convenient, safe storage shall be provided for bath and toilet supplies, bathroom scales, mechanical lifts, and shower chairs. (III)

d. Sanitary and protective storage shall be provided for all equipment and supplies. (III)

e. All items that must be sterilized shall be autoclaved unless sterile disposable items are furnished which are promptly disposed of after a single use. (III)

f. Supplies and equipment for nursing and personal care sufficient in quantities to meet the needs of the residents shall be provided. (III)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.39(135C) Residents' rights in general.

58.39(1) Each facility shall ensure that policies and procedures are written and implemented which include, at a minimum, all of the following provisions (subrules 58.39(2) to 58.39(6)) and which govern all areas of service provided by the facility. These policies and procedures shall be available to staff, residents, their families or legal representatives and the public and shall be reviewed annually. (II)

58.39(2) Policies and procedures shall address the admission and retention of persons with histories of dangerous or disturbing behavior. For the purposes of the subrule, persons with histories of dangerous or disturbing behavior are those persons who have been found to be seriously mentally impaired pursuant to Iowa Code section 229.13 within six months of the request for admission to the facility. In addition to establishing the criteria for admission and retention of persons so defined, the policies and procedures shall provide for:

a. Reasonable precautions to prevent the resident from harming self, other residents, or employees of the facility.

b. Treatment of persons with mental illness as defined in Iowa Code section 229.1(1) and which is provided in accordance with the individualized health care plan.

c. Ongoing and documented staff training on individualized health care planning for persons with mental illness.

58.39(3) Policies and procedures regarding the admission, transfer, and discharge of residents shall ensure that:

a. Only those persons are accepted whose needs can be met by the facility directly or in cooperation with community resources or other providers of care with which it is affiliated or has contracts. (II)

b. As changes occur in residents' physical or mental condition, necessitating services or care which cannot be adequately provided by the facility, they are transferred promptly to other appropriate facilities. (II)

58.39(4) Policies and procedures regarding the use of chemical and physical restraints shall define the use of said restraints and identify the individual who may authorize the application of physical restraints in emergencies, and describe the mechanism for monitoring and controlling their use. (II)

58.39(5) Policies and procedures shall include a method for submitting complaints and recommendations by residents or their responsible party and for ensuring a response and disposition by the facility. (II)

58.39(6) Policies and procedures shall include provisions governing access to, duplication of, and dissemination of information from the residents' records. (II)

58.39(7) Policies and procedures shall include a provision that each resident shall be fully informed of the resident's rights and responsibilities as a resident and of all rules governing resident conduct and responsibilities. This information must be provided upon admission, or in the case of residents already in the facility, upon the facility's adoption or amendment of residents' rights policies. (II)

a. The facility shall make known to residents what they may expect from the facility and its staff, and what is expected from them. The facility shall communicate these expectations during the period of not more than two weeks before or five days after admission. The communication shall be in writing, e.g., in a separate handout or brochure describing the facility, and interpreted verbally, e.g., as part of a preadmission interview, resident counseling, or in individual or group orientation sessions following admission. (II)

b. Residents' rights and responsibilities shall be presented in language understandable to the resident. If the facility serves residents who are non-English speaking or deaf or hard of hearing, steps shall be taken to translate the information into a foreign or sign language. In the case of blind residents, either Braille or a recording shall be provided. Residents shall be encouraged to ask questions about their rights and responsibilities and these questions shall be answered. (II)

c. A statement shall be signed by the resident, or the resident's responsible party, indicating an understanding of these rights and responsibilities, and shall be maintained in the record. The statement shall be signed no later than five days after admission, and a copy of the signed statement shall be given to the resident or responsible party, if applicable. In the case of an intellectually disabled resident, the signature shall be witnessed by a person not associated with or employed by the facility. The witness may be a parent, guardian, Medicaid agency representative, etc. (II)

d. In order to ensure that residents continue to be aware of these rights and responsibilities during their stay, a written copy shall be prominently posted in a location that is available to all residents. (II)

e. All residents shall be advised within 30 days following changes made in the statement of residents' rights and responsibilities. Appropriate means shall be utilized to inform non-English speaking, deaf or hard-of-hearing, or blind residents of such changes. (II)

58.39(8) Each resident or responsible party shall be fully informed in a contract as required in rule 481—58.13(135C), prior to or at the time of admission and during the resident's stay, of services available in the facility, and of related charges including any charges for services not covered under the Title XIX program or not covered by the facility's basic per diem rate. (II)

58.39(9) Each resident or responsible party shall be fully informed by a physician of the resident's health and medical condition unless medically contraindicated (as documented by a physician in the

resident's record). Each resident shall be afforded the opportunity to participate in the planning of the resident's total care and medical treatment, which may include, but is not limited to, nursing care, nutritional care, rehabilitation, restorative therapies, activities, and social work services. Each resident only participates in experimental research conducted under the U.S. Department of Health and Human Services' protection from research risks policy and then only upon the resident's informed written consent. Each resident has the right to refuse treatment except as provided by Iowa Code chapter 229. In the case of a confused or intellectually disabled individual, the responsible party shall be informed by the physician of the resident's medical condition and be afforded the opportunity to participate in the planning of the resident's total care and medical treatment, to be informed of the medical condition, and to refuse to participate in experimental research. (II)

a. The requirement that residents shall be informed of their conditions, involved in the planning of their care, and advised of any significant changes in either shall be communicated to every physician responsible for the medical care of residents in the facility. (II)

b. The administrator or designee shall be responsible for working with attending physicians in the implementation of this requirement. (II)

c. If the physician determines or in the case of a confused or intellectually disabled resident the responsible party determines that informing the resident of the resident's condition is contraindicated, this decision and reasons for it shall be documented in the resident's record by the physician. (II)

d. The resident's plan of care shall be based, in part, on the physician's orders. It shall be developed upon admission by appropriate facility staff and shall include participation by the resident if capable. Residents shall be advised of alternative courses of care and treatment and their consequences when such alternatives are available. The resident's preference about alternatives shall be elicited and honored if feasible.

e. Any clinical investigation involving residents must be under the sponsorship of an institution with a human subjects review board functioning in accordance with the requirements of 45 CFR 46. A resident being considered for participation in experimental research must be fully informed of the nature of the experiment, e.g., medication, treatment, and understand the possible consequences of participating or not participating. The resident's (or responsible party's) written informed consent must be received prior to participation. (II)

This rule is intended to implement Iowa Code section 135C.23(2).

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13; **ARC 5711C**, IAB 6/16/21, effective 7/21/21; **ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.40(135C) Involuntary discharge or transfer.

58.40(1) *Involuntary discharge or transfer permitted.* A facility may involuntarily discharge or transfer a resident for only one of the following reasons:

a. Medical reasons;

b. The resident's welfare or that of other residents;

c. Nonpayment for the resident's stay, as described in the contract for the resident's stay;

d. Due to action pursuant to Iowa Code chapter 229;

e. By reason of negative action by the Iowa department of human services; or

f. By reason of negative action by the quality improvement organization (QIO). (I, II, III)

58.40(2) *Medical reasons.* Medical reasons for transfer or discharge shall be based on the resident's needs and shall be determined and documented in the resident's record by the primary care provider. Transfer or discharge may be required in order to provide a different level of care to the resident. (II)

58.40(3) *Welfare of a resident.* Welfare of a resident or that of other residents refers to a resident's social, emotional, or physical well-being. A resident may be transferred or discharged because the resident's behavior poses a continuing threat to the resident (e.g., suicidal) or to the well-being of other residents or staff (e.g., the resident's behavior is incompatible with other residents' needs and rights). Written documentation that the resident's continued presence in the facility would adversely affect the resident's own welfare or that of other residents shall be made by the administrator or designee and shall include specific information to support this determination. (II)

58.40(4) *Involuntary discharge or transfer prohibited—payment source.* A resident shall not be transferred or discharged solely because the cost of the resident's care is being paid under Iowa Code chapter 249A or because the resident's source of payment is changing from private support to payment under Iowa Code chapter 249A. (I, II)

58.40(5) *Notice.* Involuntary transfer or discharge of a resident from a facility shall be preceded by a written notice to the resident and the responsible party. (II, III)

a. The notice shall contain all of the following information:

(1) The stated reason for the proposed transfer or discharge. (II)

(2) The effective date of the proposed transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads as follows: (II)

> You have a right to appeal the facility's decision to transfer or discharge you. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as "department") within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department's receipt of your request and you will not be transferred before a final decision is rendered. Extension of the 14-day requirement may be permitted in emergency circumstances upon request to the department's designee. If you lose the hearing, you will not be transferred before the expiration of either (1) 30 days following your receipt of the original notice of the discharge or transfer, or (2) 5 days following final decision of such hearing, including the exhaustion of all appeals, whichever occurs later. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

b. The notice shall be personally delivered to the resident and a copy placed in the resident's record. A copy shall also be transmitted to the department; the resident's responsible party; the resident's primary care provider; the person or agency responsible for the resident's placement, maintenance, and care in the facility; and the department on aging's office of the long-term care ombudsman. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent.

c. The notice required by paragraph 58.40(5)*"a"* shall be provided at least 30 days in advance of the proposed transfer or discharge unless one of the following occurs:

(1) An emergency transfer or discharge is mandated by the resident's health care needs and is in accordance with the written orders and medical justification of the primary care provider. Emergency transfers or discharges may also be mandated in order to protect the health, safety, or well-being of other residents and staff from the resident being transferred. (II)

(2) The transfer or discharge is subsequently agreed to by the resident or the resident's responsible party, and notification is given to the responsible party, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility.

(3) The discharge or transfer is the result of a final, nonappealable decision by the department of human services or the QIO.

d. A hearing requested pursuant to this subrule shall be held in accordance with subrule 58.40(7).

58.40(6) *Emergency transfer or discharge.* In the case of an emergency transfer or discharge, the resident must be given a written notice prior to or within 48 hours following the transfer or discharge. (II, III)

a. A copy of this notice shall be placed in the resident's file. The notice shall contain all of the following information:

(1) The stated reason for the transfer or discharge. (II)

(2) The effective date of the transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads as follows: (II)

You have a right to appeal the facility's decision to transfer or discharge you on an emergency basis. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as "department") within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department's receipt of your request. You may be transferred or discharged before the hearing is held or before a final decision is rendered. If you win the hearing, you have the right to be transferred back into the facility. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

b. The notice shall be personally delivered to the resident and a copy placed in the resident's record. A copy shall also be transmitted to the department; the resident's responsible party; the resident's primary care provider; the person or agency responsible for the resident's placement, maintenance, and care in the facility; and the department on aging's office of the long-term care ombudsman. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent.

c. A hearing requested pursuant to this subrule shall be held in accordance with subrule 58.40(7).

58.40(7) *Hearing.*

a. Request for hearing.

(1) The resident must request a hearing within 7 days of receipt of the written notice.

(2) The request must be made to the department, either in writing or verbally.

b. The hearing shall be held no later than 14 days after the department's receipt of the request unless either party requests an extension due to emergency circumstances.

c. Except in the case of an emergency discharge or transfer, a request for a hearing shall stay a transfer or discharge pending a final decision, including the exhaustion of all appeals. (II)

d. The hearing shall be heard by a department of inspections and appeals administrative law judge pursuant to Iowa Code chapter 17A and 7—Chapter 2506. The hearing shall be public unless the resident or resident's legal representative requests in writing that the hearing be closed. In a determination as to whether a transfer or discharge is authorized, the burden of proof by a preponderance of the evidence rests on the party requesting the transfer or discharge.

e. Notice of the date, time, and place of the hearing shall be sent by certified mail or delivered in person to the facility, the resident, the responsible party, and the office of the long-term care ombudsman not later than 5 full business days after the department's receipt of the request. The notice shall also inform the facility and the resident or the responsible party that they have a right to appear at the hearing in person or be represented by an attorney or other individual. The appeal shall be dismissed if neither party is present or represented at the hearing. If only one party appears or is represented, the hearing shall proceed with one party present. The office of the long-term care ombudsman shall have the right to appear at the hearing.

f. The administrative law judge's written decision shall be mailed by certified mail to the facility, resident, responsible party, and the office of the long-term care ombudsman within 10 working days after the hearing has been concluded.

g. If the basis for an involuntary transfer or discharge is the result of a negative action by the Iowa department of human services or the QIO, an appeal shall be filed with those agencies as appropriate. Continued payment shall be consistent with rules of those agencies.

58.40(8) *Nonpayment.* If nonpayment is the basis for involuntary transfer or discharge, the resident shall have the right to make full payment up to the date that the discharge or transfer is to be made and then shall have the right to remain in the facility. (II)

58.40(9) *Discussion of involuntary transfer or discharge.* Within 48 hours after notice of involuntary transfer or discharge has been received by the resident, the facility shall discuss the involuntary transfer or

discharge with the resident, the resident's responsible party, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. (II)

a. The facility administrator or other appropriate facility representative serving as the administrator's designee shall provide an explanation and discussion of the reasons for the resident's involuntary transfer or discharge. (II)

b. The content of the explanation and discussion shall be summarized in writing, shall include the names of the individuals involved in the discussion, and shall be made part of the resident's record. (II)

c. The provisions of this subrule do not apply if the involuntary transfer or discharge has already occurred pursuant to subrule 58.40(6) and emergency notice is provided within 48 hours.

58.40(10) *Transfer or discharge planning.*

a. The facility shall develop a plan to provide for the orderly and safe transfer or discharge of each resident to be transferred or discharged. (II)

b. To minimize the possible adverse effects of the involuntary transfer, the resident shall receive counseling services by the sending facility before the involuntary transfer and by the receiving facility after the involuntary transfer. Counseling shall be documented in the resident's record. (II)

c. The counseling requirement in paragraph 58.40(10)*"b"* does not apply if the discharge has already occurred pursuant to subrule 58.40(6) and emergency notice is provided within 48 hours.

d. Counseling, if required, shall be provided by a licensed mental health professional as defined in Iowa Code section 228.1(6). (II)

e. The health care facility that receives a resident who has been involuntarily transferred shall immediately formulate and implement a plan of care which takes into account possible adverse effects the transfer may cause. (II)

58.40(11) *Transfer upon revocation of license or voluntary closure.* Residents shall not have the right to a hearing to contest an involuntary discharge or transfer resulting from the revocation of the facility's license by the department of inspections and appeals. In the case of the voluntary closure of a facility, a period of 60 days must be allowed for an orderly transfer of residents to other facilities.

58.40(12) *Intrafacility transfer.*

a. Residents shall not be arbitrarily relocated from room to room within a licensed health care facility. (I, II) Involuntary relocation may occur only in the following situations, which shall be documented in the resident's record: (II)

(1) Resident's incompatibility with or disturbance to other roommates.

(2) For the welfare of the resident or other residents of the facility.

(3) For medical, nursing or psychosocial reasons, as judged by the primary care provider, nurse or social worker in the case of a facility which groups residents by medical, nursing or psychosocial needs.

(4) To allow a new admission to the facility that would otherwise not be possible due to separation of roommates by sex.

(5) In the case of a resident whose source of payment was previously private, but who now is eligible for Title XIX (Medicaid) assistance, the resident may be transferred from a private room to a semiprivate room or from one semiprivate room to another.

(6) Reasonable and necessary administrative decisions regarding the use and functioning of the building.

b. Unreasonable and unjustified reasons for changing a resident's room without the concurrence of the resident or responsible party include:

(1) Change from private pay status to Title XIX, except as outlined in subparagraph 58.40(12)*"a"*(5). (II)

(2) As punishment or behavior modification, except as specified in subparagraph 58.40(12)*"a"*(1). (II)

(3) Discrimination on the basis of race or religion. (II)

c. If intrafacility relocation is necessary for reasons outlined in paragraph 58.40(12)*"a,"* the resident shall be notified at least 48 hours prior to the transfer and the reason therefor shall be explained. The responsible party shall be notified as soon as possible. The notification shall be documented in the resident's record and signed by the resident or responsible party. (II)

d. If emergency relocation is required in order to protect the safety or health of the resident or other residents, the notification requirements may be waived. The conditions of the emergency shall be documented. The family or responsible party shall be notified immediately or as soon as possible of the condition that necessitates emergency relocation, and such notification shall be documented. (II)

e. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility and not as an intrafacility transfer. (II, III)

[**ARC 1752C**, IAB 12/10/14, effective 1/14/15; **ARC 3523C**, IAB 12/20/17, effective 1/24/18; **ARC 7033C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 8/5/26]

481—58.41(135C) Residents' rights. Each resident shall be encouraged and assisted throughout the resident's period of stay, to exercise rights as a resident and as a citizen and may voice grievances and recommend changes in policies and services to administrative staff or to outside representatives of the resident's choice, free from interference, coercion, discrimination, or reprisal. (II)

58.41(1) The facility shall provide ongoing opportunities for residents to be aware of and to exercise their rights as residents. Residents shall be kept informed of issues or pending decisions of the facility that affect them and their views shall be solicited prior to action. (II)

58.41(2) The facility shall implement a written procedure for registering and resolving grievances and recommendations by residents or their responsible party. The procedure shall ensure protection of the resident from any form of reprisal or intimidation. The written procedure shall include:

a. Designation of an employee responsible for handling grievances and recommendations. (II)

b. A method of investigating and assessing the validity of a grievance or recommendation. (II)

c. Methods of resolving grievances. (II)

d. Methods of recording grievances and actions taken. (II)

58.41(3) The facility shall post in a prominent area the name, telephone number, and address of the ombudsman, survey agency, local law enforcement agency, and certified volunteer long-term care ombudsman and the text of Iowa Code section 135C.46 to provide to residents a further course of redress. (II)

[**ARC 1205C**, IAB 12/11/13, effective 1/15/14]

481—58.42(135C) Financial affairs—management. Each resident who has not been assigned a guardian or conservator by the court may manage the resident's own personal financial affairs, and to the extent, under written authorization by the resident that the facility assists in management, the management shall be carried out in accordance with Iowa Code section 135C.24. (II)

58.42(1) The facility shall maintain a written account of all residents' funds received by or deposited with the facility. (II)

58.42(2) An employee shall be designated in writing to be responsible for resident accounts. (II)

58.42(3) The facility shall keep on deposit personal funds over which the resident has control in accordance with Iowa Code section 135C.24(2). Should the resident request these funds, they shall be given to the resident on request with receipts maintained by the facility and a copy to the resident. In the case of a confused or intellectually disabled resident, the resident's responsible party shall designate a method of disbursing the resident's funds. (II)

58.42(4) If the facility makes financial transactions on a resident's behalf, the resident must receive or acknowledge that the resident has seen an itemized accounting of disbursements and current balances at least quarterly. A copy of this statement shall be maintained in the resident's financial or business record. (II)

58.42(5) A resident's personal funds shall not be used without the written consent of the resident or the resident's guardian. (II)

58.42(6) A resident's personal funds shall be returned to the resident when the funds have been used without the written consent of the resident or the resident's guardian. The department may report findings that resident funds have been used without written consent to the audits division or the local law enforcement agency, as appropriate. (II)

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13]

481—58.43(135C) Resident abuse prohibited. Each resident shall receive kind and considerate care at all times and shall be free from mental, physical, sexual, and verbal abuse, exploitation, neglect, and physical injury. Each resident shall be free from chemical and physical restraints except as follows: when authorized in writing by a physician for a specified period of time; when necessary in an emergency to protect the resident from injury to the resident or to others, in which case restraints may be authorized by designated professional personnel who promptly report the action taken to the physician; and in the case of an intellectually disabled individual when ordered in writing by a physician and authorized by a designated qualified intellectual disabilities professional for use during behavior modification sessions. Mechanical supports used in normative situations to achieve proper body position and balance shall not be considered to be a restraint. (II)

58.43(1) Mental abuse includes, but is not limited to, humiliation, harassment, and threats of punishment or deprivation. (II)

58.43(2) Physical abuse includes, but is not limited to, corporal punishment and the use of restraints as punishment. (II)

58.43(3) Drugs such as tranquilizers may not be used as chemical restraints to limit or control resident behavior for the convenience of staff. (II)

58.43(4) Physicians' orders are required to utilize all types of physical restraints and shall be renewed at least quarterly. (II) Physical restraints are defined as the following:

Type I—the equipment used to promote the safety of the individual but is not applied directly to their person. Examples: divided doors and totally enclosed cribs.

Type II—the application of a device to the body to promote safety of the individual. Examples: vest devices, soft-tie devices, hand socks, geriatric chairs.

Type III—the application of a device to any part of the body which will inhibit the movement of that part of the body only. Examples: wrist, ankle or leg restraints and waist straps.

58.43(5) Physical restraints are not to be used to limit resident mobility for the convenience of staff and must comply with life safety requirements. If a resident's behavior is such that it may result in injury to the resident or others and any form of physical restraint is utilized, it should be in conjunction with a treatment procedure(s) designed to modify the behavioral problems for which the resident is restrained, or as a last resort, after failure of attempted therapy. (I, II)

58.43(6) Each time a Type II or III restraint is used documentation on the nurse's progress record shall be made which includes type of restraint and reasons for the restraint and length of time resident was restrained. The documentation of the use of Type III restraint shall also include the time of position change. (II)

58.43(7) Each facility shall implement written policies and procedures governing the use of restraints which clearly delineate at least the following:

a. Physicians' orders shall indicate the specific reasons for the use of restraints. (II)

b. Their use is temporary and the resident will not be restrained for an indefinite amount of time. (I, II)

c. A qualified nurse shall make the decision for the use of a Type II or Type III restraint for which there shall be a physician's order. (II)

d. A resident placed in a Type II or III restraint shall be checked at least every 30 minutes by appropriately trained staff. No form of restraint shall be used or applied in such a manner as to cause injury or the potential for injury and provide a minimum of discomfort to resident restrained. (I, II)

e. Reorders are issued only after the attending physician reviews the resident's condition. (II)

f. Their use is not employed as punishment, for the convenience of the staff, or as a substitute for supervision or program. (I, II)

g. The opportunity for motion and exercise shall be provided for a period of not less than ten minutes during each two hours in which Type II and Type III restraints are employed, except when resident is sleeping. However, when resident awakens, this shall be provided. This shall be documented each time. A check sheet may serve this purpose. (I, II)

h. Locked restraints or leather restraints shall not be permitted except in life-threatening situations. Straight jackets and secluding residents behind locked doors shall not be employed. (I, II)

i. Nursing assessment of the resident's need for continued application of a Type III restraint shall be made every 12 hours and documented on the nurse's progress record. Documentation shall include the type of restraint, reason for the restraint and the circumstances. Nursing assessment of the resident's need for continued application of either a Type I or Type II restraint and nursing evaluation of the resident's physical and mental condition shall be made every 30 days and documented on the nurse's progress record. (II)

j. Divided doors shall be of the type that when the upper half is closed the lower section shall close. (II)

k. Methods of restraint shall permit rapid removal of the resident in the event of fire or other emergency. (I, II)

l. The facility shall provide orientation and ongoing education programs in the proper use of restraints.

58.43(8) In the case of an intellectually disabled individual who participates in a behavior modification program involving use of restraints or aversive stimuli, the program shall be conducted only with the informed consent of the individual's parent or responsible party. Where restraints are employed, an individualized program shall be developed by the interdisciplinary team with specific methodologies for monitoring its progress. (II)

a. The resident's responsible party shall receive a written account of the proposed plan of the use of restraints or aversive stimuli and have an opportunity to discuss the proposal with a representative(s) of the treatment team. (II)

b. The responsible party must consent in writing prior to the use of the procedure. Consent may also be withdrawn in writing. (II)

58.43(9) Allegations of dependent adult abuse. Allegations of dependent adult abuse shall be reported and investigated pursuant to Iowa Code chapter 235E and 481—Chapter 52. (I, II, III)

58.43(10) and **58.43(11)** Rescinded IAB 12/11/13, effective 1/15/14.

This rule is intended to implement Iowa Code sections 135C.14, 235B.3(1), and 235B.3(11).

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13; **ARC 1204C**, IAB 12/11/13, effective 1/15/14; **ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.44(135C) Resident records. Each resident shall be ensured confidential treatment of all information contained in the resident's records, including information contained in an automatic data bank. The resident's written consent shall be required for the release of information to persons not otherwise authorized under law to receive it. (II)

58.44(1) The facility shall limit access to any medical records to staff and consultants providing professional service to the resident. This is not meant to preclude access by representatives of state and federal regulatory agencies. (II)

58.44(2) Similar procedures shall safeguard the confidentiality of residents' personal records, e.g., financial records and social services records. Only those personnel concerned with the financial affairs of the residents may have access to the financial records. This is not meant to preclude access by representatives of state and federal regulatory agencies. (II)

58.44(3) The resident, or the resident's responsible party, shall be entitled to examine all information contained in the resident's record and shall have the right to secure full copies of the record at reasonable cost upon request. (II)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.45(135C) Dignity preserved. The resident shall be treated with consideration, respect, and full recognition of dignity and individuality, including privacy in treatment and in care for personal needs. (II)

58.45(1) Staff shall display respect for residents when speaking with, caring for, or talking about them, as constant affirmation of their individuality and dignity as human beings. (II)

58.45(2) Schedules of daily activities shall allow maximum flexibility for residents to exercise choice about what they will do and when they will do it. Residents' individual preferences regarding such things as menus, clothing, religious activities, friendships, activity programs, entertainment, sleeping and eating, also times to retire at night and arise in the morning shall be elicited and considered by the facility. (II)

58.45(3) Residents shall be examined and treated in a manner that maintains the privacy of their bodies. A closed door or a drawn curtain shall shield the resident from passersby. People not involved in the care of the residents shall not be present without the resident's consent while the resident is being examined or treated. (II)

58.45(4) Privacy of a resident's body also shall be maintained during toileting, bathing, and other activities of personal hygiene, except as needed for resident safety or assistance. (II)

58.45(5) Staff shall knock and be acknowledged before entering a resident's room unless the resident is not capable of a response. This shall not apply in emergency conditions. (II)

481—58.46(135C) Resident work. No resident may be required to perform services for the facility, except as provided by Iowa Code sections 35D.14 and 347B.5. Residents may perform services for the facility if such services are performed in accordance with 42 CFR 483.10(f)(9). (II)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.47(135C) Communications. Each resident may communicate, associate, and meet privately with persons of the resident's choice, unless to do so would infringe upon the rights of other residents, and may send and receive personal mail unopened. (II)

58.47(1) Residents shall be permitted to receive visitors in accordance with 42 CFR 483.10(f)(4) and the federal interpretive guidelines. A particular visitor may be restricted by the facility if the visitor's behavior is unreasonably disruptive to the functioning of the facility (this judgment must be made by the administrator and the reasons shall be documented and kept on file). (II)

58.47(2) Decisions to restrict a visitor are reviewed and reevaluated: each time the medical orders are reviewed by the physician, at least quarterly by the facility's staff, or at the resident's request. (II)

58.47(3) Space shall be provided for residents to receive visitors in reasonable comfort and privacy. (II)

58.47(4) Telephones shall be available and accessible for residents to make and receive calls with privacy in accordance with 42 CFR 483.10(g)(6) and (7). Residents who need help shall be assisted in using the telephone. (II)

58.47(5) Arrangements shall be made to provide assistance to residents who require help in reading or sending mail. (II)

58.47(6) Residents shall be permitted to leave the facility and environs at reasonable times unless there are justifiable reasons established in writing by the attending physician, qualified intellectual disabilities professional or facility administrator for refusing permission. (II)

58.47(7) Residents shall not have their personal lives regulated beyond reasonable adherence to meal schedules, bedtime hours, and other written policies which may be necessary for the orderly management of the facility and as required by these rules. However, residents shall be encouraged to participate in recreational programs. (II)

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13; **ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.48(135C) Resident activities. Each resident may participate in activities of social, religious, and community groups at the resident's discretion unless contraindicated for reasons documented by the attending physician or qualified intellectual disabilities professional as appropriate in the resident's record. (II)

58.48(1) Residents who wish to meet with or participate in activities of social, religious, or other community groups in or outside of the facility shall be informed, encouraged, and assisted to do so. (II)

58.48(2) All residents shall have the freedom to refuse to participate in these activities. (II)

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13]

481—58.49(135C) Resident property. Each resident may retain and use personal clothing and possessions as space permits and provided such use is not otherwise prohibited by these rules. (II)

58.49(1) Residents shall be permitted to keep reasonable amounts of personal clothing and possessions for their use while in the facility. The personal property shall be kept in a safe location which is convenient to the resident. (II)

58.49(2) Any personal clothing or possessions retained by the facility for the resident during the resident's stay shall be identified and recorded on admission and a record placed on the resident's chart. The facility shall be responsible for secure storage of the items, and they shall be returned to the resident promptly upon request or upon discharge from the facility. (II)

58.49(3) A resident's personal property shall not be used without the written consent of the resident or the resident's guardian. (II)

58.49(4) A resident's personal property shall be returned to the resident when it has been used without the written consent of the resident or the resident's guardian. The department may report findings that a resident's property has been used without written consent to the local law enforcement agency, as appropriate. (II)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.50(135C) Family visits. Each resident, if married, shall be ensured privacy for visits by the resident's spouse; if both are residents in the facility, they shall be permitted to share a room if available. (II)

58.50(1) The facility shall provide for needed privacy in visits between spouses. (II)

58.50(2) Spouses who are residents in the same facility shall be permitted to share a room, if available. (II)

58.50(3) Family members shall be permitted to share a room, if available, if requested by both parties. (II)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.51(135C) Choice of physician and pharmacy. Each resident shall be permitted free choice of a physician. Each resident shall have the right to choose the resident's Medicare prescription drug benefit plan (Part D) pursuant to Section 1860D of the Social Security Act, and the facility shall utilize a pharmacy(ies) that recognizes the Part D plans chosen by that facility's Medicare beneficiaries. Each resident shall have free choice of pharmacy as to medications purchased by the resident outside of Part D plan coverage, although the facility may require the pharmacy selected to utilize a drug distribution system compatible with the system currently used by the facility.

A facility shall not require the repackaging of medications dispensed by the Veterans Administration or an institution operated by the Veterans Administration for the purpose of making the drug distribution system compatible with the system used by the facility. (II)

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.52(135C) Incompetent resident.

58.52(1) Each facility shall provide that all rights and responsibilities of the resident devolve to the resident's responsible party when a resident is adjudicated incompetent in accordance with state law or, in the case of a resident who has not been adjudicated incompetent under the laws of the state, in accordance with 42 CFR 483.10. This subrule is not intended to limit the authority of any individual acting pursuant to Iowa Code chapter 144A. (II)

58.52(2) The fact that a resident has been adjudicated incompetent does not absolve the facility from advising the resident of these rights to the extent the resident is able to understand them. The facility shall also advise the responsible party, if any, and acquire a statement indicating an understanding of residents' rights. (II)

481—58.53(135C) County care facilities. Rescinded **ARC 7033C**, IAB 5/31/23, effective 7/5/23.

481—58.54(135C) Special unit or facility dedicated to the care of persons with chronic confusion or a dementing illness (CCDI unit or facility).

58.54(1) A nursing facility which chooses to care for residents in a distinct part shall obtain a license for a CCDI unit or facility. In the case of a distinct part, this license will be in addition to its nursing facility license. The license shall state the number of beds in the unit or facility. (III)

a. Application for this category of care shall be submitted on a form provided by the department. (III)

b. Plans to modify the physical environment shall be submitted to the department. The plans shall be reviewed based on the requirements of 481—Chapter 61. (III)

58.54(2) A statement of philosophy shall be developed for each unit or facility which states the beliefs upon which decisions will be made regarding the CCDI unit or facility. Objectives shall be developed for each CCDI unit or facility as a whole. The objectives shall be stated in terms of expected results. (II, III)

58.54(3) A résumé of the program of care shall be submitted to the department for approval at least 60 days before a separate CCDI unit or facility is opened. A new résumé of the program of care shall be submitted when services are substantially changed. (II, III)

The résumé of the program of care shall:

a. Describe the population to be served; (II, III)

b. State philosophy and objectives; (II, III)

c. List admission and discharge criteria; (II, III)

d. Include a copy of the floor plan; (II, III)

e. List the titles of policies and procedures developed for the unit or facility; (II, III)

f. Propose a staffing pattern; (II, III)

g. Set out a plan for specialized staff training; (II, III)

h. State visitor, volunteer, and safety policies; (II, III)

i. Describe programs for activities, social services and families; (II, III) and

j. Describe the interdisciplinary care planning team. (II, III)

58.54(4) Separate written policies and procedures shall be implemented in each CCDI unit or facility. There shall be:

a. Admission and discharge policies and procedures which state the criteria to be used to admit residents and the evaluation process which will be used. These policies shall require a statement from the attending physician agreeing to the placement before a resident can be moved into a CCDI unit or facility. (II, III)

b. Safety policies and procedures which state the actions to be taken by staff in the event of a fire, natural disaster, emergency medical or catastrophic event. Safety procedures shall also explain steps to be taken when a resident is discovered to be missing from the unit or facility and when hazardous cleaning materials or potentially dangerous mechanical equipment is being used in the unit or facility. The facility shall identify its method for security of the unit or facility and the manner in which the effectiveness of the security system will be monitored. (II, III)

c. Program and service policies and procedures which explain programs and services offered in the unit or facility including the rationale. (III)

d. Policies and procedures concerning staff which state minimum numbers, types and qualifications of staff in the unit or facility. (II, III)

e. Policies about visiting which suggest times and ensure the residents' rights to free access to visitors. (II, III)

f. Quality assurance policies and procedures which list the process and criteria which will be used to monitor and to respond to risks specific to the residents. This shall include, but not be limited to, drug use, restraint use, infections, incidents and acute behavioral events. (II, III)

58.54(5) Preadmission assessment of physical, mental, social and behavioral status shall be completed to determine whether the applicant meets admission criteria. This assessment shall be completed by a registered nurse and a staff social worker or social work consultant and shall become part of the permanent record upon admission of the resident. (II, III)

58.54(6) All staff working in a CCDI unit or facility shall have training appropriate to the needs of the residents. (II, III)

a. Upon assignment to the unit or facility, everyone working in the unit or facility shall be oriented to the needs of people with chronic confusion or dementing illnesses. They shall have special training appropriate to their job description within 30 days of assignment to the unit or facility. (II, III) The orientation shall be at least six hours. The following topics shall be covered:

(1) Explanation of the disease or disorder; (II, III)

(2) Symptoms and behaviors of memory-impaired people; (II, III)

(3) Progression of the disease; (II, III)

(4) Communication with CCDI residents; (II, III)

(5) Adjustment to care facility residency by the CCDI unit or facility residents and their families; (II, III)

(6) Inappropriate and problem behavior of CCDI unit or facility residents and how to deal with it; (II, III)

(7) Activities of daily living for CCDI residents; (II, III)

(8) Handling combative behavior; (II, III) and

(9) Stress reduction for staff and residents. (II, III)

b. Licensed nurses, certified aides, certified medication aides, social services personnel, housekeeping and activity personnel shall have a minimum of six hours of in-service training annually. This training shall be related to the needs of CCDI residents. The six-hour training shall count toward the required annual in-service training. (II, III)

58.54(7) There shall be at least one nursing staff person on a CCDI unit at all times. (I, II, III)

58.54(8) The CCDI unit or facility license may be revoked, suspended or denied pursuant to Iowa Code chapter 135C and Iowa Administrative Code 481—Chapter 50.

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.55(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the physical structure of the facility, if the other business or activity meets the requirements of applicable state and federal laws, administrative rules, and federal regulations.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs *"a"* through *"f"* of subrule 58.55(1). (I, II, III)

58.55(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

a. Health and safety risks for residents;

b. Noise created by the proposed business or activity;

c. Odors created by the proposed business or activity;

d. Use of the facility's corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;

e. Proposed staffing for the business or activity; and

f. Sharing of services and staff between the proposed business or activity and the facility.

58.55(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

58.55(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules and 481—Chapter 61. (I, II, III)

481—58.56(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A nursing facility which chooses to provide respite care services must meet the following requirements related to respite services and must be licensed as a nursing facility.

58.56(1) A nursing facility certified as a Medicaid nursing facility or Medicare skilled nursing facility must meet all Medicaid and Medicare requirements including 42 CFR 483.15, admission, transfer and discharge rights.

58.56(2) A nursing facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

58.56(3) Rule 481—58.40(135C) regarding involuntary discharge or transfer rights, does not apply to residents who are being cared for under a respite care contract.

58.56(4) Pursuant to rule 481—58.13(135C), the facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements under 481—58.13(135C), except the requirements under subrule 58.13(7).

58.56(5) Respite care services shall not be provided by a health care facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

[**ARC 7033C**, IAB 5/31/23, effective 7/5/23]

481—58.57(135C) Training of inspectors.

58.57(1) Subject to the availability of funding, all nursing facility inspectors shall receive 12 hours of annual continuing education in gerontology, wound care, dementia, falls, or a combination of these subjects.

58.57(2) An inspector shall not be personally liable for financing the training required under subrule 58.57(1).

58.57(3) The department shall consult with the collective bargaining representative of the inspector in regard to the training required under this rule.

[**ARC 8433B**, IAB 12/30/09, effective 2/3/10]

These rules are intended to implement Iowa Code sections 10A.402, 135C.6(1), 135C.14, 135C.32, 135C.36 and 227.4.

CHAPTER 59
TUBERCULOSIS (TB) SCREENING

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—59.1(135B,135C) Purpose. The intent of this chapter is to outline requirements and procedures to conduct tuberculosis screening for health care workers in health care facilities and hospitals and for residents of health care facilities regulated by the department.
[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.2(135B,135C) Definitions. For purposes of this chapter, the following definitions apply:

"Bacille Calmette-Guérin vaccination" or *"BCG vaccination"* means a vaccine for TB. BCG vaccination is used in many countries with a high prevalence of TB to prevent childhood tuberculosis meningitis and miliary disease. BCG vaccination is not generally recommended for use in the United States because of the low risk of infection with *Mycobacterium tuberculosis*, the variable effectiveness of the vaccine against adult pulmonary TB, and the vaccine's potential interference with tuberculin skin test reactivity.

"Baseline TB screening" means the screening of health care workers (HCWs) of health care facilities or hospitals at the beginning of employment in a facility or hospital and of residents of health care facilities upon admission to a facility for latent tuberculosis infection (LTBI) and TB disease. Baseline TB screening includes a symptom screen for all HCWs and residents, and two-step tuberculin skin test (two-step TST) or single interferon-gamma release assay (IGRA) for *M. tuberculosis* for those persons with previous negative test results for *M. tuberculosis* infection.

"Baseline TST" or *"baseline IGRA"* means the two-step TST or IGRA, respectively, which is administered at the beginning of employment to newly hired HCWs or upon admission of residents to health care facilities.

"Boosting" means a phenomenon in which a person has a negative TST (i.e., false-negative) result years after infection with *M. tuberculosis* and then a positive subsequent TST result. The positive TST result is caused by a boosted immune response of previous sensitivity rather than by a new infection (false-positive TST conversion). Two-step testing reduces the likelihood of mistaking a boosted reaction for a new infection.

"Department" means the department of inspections and appeals.

"Employment" or *"employed"* means to be hired or retained for paid or unpaid work in a facility or hospital.

"Extrapulmonary TB" means TB disease in any part of the body other than the lungs (e.g., kidney, spine, or lymph nodes).

"Health care facility" or *"facility"* means a health care facility as defined in Iowa Code section 135C.1 or a long-term care service of a hospital as defined in rule 481—51.38(135B).

"Health care worker" or *"HCW"* means any paid or unpaid person (including health care students) working in a health care facility or hospital, including any person who is paid either by the health care facility or hospital or paid by any other entity (i.e., temporary agency, private duty, Medicaid/Medicare or independent contractors), or any volunteer who volunteers in a health care facility or hospital on a consistent and regularly scheduled basis for five or more hours per week. Specifically excluded from the definition of "health care worker" are individuals such as visitors, building contractors, repair workers or others who are in the facility or hospital for a very limited purpose and are not in the facility or hospital on a regular basis.

"Hospital" means a hospital as defined in Iowa Code section 135B.1.

"Interferon-gamma release assay" or *"IGRA"* means a whole-blood test that can aid in diagnosing *M. tuberculosis* infection.

"Laryngeal TB" means a form of TB disease that involves the larynx and may be highly infectious.

"Latent TB infection" or *"LTBI"* means infection with *M. tuberculosis* without symptoms or signs of disease having manifested.

"Mantoux method" means a skin test performed by intradermally injecting 0.1 mL of purified protein derivative (PPD) tuberculin solution into the volar or dorsal surface of the forearm.

"Patient" means a person admitted to a hospital.

"Pulmonary TB" means TB disease that occurs in the lung parenchyma, usually producing a cough that lasts greater than three weeks. Pulmonary TB is usually infectious.

"Purified protein derivative tuberculin" or *"PPD tuberculin"* means a material used in diagnostic tests for detecting infection with *M. tuberculosis*.

"Resident" means a person admitted to a health care facility or a long-term care service of a hospital as defined in rule 481—51.38(135B). For purposes of this chapter, "resident" does not include a patient admitted to a hospital.

"Risk classification" means the category that the infection control team, or designated other staff, determines is appropriate for the facility or hospital as a result of the TB risk assessment.

"Serial TB screening" means TB screening performed at regular intervals following baseline TB screening. Serial TB screening, also called annual or ongoing TB testing, consists of two components: (1) assessing for current symptoms of active TB disease, and (2) testing for the presence of infection with *M. tuberculosis* by administering either a TST or single IGRA.

"Symptom screen" means a procedure used during a clinical evaluation in which persons are asked if they have experienced any departure from normal in function, appearance, or sensation related to TB disease (e.g., cough).

"TB patient" means a person who had undiagnosed infectious pulmonary or laryngeal TB while in a health care facility or hospital during the preceding year. "TB patient" does not include persons with LTBI (treated or untreated), extrapulmonary TB disease, pulmonary TB, or laryngeal TB who have met criteria for noninfectiousness.

"TB risk assessment" means an initial and ongoing annual evaluation of the risk for transmission of *M. tuberculosis* in a particular health care setting.

"TB screening" means an administrative control measure in which evaluation for LTBI and TB disease is performed through baseline and serial screening of HCWs in hospitals and health care facilities and residents of health care facilities.

"Transfer" means an HCW changes employment from one health care facility or hospital to another health care facility or hospital where the time frame between employment does not exceed 90 days.

"Treatment for LTBI" means treatment that prevents the progression of *M. tuberculosis* infection into TB disease.

"Tuberculin skin test" or *"TST"* means a diagnostic aid for finding *M. tuberculosis* infection. The Mantoux method is the recommended method to be used for TST.

"Tuberculosis" or *"TB"* means the namesake member organism of *M. tuberculosis* complex and the most common causative infectious agent of TB disease in humans. In certain instances, the species name refers to the entire *M. tuberculosis* complex, which includes *M. bovis*, *M. african*, *M. microti*, *M. canetti*, *M. caprae*, and *M. pinnipedii*.

"Tuberculosis disease" or *"TB disease"* means a condition caused by infection with a member of the *M. tuberculosis* complex that has progressed to causing clinical (manifesting signs or symptoms) or subclinical (early stage of disease in which signs or symptoms are not present, but other indications of disease activity are present) illness.

"Two-step tuberculin skin test" or *"two-step TST"* means the procedure used for the baseline skin testing of persons who may receive serial TSTs.

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.3(135B,135C) TB risk assessment.

59.3(1) Annually, a health care facility or hospital shall conduct a TB risk assessment to evaluate the risk for transmission of *M. tuberculosis*, regardless of whether a person with suspected or confirmed TB disease is expected to be encountered in the facility or hospital. The TB risk assessment shall be utilized to determine the types of administrative, environmental, and respiratory protection controls needed and serves as an ongoing evaluation tool of the quality of TB infection control and for the identification of needed improvements in infection control measures.

59.3(2) The TB risk assessment shall include the number of persons with infectious TB encountered in the facility or hospital that resulted in the facility's or hospital's conducting a contact investigation of exposed HCWs or patients during the previous 12 months.

59.3(3) TB cases include persons who had undiagnosed infectious pulmonary or laryngeal TB while in the facility or hospital during the preceding year. This does not include persons with LTBI (treated or untreated), persons with extrapulmonary TB disease, or persons with pulmonary and laryngeal TB who have met criteria for noninfectiousness.

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.4(135B,135C) Health care facility or hospital risk classification. The infection control team or designated staff in a health care facility or hospital is responsible for determining the type of risk classification. The facility's or hospital's risk classification is used to determine frequency of serial TB screening. The facility or hospital risk classification may change due to an increase or decrease in the number of TB cases during the preceding year. The following criteria are consistent with those of the Centers for Disease Control and Prevention (CDC), TB Elimination Division, as outlined in the MMWR December 30, 2005/Vol.54/No.RR-17, "Guidelines for Preventing the Transmission of *Mycobacterium tuberculosis* in Health-Care Settings, 2005."

59.4(1) *Types of risk classifications.*

a. "Low risk" means that a facility or hospital is one in which persons with active TB disease are not expected to be encountered and in which exposure to TB is unlikely.

b. "Medium risk" means that a facility or hospital is one in which health care workers will or might be exposed to persons with active TB disease or to clinical specimens that might contain *M. tuberculosis*.

c. "Potential ongoing transmission" means that a facility or hospital is one in which there is evidence of person-to-person transmission of *M. tuberculosis*. This classification is a temporary classification. If it is determined that this classification applies to a facility or hospital, the facility or hospital shall consult with the department of public health's TB control program.

59.4(2) *Classification criteria—low risk.*

a. Inpatient settings with 200 beds or more. If a facility or hospital has fewer than six TB patients for the preceding year, the facility or hospital shall be classified as low risk.

b. Inpatient settings with fewer than 200 beds. If a facility or hospital has fewer than three TB patients for the preceding year, the facility or hospital shall be classified as low risk.

59.4(3) *Classification criteria—medium risk.*

a. Inpatient settings with 200 beds or more. If a facility or hospital has six or more TB patients for the preceding year, the facility or hospital shall be classified as medium risk.

b. Inpatient settings with fewer than 200 beds. If a facility or hospital has three or more TB patients for the preceding year, the facility or hospital shall be classified as medium risk.

59.4(4) *Classification criteria—potential ongoing transmission.* If evidence of ongoing *M. tuberculosis* transmission exists at a facility or hospital, the facility or hospital shall be classified as potential ongoing transmission, regardless of the facility's or hospital's previous classification.

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.5(135B,135C) Baseline TB screening procedures for health care facilities and hospitals.

59.5(1) All HCWs shall receive baseline TB screening upon employment. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease and (2) testing using the two-step TST procedure or a single IGRA to screen for infection with *M. tuberculosis*. If the first-step TST result is negative, the second stage of the two-step TST is recommended one to three weeks after the first TST result was read. Administration of the second stage of the two-step TST shall not exceed 12 months after the first TST result was read. If initiation of the second stage of the two-step TST is greater than 12 months from when the first TST result was read, the two-step procedure must be restarted. If the first-step TST result is positive, it is not necessary to perform the second stage of the two-step TST.

59.5(2) An HCW may begin working with patients or residents after a negative TB symptom screen (i.e., no symptoms of active TB disease) and a negative TST (i.e., first step) or negative IGRA. The second TST may be performed after the HCW starts working with patients or residents.

59.5(3) An HCW with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless signs or symptoms of TB disease develop or unless a repeat radiograph is recommended by a clinician. Treatment for LTBI should be considered in accordance with CDC guidelines.

59.5(4) An HCW with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, does not need another chest radiograph at the time of hire.

59.5(5) TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for HCWs with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. A TB symptom screen and documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result. All other HCWs should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

59.5(6) Previous BCG vaccination is not a contraindication to having an IGRA, a TST or a two-step skin testing administered. HCWs with previous BCG vaccination should receive baseline and serial testing in the same manner as those without BCG vaccination. Evaluation of TST reactions in persons BCG-vaccinated should be interpreted using the same criteria for those not BCG-vaccinated. An HCW's history of BCG vaccination should be disregarded when administering and interpreting TST results. Prior BCG vaccination does not cause a false-positive IGRA test result.

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.6(135B,135C) Serial TB screening procedures for health care facilities and hospitals.

59.6(1) *Health care facilities or hospitals classified as low risk.* After establishing baseline TB screening of HCWs, serial TB screening of HCWs is not necessary for health care facilities or hospitals classified as low risk.

59.6(2) *Health care facilities or hospitals classified as medium risk.*

a. After establishing baseline TB screening, HCWs in health care facilities or hospitals classified as medium risk shall receive serial TB screening annually. However, an HCW with a previous positive TB test result shall only receive annual TB symptom screening in accordance with 59.5(5).

b. An HCW with a baseline positive or new positive test result for *M. tuberculosis* infection or documentation of previous treatment for LTBI or TB disease shall receive one chest radiograph result to exclude TB disease. Instead of participating in serial testing, HCWs should receive a symptom screen annually. This screen should be accomplished by educating HCWs about symptoms of TB disease and instructing HCWs to report any such symptoms immediately to the occupational health unit. Treatment for LTBI should be considered in accordance with CDC guidelines.

59.6(3) *Health care facilities or hospitals classified as potential ongoing transmission.* HCWs in facilities or hospitals classified as potential ongoing transmission shall receive serial TB screening every eight to ten weeks until lapses in infection control have been corrected and no additional evidence of ongoing transmission is apparent. However, an HCW with a previous positive TB test result shall only receive TB symptom screening in accordance with 59.5(5). The potential ongoing transmission classification should be used only as a temporary classification. This classification warrants immediate investigation and corrective steps. After a determination that ongoing transmission has ceased, the setting shall be reclassified as medium risk for a minimum of one year.

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.7(135B,135C) Screening of HCWs who transfer to other health care facilities or hospitals.

59.7(1) *HCWs transferring from a low-risk health care facility or hospital to another low-risk health care facility or hospital.* HCWs with documentation of baseline TB screening who are transferring from a low-risk health care facility or hospital to another low-risk health care facility or hospital do not need to repeat baseline TB screening if the time frame between employment from one facility or hospital to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test

result and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(2) *HCWs transferring from a low-risk health care facility or hospital to a medium-risk health care facility or hospital.* HCWs with documentation of baseline TB screening who are transferring from a low-risk health care facility or hospital to a medium-risk health care facility or hospital do not need to repeat baseline TB screening if the time frame between employment from one facility or hospital to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test result and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(3) *HCWs transferring from a low- or medium-risk health care facility or hospital to a health care facility or hospital classified as potential ongoing transmission.* HCWs with documentation of baseline TB screening who are transferring to a potential ongoing risk health care facility or hospital do not need to repeat baseline TB screening if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted for an HCW with a previous negative test result and a TB symptom screen shall be performed for an HCW with a previous positive TB test result in accordance with 59.5(5).

59.7(4) *HCWs transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital.*

a. An HCW who is transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital and whose previous TB test result was negative shall receive a symptom screen and a single TST or IGRA upon employment if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted.

b. An HCW who is transferring from a medium-risk health care facility or hospital to a low-risk health care facility or hospital and whose previous TB test result was positive shall receive a symptom screen upon employment in accordance with 59.5(5).

59.7(5) *HCWs transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital.*

a. An HCW who is transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital and whose previous TB test result was negative shall receive a symptom screen and a single TST or IGRA upon employment if the time frame between employment from one facility to another does not exceed 90 days. If the time frame between employment from one facility or hospital to another exceeds 90 days, baseline TB screening shall be restarted.

b. An HCW who is transferring from a health care facility or hospital classified as potential ongoing transmission to a low- or medium-risk health care facility or hospital and whose previous TB test result was positive shall receive a symptom screen upon employment in accordance with 59.5(5).

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.8(135B,135C) Baseline TB screening procedures for residents of health care facilities.

59.8(1) Baseline TB screening is a formal procedure to evaluate residents for LTBI and TB disease. Baseline TB screening consists of two components: (1) assessing for current symptoms of active TB disease, and (2) using the two-step TST procedure or a single IGRA to screen for infection with *M. tuberculosis*. If the first-step TST result is negative, the second stage of the two-step TST is recommended one to three weeks after the first TST result was read. Administration of the second stage of the two-step TST shall not exceed 12 months after the first TST result was read. If the second stage of the two-step TST is greater than 12 months from when the first TST result was read, the two-step procedure must be restarted. If the first-step TST result is positive, it is not necessary to perform the second stage of the two-step TST.

59.8(2) All residents shall be assessed for current symptoms of active TB disease upon admission. Within 72 hours of a resident's admission, baseline TB screening for infection shall be initiated unless baseline TB screening occurred within 90 days prior to the resident's admission.

59.8(3) A resident with a new positive test result for *M. tuberculosis* infection (i.e., TST or IGRA) shall receive one chest radiograph result to exclude TB disease. Repeat radiographs are not needed unless signs or symptoms of TB disease develop or unless a repeat radiograph is recommended by a clinician.

59.8(4) Residents with documentation of past positive test results (i.e., TST or IGRA) and documentation of the results of a chest radiograph indicating no active disease, dated after the date of the positive TST or IGRA test result, do not need another chest radiograph at the time of admission.

59.8(5) TB, TST or IGRA tests for *M. tuberculosis* infection do not need to be performed for residents with a documented history of TB disease, documented previously positive test result for *M. tuberculosis* infection, or documented completion of treatment for LTBI or TB disease. Documentation of a previously positive test result for *M. tuberculosis* infection can be substituted for a baseline test result if the documentation includes a recorded TST result in millimeters or IGRA result, including the concentration of cytokine measured (e.g., IFN-g). All other residents should undergo baseline testing for *M. tuberculosis* infection to ensure that the test result on record in the setting has been performed and measured using the recommended diagnostic procedures.

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.9(135B,135C) Serial TB screening procedures for residents of health care facilities. After baseline TB screening is accomplished, serial TB screening of residents is not recommended.

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

481—59.10(135B,135C) Performance of screening and testing. Any nurse licensed in Iowa and properly trained to screen for TB and perform TB testing may screen for TB and perform TB testing.

[**ARC 3930C**, IAB 8/1/18, effective 9/5/18]

These rules are intended to implement Iowa Code sections 135B.7 and 135C.14.

CHAPTER 60
MINIMUM PHYSICAL STANDARDS FOR RESIDENTIAL CARE FACILITIES
[Prior to 7/15/87, Health Department[470] Ch 60]

Chapter rescission date pursuant to Iowa Code section 17A.7: 7/5/28

481—60.1(135C) Definitions. Definitions in rules 481—57.1(135C) and 481—63.1(135C) are incorporated by reference as part of this chapter. In addition, the following definition shall apply:

"Responsible design professional" means a registered architect or licensed professional engineer who signs the documents submitted pursuant to rule 481—60.3(135C).

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.2(135C) General requirements. Residential care facilities licensed under this chapter shall be built in accordance with the following construction standards:

60.2(1) Construction shall be in conformance with 661—Chapter 201.

60.2(2) Construction shall be in conformance with 661—Chapter 301. Projects meeting the local building code shall be deemed to be in compliance with the state building code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system that includes both plan review and inspection.

60.2(3) Nothing in these rules shall relieve a residential care facility from compliance with fire and building codes, ordinances and regulations that are enforced by a city, county, state or federal jurisdiction.

60.2(4) Any alteration or installation of new equipment shall be accomplished as nearly as practical in conformance with all applicable codes, ordinances, regulations and standards required for new construction. Alteration or installation of new equipment shall not diminish the level of compliance with any codes, ordinances, regulations or standards below that existed prior to the alteration. Any feature that does not meet the requirement for new buildings but exceeds the requirement for existing buildings shall not be further diminished. Features that exceed requirements for new construction need not be maintained. In no case shall any feature be less than that required for existing buildings. (III)

60.2(5) Existing residential care facilities built in compliance with prior versions of this chapter will be deemed in compliance, with the exception of any renovations, additions, functional alterations, changes of space utilization, or conversions to existing facilities for which construction documents are submitted pursuant to rule 481—60.3(135C) on or after July 1, 2023, which shall meet the standards specified in this chapter. Conversion of a building or any of the parts not currently licensed as a nursing facility must meet the rules governing construction of new facilities.

60.2(6) Final plan approval and final occupancy shall be given by the state fire marshal's office.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.3(135C) Submission of construction documents.

60.3(1) Submissions of architectural technical documents, engineering documents, and plans and specifications to the state fire marshal's office shall be as required by rule 481—300.4(103A) and are the responsibility of the owner of the building or facility, although the actual submission may be completed by an authorized agent of the owner or the responsible design professional.

60.3(2) Plans, specifications and other supporting information shall be sufficiently clear and complete to show in detail that the proposed work will comply with the construction standards required by rule 481—60.2(135C).

60.3(3) Submittals to the state fire marshal's office shall be certified or stamped and signed as required by Iowa Code chapters 542B and 544A, unless the applicant has certified on the submittal to the applicability of a specific exception under Iowa Code section 544A.18 and the submittal does not constitute the practice of engineering as defined by Iowa Code section 542B.2.

60.3(4) The responsible design professional shall certify that the building plans meet the requirements specified in this chapter, unless a waiver has been granted pursuant to rule 481—60.4(135C).

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 8/5/26]

481—60.4(135C) Waivers.

60.4(1) Procedures in rule 481—57.2(135C) for requesting a waiver are incorporated by reference as part of this chapter.

60.4(2) Waivers are limited to the specific project under consideration and do not establish a precedent for similar acceptance in other cases. The type of license, occupancy, and function of the building will be considered with respect to a request for waiver. In specific cases, waivers may be granted by the director after the following conditions are met:

a. The design and planning for the specific property offer improved or compensating features that provide equivalent desirability and utility;

b. Alternate or special construction methods, techniques, and mechanical equipment offer equivalent durability, utility, safety, structural strength and rigidity, sanitation, and odor control; protection from corrosion, decay and insect attack; and quality of workmanship; and

c. The health, safety or welfare of any resident is not endangered.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.5(135C) Additional notification requirements.

60.5(1) When new construction or renovation, addition, functional alteration, change of space utilization, or conversion of an existing building is contemplated, the licensee or applicant for a license shall:

a. File a detailed and comprehensive program of care, as set forth in rule 481—57.3(135C), which includes a description of the specific needs of the residents to be served, and any other information the department may require. (III)

b. Receive written approval from the state fire marshal's office before starting construction. The applicant is responsible for ensuring that construction proceeds according to approved plans and specifications.

c. Meet requirements for new construction if the project includes changes to structural and life safety components of the building or changes for accessibility of persons with disabilities. Only that portion of the building that is part of the project must meet requirements for new construction.

60.5(2) For new construction or renovations, additions, functional alterations, change of space utilization or conversion of an existing building, it is the responsibility of the owner or an agent to notify the state fire marshal's office at all of the following intervals and wait for inspection before proceeding. Inspections shall be conducted in accordance with the following schedule:

a. Two days prior to the beginning of any construction or demolition.

b. After installation of any under-slab plumbing and before covering is installed.

c. After installation of electrical, mechanical and plumbing and prior to covering.

d. Five days prior to a final occupancy inspection.

60.5(3) The following must approve the project before final occupancy: the state fire inspector; the state building inspector; and, in jurisdictions without electrical code enforcement, the state electrical inspector. Approval of local or county jurisdictions is as required by those jurisdictions.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.6(135C) Construction requirements.

60.6(1) *General provisions.*

a. Projects shall be constructed in compliance with 661—Chapter 201. Projects required to meet the provisions of the state building code shall be deemed to be in compliance with the fire safety requirements of the state building code if the residential care facility is in compliance with the provisions of 661—Chapter 205.

b. Projects shall be constructed in compliance with 661—Chapter 301. Projects meeting the local building code shall be deemed to be in compliance with the state building code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system that includes both plan review and inspection.

c. Final plan approval and final occupancy shall be given by the state fire marshal's office.

60.6(2) *Mechanical requirements.*

a. Projects shall be constructed in compliance with 661—Chapter 201.

b. Projects shall be constructed in compliance with the state mechanical code as provided in 661—Chapter 201. Projects meeting the local mechanical code shall be deemed to be in compliance with the state mechanical code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system that includes both plan review and inspection.

c. Final plan approval and final occupancy shall be given by the state fire marshal's office.

60.6(3) *Electrical requirements.*

a. Projects shall be constructed in compliance with standards referenced in 661—Chapter 205.

b. Projects shall be constructed in compliance with the state electrical code as provided in 661—Chapter 504.

60.6(4) *Plumbing requirements.* Projects shall be constructed in compliance with 481—Chapter 425.

60.6(5) *Accessibility requirements.* Projects shall be constructed in compliance with 661—Chapter 302.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23; Editorial change: IAC Supplement 4/2/25]

481—60.7(135C) Typical construction.

60.7(1) Details and finishes shall be designed to provide a high degree of safety for the occupants by minimizing the opportunity for accidents. Hazards such as sharp corners shall be avoided. (III)

60.7(2) No door shall swing into the exit corridor except doors to spaces such as small closets that are not subject to occupancy. Each resident bedroom shall have a door that is a swing type and swings in, unless the door is fully recessed.

60.7(3) All doors opening into corridors shall be swing-type doors, except elevator doors. (III)

60.7(4) All sinks shall have towel dispensers that hold non-reusable towels. (III)

60.7(5) Partition, floor, and ceiling construction in resident areas shall comply with noise reduction criteria in the following table. The requirements set forth in this table assume installation methods that will not appreciably reduce the efficiency of the assembly as tested. Location of electrical receptacles, grills, ductwork, and other mechanical items, and blocking and sealing of partitions at floors and ceilings shall not compromise the sound isolation required. (III)

Table 1

Airborne Sound Transmission Class (STC)*

	Partitions	Floors
Resident's room to resident's room	35	35
Corridor to resident's room	35	35
Public space to resident's room**	40	40
Service areas to resident's room***	50	50

*STC shall be determined by tests in accordance with methods set forth in ASTM Standard E 90 and ASTM Standard E 413.

**Public space includes lobbies, dining rooms, recreation rooms, treatment rooms, and similar places.

***Service areas include kitchens, elevators, elevator machine rooms, laundries, garages, maintenance rooms, boiler and mechanical equipment rooms, and similar spaces of high noise. Mechanical equipment located on the same floor or above residents' rooms, offices, nurses stations, and similar occupied spaces shall be effectively isolated from the floor.

60.7(6) Doors, sidelights, borrowed lights, and windows in which the glazing extends below 31 inches from the floor shall have a horizontal mullion or railing at 31 to 34 inches above the finished floor and be glazed with safety glass, plastic glazing material, or wire glass where required by the state fire marshal. All replacement glass shall meet this code with no exception.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.8(135C) Sleeping, bathing, and medication rooms.

60.8(1) Facilities shall have a medication room that is well-lighted and has the following: (III)

a. A drug cabinet;

b. A work counter;

c. Refrigerator storage;

d. A chest or compartment with a lock for storage of Schedule II drugs as defined by Iowa Code chapter 124; and

e. A sink.

60.8(2) Facilities licensed for 15 beds or fewer need not have a medication room, but shall have space for the appropriate preparation and storage of medication, including locked medication storage as required in subrule 60.8(1).

60.8(3) Resident rooms shall meet the following minimum requirements:

a. Bedrooms shall open directly into a corridor or common living area and shall not be used as a thoroughfare. (III)

b. The minimum room area, exclusive of closets, toilet rooms, lockers, wardrobes, vestibules, and corridor door swings, shall be 100 square feet in one-bed rooms and 80 square feet per bed in multibed rooms. Usable floor space of a room shall be no less than 8 feet in any major dimension.

c. Each resident room shall be provided with light by means of a window or windows with a net glass area equal to 10 percent of the total floor area. The window sill shall not be higher than 3 feet above the floor.

d. There shall be a wardrobe, closet, or chest of drawers in each resident's room to provide sufficient storage for clothing and personal belongings. Where a closet is shared, segregated portions shall be established. Each wardrobe and closet in each resident room shall have a door. (III)

e. No bedroom shall be located so that its floor will be more than 30 inches below the adjacent grade level. (III)

f. Fixtures or storage shall be provided to hold individual towels and washcloths. (III)

g. No part of any room shall be enclosed, subdivided, or partitioned unless such part is separately lighted and ventilated and meets other requirements its usage and occupancy dictate, except closets used for the storage of resident's clothing. (III)

h. Rooms in which beds are erected shall not be used for purposes other than bedrooms. (III)

i. Each resident bedroom shall have a door. The door shall be the swing type and shall swing in, unless fully recessed. (III)

j. Multibed rooms shall be designed to permit no more than two beds, side-by-side, parallel to the window wall. (III)

k. Each resident bedroom shall be so designed that the head of the bed shall not be in front of a window or a heat register or radiator. (III)

l. One sink shall be provided in each resident room. The sink may be omitted from a room when a sink is located in an adjoining toilet room which serves that room. (III)

m. Multibed rooms shall provide full visual privacy for each resident. (III)

60.8(4) Each resident toilet room shall be adjacent to the resident rooms. Jack and Jill-style toilet rooms are not permitted in new constructions or renovations.

60.8(5) Central bathing.

a. Minimum numbers of toilets in bathing facilities shall be one sink and one toilet for each 10 residents, and one tub or shower for each 15 residents or fraction thereof. For facilities licensed for 15 beds or fewer, one bathing unit shall be provided for each five residents.

b. There shall be a minimum of one bathroom with tub or shower, toilet, and sink on each floor that has resident bedrooms in multistory buildings. (III)

c. Separate toilets for genders shall be provided. (III)

d. Privacy for dressing and bathing shall be provided in central bathrooms. (III)

e. All bathrooms shall have mechanical ventilation. (III)

f. Each bathroom shall have a toilet and a sink. (III)

g. Toilet and bathing facilities shall not open directly into food preparation areas. (III)

h. Central bathing areas shall have a swinging door that swings into the bathroom. (III)

i. Soap holders shall be provided in showers and bathtubs. (III)

j. Raised toilet seats shall be available for residents as needed. (III)

k. In facilities where the total occupancy of family, employees, and residents is more than five, separate bathing and toilet facilities shall be required for the family or employees distinct from such areas provided for residents. (III)

l. Bathtubs or showers shall be equipped with screwdriver stop valves in the water supply system. (III)

m. The temperature of the hot water to the resident sinks, bath, and showers shall range between 110° Fahrenheit and 120° Fahrenheit.

60.8(6) A soiled workroom, work counter, waste and soiled linen receptacles, and a two-compartment sink shall be provided. (III) One compartment of the double sink shall be a minimum of 10 inches deep for cleaning and sanitizing equipment. (III)

60.8(7) Enclosed clean linen storage, separate from the clean workroom. (III)

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.9(135C) Dining, activity, and storage rooms.

60.9(1) Where space is provided for multipurpose dining, activities, or recreational purposes, the area shall total at least 30 square feet per licensed bed for the first 100 beds and 27 feet per licensed bed for all beds in excess of 100. An open area of sufficient size shall be provided to permit group activities, such as religious meetings or presentation of demonstrations or entertainment. (III)

60.9(2) Where space is provided to be used only for activities and recreational purposes, the area shall be at least 15 square feet per licensed bed. At least 50 percent of the required area must be in one room. (III)

60.9(3) Where the dining and the lounge recreation areas are separated, each area shall provide a minimum of 180 square feet of usable floor space and be not less than 10 feet in any one dimension. Where space is provided to be used only for dining, the area shall total at least 15 square feet per licensed bed. (III)

60.9(4) An equipment storage room shall be provided. (III)

60.9(5) Enclosed clothing storage of at least 2 linear feet per bed for storage of off-season clothing shall be provided.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.10(135C) Service area.

60.10(1) *Definition of a service area.* The size of a service area shall depend upon the number and types of beds within the supervised unit. A service area shall contain the following rooms or areas: (III)

a. Dietetic service area,

b. Janitor's closet,

c. Laundry area,

d. General storage area,

e. Mechanical room,

f. Maintenance shop,

g. Yard equipment storage area.

60.10(2) *Dietetic service area.*

a. Detailed layout plans and specifications of equipment shall be submitted to the department for review and approval before the new construction, alterations, or additions to existing kitchens begin. (III)

b. The dietetic service area shall provide food serving facilities for residents and staff outside the food preparation area. (III)

c. The dishwashing area shall be provided with mechanical dishwashing equipment. Either conventional or chemical dishwashing equipment may be used. (III)

(1) Where conventional dishwashing equipment is used, the hot water system shall be designed to supply hot water at 110° Fahrenheit to 120° Fahrenheit. (III)

(2) A three-compartment pot and pan sink shall be provided for ware washing that provides and maintains hot water at 110° Fahrenheit to 115° Fahrenheit for washing and 170° Fahrenheit to 180° Fahrenheit for sanitizing, or a two-compartment sink shall be provided for soaking and washing utensils, with easy access to a dish machine that must be large enough for sanitizing all sizes of utensils used. (III)

(3) Machines (single-tank stationary rack, door-type machines and spray-type glass washers) using chemicals for sanitation may be used, provided that:

1. The temperature of the wash water shall not be less than 120° Fahrenheit. (III)
2. Chemicals added for sanitation purposes shall be automatically dispensed. (III)
3. The wash water shall be kept clean. (III)
4. Utensils and equipment shall be exposed to the final chemical sanitizing rinse in accordance with manufacturers' specifications for time and concentration. (III)
5. The chemical sanitizing rinse water temperature shall be not less than 75° Fahrenheit nor less than the temperature specified by the machine's manufacturer. (III)
6. Chemical sanitizers used shall meet the requirements of 21 CFR 178.1010. (III)
7. A test kit or other device that accurately measures the parts per million concentration of the solution shall be available and used. (III)

d. The dietetic service area shall be designed to provide a separation of the clean and dirty areas and to eliminate intermingling of the two types of activities. Food preparation and service areas are regarded as clean areas. (III)

e. A hand-washing sink shall be provided in the dietetic service area. In facilities licensed for eight beds or fewer, the sink shall be adjacent or convenient to the dietetic service area. (III)

f. There shall be refrigerated storage for at least a three-day supply of perishable food. (III)

g. There shall be available storage for at least a seven-day supply of staple food. (III)

h. Provisions for maintaining sanitary waste disposal and storage shall be provided on the premises. (III)

i. Where meals are provided by a health care facility or by a commercial food service, the preparation, storing and serving of the food and the utensil sanitizing procedures shall meet the requirements of these rules. (III)

j. Mechanical ventilation shall be provided in food storerooms to maintain temperatures and humidity at a level appropriate for the type of food being stored. (III)

60.10(3) *Janitor's closet.*

a. A janitor's closet shall be provided for storage of housekeeping supplies and equipment, including a floor receptor or service sink. (III)

b. The door to the janitor's closet shall be equipped with a lock. (III)

c. Locked storage shall be provided for chemicals. (III)

60.10(4) *Laundry area.*

a. In the laundry area, a work flow pattern shall be established in which soiled linen is not transported through the clean area to the soiled area. Two distinct areas physically separated, not necessarily by a wall, are required. (III)

b. A hand-washing sink shall be located in the laundry area. In facilities licensed for 15 beds or fewer, a hand-washing sink located adjacent to the laundry area may meet this requirement. (III)

c. Where linen is processed onsite, the following shall be provided (III):

(1) A clean, dry, well-lighted laundry processing room with equipment sufficient to process seven days' needs within the workweek.

(2) A soiled linen holding area.

(3) A clean linen area.

(4) Linen cart storage.

(5) Lockable storage for laundry supplies.

(6) One janitor's closet or alcove in the immediate vicinity of the laundry.

d. The laundry room in any facility not using off-site processing but serving more than 20 residents shall contain no less than 125 square feet of available floor space. (III)

e. Where linen is processed off the site, the following shall be provided (III):

(1) Soiled linen holding room.

(2) Clean linen receiving, holding, inspection, and storage area.

60.10(5) *General storage areas.*

a. General storage areas totaling not less than 10 square feet per bed shall be provided. Storage areas are not required to be located in the same area. (III)

b. The equipment storage room space may be included in this general area, but is not required to be located in the same area. (III)

c. Storage areas for linens, janitor's supplies, sterile nursing supplies, activity supplies, library books, office supplies, kitchen supplies, and mechanical plant accessories shall not be included as part of the general storage area and are not required to be located in the same area. (III)

d. Thirty percent of the general storage area may be provided in a building outside the facility, readily and easily accessible by the personnel. (III)

60.10(6) *Mechanical, electrical, and maintenance areas.* The following areas shall be provided (III):

a. Boiler room or mechanical room and electrical equipment room. (III)

(1) These rooms may be used for noncombustible material storage.

(2) Any noncombustible material shall not be stored close to or hinder access to any fuel-fired equipment or electrical panels.

(3) These areas shall not be included in calculating the 10 square feet per bed for general storage areas, as required under paragraph 60.10(5)*"a."*

b. Yard equipment storage may be provided in a separate room or building for yard maintenance equipment and supplies. This shall not be included in the general storage area.

c. No portable fuel-operated equipment shall be housed inside a facility unless it is separated by at least a two-hour fire separation approved by the state fire marshal's office.

d. Rooms containing heating or cooling equipment shall be locked.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.11(135C) Administration and staff area. The size of an administration and staff area depend upon the needs of the facility. An administration and staff area shall contain the following rooms or areas (III):

1. An administration office.
2. An area containing storage for office equipment and supplies. This area shall be secure and contain work space for charting and record storage and may contain medication storage.
3. A lounge shall be provided for staff. Toilet rooms with sink and toilet shall be provided for staff.
4. Closets or compartments for the safekeeping of coats and personal effects of staff.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.12(135C) Public area. A public area shall contain a public telephone accessible to the residents within the facility to make personal calls. It shall also contain a separate bathroom for the public, including a toilet and sink. (III)

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.13(135C) Specialized unit or facility for persons with chronic confusion or a dementing illness (memory care unit or facility). A memory care unit or facility shall be designed in accordance with the standards set forth in 661—Chapter 201. The following provisions shall also apply (III):

60.13(1) A memory unit or facility shall be designed so that residents, staff, and visitors will not pass through the unit in order to reach exits or other areas of the facility unless in an emergency.

60.13(2) If the unit or facility is to be a locked unit or facility, all locking devices shall meet the requirements of the state fire marshal. If the unit or facility is to be unlocked, a system of security monitoring is required.

60.13(3) The outdoor activity area for the unit or facility shall be secure. Nontoxic plants shall be used in the secured outdoor activity area.

60.13(4) There shall be no steps inside the memory care unit or facility.

60.13(5) Dining and activity areas for the unit or facility shall be located within the unit or facility and shall not be used as the primary dining or activity area by other facility residents.

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

481—60.14(135C) Elevator requirements. All residential care facilities where resident facilities are located on other than the first floor shall have one or more electric or electrohydraulic elevators, as required. For purposes of this requirement, resident facilities include, but are not limited to, diagnostic, recreation, activity, resident dining, and therapy rooms or additional resident bedrooms. The first floor is that floor first reached from the main front entrance. Elevators, where installed, shall comply with the division of labor rules as promulgated in Iowa Code chapter 89A and 875—Chapters 71 to 73. (III)

[**ARC 7036C**, IAB 5/31/23, effective 7/5/23]

These rules are intended to implement Iowa Code section 135C.14.

CHAPTER 61
MINIMUM PHYSICAL STANDARDS FOR NURSING FACILITIES
[Prior to 7/15/87, Health Department[470] Ch 61]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—61.1(135C) Definitions. Definitions in rule 481—58.1(135C) are incorporated by reference as part of this chapter. In addition, the following definition shall apply:

"Responsible design professional" means a registered architect or licensed professional engineer who signs the documents submitted pursuant to rule 481—61.3(135C).

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13]

481—61.2(135C) General requirements. Nursing facilities licensed under this chapter shall be built in accordance with the following construction standards:

61.2(1) Construction shall be in conformance with 661—Chapter 205, Fire Safety Requirements for Hospitals and Health Care Facilities. Projects required to meet the provisions of the state building code shall be deemed to be in compliance with the fire safety requirements of the state building code if the project is in compliance with the provisions of 661—Chapter 205.

61.2(2) Construction shall be in conformance with 661—Chapter 301, State Building Code— General Provisions. Projects meeting the local building code shall be deemed to be in compliance with the state building code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system which includes both plan review and inspection.

61.2(3) Construction shall be in accordance with the standards set forth in the Guidelines for Design and Construction of Residential Health, Care, and Support Facilities, 2018 edition, published by the Facility Guidelines Institute.

61.2(4) Nothing in these rules shall relieve a nursing facility from compliance with fire and building codes, ordinances and regulations which are enforced by city, county, state or federal jurisdictions.

61.2(5) New equipment. Any alteration or installation of new equipment shall be accomplished as nearly as practical in conformance with all applicable codes, ordinances, regulations and standards required for new construction. Alteration or installation of new equipment shall not diminish the level of compliance with any codes, ordinances, regulations or standards below that which existed prior to the alteration. Any feature that does not meet the requirement for new buildings but exceeds the requirement for existing buildings shall not be further diminished. Features that exceed requirements for new construction need not be maintained. In no case shall any feature be less than that required for existing buildings. (III)

61.2(6) Existing nursing facilities built in compliance with prior versions of this chapter will be deemed in compliance, with the exception of any renovations, additions, functional alterations, changes of space utilization, or conversions to existing facilities for which construction documents are submitted pursuant to rule 481—61.3(135C) on or after July 1, 2013, which shall meet the standards specified in this chapter. Conversion of a building or any of the parts not currently licensed as a nursing facility must meet the rules governing construction of new facilities, except as provided in Life Safety Code, 2000 edition, sections 18.1.1.4.4 and 19.1.1.4.4.

61.2(7) Final plan approval and final occupancy shall be given by the state fire marshal's office.

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13; **ARC 4264C**, IAB 1/30/19, effective 3/6/19]

481—61.3(135C) Submission of construction documents.

61.3(1) Submissions of architectural technical documents, engineering documents, and plans and specifications to the state fire marshal's office shall be as required by rule 481—300.4(103A) and are the responsibility of the owner of the building or facility, although the actual submission may be completed by an authorized agent of the owner or the responsible design professional.

61.3(2) Plans, specifications and other supporting information shall be sufficiently clear and complete to show in detail that the proposed work will comply with the construction standards required by rule 481—61.2(135C).

61.3(3) Submittals to the state fire marshal's office shall be certified or stamped and signed as required by Iowa Code chapters 542B and 544A unless the applicant has certified on the submittal to the applicability of a specific exception under Iowa Code section 544A.18 and the submittal does not constitute the practice of engineering as defined by Iowa Code section 542B.2.

61.3(4) The responsible design professional shall certify that the building plans meet the requirements specified in this chapter, unless a waiver has been granted pursuant to rule 481—61.4(135C).

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13; **ARC 5719C**, IAB 6/16/21, effective 7/21/21; Editorial change: IAC Supplement 8/5/26]

481—61.4(135C) Waivers.

61.4(1) Procedures in rule 481—58.2(135C) for requesting a waiver are incorporated by reference as part of this chapter.

61.4(2) Certain resident populations, conditions in the area, or the site may justify waivers. In specific cases, waivers to the rules may be granted by the director after the following conditions are met:

a. The design and planning for the specific property shall offer improved or compensating features which provide equivalent desirability and utility;

b. Alternate or special construction methods, techniques, and mechanical equipment shall offer equivalent durability, utility, safety, structural strength and rigidity, sanitation, odor control, protection from corrosion, decay and insect attack, and quality of workmanship;

c. The health, safety or welfare of any resident shall not be endangered;

d. Variations are limited to the specific project under consideration and shall not be construed as establishing a precedent for similar acceptance in other cases;

e. The occupancy and function of the building shall be considered; and

f. The type of licensure shall be considered.

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13; **ARC 5719C**, IAB 6/16/21, effective 7/21/21]

481—61.5(135C) Additional notification requirements.

61.5(1) When new construction or renovation, addition, functional alteration, change of space utilization, or conversion of an existing building is contemplated, the licensee or applicant for a license shall:

a. File a detailed and comprehensive program of care, as set forth in rule 481—58.3(135C), which includes a description of the specific needs of the residents to be served, and any other information the department may require. (III)

b. Receive written approval from the state fire marshal's office before starting construction. The applicant is responsible for ensuring that construction proceeds according to approved plans and specifications. If construction is not started within 12 months of the date of final approval of the working drawings and specifications, the approval shall be void and the plans and specifications shall be resubmitted. Multiphase projects shall be completed within a time period approved by the state fire marshal's office.

c. Meet requirements for new construction if the project includes changes to structural and life safety components of the building or changes for accessibility of persons with disabilities. Only that portion of the building that is part of the project must meet requirements for new construction.

61.5(2) Inspections.

a. For new construction or renovations, additions, functional alterations, change of space utilization or conversion of an existing building, it is the responsibility of the owner or an agent to notify the state fire marshal's office at all of the following intervals and wait for inspection before proceeding. Inspections shall be conducted in accordance with the following schedule:

(1) Two days prior to the beginning of any construction or demolition.

(2) After installation of any under-slab plumbing and before covering is installed.

(3) After installation of electrical, mechanical and plumbing and prior to covering.

(4) Five days prior to a final occupancy inspection.

b. The following must approve the project before final occupancy: the state fire inspector, the state building inspector and, in jurisdictions without electrical code enforcement, the state electrical inspector. Approval of local or county jurisdictions is as required by those jurisdictions.

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13]

481—61.6(135C) Construction requirements. This rule contains construction requirements for all areas of the building.

61.6(1) *General provisions.*

a. Projects shall be constructed in compliance with 661—Chapter 205, Fire Safety Requirements for Hospitals and Health Care Facilities. Projects required to meet the provisions of the state building code shall be deemed to be in compliance with the fire safety requirements of the state building code if the nursing facility is in compliance with the provisions of 661—Chapter 205, Fire Safety Requirements for Hospitals and Health Care Facilities.

b. Projects shall be constructed in compliance with 661—Chapter 301, State Building Code—General Provisions. Projects meeting the local building code shall be deemed to be in compliance with the state building code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system which includes both plan review and inspection.

c. Projects shall be constructed in compliance with the standards set forth in the Guidelines for Design and Construction of Residential Health, Care, and Support Facilities, 2018 edition, published by the Facility Guidelines Institute.

d. Final plan approval and final occupancy shall be given by the state fire marshal's office.

61.6(2) *Mechanical requirements.*

a. Projects shall be constructed in compliance with 481—Chapter 280, Fire Safety Requirements for Hospitals and Health Care Facilities.

b. Projects shall be constructed in compliance with the state mechanical code as provided in rule 481—301.4(103A). Projects meeting the local mechanical code shall be deemed to be in compliance with the state mechanical code provided that the local jurisdiction has established a building department, has adopted a building code by ordinance and enforces the local code through a system which includes both plan review and inspection.

c. Final plan approval and final occupancy shall be given by the state fire marshal's office.

61.6(3) *Electrical requirements.*

a. Projects shall be constructed in compliance with standards referenced in 481—Chapter 280, Fire Safety Requirements for Hospitals and Health Care Facilities.

b. Projects shall be constructed in compliance with the state electrical code as provided in rule 481—301.5(103A).

61.6(4) *Plumbing requirements.* Projects shall be constructed in compliance with 481—Chapter 425, State Plumbing Code.

61.6(5) *Accessibility requirements.* Projects shall be constructed in compliance with 661—Chapter 302, State Building Code—Accessibility of Buildings and Facilities Available to the Public.

61.6(6) *Lighting requirements.* Light shall be provided in the areas of the building as required in the Guidelines for Design and Construction of Residential Health, Care, and Support Facilities, 2018 edition, published by the Facilities Guidelines Institute.

61.6(7) *Exit door alarm system.* An exit door alarm system shall be installed on all exterior doors. (I, II, III)

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13; **ARC 4264C**, IAB 1/30/19, effective 3/6/19; Editorial change: IAC Supplement 4/2/25; Editorial change: IAC Supplement 8/5/26]

481—61.7(135C) Nursing care unit.

61.7(1) A seclusion room may be used in an intermediate care facility for persons with mental illness.

61.7(2) When a seclusion room is used, it must meet the following standards. A seclusion room shall:

a. Be located where direct care staff can provide direct supervision; (I, II, III)

b. Have only one door which swings out but does not swing into a corridor; (II, III)

c. Have only locking devices that are approved by the state fire marshal; (I, II, III)

d. Have unbreakable, fire-safe vision panels arranged to permit observation of the resident. The arrangement shall ensure resident privacy and prevent casual observation by visitors or other residents; (I, II, III)

e. House only one resident at a time; (I, II, III)

f. Have an area of at least 60 square feet, but not more than 100 square feet; (II, III)

g. Be constructed to protect against the possibility of hiding, escape, injury and suicide; (I, II, III)

h. Have construction of the room area, including floor, walls, ceilings, and all openings, approved in writing by the state fire marshal prior to construction or alteration of a room. Padding materials, if used, shall be approved in writing by the state fire marshal; (I, II, III)

i. Contain only vandal- and tamper-resistant fixtures and hardware; (I, II, III)

j. Contain no electrical receptacles; (I, II, III)

k. Contain an exhaust ventilation system with a fan located at the discharge end of the system, with exhaust discharging to the outside; (II, III)

l. Have electrical switches for the light and exhaust ventilation systems installed outside the room; (I, II, III)

m. Have an emergency call system for staff located outside the room near the observation window; (II, III) and

n. Be built with materials that are easily maintained and sanitized. (III)

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13]

481—61.8(135C) Dietetic and other service areas.

61.8(1) *Dietetic service area.* The construction and installation of equipment of the dietetic service area shall comply with the requirements of the Food and Drug Administration Food Code adopted under provisions of Iowa Code section 137F.2. (III)

61.8(2) *General storage areas.* General storage areas totaling not less than 14 square feet per bed shall be provided. If each resident has a 4-foot wide closet in the bedroom, the general storage area per bed may be reduced from 14 square feet to 10 square feet per bed. Storage areas are not required to be located in only one room. (III)

a. Storage areas for linens, janitor's supplies, sterile nursing supplies, activities supplies, library books, office supplies, kitchen supplies and mechanical plant accessories shall not be included as part of the general storage area and are not required to be located in the same area. (III)

b. Thirty percent of the general storage area may be provided in a building outside the facility if the building is easily accessible to personnel. (III)

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13]

481—61.9(135C) Specialized unit or facility for persons with chronic confusion or a dementing illness (CCDI unit or facility). A CCDI unit or facility shall be designed in accordance with the standards set forth in the Guidelines for Design and Construction of Residential Health, Care, and Support Facilities, 2018 edition, published by the Facility Guidelines Institute. The following provisions shall also apply:

61.9(1) A CCDI unit or facility shall be designed so that residents, staff and visitors will not pass through the unit in order to reach exits or other areas of the facility unless in an emergency. (III)

61.9(2) If the unit or facility is to be a locked unit or facility, all locking devices shall meet the requirements of the state fire marshal. If the unit or facility is to be unlocked, a system of security monitoring is required. (I, II, III)

61.9(3) The outdoor activity area for the unit or facility shall be secure. Nontoxic plants shall be used in the secured outdoor activity area. (I, II)

61.9(4) There shall be no steps inside the CCDI unit or freestanding CCDI facility. (III)

61.9(5) Dining and activity areas for the unit or facility shall be located within the unit or facility and shall not be used as the primary dining or activity area by other facility residents. (III)

61.9(6) An area shall be provided to allow nurses to prepare daily resident reports. (III)

61.9(7) If the lounge and activity areas are not adjacent to resident rooms, there shall be in clear view of the lounge and activity area one unisex resident toilet room for each ten residents. (III)

[**ARC 0763C**, IAB 5/29/13, effective 7/3/13; **ARC 4264C**, IAB 1/30/19, effective 3/6/19]

These rules are intended to implement Iowa Code section 135C.14.

CHAPTER 62
RESIDENTIAL CARE FACILITIES FOR PERSONS WITH MENTAL ILLNESS (RCFs/PMI)

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—62.1(135C) Applicability. This chapter relates specifically to the licensing and regulation of residential care facilities for persons with mental illness (RCFs/PMI). Refer to 481—Chapter 57 for the licensing and regulation of all residential care facilities, including RCFs/PMI, and to 481—Chapter 60 for minimum physical standards for all residential care facilities.
[**ARC 3739C**, IAB 4/11/18, effective 5/16/18]

481—62.2(135C) Definitions. In addition to the definitions in 481—Chapter 57 and Iowa Code chapter 135C, the following definitions apply.

"Commission" means the mental health and disability services commission.

"Department" means the Iowa department of inspections and appeals.

"Dependent adult abuse" is as defined in rule 481—52.1(235E).

"Evaluation services" means those activities designed to identify a person's current level of functioning and those factors which are barriers to maintaining the current level or achieving a higher level of functioning.

"Interdisciplinary team process" means an approach to assessment, service planning, and service implementation in which members of an interdisciplinary team utilize the skills, competencies, insights and perspectives provided by each member's training and experience to develop a single, integrated, individual program plan to meet a resident's needs for services.

"Level of functioning" means a person's current physiological and psychological status and current academic, community living, self-care, and vocational skills.

"Mental health counselor" means a person who is certified or eligible for certification as a mental health counselor by the National Academy of Certified Clinical Mental Health Counselors.

"Mental illness" means a substantial disorder of thought or mood which significantly impairs judgment, behavior, or the capacity to recognize reality or the ability to cope with the ordinary demands of life. Mental disorders include the organic and functional psychoses, neuroses, personality disorders, alcoholism and drug dependence, behavioral disorders and other disorders as defined by the current edition of American Psychiatric Association Diagnostic and Statistical Manual of Mental Disorders.

"Physical or physiological treatment" means those activities designed to prevent, halt, control, relieve, or reverse symptoms or conditions which interfere with the physical or physiological functioning of the human body.

"Psychiatric advanced registered nurse practitioner" means an individual currently licensed as a registered nurse under Iowa Code chapter 152 or 152E who holds a national certification in psychiatric mental health care and who is licensed by the board of nursing as an advanced registered nurse practitioner.

"Psychiatric nurse" means a person who meets the requirements of a certified psychiatric nurse, is eligible for certification by the American Nursing Association, and is licensed by the state of Iowa to practice nursing as defined in Iowa Code chapter 152.

"Psychiatrist" means a doctor of medicine or osteopathic medicine and surgery who is certified by the American Board of Psychiatry and Neurology or who is eligible for certification.

"Psychologist" means a person who is licensed to practice psychology in the state of Iowa, or is certified by the Iowa department of education as a school psychologist, or is eligible for certification, or meets the requirements for eligibility for a license to practice psychology in the state of Iowa that were effective prior to July 1, 1985.

"Psychotherapeutic treatment" means those activities designed to assist a person in the identification or modification of beliefs, emotions, attitudes, or behaviors in order to maintain or improve the person's functioning in response to the physical, emotional and social environment.

"Qualified mental health professional" or *"QMHP"* means a person who:

1. Is a psychiatrist, psychologist, social worker, certified psychiatric nurse, psychiatric advanced registered nurse practitioner, or mental health counselor; or

2. Is a doctor of medicine or osteopathic medicine, a physician associate, or an advanced registered nurse practitioner and has at least one year's documented supervised experience in providing mental health services; or

3. Has a master's degree with coursework focusing on diagnosis, evaluation, and psychotherapeutic treatment of mental health problems and mental illness; or

4. Is employed by a community mental health center or mental health service provider accredited by the commission and has less than a master's degree but at least a bachelor's degree and sufficient education and experience as determined by the chief administrative officer of the community mental health center, with the approval of the commission, with coursework and experience focusing on diagnosis and evaluation and treatment of persons with mental health problems and mental illness.

If the person is practicing in a field covered by an Iowa licensure law, the person shall hold a current Iowa license.

"Resident" means a person who has been admitted to the facility to receive care and services.

"Social worker" means a person who is licensed to practice social work in the state of Iowa or who is eligible for licensure.

[**ARC 3739C**, IAB 4/11/18, effective 5/16/18; Editorial change: IAC Supplement 6/24/26]

481—62.3(135C) Personnel. In addition to personnel requirements found in 481—Chapter 57, the RCF/PMI shall provide for services of a qualified mental health professional, by direct employment or contract, whose responsibilities shall include, but not be limited to: (II, III)

1. Approval of each resident's service plan; (II, III)
2. Monitoring the implementation of each resident's service plan; (II, III)
3. Recording each resident's progress; and (II, III)
4. Participating in a periodic review of each resident's service plan. (II, III)

[**ARC 3739C**, IAB 4/11/18, effective 5/16/18]

481—62.4(135C) Admission criteria. In addition to admission criteria found in 481—Chapter 57, the facility's admission criteria shall include but not be limited to age, sex, diagnosis from the American Psychiatric Association Diagnostic and Statistical Manual of Mental Disorders, substance abuse, dual diagnosis and criteria that are consistent with the résumé of care. (III)

[**ARC 3739C**, IAB 4/11/18, effective 5/16/18]

481—62.5(135C) Evaluation services.

62.5(1) Evaluation services shall be provided to each resident. An annual evaluation of each resident shall be completed no later than 12 months from the date of the last available evaluation. For residents who are on leave from a state mental health institution, the institution shall be responsible for the completion of the evaluation. The facility shall ensure the completion of the evaluation of all other residents. The annual evaluation shall identify physical health and current level of functioning and need for services. (II, III)

62.5(2) The portion of the evaluation to identify the resident's physical health shall:

a. Result in identification of current illness and disabilities and recommendations for physical and physiological treatment and services. (II, III)

b. Include an evaluation of the resident's ability for health maintenance. (III)

c. Be performed by a primary care provider. (II, III)

62.5(3) Evaluation.

a. The portion of the evaluation to identify the resident's current level of functioning and need for services shall:

(1) Identify the resident's level of functioning and need for services in each of the following areas: self-care, community living skills, psychotherapeutic treatment, vocational skills, and academic skills. (II, III)

(2) Be of sufficient detail to determine the appropriateness of placement according to the skills and needs of the resident. (II, III)

(3) Be made without regard to the availability of services. (III)

(4) Be performed by a QMHP, in consultation with the interdisciplinary team. (II, III)

b. If an evaluation is available from the referral source, the evaluation shall be secured by the facility prior to the admission of the applicant. (III)

c. If an evaluation is not available or does not contain all the required information, the facility shall ensure an evaluation to the extent necessary to determine if the applicant meets the criteria for admission. For those admitted, the remainder of the evaluation shall be performed prior to the development of a service plan. (III)

d. Results of all evaluations shall be in writing and maintained in the resident's record. Evaluations subsequent to the initial evaluation shall be performed in sufficient detail to determine changes in the resident's physical health, skills and need for services. (II, III)

62.5(4) A narrative social history shall be completed for each resident within 30 days of admission and approved by the qualified mental health professional prior to the development of the service plan. (III)

a. When the social history was secured from another provider, the information contained shall be reviewed within 30 days of admission. The date of the review, signature of the staff reviewing the history, and a summary of significant changes in the information shall be entered in the resident's record. (III)

b. An annual review of the information contained within the social history shall be incorporated into the service plan progress note. (III)

c. The social history shall minimally address the following areas:

(1) Referral source and reason for admission, (II, III)

(2) Legal status, (II, III)

(3) A description of previous living arrangements, (III)

(4) A description of previous services received and summary of current service involvements, (II, III)

(5) A summary of significant medical conditions including, but not limited to, illnesses, hospitalizations, past and current drug therapies, and special diets, (II, III)

(6) Substance abuse history, (II, III)

(7) Work history, (III)

(8) Educational history, (III)

(9) Relationship with family, significant others, and other support systems, (III)

(10) Cultural and ethnic background and religious affiliation, (II, III)

(11) Hobbies and leisure time activities, (III)

(12) Likes, dislikes, habits, and patterns of behavior, (II, III)

(13) Impressions and recommendations. (II, III)

[**ARC 3739C**, IAB 4/11/18, effective 5/16/18]

These rules are intended to implement Iowa Code section 135C.14(7).

CHAPTER 63
RESIDENTIAL CARE FACILITY—THREE- TO FIVE-BED SPECIALIZED LICENSE
[Prior to 7/15/87, Health Department[470] Ch 63]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—63.1(135C) Definitions. For the purpose of these rules, the following terms shall have the meanings indicated in this chapter. The definitions set out in Iowa Code section 135C.1 shall be considered to be incorporated verbatim in the rules.

"Accommodation" means the provision of lodging, including sleeping, dining, and living areas.

"Administrator" means a person approved by the department who administers, manages, supervises, and is in general administrative charge of a three- to five-bed residential care facility, whether or not such individual has an ownership interest in such facility, and whether or not the functions and duties are shared with one or more individuals.

"Ambulatory" means the condition of a person who immediately and without aid of another person is physically and mentally capable of traveling a normal path to safety, including the ascent and descent of stairs.

"Basement" means that part of a building where the finish floor is more than 30 inches below the finish grade of the building.

"Board" means the regular provision of meals.

"Change of ownership" means the purchase, transfer, assignment or lease of a licensed three- to five-bed residential care facility.

"Communicable disease" means a disease caused by the presence within a person's body of a virus or microbial agents which may be transmitted either directly or indirectly to other persons.

"Department" means the state department of inspections and appeals.

"Interdisciplinary team" means the group of persons who develop a single, integrated, individual program plan to meet a resident's needs for services. The interdisciplinary team consists of, at a minimum, the resident, the resident's legal guardian if applicable, the resident's advocate if desired by the resident, a referral agency representative, other appropriate staff members, other providers of services, and other persons relevant to the resident's needs.

"Legal representative" means the resident's guardian or conservator if one has been appointed or the resident's power of attorney.

"Mechanical restraint" means restriction by the use of a mechanical device of a resident's mobility or ability to use the hands, arms or legs.

"Medication" means any drug, including over-the-counter substances.

"Nonambulatory" means the condition of a person who immediately and without the aid of another person is not physically or mentally capable of traveling a normal path to safety, including the ascent and descent of stairs.

"Personal care" means assistance with the activities of daily living which the recipient can perform only with difficulty. Examples are help in getting in and out of bed, assistance with personal hygiene and bathing, help with dressing and eating, and supervision over medications which can be self-administered.

"Physical restraint" means direct physical contact on the part of a staff person to control a resident's physical activity for the resident's own protection or for the protection of others.

"Primary care provider" means any of the following who provide primary care and meet licensure standards:

1. A physician who is a family or general practitioner or an internist.
2. An advanced registered nurse practitioner.
3. A physician associate.

"Program of care" means all services being provided for a resident in a health care facility.

"Prone restraint" means a restraint in which a resident is in a face-down position against the floor or another surface.

"Rate" means that daily fee charged for all residents equally and shall include the cost of all minimum services required in these rules.

"Records" includes electronic records.

"Responsible party" means the person who signs or cosigns the residency agreement required by rule 481—63.12(135C) or the resident's legal representative. In the event that a resident has neither a legal representative nor a person who signed or cosigned the resident's residency agreement, the term "responsible party" shall include the resident's sponsoring agency, e.g., the department of human services, the U.S. Department of Veterans Affairs, a religious group, fraternal organization, or foundation that assumes responsibility and advocates for its client patients and pays for their health care.

"Restraints" means the measures taken to control a resident's physical activity for the resident's own protection or for the protection of others.

"Specialized residential care facility license" means a license for three- to five-bed residential care facilities serving persons with an intellectual disability, chronic mental illness, a developmental disability or brain injury.

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18; Editorial change: IAC Supplement 6/10/26]

481—63.2(135C,17A) Waiver. A waiver from these rules may be granted by the director of the department in accordance with 7—Chapter 2504. A request for waiver will be granted or denied by the director within 120 calendar days of receipt.

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18; **ARC 5719C**, IAB 6/16/21, effective 7/21/21; Editorial change: IAC Supplement 8/5/26]

481—63.3(135C) Application for licensure.

63.3(1) *Application and licensing—new facility or change of ownership.* In order to obtain a specialized residential care facility license for a facility not currently licensed as a specialized residential care facility or for a specialized residential care facility when a change of ownership is contemplated, the applicant must:

a. Make application at least 30 days prior to the proposed opening date of the facility. Application shall be made on forms provided by the department.

b. Meet all of the rules, regulations, and standards contained in this chapter and in 481—Chapter 50.

c. Submit a letter of intent and a written résumé of care. The résumé of care shall meet the requirements of subrule 63.3(2).

d. Submit a floor plan of each floor of the residential care facility. The floor plan of each floor shall be drawn on 8½″ × 11″ paper, show room areas in proportion, room dimensions, window and door locations, designation of the use of each room, and the room numbers for all rooms, including bathrooms.

e. Submit a photograph of the front and side of the residential care facility.

f. Submit the fee for a specialized residential care facility license in accordance with 481—paragraph 50.3(2)*"a."*

g. Comply with all other local statutes and ordinances in existence at the time of licensure.

h. Submit a certificate signed by the state or local fire inspection authority as to compliance with fire safety rules and regulations.

63.3(2) *Résumé of care.* The résumé of care shall describe the following:

a. Purpose of the facility;

b. Criteria for admission to the facility;

c. Ownership of the facility;

d. Composition and responsibilities of the governing board;

e. Qualifications and responsibilities of the administrator;

f. Medical services provided to residents, to include the availability of emergency medical services in the area and the designation of a primary care provider to be responsible for residents in an emergency;

g. Dental services provided to residents and available in the area;

h. Nursing services provided to residents, if applicable;

i. Personal services provided to residents, including supervision of or assistance with activities of daily living;

j. Activity program;

k. Dietary services, including qualifications of the person in charge, consultation service (if applicable) and meal service;

l. Other services available as applicable, including social services, physical therapy, occupational therapy, and recreational therapy;

m. Housekeeping;

n. Laundry;

o. Physical plant; and

p. Staffing provided to meet residents' needs.

63.3(3) *Renewal application.* In order to obtain a renewal of the specialized residential care facility license, the applicant must submit the following:

a. The completed application form 30 days prior to the annual license renewal date of the residential care facility license;

b. The fee for a specialized residential care facility license in accordance with 481—paragraph 50.3(2)*"a"*;

c. An approved current certificate signed by the state or local fire inspection authority as to compliance with fire safety rules and regulations;

d. Changes to the résumé of care, if any; and

e. Changes to the current residency agreement, if any.

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18; **ARC 4577C**, IAB 7/31/19, effective 9/4/19]

481—63.4(135C) Issuance of license. Licenses are issued to the person, entity or governmental unit with responsibility for the operation of the facility and for compliance with all applicable statutes, rules and regulations.

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.5(135C) General requirements.

63.5(1) The license shall be displayed in the facility in a conspicuous place which is accessible to the public. (III)

63.5(2) The license shall be valid only in the possession of the licensee to whom it is issued.

63.5(3) The posted license shall accurately reflect the current status of the facility. (III)

63.5(4) The license shall expire one year after the date of issuance or as indicated on the license.

63.5(5) The licensee shall:

a. Assume the responsibility for the overall operation of the facility. (I, II, III)

b. Be responsible for compliance with all applicable laws and with the rules of the department. (I, II, III)

c. Provide an organized continuous 24-hour program of care commensurate with the needs of the residents. (I, II, III)

63.5(6) Each citation or a copy of each citation issued by the department for a class I or class II violation shall be prominently posted by the facility in plain view of the residents, visitors, and persons inquiring about placement in the facility. The citation or copy of the citation shall remain posted until the violation is corrected to the satisfaction of the department. (I, II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.6(135C) Required notifications to the department. The department shall be notified:

63.6(1) Thirty days before any proposed change in the residential care facility's functional operation or addition or deletion of required services; (III)

63.6(2) Thirty days before the beginning of the renovation, addition, functional alteration, change of space utilization, or conversion in the residential care facility or on the premises; (III)

63.6(3) Thirty days before closure of the residential care facility; (III)

63.6(4) Within two weeks of any change in administrator; (III)

63.6(5) Ninety days before a change in the category of license; (III)

63.6(6) Thirty days before a change of ownership. The licensee shall:

a. Inform the department of the pending change of ownership; (III)

b. Inform the department of the name and address of the prospective purchaser, transferee, assignee, or lessee; (III)

c. Submit a written authorization to the department permitting the department to release all information of whatever kind from the department's files concerning the licensee's residential care facility to the named prospective purchaser, transferee, assignee, or lessee. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.7(135C) Administrator. Each facility shall have one person in charge, duly approved by the department or acting in a provisional capacity in accordance with these rules. (III)

63.7(1) *Qualifications of an administrator.*

a. The administrator shall be at least 21 years of age and shall have a high school diploma or equivalent. (III) In addition, this person shall meet at least one of the following conditions:

(1) Have a two-year degree in human services, psychology, sociology, nursing, health care administration, public administration, or a related field and have a minimum of two years' experience in the field; or (III)

(2) Have a four-year degree in human services, psychology, sociology, nursing, health care administration, public administration, or a related field and have a minimum of one year of experience in the field; or (III)

(3) Have a master's degree in human services, psychology, sociology, nursing, health care administration, public administration, or a related field and have a minimum of one year of experience in the field; or (III)

(4) Be a licensed nursing home administrator; or (III)

(5) Have completed a one-year educational training program approved by the department for residential care facility administrators; or (III)

(6) Have passed the National Association of Long Term Care Administrator Boards (NAB) RC/AL administrator licensure examination; or

(7) Have two years of direct care experience and at least six months of administrative experience in a residential care facility. (III)

b. The administrator shall have at least one year of documented experience in a supervisory or direct care position working with persons with an intellectual disability, mental illness, a developmental disability, or brain injury.

c. An individual employed as an administrator on May 16, 2018, will be deemed to meet the requirements of this subrule.

63.7(2) *Duties of an administrator.* The administrator shall:

a. Select and direct competent personnel who provide services for the residential care program. (III)

b. Provide in-service educational programming for all employees with direct resident contact and maintain records of programs and participants. (III) In-service educational programming offered during each calendar year shall include, at minimum, the following topics: (I, II, III)

(1) Infection control.

(2) Emergency preparedness (e.g., fire, tornado, flood, 911).

(3) Meal time procedures/dietary.

(4) Resident activities.

(5) Mental illness, brain injury or intellectual disabilities, including behavioral intervention, de-escalation, and crisis intervention techniques.

(6) Resident safety/supervision.

(7) Resident rights.

(8) Medication education, to include administration, storage and drug interactions.

(9) Resident service plans/programming/goals.

63.7(3) *Administrator serving at more than one residential care facility.* The administrator may be responsible for no more than 150 beds in total if the administrator is an administrator of more than one facility. (II)

a. An administrator of more than one facility shall designate in writing an administrative staff person in each facility who shall be responsible for directing programs in the facility.

b. The administrative staff person designated by the administrator shall:

(1) Have at least one year of documented experience in a supervisory or direct care position working with persons with an intellectual disability, mental illness, a developmental disability, or brain injury; (II, III)

(2) Be knowledgeable of the operation of the facility; (II, III)

(3) Have access to records concerned with the operation of the facility; (II, III)

(4) Be capable of carrying out administrative duties and of assuming administrative responsibilities; (II, III)

(5) Be at least 21 years of age; (III)

(6) Be empowered to act on behalf of the licensee concerning the health, safety and welfare of the residents; and (II, III)

(7) Have training in emergency response, including how to respond to residents' sudden illnesses. (II, III)

c. If an administrator serves more than one facility, the administrator must designate in writing regular and specific times during which the administrator will be available to consult with staff and residents to provide direction and supervision of resident care and services. (II, III)

63.7(4) *Provisional administrator.* A provisional administrator may be appointed on a temporary basis by the residential care facility licensee to assume the administrative responsibilities for a residential care facility for a period not to exceed one year when the facility has lost its administrator and has not been able to replace the administrator, provided that the department has been notified and has approved the provisional administrator prior to the date of the provisional administrator's appointment. (III) The provisional administrator must meet the requirements of paragraph 63.7(3)*"b."*

63.7(5) *Temporary absence of administrator.*

a. In the temporary absence of the administrator, a responsible person shall be designated in writing to the department to be in charge of the facility. (III) The person designated shall:

(1) Be knowledgeable of the operation of the facility; (III)

(2) Have access to records concerned with the operation of the facility; (III)

(3) Be capable of carrying out administrative duties and of assuming administrative responsibilities; (III)

(4) Be at least 21 years of age; (III)

(5) Be empowered to act on behalf of the licensee during the administrator's absence concerning the health, safety, and welfare of the residents; (III)

(6) Have training in emergency response, including how to respond to residents' sudden illnesses. (II, III)

b. If the administrator is absent for more than six weeks, a provisional administrator must be appointed pursuant to subrule 63.7(4).

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.8(135C) Personnel.

63.8(1) *Alcohol and drug use prohibited.* No person under the influence of intoxicating drugs or alcoholic beverages shall be permitted to provide services in a residential care facility. (I, II)

63.8(2) *Job description.* There shall be a written job description developed for each category of worker. The job description shall include the job title, responsibilities and qualifications. (III)

63.8(3) *Employee criminal record, child abuse and dependent adult abuse checks and employment of individuals who have committed a crime or have a founded abuse.* The facility shall comply with the requirements found in Iowa Code section 135C.33 and rule 481—50.9(135C) related to completion of criminal record checks, child abuse checks, and dependent adult abuse checks and to employment of individuals who have committed a crime or have a founded abuse. (I, II, III)

63.8(4) *Personnel record.* A personnel record shall be kept for each employee and shall include but not be limited to the following information about the employee: name and address; social security number; date of birth; date of employment; position; job description; experience and education; results of criminal

record checks, child abuse checks and dependent adult abuse checks; and date of discharge or resignation. (III)

63.8(5) *Supervision and staffing.*

a. The facility shall provide sufficient staff to meet the needs of the residents served. (I, II, III)

b. Personnel in a specialized residential care facility shall provide 24-hour coverage for residential care services. Personnel shall be available and responsive to residents' needs at all times while on duty. (I, II, III)

c. Direct care staff shall be present in the facility unless all residents are involved in activities away from the facility. (I, II, III)

d. Staff shall be aware of and provide supervision levels based on the present needs of the residents in the staff's care. The facility shall document the supervision of residents who require more than general supervision, as defined by facility policy. (I, II, III)

e. The facility shall maintain an accurate record of actual hours worked by employees. (III)

63.8(6) *Physical examination and screening.* Employees shall have a physical examination within 12 months prior to beginning employment and every four years thereafter. Screening and testing for tuberculosis shall be conducted pursuant to 481—Chapter 59. (I, II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18; **ARC 4577C**, IAB 7/31/19, effective 9/4/19]

481—63.9(135C) General policies. The licensee shall establish and implement written policies and procedures as set forth in this rule. The policies and procedures shall be available for review by the department, other agencies designated by Iowa Code section 135C.16(3), staff, residents, residents' families or legal representatives, and the public and shall be reviewed by the licensee annually. (II)

63.9(1) *Facility operation.* The licensee shall establish written policies for the operation of the facility, including but not limited to the following: (III)

a. Personnel; (III)
b. Admission; (III)
c. Evaluation services; (II, III)
d. Programming and individual program plans; (II, III)
e. Registered sex offender management; (II, III)
f. Crisis intervention; (II, III)
g. Discharge or transfer; (III)
h. Medication management, including self-administration of medications and chemical restraints; (III)
i. Resident property; (II, III)
j. Resident finances; (II, III)
k. Records; (III)
l. Health and safety; (II, III)
m. Nutrition; (III)
n. Physical facilities and maintenance; (III)
o. Resident rights; (II, III)
p. Investigation and reporting of alleged dependent adult abuse; (II, III)
q. Investigation and reporting of accidents or incidents; (II, III)
r. Transportation of residents; (II, III)
s. Resident supervision; (II, III)
t. Smoking; (III)
u. Visitors; (III)
v. Disaster/emergency planning; (III) and
w. Infection control. (III)

63.9(2) *Personnel policies.* Written personnel policies shall include the hours of work and attendance at educational programs. (III)

63.9(3) *Infection control.* The facility shall have a written and implemented infection control program, which shall include policies and procedures based on guidelines issued by the Centers for Disease

Control and Prevention, U.S. Department of Health and Human Services. The infection control program shall address the following:

a. Techniques for hand washing; (I, II, III)

b. Techniques for the handling of blood, body fluids, and body wastes; (I, II, III)

c. Dressings, soaks or packs; (I, II, III)

d. Infection identification; (I, II, III)

e. Resident care procedures to be used when there is an infection present; (I, II, III)

f. Sanitation techniques for resident care equipment; (I, II, III)

g. Techniques for sanitary use and reuse of feeding syringes and single-resident use and reuse of urine collection bags; (I, II, III) and

h. Techniques for use and disposal of needles, syringes, and other sharp instruments. (I, II, III)

63.9(4) *Resident care techniques.* The facility shall have written and implemented procedures to be followed if a resident needs any of the following treatment or devices:

a. Intravenous or central line catheter; (I, II, III)

b. Urinary catheter; (I, II, III)

c. Respiratory suction, oxygen or humidification; (I, II, III)

d. Decubitus care; (I, II, III)

e. Tracheostomy; (I, II, III)

f. Nasogastric or gastrostomy tubes; (I, II, III)

g. Sanitary use and reuse of feeding syringes and single-resident use and reuse of urine collection bags. (I, II, III)

63.9(5) *Emergency care.* The facility shall establish written policies for the provision of emergency medical care to residents and employees in case of sudden illness or accident. The policies shall include a list of those individuals to be contacted in case of an emergency. (I, II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.10(135C) Admission, transfer and discharge.

63.10(1) *General admission policies.*

a. Residents shall be admitted to a specialized residential care facility only on a written order signed by a primary care provider or psychiatrist, specifying the level of care, and certifying that the individual being admitted requires no more than personal care and supervision and does not require routine nursing care. (II, III)

b. No residential care facility shall admit or retain a resident who is in need of greater services than the facility can provide. (I, II, III)

c. No residential care facility shall admit more residents than the number of beds for which the facility is licensed. (II, III)

d. A residential care facility is not required to admit an individual through court order, referral or other means without the express prior approval of the administrator. (III)

e. The admission of a resident shall not grant the residential care facility the authority or responsibility to manage the personal affairs of the resident except as may be necessary for the safety of the resident and the safe and orderly management of the residential care facility as required by these rules. (III)

f. Individuals under the age of 18 shall not be admitted to a residential care facility without prior written approval by the department. A distinct part of a residential care facility, segregated from the adult section, may be established based on a résumé of care that is submitted by the licensee or applicant and is commensurate with the needs of the residents of the residential care facility and that has received the department's review and approval. (III)

g. No health care facility and no owner, administrator, employee or representative thereof shall act as guardian, trustee, or conservator for any resident's property unless such resident is related within the third degree of consanguinity to the person acting as guardian. (III)

63.10(2) *Discharge or transfer.*

a. Notification shall be made to the legal representative, primary care provider, psychiatrist, if any, and sponsoring agency, if any, prior to the transfer or discharge of any resident. (III)

b. The licensee shall not refuse to discharge or transfer a resident when the primary care provider, family, resident, or legal representative requests such transfer or discharge. (II, III)

c. Advance notification will be made to the receiving facility prior to the transfer of any resident. (III)

d. When a resident is transferred or discharged, the appropriate record will accompany the resident to ensure continuity of care. "Appropriate record" includes the resident's face sheet, service plan, most recent orders of the primary care provider and any notifications of upcoming scheduled appointments. (II, III)

e. When a resident is transferred or discharged, the resident's unused prescriptions shall be sent with the resident or with a legal representative only upon the written order of a primary care provider. (II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.11(135C) Involuntary discharge or transfer.

63.11(1) *Involuntary discharge or transfer permitted.* A facility may involuntarily discharge or transfer a resident for only one of the following reasons:

a. Medical reasons;

b. The resident's welfare or that of other residents;

c. Repeated refusal by the resident to participate in the resident's service plan;

d. Due to action pursuant to Iowa Code chapter 229; or

e. Nonpayment for the resident's stay, as described in the residency agreement for the resident's stay.

63.11(2) *Medical reasons.* Medical reasons for transfer or discharge shall be based on the resident's needs and shall be determined and documented in the resident's record by the primary care provider. Transfer or discharge may be required in order to provide a different level of care to the resident. (II)

63.11(3) *Welfare of a resident.* Welfare of a resident or that of other residents refers to a resident's social, emotional, or physical well-being. A resident may be transferred or discharged because the resident's behavior poses a continuing threat to the resident (e.g., suicidal) or to the well-being of other residents or staff (e.g., the resident's behavior is incompatible with other residents' needs and rights). Written documentation that the resident's continued presence in the facility would adversely affect the resident's own welfare or that of other residents shall be made by the administrator or designee and shall include specific information to support this determination. (II)

63.11(4) *Notice.* Involuntary transfer or discharge of a resident from a facility shall be preceded by a written notice to the resident and the responsible party. (II, III)

a. The notice shall contain all of the following information:

(1) The stated reason for the proposed transfer or discharge. (II)

(2) The effective date of the proposed transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads as follows: (II)

> You have a right to appeal the facility's decision to transfer or discharge you. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as "department") within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department and you will not be transferred prior to a final decision. In emergency circumstances, extension of the 14-day requirement may be permitted upon request to the department's designee. If you lose the hearing, you will not be transferred before the expiration of (1) 30 days following receipt of the original notice of the discharge or transfer, or (2) 5 days following final decision of such hearing, including exhaustion of all appeals, whichever occurs later. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

b. The notice shall be personally delivered to the resident and a copy placed in the resident's record. A copy shall also be transmitted to the department; the resident's responsible party; the resident's primary

care provider; and the person or agency responsible for the resident's placement, maintenance, and care in the facility. The notice shall indicate that a copy has been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent. (II)

c. The notice required by paragraph 63.11(4)*"a"* shall be provided at least 30 days in advance of the proposed transfer or discharge unless one of the following occurs: (II)

(1) An emergency transfer or discharge is mandated by the resident's health care needs and is in accordance with the written orders and medical justification of the primary care provider. Emergency transfers or discharges may also be mandated in order to protect the health, safety, or well-being of other residents and staff from the resident being transferred. (II)

(2) The transfer or discharge is subsequently agreed to by the resident or the resident's responsible party, and notification is given to the responsible party, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility.

d. A hearing requested pursuant to this subrule shall be held in accordance with subrule 63.11(6).

63.11(5) *Emergency transfer or discharge.* In the case of an emergency transfer or discharge, the resident must be given a written notice prior to or within 48 hours following transfer or discharge. (II, III)

a. A copy of this notice must be placed in the resident's file. The notice must contain all of the following information:

(1) The stated reason for the transfer or discharge. (II)

(2) The effective date of the transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads: (II)

> You have a right to appeal the facility's decision to transfer or discharge you on an emergency basis. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as "department") within 7 days after receiving this notice. You have the right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after receipt of your request by the department. You may be transferred or discharged before the hearing is held or before a final decision is rendered. If you win the hearing, you have the right to be transferred back into the facility. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

b. The notice shall be personally delivered to the resident and a copy placed in the resident's record. A copy shall also be transmitted to the department; the resident's responsible party; the resident's primary care provider; and the person or agency responsible for the resident's placement, maintenance, and care in the facility. The notice shall indicate that a copy has been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent. (II)

c. A hearing requested pursuant to this subrule shall be held in accordance with subrule 63.11(6).

63.11(6) *Hearing.*

a. Request for hearing.

(1) The resident must request a hearing within 7 days of receiving the written notice.

(2) The request must be made to the department, either in writing or verbally.

b. The hearing shall be held no later than 14 days after receipt of the request by the department unless the resident requests an extension due to emergency circumstances.

c. Except in the case of an emergency discharge or transfer, a request for a hearing shall stay a transfer or discharge pending a final decision, including the exhaustion of all appeals. (II)

d. The hearing shall be heard by a department of inspections and appeals administrative law judge pursuant to Iowa Code chapter 17A and 481—Chapter 10. The hearing shall be public unless the resident or the resident's legal representative requests in writing that the hearing be closed. In a determination as to whether a transfer or discharge is authorized, the burden of proof by a preponderance of evidence rests on the party requesting the transfer or discharge.

e. Notice of the date, time, and place of the hearing shall be sent by certified mail or delivered in person to the facility, the resident, the responsible party, and the office of the long-term care ombudsman not later than 5 full business days after receipt of the request. The notice shall also inform the facility and the resident or the responsible party that they have a right to appear at the hearing in person or be represented by an attorney or other individual. The appeal shall be dismissed if neither party is present or represented at the hearing. If only one party appears or is represented, the hearing shall proceed with one party present. A representative of the office of the long-term care ombudsman shall have the right to appear at the hearing.

f. The administrative law judge's written decision shall be mailed by certified mail to the licensee, resident, responsible party, and the office of the long-term care ombudsman within 10 working days after the hearing has been concluded.

63.11(7) *Nonpayment.* If nonpayment is the basis for involuntary transfer or discharge, the resident shall have the right to make full payment up to the date that the discharge or transfer is to be made and then shall have the right to remain in the facility. (II)

63.11(8) *Discussion of involuntary transfer or discharge.* Within 48 hours after notice of involuntary transfer or discharge has been received by the resident, the facility shall discuss the involuntary transfer or discharge with the resident, the resident's responsible party, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. (II)

a. The facility administrator or other appropriate facility representative serving as the administrator's designee shall provide an explanation and discussion of the reasons for the resident's involuntary transfer or discharge. (II)

b. The content of the explanation and discussion shall be summarized in writing, shall include the names of the individuals involved in the discussion, and shall be made part of the resident's record. (II)

c. The provisions of this subrule do not apply if the involuntary transfer or discharge has already occurred pursuant to subrule 63.11(5) and emergency notice is provided within 48 hours.

63.11(9) *Transfer or discharge planning.*

a. The facility shall develop a plan to provide for the orderly and safe transfer or discharge of each resident to be transferred or discharged. (II)

b. To minimize the possible adverse effects of the involuntary transfer, the resident shall be offered counseling services by the sending facility before the involuntary transfer and by the receiving facility after the involuntary transfer. Counseling, if accepted, shall be provided by a licensed mental health professional as defined in Iowa Code section 228.1(6). Counseling shall be documented in the resident's record. (II)

c. The counseling requirement in paragraph 63.11(9)*"b"* does not apply if the discharge has already occurred pursuant to subrule 63.11(5) and emergency notice is provided within 48 hours.

d. The receiving health care facility of a resident involuntarily transferred shall immediately formulate and implement a plan of care which takes into account possible adverse effects the transfer may cause. (II)

63.11(10) *Transfer upon revocation of license or voluntary closure.* Residents shall not have the right to a hearing to contest an involuntary discharge or transfer resulting from the revocation of the facility's license by the department of inspections and appeals. In the case of the voluntary closure of a facility, a period of 30 days must be allowed for an orderly transfer of residents to other facilities.

63.11(11) *Intrafacility transfer.*

a. Residents shall not be arbitrarily relocated from room to room within a licensed health care facility. (I, II) Involuntary relocation may occur only in the following situations, which shall be documented in the resident's record: (II)

(1) Incompatibility with or disturbing to other roommates.

(2) For the welfare of the resident or other residents of the facility.

(3) To allow a new admission to the facility that would otherwise not be possible due to separation of roommates by sex.

(4) In the case of a resident whose source of payment was previously private, but who now is eligible for Title XIX (Medicaid) assistance, the resident may be transferred from a private room to a semiprivate room or from one semiprivate room to another.

(5) Reasonable and necessary administrative decisions regarding the use and functioning of the building.

b. Unreasonable and unjustified reasons for changing a resident's room without the concurrence of the resident or responsible party include:

(1) Change from private pay status to Title XIX, except as outlined in subparagraph 63.11(11)*"a"*(4). (II)

(2) As punishment or behavior modification, except as specified in subparagraph 63.11(11)*"a"*(1). (II)

(3) Discrimination on the basis of race or religion. (II)

c. If intrafacility relocation is necessary for reasons outlined in paragraph 63.11(11)*"a,"* the resident shall be notified at least 48 hours prior to the transfer and the reason therefor shall be explained. The responsible party shall be notified as soon as possible. The notification shall be documented in the resident's record and signed by the resident or responsible party. (II, III)

d. If emergency relocation is required in order to protect the safety or health of the resident or other residents, the notification requirements may be waived. The conditions of the emergency shall be documented. The family or responsible party shall be notified immediately or as soon as possible of the condition that necessitates emergency relocation, and such notification shall be documented. (II, III)

e. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility, and not as an intrafacility transfer. (II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.12(135C) Residency agreement.

63.12(1) Each residency agreement shall:

a. State the base rate or scale per day or per month, the services included, and the method of payment. (III)

b. Contain a complete schedule of all offered services for which a fee may be charged in addition to the base rate. (III) Furthermore, the agreement shall:

(1) Stipulate that no further additional fees shall be charged for items not contained in the complete schedule of services; (III)

(2) State the method of payment for additional charges; (III)

(3) Contain an explanation of the method of assessment of such additional charges and an explanation of the method of periodic reassessment, if any, resulting in changing such additional charges; (III)

(4) State that additional fees may be charged to the resident for nonprescription drugs, other personal supplies, and services provided by a barber, beautician, and such. (III)

c. Contain an itemized list of services to be provided to the resident based on an assessment at the time of the resident's admission and in consultation with the administrator and including the specific fee the resident will be charged for each service and the method of payment. (III)

d. Include the total fee to be charged initially to the resident. (III)

e. State the conditions whereby the facility may make adjustments to its overall fees for resident care as a result of changing costs. (II, III) Furthermore, the agreement shall provide that the facility shall give:

(1) Written notification to the resident, or the responsible party when appropriate, of changes in the overall rates of both base and additional charges at least 30 days prior to the effective date of such changes; (II, III)

(2) Notification to the resident, or the responsible party when appropriate, of changes in additional charges, based on a change in the resident's condition. Notification must occur prior to the date such revised additional charges begin. If notification is given orally, subsequent written notification must also be given within a reasonable time, not to exceed one week, listing specifically the adjustments made. (II, III)

f. State the terms of agreement in regard to a refund of all advance payments in the event of the transfer, death, or voluntary or involuntary discharge of the resident. (II, III)

g. State the terms of agreement concerning the holding of and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons. The terms shall contain a provision that the bed will be held at the request of the resident or the resident's responsible party. (II, III)

(1) The facility shall ask the resident or responsible party whether the resident's bed should be held. This request shall be made before the resident leaves or within 48 hours after the resident leaves. The inquiry and the response shall be documented. (II, III)

(2) The facility shall inform the resident or responsible party that, when requested, the bed may be held beyond the number of days designated by the funding source, as long as payments are made in accordance with the agreement. (II, III)

h. State the conditions under which the involuntary discharge or transfer of a resident would be effected. (II, III)

i. Set forth any other matters deemed appropriate by the parties to the agreement. No agreement or any provision thereof shall be drawn or construed so as to relieve any health care facility of any requirement or obligation imposed upon it by this chapter or any standards or rules in force pursuant to this chapter. (II, III)

63.12(2) Each party to the residency agreement shall be provided a copy of the signed agreement. (II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.13(135C) Medical examinations.

63.13(1) Each resident in a residential care facility shall have a designated primary care provider who may be contacted when needed. (II, III)

63.13(2) Each resident admitted to a residential care facility shall have a physical examination prior to admission. (II, III)

a. If the resident is admitted directly from a hospital, a copy of the hospital admission physical and discharge summary may be a part of the record in lieu of an additional physical examination. A record of the examination, signed by the primary care provider, shall be a part of the resident's record. (II, III)

b. The record of the admission physical examination and medical history shall portray the current medical status of the resident and shall include the resident's name, sex, age, medical history, physical examination, diagnosis, statement of medical concerns, and results of any diagnostic procedures. (II, III)

c. Screening and testing for tuberculosis shall be conducted pursuant to 481—Chapter 59. (I, II, III)

63.13(3) The person in charge shall immediately notify the primary care provider of any accident, injury or adverse change in the resident's condition that has the potential for requiring further medical treatment. (I, II, III)

63.13(4) Each resident shall be visited by or shall visit the resident's primary care provider at least once each year. The one-year period shall be measured from the date of admission and does not include the resident's preadmission physical. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.14(135C) Records.

63.14(1) *Resident record.* The licensee shall keep a permanent record on all residents admitted to a specialized residential care facility with all entries current, dated, and signed. (III) The record shall include:

a. Name and previous address of resident; (III)

b. Birth date, sex, and marital status of resident; (III)

c. Church affiliation; (III)

d. Primary care provider's name, telephone number, and address; (III)

e. Dentist's name, telephone number, and address; (III)

f. Name, address, and telephone number of next of kin or legal representative; (III)

g. Name, address, and telephone number of person to be notified in case of emergency; (III)

h. Mortuary's name, telephone number, and address; (III)

i. Pharmacist's name, telephone number, and address; (III)

j. Physical examination and medical history; (III)

k. Certification by the primary care provider that the resident requires no more than personal care and supervision, but does not require nursing care; (III)

l. Primary care provider's orders for medication, treatment, and diet in writing and signed by the primary care provider; (III)

m. A notation of yearly or other visits to primary care provider or other professional services; (III)

n. Any change in the resident's condition; (II, III)

o. If the primary care provider has certified that the resident is capable of taking prescribed medications, the resident shall be required to keep the administrator advised of current medications, treatments, and diet. The administrator shall keep a listing of medication, treatments, and diet prescribed by the primary care provider for each resident; (III)

p. If the primary care provider has certified that the resident is not capable of taking prescribed medication, it must be administered by a qualified person of the facility. A qualified person shall be defined as either a registered or licensed practical nurse or an individual who has completed the state-approved training course in medication administration, including a medication manager or certified medication aide; (II)

q. Medications administered by an employee of the facility shall be recorded on a medication record by the individual who administers the medication; (II, III)

r. A notation describing the resident's condition on admission, transfer, and discharge; (III)

s. In the event of a resident's death, notations in the resident's record shall include the date and time of the resident's death, the circumstances of the resident's death, the disposition of the resident's body, and the date and time that the resident's family and primary care provider were notified of the resident's death; (III)

t. A copy of instructions given to the resident, legal representative, or facility in the event of discharge or transfer; (III)

u. Disposition of valuables; (III)

v. Current individual program plans. (II, III)

63.14(2) *Confidentiality of resident records.*

a. Each resident shall be ensured confidential treatment of all information contained in the resident's records. The resident's written consent shall be required for the release of information to persons not otherwise authorized under law to receive it. (II)

b. The facility shall limit access to any medical records to staff and consultants providing professional service to the resident. This is not meant to preclude access by representatives of state and federal regulatory agencies. (II)

c. Similar procedures shall safeguard the confidentiality of residents' personal records, e.g., financial records and social services records. Only those personnel concerned with the financial affairs of the residents may have access to the financial records. This is not meant to preclude access by representatives of state and federal regulatory agencies. (II)

d. The resident or the resident's responsible party shall be entitled to examine all information contained in the resident's record and shall have the right to secure full copies of the record at reasonable cost upon request, unless the primary care provider determines the disclosure of the record or section thereof is contraindicated in which case this information will be deleted before the record is made available to the resident or responsible party. This determination and the reasons for it must be documented in the resident's record. (II)

63.14(3) *Incident record.*

a. Each residential care facility shall maintain an incident record report and shall have available incident report forms. (II, III)

b. Report of incidents shall be in detail on an incident report form. (III)

c. The person in charge at the time of the incident shall oversee the preparation of and sign the incident report. The administrator or designee shall review, sign and date the incident report within 72 hours of the accident, incident or unusual occurrence. (II, III)

d. An incident report shall be completed for every accident or incident where there is apparent injury or where an injury of unknown origin may have occurred. (II)

e. An incident report shall be completed for every accident, incident or unusual occurrence within the facility or on the premises that affects a resident, visitor, or employee. (II, III)

f. A copy of the incident report shall be kept on file in the facility. (II, III)

63.14(4) *Retention of records.*

a. Records shall be retained in the facility for five years following the termination of services to a resident. (III)

b. Records shall be retained within the facility upon change of ownership. (III)

c. When the facility ceases to operate, a copy of the resident's record shall be released to the facility to which the resident is transferred. (III)

d. When the facility ceases to operate, records shall be maintained for five years in a clean, dry secured storage area. (III)

63.14(5) *Electronic records.* In addition to the access provided in 481—subrule 50.10(2), an authorized representative of the department shall be provided unrestricted access to electronic records pertaining to the care provided to the residents of the facility. (II, III)

a. If access to an electronic record is requested by the authorized representative of the department, the facility may provide a tutorial on how to use its particular electronic system or may designate an individual who will, when requested, access the system, respond to any questions or assist the authorized representative as needed in accessing electronic information in a timely fashion. (II, III)

b. The facility shall provide a terminal where the authorized representative may access records. (II, III)

c. If the facility is unable to provide direct print capability to the authorized representative, the facility shall make available a printout of any record or part of a record on request in a time frame that does not intentionally prevent or interfere with the department's survey or investigation. (II, III)

63.14(6) *Reports to the department.* The licensee shall furnish statistical information concerning the operation of the facility to the department on request. (III)

63.14(7) *Personnel record.*

a. Personnel records for each employee shall be kept in accordance with subrule 63.8(4). (III)

b. The personnel records shall be made available for review upon request by the department. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.15(135C) Resident care and personal services.

63.15(1) A complete change of bed linens shall be provided at least once a week and more often if necessary. (III)

63.15(2) Residents shall receive sufficient supervision to promote personal cleanliness. (II, III)

63.15(3) Residents shall have clean clothing as needed. Clothing shall be appropriate to residents' activities and to the weather. (III)

63.15(4) Residents shall be encouraged to bathe at least twice a week. (II, III)

63.15(5) All nonambulatory residents shall be housed on the grade level floor unless the facility has a suitably sized elevator. (II)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.16(135C) Drugs.

63.16(1) *Drug storage.*

a. Residents who have been certified in writing by their primary care provider as capable of taking their own medications may retain these medications in their bedroom, but locked storage must be provided, with staff and the resident having access, and the drug storage shall be kept locked when not in use. Monitoring of the storage, administration, and documentation by the resident shall be carried out by a person who meets the requirements of subrule 63.16(3) and is responsible for administering medications. (II, III)

b. Drug storage for residents who are unable to take their own medications and require supervision shall meet the following requirements:

(1) Locked storage for drugs, solutions, and prescriptions shall be provided. (III)

(2) A bathroom shall not be used for drug storage. (III)

(3) The drug storage shall be kept locked when not in use. (III)

(4) The drug storage key shall be secured and available only to those employees charged with the responsibility of administering medications. (II, III)

(5) Schedule II drugs, as defined by Iowa Code chapter 124, shall be kept in a locked box within the locked drug storage. (II, III)

(6) Medications requiring refrigeration shall be kept locked in a refrigerator and separated from food and other items. (II, III)

(7) Drugs for external use shall be stored separately from drugs for internal use. (II, III)

(8) All potent, poisonous, or caustic materials shall be stored separately from drugs, shall be plainly labeled and stored in a specific, well-illuminated cabinet, closet, or storeroom, and shall be made accessible only to authorized persons. (I, II)

(9) Inspection of drug storage shall be made by the administrator or designee and a registered pharmacist not less than once every three months. The inspection shall be verified by a report signed by the administrator and the pharmacist and filed with the administrator. The report shall include, but not be limited to, certification of the absence of the following: expired drugs, deteriorated drugs, improper labeling, drugs for which there is no current primary care provider's order, and drugs improperly stored. (III)

(10) Bulk supplies of prescription drugs for multiresident use shall not be kept in a residential care facility. (III)

63.16(2) *Drug safeguards.*

a. All prescribed medications shall be clearly labeled indicating the resident's full name, primary care provider's name, prescription number, name and strength of drug, dosage, directions for use, date of issue, and name and address and telephone number of pharmacy or primary care provider issuing the drug. Where unit dose is used, prescribed medications shall, at a minimum, indicate the resident's full name, primary care provider's name, name and strength of drug, and directions for use. Standard containers shall be utilized for dispensing drugs. (III)

b. Sample medications provided by the resident's primary care provider shall clearly identify to whom the medications belong. (III)

c. Medication containers having soiled, damaged, illegible, or makeshift labels shall be returned to the issuing pharmacist, pharmacy, or primary care provider for relabeling or disposal. (III)

d. The medication for each resident shall be kept or stored in the original containers unless the resident is participating in an individualized medication program. (II, III)

e. Unused prescription drugs shall be destroyed by the person in charge, in the presence of a witness, and with a notation made on the resident's record or shall be returned to the supplying pharmacist. (III)

f. Prescriptions shall be refilled only with the permission of the resident's primary care provider. (II, III)

g. Medications prescribed for one resident shall not be administered to or allowed in the possession of another resident. (I, II)

h. Instructions shall be requested from the Iowa board of pharmacy concerning disposal of unused Schedule II drugs prescribed for a resident who has died or for whom the Schedule II drug was discontinued. (III)

i. Discontinued medications shall be destroyed within a specified time by a responsible person, in the presence of a witness, and with a notation made to that effect or shall be returned to the pharmacist for destruction. Drugs listed under the Schedule II drugs shall be destroyed in accordance with the requirements established by the Iowa board of pharmacy. (II, III)

j. All medication orders which do not specifically indicate the number of doses to be administered or the length of time the drug is to be administered shall be stopped automatically after a given time period. The automatic-stop order may vary for different types of drugs. The resident's primary care provider, in conjunction with the pharmacist, shall institute these policies and provide procedures for review and endorsement. (II, III)

k. No resident shall be allowed to possess any medications unless the primary care provider has certified in writing on the resident's medical record that the resident is mentally and physically capable of doing so. (II)

l. No medications or prescription drugs shall be administered to a resident without a written order signed by the primary care provider. (II)

m. The facility shall establish a policy to govern the distribution of prescribed medications to residents who are on leave from the facility. (II, III)

(1) Medications may be issued to residents who will be on leave from a facility for less than 24 hours. Only those medications needed for the time period that the resident will be on leave from the facility may be issued. Non-child-resistant containers may be used. Instructions shall be provided and include the date, the resident's name, the name of the facility, and the name of the medication, its strength, dose and time of administration. (II, III)

(2) Medication for residents on leave from a facility for longer than 24 hours shall be obtained in accordance with requirements established by the Iowa board of pharmacy. (II, III)

(3) Medication for residents on leave from a facility may be issued only by facility personnel responsible for administering medication. (II, III)

63.16(3) *Drug administration—authorized personnel.*

a. A properly trained person shall be charged with the responsibility of administering medications as ordered by a primary care provider. (II, III)

b. The person shall have knowledge of the purpose of the drugs and their dangers and contraindications. (II, III)

c. The person shall be a licensed nurse or primary care provider or an individual who has completed the state-approved training course in medication administration, including a medication manager or certified medication aide. (II, III)

d. Prior to taking a department-approved medication aide course, the person shall have a letter of recommendation for admission to the medication aide course from the employing facility. (III)

e. A person who is a nursing student or a graduate nurse may take the medication aide challenge examination in place of taking a course. The person shall do all of the following before taking the challenge examination:

(1) Complete a clinical or nursing theory course within six months before taking the challenge examination; (III)

(2) Successfully complete a nursing program pharmacology course within one year before taking the challenge examination; (III)

(3) Provide to the community college a written statement from the nursing program's pharmacology or clinical instructor indicating that the person is competent in medication administration. (III)

f. A person who has written documentation of certification as a medication aide in another state may become a medication aide in Iowa by successfully completing a department-approved nurse aide competency examination and a medication aide challenge examination. The requirements of paragraph 63.16(3)*"d"* do not apply to this person. (III)

63.16(4) *Drug administration.*

a. Unless the unit dose system is used, the person assigned the responsibility of medication administration must complete the procedure by personally preparing the dose, observing the actual act of swallowing the oral medication, and charting the medication. In facilities where the unit dose system is used, the person assigned the responsibility of medication administration must complete the procedure by observing the actual act of swallowing the oral medication and by charting the medication. Medications shall be prepared on the same shift of the same day that they are administered unless the unit dose system is used. (II)

b. Injectable medications shall be administered as permitted by Iowa law by a registered nurse, licensed practical nurse, primary care provider or pharmacist. For purposes of this subrule, "injectable medications" does not include an epinephrine autoinjector, e.g., an EpiPen. (II, III)

c. A resident certified by the resident's primary care provider as capable of injecting the resident's own insulin may do so. Insulin may be administered pursuant to paragraph 63.16(4)*"b"* or as otherwise authorized by the resident's primary care provider. (II, III) Authorization shall:

(1) Be in writing,

(2) Be maintained in the resident's record,

(3) Be renewed quarterly,

(4) Include the name of the person authorized to administer the insulin,

(5) Include documentation by the primary care provider that the authorized person is qualified to administer insulin to that resident. (II, III)

d. A resident may participate in the administration of the resident's own medication if the primary care provider has certified in writing in the resident's medical record that the resident is mentally and physically capable of participating and has explained in writing in the resident's medical record what the resident's participation may include.

e. An individual inventory record shall be maintained for each Schedule II drug prescribed for each resident, with an accurate count and authorized signatures at every shift. (II)

f. The facility may use a unit dose system.

g. Medication aides and medication managers may administer PRN medications without contacting a licensed nurse or primary care provider if all of the following apply: (I, II, III)

(1) A written order from the resident's primary care provider specifies the purpose of the PRN medication and the frequency, dosage and strength of the PRN medication.

(2) The resident's primary care provider provides in writing specific criteria for administering PRN medications.

(3) The pharmacist assesses the resident's use of PRN medications when conducting the inspection of drug storage as required by subparagraph 63.16(1)*"b"*(9).

h. The pharmacist shall assess the use of PRN medications when conducting the inspection of drug storage as required by subparagraph 63.16(1)*"b"*(9). (II, III)

i. Medications administered by an employee of the facility shall be recorded on a medication record by the individual who administers the medication. (I, II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18; **ARC 4577C**, IAB 7/31/19, effective 9/4/19]

481—63.17(135C) Dental services.

63.17(1) The residential care facility personnel shall assist residents in obtaining annual and emergency dental services and shall arrange transportation for such services. (III)

63.17(2) Dental services shall be performed only on the request of the resident, responsible party, legal representative, or primary care provider. The resident's primary care provider shall be advised of the resident's dental problems. (III)

63.17(3) All dental reports or progress notes shall be included in the resident record as available. The facility shall make reasonable efforts to obtain the records following the provision of services. (III)

63.17(4) Personal care staff shall assist the resident in carrying out the dentist's recommendations. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.18(135C) Dietary.

63.18(1) *Dietary staffing.* Personnel who are responsible for food preparation or service, or both food preparation and service, shall have an orientation on sanitation and safe food handling prior to handling food and shall have annual in-service training on food protection. (III)

63.18(2) *Nutrition and menu planning.*

a. Menus shall be planned and followed to meet the nutritional needs of residents in accordance with the primary care provider's orders. Diet orders should be reviewed as necessary, but at least quarterly, by the primary care provider. (II, III)

b. In facilities where residents plan and prepare their own meals, education and support shall be provided to residents regarding proper food preparation, dietary guidelines, and food safety.

c. In facilities where food is regularly prepared for residents, the following shall apply:

(1) Menus shall be planned and served to include foods and amounts necessary to meet federal dietary guidelines. (II, III)

(2) At least three meals or their equivalent shall be offered daily, at regular hours. (II, III)

1. There shall be no more than a 14-hour span between offering a substantial evening meal and breakfast. (II, III)

2. Unless contraindicated, evening snacks shall be offered routinely to all residents. Special nourishments shall be available when ordered by the primary care provider. (II, III)

(3) Menus shall include a variety of foods prepared in various ways. (III)

(4) Menus shall be written at least one week in advance. The current menu shall be located in an accessible place for easy use by persons purchasing, preparing, and serving food. (III)

(5) Records of menus as served shall be filed and maintained for 30 days and shall be available for review by departmental personnel. When substitutions are necessary or requested, they shall be of similar nutritive value and recorded on the menu or in a notebook. (III)

(6) The facility shall provide an alternative choice at scheduled meal times. (III)

63.18(3) *Dietary storage, food preparation, and service.*

a. All food shall be handled, prepared, served and stored in compliance with the Food Code adopted pursuant to Iowa Code section 137F.2. (I, II, III)

b. Supplies of staple foods for a minimum of a one-week period and of perishable foods for a minimum of a two-day period shall be maintained on the premises. Minimum food portion requirements for a low-cost plan shall conform to information supplied by the bureau of nutrition and health promotion of the department of public health. (II, III)

c. Dishes shall be free of cracks, chips, and stains. (III)

d. If family-style service is used, all leftover prepared food that has been on the table shall be properly handled. (III)

63.18(4) *Sanitation in food preparation area.* There shall be written procedures established for cleaning all work and serving areas. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.19(135C) Orientation and service plan.

63.19(1) *Orientation.* Within 24 hours of admission, each resident shall receive orientation to the facility. The orientation program shall be documented in the resident's file and shall include, but shall not be limited to, a review of the resident's rights, the daily schedule, house rules and the facility's evacuation plan. (II, III)

63.19(2) *Initial service plan.* Within 48 hours of admission, the administrator or the administrator's designee shall develop an initial service plan to address any immediate health and safety needs. The plan shall be based on information gathered from the resident, family, referring party, primary care provider, and other significant persons. The plan shall be followed until the service plan required in subrule 63.19(3) is complete. (I, II, III)

63.19(3) *Service plan.* Within 30 days of admission, the administrator or the administrator's designee, in conjunction with the resident and the resident's interdisciplinary team, shall develop a written, individualized, and integrated service plan for the resident. The service plan shall be developed and implemented to address the resident's priorities and assessed needs, such as activities of daily living, rehabilitation, activity, and social, behavioral, emotional, physical and mental health. (I, II, III)

a. The service plan shall include measurable goals and objectives and the specific service(s) to be provided to achieve the goals. Each goal shall include the date of initiation and anticipated duration of service(s). Any restriction of rights shall be included in the service plan. (I, II, III)

b. The service plan shall include the documentation procedure for each goal and objective. (II, III)

c. The service plan should be modified to add or delete goals and objectives as the resident's needs change. Communications related to service plan changes or changes in the resident's condition shall occur within five working days of the change and shall be conveyed to all individuals inside and outside the residential care facility who work with the resident, as well as to the resident's responsible party. (I, II, III)

d. The service plan shall be reviewed at least quarterly by relevant staff, the resident and appropriate others, such as the resident's family, case manager and responsible party. The review shall include a written report which addresses a summary of the resident's progress toward goals and objectives and the need for continued services. (I, II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.20(135C) Resident activities program.

63.20(1) *Activities program.* Each residential care facility shall provide suitable group and individual activities for residents. (III)

a. The activities provided shall be designed to meet the needs and interests of each resident and to assist residents in continuing normal activities within limitations set by the resident's primary care provider. This shall include helping residents continue in their individual interests or hobbies. (III)

b. Residents shall be encouraged, but not required, to participate in activities. (III)

63.20(2) Each resident may participate in activities of social, religious, and community groups at the resident's discretion unless contraindicated for reasons documented by the primary care provider or interdisciplinary team as appropriate in the resident's record. (II)

63.20(3) Residents who wish to meet with or participate in activities of social, religious, or other community groups in or outside of the facility shall be informed, encouraged, and assisted to do so. (II)

63.20(4) *Supplies, equipment, and storage.*

a. Each facility shall provide a variety of supplies and equipment of a nature calculated to fit the needs and interests of the residents. (III)

b. Storage shall be provided for recreational equipment and supplies. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.21(135C) Residents' rights.

63.21(1) Each facility shall ensure that policies and procedures are written and implemented which include, at a minimum, the provisions of this rule and which govern all areas of service provided by the facility. These policies and procedures shall be available to staff, residents, residents' families or legal representatives and the public and shall be reviewed annually. (II, III)

63.21(2) Policies and procedures shall include a method for submitting complaints and recommendations by residents or their responsible parties and for ensuring a response and disposition by the facility. (II, III) The written procedures shall:

a. Ensure the provision of assistance to residents as necessary to complete and submit complaints and recommendations; (II, III)

b. Ensure protection of the resident from any form of reprisal or intimidation; (II, III)

c. Include designation of an employee responsible for handling grievances and recommendations; (II, III)

d. Include a method of investigating and assessing the validity of a grievance or recommendation; (II, III) and

e. Include methods of recording grievances and actions taken. (II, III)

63.21(3) Policies and procedures shall include provisions governing access to, duplication of, and dissemination of information from the residents' records. (II, III)

63.21(4) Policies and procedures shall include a provision that each resident shall be fully informed of the resident's rights and responsibilities as a resident and of all rules governing resident conduct and responsibilities. This information must be provided upon the resident's admission or, in the case of residents already in the facility, upon the facility's adoption or amendment of residents' rights policies. (II, III)

a. The facility shall communicate to residents prior to or within five days after admission what residents may expect from the facility and its staff and what is expected from residents. The communication shall be in writing, e.g., in a separate handout or brochure describing the facility, and interpreted verbally, e.g., as part of a preadmission interview, resident counseling, or in individual or group orientation sessions following the resident's admission. (II, III)

b. Residents' rights and responsibilities shall be presented in language understandable to the resident. If the facility serves residents who are non-English-speaking or deaf or hard of hearing, steps shall be taken to translate the information into a foreign or sign language. In the case of blind residents, either Braille or a recording shall be provided. Residents shall be encouraged to ask questions about their rights and responsibilities, and these questions shall be answered. (II, III)

c. A statement shall be signed by the resident, or the resident's responsible party if applicable, indicating an understanding of these rights and responsibilities and shall be maintained in the resident's record. The statement shall be signed no later than five days after admission, and a copy of the signed statement shall be given to the resident or responsible party. (II, III)

d. In order to ensure that residents continue to be aware of these rights and responsibilities during their stay, a written copy shall be prominently posted in a location that is available to all residents. (II, III)

e. All residents shall be advised within 30 days following changes made in the statement of residents' rights and responsibilities. Appropriate means shall be utilized to inform non-English-speaking, deaf or hard-of-hearing, or blind residents of changes. (II, III)

63.21(5) Choice of primary care provider. Each resident shall be permitted free choice of a primary care provider, and pharmacy, if accessible. The facility may require the selected pharmacy to utilize a drug distribution system compatible with the system currently used by the facility. (II)

63.21(6) Each resident shall be afforded the opportunity to participate in the planning of the resident's total care and treatment, which may include, but shall not be limited to, medical care, nutritional needs, activities, and social work services. Each resident has the right to refuse treatment except as provided by Iowa Code chapter 229. In the case of a resident with a responsible party, the responsible party shall be afforded the opportunity to participate in the planning of the resident's total care and medical treatment and to be informed of the resident's medical condition. (II, III)

63.21(7) Each resident shall be encouraged and assisted throughout the resident's period of stay to exercise the resident's rights as a resident and as a citizen and may voice grievances and recommend changes in policies and services to administrative staff or to outside representatives of the resident's choice, free from interference, coercion, discrimination, or reprisal. (II)

63.21(8) The facility shall provide ongoing opportunities for residents to be aware of and to exercise their rights as residents. Residents shall be kept informed of changes in policies and services that are more restrictive, and their views shall be solicited prior to action. (II)

63.21(9) The facility shall post in a prominent area the text of Iowa Code section 135C.46 (Retaliation by facility prohibited) and the name, telephone number, and address of the long-term care ombudsman, the department, and the local law enforcement agency to provide residents a further course of redress. (II)

63.21(10) All rights and responsibilities of the resident devolve to the resident's responsible party or any legal surrogate designated in accordance with state law, to the extent permitted by state law. This subrule is not intended to limit the authority of any individual acting pursuant to Iowa Code chapter 144A. (II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18; **ARC 5711C**, IAB 6/16/21, effective 7/21/21]

481—63.22(135C) Dignity preserved. The resident shall be treated with consideration, respect, and full recognition of dignity and individuality, including privacy in treatment and in care for personal needs. (I, II)

63.22(1) Staff shall display respect for residents when speaking with, caring for, or talking about them, as constant affirmation of their individuality and dignity as human beings. (I, II)

63.22(2) Schedules of daily activities shall allow maximum flexibility for residents to exercise choice about what they will do and when they will do it. Residents' individual preferences regarding such things as menus, clothing, religious activities, friendships, activity programs, entertainment, sleeping and eating, also times to retire at night and arise in the morning shall be elicited and considered by the facility. (II)

63.22(3) Residents shall be examined and treated in a manner that maintains the privacy of their bodies. A closed door or a drawn curtain shall shield the resident from passersby. People not involved in the care of the residents shall not be present without the resident's consent while the resident is being examined or treated. (II)

63.22(4) Privacy of a resident's body also shall be maintained during toileting, bathing, and other activities of personal hygiene, except as needed for resident safety or assistance. (II)

63.22(5) Staff shall knock and be acknowledged before entering a resident's room unless the resident is not capable of a response. This shall not apply under emergency conditions. (II)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.23(135C) Communications. Each resident may communicate, associate, and meet privately with persons of the resident's choice, unless to do so would infringe upon the rights of other residents, and may send and receive personal mail unopened. (II)

63.23(1) Subject to reasonable scheduling restrictions, visiting policies and procedures shall permit residents to receive visits from anyone they wish. Visiting hours shall be posted. (II)

63.23(2) Reasonable, regular visiting hours shall not be less than 12 hours per day and shall take into consideration the special circumstances of each visitor. A particular visitor(s) may be restricted by the facility for one of the following reasons:

a. The resident refuses to see the visitor(s). (II)

b. The resident's primary care provider documents specific reasons why such a visit would be harmful to the resident's health. (II)

c. The visitor's behavior is unreasonably disruptive to the functioning of the facility. This judgment must be made by the administrator, and the reasons shall be documented and kept on file. (II)

63.23(3) Decisions to restrict a visitor are reviewed and reevaluated:

a. Each time the medical orders are reviewed by the primary care provider;

b. At least quarterly by the facility's staff; or

c. At the resident's request. (II)

63.23(4) Space shall be provided for residents to receive visitors in reasonable comfort and privacy. (II)

63.23(5) Telephones shall be available and accessible for residents to make and receive calls with privacy. Residents who need help shall be assisted in using the telephone. (II)

63.23(6) Arrangements shall be made to provide assistance to residents who require help in reading or sending mail. (II)

63.23(7) Residents, including residents court-ordered to the facility, shall be permitted to leave the facility at reasonable times unless there are justifiable reasons established in writing by court order, the primary care provider, the interdisciplinary team, or the facility administrator for refusing permission. (II)

63.23(8) Residents shall not have their personal lives regulated beyond reasonable adherence to meal schedules, bedtime hours, and other written policies which may be necessary for the orderly management of the facility and as required by these rules. However, residents shall be encouraged to participate in recreational programs. (II)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.24(135C) Resident property.

63.24(1) Residents shall be permitted to keep reasonable amounts of personal clothing and possessions for their use while in the facility. The facility shall offer the resident the opportunity to have personal property itemized and documented on an inventory sheet upon the resident's admission. The inventory sheet shall be kept in a safe location which is convenient for the resident to review and update. At discharge, residents may sign off on a list of the personal property they are taking with them. (II, III)

63.24(2) The facility shall provide for the safekeeping of personal effects, funds and other property of its residents. The facility may require that items of exceptional value or that would convey unreasonable responsibilities to the licensee be removed from the premises of the facility for safekeeping. (III)

63.24(3) Any funds or other property belonging to or due a resident, or expendable for the resident's account, which is received by the facility shall be trust funds; shall be kept separate from the funds and property of the facility and of its other residents, or specifically credited to such resident; and shall be used or otherwise expended only for the account of the resident. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.25(135C) Financial affairs—management. Each resident who has not been assigned a guardian or conservator by the court may manage the resident's own personal financial affairs. To the extent the facility assists in management, under written authorization by the resident, the management shall be carried out in accordance with Iowa Code section 135C.24. (II)

63.25(1) The facility shall maintain a written account of all residents' funds received by or deposited with the facility. (II)

63.25(2) An employee shall be designated in writing to be responsible for resident accounts. (II)

63.25(3) The facility shall keep on deposit personal funds over which the resident has control in accordance with Iowa Code section 135C.24. Should the resident request these funds, they shall be given

to the resident on request with receipts maintained by the facility and a copy to the resident. In the case of a resident with impaired decision-making skills, the resident's legal representative shall designate a method of disbursing the resident's funds. (II)

63.25(4) If the facility makes financial transactions on a resident's behalf, the facility must document that it has prepared and sent an itemized accounting of disbursements and current balances at least quarterly. A copy of this statement shall be maintained in the resident's financial or business record. (II)

63.25(5) A resident's personal funds shall not be used without the written consent of the resident or the resident's legal representative. (I, II)

63.25(6) A resident's personal funds shall be returned to the resident when the funds have been used without the written consent of the resident or the resident's legal representative. The department may report findings that resident funds have been used without written consent to the department's investigations division or to the local law enforcement agency, as appropriate. (II)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.26(135C) Resident work. No resident may be required to perform services for the facility, except as provided by Iowa Code section 347B.5. (II)

63.26(1) Residents may not be used to provide a source of labor for the facility against their will. Approval by the primary care provider or physiatrist is required for all work programs. (I, II)

63.26(2) Residents who perform work for the facility must receive compensation unless the work is part of their approved training program. Persons on the resident census who perform work shall not be used to replace paid employees in fulfilling staffing requirements. (II)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.27(135C) Resident abuse prohibited. Each resident shall receive kind and considerate care at all times and shall be free from mental, physical, sexual, and verbal abuse, exploitation, neglect, and physical injury. (I, II)

63.27(1) Mental abuse includes, but is not limited to, humiliation, harassment, and threats of punishment or deprivation. (I, II)

63.27(2) Physical abuse includes, but is not limited to, corporal punishment and the use of restraints as punishment. (I, II)

63.27(3) Drugs such as tranquilizers shall only be used in accordance with orders of the primary care provider. (I, II)

63.27(4) Allegations of dependent adult abuse. Allegations of dependent adult abuse shall be reported and investigated pursuant to Iowa Code chapter 235E and 481—Chapter 52. (I, II, III)

63.27(5) Staff shall receive training relating to the identification and reporting of dependent adult abuse as required by Iowa Code section 235B.16. (I, II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.28(135C) Crisis intervention. If a facility utilizes physical restraints, the facility shall have written policies that define the uses of physical restraints, designate the administrator or designee as the person who may authorize their use, establish a mechanism for monitoring and controlling their use, and provide staff with proper training. (I, II)

63.28(1) Temporary physical restraint of residents shall be used only under the following conditions: (I, II)

a. An emergency to prevent injury to the resident or to others; or (I, II)

b. For crisis intervention, but shall not be used for punishment, for the convenience of staff or as a substitution for supervision or programming; (I, II) and

c. No staff person shall use any restraint that obstructs the airway of the resident. (I, II)

63.28(2) Authorization for the use of physical restraints must be prior to or immediately after application of the restraint. (I, II)

63.28(3) Prone restraint is prohibited. Staff persons who find themselves involved in the use of a prone restraint when responding to an emergency must take immediate steps to end the prone restraint. (I, II)

63.28(4) The rationale and authorization for the use of physical restraint and staff action and procedures carried out to protect the resident's rights and to ensure safety shall be clearly set forth in the resident's record by the responsible staff persons. (I, II)

63.28(5) The primary care provider, the interdisciplinary team and the resident's responsible party shall be notified of any restraints administered. (I, II, III)

63.28(6) The facility shall provide to the staff a department-approved training program by qualified professionals on physical restraint techniques. (I, II)

a. The facility shall keep a record of training for review by the department and shall include attendance. (II, III)

b. Only staff with documented training in physical restraint and techniques shall be authorized to assist with physical restraint of a resident. (I, II)

c. Under no circumstances shall a resident be allowed to actively or passively assist in the restraint of another resident. (I, II)

63.28(7) Residents shall not be kept behind locked doors. (I, II)

63.28(8) Mechanical restraint is prohibited. Staff persons who find themselves involved in the use of a mechanical restraint when responding to an emergency must take immediate steps to end the mechanical restraint. (I, II)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.29(135C) Safety. The licensee of a residential care facility shall be responsible for the provision and maintenance of a safe environment for residents and personnel. (I, II, III)

63.29(1) *Fire safety.*

a. All residential care facilities shall meet the fire safety rules and regulations as promulgated by the state fire marshal. (I, II)

b. The size of the facility and needs of the residents shall be taken into consideration in evaluating safety precautions and practices.

63.29(2) *Safety duties of administrator.* The administrator shall have a written emergency plan to be followed in the event of fire, tornado, explosion, or other emergency. (III)

a. The plan shall be prominently posted in a common area of the building. (III)

b. In-service shall be provided to ensure that all employees are knowledgeable of the emergency plan. (II, III)

63.29(3) *Resident safety.*

a. Smoking shall be prohibited, except as allowed by Iowa Code chapter 142D, the smokefree air Act. (II, III)

b. Whenever full or empty tanks of oxygen are being used or stored, they shall be securely supported in an upright position. (II, III)

c. Residents shall receive adequate supervision to ensure against hazard from themselves, others, or elements in the environment. (I, II, III)

d. Storage areas for cleaning agents, bleaches, insecticides, or any other poisonous, dangerous, or flammable materials shall be locked. Residents permitted to access these materials shall have an order by their primary care provider stating the resident is able to utilize such materials, and staff shall supervise the residents as identified in the resident's service plan. (I, II, III)

e. Sufficient numbers of noncombustible trash containers with covers shall be available. (III)

f. Residents' personal possessions that may constitute a hazard to residents or others shall be removed and stored. (III)

63.29(4) *First-aid kit.* A first-aid emergency kit shall be available on each floor in every facility. (II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.30(135C) Housekeeping.

63.30(1) Each resident room shall be cleaned on a routine schedule. (III)

63.30(2) All rooms, corridors, storage areas, linen closets, attics, and basements shall be kept in a clean, orderly condition, free of unserviceable furniture and equipment and accumulations of refuse. (II, III)

63.30(3) A hallway or corridor shall not be used for storage of equipment. (II, III)

63.30(4) All odors shall be kept under control by cleanliness and proper ventilation. (III)

63.30(5) Clothing worn by personnel shall be clean and washable. (III)

63.30(6) All furniture, bedding, linens, and equipment shall be cleaned periodically and before use by another resident. (II, III)

63.30(7) Polishes used on floors shall provide a nonslip finish. (II, III)

63.30(8) Throw or scatter rugs shall have nonskid backing. (II, III)

63.30(9) Entrances, exits, steps, and outside walkways shall be kept free from ice, snow, and other hazards. (II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.31(135C) Maintenance.

63.31(1) The building, grounds, and other buildings shall be maintained in a clean, orderly condition and in good repair. (II, III)

63.31(2) Window treatments and furniture shall be clean and in good repair. (II, III)

63.31(3) Cracks in plaster, peeling wallpaper or paint, and tears or splits in floor coverings shall be promptly repaired or replaced in a professional manner. (II, III)

63.31(4) The electrical systems, including appliances, cords, and switches, shall be maintained to guarantee safe functioning and comply with the National Electric Code. (II, III)

63.31(5) All plumbing fixtures shall function properly and comply with the state plumbing code. (II, III)

63.31(6) Yearly inspections of the heating and cooling systems shall be made to guarantee safe operation. (II, III)

63.31(7) The building, grounds, and other buildings shall be kept free of breeding areas for flies, other insects, and rodents. (II, III)

63.31(8) The facility shall be kept free of flies, other insects, and rodents. (II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.32(135C) Laundry.

63.32(1) Residents' personal laundry shall be marked with an identification if commingled with other residents' personal laundry. (III)

63.32(2) Bed linens, towels, and washcloths shall be clean and stain-free. (III)

63.32(3) If laundry is done in the facility, a clean, dry, well-lit area to accommodate a washer and dryer of adequate size to serve the needs of the facility shall be provided. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.33(135C) Garbage and waste disposal.

63.33(1) All garbage shall be gathered, stored, and disposed of in a manner that will not permit transmission of disease, create a nuisance, or provide a breeding or feeding place for vermin or insects. (III)

63.33(2) All containers for refuse shall be watertight and rodent-proof and have tight-fitting covers. (III)

63.33(3) All unlined containers inside of the facility shall be thoroughly cleaned each time the containers are emptied. (III)

63.33(4) All waste shall be properly disposed of in compliance with local ordinances and state codes. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.34(135C) Supplies.

63.34(1) *Linen supplies.*

a. There shall be an adequate supply of linens so that each resident shall have at least three washcloths, hand towels, and bath towels per week. (III)

b. A complete change of bed linens shall be available in the linen storage area for each bed. (III)

c. Sufficient lightweight, clean, serviceable blankets shall be available. All blankets shall be laundered as often as necessary for cleanliness and freedom from odors. (III)

d. Each bed shall be provided with clean, washable bedspreads. There shall be a supply available when changes are necessary. (III)

e. Adequate storage shall be provided for linens, pillows, and bedding. (III)

63.34(2) *Supplies, equipment and storage.*

a. All equipment shall be properly cleaned and sanitized before use by another resident. (III)

b. Clean and sanitary storage shall be provided for equipment and supplies. (III)

c. Locked storage should be available for potentially dangerous items such as scissors, knives, and toxic materials. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.35(135C) Buildings, furnishings, and equipment.

63.35(1) *Buildings—general requirements.*

a. All windows shall be supplied with window treatments that are kept clean and in good repair. (III)

b. Whenever glass sliding doors or transparent panels are used, they shall be marked conspicuously. (III)

c. The facility shall meet the equivalent requirements of the appropriate group occupancy of the state building code. (III)

d. The facility shall be located in an area zoned for single- or multiple-family housing or in an unincorporated area and shall be constructed in compliance with applicable local housing codes and rules adopted for this classification of license by the state fire marshal. (II, III)

63.35(2) *Furnishings and equipment.*

a. All furnishings and equipment shall be durable, cleanable, and appropriate to their function. (III)

b. All resident areas shall be decorated, painted, and furnished to provide a homelike atmosphere. (III)

63.35(3) *Dining areas and living rooms.*

a. Living rooms shall be maintained for the use of residents and their visitors and may be used for recreational activities. Living rooms shall be suitably furnished. (III)

b. Dining areas shall be furnished with dining tables and chairs appropriate to the size and function of the facility. Dining rooms and furnishings shall be kept clean and sanitary. (III)

63.35(4) *Bedrooms.*

a. Each resident shall be provided with a twin-sized or larger bed, substantially constructed and in good repair. Rollaway beds, metal cots, or folding beds are not acceptable. (III)

b. Each bed shall be equipped with the following: casters or glides; clean springs in good repair; a clean, comfortable, well-constructed mattress approximately five inches thick and standard in size for the bed; and clean, comfortable pillows of average bed size. (III)

c. There shall be a comfortable chair, either a rocking chair or armchair, per resident bed. The resident's personal wishes shall be considered. (III)

d. There shall be drawer space for each resident's clothing. In a bedroom in which more than one resident resides, drawer space shall be assigned to each resident. (III)

e. Beds and other furnishings shall not obstruct free passage to and through doorways. (III)

f. Beds shall not be placed in such a manner that the side of the bed is against the radiator or in close proximity to it unless the radiator is covered so as to protect the resident from contact with it or from excessive heat. (III)

g. There shall be a wardrobe or closet in each resident's room. Minimum clear dimensions shall be 1 foot 10 inches deep by 1 foot 8 inches wide with full hanging space and provide a clothes rod and shelf. In a multiple bedroom, closet or wardrobe space shall be assigned each resident sufficient for the resident's needs. (III)

h. Each room shall have sufficient accessible mirrors to serve resident's needs. (III)

i. Useable floor space of a room shall be no less than 8 feet in any major dimension. (III)

j. Bedrooms shall have a minimum of 60 square feet of useable floor space per bed for a double room, 80 square feet of useable floor space for a single room. (III)

k. There shall be no more than two residents per room. (III)

63.35(5) *Bath and toilet facilities.*

a. All sinks shall have paper towel dispensers and an available supply of soap. (III)

b. Toilet paper shall be readily available to residents. (III)

c. There shall be a minimum of one toilet and bath facility for five residents. (III)

63.35(6) *Heating.* A centralized heating system shall be maintained in good working order and capable of maintaining a comfortable temperature for residents of the facility. Portable units or space heaters are prohibited from being used in the facility except in an emergency. (II, III)

63.35(7) *Water supply.*

a. Private sources of water supply shall be tested annually and the report made available for review by the department upon request. (III)

b. A bacterially unsafe source of water supply shall be grounds for denial, suspension, or revocation of license. (III)

c. The department may require testing of private sources of water supply at its discretion in addition to the annual test. The facility shall supply reports of such tests as directed by the department. (III)

d. Hot and cold running water under pressure shall be available in the facility. (II, III)

e. Prior to construction of a new facility or new water source, private sources of water supply shall be surveyed and shall comply with the requirements of the department. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18; **ARC 4577C**, IAB 7/31/19, effective 9/4/19]

481—63.36(135C) Family and employee accommodations. If the family or employees live within the facility, separate living quarters and recreation facilities shall be required for the family or employees distinct from such areas provided for the residents. (III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

481—63.37(135C) Animals. No animals shall be allowed to reside in the facility except with written approval of the department and under controlled conditions. (II, III)

[**ARC 3740C**, IAB 4/11/18, effective 5/16/18]

These rules are intended to implement Iowa Code chapter 135C.

4 September 7, 2016, effective date of 57.19(3)*"d,"* 62.15(2)*"d,"* and 63.18(3)*"d"* [ARC 2643C] delayed 70 days by the Administrative Rules Review Committee at its meeting held August 5, 2016.

CHAPTER 64
INTERMEDIATE CARE FACILITIES FOR THE INTELLECTUALLY DISABLED[1]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—64.1 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.2(135C) Waivers. Waivers from these rules may be granted by the director of the department of inspections and appeals for good and sufficient reason when the need for a waiver has been established; no danger to the health, safety, or welfare of any resident results; alternate means are employed or compensating circumstances exist and the waiver will apply only to an individual intermediate care facility for the intellectually disabled. Waivers will be reviewed at the discretion of the director of the department of inspections and appeals.

64.2(1) To request a waiver, the licensee must:

a. Apply for a waiver in writing on a form provided by the department;

b. Cite the rule or rules from which a waiver is desired;

c. State why compliance with the rule or rules cannot be accomplished;

d. Explain alternate arrangements or compensating circumstances which justify the waiver;

e. Demonstrate that the requested waiver will not endanger the health, safety, or welfare of any resident.

64.2(2) Upon receipt of a request for a waiver, the director of the department of inspections and appeals will:

a. Examine the rule from which a waiver is requested to determine that the request is necessary and reasonable;

b. If the request meets the above criteria, evaluate the alternate arrangements or compensating circumstances against the requirement of the rules;

c. Examine the effect of the requested waiver on the health, safety, or welfare of the residents;

d. Consult with the applicant if additional information is required.

64.2(3) Based upon these studies, approval of the waiver will be either granted or denied within 120 days of receipt.

[**ARC 0764C**, IAB 5/29/13, effective 7/3/13; **ARC 5719C**, IAB 6/16/21, effective 7/21/21]

481—64.3(135C) Application for license.

64.3(1) Initial application. In order to obtain an initial intermediate care facility for the intellectually disabled license for an intermediate care facility for the intellectually disabled which is currently licensed, the applicant must:

a. Submit a letter of intent and a written résumé of the resident care program and other services provided for departmental review and approval;

b. Make application at least 30 days prior to the change of ownership of the facility on forms provided by the department;

c. Submit a floor plan of each floor of the intermediate care facility, drawn on 8½- × 11-inch paper showing room areas in proportion, room dimensions, room numbers for all rooms, including bathrooms, and designation of the use to which room will be put and window and door location;

d. Submit a photograph of the front and side elevation of the intermediate care facility for the intellectually disabled;

e. Submit the statutory fee for an intermediate care facility for the intellectually disabled license;

f. Meet all of the rules, regulations and standards contained in 481—Chapter 64.

g. Comply with federal, state, and local laws, codes, and regulations pertaining to health and safety, including procurement, dispensing, administration, safeguarding and disposal of medications and controlled substances; building, construction, maintenance and equipment standards; sanitation; communicable and reportable diseases; and postmortem procedures;

h. Have a certificate signed by the state fire marshal or deputy state fire marshal as to compliance with fire safety rules and regulations.

64.3(2) In order to obtain an initial intermediate care facility for the intellectually disabled license for a facility not currently licensed as an intermediate care facility for the intellectually disabled, the applicant must:

[*]a. Meet all of the rules, regulations, and standards contained in 481—Chapters 61 and 64; exceptions noted in 481—subrule 61.1(2) shall not apply;

b. Submit a letter of intent and a written résumé of the resident care program and other services provided for departmental review and approval;

c. Make application at least 30 days prior to the proposed opening date of the facility on forms provided by the department;

d. Submit a floor plan of each floor of the intermediate care facility for the intellectually disabled, drawn on 8½- × 11-inch paper showing room areas in proportion, room dimensions, room numbers for all rooms, including bathrooms, and designation of the use to which the rooms will be put and window and door locations;

e. Submit a photograph of the front and side elevation of the intermediate care facility for the intellectually disabled;

f. Submit the statutory fee for an intermediate care facility for the intellectually disabled;

g. Comply with federal, state, and local laws, codes, and regulations pertaining to health and safety, including procurement, dispensing, administration, safeguarding and disposal of medications and controlled substances; building, construction, maintenance and equipment standards; sanitation; communicable and reportable diseases; and postmortem procedures;

h. Have a certificate signed by the state fire marshal or deputy state fire marshal as to compliance with fire safety rules and regulations.

64.3(3) Renewal application. In order to obtain a renewal of the intermediate care facility for the intellectually disabled license, the applicant must:

a. Submit the completed application form 30 days prior to annual license renewal date of intermediate care facility for the intellectually disabled license;

b. Submit the statutory license fee for an intermediate care facility for the intellectually disabled with the application for renewal;

c. Have an approved current certificate signed by the state fire marshal or deputy state fire marshal as to compliance with fire safety rules and regulations;

d. Submit appropriate changes in the résumé to reflect any changes in the resident care program or other services.

64.3(4) Licenses are issued to the person or governmental unit which has responsibility for the operation of the facility and authority to comply with all applicable statutes, rules or regulations.

The person or governmental unit must be the owner of the facility or, if the facility is leased, the lessee.

[**ARC 0764C**, IAB 5/29/13, effective 7/3/13]

[*] Nullified by 1989 Iowa Acts, SJR 10

481—64.4(135C) General requirements.

64.4(1) The license shall be displayed in a conspicuous place in the facility which is viewed by the public. (III)

64.4(2) The license shall be valid only in the possession of the licensee to whom it is issued.

64.4(3) The posted license shall accurately reflect the current status of the intermediate care facility for the intellectually disabled. (III)

64.4(4) Licenses expire one year after the date of issuance or as indicated on the license.

64.4(5) Each citation or a copy of each citation issued by the department for a Class I or Class II violation shall be prominently posted by the facility in plain view of the residents, visitors, and persons inquiring about placement in the facility. The citation or copy of the citation shall remain posted until the violation is corrected to the satisfaction of the department. (III)

64.4(6) The facility shall have in effect a transfer agreement with one or more hospitals sufficiently close to the facility to make feasible the transfer between them of residents and their records. (III) Any facility which does not have such an agreement in effect but has attempted in good faith to enter into such an agreement with a hospital shall be considered to have such an agreement so long as it is in the public interest and essential to ensuring intermediate care facility for the intellectually disabled services for eligible persons in the community.

64.4(7) A resident's personal funds and property shall not be used without the written consent of the resident or the resident's guardian. (II)

64.4(8) A resident's personal funds and property shall be returned to the resident when the funds or property have been used without the written consent of the resident or the resident's guardian. The department may report findings that funds or property have been used without written consent to the audits division or the local law enforcement agency, as appropriate. (II)

64.4(9) A properly trained person shall be charged with the responsibility of administering non-parenteral medications.

a. The individual shall have knowledge of the purpose of the drugs, their dangers, and contraindications.

b. This person shall be a licensed nurse or physician or shall have successfully completed a department-approved medication aide course or passed a department-approved medication aide challenge examination administered by an area community college.

c. A person who is a nursing student or a graduate nurse may take the challenge examination in place of taking a medication aide course. This individual shall do all of the following before taking the medication aide challenge examination:

(1) Complete a clinical or nursing theory course within six months before taking the challenge examination;

(2) Successfully complete a nursing program pharmacology course within one year before taking the challenge examination;

(3) Provide to the community college a written statement from the nursing program's pharmacology or clinical instructor indicating the individual is competent in medication administration.

(4) Successfully complete a department-approved nurse aide competency evaluation.

d. A person who has written documentation of certification as a medication aide in another state may become a medication aide in Iowa by successfully completing a department-approved nurse aide competency examination and a medication aide challenge examination.

[**ARC 0764C**, IAB 5/29/13, effective 7/3/13]

481—64.5(135C) Notifications required by the department. The department shall be notified:

64.5(1) Within 48 hours, by letter, any reduction or loss of direct care professional or dietary staff lasting more than seven days which places the staffing ratio of the intermediate care facility for the intellectually disabled below that required by 42 CFR 483.430(d)(3). No additional residents shall be admitted until the minimum staffing requirements are achieved; (III)

64.5(2) Of any proposed change in the intermediate care facility for the intellectually disabled's functional operation or addition or deletion of required services; (III)

64.5(3) Thirty days before addition, alteration, or new construction is begun in the intermediate care facility for the intellectually disabled, or on the premises; (III)

64.5(4) Thirty days in advance of closure of the intermediate care facility for the intellectually disabled; (III)

64.5(5) Within two weeks of any change in administrator; (III)

64.5(6) When any change in the category of license is sought; (III)

64.5(7) Prior to the purchase, transfer, assignment, or lease of an intermediate care facility for the intellectually disabled, the licensee shall:

a. Inform the department of the pending sale, transfer, assignment, or lease of the facility; and (III)

b. Inform the department of the name and address of the prospective purchaser, transferee, assignee, or lessee at least 30 days before the sale, transfer, assignment, or lease is completed. (III)

[**ARC 0764C**, IAB 5/29/13, effective 7/3/13; **ARC 6972C**, IAB 4/5/23, effective 5/10/23]

481—64.6(135C) Veteran eligibility.

64.6(1) Within 30 days of a resident's admission to a health care facility receiving reimbursement through the medical assistance program under Iowa Code chapter 249A, the facility shall ask the resident or the resident's personal representative whether the resident is a veteran and shall document the response. If the facility determines that the resident is a potential veteran, the facility shall report the resident's name along with the names of the resident's spouse and any dependent children, as well as the name of the contact person for this information, to the Iowa department of veterans affairs. Where appropriate, the facility may also report such information to the Iowa department of human services.

64.6(2) If a resident is eligible for benefits through the United States Department of Veterans Affairs or other third-party payor, the facility first shall seek reimbursement from the identified payor source before seeking reimbursement from the medical assistance program established under Iowa Code chapter 249A.

64.6(3) The provisions of this rule shall not apply to the admission of an individual as a resident to a state mental health institute for acute psychiatric care. (II, III)

481—64.7(135C) Licenses for distinct parts.

64.7(1) Separate licenses may be issued for distinct parts of a health care facility which are clearly identifiable, containing contiguous rooms in a separate wing or building or on a separate floor of the facility and which provide care and services of separate categories.

64.7(2) The following requirements shall be met for a separate licensing of a distinct part:

a. The distinct part shall serve only residents who require the category of care and services immediately available to them within that part; (III)

b. The distinct part shall meet all the standards, rules, and regulations pertaining to the category for which a license is being sought;

c. The distinct part must be operationally and financially feasible;

d. A separate staff with qualifications appropriate to the care and services being rendered must be regularly assigned and working in the distinct part under responsible management; (III)

e. Separately licensed distinct parts may have certain services such as management, building maintenance, laundry, and dietary in common with each other.

481—64.8 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.9 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.10 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.11 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.12 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.13 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.14 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.15 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.16 Rescinded IAB 7/26/89, effective 7/7/89.

481—64.17(135C) Contracts. Each party shall receive a copy of the signed contract. (III) Each contract for residents shall:

64.17(1) State the rate or scale per day or per month for services included in the rate or scale and method of payment; (III)

64.17(2) Contain a complete schedule of all offered services for which a fee may be charged in addition to the base rate. (III) Furthermore, the contract shall:

a. Stipulate that no further additional fees shall be charged for items not contained in complete schedule of services as set forth in this subrule; (III)

b. State the method of payment of additional charges; (III)

c. Contain an explanation of the method of assessment of such additional charges and an explanation of the method of periodic reassessment, if any, resulting in changing such additional charges; (III)

d. State that additional fees may be charged to the resident for nonprescription drugs, other personal supplies, and services by a barber, beautician, etc.; (III)

64.17(3) Contain an itemized list of those services, with the specific fee the resident will be charged and method of payment, as related to the resident's current condition, based on a preadmission evaluation assessment which is determined in consultation with the administrator; (III)

64.17(4) Include the total fee per day to be charged to the resident; (III)

64.17(5) State the conditions whereby the facility may make adjustments to its overall fees for resident care as a result of changing costs. (III) Furthermore, the contract shall provide that the facility shall give:

a. Written notification to the resident, or responsible party when appropriate, of changes in the overall rates of both base and additional charges, at least 30 days prior to effective date of such changes; (III)

b. Notification to the resident, or responsible party when appropriate, of changes in charges, based on a change in the resident's condition. Notification must occur prior to the date such revised charges begin. If notification is given orally, subsequent written notification must also be given within a reasonable time, not to exceed one week, listing specifically the adjustments made; (III)

64.17(6) State the terms of agreement in regard to refund of all advance payments in the event of transfer, death, voluntary or involuntary discharge; (III)

64.17(7) State the terms of agreement concerning the holding and charging for a bed in the event of temporary absence of the resident; such terms shall include, at a minimum, the following provisions:

a. If a resident has a temporary absence from a facility for medical treatment, the facility shall ask the resident or responsible party if they wish the bed held open. This shall be documented in the resident's record including the response. Upon request of the resident/responsible party, the facility shall hold the bed open for at least ten days during the resident's absence and the facility shall receive payment for the absent period in accordance with provisions of the contract. (II)

b. If a resident has a temporary absence from a facility for therapeutic reasons as approved by a physician or qualified intellectual disabilities professional, the facility shall ask if the resident or responsible party wishes that the bed be held open. This request shall be documented in the resident's record, including the response. The bed shall be held open at least 30 days per year, and the facility shall receive payment for the absent periods in accordance with the provisions of the contract. The required holding during temporary absences for therapeutic reasons is limited to 30 days per year. (II)

c. For Title XIX residents, the department of health and human services shall continue funding for the temporary absence as provided under paragraphs *"a"* and *"b"* and in accordance with department of health and human services guidelines.

d. Private pay residents shall have a negotiated rate stated in the signed contract relating to these provisions. (II)

64.17(8) State the conditions under which the involuntary discharge or transfer of a resident would be effected; (III)

64.17(9) State the conditions of voluntary discharge or transfer; (III)

64.17(10) Set forth any other matters deemed appropriate by the parties to the contract. No contract or any provision thereof shall be drawn or construed so as to relieve any facility of any requirement or obligation imposed upon it by this chapter or any standards or rules in force pursuant to this chapter. (III)

[**ARC 0764C**, IAB 5/29/13, effective 7/3/13; **ARC 6972C**, IAB 4/5/23, effective 5/10/23]

481—64.18(135C) Records.

64.18(1) *Resident record.* The licensee shall keep a permanent record about each resident, with all entries current, dated, and signed. (II) The record shall include:

a. Name and previous address of resident; (III)

b. Birth date, sex, and marital status of resident; (III)

c. Church affiliation of resident; (III)

d. Physician's name, telephone number, and address; (III)

e. Dentist's name, telephone number, and address; (III)

f. Name, address, and telephone number of resident's next of kin or legal representative; (III)

g. Name, address, and telephone number of the person to be notified in case of emergency; (III)

h. Funeral director's telephone number and address; (III)

i. Pharmacy's name, telephone number and address; (III)

j. Certification by the physician that the resident requires no higher level of care than the facility is licensed to provide; (III)

k. Physician's orders for medication and treatments in writing, which shall be signed by the physician quarterly, and diet orders, which shall be renewed yearly; (III)

l. A notation of the resident's yearly or other visits to physician or other professionals and all consultation reports and progress notes; (III)

m. Documentation describing any change in the resident's condition; (II, III)

n. A notation describing the resident's condition on admission, transfer, and discharge; (III)

o. In the event of a resident's death, notations in the resident's record shall include the date and time of the resident's death, the circumstances of the resident's death, the disposition of the resident's body, and the date and time that the resident's family and physician were notified of the resident's death; (III)

p. A copy of instructions given to the resident, the resident's legal representative, or receiving facility in the event of the resident's discharge or transfer; (III) and

q. Disposition of personal property. (III)

64.18(2) *Confidentiality of resident records.* The facility shall have policies and procedures providing that each resident shall be ensured confidential treatment of all information, including information contained in an automated data bank. The resident's or the resident's legal guardian's written informed consent shall be required for the release of information to persons not otherwise authorized under law to receive it. (II)

A release of information form shall be used which includes to whom the information shall be released, the reason for the release of the information, how the information is to be used, and the period of time for which the release is in effect. A third party not requesting the release shall witness the signing of the release of information form. (II)

a. The facility shall limit access to any resident records to staff and consultants providing professional service to the resident. Information shall be made available to staff only to the extent that the information is relevant to the staff person's responsibilities and duties. (II)

Only those personnel concerned with financial affairs of the residents may have access to the financial information. This paragraph is not meant to preclude access by representatives of state or federal regulatory agencies. (II)

b. The resident, or the resident's legal guardian, shall be entitled to examine all information and shall have the right to secure full copies of the record at reasonable cost upon request. (II)

64.18(3) *Incident records.* Each facility shall maintain an incident record report and shall have available incident report forms. (II, III)

a. The report of every incident shall be in detail on a printed incident report form. (II, III)

b. The person in charge at the time of the incident shall oversee the preparation of the report and sign the report. (III)

c. The facility shall maintain a copy of the incident report as part of the facility's administrative records and shall make the record available for review. (III)

64.18(4) *Retention of records.* A resident's records shall be retained in the facility for five years following termination of services to the resident even when there is a change of ownership of the facility. (III)

When the facility ceases to operate, the resident's records shall be released to the receiving facility. If no transfer occurs, the records shall be released to the resident's physician. (III)

[**ARC 6972C**, IAB 4/5/23, effective 5/10/23]

481—64.19 to **64.32** Reserved.

481—64.33(135C) Allegations of dependent adult abuse.

64.33(1) *Allegations of dependent adult abuse.* Allegations of dependent adult abuse shall be reported and investigated pursuant to Iowa Code chapter 235E and 481—Chapter 52. (I, II, III)

64.33(2) *Separation of accused abuser and victim.* Upon a claim of dependent adult abuse of a resident being reported, the administrator of the facility shall separate the victim and accused abuser immediately and maintain the separation until the department's abuse investigation is completed and an abuse determination is made. (I, II)

[**ARC 1204C**, IAB 12/11/13, effective 1/15/14]

481—64.34(135C) Employee criminal record checks, child abuse checks and dependent adult abuse checks and employment of individuals who have committed a crime or have a founded abuse. The facility shall comply with the requirements found in Iowa Code section 135C.33 and rule 481—50.9(135C) related to completion of criminal record checks, child abuse checks, and dependent adult abuse checks and to employment of individuals who have committed a crime or have a founded abuse. (I, II, III)

[**ARC 0903C**, IAB 8/7/13, effective 9/11/13; **ARC 6972C**, IAB 4/5/23, effective 5/10/23]

481—64.35(135C) Care review committee. Rescinded **ARC 1205C**, IAB 12/11/13, effective 1/15/14.

481—64.36(135C) Involuntary discharge or transfer.

64.36(1) *Involuntary discharge or transfer permitted.* A facility may involuntarily discharge or transfer a resident for only one of the following reasons:

a. Medical reasons;

b. The resident's welfare or that of other residents;

c. Nonpayment for the resident's stay, as described in the contract for the resident's stay;

d. Due to action pursuant to Iowa Code chapter 229;

e. By reason of negative action by the Iowa department of human services; or

f. By reason of negative action by the quality improvement organization (QIO). (I, II, III)

64.36(2) *Medical reasons.* Medical reasons for transfer or discharge shall be based on the resident's needs and shall be determined and documented in the resident's record by the primary care provider. Transfer or discharge may be required in order to provide a different level of care to the resident. (II)

64.36(3) *Welfare of a resident.* Welfare of a resident or that of other residents refers to a resident's social, emotional, or physical well-being. A resident may be transferred or discharged because the resident's behavior poses a continuing threat to the resident (e.g., suicidal) or to the well-being of other residents or staff (e.g., the resident's behavior is incompatible with other residents' needs and rights). Written documentation that the resident's continued presence in the facility would adversely affect the resident's own welfare or that of other residents shall be made by the administrator or designee and shall include specific information to support this determination. (II)

64.36(4) *Involuntary discharge or transfer prohibited—payment source.* A resident shall not be transferred or discharged solely because the cost of the resident's care is being paid under Iowa Code chapter 249A or because the resident's source of payment is changing from private support to payment under Iowa Code chapter 249A. (I, II)

64.36(5) *Notice.* Involuntary transfer or discharge of a resident from a facility shall be preceded by a written notice to the resident and the responsible party. (II, III)

a. The notice shall contain all of the following information:

(1) The stated reason for the proposed transfer or discharge. (II)

(2) The effective date of the proposed transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads as follows: (II)

> You have a right to appeal the facility's decision to transfer or discharge you. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as

"department") within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department's receipt of your request and you will not be transferred before a final decision is rendered. Extension of the 14-day requirement may be permitted in emergency circumstances upon request to the department's designee. If you lose the hearing, you will not be transferred before the expiration of either (1) 30 days following your receipt of the original notice of the discharge or transfer, or (2) no sooner than 5 days following final decision of such hearing, including the exhaustion of all appeals, whichever occurs later. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

b. The notice shall be personally delivered to the resident, and a copy shall be placed in the resident's record. A copy shall also be transmitted to the department, the resident's responsible party, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent.

c. The notice required by paragraph 64.36(5)*"a"* shall be provided at least 30 days in advance of the proposed transfer or discharge unless one of the following occurs:

(1) An emergency transfer or discharge is mandated by the resident's health care needs and is in accordance with the written orders and medical justification of the primary care provider. Emergency transfers or discharges may also be mandated in order to protect the health, safety, or well-being of other residents and staff from the resident being transferred. (II)

(2) The transfer or discharge is subsequently agreed to by the resident or the resident's responsible party, and notification is given to the responsible party, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility.

(3) The discharge or transfer is the result of a final, nonappealable decision by the department of human services or the QIO.

d. A hearing requested pursuant to this subrule shall be held in accordance with subrule 64.36(7).

64.36(6) *Emergency transfer or discharge.* In the case of an emergency transfer or discharge, the resident must be given a written notice prior to or within 48 hours following the transfer or discharge. (II, III)

a. A copy of this notice shall be placed in the resident's file. The notice shall contain all of the following information:

(1) The stated reason for the transfer or discharge. (II)

(2) The effective date of the transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads as follows: (II)

You have a right to appeal the facility's decision to transfer or discharge you on an emergency basis. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as "department") within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department's receipt of your request. You may be transferred or discharged before the hearing is held or before a final decision is rendered. If you win the hearing, you have the right to be transferred back into the facility. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083.

b. The notice shall be personally delivered to the resident, and a copy shall be placed in the resident's record. A copy shall also be transmitted to the department, the resident's responsible party, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent.

c. A hearing requested pursuant to this subrule shall be held in accordance with subrule 64.36(7).

64.36(7) *Hearing.*

a. Request for hearing.

(1) The resident must request a hearing within 7 days of receipt of written notice.

(2) The request must be made to the department, either in writing or verbally.

b. The hearing shall be held no later than 14 days after the department's receipt of the request unless either party requests an extension due to emergency circumstances.

c. Except in the case of an emergency discharge or transfer, a request for a hearing shall stay a transfer or discharge pending a final decision, including the exhaustion of all appeals. (II)

d. The hearing shall be heard by a department of inspections and appeals administrative law judge pursuant to Iowa Code chapter 17A and 7—Chapter 2506. The hearing shall be public unless the resident or representative requests in writing that the hearing be closed. In a determination as to whether a transfer or discharge is authorized, the burden of proof by a preponderance of the evidence rests on the party requesting the transfer or discharge.

e. Notice of the date, time, and place of the hearing shall be sent by certified mail or delivered in person to the facility, the resident, and the responsible party not later than five full business days after the department's receipt of the request. The notice shall also inform the facility and the resident or the responsible party that they have a right to appear at the hearing in person or be represented by an attorney or other individual. The appeal shall be dismissed if neither party is present or represented at the hearing. If only one party appears or is represented, the hearing shall proceed with one party present.

f. The administrative law judge's written decision shall be sent by certified mail to the facility, resident, and responsible party within 10 working days after the hearing has been concluded.

g. If the basis for an involuntary transfer or discharge is the result of a negative action by the Iowa department of human services or the QIO, an appeal shall be filed with those entities as appropriate. Continued payment shall be consistent with rules of those entities.

64.36(8) *Nonpayment.* If nonpayment is the basis for involuntary transfer or discharge, the resident shall have the right to make full payment up to the date that the discharge or transfer is to be made and then shall have the right to remain in the facility. (II)

64.36(9) *Discussion of involuntary transfer or discharge.* Within 48 hours after notice of involuntary transfer or discharge has been received by the resident, the facility shall discuss the involuntary transfer or discharge with the resident, the resident's responsible party, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. (II)

a. The facility administrator or other appropriate facility representative serving as the administrator's designee shall provide an explanation and discussion of the reasons for the resident's involuntary transfer or discharge. (II)

b. The content of the explanation and discussion shall be summarized in writing, shall include the names of the individuals involved in the discussion, and shall be made part of the resident's record. (II)

c. The provisions of this subrule do not apply if the involuntary transfer or discharge has already occurred pursuant to subrule 64.36(6) and emergency notice is provided within 48 hours.

64.36(10) *Transfer or discharge planning.*

a. The facility shall develop a plan to provide for the orderly and safe transfer or discharge of each resident to be transferred or discharged. (II)

b. To minimize the possible adverse effects of the involuntary transfer, the resident shall receive counseling services by the sending facility before the involuntary transfer and by the receiving facility after the involuntary transfer. Counseling shall be documented in the resident's record. (II)

c. The counseling requirement in paragraph 64.36(10)*"b"* does not apply if the discharge has already occurred pursuant to subrule 64.36(6) and emergency notice is provided within 48 hours.

d. Counseling, if required, shall be provided by a licensed mental health professional as defined in Iowa Code section 228.1(6). (II)

e. The health care facility that receives a resident who has been involuntarily transferred shall immediately formulate and implement a plan of care which takes into account possible adverse effects the transfer may cause. (II)

64.36(11) *Transfer upon revocation of license or voluntary closure.* Residents shall not have the right to a hearing to contest an involuntary discharge or transfer resulting from the revocation of the facility's license by the department of inspections and appeals. In the case of the voluntary closure of a facility, a period of 30 days must be allowed for an orderly transfer of residents to other facilities.

64.36(12) *Intrafacility transfer.*

a. Residents shall not be arbitrarily relocated from room to room within a licensed health care facility. (I, II) Involuntary relocation may occur only in the following situations, which shall be documented in the resident's record: (II)

(1) A resident's incompatibility with or disturbance to other roommates.

(2) For the welfare of the resident or other residents of the facility.

(3) For medical, nursing or psychosocial reasons, as judged by the primary care provider, nurse or social worker in the case of a facility which groups residents by medical, nursing or psychosocial needs.

(4) To allow a new admission to the facility that would otherwise not be possible due to separation of roommates by sex.

(5) In the case of a resident whose source of payment was previously private, but who now is eligible for Title XIX (Medicaid) assistance, the resident may be transferred from a private room to a semiprivate room or from one semiprivate room to another.

(6) Reasonable and necessary administrative decisions regarding the use and functioning of the building.

b. Unreasonable and unjustified reasons for changing a resident's room without the concurrence of the resident or responsible party include:

(1) Change from private pay status to Title XIX, except as outlined in subparagraph 64.36(12)*"a"*(5). (II)

(2) As punishment or behavior modification, except as specified in subparagraph 64.36(12)*"a"*(1). (II)

(3) Discrimination on the basis of race or religion. (II)

c. If intrafacility relocation is necessary for reasons outlined in paragraph 64.36(12)*"a,"* the resident shall be notified at least 48 hours prior to the transfer and the reason therefor shall be explained. The responsible party shall be notified as soon as possible. The notification shall be documented in the resident's record and signed by the resident or responsible party. (II)

d. If emergency relocation is required in order to protect the safety or health of the resident or other residents, the notification requirements may be waived. The conditions of the emergency shall be documented. The family or responsible party shall be notified immediately or as soon as possible of the condition that necessitates emergency relocation, and such notification shall be documented. (II)

e. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility and not as an intrafacility transfer. (II, III)

481—64.59(135C) County care facilities. Rescinded **ARC 0764C**, IAB 5/29/13, effective 7/3/13.

481—64.60(135C) Federal regulations adopted—conditions of participation. Regulations in 42 CFR Part 483, Subpart I, Sections 410 to 480, are adopted by reference and incorporated as part of these rules. A copy of these regulations is available on request from the Health Facilities Division, Department of Inspections, Appeals, and Licensing, 6200 Park Avenue, Suite 100, Des Moines, Iowa 50321.

The classifications for violations are I, II, and III, determined by the division using the provisions in 481—Chapter 56, "Fining and Citations," to enforce a fine to cite a facility.

NOTE: The federal interpretive guidelines are printed immediately following 481—Chapter 64.

This rule is intended to implement Iowa Code section 135C.2(3).

[**ARC 6972C**, IAB 4/5/23, effective 5/10/23; Editorial change: IAC Supplement 8/5/26]

481—64.61(135C) Federal regulations adopted—rights. Rescinded **ARC 6972C**, IAB 4/5/23, effective 5/10/23.

481—64.62(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the same physical structure of the facility, if the other business or activity is under the control of and is directly related to and incidental to the operation of the health care facility, or the business or activity is approved by the department and the state fire marshal.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs *"a"* through *"j"* of this rule. (I, II, III)

64.62(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

a. Health and safety risks for residents;

b. Compatibility of the proposed business or activity with the facility program;

c. Noise created by the proposed business or activity;

d. Odors created by the proposed business or activity;

e. Use of entrances and exits for the business or activity in regard to safety and disturbance of residents and interference with delivery of services;

f. Use of the facility's corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;

g. Proposed staffing for the business or activity;

h. Sharing of services and staff between the proposed business or activity and the facility;

i. Facility layout and design; and

j. Parking area utilized by the business or activity.

64.62(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

64.62(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules. (I, II, III)

481—64.63(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A facility which chooses to provide respite care services must meet the following requirements related to respite care services and must be licensed as a health care facility.

64.63(1) A facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

64.63(2) Rules regarding involuntary discharge or transfer rights do not apply to residents who are being cared for under a respite care contract.

64.63(3) The facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements for contracts between a health care facility and resident, except the requirements concerning the holding and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons.

64.63(4) Respite care services shall not be provided by a facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

These rules are intended to implement Iowa Code sections 10A.702, 135C.2(3), 135C.14, and 235E.2.

Interpretive Guidelines**

§440.150 Intermediate Care Facility Services, Other Than in Institutions for Mental Diseases

W101

W101 is reassigned to §483.410(e). Section 442.251, the standard which requires that facilities meet the requirement for a State license, is redesignated to §483.410(e) and W101 is reassigned as well to afford a sense of continuity.

W102

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410 Condition of participation: Governing body and management (a) Standard: Governing body

W103

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(a) The facility must identify an individual or individuals to constitute the governing body of the facility.

Guidance §483.410(a)

If concerns are noted regarding the governing body, written documentation verifies that the facility has designated the individual or individuals to constitute the governing body and their titles.

W104

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(a)(1) The governing body must exercise general policy, budget, and operating direction over the facility.

Guidance §483.410(a)(1)

The governing body develops, monitors, and revises, as necessary, policies and operating directions which ensure the necessary staffing, training resources, equipment and environment to provide clients with active treatment and to provide for their health and safety.

Direction by the Governing Body includes areas such as health, safety, sanitation, maintenance and repair, and utilization and management of staff.

Condition level operational deficiencies may be associated with a failure by the Governing Body to exercise general direction of the facility.

W105

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(a)(2) The governing body must set the qualifications (in addition to those already set by State law, if any) for the administrator of the facility.

Guidance §483.410(a)(2)

The policies of the facility must include the qualifications of the administrator, and the qualifications are stated in the job description of the administrator.

W106

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(a)(3) The governing body must appoint the administrator of the facility.

Guidance §483.410(a)(3)

This appointment must be in writing.

**Editor's Note: Verbatim from federal regulations. Neither the Department nor the Iowa Administrative Code editors have changed the content of the guidelines.

(b) Standard: Compliance with Federal, State and local laws

§483.410(b) The facility must be in compliance with all applicable provisions of Federal, State and local laws, regulations and codes pertaining to:

Guidance §483.410(b)

The facility has no final adverse action by a Federal, State, or local authority. Such adverse actions include, but are not limited to fines, limitation on services that may be provided, or loss of licensure.

The facility must be able to provide for review, current licenses and permits as well as applicable reports of inspections by State or local health authorities.

If a situation is identified indicating the provider may not be in compliance with Federal, State, or local law, refer that information to the authority having jurisdiction (AHJ) for follow-up actions. See W107, W108, or W109.

W107

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(b) health,

Guidance §483.410(b)

Reference the specific law, regulation, or code not met.

W108

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(b) safety, and

Guidance §483.410(b)

Reference the specific law, regulation, or code not met.

(c) Standard: Client Records

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

W110

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(1) The facility must develop and maintain a record keeping system that includes a separate record for each client and;

W111

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(1) that documents the client's health care, active treatment, social information, and protection of the client's rights.

Guidance §483.410(c)(1)

The structure and content of a client's record must be an accurate, functional representation of the actual experience of the client in the facility.

The record should contain an accurate account of all information relevant to the client's health care, active treatment, social information and protection of the client's rights, such as communications, correspondence, program plans (to include both in-house and outside service programs), progress summaries, activity plans and activity participation, incidents, consent forms and all medical information.

If the records are maintained electronically, the facility staff should be able to access various parts of the record without difficulty. If they are unable to access components of the record upon request, then this may indicate a lack of training by the facility.

W112

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(2) The facility must keep confidential all information contained in the clients' records, regardless of the form or storage method of the records.

Guidance §483.410(c)(2)

"Keep confidential" means safeguarding the content of information including video, audio, and/or computer stored information from unauthorized disclosure without the specific informed consent of the client, parent of a minor child, or legal guardian, and consistent with the advocate's right of access. Facility staff and consultants, hired to provide services to the client, sign confidentiality agreements before having access to client records and should have access to only that portion of information that is necessary to provide effective responsive services to the client.

These agreements should be renewed according to the policies of the facility. The agreement may stipulate that the agreements are in place until either the facility or member terminates the agreement.

The facility has in place safeguards to ensure that access to all information regarding clients is limited to those clients designated by Health Insurance Portability and Accountability Act (HIPAA) requirements, the Developmental Disabilities Act, State law and facility policy.

The facility should prevent any instances of unauthorized access or dissemination. For example, the staff is observed to leave the client record (hard copy or electronic version) in the living room of the house when visitors or persons not authorized to access client records are present. Client records must be secured when staff is not present.

The facility must develop and follow procedures for maintaining the confidentiality of client information during transport to medical appointments or to other locations outside the facility.

Confidentiality applies to both central records and information kept at dispersed locations. If there is information considered too confidential to place in the record used by all staff (e.g., identification of the family's financial assets, sensitive medical data), it may be retained in a companion record located in a secure location in the facility with a notation made in the primary record as to the location of confidential information. The facility must ensure that any client information provided to day services programs is maintained confidential.

The sharing of client specific information with members of the "specially constituted committee" required by §483.440(f)(3), who are not affiliated with the agency, does not violate a client's right to have information about him or her kept confidential. The committee must have relevant information to function properly.

Facility confidentiality safeguards include the development and implementation of written policies to assure that members of the specially constituted team maintain confidentiality. Such processes may include signed confidentiality agreements. These agreements should be renewed according to the policies of the facility. The agreement may stipulate that the agreements are in place until either the facility or member terminates the agreement.

W113

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(3) The facility must develop and implement policies and procedures governing the release of any client information, including consents necessary from the client, or parents (if the client is a minor) or legal guardian.

Guidance §483.410(c)(3)

The facility develops and follows written policies governing the release of client information.

Release of any personally identifiable information does not occur unless consent(s) is obtained prior to the release.

These policies must address at a minimum who must give consent for the release of information from records. The policy and procedures should account for other situations involving the release of client information, such as:

- who should be notified when records have been released;
- procedures to be followed with subpoenas;
- time frames for providing requested information; and
- information regarding a client's HIV status may not be released without specific consent and may not be in the record if that consent has not been given.

W114

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(4) Any individual who makes an entry in a client's record must make it legibly, date it, and sign it.

Guidance §483.410(c)(4)

Illegible writing in hard copy records can contribute to communication deficits among staff. Illegible writing which cannot be easily interpreted by facility staff upon surveyor request may constitute a safety issue.

Electronic signatures are acceptable in the electronic record system.

W115

§483.410(c)(5) The facility must provide a legend to explain any symbol or abbreviation used in a client's record.

W116

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(c)(6) The facility must provide each identified residential living unit with appropriate aspects of each client's record.

Guidance §483.410(c)(6)

"Appropriate" means those parts of each client's record are most likely (or known) to be needed by the residential staff to carry out the client's active treatment program in the unit; to alert staff to health risks and other aspects of medical treatment; to support the psychosocial needs of the client; to contact family or emergency contacts, and to provide anything else necessary to the staff's ability to work on behalf of the client.

The staff of the residential living unit has, and can access, all information which is relevant to implementing client program plans, appropriate care of, interaction with, and provision of services for the client.

(d) Standard: Services provided under agreements with outside sources

W117

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(1) If a service required under this subpart is not provided directly, the facility must have a written agreement with an outside program, resource, or service to furnish the necessary service, including emergency and other health care.

Guidance §483.410(d)(1)

If a service is not provided directly, there must be a written agreement for such services.

Written agreements are required for emergency services such as dentists and pharmacies. For those services that require a visit to a hospital, the Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) typically utilizes services from an emergency department of the hospital, thus no written contract is required.

Federal statute (P.L. 94-142) requires all school-aged children to receive a free and appropriate school education. Therefore, a written agreement between ICF/IIDs and public schools is not necessary.

W118

(d)(2)(i) Contain the responsibilities, functions, objectives, and other terms agreed to by both parties; and

W119

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(2)(ii) Provide that the facility is responsible for assuring that the outside services meet the standards for quality of services contained in this subpart.

W120

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(3) The facility must assure that outside services meet the needs of each client.

Guidance §483.410(d)(3)

Outside services are any services needed by the clients and not provided directly by the facility (hospital visits, dental visits, day program services, etc.).

Programs and services must be coordinated between the facility and the outside service, and foster consistency of implementation across settings of teaching strategies and behavior management.

The facility monitors outside services on an ongoing basis to ensure that services provided are consistent with the needs of each client as identified in the Individual Program Plan (IPP). For example, if the facility is implementing a behavior management or a communication program for the client, it is shared with the outside program and implemented by the outside program (workshop, day program, etc.) and the outside program agrees to incorporate it into their day program. At periodic intervals, the facility staff visit or communicate with the outside program to verify consistency across the two settings.

With outside resources, it is the responsibility of the facility to assure that the services are provided in a safe clean environment, by appropriately qualified professions, and any untoward outcome of services are promptly addressed. If, in spite of attempts by the facility to assure compliance, the outside program does not implement the program for the client, then the facility remains responsible for the lack of active treatment.

W121

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(d)(4) If living quarters are not provided in a facility owned by the ICF/IID, the ICF/IID remains directly responsible for the standards relating to physical environment that are specified in §483.470(a) through (g), (j) and (k).

Guidance §483.410(d)(4)

Even though the facility's premises may be rented from a landlord, the facility must ensure that the requirements for physical environment are met, either through arrangement with the landlord or through the facility's own services.

(e) Standard: Licensure

§483.420(a) Standard: Protection of Clients' Rights

The facility must ensure the rights of all clients. Therefore, the facility must

Guidelines §483.420(a)

"Ensure" means that the facility actively asserts the individual's rights and does not wait for him or her to claim a right. This obligation exists even when the individual is less than fully competent and requires that the facility is actively engaged in activities which result in the pro-active assertion of the individual's rights, e.g., guardianship, advocacy, training programs, use of specially constituted committee, etc.

§483.410(e) Standard: Licensure

W101

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.410(e) The facility must be licensed under applicable State and local law.

Guidance §483.410(e)

The facility has a current, valid State license when required under State law.

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420 Condition of participation: Client protections

(a) Standard: Protection of clients' rights

§483.420(a) The facility must ensure the rights of all clients. Therefore the facility must

Guidance §483.420(a)

The facility must ensure the client's rights and does not wait for him or her to claim a right. This obligation exists even when the client is less than fully competent and requires that the facility is actively engaged in activities which result in the protection of the client's rights, advocacy for individual clients who have no family or an inactive family, and training programs for clients and staff on the understanding and protection of client rights.

W123

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(1) Inform each client, parent (if the client is a minor), or legal guardian, of the client's rights and the rules of the facility;

Guidance §483.420(a)(1)

The obligation to inform requires that the facility presents information on rights to the client, his or her family or his or her legal guardian in a manner and form which they can understand. In most instances, family means parent. However, in those instances where parents are deceased or choose not to be active in the client's life and there is another family member who does wish to be active, but is not the legal guardian, this family member should be informed of the client's rights. Printed materials should be provided in understandable terms and provided in the language necessary to ensure understanding. Specialized methods, as indicated, should be provided for communication with clients, families or legal guardians with hearing or vision impairment.

Pro-active assertion of client rights includes, but is not limited to:

- Signed evidence that the client, his or her family and/or his or her legal guardian have been informed of the client's rights, and
- Evidence that the communication of these rights were provided at the client's level of comprehension, and in the language understandable to the client.

The obligation to inform also requires that the facility make some determination of whether the client and his or her family, or legal guardian understood the rights presented and made additional efforts to communicate the rights if the rights were not understood.

If the facility has written "rules of the facility", these rules must be communicated to the client, their family and or legal guardians at the time of admission and must not be in conflict with any of the rights listed in 42 CFR 483.420 (a) (1-13).

W124

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(2) Inform each client, parent (if the client is a minor), or legal guardian, of the client's medical condition, developmental and behavioral status, attendant risks of treatment, and of the right to refuse treatment;

Guidance §483.420(a)(2)

Clients, their families or legal guardians are promptly informed of any change in the client's medical or behavioral needs that requires immediate alteration to programmatic or medical intervention. Promptly is defined by the level of severity of the alteration. In each case, they must also be informed of the attendant risks of any recommended treatments or interventions and of their right to refuse treatment, training or services.

If parents or legal guardians wish for other members of the client's family to be informed of such changes, they must put this permission in writing.

The communication of this information must be provided in the manner and language understood by the client or their family or legal guardian (language boards, sign language, etc.).

The term "attendant risks of treatment" describes the risk vs. risk and risk vs. benefit associated with the treatment. These risks include possible side effects, other complications from treatments including medical and drug therapy, unintended consequences of treatment, other behavioral or psychological ramifications arising from treatment, etc.

The facility actively attempts to engage clients who refuse to participate in active treatment. While the regulation recognizes the client's right to refuse treatment, persistent refusal that impacts the health and safety of the client and/or others, or the ability to provide overall active treatment, may result in facility's consideration of alternative placements for the client. It is expected, however, that the facility has assessed the reason for refusal, and developed and implemented all possible interventions to engage the client in active treatment programs prior to referring the client to another therapeutic setting.

A client, his or her family member, or legal guardian who refuses a particular treatment (e.g., a behavior control, seizure control medication or a particular intervention strategy) must be offered information about acceptable alternatives to the treatment, if acceptable alternatives are available. The client's preference about alternatives should be elicited and considered in deciding on the course of treatment. If the client, family member, or legal guardian also refuses the alternative treatment, or if no alternative exists to the treatment refused, the facility must consider the effect this refusal may have on other clients, the client himself or herself, and if they can continue to provide services to the client consistent with these regulations.

If the facility is unable to provide services to a client due to consistent refusal to participate, they must weigh all options including an involuntary discharge. Involuntary discharge must be for good cause (see 483.440(b)(4)(i)).

When a client is considered for participation in experimental research the client, his/her family and/or legal guardian must be fully informed of the nature of the experiment (e.g., what medications or physical interventions will be utilized, the length of the research, any possible side effects and how the information from the research will be utilized). Information regarding the possible consequences of participating or not participating must be provided to the client, family member or legal guardian. The written consent of the client, his/her family or legal guardian must be received prior to participation. For a client who is a minor or who has been adjudicated as incompetent, the written informed consent of the parents of the minor or the legal guardian is required. The signed, informed consent documentation must be in compliance with HHS Guidelines for Research Involving Human Subjects. The signed consent must also include a clear

discussion of what treatments will be included in the research, the time limits for the research and should clearly inform the client, family member or legal guardian that the client may end participation at any time without fear of recrimination. If the research protocol indicates that clients receive compensation, then clients are compensated per the protocol.

Any research must be reviewed and approved by the Specially Constituted Committee. See W263.

W125

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(3) Allow and encourage individual clients to exercise their rights as clients of the facility, and as citizens of the United States, including the right to file complaints, and the right to due process;

Guidance §483.420(a)(3)

To the extent that a client is able, choices are made on his/her own. Each client has autonomy of decision making and choice.

They are free to move about without limitations imposed due to staff preferences or staff convenience.

Clients are not restricted without due cause or due process.

To the extent that the client is able to make decisions for him or herself, it is inappropriate to delegate the person's right to others (e.g. parents, family members, etc.).

The facility has an obligation to assure client health and safety and must balance that obligation with the rights of clients.

If the facility has implemented a restriction, the following should be in place:

- An assessment supporting the need for the restriction;
- An individualized behavior plan to reduce the need for the restriction has been developed and implemented;
- A written informed consent for the behavior plan which includes the restriction;
- Approval of the Specially Constituted Committee; and
- Monitoring by the Committee of the progress of the training program, designed to reduce and eventually eliminate the restriction.

Clients, families, and legal guardians have the right to register a complaint with the facility and the State Survey Agency. If so, the facility must respond promptly and appropriately. The facility must ensure protection of the client from any form of reprisal or intimidation as a result of a complaint or grievance reported by the client, family, or legal guardian.

Issues involving the exercise of constitutional rights such as voting should be addressed as a component of the IPP when the Interdisciplinary Team (IDT) determines a need for training. Clients who have been adjudged to need guardianship or have been assessed as needing assistance to advocate for themselves should receive assistance or support so they may exercise their rights as citizens of the United States.

W126

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(4) Allow individual clients to manage their financial affairs and teach them to do so to the extent of their capabilities;

Guidance §483.420(a)(4)

The regulation is clear that in those cases where a client already possesses the skills necessary to independently manage their own financial affairs, the facility will allow the client to continue to do so. Formal training in financial management must be provided for all other clients in the facility to the extent of their capabilities. The regulation places the responsibility for determining the extent of the client's capabilities in this matter upon an assessment and interdisciplinary process within the facility.

To reach a determination as to whether a money management program is appropriate, the facility IDT uses the comprehensive functional assessment (CFA) to evaluate the ability of each client to participate in such a program. Under 42 C.F.R. 483.440(c)(3), the team evaluation must establish, through documentation, that the IDT considers all of the objective data within the assessment in reaching their determination, especially the identification of client skills which can be used across training programs. Examples of assessment findings that may be considered by the IDT include skills that can be cross- utilized in training programs such as:

1. Fine motor coordination;
2. The ability to make choices;
3. The ability to identify preferences; and
4. Cognitive abilities including tracking, attention span, communication, and the client's ability to understand the cause and effect. (The client understands of cause and effect is significant in the determination.)

Money management includes a broad spectrum of programs with varying levels of participation by the client ranging from the use of choice in money expenditures, to an understanding of the concept of money, and ultimately to actual money handling and budgeting. The IDT must not conclude that a money management program is inappropriate based solely upon the level of intellectual or physical disability of the client.

The CFA must be reviewed at least annually per 42 C.F.R.483.440(f)(2). As a part of this annual review, a client's ability to participate in money management will also be reviewed. The annual review should always include an update to the CFA and take into consideration any changes in the client's circumstances since the last IPP. The need for a formal money management program must be addressed in every client's IPP by the IDT on an annual basis.

The determination of the appropriateness of a formal money management program is made by the IDT and must be based upon a CFA. The IDT discussions resulting in that determination must be established through documentation in the client's IPP.

W127

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(5) Ensure that clients are not subjected to physical, verbal, sexual or psychological abuse or punishment;

Guidance §483.420(a)(5)

Identification of patterns or isolated instances of physical, verbal, sexual or psychological abuse or punishment without prompt identification and corrective action by the facility would result in a non-compliance determination for this Standard and Condition level non-compliance.

The facility must develop and implement systems that protect clients from all forms of abuse, neglect, or mistreatment, including client to client abuse, neglect, or mistreatment.

a. The facility is expected to ensure that staff possess and demonstrate needed competencies to effectively and appropriately interact with clients.

b. The facility must monitor to assure that systems are effectively implemented and the facility takes immediate actions to address circumstances where abuse, neglect, or mistreatment have occurred and prevent reoccurrence.

c. The facility must be organized in such a manner as to proactively assure clients are free from any threat to their physical and psychological health and safety.

d. The facility must act to prevent physical, verbal, sexual or psychological abuse. If the facility fails to implement appropriate corrective action, the potential of additional threats to the clients remain at the facility.

"Threat", for the purposes of this guideline, is considered any condition/situation which could cause or result in severe, temporary or permanent injury or harm to the mental or physical condition of clients, or in their death.

"Abuse", for the purposes of this guideline, is the willful infliction of injury, unreasonable confinement, intimidation or punishment with the resulting physical harm, pain or personal anguish.

Physical abuse refers to any action intended to cause physical harm or pain, trauma or bodily harm (e.g., hitting, slapping, punching, kicking, pinching, etc.). It includes the use of corporal punishment as well as the use of any restrictive, intrusive procedure to control inappropriate behavior for purposes of punishment.

Verbal abuse refers to any use of insulting, demeaning, disrespectful, oral, written or gestured language directed towards and in the presence of the client. Psychological abuse includes, but is not limited to, humiliation, harassment, and threats of punishment or deprivation, sexual coercion and intimidation (e.g. living in fear in one's own home). Since many clients residing in ICF/IIDs are unable to communicate feelings of fear, humiliation, etc. associated with abusive episodes, the assumption is made that any actions that would usually be viewed as psychologically or verbally abusive by a member of the general public, would also be viewed as abusive by the client residing in the ICF/IID, regardless of that client's perceived ability to comprehend the nature of the incident.

Sexual abuse includes any incident where a client is coerced or manipulated to participate in any form of sexual activity for which the client did not give affirmative permission (or gave affirmative permission without the attendant understanding required to give permission) or sexual assault against a client who is unable to defend him/herself.

The facility must implement, through policies, oversight and training, safeguards to ensure that clients are not subjected to abuse by anyone including, but not limited to, facility staff, consultants or volunteers, staff of other agencies serving the client, family members or legal guardians, friends, other clients, or the general public.

The facility must take whatever action is necessary to protect the clients residing there. For example, if a facility is forced by court order or arbitration rulings to retain or reinstate an employee found to be abusive, the facility must take measures to protect the clients of the facility (such as assigning the employee to an area where there is no contact with clients).

W128

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(6) Ensure that clients are free from unnecessary drugs and physical restraints and are provided active treatment to reduce dependency on drugs and physical restraints;

Guidance §483.420(a)(6)

The facility must implement an aggressive active treatment program, which includes appropriate replacement behaviors, to address the reduction/elimination of physical restraints and drugs to manage behaviors.

For purposes of this Guideline drugs to manage behavior are "unnecessary" if there is evidence the drugs are being used:

- In excessive dose (duplicate therapy);
- For excessive duration;
- Not monitored adequately;
- Without adequate indications for its use;
- With adverse consequences which indicate the dose should be reduced or discontinued; or
- Any combination of the reasons listed above.

The long term use of a drug/physical restraint to manage behavior combined with one or more of the following may indicate unnecessary use:

- The client's developmental and/or behavioral needs are not being met and the appropriateness of less restrictive approaches to manage inappropriate behaviors should be questioned;
- Staff behavior may be prompting behaviors in clients which result in the chronic use of physical restraints and drugs to control behavior;
- Staff may have inadequate training and/or experience to provide active treatment and employ preventive measures;

Restraints applied for behaviors when less restrictive measures have not been tried or have been tried and found to be just as effective.

W129

(Rev. 144, Issued: 08-14-15, Effective: 08-14-15, Implementation: 08-14-15)

§483.420(a)(7) Provide each client with the opportunity for personal privacy and

Guidance §483.420(a)(7)

The facility must provide areas within the living area in which the client can have time to be alone, when appropriate, and to have privacy (their conversations cannot be overheard) for personal interactions/ activities. There should be a location where the client can meet privately with family and/or friends and a telephone available where he/she can hold private telephone conversations.

Personal privacy for clients also includes the right to have certain personal information about them kept confidential. Staff should not discuss one client in front of others (clients, parents, legal guardians, visitors, etc.) and should not post personal information about clients in areas where other clients, families and the public can read the information.

Video/audio taping or live feed must not be used in place of or for the convenience of staff. The facility may install video/audio equipment for purposes of observing client/staff interactions. Video/audio equipment may only be installed in common areas (in no case may videotaping or live feed be done in bathrooms or areas where private visits are conducted). The clients, families and/or legal guardians of the clients residing in the areas where videotaping or live feed will occur must give informed consent for the installation and must be assured that no personal privacy will be jeopardized. The use of the equipment must be presented at and approved by the specially constituted committee for the facility prior to the installation of video or audio devices.

Motion sensors should not be considered cameras.

W130

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(7) ensure privacy during treatment and care of personal needs;

Guidance §483.420(a)(7)

Clients must be provided privacy during personal hygiene activities (e.g., toileting, bathing, dressing) and during medical/nursing treatments that require exposure of one's body.

People not involved in the care of the client should not be present without their consent while they are being examined or treated.

Whenever possible, the facility should be sensitive to clients' preferences for same sex care in private situations.

W131

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(8) Ensure that clients are not compelled to perform services for the facility and

Guidance §483.420(a)(8)

Clients are not required or expected to be a source of labor for a facility. The client must not be required or expected to do productive work for the facility, other than appropriate care of one's own personal space or shared responsibilities for common areas.

W132

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(8) ensure that clients who do work for the facility are compensated for their efforts at prevailing wages and commensurate with their abilities;

Guidance §483.420(a)(8)

"Work", as used in the regulation, means any directed activity, or series of related activities which results in a benefit to the economy of the facility or in a contribution to its maintenance, or in the production of a salable product. In deciding whether a particular activity constitutes "work" as defined above, the key determinant is whether the facility would be required to hire additional full or part-time staff (or pay overtime to existing staff) to perform the service the client is asked to perform.

Clients volunteering to do real work that benefits the facility should give informed consent for such practices and understand that by providing employable services they are able to be compensated. This does not preclude a client from helping out a friend or being kind to others. Self-care activities related to the care of one's own person or property are not considered "work" for purposes of compensation.

In general, participation in any household task which promotes greater independent functioning and assists the client to prepare for less restrictive setting (and which the client has not yet learned) is permitted as long as tasks are included in the IPP in written behavioral and measurable terms. This participation must be supervised, and indices of performance should be available. No task may be performed for the convenience of staff (e.g., supervising clients, running personal errands).

"Compensated" means the client is provided with money or other forms of negotiable compensation for work (including work performed in an occupational training program) and such compensation is to be used at the client's discretion.

Prevailing wage refers to the wage paid to non-disabled workers in nearby industry or the surrounding community for essentially the same type, quality and quantity of work or work requiring comparable skills. A client who works in the facility must be paid at least the prevailing minimum wage, unless an appropriate certificate has been obtained by the facility in accordance with current regulations and guidelines issued under the Fair Labor Standards Act, as amended.

Any client performing "work", as defined above, must be compensated in direct proportion to his or her output. The facility should utilize Department of Labor and/or Department of Vocational Rehabilitation formulas and techniques for determining rate of pay. A client's pay is not dependent on the production of other clients when he or she works in a group.

When the client's active treatment program includes assignment to occupational or vocational training or work, specific work objectives of anticipated progress should be included in the IPP along with reasons for the assignments. If the training of clients on particular occupational activities or functions involves "real work" to be accomplished for the facility, the clients must be compensated based on ability. For example, if in the process of work training activities which involve learning to clean a floor, the floor for a particular building is cleaned and does not require further janitorial cleanup, then the client must be compensated for this activity at the prevailing wage.

W133

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(9) Ensure clients the opportunity to communicate, associate and meet privately with individuals of their choice,

Guidance §483.420(a)(9)

Privacy must be provided for both face-to-face interactions and electronic interactions.

The facility must provide opportunities for the client to communicate, through regular mail, telephone and/or electronic mail and meet in private with persons of their choice (e.g., friends from the community, family members, and advocates). There may be instances where legal guardians override the wishes of the client. In these instances, the facility should be actively working with the legal guardian and the client to reach the maximum agreeable level of interaction for the client.

Space must be provided for clients to receive visitors in reasonable comfort and privacy.

W134

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(9) and to send and receive unopened mail;

Guidance §483.420(a)(9)

Clients must be provided the opportunity to send/receive all types of mail unopened and read the contents themselves if able. If the staff has to open and read mail to the client, this should be done in a private place allowing the client as much participation as possible.

Clients who have their own electronic equipment must be provided the opportunity to send, receive, and read electronic mail with privacy.

W135

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(10) Ensure that clients have access to telephones with privacy for incoming and outgoing local and long distance calls except as contraindicated by factors identified within their individual program plans;

Guidance §483.420(a)(10)

Any restriction of telephone access must be explained in the IPP with a plan to advance the client's access. For persons with hearing loss who could benefit, Text Telephone (TTY) services or other accommodations should be provided.

As with any other rights restriction, the restriction must be addressed in the IPP, written informed consent obtained, and the plan must be reviewed and approved by the specially constituted committee.

W136

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(11) Ensure clients the opportunity to participate in social, religious, and community group activities;

Guidance §483.420(a)(11)

Clients should be offered the opportunity to participate in various types of activities in the community (e.g., going to grocery stores, hair salons, restaurants, places of worship, pharmacies, community meetings and events) based on their interests and choices. The facility must make accommodations for physical issues such as hearing impairment and mobility limitations. In addition, clients should be taught the applicable skills to participate in their choice of activities to the fullest extent of their abilities.

It is not acceptable for all client activities to be provided in the facility.

When a client is identified to be on restriction from community integration opportunities, interview clients, families, legal guardians and staff to determine if due process was afforded for this restriction and whether the restriction is included in the IPP.

In the event of a court placement that restricts community access, due process does not apply.

There should be evidence that the facility assists and encourages all clients, regardless of functioning levels, to have input into the decisions on community integration activities.

It is not acceptable to require clients to attend unwanted activities due to staffing considerations.

W137

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(12) Ensure that clients have the right to retain and use appropriate personal possessions and clothing, and

Guidance §483.420(a)(12)

Clients should have personal possessions and clothing which meet their needs, interests and choices.

Clients should have free access to their own possessions and clothing. When considering whether a client has free access to their personal possessions and clothing, ensure that physical limitations have been addressed.

Clients who are unable to access and use personal possessions and clothing appropriately are involved in programs to learn the necessary skills to do so.

In situations where the behavior of one or more clients in a living area prevents free access to personal possessions for each client, the facility must develop IPPs for the client with disruptive behavior. The facility must also ensure that during the implementation of this program plan that none of the other clients have their rights infringed upon. Clients should not be without personal possessions because of the behavior of others with whom they live.

All client possessions, regardless of their apparent value to others are treated with respect for what they may represent to the client. Where those choices include socially stigmatizing materials, the facility should provide learning opportunities to make more socially appropriate choices. The facility should encourage clients to use or display possessions of his or her choice in a culturally normative manner.

If a method for identifying personal effects is used, it should be inconspicuous and in a manner that will assist the client to identify them.

“Appropriate” clothing means a supply of clothing that is sufficient, in good repair, accounts for a variety of occasions and seasons, and appropriate to age, size, gender, and level of activity. Modification or adaptation of clothing fasteners should be considered based on the needs of a client with a physical disability to become more independent.

As appropriate, each client’s active treatment program maximizes opportunities for choice and self-direction with regard to choosing and shopping for clothing which enhances his or her appearance, and selecting daily clothing in accordance with age, sex and cultural norms.

Clients are permitted to keep personal clothing and possessions for their use while in the facility. Determine how the facility both ensures the safety of personal possessions while at the same time providing client access to them when the client chooses.

Clients are provided the opportunity, encouraged, and trained to use age-appropriate materials. The term “age-appropriate” refers to anything that reinforces recognition of the client as a person of a certain chronological age. Clients who choose to keep items traditionally used by children such as dolls or model cars are not an automatic citation. There must be evidence the facility is encouraging the client to use these possessions in a socially appropriate, non-stigmatizing manner. The facility’s environment must be furnished with materials and activities that will enhance opportunities for growth.

W138

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(a)(12) ensure that each client is dressed in his or her own clothing each day; and

Guidance §483.420(a)(12)

Clothing such as pajamas, underwear, socks, hats, mittens/gloves, and coats should be the personal property of the client and not considered *“stock”* items. There should be no communal clothes. If clients are unable

to do their own personal laundry the facility must ensure that clothing is properly laundered and returned to the appropriate client.

The staff of the facility should ensure that clients dress appropriately for the season and the occasion by implementing training programs or guidance for the client as indicated.

W139

§483.420(a)(13) Permit a husband and wife who both reside in the facility to share a room.

§483.420(b) Standard: Client Finances

(b)(1) The facility must establish and maintain a system that

W140

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(b)(1)(i) Assures a full and complete accounting of clients' personal funds entrusted to the facility on behalf of clients; and

Guidance §483.420(b)(1)(i)

All purchases made using client personal funds must be itemized in the accounting record with the exception of pocket money. Pocket money given to the client does not need to be itemized. Pocket money should be considered a nominal amount of five dollars or less at a time. Funds provided by the facility and dispensed to a client as part of a program to train the client in money management, and funds that are not entrusted to the facility (e.g., funds paid directly to the client's representative payee) do not require accounting.

In those instances where a legal guardian or the individual client is in control of their personal funds, no accounting is necessary by the facility.

W141

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(b)(1)(ii) Precludes any commingling of client funds with facility funds or with the funds of any person other than another client.

Guidance §483.420(b)(1)(ii)

If the facility elects to pool clients' funds in an interest-bearing account, including common trust accounts, it is expected to know the interest separately accrued by each client, as part of its required accounting of funds. Interest accumulated to a client's account belongs to the client, not the facility.

W142

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(b)(2) The client's financial record must be available on request to the client, parents (if the client is a minor) or legal guardian.

Guidance §483.420(b)(2)

Those persons having legal authority to access the accounting records for personal funds such as the client, parent, or legal guardians should be afforded access upon request unless there is documented rationale for withholding the information.

It is not necessary that a facility furnish an annual financial statement to the client, or the client's parent or legal guardian, since the facility is already required to make the financial record available at any time upon request. The client, parent, and/or legal guardian, in turn, is free to choose to make the financial record available to anyone else.

(c) Standard: Communication with clients, parents, and guardians.

§483.420(c)

The Facility must –

W143

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(c)(1) Promote participation of parents (if the client is a minor) and legal guardians in the process of providing active treatment to a client unless their participation is unobtainable or inappropriate;

Guidance §483.420(c)(1)

The facility must maintain an on-going effort to communicate with parents, family members and/or legal guardians regarding the implementation of active treatment programs for the client. The facility encourages and engages parents, family members and legal guardians in the continued implementation of active treatment programs even while spending time outside of the facility setting.

"Unobtainable", for the purposes of this guideline, means that the facility has made a good faith effort to seek parental or legal guardian participation in the process, even though the effort may ultimately be unsuccessful (for example, the parent may be impossible to locate or may prove unwilling or unable to participate).

"Inappropriate", for the purposes of this guideline, means that behavior of the parent or legal guardian could be disruptive or detrimental to the client's program outcome. In this case, determine what the facility has done to bring effective resolution to the problem.

W144

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(c)(2) Answer communications from clients' families and friends promptly and appropriately;

Guidance §483.420(c)(2)

It is reasonable to expect that the facility will provide at least an interim response to inquiries from the client's families and friends within 48 hours.

W145

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(c)(3) Promote visits by individuals with a relationship to the client (such as family, close friends, legal guardians and advocates) at any reasonable hour, without prior notice, consistent with the right of that client's and other clients' privacy, unless the interdisciplinary team determines that the visit would not be appropriate;

Guidance §483.420(c)(3)

Any limitations on visitors must be implemented as a result of IDT evaluation and discussion and be documented. This documentation should include evidence of approval from the specially constituted committee. Decisions to restrict a visitor for an individual client must be reviewed and re-evaluated each time the IPP is reviewed or at the client's request. Broad restrictions on visitors such as times of the day or certain days of the week are a violation of this requirement.

W146

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(c)(4) Promote visits by parents or guardians to any area of the facility that provides direct client care services to the client, consistent with the right of that client's and other clients' privacy;

W147

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(c)(5) Promote frequent and informal leaves from the facility for visits, trips, or vacations; and

Guidance §483.420(c)(5)

The facility should assist and encourage the client to communicate with their families or legal guardians concerning possible outside visits and vacations as frequently as possible. When the client does schedule a trip or vacation, the facility must ensure that all necessary preparation is completed to facilitate the departure.

The facility should not sponsor or allow clients to take a particular type of trip that would jeopardize their safety or health without consultation with parents/legal guardians and/or the IDT.

W148

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(c)(6) Notify promptly the client's parents or guardian of any significant incidents, or changes in the client's condition including, but not limited to, serious illness, accident, death, abuse, or unauthorized absence.

Guidance §483.420(c)(6)

"Significant" incidents or changes in the client's condition include serious injury, unusual seizure activity, hospitalization, serious illness, accident, death, allegations of abuse, neglect, or mistreatment, unauthorized absence, or any notifications the parent or legal guardian's requests.

It is reasonable to expect the facility to contact the family or legal guardian of a client as soon as possible after an incident occurs, but no later than 24 hours after the incident. If notification is done via electronic mail, the facility must request a response from the e-mail recipient to confirm notification. Telephone notification must be accomplished by talking to the person directly. If a message is left, the facility must request a call back to confirm receipt of the notification.

Contact by letter may be utilized as follow up confirmation, but not be the initial, primary or sole mode of communication with the family or legal guardian.

If unable to contact the family or legal guardian, there should be evidence that the facility attempted to reach alternate emergency contacts.

Requests from clients who are their own guardian to limit notifications to their families must be honored.

(d) Standard: Staff treatment of clients.

W149

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(1) The facility must develop and implement written policies and procedures that prohibit mistreatment, neglect or abuse of the client.

Guidance §483.420(d)(1)

The facility, through implementation of its policies, must set up a structure that screens and trains employees, protects clients and prevents, identifies, investigates and reports abuse, neglect and mistreatment of clients.

The policies must designate who (either by name or title) has the authority to act in the Administrator's absence and take any immediate corrective actions necessary to assure a client's safety such as removing a staff person from direct client contact.

"Mistreatment", for the purposes of this guideline, includes behavior or facility practices that result in any type of client exploitation such as financial, physical, sexual, or criminal. Mistreatment also refers to the use of behavioral management techniques outside of their use as approved by the specially constituted committee and facility policies and procedures.

"Neglect" means failure to provide goods and services necessary to avoid physical harm, mental anguish or mental illness. Staff failure to intervene appropriately to prevent self- injurious behavior may constitute neglect. Staff failure to implement facility safeguards, once client to client aggression is identified, may also constitute neglect.

Refer to W127 for definitions of abuse.

W150

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(1)(i) Staff of the facility must not use physical, verbal, sexual or psychological abuse or punishment.

W151

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(1)(ii) Staff must not punish a client by withholding food or hydration that contributes to a nutritionally adequate diet.

W152

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(1)(iii) The facility must prohibit the employment of individuals with a conviction or prior employment history of child or client abuse, neglect or mistreatment.

Guidance §483.420(d)(1)(iii)

The facility is required to screen potential employees for a prior employment history of child or client abuse, neglect or mistreatment, as well as for any conviction based on those offenses. The abuse, neglect or mistreatment must have been directed toward a child or a client/resident/patient of a health care facility in order for the prohibition of employment to apply.

No one with a conviction or substantiated allegation of child or client abuse, neglect or mistreatment regardless of employment date, is employed by the facility. This requirement also applies to acts of abuse, neglect or mistreatment committed by a current ICF/IID employee outside the jurisdiction of the ICF/IID (e.g., in the community or in another health care facility). The facility must follow state guidelines or requirements for background checks to assure that they make every effort to check new employee's background.

Where the facility has terminated an employee based upon confirmation that abuse, neglect or mistreatment occurred during the employee's performance, and the termination decision was overturned by either arbitration finding or a court finding, the employee must be returned to a position which does not involve direct contact between that employee and clients of the facility.

A person who abused a resident in a nursing facility, and as a result, is barred from employment in the nursing home setting would also be prohibited from employment in the ICF/IID. While facilities are not required to periodically screen existing employees, if the facility becomes aware that such action has been taken against an employee, the facility is required to prohibit continued employment. This is also true of any conviction in a court of law for child, elder, or client (resident, patient) abuse, neglect or mistreatment. Therefore, conviction for abusing one's own child is also a reason employment would be prohibited.

W153

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(2) The facility must ensure that all allegations of mistreatment, neglect or abuse, as well as injuries of unknown source, are reported immediately to the administrator or to other officials in accordance with State law through established procedures.

Guidance §483.420(d)(2)

Injuries of unknown source that give rise to a suspicion that they may be the result of abuse or neglect, should be reported immediately.

An injury should be reported as an "injury of unknown source" when:

- The source of the injury was not witnessed by any person and the source of the injury could not be explained by the client; and

- The injury raises suspicions of possible abuse or neglect because of the extent of the injury or the location of the injury (e.g., the injury is located in an area not generally vulnerable to trauma) or the number of injuries observed at one particular point in time or the incidence of injuries over time.

It is important to note that members of the ICF/IID population are a mobile population and lead active lives. Therefore, they experience normal day-to-day bumps and minor abrasions as they go about their lives. These minor occurrences which are not of serious consequence to the individual and do not present as a suspicious or repetitive injury (as discussed above) should be recorded by the facility staff once they are aware of them and follow-up should be conducted as indicated. For injuries that do not rise to the level of reportable "injuries of unknown source", the facility should follow its policies and procedures for incident recording, investigation, and tracking.

The facility must immediately report any suspicious injuries of unknown source and all allegations of mistreatment, neglect or abuse to a client residing in the facility regardless of who is the alleged perpetrator (e.g., facility staff, parents, legal guardians, volunteer staff from outside agencies serving the client, neighbors, or other clients, etc.).

If state law requires reporting to an agency or entity other than the administrator, the Centers for Medicare & Medicaid Services (CMS) expects the administrator to be notified as well, in order to ensure facility response to promptly safeguard the client(s).

For the purposes of this regulation "immediately" means there should be no delay between staff awareness of the occurrence and reporting to the administrator or other officials in accordance with State law unless the situation is unstable in which case reporting should occur as soon as the safety of all clients is assured.

W154

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(3) The facility must have evidence that all alleged violations are thoroughly investigated and

Guidance §483.420(d)(3)

In the absence of any pre-survey information that would indicate the need for a more thorough review of reports of investigation, review 5 percent of the total client investigations for the last three (3) months (but no less than 10).

A thorough investigation includes at a minimum:

- The collection of all interviews, statements, physical evidence and any pertinent maps, pictures or diagrams;
- Review of all information;
- Resolution of any discrepancies;
- Summary of conclusions; and
- Recommendations for action both to safeguard all the clients during the investigation and after the completion of the report.

If patterns of possible abuse, mistreatment or neglect are identified, or the incident report logs for the past three (3) months indicate an extremely high incident rate, then a full review of the incidents for the past three (3) months should be completed.

W155

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(3) must prevent further potential abuse while the investigation is in progress.

Guidance §483.420(d)(3)

The facility must take all measures necessary to protect the client, including removal of the staff from working with the client if indicated. See W154.

W156

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(4) The results of all investigations must be reported to the administrator or designated representative or to other officials in accordance with State law within five working days of the incident and,

Guidance §483.420(d)(4)

Some states require that allegations of abuse must be reported to the police. A police investigation may take longer than five (5) working days. Their investigation does not change the requirement that the facility must complete an internal investigation report of findings within the five day timeframe. When outside authorities are involved, the facility will still be required to complete their investigation within five days to the extent authorized by such entities. “Working days” means Monday through Friday, excluding state and Federal holidays.

W157

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.420(d)(4) if the alleged violation is verified, appropriate corrective action must be taken.

Guidance §483.420(d)(4)

The facility is required to ensure that clients residing in the facility are not subjected to physical, verbal, sexual or psychological abuse or punishment.

Appropriate corrective action is required for findings of abuse, neglect or mistreatment by other clients residing in the facility, staff of outside agencies, parents or any other person, and for injuries to clients resulting from controllable environmental factors.

If the facility receives allegations of abuse, neglect, or mistreatment of a client during out of facility visits with their family, they must report these allegations to the appropriate state authority for investigation. The facility does not have to conduct an internal investigation regarding the alleged violation.

Appropriate corrective action is defined as that action which is reasonably likely to prevent the abuse, neglect, mistreatment or injury from recurring.

This regulation does not require staff termination as the only appropriate corrective action.

The corrective action imposed by the facility is commensurate with the violation.

When a facility is forced to re-hire a staff person, determined by the facility investigation to have been responsible for abuse, neglect, or mistreatment, the facility continues to be responsible for ensuring the health and safety of the clients, and ensures that those staff members do not work directly with clients.

W158

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430 Condition of participation: Facility staffing.

(a) Standard: Qualified intellectual disability professional

W159

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(a) Each client’s active treatment program must be integrated, coordinated and monitored by a qualified intellectual disability professional who –

Guidance §483.430(a)

The position of qualified intellectual disability professional (QIDP) is unique to the ICF/IID program. This position can be central to the overall responsiveness and effectiveness of an active treatment program. Whether a supervisory or non-supervisory position, the QIDP is responsible to:

- Orchestrate all facets of the active treatment effort, including the IDT creation of relevant IPPs tailored to meet individual client needs;

- Effectively coordinate internal and external program services and supports to facilitate the acquisition of client skills and adaptive behaviors; and
- Promote competent interactions of residential staff with clients in program implementation and behavior management.

Breakdowns in the provision of needed services does not automatically equate with deficient practice with QIDP regulations. Non-compliance with QIDP regulations exist where the facility has failed to provide a QIDP or sufficient numbers of QIDPs to effectively perform these required functions or the QIDP(s) has failed to assertively attempt to integrate, coordinate and/or monitor each client's active treatment program.

Elements of integrating, coordinating and monitoring active treatment programs include:

- Routinely observing clients across settings in program areas to assess effectiveness of program implementation and consistency of training effort to determine effectiveness of IPPs and making timely modifications to facilitate achieving desired skills or goals.
- Routinely interacting with program staff across settings to assist in determining the effectiveness and continued relevance of program plans in meeting identified client needs.
- Determining the need for program revision based on client performance.
- Identifying inconsistencies in training approaches or programs not being implemented as written and facilitating the resolution of these inconsistencies.
- Assures follow-up occurs for any recommendation for services, equipment or programs so that needed services and supplies are provided in a timely manner to meet the client's needs.

The number of QIDPs will vary depending on such factors as the number of clients the facility serves, the complexity of needs manifested by these clients, the number, qualifications and competencies of additional professional staff members, and whether or not other duties are assigned to the QIDP function.

The QIDP function may not be delegated to other employees even though the QIDP co- signs their work.

W160

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(a)(1) Has at least one year of experience working directly with persons with intellectual disability or other developmental disabilities; and

Guidance §483.430(a)(1)

"Experience" means providing professional or direct services, either paid or volunteer, in a setting that serves persons with intellectual disabilities. The experience working directly with persons with intellectual or other developmental disabilities can be obtained prior to or after obtaining the qualifying degree or credentials.

§483.430(a)(2) Is one of the following:

W161

(a)(2)(i) A doctor of medicine osteopathy.

W162

(a)(2)(ii) A registered nurse.

W163

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(a)(2)(iii) An individual who holds at least a bachelor's degree in a professional category specified in paragraph (b)(5) of this section

Guidance §483.430(a)(2)(iii)

The individual must have at least a bachelor's degree in one of the professions listed in §483.430(b)(5)(i-xi)

(b) Standard: Professional program services

W164

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430 (b)(1) Each client must receive the professional program services needed to implement the active treatment program defined by each client's individual program plan.

Guidance §483.430 (b)(1)

The effectiveness of the active treatment effort is dependent on a facility's assembly of a competent team of professional program staff, with knowledge of contemporary care practices in intellectual disabilities specific to their field of expertise, that work cooperatively as members of an IDT. The facility is responsible for the acquisition of professional staff necessary to provide direct and indirect professional services to meet client needs.

Professional program services are those services that meet the needs identified by a client's CFA that must be provided by a member of a vocation founded upon specialized education/training.

Professional staff services also include on-going monitoring of the effectiveness of programs and plans developed by professional staff but implemented by non -professional staff.

Indirect professional staff services also include on-going, technical support to staff implementing these programs as well as timely assessment of the need for modification of the program with appropriate communication to the QIDP and IDT.

The needs identified in the initial CFA, as required in §483.440(c)(3)(v), should guide the team in deciding if a particular professional's involvement is necessary and, if so, to what extent professional involvement must continue on a direct or indirect basis.

Since such needed professional expertise may fall within the purview of multiple professional disciplines, based on overlapping training and experience, determine if the facility's delivery of professional services is adequate by the extent to which clients' needs are aggressively and competently addressed. Some examples in which professional expertise may overlap include, but are not limited to:

- Physical development and health: nurse, dietitian, pharmacist.
- Nutritional status: nurse, nutritionist or dietitian.
- Sensorimotor development: educators, recreation therapists, and occupational therapist, physical therapist.
- Affective (emotional) development: special educators, social workers, psychologists, psychiatrists, mental health counselors, rehabilitation counselors, behavior therapists, behavior management specialists, behavior analyst, and medical staff.
- Speech and language (communication) development: speech-language pathologists, special educators for people who are deaf or hearing impaired, and medical staff.
- Auditory functioning: audiologists (basic or comprehensive audiologic assessment and use of amplification equipment); speech-language pathologists (like audiologists, may perform aural rehabilitation); special educators for clients who are hearing impaired and medical staff.
- Cognitive development: teachers (if required by law, e.g., school aged children, or if pursuit of GED is indicated), behavior analysts, psychologists, speech-language pathologists.
- Vocational development: occupational therapists, vocational rehabilitation counselors, or other work specialists (if development of specific vocational skills or work placement is indicated).
- Social Development: teachers, professional recreation staff, social workers, behavior analysts, psychologists (specialized training needs for social skill development).
- Adaptive behaviors or independent living skills: special educators, occupational therapists, behavior analysts, and medical staff.

W165

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(1) Professional program staff must work directly with clients

Guidance §483.430(b)(1)

Examples of professional staff working directly with clients include: performing professional assessments of clients, provision of direct support and services and periodic monitoring by the professional of the client working on the program. The amount and degree of direct care that professionals must provide will depend on the needs of the client and the ability of other staff to effectively work with clients on a day-to-day basis. For those services that must be provided by a professional due to either law, licensure or registration, the client receives the services directly from the professional. Professionals may deliver services through the supervision and direction of subordinates where provided by law.

W166

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(1) and with paraprofessional, nonprofessional and other professional program staff who work with clients.

Guidance §483.430(b)(1)

Paraprofessionals are persons in various occupational fields who are trained to assist professionals but are themselves not licensed at the professional level.

Examples of "working with" these other staff may include, but not be limited to:

- Modeling the correct technique for interacting with clients or implementing a specific program objective.
- Designing residential activity programs and teaching staff how to implement them.
- Conducting classes on discipline specific topics.
- Answering questions of staff related to program implementation or specific behavioral management issues.
- Monitoring active treatment areas to identify program implementation or staff-client interaction issues.

W167

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(2) The facility must have available enough qualified professional staff to carry out and monitor the various professional interventions in accordance with the stated goals and objectives of every individual program plan.

Guidance §483.430(b)(2)

There should be sufficient professional staff in the facility to ensure that:

- needed assessments by professionals are completed timely;
- direct professional services are provided when indicated;
- clients are receiving interventions as specified in the IPP;
- client outcomes are being monitored by the professional;
- assessments and outcomes are being communicated to the IDT; and
- professional staff are available to consult with team members when needed.

W168

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(3) Professional program staff must participate as members of the interdisciplinary team in relevant aspects of the active treatment process.

Guidance §483.430(b)(3)

When a professional does an assessment and determines there are client needs which become incorporated into the IPP, with a current prioritized objective, the professional should actively participate on the

IDT. This participation may be through written reports or verbally while attending the IPP meeting or participating via telephone or other electronic means, to provide team members with the opportunity to review and discuss information and recommendations relevant to the client's needs, and to reach decisions as a team, rather than individually, on how best to address those needs.

W169

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(4) Professional program staff must participate in on-going staff development and training in both formal and informal settings with other professional, paraprofessional, and nonprofessional staff members.

Guidance §483.430(b)(4)

Professional program staff provides various types of training to staff as indicated by the IPP and IDT.

Formal training: a specific training done at the time a program is implemented or updated by the professional, with all staff who works with the client.

Informal training: when the professional observes the staff not correctly implementing a program, the professional provides informal guidance on correct implementation.

Training on programs that apply to multiple clients: when a particular program applies to several clients in a facility, a professional may provide training to several staff on a particular topic that applies to multiple clients (such as safe transfer techniques).

Professional staff of the facility should participate in ongoing training such as conferences and workshops to maintain current standards of practice in the field of intellectual and developmental disabilities as required by their professional licensure or certification.

W170

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(5) Professional program staff must be licensed, certified, or registered, as applicable, to provide professional services by the State in which he or she practices. Those professional program staff who do not fall under the jurisdiction of State licensure, certification, or registration requirements, specified in §483.410(b), must meet the following qualifications:

W171

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(5)(i) To be designated as an occupational therapist, an individual must be eligible for certification as an occupational therapist by the American Occupational Therapy Association or another comparable body.

Guidance §483.430(b)(5)(i)

If a professional is not nationally certified, they would have to show evidence they completed the degree and field work in their designated field and are eligible to sit for the national exam.

The American Occupational Therapy Association is now known as the National Board for Certified Occupational Therapists (NBCOT). There is no "other comparable body."

Eligibility means the professional must have completed a degree in their designated field, completed all field work required for a license, must meet licensure requirements in the state they are practicing in, and are registered or certified nationally as applicable.

W172

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(5)(ii) To be designated as an occupational therapy assistant, an individual must be eligible for certification as a certified occupational therapy assistant by the American Occupational Therapy Association or another comparable body.

Guidance §483.430(b)(5)(ii)

If a professional is not nationally certified, they would have to show evidence they completed the degree and field work in their designated field and are eligible to sit for the national exam.

The American Occupational Therapy Association is now known as the National Board for Certified Occupational Therapists (NBCOT). There is no "other comparable body."

Eligibility means the professional must have completed a degree in their designated field, completed all field work required for a license, must meet licensure requirements in state they are practicing in, and are registered or certified nationally as applicable.

W173

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(5)(iii) To be designated as a physical therapist, an individual must be eligible for certification as a physical therapist by the American Physical Therapy Association or another comparable body.

Guidance §483.430(b)(5)(iii)

If a professional is not nationally certified, they would have to show evidence they completed the degree and field work in their designated filed and are eligible to sit for the national exam.

Eligibility means the professional must have completed a degree in their designated field, completed all field work required for a license, must meet licensure requirements in state they are practicing in, and are registered or certified nationally as applicable.

W174

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(5)(iv) To be designated as a physical therapy assistant, an individual must be eligible for registration by the American Physical Therapy Association or be a graduate of a two year college-level program approved by the American Physical Therapy Association or another comparable body.

Guidance §483.430(b)(5)(iv)

If a professional is not nationally certified, they would have to show evidence they completed the degree and field work in their designated filed and are eligible to sit for the national exam.

Eligibility means the professional must have completed a degree in their designated field, completed all field work required for a license, must meet licensure requirements in State they are practicing in, and are registered or certified nationally as applicable.

W175

§483.430(b)(5)(v) To be designated as a psychologist, an individual must have at least a master's degree in psychology from an accredited school.

§483.430(b)(5)(vi) To be designated as a social worker, an individual must--

W176

§483.430(b)(5)(vi)(A) Hold a graduate degree from a school of social work accredited or approved by the Council on Social Work Education or another comparable body; or

§483.430(b)(5)(vi)(B) Hold a Bachelor of Social Work degree from a college or university accredited or approved by the Council on Social Work Education or another comparable body.

§483.430(b)(5)(vii) To be designated as a speech-language pathologist or audiologist, an individual must--

W177

§483.430(b)(5)(vii)(A) Be eligible for a Certificate of Clinical Competence in Speech-Language Pathology or Audiology granted by the American Speech-Language-Hearing Association or another comparable body; or

§483.430(b)(5)(vii)(B) Meet the educational requirements for certification and be in the process of accumulating the supervised experience required for certification.

W178

§483.430(b)(5)(viii) To be designated as a professional recreation staff member an individual must have a bachelor's degree in recreation or in a specialty area such as art, dance, music or physical education.

W179

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(5)(ix) To be designated as a professional dietitian, an individual must be eligible for registration by the American Dietetics Association.

Guidance §483.430(b)(5)(ix)

If a professional is not nationally registered as a dietician, they would have to show evidence they completed the degree and field work in their designated field and are eligible to sit for the national exam.

W180

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(5)(x) To be designated as a human services professional an individual must have at least a bachelor's degree in a human services field (including, but not limited to: sociology, special education, rehabilitation counseling, and psychology).

Guidance §483.430(b)(5)(x)

Human Services is a diverse field focused on improving the quality of life of clients in communities in which the professional serves. A human services professional works directly with the population being served. Surveyors should see evidence that a human service professional has a bachelor's degree at a minimum.

W181

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(b)(5)(xi) If the client's individual program plan is being successfully implemented by facility staff, professional program staff meeting the qualifications of paragraph (b)(5)(i) through (x) of this section are not required-

(A) Except for qualified intellectual disability professionals;

(B) Except for the requirements of paragraph (b)(2) of this section concerning the facility's provision of enough qualified professional program staff; and

(C) Unless otherwise specified by State licensure and certification requirements.

Guidance §483.430(b)(5)(xi)

An individual client program may not require that professional staff perform all of the services as outlined by the IPP (e.g. the direct support staff may be trained by the professional to safely and effectively carry out the designed program), however, any specialized therapy must involve evaluation, program development, and re-assessment by the appropriate professional at periodic intervals.

(c) Standard: Facility staffing

W182

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(c)(1) The facility must not depend upon clients or volunteers to perform direct care services for the facility.

Guidance §483.430(c)(1)

The facility must have sufficient staff to provide needed care and services without the use of volunteers or enlisting the help of clients residing in the facility to perform the duties normally performed by facility staff.

The facility may not rely on volunteers in lieu of paid staff to fill required staff positions and perform direct care services. Volunteers are permissible, but must be in addition to the number of paid staff required to carry out a function. Volunteers should have an orientation to the policies and procedures of the facility and oversight is required by facility staff.

W183

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(c)(2) There must be responsible direct care staff on duty and awake on a 24-hour basis, when clients are present, to take prompt, appropriate action in case of injury, illness, fire or other emergency, in each defined residential living unit housing- -

(i) Clients for whom a physician has ordered a medical care plan;

(ii) Clients who are aggressive, assaultive or security risks;

(iii) More than 16 clients; or

(iv) Fewer than 16 clients within a multi-unit building.

Guidance §483.430(c)(2)

Indicators of staff not being awake in relation to the occurrence of incidents, accidents, and injuries may include, but are not limited to:

- incidents of unplanned client absences;
- untimely reaction to a medical emergency;
- injuries from client to client aggression; or
- a pattern of injuries of unknown origin.

If even one client meets 483.430(c)(2)(i-ii) then staff must be awake on a 24-hour basis.

A client has a medical care plan when an acute or chronic occurrence requires clinical assessment and monitoring on a scheduled basis.

W184

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(c)(3) There must be a responsible direct care staff person on duty on a 24 hour basis (when clients are present) to respond to injuries and symptoms of illness, and to handle emergencies, in each defined residential living unit housing- -

(i) Clients for whom a physician has not ordered a medical care plan;

(ii) Clients who are not aggressive, assaultive or security risks; and

(iii) Sixteen or fewer clients.

Guidance §483.430(c)(3)

At all times, there must be at least one staff person on-duty in the facility if even one client is present. For purposes of this provision, “on duty” staff need not be awake during normal sleeping hours, but do need to respond to injuries, illness, and emergencies promptly.

W185

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(c)(4) The facility must provide sufficient support staff so that direct care staff are not required to perform support services to the extent that these duties interfere with the exercise of their primary direct client care duties.

Guidance §483.430(c)(4)

Direct care staff should not be performing support services (e.g., making beds, cooking, cleaning, etc.) independently which takes them away from client interaction and teaching. If support services in the house cannot be done jointly as chores between clients, as part of their training program, and the support staff, additional staff should be added to perform the chores. This does not include any staff chores done during client's sleeping hours.

"Support staff" include all personnel hired by the facility that are not either direct care staff or professional staff. For example, support staff includes, but are not limited to, secretaries, clerks, housekeepers, maintenance and laundry personnel.

(d) Standard: Direct care residential living unit staff

W186

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(d)(1) The facility must provide sufficient direct care staff to manage and supervise clients in accordance with their individual program plans.

Guidance §483.430(d)(1)

"Sufficient" means enough direct care staff to effectively implement the active treatment programs as defined in the IPP, to meet client needs, and to respond to emergencies, illness, or injuries.

Even though minimum ratios are defined at §483.430(d)(3), active treatment may require more staff than the minimums required ratios, therefore compliance should not be based on staffing ratios alone.

§483.430(d)(2) Direct care staff are defined as the present on-duty staff calculated over all shifts in a 24-hour period for each defined residential living unit.

Guidance §483.430(d)(2)

"Direct care staff" are those personnel who are assigned to work directly with the clients providing support during activities of daily living and active treatment programs.

Professional staff who work with clients in a living unit on a periodic basis are not included in direct care staff ratios.

Supervisors of direct care staff can be counted only if they share in the actual work of the direct care of clients on a continuous basis (e.g. take client assignment).

Direct care supervisors whose principle assigned function is to supervise direct care staff may not be included in direct care staff ratios although they may occasionally provide direct services to clients.

Non-direct care staff supervisors whose principle assigned function is to supervise non- direct care staff may not be included in direct care staff ratios.

W187

(Rev. 144, Issued: 08-14-15, Effective: 08-14-15, Implementation: 08-14-15)

§483.430(d)(3) Direct care staff must be provided by the facility in the following minimum ratios of direct care staff to clients:

(i) For each defined residential living unit serving children under the age of 12, severely and profoundly retarded clients, clients with severe physical disabilities, or clients who are aggressive, assaultive, or security risks, or who manifest severely hyperactive or psychotic-like behavior, the staff to client ratio is 1 to 3.2.

(ii) For each defined residential living unit serving moderately retarded clients, the staff to client ratio is 1 to 4.

(iii) For each defined residential living unit serving clients who function within the range of mild retardation, the staff to client ratio is 1 to 6.4.

Guidance §483.430(d)(3)

*The minimum ratios in this standard indicate the **minimum** number of direct-care staff that must be present and on duty, 24 hours a day, 365 days a year, for each discrete living unit. For example, to calculate the minimum number of living unit staff that must be present and on duty in a discrete living unit serving 16 individuals with multiple disabilities: divide the number of individuals "16," by the number corresponding to the regulation "3.2," the result equals "5." Therefore, the facility must determine how many staff it must hire to ensure that at least 5 staff will be able to be present and on duty during the 24 hour period in which those individuals are present.*

Using the living unit described above, "calculated over all shifts in a 24-hour period" means that there are present and on duty every day of the year: one direct care staff for each eight individuals on the first shift (1:8), one direct care staff for each eight individuals on the second shift (1:8), and one direct care staff for each 16 individuals on the third shift (1:16). Therefore, there are five (5) direct care staff present and on duty for each twenty-four hour day, for 16 individuals. The same calculations are made for the other ratios, whichever applies. Determine if absences of staff for breaks and meals results in a pattern of prolonged periods in which present and on-duty staff do not meet the ratios.

W188

§483.420(d)(4) When there are no clients present in the living unit, a responsible staff member must be available by telephone.

§483.430(e) Standard: Staff Training Program

W189

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(e)(1) The facility must provide each employee with initial and continuing training that enables the employee to perform his or her duties effectively, efficiently, and competently.

Guidance §483.430(e)(1)

Newly employed staff receive a supported orientation program (mentor or ongoing supervision) during their early employment. All staff receive continuing education on such issues as abuse and neglect, handling emergency situations, behavior management, and treating people with respect and dignity, etc.

The primary evidence of an effective staff training program is the observed competent interaction between staff and clients.

§483.430(e)(2) For employees who work with clients, training must focus on skills and competencies directed toward clients'

W190

(Rev. 144, Issued: 08-14-15, Effective: 08-14-15, Implementation: 08-14-15)

§483.430(e)(2) developmental,

Guidance §483.430(e)(2)

Staff receive training in the following areas:

- developmental programming principles and techniques (e.g. techniques to involve clients in their programs to their highest capability, use of positive reinforcement, use of assistive technology, use of appropriate materials and providing informal opportunities to practice skills);
- use of adaptive equipment and augmentative communication devices and systems;
- and
- effective recordkeeping procedures.

W191

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(e)(2) behavioral,

Guidance §483.430(e)(2)

Staff receive training in the following areas:

- use of behavioral principles during interactions between staff and clients;
- use of accurate procedures regarding abuse detection and prevention, restraints, drugs to manage behaviors, client safety, emergencies, etc.;
- use of least restrictive interventions;
- use of positive behavior intervention programming; and
- training clients in appropriate replacement behaviors.

W192

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(e)(2) and health needs

Guidance §483.430(e)(2)

Staff receive training in the following areas:

- signs and symptoms of the client's changing health (e.g. constipation, urinary tract infections, adverse drug reactions, as indicated);
- exercise and diet;
- first aid;
- infection control;
- reporting to appropriate healthcare professionals; and
- for those staff who can administer medications, how to include clients in their medication administration by recognizing and encouraging the use of applicable skills.

W193

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(e)(3) Staff must be able to demonstrate the skills and techniques necessary to administer interventions to manage the inappropriate behavior of clients.

Guidance §483.430(e)(3)

Staff correctly and consistently implement the interventions specified in the behavior plans of clients with whom they are working.

Inadequate training is evident when staff do not correctly implement behavioral programs, use inappropriate management techniques, cannot explain what intervention is to be used and how it is to be implemented.

W194

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.430(e)(4) Staff must be able to demonstrate the skills and techniques necessary to implement the individual program plans for each client for whom they are responsible.

Guidance §483.430(e)(4)

Staff are observed in various settings during the day correctly and consistently implementing the specific IPPs of the clients with whom they are working.

W195

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440 Condition of participation: Active treatment services

(a) Standard: Active treatment

W196

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(a)(1) Each client must receive a continuous active treatment program, which includes aggressive, consistent implementation of a program of specialized and generic training, treatment, health services and related services described in this subpart, that is directed toward-

(i) The acquisition of the behaviors necessary for the client to function with as much self-determination and independence as possible; and

(ii) The prevention or deceleration of regression or loss of current optimal functional status.

Active treatment embodies an individually- tailored series of daily life and living experiences that serve as the primary opportunity for the acquisition, development and expression of functional skills and adaptive behaviors necessary for the client to experience optimal independence and promote purposeful "self-expression".

The uniqueness of each client is a core consideration in the design of active treatment programs. It is expected that individual clients are given the opportunity to provide input into the content of their day-to-day living experiences.

An active treatment program includes the following elements as substantiated through observation, interview and record review:

a) Each client's needs and strengths have been accurately assessed and relevant input has been obtained from team members; (Observations and interviews with the client by the surveyor should be consistent with the current assessment information. Interview the QIDP regarding any needs observed but not addressed through assessment/programming by the facility).

b) Each client's IPP is based on assessed needs and strengths, and addresses major life areas such as personal skills, home living skills, community living skills, employment skills, etc., essential to increasing independence and ensuring rights;

c) Needs identified as a priority are addressed formally and through activities which are relevant and responsive to client need, interest and choice;

d) Active treatment is consistently implemented in all relevant settings both formally and informally as the need arises or opportunities present themselves. It should not be limited to specific periods of time during the day or environments. Each client should receive aggressive and consistent training, treatments and supports in accordance with their needs and IPP. New skills and appropriate behaviors are encouraged and reinforced across environments and times of day. Each client has the adaptive equipment and environmental adaptations necessary for him/her to progress toward heightened independence as recommended and contained in their IPP. Active treatment means taking advantage of opportunities for the practice of new skills and the use of other skills during the normal rhythm of each client's day.

e) Each client's performance related to IPP objectives is accurately and consistently measured and documented and programs are modified on an ongoing basis based on data and major life changes; and

i. Clients with degenerative conditions receive training, treatment and services designed to retain skills and functioning and to prevent further regression to the extent possible.

ii. Clients may need adjustments to their active treatment programs as functional or endurance limitations are identified associated with the aging process. In such cases, there may be more of an emphasis on the retention of skills already attained and reducing the rate of loss of skills, than on the acquisition of new skills.

In large part, it is this pervasive and continuous reinforcement of "formal" training through "informal" routine daily living experiences and interactions with staff and others that makes active treatment programs effective. Formal settings are those that are planned and specifically structured for training on objectives and interventions. Informal settings are times that are not anticipated or planned but that offer the opportunity for training.

Active treatment programs mirror normal living experiences such as leisure activities and social conversation at the dinner table. It must be clear that active treatment programs are far more than implementation of discreet formal training sessions or programs that are conducted at prescribed times by defined personnel. Learning occurs in the process of the normal rhythm of life and life experiences.

W197

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(a)(2) Active treatment does not include services to maintain generally independent clients who are able to function with little supervision or in the absence of a continuous active treatment program.

Guidance §483.440(a)(2)

All active treatment programs must be based upon assessed developmental needs which are prohibiting the client from living in a more independent setting.

Active treatment moves clients to a more independent setting.

- When a client is in the facility simply for protective oversight and is not in need of training for developmental deficits, this does not constitute active treatment (e.g. a court placement to protect the community or the client from the client's behavior).
- Programs that are simply being provided to maintain a client's independence would not be considered active treatment since the client is not actively being trained to live in a more independent setting. If a client already possesses the skills that enables them to live in a less restrictive environment, and does not require the structure, support and resources that services that only an ICF/IID can provide, they can be considered generally independent.

For example, a client is admitted to the ICF/IID for the primary purpose of competency determination for a court hearing. This client lived independently prior to admission. The active treatment programs they are receiving are focused on maintaining that independence and do not address specific developmental deficits that inhibit independent living. This would not be considered active treatment.

(b) Standard: Admissions, transfers, and discharge

W198

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(1) Clients who are admitted by the facility must be in need of and receiving active treatment services.

Guidance §483.440(b)(1)

All client admissions must be based upon assessed developmental deficits which are prohibiting the client from living in a more independent setting and which require those intensive specialized supports, services, and supervision that only an ICF/IID can provide.

The individual components of the provision of active treatment include CFA, IPP, program implementation, program documentation, and program monitoring and change. When any of these individual components of active treatment are not in place, resulting in the clients not receiving active treatment, this regulation this not met.

W199

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(2) Admission decisions must be based on a preliminary evaluation of the client that is conducted or updated by the facility or by outside sources.

Guidance §483.440(b)(2)

Preliminary evaluations should support the need for an admission to an ICF/IID (e.g., deficits in functional skills or adaptive behaviors). The information from the preliminary evaluation must be used by the facility to make an admission decision.

Occasionally, emergency admissions of clients may occur without benefit of a preliminary evaluation having been conducted prior to admission. When situational emergencies necessitate admission before a preliminary evaluation can be conducted, or when pre-admission information is incomplete, the completion of the preliminary admission evaluation within seven (7) calendar days after admission will satisfy compliance with this requirement.

W200

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(3) A preliminary evaluation must contain background information as well as currently valid assessments of functional developmental, behavioral, social, health and nutritional status to determine if the facility can provide for the client's needs and if the client is likely to benefit from placement in the facility.

Guidance §483.440(b)(3)

The preliminary evaluation contains specific information useful to determine if the facility can meet the client's needs and if the client can benefit from placement.

The facility makes every reasonable effort to gather all available data to assist in their determination.

Background information would include information that gives insight into the clients' previous living environments and programming efforts.

The assessment must include a consideration as to whether reasonable accommodation as required by the Americans with Disabilities Act would enable the client to benefit from placement in facility.

§483.440(b)(4) If a client is to be either transferred or discharged, the facility must --

W201

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(4)(i) Have documentation in the client's record that the client was transferred or discharged for good cause; and

Guidance §483.440(b)(4)(i)

Transfer or discharge occurs only when the facility cannot meet the client's needs, the client no longer requires an active treatment program in an ICF/IID setting; the individual/guardian chooses to reside elsewhere, or when a determination is made that another level of service or living situation would be more beneficial to the client.

"Transfer" means the temporary movement of a client to another facility (e.g. another ICF/IID, psychiatric hospital, medical hospital) with the intention of return to the original site.

"Discharge" means the permanent movement of a client to another facility or setting which operates independently from the ICF/IID (e.g. the facility is not under the jurisdiction of the facility's governing body).

Documentation includes evidence of an assessment that evaluated the pros and cons of the transfer or discharge and the rationale for the final decision.

W202

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(4)(ii) Provide a reasonable time to prepare the client and his or her parents or guardian for the transfer or discharge (except in emergencies).

Guidance §483.440(b)(4)(ii)

The client and their family or the client and their legal guardian are involved in planning for any transfer or discharge and receive the services necessary to assist in preparing for movement, unless an emergency (medical) situation prevents that involvement. If the client has an advocate, the advocate should participate in the decision-making process.

Orderly, planned transfers and discharges usually take place over an extended period of time. The IPP should reflect objectives or interventions which prepare the client for transfer or discharge. Transfers or discharges executed on short timeframes (e.g. less than 30 days) without "good cause" would not comply with the "reasonable" intent of the regulations.

"Reasonable" time is the time required to provide clients and their families with planned steps and established timeframes to facilitate the successful transition. Time frames are modified based on client needs and emergent situations.

Preparation of the client for transfer may include orientation or trial visits to the new location. Staff should take steps to minimize potential anxiety or any behavioral reactions which could result from the client's transfer.

§483.440(b)(5) At the time of the discharge, the facility must-

W203

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(5)(i) Develop a final summary of the client's developmental, behavioral, social, health and nutritional status

Guidance §483.440(b)(5)(i)

The final summary should be useful for continued services in the client's new setting. The final discharge summary should be entered into the client's record, provide a summary of the client's course of stay in the ICF/IID, provide a final summary of the client's developmental, behavioral, social, health and nutritional status, and include the current status of the objectives listed in the client's IPP.

The status should address whether or not a clients' skills have been maintained, deteriorated, or improved during their stay.

W204

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(5)(i) and, with the consent of the client, parents (if the client is a minor) or legal guardian, provide a copy to authorized persons and agencies; and

Guidance §483.440(b)(5)(i)

When the client is discharged, the receiving entity (another ICF/IID, waiver home, family home, nursing home, etc.) is provided a copy of the discharge summary. The ICF/IID should obtain written consent to share this information with the persons who will be providing services to the client in the future and their parents/or legal guardians. Sharing the discharge summary with State Agencies as applicable is determined by state requirements.

W205

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(b)(5)(ii) Provide a post-discharge plan of care that will assist the client to adjust to the new living environment.

Guidance §483.440(b)(5)(ii)

The post discharge plan of care is a component of the discharge summary.

The facility utilizes the information from the discharge summary to prepare the discharge plan of care. The post-discharge plan of care identifies the essential supports and services necessary for the client to successfully adjust to the new living environment and describe necessary coordination of services. It should

incorporate the client's preferences. It should identify specific client needs after discharge such as personal care, physical therapy, client/caregiver education needs, and the ability of the client or caregiver to meet those needs after discharge.

(c) Standard: Individual program plan

W206

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(1) Each client must have an individual program plan developed by an interdisciplinary team that represents the professions, disciplines or service areas that are relevant to- -

i) Identifying the client's needs, as described by the comprehensive functional assessments required in paragraph (c)(3) of this section; and

ii) Designing programs that meet the client's needs.

Guidance §483.440(c)(1)

If a need is identified in the CFA, the professional associated with that need will conduct an initial evaluation for the development of the IPP.

The needs identified in the CFA determine the professional, paraprofessional, direct support staff, disciplines or service areas that must participate in the development of the IPP.

W207

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(2) Appropriate facility staff must participate in interdisciplinary team meetings.

Guidance §483.440(c)(2)

While there is no correct number of individuals that comprise the IDT, the team should include appropriate facility staff (professional and paraprofessional staff), that are responsible for designing, developing, and/or implementing the client's IPP and direct support staff who work closely with the clients.

For any prioritized objective, the paraprofessional or professional personnel responsible for the development and monitoring of that program should participate on the team, either through actual attendance or written or verbal input.

Members of the IDT may change as the assessed needs of the client change (e.g. medical issues, nutritional issues, communication needs, fine motor skill needs, gross motor skill needs, social issues or behavioral concerns).

W208

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(2) Participation by other agencies serving the client is encouraged.

Guidance §483.440(c)(2)

The facility must make every effort to coordinate the Individual Education Plan (IEP) from the school or the client's program plan from outside program, work site or workshop with the IPP. This may result in a single document, but there is no requirement for a single combined document. There must be evidence that all applicable plans were coordinated (evidence of discussion across the plans and observation would confirm integration of the IPP across the various settings). The QIDP is responsible for the coordination of the plans.

The facility should communicate changes in the IPP or in the clients' life situation with teachers and workplace representatives either directly or through written communication.

W209

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(2) Participation by the client, his or her parent (if the client is a minor), or the client's legal guardian is required unless the participation is unobtainable or inappropriate.

Guidance §483.440(c)(2)

The facility should make every effort to schedule team meetings at a time that enables the client parent or legal guardian, to attend without having to forfeit work time or pay.

The facility should make every effort to schedule team meetings at a time that enables the client parent or legal guardian, to attend without having to forfeit work time or pay.

It is expected that the client will routinely attend team meetings unless their participation is unobtainable. Examples of when client participation is not available include, but are not limited to: 1) the client is away from the facility for medical reasons or hospitalization; or 2) although the facility has documented repeated attempts to engage the client, the client refuses to participate.

If families/legal guardians are unable to attend a program planning meeting, the facility provides them information regarding the meeting outcome and gives them an opportunity to discuss the plan with the facility staff.

“Unobtainable”, for the purposes of this guideline, means that the facility has made a good faith effort to seek parental or legal guardian participation in the process, even though the effort may ultimately be unsuccessful (for example, the parent may be impossible to locate or may prove unwilling or unable to participate).

“Inappropriate”, for the purposes of this guideline, means that the parent or legal guardian’s behavior is so disruptive or uncooperative that others cannot effectively participate; the client does not wish his or her parent to participate, and the client is competent to make this decision; or there is strong and documented evidence that the parent or legal guardian is not acting on the client’s behalf or in the client’s best interest. In the case of the latter, determine what the facility has done to bring effective resolution to the problem.

Instances when it is not appropriate for the client, parent or legal guardian, to attend the team discussion are rare. If the client does not attend the meeting, the facility must document the reason for his/her non-participation.

There may also be instances where a parent or legal guardian is considered unobtainable for a team meeting, such as being out of the country. In these instances, the parent or legal guardian should still be notified of the meeting, provided with information concerning the outcome of the meeting and documentation in the client record should describe why the parent or legal guardian could not attend and what information was provided to them.

If the client is an adult who is competent to make decisions and who is not adjudicated, parents may not participate in the process if their participation is opposed by the client.

In the event that a non-adjudicated adult chooses not to have their family involved in the active treatment process, the surveyor should see evidence in the record of efforts made by the facility to understand why the client has declined family participation. If the client continues to decline family involvement after the facility has held discussions with him/her about the importance of this issue, the facility should honor the wishes of the client.

In general, the more involvement and communication among the team members, the client and the parent or legal guardian the more likely the plan will be successful. The facility goal should be to routinely include these parties unless rare circumstances exist.

W210

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3) Within 30 days after admission, the interdisciplinary team must perform accurate assessments or reassessments as needed to supplement the preliminary evaluation conducted prior to admission.

Guidance §483.440(c)(3)

For new admissions, the CFA is completed within 30 days after admission and is utilized as the basis for the IPP.

New, revised or updated assessments completed within the first 30 days of admission, accurately identify the functional abilities of the client.

"Accurate" assessments refer to assessment data that are current, relevant and valid, and the skills, abilities, and training needs identified by the assessment correspond to the client's actual, observed status. Assessments must be administered with appropriate adaptations such as specialized equipment, use of an interpreter, use of manual communication and tests designed to measure performance in the presence of visual disability.

The content of or format of the assessments or the particular assessment tools which are to be used for the CFA are not specified. Assessments must include identification of those functional life skills in which the client needs to be more independent and those services needed for the client to become more community integrated.

W211

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3) The comprehensive functional assessment must take into consideration the client's age (for example, child, young adult, elderly person) and the implications for active treatment at each stage, as applicable, and must -

Guidance §483.440(c)(3)

During assessment, the client is given opportunities to participate in age-appropriate activities to assess the person's functioning in those activities or settings. For example, the use of baby toys during the assessment of an adult would not be appropriate.

W212

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(i) Identify the presenting problems and disabilities and where possible, their causes;

Guidance §483.440(c)(3)(i)

The CFA includes:

- all diagnoses and developmental deficits for the client;
- the supporting information for each; and
- each evaluation should include conclusions and recommendations which go into the development of an active treatment program for the client.

W213

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(ii) Identify the client's specific developmental strengths;

Guidance §483.440(c)(3)(ii)

The client's identified developmental strengths, preferences, methods of coping/compensation, community use and awareness, friendships and positive attributes and capabilities are clearly described in functional terms in the assessments.

Identified strengths are consistent with the client's observed functional status.

W214

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(iii) Identify the client's specific developmental and behavioral management needs;

Guidance §483.440(c)(3)(iii)

The CFA must address and identify those skill deficits/needed supports that may be amenable to training, those that must be treated by therapy and/or provision of assistive technology, and those that require

adapting the environment and/or providing personal support. Assessment of needed supports should be done within the context of the client's age, gender, and culture.

"Behavioral management needs" include those behaviors that interfere with progress, prevent assimilation into the community, decrease freedom or increase the need for restriction of activities (e.g. spitting, pica, self-injurious behavior, aggressive behavior toward others or self-injurious behavior).

A functional behavioral assessment is a problem-solving process for evaluating client inappropriate behavior. It relies on a variety of techniques and strategies to identify the purpose of the specific behavior(s) and to help the IDT select interventions to directly address the behavior(s). A functional behavior assessment looks beyond the behavior itself. The focus when conducting a functional behavioral assessment is on identifying significant client-specific social, affective, cognitive, and/or environmental factors associated with the occurrence (and non-occurrence) of specific behaviors.

The CFA must identify the specific accommodations that address the client's needs to ensure better opportunity for the client's success. The identified accommodations may be assistive technology which can help a person learn, play, complete tasks, get around, communicate, hear or see better, control their own environment and take care of their personal needs (e.g. door levers instead of knobs, plate switches, audio books, etc.).

W215

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(iv) Identify the client's needs for services without regard to the actual availability of the services needed; and

Guidance §483.440(c)(3)(iv)

Identification of needed services is based on the CFA.

In the presence of significant developmental deficits, it is not acceptable for the facility to say that a particular professional therapy or treatment is not needed or not available if the CFA identifies a deficit. The assessment must identify the course of specific interventions recommended to meet the client's needs, both through direct professional services and non-professional services. For example, a client's communication skill development may not require the intensive services of a speech-language pathologist however, the direct care staff will need to work with the client and use a pre-determined communication system.

§483.440(c)(3)(v) Include

Guidance §483.440(c)(3)(v)

The CFA should include an assessment of each of the areas listed below. Assessments should include specific information about the person's ability to function in different environments, specific skills or lack of skills, and how function can be improved, either through training, environmental adaptations, or provision of adaptive, assistive, supportive, orthotic, or prosthetic equipment.

If assessments are done separately by professional disciplines, there should be evidence that the assessments are brought together in an interdisciplinary approach to address the client's various developmental areas.

The CFA must be completed upon admission and annually as indicated. While the assessment may not have the specific titles of the areas listed below, the surveyor must be able to identify information within assessments from each of the areas below.

W216

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) physical development and health,

Guidance §483.440(c)(3)(v)

Physical development and health: This portion of the CFA includes the client's developmental history, results of the physical examination conducted by a licensed physician, physician assistant, or nurse practitioner, health assessment data (including a medication and immunization history); a review and summary of all laboratory reports since the last comprehensive evaluation, a summary of all required medical interventions since the last CFA; skills of the client normally associated with the monitoring and supervision of one's own health status, and administration and/or scheduling of one's own medical treatments. Reports of all specialist consultations should be included in the assessment as indicated by physical examination results.

IDT reviews any current advanced directives that the client may have in place as part of the CFA.

W217

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) nutritional status,

Guidance §483.440(c)(3)(v)

Nutritional status: Nutritional status includes height and weight, the client's eating habits and preferences, favorite foods, determination of appropriateness of diet, adequacy of total food intake, bowel habits, means through which the client receives nutrition (e.g. feeding tube) and the skills associated with eating (including chewing, sucking and swallowing disorders).

W218

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) sensorimotor development,

Guidance §483.440(c)(3)(v)

Sensorimotor development: Sensorimotor development includes the development of perceptual skills that are involved in observing the environment and making sense of it. Identified sensory deficits should be evaluated in conjunction with the impact they will have on the client's life. A sensory deficit in eye contact may not have a detrimental effect on the client's life if it will not hold the client back from further accomplishments or skill acquisitions. Motor development includes those behaviors that primarily involve: muscular, neuromuscular, or physical skills and varying degrees of physical dexterity. Because sensory and motor development are intimately related and because activities in these areas are functionally inseparable, attention to these two aspects of bodily activity is often combined in the concept of sensorimotor development. For those motor areas that are identified by the assessment as limited, the assessment should specify the extent to which corrective, orthotic, prosthetic, or support devices would impact on functional status and the extent of time the device is to be used throughout the day.

W219

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) affective development,

Guidance §483.440(c)(3)(v)

Affective (Emotional) development: Affective or emotional development includes the development of behaviors that relate to one's interests, attitudes, values, morals, emotional feelings and emotional expressions.

W220

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) speech and language development

Guidance §483.440(c)(3)(v)

Speech and language (communication) development: One of the most contributable causes of behaviors, frustration by the clients, etc. is lack of effective communication. It is imperative that the CFA identifies

how the client communicates, what barriers are present, what services are available and what programs and services will be provided to assist the client to go out into and participate fully in the world. Observed client communication skills match the evaluation results and that training programs are in place to address needs.

Communication development refers to the development of both verbal and nonverbal and receptive and expressive communication skills. Assessment data identify the appropriate intervention strategy to be applied, and which, if any, augmentative or assistive devices will improve communication and functional status. These intervention strategies should provide the client with a viable means of communication which is appropriate to their sensory, cognitive and physical abilities.

W221

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) and auditory functioning,

Guidance §483.440(c)(3)(v)

Auditory functioning: Auditory functioning refers to the extent to which a person can hear, to the maximum use of residual hearing if a hearing loss exists, and whether or not the client will benefit from the use of amplification, including a hearing aid or a program of amplification.

W222

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) cognitive development,

Guidance §483.440(c)(3)(v)

Cognitive development: Cognitive development refers to the development of those processes by which information received by the senses is stored, recovered, and used. It includes the development of the processes and abilities involved in memory, reasoning and problem solving. It is also the identification of different learning styles the client has and those best used by the trainers. It is critical that the CFA address the individual learning style of the client in order to best direct the way the trainers will teach formal and informal programs.

W223

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) social development,

Guidance §483.440(c)(3)(v)

Social Development: Social development refers to the formation of those self-help, recreation and leisure, and interpersonal skills that enable a client to establish and maintain appropriate roles and fulfilling relationships with others. Assessments may address family supports and relationships, sexual awareness and sexuality, friendships, social awareness, social skills and social interests.

W224

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) adaptive behaviors or independent living skills necessary for the client to be able to function in the community,

Guidance §483.440(c)(3)(v)

Adaptive behaviors or independent living skills: Adaptive behavior refers to the effectiveness or degree with which clients meet the standards of personal independence and social responsibility and community orientation and integration expected of their age and cultural group. Adaptive behaviors are those behaviors that are developed to cope with deficits in order to be able to perform every day skills as independently as possible. Independent living skills include, but are not limited to, such things as food shopping, meal preparation, housekeeping and kitchen chores, laundry, bed making, and budgeting. Assessment may be

performed by anyone trained to do so. Standardized tests are not required. Standardized adaptive behavior scales which identify all or predominantly all "developmental needs" are not sufficient to meet this requirement, but can serve as a basis for screening.

W225

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(3)(v) and as applicable, vocational skills.

Guidance §483.440(c)(3)(v)

Vocational development, "as applicable": Vocational development refers to work interests, work skills, work attitudes, work-related behaviors, and present and future employment options. The determination of whether or not a vocational assessment is "applicable" is typically based on age (adolescents or adults more than likely require this type of assessment). The vocational assessment for each client may address job sampling, job development, on-site job training and long term follow-up, as appropriate to the client and determined by the IDT.

Vocational assessments should describe, for all domains, what clients can and cannot do in terms of skills needed within the context of their daily lives and jobs.

Assessments should be individualized and based on:

- Actual performance of the client against objective criteria;
- Reports by staff/parents/legal guardians; and
- Observed performance in a variety of settings.

W226

§483.440(c)(4) Within 30 days after admission, the interdisciplinary team must prepare for each client an individual program plan

W227

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(4) that states the specific objectives necessary to meet the client's needs, as identified by the comprehensive assessment required by paragraph (c)(3) of this section,

Guidance §483.440(c)(4)

Objectives are developed for those needs that are identified by the CFA and which are considered to be most likely to improve the client's ability to independently function in his/her daily life, as determined by the IDT.

There is a clear link between the specific objectives and the functional assessment data and recommendations.

Objectives are developed for those needs that are observed to most likely impact the client's ability to function in daily life. Training objectives should be developed to address client needs rather than staff oriented objectives.

Clients are expected to have training objectives in the areas of activities of daily living, based on the client's assessed needs and as prioritized by the IDT. If clients have eyeglasses, dentures and/or other assistive devices it is expected that the team considers objectives, based upon the assessment of client needs, addressing the care and use of such devices. However, in the area of programs to teach the clients' money management it is not expected that every client will automatically have a formal training objective to participate in such a program. The decision to prioritize such a program and to what level the program is developed is decided by the IDT based upon the results of the CFA and in consideration of such factors as, transferable skills, the ability to make choices, the ability to identify preferences and cognitive abilities such as attention span and an understanding of the principle of cause and effect.

Similarly, the decision to prioritize and develop a training objective for a client to participate in a self-administration program for medications must be made by the IDT and be based upon information from the CFA. Formal self administration programs should not be confused with informal efforts to include the client in the administration process such as allowing them to hold a glass of water, identify the box where his/her medications are stored or put a pill into their own mouth themselves under the supervision of a person who is qualified to administer medications.

W228

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(4) and the planned sequence for dealing with those objectives.

Guidance §483.440(c)(4)

The objectives identified in W227 are organized in a logical sequence, determined by the team that will assist the client toward the attainment of skills resulting in greater self- choice, independence, and community integration. The logical sequencing of objectives means there is a completion of one objective that serves as the building block for the next with relevance to the client's functional status. Where objectives are logically ordered but do not have relevance to the client's functional status, refer to 483.440(c)(4).

If the IPP is organized in a logical sequence, this requirement is met. For example, if the long term goal is to travel independently in the community, the objective sequencing may involve training the client to recognize traffic signs, cross the street safely, and to obtain help when needed if lost or an emergency arises.

These objectives must –

W229

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(4)(i) Be stated separately, in terms of a single behavioral outcome;

Guidance §483.440(c)(4)(i)

Each objective clearly states one expected learning result.

"Single" behavioral outcome means that there is a separate objective assigned for each discrete behavior that the team intends the client to learn. For example, "Mary will bake a cake and clean the oven" are two separate behaviors and, therefore, should be stated in two separate objectives. Completion of the morning hygiene routine includes programs for performance of face washing, tooth brushing and hair combing which are three separate objectives; however, the behavioral outcome for each would be the same (e.g. completion of the morning hygiene routine).

W230

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(4)(ii) Be assigned projected completion dates;

Guidance §483.440(c)(4)(ii)

Completion dates are based on the client's rate of learning.

Completion dates are assigned to each objective on which the client is currently working. Completion dates are individualized (e.g. not all the same for all clients and all objectives).

The "projected date of completion" for an IPP objective is <u>not</u> the same as a "review" date. For each objective assigned a priority, the team should assign a projected date (month and year) by which it believes the client will have learned the new skill, based on all of the assessment data. This date triggers the team to evaluate continuously whether or not the client's progress or learning curve is sufficient to warrant a revision to the training program.

W231

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(4)(iii) Be expressed in behavioral terms that provide measurable indices of performance;

Guidance §483.440(c)(4)(iii)

The desired learning outcome is stated in a manner which enables all staff working with the client to consistently identify the target behavior and to clearly identify when it is being displayed.

The objective is stated in a manner which permits it to be measured with quantifiable data.

"Behavioral" terms include only those behaviors which are "client" rather than staff oriented and those that any person would agree can be seen or heard. Determine if all staff who work with the client can define the exact same outcome on which to measure the client's performance.

"Measurable indices of performance" are the quantifiable criteria to use in determining successful achievement of the objective. Quantifiable criteria include various measurements of intensity and duration. For example, "Client X will walk ten feet, with the use of her tripod walker, on each of five (5) consecutive days."

W232

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(4)(iv) Be organized to reflect a developmental progression appropriate to the individual; and

Guidance §483.440(c)(4)(iv)

Objectives must be relevant to the client's current skill sets and abilities as identified in the CFA.

The ICF/IID must consider the person's current functional abilities and project what steps, methods, and strategies are likely to be effective in achieving the objective.

W233

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(4)(v) Be assigned priorities.

Guidance §483.440(c)(4)(v)

Priorities are established based on the needs and in consideration of the desires of the client and emphasize the development of greater independence, self-choice, and community integration.

The team determines which objectives are the highest priority to be addressed, either because the client has an immediate need or the priority objectives must be accomplished before other priorities are addressed.

§483.440(c)(5) Each written training program designed to implement the objectives in the individual program plan must specify:

Guidance §483.440(c)(5)

The following regulations (5) (i-iv) apply to formal training programs developed for current implementation.

W234

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(5)(i) The methods to be used;

Guidance §483.440(c)(5)(i)

The training program provides clear directions to any staff person working with the client on how to implement the teaching strategies. To comply with this requirement the methodologies must be written in a clear enough manner that a substitute staff person will be able to read the methodologies and implement them without substantial differences from a regularly assigned staff person. Methodologies should be consistent across settings, such as when the client is in the day program.

W235

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(5)(ii) The schedule for use of the method;

Guidance §483.440(c)(5)(ii)

Active treatment (the implementation of training programs pursuant to objectives) should be provided in formal and informal settings throughout the rhythm of the client's day. While there may be structured episodes when the client works intensively and singularly on one or more objectives (schedule), the provision of active treatment is not adequate when confined solely to these types of formal settings but should be incorporated into all activities when appropriate (client's routine). For example, objectives on grasping may be as effectively carried out during the client's use of a toothbrush and a spoon as in an isolated session.

W236

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(5)(iii) The person responsible for the program;

Guidance §483.440(c)(4)(v)

The IPP should include the actual name of the staff person who is responsible for the ongoing monitoring of the client's program to ensure it is being implemented appropriately, as well as the designated position which will implement the program.

The QIDP should be familiar with the assessment and recording requirements for each client for each formal objective, including who is responsible for making these observations and completing the recording, and demonstrate a familiarity with the current data recorded for each client.

W237

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(5)(iv) The type of data and frequency of data collection necessary to be able to assess progress toward the desired objectives;

Guidance §483.440(c)(5)(iv)

The IDT must determine the type of data necessary to judge a client's progress on an objective, and describe the data collection method in the written training program. The facility determines what data to collect, but whatever system is chosen for collection must yield accurate measurement of the criteria stated in the client's IPP objectives. For example, if the criteria in the client's IPP objective specified a behavior to be measured by "accuracy," or "successes out of opportunities," then it would not be acceptable for the prescribed data collection method to record "level of prompt".

Examples of a few data collection systems include, but are not limited to:

- level of prompt;
- successful trials completed out of opportunities given;
- frequency counts; and
- frequency sampling.

The IDT must consider and select the type and frequency of data collection for each objective based upon the need to measure appropriately the client's performance toward the targeted IPP skill development. The facility should collect data with enough frequency and content to be able to appropriately measure the client's performance toward the targeted IPP skill development. The frequency of data collection may vary with the objective but must be made at sufficient intervals to allow analysis of the progress of the client.

W238

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(5)(v) The inappropriate client behavior(s), if applicable; and The inappropriate client behavior(s), if applicable; and

Guidance §483.440(c)(5)(v)

Any specific behaviors which would interfere with the client's ability to function in, or benefit from the training program are identified (e.g. a fear of water could interfere with the client's bathing program).

W239

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(5)(vi) Provision for the appropriate expression of behavior and the replacement of inappropriate behavior, if applicable, with behavior that is adaptive or appropriate.

Guidance §483.440(c)(5)(vi)

The training program provides specific information as to how to elicit or strengthen appropriate behavior and what behaviors to teach reinforce or encourage which would reduce or replace the inappropriate behavior.

If a client is exhibiting an inappropriate behavior, the CFA should discover why the behavior is occurring and the team should develop associated training objectives to help the client develop more appropriate behaviors. The objective for decelerating targeted inappropriate behaviors is not solely the reduction of these behaviors. The objective should also include the positive functional replacement behavior (adaptive behavior).

A replacement behavior allows a client to substitute an unconstructive or disruptive behavior with something more constructive and functionally equivalent. For example, instead of throwing work materials as a way to get a break from vocational task demands, teach the client to say or sign for 'break'.

§483.440(c)(6) The individual program plan must also:

W240

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(6)(i) Describe relevant interventions to support the individual toward independence.

Guidance §483.440(c)(6)(i)

Appropriate materials, adaptations and modifications to equipment and the environment are available in order to promote and support individual training programs. Examples may include, but are not limited, to built-up toilet seats, adaptive eating utensils, extended reach devices, and modification to the facility van to accommodate a wheelchair.

The IPP describes supports and services, in addition to the individual goals and objectives that will be provided by the facility to assist the client to function with greater independence.

W241

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(6)(ii) Identify the location where program strategy information (which must be accessible to any person responsible for implementation) can be found.

Guidance §483.440(c)(6)(ii)

This requirement refers to the training program plans, objectives, descriptions of staff interventions and data collection tools which must be readily accessible to any staff in order for the programs to be consistently and effectively carried out and data collected.

W242

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(6)(iii) Include, for those clients who lack them, training in personal skills essential for privacy and independence (including, but not limited to, toilet training, personal hygiene, dental hygiene, self-feeding, bathing, dressing, grooming, and communication of basic needs), until it has been demonstrated that the client is developmentally incapable of acquiring them.

Guidance §483.440(c)(6)(iii)

All clients who lack the skills listed within this standard have associated training programs developed to meet their needs according to prioritization. These programs are consistently implemented in both formal and informal settings.

"Developmentally incapable" is a decision made by the IDT that means a client does not have the capacity to acquire certain skill sets. The decision must be based on an assessment of the client's strengths, needs, and functional limitations.

The determination of developmental incapability must be accompanied by written evidence supporting this determination.

Such evidence may include training programs which failed after many different strategies were tried, or physical limitations that preclude the acquisition of the skill. Examples are:

1) Eye contact program was attempted using seven different methods over a two year period;

2) An client has two frozen elbow joints which do not allow her to get her hands to her mouth and consequently she will not be trained on any hand to mouth skills; and

3) Some clients may have insufficient neuromuscular and sensory control to ever be totally independent in toileting skills.

Toilet scheduling alone without any plan to progress would not be considered a toilet training program.

The components of functional skills "training" as used in this regulation means aggressive implementation of a systematic program of formal and informal techniques, which are:

- targeted toward assisting the client achieving the measurable behavioral level of skill competency specified in IPP objectives;
- implemented at natural occurrences of activity and training programs; (e.g.: an objective for a client to increase grasping may be implemented as easily in the workshop with a built up tool as in the bathroom with a toothbrush);
- conducted by all personnel involved with the client including those outside the home such as in day programs; and
- carried out in conversation and interaction with the client appropriate to the situation.

§483.440(c)(6)(iv) Identify mechanical supports, if needed, to achieve proper body position, balance, or alignment. The plan must specify

Guidance §483.440(c)(6)(iv)

The use of mechanical supports are based upon an individual assessment and fitting. Mechanical devices are used to support a client's proper body position or alignment and may be essential to prevent contractures or deformities. However, mechanical supports restrict movement and the client should be released from the support periodically for exercise and free movement. Mechanical supports may not be used as a substitute for programs or therapy. For example, the use of a bolster to position a client upright in a sitting position without any indication there has been an assessment for the need for muscle re-training may be an indication of a mechanical device in lieu of programming. Some supports allow movement and provide opportunity for more increased functioning. Some examples of devices used as mechanical supports include splints, wedges, bolsters, lap trays, etc.

Wheelchairs are not generally used to position or align the body and would not alone constitute a mechanical support. However, adaptations to a wheelchair which facilitate correct body alignment by inhibiting reflexive, involuntary motor activity are mechanical supports and should be included in the plan for the client.

W243

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(6)(iv) the reason for each support,

W244
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.440(c)(6)(iv) the situations in which each is to be applied,
W245
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.440(c)(6)(iv) and a schedule for the use of each support.
W246
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.440(c)(6)(v) Provide that clients who have multiple disabling conditions spend a major portion of each waking day out of bed and outside the bedroom area, moving about by various methods and devices whenever possible.
Guidance §483.440(c)(6)(v)
Clients with sensory or physical difficulties should be given the same opportunities to move around in their environments as clients who do not have those difficulties. Even clients who use specialized wheelchairs should be given the opportunity to utilize other devices such as walkers, wagons and scooters to move about and/or change their positions.
With the exception of those clients who are acutely ill (such as those who are hospitalized or incapacitated by a "short term" illness), all clients should be out of bed and outside their bedroom area as long as possible each day, and in proper body alignment at all times. This is a necessity in order to prevent regression, contractures, and deformities and to provide sensory stimulation.
Bed rest is a temporary situation associated most usually with a medical condition and must be ordered by the medical staff of the facility. The term implies that the client will remain in his/her bed for most of any 24-hour period. Although active treatment programs may be carried out to some extent while the client is on bed rest, the client's program cannot be completed in its entirety. While there may be situations where continuous bed rest may be necessary, these situations are rare.
For those rare instances where out-of-bed activity is a threat to a client's health and safety (e.g., blood clot in the leg), active treatment adapted to the medical capacity of the client must be continued.
W247
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.440(c)(6)(vi) Include opportunities for client choice and self-management.
Guidance §483.440(c)(6)(vi)
Choice and self-management are integral components of becoming independent. Clients should be given opportunities for choice and self-management in both formal and informal settings through the IPP process, leisure activities, and other life choices.
The ICF/IID must incorporate opportunities into daily life experiences that promote choice making and decision making by clients. Examples of some activities leading toward responsibility for one's own self-management include, but are not limited to:

1) choosing housing or roommates;
2) choosing clothing to purchase or wear;
3) choosing what, where, and how to eat (e.g., the use of family style dining, access to condiments and second helpings).

Choices can be made by all clients. The type of choices the person makes may vary from simple to complex, dependent upon client abilities.
Clients are provided opportunities for choice and self-management and the facility does not limit choices by making decisions for the people being served without their input. Clients are provided the opportunity to

demonstrate skills to the degree they are capable and only assisted by staff as indicated in their IPP. A lack of facility staffing or staff convenience must not result in a limitation of choices of self-management for the clients.

W248

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(c)(7) A copy of each client's individual plan must be made available to all relevant staff, including staff of other agencies who work with the client, and to the client, parents (if the client is a minor) or legal guardian.

Guidance §483.440(c)(7)

The client or legal representative, as well as the facility staff, and staff from outside agencies, with appropriate consent, have, or can access, a copy of the IPP.

(d) Standard: Program implementation

W249

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(d)(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.

Guidance §483.440(d)(1)

There should be no delay in the development and implementation of the IPP. To promote a team process and meaningful discussion, IPP development should take place during IDT meetings. Any IPP objective or modification that is critical to the health and safety of any client should be implemented immediately following IDT discussion."

Each individual receives training and services consistent with the current IPP.

The time period between admission and the 30 day IDT meeting is primarily to assist the client to become adjusted and acclimated to his or her new living environment and to enable the facility to complete the CFA. During this time period the facility should also be providing those services and activities determined during the pre-admission assessment as essential to the client's daily functioning.

The active treatment program for the client is consistently implemented in all relevant settings both formally and informally as opportunities present themselves. It should not be limited to specific periods of time during the day or specific environments.

Each client should receive aggressive and continuous training, treatments and supports in accordance with their needs and IPP. New skills and appropriate behaviors are encouraged and reinforced across environments and times of day.

- During observations confirm that the client activities relate directly to the strengths, needs and objectives in the IPP for each client and are not "busy work," generalized or non-developmental time fillers. For example, screwing nuts on bolts and then unscrewing them repeatedly with no goal or transferable skills is "busy work." Screwing nuts on bolts that will be part of a product is functional reinforcement of skill acquisition.
- Clients use adaptive equipment, assistive devices, environmental supports, materials, supplies, etc., as specified in each client's IPP to assist the client to accomplish stated objectives.

There is no specific number or frequency of interventions that meets this requirement. The surveyors should see that the facility capitalizes on all opportunities throughout the course of the day that promote progress toward the achievement of goals and objectives.

Informal opportunities (“teachable moments”) should be utilized to reinforce learning or appropriate skill development and needs are addressed as they present.

Although a client may not be able to reach complete independence in a functional skill, it is crucial that retention of their current skills be supported.

Clients may have defined periods of time where they may engage in leisure activities of their choice which are not necessarily directly associated with their IPP goals and objectives.

W250

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(d)(2) The facility must develop an active treatment schedule that outlines the current active treatment program and that is readily available for review by relevant staff.

Guidance §483.440(d)(2)

The schedule is individualized, consistent with the client’s objectives, and reflects normal daily routines.

The staff working with individual clients are familiar with their daily schedules and can produce the schedule upon request.

The active treatment schedule allows flexibility and is adjusted to the needs and preferences of the client, as necessary. It’s a schedule of the client’s general daily plans, but can be changed.

The active treatment schedule is a functional schedule which enables client and staff to be in the right location in order to participate in the training as scheduled by the IPP.

W251

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(d)(3) Except for those facets of the individual program plan that must be implemented only by licensed personnel, each client’s individual program plan must be implemented by all staff who work with the client, including professional, paraprofessional and nonprofessional staff.

Guidance §483.440(d)(3)

All disciplines, including direct care staff, interacting with the client work together to provide a uniform, consistent approach to implementation of the IPP.

(e) Standard: Program documentation

W252

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(e)(1) Data relative to accomplishment of the criteria specified in client individual program plan objectives must be documented in measurable terms.

Guidance §483.440(e)(1)

“Data” are defined to be performance information collected and reported in numerical or quantifiable form for each training objective assigned priority in the IPP.

Data are those performance measurements collected at the time the treatment, procedure, intervention or interaction occurs with the client and recorded as soon as possible. The data should be located in a place accessible to staff who conduct training.

Data should be collected in a form and frequency as required by the plan to enable quantitative (frequency or numbers) analysis of the client’s progress.

Data are accurate (e.g., reflective of actual client performance.)

§483.440(e)(2) The facility must document significant events that

W253

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(e)(2) are related to the client’s individual program plan and assessments and

Guidance §483.440(e)(2)

Significant events are those events which would cause a reasonable person to be affected and which impact a normal routine. Such events include changes in the client's functional status, emotional health, physical health, accomplishments, activities or needs which impact the CFA and IPP, as well as instances of abuse, neglect or mistreatment.

The client record should contain documentation that such events are evaluated and monitored.

W254

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(e)(2) that contribute to an overall understanding of the client's ongoing level and quality of functioning.

(f) Standard: Program monitoring and change

§483.440(f)(1) The individual program plan must be reviewed at least by the qualified intellectual disability professional and revised as necessary, including, but not limited to situations in which the client- -

Guidance §483.440(f)(1)

Program implementation is a critical piece of each client's active treatment program. The QIDP must review or revise client programs according to 483.440(f)(1)(i-iv) and at such an interval that any of the requirements are promptly identified and addressed.

W255

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(1)(i) Has successfully completed an objective or objectives identified in the individual program plan;

Guidance §483.440(f)(1)(i)

The QIDP ensures the program has been modified or changed in response to the client's specific accomplishments or need for new program.

W256

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(1)(ii) Is regressing or losing skills already gained;

W257

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(1)(iii) Is failing to progress toward identified objectives after reasonable efforts have been made; or

Guidance §483.440(f)(1)(iii)

There should be evidence that the QIDP has reviewed and revised the IPP in those situations when the client's IPP has been consistently implemented yet the client fails to achieve their objectives.

W258

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(1)(iv) Is being considered for training towards new objectives.

§483.440(f)(2) At least annually,

Guidance §483.440(f)(2)

For the "annual" review to meet this requirement, it must be completed by at least the 365th day following the previous review, unless in an isolated or rare instance a client or the client's family is not available for a projected period of time and the subsequent delay is a minimal number of days.

W259

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(2) the comprehensive functional assessment of each client must be reviewed by the interdisciplinary team for relevancy and updated as needed;

Guidance §483.440(f)(2)

The CFA is reviewed at least annually.

The review of the CFA occurs sooner than annually if:

- indicated by the needs of the client;
- reflects any changes in the client since their last evaluation; and
- incorporates information about the client's progress or regression with objectives.

The review of the CFA applies to all evaluations conducted for a client. It is not required that each assessment be completely redone each year, except the physical examination. It is required that at least annually the assessment(s) be updated when changes occur so as to accurately reflect the client's current status.

W260

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(2) and the individual program plan must be revised, as appropriate, repeating the process set forth in paragraph (c) of this section.

Guidance §483.440(f)(2)

The IPP reflects the functional changes for the client which occurred since the last IPP. It is unlikely that an active treatment program will have no changes from year to year without documentation to support not changing the plan. Question an IPP that is a duplication of the prior year's plan without explanation.

W261

(Rev. 144, Issued: 08-14-15, Effective: 08-14-15, Implementation: 08-14-15)

§483.440(f)(3) The facility must designate and use a specially constituted committee or committees consisting of members of facility staff, parents, legal guardians, clients (as appropriate), qualified persons who have either experience or training in contemporary practices to change inappropriate client behavior, and persons with no ownership or controlling interest in the facility to- -

Guidance §483.440(f)(3)

The facility must have a specially constituted committee whose primary function is to proactively protect client rights by monitoring facility practices and programs. The purpose of the committee is to assure that each client's rights are protected utilizing a group of both internal staff and *external participants who have no vested interest in the facility as well as clients as appropriate*. There should be evidence that the committee members have been trained annually on the rights of the clients, what constitutes a restriction of a right and the difference between punishment and training.

Depending on size, complexity and available resources, the ICF/IID may establish more than one specially constituted committee. However, each committee must contain the required membership and participate regularly and perform the functions of the committee according to the requirements. Participation on the specially constituted committee(s) must be in real time allowing all membership to speak and discuss in an interactive mode.

The regulation does not specify the professional credentials of the "qualified persons" (who have either experience or training in contemporary practices to change inappropriate client behavior). There is no requirement that any specific discipline, such as nurse, physician or pharmacist be a member of the committee.

The intent of including "persons with no ownership or controlling interest" on the committee is to assure that, in addition to having no financial interest in the facility, at least one member of each constituted committee is an impartial outsider in that he/she would not have an "interest" represented by any other

of the required members or the facility itself. Staff and consultants employed by the facility or at another facility under the same governing body, cannot fulfill the role of person with no ownership or controlling interest.

Although occasional absences from committee meetings are understandable, patterns of absence by the required membership of the committee is not acceptable. At least a quorum of committee members (as defined by the facility) must review, approve and monitor the programs which involve risk to client rights and protections and that quorum must include one person from each of the required categories.

W262

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(3)(i) Review, approve, and monitor individual programs designed to manage inappropriate behavior and other programs that, in the opinion of the committee, involve risks to client protection and rights;

Guidance §483.440(f)(3)(i)

Any program that utilizes restrictive or intrusive techniques must be reviewed and approved by the specially constituted committee prior to implementation. This includes, but is not limited to:

- restraints;
- drugs to manage behavior;
- restrictions on community access;
- contingent denial of any right; or
- restrictions of materials or locations in the home.

The committee should ensure that consequences within a written behavior management program do not violate the client's rights.

There is no requirement for the committee to evaluate whether the proposed program is consistent with current practices in the field. Documentation should verify that the specially constituted committee considered factors, such as whether less intrusive methods have been attempted, whether the severity of behavior outweighs the risks of the proposed program and whether replacement behaviors are included within the plan.

Any revision to a behavior plan that increases the level of intrusiveness must be re- reviewed by the specially constituted committee. The committee need not reapprove a program when revisions are made in accordance with the approved plan. For example, if the physician changes the dosage of a medication in accordance with the drug treatment component of the active treatment plan to which the legally authorized person has given consent and which has already been approved by the committee, then there is no need for the committee or the legally authorized person to reapprove the plan. Generally, this would also apply if the medication was changed to another within the same therapeutic class or family.

W263

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(3)(ii) Insure that these programs are conducted only with the written informed consent of the client, parents (if the client is a minor) or legal guardian; and

Guidance §483.440(f)(3)(ii)

The committee must ensure that written informed consent must be obtained prior to implementation of any restrictive or intrusive program. In the event of an emergency, the facility may obtain a verbal consent, which must be authenticated in writing as soon as possible and subsequently submitted to the committee as verification.

The consent is required for the entire behavior management program not just the specific restrictive technique.

Consent is informed when the person giving consent is fully aware of the:

- specific treatment;
- reason for treatment or procedure;;
- the attendant risks vs. benefits;
- alternatives;
- right to refuse; and
- the consequences associated with consent or refusal of the program.

Informed consent must be in writing and must be specific to the program and restrictive practice and reflect a specific time frame. Blanket consents are not allowed. In the case of unplanned events such as assault and property destruction requiring immediate action, verbal consent may be obtained. However, it should be authenticated in writing as soon as reasonably possible (within 30 days).

For clients up to the age of 18, their parent or legally appointed guardian must give consent for him or her. At the age of 18, however, clients become adults and are assumed to be competent unless otherwise determined by a court.

For clients who are adults and have not been adjudicated incompetent and have not been assigned a legal guardian who may not fully understand the consequences of the program, informed consent for use of restrictive programs, practices or procedures should be obtained from a person or an entity in accordance with state law, to act as the representative or advocate of the client's interests.

The specially constituted committee must ensure that the informed and voluntary consent of the client, parent of a minor, legal guardian, or the person or organization designated by the state is obtained prior to each of the following circumstances:

- The involvement of the client in research activities; or
- Implementation of programs or practices that could abridge or involve risks to client protections or rights.

W264

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.440(f)(3)(iii) Review, monitor and make suggestions to the facility about its practices and programs as they relate to drug usage, physical restraints, time-out rooms, application of painful or noxious stimuli, control of inappropriate behavior, protection of client rights and funds, and any other areas that the committee believes need to be addressed.

Guidance §483.440(f)(3)(iii)

The committee has been made aware of and reviewed:

- facility policies and procedures;
- facility services;
- programs; and
- practices which may restrict or violate the rights of client.

The committee has established and uses a mechanism for monitoring clients' rights issues and informs the governing body of any issues of concern in a timely manner. This process is at the discretion of the committee. There is no requirement for periodic review of the policies by the committee.

The function of the committee is not limited to the review, approval and monitoring of restrictive behavior management practices. Examples of issues involving client rights that might be reviewed by the committee, in addition to behavior management, include, but are not limited to:

1) Research proposals involving clients;
2) Abuse, neglect and mistreatment of clients;
3) Allegations dealing with theft of a client's personal property or funds;

4) Damage to a client's goods or denial of other client rights;

5) Client grievances;

6) Visitation procedures;

7) Guardianship/advocacy issues;

8) Rights training programs;

9) Confidentiality issues;

10) Advance directives/DNR orders;

11) Practices which restrict clients (e.g., locked doors, fenced in yards); and

12) Video monitoring.

W265

§483.440(f)(4) The provisions of paragraph (f)(3) of this section may be modified only if, in the judgment of the State survey agency, Court decrees, State law or regulations provide for equivalent client protection and consultation.

W266

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450 Condition of participation: Client behavior and facility practices

(a) Standard: Facility practices-- Conduct toward clients

W267

(Rev.135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(a)(1) The facility must develop and implement written policies and procedures for the management of conduct between staff and clients.

Guidance §483.450(a)(1)

The primary survey emphasis is on the implementation of the policies and procedures developed by the facility.

Conduct between staff and clients refers to language, actions, discipline, rules, order and other types of interactions exchanged between staff and clients or imposed upon clients by the staff during a client's daily experiences that affect the quality of a client's life.

§483.450(a)(1) These policies and procedures must –

W268

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(a)(1)(i) Promote the growth, development and independence of the client;

Guidance §483.450(a)(1)(i)

Consistent with facility policies, staff is observed to be engaged in activities which promote the client's growth, development and independence.

1) IPPs and data support the fact that from the time of admission, clients are learning new adaptive and functional skills while becoming more independent.

2) Interactions between clients and staff are consistent and positive.

3) Staff teach and encourage clients to interact with each other in a manner that promotes social integration both in the facility and out in the community.

4) All opportunities to teach and reinforce skill acquisition are utilized.

5) Staff identify and remove impediments in the learning environment (e.g. client is unable to concentrate in a room with a television because when they see the television, they want to watch their favorite show. Staff must identify this learning impediment and train in an environment without a television).

6) Staff encourage clients to complete tasks with as much independence as possible.

7) Staff encourage clients to take risks while providing reasonable safeguards to prevent injury.

8) Encourage clients to make choices during their daily activities.

W269

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(a)(1)(ii) Address the extent to which client choice will be accommodated in daily decision-making, emphasizing self-determination and self-management, to the extent possible;

Guidance §483.450(a)(1)(ii)

Written facility policies describe how the facility will offer choice to the clients during the course of their day.

Written policies describe how self-determination, as defined by free choice of one's own acts and decisions without external coercion or direction, to the extent possible and self- management, as defined by control of one's own routine and daily responsibilities, to the extent possible, are incorporated into the development of program plans and daily routines.

W270

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(a)(1)(iii) Specify client conduct to be allowed or not allowed; and

Guidance §483.450(a)(1)(iii)

"Client conduct" refers to any behavior, choice, action, or activity in which a client may choose to engage alone or with others.

Written policies and procedures which may be in the form of "house rules", must not impinge on individual client rights and must not be used as a substitute for the development of individualized programs and plans.

W271

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(a)(1)(iv) Be available to all staff, clients, parents of minor children, and legal guardians.

Guidance §483.450(a)(1)(iv)

Policies and procedures for management of conduct between staff and clients (483.450(a)(1)) should be provided to clients, parents of minor children, and legal guardians at admission and upon request. Policies and procedures are available on the residential and program areas if these are in separate buildings.

W272

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(a)(2) To the extent possible, clients must participate in the formulation of these policies and procedures.

Guidance §483.450(a)(2)

"To the extent possible" does not mean that the clients are excluded due to the clients' schedule or intellectual or developmental level. Facilities should be able to provide documentation that substantiates that clients were offered the opportunity and participated in the development of the policies. This could be accomplished through client committees or in house meetings. There should be documentation of these discussions between the client representatives and the facility.

W273

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(a)(3) Clients must not discipline other clients, except as part of an organized system of self-government, as set forth in facility policy.

Guidance §483.450(a)(3)

Staff will promptly intervene when any clients tries to independently impose discipline upon another client. For example, a client who is serving dessert to the group withholds dessert from another client based upon their own evaluation of that client's behavior.

(b) Standard: Management of inappropriate client behavior

W274

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(1) The facility must develop and implement written policies and procedures that govern the management of inappropriate client behavior

Guidance §483.450(b)(1)

At a minimum, the facility must have written policies and procedures regarding the management of maladaptive behaviors addressing the following:

483.450(b)(1) (W 275 – W284).

- the use of a functional behavior assessment in the development of behavior management programs;
- a hierarchy of least to most intrusive measures; and
- incorporation of behavior management programs into the IPP.

§483.450(b)(1) These policies and procedures must be

W275

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(1) consistent with the provisions of paragraph (a) of this section.

§483.450(b)(1) These procedures must

W276

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(1)(i) Specify all facility approved interventions to manage inappropriate client behavior;

Guidance §483.450(b)(1)(i)

All interventions for the management of inappropriate client behaviors which are approved for use in the facility are clearly stated and described in its policy. Examples of positive interventions include, but are not limited to, verbal praise reward systems, and prompting. Examples of negative interventions include, but are not limited to, removal of a privilege, implementation of restraint, and/or the use of exclusionary time out.

W277

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(1)(ii) Designate these interventions on a hierarchy to be implemented, ranging from most positive or least intrusive, to least positive or most intrusive;

Guidance §483.450(b)(1)(ii)

Policies and procedures must include a clear progression as to how staff implement interventions to manage inappropriate client behavior.

Facility policy and procedures must define the entire hierarchy of possible interventions from the most positive, functionally appropriate approaches to most intrusive approaches authorized. The facility determines at what level in the hierarchy the IPP will begin for each client based on their individual assessment. The plan must still begin at the least intrusive technique shown effective for that client. Individual plans should specify the specific techniques that have been determined through assessment to be least restrictive for each client.

The facility policy for unexpected behavioral incidents must provide direction for the staff in the utilization of the hierarchy. For clients not on a behavior plan, staff must apply the appropriate level of intervention per the established hierarchy, including emergency measures to prevent harm to self or others.

W278
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(b)(1)(iii) Insure prior to the use of more restrictive techniques, that the client's record documents that programs incorporating the use of less intrusive or more positive techniques have been tried systematically and demonstrated to be ineffective; and
Guidance §483.450(b)(1)(iii)
Policies must be implemented to ensure that all restrictive procedures begin at the lowest level of the hierarchy unless there is documented evidence that less intrusive interventions have been tried and have been found to be ineffective.
The facility is not required to justify discontinuing the use of a more restrictive technique before initiating a less restrictive technique, since the intent of the regulation is to use the most positive, least intrusive technique possible.
In emergency situations where an unanticipated behavior requires immediate protection of the client or others, the technique chosen is the least restrictive appropriate technique possible.
§483.450(b)(1)(iv) Address the following:
W279
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(b)(1)(iv)(A) The use of time-out rooms;
Guidance §483.450(b)(1)(iv)(A)
"Time-out room" is defined as a separate room that is used to remove a client from stimulation that may be triggering and reinforcing maladaptive behavior. The facility must have written policies and procedures for the use of time out rooms which address all the requirements of 483.450 (c) (1-4) standard: time out room.
W280
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(b)(1)(iv)(B) The use of physical restraints;
Guidance §483.450(b)(1)(iv)(B)
"Physical restraint" is defined as any manual hold or mechanical device that the client cannot remove easily, and which restricts the free movement of, normal functioning of, or normal access to a portion or portions of a client's body. Examples of mechanical devices may include arm splints and mittens.
Policies and Procedures must address:

- the types of physical restraint that are allowed in the facility;
- the persons who apply such restraints;
- the parameters for duration of application;
- the methods that assure the health and safety of clients while in restraints; and
- the specific training required for staff allowed to apply such restraints.

W281
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(b)(1)(iv)(C) The use of drugs to manage inappropriate behavior;
Guidance §483.450(b)(1)(iv)(C)
Applicable policies may include a discussion of:
When a drug can be used to manage inappropriate behavior;
Consistency with diagnosis;
Alternatives tried before a drug is used;
Precautions that must be followed prior to and during the use (lab values, monitoring of side effects);
Implementation of a plan to address the behaviors for which the drug was prescribed; and

Plan to reduce the medication as appropriate.

Drugs to manage inappropriate behavior are defined as any medication prescribed and administered for purposes of modifying the maladaptive behavior of a client.

W282

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(1)(iv)(D) The application of painful or noxious stimuli;

Guidance §483.450(b)(1)(iv)(D)

"Application of painful or noxious stimuli" is defined as any procedure by which staff apply, contingent upon the exhibition of maladaptive behavior, startling, unpleasant, or painful stimuli, or stimuli that have a potentially noxious effect.

While the regulation permits the use of painful or noxious stimuli these techniques are the last resort and can only be utilized for behaviors that are causing significant harm and have not responded to competently administered interventions of less intrusive nature.

Facility policies must state that:

- The use of noxious stimuli is only permitted when the client exhibits behaviors so severe that they present a potential risk for significant or even life-threatening circumstances;
- the IDT and facility must weigh the potential risk of the behavior against the risk involved in the use of the painful or noxious techniques to manage behavior;
- that safeguards and strict oversight must be in place for consideration to use techniques that may be painful or even unpleasant;
- techniques that may be painful or noxious must be time limited;
- the proposed use of these techniques requires scrutiny of clinical effectiveness and specially constituted committee review; and
- on-going monitoring and safeguards must be in place during implementation of the technique.

W283

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(1)(iv)(E) The staff members who may authorize the use of specified interventions;

Guidance §483.450(b)(1)(iv)(E)

W284

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(1)(iv)(F) A mechanism for monitoring and controlling the use of interventions.

Guidance §483.450(b)(1)(iv)(F)

Facility policies must address what supervisory oversight is provided during the application of the intervention in order to ensure that procedures were followed correctly. Procedures should also address what retrospective analysis is done on each intervention to ensure that procedures are being consistently followed.

W285

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(2) Interventions to manage inappropriate client behavior must be employed with sufficient safeguards and supervision to ensure that the safety, welfare and civil and human rights of clients are adequately protected.

§483.450(b)(3) Techniques to manage inappropriate client behavior must never be used

W286

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(3) for disciplinary purposes,

Guidance §483.450(b)(3)

No intervention, whether as a part of a formal program or in emergency situations (see W289) may be used as punishment, retaliation or retribution. A staff member cannot employ a behavior management technique simply because a client refuses to follow a staff request.

The implementation of all interventions, except in emergency situations, must be administered consistent with the IPP and the specific behaviors identified in the IPP requiring the intervention. Instances where an intervention is done as a punishment because the client did not comply with staff instructions and not associated with the IPP include:

- Personal property confiscated for behavior at staff discretion;
- Rights restricted without approved plans; and
- Punitive house rules, such as prohibiting reentry into the kitchen for snacks if a meal is not eaten completely.

W287

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(3) for the convenience of staff

Guidance §483.450(b)(3)

Inadequate numbers of staff, inefficient deployment of staff, and insufficient training of staff can lead to restrictive practices used for staff convenience.

Examples of techniques used to manage client behavior for staff convenience including, but are not limited to:

- Clients allowed to discipline other clients;
- Clients restricted to one area of the home; and
- Unauthorized use of restraints (e.g., lap trays, bean bags, gait belt, and merry walkers for the purpose of restricting movement)

W288

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(3) or as a substitute for an active treatment program.

Guidance §483.450(b)(3)

Substitutions for active treatment programming occur when the staff utilizes interventions and restrictive techniques on their own, either because there is not a formal behavioral program to address the client's behaviors or because the staff do not follow the plan as written.

W289

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(4) The use of systematic interventions to manage inappropriate client behavior must be incorporated into the client's individual program plan, in accordance with §483.440(c)(4) and (5) of this subpart.

Guidance §483.450(b)(4)

The use of behavior interventions are expected to be incorporated into the IPP and be based upon the results of the functional behavioral assessment.

However, there may be isolated and rare instances when a client exhibits unexpected behavior that requires immediate intervention on the part of the staff. In these instances, the least restrictive intervention must be employed and removed as soon as the client is no longer an immediate threat to self or others. The IPP team must then discuss the need for adding a behavioral plan into the clients program.

W290

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(b)(5) Standing or as needed programs to control inappropriate behavior are not permitted.

Guidance §483.450(b)(5)

The staff of the facility may not maintain or use, outside of the IPPs, any list of "as needed" interventions that can be used with any client at any time. With the exception of isolated and rare emergency situations, all restrictive behavior interventions must be incorporated into the formal IPP and individualized for the client.

(c) Standard: Time-out rooms

W291

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(c)(1) A client may be placed in a room from which egress is prevented only if the following conditions are met:

(i) The placement is a part of an approved systematic time-out program as required by paragraph (b) of this section. (Thus, emergency placement of a client into a time-out room is not allowed.)

(ii) The client is under the direct constant visual supervision of designated staff.

(iii) The door to the room is held shut by staff or by a mechanism requiring constant physical pressure from a staff member to keep the mechanism engaged.

Guidance §483.450(c)(1)

Seclusion, defined as the placement of a client alone in a locked room, is never allowed.

Time out procedures allows a client to be alone in a room, but do not allow that room to be locked. During a time out procedure, egress can only be prevented by a person standing in the door way, or holding the door closed, but as soon as the staff move from the door way or let go of the door the client can come out.

Use of the timeout room or procedure must be part of an approved behavioral plan and may involve the separation of a client from a group or a particular situation, in a non- locked setting for the purpose of calming or removing the client from the reinforcing stimuli that are sustaining an identified maladaptive behavior.

Designated time out rooms must be set up so that the staff has continuous, direct observation of the client at all times. Because of the danger that staff can get distracted by other events or duties, this cannot be accomplished by a camera in lieu of the staff having direct visual of the client.

Key locks, latch locks, and doors that open inward without an inside doorknob are not permitted by the regulations for use in time out rooms as they do not require constant physical pressure from a staff member to keep the door shut. In each instance where a time out room is used, the client's IPP must include:

- The functional behavioral assessment which resulted in a recommendation for the use of time out procedures; and
- Instructions on how often data is to be collected during the time out period and the criteria for release from time out.

The use of a time out room must be approved by the Specially constituted committee as part of an approved program.

W292

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(c)(2) Placement of a client in a time-out room must not exceed one hour.

W293

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(c)(3) Clients placed in time-out rooms must be protected from hazardous conditions including, but not limited to, presence of sharp corners and objects, uncovered light fixtures, unprotected electrical outlets.

Guidance §483.450(c)(3)

Because placement in the time out room is typically secondary to extreme behaviors, it is acceptable that there be no furniture in this room.

A door that opens inward can potentially be held closed, either intentionally or inadvertently, by the client in the room, thereby denying staff immediate access to the room.

W294

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(c)(4) A record of time-out activities must be kept.

Guidance §483.450(c)(4)

The documentation in the client's record accurately reflects planned (e.g. part of the IPP) usage and presents a picture of events prior to, during, and following the use of time-out. The IPP should include direction as to how often data must be collected during each use of time out for each individual client.

(d) Standard: Physical restraints

§483.450(d)(1) The facility may employ physical restraint only- -

W295

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(1)(i) As an integral part of an individual program plan that is intended to lead to less restrictive means of managing and eliminating the behavior for which the restraint is applied;

Guidance §483.450(d)(1)(i)

The use of physical restraint is specified within the IPP. The plan must address:

1) The specific type of client behavior to be managed by this plan;

2) The less restrictive behavioral approaches which were previously used, but were unsuccessful;

3) The hierarchy of measures that must be utilized prior to the application of physical restraint;

4) The type of physical restraint;

5) The type of client behavior that would indicate that the patient is calm and can be released from the restraint; and

6) The replacement behavior being taught to the client to reduce the need for future restraints.

W296

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(1)(ii) As an emergency measure, but only if absolutely necessary to protect client or others from injury; or

Guidance §483.450(d)(1)(ii)

Physical restraint may be used as an emergency intervention only in situations where the client is exhibiting behaviors which:

1) the client has not exhibited before;

2) were not identified in the functional analysis of behavior; or

3) are harming other people or themselves.

When there are repeated episodes of the use of physical restraint as an emergency safety measure, these episodes should be assessed for their predictability by the IDT, and revisions to the IPP considered addressing the behaviors through a formal behavior plan in order to reduce/eliminate the use of physical restraint.

W297

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(1)(iii) As a health-related protection prescribed by a physician, but only if absolutely necessary during the conduct of a specific medical or surgical procedure, or only if absolutely necessary for client protection during the time that a medical condition exists.

Guidance §483.450(d)(1)(iii)

Physical restraint during medical procedures must be utilized only when absolutely necessary and be used as a last resort in order for the facility or practitioners to deliver needed medical care to the client. The restraint must be released as soon as the medical procedure is completed unless it is necessary to continue restraint for a longer period of time to continue to deliver care or to prevent the client from displacing tubes or dressings. These restraints may only be used as long as the physician indicates them to be necessary.

For instances where physical restraint are used by the facility or a practitioner during a medical procedure, the client record and interviews should verify that less restrictive measures were attempted before using physical restraint and verify whether any injuries occurred during the use of the physical restraint. Written orders by medical personnel for the application of a physical restraint should include the reason that the restraint is necessary, the type of restraint to be used and the length of time the restraint will be applied.

A restraint device used to prevent a client engaging in self-injurious behavior is not considered a restraint for medical condition.

§483.450(d)(2) Authorizations to use or extend restraints as an emergency measure must be:

Guidance §483.450(d)(2)

Facility policies should list who in the facility is allowed to authorize the emergency use of restraints or to extend the use of an emergency restraint, and the training that is required for those persons who may authorize. Documentation in the client record in those instances should confirm that the facility follows that policy.

W298

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(2)(i) In effect no longer than 12 consecutive hours; and

Guidance §483.450(d)(2)(i)

This regulation does not mean that restraints may be authorized to be applied for up to a 12 hour period. The client must be released from the physical restraint as soon as the client is no longer a risk to self or others. Once the behavior has ceased, the emergency has ended, and the client has been released, another authorization would be required for any new emergency situation.

The 12 consecutive hour period is the absolute maximum period of time that emergency physical restraint may be utilized for a client during an individual behavioral incident. It is reasonable to expect that the facility will reassess the emergency situation for any client who remains in physical restraint for longer than one hour and reassess the situation at least every 30 minutes thereafter up to 12 hours when the physical restraint must be removed.

W299

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(2)(ii) Obtained as soon as the client is restrained or stable.

Guidance §483.450(d)(2)(ii)

There may be instances where the maladaptive behaviors of a client or clients escalate into a serious and immediate event that must be de-escalated quickly in order to prevent harm to clients, staff, other clients, or by standers when incidents occur in the community. In these instances, the staff should contact the appropriate person to obtain authorization for the use of physical restraint as soon as the situation is stable. Retrospective documentation of the incident should confirm the need for authorization after application.

W300

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(d)(3) The facility must not issue orders for restraint on a standing or as needed basis.
Guidance §483.450(d)(3)
All instances of physical restraint must be ordered on a case by case basis with individual assessment of the situation and authorization based upon the individual client. Authorizations should include the rationale for the use of the physical restraint versus other less restrictive measures.
W301
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(d)(4) A client placed in restraint must be checked at least every 30 minutes by staff trained in the use of restraints,
Guidance §483.450(d)(4)
The frequency of monitoring will vary according to the type and design of the device and the psychological and physical well-being of the client. The facility should be checking the client often enough to adequately assess the physical status of the client (e.g., circulation, respiration and vital signs) of the client and the need to continued restraint. The more restrictive the intervention, the greater the risk to the client and the more often the client must be assessed. Frequent assessment will assure that the client will be released as soon as possible, however, in no instance may the staff go longer than 30 minutes without checking the client.
W302
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(d)(4) released from the restraint as quickly as possible, and
Guidance §483.450(d)(4)
"As quickly as possible" means as soon as the client is no longer a danger to self or others. Documentation should support that the client was released from restraint as soon as they became calm.
W303
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(d)(4) a record of these checks and usage must be kept.
§483.450(d)(5) Restraints must be designed and used
W304
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(d)(5) so as not to cause physical injury to the client
Guidance §483.450(d)(5)
Physical restraints to include mechanical devices must be the correct size for the client and be applied with the correct amount of pressure according to manufacturer's directions. In addition to observation of any physical mechanical restraint in use at the time of the survey, review incident reports for any injuries as a result of restraint use.
W305
§483.450(d)(5) and so as to cause the least possible discomfort.
§483.450(d)(6) Opportunity for motion and exercise must be provided
W306
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.450(d)(6) for a period of not less than 10 minutes during each two hour period in which restraint is employed,
Guidance §483.450(d)(6)

This requirement does not apply to cases of medical restraints that are specifically ordered for the immobilization of bones and joints during the physical healing process involved with fractures, sprains, etc. (e.g. a broken bone immobilized by a cast or splint).

See 331 483.460(c) regarding surveillance of skin integrity during the use of medical restraints.

However, if a mechanical physical restraint is applied to an extremity to prevent a client from removing post-operative sutures, the restraint must be released every two (2) hours for a period of not less than ten (10) minutes in order to maintain adequate circulation.

Mechanical restraints placed on the client during sleeping hours must be medically based and specifically ordered by a physician. There should be evidence in the client's record why the mechanical physical restraint is necessary during sleeping hours. While it is not necessary to wake the client every two (2) hours to release the restraint and provide opportunity for exercise, the staff must check the restraint frequently during the night to ensure that the restraint is still properly applied and the client appears comfortable.

W307

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(6) and a record of such activity must be kept.

§483.450(d)(7) Barred enclosures

Guidance §483.450(d)(7)

A bed or play equipment with bars that prevent the client from leaving the bed or voluntarily climbing out of the bed are barred enclosures. The use of such enclosures must be a part of the written IPP and behavioral assessments must clearly state why such an enclosure is necessary, the risks of using the enclosure versus not using it and what less restrictive measures have been tried prior to the implementation of the barred enclosures.

Such devices may not be used in lieu of adequate staffing.

W308

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(7) must not be more than three feet in height and

W309

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(d)(7) must not have tops.

(e) Standard: Drug usage

§483.450(e) Standard: Drug Usage

W310

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(e)(1) The facility must not use drugs in doses that interfere with the individual client's daily living activities.

Guidance §483.450(e)(1)

Clients are alert and available for participation in daily living activities.

Some medications administered for medical reasons or to manage behavior may cause drowsiness as a side effect or due to an accumulation of the drug in the client's system. For clients who are observed to be sleeping in chairs during their work day, their programs or recreational times, there should be evidence that the facility staff notified the medical staff and an assessment was performed of the client including their medication regimen. Medical staff should make adjustments to address the issue if indicated.

§483.450(e)(2) Drugs used for control of inappropriate behavior must

W311

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(e)(2) be approved by the interdisciplinary team and

Guidance §483.450(e)(2)

The physician and other team members discuss the risks and benefits of the medication to address the target behavior/symptoms, and approve the use of the drug as being consistent with the active treatment program. Decisions about the necessity of the use of drugs to manage inappropriate behavior should be made by the IDT. It is the responsibility of the IDT members to provide the physician with sufficient information regarding the need for a client to receive a drug for inappropriate behavior. The physician will make the ultimate decision to order the use of the drug. The IDT should document any disagreement with the physician's order.

In those instances where a client returns from a physician's visit with an order for an unsolicited drug to manage client's inappropriate behaviors, there must be evidence (e.g. IDT meeting notes or clients record) that the team concurred with the necessity for the order without trying less restrictive measures first and discussed any concerns with the physician.

W312

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(e)(2) be used only as an integral part of the client's individual program plan that is directed specifically towards the reduction of and eventual elimination of the behaviors for which the drugs are employed.

Guidance §483.450(e)(2)

All medications to manage behavior must be integrated into the IPP and the IPP must specify how the specific target behavior for which the medication is prescribed will be reduced or eliminated. This includes medications which are typically used for medical conditions that may be used to manage behavior (e.g. 1. propranolol (Inderal), an antihypertensive used for self-injurious behavior, and 2. carbamazepine (Tegretol), an anticonvulsant, used for aggression).

Drugs for behavior management must not be ordered on a PRN basis for a client. The facility staff must contact the physician to obtain a one-time order if the situation necessities the use of medication. The facility policy must address the maximum number of times a medication can be used as an emergency prior to being incorporated in the IPP, side effects of such medications, and the frequency of re-evaluation of ongoing behavior and its treatment.

Clients or their legal guardian have the right to choose sedation for medical and dental procedures. However, the facility cannot do routine administration of medication for sedation for medical and dental procedures without the agreement/consent of the client or their parent/legal guardian and they must follow the specific orders of the healthcare practitioner who will be providing services to the client. Decisions to order medications prior to medical and dental procedures must be made on an individual basis. Clients who demonstrate severe anxiety around these procedures should be considered for desensitization programs.

W313

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(e)(3) Drugs used for control of inappropriate behavior must not be used until it can be justified that the harmful effects of the behavior clearly outweigh the potentially harmful effects of the drugs.

Guidance §483.450(e)(3)

The risk(s) associated with the drug being used is consistent with the type and severity of the behavior/ symptoms it is intended to affect.

At the time the drug was started and incorporated into the IPP, the behaviors were discussed and presented to team members. It was the documented decision of the team that the behaviors were of such a severity

that pharmacological intervention was required and the physician was provided with the team information to assist him in his decision to prescribe the medication.

§483.450(e)(4) Drugs used for control of inappropriate behavior must be- -

§483.450(e)(4)(i) Monitored closely,

W314

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(e)(4) in conjunction with the physician and the drug regimen review requirement at §483.460(j),

Guidance §483.450(e)(4)

The physician and pharmacist must regularly review use of drugs for control of inappropriate behavior for their effectiveness in changing the targeted behavior/symptoms, untoward side effects, contraindications for continued use, and communicate this information to relevant staff.

W315

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(e)(4) for desired responses and adverse consequences by facility staff; and

Guidance §483.450(e)(4)

Direct support staff members are the people who most closely and most frequently observe and record client behaviors. There should be evidence that the direct support staff receive information via the IPP as to the behaviors to be observed, the side effects associated with the medication, the amount and types of documentation required and the communication with clinical staff which is indicated. See 483.430 (e)(1) for training on observations, documentation and communication related to behavior management.

§483.450(e)(4)(ii) Gradually withdrawn

W316

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(e)(4) at least annually

Guidance §483.450(e)(4)

Clients receiving medications to control behavior must be evaluated at least annually for a possible reduction of the medication progressing the client toward final elimination of the drug or lowest possible therapeutic level of the drug. However, evaluation should be done earlier than annually if observations indicate that the client's behavior has improved to the point that reduction may be considered as determined by the IPP, unless otherwise ordered by the client's physician.

W317

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.450(e)(4) in a carefully monitored program conducted in conjunction with the interdisciplinary team, unless clinical evidence justifies that this is contraindicated.

Guidance §483.450(e)(4)

The IDT is aware of and involved in planning the drug reduction program and participates in its implementation and monitoring.

Progress or regression of the client is monitored and taken into consideration in determining the rate of withdrawal and whether to continue withdrawal.

In determining whether there is clinical contraindication to the annual drug withdrawal, the physician and IDT should consider the client's clinical history, diagnostic/behavioral status, previous reduction/ discontinuation attempts, and current regimen effectiveness.

If a client also has a diagnosis of a psychiatric condition that requires a stable level of a psychiatric medication in order to control the symptoms associated with the psychiatric diagnosis, the annual

evaluation for reduction of that particular medication for the symptoms of the psychiatric diagnosis would not apply. Documentation in the client's record from their psychiatrist or physician that medication reduction would be contraindicated or that the current level of medications is therapeutic meets the intent of this regulation.

W318

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460 Condition of participation: Health care services

(a) Standard: Physician services

W319

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(a)(1) The facility must ensure the availability of physician services 24 hours a day.

Guidance §483.460(a)(1)

A designated physician must be available via telephone, pager, e-mail or on-site in the facility on a 24 hour per day basis for consultation regarding both emergency and non-emergency medical issues. If the facility employs a fulltime physician, there must be procedures in place for coverage in the absence of the physician from the facility.

If the facility contracts with a community-based physician for 24 hour per day coverage, there must be written arrangements in place to detail the responsibilities of the contract physician regarding direct services to the clients, interactions with the direct support staff and the interactions between the nursing staff of the facility and the contract physician. The contract with the contract physician must delineate the process for coverage when he/she is not available.

Upon interview, the staff should be aware of the procedures they are to follow to contact a physician in the event of an illness or injury. Routinely sending clients to emergent care or the emergency room of a hospital because there are no facility physicians available for consultation is not consistent with the regulations.

Interview and record review verify that the physician is available and responsive 24 hours a day.

W320

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(a)(2) The physician must develop, in coordination with licensed nursing personnel, a medical care plan of treatment for a client if the physician determines that an individual client requires 24-hour licensed nursing care.

Guidance §483.460(a)(2)

A medical care plan of treatment is developed for those clients who are either acutely ill and require licensed nursing care and monitoring temporarily on a 24 hour basis or clients whose chronic medical conditions require or indicate 24 hour licensed nursing care and monitoring. The physician determines when 24 hour nursing care is required.

The medical care plan is based upon the orders from the physician for treatments and care and nursing standards of practice. There is evidence in the client's record that the physician and the nursing staff at the facility work together to ensure that the medical care plan is current and appropriate (e.g. changes in physician written orders for care pursuant to observations from the nursing staff and/or direct observations and interactions with the client, and nursing documentation of care).

The fact that a client has a medical care plan in place should not preclude him/her from an active treatment program, except in instances of acute illness where the active treatment program is temporarily suspended. For clients with chronic medical conditions, it may be necessary for their active treatment program to be

modified due to the tolerance level of the client or adapted to accommodate medical limitations. However, active treatment must be provided on a continuous basis.

W321

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(a)(2) This plan must be integrated in the individual program plan.

Guidance §483.460(a)(2)

Although the medical care plan can be a separate document, it is always an integral part of the IPP process. There should be evidence that the plans are shared and discussed at the time of all interdisciplinary discussions and the information from the medical care plan is utilized in the development of the IPP objectives.

§483.460(a)(3) The facility must provide or obtain

W322

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(a)(3) preventive and general care

Guidance §483.460(a)(3)

The facility has procedures in place to ensure that the clients receive general health care services to assure optimal levels of wellness. General health care services include assessment and treatment of acute and chronic complaints or situations; teaching relevant heath care principles to staff and clients; and periodic surveillance of the health status of the clients.

As a result of clinical assessment, referrals are made for specialized assessment and tests. Facility health care staff follow-up to ensure the assessments are done and the findings incorporated into the medical care plan and/or the IPP.

The facility must have arrangements in place to provide routine or episodic laboratory, and radiology services for the clients if not provided in-house or through the clients physician. There must be a written agreement that specifies the responsibilities of the facility and outside provider. (See §483.410(a)).

Preventive health care services include screening procedures designed to identify health concerns and initiate treatment as early as possible. The facility should have a health prevention program in place and follow the plan to address those screenings that the facility will perform periodically that are relevant to all clients, and those screenings associated with a particular gender or age or vulnerability.

Physician refusal to perform a test, such as a pap smear, must be consistent with guidelines for clients, per the local standard in the community.

If the facility has a physician that refuses to provide preventative healthcare based on the client's level of functioning, medical staff at the facility should meet with and consult with this physician in order to ensure that clients receive the same health services as persons living in the local community.

Refer to these websites for current recommended screenings: Agency for Healthcare Research and Quality (AHRQ)

For men: http://www.ahrq.gov/ppip/healthymen.htrm

Centers for Disease Control (CDC)

For women: http://www.cdc.gov/women/pubs/cancer.htm

§483.460(a)(3) as well as annual physical examinations of each client that at a minimum include the following:

W323

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(a)(3)(i) Evaluation of vision and hearing;

Guidance §483.460(a)(3)(i)

Information relevant to the client's ability to see and hear is a critical component in the development of appropriate active treatment strategies.

All clients, including clients who are non-verbal, should have evidence in his/her record that they receive an annual evaluation of their vision and hearing which includes a screening as a minimum, follow-up examination as indicated by the screen and timely referrals as indicated by the examination. Screening is a gross assessment of the client's vision and hearing and usually does not include a measurement of acuity. Examinations are conducted to follow-up on issues noted in the screening and are conducted by qualified professionals.

Clients who appear to have vision or hearing problems or the staff indicate that they have vision or hearing problems and no accommodations have been made. The annual vision and hearing evaluation verifies that clients appearing to have vision/hearing issues or if staff indicate that a client has vision/hearing issues that these issues have been/are being addressed.

If a client's vision or hearing can only be assessed through examinations conducted by specialists (e.g., comprehensive ophthalmological examinations and evoked response audiometry (ERA)), these tests need not be conducted yearly, but rather upon the specialist's expressed recommendations. During discussions at the annual IPP review the team reviews information from the health professional, speech and hearing professional, and direct support staff and makes referrals back to the specialist if indicated.

W324

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(a)(3)(ii) Immunizations, using as a guide the recommendations of the Public Health Service Advisory Committee on Immunization Practices or of the Committee on the Control of Infectious Diseases of the American Academy of Pediatrics;

Guidance §483.460(a)(3)(ii)

These immunization guides may be obtained from: American Academy of Pediatrics

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(a)(3)(iv) Tuberculosis control, appropriate to the facility's population, and in accordance with the recommendations of the American College of Chest Physicians or the section on diseases of the chest of the American Academy of Pediatrics, or both.

Guidance §483.460(a)(3)(iv)

The facility should have in place a system for the identification, reporting, investigation, and control of Tuberculosis (TB) in order to prevent its transmission within the facility. This system should include:

1) Policies and procedures for screening new employees, new clients, and other people who interact on a consistent basis with clients residing in the facility when those persons are volunteers or professional staff hired or utilized directly by the facility (such as volunteers and contract professional staff);

2) Policies and procedures for subsequent screening for clients and for employees, and other people (such as volunteers and contract professional staff) who interact on a consistent basis with clients residing in the facility when those persons are volunteers or professional staff hired or utilized directly by the facility per State Health Department requirements;

3) Policies and procedures for reporting positive TB test results to the appropriate State authorities;

4) Policies for the investigative procedures, per the local health department, that would be put in place should a client or staff person test positive for TB;

5) Policies and procedures for treatment and precautions to be used with clients who display TB symptoms, as substantiated by positive skin testing or x-ray results; and

6) Policies and procedures for the evaluation of the effectiveness of the surveillance system.

When one or more clients or staff display TB symptoms, as substantiated by positive skin testing or x-ray results, they do not return to work until a physician has cleared them to return to work.

W328

§483.460(a)(4) To the extent permitted by State law, the facility may utilize physician assistants and nurse practitioners to provide physician services as described in this section.

Guidance §483.460(a)(4)

Refer to the applicable State Nurse Practice Act or applicable Board of Medicine Practice Act to determine the extent that the nurse practitioner or physician assistant may provide physician services.

(b) Standard: Physician participation in the individual program plan

§483.460(b) A physician must participate in-

W329

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(b)(1) The establishment of each newly admitted client's initial individual program plan as required by §456.380 of this chapter that specifies plan of care requirements for ICFs; and

Guidance §483.460(b)(1)

During the admission process, which takes place from the time the client is admitted to the facility to the time the initial IPP is completed, a physician is required to ensure that an assessment of the client's medical status is thoroughly considered and incorporated into the IPP planning process by the team as it develops the IPP. The physician's input may be by means of written reports, evaluations, and recommendations.

The physician (consistent with Medicaid Utilization Control regulations at §456.380) must evaluate the client at the time of admission to identify all diagnoses and complaints, provide orders for all medications and treatments and provide recommendations for restorative and rehabilitative services.

§456.380 requires that a physician conduct this initial assessment therefore, it may not be done by a physician extender (e.g., Physician assistant or Advanced Practice Registered Nurse).

W330

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(b)(2) If appropriate, physicians must participate in the review and update of an individual program plan as part of the interdisciplinary team process either in person or through written report to the interdisciplinary team.

Guidance §483.460(b)(2)

The need for physician participation on an individual client's IPP team is determined by the medical needs of the client. How the physician participates (whether through written report, telephone consultation, attendance at the meeting, etc.) is to be left to the discretion of the facility. In instances where a client has no overriding medical issues, the nurse of the facility can represent the medical component on the IDT process or consult with the appropriate physician and share the information with the team. However, in situations where a client's medical condition is unstable/fragile to the extent that it impacts the training/ work that may be planned, the physician must participate in providing guidance on the types and extent of programs that would be appropriate considering the client's physical/medical limitations.

If a client is noted to be having difficulty participating in the objectives set forth in his/her IPP due to serious medical concerns, review the input that was provided by the physician into the development of the plan and whether the IPP team requested such input.

(c) Standard: Nursing services

W331

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c) The facility must provide clients with nursing services in accordance with their needs.

Guidance §483.460(c)

The nurse responds in a timely manner to all medical concerns reported, conducts assessments as indicated, effects timely and appropriate interventions, communicates with the client's physicians and other health care professionals as indicated, provides treatments as ordered, monitors client progress following illness or injury and provides training to clients and/or staff as indicated.

§483.460(c) These services must include

W332

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(1) Participation as appropriate in the development, review, and update of an individual program plan as part of the interdisciplinary team process;

Guidance §483.460(c)(1)

For those clients who have had an uneventful year medically and have no medical/health concerns at the time of the IPP meeting the facility nurse may submit a summary report to the IDT unless the IDT determines that his/her attendance is necessary. An eventful year medically would include a year which required unplanned hospital admissions or in which medical issues necessitated treatment for a prolonged or continuing period. However when a client has had an eventful year medically or current medical/health concerns, this could have an impact on their objectives and accordingly the nurse should participate in the IDT discussion directly.

W333

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(2) The development, with a physician, of a medical care plan of treatment for a client when the physician has determined that an individual client requires such a plan;

Guidance §483.460(c)(2)

A medical care plan addresses those clinical treatments and observations that are to be done for the client by the medical staff and other staff of the facility in order to either improve an acute medical condition or to maintain a medically fragile client as clinically stable as possible. The medical care plan is an adjunct to the IPP and is not considered a substitution for the IPP.

§483.460(c)(3) For those clients certified as not needing a medical care plan, a review of their health status which must-

W334

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(3)(i) Be by a direct physical examination;

Guidance §483.460(c)(3)(i)

A direct physical examination means a visual review of the body as well as examination/assessment of body systems. This includes observations made through non- verbal communication (including visual, tactile, nonverbal gestures, grimaces, etc.) which may be an indication that there is a potential for further assessment and/or monitoring. A paper review of the client's medical record and health statistics does not meet the intent of the regulation for a direct physical examination.

W335

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(3)(ii) Be by a licensed nurse;

Guidance §483.460(c)(3)(ii)

The term "licensed nurse", for purposes of these guidelines, means a registered nurse, a licensed practical nurse or a licensed vocational nurse currently licensed by the State in which the facility is located. The nurse must operate consistent with the requirements of the applicable Nurse Practice Act. If this direct physical examination is done by a physician, it is not necessary for the nurse to repeat the exam.

W336

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(3)(iii) Be on a quarterly or more frequent basis depending on client need;

Guidance §483.460(c)(3)(iii)

"On a quarterly basis" means that the examinations are conducted approximately 90 days apart (e.g. scheduled to be conducted approximately once every 90 days). If during the course of a calendar year, there were three quarterly examinations conducted by a licensed nurse and in the fourth quarter the annual physical examination was performed by a physician, the intent of this requirement is met without the nurse performing an additional examination.

W337

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(3)(iv) Be recorded in the client's record; and

Guidance §483.460(c)(3)(iv)

The actual findings of each examination and the date conducted must be incorporated into the client's record.

W338

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(3)(v) Result in any necessary action (including referral to a physician to address client health problems).

Guidance §483.460(c)(3)(v)

The nursing staff document that referrals are made in a timely manner, if indicated, for any concerns identified. Nurses must ensure all concerns they identify are communicated and addressed appropriately, including:

- Need is fully identified in assessment;
- Appropriate referrals are made;
- Revisions are made to IPP/Medical care plan; and
- Follow-up occurs to the new plan.

W339

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(4) Other nursing care as prescribed by the physician or as identified by client needs; and

Guidance §483.460(c)(4)

Nursing interventions are implemented as indicated by the needs of the client and consistent with either standard nursing practice principles or orders from the attending physician. Health and wellness are actively promoted, problems are attended to before they negatively impact the client's health and wellness, and steps are taken to prevent the recurrence of such problems while responding promptly to client's needs.

Client health care complaints that are reported either directly by the client or by the direct care staff are addressed promptly by the nursing staff. Client health care complaints and response by nursing staff are documented in the client's record.

§483.460(c)(5) Implementing with other members of the interdisciplinary team, appropriate protective and preventive health measures that include, but are not limited to –

W340

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(5)(i) Training clients and staff as needed in appropriate health and hygiene methods;

Guidance §483.460(c)(5)(i)

Nursing staff periodically provides training to clients and staff on how to care for health needs or conditions, personal hygiene, health maintenance, and disease prevention. Nursing staff actively participates in periodic discussions with client and staff to promote health habits in the areas of diet, exercise and non-smoking.

Based upon individual training needs, the nursing staff provides training to individuals in areas such as medications, family planning, prevention of sexually transmitted diseases, control of other infectious diseases, self-monitoring of health status and self-prevention of health problems, etc. The nurses may train clients directly on their objectives or train other staff to do this training as appropriate.

W341

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(5)(ii) Control of communicable diseases and infections, including the instruction of other personnel in methods of infection control; and

Guidance §483.460(c)(5)(ii)

Nursing staff should actively participate in surveillance and reporting of communicable diseases per the Centers for Disease Control (CDC) guidelines and applicable state laws. They should teach and promote infection control techniques such as hand washing by clients and staff and should be making periodic observations to ensure that such good infection control techniques are consistently utilized.

W342

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(c)(5)(iii) Training direct care staff in detecting signs and symptoms of illness or dysfunction, first aid for accidents or illness, and basic skills required to meet the health needs of the clients.

Guidance §483.460(c)(5)(iii)

Nursing staff must train and ensure direct support staff demonstrate competency in detecting signs and symptoms of illness, injury, or change in the client's health baseline (e.g. responsiveness, fatigue, irritability, constipation, diarrhea, dehydration, confusion, unexplained weight loss, changes in endurance and changes in respiratory function).

Staff is responsive to health care needs or injuries of clients and receives instruction and support during temporary illness of clients.

If not, review staff training records to determine whether training was provided periodically to the involved employee. Interview direct care staff to determine their level of understanding regarding the signs and symptoms of illness that are to be reported to the medical staff. The records of clients with recent hospitalizations verify that staff detected and reported relevant symptoms promptly.

(d) Standard: Nursing staff

W343

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(d)(1) Nurses providing services in the facility must have a current license to practice in the State.

Guidance §483.460(d)(1)

The facility should have a procedure in place to ensure that any contract nursing staff members are currently licensed prior to the provision of services. Include any contract nurses used by the facility in the sample of nurses reviewed for licensure.

W344

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(d)(2) The facility must employ or arrange for licensed nursing services sufficient to care for clients' health needs including those clients with medical care plans.

Guidance §483.460(d)(2)

The facility provides for nursing services based on the health needs and conditions of clients residing there. Examples include:

1) physician ordered treatments that require the skills of a licensed nurse;
2) preventive screenings;
3) assessment and intervention;
4) direct physical examination and examination of body systems;
5) teaching; and
6) advocacy for the medical services needed by the client.

Client health care needs are met in a timely manner (within 24 hours) by the available nursing staff.

If nurses who do not have experience in the care of persons with intellectual disabilities are employed by the facility, they should be provided with a formal orientation period and on-going educational opportunities to increase their understanding of the client population.

When one or more clients in the facility has an active medical care plan, there must be 24 hour nursing services available to come to the facility as needed to make skilled assessments and interventions.

W345

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(d)(3) The facility must utilize registered nurses as appropriate and required by State law to perform the health services specified in this section.

Guidance §483.460(d)(3)

Refer to the applicable State Nurse Practice Act.

W346

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(d)(4) If the facility utilizes only licensed practical or vocational nurses to provide health services, it must have a formal arrangement with a registered nurse to be available for verbal or onsite consultation to the licensed practical or vocational nurse.

Guidance §483.460(d)(4)

The facility must have written arrangements with a registered nurse (RN) to provide consultation in those instances where LPNs/LVNs provide all the direct nursing care for the clients. Verify that the agreement requires the RN to respond promptly to all calls from the LPN/LVN and to come on-site to the facility if necessary. The facility must also ensure registered nurse back-up when the primary registered nurse consultant is unavailable (vacations, etc.). Review documentation in the client records to confirm that the LPNs/LVNs of the facility are consulting the registered nurse consultant when indicated and that she/he responds promptly to such calls.

W347

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(d)(5) Non- licensed nursing personnel who work with clients under a medical care plan must do so under the supervision of licensed persons.

The work of any direct support staff (caring for clients with a medical care plan) is directed by an onsite licensed nurse). The nurse evaluates the care provided by the staff as needed, but at least each shift. If observations of care indicate that direct care staff are not providing care as directed by the medical care plan, then review the supervision provided by the nursing staff.

(e) Standard: Dental services

W348

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(e)(1) The facility must provide or make arrangements for comprehensive diagnostic and treatment services for each client from qualified personnel, including licensed dentists and dental hygienists either through organized dental services in-house or through arrangement.

Guidance §483.460(e)(1)

It is expected that the clients will obtain dental services (both diagnostic and treatment) from community dentists whenever possible. In some instances, there may be clients residing in the facility who are physically unable to travel to the community for services. The facility must secure dental services (both diagnostic and treatment) for these clients either through an in-house program, which is part of the organizational and administrative structure of the facility, or through a written agreement with an outside dental service to come into the facility to provide such services.

W349

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(e)(2) If appropriate, dental professionals must participate, in the development, review and update of an individual program plan as part of the interdisciplinary process either in person or through written report to the interdisciplinary team.

Guidance §483.460(e)(2)

Reports of dental care may be submitted to the IDT for inclusion in their discussions surrounding either development of the plan or update to the plan. This includes procedures a client may have had or be having during the plan development period, such as root canal or singular extractions. Actual attendance at the IDT meeting by the dentist may be left to the request of the IDT.

W350

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(e)(3) The facility must provide education and training in the maintenance of oral health.

Guidance §483.460(e)(3)

Formal or informal training in the maintenance of oral hygiene is provided to clients who require it, and to those staff who are responsible for carrying out such activities. The IPP should include an assessment

of the client's ability to perform oral hygiene independently and an associated program if the client is not independent.

(f) Standard: Comprehensive dental diagnostic services

§483.460(f) Comprehensive dental diagnostic services include

W351

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(f)(1) A complete extraoral and intraoral examination, using all diagnostic aids necessary to properly evaluate the client's condition not later than one month after admission to the facility (unless the examination was completed within twelve months before admission);

Guidance §483.460(f)(1)

A "month" is defined as the interval between the date of admission and close of business of the corresponding day in the following month.

A complete intraoral examination includes an oral cancer screen.

§483.460(f)(2) Periodic examination and diagnosis performed

W352

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(f)(2) at least annually,

Guidance §483.460(f)(2)

Dental examinations occur no less frequently than annually. Clients without teeth must receive an annual oral cancer screening examination by a dental professional.

W353

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(f)(2) including radiographs when indicated and detection of manifestations of systemic disease; and

Guidance §483.460(f)(2)

There should be evidence in dental reports that dentists follow current standards of practice for the performance of x-rays in order to assist in the diagnosis and treatment of the client.

W354

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(f)(3) A review of the results of examination and entry of the results in the client's dental record.

Guidance §483.460(f)(3)

The entry referenced at this regulation is the dental entry into the dental record. See W359 for requirement of copying this dental record into the facility record.

(g) Standard: Comprehensive dental treatment

§483.460(g) The facility must ensure comprehensive dental treatment services that include- -

W355

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(g)(1) The availability for emergency dental treatment on a 24-hour-a-day basis by a licensed dentist; and

Guidance §483.460(g)(1)

The facility should be able to produce upon request, a written contract/agreement between the facility and a licensed dentist for 24/7 guidance/provision of emergency services for the clients. The agreement should also indicate what back-up coverage will be provided when the dentist is not available.

W356

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(g)(2) Dental care needed for relief of pain and infections, restoration of teeth, and maintenance of dental health.

(h) Standard: Documentation of dental services

§483.460(h)(1) If the facility maintains an in-house dental service, the facility must

W357

keep a permanent dental record for each client,

W358

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(h)(1) with a dental summary maintained in the client's living-unit.

Guidance §483.460(h)(1)

The "dental summary" refers to the summary of each visit entered by the dental professional. The note includes any care instructions to be followed up by facility staff as a result of treatment.

§483.460(h)(2) If the facility does not maintain an in-house dental service, the facility must

W359

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(h)(2) obtain a dental summary of the results of dental visits

Guidance §483.460(h)(2)

The facility should receive a written report of each dentist visit for inclusion in the client's record at the facility and for reference by the medical and direct support staff.

W360

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(h)(2) and maintain the summary in the client's living unit.

See guideline above at W359.

(i) Standard: Pharmacy services

W361

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(i) The facility must provide or make arrangements for the provision of routine and emergency drugs and biologicals to its clients. Drugs and biologicals may be obtained from community or contract pharmacists or the facility may maintain a licensed pharmacy.

Guidance §483.460(i)

The facility either has an onsite pharmacy or has formal arrangements in place for the provision of routine, unanticipated, or emergency drugs. There are no instances where a client does not receive needed medications due to the unavailability of drugs.

(j) Standard: Drug regimen review

W362

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(j)(1) A pharmacist with input from the interdisciplinary team must review the drug regimen of each client at least quarterly.

Guidance §483.460(j)(1)

The primary function of the pharmacist during the quarterly drug review is to identify possible drug interactions, check for evidence of any side effects associated with the drug usage, determine if laboratory results associated with the drug are within normal limits and verify that the facility is administering the medication appropriately and to comment upon the efficacy of the drug use (e.g. blood sugar controlled, blood pressure within normal limits). In the case of drugs used to manage behavior, the

pharmacist may need information from the IDT to determine efficacy. See Appendix PP, Indicators for Surveyor Assessment of the Performance of Drug Regimen Reviews, to the State Operations Manual (Pharmaceutical Service Requirements in Long Term Care Facilities).

W363

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(j)(2) The pharmacist must report any irregularities in clients' drug regimens to the prescribing physician and interdisciplinary team.

Guidance §483.460(j)(2)

The physician and IDT members must discuss, document and take necessary follow-up action for any irregularities noted.

W364

§483.460(j)(3) The pharmacist must prepare a record of each client's drug regimen reviews and the facility must maintain that record.

W365

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(j)(4) An individual medication administration record must be maintained for each client.

W366

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(j)(5) As appropriate the pharmacist must participate in the development, implementation, and review of each client's individual program plan either in person or through written report to the interdisciplinary team.

Guidance §483.460(j)(5)

Pharmacist participation on the IDT is at the request of the team. It would not be necessary for the pharmacist to routinely attend all team meetings when the client is on a stable drug regimen that does not appear to be influencing his/her active treatment programs. Pharmacist participation may be appropriate, in situations such as assisting the IDT develop the most effective training programs for when the client is in an evolving situation with their medication.

For example:

- A client begins a new or more complex drug regimen;
- The physician orders off-label use of a medication;
- Frequent changes in the drug regimen are affecting IPP implementation.

(k) Standard: Drug administration

W367

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(k) The facility must have an organized system for drug administration that identifies each drug up to the point of administration.

§483.460(k) The system must assure that

W368

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(k)(1) All drugs are administered in compliance with the physician's orders;

Guidance §483.460(k)(1)

Administration errors identified in previous medication administration records qualify as non-compliance with physician's orders.

W369

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(k)(2) All drugs, including those that are self-administered, are administered without error;
Guidance §483.460(k)(2)
A medication error is an observed discrepancy during the medication pass between what is ordered and what is administered.
This also applies to self-administered medications.
For small facilities (16 beds or less), the medication administration pass will encompass a total of eight (8) drug doses. The observations should be split between two separate drug passes 4/4 (one in the morning and one in the late afternoon or early evening). The medications observed during the observations may or may not be for clients in the survey sample. Any concerns regarding a medication that is about to be administered should be brought to the attention of the person administering the medication. The record of observation should be reconciled with the most current signed physician's orders.
For large facilities (17 or more beds) with either single or multiple buildings, the medication administration pass will encompass a total of 12 doses. The observations should be split between two separate passes 6/6 (one in the morning and one in late afternoon or early evening). Any concerns regarding a medication that is about to be administered should be brought to the attention of the person administering the medication. The record of observation should be reconciled with the most current signed physician's orders.
W370
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(k)(3) Unlicensed personnel are allowed to administer drugs only if State law permits;
Guidance §483.460(k)(3)
Unlicensed personnel administer only those forms of medication which state law permits. Licensed nurse(s) in the facility oversee any administration of medications by unlicensed persons and periodically evaluate their performance.
W371
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(k)(4) Clients are taught to administer their own medications if the interdisciplinary team determines that self-administration of medications is an appropriate objective, and if the physician does not specify otherwise;
Guidance §483.460(k)(4)
The IDT decision that a self-administration program is appropriate, as is the case for all formal training objectives, must be based upon accurate, current, valid assessment of the client's skills and potential. The determination as to the appropriateness of a self- administration program must never be made singularly on the client's diagnosis or current functional abilities.
For clients assessed to be inappropriate for a self-administration program, but determined by the IDT to possess the capacity to functionally, cognitively, emotionally or developmentally benefit from participation in the drug administration process, it is expected that the facility will provide opportunities for the client to participate in the medication administration process under direct supervision. This participation can include but is not limited to, identifying the medication taken, reaching/grasping a cup of water during the process and placing oral medications in the mouth, etc.
W372
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(k)(5) The client's physician is informed of the interdisciplinary team's decision that self-administration of medications is an objective for the client;
Guidance §483.460(k)(5)

While the IDT may set an objective of self administration of medication for a client, they are required to notify the client's physician of this proposed objective. If the client's physician objects on medical grounds, the team must not proceed with the objective until such time as a discussion is held with the physician and he/she agrees to proceed after receiving additional information.

W373

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(k)(6) No client self-administers medication until he or she demonstrates the competency to do so;

Guidance §483.460(k)(6)

The written self-administration program for a client must detail the criteria that will be employed by the facility staff to verify that the client successfully completes all phases of the program and continues to comply with all necessary requirements for self administration. Clients who self-administer medications must secure all medications in such a manner as to protect access by other clients or visitors.

W374

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(k)(7) Drugs used by clients while not under the direct care of the facility are packaged and labeled in accordance with State law;

Guidance §483.460(k)(7)

When clients go out of the facility for home visits, or to attend work or school, drugs they are taking must be packaged and labeled in accordance with state law by a person authorized by state law to package and label.

§483.460(k)(8) Drug administration errors and adverse drug reactions are

Guidance §483.460(k)(8)

Documentation of any medication error should be entered into the client's record and should include what error was made, who was notified of the error, the response of the medical person notified, the physical condition of the client at the time of the notification and subsequent observations of the clients physical condition related to the error.

W375

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(k)(8) recorded

Guidance §483.460(k)(8)

Documentation of adverse drug reactions must be entered into the client's record and should include all complaints made by the client or observations made by the staff following the drug administration, the notification of medical personnel, and the response of the medical personnel, any emergency actions that were required and all subsequent observations of the client's condition related to the reaction.

W376

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.460(k)(8) and reported immediately to a physician.

Guidance §483.460(k)(8)

"Immediately" means at the time the error or reaction is identified.

(l) Standard: Drug storage and recordkeeping

§483.460(l)(1) The facility must store drugs under proper conditions of

Guidance §483.460(l)(1)

Drugs are stored according to manufacturer's recommendations.

W377

sanitation,
W378
temperature,
W379
light,
W380
humidity,
W381
and security.
W382
§483.460(l)(2) The facility must keep all drugs and biologicals locked except when being prepared for administration.
W383
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(l)(2) Only authorized persons may have access to the keys to the drug storage area.
Guidance §483.460(l)(2)
"Authorized persons" is restricted to those who administer the drugs (as allowed by state law) and nursing supervisors (if any). No other personnel should have access to these keys.
W384
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(l)(2) Clients who have been trained to self-administer drugs in accordance with §483.460(k)(4) may have access to keys to their individual drug supply.
Guidance §483.460(l)(2)
Drugs that are self-administered do not have to be double locked. The purpose for the double locking is to limit access to scheduled drugs. Since the client is generally the only one who has access to his/her drug supply (with perhaps the exception of a licensed nurse or whoever has overall responsibility for medication administration at the facility and a facility's Director of Nursing Services, who may have access to all of the facility's drug supplies), there is no need to further limit access.
W385
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(l)(3) The facility must maintain records of the receipt and disposition of all controlled drugs.
Guidance §483.460(l)(3)
The facility must follow state requirements for the control and disposition of controlled drugs.
W386
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(l)(4) The facility must, on a sample basis, periodically reconcile the receipt and disposition of all controlled drugs in schedules II through IV (drugs subject to the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. 801 et seq., as implemented by 21 CFR Part 308).
Guidance §483.460(l)(4)
The facility should follow state requirements for the reconciliation of controlled drugs.
W387
§483.460(l)(5) If the facility maintains a licensed pharmacy, the facility must comply with the regulations for controlled drugs
§483.460(m) Standard: Drug Labeling

§483.460(m)(1) Labeling of drugs and biologicals must
W388
§483.460(m)(1)(i) Be based on currently accepted professional principles and practices; and
W389
§483.460(m)(1)(ii) Include the appropriate accessory and cautionary instructions, as well as the expiration date, if applicable.
§483.460(m)(2) The facility must remove from use--
W390
§483.460(m)(2)(i) Outdated drugs; and
W391
§483.460(m)(2)(ii) Drug containers with worn, illegible, or missing labels.
W392
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(m)(3) Drugs and biologicals packaged in containers designated for a particular client must be immediately removed from the client's current medication supply if discontinued by the physician.
(n) Standard: Laboratory services
W393
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(n)(1) If a facility chooses to provide laboratory services, the laboratory must meet the requirements specified in part 493 of this chapter.
Guidance §483.460(n)(1)
If the facility performs laboratory services, it must have a current, valid Clinical Laboratory Improvement Amendment (CLIA) certificate for the types of tests it is performing.
For the purposes of this regulation, a "laboratory service or test" is defined as any examination or analysis of materials derived from the human body for purposes of providing information for the diagnosis, prevention, or treatment of any disease or impairment of, or the assessment of the health of human beings.
W394
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.460(n)(1) If the laboratory chooses to refer specimens for testing to another laboratory, the referral laboratory must be certified in the appropriate specialties and subspecialties of service in accordance with the requirements of part 493 of this chapter.
Guidance §483.460(n)(1)
A facility performing any laboratory service or test must have applied to CMS, and received a Certificate of Waiver, Certificate of Compliance, or Certificate of Accreditation. An application for a Certificate of Waiver may be made if the facility performs only those tests on the waived list. A complete list of waived tests can be found at: http://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfClia/analyteswaived.cfm.
If the facility performs any test, not appearing on the waived list, a Certificate of Compliance or Certificate of Accreditation is required. An appropriate CLIA certificate is required regardless of the frequency with which the laboratory services or tests are conducted. When no tests are performed, a CLIA certificate is not needed. Facilities only collecting specimens and not performing testing do not need a certificate.
A not-for-profit, a state, or local government organization may have one certificate covering all the facilities it operates (e.g., all the separately certified residences which fall under its governing body), if no more than a total of 15 types of waived or moderately complex laboratory tests are used. This exception applies only to laboratories performing limited public health testing. See State Operations Manual (SOM)

6008. Each location where a laboratory tests are performed must file a separate application to be separately certified unless the laboratory meets one if the exceptions outlined at 42CFR493.35(b), 493.443(b), or 493.55(b).

Any laboratory located in a state that has a CMS-approved laboratory program is exempt from CLIA certification. Currently there are two states with approved programs: Washington and New York. New York has a partial exemption; therefore, if the laboratory is located in New York, contact the New York State Agency to determine if the exemption applies.

W406

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.470 Condition of participation: Physical environment. (a) Standard: Client living environment.

W407

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) The facility must not house clients of grossly different ages, developmental levels, and social needs in close physical or social proximity unless the housing is planned to promote the growth and development of all those housed together.

Guidance §§483.470(a)(1)

Clients of grossly different ages, functional levels, and/or social needs should not be housed together unless all of the following documentation supports the placement:

- Assessment;
- Client program plan;
- Staff documentation of client response to training programs; and
- QIDP notes.

W408

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) The facility must not segregate clients solely on the basis of their physical disabilities. It must integrate clients who have ambulation deficits or who are deaf, blind, or have seizure disorders, etc., with others of comparable social and intellectual development.

(b) Standard: Client bedrooms.

(1) Bedrooms must- -

W409

§483.470(b)(1)(i) Be rooms that have at least one outside wall

W410

§483.470(b)(1)(ii) Be equipped with or located near toilet and bathing facilities;

W411

§483.470(b)(1)(iii) Accommodate no more than four clients unless granted a variance under paragraph (b)(3) of this section;

§483.470(b)(1)(iv) measure

W412

At least 60 square feet per client in multiple client bedrooms

W413

And at least 80 square feet in single client bedrooms; and

W414

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(v) In all facilities initially certified, or in buildings constructed or with major renovations or conversions on or after October 3, 1988, have walls that extend from floor to ceiling.

Guidance §483.470(b)(l)(v)

If a facility was initially certified on or after October 3, 1988 and/or is under renovations or conversions, they must have walls that extend floor to ceiling.

W415

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) If a bedroom is below grade level, it must have a window that--

(i) Is usable as a second means of escape by client(s) occupying the room; and

(ii) Is no more than 44 inches (measured to the window sill) above the floor unless the facility is surveyed under the Health Care Occupancy Chapter of the Life Safety Code, in which case the window must be no more than 36 inches (measured to the window sill) above the floor.

Guidance §483.470(b)(2)

The intent of the regulation is to prohibit the housing of clients in basements that are entirely below grade. Clients may be housed on the lower level of housing (e.g. a bi- level house), provided the window height requirements are met and the window is of sufficient size to be used as a means of escape.

W416

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) The survey agency may grant a variance from the limit of four clients per room only if a physician who is a member of the interdisciplinary team and who is a qualified intellectual disabilities professional--

(i) Certifies that each client to be placed in a bedroom housing more than four persons is so severely medically impaired as to require direct and continuous monitoring during sleeping hours; and

(ii) Documents the reason why housing in a room of only four or fewer persons would not be medically feasible.

Guidance §483.470(b)(3)

The medical care plan for each client housed in a room with more than four clients should indicate the need for continuous monitoring. The medical care plan will include:

- the physician certification that the client is severely medically impaired and requires direct and continuous monitoring during sleeping hours; and
- the reason why this housing arrangement for fewer than four people would not be medically feasible.

(4) The facility must provide each client with—

W417

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) A separate bed of proper size and height for the convenience of the client;

Guidance §483.470(b)(4)(i)

The client's preference, chronological age, and physical and medical needs are the determining factors in bed size and height.

W418

§483.470(b)(4)(ii) A clean, comfortable, mattress;

W419

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(iii) Bedding appropriate to the weather and climate; and

W420

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(iv) Functional furniture, appropriate to the client's needs,

Guidance §483.470(b)(4)(iv)

Client preferences and program needs should be considered in furniture selection. For clients with physical disabilities, furniture is adapted to accommodate the client's physical challenges and enable the client to use the furniture with minimal support.

W421

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

and individual closet space in the client's bedroom with clothes racks and shelves accessible to the client.

Guidance §483.470(b)(4)(iv)

Closets should have enough space for a reasonable amount of the current season's clothing.

Clients who use wheelchairs or have other physical challenges can reach the racks and shelves in their closets.

The facility is permitted either to provide the client with an individualized closet or with a designated area in a shared closet. The use of central clothing bins in a facility clothing room, in the absence of required client closet space in the bedroom, is not an acceptable practice.

(c) Standard: Storage space in bedrooms.

The facility must provide—

W422

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Space for equipment for daily out-of-bed activity for all clients who are not yet mobile, except those who have a short-term illness or those few clients for whom out-of-bed activity is a threat to health and safety; and

Guidance §483.470(c)(1)

Sufficient space that permits the use of wheelchairs, walkers and other adaptive equipment should be provided within the bedroom.

W423

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) Suitable storage space, accessible to clients, for personal possessions, such as TVs, radios, prosthetic equipment and clothing.

Guidance §483.470(c)(2)

Each client should have storage in their bedroom for their personal belongings. Clients should have free access to this storage without the assistance of staff. If it is necessary for clients' personal belongings to be locked due to the behavior of other clients, the client must still be provided free access to his own possessions (See W137 for requirements for locked areas).

(d) Standard: Client bathrooms

The facility must—

W424

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) Provide toilet and bathing facilities appropriate in number, size, and design to meet the needs of the clients;

Guidance §483.470(d)(1)

In a home setting, the toilet facilities need to be of sufficient number to meet the needs of the client without prolonged delay. There must be enough toilets in the living units to meet the program needs of the clients at any given time, as well as provide for intermediate toileting needs of the clients living in the unit.

In a home setting, it may be unrealistic to say a client would never have to wait for a shower or bath or to brush his/her teeth.
Bathrooms and fixtures must be adapted to accommodate clients with physical disabilities.
W425
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(2) Provide for individual privacy in toilets, bathtubs, and showers; and
Guidance §483.470(d)(2)
A bathroom containing multiple toilets, showers or bathtubs, must have doors, curtains, or some other means of protecting the client from view when fully or partially unclothed.
Clients should not be able to be seen through the door or window by passersby when they are using the bathrooms.
Client privacy does not preclude the assistance provided by facility staff when necessitated by the client's condition.
W426
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(3) In areas of the facility where clients who have not been trained to regulate water temperature are exposed to hot water, ensure that the temperature of the water does not exceed 110° Fahrenheit.
(e) Standard: Heating and ventilation.
(1) Each client bedroom in the facility must have--
W427
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(i) At least one window to the outside; and
Guidance §483.470(e)(1)(i)
(See also W415)
W428
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(ii) Direct outside ventilation by means of windows, air conditioning, or mechanical ventilation.
(2) The facility must—
W429
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(i) Maintain the temperature and humidity within a normal comfort range by heating, air conditioning or other means; and
Guidance §483.470(e)(2)(i)
A "normal comfort range" in most instances is defined as not going below a temperature of 68 degrees Fahrenheit or exceeding a temperature of 80 degrees Fahrenheit in facilities in most geographic areas of the country.
In extremely hot or extremely cold weather, precautions are taken by the facility to protect the clients, particularly those who are medically compromised, from ill effects of the temperature.
W430
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(ii) Ensure that the heating apparatus does not constitute a burn or smoke hazard to clients.
Guidance §483.470(e)(2)(ii)
Refer to Life Safety Code Chapters 32 and 33
Unvented fuel fired heaters are prohibited. NFPA 101 2000 Edition.
32/33.2.5.23

(f) Standard: Floors.
The facility must have—
W431
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(1) Floors that have a resilient, nonabrasive, and slip-resistant surface.
W432
§483.470(f) (2) Nonabrasive carpeting, if the area used by clients is carpeted and serves clients who lie on the floor or ambulate with parts of their bodies, other than feet, touching the floor; and
§483.470(f) (3) Exposed floor surfaces and floor coverings that
W433
promote mobility in areas used by clients,
W434
and promote maintenance of sanitary conditions.
§483.470(g) Standard: Space and Equipment
The facility must--
W435
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(1) Provide sufficient space and equipment in dining, living, health services, recreation, and program areas (including adequately equipped and sound treated areas for hearing and other evaluations if they are conducted in the facility) to enable staff to provide clients with needed services, as required by this subpart and as identified in each client's individual program plan.
Guidance§483.470(g)(1)
Staff and clients must have the space, materials and equipment needed to implement formal and informal active treatment programs.
There must be sufficient space to accommodate group activities, including groups with clients who use wheelchairs.
Recreational supplies, equipment, and materials are available and reflect the interests, physical abilities and chronological age of the clients.
W436
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(2) Furnish, maintain in good repair, and teach clients to use and to make informed choices about the use of dentures, eyeglasses, hearing and other communications aids, braces, and other devices identified by the interdisciplinary team as needed by the client.
Guidance §483.470(g)(2)
The term "furnish" means that the facility is responsible for obtaining or purchasing these items once an assessment has identified the need and is responsible for making any necessary arrangements for the client to receive them. Clients' personal funds should not be used for these items since this is a covered service under the ICF/IID benefit.
The term "maintain in good repair" means that the facility is responsible for ensuring that these items are kept in good working order, and is responsible for any resulting expense that may be incurred.
Programs must be in place, when identified by assessment and determined by the ID team, to teach clients about the use and care for their equipment to the extent of their capabilities.
W437
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
(3) Provide adequate clean linen and dirty linen storage areas.

Guidance §483.470(g)(3)

Clean linen must be is separated from dirty linen and stored in a manner which prevents contamination.

Linen soiled with bodily fluids must be stored separately and in a manner which protects clients from exposure to possible infectious sources.

A bedroom hamper can be an acceptable dirty linen storage "area" if kept odor free and consistent with the infection control requirements at §483.470(1).

(h) Standard: Emergency plan and procedures.

W438

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) The facility must develop and implement detailed written plans and procedures to meet all potential emergencies and disasters such as fire, severe weather, and missing clients.

Guidance §483.470(h)(1)

These plans may include identification of transportation and alternative shelter needs in cases when the facility must be evacuated and may incorporate state-specific emergency preparedness requirements as applicable.

W439

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) The facility must communicate, periodically review, make the plan available, and provide training to the staff.

Guidance §483.470(h)(2)

"Periodic review" is a judgment made by the facility based on the circumstances of the facility. If the facility changes its physical plant or if changes external to the facility necessitates a review of the disaster plan, then the facility is responsible for carrying out the review.

Interview staff about where emergency plans and procedures are located and what the facility policy is regarding how often, and under what circumstances the plans and procedures are reviewed and updated.

(i) Standard: Evacuation drills.

(1) The facility must hold evacuation drills

W440

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

at least quarterly for each shift of personnel

Guidance §483.470(i)(1)

Life Safety Code NFPA 101, 2000 Edition (LSC):

Chapter 32/33 code: Clients have to participate in an evacuation drill each shift at least quarterly.

Chapter 18/19 code: There must be an evacuation drill on each shift at least quarterly. This drill is designed to train staff on evacuation procedures.

Review facility records to verify that evacuations drills are held each shift at least once in each 3-month period.

Refer to (S&C 10-26-LSC)

W441

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

and under varied conditions to—

Guidance §483.470(i)(1)

Life Safety Code NFPA 101, 2000 Edition (LSC):

Chapter 32/33: Expects that all clients living in that unit are capable of self-evacuation during an emergency. This self evacuation should be practiced under varying conditions including various times of the day or night and in various weather conditions.

Chapter 18/19: Requires drills which simulate emergency situations which familiarize facility staff with emergency actions they may be required to perform. The general emphasis of these sections of the code is upon training of the staff and not upon providing practice for the client. Drills should be practiced under varying conditions including various times of the day or night and in various weather conditions.

W442

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) Ensure that all personnel on all shifts are trained to perform assigned tasks;

Guidance §483.470(i)(1)(i)

For facilities under Chapter 18/19 of the LSC

Staff should be able to verbalize the proper procedures to be followed during emergency drills. Staff training records should document that all staff have received training on emergency drills and evacuations.

W443

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(ii) Ensure that all personnel on all shifts are familiar with the use of the facility's fire protection features; and

Guidance §483.470(i)(1)(ii)

Staff on all shifts are able to express familiarity with the use of fire extinguisher, alarms, and any other safety features in the facility.

W444

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(iii) Evaluate the effectiveness of emergency and disaster plans and procedures.

Guidance §483.470(i)(1)(iii)

See also W448. The plan(s) must be revised as needed and must be based upon analysis completed under W448.

The facility must--

W445

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(i) Actually evacuate clients during at least one drill each year on each shift;

Guidance §483.470(i)(2)(i)

All clients totally evacuate the building at least once per year per shift, regardless of the occupancy chapter under which the building falls.

All facilities, regardless of their size require actual evacuation. "Actually evacuate", as used in this standard, applies to all clients. The drills are conducted not only to rehearse the clients and staff for a fire emergency (see §483.470(i)(2)(v)), but for other disasters such as hurricanes, tornadoes, floods, etc. Such disasters would require the entire occupancy to be evacuated, and, therefore, the actual evacuation must be practiced, as required.

W446

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(ii) Make special provisions for the evacuation of clients with physical disabilities;

Guidance §483.470(i)(2)(ii)

Clients with physical or medical disabilities may require special procedures for evacuation, taking into account equipment or staff that must be maintained for the client's care at all times. The facility's evacuation plan should:

- identify such clients;
- clearly delineate any special evacuation procedures for those clients.

Staff should be familiar with the facility's special evacuation procedures when working with clients who are in need of unique provisions.

W447

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(iii) File a report and evaluation on each evacuation drill;

Guidance §483.470(i)(2)(iii)

There is a written report of each evacuation drill held.

W448

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(iv) Investigate all problems with evacuation drills, including accidents,

Guidance §483.470(i)(2)(iv)

The documentation for each evacuation drill includes an analysis of:

- The timeliness of the evacuation;
- Any difficulties observed during the drill;
- Investigates the cause of the difficulties; and
- Develops a plan to ensure the difficulties will not reoccur.

W449

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

and take corrective action; and

Guidance §483.470(i)(2)(iv)

When a problem is identified during the evacuation drill and the facility develops a plan to prevent reoccurrence, there is evidence the facility implemented corrective action and follow-up completed to ensure corrective action was successful.

W450

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(v) During fire drills, clients may be evacuated to a safe area in facilities certified under the Health Care Occupancies Chapter of the Life Safety Code.

Guidance §483.470(i)(2)(v)

The Life Safety Code NFPA 101, 2000 Edition at 3.3.167 defines safe location as "a location remote or separated from the effects of a fire so that such effects no longer pose a threat."

W451

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) Facilities must meet the requirements of paragraph (i)(1) and (2) of this section for any live-in and relief staff they utilize.

Guidance §483.470(i)(3)

In the case of live-in staff, drills must occur quarterly. Typically, live-in staff can be found in facilities that fall under Chapter 32/33 of the LSC code. Drills should be held at varying times of the day and night for clients to practice evacuation including morning, afternoon, evening and the middle of the night.

(j) Standard: Fire protection.

Guidance §483.470(j)

These standards are covered by the Life Safety Code (LSC) survey. The facility must meet the appropriate chapter of the Life Safety Code, 2000 edition.

When surveying an ICF/IID for compliance with the LSC, it is first necessary to determine whether the facility will be surveyed under Health Care (HC) or Board and Care (BC) occupancy.

- If clients receive nursing services, or if the provider elects to use Health Care, the facility should be surveyed as a Health Care Facility under Chapter 18 or 19 of the LSC, as appropriate.
- If clients receive personal care and protective oversight but not continuing nursing services, the facility is to be surveyed under Board and Care and the following three steps should be followed:

1) Determine the size (16 or less = small; 17 or more = large);

2) Determine the Evacuation Difficulty (PROMPT, SLOW, or IMPRACTICAL) using Appendix F of the fire safety evaluation system for board and care facilities (FSES/BC); and

3) Survey the building using one of two methods:

a. The prescriptive requirements of Chapters 32 or 33; or

b. The FSES/BC, Appendix G.

(1) General. Except as otherwise provided in this section—

(i) The facility must meet the applicable provisions of either the Health Care Occupancies Chapters or the Residential Board and Care Occupancies Chapter of the 2000 edition of the Life Safety Code of the National Fire Protection Association. The Director of the Office of the Federal Register has approved the NFPA101®2000 edition of the Life Safety Code, issued January 14, 2000, for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. A copy of the Code is available for inspection at the CMS Information Resource Center, 7500 Security Boulevard, Baltimore, MD or at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202–741–6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html. Copies may be obtained from the National Fire Protection Association, 1 Batterymarch Park, Quincy, MA 02269. If any changes in this edition of the Code are incorporated by reference, CMS will publish notice in the Federal Register to announce the changes.

(ii) Chapter 19.3.6.3.2, exception number 2 of the adopted LSC does not apply to a facility.

Guidance §483.470(j)(1)(ii)

Roller latches are prohibited on corridor doors as a latching device.

(2) The State survey agency may apply a single chapter of the LSC to the entire facility or may apply different chapters to different buildings or parts of buildings as permitted by the LSC.

(3) A facility that meets the LSC definition of a residential board and care occupancy must have its evacuation capability evaluated in accordance with the Evacuation Difficulty Index of the Fire Safety Evaluation System for Board and Care facilities (FSES/BC).

Guidance §483.470(j)(3)

The evacuation capability of residents is determined using Chapter 6 of NFPA 101A, 2001 edition.

4) If CMS finds that the State has a fire and safety code imposed by State law that adequately protects a facility's clients, CMS may allow the State survey agency to apply the State's fire and safety code instead of the LSC.

5) Beginning March 13, 2006, a facility must be in compliance with Chapter 19.2.9, Emergency Lighting.

Guidance §483.470(j)(5)

Battery powered emergency lighting must last at least 90 minutes.

6) Beginning March 13, 2006, Chapter 19.3.6.3.2, exception number 2 does not apply to a facility.

Guidance §483.470(j)(6)

Roller latches are prohibited on corridor doors as a latching device.

(7) Facilities that meet the LSC definition of a health care occupancy.

(i) After consideration of State survey agency recommendations, CMS may waive, for appropriate periods, specific provisions of the Life Safety Code if the following requirements are met:

Guidance §483.470(j)(7)(i)

Waivers may be granted only to facilities that meet the Life Safety Code definition of a Health Care Occupancy. Waivers are not granted to facilities that met the requirements of a Residential Board and Care Occupancy.

Waivers are recommended by the State Survey Agency and approved by the Regional Office.

(A) The waiver would not adversely affect the health and safety of the clients.

B) Rigid application of specific provisions would result in an unreasonable hardship for the facility.

ii) Notwithstanding any provisions of the 2000 edition of the Life Safety Code to the contrary, a facility may install alcohol-based hand rub dispensers if—

(A) Use of alcohol-based hand rub dispensers does not conflict with any State or local codes that prohibit or otherwise restrict the placement of alcohol-based hand rub dispensers in health care facilities;

(B) The dispensers are installed in a manner that minimizes leaks and spills that could lead to falls;

(C) The dispensers are installed in a manner that adequately protects against inappropriate access;

D) The dispensers are installed in accordance with chapter 18.3.2.7 or chapter 19.3.2.7 of the 2000 edition of the Life Safety Code, as amended by NFPA Temporary Interim Amendment 00–1(101), issued by the Standards Council of the National Fire Protection Association on April 15, 2004. The Director of the Office of the Federal Register has approved NFPA Temporary Interim Amendment 00–1(101) for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. A copy of the amendment is available for inspection at the CMS Information Resource Center, 7500 Security Boulevard, Baltimore, MD and at the Office of the Federal Register, 800 North Capitol Street NW., Suite 700, Washington, DC. Copies may be obtained from the National Fire Protection Association, 1 Batterymarch Park, Quincy, MA 02269; and

(E) The dispensers are maintained in accordance with dispenser manufacturer guidelines

(k) Standard: Paint.

The facility must—

W452

§483.470(k)(1) Use lead-free paint inside the facility; and

W453

§483.470(k)(2) Remove or cover interior paint or plaster containing lead so that it is not accessible to clients.

§483.470(l) Standard: Infection Control

W454

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(1) The facility must provide a sanitary environment to avoid sources and transmission of infections.

Guidance §483.470(l)(1)

The facility is clean and staff have eliminated opportunities for cross-contamination of infections. Food is stored, prepared, distributed, and served in a sanitary manner to prevent food borne illness.

W455

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

There must be an active program for the prevention, control, and investigation of infection and communicable diseases.

Guidance §483.470(l)(1)

Facilities maintain an ongoing surveillance program of communicable disease control and investigation of infections and an active training program that ensures the clients served receive adequate prevention of transmission information and skills, according to needs.

The facility's infection control program should include procedures for:

- identification of the extent of infestation or infection;
- protection of clients;
- treatment of clients;
- notification of family or legal guardian;
- reporting to the health department as indicated; and
- continued follow-up to resolution.

Both the Occupational Safety and Health Administration (OSHA) and the CDC have specific requirements regarding human immuno-deficiency virus (HIV), TB, and hepatitis precautions. These requirements should be incorporated into the facility's practices when relevant to the clients residing in the facility. Concerns about OSHA violations should be referred to OSHA.

W456

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(2) The facility must implement successful corrective action in affected problem areas.

W457

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(3) The facility must maintain a record of incidents and corrective actions related to infections.

W458

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

(4) The facility must prohibit employees with symptoms or signs of a communicable disease from direct contact with clients and their food.

Guidance §483.470(l)(4)

The facility should have and implement a policy that clearly delineates those signs and symptoms for which they will restrict staff access to clients or to clients' food.

W459

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480 Condition of participation: Dietetic services

(a) Standard: Food and nutrition services

W460

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(1) Each client must receive a nourishing, well balanced, diet including modified and specially prescribed diets.

Guidance §483.480(a)(1)

"Well balanced diets" are defined as diets that contain a variety of foods from the food groups currently recommended by the Academy of Nutrition and Dietetics (AND).

"Modified and specially-prescribed" diets are defined as diets that are altered in any way to enable the client to eat (e.g. food that is chopped, pureed) or diets that are intended to correct or prevent a nutritional deficiency or health problem.

Refer to W463 and W474 regarding modified and specially prescribed diets.

The following may be indicators of or may lead to compromised nutritional status:

- Unplanned significant weight gain or loss;
- Fever/infection;
- Diarrhea;
- Chronic disease;
- Chewing and Swallowing problems;
- Teeth and gum diseases;
- Excessive use of laxatives;
- Abnormal laboratory values;
- Brittle, dry hair;
- Ridged or spoon shaped nails;
- Dry flaky skin; and
- Unexplained changed in mood such as general fatigue, apathy, irritability, lack of concentration.

If one or more of these indicators are present, determine the facility's response through observation, interview, and record review.

Surveyors should assure the facility is responsive to client food allergies and the potential for adverse food/drug interactions. If surveyors suspects these may exist, investigate further.

Examples of facility responsiveness to allergies and food/drug interactions include, but are not limited to:

- Clients on long term anticonvulsant drug regimens (e.g., phenobarbital, phenytoin, primidone) are periodically monitored per facility policy for decreased serum levels of folic acid and vitamin D;
- Therapeutic doses of nutrients are provided to decrease the likelihood of anemia and prevent decreased bone density, etc.; and
- Fiber and fluids are increased in the diet of clients to decrease the likelihood of constipation.

Guidance §483.470(a)(1)

Clients of grossly different ages, functional levels, and/or social needs should not be housed together unless all of the following documentation support the placement:

- Assessment;
- Client program plan;
- Staff documentation of client response to training programs; and
- QIDP notes.

W461

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(2) A qualified dietitian must be employed either full-time, part-time, or on a consultant basis at the facility's discretion.

Guidance §483.480(a)(2)

The facility employs a registered dietitian either on a part-time, full-time or on a consultant basis.

W462

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(3) If a qualified dietitian is not employed full-time, the facility must designate a person to serve as the director of food services.

Guidance §483.480(a)(3)

Where the facility does not have a full-time qualified dietitian, verify that the director of food services coordinates with a dietitian to assure the nutritional adequacy of meals and snacks.

The food service director coordinates with the part-time or consultant dietitian to develop client meal plans and monitor client nutritional status.

The qualifications of the food service director may be dictated by facility policy or by state law, if applicable.

In small group home settings where the staff and clients plan and prepare meals cooperatively, there may not be a designated food services director. In these cases, the consultant or part-time dietitian would meet with the available home staff to ensure adequacy of menus and diets.

§483.480(a)(4) The client's interdisciplinary team, including a qualified dietitian and physician must prescribe

W463

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(4) all modified and special diets

W464

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(4) including those used as a part of a program to manage inappropriate client behavior.

Guidance §483.480(a)(4)

Modifying a clients' diet must never be used as punishment.

W465

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(5) Foods proposed for use as a primary reinforcement of adaptive behavior are evaluated in light of the client's nutritional status and needs.

Guidance §483.480(a)(5)

This regulation addresses the use of food in shaping positive adaptive behavior. Where clients have specialized nutritional needs, these needs must be taken into consideration.

When food is used as a primary reinforcement of behavior for a client who has a dietary restriction, these foods should be consistent with the foods allowed by the prescribed diet.

Food used as a reinforcement must be part of a behavior plan approved by the IDT and consistent with nutritional parameters for that client. For example, a client with diabetes does not receive concentrated sweets as a reinforcement.

W466

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(a)(6) Unless otherwise specified by medical needs, the diet must be prepared at least in accordance with the latest edition of the recommended dietary allowances of the Food and Nutrition Board of the National Research Council, National Academy of Sciences, adjusted for age, sex, disability and activity.

Guidance §483.480(a)(6)

For suggested guidelines write to:
U.S. Department of Agriculture
Human Nutrition Information Services
Washington, D.C. 20250
http://fnic.nal.usda.gov

(b) Standard: Meal services

W467

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(b)(1) Each client must receive at least three meals daily,

Guidance §483.480(b)(1)

Meal times may be flexible and accommodate a variety of activities (e.g. holiday and weekend activities). Clients should be offered the opportunity of three meals every day, but may be given the choice of not participating in a meal due to their schedule or preference.
For example, a client wakes up late on a Saturday morning and decides to have brunch.

W468
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(b)(1) at regular times comparable to normal mealtimes in the community
Guidance §483.480(b)(1)
Generally, meal times conform to the norms of the community, however the clients' schedules and preferences may result in slight variations. Slight variations are acceptable, but gross variations such as breakfast at 3 am would not be acceptable.
§483.480(b)(1) with –
W469
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(b)(1)(i) Not more than 14 hours between a substantial evening meal and breakfast of the following day,
Guidance §483.480(b)(1)(i)
A "substantial evening meal" is defined as an offering of three or more items at one time, one of which includes a high quality protein such as meat, fish, eggs, or cheese. The meal should represent no less than 20 percent of the day's total nutritional requirements.
W470
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(b)(1)(i) except on weekends and holidays when a nourishing snack is provided at bedtime, 16 hours may lapse between a substantial evening meal and breakfast; and
Guidance §483.480(b)(1)(i)
A "nourishing snack" is an offering of items, single or in combination, from the basic food groups. Snack supplies are available in the facility and are accessible to clients. Interview staff and clients about their access to snacks.
W471
§483.480(b)(1)(ii) Not less than 10 hours between breakfast and the evening meal of the same day, except as provided under paragraph (b)(1)(i).
§483.480(b)(2) Food must be served--
Facility Practices §483.480(b)(2)(i)
Portions served, either by staff or by the individuals themselves, closely match designated serving sizes on menus. Slight variations are not significant enough or frequent enough to affect individual's health.
W472
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(b)(2)(i) In appropriate quantity;
Guidance §483.480(b)(2)(i)
Meal observations verify that portions served, either by staff or by the clients, match the designated serving sizes on menus.
W473
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(b)(2)(ii) At appropriate temperature;
Guidance §483.480(b)(2)(ii)

Hot foods are served hot and cold foods are served cold, according to facility policy specific to the type of food or as desired by the client. The facility follows current state requirements for safe food temperatures.

W474

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(b)(2)(iii) In a form consistent with the developmental level of the client; and

Guidance §483.480(b)(2)(iii)

The term "form", as used in this requirement, refers to food consistency (e.g., pureed, chopped, ground, etc.). Food that is ground, chopped or pureed is based on assessed client need, and only to the extent required.

Food consistency modifications due to an acute medical or dental condition are temporary and; client's food consistency is upgraded at the soonest possible time. Clients with chronic medical or dental conditions are periodically reviewed and at least annually for the possibility of an upgrade in food consistency.

Client assessments must document the justification for modified texture of the client's diet.

W475

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(b)(2)(iv) With appropriate utensils.

Guidance §483.480(b)(2)(iv)

"Appropriate utensils" refers to eating utensils and adaptive eating equipment that enable clients to eat as independently as possible in accordance with their highest functional level.

Commonly used utensils (fork, knife, and spoon) appropriate to the food being consumed are provided to all clients except those using adaptive equipment instead. Clients should be afforded the opportunity to use forks, spoons, and knives as indicated by the food served.

Utensils must be in good condition, clean, allow portion sizes appropriate to the client's prescribed diet and meet the client's needs.

W476

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(b)(3) Food served to clients individually and uneaten must be discarded.

Guidance §483.480(b)(3)

This standard does not apply to food served in family-style dishes, unless the length of time the food is on the table or other considerations (such as clients fingering or drooling in the food) compromise the safety and nutritive value for later consumption of the food.

(c) Standard: Menus

W477

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(c)(1)(i) Be prepared in advance;

Guidance §483.480(c)(1)(i)

The facility should be able to produce a copy of client menus prospectively to verify that meal planning is done in advance.

W478

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(c)(1)(ii) Provide a variety of foods at each meal;

Guidance §483.480(c)(1)(ii)

A "variety" of food at each meal includes offerings from each of the food groups.

W479

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(c)(1)(iii) Be different for the same days of each week and adjusted for seasonal changes; and

Guidance §483.480(c)(1)(iii)

Menus should make use of seasonal foods in order to capitalize on the availability of fresher more vitamin enriched foods.

In certain portions of the country, there may be cultural preferences that influence the frequency with which a food appears on the menu. This is acceptable in the facility if it is acceptable in the community.

W480

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(c)(1)(iv) Include the average portion sizes for menu items.

Guidance §483.480(c)(1)(iv)

Verify the menu lists client portion sizes and observe that the portions served correspond to the clients prescribed diet.

W481

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(c)(2) Menus for food actually served must be kept on file for 30 days.

(d) Standard: Dining areas and service

§483.480(d) The facility must –

W482

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(d)(1) Serve meals for all clients, including persons with ambulation deficits, in dining areas, unless otherwise specified by the interdisciplinary team or a physician;

Guidance §483.480(d)(1)

For purposes of this standard, “dining areas” mean discrete eating areas located outside of bedrooms, established, furnished, and equipped for the purpose of eating meals.

When a client is not eating in a designated dining area, there must be either a medical rationale or this must be an isolated instance when the client has a personal reason to eat in another area, such as a television area to watch his or her favorite program.

Interview with the client should confirm that this is not routine, but is for a particular isolated reason.

W483

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(d)(2) Provide table service for all clients who can and will eat at a table, including clients in wheelchairs;

Guidance §483.480(d)(2)

Clients must have the opportunity to participate in the normal dining experience with their companions in the dining room.

Clients in wheelchairs are included in dining groupings of their peers without physical disabilities.

Clients in wheelchairs eat at the table and not with lap trays/hospital trays unless medically contraindicated.

W484

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(d)(3) Equip areas with tables, chairs, eating utensils, and dishes designed to meet the developmental needs of each client;

Guidance §483.480(d)(3)

Clients use adaptive equipment or are being trained to use such equipment when the need is identified in the IPP.

Examples of adaptive equipment that may be needed are:

- Double suction cups or other devices to anchor dishes on a table or tray for clients with major coordination problems;
- Rocking one-handed knife-fork or knife-spoon for a client with the use of only one hand;
- Built-up or extended handles or silverware for those with problems of grasp or range of motion;
- Plate guards or plates with raised rims to provide a surface against which the client with a physical disability can push food onto a fork or a spoon;
- Flexible drinking straws;
- Spoon bent to a 90 degree angle at the bowl or a swivel spoon to assist a client without normal wrist motions; and
- Any other adaptive device deemed by the team as needed by the client to eat more independently.

W485
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(d)(4) Supervise and staff dining rooms adequately
Guidance §483.480(d)(4)
There should be sufficient staff to implement eating programs for clients who require them and to provide necessary intervention and supervision for normalization including normal meal time behavior.
Client mealtime should not be inadequately delayed due to insufficient staff assistance.
W486
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(d)(4) to direct self-help dining procedures,
Guidance §483.480(d)(4)
Staff is present during meal times to monitor clients who are able to eat independently, promoting, supporting, reinforcing and encouraging them to eat in an appropriate and normalized manner (e.g., manners, social behaviors, etc.)
W487
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(d)(4) to assure that each client receives enough food and
Guidance §483.480(d)(4)
Clients can request and receive second helpings unless contraindicated by a prescribed diet.
For clients on restrictive diets that prefer not to be on these diets or seek seconds, the facility resolves the personal choice issues vs. health risks.
W488
(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)
§483.480(d)(4) to assure that each client eats in a manner consistent with his or her developmental level; and
Guidance §483.480(d)(4)
The intent of this regulation is to promote the acquisition of skills that lead to greater independence in eating.
Clients should be actively encouraged to eat independently to the extent possible and in accordance with their assessed abilities.
Clients should receive training to develop independent eating skills consistent with their developmental potential as identified through the CFA.
Clients learn skills in accordance with their functional levels. Skills may include:

- Use of utensils;

- Meal preparation;
- Socialization during meals;
- Family style dining; and
- Ordering food in restaurants.

Clients' eating programs are implemented in accordance with their training objectives.

To the maximum extent possible, staff model appropriate mealtime behavior and conversation by sitting at the table with clients, and when possible, eating meals with clients.

W489

(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)

§483.480(d)(5) Ensure that each client eats in an upright position, unless otherwise specified by the interdisciplinary team or a physician.

Guidance §483.480(d)(5)

If a client eats in any position other than an upright position, the physician should document the medical necessity for the position, and/or the IPP should include the program plan to teach the client the physical skill necessary for eating upright.

This applies to all clients, including those fed by nasogastric tube or gastrostomy tube. The IPP should identify the most appropriate position for the client to be positioned during mealtime, in relation to the placement of the food contents.

CHAPTER 65
INTERMEDIATE CARE FACILITIES FOR PERSONS WITH MENTAL ILLNESS (ICF/PMI)

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—65.1(135C) Definitions. For the purposes of these rules, the following terms shall have the meaning indicated in this chapter. The definitions set out in Iowa Code section 135C.1 shall be considered incorporated verbatim in the rules. The use of the words "shall" and "must" indicate these standards are mandatory.

"Academic services" means those activities provided to assist a person to acquire general information and skills which establish the basis for subsequent acquisition and application of knowledge.

"Activity coordinator" means a person who has completed the state-approved activity coordinator's course.

"Age appropriate" means those activities, settings, and personal appearance and possessions commensurate with the person's chronological age.

"Chronic mental illness" (see the definition of "Mental illness").

"Commission" means the mental health and disability services commission.

"Community living training services" are those activities provided to assist a person to acquire or sustain the knowledge and skills essential to independent functioning to the person's maximum potential in the physical and social environment. These services may focus on the following areas:

1. Independent living skills which include those skills necessary to sustain oneself in the physical environment and are essential to the management of one's personal property and business. This includes self-advocacy skills.
2. Socialization skills which include self-awareness and self-control, social responsiveness, group participation, social amenities and interpersonal skills.
3. Communication skills which include expressive and receptive skills in verbal and nonverbal language, including reading and writing.
4. Leisure time and recreational skills which include the skills necessary for a person to use leisure time in a manner which is satisfying and constructive to the person.
5. Parenting skills which include those skills necessary to meet the needs of the person's child. This service is designed to assist the person with mental illness to acquire or sustain the skills necessary for parenting.

"Department" means the Iowa department of inspections and appeals.

"Dependent adult abuse" is as defined in rule 481—52.1(235E).

"Diagnosis" means the investigation and analysis of the cause or nature of a person's condition, situation or problem.

"Direct care staff" means those staff persons who provide a homelike environment for the residents and assist or supervise the resident in meeting the goals in the resident's program plan.

"Evaluation services" means those activities designed to identify a person's current functioning level and those factors which are barriers to maintaining the current level or achieving a higher level of functioning.

"Exploitation" means the act or process of taking unfair advantage of a resident, or the resident's physical or financial resources for one's own personal or pecuniary profit by the use of undue influence, harassment, duress, deception, false representation or false pretenses.

"Goals" means general statements of attainable expected accomplishments to be achieved in meeting identified needs.

"Incident" means all accidental, purposeful, or other occurrences within the facility or on the premises affecting residents, visitors, or employees whether there is apparent injury or where hidden injury may have occurred.

"Individual program plan (IPP)" means a written plan for the provision of services to the resident that is developed and implemented using an interdisciplinary process that is based on the resident's functional

status, strengths, and needs and that identifies service activities designed to enable a person to maintain or move toward independent functioning. The plan identifies a continuum of development and outlines progressive steps and anticipated outcomes of services.

"Informed consent" means an agreement by a person, or by the person's legally authorized representative, based upon an understanding of:

1. A full explanation of the procedures to be followed including an identification of those that are and are not experimental;
2. A description of the attendant discomforts, risks, and benefits to be expected; and
3. A disclosure of appropriate alternative procedures that would be advantageous for the person.

"Interdisciplinary process" means an approach to assessment, individual program planning, and service implementation in which planning participants function as a team. Each participant utilizing the skills, competencies, insights and perspectives provided by the participant's training and experience focuses on identifying the service needs of the resident and the resident's family. The purpose of the process is for participants to review and discuss, face-to-face, all information and recommendations and to reach decisions as a team. Participants share all information and recommendations, and develop as a team, a single, integrated individual program plan to meet the resident's needs and, when appropriate, the resident's family's needs.

"Interdisciplinary team" means the group of persons who develop a single, integrated individual program plan to meet a resident's needs for services. The interdisciplinary team consists of, at a minimum, the resident, the resident's legal guardian, if applicable, the resident's advocate, if desired by the resident, a referral agency representative, other appropriate staff members, the resident's attending psychiatrist and QMHP, other providers of services, and other persons relevant to the resident's needs.

"Least restrictive environment" means the environment in which the interventions in the lives of people with mental illness can be carried out with a minimum of limitation, intrusion, disruption, and departure from commonly accepted patterns of living.

It is the environment which allows residents to participate, to the maximum extent possible, in everyday life and to have control over the decisions that affect them. It is an environment that provides needed supports which do not interfere with personal liberty and do not unduly interfere with a person's access to the normal events of life.

"Legal services" means those activities designed to assist the person in exercising constitutional and legislatively enacted rights.

"Level of functioning" means a person's current physiological and psychological status and current academic, community living, self-care and vocational skills.

"Mechanical restraint" means a device applied to a person's limbs, head or body which restricts a person's movement and includes, but is not limited to, leather straps, leather cuffs, camisoles or handcuffs.

"Mental abuse" means, but is not limited to, humiliation, harassment, and threats of punishment or deprivation.

"Mental health counselor" means a person who is certified or eligible for certification as a mental health counselor by the National Academy of Certified Clinical Mental Health Counselors.

"Mental health, mental retardation commission" means the commission described in Iowa Code section 225C.5.

"Mental illness" means a substantial disorder of thought or mood which significantly impairs judgment, behavior, or the capacity to recognize reality or the ability to cope with the ordinary demands of life. Mental illnesses include the organic and functional psychoses, neuroses, personality disorders, alcoholism and drug dependence, behavioral disorders and other disorders as defined by the current edition of "American Psychiatric Association Diagnostic and Statistical Manual of Mental Disorders." Mental illness is chronic when it is of long duration or marked by frequent recurrences.

"Normalization" means helping persons, in accordance with their needs and preferences, to achieve a lifestyle that is consistent with the norms and patterns of general society in ways which incorporate the age-appropriate and least restrictive principles.

"Objectives" means specific, time-limited, and measurable statements showing outcomes or accomplishments necessary to progress toward the goal.

"Physical abuse" means, but is not limited to, corporal punishment and the use of restraints as punishment.

"Physical injury" means damage to any bodily tissue to the extent the tissue must undergo a healing process in order to be restored to a sound and healthy condition. It may also mean damage to the extent the bodily tissue cannot be restored to a sound and healthy condition, or results in the death of the resident whose bodily tissue sustained the damage.

"Physical or physiological treatment" means those activities designed to prevent, halt, control, relieve, or reverse symptoms or conditions which interfere with the physical or physiological functioning of the human body.

"Physical restraint" means a technique involving the use of one or more of a staff person's arms, legs, hands or other body areas to restrict or control the movements of a resident. This does not include the use of mechanical restraint.

"Physician" means a person who is currently licensed in Iowa to practice medicine and surgery, osteopathic medicine and surgery, or osteopathy.

"Primary care provider" means any of the following who provide primary care and meet certification standards:

1. A physician who is a family or general practitioner or an internist.
2. An advanced registered nurse practitioner.
3. A physician associate.

"Program" means a set of related resources and services directed to the accomplishment of a fixed set of goals and objectives for any of the following:

1. Special target populations;
2. The population of a specified geographic area(s);
3. A specified purpose; and
4. A person.

"Psychiatric nurse" means a person who meets the requirements of certified psychiatric-mental health nurse practitioner pursuant to 655—Chapter 7, Iowa Administrative Code, or is eligible for certification.

"Psychiatrist" means a doctor of medicine or osteopathic medicine and surgery who is certified by the American Board of Psychiatry and Neurology or who is eligible for certification.

"Psychologist" means a person who is licensed to practice psychology in the state of Iowa, or is certified by the Iowa department of education as a school psychologist, or is eligible for certification.

"Psychotherapeutic treatment" means those activities designed to assist a person in the identification or modification of beliefs, emotions, attitudes, or behaviors in order to maintain or improve the person's functioning in response to the physical, emotional and social environment.

"Qualified mental health professional (QMHP)" means a person who:

1. Holds at least a master's degree in a mental health field, including but not limited to: psychology, counseling and guidance, nursing and social work; or is a doctor of medicine (M.D.) or a doctor of osteopathic medicine and surgery (D.O.) or a physician associate; and
2. Holds a current Iowa license when required by the Iowa licensure law; and
3. Has at least two years of postdegree experience, supervised by a mental health professional, in assessing mental problems and needs of individuals and in providing appropriate mental health services for those individuals. See rule 481—65.4(135C) for waiver procedures.

"Resident" means a person who has been admitted to the facility to receive care and services.

"Seclusion" means the isolation of the resident in a locked room which cannot be opened by the resident.

"Self-care training services" means those activities provided to assist a person to acquire or sustain the knowledge, habits and skills essential to the daily needs of the person. The activities focus on personal hygiene, general health maintenance, mobility skills and other activities of daily living.

"Service" means a set of interrelated activities provided to a resident pursuant to the IPP.

"Sexual abuse" means, but is not limited to, the exposing of pubes to a resident, the exposure of a resident's genitals, pubes, breasts or buttocks for sexual satisfaction, fondling or touching the inner thigh, groin, buttocks, anus or breast of a resident or the clothing covering these areas, sexually suggestive

comments or remarks made to a resident, a genital to genital or rectal, or oral to genital or rectal contact, or the commission of a sexual offense under Iowa Code chapter 709 or Iowa Code section 726.2.

"Social worker" means a person who is licensed to practice social work in the state of Iowa, or who is eligible for licensure.

"Support services" means those activities provided to or on behalf of a person in the areas of personal care and assistance and property maintenance in order to allow a person to live in the least restrictive environment.

"Transportation services" means those activities designed to assist a person to travel from one place to another to obtain services or carry out life's activities.

"Verbal abuse" means, but is not limited to, the use of derogatory terms or names, undue voice volume and rude comments, orders or responses to residents.

"Vocational training services" means those activities designed to familiarize a person with production or employment requirements and to maintain or develop the person's ability to function in a work setting. This service includes programming which allows or promotes the development of skills, attitudes and personal attributes appropriate to the work setting.

"Work" means any activity during which a resident provides goods or services for wages.

"Written, in writing or recorded" means that an account or entry is made in a permanent form.

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13; **ARC 1204C**, IAB 12/11/13, effective 1/15/14; **ARC 1752C**, IAB 12/10/14, effective 1/14/15; **ARC 6974C**, IAB 4/5/23, effective 5/10/23; Editorial change: IAC Supplement 6/10/26]

481—65.2(135C) Application for license. In order to obtain an initial license for an ICF/PMI, the applicant must comply with the rules and standards contained in Iowa Code chapter 135C and the standards in 481—Chapter 61. Waivers from 481—Chapter 61 regulations are allowed under rule 481—61.2(135C). An application must be submitted to the department which states the type and category of license for which the facility is applying.

65.2(1) Each application shall include:

a. A floor plan of each floor of the facility drawn on 8½- × 11-inch paper showing room areas in proportion, room dimensions, room numbers for all rooms, including bathroom, and designation of the use to which room will be put and window and door location;

b. A photograph of the front and side elevation of the facility;

c. The statutory fee for an intermediate care facility license;

d. Evidence of a certificate signed by the state fire marshal or deputy state fire marshal as to compliance with fire safety rules.

65.2(2) A résumé of care with a narrative which includes the following information shall be submitted:

a. The purpose of the facility;

b. A description of the target population and limitations on resident eligibility;

c. An identification and description of the services the facility will provide. This shall include at least specific and measurable goals and objectives for each service available in the facility and a description of the resources needed to provide each service including staff, physical facilities and funds;

d. A description of the human service system available in the area, including, but not limited to, social, public health, visiting nurse, vocational training, employment services, sheltered living arrangements, and services of private agencies; and

e. A description of working relationships with the human service agencies when applicable which shall include at least how the facility will coordinate with:

(1) The department of human services to facilitate continuity of care and coordination of services to residents; and

(2) Other agencies to identify unnecessary duplication of services and plan for development and coordination of needed services.

65.2(3) In order to obtain a renewal or change of ownership license of the ICF/PMI the applicant must:

a. Submit to the department the completed application form 30 days prior to annual license renewal or change of ownership date of the ICF/PMI license;

b. Submit the statutory license fee for an ICF/PMI with the application for renewal or change of ownership;

c. Have an approved current certificate signed by the state fire marshal or deputy state fire marshal as to compliance with fire safety rules; and

d. Submit documentation of review of résumé of care pursuant to subrule 65.2(1), paragraph *"a,"* and a copy of any revisions to the plan.

This rule is intended to implement Iowa Code sections 135C.7 and 135C.9.

[**ARC 1205C**, IAB 12/11/13, effective 1/15/14; **ARC 5719C**, IAB 6/16/21, effective 7/21/21]

481—65.3(135C) Licenses for distinct parts. Separate licenses may be issued for distinct parts which are clearly identifiable parts of a health care facility, containing contiguous rooms in a separate wing or building or on a separate floor of the facility, which provide care and services of separate categories.

The following requirements shall be met for a separate licensing of a distinct part:

1. The distinct part shall serve only residents who require the category of care and services immediately available to them within that part. (III)
2. The distinct part shall meet all the standards, rules and regulations pertaining to the category for which a license is being sought.
3. The distinct part must be operationally and financially feasible.
4. A separate personal care staff with qualifications appropriate to the care and services being rendered must be regularly assigned and working in the distinct part under responsible management. (III)
5. Separately licensed distinct parts may have certain services such as management, building maintenance, laundry and dietary in common with each other.

This rule is intended to implement Iowa Code section 135C.6(2).

481—65.4(135C) Waivers. Waivers from these rules may be granted by the director of the department when:

1. The need for a waiver has been established consistent with the résumé of care or the resident's individual program plan.
2. There is no danger to the health, safety, welfare or rights of any resident.
3. The waiver will apply only to a specific intermediate care facility for the mentally ill.

Waivers shall be reviewed at least at the time of each licensure survey and any other time by the department to see if the need for the waiver is still acceptable.

65.4(1) To request a waiver, the licensee must:

a. Apply in writing on a form provided by the department;

b. Cite the rule or rules from which a waiver is desired;

c. State why compliance with the rule or rules cannot be accomplished;

d. Explain how the waiver is consistent with the résumé of care or the individual program plan; and

e. Demonstrate that the requested waiver will not endanger the health, safety, welfare or rights of any resident.

65.4(2) Upon receipt of a request for waiver, the director will:

a. Examine the rule from which the waiver is requested;

b. Evaluate the requested waiver against the requirement of the rule to determine whether the request is necessary to meet the needs of the residents;

c. Examine the effect of the requested waiver on the health, safety or welfare of the residents;

d. Consult with the applicant to obtain additional written information if required; and

e. Obtain approval of the Iowa mental health and disability services commission, when the request is for a waiver from the requirement for qualification of a mental health professional.

65.4(3) Based upon this information, approval of the waiver will be either granted or denied within 120 days of receipt.

[**ARC 0766C**, IAB 5/29/13, effective 7/3/13; **ARC 5719C**, IAB 6/16/21, effective 7/21/21]

481—65.5(135C) General requirements.

65.5(1) A valid license shall be posted in each facility so the public can easily see it. (III)

65.5(2) Each license is valid only for the premises and person named on the license and is not transferable.

65.5(3) The posted license shall accurately reflect the current status of the facility. (III)

65.5(4) Each citation or a copy of each citation issued by the department for a Class I or Class II violation shall be prominently posted by the facility in plain view of the residents, visitors, and persons inquiring about placement in the facility. The citation or copy of the citation shall remain posted until the violation is corrected to the satisfaction of the department. (III)

65.5(5) Licenses expire one year after the date of issuance or as indicated on the license.

65.5(6) There shall be no more beds erected than are stipulated on the license. (II, III)

This rule is intended to implement Iowa Code section 135C.8.

481—65.6(135C) Notification required by the department. The department shall be notified within 48 hours, by letter, of any reduction or loss of personal care or dietary staff lasting more than seven days which places the staff ratio below that required for licensing. No additional residents shall be admitted until the minimum staff requirements are achieved. (II, III)

65.6(1) Other required notification and time periods are:

a. Within 30 days of any proposed change in the résumé of care for the ICF/PMI; (II, III)

b. Thirty days before addition, alteration, or new construction is begun in the ICF/PMI or on the premises; (III)

c. Thirty days before the ICF/PMI closes; (III)

d. Within two weeks of any change of administrator; (II, III) and

e. Within 30 days when any change in the category of license is sought. (III)

65.6(2) Prior to the purchase, transfer, assignment, or lease of an ICF/PMI the licensee shall:

a. Inform the department in writing of the pending sale, transfer, assignment, or lease of the facility; (III)

b. Inform the department in writing of the name and address of the prospective purchaser, transferee, assignee or lessee at least 30 days before the sale, transfer, assignment or lease is completed; (III) and

c. Submit a written authorization to the department permitting the department to release information of whatever kind from the department's files concerning the licensee's ICF/PMI to the named prospective purchaser, transferee, assignee or lessee. (III)

65.6(3) After the authorization has been submitted to the department, the department shall upon request send or give copies of all recent licensure surveys and any other pertinent information relating to the facility's licensure status to the prospective purchaser, transferee, assignee or lessee. Costs for copies requested shall be paid by the prospective purchaser, transferee, assignee or lessee. No information personally identifying any resident shall be provided to the prospective purchaser, transferee, assignee or lessee. (II, III)

This rule is intended to implement Iowa Code sections 135C.6(3) and 135C.16(2).

481—65.7(135C) Administrator. Each ICF/PMI shall have one person in charge, duly approved by the department or acting in a provisional capacity in accordance with these regulations. (II, III)

65.7(1) The administrator shall be at least 21 years of age and shall meet at least one of the following conditions:

a. Be licensed in Iowa as a nursing home administrator, or certified as a residential care administrator. No residential care facility administrator certified under a waiver from the department shall administrate an intermediate care facility for persons with mental illness. The administrator must have at least two years' experience in direct care or supervision of people with mental illness and at least one year of experience in an administrative capacity; (II, III) or

b. Be a qualified mental health professional (QMHP) with at least one year of experience in an administrative capacity. (II, III)

If an ICF/PMI is a distinct part of a licensed health care facility, the administrator of the facility as a whole may serve as the administrator of the ICF/PMI without meeting the requirements of subrule 65.7(1), paragraph *"a"* or *"b."* When this occurs, the person in charge of the ICF/PMI distinct part shall meet the requirements of subrule 65.7(1), paragraph *"a"* or *"b."* (II, III)

65.7(2) The administrator of more than one facility shall be responsible for no more than 150 beds in total. (II, III)

a. The distance between the two farthest facilities shall be no greater than 50 miles. (II, III)

b. An administrator of more than one facility must designate an administrative staff person in each facility who shall be responsible for directing programs in the facility during the administrator's absence. (II, III)

65.7(3) The administrative staff person shall be designated in writing and immediately available to the facility on a 24-hour basis when the administrator is absent and residents are in the facility. (II, III)

The person(s) designated shall:

a. Have at least two years' experience or training in a supervisory or direct care position in a mental health setting; (II, III)

b. Be knowledgeable of the operation of the facility; (II, III)

c. Have access to records concerned with the operation of the facility; (II, III)

d. Be capable of carrying out administrative duties and of assuming administrative responsibilities; (II, III)

e. Be at least 21 years of age; (III)

f. Be empowered to act on behalf of the licensee during the administrator's absence concerning the health, safety and welfare of the residents; (II, III) and

g. Have training to carry out assignments and take care of emergencies and sudden illnesses of residents. (II, III)

65.7(4) If an administrator serves more than one facility, a written plan shall be developed, implemented and available for review by the department designating regular and specific times the administrator will be available to meet with the staff and residents to provide direction and supervision of resident care and services. (II, III)

65.7(5) When a facility has been unable to replace the administrator, through no fault of its own, a provisional administrator meeting the qualifications of the administrative staff person may be appointed on a temporary basis by the licensee to assume the administrative responsibilities for the facility. This person shall not serve more than three months without approval from the department. The department must be notified before the appointment of the provisional administrator. (III)

65.7(6) A facility applying for initial licensing shall not have a provisional administrator. (III)

This rule is intended to implement Iowa Code section 135C.14(2).

481—65.8(135C) Administration.

65.8(1) The licensee shall:

a. Be responsible for the overall operation of the ICF/PMI; (III)

b. Be responsible for compliance with all applicable laws and with the rules of the department; (II, III)

c. Establish written policies, which shall be available for review by the department or other agencies designated by Iowa Code section 135C.16(3), for the operation of the ICF/PMI including, but not limited to: (III)

(1) Personnel; (III)
(2) Admission; (III)
(3) Evaluation services; (II, III)
(4) Programming and individual program plan; (II, III)
(5) Crisis intervention; (II, III)
(6) Discharge or transfer; (III)
(7) Medication management; (II)
(8) Resident property; (II, III)
(9) Financial affairs; (II, III)
(10) Records; (III)
(11) Health and safety; (II, III)
(12) Nutrition; (III)
(13) Physical facilities and maintenance; (III)

(14) Resident rights; (II, III) and

d. Furnish statistical information concerning the operation of the facility to the department within 30 days of request. (III)

65.8(2) The administrator shall be responsible for the implementation of procedures to support the policies established by the licensee. (III)

This rule is intended to implement Iowa Code section 135C.14.

[**ARC 1205C**, IAB 12/11/13, effective 1/15/14]

481—65.9(135C) Personnel.

65.9(1) The personnel policies and procedures shall include the following requirements:

a. Written job descriptions for all employees or agreements for all consultants, which include duties and responsibilities, education, experience, or other requirements, and supervisory relationships; (III)

b. Annual performance evaluations of all employees and consultants which are dated and signed by the employee or consultant and the supervisor; (III)

c. Personnel records which are current, accurate, complete and confidential to the extent allowed by law. The record shall contain documentation of how the employee's or consultant's education and experience are relevant to the position for which they were hired; (III)

d. Roles, responsibilities, and limitation of student interns and volunteers; (III)

e. An orientation program for all newly hired employees and consultants which includes introduction to facility personnel policies and procedures and a discussion of the safety plan. Subparagraphs 65.9(1)*"f"* (3), (5) and (9) shall be included; (II, III)

f. A plan for a continuing education program with a minimum of 12 in-service programs per year. There shall be a written, individualized staff development plan implemented for each employee. The plan shall take into consideration the duties of the employee and the needs of the facility identified in the résumé of care. The plan shall ensure that each employee has the opportunity to develop and enhance skills and to broaden and increase knowledge needed to provide effective resident care including, but not limited to:

(1) First aid; (II, III)

(2) Human needs and behavior; (II, III)

(3) Problems and needs of persons with mental illness; for example, diagnosis and treatment, suicide assessment and prevention; (II, III)

(4) Medication; (II, III)

(5) Crisis intervention; for example, use of restraints and seclusion; (II)

(6) Delivery of services in accordance with the principles of normalization; (III)

(7) Infection control and wellness; (III)

(8) Fire safety, disaster, and tornado preparation; (II, III) and

(9) Resident rights. (II, III)

g. Equal opportunity and affirmative action employment practices; (III)

h. Procedures to be used when disciplining an employee; (III) and

i. Appropriate dress and personal hygiene for staff and residents. (III)

65.9(2) There shall be written personnel policies for each facility. Personnel policies shall include the following requirements:

a. Employees shall have a physical examination before employment and at least every four years after beginning employment. (III)

b. Screening and testing for tuberculosis shall be conducted pursuant to 481—Chapter 59. (I, II, III)

c. No one shall provide services in a facility if the person has a disease:

(1) Which is transmissible through required workplace contact; (I, II, III)

(2) Which presents a significant risk of infecting others; (I, II, III)

(3) Which presents a substantial possibility of harming others; (I, II, III)

(4) For which no reasonable accommodation can eliminate the risk. (I, II, III)

Refer to Guideline for Infection Control in Hospital Personnel, 1998, Centers for Disease Control, U.S. Department of Health and Human Services, to determine (1), (2), (3) and (4).

d. There shall be written policies for emergency medical care for employees in case of sudden illness or accident. These policies shall include the administrative individuals to be contacted. (III)

e. Health certificates for all employees shall be available for review by the department. (III)

65.9(3) Staffing. The facility shall establish, subject to approval of the department, the numbers and qualifications of the staff required in an ICF/PMI using as its criteria the services being offered as indicated on the résumé of care and as required for implementation of individual program plans. (II, III)

a. Direct care staff. Direct care staff shall be present in the facility unless all residents are involved in activities away from the facility. The policies and procedures shall provide for an on-call staff person to be available when residents and staff are absent from the facility. (II, III)

(1) The on-call staff person shall be designated in writing. (II, III)

(2) Residents or another responsible person shall be informed of how to contact the on-call person. (II, III)

The staffing plan shall ensure that at least one qualified direct care staff person is on duty to carry out and implement the individual program plans. (II, III)

b. Qualified mental health professional. The ICF/PMI shall, by direct employment or contract, provide for sufficient services of a qualified mental health professional to attain or maintain the highest practicable mental and psychosocial well-being of each resident. Attainment shall be determined by resident assessment and individual plans of care. (I, II, III) Responsibilities of the QMHP shall include, but not be limited to:

(1) Approval of each resident's individual program plan; (II, III)

(2) Monitoring the implementation of each resident's individual program plan, including periodic personal contact; (II, III) and

(3) Participation on each resident's interdisciplinary team. (II, III)

c. Nursing staff. Each facility shall have sufficient nursing staff to provide nursing and related services to attain or maintain the highest practical physical, mental and psychosocial well-being of each resident. Attainment shall be determined by resident assessments and individual plans of care.

(1) The director of nursing (DON) shall be a registered nurse who is employed by the facility at least 40 hours per week. This person shall have two years' experience in direct care or supervision of people with mental illness. (II, III)

(2) The facility shall provide 24-hour service by licensed nurses, including at least one registered nurse on the day tour of duty, seven days a week. (II, III)

(3) If the DON has other institutional responsibilities, a qualified registered nurse shall serve as the DON's assistant so there is the equivalent of a full-time nursing supervisor on duty. (II, III)

(4) The department shall establish, on an individual facility basis, the numbers and qualifications of the staff required in the facility using as its criteria the services being offered as indicated on the résumé of care and as required for implementation of individual program plans. (II, III)

(5) The DON shall not serve as charge nurse in a facility with an average daily total occupancy of 60 or more residents. (II, III)

(6) A waivered licensed practical nurse shall not be allowed as a charge nurse on any shift. (II, III)

(7) There shall be at least two people capable of rendering nursing service awake, dressed, and on duty at all times. (II, III)

d. Activity staff. Each ICF/PMI shall employ a recreational therapist, occupational therapist or activity coordinator to direct the activity program both inside and outside the facility in accordance with each resident's individual program plan. (III)

Staff for the activity program shall be based on the needs of the residents being served as identified on the IPP. (III)

(1) The activity program director shall attend workshops or educational programs which relate to activity programming. These shall total a minimum of ten contact hours per year. (III)

(2) Personnel coverage shall be provided when the activity program director is absent during scheduled activities. (III)

(3) The activity program director shall have access to all information about residents necessary to carry out the program. (III)

e. Responsibilities of the activity program director shall include:

(1) Coordinating all activities, including volunteer or auxiliary activities and religious services; (III)

(2) Ensuring that all records required are kept; (III)

(3) Coordinating the activity program with all other services in the facility; (III) and

(4) Participating in the in-service training program in the facility. This shall include attending as well as presenting sessions. (III)

65.9(4) Personnel record.

a. A personnel record shall be kept for each employee. (III)

b. The record shall include the employee's:

(1) Name and address, (III)

(2) Social security number, (III)

(3) Date of birth, (III)

(4) Date of employment, (III)

(5) References, (III)

(6) Position in the facility, (III)

(7) Job description, (III)

(8) Documentation of experience and education, (III)

(9) Staff development plan, (III)

(10) Annual performance evaluation, (II, III)

(11) Documentation of disciplinary action, (II, III)

(12) Date and reason for discharge or resignation, (III) and

(13) Current physical examination. (III)

65.9(5) Employee criminal record checks, child abuse checks and dependent adult abuse checks and employment of individuals who have committed a crime or have a founded abuse. The facility shall comply with the requirements found in Iowa Code section 135C.33 as amended by 2013 Iowa Acts, Senate File 347, and rule 481—50.9(135C) related to completion of criminal record checks, child abuse checks, and dependent adult abuse checks and to employment of individuals who have committed a crime or have a founded abuse. (I, II, III)

This rule is intended to implement Iowa Code sections 135C.14(2) and 135C.14(6).

[**ARC 0663C**, IAB 4/3/13, effective 5/8/13; **ARC 0903C**, IAB 8/7/13, effective 9/11/13; **ARC 1205C**, IAB 12/11/13, effective 1/15/14]

481—65.10(135C) General admission policies. There shall be admission policies which address the following:

1. No resident shall be admitted or retained who is in need of greater services than the facility can provide. (II, III)

2. Residents shall be admitted only on a written order signed by a physician. (II, III)

3. A preplacement visit shall be completed prior to admission, except in case of an emergency admission or readmission, to familiarize the applicant with the facility and services offered. The policies and procedures may allow for waiving the requirement at the request of a person seeking admission when the completion of the visit would create a hardship for the person seeking admission. If the distance to be traveled makes it impossible to complete the visit in an eight-hour day, this may be considered to create a hardship. (III)

4. Prior to admission of an applicant, the facility shall obtain sufficient information to determine if its program is appropriate and adequate to meet the person's needs. (III)

5. Admission criteria shall include, but not be limited to, age, sex, current diagnosis from an American Psychiatric Association Diagnostic and Statistical Manual of Mental Disorders, substance abuse, dual diagnosis and criteria that are consistent with the résumé of care. (III)

6. Each facility shall maintain a waiting list with selection priorities identified. (III)

7. No ICF/PMI may admit more residents than the number of beds for which it is licensed. (II, III)

8. There shall be a written, organized orientation program for all residents which shall be planned and implemented to resolve or reduce personal, family, business, and emotional problems that may interfere with the health care, recovery, and rehabilitation of the individual and which shall be available for review by the department. (III)

9. Infants and children under the age of 18 shall not be admitted as residents to an ICF/PMI for adults unless given prior written approval by the department. A distinct part of an ICF/PMI, segregated from the adult section, may be established based on a résumé of care submitted by the licensee or applicant which is commensurate with the needs of the residents of the health care facility and has received the department's review and approval. (III)

10. Within 30 days of a resident's admission to a health care facility receiving reimbursement through the medical assistance program under Iowa Code chapter 249A, the facility shall ask the resident or the resident's personal representative whether the resident is a veteran and shall document the response. If the facility determines that the resident is a potential veteran, the facility shall report the resident's name along with the names of the resident's spouse and any dependent children, as well as the name of the contact person for this information, to the Iowa department of veterans affairs. Where appropriate, the facility may also report such information to the Iowa department of human services.

If a resident is eligible for benefits through the United States Department of Veterans Affairs or other third-party payor, the facility first shall seek reimbursement from the identified payor source before seeking reimbursement from the medical assistance program established under Iowa Code chapter 249A.

The provisions of this paragraph shall not apply to the admission of an individual as a resident to a state mental health institute for acute psychiatric care. (II, III)

This rule is intended to implement Iowa Code sections 135C.3 and 135C.23.

481—65.11(135C) Evaluation services. Each resident admitted shall have a physical examination and tuberculin test no more than 30 days before admission and a physical examination annually after that. Each annual examination shall be sufficient to ensure the resident has no physical condition which precludes living in the facility. If the resident is admitted directly from a hospital, a copy of the hospital admission physical and discharge summary may meet this requirement. (II, III)

65.11(1) In addition to the required initial physical examination, each resident shall be evaluated to identify physical health, current level of functioning and the need for services. This evaluation shall be completed within 30 days of admission and annually after that. Information from other sources may be used in the evaluation if the information meets the requirements of subrules 65.11(2) and 65.11(3). (II, III)

65.11(2) The portion of the evaluation which describes the resident's physical health shall:

a. Identify current illnesses and disabilities and include recommendations for physical and physiological treatment and services; (II, III)

b. Include a description of the resident's ability for health maintenance; (II)

c. Include a mental status examination and history of mental health and treatments; (II, III) and

d. Be performed by a physician with a valid license to practice medicine and surgery, osteopathic medicine and surgery or osteopathy in Iowa. If the evaluation is not conducted in Iowa, it must be by a physician who holds a current license in the state in which the examination is performed. If the doctor is not a psychiatrist, a psychiatrist or health service provider in psychology licensed under Iowa Code section 154B.7 shall be consulted regarding the results of the mental status examination. (II, III)

65.11(3) The portion of the evaluation which describes the resident's current functioning level and need for services shall:

a. Identify the functioning level and need for services in self-care, community living skills, psychotherapeutic treatment, vocational skills, and academic skills as appropriate; (II, III)

b. Contain sufficient detail about skills and needs to determine appropriate placement; (II, III)

c. Be made without regard to the availability of services; (III) and

d. Be performed by a QMHP, consulting with an interdisciplinary team. (III)

65.11(4) Results of all evaluations shall be in writing and maintained in resident records. After the initial evaluation, all subsequent evaluations shall contain sufficient detail to determine changes in the resident's physical and mental health, skills, and need for services. (II, III)

65.11(5) A narrative social history shall be completed for each resident within 30 days of admission. The social history shall be completed and approved by the qualified mental health professional before the IPP is developed. (III)

a. When a social history is secured from another provider, the information shall be reviewed within 30 days of admission. The date of the review and a summary of significant changes in the information shall be entered in the resident's record. The social worker who reviews the history shall sign it. (III)

b. An annual review of the social history information shall be incorporated in the individual program plan progress notes. (III)

c. The social history shall address at least the following areas:

(1) Referral source and reason for admission; (II, III)

(2) Legal status; (II, III)

(3) Previous living arrangements; (III)

(4) Services received previously and current service involvements; (II, III)

(5) Significant medical and mental health conditions including at least illnesses, hospitalizations, past and current drug therapy, and special diets; (II, III)

(6) Substance abuse history; (II, III)

(7) Work history; (III)

(8) Education history; (II)

(9) Relationship with family, significant others, and other support systems; (III)

(10) Cultural, ethnic and religious background; (II, III)

(11) Hobbies and leisure time activities; (III)

(12) Likes, dislikes, habits, and patterns of behavior; (II, III)

(13) History of aggressive or suicidal behavior; (I, II, III) and

(14) Impressions and recommendations. (II, III)

This rule is intended to implement Iowa Code section 135C.14(7).

481—65.12(135C) Individual program plan (IPP). An initial program plan shall be developed within 24 hours of admission. This plan shall be based on information gained from the resident, family, physician or referring facility. Services to be provided shall be addressed. Intervention to be provided, if and when the need arises, shall also be addressed in the IPP. The plan shall be followed until the IPP required in subrule 65.12(1) is complete. The initial plan shall be completed by a registered nurse, a qualified social worker or a QMHP. (II, III)

65.12(1) An individual program plan for each resident shall be developed by an interdisciplinary team. The resident or the resident's legal guardian has the ultimate authority to accept or reject the plan unless otherwise determined by the court. The IPP shall be approved and have implementation monitored by the QMHP. (II, III)

a. The IPP shall be based on the individual service plan of the referring agency, if available, the information contained in the social history, the need for services identified in the evaluation, and any other pertinent information. (III)

b. The facility shall assist the resident in obtaining access to academic services, community living skills training, legal services, self-care training, support services, transportation, treatment, and vocational education as needed. These services may be provided by the facility or obtained from other providers. (III)

c. Services to the resident shall be provided in the least restrictive environment and shall incorporate the principle of normalization. (III)

d. If needed services are not available and accessible, the facility shall document the actions taken to locate and obtain those services. The documentation shall identify needs which will not be met because of the lack of available services. (III)

e. The IPP shall be developed within 30 days following admission to the facility and renewed at least annually. (II, III)

f. The IPP shall be written, dated, signed by the interdisciplinary team members, and maintained in the resident's record. (III)

g. Written notice of the meeting to develop an IPP shall be mailed or delivered to everyone included in the interdisciplinary team conference at least two weeks before the scheduled meeting. (III)

65.12(2) The IPP shall include the following:

a. Goals, (III)

b. Objectives, (III)

c. Specific services to be provided, (III)

d. People or agency responsible for providing services, (III)

e. Beginning date, (III) and

f. Anticipated duration of services. (III)

65.12(3) The IPP shall set out the procedure to be used to evaluate whether objectives are achieved. This procedure shall incorporate a process for ongoing review and revision. (III)

65.12(4) The interdisciplinary team shall review the IPP at a team meeting at least quarterly and when the resident's condition changes. (II, III)

a. The interdisciplinary team shall develop a written report which addresses:

(1) The resident's progress toward objectives; (II, III)

(2) The need for continued services; (II, III)

(3) Recommendations concerning alternative services or living arrangements; (II, III) and

(4) Any recommended change in guardianship, conservatorship or commitment status. (II, III)

b. The report shall reflect those involved in the review, the date of the review, and be maintained in the resident's record. (III)

65.12(5) There shall be procedures for recording the activities of each service provider and a mechanism to coordinate the activities of all service providers. Resident response to all activities shall be recorded. (III)

a. Staff shall create a record at the time of a service required by the IPP. If this is not possible, the record shall be written no more than seven days later. (III)

b. When the services are provided more than once a week, staff may make a monthly summarized entry in the resident's record. (III)

c. Entries shall be dated and signed by the person who provides the service. (III)

d. Entries shall be made when incidents occur. (III)

e. Entries shall be written in terms of behavioral observations and specific activities. Entries that involve subjective interpretations of a resident's behavior or progress shall be clearly identified and shall be supplemented with descriptions of behavior upon which the interpretation was based. (III)

This rule is intended to implement Iowa Code section 135C.14.

481—65.13(135C) Activity program. Each ICF/PMI shall have an organized activity program which is directed by a person qualified as required by 65.9(3)*"d."*

65.13(1) An activity program plan for the facility shall be based on needs identified in IPPs and on other interests expressed by residents. The activity program shall include leisure time management. (III)

65.13(2) Activities shall be offered at least daily during the daytime hours if residents are present, twice weekly in the evening and twice on the weekend. (III)

65.13(3) Activities offered shall be varied and shall be planned for individuals, small groups or large groups. (III)

65.13(4) Monthly calendars shall be prepared in advance and shall be kept for review by the department. Substitutions and cancellations shall be noted. (III)

65.13(5) Activities department personnel shall coordinate programs with other facility personnel. (III)

481—65.14(135C) Crisis intervention. There shall be written policies and procedures concerning crisis intervention. (II) These policies and procedures shall be:

1. Directed to maximizing the growth and development of the individual by incorporating a hierarchy of available alternative methods that emphasize positive approaches; (II, III)
2. Available in each program area and living unit; (II, III)
3. Available to individuals and their families; (II, III) and
4. Developed with the participation, as appropriate, of individuals served. (II, III)

65.14(1) Corporal punishment, physical abuse, and verbal abuse, for example, shouting, screaming, swearing, name calling, or any other activity which might damage an individual's self-respect shall be prohibited. All residents shall be treated with fairness and respect as required by rule 481—65.25(135C). (II)

65.14(2) Medication shall not be used as punishment, for the convenience of staff, or as a substitute for a program. Direct care staff shall monitor residents on medication and notify the physician if a resident is too sedated to participate in the IPP. (I, II)

481—65.15(135C) Restraint or seclusion. Physician's orders are required to use any kind of mechanical restraints or seclusion. (I, II, III) Restraints are defined as the following:

1. Type I is physical restraint which uses equipment to promote the safety of the individual. It is not applied directly to a person. Examples: divided doors and side rails.
2. Type II is mechanical restraint applied to someone's body. A device is applied to the body to promote safety of the individual. Examples: vests or soft tie devices, hand socks, geriatric chairs.
3. Type III is mechanical restraint applied to any part of the body which inhibits only the movement of that part of the body. Examples: wrist, ankle or leg restraints and waist straps.

65.15(1) Temporary restraint of residents shall be used only to prevent injury to the resident or to others. (I, II)

65.15(2) Temporary seclusion may be used:

a. To prevent injury to the resident or to others; (I, II)

b. To prevent serious disruption to the treatment program of other residents; (I, II)

c. To decrease stimulation which contributes to psychotic behavior; (I, II) and

d. When other interventions have failed. (I, II)

Restraint and seclusion shall not be used for punishment, for the convenience of staff, or as a substitution for supervision of program. Seclusion shall be used only in a department approved seclusion room. (I, II)

65.15(3) Restraints shall be stored in an area easily accessible to staff. (I, II, III) Type II and Type III restraints shall be specifically designed, manufactured, and customarily used to restrain individuals hospitalized in licensed psychiatric hospitals. Metal and plastic handcuffs, rope and makeshift devices are prohibited. (I, II)

65.15(4) Under no circumstances shall a resident be allowed to participate in the restraint of another resident. (I, II)

65.15(5) There shall be written policies that address the basic assumption and philosophy that govern the use of seclusion and physical and mechanical restraint. These shall:

a. Define the uses of seclusion and mechanical restraints; (III)

b. Designate staff who may authorize its use; (III)

c. Identify procedures to follow when implementing the policy which shall include provisions to ensure privacy and safety for restrained residents; (III) and

d. A written plan for treatment following the use of restraint or seclusion.

65.15(6) The physician and QMHP shall be notified immediately of the resident's need for placement in restraint or seclusion. An order for restraint or seclusion identifying the type, purpose and duration of use shall be obtained from the physician. If the resident is in seclusion longer than four hours, the physician and qualified mental health professional shall visit and evaluate the resident before the seclusion order is continued. If the resident is in restraint for two hours, the physician shall be called before the restraint order can be continued. If the resident is in restraint longer than four hours, the physician and QMHP shall visit and evaluate the resident before a restraint order is continued. Standing or PRN orders for seclusion or restraint are prohibited. (I, II)

65.15(7) If a resident is restrained with Type II or Type III restraints for 6 hours or secluded for 12 hours in a 24-hour period; or if the resident is secluded or restrained with Type II or Type III restraints for any amount of time in three consecutive 24-hour periods, the physician and QMHP shall visit the resident and assess the resident's need for a higher level of care. If the need for restraint or seclusion continues, the resident shall be transferred to an acute level of care. (I, II)

65.15(8) During any period of mechanical restraint or seclusion, the facility shall provide for the emotional and physical needs of the resident. (I, II)

65.15(9) The resident shall be informed of the reason for seclusion and restraint and conditions for release. The resident's guardian shall be notified when Type II or Type III restraints or seclusion is used.

The facility shall also notify the resident's family or other significant person if the resident has previously signed a form granting consent to do so. (I, II, III)

65.15(10) Each resident's record shall contain all information about restraints or seclusion. The administrator shall maintain a daily record of seclusion use. This record shall be available for review by the department. (II, III)

Documentation of each incident of restraint or seclusion shall include at least:

a. Clinical assessment before the resident is secluded or restrained; (I, II)

b. Circumstances that led to seclusion or restraint; (I, II)

c. Explanation of less restrictive measures used before restraint or seclusion; (I, II)

d. Physician's order; (I, II)

e. Visual observation of the resident every 15 minutes, or more frequently if needed, to monitor general well-being including respirations, circulation, positioning and alertness as indicated; (I, II)

f. Description of the resident's activity at the time of observation to include verbal exchange and behavior; (I, II)

g. Description of safety procedures taken (removal of dangerous objects, etc.); (I, II)

h. Vital signs, including blood pressure, pulse and respiration unless contraindicated by resident behavior and reasons documented; (I, II)

i. Release of each mechanical restraint and exercise and massage every two hours; (I, II, III)

j. Record of intake of food and fluid; (I, II, III)

k. Use of toilet; (II, III) and

l. Number of hours and minutes in seclusion. (II, III)

65.15(11) The facility shall educate staff on restraint and seclusion theory and techniques. The training shall be conducted by people with experience and documented education in the appropriate use of restraint and seclusion. (II, III)

a. The facility shall keep a record of the training for review by the department and shall include attendance. (II, III)

b. Only staff who have documented training in restraint and seclusion theory and techniques shall be authorized to assist with seclusion or restraint of a resident. (I, II, III)

65.15(12) The facility shall maintain a record of the hours and minutes of each type of restraint and seclusion used on a monthly basis.

481—65.16(135C) Discharge or transfer. Procedures for the discharge or transfer of the resident shall be established and followed. (II, III)

65.16(1) *Discharge plan.* The decision to discharge a person and the plan for doing so shall be established through the participation of the resident, members of the interdisciplinary team and other resource personnel as appropriate for the welfare of the individual. (II, III)

a. Discharge planning shall begin within 30 days of admission and be carried out in accordance with the IPP. (II, III)

b. As changes occur in a resident's physical or mental condition necessitating services or care which cannot be adequately provided by the facility, the resident shall be transferred promptly to another appropriate facility pursuant to subrule 65.10(1). (II, III)

c. Notification shall be made to the next of kin, legal representative, attending physician, and sponsoring agency, if any, prior to transfer or discharge of any resident. (III)

d. Proper arrangements shall be made for the welfare of the resident prior to the transfer or discharge in the event of an emergency or inability to reach the next of kin or legal representative. (III)

e. The licensee shall not refuse to discharge or transfer a resident when directed by the physician, resident, legal representative, or court. (II, III)

f. Advanced notification by telephone shall be made to the receiving facility prior to the transfer of any resident. (III)

g. When a resident is transferred or discharged, the current evaluation and treatment plan and progress notes for the last 30 days, as set forth in these rules, shall accompany the resident. (II, III)

h. Prior to the transfer or discharge of a resident to another health care facility, arrangements to provide for continuity of care shall be made with the facility to which the resident is being sent. (II, III)

i. A discharge or transfer authorization and summary shall be prepared for each resident who has been discharged or transferred from the facility. It shall be disseminated to appropriate persons to ensure continuity of care and in accordance with the requirements to ensure confidentiality. (II, III)

j. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility, and not as an intrafacility transfer. (II, III)

65.16(2) *Intrafacility transfer.* Residents shall not be arbitrarily moved from room to room within a health care facility. (II, III)

a. Involuntary relocation may occur only to implement goals and objectives in the IPP and in the following situations:

(1) Incompatibility with or behavior disturbing to roommates, as documented in the residents' records; (I, II)

(2) To allow a new admission to the facility which would otherwise not be possible due to separation of roommates by sex; (II, III)

(3) Reasonable and necessary administrative decisions regarding the use and functioning of the building. (II, III)

b. Unreasonable and unjustified reasons for changing a resident's room without the concurrence of the resident or legal guardian include:

(1) Punishment or behavior modification; (II) and

(2) Discrimination on the basis of race or religion. (II, III)

c. If intrafacility relocation is necessary for reasons outlined in paragraph *"a,"* the resident shall be notified at least 48 hours prior to the transfer and the reason shall be explained. The legal guardian shall be notified as soon as possible. The notification shall be documented in the resident's record and signed by the resident or legal guardian within seven days unless documentation indicates that it was not possible to contact the legal guardian or obtain their signature. (II, III)

d. If emergency relocation is required to protect the safety or health of the resident or other residents, the notification requirements may be waived. The conditions of the emergency shall be documented. The family and legal guardian shall be notified immediately, or as soon as possible, of the condition requiring emergency relocation, and the notification shall be documented. (II, III)

e. A transfer to a part of a facility that has a different license must be handled the same way as a transfer to another facility and not as an intrafacility transfer. (II, III)

65.16(3) *Involuntary discharge or transfer permitted.* A facility may involuntarily discharge or transfer a resident for only one of the following reasons:

a. Medical reasons, based on the resident's needs and determined and documented in the resident's record by the primary care provider;

b. The resident's social, emotional or physical well-being or that of other residents, as documented by the administrator or designee with specific information to support the determination that the resident's continued presence in the facility would adversely affect the resident's own well-being or that of other residents;

c. Due to action pursuant to Iowa Code chapter 229; or

d. Nonpayment for the resident's stay, as described in the admission agreement for the resident's stay. (I, II, III)

65.16(4) *Involuntary transfer or discharge—written notice.* Involuntary transfer or discharge of a resident from a facility shall be preceded by a written notice to the resident or the resident's legal representative. (II, III)

a. The notice shall contain all of the following information:

(1) The stated reason for the proposed transfer or discharge. (II)

(2) The effective date of the proposed transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads as follows:

> You have a right to appeal the facility's decision to transfer or discharge you. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as "department") within 7 days after receiving this notice. You have a right to be represented at

the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department's receipt of your request and you will not be transferred before a final decision is rendered. In emergency circumstances, provision may be made for extension of the 14-day requirement upon request to the department designee. If you lose the hearing, you will not be transferred before the expiration date of either (1) 30 days following your receipt of the original notice of the discharge or transfer, or (2) no sooner than 5 days following final decision of such hearing, including the exhaustion of all appeals, whichever occurs later. To request a hearing or receive further information, call the department at (515)281-4115 or you may write to the department to the attention of: Administrator, Division of Health Facilities, Iowa Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319. (II)

b. The notice shall be personally delivered to the resident, and a copy shall be placed in the resident's record. A copy shall also be transmitted to the department, the resident's legal representative, primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent. (II)

c. The notice required by paragraph 65.16(4)*"a"* shall be provided at least 30 days in advance of the proposed transfer or discharge unless one of the following occurs:

(1) An emergency transfer or discharge is mandated by the resident's health care needs and is in accordance with the written orders and medical justification of the primary care provider. Emergency transfers or discharges may also be mandated in order to protect the health, safety, or well-being of other residents and staff. (II)

(2) The transfer or discharge is subsequently agreed to by the resident or the resident's legal representative, and notification is given to the legal representative, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. (II)

d. A hearing requested pursuant to this subrule shall be held in accordance with subrule 65.16(6).

65.16(5) *Involuntary transfer or discharge—emergency transfer or discharge.* In the case of an emergency transfer or discharge, the resident must be given a written notice prior to or within 48 hours following the transfer or discharge. (II, III)

a. A copy of this notice must be placed in the resident's file. The notice must contain all of the following information:

(1) The stated reason for the transfer or discharge. (II)

(2) The effective date of the transfer or discharge. (II)

(3) A statement, in not less than 12-point type, that reads:

You have a right to appeal the facility's decision to transfer or discharge you on an emergency basis. If you think you should not have to leave this facility, you may request a hearing, in writing or verbally, with the Iowa department of inspections and appeals (hereinafter referred to as "department") within 7 days after receiving this notice. You have a right to be represented at the hearing by an attorney or any other individual of your choice. If you request a hearing, it will be held no later than 14 days after the department's receipt of your request. You may be transferred or discharged before the hearing is held or before a final decision is rendered. If you win the hearing, you have the right to be transferred back into the facility. To request a hearing or receive further information, call the department at (515)281-4115, or write to the department to the attention of: Administrator, Division of Health Facilities, Department of Inspections and Appeals, Lucas State Office Building, Des Moines, Iowa 50319-0083. (II)

b. The notice shall be personally delivered to the resident, and a copy shall be placed in the resident's record. A copy shall also be transmitted to the department, the resident's legal representative, the resident's primary care provider, and the person or agency responsible for the resident's placement, maintenance, and

care in the facility. The notice shall indicate that copies have been transmitted to the required parties by using the abbreviation "cc:" and listing the names of all parties to whom copies were sent.

c. A hearing requested pursuant to this subrule shall be held in accordance with subrule 65.16(6).

65.16(6) *Involuntary transfer or discharge—hearing.*

a. Request for hearing.

(1) The resident must request a hearing within 7 days of receiving written notice.

(2) The request must be made to the department, either in writing or verbally.

b. The hearing shall be held no later than 14 days after the department's receipt of the request unless either party requests an extension due to emergency circumstances.

c. Except in the case of an emergency discharge or transfer, a request for a hearing shall stay a transfer or discharge pending a final decision, including the exhaustion of all appeals. (II)

d. The hearing shall be heard by a department of inspections and appeals administrative law judge pursuant to Iowa Code chapter 17A and 7—Chapter 2506. The hearing shall be public unless the resident or representative requests in writing that the hearing be closed. In a determination as to whether a transfer or discharge is authorized, the burden of proof by a preponderance of evidence rests on the party requesting the transfer or discharge.

e. Notice of the date, time, and place of the hearing shall be sent by certified mail or delivered in person to the facility, the resident and the resident's legal representative not later than five full business days after the department's receipt of the request. The notice shall also inform the facility and the resident or the resident's legal representative that they have a right to appear at the hearing in person or be represented by an attorney or other individual. The appeal shall be dismissed if neither party is present or represented at the hearing. If only one party appears or is represented, the hearing shall proceed with one party present.

f. The administrative law judge's written decision shall be sent by certified mail to the facility, resident, and resident's legal representative within 10 working days after the hearing has been concluded.

65.16(7) *Nonpayment.* If nonpayment is the basis for involuntary transfer or discharge, the resident shall have the right to make full payment up to the date that the discharge or transfer is to be made and then shall have the right to remain in the facility. (II)

65.16(8) *Discussion of involuntary transfer or discharge.* Within 48 hours after notice of involuntary transfer or discharge has been received by the resident, the facility shall discuss the involuntary transfer or discharge with the resident, the resident's legal representative, and the person or agency responsible for the resident's placement, maintenance, and care in the facility. (II)

a. The facility administrator or other appropriate facility representative serving as the administrator's designee shall provide an explanation and discussion of the reasons for the resident's involuntary transfer or discharge. (II)

b. The content of the explanation and discussion shall be summarized in writing, shall include the names of the individuals involved in the discussion, and shall be made part of the resident's record. (II)

c. The provisions of this subrule do not apply if the involuntary transfer or discharge has already occurred pursuant to subrule 65.16(6) and emergency notice is provided within 48 hours.

65.16(9) *Involuntary discharge or transfer—transfer or discharge planning.*

a. The facility shall develop a plan to provide for the orderly and safe transfer or discharge of each resident to be transferred or discharged. (II)

b. To minimize the possible adverse effects of the involuntary transfer, the resident shall receive counseling services by the sending facility before the involuntary transfer and by the receiving facility after the involuntary transfer. Counseling shall be documented in the resident's record. (II)

c. The counseling requirement in paragraph 65.16(9)*"b"* does not apply if the discharge has already occurred pursuant to subrule 65.16(5) and emergency notice is provided within 48 hours.

d. Counseling, if required, shall be provided by a licensed mental health professional as defined in Iowa Code section 228.1(6). (II)

e. The health care facility that receives a resident who has been involuntarily transferred shall immediately formulate and implement a plan of care which takes into account possible adverse effects the transfer may cause. (II)

65.16(10) *Transfer upon revocation of license or voluntary closure.* Residents shall not have the right to a hearing to contest an involuntary discharge or transfer resulting from the revocation of the facility's license by the department of inspections and appeals. In the case of the voluntary closure of a facility, a period of 30 days must be allowed for an orderly transfer of residents to other facilities.

This rule is intended to implement Iowa Code section 135C.14(8).

[**ARC 1205C**, IAB 12/11/13, effective 1/15/14; **ARC 1752C**, IAB 12/10/14, effective 1/14/15; **ARC 3523C**, IAB 12/20/17, effective 1/24/18; Editorial change: IAC Supplement 8/5/26]

481—65.17(135C) Medication management. Medications shall be prescribed on an individual basis by a person who is authorized by Iowa law to prescribe. (I, II)

1. Medication orders shall be correctly implemented by qualified personnel. (II)
2. Qualified staff shall ensure that residents are able to take their own medication. (I, II)
3. Each physician order allowing a resident to self-administer medications shall specify whether this self-medication shall be without supervision or under the supervision of qualified staff as defined in 65.17(2). (I, II)

65.17(1) A properly trained person shall be charged with the responsibility of administering nonparenteral medications.

a. The individual shall have knowledge of the purpose of the drugs, their dangers, and contraindications.

b. This person shall be a licensed nurse or physician or shall have successfully completed a department-approved medication aide course or passed a department-approved medication aide challenge examination administered by an area community college.

c. Prior to taking a department-approved medication aide course, the individual shall:

(1) Successfully complete an approved nurse aide course, nurse aide training and testing program or nurse aide competency examination.

(2) Be employed in the same facility for at least six consecutive months prior to the start of the medication aide course. This requirement is not subject to waiver.

(3) Have a letter of recommendation for admission to the medication aide course from the employing facility.

d. A person who is a nursing student or a graduate nurse may take the challenge examination in place of taking a medication aide course. This individual shall do all of the following before taking the medication aide challenge examination:

(1) Complete a clinical or nursing theory course within six months before taking the challenge examination;

(2) Successfully complete a nursing program pharmacology course within one year before taking the challenge examination;

(3) Provide to the community college a written statement from the nursing program's pharmacology or clinical instructor indicating the individual is competent in medication administration;

(4) Successfully complete a department-approved nurse aide competency evaluation.

e. A person who has written documentation of certification as a medication aide in another state may become a medication aide in Iowa by successfully completing a department-approved nurse aide competency examination and a medication aide challenge examination.

The requirements of paragraph *"c"* of this subrule do not apply to this individual.

f. Unit dose medication shall remain in the identifiable unit dose package until given to the resident. (II)

g. Medications that are not contained in unit dose packaging shall be set up, identified by resident name and medication name, and administered by the same person. The medications shall be administered within one hour of preparation. (II)

h. The person administering medications must observe and check to make sure the resident swallows oral medications and must record the date, time, amount and name of each medication given. (II)

i. Injectable medications shall be administered as permitted by Iowa law by a qualified nurse, physician, pharmacist, or physician associate (PA). In the case of a resident who has been certified by the

resident's physician or physician associate (PA) as capable of taking the resident's own insulin, the resident may prepare and inject the resident's own insulin. (II)

j. Current and accurate records must be kept on the receipt and disposition of all Schedule II drugs. (II, III)

65.17(2) For each resident who is taking medication with or without supervision, there shall be documentation on the individual's record to include:

a. Name of resident; (II, III)

b. Name of drug, dose, and schedule; (II, III)

c. Method of administration; (II, III)

d. Identified drug allergies and observed adverse reactions; (I, II)

e. Special precautions for that resident; (I, II) and

f. Documentation of resident's continuing ability to administer own medication. (I, II)

65.17(3) Medication counseling shall be provided for all residents in accordance with the IPP on an ongoing basis and as part of discharge planning unless contraindicated in writing by the physician with reasons and pursuant to 65.12(2)*"c."* (II, III)

Each resident and when appropriate, a family member or other identified caregiver, shall be given verbal and written information about all medications the resident is currently using, including over-the-counter medications. A suggested reference is "USPDI, Advice for the Patient." (II, III)

The information shall include:

a. Name, reason for, and amount of medication to be taken; (II)

b. Time medication is to be taken and reason that the schedule was established; (II)

c. Possible benefits, risks and side effects of each medication, including over-the-counter medications; (II)

d. A list of resources in the community qualified to answer questions about medications; (II, III) and

e. A list of available resources or agencies which may assist the resident to obtain medication after discharge. (III)

65.17(4) Residents who have been certified in writing by the physician as capable of taking their own medications may retain these medications in a secure centralized location. Individual locked storage shall be utilized. (II, III)

a. Drug storage for residents who are unable to take their own medications and require supervision shall meet the following requirements:

(1) Adequate size cabinet with lock which can be used for storage of drugs, solutions, and prescriptions. A locked drug cart may be used. (II, III)

(2) A bathroom shall not be used for drug storage. (II, III)

(3) The drug storage cabinet shall be kept locked when not in use. (II, III)

(4) The drug storage cabinet key shall be in the possession of the employee charged with the responsibility of administering medication. (II, III)

(5) Medications requiring refrigeration which are stored in a common refrigerator shall be kept in a locked box properly labeled, and separated from food and other items. (II, III)

(6) Drugs for external use shall be stored separately from drugs for internal use. External medications are those to be applied to the outside of the body and include, but are not limited to, salves, ointments, gels, paste, soaps, baths, and lotions. Internal medications are those to be applied inside the body or ingested and include, but are not limited to, oral and injectable medications, eye drops and ointments, ear drops and ointments, and suppositories. Also, eye drops and ear drops shall be separated from each other as well as from other internal and external medications. (II, III)

(7) All potent, poisonous, or caustic materials shall be stored in a separate room from the medications. (II, III)

(8) Inspection of the condition of stored drugs shall be made by the administrator and a licensed pharmacist not less than once every three months. The inspection shall be verified by a report signed by the administrator and the pharmacist and filed with the administrator. The report shall include, but need not be limited to, certifying absence of the following: expired drugs, deteriorated drugs, improper labeling, drugs for which there is no current order, and drugs improperly stored. (III)

(9) Double-locked storage of Schedule II drugs shall not be required under single unit package drug distribution systems in which the quantity stored does not exceed a seven-day supply and a missing dose can be readily detected but must be kept in a locked medication cabinet. Quantities in excess of a seven-day supply must be double-locked. (II)

b. Bulk supplies of prescription drugs shall not be kept. (III)

65.17(5) All labels on medications must be legible. If labels are not legible, the medication shall be sent back to the dispenser as defined in Iowa Code section 147.107 for relabeling. (II, III)

a. The medication for each resident shall be kept or stored in the original dispensed containers. (II, III)

b. The facility shall adopt policies and procedures to destroy unused prescription drugs for residents who die. The policies and procedures shall include, but not be limited to, the following:

(1) Drugs shall be destroyed by the person in charge in the presence of the administrator or the administrator's designee or, if a unit dose system is used, the drugs shall be returned to the supplying pharmacist; (III)

(2) Notation of the destruction shall be made in the resident's chart, with signatures of the persons involved in the destruction; (III)

(3) The manner in which the drugs are disposed of shall be identified (i.e., incinerator, sewer, landfill). (II, III)

c. Reserved.

d. The facility shall also adopt policies and procedures for the disposal of controlled substances as defined by the Iowa board of pharmacy dispensed to residents whose administration has been discontinued by the prescriber. These policies and procedures shall include, but not be limited to, the following:

(1) Procedures for obtaining a release from the resident; (II, III)

(2) The manner in which the drugs were destroyed and by whom, including witnesses to the destruction; (II, III)

(3) Mechanisms for recording the destruction; (II, III)

(4) Procedures to be used when the resident or the conservator or guardian refuses to grant permission for destruction. (II, III)

e. The facility shall adopt policies and procedures for the disposal of unused, discontinued medication. The procedures shall include, but not be limited to:

(1) A specified time after which medication must be destroyed, sent back to the dispenser or placed in long-term storage; (II, III)

(2) Procedures for obtaining permission of the resident, or the conservator or guardian; (II, III)

(3) Procedures to be used when the resident, conservator or guardian refuses to grant permission for disposal; (II, III)

(4) Unused, discontinued medication shall be locked and shall be separate from current medication. (II, III)

f. Reserved.

g. Residents shall not keep any prescription or over-the-counter medication in their possession unless the resident has been determined to be capable of self-administration of medications. (I, II, III)

h. No prescription drugs shall be administered to a resident without a written order signed by a person qualified to prescribe the medication and renewed quarterly. (II)

i. Prescription drugs shall be reordered only with the permission of the attending prescriber. (II, III)

j. No medications prescribed for one resident may be administered to or allowed in the possession of another resident. (II)

65.17(6) Each facility shall establish policies and procedures to govern the administration of prescribed medications to residents on leave from the facility. (III)

a. Medication may be issued to residents who will be on leave from a facility for less than 24 hours. Non-child-resistant containers may be used. Each container may hold only one medication. A label on each container shall indicate the date, the resident's name, the facility, the medication, its strength, dose, and time of administration. (II, III)

b. Medication for residents on leave from a facility longer than 24 hours shall be obtained in accordance with requirements established by the Iowa board of pharmacy examiners. (II, III)

c. Medication distributed as described in this subrule may be issued only by facility personnel responsible for administering medication. (II, III)

65.17(7) Each ICF/PMI that administers controlled substances shall annually obtain a registration from the Iowa board of pharmacy examiners pursuant to Iowa Code section 204.302(1). (III)

This rule is intended to implement Iowa Code section 135C.14.

[**ARC 1050C**, IAB 10/2/13, effective 11/6/13; Editorial change: IAC Supplement 6/10/26]

481—65.18(135C) Resident property and personal affairs. The admission of a resident does not give the facility or any employee of the facility the right to manage, use, or dispose of any property of the resident except with the written authorization of the resident or the resident's legal guardian. (II, III)

65.18(1) The admission of a resident shall not grant the ICF/PMI the authority or responsibility to manage the personal affairs of the resident except as may be necessary for the resident's safety and for safe and orderly management of the facility as required by these rules and in accordance with the IPP. (III)

65.18(2) An ICF/PMI shall provide for the safekeeping of personal effects, funds, and other property of its residents. The facility may require that items of exceptional value or which would convey unreasonable responsibilities to the licensee be removed from the premises of the facility for safekeeping. (III)

65.18(3) Residents' funds held by the ICF/PMI shall be in a trust account and kept separate from funds of the facility. (III)

65.18(4) No administrator, employee or their representative shall act as guardian, trustee, or conservator for any resident or the resident's property, unless the resident is related to the person acting as guardian within the third degree of consanguinity. (III)

65.18(5) If a facility is a county care facility, upon the verified petition of the county board of supervisors, the district court may appoint, without fee, the administrator of a county care facility as conservator or guardian, or both, of a resident of such a county care facility. The administrator may establish either separate or common bank accounts for cash funds of these residents. (III)

This rule is intended to implement Iowa Code section 135C.24.

481—65.19(135C) Financial affairs. Residents who have not been assigned a guardian or conservator by the court may manage their personal financial affairs, and to the extent, under written authorization by the residents that the facility assists in management, the management shall be carried out in accordance with Iowa Code section 135C.24. (II)

65.19(1) *Written account of resident funds.* The facility shall maintain a written account of all residents' funds received by or deposited with the facility. (II)

a. An employee shall be designated in writing to be responsible for resident accounts. (II)

b. The facility shall keep on deposit personal funds over which the resident has control when requested by the resident. (II)

c. If the resident requests these funds, they shall be given to the resident with a receipt maintained by the facility and a copy to the resident. If a conservator or guardian has been appointed for the resident, the conservator or guardian shall designate the method of disbursing the resident's funds. (II)

d. If the facility makes a financial transaction on a resident's behalf, the resident or the resident's legal guardian or conservator must receive or acknowledge having seen an itemized accounting of disbursements and current balances at least quarterly. A copy of this statement shall be maintained in the resident's financial or business record. (II)

65.19(2) *Contracts.* There shall be a written contract between the facility and each resident which meets the following requirements:

a. States the base rate or scale per day or per month, the services included, and the method of payment; (III)

b. Contains a complete schedule of all offered services for which a fee may be charged in addition to the base rate; (III)

c. Stipulates that no further additional fees shall be charged for items not contained in complete schedule of services listed in this subrule; (III)

d. States the method of payment of additional charges; (III)

e. Contains an explanation of the method of assessment of additional charges and an explanation of the method of periodic reassessment, if any, resulting in changing such additional charges; (III)

f. States that additional fees may be charged to the resident for nonprescription drugs, other personal supplies, and services by a barber, beautician, etc.; (III)

g. Contains an itemized list of those services, with the specific fee the resident will be charged and method of payment, as related to the resident's current condition, based on the program assessment at the time of admission, which is determined in consultation with the administrator; (III)

h. Includes the total fee to be charged initially to the specific resident; (III)

i. States the conditions whereby the facility may make adjustments to its overall fees for residential care as a result of changing costs. (III) Furthermore, the contract shall provide that the facility shall give:

(1) Written notification to the resident and responsible party, when appropriate, of changes in the overall rates of both base and additional charges at least 30 days prior to the effective date of changes; (III)

(2) Notification to the resident and payer, when appropriate, of changes in additional charges based on a change in the resident's condition. Notification must occur prior to the date the revised additional charges begin. If notification is given orally, subsequent written notification must also be given within a reasonable time, not to exceed one week, listing specifically the adjustments made; (III) and

(3) The terms of agreement in regard to refund of all advance payments, in the event of transfer, death, or voluntary or involuntary discharge; (III)

j. States the terms of agreement concerning holding and charging for a bed in the event of temporary absence of the resident, which terms shall include, at a minimum, the following provisions:

(1) If a resident has a temporary absence from a facility for medical treatment, the facility shall hold the bed open and shall receive payment for the absent period in accordance with provisions of the contract between the resident or the legal guardian and the facility. (II)

(2) If a resident has a temporary absence from a facility in accordance with the IPP, the facility shall ask the resident and payer if they wish the bed held open. This shall be documented in the resident's record including the response. The bed shall be held open and the facility shall receive payment for the absent periods in accordance with the provisions of the contract between the resident or the legal guardian and the facility. (II)

k. States the conditions under which the involuntary discharge or transfer of a resident would be affected; (III)

l. States the conditions of voluntary discharge or transfer; (III) and

m. Sets forth any other matters deemed appropriate by the parties to the contract. No contract or any provision shall be drawn or construed so as to relieve any health care facility of any requirement or obligation imposed upon it by this chapter or any standards or rules in force pursuant to this chapter. (III)

65.19(3) *Contract—copy to party.* Each party shall receive a copy of the signed contract. (III)

65.19(4) The contract shall state the terms of agreement concerning the holding and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons. The terms shall contain a provision that the bed will be held at the request of the resident or the resident's legal representative.

a. The facility shall ask the resident or legal representative if they want the bed held. This request shall be made before the resident leaves or within 48 hours after the resident leaves. The inquiry and the response shall be documented. (II)

b. The facility shall reserve the bed when requested for as long as payments are made in accordance with the contract. (II)

This rule is intended to implement Iowa Code sections 135C.23(1) and 135C.24.

481—65.20(135C) Records.

65.20(1) *Resident record.* The licensee shall keep a permanent record about each resident with all entries current, dated, and signed. (II) The record shall include:

a. Name and previous address of resident; (III)

b. Birth date, sex, and marital status of resident; (III)

c. Church affiliation; (III)

d. Physician's name, telephone number, and address; (III)

e. Dentist's name, telephone number, and address; (III)

f. Name, address and telephone number of next of kin or legal representative; (III)

g. Name, address and telephone number of the person to be notified in case of emergency; (III)

h. Funeral director, telephone number, and address; (III)

i. Pharmacy name, telephone number, and address; (III)

j. Results of evaluation pursuant to rule 481—65.11(135C); (III)

k. Certification by the physician that the resident requires no higher level of care than the facility is licensed to provide; (III)

l. Physician's orders for medication and treatments in writing, signed by the physician quarterly and diet orders renewed yearly; (III)

m. A notation of yearly or other visits to physician or other professionals, all consultation reports and progress notes; (III)

n. Any change in the resident's condition; (II, III)

o. A notation describing the resident's condition on admission, transfer, and discharge; (III)

p. In the event of a resident's death, notations in the resident's record shall include the date and time of the resident's death, the circumstances of the resident's death, the disposition of the resident's body, and the date and time that the resident's family and physician were notified of the resident's death; (III)

q. A copy of instructions given to the resident, legal representative, or facility in the event of discharge or transfer; (III)

r. Disposition of personal property; (III)

s. Copy of IPP pursuant to subrule 65.12(1); (III) and

t. Progress notes pursuant to subrules 65.12(4) and 65.12(5). (III)

65.20(2) *Confidentiality of resident records.* The facility shall have policies and procedures providing that each resident shall be ensured confidential treatment of all information, including information contained in an automatic data bank. The resident's or the resident's legal guardian's written informed consent shall be required for the release of information to persons not otherwise authorized under law to receive it. (II)

A release of information form shall be used which includes to whom the information shall be released, the reason for the information being released, how the information is to be used, and the period of time for which the release is in effect. A third party, not requesting the release, shall witness the signing of the release of information form. (II)

a. The facility shall limit access to any resident records to staff and consultants providing professional service to the resident. Information shall be made available to staff only to the extent that the information is relevant to the staff person's responsibilities and duties. (II)

Only those personnel concerned with financial affairs of the residents may have access to the financial information. This is not meant to preclude access by representatives of state or federal regulatory agencies. (II)

b. The resident, or the resident's legal guardian, shall be entitled to examine all information and shall have the right to secure full copies of the record at reasonable cost upon request, unless the physician or QMHP determines the disclosure of the record or section is contraindicated in which case this information will be deleted prior to making the record available to the resident. This determination and the reasons for it must be documented in the resident's record by the physician or qualified mental health professional in collaboration with the resident's interdisciplinary team. (II)

65.20(3) *Incident records.* Each ICF/PMI shall maintain an incident record report and shall have available incident report forms. (II, III)

a. The report of every incident shall be in detail on a printed incident report form. (II, III)

b. The person in charge at the time of the incident shall oversee the preparation and sign the report. (III)

c. A copy of the incident report shall be kept on file in the facility available for review and a part of administrative records. (III)

65.20(4) *Retention of records.* Records shall be retained in the facility for five years following termination of services to the resident even when there is a change of ownership. (III)

When the facility ceases to operate, the resident's record shall be released to the facility to which the resident is transferred. If no transfer occurs, the record shall be released to the individual's physician. (III)

This rule is intended to implement Iowa Code section 135C.24.

481—65.21(135C) Health and safety.

65.21(1) *Physician.* Each resident shall have a designated licensed physician who may be called when needed. (III)

65.21(2) *Emergency care.* Each facility shall have written policies and procedures for emergency medical or psychiatric care to include:

a. A written agreement with a hospital or psychiatric facility or documentation of attempt to obtain a written agreement for the timely admission of a resident who, in the opinion of the attending physician, requires inpatient services; (II, III)

b. Provisions consistent with Iowa Code chapter 229; (II, III) and

c. Immediate notification by the person in charge to the physician or QMHP, as appropriate, of any accident, injury or adverse change in the resident's condition. (I, II)

65.21(3) *First-aid kit.* A first-aid emergency kit shall be available on each floor in every facility. (II, III)

65.21(4) *Infection control.* Each facility shall have a written and implemented infection control program addressing the following:

a. Techniques for hand washing consistent with Guidelines for Handwashing and Hospital Control, 1985, Centers for Disease Control, U.S. Department of Health and Human Services, PB85-923404; (I, II, III)

b. Techniques for handling of blood, body fluids, and body wastes consistent with Guideline for Isolation Precautions in Hospitals, Centers for Disease Control, U.S. Department of Health and Human Services, PB96-138102; (I, II, III)

c. Decubitus care; (I, II, III)

d. Infection identification; (I, II, III)

e. Resident care procedures to be used when there is an infection present consistent with Guideline for Isolation Precautions in Hospitals, Centers for Disease Control, U.S. Department of Health and Human Services, PB96-138102; (I, II, III)

f. Sanitation techniques for resident care equipment; (I, II, III)

g. Techniques for sanitary use and reuse of enteral feeding bags, feeding syringes and urine collection bags; (I, II, III)

h. Techniques for use and disposal of needles, syringes, and other sharp instruments consistent with Guideline for Isolation Precautions in Hospitals, Centers for Disease Control, U.S. Department of Health and Human Services, PB96-138102; (I, II, III) and

i. Aseptic techniques when using:

(1) Intravenous or central line catheter consistent with Guideline for Prevention of Intravascular Device Related Infections, Centers for Disease Control, U.S. Department of Health and Human Services, PB97-130074, (I, II, III)

(2) Urinary catheter, (I, II, III)

(3) Respiratory suction, oxygen or humidification, (I, II, III)

(4) Dressings, soaks, or packs, (I, II, III)

(5) Tracheostomy, (I, II, III)

(6) Nasogastric or gastrostomy tubes, (I, II, III)

(7) Sanitary use and reuse of feeding syringes and single-resident uses and reuse of urine collection bags. (I, II, III)

CDC Guidelines may be obtained from the U.S. Department of Commerce, Technology Administration, National Technical Information Service, 5285 Port Royal Rd., Springfield, Virginia 22161 (1-800-553-6847).

65.21(5) *Disposable items.* There shall be disposable or one-time use items available with provisions for proper disposal to prevent reuse except as allowed by 65.21(4)*"g."*

65.21(6) *Infection control committee.* Each facility shall establish an infection control committee of representative professional staff responsible for overall infection control in the facility. (III)

a. The committee shall annually review and revise the infection control policies and procedures to monitor effectiveness and suggest improvement. (III)

b. The committee shall meet at least quarterly, submit reports to the administrator, and maintain minutes in sufficient detail to document its proceedings and actions. (III)

c. The committee shall monitor the health aspect and the environment of the facility. (III)

These rules are intended to implement Iowa Code sections 135C.14(3), 135C.14(5) and 135C.14(8).

65.21(7) *Dental services.* The facility shall assist residents to obtain regular and emergency dental services and provide necessary transportation. Dental services shall be performed only on the request of the resident or legal guardian. The resident's physician shall be advised of the resident's dental problems. (III)

65.21(8) *Safe environment.* The licensee of an ICF/PMI is responsible for the provision and maintenance of a safe environment for residents and personnel. (I, II) The ICF/PMI may have locked exit doors and shall meet the fire and safety rules and regulations as promulgated by the state fire marshal. (I, II)

65.21(9) *Disaster.* The licensee shall have a written emergency plan to be followed in the event of fire, tornado, explosion, or other emergency. (II, III)

a. The plan shall be posted. (II, III)

b. Training shall be provided to ensure that all employees and residents are knowledgeable of the emergency plan. The training shall be documented. (II, III)

c. Residents shall be permitted to smoke only in posted areas where proper facilities are provided. Smoking by residents considered to be careless shall be prohibited except under direct supervision and in accordance with the IPP. (II, III)

65.21(10) *Safety precautions.* The facility shall take reasonable measures to ensure the safety of residents and shall involve the residents in learning the safe handling of household supplies and equipment in accordance with the policies and procedures established by the facility. (II)

All potent, poisonous, or caustic materials shall be plainly labeled and stored in a specific locked, well-illuminated cabinet, closet, or storeroom and made accessible only to authorized persons. (I, II)

65.21(11) *Hazards.* Entrances, exits, steps, and outside steps and walkways shall be cleared of ice and snow as soon as possible, and kept free of other hazards. (II, III)

65.21(12) *Laundry.* All soiled linens shall be collected in and transported to the laundry room in closed, leakproof laundry bags or covered, impermeable containers. (III)

a. Except for related activities, the laundry room shall not be used for other purposes. (III)

b. Personal laundry shall be marked with an identification unless the residents are responsible for doing their own laundry as indicated in the individual program plan. (III)

c. There shall be an adequate supply of clean, stain-free linens so that each resident shall have at least three washcloths, hand towels, and bath towels per week. (III)

d. Each bed shall be provided with clean, stain-free washable bedspreads and sufficient lightweight serviceable blankets. A complete change of bed linens shall be available for each bed. Linens on beds shall be clean, stain-free and in good repair at all times. (III)

65.21(13) *Supplies, equipment, and storage.* Each facility shall provide a variety of supplies and equipment of a nature calculated to fit the needs and interests of the residents. These may include: books (standard and large print), magazines, newspapers, radio, television, bulletin boards, board games, game equipment, songbooks, cards, craft supplies, record player, movie projector, piano, and outdoor equipment. Supplies and equipment shall be appropriate to the chronological age of the residents. (III)

Storage shall be provided for recreational equipment and supplies. (III)

This rule is intended to implement Iowa Code section 135C.14(1).

481—65.22(135C) Nutrition. There shall be policies and procedures written and implemented for dietary staffing.

1. The person responsible for planning menus and monitoring the kitchens in each facility shall have completed training, approved by the department, in sanitation and food preparation. (III)

2. In facilities licensed for over 15 beds, food service personnel shall be on duty during a 12-hour span extending from the preparation of breakfast through supper. (III)

3. There shall be written work schedules and time schedules covering each type of job in the food service department for facilities over 15 beds. These work and time schedules shall be posted or kept in a notebook which is available for use in the food service area. (III)

65.22(1) *Nutrition and menu planning.* Residents shall be encouraged to the maximum extent possible to participate in meal planning, shopping, and in preparing and serving the meal and cleaning up. The facility shall be responsible for helping residents become knowledgeable of what constitutes a nutritionally adequate diet. (III)

a. Menus shall be planned and served to meet nutritional needs of residents in accordance with the physician's diet orders which shall be renewed yearly. Menus shall be planned and served to include foods and amounts necessary to meet the recommended daily dietary allowances of the Food and Nutrition Board of the National Research Council, National Academy of Sciences. Other foods shall be included to meet energy requirements (calories) to add to the total nutrients and variety of meals. (II, III)

b. At least three meals or their equivalent shall be made available to each resident daily, consistent with those times normally existing in the community. (II, III)

(1) There shall be no more than a 14-hour span between the substantial evening meal and breakfast. (III)

(2) To the extent medically possible, bedtime nourishments, containing a protein source, shall be offered routinely to all residents. Special nourishments shall be available when ordered by the physician. (II, III)

c. Menus shall include a variety of foods prepared in various ways. The same menus shall not be repeated on the same day of the following week. (III)

d. If modified diets are ordered by the physician, the person responsible for writing the menus shall have completed department-approved training in simple therapeutic diets. A copy of a modified diet manual approved by the department and written within the past five years shall be available in the facility. (II, III)

e. Therapeutic diets shall be served accurately. (II, III)

f. Menus shall be written at least one week in advance. The current menu shall be located in an accessible place in the dietetic service department for easy use by persons purchasing, preparing, and serving food. (III)

g. Records of menus as served shall be filed and maintained for 30 days and shall be available for review by departmental personnel. When substitutions are necessary, they shall be of similar nutritive value and recorded on the menu or in a notebook. (III)

h. A file of tested recipes adjusted to the number of people to be fed in the facility shall be maintained. (III)

65.22(2) *Dietary storage, food preparation, service.* In each stage, food shall be handled with maximum care for safety and good health.

a. The use of foods from salvaged, damaged, or unlabeled containers is prohibited. (II, III)

b. No perishable food shall be allowed to stand at room temperature any longer than is required to prepare and serve. (II, III)

c. Canning food is prohibited. The facility may freeze fruits, vegetables, and meats provided strict sanitary procedures are followed and in accordance with recommendations in the "Food Service Sanitation Manual," revised 1976, U.S. Department of Health, Education, and Welfare, Public Health Service, U.S. Government Printing Office, Washington, D.C. (II)

d. Supplies of staple foods for a minimum of a one-week period and of perishable foods for a minimum of a three-day period shall be maintained on the premises. (III)

e. If family-style service is used, all leftover prepared food that has been on the table shall be safely handled. (III)

f. Poisonous compounds shall not be kept in food storage or preparation areas except for a sanitizing agent which shall be kept in a locked cabinet. (II, III)

65.22(3) *Sanitation in food preparation area.* The facility shall develop and implement policies and procedures to address sanitation, meal preparation and service in accordance with recommendations in the "Food Service Sanitation Manual" reference in 65.22(2)*"c,"* which shall be used as the established, nationally recognized reference for establishing and determining satisfactory compliance with the department's food service and sanitation rules. (III)

a. In facilities of 15 beds or fewer, residents may be allowed in the food preparation area in accordance with their IPP. (III)

b. In facilities licensed for over 15 beds, the kitchen shall not be used for serving meals to residents, food service personnel, or other staff. (III)

c. All appliances and work areas shall be kept clean and sanitary. (III)

d. There shall be written procedures established for cleaning all work and serving areas in facilities over 15 beds and a schedule of duties to be performed daily shall be posted in each food area. (III)

e. The food service area shall be located so it will not be used as a passageway by residents, guests, or nonfood service staff in facilities over 15 beds. (III)

f. Dirty linen shall not be carried through the food service area unless it is in sealed, leakproof containers. (III)

g. Mops, scrub pails, and other cleaning equipment used in the resident areas shall not be stored or used in the dietary area. (III)

65.22(4) *Hygiene of food service personnel.* If food service employees are assigned duties outside the dietetic service, these duties shall not interfere with sanitation, safety, or time required for dietetic work assignments. (II, III)

a. Employees shall wear clean, washable uniforms that are not used for duties outside the food service area in facilities over 15 beds. (III)

b. Hair nets shall be worn by all food service personnel and residents who do work in the kitchen in facilities over 15 beds and effective hair restraints in facilities with fewer than 15 beds. (III)

c. People who handle food shall use correct hand-washing and food-handling techniques as identified in the "Food Service Sanitation Manual." People who handle dirty dishes shall not handle clean dishes without washing their hands. (III)

This rule is intended to implement Iowa Code section 135C.14.

481—65.23(135C) Physical facilities and maintenance.

65.23(1) *Housekeeping.* The facility shall have written procedures for daily and weekly cleaning (III) which include, but need not be limited to:

a. All rooms including furnishings, all corridors, storage areas, linen closets, attics, and basements shall be kept in a clean, orderly condition, free of unserviceable furniture and equipment or accumulations of refuse. (III)

b. All resident bedrooms, including furnishings, shall be cleaned and sanitized before use by another resident. (III)

c. Polishes used on floors shall provide a slip-resistant finish. (III)

65.23(2) *Equipment.* Housekeeping and maintenance personnel shall be provided with well-constructed and properly maintained equipment appropriate to the function for which it is to be used. (III)

a. All facilities shall be provided with clean and sanitary storage for cleaning equipment, supplies, and utensils. In facilities over 15 beds, a janitor's closet shall be provided. It shall be equipped with water for filling scrub pails and a janitor's sink for emptying scrub pails. A hallway or corridor shall not be used for storage of equipment. (III)

b. Sufficient numbers of noncombustible trash containers, which have covers, shall be available. (III)

c. All containers for trash shall be watertight, rodent-proof, and have tight-fitting covers and shall be thoroughly cleaned each time a container is emptied. (III)

d. All wastes shall be properly disposed of in compliance with the local ordinances and state codes. (III)

65.23(3) *Bedrooms.* Each resident shall be provided with a bed, substantially constructed and in good repair. (III)

a. Rollaway beds, metal cots, or folding beds are not acceptable. (III)

b. Each bed shall be equipped with the following: casters or glides; clean springs in good repair; a clean, comfortable, well-constructed mattress approximately 5 inches thick and standard in size for the bed; and clean, comfortable pillows of average bed size. (III)

c. There shall be a comfortable chair, either a rocking chair or arm chair, per resident bed. The resident's personal wishes shall be considered and documented. (III)

d. There shall be drawer space for each resident's clothing. In a multiple bedroom, drawer space shall be assigned each resident. (III)

e. There shall be a bedside table with a drawer and a reading lamp for each resident. (III)

f. All furnishings and equipment shall be durable, cleanable, and appropriate to its function. (III)

g. All resident areas shall be decorated, painted, and furnished to provide a homelike atmosphere and in a manner which is age and culture appropriate. (III)

h. Upholstery materials shall be moisture- and soil-resistant, except on furniture which is provided and owned by the resident. (III)

i. Beds and other furnishings shall not obstruct free passage to and through doorways. (III)

j. Beds shall not be placed with the side of the bed against a radiator or in close proximity to it unless the radiator is covered to protect the resident from contact with it or from excessive heat. (III)

65.23(4) *Bath and toilet facilities.* All lavatories shall have nonreusable towels or an air dryer and an available supply of soap. (III)

65.23(5) *Dining and living rooms.* Dining rooms and living rooms shall be available for use by residents at appropriate times to allow social, diversional, individual, and group activities. (III)

a. Every facility shall have a dining room and a living room easily accessible to all residents which are never used as bedrooms. (III)

b. A combination dining room and living room may be permitted if the space requirements of a multipurpose room as provided in 481—subrule 61.6(2) are met. (III)

c. Living rooms shall be suitably furnished and maintained for the use of residents and their visitors and may be used for recreational activities. (III)

d. Dining rooms shall be furnished with dining tables and chairs appropriate to the size and function of the facility. These rooms and furnishings shall be kept clean and sanitary. (III)

65.23(6) *Family and employee accommodations.* Resident bedrooms shall not be occupied by employees, family members of employees, or family members of the licensee. (III)

a. In facilities where the total occupancy of family, employees, and residents is five or fewer, one toilet and one tub or shower is the minimum requirement. (III)

b. In all health care facilities, if the family or employees live within the facility, living quarters shall be required for the family or employees separate from areas provided for residents. (III)

65.23(7) *Pets—policies.* Any facility in which a pet is living shall implement written policies and procedures addressing the following:

a. Vaccination schedule; (III)

b. Veterinary visit schedule; (III)

c. Housing or sleeping quarters; (III) and

d. Assignment of responsibility for feeding, bathing and cleanup. (III)

65.23(8) *Maintenance.* Each facility shall establish a program to ensure continued maintenance of the facility, to promote good housekeeping procedures, and to ensure sanitary practices throughout. In facilities over 15 beds, this program shall be in writing and be available for review by the department. (III)

a. The buildings, furnishings and grounds shall be maintained in a clean, orderly condition and be in good repair. (III)

b. The buildings and grounds shall be kept free of flies, other insects, rodents, and their breeding areas. (III)

65.23(9) *Buildings, furnishings, and equipment.*

a. Battery-operated, portable emergency lights in good working condition shall be available at all times, at a ratio of one light per employee on duty from 6 p.m. to 6 a.m. (III)

b. All windows shall be supplied with curtains and shades or drapes which are kept in good repair. (III)

c. Wherever glass sliding doors or transparent panels are used, they shall be marked conspicuously and decoratively. (III)

65.23(10) *Water supply.* Every facility shall have an adequate water supply from an approved source. A municipal source of water shall be considered as meeting this requirement. Private sources of water to a facility shall be tested annually and the report submitted with the annual application for license. (III)

a. A bacterially unsafe source of water shall be grounds for denial, suspension, or revocation of license. (III)

b. The department may require testing of private sources of water to a facility at its discretion in addition to the annual test. The facility shall supply reports of tests as directed by the department. (III)

This rule is intended to implement Iowa Code section 135C.14.

481—65.24(135C) Care review committee. Rescinded **ARC 1205C**, IAB 12/11/13, effective 1/15/14.

481—65.25(135C) Residents' rights in general. Each facility shall ensure that policies and procedures are written and implemented which include at least provisions in subrules 65.25(1) to 65.25(21). These shall govern all services provided to staff, residents, their families or legal representatives. The policies and procedures shall be available to the public and shall be reviewed annually. (II)

65.25(1) *Grievances.* Written policies and procedures shall include a method for submitting grievances and recommendations by residents or their legal representatives and for ensuring a response and disposition by the facility. The written procedure shall ensure protection of the resident from any form of reprisal or intimidation and shall include:

a. An employee or an alternate designated to be responsible for handling grievances and recommendations; (II)

b. Methods to investigate and assess the validity of a grievance or recommendation; (II) and

c. Methods to resolve grievances and take action. (II)

65.25(2) *Informed of rights.* Policies and procedures shall include a provision that residents be fully informed of their rights and responsibilities as residents and of all rules governing resident conduct and responsibilities. This information must be provided upon admission, or when the facility adopts or amends residents' rights policies. It shall be posted in locations accessible to all residents. (II)

a. The facility shall make known to residents what they may expect from the facility and its staff, and what is expected from residents. The facility shall communicate these expectations during a period not more than two weeks before or later than five days after admission. The communication shall be in writing in a separate handout or brochure describing the facility. It shall be interpreted verbally, as part of a preadmission interview, resident counseling, or in individual or group orientation sessions after admission. (II)

b. Residents' rights and responsibilities shall be presented in language understandable to residents. If the facility serves residents who are non-English-speaking or deaf or hard of hearing, steps shall be taken to translate the information into a foreign or sign language. Blind residents shall be provided either Braille or a recording. Residents shall be encouraged to ask questions about their rights and responsibilities. Their questions shall be answered. (II)

c. A statement shall be signed by the resident and legal guardian, if applicable, to indicate the resident understands these rights and responsibilities. The statement shall be maintained in the record. The statement shall be signed no later than five days after admission. A copy of the signed statement shall be given to the resident or legal guardian. (II)

d. All residents, next of kin, or legal guardian shall be advised within 30 days of changes made in the statement of residents' rights and responsibilities. Appropriate means shall be used to inform non-English-speaking, deaf or hard-of-hearing, or blind residents of changes. (II)

65.25(3) *Resident abuse prohibited.* Each resident shall receive kind and considerate care at all times and shall be free from physical, sexual, mental and verbal abuse, exploitation, neglect, and physical injury. (I, II)

65.25(4) *Allegations of dependent adult abuse.* Allegations of dependent adult abuse shall be reported and investigated pursuant to Iowa Code chapter 235E and 481—Chapter 52. (I, II, III)

65.25(5) *Report of abuse.* Rescinded IAB 12/11/13, effective 1/15/14.

65.25(6) *Informed of health condition.* Each resident or legal guardian shall be fully informed by a physician of the health and medical condition of the resident unless a physician documents reasons not to in the resident's record. (II)

65.25(7) *Research.* The resident or legal guardian shall decide whether a resident participates in experimental research. Participation shall occur only when the resident or guardian is fully informed and signs a consent form. (II, III)

Any clinical investigation involving residents must be sponsored by an institution with a human subjects review board functioning in accordance with the requirement of Public Law 93-348, as implemented by Part 46 of Title 45 of the Code of Federal Regulations, as amended December 1, 1981 (45 CFR 46). (III)

65.25(8) *Resident work.* Services performed by the resident for the facility shall be in accordance with the IPP. (II)

a. Residents shall not be used to provide a source of labor for the facility against the resident's will. Physician's approval is required for all work programs and must be renewed yearly. (II, III)

b. If the individual program plan requires activities for therapeutic or training reasons, the plan for these activities must be professionally developed and implemented. Therapeutic or training goals must be clearly stated and measurable and the plan shall be time limited and reviewed at least quarterly. (II, III)

c. A resident engaged in work programs in the ICF/PMI shall be paid wages commensurate with wage and hour regulations for comparable work and productivity. (II)

d. The resident shall have the right to employment options commensurate with training and skills. (II)

e. Residents performing work shall not be used to replace paid employees to fulfill staff requirements. (II)

65.25(9) *Encouragement to exercise rights.* Residents shall be encouraged and assisted throughout their period of stay to exercise resident and citizen rights. Residents may voice grievances and recommend changes in policies and services to administrative staff or to an outside representative of their choice free from interference, coercion, discrimination, or reprisal. (II)

65.25(10) *Posting of names.* The facility shall post in a prominent area the name, telephone number, and address of the survey agency, local law enforcement agency, administrator, members of the board of directors, corporate headquarters, and the protection and advocacy agency designated pursuant to Iowa Code section 135C.2(4) and the text of Iowa Code section 135C.46 to provide to residents another course of redress. (II)

65.25(11) *Dignity preserved.* Residents shall be treated with consideration, respect, and full recognition of their dignity and individuality, including privacy in treatment and in care of personal needs. (II)

a. Staff shall display respect for residents when speaking with, caring for, or talking about them as constant affirmation of the individuality and dignity of human beings. (II)

b. Schedules of daily activities shall allow maximum flexibility for residents to exercise choice about what they will do and when they will do it. Residents' individual preferences regarding such things as menus, clothing, religious activities, friendships, activity programs, entertainment, sleeping, eating, and times to retire at night and arise in the morning shall be elicited and considered by the facility. The facility shall make every effort to match nonsmokers with other nonsmokers. (II)

c. Residents shall not have their personal lives regulated beyond reasonable adherence to meal schedules, bedtime hours, and other written policies which may be necessary for the orderly management of the facility and as required by these rules; however, residents shall be encouraged to participate in recreational programs. (II)

d. Residents shall be examined and treated in a manner that maintains the privacy of their bodies. A closed door shall shield the resident from passersby. People not involved in the care of a resident shall not be present without the resident's consent during examination or treatment. (II)

e. Privacy for each person shall be maintained when residents are being taken to the toilet or being bathed and while they are being helped with other types of personal hygiene, except as needed for resident safety or assistance. (II)

f. Staff shall knock and be acknowledged before entering a resident's room unless the resident is not capable of response. This does not apply under emergency conditions. (II)

65.25(12) *Communications.* Each resident may communicate, associate, and meet privately with persons of the resident's choice, unless to do so would infringe upon the rights of other residents. Each resident may send and receive personal mail unopened unless prohibited in the IPP which has explicit approval of the resident or legal guardian. Telephones consistent with ANSI standards 42 CFR 405.1134(c) (10-1-86) shall be available and accessible for residents to make and receive calls with privacy. Residents who need help shall be assisted in using the telephone. (II)

Arrangements shall be made to provide assistance to residents who require help in reading or sending mail. (II)

65.25(13) *Visiting policies and procedures.* Subject to reasonable scheduling restrictions, visiting policies and procedures shall permit residents to receive visits from anyone they wish. Visiting hours shall be posted. (II)

a. Reasonable, regular visiting hours shall not be less than 12 hours per day and shall take into consideration the special circumstances of each visitor. A particular visitor(s) may be restricted by the facility for one of the following reasons:

(1) The resident refuses to see the visitor(s). (II)

(2) The visit would not be in accordance with the IPP. (II)

(3) The visitor's behavior is unreasonably disruptive to the functioning of the facility. (II)

Reasons for denial of visitation shall be documented in resident records. (II)

b. Decisions to restrict a visitor shall be reevaluated at least quarterly by the QMHP or at the resident's request. (II)

c. Space shall be provided for residents to receive visitors in comfort and privacy. (II)

65.25(14) *Resident activities.* Each resident may participate in activities of social, religious, and community groups as desired unless contraindicated for reasons documented by the attending physician or qualified mental health professional, as appropriate, in the resident's record. (II)

Residents who wish to meet with or participate in activities of social, religious or community groups in or outside the facility shall be informed, encouraged, and assisted to do so. (II)

Residents shall be permitted to leave the facility and environs at reasonable times unless there are justifiable reasons established in writing by the attending physician, QMHP, or facility administrator for refusing permission. (II)

65.25(15) *Resident property.* Each resident may retain and use personal clothing and possessions as space permits and provided use is not otherwise prohibited in these rules. (II)

a. Residents shall be permitted to keep reasonable amounts of personal clothing and possessions for their use while in the facility. The personal property shall be kept in a secure location which is convenient to the resident. (II)

b. Residents shall be advised, prior to or at the time of admission, of the kinds and amounts of clothing and possessions permitted for personal use, and whether the facility will accept responsibility for maintaining these items, e.g., cleaning and laundry. (II)

c. Any personal clothing or possession retained by the facility for the resident shall be identified and recorded on admission and the record placed on the resident's chart. The facility shall be responsible for secure storage of items. They shall be returned to the resident promptly upon request or upon discharge from the facility. (II)

65.25(16) *Sharing rooms.* Residents, including spouses staying in the same facility, shall be permitted to share a room, if available, if requested by both parties, unless reasons to the contrary are in the IPP. Reasons for denial shall be documented in the resident's record. (II)

65.25(17) *Choice of physician and pharmacy.* Each resident shall be permitted free choice of a physician and a pharmacy. The facility may require the pharmacy selected to use a drug distribution system compatible with the system currently used by the facility. (II)

This rule is intended to implement Iowa Code section 135C.14 and Iowa Code chapter 235E.

[**ARC 1205C**, IAB 12/11/13, effective 1/15/14; **ARC 1204C**, IAB 12/11/13, effective 1/15/14; **ARC 5711C**, IAB 6/16/21, effective 7/21/21]

481—65.26(135C) Incompetent residents. Each facility shall provide that all rights and responsibilities of incompetent residents devolve to the legal guardian when a hearing has been held and the resident is judged incompetent in accordance with state law. (II)

A facility is not absolved from advising incompetent residents of their rights to the extent the resident is able to understand them. The facility shall also advise the legal guardian, if any, and acquire a statement indicating an understanding of resident's rights. (II)

This rule is intended to implement Iowa Code sections 135C.14(8) and 135C.24.

481—65.27(135C) County care facilities. In addition to these rules, county care facilities licensed as intermediate care facilities for persons with mental illness must also comply with department of human services rules 441—Chapter 37. Violation of any standard established by the department of human services is a Class II violation pursuant to 481—56.2(135C).

This rule is intended to implement Iowa Code section 227.4.

481—65.28(135C) Violations. Classification of violations is I, II and III, determined by the division using the provisions in 481—Chapter 56, "Fining and Citations," to enforce a fine to cite a facility.

481—65.29(135C) Another business or activity in a facility. A facility is allowed to have another business or activity in a health care facility or in the same physical structure of the facility, if the other business or activity is under the control of and is directly related to and incidental to the operation of the health care facility, or the business or activity is approved by the department and the state fire marshal.

To obtain the approval of the department and the state fire marshal, the facility must submit to the department a written request for approval which identifies the service(s) to be offered by the business and addresses the factors outlined in paragraphs *"a"* through *"j"* of this rule. (I, II, III)

65.29(1) The following factors will be considered by the department in determining whether a business or activity will interfere with the use of the facility by residents, interfere with services provided to residents, or be disturbing to residents:

a. Health and safety risks for residents;

b. Compatibility of the proposed business or activity with the facility program;

c. Noise created by the proposed business or activity;

d. Odors created by the proposed business or activity;

e. Use of entrances and exits for the business or activity in regard to safety and disturbance of residents and interference with delivery of services;

f. Use of the facility's corridors or rooms as thoroughfares to the business or activity in regard to safety and disturbance of residents and interference with delivery of services;

g. Proposed staffing for the business or activity;

h. Sharing of services and staff between the proposed business or activity and the facility;

i. Facility layout and design; and

j. Parking area utilized by the business or activity.

65.29(2) Approval of the state fire marshal shall be obtained before approval of the department will be considered.

65.29(3) A business or activity conducted in a health care facility or in the same physical structure as a health care facility shall not reduce space, services or staff available to residents below minimums required in these rules and 481—Chapter 61. (I, II, III)

481—65.30(135C) Respite care services. Respite care services means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person. A facility which chooses to provide respite care services must meet the following requirements related to respite care services and must be licensed as a health care facility.

65.30(1) A facility which chooses to provide respite care services is not required to obtain a separate license or pay a license fee.

65.30(2) Rules regarding involuntary discharge or transfer rights do not apply to residents who are being cared for under a respite care contract.

65.30(3) The facility shall have a contract with each resident in the facility. When the resident is there for respite care services, the contract shall specify the time period during which the resident will be considered to be receiving respite care services. At the end of that period, the contract may be amended to extend that period of time. The contract shall specifically state the resident may be involuntarily discharged while being considered as a respite care resident. The contract shall meet other requirements for contracts between a health care facility and resident, except the requirements concerning the holding and charging for a bed when a resident is hospitalized or leaves the facility temporarily for recreational or therapeutic reasons.

65.30(4) Respite care services shall not be provided by a facility to persons requiring a level of care which is higher than the level of care the facility is licensed to provide.

These rules are intended to implement Iowa Code sections 135C.2(6), 135C.4, 135C.6(2), 135C.6(3), 135C.7, 135C.8, 135C.14, 135C.16(2), 135C.23, 135C.24, 135C.25, 135C.31, and 227.4.

CHAPTER 66
BOARDING HOMES

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—66.1(135O) Definitions.

"Activities of daily living" means the following self-care tasks: bathing, dressing, grooming, eating, transferring, toileting, and ambulation.

"Affiliated person or entity" means an individual operating as a sole proprietorship who is related within the third degree of consanguinity to the boarding home owner or lessee; or a business entity with common ownership or with 25 percent or more ownership by the boarding home owner or lessee.

"Assistance" means aid or help.

"Assistance with activities of daily living" does not mean routine, total dependence on staff for the performance of activities of daily living or nursing care.

"Boarding home" means the same as defined in Iowa Code section 135O.1(1).

"Commencing operations" means the date on which a premises becomes a boarding home by renting to a third individual who meets the requirements pursuant to the definition of "boarding home."

"Department" means the department of inspections, appeals, and licensing.

"Director" means the director of the department of inspections, appeals, and licensing.

"Known" means information that an owner, a lessee, or a manager possesses without seeking additional information from tenants.

"Lessee" means a person who leases the boarding home from its owner.

"Premises" means the same as defined in Iowa Code section 562A.6(7).

"Preponderance of the evidence" means that the evidence, considered and compared with the evidence opposed to it, produces the belief in a reasonable mind that the allegations are more likely true than not true. A "preponderance of the evidence" standard does not require that the investigator personally witnessed the alleged violation.

"Probable cause" means a reasonable suspicion to believe that a boarding home is in violation of Iowa Code chapter 135O or licensing or other regulatory requirements of the department of health and human services or department of inspections, appeals, and licensing; or that dependent adult abuse of any individual living in the boarding home has occurred or is occurring.

"Responsible party" means the individual designated on the registration of a boarding home as the department's primary contact.

"Room" means an apartment, group of rooms, or single room that is occupied as a separate living quarter or, if vacant, that is intended for occupancy as a separate living quarter, in which a tenant can live and sleep separately from any other persons in the building and that has direct access from the outside of the building or through a common hall.

"Supervision" means oversight necessary to prevent accidents or ensure the health, safety, and welfare of the tenant.

"Third degree of consanguinity" means the following relatives of the owner or lessee: spouse, children, parents, siblings or half-siblings, grandchildren, grandparents, uncles, aunts, nephews, nieces, great-grandparents, and great-grandchildren.

[**ARC 0062D**, IAB 2/4/26, effective 3/11/26]

481—66.2(135O) Registration of boarding homes.

66.2(1) A boarding home shall complete and submit the boarding home registration form located on the department's website within 60 days of commencing operations.

66.2(2) The registration form may be submitted electronically via the department's website or by mail to the Department of Inspections, Appeals, and Licensing, Health Facilities Division, 6200 Park Avenue, Des Moines, Iowa 50321.

66.2(3) The registrant shall include the following:

a. Name(s) of the owner, lessee and manager;

b. Number of rooms available for rent and maximum number of tenants for the entire boarding home;

c. Location of the boarding home, including street address, city and ZIP code;

d. Telephone number, mailing address and email address for the owner, lessee and manager;

e. Occupant loads as calculated in accordance with the building and fire codes as adopted by the applicable jurisdictions;

f. Whether the building is equipped with a fire sprinkler system;

g. Whether the building is equipped with a centralized kitchen in which meals are prepared;

h. Name of the responsible party to whom the department will send all notices regarding the boarding home.

66.2(4) The boarding home shall notify the department as provided in subrule 66.2(2) of any changes to the information on the initial statement of registration within 30 days of when the change occurs, including cessation of operation.

[**ARC 0062D**, IAB 2/4/26, effective 3/11/26]

481—66.3(135O) Occupancy reports.

66.3(1) Each boarding home shall update its boarding home registration form with the department annually between January 1 and January 31 as provided in subrule 66.2(2).

66.3(2) The owner or lessee shall include the following information on the occupancy report. If the owner or lessee is unable to answer the question because the owner or lessee does not have such information, the owner or lessee shall indicate such on the report.

a. Current number of rooms occupied;

b. Current number of tenants residing in the boarding home;

c. Date of last fire inspection and any deficiencies noted and how such deficiencies have been corrected;

d. The number of tenants receiving Medicaid;

e. The number of tenants receiving food assistance benefits (EBT cards);

f. The number of tenants receiving other types of state assistance and the types of state assistance received;

g. Types of services provided or arranged by the owner, lessee, manager or an affiliated person or entity; frequency of services by type; and the name and contact information of the person or entity providing or arranging such services;

h. Any assistance or supervision provided to tenants by the owner, lessee or manager;

i. Method of rent payments, such as cash, check, or state assistance;

j. The number of tenants with a power of attorney, guardian or conservator.

[**ARC 0062D**, IAB 2/4/26, effective 3/11/26]

481—66.4(135O) Complaints and investigations.

66.4(1) *Complaints.*

a. Any person with a concern regarding the operation of a boarding home may file a complaint with the department in writing, by use of the complaint hotline at 1.877.686.0027 or through the department's website at dial.iowa.gov.

b. When the nature of the complaint is outside the department's authority, the department will forward the complaint to the appropriate investigatory entity.

c. If other state agencies receive a complaint that relates to boarding homes, the agencies will forward the complaint to the department.

d. The department will act on anonymous complaints unless the department determines that the complaint is intended to harass the boarding home or is without a reasonable basis.

66.4(2) *Content of complaint reports.* The complaint will include as much of the following information as possible: the complainant's name, address and telephone number; the complainant's relationship to the boarding home and tenant; and the reason for the complaint.

66.4(3) *Initiation of investigations and time frames for investigation of complaints.* If the department determines there is probable cause to believe that a boarding home is an unregistered boarding home or that a registered boarding home is not in compliance with applicable law, an investigation will be initiated. The department will evaluate whether other local, state, or federal agencies, including law enforcement, should

be provided a referral or included in the investigation. An investigation of the boarding home will be initiated within 45 working days. If there is the likelihood of immediate danger, the department will initiate an investigation of the boarding home within two working days of receipt of the complaint. If there is an allegation of harm, the department will initiate an investigation of the boarding home within 20 working days of receipt of the complaint.

66.4(4) *Standard for determining whether a complaint is substantiated.* The department will apply a preponderance of the evidence standard in determining whether a complaint is substantiated.

66.4(5) *Notification of the boarding home or alleged boarding home of results of investigation.* The department will notify the boarding home or alleged boarding home, in writing, of the final report of the complaint investigation.

66.4(6) *Notification of the complainant of results of investigation.* The complainant, if known, will be notified of the final findings of a complaint investigation or if the department determines not to investigate a complaint and will receive an explanation of the department's decision.

[**ARC 0062D**, IAB 2/4/26, effective 3/11/26]

481—66.5 Reserved.

481—66.6(135O) Penalties. The director will consider the following when determining whether to assess a penalty for violation of Iowa Code chapter 135O or rules adopted thereunder and the amount of the penalty:

1. The duration of the noncompliance;
2. The nature of the noncompliance;
3. The response of the owner or lessee upon notification of noncompliance;
4. The number of tenants affected;
5. The impact to the tenants.

[**ARC 0062D**, IAB 2/4/26, effective 3/11/26]

481—66.7(135O) Public and confidential information.

66.7(1) *Public disclosure.* The following records are open and available for inspection:

a. Registration forms and accompanying materials;

b. Final findings of investigations, unless otherwise confidential by law, such as investigative findings of the division of criminal investigation of the department of public safety or dependent adult abuse investigations;

c. Official notices of penalties.

66.7(2) *Confidential information.* Confidential information includes the following:

a. Information that does not comprise a final finding;

b. Names and identifying information of all complainants;

c. Names of tenants of a boarding home, identifying personal or medical information, copies of documentation appointing a legal representative, and the address of anyone other than an owner or lessee;

d. Social security or employer identification numbers (EIN).

66.7(3) *Redaction of confidential information.* If a record normally open for inspection contains confidential information, the confidential information will be redacted prior to an agency's providing the record for inspection.

66.7(4) *Searchable database of all registered boarding homes.* The department will maintain a searchable database of all registered boarding homes on the health facilities division's website at dia-hfd.iowa.gov.

[**ARC 0062D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapter 135O.

CHAPTER 67
GENERAL PROVISIONS FOR ELDER GROUP HOMES, ASSISTED LIVING PROGRAMS, AND ADULT DAY SERVICES

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—67.1(231B,231C,231D) Definitions. The following definitions apply to this chapter and to 481—Chapters 68, 69, and 70.

"Accredited" means that the program has received accreditation from an accreditation entity.

"Activities of daily living" means the following self-care tasks: bathing, dressing, grooming, eating, transferring, toileting, and ambulation.

"Ambulatory" or *"ambulation"* means physically and cognitively able to walk without aid of another person.

"Applicable requirements" means the requirements in Iowa Code chapters 135C, 231B, 231C, 231D, 235B, 235E, and 562A, this chapter, and 481—Chapters 68, 69, and 70, as applicable, and includes any other applicable administrative rules and provisions of the Iowa Code.

"Assistance" means aid to a tenant who self-directs or participates in a task or activity or who retains the mental or physical ability, or both, to participate in a task or activity. Cueing of the tenant regarding a particular task or activity means the tenant has participated in the task or activity.

"Certified staff" means certified nursing assistants (CNAs) and certified medication assistants (CMAs) employed by the program.

"Change of ownership" means the purchase, transfer, assignment or lease of a program and includes a change in the management company responsible for the day-to-day operation of the program, if the management company is ultimately responsible for any enforcement action taken by the department.

"Dementia" means an illness characterized by multiple cognitive deficits that represent a decline from previous levels of functioning and includes memory impairment and one or more of the following cognitive disturbances: aphasia, apraxia, agnosia and disturbance in executive functioning.

"Department" means the department of inspections, appeals, and licensing.

"Director" means the director of the department.

"Direct supervision" means the provision of guidance and oversight of a delegated nursing task through the physical presence of the licensed nurse to observe and direct certified and noncertified staff.

"Elope" means that a tenant who has impaired decision-making ability leaves the program without the knowledge or authorization of staff.

"Global Deterioration Scale" or *"GDS"* means the seven-stage scale for assessment of primary degenerative dementia developed by Dr. Barry Reisberg.

"Health care professional" means a physician, physician associate, registered nurse, licensed practical nurse via RN delegation or advanced registered nurse practitioner licensed in Iowa by the respective licensing board or eligible to practice in Iowa through compact licensure agreements.

"Health-related care" means the same as defined in Iowa Code section 231B.1(5) and includes nurse-delegated assistance.

"Human service professional" means an individual with a bachelor's degree in a human service field, including but not limited to human services, gerontology, social work, sociology, psychology, or family science. Two years of experience in a human service field may be substituted for up to two years of the required education.

"Impaired decision-making ability" means a lack of capacity to make safe and prudent decisions regarding one's own routine safety as determined by the program manager or nurse or means having a GDS score of five or above.

"Independent reviewer" means an attorney licensed in the state of Iowa who is not currently and has not been employed by the department in the past eight years, or has not appeared in front of the department on behalf of a health care facility in the past eight years. Preference shall be given to an attorney with background knowledge, experience or training in long-term care.

"Indirect supervision" means the provision of guidance and oversight of a delegated nursing task through means other than direct supervision, including written and verbal communication.

"Instrumental activities of daily living" means those activities that reflect the tenant's ability to perform household and other tasks necessary to meet the tenant's needs within the community, which may include but are not limited to shopping, housekeeping, chores, and traveling within the community.

"In the proximate area" means an area located within a five-minute or less response time.

"Medication setup" means the same as defined in Iowa Code section 231B.1(6).

"Modification" means any addition to or change in physical dimensions or structure, except as incidental to the customary maintenance of the physical structure of the program's facility.

"Monitoring" means an on-site evaluation of a program, a complaint investigation, or a program-reported incident investigation performed by the department to determine compliance with applicable requirements. A monitor who performs a monitoring for the department shall be a registered nurse, human service professional, or another person with program-related expertise.

"Nonaccredited" means that the program has been certified but has not received accreditation from an accreditation entity.

"Noncertified staff" means unlicensed and uncertified personnel employed by the program.

"Nurse delegation" means the action of a registered nurse, advanced registered nurse practitioner, or licensed practical nurse to direct competent certified and noncertified staff to perform selected nursing tasks in selected situations. The decision of a nurse to delegate is based on the delegation process, including assessment, planning, implementation, supervision, and evaluation of the tenant, nursing tasks, personnel, and the situation. The nurse, as a licensed professional, retains accountability for the delegation process and the decision to delegate. Licensed practical nurses may delegate within the scope of their license with the supervision of a registered nurse.

"Occupancy agreement" or *"contractual agreement"* means the same as defined in Iowa Code sections 231B.1(7) and 231C.2(9).

"Part-time or intermittent care" means licensed nursing services and professional therapies that are provided in combination with nurse-delegated assistance with medications or activities of daily living and do not exceed 28 hours per week or, for adult day services, 4 hours per day.

"Personal care" means the same as defined in Iowa Code section 231B.1(8).

"Preponderance of the evidence" means that the evidence, considered and compared with the evidence opposed to it, produces the belief in a reasonable mind that the allegations are more likely true than not true.

"Program" means one or more of the following, as applicable: an elder group home as defined in Iowa Code section 231B.1 and 481—Chapter 68, an assisted living program as defined in Iowa Code section 231C.1 and 481—Chapter 69, or adult day services as defined in Iowa Code section 231D.1 and 481—Chapter 70.

"Program staff" means all employees of the program, regardless of certification or licensure status.

"Qualified professional" means a facility plant engineer familiar with the type of program being provided, or a licensed plumbing, heating, cooling, or electrical contractor who furnishes regular service to such equipment.

"Recognized accrediting entity" means the same as defined in Iowa Code sections 231C.2(11) and 231D.1(11).

"Regulatory insufficiency" means a violation of an applicable requirement.

"Restraints" means any chemical or manual method that restricts freedom of movement or normal access to one's body or any physical or mechanical device, material or equipment that is attached or adjacent to the tenant's body that the tenant cannot remove easily and that restricts freedom of movement or normal access to one's body.

"Routine" means more often than not or on a regular customary basis.

"Self-administration" means a tenant's taking personal responsibility for all phases of medication except for any component assigned to the program under medication setup, and may include the tenant's use of an automatic pill dispenser.

"Service plan" means the document that defines all services necessary to meet the needs and preferences of a tenant, whether or not the services are provided by the program or other service providers.

"Significant change" means the same as defined in Iowa Code section 231C.2(12).

"Substantial compliance" means the same as defined in Iowa Code section 231C.2(13) regarding a level of compliance with applicable requirements.

"Tenant" means the same as defined in Iowa Code sections 231B.1(9) and 231C.2(14). In the context of adult day services, "tenant" means a "participant" as defined in 481—Chapter 70.

"Tenant advocate" means the same as defined in Iowa Code section 231B.1(10).

"Tenant's legal representative" means the same as defined in Iowa Code section 231B.1(11). In the context of adult day services, "tenant's legal representative" means a "participant's legal representative" as defined in 481—Chapter 70.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 6/10/26]

481—67.2(231B,231C,231D) Program policies and procedures.

67.2(1) A program's policies and procedures must meet the minimum standards set by applicable requirements. All programs shall have policies and procedures related to the following:

a. Reporting of incidents, including allegations of dependent adult abuse on incident report forms to provide a detailed incident report completed at the time of the incident and include statements from individuals, if any, who witnessed the incident. The program will identify in the program's policy who of the program staff is responsible for completion of the initial report. The report will remain accessible for a minimum of three years. All accidents or unusual occurrences within the program's building or on the premises that affect tenants will be reported as incidents.

b. Allegations of dependent adult abuse consistent with Iowa Code chapter 235E and rules adopted pursuant to that chapter and, at a minimum, reporting requirements for staff and employees, and requirements that the victim and alleged abuser be separated.

c. Evaluation of each tenant or participant. A copy of the evaluation tool or tools to be used to identify the functional, cognitive and health status of each tenant or participant will be included.

d. Service plans.

e. Medical needs of tenants or participants.

f. Food service, including policies and procedures related to staffing, nutrition, menu planning, therapeutic diets, and food preparation, service and storage.

g. Transportation.

h. Staffing and training.

i. Emergencies, including policies and procedures related to natural disasters, with an evacuation plan and procedures for notifying legal representatives in emergency situations as applicable.

j. Managing risk and upholding tenant or participant autonomy when decision-making results in poor outcomes for the tenant or participant or others.

k. Accidents and emergency response.

l. Addressing sexual relationships between tenants and staff and between tenants with dementia greater than Stage 5 on the Global Deterioration Scale.

m. Extraordinary lifesaving measures, including policies and procedures related to cardiopulmonary resuscitation (CPR).

n. Narcotics protocol, including policies and procedures related to reconciliation and destruction.

67.2(2) The program shall follow the policies and procedures established by the program.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.3(231B,231C,231D) Tenant rights. All tenants have the following rights:

67.3(1) To be treated with consideration, respect, and full recognition of personal dignity and autonomy.

67.3(2) To receive care, treatment and services that are adequate and appropriate.

67.3(3) To receive respect and privacy in the tenant's medical care program. Personal and medical records shall be confidential, and the written consent of the tenant obtained for the records' release to any

individual, including family members, except as needed in case of the tenant's transfer to a health care facility or as required by law or a third-party payment contract.

67.3(4) To be free from mental and physical abuse.

67.3(5) To receive from the manager and staff of the program a reasonable response to all requests.

67.3(6) To associate and communicate privately and without restriction with persons and groups of the tenant's choice, including the tenant advocate, on the tenant's initiative or on the initiative of the persons or groups at any reasonable hour.

67.3(7) To manage the tenant's own financial affairs unless a tenant's legal representative has been appointed for the purpose of managing the tenant's financial affairs.

67.3(8) To present grievances and recommend changes in program policies and services, personally or through other persons or in combination with others, to the program's staff or person in charge without fear of reprisal, restraint, interference, coercion, or discrimination.

67.3(9) To be free from restraints.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.4(231B,231C,231D) Program notification to the department. The director or the director's designee shall be notified within 24 hours, or the next business day, by the most expeditious means available:

67.4(1) Of any accident causing major injury, including a substantial injury.

a. "Major injury" is defined as any injury that:

(1) Results in death; or

(2) Requires admission to a higher level of care for treatment, other than for observation; or

(3) Requires consultation with the attending physician, designee of the physician, or physician extender who determines, in writing on a form designated by the department, that an injury is a "major injury" based upon the circumstances of the accident, the previous functional ability of the tenant, and the tenant's prognosis.

b. The following are not reportable accidents:

(1) An ambulatory tenant who falls when neither the program nor its employees have culpability related to the fall, even if the tenant sustains a major injury;

(2) Spontaneous fractures;

(3) Hairline fractures.

67.4(2) When damage to the program is caused by a natural or other disaster, including physical impairments affecting operating (e.g., failure of a heating or cooling system or water heater failure).

67.4(3) When there is an act that causes major injury to a tenant or when a program has knowledge of a pattern of acts committed by the same tenant on another tenant that results in any physical injury. "Pattern" means two or more times within a 30-day period.

67.4(4) When a tenant elopes from a program.

67.4(5) When a tenant attempts suicide, regardless of injury.

67.4(6) When a fire occurs in a program and the fire requires the notification of emergency services, requires full or partial evacuation of the program, or causes physical injury to a tenant.

67.4(7) When a defect or failure occurs in the fire sprinkler or fire alarm system for more than 4 hours in a 24-hour period.

NOTE: Additional reporting requirements are created by other rules and statutes, including but not limited to Iowa Code chapters 235B and 235E, which require reporting of dependent adult abuse.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.5(231B,231C,231D) Medications.

67.5(1) If a program handles, stores, or administers controlled substances, the program shall be registered with the Iowa board of pharmacy as a care facility in accordance with 481—Chapter 551.

67.5(2) Each program shall follow its own written medication policy, including the following:

a. The program will not prohibit a tenant from self-administering medications.

b. A tenant will self-administer medications unless:

(1) The tenant or the tenant's legal representative delegates in the occupancy agreement or signed service plan any portion of medication setup to the program.

(2) The tenant delegates medication setup to someone other than the program.

(3) The program assumes partial control of medication setup at the direction of the tenant. The medication plan will not be implemented by the program unless the program deems it appropriate under applicable requirements, including those in Iowa Code section 231C.16A and subrule 67.9(4).

c. A tenant will keep medications in the tenant's possession unless the tenant or the tenant's legal representative, if applicable, delegates in the occupancy agreement or signed service plan partial or complete control of medications to the program, including the tenant's choice related to storage.

d. When a tenant has delegated medication administration to the program, the program will maintain a list of the tenant's medications. If the tenant self-administers medications, the tenant may choose to maintain a list of medications in the tenant's apartment or to disclose a current list of medications to the program for the purpose of emergency response, but the tenant remains responsible for the accuracy of the list.

e. When medications are administered traditionally by the program:

(1) The administration of medications will be provided by a registered nurse, licensed practical nurse or advanced registered nurse practitioner registered in Iowa, by an individual who has successfully completed a department-approved medication aide or medication manager course and passed the respective department-approved medication aide or manager examination, or by a physician associate (PA) in accordance with 481—Chapter 781. Injectable medications will be administered as permitted by Iowa law by a registered nurse, licensed practical nurse, advanced registered nurse practitioner, physician, pharmacist, or PA.

(2) The program will maintain a list of each tenant's medications and document the medications administered.

(3) Medications and treatments will be administered as prescribed by the tenant's physician, advanced registered nurse practitioner or PA.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 6/10/26]

481—67.6(231B,231C,231D) Another business or activity located in a program.

67.6(1) A business or activity serving persons other than tenants of a program is allowed in a designated part of the physical structure in which the program is located if the other business or activity meets the requirements of applicable state and federal codes, administrative rules, and federal regulations.

67.6(2) A business or activity conducted in the designated part of the physical structure in which the program is located shall not interfere with the use of the program by tenants or with services provided to tenants or disturb tenants or reduce access, space, services, or staff available to tenants or necessary to meet the needs of tenants.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.7(231B,231C,231D) Waiver of criteria for retention of a tenant in the program.

67.7(1) *Time-limited waiver.* Upon receipt of a program's request for waiver of the criteria for retention of a tenant, the department may grant a waiver of the criteria under applicable requirements for a time-limited basis. Absent extenuating circumstances, a waiver of the criteria for retention of a tenant is limited to a period of six months or less.

67.7(2) *Waiver petition procedures.* The following procedures shall be used to request and to receive approval of a waiver from criteria for the retention of a tenant:

a. A program will submit the waiver request on a form and in a manner designated by the department as soon as it becomes apparent that a tenant exceeds retention criteria pursuant to an evaluation by a health care or human service professional.

b. The department will respond in writing to a waiver request within 15 working days of receipt of all required documentation. In consultation with the program, the department may take an additional 15 working days to report its determination regarding the waiver request.

c. The program will provide to the department within five working days written notification of any changes in the condition of the tenant as described in the approved waiver request.

67.7(3) *Factors for consideration for waiver of criteria for retention of a tenant.* In addition to the criteria established in Iowa Code section 17A.9A(2), the following factors may be demonstrative in determining whether the criteria for issuance of a waiver have been met:

a. It is the informed choice of the tenant or the tenant's legal representative, if applicable, to remain in the program;

b. The program is able to provide the staff necessary to meet the tenant's service needs in addition to the service needs of the other tenants;

c. The waiver will not jeopardize the health, safety, security or welfare of the tenant, program staff, or other tenants;

d. The tenant has been diagnosed with a terminal illness and has been admitted to hospice, and the tenant exceeds the criteria for retention and admission for a temporary period of less than six months. A terminal diagnosis means the tenant is within six months of the end of life.

67.7(4) *Conditional waiver.* A conditional waiver may be granted contingent upon the department's receipt of additional information or performance of monitoring.

a. If a waiver has been in effect for six months, a monitoring may be conducted to determine whether the tenant meets the criteria to continue on a waiver.

b. The department may seek additional information during the period to determine if a waiver should be granted.

67.7(5) *Appeals.* The denial of a waiver request may be appealed by the program pursuant to Iowa Code chapter 17A.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.8(231B,231C,231D) All other waiver requests. Waiver requests relating to topics other than retention of a tenant in a program shall be filed in accordance with 7—Chapter 2504.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 8/5/26]

481—67.9(231B,231C,231D) Staffing.

67.9(1) *Number of staff.* A sufficient number of trained staff shall be available at all times to fully meet tenants' identified needs.

67.9(2) *Emergency procedures.* All program staff shall be able to implement the accident, fire safety, and emergency procedures.

67.9(3) *Documentation.* The program shall have training records and staffing schedules on file and maintain documentation of training received by program staff, including training of certified and noncertified staff on nurse-delegated procedures.

67.9(4) *Nurse delegation procedures.* The program's registered nurse shall ensure certified and noncertified staff are competent to meet the individual needs of tenants. Nurse delegation shall include the following:

a. The program's newly hired nurse will within 60 days of beginning employment as the program's registered nurse document a review to ensure that staff are sufficiently trained and competent in all tasks that are assigned or delegated.

b. Within 30 days of beginning employment, all program staff will receive training by the program's nurse(s).

c. Training for noncertified staff will include the provision of activities of daily living and instrumental activities of daily living.

d. Direct care staff will receive training regarding service plan tasks in accordance with medical or nursing directives and the acuity of the tenants' health, cognitive or functional status.

e. The program's nurse(s) will provide direct or indirect supervision of all direct care staff as necessary in the professional judgment of the program's nurse(s) and in accordance with the needs of the tenants and staff.

f. Services will be provided to tenants in accordance with the training provided.

g. The program will have in place a system by which direct care staff communicate in writing occurrences that differ from the tenant's normal health and functional and cognitive status. The program's nurse or designee will train staff on reporting to the program's nurse(s) or designee(s) and documenting

occurrences that differ from the tenant's normal health and functional and cognitive status. The written communication required by this paragraph will be retained by the program for a period of not less than three years and be accessible to the department upon request.

h. In the absence of the program's nurse(s) due to vacation or other temporary circumstances, the nurse(s) assuming the duties of the program's nurse(s) will have access to staff training in relation to tenant needs.

67.9(5) *Prohibited services.* A program staff member shall not be designated as attorney-in-fact, guardian, conservator, or representative payee for a tenant unless the program staff member is related to the tenant by blood, marriage, or adoption.

67.9(6) *Dependent adult abuse training.* Program staff shall receive training relating to the identification and reporting of dependent adult abuse as required by Iowa Code section 235B.16.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.10(17A,231B,231C,231D) Monitoring.

67.10(1) *Frequency of monitoring.* The department will monitor a certified program at least once during a 24-month period.

67.10(2) *Standard for determining whether a regulatory insufficiency exists.* The department will use a preponderance-of-the-evidence standard when determining whether a regulatory insufficiency exists. A preponderance-of-the-evidence standard does not require that the monitor shall have personally witnessed the alleged violation.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.11(231B,231C,231D) Complaint and program-reported incident report investigation procedure.

67.11(1) *Complaints.* The process for filing a complaint is as follows:

a. Any person with concerns regarding the operation or service delivery of a program may file a complaint with the Department of Inspections, Appeals, and Licensing, Complaints Unit, 6200 Park Avenue, Des Moines, Iowa 50321; by use of the complaint hotline, 1.877.686.0027; by facsimile sent to 515.281.7106; or through the website address: dial.iowa.gov.

b. When the nature of the complaint is outside of the department's authority, the department will forward the complaint or refer the complainant, if known, to the appropriate investigatory entity.

c. The complainant will include as much of the following information as possible in the complaint: the complainant's name, address and telephone number; the complainant's relationship to the program or tenant; and the reason for the complaint. The complainant's name shall be confidential information and shall not be released by the department. The department will act on anonymous complaints unless the department determines that the complaint is intended to harass the program. If the department, upon preliminary review, determines that the complaint is intended as harassment or is without reasonable basis, the department may dismiss the complaint.

67.11(2) *Program-reported incident reports.* When the program is required pursuant to applicable requirements to report an incident, the program will make the report to the department via:

a. The web-based reporting tool accessible from the following website, dia-hfd.iowa.gov;

b. Mail by sending the complaint to the Department of Inspections, Appeals, and Licensing, Complaints Unit, 6200 Park Avenue, Des Moines, Iowa 50321;

c. The complaint hotline, 1.877.686.0027; or

d. Facsimile sent to 515.281.7106.

67.11(3) *Time frames for investigation of complaints or program-reported incident reports.* Upon receipt of a complaint or program-reported incident report made in accordance with this rule, the department will conduct a preliminary review of the complaint or report to determine if a potential regulatory insufficiency has occurred. If a potential regulatory insufficiency exists, the department will institute a monitoring of the program within the following time frames: within 2 working days of receipt of the complaint or incident report if there is the possibility of immediate danger, including that the potential regulatory insufficiency has caused or is likely to cause serious injury, harm, impairment, or death to a resident; or within 20 working days of receipt of the complaint or incident report if the potential

regulatory insufficiency has caused or may cause harm that negatively impacts a tenant's mental, physical, or psychosocial status or function and is of such consequence to the tenant's well-being that a rapid response is warranted; or within 45 working days of receipt of the complaint or incident report for any other complaint or incident investigation, including a potential regulatory insufficiency that may have caused harm of limited consequence and does not significantly impair the tenant's mental, physical, or psychosocial status or function.

67.11(4) *Standard for determining whether a complaint is substantiated.* The department will apply a preponderance-of-the-evidence standard in determining whether or not a complaint or program-reported incident report is substantiated.

67.11(5) *Notification of program and complainant.* The department will notify the program and, if known, the complainant of the final report regarding the complaint investigation.

67.11(6) *Notification of accrediting entity.* For any credible report of alleged improper or inappropriate conduct or conditions within an accredited program, the department will notify the accrediting entity by the most expeditious means possible of any actions taken by the department with respect to certification enforcement.

67.11(7) *Notification of complainant when complaint not investigated.* The department will notify the complainant if the department does not investigate a complaint, including the reasons for not investigating the complaint.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.12(17A,231B,231C,231D,85GA,HF2365) Exit interview, final report, plan of correction.

67.12(1) *Exit interview.* The department will provide an exit interview pursuant to Iowa Code sections 231B.8 and 231C.8.

67.12(2) *Final report.* The department will issue the final report pursuant to Iowa Code sections 231B.8(2) and 231C.8(2).

67.12(3) *Plan of correction.* Within ten working days following receipt of the final report, the program shall submit a plan of correction to the department, which shall include:

a. Elements detailing how the program will correct each regulatory insufficiency, including at the system level;

b. The date by which the regulatory insufficiency will be corrected not to exceed 30 days from receipt of the final report without approval of the department;

c. What measures will be taken to ensure the problem does not recur;

d. How the program plans to monitor performance to ensure compliance; and

e. Any other required information.

The department will review the plan of correction and may request additional information or suggest revisions to the plan.

67.12(4) *Monitoring revisit.* The department may conduct a monitoring revisit to ensure that the plan of correction has been implemented and the regulatory insufficiency has been corrected.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.13(17A,231B,231C,231D,85GA,HF2365) Response to final report. The program shall respond pursuant to Iowa Code sections 231B.9A, 231C.9A, and 231D.9A in the following manner.

67.13(1) *If not contesting.* If the program does not seek an informal conference or contest the final report and civil penalty, if assessed, the program shall remit to the department the amount of the civil penalty, if assessed. If a program has been assessed a civil penalty, the civil penalty will be reduced by 35 percent if the requirements of subrule 67.16(5) are met.

67.13(2) *Informal conference.*

a. Request for informal conference. The request for an informal conference must be in writing and include the following:

(1) Identification of the regulatory insufficiency(ies) being disputed;

(2) The type of informal conference requested: virtual or telephone conference;

(3) A request for monitor's notes for the regulatory insufficiency(ies) being disputed, if desired.

b. Submission of documentation. The program will submit the following within ten working days from the date of the program's written request for an informal conference:

(1) The names of those who will be attending the informal conference, including legal counsel;

(2) Documentation supporting the program's position. The program will highlight or use some other means to identify written information pertinent to the disputed regulatory insufficiency(ies). Supporting documentation that is not submitted with the request for an informal conference will not be considered, except as otherwise permitted by the independent reviewer upon good cause shown. "Good cause" means substantial or adequate grounds for failing to submit documentation in a timely manner. In determining whether the program has shown good cause, the independent reviewer shall consider what circumstances kept the program from submitting the supporting documentation within the required time frame.

c. Virtual or telephone conference. A virtual or telephone conference, if requested, will be scheduled to occur within ten working days of the receipt of the written request, all supporting documentation and the plan of correction required by subrule 67.12(3).

(1) Failure to submit supporting documentation will not delay scheduling.

(2) The conference will be scheduled for one hour. The program will informally present information and explanation concerning the contested regulatory insufficiency(ies). The department will have time to respond to the program's presentation. Due to the confidential nature of the conference, attendance may be limited.

(3) If additional information is requested by the independent reviewer during the informal conference, the program will have two working days to deliver the additional materials to the independent reviewer.

(4) When extenuating circumstances exist, the program may be given one opportunity to reschedule.

d. Results. The results of the informal conference will generally be sent within ten working days after the date of the informal conference or within ten working days after the receipt of additional information, if requested.

(1) The department will issue an amended (changes in factual content) or corrected (changes in typographical/data errors) final report if changes result from the informal conference.

(2) The program must submit to the department a new plan of correction for the amended or corrected report within ten calendar days from the date of the letter conveying the results of the conference.

(3) If the informal conference results in dismissal of a regulatory insufficiency for which a civil penalty was assessed, the corresponding civil penalty will be rescinded.

67.13(3) *Procedure after informal conference.* After the conclusion of an informal conference:

a. If the program does not desire to further contest an affirmed or modified final report, the program shall, within five working days after receipt of the written decision of the independent reviewer, remit to the department the civil penalty, if assessed.

b. If the program does desire to further contest an affirmed or modified final report, the program shall, within five working days after receipt of the written decision of the independent reviewer, notify the department in writing that it desires to formally contest the final report.

67.13(4) *Contested case hearings.* Contested case hearings shall be conducted by the department's administrative hearings division pursuant to Iowa Code chapter 17A and 7—Chapter 2506.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 8/5/26]

481—67.14(17A,231B,231C,231D) Denial, suspension or revocation of a certificate.

67.14(1) *Notice and request for hearing.* The denial, suspension or revocation of a certificate shall be effected by delivering to the applicant or certificate holder by restricted certified mail or by personal service a notice setting forth the particular reasons for such actions. A denial, suspension or revocation shall be effective 30 days after certified mailing or personal service of the notice, unless the applicant or certificate holder gives the department written notice requesting a hearing within the 30-day period. If a timely request for hearing is made, the notice shall be deemed suspended pending the outcome of the hearing unless subrule 67.14(3) or 67.14(4) applies. If an enforcement action has been implemented immediately in accordance with subrule 67.14(3) or 67.14(4), the enforcement action remains in effect regardless of a request for hearing.

67.14(2) *Hearings.* Hearings shall be conducted by the administrative hearings division of the department pursuant to Iowa Code chapter 17A and 7—Chapter 2506.

67.14(3) *Immediate suspension of a certificate.* When the department finds that an imminent danger to the health or safety of tenants of a program exists that requires action on an emergency basis, the department may direct removal of all tenants from the program and suspend the certificate or require additional remedies to ensure the ongoing safety of the program's tenants prior to a hearing.

67.14(4) *Immediate imposition of enforcement action.* When the department finds that an imminent danger to the health or safety of tenants exists that requires action on an emergency basis, the department may immediately impose a conditional certificate and accompanying conditions upon the program in lieu of immediate suspension of the certificate and removal of the tenants from the program if the department finds that tenants' health and safety would still be protected. The program may request a hearing, but the immediate enforcement action remains in effect regardless of the request for hearing.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 8/5/26]

481—67.15(17A,231B,231C,231D) Conditional certification.

67.15(1) *Conditional certification.* In lieu of denial, suspension or revocation of a certificate, the department may issue a conditional certificate for a period of up to one year. Notwithstanding subrule 67.14(4), a conditional certificate shall be issued only when regulatory insufficiencies pose no greater risk to tenant health or safety than the potential for causing minimal harm.

a. The department will specify the reasons for the conditional certificate in the notice issuing the conditional certificate.

b. The department may place conditions upon a certificate, such as requiring additional training; restriction of the program from accepting additional tenants for a period of time; or any other action or combination of actions deemed appropriate by the department.

c. Failure by the program to adhere to the plan of correction or conditions placed on the certificate may result in suspension or revocation of the conditional certification and further enforcement action as available under applicable requirements.

d. A program must be in substantial compliance with applicable requirements before the removal of a conditional certificate by the department. Prior to lifting a conditional certificate, the department may conduct a monitoring to verify substantial compliance.

67.15(2) *Appeal of conditional certificate.* A written request for hearing must be received by the department within 30 days after the mailing or service of notice. The conditional certificate will not be suspended pending the hearing. Hearings will be conducted by the administrative hearings division of the department pursuant to Iowa Code chapter 17A and 7—Chapter 2506.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 8/5/26]

481—67.16(17A,231B,231C,231D) Civil penalties.

67.16(1) *When civil penalties may be issued.* Civil penalties may be issued when the director finds that any of the following has occurred:

a. A program that does not comply with applicable requirements and the noncompliance results in imminent danger or a substantial probability of resultant death or physical harm to a tenant may be assessed a civil penalty of not more than $10,000.

b. A program that continues to fail or refuses to comply with applicable requirements within prescribed time frames established by the department or approved by the department in the program's plan of correction and the noncompliance has a direct relationship to the health, safety, or security of tenants may be assessed a civil penalty of not more than $5,000.

c. A program that prevents, interferes with or attempts to impede in any way any duly authorized representative of the department in the lawful enforcement of applicable requirements may be assessed a civil penalty of not more than $1,000.

d. A program that discriminates or retaliates in any way against a tenant, tenant's family, or an employee of the program who has initiated or participated in any proceeding authorized by Iowa Code chapter 231B, 231C or 231D and the corresponding administrative rules may be assessed a civil penalty of not more than $5,000.

67.16(2) *Duplicate civil penalties prohibited.* The department shall not impose duplicate civil penalties on a program for the same set of facts and circumstances.

67.16(3) *Factors in determining the amount of a civil penalty.* The department will consider the following factors when determining the amount of a civil penalty:

a. The frequency and length of time the regulatory insufficiency occurred (i.e., whether the regulatory insufficiency was an isolated or a widespread occurrence, practice, or condition);

b. The past history of the program as it relates to the nature of the regulatory insufficiency (the department will not consider more than the current certification period and the immediately previous certification period);

c. The culpability of the program as it relates to the reasons the regulatory insufficiency occurred;

d. The extent of any harm to the tenants or the effect on the health, safety, or security of the tenants that resulted from the regulatory insufficiency;

e. The relationship of the regulatory insufficiency to any other types of regulatory insufficiencies that have occurred in the program;

f. The actions of the program after the occurrence of the regulatory insufficiency, including when corrective measures, if any, were implemented and whether the program notified the director as required;

g. The accuracy and extent of records kept by the program that relate to the regulatory insufficiency, and the availability of such records to the department;

h. The rights of tenants to make informed decisions;

i. Whether the program made a good-faith effort to address a high-risk tenant's specific needs and whether the evidence substantiates this effort.

67.16(4) *Civil penalties due.* The civil penalty shall be paid to the department within 30 days following the program's receipt of the final report and demand letter. The program may appeal in accordance with rule 481—67.13(17A,231B,231C,231D,85GA,HF2365). If the program appeals, the civil penalty will be deemed suspended until the appeal is resolved.

67.16(5) *Reduction of civil penalty.* If a program has been assessed a civil penalty, the civil penalty will be reduced by 35 percent if both of the following requirements are met:

a. The program does not request a formal hearing pursuant to rule 481—67.13(17A,231B,231C,231D,85GA,HF2365) or withdraws its request for formal hearing within 30 calendar days of the date that the civil penalty was assessed; and

b. The civil penalty is paid and payment is received by the department within 30 calendar days of receipt of the final report.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.17(17A,231B,231C,231D) Judicial review. Judicial review shall be conducted pursuant to Iowa Code chapter 17A and 7—Chapter 2506.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 8/5/26]

481—67.18(135C,231B,231C,231D) Criminal, dependent adult abuse, and child abuse record checks.

67.18(1) *Definitions.* The following definitions apply for the purposes of this rule.

"Background check" or *"record check"* means criminal history, child abuse and dependent adult abuse record checks.

"Comprehensive preliminary background check" means a criminal history check of all states in which the applicant has worked or resided over the seven-year period immediately prior to applying for employment that is conducted by an approved third-party vendor.

"Direct services" means services provided through person-to-person contact. "Direct services" excludes services provided by individuals such as building contractors, repair workers, or others who are in a program for a very limited purpose, who are not in the program on a regular basis, and who do not provide any treatment or services for residents, patients, tenants, or participants of the provider.

"Employed in a program" or *"employment within a program"* means all of the following, if the provider is regulated by the state or receives any federal or state funding:

1. An employee of an assisted living program certified under Iowa Code chapter 231C, if the employee provides direct services to consumers;

2. An employee of an elder group home certified under Iowa Code chapter 231B, if the employee provides direct services to consumers;

3. An employee of an adult day services program certified under Iowa Code chapter 231D, if the employee provides direct services to consumers.

"Employee" means any individual who is paid, either by the program or any other entity (i.e., temporary agency, private duty, Medicare/Medicaid or independent contractors).

"Evaluation" means review by the department of health and human services (HHS) to determine whether a founded child abuse, dependent adult abuse or criminal conviction warrants the person's being prohibited from employment in a program.

"Indirect services" means services provided without person-to-person contact such as those provided by administration, dietary, laundry, and maintenance.

"Program," for purposes of this rule, means the following, if the provider is regulated by the state or receives any federal or state funding:

1. An assisted living program certified under Iowa Code chapter 231C;
2. An elder group home certified under Iowa Code chapter 231B;
3. An adult day services program certified under Iowa Code chapter 231D.

67.18(2) *Explanation of "crime."* For purposes of this rule, the term "crime" does not include offenses under Iowa Code chapter 321 classified as simple misdemeanor or equivalent simple misdemeanor offenses from another jurisdiction.

67.18(3) *Requirements for employer prior to employing an individual.* Prior to employment of a person in a program, the program shall complete the background check requirements set forth below.

a. Informing the prospective employee. A program will ask each person seeking employment by the program, "Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime other than a simple misdemeanor offense relating to motor vehicles and laws of the road under Iowa Code chapter 321 or equivalent provisions in this state or any other state?" The person will be informed that a background check will be conducted and sign an acknowledgment.

b. Conducting a background check. The program will either request that the department of public safety perform a criminal history check and that HHS perform child and dependent adult abuse record checks of the person in this state or access the single contact repository (SING) to perform the required background check. If SING is used, the program will submit the person's maiden name, if applicable, with the background check request.

c. If a person considered for employment has been convicted of a crime under the law of any state. The program will request that HHS perform an evaluation to determine whether the crime warrants prohibition of the person's employment in the program.

d. If a person considered for employment has a record of founded child abuse or dependent adult abuse under the laws of any state. The program will request that HHS perform an evaluation to determine whether the founded child or dependent adult abuse warrants prohibition of employment in the program.

e. Employment pending evaluation. The program may provisionally employ a person prior to completion of the required record check and evaluation by HHS, as applicable, subject to all of the following:

(1) The program shall have accessed SING to perform the required record check and be awaiting results from SING or awaiting evaluation by HHS, as applicable;

(2) If applicable, the program shall request an evaluation by HHS in accordance with paragraph 67.18(3)*"c"* or *"d"* within 30 days of receipt of SING record check results;

(3) The program shall have utilized an approved third-party vendor to perform a comprehensive preliminary background check;

(4) If the comprehensive preliminary background check determines that the person being considered for employment has been convicted of a crime, the crime does not constitute a felony as defined in Iowa Code section 701.7 and is not a crime specified pursuant to Iowa Code chapter 708, 708A, 709, 709A, 710, 710A, 711, or 712 or pursuant to Iowa Code section 726.3, 726.7, or 726.8;

(5) The comprehensive preliminary background check shall have determined that the person being considered for employment does not have a record of founded child abuse or dependent adult abuse, or if the comprehensive preliminary background check determines the person being considered for employment does have a record of founded child abuse or dependent adult abuse, subrule 67.18(8) is applicable;

(6) The provisional employment may continue until such time as the required record check through SING and evaluation by HHS, as applicable, are completed.

67.18(4) *Validity of background check results.* The results of a background check conducted pursuant to this rule shall be valid for a period of 30 calendar days from the date the results of the background check are received by the program.

67.18(5) *Employment prohibition.* Except as provided in paragraph 67.18(3)*"e,"* a person who has committed a crime or has a record of founded child or dependent adult abuse shall not be employed in a program unless an evaluation has been performed by HHS.

67.18(6) *Transfer of an employee to another program owned or operated by the same person without a lapse in employment.* The program is not required to request additional criminal and child and dependent adult abuse record checks of that employee.

67.18(7) *Transfer of ownership of a program.* At the time of transfer of ownership of a program, the background check required by this rule will be performed for each employee for whom there is no documentation that such background check has been performed. The program may continue to employ such employee pending the performance of the background check and any related evaluation.

67.18(8) *Change of employment—person with criminal or abuse record—exception to record check evaluation requirements.* A person with a criminal or abuse record who is or was employed by a certified program and is hired by another certified program shall be subject to the background check.

a. A reevaluation of the latest record check is not required, and the person may commence employment with the other certified program if the following requirements are met:

(1) HHS previously performed an evaluation concerning the person's criminal or abuse record and concluded the record did not warrant prohibition of the person's employment;

(2) The latest background check does not indicate a crime was committed or founded abuse record was entered subsequent to the prior evaluation;

(3) The position with the subsequent employer is substantially the same or has the same job responsibilities as the position for which the previous evaluation was performed;

(4) Any restrictions placed on the person's employment in the previous evaluation by HHS and still applicable remain applicable in the person's subsequent employment;

(5) The person subject to the background check has maintained a copy of the previous evaluation and provided it to the subsequent employer, or the previous employer provides the previous evaluation from the person's personnel file pursuant to the person's authorization. If a physical copy of the previous evaluation is not provided to the subsequent employer, a current record check evaluation will be performed.

b. For purposes of this subrule, a position is "substantially the same or has the same job responsibilities" if the position requires the same certification, licensure, or advanced training. For example, a licensed nurse has substantially the same or the same job responsibilities as a director of nursing; a certified nurse aide does not have substantially the same or the same job responsibilities as a licensed nurse.

c. The subsequent employer must maintain the previous evaluation in the employee's personnel file for verification of the exception to the requirement for a record check evaluation.

d. The subsequent employer may request a reevaluation of the background check and may employ the person while the reevaluation is being performed, even though an exemption under paragraph 67.18(8) *"a"* may be authorized.

67.18(9) *Employee notification of criminal convictions or founded abuse after employment.* If a person employed by an employer that is subject to this rule is convicted of a crime or has a record of founded child or dependent adult abuse entered in the abuse registry after the person's employment application date, the person shall inform the employer of such information within 48 hours of the criminal conviction or entry of the record of founded child or dependent adult abuse.

a. The employer shall act to verify the information within seven calendar days of notification. "Verify," for purposes of this subrule, means to access SING to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from HHS, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the program shall follow the requirements of paragraphs 67.18(3)*"c"* and *"d."*

c. The employer may continue to employ the person pending the performance of an evaluation by HHS.

d. A person who is required by this subrule to inform the person's employer of a conviction or entry of an abuse record and fails to do so within the required period commits a serious misdemeanor under Iowa Code section 135C.33.

e. The employer may notify the county attorney for the county where the employer is located of any violation or failure by an employee to notify the employer of a criminal conviction or entry of an abuse record within the period required under this subrule.

67.18(10) *Program receipt of credible information that an employee has been convicted of a crime or founded for abuse.* If the program receives credible information, as determined by the program, from someone other than the employee, that the employee has been convicted of a crime or a record of founded child or dependent adult abuse has been entered in the abuse registry after employment, and the employee has not informed the employer of the information within the time required by subrule 67.18(9), the program shall take the following actions:

a. The program will act to verify credible information within seven calendar days of receipt. "Verify," for purposes of this subrule, means to access SING to perform a background check, to request a criminal background check from the department of public safety, to request an abuse record check from HHS, to conduct an online search through the Iowa Courts Online website, or to contact the county clerk of court office and obtain a copy of relevant court documents.

b. If the information is verified, the program shall follow the requirements of paragraphs 67.18(3)*"c"* and *"d."*

67.18(11) *Proof of background checks for temporary employment agencies and contractors.* Proof of background checks may be kept in the files maintained by temporary employment agencies and contractors. Facilities may require temporary employment agencies and contractors to provide a copy of the result of the background checks. Copies of such results shall be made available to the department upon request.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.19(17A,231C,231D) Emergency removal of tenants. If the department determines that the health or safety of tenants is in jeopardy and the tenants need to be removed from the program, the department will use the following procedures to ensure a safe and orderly transfer.

67.19(1) The department will notify HHS, the tenant advocate, the appropriate area agency on aging, and other agencies as necessary and appropriate:

a. To alert them to the need to transfer tenants from a program;

b. To request assistance in identifying alternative programs or other appropriate settings;

c. To contact the tenants and their legal representatives or family members, if applicable, and others as appropriate, including health care professionals.

67.19(2) The department will notify the program of the immediate need to transfer tenants and of any assistance available, in coordination with the appropriate parties under subrule 67.19(1).

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.20(231C) Nursing assistant work credit.

67.20(1) A program may add an employee to the direct care worker registry by calling 515.281.4077 or by registering through the website at dia-hfd.iowa.gov.

67.20(2) A program shall complete and submit to the department a direct care worker registry application for each certified nursing assistant who works in the program. A registered nurse employed by the program shall supervise the nursing assistant. The application may be obtained by telephone at 515.281.4077 or via the website at dia-hfd.iowa.gov.

67.20(3) A program shall complete and submit to the department a direct care worker registry quarterly employment report whenever a change in the employment of a certified nursing assistant occurs. The report form may be obtained by telephone at 515.281.4077 or via the website at dia-hfd.iowa.gov.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

481—67.21(231B,231C,231D) Public or confidential information.

67.21(1) *Public information.*

a. Public disclosure of findings. The program shall provide copies of the final report resulting from a monitoring in a prominent public place. Copies are available upon request from the Department of Inspections, Appeals, and Licensing, Adult Services Bureau, 6200 Park Avenue, Des Moines, Iowa 50323; by telephone at 515.281.6325; or via the website at dia-hfd.iowa.gov.

b. Open records. The following records are open records available for inspection:

(1) Certification applications, certification status, and accompanying materials;

(2) Final findings of state monitorings, including a monitoring that results from a complaint or program-reported incident;

(3) Reports from the fire safety bureau;

(4) Plans of correction submitted by a program;

(5) Official notices of certification sanctions, including enforcement actions;

(6) Findings of fact, conclusions of law, decisions and orders issued pursuant to rules 481—67.10(17A,231B,231C,231D) and 481—67.12(17A,231B,231C,231D,85GA,HF2365);

(7) Waivers, including the department's approval and denial letter and any letter requesting the waiver.

67.21(2) *Confidential information.* Confidential information includes the following:

a. Information that does not comprise a final report resulting from a monitoring, complaint investigation, or program-reported incident investigation. Information that does not comprise a final report may be made public in a legal proceeding concerning a denial, suspension or revocation of certification;

b. Names of all complainants;

c. Names of tenants of a program, identifying medical information, copies of documentation appointing a legal representative, and the address of anyone other than an owner or operator;

d. Social security numbers or employer identification numbers (EIN).

67.21(3) *Redaction of confidential information.* If a record normally open for inspection contains confidential information, the confidential information shall be redacted before the records are provided for inspection.

[**ARC 0063D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapters 231B, 231C, and 231D.

[Editorial change: IAC Supplement 8/5/26]

CHAPTER 68
ELDER GROUP HOMES

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—68.1(231B) Definitions. In addition to the definitions in 481—Chapter 67 and Iowa Code chapter 231B, the following definitions apply:

"Applicable requirements" means the requirements in Iowa Code chapter 231B, this chapter and 481—Chapter 67 and any other applicable administrative rules and provisions of the Iowa Code.

"Household occupant" means a tenant and all others who reside in an elder group home (EGH).

"Maximal assistance with activities of daily living" means routine total dependence on staff for the performance of a minimum of four activities of daily living for a period that exceeds 21 days.

"Medically unstable" means that a tenant has a condition or conditions:

1. Indicating physiological frailty as determined by the program's staff in consultation with a physician or physician extender;
2. Resulting in two or more significant hospitalizations within a consecutive three-month period for more than observation; and
3. Requiring supervision by a registered nurse more than once a week of the tenant for more than 21 days.

"On-site manager" means the person on duty responsible for direct supervision or provision of tenant care. The on-site manager may be any household occupant over 18 years of age, except a tenant, who is qualified to perform the necessary duties.

"Personal care provider" means an individual who, in return for remuneration, assists with the essential activities of daily living that the tenant can perform personally only with difficulty.

"Program" means an elder group home.

"Unmanageable incontinence" means a condition that requires staff provision of total care for an incontinent tenant who lacks the ability to assist in bladder or bowel continence care.

"Usable floor space" means open floor space that is not under fixtures, furniture or other barriers and is available for walking or wheelchair use.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.2(231B) Program certification and posting requirements.

68.2(1) *Certification.* A program may obtain certification by meeting all applicable requirements.

68.2(2) *Posting requirements.* A program's current certificate shall be visibly displayed within the designated operation area of the program. The latest monitoring report, fire safety bureau report, and food establishment inspections report issued pursuant to Iowa Code chapter 137F shall be made available to the public by the program upon request.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.3(231B) Certification—application process.

68.3(1) The applicant shall complete an application packet obtained from the department health facilities division website at dia-hfd.iowa.gov; by mail from the Department of Inspections, Appeals, and Licensing, Adult Services Bureau, 6200 Park Avenue, Des Moines, Iowa 50321; or by telephone at 515.281.7272.

68.3(2) The applicant shall submit one copy of the completed application and all supporting documentation to the department at least 30 calendar days prior to the expected date of beginning operation.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.4(231B) Certification—application content. An application for certification or recertification of an EGH shall include the following:

68.4(1) The names, addresses, and percentage of stock, shares, partnership or other equity interest of all officers, members of the board of directors and trustees, as well as stockholders, partners or any individuals who have greater than a 10 percent equity interest in each of the following, as applicable:

a. The real estate owner or lessor;

b. The lessee;

c. The management company responsible for the day-to-day operation of the program.

The program will notify the department of any changes in the list no later than ten working days after the effective date of the change.

68.4(2) A statement disclosing whether the individuals listed in subrule 68.4(1) have been convicted of a felony or an aggravated or serious misdemeanor or found to be in violation of the child abuse or dependent adult abuse laws of any state.

68.4(3) A statement disclosing whether any of the individuals listed in subrule 68.4(1) meet the criteria set out in Iowa Code section 231B.10(1)*"g,"* including for a licensed health care facility as defined in Iowa Code section 135C.1 or licensed hospital as defined in Iowa Code section 135B.1.

68.4(4) Reserved.

68.4(5) The tenant occupancy agreement and all attachments.

68.4(6) If the program contracts for personal care or health-related care services from a certified home health agency, a mental health center or a licensed health care facility, a copy of that entity's current license or certification.

68.4(7) A copy of the state license for the entity that provides food service, whether the entity is the program or an outside entity or a combination of both.

68.4(8) The fee set forth in Iowa Code section 231B.17.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.5(231B) Initial certification process.

68.5(1) Upon receipt of all completed documentation, including fire safety bureau approval and structural and evacuation review approval, the department will determine whether or not the proposed program meets applicable requirements.

68.5(2) If the department determines the proposed program meets the requirements for certification, a provisional certification will be issued to the program to begin operation and accept tenants.

68.5(3) Within 180 calendar days following issuance of provisional certification, the department will conduct a monitoring to determine the program's compliance with applicable requirements.

68.5(4) If a regulatory insufficiency is identified as a result of the monitoring, the process in rule 481—67.10(17A,231B,231C,231D) will be followed.

68.5(5) The department will make a final certification decision based on the results of the monitoring and review of an acceptable plan of correction.

68.5(6) The department will notify the program of a final certification decision within ten working days following the finalization of the monitoring report or receipt of an acceptable plan of correction, whichever is applicable.

68.5(7) If the decision is to continue certification, the department will issue a full two-year certification effective from the date of the original provisional certification.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.6(231B) Expiration of program certification. Unless conditionally issued, suspended or revoked, certification of a program will expire at the end of the time period specified on the certificate.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.7(231B) Recertification process. To obtain recertification, a program shall:

68.7(1) Submit one copy of the completed application, including the information from rule 481—68.4(231B), associated documentation, and the recertification fee as listed in Iowa Code section 231B.17 to the department at the address stated in subrule 68.3(1) at least 90 calendar days prior to the expiration of the program's certification.

68.7(2) Submit additional documentation that each of the following has been inspected and found to be maintained in conformance with the manufacturer's recommendations and nationally recognized standards: heating system, cooling system, water heater, electrical system, plumbing, sewage system, artificial lighting, and ventilation system; and, if located on site, garbage disposal, kitchen appliances, washing machines and dryers, and elevators.
[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.8(231B) Notification of recertification.

68.8(1) The department will review the application and associated documentation and fees. If the application is incomplete, the department will contact the program to request the additional information. After all finalized documentation is received, including fire safety bureau approval, the department will determine the program's compliance with applicable requirements.

68.8(2) If the facility is in good standing, the department will issue the program a two-year certification effective from the date of the expiration of the previous certification.

68.8(3) If the decision is to deny recertification, the department shall issue a notice of denial and provide the program the opportunity for a hearing pursuant to rule 481—67.14(17A,231B,231C,231D).
[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.9(231B) Listing of all certified programs. The department will maintain a list of all certified programs, which is available online at dia-hfd.iowa.gov.
[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.10(231B) Change of ownership—notification to the department.

68.10(1) Certification, unless conditionally issued, suspended or revoked, may be transferable. If the program's certification has been conditionally issued, the department must approve a change of ownership prior to the transfer of the certification.

68.10(2) In order to transfer certification, the applicant must:

a. Meet the requirements of the rules, regulations and standards contained in Iowa Code chapter 231B and 481—Chapter 67 and this chapter;

b. At least 30 days prior to the change of ownership of the program, provide application and supporting documents to the department.

68.10(3) The department may conduct a monitoring within 90 days following a change in the program's ownership to ensure that the program complies with applicable requirements. If a regulatory insufficiency is found, the department will take any necessary enforcement action authorized by applicable requirements.
[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.11(231B) Cessation of program operation that includes seeking decertification.

68.11(1) The program shall provide, at least 90 days in advance of cessation, unless there is some type of emergency, written notification to the department and the tenant advocate of the date on which the program will cease operation.

68.11(2) At the time a program decides to cease operation, the program shall submit a plan to the department and make arrangements for the safe and orderly transfer or transition of all tenants within the 90-day period specified by subrule 68.11(1).

68.11(3) The department may conduct a monitoring during the 90-day period to ensure the safety of tenants during the transfer process or transition process.

68.11(4) When a program ceases operation, tenant advocates shall be allowed by the program to privately meet with tenants to provide education and service options.
[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.12(231B) Occupancy agreement.

68.12(1) The occupancy agreement shall be in 12-point type or larger and written in plain language using commonly understood terms that are easy for the tenant or the tenant's legal representative to understand.

68.12(2) In addition to the requirements of Iowa Code section 231B.5, the written occupancy agreement shall include the following information in the body of the agreement or in the supporting documents and attachments:

a. The telephone number for filing a complaint with the department.

b. The telephone number for the office of the tenant advocate.

c. The telephone number for reporting dependent adult abuse.

d. A copy of the program's statement on tenants' rights.

e. A statement that the program will notify the tenant at least 90 days in advance of any planned program cessation, except in cases of emergency.

f. A copy of the program's admission and transfer criteria.

68.12(3) The occupancy agreement shall be reviewed and updated as necessary to reflect any change in services or financial arrangements.

68.12(4) A copy of the occupancy agreement shall be provided to the tenant or the tenant's legal representative, if any, and a copy kept by the program.

68.12(5) A copy of the most current occupancy agreement shall be made available to the general public upon request.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.13(231B) Evaluation of tenant.

68.13(1) *Evaluation prior to occupancy.* A program shall evaluate each prospective tenant's functional, cognitive and health status prior to the tenant's signing the occupancy agreement and becoming a household occupant to determine the tenant's eligibility for the program, including whether the services needed are available. The cognitive evaluation shall utilize a scored, objective tool. When the score from the cognitive evaluation indicates moderate cognitive decline and risk, the Global Deterioration Scale shall be used at all subsequent intervals, if applicable. If the tenant subsequently returns to the tenant's mildly cognitively impaired state, the program may discontinue the GDS and revert to a scored cognitive screening tool. The evaluation shall be conducted by a health care professional, human service professional, or a licensed practical nurse via nurse delegation.

68.13(2) *Evaluation within 30 days of occupancy and with significant change.* A program shall evaluate each tenant's functional, cognitive and health status within 30 days of occupancy. A program shall evaluate each tenant's functional, cognitive and health status as needed with significant change, but not less than annually, to determine the tenant's continued eligibility for the program and to determine any changes to services needed. The evaluation shall be conducted by a health care professional, human service professional, or a licensed practical nurse via nurse delegation.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.14(231B) Criteria for admission and retention of tenants.

68.14(1) *Persons who may not be admitted or retained.* A program shall not knowingly admit or retain a tenant who:

a. Is bed-bound; or

b. Requires routine, one-person assistance with standing, transfer or evacuation; or

c. Is dangerous to self or other tenants or staff, including but not limited to a tenant who:

(1) Despite intervention chronically elopes, is sexually, verbally or physically aggressive or abusive; or

(2) Displays behavior that places another tenant at risk; or

d. Is in an acute stage of alcoholism, drug addiction, or uncontrolled mental illness; or

e. Is under the age of 18; or

f. Requires more than part-time or intermittent health-related care; or

g. Has unmanageable incontinence on a routine basis despite an individualized toileting program; or

h. Is medically unstable; or

i. Requires maximal assistance with activities of daily living; or

j. Is physically or mentally unable to immediately and without aid of another travel a normal path to safety, including the ascent and descent of stairs from the tenant's bedroom or bathroom.

68.14(2) *Disclosure of additional occupancy and transfer criteria.* A program may have additional occupancy or transfer criteria if the criteria are disclosed in the written occupancy agreement prior to the tenant's occupancy.

68.14(3) *Assistance with transfer from the program.* A program shall assist a tenant and the tenant's legal representative, if applicable, to ensure a safe and orderly transfer from the program when the tenant exceeds the program's criteria for admission and retention.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.15(231B) Involuntary transfer from the program.

68.15(1) *Program initiation of transfer.* The program shall comply with Iowa Code section 231B.6 and provide notification to the tenant advocate by certified mail and the tenant's treating physician, if any.

68.15(2) *Transfer pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more tenants are identified as exceeding the admission and retention criteria for tenants and transferred as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply:

a. Notification of the program. Within 20 working days of the monitoring or complaint or program-reported incident investigation, the department will notify the program, in writing, of the identification of any tenant who exceeds admission and retention criteria.

b. Notification of others. Each identified tenant, the tenant's legal representative, if applicable, and other providers of services to the tenant will be notified of their opportunity to provide responses within ten days of receipt of the notice, including: specific input, written comment, information, and documentation directly addressing any agreement or disagreement with the identification.

c. Program agreement with the department's finding. If the program agrees with the department's finding and the program begins involuntary transfer proceedings, the program's internal appeal process in subrule 68.15(1) will be utilized for appeals.

d. Program disagreement with the department's finding. If the program does not agree with the department's finding that the tenant exceeds admission and retention criteria, the program may collect and submit all responses to the department, within ten working days of the receipt of the notice, including those from other interested parties. In the program's response, the program will identify the tenant, list the known responses from others, and note the program's agreement or disagreement with the responses from others. Submission of a response does not eliminate the applicable requirements including submission of a plan of correction under 481—subrule 67.13(3). Other persons may also submit information directly to the department.

(1) Consideration of response. Within ten working days of receipt of the program's response for each identified tenant, the department will make a final finding regarding the continued retention of a tenant.

(2) Amending the regulatory insufficiency. If the department's determination is to amend the regulatory insufficiency based on the response, the department will modify the report of findings.

(3) Retaining regulatory insufficiency. If the department retains the regulatory insufficiency, the department will review the plan of correction in accordance with this chapter and 481—Chapter 67. The department will notify the program of the opportunity to appeal the report findings as they relate to the admission and retention decision. The department will provide to the tenant or the tenant's legal representative the contact information for the tenant advocate. A copy of the final report will be sent to the tenant advocate.

(4) Effect of the filing of an appeal. If an appeal is filed, the tenant who exceeds admission and retention criteria will be allowed to continue living in the EGH until all administrative appeals have been exhausted. Appeals filed that relate to the tenant's exceeding admission and retention criteria will be heard within 30 days of receipt, and appropriate services to meet the tenant's needs will be provided during that period of time.

(5) Request for waiver of criteria for retention of a tenant in a program. To allow a tenant to remain in the program, the program may request a waiver of criteria for retention of a tenant pursuant to rule 481—67.7(231B,231C,231D) from the department within ten working days of the receipt of the report.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.16(231B) Tenant documents.

68.16(1) Documentation for each tenant shall be maintained by the program and include:

a. An occupancy record including the tenant's name, birth date, and home address; identification numbers; date of beginning participation; name, address and telephone number of health professional(s); diagnosis; and names, addresses and telephone numbers of family members, friends or other designated people to contact in the event of illness or an emergency;

b. Application forms;

c. The initial evaluations and updates;

d. A nutritional assessment as necessary;

e. The initial individual service plan and updates;

f. Signed authorizations for permission to release medical information, photographs, or other media information as necessary;

g. A signed authorization for the tenant to receive emergency medical care as necessary;

h. A signed managed risk policy and signed managed risk consensus agreements, if any;

i. When any personal or health-related care is delegated to the program, the medical information sheet; documentation of health professionals' orders, such as those for treatment, therapy, and medication; and nurses' notes written by exception;

j. Medication lists, which will be maintained in conformance with 481—paragraph 67.5(2)*"d"*;

k. Advance health care directives as applicable;

l. A complete copy of the tenant's occupancy agreement, including any updates;

m. A written acknowledgment that the tenant or the tenant's legal representative, if applicable, has been fully informed of the tenant's rights;

n. A copy of guardianship, durable power of attorney for health care, power of attorney, or conservatorship or other documentation of a legal representative;

o. Incident reports involving the tenant, including but not limited to those related to medication errors, accidents, falls, and elopements (such reports need not be included in the tenant's medical record);

p. A copy of waivers of admission or retention criteria, if any;

q. When the tenant is unable to advocate on the tenant's own behalf or the tenant has multiple service providers, including hospice care providers, accurate documentation of the completion of routine personal or health-related care is required on task sheets. If tasks are doctor-ordered, the tasks will be part of the medication administration records (MARs);

r. Authorizations for the release of information, if any.

68.16(2) The program records relating to a tenant shall be retained for a minimum of three years after termination of service.

68.16(3) All records shall be protected from loss, damage and unauthorized use.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.17(231B) Service plans.

68.17(1) A service plan shall be developed for each tenant based on the evaluations conducted in accordance with subrules 68.13(1) and 68.13(2) and be designed to meet the specific needs of the individual tenant.

68.17(2) Prior to the tenant's signing the occupancy agreement and becoming a household occupant, a preliminary service plan shall be developed by a health care professional or human service professional in consultation with the tenant and, at the tenant's request, with other individuals identified by the tenant, and, if applicable, with the tenant's legal representative. All persons who develop the plan and the tenant or the tenant's legal representative shall sign the plan.

68.17(3) When a tenant needs personal care or health-related care, the service plan shall be updated within 30 days of the tenant's occupancy and as needed with significant change, but not less than annually. The service plan will be signed by all parties.

a. If a significant change does not exist, the program may, after nurse review, add minor discretionary changes to the service plan without a comprehensive evaluation and without obtaining signatures on the service plan.

b. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained. For example, with chronic exacerbation of a urinary tract infection, nurse review is adequate to institute the previously written evaluation and service plan.

68.17(4) The service plan shall be individualized and indicate:

a. The tenant's identified needs and preferences for assistance;

b. Any services and care to be provided pursuant to the occupancy agreement;

c. The service provider(s), if other than the program;

d. Preferences, if any, of the tenant or the tenant's legal representative for nursing facility care, if the need for nursing facility care presents itself during the elder group home occupancy.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.18(231B) Nurse review. If a tenant does not receive personal or health-related care, but an observed significant change in the tenant's condition occurs, a nurse review shall be conducted. If a tenant receives personal or health-related care, the program shall provide for a registered nurse or a licensed practical nurse via nurse delegation:

68.18(1) To monitor, at least every 90 days, or after a significant change in the tenant's condition, any tenant who receives program-administered prescription medications for adverse reactions to the medications and to make appropriate interventions or referrals, and to ensure that the prescription medication orders are current and that the prescription medications are administered consistent with such orders;

68.18(2) To ensure that health care professionals' orders are current for tenants who receive professional-directed health care from the program;

68.18(3) To assess and document the health status of each tenant, to make recommendations and referrals as appropriate, and to monitor progress relating to previous recommendations at least every 90 days and whenever there are changes in the tenant's health status;

68.18(4) To provide the program with written documentation of the activities under the service plan, as set forth in rule 481—68.17(231B), showing the time, date and signature.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.19(231B) Staffing. In addition to the general staffing requirements in rule 481—67.9(231B,231C,231D), the following requirements apply to staffing in programs:

68.19(1) The program will be staffed by an on-site manager 24 hours per day, seven days per week.

68.19(2) Personal care providers will have completed a home care aide training program that meets the requirements and criteria established in 441—Chapter 81.

68.19(3) The owner or management corporation of the program is responsible for ensuring that all personnel employed by or contracting with the program receive training appropriate to assigned tasks and target population.

68.19(4) Personal care providers and nursing staff may be employed by the program or obtained through a contract with a home health agency or other service provider. Regardless of the source, the staff must meet all applicable requirements.

68.19(5) The program will notify the department in writing within ten business days of a change in the program's manager.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.20(231B) Managed risk policy and managed risk consensus agreements. The program shall have a managed risk policy that will be provided to the tenant along with the occupancy agreement and include:

68.20(1) An acknowledgment of the shared responsibility for identifying and meeting the needs of the tenant and the process for managing risk and for upholding tenant autonomy when tenant decision making results in poor outcomes for the tenant or others;

68.20(2) A consensus-based process to address specific risk situations. Program staff and the tenant will participate in the process. The result of the consensus-based process may be a managed risk consensus

agreement that will include the signature of the tenant and all others who participated in the process and be included in the tenant's file.
[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.21(231B) Transportation. When transportation services are provided directly or under contract with the program the following shall apply:

68.21(1) The vehicle will be accessible and appropriate to the tenants who use it, with consideration for any physical disabilities and impairments.

68.21(2) Every tenant transported will have a seat in the vehicle, except for a tenant who remains in a wheelchair during transport.

68.21(3) Vehicles will have adequate seat belts and securing devices for ambulatory and wheelchair-using passengers.

68.21(4) Wheelchairs will be secured when the vehicle is in motion.

68.21(5) During loading and unloading of a tenant, the driver will be in the proximate area of the tenants in a vehicle.

68.21(6) The driver will have a valid and appropriate Iowa driver's license or commercial driver's license as required by law for the vehicle being utilized for transport, or be so licensed in another state. The driver will meet any state or federal requirements for licensure or certification for the vehicle operated.
[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.22(231B) Identification of veteran's benefit eligibility.

68.22(1) Within 30 days of a tenant's participation in an elder group home that receives reimbursement through the medical assistance program under Iowa Code chapter 249A, the program shall ask the tenant or the tenant's personal representative whether the tenant is a veteran or whether the tenant is the spouse, widow, or dependent of a veteran and document the response.

68.22(2) If the tenant may be a veteran or the spouse, widow, or dependent of a veteran, the program shall report the tenant's name along with the name of the veteran, if applicable, and the name of the contact person for this information, to the Iowa department of veterans affairs. The program may report such information to the Iowa department of health and human services.

68.22(3) If a tenant is eligible for benefits through the U.S. Department of Veterans Affairs or other third-party payor, the program first shall seek reimbursement from the identified payor source before seeking reimbursement from the medical assistance program established under Iowa Code chapter 249A.
[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.23 Reserved.

481—68.24(231B) Life safety—emergency policies and procedures and structural safety requirements.

68.24(1) The program shall submit to the department and follow written emergency policies and procedures, including the following:

a. An emergency plan, with procedures for natural disasters that is located for easy reference;
b. Fire safety procedures;
c. Other general or personal emergency procedures, including head injury protocols;
d. Provisions for amending or revising the emergency plan;
e. Provisions for periodic training of all employees;
f. Procedures for fire drills;
g. Regulations regarding smoking;
h. Procedures for monitoring and testing of smoke-control systems;
i. Tenant evacuation procedures;
j. Procedures for reporting and documentation;
k. Procedures for extraordinary lifesaving measures, such as cardiopulmonary resuscitation (CPR).

68.24(2) The program's structure and procedures and the facility in which a program is located shall meet the requirements adopted for elder group homes in administrative rules promulgated by the building

code bureau and fire safety bureau. Approval of the bureaus indicating that the building complies with these requirements is necessary for certification of a program.

68.24(3) The program shall have the means to control the maximum temperature of water at sources accessible by a tenant to prevent scalding and control the maximum water temperature for tenants with cognitive impairment or dementia or at a tenant's request.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

481—68.25(231B) Structural standards.

68.25(1) The EGH shall be safe, sanitary, well-ventilated, and properly lighted, heated, and cooled; and comply with all applicable state and local housing ordinances for family residences and with fire safety rules promulgated by the fire safety bureau.

68.25(2) In addition to meeting the requirements in subrule 68.25(1), the EGH shall meet the following standards:

a. General.

(1) The home, furnishings and fixtures will be clean, in good repair and appropriate for the tenants.

(2) Stairways will have handrails of a circumference, length, texture, strength and stability that can reasonably be expected to provide tenant support.

(3) A functioning light will be provided in each room, stairway and exit; all light bulbs will be protected from breakage or removal with appropriate covers.

(4) The yard, fire exits and exterior steps will be kept free of obstructions and accessible and appropriate to the condition of the tenants.

(5) There will be at least 150 square feet of common living space and sufficient furniture in the home to accommodate the recreational and socialization needs of all the tenants at one time; common space will not be located in the basement or garage, unless such space was constructed for that purpose. Additional common living space may be required if wheelchairs, walkers or other durable medical equipment is to be accommodated. For an EGH constructed or remodeled after July 1, 2005, there will be 300 square feet of usable floor space.

(6) Interior and exterior doorways used by tenants will be wide enough to accommodate wheelchairs and walkers if tenants with impaired mobility are in residence.

(7) Hot and cold water at each tub, shower, and sink will be in sufficient supply to meet the needs of the tenants and staff.

(8) Grab bars will be present for each toilet, tub and shower. Access to toilet and bathing facilities will be barrier-free and provide individual privacy.

(9) A telephone will be available and accessible for tenants' use in a manner that allows for privacy.

b. Safety.

(1) All combustion appliances will be used and maintained properly and inspected annually by a qualified technician for carbon monoxide emissions and any other hazards to health and safety;

(2) Extension cord wiring will not be used in place of permanent electrical fixtures or outlets.

c. Sanitation requirements.

(1) A public water supply will be utilized if available. If a nonmunicipal water source is used, the owner or on-site manager will show documentation from the state laboratory that the water supply is potable and is tested as required by the rules of the environmental protection commission of the department of natural resources.

(2) Septic tanks or other nonmunicipal wastewater disposal systems will be in good working order and comply with state and local regulations for wastewater treatment.

(3) Garbage and refuse will be suitably stored and disposed of by a sanitation company providing service in the area.

(4) If laundry service is provided, soiled linens and clothing will be stored in containers in an area separate from food storage, kitchen and dining areas.

(5) Sanitation for household pets and other domestic animals will be adequate to prevent health and safety hazards.

(6) There will be adequate control of insects and rodents.

(7) Reasonable and prudent precautions for infection control will be taken, including washing hands and exposed portions of arms with soap and hot water immediately before engaging in food preparation and meal service and before and after providing personal care.

(8) There will be at least one toilet and one sink for every four household occupants. A minimum of one sink and toilet is required on each floor occupied by tenants. A sink will be located near each toilet. For an EGH constructed or remodeled after July 1, 2005, there will be at least one toilet and one sink for every two household occupants, with a minimum of one toilet and one sink on each floor occupied by tenants.

(9) At least one tub or shower is required for each six household occupants. For an EGH constructed or remodeled after July 1, 2005, there will be at least one tub or one shower for every four household occupants.

d. Bedroom requirements.

(1) Each tenant bedroom will:

1. Have a door that opens directly to a hallway or common use area without passage through another bedroom or common bathroom;

2. Be adequately ventilated, heated, cooled and lighted;

3. Have at least 70 square feet of usable floor space, excluding any area where a sloped ceiling does not allow a person to stand upright. For an EGH constructed or remodeled after July 1, 2005, each tenant bedroom will have at least 100 square feet of usable floor space;

4. Provide individual privacy and be occupied by one tenant, unless an alternative arrangement is agreed to in the occupancy agreement by the tenant or the tenant's legal representative;

5. Be on ground level for tenants with impaired mobility;

6. Be in sufficiently close proximity to the on-site manager to ensure that tenants are able to alert the on-site manager to nighttime needs or emergencies, or be equipped with a call system.

(2) Owners, operators, on-site managers, their family members, and personal care providers will not use as bedrooms areas that are designated as living areas or as tenant bedrooms;

(3) Common living space and tenant bedrooms will not be used for storage areas.

[**ARC 0064D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapter 231B.

CHAPTER 69
ASSISTED LIVING PROGRAMS

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—69.1(231C) Definitions. In addition to the definitions in 481—Chapter 67 and Iowa Code chapter 231C, the following definitions apply:

"Applicable requirements" means the requirements in Iowa Code chapter 231C, this chapter, and 481—Chapter 67 and includes any other applicable administrative rules and provisions of the Iowa Code.

"CARF" means the Commission on Accreditation of Rehabilitation Facilities.

"Cognitive disorder" means a disorder characterized by cognitive dysfunction presumed to be the result of illness that does not meet the criteria for dementia, delirium, or amnestic disorder.

"Dementia-specific assisted living program" means an assisted living program certified under this chapter that:

1. Serves fewer than 55 tenants and has 5 or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale (GDS), or
2. Serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the GDS, or
3. Holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

"Dwelling unit" means a single unit that provides complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping and sanitation, and that may include permanent provisions for eating and cooking. "Sanitation" for purposes of this definition means bathroom fixtures as required by this chapter.

"Maximal assistance with activities of daily living" means routine total dependence on staff for the performance of a minimum of four activities of daily living for a period that exceeds 21 days.

"Medically unstable" means that a tenant has a condition or conditions:

1. Indicating physiological frailty as determined by the program's staff in consultation with a physician or physician extender;
2. Resulting in three or more significant hospitalizations within a consecutive three-month period for more than observation; and
3. Requiring frequent supervision of the tenant for more than 21 days by a registered nurse. For example, a tenant who has a condition such as congestive heart failure that results in three or more significant hospitalizations during a quarter and that requires that the tenant receive frequent supervision may be considered medically unstable.

"Unmanageable incontinence" means a condition that requires staff provision of total care for an incontinent tenant who lacks the ability to assist in bladder or bowel continence care.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.2(231C) Program certification. A program may obtain certification by meeting all applicable requirements or may be voluntarily accredited by a recognized accreditation entity.

69.2(1) *Posting requirements.* A program's current certificate shall be visibly displayed within the designated operation area of the program. The latest monitoring report, fire safety bureau report, and food establishment inspections report issued pursuant to Iowa Code chapter 137F shall be made available to the public by the program upon request.

69.2(2) *Dementia-specific programs.* If a program meets the definition of a dementia-specific assisted living program during two sequential certification monitorings, the program shall meet all requirements for a dementia-specific program, including the requirements set forth in rule 481—69.30(231C); subrules 69.29(2), 69.29(4), 69.32(2), and 69.32(3); and paragraph 69.35(1)*"d,"* within 90 days of receiving the final report from the second sequential certification monitoring. If the number of tenants served who have dementia between Stages 4 and 7 on the GDS goes below that which is required by the definition of dementia-specific program at any time after the program has been deemed dementia-specific by definition

and the program is not holding itself out as providing dementia care in a specialized setting, the program will no longer be considered dementia-specific.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.3(231C) Certification of a nonaccredited program—application process.

69.3(1) The applicant shall complete an application packet obtained from the department's health facilities division website at dia-hfd.iowa.gov; by mail from the Department of Inspections, Appeals, and Licensing, Adult Services Bureau, 6200 Park Avenue, Des Moines, Iowa 50321; or by telephone at 515.381.7272.

69.3(2) The applicant shall submit one copy of the completed application and all supporting documentation to the department at least 90 calendar days prior to the expected date of beginning operation.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.4(231C) Nonaccredited program—application content. An application for certification or recertification of a nonaccredited program shall include the following:

69.4(1) The names, addresses, and percentage of stock, shares, partnership or other equity interest of all officers, members of the board of directors and trustees, as well as stockholders, partners or any individuals who have greater than a 10 percent equity interest in each of the following, as applicable:

a. The real estate owner or lessor;

b. The lessee;

c. The management company responsible for the day-to-day operation of the program.

The program will notify the department of any changes in the list no later than ten working days after the effective date of the change.

69.4(2) A statement disclosing whether the individuals listed in subrule 69.4(1) have been convicted of a felony or an aggravated or serious misdemeanor or found to be in violation of the child abuse or dependent adult abuse laws of any state.

69.4(3) A statement disclosing whether any of the individuals listed in subrule 69.4(1) meet the criteria set out in Iowa Code section 231C.10(1)*"g,"* including for licensed health care facility as defined in Iowa Code section 135C.1 or licensed hospital as defined in Iowa Code section 135B.1.

69.4(4) The tenant occupancy agreement and all attachments.

69.4(5) If the program contracts for personal care or health-related care services from a certified home health agency, a mental health center or a licensed health care facility, a copy of that entity's current license or certification.

69.4(6) A copy of the state license for the entity that provides food service, whether the entity is the program or an outside entity or a combination of both.

69.4(7) The fee set forth in Iowa Code section 231C.18.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.5(231C) Initial certification process for a nonaccredited program.

69.5(1) Upon receipt of all completed documentation, including building code and fire safety bureau approval and structural and evacuation review approval, the department will determine whether the proposed program meets applicable requirements.

69.5(2) If the department determines the proposed program meets the requirements for certification, a provisional certification will be issued to the program to begin operation and accept tenants.

69.5(3) Within 180 calendar days following issuance of provisional certification, the department will conduct a monitoring to determine the program's compliance with applicable requirements.

69.5(4) If a regulatory insufficiency is identified as a result of the monitoring, the process in rule 481—67.10(17A,231B,231C,231D) will be followed.

69.5(5) The department will make a final certification decision based on the results of the monitoring and review of an acceptable plan of correction.

69.5(6) The department will notify the program of a final certification decision within ten working days following the finalization of the monitoring report or receipt of an acceptable plan of correction, whichever is applicable.

69.5(7) If the decision is to continue certification, the department will issue a full two-year certification effective from the date of the original provisional certification.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.6(231C) Expiration of the certification of a nonaccredited program. Unless conditionally issued, suspended or revoked, certification of a program will expire at the end of the time period specified on the certificate.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.7(231C) Recertification process for a nonaccredited program. To obtain recertification, a program shall:

69.7(1) Submit one copy of the completed application, associated documentation, and the recertification fee as listed in Iowa Code section 231C.18 to the department at least 30 calendar days prior to the expiration of the program's certification.

69.7(2) Submit additional documentation that each of the following has been inspected by a qualified professional and found to be maintained in conformance with the manufacturer's recommendations and nationally recognized standards: heating system, cooling system, water heater, electrical system, plumbing, sewage system, artificial lighting, and ventilation system and, if located on site, garbage disposal, kitchen appliances, washing machines and dryers, and elevators.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.8(231C) Notification of recertification for a nonaccredited program.

69.8(1) The department will review the application and associated documentation and fees. After all finalized documentation is received, including building code and fire safety bureau approval, the department will determine the program's compliance with applicable requirements.

69.8(2) If the facility is in good standing, the department will issue the program a two-year certification effective from the date of the expiration of the previous certification.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.9(231C) Certification or recertification of an accredited program—application process. An applicant for certification or recertification of a program accredited by a recognized accrediting entity shall:

69.9(1) Submit a completed application packet obtained from the department health facilities division website at dia-hfd.iowa.gov; by mail from the Department of Inspections, Appeals, and Licensing, Adult Services Bureau, 6200 Park Avenue, Des Moines, Iowa 50321; or by telephone at 515.281.7272.

69.9(2) Submit a copy of the current accreditation outcome from the recognized accrediting entity.

69.9(3) Maintain compliance with the building code and fire safety bureau's requirements.

69.9(4) Submit the appropriate fees as set forth in Iowa Code section 231C.18.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.10(231C) Certification or recertification of an accredited program—application content. An application for certification or recertification of an accredited program shall comply with rule 481—69.3(231C) and include a copy of the current accreditation outcome from the recognized accrediting entity.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.11(231C) Initial certification process for an accredited program.

69.11(1) Within 20 working days of receiving all finalized documentation, including building code and fire safety bureau approval, the department will notify the accredited program whether the program meets applicable requirements and whether certification will be issued.

69.11(2) If the decision is to certify, a certification will be issued for the term of the accreditation not to exceed three years unless the certification is conditionally issued, suspended or revoked by either the department or the recognized accrediting entity.

69.11(3) If the decision is to deny certification, the department will provide the applicant an opportunity for hearing in accordance with rule 481—67.13(17A,231B,231C,231D).

69.11(4) Unless conditionally issued, suspended or revoked, certification for a program will expire at the end of the time period specified on the certificate.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.12(231C) Recertification process for an accredited program.

69.12(1) To obtain recertification, an accredited program shall comply with rule 481—69.9(231C) at least 30 calendar days prior to the expiration of the program's certification.

69.12(2) If the facility is in good standing, a full certification will be issued for the term of the accreditation not to exceed three years unless the certification is conditionally issued, suspended or revoked by either the department or the recognized accrediting entity.

69.12(3) If the decision is to deny recertification, the department will provide the applicant an opportunity for hearing in accordance with rule 481—67.14(17A,231B,231C,231D).

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.13(231C) Listing of all certified programs. The department will maintain a list of all certified programs, which is available online at dia-hfd.iowa.gov.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.14(231C) Recognized accrediting entity.

69.14(1) The department designates CARF as a recognized accrediting entity for programs.

69.14(2) To apply for designation by the department as a recognized accrediting entity for programs, an entity shall submit a letter of request, and its standards shall meet the applicable requirements for programs.

69.14(3) The designation will remain in effect for as long as the accreditation standards meet the applicable requirements for programs.

69.14(4) An accrediting entity shall provide annually to the department, at no cost, a current edition of the applicable standards manual and survey preparation guide, and training thereon, within 120 working days after the publications are released.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.15(231C) Requirements for an accredited program. Each accredited program that is certified by the department shall:

69.15(1) Provide the department a copy of all survey reports, including outcomes, quality improvement plans and annual conformance to quality reports generated or received, as applicable, within ten working days of receipt of the reports.

69.15(2) Notify the department by the most expeditious means possible of all credible reports of alleged improper or inappropriate conduct or conditions within the program and any actions taken by the accrediting entity with respect thereto.

69.15(3) Notify the department immediately of the expiration, suspension, revocation or other loss of the program's accreditation.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.16(231C) Maintenance of program accreditation.

69.16(1) An accredited program will continue to be recognized for certification by the department if both of the following requirements are met:

a. The program complies with the requirements outlined in rule 481—69.15(231C).

b. The program maintains its voluntary accreditation status for the duration of the time-limited certification period.

69.16(2) A program that does not maintain its voluntary accreditation status must become certified by the department prior to any lapse in accreditation or cease operation as a program.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.17(231C) Change of ownership—notification to the department.

69.17(1) Certification, unless conditionally issued, suspended or revoked, may be transferable. If the program's certification has been conditionally issued, the department must approve a change of ownership prior to the transfer of the certification.

69.17(2) In order to transfer certification, the applicant must:

a. Meet the requirements of the rules, regulations and standards contained in Iowa Code chapter 231C and 481—Chapter 67 and this chapter;

b. At least 30 days prior to the change of ownership of the program, provide application and supporting documentation to the department.

69.17(3) The department may conduct a monitoring within 90 days following a change in the program's ownership to ensure that the program complies with applicable requirements. If a regulatory insufficiency is found, the department will take any necessary enforcement action authorized by applicable requirements.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.18(231C) Plan reviews of a building for a new program.

69.18(1) Before a building is constructed or remodeled for use in a new program, the state building code and fire safety bureau of the department shall review the construction documents and do fire inspections for compliance with requirements pursuant to this chapter. Construction or remodeling includes new construction, remodeling of any part of an existing building, addition of a new wing or floor to an existing building, or conversion of an existing building.

69.18(2) A program applicant shall submit construction documents to the building code bureau's online portal at dial.iowa.gov/licenses/building/plan-review.

69.18(3) The plan review fee must be paid before construction documents are uploaded to the project folder.

69.18(4) The building code bureau of the department will notify the Iowa-licensed architect or Iowa-licensed engineer in writing regarding the status of compliance with requirements.

69.18(5) The Iowa-licensed architect or Iowa-licensed engineer shall respond to the building code bureau regarding how any noncompliance will be resolved.

69.18(6) Upon final notification by the building code bureau that the construction documents meet the bureau's requirements, construction or remodeling of the building may commence.

69.18(7) The fire safety bureau will schedule an on-site visit of the building site with the contractor, or Iowa-licensed architect or Iowa-licensed engineer, during the construction or remodeling process to ensure compliance with the approved construction documents. Any noncompliance must be resolved prior to approval for certification.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.19(231C) Plan review prior to the remodeling of a building for a certified program.

69.19(1) Before a building for a certified program is remodeled as defined in subrule 69.18(1), the building code bureau will review the construction documents for compliance with requirements set forth in rule 481—69.35(231C).

69.19(2) A certified program shall submit construction documents to the building code bureau's online portal at dial.iowa.gov/licenses/building/plan-review.

69.19(3) The plan review fee must be paid before construction documents are uploaded to the project folder.

69.19(4) Upon final notification by the building code bureau that the construction documents meet structural and life safety requirements, remodeling of the building may commence.

69.19(5) The building code and fire safety bureaus shall schedule an on-site visit of the building with the contractor, or Iowa-licensed architect or Iowa-licensed engineer, during the remodeling process to

ensure compliance with the approved construction documents. Any noncompliance must be resolved prior to approval for continued certification or recertification of the program.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.20(231C) Cessation of program operation that includes seeking decertification.

69.20(1) At least 90 days in advance of cessation, the program shall provide to the department and the office of long-term care ombudsman written notification of the date on which the program will cease operation or decertify.

69.20(2) At the time a program decides to cease operation, the program shall submit a plan to the department and make arrangements for the safe and orderly transfer or transition of all tenants within the 90-day period specified by subrule 69.20(1).

69.20(3) The department may conduct a monitoring during the 90-day period to ensure the safety of tenants during the transfer process or transition process.

69.20(4) When a program ceases operation, representatives from the office of long-term care ombudsman shall be allowed by the program to privately meet with tenants to provide education and service options.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.21(231C) Occupancy agreement.

69.21(1) The occupancy agreement shall be in 12-point type or larger, written in plain language using commonly understood terms and be easy for the tenant or the tenant's legal representative to understand.

69.21(2) In addition to the requirements of Iowa Code section 231C.5, the written occupancy agreement shall include the following information in the body of the agreement or in the supporting documents and attachments:

a. The telephone number for filing a complaint with the department.

b. The telephone number for the office of long-term care ombudsman.

c. The telephone number for reporting dependent adult abuse.

d. A copy of the program's statement on tenants' rights.

e. A statement that the tenant landlord law applies to assisted living programs.

f. A statement that the program will notify the tenant at least 90 days in advance of any planned program cessation, except in cases of emergency.

69.21(3) The occupancy agreement shall be reviewed and updated as necessary to reflect any change in services or financial arrangements.

69.21(4) A copy of the occupancy agreement shall be provided to the tenant or the tenant's legal representative, if any, and a copy kept by the program.

69.21(5) A copy of the most current occupancy agreement shall be made available to the general public upon request.
[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.22(231C) Evaluation of tenant.

69.22(1) *Evaluation prior to occupancy.* A program shall evaluate each prospective tenant's functional, cognitive and health status prior to the tenant's signing the occupancy agreement and taking occupancy of a dwelling unit in order to determine the tenant's eligibility for the program, including whether the services needed are available. The cognitive evaluation shall utilize a scored, objective tool. When the score from the cognitive evaluation indicates moderate cognitive decline and risk, the GDS shall be used at all subsequent intervals, if applicable. If the tenant subsequently returns to the tenant's mildly cognitively impaired state, the program may discontinue the GDS and revert to a scored cognitive screening tool. The evaluation shall be conducted by a health care professional, a human service professional, or a licensed practical nurse via nurse delegation.

69.22(2) *Evaluation within 30 days of occupancy.* A program shall evaluate each tenant's functional, cognitive and health status within 30 days of occupancy. The evaluation shall be conducted by a health care professional, a human service professional, or a licensed practical nurse via nurse delegation.

69.22(3) *Evaluation annually and with significant change.* A program shall evaluate each tenant's functional, cognitive and health status as needed with significant change, but not less than annually, to determine the tenant's continued eligibility for the program and to determine any changes to services needed. The evaluation shall be conducted by a health care professional, a human service professional, or a licensed practical nurse via nurse delegation.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.23(231C) Criteria for admission and retention of tenants.

69.23(1) *Persons who may not be admitted or retained.* A program shall not knowingly admit or retain a tenant who:

a. Is bed-bound; or

b. Requires routine, two-person assistance with standing, transfer or evacuation; or

c. Is dangerous to self or other tenants or staff, including but not limited to a tenant who:

(1) Despite intervention, chronically elopes or is sexually, verbally, or physically aggressive or abusive; or

(2) Displays behavior that places another tenant at risk; or

d. Is in an acute stage of alcoholism, drug addiction, or uncontrolled mental illness; or

e. Is under the age of 18; or

f. Requires more than part-time or intermittent health-related care; or

g. Has unmanageable incontinence on a routine basis despite an individualized toileting program; or

h. Is medically unstable; or

i. Requires maximal assistance with activities of daily living; or

j. Despite intervention, chronically urinates or defecates in places that are not considered acceptable according to societal norms.

69.23(2) *Disclosure of additional occupancy and transfer criteria.* A program may have additional occupancy or transfer criteria if the criteria are disclosed in the written occupancy agreement prior to the tenant's occupancy.

69.23(3) *Assistance with transfer from the program.* A program shall assist a tenant and the tenant's legal representative, if applicable, to ensure a safe and orderly transfer from the program when the tenant exceeds the program's criteria for admission and retention.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.24(231C) Involuntary transfer from the program.

69.24(1) *Program initiation of transfer.* The program shall comply with Iowa Code section 231C.6 and the following:

a. The program will provide the tenant, or the tenant's legal representative, the contact information for the office of long-term care ombudsman.

b. The program will immediately provide to the office of long-term care ombudsman, by mail or email, a copy of the notification and notify the tenant's treating physician, if any.

c. Pursuant to statute, the office of long-term care ombudsman will offer the notified tenant or tenant's legal representative assistance with the program's internal appeal process.

69.24(2) *Transfer pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more tenants are identified as exceeding the admission and retention criteria for tenants and need to be transferred as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply.

a. Program agreement with the department's finding. If the program agrees with the department's finding and the program begins involuntary transfer proceedings, the program's internal appeal process in subrule 69.24(1) will be utilized for appeals.

b. Program disagreement with the department's finding. If the program does not agree with the department's finding that the tenant exceeds admission and retention criteria, the program may appeal the department's final report as provided in rule 481—67.14(17A,231B,231C,231D,85GA,HF2365). If an appeal is filed, the tenant who exceeds admission and retention criteria will be allowed to continue living at the program until all administrative appeals have been exhausted. Appeals filed that relate to the tenant's

exceeding admission and retention criteria will be heard within 30 days of receipt, and appropriate services to meet the tenant's needs will be provided during that period of time.

c. Request for waiver of criteria for retention of a tenant in a program. To allow a tenant to remain in the program, the program may request a waiver of criteria for retention of a tenant pursuant to rule 481—67.7(231B,231C,231D) from the department within ten working days of the receipt of the report.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.25(231C) Tenant documents.

69.25(1) Documentation for each tenant shall be maintained by the program and include:

a. An occupancy record, including the tenant's name, birth date, and home address; identification numbers; date of occupancy; name, address and telephone number of health professional(s); diagnosis; and names, addresses and telephone numbers of family members, friends or other designated people to contact in the event of illness or an emergency;

b. Application forms;

c. The initial evaluations and updates;

d. A nutritional assessment as necessary;

e. The initial individual service plan and updates;

f. Signed authorizations for permission to release medical information, photographs, or other media information as necessary;

g. A signed authorization for the tenant to receive emergency medical care as necessary;

h. A signed managed risk policy and signed managed risk consensus agreements, if any;

i. When any personal or health-related care is delegated to the program, the medical information sheet; documentation of health professionals' orders, such as those for treatment, therapy, and medication; and nurses' notes written by exception;

j. Medication lists, which will be maintained in conformance with 481—paragraph 67.5(2)*"d"*;

k. Advance health care directives as applicable;

l. A complete copy of the tenant's occupancy agreement, including any updates;

m. A written acknowledgment that the tenant or the tenant's legal representative, if applicable, has been fully informed of the tenant's rights;

n. A copy of guardianship, durable power of attorney for health care, power of attorney, or conservatorship or other documentation of a legal representative;

o. Incident reports involving the tenant, including but not limited to those related to medication errors, accidents, falls, and elopements (such reports need not be included in the tenant's medical record);

p. A copy of waivers of admission or retention criteria, if any;

q. When the tenant is unable to advocate on the tenant's own behalf or the tenant has multiple service providers, including hospice care providers, accurate documentation of the completion of routine personal or health-related care is required on task sheets. If tasks are doctor-ordered, the tasks will be part of the medication administration records (MARs);

r. Authorizations for the release of information, if any.

69.25(2) The program records relating to a tenant shall be retained for a minimum of three years after termination of services.

69.25(3) All records shall be protected from loss, damage and unauthorized use.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.26(231C) Service plans.

69.26(1) A service plan shall be developed for each tenant based on the evaluations conducted in accordance with rule 481—69.22(231C) and be designed to meet the specific needs of the individual tenant.

69.26(2) Prior to the tenant's signing the occupancy agreement and taking occupancy of a dwelling unit, a preliminary service plan shall be developed by a health care professional or human service professional in consultation with the tenant and, at the tenant's request, with other individuals identified by the tenant, and, if applicable, with the tenant's legal representative. All persons who develop the plan and the tenant or the tenant's legal representative shall sign the plan.

69.26(3) When a tenant needs personal care or health-related care, the service plan shall be updated within 30 days of the tenant's occupancy and as needed with significant change, but not less than annually. The service plan shall be signed by all parties, including the tenant or tenant's legal representative.

a. If a significant change does not exist, the program may, after nurse review, add minor discretionary changes to the service plan without a comprehensive evaluation and without obtaining signatures on the service plan.

b. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained.

69.26(4) The service plan shall be individualized and indicate:

a. The tenant's identified needs and preferences for assistance;

b. Any services and care to be provided pursuant to the occupancy agreement;

c. The service provider(s), if other than the program;

d. For tenants who are unable to plan their own activities, including tenants with dementia, a list of person-centered planned and spontaneous activities based on the tenant's abilities and personal interests;

e. Preferences, if any, of the tenant or the tenant's legal representative for nursing facility care, if the need for nursing facility care presents itself during the assisted living program occupancy.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.27(231C) Nurse review.

69.27(1) If a tenant does not receive personal or health-related care but an observed significant change in the tenant's condition occurs, a nurse review shall be conducted.

69.27(2) If a tenant receives personal or health-related care, the program shall provide for a registered nurse or a licensed practical nurse via nurse delegation:

a. To monitor, at least every 90 days, or after a significant change in the tenant's condition, any tenant who receives program-administered prescription medications for adverse reactions to the medications and to make appropriate interventions or referrals, and to ensure that the prescription medication orders are current and that the prescription medications are administered consistent with such orders;

b. To ensure that health care professionals' orders are current for tenants who receive professional-directed health care from the program;

c. To assess and document the health status of each tenant, to make recommendations and referrals as appropriate, and to monitor progress relating to previous recommendations at least every 90 days and whenever there are changes in the tenant's health status;

d. To provide the program with written documentation of the nurse review, showing the time, date and signature.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.28(231C) Food service.

69.28(1) The program shall provide or coordinate with other community providers to provide a hot or other appropriate meal(s) at least once a day or arrange for the availability of meals.

69.28(2) Meals and snacks provided by the program but not prepared on site shall be obtained from or provided by an entity that meets the standards of state and local health laws and ordinances concerning the preparation and serving of food.

69.28(3) Menus shall be planned to provide the following percentage of the daily recommended dietary allowances as established by the Food and Nutrition Board of the National Research Council of the National Academy of Sciences based on the number of meals provided by the program:

a. A minimum of 33⅓ percent if the program provides one meal per day;

b. A minimum of 66⅔ percent if the program provides two meals per day; and

c. One hundred percent if the program provides three meals per day.

69.28(4) Therapeutic diets may be provided by a program. If therapeutic diets are provided, they shall be prescribed by a physician, physician associate, advanced registered nurse practitioner or ordered by a licensed dietitian authorized by a qualified medical provider. A therapeutic diet provides food, fluids or nutrients by oral, enteral, or parenteral routes and is used in the treatment of a disease or clinical

condition to modify, eliminate, decrease or increase specific macro- or micronutrients, or to provide mechanically altered food when medically indicated. The thirteenth edition of the Iowa Simplified Diet Manual published by the Iowa dietetic association shall be available and used in the planning and serving of therapeutic diets. A licensed dietitian shall be responsible for writing and approving the therapeutic menu and for reviewing procedures for food preparation and service for therapeutic diets.

69.28(5) Personnel who are employed by or contract with the program and who are responsible for food preparation or service, or both food preparation and service, shall have an orientation on sanitation and safe food handling prior to handling food and have annual in-service training on food protection.

a. In addition to the requirements above, a minimum of one person directly responsible for food preparation shall have successfully completed a state-approved food protection program by:

(1) Obtaining certification as a dietary manager; or

(2) Obtaining certification as a food protection professional; or

(3) Successfully completing an ANSI-accredited certified food protection manager program meeting the requirements for a food protection program included in the Food Code adopted pursuant to Iowa Code chapter 137F. Another program may be substituted if the program's curriculum includes substantially similar competencies to a program that meets the requirements of the Food Code and the provider of the program files with the department a statement indicating that the program provides substantially similar instruction as it relates to sanitation and safe food handling.

b. If the person is in the process of completing a course or certification listed in paragraph 69.28(5) *"a,"* the requirement relating to completion of a state-approved food protection program will be considered to have been met.

69.28(6) Programs engaged in the preparation and service of meals and snacks shall meet the standards of state and local health laws and ordinances pertaining to the preparation and service of food and be licensed pursuant to Iowa Code chapter 137F. The department will not require the program to be licensed as a food establishment if the program limits food activities to the following:

a. All main meals and planned menu items will be prepared offsite and transferred to the program kitchen for service to tenants.

b. Baked goods that do not require temperature control for safety and single-service juice or milk may be stored in the program's kitchen and provided as part of a continental breakfast.

c. Ingredients used for food-related activities with tenants may be stored in the program's kitchen. Tenant activities may include the preparation and cooking of food items in the program's kitchen if the activity occurs on an irregular or sporadic basis and the items prepared are not part of the program's menu.

d. Appropriately trained staff may prepare in the program's kitchen individual quantities of tenant-requested menu-substitution food items that require limited or no preparation, such as peanut butter or cheese sandwiches or a single-service can of soup. The food items necessary to prepare the menu substitution may be stored in the program's kitchen. These food items may not be cooked in the program's kitchen but may be reheated in a microwave. A two- or four-slice toaster may be used for tenant-requested menu-substitution items, but there will be no bare-hand contact.

e. Tenants may take food items left over from a meal back to their apartments, but no leftovers will be stored in the program's kitchen.

f. Warewashing may be done in the program's kitchen as long as the program utilizes a commercial dishwasher and documents daily testing of sanitizer chemical ppm and proper water temperatures. Verification by the department of these practices may be conducted during on-site visits.

69.28(7) All perishable or potentially hazardous food shall be cooked to recommended temperatures and held at safe temperatures of 41°F (5°C) or below, or 135°F (57°C) or above.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 6/10/26]

481—69.29(231C) Staffing. In addition to the general staffing requirements in rule 481—67.9(231B,231C,231D), the following requirements apply to staffing in programs.

69.29(1) Each tenant will have access to a 24-hour personal emergency response system that automatically identifies the tenant in distress and can be activated with one touch.

69.29(2) In lieu of providing access to a personal emergency response system, a program serving one or more tenants with cognitive disorder or dementia will follow a system, program, or written staff procedures that address how the program will respond to the emergency needs of the tenant(s).

69.29(3) The owner or management corporation of the program is responsible for ensuring that all personnel employed by or contracting with the program receive training appropriate to assigned tasks and the target population.

69.29(4) A dementia-specific assisted living program will have one or more staff persons who monitor tenants as indicated in each tenant's service plan. The staff will be awake and on duty 24 hours a day on site and in the proximate area.

A non-dementia-specific assisted living program will have one or more staff persons who monitor tenants as indicated in each tenant's service plan, be able to respond to a call light or other emergent tenant needs, and be in the proximate area 24 hours a day on site.

69.29(5) All programs employing a new program manager after January 1, 2010, will require the manager within six months of hire to complete an assisted living management class whose curriculum includes at least six hours of training specifically related to Iowa rules and laws on assisted living programs. Managers who have completed a similar training prior to January 1, 2010, will not be required to complete additional training to meet this requirement.

69.29(6) All programs employing a new delegating nurse after January 1, 2010, will require the delegating nurse within six months of hire to complete an assisted living manager class or assisted living nursing class whose curriculum includes at least six hours of training specifically related to Iowa rules and laws on assisted living. A minimum of one delegating nurse from each program will complete the training. If there are multiple delegating nurses and only one delegating nurse completes the training, the delegating nurse who completes the training will train the other delegating nurses in the Iowa rules and laws on assisted living. As of January 1, 2011, all programs shall have a minimum of one delegating nurse who has completed the training described in this subrule.

69.29(7) The program will notify the department in writing within ten business days of a change in the program's manager.

69.29(8) The program must develop and implement policy and procedure for addressing sexual relationships between tenants and staff and between tenants with dementia greater than Stage 5 on the GDS.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.30(231C) Dementia-specific education for program personnel.

69.30(1) All personnel employed by or contracting with a dementia-specific program shall receive a minimum of eight hours of dementia-specific education and training within 30 days of either employment or the beginning date of the contract, as applicable.

69.30(2) The dementia-specific education or training shall include:

a. An explanation of dementia and related disorders;

b. The program's specialized dementia care philosophy and program;

c. Skills for communicating with persons with dementia;

d. Skills for communicating with family and friends of persons with dementia;

e. An explanation of family issues such as role reversal, grief and loss, guilt, relinquishing the care-giving role, and family dynamics;

f. The importance of planned and spontaneous activities;

g. Skills in assistance with instrumental activities of daily living;

h. The importance of the service plan and social history information;

i. Skills in working with challenging tenants;

j. Techniques for simplifying, cueing, and redirecting;

k. Staff support and stress reduction;

l. Medication management and nonpharmacological interventions.

69.30(3) Dementia-specific continuing education.

a. Except as otherwise provided in this subrule, all personnel employed by or contracting with a dementia-specific program shall receive a minimum of two hours of dementia-specific continuing education annually.

b. Direct-contact personnel employed by or contracting with a dementia-specific program or employed by a contracting agency providing staff to a dementia-specific program shall receive a minimum of eight hours of dementia-specific continuing education annually.

c. Contracted personnel who have no contact with tenants (e.g., persons providing lawn maintenance or snow removal) are not required to receive the two hours of training required in paragraph 69.30(3)*"a."*

d. The contracting agency may provide the program with documentation of dementia-specific continuing education that meets the requirements of this subrule.

69.30(4) An employee or contractor who provides documentation of completion of a dementia-specific education or training program within the past 12 months will be exempt from the education and training requirement of subrule 69.30(1).

69.30(5) Dementia-specific training will include hands-on training and any of the following: classroom instruction, web-based training, and case studies of tenants in the program.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.31(231C) Managed risk policy and managed risk consensus agreements. The program shall have a managed risk policy that will be provided to the tenant along with the occupancy agreement and include:

69.31(1) An acknowledgment of the shared responsibility for identifying and meeting the needs of the tenant and the process for managing risk and for upholding tenant autonomy when tenant decision making could result in poor outcomes for the tenant or others;

69.31(2) A consensus-based process to address specific risk situations. Program staff and the tenant will participate in the process. The result of the consensus-based process may be a managed risk consensus agreement that will include the signature of the tenant and all others who participated in the process and be included in the tenant's file.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.32(231C) Life safety—emergency policies and procedures and structural safety requirements.

69.32(1) The program shall submit to the department and follow written emergency policies and procedures, including:

a. An emergency plan with procedures for natural disasters that is located for easy reference;

b. Fire safety procedures;

c. Other general or personal emergency procedures, including head injury protocols;

d. Provisions for amending or revising the emergency plan;

e. Provisions for periodic training of all employees;

f. Procedures for fire drills;

g. Regulations regarding smoking;

h. Monitoring and testing of smoke-control systems;

i. Tenant evacuation procedures;

j. Procedures for reporting and documentation;

k. Extraordinary lifesaving measures, such as cardiopulmonary resuscitation (CPR).

69.32(2) An operating alarm system shall be connected to each exit door in a dementia-specific program.

69.32(3) The program shall obtain approval from the fire safety bureau of the department before the installation of any specialized door locking systems.

69.32(4) A program serving a person(s) with cognitive disorder or dementia shall have written procedures regarding:

a. Alarm systems, if an alarm system is in place.

b. Appropriate staff response when a tenant's service plan indicates a risk of elopement or when a tenant exhibits wandering behavior.

c. Appropriate staff response if a tenant with cognitive disorder or dementia is missing.

69.32(5) The program's structure and procedures and the facility in which a program is located shall meet the requirements adopted for assisted living programs in administrative rules promulgated by the building code and fire safety bureaus. Approval of both bureaus indicating that the building complies with these requirements is necessary for certification of a program.

69.32(6) The program shall have the means to control the maximum temperature of water at sources accessible by a tenant to prevent scalding and control the maximum water temperature for tenants with cognitive impairment or dementia or at a tenant's request.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.33(231C) Transportation. When transportation services are provided directly or under contract with the program, the following shall apply:

69.33(1) The vehicle will be accessible and appropriate to the tenants who use it, with consideration for any physical disabilities and impairments.

69.33(2) Every tenant transported will have a seat in the vehicle, except for a tenant who remains in a wheelchair during transport.

69.33(3) Vehicles will have adequate seat belts and securing devices for ambulatory and wheelchair-using passengers.

69.33(4) Wheelchairs will be secured when the vehicle is in motion.

69.33(5) During loading and unloading of a tenant, the driver will be in the proximate area of the tenants in a vehicle.

69.33(6) The driver will have a valid and appropriate Iowa driver's license or commercial driver's license as required by law for the vehicle being utilized for transport, or be so licensed in another state. The driver will meet any state or federal requirements for licensure or certification for the vehicle operated.

69.33(7) Each vehicle will have a first-aid kit, fire extinguisher, safety triangles and a device for two-way communication.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.34(231C) Activities. The program shall have a policy related to activities, including the following:

69.34(1) The program will provide appropriate activities for each tenant reflecting individual differences in age, health status, sensory deficits, lifestyle, ethnic and cultural beliefs, religious beliefs, values, experiences, needs, interests, abilities and skills by providing opportunities for a variety of types and levels of involvement.

69.34(2) Activities will be planned to support the tenant's service plan consistent with occupancy policies.

69.34(3) A written schedule of activities will be developed at least monthly and made available to tenants and their legal representatives.

69.34(4) Tenants will be given the opportunity to choose their levels of participation in all activities offered in the program.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.35(231C) Structural requirements.

69.35(1) *General requirements.*

a. The structure of the program will be designed and operated to meet the needs of the tenants.

b. The buildings and grounds will be well-maintained, clean, safe and sanitary.

c. Programs will have private dwelling units with a single-action, lockable entrance door.

d. A program serving persons with cognitive impairment or dementia, whether in a general or dementia-specific setting, will have the means to disable or remove the lock on an entrance door and disable or remove the lock if its presence presents a danger to the health and safety of the tenant.

e. The structure in which a program is housed shall comply with the administrative rules promulgated by the building code and fire safety bureaus.

f. Programs may have individual cooking facilities within the private dwelling units. Any program serving persons with cognitive impairment or dementia, whether in a general or dementia-specific setting, will have the means to disable or easily remove appliances and disable or remove them if their presence presents a danger to the health and safety of the tenant or others.

69.35(2) *Programs certified prior to July 4, 2001.* Facilities for programs certified prior to July 4, 2001, shall meet the following requirements:

a. Each dwelling unit will have at least one room that will have not less than 120 square feet of floor area. Other habitable rooms will have an area of not less than 70 square feet.

b. Each dwelling unit will have not less than 190 square feet of floor area, excluding bathrooms.

c. A dwelling unit used for double occupancy will have not less than 290 square feet of floor area, excluding bathrooms.

d. The program will have a minimum of 15 square feet of common area per tenant.

69.35(3) *New construction built on or after July 4, 2001.* Programs operated in new construction built on or after July 4, 2001, shall meet the following requirements:

a. Each dwelling unit will have at least one room that will have not less than 120 square feet of floor area. Other habitable rooms will have an area of not less than 70 square feet.

b. Each dwelling unit used for single occupancy will have a total square footage of not less than 240 square feet of floor area, excluding bathrooms and door swing.

c. A dwelling unit used for double occupancy will have a total square footage of not less than 340 square feet of floor area, excluding bathrooms and door swing.

d. Each dwelling unit will contain a bathroom, including a toilet, sink and bathing facilities. A program serving persons with cognitive impairment or dementia, whether in a general or dementia-specific setting, will have the means to disable or remove the sink or bathing facility water control and will disable or remove the water control if its presence presents a danger to the health and safety of the tenant.

e. Self-closing doors are not required for individual dwelling units, whether in a general or dementia-specific setting, unless the authority with jurisdiction determines that the level of hazard has increased to require the installation of closure hardware (for example, presence of a stove, range or oven).

69.35(4) *Structure being converted to or remodeled for use by a program on or after July 4, 2001.* A program operating in a structure that was converted or remodeled for use for a program on or after July 4, 2001, shall meet the following requirements:

a. Each dwelling unit will have at least one room that has not less than 120 square feet of floor area. Other habitable rooms will have an area of not less than 70 square feet.

b. Each dwelling unit used for single occupancy will have a total square footage of not less than 190 square feet of floor area, excluding bathrooms and door swing.

c. A dwelling unit used for double occupancy will have a total square footage of not less than 290 square feet of floor area, excluding bathrooms and door swing.

d. Each dwelling unit will have a bathroom, including a toilet, sink and bathing facility.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.36(231C) Dwelling units in dementia-specific programs. Dementia-specific programs are exempt from the requirements in subrules 69.35(2) through 69.35(4) as follows:

69.36(1) For a program built in a family or neighborhood design:

a. Each dwelling unit used for single occupancy will have a total square footage of not less than 150 square feet of floor area, excluding a bathroom; and

b. Each dwelling unit used for double occupancy will have a total square footage of not less than 250 square feet of floor area, excluding a bathroom.

69.36(2) Dementia-specific programs may choose not to provide bathing facilities in the dwelling units.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.37 Reserved.

481—69.38(83GA,SF203) Identification of veteran's benefit eligibility.

69.38(1) Within 30 days of a tenant's admission to an assisted living program that receives reimbursement through the medical assistance program under Iowa Code chapter 249A, the program shall ask the tenant or the tenant's personal representative whether the tenant is a veteran or whether the tenant is the spouse, widow, or dependent of a veteran and document the response.

69.38(2) If the tenant may be a veteran or the spouse, widow, or dependent of a veteran, the program shall report the tenant's name along with the name of the veteran, if applicable, as well as the name of the contact person for this information, to the department of veterans affairs. The program may report such information to the department of health and human services.

69.38(3) If a tenant is eligible for benefits through the U.S. Department of Veterans Affairs or other third-party payor, the program first shall seek reimbursement from the identified payor source before seeking reimbursement from the medical assistance program established under Iowa Code chapter 249A.

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

481—69.39(231C) Respite care services. "Respite care services" means an organized program of temporary supportive care provided for 24 hours or more to a person in order to relieve the usual caregiver of the person from providing continual care to the person, or on request of the tenant as a trial of the program. An assisted living program that chooses to provide respite care services must meet the following requirements related to respite care services and be certified as an assisted living program.

69.39(1) *Length of stay.* Respite care services will be provided for no more than 30 consecutive days and for a total of no more than 60 days in a consecutive 12-month period beginning on the first day the individual stays in the program.

69.39(2) *No separate certificate.* An assisted living program that chooses to provide respite care services is not required to obtain a separate certificate or pay a certification fee.

69.39(3) *Assessment.* The program nurse will assess the individual prior to the individual's stay and will document:

a. Safety and supervision needs;

b. Medical needs;

c. Dietary needs;

d. Bowel and bladder function.

69.39(4) *Written direction to staff.* The program nurse will document the care needs of the individual based on the assessment conducted pursuant to subrule 69.39(3) and provide the documentation to staff.

69.39(5) *Involuntary termination of respite care services.* The program may terminate the respite care services for the individual. Rule 481—69.24(231C) will not apply. The program will make proper arrangements for the welfare of the individual prior to involuntary termination of respite care services, including notification of the individual's family or legal representative.

69.39(6) *Contract.* The program will have a contract with each individual, including:

a. The time period during which the individual will be considered to be receiving respite care services, not to exceed 30 consecutive days.

b. A description of all fees, charges, and rates for respite care services, and any additional and optional services and their related costs.

c. A statement that respite care services may be involuntarily terminated. Rule 481—69.24(231C) will not apply.

d. Identification of the party responsible for payment of fees and identification of the respite care individual's legal representative, if any.

e. Identification of emergency contacts, including but not limited to the individual's family member(s) and physician.

f. A statement that all individual information will be maintained in a confidential manner to the extent required under state and federal law.

g. The refund policy, if applicable.

h. A statement regarding billing and payment procedures.

69.39(7) *Admission to program.*

a. Individuals receiving respite care will not be considered an admission to the program.

b. Individuals receiving respite care will be included in the program's census.

c. The program will not enter into multiple 30-day contracts with an individual receiving respite care in order to lengthen the individual's stay in the program.

d. If an individual receiving respite care remains in the program beyond 30 consecutive days and is eligible for admission, the department will consider the individual a tenant in the program. The program will follow all requirements for admission to the program.

69.39(8) *Level of care criteria.* Individuals receiving respite care must meet the criteria found in subrule 69.23(1) for admission and retention of tenants. Respite care services will not be provided by an assisted living program to persons requiring a level of care that is higher than the level of care the program is certified to provide.

69.39(9) *Accessibility by the department.* The department shall have the same access to respite care services records as provided in 481—subrule 67.10(2).

[**ARC 0065D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapter 231C.

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 70
ADULT DAY SERVICES

Chapter rescission date pursuant to Iowa Code section 17A.7: 3/11/31

481—70.1(231D) Definitions. In addition to the definitions in 481—Chapter 67 and Iowa Code chapter 231D, the following definitions apply:

"Applicable requirements" means the requirements in Iowa Code chapter 231D, this chapter, 481—Chapter 67 and includes any other applicable administrative rules and provisions of the Iowa Code.

"CARF" means the Commission on Accreditation of Rehabilitation Facilities.

"Cognitive disorder" means a disorder characterized by cognitive dysfunction presumed to be the result of illness that does not meet criteria for dementia, delirium, or amnestic disorder.

"Dementia-specific adult day services program" means an adult day services program certified under this chapter that:

1. Serves fewer than 55 participants and has 5 or more participants who have dementia between Stages 4 and 7 on the Global Deterioration Scale, or
2. Serves 55 or more participants and 10 percent or more of the participants have dementia between Stages 4 and 7 on the Global Deterioration Scale, or
3. Holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

"Maximal assistance with activities of daily living" means routine total dependence on staff for the performance of a minimum of four activities of daily living for a period that exceeds 21 days.

"Medically unstable" means that a participant has a condition or conditions:

1. Indicating physiological frailty as determined by the program's staff in consultation with a physician or physician extender;
2. Resulting in three or more significant hospitalizations within a consecutive three-month period for more than observation; and
3. Requiring frequent supervision of the participant for more than 21 days by a registered nurse.

For example, a participant who has a condition such as congestive heart failure that results in three or more significant hospitalizations during a quarter and that requires that the participant receive frequent supervision may be considered medically unstable.

"Unmanageable incontinence" means a condition that requires staff provision of total care for an incontinent participant who lacks the ability to assist in bladder or bowel continence care.

"Visiting day(s)" means up to 16 hours in a two-day period during which a person may visit a program prior to admission for the purpose of assessing eligibility for the program and personal satisfaction.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.2(231D) Program certification. A program may obtain certification by meeting all applicable requirements or being voluntarily accredited by a recognized accreditation entity.

70.2(1) *Posting requirements.* A program's current certificate shall be visibly displayed within the designated operation area of the program. The latest monitoring report, fire safety bureau report, and food establishment inspections report issued pursuant to Iowa Code chapter 137F shall be made available to the public by the program upon request.

70.2(2) *Dementia-specific programs.* If a program meets the definition of a dementia-specific adult day services program during two sequential certification monitorings, the program shall meet all requirements for a dementia-specific program, including the requirements set forth in rule 481—70.30(231D) and in subrule 70.32(2).

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.3(231D) Certification of a nonaccredited program—application process.

70.3(1) The applicant shall complete an application packet obtained from the department health facilities division website at dia-hfd.iowa.gov; by mail from the Department of Inspections, Appeals,

and Licensing, Adult Services Bureau, 6200 Park Avenue, Des Moines, Iowa 50321; or by telephone at 515.281.7272.

70.3(2) The applicant shall submit one copy of the completed application and all supporting documentation to the department at the above address at least 90 calendar days prior to the expected date of beginning operation.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.4(231D) Nonaccredited program—application content. An application for certification or recertification of a nonaccredited program shall include the following:

70.4(1) The names, addresses, and percentage of stock, shares, partnership or other equity interest of all officers, members of the board of directors and trustees, as well as stockholders, partners or any individuals who have greater than a 10 percent equity interest in each of the following, as applicable:

a. The real estate owner or lessor;

b. The lessee;

c. The management company responsible for the day-to-day operation of the program.

The program will notify the department of any changes in the list no later than ten working days after the effective date of the change.

70.4(2) A statement disclosing whether the individuals listed in subrule 70.4(1) have been convicted of a felony or an aggravated or serious misdemeanor or found to be in violation of the child abuse or dependent adult abuse laws of any state.

70.4(3) A statement disclosing whether any of the individuals listed in subrule 70.4(1) fall under the provisions in Iowa Code section 231D.5, including for a licensed health care facility as defined in Iowa Code section 135C.1 or a licensed hospital as defined in Iowa Code section 135B.1.

70.4(4) The contractual agreement and all attachments.

70.4(5) If the program contracts for personal care or health-related care services from a certified home health agency, a mental health center or a licensed health care facility, a copy of that entity's current license or certification.

70.4(6) A copy of the state license for the entity that provides food service, whether the entity is the program or an outside entity or a combination of both.

70.4(7) The fee set forth in Iowa Code section 231D.4.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.5(231D) Initial certification process for a nonaccredited program.

70.5(1) Upon receipt of all completed documentation, including building code and fire safety bureau approval and structural and evacuation review approval, the department will determine whether the proposed program meets applicable requirements.

70.5(2) If the department determines the proposed program meets the requirements for certification, a provisional certification will be issued to the program to begin operation and accept participants.

70.5(3) Within 180 calendar days following issuance of provisional certification, the department will conduct a monitoring to determine the program's compliance with applicable requirements.

70.5(4) If a regulatory insufficiency is identified as a result of the monitoring, the process in rule 481—67.10(17A,231B,231C,231D) will be followed.

70.5(5) The department will make a final certification decision based on the results of the monitoring and review of an acceptable plan of correction.

70.5(6) The department will notify the program of a final certification decision within ten working days following the finalization of the monitoring report or receipt of an acceptable plan of correction, whichever is applicable.

70.5(7) If the decision is to continue certification, the department will issue a full two-year certification effective from the date of the original provisional certification.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.6(231D) Expiration of the certification of a nonaccredited program. Unless conditionally issued, suspended or revoked, certification of a program will expire at the end of the time period specified on the certificate.
[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.7(231D) Recertification process for a nonaccredited program. To obtain recertification, a program shall:

70.7(1) Submit one copy of the completed application, associated documentation, and the recertification fee as listed in Iowa Code section 231D.4 to the department at the address stated in subrule 70.3(1) at least 30 calendar days prior to the expiration of the program's certification.

70.7(2) Submit additional documentation that each of the following has been inspected by a qualified professional and found to be maintained in conformance with the manufacturer's recommendations and nationally recognized standards: heating system, cooling system, water heater, electrical system, plumbing, sewage system, artificial lighting, and ventilation system; and, if located on site, garbage disposal, kitchen appliances, washing machines and dryers, and elevators.
[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.8(231D) Notification of recertification for a nonaccredited program.

70.8(1) The department will review the application, associated documentation and fees. After all finalized documentation is received, including building code and fire safety bureau approval, the department will determine the program's compliance with applicable requirements.

70.8(2) If the facility is in good standing, the department will issue the program a two-year certification effective from the date of the expiration of the previous certification.
[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.9(231D) Certification or recertification of an accredited program—application process. An applicant for certification or recertification of a program accredited by a recognized accrediting entity shall:

70.9(1) Submit a completed application packet obtained from the department health facilities division website at dia-hfd.iowa.gov; by mail from the Department of Inspections, Appeals, and Licensing, Adult Services Bureau, 6200 Park Avenue, Des Moines, Iowa 50321; or by telephone at 515.281.7272.

70.9(2) Submit a copy of the current accreditation outcome from the recognized accrediting entity.

70.9(3) Maintain compliance with the requirements of the building code and fire safety bureau of the department pursuant to this chapter.

70.9(4) Submit the appropriate fees as set forth in Iowa Code section 231D.4.
[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.10(231D) Certification or recertification of an accredited program—application content. An application for certification or recertification of an accredited program shall comply with rule 481—70.4(231D) and include a copy of the current accreditation outcome from the recognized accrediting entity.
[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.11(231D) Initial certification process for an accredited program.

70.11(1) Within 20 working days of receiving all finalized documentation, including building code and fire safety bureau approval, the department will notify the accredited program whether the accredited program meets applicable requirements and whether certification will be issued.

70.11(2) If the decision is to certify, a certification will be issued for the term of the accreditation not to exceed three years, unless the certification is conditionally issued, suspended or revoked by either the department or the recognized accrediting entity.

70.11(3) If the decision is to deny certification, the department will provide the applicant an opportunity for hearing in accordance with rule 481—67.13(17A,231B,231C,231D).
[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.12(231D) Recertification process for an accredited program.

70.12(1) To obtain recertification, an accredited program shall comply with rule 481—70.9(231D) at least 30 calendar days prior to the expiration of the program's certification.

70.12(2) If the facility is in good standing, a full certification shall be issued for the term of the accreditation not to exceed three years, unless the certification is conditionally issued, suspended or revoked by either the department or the recognized accrediting entity. If the decision is to deny recertification, the department will provide the applicant an opportunity for hearing in accordance with rule 481—67.14(17A,231B,231C,231D).

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.13(231D) Listing of all certified programs. The department will maintain a list of all certified programs, which is available online at dia-hfd.iowa.gov/DIA_HFD/Home.do.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.14(231D) Recognized accrediting entity.

70.14(1) The department designates CARF as a recognized accrediting entity for programs.

70.14(2) To apply for designation by the department as a recognized accrediting entity for programs, an accrediting entity shall submit a letter of request and its standards shall meet the applicable requirements for programs.

70.14(3) The designation will remain in effect for as long as the accreditation standards meet the applicable requirements for programs.

70.14(4) An accrediting entity shall provide annually to the department, at no cost, a current edition of the applicable standards manual and survey preparation guide, and training thereon, within 120 working days after the publications are released.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.15(231D) Requirements for an accredited program. Each accredited program that is certified by the department shall:

70.15(1) Provide the department a copy of all survey reports including outcomes, quality improvement plans and annual conformance to quality reports generated or received, as applicable, within ten working days of receipt of the reports.

70.15(2) Notify the department by the most expeditious means possible of all credible reports of alleged improper or inappropriate conduct or conditions within the program and any actions taken by the accrediting entity with respect thereto.

70.15(3) Notify the department immediately of the expiration, suspension, revocation or other loss of the program's accreditation.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.16(231D) Maintenance of program accreditation.

70.16(1) An accredited program will continue to be recognized for certification by the department if both of the following requirements are met:

a. The program complies with the requirements outlined in rule 481—70.15(231D).

b. The program maintains its voluntary accreditation status for the duration of the time-limited certification period.

70.16(2) A program that does not maintain its voluntary accreditation status must become certified by the department prior to any lapse in accreditation or cease operation as a program.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.17(231D) Change of ownership—notification to the department.

70.17(1) Certification, unless conditionally issued, suspended or revoked, may be transferable. If the program's certification has been conditionally issued, the department must approve a change of ownership prior to the transfer of the certification.

70.17(2) In order to transfer certification, the applicant must:

a. Meet the requirements of the rules, regulations and standards contained in Iowa Code chapter 231D and 481—Chapter 67 and this chapter;

b. At least 30 days prior to the change of ownership of the program, provide application and supporting documentation to the department.

70.17(3) The department may conduct a monitoring within 90 days following a change in the program's ownership to ensure that the program complies with applicable requirements. If a regulatory insufficiency is found, the department will take any necessary enforcement action authorized by applicable requirements.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.18(231D) Plan reviews of a building for a new program.

70.18(1) Before a building is constructed or remodeled for use in a new program, the state building code bureau shall review the blueprints for compliance with requirements pursuant to this chapter. Construction or remodeling includes new construction, remodeling of any part of an existing building, addition of a new wing or floor to an existing building, or conversion of an existing building.

70.18(2) A program applicant shall submit construction documents to the building code bureau's online portal at dial.iowa.gov/licenses/building/plan-review.

70.18(3) The plan review fee must be paid before construction documents are uploaded to the project folder.

70.18(4) The building code bureau will notify the Iowa-licensed architect or Iowa-licensed engineer in writing regarding the status of compliance with requirements.

70.18(5) The Iowa-licensed architect or Iowa-licensed engineer shall respond to the building code bureau regarding how any noncompliance will be resolved.

70.18(6) Upon final notification by the building code bureau that the construction documents meet requirements, construction or remodeling of the building may commence.

70.18(7) The building code and fire safety bureaus will schedule an on-site visit of the building site with the contractor, or Iowa-licensed architect or Iowa-licensed engineer, during the construction or remodeling process to ensure compliance with the approved construction documents. Any noncompliance must be resolved prior to approval for certification.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.19(231D) Plan review prior to the remodeling of a building for a certified program.

70.19(1) Before a building for a certified program is remodeled as defined in subrule 70.18(1), the building code bureau shall review the construction documents for compliance with requirements set forth in rule 481—70.35(231D).

70.19(2) A certified program shall submit construction documents to the building code bureau's online portal at dial.iowa.gov/licenses/building/plan-review.

70.19(3) The documents won't be reviewed until the fee is received.

70.19(4) The building code bureau will review the documents within 35 working days of receipt and notify the Iowa-licensed architect or Iowa-licensed engineer in writing regarding the status of compliance with requirements.

70.19(5) The Iowa-licensed architect or Iowa-licensed engineer shall respond to the building code bureau in 20 working days to state how any noncompliance will be resolved.

70.19(6) Upon final notification by the building code bureau that the construction documents meet structural and life safety requirements, remodeling of the building may commence.

70.19(7) The building code and fire safety bureaus will schedule an on-site visit of the building with the contractor, or Iowa-licensed architect or Iowa-licensed engineer, during the remodeling process to ensure compliance with the approved construction documents. Any noncompliance must be resolved prior to approval for continued certification or recertification of the program.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.20(231D) Cessation of program operation that includes seeking decertification.

70.20(1) The program shall provide, at least 90 days in advance of cessation, unless there is some type of emergency, written notification to the department of the date on which the program will cease operation.

70.20(2) At the time a program decides to cease operation, the program shall submit a plan to the department and make arrangements for the safe and orderly discharge or transition of all participants within the 90-day period specified by subrule 70.20(1).

70.20(3) The department may conduct a monitoring during the 90-day period to ensure the safety of participants during the discharge process or transition process.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.21(231D) Contractual agreement.

70.21(1) The contractual agreement shall be in 12-point type or larger, written in plain language using commonly understood terms and easy for the participant or the participant's legal representative to understand.

70.21(2) In addition to the requirements of Iowa Code section 231D.17, the written contractual agreement shall include the following information in the body of the agreement or in the supporting documents and attachments:

a. The telephone number for filing a complaint with the department.

b. The telephone number for reporting dependent adult abuse.

c. A copy of the program's statement on participants' rights.

d. A statement that the program will notify the participant at least 90 days in advance of any planned program cessation, except in cases of emergency.

e. A copy of the program's admission criteria.

70.21(3) The contractual agreement shall be reviewed and updated as necessary to reflect any change in services or financial arrangements.

70.21(4) A copy of the contractual agreement shall be provided to the participant or the participant's legal representative, if any, and a copy shall be kept by the program.

70.21(5) A copy of the most current contractual agreement shall be made available to the general public upon request.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.22(231D) Evaluation of participant.

70.22(1) *Evaluation prior to participation.* A program shall evaluate each prospective participant's functional, cognitive and health status prior to the participant's signing the contractual agreement and participating in the program, with the exception of visiting day(s), to determine the participant's eligibility for the program, including whether the services needed are available. The cognitive evaluation shall be appropriate to the population served. When the cognitive evaluation indicates moderate cognitive decline and risk, the Global Deterioration Scale shall be used at all subsequent intervals, if applicable. If the participant subsequently returns to the participant's mildly cognitively impaired state, the program may discontinue the GDS and revert to a scored cognitive screening tool. The evaluation shall be conducted by a health care professional, human service professional, or licensed practical nurse via nurse delegation.

70.22(2) *Evaluation within 30 days of participation and with significant change.* A program shall evaluate each participant's functional, cognitive and health status within 30 days of the participant's beginning participation in the program. A program shall evaluate each participant's functional, cognitive and health status as needed with significant change, but not less than annually, to determine the participant's continued eligibility for the program and to determine any changes to services needed. The evaluation shall be conducted by a health care professional, human service professional, or licensed practical nurse via nurse delegation.

70.22(3) *Requirements for visiting day(s).* Evaluation of the participant is not required during visiting day(s), but the program shall provide the participant or the participant's legal representative with a written explanation of the expectations for the visiting day(s).

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.23(231D) Criteria for admission and retention of participants.

70.23(1) *Persons who may not be admitted or retained.* Criteria are set forth in Iowa Code section 231D.19.

70.23(2) *Disclosure of additional participation and discharge criteria.* A program may have additional participation or discharge criteria if the criteria are disclosed in the written contractual agreement prior to the participant's participation in the program.

70.23(3) *Assistance with discharge from the program.* A program shall assist a participant and the participant's legal representative, if applicable, to ensure a safe and orderly discharge from the program when the participant exceeds the program's criteria for admission and retention.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.24(231D) Involuntary discharge from the program.

70.24(1) *Program initiation of discharge.* If a program initiates the involuntary discharge of a participant and the action is not the result of a monitoring, including a complaint investigation or program-reported incident investigation, by the department and if the participant or participant's legal representative contests the discharge, the procedures in Iowa Code section 231D.18 shall apply.

70.24(2) *Discharge pursuant to results of monitoring or complaint or program-reported incident investigation by the department.* If one or more participants are identified as exceeding the admission and retention criteria for participants and need to be discharged as a result of a monitoring or a complaint or program-reported incident investigation conducted by the department, the following procedures shall apply.

a. Notification of the program. Within 20 working days of the monitoring or complaint or program-reported incident investigation, the department will notify the program, in writing, of the identification of any participant who exceeds admission and retention criteria.

b. Notification of others. Each identified participant, the participant's legal representative, if applicable, and other providers of services to the participant will be notified of their opportunity to provide responses within ten days of receipt of the notice, including specific input, written comment, information, and documentation directly addressing any agreement or disagreement with the identification.

c. Program agreement with the department's finding. If the program agrees with the department's finding and the program begins involuntary discharge proceedings, the program's internal appeal process in subrule 70.24(1) shall be utilized for appeals.

d. Program disagreement with the department's finding. If the program does not agree with the department's finding that the participant exceeds admission and retention criteria, the program may collect and submit all responses to the department, including those from other interested parties, within ten working days of receipt of the notice. In the program's response, the program will identify the participant, list the known responses from others, and note the program's agreement or disagreement with the responses from others. Submission of a response does not eliminate the applicable requirements, including submission of a plan of correction under 481—subrule 67.13(3). Other persons may also submit information directly to the department.

(1) Consideration of response. Within ten working days of receipt of the program's response for each identified participant, the department will consider the response and make a final finding regarding the continued retention of a participant.

(2) Amending the regulatory insufficiency. If the department's determination is to amend the regulatory insufficiency based on the response, the department will modify the report of findings.

(3) Retaining regulatory insufficiency. If the department retains the regulatory insufficiency, the department will review the plan of correction in accordance with this chapter and 481—Chapter 67. The department will notify the program of the opportunity to appeal the report findings as they relate to the admission and retention decision.

(4) Effect of the filing of an appeal. If an appeal is filed, the participant who exceeds admission and retention criteria will be allowed to continue to participate in the program until all administrative appeals have been exhausted. Appeals filed that relate to the participant's exceeding admission and retention criteria will be heard within 30 days of receipt, and appropriate services to meet the participant's needs will be provided during that period of time.

(5) Request for waiver of criteria for retention of a participant in a program. To allow a participant to continue to participate in the program, the program may request a waiver of criteria for retention of a participant pursuant to rule 481—67.7(231B,231C,231D) from the department within ten working days of the receipt of the report.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.25(231D) Participant documents.

70.25(1) Documentation for each participant shall be maintained by the program and include:

a. A participation record including the participant's name, birth date, and home address; identification numbers; date of beginning participation; name, address and telephone number of health professional(s); diagnosis; and names, addresses and telephone numbers of family members, friends or other designated people to contact in the event of illness or an emergency;

b. Application forms;

c. The initial evaluations and updates;

d. A nutritional assessment as necessary;

e. The initial individual service plan and updates;

f. Signed authorizations for permission to release medical information, photographs, or other media information as necessary;

g. A signed authorization for the participant to receive emergency medical care as necessary;

h. A signed managed risk policy and signed managed risk consensus agreements, if any;

i. When any personal or health-related care is delegated to the program, the medical information sheet; documentation of health professionals' orders, such as those for treatment, therapy, and medication; and nurses' notes written by exception;

j. Medication lists, which will be maintained in conformance with 481—paragraph 67.5(2)*"d"*;

k. Advance health care directives as applicable;

l. A complete copy of the participant's contractual agreement, including any updates;

m. A written acknowledgment that the participant or the participant's legal representative, if applicable, has been fully informed of the participant's rights;

n. A copy of guardianship, durable power of attorney for health care, power of attorney, or conservatorship or other documentation of a legal representative;

o. Incident reports involving the participant, including but not limited to those related to medication errors, accidents, falls, and elopements (such reports need not be included in the participant's medical record);

p. A copy of waivers of admission or retention criteria, if any;

q. When the participant is unable to advocate on the participant's own behalf or the participant has multiple service providers, including hospice care providers, accurate documentation of the completion of routine personal or health-related care is required on task sheets. If tasks are doctor-ordered, the tasks will be part of the medication administration records (MARs);

r. Authorizations for the release of information, if any.

70.25(2) The program records relating to a participant shall be retained for a minimum of three years after termination of service.

70.25(3) All records shall be protected from loss, damage and unauthorized use.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.26(231D) Service plans.

70.26(1) A service plan shall be developed for each participant based on the evaluations conducted in accordance with rule 481—70.22(231D) and designed to meet the specific service needs of the individual participant.

70.26(2) Prior to the participant's signing the contractual agreement and participating in the program, a preliminary service plan shall be developed by a health care professional or human service professional in consultation with the participant and, at the participant's request, with other individuals identified by the participant, and, if applicable, with the participant's legal representative. All persons who develop the plan and the participant or the participant's legal representative shall sign the plan.

70.26(3) When a participant needs personal care or health-related care, the service plan shall be updated within 30 days of the participant's participation and as needed with significant change, but not less than annually. The updated service plan shall be signed and dated by all parties.

a. If a significant change does not exist, the program may, after nurse review, add minor discretionary changes to the service plan without a comprehensive evaluation and without obtaining signatures on the service plan.

b. If a significant change relates to a recurring or chronic condition, a previous evaluation and service plan of the recurring condition may be utilized without new signatures being obtained.

70.26(4) The service plan shall be individualized and indicate:

a. The participant's identified needs and preferences for assistance;

b. Any services and care to be provided pursuant to the contractual agreement;

c. The service provider(s), if other than the program;

d. For participants who are unable to plan their own activities, including participants with dementia, planned and spontaneous activities based on the participant's abilities and personal interests.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.27(231D) Nurse review. If a participant does not receive personal or health-related care, but an observed significant change in the participant's condition occurs, a nurse review shall be conducted. If a participant receives personal or health-related care, the program shall provide for a registered nurse or a licensed practical nurse via nurse delegation:

70.27(1) To monitor, at least every 90 days, or after a significant change in the participant's condition, any participant who receives program-administered prescription medications for adverse reactions to the medications and to make appropriate interventions or referrals, and to ensure that the prescription medication orders are current and that the prescription medications are administered consistent with such orders;

70.27(2) To ensure that health care professionals' orders are current for participants who receive health care professional-directed care from the program;

70.27(3) To assess and document the health status of each participant, to make recommendations and referrals as appropriate, and to monitor progress relating to previous recommendations at least every 90 days and whenever there are changes in the participant's health status;

70.27(4) To provide the program with written documentation of the activities under the service plan, as set forth in rule 481—70.26(231D), showing the time, date and signature.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.28(231D) Food service.

70.28(1) The program shall provide or coordinate with other community providers to provide a hot or other appropriate meal(s) at least once a day or arrange for the availability of meals, unless otherwise noted in the contractual agreement.

70.28(2) Meals and snacks provided by the program but not prepared on site shall be obtained from or provided by an entity that meets the standards of state and local health laws and ordinances concerning the preparation and serving of food.

70.28(3) Menus shall be planned to provide the following percentage of the daily recommended dietary allowances as established by the Food and Nutrition Board of the National Research Council of the National Academy of Sciences based on the number of meals provided by the program:

a. A minimum of 33⅓ percent if the program provides one meal per day;

b. A minimum of 66⅔ percent if the program provides two meals per day; and

c. One hundred percent if the program provides three meals per day.

70.28(4) Therapeutic diets may be provided by a program. If therapeutic diets are provided, they shall be prescribed by a physician, physician associate, or advanced registered nurse practitioner, or ordered by a licensed dietitian authorized by a qualified medical provider. A therapeutic diet provides food, fluids, or nutrients by oral, enteral, or parenteral routes and is used in the treatment of a disease or clinical condition to modify, eliminate, decrease, or increase specific macro- or micronutrients, or to provide mechanically altered food when medically indicated. A copy of the Iowa Simplified Diet Manual, Thirteenth Edition,

published by the Iowa Academy of Nutrition and Dietetics shall be available and used in the planning and serving of therapeutic diets. A licensed dietitian shall be responsible for writing and approving the therapeutic menu and for reviewing procedures for food preparation and service for therapeutic diets.

70.28(5) Personnel who are employed by or contract with the program and who are responsible for food preparation or service, or both food preparation and service, shall have an orientation on sanitation and safe food handling prior to handling food and shall have annual in-service training on food protection.

a. In addition to the requirements above, a minimum of one person directly responsible for food preparation shall have successfully completed a state-approved food protection program by:

(1) Obtaining certification as a dietary manager; or

(2) Obtaining certification as a food protection professional; or

(3) Successfully completing an ANSI-accredited certified food protection manager program meeting the requirements for a food protection program included in the Food Code adopted pursuant to Iowa Code chapter 137F. Another program may be substituted if the program's curriculum includes substantially similar competencies to a program that meets the requirements of the Food Code and the provider of the program files with the department a statement indicating that the program provides substantially similar instruction as it relates to sanitation and safe food handling.

b. If the person is in the process of completing a course or certification listed in paragraph 70.28(5) *"a,"* the requirement relating to completion of a state-approved food protection program will be considered to have been met.

70.28(6) Programs engaged in the preparation and service of meals and snacks shall meet the standards of state and local health laws and ordinances pertaining to the preparation and service of food and be licensed pursuant to Iowa Code chapter 137F. The department will not require the program to be licensed as a food establishment if the program limits food activities to the following:

a. All main meals and planned menu items will be prepared offsite and transferred to the program kitchen for service to participants.

b. Baked goods that do not require temperature control for safety and single-service juice or milk may be stored in the program's kitchen and provided as part of a continental breakfast.

c. Ingredients used for food-related activities with participants may be stored in the program's kitchen. Participant activities may include the preparation and cooking of food items in the program's kitchen if the activity occurs on an irregular or sporadic basis and the items prepared are not part of the program's menu.

d. Appropriately trained staff may prepare in the program's kitchen individual quantities of participant-requested menu-substitution food items that require limited or no preparation, such as peanut butter or cheese sandwiches or a single-service can of soup. The food items necessary to prepare the menu substitution may be stored in the program's kitchen. These food items may not be cooked in the program's kitchen but may be reheated in a microwave. A two- or four-slice toaster may be used for participant-requested menu-substitution items, but no bare-hand contact.

e. Warewashing may be done in the program's kitchen as long as the program utilizes a commercial dishwasher and documents daily testing of sanitizer chemical ppm and proper water temperatures. Verification by the department of these practices may be conducted during on-site visits.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26; Editorial change: IAC Supplement 6/10/26]

481—70.29(231D) Staffing. In addition to the general staffing requirements in rule 481—67.9(231B,231C,231D), the following requirements apply to staffing in programs.

70.29(1) No fewer than two staff persons who monitor participants will be awake and on duty during all hours of operation when two or more participants are participating in the program.

70.29(2) The owner or management corporation of the program is responsible for ensuring that all personnel employed by or contracting with the program receive training appropriate to assigned tasks and target population.

70.29(3) A program that serves one or more participants with cognitive disorders or dementia will follow written procedures that address how the program will respond to the emergency needs of the participants.

70.29(4) The program will notify the department in writing within ten business days of a change in the program's manager.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.30(231D) Dementia-specific education for program personnel.

70.30(1) All personnel employed by or contracting with a dementia-specific program shall receive a minimum of eight hours of dementia-specific education and training within 30 days of either employment or the beginning date of the contract, as applicable.

70.30(2) The dementia-specific education or training shall include the following:

a. An explanation of Alzheimer's disease and related disorders;

b. The program's specialized dementia care philosophy and program;

c. Skills for communicating with persons with dementia;

d. Skills for communicating with family and friends of persons with dementia;

e. An explanation of family issues such as role reversal, grief and loss, guilt, relinquishing the care-giving role, and family dynamics;

f. The importance of planned and spontaneous activities;

g. Skills in assistance with instrumental activities of daily living;

h. The importance of the service plan and social history information;

i. Skills in working with challenging participants;

j. Techniques for simplifying, cueing, and redirecting;

k. Staff support and stress reduction;

l. Medication management and nonpharmacological interventions.

70.30(3) All personnel employed by or contracting with a dementia-specific program shall receive a minimum of two hours of dementia-specific continuing education annually. Direct-contact personnel shall receive a minimum of eight hours of dementia-specific continuing education annually.

70.30(4) An employee or contractor who provides documentation of completion of a dementia-specific education or training program within the past 12 months will be exempt from the education and training requirement of subrule 70.30(1).

70.30(5) Dementia-specific training will include hands-on training and include: classroom instruction, web-based training, and case studies of participants in the program.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.31(231D) Managed risk policy and managed risk consensus agreements. The program shall have a managed risk policy that will be provided to the participant along with the contractual agreement and include:

70.31(1) An acknowledgment of the shared responsibility for identifying and meeting the needs of the participant and the process for managing risk and for upholding participant autonomy when participant decision making results in poor outcomes for the participant or others;

70.31(2) A consensus-based process to address specific risk situations. Program staff and the participant will participate in the process. The result of the consensus-based process may be a managed risk consensus agreement that will include the signature of the participant and the signatures of all others who participated in the process and be included in the participant's file.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.32(231D) Life safety—emergency policies and procedures and structural safety requirements.

70.32(1) The program shall submit to the department and follow written emergency policies and procedures, including:

a. An emergency plan, with procedures for natural disasters that is located for easy reference;

b. Fire safety procedures;

c. Other general or personal emergency procedures, including head injury protocols;

d. Provisions for amending or revising the emergency plan;

e. Provisions for periodic training of all employees;

f. Procedures for fire drills;
g. Regulations regarding smoking;
h. Monitoring and testing of smoke-control systems;
i. Participant evacuation procedures;
j. Procedures for reporting and documentation;
k. Extraordinary lifesaving measures, such as cardiopulmonary resuscitation (CPR).

70.32(2) An operating alarm system shall be connected to each exit door in a dementia-specific program. A program serving a person(s) with cognitive disorder or dementia, whether in a general or dementia-specific setting, shall have written procedures regarding:

a. Alarm systems and appropriate staff response when a participant's service plan indicates a risk of elopement or a participant exhibits wandering behavior.

b. Appropriate staff response if a participant with cognitive disorder or dementia is missing.

The program shall obtain approval from the fire safety bureau before the installation of any specialized door locking systems.

70.32(3) The program's structure and procedures and the facility in which a program is located shall meet the requirements adopted for adult day services programs in administrative rules promulgated by the building code and fire safety bureaus. Approval of both bureaus indicating that the building complies with these requirements is necessary for certification of a program.

70.32(4) The program shall have the means to control the maximum temperature of water at sources accessible by a participant to prevent scalding and control the maximum water temperature for participants with cognitive impairment or dementia or at a participant's request.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.33(231D) Transportation. When transportation services are provided directly or under contract with the program the following shall apply:

70.33(1) The vehicle will be accessible and appropriate to the participants who use it, with consideration for any physical disabilities and impairments.

70.33(2) Every participant transported will have a seat in the vehicle, except for a participant who remains in a wheelchair during transport.

70.33(3) Vehicles will have adequate seat belts and securing devices for ambulatory and wheelchair-using passengers.

70.33(4) Wheelchairs will be secured when the vehicle is in motion.

70.33(5) During loading and unloading of a participant, the driver will be in the proximate area of the participants in a vehicle.

70.33(6) The driver will have a valid and appropriate Iowa driver's license or commercial driver's license as required by law for the vehicle being utilized for transport, or be so licensed in another state. The driver will meet any state or federal requirements for licensure or certification for the vehicle operated.

70.33(7) Each vehicle will have a first-aid kit, fire extinguisher, safety triangles and a device for two-way communication.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.34(231D) Activities.

70.34(1) The program shall provide appropriate activities for each participant reflecting individual differences in age, health status, sensory deficits, lifestyle, ethnic and cultural beliefs, religious beliefs, values, experiences, needs, interests, abilities and skills by providing opportunities for a variety of types and levels of involvement.

70.34(2) Activities shall be planned to support the participant's service plan and be consistent with the program statement and participation policies.

70.34(3) A written schedule of activities shall be developed at least monthly and made available to participants and their legal representatives.

70.34(4) Participants shall be given the opportunity to choose their levels of participation in all activities offered in the program.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.35(231D) Structural requirements.

70.35(1) The structure, equipment and physical environment of the program will be designed and operated to meet the needs of the participants. The building, grounds and equipment will be well-maintained, clean, safe and sanitary.

70.35(2) There will be at least one toilet for every ten participants and staff members.

70.35(3) Toilets and bathing and toileting appliances will be equipped for use by participants with multiple disabilities.

70.35(4) There will be a ratio of at least one hand-washing sink for every two toilets. The sink(s) will be proximate to the toilets. Hand-washing facilities will be readily accessible to participants and staff.

70.35(5) Shower and tub areas, if provided, will be equipped with grab bars and slip-resistant surfaces.

70.35(6) Signaling emergency call devices will be installed or placed in all bathroom areas, restroom stalls and showers.

70.35(7) A telephone will be available to participants to make and receive calls in a private manner and for emergency purposes.

70.35(8) A storage area(s) will be provided for storage of program supplies and participants' possessions, which will be stored in such a manner that, when not in use, will prevent personal injury to participants and staff.

70.35(9) The program will provide a separate area to permit privacy for evaluations and to isolate participants who become ill.

70.35(10) The program will meet other building and public safety codes, including rules pertaining to accessibility contained in the state building code and provisions of the state building code relating to persons with disabilities.

70.35(11) The program will meet the requirements in subrule 70.32(4).

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

481—70.36(231D) Identification of veteran's benefit eligibility.

70.36(1) Within 30 days of a participant's participation in an adult day services program that receives reimbursement through the medical assistance program under Iowa Code chapter 249A, the program shall ask the participant or the participant's personal representative whether the participant is a veteran or whether the participant is the spouse, widow or dependent of a veteran and document the response.

70.36(2) If the participant may be a veteran or the spouse, widow, or dependent of a veteran, the program shall report the participant's name along with the name of the veteran, if applicable, as well as the name of the contact person for this information, to the Iowa department of veterans affairs. The program may also report such information to the Iowa department of health and human services.

70.36(3) If a participant is eligible for benefits through the U.S. Department of Veterans Affairs or other third-party payor, the program first shall seek reimbursement from the identified payor source before seeking reimbursement from the medical assistance program established under Iowa Code chapter 249A.

[**ARC 0066D**, IAB 2/4/26, effective 3/11/26]

These rules are intended to implement Iowa Code chapter 231D.

[Editorial change: IAC Supplement 6/10/26]

CHAPTER 71
SUBACUTE MENTAL HEALTH CARE FACILITIES

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/1/28

481—71.1(135G) Purpose—subacute mental health services. Subacute mental health services are intended to be short-term, intensive, recovery-oriented services designed to stabilize an individual who is experiencing a decreased level of functioning due to a mental health condition.
[**ARC 1740C**, IAB 11/26/14, effective 12/31/14]

481—71.2(135G) Definitions. For the purpose of these rules, the following terms shall have the meanings indicated in this chapter. The definitions set out in Iowa Code section 135G.1 are adopted by reference in the rules.

"Administrator" means an individual who administers, manages, supervises, and is in general administrative charge of a subacute care facility, whether or not such individual has an ownership interest in the facility and whether or not the functions and duties are shared with one or more individuals.

"Assessment" means the evaluation of a person in psychiatric crisis in order to ascertain the person's current and previous level of functioning, psychiatric and medical history, potential for dangerousness, current psychiatric and medical condition factors contributing to the crisis and support systems that are available.

"Distinct part" means a clearly identifiable area or section within a health care facility, consisting of at least a residential unit, wing, floor, or building containing contiguous rooms.

"Incident" means an unusual occurrence within a facility or on its premises affecting residents, visitors, or employees whether or not there is apparent injury or where hidden injury may have occurred.

"Medication" means any drug including over-the-counter substances ordered and administered under the direction of a physician, physician associate or advanced registered nurse practitioner.

"Peer support" means services that are provided by individuals in recovery from serious mental illness and delivered to others who also have mental illness.

"Psychiatric care" means the provision of care to patients in a psychiatric unit of an acute care hospital; a freestanding psychiatric hospital; or a mental health clinic.

"Recovery" means a process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential.

"Recovery principles" means the ten guiding principles of recovery outlined by the federal Substance Abuse and Mental Health Services Administration (www.samhsa.gov): hope, person-driven, many pathways, holistic, peer support, relational, culture, addresses trauma, strengths/responsibility, and respect.

"Responsible party" means the person who signs or cosigns the admission agreement required in rule 481—71.13(135G) or the resident's guardian or conservator if one has been appointed. In the event that a resident does not have a guardian, conservator or other person signing the admission agreement, the term "responsible party" shall include the resident's sponsoring agency, e.g., the department of human services, the U.S. Department of Veterans Affairs, a religious group, fraternal organization, or foundation that assumes responsibility and advocates for its client patients and pays for their health care.

"Restraint" means the application of physical force, use of a chemical agent, or a mechanical device for the purpose of restraining the free movement of an individual's body to protect the individual or others from immediate harm. Restraint does not include briefly holding without undue force an individual to calm or comfort the individual or holding an individual's hand to safely escort the individual from one area to another.

"Restricted means of egress" means an exit door alarm system for safety of the residents and the public.

"Seclusion" means the involuntary confinement of a resident alone in a room or an area from which the resident is physically prevented from leaving.
[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19; Editorial change: IAC Supplement 6/10/26]

481—71.3(135G) Application for licensure.

71.3(1) *Initial application and licensing.* In order to obtain an initial license for a subacute care facility, the applicant must meet all the requirements of the rules, regulations, and standards contained in Iowa Code chapter 135G and in this chapter and must make application at least 30 days prior to the proposed licensure date of the subacute care facility on forms provided by the department. The applicant must:

a. Submit a résumé of care with a narrative which includes the following information:

(1) The purpose of the facility.

(2) A description of the target population and limitations on resident eligibility.

(3) Identification and description of the services the facility will provide, which shall minimally include specific and measurable goals and objectives for each of the services to be made available by the facility and a description of the resources needed to provide each of the services, including staff, physical facilities and funds.

(4) A description of the human services system available in the area including, but not limited to, social, public health, visiting nurse, vocational training, and employment services, residential living arrangements, and services of private agencies.

(5) A description of working relationships with human services agencies when applicable, which shall include at a minimum:

1. A description of how the facility will coordinate with human services agencies to facilitate continuity of care and coordination of services to residents; and

2. A description of how the facility will coordinate with human services agencies to identify unnecessary duplication of services and plan for development and coordination of needed services;

b. Submit a floor plan of each floor of the facility drawn on 8½- × 11-inch paper showing room areas in proportion, room dimensions, room numbers for all rooms, including bathrooms, the designation of the use to which each room will be put, and window and door location;

c. Submit a photograph of the front and side elevation of the facility;

d. Submit the statutory fee for a subacute care facility license;

e. Show evidence of a certificate signed by the state fire marshal or deputy state fire marshal, or the designee of either, certifying compliance with fire safety rules.

71.3(2) *Conversion from an intermediate care facility for persons with mental illness.* An intermediate care facility for persons with mental illness may be converted to a subacute care facility pursuant to Iowa Code section 135G.4(2) if the facility:

a. Provides written notice to the department that the facility has employed a full-time psychiatrist and desires to make the conversion; and

b. Submits an application to the department.

71.3(3) *Renewal application or change of ownership.* In order to obtain a renewal or change of the subacute care facility license, the applicant must:

a. Submit to the department the completed application form 30 days prior to the annual license renewal or change of ownership date;

b. Submit the statutory license fee for a subacute care facility with the application for renewal or change of ownership;

c. Have an approved, current certificate signed by the state fire marshal or deputy state fire marshal, or the designee of either, certifying compliance with fire safety rules and regulations; and

d. Submit appropriate changes in the résumé of care to reflect any changes in the resident care program or other services.

71.3(4) *Issuance of license.* Licenses are issued to the person or governmental unit with responsibility for the operation of the facility and authority to comply with all applicable statutes, rules or regulations. The person or governmental unit must be the owner of the facility or, if the facility is leased, the lessee.

71.3(5) *Beds per facility.* A single facility shall not be licensed for more than 16 beds.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 2068C**, IAB 7/22/15, effective 8/26/15; **ARC 4431C**, IAB 5/8/19, effective 6/12/19]

481—71.4(135G) Licenses for distinct parts.

71.4(1) Separate licenses may be issued for distinct parts of a health care facility which are clearly identifiable, include specifically designated rooms within the facility, and provide separate categories of care and services.

71.4(2) The following requirements shall be met for a separate licensing of a distinct part:

a. The distinct part shall serve only residents who require the category of care and services immediately available to the residents within that part;

b. The distinct part shall meet all the standards, rules, and regulations pertaining to the category for which a license is being sought;

c. A distinct part must be operationally and financially feasible.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14]

481—71.5(135G) Waivers.

71.5(1) Waivers from these rules may be granted by the director of the department if, in addition to the requirements of 7—Chapter 2504:

a. The need for a waiver has been established consistent with the résumé of care or the resident's individual program plan; and

b. There is no danger to the health, safety, welfare, or rights of any resident.

71.5(2) The waiver will apply only to a subacute care facility.

71.5(3) Waivers shall be reviewed by the department at the time of each licensure survey to verify whether the facility is still eligible for the waiver.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 5719C**, IAB 6/16/21, effective 7/21/21; Editorial change: IAC Supplement 8/5/26]

481—71.6(135G) Provisional license.

71.6(1) *Provisional license procedure.* The department may issue a provisional license to a subacute care facility pursuant to Iowa Code section 135G.8. The procedure for issuance of a provisional license shall be as follows:

a. The department shall first issue to the facility a report which identifies the deficiency.

b. Within 10 working days after receipt of the report, the facility shall provide the department with a written plan of correction.

c. The department shall review the written plan of correction within 10 working days of receipt. The department may request additional information or revision to the plan, which shall be provided as requested.

d. After accepting the written plan of correction, the department shall then issue a provisional license to the facility, which shall not exceed one year in duration.

71.6(2) *Written plan of correction.* The written plan of correction shall contain:

a. How the facility will correct the deficient practice;

b. How the facility will act to protect residents;

c. The measures the facility will take or the systems it will alter to ensure that the deficient practice does not recur; and

d. The date when the plan of correction will be completed, not to exceed 30 days from the date of the department's report.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14]

481—71.7(135G) General requirements.

71.7(1) The license shall be displayed in the facility in a conspicuous place which is viewed by the public.

71.7(2) The license shall be valid only for the premises and person named on the license and is not transferable.

71.7(3) The posted license shall accurately reflect the current status of the subacute care facility's license.

71.7(4) A license shall expire one year after the date of issuance or as indicated on the license.

71.7(5) There shall be no more beds added than are stipulated on the license.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14]

481—71.8(135G) Required notifications to the department.

71.8(1) The department shall be notified:

a. Thirty days in advance of any proposed change in the subacute care facility's functional operation or the addition or deletion of required services;

b. Thirty days before any addition, alteration, or new construction is begun in the subacute care facility or on the premises;

c. Thirty days in advance of any closure of the subacute care facility;

d. Within two weeks of any change in administrator;

e. Within 30 days of the date on which any change in the category of license is sought;

f. Within 30 days of any proposed change in the résumé of care for the subacute care facility.

71.8(2) Prior to the purchase, transfer, assignment, or lease of a subacute care facility, the licensee shall:

a. Inform the department of the pending sale, transfer, assignment, or lease of the facility; and

b. Inform the department of the name and address of the prospective purchaser, transferee, assignee, or lessee at least 30 days before the sale, transfer, assignment, or lease is completed.

71.8(3) Within 24 hours, or the next business day, by the most expeditious means available, the department shall be notified:

a. Of any accident causing major injury. "Major injury" shall be defined as any injury which:

(1) Results in death; or

(2) Requires admission to a higher level of care for treatment, other than for observation; or

(3) Requires consultation with the attending physician, designee of the physician, physician associate, or advanced registered nurse practitioner who determines, in writing, on a form designated by the department, that an injury is a "major injury" based upon the circumstances of the accident, the previous functional ability of the resident, and the resident's prognosis;

b. When a resident attempts suicide, regardless of injury;

c. When damage to the facility is caused by a natural or other disaster;

d. When a fire occurs in a facility and the fire requires the notification of emergency services, requires full or partial evacuation of the facility, or causes physical injury to a resident;

e. When a defect or failure occurs in the fire sprinkler system for more than 10 hours or fire alarm system for more than 4 hours in a 24-hour period. (This reporting requirement is in addition to the requirement to notify the state fire marshal or the state fire marshal's designee.)

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19; **ARC 6974C**, IAB 4/5/23, effective 5/10/23; Editorial change: IAC Supplement 6/10/26]

481—71.9(135G) Reports of dependent adult abuse. Reports of suspected dependent adult abuse shall be made to the department of human services.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14]

481—71.10(135G) Administrator.

71.10(1) *Administrator required.* Each subacute care facility shall have one person in charge who is duly approved by the department or acting in a provisional capacity in accordance with these rules.

71.10(2) *Qualifications of an administrator.* The administrator shall be at least 21 years of age and shall have a high school diploma or equivalent. In addition, the person shall meet at least one of the following conditions:

a. Be a mental health professional, as defined in Iowa Code section 228.1(7), with at least one year of experience in an administrative capacity; or

b. Have a four-year degree in human services, psychology, sociology, nursing, health care administration, public administration, or a related field and have a minimum of one year of experience in the field; or

c. Have a master's degree in human services, psychology, sociology, nursing, health care administration, public administration, or a related field; or

d. Be a licensed nursing home administrator.

71.10(3) *Administrator—distinct part.* If a subacute care facility is a distinct part of a licensed health care facility, the administrator of the facility as a whole may serve as the administrator of the subacute care facility.

71.10(4) *Provisional administrator.* A provisional administrator may be appointed on a temporary basis by the subacute care facility licensee to assume the administrative responsibilities of the facility for a period not to exceed 12 months when the facility has, through no fault of its own, lost its administrator and has not been able to replace the administrator, provided the department has been notified and has approved the provisional administrator prior to the date of the administrator's appointment. The provisional administrator must meet the requirements of subrule 71.10(2).

71.10(5) *Administrator—initial licensing of facility.* A facility applying for an initial license shall not have a provisional administrator.

71.10(6) *Duties of administrator.* An administrator shall:

a. Be responsible for the implementation of procedures to support the policies established by the licensee;

b. Select and direct competent personnel who provide services for the subacute care facility;

c. Make a policies and procedures manual available to all staff;

d. Be responsible for a monthly in-service educational program for all employees and maintain records of programs and participants;

e. Make staff payroll records available for departmental review as needed;

f. Furnish to the department within 30 days of the department's request statistical information concerning the operation of the facility.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19]

481—71.11(135G) Administration.

71.11(1) The licensee shall:

a. Assume the responsibility for the overall operation of the subacute care facility;

b. Be responsible for compliance with all applicable laws and with the rules of the department;

c. Establish written policies, which shall be available for review, for the operation of the subacute care facility.

71.11(2) The policy and procedures shall include:

a. Personnel;

b. Admission;

c. Evaluation services;

d. Treatment and discharge plan;

e. Crisis intervention, including restraint and seclusion;

f. Involuntary discharge or transfer;

g. Medication management;

h. Records;

i. Resident rights.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14]

481—71.12(135G) Personnel.

71.12(1) Staffing requirements. Availability of personnel must be sufficient to meet psychiatric and medical treatment needs of the residents served.

71.12(2) Staffing shall include at minimum:

a. Twenty-four-hour-per-day, seven-day-per-week availability of on-call psychiatrist or advanced registered nurse practitioner with at least one year of experience in psychiatric care;

b. Twenty-four-hour-per-day, seven-day-per-week availability of on-call registered nurse with at least two years of experience in psychiatric care or a registered nurse with a bachelor of science in nursing (BSN) and at least one year of experience in psychiatric care;

c. A mental health professional as defined in Iowa Code section 228.1(7);

d. Direct care staff with at least one year of experience in a mental health care setting; and

e. Social service staff at the bachelor level with at least one year of experience in a mental health care setting.

71.12(3) Personnel policies and procedures shall include the following requirements:

a. Written job descriptions for all employees or agreements for all consultants, which include duties and responsibilities, education, experience, or other requirements, and supervisory relationships.

b. Annual performance evaluations of all employees and consultants which are dated and signed by the employee or consultant and the supervisor.

c. Personnel records which are current, accurate, complete, and confidential to the extent allowed by law.

(1) The record shall contain documentation of how the employee's or consultant's education and experience are relevant to the position for which the employee or consultant was hired.

(2) The record shall contain documentation of criminal history, child abuse and dependent adult abuse record checks, which shall be conducted prior to employment.

d. Roles, responsibilities, and limitations of student interns and volunteers.

e. An orientation program for all newly hired employees and consultants that includes an introduction to the facility's personnel policies and procedures and a discussion of the facility's safety plan.

f. Equal opportunity and affirmative action employment practices.

g. Procedures to be used when disciplining an employee.

h. Appropriate dress and personal hygiene for staff.

i. An overview of recovery principles, person-centered planning and residents' rights.

71.12(4) The facility shall require regular health examinations for all personnel. Employees shall have a health examination within 12 months prior to beginning employment and regular examinations thereafter at least every four years. The examination shall include, at a minimum, the health status of the employee, including screening and testing for tuberculosis as described in 481—Chapter 59.

a. No person shall be allowed to provide services in a facility if the person has a disease:

(1) Which is transmissible through required workplace contact;

(2) Which presents a significant risk of infecting others;

(3) Which presents a substantial possibility of harming others; and

(4) For which no reasonable accommodation can eliminate the risk.

b. There shall be written policies for emergency medical care for employees in case of sudden illness or accident. These policies shall include the administrative individuals to be contacted.

c. Health certificates for all employees shall be available for review by the department.

71.12(5) Personnel record.

a. A personnel record shall be kept for each employee.

b. The record shall include the employee's:

(1) Name and address,

(2) Social security number,

(3) Date of birth,

(4) Date of employment,

(5) References,

(6) Position in the facility,

(7) Job description,

(8) Documentation of experience and education,

(9) Criminal history, child abuse and dependent adult abuse background checks,

(10) Staff training records,

(11) Annual performance evaluation,

(12) Documentation of disciplinary action,

(13) Date and reason for discharge or resignation,

(14) Current physical examination.

71.12(6) Orders for medications and treatments shall be correctly implemented by qualified personnel.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19]

481—71.13(135G) Admission, transfer, and discharge.

71.13(1) *General admission policies.*

a. A subacute care facility shall not admit or retain a resident who is in need of greater services than the facility can provide.

b. Prior to admission of an applicant, the facility shall obtain sufficient information to determine if its program is appropriate and adequate to meet the individual's needs.

c. A subacute care facility shall admit only as many residents as indicated by the number of beds for which the facility is licensed.

d. A subacute care facility shall adopt policies regarding the admission requirements outlined in subrule 71.13(2).

71.13(2) *Admission requirements.*

a. Eligibility for individualized subacute mental health services will be determined by the standardized preadmission screening utilized by the facility. The screening shall be conducted by a mental health professional as defined in Iowa Code section 228.1(7), a physician, a physician associate, or an advanced registered nurse practitioner.

b. In order to be admitted, the individual must:

(1) Be 18 years or older;

(2) During the past year, have had a diagnosable mental, behavioral or emotional disorder that meets the diagnostic criteria specified in the most current edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM);

(3) Demonstrate a high degree of impairment through significantly impaired mental, social, or educational functioning arising from the psychiatric condition or serious emotional disturbance;

(4) Demonstrate an impairment that severely limits the skills necessary to maintain an adequate level of functioning outside a treatment program and requires active treatment to obtain an adequate level of functioning;

(5) Demonstrate a low level of stability through any two of the following conditions:

1. The individual presents moderate to high risk of danger to self or others.
2. The individual lacks adequate skills or social support to address mental health symptoms.
3. The individual is medically stable but requires observation and care for stabilization of a mental health condition or impairment.

71.13(3) *Admission agreement.* A subacute care facility shall provide an admission agreement to each resident upon admission to the facility. Each admission agreement shall include:

a. Method of payment;

b. Schedule of services and any additional fees;

c. The facility's policies regarding length of stay, discharge and transfer.

71.13(4) *Exclusion criteria.*

a. A subacute care facility shall not admit an individual into the facility if:

(1) The individual manifests behavioral or psychiatric symptoms that require acute care;

(2) The individual can be safely maintained and effectively treated with less intensive services in a community setting; or

(3) The symptoms of the individual do not meet admission criteria in subrule 71.13(2).

b. An individual's lack of adequate place of residence, placement, or housing is not reason to receive subacute mental health services.

71.13(5) *Continued stay criteria policies.* By the tenth day following admission and every ten calendar days thereafter, the mental health professional shall conduct and document an assessment of the resident and determine if:

a. The severity of the behavioral and emotional symptoms continues to require the subacute level of intervention and the DSM diagnosis remains the principal diagnosis.

b. The prescribed interventions remain consistent with the intended treatment plan outcomes.

c. There is documented evidence of active, individualized discharge planning.

d. There is a reasonable likelihood of substantial benefit in the resident's mental health condition as a result of active intervention of the 24-hour supervised program.

e. Symptoms and behaviors that required admission are continuing.

f. A less intensive level of care would be insufficient to stabilize the resident's condition.

g. New issues that meet the admission guidelines in subrule 71.13(2) have appeared.

h. The resident requires further stabilization subsequent to acute care to treat active mental health symptoms such as psychosis, depression or mood disorder.

71.13(6) *Discharge criteria policies.* A resident may be discharged from subacute level of care if:

a. The resident's treatment plan goals and objectives for subacute services have been met and a discharge plan to outpatient or other community-based services is in place.

b. The resident's physical condition necessitates transfer to a more intensive level of care.

c. The resident is not making progress toward treatment goals and there is no reasonable expectation of progress at the subacute level of care.

d. The resident becomes a danger to self, others, or facility structure and requires an emergency transfer to a higher level of care.

e. The resident repeatedly refuses to participate in the resident's treatment plan.

71.13(7) *Discharge or transfer.*

a. The facility shall give prior notification to the resident, as well as the resident's next of kin, legal representative, attending physician or advanced registered nurse practitioner, and sponsoring agency, if any, prior to transfer or discharge of any resident.

b. The subacute care facility shall make proper arrangements for the welfare of the resident prior to transfer or discharge in the event of an emergency or inability to reach the next of kin or legal representative.

c. The facility shall make advance notification to the receiving facility prior to the transfer of any resident if the resident is to be transferred to another facility.

(1) Notification shall be made no less than 24 hours prior to transfer unless paragraph 71.13(6)*"d"* applies.

(2) Prior to the transfer or discharge of a resident to another health care facility, arrangements to provide for continuity of care shall be made with the facility to which the resident is being transferred.

d. The appropriate record as set forth in subrule 71.20(1) shall accompany the resident when the resident is transferred or discharged.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 2068C**, IAB 7/22/15, effective 8/26/15; **ARC 4431C**, IAB 5/8/19, effective 6/12/19; Editorial change: IAC Supplement 6/10/26]

481—71.14(135G) Treatment plan.

71.14(1) A treatment plan must be developed with each resident. The plan must be based on initial and ongoing assessment of need, be designed to resolve the acute or crisis mental health symptoms or the imminent risk of acute or crisis mental health symptoms, and be completed within six hours of admission, or no later than 12 noon following admission if the resident is admitted between 8 p.m. and 6 a.m.

71.14(2) The treatment plan must be documented in the resident's record and must include the following:

a. The resident's name.

b. The date the plan is developed.

c. Standardized diagnostic formulations, including but not limited to the current Diagnostic and Statistical Manual (DSM) or the current International Statistical Classification of Diseases and Related Health Problems (ICD).

d. Problems and strengths of the resident that are to be addressed.

e. Observable and measurable individual objectives that relate to the specific problems identified.

f. Interventions that address specific objectives, identification of staff responsible for interventions, and planned frequency of interventions.

g. Signatures of mental health professionals responsible for developing the plan, including the qualified prescriber.

h. Signatures of the resident and any parent, guardian, conservator, or legal custodian. Reasons for refusal to sign or inability to participate in treatment plan development must be documented.

i. A projected discharge date and anticipated postdischarge needs, including documentation of resources needed in the community.

j. Review of the treatment plan by the appropriate treatment staff at least daily and upon completion of the stated goals or objectives and documentation of the following:

(1) Progress toward each treatment objective, with revisions as indicated; and

(2) Status of discharge plans, including availability of resources needed by the resident in the community, with revisions as indicated.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19]

481—71.15(135G) Crisis intervention.

71.15(1) There shall be written policies and procedures concerning crisis intervention. These policies and procedures shall be:

a. Directed to maximizing the growth and development of the individual by incorporating a hierarchy of available alternative methods that emphasize positive approaches;

b. Available in each program area and living unit;

c. Available to individuals and their families; and

d. Developed with the participation, as appropriate, of individuals served.

71.15(2) An emergency safety intervention must be performed in a manner that is safe, proportionate, and appropriate to the severity of the behavior and to the individual's chronological and developmental age, size, gender, physical, medical, and psychiatric condition and personal history, including any history of physical or sexual abuse.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14]

481—71.16(135G) Seclusion and restraint.

71.16(1) *Use of a seclusion room.* Pursuant to Iowa Code section 135G.3(2), a seclusion room used by a subacute care facility must meet the conditions of 42 CFR § 483.364(b).

a. A subacute care facility utilizing a seclusion room shall have written policies regarding its use. The policy shall:

(1) Specify the types of behavior that may result in seclusion room placement.

(2) Delineate the licensed personnel who may authorize use of the seclusion room.

(3) Require documentation of the time in the seclusion room, the reasons for use of the seclusion room, and the reasons for any extension of time beyond one hour. Under no circumstances shall the use of the seclusion room exceed four hours.

(4) Require notice to residents of the types of behavior that may result in seclusion room placement.

b. A staff member shall always be in hearing distance of the seclusion room, and the resident shall be visually checked by the staff at least every 15 minutes. Every check shall be documented in writing.

c. A seclusion room shall not be used for punishment, for the convenience of staff, or as a substitution for supervision. A seclusion room shall only be used when a less restrictive alternative has failed and:

(1) In an emergency to prevent injury to the resident or to others; or

(2) For crisis intervention.

71.16(2) *Use of restraints.* There shall be written policies that define the use of restraint, designate the staff member who may authorize its use, and establish a mechanism for monitoring and controlling its use.

a. Restraint shall not be used for punishment, for the convenience of staff, or as a substitution for supervision. Restraint shall only be used:

(1) In an emergency to prevent injury to the resident or to others; or

(2) For crisis intervention.

b. Restraint must not result in harm or injury to the resident and must be used only to ensure the safety of the resident or others during an emergency situation until the emergency situation has ceased, even if the restraint order has not expired.

c. The use of restraint should be selected only when other less restrictive measures have been found to be ineffective to protect the resident or others. The staff shall demonstrate effective treatment approaches and alternatives to the use of restraint.

d. Under no circumstances shall a resident be allowed to actively or passively assist in the restraint of another resident.

e. Staff trained in the use of emergency safety interventions must be physically present and continually assessing and monitoring the well-being of the resident and the safe use of restraint throughout the duration of the emergency situation.

71.16(3) *Orders for restraint or seclusion.* An order for restraint or seclusion shall not be written as a standing order or on an as-needed basis.

a. Each order for restraint or seclusion shall include:

(1) The name of the ordering physician, physician associate or advanced registered nurse practitioner.

(2) The date and time the order is obtained.

(3) The emergency safety intervention ordered, including the length of time for which restraint or seclusion is authorized.

b. Orders for restraint or seclusion must be by a physician, physician associate or advanced registered nurse practitioner.

(1) Verbal orders must be received while the emergency safety intervention is being initiated by staff or immediately after the emergency safety situation ends and must be verified in writing in the resident's record by the physician, physician associate or advanced registered nurse practitioner.

(2) Once the one-time order for the specific resident in an emergency safety situation has expired, it may not be renewed on a planned, anticipated, or as-needed basis.

71.16(4) *Simultaneous use prohibited.* Restraint and seclusion shall not be used simultaneously.

71.16(5) *Documentation of use of restraint or seclusion.* Staff must document in the resident's record and in a centralized tracking system any use of restraint or seclusion.

a. Documentation must be completed by the end of the shift in which the intervention occurs or during the shift in which it ends.

b. Documentation shall include:

(1) The order for restraint or seclusion.

(2) The time the emergency safety intervention began and ended.

(3) The emergency safety situation that required restraint or seclusion.

(4) The name of staff involved in the emergency safety intervention.

(5) The interventions used and their outcomes.

(6) The signature of the physician, physician associate or advanced registered nurse practitioner.

71.16(6) *Meeting to process restraint or seclusion.* As soon as reasonably possible after the restraint or seclusion of a resident has terminated, staff must meet to process the restraint or seclusion occurrence and document in writing the meeting.

71.16(7) *Multiple occasions of restraint or seclusion.* A resident who requires restraint or seclusion on multiple occasions should be considered for a higher level of care.

71.16(8) *Staff training.* The facility shall provide to the staff training by qualified professionals on physical restraint and seclusion theory and techniques.

a. The facility shall keep a record of the training, including attendance, for review by the department.

b. Only staff who have documented training in physical restraint and seclusion theory and techniques shall be authorized to assist with the seclusion or physical restraint of a resident.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19; Editorial change: IAC Supplement 6/10/26]

481—71.17(135G) Medication management.

71.17(1) Medications must be ordered by qualified prescribers and administered by qualified personnel. For purposes of this subrule, "qualified personnel" means, at a minimum, a certified medication aide.

71.17(2) Prescription medication must be legally dispensed and labeled according to state law.

71.17(3) All medication errors, drug reactions and suspected drug overmedication must be documented and reported to the practitioner who prescribed the medication.

71.17(4) All medications and other preparations intended for internal or external human use must be stored in medicine cabinets or drug rooms. When preservation of the medication or other preparation

requires refrigeration, the facility must provide a means of securely refrigerating these items. Such cabinets or drug rooms must be kept securely locked when not in use, and the key must be in the possession of the supervising nurse or other authorized person.

71.17(5) Schedule II drugs must be stored within two separately locked compartments at all times and accessible only to qualified personnel in charge of administering medication.

71.17(6) Any unused portions of program-prescribed medication(s) must be either turned over to the resident with written authorization and directions by the qualified prescriber or returned to a pharmacy for proper disposition by the pharmacist.

71.17(7) Whenever a resident brings the resident's own prescribed medications into the facility, such medications must not be administered unless identified by a qualified prescriber or pharmacist and ordered by a qualified prescriber. If such medications cannot be administered, they must be packaged, sealed, and returned to an adult member of the resident's immediate family or the legal guardian or securely stored and returned to the resident upon discharge. However, if previously prescribed medication would prove harmful to the resident, the medication may be withheld from the resident and disposed of in accordance with subrule 71.17(6). There must be documentation by the qualified prescriber in the resident's clinical record citing the dangers or contraindications of the medication being withheld.

71.17(8) All potent, poisonous, or caustic materials shall be stored separately from medications. All potent, poisonous, or caustic materials shall be plainly labeled and stored in a specific, well-illuminated cabinet, closet or storeroom and made accessible only to authorized personnel.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19]

481—71.18(135G) Dietary.

71.18(1) *Nutrition and menu planning.*

a. Menus shall be planned and followed to meet the nutritional needs of residents.

b. Menus shall be planned and served to include foods and amounts necessary to meet federal dietary guidelines.

c. At least three meals or their equivalent shall be served daily, at regular hours.

71.18(2) *Dietary storage, food preparation, and service.* All food shall be handled, prepared, served and stored in compliance with the Food Code adopted pursuant to Iowa Code section 137F.2.

[**ARC 4431C**, IAB 5/8/19, effective 6/12/19]

481—71.19(135G) Buildings, furnishings, and equipment.

71.19(1) *Buildings—general requirements.*

a. All windows shall be supplied with window treatments that are kept clean and in good repair.

b. Whenever glass sliding doors or transparent panels are used, they shall be marked conspicuously.

c. The facility shall meet the equivalent requirements of the appropriate group occupancy of the state fire code.

71.19(2) *Furnishings and equipment.*

a. All furnishings and equipment shall be durable, cleanable, and appropriate to their function.

b. Upholstery materials shall be moisture- and soil-resistant as needed, except on furniture provided by the resident and the property of the resident.

71.19(3) *Dining area and common area.* Every facility shall have a dining area and a common area easily accessible to all residents.

a. A common area shall be maintained for the use of residents and their visitors and may be used for recreational activities. Common areas shall be suitably furnished.

b. Dining areas shall be furnished with dining tables and chairs appropriate to the size and function of the facility. Dining areas and furnishings shall be kept clean and sanitary.

71.19(4) *Bedrooms.*

a. Each resident shall be provided with a twin-sized or larger bed, substantially constructed and in good repair. Rollaway beds, metal cots, or folding beds are not acceptable.

b. Each bed shall be equipped with the following: casters or glides; clean springs in good repair; a clean, comfortable, well-constructed mattress approximately five inches thick and standard in size for the bed; and clean, comfortable pillows of average bed size.

c. Each resident shall have a bedside table with a drawer to accommodate personal possessions.

d. There shall be a comfortable chair, either a rocking chair or armchair, per resident bed. The resident's personal wishes shall be considered.

e. There shall be drawer space for each resident's clothing. In a bedroom in which more than one resident resides, drawer space shall be assigned to each resident.

f. Beds and other furnishings shall not obstruct free passage to and through doorways.

g. Beds shall not be placed in such a manner that the side of the bed is against the radiator or in close proximity to it unless the radiator is covered so as to protect the resident from contact with it or from excessive heat.

h. There shall be no more than two residents per room.

71.19(5) *Bath and toilet facilities.*

a. There shall be a minimum of one toilet and one sink for each four residents and one shower for each eight residents. For example, a facility with the maximum of 16 beds shall have four toilets and sinks and two showers.

b. All sinks shall have paper towel dispensers and an available supply of soap.

c. Toilet paper shall be readily available to residents.

71.19(6) *Heating.* A centralized heating system shall be maintained in good working order and capable of maintaining a comfortable temperature for residents of the facility. Portable units or space heaters are prohibited from being used in the facility except in an emergency.

71.19(7) *Water supply.*

a. Private sources of water supply shall be tested annually and the report made available for review by the department upon request.

b. A bacterially unsafe source of water supply shall be grounds for denial, suspension, or revocation of license.

c. The department may require testing of private sources of water supply at its discretion in addition to the annual test. The facility shall supply reports of such tests as directed by the department.

d. Hot and cold running water under pressure shall be available in the facility.

e. Prior to construction of a new facility or new water source, private sources of water supply shall be surveyed and shall comply with the requirements of the department.

[**ARC 4431C**, IAB 5/8/19, effective 6/12/19]

481—71.20(135G) Records.

71.20(1) *Resident record.* The licensee shall keep a permanent record about each resident with all entries current, dated, and signed. The record shall include:

a. Name and previous address of resident;

b. Birth date, sex, and marital status of resident;

c. Provisional or admitting diagnosis;

d. A biopsychosocial history sufficient to provide data on the resident's relevant past history, present situation, social support system, community resource contacts, and other information relevant to appropriate treatment and discharge planning;

e. The name, telephone number and address of the licensed mental health professional completing the biopsychosocial history;

f. Name, address and telephone number of next of kin or legal representative;

g. Name, address and telephone number of the person to be notified in case of emergency;

h. Pharmacy name, telephone number, and address;

i. Written orders for treatment and medications, signed by a physician, physician associate or advanced registered nurse practitioner;

j. Any change in the resident's condition;

k. Notations describing the resident's condition on admission, transfer, and discharge;

l. A copy of instructions given to the resident, legal representative, or facility in the event of discharge or transfer;

m. Individualized treatment and discharge or transfer plan pursuant to rule 481—71.14(135G);

n. Progress notes, including any use of seclusion or restraint pursuant to rule 481—71.16(135G), recorded by the physician, physician associate, advanced registered nurse practitioner or mental health professional and, when appropriate, others significantly involved in active treatment modalities. Progress notes must contain a concise assessment of the resident's progress and recommendations for revising the treatment plan as indicated by the resident's condition;

o. The discharge summary, including a recapitulation of the resident's hospitalization, recommendations for appropriate services concerning follow-up, and a brief summary of the resident's condition on discharge.

71.20(2) *Confidentiality of resident records.* The facility shall have policies and procedures providing that each resident shall be assured confidential treatment of all information, including information contained in electronic records.

a. The facility shall limit access to any resident records to staff and consultants providing professional services to the resident. Information shall be made available to staff only to the extent that the information is relevant to the staff person's responsibilities and duties. This restriction shall not preclude access by representatives of state or federal regulatory agencies.

b. The resident, or the resident's legal guardian, shall be entitled to examine all information and shall have the right to secure full copies of the record at reasonable cost upon request, unless the physician, physician associate, advanced registered nurse practitioner or mental health professional determines the disclosure of the record or a section thereof is contraindicated, in which case the designated information will be redacted prior to making the record available to the resident. This determination and the reasons for it must be documented in the resident's record.

71.20(3) *Incident records.*

a. Each subacute care facility shall maintain an incident record report and shall have available incident report forms.

b. A report of every unusual occurrence shall be detailed on the printed incident report form.

c. The person in charge at the time of the unusual occurrence shall oversee the preparation of and sign the incident report.

d. A copy of the incident report shall be kept on file in the facility and shall be available for review and a part of administrative records.

71.20(4) *Retention of records.*

a. Records shall be retained in the facility for five years following termination of services to the resident, even when there is a change of ownership.

b. When the facility ceases to operate, the resident's record shall be released to the facility to which the resident is transferred. If no transfer occurs, the record shall be released to the individual's physician or advanced registered nurse practitioner.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19; Editorial change: IAC Supplement 6/10/26]

481—71.21(135G) Residents' rights in general.

71.21(1) *Policies and procedures.* Each facility shall ensure that policies and procedures are written and implemented, include all of the following subrules, and govern all areas of service provided to staff and residents, their families or legal representatives. The policies and procedures shall be available to the public and shall be reviewed annually by the facility.

71.21(2) *Grievances.* Written policies and procedures shall include a method for submission of grievances and recommendations by residents or their responsible parties and a method to ensure a response and disposition by the facility. The written grievance procedure shall ensure protection of the resident from any form of reprisal or intimidation and shall include:

a. The name of an employee or an alternate staff person designated to be responsible for handling grievances and recommendations; and

b. Methods to investigate and assess the validity of a grievance or recommendation, resolve grievances, and take action.

71.21(3) *Informed of rights and responsibilities.* Policies and procedures shall include a provision that each resident shall be fully informed of the resident's rights and responsibilities as a resident and of all rules governing resident conduct and responsibilities. This information must be provided upon admission.

a. The facility shall inform residents about what they may expect from the facility and its staff and what is expected from residents.

b. Residents' rights and responsibilities shall be presented in language understandable to the resident. If the facility serves residents who are non-English-speaking or deaf or hard of hearing, steps shall be taken to translate the information into the person's native language or sign language. In the case of visually impaired residents, either Braille or a recording shall be provided.

c. A statement shall be signed by the resident and legal guardian, if applicable, indicating an understanding of these rights and responsibilities, and the statement shall be maintained in the record. A copy of the signed statement shall be given to the resident or legal guardian.

71.21(4) *Informed of health condition.* Each resident or legal guardian shall be fully informed by a physician, physician associate, advanced registered nurse practitioner or mental health professional of the resident's health and medical condition unless medically contraindicated as documented by a physician, physician associate, advanced registered nurse practitioner or mental health professional in the resident's record.

71.21(5) *Posting of names.* The facility shall post in a prominent area the name, telephone number, and address of the survey agency, the local law enforcement agency and the protection and advocacy agency designated to provide to residents another course of redress.

71.21(6) *Dignity preserved.* Each resident shall be treated with consideration, respect, and full recognition of the resident's dignity and individuality, including privacy in treatment and in care of personal needs.

a. Corporal punishment, verbal abuse, or any other activity that would be damaging to an individual's self-respect shall be prohibited by written policy.

b. Medication shall not be used as punishment, for the convenience of staff, or as a substitute for a program.

c. Staff shall display respect for residents when speaking with, caring for, or talking about them, as constant affirmation of the individuality and dignity of human beings.

d. Residents shall be examined and treated in a manner that maintains the privacy of their bodies. A closed door shall shield the resident from passersby. People not involved in the care of the residents shall not be present without the resident's consent while the resident is being examined or treated.

e. Staff shall knock and be acknowledged before entering a resident's room unless the resident is not capable of a response. This requirement does not apply under emergency conditions.

71.21(7) *Communications.* Each resident may communicate, associate, and meet privately with persons of the resident's choice, unless to do so would infringe upon the rights of other residents. Each resident may send and receive personal mail unopened unless prohibited in the treatment plan, which requires explicit approval of the resident or legal guardian.

71.21(8) *Visiting hours.* Subject to reasonable scheduling restrictions, visiting policies and procedures shall permit residents to receive visits from anyone they wish. Visiting hours shall be posted.

a. Reasonable, regular visiting hours shall not be less than 12 hours per day and shall take into consideration the special circumstances of each visitor. A particular visitor(s) may be restricted by the facility for one of the following reasons:

(1) The resident refuses to see the visitor(s).

(2) The visit would not be in accordance with the treatment plan.

(3) The visitor's behavior is unreasonably disruptive to the functioning of the facility.

b. Reasons for denial of visitation shall be documented in the resident's records.

71.21(9) *Privacy.* Space shall be provided for residents to receive visitors in comfort and privacy.

71.21(10) *Telephone calls.* Telephones shall be available and accessible for residents to make and receive calls with privacy. Residents who need help shall be assisted in using the telephone.

71.21(11) *Mail.* Arrangements shall be made to provide assistance to residents who require help in reading or sending mail.

71.21(12) *Permission to leave premises.* Residents shall be permitted to leave the facility and environs at reasonable times if permitted in writing by the physician, physician associate, advanced registered nurse practitioner, mental health professional, or administrator.

71.21(13) *Resident activities.* Each resident may participate in recreational activities as desired unless contraindicated for reasons documented in the resident's record.

71.21(14) *Resident property.* Each resident may retain and use personal clothing and possessions, as space permits, and cash and other financial instruments, provided that the use of such items is not otherwise prohibited.

a. The personal property shall be kept in a secure location which is convenient to the resident.

b. Residents shall be advised, prior to or at the time of admission, of the kinds and amounts of clothing and possessions permitted for personal use and whether the facility will accept responsibility for maintaining these items, e.g., cleaning and laundry.

c. Any personal clothing or possessions retained by the facility for the resident shall be identified and recorded on admission and the record placed on the resident's chart. The facility shall be responsible for secure storage of items, and the items shall be returned to the resident promptly upon request or upon discharge from the facility.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19; **ARC 5711C**, IAB 6/16/21, effective 7/21/21; Editorial change: IAC Supplement 6/10/26]

481—71.22(135G) Health and safety.

71.22(1) *Emergency care.* Each facility shall have written policies and procedures for emergency medical and psychiatric treatment, which shall include immediate notification by the person in charge to the physician, physician associate, advanced registered nurse practitioner or mental health professional of any accident, injury or adverse change in the resident's condition. "Immediate" for purposes of this subrule means within 24 hours.

71.22(2) *First-aid kit.* A first-aid emergency kit shall be available on each floor.

71.22(3) *Infection control.* Each facility shall have a written and implemented infection control program.

71.22(4) *Safe environment.* The licensee of a subacute care facility is responsible for the provision and maintenance of a safe environment for residents and personnel. The subacute care facility shall meet the fire and safety rules as promulgated by the state fire marshal or the state fire marshal's designee.

71.22(5) *Disaster.* The licensee shall have a written emergency plan to be followed in the event of fire, tornado, explosion, or other emergency.

a. The plan shall be posted.

b. Training shall be provided to ensure that all employees are knowledgeable of the emergency plan. The training shall be documented.

71.22(6) *Smoking.* A subacute care facility shall follow the smokefree air Act, Iowa Code chapter 142D.

[**ARC 1740C**, IAB 11/26/14, effective 12/31/14; **ARC 4431C**, IAB 5/8/19, effective 6/12/19; Editorial change: IAC Supplement 6/10/26]

These rules are intended to implement Iowa Code chapter 135G.

CHAPTER 82
ECONOMIC FRAUD BUREAU

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

481—82.1(10A) Definitions.

"Client" means any person who has made an application for or is receiving state or federal public assistance from any state or federal agency.

"Collateral contact" means a reliable source other than the client who is knowledgeable about information relative to pertinent public assistance case factors.

"Department" means the department of inspections, appeals, and licensing.

"HHS" means the Iowa department of health and human services.

"Division" means the investigations division of the department.

"EBT" or *"electronic benefit transfer"* means the electronic process that allows a client to authorize the transfer of the client's benefits from a financial account to a retailer to pay for eligible items received. Clients are issued an EBT card similar to a bank ATM or debit card to receive and use their Supplemental Nutrition Assistance Program (SNAP) benefits.

"EBT trafficking" means the same as defined in 7 CFR 271.2.

"Intentional program violation" or *"IPV"* means the same as defined in 7 CFR 273.16(c)(1) and (2).

"Pertinent public assistance case factors" means information considered necessary to verify household composition, income, resources or any other potential program violation.

"Program violation" means action that is contrary to the rules of eligibility for any state or federal public assistance program.

"Public assistance" means the same as defined in rule 441—11.1(217), or any other state or federal assistance program.

[**ARC 0011D**, IAB 1/21/26, effective 2/25/26]

481—82.2(10A) Economic fraud bureau (EFB or bureau). Generally, the EFB conducts investigations of public assistance fraud, if a written agreement has been entered into between the department and an entity of the executive branch of the federal, state or local government, in order to maintain integrity and accountability in the administration of public assistance benefits.

[**ARC 0011D**, IAB 1/21/26, effective 2/25/26]

481—82.3(10A) Investigation procedures.

82.3(1) *Client contact.* The bureau may but does not have to contact the client during the course of an investigation. If the bureau contacts the client and the client does not respond, the client's nonresponse will be included in the bureau's investigation findings.

82.3(2) *Evidence gathered.* The bureau may conduct record reviews and gather evidence to verify a client's employment, wages, residence, household composition, income versus expenses, property ownership or other relevant facts.

82.3(3) *Subpoenas.* Subpoenas may be issued pursuant to Iowa Code section 10A.104 and 481—subrule 1.1(4) to obtain information necessary to an investigation. Subpoenas may be served upon the respondent of the subpoena or the respondent's registered agent as follows:

a. Personally by division personnel,

b. Via USPS mail, or

c. Via facsimile or email.

Division personnel determine the appropriate method by which the respondent is to deliver information in response to a subpoena duces tecum.

82.3(4) *Collateral contacts.* The division may use collateral contacts to collect information pertinent to an investigation or verify information provided by the client.

82.3(5) *Cooperation.* The division may cooperate with local, state or federal law enforcement agencies during investigations.

[**ARC 0011D**, IAB 1/21/26, effective 2/25/26]

481—82.4(10A) EBT trafficking investigations. In addition to the procedures outlined in rule 481—82.3(10A), the following apply to EBT trafficking investigations.

82.4(1) *Probable cause.* Probable cause must be established before an EBT trafficking investigation may be conducted.

82.4(2) *Referrals.* Referrals to the division may come from HHS, retailers, law enforcement agencies or the general public or following the identification of questionable EBT card transactions through federal or state databases. The bureau may open an investigation without an outside referral.

[**ARC 0011D**, IAB 1/21/26, effective 2/25/26]

481—82.5(10A) Findings. At the completion of an investigation, the bureau will transmit its findings in writing to the appropriate state or federal agency and make recommendations based on the evidence obtained or provided during the investigation.

82.5(1) *Decisions about public assistance eligibility.* The appropriate state or federal agency makes all decisions about public assistance eligibility. HHS will report the case action taken and any determination of overpayment, cost avoidance, or intentional program violation to the division.

82.5(2) *Testimony and hearings.* Staff of the division may be called to testify in administrative and legal proceedings related to an investigation, in addition to conducting EBT intentional program violation hearings.

[**ARC 0011D**, IAB 1/21/26, effective 2/25/26]

481—82.6(10A) Confidentiality. The EFB will maintain confidentiality of investigative case information in accordance with Iowa Code sections 10A.105 and 22.7(5) and any other applicable state or federal law.

[**ARC 0011D**, IAB 1/21/26, effective 2/25/26]

These rules are intended to implement Iowa Code sections 10A.105, 10A.402, and 10A.403.

[Filed ARC 0011D (Notice ARC 9749C, IAB 11/26/25), IAB 1/21/26, effective 2/25/26]

CHAPTER 83
MEDICAID FRAUD CONTROL UNIT

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

481—83.1(10A) Definitions.

"Abuse" or *"neglect"* means the same as "abuse of patients or residents" and "neglect of patients or residents" as defined in 42 CFR §1007.1 committed against:

1. A patient or resident of a health care facility as defined by 42 CFR §1007.1.
2. A resident in a board and care facility as defined by 42 CFR §1007.1.
3. A Medicaid beneficiary in a noninstitutional or other setting.

Such conduct may include but is not limited to violations under Iowa Code chapters 235B, 235E, 708, 709, 714, and 726.

"Director" means the same as defined in Iowa Code chapter 10A.

"Fraud" means the same as defined in 42 CFR §1007.1.

"Medicaid," "medical assistance program" or *"medical assistance"* means the same as defined in Iowa Code chapter 249A.

"Provider" means the same as defined in 42 CFR §1007.1.

"Unit" means the Iowa Medicaid fraud control unit.

[**ARC 0012D**, IAB 1/21/26, effective 2/25/26]

481—83.2(10A) Investigative authority. The unit's investigative authority is found in Iowa Code chapter 10A, 42 CFR §1007.11, and 45 CFR §164.512(d).

[**ARC 0012D**, IAB 1/21/26, effective 2/25/26]

481—83.3(10A) Access to records. The unit is authorized to request, review, and retain information and records necessary to investigate allegations within its state and federal authority. The unit is also a health oversight agency as defined by 45 CFR §164.501 and can receive protected health information pursuant to 45 CFR §164.512(d).

[**ARC 0012D**, IAB 1/21/26, effective 2/25/26]

481—83.4(10A) Subpoenas. In addition to any subpoena provisions set forth in 481—Chapter 1, the following apply:

83.4(1) The unit may serve subpoenas during the course of an open investigation upon an individual, entity, or the individual's or entity's registered agent by:

a. Personal service.

b. U.S. mail.

c. Electronic transmission via facsimile or email.

83.4(2) The unit is authorized to determine the appropriate format and method by which the individual or entity is to provide the information in response to a subpoena duces tecum.

[**ARC 0012D**, IAB 1/21/26, effective 2/25/26]

481—83.5(10A) Confidentiality. The unit will maintain the confidentiality of all investigative case information in accordance with Iowa Code chapters 22 and 685, 42 CFR §1007.11(f), 42 CFR Part 2, and any other applicable state or federal law.

[**ARC 0012D**, IAB 1/21/26, effective 2/25/26]

These rules are intended to implement Iowa Code sections 10A.104(6), 10A.105, 10A.402(5), and 10A.403.

[Filed ARC 0012D (Notice ARC 9750C, IAB 11/26/25), IAB 1/21/26, effective 2/25/26]

CHAPTER 84
AUDITS UNIT

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

481—84.1(10A) Audit occurrence. The department, acting as an agent for the Iowa department of health and human services (HHS), audits financial records of intermediate care facilities, residential care facilities, and intermediate care facilities for the intellectually disabled on a rotating basis or upon request of HHS. Audits are intended to ensure compliance with the following Iowa Administrative Code chapters:

1. 441—Chapter 52, "Payment."
2. 441—Chapter 54, "Facility Participation."
3. 441—Chapter 81, "Nursing Facilities."
4. 441—Chapter 82, "Intermediate Care Facilities for Persons with an Intellectual Disability."

If a chapter not listed is used in an audit, the auditor will notify the facility.

[**ARC 0010D**, IAB 1/21/26, effective 2/25/26]

481—84.2(10A) Confidentiality. All information compiled during an audit is confidential according to Iowa Code sections 10A.105 and 217.30. All inquiries to release information that is confidential under Iowa Code section 217.30 will be addressed to HHS.

84.2(1) Information may be added to an audit file by the subject of the audit when the subject notifies the Audits Unit, Department of Inspections, Appeals, and Licensing, 6200 Park Avenue, Des Moines, Iowa 50321.

84.2(2) At the conclusion of the audit, when material is returned to HHS, HHS rules regarding fair information practices prevail.

[**ARC 0010D**, IAB 1/21/26, effective 2/25/26]

These rules are intended to implement Iowa Code sections 10A.402 and 22.11.

[Filed ARC 0010D (Notice ARC 9748C, IAB 11/26/25), IAB 1/21/26, effective 2/25/26]

CHAPTER 90
PUBLIC ASSISTANCE DEBT RECOVERY UNIT (PADRU)
[Prior to 4/7/10, see 481—Ch 71]

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

PREAMBLE

More information related to this chapter can be found in 441—Chapter 11.
[**ARC 0013D**, IAB 1/21/26, effective 2/25/26]

481—90.1(10A) Definitions. The following definitions apply:

"Active case" means a household that is receiving public assistance.

"Allotment reduction" means an amount withheld from a financial or SNAP benefit.

"Benefit reduction" refers to SNAP.

"Debt" means the dollar amount of public assistance, by program, received by or on behalf of a person or provider in excess of that allowed by law, rules, or regulations for any given month(s); or the dollar amount of public assistance unlawfully transferred or obtained in violation of program rules; or the dollar amount of unpaid IowaCare personal financial responsibility obligations.

"Debtor" means any person who has been determined by HHS or by the department to be responsible for the repayment of a particular public assistance debt.

"Department" means the department of inspections, appeals, and licensing.

"Economic fraud bureau" means the economic fraud bureau of the investigations division of the department.

"FIP" means the family investment program described in 441—Chapters 40, 41, 45 and 46.

"Grant reduction" refers to the FIP and to RCA.

"HHS" means the Iowa department of health and human services.

"Notice of debt" means a notice that informs the debtor that a debt in a public assistance program has occurred and identifies the debt amount, the dates on which the debt was incurred, the cause of the debt, and the options the debtor has to repay the debt (more information can be found in 441—Chapter 11).

"Public assistance" means any program that HHS administers that confers a financial, medical, or SNAP benefit.

"RCA" means refugee cash assistance as described in 441—Chapter 60.

"Recovery" means the repayment of a debt by direct cash or credit card payment from the debtor, by allotment reduction, by setoffs, or by garnishment of wages or assets.

"Repayment agreement" means the same as defined in rule 441—11.1(217).

"Setoffs" means the practice described in Iowa Code section 421.65 and 701—Chapter 26.

"SNAP" means the Supplemental Nutrition Assistance Program as defined in rule 441—65.1(234).

"Title XIX divestiture" means a debt against a person who receives transferred assets from a Medicaid applicant or recipient within five years prior to an application for medical assistance if the applicant is approved for medical assistance (Medicaid) or a transfer impacting the recovery or payment of a medical assistance (Medicaid) debt.
[**ARC 0013D**, IAB 1/21/26, effective 2/25/26]

481—90.2(10A) Recovery process. The recovery process begins when data specifying which public assistance program(s) owed a debt is successfully entered on the designated overpayment recovery system and a notice of debt is issued to the debtor.
[**ARC 0013D**, IAB 1/21/26, effective 2/25/26]

481—90.3(10A) Records. PADRU maintains an account for each debt that has occurred for a debtor filed under the debtor's name, including information maintained pursuant to rule 441—11.2(217).
[**ARC 0013D**, IAB 1/21/26, effective 2/25/26]

481—90.4(10A) Debt repayment. A notice of debt pursuant to 441—subrule 11.2(2) or Form 470-0495, Agreement to Pay a Debt, is used to initiate payments of a debt. The minimum rate of payment is determined by each program unless set by a court order or otherwise negotiated by HHS. All recoveries are transmitted to the HHS cashier. Payments are made directly by cash, check, or money order or through an online payment portal by the debtor except as otherwise provided in this rule. The amount of allotment reduction for a FIP overpayment caused by an agency error will be different from the amount of allotment reduction for a client error, as determined by HHS.

90.4(1) *Active cases—PROMISE JOBS program.* For payment reduction for the PROMISE JOBS program, the debtor has to provide written permission to effectuate a FIP reduction.

90.4(2) *Active cases—FIP, RCA, SNAP.* Allotment reduction will be used, except that cash payment pursuant to a repayment agreement may be used when the repayment amount exceeds the amount that may be collected by allotment reduction.

90.4(3) *SNAP with electronic benefit balances.* SNAP payments may be made by returning electronic benefits to pay the debt.

[**ARC 0013D**, IAB 1/21/26, effective 2/25/26]

481—90.5(10A) Further collection action. If complete repayment has not been received by the methods described in rule 481—90.4(10A), or if the repayment agreement is not returned, further collection action may be taken. This action includes but is not limited to the following:

90.5(1) *For all debts.*

a. Debts of $6,500 or less, small claims court action.

b. Debts of more than $6,500, referral to the attorney general for district court action.

c. State income tax refund setoffs in accordance with 441—Chapter 11 and Iowa Code section 421.65.

d. The filing of a claim in a debtor's estate or bankruptcy proceedings.

e. Garnishment of wages or assets.

f. Setoffs of a state warrant.

g. Distress warrants.

h. Liens.

90.5(2) *For SNAP debts.* In addition to the above actions, federal offsets may be used for the collection of SNAP debts in accordance with rule 441—11.5(234).

[**ARC 0013D**, IAB 1/21/26, effective 2/25/26]

481—90.6(10A) Appeal rights. If a notice of debt or other notice of adverse action is received by the debtor and the debtor wishes to contest the debt, an appeal is submitted to the recovery unit or to HHS. If an appeal is submitted, the recovery process is suspended until conclusion of the appeal process outlined in 7—Chapter 2506 and 441—Chapter 7.

[**ARC 0013D**, IAB 1/21/26, effective 2/25/26; Editorial change: IAC Supplement 8/5/26]

481—90.7(10A) Data processing systems matches. The recovery unit compares information with other data processing systems to identify the location, resources, or income of a debtor. Part or all of a data processing system is used. The recovery unit uses but is not limited to using the data processing systems of the following entities:

1. Social Security Administration,
2. Department of workforce development,
3. Department of revenue,
4. Department of administrative services,
5. Department of transportation (driver's license and motor vehicle registration), and
6. Department of health and human services.

[**ARC 0013D**, IAB 1/21/26, effective 2/25/26]

481—90.8(10A) Confidentiality. The confidentiality of records is in accordance with 441—Chapter 9.

[**ARC 0013D**, IAB 1/21/26, effective 2/25/26]

These rules are intended to implement Iowa Code section 10A.402.

CHAPTERS 91 to 99
Reserved

GAMES OF SKILL, CHANCE, BINGO AND RAFFLES

CHAPTER 100
GENERAL PROVISIONS FOR SOCIAL AND CHARITABLE GAMBLING

[Prior to 12/17/86, Revenue Department[730], Ch 91]
[Prior to 11/18/87, Racing and Gaming Division[195]]
[Prior to 6/14/89, Racing and Gaming Division[491], Ch 20]

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

481—100.1(99B) Definitions. In addition to the definitions found in Iowa Code chapter 99B, and unless specifically defined in 481—Chapters 101 through 106, the following definitions apply to all social and charitable gambling rules:

"Bingo supplies and equipment" means a machine, display board, monitor, card, bingo paper, or any other implement or provision used in the conduct of the game of bingo licensed pursuant to Iowa Code chapter 99B.

"Department" means the department of inspections, appeals, and licensing.

"Director" means the director of the department of inspections, appeals, and licensing.

"QO" means the same as "qualified organization" as defined in Iowa Code section 99B.1(29).

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.2(99B) Licensure. Gambling shall only occur upon receipt of a license issued by the department that shall be prominently displayed at the gambling location.

100.2(1) *Types of gambling licenses—QOs.* A QO may apply for the six following license types, each of which permits the activities listed. A QO with a one-year or two-year license may apply for a very large raffle license.

License type/ Activity type	Two-year QO	One-year QO	180-day QO	90-day QO	14-day QO	Bingo at a fair or festival
Bingo	Three occasions per week; 15 occasions per month	No	No	No	Two occasions	One occasion per day for length of fair or festival
Games of skill and chance	Unlimited carnival-style games	No	No	No	Unlimited carnival-style games	No
Game night	One per calendar month	One per calendar month	One per calendar month	One per calendar month	One per calendar month	No
Very small and small raffles	Unlimited	Unlimited	Unlimited	Unlimited	Unlimited	No
Large raffles	One per calendar year	Eight per license period, each conducted in a different county	One per calendar year	One per calendar year	One per calendar year	No
Very large raffles	One per calendar year, requires additional very large raffle license	One per calendar year, requires additional very large raffle license	No	No	No	No
Electronic raffles	One small raffle per day; one large raffle per calendar year	No	No	No	No	No

100.2(2) *Other types of gambling licenses.* There are four other types of gambling licenses:

a. One-year license for an amusement concession.

b. Two-year license for social gambling in beer and liquor establishments.

c. Two-year license for social gambling in public places.

d. Annual license for manufacturers and distributors of bingo equipment and supplies or electronic raffle systems.

100.2(3) *Unlicensed very small raffle.* Iowa Code section 99B.24(3) allows one unlicensed very small raffle per calendar year for an organization that meets the definition of a QO. The QO shall obtain permission from the department to conduct this raffle.

100.2(4) *Political action committees.* Political action committees are not QOs and are not eligible for gambling licenses.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.3(99B) License application. In addition to requirements for licensure found in Iowa Code chapter 99B, the following standards apply to gambling licenses.

100.3(1) *Applications.* Applications may be completed online by visiting dial.iowa.gov and clicking on the link for "Social and Charitable Gambling." A paper application may be requested from the Social and Charitable Gambling Unit, Iowa Department of Inspections, Appeals, and Licensing, 6200 Park Avenue, Des Moines, Iowa 50321; or by calling 515.281.6848.

100.3(2) *Receipt of application.* An application shall be submitted at least 30 days before the beginning date requested.

100.3(3) *Fees.* License fees are not refundable.

100.3(4) *Documentation.* QOs applying for a charitable gambling license must submit documentation to prove tax-exempt status with the application.

100.3(5) *Application for incorrect license.* If the applicant does not apply for the appropriate license, the license fee may be applied to the appropriate license within 30 days of notification to the applicant by the department.

100.3(6) *Incomplete application submitted.* If the applicant submits an incomplete application, the application may be completed and submitted within 30 days of notification to the applicant by the department without forfeiting the fee submitted with the incomplete application.

100.3(7) *Responsible party.* The responsible party identified on the application shall sign the application or submit the online application and be a person who is authorized to make decisions on behalf of the QO.

100.3(8) *Sales tax permit.* QOs and amusement concessions licensees shall possess a sales tax permit at the time the license application is submitted. The following gambling activities are exempt from sales and local option taxes:

a. Gambling activities conducted by county and city governments.

b. Gambling activities held by the Iowa state fair, Iowa state fair authority, or Iowa state fair foundation (organized under Iowa Code chapter 173), including gambling activities that occur outside of the annual scheduled fair event.

c. Gambling activities held by a fair (as defined in Iowa Code section 174.1(2)), including gambling activities that occur outside of scheduled fair events.

d. Raffles held by a licensed QO at a fair as defined in Iowa Code section 99B.1 and pursuant to the requirements specified in Iowa Code section 99B.24.

e. Raffles, whether or not they are conducted at a fair event, where the proceeds are used to provide educational scholarships by a qualifying organization representing veterans as defined in Iowa Code section 99B.27(1)*"b."*

100.3(9) *State tax liabilities.* The applicant must have no outstanding state tax liabilities or submit with the application a copy of a negotiated repayment plan with the department of revenue and be current in all payments.

100.3(10) *Revocation—no license issued.*

a. No one involved in an organization with a gambling license revocation action pending will be granted a license similar to the license revoked.

b. No one with a gambling license currently under revocation may be issued any gambling license during the period of revocation.

c. A license will not be issued if there is a current revocation of either a gambling or a retail alcohol license for the location named on the license application.

100.3(11) *Criminal violations.* No applicant shall have been convicted of or pled guilty to a criminal violation of Iowa gambling law. No applicant shall have been convicted of a felony, federal or state, within five years of the date of the application. For felony convictions more than five years prior to the date of the application, citizenship rights must have been restored in order for the application to be considered. The applicant may have no more than two convictions of or guilty pleas to serious or aggravated misdemeanors in the last two years.

100.3(12) *Violations of gambling law or Iowa alcoholic beverage control Act (Iowa Code chapter 123).*

a. No applicant shall have been convicted of or pled guilty to a criminal violation of Iowa gambling law.

b. No retail alcohol license shall have been suspended within the last 12 months or revoked because of a conviction of or guilty plea to a criminal violation of the Iowa alcoholic beverage control Act.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.4 Reserved.

481—100.5(99B) Returned checks. If a check intended to pay for any license provided for under Iowa Code chapter 99B is not honored for payment by the bank on which the check is drafted, the department will notify the applicant of the need to provide sufficient payment before the license will be issued. An additional fee of $25 will be assessed for each dishonored check.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.6(99B) Payment systems. Payment systems are authorized by Iowa Code section 99B.5 and shall comply with all applicable federal and state laws regarding payment card processing and the protection of personal information.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.7(99B) Participation—game of skill, game of chance or raffle. No one who conducts a game of skill, game of chance, or raffle may participate in the game or raffle. An individual "conducts" a raffle if the individual directly participates in the mechanism of selection of the prize, such as drawing the winning entry. An individual "conducts" a game of skill or game of chance if the person is a dealer or a croupier or otherwise operates the game.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.8(99B) Posted rules—games other than bingo and raffles. Rules established by the licensee shall be posted on a sign near the front of the playing area in large, easily readable print or made available electronically at each player's location before the player forfeits money to play the game and include:

1. The name and mailing address of the licensee;
2. Prices to play;
3. How winners will be determined;
4. Prize(s) or categories of prizes for each game; and
5. Description of each game, including the cost per game. For example, a game might be one opportunity to shoot and make one basket or three opportunities to shoot and make one basket.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.9 Reserved.

481—100.10(99B) Rules—raffles.

100.10(1) A copy of the rules for a raffle shall be available upon request and include the following:

a. Methods of awarding a prize, including the date the prize is won;

b. Prices to play, including discounts; and

c. Whether a sufficient number of entries must be sold in order for the raffle to occur, or if an alternate prize is offered when sales of entries are insufficient.

100.10(2) A licensed QO may also include in its rules items such as the policy for nonpayment of prizes.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26; **ARC 0593D**, IAB 9/16/26, effective 10/21/26]

481—100.11(99B) Prizes. Prizes are governed by the following standards.

100.11(1) *Amusement concession licensees.* The maximum prize limit for games of skill and games of chance is $950 in merchandise.

100.11(2) *QOs.* The following table provides prize limits for types of gambling conducted by QOs.

Type of gambling	Prize limits
Games of skill and games of chance	$10,000 in merchandise
Very small raffle	Cumulative value of cash prizes is $1,000 or less; or purchased merchandise is $1,000 or less; or donated merchandise is $5,000 or less
Small raffle	Cumulative value of all cash and prizes is more than $1,000 but not more than $10,000
Large raffle	Cumulative value of cash and prizes is more than $10,000 but not more than $100,000
Very large raffle	Cumulative value of cash and prizes is more than $100,000 but not more than $200,000; or the prize is real property
Single bingo game	Up to $250 cash or merchandise
Bingo jackpot	$1,000 cash or merchandise maximum on first jackpot in 24-hour period; $2,500 cash or merchandise maximum on second jackpot in 24-hour period (see Iowa Code section 99B.21(2)*"d"*)

100.11(3) *Game night.* An individual shall not spend more than $250 for entrance fees and wagers. Cash and merchandise may be awarded in an aggregate amount not to exceed $10,000. No participant shall win more than a total of $5,000.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.12(99B) Games of chance—prohibited games. Slot machines and pull-tabs are unlawful for all licenses issued under Iowa Code chapter 99B. Other than during a game night, games in the following list are unlawful:

1. Punchboard,
2. Pushcard,
3. Craps,
4. Chuck-a-luck,
5. Roulette,
6. Klondike,
7. Blackjack,
8. Baccarat,
9. Equality, or
10. Three-card monte.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.13(99B) Records. In addition to requirements found in Iowa Code section 99B.16, the following requirements apply.

100.13(1) *Disbursement journal.* Records of expenses and dedicated and distributed money are as follows:

a. The date of expenditure, the name of the payee, a description of the purpose of payment, the amount of payment, and the method of payment.

b. The purpose for expenditure of dedicated funds.

100.13(2) *Supporting documentation—time requirements.* Supporting documentation such as invoices or bills shall be kept for three years.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.14(99B) Reports. The requirements are set forth in Iowa Code section 99B.16 and as follows.

100.14(1) A report will be submitted even if no gambling activity occurred during the reporting period.

100.14(2) Reports may be completed online by visiting dial.iowa.gov and clicking on the link for "Social and Charitable Gambling." A paper version of the annual gambling report may be obtained from the Social and Charitable Gambling Unit, Iowa Department of Inspections, Appeals, and Licensing, 6200 Park Avenue, Des Moines, Iowa 50321; or by telephone at 515.281.6848.

100.14(3) When the due date is on Saturday, Sunday, or a legal holiday, the report is due the next business day.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.15(10A,17A,99B) Appeal rights. Any decision of the department may be appealed in accordance with procedures set out in 481—Chapter 10 and Iowa Code chapter 17A. When an appeal is received, the status of the license is governed by the following.

100.15(1) *Denial of untimely or insufficient renewal application.* If a renewal application is not timely or sufficient, a license may not be issued until a final decision is issued and all appeal rights have been exhausted.

100.15(2) *Denial of timely and sufficient renewal application.* If a renewal application is timely and sufficient but is denied by the department, a license remains effective until a final decision is issued and all appeal rights have been exhausted.

100.15(3) *Denial of new application.* If a new application is denied, no license may be issued until a final decision is issued and all appeal rights have been exhausted.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.16(99B) Raffles. The following apply to all raffles, including electronic raffles.

100.16(1) *Timing.* The license must be in effect before promotions for the raffle can begin. The gambling event begins when the first entry is sold and ends when winning numbers are drawn. If an organization obtains a temporary license to conduct a raffle, the entirety of the raffle, including promotion, sale of entries and drawing, must fall within the time period for the temporary license.

100.16(2) *Raffle entries—sales.* Any price may be charged for a raffle entry, and the price, including any discounts, shall be the same for every purchaser. Raffle entries shall not be purchased by credit card nor be sold outside the state of Iowa. Organizations shall comply with United States Postal Service regulations restricting the sale of raffle entries through the mail. The purchaser of a raffle entry shall be provided the location, date, and time of the corresponding raffle drawing at the time of purchase.

100.16(3) *Raffle entries—discount.* A licensee may offer raffle entries for sale at a discounted rate if the discount is applied in a nondiscriminatory manner. The amount paid for entries shall not be determined by any variable characteristic, such as height, weight, or wingspan. The discount must be available to all persons throughout the duration of the raffle and posted on all promotional material.

100.16(4) *Winners.* The drawing of the winning entry shall be done in a manner that allows the purchasers to observe the drawing.

a. The raffle shall clearly describe the date the prize will be considered to be won. If no specific winning date is specified, the prize will be considered to be won on the date of the drawing.

b. The date by which the prize shall be claimed will be no fewer than 14 days following the notification of the winner.

c. Notification will be considered to be as soon as practical so long as it is within one year of the prize being awarded.

d. If the prize is not claimed, the licensed QO may do one of the following:

(1) Continue to draw until a winner claims the prize. Each drawing will allow the time period specified in paragraph 100.16(4)*"b"* for claiming the prize.

(2) Donate the unclaimed prize to another QO to be used for an educational, civic, public, charitable, patriotic, or religious use.

100.16(5) *Prizes.* If a prize is merchandise, its value shall be determined by the purchase price paid by the organization or donor. The prize may be a single item or several items.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26; **ARC 0593D**, IAB 9/16/26, effective 10/21/26]

481—100.17(99B) Expenses. Requirements are set forth in Iowa Code section 99B.14(1).

100.17(1) *Proof of expense.* No expense item shall be allowed without a proper receipt, paid invoice, or canceled check or be paid from an outside source. The burden of proof is on the licensee to show that all expenses were incurred exclusively and directly as a result of the gambling activity. An expense will not be considered reasonable if the amount charged significantly exceeds the prevailing rate or average retail cost of the item or service purchased.

100.17(2) *Allowed expenses.* Expenses allowed within the 40 percent limit are:

a. The license fee;
b. Rent of building or equipment;
c. Taxes (other than state and local sales tax paid on gross receipts);
d. Promotion expense;
e. Major equipment purchases;
f. Overhead expenses;
g. Worker compensation; and
h. Other expenses incurred exclusively and directly as a result of the gambling activity.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.18(99B) Net receipts. Requirements are set forth in Iowa Code section 99B.14.

100.18(1) *Examples.* The following examples illustrate methods to determine net receipts, allowable expenses, and the amount requested to be dedicated and distributed.

a. Example 1. When sales tax is not included in gross receipts, sales tax need not be deducted to arrive at net receipts.

Gross receipts (excluding sales tax)	$100,000
Amount awarded as prizes	$20,000
Net receipts	$80,000
Minimum dedicated and distributed (60% of net receipts)	$48,000
Maximum expenses (40% of net receipts)	$32,000

b. Example 2. When sales tax is included in gross receipts, it is deducted to arrive at net receipts.

Gross receipts (including sales tax)	$107,000
Amount awarded as prizes	$20,000
Sales tax (7%)	$7,000
Net receipts	$80,000
Minimum dedicated and distributed (60% of net receipts)	$48,000
Maximum expenses (40% of net receipts)	$32,000

100.18(2) *Time for distribution.* Net receipts received during the calendar year shall be distributed no later than 30 days following the end of each calendar year, except as pursuant to Iowa Code section 99B.14(2)*"a."*

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.19(99B) Licensure of manufacturers and distributors of bingo equipment and supplies and electronic raffle systems. Requirements are set forth in Iowa Code section 99B.32.

100.19(1) Reserved.

100.19(2) *Application.* The applicant shall comply with the requirements of Iowa Code chapter 99B, administrative rules of the department, and other applicable state or federal laws. The department may require detailed information concerning the business structure and operation of the applicant, including but not limited to the following:

a. All owners, officers, and board members of the business.
b. All names under which the applicant will conduct business in the state of Iowa.

100.19(3) *Manufacturers and distributors of electronic raffle systems—additional requirements.* A manufacturer or distributor of electronic raffle systems must meet the following additional requirements in order to obtain a license.

a. Approval of certifying entity by the department. In addition to licensure, manufacturers and distributors of electronic raffle systems will be certified by an entity approved by the department. "Approved by the department" means that the entity has submitted its qualifications in writing to the director for review and has received approval in writing by the director or the director's designee.

b. Certification—requirements. Entities approved by the department to certify manufacturers and distributors of electronic raffle systems will ensure all electronic raffle systems meet the requirements of Iowa Code section 99B.25 and rule 481—100.20(99B).

c. Review of contracts—notification. The applicant will submit to the department for review at the time of application the base contract intended for use with QOs. For the duration of the license, the licensee will notify the department each time the licensee enters into a contract with a QO by submitting in writing the name of the QO and the duration of the contract. The required notification will allow the department to verify that the QO holds a valid two-year QO license, which permits the conduct of an electronic raffle.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.20(99B) Bingo supplies and equipment. Products sold within this state to a gambling license holder shall meet the following requirements:

100.20(1) Products will be manufactured and sold by an Iowa-licensed manufacturer or distributor.

100.20(2) Products will be supplies and equipment used in connection with the game of bingo as defined in Iowa Code section 99B.1. The following are noninclusive characteristics of the game of bingo to which products must conform:

a. Cards or playing faces will have spaces marked in horizontal and vertical rows. Each space will be designated by number, letter, symbol, or picture or a combination of numbers, letters, symbols, or pictures.

b. Balls or objects used to select spaces that are to be covered on the card or playing face will bear numbers, letters, symbols, or pictures or a combination of numbers, letters, symbols, or pictures corresponding to the system used for designating the spaces.

c. The bingo machine will contain a receptacle where objects or balls are placed and from which the objects or balls representing the space to be covered are selected. The selection of the balls or objects by the bingo machine will be by chance and may be either manual or mechanical.

100.20(3) Bingo cards sold in Iowa will have the manufacturer's name imprinted on the cards.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

481—100.21(99B) Electronic raffles. In addition to the requirements found in Iowa Code section 99B.25, the following requirements apply to electronic raffles:

100.21(1) Reserved.

100.21(2) All entries will be included in the drawing.

100.21(3) The sale of raffle entries and the drawing of the winning entry will take place within the same calendar day.

[**ARC 0014D**, IAB 1/21/26, effective 2/25/26]

These rules are intended to implement Iowa Code chapter 99B.

AMUSEMENT CONCESSIONS

[Prior to 12/17/86, Revenue Department[730], Ch 92]
[Prior to 11/18/87, Racing and Gaming Division[195]]
[Prior to 6/14/89, Racing and Gaming Division[490], Ch 21]

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

481—101.1(99B) License requirements. No games shall be conducted until an application is approved and a license is issued in accordance with 481—Chapter 100.

101.1(1) A gambling license is required for each amusement concession game, with the name and description of the game attached to the application.

101.1(2) The person conducting an amusement concession, for the purposes of licensure, is the owner of the amusement concession.

[**ARC 0015D**, IAB 1/21/26, effective 2/25/26]

481—101.2(99B) Prizes. All prizes shall be merchandise.

[**ARC 0015D**, IAB 1/21/26, effective 2/25/26]

These rules are intended to implement Iowa Code section 99B.31.

CHAPTER 103
BINGO

[Prior to 12/17/86, Revenue Department[730], Ch 94]
[Prior to 11/18/87, Racing and Gaming Division[195]]
[Prior to 6/14/89, Racing and Gaming Division[491], Ch 23]
[Prior to 9/5/90, this chapter was entitled "Qualified Organization"]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/4/30

481—103.1(99B) Definitions. In addition to definitions found in Iowa Code chapter 99B and in rule 481—100.1(99B), the following definitions apply to all qualified organizations where bingo is played:

"Cash" means any legal tender of the United States.

"Category" means the name given to a particular type of playing face to distinguish one from another.

"Playing face" means the grid on which a player marks numbers and letters called as the game progresses.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.2(99B) License.

103.2(1) A license is required to conduct a bingo occasion unless the requirements of Iowa Code section 99B.23 are met.

103.2(2) Bingo occasions are restricted to the location for which application is made by the qualified organization and approved by the department. For good cause, a license may be transferred to a different location after written notice by the licensee and approval by the department. "Good cause," for purposes of this subrule, may include flood, fire or other natural disasters; sale of the building; or nonrenewal of lease.

103.2(3) Before any organization may conduct bingo, a license application must be approved by the department. Application and license requirements are found in rules 481—100.3(99B), 481—100.4(99B), and 481—100.5(99B).

103.2(4) Bingo occasions may be held as frequently as set forth in Iowa Code section 99B.12. A week starts on Sunday and ends on Saturday. At the end of each occasion, the person conducting the games shall announce both the gross receipts and the use to which the net receipts will be dedicated and distributed.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.3 Reserved.

481—103.4(99B) Game of bingo. Each game shall meet the requirements of "bingo" as defined in Iowa Code section 99B.1(6) to be a legal game of bingo.

103.4(1) A fair and legal game shall meet all of the following criteria:

a. There will be no concealed numbers on a playing face.

b. There will be an announcer or caller.

c. Numbers will be announced so all players can hear clearly.

d. A free space or spaces are allowed.

e. The caller selects and announces the numbers. If a caller miscalls a number or misreads a ball, only the number on the ball may be used. Miscalled numbers are invalid.

f. The licensee may require that a player have the last number called for a bingo if posted in the rules established by the licensee.

g. Each game ends when it is determined that a player has covered the announced pattern of spaces. The caller or another worker verifies the numbers on winning cards. The caller checks for additional bingos and officially closes the game.

h. Wild numbers are allowed if chosen using a random selection method.

103.4(2) Any player may request that balls drawn and not drawn be inventoried when the winning card or cards are verified in the presence of the responsible party or the responsible party's designee and the caller. The player who requested verification may observe the count.

103.4(3) The cost to play shall be in accordance with the following:

a. The cost of each game will not exceed $50;

b. Cards or games may only be sold within the premises of the bingo occasion and will have a posted price;

c. The cost of each packet, playing face, or tear sheet will be the same for each participant;

d. Payment will be made in a form provided in Iowa Code section 99B.5(2);

e. Free games will not be given, including gift cards redeemable for games. Free concession items, such as food, beverages or daubers, are permitted.

103.4(4) Cards for each category shall be distinctly marked and easy to distinguish from all others.

a. Bingo games or cards may only be printed on one side.

b. In each game, the bingo operator must ensure that duplicate playing faces are not sold.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.5(99B) State rules and rules established by the licensee. This chapter and house rules established by the licensee must be readily available to every bingo player during every bingo occasion, with rules established by the licensee posted on a sign near the front of the playing area.

103.5(1) Posted rules shall be in large, easily readable print and include:

a. The name and mailing address of the licensee;

b. Prices to play; and

c. How to indicate "bingo" to halt the game and collect a prize.

103.5(2) Rules related to reserved seating and age restrictions for children to play may be included.

103.5(3) The following information shall be posted before the beginning of each bingo occasion and not be changed after the bingo occasion begins:

a. Description of each game to be played, including an example of the winning pattern;

b. Price of each game;

c. Prize for each game or method for determining the prize for each game; and

d. Jackpot rules if jackpot games will be played.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.6(99B) Prizes. Cash and merchandise prizes are subject to the limits set forth in Iowa Code section 99B.21. The exact amount of the prize shall be announced before the beginning of each game.

103.6(1) Prizes shall be recorded each occasion on the daily bingo summary (Table A—end of this chapter) as they are paid by listing the number of the game; the winning pattern; the type, color, and series of cards used in the game; the amount of the prize; and the name, address, and social security number of each winner of any prize over $600. Cash prizes over $600 require the deduction of 5 percent withholding taxes as set forth in Iowa Code section 99B.8.

103.6(2) Cash prizes awarded in games with more than one winner shall be shared equally.

a. It is permissible to round up or down, provided doing so does not exceed the maximum payout for that particular game.

b. Examples of prizes awarded in games with more than one winner:

(1) Two winners with a total of three bingos: Player 1 has two bingos in separate squares, and Player 2 has one bingo in one square. Player 1 receives two-thirds of the prize, and Player 2 receives one-third of the prize.

(2) Multiple winners equally splitting a prize with rounding to the nearest dollar: Six players all win the single $250 prize. The appropriate payout is $41.66 each, but rounding to the nearest dollar ($42) for each winner would result in a payout of $252, in violation of the maximum payout for a nonjackpot bingo game.

103.6(3) A licensed qualified organization shall have rules governing how a merchandise prize is awarded when there is more than one winner, posted in accordance with rule 481—103.5(99B). The organization must:

a. Split the cash equivalent of the merchandise prize equally among the winners so long as the retail value of the merchandise prize is $250 or less;

b. Provide a substitute merchandise prize with an aggregate retail value approximately equal to that of the designated prize so long as the aggregate retail value of all prizes is $950 or less; or

c. Conduct a continuous or separate playoff bingo game consisting of only the winning players.

103.6(4) An animal shall not be awarded as a prize for persons participating in a game or fair event.

103.6(5) A player shall not be required to return cash or a merchandise prize won in one game in order to play a subsequent game.

103.6(6) Jackpot games shall be conducted in accordance with Iowa Code section 99B.21(2)*"d"* and the following:

a. The jackpot prize will not decrease until it is won;

b. If a jackpot game is not won in accordance with the rules for the jackpot game, the game may transition to a consolation game with a prize of $250 or less.

This rule is intended to implement Iowa Code sections 99B.21, 422.16, and 717D.2.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.7(99B) Workers.

103.7(1) Each organization must have a responsible party listed on the application who is an active member of the organization, familiar with the requirements of the Iowa law and aware of the bingo activities of the organization.

103.7(2) Volunteers must be actively participating members of the licensed organization or participate in an organization to which money will be dedicated.

103.7(3) Paid workers shall not play during a bingo occasion in which they work. Persons conducting bingo shall not play during any bingo occasion conducted by the qualified organization for which they work. A person conducting bingo includes: persons overseeing the bingo games, persons controlling and accounting for the bingo occasion's net receipts, persons directing the work of bingo workers, and any persons having management or oversight responsibilities.

103.7(4) A person receiving rent for a bingo location, either directly or indirectly, shall not be involved in, participate in, or be associated with the operation of bingo games.

103.7(5) Anyone who sells bingo equipment or supplies to a bingo licensee shall not work for that licensee during a bingo occasion.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.8(99B) Expenses.

103.8(1) The licensee shall be able to prove expenses were incurred exclusively and directly as a result of bingo and not exceed 40 percent of net receipts. Reasonable expenses within the 40 percent limit are:

a. The license fee;

b. Withholding, unemployment, or social security taxes;

c. Promotion cost;

d. Equipment and supply purchases;

e. Rent for bingo occasion;

f. Utilities for bingo occasion; and

g. Wages paid for bingo workers.

103.8(2) Expense items are allowed only when receipts or a paid invoice and canceled check are available for review by the department.

103.8(3) When the annual gross exceeds $10,000, expenses shall be paid from a bingo checking account.

103.8(4) Expenses are not reasonable if the amount charged substantially exceeds the current rate or average retail cost of items or services purchased.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.9(99B) Location. Bingo occasions may be conducted on premises as provided in Iowa Code section 99B.13 and shall meet the following criteria:

1. All buildings in which bingo occasions are conducted will meet state or local standards for occupancy and safety.

2. The name of the licensee will be posted on the sign of each building or location where bingo occasions are held. A name that is closely associated with the licensee and clearly identifies the lawful uses of the proceeds may also be used. Generic names, such as "Nelson Street Bingo" or "Uncle Bob's Bingo," will not be used.

3. Only one licensed qualified organization may conduct bingo occasions within the same structure or building.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25; **ARC 0088D**, IAB 3/4/26, effective 2/12/26]

481—103.10(10A,725) Advertising. An organization may advertise bingo or any gambling activities legal under Iowa law.

This rule is intended to implement Iowa Code section 725.12.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.11(10A,99B) Equipment. Equipment shall be used as it is intended by the manufacturer and meet the following criteria:

103.11(1) Equipment will be owned by the licensed organization or borrowed from another qualified organization. Use of equipment for which the licensed organization pays consideration directly or indirectly under the guise of a service charge is not allowed. No licensed organization may loan or borrow equipment, goods, or services in exchange for supplies. Equipment should not be rented or leased, but the purchase of equipment on contract is allowed.

103.11(2) Equipment used to conduct bingo will be maintained in good repair and sound working condition. No equipment will be altered to create an advantage for anyone. Play will progress so all players have an equal opportunity to win. Balls will be the same size, shape, weight, and balance. Balls will tumble and circulate freely within the container during bingo games. All 75 balls will be in the container before each game begins.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.12(99B) Records. Accurate records shall be retained for a period of three years and provided to the department for review upon request. The following records are required:

103.12(1) The daily bingo summary (Table A—end of chapter), including:

a. The name of each worker;

b. The social security number of paid workers;

c. Compensation of any worker;

d. The number of players present;

e. A list of all games played, including a description of each game, the cost to play each game, the number and category of bingo cards used for each game, and the prize or prizes paid in each game. The summary will include the totals for the occasion of the gross receipts, prizes awarded, and jackpot prize amounts; and

f. The signature of a caller and another member of the organization.

103.12(2) An organization having $100,000 or more in bingo gross receipts per year must also comply with the following for each bingo occasion:

a. Daily Bingo Summary—CASH CONTROL (Table B—end of chapter):

(1) Gross receipts, adjustments, prize payouts, and net receipts for each game played;

(2) Total net receipts, total cash counted, overage or shortage, and total amount to be deposited for the occasion; and

(3) Signed and dated by two members of the organization.

This form should correspond with the Daily Bingo Inventory Usage Form (Table B—end of chapter).

b. Daily Bingo Inventory Usage (Table C—end of chapter).

(1) For each loose sheet of bingo paper sold, the color, paper size, game(s) played, daily count start, purchases, voids, number of sheets sold, and daily count end.

(2) If packets are purchased preassembled, the color of the top sheet, paper size, daily count start, purchases, voids, number of packets sold, and daily count end.

(3) If packets are assembled by the organization, the color of the top sheet, paper size, daily count start, purchases, voids, number of packets sold, and daily count end. Each loose sheet of bingo paper used to assemble the packet will be accounted for by decreasing the applicable loose sheet bingo paper inventory under subparagraph 103.12(2)*"b"*(1) at the time of assembly.

103.12(3) Records of expenses and dedicated and distributed money are required as follows.

a. The following information will be retained for all payments:

(1) Date of payment.

(2) Payee.

(3) Amount of payment.

(4) Purpose of payment.

b. For checks, the purpose of payment will be recorded on the memo line of the check.

103.12(4) An employee record of people compensated for work at a bingo occasion shall be maintained that shows:

a. Name, address, and social security number;

b. Dates of employment;

c. Times and number of hours worked;

d. Wages paid;

e. Amounts withheld;

f. Check number.

The records must specifically identify for which bingo occasion an employee was compensated, whether or monetarily or otherwise.

103.12(5) An inventory list of the number of playing faces owned by the licensed organization is required to be updated each month.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.13(99B) Bingo checking account. A qualified organization shall maintain a separate bingo checking account established within one day of attaining $10,000 and as provided in Iowa Code section 99B.21(4).

103.13(1) Bingo receipts shall be deposited as provided in Iowa Code section 99B.21(4). Interest earned on deposits in a bingo checking or savings account shall be treated the same as proceeds of bingo occasions. Limited funds as described in Iowa Code section 99B.21(4)*"a"*(1) shall not exceed $7,500. Records shall be kept that identify this money.

103.13(2) Payments shall be paid from the bingo account in accordance with the requirements of Iowa Code section 99B.21. Wages shall not be paid by cash.

103.13(3) The bingo account shall be used for both of the following events:

a. One qualified organization satisfies the dedication requirement by donating funds to another organization over which the licensed organization has no control; or

b. A qualified organization licensee is satisfying the dedication requirement by spending funds to further the charitable, educational, religious, public, patriotic, or civic purposes of its own organization.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.14(10A,99B) Bingo savings account and bingo change fund.

103.14(1) *Bingo savings account.* When an organization places bingo receipts in any savings account, bingo funds shall be separate and recognizable from all other funds of the same organization. All funds in a bingo savings account shall be transferred into that account from a bingo checking account and transferred back to the bingo checking account before they are spent.

103.14(2) *Bingo change fund.* Moneys used as a change fund, if necessary, should be provided by the organization for each bingo occasion. The change fund can increase or decrease as appropriate for the anticipated participation in the bingo occasion. The balance of the change fund at the end of the fiscal year must be dedicated by July 30 and reported as set forth in rule 481—103.15(10A,99B). The fiscal year

begins July 1 and ends June 30 of the following year. The change fund should be maintained in a secure manner.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.15(99B) Annual gambling reports.

103.15(1) Each organization conducting bingo shall submit a report to the department as set forth in Iowa Code section 99B.16(3). When the due date is on Saturday, Sunday, or a legal holiday, the report is due the next business day.

103.15(2) Annual gambling reports may be completed online at dial.iowa.gov. A paper version of the annual gambling report may be obtained from the Social and Charitable Gambling Unit, Iowa Department of Inspections, Appeals, and Licensing, 6200 Park Avenue, Des Moines, Iowa 50321; or by telephone at 515.281.6848.

103.15(3) The department may require a qualified organization to submit records of specific occasions with the annual report.

103.15(4) All transactions of any school group or parent support group using a schoolwide license shall be on the annual report.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.16(10A,99B) Inspections and audits. Licensed organizations may be inspected or audited by a representative of the department at any reasonable time.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.17(99B) Electronic bingo.

103.17(1) A qualified organization may lease electronic bingo equipment, as defined in Iowa Code section 99B.11(1), from a manufacturer or distributor licensed by the department.

103.17(2) Electronic bingo equipment shall be used only by disabled individuals. For purposes of this rule, "disability" means, with respect to an individual, a physical or mental impairment that substantially limits one or more of the major life activities of the individual, a record of physical or mental impairment that substantially limits one or more of the major life activities of the individual, or being regarded as an individual with a physical or mental impairment that substantially limits one or more of the major life activities of the individual.

103.17(3) Electronic bingo devices shall be used in the following manner:

a. Each player may input into the device each number called, or the device may automatically daub each number as the number is called.

b. Each player will notify the game operator or caller of the winning pattern of bingo by means other than use of the electronic bingo device.

c. Each player is limited to playing a maximum of 54 card faces per game.

d. The cost per bingo game will be the same as it would be if the individual were to purchase the same amount of paper or hard cards.

e. Players of electronic bingo will not be required to play more cards than if using paper or hard cards.

f. Each electronic bingo device will produce a player receipt with the organization name, date, time, location, sequential transaction or receipt number, number of electronic bingo cards loaded, cost of electronic bingo cards loaded, and date and time of the transaction. Images of cards or faces stored in an electronic bingo device will be exact duplicates of the printed faces if the faces are printed.

g. The department may examine and inspect any electronic bingo device and related system. Such examination and inspection will include immediate access to the electronic bingo device and unlimited inspection of all parts and associated systems and may involve the removal of equipment from the game premises for further testing.

h. All electronic bingo devices will be loaded and enabled for play on the premises where the game will be played.

i. All electronic bingo devices will be rented or otherwise provided to a player only by a qualified organization, and no part of the proceeds of the rental of such devices will be paid to a landlord, a landlord's employee or agent, or a member of the landlord's immediate family.

j. If a player's call of a bingo is disputed by another player, or if a department representative makes a request, one or more cards stored on an electronic bingo device will be printed by the organization.

k. Players may exchange a defective electronic bingo device for another electronic bingo device provided a disinterested player verifies that the device is not functioning.

This rule is intended to implement Iowa Code section 99B.21(3)*"b."*

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

481—103.18(99B) Bingo at a fair or community festival. Bingo may lawfully be conducted at a fair or a community festival if the requirements of Iowa Code section 99B.22 are met. A qualified organization that has received permission from the sponsor of the fair or community festival to conduct bingo shall be licensed under Iowa Code section 99B.12.

[**ARC 9152C**, IAB 4/30/25, effective 6/4/25]

These rules are intended to implement Iowa Code sections 99B.1 through 99B.7, 99B.11 through 99B.16, 99B.21 through 99B.23, and 99B.32.

CHAPTER 104
GENERAL PROVISIONS FOR ALL AMUSEMENT DEVICES

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

481—104.1(10A,99B) Definitions. Definitions in rules 481—100.1(10A,99B) and 481—105.1(10A,99B) are incorporated by reference in this chapter, along with the following definitions:

"Amusement device" means the same as defined in Iowa Code section 99B.1(2). An amusement device is not a device that plays poker, blackjack, roulette, or keno. Devices specified in Iowa Code section 725.9 as gambling devices are not amusement devices.

"Gambling device" means the same as defined in Iowa Code section 725.9(2) and does not include devices that do not comply with Iowa Code chapter 99B.

"Knock-off switch" means a mechanism or other method that releases free games or credits accumulated toward the award of merchandise.

"Prize" means a ticket(s) or token(s) that is dispensed by an amusement device as an award for use.

"Progressive games" means games in which the value of the prizes increases an incremental amount with each game.

"Slot machine" means a mechanical, electronic, or video gambling device into which a player deposits coins, tokens or currency and from which certain credits, tickets, tokens or coins are paid out when a particular, random configuration of symbols appears on the reels, simulated reels, or screen of the device. The slot machine may have a lever, buttons, or other means to activate or stop the play.

[**ARC 0016D**, IAB 1/21/26, effective 2/25/26]

481—104.2(99B) Device restrictions. All amusement devices shall comply with Iowa Code section 99B.52 and the following:

104.2(1) The device will be electrical, which includes both electronic and video, or mechanical, or a combination of both.

104.2(2) The device will not be designed or adapted to issue or pay coins or currency.

104.2(3) The device may be designed or adapted to award merchandise or tickets or tokens redeemable for merchandise.

104.2(4) The device may be designed or adapted to issue tickets or tokens except tickets or tokens that may be used to play any device or game.

104.2(5) The device will not have a knock-off switch. Credits may be released by the insertion of coins, currency, or tokens to activate a new game. Free games may only be utilized for playing the device and not released in any other manner.

104.2(6) The device will be designed or adapted to accept only coins, currency, or tokens to play the game.

[**ARC 0016D**, IAB 1/21/26, effective 2/25/26]

481—104.3(99B) Prohibited games/devices.

104.3(1) The following games or devices are not permitted:

a. Gambling games permitted in Iowa Code chapter 99F.

b. Any machine that does not conform to the requirements in these rules or Iowa Code chapter 99B.

c. Any machine designed like or resembling a machine that is normally used for casino-type gambling.

d. Amusement devices designed or adapted to facilitate gambling.

e. Progressive games.

104.3(2) This rule does not prohibit the possession of antique slot machines when possessed pursuant to Iowa Code chapter 725.

[**ARC 0016D**, IAB 1/21/26, effective 2/25/26]

481—104.4(99B) Prizes. Prizes not to exceed a retail value of $50 per play or game may be awarded for use of an amusement device.

104.4(1) Merchandise with a retail value of no more than $50 per transaction may be awarded.

104.4(2) One or more free games may be awarded by the device.

104.4(3) If the device is designed or adapted to issue tickets or tokens, the following shall apply:

a. Tickets or tokens will not be used to purchase or play a game.

b. Tickets or tokens will not be redeemed for coins or currency.

c. Tickets or tokens may be redeemed for merchandise.

d. Tickets or tokens may be accumulated to the maximum allowable prize limit per play or game to purchase merchandise.

e. Tickets or tokens may be redeemed for food and beverage.

f. If the entire amount of the ticket or token issued by the amusement device is not redeemed for merchandise, the balance will not be redeemed for cash.

g. Tickets or tokens will only be redeemed on the premises where the amusement device is located and only for merchandise sold in the normal course of business on the premises.

104.4(4) Merchandise prizes shall not be repurchased.

[**ARC 0016D**, IAB 1/21/26, effective 2/25/26]

481—104.5(99B) Registration. An amusement device must be registered in compliance with Iowa Code section 99B.53. Registration is required if chance plays a role equal to or greater than the players' skill or knowledge in determining the outcome of the game. Additional licenses or registrations under Iowa Code chapter 99B are not required.

[**ARC 0016D**, IAB 1/21/26, effective 2/25/26]

481—104.6(99B) Violations.

104.6(1) Failure to comply with the limitations imposed on the use and possession of amusement devices in Iowa Code chapter 99B constitutes unlawful gambling, which may result in the following consequences:

a. Conviction for illegal gambling under the provisions of Iowa Code chapter 725.

b. Forfeiture of property under the provisions of Iowa Code chapter 809.

104.6(2) Additional consequences apply for registered amusement devices pursuant to 481—Chapter 105.

[**ARC 0016D**, IAB 1/21/26, effective 2/25/26]

481—104.7(99B,17A) Declaratory orders. In addition to the requirements for declaratory orders found in 7—Chapter 2503, parties seeking a declaratory order shall file with their petition a written evaluation of the game by an independent gaming laboratory approved by the department.

104.7(1) *Approved by the department.* "Approved by the department" means that the gaming laboratory has submitted its qualifications in writing to the director for review and approval in writing by the director or the director's designee.

104.7(2) *Written evaluation—requirements.* The independent gaming laboratory's evaluation must analyze whether chance plays a role equal to or greater than the players' skill or knowledge in determining the outcome of the game. "Outcome of the game" includes both whether the player correctly solves the puzzle and what prize is awarded.

[**ARC 0016D**, IAB 1/21/26, effective 2/25/26; Editorial change: IAC Supplement 8/5/26]

These rules are intended to implement Iowa Code sections 99B.1, 99B.2, and 99B.51 through 99B.58.

CHAPTER 105
REGISTERED AMUSEMENT DEVICES

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

481—105.1(10A,99B) Definitions. The definitions in Iowa Code section 99B.51 and rule 481—104.1(10A,99B) are incorporated by reference in this chapter. In addition, the following definitions apply to the possession and use of registered amusement devices.

"Counting mechanism" means an appliance that tallies the volume of business of an individual amusement device.

"Distributes" means to deliver, to provide or to otherwise make available in Iowa amusement devices required to be registered in accordance with these rules.

"Operation" means that a registered amusement device is made available for use by the public or made available for use on the premises of a charitable organization.

"Person" means a person as defined by Iowa Code section 4.1.

"Premises" means a location where one or more registered amusement devices is available for public use.

"Registered amusement device" means an electrical or mechanical amusement device in operation subject to registration by the department pursuant to Iowa Code section 99B.53 and includes both the external and internal components.

"Responsible party" means the owner of the amusement device.

"Security mechanism" means an appliance that prevents a person from operating an electrical or mechanical amusement device by not allowing the acceptance of money until action is taken by the owner or owner's designee to allow the person to operate the device.

[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.2(99B) Registered amusement devices. Each registered amusement device shall only be located on premises as described in Iowa Code section 99B.53.

105.2(1) Any change in the registered amusement device constitutes a new registered amusement device for which registration is required. The word "change" does not include repairs or replacement of parts that do not change or alter the operation of the device as originally registered.

105.2(2) If the amusement device needs to be repaired, the owner may repair it without losing the registration position or buying a new registration tag. A repair constitutes any change to a device as long as the type of game and the number of devices in a location is not changed. If the repairs or replacement parts alter the operation of the device as originally registered, the device must be reregistered before being made available for operation. If an amusement device needs to be replaced because it is defective, it must be replaced with the same game in order to keep the registration position.

105.2(3) Reserved.

105.2(4) An amusement device registration position becomes available under the following circumstances:

a. When a distributor or owner:

(1) Is going out of business,

(2) Fails to renew a registration by the renewal due date, or

(3) Has an electrical or mechanical device seized by law enforcement and the seizure is upheld through a forfeiture hearing.

b. When an amusement device is replaced with a new amusement device that has a different game.

c. When any other legal order has been issued that pertains to violations of Iowa Code chapter 99B, 123, or 123A.

105.2(5) Premises with a Class "B" or Class "E" retail alcohol license shall post a sign near a registered amusement device stating that a person must be 21 years of age or older to operate the registered amusement device and the premises shall ask for ID prior to disengaging the security mechanism.

105.2(6) Reserved.

105.2(7) If the department, or the department's designee, determines that a registered amusement device is not in compliance with the requirements of this chapter or any other provision of Iowa law, the device may be subject to seizure, and any registration associated with the device, including the registration of the manufacturer, distributor, or owner, may be revoked or suspended.

105.2(8) Situations that constitute advertising and promoting as restricted by Iowa Code section 99B.53(12) include but are not limited to posted signs, newspaper/magazine advertisements, radio and television advertisements, word of mouth and Internet posting.

105.2(9) If there is no amusement device registration availability, a person may be included on a waiting list for an amusement device registration position.

a. A person shall appear on the waiting list only once for a single registration position.

b. A person may be added to the waiting list by sending an email to gmms@dia.iowa.gov; by writing the department at Department of Inspections, Appeals, and Licensing, Social and Charitable Gambling Unit, 6200 Park Avenue, Des Moines, Iowa 50319-0083; or by calling 515.281.6840.

c. The department will maintain the waiting list in chronological order.

d. When a registration position becomes available, the department will notify the first person on the waiting list of the amusement device registration availability by mail or email. If multiple positions become available, the department may notify as many persons on the waiting list as there are available positions.

e. The person on the waiting list shall have ten days from the time the notification was sent to submit a registered amusement device application and the fee.

f. If the person does not submit the registration application, fee and proof of purchase within ten days, the person shall forfeit the position on the waiting list and be removed from the waiting list.

105.2(10) An initial amusement device registration shall only be allowed at a location that has a Class "C," special Class "C," Class "D," or Class "F" retail alcohol license issued pursuant to Iowa Code chapter 123.

105.2(11) If a person purchases an amusement device that is registered with the department, the registration tag, if available, must be removed from the purchased amusement device and returned to the department or the department notified in writing within ten calendar days of the change in ownership. The purchased device will be removed from the inventory of the original owner, thus creating a registration position on the waiting list. The purchaser must apply for a registration position on the waiting list for the device.

105.2(12) An amusement device that is registered with the department and located in a warehouse may be placed in a location that has a Class "C," special Class "C," Class "D," or Class "F" retail alcohol license issued pursuant to Iowa Code chapter 123. Such a device may also be used as a replacement device.

105.2(13) The registration application for all new amusement devices must be accompanied by the receipt, invoice, or bill of sale containing the seller's name, company name, and address, transaction date, motherboard serial number, and name of the game.

105.2(14) Devices shall not allow for more than one player. Each playing position constitutes one amusement device.

[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.3(99B) Prohibited registered amusement devices. The following devices are prohibited:

1. Amusement devices registered in violation of statutory or regulatory requirements governing such devices.
2. Registered amusement devices that are prohibited by rule 481—104.3(99B).
3. Any registered amusement device designed or adapted to facilitate gambling.

[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.4(99B) Prizes. Prizes may be awarded for use of a registered amusement device in conformance with rule 481—104.4(99B).

[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.5(99B) Registration by a manufacturer, distributor, or an owner that operates for profit. A person engaged in business in Iowa as a manufacturer, a distributor, or an owner that operates for profit

shall be registered with the department prior to engaging in business in Iowa. A person shall register under each of the categories that applies to the business to be conducted in Iowa and pay the designated fee for each category of registration as set forth in Iowa Code section 99B.56.

105.5(1) Reserved.

105.5(2) Registration forms are available from the Department of Inspections, Appeals, and Licensing, Social and Charitable Gambling Unit, 6200 Park Avenue, Des Moines, Iowa 50321; or by telephone at 515.281.6840.

105.5(3) If registration information changes, the person shall notify the department in writing of the changes within ten calendar days.

105.5(4) Registration fees are nonrefundable.

[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.6(99B) Registration of registered amusement devices. Each owner of an amusement device subject to registration by the department pursuant to Iowa Code section 99B.53 shall obtain a registration before the amusement device is available for operation. A registration issued pursuant to Iowa Code chapter 99B is required to offer a registered amusement device for use.

105.6(1) Reserved.

105.6(2) In the event a registration position is not open, the distributor's or owner's name may be placed on the department's waiting list. The distributor or owner will be notified by the department when a position is available. Upon the distributor's or owner's completion of the application form and payment of the required fee, the department will issue a registration tag valid for one year from the date of issuance.

a. Application forms are available from the Department of Inspections, Appeals, and Licensing, Amusement Devices, 6200 Park Avenue, Des Moines, Iowa 50321. The application form shall contain all information required by the department.

b. Prior to placement of the amusement device for public use, the registration tag shall be prominently displayed on the front of the registered amusement device in such a manner as to be clearly visible to the general public.

c. Any changes to the information provided on the application, including but not limited to changes in ownership, registered amusement device location, and the cessation of business in this state, shall be reported to the department in writing or electronically within ten calendar days of the occurrence of any of the above events.

d. Registration fees are nonrefundable.

105.6(3) A new registered amusement device must be obtained from a manufacturer that is registered with the department pursuant to Iowa Code section 99B.56. A registered amusement device that has been placed on location and used may be obtained from a manufacturer, distributor or owner that is registered with the department pursuant to Iowa Code section 99B.56. A distributor or owner that ceases, for any reason, to be registered pursuant to Iowa Code section 99B.56 may sell any registered amusement devices in the distributor's or owner's possession within 12 months from the date registration ceases. For all amusement devices new to the purchaser, proof of purchase, which includes the seller's name, company name, and address, must accompany the application for registration of the machine.

105.6(4) Reserved.

105.6(5) Each electrical or mechanical amusement device required to be registered pursuant to Iowa Code section 99B.53 shall include on the amusement device a counting mechanism.

a. The department of inspections, appeals, and licensing or the department of public safety will notify the distributor, owner, or qualified organization in advance to have access to the information provided by the counting mechanism.

b. The counting mechanism shall be at least six digits in length; and cumulatively count the total amounts inserted in the device during game play. If the mechanism being used tallies in dollars and cents, at least six digits must be used for the dollar amount. The counting mechanism shall not be able to be reset.

c. The counting mechanism shall be equipped with a battery backup, or an equivalent, and accurately maintain all required information for 30 days after power is discontinued from the device.

105.6(6) The owner of the registered amusement device shall exercise due diligence in ensuring that the amusement device complies with these rules and all laws governing such devices. Upon request by the

department or the department's designee, any manufacturer or distributor registered with the department, or any owner of a registered device, shall permit the inspection of any amusement device and make available for inspection all records, documents, and agreements pertaining to the amusement device.
[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.7(99B) Violations. Failure to comply with the limitations imposed on the use and possession of registered amusement devices in Iowa Code chapter 99B may result in the following:

1. Conviction for illegal gambling may result under the provisions of Iowa Code chapter 725.
2. Suspension or revocation of a retail alcohol license may result under the provisions of Iowa Code chapter 123.
3. Property may be forfeited under the provisions of Iowa Code chapter 809.
4. Violation of any laws pertaining to gambling may result in suspension or revocation of a registration as prescribed in Iowa Code section 99B.55.
5. Unless otherwise prescribed in Iowa Code section 99B.55, a registration may be revoked upon the violation of any gambling law, rule or regulation, including Iowa Code chapter 99B, 481—Chapter 104, or this chapter.
6. A registration may be revoked if the registrant or an agent of the registrant engages in any act or omission that would have permitted the department to refuse to issue a registration under Iowa Code chapter 99B.

[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.8(10A,99B) Appeal rights. Decisions to refuse to issue a registration or to revoke a registration by the department may be appealed in accordance with the procedures set out in 7—Chapter 2506. The refusal to issue a registration or the notice of revocation will be in writing and state the specific grounds for the action. When an appeal is received, the status of the registration is governed by the following standards:

105.8(1) No registration will be issued when a new application is denied.

105.8(2) A previously issued registration remains effective until a final agency decision is issued.

[**ARC 0017D**, IAB 1/21/26, effective 2/25/26; Editorial change: IAC Supplement 8/5/26]

481—105.9(10A,99B) Procedure for denial, revocation, or suspension of a registration.

105.9(1) The department may revoke, suspend, or deny a registration issued pursuant to Iowa Code section 99B.56 for cause following 30 days' written notice delivered by certified mail, return receipt requested, or by personal service and an opportunity for hearing pursuant to rule 481—105.8(10A,99B).

105.9(2) If the registrant has not requested a hearing within the prescribed time period, the department may affirm, modify or set aside the department's proposed action in the department's final written decision.

105.9(3) The department may suspend a registration prior to a hearing if the director determines that the public integrity of the registered activity is compromised or that there is a risk to public health, safety, or welfare.

105.9(4) The department may rescind the notice of revocation, suspension, or denial at any point prior to hearing when the department becomes satisfied that the reasons for revocation, suspension, or denial have been or will be removed.

105.9(5) The department will send by certified mail, return receipt requested, or serve personally upon the applicant or registrant a copy of the department's final decision.

105.9(6) If the department finds cause for denial of a registration, the applicant shall not reapply for registration of an amusement device for two years.

105.9(7) If the department finds cause for revocation or suspension, the department shall suspend or revoke the registration for a period not to exceed two years.

105.9(8) In addition to the suspension or revocation, a registrant that allows an individual under the age of 21 to operate an electrical or mechanical amusement device may also be fined for a scheduled violation pursuant to Iowa Code section 805.8C(4) and 805.8C(5).

[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.10(99B) Annual verification of device location. Each distributor or owner that owns amusement devices shall, with the annual distributor or owner registration, verify all device locations.
[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.11(99B) Criteria for approval or denial of a registration.

105.11(1) The department will consider the responsible person's history of compliance with Iowa Code sections 99B.51 through 99B.58 and other gambling laws and rules in determining whether to approve or deny an application for registration of an amusement device, a manufacturer, a distributor, or an owner.

105.11(2) The department will deny a registration application if the registration does not comply with Iowa Code section 99B.52 and the following:

a. The applicant owes back taxes or fees to the state of Iowa.

b. An amusement device registration availability position is not available.

c. For any other reason, the department deems denial of the registration appropriate.

105.11(3) The period for refusal to issue a registration shall not exceed two years.
[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

481—105.12(10A,99B) Suspension or revocation of a registration. If the responsible party violates the law, including Iowa Code chapter 99B, 481—Chapter 104, this chapter, or any other laws or administrative rules, the registrant's registration may be suspended or revoked.
[**ARC 0017D**, IAB 1/21/26, effective 2/25/26]

These rules are intended to implement Iowa Code sections 99B.1, 99B.2 and 99B.51 through 99B.58.

CHAPTER 106
CARD GAME TOURNAMENTS BY VETERANS ORGANIZATIONS

Chapter rescission date pursuant to Iowa Code section 17A.7: 2/25/31

481—106.1(99B) Definitions. In addition to definitions found in Iowa Code chapter 99B, for the purposes of this chapter, the following definitions apply:

"Card game tournament" or *"tournament"* means a series of card games held by a licensee during a consecutive period of time of not more than 24 hours and not held as part of a monthly game night licensed pursuant to Iowa Code section 99B.27.

"Licensee" means a qualified organization representing veterans that has been issued a license pursuant to Iowa Code section 99B.12 and the rules in 481—Chapter 100 and this chapter.

[**ARC 0018D**, IAB 1/21/26, effective 2/25/26]

481—106.2(99B) Licensing. Application and license requirements are found in Iowa Code section 99B.27 and 481—Chapter 100.

[**ARC 0018D**, IAB 1/21/26, effective 2/25/26]

481—106.3(99B) Card game tournament. In addition to the requirements found in Iowa Code section 99B.27, licensees conducting tournaments must post or distribute tournament rules to all participants before the tournament begins, including the following information:

1. Participation fees;
2. Prize(s); and
3. Any other tournament rules.

[**ARC 0018D**, IAB 1/21/26, effective 2/25/26]

481—106.4(99B) Records. The licensee shall comply with the recordkeeping requirements found in Iowa Code sections 99B.16 and 99B.27(3) and 481—Chapter 100.

[**ARC 0018D**, IAB 1/21/26, effective 2/25/26]

These rules are intended to implement Iowa Code sections 99B.2 and 99B.27.

CHAPTER 203
POSTING, INSPECTIONS, CITATIONS AND PROPOSED PENALTIES

[Prior to 9/24/86, Labor, Bureau of [530]]
[Prior to 10/7/98, see 347—Ch 3]
[Prior to 7/9/25, see Labor Services Division[875] Ch 3]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/19/29

481—203.1(88) Posting of notice; availability of the Act, regulations and applicable standards.

203.1(1) Each employer shall post and keep posted a notice or notices informing employees of the protections and obligations provided for in the Act, and that for assistance and information, including copies of the Act and of specific safety and health standards, employees should contact the employer or the department of inspections, appeals, and licensing, division of labor services. The notice or notices shall be posted by the employer in each establishment in a conspicuous place or places where notices to employees are customarily posted. Each employer shall take steps to ensure that such notices are not altered, defaced or covered by other materials. The notice or notices will be furnished by the division of labor services.

Reproductions or facsimiles of the state poster shall constitute compliance with the posting requirements of Iowa Code section 88.6(3)*"a"* where such reproductions or facsimiles are at least 8½ inches by 14 inches, and the printing size is at least ten point. Whenever the size of the poster increases, the size of the print shall also increase accordingly. The caption or heading on the poster shall be in large type, generally not less than 36 point.

203.1(2) "Establishment" means a single physical location where business is conducted or where services or industrial operations are performed. Where distinctly separate activities are performed at a single physical location (such as contract construction activities from the same physical location as a lumber yard), each activity shall be treated as a separate physical establishment, and a separate notice or notices shall be posted in each such establishment. Where employers are engaged in activities that are physically dispersed, such as agriculture, construction, transportation, communications and electric, gas and sanitary services, the notice or notices required by this rule shall be posted at the location to which employees report each day. Where employees do not usually work at, or report to, a single establishment, such notice or notices shall be posted at the location from which the employees operate to carry out their activities.

203.1(3) Copies of the Act, all regulations published and all applicable safety and health rules are available from the division of labor services. If an employer has obtained copies of these materials from the division of labor services or the U.S. Department of Labor, the employer shall make them available upon request to any employee or authorized employee representative for review in the establishment where the employee is employed on the same day the request is made or at the earliest time mutually convenient to the employee or authorized employee representative and the employer.

203.1(4) Any employer failing to comply with the provisions of this rule shall be subject to citation and penalty in accordance with the provisions of Iowa Code section 88.14.

This rule is intended to implement Iowa Code section 88.6(3)*"a."*

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.2(88) Objection to inspection.

203.2(1) Upon a refusal to permit a compliance safety and health officer, in the exercise of official duties, to enter without delay and at reasonable times any place of employment or any place therein, to inspect, to review records or to question any employer, owner, operator, agent or employee, or to permit a representative of employees to accompany the compliance safety and health officer during the physical inspection of any workplace, the compliance safety and health officer shall terminate the inspection or confine the inspection to other areas, conditions, structures, machines, apparatus, devices, equipment, materials, records or interviews concerning which no objection is raised. The compliance safety and health officer shall endeavor to ascertain the reason for such refusal and shall immediately report the refusal and

the reason therefor to the labor commissioner or the commissioner's designee. The labor commissioner shall promptly take appropriate action, including compulsory process, if necessary.

203.2(2) Compulsory process shall be sought in advance of an attempted inspection or investigation if, in the judgment of the labor commissioner or a designee, circumstances exist that make such preinspection process desirable or necessary.

203.2(3) For the purposes of this rule, the term "compulsory process" shall mean the institution of any appropriate action, including ex parte application for an inspection warrant or its equivalent. Ex parte inspection warrants shall be the preferred form of compulsory process in all circumstances where compulsory process is relied upon to seek entry to a workplace under this rule.

This rule is intended to implement Iowa Code section 88.6(1).

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.3(88) Entry not a waiver. Any permission to enter, inspect, review records or question any person shall not imply or be conditioned upon a waiver of any cause of action, citation or penalty under the Act. Compliance safety and health officers are not authorized to grant any such waiver.

This rule is intended to implement Iowa Code section 88.6(1).

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.4(88) Advance notice of inspections.

203.4(1) Advance notice of inspections may not be given, except in the following situations:

a. In cases of apparent imminent danger, to enable the employer to abate the danger as quickly as possible;

b. In circumstances where the inspection can most effectively be conducted after regular business hours or where special preparations are necessary for an inspection;

c. In circumstances where necessary to ensure the presence of representatives of the employer and employees or the appropriate personnel needed to aid in the inspection; and

d. In other circumstances where the labor commissioner or the commissioner's designee determines that the giving of advance notice would enhance the probability of an effective and thorough inspection.

203.4(2) In situations described in subrule 203.4(1), advance notice of inspections may be given only if authorized by the labor commissioner or the commissioner's designee, except that in cases of apparent imminent danger, advance notice may be given by the compliance safety and health officer without such authorization if the labor commissioner or the commissioner's designee is not immediately available. When advance notice is given, it shall be the employer's responsibility promptly to notify the authorized representative of employees of the inspection, if the identity of the representative is known to the employer. An employer who fails to comply with the obligation under this rule promptly to inform the authorized representative of employees of the inspection may be subject to citation and penalty under Iowa Code section 88.14(3). Advance notice in any of the situations described in subrule 203.4(1) shall not be given more than 24 hours before the inspection is scheduled to be conducted, except in apparent imminent danger situations and in other unusual circumstances.

This rule is intended to implement Iowa Code sections 88.6(1) and 88.14(6).

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.5(88) Conduct of inspections.

203.5(1) At the beginning of an inspection, compliance safety and health officers shall present their credentials to the owner, operator or agent in charge at the establishment; explain the nature and purpose of the inspection; and indicate generally the scope of the inspection and the records the compliance safety and health officers wish to review. However, such designation of records shall not preclude access to additional records.

203.5(2) Compliance safety and health officers shall have the authority to take environmental samples and to take or obtain photographs related to the purpose of the inspection; employ other reasonable investigative techniques; and question privately any employer, owner, operator, agent or employee of the establishment. As used herein, the term "employ other reasonable investigative techniques" includes but is not limited to the use of cameras, audio and videotaping equipment, and devices to measure employee

exposures and the attachment of personal sampling equipment such as dosimeters, pumps, badges and other similar devices to employees in order to monitor their exposures.

203.5(3) Compliance safety and health officers shall comply with all employer safety and health rules and practices at the establishment being inspected, and they shall wear and use appropriate protective clothing and equipment.

203.5(4) The conduct of inspections shall be such as to preclude unreasonable disruption of the operations of the employer's establishment.

203.5(5) At the conclusion of the inspection, the compliance safety and health officer shall confer with the employer or representative and informally advise the employer or representative of any apparent safety or health violations disclosed by the inspection. During the conference, the employer shall be afforded an opportunity to bring to the attention of the compliance safety and health officer any pertinent information regarding conditions in the workplace.

This rule is intended to implement Iowa Code section 88.6(1).

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.6(88) Representatives of employers and employees.

203.6(1) Compliance safety and health officers shall be in charge of inspections and questioning of persons. A representative of the employer and a representative authorized by employees shall be given an opportunity to accompany the compliance safety and health officer during the physical inspection of any workplace for the purpose of aiding the inspection. A compliance safety and health officer may permit additional employer representatives and additional representatives authorized by employees to accompany the compliance safety and health officer where the compliance safety and health officer determines that the additional representatives will further aid the inspection. A different employer and employee representative may accompany the compliance safety and health officer during each different phase of an inspection if this will not interfere with the conduct of the inspection.

203.6(2) Compliance safety and health officers shall have authority to resolve all disputes as to who is the representative authorized by the employer and employees for the purpose of this rule. If there is no authorized representative of employees, or if the compliance safety and health officer is unable to determine with reasonable certainty who is the representative, the compliance safety and health officer should consult with a reasonable number of employees concerning matters of safety and health in the workplace.

203.6(3) A representative authorized by employees may be an employee of the employer. However, if in the judgment of the compliance safety and health officer, good cause has been shown why accompaniment by a third party who is not an employee of the employer (such as an industrial hygienist or a safety engineer) is reasonably necessary to the conduct of an effective and thorough physical inspection of the workplace, the third party may accompany the compliance safety and health officer during the inspection.

203.6(4) Compliance safety and health officers are authorized to deny the right of accompaniment under this rule to any person whose conduct interferes with a fair and orderly inspection.

This rule is intended to implement Iowa Code sections 88.6(1) and 88.6(4).

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.7(88) Complaints by employees.

203.7(1) Any employee or representative of employees who believes that a violation of the Act exists in any workplace where the employee is employed may request an inspection of the workplace by giving notice of the alleged violation to the commissioner or a designee. Any such notice shall be reduced to writing, shall set forth with reasonable particularity the grounds for the notice, and shall be signed by the employee or representative of employees. A copy shall be provided to the employer or agent by the commissioner's designee no later than at the time of inspection, except that, upon the request of the person giving the notice, the identity and the identities of individual employees referred to therein shall not appear in the copy or on any record published, released, or made available by the division of labor services.

203.7(2) If, upon receipt of notification, the commissioner or a designee determines that the complaint meets the requirements set forth in subrule 203.7(1), and that there are reasonable grounds

to believe that the alleged violation exists, an inspection shall be made as soon as practicable to determine if the alleged violation exists. Inspections under this rule shall not be limited to matters referred to in the complaint.

203.7(3) During any inspection of a workplace, any employee or representative of employees employed in the workplace may notify the compliance safety and health officer of any violation of the Act that the employee or representative has reason to believe exists in the workplace.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.8(88) Trade or governmental secrets.

203.8(1) At the commencement of an inspection, the employer may identify areas in the establishment that contain or that might reveal trade or governmental secrets. If the compliance safety and health officer has no clear reason to question such identification, information obtained in such areas shall not be disclosed except in accordance with the provisions of Iowa Code section 88.12.

203.8(2) Upon the request of an employer, any authorized representative of employees in an area containing trade or governmental secrets shall be an employee in that area or an employee authorized by the employer to enter that area. Where there is no representative or employee, the compliance safety and health officer shall consult with a reasonable number of employees who work in that area concerning matters of safety and health.

This rule is intended to implement Iowa Code sections 88.6(1) and 88.12.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.9(88) Imminent danger. Whenever and as soon as a compliance safety and health officer concludes on the basis of an inspection that conditions or practices exist in any place of employment that could reasonably be expected to cause death or serious physical harm immediately or before the imminence of such danger can be eliminated through the enforcement procedures otherwise provided by the Act, the affected employees and employers shall be notified as provided in Iowa Code section 88.11(3). Appropriate citations and notices of proposed penalties may be issued with respect to an imminent danger, even though, after being informed of the danger by the compliance safety and health officer, the employer immediately eliminates the imminence of the danger and initiates steps to abate the danger.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.10(88) Consultation with employees. Compliance safety and health officers may consult with employees concerning matters of occupational safety and health to the extent that the compliance safety and health officers deem necessary for the conduct of an effective and thorough inspection. During the course of an inspection, any employee shall be afforded an opportunity to bring any violation of the Act that the employee has reason to believe exists in the workplace to the attention of the compliance safety and health officer.

This rule is intended to implement Iowa Code sections 88.6(1) and 88.6(4).

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.11(88) Citations.

203.11(1) The civil penalties proposed by the labor commissioner on or after June 1, 2025, are as follows:

a. Willful violation. The penalty for each willful violation under Iowa Code section 88.14(1) shall not be less than $11,823 and shall not exceed $165,514.

b. Repeated violation. The penalty for each repeated violation under Iowa Code section 88.14(1) shall not exceed $165,514.

c. Serious violation. The penalty for each serious violation under Iowa Code section 88.14(2) shall not exceed $16,550.

d. Other-than-serious violation. The penalty for each other-than-serious violation under Iowa Code section 88.14(3) shall not exceed $16,550.

e. Failure to correct violation. The penalty for failure to correct a violation under Iowa Code section 88.14(4) shall not exceed $16,550 per day.

f. Posting, reporting, or recordkeeping violation. The penalty for each posting, reporting, or recordkeeping violation under Iowa Code section 88.14(9) shall not exceed $16,550.

203.11(2) Upon receipt of any citation under the Act, the employer shall immediately post the citation or a copy thereof, unedited, at or near each place an alleged violation referred to in the citation occurred, except as provided in this rule. Where, because of the nature of the employer's operations, it is not practicable to post the citation at or near each place of alleged violation, the citation shall be posted, unedited, in a prominent place where it will be readily observable by all affected employees. For example, where employers are engaged in activities that are physically dispersed, the citation may be posted at the location to which employees report each day. Where employees do not primarily work at or report to a single location, the citation may be posted at the location from which the employees operate to carry out their activities. The employer shall take steps to ensure that the citation is not altered, defaced or covered by other material. Notices of de minimis violations need not be posted.

203.11(3) Each citation or a copy thereof shall remain posted until the violation has been abated, or for three working days, whichever is later. The filing by the employer of a notice of intention to contest shall not affect the posting responsibility under this rule unless and until the employment appeal board issues a final order vacating the citation.

203.11(4) An employer to whom a citation has been issued may post a notice in the same location where such citation is posted indicating that the citation is being contested before the employment appeal board and the notice may explain the reasons for the contest. The employer may also indicate that specified steps have been taken to abate the violation.

203.11(5) Any employer failing to comply with the provisions of subrules 203.11(2) and 203.11(3) shall be subject to citation and penalty in accordance with the provisions of Iowa Code section 88.14.

203.11(6) Any employer to whom a citation and notification of penalty have been issued may, under Iowa Code section 88.8, notify the commissioner of the employer's intention to contest the citation or notification of penalty. The notice of contest shall be in writing. The notice of contest shall be received by the division of labor services or postmarked no later than 15 working days after the receipt by the employer of the citation and notification of penalty. The notice of contest may be provided to the division of labor services by mail, personal delivery or facsimile transmission.

This rule is intended to implement Iowa Code chapter 88.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; **ARC 9345C**, IAB 6/11/25, effective 5/23/25; Editorial change: IAC Supplement 7/9/25]

481—203.12(88) Informal conferences. At the request of an affected employer, employee, or representative of employees, the labor commissioner or the commissioner's designee may hold an informal conference for the purpose of discussing any issues raised by an inspection, citation, notice of proposed penalty, or notice of intention to contest. The settlement of any issue at the conference shall be subject to the rules of procedure prescribed by the employment appeal board. If the conference is requested by the employer, an affected employee or the employee's representative shall be afforded an opportunity to participate, at the discretion of the labor commissioner or the commissioner's designee. If the conference is requested by an employee or representative of employees, the employer shall be afforded an opportunity to participate, at the discretion of the labor commissioner or the commissioner's designee. Any party may be represented by counsel at the conference. No conference or request for a conference shall operate as a stay of any 15-working-day period for filing a notice of intention to contest.

This rule is intended to implement Iowa Code sections 17A.3(1)*"b"* and 17A.10.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.13(88) Petitions for modification of abatement date.

203.13(1) An employer may file a petition for modification of abatement date when the employer has made a good faith effort to comply with the abatement requirements of a citation, but such abatement has not been completed because of factors beyond its reasonable control.

203.13(2) A petition for modification of abatement date shall be in writing and shall include the following information:

a. All steps taken by the employer, and the dates of the action, in an effort to achieve compliance during the prescribed abatement period.

b. The specific additional abatement time necessary in order to achieve compliance.

c. The reasons the additional time is necessary, including the unavailability of professional or technical personnel or of materials and equipment, or why necessary construction or alteration of facilities cannot be completed by the original abatement date.

d. All available interim steps being taken to safeguard the employees against the cited hazard during the abatement period.

e. A certification that a copy of the petition and notice informing affected employees of their rights to party status has been posted and, if appropriate, served on the authorized representative of affected employees, in accordance with paragraph 203.13(3)*"a"* and a certification of the date upon which the posting and service was made. A notice in the following form shall be deemed to comply with this paragraph:

(Name of employer)

Your employer has been cited by the commissioner of labor for violation of the Iowa Occupational Safety and Health Act and has requested additional time to correct one or more of the violations. Affected employees are entitled to participate as parties under terms and conditions established by the Iowa employment appeal board in its rules of procedure. Affected employees or their representatives desiring to participate must file a written objection to the employer's petition with the commissioner of labor. Failure to file the objection within ten working days of the first posting of the accompanying petition and this notice shall constitute a waiver of any further right to object to the petition or to participate in any proceedings related thereto. Objections shall be sent to the commissioner's designee: Iowa OSHA, Division of Labor Services. All papers relevant to this matter may be inspected at: (place reasonably convenient to employees, preferably at or near workplace).

203.13(3) A petition for modification of abatement date shall be filed with the labor commissioner or the commissioner's designee no later than the close of the next working day following the date on which abatement was originally required. A later-filed petition shall be accompanied by the employer's statement of exceptional circumstances explaining the delay.

a. A copy of the petition and a notice of employee rights complying with paragraph 203.13(2)*"e"* shall be posted in a conspicuous place where all affected employees will have notice thereof or near the location where the violation occurred. The petition and notice of employee rights shall remain posted for a period of ten working days. Where affected employees are represented by an authorized representative, the representative shall be served with a copy of the petition and notice of employee rights.

b. Affected employees or their representatives may file an objection in writing to a petition with the labor commissioner or the commissioner's designee. Failure to file the objection within ten working days of the date of posting of the petition and notice of employee rights or of service upon an authorized representative shall constitute a waiver of any further right to object to the petition.

c. The labor commissioner or the commissioner's designee shall have the authority to approve any filed petition for modification of abatement date. Uncontested petitions shall become final orders pursuant to Iowa Code section 88.8.

d. The labor commissioner or the commissioner's designee shall not exercise approval power until the expiration of 15 working days from the date the petition and notice of employee rights were posted or served by the employer.

203.13(4) Where any petition is objected to by the labor commissioner or the commissioner's designee or affected employees, the petition, citation, and any objections shall be forwarded to the employment appeal board within 3 working days after the expiration of the 15-day period set out in paragraph 203.13(3)*"d."*

This rule is intended to implement Iowa Code section 88.8.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.14 to **203.18** Reserved.

481—203.19(88) Abatement verification.

203.19(1) *Scope and application.* This rule applies to employers who receive a citation for a violation of the Iowa occupational safety and health Act.

203.19(2) *Definitions.*

"Abatement" means action by an employer to comply with a cited standard or regulation or to eliminate a recognized hazard identified by OSHA during an inspection.

"Abatement date" means:

1. For an uncontested citation item, the latest of:

- The date in the citation for abatement of the violation;
- The date approved by OSHA or established in litigation as a result of a petition for modification of the abatement date (PMA); or
- The date established in a citation by an informal settlement agreement.

2. For a contested citation item for which the employment appeal board has issued a final order affirming the violation, the latest of:

- The date identified in the final order for abatement;
- The date computed by adding the period allowed in the citation for abatement to the final order date; or
- The date established by a formal settlement agreement.

"Affected employees" means those employees who are exposed to the hazard(s) identified as a violation(s) in a citation.

"Final order date" means:

1. For an uncontested citation item, the fifteenth working day after the employer's receipt of the citation;

2. For a contested citation item:

- The thirtieth day after the date on which a final order was entered by the employment appeal board, or
- The date on which a court issues a decision affirming the violation in a case in which a final order of the employment appeal board has been stayed.

"Movable equipment" means a handheld or nonhandheld machine or device, powered or unpowered, that is used to do work and is moved within or between work sites.

203.19(3) *Abatement certification.*

a. Within ten calendar days after the abatement date, the employer must certify to the division that each cited violation has been abated, except as provided in paragraph 203.19(3)*"b."*

b. The employer is not required to certify abatement if the compliance safety and health officer during the on-site portion of the inspection:

(1) Observes, within 24 hours after a violation is identified, that abatement has occurred; and

(2) Notes in the citation that abatement has occurred.

c. The employer's certification that abatement is complete must include, for each cited violation, in addition to the information required in subrule 203.19(8), the date and method of abatement and a statement that affected employees and their representatives have been informed of the abatement.

203.19(4) *Abatement documentation.* The employer must submit to the division, along with the information on abatement certification required by paragraph 203.19(3)*"c,"* documents demonstrating that abatement is complete for each willful or repeat violation and for any serious violation for which the division indicates in the citation that the abatement documentation is required.

203.19(5) *Abatement plans.*

a. The division may require an employer to submit an abatement plan for each cited violation (except an other-than-serious violation) when the time permitted for abatement is more than 90 calendar days. If an abatement plan is required, the citation must so indicate.

b. The employer must submit an abatement plan for each cited violation within 25 calendar days from the final order date when the citation indicates that such a plan is required. The abatement plan must identify the violation and the steps to be taken to achieve abatement, including a schedule for completing

abatement and, where necessary, how employees will be protected from exposure to the violative condition in the interim until abatement is complete.

203.19(6) *Progress reports.*

a. An employer who is required to submit an abatement plan may also be required to submit periodic progress reports for each cited violation. The citation must indicate:

(1) That periodic progress reports are required and the citation items for which they are required;

(2) The date on which an initial progress report must be submitted, which may be no sooner than 30 calendar days after submission of an abatement plan;

(3) Whether additional progress reports are required; and

(4) The date(s) on which additional progress reports must be submitted.

b. For each violation, the progress report must identify, in a single sentence if possible, the action taken to achieve abatement and the date the action was taken.

203.19(7) *Employee notification.*

a. The employer must inform affected employees and their representative(s) about abatement activities covered by this rule by posting a copy of each document submitted to the division or a summary of the document near the place where the violation occurred.

b. Where posting does not effectively inform employees and their representatives about abatement activities (for example, for employers who have mobile work operations), the employer shall:

(1) Post each document or a summary of the document in a location where it will be readily observable by affected employees and their representatives; or

(2) Take other steps to communicate fully to affected employees and their representatives about abatement activities.

(3) The employer must inform employees and their representatives of their right to examine and copy all abatement documents submitted to the division.

c. An employee or an employee representative shall submit a request to examine and copy abatement documents within three working days of receiving notice that the documents have been submitted. The employer shall comply with an employee's or employee representative's request to examine and copy abatement documents within five working days of receiving the request.

d. The employer must ensure that notice to employees and employee representatives is provided at the same time or before the information is provided to the division and that abatement documents are:

(1) Not altered, defaced, or covered by other material; and

(2) Remain posted for three working days after submission to the division.

203.19(8) *Transmitting abatement documents.*

a. The employer must include, in each submission required by this rule, the following information:

(1) The employer's name and address;

(2) The inspection number to which the submission relates;

(3) The citation and item numbers to which the submission relates;

(4) A statement that the information submitted is accurate; and

(5) The signature of the employer or the employer's authorized representative.

b. The date of postmark is the date of submission for mailed documents. For documents transmitted by other means, the date the division receives the document is the date of submission.

203.19(9) *Movable equipment.*

a. For serious, repeat, and willful violations involving movable equipment, the employer must attach a warning tag or a copy of the citation to the operating controls or to the cited component of equipment that is moved within the work site or between work sites. Attaching a copy of the citation to the equipment is deemed to meet the tagging requirement of this paragraph as well as the posting requirement of rule 481—203.11(88).

b. The employer must use a warning tag that properly warns employees about the nature of the violation involving the equipment and identifies the location of the citation issued. A sample tag is available at osha.gov as Appendix C to 29 CFR 1903.19.

c. If the violation has not already been abated, a warning tag or copy of the citation must be attached to the equipment:

(1) For handheld equipment, immediately after the employer receives the citation; or

(2) For nonhandheld equipment, prior to moving the equipment within or between work sites.

d. For the construction industry, a tag that is designed and used in accordance with 29 CFR 1926.20(b)(3) and 29 CFR 1926.200(h) is deemed by OSHA to meet the requirements of this rule when the information required by paragraph 203.19(9)*"b"* is included on the tag.

e. The employer must ensure that the tag or copy of the citation attached to movable equipment is not altered, defaced, or covered by other material.

f. The employer must ensure that the tag or copy of the citation attached to movable equipment remains attached until:

(1) The violation has been abated and all abatement verification documents required by this regulation have been submitted to the division;

(2) The cited equipment has been permanently removed from service or is no longer within the employer's control; or

(3) The appeal board issues a final order vacating the citation.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.20(88) Policy regarding employee rescue activities.

203.20(1) No citation may be issued to an employer because of a rescue activity undertaken by an employee of that employer with respect to an individual in imminent danger unless:

a. The employee is designated or assigned by the employer to have responsibility to perform or assist in rescue operations, and the employer fails to provide protection of the safety and health of the employee, including failing to provide appropriate training and rescue equipment; or

b. The employee is directed by the employer to perform rescue activities in the course of carrying out the employee's job duties, and the employer fails to provide protection of the safety and health of such employee, including failing to provide appropriate training and rescue equipment; or

c. The employee is employed in a workplace that requires the employee to carry out duties that are directly related to a workplace operation where the likelihood of life-threatening accidents is foreseeable, such as a workplace operation where employees are located in confined spaces or trenches, handle hazardous waste, respond to emergency situations, perform excavations, or perform construction over water; and such employee has not been designated or assigned to perform or assist in rescue operations and voluntarily elects to rescue such an individual. Additionally, the employer has failed to instruct employees not designated or assigned to perform or assist in rescue operations of the arrangements for rescue, not to attempt rescue, and of the hazards of attempting rescue without adequate training or equipment.

203.20(2) For purposes of this policy, the term "imminent danger" means the existence of any condition or practice that could reasonably be expected to cause death or serious physical harm before such condition or practice can be abated.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.21 Reserved.

481—203.22(88,89B) Additional hazard communication training requirements.

203.22(1) *Training format.* The employer may present the training program to the employee in any format; however, the employer shall preserve a written summary and synopsis of the training, a recording of an oral presentation, or a video recording of an audio-video presentation of the training relied upon by the employer for compliance with 29 CFR 1910.1200(h), and shall allow employees and their designated representatives access to the written synopsis, recording, or video recording.

203.22(2) *Review by the division.* The training program shall be available for review and approval upon inspection by the division. Upon request by the commissioner, the employer shall make available the written synopsis, recording, or video recording used or prepared by the employer. The commissioner may conduct an inspection to review an actual training program or review the employer's records of a training program.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—203.23(88) Definitions. The definitions and interpretations contained in Iowa Code section 88.3 shall be applicable to the terms when used in this chapter. As used in this chapter unless the context clearly requires otherwise:

"Act" means the Iowa occupational safety and health Act of 1972, Iowa Code chapter 88.

"Compliance safety and health officer" means a person authorized by the labor commissioner of the department of inspections, appeals, and licensing, division of labor services, to conduct inspections.

"Division" means the Iowa division of labor of the department of inspections, appeals, and licensing.

"Inspection" means any inspection of an employer's factory, plant, establishment, construction site or other area, workplace or environment where work is performed by an employee of an employer, and includes any inspection conducted pursuant to a filed complaint, and any follow-up inspection, accident investigation or other inspections conducted under the Act.

"Working days" means Mondays through Fridays but shall not include Saturdays, Sundays or federal or state holidays. In computing 15 working days, the day of receipt of any notice shall not be included, and the last day of the 15 working days shall be included.

This rule is intended to implement Iowa Code section 88.6.

[**ARC 8112C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

These rules are intended to implement Iowa Code chapters 17A and 88.

CHAPTER 204
RECORDING AND REPORTING OCCUPATIONAL INJURIES AND ILLNESSES

[Prior to 9/24/86, Labor, Bureau of [530]]
[Prior to 10/7/98, see 347—Ch 4]
[Prior to 7/9/25, see Labor Services Division[875] Ch 4]

Chapter rescission date pursuant to Iowa Code section 17A.7: 6/19/29

481—204.1(88) Purpose and scope. This chapter applies to public and private employers.
[**ARC 8113C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—204.2(88) First reports of injury. A report to the division of workers' compensation is considered to be a report to the division of labor services. The division of workers' compensation will forward all reports to the division of labor services.
[**ARC 8113C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

481—204.3(88) Recording and reporting regulations. Except as noted in this rule, the federal Occupational Safety and Health Administration (OSHA) regulations at 29 CFR 1904.0 through 1904.46 as published at 66 Fed. Reg. 6122 through 6135 (January 19, 2001) are adopted.

204.3(1) The following amendments to 29 CFR 1904.0 through 1904.46 are adopted:

a. 66 Fed. Reg. 52031-52034 (October 12, 2001)
b. 67 Fed. Reg. 44047 (July 1, 2002)
c. 67 Fed. Reg. 77170 (December 17, 2002)
d. 68 Fed. Reg. 38606 (June 30, 2003)
e. 79 Fed. Reg. 56186 (September 18, 2014)
f. 81 Fed. Reg. 29691 (May 12, 2016)
g. 81 Fed. Reg. 31854 (May 20, 2016)
h. 84 Fed. Reg. 405 (January 25, 2019)
i. 84 Fed. Reg. 21457 (May 14, 2019)
j. 85 Fed. Reg. 8731 (February 18, 2020)
k. 88 Fed. Reg. 47254 (July 21, 2023)

204.3(2) In addition to the reporting methods set forth in 29 CFR 1904.39(a), employers may make reports required by 29 CFR 1904.39 using at least one of the following methods:

a. Completing the incident report form and faxing or emailing the completed form to Iowa OSHA in the department of inspections, appeals, and licensing;
b. Calling 877.242.6742; or
c. Visiting 6200 Park Avenue, Suite 100, Des Moines, Iowa.

[**ARC 8113C**, IAB 7/10/24, effective 6/19/24; Editorial change: IAC Supplement 7/9/25]

These rules are intended to implement Iowa Code chapter 88.

[Prior to 10/7/98, see 374—Ch 5]
[Prior to 7/9/25, see Labor Services Division[875] Ch 5]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/15/30

481—205.1(17A,88) Purpose and scope. This chapter contains rules of practice for administrative proceedings to grant variances and other relief under Iowa Code sections 17A.9A, 88.5(3), 88.5(6), and 88.5(7).
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.2(17A,88) Definitions. The definitions and interpretations contained in Iowa Code section 88.3 are applicable to the terms when used in this chapter. As used in this chapter unless the context clearly requires otherwise:

"Affected employee" means an employee who would be affected by the grant or denial of a variance, or any one of the employee's authorized representatives, such as the collective bargaining agent.

"Commissioner" means the labor commissioner of the department of inspections, appeals, and licensing, division of labor services.

"Hearing examiner" means the commissioner or the commissioner's designee.

"Party" means a person admitted to participate in a hearing conducted in accordance with rules 481—205.14(88) through 481—205.21(88). An applicant for relief and any affected employee are entitled to be named parties. For the purpose of special variance hearing procedures under Iowa Code section 88.5(7), the conflicting federal regulatory agency is also a party. The department of inspections, appeals, and licensing, division of labor services, is a party without the necessity of being named.

"Person" means an individual, partnership, association, corporation, business trust, legal representative, an organized group of individuals, or an agency, authority or instrumentality of the state of Iowa.

"Variance" means waivers or variances pursuant to Iowa Code sections 17A.9A, 88.5(3), 88.5(6), and 88.5(7) unless otherwise specified.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.3 Reserved.

481—205.4(88) Effect of variances. All variances granted pursuant to this chapter have only future effect. The commissioner may discretionarily decline to entertain an application for a variance on a subject or issue concerning which a citation has been issued to the employer involved, and a proceeding on the citation or a related issue concerning a proposed penalty or period of abatement is pending before the employment appeal board until the completion of such proceedings.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.5(17A,88) Submission of waiver information. Information about all orders granting or denying a variance petition are submitted to the legislative services agency through the designated Internet site within 60 days of the granting or denying of the petition. The information submitted is available to the public via the website.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.6 Reserved.

481—205.7(88) Temporary variance.

205.7(1) *Application for variance.* Any employer or class of employers desiring a variance from a standard, or portion thereof, authorized by Iowa Code section 88.5(3) may file a written application containing the information specified in subrule 205.7(2) with the commissioner.

205.7(2) *Contents.* An application filed pursuant to subrule 205.7(1) includes:

a. The name and address of the applicant;

b. The address of the place or places of employment involved;

c. Any request for a hearing as provided in this chapter;

d. The statements and certifications required by Iowa Code section 88.5(3); and

e. The signature of the applicant or the applicant's authorized representative.

205.7(3) *Interim order.*

a. Application. An application may also be made for an interim order to be effective until a decision is rendered on the application for the variance filed previously or concurrently. An application for an interim order may include statements of fact and arguments as to why the order should be granted. The commissioner may rule ex parte upon the application.

b. Notice of denial of application. If an application filed pursuant to paragraph 205.7(3)*"a"* is denied, the applicant will be given prompt notice of the denial, which will include, or be accompanied by, a brief statement of the grounds therefor.

c. Notice of the grant of an interim order. If an interim order is granted, a copy of the order will be served upon the applicant for the order and other parties and notice of the terms of the order will be made in accordance with the notice requirements of rule 481—205.5(88). It shall be a condition of the order that the affected employer shall give notice thereof to affected employees.

This rule is intended to implement Iowa Code section 88.3.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.8(88) Permanent variance.

205.8(1) *Application for variance.* Any employer or class of employers desiring a variance authorized by Iowa Code section 88.5(6) may file a written application containing the information specified in subrule 205.8(2) with the commissioner.

205.8(2) *Contents.* An application filed pursuant to subrule 205.8(1) includes:

a. The name and address of the applicant;

b. The address of the place or places of employment involved;

c. A description of the conditions, practices, means, methods, operations or processes used or proposed to be used by the applicant;

d. A statement showing how the conditions, practices, means, methods, operations or processes used or proposed to be used would provide employment and places of employment to employees that are as safe and healthful as those required by the standard from which a variance is sought;

e. A certification that the applicant has informed affected employees of the application by (1) giving a copy thereof to their authorized representative; (2) posting a statement giving a summary of the application and specifying where a copy may be examined, at the place or places where notices to employees are normally posted (or in lieu of such summary, the posting of the application itself); and (3) other appropriate means when necessary;

f. Any request for a hearing, as provided in this chapter;

g. A description of how employees have been informed of the application and of their right to petition the commissioner for a hearing; and

h. The signature of the applicant or the applicant's authorized representative.

205.8(3) *Interim order.* Procedures for applications and for notifications of a denial or grant of interim orders are in the same manner as provided for in subrule 205.7(3).

This rule is intended to implement Iowa Code section 88.6.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.9(88) Special variance.

205.9(1) *Application for variance.* Any employer, or class of employers, desiring a special variance authorized by Iowa Code section 88.5(7) may file a written application containing the information specified in subrule 205.9(2) with the commissioner.

205.9(2) *Contents.* An application filed pursuant to subrule 205.9(1) includes:

a. The name and address of the applicant;

b. The address of the place or places of employment involved;

c. The name of the federal agency and a designation of the standard, rule, or regulation allegedly in conflict with a standard, rule, or regulation of the division of labor services;

d. A designation of the standard, rule, or regulation of the division of labor services allegedly in conflict;

e. A description of the conditions, means, methods, operations, and procedures used and a specific detailed statement as to how and where the conflict exists between federal agency or agencies and the division of labor services;

f. A description of the conditions, practices, means, methods, operations, or processes used or proposed to be used by the applicant;

g. A statement showing how the conditions, practices, means, methods, operations, or processes used or proposed to be used would take into consideration the safety and health of the employees involved;

h. A certification that the applicant has informed employees affected of the application by (1) giving a copy thereof to their authorized representative; (2) posting a statement giving a summary of the application and specifying where a copy may be examined, at the place or places where notices to employees are normally posted (or in lieu of such summary, the posting of the application itself); and (3) other appropriate means where necessary;

i. Any request for a hearing, as provided in this chapter;

j. A description of how employees have been informed of the application and of their right to petition the commissioner for a hearing; and

k. The signature of the applicant or the applicant's authorized representative.

205.9(3) *Interim order.* Procedures for applications and for notifications of a denial or grant of interim orders are in the same manner as provided for in subrule 205.7(3).

This rule is intended to implement Iowa Code section 88.7.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.10(88) Modification and revocation of rules or orders.

205.10(1) An affected employer or an affected employee may apply in writing to the commissioner for a modification or revocation of a rule or order issued under Iowa Code section 88.5(3), 88.5(6), or 88.5(7). The application contains:

a. The name and address of the applicant;

b. A description of the relief that is sought;

c. A statement setting forth with particularity the grounds for relief;

d. If the applicant is an employer, a certification that the applicant has informed affected employees of the application by: (1) giving a copy thereof to their authorized representative; (2) posting at the place or places where notices to employees are normally posted, a statement giving a summary of the application and specifying where a copy of the full application may be examined (or, in lieu of the summary, posting the application itself); and (3) other appropriate means when necessary;

e. If the applicant is an affected employee, a certification that a copy of the application has been furnished to the employer; and

f. Any request for a hearing as provided in this chapter.

205.10(2) The commissioner may move to modify or revoke a rule or order issued under Iowa Code section 88.5(3), 88.5(6), or 88.5(7). In such event, the commissioner will cause a notice of intention to be published in accordance with the notice requirements of rule 481—205.5(88), affording interested persons an opportunity to submit written data, views or arguments regarding the proposal and informing the affected employer and employees of their right to request a hearing, and other action as may be appropriate to notify the affected employer and employees. Any request for a hearing shall include a short and plain statement of:

a. How the proposed modification or revocation would affect the requesting party; and

b. What the requesting party would seek to show on the subjects or issues involved.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.11(88) Action on applications. If an application filed pursuant to subrule 205.7(1), 205.8(1), 205.9(1), or 205.10(1) does not conform to the applicable rule, the commissioner may deny the application. Prompt notice of the denial of an application will be given to the applicant and will include, or be accompanied by, a brief statement of the grounds for the denial. A denial of an application pursuant to this rule shall be without prejudice to the filing of another application.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.12(88) Requests for hearings on applications.

205.12(1) *Request for hearing.* Within the time allowed by a notice of the filing of an application, any affected employer or employee may file with the commissioner a request for a hearing on the application.

205.12(2) *Contents of a request for a hearing.* A request for a hearing filed pursuant to subrule 205.12(1) includes:

a. A concise statement of facts showing how the employer or employee would be affected by the requested relief;

b. A specification of any statement or representation in the application that is denied and a concise summary of the evidence that would be adduced in support of each denial; and

c. Any views or arguments on any issue of fact or law presented.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.13(88) Consolidation of proceedings. The commissioner may move or any party may move to consolidate or contemporaneously consider two or more proceedings that involve the same or closely related issues.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.14(88) Notice of hearing.

205.14(1) *Contents.* A notice of hearing includes:

a. The time, place, and nature of the hearing;

b. The legal authority under which the hearing is to be held; and

c. A specification of issues of fact and law.

205.14(2) Reserved.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.15(88) Manner of service. Service of any document upon any party may be made by personal delivery of, or by mailing, a copy of the document to the last-known address of the party. The person serving the document certifies the manner and the date of the service.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.16(88) Hearing examiner; powers and duties.

205.16(1) *Powers.* The commissioner or the commissioner's designee presides over the hearing and has all powers necessary or appropriate to conduct a fair, full, and impartial hearing.

205.16(2) *Private consultation.* Except to the extent required for the disposition of ex parte matters, the hearing examiner may not consult a person or a party on any fact at issue unless upon notice and opportunity for all parties to participate.

205.16(3) *Disqualification.* When the commissioner or the commissioner's designee deems appropriate to be disqualified to preside, or to continue to preside, over a particular hearing the commissioner or the commissioner's designee will withdraw therefrom by notice on the record, and the commissioner shall designate another.

Any party who deems the commissioner or commissioner's designee for any reason to be disqualified to preside, or to continue to preside, over a particular hearing, may file with the commissioner a motion for disqualification and removal, supported by affidavits setting forth the alleged ground for disqualification. The commissioner's ruling on the motion is final for the purposes of judicial review under rule 481—205.24(88).

205.16(4) *Contumacious conduct; failure or refusal to appear or obey the rulings of the hearing examiner.* Contumacious conduct at any hearing before the hearing examiner is a ground for exclusion from the hearing.

If a witness or a party refuses to answer a question after being directed to do so, or refuses to obey an order to provide or permit discovery, the hearing examiner may make such orders with regard to the refusal as are just and appropriate, including an order denying the application of an applicant or regulating the contents of the record of the hearing.

205.16(5) *Referral to Iowa rules of civil procedure.* On any procedural question not regulated by Iowa Code chapter 88 or this chapter, the hearing examiner is guided by the Iowa Rules of Civil Procedure.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.17(88) Prehearing conferences.

205.17(1) *Convening conference.* Upon the commissioner's own motion or the motion of a party, the commissioner or the commissioner's designee may direct the parties or the parties' counsel to meet with the commissioner for a conference to consider:

a. Simplification of the issues;

b. Necessity or desirability of amendments to documents for purpose of clarification, simplification, or limitation;

c. Stipulations, admissions of fact and of contents and authenticity of documents;

d. Limitation of the number of parties and of expert witnesses; and

e. Such other matters as may tend to expedite the disposition of the proceeding and to ensure a just conclusion thereof.

205.17(2) *Record of conference.* The commissioner or the commissioner's designee shall make an order that recites the action taken at the conference.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.18(88) Consent findings and rules or orders.

205.18(1) *Negotiation by parties.* A reasonable opportunity may be afforded to permit negotiation by the parties of an agreement containing consent findings and a rule or order disposing of the whole or any part of the proceeding.

205.18(2) *Disposition.* In the event an agreement containing consent findings and rule or order is submitted within the time allowed therefor, the hearing examiner may accept such agreement by issuing a decision based upon the agreed findings.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.19(88) Discovery. Whenever appropriate to a just disposition of any issue in a hearing, the hearing examiner may allow discovery by appropriate procedures, such as by written interrogatories upon a party, depositions, production of documents by a party, or by entry for inspection of the employment or place of employment involved. Iowa Rules of Civil Procedure are applicable to such authorized discovery procedures.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.20(88) Hearings.

205.20(1) *Order of proceeding.* Except as may be ordered otherwise by the hearing examiner, the party applicant for relief proceeds first at a hearing.

205.20(2) *Burden of proof.* The party applicant has the burden of proof.

205.20(3) *Evidence.*

a. Proof for a special variance. Before a special variance may be granted, there must be proof that an actual conflict does exist. The proof required to establish such conflict is information in writing or oral testimony from a representative of the involved federal regulatory agency or agencies, substantiated by evidence, that there is a conflict between the standards, rules or regulations of the federal agency and those of the division of labor services. Also, the applicant must prove that compliance with the standard, rule or regulation of the division of labor services would subject the applicant to probable citation, penalty, or prosecution for violating such federal agency standard, rule or regulation.

b. Reserved.

205.20(4) *Transcript.* Hearings are stenographically reported or audio-recorded. Copies of the transcript may be obtained by the parties upon written application filed with the reporter and upon the payment of fees at the rate provided in the agreement with the reporter.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.21(88) Decisions of hearing examiner.

205.21(1) *Proposed findings of fact, conclusions, and rules or orders.* Within ten days after receipt of notice that the transcript of the testimony has been filed or such additional time as the hearing examiner may allow, each party may file with the hearing examiner proposed findings of fact, conclusions of law, and rule or order, together with supporting briefs served on all other parties, and refer to all portions of the record and to all authorities relied upon in support of each proposal.

205.21(2) *Decision.* Within a reasonable time after the time allowed for the filing of proposed findings of fact, conclusions of law, and rule or order, the hearing examiner will issue a decision that will be reviewed and countersigned by the commissioner. The commissioner will serve the decision upon each party, and the decision is final upon the twentieth day after service thereof. The decision will include: (1) a statement of findings and conclusions, with reasons and bases therefor, upon each material issue of fact, law, or discretion presented on the record, and (2) the appropriate rule, order, relief or denial thereof.

205.21(3) *Grant of a special variance.* The grant of a special variance is renewable upon review by the commissioner at six-month intervals beginning on the date the decision becomes final under subrule 205.21(2). If at the time of the review the commissioner finds that there has been a change in the standard, rule, or regulation or a change in the interpretation of such standard, rule or regulation of the federal agency or the division of labor services affecting or resolving the conflict on which the special variance was granted, the commissioner will set the case for an evidentiary hearing in accordance with rules 481—205.14(88) through 481—205.21(88). Enforcement is stayed during review and hearing procedures under this rule.

Affected employees shall be notified by their employer of a renewal or a refusal to renew by: (1) giving a copy of the commissioner's notice to the authorized employee representative; (2) posting a copy of the commissioner's notice at the place or places where notices to employees are normally posted; and (3) other appropriate means.

[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.22(88) Motion for summary decision.

205.22(1) Any party may, at least 20 days before the date fixed for any hearing, move with or without supporting affidavits for a summary decision in favor of the moving party on all or any part of the proceeding. Any other party may, within ten days after service of the motion, serve opposing affidavits or countermove for summary decision. The hearing examiner may discretionarily set the matter for argument and call for the submission of briefs.

205.22(2) The filing of any documents under subrule 205.22(1) shall be with the commissioner, and copies of any such documents shall be served in accordance with rule 481—205.15(88).

205.22(3) The hearing examiner may grant the motion if the pleadings, affidavits, material obtained by discovery or otherwise obtained, or matters officially noticed show that there is no genuine issue as to any material fact and that a party is entitled to summary decision. The hearing examiner may deny such motion whenever the moving party denies access to information by means of discovery to a party opposing the motion.

205.22(4) Affidavits shall set forth such facts as would be admissible in evidence in the hearing and show affirmatively that the affiant is competent to testify to the matters stated therein. When a motion for summary decision is made and supported as provided in this rule, a party opposing the motion may not rest upon the mere allegations or denials of its own pleading. The response of the party opposing the motion must set forth specific facts showing that there is a genuine issue of fact for the hearing.

205.22(5) Should it appear from the affidavits of a party opposing the motion that the opposing party cannot for reasons stated present by affidavit facts essential to justify the opposition, the hearing examiner

may deny the motion for summary decision or may order a continuance to permit affidavits to be obtained or discovery to be had or may make such other order as is just.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.23(88) Summary decision.

205.23(1) *No genuine issue of material fact.*

a. Where no genuine issue of a material fact is found to have been raised, the hearing examiner may issue a decision to become final 20 days after service thereof.

b. A decision made under subrule 205.23(1) includes a statement of: (1) findings and conclusions, and the reasons or bases therefor, on all issues presented; and (2) the terms and conditions of the rule or order made.

205.23(2) *Hearings on issues of fact.* Where a genuine material question of fact is raised, the hearing examiner will, and in any other case may, set the case for an evidentiary hearing in accordance with rules 481—205.14(88) through 481—205.21(88).
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—205.24(88) Finality for purposes of judicial review. A preliminary, procedural or intermediate agency action or ruling is immediately reviewable if review of the final agency decision would not provide an adequate remedy. The filing of the petition does not itself stay enforcement of the agency decision. The agency may grant, or the reviewing court may order, a stay upon appropriate terms.
[**ARC 8432C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

These rules are intended to implement Iowa Code sections 17A.9A and 88.5.

CHAPTER 208
CONSULTATIVE SERVICES

[Similar subject covered in Ch 6 prior to 12/24/80]
[Ch 8 appearing prior to 12/24/80 renumbered as Ch 9]
[Prior to 9/24/86, Labor, Bureau of[530]]
[Prior to 10/7/98, see 347—Ch 8]
[Prior to 7/9/25, see Labor Services Division[875] Ch 8]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/15/30

481—208.1(88) Purpose and scope. This chapter contains procedures for the division of labor services, bureau of consultation and education, to provide consultative services to private and public employers.

208.1(1) Services are available at no cost to employers to assist employers in establishing an effective occupational safety and health management system in order to provide employment and a place of employment that are safe and healthful. The goal is to prevent injuries and illnesses that may result from exposure to hazardous work practices and conditions. The principal assistance will be provided at the employer's work site, but off-site assistance may also be provided. Within the scope of the employer's request, the consultant will evaluate the employer's program for providing employment and a place of employment that are safe and healthful; identify specific hazards in the workplace; and provide appropriate advice and assistance in establishing or improving the employer's safety and health management system and in correcting any hazardous conditions identified. Assistance may include education and training of the employer, the employer's supervisors, and the employer's other employees to make the employer self-sufficient in ensuring safe and healthful work and working conditions.

208.1(2) Consultation is independent of Iowa OSHA enforcement, and the discovery of hazards will not mandate citations or penalties. However, the employer has a statutory obligation to protect employees, and, in certain instances, the employer will be required to take necessary protective action. An employer that corrects the hazards identified by the consultant during a comprehensive workplace survey, implements certain core elements of an effective safety and health management system, and commits to complete other core elements of an effective safety and health program may qualify for exemption from certain enforcement activities.

[**ARC 8448C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—208.2(88) Definitions.

"Act" means the Iowa occupational safety and health Act, Iowa Code chapter 88.

"Compliance officer" means a compliance safety and health officer employed by Iowa OSHA enforcement.

"Consultant" means an employee of the bureau of consultation and education of the division of labor services.

"Consultation" means all activities related to the provision of consultative assistance under this chapter, including off-site consultation and on-site consultation.

"Division" means the division of labor services of the department of inspections, appeals, and licensing.

"Education" means planned and organized activity by a consultant to impart information to employers and employees to enable them to establish and maintain employment and a place of employment that are safe and healthful.

"Employee representative" means the authorized representative of employees at a site where there is a recognized labor organization representing employees.

"Hazard correction" means the elimination or control of a workplace hazard in accordance with the requirements of the Act and rules.

"Imminent danger" means a condition or practice in a place of employment that could reasonably be expected to cause death or serious physical harm immediately or before the danger can be eliminated.

"Iowa OSHA enforcement" means the unit of the division that enforces the occupational safety and health Act.

"List of hazards" means a list of all serious hazards that are identified by the consultant and the correction due dates agreed upon by the employer and the consultant.

"Off-site consultation" means consultation provided away from an employer's work site by means such as training, education, telephone, and correspondence.

"On-site consultation" means consultation provided during a visit to an employer's work site. "On-site consultation" includes a written report to the employer on the findings and recommendations resulting from the visit and may include training and education needed to address hazards or potential hazards at the work site.

"Other-than-serious hazard" means any condition or practice that would be classified as an other-than-serious violation of applicable standards based on criteria contained in the current Iowa Field Operations Manual.

"Programmed inspection" means an inspection scheduled based on objective or neutral criteria as set forth in the Iowa Field Operations Manual.

"Recognition and exemption program" means an achievement recognition program to recognize an employer that operates an exemplary program that results in the immediate and long-term prevention of job-related injuries and illnesses at a workplace.

"Serious hazard" means a condition or practice that would be classified as a serious violation of applicable standards, except that the element of employer knowledge will not be considered.

"Training" means the planned and organized activity of a consultant to impart skills, techniques and methodologies to employers and their employees to assist them in establishing and maintaining employment and a place of employment that are safe and healthful.

[**ARC 8448C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—208.3(88) Requesting and scheduling of on-site consultation visit.

208.3(1) *Employer requests.* On-site consultation will be provided only upon the request of the employer. Any employer may specify a more limited scope for the visit by indicating working conditions, hazards, or situations on which on-site consultation shall be focused. When limited requests are made, the consultant will limit review and provide assistance only with respect to the specified working conditions, hazards, or situations. However, if in the course of the on-site visit the consultant observes hazards that are outside the scope of the request, the consultant shall treat the hazards as though they were within the scope of the request.

208.3(2) *Relationship to enforcement.* An employer may request on-site consultation to assist in the abatement of hazards cited during an enforcement inspection. However, on-site consultation may not take place after an enforcement inspection until the conditions set forth in paragraph 208.5(2)*"c"* have been met.

208.3(3) *Scheduling priority.* Scheduling priorities will be in accordance with the federal Consultation Policy and Procedures Manual.

[**ARC 8448C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—208.4(88) Conducting a visit.

208.4(1) *Preparation.*

a. The consultant will conduct an on-site consultation visit only after appropriate preparation.

b. If a request is made during a promotional visit, a consultant may perform on-site consultation activities immediately.

208.4(2) *Structured format.*

a. An initial on-site consultation visit will consist of an opening conference where the employer will be advised of the responsibilities under state law, an examination of those aspects of the employer's safety and health program that relate to the scope of the visit, a walk-through of the workplace, and a closing conference. An initial visit may include training and education for employers and employees, if the employer requests the assistance and if the need for the training and education is revealed by the walk-through of the workplace and the examination of the employer's safety and health program. The consultant will provide a written report to the employer after the consultation.

b. Additional visits may be conducted as the employer requests to provide needed education and training, assistance with the employer's safety and health program, or technical assistance in the correction of hazards. Additional visits may also be conducted if necessary to verify the correction of serious hazards identified during previous visits.

208.4(3) *Employee participation.*

a. The consultant retains the right to confer with individual employees privately during the course of the visit in order to identify and judge the nature and extent of particular hazards within the scope of the employer's request and to evaluate the employer's safety and health program. The consultant will explain the necessity for this contact to the employer during the opening conference, and the employer must agree to this contact before a visit can proceed.

b. Employees, their representatives, and members of a workplace joint safety and health committee may participate in the on-site consultation to the extent desired by the employer. In the opening conference, the consultant shall encourage the employer to allow employee participation to the fullest extent practicable.

c. An employee representative of affected employees must be afforded an opportunity to accompany the consultant and the employer's representative during the physical inspection of the workplace.

d. If there is no employee representative, if the consultant is unable with reasonable certainty to identify an employee representative, or if the employee representative declines the offer to participate, the consultant must confer with a reasonable number of employees concerning matters of occupational safety and health.

e. The consultant is authorized to deny the right to participate to any person whose conduct interferes with the orderly conduct of the visit.

208.4(4) *Opening and closing conferences.*

a. In the opening conference, the consultant will explain the relationship between on-site consultation and OSHA enforcement activity, will explain the obligation to protect employees in the event that certain hazardous conditions are identified, and will emphasize the employer's obligation to post the list of hazards.

b. The consultant will encourage a joint opening conference with the employer and employee representatives. If there is an objection to a joint conference, the consultant will conduct separate conferences with the employer and employee representatives. The consultant must inform employees at the opening conference of the purpose of the consultation visit.

c. At the conclusion of the consultation visit, the consultant will conduct a closing conference with the employer and employee representatives, jointly or separately. The consultant will describe hazards identified during the visit and other pertinent issues related to employee safety and health.

208.4(5) *On-site activity.*

a. During the on-site consultation, the consultant will focus primarily on conditions, hazards, or situations for which the employer requested assistance. An employer may expand or reduce the scope of the request at any time during the on-site consultation. If the employer requests an expansion of the scope, the consultant will expand the scope immediately if scheduling priorities permit and the consultant is prepared. If the employer's request for expansion necessitates further preparation by the consultant or the expertise of another consultant, or if other employer requests may merit higher priority, the consultant will refer the request to the consultation manager for scheduling. If the scope of the visit is reduced, the employer shall correct serious hazards that were already identified and provide appropriate proof of correction.

b. The consultant will advise the employer of the employer's obligations and responsibilities under applicable law.

c. Within the scope of the employer's request, the consultant will review the employer's safety and health management system and provide advice on modifications or additions to make the program more effective.

d. The consultant will identify and provide advice on the correction of hazards included in the employer's request and any other safety or health hazards observed in the workplace. The consultant will conduct necessary sampling, testing, and analysis to confirm the existence of a safety or health hazard.

e. Advice and technical assistance on the correction of identified safety and health hazards may be provided to employers during and after the on-site consultation. The consultant may provide materials on approaches, means, techniques, and items commonly utilized for the elimination or control of hazards. The consultant will advise the employer of additional sources of assistance, if known.

f. When a hazard is identified in the workplace, the consultant will indicate to the employer the consultant's best judgment as to whether the hazard would be classified as serious hazard or other-than-serious hazard.

g. If the consultant determines that an identified serious hazard exists, the consultant will assist the employer to develop a specific plan to correct the hazard. The chief of the bureau of consultation and education will provide an expeditious informal discussion regarding the period of time established for the correction of a hazard or any other substantive findings of the consultant if the employer requests the informal discussion within 15 working days from receipt of the consultant's report.

h. As a condition for receiving the consultation service, the employer must agree to post the list of hazards accompanying the consultant's written report and to notify affected employees when hazards are corrected. The employer must, upon receipt, post the unedited list of hazards in a prominent place where it is readily observable by all affected employees for three working days or until the hazards are corrected, whichever is later. A copy of the list of hazards shall be made available to the employee representative who participated in the visit.

208.4(6) *Employer's obligations.*

a. An employer must take immediate action to eliminate employee exposure to a hazard that presents an imminent danger to employees. If the employer fails to take the necessary action, the chief of the bureau of consultation and education shall immediately notify the affected employees and the labor commissioner or the labor commissioner's designee.

b. An employer must also take the necessary action to eliminate or control employee exposure to any identified serious hazard and meet the employee notice requirements of paragraph 208.4(5)*"h."* In order to demonstrate that the necessary action is being taken, an employer may be required to submit periodic reports, permit a follow-up visit, or take similar action.

c. The chief of the bureau of consultation and education may grant an extension of time for the correction of a serious hazard when:

(1) The employer files a request for extension;

(2) The employer demonstrates it made a good-faith effort to correct the hazard within the established time frame;

(3) The employer provides evidence that correction is not complete because of factors beyond the employer's reasonable control; and

(4) The employer provides evidence that the employer is taking all available interim steps to safeguard the employees against the hazard during the correction period.

d. If the employer fails to take the action necessary to correct a serious hazard within the established time frame or any extensions thereof, the chief of the bureau of consultation and education will immediately notify the labor commissioner or the labor commissioner's designee.

e. The employer will confirm in writing to the chief of the bureau of consultation and education that the hazards have been corrected unless the consultant otherwise confirms correction of the hazards.

208.4(7) *Written report.* For each visit that results in substantive findings or recommendations, a written report will be prepared and sent to the employer. The report will include the following elements as applicable:

a. A restatement of the employer's request;

b. A description of the working conditions examined by the consultant;

c. An evaluation of the employer's safety and health management system;

d. Recommendations for making the safety and health program more effective;

e. Identification, description, and classification of each hazard;

f. Reference to applicable standards and regulations;

g. Correction date for each serious hazard;

h. Suggested means or approaches to correct hazards; and

i. Recommendations for additional assistance, such as medical or engineering advice.

208.4(8) *Confidentiality.* The bureau of consultation and education will provide, when requested, program information to the U.S. Occupational Safety and Health Administration, including information that identifies employers that have requested consultation services.

[**ARC 8448C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—208.5(88) Relationship to enforcement.

208.5(1) *Separation of functions.* Consultation shall be conducted independently of Iowa OSHA enforcement. Except as noted in subrule 208.5(3), neither the identity of an employer requesting on-site consultation nor the file or report from the consultation activity will be provided to Iowa OSHA enforcement unless the employer fails to take the necessary action to protect employees from a serious hazard or imminent danger.

208.5(2) *Effect upon scheduling.*

a. An on-site consultation already in progress will have priority over compliance inspections by Iowa OSHA enforcement except as provided in paragraph 208.5(2)*"b."* The consultant and the employer will notify the compliance officer that an on-site consultation is in progress and will request delay of the inspection until after the on-site consultation is completed.

b. The consultant will terminate an on-site consultation if one of the following compliance inspections by Iowa OSHA enforcement is about to take place:

(1) Imminent danger investigation.

(2) Fatality/catastrophe investigation.

(3) Complaint or referral investigation.

(4) Other critical inspection as determined by the labor commissioner.

c. An on-site consultation shall not take place while an enforcement inspection is in progress at the establishment. An enforcement inspection will be deemed "in progress" from the time a compliance officer initially seeks entry to the workplace to the end of the closing conference. If the employer denied the compliance officer entry to the work site, an enforcement inspection is "in progress" until the inspection is concluded, the commissioner determines that a warrant to enter will not be sought, or the commissioner determines that allowing a consultative visit to proceed is in the best interest of employee safety and health. An on-site consultation shall not take place subsequent to an enforcement inspection until the employer has been notified that no citations will be issued, or if a citation is issued, on-site consultation will take place only with regard to those citation items that have become final orders.

d. The recognition and exemption program operated by the bureau of consultation and education provides incentives and support to high-hazard employers to work with employees to develop, implement, and continuously improve the effectiveness of a safety and health management system.

(1) Programmed enforcement inspections at a work site may be deferred while the employer is working to achieve recognition status if the following conditions are met:

1. An employer requested participation in a recognition and exemption program;

2. A consultant has conducted an on-site consultation covering all conditions and operations related to occupational safety and health;

3. An employer corrected all hazards identified during the consultation visit within established time frames;

4. An employer has begun to implement all of the elements of an effective safety and health management system; and

5. An employer agrees to request an on-site consultation if major changes in working conditions or work processes occur that may introduce new hazards.

(2) Employers that meet all the requirements for recognition and exemption will be removed from the Iowa OSHA enforcement programmed inspection schedules for at least one year from the date of the certificate of recognition.

(3) Iowa OSHA enforcement shall continue to make the inspections listed below at sites that achieved recognition and exemption status and at sites that have received deferrals:

1. Imminent danger;

2. Fatality/catastrophe; and

3. Formal complaint.

208.5(3) *Effect upon enforcement.*

a. The advice of the consultant and the consultant's written report will not be binding upon a compliance officer in a subsequent enforcement inspection. In a subsequent enforcement inspection, a compliance officer is not precluded from issuing citations and proposing penalties for hazardous conditions or violations.

b. The hazard identification and correction assistance given by the consultant, the failure of the consultant to point out a specific hazard, and errors or omissions by the consultant shall not:

(1) Be binding upon a compliance officer;

(2) Affect the regular conduct of a compliance inspection;

(3) Preclude the finding of alleged violations and the issuance of citations; or

(4) Act as a defense to any enforcement action.

c. In the event of a subsequent enforcement inspection, the employer is not required to inform the compliance officer of the prior consultation visit. The employer is not required to provide a copy of the consultant's written report to the compliance officer, except to the extent that disclosure of information contained in the report is required by 29 CFR 1910.1020. During a subsequent enforcement action, if Iowa OSHA enforcement independently determines there is reason to believe that the employer failed to correct serious hazards identified during the consultation visit, created the same hazards again, or made false statements to the bureau of consultation and education in connection with the consultation program, Iowa OSHA enforcement may exercise its authority to obtain the consultation report.

d. If the employer chooses to provide a copy of the consultant's report to the compliance officer, the report may be used to determine the extent to which an inspection is required and as a factor in determining proposed penalties. Iowa OSHA enforcement may impose minimal penalties if a consultant previously identified a hazard and the employer is complying with the consultant's recommendations in good faith.

CHAPTER 209
OSHA DISCRIMINATION AGAINST EMPLOYEES

[Previously Ch 8 IAC renumbered 12/24/80]
[Prior to 9/24/86, Labor, Bureau of [530]]
[Prior to 10/7/98, see 347—Ch 9]
[Prior to 7/9/25, see Labor Services Division[875] Ch 9]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/15/30

481—209.1(88) Complaints and proceedings under or related to the Iowa occupational safety and health Act.

209.1(1) Complaints about occupational safety and health, if made in good faith, are related to the Iowa occupational safety and health Act, Iowa Code chapter 88, hereinafter referred to as the Act, and an employee is protected against discharge or discrimination caused by a complaint to the employer.

209.1(2) If an employee, with no reasonable alternative, refuses in good faith to be exposed to a dangerous condition, the employee is protected against subsequent discrimination if the following conditions are met:

a. The condition causing the employee's apprehension of death or injury must be of such a nature that a reasonable person, under the circumstances then confronting the employee, would conclude that there is a real danger of death or serious injury.

b. The employee, where possible, first sought to:

(1) Eliminate the danger through resorting to regular statutory enforcement channels unless there has been insufficient time due to the urgency of the situation, or

(2) Obtain from the employer a correction of the dangerous condition but was unable to do so.

209.1(3) Discharge of, or discrimination against, any employee because the employee "has testified or is about to testify" in proceedings under or related to the Act extends to any statements given in the course of judicial, quasi-judicial, and administrative proceedings, including inspections, investigations, and administrative rulemaking or adjudicative functions. If the employee is giving or is about to give testimony in any proceeding under or related to the Act, the employee would be protected against discrimination resulting from such testimony.

209.1(4) An employee need not directly institute the proceedings. It is sufficient if the employee sets into motion activities of others that result in proceedings under or related to the Act.

209.1(5) An employer's failure to pay employees for time during which the employees are engaged in walkaround inspections or in other inspection-related activities, such as responding to questions of compliance officers or participating in the opening and closing conferences, is discriminatory under Iowa Code section 88.9(3) so long as neither the number of employees participating nor the time required to express employee concerns is excessive.

209.1(6) The employee's engagement in protected activity need not be the sole consideration behind discharge or other adverse action. If protected activity was a substantial reason for the action, or if the discharge or other adverse action would not have taken place "but for" engagement in protected activity, Iowa Code section 88.9(3) has been violated.

209.1(7) The prohibitions of Iowa Code section 88.9(3) are not limited to actions taken by employers against their own employees. A person may be chargeable with discriminatory action against an employee of another person. Iowa Code section 88.9(3) extends to such entities as organizations representing employees for collective bargaining purposes, employment agencies, or any other person in a position to discriminate against an employee.

[**ARC 8449C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—209.2(88) Unprotected activities distinguished.

209.2(1) Actions taken by an employer or others that adversely affect an employee may be predicated upon nondiscriminatory grounds. The proscriptions of Iowa Code section 88.9(3) apply when the adverse action occurs because the employee has engaged in protected activities. An employee's engagement in

activities protected by the Act does not automatically render the employee immune from discharge or discipline for legitimate reasons or from adverse action dictated by nonprohibited considerations.

209.2(2) An employer would not ordinarily be in violation of Iowa Code section 88.9(3) by taking action to discipline an employee for refusing to perform normal job activities because of alleged safety or health hazards.

209.2(3) Disciplinary measures taken by employers solely in response to employee refusal to comply with appropriate safety rules and regulations will not ordinarily be regarded as discriminatory action prohibited by Iowa Code section 88.9(3).

[**ARC 8449C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—209.3(88) Filing of complaint for discrimination.

209.3(1) A complaint of Iowa Code section 88.9(3) discrimination may be filed by the employee or by a representative authorized to do so on the employee's behalf. No particular form of complaint is required. A complaint should be filed with the labor commissioner.

209.3(2) Complaints not filed within 30 days of an alleged violation will ordinarily be presumed to be untimely. However, there may be circumstances that would justify tolling of the 30-day period on recognized equitable principles or because of strongly extenuating circumstances (e.g., where the employer has concealed or misled the employee regarding the grounds for discharge or other adverse action or where the discrimination is in the nature of a continuing violation). The pendency of grievance-arbitration proceedings or filing with another agency, among others, are circumstances that do not justify tolling of the 30-day period.

209.3(3) Withdrawal of complaint. Attempts by an employee to withdraw a previously filed complaint will not necessarily result in termination of the labor commissioner's investigation. However, a voluntary and uncoerced request from a complainant to withdraw the complaint will be given careful consideration and substantial weight.

[**ARC 8449C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—209.4(88) Notice of determination. Iowa Code section 88.9(3) provides that within 90 days of the filing of a complaint, the labor commissioner is to notify a complainant whether prohibited discrimination occurred. This 90-day provision is considered to be directory in nature.

[**ARC 8449C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

481—209.5(88) Arbitration or other agency proceedings.

209.5(1) The labor commissioner's jurisdiction to entertain complaints related to Iowa Code section 88.9(3) complaints is independent of the jurisdiction of the other agencies or bodies. The labor commissioner may file action in district court regardless of the pendency of other proceedings. However, due deference should be paid to the jurisdiction of other forums established to resolve disputes that may also be related to complaints under Iowa Code section 88.9(3).

209.5(2) Postponement of determination is justified where the rights asserted in other proceedings are substantially the same as rights under Iowa Code section 88.9(3).

209.5(3) A determination to defer to the outcome of other proceedings initiated by a complainant must necessarily be made on a case-to-case basis, after careful scrutiny of all available information.

[**ARC 8449C**, IAB 12/11/24, effective 1/15/25; Editorial change: IAC Supplement 7/9/25]

These rules are intended to implement Iowa Code sections 84A.1, 84A.2, 88.2, and 88.9(3).

CHAPTER 210
GENERAL INDUSTRY SAFETY AND HEALTH RULES

[Prior to 9/24/86, Labor, Bureau of [530]]
[Prior to 10/7/98, see 347—Ch 10]
[Prior to 7/9/25, see Labor Services Division[875] Ch 10]

Chapter rescission date pursuant to Iowa Code section 17A.7: 11/6/29

481—210.1(88) Applicability of standards. None of the standards in this chapter shall apply to working conditions of employees with respect to which federal agencies other than the United States Department of Labor exercise statutory authority to prescribe or enforce standards or regulations affecting occupational safety or health.
[**ARC 8411C**, IAB 11/27/24, effective 11/6/24; Editorial change: IAC Supplement 7/9/25]

481—210.2(88) Incorporation by reference. The standards of agencies of the U.S. Government, and organizations that are not agencies of the U.S. Government that are incorporated by reference in this chapter, have the same force and effect as other standards in this chapter. Only mandatory provisions (i.e., provisions containing the word "shall" or other mandatory language) of standards incorporated by reference are adopted under the Act.
[**ARC 8411C**, IAB 11/27/24, effective 11/6/24; Editorial change: IAC Supplement 7/9/25]

481—210.3(88) Definitions and requirements for a nationally recognized testing laboratory. The federal regulations adopted at 29 CFR, Chapter XVII, Part 1910, regulation 1910.7 and Appendix A, as published at 53 Fed. Reg. 12120 (April 12, 1988) and amended at 53 Fed. Reg. 16838 (May 11, 1988), 54 Fed. Reg. 24333 (June 7, 1989) and 65 Fed. Reg. 46818 (July 31, 2000) are adopted by reference.
[**ARC 8411C**, IAB 11/27/24, effective 11/6/24; Editorial change: IAC Supplement 7/9/25]

481—210.4(88) Adoption by reference. The rules beginning at 1910.20 and continuing through 1910, as adopted by the United States Secretary of Labor, shall be the rules for implementing Iowa Code chapter 88. This rule adopts the Federal Occupational Safety and Health Standards of 29 CFR, Chapter XVII, Part 1910, as published at 37 Fed. Reg. 22102 to 22324 (October 18, 1972) and as amended at:
37 Fed. Reg. 23719 (November 8, 1972)
37 Fed. Reg. 24749 (November 21, 1972)
38 Fed. Reg. 3599 (February 8, 1973)
38 Fed. Reg. 9079 (April 10, 1973)
38 Fed. Reg. 10932 (May 3, 1973)
38 Fed. Reg. 14373 (June 1, 1973)
38 Fed. Reg. 16223 (June 21, 1973)
38 Fed. Reg. 19030 (July 17, 1973)
38 Fed. Reg. 27048 (September 28, 1973)
38 Fed. Reg. 28035 (October 11, 1973)
38 Fed. Reg. 33397 (December 4, 1973)
39 Fed. Reg. 1437 (January 9, 1974)
39 Fed. Reg. 3760 (January 29, 1974)
39 Fed. Reg. 6110 (February 19, 1974)
39 Fed. Reg. 9958 (March 15, 1974)
39 Fed. Reg. 19468 (June 3, 1974)
39 Fed. Reg. 35896 (October 4, 1974)
39 Fed. Reg. 41846 (December 3, 1974)
39 Fed. Reg. 41848 (December 3, 1974)
40 Fed. Reg. 3982 (January 27, 1975)
40 Fed. Reg. 13439 (March 26, 1975)
40 Fed. Reg. 18446 (April 28, 1975)

40 Fed. Reg. 23072 (May 28, 1975)
40 Fed. Reg. 23743 (June 2, 1975)
40 Fed. Reg. 24522 (June 9, 1975)
40 Fed. Reg. 27369 (June 27, 1975)
40 Fed. Reg. 31598 (July 28, 1975)
41 Fed. Reg. 11504 (March 19, 1976)
41 Fed. Reg. 13352 (March 30, 1976)
41 Fed. Reg. 35184 (August 20, 1976)
41 Fed. Reg. 46784 (October 22, 1976)
41 Fed. Reg. 55703 (December 21, 1976)
42 Fed. Reg. 2956 (January 14, 1977)
42 Fed. Reg. 3304 (January 18, 1977)
42 Fed. Reg. 45544 (September 9, 1977)
42 Fed. Reg. 46540 (September 16, 1977)
42 Fed. Reg. 37668 (July 22, 1977)
43 Fed. Reg. 11527 (March 17, 1978)
43 Fed. Reg. 19624 (May 5, 1978)

CHAPTER 211
CONSTRUCTION SAFETY AND HEALTH RULES

[Prior to 9/24/86, Labor, Bureau of [530]]
[Prior to 10/7/98, see 347—Ch 26]
[Prior to 7/9/25, see Labor Services Division[875] Ch 26]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/15/30

481—211.1(88) Adoption by reference. Federal Safety and Health Regulations for Construction beginning at 29 CFR 1926.16 and continuing through 29 CFR, Chapter XVII, Part 1926, are hereby adopted by reference for implementation of Iowa Code chapter 88. These federal rules shall apply and be interpreted to apply to the Iowa Occupational Safety and Health Act, Iowa Code chapter 88, not the Contract Work Hours and Safety Standards Act, and shall apply and be interpreted to apply to enforcement by the Iowa labor commissioner, not the United States Secretary of Labor or the Federal Occupational Safety and Health Administration. The amendments to 29 CFR 1926 are adopted as published at:
38 Fed. Reg. 16856 (June 27, 1973)
38 Fed. Reg. 27594 (October 5, 1973)
38 Fed. Reg. 33397 (December 4, 1973)
39 Fed. Reg. 19470 (June 3, 1974)
39 Fed. Reg. 24361 (July 2, 1974)
40 Fed. Reg. 23072 (May 28, 1975)
41 Fed. Reg. 55703 (December 21, 1976)
42 Fed. Reg. 2956 (January 14, 1977)
42 Fed. Reg. 37668 (July 22, 1977)
43 Fed. Reg. 56894 (December 5, 1978)
45 Fed. Reg. 75626 (November 14, 1980)
51 Fed. Reg. 22733 (June 20, 1986)
51 Fed. Reg. 25318 (July 11, 1986)
52 Fed. Reg. 17753 (May 12, 1987)
52 Fed. Reg. 36381 (September 28, 1987)
52 Fed. Reg. 46291 (December 4, 1987)
53 Fed. Reg. 22643 (June 16, 1988)
53 Fed. Reg. 27346 (July 20, 1988)
53 Fed. Reg. 29139 (August 2, 1988)
53 Fed. Reg. 35627 (September 14, 1988)
53 Fed. Reg. 35953 (September 15, 1988)
53 Fed. Reg. 36009 (September 16, 1988)
53 Fed. Reg. 37080 (September 23, 1988)
54 Fed. Reg. 15405 (April 18, 1989)
54 Fed. Reg. 23850 (June 2, 1989)
54 Fed. Reg. 30705 (July 21, 1989)
54 Fed. Reg. 41088 (October 5, 1989)
54 Fed. Reg. 45894 (October 31, 1989)
54 Fed. Reg. 49279 (November 30, 1989)
54 Fed. Reg. 52024 (December 20, 1989)
54 Fed. Reg. 53055 (December 27, 1989)
55 Fed. Reg. 3732 (February 5, 1990)
55 Fed. Reg. 42328 (October 18, 1990)

80 Fed. Reg. 60039 (October 5, 2015)
81 Fed. Reg. 16092 (March 25, 2016)
81 Fed. Reg. 16875 (March 25, 2016)
83 Fed. Reg. 56244 (November 9, 2018)
84 Fed. Reg. 21574 (May 14, 2019)
85 Fed. Reg. 8735 (February 18, 2020)
85 Fed. Reg. 53997 (August 31, 2020)
85 Fed. Reg. 57122 (September 15, 2020)
89 Fed. Reg. 100321 (December 12, 2024)

This rule is intended to implement Iowa Code sections 84A.1, 84A.2, 88.2 and 88.5.

[**ARC 8433C**, IAB 12/11/24, effective 1/15/25; **ARC 9192C**, IAB 4/30/25, effective 4/15/25; Editorial change: IAC Supplement 7/9/25]

481—211.2(88) Beryllium exposure limits. The eight-hour time-weighted average permissible exposure limit for beryllium is 0.2 micrograms per cubic liter, and the short-term exposure limit for beryllium is 2.0 micrograms per cubic meter over a 15-minute sampling period.

This rule is intended to implement Iowa Code section 88.5.

CHAPTER 212
OCCUPATIONAL SAFETY AND HEALTH STANDARDS FOR AGRICULTURE

[Prior to 9/24/86, Labor, Bureau of[530]]
[Prior to 10/7/98, see 347—Ch 28]
[Prior to 7/9/25, see Labor Services Division[875] Ch 28]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/15/30

481—212.1(88) Adoption by reference. Rules 1928.1, 1928.21, 1928.51 through 1928.53 and 1928.57, as adopted by the United States Secretary of Labor, shall be rules for implementing Iowa Code chapter 88. This rule adopts the federal Occupational Safety and Health Standards for Agriculture, 29 CFR 1928 as published at 40 Fed. Reg. 18253-18268 (April 25, 1975) and as amended at:

41 Fed. Reg. 10190 (March 9, 1976)
41 Fed. Reg. 11022 (March 16, 1976)
41 Fed. Reg. 22268 (June 2, 1976)
41 Fed. Reg. 46598 (October 22, 1976)
42 Fed. Reg. 37668 (July 22, 1977)
42 Fed. Reg. 38569 (July 29, 1977)
43 Fed. Reg. 27463 (June 23, 1978)
43 Fed. Reg. 28474 (June 30, 1978)
43 Fed. Reg. 35036 (August 8, 1978)
46 Fed. Reg. 32022 (June 19, 1981)
52 Fed. Reg. 16095 (May 1, 1987)
58 Fed. Reg. 21778 (April 23, 1993)
59 Fed. Reg. 6170 (February 9, 1994)
59 Fed. Reg. 36699 (July 19, 1994)
59 Fed. Reg. 51748 (October 12, 1994)
61 Fed. Reg. 5510 (February 13, 1996)
61 Fed. Reg. 9255 (March 7, 1996)
70 Fed. Reg. 77003 (December 29, 2005)
76 Fed. Reg. 33606 (June 8, 2011)

These federal rules shall apply and be interpreted to apply to the Iowa occupational safety and health Act, Iowa Code chapter 88, and enforcement by the labor commissioner.

This rule is intended to implement Iowa Code sections 84A.1, 84A.2, 88.2 and 88.5.

CHAPTER 213
SANITATION AND SHELTER RULES FOR RAILROAD EMPLOYEES

[Prior to 9/24/86, Labor, Bureau of[530]]
[Prior to 6/22/94, see 347—Chapter 52]
[Prior to 10/21/98, see 347—Ch 29]
[Prior to 7/9/25, see Labor Services Division[875] Ch 29]

Chapter rescission date pursuant to Iowa Code section 17A.7: 1/15/30

481—213.1(88) Definitions. As used herein or in connection with these rules, the following terms mean:

213.1(1) *Bunk or section house.* Any building or portion thereof, excepting a family dwelling, in which persons employed by railroad companies are furnished sleeping or living accommodations.

213.1(2) *Caboose.* Any car or coach used on a train to carry the train crew.

213.1(3) *Camp car.* Any group of sleeping, dining, kitchen or recreation cars, on or off rail, furnished for the use of any one gang or group of employees.

213.1(4) *Company.* A common carrier railroad company as an employer.

213.1(5) *Employee.* Any person employed by a company to which these rules apply.

213.1(6) *Dressing room.* A room used by employees either as a dressing room, or as a restroom, or for both purposes.
